Subject: RTA Fleet Management Software for City of Santa Fe

Vendor Name: Ron Turley Associates Inc

Munis Vendor Number: 10932

ITEM AND ISSUE:

Request for Approval of a Five (5) Year Agreement to Support an Enterprise-Wide Approach to Fleet Management Solutions with Ron Turley Associates Inc in the Total Amount of \$901.820.13. (Eric Candelaria, ITT Department Director; edcandelaria@santafenm.gov)

CONTRACT NUMBER:

The FY25 Munis contract number is 3250606.

BACKGROUND AND SUMMARY:

The need for a comprehensive Fleet Management software arose when multiple fleet departments independently requested different software solutions tailored to their specific operational needs. Historically, each of the seven departments managed their fleet-related documents and data within our legacy system, Enterprise 1 (E1). However, as E1 aged and became increasingly inefficient for modern fleet operations, departments began to abandon it in favor of manual, paper-based processes.

This transition to pen and paper introduced several inefficiencies, including difficulties in tracking vehicle maintenance, compliance issues, data loss risks, and overall operational slowdowns. Without a centralized, digital solution, departments struggled with inconsistencies, redundant data entry, and a lack of real-time insights into fleet performance and asset utilization.

Recognizing these challenges, leadership saw an opportunity to consolidate the needs of all fleet departments into a single, modernized Fleet Management software. This new solution would streamline workflows, ensure data accuracy, and improve accessibility across departments while eliminating the inefficiencies of both the outdated legacy system and the manual tracking methods.

- D. The City’s Rights.
1. Applicable. The Parties agree that this is an agreement pertaining only to professional services and receiving the prior written approval of the City’s project manager or designated representative (“Representative”). An amendment to this Contract is not required if a change in a Deliverable due date does not extend the overall term of this Contract.
 2. Protection of Proprietary Rights. - B. Payment. The total compensation hereunder will not exceed nine hundred one thousand, eight hundred twenty dollars and thirteen cents (**\$901.820.13**) including New Mexico gross receipts tax. This amount is the maximum total amount; it is not a guarantee that the work to be performed by Contractor, and the total of the corresponding payments that the City pays to Contractor, will equal the maximum total amount. However, the Parties do not intend for Contractor to continue to deliver the Deliverables without compensation once the total compensation amount has been reached. Therefore, Contractor must notify the City before the price of a Deliverable reaches the compensation amount for that Deliverable stated in the SOW. In no event will the City pay Contractor for any Deliverables in an amount that exceeds the maximum total amount without this Contract being amended in writing prior to Contractor's continued delivery of the Deliverables.

The City will pay Contractor upon the City's Acceptance of each Deliverable according to Article 4, below, and upon the receipt and Acceptance of Contractor's detailed and certified Payment Invoice(s). The City will forward its payments to Contractor's designated mailing address, stated in Article 28, below. In accordance with NMSA 1978, Section 13-1-158, the City will tender payment to Contractor within thirty (30) days of the date of the City's written certification of Acceptance. All Payment Invoices MUST BE received by the City no later than fifteen (15) days after the termination of this Contract. Contractor's Payment Invoices received by the City later than fifteen (15) days after the termination of this Contract WILL NOT BE PAID.

Contractor and its subcontractors, if any, will pay all Federal, State and local income and other taxes and government fees applicable to its operation(s) as well as the taxes and fees associated with Contractor's employment of its Employees. Contractor will require its subcontractors, if any, to hold the City harmless from any responsibility for taxes, damages, fees and interest, if applicable, as well as all contributions required under Federal and/or state and local laws and regulations, including any other costs, transaction privilege taxes, unemployment compensation insurance, Social Security and Worker's Compensation.

- D. Retainage. Not Applicable. The Parties agree there is no retainage.

E. Performance Bond.

Not Applicable. The Parties agree there is no Performance Bond.

ARTICLE 4 – ACCEPTANCE

A. Submission of Payment Invoice. Upon completion and delivery of each Deliverable, Contractor will submit an invoice for payment (“Payment Invoice”) with the Deliverable, or a description of the Deliverable, to Representative. Each Payment Invoice will be submitted for the full Deliverable price stated in Paragraph 4. C., below, or a portion of the full Deliverable price, pursuant to the Scope of Work, Exhibit A.

B. Acceptance. In accord with NMSA 1978, Section 13-1-158; Representative will determine if the Deliverable provided by Contractor meets the City’s specifications. No payment will be made by the City for a Deliverable until Representative delivers a written acceptance of the Deliverable to Contractor on the City’s behalf. To accept the Deliverable, Representative will assess the Quality Assurance level of the Deliverable and determine, at a minimum, that Deliverable:

1. Complies with the requirements stated in the Scope of Work, Exhibit A, attached hereto; and
2. Fully complies with the terms of this Contract.

If a Deliverable is accepted by the City, Representative will notify Contractor of the City’s acceptance, in writing, within fifteen (15) business days from the date Representative receives the Deliverable. The City will then pay Contractor’s submitted invoice according to the State of New Mexico procurement rules.

C. Rejection. Unless Representative gives written notice to Contractor of the City’s rejection within the fifteen (15) day business day acceptance period, the Deliverable will be deemed to have been accepted. If the Deliverable is deemed by Representative to be rejected according to the City’s quality assurance requirements (“Quality Assurance”), fifteen (15) days from the date Representative receives the Deliverable(s) and Contractor’s accompanying Payment Invoice, Representative will send a consolidated set of comments indicating issues, unacceptable items, and/or requested revisions accompanying the rejection. Upon rejection and receipt of Representative’s comments, Contractor will have ten (10) business days to resubmit the Deliverable to Representative with all appropriate corrections or modifications made and/or addressed. Representative will then determine whether the Deliverable is acceptable and provide a written determination to Contractor as soon as possible, but within no more than fifteen (15) business days of Representative’s receipt of the revised or amended Deliverable. If the Deliverable is still deemed unacceptable and is thus rejected, Contractor will be required to provide a remediation plan that will include a timeline concerning Contractor’s proposed corrective measures to Representative. Contractor will also be subject to any and all damages and remedies attributable to the late delivery of the Deliverable under the terms of this Contract and that may be available to the City at law or equity.

1. Compensation Schedule

- A. The City will pay Contractor the price of the Deliverable stated in the Scope of Work, Exhibit A; and **excluding** gross receipts tax.
- B. The City will pay Contractor upon receipt of Contractor's Payment Invoice, together with a detailed statement of account concerning the Deliverable and any additional expenses incurred hereunder, and as previously agreed by the Parties in writing. All invoices **MUST BE** received by the City no later than fifteen (15) days after the termination of this Contract. Invoices received by the City after the termination date **WILL NOT BE PAID**.
- C. The total compensation under this Contract will not exceed nine hundred one thousand, eight hundred twenty dollars and thirteen cents (**\$901,820.13**) including New Mexico gross receipts tax, consistent with paragraph 2A, above, and paragraph 3B, below.

2. Taxes

- A. Contractor is solely responsible to pay all taxes that accrue for any monies that Contractor receives from the City pursuant to this Contract.
- B. The New Mexico gross receipts tax levied on the amounts payable under this Contract **will** be paid by the City to Contractor.

3. Term

This Contract shall not become effective until it is fully executed and approved by the City. Unless earlier terminated in accordance with Paragraph 5 (Termination), the term of this Contract shall be five (5) years from the date of final signature. The City may extend the term of this Contract if RTA's Sourcewell Master Agreement is extended beyond the initial five-year term; however, in total, the City's Contract may not exceed the total number of years that the Sourcewell Master Agreement remains in effect, as allowed by NMSA 1978, Section 13-1-150.

4. Termination

- A. General. This Contract may be terminated by either of the Parties upon written notice delivered to the other Party at least ten (10) days prior to the intended date of termination.
- B. Appropriations. By the City, if required by changes in State or Federal law, or because of Court order, or because of insufficient appropriations made available by the United States Congress and/or the New Mexico Legislature for the performance of this Contract. The City's determination concerning whether sufficient appropriations are currently available will be accepted by Contractor and the City's determination will be final. If the City terminates this Contract pursuant to this subsection B, the City will use its best efforts to provide Contractor written notice of such termination at least thirty (30) business days prior to the effective date of the termination.
- C. Notice; City's Opportunity to Cure.

1. Except as otherwise provided in Paragraph 4.C.3, below, the City will give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.
2. Contractor will give the City written notice of termination at least thirty (30) days prior to Contractor's intended date of termination, which notice will (i) identify all of the City's material breaches of this Contract upon which Contractor's termination is based and (ii) state the specific measures the City must perform to cure such material breaches. Contractor's notice of termination will only be effective (i) if the City fails to cure all material breaches within the thirty (30) day notice period, or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify Contractor of its intent to cure and begin its due diligence to cure the material breach.
3. Notwithstanding the foregoing, the City may terminate this Contract immediately upon written notice to Contractor (i) if Contractor becomes unable to deliver the Deliverables, as determined by Representative; (ii) if, during the term of this Contract, Contractor is suspended or debarred by the State Purchasing Agent; or (iii) the Contract is terminated pursuant to Paragraph 4.B, above.

D. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination will be to pay Contractor for accepted Deliverables delivered prior to Contractor's receipt or issuance of a notice of termination; provided however, that a notice of termination will not nullify or otherwise affect either Party's liability for pre-termination defaults under, or breaches of, this Contract. Contractor will submit an invoice for all Deliverables and Contractor's other services performed, if any, prior to the termination of this Contract within thirty (30) days of receiving or sending the notice of termination. THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE STATE OF NEW MEXICO'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.

5. Status of Contractor

Contractor and its officers, agents, employees, servants or subcontractors ("Agents") are independent contractors performing professional services for the City and are not employees of the State of New Mexico. Contractor and its Agents will not accrue leave, retirement, insurance, bonding, use of state vehicles, or any other benefits afforded to employees of the State of New Mexico because of the Contract. Contractor acknowledges that all sums received hereunder are personally reportable by Contractor for income tax purposes as self-employment or business income and are reportable for self-employment tax purposes.

6. Assignment

Contractor will not assign or transfer any interest, obligation or right in this Contract or assign any claims for money due or to become due under this Contract without receiving the City's prior written approval.

7. Subcontracting

Contractor will not subcontract any portion of the Deliverables or other services to be performed under this Contract without the City's prior written approval.

8. Records and Audit

For a period of three years following the termination of this Contract, Contractor will maintain detailed time records, which indicate the date, time and nature of the Deliverables and other services provided to the City. These records will be subject to inspection by the City and the New Mexico State Auditor. The City will have a right to audit Contractor's billings both before and after payment; any payment to Contractor under this Contract will not act to foreclose the right of the City to recover excessive and/or illegal payments made to Contractor.

9. Release

Contractor's acceptance of final payment of the amount due from the City under this Contract will operate as a release of the City, its officers and employees, and the State of New Mexico from all liabilities, claims and obligations whatsoever arising from or under this Contract. Contractor agrees not to purport to bind the State of New Mexico unless Contractor has express written authority to do so, and then only within the strict limits of that authority.

10. Confidentiality

Contractor will keep confidential all confidential information provided by the City or developed by the City and/or Contractor during Contractor's performance of this Contract ("Confidential Information") and Contractor will not provide Confidential Information to any third party absent the City's prior written approval.

Nothing developed, produced or acquired, in whole or in part, by Contractor under this Contract that constitutes Contractor's pre-existing intellectual property, proprietary software, or general product improvements will be the subject of an application for copyright, patent application or any other claim of ownership by or on Contractor's behalf. In the event Contractor develops, produces or acquires any intellectual property, related to the custom work done under this Contract, such as copyright(s), invention(s) or other patentable information or material(s), Contractor will, within ten (10) Business Days, execute or will cause to have executed all written assignments and other document(s) necessary to ensure that ownership of any custom deliverable vests solely in the City. Contractor will take no affirmative action(s) that might have the effect of vesting all or any portion of such custom deliverables in any person or entity other than the City. The SaaS platform remains the exclusive property of the Contractor, and no ownership rights in the underlying software, source code, or architecture are transferred to the City.

12. Conflict of Interest

Contractor warrants that it presently has no interest and will not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract. 14. Merger

This Contract incorporates all the covenants and understandings made by and between the Parties concerning the subject matter hereof, and all such covenants, agreements and understandings have been merged into this Contract. No prior agreement or understanding, oral or otherwise, made by the Parties or their agents will be valid or enforceable unless embodied in this Contract.

This Contract is issued against the Sourcewell Cooperative Contract Master Agreement 102924-RTA established and maintained by Sourcewell, and through this language hereby incorporates this Contract by reference and is included in the order of precedence.

15. Notice

16. Equal Opportunity Compliance

Contractor agrees to abide by all federal, state, and local laws, rules and regulations, and executive orders of the Governor of the State of New Mexico, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, Contractor agrees to assure that no person in the United States will, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is determined by the City to be out of compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate measures to correct these deficiencies.

17. Invalid Term or Condition

If any term or condition of this Contract will be held invalid or unenforceable, the remainder of this Contract will not be affected and will be valid and enforceable.

18. Enforcement of Agreement/Contract

A Party's failure to require the strict performance of any provision of this Contract will not waive or diminish that Party's right thereafter to demand strict compliance with that or any other provision. No waiver by a Party of any of its rights under this Contract will be effective unless expressed and in writing, and no waiver by a Party of any of its rights will be effective so as to waive any of that Party's other rights herein.

By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over all lawsuits arising under or out of any term of this Contract.

20. Indemnification

Contractor will defend, indemnify and hold harmless the City and its employees from all proceedings, third-party claims, demands, lawsuits, judgments, settlements, losses, liabilities, deficiencies, and expenses of any nature, (including reasonable attorneys' fees) to the extent resulting from, or arising out of Contractor's performance of this Contract, including, but not limited to, any actual or alleged: (i) negligent acts or omissions to the extent attributable to Contractor; (ii) any breach of a third party's intellectual property rights allegedly to the extent caused by Contractor and/or, for additional clarity, any claim that intellectual property rights furnished by Contractor infringes on the intellectual property rights of any third party Contractor specifically disclaims any duties or obligation to defend, indemnify, or pay for any losses, liabilities, claims, deficiencies, and expenses of any nature (including attorneys' fees) incurred by the City to the extent arising out of the City's or any City employee's own negligence (including passive or active), nonfeasance, or malfeasance or other breach arising out of this Agreement. 11	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested Solutions.	Our mission at RTA is clear – we help fleets succeed! That's what we have been successfully doing for over 45 years. How do we do this? By empowering our clients with the necessary tools and resources to achieve their goals. As experienced fleet professionals, we have built robust technology solutions and provide expert fleet advisory services to help our clients make their fleet operations safer and more efficient. RTA began serving fleets in 1979, but the company's true beginning occurred years earlier when Ron Turley was a young father looking to make a difference after his time in the Korean War. Ron started as a driver for UPS in 1961 and within five years, he had worked his way up to become the Automotive and Building Maintenance Manager in the new Georgia District. While there, he ran the best-performing district throughout the entire company, with the fewest road calls and lowest cost of all UPS fleet management districts in the U.S. In 1973, after many promotions and reassignments, Ron was given responsibility for the maintenance of all UPS vehicles in the U.S., Canada, and Germany – more than 48,000 in all. Over the next five years, Ron led UPS in saving over \$100 million in shop operating costs, allowing UPS mechanics to take care of nearly 80 percent more vehicles per labor-hour than they had been doing previously. He continued to institute time standards and innovative cost-saving measures throughout the company's maintenance operations until 1978. Quite by accident, RTA was born. Ron built a reputation at UPS for efficiency and cost savings. Because of this, he received many requests from fleet managers that needed help improving their operations. Through these engagements and the realization of the importance of data, RTA's fleet management platform was established. Fast-forward 45 years and thousands of clients later, RTA is in its third generation of family ownership, led by Ron's grandson Josh and Josh's wife Anjuli, and is the premier FMIS for successful fleets. With our constant drive for innovation and dedication to best practices, we strive to revolutionize the fleet industry. RTA's cloud-based SaaS model continues to break the mold by not only evolving with technological advancements but also with ease of use and providing stakeholder resources and five-star support. It is really that simple. Everything this company has ever stood for or done has been centered around the fleets that keep the world moving. We help the people at these organizations keep their fleets operational, efficient, and safe, and it's ultimately why RTA exists. We give them clarity, confidence, and peace of mind in the middle of what is a very chaotic job, and when we do that well, we help them save time, decrease cost, and make our roadways safer.

12	What are your company's expectations in the event of an award?	In the event of an award, RTA anticipates continuing its successful partnership with Sourcewell to streamline and simplify the procurement process for potential fleet management information system (FMIS) customers. Over the past four years, we have effectively leveraged the current Sourcewell cooperative purchasing contract to help government and education prospects bypass the lengthy and complex RFP process, allowing them to procure our solutions directly through the Sourcewell agreement. This approach has helped reduce implementation timelines, enabling our customers to realize operational savings and improve fleet performance more quickly. RTA is eager to build on the successes of the past four years by: Supporting FMIS Prospects: We expect to continue using the Sourcewell contract to assist fleet management information system prospects in expediting their procurement efforts, allowing for faster deployment of fleet management solutions. It has been our experience that using the Sourcewell cooperative agreement can reduce procurement and contracting time for a large complex fleet management information system from as much as 24 months, to as little as 2 or 3 months. Sharing this information with prospects is an integral part of our sales approach and is communicated to each one of our potential customers during our marketing and sales process. Enhancing Awareness of Sourcewell: We are committed to further promoting the benefits of the Sourcewell program to entities that may not yet be aware of its offerings. By increasing exposure to both RTA and Sourcewell, we aim to expand the program's reach and demonstrate its value to new potential customers. RTA regularly attends and participates in many of the fleet industry trade shows, conferences, and educational outreach events each year. We are regular speakers and presenters providing fleet expertise to fleet professionals across all industries. At each event we proudly display the Sourcewell logo and ensure that prospective customers are aware of this efficient procurement solution. Strengthening Our Partnership with Sourcewell: RTA is eager to continue our close collaboration with Sourcewell, working together to grow the program and enhance the cooperative purchasing experience for fleet managers nationwide. Ultimately, RTA expects this continued partnership to drive increased efficiencies for both organizations, help more fleets improve their operations, and ensure that we can continue delivering value to our customers through this streamlined procurement channel.	*

42	Describe any technological advances that your proposed Solutions offer.	RTA's proposed solution leverages several cutting-edge technologies to enhance performance, accessibility, and functionality: Cloud-Based SaaS Solution: Our system operates as a Software as a Service (SaaS), providing secure, web-based access from anywhere. This ensures high availability, scalability, and reduced infrastructure management, all powered by Amazon Web Services (AWS) for reliable cloud computing. Cross-Platform Browser Support: RTA supports all major web browsers, including Google Chrome, Microsoft Edge, Firefox, and Safari, offering flexibility and ease of use for your team, regardless of their preferred platform. Advanced Mobile Functionality: The RTA Mobile App and eDVIR app provide robust functionality for both Android and iOS devices, available for download from Google Play and the Apple App Store. These apps empower field technicians with features like mobile dashboards, kiosk mode, part reordering, paperless shop operations, driver reports, inspections, work orders, and barcode scanning, improving operational efficiency from any location. AI Integration for Fleet Management: Our solution incorporates AI technology through our AI Fleetbot feature within Fleet360, which serves as a smart assistant for users. This feature allows for quick responses to common inquiries, providing an enhanced customer support experience and helping users navigate the system more efficiently. Fleet Management Consulting: Unlike any other fleet management system provider, RTA has a fully staffed and functioning Fleet Consulting Group that not only provides traditional fleet management consulting services to our clients, but also provides support to our clients during system implementation and ongoing support. Our consulting group boasts more than 300 combined years of actual hands-on fleet experience along with professional fleet management consulting experience. Together, these consultants have helped close to 500 fleet organizations across North America. By incorporating these technological advances, RTA offers a future-ready, accessible, and scalable fleet management solution designed to meet the evolving needs of the industry.
43	Describe any "green" initiatives that relate to your company or to your Solutions, and include a list of the certifying agency for each.	While we do not hold any official certifications, RTA contributes to green initiatives by incorporating various environmentally friendly features and practices into its fleet management solution, helping organizations reduce their carbon footprint and promote sustainability. Here are some key ways RTA supports green initiatives: Paperless Shop: RTA's Paperless Shop feature eliminates the need for physical paperwork in maintenance operations. By transitioning to digital work orders, inspection reports, and part management, organizations can significantly reduce their paper usage. All documentation, including work orders, inspections, and parts reordering, can be managed through our mobile apps or desktop platform, contributing to eco-friendly operations. Since 2017, when Josh Turley became CEO, our clients have saved over 11,000 trees by using RTA as opposed to paper-based systems. Our Paperless Shop module alone has saved an estimated 9,700 trees in that time frame. Efficient Fleet Management: By optimizing fleet performance, RTA helps organizations reduce fuel consumption and lower emissions. Features like real-time vehicle tracking, preventive maintenance scheduling, and fuel tracking allow fleet managers to maintain vehicles more efficiently, reducing idle time, improving fuel economy, and minimizing environmental impact. Mobile Access: The RTA Mobile App and eDVIR app provide fleet teams with tools for inspections, work orders, and reporting in a fully digital format. This mobile access reduces the need for printed materials and streamlines operations, supporting a more sustainable, paper-free workflow. Cloud-Based Solution: RTA's cloud-hosted SaaS solution reduces the need for energy-intensive on-premise hardware. By utilizing energy-efficient cloud infrastructure provided by AWS, RTA helps minimize the carbon footprint associated with running servers and other IT equipment in-house. Fleet Consulting Services for Sustainability: RTA's Fleet Consulting team regularly conducts Electric Vehicle (EV), Zero-Emission Vehicle (ZEV), and Low-Emission Vehicle Transition Studies to help fleets transition to cleaner, more sustainable operations. These studies provide tailored recommendations for integrating electric and low-emission vehicles into existing fleets, allowing organizations to reduce emissions and align with environmental regulations and sustainability objectives. Additionally, we offer Fleet Right-Sizing Studies to optimize fleet size, ensuring that fleets operate efficiently with the appropriate number of vehicles. This process not only reduces fuel consumption but also lowers the overall carbon footprint of the fleet by eliminating unnecessary vehicles and improving utilization. Through these initiatives, RTA helps public sector fleets reduce emissions, operate more sustainably, and meet their environmental goals. Our fleet management technologies and consulting services work together to support a more eco-conscious, efficient future for fleets.

RTA's SOC 2 certification is in progress, and we expect to be certified in early 2025. RTA ensures that all systems and applications are scanned for vulnerabilities and that any detected vulnerabilities are remediated prior to new releases. To ensure the highest levels of security within our system, we have currently implemented policies and procedures regarding how security risks are mitigated until patches can be applied. Our team remains dedicated to maintaining the confidentiality of all Institutional data, ensuring that only authorized personnel have access to sensitive information. The system also supports the attachment of relevant files, photos, and documents, which can be crucial for insurance claims and internal reviews. Our latest update also allows you to create and manage customized accident/incident forms including required fields, attachments, and more. RTA's accident management feature integrates seamlessly with the rest of the fleet management system, ensuring that all data related to an accident is stored in one place and easily accessible. This centralized approach helps in generating accurate reports, tracking trends, and analyzing accident data to identify potential areas for improvement. The system also provides customizable forms and reporting tools to meet specific organizational needs, making it a versatile solution for managing the complexities of fleet-related incidents.	*

RTA accepts the P-card procurement and payment process. There are no additional costs or fees to Sourcewell participating entities for using this process.	*
62	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	RTA provides tiered FMIS pricing based on asset count and services based on hourly rates. We will provide line-item discounts based on the attached pricing proposal.	*

65	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "non-contracted items". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	RTA will supply a quote for any sourced, open market, or non-contracted items at the time of any such request, including our proposed 5% discount off of MSRP on hardware and an 8% discount on software and services MSRP for Sourcewell participating entities. This process ensures transparency and compliance with the agreement.	*
71	If you are awarded an agreement, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the agreement.	RTA will continue to use, develop, refine, and monitor internal metrics to measure the number and dollar figures of Sourcewell-related deals that are closing, sales closed compared to years past, number leads that are Sourcewell-driven leads or that purchased off the Sourcewell contract, and more.	*
