RE: **FY25 BAR for Excess Revenue in Community Convention Center**

ITEM AND ISSUE:
Request for Approval of Budget Amendment Resolution (BAR) ; to move excess revenues collected in the Community Convention Center for FY25 through May 29, 2025 in the amount of $663,768.42 into 5206600-570400 Building & Structure Non-Exempt. Quality of Life: 06/18/2025
Finance Committee: 06/23/2025
Governing Body: 06/25/2025

BACKGROUND AND SUMMARY:
FY25 revenues have significantly exceeded budget for the operation income lines for the Community Convention Center. These excess revenues can be beneficially used to support the improvements to the second-floor terrace that has been designed by Beverly Spears, the original facility architect, to make the terrace more usable. The project will remove planters that obstruct much of the floor space on the east portion of the terrace, install a roof over most of this space, install an outside stairwell from the courtyard to the terrace allowing significantly improved access and combined use of the two spaces by larger events and install gates to the courtyard for better event privacy.

Action Requested: <u>Approve amendment #2 to extend the term through June 30, 2026</u>

BACKGROUND AND SUMMARY:
On June 9, 2021, the Governing Body approved a State Capital Outlay Grant Agreement between the City of Santa Fe and the State of New Mexico Department of Finance and Administration Local Government Division for $844,470 **to plan, design, construct and renovate a facility for homeless and below-market renters, including housing and services in Santa Fe**.

The City entered into an agreement with Bella Luz for $844,470 to deliver the scope of work. The performance period originally ended on June 30, 2024. An amendment #1 was approved on June 27, 2024 to extend the term to June 30, 2025.

The City is requesting to extend the contract term to June 30, 2026, due to project delays that have impacted progress, making additional time necessary for completion. This extension ensures the project can move forward. The amendment in this packet presents the new term date by which to complete the project.

ITEM AND ISSUE:
Request for Approval of Amendment No. 1 to the Professional Services Agreement with Bella Luz Apartments 2022 LLLP in the Total Amount of $844,470 for costs associated with planning, designing, constructing, and renovating the Lamplighter Inn to Extend the Term to June 30, 2025. (Cody Minnich, Project Manager, Office of Affordable Housing, cjminnich@santafenm.gov, (505) 955-6574)

BACKGROUND AND SUMMARY:
On June 9, 2021, the Governing Body approved a State Capital Outlay Grant Agreement between the City of Santa Fe and the State of New Mexico Department of Finance and Administration Local Government Division. The appropriation is described as follows: ***to plan, design, construct and renovate a facility for homeless and below-market renters, including housing and services in Santa Fe.*** According to the appropriation, funds can only be utilized at one facility. The funds originally had to be spent down by June 30, 2024.

The Office of Affordable Housing issued a Request for Applications on April 3, 2023. Two applicants responded to the request and were deemed eligible for funding. On May 17, 2023, both applicants presented their applications to the Community Development Commission (CDC).

The CDC recommended the Bella Luz Apartments (Lamplighter) application receive the capital outlay funds, as critical funding gaps have emerged due to project costs increasing by approximately $1,030,000. There is substantial work required to bring the buildings up to modern code and these funds will be crucial to cover gaps in the project's existing funding for rehabilitation costs.

Due to project delays arising from the complexity of the conversion regarding land use approvals and because of federal rescue plan funds being stalled at the state level, the City formally requested an extension of this appropriation during the 2024 legislative session. An extension of the term to June 30, 2025, was approved at the session. The amendment in this packet extends the City's contract to the new term end date.

CITY OF SANTA FE

The Purchasing Memo
Date: June 3, 2025

To: Governing Body, Finance Committee, and Public Works & Utilities Committee

From: Sebastian Gallegos, Project Administrator

Via: Jimmy Gunn, Interim Airport Director

Subject: Santa Fe Regional Airport, Emergency Generator upgrades

Vendor Name: HEI Inc.

Munis Vendor Number: 2385

ITEM AND ISSUE:

The Santa Fe Regional Airport respectfully requests your review and approval of a purchase in the total amount of $352,822.59 for Purchasing and installing 2 new Emergency Generators and moving and reinstalling an existing generator with HEI Inc.

CONTRACT NUMBER:

The FY25 Munis contract number is 3250044

BACKGROUND AND SUMMARY:

The Santa Fe regional Airport is undertaking a key infrastructure improvement project: the upgrade of its emergency generator system. This upgrade is part of ongoing efforts to enhance the airport's resilience, safety, and operational reliability during power outages or emergencies. The current emergency power system, which has served the airport for many years, no longer meets the growing energy demands of modern airport operations. With the expansion of services, facilities, and passenger volume, ensuring uninterrupted power for essential systems, such as communication systems, security infrastructure, and terminal operations, has become increasingly critical. The 2 new generator systems will significantly increase backup power capacity to the entire Air Traffic Control Tower (ATCT), the whole Terminal, and baggage claim area, the existing Cummins Diesel Emergency Generator will be relocated and reinstalled to the Maintenance Shop. This will be done to ensure that vital airport functions can continue during electrical outages caused by weather events, grid failures, or other emergencies. The upgraded generators will be more energy-efficient and environmentally compliant, aligning with the city's broader goals for sustainability and infrastructure modernization.

40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. 40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. DEFINITIONS

Navigation Services: Grantees will be a part of the CONNECT network and will assist clients ages 18 and older in navigating social systems (i.e., housing, food, transportation, utilities, etc.). E. Develop a primary navigation plan with the individual or ensure a "warm hand off" to a CONNECT partner agency navigator who will do so. The navigation plan sets appropriate goals, such as addressing safe and secure housing, food, utilities and transportation, health system enrollment, access and navigation, education and literacy, prevention care and treatment, chronic disease management and effective social and community referrals.
F. Identify community and social resources tailored to the individual's needs and develop and facilitate a network/team to address priorities of the navigation plan, develop sustainable relationships with community resources, provide and document a warm hand off. 38. **Survival**

The Agreement paragraphs titled "Patent, Copyright, Trademark, and Trade Secret Indemnification; Indemnification; and Limit of Liability" shall survive the expiration of this Agreement. Software licenses, leases, maintenance and any other unexpired Agreements that were entered into under the terms and conditions of this Agreement shall survive this Agreement.

39. **Disclosure Regarding Responsibility**

A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty thousand dollars ($60,000.00) with any City for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Agreement. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Agreement. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Agreement pursuant to the conditions set forth in Paragraph 7 of this Agreement.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which

reliance was placed when making an award and is a continuing material representation of the facts during the term of this Agreement. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. The contract sum and contract time shall be adjusted for increases in cost and/or time associated with Contractor's compliance therewith. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. Any compensation requested for which entitlement is granted and the contract sum adjusted, shall have profit included (for work completed) and for cost only (not profit) for Contractor costs incurred directly tied to the suspension itself and not otherwise covered by Contract remedy. Any change in Total Compensation must be reflected in an Amendment executed pursuant to Section 8 of this Agreement.

41. **Notification**

Any written notice required or permitted to be given hereunder shall be deemed to have been given on the date of delivery if delivered by personal service or hand delivery or three (3) business days after being mailed.

This Agreement shall extend to and be binding upon the successors and assigns of the parties.

43. **Entire Agreement.**

This Agreement, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Agreement, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. 45. **Default/Breach.**

In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages and the City may also seek all other remedies under the terms of this Agreement and under law or equity.

46. **Equitable Remedies.**

The Contractor acknowledges that its failure to comply with any provision of this Agreement will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City 's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Agreement shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

Subject to this provision, such non-performance shall not be deemed a default or a ground for termination.

35. **Invalid Term or Condition**

If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

36. **Enforcement of Agreement**

A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Agreement shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

37. **Patent, Copyright and Trade Secret Indemnification**

A. The Contractor shall defend, at its own expense, the City against any claim that any product or service provided under this Agreement infringes any patent, copyright to trademark in the United States or Puerto Rico, and shall pay all costs, damages and attorneys' fees that a court finally awards as a result of any such claim. In addition, if any third party obtains a judgment against the City based upon Contractor's trade secret infringement relating to any product or services provided under this Agreement, the Contractor agrees to reimburse the City for all costs, attorneys' fees and amount of the judgment. To qualify for such defense and or payment, the City shall:

1) give the Contractor prompt written notice within 48 hours of any claim;
2) allow the Contractor to control the defense of settlement of the claim; and
3) cooperate with the Contractor in a reasonable way to facilitate the defense or settlement of the claim.

B. If any product or service becomes, or in the Contractor's opinion is likely to become the subject of a claim of infringement, the Contractor shall at its option and expense:

1) provide the City the right to continue using the product or service and fully indemnify the City against all claims that may arise out of the City's use of the product or service;

2) replace or modify the product or service so that it becomes non-infringing; or,

3) accept the return of the product or service and refund an amount equal to the value of the returned product or service, less the unpaid portion of the purchase price and any other amounts, which are due to the Contractor. The Contractor's obligation will be void as to any product or service modified by the City to the extent such modification is the cause of the claim.

38. **Survival**

The Agreement paragraphs titled "Patent, Copyright, Trademark, and Trade Secret Indemnification; Indemnification; and Limit of Liability" shall survive the expiration of this Agreement. Software licenses, leases, maintenance and any other unexpired Agreements that were entered into under the terms and conditions of this Agreement shall survive this Agreement.

39. **Disclosure Regarding Responsibility**

A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty thousand dollars ($60,000.00) with any City for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Agreement. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Agreement. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Agreement pursuant to the conditions set forth in Paragraph 7 of this Agreement.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which

reliance was placed when making an award and is a continuing material representation of the facts during the term of this Agreement. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. The contract sum and contract time shall be adjusted for increases in cost and/or time associated with Contractor's compliance therewith. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. Any compensation requested for which entitlement is granted and the contract sum adjusted, shall have profit included (for work completed) and for cost only (not profit) for Contractor costs incurred directly tied to the suspension itself and not otherwise covered by Contract remedy. Any change in Total Compensation must be reflected in an Amendment executed pursuant to Section 8 of this Agreement.

41. **Notification**

Any written notice required or permitted to be given hereunder shall be deemed to have been given on the date of delivery if delivered by personal service or hand delivery or three (3) business days after being mailed.

This Agreement shall extend to and be binding upon the successors and assigns of the parties.

43. **Entire Agreement.**

This Agreement, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Agreement, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages and the City may also seek all other remedies under the terms of this Agreement and under law or equity.

46. **Equitable Remedies.**

The Contractor acknowledges that its failure to comply with any provision of this Agreement will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City 's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Agreement shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. When the defects in services cannot be corrected by re-performance, the City may:

(1) require the Contractor to take necessary action(s) to ensure that future performance conforms to the requirements of this Agreement; and

(2) reduce the contract price to reflect the reduced value of the services performed.

E. If the Contractor fails to promptly re-perform the services or to take the necessary action(s) to ensure future performance in conformity with the requirements of this Agreement, the City may:

(1) by contract or otherwise, perform the services and charge to the Contractor any cost incurred by the City that is directly related to the performance of such service; or

(2) terminate the contract for default.

D. Contractor shall maintain the above insurance for the term of this Agreement and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

A party shall be excused from performance under this Agreement for any period that the party is prevented from performing as a result of an act of God, strike, war, civil disturbance, epidemic, or court order, provided that the party has prudently and promptly acted to take any and all steps that are within the party's control to ensure performance. Subject to this provision, such non-performance shall not be deemed a default or a ground for termination.

35. **Invalid Term or Condition**

If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

36. **Enforcement of Agreement**

A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. 37. **Patent, Copyright and Trade Secret Indemnification**

A. The Contractor shall defend, at its own expense, the City against any claim that any product or service provided under this Agreement infringes any patent, copyright to trademark in the United States or Puerto Rico, and shall pay all costs, damages and attorneys' fees that a court finally awards as a result of any such claim. In addition, if any third party obtains a judgment against the City based upon Contractor's trade secret infringement relating to any product or services provided under this Agreement, the Contractor agrees to reimburse the City for all costs, attorneys' fees and amount of the judgment. The Contractor's obligation will be void as to any product or service modified by the City to the extent such modification is the cause of the claim.

38. **Survival**

The Agreement paragraphs titled "Patent, Copyright, Trademark, and Trade Secret Indemnification; Indemnification; and Limit of Liability" shall survive the expiration of this Agreement. A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty thousand dollars ($60,000.00) with any City for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Agreement. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Agreement. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Agreement pursuant to the conditions set forth in Paragraph 7 of this Agreement.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which

reliance was placed when making an award and is a continuing material representation of the facts during the term of this Agreement. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. The contract sum and contract time shall be adjusted for increases in cost and/or time associated with Contractor's compliance therewith. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. Any compensation requested for which entitlement is granted and the contract sum adjusted, shall have profit included (for work completed) and for cost only (not profit) for Contractor costs incurred directly tied to the suspension itself and not otherwise covered by Contract remedy. Any change in Total Compensation must be reflected in an Amendment executed pursuant to Section 8 of this Agreement.

41. **Notification**

43. **Entire Agreement.**

This Agreement, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Agreement, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. 45. **Default/Breach.**

In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages and the City may also seek all other remedies under the terms of this Agreement and under law or equity.

46. **Equitable Remedies.**

The Contractor acknowledges that its failure to comply with any provision of this Agreement will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City 's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Agreement shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. I. INTRODUCTION

A. PURPOSE OF THIS RFP

The purpose of this RFP is to solicit sealed proposals to establish a contract through competitive negotiations for the procurement of professional services for data consultation using a Results Based Accountability framework to support Human Services Committee and Children and Youth Commission grantees.

B. BACKGROUND INFORMATION

The Human Services Committee was formed by Governing Body Resolution in 1987 and is charged by the City of Santa Fe Ordinance (2016) to advise and recommend health and human service policies, assess and advocate for human service needs, coordinate resources to maximize cost-effectiveness, evaluate local human service programs, provide technical assistance to programs, and make funding recommendations to the Governing Body to support nonprofit organizations that provide and maintain a safety net of services to meet the essential health and human service needs of individuals age 18 and over who reside in Santa Fe.

The Committee receives 2% of the gross receipts tax (GRT) and administers the Human Services Fund which is awarded to local nonprofits through a three-year funding cycle at approximately $1.2 million annually. The funding amount varies due to GRT fluctuations. The Committee works in partnership with the Youth and Family Services Division staff liaison to effectively describe, plan, coordinate, sustain, and improve health and human services in Santa Fe.

In 2018, the Human Services Committee adopted the Results-Based Accountability (RBA) methodology to develop a strategic framework that identifies funding priorities and related health and social determinant indicators for community health improvement. The Human Services Committee gathered information on critical community health status and inequities identified through qualitative and quantitative data, needs assessments and information gathering.

The Results-Based Accountability Framework identifies the desired *results in mind* for the Human Services Committee's four funding priority areas:

- Adult Health
- Behavioral Health
- Community Safety
- Equitable Society

The Children and Youth Commission was formed by Governing Body Resolution 1989 and is charged by the City of Santa Fe Ordinance (1998) with surveying and assessing the needs of the children and youth within the city of Santa Fe; identifying and recommending to the governing body existing legislation, policies and programs that promote the healthy development of young people; determining priorities for program development, advocating in the community on behalf of children and youth; and planning short and long range improvements for young people, from birth through the age of twenty-one (21).

The Commission receives 3% of the City's gross receipts tax (GRT) and administers the Children and Youth Fund which is awarded to local nonprofits through a three-year funding cycle at approximately $1.2 million annually. The funding amount varies due to GRT fluctuations. The purpose of the fund is to support community programs that promote the healthy development of children and youth, ages birth to twenty-one (21). The Commission works in partnership with the City liaison of the Youth and Family Services Division to provide advice on ways to effectively plan, coordinate and support children and youth related efforts in the Santa Fe community. Plans and policies are presented to the governing body for approval.

In 2019, to create effectiveness and efficiency in the funding and community work that comes out of the Youth and Family Services Division, the Santa Fe Regional Juvenile Justice Board successfully merged with the Children and Youth Commission. The Santa Fe Regional Juvenile Justice Board brings extensive knowledge on opportunity and juvenile justice involved youth as well as $198,000.00 in state Children, Youth and Families Department (CYFD) Juvenile Justice Prevention funding.

The newly merged Commission strives to see positive results in the lives of community members - including improved health, improved behavioral health, improved sense of safety, and more equitable access to the kinds of opportunities that allow all constituents to achieve their full potential. The Commission is working towards affecting the overall health, safety, and quality of life of all children in Santa Fe.

In 2019, the Children and Youth Commission adopted the Results-Based Accountability (RBA) methodology to address some of the community's most urgent needs. The Commission also identified shared values, guiding principles and developed vision and mission statements.

The Results-Based Accountability Framework identifies the desired *results in mind* for the Children and Youth Commission's three funding priority areas:

- Safety and Basic Needs
- Early Childhood and Supplemental Education
- Youth Wellness

Results-Based Accountability (RBA) is a disciplined way of thinking and acting to improve entrenched and complex social problems. Communities use this methodology to improve the lives of children, youth, families and adults. RBA is used by grantees funded by the City of Santa Fe's Youth and Family Services Division to measure the impact of programs and services being provided.

RBA is the use of data-driven, decision-making processes to support communities or organizations in moving past assessing needs and towards implementing actionable steps to address identified issues within a community. One key distinction of RBA is how population and performance measures are identified and how this information then determines how impact is measured.

Results-Based Accountability (RBA) can support policymakers, funders, and program administrators to:

- Identify how well programs are doing
- Determine where programs might need to make changes
- Hold programs accountable for performance
- Identify what changes will be needed to "turn the curve"

C. SCOPE OF PROCUREMENT

The City of Santa Fe Youth and Family Services Division is soliciting proposals from data experts, evaluators, or other professionals in the field of social work, sociology, and/or public health. The solicitation is for up to four-year contract worth up to $100K per year in the areas of Program Evaluation, Data Collection, Analysis, and Reporting to assist nonprofit grantee organizations contracted by the Human Services Committee and Children and Youth Commission through the City of Santa Fe. The contractor will:

All coordination and planning with the City should be completed prior to the Clarification Phase Summary Presentation meeting on the RFP Sequence of Events.

9. Best and Final Offers

This RFP process will allow for Best and Final Offers (BAFO) from finalist Offerors. Specifically, Offerors should provide their strongest possible pricing in initial proposals, as we expect competitive submissions upfront. However, we reserve the right to re-open negotiation by requesting BAFO under the schedule outlined in Sequence of Events, or on an accelerated timeline from finalists. The purpose

A. DESCRIPTION OF EVALUATION

To ensure that a proposal is complete and addresses all key RFP issues, proposals must adhere to the following format. Proposals shall be organized into the following sections, in the order listed, and inclusive of all requested information:

a) **Proposal Cover Page, Declaration and Checklist.** Offerors will prepare and submit the Proposal Cover Page, Declaration and Checklist (Attachment A).

b) **Key Offeror Project Lead.** Using Attachment E, complete the Key Personnel Lead Proposal Form. The Offeror shall provide the name of the Primary Project Lead (the personnel must be the person who will be interviewed if shortlisted) that the Offeror proposes to execute the project pursuant to a resultant contract.

c) **Project Cost Proposal Form.** The Offeror will prepare and submit a cost proposal and breakout (see Attachment F). Attachment F must be submitted in a separate electronic document from the rest of the proposal. The rest of the proposal shall not include any financial information regarding the overall project. Any financial information associated with a Value Add (Attachment G2) can be included in that section and will be seen by the Evaluation Committee.

d) **Project Capability (PC) Submittal.** The Project Capability Submittal has two components: Scope/Level of Expertise Plan (SC/LE), and Value-Added Plan (VA). (See Attachments G, G1 and G2).

i. Purpose of PC Submittal

i. Assist City in prioritizing Offerors' submittals based on their scope, expertise, and ability to understand and deliver the intended project.
ii. Provide high performing Offerors the opportunity to differentiate themselves from their competitors due to their experience and expertise by using verifiable performance metrics and previous relative project performance results.

ii. PC Submittal Format Requirements

i. PC submittal must NOT contain any names that can be used to identify who the Offerors are (such as firm names, personnel names, Project names, or product names).
ii. A PC proposal template is included in this RFP. This document must be used by all Offerors. Offerors are NOT allowed to re-create, re-format, or modify the template in any manner. Offerors must type their responses on the Word template provided.
iii. Failure to comply with any of the PC format requirements may result in disqualification.
iv. The PC submittal shall not contain any marketing information. The submittal should be used to prove to the City that the Offeror has expertise for the specific project being proposed on.
v. References used in the PC submittal must be listed in the Attachment H Reference List. The Reference List is not seen by the Evaluation Committee until after PC submittal evaluations are performed.

iii. <u>Overview of the Scope/Level of Expertise Plan</u> - The Scope/Level of Expertise Plan is to allow Offerors to differentiate themselves based on their technical capability and understanding of the City's specific needs. It should summarize the metrics that show the Offeror can accomplish the

subject project with the Scope defined by past experiences on similar projects. Offerors should identify scope claims based on their expertise and experience supported by verifiable performance metrics that show the capability to this specific project environment and requirement. All cost associated with technical capabilities listed in the SC/LE plan must be included in the proposed base project cost (see Attachments F and G1).

iv. Overview of the Value-Added Section - The purpose of the Value-Added Plan is to provide Offerors with an opportunity to identify any value-added options or ideas that may benefit the City at a change in cost or revenue. These options or ideas may also be referred to as additional or optional services. Where applicable, the Offeror should identify: 1) what the City may have excluded or omitted from its scope; and 2) how these options or ideas have been successful through verifiable performance information of previous projects. The Offeror should list the cost and time impact of its options or ideas. All cost and revenue impacts associated with these Value-Added options (Attachment G2) must NOT be included in the proposed base Cost (see Attachment F).

v. Reference List - There will be a designated area on both the Scope/Level of Expertise Plan and Value-Added Plan where performance claims are supported by an indicated reference. As the PC submittals are anonymous, the reference will be indicated only by a reference number which corresponds to the matching number on the Reference List (Attachment H).

vi. Interviews – The city may shortlist (if necessary) the top-rated Offerors. The shortlisted Offerors (if necessary) will be required to participate in an interview to evaluate expertise. This is not a presentation. The Evaluation Committee will interview the Key Personnel Lead on the Interview date specified in the Project Procurement Schedule. The individual is required to be in person for the interview. A second individual may be present (standby) to clarify Pricing Proposal if requested

e) Local Preferences.

To qualify for a local preference, an Offeror must attach a state of New Mexico Taxation and Revenue Department-issued, Resident Business certification of eligibility to its proposal, showing that the business is located within the Santa Fe municipal limits. If a proposal is received without a copy of the appropriate State of New Mexico Taxation and Revenue Department issued preference Certificate, the preference will not be applied. A valid resident business certificate is issued by the Taxation and Revenue Department pursuant to NMSA 1978, Section 13-1-22.

a. When the City makes a purchase using a formal RFP process, not including contracts awarded on a point-based system, the City shall award an additional 3% of the total weight of all the factors used in evaluating the proposal to a local resident business. The City shall award an additional 3% of the total weight of all the factors used in evaluating the proposal to a business with all resident business subcontractors.
b. When the City makes a purchase using a formal request for proposals' process and the contract is awarded based on a point-based system, the City shall award additional points equivalent to 3% of the total points possible to a local resident business. The City shall award an additional 3% of the total possible points to a business with all resident business subcontractors.

The maximum available local preference shall be 6% on projects funded by the city.

A. Solicitations above One Million Dollars ($1,000,000)

a. The City shall deem a proposal submitted by a resident business to be 6% lower than the bid submitted, if and only if at least 50% of the subcontracted services go to subcontractors who are resident businesses.

b. The City shall deem the proposal submitted by a non-local resident business to be 3% lower than the bid submitted, if and only at least 50% of the sub- contracted services go to subcontractors who are resident businesses.

The Local Preferences shall not apply if the expenditure for the resulting agreement includes federal funds.

Only one submitted preference will be applied per solicitation, not multiple. Applications are available for download at: http://www.tax.newmexico.gov/Businesses/in-state-veteran-preference-certification.aspx

B. PROJECT REVENUE CONTROLS OF THE BEST VALUE APPROACH (BVA)

There are two revenue controls in the BVA including:

a) Best Value Check: After the prioritization of Offerors, if the best value Offeror is within 15% of the next best value cost proposal, the best value Offeror will be prioritized first. If not within the range, the best value Offeror will attempt to justify why they should be awarded the contract. If the justification is clear to the Evaluation Committee, they will move into the clarification period.

b) Selection Check: Before the contract is awarded, an evaluation committee report must be given for the best value Offeror. If the justification is not sufficient, the award may go to the next best value who has met all the requirements of the BV approach. The Selection Check will provide the justification for hiring the highest prioritized Offeror. The Offeror selected for an award will be the one whose proposal is responsive, responsible, and is the most advantageous to the City, as determined by the City in its sole discretion.

C. CLARIFICATION

The potential best value Offeror will be required to complete the Clarification Phase as outlined in the Clarification Phase Guide (Attachment I). The intent of this phase is to allow the Offeror an opportunity to clarify their proposal, address any issues or risks, any concerns to be resolved, develop a Weekly Risk Report (Attachment J), and prepare a presentation for the Clarification Meeting.

D. AWARD

The City will notify each Offeror in writing of the City's decision.

a) The City reserves the right to reject any or all proposals and to award more than one Offeror. The decision of the RFP award by the City is final.

b) The City, at its sole discretion, may decide to take no procurement action as a result of the RFP and/or may re-issue all or portions of the RFP.

c) The City reserves the right to accept or reject without consideration proposals that do not meet the full requirements of the RFP.

The final award is dependent upon the Offeror's Scope of Work (SOW) being acceptable to the City. Proposals and contents provided by the Offeror will be considered contractual obligations. Any new or unique requirements in proposals can be added or amended, at the City's sole option, and may be included in the final contract. Obligations of confidentiality will be an important condition of any resulting contractual arrangement. The selected Offeror and all employees performing duties on this project will be required to keep all aspects of this project in confidence.

All Offeror's performance will be tracked by the Department POC through the Weekly Risk Report System (See Attachment J).

ATTACHMENT I – CLARIFICATION PHASE GUIDE

1. OVERVIEW

a. The Clarification Phase is not a negotiation phase. Offerors will not be permitted to modify their cost/fee/financial rates, project durations, or project team unless the City requests changes. The Clarification Phase is started by the notification of the Prioritized highest scoring Best Value Offeror and ended by the final presentation to the City after all issues have been addressed. If the City is not satisfied during the Clarification Phase, or upon completion of the First Clarification Meeting and Clarification Summary Meetings, the City may consider another Offeror for potential award (this Offeror would also have to participate in a Clarification Phase). If the Offeror provides all required documents and meets the requirements of the city with the potential Best-Value Offeror, The City may proceed with award.

b. The Clarification Phase is carried out prior to the signing of the contract. The City's objective is to have the products/services maximized without any Offeror price increases, and with high customer satisfaction. At the end of the contract period, the City will evaluate the performance of the Offeror based on these factors, so it is very important that the Offeror pre-plans the project and utilizes the Weekly Risk Report to mitigate risk.

c. It is the Offeror's responsibility to ensure they understand the scope of their product/service offering and to clearly identify what they are delivering. It is the Offeror's responsibility to manage and mitigate the risk of their offering. It is the City's responsibility to ensure that it conveys any potential concerns and issues before the contract is signed.

d. The Clarification Phase provides the Offeror with an opportunity to identify their scope with a detailed specification and a simplified list of their tasks and financial streams. The City has the right to accept or reject this proposal. The City also has the right to identify its perceived risks, concerns, and issues which it will require the Offeror to mitigate and manage. The major deliverables in the Offeror's scope of services in the Clarification Phase include:

   i. Proposed detailed plan from beginning to end.
   ii. Integrated cost/time schedule that the BV Offeror will use to track cost/time deviations.
   iii. Simplified milestone schedule that non-technical stakeholders can follow to track deviations.
   iv. A Cost Proposal presented in two ways: milestone schedule and major areas.
   v. If any risk is identified, the Offeror must ensure that meeting minutes identify that the Offeror has a mitigation plan for the perceived risk to their proposed plan.
   vi. A Weekly Risk Reporting System (WRRS, Attachment J), which will track the implementation or delivery of the service. The service should never be executed without a Purchase Order (PO) and the WRR. The Offeror will be responsible for using the WRR to track the performance of the project, update the WRR, and send all stakeholders a copy of the WRR on a weekly basis. The WRR shall include updated: 1) cost and schedule status, 2) milestone schedule status, 3) project cost and time deviations, 4) risk mitigation and other performance metrics.

2. PRE-PLANNING AND COORDINATION

a. Offerors may be required to provide the City with supporting documentation for any information listed in their submittals before entering the Clarification Phase.

b. The City requires that the Offeror attend a First Clarification Meeting to present its proposal and to identify additional issues or concerns that the City may have. It is also an opportunity to meet all

participants who may be a stakeholder in the project. The Offeror is required to perform the following functions as part of, or in preparation for, this Meeting:

i. Ensure that the City has invited all its stakeholders and participants to the meeting (including the City, sub-Offerors, designer / AE, interested parties, etc.).
ii. Present the scope of services (schedule, cost, deliverables, etc.).
iii. Identify the City's responsibilities.
iv. Propose the Weekly Risk Report (WRR) format.
v. Field questions and concerns from City stakeholders.
vi. Listen to concerns, issues, and comments from the City stakeholders.
vii. Propose a schedule to finalize the Clarification Phase and the contract documents.

c. Once the First Clarification Meeting is held, and if the City is comfortable with the offer, the Clarification Phase begins. The Offeror may be required to complete the following:
   i. Revisit the site/buildings/campus to do any additional investigation.
   ii. Coordinate with all parties that will be involved with the delivery of products/services.
   iii. Resolve concerns and issues with mitigating actions. Prepare to summarize resolutions in the final Clarification Phase Summary Presentation meeting.
   iv. Finalize the Clarification Document (contract, WRR, payment schedule, scope of work).

3. CLARIFICATION DOCUMENT

The final Clarification Document will include the following:

a. Executive Summary - high level summary of scope documents that clearly addresses what is in scope [being delivered] and what is out of scope for the project.
b. Finalized scope documents which include details on how the tasks will be completed.
c. Description of the end deliverable in terms of simplified metrics.
d. Detailed scope descriptions– A specific breakout of every action required for the Offeror to perform the work. Including all activities required by the Offeror, City and stakeholders to perform the work, inclusive of a detailed schedule and milestone schedule.
e. Weekly Risk Report format (WRR)
f. Project financial summary.
   i. The Offeror's Original Price Proposal.
   ii. A list of agreed/accepted Value-Added Options (with impact to price)
   iii. A list of agreed upon Scope Changes or Additional Work with impact to price.
   iv. A Price Breakout and Payment Schedule.
g. Project and emergency contact list.
h. PowerPoint presentation that describes the scope of the project in terms of cost, time, deliverables and how the deliverables acceptance will be decided.

4. FINAL CLARIFICATION MEETING

a. The Final Clarification Meeting is held at the end of the Clarification Phase and is used to present a summary of what was developed and agreed upon during the Clarification Phase. The final Clarification meeting is not a question-and-answer session. The Offeror and City stakeholders must not wait for the meeting to ask questions. All coordination and planning with the City should be completed prior to the Clarification Phase Summary Presentation meeting on the RFP Procurement schedule.

b. The Offeror should give a presentation, which walks the City through the entire contract period and summarizes all of the coordination and planning done during the Clarification Phase. The Offeror should bring its team and all the documents specified in the Clarification Document. The Offeror should come with documents explaining what the City is responsible for during the contract period. The Offeror must convince the City that they have minimized or mitigated all risks and will not be surprised once the service/production begins. The Clarification meeting presentation (and meeting minutes, if applicable) will become part of the contract along with the other documents from the Clarification Phase.

ATTACHMENT J – WEEKLY RISK REPORTING SYSTEM GUIDE

Overview

The Weekly Risk Reporting System (WRRS) is a companion to the Quality Control Plan that is created by the best value Offeror during the Clarification Phase. The report serves as a tool for the City in analyzing the performance of the Project based on risk. The WRRS does not substitute or eliminate weekly progress reports or any other traditional reporting systems (that the Offeror may do).

The purpose of the WRRS is to allow the Offeror to document and manage all risks that occur throughout a project. Risk is defined as anything that might impact the project scope, cost, and schedule. This includes risks that are caused by the Offeror (or entities subcontracted by the Offeror), and risks that are caused by the City (scope changes, unforeseen conditions, etc.). The City's Project Manager may also require the Offeror to document risks that may impact the City satisfaction.

Submission

The weekly report is an Excel file that must be submitted every week. The report is due every week once the Contract Award is issued, until the Project is 100% complete (and final payment is made). The Excel spreadsheet will be available from the City upon request.

The completed report must be saved using the date and name of the Project given by the City (Format: YYMMDD_Project Name; For example, HCM Project' for the week ending Friday, Oct 7, 2021, should be labeled '211007_HCM Project'). Weekly Reports are to be emailed by Monday.

The weekly risk report consists of reporting the project performance metrics, cost, scope changes or unforeseen events that are risks to the project in terms of scope and cost deviations, or City satisfaction including any risks that could potentially develop into an issue. When a new risk is identified, it is added to the weekly risk mitigation log.

When a risk has become an issue and causes deviation to project cost, time or quality, it is added to a project deviations log, along with the following: Identification date (date the issue was identified), plan to resolve issue, resolution due date, impact to critical path or schedule (in days), and impact to final cost (in dollars).

As deviations arise that warrant attention, the Offeror should not wait to submit the weekly risk report. The Offeror must contact the City if there are any risks or potential risks identified that are or could be rated at a high level. When a risk is eliminated or the issue is resolved, the actual date of elimination or resolution must be listed.

The City will analyze the reports for accuracy and timeliness. The reports will be used in part by the City to determine the overall final performance rating of the Offeror (and its team).

ATTACHMENT K - DRAFT CONTRACT

The Contract included as a separate PDF attachment represents the contract the City intends to use to make awards. The City of Santa Fe reserves the right to modify the Contract prior to, or during, the award process, as necessary.

WHEREAS, the City of Santa Fe and Santa Fe County Community Services Departments share a common vision of connecting all residents of the City and County, especially the most in need, with the resources key to improving health and wellbeing; and

WHEREAS, a quality health and wellbeing system promotes a healthy community by improving the health of populations, improving the patient system of care, and reducing the per capita cost of health care, and no single government or non-government entity is accountable for achieving a healthy community;[1] and

WHEREAS, the City and Santa Fe County are dedicated to achieving a healthy community by promoting an Accountable Health Community model, which is a structured, cross-sectoral alliance of healthcare, public health, social services and other organizations that plan and implement strategies to improve population health and health equity for all its residents; and

WHEREAS, the model is designed to strategically leverage resources across sectors, presenting opportunities to improve population health, reduce costs, and enhance access to and quality of care;[2] and

WHEREAS, the City and the County define population health as the health outcomes of all people in Santa Fe County and recognize that population health outcomes are the product of multiple *determinants* of health, including policies, clinical and public health care, genetics, behaviors (e.g., smoking, diet, and treatment adherence), social factors (e.g., housing, employment, education, and poverty), environmental factors (e.g., occupational, food, and water safety), and the distribution of disparities in the population;[3] and

WHEREAS, the City's Community Services Department provides and coordinates services with Santa Fe County's Community Services Department, and both coordinate with state and other partners to address the determinants of health in order to promote a healthy community; and

WHEREAS, the County's and the City's Community Services Departments have both embarked on creating a single network of providers connected by "navigators", professionals who screen for social needs which impact health and wellbeing including access to housing, food, transportation, utilities, and interpersonal safety and who work to connect clients with needed resources; and

WHEREAS, a key feature of creating this network of better-connected health and human services providers in the community is to connect residents with needed resources; and

WHEREAS, there exists a need for a common tool whereby aggregate data on those residents screened and navigated through the health and human services system and the activities of those agencies serving them can be tracked to establish the scope of social needs and impact of services rendered to mitigate those needs; and

WHEREAS, both departments envision the network they create in Santa Fe County growing throughout the state and acting as a model for other communities in New Mexico seeking to improve the health and wellbeing of their residents; and

WHEREAS, the City and Santa Fe County desire to formalize an agreement to effect a coordinated network of health and human services providers providing "navigation" to residents of the City and County, the purpose of which is to help residents access resources related to health care, housing, food, transportation, utilities, interpersonal safety, and other social determinants of health to be known as "Connect"; and

WHEREAS, the City and County desire to name this network "Connect".

NOW, THEREFORE, IT IS AGREED BETWEEN THE PARTIES:

1. PURPOSE. The City of Santa Fe Community Services Department and the Santa Fe County Community Services Department (collectively the "Departments") agree to jointly create and support Connect, the network of health and human services providers who collectively serve the most vulnerable people in the City and County with a goal of enacting a model of care coordination that may be supported by state, federal, and private funders and replicated statewide.

2. **SCOPE.** The Departments agree to coordinate on: 1) collecting data via the same tool, a software system to assess the aggregate number of residents served by internal programs and community partner grantees and the impact of navigation and referrals on health outcomes, as well as which social needs go unmet in the County; 2) a communication strategy about Connect for the navigator network, funded agencies, current and potential partners, and the public; 3) strategies for growing the network and developing state and other funding sources for Connect.

3. **TERM.** This Memorandum of Agreement ("Agreement") shall remain in effect until terminated by either party pursuant to Article 4 below.

4. **TERMINATION.** This Agreement may be terminated by either of the parties hereto upon written notice delivered to the other party at least 30 days prior to the intended date of termination. By such termination, neither party may nullify obligations already incurred for performance or failure to perform prior to the date of termination.

5. **LIABILITY.** Each party shall be solely responsible for fiscal or other sanctions occasioned as a result of its own violation of requirements applicable to the performance of this Agreement.

6. **NEW MEXICO TORT CLAIMS ACT.** Any liability incurred by the City or the County in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and the County and their "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

7. **THIRD PARTY BENEFICIARIES.** By entering into this Agreement, the parties do not intend to create any right, title or interest in or for the benefit of any person other than the City and the County. No person shall claim any right, title or interest under this Agreement or seek to enforce this Agreement as a third party beneficiary of this Agreement.

8. **ASSIGNMENT.** Neither the City nor the County shall assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the other party.

ITEM AND ISSUE:
Request for the Approval of a Memorandum of Agreement with Santa Fe County for coordinating health and human service provider navigation services through the CONNECT network. (Kyra Ochoa, Director, Community Services Department, krochoa@santafenm.gov, 955-6603)

BACKGROUND AND SUMMARY:
CONNECT is a network of navigators at clinics, community organizations, and city and county programs, which shares a vision that all Santa Fe City and County residents regardless of income have access to high quality health care and are linked to the resources they need for health and well-being. Navigators are community health workers, volunteers, or social workers who link people to services and resources in our community. Agencies in the network are connected through a shared technology platform enabling navigators to send and receive secure electronic referrals, address residents' social needs, and improve individual and community health.

Non-medical needs such as secure housing, utilities, reliable transportation, nutritious food, and safe physical and social environments are key to health and well-being. CONNECT works with partners by breaking down communication and funding silos and fostering relationships between health and social service providers as well as those between residents seeking assistance and the navigators who guide them through the system. These relationships are the essence of CONNECT.

In January, 2018, the network included three Federally Qualified Health Clinics and eight nonprofit community service organizations and programs. In the following year and a half, the network grew and added an additional 14 community service organizations and had 60 navigators in all. As of July 2019, the City of Santa Fe joined the County as a partner, bringing twenty navigators from thirteen community organizations. This fall, family and youth-serving agencies funded through the Children and Youth Commission will increase the network to over 120 navigators in 70 programs at an array of agencies funded by the City and County.

Stakeholders meet regularly to define best practices and benchmarks for success in meeting social needs. All network navigators are linked by a common software platform called Unite Us, which they use to make referrals for services and goods in and out of network and which allows for on-line and in-real-time data sharing, communication and reporting.

The MOA formalizes and outlines the City County partnership going forward.

The Purchasing Memo

Date: April 24, 2025

To: Governing Body, Finance Committee, and Quality of Life Committee

From: Christa Hernandez, Youth and Family Services Program Manager Christa Hernandez

Via: Henri Hammond-Paul, Community Health and Safety Director HHPaul

Subject: CONNECT 211 Call Center and Navigation Services

Vendor Name: United Way of North Central New Mexico

Munis Vendor Number: 9112

ITEM AND ISSUE:
Community Health and Safety Department Request for Approval of Professional Services Contract with United Way of North Central New Mexico for the Purpose of Operating the CONNECT 211 Call Center and Providing Navigation Services In the Total Amount of $320,000.00 Including NMGRT through June 30, 2029; (Christa Hernandez, Youth and Family Services Program Manager; chernandez@santafenm,gov)

CONTRACT NUMBER:
The FY25 Munis contract number is 3250542.

BACKGROUND AND SUMMARY:
The City of Santa Fe released Sole Source solicitation on January 17, 2025, to solicit proposals from organizations to operate the CONNECT 211 call center and to provide navigation services to individuals seeking services in Santa Fe via the CONNECT care coordination and navigation network.

CONNECT is a network of navigators at clinics, community service organizations and city and county programs that link people to the services and resources they need to address social determinants of health. The vision of CONNECT is for all individuals in Santa Fe City and County, regardless of income, to have access to high-quality health care and are linked to the resources they need for health and well-being. The City of Santa Fe Community Services Department and Santa Fe County Community Services Department formalized their partnership for CONNECT, on November 10th, 2020, through City MOU #20-0629 or County Agreement No. 2020-0239-CSD/MM.

The CONNECT 211 call center serves as the centralized communication center where individuals seeking assistance can call to request assistance in Santa Fe. When 211 is contacted, a bilingual navigator can provide requested information, or they can serve as a navigator and screen the individual for services and make appropriate referrals to more than 80 programs in Santa Fe.

CONNECT links people to services and resources via use of the city's identified closed loop referral management platform. More than 250 navigators are sending and responding to referrals across Santa Fe City and County. The

CONNECT 211 call center allows individuals who may not have access to a computer or the internet to access services and/or resources available in CONNECT.

Compile and submit monthly reports on distributed payments for approved flex fund purchases.

2. **Provide a detailed explanation of the criteria developed and specified by the department as necessary to perform and/or fulfill the contract.**

Consistent, reliable, well-trained staff: Staff who man the lines will be trained to provide information and or make appropriate referrals, as requested. The quality of interactions and referrals is monitored, and feedback, coaching, guidance and training is provided.

Appropriate wait- and response-time: Calls will be regularly monitored for metrics such as wait time, call completion, average call time, etc. and referrals made to Unite Us, to determine whether improvement is needed.

An accurate and relevant database of services and contacts based on caller needs: Call and website volume and referral data will be reported correctly and monitored for accuracy. Staff will be given timely guidance and feedback to address issues or concerns.

3. **Provide an explanation of the prospective vendor's unique qualifications, proprietary rights, or capabilities that make them the only source able to meet the intended purpose of the contract. Uniqueness should be fact-based and substantially related to the contract's purpose. Reasons should focus on factual uniqueness rather than statements such as "best" or "least costly" source.**

United Way of North Central New Mexico's 211 program provides a unique service in communities by serving as a call center which individuals can call to seek resources. Incoming calls are answered by a bilingual navigator who is able to provide information to local resources, or who is able to screen for needs and make appropriate referrals to local providers.

211 staff are trained on the Unite Us platform which is utilized to make/send referrals. Staff are also familiar with the resources provided in Santa Fe and the providers who offer these services.

211 also receives donations made to the text to donate line and issues payment to the CONNECT navigation network when requests for items are needed for individuals being served.

4. **Explain why other similar professional services, services, construction, or item(s) of tangible personal property *cannot* meet the intended purpose of the contract.**

United Way of North Central New Mexico's 211 program provides a unique service in Santa Fe County as it is the only vendor that is currently serving as a call center for the CONNECT navigation network. The text to donate line is also unique in that no other vendor is able to receive donations via text and disburse funds to individuals being served through CONNECT.

Ms. Christa Hernandez
City of Santa Fe Youth and Family Services Program Manager
P.O. Box 909
Santa Fe, NM 87504-0909

Dear Christa:
United Way of North Central New Mexico proposes to continue operating the 211 Help Line in Santa Fe. 211 is an information and referral program connecting callers with human services. UWNCNM has a 41-year history providing this service. Usage increased tremendously in 2023 and 2024, reflecting both increased needs and efforts to inform the community about 211.

United Way is the sole provider of these services in nine counties of north central New Mexico, including Santa Fe. Our Community Navigators are certified in mental health first aid and Referral Certified by Inform USA. We maintain an accurate database of resources so callers receive up-to-date, relevant referrals. Navigators receive feedback on their performance and coaching on how to improve. Calls are monitored for quality control metrics such as wait time, call completion and average call time to determine whether improvement is needed.

211 Help Line Santa Fe County	2022	2023	2024	% increase
Calls answered	1,202	3,356	6,079	81%
Referrals	802	4,141	5,726	38%

Currently, one full-time, bilingual Community Navigator answers 211 calls for Santa Fe. We propose to increase that to two full-time positions to better respond to demand (one position funded through this contract at **$72,000** salary and benefits). With increased capacity, we anticipate supporting a minimum of 80 clients annually through this contract. The 'text-to-donate' software which allows individuals to donate to the CONNECT Wellness Fund (added at the request of CONNECT) is **$2,400** per year; funds raised support individuals being served through CONNECT. The balance of **$5,600** in this contract will be directed towards United Way's administrative expenses to run the program. United Way will raise additional funds to cover marketing, equipment, training and data collection totaling $99,650/year.

While not within the scope of this contract, we would like City Council to know that United Way of North Central New Mexico provides an additional service to 211 callers. Ride United provides free transportation to critical appointments. Residents without access to transportation can request a ride by calling 211 for needs related to health, food, housing, employment, education and legal services. In 2023-2024, Santa Fe residents received over 5,050 rides valued at $85,128.
Thank you for your consideration.
Sincerely,

Valerie Ingram
Chief Impact Officer

No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

26. Invalid Term or Condition

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

27. Enforcement of Contract

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

28. Notices

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

The City's rights to obtain equitable relief pursuant to this Agreement shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

33. Default and Force Majeure

The City reserves the right to cancel all, or any part of any orders placed under this Agreement without cost to the City, if the Contractor fails to meet the provisions of this Agreement and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. Subject: Amendment No. 1 to Extend the Term of GSA #25-0521-0300-0062 to Establish the Balanced Resources Acquisition and Information Network (BRAIN)

ACTION:
Request for Approval of Amendment No. 1 to Governmental Services Agreement #25-0521-0300-0062 with the State of New Mexico, Energy, Minerals and Natural Resources Department in the Total Amount of $550,000 for the Balanced Resources Acquisition and Information Network (BRAIN), a Consolidated Energy Information Tool, to Extend the Term to June 30, 2026. (Caryn Grosse, Public Works Project Manager III, clgrosse@santafenm.gov)

BACKGROUND AND SUMMARY:
The City received a $550,000 EMNRD Grid Modernization Grant to implement a Balanced Resource Acquisition and Information Network (BRAIN). The BRAIN consolidates energy usage data from facilities and renewable energy generation into an intuitive, control center. The tool will show real-time production and usage, provide alerts when operation parameters are not being met, incorporate billing data, produce energy reports and collect production and consumption data.

The system will support optimization of building controls, energy generation resources and future storage resources.

The Brain is currently in the process of being developed, and staff anticipate having a functional dashboard by the end of July 2025, with additional refinements to be added through December 2025.

The granting agency has approved the extension of the term from June 30, 2025, to June 30, 2026.

A separate contract amendment with Paradise Power Company, Inc. to extend the term for implementation of the BRAIN from June 30, 2025, to June 30, 2026, follows this grant agreement.

Upon certification by EMNRD that the invoice or services have been received and accepted, EMNRD shall tender payment to Entity within 30 days after the date of acceptance. If payment is made by mail, the payment shall be deemed tendered on the date it is postmarked. However, EMNRD shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

3. Term: This Agreement becomes effective when executed by an authorized representative of Entity and of EMNRD and when funds have been encumbered for this Agreement. It shall terminate on June 30, 2025, unless earlier terminated pursuant to Section 4, Termination, or Section 5, Appropriations, below.

4. Termination: Either party may terminate this Agreement upon written notice delivered to the other at least 10 days prior to the intended termination date. By such

termination, neither party may nullify or avoid any obligation required to have been performed prior to termination.

5. Appropriations: This Agreement's terms are contingent upon the New Mexico State Legislature and the United States Department of Energy (DOE) granting sufficient appropriation and authorization. If sufficient appropriation or authorization is not granted, EMNRD may terminate this Agreement, or in the alternative suspend performance pending approval of sufficient appropriation or authorization, upon written notice from EMNRD to Entity. EMNRD's decision as to whether sufficient appropriations are available shall be at its sole and absolute discretion and shall be final, binding, and accepted by Entity.

6. Status of Entity: Entity and its agents and employees are independent contractors performing professional services for EMNRD and are not employees of the State of New Mexico. Entity and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of state vehicles, or any other benefits afforded to employees of the State of New Mexico as a result of this Agreement. Entity agrees not to purport to bind the State of New Mexico unless the Entity has express written authority to do so, and then only within the strict limits of that written authority.

7. Assignment: Entity shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without EMNRD's prior written approval.

8. Subcontracting: Entity shall not subcontract any portion of the services to be performed under this Agreement or obligate itself in any manner to any third party, with respect to any rights or responsibilities under this Agreement, without EMNRD's prior written approval. EMNRD may disallow costs incurred by the Entity in relation to a subcontract if Entity does not obtain prior written approval.

A. Entity shall comply with 2 C.F.R. 200.318 through 200.326 for procurement of property or services conducted pursuant to this Agreement.

B. Any contract shall include all provisions necessary to allow Entity to meet its obligations and requirements under this Agreement and all provisions required by law.

9. Release: Final payment of the amounts due under this Agreement shall operate as a release of EMNRD, its officers, and employees, and the State of New Mexico from all liabilities, claims, and obligations whatsoever arising from or under this Agreement.

10. Confidentiality: Any confidential information provided to or developed by Entity in the performance of this Agreement shall be kept confidential and shall not be made available by Entity to any individual or organization without EMNRD's prior written approval.

11. Product of Services; Copyright: All materials developed or acquired by Entity under this Agreement shall become the State of New Mexico's property and be delivered to EMNRD no later than this Agreement's expiration date. Nothing Entity produces, in whole or in part, under this Agreement shall be the subject of a copyright application or other claim of ownership by or on behalf of Entity.

12. Conflict of Interest; Governmental Conduct Act: Entity warrants that it presently

has no interest and that it shall not acquire any interest, direct or indirect, which would conflict in any manner with performance or other services required under this Agreement. Entity certifies that all applicable provisions of the requirements of the Governmental Conduct Act, NMSA 1978, Sections 10-16-1 through –18, including provisions related to contracting with, or employing, public officers, legislators, state employees, or former state employees, have been followed.

13. Amendment: This Agreement shall not be altered, changed, or amended except by written instrument executed and approved by the parties hereto.

14. Merger: This Agreement incorporates all the agreements, covenants, and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written Agreement. No prior agreement or understanding, verbal or otherwise, of the parties or their agents shall be valid or enforceable unless as embodied in this Agreement.

15. Penalties for Violation of Law: The Procurement Code, NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities, and kickbacks.

16. Equal Opportunity Compliance: Entity agrees to abide by all federal and state laws and rules and regulations, and executive orders of the Governor of the State of New Mexico, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Entity assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation, or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If Entity is found not to be in compliance with these requirements during the life of this Agreement, Entity agrees to take appropriate steps to correct these deficiencies.

17. Applicable Law: The laws of the State of New Mexico shall govern this Agreement, without giving effect to New Mexico's choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-1(G). By execution of this Agreement, Entity acknowledges and agrees to the exclusive jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

18. Records and Audit:

A. Entity shall maintain detailed time and expenditure records that indicate the date, time, nature, and cost of services rendered during the Agreement's term and effect and retain them until six years after the termination date specified in Section 3, Term. These records shall be maintained and available within the State of New Mexico. During this time, such records shall be subject to inspection by EMNRD, DFA, and the State Auditor and DOE. Entity further agrees to include in all subcontracts hereunder the same right of inspection and audit against all subcontractors. EMNRD shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose EMNRD's right to recover excessive or illegal payments. The periods of inspection and audit may be extended for records, which relate to litigation or settlement of claims arising out of performance of this Agreement and costs and

expenses related to this Agreement for which exception is under consideration by DOE and shall continue until all potential litigation, appeals, claims, or exceptions have expired or been resolved.

B. If Entity receives $750,000 or more in federal funding from all sources in the aggregate in a fiscal year, Entity's financial records involving services and procurement under this Agreement shall be audited annually pursuant to all federal, state, and local government audit requirements, and in accordance with the Single Audit Act Amendments of 1996, 2 C.F.R. 200, Subpart F – Audit Requirements. Entities who do not meet the $750,000 audit threshold (Tier 7), must complete the State of New Mexico – Office of the State Auditor Certification Form for Tier 1 and Tier 2, or the Office of the State Auditor Agreed Upon Procedures (Tiers 3-6) in accordance with the Audit Act, NMSA 1978, Sections 12-6-1 through 12-6-14, and 2.2.2.16 NMAC, Annual Financial Procedures Required for Local Public Bodies with Annual Revenues Less than Five Hundred Thousand Dollars. To comply with state audit requirements, Entities shall have one of the above-mentioned Forms or Agreed Upon Procedures on file with the Office of the State Auditor. Entity shall provide EMNRD with a copy of the independent financial audit, either in hard copy format or electronically, no more than 45 days after the audit's completion for each fiscal year this Agreement is in effect.

19. Liability: Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred with this Agreement is subject to the immunities and limitations of the Tort Claims Act, NMSA 1978, Sections41-4-1 *et seq.*, as amended.

20. Procurement, Utilization, and Disposition of Property: Entity shall report acquisition of any capital property (property with an expected life of at least one year) to EMNRD within one month following the acquisition. If upon termination of this Agreement Entity has any property in its possession belonging to EMNRD, Entity shall account for the property and dispose of it as EMNRD directs. All property acquired by the Entity or procured under this Agreement shall be used and disposed of in accordance with DOE regulations governing disposal of property.

21. Invalid Term or Condition: If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

22. Enforcement of Agreement: A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict performance with that or any other provision. No waiver by a party of any of its rights under this Agreement shall be effective unless express and in writing, and no waiver of a specified right by a party shall be effective to waive any other rights.

23. Notice: Except as otherwise specified herein, all notices hereunder shall be in writing) and shall be given to the relevant party at its address set forth below, or such other address as such party may hereafter specify by notice to the other given by courier, by United States certified or registered mail, or by telecommunication device capable of creating a written record of such notice and its receipt.

CITY OF SANTA FE

Date: May 29, 2025

To: Governing Body
Finance Committee
Public Utilities/Public Works Committee

Via: Jesse Roach, Interim Public Utilities Director JR

From: Nancy Jimenez, Utility Billing Division Director NLJ

Subject: Printing and Mailing Services for Utility Bills and other Mailings

Vendor Name: Valli Information Systems INC., DBA Postal Pros Southwest

Vendor Number: 7852

ITEM AND ISSUE:
Request for the Approval of the Invitation to Bid (ITB) #25146 in the total amount of $3,061,706.30 for utility bill prints, postage and insert information, for 10 years; Valli Information Systems Inc., DBA Postal Pros Southwest; (Nancy L. Jimenez, Utility Billing Division Director, nljimenez@santafenm.gov, 505-955-4364)

BACKGROUND AND SUMMARY:

The City of Santa Fe seeks to secure the services of a qualified vendor for the comprehensive management of its utility billing distribution processes. Historically, the City has relied on an external provider for the printing, mailing, and delivery of utility bills to ensure timely communication with approximately 42,000 utility customers on a monthly basis. These services are essential for maintaining cash flow, providing mandated water quality reporting, and distributing important account-related notices and outreach materials.

This ITB reflects the City's commitment to improving service reliability, operational efficiency, and environmental sustainability while preparing for future system enhancements. Over time, the scope of work has expanded to include not only routine bill mailings but also more complex deliverables such as:

- Integration with Paymentus Corp. for electronic billing,
- Print and digital delivery of targeted inserts (e.g., water conservation outreach, leak/lien letters),
- On-demand statement redesign,

- Lockbox processing compatibility, and
- Digital transformation initiatives, including paperless billing and automated return mail management.

The City's planned migration to a new billing software system will require flexible vendors capable of adapting to new data formats, file submission schedules, and variable billing cycles, which may increase too twice weekly or daily. As a result, this procurement effort is intended to ensure that the selected service provider can meet current needs while supporting evolving future requirements.

Santa Fe has also made it a priority to uphold data security and environmental responsibility, requiring SSAE-16 certification, secure data handling and disposal, electronic delivery options, and material-saving practices (such as withholding return envelopes for customers on autopay).

The utility billing process is a mission-critical operation that directly impacts residents' access to information, billing accuracy, and payment timeliness. Through this contract, the City aims to partner with a vendor capable of meeting high-volume production demands, providing full-color customized billing formats, and maintaining operational continuity through disaster recovery capabilities.

This ITB builds on Santa Fe's prior billing and mailing strategies, taking into account lessons learned, technological advancements, and the increasing importance of customer-friendly communication channels. The selected vendor will play a key role in modernizing the City's customer engagement while ensuring cost-effectiveness and regulatory compliance.

PROCUREMENT METHOD:
The procurement method is the Invitation to Bid (ITB) 25146 which expires on June 30, 2035 or ten (10) years from final signature.

IT IS MUTUALLY AGREED BETWEEN THE PARTIES:

1. **Definitions**

A. "Products and Services Schedule" refers to the complete list of products and services offered under this Contract and the price for each. Product and service descriptions may be amended with the prior approval of the Contract Administrator. New products and services shall not be added to the Products and Services Schedule.

B. "Business Hours" means 8:00 a.m. to 5:00 p.m. Mountain Time.

2. **Scope of Work**

A. The Contractor shall be responsible for the weekly printing and mailing of the City's utility bills. If needed, the Contractor shall also print and deliver daily bills, the Annual Water Quality Report (Consumer Confidence Report), and additional reports and inserts, including but not limited to Water Conservation education materials, Collection Letters, Leak Letters, Lien Letters, and Low-Income Annual Renewal Letters. The Contractor shall print inline advertisements, messages, and/or City-provided inserts to accompany bill statements upon request, at no additional cost to the City.

B. Upon the migration to a new billing software system, the Contractor shall redesign or modify utility bills as required. Migration may require changes in file submission times and formats, as well as adjustments to the weekly billing cycle, which may increase to twice a week or daily.

C. The Contractor shall upload electronic bills (e-bills) to Paymentus, the City's online billing and payment platform, for customers who opt for electronic billing.

D. The Contractor shall print, mail, and/or email approximately 40,000 utility bills per month. Billing data files shall be submitted electronically by the City on a weekly or as-needed basis and will be categorized as "Cycle," "Final," or "Single" bills.

E. The Contractor shall accept input data files in at least one of the following formats: .xml, .txt, .pcl, .afp, or .pdf. The City shall submit these files via the Contractor's secure FTP site. The Contractor shall process these files through a custom program to generate two (2) print-ready files: a statement file and a reminder and/or delinquent letter file. Statement files shall be flagged for selected inserts as required by the City. The Contractor shall encode processed files to use specific forms with multiple fonts based on data criteria. The City shall review and approve sample bills prior to printing.

F. The Contractor shall maintain confidentiality in handling customer information. All discarded billings shall be shredded using a crosscut or confetti method and disposed of in a private dumpster or refuse receptacle. Under no circumstances shall customer data be discarded un-shredded or placed in a public dumpster or refuse receptacle. The Contractor must be SSAE 16 certified.

G. The Contractor shall provide a secure data transmission method for sending and receiving files and a confirmation process to verify receipt of all transmitted data.

H. The Contractor shall have the necessary staffing, equipment, and resources to print, fold, insert, sort, and mail bills on a weekly or daily basis as required. The Contractor shall use electronic pre-sorting to obtain postal discounts and ensure the lowest possible mailing rates for the City's utility bills, 15-day notices, and special mailings. Each statement shall be bar-coded before printing and comply with USPS Coding Accuracy Support System (CASS), Presort Accuracy Validation Evaluation (PAVE), and Delivery Point Validation (DPV) standards.

I. The Contractor shall maintain an adequate workforce and supply of paper, forms, envelopes, and other materials to fulfill contractual obligations without delays. Failure to perform services due to insufficient staffing or materials may result in contract termination.

J. The Contractor shall print full-color, duplexed statements with graphics, charts, and variable usage graphs to enhance readability and functionality. The Contractor shall provide statement redesign services as part of onboarding. The Contractor must meet the lockbox processor's specifications for barcodes used in payment processing.

L. The Contractor shall use preprinted #10 window envelopes with interior security tinting for bill mailings. Each bill shall include one (1) #9 return envelope with security tinting and up to three (3) inserts, unless otherwise specified. Multi-page statements shall be collated, folded, and machine-inserted into the window envelope. The City shall designate which statements require specific inserts.

N. The Contractor shall provide electronic access to bill inserts through an email attachment or a link for customers receiving bills via email.

O. The Contractor shall provide all-inclusive, per-unit pricing for services rendered, excluding postage costs. X. The Contractor shall provide secure online access to utility statements for City customer service staff. The system shall allow customers to view, download, save, email, or print statements, with automated email notifications for statement availability. A 24-month statement history shall be maintained.

The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of sub-contractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the sub-contractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The Contractor

shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

The terms of this Contract, and any orders placed under it, are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the legislature, this Contract, and any orders placed under it, shall terminate upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. Subject to this provision, such non-performance shall not be deemed a default or a ground for termination.

i. give the Contractor prompt written notice within 48 hours of any claim;
ii. allow the Contractor to control the defense of settlement of the claim; and

However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Contract. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Contract pursuant to the conditions set forth in Paragraph 7 of this Contract.

If it is later determined that the

Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

39. Suspension, Delay or Interruption of Work

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. Any compensation requested for which entitlement is granted and the contract sum adjusted, shall have profit included (for work completed) and for cost only (not profit) for Contractor costs incurred directly tied to the suspension itself and not otherwise covered by Contract remedy. 1. **General:** When the State Purchasing Agent or his/her designee issues a purchase document in response to the Vendor's quote, a binding contract is created.

2. **Variation in Quantity:** No variation in the quantity of any item called for by this order will be accepted unless such variation has been caused by conditions of loading, shipping, packing or allowances in manufacturing process and then only to the extent, if any, specified in this order.

3. **Assignment:**

a. Neither the order, nor any interest therein, nor any claim thereunder, shall be assigned or transferred by the Vendor, except as set forth in Subparagraph 3b or as expressly authorized in writing by the State Purchasing Agent or his/her designee. No such assignment or transfer shall relieve the Vendor from the obligations and liabilities under this order.

b. Vendor agrees that any and all claims for overcharge resulting from antitrust violations which are borne by the State as to goods, services, and materials purchased in connection with this contract or procurement are hereby assigned to the State.

4. **State Furnished Property:** State furnished property shall be returned to the State upon request in the same condition as received except for ordinary wear, tear and modifications ordered hereunder.

5. **Inspection:**

a. Final inspection and acceptance will be made at the destination. Supplies rejected at the destination for nonconformance with the terms and conditions of the agreement shall be removed at the Vendor's risk and expense, promptly after notice of rejection.

b. Final inspection and acceptance will be made at the destination. Services rejected for nonconformance with the terms and conditions of the agreement and/or requirements shall be corrected by the Vendor promptly after notice of rejection. Those services not corrected after notice shall not be paid for.

6. **Commercial Warranty:** The Vendor agrees that the supplies or services furnished under this order shall be covered by the most favorable commercial warranties the Vendor gives for such to any customer for such supplies or services. The rights and remedies provided herein shall extend to the State and are in addition to and do not limit any rights afforded to the State by any other clause of this order. **Vendor agrees not to disclaim warranties of fitness for a particular purpose of merchantability.**

7. **Packing, Shipping and Invoicing:**

a. The State's purchasing document number and the Vendor's name, user's name and location shall be shown on each packing and delivery ticket, package, bill of lading and other correspondence in connection with the shipments. The user's count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing ticket.

b. The Vendor's invoice shall be submitted duly certified and shall contain the following information: order number, description of supplies or services, quantities, unit price and extended totals. Separate invoices shall be rendered for each and every complete shipment.

c. Invoices must be submitted to the using agency and NOT to the State Purchasing Agent.

8. **Default:** The State reserves the right to cancel all or any part of this order without cost to the State, if the Vendor fails to meet the provisions of this order and, except as otherwise provided herein, to hold the Vendor liable for any excess cost occasioned by the State due to the Vendor's default. The Vendor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Vendor, such causes include but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the State shall determine that the supplies or services to be furnished by the subcontractor

DocuSign Envelope ID: 26502730-6322-4228-82D4-AF1811900E0C

were obtainable from other sources in sufficient time to permit the Vendor to meet the required delivery scheduled. The rights of the State provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this order.

9. **Non-Collusion:** In accepting these terms and conditions the Vendor certifies that the Vendor has not, either directly or indirectly, entered into action in restraint of free competitive procurement in connection with this offer submitted to the State Purchasing Agent or his/her designee.

11. **The Procurement Code:** Sections 13-1-28 through 13-1-199 NMSA 1978, impose civil and criminal penalties for its violation. In addition the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

If the Vendor fails to comply with Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the contracting agency.

15. **Subcontracting:** The Vendor shall not subcontract any portion of the Price Agreement without the prior written approval of the Procuring Agency. No such subcontracting shall relieve the Vendor from its obligations and liabilities under this Price Agreement, nor shall any subcontracting obligate payment from the Agency.

16. **Records and Audit:** The Vendor shall maintain detailed time and expenditure records that indicate the date, time, nature, and cost of services rendered during this Price Agreement's term and effect, and retain them for a period of six (6) years from the date of final payment under this Price Agreement. The records shall be subject to inspection by the Agency, State Purchasing Division, Department of Finance and Administration, and for Information Technology contracts, State Chief Information Officer. The Agency shall have the right to audit billings, both before and after payment. Payment for services under this Price Agreement shall not foreclose the right of the Agency to recover excessive or illegal payments.

17. **Subcontracts:** The foregoing requirements shall be inserted into all subcontracts from the prime Vendor to the subcontractor, if such subcontracting has been approved in writing by the Procuring Agency.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

- You have read this Electronic Record and Signature Disclosure (ERSD); and
- You can print this ERSD on paper, or you can save and/ or send this ERSD to a location where you can print this ERSD, for your future reference and access; and
- Until or unless you notify SPD as stated in this ERSD, you consent to exclusively receive through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by SPD during the course of your electronic signature relationship with SPD.

Neither the order, nor any interest therein, nor any claim thereunder, shall be assigned or transferred by the Vendor, except as set forth in Subparagraph 3b or as expressly authorized in writing by the State Purchasing Agent or his/her designee. 7. **Packing, Shipping and Invoicing:**

a. The State's purchasing document number and the Vendor's name, user's name and location shall be shown on each packing and delivery ticket, package, bill of lading and other correspondence in connection with the shipments. Terms and Conditions

(Unless otherwise specified)

1. **General:** When the State Purchasing Agent or his/her designee issues a purchase document in response to the Vendor's bid, a binding contract is created.

2. **Variation in Quantity:** No variation in the quantity of any item called for by this order will be accepted unless such variation has been caused by conditions of loading, shipping, packing or allowances in manufacturing process and then only to the extent, if any, specified in this order.

3. **Assignment:**

a. Neither the order, nor any interest therein, nor any claim thereunder, shall be assigned or transferred by the Vendor, except as set forth in Subparagraph 3b or as expressly authorized in writing by the State Purchasing Agent or his/her designee. No such assignment or transfer shall relieve the Vendor from the obligations and liabilities under this order.

b. Vendor agrees that any and all claims for overcharge resulting from antitrust violations which are borne by the State as to goods, services, and materials purchased in connection with this bid are hereby assigned to the State.

4. **State Furnished Property:** State furnished property shall be returned to the State upon request in the same condition as received except for ordinary wear, tear and modifications ordered hereunder.

5. **Discounts:** Prompt payment discounts will not be considered in computing the low bid.

6. **Inspection:** Final inspection and acceptance will be made at the destination. Supplies rejected at the destination for nonconformance with specifications shall be removed at the Vendor's risk and expense, promptly after notice of rejection.

7. **Inspection of Plant:** The State Purchasing Agent or his/her designee may inspect, at any reasonable time, the part of the Contractor's, or any subcontractor's plant or place of business, which is related to the performance of this contract.

8. **Commercial Warranty:** The Vendor agrees that the supplies or services furnished under this order shall be covered by the most favorable commercial warranties the Vendor gives for such to any customer for such supplies or services. The rights and remedies provided herein shall extend to the State and are in addition to and do not limit any rights afforded to the State by any other clause of this order. **Vendor agrees not to disclaim warranties of fitness for a particular purpose of merchantability.**

9. **Taxes:** The unit price shall exclude all state taxes.

10. **Packing, Shipping and Invoicing:**

a. The State's purchasing document number and the Vendor's name, user's name and location shall be shown on each packing and delivery ticket, package, bill of lading and other correspondence in connection with the shipments. The user's count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing ticket.

b. The Vendor's invoice shall be submitted duly certified and shall contain the following information: order number, description of supplies or services, quantities, unit price and extended totals. Separate invoices shall be rendered for each and every complete shipment.

c. Invoices must be submitted to the using agency and NOT the State Purchasing Agent.

11. **Default:** The State reserves the right to cancel all or any part of this order without cost to the State, if the Vendor fails to meet the provisions of this order and, except as otherwise provided herein, to hold the Vendor liable for any excess cost occasioned by the State due to the Vendor's default. The Vendor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Vendor, such causes include but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of

DocuSign Envelope ID: 3AF77FCE-CA41-4AA7-8891-1FE5611E59FC

subcontractors due to any of the above, unless the State shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Vendor to meet the required delivery scheduled. The rights of the State provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this order.

12. **Non-Collusion:** In signing this bid the Vendor certifies he/she has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the State Purchasing Agent or his/her designee.

13. **Nondiscrimination:** Vendor doing business with the State of New Mexico must be in compliance with the Federal Civil Rights Act of 1964 and Title VII of the Act (Rev. 1979) and the Americans with Disabilities Act of 1990 (Public Law 101-336).

14. **The Procurement Code:** Sections 13-1-28 through 13-1-199 NMSA 1978, imposes civil and criminal penalties for its violation. In addition the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

17. **Workers' Compensation:** The Contractor agrees to comply with state laws and rules pertaining to Workers' Compensation benefits for its employees. If the Contractor fails to comply with Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the contracting agency.

18. **Submission of Bid:** Bids must be submitted in a sealed envelope with the bid number and opening date clearly indicated on the bottom left hand side of the front of the envelope. Failure to label bid envelope will necessitate the premature opening of the bid in order to identify the bid number.

19. **Contractor Personnel**: Personnel proposed in the Contractor's written bid to the Procuring Agency are considered material to any work performed under this Price Agreement. Once a Purchase Order or contract has been executed, no changes of personnel will be made by the Contractor without prior written consent of the Procuring Agency. Replacement of any Contractor personnel, if approved, shall be with personnel of equal ability, experience, and qualifications. The Contractor will be responsible for any expenses incurred in familiarizing the replacement personnel to insure their being productive to the project immediately upon receiving assignments. Approval of replacement personnel shall not be unreasonably withheld. The Procuring Agency shall retain the right to request the removal of any of the Contractor's personnel at any time.

20. **Subcontracting:** The Contractor shall not subcontract any portion of the Price Agreement without the prior written approval of the Procuring Agency. No such subcontracting shall relieve the Contractor from its obligations and liabilities under this Price Agreement, nor shall any subcontracting obligate payment from the Agency.

21. **Records and Audit:** The Contractor shall maintain detailed time and expenditure records that indicate the date, time, nature, and cost of services rendered during this Price Agreement's term and effect, and retain them for a period of three (3) years from the date of final payment under this Price Agreement. The records shall be subject to inspection by the Agency, State Purchasing Division, Department of Finance and Administration, and for Information Technology contracts, State Chief Information Officer. The Agency shall have the right to audit billings, both before and after payment. DocuSign Envelope ID: 3AF77FCE-CA41-4AA7-8891-1FE5611E59FC

the requesting District Engineer or their designee prior to the commencement of work. Failure to comply shall result in the purchase order being issued to another awarded vendor and difference being charged back to the originally awarded Vendor(s).

The performance bond is to secure the NMDOT for losses and damages sustained by reason of default by Vendor. A payment bond is to guarantee that subcontractors and material suppliers on the project will be paid. The materials bond is to guarantee availability of equipment and acceptance of product.

Tax Note:
Price shall not include State Gross Receipts or Local Option Tax. Taxes shall be added to the purchase order and invoice at current rates as a separate item to be paid by NMDOT.

Bidding Information:
The conditions and specifications set out in the invitation to bid are inseparable and indivisible. Any Vendor, by submitting a bid, agrees to be bound by all such conditions and/or specifications. All conditions and specifications in the invitation to bid, and all other documents required to be submitted, shall be submitted by the Vendor in their bid package. Failure to do so or any attempt to vary or change the conditions or specifications of the invitation to bid shall, at the discretion of the State of New Mexico, constitute grounds for rejection of the entire bid.

The prices quoted herein represent the total compensation to be paid by the State of New Mexico for goods and/or services provided. It is understood that the vendor providing said goods and/or services to the State of New Mexico is responsible for payment of all costs of labor, equipment, tools, materials, federal taxes, permits, licenses, fees, and any other items necessary to complete the work provided. The prices quoted in this price agreement include an amount sufficient to cover such costs. Bid Review:
NMDOT shall perform a bid analysis of all bids received for this Invitation to Bid that require the technical expertise of an engineer. This includes a determination of qualification in accordance with the technical standards and requirements of the specifications. The analysis and recommendation for award will be sent to the State Purchasing Division (SPD) for final determination and awarding.

Method of Award:
Method of award shall be to one or more Contractors for each district. Items shall be awarded to one or more Contractors per district, but not to exceed three (3) Contractors per group (district). This price agreement may be awarded to one (1) or more Contractors, as follows:

DocuSign Envelope ID: 3AF77FCE-CA41-4AA7-8891-1FE5611E59FC

Items 086 to 170 – District Two
Items 171 to 255 – District Three
Items 256 to 340 – District Four
Items 341 to 425 – District Five
Items 426 to 510 – District Six

For a bid to be considered for award to a group/district, prices must be submitted for all items for that group (district). Failure to do so will result in the bid being deemed irregular and rejected from consideration for award to that group/group.

Utilization of Vendors:
The following procedure for the utilization of Vendors shall be used on multiple award price agreements.

1. The selection of a Vendor from a multiple award Price Agreement to complete a project shall be based on the purchase order utilizing pricing contained within this Price Agreement.

2. The District Engineer or their designee shall evaluate the estimated quantities, unit costs, total costs per item, and total project costs for each awarded Vendor.

    a. The Vendor selected to perform the work on the project shall be the Vendor providing services for the specific project estimate at the lowest overall cost to the NMDOT and able to meet all project delivery requirements including project schedule. A Vendor **not** offering the lowest cost to the NMDOT can be used for the specific project if the Vendor providing the lowest overall cost is unable to meet all project requirements as determined and documented by the District Engineer or their designee. Any changes to the original purchase order will require a modification form signed by the District Engineer or their designee. All supporting documentation shall be maintained in the project file. A Contractor not having the lowest individual project estimate can be used if the Contractor providing the lowest estimate is unable to meet all project requirements, including project schedule, as determined and documented by the District Engineer or their designee.
    b. If a contractor fails to respond or commit in writing within ten (10) working days from the time NMDOT requests services, including estimate and project schedule, the contractor will be deemed nonresponsive and the NMDOT will move on to the next available contractor.

Public Works Minimum Wage Act:

For projects over sixty thousand dollars ($60,000.00) where a purchase order has been issued, a Wage Rate Decision number must be requested by the NMDOT. The Wage Rate Decision number can be obtained through the New Mexico Department of Work Force Solutions, Public Works Section. NMDOT must be registered through the Public Works website that can be accessed at:

533-A.3.14.4 Carbon Fiber Reinforcement Application
The Contractor shall saturate the fabric with epoxy matrix as per manufacturer’s recommendations. The amount of resin overcoat for intermediate plies is approximately 15% - 20% greater than a single-ply installation, because the saturant serves as the overcoat for the applied ply and the undercoat for the next ply. Each ply shall be applied before the onset of complete gelation of the previous layer. The number of plies that can be applied in a single Day shall be determined based on the manufacturer's recommendations and the approval of the Project Manager. Multiple plies can also be applied in several Days. When previous layers are cured, interlayer surface preparation, such as light sanding may be required.

533-A.3.16 Overlapping

533-A.3.27.3 Correction of Improper Application
The Contractor shall repair all defects, including bubbles, delamination, and fabric tears, spanning more than five percent (5%) of the surface area, or as specified by the Project Manager. Small defects of size between ¼- and 1¼-inch diameter shall be repaired using low pressure epoxy injection, as long as the defect is local within and does not extend through the complete thickness of the laminate in the case of multiple Carbon Fiber Reinforcement. If any delamination growth is suspected between Carbon Fiber Reinforcement plies due to injection, the procedure shall be halted and repair shall follow the patching of minor defects procedure;
2. Patching of minor defects. Minor defects are defined as those having an individual diameter of 1¼ inch to six (6) inches and frequency of less than five (5) per any surface area of ten (10) foot length or width. The area surrounding the defects to an extent of at least one (1) inch on all sides shall be carefully removed. The area shall be wiped cleaned and thoroughly dried. The area shall then be patched by adding a Carbon Fiber Reinforcement patch of the same type of the original laminate and extending at least one (1) inch on all sides of the removed area. Replacement may also be conducted using the procedure for replacement of large defects; and
3. Replacement of large defects. Defects larger than six (6) inch in diameter shall be carefully marked and scarified out extending to a minimum of one (1) inch on all sides. Scarifying shall be progressive through the layers, in the case of multi-ply Carbon Fiber Reinforcement until past the defective area. In case the defect extends to the first Carbon Fiber Reinforcement ply adjacent to the concrete, the entire thickness of Carbon Fiber Reinforcement and primer shall be removed. The substrate shall be appropriately prepared and primer re-applied after ensuring that the surface and Carbon Fiber Reinforcement are clean and dry. Application of a new Carbon Fiber Reinforcement within the scarified area shall follow procedures for the original Carbon Fiber Reinforcement, except that an additional layer extending a minimum of six (6) inches on all sides of the scarified area shall be added as a patch. A written corrective action plan shall detail the proposed repair and shall be submitted to the Project Manager for review and Acceptance.

Test Method for Testing Polymer Overlays for Surface Preparation and Adhesion

a. Scope

This method covers the test procedure used to measure the tensile rupture strength between hydraulic cement concrete and polymer concrete overlays. This test procedure may involve hazardous materials, operations, and equipment. Follow all manufacturer suggested safety precautions when performing the test. This test is similar to ACI 503R, Appendix A, of the ACI Manual of Concrete Practice. NOTE: "Polymer Overlay" represents the complete system; polymer adhesive and aggregate bonded to the concrete bridge deck.

b. References

b.1 ACI Manual of Concrete Practice 503R, Appendix A

c. Apparatus

c.1 A dynamometer with a minimum capacity of 2,000 lb/f.

c.2 A mechanical testing device for pulling a bonded pipe cap in tension as shown in ACI 503R, Appendix A, of the ACI Manual of Concrete Practice. See Figure 1 below.

c.3 Core drill with a 2 inch inside diameter diamond tipped core barrel.

c.4 A standard 1½ inch diameter pipe cap, where the bottom surface has been machined smooth, flat, and shoulder cut to provide a 2 inch diameter bonding surface. The surface of the pipe cap should be textured to provide good adhesion to the adhesive. This may be achieved by sandblasting, scoring or any method that produces a roughened bonding surface.

c.5 A rapid curing adhesive with strength and viscosity properties suitable for bonding the pipe caps to the overlay. A high viscosity, rapid setting epoxy with a pot life of 3 to 25 minutes is recommended.

c.6 Ruler or measuring device,

Note a: Test equipment for this procedure is available in other forms and may be used with the approval of the Project Manager.

d. Preparation of Test Patches

d.1 Select 1½ foot x 3 foot areas of the bridge deck for the polymer concrete test patches. The test patches should cover typical surface conditions found on the bridge deck. Place the test patches in the wheel paths, in the area between wheel paths and in other areas that represent the worst surface condition.

d.2 Clean test patch areas by the same method to be used to prepare the entire deck. Remove all loose disintegrated concrete, dirt, paint, oil, asphalt, laitance carbonation and curing materials from patches and other foreign material from the surface of the deck that can interfere with the curing or adhesion of the overlay. Cleaning is usually indicated by a significant change in the color of the concrete and exposing coarse aggregate particles.

d.3 Tape off an area 1½ foot x 3 foot using duct tape. Measure and record the temperatures of the air, deck surface, polymer components and aggregate.

d.4 Mix the polymer components as prescribed by the manufacturer using the same equipment, timing, and sequence of operation as will be used when placing the overlay on the full deck surface.

d.5 Collect a 2 ounce sample of the mixed polymer and measure and record the polymer gel time. The gel time is the time interval between the initial mixing of the polymer and the formation of a gelatinous mass in the center of the sample.

d.6 Accurately prepare sufficient quantities of the polymer mixture for each test patch. Place the polymer on each 0.5 square yard prepared test area. Spread the polymer with a notched squeegee in the same manner as on the full deck surface. Apply the polymer uniformly without puddling. Apply the dry overlay aggregate on each test patch at the same rate as specified in Contract Documents.

d.7 Allow the polymer to cure as required to allow sweeping or vacuuming without damaging the surface (curing time varies according to temperature). Curing of the first course can be checked by placing thumb on the aggregate and applying pressure. If the aggregate moves, curing has not been sufficient. See TABLE 1 for typical minimum cure times.

d.8 Remove excess aggregate.

d.9 Accurately measure sufficient quantities of the polymer mixture for each test patch. Place the polymer on the first course of each 0.5 square yard test area. Spread the polymer with a notched squeegee in the same manner as on the full deck surface. Apply the polymer uniformly without puddling. Apply the dry overlay aggregate on each test patch at the same rate as specified in Contract Documents.

DocuSign Envelope ID: 3AF77FCE-CA41-4AA7-8891-1FE5611E59FC

d.10 Allow the polymer to cure as required to prevent damage from traffic. See TABLE 1 for typical minimum cure times.

d.11 Remove excess aggregate.

Table 1: Typical Polymer Concrete Overlay Cure Times

Course	Average Temperature of Overlay Components, °F						
	55-59	60-64	65-69	70-74	75-79	80-85	85+
	Minimum Cure Time, hrs.

2	8	6.5	5	4	3	3	3

e. Procedure

e.1 Using a diamond tipped core barrel, drill through the polymer overlay and into the concrete surface to a depth of ½ inch. The dimensions of the core barrel must be such that the resulting concrete core is 2 inches in diameter. Do not use water for the coring operation.

e.2 Vacuum or blow the dust from around the core. Bond a 1½ inch pipe cap that has been machined to have a flat bottom surface of 2 inches in diameter, to the cored overlay disk. The adhesive used to bond the pipe cap to the overlay should be a rapid curing adhesive with a minimum working life of 3 minutes. Apply a small amount of adhesive to both the pipe cap surface and the cored disk. Do not allow any adhesive to flow over the edge of the cored disk or down into the cored area. If this occurs, do not record the test result, core an alternate area and perform another test. To decrease the curing time of the epoxy adhesives, heat may be applied to pipe cap by means of a small propane torch. Do not heat the cored disk directly!! Monitor the temperature of the pipe cap. Do not allow the cap temperature to exceed 120°F.

e.3 It is of the utmost importance that the tensile rupture equipment and dynamometer be aligned with the extended axis of the pipe cap to give accurate test results. To ensure the alignment of the apparatus alignment the use of a template is advised.

e.4 Screw the lower threaded hook into the cap. Place the testing apparatus over the pipe cap and align with the cored disk.

e.5 Attach the dynamometer to the upper and lower hooks. Set the load indicator on the dynamometer to zero. Check the date of calibration on the dynamometer. It must have been calibrated within the last 12 months.

e.6 Apply a tensile load at the rate of 100 + 10 pounds, every 5 seconds.

e.6.a Record the load for each test core to the nearest 10 lbf.

e.6.b Record the type of failure for each test core and percent failure in the concrete over the test area for Type 1 and Type 2 failures.
There are five types of failures:

- Type 1 - Failure in the concrete at a depth greater than or equal to ¼ inch over more than 50% of the test area.

DocuSign Envelope ID: 3AF77FCE-CA41-4AA7-8891-1FE5611E59FC

- Type 2 - Failure in the concrete at a depth less than ¼ inch over more than 50% of test area.
- Type 3 - Separation of the polymer overlay from the concrete surface.
- Type 4 - Failure within the polymer overlay.
- Type 5 - Failure of the test adhesive.

A properly applied polymer overlay on a properly prepared surface typically will result in a failure in the concrete (Type 1).

e.7 Perform a minimum 4 pull-off tests on each 1½ foot x 3 foot test patch.

e.8 Repair the hole created by the tensile rupture strength test with a mixture of the polymer and aggregate used in the overlay.

f. Calculations

f.1 Use the 3 highest values to calculate the Tensile Rupture Strength for the test patch as noted below.

f.1.a For Type 1 failures:

- Tensile Rupture Strengths less than 250 psi will not be used in the average tensile rupture calculation.
- Should one pullout fail below 250 psi the test result will be the average of the two remaining pull-off tests.
- A failure in the concrete below 250 psi indicates weak concrete, not poor overlay bond.

f.1.b For Type 2, 3 or 5 failures use the average of the three highest pull-off values to determine the Tensile Rupture Strength.

f.1.c Type 4 failures will not be accepted or used in calculations.

f.2 Determine the Tensile Rupture Strength for each test core using the following equation:

$$TRS_x = P/A$$

TRSx = Tensile Rupture Strength for one test core.
P = Load (Dynamometer)
A = Area of cored disc, verify the area previous to performing the calculations.

f.2.a This value will be recorded as the result for one test core. Record the result to nearest 10 psi.

f.3 Determine the average Tensile Rupture Strength for each test patch using the following equation.

$$TRS_{avg} = \frac{TRS_1 + TRS_2 + \ldots TRS_n}{n}$$

n = number of test cores

f.3.a This value will be recorded as the result for one test patch. Record the result to nearest 10 psi.
