City of Santa Fe

AGENDA

REGULAR MEETING OF THE GOVERNING BODY
FEBRUARY 24, 2021
4:00 PM
ATTEND VIRTUALLY

SPECIAL PROCEDURES FOR GOVERNING BODY MEETING

Attendance: In response to the State's declaration of a Public Health Emergency, the Mayor's Proclamation of Emergency, and the ban on public gatherings in excess of those permitted in the current Public Health Order, the Governing Body meeting will be conducted virtually.

Viewing: Members of the public may view the meeting through the Government Channel on Comcast Channel 28 and Comcast HD928 or may stream the meeting live on the City of Santa Fe's YouTube channel at https://www.youtube.com/user/cityofsantafe. The YouTube live stream can be accessed at this address from most smartphones, tablets, or computers.

The video recording of this and all past meetings of the Governing Body will also remain available for viewing at any time on the City's YouTube channel at https://www.youtube.com/user/cityofsantafe. Staff is available to help members of the public access pre-recorded Governing Body meetings on-line at any time during normal business hours. Please call 955-6521 for assistance.

Radio Broadcast: The meeting can be heard on radio station KSFR 101.1.

Agenda: The agenda for the meeting will be posted at https://www.santafenm.gov.

Written Comments: The public may submit written comments on any of the legislative items to be considered on the *Consent Agenda*, *Discussion Agenda*, *Public Hearings* or *Petitions From the Floor* through 1:00 p.m. the day of the meeting, via the virtual comment "button" at https://santafe.primegov.com/public/portal.

Public Comment: To provide live public comment during *Petitions from the Floor* or *Public Hearings*, you must join the Zoom meeting by internet or phone, as follows:

Internet: To join the Zoom meeting on the internet using a computer, laptop, smartphone, or tablet, use the following link: https://santafenm-gov.zoom.us/j/92434805597?pwd=S1NPZkVWUlhJR3FsbFRIVENUdW5kZz09.

Passcode: 421605

Attendees should use the "Raise Hand" function to be recognized by the Mayor to speak at the appropriate time.

Minutes of the
Special Meeting of the Governing Body
Tuesday, December 1, 2020
Virtual Meeting

1. CALL TO ORDER

A special meeting of the Governing Body of the City of Santa Fe, New Mexico, was called to order by Mayor Alan Webber, on Wednesday, December 1, 2020, at approximately 4:02 p.m., at the Council Chambers at City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico as a virtual meeting.

2. PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was led by Councilor Abeyta.

3. SALUTE TO THE NEW MEXICO FLAG

The Salute to the New Mexico Flag was led by Councilor Rivera.

4. INVOCATION

The Invocation was led by Councilor Cassutt-Sanchez.

The Governing Body observed a moment of silence for Gilbert Holmes who died and for his grieving family.

5. ROLL CALL

Roll call indicated the presence of a quorum remotely, as follows:

Members Present Remotely
Mayor Alan Webber
Councilor Roman "Tiger" Abeyta
Councilor Jamie Cassutt-Sanchez
Councilor Michael J. Garcia
Councilor Signe Lindell
Councilor Christopher M. Rivera
Councilor Carol Romero-Wirth

Councilor JoAnne Vigil Coppler
Councilor Renee D. Villarreal

Members Excused

Other Participants Attending Remotely
Jarel LaPan Hill, City Manager
Erin McSherry, City Attorney
Yolanda Y. Vigil, City Clerk
Jesse Guillen, Legislative Liaison
Andrea Salazar, Assistant City Attorney
Rich Brown, Economic Development Director
Kyra Ochoa, Community Services Director
Alexandra Ladd, Affordable Housing Director
Andrew Padilla, Santa Fe Police Department Chief
Carl Boaz, Council Stenographer

6. APPROVAL OF AGENDA

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Lindell, to approve the agenda as presented.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt--Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler and Councilor Villarreal.

Against: None.

7. DISCUSSON/ACTION ITEMS

a. Request to Authorize the City Manager to Sign an Amendment to the CARES Act-Funded Contract with Family Independence Initiative (FII) to Increase the Contract in an Amount up to Three-Million Dollars ($3,000,000), to Administer and Provide Direct Economic Relief to Indigent City Residents Affected by COVID. (Kyra Ochoa, Director of Community Services, krochoa@santafenm.gov, 955-6603)

Ms. Vigil read the caption for this item.

MOTION: Councilor Romero-Wirth moved, seconded by Councilor Lindell, to approve the request for City Manager to sign the amendment as presented.

Discussion on the Motion:

Councilor Garcia asked Director Ochoa if the City anticipated hitting only the $3 million target when we have $5 million available.

Director Ochoa said the City will not exceed $3 million, given our timing and not knowing if CARES Act funds are available to other departments. The first amendment for $875,000 is being spent.

Councilor Garcia was grateful thanks to Director Ochoa and her team for getting money out the door. “Timing is not on our side. But you are working diligently on it.”

Director Ochoa thanked Governing Body for condolences. Edith worked in Community Services a long time.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt--Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler and Councilor Villarreal.

Against: None.

b. Request for Approval of Amendment #1 to the NMCEH Professional Services Agreement to Increase Compensation of CARES Act Funding by $194,942 for a Total Contract Amount of $556,169. (Alexandra Ladd, Director, Office of Affordable Housing, agladd@santafenm.gov, 955-6346)

Ms. Vigil read the caption for this item.

MOTION: Councilor Romero-Wirth moved, seconded by Councilor Lindell, to approve the NMCEH PSA amendment to increase funding by $194,942, as presented.

There were no questions or discussion on the motion.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt--Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler and Councilor Villarreal.

Against: None.

c. Request for Approval of an Amendment to Extend the Timeframe for Closing of the "Santa Fe Clay Building," Located on Parcel F-1 at 545 Camino De La Familia in the Santa Fe Railyard and to Require the Purchaser, Luna Capital, to Provide Earnest Money in the Amount of $10,000.00, which Will Either Remit to the City if the Sale Does Not Close or Be Applied to the Purchase Price if Closing Occurs Before December 31, 2020. (Andréa Salazar, Assistant City Attorney, salazar@santafenm.gov, 955-6303 and Rich Brown, Director, Community & Economic Development, rdbrown@santafenm.gov, 955-6625).

Ms. Vigil read the caption for this item.

MOTION: Councilor Romero-Wirth moved, seconded by Councilor Lindell, to approve the closing extension for closing the sale of the Santa Fe Clay Building as presented.

Discussion on the Motion

Councilor Vigil Coppler asked if there was an escrow for it in the purchase document.

Ms. Salazar said there was no escrow.

Councilor Vigil Coppler asked why.

Ms. Salazar said the City does not normally require an escrow payment. She explained that they wanted to offer the earnest money in case they could not close before December 31, 2020.

Councilor Vigil Coppler commented that earnest money usually requires due diligence, and the buyer can lose it if they cannot perform. She was surprised no earnest money was already on the table. The seller can give back the earnest money. She was happy that the city is collecting earnest money now but with these large transactions, we should have earnest money on the table.

Councilor Garcia asked, if the purchaser is not able to complete the purchase by December 31, whether the City would keep the $10,000 and go our separate ways.

Ms. Salazar agreed.

Councilor Garcia asked what the city's intention would for the building in the future as next steps.

Ms. Salazar said the City could potentially put it back on the market for lease or sale again.

Councilor Garcia suggested for the time invested in this project, the city might have invested more than $10,000 to facilitate this process. Staff hours spent on it and potential dollar value could be more. If they had to spend an exorbitant time on it, we are in the hole on it. He asked if $10,000 would cover that time spent.

Ms. Salazar clarified that Staff have done very little work on it other than communicating with the parties. All documents were done.

Councilor Garcia was taking into account the time before the ordinance was passed. It takes time to prepare the ordinance. We need to consider taking in earnest monies and if nothing comes from it, we should not forego that expense of Staff time.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt--Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler and Councilor Villarreal.

Against: None.

d. CONSIDERATION OF RESOLUTION NO. 2020-43. (Mayor Webber)
A Resolution Extending the State of Emergency as Proclaimed by the Mayor on November 30, 2020 by Sixty (60) Days, Pursuant to Section 20-1.3(C) SFCC 1987. (Erin K. McSherry, City Attorney, ekmcsherry@santafenm.gov, 955-6961)

Ms. Vigil read the caption for this item.

MOTION: Councilor Lindell moved, seconded by Councilor Cassutt-Sanchez, to approve the Resolution as presented.

Discussion on the Motion:

Councilor Vigil Coppler was unclear on the timing of the resolution. She got an email today that said Mayor Webber already signed the proclamation. She asked if the resolution wouldn't relate to that and asked what was wrong with approving the resolution first.

Ms. McSherry explained that the Mayor can proclaim an emergency and can only approve it for 34 days and the Governing Body can extend it for up to 30 days more. The initial proclamation was for seven days. This timing is only a one-day turnaround instead of three-day turnaround. It just happened to be one day after. Otherwise, the proclamation would have expired at end of three days.

Councilor Vigil Coppler asked if the three days were in addition to the 60 days.

Ms. McSherry said the proclamation is for 60 days from today.

Councilor Vigil Coppler said she got lots of emails yesterday and asked how many COVID cases there are in the City now.

Ms. McSherry said in the County, there are over 5,000 cases.

Manager LaPan Hill said three cases in the City were announced yesterday in an email. She has done individual notifications and now is starting to make all notifications in the City. In one email, multiple new cases were included. They are in real time.

Councilor Vigil Coppler thought there were more than three.

Councilor Villarreal agreed.

Manager LaPan Hill didn't have the City total but maybe could state that before the end of this meeting.

Councilor Vigil Coppler wanted to make sure we are doing everything possible and that safe practices are followed. There have been reports of noncompliance within City government. She wanted all supervisors to follow it and enforce it in their supervisees. Employees don't want to go above

their supervisors, but they should be able to go outside the chain of command.

Manager LaPan Hill agreed. Reports can be made anonymously. There is a lot of fear and confusion. "Did the person test positive in my department workspace?" But anyone that you come into contact with could be positive for the virus. It is a constant conversation. And it doesn't matter if they are in the building or not. Contact tracking has helped keep our employees safe. Kudos to our small team for that.

Councilor Vigil Coppler said she had a communication from an employee that nothing was being enforced in their department. But in repercussion, they receive emails not to have communication with her. We need to do everything to enforce the policy. The important thing is to get compliance and they need to know what can happen if not. We have an opportunity to go "green" and our city population is part of that. She wanted the city to get to green.

Manager LaPan Hill said there were five cases yesterday.

Councilor Garcia said he got six emails yesterday on cases. He asked what has changed since the last proclamation. He didn't see any changes in the new proclamation.

Ms. McSherry said the primary change was requiring the public to answer screening questions when entering a City building. No one without a mask can enter a City building. It also issued restrictions on grocery stores in the proclamation. And it mandates that City staff will participate in testing when requested.

Councilor Garcia asked next time to have the bullets in prime.gov to answer questions of the public. He asked why this is not imposing the same requirements on Staff as we do for the public.

Ms. McSherry did not understand.

Councilor Garcia referred to required screening for the public entering the building.

Ms. McSherry said that is required of Staff as well.

Councilor Garcia said asymptomatic carriers are around. We want to ensure we keep everyone safe.

Councilor Garcia pointed out that even with these protocols, we are not 100% sure there is no infected person in the building. We shouldn't leave that false impression with the public. Staff and public are being checked but it is not a guarantee of safety.

Councilor Cassutt-Sanchez asked if the screening included temperature checking.

Ms. McSherry said yes, where we are able to do that but in most cases, no Staff is available to do that.

Councilor Cassutt-Sanchez asked if the city has considered no-contact thermometers.

Mayor Webber was not aware of exploring that technology.

Manager LaPan Hill added that we thought that was important in the beginning, but fever is not an important symptom. Entry at City Hall is only by appointment and the questionnaire is considered more important.

Councilor Cassutt-Sanchez understood. She hoped people are being honest. Are staff confirming, with appointments, that they have reviewed the questionnaire - to specifically confirm those answers to be able to enter the building?

Ms. McSherry said it is just now being implemented.

Councilor Cassutt-Sanchez asked if the emails of those who tested positive were only with people in our facilities or everyone in the community.

Manager LaPan Hill said notifications are of any City employee whether in the building or at home.

Ms. McSherry added that we have the last date when the Staff member was in the building and whether they had any close contact.

Councilor Romero-Wirth pointed out that this is not creating an impenetrable bubble. And while we get notices on people testing positive, they are now sidelined but also whoever they had close contact, must also quarantine. So there is a greater impact to our team more than just testing positive. All reporting will get worse before it gets better, and the incidence potentially affects our ability to provide services to the public.

Councilor Garcia recommended all restaurants should log in names of those who enter and quickly notify those folks when positive cases are found. Without knowing, they can spread it to all of their family.

Councilor Rivera asked if our Police Department is enforcing our own orders and if there a number aside from 911 for COVID reports of noncompliance.

Manager LaPan Hill clarified the non-emergency number which is routed through RECC is the protocol.

Councilor Rivera asked Ms. McSherry if police officers are able to give citations.

Ms. McSherry agreed on state and city orders. Local citations go to Municipal Court and state citations go to Magistrate Court.

Councilor Romero-Wirth clarified that we are not implementing testing but are implementing screening.

Councilor Cassutt-Sanchez asked who keeps the names and numbers at City Hall.

Councilor Vigil Coppler understood from public communications that the citations are not a high priority. She asked Chief Padilla about it.

Chief Padilla agreed it is a low priority because it is not an immediate threat or injury. So reports of not wearing a mask are followed up only if an officer is in the area. That could pend for 3 to 30 minutes. His officers have issued 12 citations so far. Also, all officers carry additional face coverings to give to someone who is not wearing one.

Councilor Vigil Coppler asked what happens if the call is about not complying with the State order.

Chief Padilla replied that if a facility is over the maximum allowable occupants, we can issue a citation. But it could pend for 30 minutes to 3 hours. You probably have been to a store with a device to monitor the occupants and they are not logging customers for tracing.

Councilor Vigil Coppler reasoned that the police do have the authority to enforce and with Santa Fe County, the Sheriff does.

Chief Padilla agreed. There is no indoor dining at all and police would enforce the Governor's order.

Mayor Webber appreciated the thorough discussion on this. The second or third largest of CARES allocation is for safety devices, mostly through Director Wheeler's team. We should thank her and Director Ochoa for those efforts. We want them to stay safe on the job and when they go home. So we use technology as much as possible.

Mayor Webber said he just had conversation on outreach with AFSCME. It is not about which side of the table we are sitting. We are all working on the same side for keeping our folks safe. We are at a very serious point and he is listening to the experts who all indicate that where we are today. Until vaccines arrive is to bend the curve – stay home, use hand sanitizer. We are a red county now and should work hard to get to a green county. The responsibility is on our shoulders to bend this.

He noted that Mr. Holmes' death was a COVID death. This is our job right now. The vaccine will begin to restore us to health and safety.

Manager LaPan Hill reported 18 active cases, including the six notices yesterday.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt--Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler and Councilor Villarreal.

Against: None.

8. COMMUNICATIONS FROM THE GOVERNING BODY

Councilor Vigil Coppler gave thanks to Staff who hung the lights. It is amazing what they can do. Thanks to Joe Abeyta and Kristine Mihelcic for putting together the show of the lighting and to KSWV for adding the music. She watched it instead of going to the Plaza. Got many texts. Mr. Abeyta said there were over 6,000 viewing.

Councilor Rivera said the City crews that light on the plaza do an amazing job every year. He appreciated all city staff and for those who were able to drive by.

Councilor Romero-Wirth thanked City employees for their work in difficult times.

Councilor Lindell thought the Plaza is fantastic and fun to drive by at night. Stay safe.

Councilor Abeyta also thanked Staff. He watched it on the government channel. He thanked Director Ochoa for her work on the CONNECT program and expediting getting CARE funds out.

Councilor Villarreal also gave a shout out to staff Joe Abeyta and Kristine Mihelcic. KSWV is great to partner with and even make song requests. Even with the COVID numbers, some people cannot miss work and cannot leave for a day. Her mom had a scare from a dentist's assistant and had to quarantine because the assistant failed to disclose her status.

Councilor Garcia had the same sentiments to the City team for working tirelessly to Joe and Kristine for a great production. KSWV has awesome DJs. He was anxious to get beyond this pandemic so we can share meals together. It is challenging but we can get through it and keep more City members alive. Hopefully, everyone worked off Thanksgiving pounds .

Councilor Cassutt-Sanchez thanked all who worked on holiday lighting and for those who must work in these challenging times. She is excited to get down to the Plaza. She especially thanked the Finance Team for their work on all the contracts for CARES. Director Brown and the Land Use Department were on board. Thanks to all. The numbers are extraordinary right now, and it is scary, and we all need to stay home. We need to keep going for the light at the end of the tunnel. Take care of yourself which takes care of each other.

Mayor Webber noted it is the holiday season but not an ordinary holiday season. We need to stay safe. He related some of what he heard earlier today at the Conference of Mayors Zoom call.

We need to find a deep place of compassion for others and help put food on the table. The most powerful medicine is not a vaccine but love for each other and there is much we can do to share that love for others. Caregivers are doing far more to support people and only a community effort can stop COVID 19. Bring compassion, love and patience with each other. That will get us through it

9. ADJOURN

Having completed the agenda and with no further business to come before the Governing Body, the meeting was adjourned at 5:17 p.m.

Approved by:

Mayor Alan Webber

ATTESTED TO:

Yolanda Y. Vigil, City Clerk

Respectfully submitted by:

Carl G. Boaz, Council Stenographer

City of Santa Fe

AGENDA

SPECIAL MEETING OF THE GOVERNING BODY
JANUARY 21, 2021
5:30 PM
ATTEND VIRTUALLY

SPECIAL PROCEDURES FOR SPECIAL GOVERNING BODY MEETING

Attendance: In response to the State's declaration of a Public Health Emergency, the Mayor's Proclamation of Emergency, and the ban on public gatherings of more than five (5) people, the Special Governing Body meeting will be conducted virtually.

Viewing: Members of the public may view the meeting through the Government Channel on Comcast Channel 28 and Comcast HD928 or may stream the meeting live on the City of Santa Fe's YouTube channel at https://www.youtube.com/user/cityofsantafe. The YouTube live stream can be accessed at this address from most smartphones, tablets, or computers.

The video recording of this and all past meetings of the Governing Body will also remain available for viewing at any time on the City's YouTube channel at https://www.youtube.com/user/cityofsantafe. Staff is available to help members of the public access pre-recorded Governing Body meetings on-line at any time during normal business hours. Please call 955-6521 for assistance.

Agenda: The agenda for the meeting will be posted at https://www.santafenm.gov.

1. **CALL TO ORDER**

2 **PLEDGE OF ALLEGIANCE**

3 **SALUTE TO THE NEW MEXICO FLAG**

4 **INVOCATION**

5. **ROLL CALL**

6. **APPROVAL OF AGENDA**

7. MATTERS FROM THE CITY ATTORNEY
   a. EXECUTIVE SESSION
      1. In Accordance with the New Mexico Open Meetings Act, Specifically NMSA 1978, Section 10-15-1, Part (H)(8), Discussion of the Disposition of Property, Specifically the Midtown Property, Formerly

Known as the College of Santa Fe and Formerly Operated as the Santa Fe University of Art and Design.

8. **ADJOURN**

Pursuant to the Governing Body Procedural Rules, in the event any agenda items have not been considered prior to 11:30 p.m. and the Governing Body does not vote to extend the meeting, such items shall be postponed to a subsequent meeting, provided that the date, time and place of such meeting is specified at the time of postponement.

NOTE: New Mexico law requires the following administrative procedures be followed when conducting "quasi-judicial" hearings. In a "quasi-judicial" hearing all witnesses must be sworn in, under oath, prior to testimony and will be subject to reasonable cross-examination. Witnesses have the right to have an attorney present at the hearing.

Persons with disabilities in need of accommodations, contact the City Clerk's office at 955-6521, five (5) working days prior to meeting date.

Pursuant to the Governing Body Procedural Rules, in the event any agenda items have not been considered prior to 11:30 p.m. and the Governing Body does not vote to extend the meeting, such items shall be postponed to a subsequent meeting, provided that the date, time and place of such meeting is specified at the time of postponement.

RECEIVED AT THE CITY CLERK'S OFFICE
DATE: January 18, 2021
TIME: 1:08 PM

Minutes of the
Special Meeting of the Governing Body
Thursday, January 21, 2021
Virtual Meeting at 5:30 PM

1. CALL TO ORDER

A special meeting of the Governing Body of the City of Santa Fe, New Mexico, was called to order by Mayor Alan Webber, on Thursday, January 21, 2021, at approximately 5:31 p.m., at the Council Chambers at City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico as a virtual meeting.

2. PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was led by Councilor Lindell.

3. SALUTE TO THE NEW MEXICO FLAG

The Salute to the New Mexico Flag was led by Councilor Abeyta.

4. INVOCATION

The Invocation was led by Mayor Webber.

Councilor Rivera remembered the life of his wife's uncle, Gilbert Alita who died of COVID virus day before yesterday, who grew up in Santa Fe and worked for BIA.

The Governing Body observed a moment of silence for those who have recently died and their grieving families and those suffering from COVID or other diseases. We wish them well.

5. ROLL CALL

Roll call indicated the presence of a quorum remotely, as follows:

Members Present Remotely
Mayor Alan Webber
Councilor Roman "Tiger" Abeyta
Councilor Jamie Cassutt-Sanchez
Councilor Michael J. Garcia
Councilor Signe Lindell

Councilor Christopher M. Rivera
Councilor Carol Romero-Wirth
Councilor JoAnne Vigil Coppler
Councilor Renee D. Villarreal

Members Excused

Other Participants Attending Remotely
Jarel LaPan Hill, City Manager
Erin McSherry, City Attorney
Kristine Bustos-Mihelcic, City Clerk
Carl Boaz, Council Reporter

6. APPROVAL OF AGENDA

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Rivera, to approve the agenda as published.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

7. MATTERS FROM THE CITY ATTORNEY

a. EXECUTIVE SESSION

In Accordance with the New Mexico Open Meetings Act, Specifically NMSA 1978, Section 10-15-1, Part (H)(8), Discussion of the Disposition of Property, Specifically the Midtown Property, Formerly Known as the College of Santa Fe and Formerly Operated as the Santa Fe University of Art and Design

MOTION: Councilor Rivera moved, seconded by Councilor Lindell, to go into Executive Session for discussion of the item listed on the agenda and recommended by the City Attorney.

Discussion on the Motion:

Councilor Garcia asked for clarification, when the Governing Body comes out, if the Governing Body would take any action.

Mayor Webber said no and noted no action was listed on the agenda. Councilor Garcia mentioned that the presentation on the agenda for the Finance Committee did not happen and asked if it was rescheduled.

Councilor Abeyta said it would be presented at the Finance Committee meeting on February 1, 2021.

Councilor Garcia explained that he knew there was a lot of interest in it and since it did not happen, the public was concerned and wanted to make sure it was discussed in public.

Mayor Webber agreed that it would be considered in open session at an upcoming Governing Body meeting.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

Mayor Webber clarified the Governing Body would return to open session after the executive session was over and would adjourn without taking any actions.

The Governing Body went into executive session at 5:40 pm and returned from the executive session at 7:10 pm.

MOTION: Councilor Rivera moved, seconded by Councilor Vigil Coppler, to come out of executive session, stating for the record that the only matter discussed was the item listed on the agenda.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

Mayor Webber said the discussion in the Executive Session revolved around a letter from KDC/Cienda Partners who had been our Master Developer partner and described it as a request for mutual termination of the negotiated agreement. He added that more information would be forthcoming in the near future on the details of the letter and suggestions going forward. The Governing Body wanted to be very clear about what was being discussed and would be further discussed next week.

8. ADJOURN

Having completed the agenda and with no further business to come before the Governing Body, the meeting was adjourned at 7:13 p.m.

Approved by:

_____
Mayor Alan Webber

ATTESTED TO:

Minutes of the
Regular Meeting of the Governing Body
Wednesday, January 27, 2021
Virtual Meeting

1. CALL TO ORDER

A regular meeting of the Governing Body of the City of Santa Fe, New Mexico, was called to order by Mayor Alan Webber, on Wednesday, January 27, 2021, at approximately 4:03 p.m., at the Council Chambers at City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico as a virtual meeting.

2. PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was led by Councilor Cassutt-Sanchez.

3. SALUTE TO THE NEW MEXICO FLAG

The Salute to the New Mexico Flag was led by Councilor Lindell.

4. INVOCATION

The Invocation was led by Councilor Romero-Wirth.

Councilor Villarreal remembered Maria Perea, taken by COVID, Mother of her childhood friends and she left seven children. She worked for DMV, sang in a choir and was a talented painter. She also remembered Richard Distour, who died from COVID on his 91st birthday the day when he was to be vaccinated. He is survived by wife and family. She also remembered Pete Gurule, who was killed in accident at 40 years of age. He was the father of two, a DJ. Gurule. She read a poem that included, “Life is such a blessing and death such a thief…”

Councilor Vigil Coppler gave condolences to the family of Oscar Olevelo, who had worked at the New Mexico Supreme Court. He was a cyclist and runner who beat cancer for a while, and it came back, and he died last Sunday.

Councilor Lindell remembered and sent condolences to Mike and Jenny Meyer at the passing of their daughter. She served with him on the Planning Commission.

The Governing Body observed a moment of silence for those who have recently died and their grieving families and those suffering from COVID or other diseases.

5. ROLL CALL

Roll call indicated the presence of a quorum remotely, as follows:

Members Present Remotely
Mayor Alan Webber
Councilor Roman "Tiger" Abeyta
Councilor Jamie Cassutt-Sanchez
Councilor Michael J. Garcia
Councilor Signe Lindell
Councilor Christopher M. Rivera
Councilor Carol Romero-Wirth
Councilor JoAnne Vigil Coppler
Councilor Renee D. Villarreal

Members Excused

Other Participants Attending Remotely
Jarel LaPan Hill, City Manager
Erin McSherry, City Attorney
Kristine Bustos-Mihelcic, City Clerk
Kyra Ochoa, Community Services Director
Regina Wheeler, Public Works Director
Leroy Pacheco, City Engineer
Andrew Padilla, Police Department Chief
Paul Babcock, Fire Department Chief
Carl Boaz, Council Stenographer

6. APPROVAL OF AGENDA

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Lindell, to approve the agenda as published.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

7. APPROVAL OF CONSENT CALENDAR

Councilor Villarreal asked to be listed as a cosponsor on item 10-a.

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Villarreal, to approve the Consent Calendar as amended with Item 10(a) pulled for discussion.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

8. APPROVAL OF MINUTES

a. Special Governing Body Meeting – January 4, 2021

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Lindell, to approve the minutes of January 4, 2021 as presented.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

b. Regular Governing Body Meeting – January 13, 2021

Councilor Villarreal on page 25, two names of public were not included Melissa Mascareñas and Virgil last name is Vigil.

Page 31 where she is speaking, she noted some things were not portrayed right, and asked to add in the middle of the paragraph where it said, "She also recognized that the process was more than monuments but of people…" And it should include, "And to be honest, people in our community have felt *invisiblized* and, for various periods, through various periods of our recent history and present day." She thought that caught the gist of it.

There were no other changes.

MOTION: Councilor Villarreal moved, seconded by Councilor Vigil Coppler, to approve the minutes of January 13, 2021 as amended.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

9. PRESENTATIONS

a. Department Update on Phase 1-A Arroyo Chamiso Crossing Study. (Regina Wheeler, Public Works Department Director, rawheeler@santafenm.gov, 955-6622) **INFORMATION ONLY**

Ms. Bustos Mihelcic introduced this presentation.

Director Wheeler noted other people present in support of this presentation. Leroy Pacheco and people from WSC were available to answer questions. She just wanted to update the Governing Body on this important project that affects our quality of life. We just completed phase 1- A – public engagement and assessment of alternatives including transportation in our City. The document provided on design shows that we have some funding moving into design phase from impact fees and the City CIAC approved them. It is being done in a way that makes the project eligible for federal funding. We are now getting feedback on the next phase and gearing up for long-term.

Mr. Pacheco thanked Mayor and Director Wheeler and offered to use his time answering questions. We are in the beginning phases of public involvement. He shared his screen showing the project phases and the area it covers around Rodeo Road, Cerrillos Road, Zafarano, and Avenida de Las Campanas. He pointed out the bicycle route. In the study, the comparison of alternatives meeting had about 150 participants. He briefly described each of the three alternative routes. He explained that the Environment Assessment has been conducted and added that there will be an acequia underpass. He said the other people working on this endeavor, could answer questions at this point.

Councilor Vigil Coppler commented that she and Councilor Harris had a meeting at GCCC that was well attended, as well as a second one. They met with HOAs in the area, and from that, were able to make suggestions to John Romero, Director Wheeler, and Mr. Pacheco to make it the best choice. It is a great plan although not everybody agreed. Former Councilor

Harris was very adamant about getting this project back on track. She was hopeful we could see it through to completion and get adequate traffic control there.

Councilor Rivera asked if the alternate routes were based on recommendations for Alternative A or were just options we have.

Mr. Pacheco said the three alternatives were proposed to decide on the best way for connections from Richards and how we came with Alt A, B, and C.

Councilor Rivera concluded there was no recommendation on which is best.

Mr. Pacheco said they followed the technical analysis on each and, based on neighborhood and public involvement in discussion of connections, we are currently looking at Alt B for recommendation.

Councilor Rivera asked about Fire Chief negotiations for crossing NM Game and Fish property and if they still own that entire property.

Mr. Pacheco observed that so much has changed in the last year. They are listed as a stakeholder in the packet. He could get more detail but knew Game and Fish were aware of it. He just didn't know the level of detail in the discussion on that property. But he pointed out that as they move forward, all property owners will be notified of the impact.

Mayor Webber remembered the Convention Center in-person briefing was packed and COVID was just starting to happen. The discussion was lively and very thoughtful. He appreciated seeing this briefing tonight. He asked Director Wheeler and Mr. Pacheco to keep the Governing Body updated. He agreed that Councilor Harris always wanted it moving forward. There would be great traffic benefits and keeping the community and Governing Body involved is important.

10. CONSENT CALENDAR

a. CONSIDERATION OF RESOLUTION NO. 2021-7. (Mayor Webber)
A Resolution in Support of Senate Resolution 372 and House Resolution 835 and in Support of the 30 by 30 Campaign to Protect 30 Percent of Lands and Ocean by 2030. (Neal Denton, Sustainability Planner, nhdenton@santafenm.gov, 955-2229)

COMMITTEE REVIEW
Quality of Life Committee – 01/20/21
Public Works and Utilities Committee – 01/25/21

b. Request for Approval of Buckman Direct Diversion Shared Pool Agreement with Santa Fe County. (Jesse Roach, Water Division Director, jdroach@santafenm.gov, 955-4309)

COMMITTEE REIVEW:
Public Works and Utilities Committee: 01/11/21
Finance Committee: 01/19/21

c. Request for Approval of Amendment No. 3 in the Amount of $570,000 to Original Contract No. 19-0031 for On-Call Construction with GM Emulsion LLC. (Randy Lopez, Transmission and Distribution Supervisor, rjlopez@santafenm.gov, 955-4246)

COMMITTEE REVIEW:
Public Works and Utilities Committee: 01/11/21

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

12. **MATTERS FROM THE CITY MANAGER**
a. Covid Updates

Manager LaPan Hill noted the COVID-19 report was in the packet. Today, Santa Fe County had a 20% decrease and positivity was down to about 6%. City numbers are decreasing. The number of calls at the Police Department went down. The Fire Department had 90 calls in the last period and 61 this period.

The work is important to continue. We only had two new cases within the City. The controls in place need to keep going. Operation Health and Safety has a dedicated team working in some areas where repeated calls were received. They will continue enforcement. The City is working closely with the Department of Health on vaccinations and offered the Convention Center when they are ready with vaccination clinics. With supply and demand as it is now, we need to get people registered at the state website. We have weekly meetings with them and when we get more vaccine, will have more vaccinations.

The other report received and in the packet was the November GRT report. She stood for questions.

Councilor Romero-Wirth wanted to be clear that we, as a City, are in a supportive role waiting for Federal and State Government to provide us with whatever we need, and our role is not to give shots. We won't do that. Correct?

Manager LaPan Hill replied that at this point, it is correct. We have offered the Fire Department to help and whatever they need but the City has no role in vaccinating.

Councilor Cassutt-Sanchez noticed, in looking at City facilities, she wanted the Governing Body to consider preventing barriers and challenges for the vaccination sites. She understood using the Convention Center, but there are many barriers in this part of town. It needs to be considered when partnering with the State. She was grateful for Operation Health and Safety and wondered how it has helped. She was confused about the difference of the COVID information and the COVID masks. She asked if it was the volume of people involved.

Chief Padilla said it should be labeled as a "COVID-19 Mask Call" that was called into the RECC. The County lists it differently but should have been shown as a mask violation but is difficult to go back and correct it.

Councilor Cassutt-Sanchez asked if that meant those five warning cases were reported or if just five people were issued a warning. She wanted to understand how we categorize them.

Chief Padilla responded that they were all documented. He has a count on verbal warnings given to people who might be walking a dog, playing basketball, or riding a bicycle and when the officer observes that, he or she gives them a face covering they can carry with them.

Councilor Cassutt-Sanchez asked why we would not issue a citation.

Chief Padilla said he could not take away the officer's discretion. The first offense is a written warning and the second is a fine of $50.

Councilor Cassutt-Sanchez suggested clarifying that in the February report.

Councilor Cassutt-Sanchez had a question about PPE distribution for Kyle, but he was not online.

Councilor Cassutt-Sanchez noted we are in a weird period with decreasing numbers that give a false sense of security and we need to continue being responsible.

Councilor Rivera asked about serving the schools.

Director Ochoa said DOH provides for the schools.

Councilor Rivera wondered if the Fire Department could help with a facility.

Chief Babcock said the Fire Department is standing by at the ready and just waiting for the go ahead. The Fire Department could give vaccinations, if needed.

Councilor Rivera was glad to hear that. He agreed with Councilor Cassutt-Sanchez on needed transportation needed. And if called upon, to prioritize use of the Southside Library since we have been one of the highest areas in contracting the virus.

He asked Director Ochoa re supplies, if Directors are staffed with sufficient supplies, whether the City would make supplies available outside the City Staff.

Director Ochoa agreed and we have a network of nonprofits, the Office of Emergency Management, and other ways.

Councilor Rivera reasoned that since it looks like the numbers have decreased since last time, he would hate for the City to remain overstocked.

Director Ochoa agreed. From what Kyle said, they have other sources of PPE.

Councilor Villarreal thought it appeared this was an update of a different time period from the last report. She asked if it is the most current report.

Manager LaPan Hill said it is because she is reporting at every regular Council meeting.

Councilor Villarreal didn't understand the Fire Department information. The information appeared to be the same as last time. She was curious if it was just copied.

Chief Babcock said the last report was 91 calls, down from 93 previously. There were 23 transports last time and ten transports this time. He added that Destination is Santa Fe and Transport could be transporting anywhere.

Mayor Webber said he spent some time with Ms. Montoya at Christus St. Vincent Hospital that heard that supplies are underperforming, and she asked the City to be patient. We want people to get vaccinated and there is some frustration. She asked that people not call the hospital to take it out on folks who answer the phone. President Biden opened the medicine cabinet and found it was empty, so he is working on that through the Industry Production Act. We all must take our turn. He noted a six-hour maximum for the reagent in the Pfizer vaccine to be able to use it. We really want to be responsive with better updates when we get them, to pass that along for those anxious to be vaccinated.

13. MATTERS FROM THE CITY ATTORNEY

Ms. McSherry recommended going into executive session to consider discussing the matters listed on the agenda.

EXECUTIVE SESSION

In Accordance with the New Mexico Open Meetings Act, Specifically NMSA 1978, Section 10-15-1, Part (H)(7), Attorney-Client Privileged Discussion Regarding Threatened and Pending Litigation in Which the City of Santa Fe Is a Party, Including a Quarterly Litigation Update and Discussion of a Proposed Amendment to the Settlement Agreement between the City of Santa Fe, Century Bank, Artyard Condominium Association and the Santa Fe Railyard Community Corporation, which Previously Dismissed Case D-101-CV-2016-01773. (Erin K. McSherry, City Attorney, ekmcsherry@santafenm.gov, 955-6512)

MOTION: Councilor Rivera moved, seconded by Councilor Romero-Wirth, to into executive session to discuss the items listed on the agenda and recommended by the City Attorney.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

The Governing Body went into executive session at 5:07 pm

The Governing Body ended the executive session at 6:24 pm. They reconvened at 6:30 p.m.

MOTION: Councilor Rivera moved, seconded by Councilor Lindell, to return from executive session, stating for the record that the discussion was limited to the items on the agenda as recommended by the City Attorney.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

14. **EXECUTIVE SESSION ACTION ITEMS**

a. Request for Approval of an Amended Settlement Agreement between the City of Santa Fe, Century Bank, Artyard Condominium Association and the Santa Fe Railyard Community Corporation, Removing Certain Restrictions on Railyard Parcel B-1 in Exchange for a Parking Agreement with the City, and an Amended Lease Agreement with the Santa Fe Railyard Community Corporation. (Andrea Salazar, Assistant City Attorney, asalazar@santafenm.gov, 955-6303)

Ms. Bustos-Mihelcic read the caption for this item.

MOTION: Councilor Romero-Wirth moved, seconded by Councilor Abeyta, to approve the amended settlement agreement as requested.

There was no discussion or questions on this matter.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

15. MATTERS FROM THE CITY CLERK

Ms. Bustos-Mihelcic provided a few updates. On the agenda, she added the committee review schedule for action items as well as notices for future reviews. She also alerted the Council that the City now has the agenda available in Spanish and a toggle feature for subtitles translated also.

The Santa Fe Reporter published 25 Things to love about Santa Fe. Number 11 was the ability for people to attend the City Council meeting in their PJs. Joe Abeyta has done a phenomenal job in also getting other committee meetings available through the City's Youtube channel. The Library also was ranked in the Reporter's list at number 7.

16. COMMUNICATIONS FROM THE GOVERNING BODY

A copy of the Bills and Resolutions Scheduled for Introduction is attached to these minutes as Exhibit 1.

Councilor Vigil Coppler read into the record a resolution she will be introducing – A Resolution requiring Governing Body approval prior to the public offering of any city land or property for sale.

She thanked the League of Women Voters for the virtual women's march and was happy to be a presenter on it. It was very creative, and the Governor and the newly appointed Secretary of the Interior were great as well as several Representatives. They brought a wealth of information and views of women walking. It was all very supportive and well done.

She had received feedback on a letter to the editor today and a lot of calls about the Genoveva Chavez Community Center and the lack of programs opening. She learned that the City has a lot of the PPE needed for the opening and still would be compliant with Governor's order. Other cities with 50-meter pools are open with ten people and some pools are open in other cities. Our residents are getting very impatient and she knew the Center could be opened within the Governor's orders and yet we don't. She did not have any answer about that. She would like to hear from the City Manager.

Manager LaPan Hill said she would take her request to our Legal Team and make sure we are within the Governor's orders. She understood the frustration to want the pools opened and she would find out what is holding us back.

Councilor Vigil Coppler thanked her for that. There is room for more participation in the pool. She has talked with Rec Staff who are ready to go and feel they can comply with the orders. Some people are very upset. But Staff cannot give answers to them. She thought the City could open more. We do have the Staff there and at times, they outnumber the public. We have sanitizing and everything needed to open.

Councilor Lindell introduced an ordinance to amend Section 11-14.5 SFCC 1987, to dedicate half the proceeds from any sale or lease of city-owned land and buildings to the Affordable Housing Trust Fund. Secondly, she introduced a Resolution urging the New Mexico Legislature to hold New Mexico School Districts and Charter Schools harmless for decreased enrollment in the 2020-2021 school year because of the COVID-19 Pandemic and Maintain funding at 2019-2020 levels.

Councilor Garcia asked if any Councilors are practicing the new practice of business on top and PJ's down below. He gave a quick birthday shout out to his Pop for last week. He will get his COVID vaccination this weekend at the VA Hospital.

Councilor Cassutt-Sanchez introduced, with Councilor Villarreal, a Resolution that was not on the Introductions page. The Resolution to support legislation at the New Mexico State Legislature to adopt an Act that would allow employees to approve and use paid leave and she also signed on as cosponsor for the ordinance Councilor Lindell introduced on sale of city owned land.

She thanked the library. Her family recently utilized their program to see bundles of age-related resources for children to use. It was a nice change around their house. Thanks to the library for providing that service. The Library also has great program for reading books for everyone to enjoy.

Councilor Villarreal mentioned support for the Pay–60 legislation – also cosponsor Councilor Lindell's resolution on properties sold. She also signed on for Governing Body approval before any City-owned land is sold as well as cosponsor for holding schools harmless for decreased enrollments during the pandemic. She also wanted to cosponsor the resolution the Mayor would introduce.

She recognized the Food Depot Superbowl in past years and sorry they are not sponsoring that. She pointed out ways to support them and local restaurants. You have until Jan 31 to purchase soup served by certain restaurants or give directly to Food Depot.

She gave shout out for Tonic for the Times on January 30 at 5:30 – a lot of musical performers, local and national singers, lifting up COVID caregivers and they have various partners related to COVID recovery. So there are ways to donate and enjoy great music listening.

She recognized League of Women Voters for the virtual women's march and Kitty Christianson as organizer. Her organization, New Mexico Women.org was represented in it. There were lots of people who did not know about it. She commended them for doing it and appreciated their efforts and the topics they covered.

Councilor Rivera signed on as cosponsor to Mayor Webber's resolution and to Councilor Cassutt-Sanchez's paid leave resolution.

Councilor Abeyta asked to be added as cosponsor on Councilor Cassutt-Sanchez's paid leave resolution. He thanked Mary McDonald and her Parks Department for her quick responses to an issue he brought to her about a community garden in District 3. He also thanked the Parks Crew out in District 3 for their work while it has been very cold. Finally happy birthday to Councilor Garcia's Dad.

Mayor Webber introduced' a Resolution supporting their designation of the first Monday in March as "COVID-19 Memorial Day" in remembrance of those who lost their lives and in honor of those who continue to suffer from the impact of the virus; and urging residents to continue taking preventative measures to mitigate the spread of the virus.

He mentioned a virtual summit for the Conference of Mayors last week and stayed home to meet virtually with mayors around the country. He was grateful for President Biden's speech on COVID and its huge impacts on communities, and his introduction of $1.3 trillion COVID Plan. He focused at one point on police enforcement. President Biden said if we all mask up, 40,000 lives could be saved in the next few months. First Monday in March is COVID 19 Day to end the spread of the corona virus. He was thankful for the robust conversation on vaccinations and is the light at end of tunnel. Our local providers are providing more transparency and clarity on how it will work here.

He gave a shout out to snow removal crews who are up at 4 am to keep the streets safe and keep them from icing up. He gets texts from Director Wheeler on how many are reporting early for work. It makes our lives easier and our streets safer.

He thanked everybody for their hard work as we get deeper into 2021. Shop local and keep our Mom and Pop operations going.

Another thing President Biden did was to rejoin the Paris Treaty. Climate change is an existential crisis. He sent comments on two bills at the State. One is a major

step toward greening of our economy and how we get our energy. It is a critical time for new energy policy for our State.

EVENING SESSION - 6:57 P.M.

17. **ROLL CALL**

All Councilors were present.

18. **PETITIONS FROM THE FLOOR**

Katherine Shiela had a brief comment on the Partners for Midtown. She was opposed to any role of LANL, and referenced the treaty ban on nuclear weapons which makes it illegal to produce nuclear weapons under international law. She urged Councilors to abide by the treaty including use of the Midtown campus.

Stefanie Beninato didn't repeat the previous comments but echoed the prohibition of LANL on the Midtown campus. She pointed out the discrimination on the part of the City. She was told we are in negotiations about that. "I really think my comments are reasonable and not complicated but wonder why it is taking so long and why the City Attorney is not representing in an HDRB appeal."

She agreed with Councilor Vigil Coppler about the pool and opening of other facilities. We could open Fort Marcy right now. Regarding maintenance of the facility, there is major rust at GCCC around windows and floor because the water temperature has not worked since it was installed. They put in a temporary heater and it is a threat. The condensation has ruined the window frames. The GCCC could be open on Sundays and could be open from 8:30 to 5:30 then.

She urged the Governing Body to do something about getting more recreation facilities open.

19. **APPOINTMENTS**

a. Mayor's Youth Advisory Board

Ms. Bustos-Mihelcic read the appointee: Valerie Ramirez, from Santa Fe High to a term ending in December 2022.

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Villarreal, to approve the appointment of Valerie Ramirez to the Mayor's Youth Advisory Board as requested.

There was no discussion or questions.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

20. PUBLIC HEARINGS

There were no public hearings.

21. ADJOURN

Having completed the agenda and with no further business to come before the Governing Body, the meeting was adjourned at 7:05 p.m.

Approved by:

_____
Mayor Alan Webber

ATTESTED TO:

_____
Kristine Bustos Mihelcic, City Clerk

City of Santa Fe

AGENDA

SPECIAL MEETING OF THE GOVERNING BODY
FEBRUARY 01, 2021
12:00 PM
ATTEND VIRTUALLY

SPECIAL PROCEDURES FOR SPECIAL GOVERNING BODY MEETING

Attendance: In response to the State's declaration of a Public Health Emergency, the Mayor's Proclamation of Emergency, and the ban on public gatherings of more than five (5) people, the Special Governing Body meeting will be conducted virtually.

Viewing: Members of the public may view the meeting through the Government Channel on Comcast Channel 28 and Comcast HD928 or may stream the meeting live on the City of Santa Fe's YouTube channel at https://www.youtube.com/user/cityofsantafe. The YouTube live stream can be accessed at this address from most smartphones, tablets, or computers.

The video recording of this and all past meetings of the Governing Body will also remain available for viewing at any time on the City's YouTube channel at https://www.youtube.com/user/cityofsantafe. Staff is available to help members of the public access pre-recorded Governing Body meetings on-line at any time during normal business hours. Please call 955-6521 for assistance.

Agenda: The agenda for the meeting will be posted at https://santafe.primegov.com/public/portal.

Minutes of the
Special Meeting of the Governing Body
Thursday, February 1, 2021
Virtual Meeting at 12 Noon

1. CALL TO ORDER

A regular meeting of the Governing Body of the City of Santa Fe, New Mexico, was called to order by Mayor Alan Webber, on Monday, February 1, 2021, at approximately 12:03 p.m., at the Council Chambers at City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico as a virtual meeting.

2. PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was led by Councilor Romero-Wirth.

3. SALUTE TO THE NEW MEXICO FLAG

The Salute to the New Mexico Flag was led by Councilor Cassutt-Sanchez.

4. INVOCATION

The Invocation was led by Councilor Garcia.

The Governing Body observed a moment of silence for those who have recently died and their grieving families and those suffering from COVID or other diseases. We wish them well.

5. ROLL CALL

Roll call indicated the presence of a quorum remotely, as follows:

Members Present Remotely
Mayor Alan Webber
Councilor Roman "Tiger" Abeyta
Councilor Jamie Cassutt-Sanchez
Councilor Michael J. Garcia
Councilor Signe Lindell
Councilor Christopher M. Rivera
Councilor Carol Romero-Wirth
Councilor JoAnne Vigil Coppler

Councilor Renee D. Villarreal

Members Excused

Other Participants Attending Remotely
Jarel LaPan Hill, City Manager
Erin McSherry, City Attorney
Kristine Bustos-Mihelcic, City Clerk
Kyra Ochoa, Interim Director of Community Health and Safety
Bernadette Salazar, Human Resources Director
Carl Boaz, Council Reporter

6. APPROVAL OF AGENDA

MOTION: Councilor Lindell moved, seconded by Councilor Vigil Coppler, to approve the agenda as published.
VOTE: The motion was approved on the following Roll Call vote:
For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.
Against: None.

7. DISCUSSION/ACTION ITEMS

a. CONSIDERATION OF RESOLUTION NO 2021-9. (Mayor Webber).
A Resolution extending the State of Emergency Proclaimed by Mayor Alan Webber on January 30, 2021, COVID-19 Emergency Proclamation VII, by Fifty-Six (56) Days, Pursuant to Section 20-1.2 SFCC. (Erin K. McSherry, City Attorney), ekmcsherry@santafenm.gov, 955-6512)

Ms. Bustos-Mihelcic read the caption.

MOTION: Councilor Romero-Wirth moved, seconded by Councilor Garcia, to approve Resolution 2021-8 as presented.

Discussion on the motion:

Councilor Abeyta asked Staff for clarification on the bags. He noted there is confusion about whether stores are allowed to charge the bag fee.

Ms. McSherry said the proclamation or orders issued a few proclamations ago, lifted enforcement of the single use ban on use of plastic bags for grocery stores and supermarkets specifically as defined as those whose majority of sales are food products. With much more information about transmission of COVID, there

is concern about transmission from surfaces and therefore, concern about customers using their own bags. This Order stops the rescinding of enforcement – puts the enforcement back into place. However, stores can choose not to handle customers' reusable bags, but customers may be allowed to fill their own reusable bags.

Councilor Abeyta reasoned that stores could charge ten cents for each of the bags.

Ms. McSherry agreed. The resumption of enforcement would begin on May 7, 2021.

Councilor Abeyta understood that people could use their own bags, but the store could require them to fill their own bags.

Councilor Romero-Wirth spoke "on that point," and asked if it says if you bring your own bag, you have to fill them yourself?

Ms. McSherry said no. The store may require that, but they don't have to. It is not mandatory, but the store can request that the customer fill their own bag.

Mayor Webber said regarding enforcement that it essentially puts things back the way they were pre COVID in the City Ordinance.

Councilor Garcia asked for clarity on use of plastic bags. We are easing the enforcement on it, allowing plastic bags to be used by customers without charge.

Ms. McSherry explained that was what the former order did, and this ends that now. There will not be plastic bags for people to use after February 7, except for what the ordinance allowed before where plastic bags could be used. Those circumstances would still permit plastic bags but not at stores.

Councilor Villarreal said, "On the point that talks about the Families First Coronavirus Response Act that expired December 31st she asked if Staff could explain where it says, 'As applicable to the extent that the City's Temporary COVID-19 rule adopted for similar purposes or existing administrative leave rules do not address them."

Ms. McSherry explained that we passed a temporary sick leave rule in March when the pandemic started that was not as broad as the Federal Act that passed later. So then our employees had broader access. In many circumstances, we can cover the City Manager's regular administrative leave authorities. But there may be others that don't cover the circumstances. So this covers those circumstances. We have fewer of them with fewer close contacts

across the City, so there is less need for it. We hope for a new federal policy which is being discussed today and would affect that on a day-to-date basis. We want to continue the benefit as broadly as possible for those that fall into the gap between what the City provided and what the federal government provided. It might be reinstated any day now.

Councilor Villarreal said the other item was reinstatement of enforcement on camping at an encampment. When we go to notify the folks that have encampments, is the City assisting them to move to a shelter?

Ms. McSherry said the City is trying not to remove people. This provision only applies to city parks.

Director Ochoa agreed. Camping can be done on city property but not at city parks. Officers can direct them to shelters including the Salvation Army. We are working to help them hopefully connect with services and to follow up when they don't want to go to shelters.

Councilor Villarreal asked in what areas of the City camping would be allowed.

Director Ochoa replied that not all city property falls within the proclamation. Some Arroyos that are not in waterways or others as determined by the Environment Department are allowed. We are looking at whether to further define that and what it all means.

Councilor Villarreal was asking just so we know what to say when people ask us.

When Director said remove from City parks, she assumed that baseball fields and basketball courts were now allowed to be used.

Ms. McSherry clarified that where State orders don't preclude it, they are open.

Councilor Villarreal asked where people would find the details on what is allowed for organized sports.

Ms. McSherry thought that link was included but is available at DOH. It talks about numbers, activities, etc.

Councilor Cassutt-Sanchez, to follow up on Councilor Villarreal's comment, she asked if the playgrounds are open.

Ms. McSherry said yes.

Councilor Cassutt-Sanchez said regarding the testing program, that she was looking for more information about Staff coming in, etc.

Ms. McSherry said Director Salazar could comment on that point. There are factors in play. Firefighters are trained. At-home is possible for certain employees who are working so that they can do it while they are working. We are not requiring testing for them but for those working outside home 100%, the City is requiring testing during their work hours. There could be flexibility for those working outside of the home part time.

Director Salazar said we have worked on a plan for categories of employees who are working outside the home and cannot leave their shift. It would work with the Fire Department to do the testing and also use virtual testing facilities during their work hours. They could potentially have the at-home kit processed. The City is partnering with the state Department of Health.

Councilor Rivera referred to page 3 and asked Dir. Salazar if we would test every other week for those who cannot tolerate it.

Director Salazar agreed.

Councilor Rivera asked when that will be available.

Director Salazar said it depends on when we will be getting the kits. She is working with DOH and estimated probably a couple of weeks. We can do the home test right away. Employees can just sign up on the website. She understood it is quick.

Councilor Rivera asked regarding plastic bags, to is responsible for communicating that change with all the stores.

Manager LaPan Hill said there are a number of mechanisms involved including the media channels.

Ms. McSherry added that when we make a chance in a proclamation, we immediately send it out on all channels.

Councilor Rivera wondered if a week was enough time to do away with all the plastic bags they have had up to this point.

Ms. McSherry thought it was.

Councilor Rivera suggested a small grace period for stores.

Ms. McSherry they could tell us about their difficulties and Mayor Webber could allow it.

Councilor Rivera asked if the metering customers in the store at one time was still limited to 30%.

Ms. McSherry thought so. If it is in the order, it is still in place.

Councilor Rivera thought the State eased up on it.

Ms. McSherry said that change was to a wider category of stores. The City can be more stringent than the State.

Councilor Rivera mentioned that he was recently in a store, and he saw no monitor to keep it at 30%.

Ms. McSherry noted it just went into place, so the grocery store is responsible for metering and local Law Enforcement is responsible for the other orders.

Councilor Rivera guessed it is just chance if someone gets caught.

Ms. McSherry replied that they would respond to a report. She has had no calls on interpretation of it, but she would advise them if anyone asked.

Councilor Garcia recalled we had challenges around plastic bags. He has concerns on carrying out the single use ordinance on the books. When we were lax on it, much support came during the pandemic about that. What is our reasoning to put the enforcement back into place when the pandemic is at its height with new strains? Why enforce this again?

Ms. McSherry said the original moratorium on enforcements were based on health concerns of checkers' health. It was not an economic reason.

Councilor Garcia didn't see the difference of plastic or paper.

Ms. McSherry said it was more about people bringing in their own bags and not about materials.

Councilor Garcia understood but with plastic bags at no cost to them, we are showing we are not burdening people financially. When a grocery charges for a bag, do we collect that or are we allowing the moratorium for collecting on that tax?

Ms. McSherry said the City was not going to enforce it during the moratorium. The stores collecting the fees send the money to the City.

Councilor Garcia asked if the City would order the collection of fees starting on February 7.

Ms. McSherry agreed.

Councilor Garcia would like us to not move forward with enforcement. He was strongly against single-use bags but during the pandemic, if somebody doesn't bring their own bag, they can be charged up to 70 cents for a bag. That is a burden on people, especially if they are out of work. He wasn't sure how to strike that language in Item J. Also, he felt a week is not sufficient. He was in a store yesterday and they had boxes and boxes of plastic bags. We should stretch that out further.

Ms. McSherry said it is not in the proclamation order, but the Governing Body could introduce legislation. Today, the vote is only on extending the proclamation.

Councilor Vigil Coppler didn't think we should be charging for bags until we are out of the pandemic. It does affect people in the grocery stores. Ms. McSherry spoke about those who sell food or nonfood items. People need to buy diapers, toothbrushes, etc that are not food. She would like to change it today. What is the problem in making a motion and passing it right now? She agreed with Councilor Garcia on the bag charge.

Next, she asked about no camping City property. She asked if there was any protocol in place to monitor the cleanup. Some campers might leave trash behind and go to another place and leave more trash. We cannot just rely on them. Is there some protocol to follow up on a daily basis for cleanup? She thanked Staff for a thankless job, but it must be done by the City.

Director Ochoa said the proclamation before us prohibits any camping in any City park. So using a park is not allowed and moving from one park to another is also not allowed.

Ms. McSherry clarified that is in the Order, not the proclamation. There had been a moratorium on enforcing no camping and this order stops the moratorium.

Councilor Vigil Coppler understated. There is no camping in City parks.

Director Ochoa agreed, not in parks but allowed on city property that is not a city park.

Councilor Vigil Coppler asked what kind of protocol is used to monitor that so we would not get complaints like in Franklin Miles.

Director Ochoa said they are not set up for it at this time but will soon. And we would use the fire department to get people to shelter or other resources. And whether we want to sanction any city property for camping. Right now it is not ideal for camping in various places, but we are working on maps showing

possible camping areas and being able to communicate with them on a case-by-case basis to seek connection with those folks. We didn't prohibit camping in parks at the height of the pandemic but there is a balance between them and other places. It is not ideal.

Mayor Webber provided context on encampments. They are a subset of larger concerns of homelessness. The Councilor Vigil Coppler was enthusiastic attending that conference at the Convention Center. Community Solutions just got writeup in the New York Times to invest in homelessness. The Midtown campus continues to provide safe place for people to reside. The use of Pete's Place and hotel are diminished. The purchase of Santa Fe Suites has already begun to provide housing for homeless him and. We know people are in encampments. Staff go out to engage with them and most are not ready to move inside. So we seek to provide trust, monitor the numbers, and explore other options. We have looked at other places in New Mexico like Las Cruces to see how they address it. Some are concerned with the City-County boundary. People are not always willing to accept our offers. Last year we spent $3.4 million to move them without other help for them. That is why Manager LaPan Hill and Director Ochoa are working through the fire department and parks was more comprehensive way to serve them.

On the paper bag-plastic bag discussion, this step just puts it back the way it was before COVID hit. We wanted to focus on sustainability and discourage proliferation of plastic bags that don't break down. They become a permanent part of our landscape. Bags brought from home can be paper or reusable and packed by the customer/owner of bags.

We've had Zoom calls with grocery managers on the issues. They are also concerned with safety of the community and their own workers. We want to head through yellow to green. Testing can help and maintain safety and keep people healthy.

Councilor Cassutt-Sanchez mentioned that the Governing Body recently approved buying a number of bags and asked if we have any left over to give out.

Mayor Webber held up one of those bags and said we are trying to find ways to get more bags out to people.

VOTE: The motion was approved on the following Roll Call vote:
For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.
Against: None.

Mayor Webber thanked everyone for the robust discussion of the issues.

8. ADJOURN

Having completed the agenda and with no further business to come before the Governing Body, the meeting was adjourned at 12:53 p.m.

Approved by:

SUMMARY INDEX
Governing Body
February 10, 2021

ITEM	ACTION	PAGE
1. Call to Order	Convened at 5:00 p.m.	1
2. Pledge of Allegiance	Led by Councilor Abeyta	1
3. Salute to the State Flag	Led by Councilor Vigil Coppler	1
4. Invocation	Led by Councilor Villarreal	1
5. Roll Call	Quorum Present	1-2
6. Approval of Agenda	Approved as presented	2-3
7. Approval of Consent Calendar	Approved as amended	3
8. Approval of Minutes		
a) Regular Meeting on January 27, 2021	Postponed for corrections	3-4
b) Special Meeting on January 28, 2021	Approved as amended	4
9. Presentations		
a) COVID-19 Update	Update presented	4-6
b) Water Division Overview	Overview presented	6-8
c) Midtown Update	Update presented	9-15
10. Consent Calendar	Listed	19-20
11. Discussion/Action Items		
a) NNSA Environmental Impact	Approved	20-21
b) City Property Sales Procedures	Approved	21-30
c) RECC MOA Amendment	Approved	32-33
d) Garson Studio Lease Amendment	Informational	33-34
e) Paid Sick Leave Act	Approved	33
f) Hold Harmless School Enrollment	Approved	34-35
12. Matters from the City Manager	Communicated	35
13. Matters from the City Attorney	Recommended Exec Session	35
Executive Session	8:13 – 8:58	35-36
14. Matters from the City Clerk	None	36
15. Communications from Governing Body	Communicated	16-17
Evening Session	6:11 pm	17
16. Roll Call	Quorum Present	17
17. Petitions from the Floor	Petitions made	17-19
18. Appointments		
a) Econ Dev Advisory Committee	Approved nominees	30
b) Municipal Court Pro Tem Judge	Approved nominee	31-32
19. Public Hearings	None	37
20. Adjournment	Adjourned at 9:02 pm	37

Minutes of the
Regular Meeting of the Governing Body
Wednesday, February 10, 2021
Virtual Meeting

1. CALL TO ORDER

A regular meeting of the Governing Body of the City of Santa Fe, New Mexico, was called to order by Mayor Alan Webber, on Wednesday, January 13, 2021, at approximately 4:02 p.m., at the Council Chambers at City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico as a virtual meeting.

2. PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was led by Councilor Abeyta.

3. SALUTE TO THE NEW MEXICO FLAG

The Salute to the New Mexico Flag was led by Councilor Vigil Coppler.

4. INVOCATION

The Invocation was led by Councilor Villarreal. She read a poem called Echo. She remembered the passing of Sylvia Sue Duerr, who was 93 and passed away from COVID on Saturday, January 30. Her husband of 60 years who was recognized at the last Governing Body meeting, who died two weeks before, also of COVID. She offered condolences to their family. “May they rest in peace and be reunited together.”

Councilor Vigil Coppler recognized Beverly McCreary, better known to many as Ms. McCreary, a former English and Creative Writing Teacher at SFHS and one of the coolest of her remembrance. She played music during English class. In seeing her recently, Ms. McCreary was the same as she remembered when she was in high school. She didn’t know the cause, but there was a special place in heaven for her and her music.

Councilor Romero-Wirth remembered James F. Kirkpatrick known as Jim, who was a dual resident of Santa Fe and Washington D.C. He was a lawyer and a Constitutional Scholar. His passing is a loss to his family and the constitutional scholar community.

Mayor Webber condolences to his mentee Max Burmeister who lost his Grandpa on January 6 to issues of dementia. Max has struggled to find his way forward, graduated from high school, and hopefully, Max is heading off to college this fall. He wanted Max to know he was thinking of Max and his family and all he has achieved despite COVID.

The Governing Body observed a moment of silence for those who have recently died and their grieving families.

5. ROLL CALL

Roll call indicated the presence of a quorum remotely, as follows:

Members Present Remotely
Mayor Alan Webber
Councilor Roman "Tiger" Abeyta
Councilor Jamie Cassutt-Sanchez
Councilor Michael J. Garcia
Councilor Signe Lindell
Councilor Christopher M. Rivera
Councilor Carol Romero-Wirth
Councilor JoAnne Vigil Coppler
Councilor Renee D. Villarreal

Members Excused

Other Participants Attending Remotely
Jarel LaPan Hill, City Manager
Erin McSherry, City Attorney
Kristine Bustos-Mihelcic, City Clerk
Bernadette Salazar, Human Resources Director
Rich Brown, Economic and Community Development Director
Andrea Salazar, Assistant City Attorney
Carl Boaz, Council Stenographer

6. APPROVAL OF AGENDA

MOTION: Councilor Garcia moved, seconded by Councilor Lindell, to approve the agenda as published.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

7. APPROVAL OF CONSENT CALENDAR

Councilor Villarreal asked to be a cosponsor of10(b).

MOTION: Councilor Villarreal moved, seconded by Councilor Lindell, to approve the Consent Calendar as amended.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

8. APPROVAL OF MINUTES

a. Regular Governing Body Minutes – January 27, 2021

Councilor Villarreal – had a few corrections. One page one, under Invocation, she said there was a lot of missing pertinent information. It should say in the section I was remembering, it should say, "remembering Maria Rita Perea, taken by COVID, mother to one of my childhood friends. She was born in Vaughn New Mexico and was the youngest daughter of seven children. She worked for the DMV. Loves to dance and was a talented paper… painter and incredible cook." "I also remembered Richard "Dick" Duerr. His last name is spelled D U E R R. He died from COVID who, if he had lived, would have received the vaccine on his 91st birthday. And he was survived by his wife and family. And I also remembered Pete Gurulé and it should have said 'who was shot and killed at his front door when he was 20 years of age.' Then on page 16, I actually think there are some changes that maybe other from that same – Councilor Vigil Coppler recognized Oscar somebody. I don't know the last name but was correct on this particular… I don't think it was correct in the notes. And, Councilor Lindell had said her condolences to Mike and Janey = it should say Mayer, not Mier. And then page sixteen, if I can get to it, and this is why I called Jesse that Prime.gov is not working… I don't know what to do, you all, because it's not opening up… It keeps saying that it's expired."

Ms. Bustos-Mihelcic suggested that she send those changes and we can incorporate them.

Ms. McSherry suggested postponing approval of these minutes until the next Governing Body meeting.

Mayor Webber agreed.

MOTION: Councilor Villarreal moved, seconded by Councilor Lindell, to postpone approval of the January 27, 2021 minutes to the next regular meeting of the Governing Body.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

b. Special Governing Body Meeting – January 28, 2021

Councilor Villarreal asked for a change on page 6, fifth paragraph that should read, "… their past experiences were not congruent with the local community and context they were working in. The feeling remains even during the conversations they had after KDC was selected."

MOTION: Councilor Villarreal moved, seconded by Councilor Lindell, to approve the minutes of January 28, 2021 as amended.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

9. PRESENTATIONS

a. COVID-19 Update Pursuant to Resolution 2020-51. (Jarel LaPan Hill, City Manager, jlapanhill@santafenm.gov, 955-6848 and Kyra Ochoa, Interim

Director of Community Health and Safety, krochoa@santafenm.gov, 955-6603) **INFORMATION ONLY**

Ms. Bustos-Mihelcic read the caption. Director Ochoa was present.

Manager LaPan Hill explained that the report on COVID was moved up under Presentations instead of Matters from the City Manager. She presented her first report on what the City is doing about COVID. Many people saw the big news that Santa Fe County has moved to yellow status by NMDOH. Big round of applause for a lot of hard work and safe practices. She cautioned that this is just a moment in time, and we need to continue working hard to get to green.

She acknowledged everything continues as is but while we are in yellow, gatherings move from maximum of 5 to maximum of 10 persons and the vehicles are from 40 to 80. Capacities are up to 33% but in groceries and supermarkets at 30% by our ordinance. Indoor dining goes to 25% indoors and 75% outdoors. The ice rink remains closed and gyms are limited to 25% up to maximum 125 people.

We continue with vigilance to maintain our safe practices and we are working on the opening of Fort Marcy on February 17. A union notification is required. We continue to work with our team and Director Ochoa will share details. Stay tuned for more information. That is where we are. If things change, we will report every two weeks.

Director Ochoa said she and Director Mason and Manager LaPan Hill meet weekly with DOH, the County, Christus and Presbyterian hospitals, and local clinics to coordinate work on vaccinations and testing. We met earlier today and found out the new yellow status for the County. Yellow means we are looking at a test positivity rate of 4.22% so we are below the 5% and cases per 100,000 of 20.7, which is why we are not yet green now.

When we look at where we came from, our numbers went up and up and now we are starting to turn the curve down. We learned today that the State modeling analytics team (DOH and LANL) are seeing 16% decrease in transmission statewide due to more vaccines distributed. Our hospitals are seeing decreases and that is very encouraging. DOH has done 5,000 vaccinations, about 2,000 at qualified local health centers and Christus has done close to 10,000 vaccinations. Presbyterian did not have their report ready yet, but overall, about 16,000 vaccinations so far and that doesn't include pharmacies. We are talking and planning for a large vaccination event. We are working out venues and dates for that. And we are also concerned to get everyone registered. It is not easy for those not internet savvy. We had a great

meeting with members of the Fiesta Council who volunteered to help get elderly people signed up and get responses back.

Those are the highlights, and we are meeting every Wednesday on coordination. We submitted our health report and have the team members present to answer questions including Director Salazar.

Councilor Cassutt-Sanchez thanked her for the update. It is exciting to hear of a possible mass vaccination. She was concerned for those living in 87607 and where vaccinations are distributed. She wanted to encourage people in that part of town to get vaccinated. She was curious about the pharmacies and if there is any coordination with them.

Director Ochoa said efforts underway, but they are not yet on board with the DOH tracking system.

We are still in the 1b sector of the population which includes people over 75 and those over 16 with underlying chronic health conditions and all healthcare providers. As of yet, coordination is not happening with the pharmacies. It is a little messy process still.

Councilor Cassutt-Sanchez hoped that will happen by the next report. She thanked SFPD regarding the repeat COVID-19 call locations and glad that police officers were there to look into those cases for possible violations.

b. Department Overview of Santa Fe River Storage and Release Requirements Under the Rio Grande Compact. (Jesse Roach, Water Division Director, jdroach@santafenm.gov, 955-4309 and Marcos Martinez, Assistant City Attorney, mdmartinez@santafenm.gov, 955-6502) **INFORMATION ONLY**

Ms. Bustos-Mihelcic read the caption for this presentation.

Mr. Jesse Roach reported that after announcing that Santa Fe would release water, it was then canceled so he wanted to explain. He showed an aerial view of the watershed and the spillway. The Rio Grande Compact of New Mexico, Colorado and Texas was signed in Santa Fe in 1938. The State Engineer then was Tomas McClure, for whom the reservoir is named. New Mexico's water obligation is measured at the Otowi measuring station of flows to the Elephant Butte reservoir. The Compact set the reading from 1929 as the baseline. The reservoirs constructed after 1929 and the flows in the Rio Grande were subject to that baseline. Storage from the San Juan Chama water does not fall under the terms of the Compact. Although flows are measured from the

Otowi bridge, the actual measurement of downstream flows are measured at the Elephant Butte reservoir as amounts delivered.

He explained that since the 1980's we are in debit status. WE owe more water downstream than is being provided. Nichols and McClure were built in 1926 and 1943. The Ac/Ft amount at the reservoirs was expanded recently and has 3,921 Ac/Ft. Of that, .1061 Ac/Ft is in pre-compact pool and all of that can be used. The remaining 2,869 Ac/Ft is subject to the Rio Grande Compact.

There are three main provisions in the Compact. Article VI says if in debit to Texas, all debit water must be stored before we can use that space. Article VII says if there is less water for release to Elephant Butte and Caballo falls below 400,000 Ac/Ft, then we cannot store water.

Article VIII ties back to Article VI that Texas in January can demand release of the accrued debit of water. That is what happened last year in January. 2020, and was the first time since the 1970's that we were asked to store the debit water.

We have only 2.4% of the total. El Vado is much larger so we only stored 948 Ac/Ft and El Vado stored the 37,852 remaining Ac/Ft.

We expected to hear from the State to release debit water. There were very dry conditions on the Rio Grande and Texas made emergency requests to release debit water. That water allowed New Mexico to keep the Rio Grande wet in July and into August. There were no requests to release from Nichols but in January 2021, they asked for the remaining debit water to be released.

We still have the option of San Juan-Chama water and can get it released from the Abiquiu reservoir. The advantage from Abiquiu offers energy because it is stored higher and don't have to pump it. It is also higher water quality. The advantages from Nichols are to have a large flow going through town and recharge of local aquifers and rebuild soil moisture. We need to know how much released water would make it to Rio Grande and it would have been helpful to know what the Rio Grande would have looked like with a constant flow.

We talked with State about splitting the release and that was granted so most was released from Abiquiu with some from Nichols. It would take five days to release from Nichols. We monitored that release and on January 14, Mayor Webber sent letter to the Cochiti Pueblo and a letter to ten pueblos, requesting consultation. That was not granted, but we met with four pueblos on January 27 and on January 28, we canceled the Nichols release and moved to release from Abiquiu.

Federal and State entities are required to consult with tribes, so we did consult on the release as the right thing to do. On January 27, we hosted a virtual meeting and went through the plan. We were not in a good bargaining position to reduce the release. We were not granted access for the releases and would damage relations.

Lessons learned included a better understanding of communicating with pueblos and the time we need to do that correctly. That was a big lesson learned. If we store debit water again, we will consult with pueblos for mutually agreeable parameters. Levels are so low in Elephant Butte that we will not store debit water again this year.

Councilor Vigil Coppler asked under lessons learned, if she could understand better communications. She asked if there is value in including acequias downstream.

Director Roach said the approach was agreed and the next time we might not call it formal consultation but communications with those downstream.

Councilor Romero-Wirth suggested one thing we would benefit from in the release, would be to see what would happen if the water reached the Rio Grande. If the water had not reached, what is the impact? When the compact was signed, we were a tributary and water did reach the Rio Grande. What is the impact now?

Director Roach said it is a great question. In 1938, we were a direct tributary. The Cochiti Dam crosses the Santa Fe River, so we no longer know if it reaches the Rio Grande. Aerial photos seem to indicate it does. Aerial photography shows the lower Santa Fe River is flowing much of the year, but we can't know the numbers. If we could prove we were not a tributary at all, we could hold out that we were not subject to the Compact. We could also claim return flow credits.

Mr. Martinez viewed this as the State operating under this legal fiction. Because the compact designated a Rio Grande basin area, it would be difficult to be out of the compact. It would take an action of the Rio Grande Compact Commission to remove Santa Fe County from it.

Councilor Romero-Wirth said if the water does not even reach Texas, we want to know to use our resource in a way that is efficient and not wasted.

c. Economic Development Department Overview of the Midtown Bi-Weekly Development Update Report (Rich Brown, Director, Community & Economic Development Department, rdbrown@santafenm.gov, 955-6625 and Daniel Hernandez, Project Director at Proyecto LLC, Andrea Salazar, Assistant City Attorney, asalazar@santafenm.gov, 955-6303) **INFORMATION ONLY**

Ms. Bustos-Mihelcic read the caption for this item.

Director Brown shared his screen showing the Bi-weekly Progress Report on Midtown – releasing five reports and joined by Mr. Hernandez and Dena Belzer, President of Strategic Economics. They will take the Governing Body through the report to understand the ongoing development and the way forward. Copies of his report will be distributed publicly after this meeting. He hoped it would help the Councilors comprehend the options available prior to discussion at the next meeting.

For background, He described the competitive solicitation process for the developer. The Midtown Charette in December unearthed critical developmental problems that eventually led to the mutual termination of the agreement. Now, Midtown is moving forward without the agreement and with these progress reports which will come out bi-weekly. They are committed to transparency and creating a shared understanding for the public and for the Governing Body. He started it off with a framework discussion.

Mr. Hernandez talked about the development concerns they are working through now and the strategy they want to put into place for the process of the Midtown Project. He hoped that would allow everyone to build a shared understanding so that as decisions are made, those decisions would be informed with the Governing Body and public.

He noted there are seven Development Concerns in order of importance: 1 is land use zoning; 2 - development planning; 3 - infrastructure & utilities; 4 – existing buildings and furniture, fixtures, and equipment. 5 – Public/ financial 6. Procurement & RFEI; and 7 – Public Engagement. They will be coming to Governing Body at the second February meeting.

The City's investment considerations for disposition and development: will come back regularly with progress reports that are not hypothetical but making them understandable to the public in the underlying issues.

Finally, all the goals that the Governing Body will affirm, range along a spectrum from economic returns to community benefits.

Ms. Belzer said she was excited to be with the Governing Body. She outlined her presentation by first a review of City's goals and guiding principles for the Midtown Site. 2 – a brief background and previous decisions for the Midtown Site as a City resource; 3 - Understanding the Midtown Site's current market value perspective and the City's investment role for increasing value; 4 - Preliminary and near-term strategies moving forward.

The three types of goals are long-term community goals dating back to 2017, to continue to grow the film industry in Santa Fe and to continue to foster Santa Fe's arts and culture communities. All of them work in concert with each other. The best outcome would be for all of them help in the progress. The financial goals and development process goals are also very important. The City of Santa Fe is paying out money every month to continue to operate the Midtown campus and comes within the City's financial picture. We know this is an issue and acknowledge it with the hope the site will begin to generate revenue and reverse that drain on the city's financial condition. The other financial goal is to create as much economic value as possible. There are tradeoffs across these goals. In terms of the actual mechanics of the development process, we want to be transparent, inclusive and sustaining which ties back to the idea of housing for all.

Ms. Belzer talked about the solicitation process to gather development and business interests from the market. She showed the steps involved in that process. The pandemic has changed the market dynamics and evaluation of the site changed with the presence of the pandemic.

The Key Market Feedback was that Midtown is a destressed asset. The Master Developer reported on it with an assumption and estimates as professionals and the challenges of what they saw. It was helpful feedback to hear that. The Developer made some assumptions to move forward and noted a significant public investment was needed to design and build infrastructure and establish land use zoning which would set the foundation for future development.

There is a need for additional points of circulation access from surrounding corridors, and uncertain investment risks and uncertainty of commercial and mixed-use development in a post-COVID-19 economic environment. Their conclusion was the risk was too high.

She went to understanding the Master Developer's Decision and graphically showed the development value compared with fixed development costs, excluding land, vertical costs and horizontal costs and pre-development costs. She showed that the residual land value,

those three costs and the investment return would comprise the total development value.

Then they negotiate land value as a variable cost. And usually consider what is left over from investment and the three costs and then negotiate for the right price. With low land value potential, the risk is higher for return. They just thought it would not be a match for them and they walked away. They were not willing to put out any more money on it.

She spoke to the residential land value fluctuation. The appraisal was $36.1 million; sunk costs were $41.0 million, and the residual land value was the remaining part. So it didn't match up.

For what to do now and move forward, the City has many options to reduce risks and some of the investments can be small – mostly staff time. Others might cost more. The Environment Assessment might not be that big of a deal but would increase its value. Investigation of infrastructure centered around what was needed such as water and sewer that is in good shape. The real issue here is that the City would not need to pay for all infrastructure but might choose to do so. All of it would help reduce the risks and increase the value.

Possible decision points for additional investment are related to Midtown disposition and can be considered as either: Immediate term; near term 6-12 months and longer term up to 5 years.

The City could decide to sell the property at any time, but the return depends on what the City does before the sale to increase value. Making the decision will also depend on which goals are chosen.

If the city decides to sell as is – it is the: "Midtown Garage Sale" and could be worth a lot but there would be things some people did want and the remaining would be worth less. And the City tries to figure out what to do with that remainder.

The buyer might decide the distressed property did not have enough value to make it reasonable.

If the City decides to sell in approximately 6-12 months – it would provide a better understanding and potential for a greater value.

And the City could decide to sell the most valuable part to give more leverage on how to combine a disposition strategy.

Then the future value in the longer term could be chosen. The City would dispose incrementally and that has the most potential to participate in

the economic value down the road. It would not preclude working with another Master Developer in the future and doesn't preclude the City being involved directly or through a third party.

She showed a slide illustrating when the opportunity per goal would be better to consider (up to 5 years). This would help the City achieve its goals over a period of time.

She agreed to return in two weeks to provide more specific options related to investing to create value. And stood for questions.

Councilor Garcia commented that a picture is starting to form, and he thanked them for that. He appreciated the initial steps. Regarding the Garage Sale characterization, he felt it best to not consider that at all. We know what we have in this property and need to make sure we don't give it away. It needs investment, no matter which choice we make.

Director Brown mentioned the seven teams and Councilor Garcia asked who the members of the teams were.

Director Brown said they are made up of City employees.

Councilor Garcia wanted to know which staff members are on the teams. That was his concern in going through the RFEI process. Some folks have much experience, and he was surprised the teams did not include people outside of City Staff.

Director Brown said the progress report in the packet that shows the staff leads – probably on page 5 he agreed to put those names in the next report.

Councilor Garcia didn't see a possibility of locating City Hall to the campus, but he would still like to see if that could be a viable option as a one-stop shop and a more acceptable City structure of the properties already occupied at City Hall, the Water Dept and other City locations. He wanted that to remain as part of the City goals.

Director Brown said in the initial public guideline in 2018, the relocation of City Hall was a recommendation and was ranked 18 out of 25. It would be nice to have but not needed yet.

Councilor Garcia did not lean heavily on that 2018 response. Education and housing were a priority and third was some kind of retail or moving City Hall there. That was what he heard most often from constituents. He looked forward to the next presentation and would have conversations offline. Thanks for all the effort put into this.

Councilor Vigil Coppler mentioned that the presentation tonight did not match with what was in the packet. She heard a lot about what we've done in the past and new information of what we know now. She appreciated the choices outlined in the presentation and don't really match the decision points we were given earlier by the City Attorney. And Economic Development, such as to sell the property which seemed to be one. The third was to consider the people who applied before. She wanted clarification because the three we heard tonight were different from that.

Director Brown said the others who submitted for the RFEI could still be available for consideration.

Ms. Belzer agreed. She explained what she was saying in the 6–12-month range. If the Governing Body chooses to go that route, the participants can be brought back at any time.

Mr. Hernandez said it is part of the decision-making tree. The previous partner walked away, and others responded to the RFEI in a competitive process. So there are other options with the competitive process.

Director Brown said all the presentations will be posted on the website.

Councilor Vigil Coppler appreciated that but added that it is also to have them in writing during the meeting. There are new concepts we are hearing for the first time. It is some deviation, and she was not making a big deal out of it. Some of it is a little different than what has been said.

The other thing was brought up by Councilor Garcia whether we would revisit the goals. That was my original concern. We don't need to do the same thing and expect a different result. A lot has happened since then. We should consider how much we want to go back and reconsider, not just a brainstorm. Councilor Garcia introduced a new idea. Maybe other Councilors have their ideas and maybe a discussion on how things have changed would be helpful. She saw Staff coming back with the same thing including process, except who is on these committees which is not the same as before.

She was not a believer in just regurgitating what had been done before. It needs a new concept and seeking out internal and external people to help us get there. We need people with expertise.

Councilor Cassutt-Sanchez pointed out that we have a lot ahead of us – information to gather and decisions to make. For many of us and the community, it is ongoing public engagement.

Director Brown clarified this is a two-week report.

Councilor Cassutt-Sanchez said identifying benchmarks and milestones never really happened. We are getting this as things come up.

Mr. Hernandez noted they had a charette last week in which we spent all day together and edits are going back and forth on it. He hoped to distribute it before the Quality of Life Committee meeting. It is real and we've been studying it and will share it publicly. That will also be on the City's website.

Councilor Cassutt-Sanchez was glad to hear that is coming. Thank you for that. She wanted to hear what our community has to say on it.

Councilor Lindell asked why we would wait. Everything has changed so she questioned why we would wait to contact previous applicants to see if they have any interest in moving forward with this project.

Director Brown said it was just terminated and we want to understand the categories before reaching out to the other RFEI applicants and what the process would be to be more viable.

Councilor Lindell asked for a timeline on that.

Director Brown said it would be 6-12 months.

Councilor Lindell said that makes no sense.

Ms. McSherry said the evaluation would warrant that. If the evaluator has a recommendation to bring back to next Governing Body meeting, that would be okay. Only one category had been recommended to the Master Developer and that would happen very soon.

Councilor Lindell thought we should not wait for any committee work. We should find out if they still have any interest and whether they have other ideas. Waiting 6-12 months doesn't make any sense and she didn't know how it fits into the procurement process.

Ms. Salazar said the RFEI is still in place. So the decision needs to answer how we are moving forward and who the developer would be. But we are no longer in process with the agreed upon Master Developer. We are deciding whether to go to the next developer or change to something else.

Councilor Lindell suggested it might just be an exercise if no one else is interested. If there is not one, why would we spend time doing that? It has urgency and we are no different in assessing our own risk and talking about putting in more money into the property. Doing that analysis and looking at a 2-year timeframe or a 10-year timeframe. We have no understanding whether it can be more money if we do this or that. We all know that time is money and there is urgency on this project. So we need to determine what our risks are.

Councilor Abeyta agreed with Councilor Lindell. Time is money but he also heard what other Councilors are saying. We are not starting from scratch but maybe a reset. It would be helpful to state what the vision is for this property and we need the public to participate in some sort of referendum. That is what he was hearing and leaning toward in these discussions.

Mayor Webber heard a specific presentation on specific issues. The Master Developer said certain things needed to be done to make it valuable and this team as looking at those and looking at it as if the City is the developer. Being guided by the assessment will help to decide whether to have another Master Developer or if there are issues of social capital as well as financial capital. He thought the City's team is just as good as any developer in assessing it with financial choices, social choices, and timing choices. And the City can engage with broad public dialogue. We need to revisit our assumptions about what the property can produce. It is a once in a lifetime opportunity in the heart of Santa Fe and understand what it means for the public and future generations. We have the resources to help us make these decisions.

AMENDMENT OF THE AGENDA

MOTION: Councilor Rivera moved, seconded by Councilor Cassutt-Sanchez, to amend the agenda by moving first to Communications with the Governing Body and then to Petitions from the Floor and then return to the regular agenda where we left off at 11 a.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

15. COMMUNICATIONS FROM THE GOVERNING BODY (Revised Agenda Order)

Councilor Villarreal was completely frustrated with Prime Gov and a complete distraction to not be able to see what we are going through. She has been having that consistently and she knew she was not the only one.

Councilor Cassutt-Sanchez congratulated Santa Fe County on the new COVID status of yellow and wants to get to Green. She urged everyone to follow the guidelines.

Councilor Lindell gave congratulations to all that we have gone to Yellow. It is a really good deal and incumbent upon us to continue what we are doing to get to Green.

Councilor Garcia wished everyone a Happy Valentine's Day, especially his wife. He was thankful for getting to yellow – let's get to green. He was sorry for Councilor Villarreal's frustration with Prime.gov. There is confusion on the process for CHART that we are still building a Commission. Maybe the next time we can update that with CHART to let the public know where we are.

Councilor Vigil Coppler said, regarding the CHART and update, it would be best to send out an update newsletter on where people can find more information. Ms. Bustos-Mihelcic let me know there is a website for signing up for the updates. It would be good to send that out again.

She also brought up the unsung employees who don't get the recognition. Wastewater Division Manager Anthony Keryte upon his award for outstanding operator of the year. We congratulated him at Public Works, and she brought his name to this meeting. In addition, the Canyon Road Water Treatment Plant also got an award for most improved facility in 2020 from the New Mexico Wastewater Association. The team was diligent in maintenance of the 1975 plant. Kudos to all of them and they are all recognized on the communication at Public Works. She asked Manager LaPan Hill to please have her staff send that out to recognize those heroes.

Councilor Rivera also congratulated Anthony and all those at the Canyon Road facility and agreed with Councilor Vigil Coppler that the City put out a press release on their great accomplishments. He also recognized Santa Fe Beautiful for their award for the sign at the Highway 84 - 285 entrance. He wished his wife a Happy Valentines Day and still loves her the way he did when they first met. He congratulated Santa Fe County for Yellow status, and we can't let up. He introduced a Resolution, cosponsored by Councilor Villarreal updating the terms of resolution No 2020-29 to extend the duration of the Community Health and Safety Task Force through the end of calendar year 2021, allow additional Task Force members, change the Task Force composition, and exempt the Task Force from certain Open Meeting Act requirements.

Councilor Abeyta agreed with what was said already.

Councilor Romero-Wirth introduced a Resolution designating the City of Santa Fe, New Mexico as a Bee City USA affiliate. She said more information was available on the City website. She had received emails from people requesting more information.

Mayor Webber introduced an ordinance amending Section 18-11.3 SFCC 1987 to amend the definition of taxable premises to make it consistent with State Statute and to add a definition for permanent resident; amending Section 18-11.8 to make the Section consistent with State Statute; and to amend Section 18-11.17 to clarify the difference between the Occupancy Tax and the Convention Center Fee, and to dedicate the Occupancy Tax collected on the thirty-first and subsequent days to the Affordable Housing Trust Fund.

The journey through COVID is making progress but we have a long way to go. But hospitals don't know what they are getting or when. He asked people to register for vaccinations and to go to their health provider for more information. Medical providers are working hard. The medicine cabinet was empty when President Biden stepped into office and it is getting better, but it is not as smooth and transparent as we would like. Wear your mask and use hand sanitizer.

He sent Valentines greetings to Frances, the love of his life.

He called attention to what is happening in nation's capitol. Local is what we love the most, but we are engaged in an important day of reckoning in an impeachment trial for a president who chose mob violence. He encouraged people to watch the video for the opening and listen to Representative Raskin whose statement was eloquent. Please take it seriously and be engaged with it as a moment of importance for our future, not only for us but also for our kids.

EVENING SESSION - 6:18 P.M.

16. ROLL CALL

17. PETITIONS FROM THE FLOOR (Revised Agenda Order)

Kirsten humbly asked if the Governing Body would consider a continuous violation situation. My neighbor has five vehicles. Two are not running and one is a truck with garbage in the back. She understood a nuisance letter is being sent, but they are not effective. Her neighbor has 30 days to comply but go right back out with no consequence. So letters are not effective. They can park cars on the street without license plates that are not running. And when police come, they move them two feet and the police know they will just move the vehicle. They know how to play with the laws. And she has to start the process all over. It seems like an easy fix, but she has been at it for four years. The owner should be fined. The owner doesn't live there. "Thank you for listening. I talked to my councilors."

Lydia Clark said she lives in District 1 and was here to oppose the proposed resolution that asks for NNSA to prepare a new impact statement for LANL before extending plutonium pit production facility. This was brought to the Governing Body attention over a year ago requesting that environmental impact statement and opposing nuclear weapons and plutonium pit production specifically. this particular resolution has neither language that opposes nuclear weapons production or plutonium pit production. It merely asks for suspension of weapons for pit production while they are asking for another slice. They asked for a slice in 2020 and the NNSA rejected a new slice. It is too late for new slice. The City has opposed that before. Why is the City asking for less at this point? If we don't ask to stop pit production, that will not only continue but increase. Plutonium pits production brings no benefit to New Mexico. Please oppose this resolution.

Jay Coughlin said he was touched with Mayor Webber's DC statement. He spoke in direct support to the resolution. It is not too late. Better later than never. With respect to NNSA, it is also up to Santa Fe citizens. Santa Fe County already passed a resolution and hopefully, the City will also. And then we can pressure our congressional delegation. It is relevant, looking at articles in Journal and the New Mexican today, a scathing report by the Inspector General on wildfire protection at the Lab. After two catastrophic wildfires there, for further relevance. This City has been enveloped by smoke and the Buckman Direct Diversion can be contaminated with surface water out of the Rio Grande that comes from Los Alamos. Over time, even the Buckman water wells could be affected. Please support the resolution.

Scott Kovac said he was here in support of the resolution for full Environmental Impact Statement at LANL. There is too much going on there. They spent billions to clean up the facility and if looking for reasons – find ways to make it happen. Thank you.

Stefanie Beninato said she contacted Manager LaPan Hill about traffic backup at the Plaza on Saturday. It was a recipe for disaster that needs to be addressed publicly. A driver started screaming at me when making a left on my bike and watching them speed away at about 50 mph. I ask that the City put out speed monitors to help people slow down. Also I am concerned about the missing plaque taken from the obelisk. Lisa Roach was going to look into it, but she didn't report back. Now, we have the same thing at the Cross of the Martyrs. It would be really helpful to know what is going on and why the City can't keep track of its own property. She noted a story in the paper about ownership. If the City doesn't own it, why are they maintaining it. Some explanation on that point would be helpful. Lastly, she was concerned about an administrative decision rejecting appeals procedure. Please read that thoroughly.

John Wilks said he had submitted earlier written comments for item 11 (a) and hoped it was received because it would save time for him to speak. He congratulated the Governing Body for the resolution which he supported on behalf of Veterans for Peace, Chapter 63. "With the exception of one word, you need to strike the word 'request' and substitute or add the word 'demand'. LANL has not been a good neighbor nor tenant

since 1942. They have done their mission for DOD and the country. But at the same time, they generated waste – toxic waste. Now they have approximately 45,000 55-gallon drums of waste. They are making very little if any progress on removing that waste. This is very serious because DOD's plans for LANL, as you know, change their mission from research to production. My view is, from the view of Veterans for Peace is, there should be no permits issued by NMED for any purpose until the legacy waste is removed. And during that time, the study can be conducted. Now, as far as the study goes, yes, we need a site-wide study. The site is the State of New Mexico. Because, as I have laid out in my letter to you in my comments, DOE has six projects, only one of which is the LANL pit production which they have proposed or are in the process of implementing. Some of those projects have to do with moving plutonium through I-25, I-40, and other County roadways.

There were no other petitions at 6:32 pm.

RECESS

At 6:33 pm, the Governing Body recessed until 6:41 pm.

The Governing Body resumed the original agenda at this time.

10. CONSENT CALENDAR

a. Request for Approval of a Budget Amendment Resolution (BAR) in the Total Amount of $205,000 from the Cash Balance in Water Enterprise Fund to the Transmission and Distribution Operating Supplies; (5050386.530200). (Randy Lopez, Transmissionand Distribution Supervisor, rjlopez@santafenm.gov, 955-4246)

COMMITTEE REVIEW:
Public Works and Utilities Committee: 01/25/2021
Finance Committee: 02/01/2021
Governing Body: 02/10/2021

b. **Request to Publish Notice of Public Hearing on March 10, 2021.**
Consideration of Bill No. 2021-__: An Ordinance Amending Section 7-1.1 SFCC 1987 to Adopt the Newest Version of the International Energy Conservation Code as Adopted and Amended by the State of New Mexico Construction Industries Division; and Amending Section 7-4.2 SFCC 1987, City of Santa Fe Green Building Code, to Update Code References in Conjunction with the Adoption of the 2018 International Energy Conservation Code as Adopted and Amended by the State of New Mexico Construction Industries Division. (Councilor Cassutt-

Sanchez, Counselor Villarreal, and Councilor Abeyta) (Jason Kluck, Assistant Planning and Land Use Director, jmkluck@santafenm.gov, 955-6729)

COMMITTEE REVIEW:
Quality of Life Committee: 02/3/21
Public Works and Utilities Committee: 02/8/21
Governing Body (request to publish): 02/10/21
Governing Body (public hearing): 03/10/21

11. DISCUSSION/ACTION ITEMS

a. CONSIDERATION OF RESOLUTION NO. 2021-09. (Councilor Villarreal and Councilor Lindell)
A Resolution Requesting the National Nuclear Security Administration Prepare and Complete a New Site-Wide Environmental Impact Statement for Los Alamos National Laboratory Before Expanding Plutonium Pit Production at the Facility. (Jesse Guillen, Legislative Liaison, jbguillen@santafenm.gov, 955-6518)

COMMITTEE REVIEW:
Quality of Life Committee: 02/3/21
Governing Body: 02/10/21

Ms. Bustos-Mihelcic read the caption for this matter.

MOTION: Councilor Villarreal moved, seconded by Councilor Lindell, to approve the Resolution as presented.

Discussion on the Motion:

Councilor Villarreal appreciated hearing from the public on this issue. Although there is a time gap, the issue is still relevant. There are other advocacy groups. The last EIS was done in 2008 and she thought it is important to be able to express our values in this matter. We know these types of resolutions are symbolic in nature. They are expressing the Governing Body values asking for action directed at other bodies and agencies. She wanted to express that there have been other resolutions to prohibit plutonium pit production. It is something she feels is necessary to eliminate. "My vision can't deter the issue at hand which is a statewide EIS. That's why I am putting this forward. There was a time frame that people thought we could do it sooner. But we were in COVID, dealing with a lot of issues last year. I believe it is still timely and I think it is important to express that."

Councilor Lindell thanked Councilor Villarreal for the lead on this. She signed as a cosponsor because she felt it was important, but she did acknowledge that Councilor Villarreal did the work.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

b. CONSIDERATION OF RESOLUTION NO. 2021-___. (Councilor Vigil Coppler, Councilor Garcia, and Councilor Villarreal)
A Resolution Requiring Governing Body Approval Prior to Announcing the Availability of Any City-Owned Land, Buildings, or Other Real Property for Sale. (Andrea Salazar, Assistant City Attorney; asalazar@santafenm.gov, 955-6303 and Rich Brown, Economic and Community Development Director, rdbrown@santafenm.gov, 955-6625)

COMMITTEE REVIEW:
Public Works and Utilities Committee: 02/8/21
Governing Body: 02/10/21

Ms. Bustos-Mihelcic read the caption for this item.

MOTION: Councilor Garcia moved, seconded by Councilor Vigil Coppler, to approve the resolution as proposed.

Discussion on the Motion:

Councilor Romero-Wirth objected that she had her hand up before the motion was recognized. She explained that her hand was up because she thought the Governing Body should consider remanding this back to Council committees – the Finance Committee because it has a fiscal impact. It did not get consideration at the Finance Committee. And if you read the FIR, it talks about how one of the possibilities for implementation of this was to incur overtime expense. It has only been to one committee and as some of the Councilors were sponsoring, this resolution talks about in previous resolution, we have not all been able to see this at a committee level, particularly the Finance Committee where there is a financial implication. She would like to move it back.

Mayor Webber apologized and said we did need to have a motion.

Councilor Garcia felt his motion should stand. “My colleague, Councilor Romero-Wirth consistently makes motions without recognizing hands that are up. I am in order with my motion.”

Mayor Webber noticed Ms. McSherry had her hand up. He was looking for guidance for how we run this in an orderly fashion.

Ms. McSherry asked if there was a motion made by Councilor Romero-Wirth.

Mayor Webber said yes. We have a motion from Councilor Garcia that was seconded. The part that was befuddling to him was that he didn’t actually recognize Councilor Garcia before he spoke.

Councilor Garcia said, on that point, that Councilor Romero-Wirth consistently does that.

Councilor Romero-Wirth was speaking while he was making his point and said all she wanted to do was to be able to make the point that she thought it should be referred back to Finance, and her hand was up but we have a motion.

Mayor Webber agreed; we have a motion on the floor, and we have a second. But it would be beneficial to be recognized. With that said, Councilor Vigil Coppler did have the floor.

Councilor Vigil Coppler commented first on what just happened. “I have been on this Council for going on five years. And recognition has not been consistent. Furthermore, I think a lot of this is rehearsed prior to coming to the meeting because in our meetings, it never fails. Councilor Romero-Wirth is recognized first whether she has her hand up or not. That’s all I’m going to say about that. I recognize that and I appreciate that Councilor Garcia raised his hand and moved forward for recognizing that and letting us think about the merits of this resolution.

Now, I wasn’t born yesterday. I know when something has a fiscal impact or not. And when I developed the resolution, I considered all the matters of what could have come up. I strongly oppose the FIR. I do not believe there is a fiscal This is asking staff to do their job. I did express my concerns with Director Brown. I do know from just, I gathered in discussions with Director Brown that he was not in favor of this resolution. And that is fine. But I really felt that it was loaded up with money, and I told him this is just part of doing their job. This is not extra. I will go back in history. There have been many resolutions that have not included things like overtime and things like that unless it is a brand-new program. This resolution is aimed at bringing the public land before this Governing Body for discussion and vote on whether

we want to sell that land or property before going out and advertising it to a select few or to the world. Because what the practice has been, much to my concern, is that we have only discussed if at all, land in executive session. And then from there, move straight to sale or to wherever it goes without coming out of executive session and voting on the merits of selling property. The case recently was the Alto Street property that was discussed in executive session. I am not in favor. I wanted more discussion about that piece of property and what the options were. Because I really felt like that properly was a good location and ripe for trying to get some kind of affordable housing somewhere other than the south side. Nevertheless, the discussion never went there. But I assumed and was planning that we would have a discussion in open session and then vote. But I did see in the next couple of days was a whole newspaper article about how the City was selling the building on this property and what the commensurating [sic] land was going … and who owned it and what potential sales could happen there. We never voted on that. I find that there is a fine line between what we discussed in executive session and what the outcomes are. And on land, I don't recall that we have had any public discussion or vote for even the public to know about prior to getting the work done.

If an item comes to us the rest for a property the ball being sold or not, there is no work to be done. They should really not be a lot of work done because the work comes when it is prepared for sale, the property for sale whether it goes out to bid or whatever. I know we have had several discussions about how this property gets out there and then we get a purchase agreement.

All this resolution does is to put the public property in front of the pubic for deliberation by the Governing Body on whether it should be sold or not. And that is a discussion among us. Whether it is a resolution or not I know we would only get petitions from the floor for it. We spent a great deal of time discussing the sale of the Santa Fe Clay Building at the railyard. And the public was up in arms and they expressed complete disappointment that the property was let out for sale without any public knowledge of it and maybe they would have bid on it. But it was a fait accompli by the time the buyer got it. And that is kind of the way we've been operating.

Except, I would say, Santa Fe Estates has been the most discussed property because it has gone everywhere else. And now obviously, it is out there, getting a lot of attention. That's why it is excluded from this resolution, because it has been out in the public. We never voted that we wanted to sell it that I recall. But I want to prevent that. I really believe that we need to be discussing the taxpayers' property in front of the taxpayers. T

I am not against going into executive session when negotiating a purchase or something like that. But that is after we have made the decision to sell. I think it's wrong what we have been doing and I think the better way is to

have everything be transparent. I would just say then that I am not in favor of sending all this to Finance. But I understand why. But right now, my concern is that this FIR is not accurate, and it sets a dangerous precedent, because if somebody or something comes before us, and people don't know how to decipher these monies they are attaching to it, will it be on every single resolution we do? Because, if not, I take exception. It has not been on every resolution.

If people don't want to do their work that is part of their job, they will demand overtime. That is crazy. We pay people a great deal of money to do their job. Those who are exempt are to work and get their job done. We are really going down the wrong path if not.

We need to put these properties in front of the public and go from there and then the staff can do their work. But it is the same work they would do anyway."

Councilor Garcia said what this resolution does is to create a process toward more transparent government. That is what constituents have asked for. This is a process that deals with their assets, their property. The taxpayers have a stake with this. How many of us ran on a platform of more transparent government? This is what needs to be done when selling property and stop Staff from going down the wrong path. It is the proper procedure.

Regarding the FIR, he had some deep concerns about this. He didn't see additional time being spent on it, whether preparing for an executive meeting or an open meeting. He reviewed past sales and saw no FIRs with them. One resolution last year was sponsored by Mayor Webber for closure of streets downtown. That would have been additional staff for permitting and part of their regular job. The resolution for establishing the Water Conservation Committee by Councilor Romero-Wirth and Councilor Abeyta had no FIR. More recently, the BTAC resolution that he sponsored had an FIR with staff supporting the resolution and no financial impact in the FIR. Is this how we want to operate with a fair and open government? This resolution allows the public to participate in the process and show how good we are as stewards for City property and shows we can be trusted in the process.

He wanted some explanation why no FIR was submitted in the past. How did we arrive at the resources identified in this FIR? He was trying to understand why, when it is just staff doing their job. He wanted to know how the sponsors arrived at a fiscal impact.

Director Brown said he was the author of the resolution and he understood the Governing Body could go into executive session to discuss them. He

didn't know about precedents in other departments regarding an FIR. But there could be up to five staff members in his department. He was the only staff person not paid hourly. So the other staff working on it could incur additional hours of work and could be on this call. It is not a large amount of money when we go through two committees and staff need to be present in case there were changes made. But it was his duty to report it in the FIR.

Councilor Garcia thanked him for that explanation. He understood his other five staff could be working extra and asked which of those staff were on the call for this meeting tonight.

Director Brown said it was Ms. Salazar and Sean Moody who were working on this. And it could be Ed Vigil, Juan Lucero and sometimes Liz Camacho. Those are the five nonexempt employees.

Councilor Garcia asked if there had ever been an instance where all five staff were needed at a meeting.

Director Brown said there has been together at one, but they are changing the process. There were two committees, where they once had one meeting, now have three. Staff had to be present to answer questions. Each of these properties has some extraneous instance involved with it. None of these properties has been clean so discussion happens before we go to the next phase.

Councilor Vigil Coppler, on that point, told Director Brown that there is no doubt that needs to happen. But this resolution just asked if the Governing Body wants to sell it and Staff would go through the same work as before. This resolution puts the horse first. "Now back to the employee…"

Mayor Webber interrupted that Councilor Garcia has the floor and then he would come back to Councilor Vigil Coppler.

Councilor Vigil Coppler said it was a simple comment on the five employees.

Mayor Webber said Councilor Garcia was on a different point and should be allowed to finish rather than allowing Councilors to leverage off each other. He asked Councilor Garcia to pick up where he left off.

Councilor Garcia asked Director Brown, given the example Councilor Vigil Coppler made, how much, if any, additional preparation is needed if he comes to the Governing Body just with a proposal? Coming for the with the proposal first and then doing the leg work like Midtown – whatever it needs. But coming first to Council on consideration of selling the property, why does it cost resources with a simple proposal like that? You mentioned going through an extensive process and other opportunities to sell it. We

are trying to prevent that extra work before deciding whether to sell it or not. If you do all the work and then come to Governing Body and the Governing Body says no, all that work is a waste. If there is an impact, it should go to Finance but there should be no impact because it is the ordinary work of staff to do. There has been no precedent in the past and going down the wrong path to cherry pick FIRs when I feel there is not financial impact.

Councilor Romero-Wirth pointed out that the resolution was introduced at the last Council meeting and didn't know why it was only referred to Public Works and was passed on consent. It does have a financial impact. And the sponsors made the case on questions the committee must flesh out to decide on the FIR. There was an impact on Water and on street closures. So maybe we can see that we are not picking and choosing. This Resolution did not go to Finance so this motion should be denied and refer it to Finance to consider what impact it has or doesn't have. She urged the Governing Body to vote it down and send it to Finance for proper hearing on the sale of city-owned land.

Councilor Cassutt-Sanchez was in favor of this resolution and thought we should make sure to have the discussion publicly and the Governing Body agreeing that it should be sold. What is the reason for going to only one committee?

Councilor Vigil Coppler said she sent it to one committee and wanted to have it heard there. She didn't know why it was on consent. She didn't send it to Finance because she did not believe it had a fiscal impac.t There are other properties the Staff is getting ready to sell so she had a sense of urgency on this bill.

Councilor Cassutt-Sanchez said it brings up items going to committees, so Councilors have an opportunity to discuss them. So whether it was Finance of Quality of Life, will we miss the boat on another sale to not have a chance to vote on it as the Governing Body.

Director Brown explained that they don't bring it. In the current process of an offering, it goes to an executive session. But he has not put anything in the queue for public discussion.

Councilor Cassutt-Sanchez said that the reorganization bill, there was no FIR, and it brings the question of when we follow the rules or when we don't follow the rules. She was one of the voices against it, but she believed in the process.

Ms. McSherry pointed out that there is no rule but if on consent, it requires two committees for review and if on discussion, one committee is required to hear it. She was aware of one in her history here that had no FIR. It is

not clear whether there is fiscal impact or not and the Governing Body could provide the guidance for it. There is sometimes an effort made and in others there is no effort.

Councilor Cassutt-Sanchez thanked her for clarifying it. She was in support of the resolution and would like the opportunity to explore it further. She agreed no City property should be put on the market without a vote by the Governing Body on it.

Councilor Villarreal also noted that FIRs are inconsistent. This one made no sense to her. Other resolutions have had requirements for staff time that were not calculated in the same way. We need to have guidance to understand what goes into a FIR from a staff perspective. The only reason I would consider going back to Finance is so that the FIR could be corrected. She did not think it was accurate.

She was really frustrated with inconsistent FIRs and that was the only reason it might go back to Finance. We don't have that much land to sell and need to be methodical about those sales.

Councilor Lindell was not sure what problem we are trying to solve here. She had never seen a property go up for sale she didn't know about. In the resolution it does say the Governing Body must approve after a presentation by City Staff in a public meeting when the City property is for sale. She had been here long enough to know that there is no way that the presentation is coming to us and saying we would like to sell this piece of property. Do you agree or disagree? It must be a full presentation from Staff. To say that simplifies Staff work and that we are not going to put them through the work if we don't agree to sell it. We kid ourselves to have Staff come and ask if we want to sell it or not. They must explain why we need to sell it. She didn't see the urgency on it. We do like to discuss it in committee first.

We have discussed whether to include Staff time in an FIR or not. We need to give Staff the courtesy to say what items would be pulled. Otherwise, all the staff would just sit there. and they were not sitting there for free. The process used to be that all staff with items on the agenda would come and sit in Council Chambers until the consent items were pulled. And then they can go home if their case was pulled off consent.

But it took memo upon memo and Celeste called everyone of us to ask beforehand what we wanted to pull as a courtesy so staff could spend the evening at home with their family. She didn't mind when an FIR is requested and when we get one to not believe them. That is not fair to Staff.

Councilor Lindell moved to postpone this resolution and send it back to Finance.

Councilor Romero-Wirth thought it was not fair to postpone while the motion was being debated now.

Councilor Lindell replied that if people have problems with it, lets get it to a Committee.

Ms. McSherry explained this motion of postpone and referral is in order and can be debated.

Mayor Webber understood that would take precedence.

MOTION: Councilor Lindell moved, seconded by Councilor Abeyta, to postpone the resolution and refer it to the Finance Committee.

Discussion on the Substitute Motion:

Councilor Vigil Coppler believed the sponsor of a bill has a right to decide what committee it goes to and she saw no reason to go to Finance and it was her prerogative to put it on consent or not. She knew it was not breaking the rules and she respected when other sponsors say where they want their bill to go. Her prerogative was to send it to one committee and understood the process and was not breaking any rule on it. FIRs from her perspective, background and training were if the matter would require money not currently budgeted and any monies associated, should be clearly detailed and there is none here. So, she would vote against the motion because that is what applies here. The issue is we need to have these discussions in front of the public.

Councilor Garcia said if there is anything to be learned, there is a huge challenge with inconsistency on FIRs. He looked at the FIRs and they had zero impact. That is not being spread evenly and that brings more concerns. He understood the desire to send it back. It needs to be a zero and have that consistency. It should have zero impact. He was more than happy to send it back but wanted to confirm with Director Brown that there will be no land sales in the next couple of weeks. The point of the resolution is to make sure the public is not surprised by sales. The Santa Fe Clay Building is a good example. We heard how many were surprised by it. This resolution is to keep the public from being surprised. He highly recommended the FIR be zero.

Councilor Cassutt-Sanchez agreed it was important to be consistent. We are still looking at our process. She was under the impression that no secondary motion could be made. In the past, we had to vote down one motion before making another.

Ms. McSherry said it depends on what the motion is and if substantive, the first must be voted down before a second motion is made.

Councilor Cassutt-Sanchez was feeling frustrated on whether to send it back to committee. She understood people who were not the sponsor did not have that respect whether to all three committees regardless of the matter. That is an opportunity we all have to say what we see as a problem there and the consistency of whether it needs to be at another committee or that it need not be sent to that committee. She supported this resolution and would like to see it in committee. It is a slate with money coming to the City but didn't want to see it used as a political process. And to make sure we are vetting our resolutions and ordinances. It is important to allow committees and she believed there is a fiscal impact regarding staff time and agreed that needs to be consistent. Staff time is important and finding the balance is important. Having the discussion in pubic is also important.

Councilor Villarreal said this was super frustrating. She was not opposed to Councilor Lindell's motion but didn't understand the process which has been inconsistent. She hoped they could talk about that more on Friday. If it was already passed in Public Works, it would still go to Council. She would personally like to talk about the FIR and how the numbers were arrived at in Finance. We have not had these problems in the past.

Councilor Rivera asked if the motion was if it could go to the next Finance Committee meeting.

Mayor Webber agreed.

Councilor Abeyta said it will be heard at the February 15th Finance meeting if it passes here.

Councilor Rivera hoped we could clear up those inconsistencies. He had never seen the way they are managed with amendments and other motions and who gets to speak first and that is creating some of the hostile reactions. He was not proud to be part of that.

Councilor Vigil Coppler thanked Councilor Abeyta for agreeing to put on the agenda with this short notice.

Mayor Webber observed that the level of discussion is important to remind ourselves as our invocation did this evening about what we put out into the world because it comes back with us. He had issues with the resolution but believed it should be considered.

Ms. McSherry reminded Council this is only debate on the motion.

Mayor Webber said Finance should take it up is because the issue needs to be brought up. The Santa Fe Clay building would not be covered by this Resolution. But if it is a problem, it should be discussed at Finance. And one thing on the Alto Street property is whether the City owns the land. As far as the FIR is concerned, he believed there are fiscal impacts not of staff time but of the implications for postponing the timing of the sale. Particularly considering affordable housing, there is a question whether we would be sacrificing it for the public good. There is discussion on Midtown so there is a lot of staff time in preparing the presentations, particularly with land that is an unused asset to have just an up or down vote. So there is work to be done on the resolution and some drafting errors in it that could have been caught in committee. It is not well crafted. We should look at how we deal with the assets that are underperforming. He supports the transparency to have it done in the open at the committee level and referring it to Finance will guarantee further transparency and what we do with the revenue from the sale.

VOTE: The motion to postpone and refer to Finance was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

Councilor Garcia to clarify, asked when it comes back to the next Governing Body meeting, if it would reconvene with a motion to approve.

Ms. McSherry explained that our procedural rules do not keep a motion on the table. You can make a motion to approve at that time.

Councilor Garcia understood.

SECOND AMENDMENT TO THE AGENDA

MOTION: **Councilor Rivera moved, seconded by Councilor Vigil Coppler, to amend the agenda and take up appointments as the next item of business.**

He explained that he wanted to amend the agenda so Judge Vigil would not have to wait longer for the appointment she had requested.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

18. APPOINTMENTS

a. Economic Development Advisory Committee

Ms. Bustos-Mihelcic read the Mayor's appointment: Mr. Ryan Salazar for a term expiring June 2022.

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Abeyta, to approve the appointment of Ryan Salazar to the Economic Development Advisory Committee as recommended.

Discussion on the Motion:

Councilor Villarreal wondered about the gender percentages on the Economic Development Advisory Committee.

Director Brown thought the gender percentages were about equal.

Mr. Guillen said there are presently five women and three men plus the vacancy.

Councilor Villarreal thanked Mr. Guillen for the information.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

b. Request for Approval of Appointment of Municipal Court Pro Tem Judge Pursuant to §2-3.4(C) SFCC 1987: Chad Chittim. (Judge Virginia Vigil, vmvigil@santafenm.gov, 955-5054)

Ms. Bustos-Mihelcic read the caption for this item to appoint Mr. Chad Chittim as requested by Judge Virginia Vigil.

Judge Vigil said this item is simple and some might not be aware that she no longer has a pool of pro tem judges per an IRS ruling. She was still looking for more experienced. Another experienced person is not available until April. It is not a matter that is unfamiliar to the City. She requested that Mr. Chittim be approved to serve.

MOTION: **Councilor Lindell moved, seconded by Councilor Romero-Wirth, to approve the appointment of Mr. Chad Chittim as Municipal Court Pro Tem Judge as requested.**

Discussion on the Motion:

Councilor Vigil Coppler asked if Mr. Chittim is not serving as DA.

Judge Vigil said no. He is a staff attorney.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

Mayor Webber apologized for making Judge Vigil wait.

Judge Vigil said, "I appreciate Councilor Rivera's motion. Thank you very much.

11, DISCUSSION/ACTION ITEMS (continued)

c. Request for Approval of Amendment No. 3 to the Memorandum of Agreement between Santa Fe County and the City of Santa Fe for the Public Safety Radio Communications System Solutions Project for Implementation of Any Upgraded Communication System. This Amendment is to Extend the Term Date to December 31, 2020 to June 30, 2021. (Brian Moya, Assistant Chief, bjmoya@santafenm.gov, 955-3111)

COMMITTEE REVIEW:
Governing Body: 02/10/21

Ms. Bustos-Mihelcic read the caption for this item and said and Brian Moya was present for questions on the radio system upgrade.

MOTION: Councilor Garcia moved, seconded by Councilor Vigil Coppler, to approve the MOA Amendment No. 3 as requested.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

d. Request for Approval of Amendment #2 to Lease Agreement #20-0257 by and between the City of Santa Fe and Garson Studios, Ltd., to Extend the Term of the Lease by 18 Months or Until August 26, 2022. (Sam Burnett, Public Works Property Maintenance Manager, jsburnett@santafenm.gov, 955-5933)

COMMITTEE REVIEW:
Governing Body: 02/10/21

Ms. Bustos-Mihelcic read the caption for this item.

Mr. Sam Burnett was present to answer any questions.

MOTION: Councilor Vigil Coppler moved, seconded by Councilor Cassutt-Sanchez, to approve the Lease Agreement Amendment #2 as requested.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

e. CONSIDERATION OF RESOLUTION NO. 2021-11. (Councilor Cassutt-Sanchez, Councilor Villarreal, Councilor Abeyta, Councilor Rivera, and Mayor Webber)

A Resolution Supporting Legislation at the New Mexico Legislature Adopting a Paid Sick Leave Act that Allows Employees to Accrue and Use Paid Sick Leave. (Jennifer Faubion, Council Liaison, jrfaubion@santafenm.gov, 955-6033; Jesse Guillen, Legislative Liaison: jbguillen@santafenm.gov 955-6518)

COMMITTEE REVIEW:
Governing Body: 02/10/21

Ms. Bustos-Mihelcic read the caption for this item.

Mr. Guillen was present to respond to questions.

MOTION: Councilor Cassutt-Sanchez moved, seconded by Councilor Rivera, to support this legislation at the State Legislature as requested.

Discussion on the Motion:

Councilor Vigil Coppler asked Mr. Guillen, if this has been introduced in the session, what the number of the bill is.

Mr. Guillen didn't have it in front of him and said he could get the information for her.

Councilor Cassutt-Sanchez explained there were two bills, HB 20 and HB 37, and they were merged, and she was not sure which number they chose.

Councilor Villarreal said HB 20 was the merged number and it went through the House Labor Committee.

Councilor Garcia asked to be a cosponsor.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

f. CONSIDERATION OF RESOLUTION NO. 2021-12. (Councilor Lindell, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Villarreal, and Mayor Webber)
A Resolution Urging the New Mexico Legislature to Hold New Mexico School Districts and Charter Schools Harmless for Decreased

Enrollment in the 2020-2021 School Year Resulting From the COVID-19 Pandemic and to Maintain Funding at 2019-2020 Levels. (Julie Sanchez, Children and Youth Division Director, jjsanchez@santafenm.gov, 955-6678)

COMMITTEE REVIEW:
Governing Body: 02/10/21

Ms. Bustos-Mihelcic read the caption for this item.

Julie Sanchez was present to respond.

MOTION: Councilor Lindell moved, seconded by Councilor Cassutt-Sanchez, to approve the Resolution as presented.

Councilor Villarreal asked to be added as a cosponsor.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

12. MATTERS FROM THE CITY MANAGER

There were no matters from the City Manager.

13. MATTERS FROM THE CITY ATTORNEY

Ms. McSherry needed updates to the document and said she would come out with the chart that determined privileged motions in an order as on page 3 in one of the appendices of Robert's Rules of Order to clarify among the types of motions including what is debatable and what is not debatable and what is privileged. She was attempting to be consistent.

She recommended the Governing Body go into executive session for discussion of the matter shown on the agenda.

EXECUTIVE SESSION

In Accordance with the New Mexico Open Meetings Act, Specifically NMSA 1978, Section 10-15-1, Part (H)(7), Attorney-Client Privileged Discussion Regarding Threatened and Pending Litigation in Which the City of Santa Fe Is a Party, Including, but not Limited to, a Discussion Regarding a Threatened Tort Claims Act Case. (Erin K. McSherry, City Attorney, ekmcsherry@santafenm.gov, 955-6512)

MOTION: Councilor Rivera moved, seconded by Councilor Vigil Coppler, to go into executive session for discussion of the matter listed on the agenda as recommended by the City Attorney.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

Mayor Webber explained there are no other actions, but we must come back to open session before adjournment.

The Governing Body went into executive session at 8:13 pm and ended the executive session and reconvened in open session at 8:58 pm.

MOTION: Councilor Rivera moved, seconded by Councilor Vigil Coppler, to return from executive session, stating for the record that discussion was limited to the item listed on the agenda.

VOTE: The motion was approved on the following Roll Call vote:

For: Mayor Webber, Councilor Abeyta, Councilor Cassutt-Sanchez, Councilor Garcia, Councilor Lindell, Councilor Rivera, Councilor Romero-Wirth, Councilor Vigil Coppler, and Councilor Villarreal.

Against: None.

14. MATTERS FROM THE CITY CLERK

Ms. Bustos-Mihelcic said one of her updates was going to be about CHART. The Website is up, and she will send that information out to the Governing Body. We have provided the update and it will go out Monday about the Chart process. There is an email sign up on that page for anyone interest to receive those updates automatically. She will skip over the other items.

Councilor Villarreal asked if the CHART process was on the website.

Ms. Bustos-Mihelcic said it is on the City of Santa Fe home page.

15. PUBLIC HEARINGS

There were no public hearings.

16. ADJOURN

Having completed the agenda and with no further business to come before the Governing Body, the meeting was adjourned at 9:02 p.m.

Approved by:

_____
Mayor Alan Webber

ATTESTED TO:

_____
Kristine Bustos Mihelcic, City Clerk

Respectfully submitted by:

Carl G Boaz

Carl G. Boaz, Council Stenographer

GOVERNING BODY MEETING
EXECUTIVE SESSION
February 10, 2021

The Governing Body of the City of Santa Fe met in an executive session duly called on February 10, 2021 beginning at 8:18 p.m.

COVID Report to Governing Body

Time Period Covered: 2/4/21 to 2/17/21

1. POLICE DEPARTMENT

Covid Info Calls 2/4/2021-2/17/2021

1. 2/4/2021 @ 9:53am- COVID INFO 2860 Cerrillos Rd (Biotest Plasma)

Report of people not wearing masks or washing their hands. Caller stated they are not being Covid Safe.
Per Officer, contact was made with the manager. All were wearing masks. Manager was also monitoring occupancy. No report required
Time Received 9:53am
Dispatched 10:16am
Arrived 10:21am

2. 2/8/2021 @ 2:28pm- COVID INFO 193 Paseo de Peralta (Atrisco Café and Bar)

Report of 20 people eating inside location.
Per Officer, contact was made with the owner. Café was closed to the public and they were providing take out services. People were in the open air on the outside porch/patio during business hours. No customers were found inside dining. No report required
Time Received 2:28pm
Dispatched 7:13pm
Arrived 7:37pm

3. 2/13/2021 @ 12:31pm- COVID INFO 1583 Pacheco St (The Miller Gym)

Report of a mass gathering at the fitness center.
Per Officer, no contact. No report required
Time Received 12:31pm
Dispatched 3:33pm
Arrived 3:46pm

Covid Mask Calls 2/4/2021-2/17/2021

1. 2/7/2021 @ 12:10pm- COVID MASK 490 Bishops Lodge Rd (Fort Marcy Complex)

Report of several people not wearing masks.
Per officer no contact. No report required.
Time Received 12:10pm
Dispatched 12:13pm
Arrived 12:23pm

2. 2/7/2021 @ 3:45pm- COVID MASK 3200 Calle Po Ae Pi (Ramirez Thomas Elementary)

Report of several people (30) playing soccer with no masks.
Per officer all individuals were advised via PA transmission that masks are required. No report required.
Time Received 3:45pm

Dispatched 3:49pm
Arrived 3:57pm

3. 2/8/2021 @ 12:14pm- COVID MASK 527-B W Cordova Rd (Reality World)

Report of people at Apple Core not wearing masks.
Per officer business was closed, no contact. No report required.
Time Received 12:14pm
Dispatched 4:33pm
Arrived 4:46pm

Average Dispatch time (from call to officer dispatched)

- COVID Info 2hrs 53 minutes
- COVID Mask 1hr 47 minutes

Average Response time (Officer Dispatched to Arrival at location)

- COVID Info 14 minutes
- COVID Mask 10 minutes

COVID Mask Citations to Date under the City Ordinance

- 22 Citations Issued
    - 10 Citations
    - 12 Warning Citations
        - Of these 12, two (2) were Warning citations related to violations of the NM State Public Health Order, issued by Bike Officers during "Operation: For Your Health and Safety".

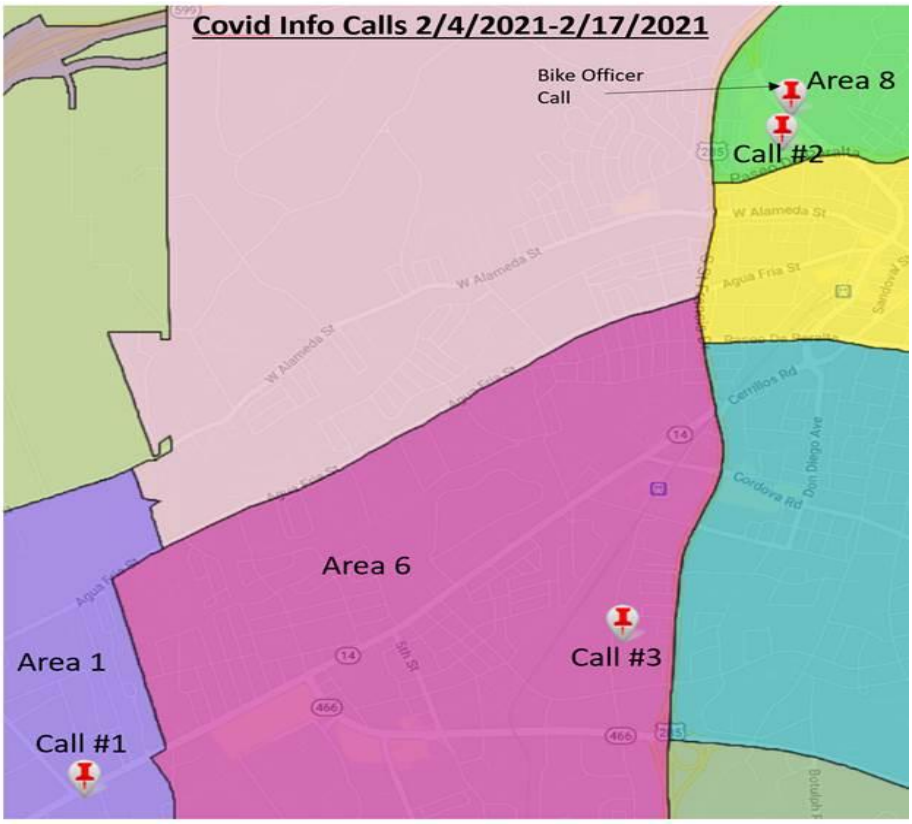
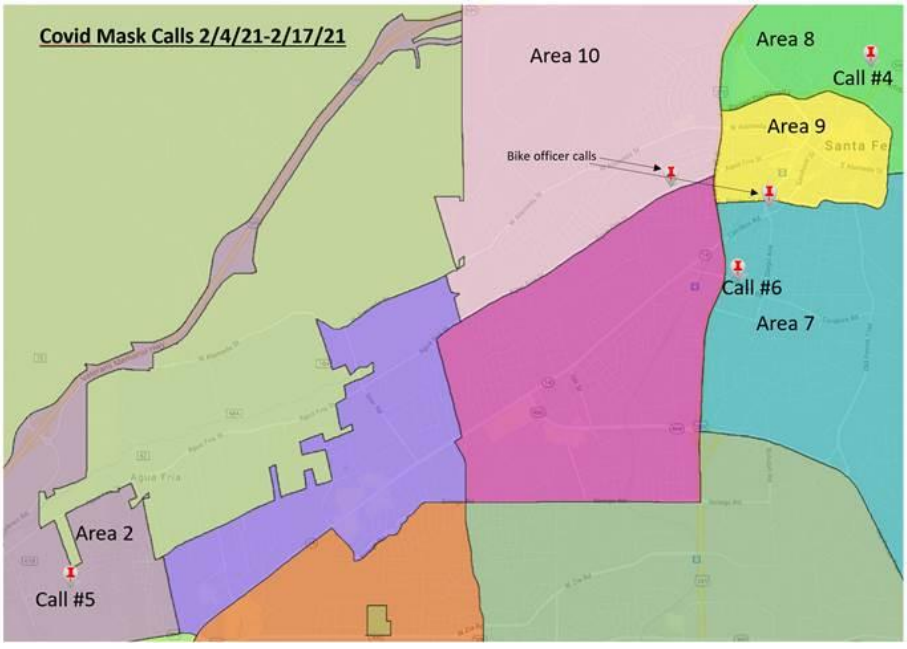
- 3695 Cerrillos Rd (Green Tree Inn) 2 Calls

- 7401 Cerrillos Rd (Lithia Dodge) 2 Calls

- 600 North Guadalupe (Market Street) 2 Calls

Locations of Calls





2. FIRE DEPARTMENT

A. Number of calls related to COVID-19:

- 16 incidents known or suspected to be COVID-19 related.
- The SFFD COVID-19 dedicated ambulance responded to 11 of the calls, and **10** of the calls were confirmed as COVID-19 positive.

B. Number of transfers to and from the Santa Fe Regional Airport to area hospitals:

- 6 Transfers; 0 of these COVID -19 Related

C. Transfers to Santa Fe originated from:

City	State	Zip
Dulce	NM	87528
Taos	NM	87571
Santa Fe	NM	87508
Silver City	NM	88062
Silver City	NM	88062

These include transfers from SF Regional Airport to local hospitals.

1. HUMAN RESOURCES

A. Number of new positive cases among City employees since the previous report, categorized by City department:

Department	Number of Cases Reported February 5, 2021-February 18, 2021
Public Works Department	**1**
Tourism Department	**1**
Total	**2**

B. Number of cumulative positive cases among City employees since March, categorized by City department:

As of February 18, 2021:

Department	Active	Resolved	Grand Total
Community and Economic Development	0	1	1
Community Engagement	0	1	1

Community Services	0	7	7
Finance	0	3	3
Fire	0	23	23
General Government	0	2	2
Human Resources	0	1	1
ITT	0	1	1
Land Use	0	1	1
Police	0	14	14
Public Utilities	0	20	20
Public Works	1	24	25
Recreation	1	4	5
Tourism	1	2	3
Grand Total	**3**	**104**	**107**

Whether or not the City employees that test positive have been in City facilities since during their period of infection, and if so, when they were in said facilities:

When the City HR Department becomes aware of a positive case, the HR team completes a thorough exercise with the employee who has tested positive to identify if the employee was at a City facility or worksite and if yes, when. If the employee was at a City facility or worksite, the department works with HR and the City Manager to determine if a closure is necessary. The area is cleaned and sanitized in addition to the regularly scheduled cleaning and sanitizing schedule.

C. City buildings that were closed as a result of any positive cases:

Municipal Court was closed due to a positive COVID-19 case in July 2020.

D. Report on City-wide use of emergency sick leave related to COVID-19:

Pay Period	Pay Date	# of Employees Who Utilized EPSL	# of Hours Granted	Amount of EPSL Paid
July 11, 2020 July 24, 2020	7/31/2020	14	556	$ 8,614.76
July 25, 2020 - August 7, 2020	8/14/2020	45	1497.75	$ 23,075.59
August 8, 2020 - August 21, 2020	8/28/2020	29	1281	$ 24,073.26
August 22, 2020 - September 4, 2020	9/11/2020	22	882.5	$ 17,008.33
September 5, 2020 - September 18, 2020	9/25/2020	22	379	$ 7,802.31
September 19, 2020 - October 2, 2020	10/9/2020	11	400	$ 5,942.47
October 3, 2020 - October 16, 2020	10/23/2020	18	794.5	$ 13,758.90
October 17, 2020 - October 30, 2020	11/6/2020	19	757	$ 15,451.41
October 31, 2020 - November 13, 2020	11/20/2020	42	1595	$ 31,287.40
November 14, 2020 - November 27, 2020	12/4/2020	55	2130.5	$ 42,072.24
November 28, 2020 - December 11, 2020	12/18/2020	42	1549.25	$ 30,689.84
December 12, 2020 - December 25, 2020	1/1/2021	38	1502.25	$ 28,598.84

December 26, 2020 - January 8, 2021	1/15/2021	28	1092	$ 21,369.05
January 9, 2021 – January 22, 2021	1/29/2021	18	507.75	$ 10,694.64
January 23, 2021 – February 5, 2021	2/12/2021	11	351.5	$ 6,387.89

4. **EMERGENCY MANAGEMENT & SAFETY**

Regarding availability of PPE for City employees, below are the items we have in stock for City distribution as well as what has been distributed in this two-week time period. Safety has transferred all cleaning products to City Facilities for their use throughout City sites.

Item	Box Count	Box Quantity	Total	Distributed	Remainder
Cotton Masks			2571		2571
KN95s			2040		2040
IR Thermometers			6		6
Face Shields			1022		1022
Nitrile Gloves (Medium)	11	1000	11000		11000
Nitrile Gloves (Large)	40	1000	40000	1000	39000

N95 3M	22	160	3520		3520

MIDTOWN
PROGRESS REPORT
CITY COUNCIL: 24FEB2021

The Midtown Steering Committee continues to focus its efforts on overcoming development challenges identified through the Exclusive Negotiation Agreement period, as part of the competitive "Request for Expressions of Interest" process. A Strategic Tactics Team (STT) structure was created by the Steering Committee to work through some of these challenges and to identify strategic moves and incremental steps to position the Midtown site for disposition and development.

Their analytic approach has been to identify strategic City investments that would reduce development risks and uncertainties, increase land values, and work toward achieving goals, generally described in three areas, which were described in the Midtown Planning Guidelines approved by the Governing Body in August of 2018.

- Long Term Development Goals
- Public Policy Financial Goals
- Community Development Goals

Incremental Development

The STTs have begun to outline an investment strategy for incremental development.

What is Incremental Development?

1. Development based on the principle of building *some* before building *all*.
2. A staging strategy in which elements or parts of the whole are developed and delivered at different times, with the intention to adapt and be flexible to external feedback, lessons learned, and in real estate development, community needs, and market realities.

Objectives of an Incremental Development Strategy

- Minimal upfront or phased investment focused on highest impact to build land value, increase certainty, and overcome constraints to development
- Establish flexibility for the City to respond to economic dynamics while maximizing the potential to achieve public policy and community development objectives
- Create a land use zoning that allows for incremental development while providing enough certainties that create a unified district
- Provide opportunities for local developers and businesses

Horizontal Development

Horizontal development typically refers to zoning, clearing grounds, mitigating site conditions, installing main utility lines (electric, water, sewer, gas, data fiber) and primary road(s). Undertaking these initial horizontal development investments positions a site for vertical development (building).

The owner of a property either undertakes these tasks prior to disposing of the property or in collaboration with a developer. Completing horizontal development prior to disposition creates higher levels of certainty and reduces risks for developers, while also increasing land value.

At Midtown, specific horizontal development elements were identified as challenges that create risk. The STTs were established to develop solutions for overcoming obstacles and challenges to development.

Strategic Tactics Team
The initial seven STTs are being reorganized to maximize coordination and synergies:

1. Zoning, Development Planning, Infrastructure (combined)
2. Existing Buildings and Furniture Fixtures & Equipment (FF&E)
3. Public Finance
4. RFEI and Solicitation
5. Public Engagement

Initial Approach Summary
Please note that the following strategies are still be analyzed and the approach is also inter-dependent with the recommendation to be made by the RFEI Evaluation Committee forthcoming for consideration by the Governing Body on March 31, 2021.

Zoning, Development Planning, Infrastructure (combined)

The City invests in undertaking the major impediments for initial and future development.

a. City commences, with a contractor planning and urban design team, to develop a development framework plan and a C2 zoning. The planning team would include a public engagement specific to the development and land use objectives (i.e. different from, but related to, the DPAC public policy and community development objectives).
b. Development planning would consider maximizing the application of LINC zone and other development incentives.
c. The land use planning would also incorporate assessments and strategies for the infrastructure necessary to support the incremental development of the site.
d. Plan will identify and prioritize access points for increasing connectivity that can be obtained incrementally, with a focus on multi-modal mobility including pedestrian and bicycles.
e. The development and infrastructure plans will provide for incremental (phased) disposition and development within a unified plan (not a piecemeal plan).

Existing Buildings and Furniture Fixtures & Equipment (FF&E)

a. Demolish existing substandard buildings
b. Identify and assess investment needs to address structural, system, and code requirements in buildings identified for rehab/ reuse

Public Finance

a. City assesses and pursues the possibility of establishing an initial public finance structure, i.e. an MRA, and other financing and planning structures, e.g. TIF District and LINC expansion, to finance certain primary elements of infrastructure and establish development incentives.

RFEI and Solicitation

a. Evaluation Committee proceeds with reviewing the RFEI submission in all categories and makes a recommendation to Governing Body on March 31, 2021.
b. Based on Evaluation Committee recommendation and Governing Body final determination, RFEI or other solicitation actions are undertaken accordingly.

Public Engagement

a. DPAC Midtown Public Engagement Work Plan is completed. A final version of the Work Plan is submitted with the Progress Report.
b. Updates. The Office of Economic Development, in collaboration with the Midtown Steering Committee, will be issuing two types of reports each month, as follows:
    - ***Progress Reports***. Progress Reports will be written and submitted to the full City Council/ Governing Body once each month. Progress Reports will be submitted prior to the City Council hearing. They may or may not be accompanied with a presentation at the hearing.
    - ***Presentations***. Presentations will be developed and presented to the City Council once each month. They will be presented the evening of the City Council hearing, and will be posted on the City's Midtown Updates website after the presentation. City Councilors will be sent a PDF version of the presentation after the hearing, as well.
    - ***Note****: This Progress Report will be accompanied with a presentation at the City Council hearing on February 24, 2021.*

City of Santa Fe, New Mexico

Memo

Date: January 25, 2021

To: Governing Body

Via: Regina Wheeler, Public Works Director RW

From: Thomas Martinez, Interim Director Streets Division T.M.

Item & Issue

Approved reallocation of $322,190 capital funds for the purchase of a replacement street sweeper for the Streets Division.

Back Ground and Summary:

The Streets Division is responsible for 1200 paved lane miles in the city. We currently have 5 street sweepers 4 get used 10 hours a day 5 days a week and one is backup for use when any unit is in for service. The year models of the sweepers are 2004, 2005, 2008, 2009, 2016. Sweepers have a life expectancy of 7 years which means that 4 of our sweepers are overdue for replacement. It is critical to replace the aged units since replacement parts are not manufactured anymore and it is difficult to keep them in running order. The year model 2004 sweeper will be replaced with this action.

The Governing Body appropriated $581,488 to the GCCC Mezzanine in October 2020. Other funding has been found for that project and that project is in design phase. Reallocation of $322,190 to the purchase of this street sweeper is recommended.

Recommended Actions

Approve the reallocation of $322,190 of the 2018 GRT Bond reallocation from the GCCC Mezzanine project (GRT18FMD: 3359980/520100) to the purchase of one street sweeper (GRT18SDM: 3359980/571000).

Approve purchase 1 Elgin Sweeper.

with big reminders for staff and those using PUBLIC facilities that mask must be worn at all times. And for swimmers that means mask is last thing off and first thing on before and after swimming. Wear clothes that you can remove w/ masks. And if you refuse to wear a mask while using the changing room, then do NOT use them—go home and get changed. NO one is special
Also today an employee at Ft Marcy man with big belly and sort of FU Manchu beard came into pool area with no mask. I was told he was an employee but did not get a name.
I also have not received no information on the employees who were at Chavez center clearing snow without masks. I asked which dept is responsible for these workers so I can get someone to address it and of course, I got no response.

Comment - 02/24/2021 11:53 AM: (No Vote)
YES with reminder that masks and social distancing required at all public facilities at all times except when actually swimming. Too many swimmers think they can whip off the mask after clearing the table in the pool area at Chavez and spend minutes getting ready to get into water including socializing. TU 4 men (lanes 17,11, 7 and 3) did this. Staff with backs to pool on cell phones or guard on chair ignoring the behavior. And yes you have to wear clothes that go over your head easily enough to keep the mask on. Also changing areas have signs but I have seen women nearly every time I go to use that area without masks. There needs to a way to make people personally responsible—sign paper saying they understand mask requirement and know two or more violations will result in loss of facility privilege
The guards at Ft Marcy today were doing a good job of reminding swimmers of mask is last thing off, first thing on today but an employee (male, big belly, FuManchu type of moustache/beard came into the pool area without a mask--UNBELIEVEABLE)
And I want to know what dept is responsible for those workers clearing the snow at Chavez without masks. I have never gotten an answer.

RE: A Resolution designating the first Monday in March as "COVID-19 Memorial Day"

EXECUTIVE SUMMARY:

The proposed Resolution is based off a resolution circulated nationwide by the U.S. Conference of Mayors. More than 50 other mayors throughout the United States are currently sponsoring similar Resolutions in their cities. The proposed Resolution designates the first Monday of March as "COVID-19 Memorial Day" in remembrance and recognition of those who have died as a result of COVID-19 and those who are still suffering.

Resolution
Fiscal Impact Report

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2021-__

INTRODUCED BY:

Mayor Alan Webber

Councilor Renee Villarreal

Councilor Chris Rivera

Councilor JoAnne Vigil Coppler

A RESOLUTION

DESIGNATING THE FIRST MONDAY IN MARCH AS "COVID-19 MEMORIAL DAY" IN REMEMBRANCE OF THOSE WHO HAVE LOST THEIR LIVES AND IN HONOR OF THOSE WHO CONTINUE TO SUFFER FROM THE IMPACT OF THE VIRUS; AND URGING RESIDENTS TO CONTINUE TAKING PREVENTATIVE MEASURES TO MITIGATE THE SPREAD OF THE VIRUS.

WHEREAS, other municipalities throughout the country have designated the first Monday in March as COVID-19 Victims and Survivors Memorial Day; and

WHEREAS, COVID-19 (SARS-CoV-2) is an illness caused by a virus that can transmit from person to person that has spread across the world, creating a global pandemic that is having catastrophic effects on human life, our community, and our economy; and

WHEREAS, to mitigate the spread of COVID-19, observance of public health orders to social distance and to stay at home have created challenges for small businesses, workers, and schools, which are working to comply with limited resources; and

WHEREAS, school districts, teachers, students, and parents are grappling with the

challenges of distance learning and working to prevent any potential learning loss due to not teaching in-person; and

WHEREAS, local and state governments, health departments, and public servants have taken bold actions to protect residents, support struggling local economies, and find innovative ways to provide services; and

WHEREAS, in response to rapid spread of COVID-19 and stay-at-home orders, essential workers have stepped up to provide critical services to help protect our communities and save lives, sacrificing their own health and safety; and

WHEREAS, COVID-19 has had a disproportionate impact on low-income communities and communities of color, exacerbating inequities already prevalent in our systems that we must address as a nation; and

WHEREAS, the symptoms and severity of COVID-19 can vary dramatically by individual and the long-term health implications for survivors is largely unknown, as many survivors suffer with lingering side-effects of the disease long after they no longer test positive; and

WHEREAS, more than [number at time of adoption] people worldwide and [number at time of adoption] in the United States have lost their lives due to COVID-19, and, in the City of Santa Fe alone, more than [number at time of adoption] lives have been lost to this deadly virus; and

WHEREAS, each life lost to COVID-19 mattered and leaves a hole in the hearts of loved ones, family members, and surrounding community; and

WHEREAS, public health guidance and policies targeted at prevention, such as social distancing, wearing masks in public, and staying home help mitigate the spread of COVID-19, prevent illness, and lessen the burden on individuals and society.

NOW, THEREFORE, BE IT RESOLVED that the Governing Body hereby designates the first Monday in March as "COVID-19 Memorial Day", in remembrance of those who have lost

their lives and in honor of those who continue to suffer from the impact of this virus.

BE IT FURTHER RESOLVED that the Governing Body joins with over fifty other cities around the country that are recognizing the first Monday in March as "COVID-19 Memorial Day" in remembrance of those who have lost their lives and continue to suffer lasting effects of the virus and to commemorate them in an appropriate manner determined by the City each year.

BE IT FURTHER RESOLVED that the Governing Body urges residents to continue taking preventative measures such as social distancing and following public health orders to mitigate spread of this virus, in tribute to essential workers and those who rose in service to protect the public.

Fran Dunaway, Chief Procurement Officer
Shannon Jones, Public Utilities Director Shannon Jones (Jan 8, 2021 17:25 MST)

FROM: **Shirlene Sitton, Environmental Services Division Director** Shirlene Sitton (Jan 8, 2021 14:49 MST)

ITEM AND ISSUE:
Request for the Approval of a budget increase for the purchase of four collection vehicles, in the Total Amount of $945,329; Rush Truck Center, & Bruckner's Truck Sales via the Cooperative Education Services and Chalmers Ford via the Statewide Price Agreement; Shirlene E. Sitton, ESD Division Director, (sesitton@santafenm.gov)

BACKGROUND AND SUMMARY:
Solid Waste collection vehicles have a useful life of seven to ten years. The Environmental Services Division (ESD) has implemented a regular yearly truck replacement schedule, averaging six vehicles per year. Two small and six large sized collection trucks were included for replacement in the approved budget for FY20. However, due to the pandemic, ESD was not able to replace any collection units in FY20. We were approved funding for two large vehicles in FY21, those are addressed separately, but they will replace two of the eight vehicles from last year's budget. With this request, we are asking to increase our FY21 budget to accommodate three more of the urgently needed vehicles that had been slated for replacement last year; and for one fleet addition for residential recycling.

The requested special collection vehicle replacement services our senior and special collections routes, and is used to access tight areas which are unable to be serviced by the larger trucks. It replaces a 2012 model that was damaged in a hit and run and will be too costly to effectively repair. The container delivery truck is a replacement for a 1996 model past its useful life. The front-load vehicle replaces a 2013 Peterbilt that was involved in a truck fire caused by a "hot load," and is beyond repair.

New Vehicle	Replacement/Addition	Replacement Unit	Purchase Cost
Chalmers Ford/Statewide Price Agreement #20-00121 F550 6.7L Diesel	Replacement	Asset #54458, 2012 Dodge Ram 550 4X4	$119,954
Chalmers Ford/Statewide Price Agreement #20-00121 Container Delivery Cab & Chassis F350 6.2 L Gas	Replacement	Asset #25184, 1996 Chevrolet Cab & Chassis	$37,199
MCT Remove and Replace Container Delivery Body			$5,299.25
Autocar/Heil Front loader	Replacement	Asset #54615 2013 Peterbilt	$410,886

Additionally, ESD needs to increase our residential recycling collection fleet. Santa Fe has over 34,000 residential trash and recycling customers, each collected once per week. The residential trash section consists of nine daily routes, each route has approximately 755 houses. Trash has about a 97-100% set-out rate (everyone sets their trash out every week). So each trash driver collects over 700 homes per day. The recycling section has only 5 routes, with an average of 1,360 houses per route. This is because 50% of households set out recycling carts out on any given day when the routes were created. Therefore, the recycling routes were designed to include more homes but each driver collected from about half the homes on the route; about 680 homes per day. Set-out rates have changed dramatically during the pandemic. With more people staying at home, and with a major shift toward online shopping, we are seeing recycling set-out rates in the range of 80% or more; this means that recycling collection drivers are servicing upwards of 1,088 houses per daily route. Servicing this many stops requires the drivers to operate the trucks faster to complete the route in the time allotted. More, the trucks fill up an average of one more time per route, and they have to squeeze in an extra trip to the transfer station to empty the truck. This can lead to driver fatigue, unsafe work practices, additional wear on the equipment and more frequent spills or damages to carts.

We know we have many people that did not recycle regularly, or at all, that are now participating in residential recycling. We also see evidence of a permanent shift to working at home for many people, as well as a permanent shift in shopping trends. Therefore, ESD, and the industry in general, do not expect recycling set-out rates to fall back to pre-pandemic levels. We cannot predict what those levels will be in coming years, but we do have an urgent need to add additional recycling routes to our collections.* Each route needs a truck and driver, with a portion of a back- up truck dedicated for use when a front line truck requires servicing.

The following is the fleet addition unit ESD is Requesting:

Type of Truck	Replacement/Addition	Replacement Unit	Purchase Cost
Peterbilt/Amrep/Automated Side Loader	Addition		$371,991

*This does not account for developmental growth in single family homes, which is occurring concurrently; a route optimization study will be conducted in 2021 and we will address growth factors after that time.

PROCUREMENT METHOD:
The ESD will be utilizing a contract administered by the Cooperative Education Services (CES) with Rush Truck Center, & Bruckner's Truck Sales. The CES issued a solicitation that Rush Truck Center, & Bruckner's Truck Sales responded to thru RFP 2020-3 lB, Contract #2020-31B-C120 (All Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services) and Bruckner's Contract # Contract #2020-31B-C106.

Statewide Price Agreement via Chalmers Ford Contract # 00-00000-20-00121.
Asset #54615- a 2013- A Peterbilt which was involved in a truck fire.

Public Utilities/Public Works Committee

VIA: **Jarel LaPan Hill, City Manager**
Mary McCoy, Finance Department Director
Fran Dunaway, Chief Procurement Officer
Shannon Jones, Public Utilities Director Shannon Jones (Jan 8, 2021 17:25 MST)

FROM: **Shirlene Sitton, Environmental Services Division Director** Shirlene Sitton (Jan 8, 2021 14:49 MST)

ITEM AND ISSUE:
Request for the Approval of a budget increase for the purchase of four collection vehicles, in the Total Amount of $945,329; Rush Truck Center, & Bruckner's Truck Sales via the Cooperative Education Services and Chalmers Ford via the Statewide Price Agreement; Shirlene E. Sitton, ESD Division Director, (sesitton@santafenm.gov)

BACKGROUND AND SUMMARY:
Solid Waste collection vehicles have a useful life of seven to ten years. The Environmental Services Division (ESD) has implemented a regular yearly truck replacement schedule, averaging six vehicles per year. Two small and six large sized collection trucks were included for replacement in the approved budget for FY20. However, due to the pandemic, ESD was not able to replace any collection units in FY20. We were approved funding for two large vehicles in FY21, those are addressed separately, but they will replace two of the eight vehicles from last year's budget. With this request, we are asking to increase our FY21 budget to accommodate three more of the urgently needed vehicles that had been slated for replacement last year; and for one fleet addition for residential recycling.

The requested special collection vehicle replacement services our senior and special collections routes, and is used to access tight areas which are unable to be serviced by the larger trucks. It replaces a 2012 model that was damaged in a hit and run and will be too costly to effectively repair. The container delivery truck is a replacement for a 1996 model past its useful life. The front-load vehicle replaces a 2013 Peterbilt that was involved in a truck fire caused by a "hot load," and is beyond repair.

New Vehicle	Replacement/Addition	Replacement Unit	Purchase Cost
Chalmers Ford/Statewide Price Agreement #20-00121 F550 6.7L Diesel	Replacement	Asset #54458, 2012 Dodge Ram 550 4X4	$119,954
Chalmers Ford/Statewide Price Agreement #20-00121 Container Delivery Cab & Chassis F350 6.2 L Gas	Replacement	Asset #25184, 1996 Chevrolet Cab & Chassis	$37,199
MCT Remove and Replace Container Delivery Body			$5,299.25
Autocar/Heil Front loader	Replacement	Asset #54615 2013 Peterbilt	$410,886

Additionally, ESD needs to increase our residential recycling collection fleet. Santa Fe has over 34,000 residential trash and recycling customers, each collected once per week. The residential trash section consists of nine daily routes, each route has approximately 755 houses. Trash has about a 97-100% set-out rate (everyone sets their trash out every week). So each trash driver collects over 700 homes per day. The recycling section has only 5 routes, with an average of 1,360 houses per route. This is because 50% of households set out recycling carts out on any given day when the routes were created. Therefore, the recycling routes were designed to include more homes but each driver collected from about half the homes on the route; about 680 homes per day. Set-out rates have changed dramatically during the pandemic. With more people staying at home, and with a major shift toward online shopping, we are seeing recycling set-out rates in the range of 80% or more; this means that recycling collection drivers are servicing upwards of 1,088 houses per daily route. Servicing this many stops requires the drivers to operate the trucks faster to complete the route in the time allotted. More, the trucks fill up an average of one more time per route, and they have to squeeze in an extra trip to the transfer station to empty the truck. This can lead to driver fatigue, unsafe work practices, additional wear on the equipment and more frequent spills or damages to carts.

We know we have many people that did not recycle regularly, or at all, that are now participating in residential recycling. We also see evidence of a permanent shift to working at home for many people, as well as a permanent shift in shopping trends. Therefore, ESD, and the industry in general, do not expect recycling set-out rates to fall back to pre-pandemic levels. We cannot predict what those levels will be in coming years, but we do have an urgent need to add additional recycling routes to our collections.* Each route needs a truck and driver, with a portion of a back- up truck dedicated for use when a front line truck requires servicing.

The following is the fleet addition unit ESD is Requesting:

Type of Truck	Replacement/Addition	Replacement Unit	Purchase Cost
Peterbilt/Amrep/Automated Side Loader	Addition		$371,991

*This does not account for developmental growth in single family homes, which is occurring concurrently; a route optimization study will be conducted in 2021 and we will address growth factors after that time.

PROCUREMENT METHOD:
The ESD will be utilizing a contract administered by the Cooperative Education Services (CES) with Rush Truck Center, & Bruckner's Truck Sales. The CES issued a solicitation that Rush Truck Center, & Bruckner's Truck Sales responded to thru RFP 2020-3 IB, Contract #2020-31B-C120 (All Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services) and Bruckner's Contract # Contract #2020-31B-C106.

Statewide Price Agreement via Chalmers Ford Contract # 00-00000-20-00121.
Asset #54615- a 2013- A Peterbilt which was involved in a truck fire.

Re: ACCEPTANCE of OFFER and CONTRACT AWARD for:

CES RFP 2020-31B for CES Contract # 2020-31B-C106-ALL - Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services

Dear Procurement Partner,

Cooperative Educational Services (CES) thanks you for responding to CES RFP 2020-31B solicitation. The responses have been reviewed and it is our pleasure to inform you that your company has been selected to provide the products and services indicated in your response.

The enclosed Acceptance of Offer and Contract Award, in conjunction with the Bid documents that you submitted with your proposal, constitute the Agreement between the parties. Please retain all documents for your records. The term of this Indefinite Quantity Contract Award as defined in NMSA 13-1-63; is for four (4) years from the date of this letter, Pursuant to 13-1-150 NMSA.

It is the vendor's responsibility to keep pricing up-to-date, throughout the life of the contract.

Sincerely Yours,

Cooperative Educational Services

Albuquerque, NM87121

Re: ACCEPTANCE of OFFER and CONTRACT AWARD for:

CES RFP 2020-31B for CES Contract # 2020-31B-C120-ALL - Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services

Dear Procurement Partner,

Cooperative Educational Services (CES) thanks you for responding to CES RFP 2020-31B solicitation. The responses have been reviewed and it is our pleasure to inform you that your company has been selected to provide the products and services indicated in your response.

The enclosed Acceptance of Offer and Contract Award, in conjunction with the Bid documents that you submitted with your proposal, constitute the Agreement between the parties. Please retain all documents for your records. The term of this Indefinite Quantity Contract Award as defined in NMSA 13-1-63; is for four (4) years from the date of this letter, Pursuant to 13-1-150 NMSA.

It is the vendor's responsibility to keep pricing up-to-date, throughout the life of the contract.

Sincerely Yours,

Cooperative Educational Services

David Chavez

FORM INSTRUCTIONS: ***(Tab between cells)***

1. **HIGHLIGHTED AREAS ARE THE ONLY AREAS WHERE INFORMATION IS ENTERED.**
   If the numbers do not automatically calculate, press the F9 key to recalculate.

2. Determine the number of pay periods to be calculated, for a full year, enter 26.
   If calculating for only part of the year, enter the number of pay periods remaing in the year.

3a. Determine what the hourly rate for the position is going to be and insert it.

3b. To calculate just the increase in an hourly rate:
   a. Insert the hourly rate increase (for example: .5425).
   b. Insert 0 for Health (not affected by hourly rate).
   c. Insert 0 for Dental (not affected by hourly rate).

4. The correct hours assigned to these positions is 2080. It is already inserted above.

5. FICA: Use .062 for all positions other than Fire or Police union positions. For these, enter 0.

6. Determine what pension plan rate to apply from the list below and insert it above.

AFSCME	0.205375
NON-UNION	0.205375
POLICE	0.278000
FIRE	0.349250

If a nonunion position, choose AFSCME

7. LIFE: is calculated on annual salary

8. Health Rates base on Union.

AFSCME	$ 16,033
NON-UNION	$ 16,033
POLICE	$ 17,757
FIRE	$ 17,815

9. Dental Rates for all employees.

ALL	$ 718

10. For an FIR, determine what assumptions are to be used for the following fiscal year.
    Enter as a %. **Verify these assumptions with the Budget Office.**

ITEM AND ISSUE:
Request for the Approval of 15 Temporary Seasonal Wildland employees. bjmoya@santafenm.gov (505)955-3111.

BACKGROUND AND SUMMARY:
For several years now the state has been in a severe drought with the need to utilize our Wildland Section throughout spring and fall drought season. The Wildland Section was developed in the Fire Department approximately 10 years ago and has existed through grants. This year grants were not available, therefore we have requested available funds in the General Fund through the Human Resources Department. The Fire Department is requesting approval to hire 15 Seasonal employees. This includes 4 Wildland Sawyers and 11 Wildland Forestry Technicians. The Season normally begins in April through the fall. These employees provide outreach services to our constituents doing property fuel mitigation and assessments to advise the constituents how to prevent fires around their house.

The Wildland Section has partnered with the Santa Fe Water shed and provide assistance with property hazard assessments. They also provide Fire suppression resource for the water shed, fuel mitigation projects for the water shed and provide advice for prescribes burns within the water shed. When they have down time they get assigned to other city division to assess and clean weeds and fire hazards around city buildings.

This group also provides assistance to other neighboring cities, counties and states with wildfires. Through Wildfire Hazard Agreements they also provide support to the Forest Service, Forest Guild and National Park Service.

PROCUREMENT METHOD:
Budget Adjustment Request moving funds from Human Resources to the Fire Department budget.

CONTRACT NUMBER:
N/A

FUNDING SOURCE:
Fund Name/Number: General Fund/Fund 100
Munis Org Name/Number: Fire- Wildland/1000173
Munis Object Name/Number: Salary (temporary)/500750

ACTION REQUESTED:
Fire Department respectfully requests approval to hire seasonal employee's as described above.

City of Santa Fe, New Mexico

memo

DATE: February 15, 2021

TO: Governing Body
Finance Committee
Quality of Life Committee

FROM: Kristine Mihelcic, Community Engagement Director
Pauline Kamiyama, Arts and Culture Director

Item and Issue:
Request the approval of a Budget Adjustment Resolution (BAR) in the amount of $62,000 to fund the Consultant Team that will facilitate the Culture, History, Art, Reconciliation, and Truth (CHART) process.

Background and Summary:
On January 13, 2021, the Governing Body adopted Resolution 2021-06, Hosting Community Conversations on Santa Fe Cultures, Histories, Reconciliation, and Truth (CHART). The Resolution called for the City of Santa Fe to establish a City project team to provide sufficient organizational and logistics support for a community-centered process.

The City seeks a consultant team (Consultant) to facilitate the CHART process including but not limited to the planning, development, coordination, communication, outreach, implementation and evaluation of a community-centered processes that fosters dialogue within the City. The Consultant will have experience in cultural competency particularly with the communities of Northern New Mexico and have a community-centered practice. The Consultant will work closely with the City Project Team to implement a robust engagement process and will provide a final report with recommendations gained from community input.

The City of Santa Fe ("City") recognizes the political and cultural divisions in the United States at this time and has observed the destruction of the Soldier's Monument (the Obelisk) on the Plaza, the removal of the Don Diego de Vargas statue from Cathedral Park, and the boarding up of the Kit Carson memorial. There is an urgent call to action to discuss the City's cultural histories and current viewpoints to seek solutions for a future of peace, justice, healing, and reconciliation through a process for community engagement that encourages people to speak, to be heard, and to listen. This is the beginning of an ongoing effort to learn and understand our

complex histories and stories, and to promote truth, healing, and reconciliation for a future of peace and justice.

Procurement Method
Procurement Method: Request for Proposals (RFP)

Funding Source:
The CHART internal team is requesting a BAR for FY21. Funding will be provided from available funding in Human Resources that was allocated for retirement incentives but will not be needed for FY21.

Bar Funds To:
Munis Org Name / Number: Constituent Services/ 1002575
Munis Object Name / Number: Other Consulting/ 510340
In the amount of $62,000

Action Requested:
Arts and Culture Department and the Community Engagement Department respectfully request your review and approval for the Budget Amendment Resolution to move funds from () to fund the Culture History Art Reconciliation and History Process.

City of Santa Fe, New Mexico

memo

DATE: January 8, 2021

TO: Public Works Committee / Finance Committee / Governing Body

VIA: Regina A. Wheeler, Public Works Department Director RW

FROM: Melissa A. McDonald, RLA, Acting Parks Division Director MAM

ACTION REQUESTED: Approval of Professional Services Contract with Santa Fe Conservation Trust for the development of a Safe Routes to School Program not to exceed $293,406 funded by a Federal Transportation Alternative Program Grant. (MUNIS Contract #3202481)

BACKGROUND:
After receiving the Safe Routes to School Federal Transportation Alternatives Program Grant, the Parks Division and Santa Fe Metropolitan Planning Organization (MPO), issued RFP 21/09/P in early in 2020. The RFP resulted in several proposals being evaluated and scored. Santa Fe Conservation Trust was selected to provide the requested services. The term of the contract is three years beginning January 2021 and concluding in June 2023.

The Safe Routes to School Program (SRTS) will involve Santa Fe Public Schools, Santa Fe MPO and City of Santa Fe staff, stakeholders and the public. A Santa Fe Safe Routes to School Plan that will identify infrastructure improvements, policies and programs that support the safe multimodal passage of students, faculty and parents to and from regular and extracurricular school events will be developed in the first year, and the subsequent two years of the contract will be implementation of plan recommendations.

The plan and program will include recommendations for and development of:

- Recommendations for infrastructure improvements for safety within school properties and along public rights-of-way on routes to schools
- Walking, bicycling and public transportation incentive programs
- Training curriculum for faculty and administration to raise student awareness around safely walking, biking, using public transportation and being bussed to school
- Parent-focused safe-driving campaigns with drop-off and pick-up scenarios
- Enhancement of school zone signage and street striping delineation and practices involving crossing guards
- Pursuit of funding opportunities for infrastructure projects

The program is specifically focused on kindergarten through 8th grade facilities and with a social equity lens with particular emphasis on those schools bearing a disproportionate number of low- and moderate-income families. The project planning will benefit the greater Santa Fe community, including Santa Fe County that will be considered a key stakeholder as the program progresses.

This contract amount includes $35,000 for stipends to teachers for SRTS educational activities which will be administered by the Contractor. The total grant award of $343,406 which includes $50,000 to reimburse MPO and City for staff time spent on this program.

BUDGET:
The budget of $293,406 for this contract is a reimbursable federal grant in Org 1004150 and Object 510400. Since the contractor is a non-profit, NMGRT is not paid and therefore not included in the contract amount.

CONTRACT

CITY OF SANTA FE

PROFESSIONAL SERVICES CONTRACT

THIS AGREEMENT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and **Santa Fe Conservation Trust** hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

IT IS AGREED BETWEEN THE PARTIES:

Scope of Work.

The scope is for the development of a "sustainable Safe Routes to School Program for Kindergarten through 8th grade schools within the Santa Fe Public School District" including that of an established Program Coordinator for the duration of the grant, who shall provide oversight, leadership and general management of the program. The City of Santa Fe is fully responsible for the management of the reimbursable grant and it is expected that all work be coordinated with the City to be in full compliance with the federal grant requirements during the entirety of the grant related program.

The City is host to the Santa Fe Metropolitan Planning Organization (MPO) that includes three full time employees. The MPO plays a significant role in the development of a variety of regional transportation and transit plans that serve the metropolitan area. MPO staff will be providing planning services and technical support during two years of the program.

It is the intent of the City of Santa Fe to develop the building blocks of a sustainable SRTS program similar to the successful program developed in Las Cruces, New Mexico and in other communities in the country.

The Contractor shall perform the following work listed below and further detailed in the attached RFP 20/09/P Safe Routes to School proposal, schedule and cost estimates (revisions attached):

Scope of Services

The Contractor will provide technical support, coordination and documentation/plan formatting services in the context of the City's procurement requirements and federal, state transportation planning requirements included in the FHWA's Transportation Alternatives program, by assisting with development and integration of the following Safe Routes to School strategic goals and objectives:

Develop a sustainable Safe Routes to School program for Kindergarten through 8th grade schools within the Santa Fe Public School District that focuses on the core values of Safe Routes to School including education, encouragement, equity, engineering/design, and evaluation. The program shall include but is not limited to the following:

1. an educational component that develops and/or utilizes engaging and age appropriate materials and curricula around pedestrian & bicycle safety, health and wellness benefits from walking and bicycling, the broad range of transportation choices available in the community, driver responsibility and awareness, and other relevant information to address specific local needs as identified;
2. an encouragement component that includes school specific Walk and Bike to School maps, regular activities and events, such as Walk and Roll to school day, Walking Wednesdays, Two-wheel Tuesdays, and other events and programs as developed by the individual schools, such as a Walking School Bus and/or Bicycle Train program, to incorporate SRTS into each school's unique culture;
3. an equity component to ensure underserved and vulnerable populations are engaged and empowered, and unique barriers that underserved populations face are identified, analyzed, and addressed;
4. an engineering component to evaluate walking and biking routes to schools and make recommendations to city traffic engineers and Santa Fe School District leadership for infrastructure projects to make the streets, sidewalks and walkways safe for students and the community;
5. an evaluation component to assess, review and analyze program effectiveness, monitor outcomes, conduct parent and student survey's, and employ the assistance (via stipends) of teachers and school administrators to assist in data gathering and monitoring of transportation patterns at each school; and
6. an enforcement component that is respectful to community values and public engagement so as to coordinate and facilitate traffic safety, relationship building with local law enforcement, crossing guards, school administrators and the general public.

7. Establish a local SRTS Team/Coalition to guide the development of the Action Plan and implementation strategies identified in the local SRTS Action Plan and program as a whole.

8. Develop a Santa Fe Safe Routes to School Action Plan within the first year. The Action plan shall, at a minimum include the following:
   a) Safe Routes to School Program Overview including why the program is important and demonstrable benefits as evidenced from existing programs
   b) Existing conditions inventory of the selected schools
      i. Policies and Programs
      ii. Arrivals and Departures
      iii. Roadway infrastructure and any land use contributing factors within ½ mile of each school
      iv. Base Maps
   c) Public Engagement Initiatives (with consideration of safe COVID-19 practices)
   d) Recommendations
      i. Physical Improvements including School Improvement Maps
      ii. Operational Measures
      iii. Core Value Recommendations
   e) Action Steps – Based on recommendations specific actional objectives with associated time frames and cost estimates
   f) Resources and Recommendations: Throughout the project the team is asked to pursue any relevant and appropriate training opportunities for the program manager, local champions, and school representatives.

The selected Contractor will also:

1. Assist the City of Santa Fe and the MPO with the development of a refined scope of work that details an agreed upon strategy for the development of a Safe Routes to School Program. Please note the initial proposal and subsequent scope of work was developed pre-COVID-19 era. We recognize that substantive changes in public engagement, travel and training and other such project elements are going to require innovative, safe approaches. We look forward to working with a team to develop creative solutions and opportunities during this time.

2. Incorporate relevant existing public input data and recent public input efforts conducted by the City, Schools and MPO to inform additional public engagement efforts.
3. Incorporate any existing relevant planning initiatives that may leverage and inform SRTS planning and programing.
4. Assume additional expenditures outside of the consultant contract such as local stipends for SFPS staff and training expenditures for key stakeholders to be managed by the Safe Routes to School Coordinator or team and other items derived from the development of the Action Plan.

The plan will consider the general needs of the traveling public as well as the specific needs of particular sub- groups including, but not necessarily limited to, school bus operators and users, private motorists, transit users, businesses, students in Grades 9-12 and higher education, elderly people, and people with disabilities.

The plan will include a financial component that describes the costs, both capital and operating, of undertaking plan recommendations and will recommend implementation strategies and metrics for plan elements, including discussion of priorities, staffing levels, levels of service and timing issues.

2. Compensation.

MULTI-YEAR – A. The City shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work at the rate of $50,000 in FY21. **The total amount payable to the Contractor under this Agreement including expenses, $50,000 in FY21.**

MULTI-YEAR – B. The City shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work at the rate of $160,000 in FY22. **The total amount payable to the Contractor under this Agreement, including expenses, $160,000 in FY22.**

MULTI-YEAR – C. The City shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work at the rate of $83,006 in FY23. **The total amount payable to the Contractor under this Agreement, including expenses, $83,006 in FY23.**

The total amount payable to the Contractor under this Agreement including expenses, is not to exceed $293,006. 00.

B. Payment in FY21, FY22, and FY23 is subject to availability of funds pursuant to the Appropriations Paragraph set forth below and to any negotiations between the parties from year to year pursuant to Paragraph 1, Scope of Work, and to approval by the City. All invoices MUST BE received by the City no later than fifteen (15) days after the termination of the Fiscal Year in which the services were delivered. Invoices received after such date WILL NOT BE PAID.)

C. Contractor must submit a detailed statement accounting for all services performed and expenses incurred. If the City finds that the services are not acceptable, within thirty days after the date of receipt of written notice from the Contractor that payment is requested, it shall provide the Contractor a letter of exception explaining the defect or objection to the services, and outlining steps the Contractor may take to provide remedial action. Upon certification by the City that the services have been received and accepted, payment shall be tendered to the Contractor within thirty days after the date of acceptance. If payment is made by mail, the payment shall be deemed tendered on the date it is postmarked. However, the City shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

3. Term.

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Agreement shall terminate on **June 30th 2023** unless terminated pursuant to paragraph 4 (Termination),

or paragraph 5 (Appropriations). In accordance with Section 13-1-150 NMSA 1978, the contract term for this professional services contract, including extensions and renewals, shall not exceed four years, except as set forth in Section 13-1-150 NMSA 1978.

4. Termination.

A. Termination. This Agreement may be terminated by either of the parties hereto upon written notice delivered to the other party at least thirty (30) days prior to the intended date of termination. Except as otherwise allowed or provided under this Agreement, the City's sole liability upon such termination shall be to pay for acceptable work performed prior to the Contractor's receipt of the notice of termination, if the City is the terminating party, or the Contractor's sending of the notice of termination, if the Contractor is the terminating party; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Agreement. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. Notwithstanding the foregoing, this Agreement may be terminated immediately upon written notice to the Contractor if the Contractor becomes unable to perform the services contracted for, as determined by the City or if, during the term of this Agreement, the Contractor or any of its officers, employees or agents is indicted for fraud, embezzlement or other crime due to misuse of City funds or due to the Appropriations paragraph herein. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE City's OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS AGREEMENT.*

B Termination Management. Immediately upon receipt by either the City or the Contractor of notice of termination of this Agreement, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Agreement without written approval of the City; 2) comply with all directives issued by the City in the notice of termination as to the performance of work under this Agreement; and 3) take such action as the City shall direct for the protection, preservation, retention or transfer of all property titled to the City and records generated under this Agreement. Any non-expendable personal property or equipment provided to or purchased by the Contractor with contract funds shall become property of the City upon termination and shall be submitted to the City as soon as practicable.

5. Appropriations.

The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the City Council for the performance of this Agreement. If sufficient appropriations and authorization are not made by the City Council, this Agreement shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

6. Status of Contractor.

The Contractor and its agents and employees are independent contractors performing professional services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Agreement. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

7. Assignment.

The Contractor shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the City.

8. Subcontracting.

The Contractor shall not subcontract any portion of the services to be performed under this Agreement without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Agreement, nor shall any subcontract obligate direct payment from the City.

9. Release.

Final payment of the amounts due under this Agreement shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Agreement.

10. Confidentiality.

Any confidential information provided to or developed by the Contractor in the performance of this Agreement shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

11. Product of Service -- Copyright.

All materials developed or acquired by the Contractor under this Agreement shall become the property of the City and shall be delivered to the City no later than the termination date of this Agreement. Nothing developed or produced, in whole or in part, by the Contractor under this Agreement shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

12. Conflict of Interest; Governmental Conduct Act.

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Agreement, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Agreement.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Agreement, will continue to comply with, and that this Agreement complies with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978.

C. Contractor's representations and warranties in Paragraphs A and B of this Article 12 are material representations of fact upon which the City relied when this Agreement was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Agreement to the contrary, the City may immediately terminate the Agreement.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

13. Amendment.

A. This Agreement shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Agreement to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed

Amendment, have the option to terminate the Agreement, pursuant to the termination provisions as set forth in Article 4 herein, or to agree to the reduced funding.

14. Merger.

This Agreement incorporates all the Agreements, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, Agreements and understandings have been merged into this written Agreement. No prior Agreement or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Agreement.

15. Penalties for violation of law.

The Procurement Code, Sections 13-1-28 through 13-1-199, NMSA 1978, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities and kickbacks.

16. Equal Opportunity Compliance.

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If Contractor is found not to be in compliance with these requirements during the life of this Agreement, Contractor agrees to take appropriate steps to correct these deficiencies.

17. Applicable Law.

The laws of the State of New Mexico shall govern this Agreement, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with Section 38-3-1 (G) NMSA 1978. By execution of this Agreement, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

18. Workers Compensation.

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the City.

19. Professional Liability Insurance. Contractor shall maintain professional liability insurance throughout the term of this Agreement providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Agreement.

20. Other Insurance

If the services contemplated under this Agreement will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Agreement, the following insurance coverage(s), naming the City as additional insured.

A. Commercial General Liability insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. Business Automobile Liability insurance for all owned, non-owned automobiles, with a combined single limit not less than $1,000,000 per accident.

C. Broader Coverage and Limits. The insurance requirements under this Agreement shall be the greater of (1) the minimum coverage and limits specified in this Agreement, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Agreement are sufficient to cover the obligations of Contractor hereunder.

Contractor shall maintain the above insurance for the term of this Agreement and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

21. Records and Financial Audit.

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Agreement's term and effect and retain them for a period of three (3) years from the date of final payment under this Agreement. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose the right of the City to recover excessive or illegal payments

22. Indemnification.

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Agreement, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Agreement. In the event that any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Agreement is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

23. New Mexico Tort Claims Act

Any liability incurred by the City of Santa Fe in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

24. Invalid Term or Condition.

If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

25. Enforcement of Agreement.

A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver

26. Notices.

Any notice required to be given to either party by this Agreement shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the City:
Erick Aune
Santa Fe MPO Officer
PO Box 909
Santa Fe, NM 87504

To the Contractor:
Sarah Noss, Executive Director
Santa Fe Conservation Trust
PO Box 23985
Santa Fe NM 87502

27. Authority.

If Contractor is other than a natural person, the individual(s) signing this Agreement on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter into a binding contract.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date of the signature by the required approval authorities below.

I. INTRODUCTION

A. PURPOSE OF THIS REQUEST FOR PROPOSALS

The purpose of the Request for Proposal (RFP) is to solicit sealed proposals to establish a contract through competitive negotiations for the procurement of the development of a Safe Routes to School (SRTS) Program, specifically a consultant team and program coordinator via the Parks and Recreation Department in coordination with Santa Fe Public Schools and the Santa Fe Metropolitan Planning Organization

B. BACKGROUND INFORMATION

The City of Santa Fe's Parks and Recreation Department was awarded a generous Federal Highway Administration (FHWA) Transportation Alternative Program (TAP) grant in 2019. The TAP or TA Set-Aside is a reimbursable federal aid funding program for transportation-related community projects designed to strengthen the intermodal transportation system. The program aims to expand travel choice, strengthen the local economy, improve the quality of life, and protect the environment by supporting non-traditional projects linked to the transportation system. It is the mission of the Parks and Recreation Department to promote enhanced quality of life to its diverse community through sustainable opportunities by offering safe, healthy and accessible resources to parks, facilities and recreational services.

The application was developed in partnership with Santa Fe Public Schools, the Santa Fe Metropolitan Planning Organization and with collaborative support from Bike Santa Fe, a local non-profit supporting all facets of bicycling in Santa Fe. The Santa Fe Public Schools encompasses 18 elementary/community schools and 4 middle schools. Santa Fe Public Schools enjoy a "Green – Sustainability" Operations Department that includes a Sustainability Program Coordinator and Sustainability Program Specialist and is committed to supporting this program.

A formal grant agreement (attached herein) between the New Mexico Department of Transportation (NMDOT) and the City of Santa Fe (the City) was fully executed on April 24th, 2020 with City Council approval on March 3, 2020. On June 25th, 2020 the City received the "Notice to Proceed" letter from the NMDOT which authorizes the City to seek reimbursement from the NMDOT for the program which terminates on November 29, 2022. The total amount of the grant is $343,406 which includes a local cash match of $50,000. The City anticipates the project to commence on October 1st, 2020 and conclude no later than November 29, 2022.

The City invites you to respond to this "Request for Proposals" to hire a consulting team and program coordinator for the development of a "sustainable Safe Routes to School Program for Kindergarten through 8th grade schools within the Santa Fe Public School District" including an established Program Coordinator for the duration of the grant, who shall provide oversite, leadership and general management of the program. The City is fully responsible for the management of the reimbursable grant and it is expected that all work be coordinated with the City to be in full compliance with the federal grant requirements during the entirety of the grant related program. The City is host to the Santa Fe Metropolitan Planning Organization (MPO) that includes three full time employees. The MPO plays a significant role in the development of a variety of regional transportation and transit plans that serve the metropolitan area. MPO staff will be providing planning services and technical support during two years of the program. The MPO will work in coordination with the selected consultant team and Program Coordinator. It is anticipated that the MPO will commit a total of 1050 hours (Approximately $50,400) from Oct. 1st 2020, to September 20th, 2022 to assist with the development of a successful program. We encourage proposers to include these hours within the proposal and plan on coordinatingwith MPO staff regarding the services they shall be providing. It is the intent of the City to develop

the building blocks of a sustainable SRTS program similar to the successful program developed in Las Cruces, New Mexico and in other communities in the country.

C. SCOPE OF PROCUREMENT

The scope of procurement will be conducted over approximately 2 and ½ years technical support, coordination and documentation/plan formatting services and federal, state transportation planning requirements included in the FHWA's Transportation Alternatives program, by assisting with development and integration of Safe Routes to School strategic goals and objectives as outlined in Section IV. A.

The resulting contract will be a single award.

This procurement will result in a contractual agreement between two parties; the procurement may ONLY be used by those two parties exclusively.

D. PROCUREMENT MANAGER

The Parks and Recreation Department has assigned a Procurement Manager who is responsible for the conduct of this procurement whose name, address, telephone number and e-mail address are listed below:

Name: Jennifer Romero, Procurement Manager
Telephone: (505) 955-4465
Email: jcromero@santafenm.gov

1. **Any inquiries or requests** regarding this procurement should be submitted, in writing, to the Procurement Manager. Offerors may contact **ONLY** the Procurement Manager regarding this procurement. Other city employees or Evaluation Committee members do not have the authority to respond on behalf of the Procurement Manager.

2. **Protests of the solicitation or award must be submitted in writing to the Protest Manager identified in Section II.B.13.** As a Protest Manager has been named in this Request for Proposals, pursuant to §13-1-172, NMSA 1978 and Procurement Manual Section Y, **ONLY protests delivered directly to the Protest Manager in writing and in a timely fashion will be considered to have been submitted properly and in accordance with statute, rule and this Request for Proposals.** Protests submitted or delivered to the Procurement Manager will **NOT** be considered properly submitted.

E. PROPOSAL SUBMISSION

Submissions of all proposals must be accomplished via email to: purchasing@santafenm.gov.

F. DEFINITION OF TERMINOLOGY

This section contains definitions of terms used throughout this procurement document, including appropriate abbreviations:

1. "**Authorized Purchaser**" means an individual authorized by a Participating Entity to place orders against this contract.

2. "**Award**" means the final execution of the contract document.

3. "**Business Hours**" means 8:00 AM thru 5:00 PM MST/MDT, whichever is in effect on the date given.

4. **"Central Purchasing Office"** means the office responsible for the control of procurement of items of tangible personable property, services or construction.

5. "**Chief Procurement Officer**" means that person within the Central Purchasing Office who is responsible for the control of procurement of items of tangible personable property, services or construction.

6. "**City**" means the City of Santa Fe, New Mexico which in the procurement context may act through the Finance Director, City Manager, or Governing Body.

7. "**Close of Business**" means 5:00 PM Mountain Standard or Daylight Time, whichever is in use at that time.

8. "**Confidential**" means confidential financial information concerning Offeror's organization and data that qualifies as a trade secret in accordance with the Uniform Trade Secrets Act §§57-3-A-1 through 57-3A-7, NMSA 1978,. The following items may **not** be labelled as confidential: Offeror's submitted Cost response, Staff/Personnel Resumes/Bios (excluding personal information such as personal telephone numbers and/or home addresses), and other submitted data that is **not** confidential financial information or that qualifies under the Uniform Trade Secrets Act.

9. "**Contract**" means any agreement for the procurement of items of tangible personal property, services or construction.

10. "**Contractor**" means any business having a contract with the City of Santa Fe.

11. **"Department**" means the Requesting Department sponsoring this Procurement.

12. "**Determination**" means the written documentation of a decision of a procurement officer including findings of fact required to support a decision. A determination becomes part of the procurement file to which it pertains.

13. "**Desirable**" – the terms "may," "can," "should," "preferably," or "prefers" identify a desirable or discretionary item or factor.

14. "**Electronic Submission**" means a successful submittal of Offeror's proposal.

15. "**Electronic Version/Copy**" means a digital form consisting of text, images or both readable on computers or other electronic devices that includes all content that the Original and Hard Copy proposals contain. The digital form may be submitted using a compact disc (CD) or USB flash drive. The electronic version/copy can only be emailed.

16. "**Evaluation Committee**" means a body appointed to perform the evaluation of Offerors' proposals.

17. "**Evaluation Committee Report**" means a report prepared by the Procurement Manager and the Evaluation Committee to support the Committee's recommendation for contract award. It will contain scores and written evaluations of all responsive Offeror proposals.

18. "**Final Award**" means, in the context of this Request for Proposals and all its attendant documents, that point at which the final required signature on the contract(s) resulting from the procurement has been affixed to the contract(s) thus making it fully executed.

19. "**Finalist**" means an Offeror who meets all the mandatory specifications of this Request for Proposals and whose score on evaluation factors is sufficiently high to merit further consideration by the Evaluation Committee.

20. "**Hourly Rate**" means the proposed fully loaded maximum hourly rates that include travel, per diem, fringe benefits and any overhead costs for contractor personnel, as well as subcontractor personnel if appropriate.

21. "**IT**" means Information Technology.

22. "**Mandatory**" **–** the terms "must," "shall" "will," "is required," or "are required," identify a mandatory item or factor. Failure to meet a mandatory item or factor may result in the rejection of the Offeror's proposal.

23. "**Minor Irregularities**" means anything in the proposal that does not affect the price, quality and/or quantity, or any other mandatory requirement.

24. "**Multiple Source Award**" means an award of an indefinite quantity contract for one or more similar services, items of tangible personal property or construction to more than one Offeror.

25. "**Offeror**" is any person, corporation, or partnership who chooses to submit a proposal.

26. "**Price Agreement**" means a definite quantity contract or indefinite quantity contract which requires the contractor to furnish items of tangible personal property, services or construction to the City of Santa Fe, a state agency or a local public body which issues a purchase order, if the purchase order is within the quantity limitations of the contract, if any.

27. "**Procurement Manager**" means any person or designee authorized by the Requesting Department to facilitate the procurement and or administer the contract(s)s .

28. "**Project**" means a temporary process undertaken to solve a well-defined goal or objective with clearly defined start and end times, a set of clearly defined tasks, and a budget. The project terminates once the project scope is achieved and project acceptance is given by the project executive sponsor.

29. "**Redacted**" means a version/copy of the Offeror's proposal with the information considered proprietary or confidential (as defined by §§57-3A-1 to 57-3A-7, NMSA 1978 and summarized herein and outlined in Section II.C.8 of this RFP) blacked-out <u>BUT NOT</u> omitted or removed.

30. "**Request for Proposals (RFP)**" means all documents, including those attached or incorporated by reference, used for soliciting proposals.

31. **"Requesting Department"** means the City Department responsible for overseeing the work or delivery of tangible personal property by a contractor.

32. "**Responsible Offeror**" means an Offeror who submits a responsive proposal and who has furnished, when required, information and data to prove that his financial resources, production or service

facilities, personnel, service reputation and experience are adequate to make satisfactory delivery of the services, or items of tangible personal property described in the proposal.

33. "**Responsive Offer**" or means an offer which conforms in all material respects to the requirements set forth in the request for proposals. Material respects of a request for proposals include, but are not limited to price, quality, quantity or delivery requirements.

34. "**Sealed**" means, in terms of a non-electronic submission, that the proposal is enclosed in a package which is completely fastened in such a way that nothing can be added or removed. Open packages submitted will not be accepted except for packages that may have been damaged by the delivery service itself. The City of Santa Fe reserves the right, however, to accept or reject packages where there may have been damage done by the delivery service itself. Whether a package has been damaged by the delivery service or left unfastened and should or should not be accepted is a determination to be made by the City's Chief Procurement Officer. By submitting a proposal, the Offeror agrees to and concurs with this process and accepts the determination of the Chief Procurement Officer in such cases.

35. "**Staff**" means any individual who is a full-time, part-time, or an independently contracted employee with the Offerors' company.

36. "**State (the State)**" means the State of New Mexico.

37. "**Statement of Concurrence**" means an affirmative statement from the Offeror to the required specification agreeing to comply and concur with the stated requirement(s). This statement shall be included in Offerors proposal. (E.g. "We concur," "Understands and Complies," "Comply," "Will Comply if Applicable," etc.)

38. "**Unredacted**" means a version/copy of the proposal containing all complete information; including any that the Offeror would otherwise consider confidential, such copy for use only for the purposes of evaluation.

39. "**Written**" means typewritten on standard 8 ½ x 11 inch paper. Larger paper is permissible for charts, spreadsheets, etc.

G. PROCUREMENT LIBRARY

A procurement library has been established. Offerors are encouraged to review the material contained in the Procurement Library by selecting the link provided in the electronic version of this document through your own internet connection. The library contains information listed below:

Electronic version of RFP, Questions & Answers, RFP Amendments, etc.
https://www.santafenm.gov/bids_rfps

II. CONDITIONS GOVERNING THE PROCUREMENT

This section of the RFP contains the schedule of events, the descriptions of each event, and the conditions governing this procurement.

A. SEQUENCE OF EVENTS

The City's Central Purchasing Office and the Procurement Manager will make every effort to adhere to the following schedule:

Action	Responsible Party	Due Dates
1. Issue RFP	Central Purchasing Office	9/08/20
2. Acknowledgement of Receipt Form	Potential Offerors	9/18/20
3. Pre-Proposal Conference	Requesting Department	9/18/20
4. Deadline to submit Written Questions	Potential Offerors	9/20/20
5. Response to Written Questions	Procurement Manager	9/22/20
6. Submission of Proposal	***Potential Offerors***	***10/05/20***
7.* Proposal Evaluation	Evaluation Committee	10/06/20 to 10/09/20
8.* Selection of Finalists	Evaluation Committee	10/09/20
9.* Best and Final Offers	Finalist Offerors	10/12/20
10 * Oral Presentation(s)	Finalist Offerors	10/15/20
11.* Finalize Contractual Agreements	Requesting Department/Finalist Offerors	10/15/20 to 10/19/20
12.* Contract Awards	Requesting Department/ Finalist Offerors	10/20/20
13.* Protest Deadline	Central Purchasing Office	11/15/20

*Dates indicated in Events 7 through 13 are estimates only, and may be subject to change without necessitating an amendment to the RFP.

B. EXPLANATION OF EVENTS

The following paragraphs describe the activities listed in the Sequence of Events shown in Section II.A., above.

1. Issue RFP

This RFP is being issued on behalf of The City Parks and Recreation Department on August 28, 2020.

2. Acknowledgement of Receipt Form

Potential Offerors may e-mail the Acknowledgement of Receipt Form (APPENDIX A), to the Central Purchasing Office at Purchasing@santafenm.gov , to have their organization placed on the procurement Distribution List. The form must be returned to the Central Purchasing Office by 3:00 pm MST/ MDT on September 18, 2020.

The procurement distribution list will be used for the distribution of written responses to questions, and/or any amendments to the RFP. Failure to return the Acknowledgement of Receipt Form does not prohibit potential Offerors from submitting a response to this RFP. However, by not returning the Acknowledgement of Receipt Form, the potential Offeror's representative shall not be included on the distribution list, and will be solely responsible for obtaining from the Procurement Library (Section I.G.) responses to written questions and any amendments to the RFP.

3. Pre-Proposal Conference

A pre-proposal conference will be held as indicated in Section II.A, Sequence of Events, beginning at 10 AM MST/MDT.

Join Zoom Meeting

https://us02web.zoom.us/j/89680707226?pwd=bG1ocUZibW43dVR4UlBITGZpMG53Zz09

Meeting ID: 896 8070 7226

Passcode: 976207

One tap mobile

+16699006833,,89680707226# US (San Jose)

+12532158782,,89680707226# US (Tacoma)

Potential Offeror(s) are encouraged to submit written questions in advance of the conference to the Central Purchasing Office and the Procurement Manager (see Section I.D). The identity of the organization submitting the question(s) will not be revealed. Additional written questions may be submitted at the conference. All questions answered during the Pre-Proposal Conference will be considered **unofficial** until they are posted in writing. All written questions will be addressed in writing on the date listed in Section II.A, Sequence of Events. A public log will be kept of the names of potential Offeror(s) that attended the pre-proposal conference.

Attendance at the pre-proposal conference is highly recommended, but not a prerequisite for submission of a proposal.

4. Deadline to Submit Written Questions

Potential Offerors may submit written questions to the Central Purchasing Office and the Procurement Manager as to the intent or clarity of this RFP until 5:00PM MST/MDT as indicated in Section II.A, Sequence of Events. All written questions must be addressed to the Central Purchasing Office and the Procurement Manager as declared in Section I.D. Questions shall be clearly labeled and shall cite the Section(s) in the RFP or other document which form the basis of the question.

5. Response to Written Questions

Written responses to the written questions will be provided via e-mail, on or before the date indicated in Section II.A, Sequence of Events, to all potential Offerors who timely submitted an Acknowledgement of Receipt Form (Section II.B.2 and APPENDIX A).

An electronic version of the Questions and Answers will be posted to:
https://www.santafenm.gov/bids_rfps

6. Submission of Proposal

At this time, only **electronic** proposal submission is allowed. **Do not** submit hard copies until further notice.

ALL OFFEROR PROPOSALS MUST BE RECEIVED FOR REVIEW AND EVALUATION BY THE CENTRAL PURCHASING OFFICE VIA EMAIL AT Purchasing@santafenm.gov NO LATER THAN **3:00 PM** MST/MDT ON OCTOBER 5TH, 2020. **PROPOSALS RECEIVED AFTER THIS DEADLINE WILL NOT BE ACCEPTED.** The date and time of receipt will be recorded on each proposal.

Proposals must be submitted electronically through email until further notice. Refer to Section III.B.1 for instructions. Proposals submitted by facsimile will not be accepted.

A log will be kept of the names of all Offeror organizations that submitted proposals. Pursuant to §13-1-116, NMSA 1978, the contents of proposals shall not be disclosed to competing potential Offerors during the negotiation process. The negotiation process is deemed to be in effect until the contract is awarded pursuant to this Request for Proposals. Awarded in this context means the final required City of Santa Fe signatures on the contract(s) resulting from the procurement has been obtained.

7. Proposal Evaluation

An Evaluation Committee will perform the evaluation of proposals. This process will take place as indicated in Section II.A, Sequence of Events, depending upon the number of proposals received. During this time, the Central Purchasing Office or/and the Procurement Manager may initiate discussions with Offerors who submit responsive or potentially responsive proposals for the purpose of clarifying aspects of the proposals. However, proposals may be accepted and evaluated without such discussion. Discussions SHALL NOT be initiated by the Offerors.

8. Selection of Finalists

The Evaluation Committee will select and the Procurement Manager will notify the finalist Offerors as per schedule Section II.A, Sequence of Events or as soon as possible thereafter. Finalists will be comprised of the three (3) Offerors receiving the highest cumulative scores in the following Sections: Section IV.B.1 Organizational Experience, Section IV.B.3 Mandatory Specification, Section IV. B.3 Desirable Specifications, Section IV.C3 Letter of Transmittal, Section IVC.4. Campaign Contribution Disclosure Form and Section IV.C.6 Cost.

9. Oral Presentations

Oral presentations will not be held.

10. Finalize Contractual Agreements

After approval of the Evaluation Committee Report, any contractual agreement(s) resulting from this RFP will be finalized with the most advantageous Offeror(s), taking into consideration the evaluation factors set forth in this RFP, as per Section II.A., Sequence of Events, or as soon as possible

thereafter. The most advantageous proposal may or may not have received the most points. In the event mutually agreeable terms cannot be reached with the apparent most advantageous Offeror in the timeframe specified, the City of Santa Fe reserves the right to finalize a contractual agreement with the next most advantageous Offeror(s) without undertaking a new procurement process.

11. Contract Awards

Upon receipt of the signed contractual agreement, the Department will award as per Section II.A., Sequence of Events, or as soon as possible thereafter. The award is subject to appropriate Department and Governing Body approval.

12. Protest Deadline

Any protest by an Offeror must be timely submitted and in conformance with §13-1-172, NMSA 1978 and applicable procurement regulations. As a Protest Manager has been named in this Request for Proposals, pursuant to §13-1-172, NMSA 1978 and Procurement Manual Section Y, ONLY protests delivered directly to the Protest Manager in writing and in a timely fashion will be considered to have been submitted properly and in accordance with statute, rule and this Request for Proposals. The 15 calendar day protest period shall begin on the day following the notice of award of contract(s) and will end at 5:00 pm MST/MDT on the 15th day. Protests must be written and must include the name and address of the protestor and the request for proposal number. It must also contain a statement of the grounds for protest including appropriate supporting exhibits and it must specify the ruling requested from the party listed below. The protest must be delivered to:

Fran Dunaway
Chief Procurement Officer
City of Santa Fe
fadunaway@santafenm.gov

PROTESTS RECEIVED AFTER THE DEADLINE WILL NOT BE ACCEPTED.

C. GENERAL REQUIREMENTS

1. Acceptance of Conditions Governing the Procurement

Potential Offerors must indicate their acceptance of these Conditions Governing the Procurement, Section II.C, by completing and signing the Letter of Transmittal form, pursuant to the requirements in Section II.C.30, located in APPENDIX E.

2. Incurring Cost

Any cost incurred by the potential Offeror in preparation, transmittal, and/or presentation of any proposal or material submitted in response to this RFP shall be borne solely by the Offeror. Any cost incurred by the Offeror for set up and demonstration of the proposed equipment and/or system shall be borne solely by the Offeror.

3. Prime Contractor Responsibility

Any contractual agreement that may result from this RFP shall specify that the prime contractor is solely responsible for fulfillment of all requirements of the contractual agreement with the Department which may derive from this RFP. The Department entering into a contractual agreement with a vendor will make payments to only the prime contractor.

4. Subcontractors/Consent

The use of subcontractors is allowed. The prime contractor shall be wholly responsible for the entire performance of the contractual agreement whether or not subcontractors are used. Additionally, the prime contractor must receive approval, in writing, from The Department awarding any resultant contract, before any subcontractor is used during the term of this agreement.

5. Amended Proposals

An Offeror may submit an amended proposal before the deadline for receipt of proposals. Such amended proposals must be complete replacements for a previously submitted proposal and must be clearly identified as such in the transmittal letter. **The Department or the Central Purchasing Office personnel will not merge, collate, or assemble proposal materials.**

6. Offeror's Rights to Withdraw Proposal

Offerors will be allowed to withdraw their proposals at any time prior to the deadline for receipt of proposals. The Offeror must submit a written withdrawal request addressed to the Central Purchasing Office and the Procurement Manager and signed by the Offeror's duly authorized representative.

The approval or denial of withdrawal requests received after the deadline for receipt of the proposals is governed by the applicable procurement regulations.

7. Proposal Offer Firm

Responses to this RFP, including proposal prices for services, will be considered firm for one-hundred eighty (180) days after the due date for receipt of proposals or ninety (90) days after the due date for the receipt of a best and final offer, if the Offeror is invited or required to submit one.

8. Disclosure of Proposal Contents

The contents of all submitted proposals will be kept confidential until the final award has been completed by The City. At that time, all proposals and documents pertaining to the proposals will be available for public inspection, *except* for proprietary or confidential material as follows:

a. ***Proprietary and Confidential information is restricted to***:
    1. confidential financial information concerning the Offeror's organization; and
    2. information that qualifies as a trade secret in accordance with the Uniform Trade Secrets Act, §§57-3A-1 through 57-3A-7.

b. An additional but separate redacted version of Offeror's proposal, as outlined and identified in Sections III.B.1.a.i and III.B.2.a.i, shall be submitted containing the blacked-out proprietary or confidential information, in order to facilitate eventual public inspection of the non-confidential version of Offeror's proposal.

IMPORTANT: The price of products offered or the cost of services proposed **SHALL NOT** be designated as proprietary or confidential information.

If a request is received for disclosure of proprietary or confidential materials, the City Attorney and the Chief Procurement Officer shall examine the request and make a written determination that specifies which portions of the proposal should be disclosed. Unless the Offeror takes legal action to prevent the disclosure, the proposal will be so disclosed. The proposal shall be open to public inspection subject to any continuing prohibition on the disclosure of proprietary or confidential information.

9. No Obligation

This RFP in no manner obligates The City or any of its Departments to the use of any Offeror's services until a valid written contract is awarded and approved by appropriate authorities.

10. Termination

This RFP may be canceled at any time and any and all proposals may be rejected in whole or in part when the Department determines such action to be in the best interest of the City of Santa Fe.

11. Sufficient Appropriation

Any contract awarded as a result of this RFP process may be terminated if sufficient appropriations or authorizations do not exist. Such terminations will be affected by sending written notice to the contractor. The Department's decision as to whether sufficient appropriations and authorizations are available will be accepted by the contractor as final.

12. Legal Review

The Department requires that all Offerors agree to be bound by the General Requirements contained in this RFP. Any Offeror's concerns must be promptly submitted in writing to the attention of the Central Purchasing Office and the Procurement Manager.

13. Governing Law

This RFP and any agreement with an Offeror which may result from this procurement shall be governed by the laws of the State of New Mexico.

14. Basis for Proposal

Only information supplied in writing by the Central Purchasing Office and the Procurement Manager or contained in this RFP shall be used as the basis for the preparation of Offeror proposals.

15. Contract Terms and Conditions

The contract between the Department and a contractor will follow the format specified by The City and contain the terms and conditions set forth in the Draft Contract Appendix C. However, the contracting Department reserves the right to negotiate provisions in addition to those contained in this RFP Draft Contract with any Offeror. The contents of this RFP, as revised and/or supplemented,

and the successful Offeror's proposal will be incorporated into and become part of any resultant contract.

The City discourages exceptions from the contract terms and conditions as set forth in the RFP Draft Contract. Such exceptions may cause a proposal to be rejected as nonresponsive when, in the sole judgment of The City (and its evaluation team), the proposal appears to be conditioned on the exception, or correction of what is deemed to be a deficiency, or an unacceptable exception is proposed which would require a substantial proposal rewrite to correct.

Should an Offeror object to any of the terms and conditions as set forth in the RFP Draft Contract (APPENDIX C) strongly enough to propose alternate terms and conditions in spite of the above, the Offeror must propose **specific** alternative language. The City may or may not accept the alternative language. General references to the Offeror's terms and conditions or attempts at complete substitutions of the Draft Contract are not acceptable to The City and will result in disqualification of the Offeror's proposal.

Offerors must provide a brief discussion of the purpose and impact, if any, of each proposed change followed by the specific proposed alternate wording.

If an Offeror fails to propose any alternate terms and conditions during the procurement process (the RFP process prior to selection as successful Offeror), no proposed alternate terms and conditions will be considered later during the negotiation process. Failure to propose alternate terms and conditions during the procurement process (the RFP process prior to selection as successful Offeror) is an **explicit agreement** by the Offeror that the contractual terms and conditions contained herein are **accepted** by the Offeror.

16. Offeror's Terms and Conditions

Offerors must submit with the proposal a complete set of any additional terms and conditions they expect to have included in a contract negotiated with The City. See Section II.C.15 for requirements.

17. Contract Deviations

Any additional terms and conditions, which may be the subject of negotiation (such terms and conditions having been proposed during the procurement process, that is, the RFP process prior to selection as successful Offeror), will be discussed only between The City and the Offeror selected and shall not be deemed an opportunity to amend the Offeror's proposal.

18. Offeror Qualifications

The Evaluation Committee may make such investigations as necessary to determine the ability of the potential Offeror to adhere to the requirements specified within this RFP. The Evaluation Committee will reject the proposal of any potential Offeror who is not a Responsible Offeror or fails to submit a Responsive Offer as defined in §13-1-83 and §13-1-85, NMSA 1978.

19. Right to Waive Minor Irregularities

The Evaluation Committee, upon approval from the Chief Procurement Officer, reserves the right to waive minor irregularities, as defined in Section I.F.23. The Evaluation Committee also reserves the right to waive mandatory requirements, provided that **all** of the otherwise responsive proposals failed

to meet the same mandatory requirements and the failure to do so does not otherwise materially affect the procurement. This right is at the sole discretion of the Evaluation Committee.

20. Change in Contractor Representatives

The City reserves the right to require a change in contractor representatives if the assigned representative(s) is (are) not, in the opinion of The City, adequately meeting the needs of The City.

21. Notice of Penalties

The Procurement Code, §§13-1-28 through 13-1-199, NMSA 1978, imposes civil, and misdemeanor and felony criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

22. Department Rights

The Department in agreement with the Evaluation Committee reserves the right to accept all or a portion of a potential Offeror's proposal.

23. Right to Publish

Throughout the duration of this procurement process and contract term, Offerors and contractors must secure from The City written approval prior to the release of any information that pertains to the potential work or activities covered by this procurement and/or City contracts deriving from this procurement. Failure to adhere to this requirement may result in disqualification of the Offeror's proposal or removal from the contract.

24. Ownership of Proposals

All documents submitted in response to the RFP shall become property of The City. If the RFP is cancelled, all responses received shall be destroyed by the Central Purchasing Office unless the Offeror either picks up, or arranges for pick-up, the materials within three (3) business days of notification of the cancellation. Offeror is responsible for all costs involved in return mailing/shipping of proposals.

25. Confidentiality

Any confidential information provided to, or developed by, the contractor in the performance of the contract resulting from this RFP shall be kept confidential and shall not be made available to any individual or organization by the contractor without the prior written approval of The City.

The Contractor(s) agrees to protect the confidentiality of all confidential information and not to publish or disclose such information to any third party without The City's written permission.

26. Electronic mail address required

A large part of the communication regarding this procurement will be conducted by electronic mail (e-mail). Offeror must have a valid e-mail address to receive this correspondence. (See also Section II.B.5, Response to Written Questions).

27. Use of Electronic Versions of this RFP

This RFP is being made available by electronic means. In the event of conflict between a version of the RFP in the Offeror's possession and the version maintained by the Central Purchasing Office, the Offeror acknowledges that the version maintained by the Central Purchasing Office shall govern. Please refer to: https://www.santafenm.gov/bids_rfps

28. Campaign Contribution Disclosure Form

Offeror must complete, sign, and return the Campaign Contribution Disclosure Form, APPENDIX B, as a part of their proposal. This requirement applies regardless whether a covered contribution was made or not made for the positions of Governor and Lieutenant Governor, City Officials or other identified official. **Failure to complete and return the signed, unaltered form will result in Offeror's disqualification.**

29. Letter of Transmittal

Offeror's proposal must be accompanied by an **unaltered** Letter of Transmittal Form (APPENDIX E), which must be **completed** and **signed** by the individual authorized to contractually obligate the company, identified in #2 below. **DO NOT LEAVE ANY OF THE ITEMS ON THE FORM BLANK** (N/A, None, Does not apply, etc. are acceptable responses).

The Letter of Transmittal MUST:

1. Identify the submitting business entity (its Name, Mailing Address and Phone Number);
2. Identify the Name, Title, Telephone, and E-mail address of the person authorized by the Offeror's organization to (A) contractually obligate the business entity providing the Offer, (B) negotiate a contract on behalf of the organization; and/or (C) provide clarifications or answer questions regarding the Offeror's proposal content *(A response to B and/or C is only required if the responses differs from the individual identified in A)*;
3. Identify sub-contractors, if any, anticipated to be utilized in the performance of any resultant contract award;
4. Describe any relationship with any other entity (such as City, County, State Agency, reseller, etc., that is not a sub-contractor identified in #3), if any, which will be used in the performance of this awarded contract; and
5. Be signed and dated by the person identified in #2 above; attesting to the veracity of the information provided, and acknowledging (a) the organization's acceptance of the Conditions Governing the Procurement stated in Section II.C.1, (b) the organizations acceptance of the Section V Evaluation Factors, and (c) receipt of any and all amendments to the RFP.

Failure to respond to ALL items as indicated above, will result in Offeror's disqualification.

30. Disclosure Regarding Responsibility

A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty

thousand dollars ($60,000.00) with any state agency or local public body for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company:

1. is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body;

2. has within a three-year period preceding this offer, been convicted in a criminal matter or had a civil judgment rendered against them for:
   a. the commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) contract or subcontract;
   b. violation of Federal or state antitrust statutes related to the submission of offers; or
   c. the commission in any federal or state jurisdiction of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violation of Federal criminal tax law, or receiving stolen property;

3. is presently indicted for, or otherwise criminally or civilly charged by any (federal state or local) government entity with the commission of any of the offenses enumerated in paragraph A of this disclosure;
4. has, preceding this offer, been notified of any delinquent Federal or state taxes in an amount that exceeds $3,000.00 of which the liability remains unsatisfied. Taxes are considered delinquent if the following criteria apply.

a. The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge of the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
b. The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.
c. Have within a three-year period preceding this offer, had one or more contracts terminated for default by any federal or state agency or local public body.)

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the Chief Procurement Officer or other party to this Agreement if, at any time during the term of this Agreement, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Agreement. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Agreement. Failure of the Contractor to furnish a disclosure or provide additional information as requested will render the Offeror nonresponsive.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts during the term of this Agreement. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the Chief Procurement Officer or other party to this Agreement. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the Chief Procurement Officer may terminate the involved contract for cause. Still further the Chief Procurement Officer may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the Chief Procurement Officer

31. Local Preferences

The Local Preferences shall not apply because the expenditures for this RFP includes federal funds.

III. RESPONSE FORMAT AND ORGANIZATION

A. NUMBER OF RESPONSES

Offerors shall submit only one proposal in response to this RFP. *NUMBER OF COPIES*

1. ELECTRONIC SUBMISSION ONLY Responses

Proposals in response to this RFP must be submitted through City of Santa Fe's Purchasing email ONLY, the Offeror need only submit one single electronic copy of each portion of its proposal (Technical and Cost) as outlined below. *EXCEPTION: Single electronic files that exceed 50mb may be submitted as multiple uploads, which must be the least number of uploads necessary to fall under the 50mb limit.* Separate the proposals as described below into separate electronic files for submission.

Proposals must be submitted in the manner outlined below. Technical and Cost portions of Offerors proposal **must** be submitted in separate uploads as indicated below in this section, and **must** be prominently identified as "Technical Proposal," or "Cost Proposal," on the front page of each upload

a) **Technical Proposals –** One (1) ELECTRONIC upload must be organized in accordance with **Section III.C.1. Proposal Format**. All information for the Technical Proposal **must be combined into a single file/document for uploading**. *EXCEPTION: Single electronic files that exceed 50mb may be submitted as multiple uploads, which must be the least number of uploads necessary to fall under the 50mb limit.* The Technical Proposals **SHALL NOT** contain any cost information.

   i. **Confidential Information**: If Offeror's proposal contains confidential information, as defined in Section I.F.6 and detailed in Section II.C.8, Offeror **must** submit **two (2) separate ELECTRONIC technical files** :
      - One (1) ELECTRONIC version of the requisite proposals identified in Section III.B.2.a above as **unredacted** (def. Section I.F.38) versions for evaluation purposes; and
      - One (1) **redacted** (def. Section I.F.27) ELECTRONIC. for the public file, in order to facilitate eventual public inspection of the non-confidential version of Offeror's proposal. Redacted versions **must** be clearly marked as "REDACTED" or "CONFIDENTIAL" on the first page of the electronic file;

b) **Cost Proposals –** One (1) ELECTRONIC upload of the proposal containing **ONLY** the Cost Proposal. All information for the cost proposal **must be combined into a single file/document for uploading**. *EXCEPTION: Single electronic files that exceed 50mb may be submitted as multiple uploads, which must be the least number of uploads necessary to fall under the 50mb limit*

The ELECTRONIC proposal submission must be fully submitted to: purchasing@santafenm.gov by the submission deadline in Section II.B.6.

Any proposal that does not adhere to the requirements of this Section and **Section III.C.1 Proposal Content and Organization** may be deemed non-responsive and rejected on that basis.

B. PROPOSAL FORMAT

All proposals must be submitted as follows:

Organization of files/envelopes for electronic copy proposals:

1. Proposal Content and Organization

Direct reference to pre-prepared or promotional material may be used if referenced and clearly marked. Promotional material must be minimal. The proposal must be organized and indexed in the following format and must contain, at a minimum, all listed items in the sequence indicated.

Technical Proposal – <u>DO NOT INCLUDE ANY COST INFORMATION IN THE TECHNICAL PROPOSAL.</u>

A. Signed Letter of Transmittal
B. Signed Campaign Contribution Form
C. Table of Contents
D. Proposal Summary
E. Response to Contract Terms and Conditions (from Section II.C.15)
F. Offeror's Additional Terms and Conditions (from Section II.C.16)
G. Response to Specifications **(except Cost information which shall be included ONLY in Cost Proposal/Binder 2)**
    1. Organizational Experience
    2. Organizational References
    3. Mandatory Specification
    4. Desirable Specification

Cost Proposal:

1. Completed Cost Response Form (APPENDIX D)

Within each section of the proposal, Offerors should address the items in the order indicated above. All forms provided in this RFP must be thoroughly completed and included in the appropriate section of the proposal. **Any and all discussion of proposed costs, rates or expenses must occur <u>ONLY</u> in the Cost Proposal.**

A Proposal Summary may be included in Offeror's Technical Proposal, to provide the Evaluation Committee with an overview of the proposal; however, this material <u>will not</u> be used in the evaluation process unless specifically referenced from other portions of the Offeror's proposal. **<u>DO NOT INCLUDE COST INFORMATION IN THE PROPOSAL SUMMARY.</u>**

IV. SPECIFICATIONS

A. DETAILED SCOPE OF WORK

The selected consulting team will provide technical support, coordination and documentation/plan formatting services and federal, state transportation planning requirements included in the FHWA's Transportation Alternatives program, by assisting with development and integration of the following SRTS strategic goals and objectives:

1. **Develop a sustainable SRTS program for Kindergarten through 8th grade schools within the Santa Fe Public School District that focuses on the core values of SRTS including education, encouragement, equity, engineering/design, and evaluation. The program shall include but is not limited to the following:**

    A. **an educational component that develops and/or utilizes engaging and age appropriate materials and curricula around pedestrian & bicycle safety, health and wellness benefits from walking and bicycling, the broad range of transportation choices available in the community, driver responsibility and awareness, and other relevant information to address specific local needs as identified;**
    B. **an encouragement component that includes school specific Walk and Bike to School maps, regular activities and events, such as Walk and Roll to school day, Walking Wednesdays, Two-wheel Tuesdays, and other events and programs as developed by the individual schools, such as a Walking School Bus and/or Bicycle Train program, to incorporate SRTS into each school's unique culture;**
    C. **an equity component to ensure underserved and vulnerable populations are engaged and empowered, and unique barriers that underserved populations face are identified, analyzed, and addressed;**
    D. **an engineering component to evaluate walking and biking routes to schools and make recommendations to city traffic engineers and Santa Fe School District leadership for infrastructure projects to make the streets, sidewalks and walkways safe for students and the community;**
    E. **an evaluation component to assess, review and analyze program effectiveness, monitor outcomes, conduct parent and student survey's, and employ the assistance (via stipends) of teachers and school administrators to assist in data gathering and monitoring of transportation patterns at each school; and**
    F. **an enforcement component that is respectful to community values and public engagement revelations so as to coordinate and facilitate traffic safety, relationship building with local law enforcement, crossing guards, school administrators and the general public.**

2. **Establish a local SRTS Team/Coalition to guide the development of the Action Plan and implementation strategies identified in the local SRTS Action Plan and program as a whole.**

3. **Develop a SRTS Action Plan within the first year. The Action plan shall, at a minimum include the following:**
    A. **SRTS Overview including why the program is important and demonstrate benefits as evidenced from existing programs**
    B. **Existing conditions inventory of select school, entry ways, parking lots, ingress, egress, surrounding roadway design, pedestrian and bicycle facilities and nearby pedestrian and bicycle facilities.**

i. **Policies and Programs**
ii. **Arrivals and Departures**
iii. **Roadway infrastructure and any land use contributing factors within ½ mile of each school**
iv. **Base Maps**

4. **Public Engagement Initiatives (with consideration of safe COVID-19 practices)**
   A. **Recommendations**
      Physical Improvements including School Improvement Maps
      Operational Measures
      Core Value Recommendations
   B. **Action Steps – Based on recommendations specific actional objectives with associated time frames and cost estimates**
   C. **Resources and Recommendations**

5. **Pursue any relevant and appropriate training opportunities for the consulting team and program coordinator, local champions, and school representatives.**

5. **Assist the City and the MPO with the development of a refined scope of work that details an agreed upon strategy for the development of a Safe Routes to School Program. Please note the initial proposal and subsequent scope of work was developed pre-COVID-19 era. We recognize that substantive changes in public engagement, travel and training and other such project elements are going to require innovative, safe and approaches. We look forward to working with a team to develop creative solutions and opportunities during this time.**

   A. **Incorporate relevant existing public input data and recent public input efforts conducted by the City, Schools and MPO to inform additional public engagement efforts.**

   B. **Incorporate any existing relevant planning initiatives that may leverage and inform SRTS planning and programing.**

   C. **Please note it is intended via the grant agreement with the City that there will be additional expenditures outside of the consultant contract such as local stipends for SFPS Staff and training expenditures for key stakeholders and other items and will be derived from the development of the Action Plan.**

B. TECHNICAL SPECIFICATIONS

Consultants are encouraged to have general technical skills regarding planning and organizational development which may include but not limited to the use of electronic survey instruments, the use of advanced geographic information services, the development of web based documents, website creation and other such tools.

1. Organizational Experience

Offeror **must**:

a) provide a brief description of relevant experience with city or state government and private sector. The experience of all proposed subcontractors must be described. The narrative **must** thoroughly describe how the Offeror has supplied expertise for similar contracts and must include the extent

of their experience, expertise and knowledge as a provider of the development of a SRTS Program All SRTS services provided to private sector will also be considered;

b) provide a brief resume/bio of all key personnel Offeror proposes to use in performance of the resulting contract, should Offeror be awarded. Key personnel is identified as any personnel identified in the proposal and having billable hours. Offeror must include key personnel education, work experience, and relevant/applicable certifications/licenses.

c) describe at least two relevant project successes and failures of a plan or program that has similar elements as to a SRTS Program including the development of a plan to implement that program. Include how each experience improved the Offeror's services.

2. Organizational References

Offeror must provide a list of a minimum of three (3) references from similar projects/programs performed for private, city, state or large local government clients within the last six (6) years.

Offeror shall include the following Business Reference information as part of its proposals:

a) Client name;
b) Project description;
c) Project dates (starting and ending);
d) Technical environment (i.e., Software applications, Internet capabilities, Data communications, Network, Hardware);
e) Staff assigned to reference engagement that will be designated for work per this RFP; and
f) Client project manager name, telephone number, fax number and e-mail address.

3. Mandatory Specification

A. Please describe in detail how you intend to develop a SRTS plan and provide examples of past experiences developing similar plan.
B. Please describe in detail how you intent to engage stakeholders and the community and provide examples of similar experiences
C. Please describe in detail how you intend to utilize technical expertise such a GIS mapping, site assessments, web based tools and other electronic tools related to the scope;
D. Please describe your team's commitment to a multi-year project of this nature.

4. Desirable Specification

A. Please describe in detail any previous work with federally funded grants (If none, please describe your understanding of the requested scope as it related to federal funding requirements)
B. Please describe in detail any previous work with public school institutions.
C. Please describe in detail any pPrevious work with SRTS programs (If none, please describe your understanding of the elements of SRTS and your vision of how Santa Fe may develop such a sustainable program.

C. BUSINESS SPECIFICATIONS

1. Letter of Transmittal Form

The Offeror's proposal **must** be accompanied by the Letter of Transmittal Form located in APPENDIX E. The form **must** be completed and must be signed by the person authorized to obligate the company. **Failure to respond to ALL items, as indicated in Section II.C.30 and APPENDIX E, and to return a signed, unaltered form will result in Offeror's disqualification.**

2. Campaign Contribution Disclosure Form

The Offeror must complete an unaltered Campaign Contribution Disclosure Form and submit a signed copy with the Offeror's proposal. This must be accomplished whether or not an applicable contribution has been made. (See APPENDIX B). **Failure to complete and return the signed, unaltered form will result in Offeror's disqualification.**

3. Cost

Offerors must complete the Cost Response Form in APPENDIX D. Cost will be measured by hourly rates, materials needed, sub-consultant fees, and other costs related to implementing a successful project. All charges listed on APPENDIX D must be justified and evidence of need documented in the proposal.

V. EVALUATION

A. EVALUATION POINT SUMMARY

The following is a summary of evaluation factors with point values assigned to each. These weighted factors will be used in the evaluation of individual potential Offeror proposals by sub-category.

Evaluation Factors *(Correspond to section IV.B and IV C)*		Points Available
B.	**Technical Specifications**	
B. 1.	Organizational Experience	100
B. 2.	Organizational References	50
B. 3.	Mandatory Specification	100
B. 4.	Desirable Specification	100
C.	**Business Specifications**	
C.1.	Letter Of Transmittal	Pass/Fail
C.2.	Campaign Contribution Disclosure Form	Pass/Fail
C.3.	Cost	50
	TOTAL POINTS AVAILABLE	**400**

Table 1: Evaluation Point Summary

B. EVALUATION FACTORS

1. B.1 Organizational Experience (See Table 1)

Points will be awarded based on the thoroughness and clarity of Offeror's response in this Section. The Evaluation Committee will also weigh the relevancy and extent of Offeror's experience, expertise and knowledge; and of personnel education, experience and certifications/licenses. In addition, points will be awarded based on Offeror's candid and well-thought-out response to successes and failures, as well as the ability of the Offeror to learn from its failures and grow from its successes. Points will be awarded based on innovative approaches to solutions relevant to Safe Routes to School Programs or other such programs that have similar elements.

2. B.2 Organizational References (See Table 1)

Offeror will be evaluated on references that show positive service history, successful execution of services and evidence of satisfaction by each reference.

The Evaluation Committee may contact any or all business references for validation of information submitted. If this step is taken, the Procurement Manager and the Evaluation Committee must all be together on a conference call with the reference so that the Procurement Manager and all members of the Evaluation Committee receive the same information. Additionally, the City reserves the right to consider any and all information available to it (outside of the Organizational Reference information required herein), in its evaluation of Offeror responsibility per Section II.C.18.

3. B.3 Mandatory Specifications

Points will be awarded based on a clear articulation of experience with the development of professional plans, community and stakeholder engagement, technical expertise as related to the scope; and a commitment to working through a multi-year project

4. B.4 Desirable Specifications

Points will be awarded based on a clear articulation of previous work with federally funded grants, previous work with public school institutions, previous work with Safe Routes to School issues

5. C.3 Letter of Transmittal (See Table 1)

Pass/Fail only. No points assigned.

6. C.4 Campaign Contribution Disclosure Form (See Table 1)

Pass/Fail only. No points assigned.

7. C.6 Cost (See Table 1)

The evaluation of each Offeror's cost proposal will be conducted recognizing this is a federally funded program with target funding amounts reviewed based on how the distribution of costs are reasonable to each proposed task.

EVALUATION PROCESS

1. All Offeror proposals will be reviewed for compliance with the requirements and specifications stated within the RFP. Proposals deemed non-responsive will be eliminated from further consideration.

2. The Central Purchasing Office or/and the Procurement Manager may contact the Offeror for clarification of the response as specified in Section II. B.7.

3. Responsive proposals will be evaluated on the factors in Section IV, which have been assigned a point value in Section V. The responsible Offerors with the highest scores will be selected as finalist Offerors, based upon the proposals submitted. In accordance with 13-1-117 NMSA 1978, the responsible Offerors whose proposals are most advantageous to the City taking into consideration the Evaluation Factors in Section V will be recommended for award (as specified in Section II.B.12). Please note, however, that a serious deficiency in the response to any one factor may be grounds for rejection regardless of overall score.

APPENDIX B

CAMPAIGN CONTRIBUTION DISCLOSURE FORM

Pursuant to the Procurement Code, Sections 13-1-28, et seq., NMSA 1978 and NMSA 1978, § 13-1-191.1 (2006), as amended by Laws of 2007, Chapter 234, a prospective contractor subject to this section shall disclose all campaign contributions given by the prospective contractor or a family member or representative of the prospective contractor to an applicable public official of the state or a local public body during the two years prior to the date on which a proposal is submitted or, in the case of a sole source or small purchase contract, the two years prior to the date on which the contractor signs the contract, if the aggregate total of contributions given by the prospective contractor or a family member or representative of the prospective contractor to the public official exceeds two hundred fifty dollars ($250) over the two-year period. A prospective contractor submitting a disclosure statement pursuant to this section who has not contributed to an applicable public official, whose family members have not contributed to an applicable public official or whose representatives have not contributed to an applicable public official shall make a statement that no contribution was made.

A prospective contractor or a family member or representative of the prospective contractor shall not give a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process or during the pendency of negotiations for a sole source or small purchase contract.

Furthermore, a solicitation or proposed award for a proposed contract may be canceled pursuant to Section 13-1-181 NMSA 1978 or a contract that is executed may be ratified or terminated pursuant to Section 13-1-182 NMSA 1978 if a prospective contractor fails to submit a fully completed disclosure statement pursuant to this section; or a prospective contractor or family member or representative of the prospective contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process.

The state agency or local public body that procures the services or items of tangible personal property shall indicate on the form the name or names of every applicable public official, if any, for which disclosure is required by a prospective contractor.

THIS FORM MUST BE INCLUDED IN THE REQUEST FOR PROPOSALS AND MUST BE FILED BY ANY PROSPECTIVE CONTRACTOR WHETHER OR NOT THEY, THEIR FAMILY MEMBER, OR THEIR REPRESENTATIVE HAS MADE ANY CONTRIBUTIONS SUBJECT TO DISCLOSURE.

The following definitions apply:

"**Applicable public official**" means a person elected to an office or a person appointed to complete a term of an elected office, who has the authority to award or influence the award of the contract for which the prospective contractor is submitting a competitive sealed proposal or who has the authority to negotiate a sole source or small purchase contract that may be awarded without submission of a sealed competitive proposal.

"**Campaign Contribution**" means a gift, subscription, loan, advance or deposit of money or other thing of value, including the estimated value of an in-kind contribution, that is made to or received by an applicable public official or any person authorized to raise, collect or expend contributions on that official's behalf for the purpose of electing the official to statewide or local office. "Campaign Contribution" includes the payment of a debt incurred in an election campaign, but does not include the value of services

provided without compensation or unreimbursed travel or other personal expenses of individuals who volunteer a portion or all of their time on behalf of a candidate or political committee, nor does it include the administrative or solicitation expenses of a political committee that are paid by an organization that sponsors the committee.

"**Family member**" means a spouse, father, mother, child, father-in-law, mother-in-law, daughter-in-law or son-in-law of (a) a prospective contractor, if the prospective contractor is a natural person; or (b) an owner of a prospective contractor;

"**Pendency of the procurement process**" means the time period commencing with the public notice of the request for proposals and ending with the award of the contract or the cancellation of the request for proposals.

"**Prospective contractor**" means a person or business that is subject to the competitive sealed proposal process set forth in the Procurement Code [Sections 13-1-28 through 13-1-199 NMSA 1978] or is not required to submit a competitive sealed proposal because that person or business qualifies for a sole source or small purchase contract.

"**Representative of a prospective contractor**" means an officer or director of a corporation, a member or manager of a limited liability corporation, a partner of a partnership or a trustee of a trust of the prospective contractor.

APPENDIX C

DRAFT CONTRACT

The Agreement included in this Appendix C represents the contract/price agreement the City intends to use to make an award/awards. The City of Santa Fe reserves the right to modify the Agreement prior to, or during, the award process, as necessary.

CITY OF SANTA FE

PROFESSIONAL SERVICES CONTRACT

THIS AGREEMENT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and **xxxx** hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

IT IS AGREED BETWEEN THE PARTIES:

Scope of Work.

The scope is for the development of a "sustainable Safe Routes to School Program for Kindergarten through 8th grade schools within the Santa Fe Public School District" including that of and established Program Coordinator for the duration of the grant, who shall provide oversite, leadership and general management of the program. The City of Santa Fe is fully responsible for the management of the reimbursable grant and it is expected that all work be coordinated with the City to be in full compliance with the federal grant requirements during the entirety of the grant related program. The City is host to the Santa Fe Metropolitan Planning Organization (MPO) that includes three full time employees. The MPO plays a significant role in the development of a variety of regional transportation and transit plans that serve the metropolitan area. MPO staff will be providing planning services and technical support during two years of the program. The MPO will work in coordination with the selected consultant team and Program Coordinator. It is anticipated that the MPO will commit a total of 1050 hours (Approximately $50,400) from Oct. 1st 2020, to September 20th, 2022 to assist with the development of a successful program. We encourage coordination with MPO staff regarding the services they shall be providing. It is the intent of the City of Santa Fe to develop the building blocks of a sustainable SFRTS program similar to the successful program developed in Las Cruces, New Mexico and in other communities in the Country.

The Contractor shall perform the following work listed below and further detailed in the attached RFP 20/09/P 2020-2030 Safe Routes to School proposal, schedule and cost estimates (revisions attached):

Scope of Services

The consultant(s) will provide technical support, coordination and documentation/plan formatting services in the context of the City's procurement requirements and federal, state transportation planning requirements included in the FHWA's Transportation Alternatives program, by assisting with development and integration of the following Safe Routes to School strategic goals and objectives:

Develop a sustainable Safe Routes to School program for Kindergarten through 8th grade schools within the Santa Fe Public School District that focuses on the core values of Safe Routes to School including education,

encouragement, equity, engineering/design, and evaluation. The program shall include but is not limited to the following:

1. an educational component that develops and/or utilizes engaging and age appropriate materials and curricula around pedestrian & bicycle safety, health and wellness benefits from walking and bicycling, the broad range of transportation choices available in the community, driver responsibility and awareness, and other relevant information to address specific local needs as identified;
2. an encouragement component that includes school specific Walk and Bike to School maps, regular activities and events, such as Walk and Roll to school day, Walking Wednesdays, Two-wheel Tuesdays, and other events and programs as developed by the individual schools, such as a Walking School Bus and/or Bicycle Train program, to incorporate SRTS into each school's unique culture;
3. an equity component to ensure underserved and vulnerable populations are engaged and empowered, and unique barriers that underserved populations face are identified, analyzed, and addressed;
4. an engineering component to evaluate walking and biking routes to schools and make recommendations to city traffic engineers and Santa Fe School District leadership for infrastructure projects to make the streets, sidewalks and walkways safe for students and the community;
5. an evaluation component to assess, review and analyze program effectiveness, monitor outcomes, conduct parent and student survey's, and employ the assistance (via stipends) of teachers and school administrators to assist in data gathering and monitoring of transportation patterns at each school; and
6. an enforcement component that is respectful to community values and public engagement revelations so as to coordinate and facilitate traffic safety, relationship building with local law enforcement, crossing guards, school administrators and the general public.

7. Establish a local SRTS Team/Coalition to guide the development of the Action Plan and implementation strategies identified in the local SRTS Action Plan and program as a whole.

8. Develop a Santa Fe Safe Routes to School Action Plan within the first year. The Action plan shall, at a minimum include the following:
   a) Safe Routes to School Program Overview including why the program is important and demonstrable benefits as evidenced from existing programs
   b) Existing conditions inventory of the selected schools
      v. Policies and Programs
      vi. Arrivals and Departures
      vii. Roadway infrastructure and any land use contributing factors within ½ mile of each school
      viii. Base Maps
   c) Public Engagement Initiatives (with consideration of safe COVID-19 practices)
   d) Recommendations
      i. Physical Improvements including School Improvement Maps
      ii. Operational Measures
      iii. Core Value Recommendations
   e) Action Steps – Based on recommendations specific actional objectives with associated time frames and cost estimates
   f) Resources and Recommendations: Throughout the project the team is asked to pursue any relevant and appropriate training opportunities for the program manager, local champions, and school representatives.

The selected firm will also:

1. Assist the City of Santa Fe and the MPO with the development of a refined scope of work that details an agreed upon strategy for the development of a Safe Routes to School Program. Please note the initial proposal and subsequent scope of work was developed pre-COVID-19 era. We recognize

that substantive changes in public engagement, travel and training and other such project elements are going to require innovative, safe and approaches. We look forward to working with a team to develop creative solutions and opportunities during this time.

2. Incorporate relevant existing public input data and recent public input efforts conducted by the City, Schools and MPO to inform additional public engagement efforts.
3. Incorporate any existing relevant planning initiatives that may leverage and inform SRTS planning and programing.
4. Assume additional expenditures outside of the consultant contract such as local stipends for SFPS Staff and training expenditures for key stakeholders to be managed by the Safe Routes to School Coordinator or team and other items derived from the development of the Action Plan.

The plan will consider the general needs of the traveling public as well as the specific needs of particular sub-markets including, but not necessarily limited to, businesses, higher education students, K-12 school-aged children, elderly people, veterans, and people with disabilities. The plan will also consider people who do not currently use local public transportation. The plan will describe how non-users may be encouraged to become transit passengers by identifying what specific barriers or objections non-users have and how Santa Fe Trails might overcome those barriers or objections.

The plan will include a financial component that describes the costs, both capital and operating, of undertaking plan recommendations and will recommend implementation strategies and metrics for plan elements, including discussion of priorities, staffing levels, levels of service and timing issues.

2. Compensation.

MULTI-YEAR – A. The City shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work at the rate of xxx in FY20. The New Mexico gross receipts tax levied on the amounts payable under this Agreement in FY20 totaling xxx shall be paid by the City to the Contractor. **The total amount payable to the Contractor under this Agreement, including gross receipts tax and expenses, xxx in FY20.**

MULTI-YEAR – A (2).The City shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work at the rate of xxx in FY21 The New Mexico gross receipts tax levied on the amounts payable under this Agreement in FY20 totaling xxxx shall be paid by the City to the Contractor. **The total amount payable to the Contractor under this Agreement, including gross receipts tax and expenses, (xxx) in FY21.**

The total amount payable to the Contractor under this Agreement, including gross receipts tax and expenses, is not to exceed (xxx).

B. Payment in FY20 and FY21 is subject to availability of funds pursuant to the Appropriations Paragraph set forth below and to any negotiations between the parties from year to year pursuant to Paragraph 1, Scope of Work, and to approval by the City. All invoices MUST BE received by the City no later than fifteen (15) days after the termination of the Fiscal Year in which the services were delivered. Invoices received after such date WILL NOT BE PAID.)

C. Contractor must submit a detailed statement accounting for all services performed and expenses incurred. If the City finds that the services are not acceptable, within thirty days after the date of receipt of written notice from the Contractor that payment is requested, it shall provide the Contractor a letter of exception explaining the defect or objection to the services, and outlining steps the Contractor may take to provide remedial action. Upon certification by the City that the services have been received and accepted, payment shall be tendered to the Contractor within thirty days after the date of acceptance. If payment is made

by mail, the payment shall be deemed tendered on the date it is postmarked. However, the City shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

3. Term.

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Agreement shall terminate on **June 30th 2022** unless terminated pursuant to paragraph 4 (Termination), or paragraph 5 (Appropriations). In accordance with Section 13-1-150 NMSA 1978, the contract term for this professional services contract, including extensions and renewals, shall not exceed four years, except as set forth in Section 13-1-150 NMSA 1978.

4. Termination.

A. Termination. This Agreement may be terminated by either of the parties hereto upon written notice delivered to the other party at least thirty (30) days prior to the intended date of termination. Except as otherwise allowed or provided under this Agreement, the City's sole liability upon such termination shall be to pay for acceptable work performed prior to the Contractor's receipt of the notice of termination, if the City is the terminating party, or the Contractor's sending of the notice of termination, if the Contractor is the terminating party; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Agreement. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. Notwithstanding the foregoing, this Agreement may be terminated immediately upon written notice to the Contractor if the Contractor becomes unable to perform the services contracted for, as determined by the City or if, during the term of this Agreement, the Contractor or any of its officers, employees or agents is indicted for fraud, embezzlement or other crime due to misuse of City funds or due to the Appropriations paragraph herein. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE City's OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS AGREEMENT.*

B Termination Management. Immediately upon receipt by either the City or the Contractor of notice of termination of this Agreement, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Agreement without written approval of the City; 2) comply with all directives issued by the City in the notice of termination as to the performance of work under this Agreement; and 3) take such action as the City shall direct for the protection, preservation, retention or transfer of all property titled to the City and records generated under this Agreement. Any non-expendable personal property or equipment provided to or purchased by the Contractor with contract funds shall become property of the City upon termination and shall be submitted to the City as soon as practicable.

5. Appropriations.

The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the City Council for the performance of this Agreement. If sufficient appropriations and authorization are not made by the City Council, this Agreement shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

6. Status of Contractor.

The Contractor and its agents and employees are independent contractors performing professional services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Agreement. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business

income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

7. Assignment.

The Contractor shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the City.

8. Subcontracting.

The Contractor shall not subcontract any portion of the services to be performed under this Agreement without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Agreement, nor shall any subcontract obligate direct payment from the City.

9. Release.

Final payment of the amounts due under this Agreement shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Agreement.

10. Confidentiality.

Any confidential information provided to or developed by the Contractor in the performance of this Agreement shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

11. Product of Service -- Copyright.

All materials developed or acquired by the Contractor under this Agreement shall become the property of the City and shall be delivered to the City no later than the termination date of this Agreement. Nothing developed or produced, in whole or in part, by the Contractor under this Agreement shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

12. Conflict of Interest; Governmental Conduct Act.

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Agreement, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Agreement.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Agreement, will continue to comply with, and that this Agreement complies with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978.

C. Contractor's representations and warranties in Paragraphs A and B of this Article 12 are material representations of fact upon which the City relied when this Agreement was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Agreement to the contrary, the City may immediately terminate the Agreement.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

13. Amendment.

A. This Agreement shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Agreement to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Agreement, pursuant to the termination provisions as set forth in Article 4 herein, or to agree to the reduced funding.

14. Merger.

This Agreement incorporates all the Agreements, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, Agreements and understandings have been merged into this written Agreement. No prior Agreement or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Agreement.

15. Penalties for violation of law.

The Procurement Code, Sections 13-1-28 through 13-1-199, NMSA 1978, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities and kickbacks.

16. Equal Opportunity Compliance.

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If Contractor is found not to be in compliance with these requirements during the life of this Agreement, Contractor agrees to take appropriate steps to correct these deficiencies.

17. Applicable Law.

The laws of the State of New Mexico shall govern this Agreement, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with Section 38-3-1 (G) NMSA 1978. By execution of this Agreement, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

18. Workers Compensation.

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the City.

19. Professional Liability Insurance. Contractor shall maintain professional liability insurance throughout the term of this Agreement providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Agreement.

20. Other Insurance

If the services contemplated under this Agreement will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Agreement, the following insurance coverage(s), naming the City as additional insured.

A. Workers Compensation (including accident and disease coverage) at the statutory limit. Employers liability: $100,000.

B. Comprehensive general liability (including endorsements providing broad form property damage, personal injury coverage and contractual assumption of liability for all liability the Contractor has assumed under this contract). Limits shall not be less than the following:

a. Bodily injury: $1,000,000 per person /$1,000,000 per occurrence.
b. Property damage or combined single limit coverage: $1,000,000.
c. Automobile liability (including non-owned automobile coverage): $1,000,000.
d. Umbrella: $1,000,000.

C. Contractor shall maintain the above insurance for the term of this Agreement and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

21. Records and Financial Audit.

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Agreement's term and effect and retain them for a period of three (3) years from the date of final payment under this Agreement. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose the right of the City to recover excessive or illegal payments

22. Indemnification.

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Agreement, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Agreement. In the event that any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Agreement is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

23. New Mexico Tort Claims Act

Any liability incurred by the City of Santa Fe in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

24. Invalid Term or Condition.

If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

25. Enforcement of Agreement.

A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Agreement shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

26. Notices.

Any notice required to be given to either party by this Agreement shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

27. Authority.

If Contractor is other than a natural person, the individual(s) signing this Agreement on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter into a binding contract.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date of the signature by the required approval authorities below.

APPENDIX H

CONFLICT OF INTEREST

CONFLICT OF INTEREST STATEMENT FOR CONSULTING FIRMS

Complete, sign and return with your proposal.

The City of Santa Fe policy is to prevent personal or organizational conflict of interest, or the appearance of such conflict of interest, in the award and administration of City contracts and Purchase Orders.

The Offeror shall comply with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978 and include a full disclosure of all potential organization conflicts of interest in the Proposal.

In addition to the Project Manager each key personnel shall also complete the Conflict of Interest Form below certifying that the entity has read and understands the City's policy regarding conflict of interest and the CFR. Each key personnel must also certify that there is no conflict of interest with the Project. If there is a conflict with the Project, then the and known key personnel needs to describe the conflict.

The agrees that, if after award, an organizational conflict of interest is discovered, the makes an immediate and full written disclosure to the City that includes a description of the action that the has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the City may, at its discretion, cancel the contract for the Project. If the was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to the City, the City may terminate the contract for default.

The City may disqualify an Offeror if any of its key personnel belong to more than one Submitter organization/firm.

I, _____ certify that I/We have no personal or financial interests and no present employment or activity which would be incompatible with this firm's participation in any activity related to the RFP or execution of the awarded "Safe Routes to School Program." For the duration of this firm's involvement in the contract, this firm agrees not to accept any gift, benefit, gratuity or consideration, or begin a personal or financial interest in a party who is bidding and/or proposing, or associated with a bidder and/or Offeror on the contract.

I certify that this firm will keep all contract information confidential and secure. This organization will not copy, give or otherwise disclose such information to any other person unless the City of Santa Fe has on file a confidentiality agreement signed by the other person, and the disclosure is authorized and necessary to the contract. I understand

that if this firm leaves this contract before it ends, this firm must still keep all contract information confidential. I agree to follow any instructions provided by the City relating to the confidentiality of the contract information. I fully understand that any unauthorized disclosure made by this firm may be a basis for civil or criminal penalties. I agree to advise the City's Procurement Officer, at 505-955-6432 immediately in the event that I or another person within this organization either learn or have reason to believe that any person who has access to the contract confidential information has or intends to disclose that information in violation of this agreement.

This statement must be fully completed and signed by an authorized representative.

The above information is subject to verification by the City of Santa Fe. If the City finds a misrepresentation, the bid may be automatically disqualified from the procurement process or the contract may be canceled.

APPENDIX I

LIVING WAGE ORDINANCE

City of Santa Fe Living Wage Ordinance

PURSUANT TO THE CITY OF SANTA FE
LIVING WAGE ORDINANCE, SECTION 28-1 SFCC 1987
EFFECTIVE MARCH 1, 2019 ALL WORKERS WITHIN THE
CITY OF SANTA FE
SHALL BE PAID A LIVING WAGE OF

$11.80
PER HOUR

Santa Fe's Living Wage

- The Santa Fe Living Wage Ordinance establishes minimum hourly wages.
- The March Living Wage increase corresponds to the increase in the Consumer Price Index (CPI).
- All employers required to have a business license or registration from the City of Santa Fe ("City") must pay at least the adjusted Living Wage to employees for all hours worked within the Santa Fe city limits.

Who is Required to Pay the Living Wage?

- The City to all full-time permanent workers employed by the City;
- Contractors for the City, that have a contract requiring the performance of a service but excluding purchases of goods;
- Businesses receiving assistance relating to economic development in the form of grants, subsidies, loan guarantees or industrial revenue bonds in excess of twenty-five thousand dollars ($25,000) for the duration of the City grant or subsidy;
- Businesses required to have a business license or registration from the City; and
- Nonprofit organizations, except for those whose primary source of funds is from Medic-aid waivers.
- For workers who customarily receive more than one hundred dollars ($100) per month in tips or commissions, any tips or commissions received and retained by a worker shall be counted as wages and credited towards satisfaction of the Living Wage provided that, for tipped workers, all tips received by such workers are retained by the workers, except that the pooling of tips among workers shall be permitted.

More Information, including the Living Wage Ordinance, is available at
http://www.santafenm.gov

City of Santa Fe, New Mexico

memo

DATE: November 10, 2020

TO: Fran Dunaway, Chief Procurement Officer
City of Santa Fe

FROM: Melissa A. McDonald, Procurement Manager
Acting Parks Division Director

SUBJECT: Evaluation Committee Report, Safe Routes to School Program, RFP # 21/09/P

In accordance with the Request for Proposals for Safe Routes to School (SRTS) issued September 23, 2020, four (4) responses were submitted from the following Offerors: Alta Planning, Santa Fe Conservation Trust, Toole Design, Wilson and Co and evaluated by the committee.

Summary of Evaluation Committee Activity

The Evaluation Committee members are as follows:

Elena Kayak, Santa Fe Public Schools
Zoe Isaacson, Public Works
Leah Yngve, Metropolitan Planning Organization Division
[Thomas M. Graham, Public Works
Hannah Burnham, Metropolitan Planning Organization Division

This Evaluation Committee Report summarizes all criteria used in scoring the responses:

- October 9, 2020: Evaluation Committee met to review Evaluation Committee duties and RFP process, and to discuss the review and score of the proposals.
- October 19, 2020: Evaluation Committee met to score the technical proposals.
- October 21, 2020: Evaluation Committee met to score the cost proposal and to finalize the recommendation of award.

Section IV.B, Technical Specifications

Section IV.B.1, Organizational Experience (100 Total Points)

	Alta Planning	Santa Fe Conservation Trust	Toole Design	Wilson and Co
Offeror Points	91.84	94.74	87.4	68.94

Organizational Experience

Specifications:

Offeror **must**:

a) provide a brief description of relevant experience with city or state government and private sector. The experience of all proposed subcontractors must be described. The narrative **must** thoroughly describe how the Offeror has supplied expertise for similar contracts and must include the extent of their experience, expertise and knowledge as a provider of the development of a SRTS Program All SRTS services provided to private sector will also be considered;

b) provide a brief resume/bio of all key personnel Offeror proposes to use in performance of the resulting contract, should Offeror be awarded. Key personnel is identified as any personnel identified in the proposal and having billable hours. Offeror must include key personnel education, work experience, and relevant/applicable certifications/licenses.

c) describe at least two relevant project successes and failures of a plan or program that has similar elements as to a SRTS Program including the development of a plan to implement that program. Include how each experience improved the Offeror's services.

Evaluation Factors:

Points will be awarded based on the thoroughness and clarity of Offeror's response in this Section. The Evaluation Committee will also weigh the relevancy and extent of Offeror's experience, expertise and knowledge; and of personnel education, experience and certifications/licenses. In addition, points will be awarded based on Offeror's candid and well-thought-out response to successes and failures, as well as the ability of the Offeror to learn from its failures and grow from its successes. Points will be awarded based on innovative approaches to solutions relevant to Safe Routes to School Programs or other such programs that have similar elements.

Alta Planning and Design

The Evaluation Committee awarded Alta Planning and Design 91.84 points based on the Offeror's response. Alta provides nationwide experience, established positive performance, and a measured success record with a variety of useful talents on team. They provide a variety of skills directly related to the SRTS program as well as an arts director, web manager and other supplemental, but vital members of the team.

Alta has a firm grasp on what is needed for digital communication and virtual outreach. They seem more than capable to traverse the new world of COVID and can accommodate our new-found dependence on virtual engagement. Seeing as a large component of a successful implementation of this program, graphic design and bilingual experience are a must.

Overall this firm would do an excellent job at the educational component and would also deliver in the engineering plan but there is concern about their engagement strategies, as much of it is virtual. Even in the time of COVID, which they did a good job addressing, this plan cannot rely solely on virtual engagement because it negates the equity component. Alta has a wow factor, lots of national notches and a proven track record perhaps too much on the engineering staffing. Amazing, solid proposal with large team of experts. Outstanding mapping skills, clear graphics, and colorful marketing.

Santa Fe Conservation Trust

The Evaluation Committee awarded Santa Fe Conservation Trust 94.74 points based on the Offeror's response. This proposal presented a very well thought-out analysis of the successes and failures of past projects including the lack of mapping expertise. Santa Fe Conservation Trust discussed how they plan to address this in the SRTS proposal. The proposal clearly demonstrates a variety of experience getting the community walking and biking.

As exhibited in this proposal, Santa Fe Conservation Trust has extensive experience in Santa Fe and understands, thoroughly, the issues, feasibility, hurdles and value of working in Santa Fe and with the diverse community that lives here. Tim Rogers provides in-depth experience with the SRTS program as evidenced by his involvement in the original SRTS handbook. Santa Fe Conservation Trust has developed a team of professionals that varies in experience and together provides the expertise and community connections to not only develop, but successfully implement a SRTS program in Santa Fe.

This group demonstrates that it will be successful in the encouragement, educational, and evaluation components of a successful SRTS program because they are already working on getting people from all ages in Santa Fe to walk, and has learned from the successes and failures of past projects. They are very aware of the map of Santa Fe, and infrastructure layouts necessary to direct their engineering subcontractor towards targeted recommendations for each of the focus schools. Their public engagement initiatives are exemplary in that they will provide specific actionable objectives, and would be knowledgeable about the time frames and costs for these. Santa Fe

Conservation Trust will seek to work with organizations such as La Familia Health Clinic to get the Spanish outreach support essential to this program. The fact that they are aware of this clinic and have established past relationships with a health clinic for outreach is valuable and innovative. Solid understanding of local bike/ped status, means that there is no learning curve, and they can hit the ground running. Santa Fe Conservation Trust has outstanding knowledge of connectivity issues for schools and understands the need to begin with small successes and build, starting with southside schools.

Toole Design

The Evaluation Committee awarded Toole Design 87.4 points based on the Offeror's response. Toole has nationwide experience, creative funding ideas which are valuable, and bicycle safety education by training physical education teachers is an innovative and good idea. Toole's proposal seemed heavily focused on their technical skills and not so much on their programmatic experience.

Toole demonstrated an understanding of the need for bilingual professionals working in Santa Fe, this showed a basic understanding of Santa Fe and issues of equity. They have nationwide experience and clearly demonstrated an understanding of the SRTS program and what is needed to implement it successfully. They had a strong capacity for graphic design and mapping). However, they did not receive a stellar critique from past partners and were not highly rated.

Wilson and Co

The Evaluation Committee awarded Wilson and Co 68.94 points based on the Offeror's response. Wilson demonstrated a strong technical presence and ability to work with state and local government. Wilson lacks the programmatic experience needed for SRTS program implementation; their proposal was too heavy on engineering and not strong enough on programming which is a more important component.

Although Wilson has worked in Santa Fe and has team members familiar with the SRTS program, their proposal was focused mainly on the engineering component of this work. The proposal conveyed they do not seem to understand the full scope of the project and what is required of a firm to successfully implement such a program in a long-term sustainable way.

While this firm would offer expert engineering, there are doubts about their public engagement experience, and the requirement to improve operations at a school, or address core values.

Section IV.B.2, Organizational References (50 Total Points)

	Alta Planning	Santa Fe Conservation Trust	Toole Design	Wilson and Co
Offeror Points	44.46	47	45.5	37.654

Organizational References

Specifications:

Offeror must provide a list of a minimum of three (3) references from similar projects/programs performed for private, city, state or large local government clients within the last six (6) years.

Offeror shall include the following Business Reference information as part of its proposals:

a) Client name;
b) Project description;
c) Project dates (starting and ending);
d) Technical environment (i.e., Software applications, Internet capabilities, Data communications, Network, Hardware);
e) Staff assigned to reference engagement that will be designated for work per this RFP; and
f) Client project manager name, telephone number, fax number and e-mail address.

Evaluation Factors:

Offeror will be evaluated on references that show positive service history, successful execution of services and evidence of satisfaction by each reference.

The Evaluation Committee may contact any or all business references for validation of information submitted. If this step is taken, the Procurement Manager and the Evaluation Committee must all be together on a conference call with the reference so that the Procurement Manager and all members of the Evaluation Committee receive the same information. Additionally, the City reserves the right to consider any and all information available to it (outside of the Organizational Reference information required herein), in its evaluation of Offeror responsibility per Section II.C.18.

Alta Planning and Design

The Evaluation Committee awarded Alta Planning and Design 44.46 points based on the Offeror's response. Alta Planning and Design demonstrated through their business references that they have a broad base of work products directly related to Safe Routes to School Programs nationwide. The minor concern noted by the committee the clients referenced were well established SRTS programs as opposed to developing start up programs.

Santa Fe Conservation Trust

The Evaluation Committee awarded Santa Fe Conservation Trust 47 points based on the Offeror's response. Santa Fe Conservation Trust scored well because they not only have business references that are relevant Safe Routes to School programming experience they articulated well the relationships needed to foster a sustainable program. Minor noted deficiencies by the committee suggested some references were not directly related to SRTS programs, but still relevant to the context of the program.

Toole Design

The Evaluation Committee awarded Toole Design 45.5 points based on the Offeror's response. Toole Design, like Alta via their business references demonstrated a broad base of experiences directly related to Safe Routes to School Programs nationwide. Noted minor deficiencies by the committee were that references were not as substantive in detail as could be to fully illustrate the projects relevance.

Wilson and Co

The Evaluation Committee awarded Wilson and Co 37.65 points based on the Offeror's response. Wilson and Co, while having some related experience with Safe Routes to School Programs did not demonstrate nearly the breath of experiences through their references.

Section IV.B.4, MANDATORY SPECIFICATIONS (100 Total Points)

	Alta Planning	Santa Fe Conservation Trust	Toole Design	Wilson and Co
Offeror Points	85.6	96.06	85.94	70.66

Mandatory Specifications

Specifications:

A. Please describe in detail how you intend to develop a SRTS plan and provide examples of past experiences developing similar plan.
B. Please describe in detail how you intent to engage stakeholders and the community and provide examples of similar experiences
C. Please describe in detail how you intend to utilize technical expertise such a GIS mapping, site assessments, web based tools and other electronic tools related to the scope;
Please describe your team's commitment to a multi-year project of this nature.

Evaluation Factors:

Points will be awarded based on a clear articulation of experience with the development of professional plans, community and stakeholder engagement, technical expertise as related to the scope; and a commitment to working through a multi-year project.

Alta Planning and Design

The Evaluation Committee awarded Alta Planning and Design 85.6 points based on the Offeror's response. Alta has a great deal of experience with school districts and planning with strong virtual engagement reference, but their program implementation strategy seems less clear.

Santa Fe Conservation Trust

The Evaluation Committee awarded Santa Fe Conservation Trust 96.06 points based on the Offeror's response. Santa Fe Conservation Trust has a clear commitment striving to promote outdoor education and environmental engagement. Bilingual staff is important and existing relationships will speed up the work in the relatively short time-frame. Fewer schools demonstrates the ability to fully engage each school.

Toole Design

The Evaluation Committee awarded Toole Design 85.94 points based on the Offeror's response. Toole demonstrates experience in developing SRTS programs and effective, innovative outreach planning. Though mandatory specifications were strong, points were deducted based on the

evaluation committee's concerns that the proposal was not flexible enough to accommodate the needs of the community of Santa Fe.

Wilson and Co.

The Evaluation Committee awarded Wilson and Co.70.66 points based on the Offeror's response. Wilson and Co demonstrated strengths with their proposal as it relates to mandatory specifications regarding their strong engineering and technical experiences and expertise, but were weak regarding public engagement, stakeholder engagement and general planning.

Section IV.B.5, Desirable Specifications (100Total Points)

	Alta Planning	Santa Fe Conservation Trust	Toole Design	Wilson and Co
Offeror Points	**93.74**	**86.22**	**87**	**60.74**

Specifications:

A. Please describe in detail any previous work with federally funded grants (If none, please describe your understanding of the requested scope as it related to federal funding requirements)
B. Please describe in detail any previous work with public school institutions.
C. Please describe in detail any previous work with SRTS programs (If none, please describe your understanding of the elements of SRTS and your vision of how Santa Fe may develop such a sustainable program.

Evaluation Factors:

Points will be awarded based on a clear articulation of previous work with federally funded grants, previous work with public school institutions, previous work with Safe Routes to School issues.

Alta Planning and Design

The Evaluation Committee awarded Alta Planning and Design 93.74 points based on the Offeror's response. Alta established a variety of requested experience examples. But their ability to cater to schedules of school personnel for input seemed lacking and less robust.

Santa Fe Conservation Trust

The Evaluation Committee awarded Santa Fe Conservation Trust 86.26 points based on the Offeror's response. Santa Fe Conservation Trust's greatest positive is their previous track record and experience with Santa Fe Public Schools (SFPS). Concerns included the fact that some SRTS

experiences were dated and not as relevant and that they did reference equity, but did not address accessibility.

Toole Design

The Evaluation Committee awarded Toole Design 87 points based on the Offeror's response.

Toole Design was heavy on nationwide experience with diverse desirable experience but did not notice an accessibility reference addressed in the proposal and some desirable solutions presented were not as innovative.

Wilson and Company

The Evaluation Committee awarded Wilson and Co.60.74 points based on the Offeror's response. Though Wilson provided some mandatory specifications they lacked a breath of desirable specifications. Again, they were strong on engineering but not so much on diverse innovative approaches.

Section IV. C, Business Specifications

Section IV.C.1, Letter of Transmittal (Pass/Fail)

	Alta Planning	Santa Fe Conservation Trust	Toole Design	Wilson and Co
Pass/Fail	Pass	Pass	Pass	Pass

Specifications:

The Offeror's proposal **must** be accompanied by the Letter of Transmittal Form located in APPENDIX E. The form **must** be completed and must be signed by the person authorized to obligate the company. **Failure to respond to ALL items, as indicated in Section II.C.30 and APPENDIX E, and to return a signed, unaltered form will result in Offeror's disqualification.**

Evaluation Factors:

Pass/Fail only. No points Assigned.

Section IV.C.2, Signed Campaign Contribution Disclosure Form (Pass/Fail)

	Alta Planning	Santa Fe Conservation Trust	Toole Design	Wilson and Co
Pass/Fail	**Pass**	**Pass**	**Pass**	**Pass**

Specifications:

The Offeror must complete an unaltered Campaign Contribution Disclosure Form and submit a signed copy with the Offeror's proposal. This must be accomplished whether or not an applicable contribution has been made. (See APPENDIX B). **Failure to complete and return the signed, unaltered form will result in Offeror's disqualification.**

Evaluation Factors:

Pass/Fail only. No points Assigned.

Section IV.C.3, Costs (50Total Points)

	Alta Planning	Santa Fe Conservation Trust	Toole Design	Wilson and Co
Offeror Points	**42**	**46**	**38**	**24**

Specifications:

Offerors must complete the Cost Response Form in APPENDIX D. Cost will be measured by hourly rates, materials needed, sub-consultant fees, and other costs related to implementing a successful project. All charges listed on APPENDIX D must be justified and evidence of need documented in the proposal.

Evaluation Factors:

The evaluation of each Offeror's cost proposal will be conducted recognizing this is a federally funded program with target funding amounts reviewed based on how the distribution of costs are reasonable to each proposed task.

Alta Planning and Design

The Evaluation Committee awarded Alta Planning and Design 210 points based on the Offeror's response. GIS Mapping addressed in proposal. There is a good allocation of Program Implementation. However, adequate funding for public engagement appears to be lacking. Alta states they would hire local people in the proposal, but it's not in the budget, even though they

provided a detailed cost estimate. Alta did not include the cost for Online Input Map, though they showed an expense related to this and no hours related.

Santa Fe Conservation Trust

The Evaluation Committee awarded Santa Fe Conservation Trust 230 points based on the Offeror's response. Santa Fe Conservation Trust addresses Santa Fe MPO Staff Allocation. Large source of hours allocated to community and stakeholder engagement. Hourly rates are very reasonable which provides most hours to focus on the project. Lots of good things were represented in the cost proposal, some items could be rebalanced like more for school staff such as stipends and materials. They included expectations from the MPO indicating they have thought about where they would like to include MPO involvement. Though this wasn't mandatory, it indicates where they want to use the MPOs expertise and services. The fact that they have included the MPO to a high degree for "stakeholder" engagement is a good choice because it shows the commitment, they have in getting the city to commit and stay committed to these projects.

Santa Fe Conservation Trust's budget included a stipend for teachers and community leaders- this seems like an innovative and much appreciated use of funds

Toole Design

The Evaluation Committee awarded Toole Design 190 points based on the Offeror's response. Toole addresses Santa Fe MPO Staff Allocation and shows a good allocation of program Implementation. GIS Mapping was not addressed. Higher hourly rates allow less time for project focus.

Wilson and Company

The Evaluation Committee awarded Wilson and Co. 120 points based on the Offeror's response.

GIS Mapping was addressed in proposal. There is a good allocation of community and stakeholder engagement the fee shows the highest fee proposed (Option Year 1 and 2 the same). Wilson's cost proposal lacks detail and seems too low. This indicates that perhaps they do not fully understand the true scope of the project or level of effort required to successfully carry out such a program.

Section IV.C.4, NM Preferences

The Local Preferences shall not apply because the expenditures for this RFP includes federal funds.

Evaluation Committee Recommendation

Based on the Evaluation Committee's evaluation of the proposals submitted, as detailed above, the committee respectfully recommends awarding a contract to perform the scope of work as outlined in the Safe Routes to School Program RFP #21/09/P to the one (1) proposal receiving the highest scores along the natural point-break; Santa Fe Conservation Trust; subject to agreement between the City of Santa Fe and the selected Offeror. Awarding a contract to the recommended Offeror is in the best interest and is most advantageous to the City, and City clients.

Project No: S100670
Control No: S100670

GRANT AGREEMENT

This grant agreement (Agreement) is between the New Mexico Department of Transportation (**Department**) and the City of Santa Fe (**Grantee**). The Department and the Grantee hereafter (collectively referenced as, "the Parties"), agree as follows:

1. **Award.** The Department hereby awards the Grantee funding for the following project: "Santa Fe Safe Routes to School Program," (the Project). The total Project cost is $343,406. The local match shall be 14.56% and the Federal (reimburseable) share shall be 85.44%, as shown in Exhibit A.

2. **Scope of Work.** The Grantee shall perform the professional services stated in Exhibit A.

3. **Payment.** The Department will reimburse the Grantee after receipt of a reimbursement request with supporting documentation showing that expenses have been paid by the Grantee.

   a. The Grantee acknowledges that the Department will not pay for any expenses incurred prior to the Parties signing the Agreement, after termination of the Agreement, or in excess of the amount of the federal award noted in Section 1.

   b. Reimbursement requests must be submitted at least quarterly (federal fiscal year) no later than twenty-five (25) days after the last day of the quarter. Each reimbursement request shall reflect the correct federal/local match ratio as applied to the total of costs incurred by the Grantee for the quarter, as noted in Section 1.

   c. When the Grantee pays more than its share of the total for a particular period, it must be clearly noted in the reimbursement request, and the amount of overpayment (over-match) will not be applied to future reimbursement requests.

   d. Requests shall be submitted using the cover sheet provided by the Department, shall be completed fully and correctly, and shall be signed by the Grantee's designated representative. Requests must certify that invoices accurately reflect work completed, amount due and remaining balance.

e. The Department reserves the right to withhold reimbursement if any of the aforementioned requirements are not met.

f. The Grantee shall submit its final reimbursement request no later than thirty (30) days after termination of this Agreement.

g. If the Grantee fails to submit a reimbursement request for two contiguous quarters, the Grantee shall provide written justification for the lack of activity to the Department within fifteen (15) days of the end of the second contiguous quarter.

4. **Records and Audit.** The Grantee shall strictly account for all receipts and disbursements related to this Agreement. The Grantee shall record costs incurred, services rendered and payment received, and shall maintain these financial records during the term of this Agreement and for three (3) years from the date of submission of the final reimbursement request pursuant to 2 CFR Section 200.333 and 1.21.2 NMAC. On request, the Grantee shall provide the financial records to the Department and the state auditor, and shall allow the Department and the state auditor to inspect or audit these financial records during business hours at the Grantee's principal office during the term of this Agreement and for three (3) years from the date of submission of the final reimbursement request. If the financial records provided by the Grantee are insufficient to support an audit by customary accounting practices, the Grantee shall reimburse the Department for any expense incurred related to the insufficient documentation within thirty (30) days of written notice from the Department. If an audit or inspection reveals that funds were used for expenses not directly related to the project, or otherwise used inappropriately, or that payments were excessive or otherwise erroneous, the Grantee shall reimburse the Department for those funds or payments within thirty (30) days of written notice.

5. **Officials Not to Benefit.** The Parties intend that no member of the New Mexico legislature or the United States Congress, or any public official, public employee or tribal council member, in that person's individual capacity, will benefit from this Agreement.

6. **Termination.** The Department may terminate this Agreement for any reason, by giving the Grantee thirty (30) days written notice. On receipt of a "Notice of Cancellation," the Grantee shall suspend work unless otherwise directed by the Department in writing. The Grantee may only terminate this Agreement based on the Department's uncured, material breach of the Agreement and by giving the Department thirty (30) days written notice. The Parties acknowledge that termination will not nullify obligations incurred prior to termination.

7. **Appropriations.** The Grantee acknowledges that:

a. this Agreement is contingent upon sufficient appropriations and authorizations being made by the Congress of the United States or the New Mexico state legislature;

b. if sufficient appropriations and authorizations are not made, this Agreement will terminate upon written notice by the Department to the Grantee; and

c. the Department will not expend any funds until they are approved for expenditure, and the Department's determination as to whether approval has been granted will be final.

8. **Compliance with Law.** The Grantee, its employees, agents and contractors, shall comply with the following:

a. Title VI and Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act of 1967, the Americans with Disabilities Act of 1990, the ADA Amendments Act of 2008, the Environmental Justice Act of 1994, the Civil Rights Restoration Act of 1987, and 49 C.F.R. Section 21;

b. all federal and state laws, rules, and regulations, and executive orders of the Governor of the state of New Mexico pertaining to equal employment opportunity, including the Human Rights Act, NMSA 1978, Sections 28-1-1 through 28-1-15, (and in accordance with suc, the Grantee states that no person, on the grounds of race, religion, national origin, sex, sexual orientation, gender identity, spousal affiliation, serious medical condition, age or handicap, will be excluded from employment with or participation in, denied the benefits of, or otherwise subjected to, discrimination in any activity performed under this Agreement. If the Grantee it is found to be in violation of any of these requirements, the Grantee shall take prompt and appropriate steps to correct such violation); and

c. state laws applicable to workers compensation benefits for the Grantee's employees, including the Workers' Compensation Act, NMSA 1978, Sections 52-1-1 through 52-1-70, and related regulations.

9. **Notices.** For a notice under this Agreement to be valid, it must be in writing; be delivered by hand, registered or certified mail return receipt requested and postage prepaid, fax or email; and be addressed as follows:

to the Department at:
Maggie Moore
Urban and Regional Planner
New Mexico Department of Transportation
P.O. Box 1149

rcthompson@santafenm.gov

10. **Severability**. The terms of this Agreement are lawful; performance of all duties and obligations shall confirm with and do not contravene any state, local, or federal statute, regulation, rule, or ordinance. The parties intend that if any provision of this Agreement is held to be unenforceable, the rest of the Agreement will remain in effect as written.

11. **Tort Claims.** Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred in connection with the Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Sections 41-4-1, *et seq.*, as amended. This paragraph is intended only to define the liabilities between the Parties and it is not intended to modify in any way, the Parties' liabilities as governed by common law or the New Mexico Tort Claims Act.

12. **Jurisdiction and Venue.** The Grantee acknowledges the jurisdiction of the courts of the state of New Mexico for any adversarial proceeding arising out of this Agreement, and that venue for any such proceeding will be in the First Judicial District Court for the county of Santa Fe, New Mexico.

13. **Project Responsibility.** The Grantee acknowledges that it bears sole responsibility for performing the services referred to in Section 2.

14. **Term.** This Agreement takes effect upon signature of all Parties. If the Grantee does not deliver the signed Agreement to the Department within sixty (60) days of the Department's signature, the Agreement will be voidable by the Department. The Agreement terminates at 12:00 a.m. on September 30, 2022 unless earlier terminated as provided in Section 6 or Section 7.

15. **Applicable Law.** The laws of the state of New Mexico, without giving effect to its choice of law principles, govern all adversarial proceedings arising out of this Agreement.

16. **Amendment.** No amendment of this Agreement will be effective unless it is in writing and signed by the Parties.

17. **No Third-party Beneficiary**. This Agreement does not confer any rights or remedies on anyone other than the Department and the Grantee.

18. **Scope of Agreement and Merger.** This Agreement constitutes the entire understanding

between the Parties with respect to the subject matter of the Agreement and supersedes all other agreements, whether written or oral, between the Parties, except that this Agreement does not supersede the Grantee's rights under any other grant Agreement.

19. **Disadvantaged Business Enterprise (DBE).** The following provision applies to a USDOT-assisted federally funded Agreement only. The recipient shall not discriminate on the basis of race, color, national origin, sex, or other protected class in the award and performance of any USDOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR part 26. The recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure nondiscrimination in the award and administration of USDOT-assisted contracts. The recipient's DBE program, as required by 49 CFR Part 26 and as approved by USDOT, is incorporated by reference in this Agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this Agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 *et seq.*).

The remainder of this page is intentionally left blank.

Each party is signing this Agreement on the date stated opposite that party's signature.

Exhibit A
SCOPE OF WORK AND BUDGET

1. **Scope of Work**. The Grantee shall complete and oversee the following activities for the Santa Fe Public Schools Safe Routes to School (SRTS) Program:

(1) Hire, designate or employ a SRTS Program Manager to develop a sustainable SRTS program for Kindergarten through 8th grade schools within the Santa Fe Public School District that focuses on the 6 E's of Safe Routes to School (Education, Encouragement, Equity, Engineering, Evaluation, and Enforcement) and further enables students to safely walk or bicycle between home and school.

(2) Develop a Santa Fe Safe Routes to School Action Plan.

(3) Establish a local SRTS Team or Coalition to guide the development of the Action Plan and implement strategies identified in the local SRTS Action Plan and the program as a whole.

(4) Pursue relevant and appropriate training opportunities for program manager, local champions or other school representatives.

(5) Build a sustainable SRTS program to include elements of the 6 E's to include:

a) an educational component that develops and/or utilizes engaging and age appropriate materials and curricula around pedestrian & bicycle safety, health and wellness benefits from walking and bicycling, the broad range of transportation choices available in the community, driver responsibility and awareness, and other relevant information to address specific local needs as identified;

b) an encouragement component that includes school specific Walk and Bike to School maps, regular activities and events, such as Walk and Roll to school day, Walking Wednesdays, Two-wheel Tuesdays, and other events and programs as developed by the individual schools, such as a Walking School Bus and/or Bicycle Train program, to incorporate SRTS into each school's unique culture;

c) an equity component to ensure underserved and vulnerable populations are engaged and empowered, and unique barriers that underserved populations face are identified, analyzed, and addressed;

d) an engineering component to evaluate walking and biking routes to schools and make recommendations to city traffic engineers and Santa Fe School District leadership for infrastructure projects to make the streets, sidewalks and walkways safe for students and the community;

e) an evaluation component to assess, review and analyze program

effectiveness, monitor outcomes, conduct parent and student survey's, and employ the assistance (via stipends) of teachers and school administrators to assist in data gathering and monitoring of transportation patterns at each school; and

f) an enforcement component to coordinate and facilitate traffic safety enforcement efforts with local law enforcement, crossing guards, school administrators and the general public.

2. Budget

City of Santa Fe, New Mexico
Memorandum

DATE: **December 23, 2020**

TO: **Governing Body, Finance Committee and Public Works and Utilities Committee**

VIA: **Regina Wheeler, Public Works Department Director** RW

FROM: **Curt Temple, Facilities Division Project Administrator** CT

ACTION REQUESTED:
Approval of Amendment #1 to Service Contract 20-0263 with FacilityBUILD, Inc to increase compensation by $445,000 to a total of $900,000 including NMGRT for design/build services on a new restroom in downtown Santa Fe.; (Curt E. Temple, Facilities Division Project Administrator, cetemple@santafenm.gov, 505-955-5937 Office / 505-795-2439 Mobile)

BACKGROUND AND SUMMARY:
The City of Santa Fe contracted for design/build services for the development of a new public restroom facility at the Water Street Municipal Parking Lot, at 100 E. Water Street, on June 10, 2020. FacilityBuild, Inc was procured through state price agreement to provide comprehensive architectural and construction contractor design/build services that include existing conditions analysis, programming and recommendations, schematic design, historic review and design approval, design development, construction documents, permitting, construction and construction administration as required.

Partial funding for downtown restroom in the amount of $550,000 was appropriated by the legislature and the grant accepted by the City in July 2019. Based on conceptual design of the restrooms, it was determined that it would cost an estimated $900,000 to design and build a facility that met community and operational needs. Staff has secured additional funding from impact fees and is amending the design build contract for the expected full amount of the project. This contract amount includes $90,000 for unforeseen circumstances. The contract expiration date remains the same at 06/30/2022. The project is in schematic design and construction is estimated to complete near January 2022.

Contract History:

Amendment #1:
1. Add $445,500 including applicable NMGRT for a total not to exceed amount of $900,000 to incorporate additional funds from impact fees to meet current project estimate.

PROCUREMENT METHOD:
NM Statewide Price Agreement (NMSPA) #00-00000-20-00110, which expires on June 30, 2021.

Munis Contract # 3201958

CITY OF SANTA FE
AMENDMENT No. 1 TO
CONTRACT
ITEM# 20-0263

AMENDMENT No. 1 (the "Amendment") to the CITY OF SANTA FE CONTRACT, dated June 10, 2020 the "Agreement"), between the City of Santa Fe (the "City") and FacilityBuild, Inc. (the "Contractor"). The date of this Amendment shall be the date when it is executed by the City and the Contractor whichever occurs last.

RECITALS:

A. Under the terms of the Agreement, Contractor has agreed to provide professional design/construction services for the City of Santa Fe.

B. Pursuant to Article 8 of the Agreement, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged by the parties, the City and the Contractor agree as follows:

1. COMPENSATION

Article 3 of the Agreement is amended to increase the amount of compensation by a total of four hundred forty five thousand five hundred dollars ($445,500.00), including applicable gross receipts taxes and as described in Exhibit "A-1" attached hereto so that Article 3 reads in its entirety as follows:

The City shall pay to the Contractor based upon fixed prices for each Deliverable item as listed here.

Deliverable item:	U/I (unit of issue)	Price
01 Design/Build Services		$900,000.00

Unanticipated Cost Overruns:	U/I (unit of issue)	Price
01 10% Unanticipated Cost Overrun		$90,000.00

*In the event that the design/construction exceeds the deliverable amount, the City, at its discretion, may agree to pay additional compensation to the contractor in an amount less than or equal to 10% of the design/construction cost, $90,000.00.

The total compensation under this Agreement shall not exceed **$990,000.00 including applicable NMGRT (8.4375%).**

2. AGREEMENT IN FULL FORCE.

Except as specifically provided in this Amendment, the Agreement remains and shall remain in full force and effect, in accordance with its terms.

IN WITNESS WHEREOF, the parties have executed this Amendment No. 1 to the City of Santa Fe Contract as of the dates set forth below.

Telephone # (505) 955-5937

Physical Job Address: *100 EAST WATER STREET, SANTA FE NM 87501*

Plans and specifications provided by: *FACILITYBUILD, INC.*

Scope of Work:

After review of the plans by Lloyd & Associates Architects Dated 1/15/2020, Sheets HG001, HAD01, HAS01, HA101, HA102, HA201 and we have determined the construction cost will exceed the budget of $544,500 plus tax. To get into budget FacilityBUILD Inc. will need to redesign the project utilizing the drawings provided as a basis of design and as noted below;

Includes:

1) *The new design by FacilityBUILD Inc. will encompass as needed; design, construction, prevailing wages; performance and payment bonds; insurance; and permits.* ***2)*** *Revised plans will be developed as requested/directed by the owner. If owner's requested revisions exceed the agreed upon and not to exceed price further revisions in the scope of work (plan development) will be required prior to owner and contractor final agreement.* ***3)*** *Final design and construction cost will need be mutually agreed upon prior to proceeding to permit.*

Clarifications:

Final cost to be based upon final construction documents.
Lloyd & Associate services will not be part of the updated re-design.
The redesigned project will target the budget of $544,500.00 plus tax, which is a reduction in scope of about 30%.
No soils report was provided, one may be required to complete the design.
All items on the reference drawings are subject to revision, modification or elimination from the new scope of work.
In the event this project falls under Historical guidelines the designs may need historical society review and approval.
In the event the parties are unable to come to an agreement FacilityBUILD will be reimbursed for cost incurred, not to exceed 5% of the final construction cost.
All revisions in scope of work will be subject to the owners review and approval.

ITEM # 20-0263

City of Santa Fe Contract
Design/Build Services for a Downtown Restroom Facility for the City of Santa Fe

THIS AGREEMENT is made and entered into by and between the City of Santa Fe, herein after referred to as the "City", and **FacilityBuild, Inc** herein after referred to as the "Contractor."

IT IS MUTUALLY AGREED BETWEEN THE PARTIES:

1. **Definitions**

A. "Products and Services Schedule" refers to the complete list of products and services offered under this Agreement and the price for each. Product and service descriptions may be amended with the prior approval of the Agreement Administrator. New products and services shall not be added to the Products and Services Schedule.

B. "Business Hours" means 8:00 a.m. to 5:00 p.m. Mountain Time.

C. "You" and "your" refers **FacilityBuild, Inc** "We," "us" or "our" refers to the City and whose accounts are created under this Agreement.

2. **Scope of Work**

A. The Contractor shall perform all inclusive design/build services for the design and construction of a new restroom facility that will be located in the Water Street Parking Lot in downtown Santa Fe. This work will include architectural design, historic review, construction, adherence to prevailing wages, performance and payment bonds, insurance, permits and more particularly described in "Exhibit A" attached hereto and made a part thereof from **FacilityBuild, Inc**. This work is being procured via State Price Agreement #90-000-19-00057.

3. **Compensation**

The City shall pay to the Contractor in an amount that shall not exceed $544,500.00 including applicable New Mexico Gross Receipts Tax.

Deliverable item:	U/I (unit of issue)	Price
01 Design/Build Services		$502,132.57

The total compensation under this Agreement shall not exceed **$544,500.00 including applicable NMGRT (8.4375%).**

4. **Payment Provisions**

All payments under this Agreement are subject to the following provisions.

A. Acceptance - In accordance with Section 13-1-158 NMSA 1978, the City shall determine if the product or services provided meet specifications. Until the products or services have been accepted in writing by the City, the City

shall not pay for any products or services. Unless otherwise agreed upon between the City and the Contractor, within thirty (30) days from the date the City receives written notice from the Contractor that payment is requested for services or within thirty (30) days from the receipt of products, the City shall issue a written certification (by letter or email) of complete or partial acceptance or rejection of the products or services. Unless the City gives notice of rejection within the specified time period, the products or services will be deemed to have been accepted.

B. Payment of Invoice - Upon acceptance that the products or services have been received and accepted, payment shall be tendered to the Contractor within thirty (30) days after the date of invoice. After the thirtieth day from the date that written certification of acceptance is issued, late payment charges shall be paid on the unpaid balance due on the contract to the Contractor at the rate of 1.5 % per month. Contractor may submit invoices for payment no more frequently than monthly. Payment will be made to the Contractor's designated mailing address. Payment on each invoice shall be due within 30 days from the date of the acceptance of the invoice. The City agrees to pay in full the balance shown on each account's statement, by the due date shown on said statement.

5. **Term**

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED IN WRITING BY THE CITY. This Agreement shall begin on date approved by the City, and end on 6/30/2022. This Agreement shall not exceed a total of four years in accordance with NMSA 1978, §§ 13-1-150 through 152.

6. **Default and Force Majeure**

The City reserves the right to cancel all or any part of any orders placed under this contract without cost to the City, if the Contractor fails to meet the provisions of this contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of sub-contractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the sub-contractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this contract.

7. **Termination**

A. Grounds. The City may terminate this Agreement for convenience or cause. The Contractor may only terminate this Agreement based upon the City's uncured, material breach of this Agreement.

B. Notice; City Opportunity to Cure.

1. Except as otherwise provided in Paragraphs 7.A and 17, the City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Agreement upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Agreement may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Agreement, the Contractor is suspended or debarred by the City; or (iii) the Agreement is terminated pursuant to Paragraph 17, "Appropriations", of this Agreement.

C. Liability. Except as otherwise expressly allowed or provided under this Agreement, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Agreement. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS AGREEMENT.*

8. **Amendment**

A. This Agreement shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Agreement to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Agreement, pursuant to the termination provisions as set forth in Paragraph 7 herein, or to agree to the reduced funding.

9. **Status of Contractor**

The Contractor, and Contractor's agents and employees, are independent Contractors for the City and are not employees of the City. The Contractor, and Contractor's agents and employees, shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Agreement. The Contractor acknowledges that all sums received hereunder are personally reportable by the Contractor for income tax purposes, including without limitation, self-employment tax and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has written authority to do so, and then only within the strict limits of that authority.

10. **Assignment**

The Contractor shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the City.

11. **Subcontracting**

The Contractor shall not subcontract any portion of the services to be performed under this Agreement without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Agreement, nor shall any subcontract obligate direct payment from the City.

12. **Non-Collusion**

In signing this Agreement, the Contractor/Contractor certifies the Contractor/Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City.

13. **Inspection of Plant**

The City may inspect, at any reasonable time during Contractor's regular business hours and upon prior written notice, the Contractor's plant or place of business, or any subcontractor's plant or place of business, which is related to the performance of this contract.

14. **Commercial Warranty**

The Contractor agrees that the tangible personal property or services furnished under this Agreement shall be covered by the most favorable commercial warranties the Contractor gives to any customer for such tangible personal property or services, and that the rights and remedies provided herein shall extend to the City and are in addition to and do not limit any rights afforded to the City by any other clause of this order. Contractor agrees not to disclaim warranties of fitness for a particular purpose or merchantability.

15. **Condition of Proposed Items**

Where tangible personal property is a part of this Agreement, all proposed items are to be NEW and of most current production, unless otherwise specified.

16. **Records and Audit**

During the term of this Agreement and for three years thereafter, the Contractor shall maintain detailed records pertaining to the services rendered and products delivered. These records shall be subject to inspection by the City, the State Auditor and other appropriate state and federal authorities. The City shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose the right of the City to recover excessive or illegal payments.

17. **Appropriations**

The terms of this Agreement, and any orders placed under it, are contingent upon sufficient appropriations and authorization being made by the City Council for the performance of this Agreement. If sufficient appropriations and authorization are not made by the legislature,

this Agreement, and any orders placed under it, shall terminate upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

18. **Release**

The Contractor, upon final payment of the amount due under this Agreement, releases the City, its officers and employees, from all liabilities, claims and obligations whatsoever arising from or under this Agreement. The Contractor agrees not to purport to bind the City, unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

19. **Confidentiality**

Any confidential information provided to or developed by the Contractor in the performance of this Agreement shall be kept confidential and shall not be made available to any individual or organization by the Contractor without prior written approval by the City.

20. **Conflict of Interest**

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Agreement, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Agreement. The Contractor shall comply with any applicable provisions of the New Mexico Governmental Conduct Act and the New Mexico Financial Disclosures Act.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Agreement, will continue to comply with, and that this Agreement complies with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978.

C. Contractor's representations and warranties in Paragraphs A and B of this Paragraph are material representations of fact upon which the City relied when this Agreement was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Agreement to the contrary, the City may immediately terminate the Agreement.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

21. **Approval of Contractor Representative(s)**

The City reserves the right to require a change in Contractor representative(s) if the assigned representative(s) are not, in the opinion of the City, adequately serving the needs of the City.

22. **Scope of Agreement; Merger**

This Agreement incorporates all the agreements, covenants, and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements and understandings have been merged into this written Agreement. No prior agreements or understandings, verbal or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Agreement.

23. **Notice**

The Procurement Code, Sections 13-1-28 through 13-1-199 NMSA 1978, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

24. **Equal Opportunity Compliance**

The Contractor agrees to abide by all federal and state laws, and local Ordinances, pertaining to equal employment opportunity. In accordance with all such laws, rules, and regulations, the Contractor agrees to assure that no person in the United States shall on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If Contractor is found not to be in compliance with these requirements during the life of this Agreement, Contractor agrees to take appropriate steps to correct these deficiencies.

25. **Indemnification**

The Contractor shall hold the City and its employees harmless and shall indemnify the City and its employees against any and all claims, suits, actions, liabilities and costs of any kind, including attorney's fees for personal injury or damage to property arising from the acts or omissions of the Contractor, its agents, officers, employees or subcontractors. The Contractor shall not be liable for any injury or damage as a result of any negligent act or omission committed by the City, its officers or employees.

26. **New Mexico Tort Claims Act**

Any liability incurred by the City of Santa Fe in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

27. **Applicable Law**

The laws of the State of New Mexico shall govern this Agreement, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, § 38-3-1 (G). By execution of this Agreement, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

28. **Limitation of Liability**

The Contractor's liability to the City, for any cause whatsoever shall be limited to the purchase price paid to the Contractor for the products and services that are the subject of the City's, claim. The foregoing limitation does not apply to paragraph 25 of this Agreement or to damages resulting from personal injury caused by the Contractor's negligence.

29. **Incorporation by Reference and Precedence**

If this Agreement has been procured pursuant to a request for proposals, this Agreement is derived from (1) the request for proposal, (including any written clarifications to the request for proposals and any City response to questions); (2) the Contractor's best and final offer; and (3) the Contractor's response to the request for proposals.

In the event of a dispute under this Agreement, applicable documents will be referred to for the purpose of clarification or for additional detail in the following order of precedence: (1) amendments to the Agreement in reverse chronological order; (2) the Agreement, including the scope of work and all terms and conditions thereof; (3) the request for proposals, including attachments thereto and written responses to questions and written clarifications; (4) the Contractor's best and final offer if such has been made and accepted by the City; and (5) the Contractor's response to the request for proposals.

30. **Workers' Compensation**

The Contractor agrees to comply with state laws and rules applicable to workers' compensation benefits for its employees. If the Contractor fails to comply with the Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the City.

31. **Inspection**

If this contract is for the purchase of tangible personal property (goods), final inspection and acceptance shall be made at Destination. Tangible personal property rejected at Destination for non-conformance to specifications shall be removed at Contractor's risk and expense promptly after notice of rejection and shall not be allowable as billable items for payment.

32. **Inspection of Services**

If this contract is for the purchase of services, the following terms shall apply.

A. Services, as used in this Article, include services performed, workmanship, and material furnished or utilized in the performance of services.

B. The Contractor shall provide and maintain an inspection system acceptable to the

City covering the services under this Agreement. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the City and for as long thereafter as the Agreement requires. The City has the right to inspect and test all services contemplated under this Agreement to the extent practicable at all times and places during the term of the Agreement. The City shall perform inspections and tests in a manner that will not unduly delay or interfere with Contractor's performance.

C. If the City performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.

D. If any part of the services do not conform with the requirements of this Agreement, the City may require the Contractor to re-perform the services in conformity with the requirements of this Agreement at no increase in contract amount. When the defects in services cannot be corrected by re-performance, the City may:

(1) require the Contractor to take necessary action(s) to ensure that future performance conforms to the requirements of this Agreement; and

(2) reduce the contract price to reflect the reduced value of the services performed.

E. If the Contractor fails to promptly re-perform the services or to take the necessary action(s) to ensure future performance in conformity with the requirements of this Agreement, the City may:

(1) by contract or otherwise, perform the services and charge to the Contractor any cost incurred by the City that is directly related to the performance of such service; or

(2) terminate the contract for default.

33. **Insurance**

If the services contemplated under this Agreement will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Agreement, the following insurance coverage(s), naming the City as additional insured.

A. **Commercial General Liability** insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. **Business Automobile Liability** insurance for all owned, non-owned automobiles, with a combined single limit not less than $1,000,000 per accident.

C. **Broader Coverage and Limits.** The insurance requirements under this Agreement shall be the greater of (1) the minimum coverage and limits specified in this Agreement, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Agreement are sufficient to cover the obligations of Contractor hereunder.

D. Contractor shall maintain the above insurance for the term of this Agreement and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

34. **Impracticality of Performance**

A party shall be excused from performance under this Agreement for any period that the party is prevented from performing as a result of an act of God, strike, war, civil disturbance, epidemic, or court order, provided that the party has prudently and promptly acted to take any and all steps that are within the party's control to ensure performance. Subject to this provision, such non-performance shall not be deemed a default or a ground for termination.

35. **Invalid Term or Condition**

If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

36. **Enforcement of Agreement**

A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Agreement shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

37. **Patent, Copyright and Trade Secret Indemnification**

A. The Contractor shall defend, at its own expense, the City against any claim that any product or service provided under this Agreement infringes any patent, copyright to trademark in the United States or Puerto Rico, and shall pay all costs, damages and attorneys' fees that a court finally awards as a result of any such claim. In addition, if any third party obtains a judgment against the City based upon Contractor's trade secret infringement relating to any product or services provided under this Agreement, the Contractor agrees to reimburse the City for all costs, attorneys' fees and amount of the judgment. To qualify for such defense and or payment, the City shall:

i. give the Contractor prompt written notice within 48 hours of any claim;

ii. allow the Contractor to control the defense of settlement of the claim; and

iii. cooperate with the Contractor in a reasonable way to facilitate the defense or settlement of the claim.

B. If any product or service becomes, or in the Contractor's opinion is likely to become the subject of a claim of infringement, the Contractor shall at its option and expense:

i. provide the City the right to continue using the product or service and fully indemnify the City against all claims that may arise out of the City's use of the product or service;

ii. replace or modify the product or service so that it becomes non-infringing; or,

iii. accept the return of the product or service and refund an amount equal to the value of the returned product or service, less the unpaid portion of the purchase price and any

other amounts, which are due to the Contractor. The Contractor's obligation will be void as to any product or service modified by the City to the extent such modification is the cause of the claim.

38. **Survival**

The Agreement paragraphs titled "Patent, Copyright, Trademark, and Trade Secret Indemnification; Indemnification; and Limit of Liability" shall survive the expiration of this Agreement. Software licenses, leases, maintenance and any other unexpired Agreements that were entered into under the terms and conditions of this Agreement shall survive this Agreement.

39. **Disclosure Regarding Responsibility**

A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty thousand dollars ($60,000.00) with any City for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Agreement. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Agreement. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Agreement pursuant to the conditions set forth in Paragraph 7 of this Agreement.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts during the term of this Agreement. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may

suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

40. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or Interrupt the work in whole or in part for such period of time as the City may determine. The contract sum and contract time shall be adjusted for increases in cost and/or time associated with Contractor's compliance therewith. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. Any compensation requested for which entitlement is granted and the contract sum adjusted, shall have profit included (for work completed) and for cost only (not profit) for Contractor costs incurred directly tied to the suspension itself and not otherwise covered by Contract remedy. Any change in Total Compensation must be reflected in an Amendment executed pursuant to Section 8 of this Agreement.

41. **Construction Contract Performance and Payment Bond.**

A. When a construction contract is awarded in excess of twenty-five thousand dollars ($25,000), the following bonds or security shall be delivered to the City and shall become binding on the parties upon the execution of the contract. If the Contractor fails to deliver the required performance and payment bonds, the Contractor's bid shall be rejected, its bid security shall be enforced to the extent of actual damages. Award of the contract shall be made pursuant to the Procurement Code in the following manner:

(1) a performance bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the United States treasury department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract; and

(2) a payment bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the United States treasury department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract, for the protection of all persons supplying labor and material to the contractor or its subcontractors for the performance of the work provided for in the contract.

B. A subcontractor shall provide a performance and payment bond on a public works building project if the subcontractor's contract for work to be performed on a project is one hundred twenty-five thousand dollars ($125,000) or more.

42. **Notification**

Either party may give written notice to the other party in accordance with the terms of this Paragraph. Any written notice required or permitted to be given hereunder shall be deemed to have been given on the date of delivery if delivered by personal service or hand delivery or three (3) business days after being mailed.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

- You have read this Electronic Record and Signature Disclosure (ERSD); and
- You can print this ERSD on paper, or you can save and/ or send this ERSD to a location where you can print this ERSD, for your future reference and access; and
- Until or unless you notify SPD as stated in this ERSD, you consent to exclusively receive through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by SPD during the course of your electronic signature relationship with SPD.

Valerie Paulk
New Mexico State Purchasing Agent

Date: 6/26/2020

x **This Agreement was signed on behalf of the State Purchasing Agent**

JDL

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

Terms and Conditions

(Unless otherwise specified)

1. **General:** When the State Purchasing Agent or his/her designee issues a purchase document in response to the Vendor's bid, a binding contract is created.

2. **Variation in Quantity:** No variation in the quantity of any item called for by this order will be accepted unless such variation has been caused by conditions of loading, shipping, packing or allowances in manufacturing process and then only to the extent, if any, specified in this order.

3. **Assignment:**

a. Neither the order, nor any interest therein, nor any claim thereunder, shall be assigned or transferred by the Vendor, except as set forth in Subparagraph 3b or as expressly authorized in writing by the State Purchasing Agent or his/her designee. No such assignment or transfer shall relieve the Vendor from the obligations and liabilities under this order.

b. Vendor agrees that any and all claims for overcharge resulting from antitrust violations which are borne by the State as to goods, services, and materials purchased in connection with this bid are hereby assigned to the State.

4. **State Furnished Property:** State furnished property shall be returned to the State upon request in the same condition as received except for ordinary wear, tear and modifications ordered hereunder.

5. **Discounts:** Prompt payment discounts will not be considered in computing the low bid. Discounts for payment within twenty (20) days will be considered after the award of the contract. Discounted time will be computed from the date of receipt of the merchandise invoice, whichever is later.

6. **Inspection:** Final inspection and acceptance will be made at the destination. Supplies rejected at the destination for nonconformance with specifications shall be removed at the Vendor's risk and expense, promptly after notice of rejection.

7. **Inspection of Plant:** The State Purchasing Agent or his/her designee may inspect, at any reasonable time, the part of the Contractor's, or any subcontractor's plant or place of business, which is related to the performance of this contract.

8. **Commercial Warranty:** The Vendor agrees that the supplies or services furnished under this order shall be covered by the most favorable commercial warranties the Vendor gives for such to any customer for such supplies or services. The rights and remedies provided herein shall extend to the State and are in addition to and do not limit any rights afforded to the State by any other clause of this order. **Vendor agrees not to disclaim warranties of fitness for a particular purpose of merchantability.**

9. **Taxes:** The unit price shall exclude all state taxes.

10. **Packing, Shipping and Invoicing:**

a. The State's purchasing document number and the Vendor's name, user's name and location shall be shown on each packing and delivery ticket, package, bill of lading and other correspondence in connection with the shipments. The user's count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing ticket.

b. The Vendor's invoice shall be submitted duly certified and shall contain the following information: order number, description of supplies or services, quantities, unit price and extended totals. Separate invoices shall be rendered for each and every complete shipment.

c. Invoices must be submitted to the using agency and NOT the State Purchasing Agent.

11. **Default:** The State reserves the right to cancel all or any part of this order without cost to the State, if the Vendor fails to meet the provisions of this order and, except as otherwise provided herein, to hold the Vendor liable for any excess cost occasioned by the State due to the Vendor's default. The Vendor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

negligence of the Vendor, such causes include but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the State shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Vendor to meet the required delivery scheduled. The rights of the State provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this order.

12. **Non-Collusion:** In signing this bid the Vendor certifies he/she has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the State Purchasing Agent or his/her designee.

13. **Nondiscrimination:** Vendor doing business with the State of New Mexico must be in compliance with the Federal Civil Rights Act of 1964 and Title VII of the Act (Rev. 1979) and the Americans with Disabilities Act of 1990 (Public Law 101-336).

14. **The Procurement Code:** Sections 13-1-28 through 13-1-199 NMSA 1978, imposes civil and criminal penalties for its violation. In addition the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

15. **Items:** All bid items are to be NEW and of most current production, unless otherwise specified.

16. **Payment for Purchases:** Except as otherwise agreed to: late payment charges may be assessed against the user state agency in the amount and under the conditions set forth in Section 13-1-158 NMSA 1978.

17. **Workers' Compensation:** The Contractor agrees to comply with state laws and rules pertaining to Workers' Compensation benefits for its employees. If the Contractor fails to comply with Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the contracting agency.

18. **Submission of Bid:** Bids must be submitted in a sealed envelope with the bid number and opening date clearly indicated on the bottom left hand side of the front of the envelope. Failure to label bid envelope will necessitate the premature opening of the bid in order to identify the bid number.

19. **Contractor Personnel**: Personnel proposed in the Contractor's written bid to the Procuring Agency are considered material to any work performed under this Price Agreement. Once a Purchase Order or contract has been executed, no changes of personnel will be made by the Contractor without prior written consent of the Procuring Agency. Replacement of any Contractor personnel, if approved, shall be with personnel of equal ability, experience, and qualifications. The Contractor will be responsible for any expenses incurred in familiarizing the replacement personnel to insure their being productive to the project immediately upon receiving assignments. Approval of replacement personnel shall not be unreasonably withheld. The Procuring Agency shall retain the right to request the removal of any of the Contractor's personnel at any time.

20. **Subcontracting:** The Contractor shall not subcontract any portion of the Price Agreement without the prior written approval of the Procuring Agency. No such subcontracting shall relieve the Contractor from its obligations and liabilities under this Price Agreement, nor shall any subcontracting obligate payment from the Agency.

21. **Records and Audit:** The Contractor shall maintain detailed time and expenditure records that indicate the date, time, nature, and cost of services rendered during this Price Agreement's term and effect, and retain them for a period of three (3) years from the date of final payment under this Price Agreement. The records shall be subject to inspection by the Agency, State Purchasing Division, Department of Finance and Administration, and for Information Technology contracts, State Chief Information Officer. The Agency shall have the right to audit billings, both before and after payment. Payment for services under this Price Agreement shall not foreclose the right of the Agency to recover excessive or illegal payments.

22. **Subcontracts:** The foregoing requirements for Contractor Personnel, Subcontracting, and Audit shall be inserted into all subcontracts from the prime contractor to the subcontractor.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

New Mexico Employees Health Coverage

A. If Contractor has, or grows to, six (6) or more employees who work, or who are expected to work, an average of at least 20 hours per week over a six (6) month period during the term of the contract, Contractor certifies, by signing this agreement, to have in place, and agrees to maintain for the term of the contract, health insurance for its New Mexico Employees and offer that health insurance to its New Mexico Employees if the expected annual value in the aggregate of any and all contracts between Contractor and the State exceeds $250,000 dollars.

B. Contractor agrees to maintain a record of the number of its New Mexico Employees who have (a) accepted health insurance; (b) declined health insurance due to other health insurance coverage already in place; or (c) declined health insurance for other reasons. These records are subject to review and audit by a representative of the state.

C. Contractor agrees to advise all of its New Mexico Employees of the availability of State publicly financed health care coverage programs by providing each of its New Mexico Employees with, as a minimum, the following web site link to additional information: https://bewellnm.com.

D. For purposes of this Paragraph, the following terms have the following meanings:

(1) "New Mexico Employee" means any resident of the State of New Mexico employed by Contractor who performs the majority of the employee's work for Contractor within the State of New Mexico, regardless of the location of Contractor's office or offices; and

(2) "offer" means to make available, without unreasonable restriction, enrollment in one or more health coverage plans and to actively seek and encourage participation in order to achieve the goals of Executive Order 2007-049. This could include State publicly financed public health coverage programs such as *Insure New Mexico!*

Statewide Price Agreement

Article I – Statement of Work
Under the terms and conditions of this Price Agreement all State of New Mexico agencies, commissions, institutions, political subdivisions and local bodies allowed by law may issue orders for items and/or services described herein. The terms and conditions of this Price Agreement shall form a part of each order issued hereunder.

The items and/or services to be ordered shall be as listed under Article IX - Price Schedule. All orders issued hereunder will bear both an order number and this Price Agreement number. It is understood that no guarantee or warranty is made or implied by the New Mexico State Purchasing Agent, his/her designee or the user that any order for any definite quantity will be issued under this Price Agreement. The Contractor is required to accept the order and furnish the items and/or services in accordance with the articles contained hereunder for the quantity of each order.

Article II – Term
The term of this Price Agreement, for issuance of orders, shall be as indicated in the specifications.

Article III – Specifications
Items and/or services furnished hereunder shall conform to the requirements of specifications and/or drawings applicable to items listed under Article IX-Price Schedule. Orders issued against this schedule will show the applicable Price Agreement item(s), number(s), and price(s); however they may not describe the item(s) fully.

Article IV – Shipping and Billing Instructions
Contractor shall ship in accordance with the following instructions: Shipment shall be made only against specific orders which the user may place with the Contractor during the term; The Contractor shall enclose a packing list with each shipment listing the order number, price agreement number and the commercial parts number (if any) for each item; Delivery shall be made as indicated on page1. If vendor is unable to meet stated delivery the State Purchasing Agent or his/her designee must be notified.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

Article V – Termination
The Agency may terminate this Agreement for convenience or cause. The Contractor may only terminate this Agreement based upon the Agency's uncured, material breach of this Agreement. Contractor shall give Agency written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the Agency's material breaches of this Agreement upon which the termination is based and (ii) state what the Agency must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the Agency does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the Agency does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach. Termination of this Contract, however, shall not affect any outstanding orders. This provision is not exclusive and shall not waive other rights and remedies afforded either party in the event of breach of contract or default. In such instances the contract may be cancelled effective immediately.

Article VI – Amendment
This Price Agreement may be amended by mutual agreement of the New Mexico State Purchasing Agent or his/her designee and the Contractor upon written notice by either party to the other. An amendment to this Price Agreement shall not affect any outstanding orders issued prior to the effective date of the amendment as mutually agreed upon, and as published by the New Mexico State Purchasing Agent or his/her designee. Amendments affecting price adjustments and/or the extension of a price agreement expiration date are not allowed unless specifically provided in the bid and price agreement specifications.

Article VII – Indemnity Clause
Contractor shall indemnify and hold harmless the State, its officers and employees, against liability, claims, damages, losses or expenses arising out of bodily injury to persons or damage to properties caused by, or resulting from Contractor's, and/or its employees, own negligent act or omission while Contractor, and/or its employees, perform or fails to perform its obligations and duties under the Terms and Conditions of this agreement. This save harmless and indemnification clause is subject to the immunities, provisions, and limitations of the Tort Claims Act (Section 41-4-1, et seq., N.M.S.A. 1978 comp. and Section 57-7-1 N.M.S.A. 1878 comp. and any amendments thereto.

It is specifically agreed between the parties executing this agreement that it is not intended by any of the provisions of any part of the agreement to create in the public or any member thereof a third party beneficiary or to authorize anyone not a party to the agreement to maintain a suit(s) for wrongful death(s), bodily and/ or personal injury(s) to person(s), damage(s) to property(ies) and/or any other claim(s) whatsoever pursuant to the provisions of this agreement. Vendor shall provide all insurance necessary to employees on the work site, including but not limited to Worker's Compensation.

Article VIII – Issuance or Orders
Only written signed orders are valid under this Price Agreement.

Article IX – Packing (if applicable)
Packing shall be in conformance with standard commercial practices.

Article X – Price Schedule
Prices as listed in the price schedule hereto attached are firm.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

The State of New Mexico wishes to establish a Statewide Price Agreement for on-call general construction services work by New Mexico licensed contractors to provide miscellaneous repairs, upgrades, improvements and new construction services for facilities and properties throughout the state of New Mexico.

Term:
The term of this Price Agreement shall be for one (1) year from date of award with the option to extend for a period of two (2) additional years, on a year-to-year basis, by mutual agreement of all parties and approval of the New Mexico State Purchasing Agent at the same price, terms and conditions. This Price Agreement shall not exceed three (3) years.

Compensation Caps:
The total cost of **each project**, including applicable gross receipts tax, shall not exceed Four Million Dollars **($4,000,000.00)**. This cap includes all change orders associated with the project.

The total cap for **this Statewide Price Agreement** is **Twelve Million Five Hundred Thousand Dollars ($12,500,000) per awarded Contractor** for the whole term of the Statewide Price Agreement.

MANDATORY REPORTING FOR AGENCIES AND LOCAL PUBLIC BODIES
The Agency or Local Public Body **MUST** report all work issued under this Price Agreement to the State Purchasing Division AND to the Legislative Finance Committee so that the cap thresholds can be monitored. A forthcoming amendment and/or communication from the State Purchasing Agent will contain the location/website(s) to report all work.

When the total cap of **Twelve Million Five Hundred Thousand Dollars ($12,500,000)** for this Statewide Price Agreement has been reached, the Contractor will be terminated from the Price Agreement.

Insurance:
The Contractor shall provide all insurance necessary for its employees on the project, including, but not limited to, Workman's Compensation Insurance. The Contractor agrees to comply with state laws and rules pertaining to Workers' Compensation Insurance coverage for its employees. If the Contractor fails to comply with the Workers' Compensation Act and applicable rules, when required to do so, this Price Agreement will be cancelled immediately.

Contractor shall indemnify and hold harmless the State and local public body, its officers, and employees, against liability, claims, damages, losses, or expenses arising out of bodily injury to persons or damage to properties caused by, or resulting from, Contractor's and/or its employees, own negligent acts or omissions while Contractor, and/or its employees perform or fail to perform its obligations and duties under the terms and conditions of this Price Agreement. This Save Harmless and Indemnification Clause is subject to the immunities, provisions, and limitations of the Tort Claims Act (Section 41-4-1, et seq., NMSA 1978 Comp. and Section 56-7-1 NMSA 1978 Comp.) and any amendments thereto.

It is specifically agreed between the parties executing this Price Agreement that it is not intended by any of the provisions of any part of the Price Agreement to create the public or any member hereof a third party beneficiary or to authorize anyone not a party to the Price Agreement to maintain a suit for wrongful death, bodily and/or personal injury to persons, damage to properties and/or other claims whatsoever pursuant to the provisions of this Price Agreement.

The Contractor shall provide public liability insurance for the minimum amount of one hundred thousand dollars ($100,000) for damage to or destruction of property arising out of each occurrence; the amount of three hundred thousand dollars ($300,000) to any person for any number of claims arising out of each occurrence for all damages other than property damage as permitted under the New Mexico Tort Claims Act; and the amount of five hundred

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

thousand dollars ($500,000) for all claims arising out of each occurrence. Umbrella or excess liability coverage shall not be considered as any part of the primary coverage.

All work covered by this Invitation to Bid shall be in accordance with applicable state laws, the International Building Code (IBC) and New Mexico building codes and is subject to the minimum wage rate determination issued by the New Mexico Department of Workforce Solutions, if applicable.

Wage Rates:
All work covered by this Invitation to Bid shall be in accordance with applicable state laws and is subject to the minimum wage rate determination issued by the Department of Workforce Solutions (DWS), if applicable.

A wage rate decision is required by the Public Works Minimum Wage Act for construction, demolition or renovation purposes on projects costing sixty thousand dollars ($60,000) or more and funded in part by state or local funding. The Contractor agrees to comply with the current prevailing wage rate schedule when applicable. For current wage rates or for additional information, visit: http://www.dws.state.nm.us. The agency or local public body will request a wage rate determination from the DWS.

Bonding:
A one hundred percent (100%) performance bond and a one hundred percent (100%) payment and material bond executed by a surety company authorized to do business in the state of New Mexico will be required of the successful bidder(s) prior to each project over twenty-five thousand dollars ($25,000). Said bonds must be provided to the requesting agency and are to be filed with the agencies purchasing office. Failure to comply shall result in the order being issued to another vendor and the difference being charged back to the awarded Contractor(s).

Other:
The awarded Contractor shall be responsible for all permits associated with this work as required by the State of New Mexico Construction Industries Division (CID) or the local Authority Having Jurisdiction (AHJ). The CID will issue permits for work performed at state-owned buildings.

Contractor Note:
No person shall act as a Contractor without a license issued by the Construction Industries Division, classified to cover the type of work to be performed. No bid on a contract shall be submitted unless the Contractor has a valid Contractor's license issued by the CID to bid and to perform the type of work to be undertaken, as set forth in § 60-13-12, NMSA 1978.

When submitting a quote for a specific project valued at more than sixty thousand dollars ($60,000) for any portion of a public works project greater than sixty thousand dollars ($60,000) that is subject to the New Mexico Public Works Act, the Contractor is required to be registered with the Labor and Industrial Division of the Department of Workforce Solutions prior to submitting its quote. The using agency may reject any quote that fails to provide a Public Works Registration Number for the prime Contractor and all other listed Contractors or subcontractors.

The Contractor will be contacted on an as needed, on-call basis to perform work associated with this Price Agreement. A Price Agreement award is without assurance of quantity or dollar amount of work to be performed. Failure to respond to the Using Agency's requests may be grounds for termination of this Price Agreement.

For questions, contact Michael Saavedra, State Purchasing Division, at (505) 827-0610.

Scope of Work:
Contractors will be contacted on an as needed basis to perform work associated with this Price Agreement. Contractors shall provide their cost for performing all the work called for in the Using Agency's scope of work for the project. Projects may be of short or long term duration, throughout the state in the designated Zones.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

Contractors shall have the technical staff to perform diagnostic services; provide design services as needed; and to provide professionally prepared, stamped drawings, if needed, to obtain installation or construction permits. The Contractor is responsible for obtaining all required licenses, fees and permits required by government agencies to perform the work.

Contractors shall be 'licensed Contractors" capable of providing all coordination, supervision and services required for comprehensive general building construction, renovations, upgrade and improvement projects and to provide new construction services including incidental design. The scope of an individual project may include equipment, fixtures and furniture whether attached or not to the building. It can include site and utility work including landscaping and parking lot/ minor road/ minor bridge work. The utility work can include building power systems such as solar panels, geothermal systems, water sourcing systems, water treatment and waste disposal/treatment systems. It may also include demolition and abatement projects. Identification and abatement of asbestos containing materials (ACM) may be performed under separate contracts. It can also include security and other low voltage installations with related controls and equipment.

Contractors shall provide all materials, labor, equipment and tools required to successfully complete the work requested. The Contractors shall be capable of providing a work force with supervision, adequate to perform work for a forty (40) hour work week during normal working hours with the option of working non normal or overtime hours if required.

Replacement systems and related equipment shall meet current minimum state mandated "Energy Star" energy conservation standards.

Subcontracting of work is allowed and shall be prior approved by the Using Agency. Subcontractors shall have the appropriate current and valid Contractor's licenses for their work. And shall furnish proof upon request.

Furnishing of submittal data for any/all new equipment and materials as well as O&M's when either/or are required, and deemed necessary for the facility is required. Training of site personnel for the proper operation of newly installed equipment/systems and its related controls will be performed and required for completion. This training must be acceptable to the person in charge of the facility.

Replacement mechanical/electrical/plumbing systems and related equipment shall meet current minimum state mandated "Energy Star" energy conservation standards.

The Contractor shall provide all protective coverings necessary to protect existing, adjacent finishes while performing its work. If any damage is encountered during the contractor's work, to other areas, the contractor will be held responsible for repairing any damage done by his employees, subcontractors and vendors.

The Contractor shall, at his own cost, restore any damage to existing, adjacent finishes damaged as a result of performing its work and to make new work inconspicuous with the existing, adjacent finishes.

The Contractor shall provide all clean-up for its operations and control of all construction debris. All work areas shall be maintained in a neat and workmanlike manner. All construction debris shall be removed from the work areas and disposed of at an approved waste disposal site. The Using Agency's trash container for the building shall not be used for disposal of any construction debris.

All work shall be according to current applicable State and National codes. All work shall be in strict compliance with the national and state building mechanical, plumbing, fire and electrical codes including SMACNA, and ASHRAE standards.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

Safety shall be of main concern and enforced by the contractor on site and will be periodically inspected by the State's qualified safety personnel. The Contractor shall comply with all local, state and federal laws governing safety, health and sanitation. The on-site Superintendent shall have a minimum OSHA 10 and preferably OSHA 30 card with them at all times when on the jobsite. The Using Agency shall not in any way be responsible for any fines set forth for such violations of codes, OSHA standards or any other governing agency having jurisdiction at the work site. The Contractor shall provide all needed safe guards, safety devices and protective equipment; take any actions necessary to protect the life and health of employees on the job; the safety of the public; and to protect the property of the Using Agency in connection with the performance of the work covered by this Price Agreement. Any work involving disconnect or switching of electrical service to a work area shall utilize LOCKOUT/TAGOUT identification practices.

All personnel working on the project and providing these services shall be experienced and certified in all areas related to this work and required by this Price Agreement. Journeymen level personnel shall have the ability and necessary skills to diagnosis problems and to make the appropriate decisions needed to provide these services.

Contractor's price shall include all labor costs, tools, equipment, materials, permits, overhead, profit, insurance and any other fees necessary to perform the work called for in the Using Agency's scope of work and drawings for this project. Any equipment required to have licensed operators shall be the responsibility of the contractor before any equipment is turned on at the jobsite.

The bid price for this ITB shall **not** include New Mexico gross receipts tax or local option tax(es). Such tax or taxes shall be added by the Contractor to its quote (line item on schedule of values) at the current tax rate at the project's location. As a separate item, the Using Agency shall ensure the appropriate gross receipts tax is added to the Contractor's project proposal and that it is encumbered in the Purchase Order. The prices quoted for each project represent the total compensation to be paid by the Using Agency for the goods and/or services provided including any and all labor, equipment, tools, materials, taxes, permits, licenses, or other costs necessary to complete the service or goods provided.

The Contractor shall provide all the services needed and called for in the Using Agency's scope of work, in addition to the requirements set forth in this Price Agreement.

Request for Quote (RFQ):
Each project under this Price Agreement will be individually described in a "Request for Quote (RFQ)". The RFQ will describe the scope of work, the duration of the project with the date of Substantial Completion and if there are liquidated damages for not meeting the date of substantial completion. The date of Substantial Completion is the date when the space can be occupied or the Work used/operated and is turned over to the User Agency. Final completion is the date when the project is totally complete, the punchlist work complete and the Contractor's final pay application/invoice is approved. The terms and conditions of the Contractor's Statewide Price Agreement will apply to all Purchase Orders which result from the accepted quote in response to the RFQ.

<u>There will be NO markups allowed for adding subcontractor costs and to cover general conditions (administrative costs and other related expenses) allowed on any of the quotes issued pursuant to this statewide price agreement. If a subcontractor is hired for the project the reimbursement must be at actual cost of the subcontractor's cost.</u>

The Contractor and its employees agree to cooperate with and to abide by the rules and requirements of the requesting Using Agency to not interfere with the daily operations of the Agency or to jeopardize the health, safety or welfare of the employees or general public conducting business with the Using Agency.

The Using Agency reserves the right to purchase materials directly from existing Statewide Price Agreements and other sources, and to provide these materials to the Contractor. The Contractor shall provide an itemized, quantifiable list of materials required for the project.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

If the Contractor is requesting reimbursement for materials used on the work, copies of the invoices for the materials must be included when submitting invoices/pay applications. The Contractor may NOT add markups for the materials purchased.

The Using Agency reserves the right to procure specialty services directly from its other Statewide Price Agreements and other sources to the awarded Contractor. Specialty services provided from other Statewide Price Agreements and other sources shall be coordinated by the Contractor.

The Using Agency reserves the right to obtain quotes from multiple vendors covered under this Statewide Price Agreement and award a project to a contractor based on the quotes.

When a service is needed, the Using Agency shall provide, at a minimum, a detailed scope of work and/or drawings defining work required.

If any equipment or building system cannot be economically repaired or has reached the end of its life cycle, the Contractor shall justify with costs and other information the need for replacement. If replacement is recommended, the Contractor will provide written justification for system and/or the model, size and type of unit recommended along with any applicable efficiency data. The Using Agency's and energy standards will be discussed and taken into consideration when proposing replacement units or systems.

The Contractor shall visit the site and compare the Using Agency's scope of work and/or drawings to the existing conditions and provide all services called for in addition to the requirements set forth in this Price Agreement.

The Contractor will be required to provide a written quote, to include the work to be performed and the amount of time required for the completion of the project and submit to the Using Agency at no cost to the Using Agency.

Prior to commencement of any work performed the Using Agency will issue a notice to proceed for the work upon receipt of a purchase order, based on the prices set forth by Contractor's quote. The work on any project to be performed under this Contract shall commence no later than ten (10) consecutive calendar days after the date of written "Notice to Proceed." On smaller projects, an email will suffice.

The Contractor shall begin the work based on the priority identified by the Using Agency. Any delay beyond the stated completion date shall be upon agreement by the Using Agency and the Contractor.

Where work is to be conducted in a state or local correctional or secured facility, security clearances and background checks that may be required by the facility for the Contractor and its employees must be obtained prior to commencement of any work at that facility. The Using Agency reserves the right to deny any employee of the Contractor, access to the facility should the employee be in violation of any criteria required for the security clearance.

The User Agency reserves the right to provide an escort and/or full time supervision of the Contractor and its employees during any or all phases of a project, should the Using Agency feel it is in its best interest to provide these extraordinary security services.

The Using Agency reserves the right to escort any or all employees of the Contractor off its property, for any inappropriate conduct or actions that jeopardize the safety, security or wellbeing of the facility or any individual. Inappropriate behavior by the Contractor, its employees or subcontractors may be grounds for immediate removal from this Price Agreement. Any employee of the Contractor found in violation of any law, while on the User Agency's property, will be prosecuted.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

Change Orders:
Any change orders to the project scope will require an additional RFQ with backup materials and labor costs and shall be substantiated without a doubt there was no way of knowing the additional services were needed when the original quote was provided. Change orders shall be managed closely by the Using Agency. Change order abuse shall be reported to the Procurement Specialist listed on the cover page of this Price Agreement. Preventative measure shall be taken by both the contractor and the Using Agency prior to issuing the Notice to Proceed. Such measures may include: soil tests (soil boring); clarification of ambiguity in the project plan, the scope of work, the RFQ, the drawings, etc.; the project scope should be completely defined and agreed upon before any work begins.

Using Agency's obligations:

- Shall provide, at a minimum, a detailed scope of work and/or drawings defining work required.
- Allow the Contractor limited use of on-site utilities for projects at an existing building.
- Shall provide periodic and/or random inspections of its projects. Using Agencies shall be responsible for providing its inspections, photography of the project's progress, and preparation of field observation reports.
- Conduct weekly on-site meetings with the Contractor, or on an as-needed basis, to ensure compliance with the scope of work for the project; provide assistance and guidance; to resolve problems arising during the project; and to ensure quality of work and materials being incorporated into the project.
- Process requests for payment within twenty-one (21) days of time/date stamped receipt of proper invoice and/or G702 & G703 Schedule of Values, Application and Certificate for Payment, when more than a single invoice applies to the contracted amount.
- If applicable, procure independent special inspections, commissioning, structural, soils testing with geotechnical reports and/or topographical survey.

Other Construction Related Terms and Conditions:

Time Considerations:
The work on any project to be performed under this Agreement shall commence no later than ten (10) consecutive calendar days after the date of written "Notice to Proceed." On smaller projects an email will suffice. The date of Substantial Completion shall be described in the RFQ. The date can be extended by the Using Agency by valid written Change Order.

Should the Contractor neglect, refuse, or otherwise fail to complete the Work on the project within the time specified in the RFQ, the Contractor agrees, in partial consideration for the award of the Purchase Order, to pay to the Using Agency the amount of dollars named in the RFQ per consecutive calendar day, not as a penalty, but as liquidated damages for such breach of the Purchase Order under this Price Agreement.

Mediation:
Any controversy or claim arising between the parties shall be settled by mediation if the parties cannot reach a mutually agreeable solution. The parties shall endeavor to resolve their disagreement by mediation which, unless the parties mutually agree otherwise, shall be in accordance with the procedures of the New Mexico Public Works Mediation Act (NMSA §13-4C-1 et seq.) except that before any party may select a mediator it must confer in good faith with the other party concerning the selection of a mutually acceptable mediator. Mediation shall proceed in advance of legal or equitable proceedings, which shall be stayed pending mediation for a period of **sixty (60) days** from the date of notice of mediation session, unless stayed for a longer period by agreement of the parties or court order.

Inspection of Work:
If a Purchase Order is issued for the purchase of services, the following terms shall apply when applicable:

A. Services include services performed, workmanship, and material furnished or utilized in the performance of services.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

B. The Contractor shall provide and maintain an inspection system acceptable to the Using Agency covering the services under the Purchase Order. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the Using Agency or other party to the Purchase Order during the term of performance of the Work and for as long thereafter as required.
C. The Using Agency has the right to inspect and test all services contemplated to the extent practicable at all times and places during the term of the Project. The Using Agency shall perform inspections and tests in a manner that will not unduly delay or interfere with Contractor's performance.
D. If the Using Agency performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in Purchase Order price, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.
E. If any part of the services do not conform with the requirements, the Using Agency may require the Contractor to re-perform the services in conformity with the requirements at no increase in Purchase Order amount. When the defects in services cannot be corrected by re-performance, the Using Agency may:
   (1)require the Contractor to take necessary action(s) to ensure that future performance conforms to the requirements; and
   (2) reduce the Purchase Order price to reflect the reduced value of the services performed.
F. If the Contractor fails to promptly re-perform the services or to take the necessary action(s) to ensure future performance in conformity with the requirements, the Using Agency may:
   (1) by Agreement or otherwise, perform the services and charge to the Contractor any cost incurred by the Using Agency that is directly related to the performance of such service; or
   (2) cancel the Purchase Order for default.

THE PROVISIONS OF THIS ARTICLE ARE NOT EXCLUSIVE AND DO NOT WAIVE THE USING AGENCY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THE PURCHASE ORDER/PRICE AGREEMENT .

Suspension, Delay or Interruption of Work:
The Using Agency may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the Work in whole or in part for such period of time as the Using Agency may determine.. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized.

Time Extension Costs:
Agreed Compensation for Overhead "General Conditions" for Changes to Time for Completion or Contract Completion Date for Changes to the Work**:** If the change in the Work also changes the Time for Completion or the Agreement Completion Date by adding days to complete the Work, an itemized accounting of the following General Conditions costs for direct Site overhead set forth in the subparagraph below may be considered as allowable costs for compensation. Home office overhead and other indirect overhead expenses are to be considered included in the allowable markups and not added into the General Conditions expenses.

Direct Site Overhead Expenses:
The Contractor's per diem expenses, as shown by the itemized accounting, for the following allowable, applicable, direct Site overhead expenses: The Site superintendent's pro-rata salary, temporary Site office trailer, temporary fencing, building utility costs, security, temporary storage and temporary Site utilities including basic telephone service, electricity, heat, water, and sanitary/toilet facilities, etc. for each day added.

"Per Diem Rate" means lodging, meals, and incidentals (excluding taxes). Reference Section Lodging by month and Section Meals & Incidentals Breakdown link https://www.gsa.gov/travel/plan-book/per-diem-rates/per-diem-rates-lookup/?action=perdiems_report&state=NM&fiscal_year=2020&zip=&city=

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

If at any time there is a delay in the critical path of the Work due to postponement, due to the Contractor's efforts to justify an extension of the time or an increase in the Agreement Price beyond the deadlines or due to the Contractor's refusal to proceed with any of the approved Work, such delay and any Contractor costs resulting from it shall not serve as the basis for the extension of the Time for Completion or Agreement Completion Date or for an increase in the Contract Price.

Clean Up and Storage:

A. The Contractor will provide off-site legal disposal of all waste products, trash, and debris. Using Agency's trash receptacles will not be used by the Contractor. Sanitary facilities will "not" be available at the job site. Contractor shall be responsible for the provision and maintenance of portable toilets.
B. The Contractor on a daily basis shall keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under the Agreement. At completion of the Work, the Contractor shall remove from and about the Project waste materials, rubbish, the Contractor's tools, construction equipment, machinery and surplus materials and shall then thoroughly clean the premises and the site to the Using Agency's satisfaction.
C. Materials or equipment shall be delivered to the project in the manufacturer's original sealed, labeled containers and shall be adequately protected against moisture, dust, tampering or damage from improper handling or storage. Materials shall not be delivered to the site before they are needed.
D. Storage of materials and construction equipment shall be coordinated with the Using Agency.

Permits and Fees:

A. IF APPLICABLE- The Contractor shall secure and pay for the Building Permit and other permits and governmental fees, licenses and inspections and Certificate of Occupancy necessary for proper execution and completion of the Work. Changes or modifications to the Work shall include all requirements of this paragraph.

B. The Contractor shall comply with and give notices required by laws, ordinances, rules, regulations and lawful orders of public authorities applicable to performance of the Work.

C. IF APPLICABLE- Certificates of Inspection, use and occupancy will be delivered to the Using Agency upon completion of the Work in sufficient time for occupation of the facility in accordance with the approved schedule for the Work. Contractor shall deliver a photocopy of the Building Permit to the Design Professional and Using Agency as soon as it is obtained.

Schedule, Progress Meetings and Reports:

A. The Contractor, promptly after being awarded a Project and before the first payment application, shall prepare and submit for the Using Agency's information a Critical Path Construction Schedule for the Work that indicates the intended start and completion of the various construction activities, which shall be implemented and adhered to by the Contractor, Subcontractors, material suppliers and equipment suppliers. At a minimum, the schedule shall be a GANTT type schedule and shall not exceed time limits allowed by the RFQ or Notice to Proceed with no fewer work breakdown events than line items of the Schedule of Values.

B. The Contractor shall perform the Work in general accordance with the most recent schedule submitted to the Using Agency.

C. Progress meetings shall be scheduled on a regular basis. The purpose will be to review the upcoming activities, any open issues and current progress. The Contractor shall keep any meeting minutes as needed. Progress schedules shall be updated regularly. A three week look-ahead schedule should be presented at every project meeting. A new schedule shall be presented with any change orders.

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

D. The Contractor shall prepare a Daily Report each day that Contractor, Subcontractors or any other entity are on the Project. The Daily Reports shall be maintained at the site and be well organized. The Using Agency may request copies at any time. The reports may include:
   1. report date and who prepared the report;
   2. weather conditions - low temp, high temp, visibility, humidity, wind, wind direction, cloud conditions, precipitation amount, other notes;
   3. companies present by name and their number of workers, work location, total man hours that day for each company;
   4. equipment - type, source, units of work done, location of work, hour meter reading;
   5. material brought to site - description, units, quantity, quality, location, time;
   6. visitors to site - name, company, time;
   7. safety concerns - company, contact, noticed by, work activity, safety issue, requirement, outcome; and,
   8. quality assurance and control - company, description of issue, specification section, issued by.

Close-out Requirements:

The Contractor shall submit to the Using Agency a separate and detailed Closeout Schedule indicating the date of Final Completion and all work to be completed before Final Completion including Close-Out requirements. The punch list of incomplete or inadequate work shall also be submitted when the work is substantially complete. Failure to include any item on the punch list does not alter the responsibility of the Contractor to complete all work in accordance with the Contract Documents.

Before final completion can be achieved, all Work must be complete and accepted including the following as applicable:

a. Work associated with Punch List(s);
b. testing, balance or performance operations complete and in agreement that associated work is in compliance with the Contract Documents;
c. one hard copy and one electronic copy in .pdf format of final approved test, balance or performance report(s) complete with directory of contents submitted to Using Agency;
d. as-Built drawings delivered in AutoCAD or electronic format;
e. written certification signed by Using Agency of delivery and stocking of extra material, equipment or components required by the Purchase Order at a location established by the Using Agency;
f. delivery of all warranties required by the Work;
g. all keys, passes, codes, software or other methods or components of control or security which have been correctly and adequately accounted for and closed-out;
h. completed Operations Liability insurance policy certificate, if applicable;
i. training of staff on all applicable building systems;
j. all Storm Water Pollution Prevention Permits (SWPPP) have been updated or closed;
k. utility transfer to User/Using Agency;
l. Operations and Maintenance Manuals;
m. a certified statement of Release of Liens (AIA Document G706A or approved form) and Consent of Surety.

Warranty:

The Contractor shall warrant its work (non-roofing and equipment), for materials and for workmanship furnished and performed under this Price Agreement for a period of one (1) year minimum from the date of acceptance or Substantial Completion. The Contractor shall warrant its work for repairs or restoration of existing systems, appliances and work for ninety (90) days from the date of acceptance or Substantial Completion. It is understood that some equipment is far beyond its normal life and a warranty cannot be extended/supplied. Contractor must pass on to the User Agency warranties of replaced roofs and equipment offered by the manufacturer.

Payment Provisions:

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

Generally payments are made on a thirty (30) day billing cycle. Payment for projects of less than thirty (30) day duration shall be paid upon the Using Agency's acceptance of the work.

All payments under this Agreement are subject to the following provisions:

A. Acceptance - In accordance with Section 13-1-158 NMSA 1978, the Agency shall determine if the Construction Work provided meets specifications. No payment shall be made for any work until the Work has been accepted in writing by the Using Agency. Unless otherwise agreed upon between the Using Agency and the Contractor, within fifteen (15) days from the date the Using Agency receives written notice from the Contractor that payment is requested for work, the Using Agency shall issue a written certification of complete or partial acceptance or rejection of the Work. Unless the Using Agency gives notice of rejection within the specified time period, the Work will be deemed to have been accepted.

B. Payment of Invoice - Upon acceptance that the Work has been received and accepted, payment shall be tendered to the Contractor within twenty one (21) days after the date of acceptance of an undisputed invoice.

C. The Contractor, before final payment of the amount due under this Contract, shall provide requested Close-out documents including any release of liens.

BID INFORMATION:
Hourly rates are requested for the three (3) levels of personnel. **All items for pricing must be filled in**. If one of the personnel listed is not relevant to your company, fill in a rate for a comparable employee that is on staff or could be on staff at a future time. For example, if the Superintendent also functions as the Journeyman or Experienced worker or vice versa, enter his rate for both items. Any blank items will cause a possible rejection of the bid for non-compliance.

Superintendent: a person with supervisory experience who maintains control of the work and work site. This person may or may not actually perform work on the project.

Journeyman or Experienced Worker: a person licensed by the State of New Mexico as a journeyman in the specialized field of work required and being performed or a person with many years of experience with a high rate of pay.

Laborer: a person with minimal experience, performing minor forms of labor.

Materials and Parts:
Contractor shall submit billings, based on actual Contractor costs for materials, less any applicable percentage for discounts. If there is no discount to be offered, enter zero. Contractor shall provide verification that materials purchased were used for the project. Any unused, billed for materials shall be turned over to the Using Agency for which the work was provided.

The State of New Mexico requires that all materials shall be new and of the highest quality and at the best attainable price available for the type of work being performed.

No used materials shall be used on the project. Recycled materials specifically prepared for reuse to meet "LEED" certification may be permitted, with the User Agency's approval.

Mileage and Per Diem: The work to be performed may be throughout the state based on the Zones. The Contractor's cost to perform the work may include any applicable per diem. Enter an amount even if it appears that none will be needed. Mileage bid shall not be greater than the Standard Mileage Rates provided by the IRS: https://www.irs.gov/tax-professionals/standard-mileage-rates/

DocuSign Envelope ID: CF0CAFC1-C847-48CD-B5CB-4BEFD91351D1

Contractors will be allowed travel time and mileage one way from vendor's place of business to jobsite in excess of fifty (50) miles. Mileage will be based on mapquest.com. The full round trip mileage will be calculated and then one hundred (100) miles will be subtracted in order to compute the allowable daily trip mileage for each project.

Hours Worked:

Regular Hours: Monday through Friday and 8 am through 5 pm.

After Hours: All hours not within the days and times listed for "Regular Hours".

The State of New Mexico reserves the right to award this Price Agreement to multiple vendors. Bidders must include pricing for ALL items starting from item 001 through item 013 in order to allow for accurate comparisons. If a Bidder fails to include one or more of those items his Bid may be rejected.

Bids for these services are requested on a statewide basis. Separate awards for each or combinations of zones may be utilized. Vendors are encouraged to bid only in the zones where the bidder may adequately perform the service in an efficient manner. The State anticipates awards to Contractors in 6 zones. Each zone will be evaluated separately. A Contractor may bid on multiple zones. The intent in the bid tabulation is to add up all of the items from item 001 through item 013 in order to determine the low bidder.

Zone ONE: San Juan, McKinley counties
Zone TWO: Colfax, Harding, Los Alamos, Mora, Rio Arriba, Santa Fe, San Miguel, Taos and Union counties.
Zone THREE: Bernalillo, Catron, Cibola, Sandoval, Socorro, Torrance and Valencia counties.
Zone FOUR: Dona Ana, Grant, Hidalgo, Lincoln, Luna, Otero, and Sierra counties.
Zone FIVE: Chavez, Eddy, Lea counties
Zone SIX: Curry, De Baca, Guadalupe, Quay, Roosevelt counties

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

- You have read this Electronic Record and Signature Disclosure (ERSD); and
- You can print this ERSD on paper, or you can save and/ or send this ERSD to a location where you can print this ERSD, for your future reference and access; and
- Until or unless you notify SPD as stated in this ERSD, you consent to exclusively receive through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by SPD during the course of your electronic signature relationship with SPD.

FROM: **Shirlene Sitton, Environmental Services Division Director** Shirlene Sitton
Shirlene Sitton (Jan 4, 2021 16:21 MST)

ITEM AND ISSUE:
Request for the Approval of the Purchase of Two Automated Side Load Collection Vehicles in the Total Amount of $743,982 for Residential Recycling and Waste Collection Services; Rush Truck Center via the Cooperative Education Services; Shirlene E. Sitton, ESD Division Director, (sesitton@santafenm.gov).

BACKGROUND AND SUMMARY:
Solid Waste collection vehicles have a useful life of seven to ten years. The Environmental Services Division (ESD) has implemented a regular yearly truck replacement schedule, averaging six vehicles per year. Eight trucks were included in the approved budget for FY20. However, due to the pandemic, ESD did not replace any collection units in FY20. ESD requested and was approved funding to purchase two automated side load vehicles (ASL) for residential collections within FY21. This request is for two of the vehicles from the FY20 list. The collection vehicles which are proposed for replacement are:

New Vehicle	Replacement/Addition	Replacement Unit	Purchase Cost
Peterbilt Model 520 CNG Auto Side Loader	Replacement	Asset #29816-a 2009 Autocar ASL	$371,991
Peterbilt Model 520 CNG Auto Side Loader	Replacement	Asset #54916-a 2014 Autocar manual split body recycling	$371,991
Total Amount			$743,982

The 2009 Autocar diesel model has surpassed its useful life and would need extensive work on the suspension to make this truck operational. The 2014 Autocar is a split-body recycling collection truck that is no longer in service since the switch to cart collections. Both are being replaced with CNG vehicles, which is important in meeting our goal of lowering carbon emissions by completing the transition of our fleet to cleaner burning fuel, and utilizing the new CNG slow-fill station completed one year ago. Additionally, replacing the manual collection recycling truck with an ASL helps ensure we have enough recycling trucks to add residential routes to accommodate the large increase in residential participation brought on by the pandemic.

PROCUREMENT METHOD:
The ESD will be utilizing a contract administered by the Cooperative Education Services (CES) with Rush Truck Center. The CES issued a solicitation that Rush Truck center responded to thru RFP 2020-3 lB, Contract #2020-31B-C120 (All Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services).

CONTRACT NUMBER:
Cooperative Education Services Munis vendor number 3553.

FUNDING SOURCE:
The Division budgeted and was approved for these vehicle replacements in FY 21 operating budget.
The funding source is:
Fund Name/Number: Environmental Services Division/510
Munis Org Name/Number: Residential Recycling/5100334 and Residential Collections/5100335 **Munis Object Name/Number:** Vehicles >1.5 /57100 Alexis Lotero

Re: ACCEPTANCE of OFFER and CONTRACT AWARD for:

CES RFP 2020-31B for CES Contract # 2020-31B-C120-ALL - Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services

Dear Procurement Partner,

Cooperative Educational Services (CES) thanks you for responding to CES RFP 2020-31B solicitation. The responses have been reviewed and it is our pleasure to inform you that your company has been selected to provide the products and services indicated in your response.

The enclosed Acceptance of Offer and Contract Award, in conjunction with the Bid documents that you submitted with your proposal, constitute the Agreement between the parties. Please retain all documents for your records. The term of this Indefinite Quantity Contract Award as defined in NMSA 13-1-63; is for four (4) years from the date of this letter, Pursuant to 13-1-150 NMSA.

It is the vendor's responsibility to keep pricing up-to-date, throughout the life of the contract.

Sincerely Yours,

Cooperative Educational Services

David Chavez
Executive Director

ACCEPTANCE OF PROPOSAL
AND CONTRACT AWARD

CES RFP NUMBER: 2020-31B

RFP DESCRIPTION: Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services

CES CONTRACT NUMBER: 2020-31B-C120-ALL

CONTRACT

This contract award is being made by Cooperative Educational Services ("CES"), 4216 Balloon Park Rd. NE, Albuquerque, New Mexico 87109 effective this 7/17/2020, to RUSH TRUCK CENTERS OF NEW MEXICO, INC, with its principal office located at 6521 Hanover Road NW, Albuquerque, NM 87121 pursuant to the above referenced CES conducted Request for Proposal ("RFP"), or Request for Bids ("RFB") procurement, and Contract Holder accepts the award and enters into this contract pursuant to the following terms and conditions.

RECITALS

Cooperative Educational Services (CES) is a cooperative procurement agency created by a Joint Powers Agreement as authorized by Section 11-1-1, et. seq., N.M.S.A., 1978, and Section 13-1-135 and procures tangible personal property, services and construction services ("Products, Services and/or Construction Services") pursuant to the New Mexico Procurement Code for the benefit of its Members and Participating Entities. The Members consist of public educational institutions in New Mexico that are signatories to a Joint Powers Agreement establishing CES as their procurement agency. The Participating Entities are governmental and 501(C) (3) organizations that have entered into Participating Entity Agreements with CES which allow them to take advantage of the procurement efforts of CES.

The undersigned (Contract Holder) has successfully responded to a RFP or RFB published by CES in accordance with the Procurement Code, (13-1-103, 111, 112), and Contract Holder is being awarded this RFP or RFB contract by CES which allows Contract Holder to offer Products, Services and Construction Services in accordance with the terms and conditions set forth herein and in the RFP or RFB documents and this contract award.

CONTRACT TERMS

1. The contract term shall be for four (4) calendar years from the effective contract award date 7/17/2020 through 7/16/2024. CES reserves the right to renew the Contract through a written amendment signed by all required signatories, but in any case, the Contract shall not exceed the total number of years allowed pursuant to NMSA 1978 13-1-150. CES reserves the right to offer month-to-month extensions if it is determined by CES to be in the best interest of CES Members/Participating Entities.

2. Contract Holder agrees and acknowledges that the contract terms and provisions are those contained in the above referenced RFP or RFB and agrees to furnish all Products, Services and/or Construction Services in compliance with all terms, conditions, specifications of and amendments to this RFP, IFB or RFB. Contract Holder understands that his obligations under this RFP or RFB contract extend to CES Members and Participating Entities who are third party beneficiaries of this RFP or RFB procurement process. The Members/Participating Entities may negotiate with Contract Holder certain additional terms and conditions relating to the scope of services and other performance details. However, the terms and conditions of the RFP or RFB may not be altered or amended except with the approval of CES and in accordance with the State Procurement Code.

3. Contract Holder acknowledges and agrees that CES' purpose and function is to act as a cooperative procurement agent on behalf of its Members and Participating Entities so that they may take advantage of these procurement efforts. CES does not have any subsequent responsibility relating to the quality and fitness of any Products, or the performance of any Services and Construction Services by Contract Holder. Any purchase orders placed by a CES Member or Participating Entity with Contract Holder directly or through CES and any resulting contract between the Contract Holder and a CES Member or Participating Entity do not create any additional obligations on the part of CES.

4. For transactions which involve CES transmitting purchase orders from a CES Member/Participating Entity to Contract Holder, CES volunteers to act as a payment facilitator to make payments to Contract Holder with funds transferred to CES by the CES Member/Participating Entity in accordance with CES Member/Participating Entity's written instructions and to provide an accounting of all monies paid or received by CES pursuant to this Agreement. CES also volunteers to provide informal mediation services between Contract Holder and CES Member/Participating Entity in the event any dispute arises between them.

5. Contract Holder understand and agree that upon CES' receipt of funds from CES Member/Participating Entity, CES has no right or authority to thereafter apply those funds to any purpose other than as instructed by CES Member/Participating Entity. CES shall incur no liability to Contract Holder except for liability arising from CES' own gross negligence or willful misconduct, to the extent allowed by New Mexico law. Through this procurement process, Contract Holder is authorized to provide the described Products, Services or Construction Services. CES has no obligation or right to involve itself with the manner or method by which Contract Holder provides these Products, Services or Construction Services.

6. To the extent allowed by New Mexico law, Contract Holder agrees to hold CES harmless from all costs, expenses, attorney fees and judgments based upon claims between a CES Member/Participating Entity and Contract Holder in connection with the specified Products, Services or Construction Services provided by Contract Holder

7. Contract Holder agrees that it will not assert any claim against CES in the event that a dispute arises regarding the alleged failure of Contract Holder or CES Member/Participating Entity to perform as provided for in the

RFP or RFB documents, any purchase order or other contract between Contract Holder and a CES Member/Participating Entity. This does not include claims against CES based upon the alleged gross negligence or intentional acts of CES.

8. Any liability incurred in connection with this Agreement shall be subject to the immunities and limitations of the New Mexico Tort Claims Act, §§ 41-4-1 et seq, NMSA 1978, as amended.

9. The Recitals are incorporated herein as contract terms.

Agreed effective the above date:

SCOPE OF WORK AND SPECIFICATIONS

CES is seeking qualified contractor(s) in the State of New Mexico to provide a variety of Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services for a firm, fixed price as described in solicitation CES RFP 2020-31B, or other pricing methodologies identified herein. The Contractor will furnish and provide any and all documentation, labor, materials and equipment needed to perform and complete the scope of work stated for each individual project requested under CES RFP2020-31B

**Omissions in CES RFP 2020-31B for Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services of any provision therein described shall not be construed as to relieve the vendor of any responsibility or obligation to the complete and satisfactory delivery, operation, and support of any and all equipment, product, materials or services.*

ACCEPTANCE OF PROPOSAL
AND CONTRACT AWARD

PRICING

A. CES Members and Participating Entities will pay Contractor for Medium and Heavy Duty Trucks, Truck Bodies, Accessories, Parts and Services rendered at the rates set forth as part of Attachment B and all other pricing documentation approved by CES.

B. **New Technology and Products:** New products or related services announced by the manufacturer and/or Contractor may be added to this existing contract. Pricing shall be equivalent to the percentage discount of other products. Contractors may replace or add product lines to an existing contract, if the line is replacing previous products; is substantially superior to the original products offered; is discounted in a similar or to a greater degree; and if the products meet the requirements of the original RFP. No products may be added to avoid competitive procurement procedures. CES is responsible for approving any new product, service or technology for this contract. CES can reject any approved additions, any new product, service or technology for this contract, without cause.

ITEM AND ISSUE:
Request for the Approval of Amendment #1 to MOA with Santa Fe County in the Total Amount of $0 for the jointly funded SF Film Office; Santa Fe County; Randy Randall, rrandall@santafenm.gov, 955-6209

BACKGROUND AND SUMMARY:

We are requesting the approval of Amendment #1 to MOA #20-0162, which was an MOA between Santa Fe County and the City of Santa Fe that provided funding for the jointly funded Film Office in the amount of $150,000, to be split equally between TSF and Economic Development. For the past four years, the city and county have operated a joint Santa Fe Film Office, funded equally between the two entities and is housed in the County with the County providing office space and support services to the office in addition to their monetary contribution. For the first three years the office has been funded at $300,000 per year. The City's half of this has been funded equally between Tourism Santa Fe and Economic Development. In FY20 the office was able to be funded at $200,000 ($100,000 from each entity as a result of budget cuts related to COVID and staff changes). For FY21, it was determined that there are sufficient cash balances from prior funding to cover the current year, therefore, no additional funding is required for the current fiscal year. The County already has these funds and has asked for the attached MOA which provides authorization from the City to expend our half of the accumulated cash balances that the county has to complete the FY21 operations. The amount in cash balances is $92,500 from each entity.

The Santa Fe Film Office has proven to be an extremely valuable tool in our response to proposed filming opportunities and ongoing support to all film and media productions. In calendar 2020 it also provided some relief for our diminished visitation as all film and media productions have been deemed "essential" by the Governor with world-wide industry strict Covid Safe Practice requirements in place and enforced. We feel it will help significantly as we see tourism restart in calendar 2021 and continue to be an important part of our economic growth and diversification as the film office continues to bring in various projects with a wide variety of budgets.

PROCUREMENT METHOD:

A. *procurement of items of tangible personal property or services by a state agency or a local public body from a state agency, a local public body or external procurement unit except as otherwise provided in Sections 13-1-135 through 13-1-137 NMSA 1978;*

CONTRACT NUMBER:
The FY20 Munis contract number is 3201703.

FUNDING SOURCE:
The funding source for FY20 is below. **Please note, we are not requesting additional funds in FY21, only requesting authorization to utilize funds in the SF County escrow account in FY21 from funds disbursed in FY20.**

The funding source is Santa Fe County Escrow Account, which was partially funded from below in FY20:
Fund Name/Number: TSF/VSF Fund 213 - $46,250
Economic Development Fund 212 - $46,250
Munis Org Name/Number: TSF/CVB 2130521
Economic Development Ops 2122800
Munis Object Name/Number: Other Consulting/510340

Munis Contract Number: #3201703

ACTION REQUESTED:
Tourism respectfully requests your review and approval.

Signature: Randy Randall

Real Estate Summary of Contracts, Agreements, Amendments & Leases

Section to be completed by department

1. Munis Contract # **3201703**

Contractor: **Santa Fe County**

Description: **This MOA is between the City of Santa Fe and Santa Fe County for the joinlty funded Film Office. This is to approve the usage of FY20 escrow funds in FY21. No funds are being requested at this time.**

Contract ☐ Agreement ☐ Lease / Rent ☐ Amendment ☉

Term Start Date: **2/11/20** Term End Date: **6/30/20**

☐ Approved by Council Date: **3/11/20**

Contract / Lease: MOA with SF County for the joint Santa Fe Film Office

Amendment # **1** to the Original Contract / Lease # **20-0162**

Increase/(Decrease) Amount $ **0**

Extend Termination Date to: **6/30/21**

☐ Approved by Council Date:

Amendment is for: Allow for the use of FY20 fund balances with the County to be expended FY21

2. **HISTORY** of Contract, Amendments & Lease / Rent - Please Elaborate (option: attach spreadsheet if multiple amendments)
The jointly funded film office was established four years ago. MOA #20-0162 was done in FY20 for $150,000 to be split equally between TSF and Economic Development. This is amendment #1 to allow for the usage for funds remaining in fund balances at SF County from FY20 to be expended in FY21. Due to Covid, the normal use of funds was decreased, and now the use of those funds is essential to assist with the film industry to help our economy begin to recover.

General Information

Department Name:	TOURISM	Department Name:	
Division Name:	VSF (Visit Santa Fe)	Division Name:	

Financial Information

Amount Requested:	$0.00	Munis Fund Number:	213
Vendor Name:	Santa Fe County for Film Office	Munis Org Number:	22108
Approved by Director?	Yes	Munis Object Code:	510340

Expenditure Information

1. Describe the purchase of goods/services. Is this one-time or recurring? Please explain why this is the lowest cost option for this expenditure.
The SF Film Office was jointly formed four years ago by the City of Santa Fe and Santa Fe County. The County provides office space and support services in addition to their monetary contribution. The office provides support to all film and media productions, which contributes to our economic growth.

2. Please describe which legally required City service does this procurement support? Does this procurement provide support for compliance with City, State and Federal requirements? If yes, please explain.
N/A

3. Can these services be performed by City employees in your department or in other departments? If the answer is no, please explain.
No. There is currently no staff available to handle this responsibility, thus our monetary contribution to provide this support on behalf of the City of Santa Fe. This is a joint venture with the city and county to support increased film production in Santa Fe.

4. Would there be any adverse health, safety or economic implications if this expenditure was not approved? What impact will there be on the department and the City operations if this expenditure is not approved.
There would be economic implications if the use of the fund balances for the remainder of FY21 is not approved. This service will be essential to the recovery of our economy.

5. If this purchase is not approved with City funds, what are alternative funding sources for the proposed expenditure? Does this duplicate efforts being provided by other governmental, for profit or non-profit entities?
MOA is authorizing the use of existing fund balances resulting from past equal contributions from the city and county.

Item#_____

AMENDMENT NO. 1
TO MEMORANDUM OF AGREEMENT
BETWEEN SANTA FE COUNTY AND
THE CITY OF SANTA FE
REGARDING THE OPERATION OF THE SANTA FE REGIONAL FILM OFFICE

This Amendment is entered into on this ___ day of _____, 2021, by and between **Santa Fe County**, a political subdivision of the State of New Mexico ("County") and the **City of Santa Fe** ("City") or collectively the "Parties".

WHEREAS, the Parties entered into a Memorandum of Agreement No. 2020-0147-CMO/BT (the "MOA") on March 17, 2020, to provide for their agreement to jointly fund the ongoing operations of the Santa Fe Regional Film Office, which the parties established in 2017. The parties have been operating the Santa Fe County Regional Film Office since 2017; and

WHEREAS, Article 6 of the MOA allows the MOA to be amended by an instrument in writing and executed by the parties; and

WHEREAS, since 2017 and as of June 30, 2020, the Parties have contributed $550,000.00 each for a total of $1,100,000.00. Of this sum, the Santa Fe Regional Film Office has expended $908,549.00 leaving a cash balance of $191,451.00; and

WHEREAS, in 2020 the Parties' budgets have been negatively impacted by the COVID-19 pandemic and the state's emergency health orders. The Parties have had to cut their budgets and have agreed to reduce the budget for the operation of the Santa Fe Regional Film Office to a sum of $200,000.00 with $100,000.00 contributed by each Party; and

WHEREAS, the Parties' joint operation of the Santa Fe Regional Film Office since 2017 has resulted in a total of $191,451.00 in savings which the parties now wish to set forth for expenditure in fiscal year 2021; and

WHEREAS, the Santa Fe Regional Film Office has a fiscal year 2021 budget of $185,000.00 and the Parties agree to fund that budget with the $191,451.00 cash balance, therefore eliminating the need for either Party to contribute additional funds for operational expenses for fiscal year 2021; and

WHEREAS, in addition to setting forth the budget for fiscal year 2021, the Parties also wish to extend the term of the MOA to June 30, 2021; and

WHEREAS, both parties wish to enter into this Amendment No. 1.

NOW, THEREFORE, THE PARTIES AGREE TO AMEND THE MOA AS FOLLOWS:

1. Article 1 (Duties of the Parties), subpart A (County's duties) is amended by deleting subpart 3 and replace it with:

3. Provide $100,000.00 in direct funding for operational expenses of the Santa Fe Regional Film Office in fiscal year 2020.

2. Article 1 (Duties of the Parties), subpart B (City's duties) is amended by deleting subpart 3 and replace it with:

3. Provide $100,000.00 in direct funding for operational expenses of the Santa Fe Regional Film Office in fiscal year 2020.

3. Article 1 (Duties of the Parties), insert a subparagraph C to read:

C. By Amendment No. 1 to this MOA, the Parties agree that the $191,451.00 in savings will be expended based on an annual operating budget of $185,000.00. Each Party having allocated or budgeted $92,500.00 for the operational expenses of the Santa Fe Regional Film Office in fiscal year 2021.

4. Article 3 (Term and Termination), subpart A is amended by deleting "2020" and replace it with "2021."

5. All other provisions of the MOA not specifically amended or modified by this Amendment No. 1 shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have duly executed this Amendment as of the date of last signature by the parties hereto.

MEMORANDUM OF AGREEMENT
BETWEEN SANTA FE COUNTY AND
THE CITY OF SANTA FE

THIS MEMORANDUM OF AGREEMENT (hereinafter "MOA") is entered on this the 11th day of February 2020, between **SANTA FE COUNTY** (hereinafter "County"), a political subdivision of the state of New Mexico, and the **CITY OF SANTA FE** (hereinafter "City"), collectively the "Parties".

RECITALS

WHEREAS, the film and media industries contribute millions of dollars a year annually to the local and regional economy; and

WHEREAS, local governments benefit from the film industry through job creation, direct collection of gross receipts taxes, leases, permitting and other fees, as well as through global exposure of the region for tourism, business recruitment and other activities; and

WHEREAS, the state of New Mexico and specifically the north-central region, has established itself as a premiere production location for film and television production; and

WHEREAS, resources exist in the region to significantly expand both traditional film/television production, and digital media technologies for both entertainment and non-entertainment applications, posing an attractive opportunity for business retention, recruitment and expansion; and

WHEREAS, no centralized, dedicated servicing entity currently exists at the County/ City level to handle incoming productions or business queries, resulting in confusion and the potential delivery of reduced and/or sub-par services to productions and businesses wishing to locate in the region. This represents a significant impediment to growth in these areas and also a vulnerability to the local program in an increasingly competitive global production environment; and

WHEREAS, in order to maximize revenue, job growth and other benefits to the local economy and government; develop and implement a strategic plan for growth in these and related areas; and represent the interests of the local government before state, national and international legislative bodies and professional forums, it is desirable to create a centralized film office administratively housed at the County and that will service the general Santa Fe region. This is a firmly established tenet of "best practices" in virtually every region of significant production activity throughout the county; and

WHEREAS, in fiscal year 2017, the County and the City jointly established the Santa Fe Regional Film Office.

NOW, THEREFORE, the Parties mutually agree as follows:

1. DUTIES OF THE PARTIES

A. The County shall:

1. Provide direct management and oversight of the staff of the Regional Film Office .
2. Designate a liaison to work collaboratively with City staff through the Regional Film Office.
3. Provide $150,000.00 in direct funding for operational expenses related to the Regional Film Office in fiscal year 2020.

B. The City shall:

1. Designate a liaison to work collaboratively with the Regional Film Office and County staff.
2. Provide $150,000.00 in direct funding for operational expenses related to the Regional Film Office in fiscal year 20.

3. TERM AND TERMINATION

A. This MOA shall, upon due execution by all Parties, become effective as of the date first written above and shall terminate on June 30, 2020, unless earlier terminated as indicated below or extended by the mutual written agreement of both Parties.

B. This MOA may be terminated by either Party upon delivery of a written notice delivered to the other Party at least30 days prior to the intended date of termination. By such termination, neither Party may nullify or avoid any obligations incurred prior to termination

4. ASSIGNMENT

Neither Party shall not assign or transfer any interest or rights in this MOA without the advance written approval of the other Party. Any attempted assignment or transfer without the other Party's advance written approval shall be null and void and without any legal effect.

5. LIABILITY

Each Party shall be solely responsible for fiscal or other sanctions occasioned as a result of its own violation of requirements applicable to the performance of this MOA. Each Party shall be liable for its actions in accordance with this MOA. Any liability incurred by the County or the City in connection with this MOA is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et seq. . The County, City and its public employees as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity; do not waive any defense; and do not waive any limitation of liability pursuant to law. No provision

in this MOA modifies or waives any provision of the New Mexico Tort Claims Act.

6. AMENDMENT

This MOA shall not be altered, changed or amended except by an instrument in writing executed by the Parties.

7. APPROPRIATIONS

The terms of this MOA are contingent upon sufficient appropriations and authorization being made by the Legislature of the State of New Mexico and the governing bodies of the City and the County for the performance of this MOA. If sufficient appropriations and authorization are not made, this MOA shall terminate immediately upon written notice being given by the terminating Party to the other Party. Any Party's decision as to whether sufficient appropriations are available shall be accepted by the other Party and shall be final.

8. GOVERNING LAW

This MOA shall be governed by, and construed in accordance with, the laws of New Mexico and the applicable ordinances of the Parties.

9. ACCOUNTABLITY

During the term of this MOA and for a period of three years thereafter, each Party will maintain accurate and complete records of all disbursements made and monies received by each under this MOA and, upon receipt of reasonable written request, each shall make such records available to the other Party and to the any other parties during regular business hours of the Regional Film Office.

10. NO THIRD-PARTY BENEFICIARIES

Nothing in this MOA, express or implied, is intended to confer any rights, remedies, claims or interests upon a person not a Party to this MOA.

11. SUCCESSORS AND ASSIGNS:

This MOA will inure to the benefit of the Party's successors or assigns.

12. ENTIRE AGREEMENT

This MOA represents the entire understanding between the Parties and supersedes any prior agreements or understandings with respect to the subject of this MOA. No changes, amendments or alterations to this MOA will be effective until in writing and signed by the Parties.

13. NOTICES

Any notice required by this MOA shall be given in writing to the Parties designated below. Notice shall be effective when delivered personally to any party, or three business days after deposited, postage fully prepaid, registered or certified, in an official receptacle of the U.S. Postal Service.

TOTALLY The public needs to know and will only know ahead of time if it is a required Council agenda item The public hearing later on as per Santa Fe Clay bldg is too late.

Name: Stefanie Beninato
Comment - 02/24/2021 11:53 AM: (No Vote)
YES public needs to know and so does Council. The only way that happens is with an action item on Council well BEFORE a public hearing to avoid the Santa Fe Clay situation

City of Santa Fe New Mexico
Memorandum

Date: February 5, 2021

To: Public Works and Utilities Committee

From: Rich Brown, Director, Community and Economic Development Department RB

RE: Resolution requiring Governing Body approval prior to announcing City real property for sale.

ITEM AND ISSUE:

This Resolution will require staff to make a presentation to the Governing Body and have the Governing Body vote before announcing City real property for sale. This resolution does not set a minimum threshold to trigger a public presentation prior to announcing a piece of City real property for sale, but requires that staff present their reasoning for selling property in public before announcing City real estate is for sale. The FIR explores what this means for staff time to start making public presentation during the discussion portion of the agenda. This Resolution does not prohibit executive session, which would be helpful should issues of sales/marketing strategy, personal confidentiality, ongoing personal litigations, etc., which need to be frankly discussed before a public offering notice is made.

Note: Current practice is that all land and property assets subject to public offering for sale are discussed with the Governing Body during an executive session, then a public notice is placed both on the website and as ads within the newspaper. Then, to sell a piece of real property a resolution and purchase agreement are brought to the Governing Body for a public hearing as required by statute, and any sales over $25,000 are subject to a referendum period. This new process would require two public presentations for a sale of real property, one to obtain permission to place the real property for sale and one for the sale process that is required by statute.

BACKGROUND AND SUMMARY:

Historically, Asset Development (now part of the Community and Economic Development) has monitored and assessed all land and parcel assets of the City. This includes the monitoring and managing of most, if not all, City-leased property assets.

Recently, Councilors on the Governing Body expressed dismay that disposition strategies for land parcels which are targeted for public offering for sale were discussed in a closed, Executive Session. The reason that staff have sought to discuss issues and potential strategies and approaches during executive session to this point is to allow candid discussion of potential legal issues and avoid losing potential leveraging of sales values through sales strategy, while also gaining feedback from the Governing Body on the recommended path to public offering.

Approval from the Governing Body is not currently required before the City announces the opportunity for potential offerors to submit offers to buy City property for the Governing Body's consideration.

ACTION REQUESTED:
Staff recommends moving forward with this Resolution, since it retains the option to discuss sensitive issues in Executive Session. The ongoing ability to hold an Executive Session, if needed, will allow the City to avoid telegraphing any competitive advantages or potentially ongoing litigating issues before launching an approved public offering.

RESOLUTION NO. 2021-__

INTRODUCED BY:

Councilor JoAnne Vigil Coppler

Councilor Michael J. Garcia

Councilor Renee Villarreal

A RESOLUTION

REQUIRING GOVERNING BODY APPROVAL PRIOR TO ANNOUNCING THE AVAILABILITY OF ANY CITY-OWNED LAND, BUILDINGS, OR OTHER REAL PROPERTY FOR SALE.

WHEREAS, the City recently unveiled a new website that advertises various properties owned by the City of Santa Fe that are either "for sale" or contemplated for future sale; and

WHEREAS, Governing Body approval and, in most circumstances, a waiting period during which the sale is subject to a voter referendum, is required for an offeror to purchase City property; and

WHEREAS, approval from the Governing Body is not currently required before the City announces the opportunity for potential offerors to submit offers to buy City property for the Governing Body's consideration; and

WHEREAS, there is currently one property listed as "for sale" on the new website: the seven parcel, 228 acre Santa Fe Estates located north of Veterans Memorial Highway (US 599) and to the West of US 285; and

WHEREAS, several other City-owned land and real property may soon be listed as "for sale" on the website; and

WHEREAS, City-owned land, buildings, and other real property are public property; and

WHEREAS, the Governing Body prefers to hold discussions of the disposition or sale of City-owned land or property transparently and in front of the public, during a public meeting unless doing so would harm the City's ability to leverage the competitive value of real property; confidential market strategy is not a factor; there are no reputational interests at stake; relevant laws do not require confidentiality; and there is no actual or threatened litigation to consider.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that, prior to announcing any City-owned land, building, or other real property as "for sale", the Governing Body must approve a recommendation to do so, after a presentation by City staff during a public meeting, describing why staff members recommend that the City announce the land or other real property as "for sale."

BE IT FURTHER RESOLVED that, other than Santa Fe Estates, all properties currently under consideration for sale must be presented to the Governing Body for approval of a desired announcement, prior to announcing the land, building, or other real property is for sale, even if the Governing Body has already discussed such sale of such property in an executive session.

Summary:

The proposed Resolution will create a pre-review process when selecting underperforming property assets, which will require obtaining Governing Body approval before announcing any City real property to be offered for sale. It is notable that this resolution does not set a minimum threshold to trigger a public presentation, which means that any sale of any real property would need to be presented to Governing Body in a public presentation. This could also create a likelihood that staff will seek a private sale without a public announcement to avoid this requirement when timing is an issue. The resolution does not prohibit executive session, which would be necessary should issues of sales/marketing strategy, personal confidentiality, ongoing personal litigations, etc., need to be discussed in Executive Session before a public offering notice is produced. Note: Current practice is that all land and property assets subject to public offering for sale are submitted to the Governing Body for proposal review during Executive Session, then a public notice is placed both on the website and as ads within the newspaper. Then, to sell a piece of real property valued at more than $25,000, an ordinance and purchase agreement are brought to the Governing Body for a public hearing as required by statute and the sale is also subject to a referendum period. The proposed, Resolution-mandated process will make at least two public presentations required for a sale of real property, one to obtain permission to announce the real property for sale and one for the sale process required by statute.

Departments Affected:

Community and Economic Development and the City Attorney's Office.

Consequences of Not Enacting Legislation:

If this Resolution is not enacted, the City will continue to meet all legal requirements for selling real property.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:

None identified.

Performance and Administrative Implications:

No staff overtime would be be incurred as it relates to any unintended consequences of the new land sales preview and/or presentation format. With large parcels, this new process could delay the go-to-market option by up to six months or more; depending on any amendments, changes, market data requests, etc. Some of this process could be done internally, but the potential added cycles of gaining majority approval may not match the timing of the market interest.

Fiscal Implications:

Potential fiscal implications could include the cost of appraisals that have up to a one-year shelf life. A new appraisal could be required if the City does not sell the real property within the year shelf life. If approvals take any longer than appraisal life span, additional funding would be needed to meet that demand.

Fiscal Impact

Expenditures

Expenditure Type	FYE 21	FYE 22	FYE 23	Require BAR (Y/N)	Recurring (R) or Non-recurring (NR)	Fund	3-Year Total Cost
Personnel and Benefits*	$	$	$				
Capital Outlay	$	$	$				
Contractual/ Professional Services	$6,000	$12,000	$		NR	2122800	
Operating	$	$	$				$
Total:	$6,000.00	$12,000	$				$18,000.00

* This includes all staff time associated with executing the job functions of the proposed legislation.

Expenditure Narrative:

No additional staff overtime expense would be incurred. However, with large parcels, there could an additional expense for new appraisals since most of our current appraisals were completed prior to March 2020 when we had originally discussed many of our real estate assets and public offering sales strategy in executive sessions. This additional appraisal cost would be dependent on any amendments, changes, market data requests, etc. Some of this process could be done internally, but the potential added cycles of gaining majority approval may not match the market interest.

Summary:

This resolution will create a pre-review process when selecting underperforming property assets, which will require obtaining Governing Body approval before announcing any City real property to be offered for sale. It is notable that this resolution does not set a minimum threshold to trigger a public presentation, which mean any sale of any real property would need to be presented to Governing Body in a public presentation this could be an issue as it relates to staff time (see staff expense calculation) and Governing Body review time. This could also create a likelihood that staff will seek a private sale without a public announcement to avoid this requirement when timing is an issue. The resolution does not prohibit executive session, which would be necessary should issues of sales/marketing strategy, personal confidentiality, ongoing personal litigations, etc., need to be discussed in Executive Session before a public offering notice is produced.

Note: Current practice is that all land and property assets subject to public offering for sale are submitted to the Governing Body for proposal review during Executive Session, then a public notice is placed both on the website and as ads within the newspaper. Then, to sell a piece of real property an ordinance and purchase agreement are brought to the Governing Body for a public hearing as required by statute and any sales over $25,000 are subject to a referendum period. This ordinance-mandated process, will make two public presentation required for a sale of real property, one to obtain permission to place the real property for sale and one for the sale process required by statute.

Departments Affected:

Community and Economic Development and the City Attorney's Office.

Consequences of Not Enacting Legislation:

If this resolution is not enacted, there are no consequences because the City currently meets all legal requirements for selling real property.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:

None identified.

Performance and Administrative Implications:

Unintended consequences, additional staff overtime expense could be incurred if the Asset Development Division and the City Attorney's Office will need to create a series of Governing Body recommendation packets for public hearing. As well as, with large parcels, this could delay the go-to-market option by up to six months or more; depending on any amendments, changes, market data requests, etc. Some of this process could be done internally, but the potential added cycles of gaining majority approval may not match the timing of the market interest.

Fiscal Implications:
Unintended fiscal implication: Additional internal staff overtime expense for any time to prepare, redact, and/or resubmit public offering proposals if a majority approval for each select land/property asset is not achieved through the Committee process leading up to the Governing Body meeting.

TOTALLY The public needs to know and will only know ahead of time if it is a required Council agenda item The public hearing later on as per Santa Fe Clay bldg is too late.

Name: Stefanie Beninato
Comment - 02/24/2021 11:53 AM: (No Vote)
YES public needs to know and so does Council. The only way that happens is with an action item on Council well BEFORE a public hearing to avoid the Santa Fe Clay situation

ITEM AND ISSUE:

Request for approval of a budget amendment Resolution for the quarter ending December 31, 2020 (Second Quarter).

BACKGROUND AND SUMMARY:

Attached is a Resolution listing increases and decreases to the FY 2020/21 operating and CIP budget. All of these amendments are included in this Resolution because they result in a net increase or decrease to the various funds affected, and thus require DFA/LGD approval. The schedule of detail supporting these increases and decreases is presented in four sections:

A. Amendments to FY 2020/21 Budget That Have Previously Been Approved by City Council: these budget amendments have been previously approved by the Governing Body, and reflect amendments that exceed $60,000 and that result in a net increase or decrease to any funds (and do not represent re-appropriations of unspent budget amounts from the prior year). Per City ordinance, such amendments require Governing Body approval. They are included in this Resolution for the purpose of summarizing all quarterly budget amendments in a single resolution to provide to the Local Government Division of the New Mexico Department of Finance and Administration (DFA/LGD) for their review and approval. Presentation of these amendments on a single resolution in this way is much more efficient than the alternative of presenting a revised resolution to DFA/LGD for each and every individual budget amendment approved by City Council.

B. Amendments to FY 2020/21 Budget That Have Not Previously Been Approved by City Council: these amendments were approved by and executed under the authority of the

Finance Director (if the net budgetary change to any fund was under $5,000) or the City Manager (if the net budgetary change was between $5,000 and $60,000), as per City ordinance. Also included are purely technical corrections and re-appropriations of unspent prior year budget amounts (including amounts over $60,000), which, per City ordinance, are approved and entered based on the prior year's City Council-approved budget authority, and subsequently submitted on a quarterly basis for City Council review and approval.

C. Joint Operations (Buckman Direct Diversion & Santa Fe Solid Waste Management Agency) – Board-Approved Amendments to FY 2020/21 Budget: as the title of this section attests, these amendments reflect net changes to the Buckman Direct Diversion (BDD) and SF Solid Waste Management Agency (SFSWMA) joint operations budgets, approved and entered under the authority of the governing boards of those entities. Like the amendments outlined above, these budgetary changes are included in this Resolution for the purpose of presenting all quarterly net budgetary fund changes to DFA/LGD for its approval as required.

D. Summary of All Quarterly Amendments to FY 2020/21 Budget by Fund: this section summarizes the net changes to all City funds detailed in the previous three sections (A-C). As shown at the bottom of this section, these amendments result in a net increase to the City's overall expenditure budget of $17,874,275 and a net increase to the overall revenue budget of $8,386,498. The resulting net expenditure increase of $9,487,777 (over and above additional revenue) is supported by current budgeted revenues and/or available fund balances.

The Budget Office submits all amendments resulting in net budgetary fund changes on a quarterly basis for Finance Committee consideration and City Council approval, and subsequently submits said amendments to DFA/LGD after approval by the Governing Body.

ACTION RECOMMENDED:

Recommend approval of these amendments to the Governing Body. After City Council approval, the Resolution will be forwarded to DFA/LGD for its approval as required.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2021-__

INTRODUCED BY:

Finance Committee

A RESOLUTION

REQUESTING APPROVAL OF SECOND QUARTER BUDGET AMENDMENTS FOR FISCAL YEAR 2020/2021.

WHEREAS, a Second Quarter Review of the Fiscal Year 2020/2021 Budget shows a need to address significant budget adjustment priorities.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the Governing Body requests authorization for budget amendments as detailed on the attached Resolution Detail by Fund (see Attachment), hereby incorporated as part of this resolution.

BE IT FURTHER RESOLVED that the Governing Body respectfully requests authorization from the Local Government Division of the New Mexico Department of Finance and Administration to implement the Second Quarter Budget Amendments.

PASSED, APPROVED, and ADOPTED the ___ day of _____, 2021.

FIR No. 3310

FISCAL IMPACT REPORT

General Information:

(Check) Bill: _____ Resolution: X

Short Title(s): Second Quarter Budget Amendments, Fiscal Year 2020/2021

Sponsor(s): Finance Committee

Reviewing Department(s): Finance

Staff Completing FIR: Andy Hopkins Date: 1/30/2021 Phone: 955-6177

Reviewed by City Attorney: _____ Date: Feb 5, 2021

Reviewed by Finance Director: _____ Date: Feb 5, 2021

Summary:
The purpose of the Resolution is to make 2nd Quarter FY 2020/2021 budget amendments, increases, and decreases to various funds, including adjustments for department priorities, grant adjustments, prior year encumbrances, and increase supported by available revenue.

Departments Affected:
Various.

Consequences of Not Enacting Legislation:
The budget will not sufficiently reflect actual revenues and expenditures. Necessary adjustments cannot be submitted for NM DFA approval as required by the State.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None identified.

Performance and Administrative Implications:
None identified; staff have already performed necessary actions to comport with the purpose of the budget amendments.

Fiscal Implications:
See Resolution attachments – Resolution Detail by Fund.

City of Santa Fe, New Mexico
Memorandum

DATE: **February 22, 2021**

TO: **Governing Body**

FROM: **Regina Wheeler, Public Works Department Director** RW

ITEM AND ACTION:

Approval of the ENERGY EFFICIENT EQUIPMENT PROJECT AT THE BUCKMAN DIRECT DIVERSION FACILITY AGREEMENT BETWEEN THE CITY OF SANTA FE AND THE BUCKMAN DIRECT DIVERSION BOARD, Regina Wheeler, rawheeler@santafenm.gov, 955-6622.

BACKGROUND AND SUMMARY:

The City of Santa Fe's Guaranteed Maximum Performance Contract (GMPC) for solar, energy and water improvement measures, contains scope for energy improvement measures at the Buckman Direct Diversion Project (BDD). This agreement gives the City of Santa Fe permission to secure permits and install the solar and lighting measures at BDD via the GMPC contractor. The agreement also specifies the transfer of title of the assets to BDD in accordance with the City's lease purchase financing agreement for the GMPC project.

The BDD will make payments on debt service for the solar and lighting improvements through a separate Cost Sharing Agreement between the City of Santa Fe, Santa Fe County and Las Campanas.

This Energy Efficient Equipment Project agreement and the Cost Sharing Agreement facilitate and govern the responsibilities and entitlements associated with the City installing energy improvements at BDD as part of the GMPC.

The Solar Projects to be installed at the BDD Facility are a 739.2 KWdc Utility-Interactive Photovoltaic System at Booster Station 1A and a 278.08 kWdc Utility-Interactive Photovoltaic System at the Buckman Lift Station. The energy equipment will be installed by the GMPC contractor Yearout.

SCHEDULE:
The Santa Fe County Commission considers the Cost Sharing Agreement on 2/22/2021
The City considers the Energy Efficiency Equipment agreement with BDD on 2/24/2021
The City considers the Cost Sharing Agreement on 3/10/2021
The BDD considers the Energy Efficiency Equipment Agreement with BDD on 3/4/2021

ATTACHMENTS:

A. City of Santa Fe GMPC Project Memo for Governing Body meeting 2/24/2021
B. ENERGY EFFICIENT EQUIPMENT PROJECT AT THE BUCKMAN DIRECT DIVERSION FACILITY AGREEMENT BETWEEN THE CITY OF SANTA FE AND THE BUCKMAN DIRECT DIVERSION BOARD Agreement

City of Santa Fe, New Mexico
Memorandum

DATE: **January 25, 2021**

TO: **Governing Body**

VIA: **Regina Wheeler, Public Works Department Director** RW

FROM: **Caryn Grosse, Facilities Project Administrator**

ITEM AND ISSUE:
Request for the Approval of Professional Services Agreement in the Total Amount of $15,442,785.00 for Energy Performance Contracting; Yearout Energy Services Company; Caryn Grosse, clgrosse@santafenm.gov, 955-5938

BACKGROUND AND SUMMARY:
The City placed a solar project as its number one priority on the ICIP list to the state legislature in the 2019 session and was appropriated $925,000 to install behind the meter solar arrays at a number of City facilities using a public private partnership. Because solar and lighting retrofits generate significant savings on energy bills, the legislative appropriation will be coupled with additional financing to solarize and retrofit more facilities. The legislative appropriation outlines this project as:

> 19-D3209, $925,000.00, Appropriation Reversion Date: 30-JUN-2023
> Laws of 2019, Chapter 277, Section 34, Para. 408, Nine Hundred Twenty-Five Thousand Dollars ($925,000.00), to plan and design a public-private partnership for solar energy systems development and installation at city facilities. Specifically the funds will be used to hire an energy services company to evaluate city facilities to have solar installed where it is the most feasible. The goal is to solarize as many facilities as possible. Additional capital in the form of bonds or private investment will be necessary.

Under the Statewide Price Agreement (SPA), pre-qualified Energy Service Companies (ESCOs) can provide Energy Performance Contracting (EPC) services for municipal governments. Energy Performance Contracting enables agencies, such as the City of Santa Fe, to employ energy efficiency and solar experts to assess opportunities for savings with energy efficiency retrofits and renewable energy, access financing and accomplish energy projects. Project costs are typically offset by the energy cost savings. Participating ESCOs commit to the EPC Statute and EMNRD's program guidelines for the energy projects.

Yearout Energy Services Company, LLC was selected from a list of seven pre-qualified ESCOs on the Statewide Price Agreement. Yearout is the only ESCO contractor headquartered and fully staffed in New Mexico, is one of three ESCOs listed as a PNM Authorized Contractor for retrofit rebates and has experience with solar and lighting retrofits for governmental entities.

Performing an Investment-Grade Energy Audit (IGA) was the first step. The IGA contract was approved by the Governing Body in July 2019, and in August the City and Yearout Energy Services Company kicked-off the project to evaluate 22 City facilities and 17 pumping and booster stations for solar, lighting and water conservation measures. The IGA included the assessment of information on 149 utility meters, 12,564 existing lighting fixtures, 759 existing domestic water fixtures, 67 existing low voltage transformers and existing building envelope conditions of 931,800 ft^2 of gross facility area.

After assessing all of the meters, buildings and systems listed above and meeting with key City stakeholders for their knowledge of the sites and energy use patterns, Yearout provided a preliminary scope, conceptual design, costs and payback estimates for solar, LED retrofit, lighting, transformer retrofits, water conservation and building envelope improvements that met the City's criterial for feasibility.

The final IGA report included 17 solar arrays, providing 2.75 MW of solar for 7 City facilities, 8 Water facilities and 2 BDD facilities, as well as a number of other Facility Improvement Measures (FIMs) which will reduce energy and water usage. A matrix showing which measures will constructed at each site is attached to this memo. New Mexico Energy Minerals and Natural Resources certified this IGA after review of the technical and financial information in the report, which is a standard part of the state's defined EPC process.

To further define the constructability of these projects and reduce risk before pursuing financing, the City amended the original contract with Yearout to include a due diligence phase for solar interconnection applications and land acquisition. The amendment amount was $169,666 + NMGRT and was executed on March 2, 2020 after approval by the Governing Body.

Activities undertaken in the due diligence phase are listed below along with current status of these items:

1. Solar Engineering Design and Interconnection Applications submitted to PNM
    a. All solar arrays must be reviewed and approved by PNM through the interconnection application process. There is risk, particularly on larger arrays, that PNM may identify grid issues with an array and request changes to solar design which may include additional grid protection hardware or other design modifications. The contractor designed the arrays and submitted the interconnection applications to PNM.
    b. PNM interconnection applications have been approved for 20 accounts as of January 19, 2021. These approved applications account for 73.3% of the proposed solar capacity.
    c. Three facilities, Buckman Booster Station 1 (~60kW), Buckman Booster Station 4 (396 kW) and BDD Lift Station (~277 kW), are still in supplemental review process. PNM has indicated that the reviews are expected to be completed by early February 2021.
    d. No applications have been denied to date.

2. Land Agreements
    a. Several of the proposed solar arrays at booster and pumping stations are on land which is not owned by the City. The City has successfully established agreements in the past to place structures, including solar arrays, for Buckman Well Field and Buckman Direct Diversion (BDD) with Santa Fe County, United States Forest Service and Bureau of Land Management who are the owners of the land of interest for the new solar arrays. Yearout subcontracted with Sauder Miller & Associates (SMA) to establish agreements with these entities for the arrays.
    b. Santa Fe County: A verbal agreement was reached for an easement agreement at Booster Station 4. The easement agreement was in final review with the City's Legal Office as of the date of this memo. The agreement is expected to be executed in February 2021.
    c. U.S. Forest Service: Special Use Permit (SUP) applications and Class I Archeological reports were submitted in August. USFS has recently requested a field study and Class III Cultural Resources report, which are in progress. This affects BDD Lift Station and BDD Booster Station 1A. This is expected to be completed in March 2021.
    d. Bureau of Land Management: Right of Way (ROW) applications were submitted in August. Field study and Class III reports were completed and submitted in December, and have been reviewed by BLM and deemed satisfactory. The City is waiting decision by BLM as to whether ROWs will be additive to existing BDD ROWs or stand-alone. This affects Buckman Booster D & Well 10, Buckman Booster Station 1, and Buckman Booster Station 3 & Well 13. This is expected to be completed in March 2021.

3. FAA Coordination
    a. Approval must be obtained by the FAA for the solar equipment proposed at the Santa Fe Regional Airport.
    b. Applications were prepared by SMA and submitted to FAA by Santa Fe Regional Airport. FAA review is expected to be completed by mid-March 2021.

The final stage is the Energy Performance Contract, under which the solar PV systems will be constructed, and the retrofits installed for energy and water conservation. The projected savings are guaranteed by the contractor, and will be measured and verified after completion of the work, and again after a year of service. The Contract also provides operations and maintenance training to City maintenance staff for the various equipment. New Mexico Energy Minerals and Natural Resources Department provides third-party certification of the measurement and verification results to ensure that the project delivers the promised savings. The savings from the measures with faster returns on investment, like water and lighting, supplement the funding for capital intensive measures like solar, as well as helping move the City of Santa Fe forward toward the goals set by the "Sustainable Santa Fe 25-year Plan."

This project will be funded via municipal financing pursued by the City of Santa Fe in the form of Tax Exempt Lease Purchase financing. Buckman Direct Diversion (BDD) Board is a party to this EPC agreement since the electric utility savings realized as a result of the new solar arrays and other FIMs on BDD facilities are being pledged to repay the financing and BDD will own the assets when the financing has been paid off.

The Preliminary Project Financial Analysis prepared by Yearout assumed a finance term of 18 years at 2.25% interest rate. The City expects to achieve a financing rate below 2.25% for financing for this project.

PROCUREMENT METHOD:
The procurement method is the NM Statewide Price Agreement (SWPA) # 90-000-18-00017AH which expires on June 12, 2023.

CONTRACT NUMBER:
The FY21 Munis contract number is 3202404.

FUNDING SOURCE:
Unencumbered balance of the Legislative appropriation is: $627,538.25.

Project/Org/Object strings are being set up to receive funds once financing is received.

The funding source is:
Fund Name/Number: Solarization of City Facilities/Project FA183200S
Munis Org Name/Number: TBD
Munis Object Name/Number: TBD

ENERGY EFFICIENT EQUIPMENT PROJECT
AT THE BUCKMAN DIRECT DIVERSION FACILITY

AGREEMENT BETWEEN THE CITY OF SANTA FE
AND THE BUCKMAN DIRECT DIVERSION BOARD

This Agreement ("Agreement") between the City of Santa Fe ("City") and the Buckman Direct Diversion Board ("BDDB") shall be effective as of the date of the full execution of this Agreement.

RECITALS

A. The City procured an Investment-Grade Energy Audit ("IGA") performed by Yearout Energy Services Company to evaluate the Buckman Direct Diversion Facility ("BDD Facility") along with its City facilities for energy savings improvements. The IGA recommended interior LED lighting retrofits and solar projects ("BDD Energy Projects") at BDD Facility locations as returning energy savings within the timeframe parameters of the IGA.

B. The BDD Energy Projects include LED Lighting at BDD Main, Booster Station #1A, Booster Station #2A and the Buckman Lift Station ("LED Lighting"); installation of two (2) solar arrays: a 739.2 kW ground mount solar array at Booster Station #1A and a 278.08 kW ground mount solar array at the Buckman Lift Station ("Solar Projects") all as described in the IGA.

C. The City and Sterling National Bank ("Lessor") will enter into that certain Lease-Purchase Agreement dated March 29, 2021 ("Lease-Purchase Agreement") to finance the design, acquisition, construction, permitting, and installation of the energy conservation measures recommended by the IGA. The Lease-Purchase Agreement will cover the installation of the BDD Energy Projects and the City, as borrower and lessee under the Lease-Purchase Agreement, is the sole obligor under the Lease-Purchase Agreement. The City, Santa Fe County ("County"), Las Campanas Water and Sewer Cooperative ("Cooperative") and/or the Club at Las Campanas ("Club") have entered, or will enter, into a separate cost sharing agreement to pay for the cost of the BDD Energy Projects out of utility cost savings.

D. Under the Lease-Purchase Agreement, the City will take title to the BDD Energy Projects upon installation. The City and BDDB wish to transfer title of the BDD Energy Projects to the BDDB once the Energy Projects are installed, subject to the conditions specified in this Agreement.

E. The City will also enter into that certain Professional Services Contract for Energy Performance Contracting ("EPC") with Yearout Energy Services Company ("EPC Contractor") for construction, installation, and other services related to the BDD Energy Projects and other projects at City facilities.

F. The City and the County each own an undivided 50% interest in the facilities comprising the Buckman Direct Diversion Project ("BDD Project"), (excluding Las Campanas Separate Facilities), as described in the *Joint Powers Agreement between the City of Santa Fe and the County of Santa Fe Governing the Buckman Direct Diversion* ("JPA"), as amended, and the

Facility Operations and Procedures Agreement for the Buckman Direct Diversion Project, as amended. In accordance with the JPA, the BDD Energy Projects will be appurtenant to and a part of the BDD Facility, which the City and County jointly own.

G. The permits (rights-of-way) for the BDD Facility are held by the BDDB with the United States Forest Service ("USFS") and with the Bureau of Land Management. The Solar Projects will require new permits to be issued by the USFS with the BDDB's consent and cooperation.

H. The parties wish to establish the terms and conditions under which the BDDB will agree to allow for the installation of the BDD Energy Projects at the BDD Facility and for the transfer of the BDD Energy Projects to the BDDB.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations set forth herein, and other good and valuable consideration, the receipt of which is hereby acknowledged, the Parties agree as follows:

1. Incorporation of Recitals. The forgoing Recitals are incorporated into and made a part of this Agreement by reference.

2. Consent to Install BDDB Energy Projects. The BDDB agrees to allow the City and the EPC Contractor to install the BDDB Energy Projects at the BDD Facility and to obtain the necessary Special Use Permits ("SUPs") from the USFS for the installation of the Solar Projects at the BDD Facility. The SUPs shall be issued in the BDDB's name. The BDDB shall cooperate as requested or required in obtaining the SUPs.

3. Solar Projects. The Solar Projects to be installed at the BDD Facility are a 739.2 KWdc Utility-Interactive Photovoltaic System at Booster Station #1A and a 278.08 kWdc Utility-Interactive Photovoltaic System at the Buckman Lift Station as depicted and described on the Site Plans for each, attached as Exhibit A-1 (Booster Station #1A) and Exhibit A-2 (Buckman Lift Station).

4. Transfer of Title and Maintenance of Energy Projects. Upon the vesting of title in the City to each Energy Project, the City agrees to transfer title to the Energy Project to the BDDB subject to Lessor's security interest and all rights and remedies of Lessor included in the Lease-Purchase Agreement. The City and the BDDB agree to execute any and all necessary documents to effectuate the transfer subject to Lessor's rights and interests. To the extent possible, the City shall transfer all warranties and guarantees of the Energy Project, other than the Savings Guarantee, which shall remain with the City, as fiscal agent for the BDD Facility. The EPC Contractor (or its subcontractor) shall perform all services as described in the EPC for the BDD Energy Projects, regardless of the transfer of title.

5. Good Faith. The parties shall cooperate in good faith to assure that the Agreement objectives are obtained.

6. Effective Date. This Agreement shall be effective on the date it has been fully executed by each party.

7. Miscellaneous

A. No Waiver. Neither the City nor the BDDB waive any limitation of liability that may apply under state law, including but not necessarily limited to the Bateman Act, NMSA 1978, Section 6-6-11, the New Mexico Tort Claims Act, NMSA 1978, Sections 41-4-1 through 41-4-30 and the Anti-Debt and Anti-Donation Clauses of the New Mexico Constitution, N.M. Const. Article IX, Sections 10 and 14, and NMSA 1978, Section 37-1-23.

B. Scope of Agreement. This Agreement constitutes the entire agreement and understanding between the City and the BDDB and supersedes any and all prior agreements, and understandings, oral or written, relating to the subject matter hereof.

C. Continuing Cooperation Between the Parties. The City and the BDDB shall work together cooperatively to assist one another in procuring and maintaining all necessary approvals and consents required for the installation and operation of the Energy Projects as, described in this Agreement and shall otherwise cooperate with one another as is required to effectuate the purposes of this Agreement.

D. No Third-Party Beneficiaries. The parties do not intend by this Agreement to confer any benefit on any person or entity that is not a party to this Agreement. Only the City and BDDB may enforce this Agreement.

E. Neutral Construction**.** Both parties fairly and fully negotiated the terms of this Agreement and both were represented by counsel. If a court deems any provision of this Agreement ambiguous, such ambiguity shall not be construed against either party and shall be construed neutrally so as to carry out the intent of the parties.

F. Assignment**.** This Agreement is not assignable by either party.

G. Captions**.** Section headings in this Agreement are used solely for convenience and shall be disregarded in the construction of this Agreement.

H. Amendment. This Agreement shall not be amended except by an instrument in writing executed by the parties.

I. Applicable Law; Venue. This Agreement shall be governed by the laws of the State of New Mexico. If a conflict arises between the parties concerning this Agreement, the First Judicial State Court District, Santa Fe County, shall be the exclusive venue.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date set forth below.

RELEASE AND SETTLEMENT AGREEMENT

NEIL WILLIAMS, **individually and as Personal Representative of the Estate of Tobin "Toby" Williams**, ("Mr. Williams") desires to settle and discharge any and all claims which have or could have been asserted by Mr. Williams against the **CITY OF SANTA FE** and its current and/or former employees, agents, predecessors and successors, elected officials, officers, representatives, attorneys, and insurers ("Released Parties") as a result of an incident occurring on April 1, 2019, in Santa Fe County, New Mexico ("incident") as alleged in the Tort Claims Notice dated April 17, 2019 from Mr. Lee R. Hunt.

The parties agree as follows:

1. The City of Santa Fe will pay the sum of five hundred thousand dollars and no cents ($500,000.00) in full settlement of all claims and demands against the Released Parties resulting from or relating to the incident and all claims and demands made in or relating to all other claims which Mr. Williams and the Estate may have against the Released Parties, including attorneys' fees, costs of suit, subrogation claims, or claims made by third parties. Mr. Williams forever releases all claims that have been brought, or that could have been brought in relation to this incident as alleged in the Tort Claims Notice dated April 17, 2019 from Mr. Lee R. Hunt.

2. Mr. Williams, his assigns, and successors hereby fully and unconditionally dismiss, release, and forever discharge the Released Parties and their representatives, officials, employees, predecessors and successors, insurers, attorneys, agents, and assigns from any and all claims (including attorneys' fees and costs of suit), charges, causes of action, subrogation claims, or demands of any kind and nature whatsoever arising out of this lawsuit and the incident, whether asserted or not.

3. Mr. Williams hereby represents that he is unaware of any subrogation claims, liens, or other third parties who have insured, paid, or indemnified, or rendered medical services to Tobin Williams in connection with the losses or expenses claimed as damages in this lawsuit. If any such subrogation claims or other demands are presented, Mr. Williams agrees to pay or to settle all such demands from the proceeds of this settlement and indemnify and hold the Released Parties harmless from any and all such claims. In addition, Mr. Williams agrees to reimburse the Released Parties for all reasonable attorneys' fees and costs in defending against any such subrogation claims or demands by third parties.

4. The parties hereby stipulate and agree that they and their counsel have considered the interests of Medicare in this case and have confirmed that Medicare has not paid for any medical care received by Tobin Williams in connection with the incident.

5. Mr. Williams acknowledges that the consideration received under this Settlement Agreement is intended to and does release and discharge the Released Parties, their agents, representatives, successors, assigns, and insurers from any claims or consequences arising from the incident and hereby waives any right to assert in the future any claims not known or suspected, even though if such claims were known, such knowledge would materially affect the terms of this Settlement Agreement.

6. Mr. Williams agrees to pay his attorneys' fees and other legal costs from the settlement proceeds. The Released Parties are not responsible for Mr. Williams's legal fees or costs.

7. Mr. Williams contends that all sums set forth herein constitute damages on account of personal physical injuries or sickness, within the meaning of § 104(a)(2) of the Internal Revenue Code of 1986, as amended.

8. Mr. Williams is responsible for any and all tax liabilities, if any, relative to the proceeds of this settlement. Mr. Williams acknowledges that neither the Released Parties nor their attorneys have made any representations whatsoever as to any tax consequences Mr. Williams may incur as a result of the settlement.

9. This Agreement is not an admission of fault on the part of the Released Parties. This is a settlement of a disputed claim and may not be used in any other litigation pursuant to Evidence Rule 408.

10. Mr. Williams acknowledges that the Released Parties have not made any promises or representations other than those recited in this Agreement to induce them to enter into this Agreement.

11. The terms of this Agreement are contractual, fully enforceable, and are not mere recital.

12. Mr. Williams and the Released Parties expressly waive the filing of this settlement agreement set forth in Rule 1-106(B)(3) NMRA.

13. In the event that any paragraph or portion of this Agreement should be later determined unenforceable, all other paragraphs of this Agreement shall remain in full force and effect.

14. This Agreement contains the entire agreement between Mr. Williams and the Released Parties with regard to the matters set forth herein. There are no other understandings or agreements, oral or otherwise, between the parties except as expressly set forth herein.

15. Mr. Williams affirms that he is competent to enter into this settlement agreement and that he is not currently under the care of a person licensed to practice the healing arts for any personal injury they claim to have incurred as a result of this incident.

16. This Agreement shall be construed and interpreted in accordance with the laws of the State of New Mexico.

17. I HAVE CAREFULLY READ THIS RELEASE, FULLY UNDERSTAND ITS TERMS, AND HAVE DISCUSSED THE IMPACT AND IMPORTANCE OF SIGNING THIS RELEASE WITH MY ATTORNEY.

This is a copy of my message of February 18, 2021 to SF Mayor and Councilors. Please include it in the public record, thank you.

Subject: Please postpone decisions about the proposed increase of Santa Fe lighting

Dear Santa Fe Mayor and City Councilors,

I moved to Santa Fe from Washington, D.C. 17 years ago, attracted by its quality of life, its respect for the environment, and its dark skies.

Over the years, I have been active in various citizen groups working on the Santa Fe City Vision Plan, president of the Santa Fe Watershed Association for 7 years and on its board for 11 years, and later member of the City's Santa Fe River Commission; I also worked with past-Mayor David Coss on various environmental issues. I was part of Santa Fe County's advisory groups for the Sustainable Land Development Code and Plan, and for the preservation of the Santa Fe National Forest.

All these public bodies and organizations have concluded that preserving the environment in and around Santa Fe, including the night skies, should be part of Santa Fe City and County policies.

I was distressed to read in the Santa Fe New Mexican today that the City is considering raising the lumen output beyond experts' recommendations and against well recognized practices, which would increase light pollution in the skies above Santa Fe, Santa Fe County, and far beyond.

As dark skies are a resource for Santa Fe and New Mexico, I urge you to postpone any decision on this matter until you can hear from experts and the public.

With sincere regards,

François-Marie Patorni

PUBLIC INFO CHART
You go to the Arts Commission/new dept webpage—great glossy bios. NO emails or phone contact info…
I have asked for a RFP for CHART and am not hearing anything. The info on the city webpage is not updated. There have been no newsletters.

PUBLIC INFO ECONOMIC DEVELOPMENT
I keep getting DEC 2020 info supposedly from Liz Camacho but really sent through some anonymous program….
Also I was told my business license feeswould be waived if I had paid in March or later 2020. I am receiving a bill but no response from Vince (emailed Friday last week)
PUBLIC INFO HPD
You have someone heading Historic Preservation Division who is not even named, let alone contact info providing. (Nicole Ramirez-Thomas)
The city should be a lot more proactive in having people forward their phones and answering them and getting IT to update info on a weekly basis.
NEGOTIATION ON HRC FINDING OF DISCRIMINATION
Am I being jerked around? Does it really take a city attorney months to respond to a 2 sentence, simple proposal? Or are you hoping I will go away (if the latter you should know better by now)

How does the original house on a lot become the guest unit and a new McMansion allowed? I thought the 2nd structure a la ADU ordinance only allowed another bldg. no larger than the foort print of the first one? Drive by Berger St in the 200 block to see a prime example.

FROM: Mayor Alan Webber

RE: Appointment of Mayor's Youth Advisory Board Member

I would like to make the following appointments:

Mayor's Youth Advisory Board
Miguel Angel Gonzalez Moreno (YouthWorks) – Reappointment – term ending 12/2022

City of Santa Fe, New Mexico
Memorandum

DATE: **February 11, 2021**

TO: **Mayor Alan M. Webber**

VIA: **Kristine Bustos-Mihelcic, City Clerk**

Kyra Ochoa

Kyra Ochoa, Community Health & Safety Department Director

Julie J. Sanchez, Youth & Family Services Division Director JJS

FROM: **George Carrasco, Project Administrator** GC

ITEM AND ISSUE:
Reappointment of Miguel Angel Gonzalez Moreno to the Mayor's Youth Advisory Board.

BACKGROUND AND SUMMARY:

Resolution 2001-23 created the Mayor's Youth Advisory Board to review issues, policies, and regulations affecting youth in the community. The board is also a way to increase opportunities for youth leadership and youth participation in civic engagement.

Miguel Angel Gonzalez Moreno (17, GED) brings in the perspective of youth who has had to both work and go to school. Miguel sees MYAB as an opportunity to make the city a more livable place for everyone in the community.

In December 2019, Mr. Gonzalez Moreno was appointed to the board. His term ended in December 2020, he has expressed interest in continuing serving the board.

ACTION REQUESTED:
The Youth & Family Services Division respectfully requests reappointment of Mr. Gonzalez Moreno.

City of Santa Fe New Mexico
Memorandum

Date: December 31, 2020

To: Quality of Life Committee, Finance Committee, and Governing Body

Via: Erin K. McSherry, City Attorney

From: Kyle Hibner, City Prosecutor KH
Jesse Guillen, Legislative Liaison JG

RE: Updates to the Uniform Traffic Ordinance, 2020

ITEM AND ISSUE:

The Bill incorporates changes to the Uniform Traffic Ordinance that reflect changes made at the state level.

BACKGROUND AND SUMMARY:

The Uniform Traffic Ordinance, as compiled by the New Mexico Municipal League, includes all statutory changes enacted by the legislature and as amended by the Governing Body.

The Bill amends various sections of the Uniform Traffic Ordinance to insert a clause stating that a person who violates a provision of the particular section is guilty of a penalty assessment misdemeanor while also removing the possibility of jail time in most cases.

A new section to establish a charge for driving while intoxicated with a minor in the vehicle is being added as well as creating three different sections for (1) driving while license is suspended, (2) driving while license is administratively suspended, and (3) driving when the privilege to do so has been revoked.

The Bill amends the section on littering to allow for the requirement for a violator to pick up the litter. The Bill also allows for motorists to use a portable electronic device to show proof of insurance. Schedule A of the UTO, the Penalty Assessment Schedule, is being amended as required based on the amendments to the UTO.

Finally, Section 24-1.1 SFCC 1987 is being amended to add the UTO as an Exhibit A at the end of Chapter 24 to provide ease of access to the public.

ACTION REQUESTED:

Adopt the Bill as presented.

ATTACHMENTS:

Bill
Fiscal Impact Report

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2021-1

INTRODUCED BY:

Councilor Chris Rivera

AN ORDINANCE

RELATING TO THE CITY OF SANTA FE UNIFORM TRAFFIC ORDINANCE ("UTO"); AMENDING VARIOUS SECTIONS TO INSERT A CLAUSE STATING THAT A PERSON WHO VIOLATES A PROVISION OF THE PARTICULAR SECTION IS GUILTY OF A PENALTY ASSESSMENT MISDEMEANOR; CREATING A NEW SUBSECTION 12-6-12.2A TO ESTABLISH A CHARGE FOR DRIVING WHILE INTOXICATED WITH A MINOR IN THE VEHICLE; AMENDING SUBSECTION 12-6-12.6 TO REMOVE REFERENCES TO DRIVING WHEN PRIVILEGE TO DO SO HAS BEEN REVOKED; CREATING A NEW SUBSECTION 12-6-12.6A TO ESTABLISH A CHARGE FOR DRIVING WHILE LICENSE IS ADMINISTRATIVELY SUSPENDED; CREATING A NEW SUBSECTION 12-6-12.6B TO ESTABLISH A CHARGE FOR DRIVING WHEN THE PRIVILEGE TO DO SO HAS BEEN REVOKED; AMENDING SUBSECTION 12-6-13.11 TO ESTABLISH A FINE FOR LITTERING; AMENDING SUBSECTION 12-10-4.1 TO PERMIT THE USE OF A PORTABLE ELECTRONIC DEVICE TO SHOW PROOF OF INSURANCE; AMENDING SCHEDULE A OF THE UTO TO ADD THE FINES ASSOCIATED WITH THE ADDITION OF THE PENALTY

ASSESSMENT MISDEMEANOR PROVISIONS; AND AMENDING SECTION 24-1.1 SFCC 1987 TO ADD THE UTO AS AN EXHIBIT A TO THE END OF CHAPTER 24 SFCC 1987.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 12-5-7 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-5-7 PEDESTRIAN CONTROL SIGNALS.

A. Whenever special pedestrian control signals exhibiting the words "walk" or "don't walk" are in place:

[~~A~~]1. "walk" indicates that pedestrians facing the signal may proceed across the street in the direction of the signal and shall be given the right of way by drivers of all vehicles; and

[~~B~~]2. "don't walk" indicates that no pedestrian shall start to cross the street in the direction of the signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to a sidewalk or safety island while the "don't walk" signal is showing.

B. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-7-106)

Section 2. Section 12-5-8 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-5-8 FLASHING SIGNALS.

A. Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal it shall require obedience by vehicular traffic as follows:

(1) flashing red (stop signal)--when a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or, if none, then before entering the

intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign; or

(2) flashing yellow (caution signal)--when a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

B. This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules as set forth in Sections 12-6-7.5 - 12-6-7.8 of this ordinance.

C. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-7-107)

Section 3. Section 12-5-10 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-5-10 DISPLAY OF UNAUTHORIZED SIGNS, SIGNALS OR MARKINGS.

A. No person shall place, maintain, or display upon or in view of any street any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the movements of traffic, or which hides from view or interferes with the effectiveness of any official traffic-control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising.

B. Every such prohibited sign, signal or marking is hereby declared to be a public nuisance and the administrator is hereby empowered to remove the same or cause it to be removed without notice.

C. The provisions of this section shall not prohibit the erection of signs upon private property adjacent to streets if the signs give useful directional information and are of a type that

cannot be mistaken for official signs. (*)

D. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-7-108)

Section 4. A new subsection 12-6-12.2A of the Uniform Traffic Ordinance is ordained to read:

[NEW MATERIAL] 12-6-12.2A DRIVING WHILE INTOXICATED WITH A MINOR IN THE VEHICLE.

A. Driving while intoxicated with a minor in the vehicle consists of a person committing a violation of 12-6-12.1 when a minor is in the vehicle and when the minor does not suffer great bodily harm or death. Whoever commits driving while intoxicated with a minor in the vehicle is guilty of a misdemeanor.

B. A charge for a violation of Subsection A of this section shall be in addition to a charge for the violation of 12-6-12.1 and shall be punished as a separate offense.

C. As used in this section, "minor" means an individual who is younger than thirteen years of age.

Section 5. Section 12-6-12.6 of the Uniform Traffic Ordinance (being Ord. No. 2011-4, as amended) is amended to read:

12-6-12.6 UNLAWFUL USE OF LICENSE; DRIVING WHEN PRIVILEGE TO DO SO HAS BEEN SUSPENDED [~~OR REVOKED~~].

A. No person shall:

(1) display or cause or permit to be displayed or have in [~~his~~] the driver's possession any canceled, revoked, or suspended driver's license or permit;

(2) lend [~~his~~] the person's driver's license or permit to any other person or knowingly permit the use thereof by another;

(3) display or represent as one's own any driver's license or permit not issued

to [~~him~~] the driver;

(4) fail or refuse to surrender to the court upon its lawful demand any driver's license or permit which has been suspended, revoked, or canceled;

(5) permit any unlawful use of driver's license or permit issued to [~~him~~] the driver; (NMSA 1978, § 66-5-37)

(6) drive a motor vehicle on any public street or highway at a time when [~~his~~] the driver's privilege to do so is suspended and who knows or should have known that [~~his~~] the driver's license was suspended. Upon conviction, the person [~~shall~~] may be punished by imprisonment for not [~~less than four days nor more than ninety days or participation for an equivalent period of time in a certified alternative sentencing program, and there may be imposed in addition a fine of not more than five hundred dollars ($500.00)~~] more than ninety (90) days, participation for an equivalent period of time in a certified alternative sentencing program, and/or a fine of not more than three hundred dollars ($300.00). When a person pays any or all of the cost of participating in a certified alternative sentencing program, the court may apply that payment as a deduction to any fine imposed by the court. (NMSA 1978, § 66-5-39)

[~~(7) drive a motor vehicle on a highway of this state at a time when the person's privilege to do so is revoked and who knows or should have known that the person's license was revoked is guilty of a misdemeanor and shall be charged with a violation of this section. Under conviction, the person shall be punished, notwithstanding the provisions of Sec. 31-18-13 NMSA 1978, by imprisonment for not less than four days or more than ninety days or by participation for an equivalent period of time in a certified alternative sentencing program, and there may be imposed in addition a fine of no more than $500. When a person pays any or all of the cost of participating in a certified alternative sentencing program, the court may apply that payment as a deduction to any~~

~~fine imposed by the court; and~~

~~(8) notwithstanding any other provision of law for suspension or deferment of execution of a sentence, if the person's privilege to drive as revoked for driving under the influence of intoxicating liquor or drugs or a violation of the Implied Consent Act, upon conviction shall be punished by imprisonment for not less than seven consecutive days and shall be fined not less than three hundred dollars ($300) and not more than five hundred dollars ($500) and the fine and imprisonment shall not be suspended, deferred or taken under advisement. No other disposition by plea of guilty to any other charge in satisfaction of a charge under this section shall be authorized if the person's privilege to drive was revoked for driving under the influence of intoxicating liquor or drugs or a violation of the Implied Consent Act, (66-3-39.1 NMSA 1978)]~~

B. In addition to any other penalties imposed pursuant to the provisions of this section, when a person is convicted pursuant to the provisions of this section, the motor vehicle the person was driving shall be immobilized by an immobilization device for thirty days, unless immobilization of the motor vehicle poses an imminent danger to the health, safety or employment of the convicted person's immediate family or the family of the owner of the motor vehicle. The convicted person shall bear the cost of immobilizing the motor vehicle. (NMSA 1978, § 66-5-39)

Section 6. A new subsection 12-6-12.6A of the Uniform Traffic Ordinance is ordained to read:

[NEW MATERIAL] 12-6-12.6A DRIVING WHILE LICENSE ADMINISTRATIVELY SUSPENDED.

A. A person who drives a motor vehicle on any public highway or street at a time when the person's privilege to do so is administratively suspended is guilty of a penalty assessment misdemeanor and may be punished pursuant to Schedule A of the Uniform Traffic

Ordinance.

Section 7. A new subsection 12-6-12.6B of the Uniform Traffic Ordinance is ordained to read:

[NEW MATERIAL] 12-6-12.6B UNLAWFUL USE OF LICENSE; DRIVING WHEN PRIVILEGE TO DO SO HAS BEEN REVOKED

A. No person shall drive a motor vehicle on a public highway or street at a time when the person's privilege to do so is revoked and who knows or should have known that the person's license was revoked is guilty of a misdemeanor and shall be charged with a violation of this section. Under conviction, the person shall be punished, by imprisonment for not less than four (4) days or more than ninety (90) days or by participation for an equivalent period of time in a certified alternative sentencing program, and there may be imposed in addition a fine of no more than five hundred dollars ($500.00). When a person pays any or all of the cost of participating in a certified alternative sentencing program, the court may apply that payment as a deduction to any fine imposed by the court.

B. Notwithstanding any other provision of law for suspension or deferment of execution of a sentence, if the person's privilege to drive is revoked for driving under the influence of intoxicating liquor or drugs or a violation of the Implied Consent Act, upon conviction that person shall be punished by imprisonment for not less than seven (7) consecutive days and shall be fined not less than three hundred dollars ($300.00) and not more than five hundred dollars ($500.00) and the fine and imprisonment shall not be suspended, deferred, or taken under advisement. No other disposition by plea of guilty to any other charge in satisfaction of a charge under this section shall be authorized if the person's privilege to drive was revoked for driving under the influence of intoxicating liquor or drugs or a violation of the Implied Consent Act, (NMSA 1978, § 66-3-39.1)

B. In addition to any other penalties imposed pursuant to the provisions of this

section, when a person is convicted pursuant to the provisions of this section, the motor vehicle the person was driving shall be immobilized by an immobilization device for thirty (30) days, unless immobilization of the motor vehicle poses an imminent danger to the health, safety, or employment of the convicted person's immediate family or the family of the owner of the motor vehicle. The convicted person shall bear the cost of immobilizing the motor vehicle. (NMSA 1978, § 66-5-39)

Section 8. Subsection 12-6-12.11 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-6-12.11 RESTRICTION ON USE OF [~~TELEVISION~~] VIDEO IN MOTOR VEHICLES.

A. It is unlawful to operate in this municipality any motor vehicle equipped with a [television] video screen, of whatever type, upon which images may be projected or shown, if the screen is within the normal view of the driver of the motor vehicle, unless the [~~television~~] video screen is solely used as an aid to the driver in the operation of the vehicle.

B. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor.

C. As used in this section "[~~television~~] video screen" does not include closed circuit monitors or computer terminal monitors used by law enforcement agencies in law enforcement motor vehicles. (NMSA 1978, § 66-7-358)

Section 9. Subsection 12-6-12.12 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-6-12.12 COASTING PROHIBITED.

A. The driver of any motor vehicle when traveling upon a down grade shall not coast with the clutch disengaged.

B. A person who violates the provisions of this section is guilty of a penalty

assessment misdemeanor. (NMSA 1978, § 66-7-360)

Section 10. Subsection 12-6-13.10of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-6-13.10 ANIMALS ON STREET.

A. It is unlawful for any person, during the hours of darkness to ride a horse or other animal upon the traveled portion of any street which is normally used by motor vehicles.

B. It is unlawful for any person negligently to permit livestock to wander or graze upon any fenced street at any time or, during the hours of darkness, to drive livestock along or upon any street which is normally used by motor vehicles.

C. Owners of livestock ranging in pastures through which unfenced roadways pass shall not be liable for damages by reason of injury or damage to persons or property occasioned by collisions of vehicles using said roadways and livestock or animals ranging in said pastures unless such owner of livestock is guilty of specific negligence other than allowing [~~his animals~~] livestock to range in said pasture. (NMSA 1978, § 66-7-363)

D. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor.

Section 11. Subsection 12-6-13.11 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-6-13.11 DRIVING ON MOUNTAIN STREETS.

A. The driver of a motor vehicle traveling through defiles or canyons or on mountain streets shall hold such motor vehicle under control and as near the right-hand edge of the street as reasonably possible.

B. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-7-359)

Section 12. Subsection 12-6-13.11 of the Uniform Traffic Ordinance (being Ord.

No. 2011-4) is amended to read:

12-6-13.15 LITTERING

A. No person shall throw or deposit from a motor vehicle upon a city street any trash, glass bottles, glass, nails, tacks, wire, or cans.

B. No person shall throw a lighted match, cigar, cigarette, matches, or other flaming or glowing substance from a motor vehicle where it can start a fire.(*)

C. A person who drops or permits to be dropped or thrown from a motor vehicle upon any city street any destructive or injurious material or trash shall immediately remove the same or cause it to be removed.

D. A person removing a wrecked or damaged vehicle from a city street shall remove any glass or other injurious substance dropped upon the city street from the vehicle.

E. As used in this section, "trash" means any article or substance that, when discarded, creates or contributes to an unsanitary, offensive, or unsightly condition. "Trash" includes waste food; paper products; cans, bottles, and other containers; household furnishings and equipment; parts or bodies of vehicles and other metallic junk or scrap; and collections of ashes, dirt, yard trimmings, and other rubbish.

F. Whoever commits littering is guilty of a petty misdemeanor, and notwithstanding the provisions of NMSA 1978, Section 31-9-1, shall be punished by a fine of three hundred dollars ($300.00). The use of uniform traffic citations is authorized for the enforcement of this section. The court may, to the extent permitted by law, as a condition to suspension of any other penalty provided by law, require a person who commits littering to pick up and remove from any public place or any private property, with prior permission of the legal owner, any litter deposited thereon. (NMSA1978, § 30-8-4)

Section 13. Subsection 12-6-14.2 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-6-14.2 PEDESTRIANS RIGHT OF WAY IN CROSSWALKS.

A. When traffic-control signals are not in place or not in operation, the driver of a vehicle shall yield the right of way, slowing down or stopping if need be to so yield, to a pedestrian crossing the street within a crosswalk when the pedestrian is in the crosswalk.

B. [~~No~~] A pedestrian shall not suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield.

C. Subsection A shall not apply under the conditions stated in Section 12-6-14.4.

D. Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the street, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

E. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-7-334)

Section 14. Subsection 12-6-14.3 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-6-14.3 PEDESTRIANS TO USE RIGHT HALF OF CROSSWALK.

A. Pedestrians shall move, whenever practicable, upon the right half of crosswalks. (NMSA 1978, § 66-7-338)

B. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor.

Section 15. Subsection 12-8-1 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-8-1 EFFECT OF REGULATIONS.

A. It is a penalty assessment misdemeanor for a person to perform any act forbidden or fail to perform any act required by Sections 12-8-1 through 23 of the Uniform Traffic Ordinance.

[A]B. The parent of any child and the guardian of any ward shall not authorize or permit any such child or ward to violate any of the provisions of this ordinance.

[B]C. These regulations applicable to bicycles shall apply whenever a bicycle is operated upon any street or upon any path set aside for the exclusive use of bicycles subject to those exceptions stated herein. (NMSA 1978, § 66-3-701)

Section 16. Subsection 12-10-1.1 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-10-1.1 PROHIBITED ACTS.

A. Except as otherwise provided in this section, it is a penalty assessment misdemeanor for any person to drive or move, or for the owner to cause or permit to be driven or moved, on any street, any vehicle, or combination of vehicles, which is in such unsafe condition as to endanger any person, or which does not contain those parts, or is not at all times equipped with such lamps and other equipment, in proper condition and adjustment, as is required by Sections 12-10-1.1 through 12-10-1.51, or which is equipped in any manner that is in violation of those sections, or for any person to do any act forbidden, or fail to perform any act required under those sections.

B. Nothing contained in Sections 12-10-1.1 through 12-10-1.51 shall be construed to prohibit the use of additional parts and accessories on any vehicle which are not inconsistent with the provisions of such sections.

C. The provisions of Sections 12-10-1.1 through 12-10-1.51, with respect to equipment on vehicles, shall not apply to implements of husbandry, road machinery, road rollers or farm tractors, except as made applicable in those sections. (NMSA 1978, § 66-3-801)

Section 17. Subsection 12-10-1.3 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-10-1.3 WHEN LIGHTED LAMPS ARE REQUIRED.

A. Every vehicle upon a street within this municipality at any time from a half-hour after sunset to a half-hour before sunrise and at any other time when there is not sufficient light to render clearly discernible persons and vehicles on the street at a distance of five hundred feet ahead shall display lighted lamps and illuminating devices as hereinafter respectively required for different classes of vehicles, subject to exceptions with respect to parked vehicles as hereinafter stated. (NMSA 1978, § 66-3-802)

B. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-3-802)

Section 18. Subsection 12-10-1.5 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-10-1.5 HEAD LAMPS ON MOTOR VEHICLES.

A. Every motor vehicle other than a motorcycle or motor-driven cycle shall be equipped with at least two headlamps with at least one on each side of the front of the motor vehicle, which headlamps shall comply with the requirements and limitations set forth in this ordinance.

B. Every motorcycle and every motor-driven cycle shall be equipped with at least one and not more than two headlamps which shall comply with the requirements and limitations of this ordinance.

C. Every headlamp upon every motor vehicle, including every motorcycle and motor-driven cycle, shall be located at a height measured from the center of the headlamp of not more than fifty-four inches nor less than twenty inches to be measured as set forth in Section 12-10-1.4B. The provisions of this paragraph shall apply only to new motor vehicles sold after July 1, 1953. (NMSA 1978, § 66-3-804)

D. For the purposes of Sections 12-10-1.1 through 12-10-1.5, parking lamps shall not be used in lieu of head lamps.(*)

E. No headlight shall emit a glaring or dazzling light. (NMSA 1978, § 66-3-828)

F. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-3-804)

Section 19. Subsection 12-10-1.8 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-10-1.8 VEHICLES TO BE EQUIPPED WITH REFLECTORS.

A. Every new motor vehicle hereafter sold and operated upon a street, other than a truck tractor, shall carry on the rear, either as a part of the tail lamps or separately, two red reflectors, except that every motorcycle and every motor-driven cycle shall carry at least one reflector, meeting the requirements of this section.

B. Every such reflector shall be mounted on the vehicle at a height not less than twenty inches nor more than sixty inches measured as set forth in Section 12-10-1.4B, and shall be of such size and characteristics and so mounted as to be visible at night from all distances within three hundred feet to fifty feet from such vehicle when directly in front of lawful upper beams of headlamps. (NMSA 1978, § 66-3-806)

C. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-3-806)

Section 20. Subsection 12-10-1.12 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-10-1.12 WINDSHIELD MUST BE UNOBSTRUCTED AND EQUIPPED WITH WIPERS; WINDOWS MUST BE TRANSPARENT; EXCEPTIONS.

A. No person shall drive any motor vehicle with any sign, poster or other nontransparent material upon or in the front windshield, windows to the immediate right and left of the driver or in the rear-most window if the latter is used for driving visibility except as provided in Section 12-10-1.12A. The rear-most window is not necessary for driving visibility

where outside rear-view mirrors are attached to the vehicle.

B. The windshield on every motor vehicle, except a motorcycle, shall be equipped with a device for cleaning rain, snow or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle.

C. Every windshield wiper upon a motor vehicle shall be maintained in good working order.

D. A person who violates the provisions of this section is guilty of a penalty assessment misdemeanor. (NMSA 1978, § 66-3-846)

Section 21. Subsection 12-10-1.12A of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-10-1.12A SUN SCREENING MATERIAL ON WINDSHIELDS AND WINDOWS; REQUIREMENTS; VIOLATION; PENALTY.

A. A person shall not operate on any street or highway a motor vehicle that is registered or required to be registered in this state if that motor vehicle has a sun screening material on the windshield or any window that does not comply with the requirements of this section.

B. Except as otherwise provided in this section, a sun screening material:

(1) when used in conjunction with the windshield, shall be nonreflective, shall not be red, yellow or amber in color and shall be used only along the top of the windshield, not extending downward beyond the ASI line or more than five inches from the top of the windshield, whichever is closer to the top of the windshield; and

(2) when used in conjunction with the safety glazing materials of the side wings or the side windows located at the immediate right and left of the driver, the side windows behind the driver and the rearmost window shall be nonreflective, shall have a light transmission of not less than twenty percent and shall be used only on the windows

of a motor vehicle equipped with one right and one left outside rearview mirror.

C. Each manufacturer shall:

(1) certify to the division that a sun screening material used by that manufacturer is in compliance with the nonreflectivity and light transmission requirements of this section;

(2) provide a label not to exceed one and one-half square inches in size that:

(a) is installed permanently and legibly between the sun screening material and each glazing surface to which it is applied;

(b) contains the manufacturer's name, the date the sun screening material was manufactured and the percentage of light transmission; and

(c) is placed in the left lower corner of each glazing surface when facing the motor vehicle from the outside; and

(3) include instructions with he sun screening material for proper installation, including the affixing of the label specified in this subsection.

D. No person shall:

(1) offer for sale or for use any sun screening material for motor vehicle use not in compliance with this section; or

(2) install any sun screening material on motor vehicles intended for operation on any street or highway without permanently affixing the label specified in subsection C of this section.

E. The provisions of this section do not apply to a motor vehicle registered in this state in the name of a person, or the person's legal guardian, who has an affidavit signed by a physician or an optometrist licensed to practice in this state that states that the person has a physical condition that makes it necessary to equip the motor vehicle with sun screening material that is in violation of this section. The affidavit shall be in the possession of the person with such

a physical condition, or the person's legal guardian, at all times while being transported in the motor vehicle.

F. The light transmission requirement of this section does not apply to windows behind the driver on truck tractors, buses, recreational vehicles, multipurpose passenger vehicles and motor homes. The provisions of this section shall not apply to motor vehicle glazing which complies with federal motor vehicle standards.

G. The provisions of this section do not apply to motor vehicles that have sun screening material on the windshield or any window prior to 1997.

H. As used in this section:

(1) "light transmission" means the ration of the amount of total light that passes through a product or material, expressed in percentages, to the amount of total light falling on the product or material;

(2) "manufacturer" means any person engaged in the manufacturing or assembling of sun screening products or materials designed to be used in conjunction with motor vehicle glazing materials for the purpose of reducing the effects of the sun;

(3) "nonreflective" means designed to absorb light rather than to reflect it; and

(4) sun screening material means any film material, substance, device or product that is designed to be used in conjunction with motor vehicle safety glazing materials for reducing the effects of the sun.

I. [~~Any~~] A person who violates [~~any~~] a provision of this section is guilty of a [~~petty~~] penalty assessment misdemeanor [~~and upon conviction shall be punished by a fine of not more than seventy-five dollars ($75.00)~~]. (NMSA 1978, § 66-3-846.1)

Section 22. A new subsection 12-10-4 of the Uniform Traffic Ordinance is ordained to read:

[NEW MATERIAL] 12-10-4 VEHICLE SUBJECT TO REGISTRATION; EXCEPTIONS

A. With the exception of vehicles identified in Subsection B of this section, every motor vehicle, manufactured home, trailer, semitrailer, and pole trailer when driven or moved upon a highway and every off-highway motor vehicle is subject to the registration and certificate of title provisions of the Motor Vehicle Code except:

(1) any such vehicle driven or moved upon a highway in conformance with the provisions of the Motor Vehicle Code relating to manufacturers, dealers, lien-holders, or nonresidents;

(2) any such vehicle that is driven or moved upon a highway only for the purpose of crossing the highway from one property to another;

(3) an implement of husbandry that is only incidentally operated or moved upon a highway;

(4) special mobile equipment;

(5) a vehicle that is propelled exclusively by electric power obtained from overhead trolley wires though not operated upon rails;

(6) a freight trailer if it is:

(a) properly registered in another state;

(b) identified by a proper base registration plate that is properly displayed; and

(c) identified by other registration documents that are in the possession of the operator and exhibited at the request of a police officer;

(7) a freight trailer or utility trailer owned and used by:

(a) a nonresident solely for the transportation of farm products purchased by the nonresident from growers or producers of the farm products and

transported in the trailer out of the state;

(b) a farmer or a rancher who transports to market only the produce, animals, or fowl produced by that farmer or rancher or who transports back to the farm or ranch supplies for use thereon; or

(c) a person who transports animals to and from fairs, rodeos, or other places, except racetracks, where the animals are exhibited or otherwise take part in performances, in trailers drawn by a motor vehicle or truck of less than ten thousand pounds gross vehicle weight rating bearing a proper registration plate, but in no case shall the owner of an unregistered trailer described in this paragraph perform such uses for hire;

(8) a moped;

(9) an electric personal assistive mobility device;

(10) a vehicle moved on a highway by a towing service as defined in Section NMSA 1978, § 59A-50-2; and

(11) an off-highway motor vehicle exempted pursuant to Section 66-3-1005 NMSA 1978.

*** Editor's Note:** Renumber the existing 12-10-4 DISPLAY OF CURRENT VALID REGISTRATION PLATE as 12-10-4.1

Section 23. Subsection 12-10-6 of the Uniform Traffic Ordinance (being Ord. No. 2011-4) is amended to read:

12-10-6 MANDATORY FINANCIAL RESPONSIBILITY.

A. No owner shall permit the operation of an uninsured motor vehicle, or a motor vehicle for which evidence of financial responsibility as was affirmed to the department is not currently valid, upon the streets or highways of New Mexico unless the vehicle is specifically exempted from the provisions of the Mandatory Financial Responsibility Act (NMSA 1978, §§

66-5-201 to 66-5-239).

B. No person shall drive an uninsured motor vehicle, or a motor vehicle for which evidence of financial responsibility as was affirmed to the department is not currently valid, upon the streets or highways of New Mexico unless he is specifically exempted from the provisions of the Mandatory Financial Responsibility Act.

C. For the purposes of the Mandatory Financial Responsibility Act, "uninsured motor vehicle" means a motor vehicle for which a motor vehicle insurance policy meeting the requirements of the laws of New Mexico and of the secretary is not in effect or a surety bond or evidence of a sufficient cash deposit with the state treasurer. (NMSA 1978, § 66-5-205)

D. When financial responsibility is satisfied through coverage under a motor vehicle insurance policy, the owner's or operator's carrying of evidence in print or accessible through a portable electronic device is acceptable. An owner or operator of a vehicle who provides evidence of financial responsibility through a portable electronic device

(1) assumes all liability for any resulting damage to the portable electronic evidence; and

(2) is presumed not to consent to provide access to a law enforcement officer to any other information stored in the portable electronic device.

[~~D~~]E. "Evidence of Financial Responsibility", as used in this Section, means evidence of the ability to respond in damages for liability, on account of accidents occurring subsequent to the effective date of the evidence, arising out of the ownership, maintenance, or use of a vehicle of a type subject to registration under the laws of New Mexico, in the following amounts:

(1) twenty-five thousand dollars ($25,000.00) because of bodily injury to or death of one person in any one accident;

(2) subject to this limit for one person, fifty thousand dollars ($50,000.00) because of bodily injury to or death of two or more persons in any one accident;

(3) ten thousand dollars ($10,000.00) because of injury to or destruction of property of others in any one accident; and

(4) if evidence is in the form of a surety bond or a cash deposit with the state treasurer, the total amount shall be sixty thousand dollars ($60,000.00). (NMSA 1978, § 66-5-208)

[~~E~~]F. Exemptions--Exempted from the mandatory financial responsibility provisions of this Section are the following:

(1) a motor vehicle owned by the United States government, any state or any political subdivision of a state;

2) an implement of husbandry or special mobile equipment which is only incidentally operated upon the streets or highways within the limits of the municipality;

(3) a motor vehicle operated upon a street or highway within the limits of the municipality only for the purpose of crossing such street or highway from one property to another;

(4) a commercial motor vehicle registered or proportionally registered in New Mexico and any other jurisdiction, provided such motor vehicle is covered by a motor vehicle insurance policy or equivalent coverage or other form of financial responsibility in compliance with the laws of any other jurisdiction in which it is registered;

(5) a motor vehicle approved as self-insured by the superintendent of insurance pursuant to NMSA 1978, § 66-5-207.1; and

(6) any motor vehicle when the owner has submitted to the department a signed statement, in the form prescribed by the department, declaring that the vehicle will not be operated on the highways of New Mexico and explaining the reasons therefore. (NMSA 1978, § 66-5-207)

[~~F~~]G. The office of the municipal court shall notify the Division of Motor Vehicles of the Transportation Department of the State of New Mexico of the conviction of any person violating the provisions of this Section.

[~~G~~]H. Penalty. Any person found guilty of violating this Section shall be fined not more than three hundred dollars ($300.00) (NMSA 1978, § 66-5-205(E)); provided however, that no person charged with violating this section shall be convicted if he produces in court evidence of financial responsibility valid at the time of issuance of the citation. (*)

[~~H~~]I. When a law enforcement officer issues a driver who is involved in an accident a citation for failure to comply with the provisions of the Mandatory Financial Responsibility Act, the law enforcement officer shall at the same time:

(1) issue to the driver cited a temporary operation sticker, valid for thirty days after the date the sticker is issued, and forward by mail or delivery to the department a duplicate of the issued sticker; and

(2) remove the license plate from the vehicle and send it with the duplicate of the sticker to the department or, if it cannot be removed, permanently deface the plate. (NMSA 1978, § 66-5-205.1)

Section 24. Schedule A of the Uniform Traffic Ordinance (being Ord. No. 2011-4, as amended) is amended to read:

SCHEDULE A

TRAFFIC VIOLATION PENALTY ASSESSMENT SCHEDULE

ADOPTED: July 12, 2006 – Ord. No. 2006-34

AMENDED: March 25, 2009 – Ord. No. 2009-11

February 10, 2010 – Ord. No. 2010-2

June 29, 2011 – Ord. No. 2011-23

August 13, 2014 – Ord. No. 2014-26

SECTION 1.

This Exhibit may be cited as the city of Santa Fe traffic violation penalty assessment schedule for violations of the city of Santa Fe Uniform Traffic Code except those violations relating to parking which are set forth as Exhibit B of the city of Santa Fe Uniform Traffic Code.

SECTION 2.

"Penalty assessment misdemeanor" means violation of the following listed sections of the city of Santa Fe Uniform Traffic Code for which the listed penalty assessment is established. The term "penalty assessment misdemeanor" does not include any violation which has caused or contributed to the cause of an accident resulting in injury or death to any person. When an alleged violator of a penalty assessment misdemeanor elects to accept a notice to appear in lieu of a notice of penalty assessment, the fine imposed upon later conviction shall not exceed the penalty assessment established for the particular penalty assessment misdemeanor and probation imposed upon a suspended or deferred sentence shall not exceed ninety days.

COMMON NAME OF OFFENSE	SECTION VIOLATED	PENALTY ASSESSMENT
Obedience To Traffic–Control Devices/Failure To Stop	12-5-3	$25.00
Red Light	12-5-6	$25.00
Pedestrian Controls	12-5-7	$25.00
Flashing Signals	12-5-8	$25.00
Display of Unauthorized Signs, Signals, or Markings	12-5-10	$25.00
Basic (Speeding) Rule	12-6-1.1	$25.00
Speed Limits	12-6-1.2	
A. *The following apply outside a school zone*:		
Up to and including 10 miles an hour over speed limit		$15.00
From 26 up to and including 30 miles an hour over the speed limit		$125.00
From 31 up to and including 35 miles an hour over the speed limit		$150.00
More than 35 miles an hour over the speed limit		$200.00
B. *In a school zone*	12-6-1.2A	$171.00

C. *In a construction zone*: The penalty assessment for speeding in violation of Section 12-6-1.2 (4) of the city of Santa Fe traffic ordinance is twice the penalty assessment established in subsection A above for the equivalent miles per hour over the speed limit		
D. *In a pedestrian zone.* The penalty assessment for speeding in violation of the posted speed limit in a designated pedestrian zone is twice the penalty assessment established in subsection A. above for the equivalent miles per hour over the speed limit.		
Minimum Speed Regulations	12-6-1.5	$25.00

Display Of Current Valid Registration Plate	12-10-4	$25.00

SECTION 3. MANDATORY COURT APPEARANCES

Violations of the following listed sections of the city of Santa Fe Uniform Traffic Code require a mandatory court appearance:

Leaving the Scene of an Accident 12-4-2

Failure to Render Aid/Duty to Give Info	12-4-3
Immediate Notice of Accident	12-4-6
Failure to Yield to Emergency Vehicle	12-6-7.4
Reckless Driving	12-6-12.3
Careless Driving/Driver Inattention	12-6-12.4
Operator/Chauffeur Licenses Required	12-6-12.5
Unlawful Use of License (Revoked)	12-6-12.6
Unlawful Use of License (Suspended)	12-6-12.6
Fleeing or Attempting to Elude An Officer	12-6-12.7
Racing on Streets/Drag Racing/Exhibition of Speed	12-6-12.19
Open Container 2nd, 3rd, etc.	12-6-13.14
Pedestrian Related Violations	12-6-14 (except 12-6-14.1)
Off-Highway Motor Vehicles (ATV)	12-7-9 through 12-7-9.6
Display of Current Registration	12-10-4
Evidence of Registration	12-10-5
Mandatory Financial Responsibility (Insurance)	12-10-6

SECTION 4. TRAFFIC CALMING FEES

A. Persons violating speed limits within the city have created a need for traffic calming. The governing body has determined that those persons violating the speed limits should pay additional fees. The purpose of the additional fees is to discourage speeding within the city and to provide funds for the city's traffic calming program.

B. The city hereby imposes a traffic calming fee equal to the maximum fine (excluding court fees) to be paid by any person convicted of a speeding violation as set forth in the Uniform Traffic Ordinance as adopted by the city, the total of which shall not exceed the jurisdictional limits of the court. The traffic calming fee applies to all violations of Section 12-6-

1.2, but the traffic calming fee is not doubled.

C. The traffic calming fee shall be collected by the municipal court for funding the city's traffic calming program. The amount of fees collected shall not decrease the amount of money allocated to the traffic calming program through the current fiscal year Capital Improvement Program bonding process.

D. The governing body shall review the results of this subsection including the amount of fees which have been collected and the amount of police overtime because of this subsection. The municipal court shall provide the governing body with the appropriate statistics to review this subsection.

SECTION 5. MUNICIPAL COURT FEES

In addition to the penalty assessment established pursuant to this Exhibit, there shall be assessed the municipal court fees for each penalty assessment misdemeanor as set forth in Section 1-3.2 SFCC 1987.

SECTION 6. PENALTY ASSESSMENT MISDEMEANORS; OPTION; EFFECT

A. Unless a warning notice is given, at the time of making an arrest for any penalty assessment misdemeanor, the arresting officer shall offer the alleged violator the option of accepting a penalty assessment. The violator's signature on the penalty assessment notice constitutes an acknowledgement of guilt of the offense stated in the notice, and payment of the prescribed penalty assessment is a complete satisfaction of the violation.

B. Payment of any penalty assessment shall be made by mail to the Municipal Court, City of Santa Fe, P.O. Box 909, Santa Fe, New Mexico, 87504-0909 within 30 days from the date of arrest. Payments of penalty assessments are timely if postmarked within the time limits set from the date of arrest. The Municipal Court shall issue a receipt when a penalty assessment is paid by currency, but a check or money order tendered by the violator upon which payment is received is sufficient receipt.

C. No record of any penalty assessment payment is admissible as evidence in any court in any civil action.

SECTION 7. FAILURE TO PAY PENALTY ASSESSMENT

A. If a penalty assessment is not paid within 30 days from the date of arrest, the violator shall be prosecuted for the violation charged on the penalty assessment notice in a manner as if the penalty assessment notice had not been issued. Upon conviction in such prosecution, the court shall impose penalties as provided for by the New Mexico Uniform Traffic Ordinance (Section 12-12-1.1), or other law relating to motor vehicles for the particular offense charge, and the scheduled penalty assessment shall not apply.

B. In addition to the prosecution provided for in Section A above, it is a misdemeanor for any person who has elected to pay a penalty assessment to fail to do so within 30 days from the date of arrest.

C. The municipal court shall notify the motor vehicle division of the state of New Mexico when a person fails to pay a penalty assessment within the required period of time. The motor vehicle division shall report the notice upon the driver's record and shall not renew the person's license to drive until the municipal court notifies the motor vehicle division that the penalty assessment, or its equivalent, as well as any additional penalties imposed are properly disposed of.

SECTION 8 VIOLATIONS NOT LISTED ON PENALTY ASSESSMENT SCHEDULE.

This traffic violation penalty assessment schedule does not apply to traffic violations not listed above which are petty misdemeanors. Such violations mandate a court appearance with a fine of up to three hundred dollars ($300) and up to 90 days in jail.

Section 25. Section 12-6-12.3 of SFCC 1987 (being Ord. No. 2011-4, as amended) is amended to read:

24-1 City of Santa Fe Uniform Traffic Ordinance.

24-1.1 Adoption of City of Santa Fe Uniform Traffic Ordinance

A. The governing body hereby adopts the 2010 compilation of the city of Santa Fe Uniform Traffic Ordinance ("Uniform Traffic Ordinance"). The traffic violation penalty assessment schedule and the parking violation fines schedule are included in the Uniform Traffic Ordinance.

B. Amendments to the Uniform Traffic Ordinance shall be adopted by an ordinance of the governing body.

C. The Uniform Traffic Ordinance is a separate compilation and [~~is available for inspection during the normal and regular business hours of the city clerk~~] can be found as Exhibit A at the end of this chapter. A physical copy of the Uniform Traffic Ordinance is available to any individual upon request and payment of a reasonable charge as set by the city.

ERIN K. McSHERRY, CITY ATTORNEY

FIR No. 3243

FISCAL IMPACT REPORT

General Information:

(Check) Bill: X Resolution: _____

Short Title(s): **UTO Changes 2020**

Sponsor(s): Councilor Rivera

Reviewing Department(s): City Attorney's Office

Staff Completing FIR: Kyle Hibner Date: 11/25/20 Phone: 955-5195

Reviewed by City Attorney: _____ Date: Jan 4, 2021

Reviewed by Finance Director: _____ Date: Jan 5, 2021

Summary:
This Bill amends various sections of the Uniform Traffic Ordinance ("UTO"). Among the changes are adding clauses into various sections that state that a person who violates the provisions of that particular section is guilty of a penalty assessment misdemeanor. Additionally, a charge for driving while intoxicated with a minor in the vehicle is added, establishing a charge for driving with a license that has been administratively suspended, separating out a charge for driving with a license that has been revoked, allowing for the use of a mobile device to show proof of insurance, and amending the Schedule A of the UTO – the penalty assessment schedule. Finally, the Bill adds the UTO as an exhibit at the end of Chapter 24 to make it more accessible to the public.

Departments Affected:
Police, City Attorney's Office, Municipal Court

Consequences of Not Enacting Legislation:
The City of Santa Fe will not have the most up-to-date language included in the Uniform Traffic Ordinance.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Due to incorrect assignment of sections by the New Mexico Municipal League ("NMML"), some sections have been assigned alphabetical listings. This creates confusion in the UTO. The City Clerk has requested that the NMML recompile the UTO to correct the numbering of various sections.

Performance and Administrative Implications:
The addition of penalty assessments for specific violations removes the potential imprisonment component of punishment in most cases. The full penalty amount is more likely to be assessed in these cases as there is no possibility of jail time. The removal of possible jail time also means violations that result in criminal charges will not jeopardize violators' future efforts to seek employment. Police officers, the City Prosecutor, and Municipal Court will all need to be made aware of the changes to the UTO in order to properly issue, prosecute, and handle related violations.

Fiscal Implications:

There is an estimated negative fiscal impact as a result of specified fines for violations of various sections of the UTO. Currently, any violation not specifically listed on Schedule A of the UTO is subject to a mandatory court appearance with a fine of up to $300 and up to 90 days in jail. In most cases, by specifying the penalty assessment in the table, the criminal component is removed and a civil citation is assessed instead. Based on prior years' citations, the following can be expected in terms of changes to revenue:

12-5-7	$0 ➔ $0
12-5-10	$0 ➔ $0
12-6-12.5	$45,535 ➔ $18,975
12-6-12.6, 12-6-12.6(A), 12-6-12.6(B)	$25,461 ➔ Undetermined due to separating out different sections
12-6-12.11	$0 ➔ $0
12-6-12.12	$0 ➔ $0
12-10-1.12	$502 ➔ $475
12-10-1.12(A)	$393 ➔ $350
12-10-4	$17,862 ➔ $22,288

Not sure if I am in agreement w/ penalty assessments re walking against a light. Often the light will take a full cycle to respond and there is no traffic coming...I understand that the goal is increased safety but I also remember the attempt to increase jaywalking fines and make court appearances mandatory. The police were under pressure to give out tickets rather than respond to more significant calls/situations.

CITY OF SANTA FE STREETLIGHT LED CONVERSION PROJECT

FEBRUARY 24, 2021

Our Streetlight System Today

- High failure rate and long repair times
- Confusing customer service
- Double energy use
- High cost for electricity and maintenance
- Failure to meet lighting regulations and safety-security expectation
- Excessive fugitive light affecting homes and dark sky

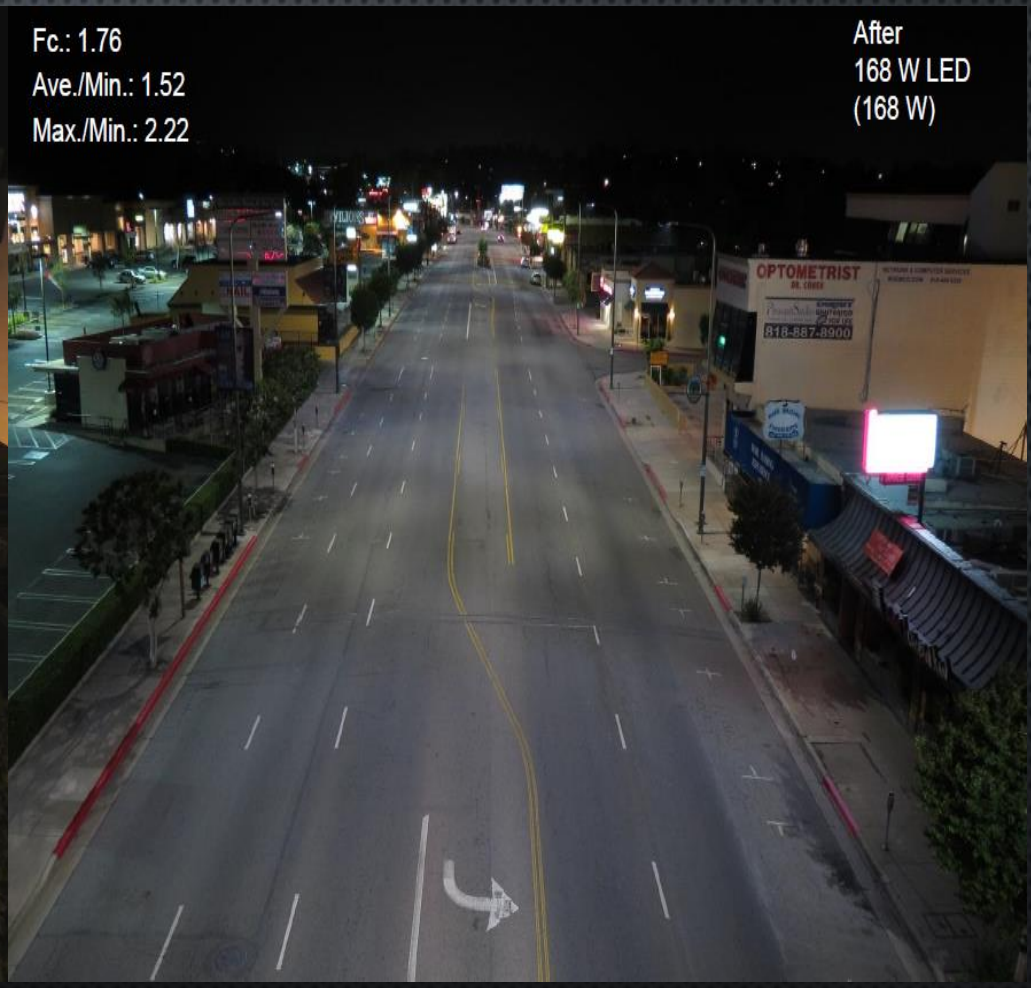
WHAT WE WILL HAVE: CENTRALIZED MAINTENANCE MANAGEMENT

- Online problem reporting and customer service hotline
- routine repairs within 5 days – faster if more than 1 light
- Automatic detection of failures on City owned lights.
- Company dedicated to street light performance
- Reporting and accountability for repairs, reliability and energy use
- Accurate inventory in powerful design and tracking tool

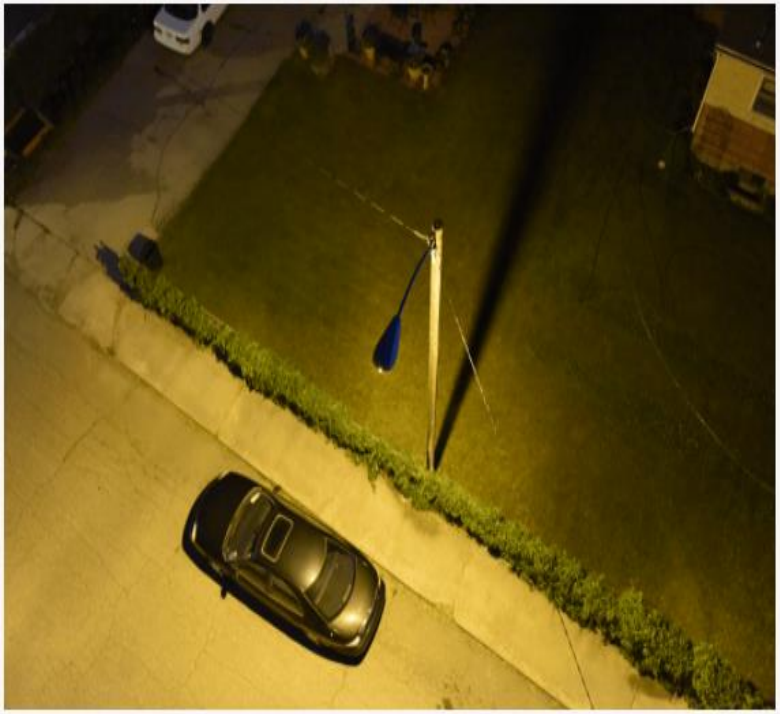
WHAT WE WILL HAVE: ENVIRONMENTAL IMPROVEMENT

- 50-60% reduction in energy use
- Progress on City goal of carbon neutrality by 2040
- LEED Cities points toward Platinum
- New fixtures comply with state and local dark sky code

WHAT WE WILL HAVE:
ENERGY SAVED SINCE LEDS USE LESS ENERGY FOR SAME LUMENS 400W HPS VS 168W LED

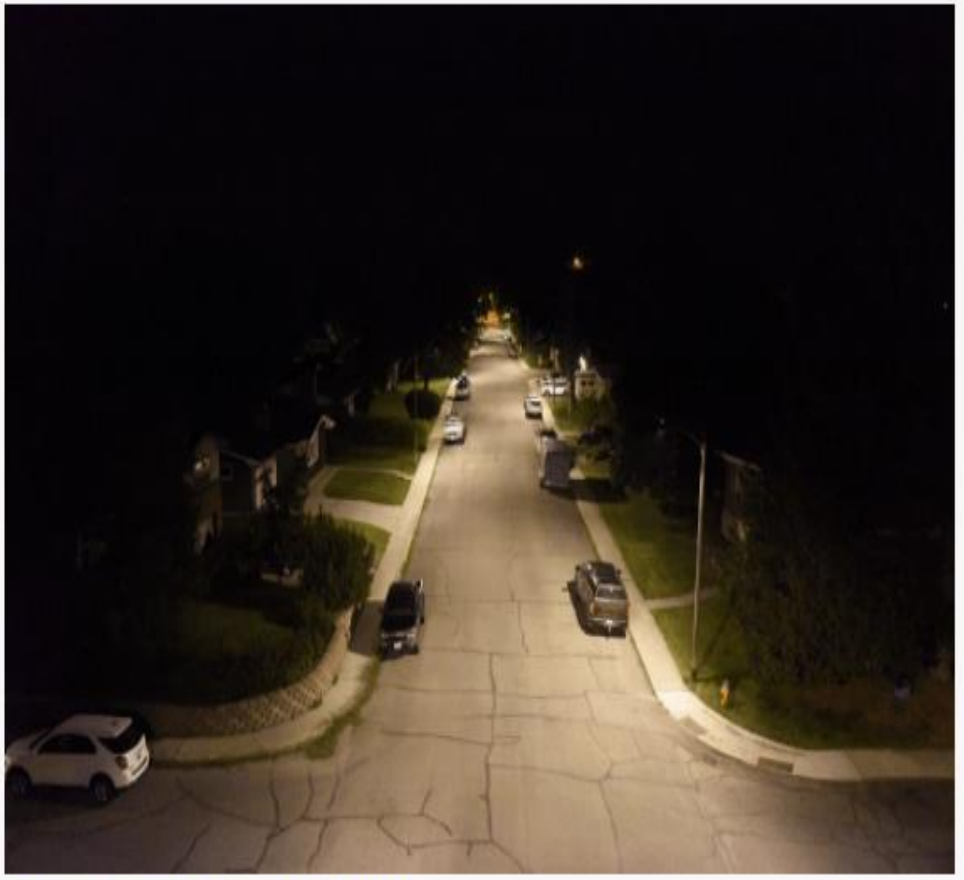


WHAT WE WILL HAVE:
LIGHTS SHINE ON STREET, NOT INTO HOMES



Stoddard St. HPS #1

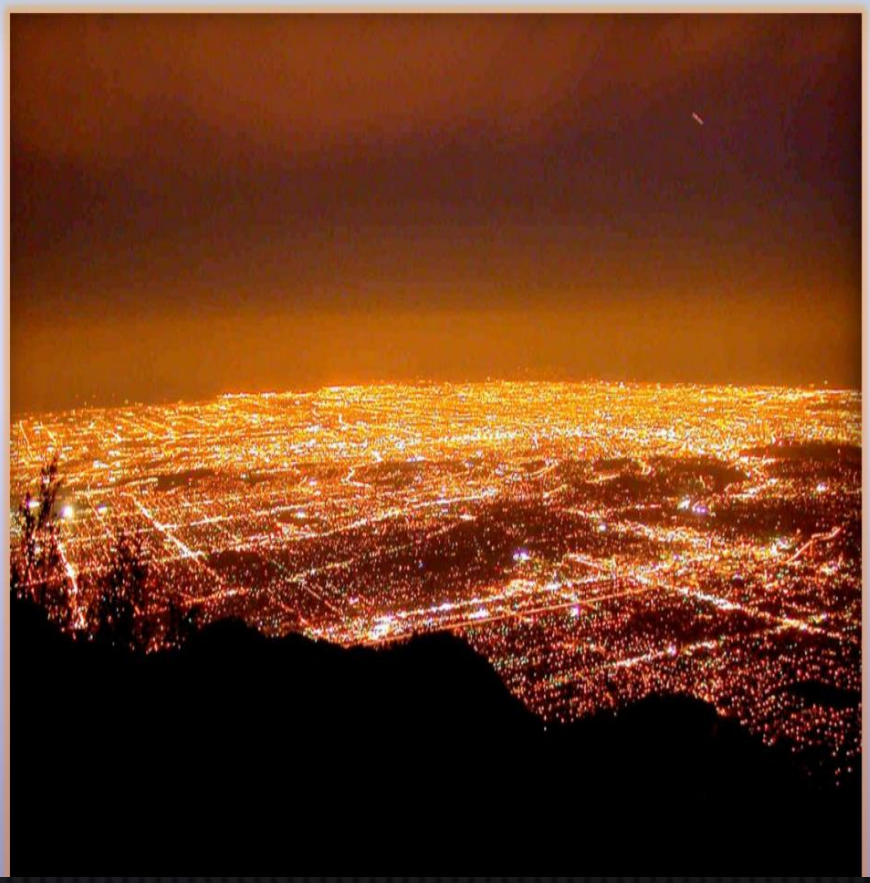
HPS fixture with more back light than ideal.



Fairview Ave. LED #2

WHAT WE WILL HAVE:
SHIELDED FIXTURES REDUCE SKY GLOW

Los Angeles Basin – View from Mt. Wilson
Before LED Retrofit Project – 2008



Los Angeles Basin – View from Mt. Wilson
After LED Retrofit Project – 2012

Memorandum

DATE: **January 24, 2021**

TO: **Governing Body**

FROM: **Regina Wheeler, Public Works Department Director** RW

ITEM

Global Management Performance Contract with Dalkia Energy Solutions, LLC to convert City owned street lights to LEDs for $2,757,777 plus NMGRT and maintain City owned street lights for $179,074/year plus NMGRT. Regina Wheeler, rawheeler@santafenm.gov, 955-6622.

SUMMARY

Street lights play in important role in making roadways safe for pedestrians, bicyclists and drivers. The City's street lights have a short lifespan and a high failure rate. They are an old technology, high pressure sodium (HPS), that uses a lot of electricity. By converting street lights to LEDs, the reliability will be improved and the electricity use reduced by approximately 60%. The on-bill electric savings will pay for the conversion.

There are approximately 5550 street lights in the City of Santa Fe. The City owns approximately 3499 of these street lights including the lights on Cerrillos and St Michael's Drive that just transferred to the City from NMDOT. PNM owns approximately 2057 of the street lights in the City. NMDOT owns the lights at on and off ramps of 599 and other highways. The City is responsible for the cost of operations and maintenance for all of these lights at a cost of approximately $1,000,000 per year.

The City pays PNM according to Rate 20, approximately $620,000 per year for electricity and maintenance on all of the approximately 5550 street lights. The estimated on-bill electric savings of converting all of the City's lights to LED is projected to be $550,000 per year. The City also pays PNM for non-routine maintenance associated with aging infrastructure and accidents costing an additional approximately $300,000 per year. After the conversion, PNM will no longer maintain the City's street lights. The GMPC with Dalkia includes provisions for routine and non-routine maintenance of City street lights. The fee for regular maintenance will be $179,074 plus NMGRT and non-routine maintenance will be performed at unit rates included in the GMPC. The Dalkia team that will convert and maintain the City of Santa Fe street lights just completed the City of Albuquerque's street light conversion project and performing ongoing maintenance from their office in Albuquerque.

The new street lights are smart ready, facilitating remote monitoring. Dalkia will manage the City's street light maintenance using a software for monitoring operations and reporting key performance indicators including energy savings as required by the contract. The City will have licenses to access the software as well. Constituents reporting street light issues will be able to call Dalkia's dedicated service phone number or send an email to the dedicated email address, call City of Santa Fe constituent services or log a work order into the City's online work order system. All items will be routed to Dalkia for resolution. Dalkia will meet monthly with City Public Works to review outstanding items.

The City is entering a separate contract with PNM for the conversion of street lights owned by PNM that will come to the Governing Body in a separate item. PNM, Dalkia and the City are working together with the goal of converting all of the lights in one 6 month project. From the notice to proceed, there is 6-8 weeks for materials delivery and then 4 months for installation. The map in the Implementation Plan shows the planned sequencing of the conversion, starting on the south side of town in approximately June, then moving to downtown in case large gatherings begin again and then crossing the rest of the City by September 2021.

The lamps being removed will be recycled and hazardous waste managed properly by the contractors.

The new LED lamp heads focus light down onto the street and generate less stray light than the current street lights. This improves safety while protecting dark skies. The smart ready street lights can also support a dimming strategy. When converting to LEDs there is also the specification of color. Rate 20 specifies the light conversion for PNM lights as 3,000 kelvin for residential and 4,000 kelvin for main streets and collectors. Dalkia will follow the same conversion strategy. It has been reported that 3,000 kelvin lights minimize interference with circadian rhythms and that 4,000 kelvin lights make main roads safer. Specifications of the luminaires to be used in the conversion of City owned street lights are included in the attached Implementation Plan.

PROCUREMENT METHOD:

The procurement method is use of existing contract. See attached City of Albuquerque GMPC with Dalkia (previously Citelum).

BUDGET:

Conversion

$2,880,464.42 ($2,757,777 plus $232,687.43 @ 8.4375% NMGRT)
Project string FA183200I
Fund 600 Org Object: 1000471.520200a budget to be loaded after financing closes

Maintenance

$194,183.37 ($179,074/year plus $15,109.37 @ 8.4375% NMGRT) for annual maintenanc.
Org/object 1000416.520150 (Traffic Engineering – Repair & Maintenance System Equipment)

MUNIS CONTRACT NUMBER:

3202498 Dalkia

SCHEDULE:

Public Works Committee: 02/08/2021
Finance Committee: 02/15/2021
City Council: 02/24/2021

The project is scheduled for completion within six months after the Notice To Proceed (NTP) is received by the contractor, currently scheduled for September 30, 2021.

CONSIDERATION OF BILL NO. 2021-2

ADOPTION OF ORDINANCE NO. 2021-____

Approval of Global Management Performance Contract with Dalkia Energy Solutions, LLC

CITY OF SANTA FE, NEW MEXICO

ORDINANCE NO. 2021-2

INTRODUCED BY:

Mayor Alan Webber

AN ORDINANCE

APPROVING A GLOBAL MANAGEMENT PERFORMANCE CONTRACT BY AND BETWEEN THE CITY AND DALKIA ENERGY SOLUTIONS, LLC (THE "AGREEMENT") FOR THE INSTALLATION OF STREETLIGHT UPGRADES, SUBJECT TO CITY COUNCIL APPROVAL OF A SEPARATE FINANCING TRANSACTION TO FINANCE THE COSTS OF THE AGREEMENT; AUTHORIZING THE PLEDGE OF UTILITY COST SAVINGS AS SECURITY FOR THE TRANSACTION FOR THE FINANCING OF THE AGREEMENT, AND THE EXECUTION AND DELIVERY OF CERTAIN OTHER AGREEMENTS AND DOCUMENTS IN CONNECTION WITH THE EPC; RATIFYING ACTION PREVIOUSLY TAKEN IN CONNECTION WITH THE AGREEMENT; REPEALING ALL ORDINANCES AND PRIOR ACTION IN CONFLICT HEREWITH; AND RELATED MATTERS.

Capitalized terms used in the following preambles have the same meaning as set forth in Section 1 of this Ordinance unless the context requires otherwise.

WHEREAS, the City of Santa Fe, New Mexico (the "City") is a legally created,

established, organized and existing incorporated charter municipality with home-rule powers under the constitution and laws of the State of New Mexico; and

WHEREAS, Dalkia Energy Solutions, LLC, a Massachusetts limited liability company ("Contractor") has agreed to perform Street Light LED Upgrade and Maintenance (the "Project") for the City per the pricing structure and the contractual terms of the Global Management Performance Contract by and between Citelum US, Inc. and the City of Albuquerque, New Mexico dated September 28, 2017, as agreed to by the letter submitted by the Contractor to the City dated September 10, 2019; and

WHEREAS, the amount of savings to be realized through the implementation of the Project appears to be sufficient to cover all costs associated with the Project; and

WHEREAS, the Contractor has proposed that the City and the Contractor enter into a Global Management Agreement (the "Agreement"), a copy of which has been presented to the City Council in connection with its consideration of this Ordinance, and pursuant to which the Contractor will complete the Project at a total cost not to exceed $3,187,337.78, including gross receipts taxes; and

WHEREAS, the Project consists of the installation and maintenance of LED streetlight conversion and routine and non-routing maintenance of the converted streetlights; and

WHEREAS, the City intends to finance the costs of the Project through a separate financing arrangement with a third-party financial institution (the "Financing Transaction") which will be paid from pledged Utility Cost Savings as authorized pursuant to the Act, and pursuant to which the Pledged Utility Cost Savings are net revenues of the Project (the "Pledged Revenues") which constitute a special fund; and

WHEREAS, the Governing Body intends to approve the Agreement and authorize its execution, delivery, and assignment of the Pledged Revenues, subject to the terms and provisions of this Ordinance.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE, NEW MEXICO:

Section 1. Definitions. The terms in this section are defined for all purposes of this Ordinance and of any ordinance amendatory hereof or supplemental hereto, or relating hereto, and of any instrument or document appertaining hereto, except where the context by clear implication herein otherwise requires, shall have the following meanings:

"Act" means the general laws of the State, including the home-rule charter of the City, Sections 3-31-1 through 3-31-12 NMSA 1978, as amended, and enactments of the Governing Body relating to the Agreement and the Financing Transaction, including this Ordinance.

"Authorized Officer" means the following officers of the City: Mayor, City Manager, City Finance Director, or other officer of the City when designated by a certificate signed by the Mayor of the City from time to time, a certified copy of which shall be delivered to the Paying Agent.

"Bond Counsel" means an attorney or firm of attorneys nationally recognized for expertise in the area of municipal bonds and the exemption of interest on municipal bonds from federal income taxation.

"City," "Municipal," or "Municipality" means the municipal corporation and body corporate and politic known as the City of Santa Fe, Santa Fe County, New Mexico.

"Conservation Measures" mean, collectively or individually, as the context may require, the energy savings equipment and improvements of which the Project is comprised.

"Contract Price" means $3,187,337.78, including gross receipts taxes, which is the maximum amount payable pursuant to the Agreement.

"Contractor" means Dalkia Energy Solutions, LLC, a Massachusetts limited liability company.

"Costs of Issuance" means all costs relating to the execution and delivery of the Agreement and the Financing Transaction, including, without limitation, costs of advertising and publication,

costs of fees and expenses of the financial advisor, Bond Counsel, the Paying Agent, and other reasonable and necessary fees and costs, including applicable gross receipts taxes, related to the execution and delivery of the Agreement and the Financing Transaction.

"Financing Transaction" means the transaction to be entered into by and between the City and the Lender, proceeds of which shall be applied to pay the Contract Price; the principal of, interest on and other payments due in connection with the Financing Transaction shall be payable solely from Pledged Revenues; provided, that the Financing Transaction may be in the form of a lease-purchase agreement, a loan agreement or other form of debt obligation.

"Governing Body" means the members of the governing body designated as councilors who, together with the mayor, are the governing body of the City.

"Lender" means the bank or other financial institution serving as the lender in connection with the Financing Transaction; if applicable, the Lender may be the lessor if the Financing Transaction is a lease-purchase transaction.

"Ordinance" means this City Ordinance as amended or supplemented from time to time.

"Placement Agent" means D.A. Davidson & Co., Kansas City, Missouri.

"Placement Agent Agreement" means the professional services agreement by and between the City and the Placement Agent for the placement of the Financing Transaction with the Lender.

"Pledged Revenues" means amounts generated by Utility Cost Savings pursuant to the Agreement, which constitute net revenues of the Project, which shall be deposited monthly to the Pledged Revenue Fund as provided in Section 6 of this Ordinance.

"Pledged Revenue Fund" means the fund created pursuant to Section 6 of this Ordinance.

"Project" means the implementation of LED streetlight upgrades and associated routine and non-routine maintenance for the purpose of achieving Utility Cost Savings: the following energy savings measures:

(1) LED Streetlight conversion:

The Contractor will upgrade all City owned lights that are not currently LED to LED. The estimated type and amount of lights to be converted will be confirmed by the Contractor in the field through the course of installation.

(2) Routine Street light Maintenance:

The Contractor will perform routine maintenance of City-owned streetlights, including regular maintenance, including bulbs, photocells, minor wiring & fuses, and cleaning, night patrols.

Management of Computerized Maintenance Management System ("MUSE").

The Contractor will manage lights-out hotline including coordination with PNM regarding PNM owned street lights.

Provide emergency response 24 hours a day 7 days a week.

The Contractor will maintain accurate inventory of changes to City owned lighting system.

(3) Non-Routine Street light Maintenance and Installation:

The Contractor will provide on-call street light maintenance and construction services for non-routine maintenance and installation of City Street Lights that are not otherwise covered under Routine Street Light Maintenance. The Contractor will perform this work upon written authorization to proceed,

"Related Documents" means, as applicable, the lease-purchase agreement, loan agreement, promissory note, escrow agreement, account control agreement and any other document or agreement containing an obligation of the City as may be required by the Lender or otherwise in connection with the Agreement pursuant to the Financing Transaction.

"Utility Cost Savings" means the amounts saved by the City in the purchase of electricity or water that are a direct result of the Conservation Measures.

Section 2. Ratification of Prior Action. All action heretofore taken (not inconsistent with the express provisions of this Ordinance) by the Governing Body and officers of

the City directed toward the Project, the Agreement and the Financing Transaction, including, without limitation, the publication of a notice of public meeting and intent to adopt this Ordinance authorizing the execution and delivery of the Agreement, and the engagement of D.A Davidson as Placement Agent pursuant to the Placement Agent Agreement, and the same hereby is ratified, approved and confirmed, notwithstanding any inconsistent prior action.

Section 3. **Findings.** The Governing Body hereby finds:

A. The amount that the City would spend on the Project is not likely to exceed the cumulative amount of Utility Cost Savings over the ten year term of the Agreement from the date of installation of streetlight upgrades, including the financing of those costs pursuant to the Financing Transaction, and excluding the cost of normal repair and replacement of components of the streetlight upgrades; and

B. The streetlight upgrades, and the routine and non-routine maintenance thereof pursuant to the Agreement which constitute the Project will generate Utility Cost Savings equal to or greater than the costs of the Project, including the financing of those costs pursuant to the Financing Transaction.

C. The Project is a revenue-producing project, the Conservation Measures are reasonably related to and constitute a substantial part of the Project, and the Utility Cost Savings constitute net revenues of the Project, each within the meaning of Section 3-31-1(F) NMSA 1978.

Section 4. **Authorization of the Project; Financing Transaction Condition.** The Project is hereby authorized at a total cost not to exceed the Contract Price, excluding any such cost defrayed or to be defrayed by any source other than proceeds of the Financing Transaction allocable to the Contract Price; provided, that the Project and execution and delivery of the Agreement shall be subject to the authorization and closing of the Financing Transaction.

Section 5. **Execution and Delivery of Agreement.** The Mayor or, in the absence of the Mayor, the Mayor pro tempore, is authorized to execute and delivery the Agreement, which

shall be attested by the City Clerk or an assistant City Clerk, in substantially the form presented to the Governing Body in its consideration of this Ordinance, with such modifications or revisions as the Mayor, in consultation with the City's municipal advisor and bond counsel, determines are necessary or convenient to implement the Project, and the execution and delivery of the Agreement by the Mayor, or in the absence of the Mayor, the Mayor pro tempore, shall be conclusive evidence of the City's approval thereof, as may be modified or revised.

Section 6. Establishment and Administration of Pledged Revenue Fund; Assignment as Security for Financing Transaction. A special revenue fund is hereby established, to be identified as the "City of Santa Fe/Dalkia Project Revenue Fund (the "Pledged Revenue Fund"). In the first month following substantial completion of the installation of streetlight upgrades as described in Section __ of the Agreement, the City shall deposit Pledged Revenues to the Pledged Revenue Fund. The assignment of the Pledged Revenues as security for the payment of debt service in connection with the Financing Transaction is hereby authorized, with such details as shall be provided in the Financing Transaction documentation authorized by the Governing Body.

Section 7. Period of Project's Usefulness. It is hereby determined and recited that the average useful life of the Project is not less than __ years.

Section 8. Authorization to Execute Related Documents and Delegated Authority.

A. Approval of Documents; Ratification. The form, terms, and provisions of the Related Documents are in all respects approved, authorized, and confirmed, with such changes therein not inconsistent with this Ordinance as the Authorized Officers of the City deem necessary or desirable.

B. Delegated Authority and Execution of Documents. The officers, agents, and employees of the City are authorized, empowered and directed to take all action required by this

Ordinance, and all such other action as may be necessary or appropriate to effectuate the provisions of this Ordinance, the Related Documents, and any other documents as may be necessary or appropriate to carry out and comply with the provisions of this Ordinance.

Section 9. Severability. If any Section, paragraph, clause or provision of this Ordinance shall be held to be invalid or unenforceable, the invalidity or unenforceability of such Section, paragraph, clause or provision shall not affect any of the remaining provisions of this Ordinance.

Section 10. Repealer Clause. All ordinances or parts of ordinances inconsistent herewith are hereby repealed to the extent only of such inconsistency. This repealer shall not be construed to revive any ordinance or part of any ordinance heretofore repealed.

Section 11. Effective Date, General Summary for Publication. Upon due adoption of this Ordinance, the ordinance shall be recorded and preserved by the City Clerk, authenticated by the signature of the Mayor and City Clerk, and the seal of the City impressed hereon, and the title and general summary of the subject matter contained in this Ordinance (set out below) shall be published in a newspaper which maintains an office and is of general circulation in the City and this Ordinance shall be in full force and effect after its publication in accordance with law.

Pursuant to Section 3-17-5 NMSA 1978, as amended, the title and a general summary of the subject matter contained in this Ordinance shall be published in substantially the following form:

(Form of Summary of Ordinance for Publication)

CITY OF SANTA FE, NEW MEXICO

NOTICE IS HEREBY GIVEN of the title and of a general summary of the subject matter contained in an ordinance duly adopted and approved by the Governing Body of the City of Santa Fe on February __, 2021. A complete copy of the ordinance is available for public inspection during the normal and regular business hours of the City Clerk in the office of the City Clerk, City

Hall, 200 Lincoln Avenue, Santa Fe, New Mexico and is available online at santafe.primegov.com. The title of the ordinance is:

AN ORDINANCE

APPROVING A GLOBAL MANAGEMENT PERFORMANCE CONTRACT BY AND BETWEEN THE CITY AND DALKIA ENERGY SOLUTIONS, LLC (THE "AGREEMENT") FOR THE INSTALLATION OF STREETLIGHT UPGRADES, SUBJECT TO CITY COUNCIL APPROVAL OF A SEPARATE FINANCING TRANSACTION TO FINANCE THE COSTS OF THE AGREEMENT; AUTHORIZING THE PLEDGE OF UTILITY COST SAVINGS AS SECURITY FOR THE TRANSACTION FOR THE FINANCING OF THE AGREEMENT, AND THE EXECUTION AND DELIVERY OF CERTAIN OTHER AGREEMENTS AND DOCUMENTS IN CONNECTION WITH THE EPC; RATIFYING ACTION PREVIOUSLY TAKEN IN CONNECTION WITH THE AGREEMENT; REPEALING ALL ORDINANCES AND PRIOR ACTION IN CONFLICT HEREWITH; AND RELATED MATTERS.

A general summary of the subject matter contained in such ordinance is set forth in the title. COMPLETE COPIES OF THE ORDINANCE ARE ON FILE IN THE OFFICE OF THE CITY CLERK AT THE CITY HALL, 200 LINCOLN AVENUE, SANTA FE, NEW MEXICO, ARE AVAILABLE ONLINE AT SANTAFE.PRIMEGOV.COM, AND ARE AVAILABLE FOR INSPECTION AND/OR PURCHASE DURING REGULAR OFFICE HOURS. THIS NOTICE ALSO CONSTITUTES COMPLIANCE WITH SECTION 3-17-5 AND SECTIONS 6-14-4 THROUGH 6-14-7, NMSA 1978.

WITNESS my hand and the seal of the City on February ___, 2021.

GLOBAL MANAGEMENT PERFORMANCE CONTRACT

Between

CITY OF SANTA FE

and

DALKIA ENERGY SOLUTIONS, LLC

GLOBAL MANAGEMENT PERFORMANCE CONTRACT

THIS GLOBAL MANAGEMENT PERFORMANCE CONTRACT (together with the schedules and appendices attached hereto, this "Agreement") is made this _____ day of _____, 2021, ("Effective Date") by and between Dalkia Energy Solutions US, Inc. and its successors and permitted assigns ("CONTRACTOR") and the City of Santa Fe, a political subdivision of the State of New Mexico ("CLIENT"). (CONTRACTOR and CLIENT being sometimes referred to herein as a "Party" or collectively as the "Parties").

WITNESSETH

WHEREAS, CONTRACTOR is party to a Global Management Performance Contract with the City of Albuquerque, dated October 9, 2015 (the “Albuquerque GMPC”);

WHEREAS, pursuant to a letter, dated January 22, 2021, CONTRACTOR confirmed its willingness to extend the pricing, terms and conditions of the Albuquerque GMPC to the City of Santa Fe;

WHEREAS, the City of Santa Fe is using the “Procurement under Existing Contracts” methodology under Section XIV(B) of the City of Santa Fe Procurement Manual 2020 for purposes of entering into this Agreement;

WHEREAS, CLIENT desires to engage CONTRACTOR to among other things: install, operate and maintain certain high-efficiency Infrastructure (as defined herein) for the purpose of reducing energy consumption, increase Energy Savings (as defined herein), improve public and traffic safety, enhance economic development, and achieve long-term operating cost reductions and other budget savings for the System (as defined herein); all of which shall be subject to the terms and conditions of this Agreement;

WHEREAS, CONTRACTOR provides technical, engineering, and physical infrastructure works and management performance services (to perform energy efficient, sustainable lighting system solutions on a global basis) and designs, installs and operates Artistic Lighting (as defined herein) and Smart City Instruments (as defined herein);

WHEREAS, CLIENT and CONTRACTOR seek to enter into this Agreement and set out the terms and conditions by which CONTRACTOR develop, install and construct, operate and maintain the Infrastructure and the System, develop and install Artistic Lighting and Smart City Instruments projects and provide the Works (as defined herein) and Services (as defined herein) for CLIENT; and

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, and intending to be legally bound hereby, CLIENT and CONTRACTOR hereby covenant and agree as follows:

ARTICLE 1: DEFINITIONS; COMMENCEMENT AND TERM

1.1 Definitions

Capitalized terms used in this Agreement and the Schedules and not otherwise defined shall have the meanings given to such terms in Schedule 1 (Definitions).

1.2 Commencement and Duration

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL EXECUTED BY BOTH PARTIES. This Agreement shall terminate fifteen (15) years after acceptance of the completed LED conversion unless terminated pursuant to Article 9 (Termination), or Article 6.2 (Appropriations), or as otherwise agreed to by the Parties.

1.3 Term Extensions

This Agreement may be extended for the period and under the circumstances that follow:

a. Upon mutual agreement in writing by the Parties to extend the Term of this Agreement for one five (5) year period.

b. If a Supervening Event occurs, the CONTRACTOR shall, in addition to any other rights which it may have under this Agreement, be entitled to an extension of time for the performance of its obligations hereunder, which extension shall be determined as set forth below.

    1. The CONTRACTOR shall give notice in writing to CLIENT within a reasonable time of the occurrence of a Supervening Event, but in any event not later than ten (10) Business Days after the CONTRACTOR becomes aware of the occurrence of the Supervening Event, which shall include the following: (i) a statement of the nature of the Supervening Event; (ii) details of the circumstances from which the Supervening Event arises; (iii) details of the consequences, whether direct or indirect, financial or non-financial, which such Supervening Event may have, including any estimate of the required extension of time for the performance by the CONTRACTOR of its obligations hereunder (the "Extension Estimate"); and (iv) details of any measures which the CONTRACTOR proposes to adopt to mitigate the consequences of such Supervening Event.

    2. CLIENT shall indicate whether it agrees or not with the Extension Estimate as soon as reasonably practicable and, in any event, within twenty (20) Business Days of receipt of any notice issued by the CONTRACTOR. If CLIENT does not agree with the Extension Estimate, the Parties may refer the matter for determination in accordance with the applicable dispute resolution procedure as set forth herein. If CLIENT so agrees, or any extension is settled pursuant to the dispute resolution procedure the term of the Agreement shall be extended by a period equal to such agreed/settled extension.

ARTICLE 2: GENERAL OBLIGATIONS

2.1 Engagement. CLIENT hereby engages and CONTRACTOR hereby accepts the engagement to perform and/or to provide the Works and the Services, each in accordance with the terms and conditions of this Agreement.

2.2 Independent Contractor. CONTRACTOR shall provide the Infrastructure, Smart City Instruments and Artistic Lighting at its sole cost and expense, perform the Works and provide the Services, as an independent CONTRACTOR with exclusive control of the manner and means of performing the Works and Services in accordance with the requirements of this Agreement. CONTRACTOR has no authority to act or make any agreements or representations on behalf of CLIENT. This Agreement is not intended, and shall not be construed to create, between CLIENT and CONTRACTOR, the relationship of principal and agent, joint-venturers, copartners or any other such relationship, the existence of which is hereby expressly denied. No employee or agent of CONTRACTOR shall be, or shall be deemed to be, an employee or agent of CLIENT. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Agreement. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax.

2.3 Conditions Precedent. This Agreement and all obligations of the CONTRACTOR hereunder or in respect hereof are subject to and conditioned upon all necessary approvals of this Agreement and all terms and conditions hereof by CLIENT and/or applicable executive board, commission, council or other governing body or Governmental Authority with jurisdictional authority over CLIENT.

2.4 CLIENT General Obligations. The CLIENT, without cost to CONTRACTOR, shall:

a. Designate a contact person with authority to make decisions for CLIENT regarding the Works and Services and provide CONTRACTOR with information sufficient to contact such person in an emergency;

b. Coordinate the aspects of the Works and Services under CLIENT's sole control so as not to disrupt the performance of the Works and Services proceeding in an efficient manner;

c. Provide CONTRACTOR reasonable and scheduled access to the System and the Smart City Instruments and Artistic Lighting project sites where Works or Services are to be performed so that Works or Services may proceed in an efficient manner;

d. Permit CONTRACTOR to control and/or operate all Infrastructure, Artistic Lighting, Smart City Instruments, System, apparatus, and related machinery necessary to perform the Works or Services, including granting the CONTRACTOR all necessary rights and licenses therein;

e. Furnish CONTRACTOR with all blueprints, surveys, legal descriptions and documentation, and all other available information pertinent to the Works as the same may be reasonably requested by CONTRACTOR that is in the control of the CLIENT. Such plans, blueprints, surveys and all other pertinent information, along with an executed copy of this Agreement with its schedules, shall be kept and maintained in CLIENT'S and CONTRACTOR's files from the Commencement Date until at least five (5) years after the termination of this Agreement;

f. Furnish or assist CONTRACTOR with all approvals, permits and consents from Governmental Authorities and others as may be required for performance of the Works and Services;

g. Make available to CONTRACTOR any safety requirements and other policies, plans or programs that are in the CLIENT's possession and relate to the System, Smart City Instruments and Artistic Lighting and that could reasonably be determined to affect the Works or Services, as applicable;

h. Coordinate with the local utility all needed servicing for utility owned facilities needed for System operation. Any costs therein shall be borne by CLIENT.

2.5 Confidential and Proprietary Information. Subject to Applicable Law, CLIENT acknowledges that the technical and pricing information contained in Schedule 2 and Schedule 3 and conspicuously marked therein is confidential and proprietary to CONTRACTOR and agrees not to disclose it or otherwise make it available to others unless required by Applicable Law. In the event that such disclosure is required by Applicable Law, CLIENT shall make best effort to provide timely written notice of the demand for such disclosure to CONTRACTOR and work with CONTRACTOR to limit disclosure of confidential and proprietary information.

2.6 Receipt of Title. CLIENT acknowledges that it shall receive and take title to the Infrastructure, Smart City Instruments and Artistic Lighting on the Acceptance Date for each Segment of the Works and it shall receive title to repaired or replaced System assets upon installation.

2.7 Addressing Safety Issues During Works and Services. CONTRACTOR may voluntarily address suspected health or safety issues observed, but not caused by CONTRACTOR while at a facility during the course of CONTRACTOR's performance of the Works or the Services on the System, Smart City Instruments and Artistic Lighting. In the event CONTRACTOR does address such issues by making observations, reports, and suggestions or otherwise, CLIENT shall not hold, or attempt to hold, CONTRACTOR liable or responsible on account thereof.

ARTICLE 3: WORKS PHASE

3.1 Performance of the Works

a. Commencing no later than the Commencement Date, CONTRACTOR shall perform the Works pursuant to and in accordance with Schedule 2 (Scope of Works). The activities of CONTRACTOR related to its performance of the Works shall be limited solely to those duties and obligations set forth in Schedule 2 (Scope of Works).

b. The Works will be performed in Segments and each Segment of the Works will be accepted independently upon completion of the Segment in accordance with the procedures set forth in Section 3.7 below. The Segments of the Works may be performed simultaneously.

c. At the written request of either Party and under the terms of a separate Change Order and if both CONTRACTOR and CLIENT agree to the terms of the Change Order, CONTRACTOR will perform additional Works which are not detailed in this Agreement.

3.2 CONTRACTOR's Works Phase Obligations

In furtherance of Section 3.1 above, CONTRACTOR undertakes and covenants to CLIENT that it shall:

a. be responsible for performing the Works, which shall include constructing and installing the Infrastructure, Smart City Instruments and Artistic Lighting in a manner consistent with the work schedule set forth in Schedule 2 (Scope of Works), the Implementation Plan, Applicable Law, and Prudent Industry Practice; provided, however, that CONTRACTOR is not required to conduct safety, acceptance or other tests, install new devices or Infrastructure, Smart City Instruments and Artistic Lighting or make modifications to any part of the System unless included as a part of the Works identified in the Schedule 2 (Scope of Works);

b. perform all Works Phase activities efficiently and with the requisite expertise, skill and competence to satisfy the requirements of the Agreement;

c. subject to the provisions of this Agreement, comply with and assist CLIENT to ensure compliance with all Applicable Law;

d. exercise commercially reasonable efforts not to interrupt the operation of the System during its performance of the Works. In cases where an interruption is necessary to complete any installation of Infrastructure, the CLIENT and CONTRACTOR shall make reasonable efforts to agree on the timeframe and dates of the service interruption in order to limit citizen inconvenience; and

e. use its best efforts to not impede, impair or interrupt CLIENT's electrical service to the System during the performance of the Works; provided however, the Works Phase will cause periodic electrical service interruptions and CONTRACTOR will make a reasonable effort to notify CLIENT of any interruptions and to minimize the interruptions.

f. require all of its subcontractors to comply with Applicable Law and carryout the subcontracted Works in accordance with Prudent Industry Practices.

3.3 CLIENT's Works Phase Obligations

In addition to all duties and obligations identified in Article 2, CLIENT undertakes and covenants to CONTRACTOR that it shall:

a. comply with all Applicable Law;

b. provide such reasonable assistance to and not unreasonably impede CONTRACTOR in the performance of the Works under this Agreement;

c. perform all CLIENT responsibilities related to the Works, as the same is set forth in Schedule 2 (Scope of Works) and Schedule 5 (Acceptance Procedures); and

d. review and check, or have an agent or contractor review and check, the Works for each Segment performed by CONTRACTOR from time to time as set forth in the Commissioning Plan and Quality Assurance Plan and provide any related comments in writing to CONTRACTOR.

3.4 Program for the Sequence and Timing of Works; Field Inspections

a. CONTRACTOR shall record and maintain a Works schedule program or protocol as set forth in Schedule 2 (Scope of Works) and the Implementation Plan, and such Works schedule shall detail the Segments, sequence and timing of the activities necessary for the delivery and completion of the Works. CONTRACTOR shall record, update and maintain such Works schedule documentation and make such information available to CLIENT upon request. CONTRACTOR shall make commercially reasonable efforts to proceed with the Works in accordance with the Works schedule timeframes and shall give CLIENT reasonable notice of probable events or circumstances which may materially adversely affect or materially delay the execution of the Works in accordance with the Works schedule.

b. For the entire duration of the Works, the representatives of the CLIENT will be able to access the System, Smart City Instruments and Artistic Lighting project sites provided that they have informed the CONTRACTOR within a reasonable timeframe. CLIENT may perform such field tests as it deems necessary to verify that the Works meets the performance standards required herein. CONTRACTOR shall be permitted to witness such tests. All inspections and tests by CLIENT shall be performed in such manner as not to unnecessarily delay the Works. CLIENT shall not exercise any prerogatives of project management or of project supervision when on the work sites.

3.5 Time for Completion of the Works

The expected date of completion of all of the Works shall be 6 months from the Commencement Date (hereinafter the "Expected Completion Date").

3.6 Extension of Time

Notwithstanding Section 3.5, CONTRACTOR shall be entitled to a reasonable extension of time for the completion of the Works beyond the Expected Completion Date, equal to but not greater than the period of delay, if and to the extent that completion is or will be delayed by any of the following:

a. a Change Order; or

b. any CLIENT failure to perform a Material Obligation under this Agreement; or

c. any Supervening Event; or

d. any delay, restriction or prevention of CONTRACTOR from performing the Works caused by or attributable to the CLIENT, its employees or agents, or the CLIENT's other contractors; or

e. any delay, restriction or prevention of CONTRACTOR from performing the Works caused by or attributable to any relevant Governmental Authority, other than the CLIENT, from which a consent is necessary for execution of the Works provided CONTRACTOR has diligently, steadfastly and without delay pursued such consent in good faith.

If CONTRACTOR incurs or is likely to incur loss and/or expense as a result of an extension of time pursuant to subsection (a), (b) and (d) above, then Contractor and Client shall discuss how to mitigate the actual losses and expenses and shall work in good faith to share the responsibility for costs associated with unanticipated extensions of time. CONTRACTOR's actual loss or expenses may include overhead, additional System operation and maintenance costs or expenses and other losses or costs incurred, which such agreed to amounts shall be set forth in the immediately succeeding monthly invoice issued to CLIENT in accordance with the terms and conditions contained in Schedule 4 (Payment Mechanism).

If CONTRACTOR incurs losses and expenses as a result of an extension of time pursuant subsection (c) and (e) above, then subject to CONTRACTOR taking all reasonable steps to mitigate the losses and expenses, the CLIENT and CONTRACTOR shall enter into negotiations to equitably allocate the losses and expenses between the Parties, unless agreed to otherwise in writing. If CLIENT and CONTRACTOR do not agree on an equitable allocation, the Parties may refer the matter for determination in accordance with the applicable dispute resolution procedure as set forth herein.

3.7 Acceptance

The Acceptance Date for each Segment of the Works shall occur when:

a. a Segment of the Works is complete, in accordance with Schedule 5 (Acceptance Procedures), the start-up and commissioning thereof is complete, and the Infrastructure, Smart City Instruments and Artistic Lighting (if applicable) included in the Segment of the Works, as detailed in Schedule 2 (Scope of Works), may be utilized for their intended use;

b. CONTRACTOR shall have delivered to CLIENT, lien waivers, sworn statements, guarantees, full releases, discharges or other evidence reasonably satisfactory to CLIENT that there are no liens, claims, or notices in respect thereof pending, filed, or threatened against CLIENT, CONTRACTOR, or the Infrastructure, Smart City Instruments and Artistic Lighting whatsoever in respect to that Segment of the Works. CONTRACTOR may, if any subcontractor refuses to furnish a release, discharge or receipt in full, furnish a bond satisfactory to CLIENT to indemnify the CLIENT against any such lien;

c. CONTRACTOR shall have delivered all certificates of inspection or approval in respect of the Segment of the Works to the extent required under Applicable Law from any Governmental Authority; and

d. CLIENT has issued a Certificate of Acceptance for the Segment of the Works in accordance with Schedule 5 (Acceptance Procedures).

3.8 Title to Infrastructure, Smart City Instruments and Artistic Lighting

a. Upon Acceptance for each Segment of the Works, (1) legal title to and ownership of the upgraded Infrastructure, Smart City Instruments and Artistic Lighting therein shall transfer to CLIENT free and clear of any and all liens, claims, or other encumbrances and (2) the CLIENT shall have all duties and responsibilities for the payment of Services Payments.

b. All materials developed or acquired by the Contractor for the City under this Agreement shall become the property of the City and shall be delivered to the City no later than the termination date of this Agreement. Nothing developed or produced, in whole or in part, by the Contractor under this Agreement shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

c. Notwithstanding Section 3.8(a) above, if any Software Products are installed or otherwise used to operate the System, Smart City Instruments or Artistic Lighting or provided to CLIENT under this Agreement, any such Software Products shall remain CONTRACTOR property, including the Intellectual Property conceived or developed by CONTRACTOR in the Software Products. All CONTRACTOR Pre-existing Intellectual Property that may be included in the Infrastructure, Smart City Instruments, Artistic Lighting, Works or the Services provided to CLIENT under this Agreement shall also remain CONTRACTOR's property. Any Software Products provided to CLIENT are for Permitted Users' use and only for the purposes disclosed to CONTRACTOR. CONTRACTOR hereby grants CLIENT a royalty-free (once payments due under this Agreement are paid to CONTRACTOR), non-transferable, nonexclusive license for the Term to use any CONTRACTOR's Intellectual Property solely as incorporated into the Infrastructure, Smart City Instruments and Artistic Lighting and CONTRACTOR's Intellectual Property as incorporated into any Software Products provided to CLIENT under this Agreement. Under such license, to the extent allowable by Applicable Law, Permitted Users shall have a right to:

    1. Use, in object code form only, the Software Products included in the Works and/or Services, if any;

    2. Make and retain archival and emergency copies of such Software Products except if the Software Product is embedded in the System, Smart City Instruments or Artistic Lighting; and,

    3. Use all such Software Products; provided however, the Software Products shall not be used or relied upon by any parties other than Permitted Users, and such use shall be limited to the particular project and location for which the Software Products are provided or used relative to the System, Smart City Instruments or Artistic Lighting.

       All Software Products provided to CLIENT are for Permitted Users' use only for the purposes disclosed to CONTRACTOR, and CLIENT shall not transfer them to others or use them or permit them to be used for any extension of the Works or Services or any other project or purpose, without CONTRACTOR's express written consent, to the extent allowable by Applicable Law.

d. In the event Contractor (a) ceases to do business or ceases to support the Project, or (b) fails to make adequate provision for continued support of the Software that Contractor develops or provides to CLIENT, or (c) if Contractor Defaults hereunder, or (d) if this Agreement is terminated, Contractor will, within a one hundred and eighty (180) day period, make all of the following items available to CLIENT: (i) the latest available Source Code and documentation related to the Software that Contractor develops or provides according to the SOW; (ii) the Source Code and compiler/utilities necessary to maintain CLIENT'S system; and, (iii) Contractor's related documentation for Software developed by third parties to the extent Contractor is authorized to disclose such Software to CLIENT. In any of the above circumstances (a), (b), (c) or (d), Contractor will, by virtue of this Section, grant CLIENT an automatic, uncontested and unlimited right to use, modify and copy the Software, the Source Code and all of their related documentation.

3.9 Workmanship Warranty

Except as otherwise expressly provided herein, CONTRACTOR warrants that all work performed during the Works Phase is in compliance with the terms of the Agreement and will be free from workmanship defects for a period of one (1) year from the Acceptance Date of the Final Segment of the Works. Should any defects develop during the warranty period, CONTRACTOR shall remedy the defects at no expense to the CLIENT, provided that CLIENT gives CONTRACTOR written notice of any such defect promptly after discovery.

3.10 Manufacturer Warranty

CONTRACTOR hereby transfers to CLIENT all transferable warranties and remedies provided to the CONTRACTOR by any manufacturer(s) or suppliers of the Infrastructure, Smart City Instruments and Artistic Lighting. CLIENT hereby grants the CONTRACTOR the authority and the right to, on behalf of the CLIENT, exercise all the CLIENT's rights and remedies under all transferable warranties during the Term.

ARTICLE 4: SERVICES PHASE

4.1 Performance of Services after Acceptance

No later than the Acceptance Date of the Final Segment of the Works, or such other date agreed to in writing between the Parties, CONTRACTOR shall commence performance of the Services Phase, consisting of those activities set forth in Schedule 3 (Scope of Services), including, but not limited to, the operation, maintenance, and management of the System and provide such Smart City Instrument and Artistic Lighting services set forth therein.

4.2 Performance of Commitments of the CONTRACTOR

CONTRACTOR commits to achieving the Energy Savings and operation and maintenance Services objectives described in Schedule 3 (Scope of Services), and commits to performing the Services in accordance with the Key Performance Indicators ("KPI") outlined in Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services) (hereinafter the "Services Performance Objectives").

4.3 CONTRACTOR's Services Phase Obligations

In furtherance of Sections 4.1 and 4.2 above, CONTRACTOR undertakes and covenants to CLIENT that it shall:

a. be responsible for performing the Services in a manner to achieve the Services Performance Objectives consistent with Schedule 3 (Scope of Services), Applicable Law, and Prudent Industry Practice.

b. not impede, impair or interrupt CLIENT's utilization of the System or achievement of any Energy Savings, except with the express written consent of CLIENT when necessary for additional construction or maintenance, which consent will not be unreasonably withheld.

4.4 CLIENT's Services Phase Obligations

In addition to all duties and obligations identified in Article 2, CLIENT undertakes and covenants to CONTRACTOR that during the performance of the Services it shall:

a. be obligated to compensate CONTRACTOR for the performance of the Services pursuant to and in accordance with the terms and conditions established in Schedule 4 (Payment Mechanism) and any other amounts due hereunder by the required due date(s) established therein;

b. to the provisions of this Agreement, comply with Applicable Law;

c. provide such reasonable assistance to and not unreasonably impede CONTRACTOR in the performance of the Services under this Agreement; and

d. perform all CLIENT responsibilities related to the Services.

ARTICLE 5: ENERGY SAVINGS PERFORMANCE ASSURANCE

5.1 System Baseline and Performance Baseline

a. CONTRACTOR and CLIENT agree that the System Baseline data results set forth in Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services), is a reasonably accurate reflection of the System's equipment, operation, business use and energy usage as of the Effective Date, and that such System Baseline data will be the basis on which all future energy use will be compared in order to determine the Annual Realized Savings. The System Baseline data will be confirmed upon completion of the inventory at the conclusion of the conversion.

b. CONTRACTOR and CLIENT agree that the Performance Baseline set forth in Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services) will represent the new operating and/or equipment profile of the System resulting from the installation of the Infrastructure and implementation of the Services.

c. Notwithstanding any provision of this Agreement, no later than thirty (30) days prior to the Acceptance Date of the Final Segment of the Works, CONTRACTOR shall conduct an audit and inventory of the operational performance of the System. If additional Energy Savings are recognized after the audit and inventory, CONTRACTOR shall integrate and use all resulting data to calculate and revise the Performance Baseline accordingly.

5.2 Performance Guarantee and Measurement

a. Commencing on the Acceptance Date of the Final Segment of the Works, the Annual Realized Savings calculated at the end of each Annual Period will be no less than the Guaranteed Annual Savings for the corresponding Annual Period (hereinafter the "Performance Guarantee"). The measurement and verification calculation methodology for determining the Energy Savings shall be established in the M&V Plan, in accordance with Section 2.9 of Schedule 2 (Scope of Works).

b. Except as otherwise provided, Guaranteed Annual Savings will be calculated as the System Baseline for each Annual Period as units of energy (kWh) minus the Performance Baseline for each month of each annual phase, assuming that the Performance Baseline has been maintained, as set forth in Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services).

c. A Performance Guarantee Period savings reconciliation as identified in Section 1.2 of Appendix 3A of Schedule 3 will be performed by CONTRACTOR at the end of each Annual Period.

d. Prior to the beginning of the Performance Guarantee Period, CONTRACTOR will have inspected all portions of the System and reported any deficiencies to CLIENT which are outside of the scope of the Works and which will impact Energy Savings of the System. To the extent that the deficiencies are not remedied by CLIENT prior to the Acceptance Date of the Final Segment of the Works, the adverse effect(s) on the ability of the System to attain the necessary Guaranteed Annual Savings shall be factored into the Annual Performance Report and, if necessary, the Performance Guarantee shall be adjusted accordingly.

5.3 Material Change

a. As part of CONTRACTOR's performance of the Services, CLIENT and CONTRACTOR shall review the Performance Baseline and the Energy Savings data derived from the inventory and monitor the System in order to determine if a Material Change has occurred. If a Material Change has occurred, the Parties will determine what, if any, adjustments to the Performance Baseline and Services Performance Objectives are required by such Material Change. Any disputes between CLIENT and CONTRACTOR concerning any such adjustment shall be resolved in accordance with the applicable dispute resolution procedure as set forth herein.

b. If any portion of the System or Infrastructure, or related facilities or substructure that supports or may affect the System or Infrastructure, is materially altered or moved by any person (including the CLIENT) other than CONTRACTOR or a person authorized by CONTRACTOR, CONTRACTOR reserves the right to perform a reacceptance test on, or if necessary, a re-commissioning of the System or Infrastructure in order to determine if a Material Change has occurred. If the Parties agree that a Material Change has occurred after the reacceptance testing or re-commissioning, CLIENT agrees to pay reasonable costs on a time and materials basis for such testing.

5.4 Additional Provisions

Except as otherwise provided, CONTRACTOR payments to CLIENT for Savings Shortfalls in accordance with Sections 1.1 and 1.2 of Appendix 3A of Schedule 3, if any, are the sole remedy of CLIENT under this Performance Guarantee contemplated in this Agreement. The Contractor will provide a bond, letter of credit or other financial guarantee acceptable to the Client as a security for performance of this Guarantee.

a. This provision shall not in any way effect the CLIENT'S warranty rights set forth herein.

b. As a mutual goal of the Parties is to maximize Energy Savings, if CONTRACTOR determines it can correct a Savings Shortfall through an operational improvement at no expense or material inconvenience to the CLIENT and without future operational expenses and without compromising lighting performance, then the Parties shall in good faith work to effectuate the operational improvement. Any disputes between CLIENT and CONTRACTOR concerning the implementation of such operational improvements shall be resolved in accordance with the applicable dispute resolution procedure as set forth herein.

c. The Guaranteed Annual Savings are dependent upon and are subject to the express condition that the CLIENT does not intentionally and knowingly prevent, impede or obstruct the CONTRACTOR from operating and maintaining the System within a five percent (5%) variance from the Performance Baseline.

d. CONTRACTOR will have no liability or obligation to continue providing the Services or to guarantee Energy Savings under the Performance Guarantee in the event that CLIENT unreasonably impairs CONTRACTOR's access to any part of the System where Services are to be performed.

ARTICLE 6: COMPENSATION; GENERAL OBLIGATION

6.1 Compensation

CLIENT shall pay CONTRACTOR for performance of the Works and Services as provided in Schedule 4 (Payment Mechanism), as the same may be modified from time to time in accordance with this Agreement.

6.2 Appropriations

The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the City Council for the performance of this Agreement. If sufficient appropriations and authorization are not made by the City Council, this Agreement shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

6.3 General Obligation

Contractor must submit a detailed statement accounting for all services performed and expenses incurred. If the City finds that the goods or services are not acceptable, within thirty days after the date of receipt of written notice from the Contractor that payment is requested, it shall provide the Contractor a letter of exception explaining the defect or objection to the services, and outlining steps the Contractor may take to provide remedial action.

Upon certification by the City that the services have been received and accepted, payment shall be tendered to the Contractor within thirty days after the date of acceptance. Payment shall be made by ACH. However, the City shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

6.4 Special Limited Obligation; Revenue Fund; Energy Savings Pledged Revenues - deleted

ARTICLE 7: INSURANCE; LIMITATION OF LIABILITY; BONDING

7.1 CONTRACTOR Insurance

If the services contemplated under this Agreement will be performed on or in City facilities or property, Contractor shall, at its sole cost and expense, maintain in force during the entire term of this Agreement or for such additional time as set forth herein, the following insurance coverage(s), naming the City as additional insured.

a. Workers' Compensation Insurance with statutory limits, and Employer's Liability insurance with limits of not less than $1,000,000 per accident or disease. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the City, its directors, officials, officers, employees, agents, and volunteers.

b. Commercial General Liability Insurance which shall be written on an occurrence basis and be at least as broad as the latest version of ISO form CG 00 01 with limits of not less than $1,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage, including a $2,000,000 aggregate for products-completed operations. Such policy shall include Broad Form Contractual Liability coverage and shall be endorsed to include the City, its, directors, officials, officers, employees, agents, and volunteers as additional insureds on all primary and excess policies for ongoing and completed operations performed by, or behalf of Contractor. Such additional insured coverage shall be as broad as that provided by ISO form CG 20 10 (ongoing operations) and CG 20 37 (completed operations).

c. Business Automobile Liability insurance which shall be as broad as ISO form CA 00 01 covering bodily injury and property damage with a combined single limit of not less than $1,000,000 per accident for all owned, non-owned, and hired automobiles used in connection with the services or operations to be performed under this Agreement. The policy shall be endorsed to include the City, its, directors, officials, officers, employees, agents, and volunteers as additional insureds.

d. Professional Liability insurance (Errors & Omissions) with limits of not less than $1,000,000 per claim and $2,000,000 in the aggregate.

e. Subcontractors/Subconsultants. Contractor shall ensure that all subcontractors performing work on behalf of Contractor pursuant to this Contract shall be covered under Contractor's insurance or maintain insurance subject to the same terms and conditions as set forth herein for Contractor. Contractor shall not allow subcontractors to work if subcontractors have less than the level of coverage required by the City from Contractor under this Contract. It is the obligation of Contractor to provide notice of the insurance requirements to every subcontractor and to receive proof of insurance prior to allowing any subcontractor to begin work. Such proof of insurance must be maintained by Contractor through the entirety of this Contract for inspection by City representative(s) at any reasonable time.

f. Additional Insurance Requirements.

1. Acceptability of Insurers. Unless otherwise reviewed and accepted by the City, all required insurance must be placed with insurers with a current A.M. Best rating of not less than A- VII and be admitted to do business in California, or approved by the Surplus Lines Association.

2. Verification of Coverage. Contractor shall furnish the City with Certificates of Insurance and applicable endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates of insurance shall be signed by a person authorized by that insurer to bind coverage on its behalf. All certificates and endorsements must be received by the City before work commences. Acceptance of Contractor's Certificates of Insurance does not relieve Contractor of the insurance requirements, nor decrease the liability of Contractor under this Agreement. It is Contractor's responsibility to ensure its compliance with these insurance requirements. Any actual or alleged failure on the part of the City to obtain proof of insurance required under this Agreement shall not in any way be construed to be a waiver of any right or remedy of the City, in this or any regard.

3. Primary and Noncontributory. The insurance required to be maintained by Contractor shall primary and any insurance or self-insurance maintained by the City shall be excess only, and not be required to contribute with it.

4. Umbrella or Excess Insurance. Any Umbrella or Excess insurance shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance or self-insurance shall be called upon to protect it as a Named Insured.

5. Waiver of Subrogation. Contractor shall obtain waiver of subrogation endorsements stating that Contractor and its insurers waive any and all rights of recovery against the City, its directors, officials, officers, employees, agents, and volunteers. Contractor shall pay all damages and costs arising out of Contractor's failure to provide a waiver of subrogation from its insurers.

6. Broader Coverage and Limits. The insurance requirements under this Agreement shall be the greater of (1) the minimum coverage and limits specified in this Agreement, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Agreement are sufficient to cover the obligations of Contractor hereunder.

7. Severability of Interest (Cross Liability). A severability of interest provision must apply for the additional insureds, ensuring that Contractor's insurance shall apply separately to each insured against whom a claim is made or suit is brought, except with respect to the policy's(ies') limits.

8. Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any policy required to be maintained under this Agreement, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is canceled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Contract does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by the City will be promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement. No policy required to be maintained by Contractor shall be canceled and not replaced with equivalent coverage without thirty (30) days prior written notice to the City, unless cancellation is due to the non-payment of premium, in which case, ten (10) days prior written notice shall be provided.

7.2 Limitation of Liability

Each Party assumes full responsibility and liability of its own actions, including all claims, demands, liabilities, suits, damages, costs and expenses arising out of or caused by its own acts or the acts of its respective directors, officers, members, shareholders, agents and employees to the extent such claims, demands, liability, suits, damages, costs and expenses arise out of this Agreement and are (a) attributable to bodily injury, sickness, disease or death or to injury to or destruction of tangible property, (b) the result of a Party's gross negligence or willful misconduct, (c) the result of a Party's violation of Applicable Law. Nothing herein is intended to serve as a waiver of sovereign immunity, nor shall anything herein be construed as consent by either Party to be sued by any third party for any cause or matter related to this Agreement. The Parties assume no liability for the actions or omission of the other's agents, representatives, employees, contractors or subcontractors.

7.3 Bonding

Prior to the Commencement Date and through the Acceptance Date of the Final Segment of the Works, CONTRACTOR shall secure a surety bond(s) in the amount of compensation defined in the Payment Terms each as a security for the faithful performance of the Works Phase of the Project and for the payment of all labor and materials therein. These bonds must be furnished to CLIENT within thirty (30) days of the Commencement Date. The aforementioned surety bonds for the Works shall expire and automatically be released, without request from CONTRACTOR, one (1) year from the date of CLIENT's execution of a Certificate of Acceptance of the Final Segment of the Works.

Bonds to be provided:

1. A performance bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the United States treasury department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract; and

2. A payment bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the United States treasury department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract, for the protection of all persons supplying labor and material to the contractor or its subcontractors for the performance of the work provided for in the contract.

A subcontractor shall provide a performance and payment bond on a public works building project if the subcontractor's contract for work to be performed on a project is one hundred twenty-five thousand dollars ($125,000) or more.

Notwithstanding anything to the contrary herein, the surety bonds described in this Section 7.3 shall have no obligations therein and the surety of those surety bonds shall have no obligations hereunder with regard to CONTRACTOR's obligations under Article 5 above.

ARTICLE 8: HAZARDOUS MATERIALS AND PROVISIONS

8.1 The Works and Services may require installation or removal of System assets, Infrastructure, Smart City Instruments and Artistic Lighting that may contain de minimus amounts of hazardous materials and the identification, handling, storage, removal, and transportation of hazardous materials expressly identified in the Implementation Plan ("Hazardous Materials Within Scope"). CONTRACTOR shall properly install, handle, remove and transport such Hazardous Materials Within Scope. Where pursuant to the Works or Services, CONTRACTOR is to remove Hazardous Materials Within Scope, CONTRACTOR shall properly handle, remove and transport such Hazardous Materials Within Scope to a collection point located at an authorized disposal facility.

8.2 Except for Hazardous Materials Within Scope, the Works or Services does not include directly or indirectly performing or arranging for the detection, testing, handling, storage, removal, treatment, transportation, disposal, monitoring, abatement or remediation of any contamination of any part of the System, Smart City Instruments or Artistic Lighting project site at which Works or Services is performed and any part of the System, Smart City Instruments or Artistic Lighting project site where soil or groundwater is contaminated by petroleum or petroleum products (collectively called "Oil"), asbestos, PCBs or hazardous, toxic, radioactive or infectious substances, including any substances regulated under Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or any other Applicable Law (collectively called "Hazardous Materials"), including without limitation: ionization smoke detectors, ballasts, mercury bulb thermostats, used oil, contaminated filters, contaminated absorbents, and refrigerant. CONTRACTOR will notify CLIENT immediately if it discovers or reasonably suspects the presence of any previously undisclosed Oil or Hazardous Material. The discovery or reasonable suspicion of Hazardous Materials or hazardous conditions at any part of the System, Smart City Instruments or Artistic Lighting project site where CONTRACTOR is to perform Works or Services, or of contamination of any part of the System, Smart City Instruments or Artistic Lighting project site by Oil or Hazardous Materials not previously identified shall entitle CONTRACTOR to suspend the Works or Services in the contaminated area immediately, subject to mutual agreement of terms and conditions applicable to any further Works or Services, or to terminate the Works or Services in the contaminated area and to be paid for Works or Services previously performed.

ARTICLE 9: TERMINATION

9.1 Termination Events

a. NON-DEFAULT TERMINATION

1. Voluntary. Either Party may terminate this Agreement without cause by serving one hundred eighty (180) days prior written notice on the other Party.

2. Supervening Event. Either Party may terminate this Agreement at its sole discretion if a Supervening Event has occurred and is continuing for a period of ninety (90) consecutive days or one hundred eighty (180) days in aggregate in any Annual Period by serving the non-terminating Party one hundred eighty (180) days prior written notice. CLIENT shall be obligated to make all Works Payments and Service Payments up to the termination date.

3. Change in Law. In the event that that CONTRACTOR is prevented from performing its obligations under the Agreement due to a Change in Law that cannot be remedied, CONTRACTOR may terminate this Agreement by serving one hundred eighty (180) days prior written notice to the CLIENT. CLIENT shall be obligated to make all Works Payments and Service Payments up to the termination date.

b. TERMINATION BY THE CLIENT FOR CONTRACTOR'S DEFAULT
CLIENT may terminate this Agreement by thirty (30) days written notice to CONTRACTOR upon the occurrence of an Event of Default by CONTRACTOR. An Event of Default occurs with respect to CONTRACTOR when:

1. Failure to Perform: Beyond any grace or notice period CONTRACTOR fails to provide all or a substantial part of the Works or Services in accordance with this Agreement, other than:

    i. a failure to meet the Performance Guarantee or other Services Performance Objectives or Works Performance Objectives, the sole remedies for which are set forth in Schedule 4 (Payment Mechanism), in Schedule 2 (Scope of Works) and Schedule 3 (Scope of Services); or

    ii. where such failure is a consequence of a breach by CLIENT of its obligations under this Agreement; or

    iii. where such failure is a consequence of CLIENT's failure to comply with any of the provisions of the Schedules except in the event of an emergency (where CLIENT's notice is not required), in which case CONTRACTOR shall immediately and with due diligence proceed to completion any cure or remedy of a breach.

In respect of all other failures which are capable of remedy, CLIENT shall provide written notice to the CONTRACTOR giving reasonable particulars of the failure, whereby CONTRACTOR shall upon receipt of notice have thirty (30) days to undertake and diligently proceed to remedy such failure. For the purpose of this Section 9.1 (b) failure shall be considered capable of remedy if CONTRACTOR can comply with the provision in question in all respects other than as to the time of performance; or

2. Insolvency

Without prejudice to any other right or remedy it may have, CLIENT may terminate this Agreement immediately by notice given in writing to CONTRACTOR if upon the dissolution or liquidation of CONTRACTOR or the filing by CONTRACTOR of a voluntary petition in bankruptcy, or failure by CONTRACTOR promptly to cause to be lifted any execution, garnishment or attachment of such consequence as will impair CLIENT's ability to carry on its obligations hereunder, or the entry of any order or decree granting relief in any involuntary case commenced against CONTRACTOR under any present or future federal bankruptcy act or any similar federal or state law, or a petition for such an order or decree shall be filed in any court and such petition or answer shall not be discharged or denied within ninety (90) days after the filing thereof, or if CONTRACTOR shall admit in writing its inability to pay its debts generally as they become due, or a receiver, trustee or liquidator of CONTRACTOR shall be appointed in any proceeding brought against CONTRACTOR and shall not be discharged within ninety (90) days after such appointment or if CONTRACTOR shall consent to or acquiesce in such appointment, or assignment by CONTRACTOR for the benefit of its creditors, or the entry by CONTRACTOR into an agreement of composition with its creditors, or a bankruptcy, insolvency or similar proceeding shall be otherwise initiated by or against CONTRACTOR under any applicable bankruptcy, reorganization or analogous law as now or hereafter in effect and if initiated against CONTRACTOR shall remain undismissed (subject to no further appeal) for a period of ninety (90) days; or

3. Indictment

If, during the term of this Agreement, the Contractor or any of its officers, employees or agents is indicted for fraud, embezzlement or other crime due to misuse of City funds or due to the Appropriations article herein.

Except as otherwise allowed or provided under this Agreement, the sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt of the notice of termination, if the City is the terminating party, or the Contractor's sending of the notice of termination, if the Contractor is the terminating party; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Agreement or as otherwise agreed by the Parties. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CLIENT'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS AGREEMENT.

TERMINATION MANAGEMENT

Except as otherwise agreed by the parties, immediately upon receipt by either the City or the Contractor of notice of termination of this Agreement, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Agreement without written approval of the City; 2) comply with all directives issued by the City in the notice of termination as to the performance of work under this Agreement; and 3) take such action as the City shall direct for the protection, preservation, retention or transfer of all property titled to the City and records generated under this Agreement. Any non-expendable personal property or equipment provided to or purchased by the Contractor with contract funds shall become property of the City upon termination and shall be submitted to the City as soon as practicable.

c. TERMINATION BY CONTRACTOR FOR CLIENT'S DEFAULT

CONTRACTOR may terminate this Agreement by written notice to CLIENT in accordance with sections above and due to the occurrence of an Event of Default by CLIENT. An Event of Default with respect to CLIENT shall occur upon any one of the following:

1. CLIENT fails to pay any Works Payment when due; or

2. CLIENT fails to pay any Services Payment when due; provided however, CLIENT shall not be in default hereunder if it fails to pay any Services Payment amount as result of Service Payment setoff pursuant to Section 4.1.1 (e) of Appendix 3A of Schedule 3; or

3. Failure of CLIENT to observe and perform any covenant, condition or agreement on its part required to be observed or performed by this Agreement (other than as provided in clause (a) or (b) above), for a period of thirty (30) days after written notice specifying such failure and requesting that it be remedied is given to CLIENT by CONTRACTOR, unless CONTRACTOR shall agree in writing to an extension of such time prior to its expiration; provided that, if the failure stated in the notice cannot be corrected within the applicable period, CONTRACTOR will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by CLIENT within the applicable period and diligently pursued until the default is corrected; or

4. CLIENT consistently and purposefully fails to allow reasonable access to the System, Smart City Instruments or Artistic Lighting; or

5. Any representation or warranty made by CLIENT in connection with this Agreement shall prove to be untrue in any material respect on the date as of which it was made; or

6. The dissolution or liquidation of the CLIENT or the filing by CLIENT of a voluntary petition in bankruptcy, or failure by CLIENT promptly to cause to be lifted any execution, garnishment or attachment of such consequence as will impair CLIENT'S ability to carry on its obligations hereunder, or the entry of any order or decree granting relief in any involuntary case commenced against CLIENT under any present or future federal bankruptcy act or any similar federal or state law, or a petition for such an order or decree shall be filed in any court and such petition or answer shall not be discharged or denied within ninety (90) days after the filing thereof, or if CLIENT shall admit in writing its inability to pay its debts generally as they become due, or a receiver, trustee or liquidator of CLIENT shall be appointed in any proceeding brought against CLIENT and shall not be discharged within ninety (90) days after such appointment or if CLIENT shall consent to or acquiesce in such appointment, or assignment by CLIENT for the benefit of its creditors, or the entry by CLIENT into an agreement of composition with its creditors, or a bankruptcy, insolvency or similar proceeding shall be otherwise initiated by or against CLIENT under any applicable bankruptcy, reorganization or analogous law as now or hereafter in effect and if initiated against CLIENT shall remain undismissed (subject to no further appeal) for a period of ninety (90) days.

9.2 Provisions Governing Any Termination

a. Continued Effect - No Waiver

   Any waiver by either Party of a breach of any provision of this Agreement shall not be considered as a waiver of any subsequent breach of the same or any other provisions. Any waiver by either Party of a breach of any provisions shall in no way relieve either Party of any of its responsibilities, duties or obligations under this Agreement, nor shall it constitute a waiver or relinquishment either Party's rights.

9.3 Compensation on Termination

a. if CLIENT or CONTRACTOR terminates this Agreement in accordance with Section 9.1 (a) above, or if CONTRACTOR terminates this Agreement pursuant to Section 9.1 (c) above, then the Termination Payment shall be:

   1. any outstanding Works Payments or Service Payments; plus

   2. other amounts owed to CONTRACTOR under this Agreement, including payment for Works performed prior to the Acceptance, taking due account of any payments already made; plus

b. if CLIENT terminates this Agreement in accordance with Section 9.1 (b) above then the Termination Payment shall be:

   1. any outstanding Works Payments or Service Payments, as applicable, plus other amounts owed to CONTRACTOR under this Agreement, including Works performed prior to Acceptance, taking due account of any payments already made; plus

   2. payments in respect, if any, by CONTRACTOR and all other accrued costs and expenses, including amounts spent on spare equipment.

9.4 Additional Termination Remedy Provisions

a. CONTRACTOR may take whatever action Applicable Law or in equity as may be necessary or desirable to collect the payments and other amounts then due and thereafter to become due or to enforce performance and observance of any obligation, agreement or covenant of CLIENT under this Agreement;

b. Upon an Event of Default by CLIENT, with or without terminating this Agreement, CONTRACTOR may by written notice require CLIENT, at CLIENT's expense, to promptly return any or all of such Infrastructure, Smart City Instruments and Artistic Lighting to the possession of CONTRACTOR at such place within the United States as CONTRACTOR shall specify, or sell or lease such Infrastructure, Smart City Instruments and Artistic Lighting or, for the account of CLIENT, sublease such Infrastructure, Smart City Instruments and Artistic Lighting, continuing to hold CLIENT liable for the difference between (i) the amounts payable by CLIENT hereunder, and (ii) the net proceeds of any such sale, leasing or subleasing (after deducting all expenses of CONTRACTOR in exercising its remedies hereunder, including without limitation all expenses of taking possession, storing, reconditioning and selling or leasing such Infrastructure, Smart City Instruments and Artistic Lighting and all brokerage, auctioneer's and attorney's fees). CLIENT's obligation to remove and return any Infrastructure, Smart City Instruments and/or Artistic Lighting to CONTRACTOR is subject to (i) Applicable Law and (ii) CLIENT's option, at CLIENT's expense, to resolve within 180 days of notice of such termination any public safety requirements related to the return of such assets.

c. No remedy herein conferred upon or reserved to a Party is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing under Applicable Law or in equity or by statute. No delay or omission to exercise any right or power accruing upon any default hereunder shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient.

d. In the event any agreement or covenant contained in this Agreement should be breached by a Party and thereafter waived by the other Party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

e. The Parties agree that the formulations of damages described in this Article 9, are fair and reasonable approximations of the damages each Party would incur upon a termination based on an Event of Default and are not intended to be, nor should they be interpreted to result in, a penalty.

f. The defaulting Party shall reimburse the other Party for all reasonable costs (including all applicable taxes and all legal or professional services) properly incurred by the other Party in exercising its rights and remedies hereunder, including any relevant increased administrative expenses.

ARTICLE 10: ASSIGNMENT

CONTRACTOR may, upon prior written consent by CLIENT (not to be unreasonably withheld), transfer, assign, mortgage, charge or dispose of any rights under this Agreement or otherwise delegate any of its rights and/or obligations hereunder; provided that if CONTRACTOR makes such transfer, assignment or takes such other action pursuant to this Article 10, CONTRACTOR acknowledges and agrees that it shall remain liable to CLIENT in relation to all of its obligations under this Agreement unless CLIENT approves the assignee's assumption of all of CONTRACTOR's rights, obligations and liabilities under this Agreement in writing. CLIENT agrees to execute all notices, consents or other documents as may be reasonably required to facilitate such action. CLIENT may not, without the prior written consent of CONTRACTOR, transfer, assign, mortgage, charge or dispose of any of its rights under this Agreement or otherwise delegate any of its obligations under it.

ARTICLE 11: FINANCING - deleted

ARTICLE 12: REPRESENTATIONS AND WARRANTIES

12.1 CONTRACTOR represents, warrants and covenants to the CLIENT that:

a. It has all requisite corporate power to enter into this Agreement, and that its execution hereof has been duly authorized and does not and will not constitute a breach or violation of any of CONTRACTOR's organizational documents, any Applicable Law, or any agreements with third parties;

b. It has done and will continue to do all things necessary to preserve and keep in full force and effect its existence and the Agreement;

c. This Agreement is the legal, valid and binding obligation of CONTRACTOR, in accordance with its terms, and all requirements have been met and procedures have been followed by CONTRACTOR to ensure the enforceability of the Agreement;

d. To CONTRACTOR's best knowledge, there is no pending or threatened, suit, action, litigation or proceeding against or affecting CONTRACTOR that affects the validity or enforceability of this Agreement; and,

e. It is duly authorized to do business in all locations where the Works and Services are to be performed.

f. CONTRACTOR has consulted with its legal counsel and is relying on the advice of its counsel concerning all legal issues related to this Agreement, and is not relying on CLIENT in this regard.

g. Neither of the execution or delivery of this Agreement, the consummation of the transactions herein contemplated or compliance with the terms and provisions hereof will conflict with or result in a breach of, or require any consent under, the organizational documents of CONTRACTOR, or any Applicable Law or regulation, or any order, writ, injunction or decree of any court, or any agreement or instrument to which CONTRACTOR is a party or by which it is bound or to which it is subject, or constitute a default under any such agreement or instrument.

h. The information provided by CONTRACTOR to CLIENT relating to this Agreement and the Project is true, correct and complete, to the best of the CONTRACTOR's knowledge, in every material respect and contains no untrue statement of material fact or omits no material fact necessary to make the statements contained therein not misleading.

12.2 CLIENT represents, warrants and covenants to CONTRACTOR that:

a. It is a political subdivision of the State of New Mexico and has all requisite corporate power and/or statutory authority to enter into this Agreement, and that its execution hereof has been duly authorized and does not and will not constitute a breach or violation of any Applicable Law, or any agreements with third parties;

b. Acknowledging CLIENT's rights herein to terminate this Agreement for convenience, the CLIENT has done and will continue to do all things necessary to preserve and keep in full force and effect its existence and the Agreement;

c. This Agreement is the legal, valid and binding obligation of CLIENT, in accordance with its terms, and all requirements have been met and procedures have been followed by CLIENT to ensure the enforceability of the Agreement;

d. To CLIENT's best knowledge, there is no pending or threatened, suit, action, litigation or proceeding against or affecting CLIENT that affects the validity or enforceability of this Agreement; and,

e. CLIENT has consulted with its legal counsel and is relying on the advice of its counsel concerning all legal issues related to this Agreement, and is not relying on CONTRACTOR in this regard.

f. CLIENT is not in violation of any Applicable Law promulgated or judgment entered by any federal, State, local or governmental authority that individually or in the aggregate, would affect its performance of any obligations under this Agreement.

g. CLIENT is the holder of all federal, State, local or other governmental consents, licenses, permits, or other authorizations required to permit it to operate or conduct its business now and as contemplated by this Agreement.

h. Neither of the execution or delivery of this Agreement, the consummation of the transactions herein contemplated or compliance with the terms and provisions hereof will conflict with or result in a breach of, or require any consent under, the organizational documents of CLIENT, or any Applicable Law or regulation, or any order, writ, injunction or decree of any court, or any agreement or instrument to which CLIENT is a party or by which it is bound or to which it is subject, or constitute a default under any such agreement or instrument.

i. CLIENT intends to continue to use the System in a manner similar to its present use of such System.

j. The System will be used by CLIENT only for the purpose of performing essential governmental or proprietary functions of CLIENT consistent with the permissible scope of CLIENT's authority.

k. The information provided by CLIENT to CONTRACTOR relating to this Agreement and the Project is true, correct and complete, to the best of the CLIENT's knowledge, in every material respect and contains no untrue statement of material fact or omits no material fact necessary to make the statements contained therein not misleading.

ARTICLE 13: DISPUTE RESOLUTION

13.1 In the event of any dispute, claim, question or disagreement arising from or relating to this Agreement or breach thereof, the aggrieved Party shall promptly provide written notification of the dispute, claim, question or disagreement to the other Party within thirty (30) days of the dispute, claim, question or disagreement. The Parties hereto shall use their best efforts to settle the dispute, claim, question, or disagreement, including seeking the intervention and opinion of an expert. To this effect, the Parties shall consult and negotiate with each other in good faith and recognizing their mutual interests, attempt to reach a just and equitable solution satisfactory to both Parties. If they do not reach such solution within a period of thirty (30) days of the notice, then, upon notice by either Party to the other, all disputes, claims, questions or differences shall be submitted to mediation pursuant to the Public Works Mediation Act, NMSA 1978, secs. 13-4C-1 through 13-4C-11.

13.2 Notwithstanding any dispute that CONTRACTOR may have undertaken or be involved with, whether pursuant to this Article 13 or otherwise, and regardless of the basis thereof or grounds therefor, CONTRACTOR agrees that it will, for so long as this Agreement has not been terminated, diligently perform the Works and Services in accordance with the terms of this Agreement, provided that CLIENT pays all undisputed amounts invoiced and at the times required as set forth herein pursuant to the terms and provisions of the Agreement and otherwise performs its obligations in accordance with the terms of this Agreement.

13.3 Notwithstanding any dispute that CLIENT may have undertaken or be involved with, whether pursuant to this Article 13 or otherwise, and regardless of the basis thereof or grounds therefor, CLIENT agrees that it will, for so long as this Agreement has not been terminated, pay all undisputed amounts invoiced and at the times required pursuant to the terms and provisions of the Agreement and otherwise perform its obligations in accordance with the terms of this Agreement.

13.4 If a Party fails to pay any such amounts as described in Sections 13.2 and 13.3 above, the dispute resolution procedure under this Article 13 shall not apply and the Parties may proceed to enforce any rights and remedies under Article 9 above.

ARTICLE 14: AUDITS AND INSPECTIONS

At any time during normal business hours and as often as the CLIENT may deem necessary, there shall be made available to the CLIENT for examination all of the CONTRACTOR's records with respect to all matters covered by this Agreement. The CONTRACTOR shall permit the CLIENT to audit, examine, and make excerpts or transcripts from such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Agreement. The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Agreement's term and effect and retain them for a period of five (5) years from the date of payment for the work under this Agreement. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose the right of the City to recover excessive or illegal payments.

ARTICLE 15: MISCELLANEOUS PROVISIONS

15.1 Subcontractors. CONTRACTOR may use subcontractors in the performance of the Works or Services, provided however that no such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Agreement, nor shall any subcontract obligate direct payment from the City.

15.2 Construction and Venue. This Agreement and the construction and enforceability thereof shall be interpreted under and governed by the laws of the State of New Mexico, irrespective of its choice of law provisions, and venue shall only be in Santa Fe County, New Mexico.

15.3 Change in Law. If CONTRACTOR suffers (or will suffer) delay and/ or incurs additional costs as a result of a Change of Law, then The CONTRACTOR must deliver a notice to CLIENT identifying the Change of Law and the impact of that Change of Law. Upon receiving notice, CLIENT and CONTRACTOR will proceed in good faith to negotiate an adjustment to the contract price and/or extension of time. If mutual consent is not reached, either Party may seek relief under Article 13 above. If CONTRACTOR is prevented from performing its obligations under the Agreement, but would be able to proceed if an amendment or Change Order were made to the Agreement, then the CONTRACTOR should submit a notice to CLIENT stating such. However, in the event that that CONTRACTOR is prevented from performing its obligations under the Agreement and this cannot be remedied by an amendment or Change Order, then CONTRACTOR may give notice of termination pursuant to Section 9.1 (a) (3) above. If a Change of Law occurs, CONTRACTOR is obliged to take all reasonable steps to mitigate the adverse impact of such Change of Law upon the Agreement.

15.4 Gross Inequity. Any gross proven inequity that may result in severe economic conditions not contemplated by the Parties at the time of the execution of this Agreement may be corrected by mutual consent; provided however that any gross proven inequity shall not in any way apply to, alter or affect the CLIENT's obligation to make Works Payments hereunder when due. Each Party shall in the case of a claim of gross inequity furnish the other with whatever documentary evidence may be necessary to assist in affecting a settlement.

15.5 Prevailing Wage. As applicable, CONTRACTOR shall insure compliance with the New Mexico Public Works Minimum Wage Act and any other binding prevailing wage determinations

15.6 Non-substitution. In the event of termination of this due to the non-appropriations of funds, CLIENT agrees, to the extent permitted by Applicable Law, not to purchase, lease, rent, borrow, seek appropriations for, acquire or otherwise receive the benefits of any of the same and unique services performed by CONTRACTOR under the terms of this Agreement for a period of three-hundred sixty-five (365) days following such termination of this Agreement due to non-appropriations.

15. 7 Representatives. CLIENT Representative and CONTRACTOR Representative (collectively "Authorized Representatives") are the following designees:

CLIENT Representative

Name: Ms. Regina Wheeler
Title: Public Works Director
Address: 500 Market Station
Santa Fe, NM 87501

Phone: 505-690-4197

CONTRACTOR Representative

Name: Kevin Kaye
Title: Director of Operations
Address: 4000 Vassar Drive NE, Albuquerque, NM 87107

Phone: 860-384-3024

CLIENT and CONTRACTOR may change its Authorized Representative by giving written notice to the other. CLIENT Representative and CONTRACTOR Representative is the person authorized to make decisions on behalf of the CLIENT and CONTRACTOR, respectively, under the terms of this Agreement.

15.8 Notice. Without prejudice to any other method of giving notice, all communications provided for or permitted hereunder shall be in writing and delivered to the addressee by prepaid private courier or sent by telecopy or other direct written electronic means (provided that a written record is kept in respect of any such electronic communication), to the applicable address and to the attention of the officer of the addressee as follows:

To CLIENT:

City of Santa Fe

Attention: Regina Wheeler, Public Works Director
500 Market Station
Santa Fe, NM 87507

Phone: 505-690-4197

To CONTRACTOR:

Dalkia Energy Solutions, LLC

Attention: Kevin Kaye, Director of Operations
4000 Vassar Drive NE
Albuquerque, NM 87107

Phone: 860-384-3024

Any notice or other communication made by personal delivery, telecopy or other direct written electronic means on a Business Day shall be deemed to have been given, received and made on such Business Day so long as it is actually received prior to 5:00 p.m. (Mountain Standard time) on such Business Day, and otherwise shall be deemed to have been made on the next following Business Day (any such notice given, received or made on a day which is not a Business Day shall be deemed to have been made on the next following Business Day).

15.9 Accounting and Tax Representations. CONTRACTOR makes no representation or warranty with respect to CLIENT's treatment of any federal or state tax laws, any applicable accounting treatment or conventions or the assessment of any rating agency in connection with this Agreement, the project documents or any Infrastructure, Smart City Instruments and Artistic Lighting.

15.10 Provision of Information and Action. Parties agree to provide such information, execute and deliver any instruments and documents, and to take such other actions as may be necessary or reasonably requested by the other Party that are not inconsistent with the provisions of this Agreement and that do not involve the assumptions of obligations other than those provided for in this Agreement, in order to give full effect to this Agreement and to carry out the intent of this Agreement.

15.11 Expenses. Except to the extent otherwise provided herein, each Party hereto shall be responsible for their own fees, expenses and disbursements (including, without limitation, legal fees and disbursements) in connection with the preparation, execution, delivery and/or performance under this Agreement and all other documents and instruments associated with any of the same.

15.12 Assent. CONTRACTOR's performance of the Works and Services is expressly conditioned on the Parties assenting to all of the terms of this Agreement, notwithstanding any different or additional terms contained in any writing at any time submitted or to be submitted by a Party to the other Party relating to the Works or Services, even if signed by the Parties, unless the written statement expressly indicates that such terms supersede the terms of this Agreement.

15.13 Waiver. The failure of CONTRACTOR or CLIENT to insist upon the strict performance of the terms and conditions hereof shall not constitute or be construed as a waiver or relinquishment of either Party's right to thereafter enforce the same in accordance with this Agreement in the event of a continuing or subsequent default on the part of CONTRACTOR or CLIENT.

15.14 Severability. If any provision of the Agreement becomes or is found to be illegal or unenforceable for any reason, such provision may be modified to the extent necessary to make this Agreement legal and enforceable. If such provision cannot be so modified, it shall be severed from this Agreement and the remainder of this Agreement shall remain in full force and effect.

15.15 Entire Agreement. This Agreement, when executed, together with all Schedules, Implementation Plan and other project documents in this Agreement, shall constitute the entire agreement between the Parties with respect to the subject matter hereof and this Agreement may not be amended or modified except by a written agreement signed by the Parties hereto. This Agreement supersedes all prior and contemporaneous negotiations, statements, representations, agreements, letters of intent, awards, or proposals, either written or oral relative to the same.

15.16 Arm's Length Negotiation. The Parties hereto acknowledge and agree that this Agreement has been negotiated at arm's length and among the Parties equally sophisticated and knowledgeable as to the subject matter of this Agreement. Each party has conferred, or has had the opportunity to confer, with their respective legal counsel. Accordingly, in the event any claim is made relating to any conflict, omission, or ambiguity in this Agreement, no presumption, burden of proof, or persuasion shall be implied by virtue of the fact that this Agreement was drafted by or at the request of a particular party or its legal counsel.

15.17 Counterparts. This Agreement may be executed in several counterparts, each of which, when so executed, shall be deemed to be an original and which counterparts taken together shall constitute one and the same Agreement. This Agreement may be executed by facsimile or electronic mail in portable document format (''pdf') and any signature contained hereon by facsimile or electronic mail in pdf shall be deemed to be equivalent to an original signature for all purposes.

15.18 Conflict of Interest; Governmental Conduct Act.

a. The Contractor represents and warrants that it presently has no interest and, during the term of this Agreement, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Agreement.

b. The Contractor further represents and warrants that it has complied with, and, during the term of this Agreement, will continue to comply with, and that this Agreement complies with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978.

c. Contractor's representations and warranties in Paragraphs A and B of this Article 13 are material representations of fact upon which the City relied when this Agreement was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Agreement, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article 13 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article 13 were erroneous on the effective date of this Agreement or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Agreement to the contrary, the City may immediately terminate the Agreement.

d. All terms defined in the Governmental Conduct Act have the same meaning in this section.

15.19 Amendment.

a. This Agreement shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

b. If the City proposes an amendment to the Agreement to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Agreement, pursuant to the termination provisions as set forth herein, or to agree to the reduced funding.

15.20 Merger.

This Agreement incorporates all the Agreements, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, Agreements and understandings have been merged into this written Agreement. No prior Agreement or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Agreement.

15.21 Penalties for violation of law.

The Procurement Code, Sections 13-1-28 through 13-1-199, NMSA 1978, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities and kickbacks.

15.22 Equal Opportunity Compliance.

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If Contractor is found not to be in compliance with these requirements during the life of this Agreement, Contractor agrees to take appropriate steps to correct these deficiencies.

15.23. Applicable Law.

The laws of the State of New Mexico shall govern this Agreement, without giving effect to its choice of law provisions. Venue shall be in accordance with article 15.2 of this agreement. By execution of this Agreement, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

15.24. Workers Compensation.

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the City.

15.25. New Mexico Tort Claims Act

Any liability incurred by the City of Santa Fe in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

15.26. Invalid Term or Condition.

If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

15.27 Enforcement of Agreement.

A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Agreement shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

15.28 Authority.

If Contractor is other than a natural person, the individual(s) signing this Agreement on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter into a binding contract.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date of the signature by the required approval authorities below.

SCHEDULE 1: DEFINITIONS

The following terms shall for all purposes have the meanings stated herein, unless the context otherwise specifies or requires, or unless otherwise defined in the Agreement:

"Acceptance" means the conditions contained in Section 3.7 have been completed and CLIENT has signed, or is deemed to have signed and delivered, a Certificate of Acceptance.

"Acceptance Date" means the date on which Acceptance has occurred or been completed for each Segment of the Works.

"Annual Performance Report" means the document prepared by CONTRACTOR and submitted to the CLIENT, which identifies the results achieved (KPIs) for the applicable Annual Period.

"Annual Period" means an annual period beginning on the Commencement Date or on any anniversary date thereafter.

"Annual Realized Savings" means the actual Energy Savings achieved by the System during an Annual Period derived from the sum of the measured and verified savings plus any Stipulated Savings.

"Applicable Law" means any Laws in force in the State of New Mexico where the System is located, or that is otherwise binding on a Party or those for whom, at law, they are responsible.

"Artistic Lighting" means the artistic lighting projects and equipment and infrastructure required to be provided by the CONTRACTOR as described in accordance with Schedule 2 (Scope of Works).

"Authorized Representative" means collectively CLIENT Representative and CONTRACTOR Representative.

"Business Day" means any calendar day other than a Saturday, Sunday or federal holiday in the United States, except that in the event that an obligation to be performed under this Agreement falls due on a day other than a Business Day, the obligation shall be deemed due on the next Business Day thereafter.

"Calendar of Execution" refers to the calendar detailed in the Implementation Plan,

"Certificate of Acceptance" means a written non-recourse certificate of acceptance in the form substantially similar to the certificate of acceptance attached hereto in Schedule 5.

"Change in Law" means the coming into effect or repeal (without re-enactment or consolidation) in the state or commonwealth or the United States of any Law, or any amendment or variation of any Applicable Law, including any judgment of a relevant court of law which changes binding precedent in the state or commonwealth, in each case after the date of this Agreement which has a material adverse effect on a Party's ability to perform under this Agreement, provided that a Change in Law shall not apply to any Party's obligation to pay hereunder when due.

"Change Order" means modification of the Works pursuant to Schedule 2 (Scope of Works).

"Charter" means the Charter of the City of Santa Fe adopted by the voters of the City of Santa Fe, New Mexico, at a Special Municipal Election held on December 9, 1997; amended by the voters of the City of Santa Fe at a Regular Municipal Election held on March 4, 2008; amended by the voters of the City of Santa Fe at a Regular Municipal Election held on March 4, 2014; amended by the voters of the City of Santa Fe at a General Election held on November 6, 2018; and amended by the Governing Body on March 11, 2020.

"CLIENT" means City of Santa Fe, a political subdivision of the State of New Mexico.

"CLIENT Representative" means the person identified to CONTRACTOR by CLIENT as the person authorized to make decisions on behalf of CLIENT, as further set forth in Section 15.7 of the Main Body of the Agreement.

“CMMS” refers to a Centralized Maintenance Management Software, which is a data and tracking system for asset data, installation and repair data, maintenance data, energy consumption data and other System data.

"Commencement Date" shall mean the date that the Client issues a Purchase Order.

"Commissioning and Quality Assurance Plan" means the plan for commissioning the Infrastructure during the Works Phase.

"CONTRACTOR" means Dalkia Energy Solutions US, Inc. and its successor and assigns.

"CONTRACTOR Pre-existing Intellectual Property" means any Intellectual Property: (i) that has been conceived or developed by an employee or subcontractor of CONTRACTOR before CONTRACTOR performs any Works or Services under this Agreement; (ii) that is conceived or developed by such employee or subcontractor at any time wholly independently of CONTRACTOR performing the Works under this Agreement; or, (iii) if developed while performing the Works under this Agreement, where the development of Intellectual Property for the benefit of the CLIENT is not expressly identified as part of the Works. CONTRACTOR Pre-existing Property is included in all reports, notes, calculations, data, drawings, estimates, specifications, manuals, documents, all computer programs, codes and computerized materials prepared by or for CONTRACTOR.

"CONTRACTOR Representative" means the person identified to CLIENT by CONTRACTOR as the person authorized to make decisions on behalf of CONTRACTOR, as further set forth in Section 15. 7 in the Main Body of the Agreement.

"Constant Energy Rate" means an energy rate of $0.0561839 per kWh, as the customer owned metered lighting rate as described in Section B of Public Service Company of New Mexico Electric Service, 15th Revised Rate No. 20, Canceling 14th Revised Rate No. 20, incorporated in the Implementation Plan. The Constant Energy Rate shall be reviewed and revised every five years in accordance with any changes in the Public Service Company of New Mexico Electric Service rate.

"Contingency Deadline" shall be thirty (30) days after the Effective Date of this Agreement.
"Damage Amount" refers to the annual damage amount covered under the Service Payments for Repairs as identified in Section 2.3.2 of Schedule 3.

"Day(s)" shall mean calendar day.

"Demobilization Costs" shall mean all activities and costs for transportation of personnel, equipment and supplies from the site; disassembly, removal, and site cleanup of offices, buildings, and other facilities; all reasonable costs associated early termination incurred by CONTRACTOR with its subcontractors, vendors, providers; reasonable ongoing lease costs or lease termination costs for vehicles, warehouse space, office space and other leased items for this Agreement; accrued costs and expenses, including amounts spent on equipment and inventory. CONTRACTOR shall take all reasonable steps to mitigate demobilization costs and expenses upon termination of the agreement.

"Energy Savings" means all reductions in energy or utility consumption, a changed utility rate classification, a combination thereof, or other savings contemplated herein derived from installation of the Infrastructure and performance of the Services, in accordance with Schedule 3 (Scope of Services). Energy Savings are measured and expressed in kilowatt hours (kWh).

"Equipment" means installed physical street light equipment, which includes luminaires and smart controls, that is required to be provided by CONTRACTOR as part of Schedule 2 (Scope and Works).

"Event of Default" refers to the terms of Event of Default prescribed in Section 9.1 (b) and (c) in the Main Body of the Agreement.

"Existing System" refers to the non-upgraded portions of the System during the Works.

"Extension Estimate" refers to the definition found in Section 1.3 (b) (1) in the Main Body of the Agreement.

"Final Segment of the Works" means the last Segment of the Works which upon completion and acceptance completes the CONTRACTOR's obligations under the Works Phase of this Agreement.

"Governmental Authority" means any federal, provincial, territorial, regional, municipal or local governmental authority, quasi-governmental authority, court, government or self-regulatory organization, commission, board, tribunal, organization, or any regulatory, administrative or other agency, or any political or other subdivision, department, or branch of any of the foregoing, having legal jurisdiction in any way over the Project, any aspect of the performance of this Agreement or any of the other project documents, in each case to the extent it has or performs legislative, judicial, regulatory, administrative or other functions within its jurisdiction.

"Guaranteed Annual Savings" are the Energy Savings that CONTRACTOR guarantees will be achieved in an Annual Period of the Performance Guarantee Period, as identified in the Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services).

"Hazardous Materials Within Scope" refers to those materials listed in the Implementation Plan.

"IESNA Guide for Photometric Measurement of Roadway Lighting Installations" means the ANSI/IES RP-8-14, ISBN# 978-0-87995-299-0, published by the Illuminating Engineering Society of North America, 2014.

“Implementation Plan” refers to the documented steps that will be taken by the Contractor and the Client to successfully achieve implementation pursuits, including but not limited to works phase sequence and timeline, products specifications, measurement and verification process.

"Infrastructure" means the Equipment and other physical street light infrastructure which includes street light poles, arms, wiring, foundations and other related infrastructure and equipment that is part of the System, Client-owned, and that is required to be installed by CONTRACTOR as part of Schedule 2 (Scope of Works).

"Intellectual Property Rights" or "Intellectual Property" means all trade secrets, patents and patent applications, trademarks (whether registered or unregistered and including any goodwill acquired in such trade marks), services marks, trade names, internet domain names, copyrights (including rights in computer software), moral rights, database rights, design rights, rights in know-how, rights in inventions (whether patentable or not) including, but not limited to, any and all renewals or extensions thereof, and all other proprietary rights (whether registered or unregistered, and any application for the foregoing), and all other equivalent or similar rights which may subsist anywhere in the world, including, but not limited to, any and all renewals or extensions thereof.

"IPMVP" means the International Performance Measurement and Verification Protocol, Volume 1, EVO 10000-1.2007 as prepared by the Efficiency Valuation Organization.

"KPI" means Key Performance Indicator.

"Lamp" means apparatus designed as the source of light.

"Law" means any applicable constitution, charter, act, statute, law (including common law), ordinance, code, rule, regulation, judgment, decree, writ, order, permit, approval, or the like, as any of the foregoing may change from time to time, of any federal, state or local government or any agency, department, authority, court, political subdivision or other instrumentality thereof.

"kW" and "kWh" means kilowatt and kilowatt hour, respectively.

"Main Body" refers to Articles 1-15 in the main body of the Agreement above.

"Material Change" means a measurable deviation in the Performance Baseline and/or lighting performance metrics that is not caused by CONTRACTOR such that there is an adverse impact on the Annual Realized Savings which results or will result in a Savings Shortfall. A Material Change includes, but is not limited to: (a) changes in the manner of use of the System, (b) changes in the hours of operation of System, (c) changes in the quantities and types of materials used in the System, (d) modification, renovation or construction at or around the System, (e) any significant damage to the System caused by Supervening Event, or (f) any substantially changed condition affecting the energy use in the System.

"Material Obligation" means an obligation under this Agreement that is significant, as opposed to trivial, the breach of which would deprive the other Party of benefits it would have received under this Agreement, and includes any obligation the breach, waiver or modification thereof could (a) have an adverse effect on any Works Payment or Termination Payment (including the amount and due date thereof), or (b) impair the originally intended value, function or use of the Infrastructure, Smart City Instruments or Artistic Lighting.

"Measurement and Verification Plan" or "M&V Plan" shall mean the measurement and verification plan described in Section 2.9 of Schedule 2.

"Non-Upgraded System Assets" shall mean System components that are not upgraded or replaced during the Works Phase. Any component of the Non-Upgraded System Assets that is replaced pursuant to Section 2.3.2 of Schedule 3 shall be treated as Infrastructure for the remainder Services Phase.

"Normal Wear and Tear" means damage that naturally and inevitably occurs as a result of normal wear or aging.

"Oil" means petroleum or petroleum products.

"Operating Center" shall mean the operating center as described in Section 2.6.3 of Schedule 2 and Section 2.6 of Schedule 3.

"Operations and Maintenance" or "O&M" shall mean the operation, maintenance, monitoring, management, repair and replacement of the System during the Services Phase.

"Parties" means the CLIENT and CONTRACTOR.

"Performance Assurance Reconciliation" is the process of ascertaining whether the System is performing at the level necessary to achieve the Guaranteed Annual Savings for an Annual Period.

"Penalties Cap" means the maximum cumulative amount of all Savings Shortfall payments and O&M penalty amounts the CONTRACTOR is obligated to make to the CLIENT, as more particularly described in Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services).

"Performance Baseline" means the operating profile of the System after all Works have been completed and Infrastructure installed, based on parameters described in the Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services), which is relied upon by CONTRACTOR for the calculation of Guaranteed Annual Savings as provided in the Appendix 3A (Services Performance Objectives and Penalties) to Schedule 3 (Scope of Services).

"Performance Guarantee" means CONTRACTOR's guarantee that the Annual Realized Savings calculated at the end of each Annual Period will be no less than the Guaranteed Annual Savings for the corresponding Annual Period.

"Performance Guarantee Period" means the timeframe from the Acceptance Date of the Final Segment of the Works until the termination of this Agreement.

"Permitted Users" means the CLIENT, its employees and authorized agents.

"Project" means Works and Services provided in the Agreement.

"Prudent Industry Practice" means those practices, methods, equipment, specifications and standards of safety and performance, as the same may be changed from time to time, as are generally used in the installation and operation and maintenance of street light systems, which in the exercise of reasonable judgment and in light of the facts known at the time the decision was made, are considered good, safe and prudent.

"Repair(s)" means repairs of outages, malfunctions, damages or deteriorations to the Non-Upgraded System Assets or repairs made to the System caused by accidents, acts of vandalism or acts of God.

"Savings Excess" means the Annual Realized Savings less the Guaranteed Annual Savings for the Annual Period resulting in an amount greater than zero.

"Savings Shortfall" means the Annual Realized Savings less the Guaranteed Annual Savings for the Annual Period resulting in an amount less than zero.

"Schedule(s)" refers to the Schedules 1 through 6 herein.

"Schedule and Breakdown of the Works" refers to the schedule detailed in the Implementation Plan.

"Scheduled Maintenance" refers to proactive maintenance provisions identified in Section 2.3.1 of Schedule 3.

"Segment(s)" means collective labor, Infrastructure, Smart City Instruments, Artistic Lighting and related services to be performed by or on behalf of CONTRACTOR for each segment of the Works, as further identified and described in Schedule 2 (Scope of Works).

"Services" means those services to be provided by CONTRACTOR as described in Article 4 and Schedule 3 (Scope of Services).

"Service(s) Payment" means payments for the operation and maintenance of System during the Works Phase pursuant to Section 2.3 of Schedule 2 and the operation, maintenance, management, repair and replacement of the System, Smart City Instruments and Artistic Lighting services during the Services Phase.

"Services Performance Objectives" shall mean the Service Phase KPIs or performance objectives, descriptions and metrics that are subject to penalties as described in Schedule 3.

"Service(s) Phase" refers to the phase in the Agreement in which Services are performed after Acceptance Date of the Final Segment of Works.

"Smart City Instruments" refers to the physical nodes, instruments and equipment used in smart city and safety applications as required to be provided by the CONTRACTOR as described in accordance with Schedule 2 (Scope of Works)

"Software Product" means any software that is owned or licensed by CONTRACTOR or its affiliates and that is either separately deliverable for use in the Infrastructure, Smart City Instruments or Artistic Lighting or for use in a computer system owned by the CLIENT or delivered as firmware embedded in the Infrastructure, Smart City Instruments or Artistic Lighting.

"State" means the State of New Mexico.

"Stipulated Savings" are a sub-category of Guaranteed Annual Savings that do not require post-FIM implementation measurement and verification because they are agreed upon by the Parties based upon representations made to CONTRACTOR by the CLIENT and through the application of generally accepted analytical formulae. As such, Stipulated Savings are agreed upon in advance by the Parties and cannot be changed. When used as a methodology for representing a FIM's energy savings, such methodology is not recognized as a measurement and verification methodology under IPMVP. Therefore, where the IPMVP measurement methodologies are required, a methodology other than Stipulated Savings must be used to calculate energy savings.

"Supervening Event" means any of the following to the extent, in each case, it has a material adverse effect on CONTRACTOR's ability to perform its obligations under this Agreement: (a) any civil disobedience or dissent, including measures taken or threatened to be taken after the date hereof by one or more persons protesting or demonstrating against the realization of all or part of the Project, including the execution of the Works and the performance of the services hereunder; (b) fire, explosion, lightning, storm, tempest (including, but not limited to, an ice storm), hurricane, tornado, flood or any other natural disaster, ionizing radiation, earthquake, riot, theft, vandalism or civil commotion or any declared State of Emergency at the Federal, State or local level; (c) failure by any utility supplier, any Governmental Authority or other similar entity to provide the requisite approvals, permits, and consents or requisite access or make the requisite repairs required for the performance of the Works and Services; (d) instability and/or unavailability of the power grid; (e) irreparable disruption of the economy or solvency of the Agreement that is no fault of CONTRACTOR; (f) blockade or embargo; (g) strikes, lockouts, or other labor-related disputes affecting the System, the construction sector or maintenance of infrastructure sector or a significant part thereof; (h) war, civil war, armed conflict, terrorism, acts of foreign enemies or hostilities; (i) third party bid protest, or (j) nuclear, radioactive, chemical or biological contamination of the System, Smart City Instruments and Artistic Lighting or any real or personal property adjacent thereto that prevents the CONTRACTOR from performing a material part of its obligations under this Agreement.

"System" means the street light system owned, maintained or controlled by CLIENT which is located within the limits of the city of Santa Fe, New Mexico and where the Works and Services will be performed, and which is used primarily to illuminate a road, street, highway or interstate freeway and includes the street light system's physical infrastructure and equipment: luminaires, photocells, street light poles, arms, wiring, pole foundations; more specifically, the System refers to the street lights owned or controlled by CLIENT as identified in the inventory provided by the CLIENT to the Contractor. The System specifically excludes Smart City Instruments and Artistic Lighting and any utility owned street lights.

"System Baseline" means the measurements of System taken as part of the Inventory, and the System operating practices in effect on the Agreement Effective Date, as set forth in Appendix 3A (Services Performance Objectives and Penalties) in Schedule 3 (Scope of Services).

"Technical Watch Committee" means a committee created at CLIENT's request to ensure ongoing technical monitoring and advancements in streetlighting and to remain informed about changes in standards and regulations. The Technical Watch Committee will consist of an equal number of representatives from CLIENT and from CONTRACTOR and shall meet at the end of each year at the request of CLIENT.

"Technological Advancements" shall mean advances in lighting technology that occur subsequent to the execution of this Agreement that will improve the performance of the System.

"Term" means the fixed duration of this Agreement as identified in Section 1.2 of the Main Body of the Agreement.

"Termination Payment" means the sum paid in consequence of the termination of this Agreement in accordance with Article 9 in the Main Body of the Agreement.

"Unit Prices" means the lists provided in the Implementation Plan.

"Unscheduled Maintenance" means the repair of outages or malfunctions that are caused by Normal Wear and Tear of the Infrastructure or outages that are a result of defective Infrastructure.

"Work(s)" means collective labor, Infrastructure, Smart City Instruments, Artistic Lighting and related services for all Segments to be performed by or on behalf of CONTRACTOR in the Works Phase, as further identified and described in Schedule 2 (Scope of Works).

"Work(s) Amount" means principal amount of the project for this Agreement. Works Amount does not include interests on the principal or any Service Payment amounts.

"Work(s) Payment" means payments for Works performed during the Works Phase, specifically excluding the operation and maintenance of the System during the Works Phase.

"Work(s) Performance Objectives" shall mean the KPIs or performance objectives, descriptions and metrics that are subject to penalties as described in Schedule 2.

"Work(s) Phase" shall mean the phase of the Agreement in which the Works are performed.

SCHEDULE 2: SCOPE OF WORKS

ARTICLE 1: DESCRIPTION OF THE SYSTEM, ARTISTIC LIGHTING AND SMART CITY INSTRUMENTS

a. System Layout

The layout of CLIENT's System is described in the Implementation Plan as the information received by CONTRACTOR from CLIENT about the current streetlight system. CONTRACTOR shall upgrade the Infrastructure of the System during the Works as set forth in the Implementation Plan The scope of the System may be amended for the installation of additional street lights in the System.

b. System Data Inventory

CLIENT'S street light assets that make up the System are set forth in the Implementation Plan. Assets vary in size (wattage), type (HPS, MV, etc.), and style (Cobra, post top, wall pack, etc.). The System assets are property of the CLIENT and/or CLIENT has the requisite rights to upgrade, operate and maintain the assets. CLIENT'S street light assets subject to this Agreement do not include any utility-owned street lights.

c. Artistic Lighting

Artistic Lighting may be requested by CLIENT at any time during the project. Technical specifications and drawing will be incorporated into the Implementation Plan accordingly.

d. Smart City Instruments

Smart City Instruments shall be installed on CLIENT'S System. The Smart City Instrument installation may include street light control nodes, Wi-Fi hotspots, and additional smart city instruments. Technical specifications and drawing will be incorporated into the Implementation Plan accordingly.

Smart City Credit

In addition to other obligations of the Contractor, Contractor will provide an annual "credit" of Twenty Thousand dollars ($20,000.00) worth of materials and installation of Smart City infrastructure, or other infrastructure as agreed by the Parties. Installation costs will be determined in accordance with the Implementation Plan. Material costs will be determined in accordance with the Implementation Plan. This Smart City infrastructure "credit" will be available annually on the anniversary of the implementation of the Services phase. This "credit" may only be used for infrastructure and may not be used as an offset to any payment due to Contractor.

e. Deferred Maintenance

During the Works phase, Contractor will implement Deferred Maintenance Work up to the amount of Eighty-Five Thousand Four Hundred and Seventeen Dollars and no Cents ($85,417.00) plus applicable Gross Receipts Tax in the amount of $7,209.19. This Work will be prioritized by Client in consultation with Contractor. Costs of Work will be determined in accordance with the Implementation Plan. Work will be accepted by Client as set forth in Article 3 Section 3.7.

ARTICLE 2: GENERAL SCOPE OF WORKS

2.1 General Principles

The Works, as described herein and in the Implementation Plan, shall be performed by CONTRACTOR in conformity with current standards, Applicable Laws and regulations, and in accordance with the prescriptions of this Schedule and associated appendices. Except as otherwise expressly provided herein, CONTRACTOR shall provide all items necessary for the performance of the Works.

2.2 Interim Period

The Interim Period shall be the period between the Agreement's Effective Date and the Commencement Date. During the Interim Period, CONTRACTOR may perform any preparatory work and operations needed to mobilize for the Works, which may include, but is not limited to, the following:

a. Movement to, placement and set-up on project site of personnel, equipment, supplies and accessory items;

b. Establishment of offices, buildings and other needed facilities as well as utility work and connections needed for these facilities;

c. Scheduling details, coordination and any other work and expense appropriate prior to the start of Works under Agreement.

The Client shall not be responsible for costs incurred until a Purchase Order has been issued.

2.3 Operation and Maintenance System

a. Commencing after the Acceptance Date of the Final Segment of the Works, CONTRACTOR will operate and maintain the Existing System that has not been upgraded and that is part of the scope of Works.

2.4 Works: Project Upgrade

CONTRACTOR shall perform the installation of the Infrastructure, Smart City Instruments and Artistic Lighting in accordance with the Implementation Plan.

2.4.1 Modifications to Calendar of Execution and Schedule of Works

CLIENT may request adaptations and modifications to the work schedule set forth in the Implementation Plan, provided that the request is made in writing and made no later than thirty (30) days before the submission of the required authorizations and applicable approvals. Notwithstanding the foregoing, for any adaptation and modifications to the work schedules for urban redevelopment or city-owned projects, CLIENT shall request any modifications at least sixty (60) days prior to the submission of the required authorizations.

Upon CLIENT's request, CONTRACTOR shall study and define the technical, economic and financial impacts of the scheduling adaptations and modifications and provide the CLIENT with a proposal for CLIENT'S requests. Any scheduling adaptations or modifications must be agreed to in writing by both Parties and any financial or other consequences related to any requested scheduling adaptations or modifications that are subsequently implemented will be borne by CLIENT. If a change of the schedule requested by CLIENT directly causes a delay in the acceptance of any Segment, the direct or indirect consequences, including costs, will be borne by CLIENT.

2.4.2 Conditions of Execution of the Works and Safety Program

Conditions of Execution of the Works. Prior to starting the Works, CONTRACTOR will obtain all requisite information and authorizations and fulfill all administrative requirements necessary for the performance of the Works. CONTRACTOR shall provide CLIENT an organizational plan of the Works to be performed, indicating the access requirements and installation requirements for the worksites and any plans to limit the impacts on the surrounding areas.

Safety Program. CONTRACTOR will make a commercially reasonable effort to ensure safety at the worksites and their surroundings areas for the entire duration of the Works in accordance with all Applicable Law. In carrying out its responsibilities herein, CONTRACTOR shall (a) protect the lives and health of persons performing the Work and other persons who may be affected by the Work and shall erect and maintain all necessary safeguards for such safety and protection; (b) prevent damage and theft to materials, supplies, and equipment whether on worksites or stored off worksites; and (c) prevent damage to other property at worksites or adjacent thereto. CONTRACTOR shall provide CLIENT with a safety plan within thirty (30) days from Commencement Date.

2.4.3 Progress Reports; Status Meetings

Progress Reports. CONTRACTOR shall periodically, but at least monthly, provide CLIENT progress reports pertaining to the Works detailing all ongoing tasks and the progress made with respect to the Calendar of Execution and the Schedule and Breakdown of the Works.

Status Meetings. Status meetings during the Works Phase will be held on a bi-weekly basis, and may be attended by Authorized Representatives and all persons designated by CLIENT and CONTRACTOR. Meeting times and frequency will be modified upon CONTRACTOR or CLIENT mutual agreement. Meeting minutes shall be recorded by CONTRACTOR for each meeting.

2.4.4 Project Commissioning and Acceptance

Project Commissioning. The Commissioning and Quality Assurance Plan in the Implementation Plan establishes procedures for commissioning each Segment of the Works. Upon completion of a Segment of the Works, CONTRACTOR, in concert with CLIENT, shall conduct a thorough and systematic performance test of each element of the completed Segment of the Works per the terms of the plan. CONTRACTOR shall correct or adjust any deficiencies in accordance with Schedule 5 and the Commissioning and Quality Assurance Plan.

Acceptance. Acceptance of Work or Segment of Work shall be in accordance with the procedures established in Section 3.7 of the Main Body of the Agreement and Schedule 5.

2.5 Modification of the Works

2.5.1 Change Orders

Changes. The Contractor may only make changes or revisions within the Scope of Work as defined in the Implementation Plan after receipt of written approval by the City Manager or his/her designee. Such change may only be made to Tasks or Sub-Task as defined in the Scope of Work. Under no circumstance shall such change affect the:

a. Deliverable requirements, as outlined in the Scope of Work;
b. Due date of any Deliverable, as outlined in the Scope of Work;
c. Compensation of any Deliverable, as outlined in the Scope of Work;
d. Agreement compensation, as outlined in Article 2; or
e. Agreement termination, as outlined in Article 4.

Change Request Process. In the event that circumstances warrant a change to accomplish the Scope of Work as described above, a Change Request shall be submitted that meets the following criteria:

a. The Project Manager shall draft a written Change Request for review and approval by the City Manager to include:

    1. the name of the person requesting the change;
    2. a summary of the required change;
    3. the start date for the change;
    4. the reason and necessity for change;
    5. the elements to be altered; and
    6. the impact of the change.

b. The City Manager shall provide a written decision on the Change Request to the Contractor within a maximum of ten (10) Business Days of receipt of the Change Request. All decisions made by the City Manager are final. Change Requests, once approved, become a part of the Agreement and become binding as a part of the original Agreement.

The Change Order shall constitute full and final settlement of all claims arising from or related to any Work either covered or affected by the Change Order or related to the events.

2.6 Monitoring of the Works

2.6.1 CMMS: Real-Time Monitoring of Works

Throughout the Works Phase, CONTRACTOR will implement its Computerized Maintenance Management System ("CMMS"), to monitor the progress of the Works. The CONTRACTOR will use CMMS to measure the timeline of the upgrades and monitor its crews on a real-time basis. All Infrastructure and Artistic Lighting installations and repairs made to the System, including poles and fixture types, drivers, LED kit, etc., will be updated in CMMS to reflect new field conditions. Built-in work order schedules will be entered into CMMS to ensure that the proper equipment and materials are on the trucks before they leave the facility.

CLIENT shall have a real-time access to CMMS to monitor the status of the streetlight asset upgrade.

2.6.2 Construction Monitoring

CONTRACTOR shall perform checks at the end of each workday to ensure that all work performed is functioning as intended.

2.6.3 Operating Center

Within ten (10) days of the Commencement Date, an Operating Center will be established which shall have the requisite personnel, technology and equipment to monitor the indicators (CMMS reports), System alerts for a holistic status of the System, Smart City Instruments and Artistic Lighting installations.

The Operating Center shall be equipped to analyze problems, communicate with site technicians and supervisors, track issues through resolutions, and escalate problems when appropriate. For emergencies or disasters, the Operating Center shall have established procedures in place to immediately contact the correct team and respond appropriately.

Responsibilities of Operating Center personnel will include:

- Streetlight monitoring
- Emergency response
- Repairs and upgrade monitoring
- Communication and reporting between the field teams, headquarters, and the CLIENT
- CMMS administration (database updates and treatment of the work orders)

2.7 Waste Management and Recycling during the Work Phase

During the Works Phase, recycling management processes will be integrated throughout CONTRACTOR's day- to-day operation (ISO 9001-14001). CONTRACTOR shall procure and/or maintain the appropriate recycling and disposal facilities.

2.8 Project and Performance Baseline Inventory

Pursuant to Section 5.1 of the Main Body of the Agreement, prior to the Acceptance Date of the Final Segment of the Works, CONTRACTOR shall conduct an audit and inventory of the operational performance of the System after all the Infrastructure is installed. If additional Energy Savings are recognized after the audit and inventory, CONTRACTOR shall integrate and use all resulting data to calculate and revise the Performance Baseline and adjust Section 1.1 of Appendix 3A "Services Performance Objectives and Penalties" of Schedule 3, accordingly.

2.9 Measurement and Verification Plan: Energy Savings

Within sixty (60) days of the Commencement Date, CONTRACTOR shall provide CLIENT with a written Measurement and Verification Plan (M&V Plan), which shall be based on the International Performance Measurement and Verification Protocol (IPMVP). The M&V Plan shall provide the CLIENT with an accurate assessment of Energy Savings for an Annual Period and identify any Savings Excess or Savings Shortfall for the corresponding Annual Period in accordance Performance Assurance Reconciliation of Appendix 3A of Schedule 3 below.

ARTICLE 3: TECHNICAL SCOPE OF WORKS

The technical Scope of Works is detailed in the Implementation Plan.

ARTICLE 4: TECHNICAL SPECIFICATIONS AND DRAWINGS

The Works shall be performed in accordance with the technical specifications and drawing set forth in the Implementation Plan.

APPENDIX 2A TO SCHEDULE 2 - Works Performance Objectives and Penalties

The Works Performance Objectives and Penalties are set forth below. Section 1 details the Key Performance Indicators (KPIs) that will be measured and evaluated during the Works Phase and serve as CONTRACTOR's performance metrics for the Works Phase. Section 1 details each KPI that will be measured and provides the respective formula used during the Agreement to measure the Works KPIs. Section 2, below, provides a quick reference table that details the Works KPIs and commitments. Section 3, below, depicts the penalties calculations applied for each KPI should CONTRACTOR not satisfy its respective commitments.

1. Works Phase Commitments

1.1 Starting Date of Works (Ksd)

Contract start date will commence when Dalkia receives the Notice to Proceed from the City of Santa Fe.

1.2 Commissioning (Kc)

Within six (6) months of the Commencement Date, CONTRACTOR commits to submitting the certificate of substantial completion for the Final Segment of the Works, pursuant to the Commissioning and Quality Assurance Plan.

1.3 Recycling/Disposal (Kr)

CONTRACTOR shall recycle or properly dispose of the Lamps, housing and miscellaneous electronics of the existing fixtures. CONTRACTOR commits to achieving a 90% recycling rate, which shall be measured in accordance with the below KPI formula (Kr). Per the below formula, one (1) Lamp and associated housing and one (1) miscellaneous electronics per street light shall equal one (1) set of materials for the terms of this KPI. This commitment will be measured at the completion of the Works Phase and be based on CONTRACTOR's disposal records.

$$Kr = \frac{R}{S}$$

With S = number of upgraded street lights
R = number of sets of materials recycled/properly disposed

2. KPI Table

Category	Sub-category	Designation	Commitment	Unit	Periodicity
Construction	Operation and Maintenance	Ksd - Starting date	Commence Operation and Maintenance of System on or before Commencement Date	Business Day	Once
	Construction	Kc - Commissioning	12 months after Commencement of Works Phase for the Final Segment of the Works	Month	Once
	Kr – Recycling/ Disposal rate	Kr - Recycling/ Disposal rate	90%	% of recycled/disposed sources	Once

3. Performance Penalties for Works Phase

3.1 General

Works Phase penalties shall be identified, documented and agreed to by CLIENT and CONTRACTOR at the respective status meetings. Upon receipt of CLIENT's penalty notification, CONTRACTOR shall have ten (10) days to notify CLIENT in writing whether the CONTRACTOR disputes any penalty. If CONTRACTOR disputes a penalty notification, then CONTRACTOR and CLIENT shall set a meeting within twenty (20) days to review the penalty claim. Notwithstanding the foregoing, the CONTRACTOR shall timely notify the CLIENT of any KPI penalties CONTRACTOR identifies.

Non-compliance with the Works Performance Objectives will result in the application of below penalties, except where the non-compliance was caused by, wholly or partially, a Supervening Event, or delays in the start of the Works or delays in installation or commissioning of Infrastructure, Smart City Instruments or Artistic Lighting that were caused by actions not attributable to CONTRACTOR.

The payments for penalties, if any, are the sole remedy of CLIENT under the Works Performance Objectives of this Schedule. Any penalties under the Works Performance Objectives shall be deducted from the Service Payments until satisfied.

3.2 Works Phase Penalties

If CONTRACTOR does not comply with its commitments set forth above for the respective KPIs, the following penalties shall apply:

Delay in starting the Works (Ksd) = $ 1,000.00 per Business Day, until effective starting date.

Delay in commissioning (Kc) =

- From 1 to 30 calendar days = 0.5 % of the non-commissioned Works Amount
- From 31 to 60 calendar days = 1 % of the non-commissioned Works Amount
- More than 61 calendar days = 2% of the non-commissioned Works Amount

The penalties for a delay in commissioning (Kc) are not cumulative. For example, the total penalty assessed for a delay in commissioning of 45 days would be 1 % of the Works Amount.

Recycling (Kr)

Penalties for noncompliance of the recycling rate (Kr) for the total amount of Lamps and miscellaneous electronics =

80 % ≤ Kr < 90 % = Penalties of $ 3,000.00

70 % ≤ Kr < 80 % = Penalties of $ 5,000.00

Kr < 70 % = Penalties of $10,000.00

The penalties for a recycling (Kr) are not cumulative. For example, the total penalty assessed for a recycling rate of 75% would be $5,000.00.

SCHEDULE 3: SCOPE OF SERVICES

Performance of Services after Acceptance ("Services Phase")

No later than the Acceptance Date of the Final Segment of the Works, or such other date agreed to in writing between the Parties, CONTRACTOR shall commence performance of the Services Phase. During the Services Phase, CONTRATOR shall be responsible for ensuring the technical operation and maintenance of the System to achieve Energy Savings and Services objectives. CONTRACTOR shall also render such Smart City Instrument and Artistic Lighting services as described herein.

ARTICLE 1: SYSTEM ENERGY SAVINGS

The following sections of this Article 1 identify and detail the programs that serve to measure, reconcile and optimize Energy Savings.

1.1 Performance Guarantee: Performance Assurance Reconciliation

The Energy Savings commitments, specifically the Performance Guarantee as described in Article 5 in the Main Body of the Agreement (Performance Guarantee), shall be measured and reconciled annually pursuant Performance Assurance reconciliation process set forth in Section 1.1 and 1.2 of Appendix 3A "Services Performance Objectives and Penalties" of this Schedule. An Annual Performance Report will be issued upon completion of reconciliation detailing any Savings Shortfall or Saving Excess. The Contractor will provide a bond, letter of credit or other financial guarantee acceptable to the Client as a security for performance of this guarantee.

1.2 Measurement and Verification of the Energy Savings

During the Services Phase, CONTRACTOR shall implement the M&V Plan to measure, verify and reconcile Annual Realized Savings as part of the Performance Assurance reconciliation. Annual Period measurement and verification results shall be detailed in the Annual Performance Report.

Commencing on the Acceptance Date of Final Segment of the Works, CONTRACTOR shall provide CLIENT with read-only access to real-time System measurement and verification data in CMMS used to measure, verify and reconcile Annual Realized Savings.

ARTICLE 2: SYSTEM OPERATION AND MAINTENANCE

The following sections of this Article 2 detail the scope of the System's Operations and Maintenance program that will be implemented during the Services Phase. The first two sections set forth the System's asset inventory and analysis program. The third and fourth sections set forth the maintenance and repair program for the System's assets and response measures instituted during emergencies. The fifth, sixth and seventh sections depict the monitoring program for the System: CMMS, Operating Center. The final section details the recycling program for the System that will be instituted throughout the Services Phase.

2.1 Photometric Analysis

Each Annual Period CONTRACTOR shall randomly measure 1% of the System's Infrastructure to assess the System's lighting performance compliance with the IESNA Guide for Photometric Measurement of Roadway Lighting Installations. The results of the photometric analysis will be included in the Annual Performance Report and will be the basis for the KPI commitments for lighting performance (Kip).

2.2 Inventory of the assets

Throughout the Services Phase, CONTRACTOR shall maintain a continuous inventory of the System's assets in CMMS. CONTRACTOR shall deliver to CLIENT an audit report of the inventory for the System in each Annual Performance Report. The inventory report shall include:

1. A summary description of the System; and

2. A summary of the condition of System and its conformity to the applicable standards and procedures established in the Schedule 2 (Scope of Works).

2.3 Maintenance and Repairs

CONTRACTOR shall operate and maintain the System's lighting performance and malfunctions in accordance with below provisions and the response times and monitoring commitments defined in Appendix 3A, "Services Performance Objectives and Penalties" to this Schedule.

The Operation and Maintenance of the System is split into two categories:

- Scheduled and Unscheduled Maintenance pertains to CONTRACTOR's proactive maintenance and/or restoration of the Infrastructure to its proper functioning status.
- Repair(s) pertains to CONTRACTOR's repairs rendered necessary by the history of the System (including but not limited to repair and replacement of Non-Upgraded System Assets) and/or unforeseen events (including, but not limited to, abnormal use, vandalism and accidents).

2.3.1 Scheduled and Unscheduled Maintenance

Scheduled Maintenance. CONTRACTOR's Scheduled Maintenance program is designed to optimize the lighting performance and reduce the outage rate through proactive monitoring of the System. As part of its Scheduled Maintenance program, CONTRACTOR shall perform preventative maintenance on the System as set forth below.

- Complete audit of the assets at the beginning of Services Phase to identify general asset conditions for preventive maintenance planning.
- Cleaning of the fixtures as needed.
- Use of the CMMS and other advanced tools for predicting issues, scheduling preventive maintenance, and maintaining asset inventory and stock management.

Unscheduled Maintenance. Unscheduled Maintenance refers to CONTRACTOR's obligations to maintenance and repair any Infrastructure outages and malfunctions that are caused by Normal Wear and Tear of the Infrastructure or caused by defective Infrastructure. Unscheduled Maintenance will also include outages caused by Normal Wear and Tear to System assets that have been upgraded in accordance with Section 2.3.2 below. Unscheduled Maintenance does not include repairing outages caused by deterioration (i.e. abnormal wear or aging), accidents, acts of vandalism or acts of god.

All Scheduled Maintenance and Unscheduled Maintenance activities are covered under the monthly Services Payment amounts during the Service Phase.

2.3.2 Repairs

CONTRACTOR shall make the necessary Repairs for System outages, System malfunctions and damages to the System that are caused by the Normal Wear and Tear of Non-Upgraded System Assets or caused by deterioration (i.e. abnormal wear or aging), accidents, acts of vandalism or acts of God.

The cost of the Repairs made to the System shall be based on the list of Unit Prices for the category "Current Maintenance", as set forth in the Implementation Plan. CONTRACTOR shall submit to CLIENT, for written approval, a work order that includes the cost provisions of each Repair within ten (10) days of the reported outage, malfunction or damage. In the absence of written approval from CLIENT to perform the Repairs within fifteen (15) Business Days following receipt of CONTRACTOR's costs provisions and work order, all related KPIs and their associated penalties shall be temporarily suspended and unenforceable and CONTRACTOR shall not be obligated to make any such Repairs until receipt of CLIENT written authorization.

Any costs for Repairs shall be separately billed or surcharged and paid by CLIENT. If the CLIENT lacks other available funds to pay for the Repairs above the Damage Amount, CONTRACTOR shall not be obligated to make any such Repairs and all related KPIs and their associated penalties shall be temporarily suspended and unenforceable until such other funds are made available.

CLIENT acknowledges that it shall receive and take title to any repaired or replaced parts of the System described under this Section upon completion of installation, inspection and acceptance.

2.3.3 Incident Report

In cases of System damage, outage or malfunction caused by a third party or act of God, CONTRACTOR shall administratively manage the matter as follows.

Once the damage, outage or malfunction is observed or reported, CONTRACTOR shall:

- secure the concerned part of the System;
- make reasonable efforts to identify the third party at fault, if any;
- make reasonable efforts to collect information and document the incident (driver information, contact information, police report number, etc.);
- assist, if applicable, with assessment activities.

CONTRACTOR shall generate a report of each incident and provide it to CLIENT.

2.4 Emergency Response

As part of the Services Payment, CONTRACTOR shall maintain on-call field personnel who are operational 24 hours per day, 365 days per year. On-call technicians shall have the authority to take initiatives and make decisions in emergency situations. On-call technicians shall have all necessary tools and plans (keys, operating diagrams, city on-call numbers, etc.) at their disposal to make the conditions safe and/or re-establish the System elements within the response times defined in Appendix 3A, "Services Performance Objectives and Penalties" to this Schedule.

Emergency response scenarios include:

- Those caused by outside influences, presenting an immediate danger to the public, such as a vehicle striking a pole or downed wires;
- Those caused by faulty System elements, such as a faulty cable or bad splice causing a mass outage; and
- Those that would not normally be deemed an emergency but for extenuating circumstances, such as a "light out" in an already under-lit area or a missing base door on a pole in close proximity to a school or day care center.

In the event of the first type of emergency, such as a pole down, CONTRACTOR shall secure the area, the extent of the damage shall be surveyed, and a report shall be generated recommending the next course of action. The appropriate action will then be placed on the schedule for Repairs.

In the event of the second type of emergency, such as faulty System equipment or infrastructure, CONTRACTOR shall visit the site immediately to do a visual inspection of the area. His/her observations shall then be relayed to the appropriate teams in order to expedite the Repair or Unscheduled Maintenance.
In the event of the third type of emergency, a CONTRACTOR shall direct a team to the site to affect immediate Repairs or Unscheduled Maintenance actions.

In each case, if the damage is due to a third party or act of God, CONTRACTOR shall take pictures and generate a report that includes all of the pertinent information (driver information, contact information, police report number, etc.) in accordance with Section 2.3.3 of this Schedule. The report shall be sent to CLIENT.

2.5 Centralized Maintenance Management Software (CMMS)

During the Services Phase, CONTRACTOR will use its Computerized Maintenance Management System ("CMMS"), to monitor the entire scope of the System and Artistic Lighting installations. CLIENT shall have access to CMMS database, which shall be updated on a real-time basis.

CMMS shall provide the following:

- The System asset data (database, cartography, condition of the System assets, photo, description of Artistic Lighting sites)
- The current maintenance data (tickets, work orders, feedback, response time)
- The rate energy consumptions data (wattage, control)

The CONTRACTOR will provide Client access to the CMMS records during the contract and upon contract termination will coordinate with CLIENT to allow continued access to the system or the data in the system.

2.5.1 CMMS: Daily Work Schedules

Throughout the Services Phase, CONTRACTOR shall implement CMMS in order to organize each team's daily work. CONTRACTOR shall implement the following process to prioritize and execute work schedules in response to outage reports:

- Step 1: An outage is reported by any source (Operating Center, CLIENT, etc.);
- Step 2: CONTRACTOR's management team prioritizes the reported outage and distributes it to the appropriate maintenance team using CMMS's advanced prioritization functionalities;
- Step 3: CMMS electronically sends work order to maintenance team;
- Step 4: The maintenance team completes repair / maintenance work and submits completion report to the central CMMS server;
- Step 5: The management team checks the job and automatically updates the CMMS asset database.

All actions shall be recorded and stored in the CMMS, establishing a record of maintenance for each asset and a detailed history of each work order.

2.5.2 CMMS: Performance Monitoring

During the Services Phase, CONTRACTOR will use CMMS to measure the timeline of the maintenance and repairs as well as the performance of the System. All System changes, including poles and fixture types and/or LED kits, shall be updated in CMMS on a regular basis to reflect the new field conditions.

2.6 Operating Center

CONTRACTOR shall continue to operate throughout the Services Phase the Operating Center established in the Works Phase.

Responsibilities of Operating Center personnel shall continue to include:

- Streetlight monitoring
- Emergency response
- Repairs and upgrades monitoring
- Communication and reporting between the field teams, headquarters, and the CLIENT

2.7 Waste Management and Recycling

Recycling management processes shall be integrated throughout CONTRACTOR's day- to-day operation (ISO 9001-14001). CONTRACTOR shall procure and/or maintain the appropriate recycling and disposal facilities.

ARTICLE 3: SERVICES PHASE SYSTEM REPORTS

3.1 Monthly Reports

CONTRACTOR shall provide a monthly report of the operations and maintenance activities for the preceding month, including the KPI values, within seven (7) Business Days after the conclusion of each calendar month.

3.2 System Annual Performance Report

CONTRACTOR shall provide an Annual Performance Report of the System's operating results for each Annual Period, which shall detail the achieved Energy Savings and the Services objectives of the System. The Annual Performance Report will be provided to CLIENT for review and acceptance within thirty (30) days after the close of each Annual Period.

ARTICLE 4: SMART CITY INSTRUMENTS AND ARTISTIC LIGHTING OPERATION AND MAINTENANCE

CONTRACTOR shall maintain the Artistic Lighting installations and Smart City Instruments in a fully operable and functional condition throughout the Services Phase. Any repairs or replacement of Artistic Lighting installations and Smart City Instruments shall be authorized in writing by the CLIENT and separately billed or surcharged to CLIENT on a time and materials basis and paid by CLIENT. If the CLIENT does not have other available funds to pay for the repair or replacement of Artistic Lighting installation and Smart City Instruments, CONTRACTOR shall not be obligated to make such repairs and all related KPIs and their associated penalties shall be temporarily suspended and unenforceable until such other funds are made available.

Any maintenance activities performed on the Artistic Lighting installations and Smart City Instruments shall be included in the monthly report described above.

ARTICLE 5: SERVICES PHASE PENALTIES, SITE VISITS AND STATUS MEETINGS

5.1 Penalties

In fulfilling its obligations as detailed hereunder, CONTRACTOR shall be subject to the Services Performance Objectives, as defined in Appendix 3A of this Schedule, "Services Performance Objectives and Penalties ". In the interest of both Parties, penalty metrics based on performance indicators are established in Appendix 3A of this Schedule as basis to measure the Services Performance Objectives.

Non-compliance with the Services Performance Objectives shall result in the application of penalties, as defined in the Appendix 3A of this Schedule, except where the non-compliance was caused by, wholly or partially, a Supervening Event or accidents, acts of vandalism or malfunction of the System due to actions not attributable to CONTRACTOR.

The penalties, if any, are the sole remedy of the CLIENT under the Services Performance Objectives of this Schedule, except as provided for in Section 4.1.1 (e) of Appendix 3A.

5.2 Site Visits

Upon request and within a reasonable timeframe, the CLIENT Representative or his designee will be afforded the opportunity to visit and inspect the System during the Services Phase. A report summarizing the inspection will be provided to the CLIENT by the CONTRACTOR following the CLIENT'S inspection.

5.3 Status Meetings

Status meetings during the Services Phase will be held on a bi-weekly basis, and may be attended by all persons designated by the CLIENT and the CONTRACTOR. Meeting times and frequency will be modified upon CONTRACTOR or CLIENT mutual agreement. CONTRACTOR shall record and provide the CLIENT with the meeting minutes for each meeting.

ARTICLE 6: TECHNICAL MONITORING COMMITTEE; TECHNICAL ADVANCEMENTS

6.1 Technical Monitoring Committee

The CONTRACTOR commits to ensure ongoing technical monitoring in order to allow the CLIENT to benefit from Technological Advancements and to remain informed about changes in standards and regulations.

A Technical Watch Committee shall be created for this purpose. The Technical Watch Committee shall consist of an equal number of representatives from the CLIENT and from the CONTRACTOR and shall meet at the end of each Annual Period. The agenda of the meetings shall be established by the CONTRACTOR with the CLIENT's input. The purpose of these meetings shall be to inform the CLIENT about:

- potential Technological Advancements and their impact on the execution of the Agreement; and
- potential changes in any standards and regulations and about their impact on the performance of the Agreement.

6.2 Installation of Technological Advancements

CONTRACTOR shall develop a technical and financial analysis for any Technological Advancements the CLIENT requests implemented. The technical and financial analysis shall include a draft implementation and cost schedule for the installation of the Technological Advancements, as well as identify impacts the installation will have on the operating and maintenance costs of the System. Any installation of Technological Advancements shall be agreed to in writing by the Parties. The cost of the installation of any Technological Advancements will be entirely borne by the CLIENT.

The installation of Technological Advancements may have a positive or negative impact on Energy Savings and the costs of Services. Any adjustments whether in the form of savings or increased costs will be reflected in the Services Payments. If the installation of Technological Advancements causes a Material Change in the System, then the Performance Guarantee shall be adjusted in accordance with Article 5 of the Main Body of this Agreement.

ARTICLE 7: ADDITIONAL STREET LIGHTS, ARTISTIC LIGHTING AND SMART CITY PROJECTS

7.1 Addition of Street Lights to System

Upon mutual written agreement executed by both the Parties, CLIENT may request and CONTRACTOR will install and/or provide Services for additional street lights that were not part of the System on the Acceptance Date. CLIENT will provide official documents detailing the number and the nature of the additional street lights, and all other related documentation and drawings. The remuneration for the construction and installation of any additional street lights shall be agreed to by the Parties and shall be separately billed or surcharged to the CLIENT. Adjustments to the Service Payments for Services rendered for any additional street lights will be made in accordance with Section 1.1.2 of Schedule 4.

Any additional street lights integrated into the System after the Acceptance Date will be considered a Material Change to the System. The Parties shall modify the Performance Baseline and Services Performance Measures Objectives to account for the Material Change without resulting in a Savings Shortfall or penalties.

7.2 Additional Artistic Lighting and Smart City Projects

Upon mutual written agreement that is executed by both Parties, CLIENT and CONTRACTOR may modify this Agreement for the provision of additional artistic lighting projects and/or smart city installations to be provided during the Services Phase. The modification shall specify the agreed upon terms and conditions for any additional artistic lighting projects and/or smart city installations.

7.3 Additional Funding Sources

By execution of this Agreement, the CLIENT, without any further approvals needed, has been duly authorized by its respective authorities to use (but is not required to use) additional savings and additional funding sources derived herein and from ancillary engagements to fund the construction and maintenance of additional street lights, artistic lighting and smart city projects.

APPENDIX 3A TO SCHEDULE 3 - Services Performance Objectives and Penalties

The Services Performance Objectives and Penalties for the System are detailed below. Sections 1 and 2 describe the System's Key Performance Indicators (KPIs) that will be measured and evaluated during the Services Phase and serve as CONTRACTOR's performance metrics for the System during the Services Phase. Sections 1 and 2 below describe each KPI that will be measured and provide the respective formula used during the Agreement to calculate the KPIs. Section 3, below, details CONTRACTOR's commitments for each KPI, which will be measured in accordance with Section 1 and 2. Section 4, below, depicts the penalties applied to each commitment.

The below KPIs apply only to the System. The below KPIs do not apply to the Artistic Lighting installations or Smart City Instruments.

1. Energy Savings: System Performance Guarantee KPI

1.1 System Guaranteed Annual Savings (Ke)

Guaranteed Annual Savings reflects the annual savings in kWh that CONTRACTOR commits to under the Performance Guarantee. Guaranteed Annual Savings is the difference in kWh between the System Baseline and the Performance Baseline over an Annual Period. CONTRACTOR commits to achieving the Guaranteed Annual Savings during the Performance Guarantee Period. The Guaranteed Annual Savings commitment is reconciled through the calculation of the Annual Realized Savings for an Annual Period and comparing that result to the Guaranteed Annual Savings for the corresponding Annual Period, pursuant Section 1.2 of this Appendix 3A, below.

In accordance with the M&V Plan, CONTRACTOR shall calculate Annual Realized Savings by taking the difference in kWh between the actual energy consumption of the System and the System Baseline for the respective Annual Period. The commitment in terms of Guaranteed Annual Savings is set forth below:

The KPI associated to the Guaranteed Annual Savings (Ke) is calculated as follow:

$$Ke = K_{sb} – K_{pb}$$

Where:

Ke = 2,234,042 kWh per Annual Period
Ksb = 3,955,572 kWh per Annual Period
Kpb= 1,721,530 kWh per Annual Period

And

$$K_{sb} – K_{sb\ metered} + K_{sb\ unmetered}$$

Where:

K_{sb} = System Baseline: Total consumption in kWh for an Annual Period prior to Works, the sum of metered and unmetered lights.

$K_{sb\ metered}$ = Total measured kWh usage of metered street lights in the System Baseline for an Annual Period, as measured and billed by Public Service Company of New Mexico

$K_{sb\ unmetered}$ = Total expected kWh usage of unmetered street lights in the System Baseline for an Annual period, as defined by the corresponding "Monthly kWh Usage" (multiplied by 12) in the Implementation Plan for each streetlight in the inventory.

And

$$K_{pb} – K_{pb\ metered} + K_{pb\ unmetered}$$

Where:

K_{pb} = Performance Baseline: Total consumption in kWh for Annual Period after completion of Works, the sum of metered and unmetered lights.

$K_{pb\ metered}$ = Total measured kWh usage of metered street lights in Performance Baseline for an Annual Period, as measured and billed by Public Service Company of New Mexico.

$K_{pb\ unmetered}$ = Total expected kWh usage of unmetered street lights in the Performance Baseline for an Annual period, as defined by the corresponding "Monthly kWh Usage" (multiplied by 12) defined in PNM Rate 20 for each streetlight in the to-date CMMS defined inventory.

1.2 Performance Assurance Reconciliation

A Performance Guarantee Period savings reconciliation will be performed at the end of each Annual Period as follows unless otherwise agreed:

a. At the conclusion of each Annual Period, CONTRACTOR will calculate the System's Annual Realized Savings and compare the result to the Guaranteed Annual Savings for the corresponding Annual Period.

   I. Should the Annual Realized Savings be greater than the Guaranteed Annual Savings for the corresponding Annual Period, a Savings Excess shall be recorded accordingly and be available for other work under this agreement.
   II. Should the Annual Realized Savings be less than the Guaranteed Annual Savings, a Savings Shortfall shall be recorded and paid in accordance with the terms below and Section 4.1.2 of this Appendix 3A.

b. Within sixty (60) days following issuance and acceptance by CLIENT of the Annual Performance Report for the corresponding Annual Period, CONTRACTOR shall pay to CLIENT the Savings Shortfall, if any, identified in the Annual Performance Report and shall have fulfilled its obligations under the Performance Guarantee for the applicable Annual Period and the Shortfall Payment being then equal to the Guaranteed Annual Savings for the applicable Annual Period.

c. The payments and credits based on Savings Shortfalls, if any, are the sole remedy of CLIENT under this Performance Guarantee; provided, however, if the Penalties Cap is exceeded, CLIENT shall have the right to terminate the Agreement pursuant to Section 9.1 (b) (1) of the Main Body of the Agreement.

2. System Operations and Maintenance KPIs

CONTRACTOR will operate and maintain the System throughout the Services Phase of the Agreement, subject to the penalties for the below KPIs.

2.1 Accuracy of CMMS Database (Km)

During Services Phase, CONTRACTOR will implement its CMMS software to monitor the assets. Through the software, CLIENT will be able to monitor CONTRACTOR's performance objectives (KPIs) and CONTRACTOR'S contractual commitments. The KPI for the accuracy of the CMMS database reflects CONTRACTOR's commitment to providing accurate and timely data inputs for System monitoring. CONTRACTOR commits to a 97% accuracy rate for a given month. The following formula shall be used to calculate the Accuracy of CMMS Database (Km):

$$Km = 1 - \frac{D}{S}$$

With:

D =	Number of major discrepancies in CMMS CLIENT has notified CONTRACTOR of during the respective month (except additional assets or changes CLIENT has not communicated to CONTRACTOR)
S =	Number of street lights existing in the inventory during the month

2.2 Outage rate (Ko)

CONTRACTOR will measure the number of street light outages that occur each month. This KPI measures the Scheduled Maintenance program's efficiency in proactively servicing the System to prevent outages.

CONTRACTOR commits to a less than 2% outage rate for existing inventory for the respective month. The KPI associated with the monthly outage rate is calculated as follows:

$$Ko = \frac{P}{S}$$

With:

P =	Number of outages during the month
S =	Number of street lights existing in the inventory during the month

Notwithstanding the foregoing, outages caused by CLIENT or third-party actions, whether construction or otherwise, accidents, vandalism, or CLIENT's decision to turnoff or shutdown the System or any part thereof for any reason will not be included in the outage rate measurement.

2.3 Availability of the Assets (Ka)

The KPI for the availability of the assets (Ka) measures the average percentage of time that the System is operating on a monthly basis. For this KPI, CONTRACTOR reviews each street light individually to calculate the number of days that each street light is operating and functioning within the respective month. The KPI associated with the monthly availability of the assets is calculated as follow:

$$Ka = \frac{\sum_i^N (\frac{d_i}{D_m})}{N}$$

With:

N =	The number of fixtures existing in the inventory for the month (i.e. the total number of street lights less accepted or scheduled outages)
D_m =	Days in the given month
d_i =	Days that the given fixture (i) was out during the month
Ka =	The average amount of time all fixtures were out each month (calculated on an individual basis)

The operational or functional status of streetlight for the terms of calculating this KPI does not include malfunctions or operational issues caused by CLIENT or third-party actions, whether construction or otherwise, accidents, vandalism, or CLIENT'S decision to turnoff or shutdown the System or any part thereof for any reason.

CONTRACTOR commits to Ka meets or exceeds 98%.

2.4 Self-detection (Ks)

Self-detection of outages reflects CONTRACTOR's commitment to proactively monitor the System. Through its self-detection program, CONTRACTOR monitors the System in order to proactively locate and repair outages. CONTRACTOR commits that it will self-detect at least 75% of the outages inputted into CMMS in a given month. The KPI associated for the monthly self-detection rate is calculated as follow:

$$Ks = \frac{NOC}{P}$$

With:

NOC =	Number of outages CONTRACTOR detects in a month
P =	Total number of inputted outages in a month (which includes CLIENT's and third party reported detections)

2.5 Emergency Response time I Delay of Unscheduled Maintenance or Repairs

Under the below subsections, CONTRACTOR commits to intervene in cases of outages, malfunctions or damages to the System in order to:

- Secure the installation in emergencies, if necessary
- Proceed with the repairs within the response times

Notwithstanding anything herein, if CONTRACTOR is required to obtain approval from CLIENT or permit for maintenance of traffic (MOT) or if the malfunction or outage is inaccessible due to no fault of CONTRACTOR or if materials need to be procured, CONTRACTOR shall diligently work to obtain the requisite approval, permits, access and/or materials and shall be allotted a reasonable amount additional time to meet the KPI commitments set forth below.

2.5.1 Emergency Response time (Kt)

In cases of System outage, malfunction or damage that are a public safety concern as set forth in Section 2.4 of Schedule 3, CONTRACTOR commits to respond to the outage, malfunction or damage within three (3) hours of the detection or notice. CONTRACTOR commits to be at the location of the outage, malfunction or damage and to commence the necessary actions to secure the site within the stated timeframe. The KPI associated with the emergency response time (Kt) is calculated as follow:

- From the detection of the street light outage or damage that is a public safety concern by CONTRACTOR or receipt of an email/fax/call from authorized person(s) (CLIENT, police, firemen, or other persons designated by CLIENT and CONTRACTOR is on notice of)

- And shall continue until CONTRACTOR is onsite to secure the installation.

This KPI is calculated only for the cases where the installation must be secured in CONTRACTOR's professional judgment. If simultaneous street light outages or damages occur that are of a public safety concern, Kt penalty metric shall only apply to the first received report. CONTRACTOR shall respond to subsequent reported emergencies in order of priority and/or receipt.

2.5.2 Delay of Unscheduled Maintenance or Repairs (Kd1, Kd2, Kd3)

Kd_1 and Kd_2 In cases of street light outages caused by or related to the Equipment malfunction only, CONTRACTOR commits to repair the outage within the timeframes described below for Kd_1 and Kd_2. The metrics used to determine compliance with delay of Unscheduled Maintenance or Repairs for Kd_1 and Kd_2 shall be calculated as follows:

- From the detection of the Equipment malfunction by CONTRACTOR or receipt of an email/fax/call from authorized person(s) (CLIENT or other persons designated by the CLIENT and CONTRACTOR is on notice of)

- And shall continue until CONTRACTOR repairs outage.

Commitments for the Delay of Unscheduled Maintenance or Repairs for Kd_1 and Kd_2 are as follows:

- The KPI for Kd_1 shall apply for single street light outage or malfunction. CONTRACTOR commits to repair a single outage or malfunction within 5 business days of detection or notice.
- The KPI for Kd_2 shall apply when more than three (3) street lights in a row are out or malfunctioning. CONTRACTOR commits to repair such outages within 2 business days of detection or notice.

Kd_3. In cases of street light outages caused by or related to damage to the poles, arms or foundations, CONTRACTOR commits to repair the outage within the timeframes described below for Kd3.The metrics used to determine compliance with delay of Unscheduled Maintenance or Repairs commitments for Kd3 shall be calculated as follows:

- From the detection of the outage by the CONTRACTOR or receipt of an email/fax/call from authorized person(s) (CLIENT or other persons designated by the CLIENT and CONTRACTOR is on notice of)

- And shall continue until CONTRACTOR repairs outage.

Commitments for the Delay of Unscheduled Maintenance or Repairs for Kd_3 is as follows:

- For KPI for Kd_3, CONTRACTOR commits to repair the outage within 6 weeks.

2.6 Monthly Reports (Kq)

CONTRACTOR shall provide a monthly report of its operations and maintenance activities for the preceding month, including the KPI values, within seven (7) Business Days after the conclusion of each calendar month.

2.7 Lighting Performance (Kip)

During the Services Phase, CONTRACTOR shall randomly measure 1 % System's Infrastructure each Annual Period to assess the System's lighting performance compliance with the IESNA Guide for Photometric Measurement of Roadway Lighting Installations. CONTRACTOR will measure the lighting performance of the sampled lights to determine compliance with the illuminance standards set forth in the IESNA Guide for Photometric Measurement of Roadway Lighting Installations for the respective roadway.

CONTRACTOR commits to achieving 100% compliance for lighting performance in the sampled street lights, considering the space-to-mounting ratio is between 3 and 5. Calculations to determine compliance with lighting performance commitment shall be based on the below formula:

The KPI associated with the lighting performance is calculated as follow:

Considering: $3 \leq \frac{S}{MH} \leq 5$

$$Klp = \frac{I + (E_{avg}/E_{min})}{I_0 + (E_{avg0}/E_{min0})}$$

With:

S/MH =	Spacing-to-mounting height ratio, ratio of the distance between luminaires centers, along the center line of the street, to the mounting height above the roadway
I =	Average measured Illuminance (Lux)
I_0 =	IES reference value for the considered type of configuration (see tab below)
E_{avg} =	Minimum maintained average horizontal illuminance at pavement
$E_{avg}0$ =	IES reference value for the minimum maintained average horizontal illuminance at pavement (see tab below)
E_{min} =	Minimum maintained horizontal illuminance at pavement
$E_{min}0$ =	IES reference value for the minimum maintained horizontal illuminance at pavement (see tab below)

Road Type	Average Illuminance Level	Eavg0/ Emin0
Urban Local	7	6
Collector	9	4
Major	13	3
Freeway B	6	3

As budget allows, Client will prioritize addition of light fixtures. If directed, Contractor will install additional fixtures pursuant to Schedule 3 Article 7.1.

2.8 Average Installed Wattage (Kw)

The average installed wattage (Kw) reflects the total wattage of the System upon completion of the Works. Maintenance of the averaged installed wattage at a consistent rate throughout Agreement plays an important role in maintaining Energy Savings and lighting performance. The average installed wattage metric reflects CONTRACTOR's commitment to repairing and/or replacing street lights with infrastructure that is consistent with the System's wattage output after Acceptance. CONTRACTOR's commitment for average installed wattage (Kw) is 96 Watts which shall be measured in accordance with the below KPI formula Kw. The KPI Kw shall be calculated on an annual basis and included in the Annual Performance Report.

$$Kw = \frac{W}{S}$$

With:

W =	Total Wattage after Acceptance of Works
S =	Number of street lights taken into account during the Annual Period

3. KPI Table

Category	Sub-Category	Designation	Commitment	Unit	Periodicity
Energy	Consumptions	Ke - Guaranteed Annual Savings	2,234,042	kWh	Each Annual Period
Operations & Maintenance	Operations & Maintenance	Km - Accuracy of CMMS database	97%	% of assets	Monthly
	Maintenance	Ko - Outage rate	Less than 2%	% of assets	Monthly
	Maintenance	Ka - Availability of the assets	More than 98%	% of assets	Monthly
	Operations	Ks - Self-detection	More than 75%	% of tickets	Monthly
	Operations	Kt - Emergency Response time	3 hours	Hour	Per Occurrence
	Operations	Kd_1 - Delay of Unscheduled Maintenance or Repairs- single SL*	5 business days	Business Day	Per Occurrence
	Operations	Kd_2 - Delay of Unscheduled Maintenance or Repairs - more than 3 SL* in a row	2 business days	Business Day	Per Occurrence
	Operations	Kd_3 - Delay of Unscheduled Maintenance or Repairs - Poles, Arms and Foundation	6 Weeks	Business Week	Per Occurrence
	Operations	Kq - Monthly Report	one report	Report	Monthly
	Operations	Kip - Lighting Performance	100 %	% of IES standard values	Each Annual Period
	Operations	Kw - Average Installed Wattage	99 W	W	Each Annual Period

*SL = Street Light

4. Performance Penalties

4.1 Penalties

4.1.1 General Conditions

a. CMMS. CMMS shall be platform used to verify compliance with Operation and Maintenance commitments for the penalties hereunder (except for the KPI for lighting performance which will be reconciled in a separate report).

b. Savings Shortfalls. Any Saving Shortfalls will be reconciled on an annual basis in accordance with the terms and conditions of Section 1.1 and 1.2 of this Appendix 3A.

c. O&M Penalties: Notice. If CLIENT observes any delay, lack of performance or other failures of CONTRACTOR to achieve its KPI commitments which are not then properly documented and reflected in CMMS or in the lighting performance report, CLIENT shall notify CONTRACTOR at the next status meeting of the observed occurrence or deficiency. Upon receipt of the notification, CONTRACTOR shall have ten (10) Business Days to notify CLIENT in writing whether CONTRACTOR disputes CLIENT's claim. If CONTRACTOR disputes the penalty notification, then CONTRACTOR and CLIENT shall set a meeting within twenty (20) days to review CLIENT's penalty claim. If CONTRACTOR does not dispute the claim, CONTRACTOR shall reduce the CLIENT's next monthly invoice by the appropriate penalty amount. Notwithstanding the foregoing, the CONTRACTOR shall timely notify the CLIENT of any KPI penalties CONTRACTOR identifies.

d. Application of O&M Penalties. The penalties apply on the monthly Services Payments only. No penalties will apply on Works Payments.

e. Service Payment Setoff. If CONTRACTOR incurs monthly KPI penalties that amount to more than seventy-five percent (75%) of the amount of the monthly Service Payment in three (3) consecutive months, then CLIENT, without being in default hereunder, has the right to withhold or setoff the next month's Service Payment and every months' Service Payment thereafter until CONTRACTOR's monthly penalties for a subsequent month are less than seventy-five percent (75%) of the amount for that subsequent month's Services Payment amount. CLIENT shall be obligated to pay the CONTRACTOR any setoff or withheld Service Payment amount, less any penalties, upon a subsequent month's penalty amount being less than seventy-five percent (75%) of that month's Service Payment amount.

f. Penalties Cap. The Parties agree that cumulative amount of all Savings Shortfall and O&M penalty payments made to CLIENT or deducted from the Services Payments under the terms of this Agreement shall not exceed $100,000.00 ("Penalties Cap"). CONTRACTOR shall have no obligation to pay or deduct any penalties or shortfall amounts above the Penalties Cap. Notwithstanding Section 9.1 (b) (1) (i) in the Main Body of the Agreement, CLIENT shall have the right to terminate the Agreement pursuant to Section 9.1 (b) (1) in the Main Body of the Agreement, subject to the applicable Termination Payment, if cumulative amount of all Savings Shortfall and O&M penalty payments equals or exceeds Penalties Cap.

g. Supervening Event: CLIENT Breach of Obligation. All penalties stated herein under the Services Phase and the enforcement thereof shall be suspended during any Supervening Event or during any duration CLIENT is in breach of its obligations under this Agreement. The penalties will not be reinstituted until the cause of the event has been resolved and the System has been restored to its pre-event condition and/or CLIENT has cured any breach.

4.1.2 Energy: Savings Shortfall

If CONTRACTOR doesn't reach its commitments for an Annual Period for Ke, then a Savings Shortfall occurs and CONTRACTOR will reimburse the balance to CLIENT as described below and in accordance with the "Performance Assurance Reconciliation" described in Section 1 of this Appendix 3A.

KPI	KPI Value	Penalty Value (PE)
Guaranteed Annual Savings (Ke)	KeY ≥ Ke	-1.0 x AES

With:

Ke =	Contractual reference (see Section 3 above, KPI) (Guaranteed Annual Savings)
KeY =	Real value of the considered Annual Period (Annual Realized Savings)
AES =	Difference between the expected and real kWh (KeY-Ke) consumed multiplied by the Constant Energy Rate.

4.1.3 Operations and Maintenance

For each following KPI below, if CONTRACTOR fails to reach its commitments, the associated coefficient or amount will be applied to or deducted from the next month's Services Payment.

Monthly Measured O&M KPIs

KPI	KPI's Value	Penalties Coefficient (Pm)
Accuracy of CMMS Database (Km)	95% ≤ KmM < 99% 90% ≤ KmM < 95% 80% ≤ KmM < 90% 70% ≤ KmM < 80% KmM < 70%	0.99 0.95 0.90 0.75 0.60
KPI	KPI's Value	Penalties Coefficient (Po)
Outage Rate (Ko)	4% ≥ KoM > 2% 6% ≥ KoM > 4% 8% ≥ KoM > 6% KoM > 8%	0.97 0.90 0.75 0.60
KPI	KPI's Value	Penalties Coefficient (Pa)
Availability of Assets (Ka)	99% ≤ KaM < 99.5% 94 % ≤ KaM < 99% 90 % ≤ KaM < 94% KaM < 90%	0.97 0.90 0.75 0.60
KPI	KPI's Value	Penalties Coefficient (Ps)
Self-Detection (Ks)	70% ≤ KsM < 75% 60% ≤ KsM < 70% 50% ≤ KsM < 60% KsM < 50%	0.99 0.95 0.80 0.60

With:

KmM =	Value of the considered month
Pm =	Penalties coefficient applied on the corresponding monthly Services Payment
KoM =	Value of the considered month
Po =	Penalties coefficient applied on the corresponding monthly Services Payment
KaM =	Value of the considered month
Pa =	Penalties coefficient applied on the corresponding monthly Services Payment
KsM =	Value of the considered month
Ps =	Penalties coefficient applied on the corresponding monthly Services Payment

- Emergency Response Time (Kt): If CONTRACTOR fails to meet the designated Response times, Kt, in accordance with the terms of the Agreement, then CONTRACTOR shall be penalized $100.00 per hour for every hour CONTRACTOR's response time exceeds the established metric.

- Delay of Unscheduled Maintenance or Repairs--single street light (Kd1): If CONTRACTOR fails to meet the designated Unscheduled Maintenance or Repairs times under Kd1, then CONTRACTOR shall be penalized $100.00 per Business Day, until outage, malfunction or damage has been fixed.

- Delay of Unscheduled Maintenance or Repairs-more than 3 street lights in a row (Kd2): If CONTRACTOR fails to meet the designated Unscheduled Maintenance or Repairs times under Kd2 then CONTRACTOR shall be penalized $20.00 per hour, until outage, malfunction or damage has been fixed.

- Delay of Unscheduled Maintenance or Repairs-Poles, Arms and foundations (Kd3): If CONTRACTOR fails to meet the designated Unscheduled Maintenance or Repairs times under Kd3 then CONTRACTOR shall be penalized $100.00 per Business Day, until outage, malfunction or damage has been fixed.

- Monthly Report (Kq): If there is a delay in CONTRACTOR's submission the operation and maintenance monthly report, then CONTRACTOR shall be penalized $15.00 per Business Day, until the delivery of the report.

Annually Measured O&M KP/s

CONTRACTOR shall measure Kip and Kw once each Annual Period. If CONTRACTOR fails to reach its commitments for Kip in an Annual Period, then a penalty coefficient will be applied as set forth below.

KPI	KPI's Value	Penalties Coefficient (Plp)
Lighting Performance (Klp)	$90\% \leq Klp_y < 100\%$	0.99**
	$80\% \leq Klp_y < 90\%$	0.95**
	$70\% \leq Klp_y < 80\%$	0.85**
	$60\% \leq Klp_y < 70\%$	0.75**
	$Klp_y < 60\%$	0.60**

With:

Klp_y =	Value of the considered Annual Period
Plp =	Penalties coefficient applied on each corresponding monthly Services Payment thereafter until the Lighting Performance deficiency is corrected. **If the Lighting Performance deficiency is not related to CONTRACTOR's design or implementation of the Works (e.g. insufficient tree trimming, caused by third-party action, etc.), then the above penalty shall not apply. CONTRACTOR and CLIENT will jointly perform a new Lighting Performance measurement upon mitigation of deficiency.

If CONTRACTOR fails to reach its commitments for Kw in an Annual Period, then a penalty coefficient will be applied as described set forth below.

KPI	KPI's Value	Penalties Coefficient (Pw)
Average Installed Wattage (Kw)	Kw < KwY < 1.01 x Kw	0.99
	l.0l x Kw < KwY ≤ 1.03 x Kw	0.97
	1.03 x Kw < KwY ≤1.05 x K	0.90
	1.05 x Kw < KwY ≤1.10 x K	0.80
	1.10 x Kw < KwY	0.60

With:

Kw =	Contractual reference (see Section 3 above, KPI)
KwY =	Real value of the considered Annual Period
Pw =	Incentive coefficient applied on the preceding Annual Period's Services amount

4.2 Incentives - deleted

SCHEDULE 4: PAYMENT MECHANISM

1. Compensation

a. The City shall pay to the Contractor in full payment for services satisfactorily performed as described below:

1. LED Street Light Conversion:

The City shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work for the LED Street Light Conversion at the rate established by the Implementation Plan*")* in an amount not to exceed Two Million Five Hundred Forty-Three Thousand One Hundred and Ninety-Five Dollars ($2,543,195.00), excluding gross receipt tax. The New Mexico gross receipts tax levied on the amounts payable under this Agreement totaling ($214,582.10) shall be paid by the City to the Contractor. **The total amount payable to the Contractor under this paragraph of this Agreement, including gross receipts tax and expenses, shall not exceed ($2,757,777.10). This amount is a maximum and not a guarantee that the work assigned to be performed by Contractor under this Agreement shall equal the amount stated herein. The parties do not intend for the Contractor to continue to provide services without compensation when the total compensation amount is reached. Contractor is responsible for notifying the City when the services provided under this Agreement reach the total compensation amount. In no event will the Contractor be paid for services provided in excess of the total compensation amount without this Agreement being amended in writing prior to those services in excess of the total compensation amount being provided.**

2. Routine Street Light Maintenance:

The City shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work for Routine Street Light Maintenance (As Detailed in the Implementation Plan "A-3") the amount of One Hundred Seventy-Nine Thousand Seventy-Four Dollars and Sixty Cents ($179,074) per fiscal year excluding gross receipt tax. The New Mexico gross receipts tax levied on the amounts payable under this Agreement per fiscal year ($15,109.42) shall be paid by the City to the Contractor. The amount due shall be paid monthly in twelve equal payments. **The total amount payable to the Contractor under this paragraph of this Agreement, including gross receipts tax and expenses, shall not exceed ($194,184.02) per fiscal year. This amount is based upon 3,499 street lights in the Santa Fe system. These amounts may be adjusted to account for current inflation rates based on the Consumer Price Index (CPI) as established by the Bureau of Economic Analysis (BEA) of the United States Department of Commerce or increase or decrease in street light numbers. Any adjustments can be performed administratively at the time a Purchase Order is opened and/or amended and does not necessitate amendment to this agreement.**

3. Payment is subject to availability of funds pursuant to the Appropriations Paragraph in this agreement and to any negotiations between the parties from year to year pursuant to Scope of Work, and to approval by the City. All invoices MUST BE received by the City no later than thirty (30) days after the termination of the Fiscal Year in which the services were delivered. Invoices received after such date WILL NOT BE PAID.

   Contractor must submit a detailed statement accounting for all services performed and expenses incurred. If the City finds that the services are not acceptable, within thirty days after the date of receipt of written notice from the Contractor that payment is requested, it shall provide the Contractor a letter of exception explaining the defect or objection to the services, and outlining steps the Contractor may take to provide remedial action. Upon certification by the City that the services have been received and accepted, payment shall be tendered to the Contractor within thirty days after the date of acceptance. Payment shall be made by ACH. However, the City shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

1.1 Price Adjustments to Service Payments: CPI

Price adjustments will be made in accordance with the percentage change in the U.S. Department of Labor Consumer Price Index (CPI) for the Santa Fe area. The price adjustment rate will be determined by comparing the percentage difference between the CPI in effect for the base year six-month average (January through June 2017) and each January through June six month average thereafter. The percentage difference between those two CPI issues will be the price adjustment rate for the Services Payments, Unit Prices and other applicable pricing. The price adjustment rate shall be determined at the beginning of each Annual Period and applied thereafter.

1.2 Adjustment to Services Payments for Additional Street Lights

A fixed price of $5.00 per additional street light (with smart control) per month will be applied on Services Payments for each additional streetlight receiving Services pursuant to Article 7 of Schedule 3. Section 1.1.1 above shall apply to any adjustments to Services Payments for Services rendered to additional street lights.

2. Non-recourse Limitation; Unconditional Payment Obligation.

CLIENT'S acceptance of Works and Acceptance of any Segment of the Works is non-recourse and final. After the Acceptance of each Segment of the Works, the obligations of CLIENT to make Works Payments under this Agreement for the accepted Segments of the Works and to perform and observe the other covenants and agreements contained in this Agreement shall be absolute and unconditional in all events without abatement, diminution, deduction, set-off or defense, for any reason whatsoever.

3. Adjustments for Performance.

Penalties apply on the Services Payments only, in accordance with Schedule 2 and Schedule 3. Notwithstanding the foregoing, any Savings Shortfalls or Savings Excess will be accounted for in accordance with Appendix 3A to Schedule 3.

4. Services Payment and Works Payment Schedule

Price: As consideration of CONTRACTOR's performance of the Works and the Services as described in Schedule 2 (Technical Scope and Works) and Schedule 3 (Scope of Services), CLIENT shall pay to CONTRACTOR the amounts identified below which shall be invoiced on a monthly basis beginning on the Acceptance Date for the corresponding Segment of the Works for the Works Payments, and on Commencement Date for the Services Payments.

If the Acceptance of any Segment of the Works is delayed, the payment schedule for the Works Payments and Services Payments will be adjusted accordingly.

5. Payments.

CLIENT agrees it will make all amounts payable by CLIENT under or with respect to this Agreement within thirty (30) days of receipt of the invoice by electronic funds transfer of immediately available funds as directed in writing by CONTRACTOR.

CLIENT shall pay CONTRACTOR a charge on any payment not paid on the date such payment is due at the rate of six percent (6.00%) per annum or the maximum amount permitted by law, whichever is less, from such date.

If CLIENT disagrees with any portion of an invoice, it shall notify CONTRACTOR in writing of the amount in dispute and the reason for its disagreement within twenty-one (21) days of receipt of the invoice, and shall pay the portion not in dispute. If CLIENT fails to pay CONTRACTOR within thirty (30) days after receipt of an invoice, the CLIENT shall pay interest to CONTRACTOR beginning on the twenty-second day after payment was due, computed at rate per annum as set forth above.

SCHEDULE 5: ACCEPTANCE PROCEDURES

Project Commissioning

CONTRACTOR shall implement the Commissioning and Quality Assurance Plan in partnership with the CLIENT during the Works Phase. CONTRACTOR shall implement a rolling Works commissioning process. As quickly as lights are being installed, CONTRACTOR shall work with the CLIENT to get them certified and approved. This will be repeatable and fair for both Parties and allows the project to proceed with the utmost quality and speed.

Acceptance Procedures

In accordance with the Commissioning and Quality Assurance Plan, when CONTRACTOR believes that all, or an independent, definable phase or portion, of a Segment of the Works is substantially complete, CONTRACTOR will submit a certificate of substantial completion to CLIENT which shall be subject to the following:

a. If CLIENT concurs that the described Segment of the Works as performed is substantially complete, CLIENT will accept that Segment of the Works by signing a Certificate of Acceptance and returning it to CONTRACTOR;

b. If CLIENT does not concur that the Segment of the Works is substantially complete, then CLIENT shall notify CONTRACTOR within five (5) Business Days of any discrepancies;

c. To the extent CONTRACTOR does not dispute the discrepancies raised by CLIENT, CONTRACTOR shall correct the Works to conform to the description of the Work set forth herein, and resubmit the certificate of substantial completion to CLIENT;

d. If CONTRACTOR disagrees with the discrepancies raised by CLIENT, CONTRACTORS shall notify CLIENT of a dispute and such dispute shall be resolved in accordance with the dispute resolution provisions of the Agreement;

e. If the CLIENT Representative does not deliver written notice to CONTRACTORS within ten (10) Business Days of receiving the certificate of substantial completion, in the mutual interests of the Project proceeding in a timely manner, the Parties shall immediately refer the matter for determination in accordance with the applicable dispute resolution procedure as set forth herein.

To the extent that any Segment requires multiple certificates of substantial completion, the final non-recourse Certificate of Acceptance for each Segment shall determine the date on which the Acceptance Date of that Segment of the Works is achieved.

Certificate of Acceptance

The Final Segment of the Works has been measured against its acceptance criteria and deemed substantially complete, and is therefore formally accepted by the City of Santa Fe.

Logistics/Planning Phase

Dalkia has developed an upgrade plan and phasing schedule to complete the conversion of all 3,499 City-owned luminaires to LED technology within 6 months from project commencement. The upgrade plan was developed with consideration for the following factors:

- Improvement of the lighting performance and look and feel of the City
- Reduction of traffic and lane closure requirements by scheduling a majority of disruptive work overnight or during low volume periods

Equipment and Workforce

In order to complete the project within a six-month period from the project commencement, Dalkia anticipates the need for four-six field crews. Each crew will be composed of two workers: a Journeyman Electrician (EL-01J or EE-98J) and a ground man.

- Depending on the nature of work and location of poles, crews will be equipped with either forty-foot or sixty-five-foot bucket trucks for luminaire replacement, and derrick trucks will be available when pole replacement is necessary. Dalkia will run all operations out of a centrally located warehouse, where we will store equipment, vehicles, and the inventory upgrade materials.

The proposed six-month timeline is based on the following variables:

- 3,499 City-owned light points
- 4-6 teams, 12 light points upgraded per day per team
- 6-8 weeks of material lead time
- 4 months field work, 20 working days per month

These numbers are estimates based on Dalkia's performance commitment to conduct all upgrade tasks within six months, including for mobilization and material supply availability.

Santa Fe Contract Unit Prices
as of January 27, 2021
Revision as needed

Line	Item	Description	Unit	Road Type	Total	Road Type	Total
1	Fixture Installation: *Cobra head*	Installation of (1) LED cobra head. Price includes luminaire, photocell, rewiring, and labor.	EA	Residential	$342.26	Local	$462.89
2	Fixture Installation: *Cobra head*	Installation of (1) LED cobra head. Price includes luminaire, photocell, rewiring, and labor.	EA	Major/Highway		$607.65	
3	Arm Installtion: *6 ft or less*	Installation of (1) arm made of aluminum, steel or comparable material. Price includes labor and wiring.	EA	Pipe	$610.77	Davit	$1,016.00
4	Arm Installation: Greater than 6 ft	Installation of (1) arm made of aluminum, steel or comparable material. Price includes labor and wiring.	EA	Davit	$1,100.97	Twin Davit	$2,177.60
5	Pole Installation: Less than 25 ft	Installation of pole made of aluminum, steel, or comparable material. Price includes labor and wiring.	EA	Local		$2,484.36	
6	Pole Installation: 25 to 35 ft	Installation of pole made of aluminum, steel, or comparable material. Price includes labor and wiring.	EA	Local		$3,101.85	
7	Pole Installation: Greater than 35 ft	Installation of pole made of aluminum, steel, or comparable material. Price includes labor and wiring.	EA	Up to 45 ft	$3,911.12	Greater than 45 ft	$5,957.64
8	Pole Base: *18"*	Installation of an 18" pole base. Price includes base and labor	EA	All		$778.91	
9	Pole Base: *24"*	Installation of a 24" pole base. Price includes base and labor	EA	All		$942.31	
10	Wiring Material: *Copper Wire*	Underground Copper 10/2 UF Wire. Price per foot, material only.	FT	All		$1.12	
11	Wiring Material: *Aluminum Wire*	Underground Aluminum Triplex Wire. Price per foot, material only.	FT	All		$1.48	
12	Overhead Wiring Material: *Copper Wire*	Overhead #8 Copper THHN Wire. Overhead requires 2 wires per pole. Price per foot, material only.	FT	All		$0.45	
13	Overhead Wiring Material: *Aluminum Wire*	Overhead #4 ACSR Wire. Overhead requires 2 wires per pole. Price per foot, material only.	FT	All		$0.77	
14	Pole Installation: Reusable	Installation of a reusable pole. Price includes labor and wiring.	EA	All		$1,188.45	
15	Arm Installation: Reusable	Installation of a reusable arm. Price includes labor and wiring.	EA	All		$564.64	
16	Fixture Installation: Reusable	Installation of a reusable fixture. Price includes labor and wiring.	EA	All		$191.49	
18	Materials for Repair	Extra materials needed to complete works will be itemized and priced on an individual basis	EA	All		TBD	
17	General Labor	Hourly rate for an electrician team composed of 1 Journeyman, 1 Groundman, 1 bucket truck plus equipment. MoT not included.	HR	All		$174.48	
19	Excavation	Hourly rate for an electrician team composed of 1 Journeyman, 1 Groundman, 1 bucket truck plus mini excavator	HR	All		220.96	
20	Locating	Hourly rate for 1 technician, 1 vehicle, plus line locating machine	HR	All		204.48	
21	Boring	Boring w/2-2" dia conduit & 2-#2 triplex, does not include set up fee	FT	All		$27.69	
22	Troubleshooting	Hourly rate for a troubleshooting team composed of 1 Journeyman, 1 Groundman, 1 bucket truck. MoT not included.	HR	All		165.85	
23	Maintenance of Traffic	Traffic control comprised of 1 Groundman, 1 truck, 1 arrow board, and additional equipment for 1 hour.	HR	City	$89.17	DOT	$178.33
24	Labor for Smart Ready Controls	Hourly rate for a Smart Ready Control team composed of 1 Journeyman, 1 Groundman, 1 bucket truck plus	HR	All		$230.80	
25	IT Support	Hourly rate for technical support of Smart Ready Controls	HR	Basic	$126.00	Expert	$205.00

Deferred Maintenance

Budget

- $89k budgeted for deferred maintenance during Works Phase
- Priorities
  - Priority 1: Brittle/Damaged Wiring in Pole Infrastructure
  - Priority 2: Pole Components: Hand-hole covers, vandal deterrent banding

Action Plan (Planned Maintenance)

- Throughout the Works Phase, Dalkia will record detailed notes around future planned maintenance that falls outside of the plan for deferred maintenance
- Priorities
  - Log vandalism, damage to build plan for proposed maintenance
  - Allow city to properly budget for upcoming maintenance in the Service Phase

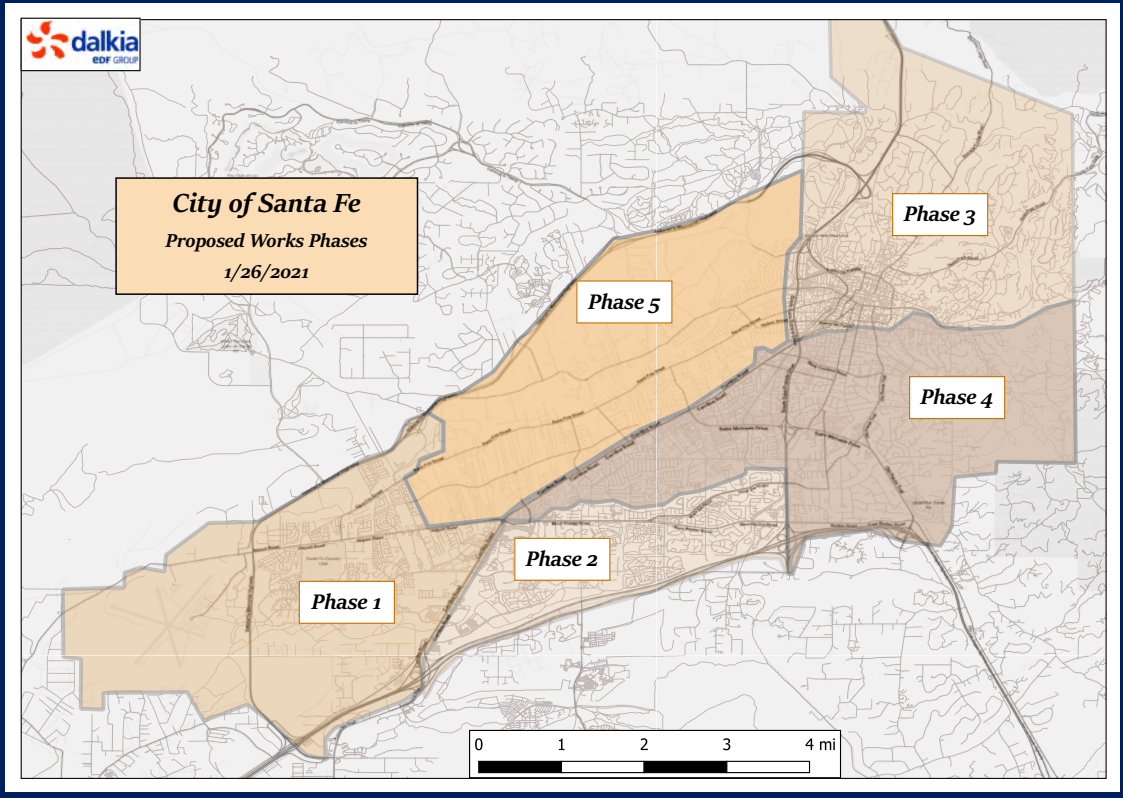
Comprehensive Install Plan/Mapping



Phased Install Approach

Phase 1/2 - South

Phase 3 - Downtown

Phase 4 - East

Phase 5 - North

Based on the priorities of the City of Santa Fe, Dalkia will implement the upgrade in phases to convert existing lighting to LED

Maintenance of Traffic (MoT)

Dalkia and its subcontractors will implement Maintenance of Traffic (MoT) procedures based on roadway type according to the following tiers:

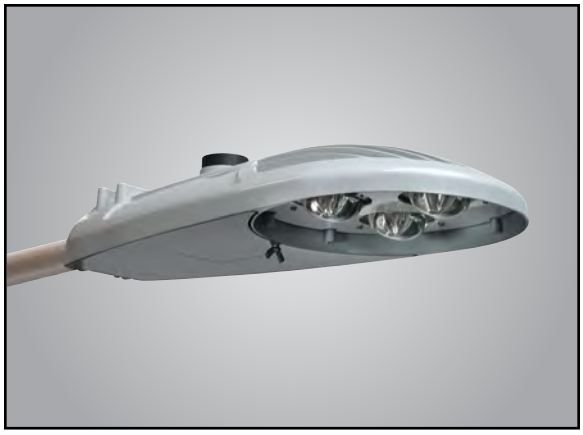
- Tier 1: Local/Residential; low traffic. Assumed that Curb Side Parking is allowed.
- Tier 2: Collector Roads; congested residential areas where street parking is limited and there is medium to occasionally high traffic
- Tier 3: Major/Arterial; medium to high traffic volumes and will require personnel with a Traffic Control Supervisor (TCS) Certification and a Mobile Utility Traffic Vehicle following the bucket truck.
- Tier 4: High traffic, congested areas, freeways, high traffic arterial, state highways. Will require personnel with TCS Certification and a Mobile Uniform Traffic Vehicle following the bucket truck.

ASSETS REQUIRING MOT DURING UPGRADE		
ROADWAY TYPE	MOT REQUIRED	
Local	NO	55% (Based on ABQ)
Local High	NO	
Collector Low	YES	45% (Based on ABQ)
Collector Medium	YES	
Collector High	YES	
Major Low	YES	
Major Medium	YES	
Major High	YES	
Ramp	YES	
Highway	YES	

Autobahn Series ATBM
Roadway

Consistent with LEED® goals & Green Globes™ criteria for light pollution reduction

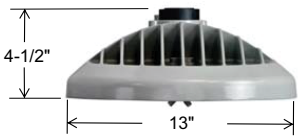
PRODUCT OVERVIEW

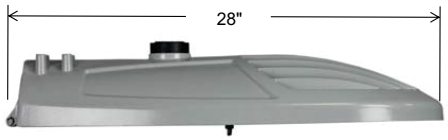


Applications:

Residential streets
Parking lots
High speed roadways

DIMENSIONS





Effective Projected Area (EPA)
The EPA for the ATBM is 0.3 sq. ft.,
Approx. Wt. = 21 lbs. (9.5 kg)

STANDARDS

Color temperatures of ≤ 3000K must be specified for International Dark-Sky Association certification.

Rated for -40°C to 40°C ambient
CSA Certified to U.S. and Canadian standards
Complies with ANSI: C136.2, C136.10, C136.14, C136.31, C136.15, C136.37

Features:

OPTICAL

Same Light: Performance is comparable to 150W – 250W HPS

White Light: Correlated color temperature - 4000K, 70 CRI minimum, 3000K, 70 CRI minimum or optional 5000K, 70 CRI minimum.

IP66 rated borosilicate glass optics ensure longevity and minimize dirt depreciation. Unique IP66 rated LED light engines provide 0% uplight and restrict backlight to within sidewalk depth, providing optimal application coverage and optimal pole spacing.

Available distributions are Type II, III, IV, & V roadway distributions.

ELECTRICAL

Expected Life: LED light engines are rated >100,000 hours at 25°C, L70. Electronic driver has an expected life of 100,000 hours at a 25°C ambient.

Lower Energy: Saves an expected 40-60% over comparable HID luminaires.

Robust Surge Protection: Standard surge protection is 20kV/10kA "Extreme Level" per ANSI C136.2. An optional MOV pack provides 10kV/5kA "Enhanced Level.

MECHANICAL

Includes standard AEL lineman-friendly features such as tool-less entry, 3 station terminal block and quick disconnects. Bubble level located inside the electrical compartment for easy leveling at installation.

Rugged die-cast aluminum housing and door are polyester powder-coated for durability and corrosion resistance. Rigorous five-stage pre-treating and painting process yields a finish that achieves a scribe creepage rating of 8 (per ASTM D1654) after over 5000 hours exposure to salt fog chamber (operated per ASTM B117).

Mast arm mount is adjustable for arms from 1-1/4" to 2" (1-5/8" to 2-3/8" O.D.) diameter. The 2 – bolt and optional 4 bolt clamping mechanism provide 3G vibration rating per ANSI C136.31.

The Wildlife shield is cast into the housing (not a separate piece).

CONTROLS

NEMA 3 pin photocontrol receptacle is standard, with the Acuity designed ANSI standard 7 pin receptacle optionally available.

Premium solid state locking-style photocontrol – PCSS (10 year rated life) Extreme long life solid state locking-style photocontrol – PCL1 (20 year rated life).

Extreme long life solid state locking-style photocontrol with on demand remote on/off control - PCCC (15 year rated life).

Optional onboard Adjustable Output module allows the light output and input wattage to be modified to meet site specific requirements, and also can allow a single fixture to be flexibly applied in many different applications.

Consistent with LEED® goals & Green Globes™ criteria for light pollution reduction

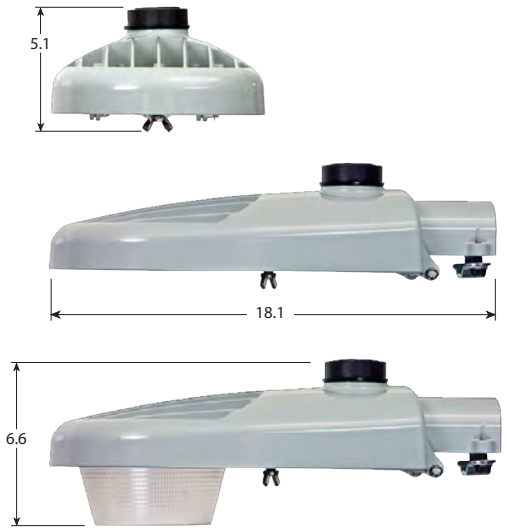
Autobahn Series ATBX
Roadway & Security Lighting

PRODUCT OVERVIEW

Applications:

Residential streets
Parking lots
General security lighting

DIMENSIONS



Effective Projected Area (EPA) The EPA for the ATBX is .26 sq. ft.
Approx. Wt. = 8lbs.

STANDARDS

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified.

Color temperatures of ≤ 3000K must be specified for International Dark-Sky Association certification.

Rated for -40°C to 40°C ambient
CSA Certified to U.S. and Canadian standards
Complies with ANSI: C136.2, C136.10, C136.14, C136.31, C136.15, C136.37

Features:

OPTICAL

Same Light: Performance is comparable to 50W – 150W HPS and up to 175W Mercury Vapor roadway and security lighting luminaires.

White Light: Correlated color temperature - 4000K, 70 CRI minimum, 3000K, 70 CRI minimum or optional 5000K, 70 CRI minimum.

IP66 rated borosilicate glass optics ensure longevity and minimize dirt depreciation. Unique IP66 rated LED light engines provide 0% uplight and restrict backlight to within sidewalk depth, providing optimal application coverage and optimal pole spacing.

Available distributions are Type II, III, IV, and V roadway distributions. When used with the optional acrylic refractor the unit provides approximately 10% uplight and increased vertical foot-candles

ELECTRICAL

Expected Life: LED light engines are rated >100,000 hours at 25°C, L70. Electronic driver has an expected life of 100,000 hours at a 25°C ambient.

Lower Energy: Saves an expected 40-60% over comparable HID luminaires.

Standard surge protection is 20kV/10kA "Extreme Level" per ANSI C136.2. An optional MOV pack provides 10kV/5kA "Enhanced Level.

MECHANICAL

Includes standard AEL lineman-friendly features such as tool-less entry, 3 station terminal block and quick disconnects. Bubble level located inside the electrical compartment for easy leveling at installation.

Rugged die-cast aluminum housing and door are polyester powder-coated for durability and corrosion resistance. Rigorous five-stage pre-treating and painting process yields a finish that achieves a scribe creepage rating of 8 (per ASTM D1654) after over 5000 hours exposure to salt fog chamber (operated per ASTM B117).

Mast arm mount is adjustable for arms from 1-1/4" to 2" (1-5/8" to 2-3/8" O.D.) diameter. The 2 – bolt clamping mechanism provides 3G vibration rating per ANSI C136.31.

CONTROLS

NEMA 3 pin photocontrol receptacle is standard, with the Acuity designed ANSI standard 7 pin receptacle optionally available.

Premium solid state locking-style photocontrol – PCSS (10 year rated life) Extreme long life solid state locking-style photocontrol – PCL1 (20 year rated life)

Optional onboard Adjustable Output module allows the light output and input wattage to be modified to meet site specific requirements, and also can allow a single fixture to be flexibly applied in many different applications.

Note: Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.

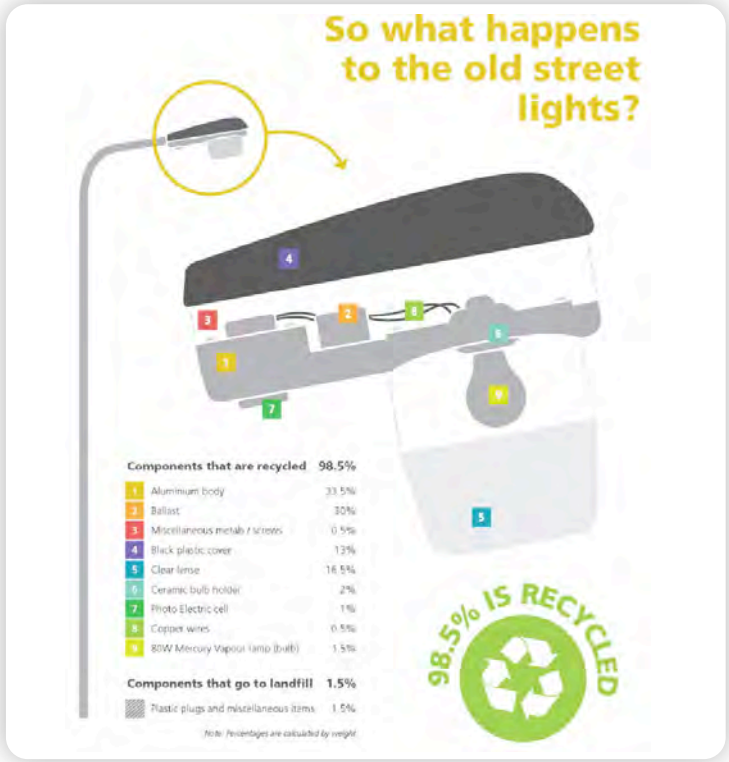
Project Recycling

Concurrent with the upgrade installations, Dalkia will dismantle and recycle all parts of the existing luminaires. Components that will be recycled include the fixture housing, lamp, ballast, and all internal wiring as shown in the image. Dalkia will work with the City of Santa Fe to properly dispose of recyclables with licensed local vendors.

Dalkia will provide recycling certificates for recycled components to the City of Santa Fe.



Community/Public Outreach

Dalkia will begin a process of public outreach. Methods of outreach could include a press release and a regularly updated webpage. The goals of this public outreach will be to:

1) Educate the Citizens of Albuquerque about the benefits of upgrading existing lamps to LED technology

2) Provide regular updates to the upgrade phasing schedule

a. Including neighborhoods and anticipated road closures

b. Significant road closures will be announced with additional press releases beyond publication on the website

3) Provide a means for public feedback and FAQs

4) Establish means for public communication post install

Commissioning/Acceptance of Work

Within forty-five (45) days of the Commencement Date, Dalkia will provide a written Commissioning and Quality Assurance Plan to include testing, inspection, and operational validation procedures. The Commissioning and Quality Assurance Plan will establish procedures for commissioning each Segment. Upon completion of a Segment of the Works Phase, Dalkia will commission the completed work in partnership with the City in accordance with the agreed upon plan. Key elements of this plan may include:

- Detailed micro-schedules to inform the City of Santa Fe and PNM of weekly activity and forecast of upcoming conversions.
- Coordinated inspections for Traffic Safety and Quality of Work.
- Formal transmittal of completed assets to the City of Santa Fe and PNM.
- Real-time data entry into Dalkia's CMMS system for tracking inventory and maintenance.
- Electronic transmission of asset conversion completion to PNM for billing rate changes.

Dalkia will run two concurrent processes of acceptance and commissioning. One with the City to validate completion of the works and hand off ownership, and one with PNM in order to commence billing under the LED tariff.

- The City will participate with Dalkia in the commissioning plan on a bi-weekly basis

Liberty Mutual Surety
175 Berkeley Street, Boston MA 02116

January 27, 2021

Re: Bonding Capacity for – Dalkia Energy Solutions, LLC
200 Cummings Center, Suite 177-C
Beverly, MA 01915

To whom it may concern:

It has been the privilege of Liberty Mutual Insurance Company to provide surety bonds for Dalkia Energy Solutions, LLC for many years. During that time they have completed and we have bonded various projects in size and scope. At present time, Liberty Mutual Insurance Company provides a $5,000,000 single/$20,000,000 aggregate surety program for Dalkia Energy Solutions, LLC.

This letter is not to be construed as an agreement to provide surety bonds for any particular project but is offered as an indication of Liberty Mutual Insurance Company's past experience and confidence in the firm. We reserve the right to review terms and conditions of any proposals, contract documents, bond forms, financial arrangements and other underwriting considerations at the time the contract is awarded. We assume no liability to third parties or to you if for any reason we do not execute the said bond.

Liberty Mutual Insurance Company is listed on the U.S. Treasury Departments list of acceptable sureties and is rated " A" by A.M. Best.

If you have any questions or need any additional information, please do not hesitate to contact me.

Sincerely,

Liberty Mutual Insurance Company

PUBLIC SERVICE COMPANY OF NEW MEXICO
ELECTRIC SERVICES

16TH REVISED RATE NO. 20
CANCELING 15TH REVISED RATE NO. 20

INTEGRATED SYSTEM STREETLIGHTING
AND FLOODLIGHTING SERVICE

APPLICABILITY: Applicable to any municipal corporation or other political subdivision within the State of New Mexico (for purposes of this Rate Schedule, "Customer") that receives service for streetlighting and floodlighting systems within all areas served by the company in New Mexico.

AVAILABILITY: Available within all areas served by the company in New Mexico.

A. Appendix A: Appendix A shall be a list of Company-owned LED streetlights that are operational substitutes for standard Mercury Vapor ("MV"), Low Pressure Sodium ("LPS") and High Pressure Sodium ("HPS") fixtures. Appendix A shall be publicly available on the Company's website and shall be updated periodically by the Company to reflect updates for operational substitutes currently available from suppliers.

B. Operational Substitute No. 1: Operational Substitute No. 1 shall be a Company-owned LED light identified in Appendix A to this tariff that is an operational substitute for the existing 175W MV, 55W LPS, 70W HPS and 100W HPS streetlight fixtures.

C. Operational Substitute No. 2: Operational Substitute No. 2 shall be a Company-owned LED light identified in Appendix A to this tariff that is an operational substitute for the existing 400W MV, 135W LPS, 200W HPS and 250W HPS streetlight fixtures.

D. Operational Substitute No. 3: Operational Substitute No. 3 shall be a Company-owned LED light identified in Appendix A to this tariff that is an operational substitute for a 400W HPS streetlight fixture.

MINIMUM CHARGE: Payment for lamps, standards, and lighting fixtures installed in accordance with the rates specified below.

TERMS OF PAYMENT: All bills are net and payable within twenty (20) days from the date of bill. If payment for any or all electric service rendered is not made within thirty (30) days from the date the bill is rendered, the Company shall apply an additional late payment charge as defined in Rate 16 Special Charges.

NET RATE PER MONTH OR PART THEREOF: The charge per month will be the sum of the applicable components of A, B, C, D, E, F and G. All monthly kWh listed for unmetered lighting assumes dusk-to-dawn operation at an average of 355.5 hours per month.

390.1	to	400.0	Watts	142.2	$ 28.49		$ 7.99

(1) Monthly kWh usage = Maximum Wattage in range x 355.5 hours per month / 1,000 Watts per kW.

For lights larger than 400W, the applicable usage and rate shall be the sum of the 390.1 - 400.0 Watts row in the table above plus a wattage range such that the resulting range encompasses the actual wattage of the light (Example: for a 600 Watt light, the applicable usage and charge is determined by adding the 390.1 – 400.0 Watts row and the 190.1 – 200.0 Watts row together, resulting in a 590.1 – 600.0 Watt Range with a monthly usage of 213.300 kWh.).

C.1 CUSTOMER OWNED AND MAINTAINED METERED LIGHTING: For Customer-owned metered lights (excluding B above) where maintenance is not provided by the Company and is not included in the monthly charge:

D. POLE CHARGE: For company owned lighting attached to a dedicated street lighting pole.

Description	Monthly Charge (Company Owned)
Wood Pole	$ 4.86
Non-Wood Pole	$ 9.45

E. FUEL AND PURCHASED POWER COST ADJUSTMENT: All kWh usage under this tariff will be subject to the Fuel and Purchase Power Cost Adjustment Clause ("FPPCAC") factors calculated according to the provisions in PNM's Rider 23.

The appropriate FPPCAC factors will be applied to all kWh appearing on bills rendered under this tariff.

F. OTHER APPLICABLE RIDERS: Any other PNM riders that may apply to this tariff shall be billed in accordance with the terms of those riders.

G. SPECIAL TAX AND ASSESSMENT ADJUSTMENT: Billings under this Schedule may be increased by an amount equal to the sum of the taxes payable under the Gross Receipts and Compensating Tax Act and of all other taxes, fees, or charges (exclusive of ad valorem, state and federal income taxes) payable by the utility and levied or assessed by any governmental authority on the public utility service rendered, or on the right or privilege of rendering the service, or on any object or event incidental to the rendition of the service.

SPECIAL CONDITIONS:

I. Installation and Ownership of Lighting Facilities:

a) Company Owned Lighting Facilities-
Upon request from the Customer, the Company shall convert or install Company owned streetlighting fixtures at its own expense up to the limits provided by the Installation Allowance Table below, with any remaining expenses being the responsibility of the Customer. All lighting facilities shall be and remain the property of the Company.

Non-Wood Pole	$ 1,010.00

b) Customer Owned Lighting Facilities-

i. The Customer shall be obligated to install its own streetlighting fixtures and poles at its own expense. The Company shall inspect and approve all Customer installed streetlighting prior to it being placed under this Rate.

ii. If requested by the Customer, poles or fixtures may be installed by the Company or an agent approved by the Company. Customer shall pay the Company for all installation costs of the facilities where such installation is done by the Company or the Company's agent.

iii. All facilities installed to provide electric service to customer owned streetlights under this tariff shall be and remain the property of the Company.

iv. The Customer is required to provide specific performance data on the total energy consumption of each non-standard fixture installed.

II. Highway Signs:

No service to or maintenance of highway signs connected to the lighting system is included under this schedule.

III. Changes and Additions:

Changes and Additions to already installed Company-owned or Customer-owned luminaries, poles, lights and fixtures (for purposes of this Rate Schedule, "Lights and Poles"):

A. Company-owned:

1. Except as otherwise provided by state regulation or law, the Customer shall pay all costs for:
   a. Any conversions of Company-owned Lights or Poles made at the request of the Customer, subject to the allowances set forth in this rate schedule; and
   b. Any move or relocation of Company-owned Lights and Poles, including but not limited to regrading, rerouting, improvement or widening, that is undertaken for aesthetic purposes.
2. Except as otherwise provided by state regulation or law, the Company shall include in its rates, all costs of:
   a. Repairs, fixture replacements or knock-down replacements of the Company's Lights and Poles that are necessitated by accidents, vandalism, projectiles, thefts or acts of nature.
   b. Mandatory replacement of or alterations to working luminaire to bring into compliance with changes in federal or state laws to serve the public health and safety.
   c. Any move or relocation of Company-owned Lights and Poles, including but not limited to regrading, rerouting, improvement or widening, that is undertaken by the Customer for reasons associated with municipal, county or other local improvement projects required in the interest of public health and safety. The Customer must inform the Company in writing that any move or relocation is being undertaken for public health and safety reasons.
      i. After written notification from the Customer, if the Company disputes that any move or relocation of Company-owned Lights and Poles benefits public health and safety, the Company shall be required to notify the Customer in writing within fourteen (14) business days.
      ii. If the Customer and the Company cannot reach agreement as to whether any support, disconnect, relocation or removal of Company- owned Lights and Poles benefits public health and safety, the Customer shall file an application with the NMPRC, requesting the NMPRC to determine if the public interest would be better served if the costs of such support, disconnect, relocation or removal should be deemed a cost of service item for the Company.

B. Customer-owned:

1. If requested by the Customer, Company agrees to make all repairs, alterations, fixture replacements or knock-downs replacements of Customer-owned Lights and Poles necessitated by accidents, vandalism, projectiles, thefts, acts of nature or existing or future laws or ordinances. The Customer shall pay all costs associated with such replacements.
2. Customer agrees to coordinate recovery efforts with Company in instances where Company has potential legal liability from claims of the parties responsible for Customer-owned Light and Pole damage.

The Company will, upon receipt of any information pertaining to the identity and circumstances of a knock-down or a copper theft associated with a Customer-owned Light or Pole, furnish to the customer a copy of that information.

IV. Operation and Maintenance:

A. Total Company-Owned System:
The Company will perform normal operation and maintenance of the lighting system which includes routine maintenance, repairs and fixture servicing including all spot lamp replacement required by faulty lamps.

Mandatory replacement of or alterations to working luminaire to bring them into compliance with existing or future laws or ordinances that are not otherwise specifically addressed by other provisions of this tariff will be performed by the Company at the expense of the customer.

It shall be the duty of the customer to report to the Company the failure of any lamp covered by the Rate to burn, or to burn adequately, and it shall thereafter be the obligation of the Company to at once restore such lamp to service subject, however, to the provisions of Special Conditions I, above and to subsequent provisions of this item as to replacements. Any lamp so reported as failing to burn, or to burn adequately, shall be replaced or repaired and returned to regular operation within seventy-two (72) hours from the time of notice of such failure to the Company. Pole hits and failures due to the loss of underground conductors or control equipment are excluded from the 72 hour requirement and shall be repaired as material availability and scheduling permits.

B. Total Customer-Owned System:
Page 1; Section A - "Light Charge (for unmetered lights where maintenance is provided by the Company and included in the Monthly Change": Maintenance under this section includes faulty photoelectric cell replacement, faulty lamp replacement, faulty fixture fuse replacement, and

incidental lens cleaning.

Page 2; Sections B - "Metered Series Street Lighting", and C - "Customer Owned and Maintained Lighting". Maintenance under these sections is the responsibility of the customer.

All other operation and maintenance, including traffic control costs and troubleshooting customer owned systems may be done by the Company at the request and expense of the customer. The Company will not stock maintenance items that are considered nonstandard by the Company for use in maintaining customer-owned lighting systems. Stocking of these nonstandard items is the sole responsibility of the customer.

V. Termination:

Service to any lamp installed hereunder shall be terminated by the Company upon receipt of thirty (30) days notice and coincident with such notice, payment of the Company's depreciated investment for any lamp and/or pole associated with the removal of any Company owned lighting facilities.

VI. In the event of a conflict between the terms of this rate schedule and any provision contained in the streetlighting contract in effect, the relevant terms of the rate schedule shall control.

GLOBAL MANAGEMENT PERFORMANCE CONTRACT

Between

CITY OF ALBUQUERQUE

and

CITELUM US, INC.

GLOBAL MANAGEMENT PERFORMANCE CONTRACT

THIS GLOBAL MANAGEMENT PERFORMANCE CONTRACT (together with the schedules, appendices and exhibits attached hereto, this "Agreement") is made this 28th day of September, 2017, ("Effective Date") by and between Citelum US, Inc. and its successors and permitted assigns ("CONTRACTOR") and the City of Albuquerque, a political subdivision of the State of New Mexico ("CLIENT"). (CONTRACTOR and CLIENT being sometimes referred to herein as a "Party" or collectively as the "Parties").

WITNESSETH

WHEREAS, CLIENT desires to engage CONTRACTOR to among other things: finance, install, operate and maintain certain high-efficiency Infrastructure (as defined herein) for the purpose of reducing energy consumption, increase Energy Savings (as defined herein), improve public and traffic safety, enhance economic development, and achieve other budget savings for the System (as defined herein); all of which shall be subject to the terms and conditions of this Agreement;

WHEREAS, CONTRACTOR provides technical, engineering, and physical infrastructure works and management performance services (to perform energy efficient, sustainable lighting system solutions on a global basis) and designs, installs and operates Artistic Lighting (as defined herein) and Smart City Instruments (as defined herein);

WHEREAS, CLIENT awarded CONTRACTOR the solicitation titled 'Evaluation and Implementation of Energy Efficiency and Reduced Maintenance on City Owned and Maintained Street Lighting' Request for Proposals: P201600023 ("Request for Proposal" or "RFP") and desires to activate Phase IV thereunder pursuant to this Agreement (the RFP and Phase I & II Deliverables of the RFP are incorporated herein by reference);

WHEREAS, CLIENT and CONTRACTOR seek to enter into this Agreement and set out the terms and conditions by which CONTRACTOR will finance, develop, install and construct, operate and maintain the Infrastructure and the System, develop and install Artistic Lighting and Smart City Instruments projects and provide the Works (as defined herein) and Services (as defined herein) for CLIENT; and

WHEREAS, the "Agreement for the Evaluation and Implementation of Energy Efficiency and Reduced Maintenance on City Owned and Maintained Street Lighting," executed on July 22, 2016, by and between CLIENT and CONTRACTOR is superseded and replaced by this Agreement.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, and intending to be legally bound hereby, CLIENT and CONTRACTOR hereby covenant and agree as follows:

ARTICLE 1: DEFINITIONS; COMMENCEMENT AND TERM

1.1 Definitions

Capitalized terms used in this Agreement, the Schedules or the exhibits and not otherwise defined shall have the meanings given to such terms in Schedule 1 (Definitions).

1.2 Commencement and Duration

The term of this Agreement shall be for a period of fifteen (15) years ("Term"), commencing on the Commencement Date (as defined below), unless terminated earlier or extended in accordance with the provisions hereof. The term "Commencement Date" shall mean thirty (30) days after the date the CONTRACTOR achieves Financial Closing; provided, however, the Commencement Date shall be no earlier than sixty (60) days after the Effective Date of the Agreement. Notwithstanding the foregoing, the Agreement shall be effective and binding upon the Parties on the Effective Date.

1.3 Term Extensions

This Agreement may be extended for the period and under the circumstances that follow:

(a) Upon mutual agreement in writing by the Parties to extend the Term of this Agreement for a period described therein.

(b) If the Acceptance Date is delayed past 12 months from the Commencement Date, the Term of this Agreement will be extended on a month to month basis for such delay, to ensure that all scheduled payments in Section 1.4 to Schedule 4 (Payment Mechanism) can be made within the Term.

(c) If a Supervening Event occurs, the CONTRACTOR shall, in addition to any other rights which it may have under this Agreement, be entitled to an extension of time for the performance of its obligations hereunder, which extension shall be determined as set forth below.

(1) The CONTRACTOR shall give notice in writing to CLIENT within a reasonable time of the occurrence of a Supervening Event, but in any event not later than ten (10) Business Days after the CONTRACTOR becomes aware of the occurrence of the Supervening Event, which shall include the following: (i) a statement of the nature of the Supervening Event; (ii) details of the circumstances from which the Supervening Event arises; (iii) details of the consequences, whether direct or indirect, financial or non-financial, which such Supervening Event may have, including any estimate of the required extension of time for the performance by the CONTRACTOR of its obligations hereunder (the "Extension Estimate"); and (iv) details of any measures which the CONTRACTOR proposes to adopt to mitigate the consequences of such Supervening Event.

(2) CLIENT shall indicate whether it agrees or not with the Extension Estimate as soon as reasonably practicable and, in any event, within twenty (20) Business Days of receipt of any notice issued by the CONTRACTOR. If CLIENT does not agree with the Extension Estimate, the Parties may refer the matter for determination in accordance with the applicable dispute resolution procedure as set forth herein. If CLIENT so agrees, or any extension is settled pursuant to the dispute resolution procedure the term of the Agreement shall be extended by a period equal to such agreed/settled extension.

ARTICLE 2: GENERAL OBLIGATIONS

2.1 Engagement. CLIENT hereby engages and CONTRACTOR hereby accepts the engagement to perform and/or to provide the Works and the Services, each in accordance with the terms and conditions of this Agreement.

2.2 Independent Contractor. CONTRACTOR shall provide the Infrastructure, Smart City Instruments and Artistic Lighting at its sole cost and expense, perform the Works and provide the Services, as an independent CONTRACTOR with exclusive control of the manner and means of performing the Works and Services in accordance with the requirements of this Agreement. CONTRACTOR has no authority to act or make any agreements or representations on behalf of CLIENT. This Agreement is not intended, and shall not be construed to create, between CLIENT and CONTRACTOR, the relationship of principal and agent, joint-venturers, copartners or any other such relationship, the existence of which is hereby expressly denied. No employee or agent of CONTRACTOR shall be, or shall be deemed to be, an employee or agent of CLIENT.

2.3 Conditions Precedent. This Agreement and all obligations of the CONTRACTOR hereunder or in respect hereof are subject to and conditioned upon: (a) all necessary approvals of this Agreement and all terms and conditions hereof by CLIENT and/or applicable executive board, commission, council or other governing body or Governmental Authority with jurisdictional authority over CLIENT, if any, and (b) the achievement by CONTRACTOR of Financial Closing.

2.4 Financing and Contingency Deadline. CLIENT authorizes CONTRACTOR to obtain financing in its sole discretion for purposes of funding the Project and CLIENT agrees to cooperate with CONTRACTOR in connection therewith. CONTRACTOR shall have until the Contingency Deadline to achieve Financial Closing. The Contingency Deadline shall be thirty (30) days after the Effective Date of this Agreement. If the CONTRACTOR fails to achieve Financial Closing for the Project by the Contingency Deadline, such Contingency Deadline may be extended as mutually agreed in writing by the Parties or either Party may terminate this Agreement upon thirty (30) days' notice, whereupon the Parties shall have no further obligation or liability to the other under this Agreement unless otherwise provided.

2.5 CLIENT General Obligations. The CLIENT, without cost to CONTRACTOR, shall:

(a) Designate a contact person with authority to make decisions for CLIENT regarding the Works and Services and provide CONTRACTOR with information sufficient to contact such person in an emergency;

(b) Coordinate the aspects of the Works and Services under CLIENT's sole control so as not to disrupt the performance of the Works and Services proceeding in an efficient manner;

(c) Provide CONTRACTOR reasonable and scheduled access to the System and the Smart City Instruments and Artistic Lighting project sites where Works or Services are to be performed so that Works or Services may proceed in an efficient manner;

(d) Permit CONTRACTOR to control and/or operate all Infrastructure, Artistic Lighting, Smart City Instruments, System, apparatus, and related machinery necessary to perform the Works or Services, including granting the CONTRACTOR all necessary rights and licenses therein;

(e) Furnish CONTRACTOR with all blueprints, surveys, legal descriptions and documentation, and all other available information pertinent to the Works as the same may be reasonably requested by CONTRACTOR that is in the control of the CLIENT. Such plans, blueprints, surveys and all other pertinent information, along with an executed copy of this Agreement, with its schedules and exhibits, shall be kept and maintained in CLIENT's and CONTRACTOR's files from the Commencement Date until at least five (5) years after the termination of this Agreement;

(f) Furnish or assist CONTRACTOR with all approvals, permits and consents from Governmental Authorities and others as may be required for performance of the Works and Services;

(h) Make available to CONTRACTOR any safety requirements and other policies, plans or programs that are in the CLIENT's possession and relate to the System, Smart City Instruments and Artistic Lighting and that could reasonably be determined to affect the Works or Services, as applicable;

(i) Coordinate with the local utility all needed servicing for utility owned facilities needed for System operation. Any costs therein shall be borne by CLIENT.

2.6 Confidential and Proprietary Information. Subject to Applicable Law, CLIENT acknowledges that the technical and pricing information contained in Schedule 2 & Schedule 3 and conspicuously marked therein is confidential and proprietary to CONTRACTOR and agrees not to disclose it or otherwise make it available to others unless required by Applicable Law. In the event that such disclosure is required by Applicable Law, CLIENT shall make best effort to provide timely written notice of the demand for such disclosure to CONTRACTOR and work with CONTRACTOR to limit disclosure of confidential and proprietary information.

2.7 Receipt of Title. CLIENT acknowledges that it shall receive and take title to the Infrastructure, Smart City Instruments and Artistic Lighting on the Acceptance Date for each Segment of the Works and it shall receive title to repaired or replaced System assets upon installation.

2.8 Addressing Safety Issues During Works and Services. CONTRACTOR may voluntarily address suspected health or safety issues observed, but not caused by CONTRACTOR while at a facility during the course of CONTRACTOR's performance of the Works or the Services on the System, Smart City Instruments and Artistic Lighting. In the event CONTRACTOR does address such issues by making observations, reports, and suggestions or otherwise, CLIENT shall not hold, or attempt to hold, CONTRACTOR liable or responsible on account thereof.

ARTICLE 3: WORKS PHASE

3.1 Performance of the Works

(a) Commencing no later than the Commencement Date, CONTRACTOR shall perform the Works pursuant to and in accordance with Schedule 2 (Scope of Works). The activities of CONTRACTOR related to its performance of the Works shall be limited solely to those duties and obligations set forth in Schedule 2 (Scope of Works) including but not limited to the operation and maintenance of the Existing System and installation of the Infrastructure, Smart City Instruments and/or Artistic Lighting solutions.

(b) The Works will be performed in Segments and each Segment of the Works will be accepted independently upon completion of the Segment in accordance with the procedures set forth in Section 3.7 below. The Segments of the Works may be performed simultaneously.

(c) At the written request of either Party and under the terms of a separate Change Order and if both CONTRACTOR and CLIENT agree to the terms of the Change Order, CONTRACTOR will perform additional Works which are not detailed in this Agreement.

3.2 CONTRACTOR's Works Phase Obligations

In furtherance of Section 3.1 above, CONTRACTOR undertakes and covenants to CLIENT that it shall:

(a) be responsible for performing the Works, which shall include constructing and installing the Infrastructure, Smart City Instruments and Artistic Lighting in a manner consistent with the work schedule set forth in Schedule 2 (Scope of Works), Exhibits A, C & D, Applicable Law, and Prudent Industry Practice; provided, however, that CONTRACTOR is not required to conduct safety, acceptance or other tests, install new devices or Infrastructure, Smart City Instruments and Artistic Lighting or make modifications to any part of the System unless included as a part of the Works identified in the Schedule 2 (Scope of Works);

(b) perform all Works Phase activities efficiently and with the requisite expertise, skill and competence to satisfy the requirements of the Agreement;

(c) subject to the provisions of this Agreement, comply with and assist CLIENT to ensure compliance with all Applicable Law;

(d) exercise commercially reasonable efforts not to interrupt the operation of the System during its performance of the Works. In cases where an interruption is necessary to complete any installation of Infrastructure, the CLIENT and CONTRACTOR shall make reasonable efforts to agree on the timeframe and dates of the service interruption in order to limit citizen inconvenience; and

(e) use its best efforts to not impede, impair or interrupt CLIENT's electrical service to the System during the performance of the Works; provided however, the Works Phase will cause periodic electrical service interruptions and CONTRACTOR will make a reasonable effort to notify CLIENT of any interruptions and to minimize the interruptions.

(f) require all of its subcontractors to comply with Applicable Law and carryout the subcontracted Works in accordance with Prudent Industry Practices.

3.3 CLIENT's Works Phase Obligations.

In addition to all duties and obligations identified in Article 2, CLIENT undertakes and covenants to CONTRACTOR that it shall:

(a) comply with all Applicable Law;

(b) provide such reasonable assistance to and not unreasonably impede CONTRACTOR in the performance of the Works under this Agreement;

(c) perform all CLIENT responsibilities related to the Works, as the same is set forth in Schedule 2 (Scope of Works) and Schedule 5 (Acceptance Procedures); and

(d) review and check, or have an agent or contractor review and check, the Works for each Segment performed by CONTRACTOR from time to time as set forth in the Commissioning Plan and Quality Assurance Plan and provide any related comments in writing to CONTRACTOR.

3.4 Program for the Sequence and Timing of Works; Field Inspections

(a) CONTRACTOR shall record and maintain a Works schedule program or protocol as set forth in Schedule 2 (Scope of Works) and Exhibits A, C & D, and such Works schedule shall detail the Segments, sequence and timing of the activities necessary for the delivery and completion of the Works. CONTRACTOR shall record, update and maintain such Works schedule documentation and make such information available to CLIENT upon request. CONTRACTOR shall make commercially reasonable efforts to proceed with the Works in accordance with the Works schedule timeframes and shall give CLIENT reasonable notice of probable events or circumstances which may materially adversely affect or materially delay the execution of the Works in accordance with the Works schedule.

(b) For the entire duration of the Works, the representatives of the CLIENT will be able to access the System, Smart City Instruments and Artistic Lighting project sites provided that they have informed the CONTRACTOR within a reasonable timeframe. CLIENT may perform such field tests as it deems necessary to verify that the Works meets the performance standards required herein. CONTRACTOR shall be permitted to witness such tests. All inspections and tests by CLIENT shall be performed in such manner as not to unnecessarily delay the Works. CLIENT shall not exercise any prerogatives of project management or of project supervision when on the work sites.

3.5 Time for Completion of the Works

The expected date of completion of all of the Works shall be 12 months from the Commencement Date (hereinafter the "Expected Completion Date").

3.6 Extension of Time

Notwithstanding Section 3.5, CONTRACTOR shall be entitled to a reasonable extension of time for the completion of the Works beyond the Expected Completion Date, equal to but not greater than the period of delay, if and to the extent that completion is or will be delayed by any of the following:

(a) a Change Order; or

(b) any CLIENT failure to perform a Material Obligation under this Agreement; or

(c) any Supervening Event; or

(d) any delay, restriction or prevention of CONTRACTOR from performing the Works caused by or attributable to the CLIENT, its employees or agents, or the CLIENT's other contractors; or

(e) any delay, restriction or prevention of CONTRACTOR from performing the Works caused by or attributable to any relevant Governmental Authority, other than the CLIENT, from which a consent is necessary for execution of the Works provided CONTRACTOR has diligently, steadfastly and without delay pursued such consent in good faith.

If CONTRACTOR incurs or is likely to incur loss and/or expense as a result of an extension of time pursuant to subsection (a), (b) & (d) above, then subject to CONTRACTOR taking all reasonable steps to mitigate all losses and expenses, CLIENT shall reimburse CONTRACTOR directly for any such actual loss or expense, including all overhead, profit, additional System operation and maintenance costs, financing interest charges or expenses and other losses or costs incurred, which such amounts shall be set forth in the immediately succeeding monthly invoice issued to CLIENT in accordance with the terms and conditions contained in Schedule 4 (Payment Mechanism).

If CONTRACTOR incurs losses and expenses as a result of an extension of time pursuant subsection (c) & (e) above, then subject to CONTRACTOR taking all reasonable steps to mitigate the losses and expenses, the CLIENT and CONTRACTOR shall enter into negotiations to equitably allocate the losses and expenses between the Parties, unless agreed to otherwise in writing. If CLIENT and CONTRACTOR do not agree on an equitable allocation, the Parties may refer the matter for determination in accordance with the applicable dispute resolution procedure as set forth herein.

The obligations of CLIENT to pay any amounts described above are payable only from the available funds in the Revenue Fund and from the other security pledged under this Agreement, as set forth in Section 6.4 of the Main Body of the Agreement.

3.7 Acceptance

The Acceptance Date for each Segment of the Works shall occur when:

(a) a Segment of the Works is complete, in accordance with Schedule 5 (Acceptance Procedures), the start-up and commissioning thereof is complete, and the Infrastructure, Smart City Instruments and Artistic Lighting (if applicable) included in the Segment of the Works, as detailed in Schedule 2 (Scope of Works), may be utilized for their intended use;

(b) CONTRACTOR shall have delivered to CLIENT, lien waivers, sworn statements, guarantees, full releases, discharges or other evidence reasonably satisfactory to CLIENT that there are no liens (other than Permitted Security Interest), claims, or notices in respect thereof pending, filed, or threatened against CLIENT, CONTRACTOR, or the Infrastructure, Smart City Instruments and Artistic Lighting whatsoever in respect to that Segment of the Works. CONTRACTOR may, if any subcontractor refuses to furnish a release, discharge or receipt in full, furnish a bond satisfactory to CLIENT to indemnify the CLIENT against any such lien;

(c) CONTRACTOR shall have delivered all certificates of inspection or approval in respect of the Segment of the Works to the extent required under Applicable Law from any Governmental Authority; and

(d) CLIENT has issued a Certificate of Acceptance for the Segment of the Works in accordance with Schedule 5 (Acceptance Procedures).

3.8 Title to Infrastructure, Smart City Instruments & Artistic Lighting

(a) Upon Acceptance for each Segment of the Works, (1) legal title to and ownership of the upgraded Infrastructure, Smart City Instruments and Artistic Lighting therein shall transfer to CLIENT free and clear of any and all liens, claims, security interests or other encumbrances except Permitted Security Interest in the upgraded Infrastructure, installed Smart City Instruments and Artistic Lighting granted by CLIENT to CONTRACTOR pursuant to Section 6.3 of the Main Body of the Agreement, and (2) the CLIENT shall have all duties and responsibilities for the payment of post-Acceptance Works and Services Payments. Upon and after Acceptance, CLIENT shall at all times protect and defend, at its own cost and expense, its title and the Permitted Security Interest granted to CONTRACTOR in and to the Infrastructure, Smart City Instruments and Artistic Lighting from and against all claims, liens and legal processes of its creditors, and keep all the Infrastructure free and clear of all such claims, liens and processes except Permitted Security Interest.

(b) Notwithstanding Section 3.8(a) above, if any Software Products are installed or otherwise used to operate the System, Smart City Instruments or Artistic Lighting or provided to CLIENT under this Agreement, any such Software Products shall remain CONTRACTOR property, including the Intellectual Property conceived or developed by CONTRACTOR in the Software Products. All CONTRACTOR Pre-existing Intellectual Property that may be included in the Infrastructure, Smart City Instruments, Artistic Lighting, Works or the Services provided to CLIENT under this Agreement shall also remain CONTRACTOR's property. Any Software Products provided to CLIENT are for Permitted Users' use and only for the purposes disclosed to CONTRACTOR. CONTRACTOR hereby grants CLIENT a royalty-free (once payments due under this Agreement are paid to CONTRACTOR), non-transferable, nonexclusive license for the Term to use any CONTRACTOR's Intellectual Property solely as incorporated into the Infrastructure, Smart City Instruments and Artistic Lighting and CONTRACTOR's Intellectual Property as incorporated into any Software Products provided to CLIENT under this Agreement. Under such license, to the extent allowable by Applicable Law, Permitted Users shall have a right to:

(1) Use, in object code form only, the Software Products included in the Works and/or Services, if any;

(2) Make and retain archival and emergency copies of such Software Products except if the Software Product is embedded in the System, Smart City Instruments or Artistic Lighting; and,

(3) Use all such Software Products; provided however, the Software Products shall not be used or relied upon by any parties other than Permitted Users, and such use shall be limited to the particular project and location for which the Software Products are provided or used relative to the System, Smart City Instruments or Artistic Lighting.

All Software Products provided to CLIENT are for Permitted Users' use only for the purposes disclosed to CONTRACTOR, and CLIENT shall not transfer them to others or use them or permit them to be used for any extension of the Works or Services or any other project or purpose, without CONTRACTOR's express written consent, to the extent allowable by Applicable Law.

3.9 Workmanship Warranty

Except as otherwise expressly provided herein, CONTRACTOR warrants that all work performed during the Works Phase is in compliance with the terms of the Agreement and will be free from workmanship defects for a period of one (1) year from the Acceptance Date of the Final Segment of the Works. Should any defects develop during the warranty period, CONTRACTOR shall remedy the defects at no expense to the CLIENT, provided that CLIENT gives CONTRACTOR written notice of any such defect promptly after discovery.

3.10 Manufacturer Warranty

CONTRACTOR hereby transfers to CLIENT all transferable warranties and remedies provided to the CONTRACTOR by any manufacturer(s) or suppliers of the Infrastructure, Smart City Instruments and Artistic Lighting. CLIENT hereby grants the CONTRACTOR the authority and the right to, on behalf of the CLIENT, exercise all the CLIENT's rights and remedies under all transferable warranties during the Term.

ARTICLE 4: SERVICES PHASE

4.1 Performance of Services after Acceptance

No later than the Acceptance Date of the Final Segment of the Works, or such other date agreed to in writing between the Parties, CONTRACTOR shall commence performance of the Services Phase, consisting of those activities set forth in Schedule 3 (Scope of Services), including, but not limited to, the operation, maintenance, monitoring and management of the System and provide such Smart City Instrument and Artistic Lighting services set forth therein.

4.2 Performance Commitments of the CONTRACTOR

CONTRACTOR commits to achieving the Energy Savings and operation and maintenance Services objectives described in Schedule 3 (Scope of Services), and commits to performing the Services in accordance with the Key Performance Indicators ("KPI") outlined in Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services) (hereinafter the "Services Performance Objectives").

4.3 CONTRACTOR's Services Phase Obligations

In furtherance of Sections 4.1 and 4.2 above, CONTRACTOR undertakes and covenants to CLIENT that it shall:

(a) be responsible for performing the Services in a manner to achieve the Services Performance Objectives consistent with Schedule 3 (Scope of Services), Applicable Law, and Prudent Industry Practice.

(b) not impede, impair or interrupt CLIENT's utilization of the System or achievement of any Energy Savings, except with the express written consent of CLIENT when necessary for additional construction or maintenance, which consent will not be unreasonably withheld.

4.4 CLIENT's Services Phase Obligations

In addition to all duties and obligations identified in Article 2, CLIENT undertakes and covenants to CONTRACTOR that during the performance of the Services it shall:

(a) be obligated to compensate CONTRACTOR for the performance of the Services pursuant to and in accordance with the terms and conditions established in Schedule 4 (Payment Mechanism) and any other amounts due hereunder by the required due date(s) established therein; provided however, the obligations of CLIENT to pay any amounts described above are payable only from the available funds in the Revenue Fund and from the other security pledged under this Agreement, as set forth in Section 6.4 of the Main Body of the Agreement.

(b) subject to the provisions of this Agreement, comply with Applicable Law;

(c) provide such reasonable assistance to and not unreasonably impede CONTRACTOR in the performance of the Services under this Agreement; and

(d) perform all CLIENT responsibilities related to the Services.

ARTICLE 5: ENERGY SAVINGS PERFORMANCE ASSURANCE

5.1 System Baseline and Performance Baseline

(a) CONTRACTOR and CLIENT agree that the System Baseline data results set forth in Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services), is a full and reasonably accurate reflection of the System's equipment, operation, business use and energy usage as of the Effective Date, and that such System Baseline data will be the basis on which all future energy use will be compared in order to determine the Annual Realized Savings.

(b) CONTRACTOR and CLIENT agree that the Performance Baseline set forth in Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services) will represent the new operating and/or equipment profile of the System resulting from the installation of the Infrastructure and implementation of the Services.

(c) Notwithstanding any provision of this Agreement, no later than thirty (30) days prior to the Acceptance Date of the Final Segment of the Works, CONTRACTOR shall conduct an audit and inventory of the operational performance of the System. If additional Energy Savings are recognized after the audit and inventory, CONTRACTOR shall integrate and use all resulting data to calculate and revise the Performance Baseline accordingly.

5.2 Performance Guarantee and Measurement

(a) Commencing on the Acceptance Date of the Final Segment of the Works, the Annual Realized Savings calculated at the end of each Annual Period will be no less than the Guaranteed Annual Savings for the corresponding Annual Period (hereinafter the "Performance Guarantee"). The measurement and verification

calculation methodology for determining the Energy Savings shall be established in the M&V Plan, in accordance with Section 2.9 of Schedule 2 (Scope of Works).

(b) Except as otherwise provided, Guaranteed Annual Savings will be calculated as the System Baseline for each Annual Period as units of energy (kWh) minus the Performance Baseline for each month of each annual phase, assuming that the Performance Baseline has been maintained, as set forth in Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services).

(c) A Performance Guarantee Period savings reconciliation as identified in Section 1.2 of Appendix 3A of Schedule 3 will be performed by CONTRACTOR at the end of each Annual Period.

(d) Prior to the beginning of the Performance Guarantee Period, CONTRACTOR will have inspected all portions of the System and reported any deficiencies to CLIENT which are outside of the scope of the Works and which will impact Energy Savings of the System. To the extent that the deficiencies are not remedied by CLIENT prior to the Acceptance Date of the Final Segment of the Works, the adverse effect(s) on the ability of the System to attain the necessary Guaranteed Annual Savings shall be factored into the Annual Performance Report and, if necessary, the Performance Guarantee shall be adjusted accordingly.

5.3 Material Change

(a) As part of CONTRACTOR's performance of the Services, CLIENT and CONTRACTOR shall review the Performance Baseline and the Energy Savings data derived from the inventory and monitor the System in order to determine if a Material Change has occurred. If a Material Change has occurred, the Parties will determine what, if any, adjustments to the Performance Baseline and Services Performance Objectives are required by such Material Change. Any disputes between CLIENT and CONTRACTOR concerning any such adjustment shall be resolved in accordance with the applicable dispute resolution procedure as set forth herein.

(b) If any portion of the System or Infrastructure, or related facilities or substructure that supports or may affect the System or Infrastructure, is materially altered or moved by any person (including the CLIENT) other than CONTRACTOR or a person authorized by CONTRACTOR, CONTRACTOR reserves the right to perform a reacceptance test on, or if necessary a re-commissioning of the System or Infrastructure in order to determine if a Material Change has occurred. If the Parties agree that a Material Change has occurred after the reacceptance testing or re-commissioning, CLIENT agrees to pay reasonable costs on a time and materials basis for such testing.

5.4 Additional Provisions

(a) Except as otherwise provided, CONTRACTOR payments to CLIENT for Savings Shortfalls in accordance with Sections 1.1 & 1.2 of Appendix 3A of Schedule 3, if any, are the sole remedy of CLIENT under this Performance Guarantee contemplated in this Agreement. This provision shall not in any way effect the CLIENT's warranty rights set forth herein.

(b) As a mutual goal of the Parties is to maximize Energy Savings, if CONTRACTOR determines it can correct a Savings Shortfall through an operational improvement at no expense or material inconvenience to the CLIENT and without future operational expenses and without compromising lighting performance, then the Parties shall in good faith work to effectuate the operational improvement. Any disputes between CLIENT and CONTRACTOR concerning the implementation of such operational improvements shall be resolved in accordance with the applicable dispute resolution procedure as set forth herein.

(c) The Guaranteed Annual Savings are dependent upon and are subject to the express condition that the CLIENT does not intentionally and knowingly prevent, impede or obstruct the CONTRACTOR from operating and maintaining the System within a five percent (5%) variance from the Performance Baseline.

(d) CONTRACTOR will have no liability or obligation to continue providing the Services or to guarantee Energy Savings under the Performance Guarantee in the event that CLIENT unreasonably impairs CONTRACTOR's access to any part of the System where Services are to be performed.

ARTICLE 6: COMPENSATION; PERMITTED SECURITY INTEREST

6.1 Compensation

Subject to Section 6.4 below, CLIENT shall pay CONTRACTOR for performance of the Works and Services as provided in Schedule 4 (Payment Mechanism), as the same may be modified from time to time in accordance with this Agreement, and this Article 6.

6.2 General Obligation

Subject to Section 6.4 below, the obligation of CLIENT to pay Works Payments, any Termination Payment and to perform and observe the other covenants and agreements contained in this Agreement shall be absolute and unconditional in all events without abatement, diminution, deduction, set-off or defense, for any reason whatsoever, including without limitation, any failure of the Infrastructure, Smart City Instruments or Artistic Lighting to perform as intended or expected, any defects, malfunctions, breakdowns or infirmities in the Infrastructure, Smart City Instruments or Artistic Lighting or any accident, condemnation or unforeseen circumstances, any nonpayment of any amounts payable by CONTRACTOR or any failure of CONTRACTOR to perform under this Agreement.

6.3 Security Interest

To secure the Works Payments and CLIENT's obligations related thereto under this Agreement, CLIENT grants to CONTRACTOR a security interest constituting a first lien on the Energy Savings Pledged Revenues, the Revenue Fund, the Infrastructure, Smart City Instruments and Artistic Lighting and any and all proceeds of any of the foregoing; provided however, no security interest is hereby granted on any Infrastructure and Smart City Instruments installed on New Mexico Department of Transportation owned street lights ("Permitted Security Interest"). CLIENT agrees to execute and authorizes CONTRACTOR to file such financing statements and other documents, in form satisfactory to CONTRACTOR, which CONTRACTOR deems necessary or appropriate to establish and maintain CONTRACTOR's security interest in the Infrastructure, Smart City Instruments and Artistic Lighting and the proceeds thereof. Upon the request of CONTRACTOR, CLIENT will, at CLIENT's expense, furnish a waiver of any interest in the Infrastructure, Smart City Instruments and Artistic Lighting from any party having an interest in any such real estate or building to which the Infrastructure, Smart City Instruments and Artistic Lighting is located.

6.4 Special Limited Obligation; Revenue Fund; Energy Savings Pledged Revenues

(a) As set forth in the Resolution and herein, the obligations of CLIENT under this Agreement, including its obligation to pay the Works Payments, Services Payments, Termination Payments and all other

amounts hereunder (except as specifically provided for in Section 2.3(c) of Schedule 2 (Scope of Work) and Section 2.3.2 and Article 4 of Schedule 3 (Scope of Services)), shall constitute a special limited obligation of CLIENT payable only from the Energy Savings Pledged Revenues and the other security pledged therefor under this Agreement. The Energy Savings Pledged Revenues are hereby pledged to secure the payment of the Works Payments, Services Payments, Termination Payments, and all other amounts payable hereunder and the performance and observance of all of the covenants, agreements, obligations and conditions contained herein. This Agreement shall not constitute an indebtedness of CLIENT within the meaning of any constitutional, Charter or statutory prohibition or limitation, nor shall this Agreement be considered or held to be a general obligation of CLIENT. Notwithstanding the foregoing, nothing herein shall preclude CLIENT from using other funding sources to pay any amounts due herein.

(b) As set forth and established in the Resolution, the CLIENT has created on its books and records a special, segregated account designated as the "Revenue Fund" into which CLIENT shall record, as received, all Energy Savings Pledged Revenues. So long as any amounts payable under this Agreement remain outstanding, including in the event of a termination where such Termination Payment is not paid in full by the CLIENT, the Energy Savings Pledged Revenues shall be set aside and appropriated by CLIENT in the Revenue Fund in accordance with the following schedule: 1) $1,866,672.00 shall be encumbered on the Effective Date, and for the purpose of this Agreement, shall be shall as though it is included in the Revenue Fund; 2) $3,266,672.00 shall be appropriated into the Revenue Fund no later than the 1st day of July, 2018; and 3) $3,500,000.00 shall be appropriated into the Revenue Fund no later than the 1st day of July each year thereafter. Amounts in the Revenue Fund shall be applied only to amounts payable by CLIENT under this Agreement and may not be pledged or applied for any other purpose; provided that the amount, if any, in the Revenue Fund in excess of the sum of the then-applicable Termination Payment plus the Works Payment payable on the next succeeding scheduled Works Payment date may be released from the Revenue Fund to CLIENT for any other purposes.

(c) No provision of this Agreement or the Resolution shall be construed to permit CLIENT to issue or incur obligations, other than this Agreement, payable from, or secured by, a pledge of, the Energy Savings Pledged Revenues.

(d) If State law or the Charter or any ordinance or part thereof, which affects the Energy Savings Pledged Revenues, shall ever be held to be invalid or unenforceable, CLIENT shall immediately take any action which is legally available to CLIENT necessary to produce sufficient Energy Savings Pledged Revenues to comply with the obligations of CLIENT hereunder.

(e) No law, ordinance or resolution of CLIENT which affects the Energy Savings Pledged Revenues shall be repealed or otherwise directly or indirectly modified in such a manner as to impair obligations of CLIENT hereunder or under the Resolution, unless the CLIENT's obligations hereunder have been discharged in full or provision has been fully made therefor.

6.5 Optional Prepayment

On either the five (5) year or ten (10) year anniversary of the Commencement Date, the CLIENT may prepay, in whole but not in part, its obligations to pay Works Payments and Services Payments upon written notice delivered to the CONTRACTOR at least 120 days in advance of such prepayment date, at a prepayment price equal to the Scheduled Termination Value for the prepayment date. Upon receipt of the full prepayment this Agreement shall terminate and the Parties shall have no further obligation or liability to the other under this Agreement.

ARTICLE 7: INSURANCE; LIMITATION OF LIABILITY; BONDING

7.1 CONTRACTOR Insurance

CONTRACTOR shall maintain at a minimum the insurance types and coverage amounts detailed in Section 1.23 of the Request for Proposal.

7.2 CLIENT Insurance

After Acceptance for each Segment, the CLIENT will maintain at its own expense, or self-insure for the equivalent risks (i) property insurance on an "all-risk" risk replacement basis in an amount not less than the full replacement cost of the accepted Infrastructure, Smart City Instruments and Artistic Lighting without optional deductibles, and cover all risk casualty risks including, without limitation, the perils of fire (with extended coverage) and physical loss or damage including, without duplication of coverage, theft, vandalism, malicious mischief, collapse, earthquake, flood, windstorm, testing and start-up, rebuilding and debris removal including demolition occasioned by enforcement of any applicable legal requirements, and compensation for CONTRACTOR's services and expenses required as a result of such insured loss and (ii) liability insurance that protects the CONTRACTOR and Lender from liability in all events in form and amount satisfactory to the CONTRACTOR. If the insurance requires deductibles or retentions, CLIENT shall pay costs not covered because of such deductibles or retentions. Such insurance shall cover portions of the Works located off the facility, and also portions of the Works in transit. The insurance required by this section shall include the interests of CLIENT, CONTRACTOR, and Lender in the Works. Except where the CLIENT is self-insured, each of CONTRACTOR and Lender shall be named as an additional insured on each such insurance coverage and as loss payee in the case of property insurance. CLIENT shall not cancel or modify such insurance or self-insurance coverage in any way that would affect the interests of CONTRACTOR or Lender without first giving written notice thereof to CONTRACTOR at least thirty (30) days in advance of such cancellation or modification. CLIENT shall furnish to CONTRACTOR insurance certificates and other evidence of the insurance required to be maintained by the CLIENT. Insurance provided by CLIENT under any self-insurance plan or program shall be satisfactory to CONTRACTOR and Lender in all respects.

7.3 Casualty; Condemnation

If, prior to the termination of this Agreement, (a) the Infrastructure, Smart City Instruments and Artistic Lighting or any portion thereof is destroyed, in whole or in part, or is damaged by fire or other casualty or (b) title to, or the temporary use of, the Infrastructure, Smart City Instruments and Artistic Lighting or any part thereof shall be taken under the exercise or threat of the power of eminent domain by any Governmental Authority, CLIENT and CONTRACTOR will cause the net proceeds of any insurance claim or condemnation award or sale under threat of condemnation to be applied to the prompt replacement, repair, restoration, modification or improvement of the Infrastructure, Smart City Instruments and Artistic Lighting. Any balance of the net proceeds remaining after such work has been completed shall be paid to CLIENT. If any Infrastructure, Smart City Instruments and Artistic Lighting is replaced pursuant to this Section, the replacement Infrastructure, Smart City Instruments and Artistic Lighting shall be of similar type, utility and condition to the replaced Infrastructure, Smart City Instruments and Artistic Lighting and shall be of equal or greater value than, and shall provide at least the same level of energy and/or operational savings expected as, the replaced Infrastructure, Smart City Instruments and Artistic Lighting. CLIENT shall provide to CONTRACTOR any and all documents as CONTRACTOR may reasonably request in connection with such replacement, including, but not limited to, documentation in form and substance satisfactory to CONTRACTOR evidencing CONTRACTOR'S security interest in such replacement Infrastructure, Smart City Instruments and Artistic Lighting and CLIENT HEREBY GRANTS TO CONTRACTOR a first priority security interest in any such replacement Infrastructure, Smart City Instruments and Artistic Lighting. If the net proceeds are insufficient to pay in full the cost of any repair, restoration, modification or improvement referred to in this Section, CLIENT shall either (a) complete such replacement, repair, restoration, modification or improvement and pay any costs thereof in excess of the amount of the net proceeds, or (b) pay or cause to be paid to the CONTRACTOR the amount of the then applicable Termination Payment, and, upon such payment, this Agreement shall terminate. If CLIENT shall make any payments

pursuant to this Section, CLIENT shall not be entitled to any reimbursement therefor from CONTRACTOR or be entitled to any diminution of the amounts payable hereunder.

7.4 Limitation of Liability

Each Party assumes full responsibility and liability of its own actions, including all claims, demands, liabilities, suits, damages, costs and expenses arising out of or caused by its own acts or the acts of its respective directors, officers, members, shareholders, agents and employees to the extent such claims, demands, liability, suits, damages, costs and expenses arise out of this Agreement and are (a) attributable to bodily injury, sickness, disease or death or to injury to or destruction of tangible property, (b) the result of a Party's gross negligence or willful misconduct, or (c) the result of a Party's violation of Applicable Law. Nothing herein is intended to serve as a waiver of sovereign immunity, nor shall anything herein be construed as consent by either Party to be sued by any third party for any cause or matter related to this Agreement. The Parties assume no liability for the actions or omission of the other's agents, representatives, employees, contractors or subcontractors.

CLIENT acknowledges and agrees that Lender is financing the acquisition of the Infrastructure, Smart City Instruments and Artistic Lighting. Lender has not been in the chain of title of the Infrastructure, Smart City Instruments and Artistic Lighting, does not operate, control or have possession of the Infrastructure, Smart City Instruments and Artistic Lighting and has no control over the Works performed by CONTRACTOR or CLIENT's or CONTRACTOR's installation, operation, use, storage or maintenance of the Infrastructure, Smart City Instruments and Artistic Lighting. Lender has no obligation with respect to the installation, operation, use, storage and maintenance of the Infrastructure, Smart City Instruments and Artistic Lighting or any other obligations of the Parties under this Agreement.

7.5 Bonding

Prior to the Commencement Date and through the Acceptance Date of the Final Segment of the Works, CONTRACTOR shall secure a surety bond(s) in the amount of $17,669,341 each as a security for the faithful performance of the Works Phase of the Project and for the payment of all labor and materials therein. These bonds must be furnished to CLIENT within thirty (30) days of the Commencement Date. The aforementioned surety bonds for the Works shall expire and automatically be released, without request from CONTRACTOR, one (1) year from the date of CLIENT's execution of a Certificate of Acceptance of the Final Segment of the Works. *See Exhibit I for the applicable bond forms for the Works Phase surety bonds.*

On the Acceptance Date of the Final Segment of the Works, CONTRACTOR shall secure separate surety bonds in the amount of $1,537,170 as security for the faithful performance of the Services Phase for such year and for the payment of all labor and materials therein. These bonds must be furnished to CLIENT within thirty (30) days after Acceptance Date of the Final Segment of the Works of this Agreement and thirty (30) days before each new Annual Period thereafter. The liability of CONTRACTOR under this bond is limited to the performance of the Agreement for the respective Annual Period. The liability of CONTRACTOR shall not be cumulative from Annual Period to Annual Period. *See Exhibit I for the applicable bond forms for the Services Phase annual surety bonds.*

Notwithstanding anything to the contrary herein, the surety bonds described in this Section 7.5 shall have no obligations therein and the surety of those surety bonds shall have no obligations hereunder with regard to CONTRACTOR's obligations under Article 5 above.

ARTICLE 8: HAZARDOUS MATERIALS PROVISIONS

8.1 The Works and Services may require installation or removal of System assets, Infrastructure, Smart City Instruments and Artistic Lighting that may contain de minimus amounts of hazardous materials and the identification, handling, storage, removal, and transportation of hazardous materials expressly identified in Exhibit F ("Hazardous Materials Within Scope"). CONTRACTOR shall properly install, handle, remove and transport such Hazardous Materials Within Scope. Where pursuant to the Works or Services, CONTRACTOR is to remove Hazardous Materials Within Scope, CONTRACTOR shall properly handle, remove and transport such Hazardous Materials Within Scope to a collection point located at an authorized disposal facility.

8.2 Except for Hazardous Materials Within Scope, the Works or Services does not include directly or indirectly performing or arranging for the detection, testing, handling, storage, removal, treatment, transportation, disposal, monitoring, abatement or remediation of any contamination of any part of the System, Smart City Instruments or Artistic Lighting project site at which Works or Services is performed and any part of the System, Smart City Instruments or Artistic Lighting project site where soil or groundwater is contaminated by petroleum or petroleum products (collectively called "Oil"), asbestos, PCBs or hazardous, toxic, radioactive or infectious substances, including any substances regulated under Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or any other Applicable Law (collectively called "Hazardous Materials"), including without limitation: ionization smoke detectors, ballasts, mercury bulb thermostats, used oil, contaminated filters, contaminated absorbents, and refrigerant. CONTRACTOR will notify CLIENT immediately if it discovers or reasonably suspects the presence of any previously undisclosed Oil or Hazardous Material. The discovery or reasonable suspicion of Hazardous Materials or hazardous conditions at any part of the System, Smart City Instruments or Artistic Lighting project site where CONTRACTOR is to perform Works or Services, or of contamination of any part of the System, Smart City Instruments or Artistic Lighting project site by Oil or Hazardous Materials not previously identified shall entitle CONTRACTOR to suspend the Works or Services in the contaminated area immediately, subject to mutual agreement of terms and conditions applicable to any further Works or Services, or to terminate the Works or Services in the contaminated area and to be paid for Works or Services previously performed.

ARTICLE 9: TERMINATION

9.1 Termination Events

(a) NON DEFAULT TERMINATION

(1) Voluntary. CLIENT may terminate this Agreement without cause by serving one hundred eighty (180) days prior written notice on CONTRACTOR. If CLIENT terminates the Agreement pursuant to this Section 9.1(a)(1), CLIENT shall pay to CONTRACTOR the Termination Payment in accordance with Section 9.3 below. CLIENT shall be obligated to make all Works Payments and Service Payments up to the termination date.

(2) Supervening Event. Either Party may terminate this Agreement at its sole discretion if a Supervening Event has occurred and is continuing for a period of ninety (90) consecutive days or one hundred eighty (180) days in aggregate in any Annual Period by serving the non-terminating Party one hundred eighty (180) days prior written notice. If CONTRACTOR or CLIENT terminates the Agreement pursuant to this Section 9.1(a)(2), CLIENT shall pay to CONTRACTOR the Termination Payment in accordance with Section 9.3 below. CLIENT shall be obligated to make all Works Payments and Service Payments up to the termination date.

(3) Change in Law. In the event that that CONTRACTOR is prevented from performing its obligations under the Agreement due to a Change in Law that cannot be remedied, CONTRACTOR may terminate this Agreement by serving one hundred eighty (180) days prior written notice to the CLIENT. If CONTRACTOR terminates the Agreement pursuant to this Section 9.1(a)(3), CLIENT shall pay to CONTRACTOR the Termination Payment in accordance with Section 9.3 below. CLIENT shall be obligated to make all Works Payments and Service Payments up to the termination date.

(b) TERMINATION BY THE CLIENT FOR CONTRACTOR'S DEFAULT

CLIENT may terminate this Agreement by thirty (30) days written notice to CONTRACTOR upon the occurrence of an Event of Default by CONTRACTOR. An Event of Default occurs with respect to CONTRACTOR when:

(1) Failure to Perform

Beyond any grace or notice period CONTRACTOR fails to provide all or a substantial part of the Works or Services in accordance with this Agreement, other than:

(i) a failure to meet the Performance Guarantee or other Services Performance Objectives or Works Performance Objectives, the sole remedies for which are set forth in Schedule 4 (Payment Mechanism), in Schedule 2 (Scope of Works) and Schedule 3 (Scope of Services); or

(ii) where such failure is a consequence of a breach by CLIENT of its obligations under this Agreement; or

(iii) where such failure is a consequence of CLIENT's failure to comply with any of the provisions of the Schedules except in the event of an emergency (where CLIENT's notice is not required), in which case CONTRACTOR shall immediately and with due diligence proceed to completion any cure or remedy of a breach.

In respect of all other failures which are capable of remedy, and subject to Lender's right to cure under Article 11 of the Main Body of this Agreement, CLIENT shall provide written notice to the CONTRACTOR giving reasonable particulars of the failure, whereby CONTRACTOR shall upon receipt of notice have thirty (30) days to undertake and diligently proceed to remedy such failure. For the purpose of this Section 9.1(b) failure shall be considered capable of remedy if CONTRACTOR can comply with the provision in question in all respects other than as to the time of performance; or

(2) Insolvency

Without prejudice to any other right or remedy it may have, CLIENT may terminate this Agreement immediately by notice given in writing to CONTRACTOR if upon the dissolution or liquidation of CONTRACTOR or the filing by CONTRACTOR of a voluntary petition in bankruptcy, or failure by CONTRACTOR promptly to cause to be lifted any execution, garnishment or attachment of such consequence as will impair CLIENT's ability to carry on its obligations hereunder, or the entry of any order or decree granting relief in any involuntary case commenced against CONTRACTOR under any present or future federal bankruptcy act or any similar federal or state law, or a petition for such an order or decree shall be filed in any court and such petition or answer shall not be discharged or denied within ninety (90) days after the filing thereof, or if CONTRACTOR shall admit in writing its inability to pay its debts generally as they become due, or a receiver, trustee or liquidator of CONTRACTOR shall be appointed in any proceeding brought against CONTRACTOR and shall not be discharged within ninety (90) days after such appointment or if CONTRACTOR shall consent to or acquiesce in such appointment, or assignment by CONTRACTOR for the benefit of its creditors, or the entry by CONTRACTOR into an agreement of composition with its creditors, or a bankruptcy, insolvency or similar proceeding shall be otherwise initiated by or against CONTRACTOR under any applicable bankruptcy, reorganization or analogous law as now or hereafter in effect and if initiated against CONTRACTOR shall remain undismissed (subject to no further appeal) for a period of ninety (90) days.

(c) TERMINATION BY CONTRACTOR FOR CLIENT'S DEFAULT

CONTRACTOR may terminate this Agreement by written notice to CLIENT upon the occurrence of an Event of Default by CLIENT. An Event of Default with respect to CLIENT shall occur upon any one of the following:

(1) CLIENT fails to pay any Works Payment when due; or

(2) CLIENT fails to pay any Services Payment when due; provided however, CLIENT shall not be in default hereunder if it fails to pay any Services Payment amount as result of Service Payment setoff pursuant to Section 4.1.1(e) of Appendix 3A of Schedule 3; or

(3) Failure of CLIENT to observe and perform any covenant, condition or agreement on its part required to be observed or performed by this Agreement (other than as provided in clause (a) or (b) above), for a period of thirty (30) days after written notice specifying such failure and requesting that it be remedied is given to CLIENT by CONTRACTOR, unless CONTRACTOR shall agree in writing to an extension of such time prior to its expiration; provided that, if the failure stated in the notice cannot be corrected within the applicable period, CONTRACTOR will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by CLIENT within the applicable period and diligently pursued until the default is corrected; or

(4) CLIENT consistently and purposefully fails to allow reasonable access to the System, Smart City Instruments or Artistic Lighting; or

(5) Any representation or warranty made by CLIENT in connection with this Agreement shall prove to be untrue in any material respect on the date as of which it was made; or

(6) The dissolution or liquidation of the CLIENT or the filing by CLIENT of a voluntary petition in bankruptcy, or failure by CLIENT promptly to cause to be lifted any execution, garnishment or attachment of such consequence as will impair CLIENT's ability to carry on its obligations hereunder, or the entry of any order or decree granting relief in any involuntary case commenced against CLIENT under any present or future federal bankruptcy act or any similar federal or state law, or a petition for such an order or decree shall be filed in any court and such petition or answer shall not be discharged or denied within ninety (90) days after the filing thereof, or if CLIENT shall admit in writing its inability to pay its debts generally as they become due, or a receiver, trustee or liquidator of CLIENT shall be appointed in any proceeding brought against CLIENT and shall not be discharged within ninety (90) days after such appointment or if CLIENT shall consent to or acquiesce in such appointment, or assignment by CLIENT for the benefit of its creditors, or the entry by CLIENT into an agreement of composition with its creditors, or a bankruptcy, insolvency or similar proceeding shall be otherwise initiated by or against CLIENT under any applicable bankruptcy, reorganization or analogous law as now or hereafter in effect and if initiated against CLIENT shall remain undismissed (subject to no further appeal) for a period of ninety (90) days.

9.2 Provisions Governing Any Termination

(a) Limitations

Notwithstanding any other provision of this Agreement, CLIENT's right to terminate this Agreement shall be subject to Lender's rights under Article 11 of the Main Body of this Agreement.

(b) Continued Effect – No Waiver

Any waiver by either Party of a breach of any provision of this Agreement shall not be considered as a waiver of any subsequent breach of the same or any other provisions. Any waiver by either of Party of a breach of any provisions shall in no way relieve either Party of any of its responsibilities, duties or obligations under this Agreement, nor shall it constitute a waiver or relinquishment either Party's rights.

9.3 Compensation on Termination

In the event of termination of this Agreement for any reason, and, without prejudice to the other rights and remedies available to CONTRACTOR, CLIENT shall pay CONTRACTOR the applicable Termination Payment as set forth below and in Schedule 4 (Payment Mechanism). In the event CLIENT does not pay the full Termination Payment amount upon termination of this Agreement, CLIENT will pay the CONTRACTOR

interest on the outstanding portion of the Termination Payment until such amount is paid, at a rate per annum equal to seven percent (7.00%) from the date of such termination.

(a) if CLIENT or CONTRACTOR terminates this Agreement in accordance with Section 9.1(a) above, or if CONTRACTOR terminates this Agreement pursuant to Section 9.1(c) above, then the Termination Payment shall be:

(1) Scheduled Termination Value indicated in Schedule 4 (Payment Mechanism); plus

(2) any redundancy payments; plus

(3) any outstanding Works Payments or Service Payments; plus

(4) other amounts owed to CONTRACTOR under this Agreement, including payment for Works performed prior to the Acceptance, taking due account of any payments already made; plus

(5) Demobilization Costs, if Agreement is terminated pursuant Section 9.1(a)(1) or Section 9.1(c) above;

(b) if CLIENT terminates this Agreement in accordance with Section 9.1(b) above then the Termination Payment shall be:

(1) Scheduled Termination Value indicated in Schedule 4 (Payment Mechanism)); plus

(2) any outstanding Works Payments or Service Payments, as applicable, plus other amounts owed to CONTRACTOR under this Agreement, including Works performed prior to Acceptance, taking due account of any payments already made; plus

(3) payments in respect, if any, by CONTRACTOR and all other accrued costs and expenses, including amounts spent on spare equipment.

The obligations of CLIENT to pay any amounts described above are payable only from the available funds in the Revenue Fund and from the other security pledged under this Agreement, as set forth in Section 6.4 of the Main Body of the Agreement.

9.4 Additional Termination Remedy Provisions

(a) CONTRACTOR may take whatever action Applicable Law or in equity as may be necessary or desirable to collect the payments and other amounts then due and thereafter to become due or to enforce performance and observance of any obligation, agreement or covenant of CLIENT under this Agreement;

(b) Upon an Event of Default by CLIENT, with or without terminating this Agreement, CONTRACTOR may by written notice require CLIENT, at CLIENT's expense, to promptly return any or all of such Infrastructure, Smart City Instruments and Artistic Lighting to the possession of CONTRACTOR at such place within the United States as CONTRACTOR shall specify, or sell or lease such Infrastructure, Smart City Instruments and Artistic Lighting or, for the account of CLIENT, sublease such Infrastructure, Smart City Instruments and Artistic Lighting, continuing to hold CLIENT liable for the difference between (i) the amounts payable by CLIENT hereunder, and (ii) the net proceeds of any such sale, leasing or subleasing (after deducting all expenses of CONTRACTOR in exercising its remedies hereunder, including without limitation all expenses of taking possession, storing, reconditioning and selling or leasing such Infrastructure, Smart City Instruments and Artistic Lighting and all brokerage, auctioneer's and attorney's fees). CLIENT's obligation to remove and return any Infrastructure, Smart City Instruments and/or Artistic Lighting to CONTRACTOR is subject to (i) Applicable Law and (ii) CLIENT's option, at CLIENT's expense, to resolve within 180 days of notice of such termination any public safety requirements related to the return of such assets.

(c) No remedy herein conferred upon or reserved to a Party is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing under Applicable Law or in equity or by statute. No delay or omission to exercise any right or power accruing upon any default hereunder shall

impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient.

(d) In the event any agreement or covenant contained in this Agreement should be breached by a Party and thereafter waived by the other Party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

(e) The Parties agree that the formulations of damages described in this Article 9, including the formulation of the Termination Payment, are fair and reasonable approximations of the damages each Party would incur upon a termination based on an Event of Default and are not intended to be, nor should they be interpreted to result in, a penalty.

(f) The defaulting Party shall reimburse the other Party for all reasonable costs (including all applicable taxes and all legal or professional services) properly incurred by the other Party in exercising its rights and remedies hereunder, including any relevant increased administrative expenses.

ARTICLE 10: ASSIGNMENT

CONTRACTOR may, upon prior written consent by CLIENT (not to be unreasonably withheld), transfer, assign, mortgage, charge or dispose of any rights under this Agreement or otherwise delegate any of its rights and/or obligations hereunder; provided that if CONTRACTOR makes such transfer, assignment or takes such other action pursuant to this Article 10, CONTRACTOR acknowledges and agrees that it shall remain liable to CLIENT in relation to all of its obligations under this Agreement unless CLIENT approves the assignee's assumption of all of CONTRACTOR's rights, obligations and liabilities under this Agreement in writing. CLIENT agrees to execute all notices, consents or other documents as may be reasonably required to facilitate such action. CLIENT may not, without the prior written consent of CONTRACTOR and Lender, transfer, assign, mortgage, charge or dispose of any of its rights under this Agreement or otherwise delegate any of its obligations under it. Notwithstanding the foregoing, CONTRACTOR may assign to Lender all or part of its right, title, and interest in this Agreement (but not its obligations hereunder), including all amounts payable by CLIENT under this Agreement, all rights and remedies related thereto, and all proceeds of the foregoing, without the prior consent of CLIENT.

ARTICLE 11: FINANCING

CLIENT acknowledges that CONTRACTOR will finance the development and installation of the Infrastructure, Smart City Instruments and Artistic Lighting with financing accommodations Lenders, pursuant to loan agreements, sale agreement, notes, indentures, security arrangements, leases and other documents, ("Financing Documents") and that CONTRACTOR's obligations to such Lender(s) may be secured by, among other collateral, a pledge or collateral assignment of CONTRACTORS right, title and interest in, to and under this Agreement and the Infrastructure, Smart City Instruments and Artistic Lighting . In order to facilitate such financing or other accommodations CLIENT hereby consents and agrees to the following:

(a) CLIENT consents to sale and assignment and grant of interest by CONTRACTOR to any Lender of CONTRACTOR's right, title and interest in and to any Works Payments, Infrastructure, Smart City Instruments and Artistic Lighting installed pursuant to Schedule 2 (Scope of Works) under this Agreement, including the Permitted Security Interest.

(b) CLIENT consents to the collateral assignment of and grant of a security interest in, by CONTRACTOR to any Lender of CONTRACTOR's right, title and interest in and to this Agreement subject to the limitations contained in this Article 11.

(c) CLIENT consents to complete and execute in a form and within the time period specified by CONTRACTOR, all notices, consents or other documents as may be reasonably required to facilitate such transfer or assignment or other action.

(d) CLIENT consents to make available to Lender a certificate(s) of insurance from its insurers which details all relevant policies, and upon Lender's reasonable request shall provide Lender with proof that such insurance remains in full force and effect or other supporting information as reasonably requested by Lender.

(e) CLIENT agrees to deliver to Lender promptly (but in no event more than five (5) Business Days) after its receipt thereof, a copy of any written notice furnished by CLIENT to CONTRACTOR relating to any default under Section 9.1 above, or opportunity to cure or intent to terminate (in whole or in part) this Agreement.

(f) CLIENT agrees to not, without the prior written consent of the Lender, agree to modify, amend or waive any Material Obligation of the CLIENT under this Agreement.

(g) CLIENT agrees to within ten (10) Business Days of receipt of Lender's request, execute and deliver such documents, evidence, and/or take such other reasonable actions necessary to recognize the rights of Lender hereunder upon foreclosure under any applicable financing documents and/or any Event of Default by CONTRACTOR hereunder and shall not take any action which would materially prejudice the interests of Lender thereunder or Lender's right to cure any Event of Default by CONTRACTOR hereunder.

(h) Notwithstanding any other provision of this Agreement:

(1) upon prior written notice to the CLIENT, the Lender, as collateral assignee and at its sole discretion, shall be entitled to exercise, in the place and instead of CONTRACTOR, any and all rights and remedies of CONTRACTOR upon the CONTRACTOR's default under this Agreement and undertake all obligations of CONTRACTOR in accordance with the terms of this Agreement.

(2) upon prior written notice to CLIENT, Lender shall have the right, but not the obligation, to pay all sums due under this Agreement and to perform any other act, duty or obligation required of CONTRACTOR thereunder or cause to be cured any default of CONTRACTOR thereunder in the time and manner provided by the terms of this Agreement. Nothing herein requires Lender to cure any default of CONTRACTOR under this Agreement or (unless Lender has succeeded to CONTRACTOR's interests under this Agreement) to perform any act, duty or obligation of CONTRACTOR under this Agreement, but CLIENT hereby gives it the option to do so; provided that if Lender directly or indirectly, takes possession of, or title to the Infrastructure, Smart City Instruments and Artistic Lighting prior to Acceptance, then Lender will (a) cure any CONTRACTOR defaults hereunder to the extent that such defaults are capable of being cured by Lender (but not to include payment of any monetary damages or offsets for failure to perform Services during the default period or any consequential damages claimed as a result of the failure to perform Services during such default period), as a condition to such taking of possession or title and (b) assume all of CONTRACTOR's obligations under this Agreement arising after the date of such taking of possession or title prior to Acceptance.

(3) CLIENT will not exercise its right to terminate or suspend this Agreement unless it shall have given Lender ninety (90) days' prior written notice of its intent to terminate or suspend this Agreement due to an Event of Default by CONTRACTOR, pursuant to Section 9.1(b) above, specifying the condition giving rise to such right, and Lender shall not have caused to be cured the condition giving rise to the right of termination or suspension within thirty (30) days after such notice or (if longer) the periods provided for in this Agreement; provided that if such Event of Default reasonably cannot be cured by Lender within such period and Lender commences and continuously and diligently pursues cure of such default within such period, such period for cure will be extended for a reasonable period of time under the circumstances. The Parties' respective obligations will otherwise remain in effect during any cure period.

(4) If Lender, pursuant to an exercise of remedies by Lender, shall acquire title to or control of CONTRACTOR's assets prior to Acceptance and shall, within the time periods described in Section

9.1 above, cure all defaults under this Agreement existing as of the date of such change in title or control in the manner required by this Agreement and which are capable of cure by a third person or entity, then such person shall no longer be in default under this Agreement, and this Agreement shall continue in full force and effect.

(i) CLIENT acknowledges and agrees that CONTRACTOR may change Lender at any time, in CONTRACTOR's sole discretion, and upon written notice to CLIENT, CLIENT shall abide by such new contact information and payment directions as instructed by CONTRACTOR and Lender.

ARTICLE 12: REPRESENTATIONS AND WARRANTIES

12.1 CONTRACTOR represents, warrants and covenants to the CLIENT that:

(a) It has all requisite corporate power to enter into this Agreement, and that its execution hereof has been duly authorized and does not and will not constitute a breach or violation of any of CONTRACTOR's organizational documents, any Applicable Law, or any agreements with third parties;

(b) It has done and will continue to do all things necessary to preserve and keep in full force and effect its existence and the Agreement;

(c) This Agreement is the legal, valid and binding obligation of CONTRACTOR, in accordance with its terms, and all requirements have been met and procedures have been followed by CONTRACTOR to ensure the enforceability of the Agreement;

(d) To CONTRACTOR's best knowledge, there is no pending or threatened, suit, action, litigation or proceeding against or affecting CONTRACTOR that affects the validity or enforceability of this Agreement; and,

(e) It is duly authorized to do business in all locations where the Works and Services are to be performed.

(f) CONTRACTOR has consulted with its legal counsel and is relying on the advice of its counsel concerning all legal issues related to this Agreement, and is not relying on CLIENT in this regard.

(g) Neither of the execution or delivery of this Agreement, the consummation of the transactions herein contemplated or compliance with the terms and provisions hereof will conflict with or result in a breach of, or require any consent under, the organizational documents of CONTRACTOR, or any Applicable Law or regulation, or any order, writ, injunction or decree of any court, or any agreement or instrument to which CONTRACTOR is a party or by which it is bound or to which it is subject, or constitute a default under any such agreement or instrument.

(h) The information provided by CONTRACTOR to CLIENT relating to this Agreement and the Project is true, correct and complete, to the best of the CONTRACTOR's knowledge, in every material respect and contains no untrue statement of material fact or omits no material fact necessary to make the statements contained therein not misleading.

12.2 CLIENT represents, warrants and covenants to CONTRACTOR that:

(a) It is a political subdivision of the State of New Mexico and has all requisite corporate power and/or statutory authority to enter into this Agreement, and that its execution hereof has been duly authorized and does not and will not constitute a breach or violation of any Applicable Law, or any agreements with third parties;

(b) Acknowledging CLIENT's rights herein to terminate this Agreement for convenience, the CLIENT has done and will continue to do all things necessary to preserve and keep in full force and effect its existence and the Agreement;

(c) This Agreement is the legal, valid and binding obligation of CLIENT, in accordance with its terms, and all requirements have been met and procedures have been followed by CLIENT to ensure the enforceability of the Agreement;

(d) To CLIENT's best knowledge, there is no pending or threatened, suit, action, litigation or proceeding against or affecting CLIENT that affects the validity or enforceability of this Agreement; and,

(e) CLIENT has consulted with its legal counsel and is relying on the advice of its counsel concerning all legal issues related to this Agreement, and is not relying on CONTRACTOR in this regard.

(f) CLIENT is not in violation of any Applicable Law promulgated or judgment entered by any federal, State, local or governmental authority that individually or in the aggregate, would affect its performance of any obligations under this Agreement.

(g) CLIENT is the holder of all federal, State, local or other governmental consents, licenses, permits, or other authorizations required to permit it to operate or conduct its business now and as contemplated by this Agreement.

(h) Neither of the execution or delivery of this Agreement, the consummation of the transactions herein contemplated or compliance with the terms and provisions hereof will conflict with or result in a breach of, or require any consent under, the organizational documents of CLIENT, or any Applicable Law or regulation, or any order, writ, injunction or decree of any court, or any agreement or instrument to which CLIENT is a party or by which it is bound or to which it is subject, or constitute a default under any such agreement or instrument.

(i) CLIENT has not entered into any leases, contracts, or agreements with any other persons regarding the lease or purchase (or equivalent transaction) of energy efficiency equipment or the provision of energy management services for or in respect to the System or, except as disclosed in writing, with regard to servicing any of the energy-related equipment located on or within the System.

(j) CLIENT is the owner of or has the requisite rights to the System (excepting those parts of the System owned by New Mexico Department of Transportation), Smart City Instruments project site and Artistic Lighting project site and has not mortgaged, pledged, liened, charged, leased, granted a security interest, encumbrance or claim on or with respect to the System (excepting those parts of the System owned by New Mexico Department of Transportation), Smart City Instruments project site and Artistic Lighting project site or any interest therein that would encumber performance under this Agreement.

(k) CLIENT intends to continue to use the System in a manner similar to its present use of such System.

(l) The System will be used by CLIENT only for the purpose of performing essential governmental or proprietary functions of CLIENT consistent with the permissible scope of CLIENT's authority.

(m) The information provided by CLIENT to CONTRACTOR relating to this Agreement and the Project is true, correct and complete, to the best of the CLIENT's knowledge, in every material respect and contains no untrue statement of material fact or omits no material fact necessary to make the statements contained therein not misleading.

ARTICLE 13: DISPUTE RESOLUTION

13.1 In the event of any dispute, claim, question or disagreement arising from or relating to this Agreement or breach thereof, the aggrieved Party shall promptly provide written notification of the dispute, claim, question or disagreement to the other Party within thirty (30) days of the dispute, claim, question or disagreement. The Parties hereto shall use their best efforts to settle the dispute, claim, question, or disagreement, including seeking the intervention and opinion of an expert. To this effect, the Parties shall consult and negotiate with each other in good faith and recognizing their mutual interests, attempt to reach a just and equitable solution satisfactory to both Parties. If they do not reach such solution with a period of thirty (30) days of the notice,

then, upon notice by either Party to the other, all disputes, claims, questions or differences shall be finally settled by arbitration administered by the American Arbitration Association in accordance with the provision of its Commercial Arbitration Rules, and the judgement on the award rendered by the arbitrator(s) may be entered in New Mexico court having jurisdiction thereof. No delay or omission to exercise any right or power accruing under this subsection to initiate arbitration administered by the American Arbitration Association for a dispute, claim, question or difference shall impair any such right or power or shall be construed to be a waiver thereof. Except to the extent otherwise provided herein (see Article 9 above), each Party hereto shall be responsible for their own fees, expenses and disbursements (including, without limitation, legal fees, attorney's fees and court costs) under this Article 13.

13.2 With the exception of disputes arising under Article 9 or Article 11 above, all disputes not resolved by negotiation between the Parties shall be first submitted to non-binding mediation administered by the American Arbitration Association under its Commercial Mediation Procedures, or as otherwise agreed to by the Parties or required by Applicable Law, before resorting to arbitration under this Article 13.

13.3 Notwithstanding any dispute that CONTRACTOR may have undertaken or be involved with, whether pursuant to this Article 13 or otherwise, and regardless of the basis thereof or grounds therefor, CONTRACTOR agrees that it will, for so long as this Agreement has not been terminated, diligently perform the Works and Services in accordance with the terms of this Agreement, provided that CLIENT pays all undisputed amounts invoiced and at the times required as set forth herein pursuant to the terms and provisions of the Agreement and otherwise performs its obligations in accordance with the terms of this Agreement.

13.4 Notwithstanding any dispute that CLIENT may have undertaken or be involved with, whether pursuant to this Article 13 or otherwise, and regardless of the basis thereof or grounds therefor, CLIENT agrees that it will, for so long as this Agreement has not been terminated, pay all undisputed amounts invoiced and at the times required pursuant to the terms and provisions of the Agreement and otherwise perform its obligations in accordance with the terms of this Agreement.

13.5 If a Party fails to pay any such amounts as described in Sections 13.3 and 13.4 above, the dispute resolution procedure under this Article 13 shall not apply and the Parties may proceed to enforce any rights and remedies under Article 9 above.

ARTICLE 14: AUDIT AND INSPECTIONS

At any time during normal business hours and as often as the CLIENT may deem necessary, there shall be made available to the CLIENT for examination all of the CONTRACTOR's records with respect to all matters covered by this Agreement. The CONTRACTOR shall permit the CLIENT to audit, examine, and make excerpts or transcripts from such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Agreement. The CONTRACTOR understands and will comply with the CLIENT's Accountability in Government Ordinance, §2-10-1 et seq. R.O.A. 1994 and Inspector General Ordinance, §2-17-1 et seq. R.O.A. 1994, and also agrees to provide requested information and records and appear as a witness in hearings for the CLIENT's Board of Ethics and Campaign Practices pursuant to Article XII, Section 8 of the Charter.

ARTICLE 15: MISCELLANEOUS PROVISIONS

15.1 Subcontractors. CONTRACTOR may use subcontractors in the performance of the Works or Services, provided however that none of the Works or Services covered under this Agreement shall be subcontracted without prior written approval from CLIENT. CONTRACTOR shall be responsible for any portion of the Works and Services performed by any subcontractor of CONTRACTOR.

15.2 Construction and Venue. This Agreement and the construction and enforceability thereof shall be interpreted under and governed by the laws of the State of New Mexico, irrespective of its choice of law provisions, and venue shall only be in Bernalillo County, New Mexico.

15.3 Change in Law. If CONTRACTOR suffers (or will suffer) delay and/ or incurs additional costs as a result of a Change of Law, then The CONTRACTOR must deliver a notice to CLIENT identifying the Change of Law and the impact of that Change of Law. Upon receiving notice, CLIENT and CONTRACTOR will proceed in good faith to negotiate an adjustment to the contract price and/or extension of time. If mutual consent is not reached, either Party may seek relief under Article 13 above. If CONTRACTOR is prevented from performing its obligations under the Agreement, but would be able to proceed if an amendment or Change Order were made to the Agreement, then the CONTRACTOR should submit a notice to CLIENT stating such. However, in the event that that CONTRACTOR is prevented from performing its obligations under the Agreement and this cannot be remedied by an amendment or Change Order, then CONTRACTOR may give notice of termination pursuant to Section 9.1(a)(3) above. If a Change of Law occurs, CONTRACTOR is obliged to take all reasonable steps to mitigate the adverse impact of such Change of Law upon the Agreement. Notwithstanding the foregoing, any amendment, supplement, modification or Change Order to this Agreement pursuant to this Section that could reasonably be expected to affect the Infrastructure, Smart City Instruments and/or Artistic Lighting or the amounts or timing of the Works Payments shall be subject to Lender's prior written consent.

15.4 Gross Inequity. Any gross proven inequity that may result in severe economic conditions not contemplated by the Parties at the time of the execution of this Agreement may be corrected by mutual consent; provided however that any gross proven inequity shall not in any way apply to, alter or affect the CLIENT's obligation to make Works Payments hereunder when due. Each Party shall in the case of a claim of gross inequity furnish the other with whatever documentary evidence may be necessary to assist in affecting a settlement. Notwithstanding the foregoing, any amendment, supplement, modification or Change Order to this Agreement pursuant to this Section that could reasonably be expected to affect the Infrastructure, Smart City Instruments and/or Artistic Lighting or the amounts or timing of the Works Payments shall be subject to Lender's prior written consent.

15.5 Prevailing Wage. As applicable, CONTRACTOR shall insure compliance with the New Mexico Public Works Minimum Works Act and any other binding prevailing wage determinations. During the Service Phase, the Service Payment amounts, Unit Prices, and/or fixed hourly labor rates will be adjusted to reflect increases or decreases by the CONTRACTOR in wages and fringe benefits to the extent that these increases or decreases are made to comply with an increased or decreased wage determination applied to this Agreement by operation of law. The CONTRACTOR shall notify the CLIENT of any increase claimed under this clause within thirty (30) days after the effective date of the wage change. The notice shall contain a statement of the amount claimed and any relevant supporting data that the CLIENT may reasonably require. Upon agreement of the Parties, the Service Payment amounts, Unit Prices, and/or fixed hourly rates shall be modified in writing. The CONTRACTOR shall continue performance pending agreement on or determination of any such adjustment and its effective date. Notwithstanding the foregoing, any amendment, supplement, modification or Change Order to this Agreement pursuant to this Section that could reasonably be expected to affect the Infrastructure, Smart City Instruments and/or Artistic Lighting or the amounts or timing of the Works Payments shall be subject to Lender's prior written consent.

15.6 Nonsubstitution. In the event of termination of this due to the non-appropriations of funds, CLIENT agrees, to the extent permitted by Applicable Law, not to purchase, lease, rent, borrow, seek appropriations for, acquire or otherwise receive the benefits of any of the same and unique services performed by CONTRACTOR under the terms of this Agreement for a period of three-hundred sixty five (365) days following such termination of this Agreement due to non-appropriations.

15.7 Representatives. CLIENT Representative and CONTRACTOR Representative (collectively "Authorized Representatives") are the following designees:

CLIENT Representative

Name: Robert J. Perry
Title: CAO
Address: PO Box 1293
Albuquerque, NM 87103
Phone: 505-768-3000

CONTRACTOR Representative

Name: Pierre Devilliers
Title: Country Manager
Phone: (202) 320-8328
Fax: (202) 488-0500
Email: pdevilliers@citelum.com

CLIENT and CONTRACTOR may change its Authorized Representative by giving written notice to the other. CLIENT Representative and CONTRACTOR Representative is the person authorized to make decisions on behalf of the CLIENT and CONTRACTOR, respectively, under the terms of this Agreement.

15.8 Notice. Without prejudice to any other method of giving notice, all communications provided for or permitted hereunder shall be in writing and delivered to the addressee by prepaid private courier or sent by telecopy or other direct written electronic means (provided that a written record is kept in respect of any such electronic communication), to the applicable address and to the attention of the officer of the addressee as follows:

To CLIENT:
City of Albuquerque
Attention: Robert J. Perry, CAO
PO Box 1293
Albuquerque, NM 87103
Phone: 505-768-3000

To CONTRACTOR:
Citelum US, Inc.
5404 Wisconsin Ave, Suite 400
Chevy Chase, MD 20815
Attention: Legal Department
Phone: (202) 558-4020
Fax: (202) 488-0500
Email: usadmin@citelum.com

Any notice or other communication made by personal delivery, telecopy or other direct written electronic means on a Business Day shall be deemed to have been given, received and made on such Business Day so long as it is actually received prior to 5:00 p.m. (Mountain Standard time) on such Business Day, and otherwise shall be deemed to have been made on the next following Business Day (any such notice given, received or made on a day which is not a Business Day shall be deemed to have been made on the next following Business Day).

15.9 Accounting and Tax Representations. CONTRACTOR makes no representation or warranty with respect to CLIENT's treatment of any federal or state tax laws, any applicable accounting treatment or conventions or the assessment of any rating agency in connection with this Agreement, the project documents or any Infrastructure, Smart City Instruments and Artistic Lighting.

15.10 Provision of Information and Action. Parties agree to provide such information, execute and deliver any instruments and documents, and to take such other actions as may be necessary or reasonably requested by the other Party that are not inconsistent with the provisions of this Agreement and that do not involve the assumptions of obligations other than those provided for in this Agreement, in order to give full effect to this Agreement and to carry out the intent of this Agreement.

15.11 Expenses. Except to the extent otherwise provided herein, each Party hereto shall be responsible for their own fees, expenses and disbursements (including, without limitation, legal fees and disbursements) in connection with the preparation, execution, delivery and/or performance under this Agreement and all other documents and instruments associated with any of the same.

15.12 Assent. CONTRACTOR's performance of the Works and Services is expressly conditioned on the Parties assenting to all of the terms of this Agreement, notwithstanding any different or additional terms contained in any writing at any time submitted or to be submitted by a Party to the other Party relating to the Works or Services, even if signed by the Parties, unless the written statement expressly indicates that such terms supersede the terms of this Agreement.

15.13 Waiver. The failure of CONTRACTOR or CLIENT to insist upon the strict performance of the terms and conditions hereof shall not constitute or be construed as a waiver or relinquishment of either Party's right to thereafter enforce the same in accordance with this Agreement in the event of a continuing or subsequent default on the part of CONTRACTOR or CLIENT.

15.14 Severability. It is agreed that the illegality or invalidity of any term or clause of this Agreement, shall not affect the validity of the remainder of this Agreement and this Agreement shall remain in full force and effect as if such illegal or invalid term or clause were not contained herein.

15.15 Entire Agreement. This Agreement, when executed, together with all Schedules, Exhibits and other project documents in this Agreement, shall constitute the entire agreement between the Parties with respect to the subject matter hereof and this Agreement may not be amended or modified except by a written agreement signed by the Parties hereto. This Agreement supersedes all prior and contemporaneous negotiations, statements, representations, agreements, letters of intent, awards, or proposals, either written or oral relative to the same.

15.16 Arm's Length Negotiation. The Parties hereto acknowledge and agree that this Agreement has been negotiated at arm's length and among the Parties equally sophisticated and knowledgeable as to the subject matter of this Agreement. Each party has conferred, or has had the opportunity to confer, with their respective legal counsel. Accordingly, in the event any claim is made relating to any conflict, omission, or ambiguity in this Agreement, no presumption, burden of proof, or persuasion shall be implied by virtue of the fact that this Agreement was drafted by or at the request of a particular party or its legal counsel.

15.17 Counterparts. This Agreement may be executed in several counterparts, each of which, when so executed, shall be deemed to be an original and which counterparts taken together shall constitute one and the same Agreement. This Agreement may be executed by facsimile or electronic mail in portable document format ("pdf") and any signature contained hereon by facsimile or electronic mail in pdf shall be deemed to be equivalent to an original signature for all purposes.

****

IN WITNESS WHEREOF, the Parties have executed this Agreement by their authorized signatures as of the date first written above.

SCHEDULE 1: DEFINITIONS

The following terms shall for all purposes have the meanings stated herein, unless the context otherwise specifies or requires, or unless otherwise defined in the Agreement:

"Acceptance" means the conditions contained in Section 3.7 have been completed and CLIENT has signed, or is deemed to have signed and delivered, a Certificate of Acceptance.

"Acceptance Date" means the date on which Acceptance has occurred or been completed for each Segment of the Works.

"Annual Performance Report" means the document prepared by CONTRACTOR and submitted to the CLIENT, which identifies the results achieved (KPIs) for the applicable Annual Period.

"Annual Period" means an annual period beginning on the Commencement Date or on any anniversary date thereafter.

"***Annual Realized Savings"*** *means* the actual Energy Savings achieved by the System during an Annual Period derived from the sum of the measured & verified savings plus any Stipulated Savings.

"Applicable Law" means any Laws in force in the State of New Mexico where the System is located, or that is otherwise binding on a Party or those for whom, at law, they are responsible.

"Artistic Lighting" means the artistic lighting projects and equipment and infrastructure required to be provided by the CONTRACTOR as described in accordance with Schedule 2 (Scope of Works).

"*Authorized Representative*" means collectively CLIENT Representative and CONTRACTOR Representative.

"***Business Day***" means any calendar day other than a Saturday, Sunday or federal holiday in the United States, except that in the event that an obligation to be performed under this Agreement falls due on a day other than a Business Day, the obligation shall be deemed due on the next Business Day thereafter.

"Calendar of Execution" refers to the calendar detailed in Exhibit C.

"***Certificate of Acceptance"*** means a written non-recourse certificate of acceptance in the form substantially similar to the certificate of acceptance attached hereto in Schedule 5.

"Change in Law" means the coming into effect or repeal (without re-enactment or consolidation) in the state or commonwealth or the United States of any Law, or any amendment or variation of any Applicable Law, including any judgment of a relevant court of law which changes binding precedent in the state or commonwealth, in each case after the date of this Agreement which has a material adverse effect on a Party's ability to perform under this Agreement, provided that a Change in Law shall not apply to any Party's obligation to pay hereunder when due.

"Change Order" means modification of the Works pursuant to Schedule 2 (Scope of Works).

"Charter" means the Charter of the City of Albuquerque adopted pursuant to the laws of the State at a special election on June 29, 1971 as amended thereafter from time to time.

"CLIENT" means City of Albuquerque, a political subdivision of the State of New Mexico.

"CLIENT Representative" means the person identified to CONTRACTOR by CLIENT as the person authorized to make decisions on behalf of CLIENT, as further set forth in Section 15.7 of the Main Body of the Agreement.

"Commencement Date" shall mean thirty (30) days after the date the CONTRACTOR achieves Financial Closing; provided, however, the Commencement Date shall be no earlier than two (2) months after the Effective Date.

"Commissioning and Quality Assurance Plan" means the plan for commissioning the Infrastructure during the Works Phase.

"CONTRACTOR" means Citelum US, Inc. and its successor and assigns.

"CONTRACTOR Pre-existing Intellectual Property" means any Intellectual Property: (i) that has been conceived or developed by an employee or subcontractor of CONTRACTOR before CONTRACTOR performs any Works or Services under this Agreement; (ii) that is conceived or developed by such employee or subcontractor at any time wholly independently of CONTRACTOR performing the Works under this Agreement; or, (iii) if developed while performing the Works under this Agreement, where the development of Intellectual Property for the benefit of the CLIENT is not expressly identified as part of the Works. CONTRACTOR Pre-existing Property is included in all reports, notes, calculations, data, drawings, estimates, specifications, manuals, documents, all computer programs, codes and computerized materials prepared by or for CONTRACTOR.

"CONTRACTOR Representative" means the person identified to CLIENT by CONTRACTOR as the person authorized to make decisions on behalf of CONTRACTOR, as further set forth in Section 15.7 in the Main Body of the Agreement.

"Constant Energy Rate" means an energy rate of $0.0561839 per kWh, as the customer owned metered lighting rate as described in Section B of Public Service Company of New Mexico Electric Service, 15th Revised Rate No. 20, Canceling 14th Revised Rate No. 20, incorporated herein as Exhibit J. The Constant Energy Rate shall be reviewed and revised every five years in accordance with any changes in the Public Service Company of New Mexico Electric Service rate.

"Contingency Deadline" shall be thirty (30) days after the Effective Date of this Agreement.

"Damage Amount" refers to the annual damage amount covered under the Service Payments for Repairs as identified in Section 2.3.2 of Schedule 3.

"day(s)" shall mean calendar day.

"Demobilization Costs" shall mean all activities and costs for transportation of personnel, equipment and supplies from the site; disassembly, removal, and site cleanup of offices, buildings, and other facilities; all reasonable costs associated early termination incurred by CONTRACTOR with its subcontractors, vendors, providers; reasonable ongoing lease costs or lease termination costs for vehicles, warehouse space, office space and other leased items for this Agreement; accrued costs and expenses, including amounts spent on equipment and inventory. CONTRACTOR shall take all reasonable steps to mitigate demobilization costs and expenses upon termination of the agreement.

"***Energy Savings"*** means all reductions in energy or utility consumption, a changed utility rate classification, a combination thereof, or other savings contemplated herein derived from installation of the Infrastructure and performance of the Services, in accordance with Schedule 3 (Scope of Services). Energy Savings are measured and expressed in kilowatt hours (Kwh).

"***Energy Savings Pledged Revenues***" means the pledged Energy Savings Revenues, the Operational Savings and the Present Expenses. The Energy Savings Pledged Revenues are $2,800,000.00 for the first Annual Period and $3,500,000.00 for each subsequent Annual Period, which the CLIENT hereby unconditionally pledges in all events without abatement, diminution, deduction, set-off or defense.

"***Energy Savings Revenues***" means Guaranteed Annual Savings for each Annual Period multiplied by the initial Constant Energy Rate plus additional rate additional rate tariff of $.021902. The pledged Energy Savings Revenues are $774,672.00 for the first Annual Period and $1,130,028.00 for each subsequent Annual Period, which the CLIENT hereby unconditionally pledges in all events without abatement, diminution, deduction, set-off or defense.

"Equipment" means installed physical street light equipment, which includes luminaires and photocells, that is required to be provided by CONTRACTOR as part of Schedule 2 (Scope and Works).

"Event of Default" refers to the terms of Event of Default prescribed in Section 9.1(b) & (c) in the Main Body of the Agreement.

"Existing System" refers to the non-upgraded portions of the System during the Works.

"Extension Estimate" refers to the definition found in Section 1.3(b)(1) in the Main Body of the Agreement.

"*Final Segment of the Works*" means the last Segment of the Works which upon completion and acceptance completes the CONTRACTOR's obligations under the Works Phase of this Agreement.

"Financial Closing" the date the CONTRACTOR achieves financial closing and/or obtains all necessary approvals for financing the Project, as evidenced by written notice from CONTRACTOR to CLIENT.

"Financing Documents" refers to the definition found in Article 11 in the Main Body of the Agreement.

"***Governmental Authority":*** means any federal, provincial, territorial, regional, municipal or local governmental authority, quasi-governmental authority, court, government or self-regulatory organization, commission, board, tribunal, organization, or any regulatory, administrative or other agency, or any political or other subdivision, department, or branch of any of the foregoing, having legal jurisdiction in any way over the Project, any aspect of the performance of this Agreement or any of the other project documents, in each case to the extent it has or performs legislative, judicial, regulatory, administrative or other functions within its jurisdiction.

"Guaranteed Annual Savings" are the Energy Savings that CONTRACTOR guarantees will be achieved in an Annual Period of the Performance Guarantee Period, as identified in the Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services).

"Hazardous Materials Within Scope" refers to those materials listed in Exhibit F.

"***IESNA Guide for Photometric Measurement of Roadway Lighting Installations"*** means the ANSI/IES RP-8-14, ISBN # 978-0-87995-299-0, published by the Illuminating Engineering Society of North America, 2014.

"Infrastructure" means the Equipment and other physical street light infrastructure which includes street light poles, arms, wiring, foundations and other related infrastructure and equipment that is part of the System, Client-owned, and that is required to be installed by CONTRACTOR as part of Schedule 2 (Scope of Works).

"***Intellectual Property Rights***" ***or*** "***Intellectual Property"*** means all trade secrets, patents and patent applications, trademarks (whether registered or unregistered and including any goodwill acquired in such trade marks), services marks, trade names, internet domain names, copyrights (including rights in computer software), moral rights, database rights, design rights, rights in know-how, rights in inventions (whether patentable or not) including, but not limited to, any and all renewals or extensions thereof, and all other proprietary rights (whether registered or unregistered, and any application for the foregoing), and all other equivalent or similar rights which may subsist anywhere in the world, including, but not limited to, any and all renewals or extensions thereof.

"IPMVP" means the International Performance Measurement and Verification Protocol, Volume 1, EVO 10000-1.2007 as prepared by the Efficiency Valuation Organization.

"KPI" means Key Performance Indicator.

"Lamp" means apparatus designed as the source of light.

"Law" means any applicable constitution, charter, act, statute, law (including common law), ordinance, code, rule, regulation, judgment, decree, writ, order, permit, approval, or the like, as any of the foregoing may change from time to time, of any federal, state or local government or any agency, department, authority, court, political subdivision or other instrumentality thereof.

"Lender" means any or all of the persons acting arm's length to CONTRACTOR or its affiliates who provide financing to CONTRACTOR or its affiliates for the purposes of funding the performance of all or any portion of the Work and/or Services, and its successors and assigns.

"Lenders' Compensation" refers to the compensation amounts detailed in Schedule 4.

"kW" and "kWh" means kilowatt and kilowatt hour, respectively.

"Main Body" refers to Articles 1-15 in the main body of the Agreement above.

"Material Change" means a measurable deviation in the Performance Baseline and/or lighting performance metrics that is not caused by CONTRACTOR such that there is an adverse impact on the Annual Realized Savings which results or will result in a Savings Shortfall. A Material Change includes, but is not limited to: (a) changes in the manner of use of the System, (b) changes in the hours of operation of System, (c) changes in the quantities and types of materials used in the System, (d) modification, renovation or construction at or around the System, (e) any significant damage to the System caused by Supervening Event, or (f) any substantially changed condition affecting the energy use in the System.

"Material Obligation" means an obligation under this Agreement that is significant, as opposed to trivial, the breach of which would deprive the other Party of benefits it would have received under this Agreement, and includes any obligation the breach, waiver or modification thereof could (a) have an adverse effect on any Works Payment or Termination Payment (including the amount and due date thereof), or (b) impair the originally intended value, function or use of the Infrastructure, Smart City Instruments or Artistic Lighting.

"Measurement and Verification Plan" or "M&V Plan" shall mean the measurement and verification plan described in Section 2.9 of Schedule 2.

"MUSE" refers to the Centralized Maintenance Management Software which is a data and tracking system for asset data, installation and repair data, maintenance data, energy consumption data and other System data.

"Non-Upgraded System Assets" shall mean System components that are not upgraded or replaced during the Works Phase. Any component of the Non-Upgraded System Assets that is replaced pursuant to Section 2.3.2 of Schedule 3 shall be treated as Infrastructure for the remainder Services Phase.

"Normal Wear and Tear" means damage that naturally and inevitably occurs as a result of normal wear or aging.

"Oil" means petroleum or petroleum products.

"Operating Center" shall mean the operating center as described in Section 2.6.3 of Schedule 2 and Section 2.6 of Schedule 3.

"Operational Savings" means utility maintenance savings, utility bill savings and present third-party expenses for street light maintenance savings derived from what the CLIENT paid annually prior to the Commencement Date. The pledged Operational Savings are $790,384.00 for each Annual Period, which the CLIENT hereby unconditionally pledges in all events without abatement, diminution, deduction, set-off or defense.

"Operations and Maintenance" or "O&M" shall mean the operation, maintenance, monitoring, management, repair and replacement of the System during the Services Phase.

"Parties" means the CLIENT and CONTRACTOR.

"Performance Assurance Reconciliation" is the process of ascertaining whether the System is performing at the level necessary to achieve the Guaranteed Annual Savings for an Annual Period.

"Penalties Cap" means the maximum cumulative amount of all Savings Shortfall payments and O&M penalty amounts the CONTRACTOR is obligated to make to the CLIENT, as more particularly described in Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services).

"Performance Baseline" means the operating profile of the System after all Works have been completed and Infrastructure installed, based on parameters described in the Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services), which is relied upon by CONTRACTOR for the calculation of Guaranteed Annual Savings as provided in the Appendix 3A (Services Performance Objectives and Penalties/Incentives) to Schedule 3 (Scope of Services).

"Performance Guarantee" means CONTRACTOR's guarantee that the Annual Realized Savings calculated at the end of each Annual Period will be no less than the Guaranteed Annual Savings for the corresponding Annual Period.

"Performance Guarantee Period" means the timeframe from the Acceptance Date of the Final Segment of the Works until the termination of this Agreement.

"Permitted Security Interest" means the security interest in the upgraded Infrastructure, Smart City Instruments and Artistic Lighting granted by the CLIENT to the CONTRACTOR pursuant to Section 6.3 of the Main Body of Agreement.

"Permitted Users" means the CLIENT, its employees and authorized agents.

"Phase I Deliverable" refers to Phase I deliverable provided by CONTRACTOR in accordance with the RFP.

"Phase II Deliverable" refers to Phase II deliverable provided by CONTRACTOR in accordance with the RFP.

"Phase III, Lighting Conversion Implementation Plan" refers to the plan detailed in Exhibit A.

"Present Expenses" means expenses the CLIENT annually paid for the operation and maintenance of the Existing System and the associated energy payment which are not otherwise included in the Energy Savings Revenues and Operational Savings. The pledged Present Expenses are $1,234,944.00 for the first Annual Period and $1,579,588.00 for each subsequent Annual Period, which the CLIENT hereby unconditionally pledges in all events without abatement, diminution, deduction, set-off or defense.

"Project" means Works and Services provided in the Agreement.

"Prudent Industry Practice" means those practices, methods, equipment, specifications and standards of safety and performance, as the same may be changed from time to time, as are generally used in the installation and operation and maintenance of street light systems, which in the exercise of reasonable judgment and in light of the facts known at the time the decision was made, are considered good, safe and prudent.

"Repair(s)" means repairs of outages, malfunctions, damages or deteriorations to the Non-Upgraded System Assets or repairs made to the System caused by accidents, acts of vandalism or acts of god.

"Request for Proposal" or "RFP" shall mean the Evaluation and Implementation of Energy Efficiency and Reduced Maintenance on City Owned and Maintained Street Lighting, Request for Proposals: P201600023.

"**Resolution**" means City Resolution No. 17-237, adopted by CLIENT on September 18, 2017, which is adopted herein.

"***Revenue Fund***" means the City of Albuquerque Energy Savings Revenue Fund established by Resolution and herein and held by CLIENT for the purposes of collecting the Energy Savings Pledged Revenues paying the amounts due and payable hereunder.

"Savings Excess" means the Annual Realized Savings less the Guaranteed Annual Savings for the Annual Period resulting in an amount greater than zero.

"Savings Shortfall" means the Annual Realized Savings less the Guaranteed Annual Savings for the Annual Period resulting in an amount less than zero.

"Schedule(s)" refers to the Schedules 1 through 6 herein.

"Schedule and Breakdown of the Works" refers to the schedule detailed in Exhibit D.

"Scheduled Maintenance" refers to proactive maintenance provisions identified in Section 2.3.1 of Schedule 3.

"Scheduled Termination Value" refers to the amounts identified in Schedule 4 to be paid by the CLIENT as part of any Termination Payment.

"Segment(s)" means collective labor, Infrastructure, Smart City Instruments, Artistic Lighting and related services to be performed by or on behalf of CONTRACTOR for each segment of the Works, as further identified and described in Schedule 2 (Scope of Works).

"Services" means those services to be provided by CONTRACTOR as described in Article 4 and Schedule 3 (Scope of Services).

"Service(s) Payment" means payments for the operation and maintenance of System during the Works Phase pursuant to Section 2.3 of Schedule 2 and the operation, maintenance, monitoring, management, repair and replacement of the System, Smart City Instruments and Artistic Lighting services during the Services Phase.

"Services Performance Objectives" shall mean the Service Phase KPIs or performance objectives, descriptions and metrics that are subject to penalties and incentives as described in Schedule 3.

"Service(s) Phase" refers to the phase in the Agreement in which Services are performed after Acceptance Date of the Final Segment of Works.

"Smart City Instruments" refers to the physical nodes, instruments and equipment used in smart city and safety applications as required to be provided by the CONTRACTOR as described in accordance with Schedule 2 (Scope of Works)

"***Software Product***" means any software that is owned or licensed by CONTRACTOR or its affiliates and that is either separately deliverable for use in the Infrastructure, Smart City Instruments or Artistic Lighting or for use in a computer system owned by the CLIENT or delivered as firmware embedded in the Infrastructure, Smart City Instruments or Artistic Lighting.

"***State***" means the State of New Mexico.

"Stipulated Savings" are a sub-category of Guaranteed Annual Savings that do not require post-FIM implementation measurement and verification because they are agreed upon by the Parties based upon representations made to CONTRACTOR by the CLIENT and through the application of generally accepted analytical formulae. As such, Stipulated Savings are agreed upon in advance by the Parties and cannot be changed. When used as a methodology for representing a FIM's energy savings, such methodology is not recognized as a measurement and verification methodology under IPMVP. Therefore, where the IPMVP measurement methodologies are required, a methodology other than Stipulated Savings must be used to calculate energy savings.

"Supervening Event": means any of the following to the extent, in each case, it has a material adverse effect on CONTRACTOR's ability to perform its obligations under this Agreement: (a) any civil disobedience or dissent, including measures taken or threatened to be taken after the date hereof by one or more persons protesting or demonstrating against the realization of all or part of the Project, including the execution of the Works and the performance of the services hereunder; (b) fire, explosion, lightning, storm, tempest (including, but not limited to, an ice storm), hurricane, tornado, flood or any other natural disaster, ionizing radiation, earthquake, riot, theft, vandalism or civil commotion or any declared State of Emergency at the Federal, State or local level; (c) failure by any utility supplier, any Governmental Authority or other similar entity to provide the requisite approvals, permits, and consents or requisite access or make the requisite repairs required for the performance of the Works and Services; (d) instability and/or unavailability of the power grid; (e) irreparable disruption of the economy or solvency of the Agreement that is no fault of CONTRACTOR; (f) blockade or embargo; (g) strikes, lockouts, or other labor-related disputes affecting the System, the construction sector or maintenance of infrastructure sector or a significant part thereof; (h) war, civil war, armed conflict, terrorism, acts of foreign enemies or hostilities; (i) third party bid protest, or (j) nuclear, radioactive, chemical or biological contamination of the System, Smart City Instruments and Artistic Lighting or any real or personal property adjacent thereto that prevents the CONTRACTOR from performing a material part of its obligations under this Agreement.

"System" means the street light system owned, maintained or controlled by CLIENT which is located within the limits of the city of Albuquerque, New Mexico and where the Works and Services will be performed, and which is used primarily to illuminate a road, street, highway or interstate freeway and includes the street light system's physical infrastructure and equipment: luminaires, photocells, street light poles, arms, wiring, pole foundations; more specifically, the System refers to the street lights owned or controlled by CLIENT as identified in the inventory provided in Phase II Deliverable of the RFP and Exhibit A. The System specifically excludes Smart City Instruments and Artistic Lighting and any utility owned street lights.

"System Baseline" means the measurements of System taken as part of the Inventory, and the System operating practices in effect on the Agreement Effective Date, as set forth in Appendix 3A (Services Performance Objectives and Penalties/Incentives) in Schedule 3 (Scope of Services).

"Technical Watch Committee" means a committee created at CLIENT's request to ensure ongoing technical monitoring and advancements in streetlighting and to remain informed about changes in standards and

regulations. The Technical Watch Committee will consist of an equal number of representatives from CLIENT and from CONTRACTOR and shall meet at the end of each year at the request of CLIENT.

"Technological Advancements" shall mean advances in lighting technology that occur subsequent to the execution of this Agreement that will improve the performance of the System.

"Term" means the fixed duration of this Agreement as identified in Section 1.2 of the Main Body of the Agreement.

"Termination Payment" means the sum paid in consequence of the termination of this Agreement in accordance with Article 9 in the Main Body of the Agreement.

"Unit Prices" means the lists provided in Exhibit B.

"Unscheduled Maintenance" means the repair of outages or malfunctions that are caused by Normal Wear and Tear of the Infrastructure or outages that are a result of defective Infrastructure.

"Work(s)" means collective labor, Infrastructure, Smart City Instruments, Artistic Lighting and related services for all Segments to be performed by or on behalf of CONTRACTOR in the Works Phase, as further identified and described in Schedule 2 (Scope of Works).

"Work(s) Amount" means principal amount of the financing obtained by CONTRACTOR for this Agreement. Works Amount does not include interests on the principal or any Service Payment amounts.

"Work(s) Payment" means payments for Works performed during the Works Phase, specifically excluding the operation and maintenance of the System during the Works Phase.

"Work(s) Performance Objectives" shall mean the KPIs or performance objectives, descriptions and metrics that are subject to penalties as described in Schedule 2.

"Work(s) Phase" shall mean the phase of the Agreement in which the Works are performed.

SCHEDULE 2: SCOPE OF WORKS

ARTICLE 1: Description of the System, Artistic Lighting and Smart City Instruments

a. System Layout

The layout of CLIENT's System is described in the RFP, Phase II Deliverable and Exhibit A and is within the city limits of Albuquerque, New Mexico. CONTRACTOR shall upgrade the Infrastructure of the System during the Works as set forth in Exhibit A. The scope of the System may be amended for the installation of additional street lights in the System.

b. System Data Inventory

CLIENT's street light assets that make up the System are set forth in Phase II Deliverable and Exhibit A. Assets vary in size (wattage), type (HPS, MV, etc.), and style (Cobra, post top, wall pack, etc.). The System assets are property of the CLIENT and/or CLIENT has the requisite rights to upgrade, operate and maintain the assets. CLIENT's street light assets subject to this Agreement do not include any utility-owned street lights.

c. Artistic Lighting

Artistic Lighting shall be installed on CLIENT's city hall, located at 1 Civic Plaza NW, Albuquerque, NM. A conceptual design and scope for each Artistic Lighting installation is set forth in Exhibit A. Technical specifications and drawing will be incorporated into Exhibit E accordingly.

d. Smart City Instruments

Smart City Instruments shall be installed on CLIENT's System. The Smart City Instrument installation may include street light control nodes, network access points, dome security cameras, Wifi hotspots, and a digital platform. A conceptual design and scope of the Smart City Instruments installation is set forth in Exhibit A. Technical specifications and drawing will be incorporated into Exhibit E accordingly.

ARTICLE 2: General Scope of Works

2.1 General principles

The Works, as described herein and in Exhibits A, C and D, shall be performed by CONTRACTOR in conformity with current standards, Applicable Laws and regulations, and in accordance with the prescriptions of this Schedule and associated appendices and exhibits. Except as otherwise expressly provided herein, CONTRACTOR shall provide all items necessary for the performance of the Works.

2.2 Interim Period

The Interim Period shall be the period between the Agreement's Effective Date and the Commencement Date. During the Interim Period, CONTRACTOR may perform any preparatory work and operations needed to mobilize for the Works, which may include, but is not limited to, the following:

1. Movement to, placement and set-up on project site of personnel, equipment, supplies and accessory items;

2. Establishment of offices, buildings and other needed facilities as well as utility work and connections needed for these facilities;
3. Scheduling details, coordination and any other work and expense appropriate prior to the start of Works under Agreement.

2.3 Operation and Maintenance of System

(a) Commencing no later than the Commencement Date and until the Acceptance Date of the Final Segment of the Works, CONTRACTOR will operate and maintain the Existing System that has not been upgraded and that is part of the scope of Works. CONTRACTOR shall maintain Existing System at an overall lighting efficiency of approximately seventy percent (70%).

(b) Upon Acceptance of each Segment, CONTRACTOR shall operate and maintain the accepted Segment at a level consistent with its conditions upon its Acceptance Date. This level shall be maintained through the Acceptance Date of the Final Segment of the Works.

(c) Prior to the Acceptance Date of the Final Segment, any materials and equipment installed or used in order to repair or replace the Existing System or any Segments or portions of Segments that have been accepted will be provided for under the Services Payments up to an amount of $100,000.00. Any costs for materials or equipment that exceed this amount during said operation and maintenance period shall be separately billed or surcharged on a time and materials basis and paid by CLIENT from sources other than the Revenue Fund, unless otherwise agreed to in writing. If the CLIENT lacks other available funds to pay for repair costs above the $100,000.00 cap, CONTRACTOR shall not be obligated to make any such repairs until such other funds are made available. Upon approval by CLIENT, CONTRACTOR shall have the right to use CLIENT's fixtures and materials for maintenance of the Existing System.

(d) CONTRACTOR'S operation and maintenance of Existing System and any Segments of the System that have received a Certificate of Acceptance will be compensated under the Services Payments in accordance with Article 6 of the Agreement and Schedule 4 (Payment Schedule) below during the Works Phase. The terms and conditions of Schedule 3 (Scope of Services) and Appendix 3A, "Services Performance Objectives and Penalties/Incentives" to Schedule 3 are not applicable to and not enforceable under the operation and maintenance of the Existing System or accepted Segments of the System prior to Acceptance Date of the Final Segment of the Works.

2.4 Works: Project Upgrade

CONTRACTOR shall perform the installation of the Infrastructure, Smart City Instruments and Artistic Lighting in accordance with Exhibit A ("Phase III, Lighting Conversion Implementation Plan"), Exhibit C ("Calendar of Execution") and Exhibit D ("Schedule and Breakdown of the Works").

2.4.1 Modifications to Calendar of Execution and Schedule of Works

CLIENT may request adaptations and modifications to the work schedule set forth in Exhibit C and D, provided that the request is made in writing and made no later than thirty (30) days before the submission of the required authorizations and applicable approvals. Notwithstanding the foregoing, for any adaptation and modifications to the work schedules for urban redevelopment or city-owned projects, CLIENT shall request any modifications at least sixty (60) days prior to the submission of the required authorizations.

Upon CLIENT's request, CONTRACTOR shall study and define the technical, economic and financial impacts of the scheduling adaptations and modifications and provide the CLIENT with a proposal for CLIENT's requests. Any scheduling adaptations or modifications must be agreed to in writing by both Parties and any financial or other consequences related to any requested scheduling adaptations or modifications that are subsequently implemented will be borne by CLIENT.

If a change of the schedule requested by CLIENT directly causes a delay in the acceptance of any Segment, the direct or indirect consequences, including costs, will be borne by CLIENT.

2.4.2 Conditions of Execution of the Works & Safety Program

Conditions of Execution of the Works. Prior to starting the Works, CONTRACTOR will obtain all requisite information and authorizations and fulfill all administrative requirements necessary for the performance of the Works. CONTRACTOR shall provide CLIENT an organizational plan of the Works to be performed, indicating the access requirements and installation requirements for the worksites and any plans to limit the impacts on the surrounding areas.

Safety Program. CONTRACTOR will make a commercially reasonable effort to ensure safety at the worksites and their surroundings areas for the entire duration of the Works in accordance with all Applicable Law. In carrying out its responsibilities herein, CONTRACTOR shall (a) protect the lives and health of persons performing the Work and other persons who may be affected by the Work and shall erect and maintain all necessary safeguards for such safety and protection; (b) prevent damage and theft to materials, supplies, and equipment whether on worksites or stored off worksites; and (c) prevent damage to other property at worksites or adjacent thereto. CONTRACTOR shall provide CLIENT with a safety plan within thirty (30) days from Commencement Date.

2.4.3 Progress Reports; Status Meetings

Progress Reports. CONTRACTOR shall periodically, but at least monthly, provide CLIENT progress reports pertaining to the Works detailing all ongoing tasks and the progress made with respect to the Calendar of Execution and the Schedule and Breakdown of the Works.

Status Meetings. Status meetings during the Works Phase will be held on a bi-weekly basis, and may be attended by Authorized Representatives and all persons designated by CLIENT and CONTRACTOR. Meeting times and frequency will be modified upon CONTRACTOR or CLIENT mutual agreement. Meeting minutes shall be recorded by CONTRACTOR for each meeting.

2.4.4 Project Commissioning and Acceptance

Project Commissioning. The Commissioning and Quality Assurance Plan in Exhibit G establishes procedures for commissioning each Segment of the Works. Upon completion of a Segment of the Works, CONTRACTOR, in concert with CLIENT, shall conduct a thorough and systematic performance test of each element of the completed Segment of the Works per the terms of the plan. CONTRACTOR shall correct or adjust any deficiencies in accordance with Schedule 5 and the Commissioning and Quality Assurance Plan.

Acceptance. Acceptance of Work or Segment of Work shall be in accordance with the procedures established in Section 3.7 of the Main Body of the Agreement and Schedule 5.

2.5 Modification of the Works

Based on specific needs of CLIENT, CLIENT and CONTRACTOR may modify the scope of the Works by executing a Change Order upon mutual written agreement that is executed by both Parties. The Change Order shall specify the agreed upon terms and conditions of any modification of the scope of the Works. Except as provided for in Section 1.3 of the Main Body of the Agreement, the Change Order shall constitute full and final settlement of all claims arising from or related to any Work either covered or affected by the Change Order or related to the events. All Change Orders must be approved and signed by CLIENT Representative and CONTRACTOR Representative or their authorized designees.

2.6 Monitoring of the Works

2.6.1 MUSE: Real-Time Monitoring of Works

Throughout the Works Phase, CONTRACTOR will implement its Computerized Maintenance Management System ("MUSE"), to monitor the progress of the Works. The CONTRACTOR will use MUSE to measure the timeline of the upgrades and monitor its crews on a real-time basis. All Infrastructure and Artistic Lighting installations and repairs made to the System, including poles & fixture types, drivers, LED kit, etc., will be updated in MUSE to reflect new field conditions. Built-in work order schedules will be entered into MUSE to ensure that the proper equipment and materials are on the trucks before they leaves the facility.

CLIENT shall have a real-time access to MUSE to monitor the status of the streetlight asset upgrade.

2.6.2 Construction Monitoring

CONTRACTOR shall perform checks at the end of each workday to ensure that all work performed is functioning as intended.

2.6.3 Operating Center

Within ten (10) days of the Commencement Date, an Operating Center will be established which shall have the requisite personnel, technology and equipment to monitor the indicators (MUSE reports), System alerts and the real-time location of site technicians for a holistic status of the System, Smart City Instruments and Artistic Lighting installations.

The Operating Center shall be equipped to analyze problems, communicate with site technicians and supervisors, track issues through resolutions, and escalate problems when appropriate. For emergencies or disasters, the Operating Center shall have established procedures in place to immediately contact the correct team and respond appropriately.

Responsibilities of Operating Center personnel will include:

- Phone hotline management
- Streetlight monitoring
- Emergency response
- Repairs and upgrade monitoring
- Communication and reporting between the field teams, headquarters, and the CLIENT
- MUSE administration (database updates and treatment of the work orders)

2.7 Waste Management & Recycling during the Works Phase.

During the Works Phase, recycling management processes will be integrated throughout CONTRACTOR's day- to-day operation (ISO 9001-14001). CONTRACTOR shall procure and/or maintain the appropriate recycling and disposal facilities.

2.8 Project and Performance Baseline Inventory

CONTRACTOR has conducted a baseline audit of the operational performance of the System and has provided CLIENT with the full inventory of the assets, which has been incorporated into MUSE, and relied on

as the System Baseline under Section 1.1 of Appendix 3A "Services Performance Objectives and Penalties/Incentives" of Schedule 3.

Pursuant to Section 5.1 of the Main Body of the Agreement, no later than thirty (30) days prior to the Acceptance Date of the Final Segment of the Works, CONTRACTOR shall conduct an audit and inventory of the operational performance of the System after all the Infrastructure is installed. If additional Energy Savings are recognized after the audit and inventory, CONTRACTOR shall integrate and use all resulting data to calculate and revise the Performance Baseline and adjust Section 1.1 of Appendix 3A "Services Performance Objectives and Penalties/Incentives" of Schedule 3, accordingly.

2.9 Measurement and Verification Plan: Energy Savings

Within sixty (60) days of the Commencement Date, CONTRACTOR shall provide CLIENT with a written Measurement and Verification Plan (M&V Plan), which shall be based on the International Performance Measurement and Verification Protocol (IPMVP). The M&V Plan shall provide the CLIENT with an accurate assessment of Energy Savings for an Annual Period and identify any Savings Excess or Savings Shortfall for the corresponding Annual Period in accordance Performance Assurance Reconciliation of Appendix 3A of Schedule 3 below.

ARTICLE 3: Technical Scope of Works:

The technical Scope of Works is detailed in Exhibit A (Phase III: Lighting Conversion Implementation Plan).

ARTICLE 4: Technical Specifications and Drawings:

The Works shall be performed in accordance with the technical specifications and drawing set forth in Exhibit E.

APPENDIX 2A TO SCHEDULE 2– Works Performance Objectives and Penalties

The Works Performance Objectives and Penalties are set forth below. Section 1 details the Key Performance Indicators (KPIs) that will be measured and evaluated during the Works Phase and serve as CONTRACTOR's performance metrics for the Works Phase. Section 1 details each KPI that will be measured and provides the respective formula used during the Agreement to measure the Works KPIs. Section 2, below, provides a quick reference table that details the Works KPIs and commitments. Section 3, below, depicts the penalties calculations applied for each KPI should CONTRACTOR not satisfy its respective commitments.

1. Works Phase Commitments

1.1 Starting Date of Works (Ksd)

CONTRACTOR commits to commencing the Operation and Maintenance of the System pursuant to Section 2.3 of Schedule 2 on or before the Commencement Date.

1.2 Commissioning (Kc)

Within twelve (12) months of the Commencement Date, CONTRACTOR commits to submitting the certificate of substantial completion for the Final Segment of the Works, pursuant to the Commissioning and Quality Assurance Plan.

1.3 Recycling/Disposal (Kr)

CONTRACTOR shall recycle or properly dispose of the Lamps, housing and miscellaneous electronics of the existing fixtures. CONTRACTOR commits to achieving a 90% recycling rate, which shall be measured in accordance with the below KPI formula (Kr). Per the below formula, one (1) Lamp and associated housing and one (1) miscellaneous electronics per street light shall equal one (1) set of materials for the terms of this KPI. This commitment will be measured at the completion of the Works Phase and be based on CONTRACTOR's disposal records.

$$Kr = \frac{R}{S}$$

With S= Number of upgraded street lights
R= Number of sets of materials recycled/properly disposed

2. KPI Table

Category	Sub-category	Designation	Commitment	Unit	Periodicity
Construction	Operation and Maintenance	Ksd - Starting date	Commence Operation and Maintenance of System on or before Commencement Date	Business Day	Once
	Construction	Kc - Commissioning	12 months after Commencement of Works Phase for the Final Segment of the Works	Month	Once
	Construction	Kr - Recycling/Disposal rate	90%	% of recycled/disposed sources	Once

3. Performance Penalties for Works Phase

3.1 General

Works Phase penalties shall be identified, documented and agreed to by CLIENT and CONTRACTOR at the respective status meetings. Upon receipt of CLIENT's penalty notification, CONTRACTOR shall have ten (10) days to notify CLIENT in writing whether the CONTRACTOR disputes any penalty. If CONTRACTOR disputes a penalty notification, then CONTRACTOR and CLIENT shall set a meeting within twenty (20) days to review the penalty claim. Notwithstanding the foregoing, the CONTRACTOR shall timely notify the CLIENT of any KPI penalties CONTRACTOR identifies.

Non-compliance with the Works Performance Objectives will result in the application of below penalties, except where the non-compliance was caused by, wholly or partially, a Supervening Event, or delays in the start of the Works or delays in installation or commissioning of Infrastructure, Smart City Instruments or Artistic Lighting that were caused by actions not attributable to CONTRACTOR.

The payments for penalties, if any, are the sole remedy of CLIENT under the Works Performance Objectives of this Schedule. Any penalties under the Works Performance Objectives shall be deducted from the Service Payments until satisfied.

3.2 Works Phase Penalties

If CONTRACTOR does not comply with its commitments set forth above for the respective KPIs, the following penalties shall apply:

Delay in starting the Works (Ksd) = $ 1000.00 per Business Day, until effective starting date.

Delay in commissioning (Kc) =

- From 1 to 30 calendar days = 0.5 % of the non-commissioned Works Amount
- From 31 to 60 calendar days = 1 % of the non-commissioned Works Amount
- More than 61 calendar days = 2% of the non-commissioned Works Amount

The penalties for a delay in commissioning (Kc) are not cumulative. For example, the total penalty assessed for a delay in commissioning of 45 days would be 1% of the Works Amount.

Recycling (Kr)

Penalties for noncompliance of the recycling rate (Kr) for the total amount of Lamps and miscellaneous electronics =

80 % ≤ Kr < 90 % = Penalties of $ 3,000

70 % ≤ Kr < 80 % = Penalties of $ 5,000

Kr < 70 % = Penalties of $ 10,000

The penalties for a recycling (Kr) are not cumulative. For example, the total penalty assessed for a recycling rate of 75% would be $5000.00.

SCHEDULE 3: SCOPE OF SERVICES

Performance of Services after Acceptance ("Services Phase")

No later than the Acceptance Date of the Final Segment of the Works, or such other date agreed to in writing between the Parties, CONTRACTOR shall commence performance of the Services Phase. During the Services Phase, CONTRATOR shall be responsible for ensuring the technical operation and maintenance of the System to achieve Energy Savings and Services objectives. CONTRACTOR shall also render such Smart City Instrument and Artistic Lighting services as described herein.

Article 1: System Energy Savings

The following sections of this Article 1 identify and detail the programs that serve to measure, reconcile and optimize Energy Savings.

1.1 Performance Guarantee: Performance Assurance Reconciliation

The Energy Savings commitments, specifically the Performance Guarantee as described in Article 5 in the Main Body of the Agreement (Performance Guarantee), shall be measured and reconciled annually pursuant Performance Assurance reconciliation process set forth in Section 1.1 & 1.2 of Appendix 3A "Services Performance Objectives and Penalties/Incentives" of this Schedule. An Annual Performance Report will be issued upon completion of reconciliation detailing any Savings Shortfall or Saving Excess.

1.2 Measurement and Verification of the Energy Savings

During the Services Phase, CONTRACTOR shall implement the M&V Plan to measure, verify and reconcile Annual Realized Savings as part of the Performance Assurance reconciliation. Annual Period measurement and verification results shall be detailed in the Annual Performance Report.

Commencing on the Acceptance Date of Final Segment of the Works, CONTRACTOR shall provide CLIENT with read-only access to real-time System measurement and verification data in MUSE used to measure, verify and reconcile Annual Realized Savings.

1.3 Optimization of CLIENT Energy Bills

With CLIENT consent, CONTRACTOR shall review CLIENT's energy bills and provide the CLIENT with the following:

- strategies to optimize its energy supply, pricing and terms with provider, if possible;
- Follow-up, verify and validate of the invoices issued by the energy supplier(s) within the framework of the supply contracts for the consumption of electric energy;
- Assistance CLIENT with claims against the energy supplier in case of problems with the quality of the supply or noncompliance commitments made to CLIENT.

CONTRACTOR shall present the results annually with energy optimization recommendations.

1.4 Impacts on Energy Savings: CLIENT Solar Projects

CLIENT is contemplating solar projects that may impact the energy consumption and servicing of the System. This Agreement shall be modified as described herein if any solar projects impact the System or Energy Savings.

Article 2: System Operation and Maintenance

The following sections of this Article 2 detail the scope of the System's Operations and Maintenance program that will be implemented during the Services Phase. The first two sections set forth the System's asset inventory and analysis program. The third and fourth sections set forth the maintenance and repair program for the System's assets and response measures instituted during emergencies. The fifth, sixth and seventh sections depict the monitoring program for the System: MUSE, Operating Center. The final section details the recycling program for the System that will be instituted throughout the Services Phase.

2.1 Photometric Analysis

Each Annual Period CONTRACTOR shall randomly measure 1% of the System's Infrastructure to assess the System's lighting performance compliance with the IESNA Guide for Photometric Measurement of Roadway Lighting Installations. The results of the photometric analysis will be included in the Annual Performance Report and will be the basis for the KPI commitments for lighting performance (Klp).

2.2 Inventory of the assets

Throughout the Services Phase, CONTRACTOR shall maintain a continuous inventory of the System's assets in MUSE. CONTRACTOR shall deliver to CLIENT an audit report of the inventory for the System in each Annual Performance Report. The inventory report shall include:

(1) A summary description of the System; and

(2) A summary of the condition of System and its conformity to the applicable standards and procedures established in the Schedule 2 (Scope of Works).

2.3 Maintenance and Repairs

CONTRACTOR shall operate and maintain the System's lighting performance and malfunctions in accordance with below provisions and the response times and monitoring commitments defined in Appendix 3A, "Services Performance Objectives and Penalties/Incentives" to this Schedule.

The Operation and Maintenance of the System is split into two categories:

- **Scheduled and Unscheduled Maintenance** pertains to CONTRACTOR's proactive maintenance and/or restoration of the Infrastructure to its proper functioning status.
- **Repair(s)** pertains to CONTRACTOR's repairs rendered necessary by the history of the System (including but not limited to repair and replacement of Non-Upgraded System Assets) and/or unforeseen events (including, but not limited to, abnormal use, vandalism and accidents).

2.3.1 Scheduled and Unscheduled Maintenance

Scheduled Maintenance. CONTRACTOR's Scheduled Maintenance program is designed to optimize the lighting performance and reduce the outage rate through proactive monitoring of the System. As part of its

Scheduled Maintenance program, CONTRACTOR shall perform preventative maintenance on the System as set forth below.

- Complete audit of the assets at the beginning of Services Phase to identify general asset conditions for preventive maintenance planning.
- City-wide day and night patrols for outages, day burns, and related maintenance issues. The entire System will be patrolled at least once a month.
- Cleaning of the fixtures as needed.
- Use of the MUSE and other advanced tools for predicting issues, scheduling preventive maintenance, and maintaining asset inventory and stock management.

Unscheduled Maintenance. Unscheduled Maintenance refers to CONTRACTOR's obligations to maintenance and repair any Infrastructure outages and malfunctions that are caused by Normal Wear and Tear of the Infrastructure or caused by defective Infrastructure. Unscheduled Maintenance will also include outages caused by Normal Wear and Tear to System assets that have been upgraded in accordance with Section 2.3.2 below. Unscheduled Maintenance does not include repairing outages caused by deterioration (i.e. abnormal wear or aging), accidents, acts of vandalism or acts of god.

All Scheduled Maintenance and Unscheduled Maintenance activities are covered under the monthly Services Payment amounts during the Service Phase.

2.3.2 Repairs

CONTRACTOR shall make the necessary Repairs for System outages, System malfunctions and damages to the System that are caused by the Normal Wear and Tear of Non-Upgraded System Assets or caused by deterioration (i.e. abnormal wear or aging), accidents, acts of vandalism or acts of god.

The cost of the Repairs made to the System shall be based on the list of Unit Prices for the category "Current Maintenance", as set forth in Exhibit B. CONTRACTOR shall submit to CLIENT, for written approval, a work order that includes the cost provisions of each Repair within ten (10) days of the reported outage, malfunction or damage. In the absence of written approval from CLIENT to perform the Repairs within fifteen (15) Business Days following receipt of CONTRACTOR's costs provisions and work order, all related KPIs and their associated penalties shall be temporarily suspended and unenforceable and CONTRACTOR shall not be obligated to make any such Repairs until receipt of CLIENT written authorization.

During an Annual Period, the costs of any outage, malfunction or damage to the System that require Repairs, as described in this Section 2.3.2, shall be covered under the Annual Period's Services Payments, up to an amount of $100,000.00 ("Damage Amount"). Any costs for Repairs that exceed the Damage Amount in any Annual Period shall be separately billed or surcharged and paid by CLIENT from sources other than the Revenue Fund, unless otherwise agreed to in writing. If the CLIENT lacks other available funds to pay for the Repairs above the Damage Amount, CONTRACTOR shall not be obligated to make any such Repairs and all related KPIs and their associated penalties shall be temporarily suspended and unenforceable until such other funds are made available.

CLIENT acknowledges that it shall receive and take title to any repaired or replaced parts of the System described under this Section upon completion of installation, inspection and acceptance.

2.3.3 Incident Report

In cases of System damage, outage or malfunction caused by a third party or act of god, CONTRACTOR shall administratively manage the matter as follows.

Once the damage, outage or malfunction is observed or reported, CONTRACTOR shall:

- secure the concerned part of the System;
- make reasonable efforts to identify the third party at fault, if any;
- make reasonable efforts to collect information and document the incident (driver information, contact information, police report number, etc.);
- assist, if applicable, with assessment activities.

CONTRACTOR shall generate a report of each incident and provide it to CLIENT.

2.4 Emergency response.

As part of the Services Payment, CONTRACTOR shall maintain on-call field personnel who are operational 24 hours per day, 365 days per year. On-call technicians shall have the authority to take initiatives and make decisions in emergency situations. On-call technicians shall have all necessary tools and plans (keys, operating diagrams, city on-call numbers, etc.) at their disposal to make the conditions safe and/or re-establish the System elements within the response times defined in Appendix 3A, "Services Performance Objectives and Penalties/Incentives" to this Schedule.

Emergency response scenarios include:

- Those caused by outside influences, presenting an immediate danger to the public, such as a vehicle striking a pole or downed wires;
- Those caused by faulty System elements, such as a faulty cable or bad splice causing a mass outage; and
- Those that would not normally be deemed an emergency but for extenuating circumstances, such as a "light out" in an already under-lit area or a missing base door on a pole in close proximity to a school or day care center.

In the event of the first type of emergency, such as a pole down, CONTRACTOR shall secure the area, the extent of the damage shall be surveyed, and a report shall be generated recommending the next course of action. The appropriate action will then be placed on the schedule for Repairs.

In the event of the second type of emergency, such as faulty System equipment or infrastructure, CONTRACTOR shall visit the site immediately to do a visual inspection of the area. His/her observations shall then be relayed to the appropriate teams in order to expedite the Repair or Unscheduled Maintenance.

In the event of the third type of emergency, a CONTRACTOR shall direct a team to the site to affect immediate Repairs or Unscheduled Maintenance actions.

In each case, if the damage is due to a third party or act of god, CONTRACTOR shall take pictures and generate a report that includes all of the pertinent information (driver information, contact information, police report number, etc.) in accordance with Section 2.3.3 of this Schedule. The report shall be sent to CLIENT.

2.5 Centralized Maintenance Management Software (MUSE)

During the Services Phase, CONTRACTOR will use its Computerized Maintenance Management System ("MUSE"), to monitor the entire scope of the System and Artistic Lighting installations. CLIENT shall have access to MUSE database, which shall be updated on a real-time basis.

MUSE shall provide the following:

- The System asset data (database, cartography, condition of the System assets, photo, description of Artistic Lighting sites)
- The current maintenance data (tickets, work orders, feedback, response time, day and night patrols
- The preventive data (schedule, status, measurements)
- The rate energy consumptions data (wattage, control)
- The works schedule

2.5.1 MUSE: Daily Work Schedules

Throughout the Services Phase, CONTRACTOR shall implement MUSE in order to organize each team's daily work. CONTRACTOR shall implement the following process to prioritize and execute work schedules in response to outage reports:

- Step 1: An outage is reported by any source (Operating Center, CLIENT, patrols, etc.);
- Step 2: CONTRACTOR's management team prioritizes the reported outage and distributes it to the appropriate maintenance team using MUSE's advanced prioritization functionalities;
- Step 3: MUSE electronically sends work order to maintenance team;
- Step 4: The maintenance team completes repair / maintenance work and submits completion report to the central MUSE server;
- Step 5: The management team checks the job and automatically updates the MUSE asset database.

All actions shall be recorded and stored in the MUSE, establishing a record of maintenance for each asset and a detailed history of each work order.

2.5.2 MUSE: Performance Monitoring

During the Services Phase, CONTRACTOR will use MUSE to measure the timeline of the maintenance and repairs as well as the performance of the System. CONTRACTOR's crews shall be monitored on a real-time basis and each step of the process shall be logged into the system for review and verification. All System changes, including poles & fixture types and/or LED kits, shall be updated in MUSE on a regular basis to reflect the new field conditions.

2.5.3 MUSE: Analysis and Reporting Tools

During the Services Phase, the analysis and reporting tools of MUSE shall be the primary means for monitoring the status of the System and the primary database function utilized to validate and verify KPI commitments set forth in Appendix 3A below (with the exception of lighting performance (Klp)).

2.6 Operating Center.

CONTRACTOR shall continue to operate throughout the Services Phase the Operating Center established in the Works Phase.

Responsibilities of Operating Center personnel shall continue to include:

- Phone hotline management
- Streetlight monitoring
- Emergency response
- Repairs and upgrades monitoring
- Communication and reporting between the field teams, headquarters, and the CLIENT

2.7 Waste Management & Recycling.

Recycling management processes shall be integrated throughout CONTRACTOR's day- to-day operation (ISO 9001-14001). CONTRACTOR shall procure and/or maintain the appropriate recycling and disposal facilities.

Article 3: Services Phase System Reports

3.1 Monthly Reports

CONTRACTOR shall provide a monthly report of the operations and maintenance activities for the preceding month, including the KPI values, within seven (7) Business Days after the conclusion of each calendar month.

3.2 System Annual Performance Report

CONTRACTOR shall provide an Annual Performance Report of the System's operating results for each Annual Period, which shall detail the achieved Energy Savings and the Services objectives of the System. The Annual Performance Report will be provided to CLIENT for review and acceptance within thirty (30) days after the close of each Annual Period.

Article 4: Smart City Instruments and Artistic Lighting Operation and Maintenance

CONTRACTOR shall maintain the Artistic Lighting installations and Smart City Instruments in a fully operable and functional condition throughout the Services Phase. Any repairs or replacement of Artistic Lighting installations and Smart City Instruments shall be authorized in writing by the CLIENT and separately billed or surcharged to CLIENT on a time and materials basis and paid by CLIENT from sources other than the Revenue Fund, unless otherwise agreed to in writing. If the CLIENT does not have other available funds to pay for the repair or replacement of Artistic Lighting installation and Smart City Instruments, CONTRACTOR shall not be obligated to make such repairs and all related KPIs and their associated penalties shall be temporarily suspended and unenforceable until such other funds are made available.

Any maintenance activities performed on the Artistic Lighting installations and Smart City Instruments shall be included in the monthly report described above.

Article 5: Services Phase Incentives & Penalties, Site Visits and Status Meetings

5.1 Incentives and Penalties

In fulfilling its obligations as detailed hereunder, CONTRACTOR shall be subject to the Services Performance Objectives, as defined in Appendix 3A of this Schedule, "Services Performance Objectives and Penalties/Incentives". In the interest of both Parties, incentive and penalty metrics based on performance indicators are established in Appendix 3A of this Schedule as basis to measure the Services Performance Objectives.

Non-compliance with the Services Performance Objectives shall result in the application of penalties, as defined in the Appendix 3A of this Schedule, except where the non-compliance was caused by, wholly or partially, a Supervening Event or accidents, acts of vandalism or malfunction of the System due to actions not attributable to CONTRACTOR.

The penalties, if any, are the sole remedy of the CLIENT under the Services Performance Objectives of this Schedule, except as provided for in Section 4.1.1(e) of Appendix 3A.

5.2 Site Visits

Upon request and within a reasonable timeframe, the CLIENT Representative or his designee will be afforded the opportunity to visit and inspect the System during the Services Phase. A report summarizing the inspection will be provided to the CLIENT by the CONTRACTOR following the CLIENT'S inspection.

5.3 Status Meetings

Status meetings during the Services Phase will be held on a bi-weekly basis, and may be attended by all persons designated by the CLIENT and the CONTRACTOR. Meeting times and frequency will be modified upon CONTRACTOR or CLIENT mutual agreement. CONTRACTOR shall record and provide the CLIENT with the meeting minutes for each meeting.

Article 6: Technical Monitoring Committee; Technical Advancements

6.1 Technical Monitoring Committee

The CONTRACTOR commits to ensure ongoing technical monitoring in order to allow the CLIENT to benefit from Technological Advancements and to remain informed about changes in standards and regulations.

A Technical Watch Committee shall be created for this purpose. The Technical Watch Committee shall consist of an equal number of representatives from the CLIENT and from the CONTRACTOR and shall meet at the end of each Annual Period. The agenda of the meetings shall be established by the CONTRACTOR with the CLIENT's input. The purpose of these meetings shall be to inform the CLIENT about:

- potential Technological Advancements and their impact on the execution of the Agreement; and
- potential changes in any standards and regulations and about their impact on the performance of the Agreement.

6.2 Installation of Technological Advancements

CONTRACTOR shall develop a technical and financial analysis for any Technological Advancements the CLIENT requests implemented. The technical and financial analysis shall include a draft implementation and cost schedule for the installation of the Technological Advancements, as well as identify impacts the installation will have on the operating and maintenance costs of the System. Any installation of Technological Advancements shall be agreed to in writing by the Parties. The cost of the installation of any Technological Advancements will be entirely borne by the CLIENT.

The installation of Technological Advancements may have a positive or negative impact on Energy Savings and the costs of Services. Any adjustments whether in the form of savings or increased costs will be reflected in the Services Payments. If the installation of Technological Advancements causes a Material Change in the System, then the Performance Guarantee shall be adjusted in accordance with Article 5 of the Main Body of this Agreement.

Article 7: Additional Street Lights, Artistic Lighting and Smart City Projects

7.1 Addition of Street Lights to System

Upon mutual written agreement executed by both the Parties, CLIENT may request and CONTRACTOR will install and/or provide Services for additional street lights that were not part of the System on the Acceptance Date. CLIENT will provide official documents detailing the number and the nature of the additional street lights, and all other related documentation and drawings. The remuneration for the construction and installation of any additional street lights shall be agreed to by the Parties and shall be separately billed or surcharged to the CLIENT. Adjustments to the Service Payments for Services rendered for any additional street lights will be made in accordance with Section 1.1.2 of Schedule 4.

Any additional street lights integrated into the System after the Acceptance Date will be considered a Material Change to the System. The Parties shall modify the Performance Baseline and Services Performance Measures Objectives to account for the Material Change without resulting in a Savings Shortfall or penalties.

7.2 Additional Artistic Lighting and Smart City Projects

Upon mutual written agreement that is executed by both Parties, CLIENT and CONTRACTOR may modify this Agreement for the provision of additional artistic lighting projects and/or smart city installations to be provided during the Services Phase. The modification shall specify the agreed upon terms and conditions for any additional artistic lighting projects and/or smart city installations.

7.3 Additional Funding Sources

By execution of this Agreement, the CLIENT, without any further approvals needed, has been duly authorized by its respective authorities to use (but is not required to use) additional savings and additional funding sources derived herein and from ancillary engagements to fund the construction and maintenance of additional street lights, artistic lighting and smart city projects.

APPENDIX 3A TO SCHEDULE 3 – Services Performance Objectives and Penalties/Incentives

The Services Performance Objectives, Penalties and Incentives for the System are detailed below. Sections 1 and 2 describe the System's Key Performance Indicators (KPIs) that will be measured and evaluated during the Services Phase and serve as CONTRACTOR's performance metrics for the System during the Services Phase. Sections 1 and 2 below describe each KPI that will be measured and provide the respective formula used during the Agreement to calculate the KPIs. Section 3, below, details CONTRACTOR's commitments for each KPI, which will be measured in accordance with Section 1 and 2. Section 4, below, depicts the penalties and incentives calculations applied to each commitment.

The below KPIs apply only to the System. The below KPIs do not apply to the Artistic Lighting installations or Smart City Instruments.

1. Energy Savings: System Performance Guarantee KPI

1.1 System Guaranteed Annual Savings (Ke)

Guaranteed Annual Savings reflects the annual savings in kWh that CONTRACTOR commits to under the Performance Guarantee. Guaranteed Annual Savings is the difference in kWh between the System Baseline and the Performance Baseline over an Annual Period. CONTRACTOR commits to achieving the Guaranteed Annual Savings during the Performance Guarantee Period. The Guaranteed Annual Savings commitment is reconciled through the calculation of the Annual Realized Savings for an Annual Period and comparing that result to the Guaranteed Annual Savings for the corresponding Annual Period, pursuant Section 1.2 of this Appendix 3A, below.

In accordance with the M&V Plan, CONTRACTOR shall calculate Annual Realized Savings by taking the difference in kWh between the actual energy consumption of the System and the System Baseline for the respective Annual Period. The commitment in terms of Guaranteed Annual Savings is set forth below:

The KPI associated to the Guaranteed Annual Savings (Ke) is calculated as follow:

$$Ke = K_{sb} - K_{pb}$$

Where:

Ke = 14,471,605 kWh per Annual Period
K_{sb} = 23,752,007 kWh per Annual Period
K_{pb}= 9,253,402 kWh per Annual Period

AND

$$K_{sb} = K_{sb_{metered}} + K_{sb_{unmetered}}$$

Where:

K_{sb} = System Baseline: Total consumption in kWh for an Annual Period prior to Works, the sum of metered and unmetered lights

$K_{sb\ metered}$ = Total measured kWh usage of metered street lights in the System Baseline for an Annual Period, as measured and billed by Public Service Company of New Mexico
$K_{sb\ unmetered}$ = Total expected kWh usage of unmetered street lights in the System Baseline for an Annual period, as defined by the corresponding "Monthly kWh Usage" (multiplied by 12) in Exhibit A for each streetlight in the inventory.

AND

$$K_{pb} = K_{pb_{metered}} + K_{pb_{unmetered}}$$

Where:

K_{pb} = Performance Baseline: Total consumption in kWh for Annual Period after completion of Works, the sum of metered and unmetered lights
$K_{pb\ metered}$ = Total measured kWh usage of metered street lights in Performance Baseline for an Annual Period, as measured and billed by Public Service Company of New Mexico
$K_{pb\ unmetered}$ = Total expected kWh usage of unmetered street lights in the Performance Baseline for an Annual period, as defined by the corresponding "Monthly kWh Usage" (multiplied by 12) defined in PNM Rate 20 for each streetlight in the to-date Muse defined inventory.

1.2 Performance Assurance Reconciliation

A Performance Guarantee Period savings reconciliation will be performed at the end of each Annual Period as follows unless otherwise agreed:

(a) At the conclusion of each Annual Period, CONTRACTOR will calculate the System's Annual Realized Savings and compare the result to the Guaranteed Annual Savings for the corresponding Annual Period.

(i) Should the Annual Realized Savings be greater than the Guaranteed Annual Savings for the corresponding Annual Period, a Savings Excess shall be recorded accordingly and paid in accordance with Section 4.2.2 of this Appendix 3A.

(ii) Should the Annual Realized Savings be less than the Guaranteed Annual Savings, a Savings Shortfall shall be recorded and paid in accordance with the terms below and Section 4.1.2 of this Appendix 3A.

(b) Within sixty (60) days following issuance and acceptance by CLIENT of the Annual Performance Report for the corresponding Annual Period, CONTRACTOR shall pay to CLIENT the Savings Shortfall, if any, identified in the Annual Performance Report and shall have fulfilled its obligations under the Performance Guarantee for the applicable Annual Period and the Shortfall Payment being then equal to the Guaranteed Annual Savings for the applicable Annual Period.

(c) The payments and credits based on Savings Shortfalls, if any, are the sole remedy of CLIENT under this Performance Guarantee; provided, however, if the Penalties Cap is exceeded, CLIENT shall have the right to terminate the Agreement pursuant to Section 9.1(b)(1) of the Main Body of the Agreement.

2. System Operations & Maintenance KPIs

CONTRACTOR will operate and maintain the System throughout the Services Phase of the Agreement, subject to the penalties and incentives for the below KPIs.

2.1 Accuracy of MUSE Database (Km)

During Services Phase, CONTRACTOR will implement its MUSE software to monitor the assets. Through the software, CLIENT will be able to monitor CONTRACTOR's performance objectives (KPIs) and CONTRACTOR's contractual commitments. The KPI for the accuracy of the MUSE database reflects CONTRACTOR's commitment to providing accurate and timely data inputs for System monitoring. CONTRACTOR commits to a 99% accuracy rate for a given month. The following formula shall be used to calculate the Accuracy of MUSE Database (Km):

$$Km = 1 - \frac{D}{S}$$

with: D = number of major discrepancies in MUSE CLIENT has notified CONTRACTOR of during the respective month (except additional assets or changes CLIENT has not communicated to CONTRACTOR)
S = number of street lights existing in the inventory during the month

2.2 Outage rate (Ko)

CONTRACTOR will measure the number of street light outages that occur each month. This KPI measures the Scheduled Maintenance program's efficiency in proactively servicing the System to prevent outages. CONTRACTOR commits to a less than 2% outage rate for existing inventory for the respective month. The KPI associated with the monthly outage rate is calculated as follows:

$$Ko = \frac{P}{S}$$

with: P = number of outages during the month
S = number of street lights existing in the inventory during the month

Notwithstanding the foregoing, outages caused by CLIENT or third-party actions, whether construction or otherwise, accidents, vandalism, or CLIENT's decision to turnoff or shutdown the System or any part thereof for any reason will not be included in the outage rate measurement.

2.3 Availability of the assets (Ka)

The KPI for the availability of the assets (Ka) measures the average percentage of time that the System is operating on a monthly basis. For this KPI, CONTRACTOR reviews each street light individually to calculate the number of days that each street light is operating and functioning within the respective month. The KPI associated with the monthly availability of the assets is calculated as follow:

$$Ka = \frac{\sum_i^N (\frac{d_i}{D_m})}{N}$$

With: N = the number of fixtures existing in the inventory for the month (i.e. the total number of street lights less accepted or scheduled outages)
D_m = Days in the given month
d_i = days that the given fixture (i) was out during the month
Ka = the average amount of time all fixtures were out each month (calculated on an individual basis)

The operational or functional status of streetlight for the terms of calculating this KPI does not include malfunctions or operational issues caused by CLIENT or third-party actions, whether construction or otherwise, accidents, vandalism, or CLIENT's decision to turnoff or shutdown the System or any part thereof for any reason.

2.4 Self-detection (Ks)

Self-detection of outages reflects CONTRACTOR's commitment to proactively monitor the System. Through its self-detection program, CONTRACTOR patrols the System in order to proactively locate and repair outages. CONTRACTOR commits that it will self-detect at least 75% of the outages inputted into MUSE in a given month. The KPI associated for the monthly self-detection rate is calculated as follow:

$$Ks = \frac{NOC}{P}$$

With: NOC = Number of outages CONTRACTOR detects in a month
P=Total number of inputted outages in a month (which includes CLIENT's and third party reported detections)

2.5 Emergency Response time / Delay of Unscheduled Maintenance or Repairs

Under the below subsections, CONTRACTOR commits to intervene in cases of outages, malfunctions or damages to the System in order to:

- Secure the installation in emergencies, if necessary
- Proceed with the repairs within the response times

Notwithstanding anything herein, if CONTRACTOR is required to obtain approval from CLIENT or permit for maintenance of traffic (MOT) or if the malfunction or outage is inaccessible due to no fault of CONTRACTOR or if materials need to be procured, CONTRACTOR shall diligently work to obtain the requisite approval, permits, access and/or materials and shall be allotted a reasonable amount additional time to meet the KPI commitments set forth below.

2.5.1 Emergency Response time (Kt)

In cases of System outage, malfunction or damage that are a public safety concern as set forth in Section 2.4 of Schedule 3, CONTRACTOR commits to respond to the outage, malfunction or damage within one (1) hour of the detection or notice. CONTRACTOR commits to be at the location of the outage, malfunction or damage and to commence the necessary actions to secure the site within the stated timeframe. The KPI associated with the emergency response time (Kt) is calculated as follow:

- From the detection of the street light outage or damage that is a public safety concern by CONTRACTOR or receipt of an email/fax/call from authorized person(s) (CLIENT, police, firemen, or other persons designated by CLIENT and CONTRACTOR is on notice of)

- And shall continue until CONTRACTOR is onsite to secure the installation.

This KPI is calculated only for the cases where the installation must be secured in CONTRACTOR's professional judgment. If simultaneous street light outages or damages occur that are of a public safety concern, Kt penalty metric shall only apply to the first received report. CONTRACTOR shall respond to subsequent reported emergencies in order of priority and/or receipt.

2.5.2 Delay of Unscheduled Maintenance or Repairs (Kd1, Kd2, Kd3)

Kd_1 and Kd_2. In cases of street light outages caused by or related to the Equipment malfunction only, CONTRACTOR commits to repair the outage within the timeframes described below for Kd_1 and Kd_2. The metrics used to determine compliance with delay of Unscheduled Maintenance or Repairs for Kd_1 and Kd_2shall be calculated as follows:

- From the detection of the Equipment malfunction by CONTRACTOR or receipt of an email/fax/call from authorized person(s) (CLIENT or other persons designated by the CLIENT and CONTRACTOR is on notice of)

- And shall continue until CONTRACTOR repairs outage.

Commitments for the Delay of Unscheduled Maintenance or Repairs for Kd_1 and Kd_2 are as follows:

- The KPI for Kd_1 shall apply for single street light outage or malfunction. CONTRACTOR commits to repair a single outage or malfunction within 48 hours of detection or notice.
- The KPI for Kd_2 shall apply when more than three (3) street lights in a row are out or malfunctioning. CONTRACTOR commits to repair such outages within 4 hours of detection or notice.

Kd_3. In cases of street light outages caused by or related to damage to the poles, arms or foundations, CONTRACTOR commits to repair the outage within the timeframes described below for Kd_3. The metrics used to determine compliance with delay of Unscheduled Maintenance or Repairs commitments for Kd_3 shall be calculated as follows:

- From the detection of the outage by the CONTRACTOR or receipt of an email/fax/call from authorized person(s) (CLIENT or other persons designated by the CLIENT and CONTRACTOR is on notice of)

- And shall continue until CONTRACTOR repairs outage.

Commitments for the Delay of Unscheduled Maintenance or Repairs for Kd_3 is as follows:

- For KPI for Kd_3, CONTRACTOR commits to repair the outage within 6 weeks.

2.6 Monthly Reports (Kq)

CONTRACTOR shall provide a monthly report of its operations and maintenance activities for the preceding month, including the KPI values, within seven (7) Business Days after the conclusion of each calendar month.

2.7 Lighting Performance (Klp)

During the Services Phase, CONTRACTOR shall randomly measure 1% System's Infrastructure each Annual Period to assess the System's lighting performance compliance with the IESNA Guide for Photometric Measurement of Roadway Lighting Installations. CONTRACTOR will measure the lighting performance of the sampled lights to determine compliance with the illuminance standards set forth in the IESNA Guide for Photometric Measurement of Roadway Lighting Installations for the respective roadway.

CONTRACTOR commits to achieving 100% compliance for lighting performance in the sampled street lights, considering the space-to-mounting ratio is between 3 and 5. Calculations to determine compliance with lighting performance commitment shall be based on the below formula:

The KPI associated with the lighting performance is calculated as follow:

Considering: $3 \leq \frac{S}{MH} \leq 5$

$$Klp = \frac{I + \left(E_{avg} / E_{min}\right)}{I_0 + \left(E_{avg0} / E_{min0}\right)}$$

with:

S/MH =	Spacing-to-mounting height ratio, ratio of the distance between luminaires centers, along the center line of the street, to the mounting height above the roadway
I =	Average measured Illuminance (Lux)
I_0 =	IES reference value for the considered type of configuration (see tab below)
E_{avg} =	minimum maintained average horizontal illuminance at pavement
$E_{avg}0$ =	IES reference value for the minimum maintained average horizontal illuminance at pavement (see tab below)
E_{min} =	minimum maintained horizontal illuminance at pavement
$E_{min}0$ =	IES reference value for the minimum maintained horizontal illuminance at pavement (see tab below)

Road Type		Average Illuminance Level	Eavg0/ Emin0
URBAN LOCAL	high	9	6
URBAN LOCAL	medium	7	6
URBAN LOCAL	Low	4	6
COLLECTOR	high	12	4
COLLECTOR	medium	9	4
COLLECTOR	low	6	4
MAJOR	high	17	3
MAJOR	med	13	3
MAJOR	low	9	3
FREEWAY A	high (A)	9	3
FREEWAY B	med (B)	6	3

2.8 Average Installed Wattage (Kw)

The average installed wattage (Kw) reflects the total wattage of the System upon completion of the Works. Maintenance of the averaged installed wattage at a consistent rate throughout Agreement plays an important role in maintaining Energy Savings and lighting performance. The average installed wattage metric reflects CONTRACTOR's commitment to repairing and/or replacing street lights with infrastructure that is consistent with the System's wattage output after Acceptance. CONTRACTOR's commitment for average installed wattage (Kw) is 86 Watts which shall be measured in accordance with the below KPI formula Kw. The KPI Kw shall be calculated on an annual basis and included in the Annual Performance Report.

$$Kw = \frac{W}{S}$$

with: W = Total Wattage after Acceptance of Works
S = Number of street lights taken into account during the Annual Period

3. KPI Table

Category	Sub-category	Designation	Commitment	Unit	Periodicity
Energy	Consumptions	Ke – Guaranteed Annual Savings	14,471,605	kWh	Each Annual Period
Operations & Maintenance	Operations & Maintenance	Km - Accuracy of MUSE database	99 %	% of assets	Monthly
	Maintenance	Ko - Outage rate	Less than 2%	% of assets	Monthly
	Maintenance	Ka - Availability of the assets	More than 98%	% of assets	Monthly
	Operations	Ks - Self-detection	More than 75%	% of tickets	Monthly
	Operations	Kt – Emergency Response time	1 hour	Hour	Per occurrence
	Operations	Kd_1 - Delay of Unscheduled Maintenance or Repairs– single SL*	48 hours	Business Day	Per occurrence
	Operations	Kd_2 - Delay of Unscheduled Maintenance or Repairs – more than 3 SL* in a row	4 hours	Hour	Per occurrence
	Operations	Kd_3 - Delay of Unscheduled Maintenance or Repairs – Poles, Arms & Foundation	6 Weeks	Business Day	Per occurrence
	Operations	Kq – Monthly Report	one report	Report	Monthly
	Operations	Klp - Lighting Performance	100 %	% of IES standard values	Each Annual Period
	Operations	Kw – Average Installed Wattage	86 W	W	Each Annual Period

*SL = Street Light

4. Performance Penalties and Incentives

4.1 Penalties

4.1.1 General Conditions

(a) MUSE. MUSE shall be platform used to verify compliance with Operation and Maintenance commitments for the penalties hereunder (except for the KPI for lighting performance which will be reconciled in a separate report).

(b) Savings Shortfalls. Any Saving Shortfalls will be reconciled on an annual basis in accordance with the terms and conditions of Section 1.1 & 1.2 of this Appendix 3A.

(c) O&M Penalties: Notice. If CLIENT observes any delay, lack of performance or other failures of CONTRACTOR to achieve its KPI commitments which are not then properly documented and reflected in MUSE or in the lighting performance report, CLIENT shall notify CONTRACTOR at the next status meeting of the observed occurrence or deficiency. Upon receipt of the notification, CONTRACTOR shall have ten (10) Business Days to notify CLIENT in writing whether CONTRACTOR disputes CLIENT's claim. If CONTRACTOR disputes the penalty notification, then CONTRACTOR and CLIENT shall set a meeting within twenty (20) days to review CLIENT's penalty claim. If CONTRACTOR does not dispute the claim, CONTRACTOR shall reduce the CLIENT's next monthly invoice by the appropriate penalty amount. Notwithstanding the foregoing, the CONTRACTOR shall timely notify the CLIENT of any KPI penalties CONTRACTOR identifies.

(d) Application of O&M Penalties. The penalties apply on the monthly Services Payments only. No penalties will apply on Works Payments.

(e) Service Payment Setoff. If CONTRACTOR incurs monthly KPI penalties that amount to more than seventy-five percent (75%) of the amount of the monthly Service Payment in three (3) consecutive months, then CLIENT, without being in default hereunder, has the right to withhold or setoff the next month's Service Payment and every months' Service Payment thereafter until CONTRACTOR's monthly penalties for a subsequent month are less than seventy-five percent (75%) of the amount for that subsequent month's Services Payment amount. CLIENT shall be obligated to pay the CONTRACTOR any setoff or withheld Service Payment amount, less any penalties, upon a subsequent month's penalty amount being less than seventy-five percent (75%) of that month's Service Payment amount.

(f) Penalties Cap. The Parties agree that cumulative amount of all Savings Shortfall and O&M penalty payments made to CLIENT or deducted from the Services Payments under the terms of this Agreement shall not exceed $1,000,000.00 ("Penalties Cap"). CONTRACTOR shall have no obligation to pay or deduct any penalties or shortfall amounts above the Penalties Cap. Notwithstanding Section 9.1(b)(1)(i) in the Main Body of the Agreement, CLIENT shall have the right to terminate the Agreement pursuant to Section 9.1(b)(1) in the Main Body of the Agreement, subject to the applicable Termination Payment, if cumulative amount of all Savings Shortfall and O&M penalty payments equals or exceeds Penalties Cap.

(g) Supervening Event; CLIENT Breach of Obligation. All penalties stated herein under the Services Phase and the enforcement thereof shall be suspended during any Supervening Event or during any duration CLIENT is in breach of its obligations under this Agreement. The penalties will not be reinstituted until the cause of the event has been resolved and the System has been restored to its pre-event condition and/or CLIENT has cured any breach.

4.1.2 Energy : Savings Shortfall

If CONTRACTOR doesn't reach its commitments for an Annual Period for Ke, then a Savings Shortfall occurs and CONTRACTOR will reimburse the balance to CLIENT as described below and in accordance with the "Performance Assurance Reconciliation" described in Section 1 of this Appendix 3A.

KPI	KPI value	Penalty Value (Pe)
Guaranteed Annual Savings (Ke)	$KeY \leq Ke$	- 1.0 x AES

With Savings)

Ke = contractual reference (see Section 3 above, KPI) (Guaranteed Annual

KeY = real value of the considered Annual Period (Annual Realized Savings)
AES = difference between the expected and real kWh (KeY-Ke) consumed multiplied by the Constant Energy Rate.

4.1.3 Operations & Maintenance

For each following KPI below, if CONTRACTOR fails to reach its commitments, the associated coefficient or amount will be applied to or deducted from the next month's Services Payment.

Monthly Measured O&M KPIs

KPI	KPI's value	Penalties Coefficient (Pm)
Accuracy of MUSE Database (Km)	$95\% \leq KmM < 99\%$ $90\% \leq KmM < 95\%$ $80\% \leq KmM < 90\%$ $70\% \leq KmM < 80\%$ $KmM < 70\%$	0.99 0.95 0.90 0.75 0.60
KPI	**KPI's value**	**Penalties Coefficient(Po)**
Outage Rate (Ko)	$4\% \geq KoM > 2\%$ $6\% \geq KoM > 4\%$ $8\% \geq KoM > 6\%$ $KoM > 8\%$	0.97 0.90 0.75 0.60
KPI	**KPI's value**	**Penalties Coefficient (Pa)**
Availability of Assets (Ka)	$99\% \leq KaM < 99.5\%$ $94\% \leq KaM < 99\%$ $90\% \leq KaM < 94\%$ $KaM < 90\%$	0.97 0.90 0.75 0.60
KPI	**KPI's value**	**Penalties Coefficient(Ps)**
Self-Detection (Ks)	$70\% \leq KsM < 75\%$ $60\% \leq KsM < 70\%$ $50\% \leq KsM < 60\%$ $KsM < 50\%$	0.99 0.95 0.80 0.60

With

KmM = value of the considered month
Pm = Penalties coefficient applied on the corresponding monthly Services Payment
KoM = value of the considered month
Po = Penalties coefficient applied on the corresponding monthly Services Payment
KaM = value of the considered month
Pa = Penalties coefficient applied on the corresponding monthly Services Payment
KsM = value of the considered month
Ps = Penalties coefficient applied on the corresponding monthly Services Payment

- **Emergency Response Time (Kt)**: If CONTRACTOR fails to meet the designated Response times, Kt, in accordance with the terms of the Agreement, then CONTRACTOR shall be penalized $ 100.00 per hour for every hour CONTRACTOR's response time exceeds the established metric.

- **Delay of Unscheduled Maintenance or Repairs--single street light (Kd_1)**: If CONTRACTOR fails to meet the designated Unscheduled Maintenance or Repairs times under Kd1, then CONTRACTOR shall be penalized $ 100.00 per Business Day, until outage, malfunction or damage has been fixed.

- **Delay of Unscheduled Maintenance or Repairs—more than 3 street lights in a row (Kd_2)**: If CONTRACTOR fails to meet the designated Unscheduled Maintenance or Repairs times under Kd2 then CONTRACTOR shall be penalized $ 20.00 per hour, until outage, malfunction or damage has been fixed.

- **Delay of Unscheduled Maintenance or Repairs—Poles, Arms and foundations (Kd_3)**: If CONTRACTOR fails to meet the designated Unscheduled Maintenance or Repairs times under Kd_3 then CONTRACTOR shall be penalized $ 100.00 per Business Day, until outage, malfunction or damage has been fixed.

- **Monthly Report (Kq)**: If there is a delay in CONTRACTOR's submission the operation and maintenance monthly report, then CONTRACTOR shall be penalized $ 15.00 per Business Day, until the delivery of the report.

Annually Measured O&M KPIs

CONTRACTOR shall measure Klp and Kw once each Annual Period. If CONTRACTOR fails to reach its commitments for Klp in an Annual Period, then a penalty coefficient will be applied as set forth below.

KPI	KPI's value	Penalties Coefficient (Plp)
Lighting Performance (Klp)	$90\% \leq Klp_y < 100\%$ $80\% \leq Klp_y < 90\%$ $70\% \leq Klp_y < 80\%$ $60\% \leq Klp_y < 70\%$ $Klp_y < 60\%$	0.99** 0.95** 0.85** 0.75** 0.60**

Klp_y = value of the considered Annual Period
Plp = Penalties coefficient applied on each corresponding monthly Services Payment thereafter until the Lighting Performance deficiency is corrected.

**If the Lighting Performance deficiency is not related to CONTRACTOR's design or implementation of the Works (e.g. insufficient tree trimming, caused by third-party action,

etc.), then the above penalty shall not apply. CONTRACTOR and CLIENT will jointly perform a new Lighting Performance measurement upon mitigation of deficiency.

If CONTRACTOR fails to reach its commitments for Kw in an Annual Period, then a penalty coefficient will be applied as described set forth below.

KPI	KPI values	Penalty Coefficient (Pw)
Average Installed Wattage (Kw)	$Kw < KwY < 1.01\ x\ Kw$	0.99
	$1.01\ x\ Kw < KwY \leq 1.03\ x\ Kw$	0.97
	$1.03\ x\ Kw < KwY \leq 1.05\ x\ K$	0.90
	$1.05\ x\ Kw < KwY \leq 1.10\ x\ K$	0.80
	$1.10\ x\ Kw < KwY$	0.60

With Kw = contractual reference (see Section 3 above, KPI)
KwY = real value of the considered Annual Period
Pw = Incentive coefficient applied on the preceding Annual Period's Services amount

4.2 Incentives

4.2.1 General Conditions

(a) MUSE. MUSE shall be platform used to verify compliance with Operation and Maintenance commitments for incentives.

(b) Savings Excess. Any Savings Excess incentives will be reconciled as described in Section 4.2.2 of this Appendix 3A. Any Savings Excess payment shall be added to the next Services Payment after the completion Performance Assurance Reconciliation in this Appendix 3A.

(c) O&M Incentives: Notice. Incentives for O&M apply only if CONTRACTOR has notified CLIENT in writing within 15 days of achieving the incentive. CONTRACTOR's notification shall detail the performance metrics that justify any incentives. Upon receipt of the notification, the CLIENT shall have ten (10) days to notify the CONTRACTOR in writing whether the CLIENT disputes the CONTRACTOR's incentive claim. If the CLIENT disputes the incentive notification, then the CONTRACTOR and CLIENT shall set a meeting within twenty (20) days to review the CONTRACTOR's incentive claim.

4.2.2 Energy : Savings Excess

The Saving Excess for Ke for an Annual Period is calculated and applied on CONTRACTOR remuneration as described below and in accordance with Sections 1.1 & 1.2 of this Appendix 3A as follows:

KPI	KPI values	Incentives Value (Ie)
Guaranteed Annual Savings (Ke)	$Ke < KeY$	+ 0.4 x AES

With Savings for Ke = contractual reference (see Section 3 above, KPI) or Guaranteed Annual considered Annual Period

KeY = real value of the considered Annual Period (Annual Realized Savings)
AES = difference between expected and real kWh consumed (KeY - Ke) multiplied by the Constant Energy Rate

4.2.3 O&M

The below incentive coefficients are calculated and applied on CONTRACTOR remuneration on a monthly basis as part of the Service Payment as follows:

Monthly Measure O&M KPIs

KPI	KPI's value	Incentive's Coefficient (Io)
Outage Rate (Ko)	$1.5\% \leq KoM < 2\%$	1
	$KoM < 1.5\%$	1.02
KPI	**KPI's value**	**Incentive's Coefficient (Ia)**
Availability of assets (Ka)	$98\% \leq KaM \leq 99\%$	1
	$99\% < KaM \leq 100\%$	1.02
KPI	**KPI's value**	**Incentive's Coefficient (Is)**
Self-Detection (Ks)	$75\% \leq KsM \leq 80\%$	1
	$80\% < KsM$	1.01
KPI	**KPI's value**	**Incentive's Coefficient (Ilp)**

With

KoM = value of the considered month
Io = Incentive coefficient applied on the corresponding monthly Services Payment
KaM = value of the considered month
Ia = Incentive coefficient applied on the corresponding monthly Services Payment
KsM = value of the considered month
Is = Incentive coefficient applied on the corresponding monthly Services Payment

Annually Measured O&M KPIs

The incentive for Kw is calculated on CONTRACTOR remuneration for the corresponding Annual Period as follows:

KPI	KPI values	Incentives Coefficient (Iw)
Average Installed Wattage (Kw)	$0.99\,x\,Kw < KwY \leq Kw$	1
	$0.95 * Kw < KwY < 0.99 * Kw$	1.01
	$KwY < 0.95 * Kw$	1.02

With Kw = contractual reference (see Section 3 above, KPI)
KwY = real value of the considered Annual Period
Iw = Incentive coefficient applied on the preceding Annual Period's Services amount

5. Remuneration Formula Including Penalties and Incentives

The below monthly remuneration formula details the cumulative application of the KPIs penalties and incentives on the monthly Services Payments (Note: Klp and Kw are annual commitments and will be applied to the first monthly service payment of the following Annual Period). The Annual Period remuneration applies only to Guaranteed Annual Savings or Ke.

Monthly Remuneration:

$$Remuneration = \left(Monthly\ Service\ Payment * \{P_f * I_f\}\right) - Other$$

Where *f* = all applicable contractual factors = {w, m, o, a, s, lp}
And *Other* refers to penalties related to Kt, Kd1, Kd2, Kd3, Kq, Kn

Annual Period Remuneration: Remuneration for the KPI Ke shall be in accordance with this Appendix 3A.

SCHEDULE 4: PAYMENT MECHANISM

1.1 Contract Price.

As consideration of CONTRACTOR's performance of the Works and the Services as described in Schedule 2 and Schedule 3 CLIENT shall pay to CONTRACTOR $45,617,188 in monthly installments in accordance with the Payment Schedule set forth Section 1.4 to this Schedule 4 (Payment Mechanism). Such payment shall include the following components as identified in this Schedule 4 (Payment Mechanism): 1) Works Payments provided in accordance with Article 3 in the Main Body of the Agreement and Schedule 2 shall commence on the Acceptance Date for the corresponding Segment of the Works; 2) Services Payments for the operation and maintenance of the Existing System and upgraded System, Smart City Instruments and Artistic Lighting services provided in accordance and Schedule 2 and 3, which shall commence on the Commencement Date.

1.1.1 Price Adjustments to Service Payments: CPI.

Price adjustments will be made in accordance with the percentage change in the U.S. Department of Labor Consumer Price Index (CPI) for the Albuquerque area. The price adjustment rate will be determined by comparing the percentage difference between the CPI in effect for the base year six-month average (January through June 2017) and each January through June six month average thereafter. The percentage difference between those two CPI issues will be the price adjustment rate for the Services Payments, Unit Prices and other applicable pricing. The price adjustment rate shall be determined at the beginning of each Annual Period and applied thereafter.

1.1.2 Adjustment to Services Payments for Additional Street Lights.

A fixed price of $5.00 per additional street light per month will be applied on Services Payments for each additional streetlight receiving Services pursuant to Article 7 of Schedule 3. Section 1.1.1 above shall apply to any adjustments to Services Payments for Services rendered to additional street lights. For each additional street light added to the System pursuant to this section, CLIENT shall pledge additional funding to the Revenue Fund to cover the additional costs set forth in this Section 1.1.2, including the requisite price adjustment set forth in Section1.1.1, unless otherwise agreed to in writing.

1.2 Non-recourse Limitation; Unconditional Payment Obligation.

CLIENT'S acceptance of Works and Acceptance of any Segment of the Works is non-recourse and final. After the Acceptance of each Segment of the Works, and subject to Section 6.4 of the Main Body of the Agreement, the obligations of CLIENT to make Works Payments under this Agreement for the accepted Segments of the Works and to perform and observe the other covenants and agreements contained in this Agreement shall be absolute and unconditional in all events without abatement, diminution, deduction, set-off or defense, for any reason whatsoever.

1.3 Adjustments for Performance.

Incentives and penalties apply on the Services Payments only, in accordance with Schedule 2 and Schedule 3. Notwithstanding the foregoing, any Savings Shortfalls or Savings Excess will be accounted for in accordance with Appendix 3A to Schedule 3.

1.4 Services Payment and Works Payment Schedule

Price: As consideration of CONTRACTOR's performance of the Works and the Services as described in Schedule 2 (Technical Scope and Works) and Schedule 3 (Scope of Services), CLIENT shall pay to CONTRACTOR the amounts identified below which shall be invoiced on a monthly basis beginning on the Acceptance Date for the corresponding Segment of the Works for the Works Payments, and on Commencement Date for the Services Payments.

Month	Works Payment	Services Payment	Total
Month 1	$-	$170,691	$170,691
Month 2	$-	$170,691	$170,691
Month 3	$-	$170,691	$170,691
Month 4	$-	$170,691	$170,691
Month 5	$-	$170,691	$170,691
Month 6	$-	$170,691	$170,691
Month 7	$62,911	$170,691	$233,602
Month 8	$62,911	$170,691	$233,602
Month 9	$62,911	$170,691	$233,602
Month 10	$62,911	$170,691	$233,602
Month 11	$62,911	$170,691	$233,602
Month 12	$62,911	$170,691	$233,602
Month 13	$129,577	$127,519	$257,096
Month 14	$129,577	$127,519	$257,096
Month 15	$129,577	$127,519	$257,096
Month 16	$129,577	$127,519	$257,096
Month 17	$129,577	$127,519	$257,096
Month 18	$129,577	$127,519	$257,096
Month 19	$129,577	$127,519	$257,096
Month 20	$129,577	$127,519	$257,096
Month 21	$129,577	$127,519	$257,096
Month 22	$129,577	$127,519	$257,096
Month 23	$129,577	$127,519	$257,096
Month 24	$129,577	$127,519	$257,096
Month 25	$129,577	$127,514	$257,091
Month 26	$129,577	$127,514	$257,091
Month 27	$129,577	$127,514	$257,091
Month 28	$129,577	$127,514	$257,091
Month 29	$129,577	$127,514	$257,091
Month 30	$129,577	$127,514	$257,091
Month 31	$129,577	$127,514	$257,091

Month	Works Payment	Services Payment	Total
Month 32	$129,577	$127,514	$257,091
Month 33	$129,577	$127,514	$257,091

If the Acceptance of any Segment of the Works is delayed, the payment schedule for the Works Payments and Services Payments will be adjusted accordingly.

1.5 Payments.

CLIENT agrees it will make all amounts payable by CLIENT under or with respect to this Agreement within thirty (30) days of receipt of the invoice by electronic funds transfer of immediately available funds as directed in writing by CONTRACTOR.

CLIENT shall pay CONTRACTOR a charge on any payment not paid on the date such payment is due at the rate of six percent (**6.00%**) per annum or the maximum amount permitted by law, whichever is less, from such date.

If CLIENT disagrees with any portion of an invoice, it shall notify CONTRACTOR in writing of the amount in dispute and the reason for its disagreement within twenty-one (21) days of receipt of the invoice, and shall pay the portion not in dispute. If CLIENT fails to pay CONTRACTOR within thirty (30) days after receipt of an invoice, the CLIENT shall pay interest to CONTRACTOR beginning on the twenty-second day after payment was due, computed at rate per annum as set forth above.

1.6 Scheduled Termination Value: Payment Tables

The Scheduled Termination Value corresponding to month of the Agreement, beginning from the Commencement Date shall be the respective value applied to the Termination Payment.

SCHEDULE 5: ACCEPTANCE PROCEDURES

Project Commissioning

CONTRACTOR shall implement the Commissioning and Quality Assurance Plan in partnership with the CLIENT during the Works Phase. CONTRACTOR shall implement a rolling Works commissioning process. As quickly as lights are being installed, CONTRACTOR shall work with the CLIENT to get them certified and approved. This will be repeatable and fair for both Parties and allows the project to proceed with the utmost quality and speed.

Acceptance Procedures

In accordance with the Commissioning and Quality Assurance Plan, when CONTRACTOR believes that all, or an independent, definable phase or portion, of a Segment of the Works is substantially complete, CONTRACTOR will submit a certificate of substantial completion to CLIENT which shall be subject to the following:

(a) If CLIENT concurs that the described Segment of the Works as performed is substantially complete, CLIENT will accept that Segment of the Works by signing a Certificate of Acceptance and returning it to CONTRACTOR;

(b) If CLIENT does not concur that the Segment of the Works is substantially complete, then e CLIENT shall notify CONTRACTOR within five (5) Business Days of any discrepancies;

(c) To the extent CONTRACTOR does not dispute the discrepancies raised by CLIENT, CONTRACTOR shall correct the Works to conform to the description of the Work set forth herein, and resubmit the certificate of substantial completion to CLIENT;

(d) If CONTRACTOR disagrees with the discrepancies raised by CLIENT, CONTRACTORS shall notify CLIENT of a dispute and such dispute shall be resolved in accordance with the dispute resolution provisions of the Agreement;

(e) If the CLIENT Representative does not deliver written notice to CONTRACTORS within ten (10) Business Days of receiving the certificate of substantial completion, in the mutual interests of the Project proceeding in a timely manner, the Parties shall immediately refer the matter for determination in accordance with the applicable dispute resolution procedure as set forth herein.

To the extent that any Segment requires multiple certificates of substantial completion, the final non-recourse Certificate of Acceptance for each Segment shall determine the date on which the Acceptance Date of that Segment of the Works is achieved.

SCHEDULE 6: ORDER OF PRECENDENCE

In the event of conflicts or discrepancies among the contract documents, which includes this Agreement, the attached schedules, appendices, exhibits, and such other document incorporated herein by reference, interpretations of these documents will be based on the following priorities:

1. Modifications to the Agreement
2. The Agreement and its attached schedules, appendices and exhibits
3. RFP
4. Phase I Deliverable & Phase II Deliverable

January 22, 2021

Fran Dunaway, Chief Procurement Officer, City of Śanta Fe, New Mexico.

We understand that the City of Santa Fe is using a "Procurement under Existing Contracts" methodology under Section XIV(B) of the City of Santa Fe Procurement Manual 2020. As a representative of Dalkia Energy Solutions, LLC, I confirm that we agree to extend the pricing, terms, and conditions of the "Global Management Performance Contract" (City of Albuquerque, Request for Proposals, Solicitation Number: P2016000023, Evaluation and Implementation of Energy Efficiency and Reduced Maintenance on City Owned and Maintained Street Lighting, October 09, 2015 between City of Albuquerque and Citelum and subsequently assigned to Dalkia) to the City of Santa Fe.

Sincerely,

Lee Vardakas

CEO

DALKIA ENERGY SOLUTIONS, LLC

FIR No. 3304

FISCAL IMPACT REPORT

General Information:

(Check) Bill: X Resolution: _____

Short Title: **Dalkia Energy Solutions Construction and Maintenance Agreement**

Sponsor(s): Mayor Alan Webber, Councilors Lindell and Rivera

Reviewing Department(s): Public Works, Finance

Staff Completing FIR: Bradley Fluetsch, CFA Date: 1/15/2021 Phone: 955-6885

Reviewed by City Attorney: _____ Date: Jan 22, 2021

Reviewed by Finance Director: _____ Date: Feb 2, 2021

Summary:
This bill involving Dalkia Energy Solutions, LLC improves the City owned streetlights and provides for long-term maintenance of them. In a separate financing transaction, subject to approval by the governing body, the City would pledge energy savings to finance the contract.

Departments Affected:
Public Works, Finance

Consequences of Not Enacting Legislation:
This project has four key areas of benefit: safety, environmental, night sky and cost. The LED street lights will have much greater reliability than our current street lights. The LED lamps themselves have less failures and the City owned street lights will now be connected to a central software system that will provide real time reporting of failures. Currently, inoperable street lights are mainly detected by complaints and safety incidents. The LED street lights focus light onto the roadway and sidewalk better and generate less fugitive light, which will improve the darkness in our night skies while improving safety. The LED street lights use less energy and the conversion eliminates 2,315 metric tons per year of CO2 emissions which is equal to the energy used in 267 homes or by 500 cars per year. All of this saves money and the savings pays for the conversion. Not enacting this legislation will not improve the streetlights and the benefits will not accrue to the citizens of Santa Fe.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This legislation has two companion pieces of legislation, an Ordinance accepting the investment-grade audit report and approving the energy savings performance contract with Yearout Energy Services Company, LLC and an ordinance authorizing the execution of a lease-purchase agreement between the City and a "TBD" counter-party to finance both projects. PNM owns approximately 40% of the street lights in the City of Santa Fe and a separate contract and funding will be brought forth for the conversion of these lights at the same time as Dalkia will convert the City's lights.

Performance and Administrative Implications:
Dalkia will measure the savings and provides a guarantee of savings. The measured or calculated monthly savings will be transferred to a special revenue fund that accumulates the savings to meet the semi-annual debt

service payment for this project. The Finance Department will develop the accounting process to fund the special revenue fund and allocate the debt service.

Fiscal Implications:
The likely case is that the City will save enough from its current contract with PNM that will pay for the streetlight upgrade in six years and the continued savings will continue to contribute to the special revenue fund that covers the debt service of this contract and the Yearout Energy Solutions Company, LLC contract.

Fiscal Impact:
The fiscal impact of the streetlight upgrade and the maintenance will generate savings over the current contract with PNM that will pay for capital expense in six years, yet the City will be financing the purchase 15 – 18 years. The long-term savings from the streetlight upgrade will improve the overall financial performance of the Energy Savings Special Revenue Fund that covers the debt service payments over the financings' life.

The benefits from improved public safety are difficult to measure, but inoperative streetlights have been the subject of tort claims against the City. The environmental benefits can be measured in CO2 and the number of cars taken off the highway or houses off the grid.

What is the Global Management Performance Contract? It seems that a shell game is going on with money needed to complete these contracts. What is the underlying issue. A clear presentation on this is needed to promote transparency.

Santa Fe is a very special place. It is for this reason that the City Council should delay the vote on the LED retrofit until all the facts are available and all the stake holders have been heard.

The facts. The lighting technology of today is much more complex than in times past. The American Medical Association has weighed in on the color temperature of street lighting regarding warmer (reddish 2000-3000 degrees Kelvin) or cooler systems (blueish 4000- 6000 degrees Kelvin). Why? These light colors effect the melatonin cycle of animals (including humans). The bluer colors suppress melatonin and thus suppress sleep and healthy sleep patterns. Dimmer, warmer colors enhance the sleep cycle. It is known that poor sleep is a contributing factor to poor health. At least one major city had to replace many street lights as citizens became aware of this issue.

Other physiological effects need to be evaluated. The LED lights are in most cases very concentrated sources of light. The brightness of these lights in a small source area produces glare that can border on the disabling (i.e. obscuring vision) or at least discomfort. A sophisticated, on site, physical mock up is the common way to evaluate this problem; that is a trial installation with multiple fixtures installed. Calling a light “full cutoff” does not guarantee a solution to this problem. Actually the term “full cutoff” has been banished from the technical classification and much more sophisticated evaluations are now in use by lighting professionals, such as the BUG rating (Backlight, Up light, Glare). These technical evaluations are endorsed by the Illuminating Engineering Society (IESNA) and the International Dark Skies Association (IDA).

The ordinary driver on our streets requires safe lighting. The codes for each type of road as prescribed by ANSI must be met unless the city is willing to accept the potential liability of a serious accident in a non-compliant lighting system. These determinations and calculations require the well informed design by a professional, independent licensed engineer. Independence is key in this circumstance and not merely the suggestions of the contractor selling the equipment.

Comment - 02/23/2021 07:29 PM: (Against)
Honorable Mayor and Councillors:

While I applaud the desire of the City of Santa Fe to move forward with new LED luminaires appropriately shielded, the proposal by Dalkia Energy Solutions is seriously flawed and must be rejected as it stands. Dalkia Energy Solutions intends to replace the luminaires now in use by LEDs with correlated color temperatures of 3000 K for most streets and 4000 K for some main thoroughfares. These high color temperatures run counter to the advice of the American Medical Association, as detrimental to the health of humans and wildlife. The International Dark-Sky Association also advises against color temperatures as high as these, as prejudicial to the enjoyment of the glorious night skies that we in New Mexico have been privileged to enjoy. Valles Caldera National Preserve has recently been certified as an International Dark Sky Park, joining Chaco Canyon NHP, Capulin Volcano NM, and Fort Union NM in our vicinity. Cities in our region that are sensitive to the protection of the night sky, like Tucson, Flagstaff, and Moab, have forbidden the installation of street lights with color temperatures greater than 2700 K. Before Santa Fe undertakes a significant relamping project, I would encourage you to visit those cities, speak with their governing bodies, and learn how they have accomplished safety goals without sacrificing the night.

I live in Los Alamos, and am part of a group that is encouraging Los Alamos County to adopt a new lighting ordinance similar to those of dark-sky-sensitive communities like the cities just mentioned. If we succeed, we will push to be recognized as a Dark-Sky Community ourselves. With Santa Fe adopting a similarly modern lighting ordinance, we could form a Dark-Sky Corridor across our part of Northern New Mexico, stretching from Chaco Canyon to Capulin Volcano.

But please don’t set a bad example for Los Alamos and other communities in our region. Reject the idea of relamping with 3000 K and 4000 K color temperature luminaires. There are alternatives on the market with color temperatures of 2200 K to 2700 K. At proper illuminance levels, determined at install time by lumen outputs and spacing, these promote safety. The RP-8-18 standards of the Illumination Engineering Society show how this can be done.

Respectfully,

Galen Gisler

Comment - 02/24/2021 09:19 AM: (For)
This comment concerns a proposed amendment by Councilor Garcia regarding the changes to be made to city street lighting.

I would like to reference a “My View” article in Tuesday’s Santa Fe New Mexican written by Galen Gisler. Like Mr. Gisler I have been an amateur astronomer since my childhood. In 1997 my wife and I bought a house on the east side that we live in today and I have noticed over the years a definite degradation of the beauty of the night skies from our house. Mr. Gisler cites a recommendation from the International Dark-Sky Association for street lighting with color temperature of 2700K or less and another recommendation from the American Medical Association for 3000K or less outdoor installations including roadways.

I therefore support Councilor Garcia’s amendment to the bill under consideration.

George Jones

Comment - 02/24/2021 10:10 AM: (Against)
Dear Mr. Mayor and Counilors:

While recognizing the important benefits associated with LED lighting, I urge you to delay acting on this proposal in its present form.
* The 3000 – 4000 K color temperature of the proposed lighthing has been noted to have serious health effects, leading to a (rare) warning and recommendation from the AMA that outdoor street and roadway lighting be held to lower than 3000 K as an upper limit.
* Highway safety experts have long noted that high CCT lighting increases roadway glare, and that low (2200 - 2700 K) lighting is preferred for its superior penetrating ability through dust and other particulates.
* The color temperature of the proposed lighting is also documented, by the US Naval Observatory, the National Optical Astronomical Observatory, and the American Astronomical Society, to seriously degrade the night sky environment for everything from casual stargazing to amateur astronomy.
* A number of cities that installed higher CCT lighthing have been compelled, by resident complaints, to retrofit lower temperature alternatives at a not inconsiderable expense.

No case has been made for choosing the high CCT lighting in this proposal relative to lower temperature (2200 – 2700 K) lighting. Several representations made to you to justify this proposal – such as non-existent NMDOT “requirements”, or denial of effects on the night sky environment – have been shown to be false. The lower temperature LED lighting alternatives are no more expensive than the higher temperature lights in the current proposal, no less available, no less reliable, and avoid all the public health and safety, and night sky environment issue that the higher CCT lighting causes.

I urge you to delay this decision until you have in hand solid and verified facts on the lower temperature lighting alternatives and can make an informed judgement.

Thank you for your time and your efforts to get this decision right.

Sincerely,

Sam Finn

Comment - 02/24/2021 10:45 AM: (Against)

I am excited the city wants to replace our current, outdated roadway lighting. We all want to save money and be energy efficient. However, the current lighting implementation plan threatens to overshoot the best practices recommended for this kind of project.

The city has a great opportunity to demonstrate responsible leadership with respect to the street lighting retrofit. Rather than follow the pack and do what has been done in other cities, Santa Fe should practice due diligence and get more fully informed about potentially expensive consequences when poor choices are made for projects of this nature.

Correlated color temperatures at 3000K and 4000K will produce a higher level of blue light output than lower Kelvin ratings. The diagram released by the city spokesperson is misleading as it only addresses Kelvin scale. If Kelvin is the skin, correlated color temperature is the guts.

Others and I have looked for any document that states NMDOT requires 4000K for roadway lighting. So far, we haven't been able to confirm this is the case.

Much of the current plan seems based upon vendor-driven specs and cites an obscure industry trade magazine from Western Australia to justify 4000K.

I request the city postpone approval for contracts with Dalkia, allow time for a comprehensive review of the plan, and seek recommendations from an independent source. Consider hiring a PE who specializes in roadway lighting for urban settings, form an advisory group like the tourism recovery group, and provide opportunities for city staff and elected officials to learn about sensible lighting practices.

Let's take the time to get this right.

Respectfully,

Peter Lipscomb

Comment - 02/24/2021 11:26 AM: (Against)

Do NOT approve the ordinance for the Dalkia GMPC.

The intent of replacing City streetlights with high-efficiency LED "smart" lights is very good. The problem is the specified correlated color temperature (CCT) of 4000K. This type of light has a blue-white color and will aggravate night sky light pollution even when shielding is employed. It likely also will be harmful to wildlife and human health. There are alternative LED types that can avoid this problem, and still conserve money and energy.

Some have alleged that NMDOT requires highway LEDs to be 4000K. I have asked for an explanation of this and have not received one. The only apparent source is on p. 898 of the 2019 NMDOT Standard Specifications for Highway and Bridge Construction. However, this pertains to new road construction, so it may not apply here. A 2020 update to the NMDOT Design Manual has no restrictions on CCT. In any case, the use of 4000K LEDs is clearly not a dark-sky-friendly choice, as indicated by the International Dark Sky Association (IDA). Some municipalities have replaced 4000K lights after receiving complaints about the harshness. Some are using 2700K or even 2200K, which are closer in color to the original high-pressure sodium lights that Santa Fe is looking to replace, but as LEDs yield cost and energy savings.

I hope the Governing Body with take this opportunity to pause the streetlight replacement, to allow DPW to examine the options available for lower-CCT LED fixtures. I'm sure many citizens and experts are willing to help if given the chance. It is important for Santa Fe to make a good choice. This is a chance to lead by example in protecting our environment.

Comment - 02/24/2021 11:44 AM: (Against)
I urge the City to either secure a guarantee that all new LED lighting adheres to a color temperature of 2700K or cancel this project. The American Medical Association (AMA) has issued a statement that warns of negative health impacts when using lights with color temperatures over 3000K.

A white LED at CT 4,000 K contains a high level (over 30%) of short wavelength, blue light. These overly blue harsh lights are damaging to the environment and have adverse human health effects. In some locations where they were installed, such as the city of Davis, California, residents demanded a complete replacement of these high CT street lights for lower CCT lighting. ***Cities that have followed the AMA recommendations and adopted 3,000 K or 2,700 K have seen much greater acceptance of LED lighting, and with much lower blue content which is better for human and environmental health, and reduces glare and is thus safer for driving.***

The AMA has made three recommendations in its policy statement: First, the AMA supports a "proper conversion to community based Light Emitting Diode (LED) lighting, which reduces energy consumption and decreases the use of fossil fuels." Second, the AMA "encourage[s] minimizing and controlling blue-rich environmental lighting by using the lowest emission of blue light possible to reduce glare." ***Third, the AMA "encourage[s] the use of 3,000 K or lower lighting for outdoor installations such as roadways.*** *All LED lighting should be properly shielded to minimize glare and detrimental human and environmental effects, and consideration should be given to utilize the ability of LED lighting to be dimmed for off-peak time periods."*

Comment - 02/24/2021 11:53 AM: (No Vote)
NEEDS MORE STUDY BEFORE VOTE
NEW LIGHTS GENERALLY
I am opposed to more remote monitoring with increased EMF emissions. And where does the tech live? In Dallas or some other remote location when the city needs an immediate response? Third party contracts do not seem like they have worked well in the past and only gives the administration another scapegoat when something goes wrong.

I think the Council should postpone decisions until it adequately thinks through public comment about not only the amount of light coming from the street lights but the color on the color spectrum of the street lights so that it will have minimal impact on the dark skies many of us want to enjoy. I have at least 4 street lights that affect the light in my home—some are over 200 ft from me on the next block or at near the commercial area again about a block or more away. I would like to have darkness in my own home.

Name: Rixon Reed
Comment - 02/24/2021 12:56 PM: (Against)
Please vote against the change over of the street light system to LEDs. As an astronomer, I value the night sky as an extraordinary natural resource. The LED lights in this plan are too blue and too bright. Even though the fixtures that house these lights point down (which is a great improvement), the lights are still so bright that they will increase the light pollution we already have.

Please consider having Santa Fe, join Flagstaff and Tucson and leaders in the preservation of dark skies above our cities.

Here are two great articles about two model cities for better street lighting, Flagstaff and Tucson.

City of Santa Fe, New Mexico
Memorandum

DATE: **January 19, 2021**

TO: **Governing Body**

VIA: **Regina Wheeler, Public Works Department Director**

FROM: **Caryn Grosse, Facilities Project Administrator**

ITEM AND ISSUE:
Summary of the solarization project

BACKGROUND AND SUMMARY:
The City placed a solar project as its number one priority on the ICIP list to the state legislature in the 2019 session and was appropriated $925,000 to install behind the meter solar arrays at a number of City facilities using a public private partnership. Because solar and lighting retrofits generate significant savings on energy bills, the legislative appropriation will be coupled with additional financing to solarize and retrofit more facilities. The legislative appropriation outlines this project as:

> 19-D3209, $925,000.00, Appropriation Reversion Date: 30-JUN-2023
> Laws of 2019, Chapter 277, Section 34, Para. 408, Nine Hundred Twenty-Five Thousand Dollars ($925,000.00), to plan and design a public-private partnership for solar energy systems development and installation at city facilities. Specifically the funds will be used to hire an energy services company to evaluate city facilities to have solar installed where it is the most feasible. The goal is to solarize as many facilities as possible. Additional capital in the form of bonds or private investment will be necessary.

Under the Statewide Price Agreement (SPA), pre-qualified Energy Service Companies (ESCOs) can provide Energy Performance Contracting (EPC) services for municipal governments. Energy Performance Contracting enables agencies, such as the City of Santa Fe, to employ energy efficiency and solar experts to assess opportunities for savings with energy efficiency retrofits and renewable energy, access financing and accomplish energy projects. Project costs are typically offset by the energy cost savings. Participating ESCOs commit to the EPC Statute and EMNRD's program guidelines for the energy projects.

Yearout Energy Services Company, LLC was selected from a list of seven pre-qualified ESCOs on the Statewide Price Agreement. Yearout is the only ESCO contractor headquartered and fully staffed in New Mexico, is one of three ESCOs listed as a PNM Authorized Contractor for retrofit rebates and has experience with solar and lighting retrofits for governmental entities.

Performing an Investment-Grade Energy Audit (IGA) was the first step. The IGA contract was approved by the Governing Body in July 2019, and in August the City and Yearout Energy Services Company kicked-off the project to evaluate 22 City facilities and 17 pumping and booster stations for solar, lighting and water conservation measures. The IGA included the assessment of information on 149 utility meters, 12,564 existing lighting fixtures, 759 existing domestic water fixtures, 67 existing low voltage transformers and existing building envelope conditions of 931,800 ft^2 of gross facility area.
After assessing all of the meters, buildings and systems listed above and meeting with key City stakeholders for their knowledge of the sites and energy use patterns, Yearout provided a preliminary scope, conceptual

design, costs and payback estimates for solar, LED retrofit, lighting, transformer retrofits, water conservation and building envelope improvements that met the City's criterial for feasibility.

The final IGA report included 23 solar arrays, providing 2.75 MW of solar for 13 City facilities, 8 Water facilities and 2 BDD facilities, as well as a number of other Facility Improvement Measures (FIMs) which will reduce energy and water usage. A matrix showing which measures will constructed at each site is attached to this memo. New Mexico Energy Minerals and Natural Resources certified this IGA after review of the technical and financial information in the report, which is a standard part of the state's defined EPC process.

To further define the constructability of these projects and reduce risk before pursuing financing, the City amended the original contract with Yearout to include a due diligence phase for solar interconnection applications and land acquisition. The amendment amount was $169,666 + NMGRT and was executed on March 2, 2020 after approval by the Governing Body.

Activities undertaken in the due diligence phase are listed below along with current status of these items:

1. Solar Engineering Design and Interconnection Applications submitted to PNM
    a. All solar arrays must be reviewed and approved by PNM through the interconnection application process. There is risk, particularly on larger arrays, that PNM may identify grid issues with an array and request changes to solar design which may include additional grid protection hardware or other design modifications. The contractor designed the arrays and submitted the interconnection applications to PNM.
    b. PNM interconnection applications have been approved for 20 facilities as of January 19, 2021. These approved applications account for 73.3% of the proposed solar capacity.
    c. Three facilities, Buckman Booster Station 1 (~60kW), Buckman Booster Station 4 (396 kW) and BDD Lift Station (~277 kW), are still in supplemental review process. PNM has indicated that the review is expected to be completed by early February.
    d. No applications have been denied to date.
2. Land Agreements
    a. Several of the proposed solar arrays at booster and pumping stations are on land which is not owned by the City. The City has successfully established agreements in the past to place structures, including solar arrays, for Buckman Well Field and Buckman Direct Diversion (BDD) with United States Forest Service and Bureau of Land Management who are the owners of the land of interest for the new solar arrays. Yearout subcontracted with Souder Miller & Associates to establish agreements with these entities for these arrays.
3. FAA Coordination for Arrays at the Santa Fe Regional Airport
    a. Applications were prepared in October and are awaiting signature/submission to FAA by Santa Fe Regional Airport. Approval must be obtained by the FAA for the solar equipment proposed at the Santa Fe Regional Airport.

All outstanding work of the due diligence phase will be rolled into the final Energy Performance Contract.

Additional details will be provided in the memo that will accompany request approval of the Professional Services Agreement in the Total Amount of $15,442,785.00 for Energy Performance Contracting with Yearout Energy Services Company for the construction phase of this project.

PROCUREMENT METHOD:
The procurement method is the NM Statewide Price Agreement (SWPA) # 90-000-18-00017AH which expires on June 12, 2023.

CONTRACT NUMBER:
The FY21 Munis contract number is 3202404.

AN ABSTRACT OF PROCEEDINGS

STATE OF NEW MEXICO)

COUNTY OF SANTA FE) ss.

CITY OF SANTA FE)

The Governing Body (the "Governing Body") of the City of Santa Fe (the "City") in the County of Santa Fe, State of New Mexico, met in regular session in full conformity with law and ordinances and rules of the City, at City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico, being the regular meeting place of the Governing Body, at the hour of 5:00 p.m., on Wednesday, the ____day of February, 2021.

Upon roll call the following were found to be present, constituting a quorum of the Governing Body:

PRESENT: Mayor: _____

Councilor: _____

Councilor: _____

Councilor: _____

Councilor: _____

***

CONSIDERATION OF BILL NO. 2021-3

ADOPTION OF ORDINANCE NO. 2021-____

Approval of Investment Grade Audit and Professional Services Contract for Energy Performance Contracting with Yearout Energy Services Company, LLC (Guaranteed Energy Savings Agreement)

CITY OF SANTA FE, NEW MEXICO

ORDINANCE NO. 2021-3

INTRODUCED BY:

Mayor Alan Webber

AN ORDINANCE

ACCEPTING THE INVESTMENT-GRADE AUDIT REPORT AND APPROVING THE ENERGY SAVINGS PERFORMANCE CONTRACT BY AND BETWEEN THE CITY OF SANTA FE AND YEAROUT ENERGY SERVICES COMPANY, LLC, SUBJECT TO CITY COUNCIL APPROVAL OF A SEPARATE FINANCING TRANSACTION TO FINANCE THE COSTS OF THE EPC; AUTHORIZING THE PLEDGE OF UTILITY COST SAVINGS AS SECURITY FOR THE EPC FINANCING TRANSACTION, AND THE EXECUTION AND DELIVERY OF CERTAIN OTHER AGREEMENTS AND DOCUMENTS IN CONNECTION WITH THE EPC; RATIFYING ACTION PREVIOUSLY TAKEN IN CONNECTION WITH THE EPC; REPEALING ALL ORDINANCES AND PRIOR ACTION IN CONFLICT HEREWITH; AND RELATED MATTERS.

Capitalized terms used in the following preambles have the same meaning as set forth in Section 1 of this Ordinance unless the context requires otherwise.

WHEREAS, the City of Santa Fe, New Mexico (the "City") is a legally created, established, organized and existing incorporated charter municipality with home-rule powers under

the constitution and laws of the State of New Mexico; and

WHEREAS, pursuant to Statewide Price Agreement 90-000-18-00017AH, the City entered into Professional Services Agreement No. 19-0641 ("PSA 19-0641") with Yearout Energy Services Company, LLC, a New Mexico limited liability Company (the "Contractor"), effective as of August 2, 2019 for the purpose of obtaining an investment grade audit of energy and water usage for various buildings and facilities owned and operated by the City, and to determine the feasibility of entering into a guaranteed utility savings contract for the purpose of installing and implementing energy efficiency and water conserving measures at the City's facilities; and

WHEREAS, pursuant to PSA 19-0641, if energy and water conserving measures are determined to be feasible, and if the amount of savings to be realized through the implementation of such measures is determined to be sufficient to cover all such costs, as determined by the City, associated with an Energy Savings Performance Contracting project, the City and the Contractor intend to negotiate a Guaranteed Utility Savings Contract under which the Contractor will design, procure, install, implement, maintain and monitor such energy and water conserving measures; provided, that the City, by entering into PSA 19-0641, was not committed to entering into a Guaranteed Utility Savings Contract; and

WHEREAS, the Contractor has provided the Investment Grade Audit Report dated August 21, 2020 (the "IGA"), a copy of which has been presented to the City Council in connection with its consideration of this Ordinance, and pursuant to which the Contractor recommended the implementation of energy savings measures (including both electricity and natural gas) and water conservation measures throughout City-owned facilities to achieve a 16.8 percent reduction in the City's annual utility costs over the useful life of the energy and water conserving measures, at a total contract price of $15,442,785 (the "Energy and Water Conservation Project" or "Project"); and

WHEREAS, the Contractor has proposed that the City and the Contractor enter into a

Professional Services Agreement for Energy Performance Contracting (the "EPC"), a copy of which has been presented to the City Council in connection with its consideration of this Ordinance, and pursuant to which the Contractor will complete the Energy and Water Conservation Project at a total cost not to exceed $15,442,785, and will guarantee utility cost savings at a level sufficient to pay the total cost of the Energy and Water Conservation Project; and

WHEREAS, the Energy and Water Conservation Project consists of the following energy savings and water conservation measures:

1. Upgrading approximately 9,000 existing lighting fixtures to LED technology;
2. Install 2.750MW DC renewable energy systems which are sized for a target offset of 80% of post-retrofit On-Peak consumption at select City facilities and a 60% of post-retrofit On-Peak consumption at select Water Utilities and Buckman Direct Diversion (BDD) sites;
3. Repair of underperforming existing solar PV carports at Genoveva Chavez Community Center to recover lost production and available Renewable Energy Credit ("REC") payments;
4. Upgrade approximately 760 existing domestic water fixtures to reduce water consumption;
5. Remediate approximately 200 square feet of existing air leakage in building envelope;
6. Install 28 new high efficiency transformers;
7. Identify and correct billing errors to reduce utility costs;
8. Replace the roof at the Canyon Road Water Treatment Plant in order reduce energy and operational costs and support the installation of rooftop solar PV; and

WHEREAS, pursuant to the Public Facility Energy Efficiency and Water Conservation Act, Sections 6-23-1 through -10 NMSA 1978 (the "Act"), and specifically Section 6-23-5(B)(1)

NMSA 1978, the City Council has been advised that the EPC satisfies the requirements of the Public Facility Energy Efficiency and Water Conservation Act (the "Act"); and

WHEREAS, pursuant to Section 6-23-5(B)(2) NMSA 1978, the Energy, Minerals and Natural Resources Department of the State ("EMNRD") certified to the City by letter dated September 12, 2020 that the Contractor meets the experience requirements established by EMNRD and is a qualified provider of energy efficiency measures, and that the energy savings measures proposed in the IGA appear to have been accurately estimated and are reasonable; and

WHEREAS, pursuant to Section 6-23-5(B) (3) NMSA 1978, the Office of the State Engineer ("OSE") certified to the City by letter dated August 28, 2020 that the Contractor meets the experience requirements established by OSE and is a qualified provider of water conservation measures, and that the water conservation measures proposed in the IGA appear to have been accurately estimated and are reasonable; and

WHEREAS, the City intends to finance the costs of the Energy and Water Conservation Project through a separate financing arrangement with a third-party financial institution (the "Financing Transaction") which will be paid from pledged guaranteed utility cost savings as authorized pursuant to the Act, and pursuant to which the pledged guaranteed utility cost savings (the "Pledged Revenues") constitute a special fund; and

WHEREAS, the City Council intends to approve the EPC and authorize its execution, delivery, and assignment of the Pledged Revenues, subject to the terms and provisions of this Ordinance.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE, NEW MEXICO:

Section 1. **Definitions.** The terms in this section are defined for all purposes of this Ordinance and of any ordinance amendatory hereof or supplemental hereto, or relating hereto, and of any instrument or document appertaining hereto, except where the context by clear implication

herein otherwise requires, shall have the following meanings:

"Act" means the general laws of the State, including Sections 6-23-1 through 6-23-10 NMSA 1978, as amended, and enactments of the Governing Body relating to the EPC and the Financing Transaction, including this Ordinance.

"Authorized Officer" means the following officers of the City: Mayor, City Manager, City Finance Director, or other officer of the City when designated by a certificate signed by the Mayor of the City from time to time, a certified copy of which shall be delivered to the Paying Agent.

"Bond Counsel" means an attorney or firm of attorneys nationally recognized for expertise in the area of municipal bonds and the exemption of interest on municipal bonds from federal income taxation.

"City," "Municipal," or "Municipality" means the Municipal Corporation and body corporate and politic known as the City of Santa Fe, Santa Fe County, New Mexico.

"Conservation Measures" mean, collectively or individually, as the context may require, the energy savings and water conservation equipment and improvements of which the Energy and Water Conservation Project is comprised.

"Conservation-Related Cost Savings" means cost savings, other than Utility Cost Savings, in the operating budget of the City that are the direct result of the Conservation Measures.

"Contract Price" means $15,442,785, the maximum amount payable pursuant to the EPC.

"Contractor" means Yearout Energy Services Company, LLC, a New Mexico limited liability company.

"Costs of Issuance" means all costs relating to the execution and delivery of the EPC [and the Financing Transaction], including, without limitation, costs of advertising and publication, costs of fees and expenses of the financial advisor, Bond Counsel, the Paying Agent, and other reasonable and necessary fees and costs, including applicable gross receipts taxes, related to the execution and delivery of the EPC [and the Financing Transaction].

"Energy and Water Conservation Project" or "Project" means the implementation of energy savings (including both electricity and natural gas) and water conservation measures throughout City-owned facilities, including the following energy savings and water conservation measures:

1. Upgrading of approximately 9,000 existing lighting fixtures to LED technology;
2. Installation of 2.750MW DC renewable energy systems which are sized for a target offset of 80% of post-retrofit On-Peak consumption at select City facilities and a 60% of post-retrofit On-Peak consumption at select Water Utilities and Buckman Direct Diversion (BDD) sites;
3. Repair of underperforming existing solar PV carports at Genoveva Chavez Community Center to recover lost production and available Renewable Energy Credit ("REC") payments;
4. Upgrading of approximately 760 existing domestic water fixtures to reduce water consumption;
5. Remediation of approximately 200 square feet of existing air leakage in building envelope;
6. Installation of 28 new high efficiency transformers;
7. Identification and correction of billing errors to reduce utility costs;
8. Replacement of the roof at the Canyon Road Water Treatment Plant in order reduce energy and operational costs and support the installation of rooftop solar PV; and paying the Costs of Issuance allocable to the Energy and Water Conservation Project.

"EMNRD" means the Energy, Minerals and Natural Resources Department of the State.

"Energy Performance Contract" or "EPC" means the guaranteed utility savings contract by and between the City and the Contractor, the form of which has been presented to the Governing Body in connection with its consideration of this Ordinance.

"Financing Transaction" means the transaction to be entered into by and between the City and the Lender, proceeds of which shall be applied to pay the Contract Price; the principal of, interest on and other payments due in connection with the Financing Transaction shall be payable solely from Pledged Revenues, which may be in the form of a lease-purchase agreement, a loan agreement or other form of debt obligation.

"Governing Body" means the members of the governing body designated as councilors who, together with the mayor, are the governing body of the City.

"IGA" means the Investment Grade Audit Report provided by the Contractor to the City dated August 21, 2020 proposing the energy efficiency and water conservation measures which comprise the Energy and Water Conservation Project.

"Lender" means the bank or other financial institution serving as the lender in connection with the Financing Transaction; if applicable, the Lender may be the lessor if the Financing Transaction is a lease-purchase transaction.

"OSE" means the Office of the State Engineer.

"Ordinance" means this City Ordinance as amended or supplemented from time to time.

"Paying Agent" means the City of Santa Fe, New Mexico.

"Placement Agent" means D.A. Davidson & Co., Kansas City, Missouri.

"Placement Agent Agreement" means the professional services agreement by and between the City and the Placement Agent for the placement of the Financing Transaction with the Lender.

"Pledged Revenues" means amounts generated by Utility Cost Savings pursuant to the EPC, which shall be deposited monthly to the Pledged Revenue Fund as provided in Section 6 of this Ordinance.

"Pledged Revenue Fund" means the fund created pursuant to Section 6 of this Ordinance.

"Related Documents" means, as applicable, the lease-purchase agreement, loan agreement, promissory note, escrow agreement, account control agreement and any other document or

agreement containing an obligation of the City as may be required by the Lender or otherwise in connection with the EPC pursuant to the Financing Transaction.

"Utility Cost Savings" means the amounts saved by the City in the purchase of electricity or water that are a direct result of the Conservation Measures.

Section 2. Acceptance of IGA; Ratification of Prior Action.

1. The IGA is hereby accepted and approved.

2. All action heretofore taken (not inconsistent with the express provisions of this Ordinance) by the Governing Body and officers of the City directed toward the Energy and Water Conservation Project, the IGA, the EPC and the Financing Transaction, including, without limitation, the publication of a notice of public meeting and intent to adopt this Ordinance authorizing the execution and delivery of the EPC, and the engagement of D.A. Davidson as Placement Agent pursuant to the Placement Agent Agreement, and the same hereby is ratified, approved and confirmed, notwithstanding any inconsistent prior action.

Section 3. Findings. The Governing Body makes the following findings and determinations:

1. Pursuant to Section 6-23-3 of the Act, the amount that the City would spend on the energy and water conservation measures proposed in the IGA is not likely to exceed the cumulative amount of Utility Cost Savings and Conservation-Related Cost Savings of all energy and water conservation measures proposed in the IGA over the twenty-five year term of the EPC from the date of installation of the measures recommended in the IGA if those recommendations are followed, including the financing of those costs pursuant to the Financing Transaction, and excluding the cost of normal repair and replacement of components of the energy and water conservation measures after the Conservation Measures are installed; and

2. The Contractor is a qualified provider who can provide a written guarantee that the Utility Cost Savings and Conservation-Related Cost Savings will meet or exceed the

costs of the Conservation Measures.

3. Pursuant to Section 6-23-3(B) of the Act, the EPC includes a written guaranty by the Contractor that the annual Utility Cost Savings and Conservation-Related Cost Savings will meet or exceed the cost of the Conservation Measures; and

4. The Contractor will maintain a direct financial relationship with the City, irrespective of the source of financing for the Conservation Measures.

5. Pursuant to Section 6-23-5(B) of the Act, The EPC complies with requirements of the Act;

6. EMNRD has certified that the Contractor is a qualified provider which meets the experience requirements established by EMNRD, and that the guaranteed energy saving from the Conservation Measures appear to be accurately estimated and are reasonable; and

7. OSE has certified that the Contractor is a qualified provider which meets the experience requirements established by OSE, and that the guaranteed water saving from the Conservation Measures appear to be accurately estimated and are reasonable;

complies with the requirements of the Act.

Section 4. Authorization of the Energy and Water Conservation Project; Financing Transaction Condition. The Energy and Water Conservation Project is hereby authorized at a total cost not to exceed the Contract Price, excluding any such cost defrayed or to be defrayed by any source other than proceeds of the Financing Transaction allocable to the Contract Price; provided, that the Energy and Water Conservation Project and execution and delivery of the EPC shall be subject to the authorization and closing of the Financing Transaction.

Section 5. Execution and Delivery of EPC. The Mayor or, in the absence of the Mayor, the Mayor *pro tem*, is authorized to execute and delivery the EPC, which shall be attested by the City Clerk or a deputy City Clerk, in substantially the form presented to the Governing Body in its consideration of this Ordinance, with such modifications or revisions as the Mayor, in

consultation with the City's municipal advisor and Bond Counsel, determines are necessary or convenient to implement the Energy and Water Conservation Project, and the execution and delivery of the EPC by the Mayor, or in the absence of the Mayor, the Mayor *pro tem*, shall be conclusive evidence of the City's approval thereof, as may be modified or revised.

Section 6. Establishment and Administration of Pledged Revenue Fund; Assignment as Security for Financing Transaction. A special revenue fund is hereby established, to be identified as the "City of Santa Fe/Yearout EPC Pledged Energy and Water Conservation Savings Revenue Fund (the "Pledged Revenue Fund"). In the first month following Substantial Completion, as defined in Section 1(m) of the EPC, the City shall deposit Pledged Revenues to the Pledged Revenue Fund. The assignment of the Pledged Revenues as security for the payment of debt service in connection with the Financing Transaction is hereby authorized, with such details as shall be provided in the Financing Transaction documentation authorized by the Governing Body.

Section 7. Period of Energy and Water Conservation Project's Usefulness. It is hereby determined and recited that the average useful life of the Energy and Water Conservation Project is 31 years, as indicated in the IGA.

Section 8. Authorization to Execute Related Documents and Delegated Authority.

1. Approval of Documents; Ratification. The form, terms and provisions of the Related Documents are in all respects approved, authorized and confirmed, with such changes therein not inconsistent with this Ordinance as the Authorized Officers of the City deem necessary or desirable.

2. Delegated Authority and Execution of Documents. The officers, agents and employees of the City are authorized, empowered and directed to take all action required by this Ordinance, and all such other action as may be necessary or appropriate to effectuate the

provisions of this Ordinance, the Related Documents and any other documents as may be necessary or appropriate to carry out and comply with the provisions of this Ordinance.

Section 9. Severability. If any Section, paragraph, clause or provision of this Ordinance shall be held to be invalid or unenforceable, the invalidity or unenforceability of such Section, paragraph, clause or provision shall not affect any of the remaining provisions of this Ordinance.

Section 10. Repealer Clause. All ordinances or parts of ordinances inconsistent herewith are hereby repealed to the extent only of such inconsistency. This repealer shall not be construed to revive any ordinance or part of any ordinance heretofore repealed.

Section 11. Effective Date, General Summary for Publication. Upon due adoption of this Ordinance, the ordinance shall be recorded and preserved by the City Clerk, authenticated by the signature of the Mayor and City Clerk, and the seal of the City impressed hereon, and the title and general summary of the subject matter contained in this Ordinance (set out below) shall be published in a newspaper which maintains an office and is of general circulation in the City and this Ordinance shall be in full force and effect after its publication in accordance with law.

Pursuant to Section 3-17-5 NMSA 1978, as amended, the title and a general summary of the subject matter contained in this Ordinance shall be published in substantially the following form:

(Form of Summary of Ordinance for Publication)

CITY OF SANTA FE, NEW MEXICO

NOTICE IS HEREBY GIVEN of the title and of a general summary of the subject matter contained in an ordinance duly adopted and approved by the Governing Body of the City of Santa Fe on February __, 2021. A complete copy of the ordinance is available for public inspection during the normal and regular business hours of the City Clerk in the office of the City Clerk, City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico and is available online at santafe.primegov.com.

The title of the ordinance is:

AN ORDINANCE

ACCEPTING THE INVESTMENT-GRADE AUDIT REPORT AND APPROVING THE ENERGY SAVINGS PERFORMANCE CONTRACT BY AND BETWEEN THE CITY OF SANTA FE AND YEAROUT ENERGY SERVICES COMPANY, LLC, SUBJECT TO CITY COUNCIL APPROVAL OF A SEPARATE FINANCING TRANSACTION TO FINANCE THE COSTS OF THE EPC; AUTHORIZING THE PLEDGE OF UTILITY COST SAVINGS AS SECURITY FOR THE EPC FINANCING TRANSACTION, AND THE EXECUTION AND DELIVERY OF CERTAIN OTHER AGREEMENTS AND DOCUMENTS IN CONNECTION WITH THE EPC; RATIFYING ACTION PREVIOUSLY TAKEN IN CONNECTION WITH THE EPC; REPEALING ALL ORDINANCES AND PRIOR ACTION IN CONFLICT HEREWITH; AND RELATED MATTERS.

A general summary of the subject matter contained in such ordinance is set forth in the title. COMPLETE COPIES OF THE ORDINANCE ARE ON FILE IN THE OFFICE OF THE CITY CLERK AT THE CITY HALL, 200 LINCOLN AVENUE, SANTA FE, NEW MEXICO, ARE AVAILABLE ONLINE AT SANTAFE.PRIMEGOV.COM, AND ARE AVAILABLE FOR INSPECTION AND/OR PURCHASE DURING REGULAR OFFICE HOURS. THIS NOTICE ALSO CONSTITUTES COMPLIANCE WITH SECTION 3-17-5 AND SECTIONS 6-14-4 THROUGH 6-14-7, NMSA 1978.

WITNESS my hand and the seal of the City on February ___, 2021.

PROFESSIONAL SERVICES CONTRACT #_____

THIS CONTRACT is made and entered into by and between **City of Santa Fe, NM**, hereinafter referred to as the "Agency," and **YEAROUT ENERGY SERVICES COMPANY**, a New Mexico Limited Liability Company, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by all parties.

RECITALS

WHEREAS, Agency owns and operates the Project Site(s), and is in need of energy and water cost saving equipment and services designed to save energy and associated energy costs at said Project Sites; and

WHEREAS, Agency has been authorized to enter into a third party financing agreement for all professional services, equipment and construction for the purchase and installation of energy and water cost savings measures, collectively referred to as the "Work" (as hereinafter defined); and

WHEREAS, Contractor has developed or become knowledgeable about certain procedures for controlling energy and water consumption through services provided and equipment installed and maintained at project sites similar in scope and scale of Agency; and

WHEREAS**,** Contractor was awarded a Statewide Price Agreement (#90-000-18-0001AH) with the State of New Mexico pursuant to a Request for Proposal, published and reviewed in accordance with the New Mexico Procurement Code, NMSA 1978, Sections 13-1-29 et seq., which resulted in the award of a contract for the Investment Grade Audit and Project Development Proposal (as hereinafter defined), after a determination that its services were most advantageous to the Agency; and

WHEREAS, Contractor has made an assessment of the utility consumption characteristics of the Project Site(s) and existing Equipment described in Schedule Q (Description of Project Site(s)), which was delivered to Agency as an Investment-Grade Energy Audit Report which Agency has approved and is attached as Appendix D; and

WHEREAS, Agency desires to retain Contractor to purchase, install and service certain energy and water cost savings equipment and to provide other services and strategies described in the attached Schedules, for the purpose of achieving energy and water cost reductions within Project Site(s), as more fully described herein; and

WHEREAS, Agency is authorized under the New Mexico Constitution and the Public Building Energy Efficiency and Water Conservation Act (the "Act"), NMSA 1978, Sections 6-23-1 et seq., to enter into this Contract for the purposes set forth herein.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, and intending to be legally bound hereby, Agency and Contractor hereto covenant and agree that the following Schedules, Exhibits and Appendices are attached hereto (or will be, as provided in this Contract) and are made a part of this Contract by reference.

IT IS AGREED BETWEEN THE PARTIES:

1. **Definitions.**

a. "Commencement Date" means the date described in Section 6 (Commencement Date);

b. "Contract" means this Energy Performance Contract and all Schedules, Exhibits, and Appendices attached hereto;

c. "Contract Sum" means the sum of all materials, labor, auditing, design, engineering, project construction management fees, overhead, profit, contingency, subcontracted services related to the project;

d. "Energy and Cost Savings Guarantee" means the guarantee of Schedule A (Savings Guarantee) that is achieved as a result of the installation and operation of the Equipment and provision of services provided for in this Contract as specified in Schedule J (Compensation to Contractor for Annual Services) and in accordance with the Savings Calculation Formula as set forth in Schedule C (Savings Measurement and Verification (M&V) Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements);

e. "Energy and Water Cost Savings" means the savings as provided in Schedule A (Savings Guarantee);

f. "Equipment" means the material goods enumerated in Schedule R (Equipment to be Installed by Contractor) that is now, or hereafter from time to time, attached hereto and incorporated herein by reference, together and with any and all additions, modifications, attachments, replacements and parts thereof;

g. "Event of Default" means those events described in Sections 65 (Events of Default by Contractor) and 64 (Events of Default by Agency) hereof;

h. "Guarantee Period" or "Performance Guarantee Period" means the period of time during which the Contractor has guaranteed energy savings. That period shall commence upon project completion, as specified in Schedule S (Construction and Installation Schedule) and conclude 25 years thereafter.

i. "Interim Period" means the period from contract execution until the Commencement Date;

j. "Investment Grade Audit" means a study by the Contractor selected for a particular energy performance contracting project, which includes detailed descriptions of the improvements recommended for the project, the estimated costs of the improvements and the utility and operations and maintenance cost savings projected to result from the recommended improvements;

k. "Project Site(s)" means the facilities of the Agency in need of energy and water saving equipment and services designed to reduce consumption and associated costs at said Project Site(s);

l. "Qualified Provider" means the Contractor, who is a person experienced in the design, implementation and installation of energy or water conservation measures and who meets the experience qualifications developed by the Energy, Minerals and Natural Resources Department (EMNRD) for energy conservation measures or the Office of the State Engineer for water conservation measures;

m. "Substantial Completion" means the stage in the progress of the Work where the Work is sufficiently complete in accordance with the Contract Documents so that the Agency can utilize and take beneficial use of the Work for its intended use or purpose.

n. "Work" means the Equipment, materials, professional services and construction services for the project at the Agency's Project Site, as described by this Contract and attachments.

2. **Scope of Work.**

Contractor shall:

a. perform and complete the Work at the Agency's Project Site, as defined and described in this Contract and the attached Schedules, Exhibits, and Appendices;

b. provide the Equipment, together with installation, maintenance and other services as provided herein, as in Schedule R (Equipment to be Installed by Contractor) based upon the terms and conditions set forth in Schedule S (Construction and Installation Schedule);

c. provide the Work and all related services identified in Schedule R (Equipment to be Installed by Contractor) and the services detailed in Schedule BB (Contractor's Maintenance Responsibilities) and Schedule J (Compensation to Contractor for Annual Services);

d. supervise and direct the Work and shall be responsible for the engineering, design, and quality control; construction means, methods, techniques, sequences, and procedures; and for coordinating all portions of the Work under this Contract; and

3. **Compensation.**

a. The Agency shall pay to the Contractor in full payment for services satisfactorily performed pursuant to the Scope of Work at the rate of fourteen-million two-hundred-forty-one-thousand one-hundred-eighty-five dollars ($14,241,185) in FY2021/FY2022. The New Mexico gross receipts tax levied on the amounts payable under this Contract in FY2021/FY2022 totaling one-million two-hundred-one-thousand six-hundred dollars ($1,201,600) shall be paid by the Agency to the Contractor. The total amount payable to the Contractor under this Contract, including gross receipts tax and expenses, shall not exceed fifteen-million four-hundred-forty-two-thousand seven-hundred-eighty-five dollars ($15,442,785) in FY2021/FY2022.

b. Payment in FY2021/FY2022 is subject to availability of funds pursuant to the Appropriations Paragraph set forth below and to any negotiations between the parties from year to year pursuant to Paragraph 1, Scope of Work. All invoices must be received

by the Agency no later than fifteen (15) days after the termination of the Fiscal Year in which the services were delivered. Invoices received after such date WILL NOT BE PAID.

c. The total amount payable to the Contractor under this Contract, including gross receipts tax and expenses shall not exceed fifteen-million four-hundred-forty-two-thousand seven-hundred-eighty-five dollars ($15,442,785) as set forth in Schedule H (Final Project Cost & Project Cash Flow Analysis). This amount is a maximum and not a guarantee that the work assigned to the Contractor under this Contract to be performed shall equal the amount stated herein. Payment terms are described in Schedule I (Financing Contract and Payment Schedule).

d. Contractor must submit a detailed statement accounting for all services performed and expenses incurred. If the Agency finds that the services are not acceptable, within thirty days after the date of receipt of written notice from the Contractor that payment is requested, it shall provide the Contractor a letter of exception explaining the defect or objection to the services, and outlining steps the Contractor may take to provide remedial action. Upon certification by the Agency that the services have been received and accepted, payment shall be tendered to the Contractor within thirty days after the date of acceptance. If payment is made by mail, the payment shall be deemed tendered on the date it is postmarked. However, the Agency shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

4. **Term.**

a. This Contract shall terminate upon conclusion of the performance guarantee period unless terminated pursuant to paragraph 4, infra, or paragraph 5. In accordance with NMSA 1978, Section 13-1-150, no contract term for a professional services contract, including extensions and renewals, shall exceed four years, except as set forth in NMSA 1978, Section 13-1-150. An exception is provided for contracts entered into pursuant to the Public Facility Energy Efficiency and Water Conservation Act NMSA 1978), Section 6-23-1 et seq., the term of which shall not exceed twenty-five years, including all extensions and renewals.

b. Subject to the following sentence, the term of this Contract shall be defined by the Performance Guarantee Period. Nonetheless, the Contract shall be effective and binding upon the parties immediately upon its execution, and the period from contract execution until the Commencement Date shall be known as the "Interim Period". All energy savings achieved during the interim period will be fully credited to the Agency, and if required, can be attributed by the Contractor to offset a shortfall in the first year guaranteed savings if properly verified.

5. **Termination.**

a. Termination. This Contract may be terminated by the Agency upon written notice delivered to the Contractor at least ten (10) days prior to the intended date of termination. By such termination, the Contractor may not nullify obligations already incurred for performance or failure to perform prior to the date of termination.

Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor if the Contractor becomes unable to perform the services contracted for, as determined by the Agency or if, during the term of this Contract, the Contractor or any of its officers, employees or agents is indicted for fraud, embezzlement or other crime due to misuse of state funds or due to the Appropriations paragraph herein. THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE AGENCY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.

b. Termination Management. Immediately upon receipt by the Contractor of notice of termination of this Contract, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Contract without written approval of the Agency; 2) comply with all directives issued by the Agency in the notice of termination as to the performance of work under this Contract; and 3) take such action as the Agency shall direct for the protection, preservation, retention or transfer of all property titled to the Agency and records generated under this Contract. Any non-expendable personal property or equipment provided to or purchased by the Contractor with contract funds shall become property of the Agency upon termination and shall be submitted to the Agency as soon as practicable.

6. **Commencement Date.**

a. The Commencement Date shall be the first day of the month after the month in which all schedules are in final form and accepted by Agency and Contractor shall have delivered a Notice to Agency that it has installed and commenced operating all of the Equipment specified in Schedule R (Equipment to be Installed by Contractor) and in accordance with the provisions of Schedule S (Construction and Installation Schedule) and Schedule T (Systems Start-Up and Commissioning; Operating Parameters of Installed Equipment); and the Agency has inspected and accepted said installation and operation as evidenced by the Certificate of Acceptance as set forth in Exhibit VI (Certificate of Project Substantial Completion).

b. Notwithstanding anything to the contrary in **Sections herein (Purchase and Sale; Commencement Date and Terms; Interim Period)**, the Commencement Date shall not occur and the Agency shall not be required to accept the work under this Contract unless and until all Equipment installation for the Project Site(s) is completed by Contractor in accordance with the terms and conditions of this Contract. Agency shall have 10 days after notification by the Contractor to inspect and accept the Equipment. Agency reserves the right to reject the Equipment if installation fails to meet reasonable standards of workmanship, does not comply with applicable building codes, or is otherwise not in compliance with this Contract. Contractor shall not be paid in full, including retainage, until after the punch list is completed and Contractor has satisfied any and all claims for labor and materials and the Certificate of Acceptance has been signed. The Certificate of Acceptance will not be unreasonably withheld by the Agency.

c. Compensation payments due to Contractor for on-going services and maintenance under this Contract as set forth in Schedule J (Compensation to Contractor for Annual Services) shall begin no earlier than 90 days from the Commencement Date as defined herein.

7. **Performance Measures.**

Contractor shall substantially perform the following Agency Performance Measures:

a. Contractor will perform the Work and provide the Equipment in accordance with the scope of work indicated in Schedule R (Equipment to be Installed by Contractor) based upon the terms and conditions set forth in Schedule S (Construction and Installation Schedule);

b. Contractor's Work shall create the savings indicated in Schedule A (Savings Guarantee) and Schedule D (Operations and Maintenance O&M Savings), all as collectively indicated in Schedule H (Final Project Cost & Project Cash flow Analysis)

Agency Performance Measures documentation is provided as Attachment I.

8. **Contractor is Qualified Provider.**

Contractor is certified as a Qualified Provider by NM-GSD to perform the Work, pursuant to NMSA 1978, Sections 6-23-2E and 6-23-5 and as shown by Exhibit III (NM-GSD Certification of Contractor as Qualified Provider).

9. **Investment-Grade Energy Audit Report and Project Development Proposal.**

Contractor has provided the complete Investment-Grade Energy Audit Report and Project Development Proposal of the Project Site(s), as set forth in Appendix D (Investment-Grade Energy Audit and Project Proposal Contract) and dated August 21, 2020. The Investment-Grade Energy Audit Report includes all energy conservation measures agreed upon by the Agency and Contractor for implementation in the Work. The guaranteed energy savings of energy conservation measures stated in the Investment-Grade Energy Audit Report appear to be accurately estimated and reasonable and are certified by NM-EMNRD and NM-OSE, as shown in Exhibit IV (NM-EMNRD and NM-OSE Certification of Guaranteed Energy Savings).

10. **Schedules, Exhibits and Appendices.**

Contractor has provided and Agency has approved the Schedules, Exhibits and Appendices, copies of which are attached hereto (or will be as provided for in the Contract), set forth in their entirety as Attachment II and made a part of this Contract by reference.

11. **Purchase and Sale.**

a. Agency agrees to fund all or a portion of the Equipment through a third-party financier, the debt service schedule for which, following funding becoming available pursuant

thereto, shall be attached hereto as Schedule I (Financing Agreement and Payment Schedule).

b. Contractor shall be responsible to pay for all labor, materials, equipment, tools, construction equipment and machinery, transportation and other facilities and services necessary for the proper execution and completion of the Work.

12. **Energy Usage Records and Data.**

Agency has furnished and shall continue to furnish (or authorize its energy suppliers to furnish) during the Term of this Contract to Contractor or its designee, upon its request, all of its records and complete data concerning energy and water usage and related maintenance for the Project Site(s).

13. **Location and Access.**

Contractor acknowledges that there exists sufficient space on the Project Site(s) for the installation and operation of the Equipment. Agency shall take reasonable steps to protect such Equipment from harm, theft and misuse during the term of this Contract. Agency shall provide access to the Project Site(s) for Contractor to perform any function related to this Contract during regular business hours, or such other reasonable hours as may be requested by Contractor and acceptable to the Agency. Contractor shall be granted immediate access to make emergency repairs or corrections as it may, in its discretion, determine are needed. The Contractor's access to Project Site(s) to make emergency repairs or corrections as it may determine are needed shall not be unreasonably restricted by the Agency. Contractor shall immediately notify the Agency when emergency action is taken and follow up with written notice within three (3) business days specifying the action taken, the reasons therefore, and the impact upon the Project Site(s), if any.

14. **Permits and Approvals.**

Agency shall use its best efforts to assist the Contractor in obtaining all necessary permits and approvals for installation of the Equipment. In no event shall the Agency, however, be responsible for payment of any permit fees. The equipment and the operation of the equipment by Contractor shall at all times conform to all federal, state and local code requirements. Contractor shall furnish copies of each permit or license which is required to perform the work to the Agency before the Contractor commences the portion of the work requiring such permit or license.

15. **Coordination During Installation.**

The Agency and Contractor shall coordinate the activities of Contractor's equipment installers with those of the Agency, its employees, and agents. Contractor shall not commit or permit any act which will interfere with the performance of business activities conducted by the Agency or its employees without prior written approval of the Agency.

16. **Construction Schedule; Equipment Installation.**

Construction and equipment installation shall proceed in accordance with the construction schedule approved by the Agency and attached as Schedule S (Construction and Equipment Installation Schedule).

17. **Systems Startup and Equipment Commissioning.**

The Contractor shall conduct a thorough and systematic performance test of each element and total system of the installed Equipment in accordance with the procedures specified in Schedule T (Systems Start-Up and Commissioning; Operating Parameters of Installed Equipment) and prior to acceptance of the project by the Agency as specified in Exhibit VI (Certificate of Project Substantial Completion). Testing shall be designed to determine if the Equipment is functioning in accordance with both its published specifications and the Schedules to this Contract, and to determine if modified building systems, subsystems or components are functioning properly within the new integrated environment. The Contractor shall provide notice to the Agency of the scheduled test(s) and the Agency and/or its designees shall have the right to be present at any or all such tests conducted by Contractor and/or manufacturers of the Equipment. The Contractor shall be responsible for correcting and/or adjusting all deficiencies in systems and Equipment operations that may be observed during system commissioning procedures as specified in Schedule T (Systems Start-Up and Commissioning; Operating Parameters of Installed Equipment). The Contractor shall be responsible for correcting and/or adjusting all deficiencies in Equipment operation that may be observed during system testing procedures. Prior to Agency acceptance Contractor shall also provide the Agency with reasonably satisfactory documentary evidence that the Equipment installed is the Equipment specified in Schedule R (Equipment to be Installed by Contractor).

18. **Equipment Warranties.**

a. Contractor warrants that all equipment sold and installed as part of this Contract is new, will be materially free from defects in materials or workmanship, will be installed properly in a good and workmanlike manner, and will function properly for a period of at least one (1) year from the date of the Substantial Completion for the particular energy conservation measure, if operated and maintained in accordance with the procedures established per building. Substantial Completion does not occur until the Equipment or system has been commissioned, accepted, and Exhibit V (Certificate of Acceptance – Measure) is fully executed.

b. After the warranty period, the Contractor shall have no responsibility for performing maintenance, repairs, or making manufacturer warranty claims relating to the Equipment, except as provided in Schedule BB (Contractor's Maintenance Responsibilities).

c. Contractor further agrees to assign to the Agency all available manufacturer's warranties relating to the Equipment and include such written warranties in the O&M manuals. Contractor will have no responsibility for performing repairs beyond the 1-year warranty period.

d. All warranties, to the extent transferable, shall be transferable and extend to the Agency. The warranties shall specify that only new, not reconditioned, parts may be used and

installed when repair is necessitated by malfunction. All extended warranties shall be addressed as the property of the owner and appropriately documented and titled.

e. Notwithstanding the above, nothing in this Section shall be construed to alleviate/relieve the Contractor from complying with its obligations to perform under all terms and conditions of this Contract and as set forth in all attached Schedules.

19. **Standards of Comfort.**

Agency shall maintain and operate the Equipment in a manner which will provide the standards of heating, cooling, ventilation, hot water supply, and lighting quality and levels as described in Schedule U (Standards of Comfort). During the term of this Contract, Contractor and Agency will maintain, according to Schedule BB (Contractor's Maintenance Responsibilities) and Schedule CC (Agency's Maintenance Responsibilities), and operate the Equipment in a manner that will provide the standards of comfort and levels of operation as described in Schedule U (Standards of Comfort).

20. **Environmental Requirements, Excluded Material and Activities.**

Agency recognizes that in connection with the installation and/or service or maintenance of Equipment at Agency's Project Site(s), Contractor may encounter, but is not responsible for, any work relating to (i) asbestos, materials containing asbestos, or the existence, use, detection, removal, containment or treatment thereof; (ii) fungus (any type of form of fungi, including mold or mildew, and mycotoxins, spores, scents or by-products produced or released by fungi); (iii) incomplete or damaged work or systems or code violations that may be discovered during or prior to the work of this Contract; or (iv) pollutants, hazardous wastes, hazardous materials, contaminants other than those described in this Section below (collectively "Hazardous Materials"), or the storage, handling, use, transportation, treatment, or the disposal, discharge, leakage, detection, removal, or containment thereof. The materials and activities listed in the foregoing sentence are referred to as "Excluded Materials and Activities." Agency agrees that if performance of work involves any Excluded Materials and Activities, Agency will perform or arrange for the performance of such work and shall bear the sole risk and responsibility therefore. In the event Contractor discovers Hazardous or Excluded Materials, Contractor shall immediately cease work, remove all Contractor personnel or subcontractors from the site, and notify the Agency. The Agency shall be responsible to handle such Materials at its expense. Contractor shall undertake no further work on the Project Site(s) except as authorized by the Agency in writing. Notwithstanding anything in this Contract to the contrary, any such event of discovery or remediation by the Agency shall not constitute a default by the Agency. In the event of such stoppage of work by Contractor, the Time for Completion of Work will be automatically extended by the amount of time of the work stoppage and any additional costs incurred by Contractor as a result will be added by Change Order.

Contractor shall be responsible for any hazardous or other materials, including, without limitation, those listed in this section that it may bring to the Project Site(s).

21. **Polychlorinated Biphenyl (PCB) Ballasts; Mercury Lamps.**

a. Contractor shall enter into an agreement with an approved PCB ballast disposal company that will provide an informational packet, packing receptacles and instructions, labels and shipping materials, transportation, and recycling or incineration services for PCB ballasts. All capacitors and asphalt potting compound materials removed from Agency's PCB ballasts will be incinerated in a federally approved facility. After proper disposal, a Certificate of Destruction will be provided by the approved facility to the Agency. Contractor's responsibility shall be for the proper and legal management of any of Agency's PCB ballasts removed as a result of the installation of the Equipment and shall be limited only until said PCB ballasts are loaded onto an approved PCB ballast disposal Contractor's vehicle for transportation.

b. Contractor shall enter into an agreement with an approved lamp disposal company, who will provide approved containers, materials required to label, transportation, recycling or incineration in accordance with EPA requirements, and a copy of the manifest.

c. Agency agrees to sign manifests of ownership for all PCB ballasts and mercury lamps removed from the Project Site(s).

22. **Training by Contractor.**

The Contractor shall conduct the training program described in Schedule V (Contractor's Training Responsibilities) hereto. The must be completed prior to acceptance of the Equipment installation. The Contractor shall provide ongoing training whenever needed with respect to updated or altered Equipment, including upgraded software. Such training shall be provided at no charge to the Agency and shall have no effect on prior acceptance of Equipment installation.

23. **Equipment Service, Actions by Contractor.**

Contractor shall provide all service, repairs, and adjustments to the Equipment installed under terms of this Contract pursuant to Schedule BB (Contractor's Maintenance Responsibilities). Agency shall incur no cost for Equipment service, repairs, and adjustments, except as set forth in Schedule J (Compensation to Contractor for Annual Services), provided, however, that when the need for maintenance or repairs principally arises due to the negligence or willful misconduct of the Agency or any employee or other agent of Agency, and Contractor can so demonstrate such causal connection, Contractor may charge Agency for the actual cost of the maintenance or repair insofar as such cost is not covered by any warranty or insurance proceeds.

24. **Malfunctions and Emergencies.**

a. Agency shall use its best efforts to notify the Contractor or its designated subcontractors within 24 hours after the Agency's actual knowledge and occurrence of: (i) any malfunction in the operation of the Equipment or any preexisting energy related equipment that might materially impact upon the guaranteed energy savings, (ii) any interruption or alteration to the energy supply to the Project Site(s), or (iii) any alteration or modification in any energy-related equipment or its operation.

b. Where Agency exercises due diligence in attempting to assess the existence of a malfunction, interruption, or alteration it shall be deemed not at fault in failing to correctly identify such conditions as having a material impact upon the guaranteed energy savings. Agency shall notify Contractor within twenty-four (24) hours upon its having actual knowledge of any emergency condition affecting the Equipment. Contractor shall respond or cause its designee(s) to respond within 72 hours and shall promptly proceed with corrective measures. Any telephonic notice of such conditions by Agency shall be followed within three business days by written notice to Contractor from Agency. If Agency unreasonably delays in so notifying Contractor of a malfunction or emergency, and the malfunction or emergency is not otherwise corrected or remedied, Contractor may charge Agency for its loss, due to the delay, associated with the guaranteed savings under this Contract for the particular time period, provided that Contractor is able to show the direct causal connection between the delay and the loss.

c. The Contractor shall provide a written record of all service work performed. This record will indicate the reason for the service, description of the problem and the corrective action performed.

25. **Actions by Agency.**

Agency shall not move, remove, modify, alter, or change in any way the Equipment or any part thereof without the prior written approval of Contractor except as set forth in Schedule CC (Agency's Maintenance Responsibilities). Notwithstanding the foregoing, the Agency may take reasonable steps to protect the Equipment if, due to an emergency, it is not possible or reasonable to notify the Contractor before taking any such actions. In the event of such an emergency, the Agency shall take reasonable steps to protect the Equipment from damage or injury and shall follow instructions for emergency action provided in advance by the Contractor. Agency agrees to maintain the Project Site(s) in good repair and to protect and preserve all portions thereof which may in any way affect the operation or maintenance of the Equipment.

26. **Modification of Equipment.**

During the Term of this Contract, Agency will not, without the prior written consent of Contractor, affix or install any accessory Equipment or device on any of the Equipment if such addition will change or impair the originally intended functions, value or use of the Equipment without Contractor’s prior written approval, which shall not be unreasonably withheld.

27. **Upgrade or Alteration of Equipment.**

a. Contractor shall at all times have the right, subject to Agency's prior written approval, which approval shall not be unreasonably withheld, to change the Equipment, revise any procedures for the operation of the Equipment or implement other energy saving actions in the Project Site(s), provided that: (i) the Contractor complies with the standards of comfort and services set forth in Schedule U (Standards of Comfort) herein; (ii) such modifications or additions to, or replacement of the Equipment, and any operational changes, or new procedures are necessary to enable the Contractor to achieve the

guaranteed energy and cost savings at the Project Site(s) and; (iii) any cost incurred relative to such modifications, additions or replacement of the Equipment, or operational changes or new procedures shall be the responsibility of the Contractor.

b. All modifications, additions or replacements of the Equipment or revisions to operating or other procedures shall be described in a supplemental Schedule(s) to be provided to the Agency for approval, which shall not be unreasonably withheld, provided that any replacement of the Equipment shall, unless otherwise agreed, be new and have equal or better potential to reduce energy consumption at the Project Site(s) than the Equipment being replaced. The Contractor shall have the right to update any and all software to be used in connection with the Equipment in accordance with the provisions of Section 41 (Ownership of Certain Proprietary Rights) and Schedule BB (Contractor's Maintenance Responsibilities). All replacements of and alterations or additions to the Equipment shall become part the Equipment described in Schedule R (Equipment to be Installed by Contractor) and shall be covered by the provisions and terms of **Section 16 (Construction Schedule; Equipment Installation).**

28. **Material Change Defined.**

a. A Material Change shall include any change in or to the Project Site(s), whether structural, operational or otherwise in nature which reasonably could be expected, in the judgment of the Agency, to increase or decrease annual energy consumption in accordance with the provisions and procedures set forth in Schedule B (Baseline Energy Consumption; Methodology to Adjust Baseline) and Schedule C (Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements) by at least 3.0% after adjustments for climatic variations.

b. Actions by the Agency which may result in a Material Change include, but are not limited to, the following:

i) manner of use of the Project Site(s) by the Agency; or

ii) hours of operation for the Project Site(s) or for any equipment or energy using systems operating at the Project Site(s); or

iii) Permanent changes in the comfort and service parameters set forth in Schedule U (Standards of Comfort); or

iv) occupancy of the Project Site(s); or

v) structure of the Project Site(s); or

vi) types and quantities of equipment used at the Project Site(s) or

vii) modification, renovation, or construction at the Project Site(s); or

viii) the Agency's failure to provide maintenance of and repairs to the Equipment in accordance with Schedule CC (Agency's Maintenance Responsibilities); or

ix) any other conditions other than climate affecting energy use at the Project Site(s) including but not limited to the replacement, addition or removal of energy and water consuming devices whether plug in or fixed assets,

x) casualty or condemnation of the Project Site(s) or Equipment, or

xi) changes in utility provider or utility rate classification, or

xii) any other conditions other than climate affecting energy or water use at the Project Site(s).

xiii) Modifications, alterations or overrides of the energy management system schedules or hours of operation, set back/start up or holiday schedules.

xiv) Other changes described in Schedule B.

29. **Reported Material Changes; Notice by Agency.**

The Agency shall use its best efforts to deliver to the Contractor a written notice describing all actual or proposed Material Changes in the Project Site(s) or in the operations of the Project Site(s) at least 30 days before any actual or proposed Material Change is implemented or as soon as is practicable after an emergency or other unplanned event. Notice to the Contractor of Material Changes which results because of a bona fide emergency or other situation which precludes advance notification shall be deemed sufficient if given by the Agency within 72 hours after having actual knowledge that the event constituting the Material Change occurred or was discovered by the Agency to have occurred.

30. **Other Adjustments.**

As agreed in **Section 29 (Reported Material Changes; Notice by Agency)** Agency will alert Contractor of materials changes as known. Both parties have a vested interest in meeting the guaranteed savings of the Contract. As such, the Contractor shall work with the Agency to investigate, identify, and correct any changes that prevent the guaranteed savings from being realized. As a result of such investigation, Contractor and Agency shall determine what, if any, adjustments to the baseline will be made in accordance with the provisions set forth in Schedule B (Baseline Energy Consumption; Methodology to Adjust Baseline) and Schedule C (Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements). Any disputes between the Agency and the Contractor concerning any such adjustment shall be resolved in accordance with the provisions of Schedule JJ (Alternative Dispute Resolution Procedures) hereto.

31. **Corrective Action; Accuracy of the Services.**

a. Contractor shall perform all tasks/phases under the Contract, including construction, and install the Equipment in such a manner so as not to harm the structural integrity of the buildings or their operating systems and so as to conform to the standards set forth in Schedule U (Standards of Comfort) and the construction schedule specified in Schedule S (Construction and Installation Schedule). Contractor shall repair and restore to its original

condition any area of damage caused by Contractor's performance under this Contract. The Agency reserves the right to review the work performed by Contractor and to direct Contractor to take certain corrective action if, in the opinion of the Agency, the structural integrity of the Project Site(s) or its operating system is or will be harmed. All costs associated with such corrective action to damage caused by Contractor's performance of the work shall be borne by Contractor.

b. Contractor shall remain responsible for the professional and technical accuracy of all services performed, whether by the Contractor or its subcontractors or others on its behalf, throughout the term of this Contract.

32. **Annual Reporting Requirements.**

At the end of each year during the guarantee period as specified in Schedule A (Savings Guarantee) and no later than ninety (90) days thereafter, the Contractor shall complete and submit the data required in Schedule C (Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements).

33. **Other Documents.**

This Contract incorporates herein and makes a part hereof the entire Request for Proposal and Project Development Proposal, labeled Appendix A and B, respectively. Notwithstanding, the provisions of this Contract and the attached Schedules, Exhibits and Appendices shall govern in the event of any inconsistencies between the Investment-Grade Energy Audit Report and the provisions of this Contract.

34. **Energy and Cost Savings Guarantee.**

Contractor has formulated and, subject to the adjustments provided for in Sections 28, 29 and 30 (Material Changes), has guaranteed the annual level of energy and water cost savings to be achieved as a result of the installation and operation of the Equipment and provision of services provided for in this Contract in accordance with the methods of savings measurement and verification as set forth in Schedule C (Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements). The Energy and Cost Savings Guarantee is set forth in annual increments for the term of the Contract as specified in Schedule A (Savings Guarantee) and has been structured by the Contractor to be sufficient to cover any and all annual payments required to be made by the Agency as set forth in Schedule J (Compensation to Contractor for Annual Services) and Schedule I (Financing Agreement and Payment Schedule).

35. **Annual Review and Reimbursement/Reconciliation.**

a. Energy-related cost savings shall be measured and/or calculated as specified in Schedule C (Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements) and a report provided within ninety (90) days of the end of the year for the previous year for each anniversary of the Commencement Date.

b. Annual savings shall exceed annual payments each and every year while this Contract is in effect. In the event the Energy and Cost Savings achieved during such guarantee year are less than the Guaranteed Energy and Cost Savings as defined in Schedule A (Savings Guarantee), Contractor shall pay the Agency an amount equal to the deficiency.

c. The Contractor shall remit such payments to the Agency within 60 days of written notice by the Agency of such monies due. Such excess savings will be retained by the Agency and will not be allocated to shortfalls in savings in other years. In no event shall credit for excess savings be used to satisfy saving guarantees in any other year(s) of the Contract.

36. **Contractor Compensation and Fees.**

Contractor has structured the Energy and Cost Savings Guarantee referred to in Section 34 above, to be sufficient to include any and all annual payments required to be made by the Agency in connection with financing/purchasing the Equipment to be installed by Contractor under this Contract as set forth in Schedule I (Financing Agreement and Payment Schedule). Actual energy and operations savings achieved by Contractor through the operation of Equipment and performance of services by Contractor shall be sufficient to cover any and all annual fees to be paid by Agency to Contractor for the provision of services as set forth and in accordance with the provisions of Schedules J (Compensation to Contractor) and BB (Contractor's Maintenance Responsibilities).

37. **Billing Information Procedure.**

a. Payments due to Contractor shall be calculated each quarter in the following manner:

i) By the 15th day after receipt, Agency shall provide Contractor with copies of all energy bills for the Project Site(s) which it shall have received for the preceding month;

ii) Upon receipt of the required information, the Contractor shall calculate the savings in accordance with the agreed-upon calculation formulae in Schedule C (Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements).

b. Based upon paragraphs (i) and (ii) above, Contractor shall prepare and send to Agency a Measurement & Verification invoice which shall set forth for each year the amounts of the energy and operations dollar savings calculated in accordance with Schedule C (Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements)and for the services as provided for in Schedule J (Compensation to Contractor for Annual Services). The invoice will set forth the total quarterly payment due from the Agency.

38. **Payment.**

Agency shall pay the Contractor within 30 days of receipt of the Contractor's invoice.

39. **Effective Date of Payment Obligation.**

Notwithstanding the above provisions, Agency shall not be required to begin any payments to Contractor under this Contract unless and until all equipment installation is completed by Contractor in accordance with the provisions of Section 16 (Construction Schedule; Equipment Installation) and Schedule T (Systems Start-Up and Commissioning; Operating Parameters of Installed Equipment), and accepted by Agency as evidenced by the signed Certificate of Acceptance as set forth in Exhibit V (Certificate of Acceptance - Measure), and unless and until said equipment is fully and properly functioning.

40. **Open Book Pricing.**

Open book pricing will be required, such that the Contractor shall fully disclose all costs of materials and labor purchased and subcontracted by the Contractor and a list of hourly rates and position descriptions for labor or services provided by the Contractor. Estimates for the number of hours required for the project and deviations of these budgeted hours shall require prior written approval by the owner or shall not be paid. Contractor shall maintain cost accounting records on authorized work performed under actual costs for labor and material, or other basis requiring accounting records. Contractor shall afford Agency access to these records and preserve them for a period of three (3) years after final payment. Costs will be evaluated through price analysis to compare costs with reasonable criteria such as established catalog and market prices or historical prices. The pricing methodology and individual cost markups disclosed during preliminary contract negotiations will be expected to be applied, providing the scope and size of the project remain the same as assumed when markups were disclosed.

41. **Ownership of Certain Proprietary Property Rights.**

Agency shall not, by virtue of this Contract, acquire any interest in any formulas, patterns, devices, secret inventions or processes, copyrights, patents, other intellectual or proprietary rights, or similar items of property which are or may be used in connection with the Equipment. The Contractor shall grant to the Agency a perpetual, irrevocable royalty-free license for any and all software or other intellectual property rights necessary for the Agency to continue to operate, maintain, and repair the Equipment in a manner that will yield guaranteed utility consumption reductions for the specified contract term. Contractor shall not be liable for providing new versions of software or other enhancements if or unless such new versions or enhancements are necessary to achieve the guaranteed utility consumption reductions.

42. **Ownership of Existing Equipment.**

Ownership of the equipment and materials presently existing at the Project Site(s) at the time of execution of this Contract shall remain the property of the Agency even if it is replaced or its operation made unnecessary by work performed by Contractor pursuant to this Contract. If applicable, Contractor shall advise the Agency in writing of all equipment and materials to be replaced at the Project Site(s) and the Agency shall within 5 days designate in writing to the Contractor which equipment and materials that should not be disposed of off-site by the Contractor. It is understood and agreed to by both Parties that the Agency shall be responsible for and designate the location and storage for any equipment and materials that should not be disposed of off-site. The Contractor shall be responsible for the disposal of all equipment and materials designated by the Agency as disposable off-site in accordance with all applicable laws and regulations regarding such disposal.

43. **Damages to Equipment or Property.**

Contractor shall be responsible for (i) any damage to the Equipment or other property on the Project Site(s) and (ii) any personal injury where such damage or injury occurs as a result of Contractor's performance under this Contract.

44. **Liabilities.**

The Contractor shall not be liable for any special, incidental, indirect, punitive or consequential damages, arising out of or in connection with this Contract. Further, the liability of the Contractor under this Contract shall not exceed the Contract Sum in the aggregate.

45. **Appropriations.**

The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Governing Body, this Agreement shall terminate immediately upon written notice being given by the Agency to the Contractor. The Agency's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the Agency proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

46. **Status of Contractor.**

The Contractor and its agents and employees are independent contractors performing professional services for the Agency and are not employees of the State of New Mexico. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of state vehicles, or any other benefits afforded to employees of the State of New Mexico as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment, and business income tax. The Contractor agrees not to purport to bind the State of New Mexico unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

47. **Subcontracting.**

The Contractor shall notify the Agency of all subcontractors delivering any portion of the services to be performed under this Contract.

48. **Release.**

Final payment of the amounts due under this Contract shall operate as a release of the Agency, its officers and employees, from all liabilities, claims and obligations whatsoever arising from or under this Contract.

49. **Confidentiality.**

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the Agency. Contractor's systems, methods, means and methodologies of evaluating, implementing, and performing under this Agreement shall be considered confidential. When any request for disclosure of such information is made under the New Mexico Inspection of Public Records Act, Agency shall provide prompt notice to Contractor so that Contractor may have the opportunity to object.

50. **Product of Service -- Copyright.**

All materials developed or acquired by the Contractor under this Agreement shall be the property of the Contractor.

51. **Conflict of Interest; Governmental Conduct Act.**

The Contractor warrants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract. The Contractor certifies that the requirements of the Governmental Conduct Act, NMSA 1978, Sections 10-16-1 through 10-16-18, regarding contracting with a public officer or state employee or former state employee have been followed.

52. **Amendment.**

This Contract shall not be altered, changed or amended except by instrument in writing executed by the parties hereto.

53. **Merger.**

This Contract incorporates all the agreements, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements and understandings have been merged into this written Contract. No prior agreement or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

54. **Penalties for violation of law.**

The Procurement Code, NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities and kickbacks.

55. **Equal Opportunity Compliance.**

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or

participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

56. **Applicable Law.**

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-1 (G). By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

57. **Insurance.**

~~If the services contemplated under this Agreement will be performed on or in Agency facilities or property, the Contractor shall maintain in force during the entire term of this Agreement, the following insurance coverage(s), naming the Agency as additional insured.~~

~~**A. Commercial General Liability** insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the Agency of Santa Fe their officials, officers, employees, and agents as additional insureds.~~

~~B.~~A. **Business Automobile Liability** insurance for all owned, non-owned automobiles, with a combined single limit not less than $1,000,000 per accident.

~~C.~~B. **Broader Coverage and Limits**. The insurance requirements under this Agreement shall be the greater of (1) the minimum coverage and limits specified in this Agreement, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Agreement are sufficient to cover the obligations of Contractor hereunder.

~~D.~~C. At all times prior to the Commencement Date and for a period of two years following the Commencement Date, Contractor shall maintain in full force and effect, at its expense: (1) Workman's Compensation Insurance sufficient to cover all of the employees of Contractor working to fulfill this Contract, and (2) Commercial General Liability for its employees and the service of the Equipment. The limits of such insurance shall not be less than $1,000,000 for injury to or death of one person in a single occurrence and $1,000,000.00 for injury to or death of more than one person in a single occurrence and $1,000,000.00 for a single occurrence of property damage. Such policies shall name the Agency as an additional insured. Prior to commencement of work under this Contract, Contractor will be required to provide Agency with current certificates of insurance specified above. These certificates shall contain a

provision that coverages afforded under the policies will not be canceled or changed until at least thirty (30) days' prior written notice has been given to Agency.

58. **Workers Compensation.**

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the Agency.

59. **Records and Financial Audit.**

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during this Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the Agency, the Department of Finance and Administration and the State Auditor. The Agency shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the Agency to recover excessive or illegal payments.

60. **Indemnification.**

The Contractor shall defend, indemnify and hold harmless the Agency from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Contract. In the event that any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than ten (10) days after it receives notice thereof, notify the legal counsel and insurer of the Agency by certified mail.

61. **Invalid Term or Condition.**

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

62. **Enforcement of Contract.**

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

63. **Conditions Beyond Control Of The Parties.**

Neither party will be responsible to the other for damages, loss, injury, or delay caused by conditions that are beyond the reasonable control, and without the intentional misconduct or negligence of that party. Such conditions (each, a "Force Majeure Event") include, but are not limited to: acts of God; epidemics; pandemics; viruses; quarantines; acts of government agencies; strikes; labor disputes; fires; explosions or other casualties; thefts; vandalism; riots or war; acts of terrorism; electrical power outages; interruptions or degradations in telecommunications, computer, or electronic communications systems; changes in Laws; or unavailability of parts, materials or supplies.

Notwithstanding any provision(s) of this Contract, if as a direct or indirect result of any virus, disease, contagion, or any other widespread communicable disease that causes disruption, including but not limited to COVID-19, (individually or together "Epidemic") the Work is delayed, disrupted, suspended, or otherwise impacted by, including, but not limited to (1) disruptions to material and/or equipment supply; (2) illness of the Contractor's workforce and/or unavailability of labor; (3) government quarantines, shelter-in-place orders, closures or other mandates, restrictions and/or directives; (4) Agency restrictions and/or directives; and/or (5) fulfillment of Contractor's contractual or legal health and safety obligations associated with an Epidemic; then the Contractor shall be entitled to an equitable adjustment to the Contract Schedule and duration to account for such disruptions, suspensions, and impacts. To the extent any of the causes identified herein results in an increase in the price of labor, materials, or equipment used in the performance of the Work, Contractor shall be entitled to an equitable adjustment to the Contract Price for such increases, provided Contractor presents documentation of such increases (including the original prices and/or estimates) and evidence of the Contractor's reasonable efforts to find alternative sources of material or equipment supply and/or labor at the original/non-impacted prices and/or estimates.

If a party ("performing party") shall be unable to reasonably perform any of its obligations under this Contract due to a Force Majeure Event (or if Contractor is otherwise unable to perform any of its obligations due to Agency failure to provide Contractor reasonable access to the premises to complete the Work in accordance with the project schedule), performing party's obligations shall be suspended until the said events shall have ended and, if applicable, an equitable adjustment in the time for performance, price and payment terms, and the Energy Cost and Savings Guarantee shall be made.

64. **Events of Default by Agency.**

a. Each of the following events or conditions shall constitute an "Event of Default" by Agency:

i) any failure by Agency to pay Contractor any sum due for a service and maintenance period of more than 45 days after written notification by Contractor that Agency is delinquent in making payment and provided that Contractor is not in default in its performance under the terms of this Contract; or

ii) any other material failure by Agency to perform or comply with the terms and conditions of this Contract, including breach of any covenant contained herein, provided that such failure continues for 30 days after notice to Agency demanding that such failures to perform be cured or if such cure cannot be

effected in 30 days, Agency shall be deemed to have cured default upon the commencement of a cure within 21 days and diligent subsequent completion thereof; or

iii) any representation or warranty furnished by Agency in this Contract which was false or misleading in any material respect when made.

65. **Events of Default by Contractor.**

a. Each of the following events or conditions shall constitute an "Event of Default" by Contractor:

i) the standards of comfort and service set forth in Schedule U (Standards of Comfort) are not provided due to failure of Contractor to properly design, install, maintain, repair or adjust the Equipment except that such failure, if corrected or cured within 30 days after written notice by Agency to Contractor demanding that such failure be cured, shall be deemed cured for purposes of this Contract; or

ii) any representation or warranty furnished by Contractor in this Contract is false or misleading in any material respect when made; or

iii) failure to furnish and install the Equipment and make it ready for use within the time specified by this Contract as set forth in Schedule R (Equipment to be Installed by Contractor) and Schedule S (Construction and Installation Schedule); or

iv) provided that the operation of the facility is not adversely affected and provided that the standards of comfort in Schedule U (Standards of Comfort) are maintained, any failure by Contractor to perform or comply with the terms and conditions of this Contract, including breach of any covenant contained herein except that such failure, if corrected or cured within 90 days after written notice by the Agency to Contractor demanding that such failure to perform be cured, shall be deemed cured for purposes of this Contract; or

v) any lien or encumbrance upon the equipment by any subcontractor, laborer or material vendor of Contractor; or

vi) the filing of a bankruptcy petition whether by Contractor or its creditors against Contractor which proceeding shall not have been dismissed within 90 days of its filing, or an involuntary assignment for the benefit of all creditors or the liquidation of Contractor; or

vii) failure by the Contractor to pay any amount due the Agency or perform any obligation under the terms of this Contract or the Energy and Cost Savings Guarantee as set forth in Schedule A (Savings Guarantee).

66. **Remedies upon Default by Agency.**

If an Event of Default by Agency occurs, Contractor may, without a waiver of other remedies which exist in law or equity, exercise any remedies available at law or in equity or other appropriate proceedings including bringing an action or actions from time to time for recovery of amounts due and unpaid by Agency, and/or for damages which shall include all costs and expenses reasonably incurred in exercise of its remedy.

67. **Remedies Upon Default by Contractor.**

In the Event of Default by Contractor, Agency may exercise any remedies at law or equity, or institute other proceedings, including, without limitation, bringing an action or actions from time to time for specific performance, and/or for the recovery of amounts due and unpaid and/or for damages, which shall include all costs and expenses reasonably incurred, including attorney's fees.

68. **Assignment.**

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the Agency.

69. **Assignment by Contractor.**

The Contractor may, with prior written approval of the Agency, which consent shall not be unreasonably withheld, delegate its duties and performance under this Contract, and/or utilize Contractors, provided that any assignee(s), delegee(s), or Contractor(s) shall fully comply with the terms of this Contract. Notwithstanding the provisions of this paragraph, the Contractor shall remain jointly and severally liable with its assignees(s), or transferee(s) to the Agency for all of its obligations under this Contract.

70. **Assignment by Agency.**

Agency may transfer or assign this Contract and its rights and obligations herein to a successor or purchaser of the Buildings or an interest therein. The Agency shall remain jointly and severally liable with its assignees or transferees to the Contractor for all of its obligations under this Contract.

71. **Representations and Warranties.**

a. Each party warrants and represents to the other that:

i) it has all requisite power, authority, licenses, permits, and franchises, corporate or otherwise, to execute and deliver this Contract and perform its obligations hereunder;

ii) its execution, delivery, and performance of this Contract have been duly authorized by, or are in accordance with, its organic instruments, and this Contract has been duly executed and delivered for it by the signatories so authorized, and it constitutes its legal, valid, and binding obligation;

iii) its execution, delivery, and performance of this Contract will not breach or violate, or constitute a default under any Contract, lease or instrument to which it is a party or by which it or its properties may be bound or affected; or

iv) it has not received any notice, nor to the best of its knowledge is there pending or threatened any notice, of any violation of any applicable laws, ordinances, regulations, rules, decrees, awards, permits or orders which would materially and adversely affect its ability to perform hereunder.

72. **Additional Representations of the Parties.**

a. Agency hereby warrants, represents and promises that:

i) it has provided or shall provide timely to Contractor, all records relating to energy usage and energy-related maintenance of Project Site(s) requested by Contractor and the information set forth therein is, and all information in other records to be subsequently provided pursuant to this Contract will be true and accurate in all material respects; and

ii) it has not entered into any leases, contracts or Contracts with other persons or entities regarding the leasing of energy efficiency equipment or the provision of energy management services for the Project Site(s) or with regard to servicing any of the energy related equipment located in the Project Site(s). Agency shall provide Contractor with copies of any successor or additional leases of energy efficiency equipment and contracts for management or servicing of preexisting equipment at Project Site(s) which may be executed from time to time hereafter within 14 days after execution thereof.

b. Contractor hereby warrants, represents and promises that before commencing performance of this Contract:

i) it shall have become licensed or otherwise permitted to do business in the State of New Mexico.

ii) it shall have provided proof and documentation of required insurance and bonds pursuant to this Contract;

iii) it shall make available, upon reasonable request, all documents relating to its performance under this Contract, including all contracts and subcontracts entered into;

iv) it shall use qualified subcontractors who are qualified, licensed and bonded in this state to perform the work so subcontracted pursuant to the terms hereof;

v) the Equipment will meet or exceed the provisions set forth in Section 17 (Systems Start Up and Equipment Commissioning) and in Schedule T (Systems Start-Up and Commissioning; Operating Parameters of Installed Equipment;

vi) the Equipment is or will be compatible with all other Project Site(s) mechanical and electrical systems, subsystems, or components with which the Equipment interacts, and that, as installed, neither the Equipment nor such other systems, subsystems, or components will materially adversely affect each other as a direct or indirect result of Equipment installation or operation; and

vii) it is financially solvent, able to pay its debts as they mature and possess sufficient working capital to complete the Work and perform its obligations under this Contract.

73. **Construction Performance and Payment Bonds, Labor and Material Payment Bonds.**

Such executed bonds are incorporated herein by reference as Exhibit I (Performance Bond) and Exhibit II (Labor and Material Payment Bond, if applicable). The Performance and Payment Bonds shall cover Contractor warranty obligations under this Contract but only for a period of one (1) year from the date of substantial completion. All other warranty and maintenance obligations in the Contract shall be excluded from the Performance and Payment Bonds. Further, the Performance and Payment Bonds shall exclude any and all coverage for the Energy Performance, Energy and Cost Savings Guarantees, and Annual Review and Reimbursement/Reconciliation obligations arising under the Contract. The limitation of Performance and Payment Bond liability as provided above shall not amend or limit the warranty and energy savings obligations that may be owed by the Contractor or any manufacturers' warranties required under the Contract.

74. **Further Documents.**

The parties shall execute and deliver all documents and perform all further acts that may be reasonably necessary to effectuate the provisions of this Contract.

75. **Methods of Operation by Agency.**

The parties acknowledge and agree that said Energy and Cost Savings would not likely be obtained unless certain procedures and methods of operation designed for energy and water conservation shall be implemented, and followed by the Agency on a regular and continuous basis. Agency's Maintenance Responsibilities.

76. **Agency's Maintenance Responsibilities.**

Agency agrees that it shall adhere to, follow and implement the energy conservation procedures and methods of operation to be set forth on Schedule CC (Agency Maintenance Responsibilities), to be attached hereto and made a part hereof after Agency's approval, such approval not to be unreasonably withheld, conditioned or delayed.

77. **Inspection of Project Site(s).**

Agency agrees that Contractor shall have the right once a month, with prior notice, to inspect Project Site(s) to determine if Agency is complying, and shall have complied with its obligations as set forth in

Section 75 (Agency's Maintenance Responsibilities). For the purpose of determining Agency's said compliance, the checklist to be set forth at **Schedule DD (Facility Maintenance Checklist)** as completed and recorded by Contractor during its monthly inspections, shall be used to measure and record Agency's said compliance. Agency shall make the Project Site(s) available to Contractor for and during each monthly inspection, and shall have the right to witness each inspection and Contractor's recordation on the checklist. Agency may complete its own checklist at the same time. Contractor agrees to not interfere with the Agency operations during any monthly inspection.

78. **Waiver of Liens.**

Contractor shall obtain and furnish to Agency a Waiver of Liens from each subcontractor, vendor, material manufacturer, supplier and laborer in the supply, installation and servicing of each piece of Equipment.

79. **Conflicts of Interest.**

Conflicts of interest relating to this Contract are strictly prohibited. Except as otherwise expressly provided herein, neither party hereto nor any director, employee or agent of any party hereto shall give to or receive from any director, employee or agent of any other party hereto any gift, entertainment or other favor of significant value, or any commission, fee or rebate in connection with this Contract. Likewise, neither party hereto nor any director, employee or agent of either party hereto, shall without prior notification thereof to the other party enter into any business relationship with any director, employee or agent of the other party or of any affiliate of the other party, unless such person is acting for and on behalf of the other party or any such affiliate. A party shall promptly notify the other party of any violation of this section and any consideration received as a result of such violation shall be paid over or credited to the party against whom it was charged. Any representative of any party, authorized by that party, may audit the records of the other party related to this Contract, upon reasonable notice and during regular business hours including the expense records of the party's employees involved in this Contract, upon reasonable notice and during regular business hours, for the sole purpose of determining whether there has been compliance with this section.

80. **Notices.**

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered

in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the Agency:
Jarel LaPan Hill
City Manager
City of Santa Fe
200 Lincoln Avenue
Santa Fe, NM 87504
(505) 955-6848
jlapanhill@santafenm.gov

To the Contractor:
Colby Geer
President or Successor
Yearout Energy Services Company
8501 Washington St NE
Albuquerque, NM 87113
(505) 991-7711
colby.geer@yearoutenergy.com

81. **Non-Substitution.**

In the event of a termination of this contract due to the non-appropriation of funds or in the event this Contract is terminated by Contractor due to a default by the Agency, the Agency agrees, to the extent permitted by state law, not to purchase, lease, rent, borrow, seek appropriations for, acquire or otherwise receive the benefits of any of the same and unique services performed by Contractor under the terms of this Contract for a period of three-hundred sixty five (365) calendar days following such default by Agency, or termination of this Contract due to non-appropriations.

82. **New Mexico Tort Claims Act**

Any liability incurred by the City of Santa Fe in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

83. **Authority.**

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter into a binding contract.

IN WITNESS WHEREOF, the parties have executed this Contract as of the date of signatures below.

Schedules

Savings Guarantee Schedules

Schedule A. Savings Guarantee Schedule

The following table depicts the calculated estimated savings for each measure prior to applying a guarantee factor.

ANNUAL UTILITY SAVINGS (BEFORE GUARANTEE FACTOR)

Measure No.	Measure Name	GF	Electricity		Natural Gas	Water
			kW	kWh	therm	kgal
1.00	LED Lighting	90%	3,559	2,578,138	(4,089)	0
2.00	Renewable Energy	90%	0	4,816,946	0	0
3.00	Water Conservation	90%	0	0	6,509	2,230
4.00	Building Envelope	90%	0	2,060	30,140	0
5.00	HE Transformers	90%	70	134,830	0	0
6.00	Utility Management	100%	0	0	0	0
7.00	GCCC Solar Carport Repairs	90%	0	529,737	0	0
8.00	Roof Replacement	N/A	0	0	0	0
Total			3,629	8,061,710	32,560	2,230

A measure specific guarantee factor is applied to the calculated estimated savings to determine the guaranteed savings for each measure. The applied guarantee factor is dependent on the measure type, methodology for calculating savings, understanding of the facility, experience implementing similar measures, and the level of risk acceptable to meet the Agency's financial objectives for the project.

Where the estimated savings are positive, the guarantee factor is applied as follows:

[Guaranteed Savings = Estimated Savings * Guarantee Factor]

Where the Estimated Savings are a negative value, the Guarantee Factor is applied as follows:

[Guaranteed Savings = Estimated Savings * (1 + (1 – Guarantee Factor))]

The following table depicts the guarantee factor applied to each measure and the resultant guaranteed savings.

GUARANTEED ANNUAL UTILITY SAVINGS (AFTER GUARANTEE FACTOR)

Measure No.	Measure Name	GF	Electricity		Natural Gas	Water
			kW	kWh	therm	kgal
1.00	LED Lighting	90%	3,203	2,320,324	(4,498)	0
2.00	Renewable Energy	90%	0	4,335,251	0	0
3.00	Water Conservation	90%	0	0	5,858	2,007
4.00	Building Envelope	90%	0	1,854	27,126	0
5.00	HE Transformers	90%	63	121,347	0	0
6.00	Utility Management	100%	0	0	0	0
7.00	GCCC Solar Carport Repairs	90%	0	476,763	0	0
8.00	Roof Replacement	N/A	0	0	0	0
Total			3,266	7,255,538	28,486	2,007

Guarantee Accounting

Contractor shall prepare an annual reconciliation statement within ninety (90) calendar days of the last day of each Performance Guarantee Period to determine whether Realized Annual Savings for such Performance Guarantee Period resulted in an Excess Savings or a Savings Shortfall by comparing the Annual Guaranteed Savings and the Realized Annual Savings.

All operational, maintenance, and energy costs avoided by the Agency from any steps taken by

Contractor will be included in the Realized Annual Savings for each year. If, during the Construction Period, additional measures are identified and implemented that generate additional energy, maintenance, and operational savings, these savings may be included in the Realized Annual Savings after the Performance Commencement Date. In addition, any refunds collected, including but not limited to refunds from utility companies or maintenance Contractors after the Performance Commencement Date will be added to total savings.

If Contractor can correct a shortfall through operational improvement at no expense to the Agency and with no future operational expenses or negative impact on the operations of the Agency, and the Agency declines to allow such operational improvement without reasonable cause, then any future shortfall the improvement would have corrected will be deemed met and added to the savings on an annual basis. Should the Accumulated Realized Savings at the end of the Annual Period be less than the Accumulated Guaranteed Savings, Contractor shall pay the Agency the Savings Shortfall within sixty (60) days following the completion of the annual reconciliation for such Annual Period.

Guarantee Limits

The payments and credits based on Savings Shortfalls, if any, are the sole remedy of Agency for this Performance Guarantee. Any payments made or to be made to the Agency under the terms of this Performance Guarantee shall not exceed the payments actually made by Agency to Contractor for the Contract Sum.

Schedule B. Baseline Energy Consumption; Methodology to Adjust Baseline

B.1. Baseline Energy Consumption

Refer to **Section 3 of Appendix D – Investment Grade Audit (IGA) Report** for baseline utility consumption and cost information.

B.2 Methodology to Adjust Baseline.

Periodically (at least on an annual basis), the baseline will be adjusted to account for the prevailing conditions during the measurement period. Adjustments made to the energy baseline shall be made for any of the following changes in conditions affecting the facility:

- **Weather:** Adjustments for actual weather conditions during the performance period will be normalized against the established baseline. These changes will be accounted for by adjusting the applicable baseline and proposed variables in the energy calculations developed during the IGA.
- **Occupancy / Population:** Refer to Schedule Q for baseline population information. Significant changes to the facility's occupancy / population will be normalized against the established baseline. These changes will be accounted for by adjusting the applicable baseline and proposed variables in the energy model developed during the IGA.
- **Floor Area:** Refer to Schedule Q for baseline facility information. Significant changes to the facility's floor area will be normalized against the established baseline. These changes will be accounted for by adjusting the applicable baseline and proposed variables in the energy model developed during the IGA.
- **Space Type(s):** Refer to Schedule Q for baseline facility information. Significant changes to the facility's space types will be normalized against the established baseline. These changes will be accounted for by adjusting the applicable baseline and proposed variables in the energy model developed during the IGA.

- **Operational Schedule:** Refer to Schedule Q for baseline facility information. Significant changes to the facility's operational schedule will be normalized against the established baseline. These changes will be accounted for by adjusting the applicable baseline and proposed variables in the energy model developed during the IGA.
- **Temperatures Set Points:** Refer to Schedule U for proposed Standards of Comfort. Any changes to the values will be normalized against the established baseline. These changes will be accounted for by adjusting the applicable baseline and proposed variables in the energy model developed during the IGA.
- **Equipment & Materials Change(s):** Refer to existing equipment schedule and proposed equipment retrofits/replacement. Any changes to the facility's equipment will be normalized against the established baseline. These changes will be accounted for by adjusting the applicable baseline and proposed variables in the energy model developed during the IGA.
- **Rate Escalation:** The approved annual escalation rates are as follows:

RATE ESCALATION SUMMARY

Electricity	3.600% / Year
Natural Gas	4.000% / Year
Water/Sewer	3.000% / Year
Operations & Maintenance	3.000% / Year

Schedule C. Savings Measurement and Verification Plan; Post-Retrofit M&V Plan; Annual M&V Reporting Requirements

C.1 Savings Measurement and Verification Plan.

RISK, RESPONSIBILITY AND PERFORMANCE MATRIX

RESPONSIBILITY/DESCRIPTION	CONTRACTOR PROPOSED APPROACH
1. Financial	
a. Interest rates: Neither the Contractor nor the Agency has significant control over prevailing interest rates. Higher interest rates will increase project cost, financing/project term, or both. The timing of the Contract signing may impact the available interest rate and project cost.	At the time of Contract, an estimated interest rate of 2.250% was carried in the preliminary project proforma. The Agency will work directly with its financial advisor to secure funding for the project.
b. Construction costs: The Contractor is responsible for determining construction costs and defining a budget. In a fixed-price	During the Design/Pre-Construction phase, if determined that the cost to implement any individual measure is 10% or greater than the

design/build contract, the Agency assumes little responsibility for cost overruns. However, if construction estimates are significantly greater than originally assumed, the Contractor may find that the project or measure is no longer viable and drop it before the Contract award. In any design/build contract, the Agency loses some design control.	amount budgeted at the time of Contract, Contractor will notify the Agency and either submit a change order to the project scope or eliminate the measure altogether.
c. M&V confidence: The Agency assumes the responsibility to determine the confidence that it desires to have in the M&V program and energy savings determinations. The desired confidence will be reflected in the resources required for the M&V program, and the Contractor must consider the requirement prior to submission of the final proposal.	Refer to the M&V Plan provided herein.
d. Energy Related Cost Savings: The Agency and the Contractor may agree that the project will include savings from *recurring* and/or *one-time* costs. This may include one-time savings from avoided expenditures for projects that were appropriated but will no longer be necessary. Including one-time cost savings before the money has been appropriated may involve some risk to the Agency. Recurring savings generally result from reduced O&M expenses or reduced water consumption. These O&M and water savings must be based on actual spending reductions.	Limited historic records were available during the IGA to support significant operations and maintenance (O&M) savings. Therefore, the Contractor is proposing a conservative annual O&M savings as detailed in the IGA Report.
e. Delays: Both the Contractor and the Agency can cause delays. Failure to implement a viable project in a timely manner costs the Agency in the form of lost savings, and can add cost to the project (e.g., construction interest, re-mobilization).	Refer to Schedule S – Construction and Installation Schedule Any delays will be clearly communicated to the Agency and added to the overall project schedule if necessary.
f. Major changes in facility: The Agency controls major changes in facility use, including closure.	The Agency agrees to immediately notify the Contractor of any major changes to the facility. An appropriate course of action will then be determined based on the severity of the change, and impact to the project scope and guarantee.

	These changes may require adjustment to the energy calculations developed during the IGA.

RESPONSIBILITY/DESCRIPTION	Contractor PROPOSED APPROACH
2. Operational	
a. Operating hours: The Agency generally has control over operating hours. Increases and decreases in operating hours can show up as increases or decreases in "savings" depending on the M&V method (e.g., operating hours multiplied by improved efficiency of equipment vs. whole-building/utility bill analysis).	The Agency agrees to immediately notify the Contractor of any major changes to the operating hours of the facility. An appropriate course of action will then be determined based on the severity of the change, and impact to the project scope and guarantee. Operating hours are stipulated, and any changes will require adjustment to the energy calculations developed during the IGA.
b. Load: Equipment loads can change over time. The Agency generally has control over hours of operation, conditioned floor area, intensity of use (e.g., changes in occupancy or level of automation). Changes in load can show up as increases or decreases in "savings" depending on the M&V method.	The Agency agrees to immediately notify the Contractor of any major changes to the equipment loads of the facility. An appropriate course of action will then be determined based on the severity of the change, and impact to the project scope and guarantee. Equipment loads are stipulated, and any changes will require adjustment to the energy calculations developed during the IGA.
c. Weather: A number of energy efficiency measures are affected by weather. Neither the Contractor nor the Agency has control over the weather. Should the Agency agree to accept risk for weather fluctuations, it shall be contingent upon aggregate payments not exceeding aggregate savings.	Significant variations in weather will require adjustment to the energy calculations developed during the IGA.
d. User participation: Many facility improvement measures require user participation to generate savings (e.g., control settings). The savings can be variable, and the Contractor may be unwilling to invest in these measures.	The Agency agrees to maintain the proposed HVAC setpoints and sequences of operation proposed as part of this project. Any changes to these variables must be immediately reported to the Contractor in writing. If 5% or more of the conditioned space area deviates from the above proposed space temperature set points, the Contractor shall calculate the impact to the guaranteed savings and apply adjustments accordingly.

RESPONSIBILITY/DESCRIPTION	Contractor PROPOSED APPROACH
3. Performance	
a. Equipment performance: The Contractor has control over the selection of equipment and is responsible for its proper installation, commissioning, and performance. The Contractor has responsibility to demonstrate that the new improvements meet expected performance levels including specified equipment capacity, standards of service, and efficiency.	Contractor is responsible for the proper installation, commissioning, and initial verified performance of the installed equipment (Post-Installation of 1st year of operation). The Agency agrees to thereafter properly document and maintain the new equipment per the manufacturer's and Contractor's recommendations. Failure by the Agency to properly maintain the equipment will void the long-term performance guarantee.
b. Operations: Performance of the day-to-day operations activities is negotiable and can impact performance. However, the Contractor bears the ultimate risk regardless of which party performs the activity.	The Agency will be responsible for the operation of the equipment and agrees to immediately notify the Contractor of any major changes to the operation. An appropriate course of action will then be determined based on the severity of the change, and impact to the project scope and guarantee.
c. Preventive Maintenance: Performance of day-to-day maintenance activities is negotiable and can impact performance. However, the Contractor bears the ultimate risk regardless of which party performs the activity.	Contractor is responsible for the proper installation, commissioning and initial verified performance of the installed equipment (Post-Installation of 1st year of operation). The Agency agrees to thereafter properly document and maintain the new equipment per the manufacturer's and Contractor's recommendations. Failure by the Agency to properly maintain the equipment will void the long-term performance guarantee.
d. Equipment Repair and Replacement: Performance of day-to-day repair and replacement of Contractor-installed equipment is negotiable; however, it is often tied to project performance. The Contractor bears the ultimate risk regardless of which party performs the activity.	Contractor will provide an industry standard 1-Year materials and workmanship warranty on all new work. Any material warranties that extend beyond the standard 1-Year period will be transferred to the Agency upon project closeout. The Agency will be responsible for the repair and replacement of all installed equipment following the standard 1-Year warranty period.

M&V PLAN AND SAVINGS CALCULATION METHODS OUTLINE

PROPOSED ANNUAL SAVINGS OVERVIEW

Measure No.	Measure Name	Electricity		Natural Gas	Water	All Utilities	O&M	Total
		kW	On-Peak kWh	therm	kgal	$	$	$
1.00	LED Lighting	3,203	1,244,780	(4,498)	0	$217,056	$21,761	$238,818
2.00	Renewable Energy	0	3,199,669	0	0	$473,609	$0	$473,609
3.00	Water Conservation	0	0	5,858	2,007	$14,404	$1,135	$15,539
4.00	Building Envelope	0	1,091	27,126	0	$10,477	$1,572	$12,048
5.00	HE Transformers	63	45,009	0	0	$9,567	$1,435	$11,002
6.00	Utility Management	0	0	0	0	$1,821	$0	$1,821
7.00	GCCC Solar Carport Repairs	0	351,158	0	0	$25,204	$0	$25,204
8.00	Roof Replacement	0	0	0	0	$0	$1,740	$1,740
Total		3,266	4,841,707	28,486	2,007	$752,137	$27,643	$779,780

Conversion Factors
Electric (MMBtu) = kWh * 0.003412
Natural Gas (MMBtu) = therm * 0.1
Propane (MMBtu) = gallon * 0.092

SITE USE AND SAVINGS OVERVIEW

	Total Energy	Electricity		Natural Gas
	MMBtu	kW	On- Peak kWh	therm
Total Proposed Savings	19,369	3,266	4,841,707	28,486
Usage for Entire Site	234,840	27,570	46,631,822	757,327
% of Total Site Usage Saved	8.25%	11.85%	10.38%	3.76%
Project Area (ft^2)	1,023,900			

Total Site Area (ft^2)	1,023,900
% of Total Site Area Affected	100.00%

Guarantee Types

There are five options to measure and verify savings:

Option A – Partially Measured Retrofit Isolation
Option B – Retrofit Isolation
Option C – Whole Facility Energy Use
Option D – Calibrated Simulation
Option E – Non-Measured

Option A – Partially Measured Retrofit Isolation

Option A is a retrofit isolation approach designed for projects in which the potential to generate savings must be verified, but the actual savings can be determined from short-term data collection, engineering calculations, and non-measured factors. Post-installation energy use, equipment performance, and usage are NOT measured throughout the term of the CONTRACT. Post-installation and baseline energy use is estimated using an engineering analysis of information that does not involve long-term measurements.

The intent of Option A is to verify performance through pre- and post-retrofit measurements. Usage factors can be measured or deemed based upon engineering estimates, operating schedules, operator logs, typical weather data, or other documented information sources. Post-retrofit measurements are made only once. Thereafter, inspections verify that the 'potential to perform' exists. As long as the 'potential to perform' is verified, the savings are as originally claimed and do not vary over the CONTRACT term.

Option B – Retrofit Isolation

Option B is a retrofit isolation or system level approach and requires continuous measurement to provide long-term verification of the savings. This method is intended for retrofits with performance factors and operational factors that can be measured at the component or system level and where long-term performance needs to be verified. Option B is similar to Option A but uses periodic or continuous metering. Short-term periodic measurements can be used when variations in the measured factor are small. Continuous monitoring information can be used to improve or optimize the operation of the equipment over time, thereby improving the performance of the retrofit.

The intent of Option B is to verify performance periodically or continuously with long-term measurements. Usage factors may be pre-determined as in Option A or measured continuously.

Option C – Whole Facility Energy Use

Option C is a whole-building verification method. Savings are based on actual energy consumption as measured by the utility meter(s) and/or regression modeling. Estimated savings will vary over the CONTRACT term.

Option C verification methods determine savings by studying overall energy use in a facility. The evaluation of whole-building or facility-level metered data is completed using techniques ranging from simple billing comparison to multivariate regression analysis. Regression analysis can be used to account for weather and other factors to adjust the baseline and determine savings.

Option C is an appropriate and cost-effective method ONLY if facility operation is stable and savings are expected to exceed 20% of total energy consumption. However, Option C cannot verify the performance of individual measures but can verify the total performance of all measures including interactions Option C methods are appropriate for projects whose measures have a high degree of interaction that would be difficult to predict, when overall energy savings are very large, or when dedicated utility meters are available for retrofitted equipment or systems.

Option D – Calibrated Simulation

Option D is primarily a whole-building method but can be used at the component level. Savings are based on the results of a calibrated computer simulation model. Estimated savings may vary over the CONTRACT term if real weather data is used.

Option D uses calibrated computer simulation models of component or whole-building energy consumption to determine energy savings. Linking simulation inputs to baseline and post-installation conditions completes the calibration and may involve metering performance and operating factors before and after the retrofit. Specialized software packages, such as DOE-2 or e-Quest, are used in Option D and the development of accurate building models requires substantial time and expertise.

Option D methods are appropriate for complex projects where complex system interactions need to be tracked. Due to the expense of properly conducting Option D, suitable projects should have substantial cost savings or major building renovations such as window replacements and building insulation.

Non-Measured

The Non-Measured option is appropriate on measures where no utility and/or operational savings are proposed, or when variables that are known and agreed upon by the Agency and the Contractor in advance, that are used in a calculation or simulated analysis that will pre-determine the outcome. Based on the established analytical methodology the savings will be achieved upon completion of installation and commissioning of the measure and no further measurements or calculations will need to be performed.

M&V PLAN SUMMARY

Measure No.	Measure Name	M&V Option
1.00	LED Lighting	Option A – Retrofit Isolation
2.00	Renewable Energy	Option B – Retrofit Isolation
3.00	Water Conservation	Option A – Retrofit Isolation
4.00	Building Envelope	Option A – Retrofit Isolation
5.00	HE Transformers	Option A – Retrofit Isolation
6.00	Utility Management	Non-Measured (No Savings Proposed)
7.00	GCCC Solar Carport Repairs	Option B – Retrofit Isolation
8.00	Roof Replacement	Non-Measured (No Savings Proposed)

SCHEDULE OF VERIFICATION REPORTING ACTIVITIES

Item	Time of Submission	Agency's Review and Acceptance Period
Post-Installation M&V Report	60 to 90 Days After Acceptance	30 Days
Annual M&V Report	60 to 90 Days After Annual Performance Period	30 Days

MEASURE SPECIFIC M&V PLAN AND SAVINGS CALCULATION METHODS

Refer to Appendix D – Investment Grade Audit (IGA) Report for a measure specific measurement and verification (M&V) plan.

Refer to Appendix D – Investment Grade Audit (IGA) Report for measure specific Savings Calculation Methods.

C.2 Post-Retrofit M&V Plan.

A Post-Installation M&V Report that aligns with industry best practices will be provided following project acceptance per the table above, and will include the following:

- Proposed Annual Savings Overview
- Expected Savings Overview for First Performance Year
- Impact to Energy Cost Savings from Changes between Final Proposal and As-Built Conditions per Measure

- Expected Year 1 Savings per Measure

C.3 Annual M&V Reporting Requirements

An Annual M&V Report that aligns with industry best practices will be provided at the end of each performance period per the table above, and will include the following:

- Annual Report Overview
- Proposed Annual Savings Overview
- Verified Savings Overview for Performance Year
- Verified Savings for Performance Period to Date
- Verified Annual Savings per measure for Performance Year

Schedule D. Operations and Maintenance (O&M) Savings

Refer to Appendix D – Investment Grade Audit (IGA) Report for measure specific Operations and Maintenance (O&M) Savings.

Schedule E. (NOT USED)
Schedule F. (NOT USED)
Schedule G. (NOT USED)

Payments Schedules

Schedule H. Final Project Cost & Project Cash Flow Analysis

PROJECT COST SUMMARY

FIM No.	FIM Name	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost
1.00	LED Lighting	$217,056	$21,761	$238,818	$2,222,158	$192,032	$2,030,126
2.00	Renewable Energy	$473,609	$0	$473,609	$7,167,913	$0	$7,167,913
3.00	Water Conservation	$14,404	$1,135	$15,539	$173,807	$21,450	$152,357
4.00	Building Envelope	$10,477	$1,572	$12,048	$206,170	$0	$206,170
5.00	HE Transformers	$9,567	$1,435	$11,002	$199,171	$7,766	$191,405
6.00	Utility Management	$1,821	$0	$1,821	$0	$1,516	($1,516)
7.00	GCCC Solar Carport Repairs	$25,204	$0	$25,204	$155,730	$7,628	$148,102
8.00	Roof Replacement	$0	$1,740	$1,740	$199,918	$0	$199,918
Total		$752,137	$27,643	$779,780	$10,324,867	$230,392	$10,094,474
Investment Grade Audit							$104,650
Pre-Construction Cost							$800,876
Construction Cost (Includes FIM Labor, Equipment and Materials Cost)							$11,655,884
Profit							$1,256,141
Contingency							$282,632
Total Funded Amount (Before Taxes and State Fees)							$14,100,183
Gross Receipts Tax							$141,002
State Review Fee							$1,201,600
Total Funded Amount							$15,442,785

PROJECT CASH FLOW ANALYSIS

This preliminary cash flow is for reference only. A final cash flow will be provided by the lender or Agency's Municipal Advisor.

	Total Annual Savings Less Costs	Interest	Principal	Total Payment	Ending Balance	Annual Cash Flow
Year 1	$666,797	($321,308)	($345,490)	($666,796)	$13,934,857	$1
Year 2	$692,461	($313,534)	($378,927)	($692,460)	$13,555,930	$1
Year 3	$719,065	($305,008)	($414,057)	($719,064)	$13,141,873	$1
Year 4	$820,553	($295,692)	($524,861)	($820,552)	$12,617,012	$1
Year 5	$850,990	($283,883)	($567,107)	($850,989)	$12,049,905	$1
Year 6	$882,520	($271,123)	($611,397)	($882,519)	$11,438,508	$1
Year 7	$915,182	($257,366)	($657,816)	($915,181)	$10,780,692	$1
Year 8	$949,017	($242,566)	($706,452)	($949,016)	$10,074,240	$1
Year 9	$984,068	($226,670)	($757,397)	($984,067)	$9,316,843	$1
Year 10	$1,020,377	($209,629)	($810,748)	($1,020,376)	$8,506,095	$1
Year 11	$1,057,991	($191,387)	($866,604)	($1,057,990)	$7,639,491	$1
Year 12	$1,096,956	($171,889)	($925,067)	($1,096,955)	$6,714,424	$1
Year 13	$1,137,320	($151,075)	($986,246)	($1,137,319)	$5,728,178	$1
Year 14	$1,179,135	($128,884)	($1,050,251)	($1,179,134)	$4,677,927	$1
Year 15	$1,222,452	($105,253)	($1,117,198)	($1,222,451)	$3,560,729	$1

Year 24	$1,689,485	$0	$0	$0	$0	$1,689,485
Year 25	$1,751,139	$0	$0	$0	$0	$1,751,139
Total	$29,173,536	($3,633,833)	($14,280,347)	($17,914,162)	----------	$11,259,374

Schedule I. Financing Agreement and Payment Schedule

FINANCING AGREEMENT

Due to federal regulations, the terms of the final financing agreement are negotiated directly between the Agency and their financial advisor and/or financial lending Agency. The Contractor is excluded from participation in these negotiations.

PROPOSED BILLING SCHEDULE

The following Proposed Billing Schedule demonstrates the billing schedule anticipated for the project based on project milestones and completion targets for installation of the Work as defined in this Contract. Payment terms are net 30 days from receipt of invoice. This billing schedule is based on timeline milestones, and the actual billing schedule may differ based on individual measures' commencement and completion dates.

The following Proposed Billing Schedule is based on an anticipated Contract award by January 29, 2021.

PROPOSED BILLING SCHEDULE

FIM No.	FIM Name	Contract Amount	Feb-21	Mar-21	Apr-21	May-21	Jun-21	Jul-21	Aug-21	Sep
1.00	LED Lighting	$2,222,158		$44,443	$44,443	$888,863	$166,662	$166,662	$166,662	$16

Gross Receipts Tax		$1,201,600	$56,807	$39,538	$36,889	$461,874	$87,978	$71,136	$64,848	$6
Total Billing		$15,442,785	$730,073	$508,140	$474,090	$5,935,942	$1,130,682	$914,233	$833,422	$83

Schedule J. Compensation to Contractor for Annual Services

MEASUREMENT AND VERIFICATION FEE

The Year-1 M&V Fee is $68,632. The M&V Fee will be billed quarterly and will escalate at a rate of 2.500% annually for the duration of the project as depicted in the table below. The Agency shall be responsible for payment of the annual M&V Fee, as these ongoing costs are considered annual fees, and cannot be financed up front.

ANNUAL M&V FEE SUMMARY

Year	M&V Fee	Year	M&V Fee
1	$68,632	10	$85,712
2	$70,348	11	$87,855
3	$72,106	12	$90,051
4	$73,909	13	$92,302
5	$75,757	14	$94,610
6	$77,651	15	$96,975
7	$79,592	16	$99,400
8	$81,582	17	$101,885
9	$83,621	18	$104,432

Failure by the Agency to issue payment to the Contractor for annual M&V Services within the parameters detailed herein will result in the termination of the Guarantee and annual M&V reporting requirements for the remainder of the performance period. Refer to the **APPENDIX E - Sample Annual M&V Agreement**.

Schedule K. Rebates, Incentives and Grants

UTILITY REBATES

Contractor shall coordinate with utility providers and submit required documentation during the implementation period. Utility rebates are estimated and subject to availability and final award by the utility provider. Rebates are not guaranteed by the Contractor, as these programs are at the discretion of the utility company. All awarded rebates will be paid directly to the Agency by the utility provider.

Refer to **Appendix D – Investment Grade Audit (IGA) Report** for estimated utility rebates per measure.

Design, Audit and Construction Phase Schedules

Schedule Q. Description of Project Site(s)

Refer to **Appendix D – Investment Grade Audit (IGA) Report** for a description of the project site(s) and existing equipment.

Schedule R. Equipment to be Installed by Contractor

Refer to **Appendix D – Investment Grade Audit (IGA) Report** for a measure specific scope of work and description of equipment to be installed.

Schedule S. Construction and Installation Schedule

Contractor anticipates a 15-Month overall construction period from the time of Contract. A detailed construction schedule will be co-developed with the Agency following the Contract award. The parties may amend the contract amount and schedule due to any delays related to the required approvals of interconnection documents and land acquisition.

COSF Preliminary Construction Schedule

Task Name	Duration	Start	Finish

Schedule T. Systems Start-up and Commissioning of Equipment; Operating Parameters of Installed Equipment

A preliminary commissioning plan per measures is provided in **Appendix D – Investment Grade Audit Report** and is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and implemented strategies in accordance with the savings methodology associated with each measure.

- Develop and issue construction phase commissioning plan
- Review equipment submittals to validate the specified performance criteria is in alignment with the proposed savings methodology
- Review sequences of operation and controls strategies to validate alignment with proposed savings methodology
- Review manufacturer's startup documentation
- Develop equipment Prefunctional Checklists (PFCs)
- Develop and conduct Functional Performance Testing (FPT) procedures on equipment and sequences of operation to ensure proper operation
- Create and maintain a commissioning issues log
- Establish trends as required to validate system operation
- Coordinate Owner participation as required during commissioning and equipment startup efforts
- Participate in staff training activities

Schedule U. Standards of Comfort

GENERAL

While optimizing energy consumption and costs are central to the project's success, maintaining an acceptable level of building occupant comfort is equally important. The following standards of comfort are therefore established to ensure comfortable indoor space conditions are maintained post-retrofit.

INTERIOR LIGHTING

Interior light levels shall comply with the current recommendations, at the time the Contract becomes effective, by the Illuminating Engineering Society of North America (IESNA)

SPACE HEATING AND COOLING

The proposed design shall comply with the current editions, at the time the Contract becomes effective, of ASHRAE Standards 55, 62 and 90.1.

SPACE TEMPERATURE SET POINTS:

The Agency agrees to maintain the following indoor space temperature set points:

Classroom and Office Areas

- Cooling Occupied Set Point: 74 °F (+/- 1 °F)
- Cooling Unoccupied Set Point: 82 °F
- Heating Occupied Set Point: 70 °F (+/- 1 °F)
- Heating Unoccupied Set Point: 62 °F

Unoccupied periods include, but are not limited to:

- Scheduled shutdowns
- Holidays
- All time outside of normal business hours

Cooling standards of comfort do not apply to areas that have evaporative or no cooling.

If 5% or more of the conditioned space area deviates from the above proposed space temperature set points, the Contractor shall calculate the impact to the guaranteed savings and apply adjustments accordingly. Data logging devices may be used to confirm actual space temperatures in place of trended data from the building automation system.

VENTILATION

Minimum ventilation rates shall comply with ASHRAE 62.1 guidelines that are current when the Contract takes effect.

DOMESTIC HOT WATER (DHW)

The Agency agrees to maintain the following domestic hot water supply temperature set points:

- Domestic Fixtures Set Point: 120 °F

Swimming Pool

The Agency agrees to maintain the following domestic hot water supply temperature set points:

- Water Temperature Set Point: 82 °F
- Space temperature setpoint 80 °F

Schedule V. Contractor's Training Responsibilities

Contractor shall co-develop a training plan with the Agency that is tailored to the needs and skill-level of the trainees. Contractor shall record training sessions and provide in electronic format to the Agency for future reference. The final agreed upon training agenda may include topics such as:

- Equipment start-up, proper operation, shutdown, power failure, etc.
- Sequences of operation
- Operations and maintenance (O&M) manuals

- Diagnosing and troubleshooting common equipment issues
- Preventative maintenance and required documentation
- Health & safety considerations
- Warranty information
- Identified system deficiencies

Schedule W. (NOT USED)
Schedule X. (NOT USED)
Schedule Y. (NOT USED)
Schedule Z. (NOT USED)
Schedule AA. (NOT USED)

Post-Construction Schedules

Schedule BB. Contractor's Maintenance Responsibilities

Contractor shall provide warranty services for an industry standard one-year period. This warranty is specific to defects to original quality and/or workmanship. Contractor hereby also provides warranty services for a one-year period covering defects in installation services provided by Contractor. Any material warranties that extend beyond the standard one-year period will be transferred to the Agency upon project closeout.

Schedule CC. Agency's Maintenance Responsibilities

1. Agency shall be responsible for annual operations and maintenance of installed solar photovoltaic systems to ensure proper operation.
2. Agency shall maintain all equipment per manufacturer's & Contractor's recommendations.
3. Maintain active and updated maintenance logs for all equipment. Logs shall be kept for a minimum of the warranty period and must be provided to the Contractor upon request in either electronic or hard copy format.
4. During the first-year construction warranty period, the Agency shall promptly notify the Contractor of any equipment which fails to operate as intended. Subsequent to the first year, the Agency shall coordinate repair of any failed equipment with the equipment manufacturer or other qualified entity to address equipment failures in a timely manner.
5. Maintain all sequence of operations and performance criteria related to installed systems as proposed and designed. This shall include, but not be limited to, adjusting occupancy schedules based upon operational calendars, considering holidays, regular breaks, etc. The Agency shall maintain schedules to minimize equipment operation.
6. Upon request of Contractor, provide Contractor with copies of actual monthly utility billing information on a quarterly basis for the duration of the ongoing service period. This includes utility bills from all providers. For this project, the ongoing service period shall be for the term of the contract. Utility information shall include all meters providing direct or indirect service to all building(s) included in this project.

7. Provide Contractor continuous full remote access to the Building Automation System (BAS) for the purpose of collecting and trending data over time as required for performance verification.
8. The Agency shall notify Contractor in writing with regard to any changes or alterations to buildings that will affect energy usage. This notification must be provided within 30 days of the change. This includes changes to utilization, occupancy, internal or external loads, facility operation, scheduling, and sequences of operation.
9. In addition to the maintenance responsibilities described above, the Agency shall maintain a log of all maintenance activities as described in the maintenance checklist provided with O&M manuals.

Schedule DD. Facility Maintenance Checklists

Facility maintenance checklists will be provided as a part of the Operation and Maintenance (O&M) Manuals delivered at project completion. All on-going facility maintenance shall be completed by Agency staff in accordance with manufacturer's and Contractor's recommendations and specifications.

Schedule EE. (NOT USED)
Schedule FF. (NOT USED)
Schedule GG. (NOT USED)
Schedule HH. (NOT USED)
Schedule II. (NOT USED)

Administration Schedules

Schedule JJ. Alternative Dispute Resolution

Mediation

Contractor and Agency shall endeavor to resolve claims, disputes and other matters in question between them by mediation. A request for mediation shall be made in writing, delivered to the other party to the Contract, and filed with the person or entity administering the mediation. The request may be made concurrently with the filing of a complaint or other appropriate demand for binding dispute resolution but, in such event, mediation shall proceed in advance of binding dispute resolution proceedings, which shall be stayed pending mediation for a period of 60 days from the date of filing, unless stayed for a longer period by agreement of the parties or court order. If an arbitration proceeding is stayed pursuant to this section, the parties may nonetheless proceed to the selection of the arbitrator(s) and agree upon a schedule for later proceedings.

The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in Santa Fe, New Mexico, unless another location is mutually agreed upon. Agreements reached in mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.

If the parties do not resolve a dispute through mediation pursuant to this Section, the method of binding dispute resolution shall be the following:

(Check the appropriate box. If the Contractor and Agency do not select a method of binding dispute resolution below, or do not subsequently agree in writing to a binding dispute resolution method other than litigation, the dispute will be resolved in a court of competent jurisdiction.)

[ ] Arbitration pursuant to Section of this Contract
[X] Litigation in a court of competent jurisdiction

Mayor Alan Webber
City of Santa Fe
200 Lincoln Ave
Santa Fe, NM 87504

SUBJECT: **Certification of Guaranteed Energy Savings under the Public Facility Energy Efficiency and Water Conservation Act (NMSA 1978, Section 6-23-5) – City of Santa Fe**

Dear Mayor Webber:

The Investment Grade Energy Audit submitted by the City of Santa Fe to implement energy efficiency and renewable measures in city facilities has been reviewed and is hereby approved. The Investment Grade Energy Audit was performed by Yearout Energy Services Co. (YESCO).

The Energy Conservation and Management Division (ECMD) of the New Mexico Energy, Minerals and Natural Resources Department (EMNRD) has certification responsibilities and provides technical assistance to governmental entities under the Public Facility Energy Efficiency and Water Conservation Act (Act). The two certifications needed from EMNRD for each energy performance contracting project under the Act are:

- Vendor is a Qualified Provider and meets EMNRD experience requirements; and
- Guaranteed energy savings appear to be accurately estimated and reasonable.

EMNRD reviewed the Investment Grade Energy Audit. EMNRD now issues the following certification:

- Qualifications were provided on December 1, 2017 approving YESCO as a qualified entity under EMNRD's experience criteria.

- EMNRD certifies that the guaranteed energy savings from the proposed efficiency measures appear to be accurately estimated and reasonable.

The City of Santa Fe Investment Grade Audit is hereby certified with these Special Conditions:

- Certification is contingent upon implementation of the measures as outlined in the investment grade energy audit. No significant changes in scope are to be considered unless submitted for review and approval by EMNRD.

- Section 6-23-4 Requires that the savings be guaranteed by the provider. Measurement and Verification of the savings is essential to determine if the savings are being met. A copy of the Annual Measurement and

1220 South St. Francis Drive • Santa Fe, New Mexico 87505
Phone (505) 476-3315 • Fax (505) 476-3322 • www.CleanEnergyNM.org

Verification Report shall be provided to EMNRD every year the contract is in place by January 31st of the following year. These reports are essential to meet legislative reporting requirements.

- The 3-rd party reviewer costs of 1.0% percent of the total project cost are to be included and accounted for in the project contract to reimburse EMNRD.

Pursuant to NMSA 1978, Section 6-23-5 of the Act, EMNRD has performed its certification duties. It is recommended that The City of Santa Fe implement its approval requirements to comply with NMSA 1978, 6-23-8 of the Act. Please contact me at Harold.Trujillo@state.nm.us, 505-490-7912 or Louise.N.Martinez@state.nm.us , 505-476-3315 if there are any questions.

Sincerely,

Harold J Trujillo

Re: City of Santa Fe - Investment Grade Audit Report

Dear Mr. Montano:

The Water Use & Conservation Bureau (WUCB) of the Office of the State Engineer (OSE) has reviewed various submittals from Yearout Energy Services Company for the above-referenced project including the **City of Santa Fe-Investment Grade Audit (IGA) Report** dated August 21, 2020. The review of the final IGA was completed in accordance with NMSA 1978, Section 6-23-5.B(3) of the Public Facility Energy Efficiency and Water Conservation Act (Act).

The proposal submitted is for the installation of approximately 760 fixture upgrades at 15 City facilities. NMSA 1978 Section 72-14-3.2D.(e) recognizes "water-efficient fixtures and appliances" as a water conservation measure. Consequently, the fixture retrofits proposed were considered for guaranteed water savings.

The OSE has certification responsibilities and provides technical assistance to governmental entities under the Act. The Act conditions any water conservation guaranteed utility savings contract approval on two certifications from the OSE. The OSE is required to certify that:

- "…the qualified provider of water conservation measures meets the experience requirements set by that office", and
- "….the guaranteed water savings from the water conservation measures proposed appear to be accurately estimated and reasonable."

Pursuant to NMSA 1978, Section 6-23-5.B(3) of the Act, the WUCB reviewed the proposal. The OSE provides the following certifications:

- For the purposes of this proposed project, based upon documents submitted to this office, the OSE certifies that the project team of Yearout Energy Services Company meets the experience requirements and shall be considered a "qualified provider."

- Based on the documents and information provided, the OSE certifies that the guaranteed water savings from water conservation measures appear to be accurately estimated and reasonable.

If you have any questions, please call Chuck Lawler at 505-827-6664.

Sincerely,

Julie Valdez

Julie Valdez
Acting Bureau Chief, Water Use and Conservation Bureau

Exhibit V. Certificate of Acceptance - Measure

CERTIFICATE OF ACCEPTANCE - MEASURE

Date: _____

Measure Description: _____

City of Santa Fe, NM accepts the installed equipment for the measure noted above and establishes a warranty period commencement date as _____.

Authorized Representative

_____

Name (Printed)

_____

Title

_____

Signature

_____

Date

Once executed, this form shall signify final acceptance of the installed equipment for the noted measure.

Exhibit VI. Certificate of Project Substantial Completion

CERTIFICATE OF PROJECT SUBSTANTIAL COMPLETION

Date: _____

City of Santa Fe, NM accepts the project as substantially complete and establishes a performance period commencement date as _____.

Authorized Representative

_____

Name (Printed)

_____

Title

_____

Signature

_____

Date

Once executed, this form shall signify final project acceptance and substantial completion of the proposed work. This will also signal commencement of the Year 1 Performance Period.

Exhibit VII. Equipment Warranties

An industry standard 1-Year materials and workmanship warranty is provided by Contractor as part of the project. Any material warranties that extend beyond the standard 1-Year period will be transferred to the Agency upon project closeout.

Appendices

Appendix A. Contractor Solicitation (Selection Phase)

The Contractor was selected from the NM-GSD Statewide Price agreement. Appendix is not used.

Appendix B. Contractor Proposal (Pre-Qualification Phase)

The Contractor was selected from the NM-GSD Statewide Price agreement. Appendix is not used.

Appendix C. Investment Grade Audit and Project Proposal Contract

The Investment Grade Audit (IGA) and Project Proposal Contract have been published under separate cover and are incorporated herein by this reference.

Appendix D. Investment Grade Audit Report

The Investment Grade Audit (IGA) Report has been published under separate cover and is incorporated herein by this reference.

Appendix E. Sample Annual M&V Agreement

Measurement and Verification (M&V) is the process of quantifying the annual utility consumption savings resulting from the measures implemented as part of the Guaranteed Energy Savings Performance Contract (GESPC) project. M&V activities include ongoing site surveys, metering of energy and other independent variables, review of operations and maintenance documentation, engineering calculations, and reporting. The annual cost for M&V services is outlined in Schedule J and shall be billed quarterly during each performance year. The Agency shall be responsible for payment of the annual M&V Fee, as these ongoing costs are considered annual fees, and cannot be financed up front. This section provides a sample of the annual agreement for reference.

1.0 Executive Summary

The City of Santa Fe (COSF) engaged Yearout Energy (YE) in August 2019 to perform an Investment Grade Audit (IGA) of several facilities of various types located in Santa Fe, NM. The goal of an IGA is to identify the potential project scope for budget-neutral facility upgrades thanks to reduced utility and O&M costs. The IGA was developed following the program guidelines outlined by the New Mexico Energy, Minerals, and Natural Resources Department (NM-EMNRD) and New Mexico General Services Department (NM-GSD).

The project specific objectives for this IGA include:

- Developing a self-funding, budget-neutral project with a finance period ≤ 20 years
- Reduce energy and water consumption
- Reduce utility and operational costs
- Standardize equipment throughout city facilities
- Accelerate the implementation of renewable energy where feasible to support the Sustainable Santa Fe 25-Year Plan
- Implement LED lighting retrofit/replacement opportunities
- Reduce the COSF's environmental impact

An essential step in the IGA process is to establish the baseline performance for each facility from which proposed improvements will be measured. The following tables depict a summary of the baseline annual cost and energy consumption by utility type for all COSF facilities included in the IGA.

Table 1: Baseline Annual Cost Breakdown by Utility Type

Utility	$/year
Electricity	$3,888,817
Natural Gas	$335,028
Water & Sewer	$317,231
Total	$4,541,076

Table 2: Baseline Annual Energy Consumption Breakdown by Utility Type

Utility	kBTU/year
Electricity	159,107,775
Natural Gas	75,732,660
Total	234,840,435

As a result of the comprehensive IGA process, Yearout Energy and the COSF have co-developed the following recommended Guaranteed Energy Service Performance Contract (GESPC) project:

Table 3: GESPC Project Summary

Turn-Key GESPC Project Price	$15,442,785
Up-front Capital Contribution by COSF	$1,125,000
Approximate Net Financed Amount	$14,280,347
Year 1 Utility Savings	$752,137
Year 1 Operations and Maintenance Savings	$27,643
Estimated Incentives from Utility Provider(s)	$230,392
Project Financing Period	18.0 Years
Weighted Average Service Life of Proposed Measures	31.0 Years
Percent Reduction in Annual Utility Costs*	16.8%
Environmental Impact (Reduction in Annual Emissions)	6,717,430 lbs. CO_2
Environmental Impact (Direct Reduction in Annual Water Consumption)	2,007,380 gallons
Environmental Impact (Indirect Reduction in Annual Water Consumption)	3,264,992 gallons

*The percent reduction in annual utility costs takes into consideration existing or future REC payments made to the COSF

A fundamental benefit of GESPC projects is that they allow for the savings from measures with quicker returns on investment to supplement the funding of critical infrastructure improvements and/or high priority capital intensive measures such as renewable energy.

Throughout the IGA process, Yearout Energy collaborated closely with COSF to identify and co-develop Facility Improvement Measures (FIM) that would allow COSF to leverage future energy and operational savings to fund essential facility capital improvements through a GESPC. The FIMs recommended for implementation include:

- Upgrading approximately 9,000 existing lighting fixtures to LED technology
- Install 2.750MW DC renewable energy systems which are sized for a target offset of 80% of post-retrofit On-Peak consumption at select COSF facilities and a 60% of post-retrofit On-Peak consumption at select Water Utilities and Buckman Direct Diversion (BDD) sites
- Repair the underperforming existing solar PV carports at Genoveva Chavez Community Center to recover lost production and available REC payments
- Upgrade approximately 760 existing domestic water fixtures to reduce water consumption
- Remediate ~200 square feet of existing air leakage in building envelope
- Install 28 new high efficiency transformers
- Identify and correct billing errors to reduce utility costs
- Replace the roof at the Canyon Road Water Treatment Plant in order reduce energy and operational costs and support the installation of rooftop solar PV.

The benefits from those measures are summarized in the following table.

Table 4: Facility Improvement Measures (FIM) Summary

FIM No.	FIM Name	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost	Average Service Life Years
1.00	LED Lighting	$217,056	$21,761	$238,818	$2,222,158	$192,032	$2,030,126	15.0
2.00	Renewable Energy	$473,609	$0	$473,609	$7,167,913	$0	$7,167,913	37.0
3.00	Water Conservation	$14,404	$1,135	$15,539	$173,807	$21,450	$152,357	20.0
4.00	Building Envelope	$10,477	$1,572	$12,048	$206,170	$0	$206,170	20.0

FIM No.	FIM Name	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost	Average Service Life Years
5.00	HE Transformers	$9,567	$1,435	$11,002	$199,171	$7,766	$191,405	32.0
6.00	Utility Management	$1,821	$0	$1,821	$0	$1,516	($1,516)	---
7.00	GCCC Solar Carport Repairs	$25,204	$0	$25,204	$155,730	$7,628	$148,102	20.0
8.00	Roof Replacement	$0	$1,740	$1,740	$199,918	$0	$199,918	20.0
Total		$752,137	$27,643	$779,780	$10,324,867	$230,392	$10,094,474	31.0

* Total Annual Savings include Utility Savings and O&M Savings.

Additional FIMs were investigated during the IGA but not recommended for a variety of reasons. A description of these FIMs is provided in Section 4.0 of this report.

The reduction in greenhouse gas (GHG) emissions is of particular interest for the City of Santa Fe. The "Sustainable Santa Fe 25-year Plan" calls for carbon neutrality by 2040 and targets 50% renewable energy consumption by 2025. The installation of solar photovoltaic (PV) energy, energy efficient lighting, high efficiency transformers and building envelope remediation make a significant contribution towards achieving these goals. The annual 6.7-million-pound reduction in CO_2 emissions is equivalent to planting 833 acres of trees or not driving 3.96 million miles each year. It is worth noting that these values are based on the current electricity supply mix and should the targets of the New Mexico Energy Transition Act be achieved, the reductions in GHG emissions by COSF would be even greater.

Following the review and acceptance of this report by COSF, NM-EMNRD and NM-OSE, Yearout Energy will develop a Guaranteed Utility Savings Contract (GUSC) to implement the final agreed-upon project scope. Yearout Energy anticipates the implementation of this project to commence in Q4, 2020, with a 16-month overall construction period.

2.0 Facility Descriptions

The City of Santa Fe (COSF) stretches across 37.4 square miles in Northern New Mexico, as shown in Figure 1, with a total population of roughly 83,875 inhabitants. The COSF owns and maintains many permanent buildings throughout the city, consisting of administrative offices, senior centers, community centers, public safety, fleet, public utility, and other building types.

Figure 1: City of Santa Fe

During the IGA, 38 facilities were audited. For the purpose of clarity in this report, these facilities are at times divided into the City facilities, Public Utility facilities, and Buckman Direct Diversion (BDD) facilities. The BDD is a joint project between the City of Santa Fe and Santa Fe County to build a reliable and sustainable water supply. The locations of these different facilities can be seen in Figure 2, Figure 3, and Figure 4, respectively.

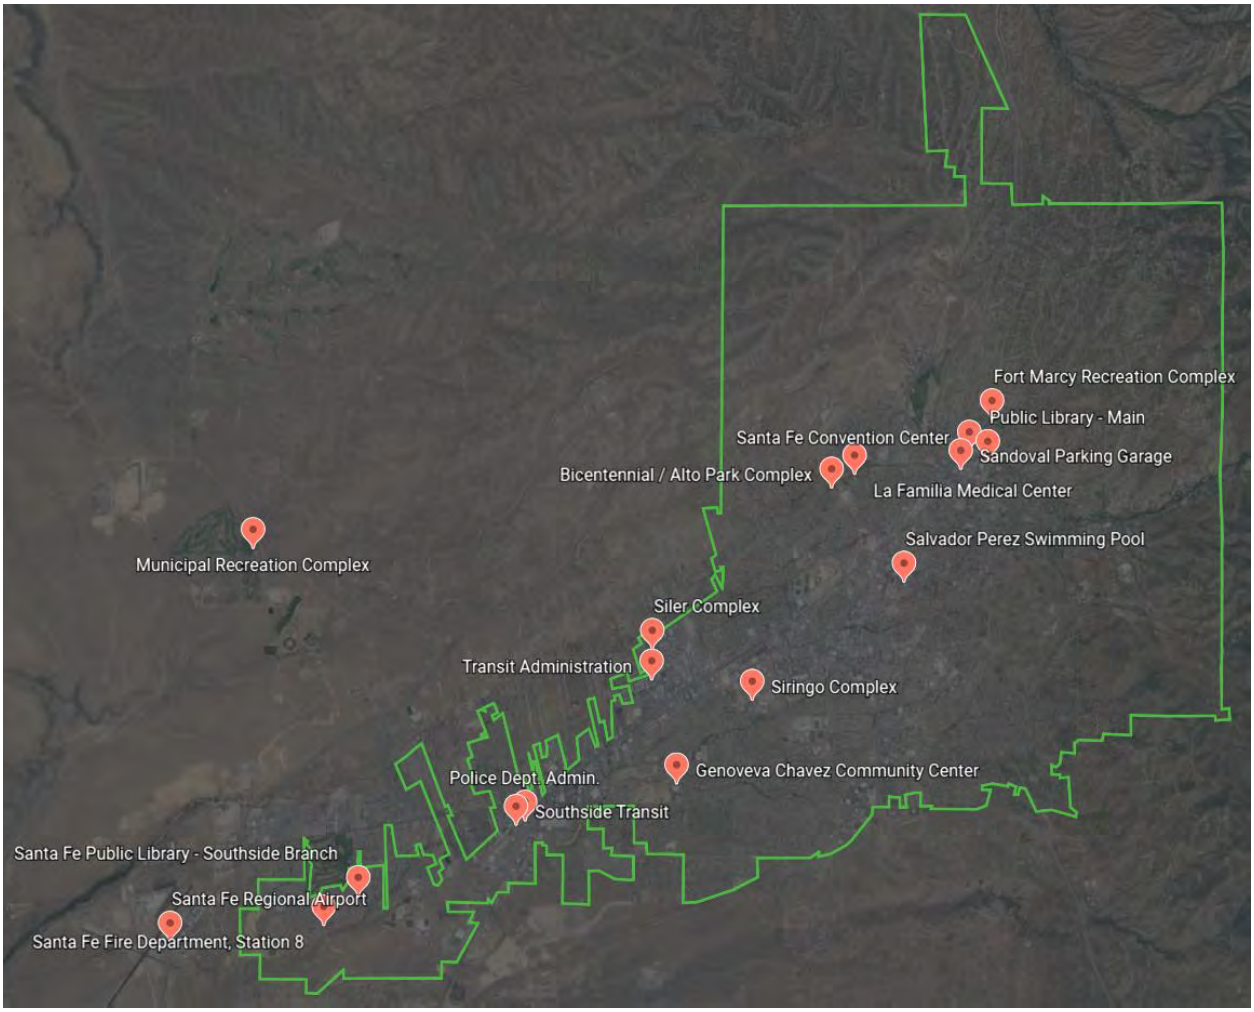

Figure 2: City of Santa Fe IGA Facilities

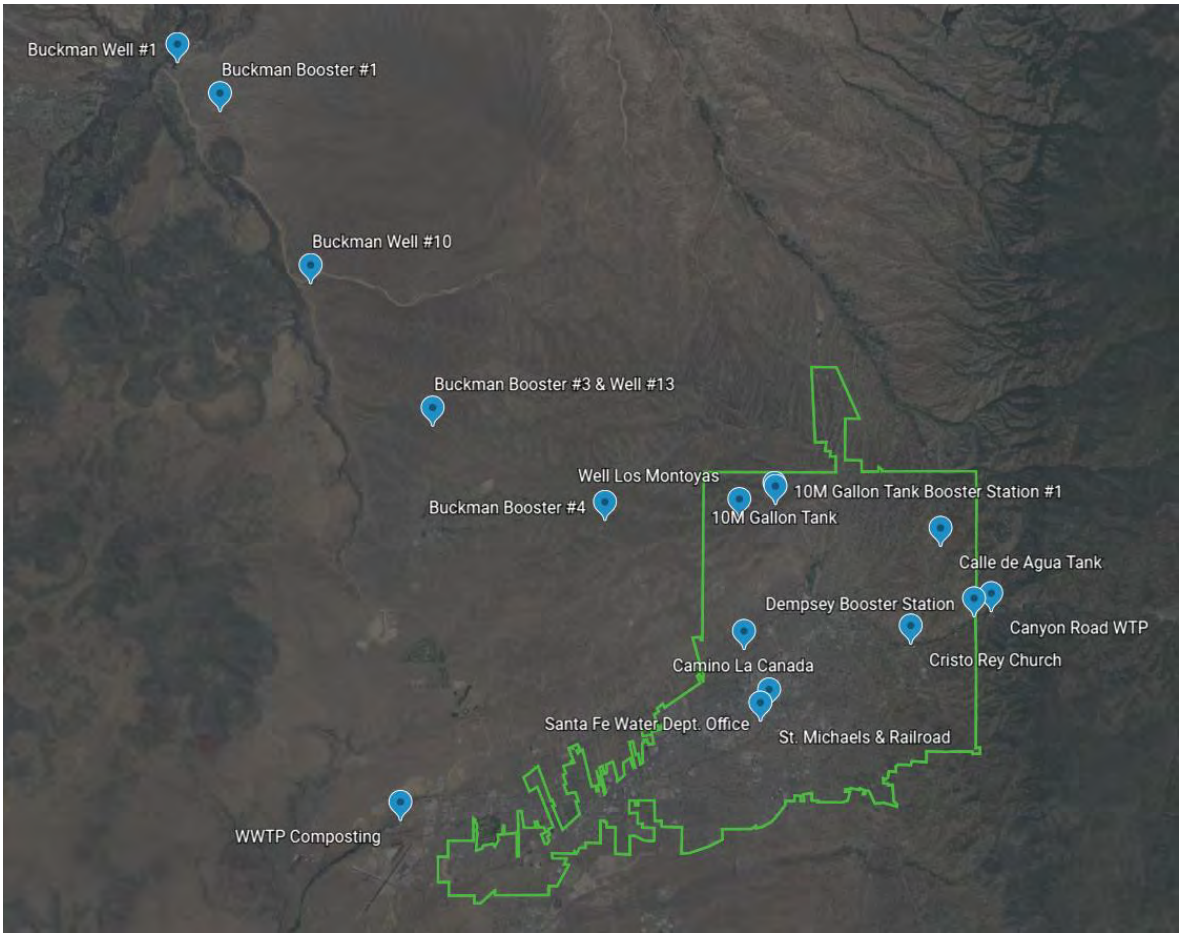

Figure 3: Public Utility IGA Facilities

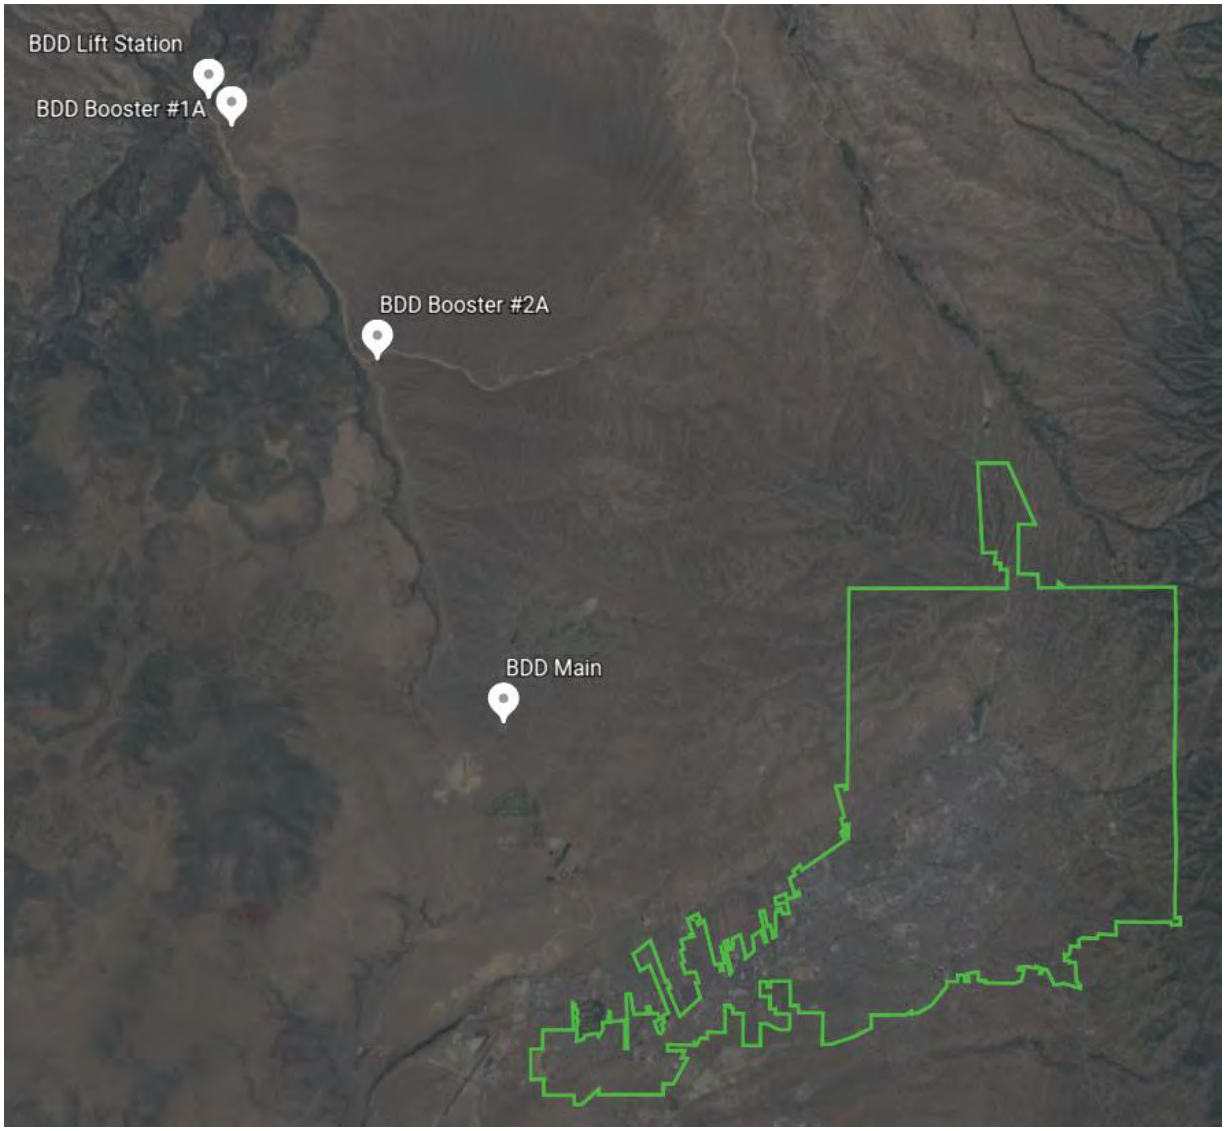

Figure 4: Buckman Diversion District (BDD) IGA Sites

To initiate the project, the COSF provided some of the critical basic information for the IGA facilities in the form of the IGA Facility Workbook which can be found in **Appendix A**. The facilities included in the IGA have total combined gross area of 1,023,900 ft^2 as shown in Table 5,
Table 6, and Table 7. These facilities have been divided by City, Water Utilities and BDD.

Table 5: City of Santa Fe Facility List

Facility No.	Site	Gross Area (ft^2)	Year Built / Renovated
01	Bicentennial / Alto Park Complex	33,500	1976/2005, 2015, 2019
02	Fire Station #2	13,000	N/A

IMPORTANT NOTE:

At the COSF's direct request, the project scope was focused towards the implementation of renewable energy and LED lighting upgrades. For completeness of the IGA, Yearout Energy performed an abbreviated field survey of the existing heating, ventilation, and air conditioning (HVAC), domestic hot water (DHW) and other energy-consuming equipment including kitchen and swimming pool equipment to better understand overall building performance at a high-level. Since these systems were not included in the IGA scope of work, the following descriptions of these systems were kept concise. The field data collected included model numbers, serial numbers, and pictures of the general condition. Where available, either through the nameplate or serial number, we have tabulated the equipment manufacturing date. This data, along with additional information, is available in **Appendix C1**.

The majority of energy consumption at the pump houses and booster stations is via the operation of the pumps, therefore the descriptions of sites, including the HVAC systems, lighting, and plug loads have been kept concise and are available in appendices.

The City originally instructed YE to evaluate only the lighting at the Dewatering and Composing Buildings at the Wastewater Treatment Plant (WWTP). During the later stages of the IGA development the City requested YE add the entire WWTP to the lighting scope of work. Because of the large number of transformers and importance of the site to the City's infrastructure and operation, YE included a survey of the electric transformers. Due to the limited scope of work, limited time and travel restrictions of the Coronavirus YE conducted a full lighting and electric transformer survey and did not include surveys of the HVAC systems, plug loads, wastewater treatment equipment.

2.1 Bicentennial / Alto Park Complex

Facility Facts:

Facility Name	Bicentennial / Alto Park Complex
Street Address	1121 Alto St
City, State, Zip	Santa Fe, NM 87501
Gross Area (ft²)	
Pool	4,400
Senior Center	17,000
Head Start	12,100
Total	33,500
Year Built	
Pool	1993
Senior Center	1976
Head Start (Daycare)	-----
Avg. Daily Occupancy	
Swimming Pool (Staff / Visitors)	8 / 130
Head Start (Teachers / Students)	14 / 55
Senior Center (Approximate Full-Time staff / Visitors)	20 / 200

2.1.1 Facility Description

This facility includes a Head Start Daycare Center and Early Prevention, swimming pool, senior center, and ballparks for softball and soccer with concession stand.

The Head Start located on the south side and Early Prevention on the north side of a shared building. According to the city and the utility bills, Early Prevention vacated the building in November 2017. The city plans to reoccupy this area soon. The daycare center includes offices, classrooms, and a small commercial kitchen.

Figure 5: Aerial view of Bicentennial/Alto Park Complex

The swimming pool includes a reception desk, men's and women's locker rooms, a lifeguard office, and a small breakroom. An additional pump room with filters and a boiler room is located on the building perimeter. The swimming pool is outdoors and operates seasonally.

The senior center also houses the administration for senior affairs and includes office space and meeting rooms. Additionally, there is a lobby with TV, dining room, weight room, gaming room, computer room, and commercial kitchens. The first kitchen serves the visiting seniors' breakfast and lunch, while the second kitchen provides prepared food for the Meals on Wheels program. Each kitchen prepares an estimated 300 meals per day.

2.1.2 Hours of Operation

2.1.2.1 Swimming Pool

May-September 1st

Monday	6:00 am – 6:00 pm
Tuesday	6:00 am – 6:00 pm
Wednesday	6:00 am – 6:00 pm
Thursday	6:00 am – 6:00 pm
Friday	6:00 am – 6:00 pm
Saturday	6:00 am – 5:30 pm
Sunday	6:00 am – 5:30 pm

2.1.2.2 Senior Center

2.1.3 Building Envelope

2.1.3.1 Swimming Pool

This single-story building has high ceilings and an open corridor down the middle. There are two types of a roof on this building. Firstly, a flat built-up roof above the locker rooms with a modified bitumen rolled sheet exterior that is supported by steel joist with metal deck. The second is a sloped blue metal roof, located in the middle of the building above the lobby and behind the reception desk leading down the main corridor. The walls are 8” masonry concrete unit (CMU) blocks with an interior framed wall with sheetrock interior. The majority of windows throughout the building are double paned with metal frame, including a large window wall that leads out to the pool.

2.1.3.2 Senior Center

This building is single story with a handful of additions, including a dining room, commercial kitchens, food storage, and a computer room that is under construction. The roof on this building is a flat, built-up roof with a modified bitumen rolled sheet exterior and supported by steel joist with metal deck. The original exterior walls are most likely constructed with 2”x6” wood studs at 16” on center, filled with batt insulation. The exterior of the original building has a white brick veneer. The additions have metal stud walls filled with batt insulation and white stucco exterior. The majority of windows throughout the building are double paned. There are a pair of 2’x2’ and 4’x4’ skylights. The main entrance on the east side of the building is through a set of metal double-doors with windows. Auxiliary building entrances located around the building are single doors made of wood or metal.

2.1.3.3 Head Start

This building is a single story with an addition that includes a kitchen on the south side. The flat roof is covered with a sprayed-on urethane foam (SPUF) with a roof coating applied over foam and granules broadcast into the coating. According to the principal, this system was applied around five years ago. This roof structure is likely a metal deck supported by steel joist. Large cracks and punctures are allowing water into the roof system.

Figure 6: Roof at the Head Start

The exterior walls are most likely constructed with 2”x6” wood studs at 16” on center, filled with batt insulation. The exterior of the original building has a white brick veneer and tan stucco on the addition. Most windows throughout the building are double paned with vinyl exterior and wood frame on the exterior and interior. There are a handful of skylights that are 2’x2’ and 2’x4’. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and

openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss. We also recommend sealing approximately 40 feet of wall cracks.

Figure 7: Gaps in building envelope at Alto Complex

2.1.4 Lighting

2.1.4.1 Swimming Pool

Interior lighting in this area consists of mostly 1'x4' fixtures with two, 34W T-12 lamps in the common area's and men's locker room. 2'x2' fixtures illuminate the women's restrooms with two-lamp 32W 'U' lamps. Additionally, 2'x4' troffers with two 34W T-12 lamps are located in the office. Most of the space illumination is provided from the existing 34W T-12 lamps that make this building a good candidate for a lighting retrofit. Exit signs consist of 4W LED lamps. Most of the exterior illumination is via a wall pack fixture with one 70W high-pressure sodium lamp. There are no existing lighting controls or occupancy sensors in this building.

2.1.4.2 Senior Center

Most of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two or three 32W T-8 lamps in the common areas, offices, dining area, and kitchens. The same 2'x4' grid troffers illuminate the restrooms with an additional vanity wall mounted 1'x4' grid troffer with two 32W T-8 lamps. The 6" recessed cans in the lobby have been retrofitted with 12W LED lamps. Most of the space illumination is from the existing 32W T-8 lamps that make this building a good candidate for a lighting retrofit. Most of the exterior illumination is via a wall pack fixture with one 70W high-pressure sodium lamp. Additional exterior lighting includes recessed canopy fixtures with one 100W high-pressure sodium lamp. Two exterior wall pack fixtures have 16W LED lamps. Exit signs consist of 4W LED lamps. There are no existing lighting controls or occupancy sensors in this building.

2.1.4.3 Head Start

The majority of interior lighting consists of 1'x4' wrap around fixtures with two or three 34W T-12 lamps in the common areas, offices, and classrooms. The restroom illumination is by the same 1'x4' wrap around fixtures. In the hallway, there is track lighting with one 23W compact fluorescent lamp. Most of

the space illumination is from existing 34W T-12's lamps that make this building a good candidate for a lighting retrofit. The exit signs were previously retrofitted with 4W LED lamps. Typical exterior lighting illumination is achieved by wall pack fixtures with one each of a 70W, 100W, or 150W high-pressure sodium lamp. Additional exterior lighting includes recessed canopy fixtures with one 100W high-pressure sodium lamp. There are no existing lighting controls or occupancy sensors in the building.

Refer to **Appendix D1** for a lighting fixture inventory.

2.1.5 HVAC Equipment

The Heating, Ventilation, and Air Conditioning (HVAC) systems are comprised of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. The kitchen includes a commercial hood with an exhaust and make-up air unit (MUA).

A list of equipment is tabulated in **Appendix C1**.

2.1.6 Plug Loads

2.1.6.1 Swimming Pool

The plug loads associated with this building vary by space type. Located in the Lifeguards' Office are office plug loads such as computers, monitors, and printers. The kitchen/breakroom equipment includes a refrigerator, microwave, and water cooler.

2.1.6.2 Head Start

The plug loads associated with this building vary by space type and are typical for a daycare center. There are office plug loads such as computers, monitors, and printers are located in a couple of offices and the reception desk. There is a small size commercial kitchen that includes a stove and an oven, which run on natural gas. Additional equipment present are a dishwasher, hot plates, and a refrigerator. The remainder of the rooms are classrooms, a laundry room and some office spaces.

2.1.6.3 Senior Center

The plug loads associated with this building vary by space type. The office has plug loads such as computers, monitors, and printers are present. The kitchen equipment is for a commercial setting, including stoves, an oven, that typically run of natural gas. Additional equipment includes dishwashers, hot plates, and a refrigerator. The multipurpose room has a bingo machine electric display board. There is also a small weight room in the facility.

Refer to **Appendix C3** for detailed plug load inventory and plug load power densities.

2.1.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1**.

2.1.8 Other

2.1.8.1 Swimming Pool

The facility includes a swimming pool water heater, pumps, and filtration system.

2.1.8.2 Senior Center

This facility includes two commercial kitchens. One serves the walk-in residents of the city and the other supports the Meals on Wheels program. These include typical commercial kitchen equipment for food preparation and storage, including a walk-in refrigerator.

2.1.8.3 Head Start

This facility includes a small commercial kitchen.

2.2 Fire Station #2

Facility Facts:

Facility Name	Fire Station #2
Street Address	5750 Alameda Frontage Road
City, State, Zip	Santa Fe, NM
Gross Area (ft^2)	13,000
Year Built	Currently in Pre-Construction Phase
Avg. Daily Occupancy	

2.2.1 Facility Description

This facility is not yet built, and the City has put the construction of the building on hold.

2.3 Fire station #8

Facility Facts:

Facility Name	Fire Station #8
Street Address	6796 Jaguar Dr
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	10,500
Year Built	2006
Avg. Daily Occupancy	------

2.3.1 Facility Description

Fire Station #8 is located at 6796 Jaguar Drive and covers the far southwest border of the city. It houses one fire truck and an ambulance in the garage. The facility also includes sleeping quarters, a kitchen, a lounge, an exercise room, and the captain's office.

Figure 8: Aerial View of Fire Station #8

2.3.2 Hours of Operation

Monday	24 hours
Tuesday	24 hours
Wednesday	24 hours
Thursday	24 hours
Friday	24 hours
Saturday	24 hours
Sunday	24 hours

2.3.3 Building Envelope

There are two types of the roof on this building. Firstly, a flat built-up roof above the fire truck garage and training room with a modified bitumen rolled sheet exterior and supported by steel joists with metal deck. The second is a sloped, 24-gauge butler-style standing seam roof supported by purlins spaced at approximately five-foot centers located above the living areas. Typically, the panels are clipped to the purlins and seamed mechanically leaving no exposed fasteners. In some locations, panels

are fastened through the panels into the purlins. The exposed fasteners, curbs, roof penetrations, and horizontal seams have been sealed with an unknown coating that appears to be in good condition.

Figure 9: Fire Station #8 Roof

The exterior walls are most likely metal studs at 16” on center, filled with batt insulation covered by a brown stucco exterior and a sheetrock interior. Most windows throughout the building are double paned with a metal frame. There are several 2’x’2’ and 4’x4’ skylights above the living areas that penetrate the sloped metal roof. Located above the fire truck garage are nine 2’x6’ skylights. The main public entrance is at the north side of the building through a metal-framed door with large window sections. An additional door is located on the east side and accessed from the parking lot. Auxiliary entrances located around the building are single doors made of wood or metal. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption.

Figure 10: Gaps in building envelope at Fire Station #8

2.3.4 Lighting

Interior lighting consists mostly of various types of 1’x4’ fixtures with two or three 32W T-8 lamps in the common areas, offices, and dormitory. Restrooms are illuminated by 1’x2’ vanity mounted fixtures, with one 24W T-5 lamp. Also, in this area are 6” recessed cans, with one, triple tube 42W compact

fluorescent lamp. Most of the space illumination is provided from the existing 32W T-8 lamps making this building a good candidate for a lighting retrofit. Exit signs fixtures consist of 4W LED lamps. Wall switches with occupancy sensors are typically found in restrooms, Storage, and housekeeping rooms. Typical exterior lighting is illuminated by a wall pack fixture with one 70W or 100W metal halide lamp. Additional exterior lighting includes bollards with one 100W high-pressure sodium lamp.
Refer to **Appendix D1** for a lighting fixture inventory.

2.3.5 HVAC Equipment

This building is conditioned by rooftop units (RTU) with DX cooling and natural gas heating and natural gas furnace. There is an additional split system that conditions the computer/communication room.

Additional information is available in **Appendix C1**.

2.3.6 Plug Loads

The plug loads associated with this building vary by space type. There is a dorm area with individual rooms. The Chief's Office includes plug loads such as a computer, monitors, and printer. The kitchen equipment includes a gas range and oven along with three refrigerators. The multipurpose/lounge room includes several large TVs and a computer station. There is also a small weight room that includes an elliptical machine and two treadmills.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.3.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are in a mechanical closet and include a tank and natural gas heater. The available data collected during the field survey are tabulated in **Appendix C1.**

2.3.8 Other

An exhaust system above the garage removes exhaust from the truck and ambulance.

2.4 Fort Marcy Recreation Complex

Facility Facts:

Facility Name	Fort Marcy Recreation Complex
Street Address	490 Bishops Lodge Rd
City, State, Zip	Santa Fe, NM 87501
Gross Area (ft²)	26,000
Year Built	1982
Avg. Daily Occupancy Full-Time Staff / Part-Time Staff / Visitors	5 / 3 / 1,800 per Week

2.4.1 Facility Description

The Fort Marcy Recreation Complex is located at 490 Bishops Lodge Road in Santa Fe, NM 87501. This complex is 26,000 Square Feet (SQF) and incorporates the following main areas:

- Community room
- Gymnasium
- Racquetball courts
- Weight/cardio room
- 25-yard pool
- Adjacent park with multiple fields, playgrounds, putting green

Additional spaces include closed and open cubical office spaces, mechanical and electrical rooms, and locker rooms. This building was under renovations during this IGA that included a major upgrade in the HVAC equipment.

Figure 11: Aerial View of Fort Marcy Recreation Complex

2.4.2 Hours of Operation

Monday	6:00 am – 8:30 pm
Tuesday	6:00 am – 8:30 pm
Wednesday	6:00 am – 8:30 pm
Thursday	6:00 am – 8:30 pm
Friday	6:00 am – 8:30 pm
Saturday	8:00 am – 4:00 pm
Sunday	9:00 am – 3:45 pm

2.4.3 Building Envelope

The roof is supported by a metal deck over steel joists and trusses. It has batt insulation in the ceiling space and a modified bituminous cover. The exterior walls are concrete masonry unit (CMU) blocks with a tan stucco exterior and built out sheetrock interior. Most windows throughout the building are double paned with aluminum frame. The office area underwent a renovation a few years ago. Above the swimming pool area where the roof steps there are sloped window walls. Additionally, located over the gymnasium are twelve skylights.

Figure 12: Existing Roof above Fort Marcy Recreation Center Swimming Pool

The main entrance on the south side of the building is through a set of double sliding doors with a storefront window wall with a metal frame. Additional aluminum double doors are located at the entrance to the offices. Auxiliary entrances located around the building are single doors made of wood

or metal. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

Figure 13: Gaps and openings in building envelope at the Fort Marcy Recreation Complex

2.4.4 Lighting

Interior lighting in the open and closed offices consists of 2'x4' grid troffers with three or four32W T-8 lamps, and 1'x4' wrap around fixtures with two 32W T-8 lamps. The pool area is retrofitted with 1'x4' fixtures with four 14W LED lamps. The gymnasium is illuminated mostly by high bay fixtures with six 54W T-5 lamps and additional 2'x4' grid troffers with LED lamps. The locker room fixtures are vapor tight 1'x4' with two 32W T-8 lamps. The restrooms include 2'x4' grid troffers with four 32W T-8 lamps and 6" recessed cans with 12W LED lamps. The majority of the space illumination is provided from the existing T-8 lamps making this building a good candidate for a lighting retrofit. Wall switches with occupancy sensors are found in the family locker room. Exterior lighting is provided by a wall pack fixture with one 70W high-pressure sodium (HPS) lamp, or a shoebox fixture with a 250W HPS lamp. Additional exterior lighting includes bollards, with a single, 100W HPS lamp. 12" square recessed fixtures with 70W HPS lamp.

Refer to **Appendix D1** for a lighting fixture inventory.

2.4.5 HVAC Equipment

A large air handler unit (AHU) with a chiller/boiler hydronic system conditions the gymnasium. Additional rooftop units (RTU) with DX cooling and natural gas heating condition the additional spaces.

2.4.6 Plug Loads

The plug loads associated with this building vary by space type. Typical office plug loads include computers, monitors, and printers. A break room includes a coffee machine, refrigerator, and toaster. There are additional fitness rooms with multiple stationary bicycles, elliptical machines, steppers, and a treadmill.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.4.7 Domestic Hot Water

The domestic hot water (DHW) system is located in a mechanical closet and includes a tank natural gas heater. The available data collected during the field survey are tabulated in **Appendix C1.**

2.4.8 Other

The facility includes a pool water heating system, pumps, and filtration system.

2.5 Genoveva Chavez Community Center (GCCC)

Facility Facts

Facility Name	Genoveva Chavez Community Center
Street Address	3221 Rodeo Rd
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	155,300
Year Built	1999
Avg. Daily Occupancy Full-Time Staff / Visitors	34 / 100,000 per Year

2.5.1 Facility Description

Located at 3221 Rodeo Road in Santa Fe, NM 87505 is the Genoveva Chavez Community Center (GCCC). This complex is just over 155,000 square feet (SQF) and incorporates four main activities:

- Ice arena with full-size NHL rink.
- Gymnasium with three basketball courts and an elevated running track.
- Natatorium that includes a competition Olympic-size pool, leisure pool, therapy pool, and spa.
- Fitness center incorporating weight room, aerobics classroom, and two racquetball courts.

Figure 14: Aerial View Genoveva Chavez Community Center

Additional areas include office space, a large community room that can be rented for events, multiple locker rooms, and a concession stand.

The building is two stories high with a large open corridor separating the ice rink on the north and the natatorium on the south. The main entrance, office area, and community room are located at the beginning of this corridor, on the west side of the building. At the end of the corridor are the gymnasium, fitness area, and racquetball courts.

Figure 15: Inside of Genoveva Chavez Community Center

During the IGA, the city was conducting several upgrades to the building HVAC system including the dehumidification system, ice rink chiller, and pool water system.

2.5.2 Hours of Operation

	Staff	Building	Ice Arena	Pool
Monday	5:00 am – 12:00 pm	5:30 am – 9:45 pm	8:00 am — 10:30 pm	5:30 am – 9:00 pm
Tuesday	5:00 am – 12:00 pm	5:30 am – 9:45 pm	6:00 am — 10:30 pm	5:30 am – 9:00 pm
Wednesday	5:00 am – 12:00 pm	5:30 am – 9:45 pm	6:00 am — 10:30 pm	5:30 am – 9:00 pm
Thursday	5:00 am – 12:00 pm	5:30 am – 9:45 pm	6:00 am — 10:30 pm	5:30 am – 9:00 pm
Friday	5:00 am – 12:00 pm	5:30 am – 7:45 pm	6:00 am — 6:30 pm	5:00 am – 7:30 pm
Saturday	–	8:00 am – 7:45 pm	8:30 am — 8:15 pm	10:00 am – 5:50 pm
Sunday	–	9:00 am – 5:45 pm	9:30 am — 4:00 pm	9:00 am – 5:50 pm

2.5.3 Building Envelope

The main sloped, standard seam metal roof has a minimum of 4" polyurethane foam over the structural metal deck a steel truss or joist and with an estimated R-35 value depending on foam thickness. Additionally, the flat roofs have a polyurethane foam system exterior over ½" gypsum board and supported by metal deck over steel joist with an estimated R-35 value depending on foam thickness. Typical exterior walls are constructed of 8" or 12" concrete masonry unit (CMU) blocks with a 3" insulation board covered with stucco exterior and 5/8" gypsum board interior. These walls have an estimated R-19 batt insulation value. The exterior walls for the mechanical rooms, located on the east side of the building are 8" CMU blocks. The majority of windows throughout the building are double paned with tint and aluminum or metal frame. Located on the perimeter of the pool and ice rink are large window walls. Located above the gymnasium are 6'x10' skylights and above the administration area, there are 4'x4' skylights. The main entrance on the east side of the building has multiple double doors with large glass portions. Additional auxiliary entrances located around the building are single doors made of wood or metal. These are areas of infiltration/exfiltration and would benefit from new sweeps and weather stripping.

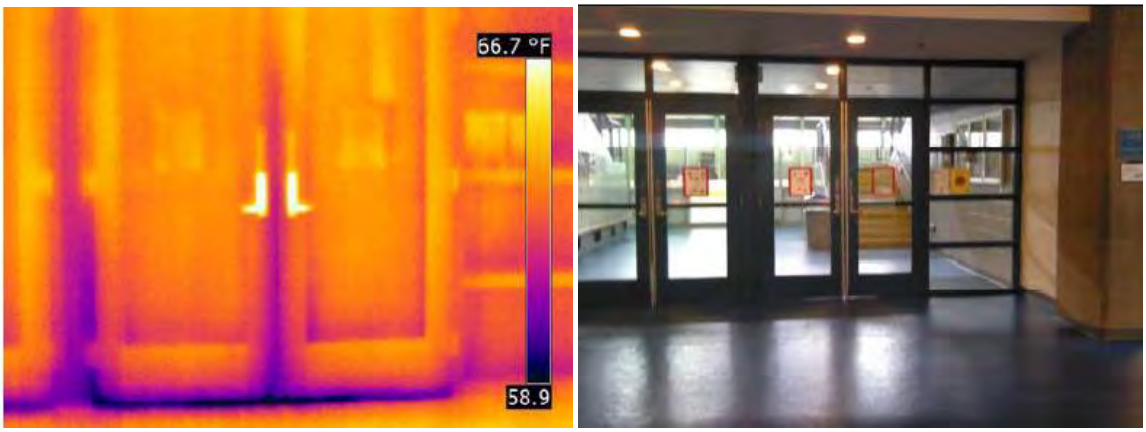

Figure 16: Thermal imaging and photos of building envelope issues

Dry cool air from the hockey rink is mixing with hot humid air from the swimming pool in the corridor. This is causing condensation in several areas. This is most likely due to air gaps between the corrugated roof deck that did not get filled during the original construction.

2.5.4 Lighting

Wall pack fixtures with two 32W lamps, 6" recessed cans with one 32W lamp, and cylindrical downlight fixtures with a 250W metal halide (MH) lamp illuminate the atrium that runs down the middle of the building. Interior lighting in the open and closed offices consists of 2'x4' grid troffers with three 32W T-8 lamps, 1'x4' wrap around fixtures with two 32W T-8 lamps, and 6" recessed cans with a single 32W lamp. The pool area lighting has numerous fixture types that include floodlights with 90W LED lamps, indirect floodlights with either a 400W or 1000W metal halide lamp. 10" cylinder fixtures, 400W metal halide lamp, and numerous 1'x4' high bay fixtures with four 54W T-5 lamps illuminate the hockey rink. High bay 1'x4' fixtures also illuminate the gymnasium along with 6" recessed cans with 32W compact

fluorescent lamps (CFL). In the fitness area you will find high bay fixtures with 400W MH lamps, 2'x4' grid troffers with three 32W T-8 lamps, and 6" recessed cans with 32W CFL's. The locker rooms have numerous fixture types that include 1'x4', 1'x2', 1'x1' and 6" cans. A large amount of the space illumination is provided by T-8 and MH lamps which make this building a good candidate for a lighting retrofit. The exterior is illumination varies with surface mounted or recessed fixtures with a 70W, 175W, or 400W metal halide lamp. Additional fixtures include pole-mounted fixtures with 400W MH lamps. There are no existing lighting controls or occupancy sensors in this building.

Refer to **Appendix D1** for a lighting fixture inventory.

2.5.5 HVAC Equipment

Most of the space is served by multiple air handler units (AHU) with evaporative cooling and natural gas heating located on the roof. The pool area has two new large dehumidification units. The office space is conditioned by packaged rooftop units with DX cooling and natural gas heating. There is also a dedicated dehumidification unit for the hockey rink. A couple of split systems provide dedicated air conditioning for the IT/communication rooms. The kitchen includes a commercial hood with an exhaust and make-up air unit (MUA).

Additional information is available in **Appendix C1**.

2.5.6 Plug Loads

The plug loads associated with this building vary by space type. There are office plug loads such as computers, monitors, and printers. A break room includes multiple coffee machines, a refrigerator, and a toaster. There is a concession stand with commercial kitchen equipment. There are several fitness rooms with multiple stationary bicycles, elliptical machines, steppers, and treadmills. There are also two dedicated server rooms with switchboards.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.5.7 Domestic Hot Water

The domestic hot water (DHW) system includes a large gas heater and two storage tanks. The available data collected during the field survey are tabulated in **Appendix C1.**

2.5.8 Other

2.5.8.1 Swimming Pool

The facility includes several dedicated pool water heating systems, pumps, and filtration.

2.5.8.2 Hockey Rink

A dedicated system for the hockey rink includes a water filtration system, two large chillers, multiple pumps, and a cooling tower. An electric Zamboni conditions the ice surface.

2.5.8.3 Carport Solar PV System

A solar carport system operates on the two electric utility accounts serving this site. This includes a 528kW DC system connected to the larger account and 96kW DC system to the smaller account. The system had a decline in production at the end of 2016 when production went from 48,120 kWh in November to 9,440 kWh the following month. The average monthly production thereafter was 7,000 kWh per month for the following years. A report provided by the installer, Affordable Solar, is available in **Appendix E1**. YE reviewed this report and the system independently. The main causes of the reduction in PV system production are the electric panel breakers tripping and inverter failures. Recently, the system production has been temporarily limited so not to trip the breakers. This has increased the production from the prior breaker tripping, but the system is far below full capacity production, and this is not a desirable long-term solution. The reduced solar production caused an increase in grid provided consumption and the utility company, PNM, changed the rate for account 115447884-1174415-5 in early 2019 from 2A to 3B, a less advantageous rate for solar production.

Figure 17: Aerial view of GCCC

2.6 La Familia Medical Center

Facility Facts:

Facility Name	La Familia Medical Center
Street Address	1035 Alto St
City, State, Zip	Santa Fe, NM 87501
Gross Area (ft²)	25,000
Year Built	1995
Avg. Daily Occupancy Full-Time Staff / Part-Time Staff / Visitors	50 / 10 / 150

2.6.1 Facility Description

This facility is a non-emergency community medical center and contains medical and health-related accommodations, including examination rooms, nursing stations, medical and billing records and supporting staff offices.

Figure 18: Aerial View of La Familia Medical Center

2.6.2 Hours of Operation

Monday	7:00 am – 6:00 pm
Tuesday	7:00 am – 6:00 pm
Wednesday	7:00 am – 6:00 pm
Thursday	7:00 am – 6:00 pm
Friday	7:00 am – 6:00 pm
Saturday	8:00 am – 3:00 pm
Sunday	–

2.6.3 Building Envelope

Figure 19: Exterior of La Familial Medical Center

The roof is supported by metal deck over steel joists and trusses with batt insulation in the ceiling space and a white TPO cover. The exterior walls are constructed with metal studs on 16" spacing with batt insulation in between a tan stucco exterior and built out sheetrock interior. The majority of windows throughout the building are double paned with aluminum frame. There is a window wall storefront entrance of the main parking lot with double doors. The main entrance on the east side of the building is through a set of metal double-doors. Auxiliary entrances located around the building are single doors made of wood or metal. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss. Some windows would benefit from a resealing.

Figure 20: Flaws in building envelope at La Familia Medical Center

2.6.4 Lighting

6” recessed cans with one 70W metal halide (MH) lamp illuminate the entrance vestibule that leads into the lobby, which contains 8” recessed cans and two 26W compact fluorescent lamps (CFL). Offices and exam rooms, and the majority of the building space, are illuminated with 1’x4’ or 2’x4’ grid troffers with two or three 32W T-8 lamps. These T-8 fixtures make this building a good candidate for a lighting retrofit. Exit sign fixtures consist of 4W LED lamps. Typical exterior lighting is illuminated by a wall pack fixture with two or three 26W tube lamps. Additional exterior lighting includes recessed fixtures that are 6” cans with 50W metal halide (MH) lamps or 10” cans with a 100W MH lamp.

Refer to **Appendix D1** for a lighting fixture inventory.

2.6.5 HVAC Equipment

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. Additional split system conditions the computer server/communications rooms.

A list of equipment is tabulated in **Appendix C1**.

2.6.6 Plug Loads

The plug loads associated with this building vary by space type and are typical for medical examination and administration. There are office plug loads such as computers, monitors, and printers. Multiple breakrooms equipment includes coffee machines, microwaves, stoves, various size refrigerators, and water coolers. There are several server rooms with switches.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.6.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.6.8 Other

An office and several rooms contain a small portion of the city IT department that includes computer equipment and servers.

2.7 Municipal Recreation Complex

Facility Facts:

Facility Name	Municipal Recreation Complex
Street Address	205 Caja Del Rio
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	
Administration	1,500
Clubhouse	11,500
Maintenance	6,000
Total	19,000
Year Built	1996
Avg. Daily Occupancy	
Maintenance Full-Time/ Seasonal / Administration / Golf Rounds / League participants	6 / 6/ 2 / 35,000 rounds per Year / 3,500 per Year

2.7.1 Facility Description

The Municipal Recreation Complex (MRC) includes the 27-hole Marty Sanchez Links de Santa Fe golf course along with a clubhouse, administration building, and groundkeepers' work sheds. Also included are the nearby softball, soccer, and rugby fields and pumphouses for the golf course and playfields. The clubhouse includes a restaurant, pro shop, and golf cart parking.

2.7.2 Hours of Operation

	Golf Course	Administrative Office	Maintenance Crew
Monday	6:00 am – Dusk	8:00 am – 5:00 pm	6:00 am – 2:00 pm
Tuesday	6:00 am – Dusk	8:00 am – 5:00 pm	6:00 am – 2:00 pm
Wednesday	6:00 am – Dusk	8:00 am – 5:00 pm	6:00 am – 2:00 pm
Thursday	6:00 am – Dusk	8:00 am – 5:00 pm	6:00 am – 2:00 pm
Friday	6:00 am – Dusk	8:00 am – 5:00 pm	6:00 am – 2:00 pm
Saturday	–	–	–
Sunday	–	–	–

2.7.3 Building Envelope

2.7.3.1 Clubhouse

The roof is supported by metal deck over steel joists and trusses and has batt insulation in the ceiling space and a built-up roof with modified bitumen cover. The exterior walls are constructed with metal studs on 16” spacing with batt insulation in between a light tan stucco exterior and a built-out sheetrock interior. The majority of windows throughout the building are double paned with aluminum frame. The entrances of the building are through metal doors with a large glass section.

2.7.3.2 Administration Building

Although access to the roof was not available during the audit, the roof is most likely supported by wood deck over trusses with batt insulation in the ceiling space and a built-up, modified bituminous exterior.

The exterior walls are 2”x6” wood studs at 16” on center, filled with batt insulation, a stucco exterior, and sheetrock interior. The windows throughout the building are double paned. There are a few fiberglass skylights. The main entrance on the south side of the building is through a metal door with a large glass portion.

2.7.3.3 Maintenance Building

This premanufactured metal building has a sloped roof with 24-gauge R-panel over steel purlins on approximately five centers. and large roll-up doors on the southside. Insulation is typical for this type of building and located in the walls and roof.

The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

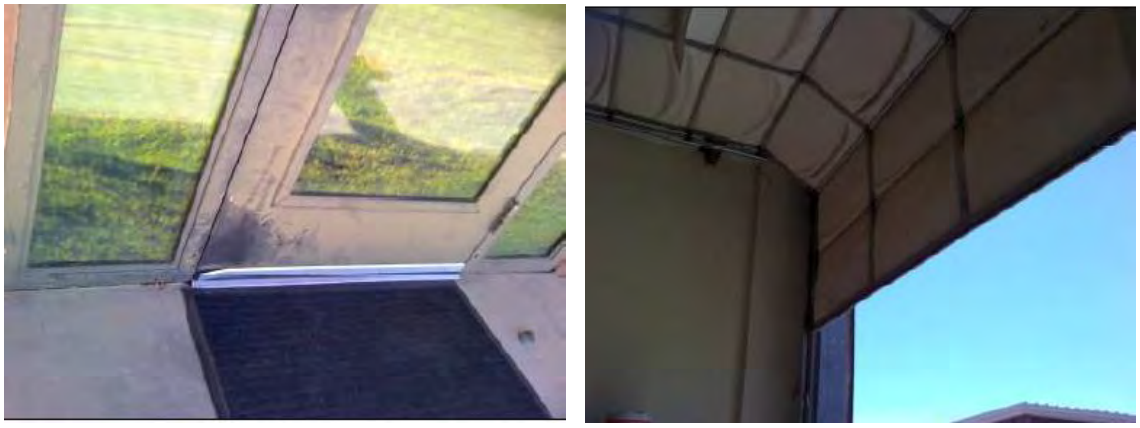

Figure 21: MRC building envelope issues

2.7.4 Lighting

2.7.4.1 Administration Building

The majority of interior lighting consists of 1'x4' or 2'x4' grid troffers with two or four three 34W T-12 lamps in the lobby, offices, and conference room. The restroom's illumination is provided by 1'x4' wrap around fixtures with the same T-12 lamps. The majority of the space illumination is from 34W T-12's lamps which make this building a good candidate for a lighting retrofit. Exterior lighting illumination is by wall sconce fixtures with 60W incandescent lamps.

2.7.4.2 Maintenance Building

1'x8' fixtures with two 59W or 110W T-12 lamps illuminate the open shop area. 2'x4' grid troffers illuminate the office and break area with four 34W T-8 lamps. The T-12's lamps that make this building a good candidate for a lighting retrofit. Exterior lighting illumination is by wall pack fixtures with 150 and 250W metal halides (MH) lamps. There are no existing lighting controls or occupancy sensors in the building.

Refer to **Appendix D1** for a lighting fixture inventory.

2.7.4.3 Clubhouse

Multiple track lights with 18W compact fluorescent lamps (CFL) light most of the pro shop. Either 4" recessed cans illuminate the bar and lounge area with 11W CFL or 8" recessed cans with 32 CFL lamps. 1'x4' vapor tight fixtures illuminate the cart barn with two 32W T-8 lamps. Typical exterior illumination is provided by various types of fixtures that include shoeboxes with 100W LED lamps and 70W metal halide (MH) lamps, along with floodlights with two 150W incandescent lamps and surface canopy 50W MH lamps.

2.7.5 HVAC Equipment

2.7.5.1 Clubhouse

This building conditioned by multiple rooftop units (RTU) with DX cooling and natural gas heating.

2.7.5.2 Administration Building

This building is conditioned by evaporative cooling and heated by a natural gas furnace.

2.7.5.3 Maintenance Building

This building is conditioned by evaporative cooling and natural gas radiant heating.

A list of equipment is tabulated in **Appendix C1**.

2.7.6 Plug Loads

2.7.6.1 Administration Building

The plug loads associated with this building vary by space type. There are office plug loads such as computers, monitors, and printers. The breakroom equipment is a microwave, refrigerator, and water cooler. The conference room has a large TV.

2.7.6.2 Clubhouse

The plug loads associated with this building vary by space type. There is a restaurant with an open sitting area with a bar and an open dining area with multiple TVs all served by a commercial kitchen. There are several small offices with typical plug loads such as computers, monitors, and printers. There is also a pro shop with several cashiers.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** power densities.

2.7.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption, and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.7.8 Other

Clubhouse

The clubhouse has a commercial kitchen with exhaust hood system and makeup air unit along with walk-in freezer and refrigerator.

"Great 28 Golf Course" Pump House

Water supplied from the wastewater treatment plant is stored in a pond. Adjacent to this pond is a small building the houses four pumps; three of these have 100HP electric motors and the fourth with a 40HP motor. These pumps serve the irrigation system that waters the golf course.

"Hill Pond Soccer" Pump Station

Located above the soccer fields, next to a water storage pond is a pumphouse with two pumps with 60HP electric motors.

2.8 Police Department – Administration

Source: Google Earth

Facility Facts:

Facility Name	Police Department Administration
Street Address	2515 Camino Entrada
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	30,000
Year Built Original / Remodel / Remodel / Addition	1984 / 2008 / 2011 / 2014
Avg. Daily Occupancy Full-Time Staff / Part-Time Staff / Visitors	230 / 2 / 20-50

2.8.1 Facility Description

This facility operates as the main Police Department for the city and houses the Chief of Police's office on the second floor. Open to the public is a lobby with several reception windows. There are numerous offices, training rooms, and conference rooms throughout the facility along with evidence storage and several temporary holding cells. Constructed in 2014, the two-story addition on the east side includes mostly office space and conference rooms.

Figure 22: Aerial View of Police Department Administration

2.8.2 Hours of Operation

Monday	24 hours
Tuesday	24 hours
Wednesday	24 hours
Thursday	24 hours
Friday	24 hours
Saturday	24 hours
Sunday	24 hours

2.8.3 Building Envelope

The flat roof is supported by metal deck over steel joist and has batt insulation in the ceiling space. The original building was re-roofed in 2009 with a Tremco TPA membrane. In consultations with the manufacturer, the roof is under warranty and Tremco is recommending performing repairs on several locations where seams require re-welding and installing terminal bars are required. The building addition roof has a 60 mil TPO adhered system.

Figure 23: Building envelope issues at the Police Department Administration building roof

The exterior walls are metal studs at 16” on center, filled with batt insulation, a stucco exterior, and sheetrock interior. The majority of windows throughout the building are double paned with steel or aluminum frames. The main entrance on the west side of the building is through a set of metal double doors with large glass sections. Auxiliary entrances located around the building are single doors made of wood or metal. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

Figure 24: Building envelope gaps at the Police Department Administration building

2.8.4 Lighting

Most of the interior space lighting consists of 2'x4' grid troffers with two or three 32W T-8 lamps in the office spaces, conference rooms, main hallways and corridors. The fitness room fixtures are 1'x8' with four 32W T-8 lamps. The locker rooms and restrooms also include 1'x4' wrap around fixtures with two 32W T-8 lamps along with the 2'x4' fixtures previously mentioned. 6" recessed cans illuminate the lobby with 26W compact fluorescent lamps (CFL). T-8 lamps make this building a good candidate for a lighting retrofit. Exit sign fixtures consist of 4W LED lamps. The exterior lighting consists of various fixtures including wall packs with 100W metal halide (MH) lamps, shoe boxes with 400W high-pressure sodium (HPS) lamps, and 8" and 10" recessed cans with 70W MH lamps. Wall switches with occupancy sensors are typically found in offices, conference rooms, and restrooms.

Refer to **Appendix D1** for a lighting fixture inventory.

2.8.5 HVAC Equipment

The Heating, Ventilation and Air Conditioning (HVAC) system for the original building comprises two multi-zone packaged rooftop units (RTU) with DX cooling and one smaller single zone unit with DX cooling and natural gas heating. The two larger units provide supply air to hydronic reheat boxes. The reheat boxes have hot water heating coils that are fed from two boilers located in a large mechanical closet. The newer addition is conditioned via single zone packaged rooftop units. There are several split systems that condition the IT/communication rooms.

A list of equipment is tabulated in **Appendix C1**.

2.8.6 Plug Loads

The plug loads associated with this building vary by space type. There are office plug loads such as computers, monitors, and printers. The multiple breakrooms' equipment includes coffee machines, microwaves, and refrigerators. Conference and training rooms have TVs and audiovisual equipment. There are several server rooms and small laboratories for evidence collection and examination. The second floor has a fitness room with an exercise bike, an elliptical machine, and a pair of treadmills. The following table summarizes the plug load power density using estimated equipment peak wattage.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.8.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption, and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size.

The available data collected during the field survey are tabulated in **Appendix C1.**

2.8.8 Other

None

2.9 Public Library – Main

Facility Facts:

Facility Name	Public Library – Main
Street Address	145 Washington Ave
City, State, Zip	Santa Fe, NM 87501
Gross Area (ft²)	28,000
Year Built	1940
Avg. Daily Occupancy	-----

2.9.1 Facility Description

Located in downtown Santa Fe, just off the main plaza, is the main Library. The upper, 2nd story, level is split between staff office spaces with a break room on the north and children's reading rooms on the south. The ground level houses most of the books with several reading and computer rooms, along with the front desk. Behind the front desk are several open office spaces, including return book sorting areas. In the basement are additional staff open and closed office spaces.

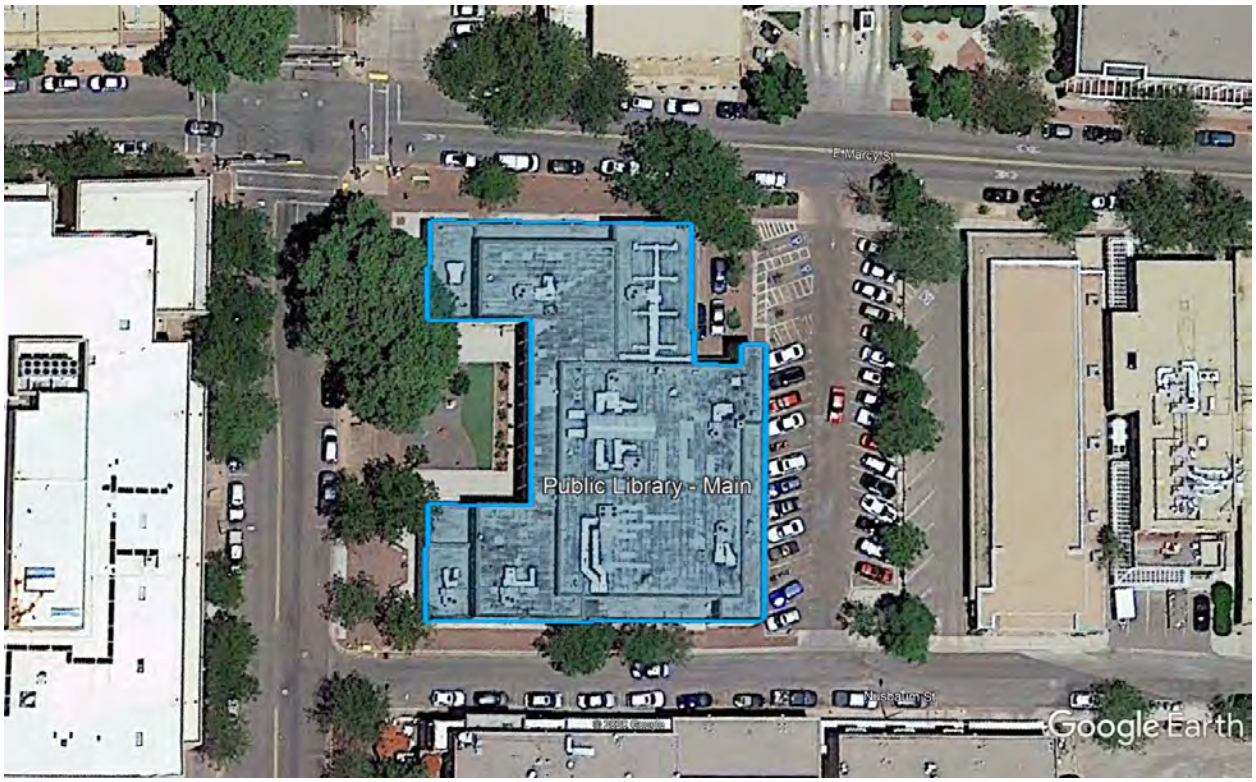

Figure 25: Aerial View Public Library – Main

2.9.2 Hours of Operation

Monday	10:00 am – 8:00 pm
Tuesday	10:00 am – 8:00 pm
Wednesday	10:00 am – 8:00 pm
Thursday	10:00 am – 6:00 pm
Friday	10:00 am – 6:00 pm
Saturday	10:00 am – 6:00 pm
Sunday	1:00 pm – 5:00 pm

2.9.3 Building Envelope

The flat roof is supported by wood trusses or metal joist and batt insulation in the ceiling space and built-up roof with a modified bitumen exterior. The exterior walls are constructed with studs at 16” on center, filled with batt insulation, a stucco exterior, and sheetrock interior. Additional walls are made of adobe. The basement wall is constructed from cast-in-place concrete. The majority of windows throughout the building are single paned with metal frame. The main entrances located on the east and west side of the building are through a set of metal doors with large window sections. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss. We also recommend sealing approximately 40 feet of wall cracks.

Figure 26: Building envelope issues at the Main Library

2.9.4 Lighting

Most of the interior space lighting consists of 2’x4’ grid troffers with two, three, or four-lamp 32W T-8’s in the office spaces, conference rooms, hallways and corridors. These spaces also include 1’x4’ and 1’x8’ fixtures with 28W T-5 lamps and 6” and 8” recessed cans retrofitted with 12W or 14W LED fixtures. The library space includes 1’x4’ and 1’x8’ fixtures with T-5 lamps and 6” cans with LED’s. Also, in the library space are 4’x4’ fixtures with six T-8 lamps. The T-8 lamps make this building a good candidate for a lighting retrofit. Exit sign fixtures consist of 4W LED lamps. Exterior decorative lighting fixtures have various lamp types which include 150W high-pressure sodium (HPS), 23W compact fluorescents (CFL), and 25W LEDs. There are bollards with 100W metal halide lamps. Wall switches with occupancy sensors are typically found in offices, lobby, storage rooms, and restrooms.

Refer to **Appendix D1** for a lighting fixture inventory.

2.9.5 HVAC Equipment

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. Two additional natural gas boilers supply heating hot water to radiators located through the building.

A list of equipment is tabulated in **Appendix C1**.

2.9.6 Plug Loads

The plug loads associated with this building vary by space type. There are office plug loads such as computers, monitors, and printers. The breakroom equipment includes two microwaves, an electric range, and a refrigerator. Additional equipment includes computer stations and a printing station with multiple printers.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.9.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.9.8 Other

None.

2.10 Santa Fe Public Library – Southside

Facility Facts:

Facility Name	Santa Fe Public Library – Southside
Street Address	6599 Jaguar Dr
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	26,000
Year Built	2004
Avg. Daily Occupancy	-----

2.10.1 Facility Description

Located at 6599 Jaguar Drive this community library is located on the south side of city as the name indicates. The main areas include a reception lobby with a reception desk, several open book halls, a children's book room with a reading area, two open public rooms, and staff offices with a break room. Additional restrooms, electrical, mechanical, and storage rooms are located throughout the building.

Figure 27: Aerial View of Public Library – Southside

2.10.2 Hours of Operation

Monday	10:30 am – 8:00 pm
Tuesday	10:30 am – 8:00 pm
Wednesday	10:30 am – 8:00 pm
Thursday	10:30 am – 8:00 pm
Friday	10:30 am – 6:00 pm
Saturday	10:30 am – 6:00 pm
Sunday	1:00 pm – 5:00 pm

2.10.3 Building Envelope

Figure 28: Southside Library Exterior

There are two types of a roof on this building. Firstly, a flat built-up roof that covers the majority of the roof with a 60-mil adhered EPDM roof system supported by metal deck and steel joist. There are multiple punctures in the membrane and deteriorating patches with unknown material. It is apparent with the amount of patchwork present that the library has experienced leaks. These repairs have most likely voided the original manufacturer warranty. The second is a sloped corrugated metal roof, located above the entrance and portions of the elevated roof in the center of the building.

Figure 29: Southside Library Roofing Condition and Blemishes

The exterior walls are most likely constructed from metal studs at 16” on center, filled with batt insulation, a brown stucco exterior, and sheetrock interior. Most windows throughout the building are

double paned with a metal frame. The main public entrance is at the north side of the building through a metal-framed door with large window sections. An additional staff door is located on the southeast side. Auxiliary entrances located around the building are single doors made of metal. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Sealing several penetrations and blank openings along with lighting fixtures located around the perimeter walls would reduce air infiltration/exfiltration and energy loss.

Figure 30: Southside Library Building Envelope Concerns

2.10.4 Lighting

The interior lighting consists of various fixture types depending on room usage. The main library area lighting includes decorative round chandeliers with six compact florescent lamps as well as radial lens 1'x4' strip fixtures with one T8 32W lamp. The children's area includes 4" recessed cans with 8W LED lamps and 2'x2' grid troffers with two T8 17W lamps. Offices are typically illuminated 1'x4' strip fixtures with two T8 32W lamps. A large amount of T8 fixtures makes this building a good candidate for a lighting retrofit. Exit signs have 4W LED lamps. Wall switches with occupancy sensors are typically found in offices, hallways, restrooms, and storage rooms.

Refer to **Appendix D1** for a lighting fixture inventory.

2.10.5 HVAC Equipment

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of multi-zone -zone packaged rooftop units (RTU) with DX cooling and natural gas heating. Additional heating hot water boilers are located in a mechanical and were not accessible during the survey.

Additional information is available in **Appendix C1**.

2.10.6 Plug Loads

The plug loads associated with this building vary by space type. There are office plug loads such as computers, monitors, and printers. The breakroom equipment includes a coffee machine, microwave, an electric range, and a refrigerator. Additional equipment includes computer stations and a printing station with multiple printers. There is a server with switches in a dedicated room.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.10.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.10.8 Other

There is a motorized system that opens the high windows located in two large open book areas.

2.11 Salvador Perez Recreation Center

Facility Facts:

Facility Name	Salvador Perez Swimming Pool
Street Address	601 Alta Vista St
City, State, Zip	Santa Fe, NM 87505
Gross Area (ft²)	17,000
Year Built	1954
Avg. Daily Occupancy	Currently Closed for Renovations
Full-time Staff/ Part-Time Staff / Visitors	5 / 3 / 90-100

2.11.1 Facility Description

Serving the public since 1954, the Salvador Perez Recreation Complex is located at 601 Alta Vista in Santa Fe, NM 87505. This complex is 18,000 Square Feet (SQF) and incorporates the following main areas:

- Community classroom
- Weight/cardio room
- 25-yard pool
- Adjacent park with playgrounds, tennis and sand volleyball courts, and soccer and baseball fields.

Additional spaces include office spaces, mechanical and electrical, and locker rooms.

Figure 31: Aerial View of Salvador Perez Swimming Pool

2.11.2 Hours of Operation

Monday	6:00 am – 8:00 pm
Tuesday	6:00 am – 8:00 pm
Wednesday	6:00 am – 8:00 pm
Thursday	6:00 am – 8:00 pm
Friday	6:00 am – 8:00 pm
Saturday	–
Sunday	–

Note: Currently Closed for Renovations

2.11.3 Building Envelope

Both the upper roof above the natatorium and lower roof above the lobby and offices are constructed with metal roof deck supported by steel joist and batt insulation in the ceiling space with a built-up roof with exterior TPO. The exterior walls are concrete masonry unit (CMU) blocks with split face or brown stucco and interior furred out sheetrock walls. The majority of windows throughout the building are double paned with an aluminum frame on the exterior and interior. There is a glass block section below the windows around the lobby. The main entrance on the west side of the building is through a set of double doors with windows. The southside entrance to the pool is via similar double doors with windows and auxiliary entrances located around the building are single doors made of wood or metal. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

Figure 32: Building envelope issues at Salvador Perez Swimming Pool

2.11.4 Lighting

Interior lighting in the offices and classrooms consists of 2’x4’ grid troffers with three 32W T-8 lamps and 1’x4’ wrap around fixtures with two 32W T-8 lamps. The pool area has been previously retrofitted with 90W LED lamps. The locker room fixtures are vapor tight 1’x4’ with two 32W T-8 lamps. The restrooms include 2’x4’ grid troffers with three 32W T-8 lamps and 1’x4’ wrap around fixtures with two 32W T-8 lamps. The majority of the space illumination provided from the existing T-8 lamps making this building a good candidate for a lighting retrofit. There are no existing lighting controls or occupancy sensors in this building. Wall pack fixtures with one 12W LED lamp, wall packs with 70W high-pressure sodium lamps (HPS), and floodlights with a 250W HPS lamp provide typical exterior illumination for the building. Floodlights illuminate sports fields with 1500W metal halide (MH) lamps. Additional exterior

lighting includes floodlights with 250W HPS and wall packs with triple tube 24W compact fluorescent lamps.

Refer to **Appendix D1** for a lighting fixture inventory.

2.11.5 HVAC Equipment

A large dehumidification system provides the Heating, Ventilation, and Air Conditioning (HVAC) systems for the pool area with a natural gas boiler attached that supplies hot water to a heating coil section. The lobby, offices and additional classrooms' air conditioning comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating.

Additional information is available in **Appendix C1**.

2.11.6 Plug Loads

This building is under construction for renovations and not occupied; therefore, the plug loads are relatively low. There are a couple of small offices with plug loads such as computers, monitors, and printers, but are not in use. There is also a small breakroom with equipment.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.11.7 Domestic Hot Water

The domestic hot water (DHW) system consists of a large tank natural gas heater located adjacent to the mechanical pool room. The available data collected during the field survey are tabulated in **Appendix C1.**

2.11.8 Other

The facility includes a pool water heating, pumps, and filtration system.

2.12 Sandoval Parking Garage Lot B

Facility Facts:

Facility Name	Sandoval Parking Garage Lot B
Street Address	200 Sandoval
City, State, Zip	Santa Fe, NM 87501
Gross Area (ft²)	130,000
Year Built	1988
Avg. Daily Occupancy (Full-Time Staff/ Visitors)	3 / 800

2.12.1 Facility Description

This facility is the main public parking for the downtown plaza and is a four-story parking facility with several small offices. Additionally, restrooms located in the entrance see heavy traffic since they are among the few public restrooms in the vicinity.

Figure 33: Aerial View of Sandoval Parking Garage

2.12.2 Hours of Operation

Monday	7:00 am – 12:00 pm
Tuesday	7:00 am – 12:00 pm
Wednesday	7:00 am – 12:00 pm
Thursday	7:00 am – 12:00 pm
Friday	7:00 am – 12:00 pm
Saturday	7:00 am – 12:00 pm
Sunday	7:00 am – 12:00 pm

2.12.3 Building Envelope

This building is constructed from reinforced concrete with large open sections between the floor levels and a tan stucco exterior finish. The enclosed areas of this building are few and include a couple of small office spaces for the facility management and maintenance team, restrooms, and an elevator tower.

2.12.4 Lighting

The lighting for the small office areas consists of mostly 2'x4' grid troffers 2 lamps 32W T-8's and 1'x4' strip fixtures with 2 lamps 32W T-8's. The parking area has previously gone through a LED retrofit with surface mounted fixtures with 20W LED lamps. This retrofit was installed approximately four years ago, but the number of fixture failures has been increasing. There are no existing lighting controls or occupancy sensors in the building.

Refer to **Appendix D1** for a lighting fixture inventory.

2.12.5 HVAC Equipment

The Heating, Ventilation and Air Conditioning (HVAC) system for this building services two small offices and was not available at the time of the survey. It is assumed these units are small package units with DX cooling and electric heating.

Additional information is available in **Appendix C1**.

2.12.6 Plug Loads

There are two small offices with plug loads such as computers, monitors, and printers. Due to the small number of plug loads and large facility areas the plug loads were not summarized in a table.

2.12.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and was not available at the time of the survey.

2.12.8 Other

None

2.13 Santa Fe Convention Center

Facility Facts:

Facility Name	Santa Fe Convention Center
Street Address	201 W. Marcy St
City, State, Zip	Santa Fe, NM 87501
Gross Area (ft²)	72,000
Year Built	2008
Avg. Daily Occupancy (Full-Time Staff, Visitors)	34 / 100,000 per Year

2.13.1 Facility Description

This facility is located at 201 West Marcy Street in Downtown Santa Fe and includes a two-story below-ground parking garage and a two-story above ground convention center. The ground floor includes the main offices and tourist guide room, numerous banquet halls, back hall support areas with three separate commercial kitchens and beverage service stations. The second story contains multiple meeting and conference rooms and a large outdoor open balcony. Additional spaces on the second floor include audio and lighting rooms.

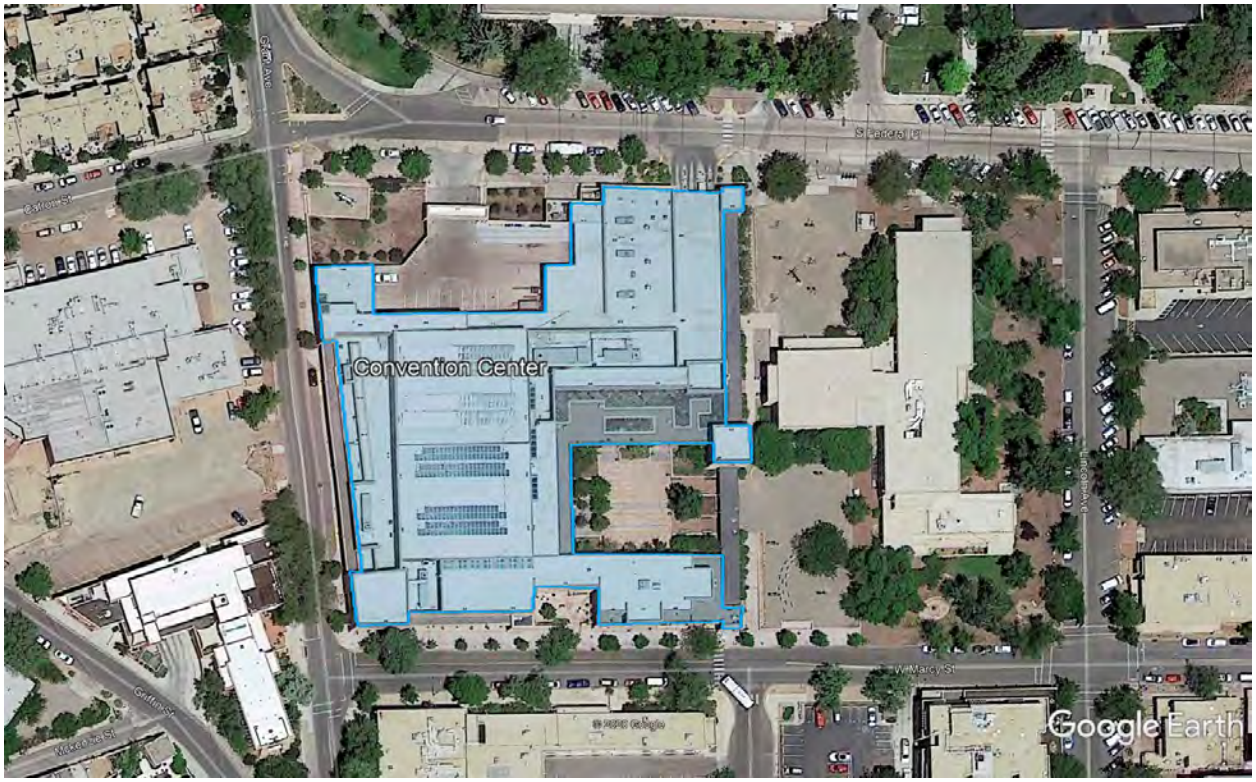

Figure 34: Aerial View of Santa Fe Convention Center

2.13.2 Hours of Operation

	Offices	Conference / Banquet
Monday	8:00 am – 5:00 pm	Varies depending on events
Tuesday	8:00 am – 5:00 pm	Varies depending on events
Wednesday	8:00 am – 5:00 pm	Varies depending on events
Thursday	8:00 am – 5:00 pm	Varies depending on events
Friday	8:00 am – 5:00 pm	Varies depending on events
Saturday	8:00 am – 5:00 pm	Varies depending on events
Sunday	8:00 am – 5:00 pm	Varies depending on events

2.13.3 Building Envelope

The roofs are flat and structurally supported by metal deck over steel joist with batt insulation in the ceiling space and built-up roof with TPO exterior. The exterior walls are most likely 6” steel studs at 16” on center, filled with batt insulation, a dark tan stucco exterior, and sheetrock or gypsum board interior. The majority of windows throughout the building are double paned with various color frames. Located around the building are several large public entrances through multiple doors with large window sections. Auxiliary entrances located around the building have single doors made of wood or metal. Located on the loading dock in the back of the building are large Metal roll-up doors. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

Figure 35: Building Envelope Gaps at SFCC

2.13.4 Lighting

The Convention center has gone through several LED lighting upgrades, in selected areas, undertaken by the management team. This building incorporates many spaces with different types of lighting, the typical space lighting is as follows:

Visitors Center:	Recessed 6” cans with triple tube 26W compact fluorescent lamps (CFL) lamps
	Decorative chandeliers with two 26W CFL lamps
Common Areas:	Recessed 6” cans with 8.5W LED lamps
Conference Rooms:	Recessed 6” cans with triple tube 26W CFL lamps
	10” & 12” cans with either 250W metal halide (MH) lamps or halogen lamps
	Decorative fixtures with 36W lamps
Hallways:	Recessed 6” cans with triple tube 26W CFL
	Decorative chandeliers with two 26W CFL lamps

	Decorative chandeliers with five 13W CFL lamps
	1'x8' strip fixtures with four 32W T-8's
	Flood lights with PAR 38 12W LED
Lobby	Decorative pendant with 8W and 12W LED
	Flood Lights with 150W metal halide lamps
Offices	2'x2' grid troffers with two 32W T-8 U shaped lamps
	2'x4' grid troffers with two 32W T-8 lamps
Restrooms	Recessed 6" cans with triple tube 26W CFL lamps
	1'x4' wrap-around with two 32W T-8 lamps
Parking garage	Surface-mounted industrial fixture with one 100W metal halide (MH)
Exterior	Wall sconce with triple tube 26W compact fluorescent lamps (CFL) lamps
	Recessed 12" square 26W CFL
	Outdoor flood light with one 32W halogen lamp
	Decorative chandeliers with one 26W halogen lamp

Wall switches with occupancy sensors are typically found in offices and restrooms.

Refer to **Appendix D1** for a lighting fixture inventory.

2.13.5 HVAC Equipment

The main Heating, Ventilation and Air Conditioning (HVAC) system comprised of several large multi-zone packaged rooftop units (RTU) with DX cooling. These units provide supply air to hydronic reheat boxes. The re-heat boxes have hot water heating coils that are fed from two boilers located in the mechanical room. Additional electric wall heaters and hanging unit heaters (UH) are located throughout the building. There are several split systems that condition IT/communication rooms.

Additional information is available in **Appendix C1**.

2.13.6 Plug Loads

The plug loads associated with this building vary by space type and are typical for offices, conference rooms and halls, banquet rooms, and commercial kitchens. There are office plug loads such as computers, monitors, and printers. The kitchen equipment is also for a commercial setting, including coffee machines, gas stoves & ovens, dishwashers, hot plates, commercial refrigerators, and water coolers. Additionally, spread throughout the facility are a handful of vending machines. The conference rooms include TVs, projectors, and audiovisual equipment. There are a couple of server rooms with switchboards.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.13.7 Domestic Hot Water

Domestic hot water (DHW) is provided by two large commercial size natural gas heaters.

2.13.8 Other

Kitchens

Three sperate commercial kitchens with typical commercial equipment are located in the back of the building. This includes kitchen exhaust hood systems and make-up air units, multiple walk-in freezers and refrigerators along with several large ice machines and multiple hot and cold drinking stations. An audio-video control room with equipment is located on the second floor of the backhouse.

Solar PV System

The city entered a power purchase agreement (PPA) with Dissigno Holdings that installed a roof-mounted solar PV system. According to staff, there are occasional inverters that fail and go of the line that reduces the system production. Additional information regarding rate and production is available in the Baseline Utility Analysis section of this report.

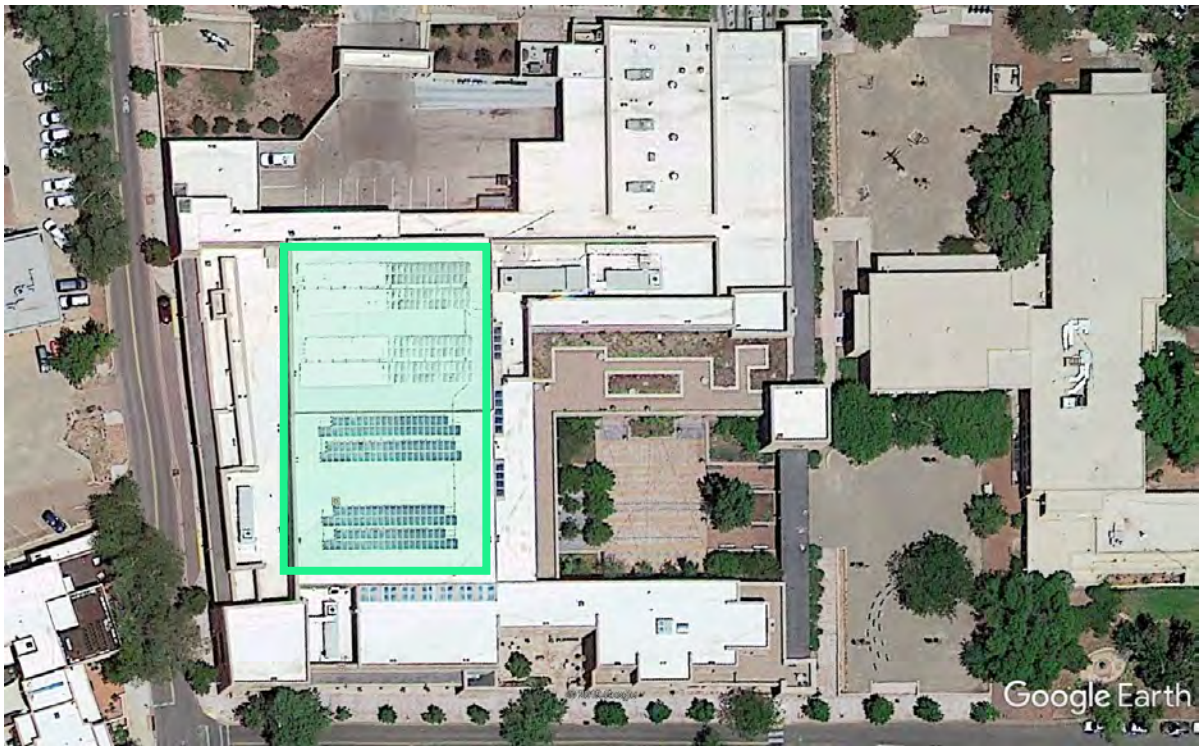

Figure 36: Solar PV System installed at SFCC

2.14 Santa Fe Regional Airport

Facility Facts:

Facility Name	Santa Fe Regional Airport
Street Address	3003 Aviation Dr
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	
Terminal	7,100
Maintenance Shop	6,000
Fire Station #10	9,400
Total	22,500
Year Built	
Terminal	1956
Maintenance Shop	1990
Fire Station #10	2008
Avg. Daily Occupancy	-----

2.14.1 Facility Description

Located at the end of 3003 Aviation Drive is the Main Terminal for the Regional Airport. This building is two stories high and includes a control tower. On the first floor is the main desk and staff offices for two commercial airline companies and three rental car companies. Also located on the ground floor is a restaurant with a commercial kitchen, TSA screening area, luggage pick-up, and departing flight waiting area. The second floor and tower house the Federal Transit Administration (FTA). The Airport Administration is located in a temporary mobile office adjacent to the terminal building.
On the south side of the airport is a maintenance shop used by the city staff.

Figure 37: Santa Fe Regional Airport Aerial View of IGA Buildings

2.14.2 Hours of Operation

	Terminal	Fire Station
Monday	Varies	24 hours
Tuesday	Varies	24 hours
Wednesday	Varies	24 hours
Thursday	Varies	24 hours
Friday	Varies	24 hours
Saturday	Varies	24 hours
Sunday	Varies	24 hours

2.14.3 Building Envelope

2.14.3.1 Terminal

The flat roof is supported by wood trusses or metal joist with batt insulation in the ceiling space and built-up roof with a modified bitumen exterior. The exterior walls are most likely 2”x6” wood studs at 16” on center, filled with batt insulation, a stucco exterior, and sheetrock interior or adobe. The windows of this building are a mixture of single-pane and double paned with wood frame. The main entrance on the southeast side of the building is through a set of wooden double-doors with a large glass panel. An additional double door is located on the south side. Additional doors including auxiliary entrances, are located around the building and include single doors made of wood or metal.

2.14.3.2 Maintenance Shop

Figure 38: Santa Fe Regional Airport Maintenance Shop

The shop is a premanufactured metal building with a sloped 24-gauge R-panel metal roof supported by steel purlins on approximately five-foot centers. Walls are metal and both the roof and walls are have rolled insulation. Six metal roll-up doors are facing the south.

2.14.3.3 Fire Station #10

Figure 39: Santa Fe Regional Airport Fire Station

The roof is supported by steel joist and metal deck above the garage and built-up roof over metal deck above the living area. The exterior walls are most likely 6” metal studs at 16” on center, filled with batt insulation, a stucco exterior, and sheetrock interior. The windows and entrance doors with windows of this building are double paned with metal frame. There three large metal garage roll-up doors on both the north and south of the building where the fire trucks and ambulance are located. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

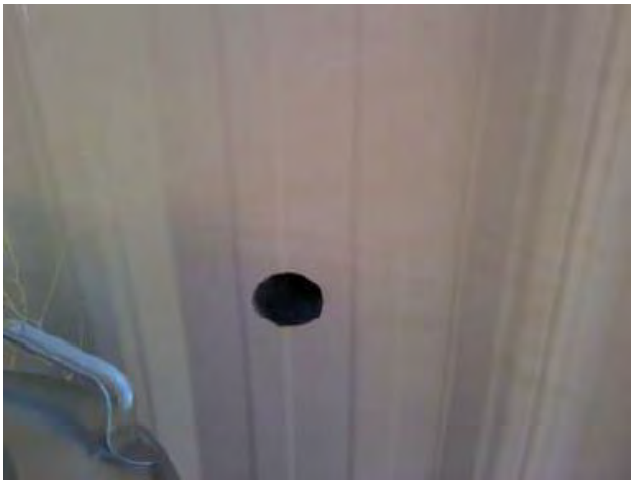

Figure 40: Building Envelope Gaps at the Santa Fe Regional Airport

2.14.4 Lighting

2.14.4.1 Terminal

The lobby lighting includes decorative chandeliers with three or twelve 12W LED lamps, linear floodlights with 40W LED lamps and 1'x4' strip fixtures with two 32W T-8 lamps. Ticket and rental car counter along with break room lighting are provided via 2'x4' grid troffers with two or three 32W T-8 lamps and 1'x4' fixtures with three 32W T-8s. Recessed 6" cans illuminate restrooms with 23W compact fluorescent lamps (CFL). Several exterior wall pack fixtures have been retrofitted with various wattage LED lamps. Additional outdoor flood lights include fixtures with 150W and 400W high-pressure sodium (HPS) lamps.

2.14.4.2 Maintenance Shop

1'x8' strip fixtures illuminate this open space with four 32W T-8's.

2.14.4.3 Fire Station #10

2'x4' grid troffers with two or three-lamp, 32W T-8's are located in the corridors, dorm rooms, fitness room, lounge, observation rooms, kitchen, and dining room. Restrooms lighting includes 1'x4' vanity wall-mounted fixtures with two 32W T-8 lamps. The garage is illuminated with rectangular high bay fixtures with six 54W T-5 lamps. Typical exterior light fixtures are wall packs with triple tube 32W compact florescent lamps and wall packs with 100W metal halide lamps. Wall switches with occupancy sensors are typically found in offices and restrooms. A large number of T-8 lamps and high wattage exterior lamps make these facilities good candidates for a lighting retrofit.

Refer to **Appendix D1** for a lighting fixture inventory.

2.14.5 HVAC Equipment

2.14.5.1 Terminal

The cooling system for this building is provided by residential size evaporative coolers located on the roof. Heating is provided by a hydronic system that includes a heating hot water boiler and radiators.

2.14.5.2 Maintenance Shop

Heating is via natural gas radiant tube heaters. There is no cooling.

2.14.5.3 Fire Station #10

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. Additional natural-gas radiant tube heaters are located in the truck parking garage.

Additional information is available in **Appendix C1**.

2.14.6 Plug Loads

The plug loads associated with this building vary by space type and are typical for offices and airport lobbies. There are office plug loads such as computers, monitors, and printers. Breakroom equipment includes coffee machines, microwaves, refrigerators, and water coolers. There are multiple TVs in the terminal area. A server is stored in a small room. There are a couple of server rooms with switchboards.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.14.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.14.8 Other

A large X-ray machine for luggage is located in the Airport Terminal.

2.15 Siler Complex

Facility Facts:

Facility Name	Siler Complex
Street Address	1142 Siler Rd
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	
Building 'A'	23,000
Building 'B'	4,500
Building 'C'	16,600
Total	44,100
Year Built	1988
Avg. Daily Occupancy	

2.15.1 Facility Description

This is the city's main Operation and Maintenance Complex (OMC). Building A houses the offices and shops for the Solid Waste and Streets Department. This includes the original open truck shop and a newly renovated wing with the offices for Solid Waste. Additional sign painting and electronic signal shops are also found in this building. Building B, the smaller of the three, encompasses the Parks OMC, which is mostly shops and a recently added temporary office trailer. Building C includes both the Parks and Recreation offices on the street front and Fleet Maintenance garage in the back.

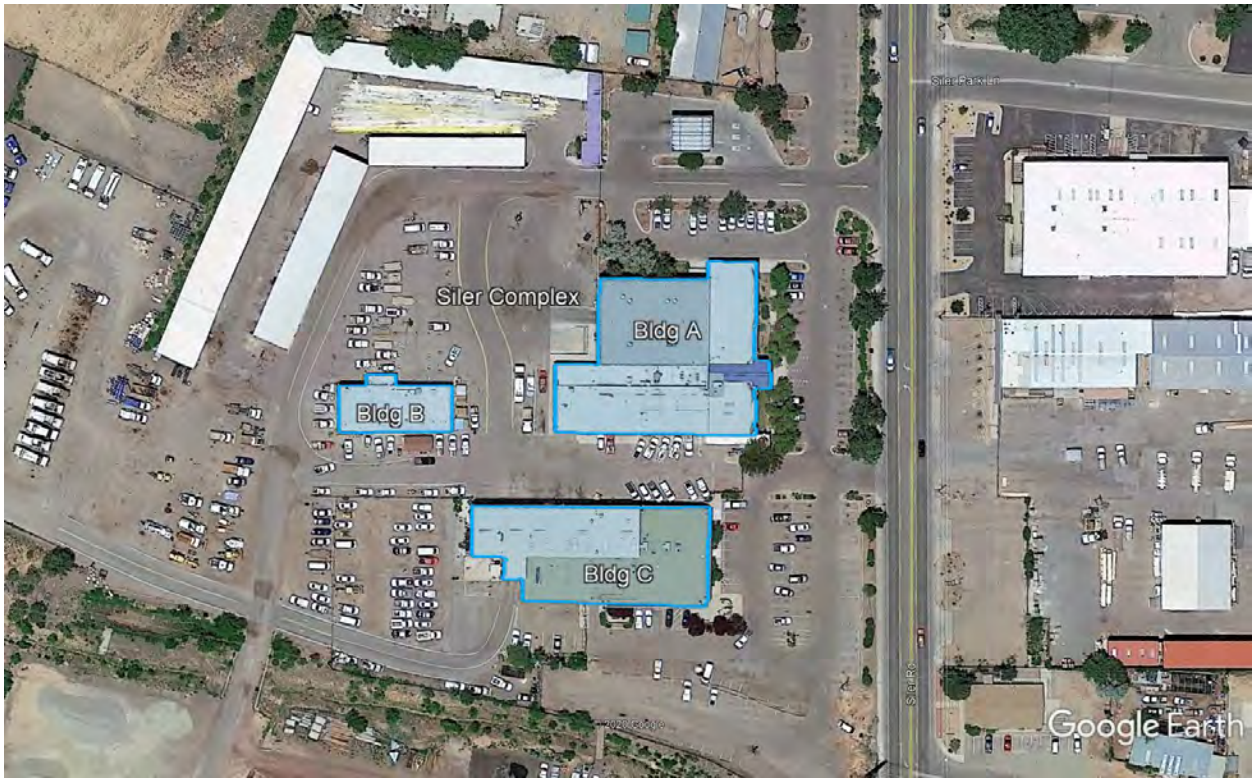

Figure 41: Siler Complex Aerial View of IGA Buildings

2.15.2 Hours of Operation

Monday	8:00 am – 5:00 pm
Tuesday	8:00 am – 5:00 pm
Wednesday	8:00 am – 5:00 pm
Thursday	8:00 am – 5:00 pm
Friday	8:00 am – 5:00 pm
Saturday	8:00 am – 5:00 pm
Sunday	8:00 am – 5:00 pm

These hours can vary depending on department and personnel, but generally follow those indicated above.

2.15.3 Building Envelope

Figure 42: Siler Complex Building Exterior

2.15.3.1 Building A

This building appears to have gone through a number of additions over the years. The original higher roof is flat and is composed of a metal deck over steel joist, batt insulation in the ceiling space, and covered with continuous rolled sheets of modified bituminous. The newer, lower section has the same roof structure and installation, but with a TPO cover. The exterior walls are either concrete masonry unit (CMU) blocks or steel stud walls with a light-colored exterior stucco and both wall types have the same furred out sheetrock interior with batt insulation. The majority of windows throughout the building are double paned. The main entrance located at the center of the building faces the northeast and is accessed through a single door with aluminum frame and large glass panels. Additional auxiliary entrances located around the building are single doors made of wood or metal. There are a number of large metal roll-up doors located at the various shops.

2.15.3.2 Building B

The roof is flat and structurally supported by metal deck over steel joist, batt insulation in the ceiling space, and covered with newer TPO cover. The exterior walls are built from concrete masonry unit (CMU) blocks covered with a light-color exterior stucco and furred out sheetrock interior with batt insulation. The majority of windows throughout the building are double paned. There are main entrance and additional auxiliary doors located around the building are single doors made of wood or metal. There are a number of large metal roll-up doors located at the shops.

2.15.3.3 Building C

Both the front office area with a lower roof and back garage with a higher roof are constructed from a premanufactured metal building and have a sloped metal roof that has been covered with newer brown foam.

Figure 43: Siler Complex Building C Building Exterior

The exterior office walls have a tan stucco exterior while the taller garage walls are constructed from a light tan metal and furred out sheetrock interior with batt insulation. The majority of windows throughout the building are double paned. Entrance and additional auxiliary doors located around the building are single doors made of wood or metal. There are a number of large metal roll-up doors located at the garage bays. The largest area of infiltration/exfiltration is at the perimeter doors. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss. Several windows on Building A have ineffective sealant and would also benefit from resealing.

Figure 44: Gaps in Building Envelope at Siler Complex Building C

2.15.4 Lighting

2.15.4.1 Building A

The majority of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two or three 32W T-8 lamps in the common areas, offices, and hallways. 1'x4' grid troffers and wall-mounted fixtures illuminate the restrooms and locker rooms with two 32W T-8s. Additional shop lighting includes 1'x8' fixtures with two 96W T-12 lamps. The maintenance shop is illuminated by high mount fixtures with 400W metal halide (MH) lamps. Wall switches with occupancy sensors are typically found in offices and restrooms. Typical exterior lighting consists of the surface canopy and wall pack fixtures with 100W high-pressure sodium (HPS) lamps. Additional lighting is provided from shoeboxes with 250W HPS lamps.

2.15.4.1 Building B

The majority of the lighting comes from the 1'x8' fixtures with two 96W T-12 lamps located in the shops. The maintenance shop is illuminated by high mount fixtures with 400W metal halide (MH) lamps. 1'x4' surface-mounted fixtures illuminate the restrooms with two 32W T-8s. Additional 2'x4' grid troffers with two or three 32W T-8 lamps illuminate the maintenance shops. There are no lighting controls in this building. Typical exterior lighting consists of the surface canopy and wall pack fixtures with 100W high-pressure sodium (HPS) lamps. Additional lighting is provided from knuckle fixtures with 300W incandescent lamps.

2.15.4.1 Building C

The majority of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two or three 34W T-12 lamps in the common areas, offices, and hallways. 1'x4' grid troffers and wall-mounted fixtures illuminate the restrooms with two 32W T-8s. Additional shop lighting includes 1'x8' fixtures with two 96W T-12 lamps. The lobby fixtures consist of 1'x4' egg crate fixtures with two 32W T-8 lamps and 2'x2' surface mounted troffers with two 34W T-12 U shaped lamps. There are no existing lighting controls or occupancy sensors in this building. Typical exterior lighting consists of wall pack fixtures with 100W or 250W high-pressure sodium (HPS) lamps. 32W T-8 lamps provide the majority of the space illumination, this along with exterior fixtures high wattage lamps make these building good candidates for a lighting retrofit.

Refer to **Appendix D1** for a lighting fixture inventory.

2.15.5 HVAC Equipment

2.15.5.1 Building A

The Main Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. Additional evaporative cooling units and natural gas Radiant tube heaters and unit heaters are located in the shop areas.

2.15.5.2 Building B

The Main Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of evaporative cooling units and natural gas radiant tube heaters and unit heaters are located in the shop areas.

2.15.5.3 Building C

The Main Heating, Ventilation, and Air Conditioning (HVAC) systems are similar to Building A and comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. Additional evaporative cooling units and natural gas radiant tube heaters and unit heaters are located in the shop areas. There are additional mini-split systems located throughout the building that condition IT/Communication rooms.

Additional information is available in **Appendix C1**.

2.15.6 Plug Loads

2.15.6.1 Building A

The plug loads associated with this building vary by space type and are typical for office spaces with conference rooms, breakrooms, and workshops. There are office plug loads such as computers, monitors, and printers. Breakroom equipment includes coffee machines, microwaves, refrigerators, and water coolers.

2.15.6.2 Building B

The plug loads associated with this building vary by space and are typical for workshops.

2.15.6.3 Building C

The plug loads associated with this building vary by space type and are typical for office spaces with conference rooms, breakrooms, and an automotive garage. There are office plug loads such as computers, monitors, and printers. Breakroom equipment includes coffee machines, microwaves, refrigerators, and water coolers.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.15.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.15.8 Other

There is a vehicle service garage and additional painting and electric sign shops that include specialty equipment for their work.

2.16 Siringo Complex

Source: Google Earth

Facility Facts:

Facility Name	Siringo Complex
Street Address	6751 Siringo Rd
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	
Building 'C'	9,500
Building 'D'	3,700
Building 'E'	5,500
Building 'F/H/G'	6,000
Building 'I'	3,000
Building 'J'	2,300
Warehouse	5,500
Total	35,500
Year Built (Bldg. C &J / all others)	1950 / 1995
Avg. Daily Occupancy	-----

2.16.1 Facility Description

This facility houses several buildings that include many of the management and record-keeping for the city and is as follows:

- Building C- Records and IT.
- Building D- Facility Maintenance offices and workshop
- Building E- Facilities Administration
- Building F- IT
- Building G- Training Hall
- Building H- IT
- Building I -Police Records
- Building J- IT
- Facilities Warehouse

The majority of the building's space is closed or open cubical offices. Additional spaces include maintenance workshops, warehouse storage, and computer servers.

Figure 45: Siringo Complex Aerial View of IGA Buildings

2.16.2 Hours of Operation

Monday	8:00 am – 5:00 pm
Tuesday	8:00 am – 5:00 pm
Wednesday	8:00 am – 5:00 pm
Thursday	8:00 am – 5:00 pm
Friday	8:00 am – 5:00 pm
Saturday	8:00 am – 5:00 pm
Sunday	8:00 am – 5:00 pm

2.16.3 Building Envelope

2.16.3.1 Building C and J

These buildings were originally constructed in 1950 and served as Army or National Guard barracks. The sloped roof is supported by wood trusses and has batt insulation in the ceiling space and a tar tile exterior cover. The exterior walls are wood studs at 16” on center, filled with batt insulation, a stucco exterior, and sheetrock interior. There are a number of wall sections of the building that have a white brick veneer exterior. The majority of windows throughout the buildings are double paned with vinyl or wood frame. Building J has a large window wall on the east side. The entrances of the buildings are through wooden or metal doors.

2.16.3.2 Buildings D, E, F, G, H, & I

The majority of the buildings have a pitched corrugated roof, while Building E has a barreled roof with the same corrugated metal, and Building G has a flat roof with TPO cover. The exterior walls are most likely metal studs at 16” on center, filled with batt insulation, and white stucco exterior. The majority of windows throughout the buildings are double paned with vinyl or metal frames. The entrances of the buildings are through metal doors with glass windows sections.

2.16.3.3 Warehouse

This building is a premanufactured metal building with a sloped metal roof and sheet metal exterior walls with rolled batt insulation. The largest amount of infiltration/exfiltration on these buildings was at the exterior doors. These doors would benefit from new door sweeps and weather stripping and some would require new sealant around the frame.

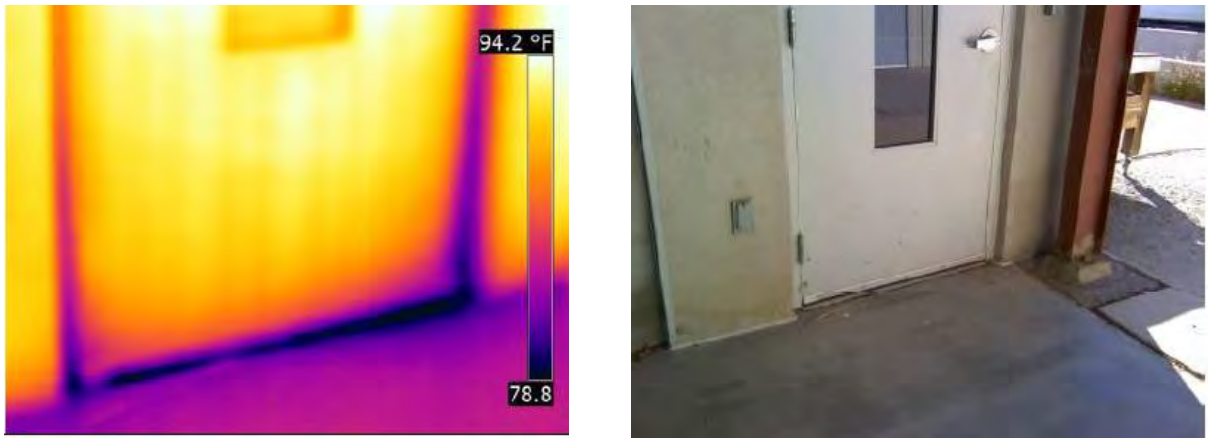

Figure 46: Thermal Imaging of Gaps in Building Envelope at Siringo Complex Warehouse

Sealing penetrations and blank openings is recommended to reduce air and moisture infiltration leading to reduce energy loss.

Figure 47: Additional Gaps in Building Envelope at Siringo Complex Warehouse

2.16.4 Lighting

2.16.4.1 Building C and J

The majority of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two, three, or four 34W T-12 lamps in the common areas, offices, and conference room. 1'x4' wraparounds illuminate the restrooms with two 34W T-12s. Additional shop and storage room lighting includes 1'x8' fixtures with two 96W T-12 lamps. There are no existing lighting controls or occupancy sensors in this building. Typical exterior lighting consists of wall pack fixtures with 70W metal halide (MH) lamps and knuckle floodlights with two 70W MH lamps. Additionally, there are floodlights with 250W MH lamps and surface mounted fixtures with 40W LED lamps.

2.16.4.1 Buildings D, E, F, G, H, & I

The majority of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two, three, or four 32W T-8 lamps in the common areas, offices, and conference room. Additional office lighting includes 2'x2' grid troffers with two T-8 U tubes. 1'x4' wrap arounds illuminate the restrooms with two 34W T-12s. Additional storage room lighting includes 1'x8' fixtures with two 96W T-12 lamps. There are no existing lighting controls or occupancy sensors in this building. Typical exterior lighting consists of wall pack fixtures with variable lamps that include 150W, 175W, and 250W metal halide (MH) lamps along with 70W and 150W MH Lamps. Additional illumination is formed decorative post top fixtures with 150W high-pressure sodium (HPS) lamps. There are also several wall sconce with 60W incandescent lamps. 32W T-8 lamps provide the majority of the space illumination, this along with exterior fixtures high wattage lamps, make these buildings good candidates for a lighting retrofit.

Refer to **Appendix D1** for a lighting fixture inventory.

2.16.5 HVAC Equipment

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. Several additional evaporative coolers are located on roofs along with split systems for the conditioning of IT/Communication rooms

Additional information is available in **Appendix C1**.

2.16.6 Plug Loads

The plug loads associated with this complex vary by space type. There are office plug loads such as computers, monitors, and printers. The breakroom equipment includes coffee machines, microwaves, and refrigerators. Additional spaces include server rooms and workshops.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.16.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

Saturday	8:00 am – 5:00 pm	7:00 am – 9:30pm
Sunday	8:00 am – 5:00 pm	7:00 am – 7:15pm

2.18.3 Building Envelope

2.18.3.1 Administration Building

This building has both a sloped and a flat roof. The sloped, light green metal roof is supported by steel joist and has batt insulation in the ceiling space. The flat roof is also supported by metal deck over steel joist with batt insulation in ceiling space, and TPO exterior. The exterior walls are 6" metal studs at 16" on center, filled with batt insulation, a light tan stucco exterior, and sheetrock interior. The majority of windows throughout the building are double paned with vinyl or metal frame. The main public entrance is at the south side of the building and through a set of metal double-doors doors with window storefront. An additional employee single-door entrance is located on the west side. Auxiliary entrances located around the building are single doors made of wood or metal.

2.18.3.2 Shop/Garage

This is a premanufactured metal building with sloped metal roof and metal walls typical of this type of building. There is a small number of the windows at the two offices and a metal entrance door with a window section. There are also a number of large metal roll-up doors on both sides of the building.

2.18.3.3 Bus Wash

This building has a flat roof, concrete masonry unit (CMU) block walls, and is open on two sides for buses.

The largest area of infiltration/exfiltration is at the perimeter doors. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

Figure 50: Gaps in Building Envelope at Transit Administration

2.18.4 Lighting

The majority of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two, three, or four 32W T-8 lamps which illuminates the common areas, hallways, offices, and conference room. 1'x4'

wraparounds illuminate the restrooms with two 34W T-12s. Transit shop lighting includes 1'x8' fixtures with four 32W T-8 lamps. Wall switches with occupancy sensors are typically found in offices and restrooms. Typical exterior lighting consists of wall pack and shoebox fixtures with variable lamps, including 70W and 400W metal halide (MH) lamps. Additional illumination is from wall packs with 40W LED lamps. The majority of the space illumination is provided by 32W T-8 lamps, this along with exterior fixtures high wattage lamps makes this building a good candidate for a lighting retrofit.

Refer to **Appendix D1** for a lighting fixture inventory.

2.18.5 HVAC Equipment

Typical Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating. There are additional natural gas radiant tube heaters and unit heats in the shop and bus wash.

Additional information is available in **Appendix C1**.

2.18.6 Plug Loads

The only plug loads considered for this complex included were for the administration building and vary by space type and are typical for office spaces, conference rooms, and breakrooms. There are office plug loads such as computers, monitors, and printers. Breakroom equipment includes coffee machines, microwaves, refrigerators, and water coolers.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.18.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.18.8 Other

Commercial Garage Equipment

There is commercial garage equipment for services heavy vehicles along with electric lifts. Additionally, there is commercial equipment is located in a bus washing building.

Solar PV System

The city entered a power purchase agreement (PPA) with RSBF Santa Fe, LCC that installed a 163kW capacity ground-mounted and carport solar PV system. Additional information regarding rate and production is available in the Baseline Utility Analysis section of this report.

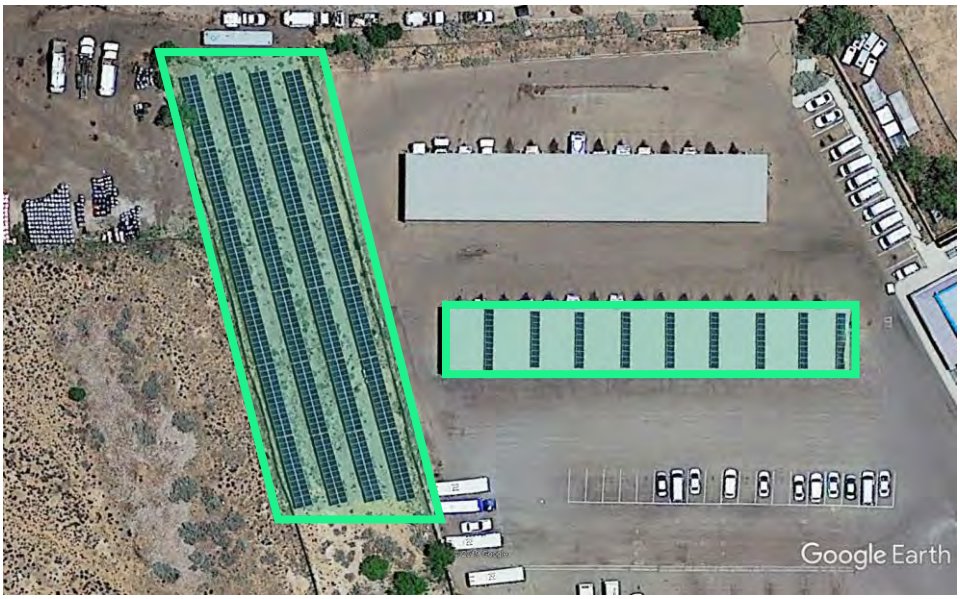

Figure 51: Existing Solar PV System at the Transit Administration

2.19 Canyon Road Water Treatment Plant (WTP)

Facility Facts:	
Facility Name	Canyon Road Water Treatment Plant
Street Address	1780 Upper Canyon Road
City, State, Zip	Santa Fe, NM 87505
Gross Area (ft²)	
Plant-1	10,700
Plant-2	6,300
Plant-3	700
Plant-4	2,300
Maintenance Shop	1,300
Total	21,300
Year Built	1974
Avg. Daily Occupancy	26

2.19.1 Facility Description

This facility includes the Administration Building, Service Building, Water Treatment Plant, and Pump House. The Administration Building upper level includes offices, a break room, a monitoring room, and several other small water testing rooms. The lower level contains pumps and aerators. The Service Building consists of an open shop area and a small office. The Water Treatment Plant has several open rooms including, a pump room, centrifuge room, filter room, and garage for the waste truck. The Pump House is a two-story building with pumps on the below ground level and service area at ground level.

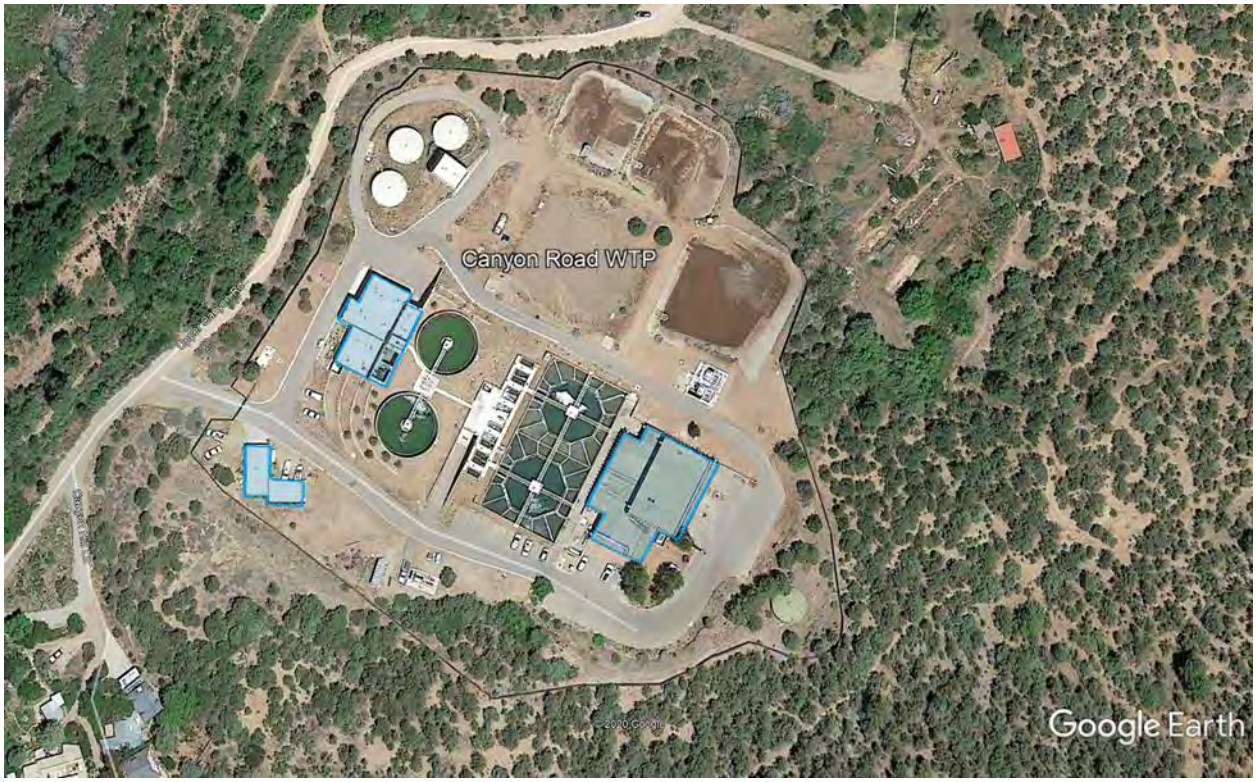

Figure 52: Canyon Road WTP Aerial View of IGA Buildings

2.19.2 Hours of Operation

Monday	24 hours
Tuesday	24 hours
Wednesday	24 hours
Thursday	24 hours
Friday	24 hours
Saturday	24 hours
Sunday	24 hours

2.19.3 Building Envelope

The main building at the Canyon Road Water Treatment Plant (WTP) age is unknown but the roof appears to be 15-25 years of age. The facility has a built-up roof system over a concrete deck. Visual inspection and core samples revealed that the existing built up roof system is different for the upper and lower roofs, but is typically constructed from Polyiso, perlite 3-ply BUR, #90 cap sheet and mopped asphalt.

Figure 53: Roof Condition at Canyon Road Water Treatment Plant

The exterior above-grade walls are constructed from concrete masonry unit (CMU) blocks, batt insulation, and stucco exterior, and sheetrock interior. Below grade, the walls are reinforced concrete. The majority of windows throughout the building are double paned. The main entrance on the south side of the Administration Building is through a set of double doors with upper half windows. Additional auxiliary entrances located around the building are single doors made of metal. There are a couple of roll-up metal garage doors on a number of the buildings. The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

Figure 54: Gaps in Building Envelope at Canyon Road Water Treatment Plant

2.19.4 Lighting

This facility has recently gone through an LED lighting upgrade that consisted of the majority of both the interior and exterior lighting.

Refer to **Appendix D1** for a lighting fixture inventory.

2.19.5 HVAC Equipment

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise as indicated in the following sections.

2.19.5.1 Main Building

Air handler units (AHU) condition this building with a chiller/boiler hydronic system. Additional unit heaters (UH) are located throughout the building.

2.19.5.2 Additional Buildings

The Service Building is heated by both UH's and radiant tube heaters that use natural gas. The Pump House is conditioned radiant tube heaters. The Water Treatment Plant includes both UH's and a furnace.

Additional information is available in **Appendix C1**.

2.19.6 Plug Loads

The Administration Building and the Maintenance Building are the two buildings in this facility that have associated plug loads. The rest of the buildings are industrial with equipment associated with water treatment and pump houses.

2.19.6.1 Administration Building

The plug loads associated with this building vary by space type. The handful of offices include plug loads such as computers, monitors, and printers. The breakroom has typical equipment, including a coffee machine, two microwaves, an electric range, and refrigerators. Located in this building are two vending machines. The control room includes several computer stations with multiple monitors and large flat-screen TVs. There are also several small water testing laboratories.

2.19.6.2 Maintenance Shop

The maintenance shop is relatively small and includes an open work area and two offices. The office has plug loads such as computers, monitors, and printers. This building has various workshop equipment, including welding machines (not all plugged in), a drill press and so forth.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.19.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.19.8 Other

There is a large amount of energy-consuming equipment related to the moving and treatment of water. The available data collected during the field survey are tabulated in **Appendix C2.**

2.20 Santa Fe Water Division Office

Facility Facts:

Facility Name (Customer Service, T&D, Water Conservation)	Santa Fe Water Division Office
Street Address	801 W San Mateo Rd
City, State, Zip	Santa Fe, NM 87505
Gross Area (ft²)	
Main Building	22,000
Transmission & Distribution (T&D) Office	1,950
Water Conservation Office	1,550
Maintenance	3,200
Total	28,700
Year Built	
Customer Service	1950
Transition & Distribution Bldg. and Water Conservation Bldg.	2004
Avg. Daily Occupancy	
Customer Service (Full-Time Staff / Visitors)	54 / 150-200
Transition & Distribution Bldg.	33 / 0
Water Conservation	6 / 5

2.20.1 Facility Description

This facility serves as the city's main utility department with the primary focus on the management of the water treatment, distribution, and billing systems. The facility's Main Building includes a two-story building that houses the water and sewer customer service department on the ground floor and management, including engineering on the second floor. Additional buildings include the Transmission and Distribution (T&D) office and Water Conservation Office (WCO). There are two metal workshops that are used primarily for storage.

Figure 55: Santa Fe Water Division Office Aerial View of IGA Buildings

2.20.2 Hours of Operation

	Main Building	T&D	WCO
Monday	7:00 am – 5:00 pm	7:00 am – 4:00 pm	7:00 am – 5:00 pm
Tuesday	7:00 am – 5:00 pm	7:00 am – 4:00 pm	7:00 am – 5:00 pm
Wednesday	7:00 am – 5:00 pm	7:00 am – 4:00 pm	7:00 am – 5:00 pm
Thursday	7:00 am – 5:00 pm	7:00 am – 4:00 pm	7:00 am – 5:00 pm
Friday	7:00 am – 5:00 pm	7:00 am – 4:00 pm	7:00 am – 5:00 pm
Saturday	–	–	–
Sunday	–	–	–

2.20.3 Building Envelope

2.20.3.1 Main Building

The flat roof is supported by pre-cast concrete T's with rolled batt insulation in the cavities and tar and gravel exterior. Similar to the roof structure, the exterior walls are also pre-cast concrete T's. The majority of windows throughout the building are double paned and there is a large two-story window wall on the southern side of the building at the customer lobby. The main entrance at the south side of the building is through a set of double doors with metal frames and glass sections. Auxiliary entrances located around the building are single doors made of metal.

2.20.3.2 Transmission and Distribution (T&D)

The flat roof is most likely supported by wood trusses and has batt insulation in the ceiling space and a modified bituminous cover. The exterior walls are most likely 2"x6" wood studs at 16" on center, filled with batt insulation, a stucco exterior, and sheetrock interior. The majority of windows throughout the building are double paned. The main entrance at the north side of the building is through a single solid door made of wood or metal.

2.20.3.3 Water Conservation Office (WCO)

Similar to the T&D Building.

The largest area of infiltration/exfiltration is at the doors on all sides of the building. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Several penetrations and blank openings are located around the perimeter walls and sealing these would reduce air infiltration/exfiltration and energy loss.

Figure 56: Gaps in Building Envelope at the Water Division Office

2.20.4 Lighting

2.20.4.1 Main Building

Most of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two or three 32W T-8 lamps in the common areas, offices, conference room, and kitchenette. 1'x4' wraparounds illuminate the restrooms with two 32W T-8s and additional vanity wall mounted fixture with 60W incandescent lamps. Wall switches with occupancy sensors are typically found in offices and restrooms. In general, exterior lighting consists of wall pack fixtures with 70W metal halide (MH) lamps and knuckle floodlights with two 70W MH lamps. Additionally, there are floodlights with 250W MH lamps and surface mounted fixtures with 40W LED lamps.

2.20.4.2 Transmission & Distribution (T&D)

The majority of the interior lighting consists of 1'x4' and 2'x4' grid troffers with two or three 32W T-8 lamps in the offices, common areas, conference room, and kitchenette. 1'x4' wraparounds illuminate the restrooms with two 32W T-8s. There are no lighting controls in this building. Exterior lighting consists of either wall pack fixtures with a 40W LED lamp or surface mounted canopy fixtures with a 25W LED lamp.

2.20.4.1 Water Conservation Office (WCO)

Most of the interior lighting consists of 1'x4' wrap around fixtures with two 32W T-8 lamps. There are no lighting controls in this building. Exterior lights consist of knuckle floodlights with two 150W incandescent lamps.

A large number of T-8 lamps and high wattage exterior lamps make these facilities good candidates for a lighting retrofit.

Refer to **Appendix D1** for a lighting fixture inventory.

2.20.5 HVAC Equipment

2.20.5.1 Main Building

This building Heating, Ventilation, and Air Conditioning (HVAC) systems comprise a number of different systems. Several single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating are located on the roof. A chiller/boiler hydronic system provides heating and cooling to boxes located in the zones. Unit heaters are also located in the open work and storage areas and several split systems located at the perimeter of the building condition IT/ communication rooms.

2.20.5.2 Transmission & Distribution (T&D)

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of single-zone packaged rooftop units (RTU) with DX cooling and natural gas heating.

2.20.5.3 Water Conservation Office (WCO)

The Heating, Ventilation, and Air Conditioning (HVAC) systems comprise of one split system.

Additional information is available in **Appendix C1**.

2.20.6 Plug Loads

2.20.6.1 Main Building

The plug loads associated with this building vary by space type and are typical for offices and customer service. There are office plug loads such as computers, monitors, and printers. Breakroom equipment includes coffee machines, microwaves, electric range, refrigerators, and water coolers. There are multiple TVs in the customer service area. A server is stored in a small room. The building includes a couple of vending machines.

2.20.6.2 T&D Building

The plug loads associated with this building vary by space type and are typical for a couple of offices, a conference room, and a kitchen. There are office plug loads such as computers, monitors, and printers. Breakroom equipment includes a coffee machine, two microwaves, an electric range, and a refrigerator. There is also a vending machine and laundry closet with washer and dryer.

2.20.6.3 WCO Building

This building was not available a number of times during the survey. From outside it appears this building has three offices, a small conference room, and a kitchenette.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.20.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.20.8 Other

Solar Carports

Two city-owned solar PV carports sized at 49.1kW and 33.4kW and shown in Figure 57, were installed in approximately 2014. Additional information regarding rate and production is available in the Baseline Utility Analysis section of this report.

Figure 57: Existing Solar PV Carport at Water Division Office

2.21 Wastewater Treatment Plant

Facility Facts:	
Facility Name	Wastewater Treatment Plant
Street Address	73 Paseo Real
City, State, Zip	Santa Fe, NM 87507
Gross Area (ft²)	
Old DAF	5,300
Administration Bldg.	11,300

Laboratory	1,600
IP-Engineering	2,000
New DAF-Conference	3,800
Collections	8,000
Hoffman Blower Building	600
Supply Office	500
Maintenance Garage	6,900
Headworks	6,700
Grit Building	400
Ferric Chloride Building	700
Old Digester Building	5,000

Tertiary Treatment Facility	24,000
Non-Portable Water Building	600
Digester Equipment Building	5,000
Dewatering and Compost	92,600
Total	177,400
Year Built	1960
Avg. Daily Occupancy	41

The City originally instructed YE to evaluate only the lighting at the Dewatering and Composing Buildings. During the later stages of the IGA development the City requested YE add the entire Wastewater Treatment Plant to the lighting scope of work. Because of the large number of transformers and importance of the site to the City's infrastructure and operation, YE included a survey of the electric transformers. Due to the limited scope of work, limited time and travel restrictions of the Coronavirus YE conducted a full lighting and electric transformer survey and did not include surveys of the HVAC systems, plug loads, wastewater treatment equipment. The following site description focused on the original Dewatering and Composting Building and the solar arrays onsite.

2.21.1 Facility Description

This facility is located at 73 Paseo Real and is part of the city's main wastewater treatment plant. This facility, constructed in 2009, has a 450'x200' open Composting Windrow Processing Building and a smaller 70'x59' attached Dewatering Building. The processing area is an open space where compost is laid out in an evenly stacked row to dry. The dewatering building contains two large belt press processing machines in the belt filter press room. Additional rooms in this building include a chemical room, electrical room, private restroom, and office.

Figure 58: Wastewater Treatment Plant Site Aerial View

2.21.2 Hours of Operation

Monday	24 hours
Tuesday	24 hours
Wednesday	24 hours
Thursday	24 hours
Friday	24 hours
Saturday	24 hours
Sunday	24 hours

2.21.3 Building Envelope

The Composting Windrow Processing Area

This building is a premanufactured metal building with exterior metal wall panels and a sloped metal roof; both are insulated. There are several large metal sliding hangar doors and smaller personnel doors. There are no windows; approximately 120 skylights assist in illuminating the space.

Figure 59: Interior of Wastewater Treatment Plant Composting Building

Dewatering Area

The walls of this building are constructed from split face concrete masonry unit (CMU) blocks with no additional insulation. The roof structure is precast concrete with a toping slap supporting a single-ply roofing system over polyisocyanurate tapered rigid insulation. There is one large window that looks out to the composting area. Three large metal overhead coil doors face the south. There are four metal doors located on the perimeter of the building, with one double-door leading into the chemical room.

2.21.4 Lighting

The Composting Windrow Processing Area

High bay fixtures illuminate this area with a 250W metal halide (MH) lamp.

Dewatering Area

The open belt press room is illuminated by ceiling hanging pendant fixtures with 175W high-pressure sodium (HPS) lamps. The remainder of the areas are is illuminated by industrial type 1’x4’ fixtures with

two 32W T-8 lamps. Wall-mounted shoebox fixtures provide exterior lighting with 100W HPS lamps. A large amount of high wattage fixtures makes this building a good candidate for a lighting retrofit.

Refer to **Appendix D1** for a lighting fixture inventory.

2.21.5 HVAC System

The Composting Windrow Processing Area

The only system that conditions this area are side-mounted supply fans on the east wall and matching larger exhaust fans on the west wall.

Dewatering Area

This building has an exhaust fan system with make-up air (MUA) unit located on the roof. The MUA unit has evaporative cooling and natural gas heating sections. Two additional split systems condition the electrical room and office. A small unit heater (UH) conditions the chemical room and a 2'x4' electrical radiant heater panel in the restroom.

Additional information is available in **Appendix C1**.

2.21.6 Plug Loads

Plugs load for this facility include typical equipment for a small office that does not get used frequently. In the chemical room, there is a set of industrial-size compressors with storage tanks.

2.21.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and the available data collected during the field survey are tabulated in **Appendix C1**.

2.21.8 Other

Utility Set

Two large industrial units are used in the preparation of the composting material. This equipment includes natural gas heating sections and electric motors that run belts that process the material. There is an additional pressure steamer located in the chemical room used to clean the equipment in the press room.

Figure 60: Compost Material Preparation Units

Solar PV Systems

The city entered a power purchase agreement (PPA) with Cripple Creek Solar, LLC and later transferred to Dissigno Holdings, LCC in July 2016. A revised second contract amendment revised the system size from 100kW to 94.9kW DC. The system is a ground-mounted PV system as shown Figure 61. Additional information regarding rate and production is available in the Baseline Utility Analysis section of this report.

Figure 61: Existing Solar PV Array at Wastewater Treatment Plant Adjacent to Composting Building

The city entered a power purchase agreement (PPA) with SunEdison Orgination2, LLC. The original PPA indicates that the system size is 1,114kW DC. The system is a ground-mounted PV system as shown Figure-62. Additional information regarding rate and production is available in the Baseline Utility Analysis section of this report.

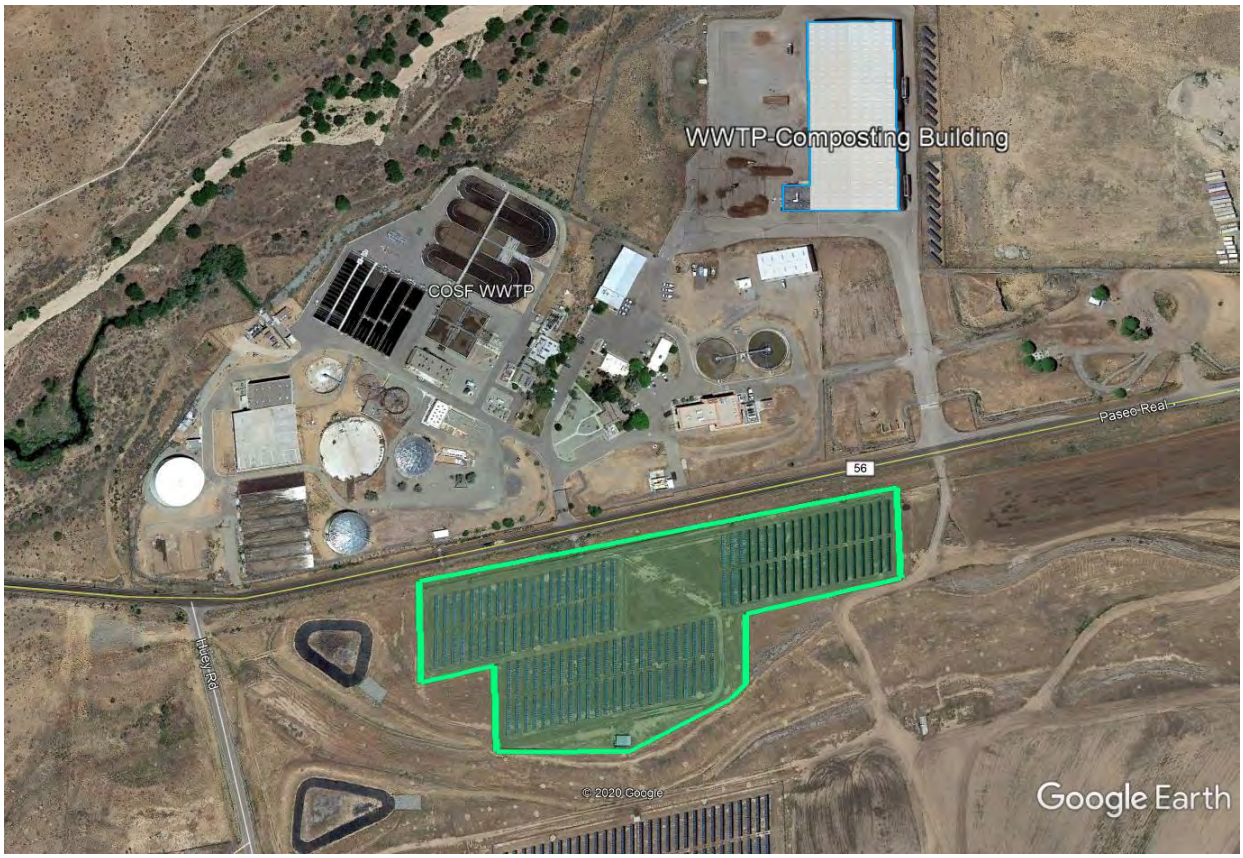

Figure 62: Existing Solar PV Array at Wastewater Treatment Plant Main

2.22 Pump Houses

2.22.1 Facility Description

Although these facilities are spread throughout the city and county area, the majority are located on the east side of the city along the Santa Fe River and the west side along the Old Buckman Road that leads down to the Rio Grande River where the lift station is located. The Rio Grande River and Santa Fe River along with the San Juan River Diversion provide the water sources delivered to the City. The Buckman Diversion Project is a joint project between the City and County of Santa Fe "to build a reliable and sustainable water supply."

The majority of energy consumption for these sites is from the electric motors that drive the pumps, and these are tabulated below:

Table 8: Water Division Pump House Facility Information

No.	Name	Lat.	Long.	Pump HP	Pump Qty	Notes
1.22	10M Gallon Tank	35.717	-105.961	110	1

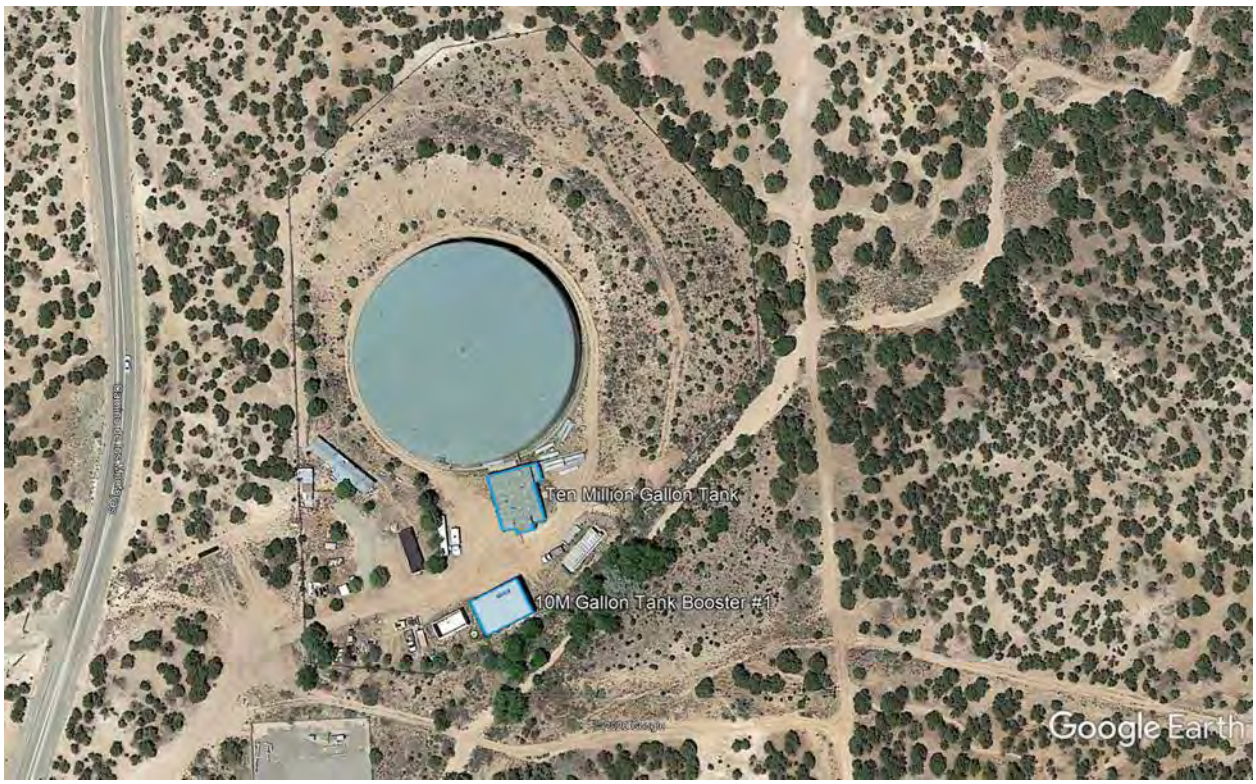

Figure 63: Aerial View of 10M Gallon Tank and 10M Gallon Tank Booster IGA Buildings

2.22.2 Hours of Operation

Hours of operation vary daily, seasonally, and annually depending on demand and annual snowpack.

2.22.3 Building Envelope

These facilities are typically constructed with concrete masonry unit (CMU) blocks, precast, and poured in place concrete walls. The roof structure is typically steel bar joist supporting metal decking with a built-up insulated roof membrane. Typically, there are no windows. Doors include single or double metal doors. Most facilities include a metal roll-up door for pump access.

2.22.4 Lighting

Typical interior lighting is provided by 1'x4' or 2'x4' fixtures with 32W T-8 lamps. Several of the larger sites include low bay fixtures with 150W lamps. Exterior lighting is from wall pack and wall wash fixtures with 75, 100, 150, or 175W lamps. The high wattage fixtures make these sites good candidates for a lighting retrofit.

2.22.5 HVAC System

These systems vary by site. Typically, electric unit heaters (UH) provide heating and make-up air units with evaporative cooling section or air handler units (AHU) with mechanical cooling systems provide cooling.

2.22.6 Plug Loads

Plug loads typically include a mid-size industrial compressor with an air storage tank. Some sites include a refrigerator and microwave. Desktop computers are at some locations.

2.22.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and the available data collected during the field survey are tabulated in **Appendix C1**.

2.22.8 Other

NG Generators

Sites typically have a backup natural gas generator that energizes the facilities in case of an electric grid failure.

Booster Station #4 Upgrade

A site upgrade is currently under design by COSF that included replacing the existing two pumps with 400HP motors with three new pumps with 600HP motors. According to the city, this will significantly increase the pump operating load from 792 KVA to 1,926 KVA requiring the replacement of the existing 1,500 KVA transformers to 3,000 KVA transformers.

2.35 Buckman Direct Diversion Facility (BDD)

Facility Facts:

Facility Name	Buckman Direct Diversion Facility
Street Address	341 Caja Del Rio Rd
City, State, Zip	Santa Fe, NM 87506
Gross Area (ft²)	
RWLS Pump RM	2,000
Elec/Mech	2,040
BS1A	7,460
BS2A	6,090
Administration	10,770
Flash mix	880
ATF	16280
Maintenance	9,380
Switch Gear	1,620
Booster 4A/5A	3,680
Centrifuge	4,390
Chemical	8,580
Membrane Feed	1,830
Total	75,000
Year Built	2010
Avg. Daily Occupancy Full-Time Staff / Visitors	33 / 5,200 per Year

2.35.1 Facility Description

This facility is jointly owned and run by the city and Santa Fe County (SFC) through the Buckman Direct Diversion (BDD) initiative. The complex houses an administration building with offices, control room, locker rooms, breakroom, and testing laboratory. Additional facilities include a centrifuge building, maintenance building, chemical building, Advance Treatment Facility (ATF), and pump house containing booster pumps 4A and 5A.

Figure 64: BDD Main Aerial View of IGA Buildings

2.35.2 Hours of Operation

Monday	24 hours
Tuesday	24 hours
Wednesday	24 hours
Thursday	24 hours
Friday	24 hours
Saturday	24 hours
Sunday	24 hours

2.35.3 Building Envelope

This facility includes the main administration building with traditional single-story construction. The additional facilities including a centrifuge building, maintenance building, chemical building, Advance Treatment Facility (ATF), and pump house containing booster pumps 4A & 5. These buildings are all metal buildings.

2.35.3.1 Administration Building

The roof was not accessed at the time of visit but is flat with what appears to be a TPO exterior supported by steel joists with metal decking and batt insulation in the ceiling space. The exterior walls are 2”x6” metal at 16” on center, filled with batt insulation, covered with a tan stucco exterior, and sheet rocked interior. The majority of windows throughout the building are double paned, including a large window wall at the entrance. The main entrance on the east side of the building is through a set of metal double-doors with windows. An additional metal door with windows is located on the west side. Auxiliary entrances located around the building are single doors made of wood or metal. The largest area of infiltration/exfiltration is at the doors on the building perimeter. These doors would benefit from new weather-strip and door sweeps that would reduce energy consumption. Sealing several penetrations around the perimeter walls would reduce air infiltration/exfiltration and energy loss.

Figure 65: Gaps in Building Envelope at BDD Main

2.35.3.2 Other (Metal) Buildings

These buildings have green sloped metal roofs and the walls that are also metal with tan exterior stucco. Windows are double paned, and doors are metal. There are several large sliding metal doors on a number of the buildings.

2.35.4 Lighting

2.35.4.1 Administration Building

Interior lighting consists of mostly 2'x4' grid troffers with two or three 32W T-8 lamps in the common areas, and offices. The locker rooms and restrooms are illuminated from 1'x4' wrap around and vanity wall-mounted fixtures with two lamps 32W T-8's and 8" recessed cans with one 32W compact fluorescent lamp. Exit signs have 4W LED lamps. The fact that the majority of the space illumination is from the existing 32W T-8 lamps makes this building a good candidate for a lighting retrofit.

2.35.4.2 ATF Building

The majority of the space is illuminated by high bay fixtures, with one, 400W metal halide (MH) lamp. Additional lighting consists of mostly 1'x4' vapor tight or industrial hood fixtures, with two or three lamps, 32W T-8 fixtures. The existing 400W MH lamps make this building a good candidate for a lighting retrofit. Exit signs have 4W LED lamps.

2.35.4.3 Booster 4A/5A

Interior lighting consists of mostly 1'x4' vapor tight or industrial hood fixtures, with two or three, 32W T-8 lamps, which make this building a good candidate for a lighting retrofit. Exit signs have 4W LED lamps.

2.35.4.4 Centrifuge Building

This building is illuminated by high bay fixtures, with one, 400W metal halide (MH) lamp, and 1'x4' vapor tight or industrial hood fixtures, with two or three, 32W T-8 lamps which make this building a good candidate for a lighting retrofit.

2.35.4.5 Chemical Building

The majority of this building is illuminated by high bay fixtures, with one, 400W metal halide (MH) lamp and 1'x4' vapor tight or industrial hood fixtures, with two or three, 32W T-8 lamps which make this building a good candidate for a lighting retrofit. Exit signs have 4W LED lamps.

2.35.4.6 Maintenance Building

This building is illuminated by high bay fixtures, with one, 400W metal halide (MH) lamp, and 1'x4' vapor tight fixtures, with two or three, 32W T-8 lamps which make this building a good candidate for a lighting retrofit.

2.35.4.7 Membrane Feed Building

The majority of this building is illuminated by high bay fixtures, with one, 400W metal halide (MH) lamp and 1'x4' vapor tight or industrial hood fixtures, with two or three, 32W T-8 lamps which make this building a good candidate for a lighting retrofit. Exit signs have 4W LED lamps.

2.35.4.8 Switch Gear Building

This building is illuminated by 1'x4' vapor tight fixtures, with three, 32W T-8 lamps, which make this building a good candidate for a lighting retrofit. Exit signs have 4W LED lamps. Wall switches with occupancy sensors are typically found in offices and restrooms.

2.35.4.9 Exterior Lighting

The exterior is illuminated by wall pack fixtures, with one, 40W, or 120W LED lamp.

Refer to **Appendix D1** for a lighting fixture inventory.

2.35.5 HVAC Equipment

The Heating, Ventilation, and Air Conditioning (HVAC) systems are as explained in the following sections.

2.35.5.1 Administration Building

Air handlers condition this building with a chiller/boiler hydronic system. Additional split systems condition the IT and communication rooms.

2.35.5.2 Other Buildings

These buildings are typically conditioned by either ground-mounted package units with DX cooling and natural gas heating or air handlers. There are additional unit heaters typically hung from the ceiling in open spaces and split systems in computer and communication rooms.

Additional information is available in **Appendix C1**.

2.35.6 Plug Loads

The Administration Building and the Maintenance Building are the two buildings in this facility that have associated plug loads. The rest of the buildings are industrial with equipment associated with the water treatment and pump houses.

2.35.6.1 Administration Building

The plug loads associated with this building vary by space type. The plug loads are typical for an office and include computers, monitors, and printers. The breakroom has standard equipment, including a coffee machine, two microwaves, two electric ranges, and two refrigerators along with a couple of vending machines. The control room includes several computer stations with multiple monitors. There is also a server located in dedicated rooms and a small water testing laboratory.

2.35.6.2 Maintenance Shop

The plug loads associated with this building vary by space type. An open office room has cubicle spaces with office plug loads such as computers, monitors, and printers. Adjacent to the offices is a small break/kitchen space that has standard equipment, including a coffee machine, microwave, and refrigerator. This building has various workshop equipment, including welding machines (not all plugged in), a drill press and so forth.

Refer to **Appendix C3** for detailed plug load inventory and **Appendix D3** plug load power densities.

2.35.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and units are typically located in a mechanical closet and include a tank natural gas heater that varies by size. The available data collected during the field survey are tabulated in **Appendix C1.**

2.35.8 Other

Water Treatment Equipment

There is a large amount of energy-consuming equipment related to the moving and treatment of water. The available data collected during the field survey are tabulated in **Appendix C2.**

Solar PV System

The city entered a power purchase agreement (PPA) with American Capital Energy, LCC that installed a 1,166kW DC capacity ground-mounted solar PV system that includes (4,320) 250W panels.

Additional information regarding the Utility Baseline is included in the Section 3.0 of this report.

Figure 66: Existing Solar PV Array at BDD Main Site

2.36 Pump Houses

2.36.1 Facility Description

These facilities are located along the Old Buckman Road that leads down to the Rio Grande River where the BDD lift station is located.

The majority of energy consumption for these sites is from the electric motors that drive the pumps, and these are tabulated below:

Table 9: BDD Sites Facility Information

No.	Name	Lat.	Long.	Pump HP	Pump Qty	Notes
1.36	BDD Booster Station 1A	35.830	-106.160	15	5	
				800	4	
1.37	BDD Booster Station #2A	35.777	-106.110	700	1	
				250	3	
1.38	BDD Lift Station	35.836	-106.160	400	5	2 pumps being rebuilt
				50	5	

2.36.2 Hours of Operation

Hours of operation vary daily, seasonally, and annually depending on demand and annual snowpack.

2.36.3 Building Envelope

These facilities are typically constructed with concrete masonry unit (CMU) blocks, precast, and poured in place concrete walls. The roof structure is typically steel bar joist supporting metal decking with a built-up insulated roof membrane. Typically, there are no windows. Doors include single or double metal doors. Most facilities include a metal roll-up door for pump access.

2.36.4 Lighting

Typical interior lighting is provided by 1'x4' or 2'x4' fixtures with 32W T-8 lamps. Several of the larger sites include low bay fixtures with 150W lamp. The exterior lighting is from wall pack and wall wash fixtures with 75, 100, 150, or 175W lamps. The high wattage fixtures make these sites good candidates for a lighting retrofit.

Refer to **Appendix D1** for a lighting fixture inventory.

2.36.5 HVAC System

These systems vary by site. Typically, electric unit heaters (UH) provide heating and make-up air units with evaporative cooling section or air handler units (AHU) with mechanical cooling systems provide cooling.

2.36.6 Plug Loads

Plug loads typically include a mid-size industrial compressor with an air storage tank. Some sites include a refrigerator and microwave. Desktop computers are at some locations.

2.36.7 Domestic Hot Water

The domestic hot water (DHW) system is a small portion of the energy consumption and the available data collected during the field survey are tabulated in **Appendix C1**.

2.36.8 Other

Solar PV System at BDD 2A

Two meters service this site and the city installed a 753.41 kW DC / 1,000 kW AC ground-mounted system on each meter. Additional information regarding rate and production is available in the Baseline Utility Analysis section of this report.

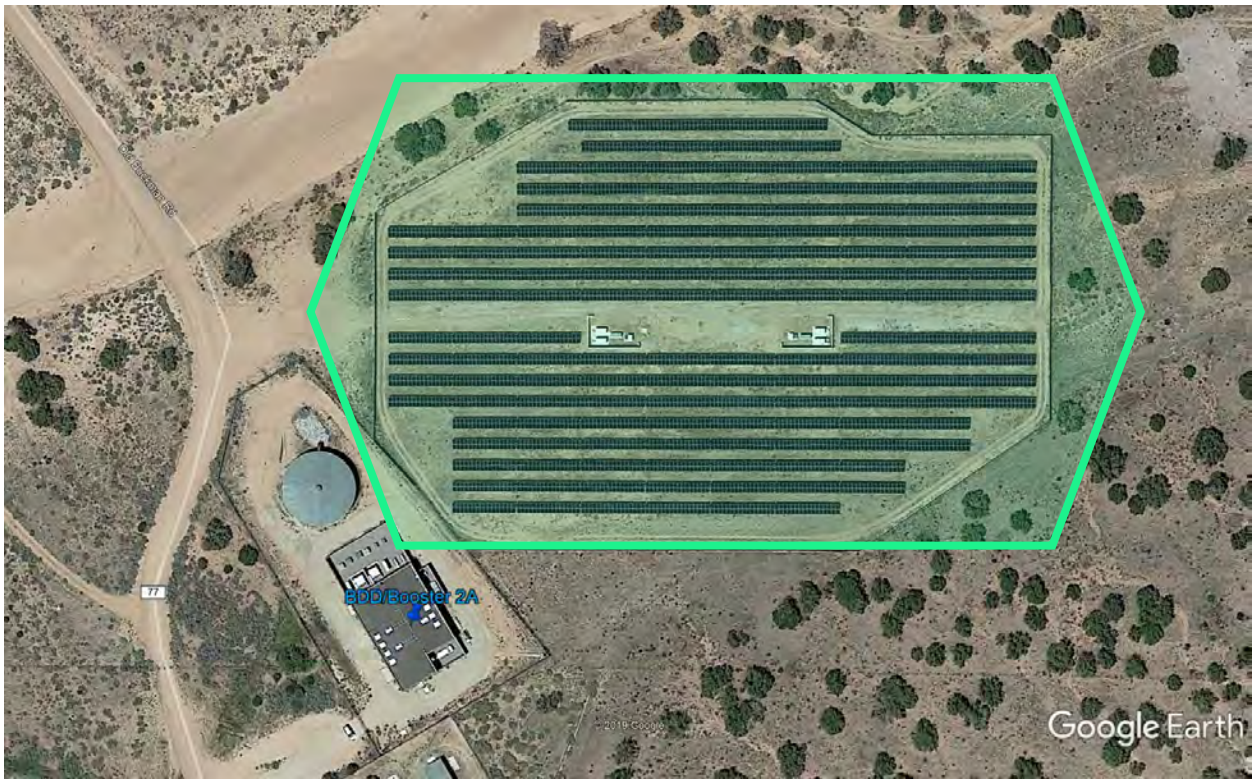

Figure 67: Existing Solar PV Array at BDD Booster 2A

NG Generators

Sites typically have a backup natural gas generator that energizes the facilities in case of an electric grid failure.

3.0 Baseline Utility Analysis

The baseline utility analysis was performed by evaluating utility records from 2016 through 2019. The baseline selected was from October 2016 through September 2019 which represents 36 months of data. The utility records consisted of electricity, natural gas, and water/sewer data from 154 meters. Refer to the following sections for information on all utilities and meters, and to **Appendix B1** for more detailed baseline utility information.

The following table and pie chart depict the baseline annual cost by utility type for all facilities included in the IGA.

Table 10: All Facilities Baseline Annual Cost Breakdown by Utility Type ($/year)

Facilities Baseline Utility Cost Summary	
Utility	$/Year
Electricity	$3,888,817
Natural Gas	$335,028
Water & Sewer	$317,231
Total	$4,541,076

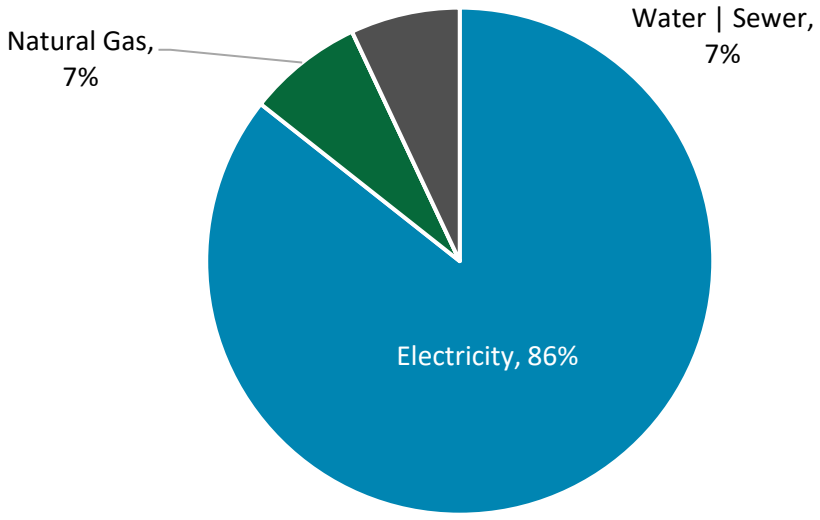

Figure 68: All Facilities Baseline Annual Utility Cost Breakdown by Utility Type ($/year)

The following table and pie chart depict the baseline annual energy consumption by utility type for all the facilities included in the IGA.

Table 11: All Facilities Baseline Annual Energy Consumption by Utility Type (kBTU/year)

Facilities Baseline Energy Summary	
Utility	kBTU/Year
Electricity	159,107,773
Natural Gas	75,732,660
Total	234,840,433

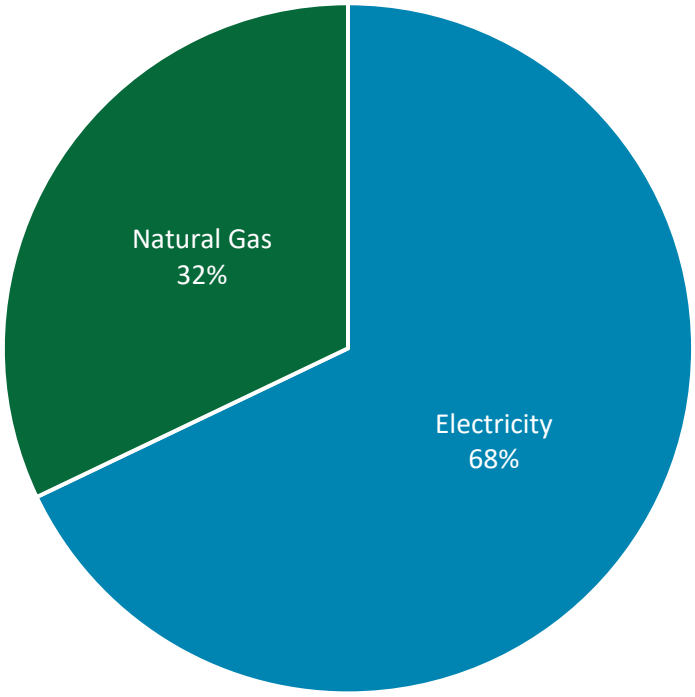

Figure 69: All Facilities Baseline Annual Energy Consumption by Utility Type (kBTU/year)

3.1 City of Santa Fe Facilities

As agreed with the COSF, there was no baseline established for the Fire Station #2 & Southside Transit. The Fire Station #2 is a new building that has not been constructed, therefore there is no historical data. The Southside Transit facility has not been used for a long period of time and is currently undergoing renovation. The new facility utilization will vary significantly from the original and upon the advice of the COSF, no baseline was established for this building.

Table 12 and Table 13 depict the baseline annual utility cost and consumption for each cities IGA facilities, respectively.

Table 12: COSF Facilities Baseline Annual Utility Cost Summary by Facility

Facility	Electric	Natural Gas	Water & Sewer	Total Cost
Bicentennial/ Alto Park Complex	$56,890	$12,104	$57,296	$126,290
Fire Station #8	$12,902	$3,557	$518	$16,978
Fort Marcy Recreation Complex	$42,558	$14,886	$7,612	$65,056
Genoveva Chavez Community Center	$329,938	$86,149	$158,498	$574,585
La Familia Medical Center	$44,687	$4,701	$2,401	$51,789
Municipal Recreation Complex	$87,701	$7,470	$0	$95,170
Police Dept- Admin	$52,405	$6,146	$1,367	$59,919
Public Library- Main	$30,557	$3,709	$1,266	$35,533
Public Library- Southside	$50,680	$8,507	$1,000	$60,187
Salvador Perez Swimming Pool	$44,062	$11,874	$56,538	$112,474
Sandoval Parking Garage Lot B	$21,576	$0	$372	$21,948
Santa Fe Convention Center	$155,846	$23,811	$10,015	$189,672
Santa Fe Regional Airport	$48,233	$7,629	$460	$56,323
Siler Complex	$59,720	$17,081	$4,587	$81,388
Siringo Complex	$30,789	$9,782	$6,796	$47,368
Transit Administration	$75,611	$9,629	$6,558	$91,799
Total	$1,144,155	$227,035	$315,286	$1,686,477

Table 13: COSF Facilities Baseline Annual Utility Consumption Summary by Facility

Facility	Electric	Natural Gas	Water & Sewer	Total
	kWh	therm	kgal	kBTU
Bicentennial/ Alto Park Complex	457,634	26,997	4,489	4,261,114
Fire Station #8	99,360	7,547	81	1,093,750
Fort Marcy Recreation Complex	379,867	34,827	1,166	4,778,772
Genoveva Chavez Community Center	3,792,381	204,408	9,355	33,380,403
La Familia Medical Center	367,040	10,175	377	2,269,807
Municipal Recreation Complex	677,194	15,559	0	3,866,519
Police Dept- Admin	556,107	14,243	215	3,321,703
Public Library- Main	239,900	7,816	199	1,600,139
Public Library- Southside	454,853	19,410	157	3,492,926
Salvador Perez Swimming Pool	451,758	27,103	4,276	4,251,647
Sandoval Parking Garage Lot B	166,620	0	49	568,507
Santa Fe Convention Center	1,529,079	54,504	1,244	10,667,618
Santa Fe Regional Airport	401,178	16,289	72	2,997,752
Siler Complex	475,433	36,717	706	5,293,845
Siringo Complex	248,727	18,983	736	2,746,983
Transit Administration	722,460	20,475	871	4,512,550
Total	11,019,590	515,052	23,995	89,104,035

3.2 Public Utility Facilities

Table 14 and Table 15 depict the baseline annual utility cost and consumption for each of the Public Utility's IGA facilities, respectively. The Water Treatment Plant (WTP) and Wastewater Treatment Plant (WWTP), along with the pump houses are not charged for their water consumption, therefore no data was available.

Table 14: Public Utility Facilities Baseline Annual Utility Cost Summary by Facility

Facility	Electric	Natural Gas	Water & Sewer	Total Cost
Canyon Road Water Treatment Plant	$71,913	$6,839	----	$78,752
Santa Fe Water Division Office	$32,468	$2,877	$1,944	$37,290
WWTP	$544,839	$52,885	----	$597,724
10M Gallon Tank	$35,782	$0	----	$35,782
Camino La Canada	$27,290	$0	----	$27,290
Cristo Rey Church Pump	$67,162	$0	----	$67,162
Dempsey Booster Station	$30,358	$0	----	30,358
10M Gallon Tank Booster Station #1	$22,948	$0	----	$22,948
Well Los Montoyas	$35,790	$749	----	$36,538
St. Michaels & Railroad Pump	$28,221	$0	----	28,221
Calle de Agua Tank (Summit Booster 1212)	$17,157	$0	----	$17,157
Buckman Well 10 (Booster D)	$43,811	$1,401	----	$45,212
Buckman Booster Station #1	$35,880	$1,771	----	37,651
Buckman Booster Station #4	$217,463	$1,996	----	$219,460
Buckman Well #1	$29,537	$0	----	$29,537
Buckman Booster #3 & Well #13	$218,596	$2,388	----	220,983
Total	$1,459,215	$70,906	$1,944	$1,532,065

Table 15: Public Utility Facilities Baseline Annual Utility Consumption Summary by Facility

Facility	Electric	Natural Gas	Water	Total
	kWh	therm	kgal	kBTU
Canyon Road Water Treatment Plant	825,973	15,253	----	4,343,521
Santa Fe Water Division Office	349,685	5,506	306	1,743,757
WWTP	7,823,142	129,738	----	39,666,327
10M Gallon Tank	345,757	0	----	1,179,722
Camino La Canada	250,175	0	----	853,598
Cristo Rey Church Pump	698,377	0	----	2,382,863
Dempsey Booster Station	267,600	0	----	913,051
10M Gallon Tank Booster Station #1	175,280	0	----	598,055
Well Los Montoyas	348,994	1,073	----	1,298,069
St. Michaels & Railroad Pump	277,865	0	----	948,075
Calle de Agua Tank (Summit Booster 1212)	125,548	0	----	428,370
Buckman Well 10 (Booster D)	461,240	521	----	1,625,851
Buckman Booster Station #1	361,600	1,734	----	1,407,179
Buckman Booster Station #4	2,584,000	2,468	----	9,063,408
Buckman Well #1	291,085	0	----	993,183
Buckman Booster #3 & Well #13	2,650,600	3,830	----	9,426,814
Total	17,836,922	160,123	306	76,871,845

3.3 BDD Sites

Table 16 and Table 17 depict the baseline annual utility cost and consumption for each the BDD IGA facilities, respectively. The BDD sites are not charged for their water consumption therefore no data was available.

Table 16: BDD Sites Baseline Annual Utility Cost Summary by Facility

Facility	Electric	Natural Gas	Water & Sewer	Total Cost
BDD Main	$511,270	$35,317	----	$546,586
BDD Booster Station #2A	$166,037	$0	----	$166,037
BDD Lift Station	$165,422	$1,771	----	167,193
BDD Booster Station 1A	$442,718	$0	----	$442,718
Total	$1,285,446	$37,088	----	$1,322,534

Table 17: BDD Sites Baseline Annual Utility Consumption Summary by Facility

Facility	Electric	Natural Gas	Water & Sewer	Total
	kWh	therm	kgal	kBTU
BDD Main	4,532,933	80,420	----	23,508,366
BDD Booster Station #2A	5,240,350	0	----	17,880,075
BDD Lift Station	2,114,857	1,732	----	7,389,093
BDD Booster Station 1A	5,887,168	0	----	20,087,019
Total	17,775,309	82,152	----	68,864,553

3.4 Benchmarking

Benchmarking is comparing indices of performance from "typical" buildings to those of the Agency of the same type and function. This allows for inter-Agency comparisons to occur as well in order to understand which of the buildings have the greatest potential for savings. In this instance, the COSF has some building typologies which do not have benchmarked data to compare against. Therefore, the benchmarking excludes the pump houses.

3.4.1 Baseline Energy Utilization Index (EUI)

A common approach to benchmarking a facility is through the comparison of the facility's Energy Utilization Index (EUI) against that of similar facilities. The EUI is determined by dividing the total annual energy consumption by the area of the facility (kBTU/ft^2/Year). The lower the EUI, the better the energy performance of the facility in the IGA.

3.4.1.1 City Facilities

Table 18 and Figure 70 depicts the EUI for each of the city's facilities included in the IGA.

Table 18: COSF Facilities Baseline EUI Summary (kBTU/ft²/Year)

Facility	EUI kBTU/ft²/Yr.
Bicentennial/ Alto Park Complex	127.20
Fire Station #8	104.17
Fort Marcy Recreation Complex	183.80
Genoveva Chavez Community Center	214.94
La Familia Medical Center	90.79
Municipal Recreation Complex	203.50
Police Dept- Admin	110.72
Public Library- Main	57.15
Public Library- Southside	134.34
Salvador Perez Swimming Pool	250.10
Sandoval Parking Garage Lot B	4.37
Santa Fe Convention Center	148.16
Santa Fe Regional Airport	133.23
Siler Complex	120.04
Siringo Complex	77.38
Transit Administration	179.30

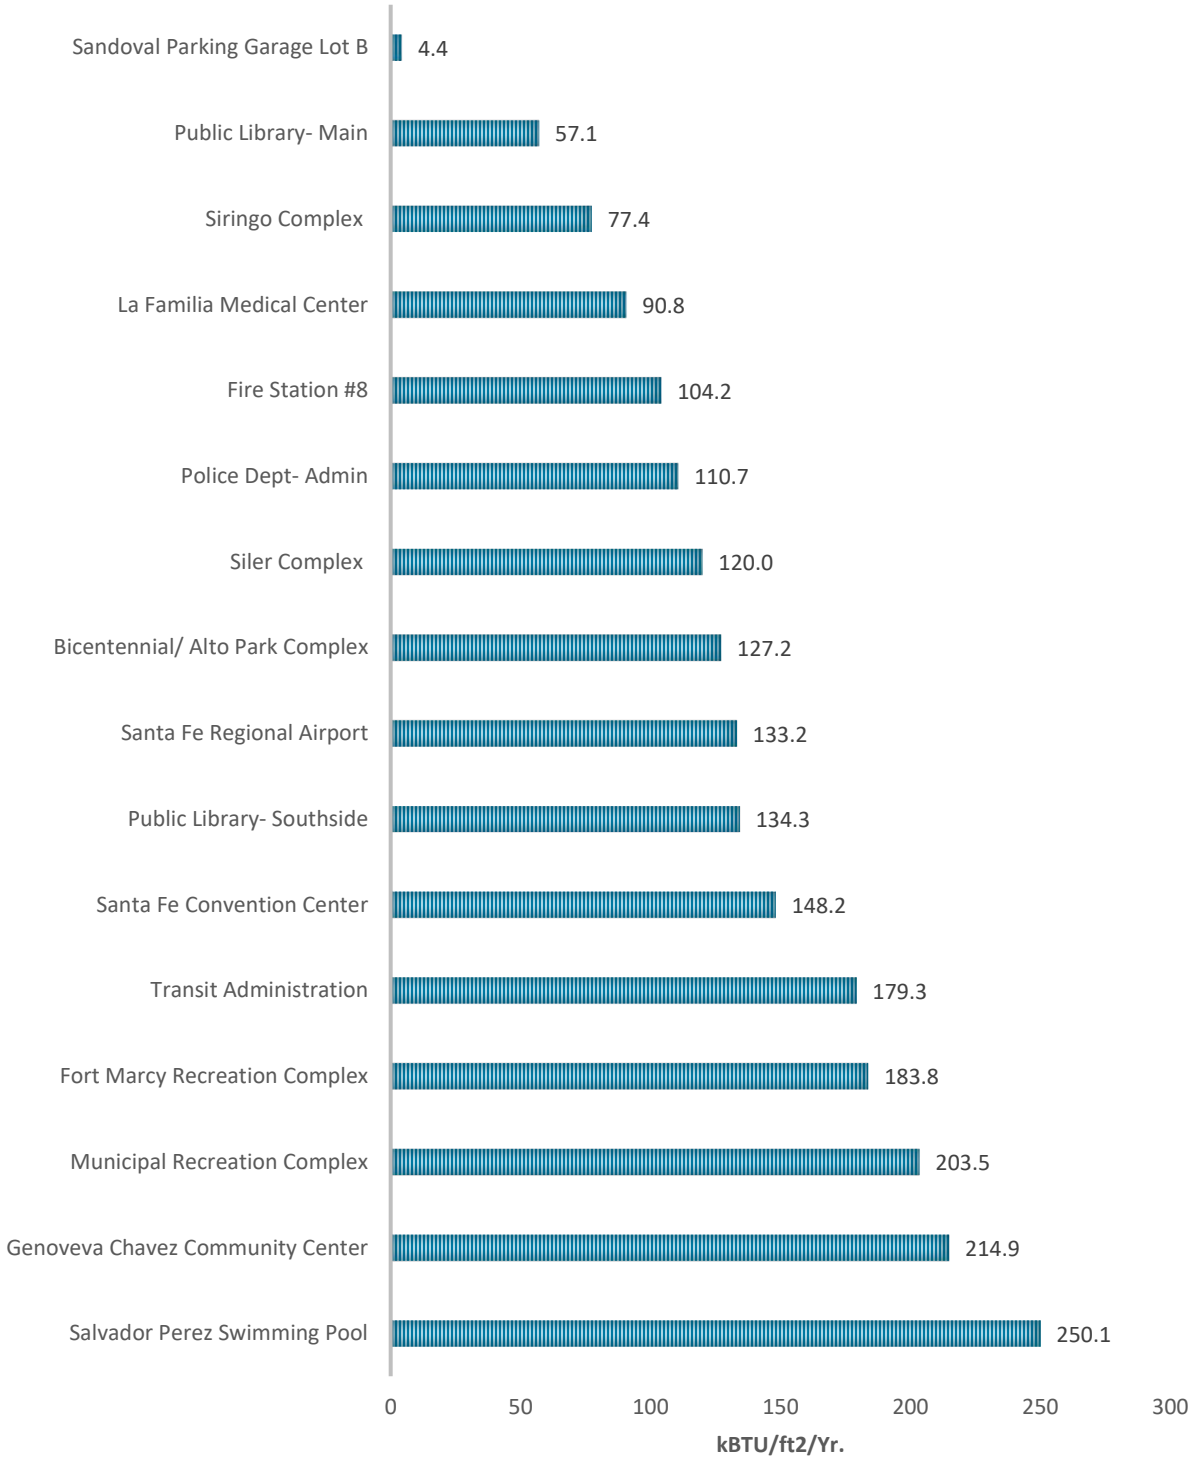

Figure 70: COSF Facilities Baseline EUI Comparison (kBTU/ft^2/Year)

Based on the EUI Benchmarking analysis above:

- The Salvador Perez Swimming Pool has a high EUI due to a large amount of natural gas used for pool water and building heating.
- The Municipal Recreation Center has a relatively high EUI due to the small area and the additional two pump houses associated with the energy consumption of that facility.
- The Genoveva Chavez Community Center has a large area and this facility includes three swimming pools and an ice hockey rink that all consume large amounts of energy.
- The Sandoval Parking Garage has a low EUI as this is an open-air parking facility with limited heating and cooling and the lighting system was previously upgraded to LED technology several years ago.

3.4.1.2 Public Utility Facilities

Table 19 and Figure 71 depict the EUI for each facility included in the IGA. The pump houses and booster stations have very high consumption and very small space therefore they are not benchmarked.

Table 19: Public Utility Facilities Baseline EUI Summary (kBTU/ft²/Year)

Facility	EUI kBTU/ft²/Yr.
Canyon Road Water Treatment Plant	203.92
Santa Fe Water Division Office	60.76
WWTP	223.60

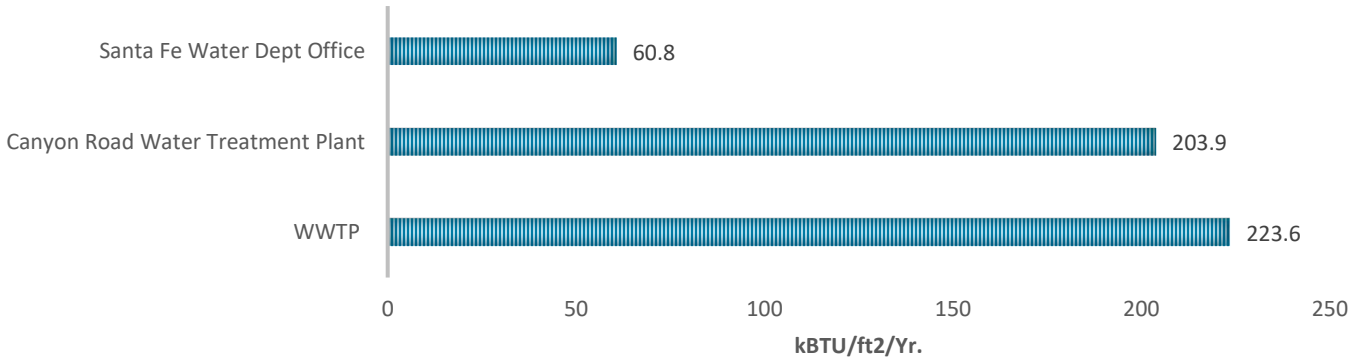

Figure 71: Public Utility Facilities Baseline EUI Comparison (kBTU/ft²/Year)

Based on the EUI Benchmarking analysis above:

- The WWTP has a high EUI because of the small building area and high energy consumption typical to a WWTP.
- Canyon Road Treatment Plant & BDD has a large amount of equipment that is used to pump and treat water that consumes energy.

3.4.1.3 BDD Sites

The BDD pump houses and booster stations have very high consumption and very small space therefore they are not benchmarked.

3.4.2 Baseline Energy Utilization (EUI) Comparison

The following table and chart depict the EUI for each facility included in the IGA. Where applicable, the baseline EUI of each facility is benchmarked against similar type facilities located in a similar climate region using the Commercial Buildings Energy Consumption Survey (CBECS) 2012, a national sample survey that collects energy-related information on the stock of U.S. commercial buildings (CBECS 2012 Table C10).

Table 20: Baseline EUI Comparison to CBECS

Facility	COSF EUI	CBECS Mean EUI	CBECS
	kBTU/ft^2/yr.	kBTU/ft^2/yr.	Category
Bicentennial / Alto Park Complex	127.2	82.4	Public Assembly
BDD Main	313.4	N/A	N/A
Canyon Road Water Treatment Plant	203.9	N/A	N/A
Fire Station #8	104.2	82.8	Public Order and Safety
Fort Marcy Recreation Complex	183.8	82.4	Public Assembly
Genoveva Chavez Community Center	214.9	82.4	Public Assembly
La Familia Medical Center	90.8	166.8	Healthcare
Municipal Recreation Complex	203.5	N/A	N/A
Police Dept – Admin	110.7	85.3	Office

Facility	COSF EUI	CBECS Mean EUI	CBECS
	kBTU/ft²/yr.	kBTU/ft²/yr.	Category
Public Library – Main	57.1	82.4	Public Assembly
Public Library – Southside	134.3	82.4	Public Assembly
Salvador Perez Swimming Pool	250.1	82.4	Public Assembly
Santa Fe Convention Center	148.2	82.4	Public Assembly
Santa Fe Regional Airport	133.2	82.4	Public Assembly
Santa Fe Water Division Office	60.8	85.3	Office
Siler Complex	120.0	85.3	Office
Siringo Complex	77.4	85.3	Office
Transit Administration	179.3	85.3	Office
Wastewater Treat	223.60	N/A	N/A

3.4.3 Baseline Energy Cost Index (ECI)

Another common method for benchmarking a facility is through the comparison of the facility's Energy Cost Index (ECI) against that of similar facilities. The ECI is determined by dividing the total annual energy utility cost by the square footage of the facility ($/ft²/Year). The lower the ECI, the better the energy cost performance of the facility.

3.4.3.1 City Facilities

The following table and chart depict the baseline ECI for all facilities included in the feasibility study.

Table 21: COSF Facilities Baseline ECI Summary ($/ft²/Year)

Facility	ECI
	$/ft²/Yr.
Bicentennial/ Alto Park Complex	$2.06

Facility	ECI $/ft²/Yr.
Fire Station #8	$1.57
Fort Marcy Recreation Complex	$2.21
Genoveva Chavez Community Center	$2.68
La Familia Medical Center	$1.98
Municipal Recreation Complex	$5.01
Police Dept- Admin	$1.95
Public Library- Main	$1.22
Public Library- Southside	$2.28
Salvador Perez Swimming Pool	$3.29
Sandoval Parking Garage Lot B	$0.17
Santa Fe Convention Center	$2.50
Santa Fe Regional Airport	$2.48
Siler Complex	$1.74
Siringo Complex	$1.14
Transit Administration	$3.38

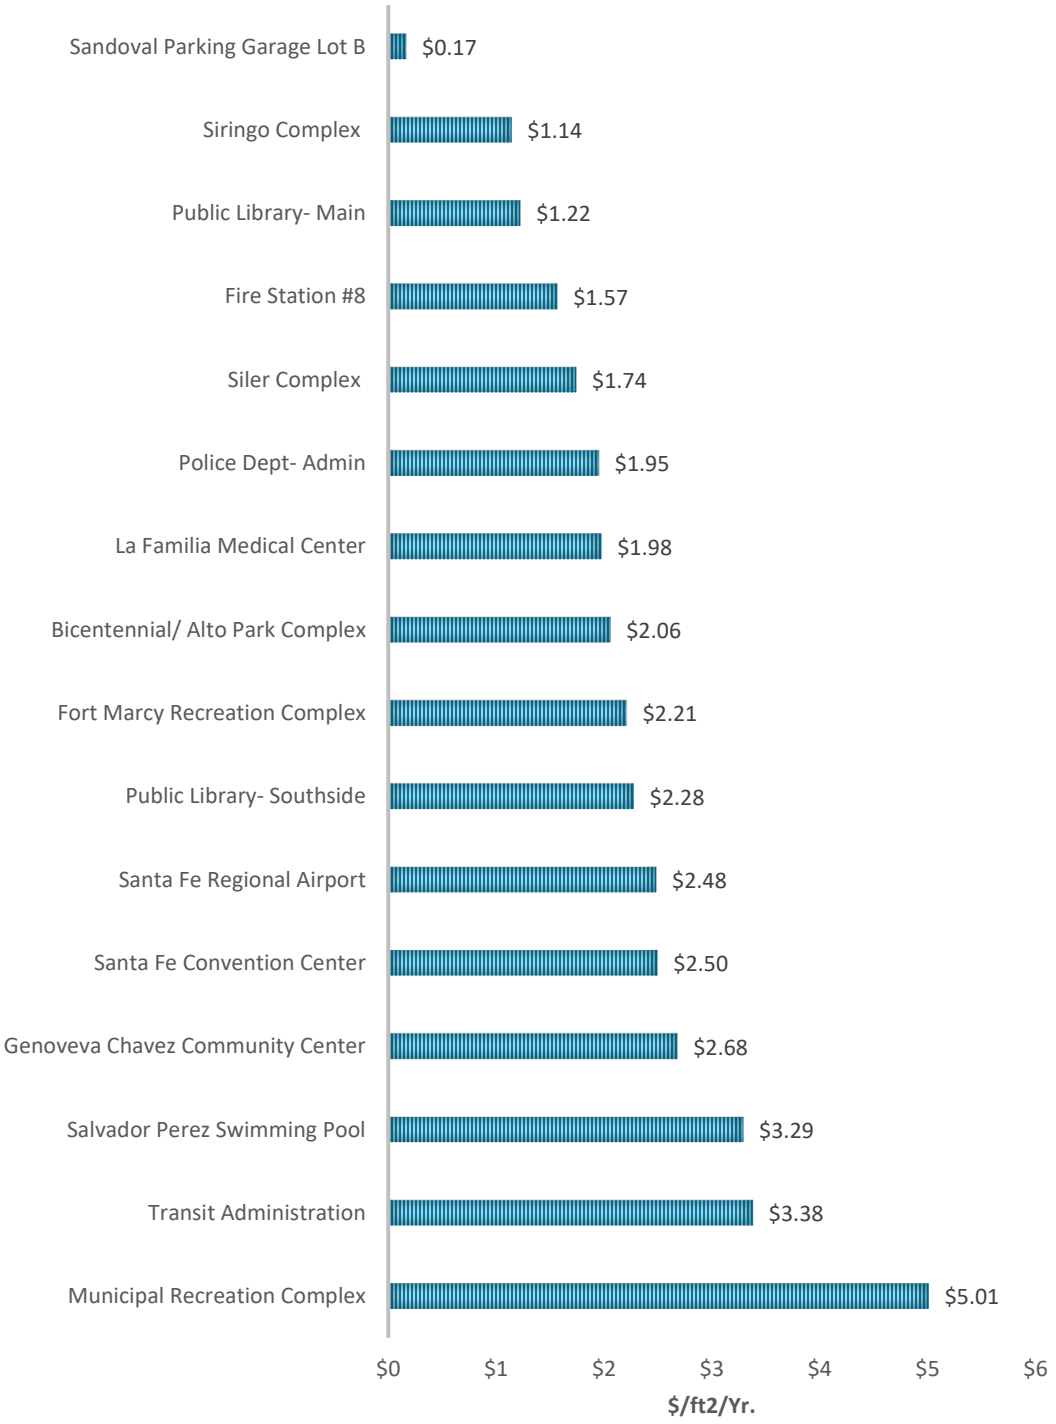

Figure 72: COSF Facilities Baseline EUI Comparison ($/ft²/Year)

3.4.3.2 Public utility Facilities

The following table and chart depict the baseline ECI for all facilities included in the feasibility study. The pump houses and booster stations have very high consumption and very small space therefore they are not benchmarked.

Table 22: Public utility Facilities Baseline ECI Summary ($/ft²/Year)

Facility	ECI $/ft²/Yr.
Canyon Road Water Treatment Plant	$3.70
Santa Fe Water Division Office	$1.23
WWTP	$3.37

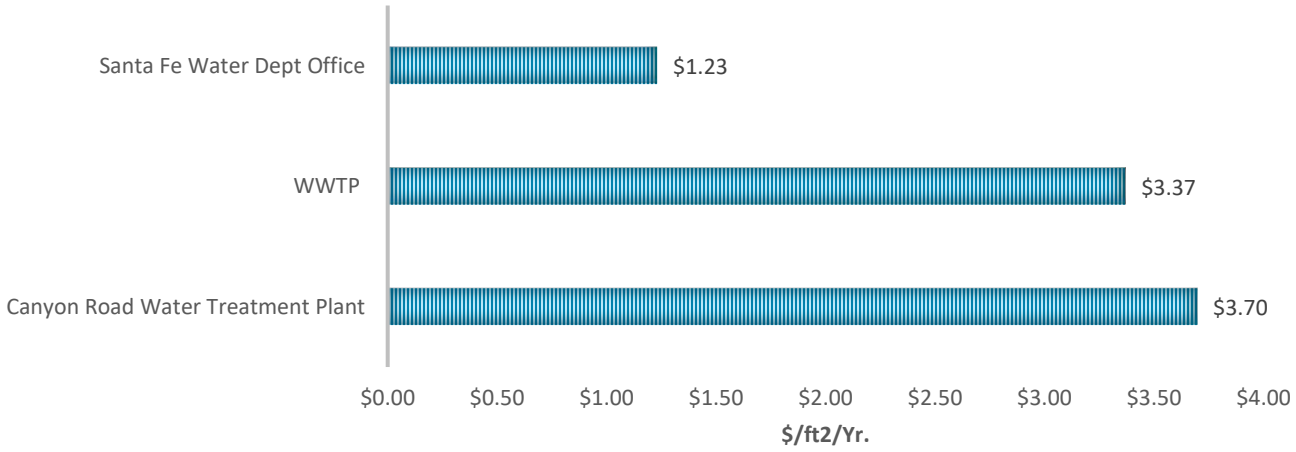

Figure 73: Public utility Facilities Baseline EUI Comparison ($/ft²/Year)

3.4.3.3 BDD Sites

The BDD pump houses and booster stations have very high consumption and very small space therefore they are not benchmarked.

3.5 Baseline Utility Rates

Refer to **Appendix B2** for more detailed baseline utility rate analysis information.

3.5.1 Electric

Public Service Company of New Mexico (PNM) is the electric utility provider for all sites and the rates are tabulated below.

Table 23: Electric Rates

Rate No.	Provider	Rate Description	Effective Date	On-Peak Demand	On-Peak Energy	Off-Peak Energy
				$/kW	$/kWh	$/kWh
2A	PNM	Small Power Service	Jan 1 2019	$0.0000	$0.1237	$0.1237
3B	PNM	General Power Service TOU	Jan 1 2019	$21.2998	$0.0534	$0.0397
3D	PNM	Pilot Muni/Counties General Power Service TOU	Jan 1 2019	$21.2998	$0.0534	$0.0397
3E	PNM	Pilot Muni/Counties General Power Service Low LF TOU	Jan 1 2019	$6.7747	$0.1210	$0.0762
4B	PNM	Large Power Service TOU	Jan 1 2019	$20.8558	$0.0497	$0.0398
11B	PNM	Water & Sewer Pumping Service TOU	Feb 1 2018	$0.0000	$0.1449	$0.0447

Time of use (TOU) rates have On-Peak and Off-Peak components. PNM On-Peak hours are Monday thru Friday, 8:00 am – 8:00 pm. All other hours are considered Off-Peak. There is also a seasonal difference in rates. Summer rates which apply during June, July, and August are higher.

3.5.2 Natural Gas

The natural gas for the City of Santa Fe is provided and billed through a contract with the domestic energy transportation company CenterPoint Energy. Natural gas is bought through the deregulated market by CenterPoint in block amounts agreed to by the city of Santa Fe on the first of the month

market (FOM). The agreed upon amount is estimated based on approximate usage and current commodity prices. CenterPoint charges the city a variable first of the month index, reflective of gas market price, plus $0.095 per MMBtu supply fee and a 1% New Mexico Gas Company (NMGC) fee for their system. To meet the actual gas usage for that month, gas must be purchased or sold on the daily market. This rate is calculated as the weighted average cost of gas (WACOG) from the previous month plus $0.095/MMBtu supply fee if being purchased and credited as WACOG if being sold back.

Table 24: Natural Gas Rates

Rate No.	Provider	Rate Description	Effective Date	$/ therm
54	CenterPoint	CenterPoint & NMGC Transmission Rate 54	July 19, 2019	$0.3822
200	CenterPoint	CenterPoint & NMGC Transmission Rate 200 (Rate 34 in Analysis)	July 20, 2019	$0.3183

3.5.3 Water and Sewer

The City of Santa Fe is the water and sewer utility provider. The city currently does not charge itself for sewer services even though they should according to the published ordinance. Should the COSF elect to charge for sewer in the future, the COSF would see an increase in their utility bill for these services. As a result, the proposed annual savings would also increase due to the reduction in sewer consumption.

Table 25: Water and Sewer Gas Rates

Rate No.	Provider	Rate Description	Effective Date	Water	Sewer
				$/kgal	$/kgal
COM	COSF	Commercial Base Rate | All Meter Sizes	March 1, 2018	$6.0600	$0.0000

3.6 Existing City-Owned Solar PV Arrays

Prior to this IGA, various locations within the COSF had opted to build solar PV arrays for their benefit. The following table provides details pertaining to those systems.

Table 26: Existing City-Owned Solar PV Arrays

Site	Owner	Electric Meter	System Size (kW DC)
BDD 2A	BDD	740524 742480	753.41
Water Division Office	Water Division	924088	49.10 & 33.40
GCCC	COSF	752393 740514	96.00 528.00

3.7 Solar Power Purchase Agreements (PPA)

A power purchase agreement is a contract between two parties, one who owns and maintains a power plant, in this case solar PV, and the other who typically hosts the power plant and agrees to purchase the power produced. The COSF has entered into several of these agreements and is hosting several solar photovoltaic power plants on-site at their facilities. Table 27 summarizes the key details of the existing PPA agreements (**Appendix E6**). The PPA rates ($kWh) outlined below do not include fixed meter charges and are extracted directly from the PPA contracts provided by the COSF with exception to BDD site. No PPA contract was available for this site, but upon confirmation from BDD site Management, the agreement does not include any fixed monthly cost. Therefore, YE calculated the PPA Rate for this system by dividing cost by energy produced. YE confirmed this approach as every month returned $/kWh. This would not be the case if there were any fixed meter charges applied.

Table 27: PPA Agreement Summary

Site Information			PPA Information			
Site	Electric Meter	System Size (kW DC)	System Owner	PPA Rate ($/kWh)	Contract Start Date	Contract End Date
BDD	743968	1166.0	American Capital Energy	0.155	January 1, 2011	January 1, 2031
WWTP Main	778050/778070	1,114.0*	SunEdision	0.0658	June 24, 2009	January 24, 2029
WWTP	740513	94.9**	Dissigno Holdings	0.1475	November 30, 2011	November 30, 2031
SFCC	777759	96.0*	Dissigno Holdings	0.1475	May 1, 2016	May 1, 2031
Transit Admin	778000	163.0***	RSBF	0.155	January 1, 2012	January 1, 2032

*According to original SunEdision PPA.
** Original SunEdison PPA showed 170 kW DC
*** Original SunEdison PPA showed 46 kW DC

In the case of the array adjacent to the WWTP Composting Bldg., according to the PPA contract, the purchase price is 0.1475, however, Dissigno Holdings is crediting the COSF with the monthly REC payments. Therefore, the actual rate paid is lower.

3.8 Renewable Energy Certificates (REC)

Renewable energy certificates are an incentive program offered by some utilities. Under these agreements, the utility pays system owners for the solar energy produced on-site. Purchase of these certificates are used by the utility to offset their GHG emissions. Table 28 depicts the existing REC Agreements for PV Production on COSF sites.

Note: The city should be aware when the REC agreements end, they will no longer receive these credits and there will be an increase in their bill. Therefore, in locations where the city receives these directly, they were not included in baseline analysis.

Table 28: REC Agreement Summary

Site Information			Renewable Energy Certificates				
Site	Electric Meter	System Size (kW DC)	REC Owner	REC Rate ($/kWh)	Avg. Annual REC Payment Received	Contract Start Date	Contract End Date
BDD Main	721790	1166.00	COSF	0.1500	$303,570	January 1, 2011	January 1, 2031
BDD 2A	537846	753.41	COSF	0.0200	$55,174	May 17, 2013	December 31, 2020
	413482		COSF	0.0153		May 17, 2013	December 31, 2020
WWTP-Compost	-	94.90	Dissigno Holdings	0.0800	NA	-	-
WWTP-Main	816595	1,114.00	COSF	0.1500	$363,495	-	-
SFCC	-		Dissigno Holdings	0.0800	NA	-	-
Transit Admin	-	163.00	RSBF	-	NA	-	-
Water Division Office	947604		COSF	0.5000	$5,173	unavailable	unavailable
GCCC	752366	96.00	COSF	0.0200	$4,377	unavailable	unavailable
GCCC	581129	528.00	COSF	0.0500	$4,634	unavailable	unavailable

As mentioned previously, despite being the owner of the REC, Dissigno Holdings credits COSF with the REC payments for the WWTP-Compost.

3.9 PNM Service Entrance Agreements at BDD

PNM had to build specific infrastructure to supply the BDD sites. Due to these costs, there was an agreement made between PNM and BDD to purchase a minimum of electricity annually for a specified duration. This agreement includes a financial penalty ($/kWh) on the difference between the Annual On-Peak Energy Requirement (kWh) and the actual amount (kWh) consumed. The details of these agreements can be seen in Table 29. YE and the COSF have reviewed these agreements and concluded that due to the agreement end date and project timeline this will have a minimal effect.

These agreements can be found in **Appendix B4**.

Table 29: PNM/BDD Service Entrance Agreement Summary

Point of Delivery	PNM Agreement No.	PNM Account No.	In-Service Date	Agreement End Date	Sub-Sta. Annual On-Peak Energy Requirement
BDD Service Entrance 1: Diversion Structure and Raw Water Lift Station	1025007	1025007	07/01/11	07/01/21	254,040 kWh
BDD Service Entrance 2: Sediment Removal and Booster Station 1A	1025008	1025008	07/01/11	07/01/21	613,200 kWh

BDD Service Entrance 4: City/County Water Treatment Plant	1025010	1025010	07/01/11	07/01/21	963,984 kWh
Total	-----	-----	-----	-----	2,470,704 kWh

3.10 Baseline Utility meters

When discussing the utility meters, the following acronyms have been applied for the utility types:

ELEC: Electricity
NG: Natural Gas
WATER: Water

3.10.1 City Facilities

3.10.1.1 Bicentennial/ Alto Park Complex

Table 30: Bicentennial/Alto Park Complex Utility Meters and Rates

Utility Type	Area Served	Account #	Meter #	Rate
ELEC	Early Prevention	041257901-0453671-2	63271	ELEC-PNM-2A
ELEC	Senior Center	039050301-0434786-0	947566	ELEC-PNM-3D
ELEC	Head Start	043564500-0472091-8	760012	ELEC-PNM-2A
ELEC	Pool	042811500-0466425-0	526169	ELEC-PNM-2A
ELEC	Ball Park Lighting & Concession Stand	115942999-1249111-8	681172	ELEC-PNM-2A
NG	Head Start & Early Prevention	00000000-000000	N077271/ N077269	NG-CenterPoint-54
NG	Bicentennial Pool & Sr Citizen	080976621-0829521	5416790	NG-CenterPoint-54
NG	Sr Center Kitchen	080976620-0834937	6151086	NG-CenterPoint-54
NG	Alto Park Concession	080976624-1163476	1596805	NG-CenterPoint-54
WATER	4" Commercial-Irrigation	360217	1345581/ 1345582	WATER-COSF-COM
WATER	2" Commercial	360217	134365	WATER-COSF-COM
WATER	1"- Irrigation	360217	119295	WATER-COSF-COM
WATER	NA	360217	9941694	WATER-COSF-COM

Head Start and Early Prevention are served by meters N077271 and N077269. Early Prevention has been vacant and shortly after the natural gas was shut off due to a leak. No account data was available for this site, therefore no natural gas savings where attributed.

3.10.1.2 Fire Station #2

This site has a solar carport PV system owned by the City and issues regarding this system can be found in section 2.5.8.3. Electricity is billed on two PNM account each with one main meter and an associated REC meter. The baseline consumption includes the PNM account and the solar electric production. The REC credit ($) are calculated separately and the saving the city receives from the REC's are not included in the baseline cost.

This site includes a carport solar PV system owned by the city. Electricity is provided to the main building on one PNM account with one main meter and a REC meter. The baseline consumption for this site includes the PNM account and solar electric production. The REC credit ($) is calculated separately and the saving the city receives from the REC's are not included in the baseline cost.

This site includes two ground mounted PV system which are described as follows:

COMPOST

This system is owned by Dissigno Holdings. Electricity is provided on one PNM account with one main meter and a REC meter. The baseline consumption and cost include the PNM account and the solar PV production and the cost from the PPA. Dissigno Holdings receives the REC ($) and therefore not included in the baseline. Although not required by contract Dissigno Holdings credits the RECs back to the city. No REC credits where received for the first three month of billing and therefore no credit was issued to the city.

Main

This PV system is owned by SunEdision. The majority of electricity to this site is provided on one account via two main meters, Camel Tracks and Beckner; although 100% of the electricity is fed through Camel Tracks, the Beckner meter is most likely used for redundancy.

The City receives the REC payment directly and the consumption and cost were extracted from the utility website. This was not included in the site's baseline cost and was tabulated separately.

The PPA billing information was not available from the city. The consumption used to calculate the baseline was the amount recorded by the REC meter. The total consumption was then distributed by 5/7 for On-Peak and 2/7 for Off-Peak. The cost ($) was calculated by multiplying the total metered by the original PPA flat rate.

The baseline consumption and cost include the PNM account and the solar PV production and the cost from the PPA. The REC credit ($) is calculated separately and the saving the city receives from the REC's are not included in the baseline cost.

NG	COSF BU 72140 BDDP	080976669-1345618	1025768	NG-CenterPoint-54

This site includes a ground mounted PV system owned by American Capital Energy. Electricity is provided on one account via two main meters. One of the main meters includes the REC meter and a Solar PV production meter. The baseline includes both the solar PV production and the cost paid for the PPA. The city receives the REC payments directly and this was not included in the site's baseline cost and was tabulated separately.

For several BDD sites there were discrepancies between the historic data tabulated and copies of the bills available on the utility companies' website. These were reviewed by the utility company and a sperate spreadsheet was provided for the BDD sites that included BDD Main, Booster 2A, Booster 1A, BDD Lift Station.

The REC consumption and cost were extracted from the utility company spreadsheet. The On-Off-Peak consumption was estimated by distributing the total consumption by 5/7 for On-Peak and 2/7 for Off-Peak. This was not included in the site's baseline cost and was tabulated separately.

The PPA billing information was provided by the city. With the city's guidance, the consumption was calculated by taking the total cost ($) and divided by the rate ($/kWh). The total consumption was then distributed by 5/7 for On-Peak and 2/7 for Off-Peak.

The BDD PNM account consumption (kWh) was calculated by subtracting the Net Export from the Net Import for both On- and Off-Peak and adding these together provided the Total Consumption.

The baseline consumption and cost include the PNM account and the solar PV production and the cost from the PPA. The REC credit ($) is calculated separately and the savings the city receives from the REC's are not included in the baseline cost.

3.10.3.2 BDD Booster Station #1A

ELEC	Pump	115915784-1347615-0	0438753 / 476161	ELEC-PNM-11B

In some case the full baseline period data was not available and additional information per meter is tabulated in **Appendix B**.

3.10.3.3 BDD Booster Station #2A

Table 66: BDD Booster Station #2A

Utility Type	Area Served	Account #	Meter #	Rate
ELEC	Pump	115915784-1348372-1	0740524/ 0742480	ELEC-PNM-11B
ELEC	Pump – Solar REC	115915784-1348372-1	537846/ 0413482	ELEC-PNM-SOLAR-REC

This site includes a ground mounted solar PV system owned by the city. Electricity is provided to the site on one PNM account via two meters each with a REC meter.

The REC consumption and cost were extracted from the utility company spreadsheet. The On-Off-Peak consumption was estimated by distributing the total consumption by 5/7 to On-Peak and 2/7 to Off-Peak. This was not included in the site's baseline cost and was tabulated separately.

The PNM account consumption (kWh) was calculated by subtracting the Net Export from the Net Import for both On & Off-Peak and adding these together provided the Total Consumption. The total billed amount included all charges except the REC payments.

The site baseline consumption was calculated by adding the PNM consumption and the Solar PV production recorded by the REC meter. The REC credit ($) is calculated separately and the savings the city receives from the REC's are not included in the baseline cost.

4.0 Facility Improvement Measures

The two fundamental factors contributing to energy savings are performance and duration. Performance describes how much energy is being used to accomplish a task, while duration describes how much time the task operates.

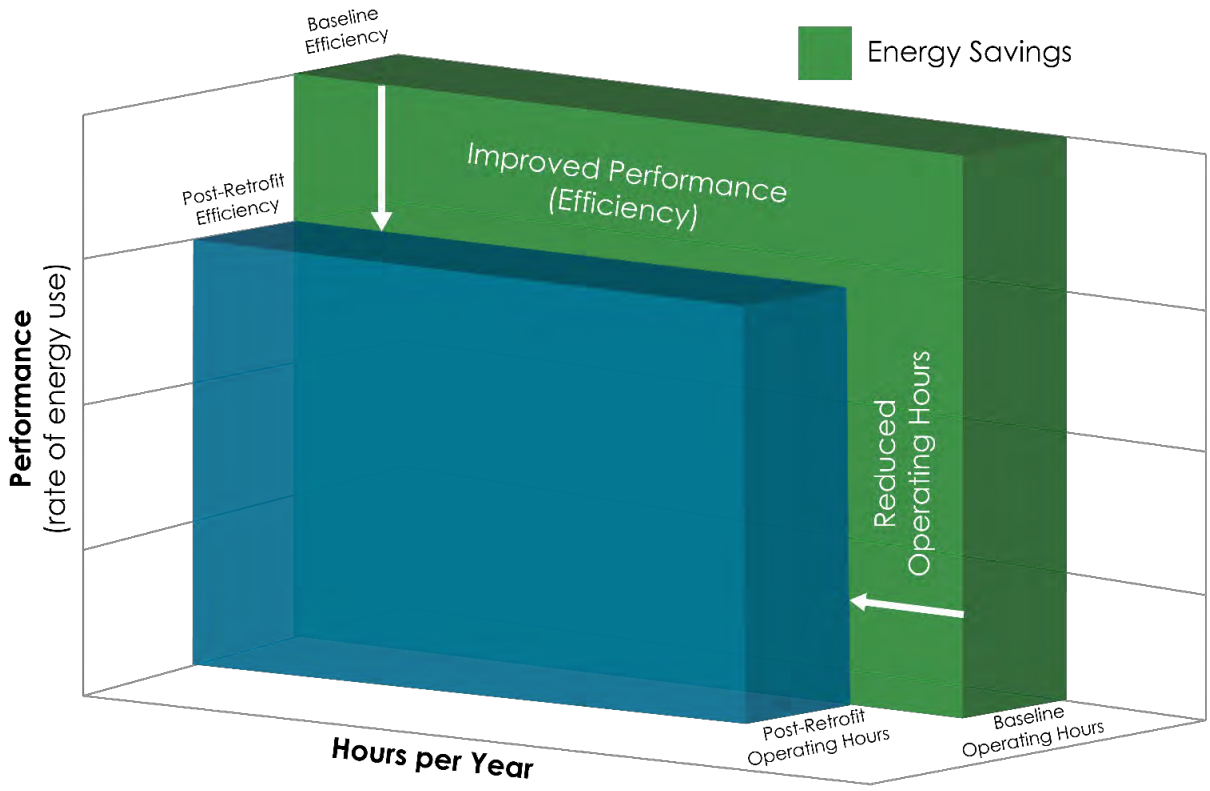

Figure 74: Facility Improvement Measures Diagram

A fundamental benefit of GESPC projects is that they allow for measures of varying financial returns to be bundled together to form a combined project that meets the Agency's financial and operational objectives. This process places the Agency at the project helm in terms of selecting which measures will be implemented as part of the final project scope within a targeted financing term.

A comprehensive Investment Grade Audit (IGA) was performed to establish the baseline condition and performance of each facility, and to identify and co-develop the following recommended FIMs. Not every FIM is applicable to each IGA building and only data and information for impacted buildings will be presented in the subsequent FIM sections of this report. Table 68: FIM Matrix clearly identifies where FIMs are applied.

4.1 FIM 1.00 LED Lighting

4.1.1 Existing Conditions

The existing lighting system consists primarily of T12 and T8 linear fluorescent lamps with either electronic or magnetic ballasts as depicted in the table below. In a handful of the newer facilities existing lighting controls are located in offices, conference rooms, hallways, and locations required by more recent codes. In the older facilities, limited lighting controls are typically found in restrooms, mechanical, electrical and janitor closets.

Refer to **Appendix D1** for a detailed baseline lighting inventory including lighting controls.

Table 69: Existing Lighting Fixture Inventory

Lamp Type	Existing Fixture Qty	% of Existing
Compact Fluorescent Lamp (CFL)	259	1.9%
Compact Fluorescent Lamp (PL)	1,437	10.8%
Halogen Lamp	558	4.2%
High-Pressure Sodium Lamp (HPS)	667	5.0%
Incandescent Lamp	476	3.6%
Light Emitting Diode (LED)-Linear Tube	151	1.1%
Light Emitting Diode (LED)-Luminaire	1,769	13.3%
Light Emitting Diode (LED)-Screw Base	423	3.2%
Metal Halide Lamp (MHL)	1,440	10.8%
T12 Linear Fluorescent Lamp	1,050	7.9%
T12 U-Tube Fluorescent Lamp	25	0.2%
T5 Linear Fluorescent Lamp	464	3.5%
T8 Linear Fluorescent Lamp	4,400	33.0%
T8 U-Tube Fluorescent Lamp	143	1.1%
T9 Circular Fluorescent Lamp	7	0.1%
Biax Fluorescent Lamp	74	0.6%
Total	13,343	100%

T8 Fluorescent Troffers

T8 fluorescent troffers, shown here with a prismatic lens, are by far the most common light fixture in the COSF. They are found in most office space areas. On average, each of these fixtures consumes 87 watts of power.

T12 Fluorescent Troffers

While not as widespread as T8s, T12 fluorescent troffers are common within COSF. On average, each of these fixtures consumes 107 watts of power.

4.1.2 Proposed Modifications

This measure will retrofit and/or replace the existing interior and exterior incandescent, fluorescent, metal-halide and other lighting equipment with new Light Emitting Diode (LED) technology. This will significantly reduce the energy consumption of the lighting system while also improving security and the working environment. In addition, the proposed solution would standardize the lighting system throughout the facilities, resulting in simplified inventory requirements and reduced maintenance costs and work.

The following table depicts the lighting fixture post retrofit upgrade. Refer to **Appendix D1** for a detailed proposed baseline lighting inventory.

Table 70: Proposed Lighting Fixture Inventory

Lamp Type	Proposed Fixture Qty	% of Proposed
Compact Fluorescent Lamp (CFL)	0	0.0%
Compact Fluorescent Lamp (PL)	47	0.4%
Halogen Lamp	176	1.3%
High-Pressure Sodium Lamp (HPS)	19	0.1%
Incandescent Lamp	216	1.6%
Light Emitting Diode (LED)-Linear Tube	2,950	22.1%
Light Emitting Diode (LED)-Luminaire	8,287	62.1%
Light Emitting Diode (LED)-Plug/Pin Base	418	3.1%
Light Emitting Diode (LED)-Screw Base	354	2.7%
Metal Halide Lamp (MHL)	359	2.7%
T12 Linear Fluorescent Lamp	0	0.0%
T12 U-Tube Fluorescent Lamp	0	0.0%
T5 Linear Fluorescent Lamp	0	0.0%
T8 Linear Fluorescent Lamp	33	0.2%
T8 U-Tube Fluorescent Lamp	0	0.0%
T9 Circular Fluorescent Lamp	0	0.0%
Biax Fluorescent Lamp	0	0.0
Unidentified	484	3.6%
Total	13,343	100%

Refer to **Appendix D2** for new equipment specifications.

Occupancy and dimming controls will be added to private offices and conference rooms. Adding controls will help drive down energy costs and improve occupant comfort. Occupancy sensors will ensure energy is not wasted by automatically turning lights off when a space is vacant. The lighting controls will be set to 'vacant mode' which follows a manual-on, auto-off operation. Lighting levels will be commissioned during project implementation to IESNA recommendations in each perspective space. Dimming will allow users to reduce/increase light levels to their preference.

The following table depicts the significant reductions in the lighting power density at each facility through the implementation of the proposed scope.

Table 71: Existing vs. Proposed Lighting Power Densities

Facility	Existing	Proposed	Reduction	Reduction

4.1.3 Savings Methodology

Energy and demand savings for this FIM were calculated using the following equations.

Demand

The existing and proposed fixture/lamp wattage was calculated as follows:

[Demand (kW) = Lamp QTY x Lamp Wattage (W) x Ballast Factor / 1,000]

Demand Savings

The demand savings was calculated using the following equation:

[Demand Savings (kW) = Demand (kW) x (Existing – Proposed) x Diversity Factor (%)]

Energy Savings

The energy reduction was calculated using the calculated demand savings and stipulated burn hours and the diversity factors which can be found in **Appendices D6 and D7**.

[Energy Savings (kWh) = Demand Savings (kW) x Burn Hours (Hrs. /Year) x Occupancy Sensor Factor]

In locations where occupancy sensors are proposed, a 25% reduction factor was included. Additional savings, not considered, will come from installing dimming in private offices and conference rooms.

Additional detailed information regarding the Methodology is available in in **Appendix D1**.

Based on field data, interviews, and industry best practices annual burn hours have been established for each space type per facility. These are available in **Appendix D6.**

HVAC Interactions

Additional analysis was performed to account for the cooling credit and heating penalty associated with the reduction in internal heat gain from the proposed lower lamp wattage. The method used to determine the impact was based on ASHRAE article "Calculating Lighting and HVAC Interactions" (see **Appendix D4**).

Cooling Savings

[Cooling Energy Savings (kWh) = A X B / C]

where:

A – Lighting Energy Savings (kWh)
B – Fraction to Cooling- Tabulated value base on climate zone
C – Cooling System MCOP- estimated depending on new building or retrofit

Heating Penalty

*[Heating Energy Penalty (therm) = A X B X C / D*E]*

where:

A – Lighting Energy Savings (kWh)
B – Fraction to Heating- Tabulated value base on climate zone
C – Fraction building area within 15' of exterior walls to the total building area
D – Heating System COP
E – Fuel Fraction

4.1.4 FIM Guaranteed Year 1 Utility Savings

Table 72: COSF Facilities – LED Lighting FIM Guaranteed Year 1 Utility Savings

4.1.6 Scope of Work

Please refer **Appendix D1** for a detailed baseline and proposed room-by-room lighting inventory.

CLARIFICATIONS

1. Recycling of lamps will be executed in compliance with appropriate governmental regulations.
2. Disposal of PCB-laden ballasts will be executed in compliance with appropriate governmental regulations.
3. The installation will be executed in accordance with industry-standard safety practices and with the care, skill, and diligence provided by a contractor skilled in the performance of lighting retrofit services.
4. Installation of all equipment will be executed per manufacturer's recommendations.
5. Any conditions not meeting current codes, and any system deficiencies will be brought to the attention of the Agency. Any work required to remedy these situations is excluded.
6. Rebate estimates are subject to utility availability and award and are not guaranteed by Yearout Energy.

EXCLUSIONS

1. Removal of asbestos-containing materials, lead-containing materials or any other hazardous/suspect materials.
2. All fixtures not outlined for replacement or retrofit in **Appendix D**.
3. Grounding of new and existing luminaires that are not currently grounded in which the luminaire will be retrofitted (not replaced).
4. Seismic bracing of new and existing luminaries that are not currently braced.
5. Replacement of existing LED exit signs.
6. Lighting controls unless noted otherwise in **Appendix D**.
7. Yearout Energy has accounted for battery backups where existing. In the event additional battery backups are required, Yearout Energy will charge $400 per unit installed.
8. In-board, out-board double switching of existing fixtures (unless noted otherwise).

4.1.7 Equipment Service Life

The estimated service life for this FIM is as follows:

Table 78: LED Lighting FIM Estimated Service Life

FIM Component	% of FIM Total Cost	Median Service Life
LED Lighting & Controls	100%	15 Years
FIM Weighted Average Service Life		15 Years

4.1.8 Preliminary Commissioning Plan

The following preliminary commissioning plan is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and strategies are implemented in accordance with the savings methodology associated with each measure.

1. Review equipment submittals to validate the specified performance criteria is in alignment with the proposed savings methodology
2. Perform a random inspection to validate the implemented lighting improvements align with the proposed scope of work (lamp, fixture, control device, etc.)

4.1.9 Warranty

An industry standard 1-year materials and workmanship warranty is provided by Yearout Energy. Any material warranties that extend beyond this period will be transferred to the Agency upon project closeout. All available warranty information can be found in **Appendix D2**.

The warranty period information for the major pieces of equipment associated with this measure is summarized in the table below.

Table 79: LED Lighting FIM Warranty Information

Equipment Description	Warranty Period
LED Luminaires	10 years
LED Tubes and Lamps	5 years

4.1.10 Training

Yearout Energy will co-develop a training plan with the Agency that is tailored to the needs and skill level of the building operators. Training sessions will be conducted during the project implementation

phase. These sessions will be recorded and provided in electronic format to the Agency for future reference. Topics commonly covered during these training sessions include:

3. Equipment start-up, proper operation, shutdown, power failure, etc.
4. Sequences of operation
5. Operations and maintenance (O&M) manuals
6. Diagnosing and troubleshooting common equipment issues
7. Preventative maintenance and required documentation
8. Health and safety considerations
9. Warranty information
10. Identified system deficiencies
11. Measurement and Verification (M&V) plan and KPIs which directly impact savings

4.2 FIM 2.00 Renewable Energy

4.2.1 Existing Conditions

Many of the COSF IGA sites do not currently have solar PV arrays, however there are a few exceptions. Existing sites with Solar PV systems owned by the city or provided through a power purchase agreement (PPA) include the following sites:

- Genoveva Chavez Community Center – City owned
- Santa Fe Water Division – City owned
- Transit Administration – PPA
- WWTP Compost – PPA
- WWTP Main – PPA
- BDD Main – PPA
- BDD Booster Station #2A – City owned
- Sana Fe Convention Center – PPA

See Section 2.0 Facility Description and Section 3.0 Baseline Utility Analysis for additional information.

4.2.2 Proposed Modifications

This measure will install new solar PV systems that will generate clean, renewable energy onsite for the next 25 to 50 years and reduce the amount of power purchased from the utility grid. This measure will provide complete turnkey installation, interconnection, startup, and commissioning of the solar PV systems. Land use agreements will require further determination at Public utility and BDD sites.

See **Appendix E** for additional information.

Additional information including calculations and system renderings are available in **Appendix E1**.

4.2.3 Savings Methodology

Energy savings for this FIM are based on an offset of energy delivered by the electric utility grid.

A monthly On-Peak and Off-Peak basis for system design was provided to the solar provider as follows:

$$S = (E_B - F_s) \times D_f$$

where:

E_B = energy baseline (kWh)

F_s = FIM savings (kWh)
D_f = design factor

- 0.8 of Baseline On-Peak Energy Consumption for COSF facilities,
- 0.6 of Baseline On-Peak Energy Consumption for water utility sites,
- 2.5 of Baseline On-Peak Energy Consumption for airport main terminal

During the IGA, the COSF and YE established a target offset of the post-retrofit on-peak energy consumption through the installation of solar PV systems at select sites. The designed offset was set at 80% of post-retrofit on-peak energy consumption for the COSF Facility sites and 60% of post-retrofit on-peak energy consumption for the Water Utility and BDD sites. The lower target offset applied to the water utility and BDD sites was to account for potential load shifting of current on-peak operation to off-peak operation.

Due to the ongoing expansion of the airport main terminal which will increase square footage by approximately 250%, the design factor used 2.5. Approval from PNM will be required to allow for a system of this size which is considerably larger than the 120% threshold of baseline consumption. PNM may elect to approve a system of reduced capacity at which time Yearout Energy will coordinate with the COSF to amend the project scope.

Energy production from the proposed solar PV systems were estimated using NREL's System Advisor Model (SAM) tool, specifically the PVWatts modeling methodology. The results produced from this model are generally within 6.5% of the production estimates provided by our solar partner. The tool simulates production with a high degree of accuracy based on specific inputs which include:

1. Location, solar resource, weather
2. System design including orientation, losses, module type, inverter efficiency, etc.

When selecting PV modules in SAM/PVWatts, the choices are standard, premium, and thin film. It is not possible to specify the efficiency of the modules. This is definitely a source of the discrepancy between our solar partner's estimated production and that of SAM/PVWatts as the proposed modules have a higher efficiency than that of the premium option available in SAM/PVWatts.

To calculate savings, the total energy produced was allocated proportionally to On-Peak and Off-Peak hours that apply to this building's electric rate.

$$S = E \times R_{on} \times P_{on} + E \times R_{off} \times P_{off}$$

where:

S = cost savings ($)
E = total energy savings (kWh)
R_{on} = On-Peak energy rate ($/kWh)

Proprietary & Confidential

R_{off} = Off-Peak energy rate ($/kWh)
P_{on} = proportion of energy produced during On-Peak hours = 5/7 days per week
P_{off} = proportion of energy produced during Off-Peak hours = 2/7 days per week

Although likely to occur at applicable sites, Yearout Energy has not accounted for any monthly demand savings due to the installation of solar PV. These additional savings will go directly to benefit the Agency.

YE anticipates that the COSF will receive additional REC payments from PNM of $0.0025/kWh due to the new solar PV systems' production. These savings were excluded from the savings analysis.

Detailed bases for calculations, output from the simulation, and additional information at each facility is provided in **Appendix E**.

4.2.6 Scope of Work

Please refer **Appendix E** for a detailed explanation of the proposed solar PV systems including product specifications and production calculations.

1. Furnish and install the solar PV systems per Table 80, Table 81, and Table 82.
2. Install a single, dual-handled, Level 2 EV car charging at the Southside Library and Police Admin.
3. Complete and submit interconnection applications for required metering.
4. Support and supervise land acquisitions for solar PV array sites.
5. Obtain building and electrical permits as required.
6. Provide stamped engineered electrical and structural drawings by a Professional Engineer registered in the State of New Mexico as required by the AHJ.
7. Provide and install conduit between PV panels and inverter, inverter and combiner, combiner and recombiner, recombiner and AC disconnect, and AC disconnect and interconnect location.
8. Provide and install XHHW-2 and TWHN-2 wire sized per NEC 2017 for DC and AC voltage runs.
9. Installation to be performed by NABCEP-certified professionals.

10. Coordinate with Molzen-Corbin for construction access and timeline. Additionally, sizing for the carport PV systems are based on the initial drawings provided by Molzen-Corbin.

CLARIFICATIONS

11. Installation will be executed in accordance with industry-standard safety practices and with the care, skill, and diligence provided by a contractor skilled in building envelope services.
12. Installation of all materials will be executed per manufacturer's recommendations.
13. Agency to provide Yearout Energy with internet connectivity at each site for remote monitoring. Connectivity can be provided through either hard-wired or wireless communication.
14. Any conditions not meeting current codes, and any system deficiencies will be brought to the attention of the Agency. Any work required to remedy these situations is excluded.
15. Completion of the Solar PV Carports is conditional upon completion of the general airport expansion project. Savings will not be realized until construction is completed.
16. The proposed solar scope at the Airport will require FAA review and approval due to glare concerns.
17. For carport systems, the associated parking areas will be closed during installation. Closures will be coordinated with the Agency.

EXCLUSIONS

1. Removal of asbestos containing materials, lead containing materials or any other hazardous / suspect materials.
2. Saw cutting, removal, patching, and replacement of landscaping, gravel ground cover, concrete, and asphalt.
3. Formed concrete, including equipment pads, leveling channels, conduit curbs, and pole bases other than defined for racking structure above.
4. Cutting, patching and painting and all other miscellaneous coatings not explicitly defined in the scope of work.
5. Fire sealing, fireproof patching, damp proofing, and water stops at conduit entrances/penetrations into buildings.
6. Tree removal and trimming.
7. Penetrations and sealing of roofing, under buildings and roof membranes.
8. Cathodic protection, snow melt and heat trace.
9. Independent testing laboratory services including concrete and compaction/density testing.

10. Surveying, dust control, seeding, erosion control and dewatering.
11. Repair or installation of any structural systems.
12. Cellular monitoring or infrastructure upgrades to support remote monitoring.

4.2.7 Equipment Service Life

The estimated service life for this FIM is as follows:

Table 89: Renewable Energy System FIM Estimated Service Life

FIM Component	% of FIM Total Cost	Median Service Life
PV modules	75%	40 years
Inverters	15%	20 years
Racking	10%	40 years
FIM Weighted Average Service Life	100%	37 years

4.2.8 Preliminary Commissioning Plan

The following preliminary commissioning plan is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and strategies are implemented in accordance with the savings methodology associated with each measure.

1. Review equipment submittals to validate the specified performance criteria is in alignment with the proposed savings methodology
2. Functional performance testing on modules and inverters during installation to validate proper validation.
3. Review monitoring system to validate proper operation.

4.2.9 Warranty

An industry standard 1-year materials and workmanship warranty is provided by Yearout Energy. Any material warranties that extend beyond this period will be transferred to the Agency upon project closeout. All available warranty information can be found in **Appendix E2**.

The warranty period information for the major pieces of equipment associated with this measure is summarized in the table below.

Table 90: Renewable Energy FIM Warranty Information

Equipment Description	Warranty Period
PV Modules	25-Year Power Output 20-Year Product
String Inverters	10 years
Micro Inverters	12 years
Sunny HighPower Peak 3 VDC Modular Utility Inverters	5 years

4.2.10 Training

Yearout Energy will co-develop a training plan with the Agency that is tailored to the needs and skill level of the building operators. Training sessions will be conducted during the project implementation phase. These sessions will be recorded and provided in electronic format to the Agency for future reference. Topics commonly covered during these training sessions include:

1. Equipment start-up, proper operation, shutdown, power failure, etc.
2. Sequences of operation
3. Operations and maintenance (O&M) manuals
4. Diagnosing and troubleshooting common equipment issues
5. Preventative maintenance and required documentation
6. Health and safety considerations
7. Warranty information
8. Identified system deficiencies
9. Measurement and Verification (M&V) plan and KPIs which directly impact savings

4.3 FIM 3.00 Water Conservation

To develop this measure, Yearout Energy conducted a thorough on-site walkthrough audit of the facilities, including engineering evaluations of water and energy savings opportunities. These evaluations include an examination of a sample of water-use equipment, measurements of existing water consumption, and analysis of historical water use data and facility demographics.

4.3.1 Existing Conditions

A variety of plumbing fixture configurations and flow rates were identified during the audit.

1. Domestic water fixtures throughout the buildings include a mixture of high efficiency fixtures and older standard fixtures.
2. Most toilets are flushometer (flush valve) type. Toilet flush rates are typically 1.60 gallons per flush (gpf).
3. Both wall-mount and floor-mount toilet china is present.
4. Urinals vary from facility and include waterless urinals too, the majority of, 1.0 gpf and also 1.5 gpf.
5. During the audit, a wide range of water pressures were recorded (ranging from 40 – 90 psi) among the buildings. With these ranging pressures, performance testing with diaphragm valves will be performed at several the buildings before recommending piston valves throughout the facilities. The diaphragm testing is used to measure flushometer volume by using a direct-read, in-line flow meter which has a computer that sums the volume. This flow meter is installed in series with the flushometer, ensuring that the same volume of water passes through both and allowing for accurate measurement of flush volume. These measurements are conducted in accordance with FEMP Method A Guidelines, 80/20.

Flushometers

Flushometers like those shown at right are prone to leakage and in many cases have fallen into disrepair, resulting in a release of much more water than is necessary. This measure will rebuild and re-tune flushometer assemblies to combat water waste.

Sink Aerators

This faucet is an example of a fixture whose aerator has either been removed or was never present. Installation of flow control devices will reduce water consumption at these fixtures.

4.3.2 Proposed Modifications

The proposed modifications include the following:

Replacement of existing flushometers with new hardware, including the following features and benefits:

1. New diaphragm valve X-body and diaphragm kit
2. Spud replacement
3. Flush tube replacement
4. New vacuum breaker and O-ring
5. Fixture reengineering and tuning
6. Variable flow technology

Installation of new or replacement of existing vandal-resistant flow control devices (aerators) at all lavatory and general-use sinks.

Please refer to **Appendix F** for detailed fixture audit and new equipment specifications.

1. Non-residential shower use averages 8 minutes per shower; residential shower use averages 10 minutes per shower.

4.3.3 Savings Methodology

Domestic plumbing fixture water usage is based primarily on facility occupancy. Detailed savings calculations can be found in **Appendix F1**. In general, domestic plumbing fixtures savings can be calculated as follows:

$$[\ Sw = d \times n \times F \times \Delta q\ ]$$

where:

Sw	Water savings (gal/y)
n	Number of occupants
F	Fixture usage per day (FUPD, flush/d/occupant)
Δq	Baseline flush rate – proposed flush rate (gal/flush)
D	Days in use per year (d/y)

Industry-standard assumptions[1] of use are utilized to determine fixture usage per day (FUPD) as follows:

1. Occupant and time-of-occupancy information is collected through IGA.
2. A split of 50% male and 50% female occupants is assumed.
3. Occupants will use restrooms once per two hours (0.5 uses per hour).
4. Males will use urinals 75% of the time.
5. New ADA handle
6. Non-residential lavatory usage is tied to the number of flushes and averages 6 seconds (0.1 minutes) per flush.
7. Residential lavatory usage averages 5 minutes per person per day.
8. Non-residential kitchenette, or general-purpose, faucets are used an average of 2 minutes per person per day.
9. Residential kitchen faucets are used an average of 3 minutes per person per day.
10. Usage factors are applied to each calculation in order to scale usage up or down depending on special conditions. Typically, these usage factors remain at 100% unless there is an indication of a modified usage pattern (e.g., it is known that a shower is used by only one person, once per week.)

[1]References: Building Science Corporation, “Setting Up Performance and Prescriptive Criteria for Domestic Water Use and Construction Waste Generation”, 1996; U.S. Department of Defense, “Military Handbook: Water Conservation”, 1997; Pacific Institute, “Waste Not, Want Not: The Potential for Urban Water Conservation in California”, 2003; Report sponsored by FEMP and conducted by Urban Systems Engineering, “WATERGY: A Water and Energy Conservation Model for Federal Facilities”, 1996.

Thermal energy and cost savings are calculated as follows:

$$[\ Se = Sw \times \rho \times Cp \times \Delta T\ ]$$

$$[\ Sc = Se / \varepsilon * f\ ]$$

where:

Sw	Water savings (gal/y)
Se	Thermal energy savings (BTU/y)
Sc	Thermal energy cost savings ($/y)
ρ	Water density = 8.34 lb./gal
Cp	Specific heat of water = 0.999 BTU/lb.-°F
ΔT	Hot water design temperature – mean inlet water temperature (°F)
f	Fuel unit cost ($/BTU)
ε	Efficiency (dimensionless)

Santa Fe Water Division Office	4	2	0	0	12	13	1

No scope at BDD facilities.

CLARIFICATIONS

1. Above quantities and sizing are preliminary and will be finalized once final equipment selections are made.
2. Minor repairs to horizontal water supply connections 1" and less in diameter are included where necessary to complete retrofit installation.
3. All piping modifications will be made with material that complies with standard trade practice and similar to existing materials.
4. Prior to construction, Owner will identify isolation valves. Isolation valves are required to be in working order in order for the above scope of work to be performed. Failed isolation valves are the Agency's responsibility to repair or replace.
5. Permit fees are not expected for this scope of work since it is a retrofit scope of work and no major modifications to infrastructure are being made. Yearout Energy has excluded permits from project cost at this time and would pass them through at cost (without markup) should they be required.
6. It is the Agency's responsibility to continue to provide domestic water at 25-85 psi and suitable flowrates to all fixtures. Deviations from this pressure range will require additional retrofits external to this project scope.

EXCLUSIONS

1. Control stops and shutoff valves.
2. Special-use sinks, volume-based sinks, and irregular sinks that are incompatible with retrofit scope of work.
3. Sink faucets and peripherals.
4. Shower peripherals.
5. Broken toilet flanges. Flange repairs and/or replacements will incur an additional charge external to this project scope.
6. Broken carriers (for wall-mount toilets and urinals).
7. Painting, extensive tile work, and wall repair outside of footprint-related patching.
8. Pre-existing damage to walls and/or flooring will be brought to the attention of the Agency and the best course of action will be determined. Yearout Energy will repair any damage caused by its installations. Yearout Energy will attempt to match existing conditions, but where unique finishes are present it may require the Agency to supply material.
9. Hazardous material removal or abatement.

4.3.7 Equipment Service Life

The estimated service life for this FIM is as follows:

Table 97: Water Conservation FIM Estimated Service Life

FIM Component	% of FIM Total Cost	Median Service Life
All Domestic Water Fixtures	100%	20 Years
FIM Weighted Average Service Life		20 Years

4.3.8 Preliminary Commissioning Plan

The following preliminary commissioning plan is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and strategies are implemented in accordance with the savings methodology associated with each measure.

1. Review equipment submittals to validate the specified performance criteria is in alignment with the proposed savings methodology
2. Perform a random inspection to validate the implemented water fixture improvements align with the proposed scope of work.

4.3.9 Warranty

An industry standard 1-year materials and workmanship warranty is provided by Yearout Energy. Any material warranties that extend beyond this period will be transferred to the Agency upon project closeout. All available warranty information can be found in **Appendix F1**.

The warranty period information for the major pieces of equipment associated with this measure is summarized in the table below.

Table 98: Water Conservation FIM Warranty Information

Equipment Description	OEM Warranty Period	Water Conservation Partner Warranty
Flushometer valve components	3 years	3 years
Diaphragm	3 years	10 years
Hands-free handle mounts	3 years	3 years

Equipment Description	OEM Warranty Period	Water Conservation Partner Warranty
Flapper assembly	N/A	3 years
Flapper and flipper seal	N/A	10 years
Fluidmaster sure-fit tank lever	3 years	3 years
Supply lines	N/A	3 years
Aerators	1 year	3 years
Screen washers	5 years	10 years
Urinals	3 years	3 years

4.3.10 Training

Yearout Energy will co-develop a training plan with the Agency that is tailored to the needs and skill level of the building operators. Training sessions will be conducted during the project implementation phase. These sessions will be recorded and provided in electronic format to the Agency for future reference. Topics commonly covered during these training sessions include:

3. Equipment start-up, proper operation, shutdown, power failure, etc.
4. Sequences of operation
5. Operations and maintenance (O&M) manuals
6. Diagnosing and troubleshooting common equipment issues
7. Preventative maintenance and required documentation
8. Health and safety considerations
9. Warranty information
10. Identified system deficiencies
11. Measurement and Verification (M&V) plan and KPIs which directly impact savings

4.4 FIM 4.00 Building Envelope

4.4.1 Existing Conditions

Significant quantities of air infiltration into the buildings were discovered during the envelope survey period. The facilities were found to be in a mixed set of conditions in regard to infiltration losses, mostly due to age and maintenance issues.

Most buildings are in good condition but could use improvements to stop air infiltration/exfiltration and energy loss. Door systems were found to be the largest areas of air infiltration/exfiltration. Most entrance doors needed one of the following: weather stripping or sweeps. In most buildings of this age the door seals are either original or have been replaced. Often the replacement seals are of poor quality and are degraded by ultraviolet solar rays. Over time they lose their flexibility and ability to function reliably. Care should be taken to replace seals with products having extensive long-term testing (higher cycle count). Sealant is recommended around the perimeter of several windows. Numerous penetrations were observed that need to be sealed.

Recommended improvements are tabulated and available in **Appendix G1**.

Air Leakage – Building Envelope

Air leakage through the building envelope most often occurs where building envelope elements are connected. Leakage is typically a result of either improper design or construction, lack of maintenance, or normal degradation over the life of the building. The audit identified penetrations in the building envelope that consist mainly of cracks or openings at building connection points, holes, and pipe/mechanical penetrations. These openings in the building envelope need to be sealed to stop significant amounts of air leakage and energy loss.

Weather Stripping – Exterior Doors

The weather stripping, door sweeps, vertical sweeps on exterior doors, and overhead doors are damaged and in disrepair allowing air infiltration into the space between the door and the frame. Over time this weather stripping develops gaps due to normal wear and tear. By replacing worn out weather stripping, energy savings can be realized due to reduced infiltration and thus, reduced load on the building HVAC equipment. In some instances, the weather stripping appears to be in good condition, but it is still not preventing air leakage as it is intended.

Air Leakage – Windows

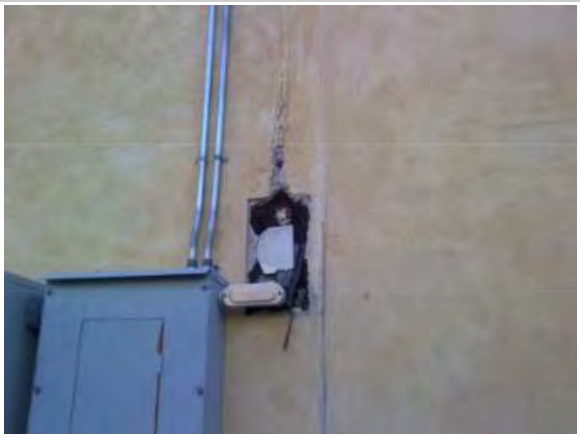
Windows throughout the campus, both single and double paned, both have issues that impact energy efficiency. The window glazing and seals are generally in good condition overall; however, air leakage between the window frames and walls was observed in several locations, as well as failed seals.

Windows

Gaps at window / wall junction should be sealed as shown at the Siler Complex.

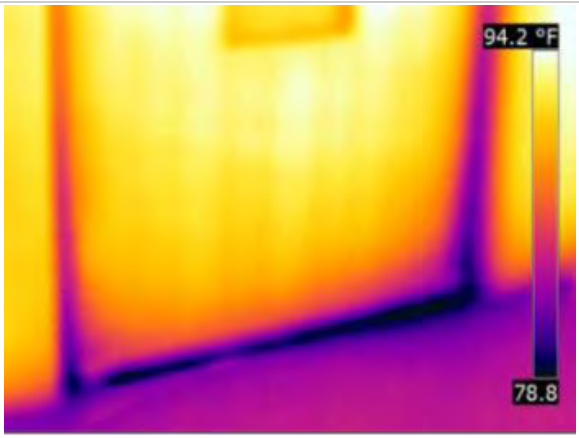
Air Leakage

We recommend sealing penetrations and blank openings to reduce air and moisture infiltration and exfiltration leading to energy loss



Exterior Doors

The thermal image at right shows a typical example of failed weather-stripping at exterior doors. Here dark blue at the edges of the doors signify a large temperature differential is apparent, signaling severe leakage.



4.4.2 Proposed Modifications

Recommended improvements are tabulated and available in **Appendix G1**.

Air Leakage – Building Envelope

The proposed modifications include insulating and sealing all identified penetrations and openings with the appropriate polyurethane spray foam product and premium urethanized elastomeric sealants to minimize or eliminate these sources of air leakage.

Weather Stripping – Exterior Doors

This scope will repair or replace the weather stripping, door sweeps, and vertical sweeps as identified in order to minimize the amount of air leakage at identified locations.

Air Leakage – Windows

Interiors of windows and frames where they meet interior finishes will be caulked using premium urethanized elastomeric sealants to mitigate air leakage where necessary.

Implementing the proposed modifications will reduce the heating and cooling loads by reducing the amount of air entering and leaving through the building envelope and will also improve space comfort.

4.4.3 Savings Methodology

Infiltration Reduction (Air Leakage, Weather Stripping, Exterior Doors, and Windows)

Heat loss, q, in BTU/h, is determined by the following equation:

$$[\, q = H_l \times Q \times \Delta T \,]$$

Where:

H_l = Heat Loss Coefficient ($\frac{BTU*Min}{ft^3*°F*Hr}$) is calculated as follows:

$$[H_l = \text{Cp x } \rho \text{ x } 60\ (\tfrac{Min}{Hr})] = 0.864\ \tfrac{BTU*Min}{ft^3*°F*Hr}$$

Where:

Cp = Specific Heat ($\frac{BTU}{Lb*°F}$)

P = Air density at site elevation ($\frac{lb}{ft^3}$)

Conversion factor = 60 ($\frac{Min}{Hr}$)

where:

Q represents the airflow in cubic feet per minute (CFM) and is calculated in the following manner:

$$[\, Q = A_{crack} \times \sqrt{C_s \Delta T + C_w V^2}\,]$$

where:

A_{crack} = crack area reduction (in²)

C_s = stack coefficient

C_w = wind coefficient

V = wind speed = 8.8 mph
[ΔT = temperature difference = $T_{out} - T_{in}$ (deg F)]

ΔT is calculated by subtracting the average outdoor air temperature per hour from the indoor temperature, using 24 data points per month to accurately account for weather variances, and subsequently calculating airflow and heat loss for each set of data. In total, 288 data points are used, and Δt is the number of hours each data point represents. The total heat loss is calculated as follows:

$$[q = \sum_{x=1}^{288} H_l \times A_{crack} \times \sqrt{C_s(T_{out} - T_{in}) + C_w V^2} \times (T_{out} - T_{in}) \times \Delta t\ ]$$

Conduction/Insulation

Steady-state one-dimensional heat loss, q, in BTU/h, is given by Fourier's law:

$$[\ q = -kA\frac{dT}{dx} \times \frac{hrs}{MMBTU}\ ]$$

where:

A = cross-sectional area normal to heat flow (ft^2)
K = thermal conductivity of the insulation material (BTU-in/h-ft^2-°F)
dT/dx = temperature gradient (°F/in)

The proposed modifications would provide a reduction in leakage area at the facilities as shown in the following tables.

Table 99: COSF Facilities – Proposed Air Leakage Area Remediation (ft^2)

Facility	Remediated Air Leakage Area (ft^2)
Bicentennial/ Alto Park Complex	8.85
Fire Station #8	2.86
Fort Marcy Recreation Complex	2.75

CLARIFICATIONS

1. Installation will be executed in accordance with industry-standard safety practices and with the care, skill, and diligence provided by a contractor skilled in building envelope services.
2. Installation of all materials will be executed per manufacturer's recommendations.
3. Any conditions not meeting current codes, and any system deficiencies will be brought to the attention of the Agency. Any work required to remedy these situations is excluded.

EXCLUSIONS

1. Removal of asbestos containing materials, lead containing materials or any other hazardous / suspect materials.

2. Removal of caulking, coatings, mastics, flashings, insulation or any other materials unless clearly specified.
3. Repair or installation of brick or other masonry materials or systems.
4. Repair or installation of window or door systems unless clearly identified.
5. Repair or installation of any structural systems.

4.4.7 Equipment Service Life

The estimated service life for this FIM is as follows:

Table 107: Building Envelope FIM Estimated Service Life

FIM Component	% of FIM Total Cost	Median Service Life
Building Envelope Materials	100%	20 Years
FIM Weighted Average Service Life		20 Years

4.4.8 Preliminary Commissioning Plan

The following preliminary commissioning plan is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and strategies are implemented in accordance with the savings methodology associated with each measure.

1. Review material submittals to validate the specified performance criteria is in alignment with the proposed savings methodology
2. Perform a random inspection to validate the implemented building envelope improvements align with the proposed scope of work (door sweeps, penetrations, etc.)

4.4.9 Warranty

An industry standard 1-year materials and workmanship warranty is provided by Yearout Energy. Any material warranties that extend beyond this period will be transferred to the Agency upon project closeout. All available warranty information can be found in **Appendix G1**.

The warranty period information for the major pieces of equipment associated with this measure is summarized in the table below.

Table 108: Building Envelope FIM Warranty Information

Equipment Description	Warranty Period
DAP & Dow Corning Sealants	50 years
Other sealants	1 year
Door sweeps and astragals	N/A

4.4.10 Training

Yearout Energy will co-develop a training plan with the Agency that is tailored to the needs and skill level of the building operators. Training sessions will be conducted during the project implementation phase. These sessions will be recorded and provided in electronic format to the Agency for future reference. Topics commonly covered during these training sessions include:

3. Equipment start-up, proper operation, shutdown, power failure, etc.
4. Sequences of operation
5. Operations and maintenance (O&M) manuals
6. Diagnosing and troubleshooting common equipment issues
7. Preventative maintenance and required documentation
8. Health and safety considerations
9. Warranty information
10. Identified system deficiencies
11. Measurement and Verification (M&V) plan and KPIs which directly impact savings

4.5 FIM 5.00 High-Efficiency Transformers

4.5.1 Existing Conditions

Transformers operate continuously and consume energy through there inherent inefficiency. Of the 67 transformers surveyed, 14 transformers have been identified as good candidates for replacement due to their age and inefficiency. This will save energy and improve aging infrastructure.

Transformers step down higher voltages delivered via utility distribution to lower voltages required for most building applications, including HVAC, lighting, and plug loads. Regardless of connected demand, transformers operate 24 hours per day and 365 days per year and experience roughly constant losses. These losses originate from two major transformer components: the core (typically made of steel), and coil windings (made of aluminum or copper). Standards for minimum transformer energy efficiencies were adopted at the discretion of manufacturers until 2007, when minimum efficiency legislation was enacted. An extensive survey of the city's, Water Division's, and BDD's transformers was conducted, and it was found that all transformers are older than 2007. The table below includes appropriate candidates for replacement.

Table 109: COSF Facilities – Existing Transformers

Low-Voltage Transformers

Several transformers like those shown at right are present throughout the electrical rooms in the facilities. Most of these units have been in place since the time of the facility's original construction.

4.5.2 Proposed Modifications

Modifications will include replacement of the existing transformers, shown in Table 109 and Table 110, with new, high-efficiency Powersmiths' model E-Saver-80R transformers. Energy savings are driven by modern, precision-crafted cores and coil windings. Refer to **Appendix H3** for specifications.

4.5.3 Savings Methodology

Transformer losses are comprised of two major energy losses:

12. Core loses, also known as no-load losses or energizing losses, are present continuously, regardless of load.
13. Coil losses, also known as load losses, vary with the square of the load placed upon them.

Total Transformer Losses are calculated as follows:

[Total Transformer Losses = No-load Losses (Core) + Load Losses (Coils)]

The below graph is the summary of a survey by the Northeast Energy Efficiency Partnership that indicates that typical transformer loading typically falls within the range of 7 – 24%.

(SOURCE DATA: INDUSTRIAL AND PUBLIC BUILDINGS, THE CADMUS GROUP INC. 12/7/99, PREPARED FOR NEFP)

Figure 75: Root Mean Square (RMS) Transformer Average Load Factor by Facility Type

The following graph shows the two loss components for a representative 75-kVA transformer. No-load losses represent 80-95% of the total losses, with only a small percentage (depicted in the blue-shaded triangular area between the red and orange lines) associated with load-dependent losses.

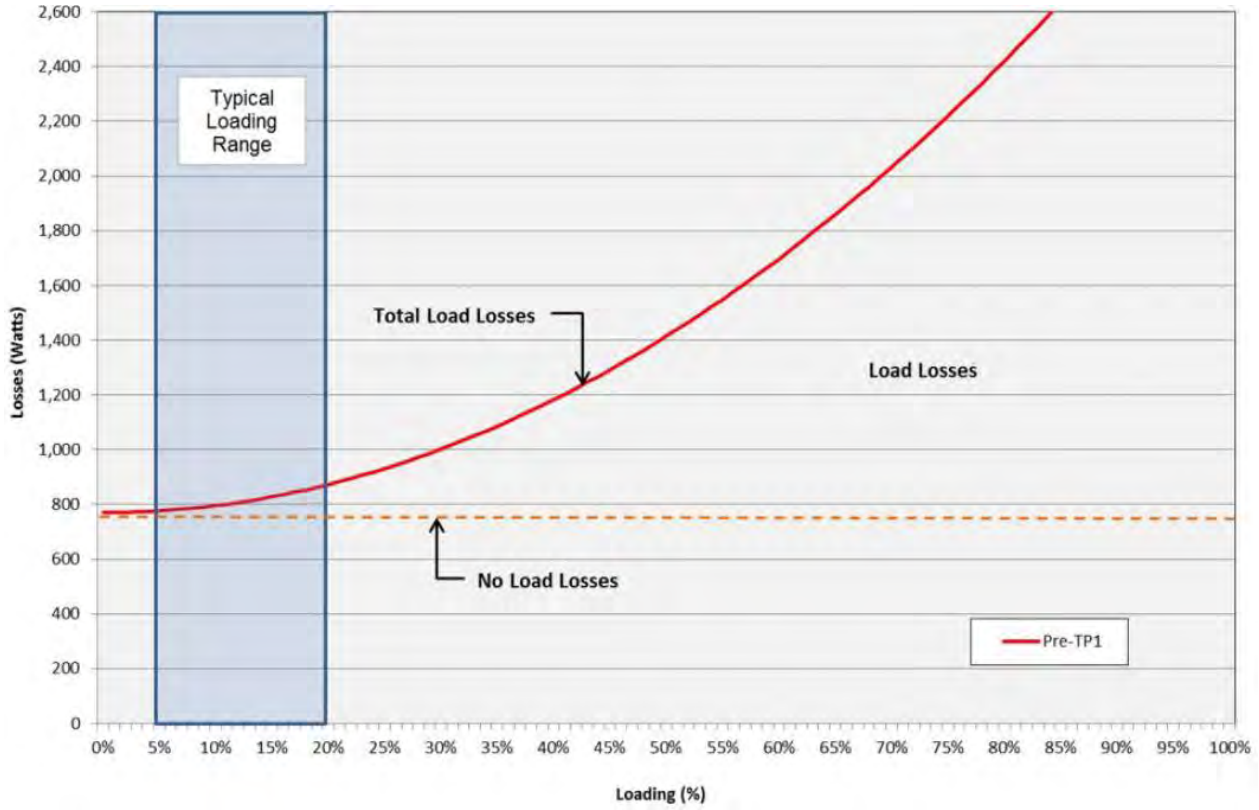

Figure 76: Typical 75 kVA NEMA TP-1 Low-Voltage Dry-Type Transformer Energy Loss Profile

Savings calculations are based on extensive field data collected by Powersmiths over the past decade across the country and COSF facility field measurements of the % loading and kW losses were performed on a number of existing transformers. Most transformers exhibit a very predictable duty-cycle using.

The following equation was used to calculate the on- and Off-Peak power savings:

$$[\ Lp = Ln + I^2 \times (Lf - Ln)\ ]$$

where:

Lp	Total transformer power losses (kW)
Ln	No-load losses (kW)
Lf	Full-load losses (kW)
I	Loading during operating hours (%)

The below table shows the load losses for the baseline and new proposed transformer.

Table 111: Transformer Load Losses

Size kVA	Baseline Losses		Proposed Losses (E-Saver-80R)	
	No Load	Full Load	No Load	Full Load
	W	W	W	W
15	311	1,182	35	775
25	282	1,369	57	674
30	412	1,462	57	1,332
45	665	2,202	78	1,725
75	834	3,347	111	2,537
112.5	1,190	4,271	164	3,313

Energy losses were calculated as follows:

[Le = Lp x H]

Savings for power (kW) and energy (kWh) were calculated as follows:

[Savings = Baseline Transformer Losses – Proposed Transformer Losses]

Where:

Lp Total transformer power losses (kW)
Le Total transformer energy losses (kWh)
H Hours of operation (h/y)

See **Appendix H2** for savings calculation.

4.5.4 Guaranteed Year 1 Utility Savings

Total		$3,739	$561	$4,299	$83,681	$3,124	$80,557

Table 115: Public Utility Facilities High-Efficiency Transformers FIM Financial Summary

FIM No.	Facility	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost
5.19	Canyon Road Water Treatment Plant	$885	$133	$1,017	$17,654	$704	$16,950
5.21	WWTP	$4,943	$742	$5,685	$97,836	$3,938	$93,898
Total		$5,828	$874	$6,702	$115,490	$4,642	$110,848

No scope at BDD facilities.

Scope of Work

The scope shall include the equipment as shown in the below table and work shall be performed as follows:

1. Verify all dimensions in the field.
2. Check for damage and loose connections.
3. Set the transformer plumb and level.
4. Mount transformer on vibration isolation pads suitable for isolating the transformer.

Table 116: High Efficiency Transformer FIM Proposed Scope of Work

Scope Item	Quantity
Demolish transformer	28
Install 15Kva high-efficiency transformer	1
Install 25Kva high-efficiency transformer	2
Install 30Kva high-efficiency transformer	8
Install 37.5kva high-efficiency transformer	1
Install 40Kva high-efficiency transformer	1
Install 45Kva high-efficiency transformer	7
Install 75Kva high-efficiency transformer	6
Install 112.5Kva high-efficiency transformer	2

Please refer **Appendix H** for a detailed baseline and proposed transformers.

CLARIFICATIONS

1. Work will require system shutdowns. All work shall be coordinated with the Agency in order to minimize the effect on day-to-day operations. Work shall be conducted during normal work hours when utility interruptions are approved; otherwise, work will be conducted outside of normal work hours when utility interruptions are not approved. All preparation work shall be done prior to shut down so as to minimize the time the system is down.
2. Installation will be executed in accordance with industry-standard safety practices and with the care, skill, and diligence provided by a contractor skilled in building envelope services.
3. Installation of all materials will be executed per manufacturer's recommendations.
4. Any conditions not meeting current codes, and any system deficiencies will be brought to the attention of the Agency. Any work required to remedy these situations is excluded.

EXCLUSIONS

1. Removal of asbestos containing materials, lead containing materials or any other hazardous / suspect materials.

2. New vibration isolation pads suitable for isolating
3. Repair or installation of any structural systems and/or installation of seismic restraints where required.
4. Repair or installation of brick or other masonry materials or systems.

4.5.6 Equipment Service Life

The estimated service life for this FIM is as follows:

Table 117: High Efficiency Transformer FIM Estimated Service Life

FIM Component	% of FIM Total Cost	Median Service Life
HE Transformers	100%	32 Years
FIM Weighted Average Service Life		32 Years

4.5.7 Preliminary Commissioning Plan

The following preliminary commissioning plan is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and strategies are implemented in accordance with the savings methodology associated with each measure.

1. Develop and issue construction phase commissioning plan
2. Review equipment submittals to validate the specified performance criteria is in alignment with the proposed savings methodology
3. Review sequences of operation and controls strategies to validate alignment with proposed savings methodology
4. Review manufacturer's startup documentation
5. Develop equipment Pre-Functional Checklists (PFCs)
6. Develop and conduct Functional Performance Testing (FPT) procedures on equipment and sequences of operation to ensure proper operation
7. Create and maintain a commissioning issues log
8. Establish trends as required to validate system operation
9. Coordinate Owner participation as required during commissioning and equipment startup efforts

10. Participate in staff training activities

4.5.8 Warranty

An industry standard 1-year materials and workmanship warranty is provided by Yearout Energy. Any material warranties that extend beyond this period will be transferred to the Agency upon project closeout. All available warranty information can be found in **Appendix H3**.

The warranty period information for the major pieces of equipment associated with this measure is summarized in the table below.

Table 118: HE Transformer FIM Warranty Information

Equipment Description	Warranty Period
Powersmiths Opal Transformers	32 years

4.5.9 Training

Yearout Energy will co-develop a training plan with the Agency that is tailored to the needs and skill level of the building operators. Training sessions will be conducted during the project implementation phase. These sessions will be recorded and provided in electronic format to the Agency for future reference. Topics commonly covered during these training sessions include:

11. Equipment start-up, proper operation, shutdown, power failure, etc.
12. Sequences of operation
13. Operations and maintenance (O&M) manuals
14. Diagnosing and troubleshooting common equipment issues
15. Preventative maintenance and required documentation
16. Health and safety considerations
17. Warranty information
18. Identified system deficiencies
19. Measurement and Verification (M&V) plan and KPIs which directly impact savings

4.6 FIM 6.00 Utility Management

4.6.1 Existing Conditions

4.6.1.1 MRC Pump Station Hill Soccer Pond

During the IGA, it was observed that the electric meter serving the MRC Pump Station Hill Soccer Pond was on a demand-based rate structure, PNM Rate 3E Pilot Municipalities and Counties Low Load Factor General Power Service Time-of-Use (TOU). Yearout Energy identified that this meter was eligible to switch to PNM 2A Small Power Service, which would be financially advantageous for the COSF. Eligibility for PNM 2A is defined as having a load factor that does not exceed 35% and one of the two following conditions: 1) a minimum monthly On-Peak demand of 50 kW, 2) consumption must be an actual 15,000kWh; both for three of the last twelve month.

4.6.1.2 Genoveva Chavez Community Center

Due to loss of production from the existing carport solar PV system as described in Section 2.5.8.3, the rate had been changed by PNM in early 2019 from rate 2A Small Power Service to rate 3B General Power Time-of-Use (TOU), which is less advantageous for solar. Yearout Energy identified this rate change during the IGA and brought it to the COSF's attention.

4.6.2 Proposed Modifications

4.6.2.1 MRC Pump Station Hill Soccer Pond

As a result of the utility analysis performed during the IGA, it was found that the PNM 2A Small Power Service was more appropriate for the MRC Pump Station Hill Soccer Pond. The rate has a higher Off-Peak Summer, On-Peak Winter, and Off-Peak Winter Consumption rate, but this is offset by no demand charge and lower monthly flat service charge. On November 8, 2019, the rate change was approved and applied by PNM immediately reducing utility costs at this site.

Table 119: MRC Pump Station Utility Management Proposed Modifications

Facility	Electric Provider	Account Number	Meter Serial No.	Current Rate	Proposed Rate
MRC Pump Station Hill Pond Soccer	PNM	43554000-0472017-2	947578	3E	2A

4.6.2.2 Genoveva Chavez Community Center

Yearout Energy requested on behalf of the COSF that PNM return the rate back to 2A and described the reasoning for the increase in consumption at this site. In December 2019, PNM approved and applied the rate change along with crediting the COSF back the utility cost increases experienced during the rate change period.

Table 120: GCCC Utility Management Proposed Modifications

Facility	Electric Provider	Account Number	Meter Serial No.	Current Rate	Proposed Rate
Genoveva Chavez Community Center	PNM	115447884-1174415-5	740514	3B	2A

4.6.3 Savings Methodology

4.6.3.1 MRC Pump Station Hill Soccer Pond

Savings for this measure were calculated by utilizing actual utility consumption data for the meter and simulating the monthly cost difference between the currently assigned electric rate and the proposed electric rate. Detailed calculations are provided in **Appendix I1**.

Table 121: MRC Pump Station Utility Management Savings

Facility	Electric Provider	Account Number	Baseline Annual Cost	Proposed Annual Cost	Annual Savings
MRC Pump station Hill Pond Soccer	PNM	43554000-0472017-2	$9,468	$7,647	$1,821

4.6.3.2 Genoveva Chavez Community Center

In December 2019, PNM approved and credited the COSF with the rate difference for the period it had changed. This was considered for project as a one-time credit (rebate).

Table 122: GCCC Utility Management Savings

Facility	Electric Provider	Account Number	Credit Amount
Genoveva Chavez Community Center	PNM	115447884-1174415-5	$1,516

4.6.5 Financial Summary

Table 124: Utility Management FIM Financial Summary

FIM No.	Facility	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost
6.05	Genoveva Chavez Community Center	$0	$0	$0	$0	$1,516	($1,516)
6.07	Municipal Recreation Complex	$1,821	$0	$1,821	$0	$0	$0
Total		$1,821	$0	$1,821	$0	$1,516	($1,516)

4.6.6 Scope of Work

Yearout Energy has coordinated with the COSF and PNM to have the proposed rate changes reviewed. PNM has confirmed the proposed changes are acceptable and have applied the requested changes to all future billings.

4.6.7 Equipment Service Life

No new equipment proposed for this measure.

4.6.8 Preliminary Commissioning Plan

There are no components requiring commissioning for this FIM.

4.6.9 Warranty

No new equipment proposed for this measure.

4.6.10 Training

No training required for this measure.

4.7 FIM 7.00 GCCC Solar PV Carport Repairs

4.7.1 Existing Conditions

As described in Section 2.5.8.3, a solar carport system operates on the two electric utility accounts serving this site. This includes a 528kW DC system connected to the larger account and 96kW DC system to the smaller account. The system had a decline in production by 74% at the end of 2016 when production went from 57,109 kWh in November to 14,852 kWh the following month. The average monthly production thereafter was 14,756 kWh per month for the following year of 2017 and even lower in 2018.

A report provided by the original installer, is available in **Appendix J**. YE reviewed this report and system independently. The main causes of the reduction in PV system production are the electric panel breakers tripping and inverter failures. Recently, the system production has been limited so not to trip the breakers. This has increased the production from the prior breaker tripping, but the system is far below full production capacity, and this is not a desirable long-term solution. The solar production is recorded by REC meters; one for each of the two systems that serve the facility. The reduced solar production caused an increase in grid provided consumption. PNM, the utility company, in early 2019 PNM changed the rate for account 115447884-1174415-5 from 2A to 3B, a less advantageous rate for solar production. Design drawings are from 2013 and the system was installed shortly after. Typical inverter warranty is for ten years which means the warranty is ending soon and this is important since there have been inverter failures recently.

GCCC Solar Carport

This system provides shade for the parked cars along with a roof mounted solar PV system.

Inverter Errors

Besides invertor failures, multiple inverters are showing error messages that are limiting the system potential production.

Tripped Breakers

Multiple breakers are tripped, and these have been reset and not able to stay on during higher system production times, reducing the overall system production.

4.7.2 Proposed Modifications

The proposed modifications would repair the system to its original design production and include replacing the existing breaker panels, invertors, and install a remote monitoring system that would allow to validate production.

4.7.3 Saving Methodology

Savings for this measure were calculated by utilizing actual utility consumption data for the meter and simulating the monthly production difference between the current baseline and the systems original design output. Detailed calculations are provided in **Appendix J**.

4.7.4 FIM Guaranteed Year 1 Utility Savings

Table 125: GCCC Solar PV Carport Repairs FIM Year 1 Utility Savings

FIM No.	Facility	Electricity				Natural Gas	Water
		kW	On-Peak kWh	Off-Peak kWh	kWh	therm	kgal
7.05	Genoveva Chavez Community Center	0	351,158	125,605	476,763	0	0
Total		0	351,158	125,605	476,763	0	0

4.7.5 FIM Financial Summary

Table 126: GCCC Solar PV Carport Repairs FIM Financial Summary

FIM No.	Facility	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost
7.05	Genoveva Chavez Community Center	$25,204	$0	$25,204	$155,730	$7,628	$148,102
Total		$25,204	$0	$25,204	$155,730	$7,628	$148,102

4.7.6 Scope of Work

The solar carport repairs will include the following:

1. Replace all 26 existing inverters with 26 Chint Power Systems 23kW AC inverters with Standard 10-Year Warranty.
2. Replace existing 600V wiring with 1000V rated wiring.
3. Install appropriately sized back feed breakers where applicable.
4. Install remote monitoring systems for both PV systems.
5. Existing solar PV modules and carport racking equipment to remain.
6. Perform system commissioning and system optimization tests to ensure the solar system will produce energy as intended as follows:

a. IV curve trace test of each string to confirm actual production matches nameplate power production.

b. Confirm invertor AC output matches string power production.

c. Monitor system production vs production estimates.

7. Provide all materials and labor for design and installation of entire scope of work.

New equipment specifications are provided in **Appendix J.**

CLARIFICATIONS

1. Installation of all materials will be executed per manufacturer's recommendations.
2. Any conditions not meeting current codes, and any system deficiencies will be brought to the attention of the Agency. Any work required to remedy these situations is excluded.
3. The renovation will not require coordination or authorization from the electrical utility.
4. For carport systems, the associated parking areas will be closed during installation. Closures will be coordinated with the Agency.

EXCLUSIONS

1. Surveying
2. Replacement of any defective or underperforming solar panels.
3. Penetrations and sealing of roofing, under buildings and roof membranes.
4. Installation of snow guards.
5. Reassembly of solar panel arrays.
6. Cathodic protection, snow melt and heat trace equipment.
7. Temporary facilities such as water, sanitary and first aid facilities.
8. Independent testing laboratory services including soils and compaction/density testing.
9. Removal of asbestos containing materials, lead containing materials or any other hazardous / suspect materials.
10. Saw cutting, removal, patching, and replacement of landscaping, gravel ground cover, concrete, and asphalt.
11. Formed concrete, including equipment pads, leveling channels, conduit curbs, and pole bases other than defined for racking structures.
12. Cutting, patching and painting and all other miscellaneous coatings.

13. Fire sealing, fireproof patching, damp proofing, and water stops at conduit entrances/penetrations.
14. Tree removal and trimming.
15. Penetrations and sealing of roofing, under buildings and roof membranes.
16. Repair or installation of any structural systems.
17. Cellular monitoring or infrastructure upgrades to support remote monitoring.

4.7.7 Equipment Service Life

The estimated service life for this FIM is as follows:

Table 127: GCCC PV System Repairs FIM Estimated Service Life

FIM Component	% of FIM Total Cost	Median Service Life
Inverters	100%	20 years
FIM Weighted Average Service Life	100%	20 years

4.7.8 Preliminary Commissioning Plan

The following preliminary commissioning plan is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and strategies are implemented in accordance with the savings methodology associated with each measure.

1. Develop and issue construction phase commissioning plan.
2. Review equipment submittals to validate the specified performance criteria is in alignment with the proposed savings methodology.
3. Review sequences of operation and controls strategies to validate alignment with proposed savings methodology.
4. Review manufacturer's startup documentation.
5. Develop equipment Pre-Functional Checklists (PFCs).
6. Develop and conduct Functional Performance Testing (FPT) procedures on equipment and sequences of operation to ensure proper operation.
7. Create and maintain a commissioning issues log.
8. Establish trends as required to validate system operation.

9. Coordinate Owner participation as required during commissioning and equipment startup efforts.
10. Participate in staff training activities.

4.7.9 Warranty

An industry standard 1-year materials and workmanship warranty is provided by Yearout Energy. Any material warranties that extend beyond this period will be transferred to the Agency upon project closeout. All available warranty information can be found in **Appendix J3**.

The warranty period information for the major pieces of equipment associated with this measure is summarized in the table below.

Table 128: GCCC Solar PV Carport Repairs FIM Warranty Information

Equipment Description	Warranty Period
String Inverters	10 years

4.7.10 Training

Yearout Energy will co-develop a training plan with the Agency that is tailored to the needs and skill level of the building operators. Training sessions will be conducted during the project implementation phase. These sessions will be recorded and provided in electronic format to the Agency for future reference. Topics commonly covered during these training sessions include:

1. Equipment start-up, proper operation, shutdown, power failure, etc.
2. Sequences of operation
3. Operations and maintenance (O&M) manuals
4. Diagnosing and troubleshooting common equipment issues
5. Preventative maintenance and required documentation
6. Health and safety considerations
7. Warranty information
8. Identified system deficiencies
9. Measurement and Verification (M&V) plan and KPIs which directly impact savings

4.8 FIM 8.00 Roof Replacement

4.8.1 Existing Conditions

The main building at the Canyon Road Water Treatment Plant's (WTP) age is unknown but appears to be 15-25 years of age. The roof survey can be found in **Appendix K1**.The facility has a built-up roof system over a concrete deck. Visual inspection and core samples revealed that the existing built up roof system is different for the upper and lower roofs and composed of the following layers:

Upper Roof

1. 1 ½" polyisocyanurate (Polyiso) closed-cell, rigid foam board roof insulation
2. ½" perlite
3. 3-ply BUR
4. 90# cap sheet
5. Mopped to concrete deck with asphalt

Lower Roof

1. 2" polyiso roof insulation
2. 3-ply BUR
3. 90# cap sheet
4. Mopped to concrete deck with asphalt

Figure 77: Canyon Road Water Treatment Plant Roof Levels and Aeras

South Low Roof

The photo at right shows evidence of severe weathering on the roof material.

Low Roof Core Drill

Roof core, low roof section, showing 2" Polyiso, 3ply BUR, Cap sheet, hot asphalt.

4.8.2 Proposed Modifications

Replacement of the entire Canyon Road WTP Main Building roof surface is recommended due to age-related deterioration noted above. No HVAC equipment or systems are included in the work scope. Should the COSF decide to replace the HFAC equipment at this facility in the future, YE recommends that the engineer of record perform the load calculations to properly size the equipment based on conditions at that time.

4.8.3 Saving Methodology

No utility savings are proposed for this measure.

4.8.4 FIM Guaranteed Year 1 Utility Savings

Table 129: Canyon Road WTP Roof Replacement FIM Year 1 Utility Savings

FIM No.	Facility	Electricity				Natural Gas	Water
		kW	On-Peak kWh	Off-Peak kWh	kWh	therm	kgal
8.19	Canyon Road Water Treatment Plant	0	0	0	0	0	0
Total		0	0	0	0	0	0

4.8.5 FIM Financial Summary

Table 130: Canyon Road WTP Roof Replacement FIM Financial Summary

FIM No.	Facility	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost
8.19	Canyon Road Water Treatment Plant	$0	$1,740	$1,740	$199,918	$0	$199,918
Total		$0	$1,740	$1,740	$199,918	$0	$199,918

4.8.6 Scope of Work

The modifications are as follows:

1. Provide architect stamped drawings for permit as required by the City of Santa Fe
2. Remove all roofing, insulation, base flashings, misc. flashings and related metal components
3. Install two layers 3.2” poly-iso and 1/4” Invinsa Board in 2-part poly-urethane adhesive – The total R-Value of the new insulation and cover board is approximately 38.62 which exceeds the City of Santa Fe requirements
4. Install new adhered 80 mil PVC membrane
5. Install adhered 60 mil PVC base flashings at walls, parapets and curbs
6. Install new PVC clad gutter liner and scuppers

7. Install new prefinished coping at divider parapet and counter flashings
8. Install miscellaneous flashings and accessories
9. Provide 20-year NDL labor and materials warranty.

Please refer **Appendix K** for a detailed baseline and proposed envelope remediation.

CLARIFICATIONS

1. Installation will be executed in accordance with industry-standard safety practices and with the care, skill, and diligences provided by a contractor skilled in roofing services.
2. Installation of all materials will be executed per manufacturer's recommendations.

EXCLUSIONS

1. Removal and abatement of asbestos-containing materials.
2. Structural and seismic upgrades associated with the replacement of the roof.
3. Temporary heating and cooling.
4. All wood nailers, curbs & blocking.
5. All other sheet metal; Air/Water Barrier; Expansion Joints; Installation of deck flute filler insulation strips.
6. All roof and wall sheathing; fire retardant plywood; hat channels and furring; structural members; caulking sealants & backer rod.
7. Any roof hatches and access ladders; skylights and curbs; concrete splash blocks; mechanical equipment, curbs, plumbing and pipe supports
8. All electrical; painting; testing services; a.

4.8.7 Equipment Service Life

The estimated service life for this FIM is as follows:

Table 131: Roofing Repair FIM Estimated Service Life

FIM Component	% of FIM Total Cost	Median Service Life
Roof	100%	20 Years
FIM Weighted Average Service Life		20 Years

4.8.8 Preliminary Commissioning Plan

The following preliminary commissioning plan is intended to serve as the outline from which the final commissioning plan will be developed during the pre-construction / design phase. The final commissioning plan will be primarily focused on validating the proposed equipment and strategies are implemented in accordance with the savings methodology associated with each measure.

1. Develop and issue construction phase commissioning plan.
2. Review equipment submittals to validate the specified performance criteria is in alignment with the proposed savings methodology.
3. Review sequences of operation and controls strategies to validate alignment with proposed savings methodology.
4. Review manufacturer's startup documentation.
5. Develop equipment Pre-Functional Checklists (PFCs).
6. Develop and conduct Functional Performance Testing (FPT) procedures on equipment and sequences of operation to ensure proper operation.
7. Create and maintain a commissioning issues log.
8. Establish trends as required to validate system operation.
9. Coordinate Agency participation as required during commissioning and equipment startup efforts.
10. Participate in staff training activities.

4.8.9 Warranty

An industry-standard 1-year materials and workmanship warranty is provided by Yearout Energy. Any material warranties that extend beyond this period will be transferred to the Agency upon project closeout. The roofing subcontractor provides a 20-year warranty per Section 4.8.6.

The warranty period information for the major pieces of equipment associated with this measure is summarized in the table below.

Table 132: CRWTP Roof Replacement FIM Warranty Information

Equipment Description	Warranty Period
Roof Labor and Materials	20 years

4.8.10 Training

Yearout Energy will co-develop a training plan with the Agency that is tailored to the needs and skill level of the building operators. Training sessions are recorded and provided in electronic format to the Agency for future reference. Topics commonly covered during these training sessions include:

1. Equipment start-up, proper operation, shutdown, power failure, etc.
2. Sequences of operation
3. Operations and maintenance (O&M) manuals
4. Diagnosing and troubleshooting common equipment issues
5. Preventative maintenance and required documentation
6. Health & safety considerations
7. Warranty information
8. Identified system deficiencies

4.9 Measures Not Recommended

4.9.1 Solar Thermal Pool Heating

Yearout Energy evaluated opportunities for solar thermal pool heating at each of the pools included in the IGA. Preliminary calculations proved this measure to not be financially viable.

4.9.2 LED Ball Park Lighting at Fort Marcy Recreational Center

This measure was evaluated but found not to be financially viable due to high initial costs and low operating hours.

4.9.3 Solar PV

Solar PV systems were evaluated at all IGA sites, but several were found not to be financially viable for a variety of reasons including: poor site conditions, existing solar PV systems, unattractive utility rates and historic district limitations.

Buckman Direct Diversion (BDD) Main was analyzed for potential solar PV system. This would be in addition to the existing solar system provided through a PPA. The current PV system is producing more On-Peak energy than the facility is using during a number of month therefore the installation of solar for this facility is not recommended until the current REC contract runs out and additional information is available in **Appendix E**.

Fire Station #2 was evaluated for a solar PV system and YE recommended and proposed a system. The COSF elected not to include this in the scope of work due to the construction of this site being put on hold.

4.9.4 Utility Meter/Account Consolidation

This is often an opportunity to reduce fixed customer charges at sites where multiple meters that could be consolidated to a single point of service. However, consolidation of meters to eliminate fixed customer charges does not always provide a better financial outcome should the consolidation push the meter/account into a different rate class.

YE performed a high-level preliminary assessment for meter consolidation and found that the existing infrastructure, meter quantities and geographic layout make it non-feasible to recommend a meter consolidation at any IGA sites.

4.10 General Clarifications and Exclusions

4.10.1 General Clarifications

1. Yearout Energy shall provide the necessary scheduling and coordination of its own forces and of subcontractors sufficient to operate the orderly and efficient completion of Yearout Energy's work without delay, interference, or interruption. Yearout Energy will make all efforts to meet schedules agreed to in advance. Yearout Energy's work shall be performed during five-day, forty-hour work weeks. If extended hours are required due to circumstances beyond the control of Yearout Energy, Yearout Energy shall be compensated for additional overhead, premium time costs, and lost productivity. Yearout Energy will substantiate circumstances beyond control in writing to the COSF prior to incurring any additional costs for overhead, premium time and lost productivity.

2. The project will be invoiced monthly, projecting the work through the end of the month. Invoices will include pay requests and schedule of values. Our proposal may involve a significant amount of off-site prefabrication. Yearout Energy anticipates invoicing for materials stored and work performed off-site at our fabrication facility.

3. Payment and performance bond are included.

4. Assumes reasonable access to the work areas.

5. Upgrades and modifications are to match existing material types in like-kind unless specifically noted otherwise in the scope of work.

6. COSF should anticipate limited planned outages and service interruptions as necessary to complete the scope of work. Yearout Energy will work diligently with COSF to determine the best plan for work.

7. Assumes that existing building electrical service and infrastructure is adequate to power new equipment.

8. We anticipate temporary power for tools and welding equipment will be available within 75' of work areas.

9. Our proposal anticipates operating under the guidelines of Yearout's Safety Program. We reserve the right to review requirements of any other safety program that will be in force on the project to determine if additional costs will apply.

10. We anticipate parking for craft and supervisory personnel will be on the job site. Any necessary permits will be issued by COSF for craft personnel. Transportation of our employees from an off-site location is not included.

11. Assumes adequate lay-down areas and storage facilities will be available in order to facilitate the execution of our work.

12. Yearout Energy has included separate trash dumpster for disposal of construction waste.

13. Permits and inspections by the AHJ are included.

4.10.2 General Exclusions

1. Removal of any hazardous materials. Should any hazardous materials be encountered, we will immediately notify COSF to determine a mutually agreeable course of action. We reserve the right to be compensated for cost related to the discovery of any hazardous material. No work will be performed in areas containing hazardous materials.
2. Provisions for seismic calculations
3. The requirement to provide additional insured status on the employer's worker's compensation insurance.
4. Repair or correction of pre-existing code violations.
5. Temporary heating and cooling.
6. Existing ductwork cleaning or sealing.

5.0 Measurement and Verification (M&V)

During the Investment Grade Audit (IGA), Yearout Energy follows industry best practices and governing agency requirements to identify and develop the most appropriate M&V plan per project and individual measure. Procedures for M&V vary based on complexity, risk, cost, the magnitude of savings and level of assurance required by project stakeholders. Our approach aligns with guidelines established by IPMVP. Yearout Energy develops the M&V plan and provided an opportunity to the project stakeholders for review and comment to ensure methodologies are clearly understood and project risks and responsibilities are properly allocated between Yearout Energy and the Agency.

Following the installation and commissioning of the project scope, Yearout Energy shall execute the post-construction Measurement and Verification plan to confirm the expected guaranteed savings are achievable based on as-built conditions. As with all construction projects, unforeseen conditions may lead to a change in the scope of work. YE will address these conditions as they arise and will ensure that the final scope of work will meet or exceed the guaranteed savings proposed. Yearout Energy shall author, distributes and reviews the findings of this report with the Agency for complete transparency.

The project is then transitioned into the performance assurance phase, where Yearout Energy shall perform the co-developed annual M&V plan outlined herein for ongoing validation of guaranteed savings.

The proposed preliminary Measurement and Verification plan have been developed to comply with the State of New Mexico “Public Facility Energy Efficiency and Water Conservation Act” [Chapter 6, Article 23, Section 8 NMSA 1978]. The determination of verified savings will follow current best practices as defined in the 2014 IPMVP Core Concepts June 2014, EVO 10000-1:2014.

5.1 M&V Reporting

Yearout Energy will prepare an annual M&V Report which will detail the following items for the reporting period:

- Date and time of site visits
- Areas assessed with a summary of findings
- Evaluation of system and overall performance
- Changes to facility operation along with identified impacts to the guarantee
- Verified utility consumption and cost savings
- Comparison of verified versus guaranteed savings
- Description of any required adjustments to the baseline or guaranteed savings

- Description of any shortfalls in guaranteed savings and plan for reimbursement

Yearout Energy will require ongoing access to all utility information throughout the duration of the performance period. This information will be tracked monthly and summarized in the annual M&V Report.

5.2 Adjustments to the Baseline

For the full duration of the performance period, COSF will be responsible for reporting the following items to Yearout Energy:

- Changes in the facility area
- Changes in space type or use
- Changes in operating hours
- Changes in occupancy
- Changes in set points, schedules, and sequences of operation
- Changes in equipment
- Changes to maintenance procedures
- Issues with installed equipment

Adjustments to the baseline or guarantee may be necessary when significant changes to any of the above-noted items occur. Additional adjustments for changes in weather will be accounted for on applicable measures. According to the IPMVP, baseline adjustments come in two forms:

- Routine Adjustments
    - Factors that expected to change routinely during the reporting period. An example is weather.
- Non-Routine Adjustments
    - Factors not usually expected to change. Examples include adjustments include facility size, space types, occupancy, and internal loads.

5.3 M&V Option per FIM

The proposed M&V option per FIM is depicted in the following table.

Table 133: M&V Option per FIM

FIM No.	FIM Name	M&V Option
1.00	LED Lighting	Option A – Retrofit Isolation
2.00	Renewable Energy	Option B – Retrofit Isolation
3.00	Water Conservation	Option A – Retrofit Isolation
4.00	Building Envelope	Option A – Retrofit Isolation
5.00	High Efficiency Transformers	Option A – Retrofit Isolation
6.00	Utility Measurement	Non-Measured
7.00	GCCC Solar Carport Repairs	Option B – Retrofit Isolation
8.00	Roof Replacement	Non-Measured

5.4 Annual M&V Fee

The Year-1 M&V Fee is $68,632 The M&V Fee will escalate at a rate of 2.500% annually for the duration of the project as depicted in the table below. The Agency will be responsible for payment of the annual M&V Fee, as these ongoing costs are considered annual fees, and cannot be financed up front.

Table 134: Annual M&V Fee

Year	M&V Fee	Year	M&V Fee
1	$68,632	10	$85,712
2	$70,348	11	$87,855
3	$72,106	12	$90,051
4	$73,909	13	$92,302
5	$75,757	14	$94,610
6	$77,651	15	$96,975
7	$79,592	16	$99,400
8	$81,582	17	$101,885
9	$83,621	18	$104,432

6.0 Economic Analysis

6.1 Guaranteed Annual Utility Savings

The following table depicts the Year 1 guaranteed utility consumption savings per FIM. The savings presented in this report are guaranteed each year for the duration of the project term.

Table 136: Year 1 Guaranteed Utility Consumption Savings per FIM

FIM No.	FIM Name	Electricity				Natural Gas	Water
		kW	On-Peak kWh	Off-Peak kWh	kWh	therm	kgal
1.00	LED Lighting	3,203	1,244,780	1,075,544	2,320,324	(4,498)	0
2.00	Renewable Energy	0	3,199,669	1,135,582	4,335,251	0	0
3.00	Water Conservation	0	0	0	0	5,858	2,007
4.00	Building Envelope	0	1,091	763	1,854	27,126	0
5.00	HE Transformers	63	45,009	76,337	121,347	0	0
6.00	Utility Management	0	0	0	0	0	0
7.00	GCCC Solar Carport Repairs	0	351,158	125,605	476,763	0	0
8.00	Roof Replacement	0	0	0	0	0	0
Total		3,266	4,841,707	2,413,831	7,255,538	28,486	2,007

A FIM specific guarantee factor (GF) is applied to the estimated savings to determine the guaranteed savings for each FIM. The guarantee factors can be found in Table 135: Preliminary M&V Plan. The applied guarantee factor is dependent on the FIM type, a methodology for calculating savings, understanding of the facility, experience implementing similar measures, and the level of risk acceptable to meet the Agency's financial objectives for the project.

Where the estimated savings are positive, the guarantee factor is applied as follows:

*[Guaranteed Savings = Estimated Savings * Guarantee Factor]*

Where the Estimated Savings are a negative value, the Guarantee Factor is applied as follows:

*[Guaranteed Savings = Estimated Savings * (1 + (1 – Guarantee Factor))]*

The following table depicts the Year 1 utility cost savings per FIM.

Table 137: Year 1 Utility Cost Savings per FIM

FIM No.	FIM Name	Electricity	Natural Gas	Water	All Utilities
		$	$	$	$
1.00	LED Lighting	$218,775	($1,719)	$0	$217,056
2.00	Renewable Energy	$473,609	$0	$0	$473,609
3.00	Water Conservation	$0	$2,239	$12,165	$14,404
4.00	Building Envelope	$110	$10,367	$0	$10,477
5.00	HE Transformers	$9,567	$0	$0	$9,567
6.00	Utility Management	$1,821	$0	$0	$1,821
7.00	GCCC Solar Carport Repairs	$25,204	$0	$0	$25,204
8.00	Roof Replacement	$0	$0	$0	$0
Total		$729,086	$10,887	$12,165	$752,137

As required by State statute, Yearout Energy must provide a performance guarantee in the form of a performance bond, cash bond, letter of credit or other surety each year in the amount equal to the annual guarantee. Yearout Energy intends to secure an energy savings guarantee bond renewed annually for the full Measurement and Verification term.

6.2 Operations & Maintenance (O&M) Savings

Historic operations and maintenance (O&M) costs were not available for evaluation during the IGA. Therefore, Yearout Energy has applied a conservative O&M savings estimate, below 5% of total annual utility savings, for applicable measures as depicted in the following table. To determine the average annual O&M savings, the identified reduction to baseline O&M expenditures was multiplied by the ratio of the service life of each specific FIM over the finance term. If the service life exceeds the finance term, the ratio is fixed at 1.

*[Average Annual O&M Savings = Est. Annual O&M Savings * (FIM Service Life / Finance Term)]*

For FIM 8.00 Roof Replacement, a conservative $0.15/ft^2 of annual O&M savings was estimated.

Based on this analysis, the Year 1 O&M saving established for this project is depicted in the table below. O&M savings were carried for the anticipated average service life of each individual. FIM.

Table 138: Year 1 Operations & Maintenance (O&M) Savings

FIM No.	FIM Name	Avg Service Life	Annual Utility Savings	Average Annual O&M Savings	% of Annual Utility Savings
1.00	LED Lighting	15.0 Years	$217,056	$21,761	10.03%
2.00	Renewable Energy	37.0 Years	$473,609	$0	0.00%
3.00	Water Conservation	20.0 Years	$14,404	$1,135	7.88%
4.00	Building Envelope	20.0 Years	$10,477	$1,572	15.00%
5.00	HE Transformers	32.0 Years	$9,567	$1,435	15.00%
6.00	Utility Management	0.0 Years	$1,821	$0	0.00%
7.00	GCCC Solar Carport Repairs	20.0 Years	$25,204	$0	0.00%
8.00	Roof Replacement	20.0 Years	$0	$1,740	-----
Total	----------		$752,137	$27,643	3.68%

6.3 Capital Contribution by Agency

The following table depicts the anticipated capital contribution amounts by the Agency per FIM.

Table 139: Capital Contribution by Agency per FIM

FIM No.	FIM Name	Capital Contribution
1.00	LED Lighting	$0
2.00	Renewable Energy	$925,000
3.00	Water Conservation	$0
4.00	Building Envelope	$0
5.00	HE Transformers	$0
6.00	Utility Management	$0
7.00	GCCC Solar Carport Repairs	$0
8.00	Roof Replacement	$200,000
Total		$1,125,000

6.4 Estimated Incentives | Rebates

Utility providers often provide incentives to customers who implement select efficiency improvements to their facilities. Yearout Energy will coordinate with utility providers and submit required documentation during the implementation period. Utility rebates are estimated and subject to availability and final award by the utility provider. Rebates are not guaranteed by Yearout Energy, as these programs are at the discretion of the utility company. All awarded rebates will be paid directly to the Agency by the utility provider.

The proposed scope of work for this project is anticipated to provide the Agency the following estimated rebates per FIM.

Table 140: Estimated Utility Rebates

FIM No.	FIM Name	Estimated Utility Rebate
1.00	LED Lighting	$192,032
2.00	Renewable Energy	$0
3.00	Water Conservation	$21,450
4.00	Building Envelope	$0
5.00	HE Transformers	$7,766
6.00	Utility Management	$1,516
7.00	GCCC Solar Carport Repairs	$7,628
8.00	Roof Replacement	$0
Total		$230,392

6.5 Escalation Rates

The proposed utility escalation rates were determined using the Energy Escalation Rate Calculator (EERC), a tool developed by the National Institute for Standards and Technology (NIST), which computes an average rate of escalation for a specified time period, which can be used as an escalation rate for contract payments in Guaranteed Energy Savings Performance Contracts (GESPC). The calculator prompts the user for information on project location, fuel usage, industry sector, and the beginning and end dates of the performance period. A description of these inputs is provided below.

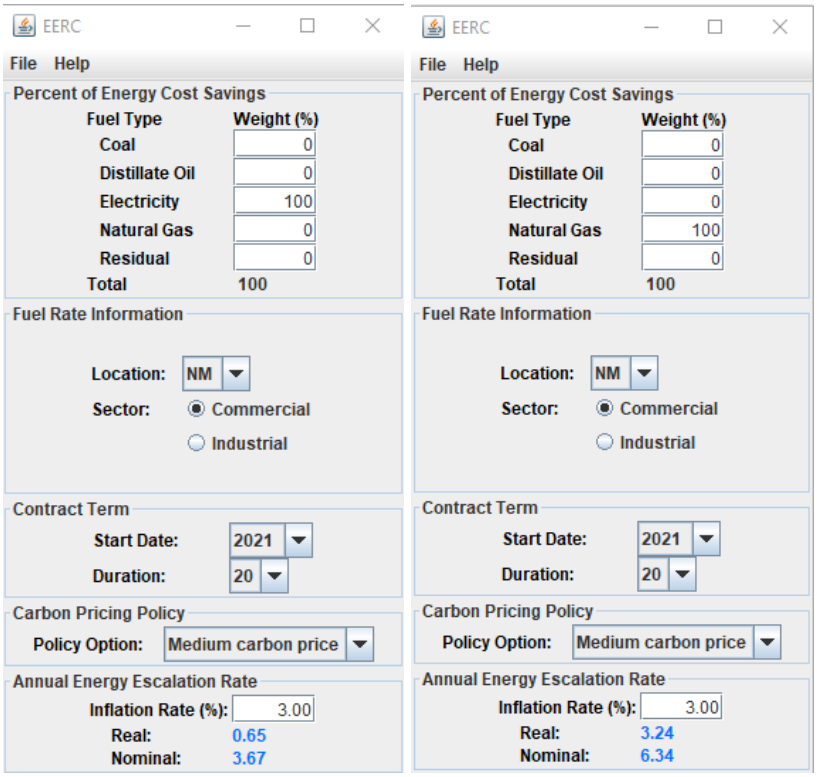

Figure 78: Energy Escalation Rate Calculator

The results of this EERC analysis generated a nominal annual escalation rate of 3.67% for electricity and 6.34% for natural gas, both of which are higher than the escalation rates applied in the project financial analysis. The annual escalation rates applied to this project are 3.60% for electricity and 4.00% for natural gas as depicted in the preliminary project financial analysis herein.

Percent of Energy Cost Savings: Percentage of energy cost savings in dollars that is attributable to one or more of the fuel types used in the project. This input is used to weight the escalation rate.

Location: Selection of the state in which the project is located allows the program to select the energy price escalation rates for the corresponding Census Region.

Sector: Selection of commercial or industrial sector determines the type of utility rate schedule applied to the energy cost calculation.

Performance Period Start Date: Date when energy savings start to accrue, which is usually after project acceptance at the beginning of the performance period.

Performance Period Duration: Number of years of the performance period for which the average escalation rate will be calculated.

Carbon Pricing Policy: Medium Carbon Price. Assumes the most recent climate change bill (American Clean Energy and Security Act of 2009: H.R. 2454) is enacted as is with no restrictions on offsets or generating capacity installation. Assumes that all states decrease electricity emissions at the national average rate for this policy option

Inflation Rate: The sustained increase in the general price level of goods and services in an economy over a period of time.

Real and Nominal Escalation Rates: The output of the program is the calculated average escalation rate, stated both in real terms (excluding the rate of inflation) and in nominal terms (including the rate of inflation).

The following annual escalation rates have been factored into the project's economic analysis.

Table 141: Annual Escalation Rates

Category	Escalation Rate
Electricity	3.600% / Year
Natural Gas	4.000% / Year
Water & Sewer	3.000% / Year
Operations & Maintenance	3.000% / Year

6.6 GESPC Project Budget Summary

The table below depicts the proposed GESPC Project open-book budget summary.

Table 142: GESPC Project Budget Summary

Investment Grade Audit (IGA)	Area	$/SF	$
Investment Grade Audit (IGA) Cost	598,000 SF	$0.175/SF	$104,650
		IGA Subtotal	$104,650
Implementation Cost		% of Implem. Cost	$
Pre-Construction Costs			
Design and Other Engineering		2.25%	$279,734
Pre-Construction Services		2.65%	$329,737
Other Pre-Construction Costs		1.54%	$191,405
		Pre-Construction Subtotal	$800,876
Construction Costs			
Trade Subcontracts		2.35%	$292,819
Design/Build Subcontracts		79.37%	$9,886,777
Direct Purchase Equipment		1.17%	$145,270
Construction Management		2.78%	$346,196
Project Engineering		0.75%	$93,582
General Conditions		1.91%	$238,266
Construction Completion		1.41%	$175,283
Other Construction Costs		3.83%	$477,690
		Construction Subtotal	$11,655,884
		Implementation Subtotal	$12,456,760
Profit | Contingency		%	$
Profit		10.00%	$1,256,141
Contingency		2.25%	$282,632
		Profit | Contingency Subtotal	$1,538,773
Total Funded Amount (Before Taxes and State Fees)			$14,100,183
Other Project Cost		%	$
State Review Fees		1.00%	$141,002
Gross Receipts Tax		8.4375%	$1,201,600
		Other Project Cost Subtotal	$1,342,602
Total Funded Amount			$15,442,785

The following table provides a description of each cost category from the Budget Summary above:

Table 143: Description of Project Cost Categories

Investment Grade Audit	Description
Investment Grade Audit Fee	The IGA fee is based on the number of facilities and gross square footage included in the project.
Pre-Construction Costs	**Description**
Design and Other Engineering	All professional architectural and engineering costs required to design and specify the project scope of work, including engineering design, architectural design, additional energy engineering not included in IGA, engineering oversight and direction, code review.
Pre-Construction Services	Activities required prior to commencing construction, including safety planning, additional bid solicitation, design review, submittal review, construction management planning, constructability reviews, coordination of utility incentives, scheduling, procurement planning and other direct costs associated with presenting the best information to the Agency.
Other Pre-Construction Costs	Site visits and Owner meetings are necessary before construction to ensure designs and equipment meet customer needs and align with project objectives. Other Pre-construction Costs may include but are not limited to administrative support, legal review, accounting services, printing, copying, binding, office supplies, business travel, business meals and supervision of project development staff.
Construction Fees	**Description**
Trade Subcontractors	Subcontractors mutually selected by Yearout Energy and the Agency as the result of a competitive RFP process. Such subcontractors may include lighting contractors, sheet metal contractors, piping contractors, electricians, plumbers, carpenters, controls contractors, and other trade contractors as necessary to complete the project scope of work.
Design-Build Subcontractors	Design-Build subcontractors are design and construction contractors that are engaged during the Investment Grade Audit to assist in the development and design of the project scope of work. Design-Build subcontractors act as their own design agent and finalize the design of the work product to be installed with oversight and direction provided by Yearout Energy. Such subcontractors include lighting contractors that perform the audit and design; mechanical contractors that coordinate all of their own electrical, sheet metal work, piping, and other support work; specialty contractors like pool cover vendors, and other specialty contractors necessary to complete the Work, are included in this category.
Direct Purchase Equipment	Direct purchases for equipment, materials, and supplies made by Yearout Energy.

Construction Management	Oversight and coordination of all work (direct and subcontractors) including construction management, site supervision, safety, quality control, scheduling, budget management, contract administration, submittals, and other construction-related items).
Project Engineering	Engineering & design support during the project implementation phase. Periodic inspections of work and supporting the construction manager with an engineering analysis of required field modifications.
General Conditions	Miscellaneous project implementation costs, including job trailer, trailer office equipment, temporary utilities, permanent utility connection fees, barriers/security fencing, scaffolding, equipment rental, site guards, cleaning and trash and recycling dumpsters, lifts, and other direct project costs.

Construction Completion	Description
Commissioning	At the completion of the construction, Yearout Energy shall perform pre-functional and post-functional tests of all installed measures to ensure proper operation. This intensive quality assurance process ensures all systems and components installed as part of the GESPC project are operating as intended to achieve the desired performance and guaranteed savings.
Construction Measurement & Verification (M&V)	At the completion of construction, Yearout Energy shall perform the measurement and verification (M&V) of installed equipment to verify post-retrofit energy efficiency and operation. These activities include: establishing trends and deploying long-term data loggers, reviewing as-built documentation and updating savings calculations, accordingly, performing post-installation M&V activities defined in performance assurance plan, generating and delivering the post-installation M&V report, and other M&V activities. This effort is necessary to ensure systems will meet the guaranteed energy savings and commence the performance assurance phase.
O&M Manuals	At the completion of construction, Yearout Energy shall provide complete Operation and Maintenance (O&M) Manuals to the Agency for reference.
Training	The process of ensuring that facility staff have been properly trained to operate and maintain the new systems and components installed as part of the GESPC project.

Other Construction Costs	Description
Permits	Construction is performed in various jurisdictions requiring compliance with jurisdictional codes. Yearout Energy must pay each jurisdiction to review design drawings and render decisions on designs meeting code. In addition, Yearout Energy must apply for and receive any necessary construction permits based on designs and/or code review. This line item includes all costs associated with paying code reviewers, application fees and inspections fees for such permits.
Insurance	Yearout Energy is required to possess various levels of Builder's Risk Insurance, Automobile Liability Insurance, Professional Liability Insurance, and other General Liability Umbrella policies. This line item shall include an average amount of insurance that would be attributed to the project scope of work.
Performance & Payment Bonds	A surety bond issued to guarantee satisfactory completion of the project delivered by Yearout Energy to the Agency. The P&P Bond cost ranges from 0.8% to 1.2% based on the total project amount and construction period duration. A premium is often applied if the construction period extends beyond 24 months.
Warranty Labor	The costs associated with supporting and coordinating equipment warranties during the first year following substantial completion.

Profit | Contingency	Description
Profit	The compensation to Yearout Energy for the assumption of the risk and delivery of the GESPC Project.
Contingency	A special monetary provision used to cover uncertainties or unforeseeable elements of cost during project implementation. Any unused contingency will be applied towards additional scope as approved by the customer.

Annual Costs	Description
Measurement & Verification (M&V)	The process for quantifying the savings delivered by the various measures included in the GESPC project following IPMVP guidelines. Actual costs for this item are highly dependent upon the final measures installed and M&V options selected.
Maintenance	This is an optional item that is at the Agency's discretion to include. The inclusion of this item is encouraged for Owners that do not have the in-house capabilities to maintain the equipment after installation.

6.7 FIM Summary

The determination of appropriate FIM's for implementation is the result of an iterative process with input from the Agency, engineering best practices, and economic analysis. Infrastructure capital improvement measures are not driven simply by utility savings or return on investment, but rather by the necessity to keep the facility operational. This project includes both capital improvement and energy conservation type measures which are blended into a bundled solution that achieves the Agency's operational and financial objectives.

Table 144: Recommended FIMs Summary

FIM No.	FIM Name	Year 1 Annual Utility Savings	Year 1 Annual O&M Savings	Year 1 Total Annual Savings	Labor, Equip & Material Costs	Estimated Utility Rebate	Net Cost
1.00	LED Lighting	$217,056	$21,761	$238,818	$2,222,158	$192,032	$2,030,126
2.00	Renewable Energy	$473,609	$0	$473,609	$7,167,913	$0	$7,167,913
3.00	Water Conservation	$14,404	$1,135	$15,539	$173,807	$21,450	$152,357
4.00	Building Envelope	$10,477	$1,572	$12,048	$206,170	$0	$206,170
5.00	HE Transformers	$9,567	$1,435	$11,002	$199,171	$7,766	$191,405
6.00	Utility Management	$1,821	$0	$1,821	$0	$1,516	($1,516)
7.00	GCCC Solar Carport Repairs	$25,204	$0	$25,204	$155,730	$7,628	$148,102
8.00	Roof Replacement	$0	$1,740	$1,740	$199,918	$0	$199,918
Total		$752,137	$27,643	$779,780	$10,324,867	$230,392	$10,094,474

Investment Grade Audit	$104,650
Pre-Construction Cost	$800,876
Construction Cost (Includes FIM Labor, Equipment and Materials Cost)	$11,655,884
Profit	$1,256,141
Contingency	$282,632
Total Funded Amount (Before Taxes and State Fees)	$14,100,183
State Review Fee	$141,002
Gross Receipts Tax	$1,201,600
Total Funded Amount	$15,442,785

*Simple Payback Years = Net (Hard) Cost / Year 1 Total Annual Savings
Net Cost = Labor, Equip & Material Costs (Hard Cost) - Estimated Utility Rebate
Year 1 Total Annual Savings = Year 1 Annual Utility Savings + Year 1 Annual O&M Savings

6.8 Preliminary Project Financial Analysis

General Inputs	
Length of Analysis	25 Years
Turn-Key Project Cost	$15,442,785
Up-Front Capital Contribution	$1,125,000
Other Grants & Incentives	$0
Utility Rebate	$230,392
Capitalized Interest (16 Month Construction Period)	$3,340
Cost of Issuance	$189,614
Net Financed Amount	$14,280,347
Type of Amortization	Savings
Finance Term	18 Years
Annual Interest Rate	2.250%
Measurement & Verification	
Year 1 M&V Fee	$68,632
M&V Duration	3 Years
Annual Maintenance	
Year 1 Maintenance Fee	$16,571
On-Going Maintenance Duration	25 Years

YEAROUT ENERGY IS NOT A FINANCIAL ADVISOR, IS NOT REGISTERED WITH THE SEC AS A FINANCIAL ADVISOR AND CANNOT GIVE ADVICE WITH RESPECT TO SECURITIES OR FINANCIAL PRODUCTS. THE INFORMATION PROVIDED IS FOR EDUCATIONAL PURPOSES ABOUT POSSIBLE FINANCING OPTIONS, OR UNDER THE ENGINEER CARVE OUT OF THE WALL STREET REFORM AND CONSUMER PROTECTION ACT (2010), AND IS NOT THE PROVISION OF ADVICE, OR A RECOMMENDATION TO PURSUE, ANY PARTICULAR FINANCING OPTION. CONSULT WITH YOUR FINANCIAL ADVISOR ABOUT THE FINANCING OPTION APPROPRIATE FOR YOUR SITUATION. YEAROUT ENERGY SERVICES CAN PROVIDE INFORMATION TO YOUR FINANCIAL ADVISOR ABOUT THE HYPOTHETICAL ASSUMPTIONS AND EDUCATIONAL SCENARIOS USED IN THESE MATERIALS.

7.0 Environmental Impact

More efficient use of resources at your facility can result in both direct and indirect reductions in Greenhouse Gas (GHG) emissions and water consumption due to a concept known as the Water-Energy Nexus.

With the scope and conservation measures previously detailed in this report, COSF will reduce their direct energy (electricity and natural gas) and water consumption by 7,255,538 kWh/year, 28,486 therms/year and 2,007 kgal/year, respectively. Table 145 demonstrates the annual reduction in GHG emissions directly linked to these savings.

Table 145: GHG emissions reduction and equivalents

Utility Type	Annual Savings	lbs. CO_2	Metric Tonnes CO_2
Electricity	7,255,538 kWh	6,383,945	2,895.71
Natural Gas	28,486 Therm	333,486	151.27
Water	2,007,380 gal	24,851	11.27
Total	----------	6,742,281	3,058

In order to better understand the reduction in emissions, Table 146 presents the equivalencies.

Table 146: Emissions Reduction and Equivalencies, Annual

588	Number of Vehicles Removed from Roads (Avg Size); or
3,977,946	Number of Miles Not Driven (Avg Size); or
84,279	Number of 75-Watt Light bulbs Not Energized; or
295	Number of Avg Sized Houses Removed from Power Grid; or
836	Acres of Trees Planted; or
3,150,599	Pounds of Coal Not Burned

In addition, because water is used in electricity generation, there are significant indirect water savings from the reduced energy demand.

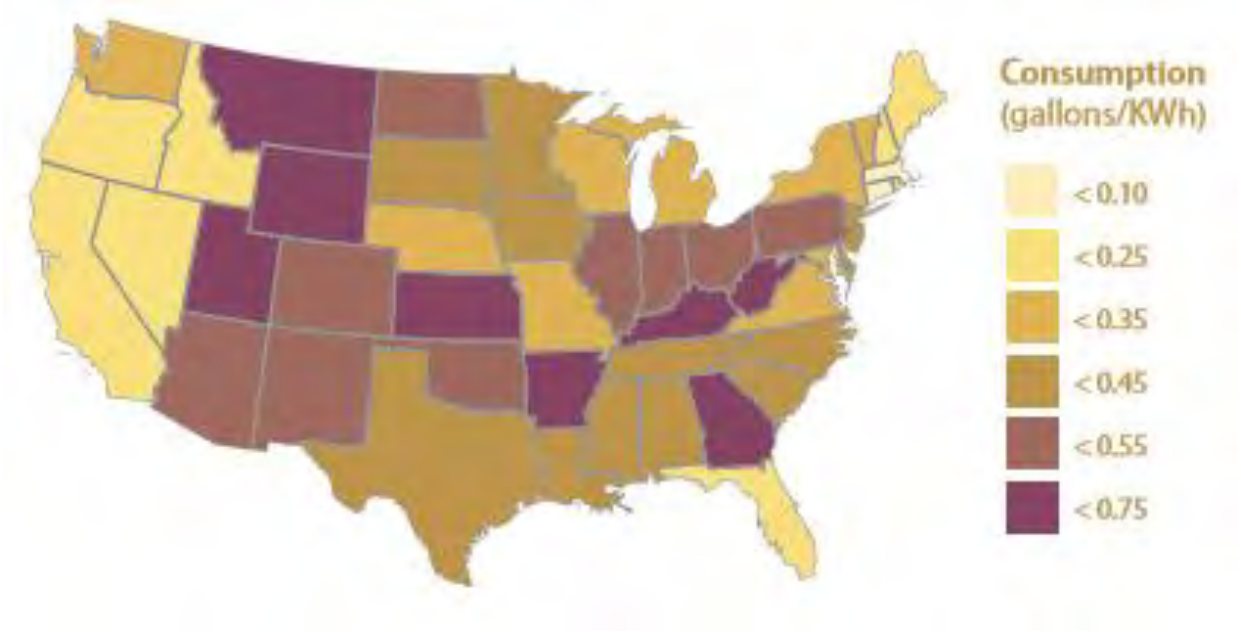

Figure 79: Freshwater use for Electricity Generation[2]

Figure 79 shows that the New Mexico electricity production is more water intensive than a majority of states in the U.S. Based on the value of 0.45 gallons/kWh, the COSF will save an additional 3,264,992 gallons of water indirectly, annually, on top of the direct water savings from the implementation of the water conservation measures.

Table 147: Water Reduction and Equivalencies, Annual

3,264,992	Indirect Gallons Saved from reduced energy consumption
2,007,380	Direct Gallons Saved from implementation of water conservation measures
5,272,372	Total Gallons saved, Annual; or
8.0	Olympic Swimming Pools; or
53.1	Average NM Households' Consumption

November.

8.0 Customer Awareness

It is essential that the City of Santa Fe (COSF) is fully informed and engaged in the GESPC process to ensure a successful project outcome. The table below outlines the key elements from past experience and the proposed project scope that the COSF should carefully review and understand.

Table 148: Customer Awareness

The IGA Report should be distributed to all staff and other stakeholders that may be responsible for implementing and/or maintaining the key elements of the project scope of work and associated utility and operational savings.
Proposed utility baselines detailed herein.
Proposed escalation rates detailed herein.
Existing operating hours, set points, sequences of operation, and other inputs outlined throughout this report used to establish the baseline operation of each facility are accurate.
Agency understands how the proposed scope of work may impact building occupants.
Agency's responsibility to properly maintain the equipment installed per the manufacturer's and Yearout Energy's recommendations.
Agency's responsibility for ongoing maintenance and commissioning of systems to ensure savings are sustained throughout the performance period.
A full-building interruption to electrical service may be required at a select building undergoing electrical service upgrades and solar interconnection.
Agency will provide Yearout Energy with wired and wireless network connections were required to implement the proposed scope of work including at solar PV sites.
The solar PV carport system designed for the airport was based on initial drawings by Molzen-Corbin. Any changes to these drawings may impact the design of the Solar Carport.

Carefully review the proposed M&V Plan and approach for how guaranteed savings will be evaluated.

Utility rebates are estimated, and the final awarded incentive amount is not guaranteed by Yearout Energy, as these programs are at the discretion of the utility company. All incentives will be paid directly to the Agency from the utility provider.

The electric utility provider, PNM, must review and approve all solar PV interconnection applications prior to Yearout Energy executing the proposed scope of work. The duration and result of this approval process from the utility provider may have an impact on the project schedule, scope, cost, and savings. Yearout Energy will coordinate any required changed with the COSF to amend the project scope and contract where necessary following this pre-construction phase activity.

Land acquisition must be approved where solar PV systems are proposed and the COSF is not the current landowner. The duration and result of this approval process from the current landowners may have an impact on the project schedule, scope, cost, and savings. Yearout Energy will coordinate any required changed with the COSF to amend the project scope and contract where necessary following this pre-construction phase activity.

The Federal Aviation Administration (FAA) must review and approve the solar PV systems proposed at the Santa Fe Regional Airport. The duration and result of this approval process may have an impact on the project schedule, scope, cost, and savings. Yearout Energy will coordinate any required changed with the COSF to amend the project scope and contract where necessary following this pre-construction phase activity.

Pricing provided is based on conditions at time of document release and does not account for any additional tariffs or increases in material costs which may occur prior to implementation.

Agency will provide Yearout Energy with the following information for the duration of the performance period:

- Grant access to utility information directly from providers
- Grant access to utility provider web portals where available
- Copies of monthly utility bills (Provided to Yearout Energy electronically)
- Completed Maintenance Checklists (Provided to Yearout Energy electronically)

Agency agrees to immediately notify Yearout Energy of any of the following:

- Changes to the facility or individual space operating hours,
- Additions / Remodels to the facility,
- Changes to how individual spaces are utilized,
- Changes to facility equipment,
- Changes to set points, schedules, and sequence of operation,
- Issues with facility equipment; and
- All other items that may affect the energy performance of the facility.

The Agency will remedy any existing code violations that are outside the project scope discovered during the project implementation phase.

Throughout the IGA process, Yearout Energy has been unable to verify if any hazardous materials are present in the areas affected by the proposed scope of work. The Agency accepts responsibility for identifying and removing any hazardous material within the affected areas prior to the installation of the project scope.

FISCAL IMPACT REPORT

General Information:

(Check) Bill: X Resolution: _____

Short Title: **Yearout Energy Services Company Energy Savings Contract**

Sponsor(s): Mayor Alan Webber, Councilors Lindell and Rivera

Reviewing Department(s): Public Works, Finance

Staff Completing FIR: Bradley Fluetsch, CFA Date: 1/15/2021 Phone: 955-6885

Reviewed by City Attorney: _____ Date: Jan 22, 2021

Reviewed by Finance Director: _____ Date: Feb 2, 2021

Summary:
This Ordinance accepts the investment-grade energy audit and approves the energy savings performance contract with Yearout Energy Services Company, LLC which improves a number of the City's facilities energy consumption and adds 2.75 megawatts of solar production capacity. This project is funded by the $925,000 Legislative appropriation with the remaining funded in a separate financing transaction, subject to approval by the governing body, where the City would pledge energy savings to finance the lease purchase contract.

Departments Affected:
Public Works, Finance

Consequences of Not Enacting Legislation:
The City would not create 2.75 megawatts of solar power and would not achieve the goals set forth in the Sustainable Santa Fe Plan or fulfill the language of the legislative appropriation. The City would not take this key step in the Governing Body's goal of achieving carbon neutrality by 2040. The City would not reduce carbon emissions that would be the equivalent of taking 687 homes off the grid or reducing driving by nearly 4 million miles annually.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This legislation has two companion pieces of legislation, an Ordinance approving the Global Management Performance contract with Dalkia Energy Solutions, LLC for upgrades to the City's streetlights and an ordinance authorizing the execution of a lease-purchase agreement between the City and a "TBD" counter-party to finance both projects.

Performance and Administrative Implications:
There is an energy savings performance contract that will be measured and monitored for compliance with the contract by Yearout. It will determined annually if the energy savings were achieved or a claim against the guarantee would need to be made. During the budget each year, the annual expected savings will be budgeted in the special revenue fund for energy savings debt service with the actual savings recorded monthly. An administrative process will be developed and reporting structure for the proper accounting of the energy savings. The Finance Department will develop the accounting process to fund the special revenue fund and allocate the debt service.

Fiscal Implications:
The likely case is that the City will save enough annually to fund the debt service of the capital expense, if not, Yearout will honor the energy savings contract and make up the difference.

Fiscal Impact:
The fiscal impact of the proposed capital improvements are guaranteed by Yearout Energy Solutions Company, LLC for the term of the lease, therefore the fiscal impact to the City is negligible. The true impact comes in achieving the Governing Body's goal of carbon neutrality and the reduction in the City of Santa Fe's carbon emissions.

Comment - 02/24/2021 08:49 AM: (Against)
About the protecting of our night sky, I believe the City should keep lighting for main street and neighborhood street lamps at 3,000K. The Audobon Society, American Medical Association, and other groups have suggestions that lighting above 4,000K is detrimental to animals and humans. Santa Fe has prided itself on being a town that wants to preserve his history. We should want to preserve the view of our stars as Tucson and Flagstaff are doing. We don't need garish bright blue-green lights on our streets.

AN ABSTRACT OF PROCEEDINGS

STATE OF NEW MEXICO)

COUNTY OF SANTA FE) ss.

CITY OF SANTA FE)

The Governing Body (the "Governing Body") of the City of Santa Fe (the "City") in the County of Santa Fe, State of New Mexico, met in regular session in full conformity with law and ordinances and rules of the City, at City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico, being the regular meeting place of the Governing Body, at the hour of 5:00 p.m., on Wednesday, the ____day of February, 2021.

Upon roll call the following were found to be present, constituting a quorum of the Governing Body:

PRESENT: Mayor: _____

Councilor: _____

CONSIDERATION OF BILL NO. 2021-4

ADOPTION OF ORDINANCE NO. 2021-____

Approval of Lease Purchase Agreement with Sterling National Bank, as Lessor

CITY OF SANTA FE, NEW MEXICO

ORDINANCE NO. 2021-4

INTRODUCED BY:

Mayor Alan Webber

AN ORDINANCE

AUTHORIZING THE EXECUTION AND DELIVERY OF A LEASE-PURCHASE AGREEMENT BY AND BETWEEN THE CITY OF SANTA FE, NEW MEXICO (THE "CITY") AND STERLING NATIONAL BANK (THE "LESSOR"), EVIDENCING A SPECIAL, LIMITED OBLIGATION OF THE CITY TO PAY AN AMOUNT OF UP TO $20,000,000, TOGETHER WITH INTEREST THEREON, FOR THE PURPOSE OF ACQUIRING, INSTALLING, AND EQUIPPING ENERGY EFFICIENCY MEASURES THROUGHOUT THE CITY; PROVIDING FOR THE PLEDGE AND PAYMENT OF THE AMOUNTS DUE UNDER THE LEASE-PURCHASE AGREEMENT SOLELY FROM THE UTILITY COST AND WATER CONSERVATION SAVINGS AND PAYMENTS RECEIVED BY THE CITY PURSUANT TO (1) THE ENERGY PERFORMANCE CONTRACT BY AND BETWEEN THE CITY AND YEAROUT ENERGY SERVICES COMPANY, LLC, AND (2) THE GLOBAL MANAGEMENT PERFORMANCE CONTRACT BY AND BETWEEN THE CITY AND DALKIA ENERGY SOLUTIONS, LLC; PROVIDING THAT CERTAIN TERMS OF THE LEASE-PURCHASE AGREEMENT WILL BE ESTABLISHED IN A PRICING CERTIFICATE TO BE

EXECUTED AND DELIVERED AS AUTHORIZED PURSUANT TO SECTION 6-14-10.2 NMSA 1978; RATIFYING ACTIONS HERETOFORE TAKEN; REPEALING ALL ACTION INCONSISTENT WITH THIS ORDINANCE; AND AUTHORIZING THE TAKING OF OTHER ACTIONS IN CONNECTION WITH THE EXECUTION AND DELIVERY OF THE LEASE-PURCHASE AGREEMENT.

Capitalized terms used in the following preambles have the same meaning as set forth in Section 1 of this Ordinance unless the context requires otherwise.

WHEREAS, the City of Santa Fe, New Mexico (the "City") is a legally created, established, organized and existing incorporated charter municipality with home-rule powers under the constitution and laws of the State of New Mexico; and

WHEREAS, the City has authorized the execution and delivery of (1) an Energy Savings Performance Contract with Yearout Energy Services Company, LLC, a New Mexico limited liability company (the "Yearout Agreement") for the installation, implementation, monitoring and maintenance of energy savings measures and water conservation measures throughout City owned facilities (the "Yearout Project Component"); and (2) a Global Management Performance Contract by and between the City and Dalkia Energy Solutions, LLC, a Massachusetts limited liability company ("the Dalkia Agreement") for the installation, implementation and maintenance of street light LED upgrades to street light improvements owned and operated by the City (the "Dalkia Project Component"); and

WHEREAS, the execution and delivery of the Yearout Agreement and the Dalkia Agreement (collectively, the "Energy Savings Agreements") is subject to the condition that a financing transaction be authorized and completed to finance the aggregate contract prices of the Energy Savings Agreements and the Costs of Issuance; and

WHEREAS, the Governing Body has determined and hereby determines that the Yearout Project Component and the Dalkia Project Component (each a "Project Component" and

collectively, the "Energy Savings Project") may be financed by and completed by entering into the Lease-Purchase Agreement, a copy of which has been presented to the City Council in connection with its consideration of this Ordinance, and that it is in the best interest of the City and its residents that the Lease-Purchase Agreement be executed and delivered, and that the financing occur by executing and delivering the Lease-Purchase Agreement; and

WHEREAS, the energy cost savings and water conservation-related cost savings derived from each Project Component exceed the cost of implementing that Project Component, and collectively, the aggregate cost of the Energy Savings Project, and constitute the net revenues of the Energy Savings Project; and

WHEREAS, the Energy Savings Project is a "revenue producing project" within the meaning of the Act; and

WHEREAS, the City may pledge the energy cost savings and water conservation-related cost savings derived from the Energy Savings Project (the "Pledged Revenues"), which constitute a special fund; and

WHEREAS, the City may lawfully pledge the Pledged Revenues for the payment of amounts due pursuant to the Lease-Purchase Agreement; and

WHEREAS, the Pledged Revenues have not heretofore been pledged to secure the payment of any obligation which is currently outstanding; and

WHEREAS, the Lease-Purchase Agreement shall be a special, limited obligation of the City, payable solely from the Pledged Revenues and shall not constitute a general obligation of the City, or a debt or pledge of the full faith and credit of the City or the State; and

WHEREAS, the Lease-Purchase Agreement shall be executed and delivered pursuant to the Act, with an irrevocable first lien, but not necessarily an exclusive first lien, on the Pledged Revenues; and

WHEREAS, the Governing Body intends by this Ordinance to authorize the execution and

delivery of the Lease-Purchase Agreement for the purposes set forth therein; and

WHEREAS, the Governing Body expects to receive an offer from the Lessor to enter into the Lease-Purchase Agreement, as approved pursuant to the terms of the Pricing Certificate; and

WHEREAS, the Governing Body hereby determines that the Energy Savings Project to be financed with the Lease-Purchase Agreement is to be used for governmental purposes of the City and will not be used for purposes which would cause the Lease-Purchase Agreement to be deemed a "private activity bond" as defined by the Internal Revenue Code of 1986, as amended; and

WHEREAS, all required authorizations, consents and approvals in connection with (i) the use and pledge of the Pledged Revenues to the Lessor (or its assigns) for the payment of amounts due under the Lease-Purchase Agreement, (ii) the financing of the Energy Savings Project pursuant to the Lease-Purchase Agreement and the Energy Savings Agreements, and (iii) the authorization, execution and delivery of the Lease-Purchase Agreement, the Energy Savings Agreements, and the Escrow Agreement (if determined in the Pricing Certificate to be necessary), which are required to have been obtained by the date of this Ordinance, have been obtained or are reasonably expected to be obtained.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE, NEW MEXICO:

Section 1. **Definitions.** The terms in this section are defined for all purposes of this Ordinance and of any ordinance amendatory hereof or supplemental hereto, or relating hereto, and of any instrument or document appertaining hereto, except where the context by clear implication herein otherwise requires, shall have the following meanings:

"Act" means the general laws of the State, including the home-rule charter of the City, Sections 3-1-2 and 3-31-1 through 3-31-12 NMSA 1978, as amended, and enactments of the Governing Body relating to the Lease-Purchase Agreement, including this Ordinance.

"Authorized Officer" means the following officers of the City: Mayor, City Manager, City Finance Director, or other officer of the City when designated by a certificate signed by the Mayor of the City from time to time, a certified copy of which shall be delivered to the Paying Agent.

"Bond Counsel" means an attorney or firm of attorneys nationally recognized for expertise in the area of municipal bonds and the exemption of interest on municipal bonds from federal income taxation.

"City," "Municipal," or "Municipality" means the municipal corporation and body corporate and politic known as the City of Santa Fe, Santa Fe County, New Mexico.

"Closing Date" means the date of execution, delivery and funding of the Lease-Purchase Agreement.

"Code" means the Internal Revenue Code of 1986, as amended, and the applicable regulations thereunder.

"Conservation Measures" mean, collectively or individually, as the context may require, the energy savings equipment and improvements of which the Energy Savings Project is comprised.

"Costs of Issuance" means all costs relating to the execution and delivery of the of the Lease-Purchase Agreement and the Energy Savings Agreements, including, without limitation, costs of advertising and publication, costs of fees and expenses of the City's municipal advisor, Bond Counsel, the Paying Agent, and other reasonable and necessary fees and costs, including applicable gross receipts taxes, related to the execution and delivery of the Lease-Purchase Agreement and the Energy Savings Agreements.

"Dalkia Agreement" means the Global Management Performance Contract by and between the City and Dalkia Energy Solutions, a Massachusetts limited liability company, for implementation of the Dalkia Project Component.

"Dalkia Project Component" means the installation, implementation, monitoring, and maintenance of upgrades to street light improvements leased to, and operated by, the City by Public

Service Company of New Mexico.

"Energy Savings Agreements" means, collectively, the Yearout Agreement and the Dalkia Agreement.

"Energy Savings Project" means, collectively, the Yearout Project Component and the Dalkia Project Component.

"Escrow Agreement" means, if required by the Lessor, the escrow agreement relating to the Energy Savings Project among the City, the Lessor and the Escrow Agent, into which the proceeds received by the City pursuant to the Lease-Purchase Agreement shall be deposited for payment of Energy Savings Project costs.

"Escrow Fund" means, if required by the Lessor, the "City of Santa Fe, New Mexico 2021 Lease-Purchase Agreement Escrow Fund" created by Section 8 hereof.

"Governing Body" means the members of the governing body designated as councilors who, together with the mayor, are the governing body of the City.

"Herein," "hereby," "hereunder," "hereof," "hereinabove" and "hereafter" refer to the entire Ordinance and not solely to the particular section or paragraph of the Ordinance in which such word is used.

"Lease-Purchase Agreement" means the Lease-Purchase Agreement dated the Closing Date between the Lessor and the City which provides for the financing of the Energy Savings Project and requires payments by or on behalf of the City to the Lessor, and any amendments or supplements thereto, and including the exhibits attached to the Lease-Purchase Agreement.

"Lease-Purchase Transaction" means the financing of the Energy Savings Project through the execution and delivery of the Lease-Purchase Agreement and the Related Documents.

"Lessor" means Sterling National Bank in connection with the Lease-Purchase Agreement.

"NMSA 1978" means the New Mexico Statutes Annotated, 1978 compilation, as amended and supplemented.

"Ordinance" means this City Ordinance as amended or supplemented from time to time.

"Paying Agent" means BOKF, NA, Albuquerque, New Mexico.

"Placement Agent" means D.A. Davidson & Co., Kansas City, Missouri.

"Placement Agent Agreement" means the professional services agreement by and between the City and the Placement Agent for the placement of the Financing Transaction with the Lessor.

"Pledged Energy Cost Savings Revenues" or "Pledged Revenues" means amounts generated by Utility Cost Savings pursuant to the Energy Savings Agreements, which constitute net revenues of the Energy Savings Project, which shall be deposited monthly to the Pledged Revenue Fund as provided in Section 8 of this Ordinance.

"Pledged Energy Cost Savings Revenue Fund" or "Pledged Revenue Fund" means the fund created pursuant to Section 8 of this Ordinance.

"Pricing Certificate" means the certificate executed and delivered by the any of the Mayor, City Manager or Finance Director of the City subsequent to the date of this Ordinance which shall specify the exact principal amount of the Lease-Purchase Agreement, the rental payment dates, the amounts payable on each rental payment date, the interest rate, and the prepayment features applicable to the Lease-Purchase Agreement and which shall approve the final forms of the Lease-Purchase Agreement, the Escrow Agreement (if applicable), Energy Savings Agreements, and other documents and which may contain such other terms and provisions as set forth in the Pricing Certificate; provided that in no event shall the Pricing Certificate specify a principal amount of the Lease-Purchase Agreement in excess of $20,000,000 or a net effective interest rate on the Lease-Purchase Agreement in excess of the statutory maximum of twelve percent (12%) per annum.

"Project Component" or "Project Components" means, as the context requires, each or all of the Yearout Project Component and the Dalkia Project Component.

"Related Documents" means, as applicable, the Escrow Agreement, account control agreement, closing documents, including, without limitation, a tax compliance certificate, and any

other document or agreement containing a representation, certification or obligation of the City as may be required by the Lessor or otherwise in connection with the Lease-Purchase Agreement pursuant to the Lease-Purchase Financing.

"Rental Payment Fund" means the "City of Santa Fe, New Mexico 2021 Lease-Purchase Agreement Rental Payment Fund" created by Section 8 hereof.

"State" means the State of New Mexico.

"Utility Cost Savings" means the amounts saved by the City in the purchase of electricity or water that are a direct result of the Conservation Measures.

"Yearout Agreement" means the Energy Savings Performance Contract with Yearout Energy Services Company, LLC for implementation of the Yearout Project Component.

"Yearout Project Component" means the installation, implementation, monitoring and maintenance of energy savings measures and water conservation measures throughout City owned facilities.

Section 2. Ratification of Prior Action. All action heretofore taken (not inconsistent with the express provisions of this Ordinance) by the Governing Body and officers of the City directed toward the Energy Savings Agreements, the Energy Savings Project, the Lease-Purchase Agreement, including, without limitation, the publication of a notice of public meeting and intent to adopt this Ordinance authorizing the execution and delivery of the Lease-Purchase Agreement, and the engagement of D.A Davidson as Placement Agent pursuant to the Placement Agent Agreement, and the same hereby is ratified, approved and confirmed, notwithstanding any inconsistent prior action.

Section 3. Authorization of the Lease-Purchase Transaction. The Energy Savings Project and the financing of the Energy Savings Project through the Lease-Purchase Transaction are hereby approved, the final terms of which shall be as provided in the Pricing Certificate. The Lease-Purchase Agreement, in substantially the form presented to the Governing Body in

connection with this Ordinance, is hereby approved. The Mayor, or in the Mayor's absence, the Mayor *Pro Tem*, is hereby authorized to execute and deliver the Lease-Purchase Agreement, as modified by the Pricing Certificate. The Lease-Purchase Agreement shall be attested by the City Clerk or Deputy Clerk.

Section 4. **Findings; Parameters for Lease-Purchase Transaction.** The Governing Body hereby declares that it has considered all relevant information and data and hereby makes the following findings:

A. The Energy Savings Project is needed to meet the needs of the City and its residents and the execution and delivery of the Lease-Purchase Agreement and the Escrow Agreement (if determined to be required for the Lease-Purchase Transaction as set forth in the Pricing Certificate) is necessary and advisable.

B. Moneys available and on hand for the Energy Savings Project from all sources other than the Lease-Purchase Agreement are not sufficient to defray the cost of the Energy Savings Project.

C. The Pledged Revenues may lawfully be pledged to secure the payment of amounts due under the Lease-Purchase Agreement.

D. It is economically feasible to defray, in whole or in part, the costs of the Energy Savings Project by the execution and delivery of the Lease-Purchase Agreement.

E. The Energy Savings Project and the execution and delivery of the Lease-Purchase Agreement pursuant to the Act to provide funds for the financing of the Energy Savings Project are necessary and in the interest of the public health, safety, and welfare of the residents of the City and will result in energy and water conservation savings and other economies for the City.

F. The Energy Savings Project is a revenue-producing project within the meaning of the Act. Implementation of the Energy Savings Project pursuant to the Energy Savings Agreements will generate utility cost savings equal to or greater than the costs of the Energy

Savings Project, including the financing of those costs pursuant to the Lease-Purchase Transaction, and constitute net revenues of the Energy Savings Project within the meaning of the Act. The Conservation Measures are reasonably related to and constitute a substantial part of the Energy Savings Project.

G. The average economic life of the Project Components comprising the Energy Savings Project will be at least 20 years.

H. The Lease-Purchase Agreement shall be within the following parameters:

(i) the net effective interest rate on the Lease-Purchase Agreement shall not exceed twelve percent (12.0%) per annum, which is the maximum rate permitted by State law.

(ii) The maximum term of the Lease-Purchase Agreement shall not exceed 25 years.

(iii) The maximum principal amount of the Lease-Purchase Agreement shall not exceed $20,000,000.

Section 5. Authorization of the Lease-Purchase Transaction.

A. Authorization. This Ordinance has been adopted by the affirmative vote of a three-fourths (3/4) majority of all of the members of the Governing Body. For the purpose of protecting the public health, conserving the property, protecting the general welfare and prosperity of the residents of the City and completing the Energy Savings Project, it is hereby declared necessary that the City, pursuant to the Act, execute and deliver the Lease-Purchase Agreement, evidencing a special, limited obligation of the City to pay an amount of up to $20,000,000, plus interest, and the execution and delivery of the Lease-Purchase Agreement is hereby authorized. The City shall use the proceeds of the Lease-Purchase Agreement to finance the Energy Savings Project and pay Costs of Issuance.

B. Detail. The Lease-Purchase Agreement shall be in form consistent with

this Ordinance, as supplemented by the Pricing Certificate. The Lease-Purchase Agreement shall be in an aggregate principal amount of up to $20,000,000, shall be payable in installments or rent and interest due on the dates set forth in the Pricing Certificate.

Section 6. **Approval of the Lease-Purchase Agreement; Execution and Delivery.** The Mayor or, in the absence of the Mayor, the Mayor *pro tem,* is authorized to execute and delivery the Lease-Purchase Agreement, which shall be attested by the City Clerk or a deputy City Clerk, in substantially the form presented to the Governing Body in its consideration of this Ordinance, with such modifications or revisions as the Mayor, in consultation with the City's municipal advisor and Bond Counsel, determines are necessary or convenient to implement the Energy Savings Project, and the execution and delivery of the Lease-Purchase Agreement by the Mayor, or in the absence of the Mayor, the Mayor *pro tem*, shall be conclusive evidence of the City's approval thereof, as may be modified or revised.

Section 7. **Special Limited Obligations.** The Lease-Purchase Agreement and the Energy Savings Agreements shall be secured by the pledge of the Pledged Energy Cost Savings Revenues as set forth in the Lease-Purchase Agreement and the Energy Savings Agreements, respectively, and shall be payable solely from the Pledged Energy Cost Savings Revenues. The Lease-Purchase Agreement, together with interest thereon and other obligations of the City thereunder, and the Energy Savings Agreements, shall be special, limited obligations of the City, payable solely from the Pledged Energy Cost Savings Revenues as provided in this Ordinance, the Lease-Purchase Agreement and the Energy Savings Agreements and shall not constitute a general obligation of the City or the State, and the holders of the Lease-Purchase Agreement or the Energy Savings Agreements may not look to any general or other fund of the City for payment of the obligations thereunder. Nothing contained in this Ordinance or in the Lease-Purchase Agreement, the Energy Savings Agreements, or any other instruments, shall be construed as obligating the City (except with respect to the application of the Pledged Energy Cost Savings Revenues), as incurring

a pecuniary liability or a charge upon the general credit of the City or against its taxing power, nor shall a breach of any agreement contained in this Ordinance, the Lease-Purchase Agreement, the Energy Savings Agreements or any other instrument impose any pecuniary liability upon the City or any charge upon its general credit or against its taxing power. The Lease-Purchase Agreement and the Energy Savings Agreements shall never constitute an indebtedness of the City within the meaning of any State constitutional provision or statutory limitation and shall never constitute or give rise to a pecuniary liability of the City or a charge against its general credit or taxing power. Nothing herein shall prevent the City from applying other funds of the City legally available therefor to payments required by the Lease-Purchase Agreement or the Energy Savings Agreements, in its sole and absolute discretion.

Section 8. **Creation of Funds and Accounts; Disposition of Proceeds: Completion of the Energy Savings Project.**

A. Rental Payment Fund, Escrow Fund and Pledged Revenue Fund. The City hereby consents to creation of: (i) the special fund known as the Rental Payment Fund to be held and maintained by the City, (ii) if applicable, the Escrow Fund to be held and maintained by the Escrow Agent pursuant to the Escrow Agreement and (iii) the Pledged Revenue Fund to be held and maintained by the City, each in connection with the Lease-Purchase Agreement.

B. Disposition of Proceeds of Lease-Purchase Agreement. The proceeds derived from the execution and delivery of the Lease-Purchase Agreement shall be deposited promptly upon the receipt thereof in the Escrow Fund, as provided in the Escrow Agreement.

C. Completion of Energy Savings Project. The City will cause the installation of the Project Components with all due diligence, and in any event within three years after the date of execution and delivery of the Lease-Purchase Agreement.

Section 9. Deposit of Pledged Energy Cost Savings Revenues and Flow of Funds.

A. Pledged Revenue Fund. So long as payments are due under the Lease-

Purchase Agreement, the City shall credit all Pledged Energy Cost Savings Revenues to the Pledged Revenue Fund. As a first charge on the Revenue Fund, amounts due under the Lease-Purchase Agreement shall be withdrawn from the Pledged Revenue Fund and shall be credited to the Rental Payment Fund on the dates and in the amounts set forth in the Lease-Purchase Agreement.

B. Credit. In making the deposits required to be made into the Rental Payment Fund, if there are any amounts then on deposit in the rental Payment Fund available for the purpose for which such deposit is to be made, the amount of the deposit to be made pursuant to paragraph (A) above shall be reduced by the amount available in such fund for such purpose.

C. Transfer of Money out of Rental Payment Fund. Each payment due on the Lease-Purchase Agreement shall be transferred from the Rental Payment Fund to the Lessor on the due date of such payment.

D. Termination Upon Deposits to Maturity. No payment shall be made into the Rental Payment Fund if the moneys in such fund totals a sum at least equal to the entire aggregate amount due on the Lease-Purchase Agreement, in which case moneys in said fund in an amount at least equal to such payment requirements shall be used solely to pay such obligations as the same become due, and any moneys in excess thereof in said funds and any other moneys derived from the Pledged Energy Cost Savings Revenues may be used in any lawful manner determined by the City.

E. Defraying Delinquencies in the Rental Payment Fund. If, on any payment date, the amount on deposit in the Rental Payment Fund is insufficient to make the payments due on the Lease-Purchase Agreement, then an amount shall be paid into the Rental Payment Fund from the first Pledged Energy Cost Savings Revenues thereafter received that are not required to be deposited in the Rental Payment Fund as set forth in Paragraph C of this Section.

F. Payment from Other Sources. Notwithstanding any other provisions of this Ordinance, the City may, in its sole discretion, choose to apply other legally available funds to

the payment of the Lease-Purchase Agreement.

G. Surplus Revenues. After making all the payments hereinabove required to be made by this Section, the remaining Pledged Revenues, if any, may be applied to any other lawful purpose, as the City may from time to time determine.

Section 10. Lien on Pledged Energy Cost Savings Revenues. Pursuant to this Ordinance and the Lease-Purchase Agreement, the Pledged Energy Cost Savings Revenues are hereby authorized to be pledged to, and are hereby pledged, and the City grants a security interest therein for, the payment of the rent, interest, and any other amounts due under the Lease-Purchase Agreement subject to the uses thereof permitted by and the priorities set forth in this Ordinance. The Lease-Purchase Agreement constitutes an irrevocable and first lien on the Pledged Energy Cost Savings Revenues.

Section 11. Authorized Officers. Authorized Officers are hereby individually authorized and directed to execute and deliver any and all papers, instruments, opinions, affidavits and other documents and to do and cause to be done any and all acts and things necessary or proper for carrying out this Ordinance, the Lease-Purchase Agreement and the Related Documents, and all other transactions contemplated hereby and thereby. Authorized Officers are hereby individually authorized to do all acts and things required of them by this Ordinance, the Lease-Purchase Agreement and the Related Documents for the full, punctual and complete performance of all the terms, covenants and agreements contained in this Ordinance, the Lease-Purchase Agreement and the Related Documents, the execution and delivery of closing documents in connection with the execution and delivery of the Lease-Purchase Agreement, the Escrow Agreement (if applicable), and the publication of the summary of this Ordinance set out in Section 18 of this Ordinance (with such changes, additions and deletions as may be necessary).

Section 12. Amendment of Ordinance. Prior to the Closing Date, the provisions of this Ordinance may be supplemented or amended by ordinance or resolution of the Governing Body

with respect to any changes which are not inconsistent with the substantive provisions of this Ordinance. Following the Closing Date, this Ordinance may be amended by ordinance of Governing Body without receipt by the City of any additional consideration, but only with the prior written consent of the Lessor.

Section 13. **Ordinance Irrepealable.** After the Lease-Purchase Agreement has been executed and delivered, this Ordinance shall be and remain irrepealable until all obligations due under the Lease-Purchase Agreement shall be fully paid, canceled and discharged, as provided therein.

Section 14. **Severability Clause.** If any section, paragraph, clause or provision of this Ordinance shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of this Ordinance.

Section 15. **Repealer Clause.** All bylaws, orders, resolutions and ordinances, or parts thereof, inconsistent herewith are hereby repealed to the extent only of such inconsistency. This repealer shall not be construed to revive any bylaw, order, resolution or ordinance, or part thereof, heretofore repealed.

Section 16. **Effective Date, General Summary for Publication.** Upon due adoption of this Ordinance, the ordinance shall be recorded and preserved by the City Clerk, authenticated by the signature of the Mayor and City Clerk, and the seal of the City impressed hereon, and the title and general summary of the subject matter contained in this Ordinance (set out below) shall be published in a newspaper which maintains an office and is of general circulation in the City and this Ordinance shall be in full force and effect after its publication in accordance with law.

Pursuant to Section 3-17-5 NMSA 1978, as amended, the title and a general summary of the subject matter contained in this Ordinance shall be published in substantially the following form:

(Form of Summary of Ordinance for Publication)

CITY OF SANTA FE, NEW MEXICO

NOTICE IS HEREBY GIVEN of the title and of a general summary of the subject matter contained in an ordinance duly adopted and approved by the Governing Body of the City of Santa Fe on February __, 2021. A complete copy of the ordinance is available for public inspection during the normal and regular business hours of the City Clerk in the office of the City Clerk, City Hall, 200 Lincoln Avenue, Santa Fe, New Mexico and is available online at santafe.primegov.com. The title of the ordinance is:

AN ORDINANCE

AUTHORIZING THE EXECUTION AND DELIVERY OF A LEASE-PURCHASE AGREEMENT BY AND BETWEEN THE CITY OF SANTA FE, NEW MEXICO (THE "CITY") AND STERLING NATIONAL BANK (THE "LESSOR"), EVIDENCING A SPECIAL, LIMITED OBLIGATION OF THE CITY TO PAY AN AMOUNT OF UP TO $20,000,000, TOGETHER WITH INTEREST THEREON, FOR THE PURPOSE OF ACQUIRING, INSTALLING, AND EQUIPPING ENERGY EFFICIENCY MEASURES THROUGHOUT THE CITY; PROVIDING FOR THE PLEDGE AND PAYMENT OF THE AMOUNTS DUE UNDER THE LEASE-PURCHASE AGREEMENT SOLELY FROM THE UTILITY COST AND WATER CONSERVATION SAVINGS AND PAYMENTS RECEIVED BY THE CITY PURSUANT TO (1) THE ENERGY PERFORMANCE CONTRACT BY AND BETWEEN THE CITY AND YEAROUT ENERGY SERVICES COMPANY, LLC, AND (2) THE GLOBAL MANAGEMENT PERFORMANCE CONTRACT BY AND BETWEEN THE CITY AND DALKIA ENERGY SOLUTIONS, LLC; PROVIDING THAT CERTAIN TERMS OF THE LEASE-PURCHASE AGREEMENT WILL BE ESTABLISHED IN A PRICING CERTIFICATE TO BE EXECUTED AND

DELIVERED AS AUTHORIZED PURSUANT TO SECTION 6-14-10.2 NMSA 1978; RATIFYING ACTIONS HERETOFORE TAKEN; REPEALING ALL ACTION INCONSISTENT WITH THIS ORDINANCE; AND AUTHORIZING THE TAKING OF OTHER ACTIONS IN CONNECTION WITH THE EXECUTION AND DELIVERY OF THE LEASE-PURCHASE AGREEMENT.

A general summary of the subject matter contained in such ordinance is set forth in the title. COMPLETE COPIES OF THE ORDINANCE ARE ON FILE IN THE OFFICE OF THE CITY CLERK AT THE CITY HALL, 200 LINCOLN AVENUE, SANTA FE, NEW MEXICO, ARE AVAILABLE ONLINE AT SANTAFE.PRIMEGOV.COM, AND ARE AVAILABLE FOR INSPECTION AND/OR PURCHASE DURING REGULAR OFFICE HOURS. THIS NOTICE ALSO CONSTITUTES COMPLIANCE WITH SECTION 3-17-5 AND SECTIONS 6-14-4 THROUGH 6-14-7, NMSA 1978.

ESCROW AGREEMENT

LESSOR: ESCROW AGENT:

LESSEE:
City of Santa Fe, New Mexico
200 Lincoln Avenue
Santa Fe, NM 87501

THIS ESCROW AGREEMENT (this "Escrow Agreement") dated _____, 2021, is entered into by and among _____ (in its capacity as lessor, "Lessor"), City of Santa Fe, New Mexico ("Lessee"), and _____ (in its capacity as escrow agent, the "Escrow Agent").

Lessor and Lessee have heretofore entered into that certain Equipment Lease-Purchase Agreement dated as of _____, 2021 (the "Agreement"). The Agreement contemplates that certain Equipment described therein (the "Equipment") is to be acquired from the vendor(s) or manufacturer(s) thereof.

After acceptance of the Equipment by Lessee, the Equipment is to be leased by Lessor to Lessee pursuant to the terms of the Agreement.

The Agreement contemplates that Lessor will deposit with the Escrow Agent cash in the amount of $_____ from proceeds of the Agreement, to be held in escrow by the Escrow Agent and applied on the express terms and conditions set forth herein. Such deposit, together with all interest and additions received with respect thereto (hereinafter, the "Escrow Fund"), is to be applied from time to time to pay certain costs of acquiring the Equipment (a portion of which may be paid in multiple payments and prior to acceptance of all Equipment by Lessee) and, if requested by Lessee and approved by Lessor, to pay certain costs of entering into the Agreement.

The parties desire to set forth the terms on which the escrow is to be created and to establish the rights and responsibilities of the parties hereto.

NOW, THEREFORE, the parties agree as follows:

Section 1. Each of Lessor and Lessee hereby appoint, and the Escrow Agent hereby agrees, to serve as escrow agent upon the express terms and conditions set forth herein. The Escrow Agent agrees that the Escrow Fund shall be held irrevocably in trust for the account and benefit of Lessee and Lessor and all interest earned with respect to the Escrow Fund shall accrue to the benefit of Lessee and shall be applied as expressly set forth herein.

To the limited extent required to perfect the security interest granted by Lessee to Lessor in the cash and negotiable instruments from time to time comprising the Escrow Fund, Lessor

hereby appoints the Escrow Agent as its security agent, and the Escrow Agent hereby accepts the appointment as security agent, and agrees to hold physical possession of such cash and negotiable instruments on behalf of Lessor.

Section 2. On such day as determined to the mutual satisfaction of the parties (the "Commencement Date"), Lessor shall deposit with the Escrow Agent cash in the amount of $_____ from proceeds of the Agreement, to be held by the Escrow Agent on the express terms and conditions set forth herein. The Escrow Agent agrees to accept the deposit of the Escrow Fund by Lessor, and further agrees to hold the amount so deposited together with all interest and other additions received with respect thereto in escrow on the express terms and conditions set forth herein.

Section 3. The Escrow Agent shall at all times segregate the Escrow Fund into an account maintained for that express purpose, which shall be clearly identified on the books and records of the Escrow Agent as being held in its capacity as Escrow Agent. Securities and other negotiable instruments comprising the Escrow Fund from time to time shall be held or registered in the name of the Escrow Agent (or its nominee). The Escrow Fund shall not, to the extent permitted by applicable law, be subject to levy or attachment or lien by or for the benefit of any creditor of any of the parties hereto (except with respect to the security interest therein held by Lessor).

Section 4. Lessee hereby directs the Escrow Agent to invest the cash comprising the Escrow Fund from time to time in Qualified Investments (as hereinafter defined). Interest or other amounts earned and received by the Escrow Agent with respect to the Escrow Fund shall be deposited in and comprise a part of the Escrow Fund. No investment shall be made that would cause the Agreement to be deemed to be an arbitrage bond within the meaning of Section 148(a) of the Internal Revenue Code of 1986, as amended (the "Code"). For purposes of this Section 4, the term "Qualified Investments" means the Money Market Fund #_____, or a demand deposit account created by the Escrow Agent. The Escrow Agent shall provide to the Lessee's Finance Director all bank and investment statements for the Escrow Fund by the 5th day of the month following the month for which the statement applies or the next succeeding business day. Any monies the Escrow Agent holds on behalf of the county shall be invested according to the [City of Santa Fe Investment Policy] and Section 6-10-10, NMSA 1978.

Commented [PLF1]: Confirm and more specifically identify?

Section 5. Lessor and Lessee hereby authorize the Escrow Agent to take the following actions with respect to the Escrow Fund:

a. From time to time, the Escrow Agent shall pay the vendor or manufacturer of the Equipment or Lessee or other payee upon receipt of the following: (a) a duly executed Certificate of Acceptance and Payment Request in the form attached as Exhibit A to this Escrow Agreement approved for payment by Lessor, (b) the vendor(s) or manufacturer(s) invoice(s) specifying the acquisition price of the Equipment described in the requisition request, (c) in the event that certain costs of entering into the Agreement are described in the requisition request, invoice(s), budget(s), closing statement(s) or other additional documentation specifying the amount(s) of such costs, and (d) any additional documentation required by Lessor prior to Lessor's approval of such requisition request. Lessor's approval on the Certificate of Acceptance and

Payment Request in each case shall be conclusive evidence that all invoices, budgets, closing statements and any additional documentation requirements have been received by and are acceptable to Lessor for payment purposes. Without limiting the foregoing, Lessor shall not approve any such payment unless and until Lessee shall have provided to Lessor (i) certificates of insurance evidencing coverage in accordance with Section 22 of the Agreement and satisfactory to Lessor, and (ii) a payment and performance bond naming Lessor as a dual obligee and issued by a surety company rated "A" or better by AM Best in form and substance satisfactory to Lessor.

b. In the event that Lessor provides to the Escrow Agent and Escrow Agent actually receives written notice of the occurrence of an Event of Default as defined in the Agreement, the Escrow Agent shall thereupon promptly remit to Lessor the entire balance of the Escrow Fund *after* application of the Escrow Fund to all reasonable fees and expenses incurred by the Escrow Agent in connection herewith as evidenced by its statement forwarded to Lessor and Lessee.

c. Upon actual receipt by the Escrow Agent of a duly executed Certificate of Acceptance and Payment Request identified as the final such request, the remaining monies in the Escrow Fund shall, *first* be applied to all reasonable fees and expenses incurred by the Escrow Agent, if applicable, in connection herewith as evidenced by its statement forwarded to Lessor and Lessee; and, *second* be paid to Lessor, for application against the outstanding principal components of Rental Payments (as defined in the Agreement), including prepayment of Rental Payments under the Agreement, as provided therein, unless Lessor directs that payment of such amount be made in such other manner directed by Lessor that, in the opinion of nationally recognized counsel in the area of tax-exempt municipal obligations satisfactory to Lessor, will not adversely affect the exclusion of the interest components of Rental Payments from gross income for federal income tax purposes. If any such amount is used to prepay principal, the Payment Schedule attached to the Agreement will be revised accordingly as specified by Lessor.

d. Lessor and Lessee agree that the security procedures under this Section 5 are commercially reasonable.

e. In the event that Escrow Agent makes any payment to any payee pursuant to this Escrow Agreement and for any reason such payment (or any portion thereof) is required to be returned to the Escrow Fund or is subsequently invalidated, declared to be fraudulent or preferential, set aside and/or required to be repaid to a receiver, trustee or other party under any bankruptcy or insolvency law, other federal or state law, common law or equitable doctrine, then the party who benefited from the payment to the payee shall repay to Escrow Agent upon written request the amount so paid to the payee. Escrow Agent shall not be liable to any party or any other person by reason of such payment.

Section 6. The reasonable fees and expenses of the Escrow Agent incurred in connection herewith shall be the responsibility of Lessee and are herein further described on Schedule 1.

Section 7.

a. The Escrow Agent shall have no liability for acting upon any written instruction presented by Lessee and Lessor in connection with this Escrow Agreement which the Escrow Agent in good faith believes to be genuine. Furthermore, the Escrow Agent shall not be liable for any act or omission in connection with this Escrow Agreement except for its own negligence or willful misconduct. The Escrow Agent shall not be liable for any loss or diminution in value of the Escrow Fund as a result of the investment decisions made pursuant to Section 4, Qualified Investments at the direction of Lessee. Escrow Agent shall have only those duties and responsibilities as expressly set forth herein, and no other duty, obligation or covenant, fiduciary or otherwise, shall be implied or enforceable against Escrow Agent by any person.

b. Without limiting the effect of Section 7(a) hereof, Escrow Agent shall have no obligation or liability to any other party hereto (or any person claiming through any of them): (i) to review, examine, enforce, administer or take notice of any agreement, instrument or document other than this Escrow Agreement; (ii) to determine whether any conditions precedent to a disbursement of Escrow Funds, other than as set forth in Section 5, have been or will be satisfied or otherwise to investigate any notice received by Escrow Agent hereunder; (iii) to evaluate or determine the validity or legality of any action or omission of any third party, including any federal or state bank regulator; (iv) to make any payment to the other parties or other payees set forth in written instructions received under Section 5 from any source other than the Escrow Funds, and no such payment shall be made if the amount of Escrow Funds is inadequate; (v) to communicate with any person other than as expressly provided for in this Escrow Agreement; (vi) for any action or omission of Escrow Agent taken or made upon the oral or written, joint instructions of the parties hereto; (vii) for any other action or omission of, or for errors in judgment by, Escrow Agent under or in connection with this Escrow Agreement taken or made in good faith and without gross negligence or willful misconduct; and (viii) for special, incidental, consequential, indirect or punitive damages in any event, even if Escrow Agent has been advised or was otherwise aware of the likelihood of such loss or damages and regardless of the form of action.

Section 8. From and to the extent of legally available Pledged Energy Cost Savings Revenues (as defined in the Agreement), to the extent authorized by law, Lessee hereby agrees to indemnify and save the Escrow Agent harmless against any liabilities which it may incur in the exercise and performance of its powers and duties hereunder and which are not due to the Escrow Agent's negligence or willful misconduct. No indemnification will be made under this Section or elsewhere in this Escrow Agreement to the extent damages arise solely out of the negligence or willful misconduct by the Escrow Agent, its officers, agents, employees, successors or assigns.

Section 9. The Escrow Agent may at any time resign by giving at least 30 days' prior written notice to Lessee and Lessor, but such resignation shall not take effect until the appointment of the successor Escrow Agent. The substitution of another bank or trust company to act as Escrow Agent under this Escrow Agreement may occur by written agreement of Lessor and Lessee. In addition, the Escrow Agent may be removed at any time, with or without cause, by instrument in writing executed by Lessor and Lessee. Such notice shall set forth the effective date of the removal. In the event of any resignation or removal of the Escrow Agent, a successor Escrow

Agent shall be appointed by an instrument in writing executed by Lessor and Lessee. Such successor Escrow Agent shall indicate its acceptance of such appointment by an instrument in writing delivered to Lessor, Lessee and the predecessor Escrow Agent.

Upon the effective date of resignation or removal, the Escrow Agent will transfer the Escrow Fund then held by it to the successor Escrow Agent selected by Lessor and Lessee.

If Lessor and Lessee are unable to agree upon a successor escrow agent within 30 days after such notice, the parties hereby agree that either of them acting unilaterally shall apply to a court of competent jurisdiction within the State of New Mexico for the appointment of a successor escrow agent or for other appropriate relief. The costs and expenses (including reasonable attorneys' fees and expenses) incurred by Escrow Agent in connection with such proceeding shall be paid in accordance with Section 6.

Section 10. In the event of any dispute with respect to the Escrow Funds, the interpretation of this Escrow Agreement or the rights and obligations of the parties hereunder, or to the propriety of any action contemplated by Escrow Agent hereunder, or if Escrow Agent in good faith is in doubt as to what action should be taken hereunder, then in any such case Escrow Agent shall not be obligated to resolve the dispute or disagreement or to make any disbursement of all or any portion of the Escrow Funds, but may commence an action in the nature of an interpleader and seek to deposit such funds with a court of competent jurisdiction within the State of New Mexico, and thereby shall be discharged from any further duty or obligation with respect to any Escrow Funds. The costs of such interpleader action shall be borne by Lessee. In the event Lessee shall fail on demand to reimburse Escrow Agent for such costs, then Lessee irrevocably authorizes Escrow Agent to deduct any such amounts from the Escrow Fund without any further notice or demand to any person. Escrow Agent may, in its sole discretion in lieu of filing such action in interpleader, elect to cease to perform under this Agreement and to ignore all instructions received in connection herewith until Escrow Agent has received a written notice of resolution signed by the parties to such dispute or disagreement or an order of a court of competent jurisdiction over the matter directing a disposition of the Escrow Funds.

Section 11. This Escrow Agreement and the Escrow Fund established hereunder shall terminate upon receipt by the Escrow Agent of the written notice from Lessor specified in Section 5(b) or Section 5(c) hereof.

Section 12. All notices hereunder shall be in writing, sent by certified mail, return receipt requested, or by mutually recognized overnight carrier addressed to the other parties at their respective addresses shown on page 1 of this Escrow Agreement or at such other address as each such party shall from time to time designate in writing to the other parties; and shall be effective on the date or receipt. In addition, all notices sent to the Escrow Agent shall also be sent as follows:

Section 13. This Escrow Agreement shall inure to the benefit of and shall be binding upon the parties hereto and their respective successors and assigns. No rights or obligations of the

Escrow Agent under this Escrow Agreement may be assigned without the prior written consent of Lessor and Lessee.

Section 14. Except as provided in the next sentence, this Escrow Agreement constitutes the entire agreement between the parties hereto with respect to the subject matter hereof, and no waiver, consent, modification or change of terms hereof shall bind any party unless in writing signed by all parties. This Escrow Agreement is in addition to any related account applications and other account opening and authorizing documents and/or resolutions on file with Escrow Agent and such documents are hereby incorporated by reference into this Agreement (the "Account Agreements"). In the event that there are inconsistencies between this Agreement and any other Account Agreement, the terms of this Escrow Agreement shall control.

Section 15. The Escrow Agent may employ agents, attorneys and accountants in connection with its duties hereunder (such costs to be paid as set forth in Section 6) and shall not be liable for any action taken or omitted in good faith in accordance with the advice of counsel, accountants or other skilled persons.

Section 16. This Escrow Agreement shall be governed by and be construed and interpreted in accordance with the internal laws of the State of New Mexico (the "State").

Section 17. This Escrow Agreement may be executed in several counterparts, and each counterpart so executed will be an original. In addition, the parties agree that the transaction described herein may be conducted and related documents may be stored by electronic means. Copies, telecopies, facsimiles, electronic files and other reproductions of original executed documents shall be deemed to be authentic and valid counterparts of such original documents for all purposes, including the filing of any claim, action or suit in the appropriate court of law.

Section 18. **WAIVER OF JURY TRIAL. TO THE EXTENT PERMITTED BY LAW, EACH OF THE PARTIES HERETO EXPRESSLY WAIVES THE RIGHT TO TRIAL BY JURY IN RESOLVING ANY CLAIM OR COUNTERCLAIM RELATING TO OR ARISING OUT OF THIS AGREEMENT.**

Section 19. Lessee represents, warrants and covenants for the benefit of Escrow Agent as follows:

a. Lessee is authorized under the constitution and laws of the State to enter into this Escrow Agreement and the transaction contemplated hereby and to perform all of its obligations hereunder.

b. Lessee has been duly authorized to execute and deliver this Escrow Agreement by proper action and approval of its governing body at a meeting duly called, regularly convened and attended throughout by a requisite majority of the members thereof or by other appropriate official approval.

c. This Escrow Agreement constitutes the legal, valid and binding obligation of Lessee enforceable in accordance with its terms, except to the extent limited by applicable bankruptcy, insolvency, reorganization or other laws affecting creditors' rights generally.

d. Lessee will comply with all applicable provisions of the Internal Revenue Code of 1986, as amended, including without limitation Sections 103 and 148 thereof, and the applicable regulations of the Treasury Department. No part of the Escrow Fund shall be invested at Lessee's discretion in any securities, obligations or other investments or used, at any time, directly or indirectly, in a manner which, if such use had been reasonably anticipated on the date of issuance of the Agreement, would have caused any portion of the Agreement to be or become "arbitrage bonds" within the meaning of Section 103(b)(2) or Section 148 of the Code and the applicable regulations of the Treasury Department.

Section 20. The parties acknowledge that in order to help the United States government fight the funding of terrorism and money laundering activities, pursuant to Federal regulations that became effective on October 1, 2003 (Section 326 of the USA PATRIOT Act) all financial institutions are required to obtain, verify, record and update information that identifies each person establishing a relationship or opening an account. The parties to this Escrow Agreement agree that they will provide to the Escrow Agent such information as it may request, from time to time, in order for the Escrow Agent to satisfy the requirements of the USA PATRIOT Act, including but not limited to the name, address, tax identification number and other information that will allow it to identify the individual or entity who is establishing the relationship or opening the account and may also ask for formation documents such as articles of incorporation or other identifying documents to be provided.

Section 21. With respect to the Agreement, Sterling National Bank shall have the same rights and powers under the Agreement as any other lessor and may exercise the same as though it were not Escrow Agent. Lessor may lend money to, invest in, and generally engage in any kind of business with Lessee, all as if Sterling National Bank were not Escrow Agent. Lessee acknowledges the potential conflict of interest between Sterling National Bank as Lessor and Sterling National Bank as Escrow Agent.

[Signature page follows.]

IN WITNESS WHEREOF, the parties hereto have caused this Escrow Agreement to be duly executed as of the day and year first above set forth.

EXHIBIT A

CERTIFICATE OF ACCEPTANCE AND PAYMENT REQUEST

_____ (in its capacity as escrow agent, the "Escrow Agent"), as escrow agent under that certain Escrow Agreement dated _____, 2021 (the "Escrow Agreement"), by and among the City of Santa Fe, New Mexico ("Lessee"), _____ (in its capacity as lessor, "Lessor") and the Escrow Agent, is hereby requested to pay from the Escrow Fund (as defined in the Escrow Agreement) established and maintained thereunder, the amount set forth below to the named payee(s). The equipment and costs described below are (i) part or all of the Equipment listed in the Equipment Schedule to that certain Equipment Lease Purchase Agreement dated as of _____, 2021(the "Agreement"), between Lessor and Lessee, or (ii) certain costs of entering into the Agreement. The amount shown is due and payable under (i) a purchase order or contract (or has been paid by and not previously reimbursed to Lessee), or (ii) invoices, budgets, closing statements or any other additional documentation.

QUANTITY	DESCRIPTION OF EQUIPMENT OR FINANCING COST	AMOUNT	PAYEE*

Lessee hereby certifies and represents to and agrees with Lessor as follows: (i) the Equipment described above has been delivered and installed at the location(s) set forth in the Equipment Schedule; (ii) a present need exists for such Equipment which need is not temporary or expected to diminish in the near future; (iii) such Equipment is essential to and will be used by Lessee only for the purpose of performing one or more governmental functions of Lessee consistent with the permissible scope of Lessee's authority; (iv) the estimated useful life of such Equipment based upon the manufacturer's representations and Lessee's projected needs is not less than the term of lease with respect to such Equipment; (v) Lessee has conducted such inspection and/or testing of such Equipment as it deems necessary and appropriate and hereby acknowledges that it accepts such Equipment for all purposes as of the date of this Certificate; (vi) such Equipment is covered by insurance in the types and amounts required by the Agreement; and (vii) no Event of Default, as such term is defined in the Agreement and no event which with the giving of notice or lapse of time or both, would become an Event of Default under the Agreement, has occurred and is continuing on the date hereof.

Based on the foregoing, Escrow Agent is hereby authorized and directed to fund the acquisition of the Equipment set forth in the Agreement by paying, or causing to be paid, the manufacturer(s)/vendor(s), Lessee or other payee(s) the amounts set forth on the attached invoices from the Escrow Fund held under the Escrow Agreement in accordance with its terms.

The following documents are attached hereto and made a part hereof: (a) Original Invoice(s); and/or (b) Copies of Certificate(s) of Origin, when applicable, designating Lessor as lienholder if any part of the Equipment consists of motor vehicles, and evidence of filing.

IF REQUEST IS FOR REIMBURSEMENT, CHECK HERE ☐. Lessee paid an invoice prior to the commencement date identified in the Equipment Schedule and is requesting reimbursement for such payment. A copy of evidence of such payment, together with a copy of Lessee's Declaration of Official Intent and any other evidence required by Lessor prior to Lessor's approval hereof that Lessee has satisfied the requirements for reimbursement set forth in Treas. Reg. 1.150-2, is hereby attached. Lessor's approval hereof shall evidence that Lessee has delivered to Lessor such required documentation.

IF REQUEST IS FINAL REQUEST, CHECK HERE ☐. Lessee hereby certifies that the items of Equipment described above, together with the items of Equipment described in and accepted by Certificates of Acceptance and Payment Requests previously filed by Lessee and Lessor with Escrow Agent constitutes all of the Equipment subject to the Equipment Schedule.

* If required, a current IRS Form W-9 for the payee is attached or an IRS Form W-9 has been previously submitted to the Escrow Agent.

SCHEDULE 1

Attached to and made a part of the Escrow Agreement (the "Escrow Agreement") dated _____, 2021, by and among _____ (in its capacity as lessor, "Lessor"), City of Santa Fe, New Mexico, as Lessee, and _____ (in its capacity as escrow agent, the "Escrow Agent").

A. Based upon our current understanding of your proposed transaction, the proposed services are as follows, which shall be the responsibility of Lessee: $0

1. New Account Acceptance

Encompassing review, negotiation and execution of governing documentation, opening of the account, and completion of all due diligence documentation.

2. Monthly Administration

Covering our usual and customary ministerial duties, including record keeping, distributions, document compliance and such other duties and responsibilities expressly set forth in the governing documents for each transaction.

B. Extraordinary Services and Out-of-Pocket Expenses

Any additional services beyond our standard services as specified above, and all reasonable out-of-pocket expenses including attorney's or accountant's fees and expenses will be considered extraordinary services for which related costs, transaction charges, and additional fees may be billed at Escrow Agent's then standard rate. Disbursements, receipts, investments or tax reporting exceeding 25 items per year may be treated as extraordinary services.

EQUIPMENT LEASE-PURCHASE AGREEMENT

THIS EQUIPMENT LEASE-PURCHASE AGREEMENT (the "Agreement"), is dated as of march 29, 2021, by and between Sterling National Bank**,** a national banking association organized and existing under the laws of the United States of America, as Lessor ("Lessor"), and CITY OF SANTA FE, NEW MEXICO, a charter municipality with home-rule powers duly organized and existing existing under the laws of the State of New Mexico, as Lessee (the "City" or the "Lessee"), wherein the parties hereby agree as follows:

Section 1. Definitions. The following terms will have the meanings indicated below unless the context clearly requires otherwise:

"Act" means the general laws of the State, including the home-rule charter of the City, Sections 3-1-2 and 3-31-1 through 3-31-12 NMSA 1978, as amended, and enactments of the Governing Body relating to this Agreement, including the Ordinance.

"Agreement" means this Equipment Lease-Purchase Agreement and any other schedule, exhibit or escrow agreement made a part hereof by the parties hereto, together with any amendments to this Agreement.

"Closing Date" the date of execution, delivery and funding of this Agreement.

"Code" means the Internal Revenue Code of 1986, as amended.

"Conservation Measures" mean, collectively or individually, as the context may require, the energy savings equipment and improvements of which the Energy Savings Project is comprised.

"Costs of Issuance" means all costs relating to the execution and delivery of this Agreement and the Energy Savings Agreements, including, without limitation, costs of advertising and publication, costs of fees and expenses of the financial advisor, bond counsel, the Paying Agent, and other reasonable and necessary fees and costs, including applicable gross receipts taxes, related to the execution and delivery of the Lease-Purchase Agreement and the Energy Savings Agreements.

"Dalkia Agreement" means the Global Management Performance Contract by and between the City and Dalkia Energy Solutions, LLC, a Massachusetts limited liability company for implementation of the Dalkia Project Component, which is collaterally assigned to the Lessor pursuant to this Agreement.

"Dalkia Project Component" means means the Project Component comprised of the installation, implementation and maintenance of street light LED upgrades to street light improvements owned and operated by the Lessee.

"Energy Savings Agreements" means, collectively, the Yearout Agreement and the Dalkia Agreement.

"Energy Savings Project" means, collectively, the Yearout Project Component and the Dalkia Project Component.

"Equipment" means the Conservation Measures described on the Equipment Schedule attached hereto as Exhibits A-1 and A-2, and all replacements, substitutions, repairs, restorations, modifications, attachments, accessions, additions and improvements thereof or thereto.

"Event of Default" means an Event of Default described in Section 35 hereof.

"Lease Term" means the period commencing on the Closing Date and ending on the occurrence of the earliest event specified in Section 6 hereof.

"Lessee" means the entity described as such in the first paragraph of this Agreement, and its permitted successors and its assigns.

"Lessor" means the entity described as such in the first paragraph of this Agreement, its successors and its assigns.

"Net Proceeds" means the amount remaining from the gross proceeds of any insurance claim or condemnation award after deducting all expenses (including reasonable attorneys' fees) incurred in the collection of such claim or award.

"Ordinance" means Ordinance No. _____ adopted by the Governing Body of the City on February ___, 2021, as supplemented by the Pricing Certificate.

"Payment Schedule" means the schedule of Rental Payments and Purchase Price set forth in Exhibit B to this Agreement.

"Pledged Energy Cost Savings Revenues" or "Pledged Revenues" means amounts generated by utility cost savings pursuant to the Energy Savings Agreements, which constitute net revenues of the Energy Savings Project.

"Pricing Certificate" means the certificate executed and delivered by the any of the Mayor, City Manager or Finance Director of the Lessee subsequent to the date of adoption of the Ordinance, which shall specify the exact principal amount and other final terms of this Agreement.

"Purchase Price" means the amount set forth in the Payment Schedule that Lessee may, at its option, pay to Lessor to purchase the Equipment.

"Rental Payment Dates" means the dates set forth in the Payment Schedule on which Rental Payments are due.

"Rental Payment Fund" means the special fund established by Lessee in the Ordinance for the deposit of Pledged Energy Cost Savings Revenues and such other authorized revenues as are permitted by the Act and pledged in the Ordinance for Rental Payments, subject to Sections 6 through 8 and Section 10 hereof.

"Rental Payments" means the basic rental payments payable by Lessee pursuant to Section 9 from the Rental Payment Fund.

"State" means the State of New Mexico

"Vendors" means Dalkia Energy Solutions, LLC and Yearout Energy Services Company, LLC, as the counterparties to the Energy Savings Agrements from whom Lessor purchased or is purchasing the Equipment, as listed in Exhibit A-1 and A-2.

"Yearout Agreement" means the Energy Savings Performance Contract with Yearout Energy Services Company, LLC for implementation of the Yearout Project Component.

"Yearout Project Component" means the installation, implementation, monitoring and maintenance of energy savings measures and water conservation measures throughout Lessee-owned facilities.

Section 2. Representations and Covenants of Lessee. Lessee represents, warrants and covenants, for the benefit of Lessor as follows:

(a) Lessee is a charter municipality with home-rule powers duly organized and existing under the constitution and laws of the State. Lessee will do or cause to be done all things to preserve and keep in full force and effect its existence as a charter municipality. So long as the Agreement continues in effect, Lessee shall use its best efforts to comply with its enabling legislation and other laws to which it is subject. Lessee has a substantially each of the following sovereign powers: (i) the power to tax, (ii) the power of eminent domain, and (c) police power.

(b) Lessee is authorized under the constitution and laws of the State to enter into this Agreement and the transaction contemplated hereby and to perform all of its obligations hereunder.

(c) Lessee has been duly authorized to execute and deliver this Agreement by proper action and approval of its governing body at meetings duly called, regularly convened and attended throughout by a requisite majority of the members thereof or by other appropriate official approval.

(d) This Agreement constitutes the legal, valid and binding obligation of Lessee enforceable in accordance with its terms, except to the extent limited by applicable bankruptcy, insolvency, reorganization or other laws affecting creditors' rights generally.

(e) No event or condition that constitutes, or with the giving of notice or the lapse of time or both would constitute, an Event of Default exists at the Closing Date.

(f) Lessee has, in accordance with the requirements of law, pledged to and granted to Lessor a security interest in the Pledged Energy Cost Savings Revenues for the payment of amounts due under this Agreement, subject to the uses thereof permitted by and the priorities set forth in the Ordinance. The Agreement constitutes an irrevocable and first lien on the Pledged Energy Cost Savings Revenues.

(g) Lessee has complied with such public bidding requirements as may be applicable to this Agreement and the acquisition by Lessee of the Equipment hereunder.

(h) There is no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, public board or body, pending or threatened against or affecting Lessee, nor to the best knowledge of Lessee is there any basis therefor, wherein an unfavorable decision, ruling or finding would materially adversely affect the transactions contemplated by this Agreement or any other document, agreement or certificate which is used or contemplated for use in the consummation of the transactions contemplated by this Agreement or materially adversely affect the financial condition or properties of Lessee.

(i) All authorizations, consents and approvals of governmental bodies or agencies required in connection with the execution and delivery by Lessee of this Agreement or in connection with the carrying out by Lessee of its obligations hereunder have been obtained.

(j) The entering into and performance of this Agreement or any other document or agreement contemplated hereby to which Lessee is or is to be a party will not violate any judgment, order, law or regulation applicable to Lessee or result in any breach of, or constitute a default under, or result in the creation of any lien, charge, security interest or other encumbrance on any assets of Lessee or the Equipment pursuant to any indenture, mortgage, deed of trust, bank loan or credit agreement or other instrument to which Lessee is a party or by which it or its assets may be bound, except as herein provided.

(k) The Equipment described in this Agreement is essential to the function of Lessee or to the service Lessee provides to its citizens. Lessee has an immediate need for, and expects to make immediate use of, substantially all the Equipment, which need is not temporary or expected to diminish in the foreseeable future. The Equipment will be used by Lessee only for the purpose of performing one or more of Lessee's governmental or proprietary functions consistent with the permissible scope of Lessee's authority.

(l) Neither the payment of the Rental Payments hereunder nor any portion thereof is (i) secured by any interest in property used or to be used in a trade or business of a non-exempt person (within the meaning of Section 103 of the Code) or in payments in respect of such property or (ii) derived from payments in respect of property, or borrowed money, used or to be used in a trade or business of a non-exempt person (within the meaning of Section 103 of the Code). No portion of the Equipment will be used directly or indirectly in any trade or business carried on by any non-exempt person (within the meaning of Section 103 of the Code).

(m) Lessee will comply with all applicable provisions of the Code, including without limitation Sections 103 and 148 thereof, and the applicable regulations of the Treasury Department to maintain the exclusion of the interest components of Rental Payments from gross income for purposes of federal income taxation.

(n) Lessee will use the proceeds of this Agreement as soon as practicable and with all reasonable dispatch for the purpose for which this Agreement has been entered into. No part of the proceeds of this Agreement will be invested in any securities, obligations or other investments or used, at any time, directly or indirectly, in a manner which, if such use had been reasonably

anticipated on the date of issuance of this Agreement, would have caused any portion of this Agreement to be or become "arbitrage bonds" within the meaning of Section 103(b)(2) or Section 148 of the Code and the applicable regulations of the Treasury Department.

(o) Lessee has never failed to pay payments coming due under any bond issue, lease purchase agreement or other indebtedness obligation of Lessee.

(p) The useful life of the Equipment will not be less than the Lease Term.

(q) The application, statements and credit or financial information submitted by Lessee to Lessor are true and correct and made to induce Lessor to enter into this Agreement and the escrow agreement, and Lessee has experienced no material change in its financial condition since the date(s) of such information.

(r) Lessee's fiscal year I from July 1 to June 30. Lessee has provided Lessor with audited financial statements through June 30, 2018. Lessee has experienced no material change in its financial condition or in the revenues expected to be utilized to meet Rental Payments due under the Agreement since June 30, 2018.

(s) Lessee will pay the excess (if any) of the actual costs of acquiring the Equipment under the Agreement over the amount deposited by Lessor in the escrow fund, if any, established under any related escrow agreement and interest earnings thereon.

(t) Lessee has established or will have established as of the Closing Date, the Rental Payment Fund in accordance with the Act for the purpose of paying the Rental Payments.

(u) The Equipment is not a replacement, repair, substitution or proceeds of any equipment or personal property subject to a prior lien or security interest of a third party.

(v) Lessee is the fee owner of the real estate where the Equipment is and will be located and has good and marketable title thereto, and there exists no mortgage, pledge, lien, security interest, charge or other encumbrance of any nature whatsoever on or with respect to such real estate.

Section 3. Certification as to Arbitrage. Lessee hereby represents as follows:

(a) The estimated total costs of the Equipment, together with any costs of entering into this Agreement that are expected to be financed under this Agreement, will not be less than the total principal portion of the Rental Payments.

(b) The Equipment has been ordered or is expected to be ordered within six months of the Closing Date, and the Equipment is expected to be delivered and installed, and the Vendors fully paid, within eighteen months of the Closing Date.

(c) The Equipment has not been and is not expected to be sold or otherwise disposed of by Lessee, either in whole or in major part, prior to the last maturity of the Rental Payments, except for ordinary repair and replacement.

(d) To the best of our knowledge, information and belief, the above expectations are reasonable.

Section 4. Lease of Equipment. Lessor hereby demises, leases and lets the Equipment to Lessee, and Lessee rents, leases and hires the Equipment from Lessor, in accordance with the provisions of this Agreement, for the Lease Term.

Section 5. Lease Term. The term of this Agreement will commence on the Closing Date and will terminate when all amounts due and payable under this Agreement have been paid in full, unless Lessee has terminated this Agreement pursuant to Section 6 or Section 31 hereof.

Section 6. Termination of Lease Term. The Lease Term will terminate upon the earliest of any of the following events:

(a) the exercise by Lessee of the option to purchase the Equipment under the provisions of Section 31 and payment of the Purchase Price and all amounts payable in connection therewith;

(b) a default by Lessee and Lessor's election to terminate this Agreement under Section 36 hereof; or

(c) the payment by Lessee of all Rental Payments authorized or required to be paid by Lessee hereunder during the Lease Term.

Section 7. Reserved.

Section 8. Reserved.

Section 9. Rental Payments. Lessee will pay Rental Payments, exclusively from legally available Pledged Energy Cost Savings Revenues deposited in the Rental Payment Fund and any funds received from any financial guaranty delivered in connection with any or all of the Energy Savings Agreements as is necessary to pay applicable Rental Payments, in lawful money of the United States of America to Lessor in the amounts and on the dates set forth on the Payment Schedule. Rental Payments will be in consideration for Lessee's use of the Equipment during the fiscal year in which such payments are due. Any Rental Payment not received on or before its due date will bear interest at the rate of 10% per annum or the maximum amount permitted by law, whichever is less, from its due date. Lessee hereby pledges the amount in the Rental Payment Fund to the payment of all amounts due hereunder.

In the event that it is determined that any of the interest components of Rental Payments may not be excluded from gross income for purposes of federal income taxation, Lessee agrees to pay to Lessor from legally available Pledged Energy Cost Savings Revenues promptly after any such determination and on each Rental Payment Date thereafter an additional amount determined by Lessor to compensate Lessor for the loss of such excludability (including without limitation, compensation relating to interest expense, penalties or additions to tax), which determination shall be conclusive absent manifest error.

Section 10. Energy Cost Savings Constitute Special Funds of Lessee; Rental Payment Fund.

(a) This Agreement, together with Rental Payments and other obligations of the Lessee hereunder, constitutes a special, limited obligation of the Lessee, payable solely from the Pledged Energy Cost Savings Revenues as provided in the Ordinance; and this Agreement shall not constitute a general obligation of the Lessee or the State, and the Lessor may not look to any general or other fund of the Lessee for payment of the obligations hereunder. Nothing contained in this Agreement or the Ordinance, or any other instruments, shall be construed as obligating the Lessee (except with respect to the application of the Pledged Energy Cost Savings Revenues), as incurring a pecuniary liability or a charge upon the general credit of the Lessee or against its taxing power, nor shall a breach of any agreement contained in this Agreement, the Ordinance or any other instrument impose any pecuniary liability upon the Lessee or any charge upon its general credit or against its taxing power. This Agreement shall never constitute an indebtedness of the Lessee within the meaning of any State constitutional provision or statutory limitation and shall never constitute or give rise to a pecuniary liability of the Lessee or a charge against its general credit or taxing power. Nothing herein shall prevent the Lessee from applying other funds of the Lessee legally available therefor to payments required hereunder, in its sole and absolute discretion.

(b) Notwithstanding anything in this Agreement to the contrary, in any fiscal year amounts in the Rental Payment Fund equal the aggregate Rental Payments due in such fiscal year, Lessee may withdraw any excess amounts which may be used for any lawful purpose of Lessee.

Section 11. Interest Component. As set forth on the Payment Schedule, a portion of each Rental Payment is paid as, and represents payment of, interest. Interest shall be computed on the basis of a 360 day year and 90 day quarters at 2.145% percent per annum.

Section 12. Rental Payments to be Unconditional. Except as provided in Section 10 hereof, the obligations of Lessee to make Rental Payments (but only from and to the extent of legally available Pledged Energy Cost Savings Revenues) and to perform and observe the other covenants and agreements contained herein shall be absolute and unconditional in all events without abatement, diminution, deduction, set-off or defense, for any reason, including without limitation any failure of the Equipment to be delivered or installed, any defects, malfunctions, breakdowns or infirmities in the equipment or any accident, condemnation or unforeseen circumstances.

Section 13. Delivery, Installation and Acceptance of the Equipment. Lessee will order the Equipment, cause the Equipment to be delivered and installed at the locations specified in Exhibits A-1 and A-2, pursuant to the Energy Savings Agreements, and pay any and all delivery and installation costs in connection therewith. When the Equipment has been delivered and installed, Lessee will immediately accept the Equipment, subject to the provisions of the Energy Savings Agreements, and evidence said acceptance by executing and delivering to Lessor an acceptance certificate in form and substance acceptable to Lessor. After it has been installed, the Equipment will not be moved from the locations specified in Exhibits A-1 and A-2 without Lessor's consent, which consent will not be unreasonably withheld.

Section 14. Enjoyment of Equipment. Lessor hereby covenants to provide Lessee with quiet use and enjoyment of the Equipment during the Lease Term, and Lessee will peaceably and quietly have and hold and enjoy the Equipment during the Lease Term, without suit, trouble or hindrance from Lessor, except as otherwise expressly set forth in this Agreement.

Section 15. Right of Inspection. Lessor will have the right at all reasonable times during regular business hours to enter into and upon the property of Lessee for the purpose of inspecting the Equipment.

Section 16. Use of the Equipment. Lessee will not install, use, operate or maintain the Equipment improperly, carelessly, in violation of any applicable law or in a manner contrary to that contemplated by this Agreement. Lessee will obtain all permits and licenses, if any, necessary for the installation and operation of the Equipment. In addition, Lessee agrees to comply in all respects (including, without limitation, with respect to the use, maintenance and operation of each item of the Equipment) with all applicable laws, regulations and rulings of any legislative, executive, administrative or judicial body; provided, however, that Lessee may contest in good faith the validity or application of any such law, regulation or ruling in any reasonable manner that does not, in the opinion of Lessor, adversely affect the interest of Lessor in and to the Equipment or its interest or rights under this Agreement.

Section 17. Maintenance of Equipment. Lessee agrees that it will, at Lessee's own cost and expense, maintain, preserve and keep the Equipment in good repair, working order and condition. Lessor will have no responsibility to maintain, or repair or to make improvements or additions to the Equipment.

Section 18. Title to the Equipment. During the Lease Term, title to the Equipment and any and all additions, repairs, replacements or modifications will vest in Lessee, subject to the rights of Lessor under this Agreement; provided that title will thereafter immediately and without any action by Lessee vest in Lessor, and Lessee will immediately surrender possession of the Equipment to Lessor upon (a) any termination of this Agreement other than termination pursuant to Section 31 or (b) the occurrence of an Event of Default. It is the intent of the parties hereto that any transfer of title to Lessor pursuant to this Section will occur automatically without the necessity of any bill of sale, certificate of title or other instrument of conveyance. Lessee will, nevertheless, execute and deliver any such instruments as Lessor may request to evidence such transfer. Lessee irrevocably designates, makes, constitutes and appoints Lessor and its assignee as Lessee's true and lawful attorney (and agent-in-fact) with power, at such time of termination or times thereafter as Lessor in its sole and absolute discretion may determine, in Lessee's or Lessor's or such assignee's name, to endorse the name of Lessee upon any bill of sale, document, instrument, invoice, freight bill, bill of lading or similar document relating to the Equipment in order to vest title in Lessor and transfer possession to Lessor.

Section 19. Security Interest. To secure the payment of all of Lessee's obligations under this Agreement and to the extent permitted by law, Lessor retains a security interest constituting a first lien on the Equipment and on all additions, attachments and accessions thereto and substitutions therefor and proceeds therefrom. Lessee agrees to execute such additional documents in form satisfactory to Lessor, that Lessor deems necessary or appropriate to establish and maintain

its security interest. Lessee agrees that financing statements may be filed with respect to the security interest in the Equipment.

As further security therefor, Lessee grants to Lessor a first priority security interest in the cash and negotiable instruments from time to time comprising the escrow fund, if any, established under any related escrow agreement and all proceeds (cash and non-cash) thereof, and agrees with respect thereto that Lessor shall have all the rights and remedies of a secured party.

Section 20. Personal Property; No Encumbrances. Lessor and Lessee agree that the Equipment is and will remain personal property. The Equipment will not be deemed to be affixed to or a part of the real estate on which it may be situated, notwithstanding that the Equipment or any part thereof may be or hereafter become in any manner physically affixed or attached to such real estate or any building thereon. Upon the request of Lessor, Lessee will, at Lessee's expense, furnish a waiver of any interest in the Equipment from any party having an interest in any such real estate or building. Lessee shall not create, incur, assume or permit to exist any mortgage, pledge, lien, security interest, charge or other encumbrance of any nature whatsoever on any of the real estate where the Equipment is or will be located or enter into any agreement to sell or assign or enter into any sale/leaseback arrangement of such real estate without the prior written consent of Lessor; provided, that if Lessor or its assigns is furnished with a waiver of interest in the Equipment acceptable to Lessor or its assigns in its discretion from any party taking an interest in any such real estate prior to such interest taking effect, such consent shall not unreasonably withheld.

Section 21. Liens, Taxes, Other Governmental Charges and Utility Charges. Lessee will keep the Equipment free and clear of all liens, charges and encumbrances, except those created under this Agreement. The parties to this Agreement contemplate that the Equipment will be used for a governmental or proprietary purpose of Lessee and, therefore, that the Equipment will be exempt from all property taxes and other similar charges. If the use, possession or acquisition of the Equipment is found to be subject to taxation in any form, Lessee will pay all taxes and governmental charges lawfully assessed or levied against or with respect to the Equipment. Lessee will pay all utility and other charges incurred in the use and maintenance of the Equipment. Lessee will pay such taxes and charges as the same become due; provided that, with respect to any such taxes and charges that may lawfully be paid in installments over a period of years, Lessee will be obligated to pay only such installments that accrue during the Lease Term.

Section 22. Insurance. At its own expense, Lessee will maintain (a) casualty insurance insuring the Equipment against loss or damage by fire and all other risks covered by the standard extended coverage endorsement then in use in the State and any other risks reasonably required by Lessor in an amount at least equal to the then applicable Purchase Price of the Equipment, (b) liability insurance that protects Lessor from liability in all events in form and amount satisfactory to Lessor, and (c) workers' compensation coverage as required by the laws of the State; provided that, with Lessor's prior written consent, Lessee may self-insure against the risks described in clauses (a) and (b). Lessee shall also cause each Vendor to provide to Lessor payment and performance bonds, each naming Lessor as an additional obligee with Lessee and issued by a surety company rated "A" or better by AM Best in an amount equal to the cost of the Equipment to be installed by such Vendor. All insurance proceeds from casualty losses will be payable as

hereinafter provided. Lessee will furnish to Lessor certificates evidencing such coverage throughout the Lease Term.

All such casualty and liability insurance will be with insurers that are acceptable to Lessor, will name Lessor as a loss payee and an additional insured and will contain a provision to the effect that such insurance will not be cancelled or modified materially without first giving written notice thereof to Lessor at least ten days in advance of such cancellation or modification. All such casualty insurance will contain a provision making any losses payable to Lessee and Lessor, as their respective interests may appear.

Section 23. Advances. In the event Lessee fails to maintain the insurance required by this Agreement, pay taxes or charges required to be paid by it under this Agreement or fails to keep the Equipment in good repair and operating condition, Lessor may (but will be under no obligation to) purchase the required policies of insurance and pay the cost of the premiums on the thereof, pay such taxes and charges and make such Equipment repairs or replacements as are necessary and pay the cost thereof. All amounts so advanced by Lessor will become additional rent. Lessee agrees to pay such amounts with interest thereon from the date paid at the rate of 10% per annum or the maximum permitted by law, whichever is less.

Section 24. Financial Information. Lessee shall maintain proper books of record and account in which proper entries shall be made in accordance with generally accepted government accounting standards, consistently applied, of all its business and affairs. Lessee shall have an annual audit of the financial condition of Lessee made by an independent certified public accountant promptly following the end of each fiscal year. Such report shall include statements in reasonable detail, certified by such accountant, reflecting Lessee's financial position as of the end of such fiscal year and the results of Lessee's operations and changes in the financial position of its funds for the fiscal year. Lessee shall furnish to Lessor copies of such audit report immediately after it is accepted by Lessee, but not later than 360 days after the end of the fiscal year. If the audit is publicly available on Lessee's website or on the "EMMA" website maintained by the Municipal Securities Rulemaking Board, the requirement to provide the audit to Lessor will be satisfied if Lessee emails a link to the posted item to Lessor within such 360-day period. The electronic audit or link may be sent to the following email address (or such other address as Lessor supplies to Lessee in writing): Public_Finance_Servicing@snbcloud.onmicrosoft.com.

Section 25. Release and Indemnification. From and to the extent of legally available Pledged Energy Cost Savings Revenues, to the extent permitted by law, Lessee will indemnify, protect and hold harmless Lessor from and against any and all liability, obligations, losses, claims and damages whatsoever, regardless of cause thereof, and expenses in connection therewith (including, without limitation, counsel fees and expenses and any federal income tax and interest and penalties connected therewith imposed on interest received) arising out of or as the result of (a) the entering into this Agreement, (b) the ownership of any item of the Equipment, (c) the manufacturing, ordering, acquisition, use, operation, condition, purchase, delivery, rejection, storage or return of any item of the Equipment, (d) any accident in connection with the operation, use, condition, possession, storage or return of any item of the Equipment resulting in damage to property or injury or death to any person or (e) the breach of any covenant herein or any material misrepresentation contained herein. The indemnification arising under this paragraph will

continue in full force and effect notwithstanding the full payment of all obligations under this Agreement or the termination of the Lease Term for any reason.

Section 26. Risk of Loss. Lessee assumes, from and including the Closing Date, all risk of loss of or damage to the Equipment from any cause whatsoever. No such loss of or damage to the Equipment nor defect therein nor unfitness or obsolescence thereof will relieve Lessee of the obligation to make Rental Payments or to perform any other obligation under this Agreement, from and to the extent of Pledged Energy Cost Savings Revenues.

Section 27. Damage, Destruction, Condemnation; Use of Proceeds. If (a) the Equipment or any portion thereof is destroyed, in whole or in part, or is damaged by fire or other casualty, or (b) title to, or the temporary use of, the Equipment or any part thereof or the interest of Lessee or Lessor in the Equipment or any part thereof will be taken under the exercise of the power of eminent domain by any governmental body or by any person, firm or corporation acting under governmental authority, Lessee and Lessor will cause the Net Proceeds of any insurance claim or condemnation award to be applied to the prompt replacement, repair, restoration, modification or improvement of the Equipment, unless Lessee has exercised its option to purchase the Equipment pursuant to Section 31 hereof. Any balance of the Net Proceeds remaining after such work has been completed will be paid to Lessee.

Section 28. Insufficiency of Net Proceeds. If the Net Proceeds are insufficient to pay in full the cost of any repair, restoration, modification or improvement referred to in Section 27 hereof, Lessee will either (a) complete such replacement, repair, restoration, modification or improvement and pay any costs thereof in excess of the amount of the Net Proceeds, or (b) purchase Lessor's interest in the Equipment pursuant to Section 31 hereof. The amount of the Net Proceeds, if any, remaining after completing such repair, restoration, modification or improvement or after purchasing the Equipment will be retained by Lessee. If Lessee will make any payments pursuant to this Section, Lessee will not be entitled to any reimbursement therefor from Lessor nor will Lessee be entitled to any diminution of the amounts payable under Section 9 hereof.

Section 29. Disclaimer of Warranties. LESSOR MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, AS TO THE VALUE, DESIGN, CONDITION, MERCHANTABILITY OR FITNESS FOR PARTICULAR USE OR PURPOSE OF THE EQUIPMENT OR AGAINST INFRINGEMENT, OR ANY OTHER WARRANTY OR REPRESENTATION WITH RESPECT THERETO. IN NO EVENT SHALL LESSOR BE LIABLE FOR ANY ACTUAL, INCIDENTAL, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGE IN CONNECTION WITH OR ARISING OUT OF THIS AGREEMENT OR THE EXISTENCE, FURNISHING, FUNCTIONING OR LESSEE'S USE OR MAINTENANCE OF ANY EQUIPMENT OR SERVICES PROVIDED FOR IN THIS AGREEMENT.

Section 30. Vendors' Warranties. Lessee may have rights under the Energy Savings Agreements evidencing the purchase of the Equipment; Lessee is advised to contact each Vendor for a description of any such rights. Lessee hereby assigns to Lessor during the Lease Term all warranties running from Vendor to Lessee. Lessor hereby irrevocably appoints Lessee its agent and attorney-in-fact during the Lease Term, so long as Lessee will not be in default hereunder, to assert from time to time whatever claims and rights (including without limitation warranties)

related to the Equipment that Lessor may have against the Vendor. Lessee's sole remedy for the breach of any such warranty, indemnification or representation will be against the applicable Vendor, and not against Lessor. Any such matter will not have any effect whatsoever on the rights and obligations of Lessor with respect to this Agreement, including the right to receive full and timely payments hereunder. Lessee expressly acknowledges that Lessor makes, and has made, no representations or warranties whatsoever as to the existence or availability of such warranties by any of the Vendors.

Section 31. Purchase Option; Prepayment.

(a) Lessee will have the option to purchase the Equipment, upon giving written notice to Lessor at least 30 days before the date of purchase, at the following times and upon the following terms:

(i) On any Rental Payment Date, upon payment in full of the Rental Payment then due hereunder plus all other amounts due hereunder plus the then-applicable Purchase Price to Lessor;

(ii) In the event of substantial damage to or destruction or condemnation (other than by Lessee or any entity controlled by or otherwise affiliated with Lessee) of substantially all of the Equipment, on the day Lessee specifies as the purchase date in Lessee's notice to Lessor of its exercise of the purchase option, upon payment in full of the Rental Payment and all other amounts then due hereunder plus (A) the Purchase Price designated on the Payment Schedule for such purchase date if such purchase date is a Rental Payment Date or the Purchase Price for the immediately preceding Rental Payment Date if such purchase date is not a Rental Payment Date, and (B) if such day is not a Rental Payment Date, an amount equal to the portion of the interest component of the Rental Payment scheduled to come due on the following Rental Payment Date accrued from the immediately preceding Rental Payment Date to such purchase date, computed on the basis of a 360-day year of four ninety (90) day quarters; or

(b) In the event monies remain in any escrow fund established under an escrow agreement, upon receipt by the escrow agent under such escrow agreement of a duly executed certificate of acceptance and payment request identified as the final such request, the remaining monies in such escrow fund shall, first be applied to all reasonable fees and expenses incurred by such escrow agent, if applicable, in connection with such escrow fund as evidenced by its statement forwarded to Lessor and Lessee; and, second be paid to Lessor, for application against the outstanding principal components of Rental Payments, including prepayment of Rental Payments hereunder, unless Lessor directs that payment of such amount be made in such other manner that, in the opinion of nationally recognized counsel in the area of tax exempt municipal obligations satisfactory to Lessor, will not adversely affect the exclusion of the interest components of Rental Payments from gross income for federal income tax purposes. If any such amount is applied against the outstanding principal components of Rental Payments, the Payment Schedule attached hereto will be revised accordingly.

Upon the exercise of the option to purchase set forth above, title to the Equipment will be vested in Lessee, free and clear of any claim by or through Lessor.

Section 32. Determination of Fair Purchase Price. Lessee and Lessor hereby agree and determine that the Rental Payments hereunder represent the fair value of the use of the Equipment and that the amount required to exercise Lessee's option to purchase the Equipment pursuant to Section 31 hereof represents, as of the date of exercise of such option, the fair purchase price of the Equipment. Lessee hereby determines that the Rental Payments do not exceed a reasonable amount so as to place Lessee under a practical economic compulsion to renew this Agreement or to exercise its option to purchase the Equipment hereunder. In making such determinations, Lessee and Lessor have given consideration to (a) the costs of the Equipment, (b) the uses and purposes for which the Equipment will be employed by Lessee, (c) the benefit to Lessee by reason of the acquisition and installation of the Equipment and the use of the Equipment pursuant to the terms and provisions of this Agreement, and (d) Lessee's option to purchase the Equipment. Lessee hereby determines and declares that the acquisition and installation of the Equipment and the leasing of the Equipment pursuant to this Agreement will result in equipment of comparable quality and meeting the same requirements and standards as would be necessary if the acquisition and installation of the Equipment were performed by Lessee other than pursuant to this Agreement. Lessee hereby determines and declares that the Lease Term does not exceed 120% the useful life of the Equipment.

Section 33. Assignment by Lessor. Lessor's interest in, to and under this Agreement and the Equipment may be assigned and reassigned in whole or in part to one or more assignees by Lessor without the necessity of obtaining the consent of Lessee; provided that any assignment will not be effective against Lessee until (a) Lessee has received written notice of the name and address of the assignee and (b) in the event that such assignment is made to a bank or trust company for holders of certificates representing interests in this Agreement, such bank or trust company agrees to maintain, or cause to be maintained, a register by which a record of the names and addresses of such holders as of any particular time is kept and agrees, upon request of Lessee, to furnish such information to Lessee. Lessee will retain all such notices as a register of all assignees and will make all payments to the assignee or assignees designated in such register. Lessee agrees to execute all documents, including notices of assignment and chattel mortgages or financing statements that may be reasonably requested by Lessor or any assignee to protect its interest in the Equipment and in this Agreement and agrees to the filing of financing statements with respect to the Equipment and this Agreement. Lessee will not have the right to and will not assert against any assignee any claim, counterclaim, defense, set-off or other right Lessee may have against Lessor.

Section 34. Assignment and Subleasing by Lessee. None of Lessee's right, title and interest in, to and under this Agreement and the Equipment may be assigned or encumbered by Lessee for any reason, except that Lessee may sublease all or part of the Equipment if Lessee obtains the prior written consent of Lessor and an opinion of nationally recognized counsel in the area of tax exempt municipal obligations satisfactory to Lessor that such subleasing will not adversely affect the exclusion of the interest components of the Rental Payments from gross income for federal income tax purposes. Any such sublease of all or part of the Equipment will be subject to this Agreement and the rights of Lessor in, to and under this Agreement and the Equipment.

Section 35. Events of Default Defined. Any of the following will be "Events of Default" under this Agreement:

(a) Failure by Lessee to pay any Rental Payment or other payment required to be paid hereunder at the time specified herein;

(b) Failure by Lessee to observe and perform any covenant, condition or agreement on its part to be observed or performed, other than as referred to in subsection (a) of this Section 35, for a period of 30 days after written notice, specifying such failure and requesting that it be remedied, is given to Lessee by Lessor, unless Lessor will agree in writing to an extension of such time prior to its expiration; provided, however, if the failure stated in the notice cannot be corrected within the applicable period, Lessor will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by Lessee within the applicable period and diligently pursued until the default is corrected;

(c) Any statement, representation or warranty made by Lessee in or pursuant to this Agreement or its execution, delivery or performance will prove to have been false, incorrect, misleading or breached in any material respect on the date when made;

(d) Any provision of this Agreement will at any time for any reason cease to be valid and binding on Lessee, or will be declared to be null and void, or the validity or enforceability thereof will be contested by Lessee or any governmental agency or authority if the loss of such provision would materially adversely affect the rights or security of Lessor, or Lessee will deny that it has any further liability or obligation under this Agreement;

(e) Lessee will (i) apply for or consent to the appointment of a receiver, trustee, custodian or liquidator of Lessee, or of all or a substantial part of the assets of Lessee, (ii) be unable, fail or admit in writing its inability generally to pay its debts as they become due, (iii) make a general assignment for the benefit of creditors, (iv) have an order for relief entered against it under applicable federal bankruptcy law, or (v) file a voluntary petition in bankruptcy or a petition or an answer seeking reorganization or an arrangement with creditors or taking advantage of any insolvency law or any answer admitting the material allegations of a petition filed against Lessee in any bankruptcy, reorganization or insolvency proceeding; or

(f) An order, judgment or decree will be entered by any court of competent jurisdiction, approving a petition or appointing a receiver, trustee, custodian or liquidator of Lessee or of all or a substantial part of the assets of Lessee, in each case without its application, approval or consent, and such order, judgment or decree will continue unstayed and in effect for any period of 30 consecutive days.

Section 36. Remedies on Default. Whenever any Event of Default exists, Lessor will have the right, at its sole option without any further demand or notice, to take one or any combination of the following remedial steps:

(a) By written notice to Lessee, Lessor may declare all Rental Payments and other amounts payable by Lessee hereunder to the end of the Lease Term to be due;

(b) With or without terminating this Agreement, Lessor may enter the premises where the Equipment is located and retake possession of the Equipment or require Lessee at Lessee's expense to promptly return any or all of the Equipment to the possession of Lessor at a place specified by Lessor, and sell or lease the Equipment or, for the account of Lessee, sublease the Equipment,

holding Lessee liable for the difference between (i) the Rental Payments and other amounts payable by Lessee hereunder plus the applicable Purchase Price, and (ii) the net proceeds of any such sale, lease or sublease (after deducting all expenses of Lessor in exercising its remedies under this Agreement, including without limitation, all expenses of taking possession, storing, reconditioning and selling or leasing the Equipment and all brokerage, auctioneers' and attorneys' fees) provided that the amount of Lessee's liability under this subparagraph (b) shall not exceed the Rental Payments and other amounts otherwise due hereunder plus the remaining Rental Payments and other amounts payable by Lessee to the end of the Lease Term; and

(c) Lessor may take whatever other action at law or in equity, including mandamus, as may appear necessary or desirable to enforce its rights as the owner of the Equipment.

In addition, Lessee will remain liable for all covenants and indemnities under this Agreement and for all legal fees and other costs and expenses, including court costs, incurred by Lessor with respect to the enforcement of any of the remedies listed above or any other remedy available to Lessor.

Section 37. No Remedy Exclusive. No remedy herein conferred upon or reserved to Lessor is intended to be exclusive and every such remedy will be cumulative and will be in addition to every other remedy given under this Agreement or now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default will impair any such right or power or will be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle Lessor to exercise any remedy reserved to it in this Agreement it will not be necessary to give any notice, other than such notice as may be required in this Agreement.

Section 38. WAIVER OF JURY TRIAL. TO THE EXTENT PERMITTED BY LAW, EACH OF THE PARTIES HERETO EXPRESSLY WAIVES THE RIGHT TO TRIAL BY JURY IN RESOLVING ANY CLAIM OR COUNTERCLAIM RELATING TO OR ARISING OUT OF THIS AGREEMENT.

Section 39. Notices. All notices, certificates or other communications hereunder will be sufficiently given and will be deemed given when delivered or mailed by registered mail, postage prepaid, to the parties at the addresses immediately after the signatures to this Agreement (or at such other address as either party hereto will designate in writing to the other for notices to such party), to any assignee at its address as it appears on the register maintained by Lessee.

Section 40. Binding Effect. This Agreement will inure to the benefit of and will be binding upon Lessor and Lessee and their respective successors and assigns.

Section 41. Severability. In the event any provision of this Agreement will be held invalid or unenforceable by any court of competent jurisdiction, such holding will not invalidate or render unenforceable any other provision hereof.

Section 42. Entire Agreement. This Agreement constitutes the entire agreement between Lessor and Lessee.

Section 43. Amendments. This Agreement may be amended, changed or modified in any manner by written agreement of Lessor and Lessee. Any waiver of any provision of this Agreement or any right or remedy hereunder must be affirmatively and expressly made in writing and will not be implied from inaction, course of dealing or otherwise.

Section 44. Execution in Counterparts. This Agreement may be simultaneously executed in several counterparts, each of which will be an original and all of which will constitute but one and the same instrument.

Section 45. Captions. The captions or headings in this Agreement are for convenience only and in no way define, limit or describe the scope or intent of any provisions or sections of this Agreement.

Section 46. Applicable Law. This Agreement will be governed by and construed in accordance with the laws of the State.

Section 47. Electronic Transactions. The parties agree that the transaction described herein may be conducted and related documents may be stored by electronic means. Copies, telecopies, facsimiles, electronic files and other reproductions of original executed documents shall be deemed to be authentic and valid counterparts of such original documents for all purposes, including the filing of any claim, action or suit in the appropriate court of law.

Section 48. Role of Lessor. Lessor has not acted and will not act as a fiduciary for Lessee or as Lessee's agent or municipal advisor. Lessor has not and will not provide financial, legal, tax, accounting or other advice to Lessee or to any financial advisor or placement agent engaged by Lessee with respect to this Agreement. Lessee, its financial advisor, placement agent or municipal advisor, if any, shall each seek and obtain its own financial, legal, tax, accounting and other advice with respect to this Agreement from its own advisors (including as it relates to structure, timing, terms and similar matters). Section 49. Participation of Agreement from Lessor to SNFC. Lessor hereby notifies Lessee, and Lessee hereby acknowledges such notification, that simultaneously with the execution and delivery of this Agreement, Lessor will enter into a participation agreement with Sterling National Funding Corp., a New York corporation and a wholly-owned subsidiary of Lessor ("SNFC"), whereby Lessor will sell to SNFC a 100% participation interest in this Agreement at par. Lessor will continue to service this Agreement and collect all Rental Payments and payment of the Purchase Price hereunder.

Section 49. Participation of Agreement from Lessor to SNFC. Lessor hereby notifies Lessee, and Lessee hereby acknowledges such notification, that simultaneously with the execution and delivery of this Agreement, Lessor will enter into a participation agreement with Sterling National Funding Corp., a New York corporation and a wholly-owned subsidiary of Lessor ("SNFC"), whereby Lessor will sell to SNFC a 100% participation interest in this Agreement at par. Lessor will continue to service this Agreement and collect all Rental Payments and payment of the Purchase Price hereunder.

Section 50. Lessee's Notice Filings Related to this Agreement for SEC Rule 15c2-12. In connection with Lessee's compliance with any continuing disclosure undertakings (each, a "Continuing Disclosure Agreement") entered into by Lessee on and after February 27, 2019,

pursuant to SEC Rule 15c2-12 promulgated pursuant to the Securities and Exchange Act of 1934, as amended (the "Rule"), Lessor acknowledges that Lessee may be required to file with the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system, or its successor ("EMMA"), notice that Lessee has incurred obligations under this Agreement and notice of certain subsequent events reflecting financial difficulties in connection with this Agreement. Lessee agrees that it shall not file or submit, or permit to be filed or submitted, with EMMA any documentation that includes the following unredacted sensitive or confidential information about Lessor or its affiliates: address and account information of Lessor or its affiliate, e-mail addresses, telephone numbers, fax numbers, names and signatures of officers, employees and signatories of Lessor or its affiliates, or any account information for any related escrow agreement, unless otherwise required for compliance with the Rule or otherwise required by law. Lessee acknowledges that Lessor is not responsible for Lessee's compliance or noncompliance with the Rule or any Continuing Disclosure Agreement.Section 50. Lessee's Notice Filings Related to this Agreement for SEC Rule 15c2-12. In connection with Lessee's compliance with any continuing disclosure undertakings (each, a "Continuing Disclosure Agreement") entered into by Lessee on and after February 27, 2019, pursuant to SEC Rule 15c2-12 promulgated pursuant to the Securities and Exchange Act of 1934, as amended (the "Rule"), Lessor acknowledges that Lessee may be required to file with the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system, or its successor ("EMMA"), notice that Lessee has incurred obligations under this Agreement and notice of certain subsequent events reflecting financial difficulties in connection with this Agreement. Lessee agrees that it shall not file or submit, or permit to be filed or submitted, with EMMA any documentation that includes the following unredacted sensitive or confidential information about Lessor or its affiliates: address and account information of Lessor or its affiliate, e-mail addresses, telephone numbers, fax numbers, names and signatures of officers, employees and signatories of Lessor or its affiliates, or any account information for any related escrow agreement, unless otherwise required for compliance with the Rule or otherwise required by law. Lessee acknowledges that Lessor is not responsible for Lessee's compliance or noncompliance with the Rule or any Continuing Disclosure Agreement.

[SIGNATURE PAGES FOLLOW.]

IN WITNESS WHEREOF, Lessor and Lessee have caused this Agreement to be executed in their corporate names by their duly authorized officers as of the date first above written.

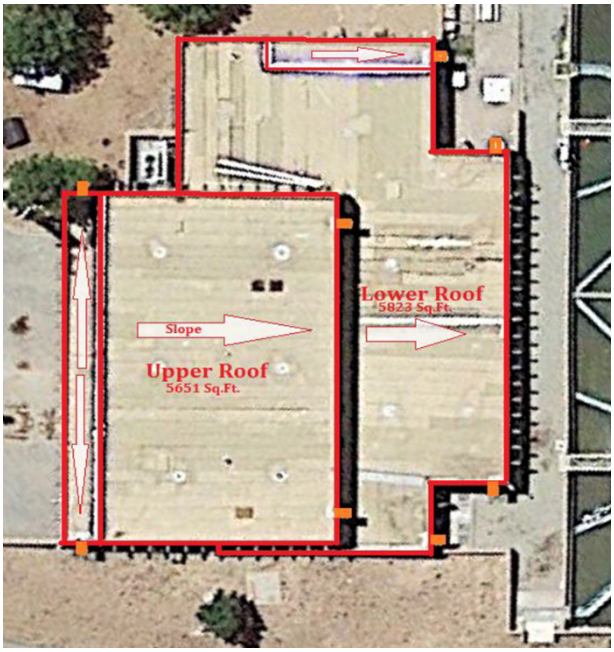
- 8.00 Roof Replacement



Replacement of the entire Canyon Road WTP Main Building roof surface is recommended due to the age-related deterioration noted above. No HVAC equipment or systems are included in the work scope. Should the COSF decide to replace the HVAC equipment at this facility in the future, YE recommends that the engineer of record perform the load calculations to properly size the equipment based on conditions at that time.

The modifications are as follows:

6. Provide architect stamped drawings for a permit as required by the City of Santa Fe
7. Remove all roofing, insulation, base flashings, misc. flashings and related metal components
8. Install two layers 3.2” poly-iso and 1/4” Invinsa Board in 2-part poly-urethane adhesive – The total R-Value of the new insulation and cover board is approximately 38.62 which exceeds the City of Santa Fe requirements
9. Install new adhered 80 mil PVC membrane
10. Install adhered 60 mil PVC base flashings at walls, parapets and curbs
11. Install new PVC clad gutter liner and scuppers

12. Install new prefinished coping at divider parapet and counter flashings
13. Install miscellaneous flashings and accessories
14. Provide 20-year NDL labor and materials warranty.

FIR No. 3306

FISCAL IMPACT REPORT

General Information:

(Check) Bill: X Resolution: _____

Short Title: Solar Lease Purchase Agreement

Sponsor(s): Mayor Alan Webber, Councilors Lindell and Rivera

Reviewing Department(s): Public Works, Finance

Staff Completing FIR: Bradley Fluetsch, CFA Date: 1/15/2021 Phone: 955-6885

Reviewed by City Attorney: _____ Date: Jan 22, 2021

Reviewed by Finance Director: Mary McCoy Date: Feb 2, 2021

Summary:
This Ordinance authorizes the execution and delivery of a lease-purchase agreement between the City and (TBD) counterparty to pay up to $20,000,000 for acquiring, installing, and equipping the energy efficiency measures throughout the City, providing pledge of energy savings per the contracts with Yearout Energy Solutions Company, LLC and Dalkia Energy Solutions, LLC.

Departments Affected:
Public Works, Finance

Consequences of Not Enacting Legislation:
Without this financing package, the City would be forced to use its bond capacity to implement these projects and would forego the opportunity to leverage the energy savings to finance the capital expenditures. The other alternative would be to forego the projects and not achieve the energy savings or the safety or environmental benefits as stated in its companion legislation.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This legislation has two companion pieces of legislation, an Ordinance approving the Global Management Performance contract with Dalkia Energy Solutions, LLC for upgrades to the City's streetlights and an ordinance accepting the investment grade energy audit and Energy Performance Contract with Yearout Energy Solutions Company, LLC.

Performance and Administrative Implications:
Finance staff will need to insure that the energy savings is budgeted in the special revenue fund where the semi-annual debt service will be made from. Monitoring of the actual energy savings relative to the guarantee of the Yearout agreement will be a necessary administrative burden. The energy savings from the Dalkia Energy Solutions, LLC agreement will also need to be measured and quantified for the special revenue fund as well.

Fiscal Implications:
The City is taking advantage of low interest rates and leveraging the energy savings for this capital expenditure that improves the safety of the citizens and reduces the City's carbon footprint, with the majority of the savings guaranteed. This transaction does not impact the City's GRT or GO bond capacity.

Fiscal Impact:
The City locks in an energy savings that funds the debt service that purchases the capital equipment to generate the savings. With a significant portion of the savings guaranteed, there is little fiscal impact to the City. The impact is the improvement to public safety, reduction of the City's carbon footprint.

What energy efficient systems will be installed? If it is up to Public Works to maintain then I think it is a mistake given the negligence in operating recreational facilities. There are solar panels already in place
What the city really needs to do is open the other recreational (wellness) centers (Ft Marcy and Salvador Perez) so there is more opportunity for our wellbeing. The city could also be lobbying the governor to allow one swimmer per lane at Chavez which has very wide short course lanes Just to share the utter negligence of the Public Works staff--yesterday the air temp in the pool area was 71 degrees--well below the 5 degree differential with the 83 degree water temp in the pool. Wheeler head of public works complained about the complexity of the system which has been in place for over 20 years (you would think that there would be institutional knowledge on how to operate it). One of her staff finally gave a date for the fix on the air temp heater at the pool--apparently it took several months for Public Works to get a purchase order approved to get the repair done. As a result the pool area now has serious rusting on its metal framed windows--due to the condensation from the too great air differential--tens of thousands of dollars to remediate the damage caused by the too little too late response of Public Works.
I agree that the city could have at least one more session in the evening (Chavez was open 5:30AM to 8:30 PM M-Th and open on Sundays. Why the Sunday cutback--who knows? Maybe ask the union. Meeting rec/wellness needs of its citizens apparently ranks way down there on the mayor's and city manager's list who have held up the opening of even Ft Marcy.
OH BTW when I asked about reopening one of those facilities I was told by Public Works staff that all the heaters in those two facilities were working. However it was the POOL heater that had not been properly installed or tested during the 2 plus years 2.5 million dollar renovation of Perez. How much negligence do we have to suffer from staff who seemingly will have a job no matter how negligent. Wheeler allowed THREE break ins at Perez during the renovation project before she decided to actually secure the bldg. This kind of negligence would only happen in city government.

19. PUBLIC HEARINGS

d. CONSIDERATION OF BILL NO. 2021-4. ADOPTION OF ORDINANCE NO. 2021-4. (Mayor Alan Webber, Councilor Lindell and Councilor Rivera)

An Ordinance Approving Lease-Purchase Agreement and Escrow Agreement with Sterling National Bank for the Purpose of Financing the Installation of Energy Efficiency Measures in City Facilities Pursuant to the Energy Savings Performance Contract with Yearout Energy Services, LLC and the Global Management Performance Contract with Dalkia Energy Solutions, LLC. (Brad Fluetsch, City of Santa Fe Cash and Investment Manager, bjfluetsch@santafenm.gov, 955-6885)

This needs more consideration. Putting up this type of lightning in Santa Fe could affect how the sky can be viewed. Traveling to and living in Santa Fe the view of the night sky is important to many people. Don't destroy it.

My wife and I support street light upgrading to LED lights however ask the council to mandate that they be no more than 2,700 Kelvin for neighborhoods and arterials so the light bounce is kept to a minimum protecting our night skies and additionally that the lights be in a balanced blue-red wavelength so it's a more natural light. Blue light adversely affects insects and animals.

Dear Mr. Mayor and Counilors:

While recognizing the important benefits associated with LED lighting, I urge you to delay acting on this proposal in its present form.
* The 3000 – 4000 K color temperature of the proposed lighthing has been noted to have serious health effects, leading to a (rare) warning and recommendation from the AMA that outdoor street and roadway lighting be held to lower than 3000 K as an upper limit.
* Highway safety experts have long noted that high CCT lighting increases roadway glare, and that low (2200 - 2700 K) lighting is preferred for its superior penetrating ability through dust and other particulates.
* The color temperature of the proposed lighting is also documented, by the US Naval Observatory, the National Optical Astronomical Observatory, and the American Astronomical Society, to seriously degrade the night sky environment for everything from casual stargazing to amateur astronomy.
* A number of cities that installed higher CCT lighthing have been compelled, by resident complaints, to retrofit lower temperature alternatives at a not inconsiderable expense.

No case has been made for choosing the high CCT lighting in this proposal relative to lower temperature (2200 – 2700 K) lighting. Several representations made to you to justify this proposal – such as non-existent NMDOT "requirements", or denial of effects on the night sky environment – have been shown to be false. The lower temperature LED lighting alternatives are no more expensive than the higher temperature lights in the current proposal, no less available, no less reliable, and avoid all the public health and safety, and night sky environment issue that the higher CCT lighting causes.

I urge you to delay this decision until you have in hand solid and verified facts on the lower temperature lighting alternatives and can make an informed judgement.

Thank you for yuor time and your efforts to get this decision right.

Sincerely,

Sam Finn

I am excited the city wants to replace our current, outdated roadway lighting. We all want to save money and be energy efficient. However, the current lighting implementation plan threatens to overshoot the best practices recommended for this kind of project.

The city has a great opportunity to demonstrate responsible leadership with respect to the street lighting retrofit. Rather than follow the pack and do what has been done in other cities, Santa Fe should practice due diligence and get more fully informed about potentially expensive consequences when poor choices are made for projects of this nature.

Correlated color temperatures at 3000K and 4000K will produce a higher level of blue light output than lower Kelvin ratings. The diagram released by the city spokesperson is misleading as it only addresses Kelvin scale. If Kelvin is the skin, correlated color temperature is the guts.

Others and I have looked for any document that states NMDOT requires 4000K for roadway lighting. So far, we haven't been able to confirm this is the case.

Much of the current plan seems based upon vendor-driven specs and cites an obscure industry trade magazine from Western Australia to justify 4000K.

I request the city postpone approval for contracts with Dalkia, allow time for a comprehensive review of the plan, and seek recommendations from an independent source. Consider hiring a PE who specializes in roadway lighting for urban settings, form an advisory group like the tourism recovery group, and provide opportunities for city staff and elected officials to learn about sensible lighting practices.

Let's take the time to get this right.

Respectfully,

Peter Lipscomb

Do not seek financing for the Dalkia GMPC. The proposed replacement of streetlights is a good idea, but the use of LED lights with 4000K color temperature is inappropriate and indefensible. See comments for item 19.b.

I urge the City to either secure a guarantee that all new LED lighting adheres to a color temperature of 2700K or cancel this project. The American Medical Association (AMA) has issued a statement that warns of negative health impacts when using lights with color temperatures over 3000K.

A white LED at CT 4,000 K contains a high level (over 30%) of short wavelength, blue light. These overly blue harsh lights are damaging to the environment and have adverse human health effects. In some locations where they were installed, such as the city of Davis, California, residents demanded a complete replacement of these high CT street lights for lower CCT lighting. ***Cities that have followed the AMA recommendations and adopted 3,000 K or 2,700 K have seen much greater acceptance of LED lighting, and with much lower blue content which is better for human and environmental health, and reduces glare and is thus safer for driving.***

The AMA has made three recommendations in its policy statement: First, the AMA supports a "proper conversion to community based Light Emitting Diode (LED) lighting, which reduces energy consumption and decreases the use of fossil fuels." Second, the AMA "encourage[s] minimizing and controlling blue-rich environmental lighting by using the lowest emission of blue light possible to reduce glare." ***Third, the AMA "encourage[s] the use of 3,000 K or lower lighting for outdoor installations such as roadways.*** *All LED lighting should be properly shielded to minimize glare and detrimental human and environmental effects, and consideration should be given to utilize the ability of LED lighting to be dimmed for off-peak time periods."*

I have briefly reviewed the "Santa Fe Implementation Plan" for the city's street lighting changes.

It appears to me that this plan fails to comply with the New Mexico Electrical Code requirements.

The city should delay action and consult with a Professional Engineer with expertise in lighting and electrical installations before proceeding.
