

Date: August 6, 2025
To: Buckman Direct Diversion Board
From: Danny Carter, Chemist
Via: Bradley Prada, BDD Facilities Manager
Subject: Eurofins Environment Testing Southwest, LLC

Item:

Request for approval of purchase from Eurofins Environment Testing South, LLC for laboratory analytical services for the fiscal year 2026 in the total amount of \$94,322.55.

Background:

Under Statewide Price Agreement 40-66700-24-2773, services for surface water analyses will be procured for fiscal year 2026. The amount is based on the estimated funding needed for the BDD Intake Sampling Program as described in the MOU between DOE EM-LA and the BDD Board. Pursuant to the MOU, DOE EM-LA is expected to reimburse the BDD for up to \$96,000.00 annually for the costs of the BDD Intake Sampling Program. This purchase order will not include the ordinary treated drinking water and special waste analyses provided by Eurofins Environment Testing South, LLC which will be provided for in a separate purchase order. Eurofins Environment Testing South, LLC will provide the following sample services:

- Conduct analytical testing of water and provide results
- Meet the minimum requirement for laboratory reporting and electronic data deliverables
- Meet the U.S. Environmental Protection Agency and New Mexico Environment Department compliance requirements.
- Apply U.S. Environmental Protection Agency and New Mexico Environment Department approved analytical methods
- Meet U.S. Environmental Protection Agency and New Mexico Environment Department approved QAQC requirements

Action Required:

Staff recommends approval of purchase from Eurofins Environment Testing South, LLC. Funding is available in the approved fiscal year 2026 operating budget.
