

WALL AND FENCE GUIDELINES SANTA FE HISTORIC DISTRICTS

[ADOPTED 24 AUGUST 1999]

Purpose and intent: These guidelines are offered to promote continuity and harmony of design elements that comprise streetscape in the Santa Fe Historic Districts, including, but not limited to walls, fences, open space and landscaping and their connectivity to the primary structures(s) on the property and the physical character of the street or public façade of the property. These guidelines are consistent with the purpose and intent, and standards in the Historic Districts Ordinance [Section 14-70 SFCC 1987].

SCALE:

Walls should not extend for more than 50 feet in a single, horizontal plane without a plane change of at least one foot.

Wall heights should modulate a minimum of 8 inches, or one block course, at least every 25'.

Walls should include openings such as gates, windows and nichos at appropriate intervals.

Walls and fences in excess of 4 feet in height and having street frontage or visibility shall be brought to the HDRB for review and approval prior to submission for building permit review. Where there is a conflict between this guideline and the allowable height as calculated under Section 14-70.20 SFCC 1987, the latter shall prevail. [This supersedes the HDRB's 8/13/96 policy requiring the same for walls or fences in excess of 3 feet in height. It encourages the construction of lower privacy walls that still allow the structure on the site to make a contribution to the streetscape, and provide for a view shed into the property. This is recommended in response to the proliferation of inappropriately high yard walls that have been and are being constructed throughout the city's historic districts, causing an impact on the historic and visual character of the historic districts.]

Wall heights should be carefully regulated by the HDRB standards as calculable for the particular streetscapes [Section 14-70.20 SFCC 1987]; and should be restricted so as not to increase the allowable height for the streetscape by more than 20%.

Solid fences should be stepped back and modulated the same as walls.

Fences with fenestration, such as coyote fences, may continue in an unrestricted horizontal distance at the same height and in the same horizontal plane.

SETBACK:

Unfenestrated walls and fences (e.g. cedar stake, ponderosa slat) should setback from the front property line an average of 1 foot for every 10 feet of horizontal length of the wall. This could be accomplished in a single plane or with step backs as outlined above.

Open fences (e.g. wire and post, picket) or fenestrated fences (e.g. coyote) may be constructed without setback at the front property line, unless otherwise regulated by the underlying zoning.

Walls with openings comprising 20% of the surface area of a single plane may be constructed at the property line, unless restricted by the underlying zoning.

Side or rear walls or fences may be constructed at the property line as per that allowed by the underlying zoning.

Walls or fences within existing compounds should be restricted to privacy barriers to enclose courtyards, parking and private areas; and should be connected to and not extend more than 25 feet from the main structure. However, walls or fences should not be connected to significant structures. Desired connections may be made to significant structures by way of other means [e.g. Landscaping]. These treatments will help maintain traditional compound common elements, such as open space and the ability to communicate with neighbors, and therefore assist in the preservation of the character of existing compounds.

MATERIAL, TEXTURE AND COLOR:

Walls should be predominantly of the same material, texture and color as the main structure(s) to be located on the property, or may be of material indigenous or traditional for the area such as river rock, limestone, flagstone or slate.

Fences should be of the material, texture and color of fences typical of the existing streetscape or design vernacular if applicable to a particular H-District or streetscape.

GATES:

Vehicular gates should be permitted only at entrances to private driveways or compounds and set back in accordance with the underlying zoning.

Vehicular gating of subdivisions or other large-scale developments is strongly discouraged, and may be prohibited [See City of Santa Fe 1999 General Plan].

Gates should be designed to complement the wall or fence treatment containing them with respect to scale, height, material, texture and color. Fenestrated gates should be encouraged as opposed to solid gates.

LANDSCAPING (Suggested Options)

Walls and fences in excess of 50' in length should install landscaping along the exterior façade within the suggested setback or step back.

Landscaping on top of or over a wall is encouraged to provide for additional screening if desired from the interior of the property.

Terracing of walls is encouraged and should be landscaped.

The use of native, drought resistant plant material is encouraged in all wall, fence or terrace landscaping.

HISTORIC CULTURAL PROPERTIES INVENTORY (HCPI) BASE FORM

CONSTRUCTION DATE: Before 1908 <input type="checkbox"/> Known <input checked="" type="checkbox"/> Estimated Source: 1908 sanborn Fire Insurance Map <input checked="" type="checkbox"/> continuation	ARCHITECT/BUILDER: Unknown
BRIEF DESCRIPTION OF PROPERTY: The property consists of a lot that is approximately 18,050 sf (.41 acres), located on the north side of Agua Fria Street, west of De Fouri Street. The house is located at the south end of the lot, along Agua Fria Street, and a small front yard, enclosed by a low adobe wall that has been stuccoed, is located between the front façade of the house and the sidewalk. North of the house is a small backyard surrounded by a wooden fence. A dirt and gravel drive runs along the east edge of the lot and to the north of the house. The house is a one-story, pitched roof, combination adobe and wood stud house that has been faced with a stucco finish. The back of the lot holds another single story smaller house (designated at 525 D Agua Fria Street).	

The front of the house entry is marked by a protruding front porch with arched screened front entry door. The front porch is not very visible from the street as the landscape is overgrown with evergreen trees. The rest of the south façade includes three sets of wood windows: central and nearest the front door is an 8/8/8 triple casement window, next to the west are two 8/8 double casement windows. All windows are trimmed with wood and painted a dark red/burgundy.

National Register evaluation: <input type="checkbox"/> eligible <input checked="" type="checkbox"/> not eligible <input type="checkbox"/> not sure		
National Register eligibility criteria: <input type="checkbox"/> a <input type="checkbox"/> b <input type="checkbox"/> c <input type="checkbox"/> d <input checked="" type="checkbox"/> criteria consideration: A) and B)		
Research into the history of the building reveals that the house does not hold any special significance for its association with events or individuals on a local, regional, national, or global level. C) The building is a conglomeration of styles representing different periods in NM history, and therefore does not embody a particular type, period, or method of construction. Because there were so many changes to this house over the course of close to 50 years, there is not a high level of historic integrity to any specific historic period or type. D) It is unlikely that information important in history or prehistory will be yielded from this building or site.		
Level of significance: <input checked="" type="checkbox"/> local <input type="checkbox"/> state <input type="checkbox"/> national		
Area of significance:		subarea:
Is this property similar to other nearby properties? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
Could it be contributing to an undefined district? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
Discuss: The building is already considered to be contributing to the Santa Fe Historic District, listed on both the State and National Registers, and it is included in the Santa Fe Historic Preservation Divisions Westside-Guadalupe Historic District. If another district containing the site were defined, the building could be considered contributing.

For HPD Office use only: HCPI No. _____ District No. _____		
1. Name of property: (historic and/or current name for property) 527 Agua Fria Street Previously 243 Aqua Fria Street; 243/527 Agua Fria (Aqua Fria) Street	2. Location: 527 Agua Fria Street Santa Fe, NM 87501	3. Local Reference Number: 4. County Santa Fe 5. Date of Survey November 25, 2025

Construction Date, Timeline of House, and Inferred Evolution of House Graphic:

There have been several additions and renovations to this building over time. Based on historic maps and the previous Historic Building Inventory forms (1997), it is estimated that there have been at least four additions to the original house.

- The original house was built sometime before 1908.
- It is estimated that the outhouse at the rear of the lot was constructed during the same timeframe (before 1908).
- An addition was constructed at the rear of the house (northeast side) sometime after 1908 and before 1913.
- A much larger addition was constructed at the west side of the house sometime after 1913 and before 1921. (Note: the new southwest corner of the house is constructed of adobe.) A covered front porch was added at the southeast corner of the house.
- Another large addition was added to the back of the house, possibly an enclosed back porch with lower roof. A separate garage was added to the west and access to a cellar on the east side of the house sometime after 1921 and before 1930. (Note: the location of the house appears to be further east.)

527 Agua Fria House Historic Research Synopses, Timeline of House, and Bibliography

See 12 pages of research synopses, etc. that follow.

527 Agua Fria House Research Synopses

Per King's and Sanborn Fire Insurance Maps:

243 Aqua Fria was built sometime before 1908. Based on the historic maps, the original portion of the existing building is the middle portion of the front rectangular façade that faces the street today. (Refer to building footprint graphic for more information.) The original building underwent a renovation and addition to the east and rear of the house sometime after 1912 and before 1913. An addition was added to the west sometime after 1913 and before 1921. A front porch was also added. Between 1921 and 1930, the footprint of the building moves to allow more space between the lot line and the main house. (There appears to have been an error in the original location of the dwelling.) On the 1930 Sanborn Map, the footprint of the building was changed from three simple rectangles to a blocky almost square footprint with the addition of a garage and the outhouse was removed. The address label for the building was changed from 243 Aqua Fria to 527 Agua Fria and the lot line had changed, reducing the lot size from east to west. The footprint of the building remained the same on the 1948 revision to the 1930 Sanborn Map. The current footprint of the building, which adds a restroom to the northeast corner and a connector from the main house to the garage, shows that one or more additions were constructed onto the building after 1985 but before 1998. Based on the research materials available, it is not entirely clear when the other additions were constructed, but it is inferred that all additions to the building and the garage were completed prior to 1998. Refer to the 1985 and 1997 Historic Building Inventory Forms section below.

Per the 1985 and 1997 Historic Building Inventory Forms:

The building was described in previous Historic Building Inventory forms – in 1985 and then resurveyed in 1997. There are some inconsistencies between the 1985 form and the 1997 and the Sanborn maps indicating the development of the house.

On the 1985 form, 527 Agua Fria (ID No. 051613581) is drawn with the main house separate from the garage that matches the 1930 and 1948 Sanborn Maps but with a protruding front porch addition. In addition, the surveyor of the 1997 form included a comment about the garage: "connected to the house by arched stucco gateway."¹ This gateway was not shown on either survey site plans. Based on the former survey, it is assumed that the addition joining the garage to the main house was constructed after 1985 but before 1998.

Both 1985 and 1997 forms note the "Mediterranean" style, but do not note that the original building was flat roofed. The 1985 form notes that the significance of the building is "of interest," and that the building should be eligible because it is "contributing."² It is to be noted that this 1985 survey form was the survey used to determine whether or not the building should be considered "contributing" in the Santa Fe Historic District (refer to the Santa Fe Historic District Section that follows).

On the 1997 form, the building is noted as being listed on the National Register of Historic Places, as being a contributing property, and as being listed on the State Register of Cultural Properties. While it is

¹ DB, "New Mexico Historic Building Inventory - Santa Fe Resurvey 1997, 527 Agua Fria," August, 1997.

² HMW, "527 Agua Fria Building Survey Form," June, 1985.

true that the building is contributing to the Santa Fe Historic District (See Santa Fe Historic District section that follows), the building is not listed individually on either the State Register of Cultural Properties or on the National Register of Historic Places. (Refer to SR-NR-Excel-Database-through-June-2016.xlsx file provided by the NM HPD for a list of individual properties and districts included on the State and National Registers).

On the 1985 form, the building is also noted as having had moderate remodeling and the 1997 form lists the degree of remodeling as minor.

Santa Fe Historic District

Per the 1973 National Register of Historic Places Inventory – Nomination Form:

The Santa Fe Historic District was added to the State Register on September 29, 1972 (State Register #260) and to the National Register on July 23, 1973 (National Register # 73001150). 527 Agua Fria is included as a contributing property in the Santa Fe Historic District, based on the 1997 survey of the property (mentioned above).

Ownership of the House:

On the 1912 King's Map, the building is marked as Block 60, Lot 34, and is attributed to Mrs. C. W. Dudrow.

From the 1985 Historic Building Inventory Form, included a comment: "A. C. Koch bought this in 1912 from C.W. Dudrow Estate. He added tile Rf in 1920-25. House has grown @ rear – N.V."³

Between 1913 and 1927, no information regarding the ownership of the house was found.

From 1928 through 1964, A.C. Koch or a Koch family member is listed as the owner of the property (per Santa Fe City Directories). There is also a Mrs. Dorothea K Dunakin (nurse) associated with the property either as a tenant or owner from 1944 through 1951.

- Between 1928 and 1938, the owner is listed as Koch, A. C.
- Between 1940 and 1944, the owner is listed as Koch, A. C. Mrs.
- Between 1944 and 1947, the owner is listed as Koch, A. C. Mrs. and Dunakin D. K. Mrs. nurse
- Between 1947 and 1949, the owner is listed as Koch, Alice Mrs. and Dunakin D. K. Mrs. nurse
- Between 1949 and 1951, the owner is listed as Koch, Alice Mrs. and Dunakin Dorothea K. Mrs. nurse
- Between 1951 and 1964, the owner is listed as Koch, Alice A. and Dunakin Dorothea K. Mrs. nurse
- In 1964, the owner is listed as Koch, Alice C. Mrs.

It is unknown when the Koch family sold the house.

On December 19, 2024, the house was sold.⁴

⁴ https://www.zillow.com/homedetails/527-Agua-Fria-St-Santa-Fe-NM-87501/6826806_zpid/

According to the Santa Fe County Tax Parcel Viewer, Neirika LLC is the owner of the house.

Review of Architectural Features and Styles of the House and Site:

The existing house is a compilation of pieces that were added on and renovated over the course of approximately ninety years. The various additions and renovations add different styles to the house.

Original Portion of the House: The original portion (pre-1908) may have followed many of the stylistic patterns of a New Mexico vernacular house. Whether Spanish Colonial or Territorial Style which was primarily in use in New Mexico during the mid to late nineteenth century, and featured flat roofs, adobe construction, new milled lumber elements and fired brick detailing, along with the inclusion of provincial Greek Revival Style elements, the original portion of the house is constructed of wood stud framed walls, which have been faced with stucco. A small outhouse was added in the rear. It is unknown when the north thickened wall and fountain were added to the house. This appears to be more Mediterranean in style. It is also unknown when the low adobe wall that wraps the front yard was added to the house.

Minor Addition #1: Between 1908 and 1913, a small addition was added to the northeast corner of the house.

Major Renovation/Addition #2: A significant renovation and addition was done at the house prior to 1921. It is assumed that part of the work of this project was completed in adobe construction, as the front southwest corner remains an 8" thick adobe constructed wall. Another part of the renovation of the house is thought to have included a front porch at the main entry. The windows and doors are typically wood units painted red. It appears that many of these units are the original ones installed when the main house and addition were built. The majority of the windows and doors have divided lites, square red wood trim, and the windows have square sills. All windows appear to be operable, inward swinging casement windows with a few double hung on the north side of the building.

Major Addition #3: It is possible that the third addition actually included more than one addition and interior remodeling over the course of approximately ten years including the addition of the pitched Mediterranean style tile roof. From what we can deduce, the third addition (post-1921) included the portion added onto the north and east side stair to a cellar, as well as the separate garage building. The rear porch addition may have been open to air or screened. The roof was a low slope. It is unknown whether the garage and porch had windows as it is apparent that the aluminum slider windows were added later.

The Garage: The garage is constructed of rusticated or split face narrow and long concrete masonry units. The roof is a flat roof and has a very low slope. It is unknown what the original material was but now is covered with a standing seam metal roof.

Major Renovation/Addition #4: It is possible that the fourth addition and renovation included the subdivision of the house into three separate dwelling units. The garage was connected to the main house and the back porch was enclosed. A small restroom was added to the northeast corner to serve

another tenant. Exterior entry doors were added for three separate entries. Metal roofs replaced the tile roofs, but simulated the look with red metal. The smaller additions have standing seam red metal roofs, while the main house and upper roofs have simulated metal tile red roofing.

Fences and Walls: There is little to no information regarding the existing fences and walls around the site. A low adobe wall (+/- 3' to 4' high) wraps the front yard. The low wall is not connected to the house on either edge, and has a break in the middle through which the front doors can be accessed. It is likely that the low adobe wall was added during either the first or the second addition to the house. On the east side of the building, the lot line is defined by a low wooden picket fence supported by square wood posts (approximately 4" x 4"). This fence was added sometime after the lot line was changed to its current position in 1930. It is adorned with a growing vine. A low adobe wall turning into a wooden coyote fence runs along much of the west edge of the site, but appears to be associated with the neighboring building. At the north side, individual back yards for the tenants are defined by a 6'-0" tall wooden picket fence. This fence was likely added much later on to provide privacy and security from vehicles parking in the rear of the lot.

Santa Fe Historic Preservation Division Definitions of Noncontributing, Contributing, and Significant Structures in a Historic District:⁵

- **NONCONTRIBUTING STRUCTURE:** A structure, located in an Historic District, which is less than fifty years old and/or does not exhibit sufficient historic integrity to establish and maintain the character of the Historic District. (Ord. No. 2004-26 §6)
- **CONTRIBUTING STRUCTURE:** A structure, located in a Historic District, approximately 50 years old or older that helps to establish and maintain the character of the Historic District. Although the structure is not unique in itself, it adds to the historic associations and/or historic architectural design qualities for which a District is significant. The structure may have had minor alterations, however, its integrity remains. (Ord. 2004-26 § 5)
- **SIGNIFICANT STRUCTURE:** A structure, located in an Historic District, that is approximately 50 years old or older, and (1) embodies distinctive characteristics of a type, period or method of construction. A structure may also be designated as significant (2) for its association with events or individuals that are important on a local, regional, national, or global level. In order for a structure to be designated as significant, (3) it must retain a high level of historic integrity. A structure may also be significant (4) if it is listed in or is eligible to be listed in the State Register of Cultural Properties or the National Register of Historic Places. (Ord. No. 2004-26 §5)⁶

⁵ Santa Fe Historic Preservation Division, "Historic Preservation Definitions," City of Santa Fe Website, accessed May 5, 2017, http://www.santafenm.gov/historic_preservation_definitions.

⁶ (x) Numbers in gray added for clarity of response. See "Architectural Historian Opinion" section that follows.

National Register Criteria for Evaluation (For Determination of Building's Eligibility):⁷

Per Santa Fe Historic Preservation Division definition of "Significant Structure" above, listing on either the State or National Registers is one criteria by which a structure can be considered significant within a historic district for the Santa Fe Historic Preservation Division. For that reason, we include the US Department of the Interior's Criteria for Evaluation of a historic property, along with the Criteria Considerations.

- **Criteria for Evaluation:** The quality of significance in American history, architecture, archeology, engineering, and culture is present in districts, sites, buildings, structures, and objects that possess integrity of location, design, setting, materials, workmanship, feeling, and association, and:
 - A. That are associated with events that have made a significant contribution to the broad patterns of our history; or
 - B. That are associated with the lives of significant persons in our past; or
 - C. That embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or
 - D. That have yielded or may be likely to yield, information important in history or prehistory.

- **Criteria Considerations:** Ordinarily cemeteries, birthplaces, graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years shall not be considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that do meet the criteria or if they fall within the following categories:
 - a. A religious property deriving primary significance from architectural or artistic distinction or historical importance; or
 - b. A building or structure removed from its original location but which is primarily significant for architectural value, or which is the surviving structure most importantly associated with a historic person or event; or
 - c. A birthplace or grave of a historical figure of outstanding importance if there is no appropriate site or building associated with his or her productive life; or
 - d. A cemetery that derives its primary importance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events; or
 - e. A reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived; or
 - f. A property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own exceptional significance; or

⁷ Rebecca H. Shrimpton, ed., "How to Apply the National Register Criteria for Evaluation" (U.S. Department of the Interior, National Park Service, Cultural Resources, 1995), <https://www.nps.gov/nr/publications/bulletins/nrb15/Index.htm>.

- g. A property achieving significance within the past 50 years if it is of exceptional importance.

Historic Architect's Opinion:

In response to criteria for a "Significant Structure," – see numbers in gray added to definition above:

- (1) The building is a conglomeration of styles representing different periods in NM history, and therefore does not embody a particular type, period, or method of construction.
- (2) Based on the research into the history of the building, including past owners, and residents of the house, the house was owned by Charles W. Dudrow, a 19th century entrepreneur in Santa Fe, who was engaged in the lumber, coal, ice, transfer and livery business. His legacy is connected to several historic locations, including the Dudrow House at 548 Agua Fria Street and an old warehouse that was later part of the Sanbusco Market, now part of the New Mexico School for the Arts complex. The house at 527 Agua Fria was part of the Dudrow Estate, but its significance is unknown for the Westside-Guadalupe Historic District "for its association with events or individuals that are important on a local, regional, national, or global level." The house was owned primarily by C. W. Dudrow for a short period of time before sold to A. C Koch in 1912.
- (3) Because there were so many changes to this house over time, there is not a high level of historic integrity to any specific historic period or type.
- (4) The building is not individually listed on either the State Register of Cultural Properties or on the National Register of Historic Places. While it is included as a contributing property in the Santa Fe Historic District, it is our opinion, for similar reasons to those listed in items (1) through (3) above, that the building would not be eligible for inclusion on either the State or National Registries.

Based on our findings, and on the Santa Fe Historic Preservation Division definitions included above, we recommend that the building continue to be designated as "Contributing."

Timeline for 512 Agua Fria House:

- 1846-1880 Territorial Style** first appears in NM; features include traditional flat-roofed buildings, adobe construction, new milled lumber elements and fired bricks, and provincial Greek Revival style elements.
- 1869-1872 Charles W. Dudrow**, came to Santa Fe. He had been a driver for the Barlow and Sanderson stage lines that ran from Pueblo, Colorado, to Santa Fe.⁸
- 1881 Dudrow & Bear Ice, Transfer and Livery.** When Charles W. Dudrow arrived in Santa Fe he married Cora Bear and became a business partner with her father, Samuel Bear. The business was located near the train depot and Our Lady of Guadalupe Church.⁹
- 1908** The house appears on the April, 1908 Sanborn Map as three small rectangles with a smaller rectangle to the north. The house has the following markings: 1'2, D, and a small x in the right hand corners of each rectangle. The address is 243 Aqua Fria.¹⁰
- 1910 Charles W. Dudrow – Kerr's Plaza Barber Shop** advertisement in the Santa Fe New Mexican, page 2, Tuesday, October 11, 1910.¹¹
- 1911 C. W. Dudrow** appears on the Fairview Cemetery Santa Fe history under Pioneer Merchants and Other Notable Businesspeople. (Approximate birth year is 1849).¹²
- 1912** The house appears on the 1912 Kings Map as the same three small rectangles (only shown as a polygon) with a smaller rectangle to the north. The property is listed as Block 60, Lot 34. A name is written on the lot. (Mrs. C. W. Dudrow)¹³
- 1913** The house appears on the June, 1913 Sanborn Map as the same three small rectangles only the top northeast corner of the third rectangle has an addition. The smaller rectangle is still located to the north. The house has the following markings: 1, D, Stucco, and a small black dot in the lower right of the two larger rectangles. The address is 243 Aqua Fria.¹⁴
- 1921** The house appears on the June, 1921 Sanborn Map as the same three small rectangles now with another larger rectangle added to the west. The smallest rectangle is still located to the north. The house has the following markings: 1, D, Stucco, and a small black dot in the lower right of the three large rectangles. A smaller dashed rectangle runs horizontally at the front of the house facing the street. The address is 243 Aqua Fria.¹⁵

¹⁵ "Sanborn Fire Insurance Map, June 1921" (Santa Fe County, NM: Sanborn Map Company, 1921).

1928-1929 Koch A C is listed as owning the house (address marked as 527 Agua Fria). (o) following the name shows the occupant is owner of the home. This is given as an indication of permanency, but have not been checked by the official records.¹⁶

1930 The house appears on the January, 1930 Sanborn Map.¹⁷

- The house is now a large polygon appearing to have had a smaller rectangular addition to the east and larger area filled in to the northwest. The front dashed area has decreased at the southeast corner and an additional dashed protruding rectangle has been added. A large rectangle has been added to the west separate from the main polygon.
- The address is listed as 243, and also 527 Agua Fria (Aqua Fria).
- The markings say 1, D, small black circle in each of the small rectangular spaces. The separate rectangle has a 1, A (C.B) and three small black dots. There are black X's on the south, east, and north walls.
- The smallest rectangle to the north is now removed.
- A new lot line to the east has been drawn. There is a small adobe building and larger “r” shaped dwelling in the adjacent lot to the east.

1930-1931 Koch A C is listed as owning the house (address marked as 527 Agua Fria). An (o within an O) following the name indicates the householder is the owner of the residence.¹⁸

1932-1933 Koch A C is listed as owning the house (address marked as 527 Agua Fria). An (o within an O) following the name indicates the householder is the owner of the residence.¹⁹

1934-1935 Koch A C is listed as owning the house (address marked as 527 Agua Fria). An (o within an O) following the name indicates the householder is the owner of the residence.²⁰

1936-1937 Koch A C is listed as owning the house (address marked as 527 Agua Fria). An (o within an O) following a householder’s name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.²¹
