Charles W. Dudrow Santa Fé County, New Mexico

Charles W. Dudrow, engaged in the lumber, coal and transfer business at Santa Fé, was born in Frederick, Maryland, in 1841 and became a resident of Santa Fé in 1870. For several years he was employed by Barlow & Sanderson, the noted overland stage line men as express messenger. In 1880 he engaged in his present business and for several years has conducted a lumber and coal yard at Cerrillos. His business interests are capably conducted and guided by sound judgment, so that his efforts result successfully. He is widely known throughout the northern part of the Territory and is active in public affairs. He was twice elected sheriff but declined to serve, and for several terms he was a member of the board of county commissioners and chairman of that body.

Dudrow & Company

- [By Ana Pacheco](#)

Dudrow & Bears Transfer station in Santa Fe in the 1881.

The Dudrow & Bears Transfer Corral in 1881 was a family-run business. Charles W. Dudrow, came to Santa Fe between 1869 and 1872. He had been a driver for the Barlow and

Sanderson stage lines that ran from Pueblo, Colorado, to Santa Fe. When he arrived in Santa Fe he married Cora Bear and became a business partner with her father, Samuel Bear. They opened Dudrow & Bear Ice, Transfer and Livery. The business was located near the train depot and Our Lady of Guadalupe Church.

Fairview Cemetery

The family tombstone of Charles Dudrow at Fairview cemetery.

Long before the Dudrow transfer station Our Lady of Guadalupe mission church dominated the area. Originally built in 1777 on the banks of the Santa Fe River, the church closed in 1826 when it fell into disrepair. A new 575-pound bell complimented the church remodel in the 1850s. The altar screen included a replica of Our Lady of Guadalupe. The painting came to Santa Fe by ox train in 1783. The Santuario de Guadalupe is the oldest continuously standing shrine to Our Lady of Guadalupe in the United States.

Our Lady of Guadalupe is the patron saint of Mexico.

A hundred years after the original structure was completed, the old mission-style building was radically changed. After its alteration it resembled a typical east-coast church, with a steeple painted bright orange. The spire was centered above the entry instead of at the southeast corner where the bell tower once stood. Gothic-style windows were built into the walls and a white picket fence was erected to enclose the churchyard. One reason given for these drastic changes was the arrival of many English-speaking Catholics from the east, who brought their building style with them.

Railroad Comes to Santa Fe

The eastern edge of the Santuario grounds has also withstood many changes. In 1889, the Denver and Rio Grande Railroad offered narrow-gauge rail service between Santa Fe and Denver out of a nearby depot. The line closed its service in 1941. Once it closed the train rails and ties were torn from the Santuario's property line along Guadalupe Street.
