*Cannot Decrease under $480.00

Justification:

The Day Reporting program needs a year to plan and get technological aspects in place. In the meantime, the City of Santa Fe and CYFD have agreed to fulfill the mentoring/tutoring part of day reporting. Since the day reporting line item cannot be used during the first year of the grant, we request that the funds be moved into line items where services can be enhanced by the additional funding. The Intensive Community Monitoring program can use additional funds to provide another 228 hours of case management. By moving the remaining day reporting funds, $42,600, into mentoring/tutoring we can provide services to more students as identified in the proposed scope of work.

Additionally, we were unable to find an organization to take on the Strengthening Families Program. The plan is to explore other options for this funding for the second and third years of the grant, but we request that the funds from Strengthening Families be moved into the Restorative Justice circles and reentry conference line items to expand those services for FY25.
