**Subject:** Re: BPAC Regular Meeting

Dear Romella,

I can't come to the meeting today, here is a (probably not very original) comment from the public, related to the proposed ad-hoc committee in motorist accountability:

I suggest the committee compile a list of incidents, describing the outcome for both the bicyclist victim and the motorist, and the actions and statements of law enforcement. Perhaps going back some years, and perhaps including incidents further afield, such as Albuquerque.

Thank you

Hubert van Hecke
