APPLICATION RESOURCES

PLANNING AND LAND USE DEPARTMENT RESOURCES

MISSION: The mission of the Planning Division is to review development applications for compliance with the City's land development code and department policies while providing information, guidance, and the highest possible level of customer service to applicants, neighborhoods, and the City's quasi-judicial decision-making bodies.

OFFICE: Santa Fe City Hall 200 Lincoln Avenue Santa Fe, NM 87501

WEBSITE: https://santafenm.gov/land-use/current-planning

CURRENT AND UPCOMING PUBLIC MEETINGS: https://santafe.primegov.com/public/portal

INTERACTIVE GIS MAPS: https://santafenm.gov/information-technology-telecommunications/gis

SANTA FE CITY CODE (SFCC): https://library.municode.com/nm/santa_fe/codes/code_of_ordinances

APPLICATION SUBMISSION AND FEES: All applications shall be submitted electronically as PDF files to planning@santafenm.gov. Incomplete applications, including those missing required submittals will be returned without processing. Application fees will be assessed and invoiced upon acceptance of the application for initial review. Fee tables may be viewed online.

GENERAL QUESTIONS: zoningcounter@santafenm.gov

DEVELOPMENT REVIEW PROCESS

PRE-APPLICATION PHASE

For many applications, the development review process begins with a pre-application conference, where the applicant presents their proposal to the City's Development Review Team (DRT) for initial review and feedback. If the applicant wishes to proceed, a city planner is assigned to assist the applicant through the remaining steps of the process. For administratively reviewed applications, a pre-application conference is usually not required.

For all applications requiring a hearing before a land use board, the applicant shall schedule, notice and host an early neighborhood notification (ENN) meeting in coordination with the city planner. The intent of the ENN is to provide for an exchange of information among the applicant, residents, and property owners, prior to application submittal. ENN notification requirements are set forth in SFCC §14-3.1(H). Applications that qualify for administrative review and some variances are not required to conduct an ENN meeting.

DEVELOPMENT REVIEW PHASE

Once an application and all required submittals are prepared by the applicant, they or their agent submits the Application to the City via planning@santafenm.gov. The applicant will receive an email confirming receipt of the application, and an invoice for applicable development fees which can be paid online or at the cashier's office at City Hall. The city planner and the DRT review the application for completeness and compliance with all applicable codes, ordinances, plans and regulations. During the review process, the city planner or members of the DRT may request additional information or amendments from the applicant to complete the review process. The review timeline can range for 9-12 weeks or more depending on the complexity of the application and the total number of cases under review.

PUBLIC HEARING PHASE

When the City determines that the application is complete, the case is scheduled for a public hearing before the applicable Land Use Board. Notification requirements for public hearings are set forth in SFCC §14-3.1(H). If the application is approved at the public hearing, the city planner will prepare the findings of fact and conclusions of law (FOFCOL) documenting the approval findings, any conditions of approval and an expiration date for the approval, as required.

POST APPROVAL PHASE

When the applicant has met all necessary conditions of approval and technical corrections, the plan or plat is recorded at the County Clerk's office and filed with the City's plat room. The case planner prepares an action letter detailing the approval record. The applicant may then proceed to building permitting and construction.

If you have questions about the requirements please contact your assigned case planner or planning@santafenm.gov.

LAND DEVELOPMENT CODE REFERENCE

GENERAL PLAN AMENDMENT PROCEDURES (SECTION 14-3.2(E) SFCC)

Purpose: The general plan is a guide for the city's land use decisions. The regulations, restrictions and policies of the city affecting development of Santa Fe shall be in accordance with the general plan as provided in Section 3-21-5 NMSA 1978. When necessary, the general plan shall be amended in accordance with this section.

Applicability: The general plan must first be amended before any proposed changes in the city's policies on urban area boundaries, annexation, growth, economic development, special review districts or other long-range planning items not in conformance with the general plan may be approved.

1. Criteria for all Amendments to the General Plan

The planning commission and the governing body shall review all general plan amendment proposals on the basis of the following criteria, and shall make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any amendment to the general plan:

- a. Consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;
b. Consistency with other parts of the general plan;
c. The amendment does not:
i. Allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or
ii. Affect an area of less than two acres, except when adjusting boundaries between districts; or
iii. Benefit one or few landowners at the expense of the surrounding landowners or the general public;
d. An amendment is not required to conform with Subsection 14-3.2(E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;
e. Compliance with the extraterritorial zoning ordinances and extraterritorial plans;
f. Contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development; and
g. Consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.

2. Additional Criteria for Amendments to Land Use Policies

In addition to complying with the general criteria set forth in Subsection 14-3.2(E)(1), amendments to the land use policies section of the general plan shall be made only if evidence shows that the effect of the proposed change in land use shown on the future land use map of the general plan will not have a negative impact on the surrounding properties. The proposed change in land use must be related to the character of the surrounding area or a provision must be made to separate the proposed change in use from adjacent properties by a setback, landscaping or other means, and a finding must be made that:

- a. The growth and economic projections contained within the general plan are erroneous or have changed;
b. No reasonable locations have been provided for certain land uses for which there is a demonstrated need; or
c. Conditions affecting the location or land area requirements of the proposed land use have changed, for example, the cost of land space requirements, consumer acceptance, market or building technology.

SUBMITTAL CHECKLIST

Submittal requirements may vary based on the individual application. The City reserves the right to request additional information during the review process. Please submit each of the following items as separate PDF files saved with unique and descriptive file names:

Table with 2 columns: Item Name and Description. Items include Application Letter, Statement addressing approval criteria, Legal lot of record, Development Plan, Proof of compliance with conditions of annexation approval, and Letter of water and sewer availability.

LAND DEVELOPMENT CODE REFERENCE

REZONING PROCEDURES AND APPROVAL CRITERIA (SECTION 14-3.5(C) SFCC)

Procedures: All rezonings shall be submitted to the planning commission for review and recommendation at a public hearing. The review shall be based on the approval criteria and a balancing test that considers the prevailing uses and character in the area. Rezoning requests specified in Section [14-4 Zoning Districts](#) and [14-5 Overlay Zoning Districts](#), must be accompanied by a Development Plan application to be reviewed in coordination with the rezoning request.

The Planning Commission shall transmit the application to the governing body, with a recommendation for approval or disapproval. Before taking action, the governing body shall hold a public hearing and may request additional information necessary to ensure compliance with Chapter 14. The governing body shall take final action to approve, approve with conditions or deny the proposed rezoning. After approval the official zoning map shall be amended in accordance with Section [14-4.1\(C\)](#) to note the new zoning designation. If denied, the applicant must wait 12 months to reapply.

Approval Criteria

1. The planning commission and the governing body shall review all rezoning proposals on the basis of the following criteria, and must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:
 - a. one or more of the following conditions exist:
 - i. there was a mistake in the original zoning;
 - ii. there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or
 - iii. a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;
 - b. all the rezoning requirements of Chapter 14 have been met;
 - c. the rezoning is consistent with the applicable policies of the general plan, including the future land use map;
 - d. the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city; and
 - e. the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.
2. Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:
 - a. allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;
 - b. affect an area of less than two acres, unless adjusting boundaries between districts; or
 - c. benefit one or a few landowners at the expense of the surrounding landowners or general public.

SUBMITTAL CHECKLIST

Submittal requirements may vary based on the individual application and the requested zoning district. The City reserves the right to request additional information during the review process. See [Section 14-4](#) and [14-5 SFCC 1987](#) for rezoning regulations related to specific zones. Please submit each of the following items as separate PDF files saved with unique and descriptive file names:

Application letter (purpose, intent, location, acreage)	Terrain management plans (as required by Section 14-8.2 SFCC 1987)
Statement addressing rezoning approval criteria	Traffic impact analysis (if applicable)
Legal lot of record and legal description	Archaeological Clearance (if applicable)
Development plan (see Section 14-3.8 SFCC 1987) (if applicable)	Sewer and Water Plan (including profiles and details), letter of availability (if applicable)

Re: Letter of Application for General Plan Amendment and Rezoning
Montoya y Garcia, LLC – Property Owner and “Applicant”
Section 31 T17N, R19E, Remaining Portions of Government Lot 17 SHC 1255 1/2
TR5, & SHC 1178 (Parcel #'s 910008728, 99312180, 99312181) - the ("Property")

Dear Joel and Dan:

Submitted with this letter are the applications for a General Plan Amendment and Rezoning of the 7.01 acres of property commonly known as Section 31 T17N, R19E, Remaining Portions of Government Lot 17 SHC 1255 1/2 TR5, & SHC 1178. This letter provides background for the application and addresses the City Code approval criteria for both applications. No development is proposed as part of these applications. The General Plan Amendment application requests that the existing future land use designation for a portion of the property of Very Low Density Residential be changed to Low Density Residential and the rezoning application requests that the existing R-3 zoning be changed to R-6. This letter includes assessment of compatibility with the Southwest Santa Fe Community Area Master Plan.

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

June 3, 2025

Page 2 of 11

1. Background and Existing Planning and Zoning.

The vacant Property is located south of the South Meadows Road interchange with NM 599/Veterans Memorial Highway. The Property and surrounding properties were annexed to the City as part of the 2008 City-County settlement agreement and the City has planned the area for intensive residential and commercial development including multiple development approvals. Consistent with the City Code, upon annexation the Property was zoned R-3 until otherwise classified. (514-4.1.E.4)

The Property is bisected by South Meadows Road which is proposed as primary vehicular access because of its convenient access to NM 599 and south to Agua Fria Road. Alameda Frontage intersects South Meadows Road just north of the Property. Also, a road is planned to connect South Meadows Road to Kate's Way which may be a secondary vehicular access point at the north end of the Property.

The Properties comprise five (5) legal lots of record – three (3) adjacent to the northern boundary of South Meadows Road (the “Northern Lots”) and two (2) (the “Southern Lots”). As you can see from the portion of the current Future Land Use Map attached hereto as Exhibit A, the Northern Lots are planned for “3-7 Dwelling Units” per acre and “7-12 Dwelling Units” per acre. The Southern Lots are planned for “3-7 Dwelling Units” per acre, “1-3 Dwelling Units” per acre, and “Open Space”. Both the Northern and Southern Lots are zone R-3. (See Exhibit B - Portion of Zoning Map).

The Property is unimproved and vacant. The property owned by The Rodriguez Trust is vacant, with the same two General Plan designations as the Northern Lots, namely -“3-7 Dwelling Units” per acre and “7-12 Dwelling Units” per acre. and zoned R-3. In proximity toward the northeast of the Property is the Madera Apartment Community and zoned R-

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 3 of 11

21. Further east is unincorporated Agua Fria Village, located in Santa Fe County. The Gerhart Apartment Community is to the South of the Property and zoned RM-1. To the west is vacant property is a 30-acre parcel owned by the State of New Mexico which is under a long-term lease by the City of Santa Fe and zoned C-2 General Commercial.

2. General Plan Amendment Approval Criteria

The following addresses the approval criteria for the requested General Plan amendment. To approve a General Plan amendment the following criteria must be met:

- A. consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;

In recent years, the City Council has acted to zone the vacant annexed area between the South Meadows interchange and Agua Fria Village for intensive urban development. The applications are consistent with the Council's designation of the Madera Apartment property west of the Property as R-21. This residential development will provide residential uses for up to approximately 42 gross density, together with accessory uses. Adding 42 gross density homes to the existing housing stock will enhance the Council's desire to provide badly needed housing. Approval of the applications will also increase efficient use of infrastructure that will be developed as part of the approved projects in the immediate vicinity of the Property and will provide for the highest and best use of the Property in light of the City's planning decisions for the area.

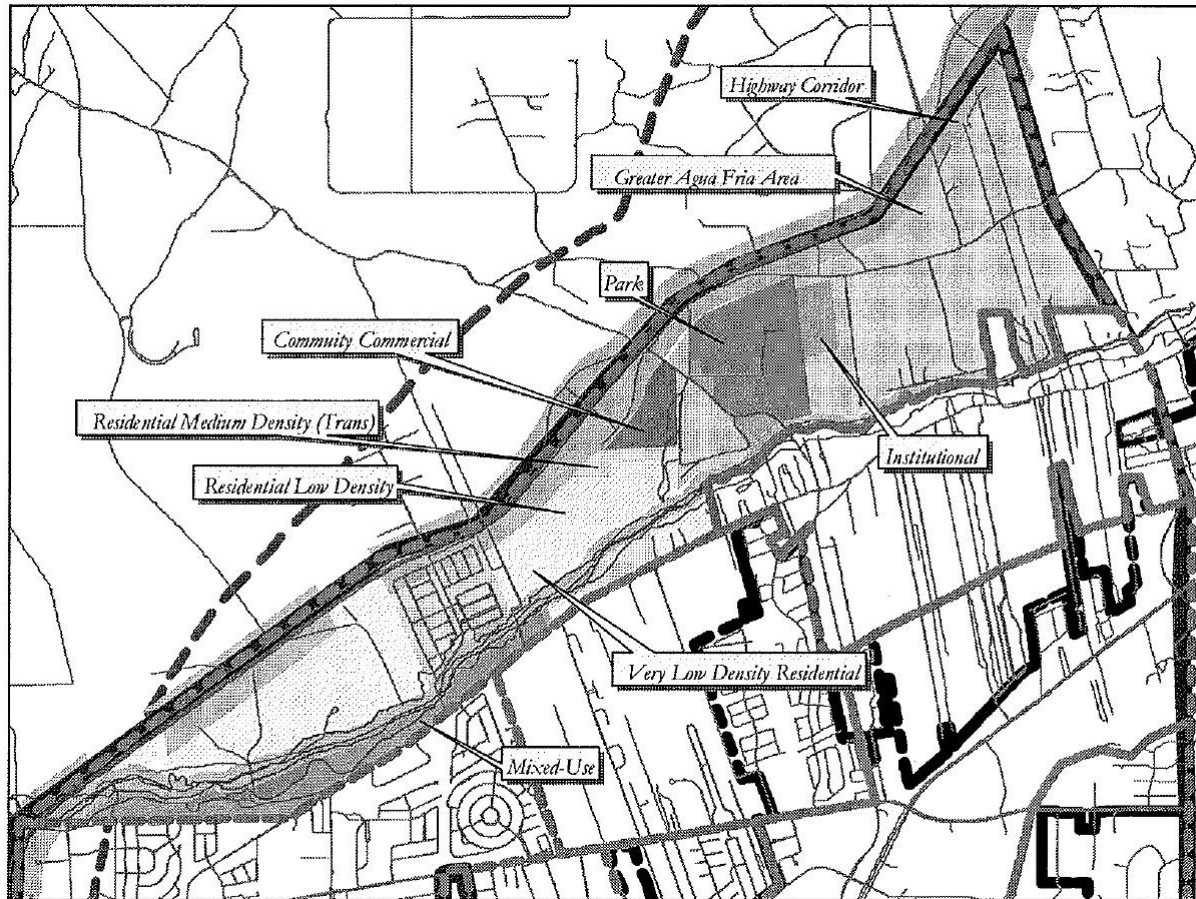

The Property is within the Southwest Santa Fe Community Area Master Plan (SWCAMP) "River Corridor Plan Area – Residential Medium Density (Transitional)" Map 2.6.5:

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 4 of 11

Map. 2.6.5. Proposed Future Land Uses for the River Corridor Plan Area

The proposal is completely consistent with the Plan's future land use designation. The Plan states that new corridor developments are intended to be community focused rather than regional and should integrate with existing and future neighborhoods. (Plan, p. 60) U.S. Census data for 2020 identified that the County of Santa Fe's population was over 150,000; exceeding the Urban Area population increase of 17,000-25,000 residents projected for 2020. This population growth elevated the importance for updated growth management strategies established in the General Plan.

Consistent with the approval criteria that development have "access and availability of infrastructure" the proposed designation and planned community commercial land uses are supported by existing infrastructure including utilities and transportation infrastructure. Making most effective use of areas already planned for community commercial neighborhood-serving development is consistent with the growing need for commercial services in this area.

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 5 of 11

B. consistency with other parts of the general plan;
By approving the “3-7 Dwelling Units” per acre land use designation on the Northern Lots, the City provided policy direction for the residential uses at the scale proposed, namely to provide housing at the R-7 level within the discrete planning area east of the South Meadows/NM 599 interchange. The Application furthers this policy by expanding the amount of land available for residential uses.

Given the City's focus and previous decisions that this area is appropriate for intensive urban development, approval of the applications will enhance the efficient use of existing roadway, water, sewer and other utilities serving this planning area while furthering a compact urban form and efficient development pattern as addressed by Growth Management section of the General Plan. (Chapter 4.1)

The City's selection of this area for intensive urban use makes effective use of the substantial investment in the South Meadows Drive/NM 599 interchange. The intensification of residential uses will provide housing opportunities. Proximity of the interchange and NM 599 provides for more efficient access compared to other areas reliant on the existing city street network for vehicular circulation. The location of the Property and its community residential uses will further the implementing transportation policies of Chapter 6 including decreasing reliance on the automobile by allowing residents to access the commercial uses developing in the area within walking distances to the Property. (Chapter 6)

B.1.Southwest Santa Fe Community Area Master Plan (the "Master Plan"). The Property is located within the Master Plan, which is part of the General Plan. The Property is within the River Corridor Neighborhood Plan area. The following addresses consistency of the GPA application with relevant Master Plan provisions.

The Master Plan recognizes that the neighborhood is and remains the basic building block of the community and that complimentary to the neighborhoods are mixed-use commercial areas located within a reasonable walking distance. (p.5) The Master Plan further states "new neighborhoods should be connected to adjacent commercial areas (or within easy walking or driving distance." (P. 57) As addressed above, the City has recently approved over 400 dwellings east of the NM 599/Veterans Memorial Highway located immediately north, south and west of the Property.

- c. the amendment does not:
 - (i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or

The City's adoption of the Community Commercial future land use designation for the adjacent to the Property on the west demonstrates that designation of an additional 7.01 acres of residential uses will be consistent with the prevailing planned use and character in the area.

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 6 of 11

- (ii) affect an area of less than two acres, except when adjusting boundaries between districts; or

The Application is consistent with this requirement, as the Property is 7.01 acres.

- (iii) benefit one or a few landowners at the expense of the surrounding landowners or the general public;

As addressed above, approval of the amendment will enhance the provision of residential opportunities in close proximity to Community Commercial center., thereby furthering multiple General Plan policies. The requested amendment will enhance the viability of the adjacent residentially designated property.

- D. an amendment is not required to conform with Subsection 14-3.2.(E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;

As indicated by the City's adoption of the Community Commercial future land use designation for the property to the west, the amendment will enhance promotion of the general welfare by increasing the provision of residential uses that will support the Community Commercial uses at an appropriate location within an area of approved medium density residential development.

- E. compliance with extraterritorial zoning ordinances and extraterritorial plans;

The Property and its vicinity were annexed to the City pursuant to the 2008 Settlement Agreement between the City and County, which included adoption of a 20-year urban growth boundary along NM 599. A fundamental purpose of the Settlement Agreement was to direct future urban development to the City thereby relieving pressure for development and associated urban sprawl within the more rural County lands. The Property to the west was zoned residential as part of the annexation process, thereby establishing the City's land use policy for provision of residential uses within this area. The proposed amendment is consistent with and will enhance the provision of residential uses within an area planned and approved for medium density residential use. F.contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development; and

As addressed above, over a decade ago, the City designated the Property residential. Approval of the amendment will enhance the provision of the already approved uses allowed by these designations within a planning.

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 7 of 11

The proposed general plan amendment and rezoning provide an avenue to contribute to a coordinated, adjusted and harmonious development of Santa Fe that benefits an area on the west side of Santa Fe suffering from a lack of services. The proposal and planned uses contribute to the future needs that promote convenience and prosperity of the area contributing to the general welfare, efficiency and economy of an area that the governing body has already planned for community commercial uses.

G. consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.

As addressed in sections A and B 1, above, the Property is located within the SWCAMP. The SWCAMP includes the Property as part of the neighborhood pattern designation and identifies a residential uses for both the Northern and Southern Lots. (Map 2.6.5) Approval of the application would include the Property within the Residential Medium Density – Transition Community Commercial future land use designation. Sections A and B1 address conformity of the proposed General Plan amendment with applicable provisions of the SWCAMP.

(2) Additional Criteria for Amendments to Land Use Policies

In addition to complying with the general criteria set forth in Subsection 14-3.2(E)(1), amendments to the land use policies section of the general plan shall be made only if evidence shows that the effect of the proposed change in land use shown on the future land use map of the general plan will not have a negative impact on the surrounding properties . The proposed change in land use must be related to the character of the surrounding area or a provision must be made to separate the proposed change in use from adjacent properties by a setback , landscaping or other means, and a finding must be made that:

- (a) the growth and economic projections contained within the general plan are erroneous or have changed;
- (b) no reasonable locations have been provided for certain land uses for which there is a demonstrated need; or
- (c) conditions affecting the location or land area requirements of the proposed land use have changed, for example, the cost of land space requirements, consumer acceptance, market or building technology.

The Application proposes only to change the General Plan Future Land Use a minor change in the designation of the Property from Low Density Residential to Medium Density Residential. The Application does not propose any amendments to the land use policies section of the general plan and therefore, the additional criteria set forth in this section do not apply.

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 8 of 11

Nonetheless, the proposal complies with the referenced criteria. As to subsection a, as addressed in section 1 .A, above, residential development subject to the SWCAMP has surpassed its additional density targets. City information indicates that while the SWCAMP projected 2.5 to 10 units per acre, actual development densities range from 5 to 20 units per acre. The proposed general plan amendment reflects a growing community need for residential uses in the previous growth projections.

As to subsection b, the Governing Body has already designated the adjacent 16.3 acres for community commercial development. There is a very limited amount of existing and planned community commercial uses in the area and approval of the general plan amendment will increase the viability and effectiveness of the planning already undertaken by the Governing Body and will serve the 400+ residential dwellings planned and approved in the immediate vicinity.

As to subsection c, as addressed in this letter, there is an increased demand for residential uses on the west side of Santa Fe and the Governing Body has already planned for those uses.

3. Statement Addressing Rezoning Approval Criteria

The following addresses the approval criteria for the requested rezoning. To approve a rezoning:

(a) one or more of the following conditions exist:

(i) there was a mistake in the original zoning;

There was no mistake in adopting the R-3 zoning designation for the Property.

(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or

The 2008 settlement agreement between the City and County of Santa Fe memorialized a mutual policy effort to minimize urban sprawl and direct future urban development within the City of Santa Fe. The South Meadows interchange was built as part of the NM 599 Bypass project in the late 1990's, which created vehicular access to the area east of NM 599 including the Property. The increased residential density (both actual and planned) of surrounding properties for both residential and commercial uses, the City made the policy decision that this area is appropriate for the proposed level of residential uses.

(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;

As addressed above, rezoning the Property from R-1 to R-6 will build on the City's policy decision in designating the area for Medium Density Residential uses as part of

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 9 of 11

annexation of the area to the City when the City made the decision to provide for residential uses within an area planned for Medium Density Residential use. Approval of the Application will maximize returns on the investments made to enact the City-County settlement agreement and to build NM 599 including the South Meadows interchange, providing residential uses within approved neighborhoods and enhancing Santa Fe's compact urban form.

- (2) all the rezoning requirements of Chapter 14 have been met.

We assert that all the rezoning requirements of Chapter 14 have been met. Evidence for this is provided in the other responses provided within this application.

- (3) the rezoning is consistent with the applicable policies of the General Plan, including the future land use map.

In conjunction with and prior to consideration of the rezoning request, the Applicant has requested that the Governing Body the General Plan's Future Land Use Map (FLUM) to change its designation from Very Low Density Residential (1-3 dwellings per acre) to Medium Density Residential. Approval of the General Plan amendment would provide for consistency with this requirement prior to the Governing Body's consideration of the request that the FLUM be amended.

- (4) the amount of land proposed for the rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city.

The city has not quantified the rate and growth over time. As addressed in the response to the first General Plan amendment criteria, above, residential development in the vicinity has surpassed density targets. The proposed rezoning and planned land uses reflect a growing community need for residential uses. The Property exceeds the two-acre threshold set forth in 14-3.5(C)(2)(b).

- (5) the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.

The Property is served by the Highway 599/South Meadows interchange and is in an area of ongoing development. In conjunction with those development activities, streets, sewer and water lines have been and are being extended into the area east of the interchange. Development of the Property is planned to occur in conjunction with development of the adjacent 16.3 acre parcel to the west and such development will be required to ensure provision of streets and services to the project in compliance with Chapter 15. Substantial existing park land exists just to the east of the Property within Romero Park. The closest fire station is Fire Station 8 located at 6796 Jaguar about 2.5 miles from the Property. As

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

August, 2025

Page 10 of 11

the west side of Santa Fe continues to develop, additional fire services in the area will be needed and development of the Property and adjacent 16.3 acre property will generate funds that can be used to maintain adequate levels of fire service.

- (6) Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:
- (a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;
 - (b) affect an area of less than two acres, unless adjusting boundaries between districts; or
 - (c) benefit one or a few landowners at the expense of the surrounding landowners or general public.

Recognizing that the vicinity of the Property has been planned and some residential projects have been approved, the zoning districts and approved projects show that the area on the east side of the South Meadows interchange is planned for a mix of residential and neighborhood-serving commercial uses. The SWCAMP provides a finer level of detail regarding the desired uses. The Plan includes the Property within an area planned for Medium Density Residential designation. Amendment of the General Plan Future Land Use designation for the Property from Very Low Density Residential to Medium Density Residential is part of the Application and the Governing Body will consider that request prior to the rezoning application. Should that request be approved, then the proposed rezoning will be consistent both with the Future Land Use Designation as well as applicable General Plan policies as addressed herein. The 7.01-acre Property is more than 2 acres and therefore meets the requirements of subsection b.

As addressed herein, development of the Property for Medium Density Residential uses will benefit the planned residential development in the immediate vicinity of the Property by providing needed housing. If you have any questions about the application, please let me know.

EARLY NEIGHBORHOOD NOTIFICATION MEETING NOTES

Dear City of Santa Fe Current Planning Division:

Sommer Karnes & Associates on behalf of Montoya y Garcia, LLC, held an Early Neighborhood Notification Meeting on Thursday, April 24, 2025 at 5:30PM via zoom to discuss a proposed General Plan Amendment and Rezoning of the 7.01 acres of property commonly known as Section 31 T17N, R19E, Remaining Portions of Government Lot 17 SHC 1255 ½ TR5, & SHC 1178. The General Plan Amendment application requests that the existing future land use designation for a portion of the property of Very Low Density Residential be changed to Low Density Residential and the rezoning application requests that the existing R-3 zoning be changed to R-7.

City staff were the only attendees at this meeting. No public parties attended the meeting.

Early Neighborhood Notification is intended to provide for an exchange of information between prospective applicants for development projects and the project's neighbors before plans become too firm to respond meaningfully to input.

Lot of Record

ORIGINAL

TOWNSHIP 17 NORTH, RANGE 9 EAST, OF THE NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO DEPENDENT RESURVEY AND SURVEY

A history of surveys and additional information are contained in the field notes.

This plat represents the dependent resurvey of certain small holding claim boundaries in section 31, a portion of the subdivision of section 31 and a certain lot boundary in section 31, designed to restore the corners in their true original locations according to the best available evidence, and a melea-and-bounds survey in section 31, Township 17 North, Range 9 East, New Mexico Principal Meridian, New Mexico.

Except as indicated hereon, the lottings and areas are as shown on the plats approved April 24, 1911, November 16, 1917, December 2, 1993, and August 25, 2000.

Survey executed by William F. Olver, Cadastral Surveyor, beginning December 9, 2006 and completed December 19, 2006, pursuant to Special instructions dated and approved December 16, 2006, for Group No. 1058, New Mexico.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

Santa Fe, New Mexico March 20, 2007

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

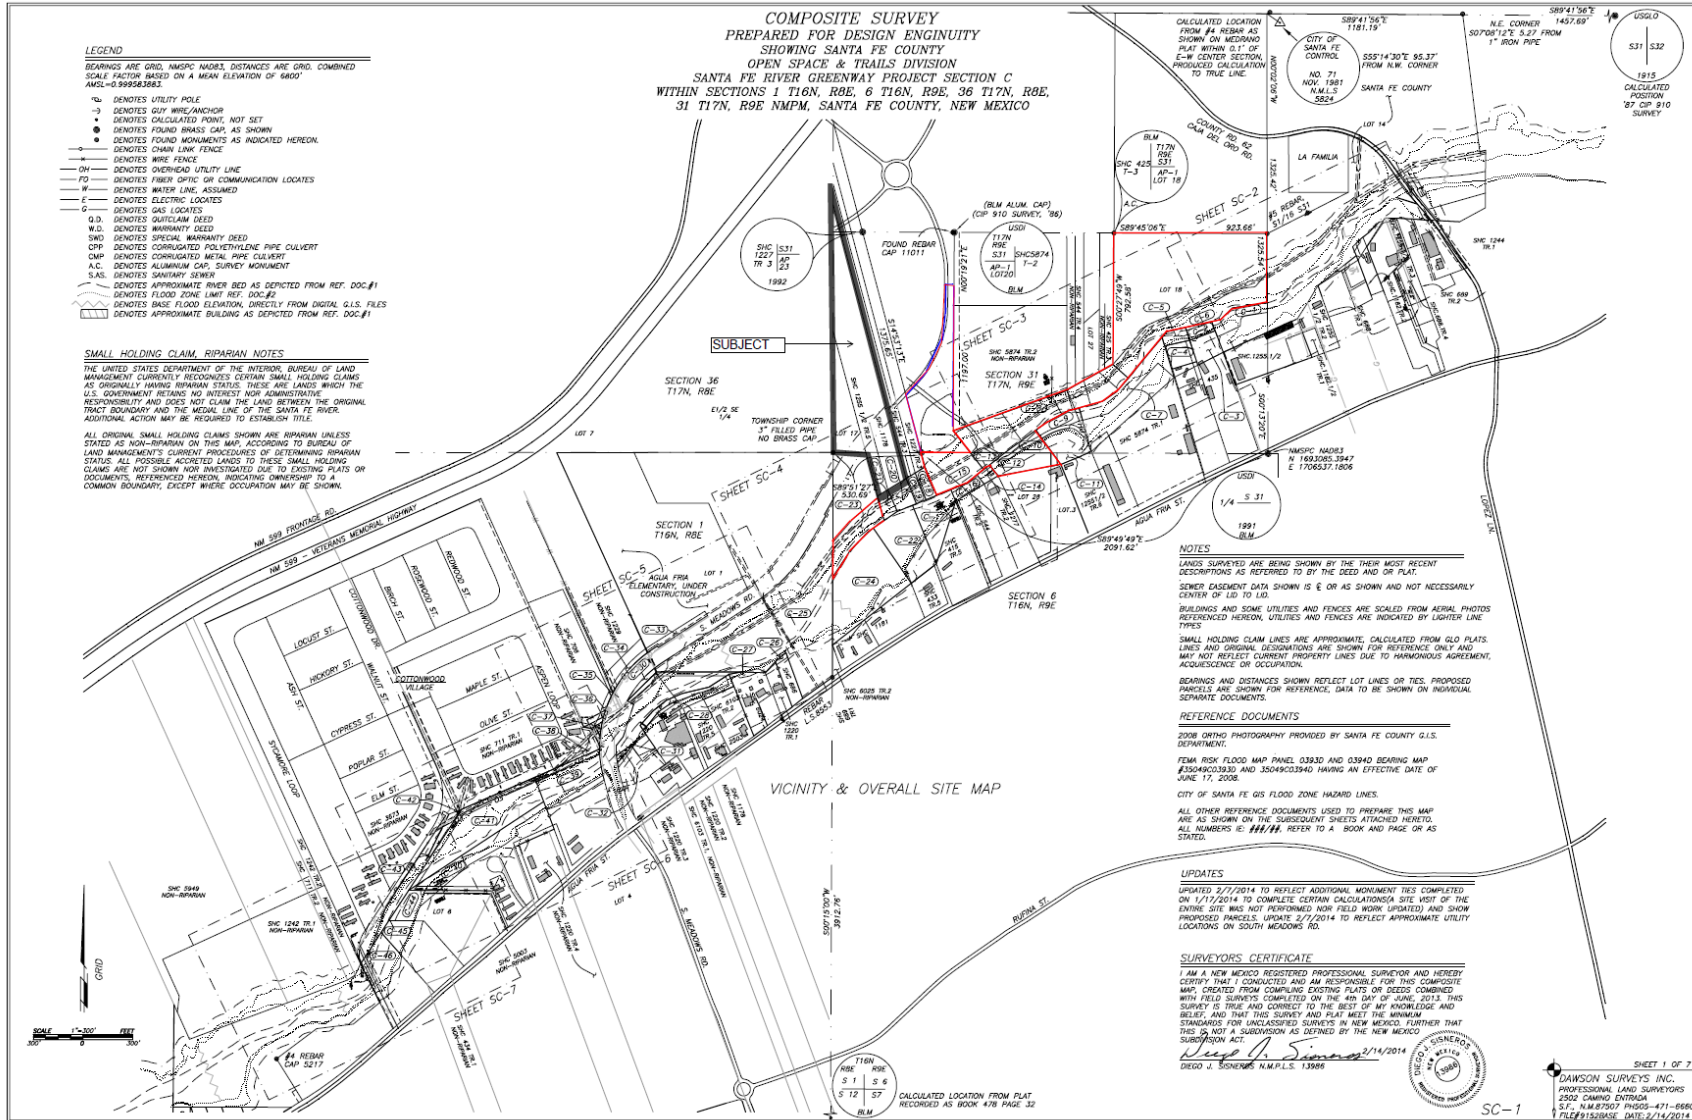

For the Director

Robert A. Casiano

Chief Cadastral Surveyor for New Mexico

			A.P. 17		

A history of surveys is contained in the field notes.

This plat represents the dependent resurvey of a portion of the Fourth Standard Parallel North, a portion of the First Guide Meridian East, and certain small holding claim boundaries in section 31, designed to restore the corners in their true original location according to the best available evidence, and the subdivision of section 31, the survey of a portion of the thalweg of the Santa Fe River in section 31, and the survey of certain lot boundaries in section 31, Township 17 North, Range 9 East, New Mexico Principal Meridian, New Mexico.

Except as indicated hereon, the lottings and areas are as shown on the plats approved April 24, 1911 and September 26, 1919.

Survey executed by Thomas A. Maestas, Cadastral Surveyor, beginning January 10, 1984, and completed April 18, 1992, pursuant to Special Instructions dated August 18, 1993, for Group No. 826, New Mexico.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

Santa Fe, New Mexico December 2, 1993

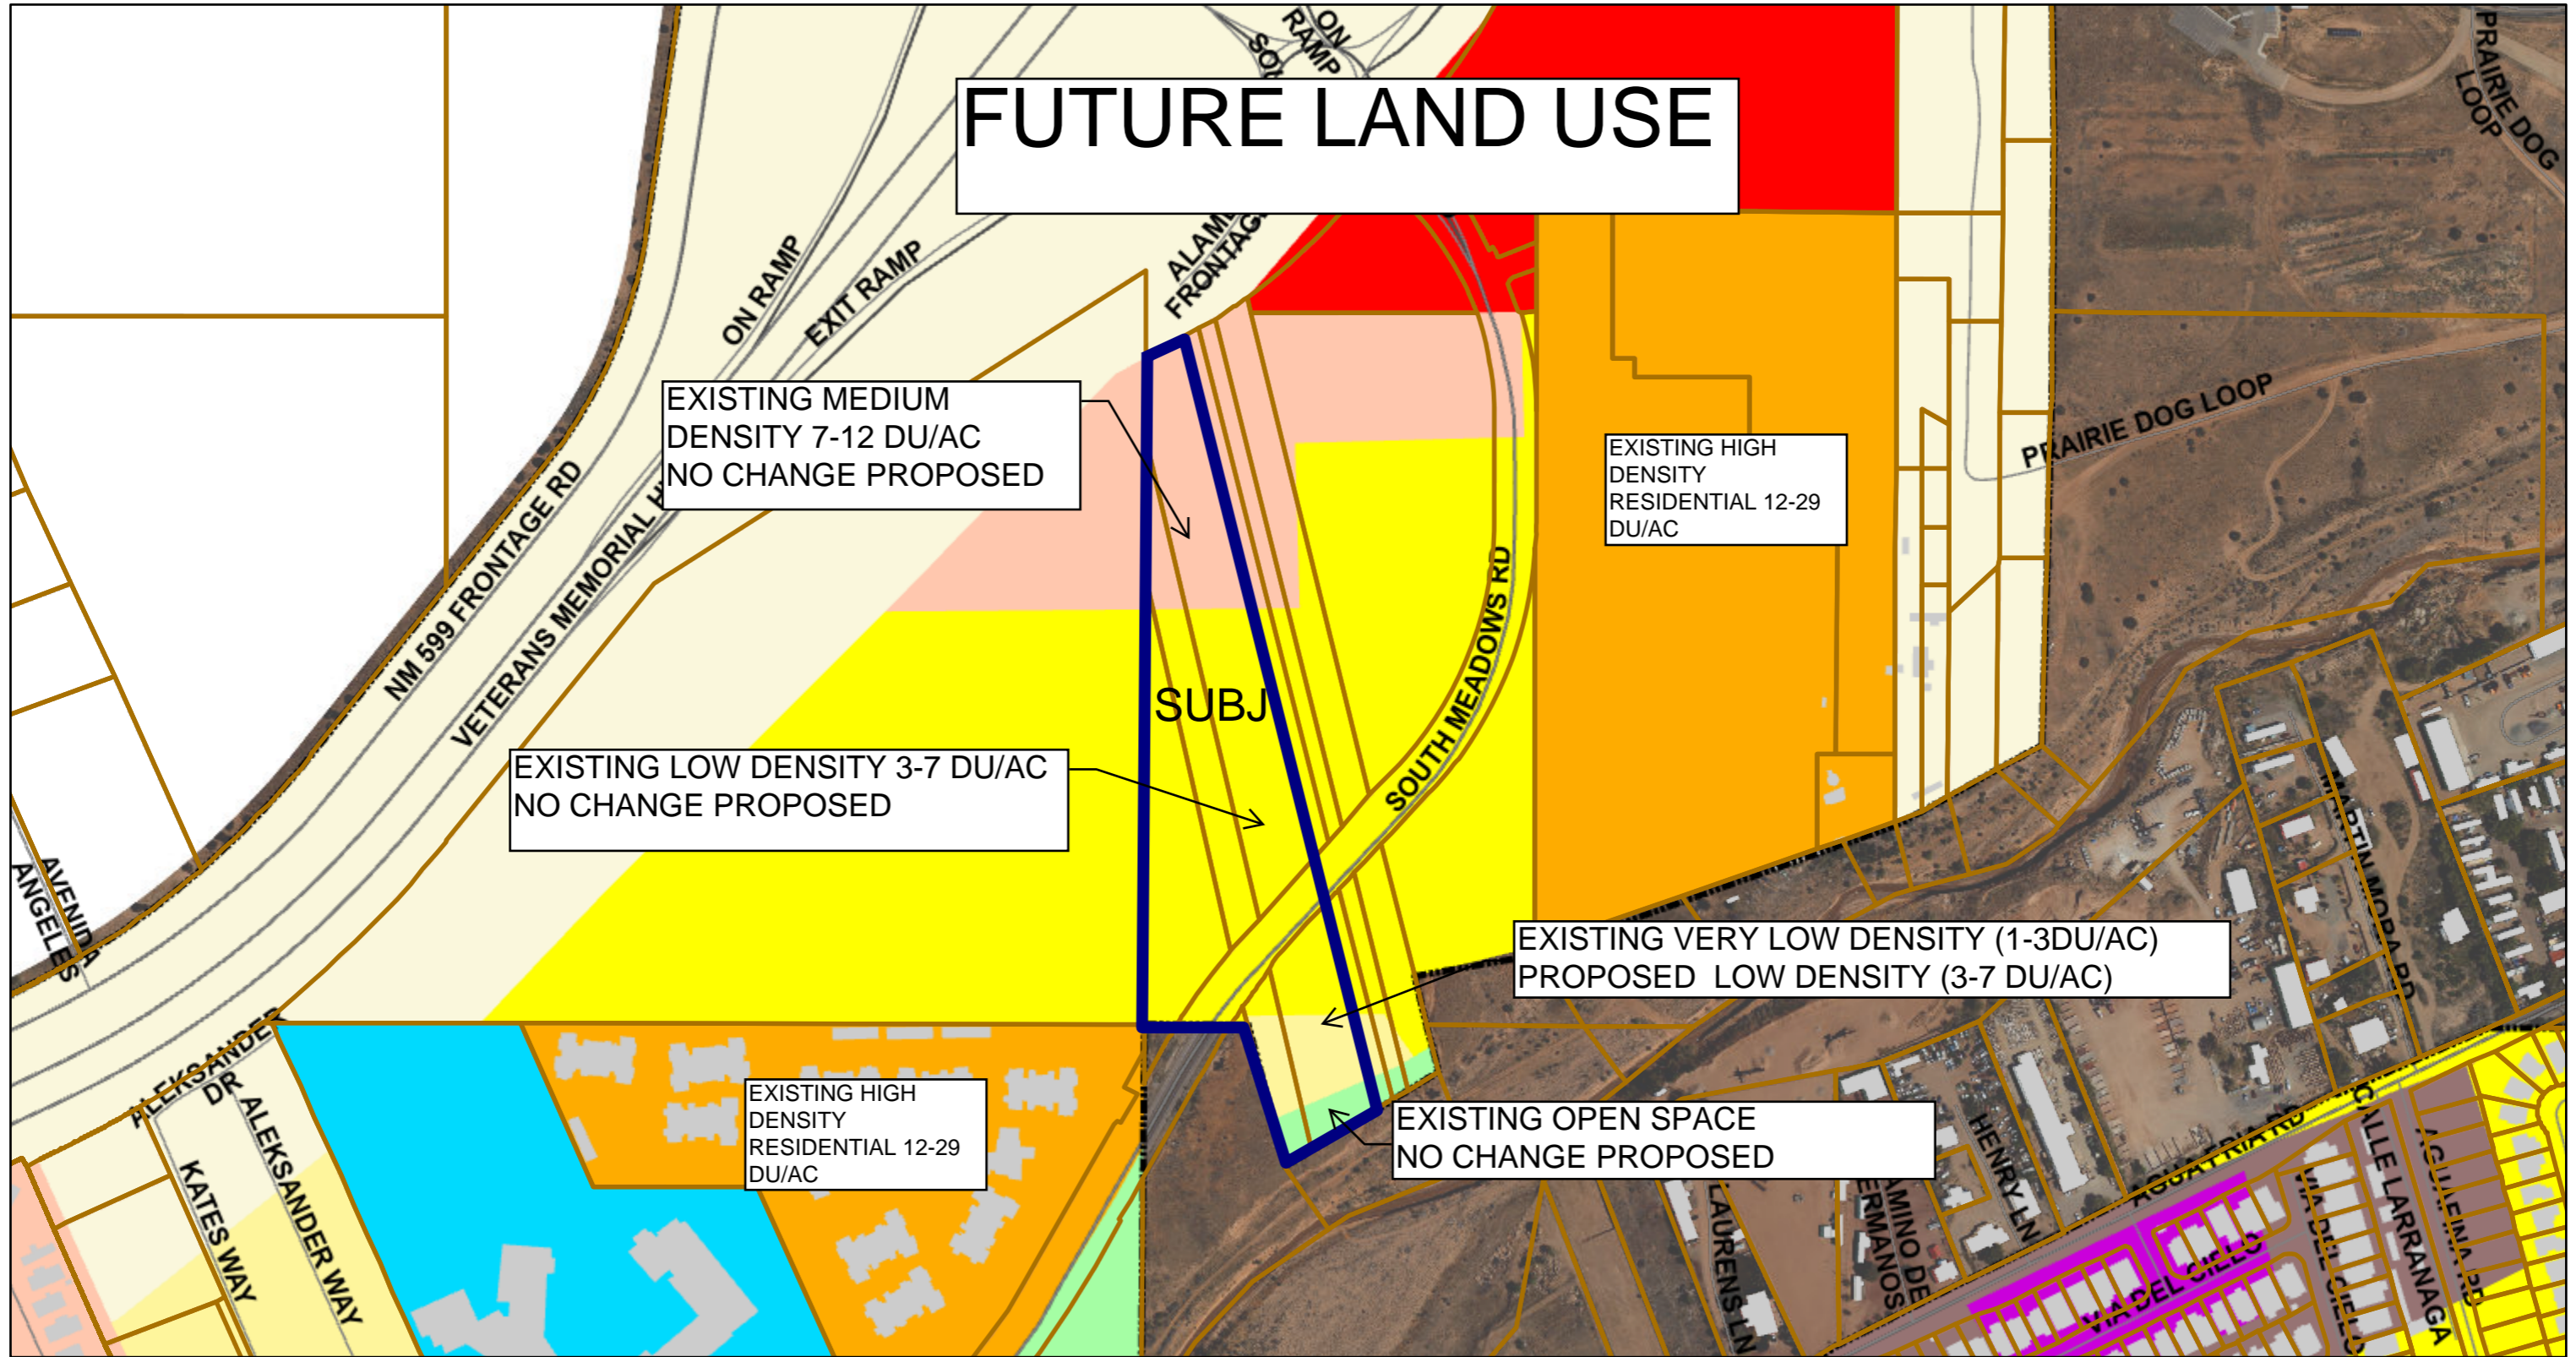

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

1	ADD 2-CME-1	10/01/07	SJT
2	ADD 2-TCP-2	10/01/07	SJT
3			

LARGER PARCEL AREAS SHOWN
DERIVED FROM:
COPIED FROM RECORD PLAT AND/OR
RECORD DEED:
2-1, 2-2, 2-3, 2-4, 2-5, 2-6, 2-7,
2-9, 3-1, 3-3, 3-4
FIELD SURVEY DATA:
2-8, 3-2, 4-1, 4-2, 4-3, 4-4

Right-of-Way Maps Prepared By:
DATE: July, 2007
JOB No. 2006-052

Surveyor's Certificate

I CERTIFY THAT I AM A REGISTERED PROFESSIONAL SURVEYOR AND THAT THESE R/W MAPS ARE AN INTERIM PRODUCT OF PROJECT DESIGN DEVELOPMENT AND WERE PREPARED BY ME OR UNDER MY DIRECTION AND ARE BASED ON ACTUAL FIELD SURVEYS PERFORMED UNDER MY DIRECTION IN JANUARY AND APRIL OF 2007. CONFORMANCE WITH THE STATE OF NEW MEXICO'S MINIMUM STANDARDS FOR RIGHT-OF-WAY SURVEYING WILL OCCUR FOLLOWING ACTUAL ACQUISITION OF RIGHT-OF-WAY REQUIRED BY THE SOUTH MEADOWS EXTENSION PROJECT.

General Notes

1. ALL DISTANCES SHOWN ARE HORIZONTAL GROUND DISTANCES (PROJECT CF = 1.000414431).
2. BEARINGS ARE REFERRED TO GRID NORTH, NEW MEXICO COORDINATE SYSTEM - CENTRAL ZONE, NAD83(1992).
3. BASIS OF BEARING - N 55° 37' 07" E - ALONG THE THE G.S. CONTROL MONUMENT 105522-11' TO THE N.M.D.O.T. CONTROL MONUMENT 105522-07' AS SHOWN ON THE G.S. CONTROL MAP FOR N.M.P. # JM-NH-025-5(102)277, N.M.P. # WNB088-1(UDS) AND N.M.P. # NH-084-2(12)181, SAID CONTROL MAP BEING PREPARED BY WILLIAM A. HIGGINS (UDS) DATED 3/23/06.
4. ALL DISTANCES AND BEARINGS SHOWN HEREON WERE OBTAINED BY MEASUREMENTS MADE BY ME OR UNDER MY DIRECTION.
5. BASIS OF STATIONING FOR NEW ROADWAY CONSTRUCTION CENTERLINE IS SANTA FE COUNTY PUBLIC WORKS DEPARTMENT SOUTH MEADOWS EXTENSION PROJECT.
6. ALL POINT STATION AND OFFSET VALUES ARE BASED ON THE NEW ROADWAY CONSTRUCTION CENTERLINE ALIGNMENT UNLESS OTHERWISE NOTED.
7. FOUND MONUMENTS WERE ACCEPTED THIS SURVEY UNLESS OTHERWISE NOTED.

Legend

- = Found U.S.G.L.O. 3" Iron Pipe (Brass cap missing).
- = Found monument on existing Right-of-Way and/or Property Line(s) as noted.
- = Calculated point on existing Right-of-Way and/or Property Line.
- = Monument to be set in new Right-of-Way line upon completion of construction.

Curve Data

No.	Delta	Length	Radius	Ch. Bearing	Ch. Dist.
C1	07°08'25"	113.41'	910.00'	S33°19'31"W	113.33'

Re: Letter of Application for General Plan Amendment and Rezoning
Montoya y Garcia, LLC – Property Owner and “Applicant”
Section 31 T17N, R19E, Remaining Portions of Government Lot 17 SHC 1255 1/2
TR5, & SHC 1178 (Parcel #'s 910008728, 99312180, 99312181) - the ("Property")

Dear Joel and Dan:

Submitted with this letter are the applications for a General Plan Amendment and Rezoning of the 7.01 acres of property commonly known as Section 31 T17N, R19E, Remaining Portions of Government Lot 17 SHC 1255 1/2 TR5, & SHC 1178. This letter provides background for the application and addresses the City Code approval criteria for both applications. No development is proposed as part of these applications. The General Plan Amendment application requests that the existing future land use designation for a portion of the property of Very Low Density Residential be changed to Low Density Residential and the rezoning application requests that the existing R-3 zoning be changed to R-7. This letter includes assessment of compatibility with the Southwest Santa Fe Community Area Master Plan.

2. General Plan Amendment Approval Criteria

The following addresses the approval criteria for the requested General Plan amendment. To approve a General Plan amendment the following criteria must be met:

- A. consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;

The population of the City of Santa Fe is projected to grow at the rate of approximately 10% over the next ten years. The current population of the City of Santa Fe is approximately 91,000. There is a current housing deficit within the City of Santa Fe multi-family dwellings of 4,500 units and single-family dwellings of 2,500 units. The general plan amendment proposes to increase the range of allowable housing to between 3 and 7 dwelling units per acre. It is consistent with the current needs of the City with respect to housing.

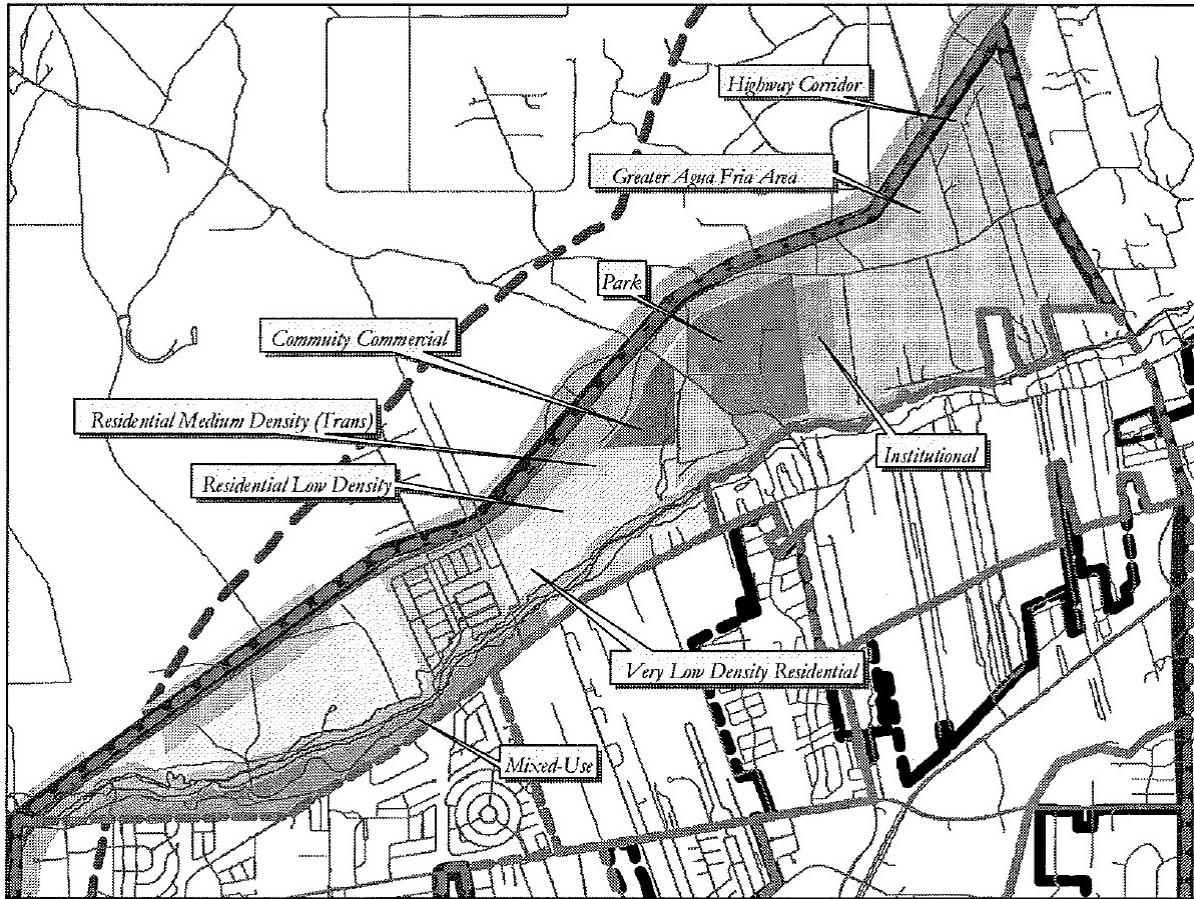

Likewise, the City of Santa Fe Economic Development Plan envisions the ability of the City to attract job creating businesses. The availability of housing is imperative for the implementation of the City's economic development goals. The application is consistent with those goals as well.

In recent years, the City Council has acted to zone the vacant annexed area between the South Meadows interchange and Agua Fria Village for intensive urban development. The applications are consistent with the Council's designation of the Madera Apartment property west of the Property as R-21. This residential development will provide residential uses for up to approximately 50 home, together with accessory uses. Adding 50 homes to the existing housing stock will enhance the Council's desire to provide badly needed housing. Approval of the applications will also increase efficient use of infrastructure that will be developed as part of the approved projects in the immediate vicinity of the Property and will provide for the highest and best use of the Property in light of the City's planning decisions for the area.

The Property is within the Southwest Santa Fe Community Area Master Plan (SWCAMP) "River Corridor Plan Area – Residential Low Density (Transitional)" Map 2.6.5:

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

Page 5 of 11

Map. 2.6.5. Proposed Future Land Uses for the River Corridor Plan Area

The proposal is completely consistent with the Plan's future land use designation. The Plan states that new corridor developments are intended to be community focused rather than regional and should integrate with existing and future neighborhoods. (Plan, p. 60) U.S. Census data for 2020 identified that the County of Santa Fe's population was over 150,000; exceeding the Urban Area population increase of 17,000-25,000 residents projected for 2020. This population growth elevated the importance for updated growth management strategies established in the General Plan.

Consistent with the approval criteria that development have "access and availability of infrastructure" the proposed designation and planned community commercial land uses are supported by existing infrastructure including utilities and transportation infrastructure. Making most effective use of areas already planned for community commercial neighborhood-serving development is consistent with the growing need for commercial services in this area.

SOMMER, KARNES & ASSOCIATES, LLP

Page 6 of 11

- B. consistency with other parts of the general plan;

By approving the “3-7 Dwelling Units” per acre land use designation on the Northern Lots, the City provided policy direction for the residential uses at the scale proposed, namely to provide housing at the R-7 level within the discrete planning area east of the South Meadows/NM 599 interchange. The Application furthers this policy by expanding the amount of land available for residential uses.

Given the City's focus and previous decisions that this area is appropriate for intensive urban development, approval of the applications will enhance the efficient use of existing roadway, water, sewer and other utilities serving this planning area while furthering a compact urban form and efficient development pattern as addressed by Growth Management section of the General Plan. (Chapter 4.1)

The City's selection of this area for intensive urban use makes effective use of the substantial investment in the South Meadows Drive/NM 599 interchange. The intensification of residential uses will provide housing opportunities. Proximity of the interchange and NM 599 provides for more efficient access compared to other areas reliant on the existing city street network for vehicular circulation. The location of the Property and its community residential uses will further the implementing transportation policies of Chapter 6 including decreasing reliance on the automobile by allowing residents to access the commercial uses developing in the area within walking distances to the Property. (Chapter 6)

B.1.Southwest Santa Fe Community Area Master Plan (the "Master Plan"). The Property is located within the Master Plan, which is part of the General Plan. The Property is within the River Corridor Neighborhood Plan area. The following addresses consistency of the GPA application with relevant Master Plan provisions.

The Master Plan recognizes that the neighborhood is and remains the basic building block of the community and that complimentary to the neighborhoods are mixed-use commercial areas located within a reasonable walking distance. (p.5) The Master Plan further states "new neighborhoods should be connected to adjacent commercial areas (or within easy walking or driving distance." (P. 57) As addressed above, the City has recently approved over 400 dwellings east of the NM 599/Veterans Memorial Highway located immediately north, south and west of the Property.

- c. the amendment does not:
 - (i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or

The City's adoption of the Community Commercial future land use designation for the adjacent to the Property on the west demonstrates that designation of an additional 7.01 acres of residential uses will be consistent with the prevailing planned use and character in the area. Additionally, the approved and developed land uses adjoining the property and less than a quarter mile away are all residential uses and are therefore consistent with the prevailing character of the area.

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe

November 10, 2025

Page 7 of 11

- (ii) affect an area of less than two acres, except when adjusting boundaries between districts; or

The Application is consistent with this requirement, as the Property is 7.01 acres.

- (iii) benefit one or a few landowners at the expense of the surrounding landowners or the general public;

As addressed above, approval of the amendment will enhance the provision of residential opportunities in close proximity to Community Commercial center, thereby furthering multiple General Plan policies. The requested amendment will enhance the viability of the adjacent residentially designated property. The amendment will not benefit the owner of the property at the expense of the surrounding landowner because it will enhance the surrounding landowners' use available on their properties, and the added housing will benefit the general public.

- D. an amendment is not required to conform with Subsection 14-3.2.(E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;

As indicated by the City's adoption of the Community Commercial future land use designation for the property to the west, the amendment will enhance promotion of the general welfare by increasing the provision of residential uses that will support the Community Commercial uses at an appropriate location within an area of approved Low density residential development.

As addressed above, over a decade ago, the City designated the Property residential. Approval of the amendment will enhance the provision of the already approved uses allowed by these designations within a planning.

SOMMER, KARNES & ASSOCIATES, LLP

Page 8 of 11

The proposed general plan amendment and rezoning provide an avenue to contribute to a coordinated, adjusted and harmonious development of Santa Fe that benefits an area on the west side of Santa Fe suffering from a lack of services. The proposal and planned uses contribute to the future needs that promote convenience and prosperity of the area contributing to the general welfare, efficiency and economy of an area that the governing body has already planned for community commercial uses.

G. consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.

As addressed in sections A and B 1, above, the Property is located within the SWCAMP. The SWCAMP includes the Property as part of the neighborhood pattern designation and identifies a residential uses for both the Northern and Southern Lots. (Map 2.6.5) Approval of the application would include the Property within the Residential Low Density – Transition Community Commercial future land use designation. Sections A and B1 address conformity of the proposed General Plan amendment with applicable provisions of the SWCAMP.

(2) Additional Criteria for Amendments to Land Use Policies

In addition to complying with the general criteria set forth in Subsection 14-3.2(E)(1), amendments to the land use policies section of the general plan shall be made only if evidence shows that the effect of the proposed change in land use shown on the future land use map of the general plan will not have a negative impact on the surrounding properties . The proposed change in land use must be related to the character of the surrounding area or a provision must be made to separate the proposed change in use from adjacent properties by a setback , landscaping or other means, and a finding must be made that:

- (a) the growth and economic projections contained within the general plan are erroneous or have changed;

As to subsection a, as addressed in section 1 .A, above, residential development subject to the SWCAMP has surpassed its additional density targets. City information indicates that while the SWCAMP projected 2.5 to 10 units per acre, actual development densities range from 5 to 20 units per acre. The proposed general plan amendment reflects a growing community need for residential uses in the previous growth projections.

- (b) no reasonable locations have been provided for certain land uses for which there is a demonstrated need; or

As to subsection b, the Governing Body has already designated the adjacent 16.3 acres for community commercial development. There is a very limited amount of existing and planned community commercial uses in the area and approval of the general plan amendment will increase the viability and effectiveness of the planning already undertaken by the Governing Body and will serve the 400+ residential dwellings planned and approved in the immediate vicinity.

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe
November 10, 2025
Page 9 of 11

- (c) conditions affecting the location or land area requirements of the proposed land use have changed, for example, the cost of land space requirements, consumer acceptance, market or building technology.

As to subsection c, as addressed in this letter, there is an increased demand for residential uses on the west side of Santa Fe and the Governing Body has already planned for those uses.

3. Statement Addressing Rezoning Approval Criteria

The following addresses the approval criteria for the requested rezoning. To approve a rezoning:

- (a) one or more of the following conditions exist:
 - (i) there was a mistake in the original zoning;

There was no mistake in adopting the R-3 zoning designation for the Property.

- (ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or

The 2008 settlement agreement between the City and County of Santa Fe memorialized a mutual policy effort to minimize urban sprawl and direct future urban development within the City of Santa Fe. The South Meadows interchange was built as part of the NM 599 Bypass project in the late 1990's, which created vehicular access to the area east of NM 599 including the Property. The increased residential density (both actual and planned) of surrounding properties for both residential and commercial uses, the City made the policy decision that this area is appropriate for the proposed level of residential uses.

- (iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;

As addressed above, rezoning the Property from R-1 to R-7 will build on the City's policy decision in designating the area for Low Density Residential uses as part of

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe
November 10, 2025
Page 10 of 11

annexation of the area to the City when the City made the decision to provide for residential uses within an area planned for Low Density Residential use. Approval of the Application will maximize returns on the investments made to enact the City-County settlement agreement and to build NM 599 including the South Meadows interchange, providing residential uses within approved neighborhoods and enhancing Santa Fe's compact urban form.

- (2) all the rezoning requirements of Chapter 14 have been met.

We assert that all the rezoning requirements of Chapter 14 have been met. Evidence for this is provided in the other responses provided within this application.

- (3) the rezoning is consistent with the applicable policies of the General Plan, including the future land use map.

In conjunction with and prior to consideration of the rezoning request, the Applicant has requested that the Governing Body the General Plan's Future Land Use Map (FLUM) to change its designation from Very Low Density Residential (1-3 dwellings per acre) to Low Density Residential. Approval of the General Plan amendment would provide for consistency with this requirement prior to the Governing Body's consideration of the request that the FLUM be amended.

- (4) the amount of land proposed for the rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city.

The city has not quantified the rate and growth over time. As addressed in the response to the first General Plan amendment criteria, above, residential development in the vicinity has surpassed density targets. The proposed rezoning and planned land uses reflect a growing community need for residential uses. The Property exceeds the two-acre threshold set forth in 14-3.5(C)(2)(b).

- (5) the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.

The Property is served by the Highway 599/South Meadows interchange and is in an area of ongoing development. In conjunction with those development activities, streets, sewer and water lines have been and are being extended into the area east of the interchange. Development of the Property is planned to occur in conjunction with development of the adjacent 16.3 acre parcel to the west and such development will be required to ensure provision of streets and services to the project in compliance with Chapter 15. Substantial existing park land exists just to the east of the Property within Romero Park. The closest fire station is Fire Station 8 located at 6796 Jaguar about 2.5 miles from the Property. As

SOMMER, KARNES & ASSOCIATES, LLP

City of Santa Fe
November 10, 2025
Page 11 of 11

the west side of Santa Fe continues to develop, additional fire services in the area will be needed and development of the Property and adjacent 16.3 acre property will generate funds that can be used to maintain adequate levels of fire service.

(6) Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:

(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;

Recognizing that the vicinity of the Property has been planned and some residential projects have been approved, the zoning districts and approved projects show that the area on the east side of the South Meadows interchange is planned for a mix of residential and neighborhood-serving commercial uses. The SWCAMP provides a finer level of detail regarding the desired uses. The Plan includes the Property within an area planned for Low Density Residential designation. Amendment of the General Plan Future Land Use designation for the Property from Very Low Density Residential to Low Density Residential is part of the Application and the Governing Body will consider that request prior to the rezoning application. Should that request be approved, then the proposed rezoning will be consistent both with the Future Land Use Designation as well as applicable General Plan policies as addressed herein.

(b) affect an area of less than two acres, unless adjusting boundaries between districts; or

The 7.01-acre Property is more than 2 acres and therefore meets the requirements of subsection b.

(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.

As addressed herein, development of the Property for Low Density Residential uses will benefit the planned residential development in the immediate vicinity of the Property by providing needed housing.

If you have any questions about the application, please let me know.
