Subject: FY25 Vehicle Purchase *Amendment*

Vendor Name: MHQ

Munis Vendor Number: 3527

ITEM AND ISSUE:

The Santa Fe Police Department respectfully requests your review and approval of an additional \$6,078.68 to MHQ for the upfitting of Two Ford F150s (Animal Services Trucks). Bringing the total FY25 Vehicle Purchase Amount from \$1,707,653.26 to **\$1,713,731.94**.

BACKGROUND AND SUMMARY:

The initial request was approved at Governing Body on 12/11/2024 for the total amount of \$1,707,653.23. Staff later learned the equipment and installation for these two vehicles were not included in the initial request.

Paul Joye, Chief of Police 

From: Ben Valdez, Deputy Chief of Police 

Subject: FY25 Vehicle Purchase

Vendor Name(s): Don Chalmers Ford (1693), MHQ (3527), Code 3 Service (8602)

ITEM AND ISSUE: Request for the Approval of FY25 Police Vehicle Purchase Request. Total Amount is \$1,707,653.26 for the 26 vehicles to include equipment and labor costs associated with each vehicle. (Ben Valdez, Deputy Chief of Police, bpvaldez@santafenm.gov, 505-955-5040)

Action Requested: Police Vehicle Purchase

BACKGROUND AND SUMMARY:

As part of the annual fleet replacement, the Santa Fe Police Department is requesting the purchase of 26 vehicles, to include the purchase of the equipment and labor costs associated with each vehicle. The 26 police vehicles and associated equipment is imperative to maintain the operational capability of the Police Department. The following is the list of vehicles to be purchased.

VEHICLES	COSTS	ORG#	OBJ#
Ford Police Interceptor (8)	\$401,000.00	100/2230310	570950
Ford F150 (2)	\$88,420.00	2230310	570950
Ford Maverick (12)	\$387,210.00	2230310	570950
Ford Maverick (4)	\$121,152.40	2230310	570950
Total costs for 26 vehicles:	\$997,782.40		

EQUIPMENT	COSTS
➤ Vehicle emergency/safety equipment, emergency lights, radio speaker, etc.	\$542,707.75
➤ Radios	\$167,163.11

Total costs for equipment and installation: **\$709,870.86**

Grand total purchase cost: Vehicles, equipment and installation \$1,707,653.26

Ford Police Interceptor Utility EcoBoost

Eight Police Interceptor Utility vehicles will be purchased to replace the current Police Interceptor sedans that need replacement for the Patrol Section. The vehicles will be up fitted with the latest communication equipment including

police radios, mobile data terminals, and modems to work with our Dispatch Communications System, Records Management System and in car camera system.

The vehicle platform can accommodate varying sizes and compositions of officers while wearing protective and duty equipment. The ingress/egress for the vehicle does not require the officer to crouch down when entering the vehicle or to exit the vehicle from a crouched position. This can assist with minimizing issues with back pain, neck pain, and leg strain caused by entering/exiting the vehicle and minimizes lost time due to employee injuries. This remains a challenge with large statured officers who are issued a Police Interceptor sedan or a Ford Fusion sedan and often requires them being placed in an Interceptor Utility if available.

The vehicle also provides sufficient secured storage space to accommodate communications equipment, duty equipment while also making it readily available for deployment or service when needed. The vehicle platform is also able to safely operate within the manufacturers recommended payload capacity and gross vehicle weight rating (GVWR) without causing excessive brake, tire, and transmission wear when police vehicle equipment is installed, and duty equipment is loaded for duty use.

The vehicle comes standard as an all-wheel drive drivetrain providing improved handling stability and traction in all driving conditions. This is well suited for our community as we see all seasons. It is also the only vehicle, worldwide, that is engineered to meet the 75-mph rear-impact crash test that provides significant officer protection during a rear impact crash. Rear impact crashes are prone to occur while conducting traffic enforcement on roadways while a vehicle is parked on or alongside the roadway.

The Department was transitioning all Patrol and Administrative vehicles to a hybrid vehicle fleet as vehicles are identified for replacement. This is an effort to maximize the fuel savings for our Department, to lower the impact of emissions caused by our vehicles and maintain an operational fleet with emergency response capability that is suitable to stand up to the rigorous work environment for law enforcement vehicles.

Approval was granted to purchase a significant number of pursuit rated hybrid vehicles in FY22, but due to supply chain issues surrounding hybrid and electric vehicle manufacturing our order was delayed. In addition, the cost per vehicle increased significantly when the order was pushed to manufacturing year 2023. This caused the Department to change the hybrid vehicle engine to a fuel efficient EcoBoost engine, which is the next best option.

The supply chain challenges surrounding the hybrid platform remains. We will evaluate returning to transitioning hybrid vehicles once the supply chain is able to facilitate the timely manufacturing and delivery of the vehicles to avoid unexpected increases in purchase cost. Because of the need to replace the remaining aging vehicles in our fleet and the exhaustion of our reserve fleet, we need to quickly add as many vehicles to our fleet as possible until we can build up our reserve once more.

Ford F150 Truck

Two trucks will be purchased to replace the remaining two Animal Services trucks in need of replacement. The full-size truck platform is needed to accommodate the transport of impounded animals. A slide in kennel will be upfitted to the vehicle to facilitate safe transport. In addition, the vehicle must be capable of towing a horse trailer when needed to deploy for horses and livestock running at large.

The vehicle requires four-wheel drive capability to complete the above tasks in inclement weather and in areas where roads are not well maintained within our jurisdiction.

The vehicle will be up fitted with the latest communication equipment including police radio, mobile data terminal, and modem to work with our Dispatch Communications System and Records Management System.

We are evaluating transitioning to the F150 platform from the F250 platform for Animal Services due to cost increases on new model year trucks. If the F150 is successful, we will replace the existing F250s with F150s when the time comes for replacement in a few years.

Ford Maverick Trucks

Sixteen Ford Maverick Trucks will be purchased to replace twelve Public Safety Aide trucks and four Crime Scene Unit vehicles. The Mavericks will be equipped with the 2.0 liter EcoBoost engine with all-wheel drive providing improved handling stability and traction in all driving conditions. This is well suited for our community as we see all seasons.

This platform is being utilized by a neighboring law enforcement agency in the area and others around the country for use by safety aides and other support units. One of our determining factors was the cost of F150 trucks has nearly doubled since the prior Public Safety Aide vehicle purchase in 2020.

The Public Safety Aide Mavericks will also be equipped with a 4K towing package, to allow the towing of utility trailers, speed sign trailers and mobile video trailers. The truck bed will have a cover to secure traffic cones and other equipment used to support police operations.

The Crime Scene Mavericks will be equipped with a camper shell to allow transport of crime scene equipment and evidence items that need to be submitted.

The Maverick trucks will be up fitted with the latest communication equipment including police radio, mobile data terminal, and modem to work with our Dispatch Communications System and Records Management System.

The Maverick truck is offered in a hybrid platform, but the supply chain challenges concerning electric and hybrid vehicles also exists for this platform. In addition, the 4K towing package is not available on the hybrid platform.
