### Project Information

Project Name: Las Soleras Meridian Medical Center Subdivision

Address: 4000 & 4200 Beckner Road Parcel Size: 47.83 acres

Zoning: C-2 Future Land Use: Uses allowed in a C-2 District

Preapplication Conference Date: June 22, 2023

Detailed Project Description: Subdivision of Las Soleras Master Plan parcels 18B (18.01 acres) and 18A (29.82 acres) from two to six legal parcels per the attached site plan Exhibit.

### 18B 18.01 acres Property Owner Information

Name: Santa Fe Las Soleras Medical Development LLC ATTN: Mike Conn

Address: 500 YGNACIO VALLEY ROAD, SUITE 325, WALNUT CREEK, CA 94596

Phone: 925-302-1400 E-mail Address: mconn@mpcca.com

### 18A 29.82 acres Property Owner Information

Name: Las Soleras Center LLC and Las Soleras Village LLC ATTN: Gordon Skarsgard

Address: 8220 San Pedro NE Suite 120/ Albuquerque, NM 87113

Phone: 505-998-9091 E-mail Address: skip@ziarisingnm.com

### Applicant/Agent Information (if different from owner):

Name: Orion West, LLC, ATTN: Brian Nenninger

Address: 2213 Brother's Road, STE#800, Santa Fe, NM 87505

Phone: 832-338-0364 E-mail Address: brian.nenninger@orion-west.com

### Agent Authorization (if applicable):

I am/We are the owner(s) and record title holder(s) of the property located at: 4000 & 4200 Beckner Road

I/We authorize Orion West, LLC, Attn: Brian Nenninger to act as my/our agent to execute this application.

Signed: Mike Conn Date: 09/01/2023

**(d) RELATIONSHIP TO EXISTING DENSITY AND LAND USE WITHIN THE SURROUNDING AREA AND WITH LAND USES AND DENSITIES PROPOSED BY THE CITY GENERAL PLAN *For example: how are existing City Code requirements for annexation and rezoning, the Historic Districts, and the General Plan and other policies being met.***

The subdivision will not impact currently allowed density or land uses as the zoning remains unchanged and governed by the underlying C-2 general commercial district. All density and land use requirements enforced today will remain enforce upon the creation of the subdivision. In addition, there is a scale and usability advantage to the smaller developments this subdivision will facilitate. Building scale, elevations, and design will echo a modern southwestern desert theme with respect to massing, fenestration, materials, color, texture, shading devices, and lighting. Input from the surrounding community via the Development Plan application process and associated ENNs will be incorporated into each project as development occurs in the subdivision.

**(e) EFFECTS ON PARKING, TRAFFIC PATTERNS, CONGESTION, PEDESTRIAN SAFETY, IMPACTS OF THE PROJECT ON THE FLOW OF PEDESTRIAN OR VEHICULAR TRAFFIC AND PROVISION OF ACCESS FOR THE DISABLED, CHILDREN, LOW-INCOME AND ELDERLY TO SERVICES *For example: increased access to public transportation, alternate transportation modes, traffic mitigation, cumulative traffic impacts, pedestrian access to destinations and new or improved pedestrian trails.***

The smaller sites generated by the subdivision is within the baseline analysis for the Las Soleras Master Plan. The subdivision is expected to facilitate the Las Soleras Master Plan by further enhancing pedestrian amenities by expanding the pedestrian trail and sidewalk network envisioned by the Las Soleras Master Plan to enhance connectivity of the area. Street and drive capacity after the implementation of any infrastructure improvements associated with the subdivision is expected to be sufficient for future traffic generated by the development of subdivision parcels. Once the subdivision is created, future development may be subject to further traffic analysis in accordance with the City of Santa Fe's municipal code.

**(f) IMPACT ON THE ECONOMIC BASE OF SANTA FE *For example: availability of jobs to Santa Fe residents; market impacts on local businesses; and how the project supports economic development efforts to improve living standards of neighborhoods and their businesses.***

The parcels created by this subdivision are expected to expand on the spillover economic benefits to the community to be realized by the Meridian Medical Office Building. This is by virtue of the high earning employee base projected at occupancy. With respect to the medical office parcel, the number of employees (including physicians, nurses, consultants, contractors, administrative and janitorial) for the Meridian Office project are estimated to peak at 150 full time equivalents. The development of the medical office parcels will conservatively add another seventy-five full-time equivalents upon build out. The development of the four additional parcels will generate other benefits that include construction trade jobs, increased taxes, and development fees, all of which will confer direct and indirect economic benefit to Santa Fe residents. The project's employee base will stimulate the surrounding housing market as well, enhancing the resale value of the existing housing stock. The subdivision will be an important addition to the surrounding community in that it further contributes to the vision of the Las Soleras Master Plan as originally conceived.

**(g) EFFECT ON THE AVAILABILITY OF AFFORDABLE HOUSING AND AVAILABILITY OF HOUSING CHOICES FOR ALL SANTA FE RESIDENTS *For example: creation, retention, or improvement of affordable housing; how the project contributes to serving different ages, incomes, and family sizes; the creation or retention of affordable business space.***

The subdivision will generate a variety of uses and an employee mix that is not expected to materially impact the city's affordable housing stock. This said, any future residential development will comply with the City of Santa Fe's affordable housing ordinance.

**(h) EFFECT UPON PUBLIC SERVICES SUCH AS FIRE, POLICE PROTECTION, SCHOOL SERVICES AND OTHER PUBLIC SERVICES OR INFRASTRUCTURE ELEMENTS SUCH AS WATER, POWER, SEWER, COMMUNICATIONS, BUS SYSTEMS, COMMUTER OR OTHER SERVICES OR FACILITIES** *For example: whether or how the project maximizes the efficient use or improvement of existing infrastructure; and whether the project will contribute to the improvement of existing public infrastructure and services.*

The subdivision will be served by the existing water and sewer infrastructure built to accommodate the uses planned within the Las Soleras Master Plan, as well as the existing fire, police, and emergency services. The site is located on the Santa Fe Trails bus route system. A bus stop is currently within walking distance of the site. However, a new bus stop will be considered as part of this subdivision application.

**(i) IMPACTS UPON WATER SUPPLY, AVAILABILITY AND CONSERVATION METHODS** *For example: conservation and mitigation measures; efficient use of distribution lines and resources; effect of construction or use of the project on water quality and supplies.*

Development on the created parcels will implement water conservation measures as mandated by City of Santa Fe both domestic and landscape irrigation uses. New development within the subdivision will have to secure and deed water right to the City of Santa Fe as a credit to offset the new water use.

**(j) EFFECT ON THE OPPORTUNITIES FOR COMMUNITY INTEGRATION AND SOCIAL BALANCE THROUGH MIXED LAND USE, PEDESTRIAN ORIENTED DESIGN, AND LINKAGES AMONG NEIGHBORHOODS AND RECREATIONAL ACTIVITY AND EMPLOYMENT CENTERS** *For example: how the project improves opportunities for community integration and balance through mixed land uses, neighborhood centers and/or pedestrian-oriented design.*

The subdivision will bring commercial/business park uses that will enhance community integration by building out and implementing the vision of the Master Plan, which identifies commercial development for this land. The Master Plan, taken in its totality, provides an integration of residential and commercial land uses to best serve the community. The subdivision is anchored by the Meridian Medical Office project and will be a meaningful 'employment center' within Las Soleras and the Southside of Santa Fe.

**(k) EFFECT ON SANTA FE'S URBAN FORM; *For example: how are policies of the existing City General Plan being met? Does the project promote a compact urban form through appropriate infill development? Discuss the project's effect on intra-city travel and between employment and residential centers.***

As it facilitates commercial infill by smaller groups, the proposed subdivision enables the responsible build out of important components of the approved Las Soleras Master Plan. The proximity of the project to residential uses is a mutually symbiotic relationship, allowing employees to potentially live near work, creating important work-life linkages. The subdivision will offer Providers an opportunity to build advanced medical practices serving the greater Santa Fe community.

### **EARLY NEIGHBORHOOD NOTIFICATION MEETING**

October ??, 2023

**RE: DATE: November ??, 2023**

**Early Neighborhood Notification (“ENN”) Meeting: 4200 and 4000 Beckner Road, Santa Fe, NM 87507**

Dear Neighbor:

This letter is being sent as notice of a neighborhood meeting to discuss the proposed application to the City of Santa Fe (“City”) for approval to subdivide an 18.01-acre parcel known as parcel 18B and a 29.82-acre parcel known as 18A into six legal lots. The parcels are located within the Las Soleras Master Plan and will be home to the now under construction Meridian Office Building. The subject property is located at 4000 and 4200 Beckner Road and is zoned General Commercial (“C-2”). Please refer to the enclosed Vicinity Map and Subdivision Site Plan.

The application to be submitted to the City of Santa Fe will request approval of a “serial subdivision” which will create six successive lots from existing Las Soleras parcels 18B and 18A. Beyond the subdivision, no new Development Plan or related project approvals are being requested with this application.

In accordance with the City’s Early Neighborhood Notification requirements, this is to inform you that an ENN meeting is scheduled for:

**Topic:** Serial Subdivision of Las Soleras parcels 18B and 18A (4200 and 4000 Beckner Road).

**When:** November ??, 2023, 5:30 PM Mountain Time

**Where:** <https://santafe.primegov.com/public/portal>

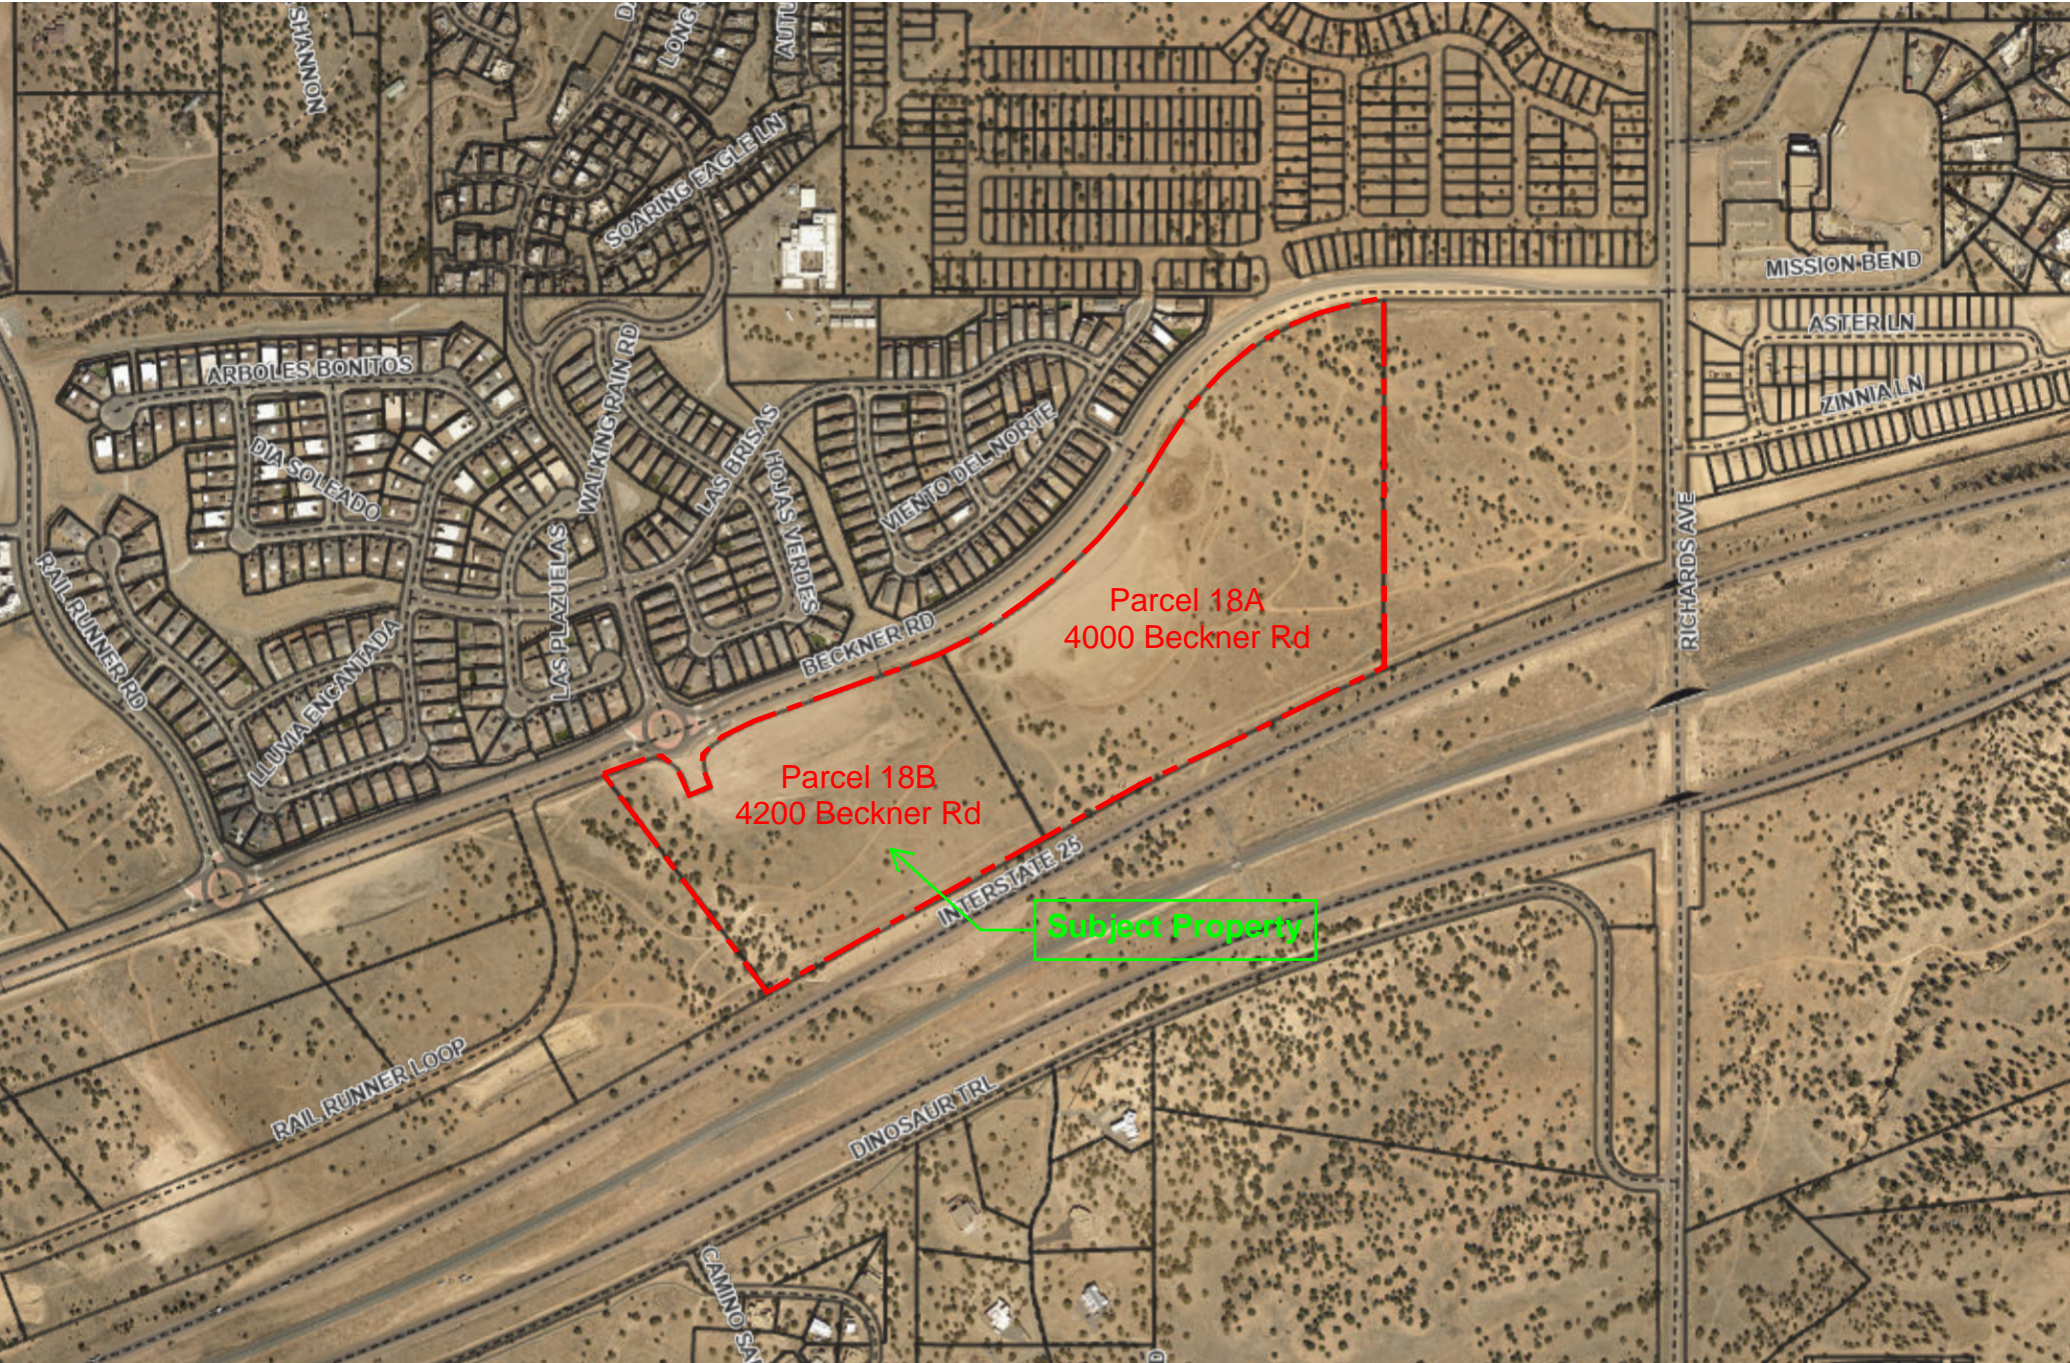

Early Neighborhood Notification is intended to provide for an exchange of information between prospective applicants for development projects and the project's neighbors before plans become too firm to respond meaningfully to community input. Enclosed, please find a vicinity map and proposed site plan as well as the responses to the ENN criteria. If you have any questions or comments, please contact me.

Persons with disabilities in need of special accommodations, are hearing impaired, or need an interpreter, please contact the Land Use Department, Geraldine Gurule, Project Administrator, at (505) 955-6820 or email at: [gagurule@santafenm.gov](mailto:gagurule@santafenm.gov) five (5) days prior to the meeting date.

Regards,

Brian Nenninger, P.E.
