BUSINESS AUTO COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations. The words "we", "us" and "our" refer to the company providing this insurance.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section **V – Definitions.**

SECTION I – COVERED AUTOS

Item Two of the Declarations shows the "autos" that are covered "autos" for each of your coverages. The following numerical symbols describe the "autos" that may be covered "autos". The symbols entered next to a coverage on the Declarations designate the only "autos" that are covered "autos".

A. Description Of Covered Auto Designation Symbols

Symbol	Description Of Covered Auto Designation Symbols	
1	Any "Auto"	
2	Owned "Autos" Only	Only those "autos" you own (and for Covered Autos Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" you acquire ownership of after the policy begins.
3	Owned Private Passenger "Autos" Only	Only the private passenger "autos" you own. This includes those private passenger "autos" you acquire ownership of after the policy begins.
4	Owned "Autos" Other Than Private Passenger "Autos" Only	Only those "autos" you own that are not of the private passenger type (and for Covered Autos Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" not of the private passenger type you acquire ownership of after the policy begins.
5	Owned "Autos" Subject To No-fault	Only those "autos" you own that are required to have no-fault benefits in the state where they are licensed or principally garaged. This includes those "autos" you acquire ownership of after the policy begins provided they are required to have no-fault benefits in the state where they are licensed or principally garaged.
6	Owned "Autos" Subject To A Compulsory Uninsured Motorists Law	Only those "autos" you own that because of the law in the state where they are licensed or principally garaged are required to have and cannot reject Uninsured Motorists Coverage. This includes those "autos" you acquire ownership of after the policy begins provided they are subject to the same state uninsured motorists requirement.
7	Specifically Described "Autos"	Only those "autos" described in Item Three of the Declarations for which a premium charge is shown (and for Covered Autos Liability Coverage any "trailers" you don't own while attached to any power unit described in Item Three).
8	Hired "Autos" Only	Only those "autos" you lease, hire, rent or borrow. This does not include any "auto" you lease, hire, rent or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households.
9	Non-owned "Autos" Only	Only those "autos" you do not own, lease, hire, rent or borrow that are used in connection with your business. This includes "autos" owned by your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households but only while used in your business or your personal affairs.

19	Mobile Equipment Subject To Compulsory Or Financial Responsibility Or Other Motor Vehicle Insurance Law Only	Only those "autos" that are land vehicles and that would qualify under the definition of "mobile equipment" under this policy if they were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where they are licensed or principally garaged.

B. Owned Autos You Acquire After The Policy Begins

1. If Symbols **1, 2, 3, 4, 5, 6** or **19** are entered next to a coverage in Item Two of the Declarations, then you have coverage for "autos" that you acquire of the type described for the remainder of the policy period.
2. But, if Symbol **7** is entered next to a coverage in Item Two of the Declarations, an "auto" you acquire will be a covered "auto" for that coverage only if:
   a. We already cover all "autos" that you own for that coverage or it replaces an "auto" you previously owned that had that coverage; and
   b. You tell us within 30 days after you acquire it that you want us to cover it for that coverage.

C. Certain Trailers, Mobile Equipment And Temporary Substitute Autos

If Covered Autos Liability Coverage is provided by this Coverage Form, the following types of vehicles are also covered "autos" for Covered Autos Liability Coverage:

1. "Trailers" with a load capacity of 2,000 pounds or less designed primarily for travel on public roads.
2. "Mobile equipment" while being carried or towed by a covered "auto".
3. Any "auto" you do not own while used with the permission of its owner as a temporary substitute for a covered "auto" you own that is out of service because of its:
   a. Breakdown;
   b. Repair;
   c. Servicing;
   d. "Loss"; or
   e. Destruction.

SECTION II – COVERED AUTOS LIABILITY COVERAGE

A. Coverage

We will pay all sums an "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of a covered "auto".

We will also pay all sums an "insured" legally must pay as a "covered pollution cost or expense" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of covered "autos". However, we will only pay for the "covered pollution cost or expense" if there is either "bodily injury" or "property damage" to which this insurance applies that is caused by the same "accident".

We have the right and duty to defend any "insured" against a "suit" asking for such damages or a "covered pollution cost or expense". However, we have no duty to defend any "insured" against a "suit" seeking damages for "bodily injury" or "property damage" or a "covered pollution cost or expense" to which this insurance does not apply. We may investigate and settle any claim or "suit" as we consider appropriate. Our duty to defend or settle ends when the Covered Autos Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

1. Who Is An Insured

The following are "insureds":

a. You for any covered "auto".
b. Anyone else while using with your permission a covered "auto" you own, hire or borrow except:
   (1) The owner or anyone else from whom you hire or borrow a covered "auto".

   This exception does not apply if the covered "auto" is a "trailer" connected to a covered "auto" you own.

   (2) Your "employee" if the covered "auto" is owned by that "employee" or a member of his or her household.
   (3) Someone using a covered "auto" while he or she is working in a business of selling, servicing, repairing, parking or storing "autos" unless that business is yours.
   (4) Anyone other than your "employees", partners (if you are a partnership), members (if you are a limited liability company) or a lessee or borrower or any of their "employees", while moving property to or from a covered "auto".
   (5) A partner (if you are a partnership) or a member (if you are a limited liability company) for a covered "auto" owned by him or her or a member of his or her household.
c. Anyone liable for the conduct of an "insured" described above but only to the extent of that liability.

2. Coverage Extensions

a. Supplementary Payments

We will pay for the "insured":

(1) All expenses we incur.
(2) Up to $2,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.
(3) The cost of bonds to release attachments in any "suit" against the "insured" we defend, but only for bond amounts within our Limit of Insurance.
(4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $250 a day because of time off from work.
(5) All court costs taxed against the "insured" in any "suit" against the "insured" we defend. However, these payments do not include attorneys' fees or attorneys' expenses taxed against the "insured".
(6) All interest on the full amount of any judgment that accrues after entry of the judgment in any "suit" against the "insured" we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

These payments will not reduce the Limit of Insurance.

b. Out-of-state Coverage Extensions

While a covered "auto" is away from the state where it is licensed, we will:

(1) Increase the Limit of Insurance for Covered Autos Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered "auto" is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.
(2) Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered "auto" is being used.

We will not pay anyone more than once for the same elements of loss because of these extensions.

10. Completed Operations

In this exclusion, your work means:

a. Work or operations performed by you or on your behalf; and
b. Materials, parts or equipment furnished in connection with such work or operations.

Your work includes warranties or representations made at any time with respect to the fitness, quality, durability or performance of any of the items included in Paragraph **a.** or **b.** above.

Paragraph **a.** above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "pollutants" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "auto" or its parts if:

(1) The "pollutants" escape, seep, migrate or are discharged, dispersed or released directly from an "auto" part designed by its manufacturer to hold, store, receive or dispose of such "pollutants"; and

(2) The "bodily injury", "property damage" or "covered pollution cost or expense" does not arise out of the operation of any equipment listed in Paragraphs **6.b.** and **6.c.** of the definition of "mobile equipment".

Paragraphs **b.** and **c.** above of this exclusion do not apply to "accidents" that occur away from premises owned by or rented to an "insured" with respect to "pollutants" not in or upon a covered "auto" if:

(a) The "pollutants" or any property in which the "pollutants" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "auto"; and

C. Limit Of Insurance

Regardless of the number of covered "autos", "insureds", premiums paid, claims made or vehicles involved in the "accident", the most we will pay for the total of all damages and "covered pollution cost or expense" combined resulting from any one "accident" is the Limit Of Insurance for Covered Autos Liability Coverage shown in the Declarations.

All "bodily injury", "property damage" and "covered pollution cost or expense" resulting from continuous or repeated exposure to substantially the same conditions will be considered as resulting from one "accident".

No one will be entitled to receive duplicate payments for the same elements of "loss" under this Coverage Form and any Medical Payments Coverage endorsement, Uninsured Motorists Coverage endorsement or Underinsured Motorists Coverage endorsement attached to this Coverage Part.

SECTION III – PHYSICAL DAMAGE COVERAGE

However, you have the option of having glass breakage caused by a covered "auto's" collision or overturn considered a "loss" under Collision Coverage.

4. Coverage Extensions

a. Transportation Expenses

We will pay up to $20 per day, to a maximum of $600, for temporary transportation expense incurred by you because of the total theft of a covered "auto" of the private passenger type. We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes Of Loss Coverage. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

b. Loss Of Use Expenses

For Hired Auto Physical Damage, we will pay expenses for which an "insured" becomes legally responsible to pay for loss of use of a vehicle rented or hired without a driver under a written rental contract or agreement. We will pay for loss of use expenses if caused by:

(2) Nuclear reaction or radiation, or radioactive contamination, however caused.

b. War Or Military Action

(3) Insurrection, rebellion, revolution, usurped power or action taken by governmental authority in hindering or defending against any of these.

2. We will not pay for "loss" to any covered "auto" while used in any professional or organized racing or demolition contest or stunting activity, or while practicing for such contest or activity. We will also not pay for "loss" to any covered "auto" while that covered "auto" is being prepared for such a contest or activity.

3. We will not pay for "loss" due and confined to:

d. Any accessories used with the electronic equipment described in Paragraph **c.** above.

5. Exclusions **4.c.** and **4.d.** do not apply to equipment designed to be operated solely by use of the power from the "auto's" electrical system that, at the time of "loss", is:

a. Permanently installed in or upon the covered "auto";

b. Removable from a housing unit which is permanently installed in or upon the covered "auto";

6. We will not pay for "loss" to a covered "auto" due to "diminution in value".

C. Limits Of Insurance

1. The most we will pay for:

a. "Loss" to any one covered "auto" is the lesser of:

D. Deductible

For each covered "auto", our obligation to pay for, repair, return or replace damaged or stolen property will be reduced by the applicable deductible shown in the Declarations. Any Comprehensive Coverage deductible shown in the Declarations does not apply to "loss" caused by fire or lightning.

SECTION IV – BUSINESS AUTO CONDITIONS

The following conditions apply in addition to the Common Policy Conditions:

A. Loss Conditions

1. Appraisal For Physical Damage Loss

If you and we disagree on the amount of "loss", either may demand an appraisal of the "loss". In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of "loss". If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

a. Pay its chosen appraiser; and

b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

2. Duties In The Event Of Accident, Claim, Suit Or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

a. In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident" or "loss". Include:

(1) How, when and where the "accident" or "loss" occurred;

(2) The "insured's" name and address; and

(3) To the extent possible, the names and addresses of any injured persons and witnesses.

b. Additionally, you and any other involved "insured" must:

(1) Assume no obligation, make no payment or incur no expense without our consent, except at the "insured's" own cost.

(2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or "suit".

(3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit".

(4) Authorize us to obtain medical records or other pertinent information.

(5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.

c. If there is "loss" to a covered "auto" or its equipment, you must also do the following:

(1) Promptly notify the police if the covered "auto" or any of its equipment is stolen.

(2) Take all reasonable steps to protect the covered "auto" from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.

(3) Permit us to inspect the covered "auto" and records proving the "loss" before its repair or disposition.

(4) Agree to examinations under oath at our request and give us a signed statement of your answers.

3. Legal Action Against Us

No one may bring a legal action against us under this Coverage Form until:

a. There has been full compliance with all the terms of this Coverage Form; and

b. Under Covered Autos Liability Coverage, we agree in writing that the "insured" has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the "insured's" liability.

4. Loss Payment – Physical Damage Coverages

At our option, we may:

a. Pay for, repair or replace damaged or stolen property;

b. Return the stolen property, at our expense. We will pay for any damage that results to the "auto" from the theft; or

c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the "loss", our payment will include the applicable sales tax for the damaged or stolen property.

5. Transfer Of Rights Of Recovery Against Others To Us

If any person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "accident" or "loss" to impair them.

B. General Conditions

1. Bankruptcy

Bankruptcy or insolvency of the "insured" or the "insured's" estate will not relieve us of any obligations under this Coverage Form.

2. Concealment, Misrepresentation Or Fraud

This Coverage Form is void in any case of fraud by you at any time as it relates to this Coverage Form. It is also void if you or any other "insured", at any time, intentionally conceals or misrepresents a material fact concerning:

a. This Coverage Form;

b. The covered "auto";

c. Your interest in the covered "auto"; or

d. A claim under this Coverage Form.

3. Liberalization

If we revise this Coverage Form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

4. No Benefit To Bailee – Physical Damage Coverages

We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this Coverage Form.

5. Other Insurance

a. For any covered "auto" you own, this Coverage Form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Covered Autos Liability Coverage this Coverage Form provides for the "trailer" is:

(1) Excess while it is connected to a motor vehicle you do not own; or

(2) Primary while it is connected to a covered "auto" you own.

b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

c. Regardless of the provisions of Paragraph **a.** above, this Coverage Form's Covered Autos Liability Coverage is primary for any liability assumed under an "insured contract".

d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

6. Premium Audit

a. The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

7. Policy Period, Coverage Territory

Under this Coverage Form, we cover "accidents" and "losses" occurring:

a. During the policy period shown in the Declarations; and

b. Within the coverage territory.

The coverage territory is:

(1) The United States of America;

(2) The territories and possessions of the United States of America;

(3) Puerto Rico;

(4) Canada; and

(5) Anywhere in the world if a covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less,

provided that the "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada, or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

8. Two Or More Coverage Forms Or Policies Issued By Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us applies to the same "accident", the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

An "insured contract" does not include that part of any contract or agreement:

a. That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

PROVISIONS

The following is added to **SECTION II – WHO IS AN INSURED**:

Any person or organization that you agree in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only:

a. With respect to liability for "bodily injury" or "property damage" that occurs, or for "personal injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement and while that part of the contract or agreement is in effect; and

b. If, and only to the extent that, such injury or damage is caused by acts or omissions of you or your subcontractor in the performance of "your work" to which the written contract or agreement applies. Such person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

The insurance provided to such additional insured is subject to the following provisions:

a. If the Limits of Insurance of this Coverage Part shown in the Declarations exceed the minimum limits required by the written contract or agreement, the insurance provided to the additional insured will be limited to such minimum required limits. For the purposes of determining whether this limitation applies, the minimum limits required by the written contract or agreement will be considered to include the minimum limits of any Umbrella or Excess liability coverage required for the additional insured by that written contract or agreement. This provision will not increase the limits of insurance described in Section **III** – Limits Of Insurance.

b. The insurance provided to such additional insured does not apply to:

(1) Any "bodily injury", "property damage" or "personal injury" arising out of the providing, or failure to provide, any professional architectural, engineering or surveying services, including:

(a) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders or change orders, or the preparing, approving, or failing to prepare or approve, drawings and specifications; and

(b) Supervisory, inspection, architectural or engineering activities.

(2) Any "bodily injury" or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless the written contract or agreement specifically requires you to provide such coverage for that additional insured during the policy period.

c. The additional insured must comply with the following duties:

(1) Give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:

(a) How, when and where the "occurrence" or offense took place;

(b) The names and addresses of any injured persons and witnesses; and

(c) The nature and location of any injury or damage arising out of the "occurrence" or offense.

(2) If a claim is made or "suit" is brought against the additional insured:

© 2018 The Travelers Indemnity Company. All rights reserved.

(a) Immediately record the specifics of the claim or "suit" and the date received; and

(b) Notify us as soon as practicable and see to it that we receive written notice of the claim or "suit" as soon as practicable.

(3) Immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.

(4) Tender the defense and indemnity of any claim or "suit" to any provider of other insurance which would cover such additional insured for a loss we cover. However, this condition does not affect whether the insurance provided to such additional insured is primary to other insurance available to such additional insured which covers that person or organization as a named insured as described in Paragraph **4.**, Other Insurance, of Section **IV** – Commercial General Liability Conditions.

COMMERCIAL GENERAL LIABILITY COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations, and any other person or organization qualifying as a Named Insured under this policy. The words "we", "us" and "our" refer to the company providing this insurance.

The word "insured" means any person or organization qualifying as such under Section **II** – Who Is An Insured.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section **V** – Definitions.

SECTION I – COVERAGES

COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY

1. Insuring Agreement

a. We will pay those sums that the insured becomes legally obligated to pay as damages because of "bodily injury" or "property damage" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages for "bodily injury" or "property damage" to which this insurance does not apply. We may, at our discretion, investigate any "occurrence" and settle any claim or "suit" that may result. But:

(1) The amount we will pay for damages is limited as described in Section **III** – Limits Of Insurance; and

(2) Our right and duty to defend end when we have used up the applicable limit of insurance in the payment of judgments or settlements under Coverages **A** or **B** or medical expenses under Coverage **C**.

No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments.

b. This insurance applies to "bodily injury" and "property damage" only if:

(1) The "bodily injury" or "property damage" is caused by an "occurrence" that takes place in the "coverage territory";

(2) The "bodily injury" or "property damage" occurs during the policy period; and

(3) Prior to the policy period, no insured listed under Paragraph **1.** of Section **II** – Who Is An Insured and no "employee" authorized by you to give or receive notice of an "occurrence" or claim knew that the "bodily injury" or "property damage" had occurred, in whole or in part. If such a listed insured or authorized "employee" knew, prior to the policy period, that the "bodily injury" or "property damage" occurred, then any continuation, change or resumption of such "bodily injury" or "property damage" during or after the policy period will be deemed to have been known prior to the policy period.

c. "Bodily injury" or "property damage" which occurs during the policy period and was not, prior to the policy period, known to have occurred by any insured listed under Paragraph **1.** of Section **II** – Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim, includes any continuation, change or resumption of that "bodily injury" or "property damage" after the end of the policy period.

d. "Bodily injury" or "property damage" will be deemed to have been known to have occurred at the earliest time when any insured listed under Paragraph **1.** of Section **II** – Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim:

(1) Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;

(2) Receives a written or verbal demand or claim for damages because of the "bodily injury" or "property damage"; or

(3) Becomes aware by any other means that "bodily injury" or "property damage" has occurred or has begun to occur.

(3) Any statute, ordinance or regulation relating to the sale, gift, distribution or use of alcoholic beverages.

For the purposes of this exclusion, permitting a person to bring alcoholic beverages on your premises, for consumption on your premises, whether or not a fee is charged or a license is required for such activity, is not by itself considered the business of selling, serving or furnishing alcoholic beverages.

e. Employer's Liability

"Bodily injury" to:

(ii) "Bodily injury" or "property damage" for which you may be held liable, if you are a contractor and the owner or lessee of such premises, site or location has been added to your policy as an additional insured with respect to your ongoing operations performed for that additional insured at that premises, site or location and such premises, site or location is not and never was owned or occupied by, or rented or loaned to, any insured, other than that additional insured; or

(c) If such "pollutants" are or were at any time transported, handled, stored, treated, disposed of, or processed as waste by or for:

(i) Any insured; or

(ii) Any person or organization for whom you may be legally responsible;

b. A partnership or joint venture, you are an insured. Your members, your partners, and their spouses are also insureds, but only with respect to the conduct of your business.

c. A limited liability company, you are an insured. Your members are also insureds, but only with respect to the conduct of your business. Your managers are insureds, but only with respect to their duties as your managers.

d. An organization other than a partnership, joint venture or limited liability company, you are an insured. Your "executive officers" and directors are insureds, but only with respect to their duties as your officers or directors. Your stockholders are also insureds, but only with respect to their liability as stockholders.

e. A trust, you are an insured. Your trustees are also insureds, but only with respect to their duties as trustees.

2. Each of the following is also an insured:

a. Your "volunteer workers" only while performing duties related to the conduct of your business, or your "employees", other than either your "executive officers" (if you are an organization other than a partnership, joint venture or limited liability company) or your managers (if you are a limited liability company), but only for acts within the scope of their employment by you or while performing duties related to the conduct of your business. However, none of these "employees" or "volunteer workers" are insureds for:

(1) "Bodily injury" or "personal injury":

(a) To you, to your partners or members (if you are a partnership or joint venture), to your members (if you are a limited liability company), to a co-"employee" while in the course of his or her employment or performing duties related to the conduct of your business, or to your other "volunteer workers" while performing duties related to the conduct of your business;

(d) Arising out of his or her providing or failing to provide professional health care services.

Unless you are in the business or occupation of providing professional health care services, Paragraphs **(1)(a)**, **(b)**, **(c)** and **(d)** above do not apply to "bodily injury" arising out of providing or failing to provide first aid or "Good Samaritan services" by any of your "employees" or "volunteer workers", other than an employed or volunteer doctor. Any such "employees" or "volunteer workers" providing or failing to provide first aid or "Good Samaritan services" during their work hours for you will be deemed to be acting within the scope of their employment by you or performing duties related to the conduct of your business.

(2) "Property damage" to property:

(1) 50 feet long or less; and

(2) Not being used to carry any person or property for a charge.

3. Any organization you newly acquire or form, other than a partnership, joint venture or limited liability company, and of which you are the sole owner or in which you maintain an ownership interest of more than 50%, will qualify as a Named Insured if there is no other similar insurance available to that organization. c. Coverage **B** does not apply to "personal and advertising injury" arising out of an offense committed before you acquired or formed the organization.

For the purposes of Paragraph **1.** of Section **II** – Who Is An Insured, each such organization will be deemed to be designated in the Declarations as:

a. An organization, other than a partnership, joint venture or limited liability company; or

b. A trust;

as indicated in its name or the documents that govern its structure.

4. Any person or organization that is a premises owner, manager or lessor and that you have agreed in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" that:

a. Is "bodily injury" or "property damage" that occurs, or is "personal and advertising injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement; and

b. Arises out of the ownership, maintenance or use of that part of any premises leased to you.

The insurance provided to such premises owner, manager or lessor is subject to the following provisions:

a. The limits of insurance provided to such premises owner, manager or lessor will be the minimum limits that you agreed to provide in the written contract or agreement, or the limits shown in the Declarations, whichever are less.

b. The insurance provided to such premises owner, manager or lessor does not apply to:

(1) Any "bodily injury" or "property damage" that occurs, or "personal and advertising injury" caused by an offense that is committed, after you cease to be a tenant in that premises; or

(2) Structural alterations, new construction or demolition operations performed by or on behalf of such premises owner, manager or lessor.

5. Any person or organization that is an equipment lessor and that you have agreed in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage", or "personal and advertising injury" that:

a. Is "bodily injury" or "property damage" that occurs, or is "personal and advertising injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement; and

b. Is caused, in whole or in part, by your acts or omissions in the maintenance, operation or use of equipment leased to you by such equipment lessor.

venture or limited liability company that is not shown as a Named Insured in the Declarations. This paragraph does not apply to any such partnership, joint venture or limited liability company that otherwise qualifies as an insured under Section **II** – Who Is An Insured.

SECTION III – LIMITS OF INSURANCE

1. The Limits of Insurance shown in the Declarations and the rules below fix the most we will pay regardless of the number of:

a. Insureds;

b. Claims made or "suits" brought; or

c. Persons or organizations making claims or bringing "suits".

2. The General Aggregate Limit is the most we will pay for the sum of:

a. Medical expenses under Coverage **C**;

b. Damages under Coverage **A**, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard"; and

c. Damages under Coverage **B**.

3. The Products-Completed Operations Aggregate Limit is the most we will pay under Coverage **A** for damages because of "bodily injury" and "property damage" included in the "products-completed operations hazard".

4. Subject to Paragraph **2.** above, the Personal And Advertising Injury Limit is the most we will pay under Coverage **B** for the sum of all damages because of all "personal injury" and "advertising injury" sustained by any one person or organization.

5. Subject to Paragraph **2.** or **3.** above, whichever applies, the Each Occurrence Limit is the most we will pay for the sum of:

a. Damages under Coverage **A**; and

b. Medical expenses under Coverage **C**;

because of all "bodily injury" and "property damage" arising out of any one "occurrence".

For the purposes of determining the applicable Each Occurrence Limit, all related acts or omissions committed in providing or failing to provide first aid or "Good Samaritan services" to any one person will be deemed to be one "occurrence".

6. Subject to Paragraph **5.** above, the Damage To Premises Rented To You Limit is the most we will pay under Coverage **A** for damages because of "premises damage" to any one premises. The Damage To Premises Rented To You Limit will be:

a. The amount shown for the Damage To Premises Rented To You Limit in the Declarations of this Coverage Part; or

b. $300,000 if no amount is shown for the Damage To Premises Rented To You Limit in the Declarations of this Coverage Part.

7. Subject to Paragraph **5.** above, the Medical Expense Limit is the most we will pay under Coverage **C** for all medical expenses because of "bodily injury" sustained by any one person.

The Limits of Insurance of this Coverage Part apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits of Insurance.

SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS

1. Bankruptcy

Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this Coverage Part.

2. Duties In The Event Of Occurrence, Offense, Claim Or Suit

a. You must see to it that we are notified as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, notice should include:

(1) How, when and where the "occurrence" or offense took place;

(2) The names and addresses of any injured persons and witnesses; and

(3) The nature and location of any injury or damage arising out of the "occurrence" or offense.

b. If a claim is made or "suit" is brought against any insured, you must:

(1) Immediately record the specifics of the claim or "suit" and the date received; and

(2) Notify us as soon as practicable.

You must see to it that we receive written notice of the claim or "suit" as soon as practicable.

c. You and any other involved insured must:

(1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";

Includes copyrighted material of Insurance Services Office, Inc. with its permission.

(2) Authorize us to obtain records and other information;

(3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and

(4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of injury or damage to which this insurance may also apply.

d. No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

e. The following provisions apply to Paragraph **a.** above, but only for purposes of the insurance provided under this Coverage Part to you or any insured listed in Paragraph **1.** or **2.** of Section **II** – Who Is An Insured:

(1) Notice to us of such "occurrence" or offense must be given as soon as practicable only after the "occurrence" or offense is known to you (if you are an individual), any of your partners or members who is an individual (if you are a partnership or joint venture), any of your managers who is an individual (if you are a limited liability company), any of your "executive officers" or directors (if you are an organization other than a partnership, joint venture, or limited liability company), any of your trustees who is an individual (if you are a trust) or any "employee" authorized by you to give notice of an "occurrence" or offense.

(2) If you are a partnership, joint venture, limited liability company or trust, and none of your partners, joint venture members, managers or trustees are individuals, notice to us of such "occurrence" or offense must be given as soon as practicable only after the "occurrence" or offense is known by:

(a) Any individual who is:

(i) A partner or member of any partnership or joint venture;

(ii) A manager of any limited liability company;

(iii) An executive officer or director of any other organization; or

(iv) A trustee of any trust;

that is your partner, joint venture member, manager or trustee; or

(b) Any employee authorized by such partnership, joint venture, limited liability company, trust or other organization to give notice of an "occurrence" or offense.

(3) Notice to us of such "occurrence" or offense will be deemed to be given as soon as practicable if it is given in good faith as soon as practicable to your workers' compensation insurer. This applies only if you subsequently give notice to us of the "occurrence" or offense as soon as practicable after any of the persons described in Paragraph **e.(1)** or **(2)** above discovers that the "occurrence" or offense may result in sums to which the insurance provided under this Coverage Part may apply.

However, if this policy includes an endorsement that provides limited coverage for "bodily injury" or "property damage" or pollution costs arising out of a discharge, release or escape of "pollutants" which contains a requirement that the discharge, release or escape of "pollutants" must be reported to us within a specific number of days after its abrupt commencement, this Paragraph **e.** does not affect that requirement.

3. Legal Action Against Us

No person or organization has a right under this Coverage Part:

a. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or

b. To sue us on this Coverage Part unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured, and the claimant or the claimant's legal representative.

4. Other Insurance

If valid and collectible other insurance is available to the insured for a loss we cover under Coverages **A** or **B** of this Coverage Part, our obligations are limited as described in Paragraphs **a.** and **b.** below.

As used anywhere in this Coverage Part, other insurance means insurance, or the funding of losses, that is provided by, through or on behalf of:

(i) Another insurance company;

(ii) Us or any of our affiliated insurance companies, except when the Non cumulation of Each Occurrence Limit provision of Paragraph **5.** of Section **III** – Limits Of Insurance or the Non cumulation of Personal and Advertising Injury Limit provision of Paragraph **4.** of Section **III** – Limits of Insurance applies because the Amendment – Non Cumulation Of Each Occurrence Limit Of Liability And Non Cumulation Of Personal And Advertising Injury Limit endorsement is included in this policy;

(iii) Any risk retention group; or

(iv) Any self-insurance method or program, in which case the insured will be deemed to be the provider of other insurance.

Other insurance does not include umbrella insurance, or excess insurance, that was bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

As used anywhere in this Coverage Part, other insurer means a provider of other insurance. As used in Paragraph **c.** below, insurer means a provider of insurance.

a. Primary Insurance

This insurance is primary except when Paragraph **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in Paragraph **c.** below, except when Paragraph **d.** below applies.

b. Excess Insurance

(1) This insurance is excess over:

(a) Any of the other insurance, whether primary, excess, contingent or on any other basis:

(i) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";

(ii) That is insurance for "premises damage";

(iii) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to any exclusion in this Coverage Part that applies to aircraft, "autos" or watercraft;

(iv) That is insurance available to a premises owner, manager or lessor that qualifies as an insured under Paragraph **4.** of Section **II** – Who Is An Insured, except when Paragraph **d.** below applies; or

(v) That is insurance available to an equipment lessor that qualifies as an insured under Paragraph **5.** of Section **II** – Who Is An Insured, except when Paragraph **d.** below applies.

(b) Any of the other insurance, whether primary, excess, contingent or on any other basis, that is available to the insured when the insured is an additional insured, or is any other insured that does not qualify as a named insured, under such other insurance.

(2) When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

(3) When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

(a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

(b) The total of all deductible and self-insured amounts under all that other insurance.

(4) We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

c. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

d. Primary And Non-Contributory Insurance If Required By Written Contract

If you specifically agree in a written contract or agreement that the insurance afforded to an insured under this Coverage Part must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such insured which covers such insured as a named insured, and we will not share with that other insurance, provided that:

(1) The "bodily injury" or "property damage" for which coverage is sought occurs; and

(2) The "personal and advertising injury" for which coverage is sought is caused by an offense that is committed;

subsequent to the signing of that contract or agreement by you.

5. Premium Audit

a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.

b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.

c. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

6. Representations

By accepting this policy, you agree:

a. The statements in the Declarations are accurate and complete;

b. Those statements are based upon representations you made to us; and

c. We have issued this policy in reliance upon your representations.

The unintentional omission of, or unintentional error in, any information provided by you which we relied upon in issuing this policy will not prejudice your rights under this insurance. However, this provision does not affect our right to collect additional premium or to exercise our rights of cancellation or nonrenewal in accordance with applicable insurance laws or regulations.

7. Separation Of Insureds

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

a. As if each Named Insured were the only Named Insured; and

b. Separately to each insured against whom claim is made or "suit" is brought.

8. Transfer Of Rights Of Recovery Against Others To Us

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

9. When We Do Not Renew

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

The Grantee shall reference the Project's number in all correspondence with and submissions to the Department concerning the Project, including, but not limited to, Requests for Payment and reports.

ARTICLE II. LIMITATION ON DEPARTMENT'S OBLIGATION TO MAKE GRANT DISBURSEMENT TO GRANTEE

A. (ii) The total amount received by the Grantee shall not exceed the lesser of: (a) the Adjusted Appropriation Amount identified in Article I(A) herein or (b) the total of all amounts stated in the Notice(s) of Obligation evidencing that the Department has received and accepted the Grantee's Third Party Obligation(s), as defined in subparagraph iii of this Article II(A); and

(iii) The Grantee's expenditures were made pursuant to the State Procurement Code and execution of binding written obligations or purchase orders with third party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project, hereinafter referred to as "Third Party Obligations"; and

c. The Department may, in its sole and absolute discretion, issue to Grantee a Notice of Obligation for the particular amount of that Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(A).

B. Early Termination Before Reversion Date Due to Non-appropriation

The terms of this Agreement are expressly made contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. Throughout this Agreement the term "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature: deauthorization, reauthorization or revocation of a prior authorization. The Legislature may choose to non-appropriate the Appropriation referred to in Article I and, if that occurs, the Department shall early terminate this Agreement for non-appropriation by giving the Grantee written notice of such termination, and such termination shall be effective as of the effective date of the law making the non-appropriation. The Department's decision as to whether sufficient appropriations or authorizations are available shall be accepted by the Grantee and shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(B).

C. Limitation on Department's Obligation to Make Grant Disbursements to Grantee in the Event of Early Termination

In the event of Early Termination of this Agreement by either party, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth Article II.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension

In the event that the Department chooses, in its sole and absolute discretion to direct the Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension. Such corrective action plan must be approved by the Department and be signed by the Grantee. Additionally, the Grantee shall certify on the Request for Payment form (Exhibit 1) that updates have been maintained and are current in the database. The Grantee hereby acknowledges that failure to perform and/or certify updates into the database will delay or potentially jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of thirty (30) days' advance written notice of any changes to the information the Grantee is required to report.

Quarterly reports shall be due on the last day of the month that is 30 days prior to the end of the quarter following execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter.

B. Requests for Additional Information/Project Inspection

DocuSign Envelope ID: 05B69AF9-3198-4665-B726-0A173BC4E34C

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:

(i) request such additional information regarding the Project as it deems necessary; and

(ii) conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.

Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

ARTICLE IX. REQUEST FOR PAYMENT PROCEDURES AND DEADLINES

(ii) Twenty (20) days from date of Early Termination; or

(iii) Twenty (20) days from the Reversion Date.

D. The Grantee's failure to abide by the requirements set forth in Article II and Article IX herein will result in the denial of its Request for Payment or will delay the processing of Requests for Payment. The Department has the right to reject a payment request for the Project unless and until it is satisfied that the expenditures in the Request for Payment are for permissible purposes within the meaning of the Project Description and that the expenditures and the Grantee are otherwise in compliance with this Agreement, including but not limited to, compliance with the reporting requirements and the requirements set forth in

Article II herein to provide Third Party Obligations and the Deadlines set forth in Article IX herein. A. The Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles, and, if feasible, maintain a separate bank account or fund with a separate organizational code, for the funds to assure separate budgeting and accounting of the funds.

ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines that part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to, Project funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, or violation of this Agreement, the Grantee shall return such funds to the Department for disposition in accordance with law.

ARTICLE XIII. LIABILITY

Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Grantee and Department concerning the subject matter hereof. The Agreement supersedes any and all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

ARTICLE XV. REQUIRED NON-APPROPRIATIONS CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

The Grantee acknowledges, warrants, and agrees that Grantee shall include a “non-appropriations” clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

“The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, the City of Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination. The City of Santa Fe’s decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. Contractor hereby waives any rights to assert an impairment of contract claim against the City of Santa Fe or the Department of Transportation or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the City of Santa Fe or the Department”

ARTICLE XVI. REQUIRED TERMINATION CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

Grantee acknowledges, warrants, and agrees that Grantee shall include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

"This contract is funded in whole or in part by funds made available under a Department of Transportation Grant Agreement. Should the Department of Transportation early terminate the grant agreement, the City of Santa Fe may early terminate this contract by providing Contractor written notice of such termination. In the event of termination pursuant to this paragraph, the City of Santa Fe only liability shall be to pay Contractor for acceptable goods delivered and services rendered before the termination date."

Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department.

XVII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA.

A. Throughout the term of this Agreement, Grantee shall:

1. submit all reports of annual audits and agreed upon procedures required by Section 12-6-3(A)-(B) NMSA 1978 by the due dates established in 2.2.2 NMAC, reports of which must be a public record pursuant to Section 12-6-5(A) NMSA 1978 within forty-five days of delivery to the State Auditor;
2. have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);
3. timely submit all required financial reports to its budgetary oversight agency (if any); and
4. have adequate accounting methods and procedures to expend grant funds in accordance with applicable law and account for and safeguard grant funds and assets acquired by grant funds.

B. In the event Grantee fails to comply with the requirements of Paragraph A of this Article XVII, the Department may take one or more of the following actions:

1. suspend new or further obligations pursuant to Article VI(A) of this Agreement;
2. require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;
3. impose special grant conditions to address the non-compliance by giving the Grantee notice of such special conditions in accordance with Article III of this Agreement; the special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III; or
4. terminate this Agreement pursuant to Article V(A) of this Agreement.

ARTICLE XVIII. SEVERANCE TAX BOND AND GENERAL OBLIGATION BOND PROJECT CLAUSES

A. Grantee acknowledges and agrees that the underlying appropriation for the Project is a severance tax bond or general obligation bond appropriation, and that the associated bond proceeds are administered by the New Mexico State Board of Finance (SBOF), an entity separate and distinct from the Department. Grantee acknowledges and agrees that (i) it is Grantee's sole and absolute responsibility to determine through SBOF staff what (if any) conditions are currently imposed on the Project; (ii) the Department's failure to inform Grantee of a SBOF imposed condition does not affect the validity or enforceability of the condition; (iii) the SBOF may in the future impose further or different conditions upon the Project; (iv) all SBOF conditions are effective without amendment of this Agreement; (v) all applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s); and (vi) the Department's obligation to reimburse Grantee from the Project is contingent upon the then current SBOF conditions being satisfied.

B. Grantee acknowledges and agrees that the SBOF may in its sole and absolute discretion remove a project's assigned bond proceeds if the project doesn't proceed sufficiently. Entities must comply with the

DocuSign Envelope ID: 05B69AF9-3198-4665-B726-0A173BC4E34C

requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by the grantee in the Bond Questionnaire and Certification documents submitted to the SBOF. Failure to comply may result in the bond proceeds reassignment to a new ready project. If this should occur this grant agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, NMAC 2.61.6, as may be amended or re-codified. The rule provides definitions and interpretations of grant language for the purpose of determining whether a particular activity is allowable under the authorizing language of the agreement.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

ARTICLE I. PROJECT DESCRIPTION, AMOUNT OF GRANT AND REVERSION DATE

The Grantee's total reimbursements shall not exceed One Hundred Fifty Thousand Dollars and No Cents $150,000 (the "Appropriation Amount") minus the allocation for Art in Public Places ("AIPP amount")[1], if

[1] The AIPP amount is "an amount of money equal to one percent or two hundred thousand dollars ($200,000), whichever is less, of the amount of money appropriated for new construction or any major renovation exceeding one hundred thousand dollars ($100,000)." Section 13-4A-4 NMSA 1978.

In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I(A), the language of the laws cited herein shall control.

This project is referred to throughout the remainder of this Agreement as the "Project"; the information contained in Article I(A) is referred to collectively throughout the remainder of this Agreement as the "Project Description." Optional Attachment A sets forth additional or more stringent requirements and conditions, which are incorporated by this reference as if set forth fully herein. If Optional Attachment A imposes more stringent requirements than any requirement set forth in this Agreement, the more stringent requirements of Attachment A shall prevail, in the event of irreconcilable conflict. The Grantee shall reference the Project's number in all correspondence with and submissions to the Department concerning the Project, including, but not limited to, Requests for Payment and reports.

ARTICLE II. LIMITATION ON DEPARTMENT'S OBLIGATION TO MAKE GRANT DISBURSEMENT TO GRANTEE

A. Upon the Effective Date of this Agreement, for permissible purposes within the scope of the Project Description, the Grantee shall only be reimbursed monies for which the Department has issued and the Grantee has received a Notice of Department's Obligation to Reimburse[2] Grantee (hereinafter referred to as "Notice of Obligation"). This Grant Agreement and the disbursement of any and all amounts of the above referenced Adjusted Appropriation Amount are expressly conditioned upon the following:

(i) Irrespective of any Notice of Obligation, the Grantee's expenditures shall be made on or before the Reversion Date and, if applicable, an Early Termination Date (i.e., the goods have been delivered and accepted or the title to the goods has been transferred to the Grantee and/or the services have been rendered for the Grantee); and

(ii) The total amount received by the Grantee shall not exceed the lesser of: (a) the Adjusted Appropriation Amount identified in Article I(A) herein or (b) the total of all amounts stated in the Notice(s) of Obligation evidencing that the Department has received and accepted the Grantee's Third Party Obligation(s), as defined in subparagraph iii of this Article II(A); and

(iii) The Grantee's expenditures were made pursuant to the State Procurement Code and execution of binding written obligations or purchase orders with third party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project, hereinafter referred to as "Third Party Obligations"; and

(iv) The Grantee's submittal of timely Requests for Payment in accordance with the procedures set forth in Article IX of this Agreement; and

(v) In the event that capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private entity, the sale, lease, license, or operating agreement:
   a. must be approved by the applicable oversight entity (if any) in accordance with law; or
   b. if no oversight entity is required to approve the transaction, the Department must approve the transaction as complying with law.

[2] "Reimburse" as used throughout this Agreement includes Department payments to the Grantee for invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee.

Prior to the sale, lease, license, or operating agreement being approved pursuant to Articles II(A)(v)(a) and II(A)(v)(b) herein, the Department may, in its sole and absolute discretion and unless inconsistent with State Board of Finance imposed conditions, reimburse the Grantee for necessary expenditures incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, such as plan and design expenditures; and

(vi) The Grantee's submission of documentation of all Third Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance and the Grantee's receiving of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement shall be governed by the following:

a. The Grantee shall submit to the Department one copy of all Third Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party **but prior to execution by the Grantee.**

b. Grantee acknowledges and agrees that if it chooses to enter into a Third Party Obligation prior to receiving a Notice of Obligation that covers the expenditure, it is solely responsible for such obligations.

c. The Department may, in its sole and absolute discretion, issue to Grantee a Notice of Obligation for the particular amount of that Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is attached to this Agreement as Exhibit 2.

d. The date the Department signs the Notice of Obligation is the date that the Department's Notice of Obligation is effective. After that date, the Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third Party Obligation and request the Third Party to begin work. Payment for any work performed or goods received prior to the effective date of the Notice of Obligation is wholly and solely the obligation of the Grantee.

B. The Grantee shall implement, in all respects, the Project. The Grantee shall provide all necessary qualified personnel, material, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

C. Project funds shall not be used for purposes other than those specified in the Project Description.

D. Unless specifically allowed by law, Project funds cannot be used to reimburse Grantee for indirect Project costs.

ARTICLE IV. REVERSION DATE, TERM, DEADLINE TO EXPEND FUNDS

A. As referenced in Article I(A), the applicable law establishes a date by which Project funds must be expended by Grantee, which is referred to throughout the remainder of this Agreement as the "Reversion Date." Upon being duly executed by both parties, this Agreement shall be effective as of the date of execution by the Department. Funds are expended and an expenditure has occurred as of the date that a particular quantity of goods are delivered to and received by the Grantee or title to the goods is transferred to the Grantee and/or as of the date

particular services are rendered for the Grantee. Funds are ***not*** expended and an expenditure has ***not*** occurred as of the date they are encumbered by the Grantee pursuant to a contract or purchase order with a third party.

ARTICLE V. EARLY TERMINATION

A. Early Termination Before Reversion Date Due to Completion of the Project or Complete Expenditure of the Adjusted Appropriation or Violation of this Agreement

Early Termination includes:

(i) Termination due to completion of the Project before the Reversion Date; or

(ii) Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date; or

(iii) Termination for violation of the terms of this Agreement; or

(iv) Termination for suspected mishandling of public funds, including but not limited to, fraud, waste, abuse, and conflicts of interest.

Either the Department or the Grantee may early terminate this Agreement prior to the Reversion Date by providing the other party with a minimum of fifteen (15) days' advance, written notice of early termination. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(A).

B. Early Termination Before Reversion Date Due to Non-appropriation

The terms of this Agreement are expressly made contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. Throughout this Agreement the term "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature: deauthorization, reauthorization or revocation of a prior authorization. The Legislature may choose to non-appropriate the Appropriation referred to in Article I and, if that occurs, the Department shall early terminate this Agreement for non-appropriation by giving the Grantee written notice of such termination, and such termination shall be effective as of the effective date of the law making the non-appropriation. The Department's decision as to whether sufficient appropriations or authorizations are available shall be accepted by the Grantee and shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(B).

C. Limitation on Department's Obligation to Make Grant Disbursements to Grantee in the Event of Early Termination

In the event of Early Termination of this Agreement by either party, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth Article II.

ARTICLE VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. The Department may choose, in its sole and absolute discretion, to provide written notice to the Grantee to suspend entering into new and further obligations. Upon the receipt of such written notice by the Grantee:

(i) The Grantee shall immediately suspend entering into new or further written obligations with third parties; and

(ii) The Department will suspend the issuance of any new or further Notice of Obligation under this Agreement; and

(iii) The Department may direct the Grantee to implement a corrective action plan in accordance with Article VI(D) herein.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension

In the event that the Department chooses, in its sole and absolute discretion to direct the Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension. Such corrective action plan must be approved by the Department and be signed by the Grantee. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan, is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(iii). The corrective action plan is in addition to, and not in lieu of, any other equitable or legal remedy, including but not limited to Early Termination.

ARTICLE VII. AMENDMENT

This Agreement shall not be altered, changed, or amended except by instrument in writing duly executed by both the parties hereto.

ARTICLE VIII. REPORTS

A. Database Reporting

The Grantee shall report quarterly Project activity by entering such Project information as the Department and the Department of Finance and Administration may require, such information entered directly into a database maintained by the Department of Finance and Administration (Budget & Formulation Management System). Additionally, the Grantee shall certify on the Request for Payment form (Exhibit 1) that updates have been maintained and are current in the database. The Grantee hereby acknowledges that failure to perform and/or certify updates into the database will delay or potentially jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of thirty (30) days' advance written notice of any changes to the information the Grantee is required to report.

Quarterly reports shall be due on the last day of the month that is 30 days prior to the end of the quarter following execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter.

B. Requests for Additional Information/Project Inspection

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:

(i) request such additional information regarding the Project as it deems necessary; and

(ii) conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.

Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

ARTICLE IX. REQUEST FOR PAYMENT PROCEDURES AND DEADLINES

A. The Grantee shall request payment by submitting a Request for Payment, in the form attached hereto as Exhibit 1. Payment requests are subject to the following procedures:

(i) The Grantee must submit a Request for Payment; and

(ii) Each Request for Payment must contain proof of payment by the Grantee or liabilities incurred by the Grantee showing that the expenditures are valid or are liabilities incurred by the Grantee in the form of actual unpaid invoices received by the Grantee for services rendered by a third party or items of tangible personal property received by the Grantee for the implementation of the Project; provided, however, that the Grantee may be reimbursed for unpaid liabilities only if the Department, in its sole and absolute discretion, agrees to do so and in accordance with any special conditions imposed by the Department.

(iii) In cases where the Grantee is submitting a Request for Payment to the Department based upon invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee, the Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or such shorter period of time as the Department may prescribe in writing. The Grantee is required to certify to the Department proof of payment to the third party contractor or vendor within ten (10) business days from the date of receiving reimbursement from the Department.

B. The Grantee must obligate 5% of the Adjusted Appropriation Amount within six months of acceptance of the grant agreement and must have expended no less than 85% of the Adjusted Appropriation Amount six months prior to the reversion date.

C. **Deadlines**

Requests for Payments shall be submitted by Grantee to the Department on the earlier of:

(i) Immediately as they are received by the Grantee but at a minimum thirty (30) days from when the expenditure was incurred or liability of the Grantee was ~~a~~approved as evidenced by an unpaid invoice received by the Grantee from a third party contractor or vendor; or

(ii) Twenty (20) days from date of Early Termination; or

(iii) Twenty (20) days from the Reversion Date.

D. The Grantee's failure to abide by the requirements set forth in Article II and Article IX herein will result in the denial of its Request for Payment or will delay the processing of Requests for Payment. The Department has the right to reject a payment request for the Project unless and until it is satisfied that the expenditures in the Request for Payment are for permissible purposes within the meaning of the Project Description and that the expenditures and the Grantee are otherwise in compliance with this Agreement, including but not limited to, compliance with the reporting requirements and the requirements set forth in

DocuSign Envelope ID: 05B69AF9-3198-4665-B726-0A173BC4E34C

Article II herein to provide Third Party Obligations and the Deadlines set forth in Article IX herein. The Department's ability to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department due to Grantee's violation of this Agreement.

ARTICLE X. PROJECT CONDITIONS AND RESTRICTIONS; REPRESENTATIONS AND WARRANTIES

A. The following general conditions and restrictions are applicable to the Project:

(i) The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the State Procurement Code (or local procurement ordinance, where applicable).

(ii) The Project must be implemented in accordance with the New Mexico Public Works Minimum Wage Act, Section 13-4-10 through 13-4-17 NMSA 1978, as applicable. Every contract or project in excess of sixty thousand dollars ($60,000) that the Grantee is a party to for construction, alteration, demolition or repair or any combination of these, including painting and decorating, of public buildings, public works or public roads and that requires or involves the employment of mechanics, laborers or both shall contain a provision stating the minimum wages and fringe benefits to be paid to various classes of laborers and mechanics, shall be based upon the wages and benefits that will be determined by the New Mexico Department of Workforce Solutions to be prevailing for the corresponding classes of laborers and mechanics employed on contract work of a similar nature in the locality. Further, every contract or project shall contain a stipulation that the contractor, subcontractor, employer or a person acting as a contractor shall pay all mechanics and laborers employed on the site of the project, unconditionally and not less often than once a week and without subsequent unlawful deduction or rebate on any account, the full amounts accrued at time of payment computed at wage rates and fringe benefit rates not less than those determined pursuant to Section 13-4-11 (B) NMSA 1978 to be the prevailing wage rates and prevailing fringe benefit rates issued for the project.

(iii) The Project may only benefit private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico, the "Anti-Donation Clause."

(iv) The Grantee shall not for a period of 10 years from the date of this agreement convert any property acquired, built, renovated, repaired, designed or developed with the Project's funds to uses other than those specified in the Project Description without the Department's and the Board of Finance's express, advance, written approval, which may include a requirement to reimburse the State for the cost of the project, transfer proceeds from the disposition of property to the State, or otherwise provide consideration to the State.

(v) The Grantee shall comply with all federal and state laws, rules and regulations pertaining to equal employment opportunity. In accordance with all such laws, rules and regulations the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age or handicap, be excluded from employment with Grantee, be excluded from participation in the Project, be denied benefits or otherwise be subject to discrimination under, any activity performed under this Agreement. If Grantee is found to be not in compliance with these requirements during the life of this Agreement, Grantee agrees to take appropriate steps to correct any deficiencies. The Grantee's failure to implement such appropriate steps within a reasonable time constitutes grounds for terminating this Agreement.

B. The Grantee hereby represents and warrants the following:

(i) The Grantee has the legal authority to receive and expend the Project's funds.

(ii) This Agreement has been duly authorized by the Grantee, the person executing this Agreement has authority to do so, and, once executed by the Grantee, this Agreement shall constitute a binding obligation of the Grantee, enforceable according to its terms.

(iii) This Agreement and the Grantee's obligations hereunder do not conflict with any law or ordinance or resolution applicable to the Grantee, the Grantee's charter (if applicable), or any judgment or decree to which the Grantee is subject.

(iv) The Grantee has independently confirmed that the Project Description, including, but not limited to, the amount and Reversion Date, is consistent with the underlying appropriation in law.

(v) The Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign the Agreement and to sign Requests for Payment.

(vi) The Grantee shall abide by New Mexico laws regarding conflicts of interest, governmental conduct and whistleblower protection. The Grantee specifically agrees that no officer or employee of the local jurisdiction or its designees or agents, no member of the governing body, and no other public official of the locality who exercises any function or responsibility with respect to this Grant, during their tenure or for one year thereafter, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed or goods to be received, pursuant to this Grant. Further, Grantee shall require all of its contractors to incorporate in all subcontracts the language set forth in this paragraph prohibiting conflicts of interest.

(vii) No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of this or any agency or body in connection with the awarding of any Third Party Obligation and that the Grantee shall require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans and cooperative agreements. All subrecipients shall be required to certify accordingly.

ARTICLE XI. STRICT ACCOUNTABILITY OF RECEIPTS AND DISBURSEMENTS; PROJECT RECORDS

A. The Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles, and, if feasible, maintain a separate bank account or fund with a separate organizational code, for the funds to assure separate budgeting and accounting of the funds.

B. For a period of six (6) years following the Project's completion, the Grantee shall maintain all Project related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the total funds from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department shall prescribe.

C. The Grantee shall make all Project records available to the Department, the Department of Finance and Administration, and the New Mexico State Auditor upon request. With respect to the funds that are the

ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines that part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to, Project funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, or violation of this Agreement, the Grantee shall return such funds to the Department for disposition in accordance with law.

ARTICLE XIII. LIABILITY

Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Grantee and Department concerning the subject matter hereof. The Agreement supersedes any and all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

ARTICLE XV. REQUIRED NON-APPROPRIATIONS CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

The Grantee acknowledges, warrants, and agrees that Grantee shall include a “non-appropriations” clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

“The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, the City of Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination. The City of Santa Fe’s decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. Contractor hereby waives any rights to assert an impairment of contract claim against the City of Santa Fe or the Department of Transportation or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the City of Santa Fe or the Department”

ARTICLE XVI. REQUIRED TERMINATION CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

Grantee acknowledges, warrants, and agrees that Grantee shall include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

"This contract is funded in whole or in part by funds made available under a Department of Transportation Grant Agreement. Should the Department of Transportation early terminate the grant agreement, the City of Santa Fe may early terminate this contract by providing Contractor written notice of such termination. In the event of termination pursuant to this paragraph, the City of Santa Fe only liability shall be to pay Contractor for acceptable goods delivered and services rendered before the termination date."

Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department.

XVII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA.

A. Throughout the term of this Agreement, Grantee shall:

1. submit all reports of annual audits and agreed upon procedures required by Section 12-6-3(A)-(B) NMSA 1978 by the due dates established in 2.2.2 NMAC, reports of which must be a public record pursuant to Section 12-6-5(A) NMSA 1978 within forty-five days of delivery to the State Auditor;

4. terminate this Agreement pursuant to Article V(A) of this Agreement.

ARTICLE XVIII. SEVERANCE TAX BOND AND GENERAL OBLIGATION BOND PROJECT CLAUSES

A. Grantee acknowledges and agrees that the underlying appropriation for the Project is a severance tax bond or general obligation bond appropriation, and that the associated bond proceeds are administered by the New Mexico State Board of Finance (SBOF), an entity separate and distinct from the Department. Grantee acknowledges and agrees that (i) it is Grantee's sole and absolute responsibility to determine through SBOF staff what (if any) conditions are currently imposed on the Project; (ii) the Department's failure to inform Grantee of a SBOF imposed condition does not affect the validity or enforceability of the condition; (iii) the SBOF may in the future impose further or different conditions upon the Project; (iv) all SBOF conditions are effective without amendment of this Agreement; (v) all applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s); and (vi) the Department's obligation to reimburse Grantee from the Project is contingent upon the then current SBOF conditions being satisfied.

B. Grantee acknowledges and agrees that the SBOF may in its sole and absolute discretion remove a project's assigned bond proceeds if the project doesn't proceed sufficiently. Entities must comply with the

DocuSign Envelope ID: 05B69AF9-3198-4665-B726-0A173BC4E34C

requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by the grantee in the Bond Questionnaire and Certification documents submitted to the SBOF. Failure to comply may result in the bond proceeds reassignment to a new ready project. If this should occur this grant agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, NMAC 2.61.6, as may be amended or re-codified. The rule provides definitions and interpretations of grant language for the purpose of determining whether a particular activity is allowable under the authorizing language of the agreement.

The Purchasing Memo

Date: May 28, 2025

To: Governing Body, Finance Committee, and Public Works & Utilities Committee

From: Allan Mantle: Airport Operations Manager: apmantle@santafenm.gov

Via: Jimmy Gunn: Interim Airport Director

Subject: MB-3 Airfield Snow Removal Broom Truck

Vendor Name: M B Company Inc.

Munis Vendor Number: 1865

ITEM AND ISSUE:

The Airport Department respectfully requests your review and approval of the purchase of a heavy-duty airfield snow removal broom truck in the total amount of $865,840.47 from the M B Company Inc.

BACKGROUND AND SUMMARY:

The Santa Fe Regional Airport currently has only 1 airfield snow removal broom truck. The majority of snowstorms and events we experience at the airport call for this equipment type to be utilized for snow removal. Only having 1 airfield snow removal broom to treat the entire airfield during snow events significantly hinders the airport's ability to safely and effectively clear snow from the airfield. Additionally, when this piece of equipment breaks down, it jeopardizes the airport's ability to remain open to the travelling public. Demand for air service in Santa Fe is increasing, therefore, it is imperative for the airport to have a second heavy-duty airfield snow removal broom truck in the fleet. Having a second airfield snow removal broom truck will enhance safety, improve airfield snow clearance times, and add redundancy to the airport's fleet if equipment breaks down.

Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Street Sweepers and Specialty Sweepers, with Related Equipment, Accessories, and Supplies from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires November 16, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

DocuSign Envelope ID: 47AA3300-2FF2-4F69-9B54-FE9A11911F76

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

DocuSign Envelope ID: 47AA3300-2FF2-4F69-9B54-FE9A11911F76

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

DocuSign Envelope ID: 47AA3300-2FF2-4F69-9B54-FE9A11911F76

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

9	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	Company History In 2015, the Aebi Schmidt Group, headquartered in Zurich, Switzerland purchased Swenson Products and Meyer Products. In 2018, the group purchased M-B Companies, Inc. which has 4 divisions (Airport Maintenance, Attachments, Brushes and Pavement Striping) including 4 manufacturing plants. The privately held Aebi Schmidt Group is the world's largest and oldest manufacturer of municipal maintenance equipment, dating back to 1883. The mission is "to improve the performance of our customers by providing total solutions that enable a safe and economical clearing." In 2019, Aebi Schmidt North America created a new Canadian business called Aebi Schmidt Canada to support sales into Canada. In 2020, Aebi Schmidt Group added to the North America portfolio by acquiring, Equipments Lourds Papineau, Inc (ELP), a manufacturing company that produces snow and ice removal equipment in Quebec, Canada. Aebi Schmidt has become the worldwide industry leader by consistently improving its technology to deliver superior value to its customers. The group has operations in 13 countries in Europe, and now, with the recent acquisitions has 7 manufacturing facilities and sales organizations in North America. M-B Companies, Inc. From clearing snow to painting lines for roads, M-B Companies Inc. manufactures the highest quality products for many industries. Utilizing the latest in innovation and technology, M-B is the trusted manufacturer of airport runway maintenance equipment, pavement striping equipment, various size truck, tractor and loader attachment equipment, replacement brushes, and much more. The origin of M-B Companies Inc. dates back to 1907. The company was formed by three German craftsmen, brothers Otto and Fred Meili and Paul Blumberg. Not surprising, they adopted the name "MB", which is still used today. The Meili brothers were inventors and Blumberg was an expert metalworker. They started the company in a small shop in New Holstein, Wisconsin building agricultural implements. The Meili brothers and Blumberg were inventing and building a variety of equipment from road graders to paint stripers. In fact, the firm was one of the first Ford dealerships in the state of Wisconsin. As the company evolved, its destiny as a broom and striper manufacturer became evident. M-B built its first broom (a horse drawn model) in 1922. Through some ownership changes, M-B has enjoyed steady growth, including the construction in 1974	

		of an additional facility in Chilton, Wisconsin. In 2003, M-B acquired the Pro Chip family of wood and brush chippers. In 2004, M-B acquired the Lafarge Road Marking Equipment Division, located in Montgomery, Pennsylvania. In 2011, M-B released five (5) new products in the Airport Snow Removal Equipment market. In 2017, the Pavement Marking Division relocated into a new facility located in Muncy, PA and services customers across North America. M-B continues to focus on key niche markets and providing equipment to meet the needs of independent contractors, governmental agencies, and other road, turf, grounds maintenance and airport maintenance organizations around the world. Today, M-B Companies, Inc., just completed a large plant expansion project to more than double the size of the Chilton manufacturing plant. 36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Aebi Schmidt North America is supported with strong digital marketing strategies executed through our website, content marketing, email automation, digital display and search ads, social media platforms, and emerging technologies. Key strategies and initiatives are detailed below. Content/Email Marketing -- Creating valuable content is a key initiative for Aebi Schmidt. We believe that offering value-added content geared to educating our prospects and customers on relevant topics will help them perform their jobs better and endear them to our brands. The cookie-obtained data we gather via these efforts helps us to understand the needs of our end users, which leads to product innovation and timely marketing. We also intend to use content marketing in support of our dealer network by providing qualified leads through lead-generation tools such as data-capture forms and gated content. Automated Email campaigns are an offshoot of our content strategy and are often used in support of product-specific marketing and events, such as trade shows. The goal of email automation is to offer customers and/or prospects the right products, at the right times and prices, in addition to tracking activity on calls-to-action. Search Engine Marketing (SEM) -- Aebi Schmidt North America has focused on improving our performance and ranking on leading search engines by optimizing our site (SEO) for improved organic results. Digital Display, Search and Banner Advertising -- On a limited basis, we use digital display and search advertising to help create awareness of products and special promotions. We perform in-depth keyword search analytics and develop ad targeting to best reach audience segments at the optimum cost or bid. We also seek web-based affiliations with sites that offer advertising space and are relevant to our end user segments. Social Media -- We leverage our presence on Facebook, LinkedIn, YouTube and Instagram to build brand and product awareness, while creating a strong relationship with end-users and key influencers. We post organic content regularly and run strategic paid social campaigns with highly targeted segmentation. Our social media channels also represent a means for our customers and prospects to engage with us in two-way dialog. We answer all questions posted on our social channels and we view social media as an extension of our customer service efforts. On our YouTube channel we have many training and product videos for customers to view.	*

We will develop KPI's for these opportunities to ensure progress is being made with these opportunities and they are trending in the direction of a sale. Metrics will be tracked, baselines for closing percentage are established and expectations will be set. Each salesperson in our organization will have a target established for sales created using Sourcewell	*

CITY OF SANTA FE

The Purchasing Memo

Date: May 27, 2025

To: Governing Body, Finance Committee, and Public Works & Utilities Committee

From: Joshua Chandler, Contract Administrator

Via: Eric Candelaria, ITT Director EC

Subject: RTA Fleet Management Software for City of Santa Fe

Vendor Name: Ron Turley Associates Inc

Munis Vendor Number: 10932

ITEM AND ISSUE:

Request for Approval of a Five (5) Year Agreement to Support an Enterprise-Wide Approach to Fleet Management Solutions with Ron Turley Associates Inc in the Total Amount of $901.820.13. (Eric Candeleria, ITT Department Director; edcandelaria@santafenm.gov)

CONTRACT NUMBER:

The FY25 Munis contract number is 3250606.

BACKGROUND AND SUMMARY:

The need for a comprehensive Fleet Management software arose when multiple fleet departments independently requested different software solutions tailored to their specific operational needs. Historically, each of the seven departments managed their fleet-related documents and data within our legacy system, Enterprise 1 (E1). However, as E1 aged and became increasingly inefficient for modern fleet operations, departments began to abandon it in favor of manual, paper-based processes.

This transition to pen and paper introduced several inefficiencies, including difficulties in tracking vehicle maintenance, compliance issues, data loss risks, and overall operational slowdowns. Without a centralized, digital solution, departments struggled with inconsistencies, redundant data entry, and a lack of real-time insights into fleet performance and asset utilization.

Recognizing these challenges, leadership saw an opportunity to consolidate the needs of all fleet departments into a single, modernized Fleet Management software. This new solution would streamline workflows, ensure data accuracy, and improve accessibility across departments while eliminating the inefficiencies of both the outdated legacy system and the manual tracking methods.

Contractor will require its subcontractors, if any, to hold the City harmless from any responsibility for taxes, damages, fees and interest, if applicable, as well as all contributions required under Federal and/or state and local laws and regulations, including any other costs, transaction privilege taxes, unemployment compensation insurance, Social Security and Worker's Compensation.

D. Retainage. Not Applicable. The Parties agree there is no retainage.

E. Performance Bond.

Not Applicable. The Parties agree there is no Performance Bond.

ARTICLE 4 – ACCEPTANCE

A. Submission of Payment Invoice. Upon completion and delivery of each Deliverable, Contractor will submit an invoice for payment ("Payment Invoice") with the Deliverable, or a description of the Deliverable, to Representative. Each Payment Invoice will be submitted for the full Deliverable price stated in Paragraph 4. C., below, or a portion of the full Deliverable price, pursuant to the Scope of Work, Exhibit A.

B. Acceptance. In accord with NMSA 1978, Section 13-1-158; Representative will determine if the Deliverable provided by Contractor meets the City's specifications. No payment will be made by the City for a Deliverable until Representative delivers a written acceptance of the Deliverable to Contractor on the City's behalf. To accept the Deliverable, Representative will assess the Quality Assurance level of the Deliverable and determine, at a minimum, that Deliverable:

1. Complies with the requirements stated in the Scope of Work, Exhibit A, attached hereto; and
2. Fully complies with the terms of this Contract.

If a Deliverable is accepted by the City, Representative will notify Contractor of the City's acceptance, in writing, within fifteen (15) business days from the date Representative receives the Deliverable. The City will then pay Contractor's submitted invoice according to the State of New Mexico procurement rules.

C. Rejection. Unless Representative gives written notice to Contractor of the City's rejection within the fifteen (15) day business day acceptance period, the Deliverable will be deemed to have been accepted. If the Deliverable is deemed by Representative to be rejected according to the City's quality assurance requirements ("Quality Assurance"), fifteen (15) days from the date Representative receives the Deliverable(s) and Contractor's accompanying Payment Invoice, Representative will send a consolidated set of comments indicating issues, unacceptable items, and/or requested revisions accompanying the rejection. Upon rejection and receipt of Representative's comments, Contractor will have ten (10) business days to resubmit the Deliverable to Representative with all appropriate corrections or modifications made and/or addressed. Representative will then determine whether the Deliverable is acceptable and provide a written determination to Contractor as soon as possible, but within no more than fifteen (15) business days of Representative's receipt of the revised or amended Deliverable. If the Deliverable is still deemed unacceptable and is thus rejected, Contractor will be required to provide a remediation plan that will include a timeline concerning Contractor's proposed corrective measures to Representative. Contractor will also be subject to any and all damages and remedies attributable to the late delivery of the Deliverable under the terms of this Contract and that may be available to the City at law or equity.

1. Compensation Schedule

A. The City will pay Contractor the price of the Deliverable stated in the Scope of Work, Exhibit A; and **excluding** gross receipts tax.

B. The City will pay Contractor upon receipt of Contractor's Payment Invoice, together with a detailed statement of account concerning the Deliverable and any additional expenses incurred hereunder, and as previously agreed by the Parties in writing. All invoices MUST BE received by the City no later than fifteen (15) days after the termination of this Contract. Invoices received by the City after the termination date WILL NOT BE PAID.

C. The total compensation under this Contract will not exceed nine hundred one thousand, eight hundred twenty dollars and thirteen cents (**$901,820.13)** including New Mexico gross receipts tax, consistent with paragraph 2A, above, and paragraph 3B, below.

2. Taxes

A. Contractor is solely responsible to pay all taxes that accrue for any monies that Contractor receives from the City pursuant to this Contract.

B. The New Mexico gross receipts tax levied on the amounts payable under this Contract **will** be paid by the City to Contractor.

3. Term

This Contract shall not become effective until it is fully executed and approved by the City. Unless earlier terminated in accordance with Paragraph 5 (Termination), the term of this Contract shall be five (5) years from the date of final signature. The City may extend the term of this Contract if RTA's Sourcewell Master Agreement is extended beyond the initial five-year term; however, in total, the City's Contract may not exceed the total number of years that the Sourcewell Master Agreement remains in effect, as allowed by NMSA 1978, Section 13-1-150.

4. Termination

A. General. This Contract may be terminated by either of the Parties upon written notice delivered to the other Party at least ten (10) days prior to the intended date of termination.

B. Appropriations. By the City, if required by changes in State or Federal law, or because of Court order, or because of insufficient appropriations made available by the United States Congress and/or the New Mexico Legislature for the performance of this Contract. The City's determination concerning whether sufficient appropriations are currently available will be accepted by Contractor and the City's determination will be final. If the City terminates this Contract pursuant to this subsection B, the City will use its best efforts to provide Contractor written notice of such termination at least thirty (30) business days prior to the effective date of the termination.

C. Notice; City's Opportunity to Cure.

1. Except as otherwise provided in Paragraph 4.C.3, below, the City will give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.
2. Contractor will give the City written notice of termination at least thirty (30) days prior to Contractor's intended date of termination, which notice will (i) identify all of the City's material breaches of this Contract upon which Contractor's termination is based and (ii) state the specific measures the City must perform to cure such material breaches. Contractor's notice of termination will only be effective (i) if the City fails to cure all material breaches within the thirty (30) day notice period, or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify Contractor of its intent to cure and begin its due diligence to cure the material breach.
3. Notwithstanding the foregoing, the City may terminate this Contract immediately upon written notice to Contractor (i) if Contractor becomes unable to deliver the Deliverables, as determined by Representative; (ii) if, during the term of this Contract, Contractor is suspended or debarred by the State Purchasing Agent; or (iii) the Contract is terminated pursuant to Paragraph 4.B, above.

D. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination will be to pay Contractor for accepted Deliverables delivered prior to Contractor's receipt or issuance of a notice of termination; provided however, that a notice of termination will not nullify or otherwise affect either Party's liability for pre-termination defaults under, or breaches of, this Contract. Contractor will submit an invoice for all Deliverables and Contractor's other services performed, if any, prior to the termination of this Contract within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE STATE OF NEW MEXICO'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

5. Status of Contractor

Contractor and its officers, agents, employees, servants or subcontractors ("Agents") are independent contractors performing professional services for the City and are not employees of the State of New Mexico. Contractor and its Agents will not accrue leave, retirement, insurance, bonding, use of state vehicles, or any other benefits afforded to employees of the State of New Mexico because of the Contract. Contractor acknowledges that all sums received hereunder are personally reportable by Contractor for income tax purposes as self-employment or business income and are reportable for self-employment tax purposes.

6. Assignment

Contractor will not assign or transfer any interest, obligation or right in this Contract or assign any claims for money due or to become due under this Contract without receiving the City's prior written approval.

Contractor will not subcontract any portion of the Deliverables or other services to be performed under this Contract without the City's prior written approval.

8. Records and Audit

For a period of three years following the termination of this Contract, Contractor will maintain detailed time records, which indicate the date, time and nature of the Deliverables and other services provided to the City. These records will be subject to inspection by the City and the New Mexico State Auditor. The City will have a right to audit Contractor's billings both before and after payment; any payment to Contractor under this Contract will not act to foreclose the right of the City to recover excessive and/or illegal payments made to Contractor.

9. Release

Contractor's acceptance of final payment of the amount due from the City under this Contract will operate as a release of the City, its officers and employees, and the State of New Mexico from all liabilities, claims and obligations whatsoever arising from or under this Contract. Contractor agrees not to purport to bind the State of New Mexico unless Contractor has express written authority to do so, and then only within the strict limits of that authority.

Nothing developed, produced or acquired, in whole or in part, by Contractor under this Contract that constitutes Contractor's pre-existing intellectual property, proprietary software, or general product improvements will be the subject of an application for copyright, patent application or any other claim of ownership by or on Contractor's behalf. In the event Contractor develops, produces or acquires any intellectual property, related to the custom work done under this Contract, such as copyright(s), invention(s) or other patentable information or material(s), Contractor will, within ten (10) Business Days, execute or will cause to have executed all written assignments and other document(s) necessary to ensure that ownership of any custom deliverable vests solely in the City. Contractor will take no affirmative action(s) that might have the effect of vesting all or any portion of such custom deliverables in any person or entity other than the City. The SaaS platform remains the exclusive property of the Contractor, and no ownership rights in the underlying software, source code, or architecture are transferred to the City.

12. Conflict of Interest

Contractor warrants that it presently has no interest and will not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract. Contractor certifies that the requirements of the Governmental Conduct Act, NMSA 1978, Sections 10-16-1 through 10-16-18, regarding contracting with a public officer, state employee or former state employee have been followed.

13. Amendments

A. This Contract will not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.
B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor will, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in Article 5 above, or to agree to the reduced funding.

14. Merger

This Contract incorporates all the covenants and understandings made by and between the Parties concerning the subject matter hereof, and all such covenants, agreements and understandings have been merged into this Contract. No prior agreement or understanding, oral or otherwise, made by the Parties or their agents will be valid or enforceable unless embodied in this Contract.
This Contract is issued against the Sourcewell Cooperative Contract Master Agreement 102924-RTAestablished and maintained by Sourcewell, and through this language hereby incorporates this Contract by reference and is included in the order of precedence.

16. Equal Opportunity Compliance

Contractor agrees to abide by all federal, state, and local laws, rules and regulations, and executive orders of the Governor of the State of New Mexico, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, Contractor agrees to assure that no person in the United States will, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is determined by the City to be out of compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate measures to correct these deficiencies.

17. Invalid Term or Condition

If any term or condition of this Contract will be held invalid or unenforceable, the remainder of this Contract will not be affected and will be valid and enforceable.

18. Enforcement of Agreement/Contract

A Party's failure to require the strict performance of any provision of this Contract will not waive or diminish that Party's right thereafter to demand strict compliance with that or any other provision. No waiver by a Party of any of its rights under this Contract will be effective unless expressed and in writing, and no waiver by a Party of any of its rights will be effective so as to waive any of that Party's other rights herein.

By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over all lawsuits arising under or out of any term of this Contract.

20. Indemnification

Contractor will defend, indemnify and hold harmless the City and its employees from all proceedings, third-party claims, demands, lawsuits, judgments, settlements, losses, liabilities, deficiencies, and expenses of any nature, (including reasonable attorneys' fees) to the extent resulting from, or arising out of Contractor's performance of this Contract, including, but not limited to, any actual or alleged: (i) negligent acts or omissions to the extent attributable to Contractor; (ii) any breach of a third party's intellectual property rights allegedly to the extent caused by Contractor and/or, for additional clarity, any claim that intellectual property rights furnished by Contractor infringes on the intellectual property rights of any third party Contractor specifically disclaims any duties or obligation to defend, indemnify, or pay for any losses, liabilities, claims, deficiencies, and expenses of any nature (including attorneys' fees) incurred by the City to the extent arising out of the City's or any City employee's own negligence (including passive or active), nonfeasance, or malfeasance or other breach arising out of this Agreement. By empowering our clients with the necessary tools and resources to achieve their goals. As experienced fleet professionals, we have built robust technology solutions and provide expert fleet advisory services to help our clients make their fleet operations safer and more efficient. RTA began serving fleets in 1979, but the company's true beginning occurred years earlier when Ron Turley was a young father looking to make a difference after his time in the Korean War. Ron started as a driver for UPS in 1961 and within five years, he had worked his way up to become the Automotive and Building Maintenance Manager in the new Georgia District. While there, he ran the best-performing district throughout the entire company, with the fewest road calls and lowest cost of all UPS fleet management districts in the U.S. In 1973, after many promotions and reassignments, Ron was given responsibility for the maintenance of all UPS vehicles in the U.S., Canada, and Germany – more than 48,000 in all. Over the next five years, Ron led UPS in saving over $100 million in shop operating costs, allowing UPS mechanics to take care of nearly 80 percent more vehicles per labor-hour than they had been doing previously. He continued to institute time standards and innovative cost-saving measures throughout the company's maintenance operations until 1978. Quite by accident, RTA was born. Ron built a reputation at UPS for efficiency and cost savings. Because of this, he received many requests from fleet managers that needed help improving their operations. Through these engagements and the realization of the importance of data, RTA's fleet management platform was established. Fast-forward 45 years and thousands of clients later, RTA is in its third generation of family ownership, led by Ron's grandson Josh and Josh's wife Anjuli, and is the premier FMIS for successful fleets. With our constant drive for innovation and dedication to best practices, we strive to revolutionize the fleet industry. RTA's cloud-based SaaS model continues to break the mold by not only evolving with technological advancements but also with ease of use and providing stakeholder resources and five-star support. It is really that simple. Everything this company has ever stood for or done has been centered around the fleets that keep the world moving. We help the people at these organizations keep their fleets operational, efficient, and safe, and it's ultimately why RTA exists. We give them clarity, confidence, and peace of mind in the middle of what is a very chaotic job, and when we do that well, we help them save time, decrease cost, and make our roadways safer.

12	What are your company's expectations in the event of an award?	In the event of an award, RTA anticipates continuing its successful partnership with Sourcewell to streamline and simplify the procurement process for potential fleet management information system (FMIS) customers. Over the past four years, we have effectively leveraged the current Sourcewell cooperative purchasing contract to help government and education prospects bypass the lengthy and complex RFP process, allowing them to procure our solutions directly through the Sourcewell agreement. This approach has helped reduce implementation timelines, enabling our customers to realize operational savings and improve fleet performance more quickly. RTA is eager to build on the successes of the past four years by: Supporting FMIS Prospects: We expect to continue using the Sourcewell contract to assist fleet management information system prospects in expediting their procurement efforts, allowing for faster deployment of fleet management solutions. It has been our experience that using the Sourcewell cooperative agreement can reduce procurement and contracting time for a large complex fleet management information system from as much as 24 months, to as little as 2 or 3 months. Sharing this information with prospects is an integral part of our sales approach and is communicated to each one of our potential customers during our marketing and sales process. Enhancing Awareness of Sourcewell: We are committed to further promoting the benefits of the Sourcewell program to entities that may not yet be aware of its offerings. By increasing exposure to both RTA and Sourcewell, we aim to expand the program's reach and demonstrate its value to new potential customers. RTA regularly attends and participates in many of the fleet industry trade shows, conferences, and educational outreach events each year. We are regular speakers and presenters providing fleet expertise to fleet professionals across all industries. At each event we proudly display the Sourcewell logo and ensure that prospective customers are aware of this efficient procurement solution. Strengthening Our Partnership with Sourcewell: RTA is eager to continue our close collaboration with Sourcewell, working together to grow the program and enhance the cooperative purchasing experience for fleet managers nationwide. Ultimately, RTA expects this continued partnership to drive increased efficiencies for both organizations, help more fleets improve their operations, and ensure that we can continue delivering value to our customers through this streamlined procurement channel.	*

43	Describe any “green” initiatives that relate to your company or to your Solutions, and include a list of the certifying agency for each.	While we do not hold any official certifications, RTA contributes to green initiatives by incorporating various environmentally friendly features and practices into its fleet management solution, helping organizations reduce their carbon footprint and promote sustainability. Here are some key ways RTA supports green initiatives: Paperless Shop: RTA’s Paperless Shop feature eliminates the need for physical paperwork in maintenance operations. By transitioning to digital work orders, inspection reports, and part management, organizations can significantly reduce their paper usage. All documentation, including work orders, inspections, and parts reordering, can be managed through our mobile apps or desktop platform, contributing to eco-friendly operations. Since 2017, when Josh Turley became CEO, our clients have saved over 11,000 trees by using RTA as opposed to paper-based systems. Our Paperless Shop module alone has saved an estimated 9,700 trees in that time frame. Efficient Fleet Management: By optimizing fleet performance, RTA helps organizations reduce fuel consumption and lower emissions. Features like real-time vehicle tracking, preventive maintenance scheduling, and fuel tracking allow fleet managers to maintain vehicles more efficiently, reducing idle time, improving fuel economy, and minimizing environmental impact. Mobile Access: The RTA Mobile App and eDVIR app provide fleet teams with tools for inspections, work orders, and reporting in a fully digital format. This mobile access reduces the need for printed materials and streamlines operations, supporting a more sustainable, paper-free workflow. Cloud-Based Solution: RTA’s cloud-hosted SaaS solution reduces the need for energy-intensive on-premise hardware. By utilizing energy-efficient cloud infrastructure provided by AWS, RTA helps minimize the carbon footprint associated with running servers and other IT equipment in-house. Fleet Consulting Services for Sustainability: RTA’s Fleet Consulting team regularly conducts Electric Vehicle (EV), Zero-Emission Vehicle (ZEV), and Low-Emission Vehicle Transition Studies to help fleets transition to cleaner, more sustainable operations. These studies provide tailored recommendations for integrating electric and low-emission vehicles into existing fleets, allowing organizations to reduce emissions and align with environmental regulations and sustainability objectives. Additionally, we offer Fleet Right-Sizing Studies to optimize fleet size, ensuring that fleets operate efficiently with the appropriate number of vehicles. This process not only reduces fuel consumption but also lowers the overall carbon footprint of the fleet by eliminating unnecessary vehicles and improving utilization. Through these initiatives, RTA helps public sector fleets reduce emissions, operate more sustainably, and meet their environmental goals. Our fleet management technologies and consulting services work together to support a more eco-conscious, efficient future for fleets.	*

Table 6: Pricing (400 Points)

Provide detailed pricing information in the questions that follow below.

Line Item	Question	Response *	
58	Describe your payment terms and accepted payment methods.	Our standard payment terms are net 30 days. We accept payment via check or ACH and typically bill our customers on an annual basis. Because of inflation, RTA will periodically issue price adjustments to the MSRP, those increases are typically only at 3.5% or CPI, whichever happens to be higher. RTA will always ensure that Sourcewell customers receive the contracted 8% discount off standard MSRP on software and services.	*
59	Describe any leasing or financing options available for use by educational or governmental entities.	We do not currently offer leasing or financing options for our hardware. Telematics devices have a 24-month financing option and RTA Fleet360 SaaS subscriptions can be billed quarterly or annually for no additional charge.	*
60	Describe any standard transaction documents that you propose to use in connection with an awarded agreement (order forms, terms and conditions, service level agreements, etc.). Upload all template agreements or transaction documents which may be proposed to Participating Entities.	RTA has included a copy of our standard Terms and Conditions, including our Service Level Agreement for Cloud Hosting solutions, see RTA Terms in the document upload section.	*

61	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	RTA accepts the P-card procurement and payment process. There are no additional costs or fees to Sourcewell participating entities for using this process.	*
62	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	RTA provides tiered FMIS pricing based on asset count and services based on hourly rates. We will provide line-item discounts based on the attached pricing proposal.	*
63	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	RTA is offering an eight percent (8%) discount off of MSRP for software and services (including fleet management consulting services) as represented by the pricing proposal included with this response. Telematics and other hardware solutions offered by RTA Fleet also include a five percent (5%) discount off of MSRP.	*
64	Describe any quantity or volume discounts or rebate programs that you offer.	RTA has built in price break tiers that lower the per-asset charge the greater the volume of assets. This is demonstrated in our pricing proposal attached.	*
65	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or "non-contracted items". For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	RTA will supply a quote for any sourced, open market, or non-contracted items at the time of any such request, including our proposed 5% discount off of MSRP on hardware and an 8% discount on software and services MSRP for Sourcewell participating entities. Sourced products may include things such as fueling systems, fueling cards, telematics systems, predictive maintenance products, or other add-ons not directly offered by RTA Fleet.	*
66	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	All costs outside of freight, shipping and sales tax (if applicable) are included. RTA does not have hidden charges.	*
67	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	As a web-based system, only optional hardware would be shipped, if applicable. Freight/shipping is an additional cost for any hardware purchase, including those by Sourcewell participating entities. RTA ships all hardware orders through UPS. We offer overnight, 2-day, 3-day, and standard delivery options, and will continue to provide a standard shipping discount for Sourcewell participating entities when this line item is added to the invoice.	*
68	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Same as above. Shipping will be billed as an additional cost to the purchase price for all customers.	*
69	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Software is delivered through a secure web portal. RTA will provide training and instructions on how to access and sign into the application as well as the mobile counterpart.	*
70	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed agreement with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing.	RTA has a structured internal audit process in place to ensure compliance with the Sourcewell agreement and proper pricing for participating entities. A dedicated team across Sales, Marketing, Administrative, and Executive functions will monitor Sourcewell contract purchases and calculate quarterly administrative service fees. Tools such as QuickBooks, SaaSOptics, and HubSpot will track customer sales, purchases, and contract details. Periodic audits will be conducted to verify that Sourcewell’s preferred pricing is adhered to. This includes comparing contractually obligated pricing with the actual prices offered to Sourcewell participants and ensuring that all invoices and purchase orders reference the Sourcewell Fleet Management Technologies contract number. This process ensures transparency and compliance with the agreement.	*
71	If you are awarded an agreement, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the agreement.	RTA will continue to use, develop, refine, and monitor internal metrics to measure the number and dollar figures of Sourcewell-related deals that are closing, sales closed compared to years past, number leads that are Sourcewell-driven leads or that purchased off the Sourcewell contract, and more.	*

72	Provide a proposed Administration Fee payable to Sourcewell. The Fee is in consideration for the support and services provided by Sourcewell. The propose an Administrative Fee will be payable to Sourcewell on all completed transactions to Participating Entities utilizing this Agreement. The Administrative Fee will be calculated as a stated percentage, or flat fee as may be applicable, of all completed transactions utilizing this Master Agreement within the preceding Reporting Period defined in the agreement.	RTA proposes a two percent (2%) Administrative Fee payable to Sourcewell in consideration for the support and services provided by Sourcewell. This fee will be payable to Sourcewell on all completed transactions to Participating Entities using the Sourcewell agreement and will be calculated as the stated percentage of all completed transactions using the Sourcewell Master Agreement within the preceding reporting period.	*

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

- You have read this Electronic Record and Signature Disclosure (ERSD); and
- You can print this ERSD on paper, or you can save and/ or send this ERSD to a location where you can print this ERSD, for your future reference and access; and
- Until or unless you notify SPD as stated in this ERSD, you consent to exclusively receive through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by SPD during the course of your electronic signature relationship with SPD.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

ITEM AND ISSUE:

Request for Approval of a Four (4) Year Purchasing Entity Contract Based on Naspo Value Point Cooperative Contract MA#152 for Wireless Voice, Data, and Accessories with Verizon Wireless in the Total Amount of $2,674,170.60. (Eric Candelaria, ITT Department Director; edcandelaria@santafenm.gov)

Many cities also use wireless services to provide public Wi-Fi access, support smart city initiatives with IoT devices, and enable mobile workforce capabilities for city employees working in the field. Additionally, Verizon's network redundancy and priority access features help ensure that government communications remain operational even during emergencies or natural disasters when consumer networks may become overloaded.

12. **NONAPPROPRIATION OF FUNDS, REDUCTION OF FUNDS, OR CHANGES IN LAW:** Upon thirty (30) days written notice delivered to the Contractor, a purchase order for service that results from this Contract may be terminated in whole or in part at the sole discretion of a Purchasing Entity, if a Purchasing Entity and the Contractor reasonably determines that: (i) a change in Federal or State legislation or applicable laws materially affects the ability of either party to perform under the terms of this Contract; or (ii) that a change in available funds affects a Purchasing Entity's ability to pay under this Contract. A change of available funds as used in this paragraph means a change in Federal or State funding, whether as a result of a legislative act or by order of the President of the United States or the Governor of the State of Utah.

    If a written notice is delivered under this section, a Purchasing Entity will reimburse Contractor for the Procurement Item(s) properly ordered and/or properly performed until the effective date of said notice (whether or not they have been fully paid for as of the date of the notice). A Purchasing Entity will not be liable for any penalties, or liquidated damages that accrue after the effective date of said written notice.

13. **SALES TAX EXEMPTION:** The Equipment under this Contract will be paid for from a Purchasing Entity's funds and used in the exercise of a Purchasing Entity essential functions. 15. **PAYMENT:** Payments are to be made within thirty (30) days after a correct invoice is received. All payments to Contractor will be remitted by mail, electronic funds transfer, or the State of Utah's Purchasing Card (major credit card). 24. **PROCUREMENT ETHICS:** Contractor understands that a person who is interested in any way in the sale of any supplies, services, construction, or insurance to the State of Utah is violating the law if the person gives or offers to give any compensation, gratuity, contribution, loan, reward, or any promise thereof to any person acting as a procurement officer on behalf of the State of Utah, or to any person in any official capacity who participates in the procurement of such supplies, services, construction, or insurance, whether it is given for their own use or for the use or benefit of any other person or organization.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

must obtain your correct taxpayer identification number (TIN), which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid).
- Form 1099-DIV (dividends, including those from stocks or mutual funds).
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds).
- Form 1099-NEC (nonemployee compensation).
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers).
- Form 1099-S (proceeds from real estate transactions).
- Form 1099-K (merchant card and third-party network transactions).
- Form 1098 (home mortgage interest), 1098-E (student loan interest), and 1098-T (tuition).
- Form 1099-C (canceled debt).
- Form 1099-A (acquisition or abandonment of secured property).

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

Caution: If you don't return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding*, later.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued);

2. Certify that you are not subject to backup withholding; or

3. Claim exemption from backup withholding if you are a U.S. exempt payee; and

4. Certify to your non-foreign status for purposes of withholding under chapter 3 or 4 of the Code (if applicable); and

5. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting is correct. See *What Is FATCA Reporting*, later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Establishing U.S. status for purposes of chapter 3 and chapter 4 withholding. Payments made to foreign persons, including certain distributions, allocations of income, or transfers of sales proceeds, may be subject to withholding under chapter 3 or chapter 4 of the Code (sections 1441–1474). Under those rules, if a Form W-9 or other certification of non-foreign status has not been received, a withholding agent, transferee, or partnership (payor) generally applies presumption rules that may require the payor to withhold applicable tax from the recipient, owner, transferor, or partner (payee). See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities.

The following persons must provide Form W-9 to the payor for purposes of establishing its non-foreign status.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the disregarded entity.
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the grantor trust.
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust and not the beneficiaries of the trust.

See Pub. 515 for more information on providing a Form W-9 or a certification of non-foreign status to avoid withholding.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person (under Regulations section 1.1441-1(b)(2)(iv) or other applicable section for chapter 3 or 4 purposes), do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515). If you are a qualified foreign pension fund under Regulations section 1.897(l)-1(d), or a partnership that is wholly owned by qualified foreign pension funds, that is treated as a non-foreign person for purposes of section 1445 withholding, do not use Form W-9. Instead, use Form W-8EXP (or other certification of non-foreign status).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a saving clause. Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.

2. The treaty article addressing the income.

3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.

4. The type and amount of income that qualifies for the exemption from tax.

5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if their stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first Protocol) and is relying on this exception to claim an exemption from tax on their scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include, but are not limited to, interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third-party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester;

2. You do not certify your TIN when required (see the instructions for Part II for details);

3. The IRS tells the requester that you furnished an incorrect TIN;

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only); or

5. You do not certify to the requester that you are not subject to backup withholding, as described in item 4 under "*By signing the filled-out form*" above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

See also *Establishing U.S. status for purposes of chapter 3 and chapter 4 withholding*, earlier.

What Is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all U.S. account holders that are specified U.S. persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code*, later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you are no longer tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account, for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

• **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note for ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040 you filed with your application.

• **Sole proprietor.** Enter your individual name as shown on your Form 1040 on line 1. Enter your business, trade, or "doing business as" (DBA) name on line 2.

• **Partnership, C corporation, S corporation, or LLC, other than a disregarded entity.** Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.

• **Other entities.** Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. Enter any business, trade, or DBA name on line 2.

• **Disregarded entity.** In general, a business entity that has a single owner, including an LLC, and is not a corporation, is disregarded as an entity separate from its owner (a disregarded entity). See Regulations section 301.7701-2(c)(2). A disregarded entity should check the appropriate box for the tax classification of its owner. Enter the owner's name on line 1. The name of the owner entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2. If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, enter it on line 2.

Line 3a

Check the appropriate box on line 3a for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box on line 3a.

IF the entity/individual on line 1 is a(n) . . .	THEN check the box for . . .
• Corporation	Corporation.
• Individual or • Sole proprietorship	Individual/sole proprietor.
• LLC classified as a partnership for U.S. federal tax purposes or • LLC that has filed Form 8832 or 2553 electing to be taxed as a corporation	Limited liability company and enter the appropriate tax classification: P = Partnership, C = C corporation, or S = S corporation.
• Partnership	Partnership.
• Trust/estate	Trust/estate.

Line 3b

Check this box if you are a partnership (including an LLC classified as a partnership for U.S. federal tax purposes), trust, or estate that has any foreign partners, owners, or beneficiaries, and you are providing this form to a partnership, trust, or estate, in which you have an ownership interest. You must check the box on line 3b if you receive a Form W-8 (or documentary evidence) from any partner, owner, or beneficiary establishing foreign status or if you receive a Form W-9 from any partner, owner, or beneficiary that has checked the box on line 3b.

Note: A partnership that provides a Form W-9 and checks box 3b may be required to complete Schedules K-2 and K-3 (Form 1065). For more information, see the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

If you are required to complete line 3b but fail to do so, you may not receive the information necessary to file a correct information return with the IRS or furnish a correct payee statement to your partners or beneficiaries. See, for example, sections 6698, 6722, and 6724 for penalties that may apply.

Exemption from FATCA reporting code. The following codes identify payees that are exempt from reporting under FATCA. These codes apply to persons submitting this form for accounts maintained outside of the United States by certain foreign financial institutions. Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) entered on the line for a FATCA exemption code.

Note: You may wish to consult with the financial institution requesting this form to determine whether the FATCA code and/or exempt payee code should be completed.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, enter "NEW" at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have, and are not eligible to get, an SSN, your TIN is your IRS ITIN. Enter it in the entry space for the Social security number. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester*, later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at *www.SSA.gov*. You may also get this form by calling 800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at *www.irs.gov/EIN*. Go to *www.irs.gov/Forms* to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to *www.irs.gov/OrderForms* to place an order and have Form W-7 and/or Form SS-4 mailed to you within 15 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and enter "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, you will generally have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon. See also *Establishing U.S. status for purposes of chapter 3 and chapter 4 withholding*, earlier, for when you may instead be subject to withholding under chapter 3 or 4 of the Code.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third-party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information, such as your name, SSN, or other identifying information, without your permission to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax return preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity, or a questionable credit report, contact the IRS Identity Theft Hotline at 800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 877-777-4778 or TTY/TDD 800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to *phishing@irs.gov*. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 800-366-4484. You can forward suspicious emails to the Federal Trade Commission at *spam@uce.gov* or report them at *www.ftc.gov/complaint*. You can contact the FTC at *www.ftc.gov/idtheft* or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see *www.IdentityTheft.gov* and Pub. 5027.

Go to *www.irs.gov/IdentityTheft* to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or certain other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; the cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. commonwealths and territories for use in administering their laws. The information may also be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for fees earned and payable to Contractor through the effective date of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

9. **Status of Contractor**

The Contractor, and Contractor's agents and employees, are independent Contractors for the City and are not employees of the City. The Contractor, and Contractor's agents and employees, shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City because of this Contract. The Contractor acknowledges that all sums received hereunder are personally reportable by the Contractor for income tax purposes, including without limitation, self-employment tax and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has written authority to do so, and then only within the strict limits of that authority.

10. **Assignment**

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

11. **Subcontracting**

The Contractor shall not subcontract any portion of the services to be performed under this Contract without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

12. **Non-Collusion**

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City.

13. **Inspection of Plant**

These records shall be subject to inspection by the City, the State Auditor and other appropriate state and federal authorities. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

17. **Appropriations**

The terms of this Contract, and any orders placed under it, are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the legislature, this Contract, and any orders placed under it, shall terminate upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

18. **Release**

The Contractor, upon final payment of the amount due under this Contract, releases the City, its officers, and employees, from all liabilities, claims and obligations whatsoever arising from or under this Contract. The Contractor agrees not to purport to bind the City, unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

19. **Confidentiality**

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without prior written approval by the City.

20. **Conflict of Interest**

The Contractor shall comply with any applicable provisions of the New Mexico Governmental Conduct Act and the New Mexico Financial Disclosures Act.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978.

C. Contractor's representations and warranties in Paragraphs A and B of this Paragraph are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed

circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

21. **Approval of Contractor Representative(s)**

The City reserves the right to require a change in Contractor representative(s) if the assigned representative(s) are not, in the opinion of the City, adequately serving the needs of the City.

22. **Scope of Contract; Merger**

This Contract incorporates all the Agreements, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

25. **Indemnification**

The Contractor shall hold the City and its employees harmless and shall indemnify the City and its employees against any and all claims, suits, actions, liabilities and costs of any kind, including attorney's fees for personal injury or damage to property arising from the acts or omissions of the Contractor, its agents, officers, employees or subcontractors. 26. **New Mexico Tort Claims Act**

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

27. **Applicable Law**

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. The foregoing limitation does not apply to paragraph 25 of this Contract or to damages resulting from personal injury caused by the Contractor's negligence.

29. **Incorporation by Reference and Precedence**

If this Contract has been procured pursuant to a request for proposals, this Contract is derived from (1) the request for proposal, (including any written clarifications to the request for proposals and any City response to questions); (2) the Contractor's best and final offer; and (3) the Contractor's response to the request for proposals.

In the event of a dispute under this Contract, applicable documents will be referred to for the purpose of clarification or for additional detail in the following order of precedence: (1) amendments to the Contract in reverse chronological order; (2) the Contract, including the scope of work and all terms and conditions thereof; (3) the request for proposals, including attachments thereto and written responses to questions and written clarifications; (4) the Contractor's best and final offer if such has been made and accepted by the City; and (5) the Contractor's response to the request for proposals.

30. **Workers' Compensation**

The Contractor agrees to comply with state laws and rules applicable to workers' compensation benefits for its employees. If the Contractor fails to comply with the Workers' Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

A. Services, as used in this Article, include services performed, workmanship, and material furnished or utilized in the performance of services.

B. The Contractor shall provide and maintain an inspection system acceptable to the City covering the services under this Contract. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the City and for as long thereafter as the Contract requires. The City has the right to inspect and test all services contemplated under this Contract to the extent practicable at all times and places during the term of the Contract. The City shall perform inspections and tests in a manner that will not unduly delay or interfere with Contractor's performance.

C. If the City performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.

D. If any part of the services do not conform with the requirements of this Contract (as determined by the acceptance criteria, if any, specified in the SOW), the City may require the Contractor to re-perform the services in conformity with the requirements of this Contract at no increase in contract amount. When the defects in services cannot be corrected by re-performance, the City may:

(1) require the Contractor to take necessary action(s) to ensure that future performance conforms to the requirements of this Contract; and

(2) reduce the contract price to reflect the reduced value of the services performed.

E. If the Contractor fails to promptly re-perform the services or to take the necessary action(s) to ensure future performance in conformity with the requirements of this Contract, the City may:

(1) ; or

(2) terminate the Contract for default.

If the Contract is terminated for default, the City may use funds remaining under the Contract to cover the cost of work not performed by the Contractor for the period following termination.

Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. Broader Coverage and Limits. The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed

that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

C. Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

34. **Impracticality of Performance**

A party shall be excused from performance under this Contract for any period that the party is prevented from performing as a result of an act of God, strike, war, civil disturbance, epidemic, or court order, provided that the party has prudently and promptly acted to take any and all steps that are within the party's control to ensure performance. Subject to this provision, such non-performance shall not be deemed a default or a ground for termination.

35. **Invalid Term or Condition**

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

36. **Enforcement of Contract**

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

37. **Patent, Copyright and Trade Secret Indemnification**

A. The Contractor shall defend, at its own expense, the City against any claim that any product or service provided under this Contract infringes any patent, copyright to trademark in the United States or Puerto Rico, and shall pay all costs, damages and attorneys' fees that a court finally awards as a result of any such claim. In addition, if any third party obtains a judgment against the City based upon Contractor's trade secret infringement relating to any product or services provided under this Contract, the Contractor agrees to reimburse the City for all costs, attorneys' fees and amount of the judgment. To qualify for such defense and or payment, the City shall:

1) give the Contractor prompt written notice within 48 hours of any claim;
2) allow the Contractor to control the defense of settlement of the claim; and
3) cooperate with the Contractor in a reasonable way to facilitate the defense or settlement of the claim.

B. If any product or service becomes, or in the Contractor's opinion is likely to become the subject of a claim of infringement, the Contractor shall at its option and expense:

1) provide the City the right to continue using the product or service and fully indemnify the City against all claims that may arise out of the City's use of the product or service;
2) replace or modify the product or service so that it becomes non-infringing; or,

3) accept the return of the product or service and refund an amount equal to the value of the returned product or service, less the unpaid portion of the purchase price and any other amounts, which are due to the Contractor. The Contractor's obligation will be void as to any product or service modified by the City to the extent such modification is the cause of the claim.

38. **Survival**

The Contract paragraphs titled "Patent, Copyright, Trademark, and Trade Secret Indemnification; Indemnification; and Limit of Liability" shall survive the expiration of this Contract. Software licenses, leases, maintenance and any other unexpired Agreements that were entered into under the terms and conditions of this Contract shall survive this Contract.

39. **Disclosure Regarding Responsibility**

A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty thousand dollars ($60,000.00) with any City for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Contract. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Contract. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Contract pursuant to the conditions set forth in Paragraph 7 of this Contract.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts during the term of this Contract. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. The contract sum and contract time shall be adjusted for increases in cost and/or time associated with Contractor's compliance therewith. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. Any compensation requested for which entitlement is granted and the contract sum adjusted, shall have profit included (for work completed) and for cost only (not profit) for Contractor costs incurred directly tied to the suspension itself and not otherwise covered by Contract remedy. Any change in Total Compensation must be reflected in an Amendment executed pursuant to Section 8 of this Contract.

41. **Notification**

Either party may give written notice to the other party in accordance with the terms of this Paragraph. Any written notice required or permitted to be given hereunder shall be deemed to have been given on the date of delivery if delivered by personal service or hand delivery or three (3) business days after being mailed.

If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

- You have read this Electronic Record and Signature Disclosure (ERSD); and
- You can print this ERSD on paper, or you can save and/ or send this ERSD to a location where you can print this ERSD, for your future reference and access; and
- Until or unless you notify SPD as stated in this ERSD, you consent to exclusively receive through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by SPD during the course of your electronic signature relationship with SPD.

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:

[X] The following changes are modifying or supplementing the Master Agreement terms and conditions.

5.1 Term:
THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED IN WRITING BY THE STATE PURCHASING AGENT. This Agreement shall begin on the date approved by the State Purchasing Agent and end on **September 16, 2026** unless the agreement is extended or terminated early with the Terms and Conditions of this Contract. The agency reserves the right to amend the contract as necessary to serve the best interest of the State and not exceed a total of 8 years in accordance with NMSA 1978 §13-1-150.

5.2 Employee Pay Equity Reporting:
Contractor agrees if it has ten (10) or more New Mexico employees OR eight (8) or more employees in the same job classification, at any time during the term of this contract, to complete and submit the PE10-249 form on the annual anniversary of the initial report submittal for contracts up to one (1) year in duration. If contractor has (250) or more employees, contractor must complete and submit the PE250 form on the annual anniversary of the initial report submittal for contracts up to one (1) year in duration. For contracts that extend beyond one (1) calendar year, or are extended beyond one (1) calendar year, contractor also agrees to complete and submit the PE10-249 or PE250 form, whichever is applicable, within thirty (30) days of the annual contract anniversary date of the initial submittal date or, if more than 180 days has elapsed since submittal of the last report, at the completion of the contract, whichever comes first. Should contractor not meet the size requirement for reporting at contract award but subsequently grows such that they meet or exceed the size requirement for reporting, contractor agrees to provide the required report within ninety (90 days) of meeting or exceeding the size requirement. That submittal date shall serve as the basis for submittals required thereafter.

Contractor also agrees to levy this requirement on any subcontractor(s) performing more than 10% of the dollar value of this contract if said subcontractor(s) meets, or grows to meet, the stated employee size thresholds during the term of the contract. Contractor further agrees that, should one or more subcontractor not meet the size requirement for reporting at contract award but subsequently grows such that they meet or exceed the size requirement for reporting, contractor will submit the required report, for each such subcontractor, within ninety (90 days) of that subcontractor meeting or exceeding the size requirement. Subsequent report submittals, on behalf of each such subcontractor, shall be due on the annual anniversary of the initial report submittal. Contractor shall submit the required form(s) to the State Purchasing Division of the General Services Department, and other departments as may be determined, on behalf of the applicable subcontractor(s) in accordance with the schedule contained in this paragraph. Contractor acknowledges that this subcontractor requirement applies even though contractor itself may not meet the size requirement for reporting and be required to report itself.

Notwithstanding the foregoing, if this Contract was procured pursuant to a solicitation, and if Contractor has already submitted the required report accompanying their response to such solicitation, the report does not need to be re-submitted with this Agreement.

5.3 Indemnification:
The Contractor shall defend, indemnify and hold harmless the State and Participating Entities, along with their officers, agents, and employees as well as any person or entity for which they may be liable, from and against claims, damages or causes of action including reasonable attorneys' fees and related costs for any death, injury, or damage to property arising from act(s), error(s), or omission(s) of the Contractor, its employees or subcontractors or volunteers, at any tier, relating to the performance under the Participating Addendum.

Indemnification – Intellectual Property. The Contractor shall defend, indemnify and hold harmless the State of New Mexico along with their officers, agents, and employees as well as any person or entity for which they may be liable ("Indemnified Party"), from and against claims, damages or causes of action including reasonable attorneys' fees and related costs arising out of the claim that the Product or its use, infringes Intellectual Property rights ("Intellectual Property Claim").

The Contractor's obligations under this section shall not extend to any combination of the Product with any other product, system or method, unless the Product, system or method is:

- Provided by the Contractor or the Contractor's subsidiaries or affiliates;
- Specified by the Contractor to work with the Product; or

- Reasonably required, in order to use the Product in its intended manner, and the infringement could not have been avoided by substituting another reasonably available product, system or method capable of performing the same function; or
- It would be reasonably expected to use the Product in combination with such product, system or method.

The Indemnified Party shall notify the Contractor within a reasonable time after receiving notice of an Intellectual Property Claim. Even if the Indemnified Party fails to provide reasonable notice, the Contractor shall not be relieved from its obligations unless the Contractor can demonstrate that it was prejudiced in defending the Intellectual Property Claim resulting in increased expenses or loss to the Contractor. If the Contractor promptly and reasonably investigates and defends any Intellectual Property Claim, it shall have control over the defense and settlement of it. However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible. The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to vigorously pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of it and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in the pursuit of the Intellectual Property Claim. Unless otherwise agreed in writing, this section is not subject to any limitations of liability in this Participating Addendum or in any other document executed in conjunction with this Participating Addendum.

Coverage shall be written on an occurrence basis. The minimum acceptable limits shall be as indicated below, with no deductible for each of the following categories:

(1). Commercial General Liability covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal industry (including death), advertising liability, and property damage, with a limit of not less than $1 million per occurrence/$2 million general aggregate.

Contractor shall pay premiums on all insurance policies. Such policies shall also reference this Participating Addendum and shall have a condition that they not be revoked by the insurer until thirty (30) calendar days after notice of intended revocation thereof shall have been given to Purchasing Entity and Participating Entity by the Contractor.

Prior to commencement of performance, Contractor shall provide to the Lead State a written endorsement to the Contractor's general liability insurance policy or other documentary evidence acceptable to the Lead State that (1) names the Participating States identified in the Request for Proposal as additional insureds, (2) provides that no material alteration, cancellation, non-renewal, or expiration of the coverage contained in such policy shall have effect unless the named Participating State has been given at least thirty (30) days prior written notice, and (3) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of any Participating State as secondary and noncontributory. Unless otherwise agreed in any Participating Addendum, the Participating Entity's rights and Contractor's obligations are the same as those specified in the first sentence of this subsection. Before performance of any Purchase Order issued after execution of a Participating Addendum authorizing it, the Contractor shall provide to a Purchasing Entity or Participating Entity who requests it the same information described in this subsection.

Contractor shall furnish to the Lead State, Participating Entity, and on request, the Purchasing Entity copies of certificates of all required insurance within thirty (30) calendar days of the execution of this Master Agreement, the execution of a Participating Addendum, or the Purchase Order's effective date and prior to performing any work. Copies of renewal certificates of all required insurance shall be furnished within thirty (30) days after any renewal date. These certificates of insurance must expressly indicate compliance with each and every insurance requirement specified in this section. Failure to provide evidence of coverage may, at sole option of the State, result in this Participating Addendum's termination.

Coverage and limits shall not limit Contractor's liability and obligations under this Participating Addendum or any Purchase Order.

ITEM AND ISSUE:

The resolution approves budget amendments and requests Department of Finance and Administration approval of City of Santa Fe ("City") budget amendments for the fiscal year quarter ending March 31, 2025 (Third Quarter).

BACKGROUND AND SUMMARY:

Attached is a resolution listing increases/decreases to the Fiscal Year 2024-2025 (FY2024/25) operating and capital projects budget. These amendments are included in this resolution because they result in a net increase or decrease to the various funds affected, and thus require approval from the New Mexico Department of Finance/Local Government Division (DFA/LGD) as part of the quarterly budget resolution. The schedule of detail supporting these increases/decreases is presented as Exhibit A of the proposed resolution in four sections:

A. Sub-Section A: Amendments to FY 2024/25 Budget That Have Previously Been Approved by the Governing Body: these budget amendments have been previously approved by the Governing Body and reflect amendments that exceed $60,000 and result in a net increase or decrease to any funds (and that exclude permitted unspent budget amounts for capital projects and grant-funded projects from the prior year); per City ordinance, such amendments require Governing Body approval. They are included in this resolution for the purpose of summarizing all quarterly budget amendments on a single resolution to provide to DFA/LGD for its review and approval. Presentation of these amendments in a single resolution in this way is much more efficient than the alternative of presenting a revised resolution to DFA/LGD for each individual budget amendment approved by the Governing Body.

B. Sub-Section B: Amendments to FY 2024/25 Budget Previously Approved by other City Actors pursuant to SFCC 1987, Section 11-4 (A), (B) and (F): these amendments were approved by and executed under the authority of the Finance Director (if the net budgetary change to any fund was under $5,000) or the City Manager (if the net budgetary change was between $5,000 and $60,000), per City ordinance. Also included are purely technical corrections and re-appropriations of unspent prior year budget amounts (including amounts over $60,000 for capital

projects and grant-funded projects), which, per City ordinance, the Finance Director may approve based on the prior year's Governing Body-approved budget authority.

C. Sub-Section C: Summary of All Quarterly Amendments to FY 2024/25 Budget by Fund: this section summarizes the net changes to all City funds detailed in the previous two sections (A-B). As shown at the bottom of this section, these amendments result in a net increase to the City's overall expenditure budget of $75,525,982 and a net increase to the overall revenue budget of $39,144,464. The resulting net expenditure increase of $36,381,518 (over and above additional revenue) is supported by current budgeted revenues and/or available fund balances.

Pursuant to SFCC 1987, Section 11-4 (D), the Budget Office summarizes all amendments resulting in net budgetary fund changes in a Resolution on a quarterly basis for Finance Committee consideration and Governing Body approval of the Resolution and subsequently submits said amendments to DFA/LGD for its approval.

ACTION RECOMMENDED:

Finance staff recommend that the Governing Body approve the resolution. Upon approval, the Resolution will be forwarded to DFA/LGD for its approval as is required by New Mexico state statute.

APPROVING BUDGET AMENDMENTS AND REQUESTING THAT NEW MEXICO DEPARTMENT OF FINANCE AND ADMINISTRATION APPROVE THE CITY OF SANTA FE'S THIRD QUARTER BUDGET AMENDMENTS FOR FISCAL YEAR 2025.

WHEREAS, SFCC 1987, Section 11-4(D), provides that budget adjustments approved by the City of Santa Fe's ("City's") Finance Director, City Manager, and the Governing Body shall be included by fund in a quarterly budget resolution approved by the Governing Body; and

WHEREAS, NMSA 1978, Section 6-6-2, provides that the Local Government Division of the New Mexico Department of Finance and Administration has the power and duty to authorize local public bodies to transfer funds from one budget item to another when the Secretary of the Department approves and a need exists meriting the transfer and the transfer is not prohibited by law; and

WHEREAS, a Third Quarter Review of the Fiscal Year 2025 Budget shows a need to address significant priorities through adoption of net budget amendments that the Governing Body, City Manager or Finance Director have authorized.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the Governing Body respectfully requests that the Secretary of the New Mexico Department of Finance and Administration approve the Third Quarter Budget Amendments, as detailed on the attached Exhibit A, and that the Local Government Division then authorize the amendments.

RE: Updating and Extending the Mental Health and Wellness Pilot Program

---

EXECUTIVE SUMMARY:

The proposed resolution would extend a two (2) year pilot program for City of Santa Fe ("City") employees until June 30, 2026. The program provides one (1) day a year of "Wellness Day Leave" and up to two (2) hours per week of Physical and Mental Fitness Leave for City employees. The resolution would also update the temporary Personnel Rule 13.92, to require employees who are approved for Physical and Mental Wellness leave to complete up to three surveys—one before taking leave, one at the end of the pilot program, and one during the program, if the Human Resources Department determines a third survey would be helpful. The survey requirement would allow the City to collect data and feedback from City employees to determine the impact of the pilot program.

BACKGROUND:

The Governing Body updated the Personnel Rules and Regulations in 2023 through Resolution No. 2023-17 to include a two (2) year pilot program for Wellness Day Leave and Physical and Mental Fitness Leave. Personnel Rule 13.91 allows classified full-time and part-time, exempt, and term employees one (1) wellness day each calendar year. Personnel Rule 13.92 two (2) hours per week of Physical and Mental Fitness leave for physical and mental fitness activities for classified full-time, exempt, and term employees who are eligible. Human Resources has received positive feedback about the program and supports continuing the pilot program for another year to obtain more data.

A RESOLUTION

UPDATING THE TERMS OF AND EXTENDING THE PILOT PROGRAM SUPPORTING PHYSICAL AND MENTAL WELLBEING OF CITY OF SANTA FE EMPLOYEES.

WHEREAS, according to the Centers for Disease Control and the Kaiser Family Foundation's "Mental Health and Substance Use State Fact Sheets" New Mexico has an age-adjusted suicide rate nearly double the average of the rest of the country, as well as higher than average rates of anxiety or depressive disorders; and

WHEREAS, in 2023, the City of Santa Fe ("City") adopted Resolution 2023-17, establishing a two-year pilot program in support of physical and mental wellbeing for City employees and establishing Personnel Rules 13.91 and 13.92 ("Wellness Leave Pilot Program"); and

WHEREAS, Personnel Rule 13.92 provides eligible, classified full-time, exempt, and term employees two (2) hours per week for physical and mental fitness activities ("Physical and

Mental Fitness Leave"); and

WHEREAS, without Governing Body action, the Wellness Leave Pilot Program will expire on June 30, 2025; and

WHEREAS, more data is needed to better understand the impact of the Wellness Leave Pilot Program for City employees; and

WHEREAS, employee surveys, including at least one before any leave is taken, and one at the end of the pilot program, could provide valuable data regarding the impact of the Wellness Leave Pilot Program; and

WHEREAS, it is reasonable and appropriate to extend the Wellness Leave Pilot Program because the health and fitness of City employees is important.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the Wellness Leave Pilot Program is extended to June 30, 2026, for City employees, with the modifications included in Exhibit A, which require employees to agree to take up to three surveys as a condition of taking wellness leave: at the beginning, end, and during the program, if the Human Resources Department determines the third survey is helpful.

RULE 13 LEAVE
Rule 13.91 Wellness Day Leave (~~Proposed Two-~~Three-Year Pilot Program Rule).

Classified full-time and part-time, exempt, and term employees shall be eligible each calendar year for one (1) wellness day. Employees are eligible to request Wellness Day Leave after successful completion of the employee probationary period. This category of leave is designed to be used for mental health and wellness. Such leave should be requested in advance, to the extent possible. Every effort will be made to accommodate an employee's request. Wellness Day Leave should be granted unless granting the requested leave would impair the effective and efficient operation of the department.

1. The Wellness Day Leave must be taken in eight (8) consecutive-hour increments or in increments representative of the employee's regular work schedule. For example, a part-time employee would be eligible for 4 hours of wellness leave, an employee who works a 10-hour schedule would be eligible for 10 hours of wellness leave, a firefighter that works a 24-hour schedule would be eligible for 24 hours of wellness leave each calendar year.

2. The Wellness Day Leave must be taken within the current calendar year, or it will be forfeited.

3. Upon separation of employment, employees will not be compensated for the unused Wellness Day leave.

4. The Wellness Day Leave will not be counted toward the earning of Fair Labor Standards Act (FLSA) Overtime or Compensatory Time.

5. Employees and supervisors are required to utilize standard timekeeping processes to document and track Physical and Mental Fitness Leave.

Rule 13.92 Two-Hour Weekly Wellness Program: Physical and Mental Fitness Leave. (~~Proposed~~ Three-Year Temporary Rule)

Classified full-time, exempt, and term employees may be eligible for two (2) hours per week of Physical and Mental Fitness Leave for physical and mental fitness activities. Employees are eligible for this leave after successful completion of the probationary period and required approvals. This is a category of leave designed to promote fitness and wellness.

1. The Physical and Mental Fitness Leave will not be counted toward the earning of the Fair Labor Standards Act (FLSA) Overtime or Compensatory Time.
2. Employees may request a modified work schedule by utilizing the standard request process for flexible-work arrangements, which may permit the employee to take up to two (2) hours per week of Physical and Mental Fitness Leave for physical and mental wellness purposes.

3. Physical and mental fitness activities are activities that promote physical and/or mental well-being including physical exercise (for example, bicycling, walking, jogging, yoga, weight training, swimming, tennis, volleyball, softball and racquetball), health risk appraisals, wellness screenings, fitness testing, mindfulness and meditation exercises, healthy eating classes, nutrition consultation, health behavior change coaching, and smoking cessation classes.

4. An eligible employee must request and be approved to participate in the Physical and Mental Fitness Leave through the standard flexible work arrangement process. Granting the employee request is subject to the needs of the City. If the request is approved, it may be withdrawn by the City at any time if allowing the employee to continue would not be in the best interest of the City or have a negative impact on the operations of the City. The denial or rescinding of Physical and Mental Fitness Leave is not subject to grievance procedures or appeal processes.

5. Before being approved for Physical and Mental Wellness leave employees shall agree to complete up to three surveys about their physical and mental health and wellness: —one before taking leave and one at the end of the pilot program, and one during the pilot program, if the third survey is required by the Human Resources Department.

~~5~~6. Time needed for travel, taking showers, changing clothes and/or eating lunch must be considered and should be included in the modified work schedule.

~~6~~7. Employees may elect to forgo a scheduled period of Physical and Mental Fitness Leave. However, missed Physical and Mental Fitness Leave is forfeited for the week and may not be made up at a different time during the week it was missed.

~~7~~8**.** While considering and reviewing requests for participation in Physical and Mental Fitness Leave, supervisors should maintain adequate coverage to meet the business needs of the City, should not unfairly shift workloads to other staff members, and should not incur additional associated costs to the City.

~~8~~9. Participants in this program are responsible for notifying their supervisor should they cease to engage on a regular basis, in the Physical and Mental Fitness Leave on the days specified on their request.

~~9~~10. As a condition of participating in the Physical and Mental Fitness Leave, employees irrevocably agree to indemnify and hold the City of Santa Fe harmless from any and all liability and waive any claims, including but not limited to workers' compensation, for any and all injuries caused by or aggravated by activities completed during any Physical and Mental Fitness Leave.

~~10~~11. Employees and supervisors are required to utilize standard timekeeping processes to document and track Physical and Mental Fitness Leave.

All Departments.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then the Wellness Leave Pilot Program will end, and City employees would no longer have Wellness Day Leave and Physical and Mental Fitness leave.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Resolution No. 2023-17 established the initial pilot program.

Performance and Administrative Implications:
The City would need to develop and the Human Resources Department would need to administer the required surveys. If the program contributes to hiring and retention and/or employee performance, then the program could improve city performance.

Fiscal Implications:

If the Health and Wellness program contributes to City hiring and retention and/or employee performance, then the program could have significant fiscal benefits to the City that are difficult to quantify without additional data. If every employee took Wellness Day Leave, the equivalent cost would be approximately $342,284. In addition, there is a possibility that overtime costs could be incurred as a result of the leave if a position requires an employee to work a shift in the absence of an employee who is on the leave, however that amount is unknown. It is unknown because an employee who is called in to work may or may not be eligible for overtime pay pursuant to City rules and the Fair Labor Standard Act. Additionally, most positions in the City do not require calling in another employee for overtime in the absence of the originally scheduled employee. If every employee utilized two hours per week of Physical and Mental Fitness Leave, the equivalent cost of the lost hours would be approximately $4,449,688. Lastly, if the past is predictive of the future, not all employees will utilize the benefits provided in Personnel Rule 13.

CITY OF SANTA FE

Memorandum

Date: June 4, 2025

To: Governing Body, Public Works and Utilities Committee, Quality of Life Committee

From: Regina Wheeler, Public Works Director RW

RE: Establishing Santa Fe as a Vision Zero

SUMMARY:

The purpose of the proposed resolution is to establish the City of Santa Fe ("City") as a Vision Zero city, and to direct the City Manager to take actions that support the Vision Zero Goals on improved traffic safety and reduction in deaths and injuries due to traffic accidents and collisions. The purpose of Vision Zero is to implement policies and regulations that significantly reduce traffic fatalities and traffic related injuries while increasing safety, health, and equitable mobility for all. The resolution would direct the City Manager to work with City staff to complete the following Vision Zero strategies:

- Impropriate Vision Zero principles into the implementation of all relevant plans and policies, including but not limited to the Bicycle and Pedestrian Advisory Committee's Strategic Plan for Fiscal Year 2023-2033, Santa Fe Metropolitan Planning Organization's Local Road Safety Plan (2022), and the Complete Streets Design Standards.
- Prioritize safety measures that place human safety first and foremost in road and street system investment decisions.
- Apply the Safe System Approach in designing the City of Santa Fe's roadway system which involves anticipating human mistakes by designing and managing road infrastructure to keep the risk of mistake low.

Making streets safer for all users has been a focus of the Public Works Department's Complete Streets Division and the Santa Fe Metropolitan Planning Organization, and establishing the City as a Vision Zero participant would build upon what the City has worked to accomplish. Several projects that increase safety have been implemented in the City, including utilizing high-visibility crosswalk markings, adding leading pedestrian intervals to signal timing to allow pedestrians to enter a crosswalk before turning vehicles begin to move, reconfiguring intersections, narrowing traffic lanes to slow traffic, and many other methods. These improvements have been funded through operating budget, legislative appropriations, federal funding, and impact fees.

ITEM AND ISSUE:

The Water Division requests approval of Amendment No. 3 to Price Agreement Item # 21-0484 and Item # 23-0182 with Sub Surface Contracting, Inc. (Sub Surface) to increase maximum compensation by $13,303,193.75 for a new total contract amount of $20,000,000.00 including NMGRT and to increase contract term to 10 years with future yearly budgets set by budget availability, and for a BAR in the amount of $3,000,000 for FY26. (Bill Huey, Engineer, bchuey@santafenm.gov).

Action Requested: Approval of Amendment No. 3 to Price Agreement #21-0484 and #23-0182

BACKGROUND AND SUMMARY:

The Priority Line Replacement Price Agreement is an on-call requirements contract, with the Water Division issuing work orders as needed for work such as water line replacements. The contract is funded from CIP for Transmission and Distribution to work on their infrastructure.

In July 2021, City Council awarded bid number '21/43/B for the Priority Line Replacement (PLR) Price Agreement, CIP # 3058 to Sub Surface and AAC for four (4) Fiscal Years, FY 2021-22 until FY2024-25 at the initial funding amount of $3,500,000 inclusive of NMGRT. Future funding was dependent upon the availability of CIP funds.

Amendment No.1 was approved May 2023 to increase maximum compensation to $5,040,000. January 2025 to t.

Amendment No.2 was approved January 2025 to correct supply chain delays on the previous Sub Surface PLR contract that required $467,000.00 to be paid under this contract and increase the contract maximum amount to $6,656,806.25.

Sub Surface and AAC are the primary PLR contractors for repair and replacement of main line breaks. The Water division is requesting approval to extend the contract term with Sub Surface Contracting, Inc. to 10 years from award date and to increase the maximum contract amount to $20,000,000.00 including NMGRT. If approved the extended contract term will end on June 30, 2031.

The Water Division is also requesting approval of the attached BAR for $3,000,000.00 (including NMGRT) to allow for FY26 work to be conducted.

B. Pursuant to Article 1 of the Contract, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged by the parties, the City and the Contractor agree as follows:

1. COMPENSATION.

Article 2, paragraph A of the Contract is amended to increase the amount of compensation by a total of thirteen million, three hundred and three thousand, one hundred and ninety-three dollars and seventy-five cents ($13,303,193.75)so that Article 2, paragraph A reads in its entirety as follows:

> A. B. Unit Rate Price Adjustments:

Approval of Amendment No. 2 to Price Agreement #23-0182

BACKGROUND AND SUMMARY:

In July 2021, City Council awarded bid number '21/43/B for the Priority Line Replacement Price Agreement, CIP # 3058 to both Sub Surface Contracting and A.A.C. Construction LLC for four (4) Fiscal Years, FY 2021-22 until FY2024-25 at the initial funding amount of $3,500,000 inclusive of NMGRT. Future funding was dependent upon the availability of CIP funds.

The Priority Line Replacement Price Agreement is an on-call requirements contract, with the Water Division issuing work orders as needed for work such as water line replacements. The contract is funded from CIP for Transmission and Distribution to work on their infrastructure.

Due to Supply Chain delays, $467,000.00 in orders from Sub Surface on the previous contract were delayed until after this contract was in effect and were paid under this contract. Another change Order had been drafted to handle this expense and was assumed to have been handled in the past, but never made it onto the official contract. Current contract possible funding for Sub Surface is limited to $29,713.52 without approval of Amendment #2.

The Water Division historically planned to upgrade pressure reducing valve vaults but has not done so in the last few years. We request adding a total of $1,000,000 to this contract, $500,000.00 for each contractor to begin this upgrade program again.

The Water Division is requesting approval of $1,656,806.25 (including NMGRT) additional funding to allow for this Fiscal Year's work to be conducted.

BACKGROUND AND SUMMARY:

The City-Wide Water Utility Construction Contract is a multi-contractor on-call requirements contract, with the Water Division issuing work orders as needed for work such as water line replacements, and emergency repairs. In July 2021, the Governing Body approved ITB No. '21/37/B for $250,000.00 plus

NMGRT per year for each Sub Surface Contracting, Inc. and A.A.C. Construction, LLC. (AAC). Contract Amendment No. 1 for AAC was approved for a total contract amount of $1,626,562.50.

The Water Division is requesting to raise the contract maximum compensation by $4,373,437.50 to $6,000,000.00 including NMGRT for the extended contract term.

AAC and Sub Surface are the primary Emergency Response contractors for main line breaks. The Water Division is requesting approval to extend the Contract Term with AAC to 10 years from the award date. If approved the extended contract term will end on June 30, 2031.

The Water Division requests approval of the BAR in the amount of $540,937.50 to fund operations for FY26.

This is a multi-contractor award ITB to set the applicable Bid Items for future work. Future work will be assigned under fully signed Work Orders for planned work and will be followed with a signed Work Order for Emergency Repair. The exact type of work required will be used to select from the applicable Bid Items.

ACTION REQUESTED:

Approval of Amendment No. 2 to Price Agreement # 23-0183

BACKGROUND AND SUMMARY:

In July 2021, City Council awarded bid number '21/43/B for the Priority Line Replacement Price Agreement, CIP # 3058 to both A.A.C. Construction LLC (AAC) and Sub Surface Contracting Inc. for four (4) Fiscal Years, FY 2021-22 until FY2024-25 at the initial funding amount of $3,500,000 inclusive of NMGRT. Future funding was dependent upon the availability of CIP funds.

The Priority Line Replacement Price Agreement is an on-call requirements contract, with the Water Division issuing work orders as needed for work such as water line replacements. The contract is funded from CIP for Transmission and Distribution to work on their infrastructure.

The Water Division historically planned to upgrade pressure reducing valve vaults but has not done so in the last few years. We request adding a total of $1,000,000 to this contract, $500,000.00 for each contractor to begin this upgrade program again.

The Water Division is requesting approval of $1,581,875.00 (including NMGRT) additional funding to allow for this Fiscal Year's work to be conducted.

No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Agreement, nor shall any subcontract obligate direct payment from the City.

Contractor's representations and warranties in Paragraphs A and B of this Article 12 are material representations of fact upon which the City relied when this Agreement was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Agreement to the contrary, the City may immediately terminate the Agreement.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

Nancy,
I do not know if either of these "projects", City Wide Construction (CW) or Priority Line Replacement (PLR) are included in Water's budget. Jonathan/Jesse will know. PLR is a CIP project for sure. I believe that CW may be now, but was historically from money set aside by T&D & SOS.

If they are in the budget that will be approved, good. I just DO NOT want to end up in July learning that there is not any money set aside to fund the POs that Water needs. Waiting until July 30 at quickest or even August 13/27 will not work.

Hi Nancy.
To answer your question of me ("did you not place in the budget for these expenses for FY26?"); I will not place anything in a budget unless I am asked to move budget.

My reference to BARs was just a response to Bill's statement about BARs. Sorry if that was not clear. Next time I'll speak directly to someone to avoid confusion and unnecessary email exchanges.

Thanks Nancy.

Hey Bill.

Begin drafting the four contract memos filling in the information needed for each contractor and contract.
The required memo template is attached.
Send to me and I will finalize and share again with you before I send them to James.
It is my understanding the memos are required for Purchasing when Marcos and the contractor have signed the contract.

Next year's POs can be created and funded with BARs after the amounts are in the new FY Budget.

Importance: High

James/Jonna,
See Jesse's email below. We need to continue/complete the packages to extend both "projects" City Wide Construction (3202927 & 3202929) and Priority Line Replacement (3202777 & 3202778). Water needs to get a Legal approved set of four contracts, four Memos and if needed four BARs so that the projects will receive their next year POs as soon as possible next FY since the Water Division doesn't have capacity to do this work without contractors.

Please contact me with any questions.

I believe you both know what we are trying to do, extend the contract term to 10 years from initiation, extend/increase the contract compensation cap, set the yearly budget to whatever is approved (why thinking we need BARs, but....) and allow for a optional yearly increase to the Unit Rates with adequate justification.

I am, and I believe these contracts were determined to be construction services, they had, however, inadvertently attached the PSA template in the bid. At least that's my understanding.

Good evening, if Marcos thinks this will work so do I. You probably need a new service determination. Please send the scope in reply to this email.

Thank you.

Travis,
Floating this back up. We would like to amend these construction contracts to 10 year terms. My understanding is there is no legal issue with that, however, the ITB used to procure did include a draft professional services contract with a 4 year term. My interpretation of this would be that the ITB didn't explicitly state the resulting contract would be limited to 4 years, so we can amend the construction contracts to 10 years, but we would like your blessing on this interpretation.
Thanks

Subject: Contract Term question in regards to items soon to be sent for signatures

Mr. Dutton-Leyda,

The Water Division is preparing packets to amend four of our construction contracts to extend the term to 10 years total rather than the original four-year terms in the contracts. The original four-year term cited the requirement for professional services contracts which does not actually apply in this case as these are construction contracts. The contracts are for our Priority Line Replacement and Citywide Emergency On-Call projects.

There is a question about the original ITB's used to procure these contractors, and whether anything in the ITB's would prohibit us from amending the contract term. The only place the four year term was mentioned in the ITB was in the sample contract, which cited the requirement for professional services contracts. The same section of the state statute (Section 13-1-150 NMSA 1978) cited in the contract term allows for 10 year terms on construction contracts (that exceed $25,000) and is cited many other times throughout the ITB without reference to a four year term limit. Do you see any reason why the procurement method and details in the ITB would prohibit us from amending the contract term?

Below is a snip from the contract that City Wide Construction was bid under. Almost identical text can be found in how the Priority Line Replacement contract was bid; I have also attached a PDF of the 2021 revision to Section 13-1-150 NMSA.

1. Term.

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Agreement shall terminate on **June 30, 2025** unless terminated pursuant to paragraph 4 (Termination), or paragraph 5 (Appropriations). In accordance with Section 13-1-150 NMSA 1978, no contract term for a professional services contract, including extensions and renewals, shall exceed four years, except as set forth in Section 13-1-150 NMSA 1978.

Neither project/contract is for professional services, they are for construction services which should be limited to a 10-year term, based on the same statute. The fact that we used the ITB for

procurement verifies that the original determination was for construction, not professional services, and the contract is for construction services. I believe that the reference to professional service contract term should not have been in the contract, but should not prohibit us from amending the contract term to 10 years, but wanted to get your take on this matter. The amendments were submitted for legal review (jot form) several weeks back, and packets should be coming to you for review soon. If you want to discuss, please either give me a phone call on my cell phone (505) 235-2725 or request a meeting.

The Water Division depends very heavily on two contracts to maintain and repair the water mains in the City. Emergency main breaks are almost always handled by City Wide Construction (Contracts # 3202777 & 3202778) awarded 7/28/2021 since the Water Transmission and Distribution (T&D) section doesn't have either the equipment or manpower to handle any but small water main breaks. The replacement of water mains that are no longer usable is the task of Priority Line Replacement (Contracts # 3202927 & 3202929) awarded 9/09/2021 as this work is much larger than T&D can handle.

Without these two contracts/contractors the City could not continue to provide drinking water to our customers. Both of these contracts City Wide (CW) and PLR were initiated as Bid selected Price Agreements. Water believes that during the initial bid, the contract terms limits were incorrectly set to four (4) years as if they were Engineering Service contracts instead of Construction contracts which have a term limit of 10 years under Section 13-1-158 NMSA 1978, 2021 Revision.

Subject: BAR for Roof Replacement and HVAC Design for the City-Owned Facility Leased to La Familia Medical Center

Vendor Name: National Roofing Company, Inc.

Vendor Number: 8113

ACTION:
Request for Approval of a Budget Amendment Resolution (BAR) to Transfer $1,400,000 from General Fund Balance into Public Works Facilities WIP Construction and WIP Design for Replacement of the Roof and Engineering of the HVAC System at the City-Owned Facility Leased to La Familia Medical Center. (Sam Burnett, Facilities Management Division Director, jsburnett@santafenm.gov).

CONTRACT NUMBER:
The FY25 Munis Contract Number is 3204494.

BACKGROUND AND SUMMARY:
La Familia Medical Center (LFMC) has leased the City-owned facility at 1035 Alto Street, Santa Fe, since October 15, 1995, for $1 per year. The lease requires that the tenant perform regular maintenance and City perform major system repairs.

Roof assessments of the facility concluded that a full roof replacement is necessary to address leaks. Facilities also evaluated the HVAC system and found that engineering and replacement of the HVAC system is required to reliably meet heating and cooling needs.

This BAR in the amount of $1,400,000 will fund a $1,150,000 full roof replacement and a $250,000 HVAC system engineering redesign.

La Familia Medical Center provides comprehensive medical, dental, and behavioral health services to the public regardless of income, insurance status, or legal standing. LFMC operates four state-of-the-art clinics throughout the city, including the flagship location at the City-owned facility on Alto Street. These improvements are essential to support the continued delivery of vital healthcare services at LFMC's Alto Street clinic and to protect the City's asset.

RE: Re-Roof Facility
GSA #30-00000-23-00051
La Familia Medical Center
1035 Alto St.
Santa Fe, NM 87501

Ms. Wilson:

In accordance with your request, National Roofing Co. (NRC) inspected the roof at the above referenced location to provide a replacement estimate. Accordingly, we propose the following.

EXISTING ROOF ASSEMBLY - FINDINGS

We inspected this commercial facility and noted these issues.

- Existing Roof System is a Thermoplastic Membrane adhered to a Wood Fiber Cover Board over 4" Polyisocyanurate Insulation that is mechanically attached to a Structural Metal Deck. Drainage Slope appears to be in the metal deck structure.
- Roof is minimally populated with new or near new Roof Top Equipment.

- Base-to-wall Flashings currently terminate under a Metal Counter flashing that has been surface mounted to the inner parapet walls.

- Roof Drainage is to internal, standard Primary with separate, adjacent overflow drain assemblies.

- Stucco coating is cracking and deteriorating to the point of allowing moisture into the parapet cavities and lower roof assembly.

- Skylight assemblies are failing at multiple locations. This is due to extensive hail damage and overall aging of the individual units. Note: Sidewall skylight (pictured) currently leaks into building interior.

CHALLENGES TO PROPER WEATHERPROOFING

Building is positioned between an arroyo and a house to the north and south. A baseball complex is located to the west, with a parking lot to the east which serves the facility. The ability to bring manpower and equipment will require a traverse over sidewalks and landscape areas. Work performed during the standard operating hours of the facility may involve loud or disruptive noises, and or offensive odors.

CONSPECTUS – ROOFING REPLACEMENT

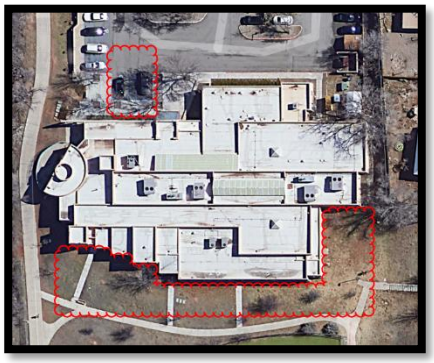
This building has a single roof assembly in place. The current building code will allow the application of a second system. This will provide an opportunity to economically install a new, warranted Roof Assembly. The full assembly will receive a Manufacturer's twenty (20) year Standard Form System Warranty with an Installers two (2) year.

Roofing Overlay Process

- Existing Curb, Parapets and Penetration Flashings will be removed, and substrates prepared for new Flashings.
- Existing Field Membrane will be disabled to prevent moisture retention, vapor build-up, making the existing system integral with the new system.
  - This is a manufacturer's requirement for overlay of existing roofing systems.
  - Only as much area will be weathertight disabled as can be made weathertight by the end of each workday.
- A new, high density Polyisocyanurate Coverboard will be installed, mechanically fastened through the existing roofing system to the Structural Metal Deck.
- Crickets to drains will be extended where required to improve positive drainage.
- A new eighty (80) mil White Thermoplastic Polyolefin (TPO) membrane will be installed utilizing mechanical fastening through the steel deck and induction welded to membrane plates.
- New sixty (60) mil White TPO membrane will be installed on the parapets, terminating 8" up the inner parapet, with a (2) piece reglet counterflashing.
- Roof Curbs, Penetrations, and Drains will be flashed in accordance with manufacturer's written instructions for warranty issuance.

Stucco Recoat Process

- Preexisting parapet walls to be power washed to remove all debris.
- Cracks, holes, and fissures to be patched and prepped for new application.
- Scaffolding to be erected around the exterior of the building.
- All backs, and interior parapets to be skimmed and finished.
- Bonding agent applied to all areas to be recoated.
- Acrylic pail finish applied to all interior parapets, backs of parapets overlapping roof flashing, tops of parapets, and 8" down the building face. Exact match on color or sheen is not guaranteed.



Skylight Removal/Replacement

- (1) Self-Supported Ridge Roof with endwalls, +/- 52' x 10'.
- (1) Shed Roof with no endwalls, +/- 60"' x 12'.
- (2) Standard Pyramids, 6'-0" x 6'-0"
- Existing Skylights to be disassembled and removed one by one (4 total)
- All trash and debris to be removed from roof, and taken off site for disposal.
- New skylights to be assembled, and installed.
  - Skylights will be taken down, and reinstalled in a sequential order to limit the exposure of the building interior to the external temporal conditions.
  - All skylight work to be performed after facility has been closed (Nights/Weekends).

Items FOR Owner Consideration

Removal of disabled and/or abandoned roof top equipment.

Schedule, Access, and Additional Information

- We anticipate the roof to take approximately 5 plus weeks to complete, weather permitting.
- We anticipate the stucco parapet repair to take approximately 6 plus weeks – work to commence after roofing operations, weather permitting.
- We anticipate the skylight repair to take approximately 3 weeks to complete, weather permitting.
  (LONG LEAD ITEM ***22 weeks from purchase order***)
  - Access will be as shown – if acceptable.
  - Our goal would be to inconvenience Patients, and Staff as little as possible.

Roof activities may be delayed due to environmental conditions that result in unsafe working conditions and those that would adversely affect system installation. Subcontractor shall be entitled to an equitable adjustment in the price of the work resulting from any change of schedule, acceleration of work, or out of sequence work required as a result of factors outside of our control. National Roofing shall not be responsible for damage or delay caused by circumstances beyond its reasonable control.

- Final Contract terms will be subject to review upon Notice of Award; fees are based on the assumption that this Bid Abstract will constitute part of the Agreement between National Roofing and the Owner – Owner Entity

- Material pricing utilized at time of bid will be provided with our submitted Schedule of Values for

reference and to establish a baseline for material orders. Comparison with material billing upon shipment and receipt may result in Contract Price adjustments. Please note that impending Trade Tariffs may have impacts on construction materials. Increases do to material shortages, increased costs or other reasons out of National Roofing's direct control will be the responsibility of the final purchaser of goods and services from National Roofing.

NOTICE:

- National Roofing shall not be liable for any claims or damages arising from or related to deficiencies in existing drainage conditions. Roofer's work does not include evaluation of the adequacy of the existing drainage components (for example, sizing and placement of existing scuppers); nor does the building code require compliance with current plumbing codes when existing drainage elements are not modified. National Roofing may make recommendations to improve drain conditions if potential deficiencies are detected during the course of roofing operations.

- Additionally, tapered insulation above deck (if included in scope) may not compensate for all low points in an existing roof; National Roofing shall not be liable for ponding water due to existing imperfections in the roof deck. If obvious deflection or low spots are noted in the existing deck after existing roof tear off, additional tapered insulation may be required to achieve positive drainage.

- Unless specifically noted elsewhere, addition of drains or scuppers for improved drainage, or supplemental insulation required to compensate for unseen imperfections is not part of the base bid and will be offered as a change order for consideration prior to installation.

We can be contacted at (505) 883-3000 to schedule this work. Thank you for relying on National Roofing for your roofing needs.

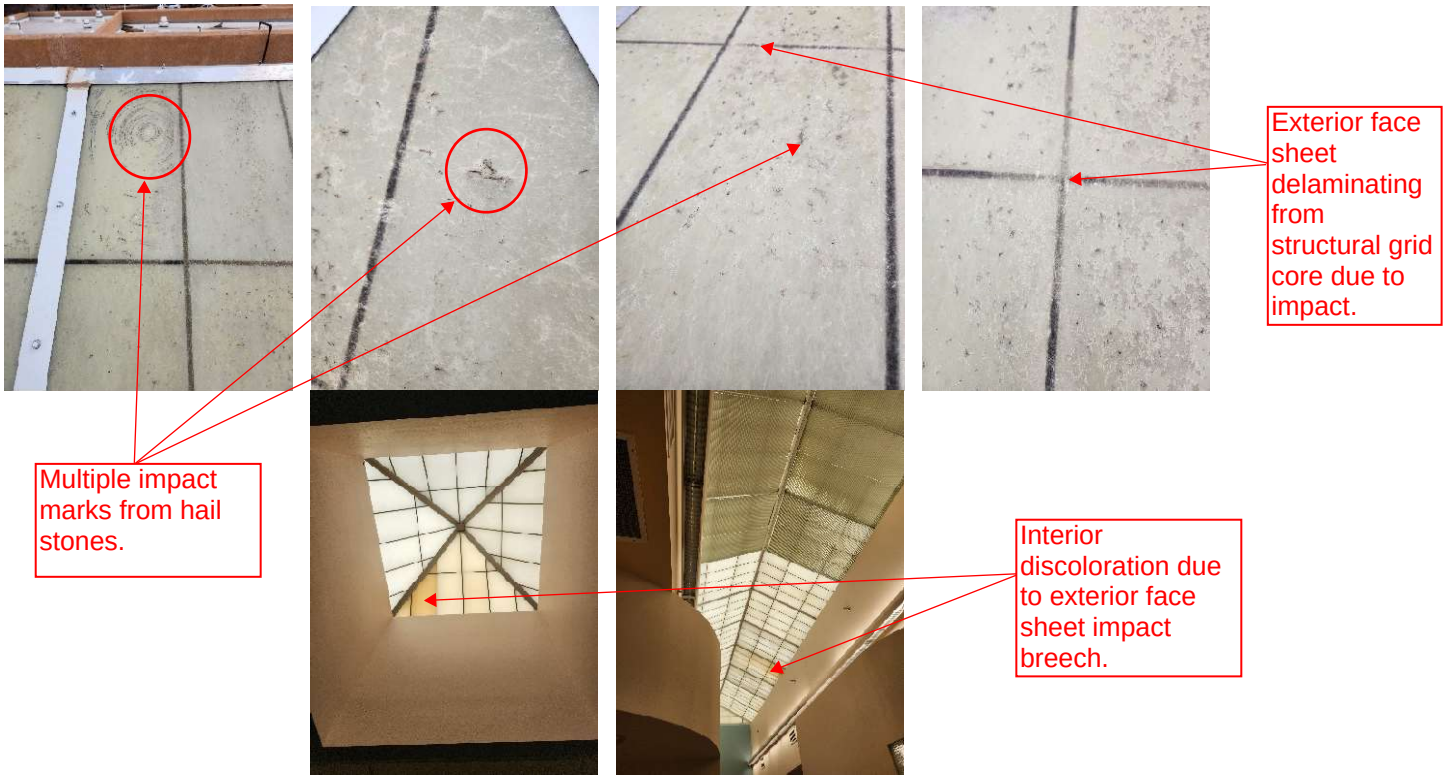
INSPECTION REPORT

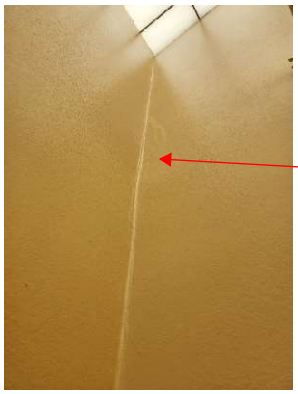


La Familia Health Pharmacy
One Kalwall Shed Skylight, One Kalwall Ridge Skylight, Two Kalwall Pyramid Skylights
Visual Inspection
April 1, 2025

The following report is based on a site visit Powers Products SW made on April 1st, 2025. The assessment was made on a total of three Kalwall Skylights.

Exterior:

The panels showed extensive signs of hail damage with signs of delamination due to hail. Numerous hail impacts caused fractures in the exterior face sheet and small spots of delamination along the grid lines. These fractures allow dirt and water to collect in the cracks. Over time, these cracks have grown, causing discoloration of the face sheet.



The delamination spots will continue to grow over time due to high winds, temperature changes and weather impacts on the panels. As the delamination expands, the exterior face sheet loses bond strength with the internal grid core. Once the exterior face sheet is no longer adhered to the grid system, the panel is deemed structurally compromised. As the face sheet loosens from the grid, water and air are now able to migrate into the panel system. This is the case as water has entered the interior space and is leaking behind the drywall.

INSPECTION REPORT

Interior:

The Interior was inspected on this visit. Water has damaged the interior drywall in one location.

Recommendation:

Powers Products Southwest recommends full replacement of all Kalwall translucent fiberglass sandwich panels.

INTRODUCTION

The NM ASPP allows government-owned Emergency Ground Ambulance Services (EGAS) providers to access additional federal funds for provided and billed Medicaid Managed Care Organization (MCO) transports. The effective date of the NM ASPP is **1/1/2024**, allowing participating EGAS providers to claim allowable costs for the CY24 cost reporting period.

HOW IT WORKS

The NM ASPP requires participating providers to complete an annual cost report that includes an average cost per transport used to calculate the supplemental add-on rate paid to providers when billing Medicaid MCO patients. The cost report is used to determine eligibility for the NM ASPP.

Upon completion of the NM ASPP cost report containing an average cost per transport, an intergovernmental transfer (i.e., grant matching) will be issued to participating EGAS providers so that they may yield their supplemental payments. The supplemental payment process is summarized below.

1. NM EGAS providers provide and bill for Medicaid MCO transports.
2. NM Healthcare Authority (HCA) invoices participating NM EGAS providers for the state share of their supplemental payment.
3. HCA uses provider's grant matching funds to draw down matching federal funds.
4. Each provider's grant matching dollars are returned, along with the matching federal share funds.

NEXT STEPS

CY24 Cost Report Submission

The CY24 (1/1/24 – 12/31/24) cost report must be uploaded to the Myers & Stauffer (M&S) web portal by Friday, 5/31/25 @ 5PM MT. **PCG will submit all required documentation on your behalf.**

CY24 M&S Audit

Shortly after cost report submission, M&S will perform cursory audits on all submitted CY24 NM ASPP cost reports. **PCG will address any potential follow up questions on your behalf.**

CY24 Payment

Supplemental payment for this program will not occur until the Preprint is submitted by HCA and CMS approves. Payments will be administered through a grant matching process between the providers and HCA. The payments will come directly from the MCOs.

PCG will invoice you for our provided CY24 cost reporting services after you confirm you receive payments.

Hi Travis and Joann,

I just submitted this on SharePoint. I don't have the MOA back from Legal yet but they are moving forward without changes to the MOA.
HCA is waiting on City of Santa Fe to begin this program so I am working to move this a quick as possible.
I think I recall a conversation that Travis made his determination of Exempt Purchase but I cannot find an email from you on this.

Can you please return a written determination? Also wanted you all to get your eyes on this asap. I'll send the approved MOA from Legal as soon as I get it.
The spreadsheet attached is pertinent because it shows the City's obligation to participate as well as the return back from Medicare.

As usual, call anytime if you have questions.

Thank you,

WHEREAS, the New Mexico Rail Runner Express ("NMRX") is a passenger rail system owned by the State of New Mexico; and

WHEREAS, RMRTD is responsible for the operations and maintenance of the NMRX; and

WHEREAS, the operations and maintenance to include construction of improvements is performed by a contractor pursuant to an Operations and Maintenance agreement administered by RMRTD; and

WHEREAS, the CITY wishes to construct improvements ("Projects") for the CITY's crossings that intersect or otherwise affect or be affected by the Rail System; and

WHEREAS, the CITY agrees to reimburse RMRTD for actual costs incurred by RMRTD directly or through RMRTD's contractors for these Projects; and

WHEREAS, RMRTD and the CITY desire to enter into a Master Agreement where all Projects can be added by mutual written agreement through addendum.

NOW THEREFORE, in consideration of the terms, conditions, covenants, and performances contained herein, or attached and incorporated and made a part hereof, IT IS MUTUALLY AGREED AS FOLLOWS:

SCOPE OF WORK

1. The term "Work" as used herein means all engineering, planning, and construction work performed by RMRTD or RMRTD contractors on projects agreed upon pursuant to the terms of this AgreementAdopted with this Master Agreement is an Addendum A comprised of a project scope of work and cost estimate by RMRTD's contractor for the project.

2. The CITY, in consideration of the work faithfully performed by RMRTD or RMRTD Contractors, agrees to pay the reasonable actual direct and related indirect costs (including applicable taxes) not to exceed an amount described for each project described in addenda.
3. In the course of Work, should RMRTD have a reasonable belief that the aforementioned cost will be exceeded, RMRTD will notify the City at least 90 days prior to the estimated completion date in each project addendum and is authorized to stop work until the Parties have entered into a written addendum amending the amount the City can pay to RMRTD under this Agreement. However, this paragraph is not intended to modify the CITY's obligation to reimburse RMRTD for 100% of the reasonable costs incurred by RMRTD pursuant to this Agreement.
4. RMRTD shall not commence Work under this Agreement until receiving a written Notice to Proceed letter (NTP) from the CITY's Director of Public Works. The CITY is not responsible for any costs incurred by RMRTD prior to RMRTD's receipt of the NTP.

The Parties agree that payment of any invoice will not constitute agreement as to the appropriateness of any item therein and that at the time of the final audit, all required adjustments will be made and reflected in a final payment by either Party. If such a final audit reveals an overpayment to RMRTD, RMRTD agrees to refund such overpayment to the CITY within sixty (60) days of an agreement to the audit findings.
8. During the progress of the work and for a period not less than three (3) years from the date of final payment to RMRTD, the records, and accounts pertaining to the Work of the project and accounting, therefore, are to be kept available for inspection and audit by the CITY and/or Federal Government and copies of all records, accounts, documents, or other data pertaining to the work will be made available at all reasonable times upon request. The term of this Agreement shall commence on the Effective Date and continue for a maximum period of five (5) years thereafter, provided that each Party's obligation hereunder for its own negligence, negligent actions, or failures to act shall be considered a continuing obligation irrespective of the Term of this Agreement. Upon written agreement by the Parties, the Agreement may be extended for additional terms.
9. Notwithstanding any other provision in this Agreement, the terms of this Agreement are contingent upon the Governing Body of the City of Santa Fe making the appropriations necessary for the performance of this Agreement. 10. The parties acknowledge that the City and RMRTD are governmental entities subject to the New Mexico Inspection of Public Records Act (Section 14-2-1 et seq., NMSA 1978). Both parties agree to comply with the requirement for production of records pursuant to the Inspection of Public Records Act.

RE: FY26 NCRTD Regional Tax Distribution for the City of Santa Fe

---

EXECUTIVE SUMMARY:

The proposed resolution requests Governing Body approval for the City of Santa Fe's ("City's") Regional Fiscal Year 2026 ("FY2026") Annual Transit Service Plan accepting the North Central Regional Transit District's (NCRTD) FY2026 proposed funding to provide $1,421,890 to the City for operating costs of Regional Transit services. Should the Governing Body approve the Regional FY2026 Annual Transit Service Plan via this resolution, the Public Works Department will forward a copy of the Resolution to the Board of Directors of the NCRTD for its approval.

BACKGROUND:

NCRTD was created in 2004 by agreement between the City of Espanola, Los Alamos County, Pojoaque Pueblo, Rio Arriba County, San Ildefonso Pueblo, Santa Clara Pueblo, the City of Santa Fe, Santa Fe County, and Tesuque Pueblo. In 2008, the City withdrew from the NCRTD, and the NCRTD then updated the terms of membership in its Resolution 2008-11. As a result of City Resolution 2008-14, the City re-joined the NCRTD and expanded City-delivered transit services to provide connected transportation to and from the Rail Runner. These regional, City-delivered transit services make the City eligible to receive its portion of the regional transit district increment of Gross Receipt Tax revenue managed by the NCRTD.

The services provided by Santa Fe Trails are outlined in the City's Regional FY2026 Annual Transit Service Plan. The services include connections to and from the Rail Runner, the Santa Fe Pick- Up Historic District Shuttle, and Special Events Services.

NCRTD requires that this resolution be provided to the NCRTD Board by July 24, 2025, to secure this funding for regional transit services provided by the City.

RE: Ballot question to require consent to a mayor's removal of a city manager, city attorney, or city clerk

---

EXECUTIVE SUMMARY:

The resolution proposes to submit a ballot question to the City of Santa Fe ("City") voters during the November 4, 2025, regular election. Currently, Section 5.01(G), of the City's Charter allows a mayor to "have the authority to remove the city manager, city attorney and city clerk without council approval". The ballot question would amend the City's Charter to require governing body consent before removal of a city manager, city attorney, or city clerk.

BACKGROUND:

The process for placing a question on the ballot considers the following items:

- Section 10.02 of the City's Charter states, "This Charter may be amended or repealed as provided by law. The city attorney shall review and render and publish a public opinion as to the legality and form of any proposed charter amendment before it is submitted to the voters."
- State law, NMSA 1978, Section 3-15-16 states that a home rule municipality may amend its Charter "by a proposal submitted by the governing body of the municipality to the qualified electors."
- Therefore, a Resolution adopted by the Governing Body describing a proposed ballot question is the mechanism the City uses to document its wish to submit a proposal to the electors.

RE: Water Trust Board Project No. WPF-6315, Funding of $2,000,000 for San Juan-Chama Return Pipeline Project

---

EXECUTIVE SUMMARY:

The proposed bill would authorize the execution and delivery of both a Water Project Fund loan of $800,000 as well as a grant of $1,200,000 between the New Mexico Finance Authority (NMFA) and the City of Santa Fe (City), New Mexico. The total amount, $2,000,000, would finance the cost of designing a new pipeline and pumps to reclaim treated effluent water derived from the San Juan-Chama Project water for reuse via return flow credits and increased diversions at the Buckman Direct Diversion intake. The bill specifies that both the loan and the grant be utilized solely for the eligible project costs, pursuant to NMSA 1978, § 72-4A-7(C). With respect to the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City.

BACKGROUND: The design for the proposed new San Juan-Chama Return Pipeline Project and pumps to return San Juan-Chama Project source effluent water for reuse via return flow credits and increased diversions is for the purpose of adding resiliency to Santa Fe's regional water supply, which is threatened by drought, climate change and wildfire.

other governmental orders to which the Borrower/Grantee or its properties are subject, or constitutes a default under any of the foregoing.

(l) No Litigation. To the knowledge of the Borrower/Grantee, no litigation or proceeding is pending or threatened against the Borrower/Grantee or any other person affecting the right of the Borrower/Grantee to execute or deliver this Agreement and the other documents related to the transaction or to comply with its obligations under this Agreement and the other documents related to the transaction. Neither the execution and delivery of this Agreement and the other documents related to the transaction by the Borrower/Grantee nor compliance by the Borrower/Grantee with the obligations under this Agreement and the other documents related to the transaction, requires the approval of any regulatory body, or any other entity, which approval has not been obtained or which is not reasonably expected to be obtained.

(m) No Event of Default. No event has occurred and no condition exists which, with the giving of notice or the passage of time or upon the execution and delivery of this Agreement and the other documents related to the transaction, would constitute an Event of Default on the part of the Borrower/Grantee under this Agreement and the other documents related to the transaction.

(n) Pledged Revenues Not Budgeted. The portion of the Pledged Revenues necessary to pay the Loan Payments, as and when due, is not needed or budgeted to pay current or anticipated Operation and Maintenance Expenses or other expenses of the Borrower/Grantee.

(o) Expected Coverage Ratio. The Pledged Revenues are reasonably expected to equal or exceed—from the Fiscal Year in which the Closing Date occurs and, on an ongoing basis during each Fiscal Year of the Agreement Term—one hundred percent (100%) of the maximum annual principal and interest due on all outstanding obligations of the Borrower/Grantee payable from the Pledged Revenues.

(p) Right to Inspect. The NMFA shall have the right to inspect at all reasonable times all records, accounts and data relating to the System and to inspect the System and all properties comprising the System, and the Borrower/Grantee shall supply such records, accounts, and data as are requested by the NMFA, within thirty (30) days of receipt of such request, written or oral.

(q) Financial Capability; Budgeting of Pledged Revenues. The Borrower/Grantee meets and will meet during the Agreement Term the requirements of financial capability set by the Water Trust Board and the NMFA. The Pledged Revenues will be sufficient

to make the Loan Payments, as and when due. The Borrower/Grantee will adequately budget for the Loan Payments and other amounts payable by the Borrower/Grantee under this Agreement.

(r) Rate Covenant. The Borrower/Grantee covenants that, in addition to complying with the Rate Covenant set forth and defined in the Master Water Utility Ordinance, it will at all times fix, charge and collect such rates and charges as shall be required in order that in each Fiscal Year in which the Loan is outstanding the Gross Revenues shall at least equal the Operation and Maintenance Expenses of the System for the Fiscal Year, plus one hundred percent (100%) of the maximum annual principal and interest payments due on all outstanding obligations payable from the Pledged Revenues.

(s) Borrower/Grantee's Existence. The Borrower/Grantee will maintain its legal identity and existence so long as this Agreement remains outstanding unless another political subdivision, State agency, or other entity by operation of law succeeds to the liabilities, rights and duties of the Borrower/Grantee under this Agreement without adversely affecting to any substantial degree the privileges and rights of the Lender/Grantor.

(t) Use of Project; Continuing Covenant. During the Agreement Term, the Borrower/Grantee will at all times use the Project for the benefit of the Borrower/Grantee and the public it serves. The engineering design or engineering feasibility reports shall not involve or anticipate a sale, lease, mortgage, pledge, or the relocation or disposal of any part of the Project or System designed during its Useful Life; provided, however, that if the Project is a joint project of the Borrower/Grantee and other qualifying entities (as defined by the Act), the Borrower/Grantee and the other qualifying entities may, with the express written approval of the NMFA and not otherwise, enter into an agreement allocating ownership and operational and maintenance responsibilities for the Project during the term of the Agreement. Any such agreement shall provide that the Lender/Grantor, or either of them, shall have the power to enforce the terms of this Agreement, without qualification, as to each and every qualifying entity (as defined by the Act) other than the Borrower/Grantee, owning or operating any portion of the Project during the term of the Agreement. The Borrower/Grantee will operate and maintain the Project, so that it will function properly over its Useful Life.

(u) Title and Rights of Way. As required by NMSA 1978, § 72-4A-7(A)(3) of the Act, as amended, and the Board Rules, the Borrower/Grantee shall provide written assurance signed by an attorney or provide a title insurance policy ensuring that the Borrower/Grantee has proper title to, easements, rights of way or use permits on the real property upon or through which the Project will be conducted and completed and if any portion of the Project will be designed, constructed, located, completed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, such other qualifying entity has title to such real property, and the Borrower/Grantee shall provide written assurance signed by an attorney or provide a title insurance policy ensuring that such other qualifying entity has proper title to such real property.

(v) Additional Funding Amount. Together with the Loan/Grant Amount and other amounts available to the Borrower/Grantee, the Additional Funding Amount is now available to the Borrower/Grantee, and in combination with the Loan/Grant Amount, will be sufficient to complete the Project. If any other additional expenses are incurred, the Borrower/Grantee shall be responsible for payment of such expenses.

(w) Audit Requirement. During the Agreement Term the Borrower/Grantee shall comply with the requirements of the State Audit Act, NMSA 1978, §§ 12-6-1 through 12-6-14, as amended. Upon request by the NMFA, the Borrower/Grantee shall provide the NMFA a copy of any review or audit, report of agreed upon procedures, or any other document prepared pursuant to or required by the State Audit Act.

(x) Reserved.

(y) Efficient Operation. The Borrower/Grantee will operate the System so long as this Agreement is outstanding, will maintain the System in efficient operating condition and make such improvements, extensions, enlargements, repairs and betterments to the System as may be necessary or advisable for its economical and efficient operation at all times and sufficient to supply reasonable demands for System services.

(z) Records. So long as the Agreement remains outstanding, proper books of record and account will be kept by the Borrower/Grantee in accordance with Generally Accepted Accounting Principles, separate from all other records and accounts, showing complete and correct entries of all transactions relating to the System. Such books shall include, but not necessarily be limited to, monthly records showing: (i) the number of customers for the System; (ii) the revenues separately received from charges by classes of customers, including but not necessarily limited to classification by facilities; and (iii) a detailed statement of the expenses of the System.

(aa) Billing Procedure. Bills for water service or facilities, furnished by or through the System, shall be rendered to customers on a regular basis each month following the month in which the service was rendered and shall be due as required by the applicable ordinance, resolution or regulation of the Borrower/Grantee. If permitted by law, if a bill is not paid within the period of time required by such ordinance, resolution or regulation, water service shall be discontinued as required by such ordinance, resolution or regulation, and the rates and charges due shall be collected in a lawful manner, including, but not limited to, the cost of disconnection and reconnection.

(bb) Competent Management. The Borrower/Grantee shall employ or contract for experienced and competent personnel to manage the System.

(cc) Readiness Requirements. The Borrower/Grantee has met the requirements of Executive Order 2013-006 and it has met or will meet prior to the first disbursement of any portion of the Loan/Grant Amount, the Conditions and the readiness to proceed requirements established for the Loan/Grant by the NMFA and the Water Trust Board.

(dd) Other Liens. Other than as provided in the Term Sheet, there are no liens or encumbrances of any nature, whatsoever, on or against the System or the revenues derived from the operation of the same.

(ee) Additional Obligations. The Borrower/Grantee may incur additional Senior Obligations upon the satisfaction of the additional bonds test set forth in the Master Water Utility Ordinance. The Borrower/Grantee shall obtain the written consent of the NMFA prior to the issuance of additional Parity Obligations unless such Parity Obligation has been issued by the NMFA. The Borrower/Grantee shall identify any additional Senior Obligations issued by the

Borrower/Grantee after the Closing Date in any future application for financing submitted to the NMFA.

Section 2.2 Representations and Warranties of the NMFA. The NMFA represents as follows:

(a) Authorization of Agreement. The NMFA is a public body politic and corporate separate and apart from the State, constituting a governmental instrumentality, and has all necessary power and authority to enter into and perform and observe the covenants and agreements on its part contained in this Agreement and, by proper action, has duly authorized the execution and delivery of this Agreement.

(b) Legal, Valid and Binding Obligation. This Agreement constitutes a legal, valid and binding obligation of the NMFA enforceable in accordance with its terms.

ARTICLE III
AGREEMENT TERM

The Agreement Term shall commence on the Closing Date and shall terminate at the end of the Useful Life of the Project as required by NMSA 1978, § 72-4A-7, as amended, of the Act.

ARTICLE IV
LOAN/GRANT AGREEMENT CONDITIONS

Section 4.1 Conditions Precedent to Closing of Loan/Grant. Prior to the Closing Date, the following Conditions and readiness to proceed items shall be satisfied:

(a) The NMFA, on behalf of the Water Trust Board, shall have determined that the Borrower/Grantee has met the Conditions and readiness to proceed requirements established for the Loan/Grant by the NMFA and the Water Trust Board including any Conditions set out in the Term Sheet; and

(b) The Borrower/Grantee shall have provided written assurance addressed to the NMFA and signed by an attorney (or shall have provided a title insurance policy) that the Borrower/Grantee has proper title to or easements, rights of way, or permits on the real property upon or through which the Project will be conducted and completed; and

(c) If any portion of the Project will be constructed, located, completed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, the Borrower/Grantee shall have provided written assurance addressed to the NMFA and signed by an attorney (or shall have provided a title insurance policy) that such other qualifying entity has proper title to such real property; and

(d) Prior to the disbursement of any portion of the Loan/Grant Amount for purposes of construction of the Project, the plans and specifications funded with the proceeds of this Agreement will be approved by the NMFA as required by NMSA 1978, § 72-4A-7(B), as amended, or on behalf of the NMFA by the New Mexico Environment Department and the Office of the State of Engineer, and the Borrower/Grantee shall have provided written evidence of such approval to the NMFA; and

(e) Except as otherwise expressly provided in the Conditions, the Borrower/Grantee shall have certified to the Lender/Grantor that the Additional Funding Amount is available for the Project, and, in addition, shall have provided additional evidence reasonably acceptable to the Lender/Grantor of the availability of the Additional Funding Amount; and

(f) The Borrower/Grantee shall be in compliance with the provisions of this Agreement.

(g) Notwithstanding anything in this Agreement to the contrary, the NMFA shall not be obligated to execute the Agreement and may not make the Loan/Grant until the Borrower/Grantee has provided to the NMFA the documents listed on Exhibit "F" attached hereto, all of which must be in form and content acceptable to the NMFA.

Section 4.2 Determination of Eligibility Is Condition Precedent to Disbursement. No request for payment shall be made, nor shall any disbursement be made from the Water Project Fund, for any requisition of any portion of the Loan/Grant Amount, except upon a determination by the NMFA in its sole and absolute discretion that such disbursement is for payment of Eligible Items, and that the request for payment or disbursement does not exceed any limitation upon the amount payable for any Eligible Item pursuant to the Act, the Board Rules, and the Policies governing the Water Project Fund. The NMFA, as a condition precedent to submitting any request for payment to the State Board of Finance or making any requested disbursement from the Water Project Fund, may require submittal of such documentation as the NMFA deems necessary, in its sole and absolute discretion, for a determination whether any requested disbursement is for payment of Eligible Items and is fully consistent with the Act, the Board Rules, and the Policies, as applicable.

ARTICLE V
LOAN TO THE BORROWER/GRANTEE; GRANT TO THE BORROWER/GRANTEE; APPLICATION OF MONEYS

Section 5.1 Loan and Grant to the Borrower/Grantee.

(a) Loan to the Borrower/Grantee. The Lender/Grantor hereby lends to the Borrower/Grantee and the Borrower/Grantee hereby borrows from and agrees to pay to the order of the Lender/Grantor, without interest, an amount equal to the Loan Amount, with the principal amount of the Loan Amount being payable as provided by Article VI and Exhibit "B" of this Agreement.

(i) Subordinate Nature of Loan Amount and Administrative Fee Obligation. The obligation of the Borrower/Grantee to make the Loan Payments and to pay the Administrative Fee shall be subordinate to all other indebtedness secured by the Pledged Revenues existing on the Closing Date and, further, that may in the future be secured by the Pledged Revenues; except, however, that the obligation of the Borrower/Grantee to make the Loan Payments and to pay the Administrative Fee shall be on parity with any other obligation, present or future, of the Borrower/Grantee to repay a loan provided by the Lender/Grantor pursuant to the Act or the Colonias Infrastructure Act.

(ii) Administrative Fee. The Borrower/Grantee shall, on an annual basis beginning on the first payment date following the completion of the Project or exhaustion of all Loan/Grant Amounts as set out in Section 5.3 hereof, pay to the Lender/Grantor the Administrative Fee, taking into account both payments made by the Borrower/Grantee and Hardship Waivers granted to the Borrower/Grantee as provided by this Agreement. Any such Administrative Fee payment shall be due irrespective of whether or not a Hardship Waiver is granted to the Borrower/Grantee for the principal payment otherwise due on June 1 of the applicable year or any other year.

(iii) Hardship Waivers of Payment. Each year while any portion of the Loan Amount remains outstanding, no later than April 1 of each such year, the Borrower/Grantee may apply in writing to the NMFA for a determination of whether the annual principal payment on the Loan Amount otherwise due on the upcoming June 1 of such year should be forgiven because such payment would cause undue hardship for the Borrower/Grantee or the public it serves. The Borrower/Grantee shall submit such application to the NMFA for determination with sufficient documentation of the existence of such undue hardship as is reasonably required by the NMFA to make a determination, and the Borrower/Grantee shall promptly respond to additional requests for information from the NMFA. Such application for Hardship Waiver shall be executed by the Authorized Officers of the Borrower/Grantee. An "undue hardship" exists if the NMFA determines that the Borrower/Grantee is facing unforeseen events or an emergency that has caused the Borrower/Grantee to be unable to pay on a timely basis the annual principal payment on the Loan Amount. The NMFA may consult the Department of Finance and Administration in determining whether to grant the Hardship Waiver. The NMFA shall make a determination no later than May 15 of the applicable year, and the NMFA shall promptly communicate to the Borrower/Grantee in writing the results of its determination. Upon receipt of written notice of the determination, either the principal payment otherwise due on June 1 of such year shall be forgiven (in the event of a determination of undue hardship) or the principal payment shall remain outstanding and due and payable on June 1 (in the event no undue hardship is determined to exist).

(b) Grant and Acceptance. The Lender/Grantor hereby grants to the Borrower/Grantee and the Borrower/Grantee hereby accepts from the Lender/Grantor an amount equal to the Grant Amount.

(c) Project Account. The NMFA shall establish and maintain the Project Account as a book account only, on behalf of the Borrower/Grantee, which account shall be kept separate and apart from all other accounts of the NMFA.

(d) Constitutional and Statutory Debt Limitations. No provision of this Agreement shall be construed or interpreted as creating a general obligation or other indebtedness of the Water Trust Board, the NMFA, the State or the Borrower/Grantee within the meaning of any constitutional or statutory debt limitation.

Section 5.2 Application of Loan/Grant Amount. Following the determination by the NMFA in its sole and absolute discretion that the Conditions to the disbursement of the Loan/Grant Amount have been satisfied, the NMFA shall make an entry in its accounts, and in particular in the Project Account, reflecting the proceeds of the Loan/Grant Amount made available for disbursement from the Water Project Fund to the Borrower/Grantee at its request, and as needed by it to acquire and complete the Project, as provided in Section 7.2 of this Agreement.

Section 5.3 Final Requisition. The Final Requisition shall be submitted by the Borrower/Grantee within the Interim Period. The Interim Period may be extended only as approved in writing by an Authorized Officer of the NMFA, based on the Borrower/Grantee's demonstration, to the reasonable satisfaction of the Authorized Officer of the NMFA, that unanticipated circumstances beyond the control of the Borrower/Grantee resulted in delaying the acquisition and completion of the Project, and submission of the Borrower/Grantee's Final Requisition.

Section 5.4 Investment of Monies. Money in the Water Project Fund, representing proceeds of this Agreement, held and administered by the NMFA, may be invested by the NMFA for the credit of the Water Project Fund.

ARTICLE VI
LOAN PAYMENTS BY THE BORROWER/GRANTEE

Section 6.1 Loan to the Borrower/Grantee; Payment Obligations Limited to Pledged Revenues; Pledge of Pledged Revenues. The NMFA hereby lends to the Borrower/Grantee and the Borrower/Grantee hereby borrows from the NMFA an amount not to exceed the Loan Amount. The Borrower/Grantee promises to pay, but solely from the sources pledged herein, the Loan Payments and the Administrative Fees and other amounts owed by the Borrower/Grantee as herein provided. Subject to any outstanding Parity Obligations and Senior Obligations, the Borrower/Grantee does hereby grant a lien on and a security interest in and does hereby convey, assign and pledge unto the NMFA and unto its successors in trust forever all right, title and interest of the Borrower/Grantee in and to (i) the Pledged Revenues to the extent required to pay the Loan Payments, and to pay the Administrative Fees and other amounts owed by the Borrower/Grantee as herein provided, subject to and subordinate to all other pledges of the Pledged Revenues existing on the Closing Date and, further, that may exist in the future (except only that the pledge of the Pledged Revenues herein shall be on a parity with any other pledge of the Pledged Revenues by the Borrower/Grantee to repay any obligations issued by the Lender/Grantor pursuant to the Act or the Colonias Infrastructure Act); (ii) the Loan/Grant Amount including the Project Account; and (iii) all other rights hereinafter granted, for the securing of the Borrower/Grantee's obligations under this Agreement, including payment of the Loan Payments, Administrative Fees and other amounts owed by the Borrower/Grantee as herein provided, however, that if the Borrower/Grantee, its successors or assigns, shall pay, or cause to be paid, all Loan Payments and Administrative Fees at the time and in the manner contemplated by this Agreement, or shall provide as permitted by Section 6.5 of this Agreement for the payment thereof, and shall pay all other amounts due or to become due under this Agreement in accordance with its terms and provisions then, upon such final payment, this Agreement and the rights created thereby shall terminate; otherwise, this Agreement shall remain in full force and effect.

The schedule of Loan Payments, assuming the disbursal of the entire Loan/Grant Amount within twenty-four (24) months after the Closing Date, identified as the Interim Debt Service Schedule, is attached to this Agreement as Exhibit "B". Within thirty (30) days after the Final Requisition is made, the NMFA shall provide a Final Debt Service Schedule, reflecting the amount of the Loan/Grant Amount actually disbursed to the Borrower/Grantee pursuant to this Agreement. Such Final Debt Service Schedule shall supersede the schedule attached hereto as Exhibit "B". The NMFA shall additionally calculate the amount of the Administrative Fee that has accumulated

during that twenty-four (24) month period from the Closing Date, and shall include such amount in the first Loan Payment due from the Borrower/Grantee on the Final Debt Service Schedule.

The pledge of the Pledged Revenues and the lien thereon shall be effective upon the Closing Date. The Borrower/Grantee and the NMFA acknowledge and agree that the obligations of the Borrower/Grantee hereunder are limited to the Pledged Revenues; and that this Agreement with respect to the Loan Amount, the Administrative Fee and other amounts owed by the Borrower/Grantee as herein provided, and that the Agreement shall constitute a special, limited obligation of the Borrower/Grantee. No provision of this Agreement shall be construed or interpreted as creating a general obligation or other indebtedness of the Borrower/Grantee or the State within the meaning of any constitutional or statutory debt limitation. No provision of this Agreement shall be construed to pledge or to create a lien on any class or source of Borrower/Grantee moneys other than the Pledged Revenues, nor shall any provision of this Agreement restrict the future issuance of any bonds or obligations payable from any class or source of Borrower/Grantee moneys other than the Pledged Revenues. In addition, to the extent not required for the payment of obligations of the Borrower/Grantee hereunder, the Pledged Revenues may be utilized by the Borrower/Grantee for any other purposes permitted by law.

Section 6.2 Deposit of Payments of Loan Amount to Water Project Fund. All Loan Payments made by the Borrower/Grantee to the NMFA to repay the Loan Amount and interest thereon, if any, shall be deposited into the Water Project Fund.

Section 6.3 Manner of Payment. The Loan Amount and Administrative Fee shall be payable by the Borrower/Grantee to the Lender/Grantor in annual installments on June 1 beginning after expiration of the Interim Period and continuing through the expiration of the last Loan Payment due as outlined in the Final Debt Service Schedule. All payments of the Borrower/Grantee hereunder shall be paid in lawful money of the United States of America to the NMFA at the address designated in Section 11.1 of this Agreement or by electronic debit of the account identified in the ACH Authorization. The obligation of the Borrower/Grantee to make payments hereunder, from and to the extent of the available Pledged Revenues, shall be absolute and unconditional in all events, except as expressly provided hereunder. Notwithstanding any dispute between the Borrower/Grantee and the NMFA, any vendor or any other person, the Borrower/Grantee shall make all deposits hereunder, from and to the extent of the available Pledged Revenues, when due and shall not withhold any deposit hereunder pending final resolution of such dispute, nor shall the Borrower/Grantee assert any right of set-off or counterclaim against its obligation to make such deposits required hereunder.

Section 6.4 Borrower/Grantee May Budget for Payments. The Borrower/Grantee may, in its sole discretion, but without obligation and subject to the Constitution of the State, governing laws, and its budgetary requirements, make available properly budgeted and legally available funds to make the Loan Payments and other amounts owed by the Borrower/Grantee hereunder; provided, however, the Borrower/Grantee has not covenanted and cannot covenant to make such funds available and has not pledged any of such funds for such purpose.

Section 6.5 No Penalty for Prepayment of the Loan Amount. The Loan Amount shall be pre-payable by the Borrower/Grantee at the conclusion of the Interim Period without penalty.

Section 6.6 Lender/Grantor's Release of Lien and Further Assurances. Upon payment in full of the Loan Amount, Administrative Fee and other amounts owed by the Borrower/Grantee as herein provided in this Agreement and upon written request from the Borrower/Grantee the Lender/Grantor agrees to execute a release of lien and to give such further assurances as are reasonably necessary to ensure that the Lender/Grantor no longer holds or maintains any lien or claim against the Pledged Revenues.

ARTICLE VII
THE PROJECT

Section 7.1 Agreement to Acquire, Complete and Maintain the Project.

(a) The Borrower/Grantee hereby agrees that in order to effectuate the purposes of this Agreement and to acquire and complete the Project it shall take such steps as are necessary and appropriate to acquire, complete, operate and maintain the Project lawfully and efficiently. The plans and specifications for the Project shall incorporate available technologies and operational design for water use efficiency. No Loan/Grant funds shall be used for items not constituting Eligible Items.

(b) As provided by NMSA 1978, § 72-4A-7(A)(1), as amended, of the Act, the Project shall be designed to have a structural and material design life of the Useful Life of the Project; provided, that if any portion of the Project will be constructed, located, completed, installed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, the Borrower/Grantee may, prior to any use of the Loan/Grant funds for the Project on such real property, obtain the written agreement of such other qualifying entity to perform these obligations with respect to such real property (and the portion of the Project to be constructed, located, completed or extended on such real property), which written agreement shall be subject to approval by the Lender/Grantor and shall include an express statement by such other qualifying entity that the Lender/Grantor is a third party beneficiary of such written agreement.

Section 7.2 Accounting for Amounts Credited to the Project Account. So long as no Event of Default shall occur and provided that all Conditions to the disbursement of the Loan/Grant Amount have been satisfied (including approval of the plans and specifications), upon receipt by the NMFA of a requisition substantially in the form of Exhibit "C" attached hereto signed by an Authorized Officer of the Borrower/Grantee, supported by certification by the Borrower/Grantee's project architect, engineer, or such other authorized representative of the Borrower/Grantee that the amount of the disbursement request represents the progress of design, construction, acquisition or other Project-related activities accomplished as of the date of the disbursement request, the NMFA shall, in its sole and absolute discretion: (1) submit a request for payment to the State Board of Finance for payment; and/or (2) disburse from the Water Project Fund, amounts which together are sufficient to pay the requisition in full. The NMFA shall make the appropriate entry in the Project Account reflecting the amount of the payment. The certification provided pursuant to this Section 7.2 in support of the requisition must be acceptable in form and substance to the NMFA and, at its request, the Water Trust Board. The Borrower/Grantee shall provide such records or access to the Project as the NMFA, and, at its request, the Water Trust Board, in the discretion of each, may request in connection with the approval of the Borrower/Grantee's requisition requests made hereunder.

Section 7.3 No Disbursement for Prior Expenditures Except upon Approval. No disbursement shall be made from the Water Project Fund of the Loan/Grant Amount, or any portion thereof, without the written approval of the NMFA and, at its request, the Water Trust Board, to reimburse any expenditure made prior to the Closing Date.

Section 7.4 Borrower/Grantee Reporting to Lender/Grantor. During the acquisition implementation, installation and construction of the Project, the Borrower/Grantee shall provide the Lender/Grantor with a quarterly written report executed by an Authorized Officer of the Borrower/Grantee, in the form attached as Exhibit "D" hereto or in another form reasonably acceptable to the Lender/Grantor, describing the status of the Project as of the report date, uses of Loan/Grant funds during the quarterly period ending on the report date, and requests for distributions of Loan/Grant funds anticipated to occur during the quarterly period immediately following the report date. The first quarterly report shall be due on September 30, 2025 and subsequent reports shall be due on each March 31, June 30, September 30 and December 31 thereafter until the report date next following final distribution of the Loan/Grant funds. No reports shall be required after the report date next following final distribution of the Loan/Grant Funds, unless specifically required by the NMFA or the Water Trust Board. The description of the status of the Project in each quarterly report shall include, among other information, (a) a comparison of actual and anticipated requests for distributions of Loan/Grant funds as of the report date with those anticipated as of the Closing Date, (b) a description of actual and anticipated changes in the cost estimates for the Project as of the report date compared with those anticipated as of the Closing Date, (c) a description of the percentage of completion of the Project; and (d) a timeline of projected milestones.

Section 7.5 Completion of Disbursement of Loan/Grant Funds. Upon completion of the Project an Authorized Officer of the Borrower/Grantee shall deliver a certificate to the NMFA substantially in the form of Exhibit "E" attached hereto, stating that, to his or her knowledge, either (1) the Project has been completed, or (2) that the portion of the Loan/Grant Amount needed to complete the Project has been disbursed in accordance with the terms of this Agreement. No portion of the Loan/Grant Amount shall be disbursed after expiration of the Interim Period.

Section 7.6 Application of Project Account Subsequent to Disbursement of Loan/Grant Funds; Termination of Pledge.

(a) Upon the completion of the Project as signified by delivery of the completion certificate required by Section 7.5 hereof, the NMFA shall determine, by reference to the Project Account, whether any portion of the authorized Loan/Grant Amount remains unexpended and shall dispose of such unexpended proceeds in accordance with law.

(b) In the event that a portion of the Loan/Grant Amount remains unexpended after the expiration of the Interim Period, the NMFA shall dispose of such funds in accordance with law.

Upon the occurrence of either event described in (a) or (b) above, the NMFA shall make the appropriate entry in the Project Account and, upon such entry, the pledge of the Loan/Grant Amount established in this Agreement shall terminate.

ARTICLE VIII
COMPLIANCE WITH LAWS AND RULES; OTHER COVENANTS

Section 8.1 Further Assurances and Corrective Instruments. The Lender/Grantor and the Borrower/Grantee agree that they will, from time to time, execute, acknowledge and deliver, or cause to be executed, acknowledged and delivered, such supplements hereto and such further instruments as may reasonably be required for correcting any inadequate or incorrect description of the Project or of the Pledged Revenues and for carrying out the intention hereof.

Section 8.2 Representatives of Lender/Grantor or of Borrower/Grantee. Whenever under the provisions hereof the approval of the Lender/Grantor or the Borrower/Grantee is required, or the Borrower/Grantee, or the Lender/Grantor is required to take some action at the request of either of them, such approval or such request shall be given for the Lender/Grantor or for the Borrower/Grantee, by an Authorized Officer of the Lender/Grantor or the Borrower/Grantee, as the case may be, and any party hereto shall be authorized to act on any such approval or request.

Section 8.3 Selection of Contractors. All contractors providing services or materials in connection with the Project shall be selected in accordance with applicable provisions of the New Mexico Procurement Code, NMSA 1978, §§ 13-1-28 through 13-1-199, as amended, or, if the Borrower/Grantee is not subject to the New Mexico Procurement Code, shall be selected in accordance with a documented procurement process duly authorized and established pursuant to laws and regulations applicable to the Borrower/Grantee.

Section 8.4 Non-Discrimination in Employment. Except as otherwise specifically provided in the laws, statutes, ordinances or regulations of the Borrower/Grantee, the Borrower/Grantee shall require in any contract or subcontract executed in connection with the Project to which the Borrower/Grantee is a party that there shall be no discrimination against any employee or applicant for employment because of race, color, creed, sex, religion, sexual preference, ancestry or national origin.

Section 8.5 Little Miller Act. To the extent NMSA 1978, § 13-4-1 et seq., (the "Little Miller Act") is applicable to the Project, the Borrower/Grantee shall comply with the requirements of the "Little Miller Act". If bonding requirements of the Little Miller Act are not applicable to the Project, the Borrower/Grantee will require that the contractor to whom is given any contract for construction appertaining to the Project supply a performance bond or bonds satisfactory to the Borrower/Grantee. Any sum or sums derived from said performance bond or bonds shall be used within six (6) months after such receipt for the completion of said construction, and if not so used within such period, shall be treated as Gross Revenues.

Section 8.6 Required Contract Provisions. The Borrower/Grantee shall require the following provisions in any contract or subcontract executed in connection with the Project to which the Borrower/Grantee is a party:

(a) There shall be no discrimination against any employee or applicant for employment because of race, color, creed, sex, religion, sexual preference, ancestry or national origin; and

(b) Any contractor or subcontractor providing construction services in connection with the Project shall post a performance and payment bond in accordance with the requirements of NMSA 1978, § 13-4-18, as amended.

(c) Any contractor or subcontractor providing construction services in connection with the Project shall comply with the prevailing wage laws in accordance with the requirements of NMSA 1978, § 13-4-11, as amended.

Section 8.7 Application of Act and Board Rules. While this Agreement is outstanding, the Lender/Grantor and the Borrower/Grantee expressly acknowledge that this Agreement is governed by provisions and requirements of the Act and the Board Rules, as amended and supplemented, and all applicable provisions and requirements of the Act and Board Rules are incorporated into this Agreement by reference.

Section 8.8 Continuing Disclosure. The Borrower/Grantee shall provide continuing disclosure to the NMFA, as the NMFA may require, that shall include, but not be limited to: annual audits and notification of any event deemed material by the NMFA, including but not limited to, any event which may or does affect the Pledged Revenues, the ability of the Borrower/Grantee to repay the loan, and the default of the Borrower/Grantee in performance or observance of any covenant, term, or condition contained in any other loan agreement.

ARTICLE IX
INSURANCE; NON-LIABILITY OF LENDER/GRANTOR

Section 9.1 Insurance. The Borrower/Grantee shall carry general liability insurance or participate in the State's risk-management program and, to the extent allowed by the New Mexico Tort Claims Act, NMSA 1978, §§ 41-4-1 through 41-4-30, as amended, shall and hereby agrees to name the Lender/Grantor as an additional insured with respect to all claims, by or on behalf of any person, firm, corporation or other legal entity arising from the acquisition, completion or implementation of the Project or otherwise during the Agreement Term; provided, that if any portion of the Project will be constructed, located, completed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, the Borrower/Grantee may obtain the written agreement of such other qualifying entity to perform these insurance/risk-management program requirements for Borrower/Grantee with respect to such real property (and the portion of the Project to be constructed, located, completed or extended on such real property), which written agreement shall include an express statement by such other qualifying entity that the Lender/Grantor is a third party beneficiary of such written agreement.

Section 9.2 Non-Liability of Lender/Grantor.

(a) Lender/Grantor shall not be liable in any manner for the Project, Borrower/Grantee's use of the Loan/Grant, the acquisition, implementation, construction, installation, ownership, operation or maintenance of the Project, or any failure to act properly by the Borrower/Grantee or any other owner or operator of the Project.

(b) Lender/Grantor shall not be liable for the refusal or failure of any other agency of the State to transfer any portion of the Loan/Grant Amount in its possession, custody

and control to the NMFA for disbursement to the Borrower/Grantee, or to honor any request for such transfer or disbursement of the Loan/Grant Amount.

(c) From and to the extent of the Pledged Revenues, and to the extent permitted by law, the Borrower/Grantee shall and hereby agrees to indemnify and save the NMFA harmless against and from all claims, by or on behalf of any person, firm, corporation, or other legal entity, arising from the acquisition or operation of the Project during the Agreement Term, from: (i) any act of negligence or other misconduct of the Borrower/Grantee, or breach of any covenant or warranty by the Borrower/Grantee hereunder; and (ii) the incurrence of any cost or expense in connection with the acquisition or operation of the Project in excess of the Loan/Grant Agreement proceeds and interest on the investment thereof. The Borrower/Grantee shall indemnify and save the NMFA harmless, from and to the extent of the available Pledged Revenues, and to the extent permitted by applicable law, from any such claim arising as aforesaid from (i) or (ii) above, or in connection with any action or proceeding brought thereon and, upon notice from the NMFA, shall defend the NMFA in any such action or proceeding.

ARTICLE X
EVENTS OF DEFAULT AND REMEDIES

Section 10.1 Events of Default Defined. Any one of the following shall be an "Event of Default" under this Agreement:

(a) Failure by the Borrower/Grantee to pay any amount required to be paid under this Agreement on the date on which it is due and payable;

(b) Failure by the Borrower/Grantee to observe and perform any covenant, condition or agreement on its part to be observed or performed under this Agreement for a period of thirty (30) days after written notice, specifying such failure and requesting that it be remedied, is given to the Borrower/Grantee by the Lender/Grantor unless the Lender/Grantor shall agree in writing to an extension of such time prior to its expiration; provided, however, if the failure stated in the notice can be wholly cured within a period of time not materially detrimental to the rights of the Lender/Grantor but cannot be cured within the applicable thirty (30) day period, the Lender/Grantor will not unreasonably withhold their consent to an extension of such time if corrective action is instituted by the Borrower/Grantee within the applicable period and diligently pursued until the failure is corrected; and provided, further, that if by reason of force majeure the Borrower/Grantee is unable to carry out the agreements on its part herein contained, the Borrower/Grantee shall not be deemed in default under this paragraph 10.1(b) during the continuance of such inability (but force majeure shall not excuse any other Event of Default); or

(c) Any warranty, representation or other statement by or on behalf of the Borrower/Grantee contained in this Agreement or in any instrument furnished in compliance with or in reference to this Agreement is false or misleading in any material respect;

(d) A petition is filed against the Borrower/Grantee under any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, and is not dismissed within thirty (30) days after such filing, but the NMFA shall have the right to intervene in the proceedings prior to the expiration of such thirty (30) days to protect their interests;

(e) The Borrower/Grantee files a petition in voluntary bankruptcy or seeking relief under any provision of any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, or consents to the filing of any petition against it under any such law; or

(f) The Borrower/Grantee admits insolvency or bankruptcy or its inability to pay its debts as they become due or is generally not paying its debts as such debts become due, or becomes insolvent or bankrupt or makes an assignment for the benefit of creditors, or a custodian (including, without limitation, a receiver, liquidator or trustee) of the Borrower/Grantee for any of its property is appointed by court order or takes possession thereof and such order remains in effect or such possession continues for more than thirty (30) days, but the NMFA shall have the right to intervene in the proceedings prior to the expiration of such thirty (30) days to protect their interests.

(g) Default by the Borrower/Grantee in performance or observance of any covenant contained in any other loan agreement, document or instrument of any type whatsoever evidencing or securing obligations of the Borrower/Grantee to the NMFA.

Section 10.2 Remedies on Default. Whenever any Event of Default has occurred and is continuing and subject to Section 10.3 hereof, the Lender/Grantor may take any or all of the following actions as may appear necessary or desirable to collect the payments then due and to become due or to enforce performance of any obligations of the Borrower/Grantee in this Agreement:

(a) File a mandamus proceeding or other action or proceeding or suit at law or in equity to compel the Borrower/Grantee to perform or carry out its duties under the law and the agreements and covenants required to be performed by it contained herein;

(b) Terminate this Agreement;

(c) Cease disbursing any further amounts from the Project Account;

(d) Demand that the Borrower/Grantee immediately repay the Loan/Grant Amount or any portion thereof if such funds were not utilized in accordance with this Agreement;

(e) File a suit in equity to enjoin any acts or things which are unlawful or violate the rights of the Lender/Grantor;

(f) Intervene in judicial proceedings that affect this Agreement or the Pledged Revenues; or

(g) Cause the Borrower/Grantee to account as if it were the trustee of an express trust for all of the Pledged Revenues;

(h) Take whatever other action at law or in equity may appear necessary or desirable to collect amounts then due and thereafter to become due under this Agreement or to enforce any other of its rights hereunder; or

(i) Apply any amounts in the Project Account toward satisfaction of any and all fees and costs incurred in enforcing the terms of this Agreement.

Section 10.3 Limitations on Remedies. A judgment requiring payment of money entered against the Borrower/Grantee shall be paid from only available Pledged Revenues unless the Borrower/Grantee in its sole discretion pays the judgment from other available funds.

Section 10.4 No Remedy Exclusive. No remedy herein conferred upon or reserved to the Lender/Grantor is intended to be exclusive, and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the Borrower/Grantee or the Lender/Grantor to exercise any remedy reserved in this Article X, it shall not be necessary to give any notice, other than such notice as may be required in this Article X.

Section 10.5 Waivers of Events of Default. The Lender/Grantor may, in its sole discretion, waive any Event of Default hereunder and the consequences of any such Event of Default; provided, however, all expenses of the Lender/Grantor in connection with such Event of Default shall have been paid or provided for. Such waiver shall be effective only if made by a written statement of waiver issued by the NMFA. In case of any such waiver or rescission, or in case any proceeding taken by the Lender/Grantor, on account of any such Event of Default shall have been discontinued or abandoned or determined adversely, then and in every such case, the Lender/Grantor shall be restored to its former position and rights hereunder, respectively, but no such waiver or rescission shall extend to any subsequent or other Event of Default, or impair any right consequent thereon.

Section 10.6 No Additional Waiver Implied by One Waiver. In the event that any agreement contained herein should be breached by either party and thereafter waived by the other party, such waiver shall be in writing and limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

Section 10.7 Agreement to Pay Attorneys' Fees and Expenses. In the event that the Borrower/Grantee shall default under any of the provisions hereof and the NMFA shall employ attorneys or incur other expenses for the collection of payments hereunder, or the enforcement of performance or observance of any obligation or agreement on the part of the Borrower/Grantee herein contained, the Borrower/Grantee agrees that it shall, on demand therefor, pay to the NMFA the fees of such attorneys and such other expenses so incurred, to the extent such attorneys' fees and expenses may be determined to be reasonable by a court of competent jurisdiction; provided, however, that the obligation of the Borrower/Grantee under this Section shall be limited to expenditures from and to the extent of the available Pledged Revenues of the Borrower/Grantee.

Summary:
The proposed bill would authorize the execution and delivery of both a Water Project Fund loan of $800,000 as well as a grant of $1,200,000 between the New Mexico Finance Authority (NMFA) and the City of Santa Fe (City), New Mexico. The total amount, $2,000,000, would finance the cost of designing a new pipeline and pumps to reclaim treated effluent water derived from San Juan-Chama Project water for reuse via return flow credits and increased diversions at the Buckman Direct Diversion intake. The bill specifies that both the loan and the grant be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). As regards the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City.

Departments Affected:
Public Utilities Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will not authorize funds for a total of two million dollars ($2,000,000) in the form of a loan of eight-hundred thousand dollars ($800,000) and a grant of one million, two-hundred thousand dollars ($1,200,000).

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Not at this time.

Performance and Administrative Implications:
Water Division staff will immediately submit contractor invoices for reimbursement toward design of the San Juan-Chama Return Pipeline Project. Staff will also be required to submit quarterly compliance reports on the progress of the final completion of the project within two years.

Fiscal Implications:
If this bill is adopted, the City will accept funds from NMFA in the total amount of two million dollars ($2,000,000) for the purpose of designing a new pipeline and pumps to return reclaimed, treated effluent water derived from San Juan-Chama Project water for reuse via return flow credits and increased diversions at the Buckman Direct Diversion intake. These funds take the form of two agreements—a loan for eight hundred thousand dollars ($800,000) and a grant for one million, two-hundred thousand dollars ($1,200,000). The loan portion of the agreement is to be paid back within twenty years at an interest rate of 0.25%.

Should the Governing Body adopt this bill, the City will receive one million two-hundred thousand dollars ($1,200,000) grant funding and eight hundred thousand dollars ($800,000) in loan funding for a total of two million dollars ($2,000,000) to support water project funds toward the Nichols Dam Repair Project. Loan proceeds are borrowed funds that must be repaid and are therefore not revenue. The anticipated receipt of the full $2,00,000 including both the grant funding and the loan proceeds is shown here to illustrate the effect of the transaction in generating cash.

RE: Making a Finding of Necessity in the Midtown LINC Overlay District and Approving the Designation of a Metropolitan Redevelopment Area

---

EXECUTIVE SUMMARY:

The proposed resolution makes a finding of necessity and designates the Midtown Local Innovation Corridor Overlay District (the Midtown "LINC"), other than a small residential portion, as a "Metropolitan Redevelopment Area," as consistent with SFCC 1987, Section 7-2.8 and NMSA 1978, Section 3-60A-8.

BACKGROUND:

For a "finding of necessity", as described in SFCC 1987, Section 7-2.8, the Governing Body must adopt a resolution concluding that one or more particular areas of the City meet the criteria described in code: 1) the area is either a slum or blighted and 2) rehabilitation, conservation, slum clearance, redevelopment or development, or a combination thereof in the area is necessary in the interest of the public health, safety, morals, or welfare of the residents of the city. In this particular case, the Midtown LINC, as described in Section 14-5.5(5)(D)(2) and further defined in Attachment B of the Resolution, is the area of interest. The area of interest also includes the deteriorated sixty-four (64) acre, City-owned parcel known as the "Midtown Site", which has been slated for redevelopment pursuant to the Midtown Master Plan approved in December 2022 through Resolution No. 2022-68.

As is described in the *Midtown Metropolitan Development Plan: Designation Report* ("Report") (attached as Attachment A of the Resolution), the Midtown LINC consists of diverse tracts of land characterized by multiple designation criteria, demonstrating that the Midtown LINC area is inconsistent with the land use goals described in SFCC 1987, Section 14-1.3, "General Purposes".

The goals described under Section 14-1.3 establish that the use of land in Santa Fe as an MRA should "create conditions favorable to the health, safety, convenience, prosperity, and general welfare of the residents of Santa Fe by coordinating streets within proposed subdivisions with existing or planned streets or other features of the general plan; providing parks and trails, providing sewer, water and other infrastructure; providing adequate open space for traffic, recreation, drainage, light and air; and providing for appropriate distribution of population and traffic." Specifically of note, the Report identifies conditions such as faulty platting, defective and inadequate street layout, as well as deteriorating structures and infrastructure, that negatively impact economic development, redevelopment, and diverse uses, including housing, in the proposed designated area.

The Midtown LINC also lies within two designated census tracts, 11.03 and 10.02, which are "qualified opportunity" zones, as defined by 26 USCA, Section 1400Z–1. This section of United States Code creates an economic development tool that allows people to invest in distressed areas, the purpose of which is to spur economic development and job creation in distressed communities by providing tax benefits to investors.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2025-__

INTRODUCED BY:

Mayor Alan Webber

Councilor Jamie Cassutt

Councilor Amanda Chavez

A RESOLUTION

MAKING A FINDING OF NECESSITY AND DESIGNATING AN AREA COMPRISED OF A MAJORITY OF THE MIDTOWN LOCAL INNOVATION CORRIDOR OVERLAY DISTRICT AS A METROPOLITAN REDEVELOPMENT AREA.

WHEREAS, the New Mexico Legislature adopted a Metropolitan Redevelopment Code to, among other things, provide strategies for municipalities to finance redevelopment projects; and

WHEREAS, SFCC 1987, Section 7-2.3 provides that the City of Santa Fe ("City") can declare and designate a metropolitan development area as "appropriate for a metropolitan development project"; and

WHEREAS, SFCC 1987, Section 7-2.8**,** provides that, in order to designate an area as a metropolitan redevelopment area, the City must first adopt a resolution establishing the following two criteria: 1) the area is either a slum or blighted; and 2) rehabilitation, conservation, slum clearance, redevelopment or development, or a combination thereof in the area is necessary in the interest of the public health, safety, morals, or welfare of the residents of the city; and

WHEREAS, the Midtown Local Innovation Corridor Overlay District (the "LINC") consists of diverse tracts of land which, according to a study commissioned by the City, the

Midtown Metropolitan Development Plan: Designation Report, Attachment A, is characterized by deteriorated or deteriorating structures, defective or inadequate street layout, faulty lot layout, deterioration of sites or other implements, a lack of adequate housing facilities, obsolete or impractical platting, and a significant number of vacant or struggling commercial businesses, all of which are inconsistent with the described goals in SFCC 1987, Section 14-1.3 of the land-use code, to "create conditions favorable to the health, safety, convenience, prosperity and general welfare of the residents of Santa Fe by coordinating streets within proposed subdivisions with existing or planned streets or other features of the general plan; providing parks and trails; providing sewer, water and other infrastructure; providing adequate open space for traffic, recreation, drainage, light and air; and providing for the appropriate distribution of population and traffic"; and

WHEREAS, the LINC lies within two designated census tracts, 11.03 and 10.02, which as defined in 26 USCA § 1400Z–1, are "qualified opportunity zones": distressed areas, identified by the federal government as needing targeted investment in economic development; and

WHEREAS, the purpose of identifying opportunity zones was to spur economic development and job creation in distressed communities by providing tax benefits to investors; and

WHEREAS, the economically challenging conditions in these census tracts have impaired the sound growth, development, and economic well-being of the City, creating an economic and social burden detrimental to the public health, safety, and welfare of the City; and

WHEREAS, the LINC includes a multi-unit residential property, more specifically described as the area covered by Lot 3B1**,** as recorded in instrument number 1171143, Book 482, Page 35, of the Santa Fe County Clerk ("Multi-Unit Residential Property"); and

WHEREAS, as the only residential property in the LINC, the Multi-Unit Residential Property's interests and needs are distinct from the rest of the LINC.

NOW, THEREFORE, BE IT RESOLVED THAT THE GOVERNING BODY OF THE CITY OF SANTA FE finds that a blighted area exists in the LINC, depicted in Attachment

B, and the rehabilitation, conservation, and redevelopment of the area is necessary and is in the interest of the public health, safety, and welfare of the residents of the City of Santa Fe.

BE IT FURTHER RESOLVED that the area within the LINC, defined by SFCC 1987, Section 14-5.5D (2), other than the Multi-Unit Residential Property, is designated a Metropolitan Redevelopment Area, pursuant to SFCC 1987, Section 7-2.8, and NMSA 1978, Section 3-60A-8.

INTRODUCTION

The Santa Fe Midtown Metropolitan Redevelopment Area (MRA) is a bold step toward revitalizing the heart of Santa Fe. Building on years of community-driven planning, this initiative will transform the Midtown District into a hub for arts, culture, economic growth, and mixed-income housing.

By designating the district as an MRA, Santa Fe can unlock key funding sources, attract private investment, and improve public infrastructure—creating new jobs, enhancing walkability, and expanding housing options. This strategic action was included in the Midtown Community Development Plan and aligns with the Midtown Master Plan to ensure mixed-use, sustainable redevelopment. With strategic public-private partnerships and financial tools like tax incentives and infrastructure investments, the MRA will move Midtown into motion, fostering an inclusive, thriving district for all Santa Fe residents.

BACKGROUND

The Midtown Site, located in the geographic center of Santa Fe, and the broader St. Michael's Drive / Cerrillos Road corridor, are full of possibilities. The Midtown Redevelopment Plans, which included the Midtown Master Plan and the Midtown Community Development Plan, were unanimously approved by the City of Santa Fe Governing Body in November 2022 and January 2023. This marked a significant milestone for realizing the community and economic development potential of both the city-owned 64-acre Midtown Site and the broader Midtown District.

The redevelopment plans for the Midtown Site capitalized on the groundbreaking planning and rezoning work that was approved in October 2016, known as the Midtown Local Innovation Corridor (LINC) Overlay District. Additionally, the Midtown District was designated a federal Opportunity Zone in 2017 to spur economic development by providing tax benefits to investors and encouraging long-term investments in low-income neighborhoods.

These efforts stand on the shoulders of the 2012 RE:Mike project. This process re-envisioned the St. Michael's Drive commercial corridor. It established community priorities for redesigning and rebuilding the public right of way to create safe pedestrian and bike-friendly streets along a mixed-use corridor that incentivized housing affordability and transit-oriented development.

These critical public acts serve as the foundation for taking the next step toward implementing the Midtown District vision, goals, and plans. The district will be a center for arts and cultural innovation, create economic growth and job opportunities, improve socioeconomic equality, and present opportunities for mixed-income housing.

THE SANTA FE METROPOLITAN REDEVELOPMENT AGENCY

Establishing the Santa Fe Metropolitan Redevelopment Agency brought real estate acumen and an entrepreneurial approach to redevelopment in the City of Santa Fe. The MRA works with community and real estate experts to promote the triple-bottom-line, mission-driven development strategies focused on the economic, social, and environmental health of neighborhoods and districts and the people who live, work, play, and learn there.

LEGAL FRAMEWORK

The New Mexico Metropolitan Redevelopment Code (§3-60A-1 to 3-60A48 NMSA 1978) provides municipalities in New Mexico with the power to correct conditions in areas or neighborhoods that "substantially impair or arrest the sound and orderly development" within the city. These powers can help reverse an area's decline and stagnation. However,

the municipality may only use these powers within designated Metropolitan Redevelopment Areas (MRAs) with adopted redevelopment plans.

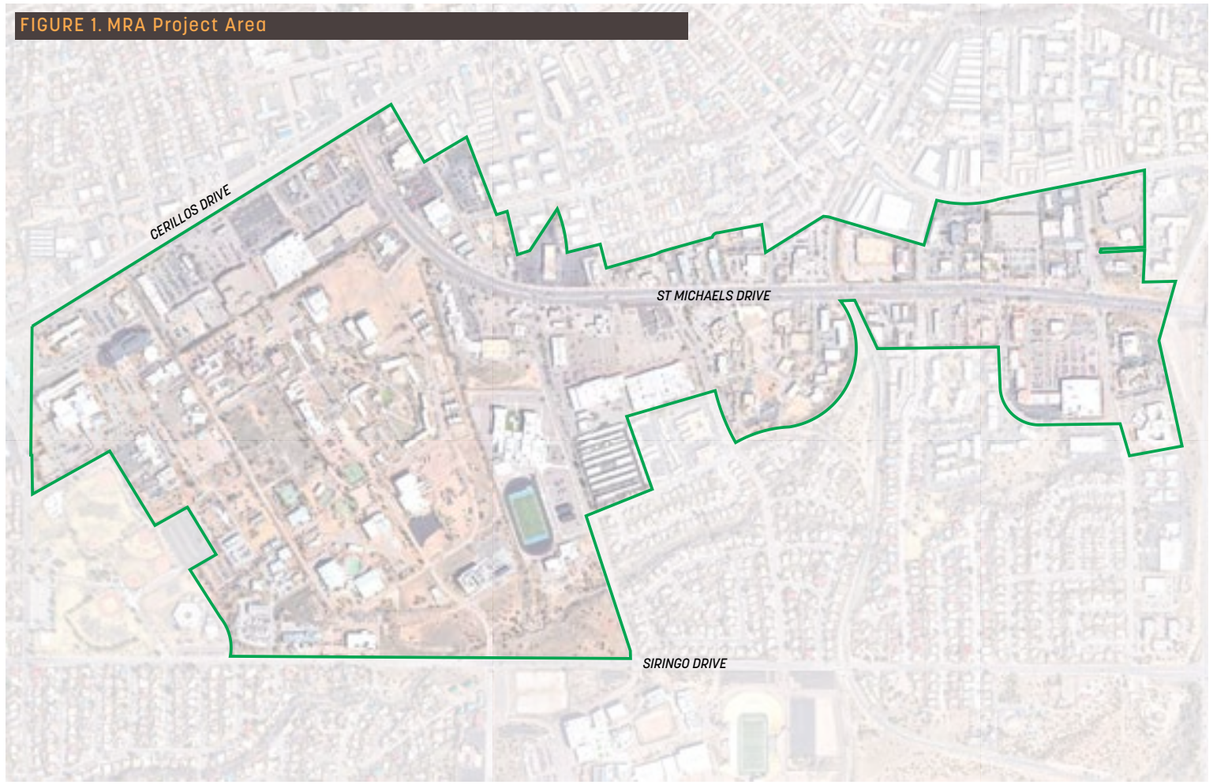
MRA AREA DESIGNATION CRITERIA

The designation of the Midtown Metropolitan Redevelopment Area is based on existing conditions that hinder redevelopment and economic growth within the area. Under state and local law, the designation of an MRA requires a finding of blight as defined in Section 3-60A-4 of the New Mexico Metropolitan Redevelopment Code. This designation is a necessary step to unlock redevelopment tools and incentives that can revitalize Midtown and attract investment.

A blighted area is defined as one that meets one or more of the following conditions:

- ☑ *A substantial number of deteriorated or deteriorating structures negatively impact the area's livability and economic potential.*
- ☑ *A defective or inadequate street layout that limits accessibility, walkability, and connectivity.*
- ☑ *Faulty lot layout that reduces the usefulness, accessibility, or redevelopment potential of properties.*
- ☑ *Deterioration of sites or other improvements, making the area less viable for new development.*
- ☑ *A lack of adequate housing facilities or conditions that prevent the provision of needed housing accommodations.*
- ☑ *Obsolete or impractical planning and platting, leading to underutilized land and inefficient land use.*
- ☑ *A significant number of vacant or struggling commercial businesses, reducing economic activity and job opportunities.*
- ☑ *Low levels of commercial or industrial activity, contributing to economic stagnation and disinvestment.*

A combination of these or other conditions impair economic growth and the overall well-being of the city.



The Midtown MRA Designation Report is being conducted to formally assess these conditions and justify the use of redevelopment tools such as public-private partnerships, financial incentives, infrastructure investment, and zoning adjustments. By identifying the Midtown as an MRA, the City of Santa Fe increases its ability to implement the Midtown Redevelopment plans and facilitate redevelopment projects in the district.

PROJECT BOUNDARY

The Midtown MRA Plan area follows the boundary of the Midtown Local Innovation Corridor (Midtown LINC) Overlay District, which was adopted in 2016 (Ord. 2016-39). The Midtown LINC Overlay District was originally created to strengthen the built environment, foster economic growth, and enhance connectivity within Santa Fe's geographic and demographic center. It aimed to bridge the gap between two major employment hubs—the city-owned Midtown site to the west and Christus St. Vincent Regional Medical Center to the east—by incentivizing mixed-use, pedestrian-oriented redevelopment.

The boundary selection for the LINC district was strategic and deliberate. It excludes established residential neighborhoods to minimize disruption while incorporating 372.8 acres of primarily commercial, industrial, and institutional properties along St. Michael's Drive and Cerrillos Road, as well as the former Santa Fe University of Art and Design (SFUAD) campus. The intent was to free underutilized land for multi-family residential and complementary non-residential uses while maintaining zoning flexibility. Additionally, the boundary allows for higher-density development, improved multimodal transit options, and walkable public spaces, reinforcing Santa Fe's broader urban planning goals.

FIGURE 1. MRA Project Area

The Midtown MRA Designation Area aligns with the LINC Overlay boundary with one minor omision of a residential property. There is no residential property within the Midtown MRA Designation Area. The Study Area encompasses 182 parcels, including the 64-acre city-owned Midtown Redevelopment Site. Its commercial zoning layout creates a natural corridor for business growth and redevelopment while ensuring buffers for existing residential areas. The geographic scope of the MRA extends to West San Mateo Lane to the north, St. Francis Drive to the east, Siringo Road to the south, and Camino Carlos Rey and St. Michael's Drive to the west, positioning it as a key mixed-use redevelopment corridor for Santa Fe's future.

EXISTING CONDITIONS ASSESSMENT

This section provides an in-depth analysis of physical, economic, and social conditions in the study area to address the criteria identified in the New Mexico Metropolitan Redevelopment Code. The assessment includes a policy review to identify existing planning efforts, community goals, and policies that guide and govern this area.

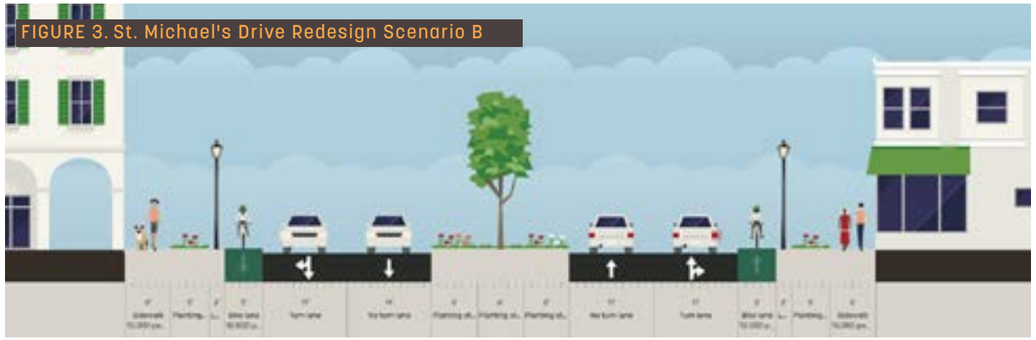
A. POLICY REVIEW

The following section outlines existing planning initiatives, policies, reports, and documents related to the Midtown MRA site. They are listed chronoligically by the following categories: Midtown District Plans, Midtown Site Plans, and citywide/Santa Fe plans.

Over the years, multiple efforts have aimed to activate and revitalize this area, but with limited success. Many of these plans and policies were developed with the goal of redeveloping and reinvigorating the MRA area; however, they have yet to achieve significant, lasting impact.

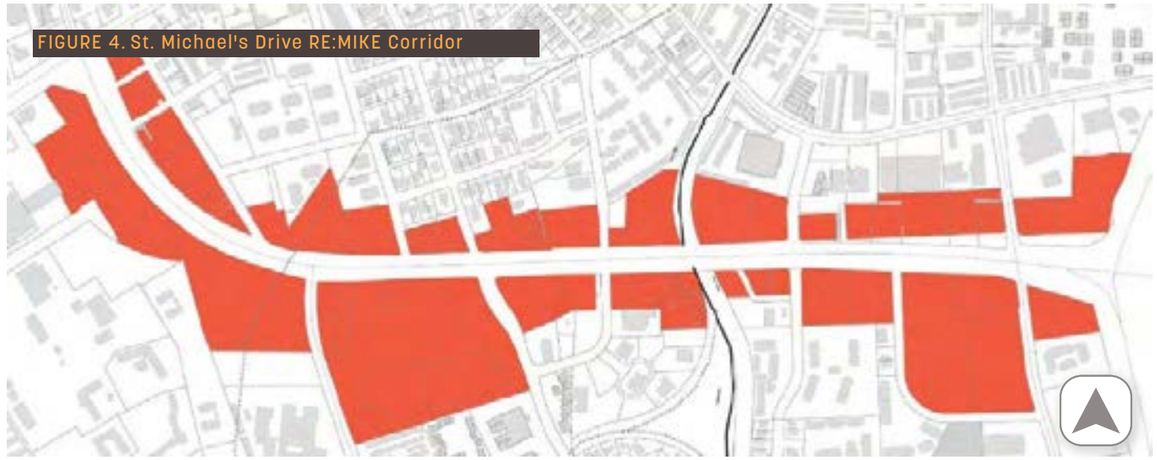
At the conclusion of each discussed plan, policy, or initiative, we provide a summary outlining how it addresses the MRA designation criteria or key takeaways if it does not. This is essential, as many previous planning efforts have already identified and attempted to address the same challenges highlighted in this designation report. Additionally, key takeaways from these past initiatives will help support the justification for the MRA designation.

RE:MIKE (2012)



The RE:MIKE Report outlines efforts to reimagine and revitalize the St. Michael's Drive Corridor in Santa Fe, aiming to transform it into a more vibrant, pedestrian-friendly, and economically diverse area. This initiative is a public-private partnership involving the City of Santa Fe, local businesses, educational institutions, and community organizations. It builds on previous studies and planning efforts, incorporating extensive data collection and urban prototyping.

The RE:MIKE initiative began in 2012 with a large-scale urban prototyping festival that engaged the public in shaping the future of the corridor. The event revealed strong community support for walkability, bicycle accessibility, safety improvements, zoning changes, and mixed-use development. The study identified key challenges, such as aging infrastructure, high traffic speeds, a lack of identity, and unsafe intersections.



Following the festival, the report proposed specific action items, including investigating city ownership of St. Michael's Drive, implementing zoning changes to encourage mixed-use development, fostering business engagement, adding green space through fixed and mobile parklets, developing a pop-up business ordinance, and improving the area's overall identity. There was also a focus on transportation safety enhancements, investment in public spaces, and the promotion of small businesses and cultural identity.

The recommendations aim to balance economic growth, sustainability, and livability, setting the stage for future redevelopment efforts that align with community values. While there was broad public support, improvements from RE:MIKE have not been implemented. These recomendations would contribute significantly to creating a mixed-use commercial corridor.

Design scenarios for St. Michael's Drive, based on Santa Fe arterial design standards (Streetmix)

ADDRESSING MRA CRITERIA

- ☑ **Deteriorated or Aging Infrastructure:** Many commercial properties along St. Michael's Drive feature large, aging buildings that are underutilized or in various states of decline. The corridor's suburban-style development pattern, dominated by vast parking lots, creates a fragmented urban fabric, discouraging walkability and vibrant economic activity.
- ☑ **Defective and Inadequate Street Layout:** St. Michael's Drive was originally built as a bypass highway in the 1950s, but as Santa Fe has grown, it has become an essential corridor for retail, transportation, and other business activity. However, it still retains its highway-like design, with seven lanes of traffic, dangerous intersections, and limited pedestrian access. This design increases the risk of collisions as drivers pull in and out of shopping centers. The area lacks effective multimodal transportation options, further isolating surrounding neighborhoods.
- ☑ **Faulty Lot Layout and Inefficient Land Use:** The corridor's strip mall development pattern and excessive parking requirements have created underutilized parcels with limited connection with surrounding neighborhoods. This inefficient land use makes it difficult to redevelop sites into more compact, mixed-use developments that would better serve the community and create much needed housing choices in the center of the city.
- ☑ **Deterioration of Public Spaces and Site Improvements:** Public spaces in the area lack investment, making them uninviting and underutilized. Surveys conducted as part of the RE:MIKE initiative show that residents view St. Michael's Drive as an area with "no identity" and "a place they avoid walking or spending time in" due to its car-centric nature and lack of engaging public amenities.
- ☑ **Decline of Commercial and Business Activity:** While St. Michael's Drive is a central commercial district, the dominance of large retail centers with little pedestrian access has discouraged economic diversification.
- ☑ **Lack of Adequate Housing Facilities:** The corridor lacks a sufficient mix of housing types, particularly affordable and workforce housing.

OVERLAY DISTRICT: MIDTOWN LINC ZONING OVERLAY (2016)

The Midtown LINC Overlay District was established through Ordinance #2016-39, which was adopted by the City of Santa Fe in 2016. The district was created to enhance connectivity and development in Santa Fe's midtown area, linking key employment centers such as Santa Fe University of Art and Design and Christus St. Vincent Regional Medical Center.

The overlay is a framework for revitalizing Santa Fe's midtown area, transforming underutilized spaces along western St. Michael's Drive into a vibrant, economically diverse district. The initiative encourages mixed-use development, improved urban design, and pedestrian-friendly infrastructure.

The district promotes multi-family residential development alongside complementary commercial uses, creating a dynamic, street-oriented environment. Updated zoning regulations increase development capacity while maintaining buffers for existing neighborhoods. Planned urban enhancements focus on pedestrian and bicycle accessibility, traffic calming measures, and expanded public spaces to improve mobility and safety.

To encourage investment, the city offers fee incentives for qualifying projects, waiving certain development and utility fees. Design standards prioritize four-story mixed-use buildings, street-facing architecture, and enhanced landscaping to foster a more cohesive urban fabric. Additional requirements for signage, bicycle parking, and green infrastructure ensure that new development contributes to a more connected and livable midtown. The Midtown LINC Overlay aligns with Santa Fe's broader goals for sustainable growth while preserving the city's unique character.

FIGURE 5. Midtown LINC Overlay District

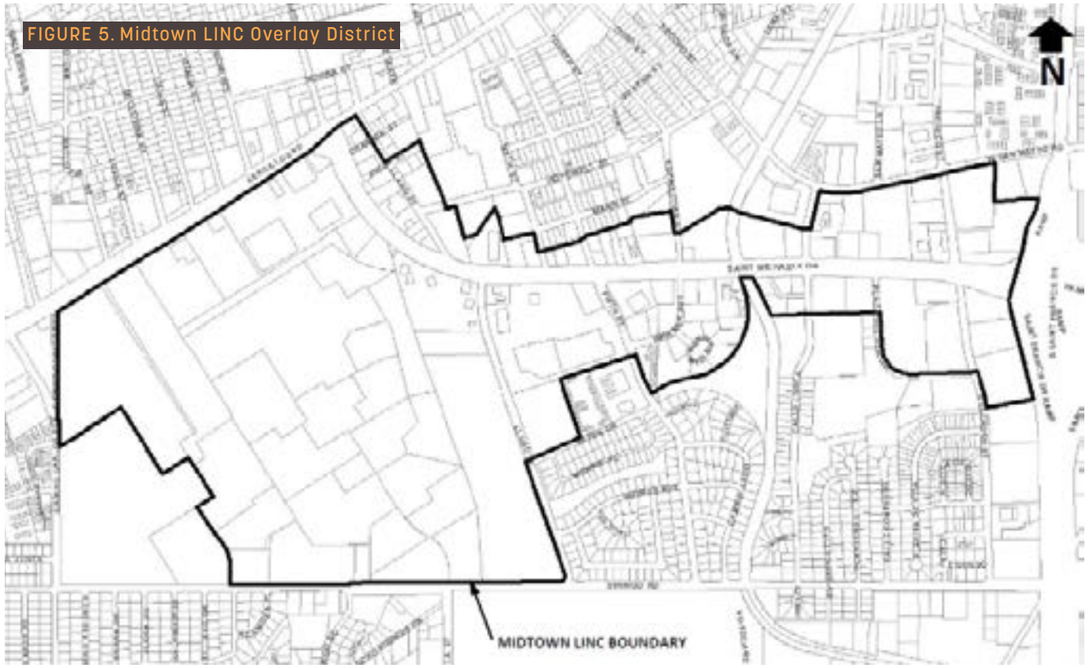


Image source: MIDTOWN LINC Summary Presentation (2017)

While there was broad public support for the LINC, there have not been qualifying projects that the LINC zoning intended to facilitate.

ADDRESSING MRA CRITERIA:

- ☑ Deteriorated or aging infrastructure: Several structures and public spaces within the corridor show signs of physical decline, limiting their usability and attractiveness for redevelopment.
- ☑ **Defective and inadequate street layout:** St. Michael's Drive and adjacent streets prioritize vehicular traffic, creating barriers to pedestrian and bicycle movement. The street design lacks adequate connectivity between key destinations and discourages mixed-use development.
- ☑ **Obsolete and impractical planning:** The existing zoning and development regulations in the Midtown area have historically favored single-use commercial developments, which have contributed to underutilization of land and inefficient site layouts.
- ☑ **Significant business closures and low commercial activity:** Economic stagnation is evident, especially within the Midtown site. This large site has experienced long-term vacancies and reduced activity, leading to declining tax revenues and community disinvestment.
- ☑ **Lack of adequate housing facilities:** The area has a lack of housing variety or housing choices in adjacent districts, particularly affordable and mixed-income housing, despite its proximity to major employment and institutional centers. This imbalance between jobs and housing options contributes to increased commuting and a reduced sense of community within the district.
- ☑ **Deterioration of public spaces and site improvements:** Public spaces lack consistent investment and maintenance, making them less inviting and underutilized by the community.

MIDTOWN REDEVLOPMENT PLANS

The Midtown Master Plan and Midtown Community Plan together create the Midtown Redevelopment Plan. These include both land use and urban design guidelines for the future of the Midtown Site. The blighted Midtown Site is key to improving and creating the economic resiliency of the adjacent commercial corridor and broader Midtown District.

MIDTOWN MASTER PLAN (2022)

The Midtown Master Plan, approved on November 30, 2022, provides a framework for the redevelopment of the Midtown Site in Santa Fe. This site, formerly home to the Santa Fe University of Art and Design (SFUAD) until its closure in 2018, represents a significant opportunity for business, housing, and cultural development in the city. The plan outlines a long-term vision driven by community input, prioritizing sustainability, economic vitality, and the creation of a mixed-use urban center.

The City of Santa Fe took control of the planning process in 2020. Since then, the city has worked with stakeholders to create a comprehensive strategy that balances housing affordability, job creation, transit improvements, and climate resilience. The plan promotes walkability, public spaces, and a variety of uses, including film and media production, arts and culture, and higher education.

KEY TAKEAWAYS

- ☑ The Midtown Site will serve as a new center for Santa Fe, integrating housing, employment, public spaces, and cultural institutions.
- ☑ Over 1,000 new housing units are planned, with a focus on affordability and accessibility.
- ☑ A pedestrian-friendly, mixed-use neighborhood is envisioned, encouraging walkability and sustainable design.
- ☑ Community Arts and Culture will be a major focus for economic and social viability.
- ☑ More than 5 acres of public parks and open spaces will enhance community engagement and recreation.
- ☑ The Midtown LINC Zoning Area, adopted in 2016, will guide redevelopment efforts and encourage higher-density mixed-use projects.
- ☑ Infrastructure improvements, including transit enhancements and multimodal connections, will support growth and mobility.
- ☑ The plan aligns with existing city policies and sustainability goals, aiming to create an equitable and environmentally responsible development.

MIDTOWN COMMUNITY DEVELOPMENT PLAN (2023)

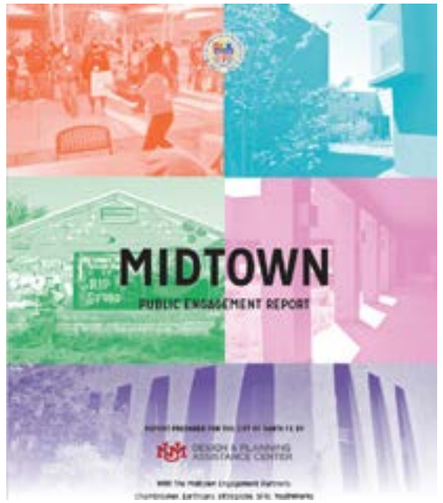
The Midtown Community Development Plan is a policy-driven framework designed to guide the redevelopment of the Midtown Site in Santa Fe. This plan was developed as part of the Midtown Master Plan and is utilized in conjunctions with the Midtown Master Plan to ensure that new development aligns with community priorities related to housing affordability, job access, arts and culture, and public amenities. It was created through an extensive public

engagement process that involved thousands of community members, emphasizing inclusivity, equity, and sustainability.

The plan outlines strategies to increase housing opportunities, expand public services, support economic development, and preserve cultural heritage. It sets clear expectations for community benefits that developers must incorporate into their projects. Additionally, the plan integrates sustainability initiatives such as green infrastructure, multimodal transportation improvements, and energy-efficient development standards to ensure a long-term, resilient future for the Midtown Site.

KEY TAKEAWAYS

- ☑ It encourages job creation, business innovation, and workforce training programs to support local employment.
- ☑ Community arts, cultural landmarks, and civic spaces will be preserved and enhanced to maintain Santa Fe's unique identity.
- ☑ Walkability, improved public transit access, and safe bicycle infrastructure are prioritized to enhance connectivity.
- ☑ Green building standards, integrated stormwater management, and energy-efficient design are required for sustainability.
- ☑ Clear guidelines ensure developers prioritize public amenities, workforce development, and long-term affordability.



ADDRESSING MRA CRITERIA:

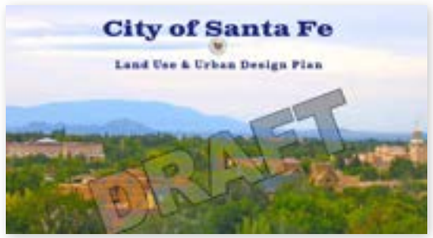
- ☑ **Deteriorated or Aging Structures:** Many buildings on the former Santa Fe University of Art and Design (SFUAD) campus have deteriorated due to prolonged vacancies and lack of maintenance. While some structures are suitable for adaptive reuse, others require significant investment to meet modern building standards. Demolition is expected to begin on some of the structures in the near future.
- ☑ **Defective and Inadequate Street Layout:** The existing street network prioritizes automobile traffic and lacks safe pedestrian and bicycle connections, making it difficult for residents to navigate the area without a vehicle. The street design fails to provide adequate connectivity between neighborhoods and key destinations such as Cerrillos Road, St. Michael's Drive, Siringo Road, and nearby employment centers.
- ☑ **Obsolete or Inefficient Land Use Planning:** The Midtown Site is a large, underutilized property in the heart of Santa Fe. Originally developed for institutional use, its current land use does not align with modern mixed-use urban development practices. The lack of higher-density housing, neighborhood-serving retail, and active public spaces has contributed to the area's economic stagnation.
- ☑ **Significant Business Closures and Low Commercial Activity:** Many commercial and institutional properties in the Midtown area remain vacant or underused, limiting economic growth and reducing local employment opportunities. The lack of reinvestment has weakened the area's economic vitality, creating an environment where businesses struggle to thrive.
- ☑ **Lack of Adequate Housing Facilities**: The Midtown redevelopment plans emphasize the need for additional housing, particularly affordable and workforce housing. The area does not currently provide sufficient residential options to support local employees, students, and artists who could benefit from living near emerging economic hubs.
- ☑ **Deterioration of Public Spaces and Site Infrastructure:** Many public spaces and streetscapes within the Midtown area are outdated, poorly maintained, or lacking entirely. The absence of high-quality parks, plazas, and gathering places discourages pedestrian activity and limits opportunities for community engagement.

MIDTOWN PUBLIC ENGAGEMENT REPORT (2022)

The Midtown Public Engagement Report documents the extensive community outreach process undertaken to shape the future of the Midtown Santa Fe site. Following the closure of the Santa Fe University of Art and Design in 2018, the City of Santa Fe launched the Midtown Redevelopment Process to engage residents, stakeholders, and organizations in envisioning a new purpose for the site. This effort aimed to gather diverse perspectives and inform development strategies that align with community needs, aspirations, and priorities.

The Midtown Public Engagement process reached a broad and diverse cross-section of Santa Fe residents through a variety of outreach methods. A total of 2,089 surveys were collected, providing valuable insights into community priorities and ensuring representation from different demographic and economic backgrounds. In addition to surveys, over 3,300 people participated in public meetings, tenant clinics, and food distribution events, fostering meaningful dialogue about the future of Midtown.

Beyond in-person engagement, the outreach campaign recorded over 20,000 points of contact through media campaigns, newsletters, canvassing, and digital platforms, expanding access to those who might not have attended events. The process successfully reflected Santa Fe's demographic diversity, with 53.6% of respondents identifying as Hispanic/Latinx, 24.8% as non-Hispanic White, and 10.9% as Indigenous. Economic diversity was also a key factor, with 67% of participants earning $55,000 or less annually, and a mix of homeowners (47.3%) and renters (42.4%), ensuring that housing needs were a central focus of the discussions.



The purpose of this report was to synthesize public input into actionable development guidelines for the Midtown area and informed

the final master plan and recommendations. The engagement process prioritized themes such as housing, economic development, public spaces, sustainability, and transportation. By integrating these community-driven insights, the city sought to ensure that redevelopment efforts foster equity, cultural preservation, economic opportunity, and environmental responsibility.

ADDRESSING MRA CRITERIA:

- ☑ **Deteriorated or Underutilized Structures:** The Midtown Public Engagement Report identifies multiple vacant or deteriorating buildings on the former Santa Fe University of Art & Design (SFUAD) campus. Residents voiced concerns about abandoned buildings contributing to safety issues, lack of activation, and visual blight.
- ☑ **Defective and Inadequate Street Layout:** The current street network prioritizes vehicles over pedestrians, creating safety concerns and discouraging walkability. The report highlights the need for multimodal transportation improvements, such as safer intersections, expanded bike lanes, and improved public transit access. Community members repeatedly raised concerns about difficult pedestrian crossings, missing sidewalks, and the absence of transit options that connect Midtown to other parts of the city.
- ☑ **Obsolete or Inefficient Land Use Planning:** The existing land use pattern in Midtown is outdated, originally designed for institutional and commercial purposes rather than the mixed-use, high-density development needed today. The report identifies large underutilized parcels and restrictive zoning as key barriers to redevelopment. Residents expressed frustration that the area feels disconnected from surrounding neighborhoods, lacks essential services like grocery stores, and does not support a vibrant, mixed-use environment.
- ☑ **Decline of Commercial and Business Activity**: The report highlights a significant decline in commercial activity, with many properties either vacant or underutilized, limiting job opportunities and economic growth. Community members noted the loss of local businesses and the difficulty of attracting new investment. The need for small business support and zoning flexibility was a recurring theme in public engagement efforts .
- ☑ **Lack of Adequate Housing Facilities:** Midtown's shortage of affordable and workforce housing is a major challenge identified in the report. Despite its proximity to major employers, the area lacks sufficient housing options, leading to displacement and long commutes for workers. The community strongly emphasized the need for diverse housing options, including affordable units and mixed-income developments .
- ☑ **Deterioration of Public Spaces and Site Infrastructure:** The report identifies a lack of investment in public spaces, with outdated or underutilized parks and civic spaces. Community members consistently voiced the need for more parks, gathering spaces, and cultural centers to create a more welcoming and vibrant Midtown.

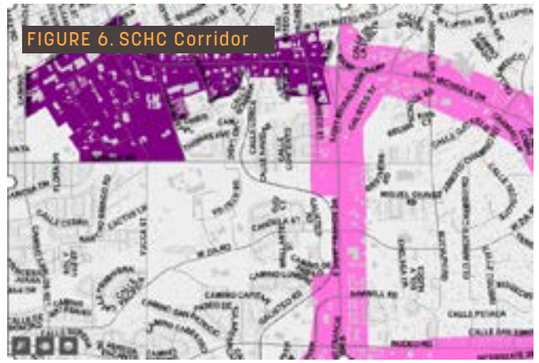
CITY OF SANTA FE LAND USE & URBAN DESIGN PLAN (1999)

The City of Santa Fe Land Use & Urban Design Plan serves as a comprehensive framework for guiding urban development, ensuring that growth is sustainable, efficient, and aligned with the city's cultural and environmental priorities. The plan establishes policies to promote a compact urban form, support mixed-use development, and preserve Santa Fe's historic character while addressing economic development, housing affordability, and transportation improvements. It emphasizes the importance of infill development, higher residential densities, pedestrian connectivity, and alternative transportation options, all while maintaining the city's unique identity and sense of place.

Originally adopted in 1999, the plan was designed to provide long-term guidance for land use and urban growth management. Currently, the City of Santa Fe is in the process of updating the plan to better address modern challenges, including sustainability, climate adaptation, and economic diversification. This plan update involves community engagement, policy revisions, and new strategies to ensure that development continues to align with the city's long-term vision.

The 1999 plan does not address the Midtown District because, at the time it was drafted, the area was still an active school.

KEY TAKEAWAYS



- ☑ The City of Santa Fe Land Use & Urban Design Plan was developed before targeted planning initiatives aimed at revitalizing this area. The current plan update will incorporate community goals and long-range planning efforts established since its 1999 adoption.

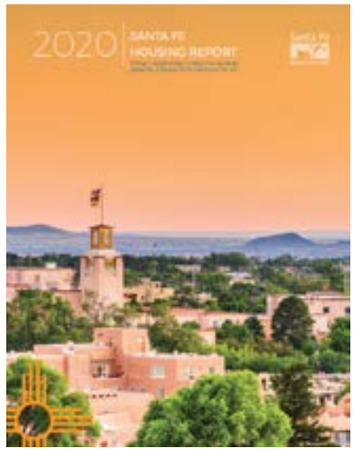
OVERLAY DISTRICT: SOUTH-CENTRAL HIGHWAY CORRIDOR PROTECTION DISTRICT (SCHC)

The South-Central Highway Corridor Protection District (SCHC) overly applies to a small portion of the MRA. The overlay encompasses land within 600 feet of the edge of the right-of-way on both sides of St. Michael's Drive, Old Pecos Trail, St. Francis Drive, Rodeo Road, and Interstate 25 and its frontage roads.

This designation aims to preserve the scenic quality and manage development along these corridors. The SCHC imposes specific regulations on land use, density, and design to maintain the visual appeal and character of these areas. For instance, there are increased minimum building setbacks.

FIGURE 6. SCHC Corridor

KEY TAKEAWAYS



- ☑ Public input strongly emphasized the need for affordable and diverse housing options, ensuring long-term affordability and minimizing displacement risks.
- ☑ Economic development is a key focus, with a strong push for job creation, small business support, and workforce training programs to strengthen the local economy.
- ☑ Residents prioritized preserving historical and cultural assets, enhancing public parks, open spaces, and civic amenities to foster a sense of community.
- ☑ Sustainability remains a central theme, with recommendations for green building standards, integrated stormwater management, and climate-conscious urban design.
- ☑ Mobility and connectivity improvements will support walkability, bike access, public transit expansion, and safer pedestrian infrastructure, ensuring a well-connected and accessible Midtown district.

SANTA FE HOUSING REPORT (2020)

The 2020 Santa Fe Housing Report provides a comprehensive analysis of Santa Fe's housing market, affordability challenges, and policy recommendations. It emphasizes the need for increased housing supply, improved affordability measures, and stronger policies to address displacement risks. The report highlights that Santa Fe faces rising housing costs, stagnant wages, and a growing demand for affordable units, making housing one of the most pressing issues in the city.

A key focus is on the Midtown District, which presents an opportunity for mixed-use, high-density development that can alleviate housing pressures. The report discusses strategies such as inclusionary zoning, leveraging public land for affordable housing, and mixed-income housing models to ensure long-term affordability.

The Midtown site, given its central location and size, is identified as a prime area for addressing housing needs through strategic urban planning.

ADDRESSING MRA CRITERIA:

- ☑ **Lack of Adequate Housing Facilities:** The 2020 Housing Report identifies a severe shortage of affordable and workforce housing in Santa Fe, limiting accessibility for low- and moderate-income residents. The city fails to provide sufficient housing to meet demand, leading to displacement risks and long commutes for many workers. The report also notes that without intervention, new development in Santa Fe could further exacerbate affordability issues, pricing out existing residents
- ☑ **Efficient Land Use Planning:** Midtown is identified as a prime location for mixed-use and high-density development, yet existing zoning and infrastructure are not conducive to such growth. The report calls for zoning and policy changes to promote mixed-income housing, integrate public spaces, and create a more walkable, transit-friendly environment.

B. LAND USE AND ZONING

EXISTING LAND USES (COMMERCIAL, RESIDENTIAL, MIXED-USE).

Outside of the Midtown site, the majority of the MRA is occupied by commercial uses. The land use of the area is defined by retail, light office and light industrial. The retail in this area is a mixture of small pad sites and large shopping centers. The entire area is defined by large, underutilized parking lots and buildings that are set back significantly from the adjacent street. There is a lack of connectivity between and among the parcels in the MRA. This area lacks a cohesive identity or character and is autocentric.

ZONING ANALYSIS (POTENTIAL FOR REDEVELOPMENT UNDER CURRENT ZONING).

The current zoning, primarily commercial, limits the redevelopment potential of this area. The Cerrillos section of the LINC was planned prior to 2016 and could not prioritize mixed-use or best practices, giving it a strip mall appearance. Future zoning should allow a mix of uses to encourage the development of walkable, mixed-use, transit-oriented areas desired, as articulated by community stakeholders. Specifically, higher density housing should be encouraged to redevelop commercial areas into vibrant mixed-use and walkable activity centers.

SOUTH-CENTRAL HIGHWAY CORRIDOR PROTECTION

A small portion of the MRA overlaps with the South-Central Highway Corridor Protection District overlay. Provisions include building height limitations to maintain the visual character of the corridor. The SCHC also imposes design standards to ensure that new developments or alterations harmonize with the existing landscape and architectural character of the corridor. Where overlay districts overlap, the most strict requirements prevail.

LINC OVERLAY DISTRICT

The Midtown LINC Overlay District prioritizes higher-density housing, economic activity, multimodal transportation, and sustainability. The incentives and design standards aim to transform St. Michael's Drive into a dynamic and attractive corridor, encouraging private investment while ensuring community benefits.

The district allows for a variety of uses consistent with underlying zoning, with additional permitted uses of multiple-family housing. Certain uses are prohibited to maintain the district's character, including mobile homes, mobile home parks, sexually oriented businesses, outdoor storage of vehicles and equipment, and specific industrial activities like warehouse and freight movement.

To encourage development that aligns with the district's objectives, the Midtown LINC Overlay District defines "qualifying projects" those that contribute to a mixed-use, pedestrian-friendly environment. Qualifying Residential Projects include new developments consisting solely of multiple-family dwellings or mixed-use projects where residential units serve as the primary use, supported by eligible non-residential components. Qualifying Non-Residential Projects encompass new developments or modifications to existing structures intended for designated commercial and industrial uses, such as research laboratories, light assembly and manufacturing spaces (including "maker" spaces), neighborhood grocery stores, and laundromats, ensuring a balanced mix of residential and economic activity in the district.

Projects in this overlay district also have to adhere to specific architectural and landscaping standards to improve the overall appeal of the district.

VACANT OR UNDERUTILIZED PROPERTIES

While most of the properties in the area are occupied, many of them are underutilized. The large parking lots fronting many of properties are rarely if ever full. The land value of this centrally located district could support a greater diversity of uses. In a city with such a shortage of housing, the large parcels could support the development of a variety of housing units.

D. PHYSICAL CONDITIONS

City of Santa Fe MRA staff performed an assessment of the Study Area in February 2024 to document physical conditions. This report summarizes findings for the LINC and the Midtown Site separately, as conditions are very different. The assessment demonstrates that the properties included in the Study Area exhibit a combination of factors that contribute to the lack of redevelopment, as defined by New Mexico State Statute 3-60A.1-41, 1978.

MIDTOWN LINC:

The Midtown LINC Overlay District exhibits significant challenges related to land use, transportation, infrastructure, and economic activity, many of which align with the criteria for Metropolitan Redevelopment Area (MRA) designation. Originally developed with a suburban, car-oriented layout, the corridor has struggled to transition into a walkable, mixed-use urban district. Despite incentives introduced through the LINC Overlay in 2016, there has been no new residential development in the area, and underutilized properties, deteriorating infrastructure, and high crime rates persist.

ADDRESSING MRA CRITERIA:

- ☑ **Deteriorated or Underutilized Structures:** Many buildings within the LINC were constructed 30 to 40 years ago as large-lot strip malls and big-box retail centers. Over time, some have been subdivided into standalone properties surrounded by expansive parking lots, while others remain vacant or underutilized.
- ☑ **Defective and Inadequate Street Layout:** St. Michael's Drive was originally designed as a two-lane bypass highway in the 1950s and later widened in the 1970s. Today, it is one of Santa Fe's busiest streets, carrying 25,000–30,000 vehicles per day across a seven-lane roadway (six through lanes plus a center turn lane). The street lacks bike lanes, mid-block pedestrian crossings, street trees, and adequate public transit infrastructure, making it unsafe and uninviting for pedestrians and cyclists. The City of Santa Fe has formally recognized these deficiencies and, in a March 28, 2022 memo to NMDOT, proposed reducing lanes and implementing multimodal safety improvements.
- ☑ **Faulty Lot Layout and Infrastructure Deficiencies:** The LINC area consists of large commercial properties with individual curb cuts onto St. Michael's Drive, few shared access points, and no internal connectivity between parcels. If a driver misses an entrance, they must exit onto a neighborhood street and loop back, or park at a separate business and navigate through poorly maintained landscaping and parking lots. Several properties are isolated by surrounding parcels, with no viable cross-access for pedestrians or vehicles. Parking lots dominate the landscape, yet they remain underutilized and many are in poor condition with potholes, poor drainage, and failing pavement.
- ☑ **Deterioration of Public Spaces and Site Improvements:** Many properties feature planter strips that are either poorly maintained, overgrown, or dead. Several sidewalks are impassable due to overgrown landscaping, while bus stops lack proper shelters. No street trees exist along the corridor, as the entire planter strip was paved over when the State transferred St. Michael's Drive to the City of Santa Fe in 2018.
- ☑ **Decline of Commercial and Business Activity:** Many commercial properties within the LINC are vacant or struggling, contributing to a high percentage of underutilized parcels. The LINC Overlay was originally established to incentivize redevelopment, particularly multi-family housing, but no new residential development has occurred since its adoption in 2016.
- ☑ **Lack of Adequate Housing Facilities:** The LINC area is zoned C-2 General Commercial, allowing multi-family housing with no density cap, yet no housing projects have been proposed due to outdated infrastructure, high costs of redevelopment, and poor pedestrian connectivity. Large vacant parcels within the Midtown Project Site and along Warner Avenue remain undeveloped, limiting opportunities for much-needed workforce housing.
- ☑ **High Crime Rates:** The Midtown LINC area represents just 1.7% of Santa Fe's total land area, yet between January and May 2022, it accounted for 7.4% of the city's total reported crimes. Crime incidents include property crime, vandalism, and safety concerns, which further discourage investment and walkability in the corridor.

MIDTOWN SITE: THE KEY TO THE OVERALL ECONOMIC SUCCESS, RESILIENCY, AND SUSTAINABILITY OF THE MIDTOWN DISTRICT

The Midtown Santa Fe Site was originally developed as a sprawling educational campus, with large, irregular parcels that do not easily accommodate new development or redevelopment under modern mixed-use planning principles. The Midtown Master Plan, Community Development Plan, and Land Development Plan collectively identify multiple structural, infrastructure, and land use deficiencies, aligning with the Metropolitan Redevelopment Area (MRA) designation criteria under the New Mexico Metropolitan Redevelopment Code.

ADDRESSING MRA CRITERIA:

- ☑ **Deteriorated or Underutilized Structures:** The 2022 facility assessment by Wilson & Company found that many buildings on the Midtown site are structurally deficient, outdated, or in disrepair due to age, disuse, and obsolete building systems. Asbestos remediation is needed across multiple structures, adding to redevelopment costs. Of the 38 existing buildings, 10 are slated for demolition, 13 for short-term reuse before demolition, and 15 for rehabilitation. The former dormitories are not viable for conversion to modern residential use due to narrow hallways, shared bathrooms, and outdated building standards.
- ☑ **Faulty Lot Layout and Inefficient Land Use:** The site's original subdivision layout, designed for an educational campus, does not align with mixed-use redevelopment needs. Some parcels are so large and irregular that they hinder infill development. One 22+ acre parcel contains at least 17 buildings and spans the entire site. Currently, only 7.74% of the land is built upon, with 20 acres of completely vacant parcels. Until 2022, the site lacked master planning and remained zoned R-5 Residential, which was unsuitable for redevelopment. The recent Planned Unit Development (PUD) zoning and master planning efforts are expected to improve development feasibility.
- ☑ **Defective and Inadequate Street Layout:** The Midtown Site is isolated from surrounding areas, with only two access points—one at St. Michael's Drive and one at Siringo Road. The St. Michael's Drive entrance lacks a traffic signal, making left turns difficult and unsafe during peak hours. While the Siringo Road entrance is signalized, overall connectivity to the surrounding street network is inadequate. The Midtown Master Plan proposes a new internal street network, but implementation will require significant investment and collaboration with adjacent property owners to create pedestrian, bike, and road connections.
- ☑ **Deterioration of Public Spaces and Environmental Hazards:** The remains of the former barracks on Tract O—burned down in a 2017 fire—were razed, covered with topsoil, and fenced off, but the site still contains asbestos-based materials and underground cementitious pipes. A basic 12-inch surface remediation alone is expected to cost at least $2.3 million.
- ☑ **Lack of Adequate Housing Facilities:** As a former college campus, the only housing that ever existed on the site was dormitory housing, which is unsuitable for modern residential use due to outdated building codes and lack of essential amenities like kitchens. However, with the adoption of the Midtown Master Plan in 2022-2023, the site is now planned for at least 1,100 new housing units, with a minimum of 30% designated as affordable housing for households earning 80% or less of the Area Median Income (AMI).

E. ECONOMIC CONDITIONS

RETAIL AND COMMERCIAL MARKET TRENDS

The Midtown Redevelopment Area has historically experienced higher vacancy rates, fluctuating rents, and lower occupancy compared to Santa Fe's overall office and retail markets. However, recent trends indicate a stabilization in demand, with significant improvements in occupancy rates and reductions in vacancies. While the broader Santa Fe market has demonstrated steady growth, the MRA area remains a more volatile submarket, characterized by lower rental rates and a price-sensitive tenant base. This section examines key trends in office and retail markets within the MRA area in comparison to Santa Fe's overall market performance.

OFFICE MARKET COMPARISON: MRA AREA VS. SANTA FE (2017-2024)

Vacancy Rate Trends: The MRA area saw extreme volatility in office vacancies, peaking at 20% in 2014, compared to 8.2% in the City. By 2024, the MRA's vacancy rate dropped to 0%, indicating a strong recovery.

Occupancy Rate Trends: The MRA's occupancy rate was as low as 80% in 2014-2015, lagging behind the overall market, which consistently remained above 95%. However, the MRA rebounded to 100% occupancy in 2024, suggesting stabilization.

Net Absorption Trends: The MRA had major negative absorption (-52,257 SF in 2018) but recovered with positive absorption in 2019 and 2024. Santa Fe's overall market also experienced fluctuations, notably -81,826 SF in 2020, during the economic downturn.

Office Rent Trends: The overall market saw steady rent growth, reaching $23.68/SF in 2024 from $17.07/SF in 2016. The MRA's office rents have been highly inconsistent, with rates ranging from $24.07/SF in 2022 to as low as $7.13/SF in 2024, suggesting weaker demand and a less stable office environment.

RETAIL MARKET COMPARISON: MRA AREA VS. SANTA FE (2017-2024)

Vacancy Rate Trends: Santa Fe's retail vacancy rate declined steadily from 6.3% in 2013 to 2.3% in 2024, reflecting strong demand. The MRA area had a much higher peak vacancy of 14.8% in 2013 but has since fallen to 1.6% in 2024.

Occupancy Rates: Both markets maintain high occupancy, with Santa Fe at 97.7% and the MRA slightly higher at 98.4% in 2024.

Net Absorption Trends: Santa Fe saw significant fluctuations, particularly in 2024 (-129,935 SF). The MRA also experienced volatility, with negative absorption in 2023 (-13,551 SF) but a rebound in 2024 (+4,266 SF).

Retail Rent Trends: Santa Fe's retail rents have increased to $19.15/SF in 2024, while the MRA area has struggled with lower, more volatile rents, ranging from $13.09/SF in 2013 to $8.23/SF in 2020, before rising to $15.90/SF in 2024.

KEY TAKEAWAYS

- ☑ Office rents in the MRA remain far below Santa Fe's overall market, suggesting weaker demand and less desirable space.
- ☑ Retail rents in the MRA are similarly lower than Santa Fe's average, despite increasing occupancy, indicating potential economic challenges or slower retail growth.
- ☑ The MRA area has been more volatile, with significant swings in vacancy, absorption, and rents, compared to Santa Fe's overall steady market trends.
- ☑ Despite lower rents, vacancy rates in the MRA are now at historic lows, meaning spaces are being utilized, even if at lower price points.
- ☑ While the MRA has shown recent stabilization, it remains a transitioning area, requiring further investment and strategic initiatives to ensure long-term stability and competitiveness.
- ☑ The data suggests that while demand for office and retail space in the MRA area is improving, continued investment, economic incentives, and tenant attraction strategies will be crucial for ensuring the district's long-term success.
- ☑ The MRA area has historically had higher vacancy rates and lower occupancy than the overall market but has made significant improvements in recent years.

CONCLUSION

The Midtown Metropolitan Redevelopment Area (MRA) in Santa Fe has been designated to address a range of challenges that have hindered its economic growth, livability, and development potential. The findings in the MRA Designation Report highlight several conditions that meet the criteria for an MRA designation under the New Mexico Metropolitan Redevelopment Code. By implementing a comprehensive revitalization strategy, the City of Santa Fe aims to transform Midtown into a dynamic, mixed-use district that fosters economic development, enhances mobility, and supports diverse housing opportunities.

RESPONDING TO THE MRA CRITERIA

A substantial number of deteriorated or deteriorating structures negatively impact the area's livability and economic potential.

- ☑ *Many structures in the Midtown area are underutilized, outdated, or deteriorating, making them unattractive for reinvestment.*
- ☑ *Large commercial properties, particularly along St. Michael's Drive, feature extensive parking lots and aging buildings that lack pedestrian connectivity and modern amenities.*

A defective or inadequate street layout that limits accessibility, walkability, and connectivity.

- ☑ *The Midtown area, particularly St. Michael's Drive, was originally designed for high-speed vehicular traffic rather than for pedestrians, cyclists, or transit users.*
- ☑ *The wide road, large setbacks, and disconnected parcels create barriers to walkability and safe transportation alternatives.*

Faulty lot layout that reduces the usefulness, accessibility, or redevelopment potential of properties.

- ☑ *The corridor is dominated by suburban-style strip malls and big-box retail centers with excessive surface parking, resulting in underutilized land that does not support a vibrant, mixed-use environment*
- ☑ *The lack of a cohesive development pattern has limited opportunities for housing and commercial revitalization.*

Deterioration of sites or other improvements, making the area less viable for new development.

- ☑ *Public spaces in the Midtown area are outdated and underutilized, failing to provide inviting, functional spaces for community engagement.*
- ☑ *Green infrastructure, parks, and pedestrian-friendly streetscapes are lacking, contributing to an unwelcoming environment.*

A lack of adequate housing facilities or conditions that prevent the provision of needed housing accommodations.

- ☑ *Despite its central location, the Midtown district lacks diverse and affordable housing options.*
- ☑ *The demand for mixed-income housing remains unmet, pushing workers and lower-income residents to live farther from their jobs and increasing commuting burdens.*

Obsolete or impractical planning and platting, leading to underutilized land and inefficient land use.

A significant number of vacant buildings, reducing economic activity and job opportunities.

- ☑ *The Midtown property specfically has suffered from high vacancy rates, with redevelopment struggling to remain viable due to outdated infrastructure, low foot traffic, and limited accessibility.*
- ☑ *Economic stagnation and disinvestment have further contributed to job losses and underutilization of properties.*

Low levels of commercial or industrial activity, contributing to economic stagnation and disinvestment.

- ☑ *The Midtown area has seen declining levels of investment over the past decade, limiting economic opportunities for local businesses and workers.*
- ☑ *The lack of incentives and infrastructure improvements has made it difficult to attract new businesses and industries.*

Through the MRA designation the City of Santa Fe can unlock key funding sources, attract private investment, and improve public infrastructure—creating new jobs, enhancing walkability, and expanding housing options.

This MRA designation aligns with the Midtown Master Plan and community input to ensure thoughtful, sustainable redevelopment. With strategic public-private partnerships and financial tools like tax incentives and infrastructure investments, the MRA will move Midtown into motion, fostering an inclusive, thriving district for all Santa Fe residents.

BENEFITS OF AN MRA DESIGNATION AND MRA PLAN

The MRA Designation allows for the contribution of Public Resources to Private Redevelopment projects, thereby helping catalyze reinvestment in the area.

The MRA Plan will outline specific redevelopment projects and activities and focus on unlocking critical opportunities, such as:

INCENTIVES FOR PROPERTY OWNERS - MRAs allow municipalities to offer incentives to property owners to encourage private investment. These incentives can include direct contributions of public funds, infrastructure improvements, below-market leases, land swaps, zoning changes, and favorable development bonds.

PUBLIC-PRIVATE PARTNERSHIP OPPORTUNITIES - MRAs allow property owners to engage with local governments in projects that involve the contribution of public funds to the redevelopment of private property. This also includes entering into development agreements to redevelop underutilized public properties.

DISTRICT-WIDE PUBLIC IMPROVEMENTS - MRAs allow for the effective planning and construction of public infrastructure and right-of-way improvements including streetscaping, transit-oriented development, stormwater management, and utility upgrades. It allows the municipality to contribute public resources to infrastructure upgrades that benefit private landowners, including waiving fees.

INCREASED COMMERCIAL ACTIVITY AND JOB GROWTH - Through the designation and planning for MRAs, many communities attract and grow commercial activity in an area, leading to long-term redevelopment and a stronger local business market.

TAX INCENTIVES & FINANCING TOOLS - A municipality may offer tax abatements and/or establish a Tax Increment Financing District (TIF) or Tax Increment Development District (TIDD). The municipality may also issue MRA Bonds for private projects. These tools do not change or increase taxes. Other available financing tools include:

- *Property Tax deferrals or credits*
- *Issuance of Revenue Bonds*
- *State/Federal Brownfield funding opportunities*

- *NMMFA Low-Income Housing Tax Credits bonus points*
- *CDBG Funding eligibility (without meeting LMI criteria).*

FACILITATE PUBLIC PRIVATE PARTNERSHIPS - MRAs are exempt from the Anti-Donation Clause because the activities authorized by the Metropolitan Redevelopment Code are considered to be in the public interest. MRAs allow local governments to sell public assets, enter into public-private partnerships, and issue bonds, loans, and grants. Other perks include:

- *Allows the sale of public property at "fair value" (below appraisal) when there are tangible public benefits through Development Agreements*
- *No prohibition on "Retail Uses" as exists in LEDA (>10,000 pop)*
- *"3-60A-48. Liberal Interpretation: The Metropolitan Redevelopment Code shall be liberally construed to carry out its purposes." Gives municipality discretion on how to best leverage MRA district opportunities.*

NEXT STEPS

After the MRA site is designated, a MRA plan will be created. Following the MRA Designation Report, an MRA Plan will be created, which will identify specific redevelopment projects that, when implemented, will eliminate the blighted conditions and stimulate economic activity. These projects can include land/building acquisition, multi-modal transportation infrastructure, stormwater management infrastructure, community facilities, housing, and public places.

The MRA planning effort will include a market and economic analysis to understand the opportunities associated with funding mechanisms and programs, such as tax increment financing, and link the MRA Plan's goals and strategies to those opportunities.

The governing municipality, in this case, the City of Santa Fe, has full discretion on which of these incentives the City uses and prioritizes to implement the MRA Plan. These decisions will be made during the planning process with public engagement and in collaboration with City departments and elected officials.

Summary:
The proposed resolution makes a finding of necessity and designates the Midtown Local Innovation Corridor Overlay District (the Midtown "LINC"), other than a small residential area, as a Metropolitan Redevelopment Area, as consistent with SFCC 1987, Section 7-2.8 and NMSA 1978, Section 3-60A-8. The boundaries of this overlay district are described in SFCC 1987, Section 14-5.5(5)(D)(2), "Midtown Local Innovation Corridor (Midtown LINC) Overlay District", as modified in Attachment B.

Departments Affected:
Community Development (Office of Economic Development and Metropolitan Redevelopment Agency)

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the specified area in the Midtown LINC, will not be declared a metropolitan redevelopment area.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Ordinance No. 2016-39 created a new subsection of Chapter 14, the "Midtown Local Innovation Corridor Overlay District" (14-5.5(D)), which established permitted uses, definitions, standards and incentives for qualifying projects within the relevant district. This ordinance also defined the boundaries of the Midtown LINC.

Performance and Administrative Implications:
If the proposed resolution is adopted, then the Metropolitan Redevelopment Commission could exercise its powers and duties established in SFCC 1987, Section 7-2.6.

Fiscal Implications:
None at this time. While designating a metropolitan redevelopment area is a step towards being able to exercise certain redevelopment financial tools, future steps are required to implement the tools. Future required steps include the Governing Body's adoption of a metropolitan redevelopment plan, before a fiscal impact is possible.

RESOLUTION NO. 2025-__

INTRODUCED BY:

Mayor Alan Webber

Councilor Jamie Cassutt

Councilor Amanda Chavez

RED – AMENDMENT A – Councilor Michael Garcia

A RESOLUTION

MAKING A FINDING OF NECESSITY AND DESIGNATING AN AREA COMPRISED OF A MAJORITY OF THE MIDTOWN LOCAL INNOVATION CORRIDOR OVERLAY DISTRICT AND GENERAL FRANKLIN E. MILES PARK AS A METROPOLITAN REDEVELOPMENT AREA.

WHEREAS, the New Mexico Legislature adopted a Metropolitan Redevelopment Code to, among other things, provide strategies for municipalities to finance redevelopment projects; and

WHEREAS, SFCC 1987, Section 7-2.3 provides that the City of Santa Fe ("City") can declare and designate a metropolitan development area as "appropriate for a metropolitan development project"; and

WHEREAS, SFCC 1987, Section 7-2.8**,** provides that, in order to designate an area as a metropolitan redevelopment area, the City must first adopt a resolution establishing the following two criteria: 1) the area is either a slum or blighted; and 2) rehabilitation, conservation, slum clearance, redevelopment or development, or a combination thereof in the area is necessary in the interest of the public health, safety, morals, or welfare of the residents of the city; and

WHEREAS, the Midtown Local Innovation Corridor Overlay District (the "LINC")

consists of diverse tracts of land which, according to a study commissioned by the City, the *Midtown Metropolitan Development Plan: Designation Report,* Attachment A, is characterized by deteriorated or deteriorating structures, defective or inadequate street layout, faulty lot layout, deterioration of sites or other implements, a lack of adequate housing facilities, obsolete or impractical platting, and a significant number of vacant or struggling commercial businesses, all of which are inconsistent with the described goals in SFCC 1987, Section 14-1.3 of the land-use code, to "create conditions favorable to the health, safety, convenience, prosperity and general welfare of the residents of Santa Fe by coordinating streets within proposed subdivisions with existing or planned streets or other features of the general plan; providing parks and trails; providing sewer, water and other infrastructure; providing adequate open space for traffic, recreation, drainage, light and air; and providing for the appropriate distribution of population and traffic"; and

WHEREAS, the LINC lies within two designated census tracts, 11.03 and 10.02, which as defined in 26 USCA § 1400Z–1, are "qualified opportunity zones": distressed areas, identified by the federal government as needing targeted investment in economic development; and

WHEREAS, the purpose of identifying opportunity zones was to spur economic development and job creation in distressed communities by providing tax benefits to investors; and

WHEREAS, the economically challenging conditions in these census tracts have impaired the sound growth, development, and economic well-being of the City, creating an economic and social burden detrimental to the public health, safety, and welfare of the City; and

WHEREAS, the LINC includes a multi-unit residential property, more specifically described as the area covered by Lot 3B1**,** as recorded in instrument number 1171143, Book 482, Page 35, of the Santa Fe County Clerk ("Multi-Unit Residential Property"); and

WHEREAS, as the only residential property in the LINC, the Multi-Unit Residential Property's interests and needs are distinct from the rest of the LINC; and

WHEREAS, General Franklin E. Miles Park, recorded in instrument number 622,332,

Book 173, Page 27, filed on May 14, 1987, of the Santa Fe County Clerk ("Franklin Miles Park"), is adjacent to the LINC ; and

WHEREAS, Franklin Miles Park has irrigation infrastructure that is over thirty years old and past its life expectancy; ballfield light poles that have either already been removed due to deteriorating infrastructure or will need to be removed in the future due to deteriorating infrastructure; chronic presence of drug paraphernalia (such as syringes) left by drug users; and rodent damage to concession stands, restrooms, wiring, and irrigation; and

WHEREAS, Franklin Miles Park's conditions are consistent with the definition of "blight" established in SFCC 1987, Section 7-2.3; and

WHEREAS, the *Midtown Metropolitan Development Plan: Designation Report* notes on page 15 that the "absence of high-quality parks, plazas, and gathering places discourages pedestrian activity and limits opportunities for community engagement" and rehabilitating the park would help address this concern.

NOW, THEREFORE, BE IT RESOLVED THAT THE GOVERNING BODY OF THE CITY OF SANTA FE finds that a blighted area exists in the LINC, depicted in Attachment B, and the rehabilitation, conservation, and redevelopment of the area is necessary and is in the interest of the public health, safety, and welfare of the residents of the City of Santa Fe.

BE IT FURTHER RESOLVED that a blighted area exists in Franklin Miles Park, depicted on in the southwest corner of Attachment B, and which is adjacent to the LINC, and the rehabilitation, conservation and redevelopment of the park is necessary and is in the interest of the public health, safety, and welfare of the residents of the City of Santa Fe.

BE IT FURTHER RESOLVED that the area within the LINC, defined by SFCC 1987, Section 14-5.5D (2), other than the Multi-Unit Residential Property and Franklin Miles Park, ~~is~~ are designated a Metropolitan Redevelopment Area, pursuant to SFCC 1987, Section 7-2.8, and NMSA 1978, Section 3-60A-8.

RE: Acceptance of Loan and Grant Funding from New Mexico Water Trust Board in the amount of $5,500,000 for the Nichols Dam Repair Project, WPF-6316

EXECUTIVE SUMMARY:

The proposed bill would authorize the execution and delivery of both a Water Project Fund loan as well as a grant between the New Mexico Finance Authority ("NMFA") and the City of Santa Fe ("City') in the total amount of five million, five-hundred thousand dollars ($5,500,000) for the purpose of financing the cost of repairs to the Nichols Dam outlet conduit. Additionally, the bill specifies that the loan, in the amount of two million, two-hundred thousand dollars ($2,200,000), and the grant, in the amount of three million, three-hundred thousand dollars ($3,300,000) would be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). Pursuant to the loan debt, the bill pledges that the City would repay the loan amount and the associated administrative fee solely from the net revenues of the City's water utility enterprise fund.

BACKGROUND:

The goal of the Nichols Dam Repair Project is to repair the outlet conduit and upgrade the dam safety rating to satisfactory. Specific repairs to Nichols Dam include the sealing of conduit joints, conduit lining, and the installation of filter diaphragm around the outlet conduit.

Neither the execution and delivery of this Agreement and the other documents related to the transaction, nor the fulfillment of or compliance with the terms and conditions in this Agreement and the other documents related to the transaction, nor the consummation of the transactions contemplated herein and therein, conflicts with or results in a breach of terms, conditions or provisions of any restriction or any agreement or instrument to which the Borrower/Grantee is a party or by which the Borrower/Grantee is bound or any laws, ordinances, governmental rules or regulations or court or

other governmental orders to which the Borrower/Grantee or its properties are subject, or constitutes a default under any of the foregoing.

(l) No Litigation. To the knowledge of the Borrower/Grantee, no litigation or proceeding is pending or threatened against the Borrower/Grantee or any other person affecting the right of the Borrower/Grantee to execute or deliver this Agreement and the other documents related to the transaction or to comply with its obligations under this Agreement and the other documents related to the transaction. Neither the execution and delivery of this Agreement and the other documents related to the transaction by the Borrower/Grantee nor compliance by the Borrower/Grantee with the obligations under this Agreement and the other documents related to the transaction, requires the approval of any regulatory body, or any other entity, which approval has not been obtained or which is not reasonably expected to be obtained.

(m) No Event of Default. No event has occurred and no condition exists which, with the giving of notice or the passage of time or upon the execution and delivery of this Agreement and the other documents related to the transaction, would constitute an Event of Default on the part of the Borrower/Grantee under this Agreement and the other documents related to the transaction.

(n) Pledged Revenues Not Budgeted. The portion of the Pledged Revenues necessary to pay the Loan Payments, as and when due, is not needed or budgeted to pay current or anticipated Operation and Maintenance Expenses or other expenses of the Borrower/Grantee.

(o) Expected Coverage Ratio. The Pledged Revenues are reasonably expected to equal or exceed—from the Fiscal Year in which the Closing Date occurs and, on an ongoing basis during each Fiscal Year of the Agreement Term—one hundred percent (100%) of the maximum annual principal and interest due on all outstanding obligations of the Borrower/Grantee payable from the Pledged Revenues.

(p) Right to Inspect. The NMFA shall have the right to inspect at all reasonable times all records, accounts and data relating to the System and to inspect the System and all properties comprising the System, and the Borrower/Grantee shall supply such records, accounts, and data as are requested by the NMFA, within thirty (30) days of receipt of such request, written or oral.

(q) Financial Capability; Budgeting of Pledged Revenues. The Borrower/Grantee meets and will meet during the Agreement Term the requirements of financial

capability set by the Water Trust Board and the NMFA. The Pledged Revenues will be sufficient to make the Loan Payments, as and when due. The Borrower/Grantee will adequately budget for the Loan Payments and other amounts payable by the Borrower/Grantee under this Agreement.

(r) Rate Covenant. The Borrower/Grantee covenants that, in addition to complying with the Rate Covenant set forth and defined in the Master Water Utility Ordinance, it will at all times fix, charge and collect such rates and charges as shall be required in order that in each Fiscal Year in which the Loan is outstanding the Gross Revenues shall at least equal the Operation and Maintenance Expenses of the System for the Fiscal Year, plus one hundred percent (100%) of the maximum annual principal and interest payments due on all outstanding obligations payable from the Pledged Revenues.

(s) Borrower/Grantee's Existence. The Borrower/Grantee will maintain its legal identity and existence so long as this Agreement remains outstanding unless another political subdivision, State agency, or other entity by operation of law succeeds to the liabilities, rights and duties of the Borrower/Grantee under this Agreement without adversely affecting to any substantial degree the privileges and rights of the Lender/Grantor.

(t) Use of Project; Continuing Covenant. During the Agreement Term, the Borrower/Grantee will at all times use the Project for the benefit of the Borrower/Grantee and the public it serves. The Borrower/Grantee shall not sell, lease, mortgage, pledge, relocate or otherwise dispose of or transfer the Project or System, or any part of the Project or System so long as this Agreement is outstanding; provided, however, that if the Project is a joint project of the Borrower/Grantee and other qualifying entities (as defined by the Act), the Borrower/Grantee and the other qualifying entities may, with the express written approval of the NMFA and not otherwise, enter into an agreement allocating ownership and operational and maintenance responsibilities for the Project during the term of the Agreement. Any such agreement shall provide that the Lender/Grantor, or either of them, shall have the power to enforce the terms of this Agreement, without qualification, as to each and every qualifying entity (as defined by the Act) other than the Borrower/Grantee, owning or operating any portion of the Project during the term of the Agreement. The Borrower/Grantee will operate and maintain the Project, so that it will function properly over its Useful Life.

(u) Title and Rights of Way. As required by NMSA 1978, § 72-4A-7(A)(3) of the Act, as amended, and the Board Rules, the Borrower/Grantee shall provide written assurance signed by an attorney or provide a title insurance policy ensuring that the Borrower/Grantee has proper title to, easements, rights of way or use permits on the real property upon or through which the Project is being constructed, located, completed or extended, and if any portion of the Project will be designed, constructed, located, completed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, such other qualifying entity has title to such real property, and the Borrower/Grantee shall provide written assurance signed by an attorney or provide a title insurance policy ensuring that such other qualifying entity has proper title to such real property.

(v) Additional Funding Amount. Together with the Loan/Grant Amount and other amounts available to the Borrower/Grantee, the Additional Funding Amount is now available to the Borrower/Grantee, and in combination with the Loan/Grant Amount, will be sufficient to

complete the Project. If any other additional expenses are incurred, the Borrower/Grantee shall be responsible for payment of such expenses.

(w) Audit Requirement. During the Agreement Term the Borrower/Grantee shall comply with the requirements of the State Audit Act, NMSA 1978, §§ 12-6-1 through 12-6-14, as amended. Upon request by the NMFA, the Borrower/Grantee shall provide the NMFA a copy of any review or audit, report of agreed upon procedures, or any other document prepared pursuant to or required by the State Audit Act.

(x) Reserved.

(y) Efficient Operation. The Borrower/Grantee will operate the System so long as this Agreement is outstanding, will maintain the System in efficient operating condition and make such improvements, extensions, enlargements, repairs and betterments to the System as may be necessary or advisable for its economical and efficient operation at all times and sufficient to supply reasonable demands for System services.

(z) Records. So long as the Agreement remains outstanding, proper books of record and account will be kept by the Borrower/Grantee in accordance with Generally Accepted Accounting Principles, separate from all other records and accounts, showing complete and correct entries of all transactions relating to the System. Such books shall include, but not necessarily be limited to, monthly records showing: (i) the number of customers for the System; (ii) the revenues separately received from charges by classes of customers, including but not necessarily limited to classification by facilities; and (iii) a detailed statement of the expenses of the System.

(aa) Billing Procedure. Bills for water service or facilities, furnished by or through the System, shall be rendered to customers on a regular basis each month following the month in which the service was rendered and shall be due as required by the applicable ordinance, resolution or regulation of the Borrower/Grantee. If permitted by law, if a bill is not paid within the period of time required by such ordinance, resolution or regulation, water service shall be discontinued as required by such ordinance, resolution or regulation, and the rates and charges due shall be collected in a lawful manner, including, but not limited to, the cost of disconnection and reconnection.

(bb) Competent Management. The Borrower/Grantee shall employ or contract for experienced and competent personnel to manage the System.

(cc) Readiness Requirements. The Borrower/Grantee has met the requirements of Executive Order 2013-006 and it has met or will meet prior to the first disbursement of any portion of the Loan/Grant Amount, the Conditions and the readiness to proceed requirements established for the Loan/Grant by the NMFA and the Water Trust Board.

(dd) Other Liens. Other than as provided in the Term Sheet, there are no liens or encumbrances of any nature, whatsoever, on or against the System or the revenues derived from the operation of the same.

(ee) Additional Obligations. The Borrower/Grantee may incur additional Senior Obligations upon the satisfaction of the additional bonds test set forth in the Master Water

Utility Ordinance. The Borrower/Grantee shall obtain the written consent of the NMFA prior to the issuance of additional Parity Obligations unless such Parity Obligation has been issued by the NMFA. The Borrower/Grantee shall identify any additional Senior Obligations issued by the Borrower/Grantee after the Closing Date in any future application for financing submitted to the NMFA.

Section 2.2 Representations and Warranties of the NMFA. The NMFA represents as follows:

(a) Authorization of Agreement. The NMFA is a public body politic and corporate separate and apart from the State, constituting a governmental instrumentality, and has all necessary power and authority to enter into and perform and observe the covenants and agreements on its part contained in this Agreement and, by proper action, has duly authorized the execution and delivery of this Agreement.

(b) Legal, Valid and Binding Obligation. This Agreement constitutes a legal, valid and binding obligation of the NMFA enforceable in accordance with its terms.

ARTICLE III
AGREEMENT TERM

The Agreement Term shall commence on the Closing Date and shall terminate at the end of the Useful Life of the Project as required by NMSA 1978, § 72-4A-7, as amended, of the Act.

ARTICLE IV
LOAN/GRANT AGREEMENT CONDITIONS

Section 4.1 Conditions Precedent to Closing of Loan/Grant. Prior to the Closing Date, the following Conditions and readiness to proceed items shall be satisfied:

(a) The NMFA, on behalf of the Water Trust Board, shall have determined that the Borrower/Grantee has met the Conditions and readiness to proceed requirements established for the Loan/Grant by the NMFA and the Water Trust Board including any Conditions set out in the Term Sheet; and

(b) The Borrower/Grantee shall have provided written assurance addressed to the NMFA and signed by an attorney (or shall have provided a title insurance policy) that the Borrower/Grantee has proper title to or easements, rights of way, or permits on the real property upon or through which the Project is being constructed, located, completed or extended; and

(c) If any portion of the Project will be constructed, located, completed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, the Borrower/Grantee shall have provided written assurance addressed to the NMFA and signed by an attorney (or shall have provided a title insurance policy) that such other qualifying entity has proper title to such real property; and

(d) Prior to the disbursement of any portion of the Loan/Grant Amount for purposes of construction of the Project, the plans and specifications funded with the proceeds of

this Agreement will be approved by the NMFA as required by NMSA 1978, § 72-4A-7(B), as amended, or on behalf of the NMFA by the New Mexico Environment Department and the Office of the State of Engineer, and the Borrower/Grantee shall have provided written evidence of such approval to the NMFA; and

(e) Except as otherwise expressly provided in the Conditions, the Borrower/Grantee shall have certified to the Lender/Grantor that the Additional Funding Amount is available for the Project, and, in addition, shall have provided additional evidence reasonably acceptable to the Lender/Grantor of the availability of the Additional Funding Amount; and

(f) The Borrower/Grantee shall be in compliance with the provisions of this Agreement.

(g) Notwithstanding anything in this Agreement to the contrary, the NMFA shall not be obligated to execute the Agreement and may not make the Loan/Grant until the Borrower/Grantee has provided to the NMFA the documents listed on Exhibit "F" attached hereto, all of which must be in form and content acceptable to the NMFA.

Section 4.2 Determination of Eligibility Is Condition Precedent to Disbursement. No request for payment shall be made, nor shall any disbursement be made from the Water Project Fund, for any requisition of any portion of the Loan/Grant Amount, except upon a determination by the NMFA in its sole and absolute discretion that such disbursement is for payment of Eligible Items, and that the request for payment or disbursement does not exceed any limitation upon the amount payable for any Eligible Item pursuant to the Act, the Board Rules, and the Policies governing the Water Project Fund. The NMFA, as a condition precedent to submitting any request for payment to the State Board of Finance or making any requested disbursement from the Water Project Fund, may require submittal of such documentation as the NMFA deems necessary, in its sole and absolute discretion, for a determination whether any requested disbursement is for payment of Eligible Items and is fully consistent with the Act, the Board Rules, and the Policies, as applicable.

ARTICLE V
LOAN TO THE BORROWER/GRANTEE; GRANT TO THE BORROWER/GRANTEE; APPLICATION OF MONEYS

Section 5.1 Loan and Grant to the Borrower/Grantee.

(a) Loan to the Borrower/Grantee. The Lender/Grantor hereby lends to the Borrower/Grantee and the Borrower/Grantee hereby borrows from and agrees to pay to the order of the Lender/Grantor, without interest, an amount equal to the Loan Amount, with the principal amount of the Loan Amount being payable as provided by Article VI and Exhibit "B" of this Agreement.

(i) Subordinate Nature of Loan Amount and Administrative Fee Obligation. The obligation of the Borrower/Grantee to make the Loan Payments and to pay the Administrative Fee shall be subordinate to all other indebtedness secured by the Pledged Revenues existing on the Closing Date and, further, that may in the future be secured by the Pledged

Revenues; except, however, that the obligation of the Borrower/Grantee to make the Loan Payments and to pay the Administrative Fee shall be on parity with any other obligation, present or future, of the Borrower/Grantee to repay a loan provided by the Lender/Grantor pursuant to the Act or the Colonias Infrastructure Act.

(ii) Administrative Fee. The Borrower/Grantee shall, on an annual basis beginning on the first payment date following the completion of the Project or exhaustion of all Loan/Grant Amounts as set out in Section 5.3 hereof, pay to the Lender/Grantor the Administrative Fee, taking into account both payments made by the Borrower/Grantee and Hardship Waivers granted to the Borrower/Grantee as provided by this Agreement. Any such Administrative Fee payment shall be due irrespective of whether or not a Hardship Waiver is granted to the Borrower/Grantee for the principal payment otherwise due on June 1 of the applicable year or any other year.

(iii) Hardship Waivers of Payment. Each year while any portion of the Loan Amount remains outstanding, no later than April 1 of each such year, the Borrower/Grantee may apply in writing to the NMFA for a determination of whether the annual principal payment on the Loan Amount otherwise due on the upcoming June 1 of such year should be forgiven because such payment would cause undue hardship for the Borrower/Grantee or the public it serves. The Borrower/Grantee shall submit such application to the NMFA for determination with sufficient documentation of the existence of such undue hardship as is reasonably required by the NMFA to make a determination, and the Borrower/Grantee shall promptly respond to additional requests for information from the NMFA. Such application for Hardship Waiver shall be executed by the Authorized Officers of the Borrower/Grantee. An "undue hardship" exists if the NMFA determines that the Borrower/Grantee is facing unforeseen events or an emergency that has caused the Borrower/Grantee to be unable to pay on a timely basis the annual principal payment on the Loan Amount. The NMFA may consult the Department of Finance and Administration in determining whether to grant the Hardship Waiver. The NMFA shall make a determination no later than May 15 of the applicable year, and the NMFA shall promptly communicate to the Borrower/Grantee in writing the results of its determination. Upon receipt of written notice of the determination, either the principal payment otherwise due on June 1 of such year shall be forgiven (in the event of a determination of undue hardship) or the principal payment shall remain outstanding and due and payable on June 1 (in the event no undue hardship is determined to exist).

(b) Grant and Acceptance. The Lender/Grantor hereby grants to the Borrower/Grantee and the Borrower/Grantee hereby accepts from the Lender/Grantor an amount equal to the Grant Amount.

(c) Project Account. The NMFA shall establish and maintain the Project Account as a book account only, on behalf of the Borrower/Grantee, which account shall be kept separate and apart from all other accounts of the NMFA.

(d) Constitutional and Statutory Debt Limitations. No provision of this Agreement shall be construed or interpreted as creating a general obligation or other indebtedness of the Water Trust Board, the NMFA, the State or the Borrower/Grantee within the meaning of any constitutional or statutory debt limitation.

Section 5.2 Application of Loan/Grant Amount. Following the determination by the NMFA in its sole and absolute discretion that the Conditions to the disbursement of the Loan/Grant Amount have been satisfied, the NMFA shall make an entry in its accounts, and in particular in the Project Account, reflecting the proceeds of the Loan/Grant Amount made available for disbursement from the Water Project Fund to the Borrower/Grantee at its request, and as needed by it to acquire and complete the Project, as provided in Section 7.2 of this Agreement.

Section 5.3 Final Requisition. The Final Requisition shall be submitted by the Borrower/Grantee within the Interim Period. The Interim Period may be extended only as approved in writing by an Authorized Officer of the NMFA, based on the Borrower/Grantee's demonstration, to the reasonable satisfaction of the Authorized Officer of the NMFA, that unanticipated circumstances beyond the control of the Borrower/Grantee resulted in delaying the acquisition and completion of the Project, and submission of the Borrower/Grantee's Final Requisition.

Section 5.4 Investment of Monies. Money in the Water Project Fund, representing proceeds of this Agreement, held and administered by the NMFA, may be invested by the NMFA for the credit of the Water Project Fund.

ARTICLE VI
LOAN PAYMENTS BY THE BORROWER/GRANTEE

Section 6.1 Loan to the Borrower/Grantee; Payment Obligations Limited to Pledged Revenues; Pledge of Pledged Revenues. The NMFA hereby lends to the Borrower/Grantee and the Borrower/Grantee hereby borrows from the NMFA an amount not to exceed the Loan Amount. The Borrower/Grantee promises to pay, but solely from the sources pledged herein, the Loan Payments and the Administrative Fees and other amounts owed by the Borrower/Grantee as herein provided. Subject to any outstanding Parity Obligations and Senior Obligations, the Borrower/Grantee does hereby grant a lien on and a security interest in and does hereby convey, assign and pledge unto the NMFA and unto its successors in trust forever all right, title and interest of the Borrower/Grantee in and to (i) the Pledged Revenues to the extent required to pay the Loan Payments, and to pay the Administrative Fees and other amounts owed by the Borrower/Grantee as herein provided, subject to and subordinate to all other pledges of the Pledged Revenues existing on the Closing Date and, further, that may exist in the future (except only that the pledge of the Pledged Revenues herein shall be on a parity with any other pledge of the Pledged Revenues by the Borrower/Grantee to repay any obligations issued by the Lender/Grantor pursuant to the Act or the Colonias Infrastructure Act); (ii) the Loan/Grant Amount including the Project Account; and (iii) all other rights hereinafter granted, for the securing of the Borrower/Grantee's obligations under this Agreement, including payment of the Loan Payments, Administrative Fees and other amounts owed by the Borrower/Grantee as herein provided, however, that if the Borrower/Grantee, its successors or assigns, shall pay, or cause to be paid, all Loan Payments and Administrative Fees at the time and in the manner contemplated by this Agreement, or shall provide as permitted by Section 6.5 of this Agreement for the payment thereof, and shall pay all other amounts due or to become due under this Agreement in accordance with its terms and provisions then, upon such final payment, this Agreement and the rights created thereby shall terminate; otherwise, this Agreement shall remain in full force and effect.

The schedule of Loan Payments, assuming the disbursal of the entire Loan/Grant Amount within twenty-four (24) months after the Closing Date, identified as the Interim Debt Service Schedule, is attached to this Agreement as Exhibit "B". Within thirty (30) days after the Final Requisition is made, the NMFA shall provide a Final Debt Service Schedule, reflecting the amount of the Loan/Grant Amount actually disbursed to the Borrower/Grantee pursuant to this Agreement. Such Final Debt Service Schedule shall supersede the schedule attached hereto as Exhibit "B". The NMFA shall additionally calculate the amount of the Administrative Fee that has accumulated during that twenty-four (24) month period from the Closing Date, and shall include such amount in the first Loan Payment due from the Borrower/Grantee on the Final Debt Service Schedule.

The pledge of the Pledged Revenues and the lien thereon shall be effective upon the Closing Date. The Borrower/Grantee and the NMFA acknowledge and agree that the obligations of the Borrower/Grantee hereunder are limited to the Pledged Revenues; and that this Agreement with respect to the Loan Amount, the Administrative Fee and other amounts owed by the Borrower/Grantee as herein provided, and that the Agreement shall constitute a special, limited obligation of the Borrower/Grantee. No provision of this Agreement shall be construed or interpreted as creating a general obligation or other indebtedness of the Borrower/Grantee or the State within the meaning of any constitutional or statutory debt limitation. No provision of this Agreement shall be construed to pledge or to create a lien on any class or source of Borrower/Grantee moneys other than the Pledged Revenues, nor shall any provision of this Agreement restrict the future issuance of any bonds or obligations payable from any class or source of Borrower/Grantee moneys other than the Pledged Revenues. In addition, to the extent not required for the payment of obligations of the Borrower/Grantee hereunder, the Pledged Revenues may be utilized by the Borrower/Grantee for any other purposes permitted by law.

Section 6.2 Deposit of Payments of Loan Amount to Water Project Fund. All Loan Payments made by the Borrower/Grantee to the NMFA to repay the Loan Amount and interest thereon, if any, shall be deposited into the Water Project Fund.

Section 6.3 Manner of Payment. The Loan Amount and Administrative Fee shall be payable by the Borrower/Grantee to the Lender/Grantor in annual installments on June 1 beginning after expiration of the Interim Period and continuing through the expiration of the last Loan Payment due as outlined in the Final Debt Service Schedule. All payments of the Borrower/Grantee hereunder shall be paid in lawful money of the United States of America to the NMFA at the address designated in Section 11.1 of this Agreement or by electronic debit of the account identified in the ACH Authorization. The obligation of the Borrower/Grantee to make payments hereunder, from and to the extent of the available Pledged Revenues, shall be absolute and unconditional in all events, except as expressly provided hereunder. Notwithstanding any dispute between the Borrower/Grantee and the NMFA, any vendor or any other person, the Borrower/Grantee shall make all deposits hereunder, from and to the extent of the available Pledged Revenues, when due and shall not withhold any deposit hereunder pending final resolution of such dispute, nor shall the Borrower/Grantee assert any right of set-off or counterclaim against its obligation to make such deposits required hereunder.

Section 6.4 Borrower/Grantee May Budget for Payments. The Borrower/Grantee may, in its sole discretion, but without obligation and subject to the Constitution of the State, governing laws, and its budgetary requirements, make available properly budgeted and legally available

funds to make the Loan Payments and other amounts owed by the Borrower/Grantee hereunder; provided, however, the Borrower/Grantee has not covenanted and cannot covenant to make such funds available and has not pledged any of such funds for such purpose.

Section 6.5 No Penalty for Prepayment of the Loan Amount. The Loan Amount shall be pre-payable by the Borrower/Grantee at the conclusion of the Interim Period without penalty.

Section 6.6 Lender/Grantor's Release of Lien and Further Assurances. Upon payment in full of the Loan Amount, Administrative Fee and other amounts owed by the Borrower/Grantee as herein provided in this Agreement and upon written request from the Borrower/Grantee the Lender/Grantor agrees to execute a release of lien and to give such further assurances as are reasonably necessary to ensure that the Lender/Grantor no longer holds or maintains any lien or claim against the Pledged Revenues.

ARTICLE VII
THE PROJECT

Section 7.1 Agreement to Acquire, Complete and Maintain the Project.

(a) The Borrower/Grantee hereby agrees that in order to effectuate the purposes of this Agreement and to acquire and complete the Project it shall take such steps as are necessary and appropriate to acquire, complete, operate and maintain the Project lawfully and efficiently. The Project shall be constructed and completed substantially in accordance with the approved plans and specifications, and shall fully incorporate the available technologies and operational design for water use efficiency described in the approved plans and specifications. The plans and specifications shall be approved by the NMFA or on behalf of the NMFA by the Office of the State Engineer prior to the disbursement of any part of the Loan/Grant Amount for construction of the Project, and the Project shall be constructed and completed substantially in accordance with the approved plans and specifications. No Loan/Grant funds shall be used for items not constituting Eligible Items.

(b) As provided by NMSA 1978, § 72-4A-7(A)(1), as amended, of the Act, the Borrower/Grantee shall operate and maintain the Project in good operating condition and repair at all times during the Useful Life of the Project, so that the Project will function properly over the Useful Life of the Project; provided, that if any portion of the Project will be constructed, located, completed, installed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, the Borrower/Grantee may, prior to any use of the Loan/Grant funds for the Project on such real property, obtain the written agreement of such other qualifying entity to perform these obligations with respect to such real property (and the portion of the Project to be constructed, located, completed or extended on such real property), which written agreement shall be subject to approval by the Lender/Grantor and shall include an express statement by such other qualifying entity that the Lender/Grantor is a third party beneficiary of such written agreement.

Section 7.2 Accounting for Amounts Credited to the Project Account. So long as no Event of Default shall occur and provided that all Conditions to the disbursement of the Loan/Grant Amount have been satisfied (including approval of the plans and specifications), upon receipt by

the NMFA of a requisition substantially in the form of Exhibit "C" attached hereto signed by an Authorized Officer of the Borrower/Grantee, supported by certification by the Borrower/Grantee's project architect, engineer, or such other authorized representative of the Borrower/Grantee that the amount of the disbursement request represents the progress of design, construction, acquisition or other Project-related activities accomplished as of the date of the disbursement request, the NMFA shall, in its sole and absolute discretion: (1) submit a request for payment to the State Board of Finance for payment; and/or (2) disburse from the Water Project Fund, amounts which together are sufficient to pay the requisition in full. The NMFA shall make the appropriate entry in the Project Account reflecting the amount of the payment. The certification provided pursuant to this Section 7.2 in support of the requisition must be acceptable in form and substance to the NMFA and, at its request, the Water Trust Board. The Borrower/Grantee shall provide such records or access to the Project as the NMFA, and, at its request, the Water Trust Board, in the discretion of each, may request in connection with the approval of the Borrower/Grantee's requisition requests made hereunder.

Section 7.3 No Disbursement for Prior Expenditures Except upon Approval. No disbursement shall be made from the Water Project Fund of the Loan/Grant Amount, or any portion thereof, without the written approval of the NMFA and, at its request, the Water Trust Board, to reimburse any expenditure made prior to the Closing Date.

Section 7.4 Borrower/Grantee Reporting to Lender/Grantor. During the implementation, installation and construction of the Project, the Borrower/Grantee shall provide the Lender/Grantor with a quarterly written report executed by an Authorized Officer of the Borrower/Grantee, in the form attached as Exhibit "D" hereto or in another form reasonably acceptable to the Lender/Grantor, describing the status of the Project as of the report date, uses of Loan/Grant funds during the quarterly period ending on the report date, and requests for distributions of Loan/Grant funds anticipated to occur during the quarterly period immediately following the report date. The first quarterly report shall be due on September 30, 2025, and subsequent reports shall be due on each March 31, June 30, September 30 and December 31 thereafter until the report date next following final distribution of the Loan/Grant funds. No reports shall be required after the report date next following final distribution of the Loan/Grant Funds, unless specifically required by the NMFA or the Water Trust Board. The description of the status of the Project in each quarterly report shall include, among other information, (a) a comparison of actual and anticipated requests for distributions of Loan/Grant funds as of the report date with those anticipated as of the Closing Date, (b) a description of actual and anticipated changes in the cost estimates for the Project as of the report date compared with those anticipated as of the Closing Date, (c) a description of the percentage of completion of the Project; and (d) a timeline of projected milestones.

Section 7.5 Completion of Disbursement of Loan/Grant Funds. Upon completion of the Project an Authorized Officer of the Borrower/Grantee shall deliver a certificate to the NMFA substantially in the form of Exhibit "E" attached hereto, stating that, to his or her knowledge, either (1) the Project has been completed, or (2) that the portion of the Loan/Grant Amount needed to complete the Project has been disbursed in accordance with the terms of this Agreement. No portion of the Loan/Grant Amount shall be disbursed after expiration of the Interim Period.

Section 7.6 Application of Project Account Subsequent to Disbursement of Loan/Grant Funds; Termination of Pledge.

(a) Upon the completion of the Project as signified by delivery of the completion certificate required by Section 7.5 hereof, the NMFA shall determine, by reference to the Project Account, whether any portion of the authorized Loan/Grant Amount remains unexpended and shall dispose of such unexpended proceeds in accordance with law.

(b) In the event that a portion of the Loan/Grant Amount remains unexpended after the expiration of the Interim Period, the NMFA shall dispose of such funds in accordance with law.

Upon the occurrence of either event described in (a) or (b) above, the NMFA shall make the appropriate entry in the Project Account and, upon such entry, the pledge of the Loan/Grant Amount established in this Agreement shall terminate.

ARTICLE VIII
COMPLIANCE WITH LAWS AND RULES; OTHER COVENANTS

Section 8.1 Further Assurances and Corrective Instruments. The Lender/Grantor and the Borrower/Grantee agree that they will, from time to time, execute, acknowledge and deliver, or cause to be executed, acknowledged and delivered, such supplements hereto and such further instruments as may reasonably be required for correcting any inadequate or incorrect description of the Project or of the Pledged Revenues and for carrying out the intention hereof.

Section 8.2 Representatives of Lender/Grantor or of Borrower/Grantee. Whenever under the provisions hereof the approval of the Lender/Grantor or the Borrower/Grantee is required, or the Borrower/Grantee, or the Lender/Grantor is required to take some action at the request of either of them, such approval or such request shall be given for the Lender/Grantor or for the Borrower/Grantee, by an Authorized Officer of the Lender/Grantor or the Borrower/Grantee, as the case may be, and any party hereto shall be authorized to act on any such approval or request.

Section 8.3 Selection of Contractors. All contractors providing services or materials in connection with the Project shall be selected in accordance with applicable provisions of the New Mexico Procurement Code, NMSA 1978, §§ 13-1-28 through 13-1-199, as amended, or, if the Borrower/Grantee is not subject to the New Mexico Procurement Code, shall be selected in accordance with a documented procurement process duly authorized and established pursuant to laws and regulations applicable to the Borrower/Grantee.

Section 8.4 Non-Discrimination in Employment. Except as otherwise specifically provided in the laws, statutes, ordinances or regulations of the Borrower/Grantee, the Borrower/Grantee shall require in any contract or subcontract executed in connection with the Project to which the Borrower/Grantee is a party that there shall be no discrimination against any employee or applicant for employment because of race, color, creed, sex, religion, sexual preference, ancestry or national origin.

Section 8.5 Little Miller Act. To the extent NMSA 1978, § 13-4-1 et seq., (the "Little Miller Act") is applicable to the Project, the Borrower/Grantee shall comply with the requirements of the "Little Miller Act". If bonding requirements of the Little Miller Act are not applicable to the Project, the Borrower/Grantee will require that the contractor to whom is given any contract for construction appertaining to the Project supply a performance bond or bonds satisfactory to the Borrower/Grantee. Any sum or sums derived from said performance bond or bonds shall be used within six (6) months after such receipt for the completion of said construction, and if not so used within such period, shall be treated as Gross Revenues.

Section 8.6 Required Contract Provisions. The Borrower/Grantee shall require the following provisions in any contract or subcontract executed in connection with the Project to which the Borrower/Grantee is a party:

(a) There shall be no discrimination against any employee or applicant for employment because of race, color, creed, sex, religion, sexual preference, ancestry or national origin; and

(b) Any contractor or subcontractor providing construction services in connection with the Project shall post a performance and payment bond in accordance with the requirements of NMSA 1978, § 13-4-18, as amended.

(c) Any contractor or subcontractor providing construction services in connection with the Project shall comply with the prevailing wage laws in accordance with the requirements of NMSA 1978, § 13-4-11, as amended.

Section 8.7 Application of Act and Board Rules. While this Agreement is outstanding, the Lender/Grantor and the Borrower/Grantee expressly acknowledge that this Agreement is governed by provisions and requirements of the Act and the Board Rules, as amended and supplemented, and all applicable provisions and requirements of the Act and Board Rules are incorporated into this Agreement by reference.

Section 8.8 Continuing Disclosure. The Borrower/Grantee shall provide continuing disclosure to the NMFA, as the NMFA may require, that shall include, but not be limited to: annual audits and notification of any event deemed material by the NMFA, including but not limited to, any event which may or does affect the Pledged Revenues, the ability of the Borrower/Grantee to repay the loan, and the default of the Borrower/Grantee in performance or observance of any covenant, term, or condition contained in any other loan agreement.

ARTICLE IX
INSURANCE; NON-LIABILITY OF LENDER/GRANTOR

Section 9.1 Insurance. The Borrower/Grantee shall carry general liability insurance or participate in the State's risk-management program and, to the extent allowed by the New Mexico Tort Claims Act, NMSA 1978, §§ 41-4-1 through 41-4-30, as amended, shall and hereby agrees to name the Lender/Grantor as an additional insured with respect to all claims, by or on behalf of any person, firm, corporation or other legal entity arising from the acquisition, completion or implementation of the Project or otherwise during the Agreement Term; provided, that if any

portion of the Project will be constructed, located, completed or extended on real property owned by a qualifying entity (as defined by the Act) other than the Borrower/Grantee, the Borrower/Grantee may obtain the written agreement of such other qualifying entity to perform these insurance/risk-management program requirements for Borrower/Grantee with respect to such real property (and the portion of the Project to be constructed, located, completed or extended on such real property), which written agreement shall include an express statement by such other qualifying entity that the Lender/Grantor is a third party beneficiary of such written agreement.

Section 9.2 Non-Liability of Lender/Grantor.

(a) Lender/Grantor shall not be liable in any manner for the Project, Borrower/Grantee's use of the Loan/Grant, the acquisition, implementation, construction, installation, ownership, operation or maintenance of the Project, or any failure to act properly by the Borrower/Grantee or any other owner or operator of the Project.

(b) Lender/Grantor shall not be liable for the refusal or failure of any other agency of the State to transfer any portion of the Loan/Grant Amount in its possession, custody and control to the NMFA for disbursement to the Borrower/Grantee, or to honor any request for such transfer or disbursement of the Loan/Grant Amount.

(c) From and to the extent of the Pledged Revenues, and to the extent permitted by law, the Borrower/Grantee shall and hereby agrees to indemnify and save the NMFA harmless against and from all claims, by or on behalf of any person, firm, corporation, or other legal entity, arising from the acquisition or operation of the Project during the Agreement Term, from: (i) any act of negligence or other misconduct of the Borrower/Grantee, or breach of any covenant or warranty by the Borrower/Grantee hereunder; and (ii) the incurrence of any cost or expense in connection with the acquisition or operation of the Project in excess of the Loan/Grant Agreement proceeds and interest on the investment thereof. The Borrower/Grantee shall indemnify and save the NMFA harmless, from and to the extent of the available Pledged Revenues, and to the extent permitted by applicable law, from any such claim arising as aforesaid from (i) or (ii) above, or in connection with any action or proceeding brought thereon and, upon notice from the NMFA, shall defend the NMFA in any such action or proceeding.

ARTICLE X
EVENTS OF DEFAULT AND REMEDIES

Section 10.1 Events of Default Defined. Any one of the following shall be an "Event of Default" under this Agreement:

(a) Failure by the Borrower/Grantee to pay any amount required to be paid under this Agreement on the date on which it is due and payable;

(b) Failure by the Borrower/Grantee to observe and perform any covenant, condition or agreement on its part to be observed or performed under this Agreement for a period of thirty (30) days after written notice, specifying such failure and requesting that it be remedied, is given to the Borrower/Grantee by the Lender/Grantor unless the Lender/Grantor shall agree in writing to an extension of such time prior to its expiration; provided, however, if the failure stated

in the notice can be wholly cured within a period of time not materially detrimental to the rights of the Lender/Grantor but cannot be cured within the applicable thirty (30) day period, the Lender/Grantor will not unreasonably withhold their consent to an extension of such time if corrective action is instituted by the Borrower/Grantee within the applicable period and diligently pursued until the failure is corrected; and provided, further, that if by reason of force majeure the Borrower/Grantee is unable to carry out the agreements on its part herein contained, the Borrower/Grantee shall not be deemed in default under this paragraph 10.1(b) during the continuance of such inability (but force majeure shall not excuse any other Event of Default); or

(c) Any warranty, representation or other statement by or on behalf of the Borrower/Grantee contained in this Agreement or in any instrument furnished in compliance with or in reference to this Agreement is false or misleading in any material respect;

(d) A petition is filed against the Borrower/Grantee under any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, and is not dismissed within thirty (30) days after such filing, but the NMFA shall have the right to intervene in the proceedings prior to the expiration of such thirty (30) days to protect their interests;

(e) The Borrower/Grantee files a petition in voluntary bankruptcy or seeking relief under any provision of any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, or consents to the filing of any petition against it under any such law; or

(f) The Borrower/Grantee admits insolvency or bankruptcy or its inability to pay its debts as they become due or is generally not paying its debts as such debts become due, or becomes insolvent or bankrupt or makes an assignment for the benefit of creditors, or a custodian (including, without limitation, a receiver, liquidator or trustee) of the Borrower/Grantee for any of its property is appointed by court order or takes possession thereof and such order remains in effect or such possession continues for more than thirty (30) days, but the NMFA shall have the right to intervene in the proceedings prior to the expiration of such thirty (30) days to protect their interests.

(g) Default by the Borrower/Grantee in performance or observance of any covenant contained in any other loan agreement, document or instrument of any type whatsoever evidencing or securing obligations of the Borrower/Grantee to the NMFA.

Section 10.2 Remedies on Default. Whenever any Event of Default has occurred and is continuing and subject to Section 10.3 hereof, the Lender/Grantor may take any or all of the following actions as may appear necessary or desirable to collect the payments then due and to become due or to enforce performance of any obligations of the Borrower/Grantee in this Agreement:

(a) File a mandamus proceeding or other action or proceeding or suit at law or in equity to compel the Borrower/Grantee to perform or carry out its duties under the law and the agreements and covenants required to be performed by it contained herein;

(b) Terminate this Agreement;

(c) Cease disbursing any further amounts from the Project Account;

(d) Demand that the Borrower/Grantee immediately repay the Loan/Grant Amount or any portion thereof if such funds were not utilized in accordance with this Agreement;

(e) File a suit in equity to enjoin any acts or things which are unlawful or violate the rights of the Lender/Grantor;

(f) Intervene in judicial proceedings that affect this Agreement or the Pledged Revenues; or

(g) Cause the Borrower/Grantee to account as if it were the trustee of an express trust for all of the Pledged Revenues;

(h) Take whatever other action at law or in equity may appear necessary or desirable to collect amounts then due and thereafter to become due under this Agreement or to enforce any other of its rights hereunder; or

(i) Apply any amounts in the Project Account toward satisfaction of any and all fees and costs incurred in enforcing the terms of this Agreement.

Section 10.3 Limitations on Remedies. A judgment requiring payment of money entered against the Borrower/Grantee shall be paid from only available Pledged Revenues unless the Borrower/Grantee in its sole discretion pays the judgment from other available funds.

Section 10.4 No Remedy Exclusive. No remedy herein conferred upon or reserved to the Lender/Grantor is intended to be exclusive, and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the Borrower/Grantee or the Lender/Grantor to exercise any remedy reserved in this Article X, it shall not be necessary to give any notice, other than such notice as may be required in this Article X.

Section 10.5 Waivers of Events of Default. The Lender/Grantor may, in its sole discretion, waive any Event of Default hereunder and the consequences of any such Event of Default; provided, however, all expenses of the Lender/Grantor in connection with such Event of Default shall have been paid or provided for. Such waiver shall be effective only if made by a written statement of waiver issued by the NMFA. In case of any such waiver or rescission, or in case any proceeding taken by the Lender/Grantor, on account of any such Event of Default shall have been discontinued or abandoned or determined adversely, then and in every such case, the Lender/Grantor shall be restored to its former position and rights hereunder, respectively, but no such waiver or rescission shall extend to any subsequent or other Event of Default, or impair any right consequent thereon.

Section 10.6 No Additional Waiver Implied by One Waiver. In the event that any agreement contained herein should be breached by either party and thereafter waived by the other

party, such waiver shall be in writing and limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

Section 10.7 Agreement to Pay Attorneys' Fees and Expenses. In the event that the Borrower/Grantee shall default under any of the provisions hereof and the NMFA shall employ attorneys or incur other expenses for the collection of payments hereunder, or the enforcement of performance or observance of any obligation or agreement on the part of the Borrower/Grantee herein contained, the Borrower/Grantee agrees that it shall, on demand therefor, pay to the NMFA the fees of such attorneys and such other expenses so incurred, to the extent such attorneys' fees and expenses may be determined to be reasonable by a court of competent jurisdiction; provided, however, that the obligation of the Borrower/Grantee under this Section shall be limited to expenditures from and to the extent of the available Pledged Revenues of the Borrower/Grantee.

Summary:
This bill would authorize the execution and delivery of both a water project fund loan as well as a grant between the New Mexico Finance Authority ("NMFA") and the City of Santa Fe ("City') in the total, combined amount of five million, five-hundred thousand dollars ($5,500,000) for the purpose of financing the cost of repairs to Nichols Dam outlet conduit. Additionally, the bill specifies that the loan, in the amount of two million, two-hundred thousand dollars ($2,200,000), and the grant, in the amount of three million, three-hundred thousand dollars ($3,300,000) would be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). Pursuant to the loan debt, the bill pledges that the City would repay the loan amount and the associated administrative fee solely from the net revenues of the City's water utility enterprise fund. The goal of the Nichols Dam Repair Project is to repair the outlet conduit and upgrade the dam safety rating to satisfactory. Specific repairs to Nichols Dam include the sealing of conduit joints, conduit lining, and the installation of filter diaphragm around the outlet conduit.

Departments Affected:
Public Utilities Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will not authorize the water project funds for a total of five million five hundred thousand dollars ($5,500,000) in the form of a loan in the amount of two million, two hundred thousand dollars ($2,200,000) and a grant in the amount of three million, three hundred thousand dollars ($3,300,000). Without these funds, the City will need to utilize cash reserves, putting pressure on the water utility to raise rates, impacting water utility customers. The project is necessary for the continued operation of Nichols Dam & Reservoir and for the safety of a High Hazard Dam above the city of Santa Fe.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Resolution 2023-43 approved the application for Water Trust Board funding, and Resolution 2023-32 identified Project ID #33721, "Nichols Outlet Rehabilitation Project", as a City priority on its Infrastructure

Capital Improvement Plan.

Performance and Administrative Implications:
Water Division staff will submit contractor invoices for reimbursement toward construction of the Nichols Dam Repair Project. Staff will also be required to submit quarterly compliance reports on the progress of the final completion of the project within two years.

Fiscal Implications:
If this bill is adopted, the City will accept funds from NMFA in the total amount of five million, five hundred thousand dollars ($5,500,000) for the purpose of making necessary repairs to the Nichols Dam outlet conduit. These funds take the form of two agreements—a loan for two million, two hundred thousand dollars ($2,200,000) and a grant for three million, three hundred thousand dollars ($3,300,000). The loan agreement is to be paid back within twenty years at an interest rate of 0.25%.

CITY OF SANTA FE

Memorandum

Date: June 6, 2025

To: Governing Body and Quality of Life Committee

From: Erin K. McSherry, City Attorney EM

RE: Deputy City Manager Appointment

SUMMARY:

The proposed bill would remove the sixty (60) day timeline for appointing a deputy city manager and the requirement that the Governing Body approve the Deputy City Manager's position description. It requires that the deputy city manager have the same minimum qualifications as the city manager.

The bill would also remove language that is inconsistent with the City's Charter that states that the city manager is responsible for the preparation of the annual budget. The Charter requires that the Mayor prepare and introduce the budget.

The sixty-day timeline for appointing a deputy is unrealistic for a new city manager. A timeline also does not serve an apparent public policy interest. For example, if one deputy city manager leaves and the city manager wishes to appoint a new one, a timeline starting at the time the city manager is appointed is illogical.

Requiring the deputy city manager to have the same minimum qualifications as the city manager serves the interest of having an adequately qualified person serve in the city manager's absence during vacations, etc. The required minimum qualifications would not, however, mean that a mayor would have to appoint the deputy city manager as city manager if a city manager departed.

Summary:
The proposed bill would remove the sixty (60) day timeline for appointing a deputy city manager and the requirement that the Governing Body approve the deputy city manager's position description. It requires that the deputy city manager have the same minimum qualifications as the city manager. The bill would also remove language that is inconsistent with the City's Charter that states that the city manager is responsible for the preparation of the annual budget. The Charter requires that the Mayor prepare and introduce the budget.

Departments Affected:
Human Resources Department and City Manager.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then the Code would continue to provide that the city manager has the right to hire a deputy city manager within sixty (60) days of being appointed and would not require the position of deputy city manager to have the same minimum qualifications as the position of city manager. In addition, the code regarding the city manager duties would remain inconsistent with the City Charter.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None.

Performance and Administrative Implications:
The sixty-day timeline for appointing a deputy is unrealistic for a new city manager. A timeline also does not serve an apparent public policy interest. For example, if one deputy city manager leaves and the city manager wishes to appoint a new one, a timeline for hiring the deputy that starts at the time the city manager is appointed is illogical. Requiring the deputy city manager to have the same minimum qualifications as the city manager serves the interest of having an adequately qualified person serve in the city manager's absence during vacations, etc. The required minimum qualifications would not, however, mean that a mayor would have to appoint the deputy city manager as city manager if a city manager departed. The Human

Resources Department would update the minimum qualifications required for the deputy city manager to be the same as the city manager. The city manger would still have the ability to appoint a deputy city manager.

Fiscal Implications:
None.

Re: **Appeal # 2025-9812-APPL of Case # 2024-9478-HDRB.** Property owner Miriam Leth-Espensen and agent Stefanie Beninato appeal the Historic Districts Review Board's December 10, 2024, decision denying a request for an exception to exceed the 4'6" maximum allowable height by 1'2", for a fence in front of a contributing house in the Downtown and Eastside Historic and Business Capital Districts.

Date: **April 25, 2025, for the April 30, 2025, Governing Body meeting**

Property owner, Mirian Leth-Espensen, represented by agent Stefanie Beninato ("Appellant") has filed an Appeal challenging a decision by the Historic Districts Review Board ("HDRB" or "Board") denying her application to approve a 5-foot-8-inch-high fence at 614 Paseo de Peralta (the "Property"). A contractor for the Appellant Ms. Leth-Espensen built the fence without applying for a building permit or HDRB approval, and the City issued Notices of Violation to the property owner. The property is in the Downtown and Eastside Historic District and in the Business Capital District, East Marcy / East Palace Subdistrict. After a public hearing on December 10, 2024, the HDRB denied the Appellants' application for retroactive approval of the non-compliant fence and the exception the Appellants sought to the Historic Districts Code. The Appellants appeal the HDRB's denial.

Both the Business Capital District standards and the Historic Districts Code restrict the height of fences. **[Santa Fe City Code ("SFCC" or "Code") Sections 14-7.4(A) and 14-5.2(D)(9)(c)(ii) (C)]** The Business Capital District's height limitations are more restrictive than the Historic District's, and the Code requires that the more restrictive limitation prevails over the less restrictive. **[SFCC Section 14-1.7(B)]** The Historic Districts Code permits exceptions to the Historic Districts standards **[SFCC Section 14-5.2(C)(5)(c)]**, and the Appellant (the "Applicant" in the HDRB hearing) asked the Board to grant an exception. The six exception

criteria require the HDRB to consider elements such as the character of the streetscape, special conditions peculiar to the land, and the preservation of the City's historic areas. **[SFCC Section 14-5.2(C)(5)(c)]** The HDRB also considered that the structure on this property has a historically "contributing" designation, and the Code prohibits the HDRB from approving an alteration that jeopardizes that designation. **[SFCC Section 14-5.2(D)(1)(a)]**

Appellant claims the location of the property in a high-traffic area poses a hazard to her, the high fence is a necessary safeguard against trespass and vandalism, and the HDRB decision was arbitrary, capricious, and not based on the facts or the law. **[Ex. A, Verified Appeal Petition ("Petition"), at 4]** She also argues that other property owners in the Historic Districts and on this streetscape have installed 6-foot fences, approved by the HDRB, and the denial of the exception for her fence is, therefore, unfair. **[Ex. A, Petition, at 3, 9]** In this "de novo" appeal, the Governing Body may uphold or reverse the HDRB's decision to deny the application and the exception. **[SFCC Section 14-2.2(F)]** A "de novo" appeal is one in which the Governing Body conducts an independent application of the law to the evidence to decide whether the facts and the law support the structures' historic statuses.

I. BACKGROUND

A. <u>The Property, its History, and its Relation to the Street</u>

The Property is on the south side of Paseo de Peralta, across the street and to the west of the entrance to Historic Fort Marcy Park. It has a mixed use as a residence and Miriam's Well School of Weaving, which offers small weaving and textile-design classes. **[Ex. A, Petition, at 7; Ex. C, Excerpt from Minutes, at 38]** The Property is listed as historically contributing in the Downtown and Eastside Historic District, and is on the northern edge of the Business Capital District, East Marcy/East Palace Subdivision. **[Ex. C, Minutes, at 32-33]** Seven of the nine houses on Paseo de Peralta between East Marcy and Otero streets have either a contributing or significant status, and the Property is one of the seven. **[Ex. J, Building Historic Status Map, at 117]** The Anglo-American arrival influenced the development of this streetscape, and the houses in this area reflect the Anglo-American style of architecture, including low front-yard fences. **[Ex. C, Minutes, at 33]** The structure has a moderately pitched, gabled roof, deep-set windows, and a large bay of windows on the north where a porch has been enclosed. **[Ex. C, Minutes, at 32]** A photograph from the 1985 Historic Building Inventory illustrates that this house, like others in the streetscape, had low, fenestrated fencing at the property line. **[Ex. D, Staff Memo, at 53]** Although it is difficult to discern the exact fence material in the 1985 photograph, it is clear that historically the house had a direct relationship with the street, as do other historic buildings in the streetscape. **[Ex. C, Minutes, at 33]**

The south side of Paseo de Peralta has several distinguishing characteristics from the north side of the street. On the curve between East Marcy and Otero Streets, only the south side of Paseo de Peralta is within the Business Capital District ("BCD"); the north side of the street is outside the BCD. **[Ex. H, BCD Map Detail, at 115]** The south side of the street is lined with lower fences and yard walls with stepped heights, picket and wire fences, and walls combined with wrought-iron fencing creating an open fenestration of the wall. The north walls of two

structures (one residential and one commercial) abut the sidewalk. **[Ex. C, Minutes, at 34; Ex. D, Staff Memo, at 45, 49, 58]** There is a considerable grade difference between the south side of the street, which has a gradual slope, and the north side, where the steep, switchback trail to the Cross of the Martyrs commences. **[Ex. D, Staff Memo, at 45, 88]** Retaining walls characterize the streetscape on the north side, with additional walls that are substantially set back from the plane of the retaining walls. **[Ex. D, Staff Memo, at 45]**

B. Business Capital and Historic District Standards

Two standards limit the height of walls and fences in the neighborhoods in the northeast downtown area of Santa Fe. Height standards are found in both the Business Capital Districts Code, SFCC Section 14-7.4, Table A-1, and the Historic Districts Code, SFCC Section 14-5.2(D)(9)(c)(ii)(C). Height and other limitations in the BCD Code are more restrictive than those in the Historic Districts Code and, under this section of the SFCC, the more restrictive code section supersedes the less restrictive:

> 14-1.7 – CONFLICTING PROVISIONS: . . . (B) In the case of a conflict within Chapter 14, or between Chapter 14 and any other ordinance, resolution or regulation, the more restrictive limitation or requirement shall prevail, unless an exception is specifically stated, and the provision shall govern that requires: . . .
>
> (2) the lower height of structure or lesser number of stories;

SFCC Section 14-5.1 has similar language: "When the requirements of an overlay district are in conflict with those of the underlying district or those of another overlay district, the more restrictive limitation or requirement controls as provided for in Section 14-1.7."

The BCD has several subdivisions, and 614 Paseo de Peralta is in the East Marcy / East Palace Subdistrict ("BCD EAS") **[Ex. H, BCD Map Detail, at 115]** Table A-1 under SFCC Section 14-7.4 reads, with respect to the BCD EAS subdistrict, "[w]alls, fences, and hedges permitted to maximum of 4 feet." **[Ex. I, BCD Table, at 116]** The Historic Districts Code, SFCC Section 14-5.2(D)(9)(c)(ii)(C), reads, "Yard walls and fences shall be limited to a height that does not exceed the average of the height of other yard walls and fences in the streetscape." In compliance with this formula, the Staff took the measurements of 38 other fences and yard walls along the Paseo de Peralta streetscape and calculated the average, which was 54 inches, or 4 feet, 6 inches. **[Ex. D, Staff Memo, at 56]** Applying the height limitation of the BCD EAS, which is 4 feet, the Appellant's fence, at 5 feet 8 inches, exceeds it by 20 inches, or 1 foot 8 inches. Applying the height limitation of the Historic Districts Code under SFCC 14-5.2(D)(9), which is 4 feet 6 inches, the Appellant's fence exceeds it by 14 inches.

The property at 614 Paseo de Peralta has been designated historically "contributing" under the Historic Districts Code. **[Ex. J, Building Historic Status Map, at 117]** SFCC Section 14-12.1, defines this status level for historic properties:

> CONTRIBUTING STRUCTURE: A structure, located in a historic district, approximately 50 years old or older that helps to establish and maintain the character of that historic district. Although a contributing structure is not unique in itself, it adds to the historic associations or historic architectural design qualities that are significant for a district. The contributing structure may have had minor alterations, but its integrity remains.

The Code expressly prohibits any alteration to contributing, significant or landmark structures that will cause the structures to lose these specially protected designations. SFCC Section 14-5.2(D)(1)(a) reads:

> The status of a significant, contributing, or landmark structure shall be retained and preserved. If a proposed alteration will cause a structure to lose its significant, contributing, or landmark status, the application shall be denied. The removal of historic materials or alteration of architectural features and spaces that embody the status shall be prohibited.

Proposed additions or alterations that do not comply with Code restrictions for significant or contributing buildings are not entirely prohibited; the HDRB can permit them if the property owner or project applicant requests an "exception" and meets six criteria described in the Code at SFCC Section 14-5.2(C)(5)(c). The applicant has the burden of "conclusively demonstrating" the exception criteria. **[SFCC Section 14-5.2(C)(5)(c)]**

II. PROCEDURAL HISTORY

A. Notices of Violation

From at least 2015 through 2023, 614 Paseo de Peralta had a low white frame and wire mesh fence on its north lot line, which permitted an unobstructed view of the house from Paseo de Peralta. **[Ex. D, Staff Memo, at 45-46]** In August, 2023, a constituent complained that workers were building a new fence without a permit, and on August 18, 2023, a Building Inspection officer issued Ms. Leth-Espensen a Notice of Violation and a stop-work order, commonly called a "red tag." **[Ex. F, Notices of Violation, at 108]** Ms. Leth-Espensen sent an e-mail to the Staff apologizing for failing to obtain a permit, and claiming she went to the permit office where she was told she did not need a permit as long as the new fence did not exceed the height of the old fence. **[Ex. D, Staff Memo, at 103]**

The fence had not been removed by February, 2024, and the Building Inspection officer returned to the address and issued another Notice of Violation January 11, 2024. **[Ex. F, Notices of Violation, at 109]** Finding the fence still in place in April, the Historic Preservation Staff issued another Notice of Violation and filed it in Santa Fe Municipal Court, where the City opened a criminal case against Ms. Leth-Espensen, Case # CE 2024-00005. **[Ex. F, Notices of Violation, at 111]** On motions by Ms. Leth-Espensen's defense counsel, Lisa Torraco, that case has been postponed pending the outcome of the Governing Body Appeal hearing. Ms. Leth-Espensen (the "Applicant") applied for an HDRB review. **[Ex. G, HD Application, at 113-114]**

The Staff set an HDRB hearing on her application for December 10, 2024. The Applicant requested that the HDRB consider granting an exception to the fence height restrictions in the City Code, and she offered several reasons why she believed she fulfilled the six exception criteria. **[Ex. D, Staff Memo, at 88-89]**

B. Staff Recommendations

In its Staff Report to the HDRB, the Staff recommended that the application for the fence be denied. **[Ex. C, Minutes, at 35; Ex. D, Staff Report, at 44]** The Staff cited the height restrictions in the BCD East Marcy Subdistrict and the General Design Standards for the Historic Districts under SFCC Section 14-5.2(D) as bases for denying the application. **[Ex. C, Minutes, at 34-35; Ex. D, Staff Report, at 45-48]** In response to the request for exceptions, the Staff provided the following analysis in support of the recommendation to deny:

- Although high retaining walls and yard walls appear on the north side of Paseo de Peralta, they are required because the slope on the north side of the street is extreme while the slope on the south side of the street is more gradual;

- Low yard walls and fences, consistent with the BCD EAS ordinance, and fenestrated walls and fences, such as picket and wrought-iron fences are more characteristic of the south side of the street;

- The Applicant's need for security is no greater than that of other residents on this street, and their houses have low fences and yard walls, and the Applicant could increase her safety by measures other than a high fence that obstructs the view of the house;

- The hardships the Applicant faces without a high fence on her lot line affect all property owners on that streetscape, and the exception criteria requires the Applicant to demonstrate that the circumstances justifying an exception are unique to her property; and

- It is immaterial that the structure on the Applicant's property is a live-in workplace, as there are both residential and commercial properties on that block. **[Ex. D, Staff Report, at 48-52]**

C. Board Decision to Deny Application

On December 10, 2024, the HDRB held a public hearing about the application and request for an exception. Stefanie Beninato represented the Appellant in that hearing. **[Ex. C, Minutes, at 35]** Five members of the Board participated in the hearing. Because the chair only has a vote in the event of a tie, four members voted. **[City Resolution # 2009-20, Art. 11, § 2(B); Ex. C, Minutes, at 42]** The Staff gave a history of the property, described the project application, and recommended that the HDRB deny the project and enter findings that the exception criteria had not been met. **[Ex. C, Minutes, at 34-35]**

In the Applicant's presentation, Ms. Beninato asked Board Member Jennifer Biedscheid to disqualify herself. **[Ex. C, Minutes, at 35-36]** Ms. Beninato expressed concern that Member Biedscheid had a bias against the Applicant because the Applicant had posted a placard on her fence urging voters not to retain Judge Bryan Biedscheid, Jennifer Biedscheid's husband, in the 2024 general election. Member Biedscheid declined to disqualify herself, assuring the Applicant she had no bias, and that her service to the HDRB is not influenced by her husband's career or by cases that he presides over. **[Ex. C, Minutes, at 35-36]**

Ms. Beninato said that when the property had a low, wire fence, salt from the City's treatment of the icy street in the winter damaged the front of the house, and pedestrians coming and going from nearby parks trespassed on the property. **[Ex. C, Minutes, at 36]** Ms. Beninato gave examples of other properties in the Historic Districts with high fences, including one at the Girls, Inc., property at Paseo de Peralta and Hillside Avenue. **[Ex. C, Minutes, at 37]** Ms. Leth-Espensen also addressed the Board, testifying that strangers and homeless persons would pass through her property when she had a low fence, and the contractor told her that if the fence was not 6 feet or taller she would not need a permit. She felt that the fence was a solution to the increased traffic, tourists, and criminal elements of the city. **[Ex. C, Minutes, at 37]** Two members of the public addressed the Board, both expressing disapproval of the fence. **[Ex. C, Minutes, at 40-41]**

Member John Bienvenu moved, and the Board voted unanimously among the four voting members to deny the application, and to deny the height exception the Applicant sought. **[Ex. C, Minutes, at 42]** On February 11, 2025, the HDRB adopted written Findings of Fact and Conclusions of Law reflecting its decisions regarding the Property. **[Ex. B, Findings & Conclusions, at 25-29]**

D. Requirement for Board of Adjustment Review

Although the exception criteria under SFCC Section 14-5.2(C)(5)(c) allow the HDRB to consider many circumstances affecting a property when it reviews a project proposal, variations from the Business Capital Standards can be approved only by the Board of Adjustment. **[SFCC Sections 14-2.4 (Board of Adjustment); 14-2.5 (BCD Design Review Committee); 14-3.16 (Variances)]** For this reason, if the Governing Body grants the Appellant's appeal, the Appellant will have to submit her project to the Board of Adjustment for permission to exceed the height restrictions of the BCD EAS.

III. APPEAL TO THE GOVERNING BODY

A. Applicable Code Sections

Under SFCC Section 14-3.17(A)(2), an appeal of an HDRB decision may be filed for one or more of the following reasons:

(a) To contest non-compliance of a final action with Chapter 14 or

Sections 3-21-1 through 3-21-14 NMSA 1978 (the New Mexico zoning enabling act);

(b) To contest the application of SFCC Chapter 14; or
(c) To appeal a decision lacking substantial evidence to support it.

Although the Appellant claims a violation of her constitutional right of "equal protection," SFCC Section 14-3.17(A)(2) does not permit the Governing Body to base a decision on such a claim.

B. The Appellants' Claims

In her Verified Appeal Petition ("Petition"), the Appellant claims the HDRB made an arbitrary and capricious ruling which was not based on the law or the facts of the case. **[Ex. A, Petition, at 4]** She claims:

1. She is in danger from trespass, vandalism and burglaries, and the Board's decision impairs her physical safety and the peaceful enjoyment of her property. **[Ex. A, Petition, at 3, 7]**

2. Other parts of her property have coyote fencing, and the disapproval of a coyote fence on the street frontage requires two different types of fencing, creates an aesthetically incongruous and disharmonious property and devalues the property. **[Ex. A, Petition, at 3-5]**

3. Coyote fencing is commonplace on the Paseo de Peralta streetscape and elsewhere on the block, notably in the Castillo Plaza, which provides off-street parking to the Appellant's property and other business on that block. **[Ex. A, Petition, at 4-6]**

4. The Appellant has been treated unfairly because property owners at 803 Agua Fria St. and 301 Hillside Ave. (Girls, Inc.) have been permitted to build high coyote fences, the property owners at 803 Agua Fria St. have not complied with conditions the HDRB imposed, and they have not been issued a Municipal Court citation. **[Ex. A, Petition, at 3-5, 9]**

5. The Appellant has suffered a disadvantage by the City's failure to adopt Findings of Fact and Conclusions of Law within 35 days after the HDRB hearing, and the time for the Appellant to file her Appeal starts running on the 35th day after the hearing. **[Ex. A, Petition, at 3-4]**

6. The Board did not correctly apply the definition of "Streetscape," set forth in SFCC Section 14-12.1, which includes both sides of the street for 300 feet in either direction of the subject property. **[Ex. A, Petition, at 4-5]**

7. Member Biedscheid's refusal to disqualify herself resulted in an unfair hearing to the Appellant. **[Ex. A, Petition, at 10-11]**

IV. ANALYSIS

A. Evidence Supporting the Board's Decision

The HDRB had evidence to support its decision to deny the application and to deny the exception the Appellant requested. The Board spent an hour and 15 minutes on this hearing, there are 14 pages of Minutes for this discussion and Board's decision, and it is clear that the Board gave the Appellant and her attorney (Ms. Beninato) ample opportunity to offer evidence and to answer all the Board's questions. **[Ex. C, Minutes, at 32-43]**

In response to the arguments made by the Appellant in her Verified Appeal Petition, the Governing Body may consider, with respect to each of the Appellant's arguments, the following:

1. **The Appellant's exposure to safety hazards:**

The Board found that there are other, unprotected points of access to the house, notably on the east and west sides, and there was no proof that the coyote fence on the street front provides greater protection than any other fence. **[Ex. B, Findings & Conclusions, at 27; Ex. C, Minutes, at 38]** There is no barrier separating the Appellant's house from the adjacent property to the west, which has only a low yard wall, and the coyote fence on the Appellant's north lot line does nothing to prevent access through the neighboring property. **[Ex. C, Minutes, at 38; Ex. D, Staff Report, at 96-97]** The HDRB also found that hazards to the Appellant can be mitigated by other designs, such a lower, picket fence which could have pointed pickets, or a wrought-iron fence which could have pointed finials. **[Ex. B, Findings & Conclusions, at 27; Ex. C, Minutes, at 39-40]**

The exception criteria require special circumstances not applicable to other lands or structures. **[SFCC Section 14-5.2(C)(5)(c)(iv)]** The HDRB found that the Appellant had not shown a need for safety greater than at any other heavily traveled location, and that all the properties on the south side of Paseo de Peralta abut the sidewalk or have a minimal setback, and are similar to the subject property. **[Ex. B, Findings and Conclusions, at 27]**

2. **Aesthetic impairment from disallowance of coyote fencing:**

Photos presented to the Board depicting the property when it had a lower fence show that persons passing on Paseo de Peralta cannot see the coyote fencing in the back of the property. Trees and foliage on the east and west sides of the Appellant's house obstruct the view of the back yard, and fencing in the interior Castillo Plaza is not visible even from the unfenced adjacent property to the west. **[Ex. D, Staff Report, at 46, 96-97]** The Board found the height and its lack of fenestration, greatly obstructing the view of the house, as the fence's problematic characteristics, not necessarily its composition of latillas. **[Ex. C, Minutes, at 38, 40]**

The property owner's personal sense of aesthetics is not among the criteria the Board must consider, for that would make Code-mandated design standards meaningless to the extent a property owner does not like them. **[SFCC Section 14-5.2(C)(5)(c)]** The Board must consider the property's harmony with the streetscape, the preservation of historic areas and the "qualities relating to the history of Santa Fe." **[SFCC Section 14-5.2(A)(1)]** The history of the BCD EAS does not support high, solid fences. **[Ex. D, Staff Report, at 48-49]**

3. **Coyote fencing found elsewhere on the block:**

In a hearing in July, 2024, the Board approved a six-foot-high coyote fence at Girls, Inc., at 301 Hillside Ave., which is down the street to the east and visible from 614 Paseo de Peralta. **[Case # 2024-8626-HDRB]** However, the section of 301 Hillside Ave. that abuts Paseo de Peralta is on the north side of the street, the north side of Paseo de Peralta is outside the BCD EAS, and the fence height restrictions of the BCD EAS do not apply there. **[Ex. H, BCD Map Detail, at 115]**

The Board approved exception criteria for the fence at the Girls, Inc., property, and structures approved by a variance or exception are excluded from the streetscape by SFCC Section 14-5.2(D)(9)(b)(ii). This section reads: "When determining streetscape, the following structure types shall be excluded: . . . existing structures approved by way of a variance or exception, and yard walls and fences whose height is inconsistent with the predominant height of yard walls and fences on an applicable streetscape." When approving the fence at Girls, Inc., the Board considered that that property already had coyote fencing, and a six-foot-high chain-link fence.

4. **High fences have been approved at 803 Agua Fria St. and 301 Hillside Ave.:**

The standards for the BCD EAS, Sections 14-7.4(A), control the *south* side of Paseo de Peralta only, and 301 Hillside Ave. (Girls, Inc.) is on the north side. **[Ex. H, BCD Map Detail, at 115]** The Business Capital District's height limitations are more restrictive than the Historic District's, and SFCC Section 1.7(B), reads that the more restrictive limitation prevails over the less restrictive.

803 Agua Fria St. is in a different historic district: the Westside-Guadalupe Historic District, controlled by a different section of the Historic Districts Code, SFCC Section 14-5.2(I). It is also on a different streetscape. And, because it is not in the Business Capital District or any subdistrict of the BCD, average height on the streetscape is the sole height regulation that applies under the Code. SFCC Section 14-5.2(I)(1)(f) specifically permits coyote fencing for the Westside-Guadalupe Historic District, but coyote fencing is solely at the Board's discretion for the Downtown and Eastside Historic District, SFCC Section 14-5.2(E).

Even if there were non-conforming properties in the vicinity of other structures or walls/fences that do not comply with the City Code, it is no defense to a prosecution for violating an ordinance that others have been permitted to violate it without prosecution or punishment. *City of Santa Fe v. Gamble-Skogmo, Inc.*, 1964-NMSC-016, ¶ 24, 73 N.M. 410, 389 P.2d 13 (1964); *Kansas City v. Wilhoit*, 237 S.W.2d 919, 924 (Kan.App. 1951).

5. **Delay in adopting Findings of Fact and Conclusions of Law:**

The Board approved the Findings of Fact and Conclusions of Law for 614 Paseo de Peralta in its meeting on February 11, 2025, which was 63 days after the HDRB heard the

Appellant's presentation on the project. **[Ex. B, Findings and Conclusions, at 29]** An Appellant's Appeal Petition must be submitted not later than the 50th day after a Land Use Board hearing, in accordance with SFCC Section 14-3.17(C)(1)(c) and (4)(b), but the Appellant does not have to wait until the HDRB approves the Findings of Fact and Conclusions of Law for the project to get a clear understanding how the Board voted. The Appellant can review any dialogue that took place in the hearing by replaying the hearing on the YouTube site. The link to the YouTube video is printed on the Agenda for the respective HDRB hearing.

There is no disadvantage to the Appellant that the Findings and Conclusions are approved after a Land Use Appeal comes due, as they do not control the discussion at the Appeal Hearing. The Appeal procedure, controlled by City Resolution # 2011-24, reads that the parties to the Appeal Hearing may introduce evidence that was not previously part of the Record. **[City Resolution # 2011-24(VIII)(E), Other Evidence]**

6. **Code definition of "streetscape" includes both sides of the street for 300 feet both directions:**

The Code provision the Appellants cite, SFCC Section 14-5.2(D)(9)(a)(ii)(B), is not the only Code section setting the considerations for streetscapes and fence heights. Also bearing on the height calculation are the six Streetscape Standards, found at SFCC Section 14-5.2(D)(9)(b)(i-vi). These standards exclude the Girls, Inc., property at 301 Hillside Ave. because structures approved by variance or exception are not considered, and yard walls and fences whose height is inconsistent with the predominant height of yard walls and fences on the streetscape are not considered. It is immaterial that "streetscape" includes both sides of the street under SFCC Section 14-5.2(D)(9)(a)(ii) because the BCD EAS standards, SFCC Section 14-7.4(A), are more restrictive than the streetscape definition at SFCC Section 14-5.2(D)(9), and under the Code the more restrictive limitation prevails. **[SFCC Section 14-1.7(B)]**

Also, the definition of "streetscape" at SFCC Section 14-12.1, requires the Board to consider the visual character of a street according to its topography, the pattern of structures and open space, building and wall setbacks, street and architectural design, and heights, widths and proportions of the structures. The length of the streetscape under SFCC Section 14-5.2(D)(9)(a)(ii)(B) is only part of the equation.

7. **Member Biedscheid's refusal to disqualify herself:**

The sole reason the Appellant gave for her request that Board Member Jennifer Biedscheid recuse herself was that the Appellant had posted a placard on her fence urging voters not to retain Judge Bryan Biedscheid, Member Biedscheid's husband, in the 2024 general election. **[Ex. C, Minutes, at 35-36]** A person presiding over a quasi-judicial proceeding, such as a land-use hearing, is held to the same standard as a judge, with respect to matters which affect the hearing officer's family member. Rule 21-211(3) NMRA reads that a judge must disqualify herself when "[t]he judge knows that he or she, individually or as a fiduciary, or the judge's spouse, domestic partner, parent, or child, or any other member of the judge's family residing in the judge's household, has an *economic interest* in the subject matter in controversy

or is a party to the proceeding." (Emphasis added.) And under the City Code, a conflict of interest means a prospect of *pecuniary*, or financial, gain or loss from an official act of a public official or any member of her family. **[SFCC Section 1-7.5]** There was never any claim that Member Biedschied or other relevant person, such as a member of her family or family's business, had a financial interest in this project, or that she would gain financially from its defeat.

Member Biedscheid was one of the four voting members of the HDRB who unanimously denied the exception for the fence project. **[Ex. C, Minutes, at 42]** Even if Member Biedschied recused herself, the vote would have been 3-0 to deny it, a unanimous outcome.

B. Standard of Review

On appeal, the Governing Body should independently apply the Code provisions to the facts of this case. *See* Appendix (relevant Code provisions).

V. CONCLUSION

In considering the Appellant's appeal, the Governing Body must address the following question:

Has the Appellant conclusively demonstrated she fulfills the six criteria for an exception to the Historic District standards?

If the answer is "**no**," then the Governing Body should deny the appeal.

If the answer is "**yes**," then the Governing Body should grant the appeal and state the facts supporting each of the six criteria.

VI. MOTION OPTIONS

There are two options for motions in this case:

Motion 1: I move to deny the appeal, on the grounds that the 5-foot-8-inch, solid fence is non-conforming to Historic District height and design standards for that streetscape and the Appellants have not conclusively demonstrated the six criteria for an exception to these standards.

Motion 2: I move to grant the appeal, on the grounds that, although the 5-foot-8-inch, solid fence is non-conforming to Historic District height and design standards for that streetscape, the Appellants have conclusively demonstrated the six exception criteria. The facts supporting the exception criteria are (state (i) through (vi)):

APPENDIX:
EXCERPTS FROM SANTA FE CITY CODE

§ 14-1.7 – Conflicting Provisions

. . .

(B) In the case of a conflict within Chapter 14, or between Chapter 14 and any other ordinance, resolution or regulation, the more restrictive limitation or requirement shall prevail, unless an exception is specifically stated, and the provision shall govern that requires:

(1) the greater width or size of yards, courts or other open spaces;
(2) the lower height of structure or lesser number of stories;
(3) the greater percentage of lot or land to be left unoccupied; or
(4) other higher standards.

§ 14-5.2 – Historic Districts

(A) General Provisions

(1) General Purpose

In order to promote the economic, cultural, and general welfare of the people of the city and to ensure the harmonious, orderly and efficient growth and development of the city, it is deemed essential by the governing body that the qualities relating to the history of Santa Fe, and a harmonious outward appearance, which preserve property values and attract tourists and residents alike, be preserved, some of these qualities being:

(a) The continued existence and preservation of historical areas and buildings;
(b) The continued construction of buildings in the historic styles; and

(c) A general harmony as to style, form, color, height, proportion, texture and material between buildings of historic design and those of more modern design.

. . .

(C) Regulation of Significant and Contributing Structures in the Historic Districts

(1) Purpose and Intent

It is intended that:

(a) Each structure to be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as the addition of conjectural features or architectural elements from other buildings, shall not be undertaken;

(b) Changes to structures that have acquired historic significance in their own right shall be retained and preserved, recognizing that most structures change over time;

(c) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a structure be preserved; and

(d) New additions and related or adjacent new construction be undertaken in such a manner that if removed in the future, the original form and integrity of the historic property and its environment would be unimpaired.

. . .

(5) Exceptions

Staff shall determine if an exception to this section is required. The historic board may grant or deny an exception to the regulations set forth in this section provided that such exception does not exceed the underlying zoning.

. . .

(c) Height, Pitch, Scale, Massing, and Floor Stepbacks

The board is the city administrative board reviewing and granting or denying requests for exceptions from regulations set forth in Subsection 14-5.2(D)(9). . . . The board may grant exceptions and impose conditions thereon to Subsection 14-5.2(D)(9) for height of structures within the historic districts as specified in Subsection 14-5.2(D)(9)(a). In order to approve an exception, the board shall make findings of fact that the applicant conclusively demonstrated that requested exceptions comply with all the criteria listed as follows: (Ord. No. 2023-27 § 1)

(i) Do not damage the character of the streetscape;

(ii) Prevent a hardship to the applicant or an injury to the public welfare;

(iii) Strengthen the unique heterogeneous character of the city by providing a full range of design options to ensure that residents can continue to reside within the historic districts;

(iv) Are due to special conditions and circumstances which are peculiar to the land or structure involved and which are not applicable to other lands or structures in the related streetscape;

(v) Are due to special conditions and circumstances which are not a result of the actions of the applicant; and

(vi) Provide the least negative impact with respect to the purpose of this section as set forth in Subsection 14-5.2(A)(1).

(D) General Design Standards for All H Districts

In any review of proposed additions or alterations to structures that have been declared significant or contributing in any historic district or a landmark in any part of the city, the following standards shall be met:

(1) General

(a) The status of a significant, contributing, or landmark structure shall be retained and preserved. If a proposed alteration will cause a structure to lose its significant, contributing, or landmark status, the application shall be denied. The removal of historic materials or alteration of architectural features and spaces that embody the status shall be prohibited.

(b) If a proposed alteration or new construction will cause an adjacent structure to lose its significant, contributing, or landmark status, the application may be denied.

. . .

(9) Height, Pitch, Scale, Massing and Floor Stepbacks

The height, pitch, scale, and massing of any structure in a historic district, as defined in this section, shall be limited as provided for in this section, unless further restricted within this chapter.

(a) Applicability

The following sections identify specific areas and specific projects subject to this section. Planning and land use department staff shall determine whether or not properties are included within this section. (Ord. No. 2007-45 § 30; Ord. # 2020-22, § 16)

(i) Specific Areas

A. The authority to limit the height of any structure, as provided in this section, shall apply within the downtown and eastside, Don Gaspar, historic transition, and Westside-Guadalupe historic districts.

. . .

(ii) Project Types

Planning and land use department staff shall determine the applicability of this section to individual projects and the applicable streetscape as follows: (Ord. # 2007-45 § 30; Ord. # 2020-22, § 16)

A. If the project location is sited on a street which extends linearly with no interruptions or truncations, the streetscape shall include buildings, yard walls, and fences on both sides of the street on which the proposed building, yard wall, or fence is to be located, for a distance of six hundred (600) feet measured from the midpoint of the street facing façade(s) of the proposed building, yard wall, or fence in both directions parallel to the street centerline. See Illustration 14-5.2-1, “Linear Street - No Interruptions or Truncations.”

B. If the streetscape is truncated by an intersecting block or a

visual intrusion (such as a curve or turn in the streetscape) before the six hundred (600) feet is measured, the streetscape shall include all buildings, yard walls, or fences up to and including those which front the intersection or intrusion. See Illustration 14-5.2-2, "Truncation by an Intersecting Block or Visual Intrusion."

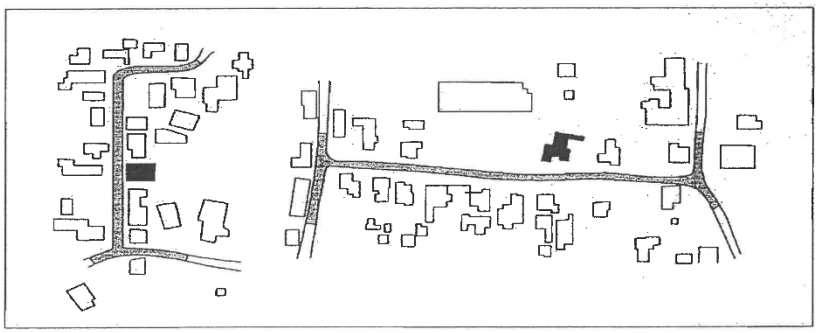

Illustration 14-5.2-2 Truncation by an Intersecting Block or Visual Intersection

(b) Streetscape Standards

. . .

(ii) When determining streetscape, the following structure types shall be excluded: institutional, buildings originally constructed to house a hotel, residential multiple unit, buildings with non-historic multiple stories, non-historic pitched roof, auxiliary outbuildings such as sheds, existing structures approved by way of a variance or exception, and yard walls and fences whose height is inconsistent with the predominant height of yard walls and fences on an applicable streetscape.

. . .

(c) Height

. . .

(ii) In exercising its authority under this section, the board shall limit the height of structures as set forth in this section. Heights of existing structures shall be as set forth on the official map of building heights in the historic districts.

. . .

C. Yard walls and fences shall be limited to a height that does not exceed the average of the height of other yard walls and fences in the streetscape.

(iii) In historic districts, height shall be the vertical distance measured between the highest part of a structure and the existing grade or finished grade, whichever is more restrictive, at the midpoint of the street facing facade, excluding rooftop appurtenances, the increased height of walls or fences over pedestrian and vehicular openings, and gates (either in opened or closed position).

. . .

HARM

1 Severe impairment of physical safety and security, loss of peaceful enjoyment of her property, loss of reasonable use of the yard on her property due to periodic trespasses, vandalism and break in. Increased stress. The owner was in the house when the break in occurred.

2 Economic Devaluation of property due to periodic trespasses and vandalism

3 Aesthetic harm: The insistence of the Board that some other type of fencing than coyote fencing should be used despite the fact that coyote fencing has been on the property for decades. Having two types of fencing meeting is aesthetically incongruous and produces disharmony in the owner who has a highly developed aesthetic/artist sense and values. It devalues the property to have two inconsistent fencing types meet on the same property.

4 Emotional distress: The need to go to court to defend against a misdemeanor concerning the fence filed in city court. The case has been ongoing for 18 months in large part due to no planner being assigned to the case and the city apparently losing the application submitted by Paul Duran, city LUD employee on 1 March 2024. My client believes there are very few cases in which the city engages in this type of criminal action. For example, 803 Agua Fria built a coyote fence to 6 ft on a significant house without permission. The owners got redtagged and came to the Board. The HDRB allowed this fence with certain conditions. Eight months later, the owners have not met the conditions (lower fence slightly, put cross bracing on the inside), but the city is not in court with them on noncompliance.

5 Economic harm the cost of the construction of the fence ($2800) and the potential cost of its removal

6 Lack of equal protection— the HDRB stated that it allowed the owners of 803 Agua Fria and Girls Inc to have higher fences based solely on claims of safety yet denied similar action in this case while acknowledging the precedent the Board set in the other two cases. Girls Inc is within the streetscape of 614 Paseo de Peralta. See Basis for Appeal Unequal Treatment/Protection

7 The cost of an exception in front of HDRB when it seems that perhaps none was needed See Wall and Fence Guidelines: Board can grant an additional 20 percent of height beyond what it is allowed to grant in a historic district) "Wall heights should be carefully regulated by HDRB standards …and should be restricted so as not to increase the allowable height for the streetscape by more than 20 percent") $550 was for the HDRB application and exception request with additional representative fees.) And the cost of this appeal ($200).

8 Due Process/Equal Protection We have only an action letter from the HDRB but no adoption of findings and conclusions within 49 days of the oral decision. We are operating with a limited capacity to respond in accordance with the deadline that creates a disadvantage (14-3.17C4b) for the owner in creating a legally adequate record on which to base a further appeal if necessary. This type of legal harm has safety and economic effects. We are using the reasons given in the

Attachment to Appeal Form

city's response to 614 Paseo de Peralta's application for an exception. The Motion adopted the reasons set forth in the staff report to deny.

BASES FOR APPEAL

The owner requested a height variance on a fence to 5 ft 8 Inches when the HDRB can grant 4 ft 6 inches. The HDRB decision to deny the exception was arbitrary, capricious not based on law or fact and produced unequal protection. The HDRB denial was based on lack of fenestration, height and materials adopting the reasons in the staff's report which stated it was deleterious to the larger downtown/eastside streetscape; to the more immediate streetscape; and that it may potentially impact the character of the house. YouTube 2:39

I General Objection

1. FENCING MATERIAL

1A The decision was based on speculation and violates 14-5.2 C1a and violates HDRB policy of requiring consistent fencing/walls on an individual property; it ignores the existence of coyote fencing in the larger Downtown Eastside historic district as well as within this smaller streetscape. There is no law, and none was cited, that prohibits the construction of the fence because it will impact the "overall character" of the residence/business at 614 Paseo de Peralta.

II REPLY To CITY GROUNDS IN STAFF REPORT USED AS BASIS FOR HDRB DECISION

2A. RESPONSE TO CRITERIA ONE The streetscape has a variety of fences and walls within the streetscape as defined within the HDR ordinance. The staff ignored the existence of coyote fencing that has been on the subject property on Castillo Place for decades and coyote fencing in the streetscape directly across the street between a privately owned property and the Cross of the Martyrs, as well at Girls Inc which is within the streetscape. Moreover, there is several examples of coyote fencing within that square block. Obviously the Downtown/Eastside district allows coyote fencing as an approved fencing type in this district. (See Photos: Streetscape Looking East (7/24 City Docs) p 5/9 Staff Report Street; p15/21 HDRB Application; and Girls Inc and Otero/Castillo Place photos submitted with this Appeal.)

2B The Board and staff did not follow the definition of streetscape under the Historic code which includes both sides of the street and for 300 ft within either direction. Given those parameters, there are 10 and 8 ft masonry walls at street level (Photo p15/21 HDRB Application); a visible coyote fence that divides the Cross of the Martyrs from the adjoining property Streetscape Looking East (7/24 City Docs) ; Girls Inc coyote fencing; coyote fencing on the Castillo Pl side of this property (p2/24 City Docs) and a house wall at the sidewalk (zero lot line) on the adjoining property to 614 paseo de Peralta (Photo p15/21 ibid). The definition of Streetscape (14-12 Definitions) is "The visual character of a street or section of a street as defined by topography; the pattern of structures and open space ; building and wall setbacks; street design; architectural design; and heights, widths and proportions of structures , fixtures and graphics."

2C It does not make exceptions for changes in zoning or in topography. The staff acknowledged the existence of these taller walls and completely omitted consideration of Girls Inc fences which

are clearly in the streetscape. Staff's justification was that Girls Inc "is part of the Hillside streetscape and is part of a different zone district…". It is clearly in two streetscapes since it sits at an intersection. The staff report does not address the house wall at the street or the impact of these high masonry walls on the streetscape or Girls Inc when it stated that the coyote fencing was "deleterious" to this immediate streetscape.(YouTube 3:39)

2D Even if there is an intersection where Girls Inc is located, the 14-5.2-2 indicates "If the streetscape is truncated by an intersecting block or a visual intrusion (such as a curve or turn in the streetscape) before the six hundred (600) feet is measured, the streetscape shall include all buildings , yard walls , or fences up to and including those which front the intersection or intrusion." That definition clearly includes Girls Inc. and all the properties on the north side of the street. The staff stated you could not see Girls Inc from the subject property—that is an untrue statement of fact. See photos Photo Streetscape Looking East (7/24 City Docs) and 14/21 HDRB App). We are attaching additional photos especially of how the exception for the 6 ft coyote fencing at Girls Inc granted by the HBoard is clearly within the streetscape and the fences' overwhelming dominance. See unequal protection below

2E The Board has a precedent of requiring fencing or wall materials to be consistent on the same property. The Board ignored the existence of similar coyote fencing noted on the 2003 survey submitted as Existing and Proposed Site Plan in HDRB Application p16/21 which references an earlier survey as well as photos of the fencing from years prior that the staff produced in City Documents pg 2/34 even though staff stated there were no earlier cases. The existing coyote fencing apparently went unnoticed by the two members who came on the field trip.

2F The HDRB and its staff and the complainant all speculated on the existence of a white picket fence at this home based on its architectural type—not based on historical accuracy (real evidence). In fact, the staff contradicted itself by saying there was no evidence of any fencing on E Marcy and maybe in this area. (YouTube 2:44) Attached Otero/Castillo Place Photos show several examples of coyote fencing in the square block in which the subject property is located.

2G The staff is relying on a very poor quality photo from a 1985 HPIC to determine the fencing on the property. (p4/9 Staff Report) It is not at all clear what type of fencing and how tall it might be etc. Additionally, staff said the porch was open in 1985 but in my professional opinion, it looks like the porch is enclosed on one side by 1985—the HIPC describes it as "recessed in the building volume" before the current owner took possession (1/34 City Docs). Although complainant Mann testified to the existence of a city report on white picket fencing in this area, (YouTube 3:31) the city never produced any such report for this case.

2H The ordinance prohibits conjecture and speculation: 14-5.2C1a Each structure to be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development , such as the addition of conjectural features or architectural elements from other buildings , shall not be undertaken."

2I Coyote fencing is an appropriate fencing within the Downtown Eastside Historic district and is traditionally found on properties with adobe structures. The statement that this type of fencing is "deleterious to the larger streetscape of the DownTown Eastside" (YouTube 2:39) would be laughable if it were not so grossly incompetent or biased. Despite the sloped roof and non-portal type of porch, this structure is adobe and thus, coyote fencing is historically appropriate. See also Otero/Castillo Pl Photos.
According to the owner, the Antons who built the structure purchased a Sears home plan but used their own materials because they could not afford the kit—only the plan. It should be noted that the 1912 King's Map does not show the current structure or the Antons as owners in that area despite complainant Mann's testimony to Anton ownership prior to 1912. The 1957 aerial shows Hilliside all but disappearing at the curve where the property is located as if Hillside became a one land dirt road. (both on p 8 Staff Report) The establishment of Paseo de Peralta in the 1960s was government action that changed the intensity of use and the width of the street to some extent.

3 **REPLY TO CITY RESPONSE TO CRITERION ii**
3A Although owner acknowledges that the goals of the HDRB are partially correct, Ord 14-5.2A states in its first sentence: "In order to promote the economic, cultural, and general welfare of the people of the city and to ensure the harmonious, orderly and efficient growth and development of the city , it is deemed essential by the governing body that the qualities relating to the history of Santa Fe, and a harmonious outward appearance, which preserve property values and attract tourists and residents alike…". It then goes on to focus on buildings and the harmony between historic and newer buildings.

3B Staff's reasons are not based on law or fact. The statement that coyote fencing "threatens the historic status of the building" is conclusory and is unsupported by law or fact. The Guidelines for Walls and Fences says a fence or wall will not be connected to a significant structure (p2). It is clear from the discussion and Plan submitted, that the fence does not touch the primary façade of the contributing structure which is prohibited in 14-5.2D2c concerning additions to contributing structures. It is set back 10 ft from the primary façade on the W side and does not touch the house See 14-5.2D2d. It should also be noted that the height chart in the Wall and Fence Guidelines (14.70.20 SFCC 1987 does not exist.

3C We can see from Photo Streetscape Looking East (7/24 City Docs) that there is a variety of fencing/wall types in the area, and the coyote fencing on the subject property is not at all disruptive given the fencing/walls directly across the street and the variety of fencing within the designated streetscape. Additionally, according to Member Bienvenu, the exception for 6 ft high fencing on top of retaining walls at Girls Inc will "literally tower over the streetscape." (YouTube 3:31) The Girls Inc fencing is the disruption in the streetscape—not this shorter fencing which is of very little length compared to the fencing at Girls Inc. See Equal Treatment/Protection below. See additional photos with this Appeal.

4 REPLY TO CITY RESPONSE CRITIERION iii

4AThe staff completely ignored two other cases (803 Agua Fria and Girls Inc) where, as pointed out by Member Bienvenu the Board granted height exceptions based solely on safety and which Member Bienvenu said set precedent for this case. YouTube 3:21-3:24 He found the subject property to be unique for a variety of reasons as he stated. However, he never addressed why the Board should treat this property differently from Girls Inc which did no redesign or at 803 Agua Fria where he himself redesigned the fence by imposing conditions lowering the height, staggering top of fence and reversing the cross bracing. See Unequal Treatment/Protection Procedural Due Process below

4B The applicant has clearly stated her concerns for her personal safety and her inability to peacefully enjoy her property before the fencing was in place. The owner is the only owner who continues to live and work on the property. The other properties that were in this zone post 1960 and now part of the BCD are all investment properties—none of the owners occupy these buildings let alone run a business from the location. As stated in Applicant response iii, the owner is and has been a full-time resident at the address since 1988 and in order to continue to reside there safely needs to raise the fence to its current built height. There have been several 911 calls and a break in at the residence which is located in close proximity to two parks-the Cross of the Martyrs and the Tommy Macione Park, the latter park's proximity used as a justification by Girls Inc for needing the safety of higher fences. The entrance to the Cross of the Martyrs is directly across from the subject property. See Affidavit of Miriam Leth-Espensen Attached

4C The Board usually favors those using the rationale of aging in place as part of the exception criteria, but here where someone is literally wanting to maintain her current residence and business safely on a property that she has owned and occupied for over 37 years suddenly aging in place is not a value regarded by the Board.

4D The staff does not take into account that the owner's property is a shortcut from a parking lot on Otero with a walkway into Castillo Place. Her property is directly across from the stairs at the Cross of the Martyrs. This parking area and walkway were established to accommodate the 21 rooms on the Inn of the Paseo a couple of lots down from the subject property in the late 1990s/early 21st century.

4E The owner bought a gun after the breakin and went to be trained at a gun range. The instructor advised her to get rid of the gun because she was never going to fire it at someone. (Apparently she had excellent aim when the gun had no ammo but when it was actually loaded, she shot wild) Motion detectors do not prevent trespass—they only make you get up to see what activated them. Alarms means someone is already in your home. Neither really assure peaceful enjoyment of the property or personal safety and security. The owner has not made a 911 call since the fencing went up in August 2023.

5 REPLY TO CITY RESPONSE CRITERION iv

5A It is untrue that this lot is not unique. It is at the most severe part of the curve in that streetscape. It factually untrue that it has the same setbacks as the other three structures to the

east. It only has a 5.5 ft setback from the bedroom. At 618 Paseo de Peralta next door, the setback is closer to 8 ft and there is a deep porch that runs the length of the building on the street side. The next building east is approximately 10 ft back and also has a porch that runs the length of the building on that side.

5B The structure to the west is of a different historic style and seemingly was on the 1912 Kings Map (p 8/9 Staff report) and is now directly next to the sidewalk. It is impossible to know the setback of this structure before Paseo de Peralta was completely formed and before a sidewalk was put in on the south side of the street. See also 4D re location across from the entry to the Cross of the Martyrs. See YouTube 3:20-3:22 where Bienvenu lays out some of the unique characteristics of the property.

5C Whether other owners of these properties could decide to live-work in these structures is irrelevant to the issues on this property at this time. "Each structure to be recognized as a physical record of its time, place, and use. See 14-5.21a. Again staff is speculating on future possible uses by possible owners of other properties.

5D The maps used as exhibits by the city are unhelpful. The 1912 King's Map does not show the current structure or the Antons as owners in that area. The 1957 aerial shows Hilliside all but disappearing at the curve where subject property is located as if it became a one-lane dirt road.(p 8/9 City Report)

6 REPLY TO CITY RESPONSE CRITERION v

6AThe staff ignores the fact that the owner was advised by Fabian Nava, an alleged licensed contractor that she did not need a permit if the fence was under 6 ft. It is a false and defamatory accusation that the owner brought it upon herself by ignoring the permit requirements. See Owner email to city staff p 20/21 HDRB Application. Despite Ms Lamboy's attempt to defame the owner, the owner in August 2023 met with the Ramon Saracon, who shortly after ended his employment with the city, The city issued a red tag in January 2024 and then a citation in February 2024. The owner met with Paul Duran on 1 March 2024 with the materials for an application. Despite Lamboy's characterization of Paul "just scanning documents", the email thread shows the owner applied for an exception to the HDRB with the help of Paul Duran on 1 March 2024. See p 29/34 City Docs). No one advised her upon receipt of the application that it was incomplete because it lacked the Preliminary Zoning Review (PZR). Ms Lamboy simply says she contacted the attorney who came to an August 2023 meeting with Ramon Saracon and other LUD staff (p20/34 City Docs). She knew or should have known that this attorney no longer represented the owner. There is no correspondence from Saracon or any report on picket fencing in the record. P Duran told the owner that she would be contacted when a new planner was assigned. See Unequal Treatment and Bias/Prejudice below. See Robert Kohn Affidavit.

6B The streetscape includes a house wall of over 10 feet in height on the property next door as well as retaining walls that are 8-10 ft high at the intersection of Otero and Paseo de Peralta so there clearly are walls that far exceed the height of this fence in the streetscape. (Photos p 11/21 HDRB Application and p 6/34 City Docs)

6C The part of the response "All residents may consider responsible and code compliant safety measures to secure their homes and businesses. The applicant should be held to the same

standard as all other structures in the streetscape," shows the staff ignored the exception given to Girls Inc for six-foot coyote fencing on retaining walls thus visually presents a 8-9 ft wall/fence and that was not denied for the reasons staff gave in this Response. See above re: HDRB granting exceptions to height on fencing to both Girls Inc and 803 Agua Fria based solely on safety. YouTube 3:20-3:24 See Unequal Treatment/Protection below

7 REPLY TO CITY RESPONSE TO CRITERION vi

7A The staff again denigrates the intention of the owner by stating that somehow she and her contractor "want to set the rules for permitting". The owner relied on the misrepresentation of the contractor. She has been trying to make it right ever since but is being pushed (Application Packet p 20/21 HDRB Application) to undertake to remove fencing and replace it with inconsistent fencing based on the staff's, the adjoining owner's or Board members' architectural preferences-not on historical documentation-- that will not give her the level of safety she needs and that has been afforded girls attending Girls Inc. for a few hours during the week. The statement that the fence produces a negative impact on the streetscape is conclusory and subjective. As stated above, it is the newly built fences at Girls Inc that are overwhelming dominant and intrusive on the streetscape See Photos attached and Member Bienvenu's remark that these fences recently approved by the Board solely based on safety were going "to tower over the streetscape." YouTube 3:20-3:21 See above.

III BASIS FOR APPEAL UNEQUAL TREATMENT/PROTECTION

IIIA The HDRB granted exceptions to height for both Girls Inc and 803 Agua Fria based solely on safety. In the latter case, the HBoard allowed the owners to keep the coyote fencing next to the significant structure even though rock walls were typical in this area and a detail of the house's columns. In both of these cases, owners justified the need because "someone looked in our bedroom windows" (803 Agua Fria) or fear of potential threats of pedophilia or other crimes from those in Tommy Maccione Park or possible domestic violence. The owner of the subject property had trespass and vandalism routinely on the property and has had to call 911 on a periodic basis. She has two nearby parks: The Cross of the Martyrs and Tommy Maccione Park near her home. Member Bienvenu stated that "personal aesthetic choices had to give way to safety". He also stated that he felt the Board had set a precedent with Girls Inc and 803 Agua Fria by granting height exceptions solely for safety reasons. He also remarked he did "not think there was a good design solution" [at 614 Paseo de Peralta] [given safety considerations] and insisted in his motion that the owner should reconsider the use of the materials [coyote fencing] and height while requiring no redesign for Girls Inc six-foot coyote fencing. (YouTube 3:20-3:24) After Raymond Mann's public testimony that was based on his personal preferences, hearsay, speculation unsupported by fact or law or irrelevant (I personally do not think coyote fencing should face the street"; "My son and I lived at 618 Paseo for ten years [in the 1990s]"), (YouTube3:30-34) Bienvenu changed his mind and decided it was not appropriate to design the fence "on the fly". He gave no reason for ignoring what he described as the unique conditions of this property and the need for safety when he made the motion to deny the exception. Member Bienvenu redesigned the coyote fencing design on the significant structure at 803 Agua Fria by conditioning approval to height, fenestration and bracing of the fence.

IIIB When the staff says the owner did not propose an alternative design that was true in discussions with the staff who apparently kept pushing for total removal of the fence and its replacement with white picket fences—resulting in two inconsistent style fences on the same property. Again this objection seems based on the staff's opinion that white picket fencing is more appropriate without any facts based on historical documentation to support that opinion. See above re prohibition on speculation and policy of consistent fences on same property. Even Member Bienvenu wanted the owner to consider a white picket fence because it "was architecturally appropriate even if not historic" YouTube 3:20 See 14-5.2 C1a

C This staff reason for denial also ignores the fact that at the HDRB meeting on 10 Dec 2024, the owner offered to reduce the height between 2 and 4 inches for the length of the fence on Paseo de Peralta. It is burdensome to ask her to remove it. It has proven effective in stopping trespassers and consequent 911 calls. Girls Inc was not required to redesign the fence and 803 Agua Fria was not required to replace the coyote fencing with fencing that was typical in the area of Agua Fria and Irvine.

IV BIAS The staff went to great lengths to have the HDRB know that the owner was a "scofflaw" even though this term and designation is irrelevant to the granting of an exception under the HDRB ordinance. Such negative terminology, if considered by the Board, is outside the law and fact (HDRB Application p 20/21) and could be prejudicial to the Board reviewing the owner's request objectively and neutrally if the Board reviewed the emails in City Docs.

1A Heather Lamboy says "I think we need to provide some background on the red-tag process and how Ms. Leth-Espensen has been a scofflaw. That is an important point to share with the HDRB."(Email 2 Dec 2024 20/34 City Docs) The use of the term "scofflaw" is irrelevant to whether the property should have been granted the exception and the board's consideration of this characterization, therefore, would be improper.

City staff has fifteen pages of emails in City Docs, but no emails from Ramon Saracon or any other staff member to the owner concerning the application—certainly no reports on the existence of white picket fences in the area that the owner ignored as complainant Mann testified to (YouTube3:31)—although apparently Saracon, like Mann, was influenced by what might be architecturally appropriate for Mann's structure rather than what was historically accurate to the subject property.

1 B The use of a photo of the fence as the first page of the packet that went to the HDRB with the sign DO NOT RETAIN BIEDSCHIED on the fence was prejudicial since Jennifer Biedshied was a board member and the owner was asking that Ms Biedschied recuse herself.

2 Failure of Jennifer Biedshied to Remove Herself

2AThe agent asked the LUD to approach Ms Biedshied and explain the owner's concerns about bias/conflict of interest since her husband had represented a client against the owner 21 years ago; the current complainant had a copy of that 21-year-old letter to someone else; and that her husband as judge found against the owner and for the complainant when the complainant Mann went to court to prevent the acupuncture business he was renting to from improperly operating

during COVID. Biedschied unlawfully suppressed the owner's right to free speech by putting unnecessary prior restraints on it, and it was reversed by another judge.

2B Ms Biedshied testily stated that she "was a bit insulted" that someone should question her ability to be neutral and went on about how she felt insulted for "all working women who were married" even though the city's ethics ordinance considers actions and activities of spouses and other relatives as disqualifying. Biedschied did not acknowledge the effect of the Do Not Retain Biedschied sign on her ability to be neutral which was up in 2022 and 2024 on a route that would be used by her. Biedschied actually reported that her husband does not take any cases relating to the HDRB (YouTube 2;46-47), but she did not apply that standard to this case in which she is ruling on a case involving a woman who her husband has twice acted against as a lawyer and judge. Ms Rios also chimed in about Biedshied's integrity. (YouTube 2:47-2:48). It was improper and prejudicial for the chair to comment on this recusal.

V **PROCEDURAL DUE PROCESS ISSUES**

1A Failure of Bienvenu to explain why he discounted his own findings concerning the unique conditions of this property and the fact that safety was the same concern as two other properties that had been granted fence height exceptions based solely on these concerns

1B Atlixco Coalition v Maggiore 125 NM 786 (1997) ¶24: "An agency's action is arbitrary and capricious if it provides no rational connection between the facts found and the choices made, or entirely omits consideration of relevant factors or important aspects of the problem at hand. Colonias Dev Council v Rhino Envirl Svr 2003 NMSC 005 ¶41 Without a reasoned explanation. . ., it appears that the Secretary ignored an entire line of evidence in reaching his decision on the final order...Allowing the Secretary to ignore material issues raised by the parties in this manner would render their right to be heard illusory."

2NEED FOR RECORD

2AThe 35-day rule for the adoption of a final decision without a written order that contains relevant findings and evidence in the record (14-3.17C4b) is arbitrary, capricious and violates statutory and constitutional requirements for these types of appeal including Ord 14-3.17D7; Ord 14-3.17I; Rule 1-074; Rule 1-075 NMRA and §39-3-1.1 NMSA) The city's own appeal ordinance requires an appeal to follow the procedures under Rules 1-074, 1-075 NMRA and §39-3-1.1 NMSA. 14-3.17D7 states: "District Court Appeals An appeal of a final action of the governing body or a land use board, or of an action of the city manager, the city attorney or the land use director that is only subject to appeal to district court, shall be to the first judicial district court pursuant to Section 39-3.1.1 NMSA 1978, Rule 1-074, NMRA or Rule 1-075, NMRA, as amended, or other relevant statute or court rule." Vandervossen v. City of Espanola, 2001-NMCA-016 ¶¶37, 38: "The Legislature has recognized that administrative agencies must provide written factual and legal bases for their decisions. See, e.g., § 39-3-1.1(B)(2); NMSA 1978, § 74-9-27(B)(1) (1990); § 74-9-29(B)(1)." See also Paule v. Santa Fe County, 2005-NMSC-021,¶12

3 BOARD MEMBERS AND THE PUBLIC BASED THEIR STATEMENTS AND OPINIONS ON FACTS NOT IN THE RECORD.

3A West Old Town Neighborhood Ass'n v. City of Albuquerque, 1996-NMCA-107 ¶11 "…In New Mexico, zoning decisions involving the application of a general rule to a specific property are not legislative acts; rather they are deemed to be quasi-judicial in nature. Paule v. Santa Fe Cnty. Board of Cnty. Comm'rs, 2005-NMSC-021 ¶30: "When we review an administrative decision for arbitrary and capricious conduct, we review 'the whole record to ascertain whether there has been unreasoned action without proper consideration or disregard of the facts and circumstances.' Lopez v Wal-Mart Stores 1989-NMCA-013 ¶6 "…Thus, if the facts essential to the trial court's judgment are not established by substantial evidence in the record, we will necessarily find an abuse of discretion. See Vandervossen ibid.

3B Ms Biedshied wanted to introduce information on the structure on Otero and Paseo de Peralta in terms of the use of that structure based on her belief not facts. She stated there were low walls with wrought iron fenestration on top. (YouTube 3:29-3:30). No photo shows such a wall at Otero. There is one wall with rock and wrought iron fencing with the wrought iron incorporated into and no higher than the rock wall itself at the intersection of Otero and Paseo. (6/34 City Docs) Biedschied was trying to contrast the low walls there with the owner's request at 614 Paseo de Peralta.

3C Ms Denman said she opposed the fence because "she didn't think it would work anyway and it was too tall." (YouTube3:20-3:21) Ms Denman never even asked the owner if there was any change with the installation of the fence. Ms Denman would have found out that there were no 911 calls since the fence was in place. See Miriam Leth-Espensen Affidavit Attached

3D Mr Mann had all kinds of personal preferences that he thought the HBoard should rely on, and he also stated that the fence prevented someone from seeing his building. (Photos p11-13/21 HDRB Application show these statements to be incorrect) He also concluded that the fence would affect the historic status of 614 Paseo de Peralta—see Reply to City Response ii above. It should be noted that the photos on p8-9/34 City Docs were taken by Mann when the fence was being constructed and seemingly he had more access to staff, especially Ramon Saracon, then the owner did. Given the unexplained Brian Biedschied connection with Mann, it would seem my client is spot-on re bias/prejudice by the Board and staff and conflict of interest by Jennifer Biedschied.

REQUEST

We request the Governing Body to consider a third alternative: To approve the fence as submitted to the HDRB with the changes for a slight lowering and staggering offered by the owner at the 10 Dec 2024 as a final decision with no return to the HDRB or the Board of Adjustment.

Respectfully submitted

AFFIDAVIT OF MIRIAM LETH ESPENSEN

FOR GOVERNING BODY APPEAL ON HDRB Case # 24-009478

I, Miriam Leth-Espensen, do hereby affirm under penalty of perjury

That I live and work at 614 Paseo de Peralta and have since 1988;

That my property is a shortcut from Otero Street to the Cross of the Martyrs

That the number of incidents of trespass have increased over the years

That I have called 911 for the past several years once or twice a year because of nighttime trespasses that make me feel unsafe because I hear the people right by my bedroom window;

That I do not report vandalism, the latest of which was around 10 December 2024 and it occurred outside the fenced area.

That there was a break in while I was present a few years ago and I was in fear of my life.

That there have been no nighttime trespass in the past year since the coyote fencing that is the subject of this appeal was constructed.

The above is true and correct to the best of my knowledge, belief and understanding.

AFFIDAVIT OF ROBERT E. KOHN

FOR GOVERNING BODY APPEAL ON HDRB Case # 24-009478

I, Robert E. Kohn, do hereby affirm under penalty of perjury under the laws of New Mexico that:

1. I am over the age of 18 years, and I have personal knowledge of the facts contained in this affidavit.

2. On May 15, 2024, I attended a proceeding in the Municipal Court in Santa Fe, New Mexico, where Ms. Miriam Leth-Espensen had been charged with building a structure without a permit at 614 Paseo de Peralta in Santa Fe.

3. Shortly after the court proceeding, Ms. Leth-Espensen and I met on May 15, 2024 with Mr. Gary S. Moquino at the Santa Fe City Hall. Mr. Moquino gave me a business card, stating that he was a Planner Manager with the Historic Preservation Division of the Planning & Land Use Dept.

4. During our meeting on May 15, 2024, Mr. Moquino stated to me and Ms. Leth-Espensen that a Planner had been assigned to help her with her earlier request for approval of the coyote-style fence at 614 Paseo de Peralta, but that this person had left the Department, and that a new Planner would be assigned soon to help with this request.

5. During the same meeting, Mr. Moquino also stated to me and Ms. Leth-Espensen that coyote fencing is "not historic" and therefore that a permit could not be issued for a coyote fence at 614 Paseo de Peralta. He also stated that he was aware of the pending court case, and that the matter could be resolved immediately – "today" – if Ms. Leth-Espensen were to request permission to replace the coyote fence with a picket fence.

Historic Districts Review Board
Findings of Fact and Conclusions of Law

Case # 2024-9478-HDRB
Address – 614 Paseo de Peralta
Agent's Name – Stefanie Beninato, Attorney at Law
Owner/Applicant's Name – Miriam Leth-Espensen

THIS MATTER came before the Historic Districts Review Board ("Board") for hearing on December 10, 2024.

BACKGROUND

The single-family residence at 614 Paseo de Peralta has a contributing historic status in the Downtown and Eastside Historic District. The Applicant, who owns and lives on the property, has built an unpermitted 5'8" coyote fence, abutting the sidewalk and extending across the entire north street frontage for this property. The streetscape along Paseo de Peralta was built after the Anglo-American arrival and the houses in this area reflect the Anglo-American style of architecture, including low front-yard fences. There is a consistent grade change between the properties on the south side of the street and those on the north side. Retaining walls characterize the streetscape on the north side, where there is a pronounced slope, with some retaining walls substantially set back from the street.

The property has had several fences along the street frontage in the years since 1985. A photograph from the 1985 HCPI shows that this house, like others in the streetscape, had low, transparent fencing at the property line. Historically the house was unobstructed and apparent from the street as were other historic buildings in the streetscape. Photos show a blue board fence present from 2007 through 2014, and a wood-framed wire fence from 2015 to 2023. The coyote fence which is the subject of this application was built in 2023. There is no record of approval from Historic Preservation and no permits on record for changes to the fencing over time. A City inspector issued a Stop Work Order in August, 2023, for construction of the coyote fence without approval from HDRB or the Historic Preservation staff or a construction permit. The City of Santa Fe sent the Leth-Espensen Trust (the owner of record) a Notice of Violation in January, 2024, and the matter is pending in Municipal Court. See Case # CE-2024-5.

The Staff has determined that the Applicant's 5'8"-high coyote fence is inconsistent with this streetscape with regard to height and material. Santa Fe City Code ("SFCC") Section 14-5.2 (D)(9)(c)(ii)(C) reads, "Yard walls and fences shall be limited to a height that does not exceed the average of the height of other yard walls and fences in the streetscape." The Staff's streetscape calculation allows for a 4'6"-high fence. The Staff's opinion is that the 5'8"-high coyote fence disrupts the structure's relationship with the streetscape and, if permitted to remain, threatens the building's historic status. SFCC Section 14-5.2(D)(1)(a) reads, "The status of a significant, contributing, or landmark structure shall be retained and preserved. If a proposed alteration will cause a structure to lose its significant, contributing, or landmark status, the application shall be denied."

The Applicant now requests approval of the coyote fence by proposing the following exterior alterations:

> Construct a 5'8"-high coyote fence with two wood-plank pedestrian gates (one on the street frontage and one on the side property line) where the maximum allowable height is 4'6". An exception to SFCC Section 14-5.2(D)(9) to exceed the maximum allowable height is requested.

This property also is located within the Business Capital District East Marcy / East Palace Subdistrict (BCDEAS). In this subdistrict, fences are further limited to a maximum height of 4'0", per SFCC Section 14-7.4(A)-1, Table of Dimensional Requirements for Townscape Districts. While the applicant is requesting an exception from the HDRB to the streetscape height standard of 4'6", SFCC Section 14-5.2(C)(5)(a) reads:

> "If the applicant requests approval of a height in the historic district that exceeds the underlying zoning district requirement, the applicant shall first receive an exception to this Section 14-5.2. If approved by the historic district board, the applicant shall proceed to the board of adjustment for consideration of the proposed variance."

Therefore, if the HDRB approved the exception, the Applicant would proceed to the Board of Adjustment for a variance to the standards of the underlying zoning.

At the outset of this hearing, Stefanie Beninato, the Agent for the Applicant, asked Board member Jennifer Biedscheid to disqualify herself, claiming Ms. Biedscheid had a conflict of interest in this case. Ms. Biedscheid declined to disqualify herself, denying that she had a conflict of interest and noting that she had consulted the City Attorney's Office about Ms. Beninato's request.

FINDINGS OF FACT

After conducting a public hearing and having heard from the Applicant and all interested persons, the Board hereby FINDS, as follows:

1. Land Use Department Staff conducted a preliminary zoning review ("PZR") and determined that the application appears to meet the underlying zoning standards set forth in the Santa Fe City Code.
2. Historic Preservation Staff reviewed the application and related materials and information submitted by the Applicant for conformity with applicable SFCC requirements and provided the Board with a written report of its findings ("Staff Report"), which evaluates the factors relevant to the application.
3. Historic Preservation Division Staff Recommendation: Staff found that the exception criteria of SFCC Section 14-5.2(C)(5)(c) had not been met and did not recommend approval of the application, as it did not comply with SFCC Sections 14-5.2(D), General Design Standards for all Historic Districts, and 14-5.2(E), Downtown and Eastside Design Standards.

4. The project is subject to SFCC Section 14-5.2(C), Regulation of Significant and Contributing Structures.
5. The project is subject to the requirements and general design standards set forth in SFCC Section 14-5.2(D), General Design Standards.
6. The property is located in the Downtown and Eastside Historic District and is subject to the district design standards set forth in SFCC Section 14-5.2(E).
7. The property is located in the Business Capital District, East Marcy / East Palace Subdistrict (BCDEAS), and is subject to the district and subdistrict design standards set forth in SFCC Section 14-7.4(A) and (B)(3)(e).
8. Under SFCC Sections 14-2.6(B-C), 14-5.2(A)(1), 14-5.2(C)(2)(a-d & f), 14-5.2(C)(3)(a-b), 14-5.2(C)(4), and 14-5.2(D), the Board has authority to review, approve, with or without conditions, or deny, all or some of the Applicant's proposed design to assure overall compliance with applicable design standards.
9. Under SFCC Section 14-5.2(D)(9)(c)(ii)(C), yard walls and fences are limited to a height that does not exceed the average of the height of other yard walls and fences in the streetscape.
10. The Applicant seeks approval for a 5'8"-high coyote fence on the street frontage and on a side property line where the maximum allowable height is 4'6". Staff determined that an exception to SFCC Section 14-5.2(D)(9)(c)(ii)(C) would be required for approval of the application, and the Applicant requested an exception.
11. To obtain an exception, the Applicant was required to conclusively demonstrate that the six exception criteria set forth in SFCC Section 14-5.2(C)(5)(c) have been met.
12. Based on the information set forth in the Staff Report and exhibits, and the evidence and testimony presented at the hearing, the Board agrees with Staff's finding that the Applicant has not conclusively demonstrated that all exception criteria have been met:
    a. Pursuant to SFCC Section 14-5.2(C)(5)(c)(i), the Board finds that granting the exception would damage the character of the streetscape because the height of the fence is inharmonious with the streetscape, and disregards the standards for the BCDEAS district. The heights of the walls and fences along this streetscape of Paseo de Peralta range in height from 24" (2 feet) and 108" (9 feet), with the highest walls being rock or stuccoed-masonry retaining walls on the north side of the street where there is a substantial grade change. The south side of the street, where the house walls do not abut the sidewalk, is lined almost entirely with lower yard walls and fences with stepped heights or wrought iron, picket and wire fences, creating an open fenestration of the wall or fence;
    b. Pursuant to SFCC Section 14-5.2(C)(5)(c)(ii), the Board finds that the exception is not required to prevent a hardship to the Applicant or an injury to the public welfare, because there has been no persuasive showing that the security of the property cannot be upheld by features less harmful to the character of the district, such as a lower fence or yard wall, a fence or wall with more fenestration, or other security measures;
    c. Pursuant to SFCC Section 14-5.2(C)(5)(c)(iii), the Board finds that granting the exception would not strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts, because the Applicant has not

shown a need for safety at her property greater than at any other heavily traveled location, and other design options are available to enhance the occupants' safety there;

d. Pursuant to SFCC Section 14-5.2(C)(5)(c)(iv), the Board finds that there are not special conditions or circumstances that are peculiar to the land or structure involved that are not applicable to other lands or structures in the related streetscape: All the properties on the south side of Paseo de Peralta abut the sidewalk or have a minimal setback, similar to the subject property, and are in a heavily traveled area. The setback, traffic and pedestrian travel are not peculiar to this lot. Some of the properties are commercial and others are residential, but the use of the property can change and is not inherent in the land or the structure;

e. Pursuant to SFCC Section 14-5.2(C)(5)(c)(v), the Board finds there are no special conditions or circumstances affecting this property that fulfill this exception criterion. The Applicant should be held to the same standard as the occupants of other structures in the streetscape, which must follow the height and design restrictions in the ordinances;

f. Pursuant to SFCC Section 14-5.2(C)(5)(c)(vi), the Board finds that granting the exception would not provide the least negative impact with respect to the purposes set forth in SFCC Section 14-5.2(A)(1), because the proposed coyote fence at that height is a threat to the historic status of the historically contributing structure. It obstructs the view of the house, which is uncharacteristic for that streetscape. The standards for the Business Capitol District, East Marcy / East Palace Subdistrict, express a preference for "low walls that are compatible with the characteristic open yards." See SFCC Section 14-7.4(B)(3)(e)(iii).

13. The Board finds that the Applicant has failed to conclusively demonstrate that all of the exception criteria have been met.
14. The information contained in the Staff Report and exhibits, and the testimony and evidence submitted at the hearing, establishes that all applicable requirements for Board review as herein described have been met.
15. The information contained in the Staff Report and exhibits, and the testimony and evidence submitted at the hearing, establishes that all applicable design criteria have not been met.

CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Board acted upon the application as follows:

1. The Board has the authority to review and approve the application.
2. The Board denies Item # 1 as set forth in the application.
3. The Board denies the exception requested in the application.
4. These denials are without prejudice, and the Board may reconsider the project if the Applicant submits another application with a redrawn design for the fence.

fence currently stands 86” in height and is planned to be cut down and it also notes the maximum allowable height is 59”. Regardless I would say that the fence should be no higher than the maximum allowed height that's calculated for the streetscape. I appreciate the offer of a compromise with respect to the metal structure that's already there but it I think it would be a simple matter to retain that structure and just reweld the top railing to a lower height so that it would be minimal in cost this would permit the gate to remain because it's completely fenestrated and already in existence and that all other aspects of the application be approved

Chair Rios then asked Member Bienvenue, in reference to the making of the motion, if he’d want to indicate the maximum allowable height.

Member Bienvenue stated he thought it was 59” but if that is not accurate, the height should be the calculated maximum allowable height.

Member Mather seconded the motion.

VOTE: The motion passed by (4-0) roll call vote with Members Mather, Degnan, Biedscheid and Bienvenu voting in favor and none voting against.

4. **2024-009478-HDRB, 614 Paseo de Peralta,** Downtown & Eastside Historic District, Contributing, Stefanie Beninato, agent for Miriam Leth Espensen, owner, proposes to construct a 5’-8” high coyote fence with pedestrian gates where the maximum allowable height is 4’-6”. Exceptions are requested to 14-5.2(D)(9) to exceed the maximum allowable height. (Lani McCulley)

BACKGROUND & SUMMARY

The single-family residence at 614 Paseo de Peralta is listed as contributing to the Downtown and Eastside Historic District. The residence is a moderately pitched gabled roof, deep set windows, and a large bay of windows on the north where a porch has been enclosed. It is obvious that the northern portal was enclosed sometime after 1985 because the photo of the 1985 HCPI shows an open portal. There is no case for that enclosure on file with the Historic Preservation Division office.

The property has held several fences along the street frontage of Paseo de Peralta over the years. Figure 1, shows photographic proof of a blue board fence present from 2007 through 2014, and a wood framed wire fence present from 2015 through 2023. The new coyote fence was constructed in 2023. There is no record of an approval from Historic Preservation and there are no permits on record for the changes to the fencing over

time.

The streetscape along Paseo de Peralta was built after the Anglo-American arrival and the houses in this area reflect the Anglo-American style of architecture, including low front yard fences. There is a consistent grade change between the properties on the south side of the street and those on the north side. Retaining walls characterize the streetscape on the north side, with additional walls that are substantially set back from the plane of the retaining walls. The applicant's proposed coyote fence is not in keeping with this streetscape with regard to height and material.

Section 14-5.2(D)(c)(ii) states that, "*yard walls and fences shall be limited to a height that does not exceed the average of the height of other yard walls and fences in the streetscape*." While the Historic Preservation Streetscape calculation allows for a 4'-6" high fence, this property is located within the BCDMAR subdistrict. In this subdistrict, fences are further limited to a maximum height of 4'-0" per 14-7.4(A)-1 Table of Dimensional Requirements for Townscape Districts. Per Section 14-1.7 the more restrictive code would apply which means the maximum allowable height at this property is the 4'-0" height per zoning code for the BCDMAR.

Section 14-5.2(C)(1)(a) states that, "*Each structure to be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as the addition of conjectural features or architectural elements from other buildings, shall not be undertaken.*"

A photograph from the 1985 HCPI (See Figure 2) illustrates that this house, like others in the streetscape, had low transparent fencing at the property line. Although it is difficult to discern the exact fence material, it is clear that historically the house had a direct relationship with the street as do other historic buildings in the streetscape.

Section 14-5.2(D)(1)(a) states, "*The status of a significant, contributing, or landmark structure shall be retained and preserved. If a proposed alteration will cause a structure to lose its significant, contributing, or landmark status, the application shall be denied."*

The 5'-8" high coyote fence causes a disruption in how the structure relates to the streetscape and if allowed, poses a threat to the building's historic status and the legibility of the streetscape. Additionally, the townscape, as set forth in the BCD design standards for the East Marcy/E Palace subdistrict also identifies the unique nature of the streetscape by limiting the height of fences and/or walls to a maximum height of 4'-0".

The city's inspections office issued a Stop Work Order (red tag) in August 2023 for the construction of the coyote fence without approval from the HDRB, the Historic Preservation Division or a construction permit.

The applicant now requests approval of the coyote fence by proposing the following exterior alterations:

1. Construct a 5’-8” high coyote fence with two wood plank pedestrian gates (one on the street frontage and one on the side property line) where the maximum allowable height is 4’-6”. An exception to section 14-5.2(D)(9) to exceed the maximum allowable height is requested.

Ms. Lamboy presented this case in Ms. McCulley’s absence. She stated this contributing building has had some changes over time but has retained much of its historic integrity. One of the changes includes the enclosure of the front porch that was originally there, as well as an addition that was done on the south elevation. However, the coyote fence that is currently standing was not approved administratively or by the Board. To provide some reference to the Board the fence can be seen on the far left here. It is the edge of the coyote fencing of that subject property. Looking west towards the Scottish Rite Temple and Kearney Avenue the fences are either retaining walls with no fencing on top or low walls with some potentially wrought iron on the top of the fence or the walls. So, looking the other way and with the subject property being on the right-hand side, you can see the development pattern illustrates low fences along the streetscape on the south side of the street, without the retaining walls. There is some coyote fencing that is higher, but it is set back from the street and is a side property line, not a front property line. This is an illustration of what the applicant is proposing which is the fencing that was constructed without a permit. This is that part of the street that is adjacent to or in between the subject property to the I guess south as well as the adjacent property to the north. Maybe my directions are wrong, but on both sides of the subject property. This is an illustration of the drawings of the proposed fence. The underlying zoning is something of a unique story here. So, with the Business Capital District a unique approach was taken with reference to the zoning and it all related to townscape districts So, not only was there a Historic Districts Review Board review required at one time but also a Business Capital District Review Board review as well. The townscapes’ character of the downtown changes radically from one block to another and those changes you know are reflected in the plaza area which is in the BCD Plaza Subdistrict. This property is part of the East Marcy/East Palace Subdistrict. There's also the BCD Capital Subdistrict with its unique character. So, there's underlying zoning that relates to the general dimensional standards and there's also underlying zoning that also relates to the character of the district, and in this particular case with the BCD East Marcy/East Palace subdistrict in which the site is located the maximum height for front yard fencing is 4 feet and that acknowledges the development pattern of which I've been speaking. Which is that there are low or no fences in the front yard of the properties therefore that's the reason for the maximum height of four feet and you can see that in the streetscape generally along that corridor this is an illustration of the development pattern. As seen on an aerial and you can see clearly Fort Marcy as well as a development pattern of the East Marcy/East Palace area. The Paseo de Peralta and Hillside intersection is there. So, if this case were to be approved by the Board

tonight as it is submitted then the case will have to be heard by the Board of Adjustment. It's just a reminder to the applicant and for the public's information that this isn't the only hearing that would take place. Also, the board of adjustment would have to hear the case to allow for a variance to allow the additional height over the underlying zoning. The staff's recommendation is that the exception criteria have not been met. It will be deleterious to the streetscape; it will impact the overall character of the Downtown and Eastside Historic District streetscape in this area and can impact potentially the overall character of the building to which it is adjacent which is contributing. The staff recommends denial in this case.

STAFF RECOMMENDATION

Staff finds that the exception criteria of Section 14-5.2(D)(9) have not been met and does not recommend approval of the application as it does not comply with 14-5.2(D) General Design Standards for all Historic Districts, and 14-5.2(E) Downtown and Eastside Design Standards.

While the applicant is requesting an exception from the HDRB to the streetscape height standard of 4'-6", Section 14-5.2(C)(5)(a) states that, "*if the applicant requests approval of a height in the historic district that exceeds the underlaying zoning district requirement, the applicant shall first receive an exception to this Section 14-5.2. If approved by the historic district board, the applicant shall proceed to the board of adjustment for consideration of the proposed variance*."
The underlying zoning district for this property is Business Capital District East Marcy/East Palace (BCDMAR) which permits a maximum height of 4'-0" for fences, per Table 14-7.4 (A)-1. Therefore, if the HDRB approves the exception, the applicant shall proceed to the Board of Adjustment for a variance to the standards of the underlying zoning. If the Board denies the exception, the applicant must produce a new proposal which complies with both the underlying zoning and historic design standards. One motion will be required in this case.

APPLICANT PRESENTATION

Ms. Beninato came forward to present, as she is the applicant. She stated she found herself in an unfortunate situation as they did submit a request for Member Biedscheid to recuse herself and stated she was curious how Member Biedscheid was going to respond.

Member Biedscheid stated she did see a copy of that request and discussed it with the City Attorney's office and that she has no bias against Ms. Beninato's client. She doesn't know her client. She knows Ms. Beninato pretty well from the hearings, but she has no bias against her. Her husband's job has absolutely nothing to do with her responsibilities on the Board. They work to keep things separate and respect ethical boundaries. In fact, she understands that her husband doesn't hear H-Board Appeals as part of his

job, as a State District Judge. She stated she was insulted for herself and all working women that are part of a marriage or partnership that it would be assumed she cannot be independent and capable of an intellectual border between hers and her husband's job duties. She is not influenced by her request, and she will hear this case impartially like all other cases.

Ms. Beninato stated that it was not at her instigation, but at her clients request and the wording is primarily from their sources. I just want to be clear that my client did have a very poor experience and with the other party, and that the complaining party here (for this project) are the same. It just builds that kind of sense of distrust on the part of my client and I.

Chair Rios stated member Biedscheid has been on the Board for quite some time and she agrees with Ms. Biedscheid's comments. She believes Ms. Biedscheid can be impartial and thinks she indicated that her husband's work has nothing to do with this Board and she is a person that will be impartial in this case as she is with every other.

Ms. Beninato thanked them for those considerations and reasons and then proceeded to state that she doesn't agree with Staffs recommendations and does think that her client has met the exception criteria. The fence should not affect whether this is a contributing building or not. This property belonged to the Anton family and was built in 1920 based by hand and is not a home kit Sears. The brothers Alonso and James inherited and split the property in 1935. At that time, both addresses were on Hillside. This residence was owned by James, who sold it in 1979 to Steven Long. Mr. Long later sold to the current homeowner in 1988. The house has been added onto several times between 1988 and 1991. The roof may have been asphalt shingles initially but when Miriam purchased it, it was rolled asphalt. The homeowner replaced it with approval from the Historic office, possibly administratively with a metal roof. She has also had approval to enclose the portal on the front of the building. This was enclosed due to the salt damage that occurred from the care for the icy road in bad weather which splashes onto the property and was damaging the portal. To prevent the salts from damaging the residence, the client put up the previous blue colored board fence. There was wire fencing behind the board fence when it was removed due to damage to the fence. The client tried to incorporate the wire and metal fencing in place of the board fence. However, as a result her property has been subject to a lot of trespassing and people have actually broken into her residence while she has been there. These houses are designed for work/live. The BCD was only introduced in the 1980s. I now see that it is divided into smaller sections, which makes understanding it more confusing. I do question the status of this building. I do not believe it should be a contributing structure. Either way, the fence should not affect the status of the structure. Again, this shouldn't affect the streetscape because the fences in existence are already a variety of fences. She feels it's a necessity to have the fence there, so she can live there safely. It would also be less maintenance from the salt and feels like it will be more durable and tried to make it more visibly interesting.

Ms. Beninato also felt it was important to point out the timeline of going through the process. The fence was put up in August of 2023 by contractor Fabian Nava who told the client that she did not require a permit if the fence was under 6 feet in height. My client met with the Historic Preservation Division in September of 2023 along with her representative, Eric Sommer. They discussed what needed to be done for the client to come into compliance. An inspector issued a red tag on the property in February 2024. My client went to the Historic offices and met with a planner who explained what paperwork she needed to present to Historic. There has not been a single planner assigned to the case for any length of time.

As for the exception criteria: staff seem to be pushing for a white picket fence to match the neighbors fencing, which is also not historic. They are from the 1980s and the 1990s. There is a variety of fencing in the streetscape including the picket fences, masonary walls, stone walls, and coyote fencing. Therefore, a coyote fence will not harm the district (criteria 1). Regarding the hardship (criteria 2): the homeowner is a longtime resident who is in close proximity to two parks, Cross of the Martyrs and Tommy Masson Parks. She has had to call 911 on several occasions for break-ins. A higher fence to keep trespassers off the property, will help her be able to continue to live in this location because a four-foot fence or wall can be stepped over. Regarding the third criteria, this residence is closer to the street than most on the streetscape, the squashed wire fencing is replaced with a coyote fence which is on the streetscape in a height that will keep the homeowner safe from trespassers and the fence type will help protect the building from damage from salts. Maintenance costs are very high when damage is to the residence. Most of the front area of the streetscape changed when Paseo de Peralta was put in by the government in the 1960's. This is unique to this streetscape and is not the cause of Ms. Epsensen. The issue with the care and maintenance of the road, the location proximity to the parks, and the rise in crime are not the homeowners cause either.

Ms. Beninato continued: the Board has issued exceptions for safety reasons at Girls Inc most recently for a 6' fence on that streetscape due to safety concerns for the girls and their family's due to the proximity to Tommy Masson Park. My client's safety should be a concern and a reason for approval of this exception as well. Ms. Beninato gave several other examples of higher fences at properties for safety concerns including a significant structure on Saint Francis.

Ms. Beninato concluded that this request is for a safety concern of the elderly owner, and she was sorry that the homeowner was given bad advice from the contractor.

Ms. Espensen stated that when she moved in the fence was a white fence and before it was a white fence it was a natural fence. She didn't know anything about Historic but after a few years of getting all the dirt and salt on the fence, it looked terrible, so every spring she would sand, wash and repaint it, but after a while the white became too difficult to maintain. So, it then changed into the blue fence that everyone has seen in the pictures. It became tiresome to care for and she really wanted a coyote fence. She couldn't afford it, so she went with a wire fence and the issue with the wire fence is that it did not prevent people from jumping over it. She had a lot of strangers and homeless that would pass through her property and even though she locked the gate people would still jump over it. She was informed that if the fence wasn't 6 feet or taller she wouldn't need a permit, so based off of that information she put in the coyote fence with the help

of Fabian Nava. She felt that the fence was a solution to dealing with the increased traffic, tourists, and criminal elements of the city.

Chair Rios acknowledged and stated she always appreciates it when the owners of the property come to speak to the Board. She thinks even though the owners have representatives, it's important to hear from the owners and she feels for Ms. Espensen's situation. She doesn't know what the Board will decide in terms of the height, unfortunately she does think this fence impacts the street in a negative way, but that is her opinion. She would recommend something shorter and that the coyote fence, while popular through the city is not in keeping with this particular streetscape.

Ms. Beninato stated there are coyote fences in that area, for instance there is one directly across from her client's residence and one for Girls Inc. and the picket fence is not historic.

Ms. Espensen stated that allowing the neighbors to have coyote fencing but not her makes absolutely no sense to her and she believes that it is discrimination.

Chair Rios stated the main question here was height and asked to hear from other members of the Board.

Member Degnan stated she appreciates that Ms. Espensen has been able to maintain a successful business in this town all these years. She just thinks it's their role is to try to honor what the rules and regulations are and certainly sometimes it requires flexibility which is why you applied for an exception. She just thinks that while there may be another example of a tall coyote fence that generally speaking, tall fences are like creating a wall. I respect the fact that you want to be safe and understand that entirely. However, that due to all of the access around the property just having the coyote fence on Paseo de Peralta isn't going to keep people out of the property. It is her opinion that it will not be effective, and the fence is too tall.

Member Bienvenue stated that he felt this is a strikingly unattractive feature on the streetscape and it really would be aesthetically nicer if it was a small picket fence just like the neighbors even if they're not historic in that area though they certainly are. Even if the particular ones nearby are not historic that's certainly a historic feature for the style of architecture in that area, but I do see your situation as being unique and that is what is to me feeling the most important consideration in this particular case. We have in recent times gone beyond the boundaries of what both the code say and what I think our personal aesthetic choices would be in an ideal world with respect to safety issues and that has come up both in terms of neighborhood safety for a residential house and that was the case for the significant structure and then most recently with respect to the Girls Inc where an extremely tall fence was approved. That literally towers over the streetscape purely for safety reasons and that was the only reason it was allowed. Your property does strike me, the more I looked at it today and also hearing tonight has

similarly unique situation because of the fact that it's on such an incredibly narrow section of Paso de Peralta that your house is located so very close to the street. This is most likely because of the reconfiguration of Paeo de Peralta and its location with respect to very public areas both the park nearby and the park across at the martyr's walkway. On top of it you're using it as a residence which is also unusual in that particular location which is something that I think we want to encourage in our downtown. So, I am inclined to think that because of all of those very unique circumstances even though I do believe that this is not aesthetically a very good design solution to your difficulties; I'm not I'm not certain there is a really good design solution; you need a certain height where 4 feet will probably not be sufficient for purposes of your safety concerns. I would prefer it to be fenestrated in some way like picket fences are but that would also perhaps be a little averse to the safety issues that you have and in addition to safety it does seem that you do have some issues with respect to the maintenance of the road that's impacting on your property. The fencing all of which strike me as a little bit not as applicable to the immediate properties surrounding you which are commercial properties that are set back more from the street and therefore can accept that kind of more aesthetically appealing picket fence. So, I do think with the precedence we've set in some of these other cases that your circumstances may be unique enough to suggest that we should grant an exception, I don't know how the rest of the board feels. I think they might feel different but if we were to go down that path is there any kind of a compromise that can be reached from what you have right now such as any kind of lowering of the fence that would still give you sufficient privacy? I mean I note for one thing it's a fairly it's cut straight across as far as the top of the fencing goes. You probably know that we usually mandate that there be staggering of the latillas which hasn't happened here. If it were staggered by three or four inces would bring some of the height down. So, I'm wondering if you could live with something that's more like a 5-foot coyote fence or a 5ft. or 5ft 2in. coyote fence with some staggering involved. Also, we could suggest that you and could also add plantings on top of the fencing, which will bring it up in height. This is one of the things that our fence guidelines permit or even suggest and encourage as a possibility for privacy purposes without it being so dramatic from the point of view of the passerby.

Chair Rios stated she thought Stephanie indicated that there was another possibility of another type of fence and then asked Ms. Beninato if she heard her say that.

Ms. Beninato stated that was not correct and what she said was that the gate is a different material than the fencing to try and visually break up the coyote fencing. She believed her client would be willing to make it irregular, but she doesn't think a 5'-2" is sufficient and anything less than that doesn't give protection. She thinks 5'-5" might work with a couple of inches variations, but nothing less than that will give the protection needed. Generally, she likes lower fences as well, but she believes as it was stated this is a unique situation and all the other properties are being rented out and not needing the same exception.

Chair Rios clarified that Ms. Beninato said 5½'.

Ms. Beninato stated 5'-6" but not 3" or 4" in variation, so 5'-4" or 5'-6" will give Ms. Espensen the safety she needs.

Ms. Lamboy stated in reference to the width of the street she presented the 1930 Sanborn map and stated that when it was Hillside Avenue you could see the subject property at that curve and the street neck down to 28 feet but here it was 30', So the street itself in its width has not changed very much over time.

Member Biedscheid stated she does believe there are a few other residential properties on this street, especially at the intersection of Otero and Paseo De Peralta which have fences that are higher but are fenestrated on the top with wrought iron. This fence, the material is definitely out of character for the streetscape. A fenestrated fence or even a wire fence would be more appropriate so that it could be seen through. She doesn't think there's a wall that's even 3' on this street. It's very out of character but she does understand the safety concerns. She doesn't think this is the right solution for that.

PUBLIC HEARING

Mr. Mann stated that his family also lives in a house built by the Anton family on 618 Paseo De Peralta and the 4-foot white fence has been there for 36 years. The history of the Anton family built both houses around 1900 and 1912. He recently talked with Waldo Anton who is now 97 years old, and they discussed the house that he grew up in. He also spoke with Sarah Melton who had lived in the area, stated she spoke for the houses because the houses didn't have a voice. He's heard a lot discussion about what someone needs and how in fact it will dimmish the historic character of a contributing structure. His structure where he resides is contributing, the house next door is significant, and it is his understanding that Ramon Sarason delivered Ms. Espenson a report telling her what style and height the fence would need to be. He personally objects to the coyote fence, as it is ugly on a primary façade, and it would diminish the architectural and historic view of their properties. The idea that you can put that fence up and then plead necessity puts a personal need ahead of a federal historic structure and I personally feel that all that testimony about need should be put aside and to the point made that she's the only one who lives there we have a tenant living upstairs. I lived up there. We raised our child there. I certainly understand people's necessity for security, but do we want to sacrifice the way a building looks and maybe have the federal government look at the way we maintain our historic district and say we're willing to compromise so easily. I'm sorry I wish that it could be a win-win when you deliberately say I didn't know I needed a permit. However, that's no excuse.

John Eddy, previously sworn, stated that on occasion you do get cases like this and one thing that needs to be said is that this house is too close to Paseo De Peralta. The

biggest problem being its 6’ away from the curb of this street and that will continually be affected by weathering of the traffic on that road. As we keep repaving the roads they continue to get higher, extenuating the potential damage being splashed onto this fence and house. He is very conflicted and thinks the needs of the people living in houses should be addressed and is a valid concern.

Ms. Beninato stated she wanted to clarify that she has known many contractors who do not get permits even when they’re supposed to. Her client relied on a licensed contractor, Fabian Nava, who informed her that she didn’t need a permit. Her client was just given bad advice. She is being pushed and pushed that she has to have a picket fence which is actually not true. Ms. Beninato understands that some people may think that this (the coyote fence) doesn't really work, but this works in terms of maintenance. Ms. Beninato thinks this is one of the issues. Also when you look at the streetscape, it's not just the south side of the street it is the entire streetscape; north and south of that street. Overall, what you see are some retaining walls that are about 4’ high, a 10’ high retaining wall, for some distance, and then right across the street at Otero there's an 8’ retaining wall. So, if you're looking at the streetscape within 300’ from her property, you will see these high retaining walls that are massive. Ms. Beninato pointed out that as Member Bienvenue stated, it’s a unique situation.

BOARD DISCUSSION/ACTION:

Member Degnan asked Ms. Beninato for clarification that it was mentioned that perhaps it would be amendable, or agreeable to a 5’-6” fence to satisfy to some extent their concerns.

Ms. Beninato said yes, they believe a 5’-6” for the safety concern could still be effectively met. Her client is even willing to make it vary every couple of inches so it would be the 5’-4” to the 5’-6”.

Member Degnan moved to suggest that the fence be amended or adjusted or redone lowered to 5’-6”. No second was given so the motion died.

Member Bienvenue stated he has had concerns as the hearing has gone forward about trying to do a redesign on the fly because the issues are both height and the materials. He thinks a compromise solution can be reached someplace but it is going to have to address both the height the materials and some kind of fenestration because it really is very important section of our historic district where this is located. I do think that some design work on the part of the applicant in conjunction with staff is probably the only way we're going to be able to find a solution that would be acceptable to all of the Board members. So unfortunately, I think that leaves us in my mind no choice but to deny the application as submitted with the hope that the applicant will resubmit with a new proposal that will address their legitimate concerns in a manner that will be acceptable

to staff.

MOTION: In Case 2024-009478-HDRB, 614 Paseo de Peralta, Member Bienvenue moved that findings be entered by adopting the reasoning set forth in staff's report that the exception criteria have not been made met, for the application as submitted and the fence as currently existing and that the application therefore be denied without prejudice to a resubmittal. Member Mather seconded the motion.

VOTE: The motion passed by (4-0) roll call vote with Members Mather, Degnan, Biedscheid and Bienvenu voting in favor and none voting against.

Chair Rios explained after the motion that this had been denied but without prejudice, which means that you can come back before the board with a different application that's indicates exactly the kind of material you're going to use, the exact height, or you can appeal it to the city council.

Ms. Beninato stated that's right because what the Board is asking her to do is take down the coyote fencing even though her property has coyote fencing on it now. You don't want the same fencing that she actually has all over her property she's supposed to do a new type of fencing and then asked if that's what they're stating and would not approve a coyote fence.

Chair Rios stated she did not hear that in the motion.

Ms. Beninato then stated the Board said something about the materials being unacceptable.

Chair Rios stated she believed that was a personal statement she gave earlier in case and asked Member Bienvenue for clarification.

Member Bienvenue stated his motion stated but I did say that there were concerns with respect to both height and materials and that I would hope that the applicant could address those concerns and redesign. That doesn't mean there is direction as to what material materials have to be, or what the exact height needs to be. I truly believe something can be designed here that will meet the needs of your client as well as the board and the staff but and I'm not and purposefully did not want to get involved in trying to design from this perspective which is you came in you asked for exactly what you have and that's been denied. There may be someplace other that you can find a solution that the board will approve.

Ms. Beninato stated she wanted clarity that the board was basically rejecting the coyote

material because it's being said that they should look at other material and proceeded to ask if that is correct.

Chair Rios stated that options are open in other words if they would want to resubmit with that then she does not know if the applicant would get a denial. The Board is just saying there's other options.

Ms. Beninato stated that was not much direction.

Ms. Lamboy stated this case has gone to municipal court and the Applicant is before the Board based on some direction that this be considered by the H-Board. Since this particular design was denied, Ms. Lamboy would like to just communicate to the applicant that they can come back to the Board within 90 days, or remove their fence within 90 days. She wanted to provide them with some parameters, as to what the next City action would occur since it is being considered by the Court. She stated Mr. Frank Ruybalid could affirm they have three months either to come back to the Board, or then they will need to remove the fence to comply with the code.

Mr. Ruybalid stated as he understood at that time. He asked if a red tag had been issued.

Ms. Lamboy stated yes, and a citation to Municipal Court, so the applicant has been to court already regarding this issue.

Mr. Ruybalid stated he would have to look at the Municipal Court order, he didn't know what the municipal court order said.

Ms Beninato stated she just wanted it to be on record that her client is being treated differently in this manner than many other people.

Mr. Ruybalid stated this was out of order.

Chair Rios stated this case was over and thanked them for stating their concerns and stated to have a discussion with Staff and they will guide them through the process.

STAFF RECOMMENDATION:

Staff finds that the exception criteria of Section 14-5.2(D)(9) have not been met and does not recommend approval of the application as it does not comply with 14-5.2(D) General Design Standards for all Historic Districts, and 14-5.2(E) Downtown and Eastside Design Standards.

While the applicant is requesting an exception from the HDRB to the streetscape height standard of 4'-6", Section 14-5.2(C)(5)(a) states that, "*if the applicant requests approval of a height in the historic district that exceeds the underlaying zoning district requirement, the applicant shall first receive an exception to this Section 14-5.2. If approved by the historic district board, the applicant shall proceed to the board of adjustment for consideration of the proposed variance*."
The underlying zoning district for this property is Business Capital District East Marcy/East Palace (BCDMAR) which permits a maximum height of 4'-0" for fences, per Table 14-7.4 (A)-1.

Therefore, if the HDRB approves the exception, the applicant shall proceed to the Board of Adjustment for a variance to the standards of the underlying zoning. If the Board denies the exception, the applicant must produce a new proposal which complies with both the underlying zoning and historic design standards. One motion will be required in this case.

Sample motion:

A. Approve or deny Case #2024-009478 to allow an exception to 14-5.2(D)(9) to construct a coyote fence to a maximum height of 5'-8" where a maximum allowable height of 4'-6" is allowed.

BACKGROUND & SUMMARY:

The single-family residence at 614 Paseo de Peralta is listed as contributing to the Downtown and Eastside Historic District. The residence is a moderately pitched gabled roof, deep set windows, and a large bay of windows on the north where a porch has been enclosed. It is obvious that the northern portal was enclosed sometime after 1985 because the photo of the 1985 HCPI shows an open portal. There is no case for that enclosure on file with the Historic Preservation Division office.

The property has held several fences along the street frontage of Paseo de Peralta over the years. Figure 1, shows photographic proof of a blue board fence present from 2007 through 2014, and a wood framed wire fence present from 2015 through 2023. The new coyote fence was constructed in 2023. There is no record of an approval from Historic Preservation and there are no permits on record for the changes to the fencing over time.

The streetscape along Paseo de Peralta was built after the Anglo-American arrival and the houses in this area reflect the Anglo-American style of architecture, including low front yard fences. There is a consistent grade change between the properties on the south side of the street and those on the north side. Retaining walls characterize the streetscape on the north side, with additional walls that are substantially set back from the plane of the retaining walls. The applicant's proposed coyote fence is not in keeping with this streetscape with regard to height and material.

Section 14-5.2(D)(c)(ii) states that, "*yard walls and fences shall be limited to a height that does not exceed the average of the height of other yard walls and fences in the streetscape*." While the Historic Preservation Streetscape calculation allows for a 4'-6" high fence, this property is located within the BCDMAR subdistrict. In this subdistrict, fences are further limited to a maximum height of 4'-0" per 14-7.4(A)-1 Table of Dimensional Requirements for Townscape Districts. Per Section 14-1.7 the more restrictive code would apply which means the maximum allowable height at this property is the 4'-0" height per zoning code for the BCDMAR.

Figure 1: Board fence 2007-2014, Wire fence 2015-2023, and Coyote Fence 2023

Section 14-5.2(C)(1)(a) states that, "*Each structure to be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as the addition of conjectural features or architectural elements from other buildings, shall not be undertaken.*"

A photograph from the 1985 HCPI (See Figure 2) illustrates that this house, like others in the streetscape, had low transparent fencing at the property line. Although it is difficult to discern the exact fence material, it is clear that historically the house had a direct relationship with the street as do other historic buildings in the streetscape.

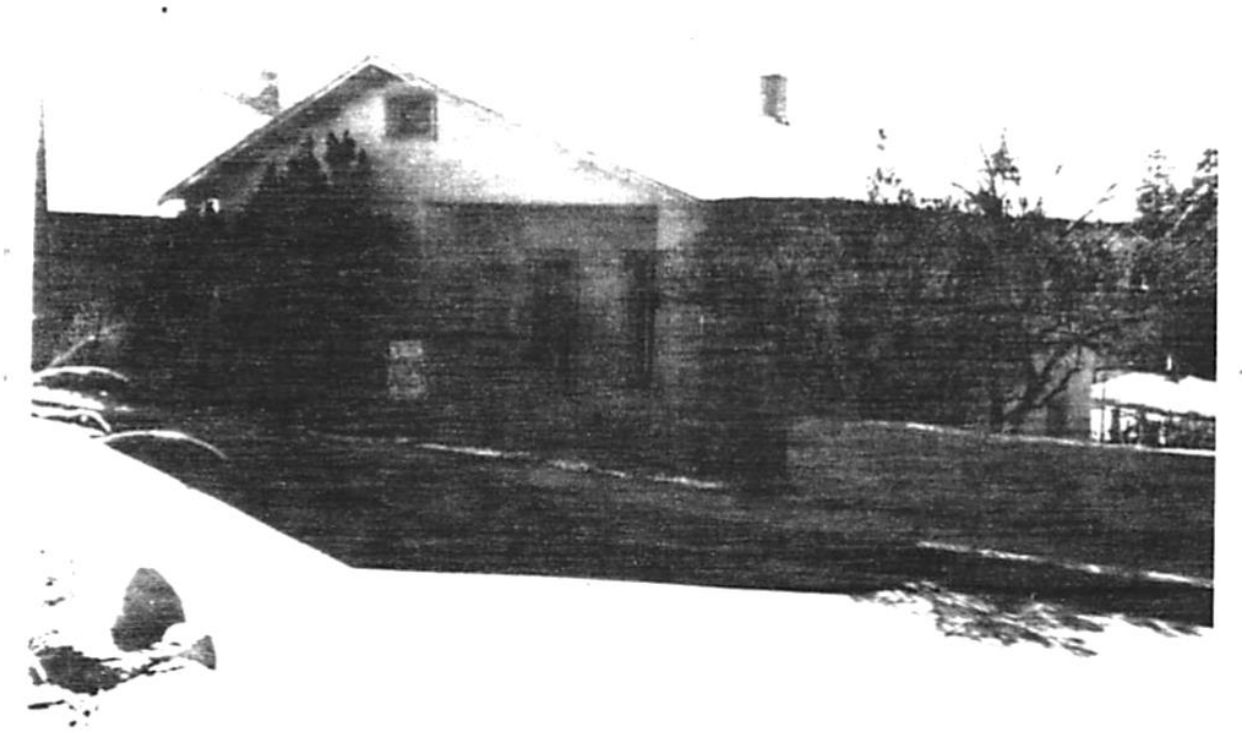

Figure 2: Photo from the 1985 HCPI

Section 14-5.2(D)(1)(a) states, "*The status of a significant, contributing, or landmark structure shall be retained and preserved. If a proposed alteration will cause a structure to lose its significant, contributing, or landmark status, the application shall be denied."*

The 5'-8" high coyote fence causes a disruption in how the structure relates to the streetscape and if allowed, poses a threat to the building's historic status and the legibility of the streetscape. Additionally, the townscape, as set forth in the BCD design standards for the East Marcy/E Palace subdistrict also identifies the unique nature of the streetscape by limiting the height of fences and/or walls to a maximum height of 4'-0".

The city's inspections office issued a Stop Work Order (red tag) in August 2023 for the construction of the coyote fence without approval from the HDRB, the Historic Preservation Division or a construction permit.

The applicant now requests approval of the coyote fence by proposing the following exterior alterations:

1) Construct a 5'-8" high coyote fence with two wood plank pedestrian gates (one on the street frontage and one on the side property line) where the maximum allowable height is 4'-6". An exception to section 14-5.2(D)(9) to exceed the maximum allowable height is requested.

EXCEPTION CRITERIA AND RESPONSES:

Exception to Section 14-5.2(D)(9): The applicant requests an exception to exceed the maximum allowable height of a fence.

(i) *Do not damage the character of the district;*

Applicant Response: The streetscape has a variety of fencing types from stone and solid masonry walls to wood fencing including coyote and picket fencing. There are 8 and 10 ft retaining walls less than half block away at the intersection of Paseo and Otero (NW and NE corners) and several coyote fences across the street.

Staff Response: Staff does not agree with this statement. The coyote fence as proposed damages the character of the district, is a violation so the streetscape standards and the underlying BCDMAR zoning standards. The heights of the walls and fences along this streetscape of Paseo de Peralta range in height from 24" (2'-0") and 108" (9'-0") and the walls and fences vary from retaining walls constructed of rock or stuccoed concrete masonry on the north side of the street. The tallest wall is a retaining wall with yard wall on top. The combination of a yard wall with retaining wall is allowed at a height greater than properties with no retaining wall. There is a grade change between the properties on the south side of the street and those on the north side. Retaining walls characterize the streetscape on the north side, with additional walls that are substantially set back from the plane of the retaining walls. The south side of the street is lined with lower yard walls and fences with stepped heights or wrought iron creating an open fenestration of the yard wall, two picket fences, one wire fence, and at the edge of the streetscape there is a single coyote fence located on the Girls, Inc. Property. The Girls, Inc property is part of the Hillside streetscape rather than the Paseo de Peralta streetscape, and is visually disrupted from the property, as it is located around the curve from the subject property. Furthermore, the Girls, Inc. property is part of a different zone district than the subject streetscape.

Streetview images have been provided to illustrate the streetscape and context of yard walls and/or fences in the streetscape.

Figure 3: Streetview looking west

Figure 4: Streetview looking east

(ii) *Are required to prevent a hardship to the applicant or an injury to the public welfare;*
Applicant Response: The owner is and has been a full-time resident at the address since 1988 and in order to continue to reside there safely needs to raise the fence to its current built height. There have been several 911 calls and a break in at the residence which is located in close proximity to two parks-the Cross of the Martyrs and the Tommy Macione Park.

The owner had replaced a blue wood fence with a lower chain link fence that supported the older wire fencing in 2003. However, with the increase in trespass and robbery at her residence, the owner felt her only recourse was to replace the damaged wire fencing with a fence made of stronger material that will deter unwanted entries.

The coyote fencing will also be easier to maintain given the heavy barrage of salt that it gets in the winter due to the location of the residence at a curve and its extreme proximity to Paseo de Peralta.

Staff Response: This criterion has not been met. There is no hardship that is unique to this property; other residences/shops in the streetscape have direct access to the street. Through the establishment of the Downtown & Eastside Historic District and the adoption of the historic districts ordinances, it was determined by the community that the preservation of historic streetscapes and buildings is important to retain the overall character of Santa Fe.

The proposed coyote fence is a threat to the historic status of the historically contributing residence, and furthermore it disrupts the streetscape as is regulated by both the Historic Districts Ordinance and the Business Capitol East Marcy/East Palace subdistrict standards.

(iii*) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts;*

Applicant Response: The streetscape has a variety of fencing types from stone and solid masonry walls to wood fencing including coyote and picket fencing. The increased height will allow the continued use of the structure as a residence since it will increase the owner's personal safety and decrease maintenance costs.

Staff Response: The Applicant's response does not address the approval criteria. While safety and security are concerns for all residents within the city, they are not a valid reason to violate the height and preservation standards established in the ordinance, which inherently considers the welfare and safety of residents. Other security measures could be employed that would not violate the ordinance.

(iv) *Are due to special conditions and circumstances which are peculiar to the land or structure involved and which are not applicable to other lands or structures in the related streetscape;*

Applicant Response: Other structures have more setback from the street. This lot lost most of its setback when Paseo de Peralta was created in the 1960s. Additionally this structure is the only one that still serves as a live workspace, which has been the historic use of these homes since the 1960s.

Staff Response: The Applicant's response does not address the approval criteria and staff disagrees with this statement. While most of the properties on the north side of Paseo de Peralta are set back further from the road, all the properties on the south side of Paseo de Peralta are set back similarly to the subject property. The setback is not peculiar to this lot. Staff does recognize that some of the properties are commercial such as the art galleries, but the use of the property can change and is not peculiar to the land or structure, other uses are permitted, and other structures could be converted to live work as well, or the existing property could be similarly repurposed.

Street map and aerial images have been provided to illustrate the streetscape and context of yard walls and/or fences in the streetscape.

Figure 5: 1912 Kings map of the vicinity

Figure 6: 1957 Aerial of the vicinity

(v) *Are due to special conditions and circumstances which are not a result of the actions of the applicant; and*

Applicant Response: The owner is not responsible for the rise in property crime and drug use. Her property is located near two parks which at times serve as magnets for these types of behavior.

Staff Response: The Applicant's response does not address the approval criteria. While staff recognizes that the property owner is not responsible for crime rates, the presence of crime or an incidence of crime is not a justification to violate the preservation or height standards of the ordinance, which is the law of the city. All residents may consider responsible and code compliant safety measures to secure their homes and businesses. The applicant should be held to the same standard as all other structures in the streetscape, which must follow the height and design restrictions set in the ordinance. It should be noted that this exception request is due to the action of the applicant to build a fence without a permit and Historic Districts Review Board approval. Had the applicant proceeded through the typical review process there may not have been a need for this request.

(vi) *Provide the least negative impact with respect to the purpose of this section as set forth in Subsection 14-5.2(A)(1).*

Applicant Response: The owner understood from the contractor that if she kept the fence below six feet, she would not need a permit. She deliberately kept the fence to 5 ft 8 inches for its entire length whether on the street or on a sideline. It is the minimum she feels will deter entry onto her property from Paseo. The type of material being used is compatible with the existing streetscape. There are fences and walls in close proximity that are or will be higher

Staff Response: The Applicant's response does not address the approval criteria. The applicant and her contractor are not in a position to set the rules for permitting, or for height standards and design standards within the historic district, and ignorance of the appropriate processes and standards is not valid justification for violating those standards.

The proposed coyote fence negatively impacts the historic streetscape and a design that does not negatively impact the streetscape has not been considered or proposed by the applicant.

Hi all,

I think we need to provide some background on the red-tag process and how Ms. Leth-Espensen has been a scofflaw. That is an important point to share with the HDRB. Please see below.

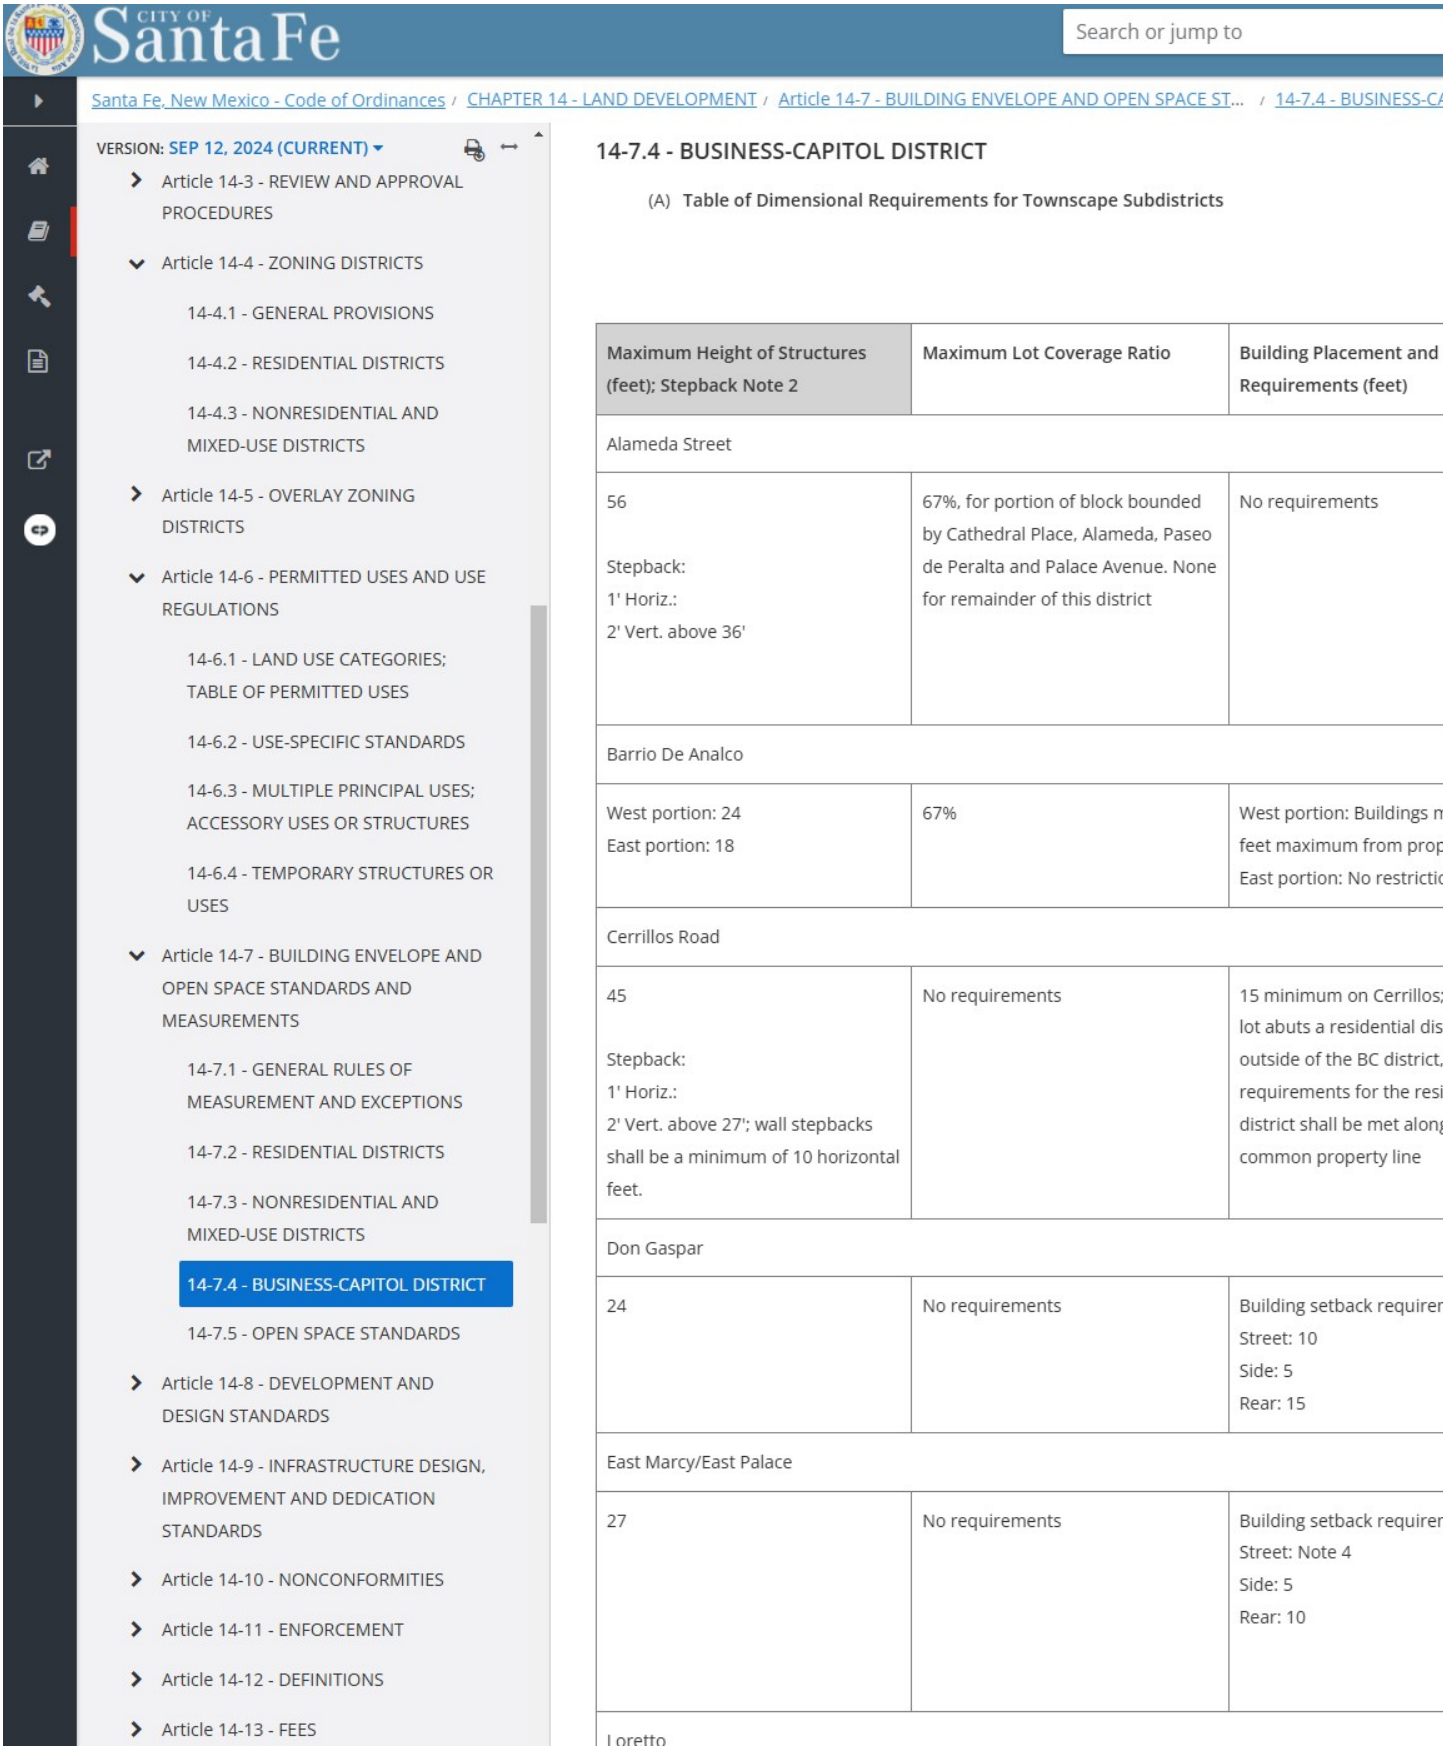
Good afternoon, Stefanie,



The property was red tagged by Kevin Smith, a citation was given by Anthony Maestas, and finally a citation referring the matter to court was issued (please see file link below with the paperwork).

While Paul may have assisted Ms. Leth-Espensen with scanning some paperwork, she did not do anything further. The first step is to obtain a preliminary zoning review (PZR) to assure that the proposed use and height is permitted in the zone district. The Code reference that Ms. Clouser cited has to do the with Business Capitol District (BCD) zone district standards. We do not accept an application without the PZR form, as that communicates that Current Planning has reviewed the proposal and that there are no zoning issues. The map below is from the City's Geographic Information Systems (GIS) zoning map, a link to which can be found on the City's website: https://gis.santafenm.gov/portal/apps/webappviewer/index.html?id=8cbbefaf87d44d99b4f379564e9f3c83. On a related matter, the Girls Inc property is in an R-2 zone district and not subject to the same standards as the East Marcy/East Palace BCD subdistrict.

As you can see, the subject property is in the Business Capitol District. The subdistrict is East Marcy/East Palace. The BCD has many subdistricts which reflect the unique character of each district; for example,

a subdistrict for the Capitol campus, Cerrillos Road, Don Gaspar, etc. The table of dimensional standards for the BCD Zone District can be found in Section 14-7.4(A) SFCC 1987. https://library.municode.com/nm/santa_fe/codes/code_of_ordinances?nodeId=CH14LADE_ART14-7BUENOPSPSTME_14-7.4BUPIDI

Ms. Leth Espensen was originally given a red tag by Kevin Smith (our Zoning Inspector) in August 2023 and January 2024. Anthony Maestas issued a citation on February 23 noting that Ms. Leth-Espensen had

not submitted an application and had not removed the fence. Anthony reinspected on April 26 and the fence remained and yet no application had been submitted. That is when Anthony referred this issue to municipal court. Since then, Assistant City Attorney Kyle Hibner has been processing this case. When the fence was originally constructed in August 2023 Constituent Services received a complaint from a community member, which was investigated and as a result the red tag issued.

Here is a snip from our computer system documenting dates:

We do try to work with applicants so they can come into compliance with the Historic Districts Ordinance. Over the past year, there have been several interactions with Ms. Leth-Espensen with staff as well as with the attorney at municipal court. Mr. Hibner shared with me that the judge most recently requested that Ms. Leth-Espensen make application to the City. As of yet, all that we have processed is a PZR. Even if the Historic Districts Ordinance permits a higher height, the underlying zoning permitted

height of 4 feet still applies; therefore, a variance to the height permitted by zoning (4 feet) will need to be reviewed and acted on by the Board of Adjustment. If a variance is granted, then the Historic Districts Review Board may then review the case.

Finally, you will find the application for a variance on this web page: https://santafenm.gov/land-use/current-planning/application-forms-and-fees.

Heather Apparently my client and her son have a difference of opinion with your staff. I don't see Paul Duran's name on this thread. He is the one who on 1 March 2024 sent Miriam's application in—I believe he helped her scan the documents. See email below
It should be noted that Ms Clousure is citing fence heights for E Marcy and E Palace. This property is not located on either street. It is located on Paseo de Peralta. There is a 4 ft 8 inch picket fence at 618 visible from the street.
Also Ms Leth-Espensen is adamant that her fence was never redtagged. I am not surprised since there are people in my neighborhood who have been reported for unpermitted work and NEVER redtagged such as at 1008, 1023, 1025 Don Diego and 1030 Don Cubero.
My goal is to move this case to a resolution so Ms Leth-Espensen can live there safely.
What is the next step? I would like a clear pathway to resolution—no changes seven months later…like going to BOA instead of Historic…
If it is really necessary to go to the BOA, why was your staff ready to schedule this for a HBoard meeting? Really it seems even with digitalized files the right and left hands in your dept do not know what the other is doing. Please send all necessary applications today to avoid even more delay. I have submitted the PZR application; perhaps you can find the 1 March 2024 H Board application or I can submit a new one. Otherwise please send correct application for variance with instructions.
Thank you
Stefanie Beninato

Dear Stefanie,

It is wrong for Heather Lamboy to say that Miriam supposedly caused delays because she supposedly "has not formally applied for a permit." (As stated by Ms. Lamboy in her email sent to lots of people on Oct. 28, 2024.)

Miriam applied for a permit on March 1, 2024. (Please see below.) Would you please consider noting this fact to Ms. Lamboy and her colleagues?

Thank you,
-Rob

LAMBOY, HEATHER Thank you for city's history of the case. Would you cite the ordinance re BCD height variations by variance? And also what zone is Girls Inc in since it just got an exception to raise the height of its coyote fencing beyond what is allowed by the HBoard. Same concerns as Ms Leth-Espensen.
Thank you

Historic Design Review Board

Proposal Letter

Coyote Fencing at 614 Paseo de Peralta

The owner mistakenly put up a 5ft 8 in coyote fence based on the advice of the contractor (FabianNava) who installed the fence.

It is made of wood coyote fencing approximately 2 inches in diameter. The frame is 2 3/8 steel vertical bars placed every 4 feet and 1 inch steel pipes for the cross bracing at top and bottom of fence. Bracing is on the inside of the fence as it faces the street. The vertical bars are placed in 2 ¾ inch steel pipes in the ground. On the W side, there is 15 ft of coyote fencing starting at the corner of Paseo de Peralta that is connected by a 5 ft extension to the residence. The elevation drops sharply at this point on the W side. The fence extends the 35 ft length of the property facing Paseo de Peralta with a white-painted, three-foot wide, solid wood gate with a curved top placed approximately midway down that line. The fence then angles behind a utility pole and extends another 60 feet with the elevation dropping at approximately 20 ft from the street. There is a second gate at the lower elevation just where the elevation change occurs on the E side. The fence runs approximately 36 ft past the gate on the E side and attaches to the pre-existing coyote fencing on the lower part of the property. The fence is partially hidden on the E side by the existing picket fence on the neighboring property. Other than the top, it is not visible approximately 20 feet from the street on the E side because of the elevation change.

REQUEST FOR AN EXCEPTION TO FENCE HEIGHT
Historic Districts and Historic Landmarks
Height, Pitch, Scale, Massing, and Floor Step backs Exception Criteria

(i) Do not damage the character of the streetscape

Response: The streetscape has a variety of fencing types from stone and solid masonry walls to wood fencing including coyote and picket fencing. There are 8 and 10 ft retaining walls less than half block away at the intersection of Paseo and Otero (NW and NE corners) and several coyote fences across the street.

(ii) Prevent a hardship to the applicant or an injury to the public welfare

Response: The owner is and has been a full time resident at the address since 1988 and in order to continue to reside there safely needs to raise the fence to its current built height. There have been several 911 calls and a break in at the residence which is located in close proximity to two parks—the Cross of the Martyrs and the Tommy Macione park.
The owner had replaced a blue wood fence with a lower chain link fence that supported the older wire fencing in 2003. However with the increase in trespass and robbery at her residence, the owner felt her only recourse was to replace the damaged wire fencing with a fence made of stronger material that will deter unwanted entries.
The coyote fencing will be also be easier to maintain given the heavy barrage of salt that it gets in the winter due to the location of the residence at a curve and its extreme proximity to Paseo

(iii) Strengthen the unique heterogeneous character of the city by providing a full range of design options to ensure that residents can continue to reside within the historic districts

Response: The streetscape has a variety of fencing types from stone and solid masonry walls to wood fencing including coyote and picket fencing. The increased height will allow the continued use of the structure as a residence since it will increase the owner's personal safety and decrease maintenance costs.

(iv) Are due to special conditions and circumstances which are peculiar to the land or structure involved and which are not applicable to other lands or structures in the related streetscape

Response: Other structures have more setback from the street. This lot lost most of its setback when Paseo de Peralta was created in the 1960s. Additionally this

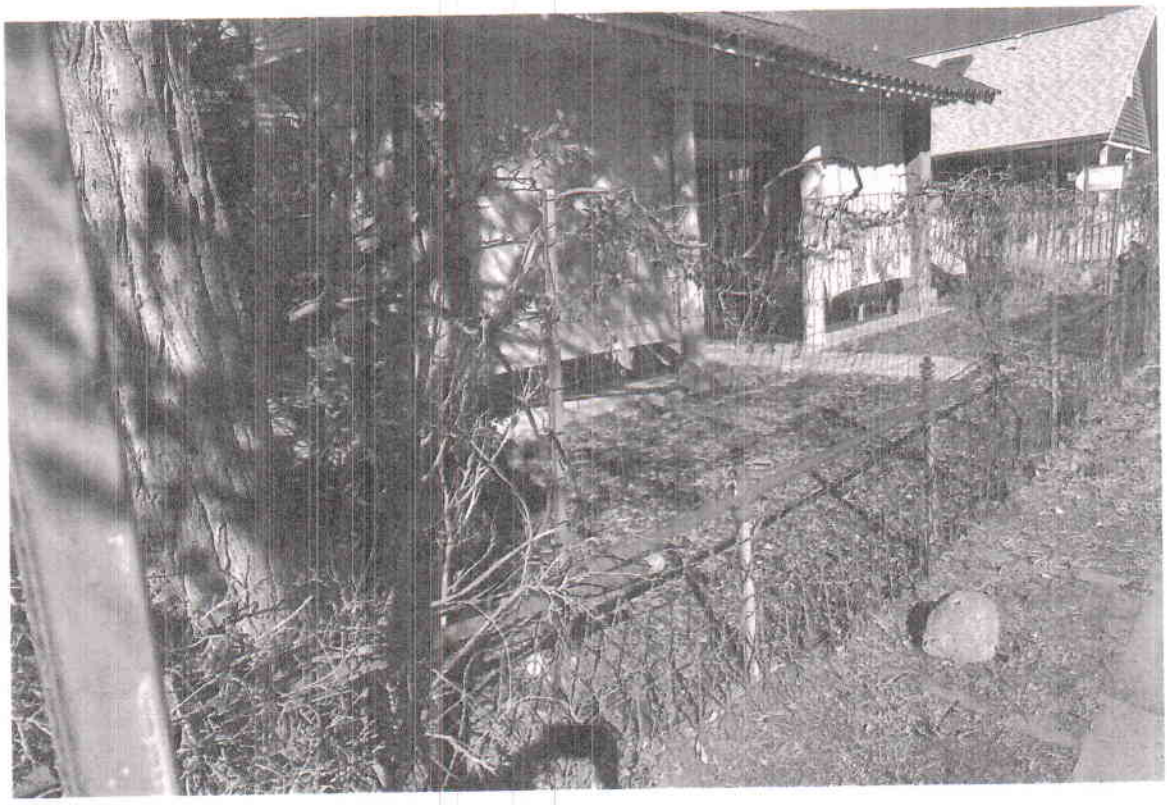
Request for Exception

structure is the only one that still serves as a live work space which has been the historic use of these homes since the 1960s.

(v) Are due to special conditions and circumstances which are not a result of the actions of the applicant

Response: The owner is not responsible for the rise in property crime and drug use. Her property is located near two parks which at times serve as magnets for these types of behavior

(vi) Provide the least negative impact with respect to the purpose of this section as set forth in Subsection 14-5.2(A)(1)



Response: The owner understood from the contractor that if she kept the fence below six feet, she would not need a permit. She deliberately kept the fence to 5ft 8 inches for its entire length whether on the street or on a side line. It is the minimum she feels will deter entry onto her property from Paseo. The type of material being used is compatible with the existing streetscape. There are fences and walls in close proximity that are or will be higher

Good morning!
I couldn't fall asleep last night, till I remembered why I thought, I did not need a permit for the Peralta fence.
When I came in 1988, there was a wooden fence on my Peralta property, it was natural wood. After a couple of years the fence started to deteriorate, in part because when it snows and the city truck sprays salt on the street, it sprays the nasty salt mixture onto my fence. So, for a couple of years in the spring I would clean it off, and then I began painting it white to make it look nice. I finally had enough and thought that if I replaced it with a coyote fence, which I wouldn't have to paint.

I did go to the permit office to make sure that was ok, and I was told that as long as the new fence did not exceed the old one in hight, I did not need a permit. As it turned out I could not afford the coyote fence at the time with two kids still in college, so I opted for the cheap wire fence.
I don't remember exactly how many inches the wooden fence measured, but it was tall enough, so I didn't need curtains for privacy and similar in hight to the new fence.

The rules may have changed since that time, and I should have checked back. I apologize.
I hope everything will turn out okay, because in addition to aesthetics, I also have security concerns. In the second picture I sent you see a large police presence. There are regular 911 calls from this area. I myself had to call three times during COVID, and before that several times, including when I was robbed at by home.

Thank you for your help and consideration.

HDRB Application Supplement
TIME LINE ACCORDING TO OWNER's DOCUMENTATION

Ms Leth-Espensen (Miriam) hired Fabian Nava in August 2023 to build the fence. Nava, holding myself out as a licensed contractor, assured Miriam that she would not need a permit if the fence was under 6 ft tall. She chose to make it 5 ft 8 inches.

The first LUD meeting was with Eric Sommer who accompanied Miriam to the meeting, Lani McCullen, Ramon Sarason and one other member from zoning on 9/14/2024. Mr Mann, Miriam's neighbor, filed a complaint about the fence. This meeting was in response to the complaint. At that meeting Miriam was told by Lani that coyote fences visible from the street were not allowed in the Historic district and the only fencing in that area that would be allowed was a 4'6" white picket fence.

Anthony Maestas inspected the fence and told Miriam not to change the current fence without a permit because it would cause a lot of trouble. Miriam received 2 red tags by mail dated 2/23/24 and 4/17/24 from Mr. Maestas following his inspection. NO redtag was ever posted on the property and Miriam did not remove any redtag.

After the first redtag by mail, Miriam met with Paul Duran who helped her with the application form (Email 3/1/2024). The email from Mr. Duran indicates that a 48" coyote fence was ok without a permit and at that time he also told Miriam what documents to prepare for the application.
Mariam prepared the documents but was told by Mr. Duran not to bring them in until a planner was assigned and that a planner would be assigned shortly. 3/8/2024 email.

Miriam and her son Rob Kohn met with Gary Moquino on 5/15/2024 following her court appearance in municipal court when she pleaded not guilty to the criminal charge the city lodged against her for construction of the fence. Again Gary Moquino assured them a planner would be assigned shortly. Gary Moquino told them he could administratively approve a 6 ft high white picket fence.

Miriam hired Stefanie Beninato as her agent on approximately 9.26.2024 when there was no movement by the city to assign a planner and resolve this issue.

Beninato requested a planner for the case and followed up with the LUD (9/30/2024 email) on the matter and was assigned HDRB staff, Lani McCulley in the beginning of October 2024.

Beninato submitted the PZR on 10/21/2024 and was told on 10/23/2024 that the case would have to first go to the BOA and that dual approval was needed.

After speaking with Beninato on 11/1/2024, the LUD agreed to have the HDRB decide the case first and then send it to the BOA. The HDRB application was submitted on 11/11/2024

WALL AND FENCE GUIDELINES
SANTA FE HISTORIC DISTRICTS

[ADOPTED 24 AUGUST 1999]

Purpose and intent: These guidelines are offered to promote continuity and harmony of design elements that comprise streetscape in the Santa Fe Historic Districts, including, but not limited to walls, fences, open space and landscaping and their connectivity to the primary structures(s) on the property and the physical character of the street or public façade of the property. These guidelines are consistent with the purpose and intent, and standards in the Historic Districts Ordinance [Section 14-70 SFCC 1987].

SCALE:

Walls should not extend for more than 50 feet in a single, horizontal plane without a plane change of at least one foot.

Wall heights should modulate a minimum of 8 inches, or one block course, at least every 25'.

Walls should include openings such as gates, windows and nichos at appropriate intervals.

Walls and fences in excess of 4 feet in height and having street frontage or visibility shall be brought to the HDRB for review and approval prior to submission for building permit review. Where there is a conflict between this guideline and the allowable height as calculated under Section 14-70.20 SFCC 1987, the latter shall prevail. [This supersedes the HDRB's 8/13/96 policy requiring the same for walls or fences in excess of 3 feet in height. It encourages the construction of lower privacy walls that still allow the structure on the site to make a contribution to the streetscape, and provide for a view shed into the property. This is recommended in response to the proliferation of inappropriately high yard walls that have been and are being constructed throughout the city's historic districts, causing an impact on the historic and visual character of the historic districts.]

Wall heights should be carefully regulated by the HDRB standards as calculable for the particular streetscapes [Section 14-70.20 SFCC 1987]; and should be restricted so as not to increase the allowable height for the streetscape by more than 20%.

Solid fences should be stepped back and modulated the same as walls.

Fences with fenestration, such as coyote fences, may continue in an unrestricted horizontal distance at the same height and in the same horizontal plane.

SETBACK:

Unfenestrated walls and fences (e.g. cedar stake, ponderosa slat) should setback from the front property line an average of 1 foot for every 10 feet of horizontal length of the wall. This could be accomplished in a single plane or with step backs as outlined above.

Open fences (e.g. wire and post, picket) or fenestrated fences (e.g. coyote) may be constructed without setback at the front property line, unless otherwise regulated by the underlying zoning.

Walls with openings comprising 20% of the surface area of a single plane may be constructed at the property line, unless restricted by the underlying zoning.

Side or rear walls or fences may be constructed at the property line as per that allowed by the underlying zoning.

Walls or fences within existing compounds should be restricted to privacy barriers to enclose courtyards, parking and private areas; and should be connected to and not extend more than 25 feet from the main structure. However, walls or fences should not be connected to significant structures. Desired connections may be made to significant structures by way of other means [e.g. Landscaping]. These treatments will help maintain traditional compound common elements, such as open space and the ability to communicate with neighbors, and therefore assist in the preservation of the character of existing compounds.

MATERIAL, TEXTURE AND COLOR:

Walls should be predominantly of the same material, texture and color as the main structure(s) to be located on the property, or may be of material indigenous or traditional for the area such as river rock, limestone, flagstone or slate.

Fences should be of the material, texture and color of fences typical of the existing streetscape or design vernacular if applicable to a particular H-District or streetscape.

GATES:

Vehicular gates should be permitted only at entrances to private driveways or compounds and set back in accordance with the underlying zoning.

Vehicular gating of subdivisions or other large-scale developments is strongly discouraged, and may be prohibited [See City of Santa Fe 1999 General Plan].

Gates should be designed to complement the wall or fence treatment containing them with respect to scale, height, material, texture and color. Fenestrated gates should be encouraged as opposed to solid gates.

LANDSCAPING (Suggested Options)

Walls and fences in excess of 50' in length should install landscaping along the exterior façade within the suggested setback or step back.

Landscaping on top of or over a wall is encouraged to provide for additional screening if desired from the interior of the property.

Terracing of walls is encouraged and should be landscaped.

The use of native, drought resistant plant material is encouraged in all wall, fence or terrace landscaping.

A new application with a different design must be submitted within 90 days from the hearing date. The existing fence must be removed within 90 days.

For further information please call 505-955-6605.

Sincerely,

Lani McCulley
