Dear Travis:

I point to the scope of work:

The Contractor shall perform On-Call Equipment Replacement, **Repair**, and **Installation** services to **provide miscellaneous repairs, upgrades, improvements, replacements, new construction services** and materials for facilities and processes throughout the Paseo Real Wastewater Reclamation Facility, the Sanitary Sewer Collection System, and other remote locations.

The Division shall provide, at a minimum, a detailed scope of work and/or drawings, generally **defining the construction work** required for the project. The Contractor shall be responsible for verifications of all existing conditions, measurements, and dimensions for completing the work.

Contractors shall have the technical staff to perform diagnostic services and provide the correct agencies

[REDACTED]

with professionally prepared, stamped drawings in order to obtain installation or construction permits when needed. The Contractor is responsible for obtaining all required licenses, fees and permits required to perform the work. Contractor shall be responsible for any applicable Local, County, State and Federal requirements and permits including, but not limited to, the City of Santa Fe's Stormwater Pollution Prevention Program and Stormwater Best Management Practices.

Further, the definition of construction is quite broad in the procurement code:

A. "Construction" means building, altering, repairing, installing or demolishing in the ordinary course of business any:

...

(6) sewage or water treatment facility, power generating plant, pump station, natural gas compressing station or similar facility;

(7) sewage, water, gas or other pipeline;

...

(10) water, oil or other storage tank;

...

(12) electrical wiring, plumbing or plumbing fixture, gas piping, gas appliances or water conditioners;

NMSA 1978, sec. 13-1-40.

The services in the scope of work clearly fall into the definition of construction under the code.

Hey Travis,

One more thing to look at when you have a chance! This is the contract that will go with the On-Call Equipment replacement, repair and installation, it was originally determined to be General Services but Marcos is strongly leaning towards this being a construction contract. Can you review?

Thanks,

Denise,

We do need Travis to look at this again for the determination. Marcos is still questioning the classification of "construction" (see his comments). Is there anyone who makes determinations while Travis is out? Or we may want to wait for him to return. Unless you heard back from him before he left last week.

Let's stay in touch and sorry I don't have a definitive answer.

Thanks!

Good afternoon Amy,

I have attached the ITB contract for On-call equipment replacements with answers/comments from the department.

About it being a construction contract, the department has specified that this contract is to buy and install the equipment so there are construction components but it is not solely for construction. Travis has not commented on it in Teams yet.

Thanks,

Morning Denise!

In beginning the review of this ITB, I noticed the SOW includes much more than the scope of work.

Can you remove all of the details in the SOW that aren't actually part of it. For example, compensation, term, insurance requirements as all of these are already in the body of the template. If there are details in each of those paragraphs that the department wants to edit from the template, please make the redlines in the actual paragraphs, not in the SOW.

Also, all of the ITB language that talks about the bidder, etc, should not also be in the SOW.

Please update and reply here with an updated version of the ITB with the directives above in mind.

Thank you much,
Amy
