SCHEDULE 2: SERVICES ON-DEMAND PARKING SERVICES

ParkMobile offers a service to ParkMobile Users that facilitates the activation of and payment for on-demand parking using the ParkMobile Application ("On-Demand Parking").

ParkMobile Users may begin and, if applicable, end a parking transaction in a variety of ways: (1) visiting <https://app.parkmobile.io>; (2) calling ParkMobile's IVR System, or (3) using the ParkMobile Application. In order to register with ParkMobile and begin a parking session, a consumer simply provide ParkMobile with the information required by ParkMobile to create an account, including payment method information and license plate number. Thereafter, subsequent parking sessions only require the ParkMobile User to enter or select the applicable parking duration available for the applicable location.

The parking zone code of the Client parking areas are indicated on parking signs or on parking meters. Enforcers of the Client check the validity of parking status real time against the Platform via a web service offering, provided as part of the Services, to determine if a valid parking right exists. This information can be accessed by using a handheld terminal, mobile device or personal digital assistant (PDA).

ParkMobile does not provide or pay for Client's use of handheld terminals, mobile devices or PDAs for enforcement or any data plans or other items needed for communication between such items and the Services.

At their option, ParkMobile Users will receive parking alert services from ParkMobile via SMS, ParkMobile Application push notification or email. The ParkMobile User may be notified, for example, when parked for an extended period of time or when the maximum parking time nears expiration.

ParkMobile Users can use On-Demand Parking anywhere the Services are available.

All parking charges are automatically charged to the ParkMobile User's payment method, and ParkMobile Users have real time access to an online account-based personal page accessible from <https://app.parkmobile.io> to access and print parking history, receipts, and statements.

RESERVATION PARKING SERVICES

ParkMobile offers a service to ParkMobile Users that facilitates the activation of and payment for reservation parking using the ParkMobile Application ("Reservation Parking").

For each Parking Location that the parties agree to on-board for Reservation Parking Services, ParkMobile shall make the Parking Location's parking inventory available for sale through the ParkMobile Application and shall market and advertise such availability. The number of parking spaces and corresponding reservation periods and parking rates making up the parking inventory shall be specified by Client and may be altered by Client at any time for parking inventory not reserved by a consumer.

Responsibilities of Client

In order for ParkMobile to provide Reservation Parking Services, Client shall maintain an agreed upon number of parking spaces or transportation services at the Parking Location which shall be maintained at all times unless ParkMobile is notified otherwise in writing by Client.

If access to the Parking Location is denied for any reason other than a ParkMobile User's error or failure to abide by Client's rules and regulations, Client agrees to forfeit its share of the applicable parking fee and authorizes ParkMobile to refund the entire Parking Fee to the ParkMobile User. If access to the Parking Location is denied because of a ParkMobile User's error or failure to abide by Client's rules and regulations, no Parking Fees will be refunded to the ParkMobile User.

Client shall promote and market the Services through mutually agreed upon methods which shall include:

- a persistent, prominent “call to action” link/button on the parking and/or transportation pages of the Parking Location website(s) that directs users to the Client-branded website created by ParkMobile (e.g. a “Reserve Parking Now” button);
- Embedded content on the parking and/or transportation pages of the Parking Location website(s) describing why and how to reserve parking through ParkMobile (e.g. FAQs, videos, etc.), such content to be provided by ParkMobile; and
- mentions in emails promoting the Parking Location, including “know before you go” emails, all of which shall include a “call to action” to reserve event parking and link to the Client-branded website created by ParkMobile.

Client agrees to use commercially reasonable efforts to obtain for ParkMobile a license to use photo and video assets of the Parking Location (where Client is not the Parking Location owner) and any tenants of a Parking Location in connection with ParkMobile’s marketing of the Services as available at such Parking Location.

RE: ParkMobile Sole Source Letter

To Whom It May Concern:

This letter is to confirm that ParkMobile's registered trademark signage is a sole source product, and the manufacturing and distribution of such is made exclusively by ParkMobile. No other entity has the express legal permission to create such signage or print materials with ParkMobile's registered trademark without written consent. This product must be purchased directly through ParkMobile's selected manufacturing vendor. There are no agents or dealers authorized to represent this product.

ParkMobile signage is essential for resident and visitor awareness of a mobile payment parking solution in the municipalities in which it is offered. The signs reflect the assigned zone numbers that customers will use to pay for their parking via ParkMobile's application, interactive voice response (IVR) phone number, or through ParkMobile's website (parkmobile.io). By offering ParkMobile's services, our clients provide their residents and visitors a smarter way to pay for parking, eliminating the need for cash/coins, and allowing the customer to choose a contactless option that will provide additional features for the best parking experience.

Please feel free to contact me if you have any questions or need any additional information. Thank you for your interest in ParkMobile.

Sincerely,

Danielle Kaplan

Subject: RE: Written Determination - ParkMobile LLC

Greetings,

The scope of work as written would be General Services. This determination relates only to that question and is no comment on whether the scope of work or procurement method meet all legal standards. I reserve the right to change this determination if the scope of work differs from the scope of work submitted for the original determination. This procurement must be conducted using the processes and procedures set forth by the City of Santa Fe, Central Purchasing, the Procurement Manual, and state statutes.

Please note:

- Save this email as a PDF and upload it into the corresponding Munis records.
- Check with WorkQuest dba Horizons of New Mexico (vendor # 8673) (mloehman@horizonsofnewmexico.org) if this service appears on their approved list.
- If your request includes anything that needs to be reviewed and preapproved by another City Department/Division, please send the same SOW to the corresponding email address and include their response in your packet/Munis.

- If you are processing a procurement where the forecasted amount is => \$60k, per NMSA 1978, Section 13-1-102, the procurement method must be ITB (if you choose not to use a cooperative or an existing contract). If you feel you need to process an RFP, you must get an Authorization and Plan approved before you process.
- < \$20k per year, one quote is acceptable.

- From \$20k to \$60k per year, if you aren't using a cooperative or existing contract, you'll need to provide 3 quotes in your req. Must use the Munis Bid Module after 12/21/2023.
- Please keep this as part of the procurement file for future reference.
- Figure out your funding source and **inform Purchasing**. To ensure that the proper documents and language are used, it is important to identify the funding source for the subsequent contract. For instance, if federal funds are involved, the procurement request and subsequent contract must include the necessary federal language. Therefore, it is crucial to determine the funding source beforehand.
