11 Strategies of Que Linda Statewide Beautification

Student Service Learning:

Leveraging local high school students provide three benefits: 1) creates a very affordable resource to help keep communities clean; 2) provides high school students with opportunities to engage in community service; 3) creates local ambassadors that spread anti-litter messaging.

Local high schools must incorporate service-learning requirements in certain courses. The requirements shall require a certain number of community service hours which can be met through participation in trash pickup and graffiti removal/prevention programs.

Litter Abatement Alternatives to Penalty Fines:

This program would serve as a resource for municipal and county court systems. For various reasons, residents are assessed penalties or court fees associated with a crime. In many instances, individuals cannot afford to pay the cost. As an alternative, the individual could be assigned to a local trash pickup and graffiti removal/prevention program.

Use of Corrections Contractors:

The New Mexico Corrections Department offers litter pickup, general landscaping and graffiti clean-up services. Cost for services range but are highly competitive. LBPs can leverage services for contract maintenance of their property.

County Inmate Litter Abatement Program:

Utilizing incarcerated individuals for trash pickup is a long-standing practice. Oftentimes county-run facilities are discouraged to establish this program because inmates are incarcerated for short periods. Nonetheless, an established program could put short-term inmates to work immediately. The County correctional facility would establish the program that utilizes inmates to perform trash pickup services. This program would provide the service to the LBP.

Elementary Anti-Litter Education Campaign:

The State of NM is rolling out a new anti-litter campaign. It can provide media to local elementary schools that incorporate anti-litter activities into their curriculum. Activities could include coloring contests, recording radio ads, writing letters to newspapers, campus clean up days, recycling programs, etc. This program is integral to building ambassadors among the youth in the community who will have a positive influence within their families.

Business Corridor Adoption Program:

Engaging businesses in an effort to keep cities clean is longstanding. Typically businesses would adopt a corridor and become responsible for its upkeep. In this program, the business would simply provide a financial sponsorship. The sponsorship would go to the LBP who would utilize the resources for contract maintenance.

Reporting Illegal Trash Dumping Hotline:

Illegal dumping is a major issue in several communities. It's typically driven by limited options for legal dumping. When residents dump illegally, or lose trash because of an unsecured load, the trash often includes personal identifiable information. Local law enforcement agencies shall establish a hotline or online portal where this information could be anonymously obtained. Penalties for violators would need to be established in ordinance.

Secure Loads Establishment and Enforcement:

Unsecure loads is a major cause of messy roadways. Local governments must put an ordinance in place that establishes a penalty for driving with an unsecured load. In addition to this penalty, trash collection centers must impose a fee when a resident arrives with an unsecured load.

Establish Free Weekend Events at Collection Centers:

Affordability may be an issue for some residents. If trash authorities were to provide "Free Weekends" once a month, it would encourage residents to dump legally.

Neighbor Rates at Collection Centers:

Some communities and counties do not have adequate access to a collection center, therefore, an established "Neighbor Rate" at the closest facility will encourage residents to dump trash legally.

Community Trash Pick-up Events:

Some residents, for various reasons, are unable to take trash to a collection center on their own. This program would identify weekends, throughout the year, when trash authorities, together with volunteers, would pick up trash and deliver it to a collection center. Residents would need to sign up for this service and provide a justification.
