At completion of the Work, the Contractor shall remove the Project waste materials, rubbish, the Contractor's tools, construction equipment, machinery and surplus materials and shall then thoroughly clean the premises and the site to the Division's satisfaction.

Materials shall not be delivered to the site before they are needed.

D. Storage of materials and construction equipment shall be coordinated with the Division.

**Task Order:**

The Contractor shall be required to provide On-Call Construction Services for any number of the activities listed under Scope of Work upon the request of the Division. When a service is identified, the Division shall provide, at a minimum, a detailed scope of work and/or drawings defining work required. Each project will be individually described in a "Task Order". The Task Order will describe the scope of work, the duration of the project with the date of Substantial Completion and if there are liquidated damages for not meeting the date of substantial completion. The date of Substantial Completion is the date when the space can be occupied or the Work used/operated and is turned over to the User Agency. Final completion is the date when the project is totally complete, the punch list work complete and the Contractor's final pay application/invoice is approved. The terms and conditions of the Contractor's Price Agreement will apply to all Task Orders.

Upon receiving the City's Task Order, the Contractor shall promptly visit the site and compare the Division's scope of work and/or drawings to the existing conditions and provide all services called for in addition to the requirements set forth in this Price Agreement. The Contractor will be required to provide a written quote (based upon the rates submitted in the Bid Form) sub-contractors list (including subcontractor's CID licenses) and cost summary to include the work to be performed, sub-contractors cost and the amount of time required for the completion of the project and submit to the Division at no cost to the Division. Project schedules, negotiated price, and completion dates shall be determined on a project-by-project basis and dependent upon the urgency of that task.

If any equipment or system cannot be economically repaired or has reached the end of its life cycle, the Contractor shall justify with costs and other information they need for replacement. If replacement is recommended, the Contractor will provide written justification for system and/or the model, size, and type of unit recommended along with any applicable efficiency data. The Division's standards will be discussed and taken into consideration when proposing replacement units or systems. Any replacement unit shall be reviewed and approved by the requesting entity.

**Change Orders:**

Any change orders to the project scope will require an additional Task Order with backup materials and labor costs and shall be substantiated that there was no way of knowing the additional services were needed when the original quote was provided. Change orders shall be managed closely by the Division. Preventative measures shall be taken by both the contractor and the Division prior to issuing the Notice to Proceed. Such measures may include soil tests (soil boring); clarification of ambiguity in the project plan, the scope of work, the Task Order, the drawings, etc.; the project scope should be completely defined and agreed upon before any work begins.

**Other Construction Related Terms and Conditions:**

**Mediation:**

Any controversy or claim arising between the parties shall be settled by mediation if the parties cannot reach a mutually agreeable solution. The parties shall endeavor to resolve their disagreement by mediation which, unless the parties mutually agree otherwise, shall be in accordance with the procedures of the New Mexico Public Works Mediation Act (NMSA §13-4C-1 et seq.) except that before any party may select a mediator it must confer in good faith with the other party concerning the selection of a mutually acceptable mediator. Mediation shall proceed in advance of legal or equitable proceedings, which shall be stayed pending mediation for a period of sixty (60) days from the date of notice of mediation session, unless stayed for a longer period by agreement of the parties or court order.

**Inspection of Work:**

If a Purchase Order is issued for the purchase of services, the following terms shall apply when applicable:

- A. Services include services performed, workmanship, and material furnished or utilized in the performance of services.
- B. The Contractor shall provide and maintain an inspection system acceptable to the Division covering the services under the Purchase Order. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the Division during the term of performance of the Work and for as long thereafter as required.
- C. The Division has the right to inspect and test all services contemplated to the extent practicable at all times and places during the term of the Project. The Division shall perform inspections and tests in a manner that will not unduly delay or interfere with the Contractor's performance.
- D. If the Division performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in Purchase Order price, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.
- E. If any part of the services does not conform with the requirements, the Division may require the Contractor to re-perform the services in conformity with the requirements at no increase in Purchase Order amount. When the defects in services cannot be corrected by re-performance, the Division may:
  - (1) require the Contractor to take necessary action(s) to ensure that future performance conforms to the requirements; and
  - (2) reduce the Purchase Order price to reflect the reduced value of the services performed.
- F. If the Contractor fails to promptly re-perform the services or to take the necessary action(s) to ensure future performance in conformity with the requirements, the Division may:
  - (1) by Agreement or otherwise, perform the services and charge to the Contractor any cost incurred by the Division that is directly related to the performance of such service; or
  - (2) cancel the Purchase Order for default.

**THE PROVISIONS OF THIS ARTICLE ARE NOT EXCLUSIVE AND DO NOT WAIVE THE REQUESTING ENTITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THE PURCHASE ORDER/PRICE AGREEMENT.**

**Suspension, Delay or Interruption of Work:**

The Division may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the Work in whole or in part for such period as the Division may determine. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized.

If at any time there is a delay in the critical path of the Work due to postponement, due to the Contractor's efforts to justify an extension of the time or an increase in the Agreement Price beyond the deadlines or due to the Contractor's refusal to proceed with any of the approved Work, such delay and any Contractor costs resulting from it shall not serve as the basis for the extension of the Time for Completion or Agreement Completion Date or for an increase in the Contract Price.

**Permits and Fees:**

- A. IF APPLICABLE- The Contractor shall secure and pay for the Building Permit and other permits and governmental fees, licenses and inspections and Certificate of Occupancy necessary for proper execution and completion of the Work. Changes or modifications to the Work shall include all requirements of this paragraph.
