Subject: Street Outreach Services Contract

Vendor Name: Urban Alchemy

Munis Vendor Number: 9716

ITEM AND ISSUE:

Community Health and Safety Department Respectfully Requests your Review and Approval of a Service Contract with Urban Alchemy in the Total Amount of \$ 7,948,133.59 for Street Outreach and Community-Based Public Safety Services for a Term of 4 years. (Henri Hammond-Paul, Director, Community Health and Safety; hmhammondpaul@santafenm.gov)

CONTRACT NUMBER:

The FY25 Munis contract number is [3250602](#).

BACKGROUND AND SUMMARY:

Over the past 10 years, the City of Santa Fe has experienced a significant increase in calls for service, including emergency medical response, law enforcement activity, and community complaints related to public safety and sanitation. These challenges include reports of drug use, aggressive behavior, unsanitary conditions, and visible mental health crises. The high concentration of vulnerable individuals in both the Cerillos Corridor and the Downtown areas—many of whom are unsheltered and face complex behavioral health needs—has strained both emergency services and neighborhood relationships.

To address these concerns, the City is launching a community-based public safety initiative that prioritizes proactive engagement, harm reduction, and service connection. Rather than relying solely on traditional law enforcement responses, this approach aims to build trust, reduce conflict, and create safer conditions for both unhoused individuals and surrounding residents and businesses.

The selected Contractor will provide a consistent presence in affected areas, using de-escalation techniques, supportive engagement, and coordination with housing, behavioral health, and outreach services. The goal is to reduce risk, improve safety outcomes, and support long-term stabilization for individuals and the broader community.

I. INTRODUCTION

A. PURPOSE OF THIS RFP

The purpose of the RFP is to solicit sealed proposals to establish a contract through competitive negotiations for the procurement of street outreach services to address public safety concerns, build community relationships, and provide unhoused individuals with access to supportive services in safe locations.

B. BACKGROUND INFORMATION

Santa Fe, like many communities across the country, is grappling with an escalating public health crisis at the intersection of opioid misuse, untreated mental illness, and homelessness. The rise in fentanyl-related overdoses has placed immense pressure on emergency responders, hospitals, and public services. At the same time, a shortage of behavioral health resources has left many residents without access to necessary care, further compounding the crisis. These issues are exacerbated by the region's housing affordability challenges, which continue to push vulnerable individuals into homelessness. The result is a growing strain on city infrastructure, from emergency departments and law enforcement to local businesses and public spaces.

The need for targeted, coordinated interventions has never been greater. Without expanded outreach services, individuals in crisis will continue to cycle through emergency rooms, jails, and temporary shelters without long-term solutions. The absence of early intervention mechanisms not only places lives at risk but also increases financial and social burdens on the community. By investing in proactive and responsive service delivery, Santa Fe can reduce the harms associated with opioid use and mental health crises while improving public safety and overall community well-being.

C. SCOPE OF PROCUREMENT

The City of Santa Fe seeks proposals from qualified service providers to deliver **street outreach services** in two key areas but could expand to include more areas in the city:

1. **Cerrillos Corridor**
2. **Downtown Santa Fe**

The city is seeking a four-year contract with an estimated \$1.5-2M/year. This initiative aims to address public safety concerns, build community relationships, and provide unhoused individuals with access to supportive services in safe locations. The selected provider will implement community-based public safety practices that foster positive outcomes for individuals and the broader community.

Goals and Objectives:

- Engage with unhoused individuals through **street outreach** to build trust and connect them with resources and services.
- Enhance public safety by intervening in non-emergency situations related to homelessness, mental health, and addiction.
- Provide **safe spaces** within the Cerrillos Corridor, Downtown area and any other area(s) as determined by the city for individuals to access day services.

- Activate public spaces to foster positive community interactions and improve perceptions of safety.

Key Service Areas:

1. Street Outreach:

- Deploy outreach teams in the **Cerrillos Corridor, Downtown Santa Fe and any other area(s) as determined by the city.**
- Engage unhoused individuals with a compassionate, non-policing approach.
- Build relationships to reduce isolation, loneliness, and distress among vulnerable populations.
- Provide referrals and connections to housing, medical care, substance use treatment, mental health services, and other community resources.

2. Safe Spaces and Day Services:

- Establish or manage **designated safe spaces** in both the Cerrillos Corridor and Downtown areas and any other area(s) as determined by the city.
- Provide day services such as:
 - Access to basic needs (e.g., hygiene facilities, climate stations, and food/water).
 - A welcoming environment for both housed and unhoused community members to foster inclusivity.

3. Community-Based Public Safety:

- Activate public spaces through positive engagements that encourage safe behaviors.
- Train outreach workers to de-escalate conflicts and address safety concerns with professionalism and empathy.
- Foster collaboration between outreach teams, local law enforcement, and emergency services to ensure coordinated responses.
- Collect data on outreach activities and outcomes to inform ongoing service improvements and impact evaluation.

Deliverables:

- **Staffing:**
 - Provide outreach workers for each service area (Cerrillos Corridor, Downtown and any other area(s) as determined by the city).
 - Ensure staff are trained in street psychology, trauma-informed care, conflict de-escalation, and community resource navigation.
- **Implementation:**
 - Define outreach schedules and coverage areas.
 - Establish safe spaces with access to day services in both areas.
- **Reporting:**
 - Submit regular updates on outreach activities, challenges, and outcomes.
 - Provide data on the number of individuals served, types of services provided, and any measurable impacts on public safety.
 - A detailed budget for outreach operations and the establishment/management of safe spaces.
 - A timeline for implementation and ongoing service delivery.

- **Collaboration:**

- Work closely with city departments, local service providers, and law enforcement to coordinate responses and services.
- Participate in city-led meetings or planning sessions as needed.

The resulting contract may be a multiple award.

This procurement will result in a Citywide Price Agreement/Contract that may be utilized by all agencies, commissions, institutions, political subdivisions, and local bodies, etc. allowed by law.

All coordination and planning with the City should be completed prior to the Clarification Phase Summary Presentation meeting on the Sequence of Events.

10. Best and Final Offers

This RFP process will allow for Best and Final Offers (BAFO) from finalist Offerors. Specifically, Offerors should provide their strongest possible pricing in initial proposals, as we expect competitive submissions upfront. However, we reserve the right to re-open negotiation by requesting BAFO under the schedule outlined in the Sequence of Events, or on an accelerated timeline from finalists. The purpose would be to elicit revised pricing or other updated proposal elements that facilitate selection of the optimal offer. Finalist Offerors may also amend or clarify their proposal during the Clarification Meeting.

11. Governing Body Approval

A. DESCRIPTION OF EVALUATION

To ensure that a proposal is complete and addresses all key RFP issues, proposals should adhere to the following format. Proposals shall be organized into the following sections, in the order listed, and inclusive of all requested information:

- a) **Proposal Cover Page, Declaration, and Checklist:** Offerors will prepare and submit the Proposal Cover Page, Declaration, and Checklist (Attachment A).
- b) **Key Offeror Project Lead.** Using Attachment E, complete the Key Personnel Lead Proposal Form. The Offeror shall provide the name of the Primary Project Lead (the personnel should be the person who will

be interviewed if shortlisted) that the offeror proposes to execute the project pursuant to a resultant contract.

- c) **Project Cost Proposal Form.** The offeror will prepare and submit a cost proposal and breakout (see Attachment F). Attachment F should be submitted in a separate electronic document from the rest of the proposal. The rest of the proposal shall not include any financial information in regard to the overall project. Any financial information associated with a Value Add (Attachment G2) can be included in that section and will be seen by the Evaluation Committee.
- d) **Project Capability (PC) Submittal.** The Project Capability Submittal has two components: Scope/Level of Expertise Plan (SC/LE), and Value-Added Plan (VA). (See Attachments G, G1 and G2).
- i. Purpose of PC Submittal
- i. Assist City in prioritizing Offerors' submittals based on their scope, expertise, and ability to understand and deliver the intended project.
 - ii. Provide high performing offerors the opportunity to differentiate themselves from their competitors due to their experience and expertise by using verifiable performance metrics and previous relative project performance results.
- ii. PC Submittal Format Requirements
- i. PC submittal should NOT contain any names that can be used to identify who the offerors are (such as firm names, personnel names, Project names, or product names).
 - ii. A PC proposal template is included in this RFP. This document should be used by all offerors. Offerors are NOT allowed to re-create, re-format, or modify the template in any manner. Offerors should type their responses on the Word template provided.
 - iii. Failure to comply with any of the PC format requirements may result in disqualification.
 - iv. The PC submittal shall not contain any marketing information. The submittal should be used to prove to the City that the offeror has expertise for the specific project being proposed on.
 - v. References used in the PC submittal should be listed in the Attachment H Reference List. The Reference List is not seen by the Evaluation Committee until after PC submittal evaluations are performed.
- iii. Overview of the Scope/Level of Expertise Plan - The Scope/Level of Expertise Plan is to allow offerors to differentiate themselves based on their technical capability and understanding of the City's specific needs. It should summarize the metrics that show the offeror can accomplish the subject project with the Scope defined by past experiences on similar projects. Offerors should identify scope claims based on their expertise and experience supported by verifiable performance metrics that show the capability to this specific project environment and requirement. All cost associated with technical capabilities listed in the SC/LE plan should be included in the proposed base project cost (see Attachments F and G1).
- iv. Overview of the Value-Added Section - The purpose of the Value-Added Plan is to provide offerors with an opportunity to identify any value-added options or ideas that may benefit the City at a change in cost or revenue. These options or ideas may also be referred to as additional or optional services. Where applicable, the offeror should identify: 1) what the City may have excluded or omitted from its scope; and 2) how these options or ideas have been successful through verifiable

performance information of previous projects. The offeror should list the cost and time impact of its options or ideas. All cost and revenue impacts associated with these Value-Added options (Attachment G2) should NOT be included in the proposed base Cost (see Attachment F).

- v. **Reference List** - There will be a designated area on both the Scope/Level of Expertise Plan and Value-Added Plan where performance claims are supported by an indicated reference. As the PC submittals are anonymous, the reference will be indicated only by a reference number which corresponds to the matching number on the Reference List (Attachment H).
- e) Interviews - Offerors may be required to participate in an interview to evaluate expertise. If interviews are not conducted, each offeror will receive maximum points in this category. This is not a presentation. The Evaluation Committee will interview the Key Personnel Lead on the Interview date specified in the Project Procurement Schedule. The individual is required to be in person for the interview. A second individual may be present (standby) to clarify Pricing Proposal if requested.
- f) Local Preferences

Purpose:

The City of Santa Fe recognizes the economic value of supporting local businesses. Local preferences are intended to enhance the competitiveness of local businesses in the procurement process, in alignment with the City’s Procurement Manual and applicable ordinances. These preferences are applied to promote local economic growth while adhering to the governing laws and regulations.

Usage:

Local preferences are applied in the evaluation of proposals received in response to the City’s Requests for Proposals (RFPs). These preferences are granted to businesses that meet specific qualifications, as outlined below, and can only be applied to procurements funded by the City. They are not applicable to purchases using state, federal, or grant funds.

Application:

1. Local Preference Qualification

- o To qualify, an Offeror should attach a Resident Business certification issued by the New Mexico Taxation and Revenue Department to their proposal. This certificate should verify that the business is located within Santa Fe municipal limits.
- o Proposals without a valid certification will not be eligible for local preference consideration.

2. Evaluation in the Formal RFP Process

- o **Point-Based System:**
 - Local resident businesses are awarded additional points equivalent to 3% of the total possible points.
 - Businesses with all local resident business subcontractors receive an additional 3% of the total possible points.
 - Maximum local preference: 6%.

3. Solicitations Above \$1,000,000

- o Proposals from resident businesses are deemed 6% lower than their submitted bid, provided at least 50% of subcontracted services are performed by resident businesses.
- o Proposals from non-local resident businesses are deemed 3% lower, provided at least 50% of subcontracted services are performed by resident businesses.

4. Restrictions

- o Local preferences are not applicable when federal funds are part of the expenditure or anticipated to be used for the contract.

- o If multiple preference certificates are submitted by a vendor, only one preference will be applied per solicitation, as determined by the City.
Additional Information: Applications for Resident Business certification can be downloaded at: <http://www.tax.newmexico.gov/Businesses/in-state-veteran-preference-certification.aspx>.

B. PROJECT REVENUE CONTROLS OF THE BEST VALUE APPROACH (BVA)

There are two revenue controls in the BVA including:

- a) **Best Value Check:** After the prioritization of offerors, if the best value Offeror(s) is within 15% of the next best value cost proposal, the best value Offeror(s) will be prioritized first. If not within the range, the best value Offeror(s) will attempt to justify why they should be awarded the contract. If the justification is clear to the Evaluation Committee, they will move into the clarification period.
- b) **Selection Check:** Before the contract is awarded, an evaluation committee report should be given for the best value Offeror(s). If the justification is not sufficient, the award may go to the next best value who has met all the requirements of the BV approach. The Selection Check will provide the justification for hiring the highest prioritized Offeror(s). Selected proposal should be a proposal that is responsive, responsible, and is the most advantageous to City, as determined by the City in its sole discretion.

C. CLARIFICATION

The potential best value Offerors may be required to complete the Clarification Phase as outlined in the Clarification Phase Guide (Attachment I). The intent of this phase is to allow the Offerors an opportunity to clarify their proposal, address any issues or risks, any concerns to be resolved, develop a Weekly Risk Report (Attachment J), and prepare a presentation for the Clarification Meeting.

D. AWARD

The City will notify each offeror in writing of the City's decision.

- a) The City reserves the right to reject any or all proposals and to award more than one offeror and to a offeror other than the lowest-priced offeror. The decision of the RFP awards by the City is final.
- b) The City at its sole discretion may decide to take no procurement action as a result of the RFP and/or may re-issue all or portions of the RFP.
- c) The City reserves the right to accept or reject without consideration proposals that do not address the full requirements of the RFP or that do not reach the designated address and contact before the proposal due date and time identified.

The final awards is/are dependent upon the Offeror's Scope of Work (SOW) being acceptable to the City. Proposals and contents provided by the Offeror will be considered contractual obligations. Any new or unique requirements included in the proposal can be added or amended, at the City's sole option, to the final contract. Obligations of confidentiality will be an important condition of resulting contracts. The selected Offeror and all employees performing duties on this project will be required to keep all aspects of this project in confidence unless otherwise allowed by the City.

All Offeror's performance will be tracked by the Department POC through the Weekly Risk Report System (See Attachment J).

ATTACHMENT I – CLARIFICATION PHASE GUIDE

1. OVERVIEW

- a. The Clarification Phase is not a negotiation phase. Offerors will not be permitted to modify their cost/fee/financial rates, project durations, or project team unless the City requests changes. The Clarification Phase is started by the notification of the Prioritized highest scoring Best Value Offerors and ended by the final presentation to the City after all issues have been addressed. If the City is not satisfied during the Clarification Phase, or upon completion of the First Clarification Meeting and Clarification Summary Meetings, the City may consider another Offer for potential award (this Offeror would also have to participate in a Clarification Phase). If the Offeror provides all required documents and meets the requirements of the city with the potential Best-Value Offeror, The City may proceed with awards.
- b. The Clarification Phase is carried out prior to the signing of the contract. The City's objective is to have the products/services maximized without any Offeror price increases, and with high customer satisfaction. At the end of the contract period, the City will evaluate the performance of the Offeror based on these factors, so it is very important that the Offeror pre-plans the project and utilizes the Weekly Risk Report to mitigate risk.
- c. It is the Offeror's responsibility to ensure they understand the scope of their product/service offering and to clearly identify what they are delivering. It is the Offeror's responsibility to manage and mitigate the risk of their offering. It is the City's responsibility to ensure that it conveys any potential concerns and issues before the contract is signed.
- d. The Clarification Phase provides the Offeror with an opportunity to identify their scope with a detailed specification and a simplified list of their tasks and financial streams. The City has the right to accept or reject this proposal. The City also has the right to identify its perceived risks, concerns, and issues which it will require the Offeror to mitigate and manage. The major deliverables in the Offeror's scope of services in the Clarification Phase include:
 - i. Proposed detailed plan from beginning to end.
 - ii. Integrated cost/time schedule that the BV Offeror will use to track cost/time deviations.
 - iii. Simplified milestone schedule that non-technical stakeholders can follow to track deviations.
 - iv. A Cost Proposal presented in two ways: milestone schedule and major areas.
 - v. If any risk is identified, the Offeror should ensure that meeting minutes identify that the Offeror has a mitigation plan for the perceived risk to their proposed plan.
 - vi. A Weekly Risk Reporting System (WRRS, Attachment F), which will track the implementation or delivery of the service. The service should never be executed without a Purchase Order (PO) and the WRR. The Offeror will be responsible for using the WRR to track the performance of the project, update the WRR, and send all stakeholders a copy of the WRR on a weekly basis. The WRR shall include updated: 1) cost and schedule status, 2) milestone schedule status, 3) project cost and time deviations, 4) risk mitigation and other performance metrics.

2. PRE-PLANNING AND COORDINATION

- a. Offerors may be required to provide the City with supporting documentation for any information listed in their submittals before entering the Clarification Phase.
- b. The City requires that the Offeror attend a First Clarification Meeting to present its proposal and to identify additional issues or concerns that the City may have. It is also an opportunity to meet all

participants who may be a stakeholder in the project. The Offeror is required to perform the following functions as part of, or in preparation for, this Meeting:

- vii. Ensure that the City has invited all its stakeholders and participants to the meeting (including the City, sub-Offerors, designer / AE, interested parties, etc.).
- viii. Present the scope of services (schedule, cost, deliverables, etc.).
- ix. Identify the City's responsibilities.
- x. Propose the Weekly Risk Report (WRR) format.
- xi. Field questions and concerns from City stakeholders.
- xii. Listen to concerns, issues, and comments from the City stakeholders.
- xiii. Propose a schedule to finalize the Clarification Phase and the contract documents.
- c. Once the First Clarification Meeting is held, and if the City is comfortable with the Offer, the Clarification Phase begins. The Offeror may be required to complete the following:
 - i. Revisit the site/buildings/campus to do any additional investigating.
 - ii. Coordinate with all parties that will be involved with the delivery of products/services.
 - iii. Resolve concerns and issues with mitigating actions. Prepare to summarize resolutions in the final Clarification Phase Summary Presentation meeting.
 - iv. Finalize the Clarification Document (contract, WRR, payment schedule, scope of work).

3. CLARIFICATION DOCUMENT

The final Clarification Document will include the following:

- a. Executive Summary - high level summary of scope documents that clearly addresses what is in scope [being delivered] and what is out of scope for the project.
- b. Finalized scope documents which include details on how the tasks will be completed.
- c. Description of the end deliverable in terms of simplified metrics.
- d. Detailed scope descriptions— A specific breakout of every action required for the Offeror to perform the work. Including all activities required by the Offeror, City and stakeholders to perform the work, inclusive of a detailed schedule and milestone schedule.
- e. Weekly Risk Report format (WRR)
- f. Project financial summary.
 - i. The Offeror's Original Price Proposal.
 - ii. A list of agreed/accepted Value-Added Options (with impact to price)
 - iii. A list of agreed upon Scope Changes or Additional Work with impact to price.
 - iv. A Price Breakout and Payment Schedule.
- g. Project and emergency contact list.
- h. PowerPoint presentation that describes the scope of the project in terms of cost, time, deliverables and how the deliverables acceptance will be decided.

4. FINAL CLARIFICATION MEETING

- a. The Final Clarification Meeting is held at the end of the Clarification Phase and is used to present a summary of what was developed and agreed upon during the Clarification Phase. The final Clarification meeting is not a question-and-answer session. The Offeror and City stakeholders should not wait for the meeting to ask questions. All coordination and planning with the City should be completed prior to the Clarification Phase Summary Presentation meeting on the RFP Procurement schedule.
- b. The Offeror should give a presentation, which walks the City through the entire contract period and summarizes all the coordination and planning done during the Clarification Phase. The Offeror should bring its team, and all the documents specified in the Clarification Document. The Offeror should come

with documents explaining what the City is responsible for during the contract period. The Offeror should convince the City that they have minimized or mitigated all risks and will not be surprised once the service/production begins. The Clarification meeting presentation (and meeting minutes, if applicable) will become part of the contract along with the other documents from the Clarification Phase.

ATTACHMENT J – WEEKLY RISK REPORTING SYSTEM GUIDE

Overview

The City may choose to use the Weekly Risk Reporting System (WRRS). The Weekly Risk Reporting System (WRRS) is a companion to the Quality Control Plan that is created by the best value Offeror during the Clarification Phase. The report serves as a tool for the City in analyzing the performance of the Project based on risk. The WRRS does not substitute or eliminate weekly progress reports or any other traditional reporting systems (that the Offeror may do).

The purpose of the WRRS is to allow the Offeror to document and manage all risks that occur throughout a project. Risk is defined as anything that might impact the project scope, cost, and schedule. This includes risks that are caused by the Offeror (or entities subcontracted by the Offeror), and risks that are caused by City (scope changes, unforeseen conditions, etc.). The City's Project Manager may also require the Offeror to document risks that may impact the City satisfaction.

Submission

The weekly report is an Excel file that should be submitted every week. The report is due every week once the Contract Award is issued, until the Project is 100% complete (and final payment is made). The Excel spreadsheet will be available from the City upon request.

The completed report should be saved using the date and name of the Project given by the City (Format: YYMMDD_Project Name; For example, 'HCM Project' for the week ending Friday, Oct 7, 2021, should be labeled '211007_HCM Project'). Weekly Reports are to be emailed by Monday.

The weekly risk report consists of reporting the project performance metrics, cost, scope changes or unforeseen events that are risks to the project in terms of scope and cost deviations, or City satisfaction including any risks that could potentially develop into an issue. When a new risk is identified, it is added to the weekly risk mitigation log.

When a risk has become an issue and causes deviation to project cost, time or quality, it is added to a project deviations log, along with the following: Identification date (date the issue was identified), plan to resolve issue, resolution due date, impact to critical path or schedule (in days), and impact to final cost (in dollars).

As deviations arise that warrant attention, the Offeror should not wait to submit the weekly risk report. The Offeror should contact the City if there are any risks or potential risks identified that are or could be rated at a high level. When a risk is eliminated or the issue is resolved, the actual date of elimination or resolution should be listed.

The City will analyze the reports for accuracy and timeliness. The reports will be used in part by the City to determine the overall final performance rating of the Offeror (and its team).
