- Additional unanticipated costs for HVAC in Visual Arts Center of over $3.8m and new ineligibility of entire Midtown site for Federal New Market Tax Credits created a delta of over $8m from original anticipated fundraising needs.
- High performance, all-electric HVAC and PV panels help project to access $4m in Greenhouse Gas Reduction Funds.
- Seeking to leverage all possible sources, with needed philanthropy capital estimated at $15-16m, low interest loan at $4m, and remaining $4-5m from government and foundation programs/ sources.
- Costs are conservative and include multiple contingencies: soft costs, design & estimating, owner's construction, & construction escalation contingencies.
- Max. bridge loan estimated at $3.5m based on construction cash needs.

FUNDRAISING FEASIBILITY ANALYSIS

Fundraising consultant Serafina Company, led by Emilie de Angelis, conducted philanthropic market study seeking direct input on the project and interest in philanthropic support. Top reasons people want to financially support MADA include:

- **MADA Strengthens Innovation.**
- **MADA Invests in Young Talent.**
- **MADA Provides Direct Community.**
- **MADA Invests in Sustainable Development.**
- **MADA Saves and Repurposes Iconic, Significant Buildings.**

FUNDING COMMITMENTS TO DATE

Original Contract Item# 23-0548
RFP #: 23/17/P

CITY OF SANTA FE
AMENDMENT No. 2 TO
EXCLUSIVE NEGOTATING AGREEMENT
ITEM# 23-0548

This AMENDMENT No. 2 (the "Amendment") amends the CITY OF SANTA FE MIDTOWN SITE DEVELOPMENT EXCLUSIVE NEGOTIATING AGREEMENT, dated September 5, 2023 (the "Agreement"), between the City of Santa Fe (the "City") and Santa Fe Art Institute (the "Offeror"), collectively the “Parties”. The date of this Amendment shall be the date when it is executed by the City and the Offeror whichever occurs last.

RECITALS:

A. Parties entered into the Agreement, an Exclusive Negotiating Agreement pursuant to RFP #: 23/17/P, on September 5, 2023.

B. Parties entered in Amendment Number 1 extending the term to December 31, 2024 in August 2024.

C. Parties now desire to Amend the Agreement to extend the Term.

NOW, THEREFORE, the Parties hereby agree that the Agreement is amended as follows:

TERM:

Article 2 of the Agreement is hereby deleted in its entirety and substitute the following Article 2 in its place:

2.1 Effective Date and Initial Term. This Agreement shall be effective as of September 5, 2023 and shall terminate on April 30, 2025.

2.2 Extended Term. If the Parties have not executed and delivered a DDA during the Initial Term, then either party may extend the Initial Term of this Agreement for two (2) additional months ("Extended Term"). Together, the Initial Term and any Extended Term are referred to as "Term". A party shall exercise the right to extend the Initial Term by giving written notice thereof to other Party on or before the last day of the Initial Term. The City Manager, acting on behalf of the City, shall have the right to extend the Initial Term.

AGREEMENT IN FULL FORCE.

Except as specifically provided in this Amendment, the Agreement remains and shall remain in full force and effect, in accordance with its terms.

IN WITNESS WHEREOF, the parties have executed this Amendment No. 2 to the Contract as of the dates set forth below.

CAPTION

Request for Approval of Amendment No. 2 to Item #23-0548, Exclusive Negotiation Agreement (ENA) with Santa Fe Arts Institute (SFAI), to Extend the Term through April 30, 2025 to Negotiate Terms for Land and Building Disposition and Development of the Midtown Visual Arts Center Pursuant to the City's Request for Proposals: #23/17/P. (Daniel Hernandez, Metropolitan Redevelopment Agency Direct: dahernandez@santafenm.gov)

Committee Review

Public Works and Utilities Committee: 12/02/2024
Quality of Life Committee: 12/04/2024
Finance Committee: 12/09/2024
Governing Body: 12/11/2024

Date: November 21, 2024

To: Governing Body, Public Works and Utilities Committee, Quality of Life Committee, Finance Committee

From: Daniel Hernandez, Director, Metropolitan Redevelopment Agency (MRA)

Via: Randy Randall, Interim Community Development Director

Subject: Request for Approval of Amendment No. 2 to Item #23-0548, Exclusive Negotiation Agreement (ENA) with Santa Fe Arts Institute (SFAI), to Extend the Term through April 30, 2025 to Negotiate Terms for Land and Building Disposition and Development of the Midtown Visual Arts Center Pursuant to the City's Request for Proposals: #23/17/P

This request for an extension of the Exclusive Negotiation Agreement (ENA) is to finalize the terms of a Disposition and Development Agreement (DDA) for the Redevelopment of the Midtown Visual Arts Center. The Metropolitan Redevelopment Agency (MRA) and the Santa Fe Arts Institute (SFAI), together, the Parties (Parties), have agreed to the ENA extension.

- The Governing Body adopted the Midtown Master Plan on November 30, 2022 (Resolution #2022-68)
- The Governing Body adopted the Midtown Community Development Plan on January 25, 2023 (Resolution #2023-5)

Together the Midtown Master Plan and the Midtown Community Development Plan are the Midtown Redevelopment Plans that establish the regulatory requirements and policy guidelines for development proposals at the Midtown Site.

- The City of Santa Fe issued a Request for Proposal for the Redevelopment of the Visual Arts Center RFP #23/17/P), pursuant to the Midtown Redevelopment Plans, on December 1, 2022.
- SFAI responded to the RFP and based on the proposal, the Parties entered an ENA dated September 5, 2023.
- The Parties entered in Amendment 1 extending the initial term of the ENA to December 31, 2024.
- SFAI has completed or will have completed the due diligence activities and associated deliverables described in the ENA by or around December 31, 2024.
- The Parties are prepared to commence negotiations to finalize the terms of a DDA based on the proposal submitted by SFAI in response to the City’s RFP and are therefore requesting an extension to April 30, 2025 to finalize the terms of the DDA.

From: **Brian Williams, Office of Emergency Management Director**
BRIAN WILLIAMS (Oct 31, 2024 15:50 MDT)

Subject: **Grant Award Approval – 2024 State Homeland Security Grant Program**

ITEM AND ISSUE:
The Office of Emergency Management respectfully requests your review and approval of a grant agreement in the total amount of $283,975.00 for the purchase of emergency preparedness equipment, specialized training, and contracted support for The Office of Emergency Management and the Santa Fe Police Department for a term of 24 months with The New Mexico Department of Homeland Security and Emergency Management.

The Office of Emergency Management respectfully requests your review and approval of an FY25 BAR to budget $283,975.00 in awarded Federal grant funds to the Office of Emergency Management.

Action Requested: Grant Approval, BAR Approval

BACKGROUND AND SUMMARY:
The City of Santa Fe applied for this 100% federally funded grant through the United States Department of Homeland Security, administered by the New Mexico Department of Homeland Security and Emergency Management to fund development and sustainment of emergency preparedness capabilities. Projects are competitively awarded by NM DHSEM in accordance with State and local funding priorities.

The Emergency Management Director is responsible for ensuring the conditions of this grant are met, including providing and receiving required training, citywide compliance with the National Incident Management System, conducting emergency response exercises, and developing and maintaining appropriate emergency management plans for the City. All expenditures must be pre-approved by the New Mexico Department of Homeland Security and Emergency Management.

The Office of Emergency Management and the Santa Fe Police Department collaborated to secure this grant for the following purchases:

Project 1. Replacement plate armor for all SFPD Officers ($119,000)
Existing equipment has reached the end of its useful life, is outside of warranty, and needs replacement. This purchase will support the protection of soft targets and crowded places by providing all officers who may be the first on scene at a critical incident with reliable, up-to-date personal protective equipment.

Project 2. Mobile Broadband Kit for the Office of Emergency Management ($11,000)
This purchase will allow City of Santa Fe public safety personnel to maintain efficient operational coordination, communication, and information sharing during emergencies by ensuring uninterrupted broadband access.

Project 3. Replacement ballistic helmets for all SFPD Officers ($49,003)
Existing equipment has reached the end of its useful life, is outside of warranty, and needs replacement. This purchase will support the protection of soft targets and crowded places by providing all officers who may be the first on scene at a critical incident with reliable, up-to-date personal protective equipment

Project 4. Advanced SWAT Course for 8 SWAT Team Officers ($14,494)
The Santa Fe Police Department currently maintains a NIMS Type II SWAT Team. Due to natural attrition from retirements or transfers to other departments, there is a shortage of SWAT operators with this high-level certification. This training will close the current training gap that exists and ensure that our Type II SWAT Team sustains their capabilities.

Project 5. SWAT Advanced Sniper Course for 2 SWAT Team Officers ($3,010)
The Santa Fe Police Department currently maintains a NIMS Type II SWAT Team. Due to natural attrition from retirements or transfers to other departments, there is a shortage of SWAT operators with this high-level certification. This training will close the current training gap that exists and ensure that our Type II SWAT Team sustains their capabilities.

Project 6. SWAT Master Breacher Course for 4 SWAT Team Officers ($22,310)
The Santa Fe Police Department currently maintains a NIMS Type II SWAT Team. Due to natural attrition from retirements or transfers to other departments, there is a shortage of SWAT operators with this high-level certification. This training will close the current training gap that exists and ensure that our Type II SWAT Team sustains their capabilities.

Project 7. ESRI Advantage Program subscription to support Emergency Management GIS capabilities ($65,158)
This subscription service renewal will support the continuing development of an emergency management geospatial strategy to improve emergency planning, public information and warning, and operational coordination efforts.

The term of the grant ends on September 30, 2026.

WHEREAS, the New Mexico Department of Homeland Security and Emergency Management (NMDHSEM) has been designated by the United States Department of Homeland Security (USDHS) to serve as grantee and is thereby authorized to issue this agreement to the applicant, subrecipient, and subgrantee.

WHEREAS, funding has been obligated from the USDHS pursuant to a request by the applicant, subrecipient, and subgrantee.

NOW, THEREFORE it is mutually understood and agreed between the grantee, NMDHSEM, and subgrantee, **City of Santa Fe** hereinafter referred to as "subrecipient" as follows:

ARTICLE 1: SUBGRANT AGREEMENT DOCUMENTS

The following additional subgrant agreement documents are fully incorporated into this agreement and thereby constitute additional terms and conditions of this agreement:

This Agreement:

- The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov
- Attachment 1: USDHS Standard Terms and Conditions (November 29, 2022) which are incorporated by reference into this Subgrant Agreement.
- Attachment 2: Reimbursement Checklist.
- Attachment 3: NQS Implementation Phase Objectives
- Attachment 4: Glossary and Definitions.
- Attachment 5: Acronyms.

ARTICLE 2: SCOPE OF WORK

As authorized by Section 2002 of the Homeland Security Act of 2002, as amended, (Pub. L. No. 107-296 as amended) (6 U.S.C Section 603), and the Department of Homeland Security Consolidated Appropriations Act, 2023 (Pub. L. No. 117-328), the subrecipient shall use State Homeland Security Grant Program (SHSGP) funds to support efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism. Specifically, these funds shall be utilized by the subrecipient for projects previously identified in the 2024 SHSGP Application and approved by the NMDHSEM Secretary or designee.

All work performed pursuant to this agreement must comply with the approved 2024 SHSGP Application. All work must be completed within the performance period, between **October 1, 2024,** and **September 30, 2026.** The subrecipient shall not subgrant any part of this award to any other entity or organization.

ARTICLE 3: PROJECT IMPLEMENTATION

Approved projects must commence within the first reporting quarter. If a project cannot commence and be operational within the first reporting quarter of the approved award date, the subrecipient must submit a written statement to the NMDHSEM Point of Contact as identified on page 1, of this document signed by the subrecipient signatory officials, justifying the delay in implementation, the expected starting date, and a formal request to extend the project start date past the first reporting quarter. At the sole discretion of NMDHSEM, the grant award is subject to cancellation and funds may be de–obligated and reallocated to other projects. Applicants are strongly encouraged to begin planning to sustain existing capabilities through funding mechanisms other than DHS preparedness grants.

ARTICLE 4: REPORTING REQUIREMENTS

The subrecipient, shall submit timely **Quarterly Financial Progress Reports (FPR)** and **Performance Progress Reports (PPR)** to the **NMDHSEM Point of Contact** identified on page 1**.** Use of outdated forms will not be accepted. All quarterly reports are due: October 15, January 15, April 15, and July 15 within the Period of Performance (POP) beginning after the conclusion of the first quarter of grant activity. **Requests for payment will be processed ONLY if both quarterly reports are received on time.**

- **Final reports:** Due 15 days after the end of the POP. The Final Narrative Report will suffice as the final performance progress report.

The subrecipient must immediately report in writing to the NMDHSEM Point of Contact alleged acts or allegations of fraud or misappropriation of funds for work authorized under this Subgrant Agreement. This requirement extends further to an obligation by the subrecipient to report any legal action, lawsuit, bankruptcy, or other action that may jeopardize the successful completion of any authorized project.

ARTICLE 5: REIMBURSEMENTS

Reimbursement shall be based upon authorized and allowable expenditures consistent with the project narrative, grant guidelines, and the submission of timely financial and performance progress reports. Payments may be withheld by NMDHSEM pending correction of deficiencies. Reimbursement of expenditures shall be requested at least quarterly for expenditures within the performance period. Expenditures must be supported with source documentation (e.g., copies of proof of payment, invoices, receipts, timesheets with name/wage/hours, cost allocation, warrants, etc.). The NMDHSEM staff will not process reimbursements if quarterly PPRs and FPRs are not submitted.

All reimbursements are contingent upon funds being allocated, budgeted, and encumbered for that purpose.

DELAYS AND DENIAL OF PAYMENT: Reduce delays in processing of payment requests by checking for accuracy prior to submission. Reasons for NMDHSEM declining payment requests include, but are not limited to, the following:

- The Period of Performance has expired;
- The amount exceeds the remaining funding available for disbursement prior to the final financial and program compliance reviews (the hold or funding retention amount);
- Request for Payment requires a state and/or budget amendment, and cannot be processed until the amendment request is received/approved;
- The reimbursement requested is for an activity outside of the approved scope of work;
- Forms are not signed by an authorized person, or are signed by only one signatory;
- Reimbursement of awarded funds have been suspended due to a non-compliance issue such as failure to submit quarterly reports; or
- Reimbursements of awarded funds have been suspended due to noncompliance activities.

CONTRACTS: All contracts must be submitted to the NMDHSEM Point of Contact for NMDHSEM review prior to implementation.

EQUIPMENT: Per 2 CFR 200.1, equipment means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost that equals or exceeds the lesser of the capitalization level established by the recipient or subrecipient for financial statement purposes, or $10,000. Allowable equipment categories are listed on the web-based FEMA Authorized Equipment List (AEL): www.fema.gov/grants/tools/authorized-equipment-list. Screenshots of the AEL number and description are required to be submitted along with the Request for Approval (RFA). Some equipment items require prior approval from FEMA before obligation or purchase of the items. Please reference the AEL grant notes for each equipment

item to ensure prior approval is not required or to ensure prior approval is obtained if necessary. Subrecipients may purchase equipment not listed on the AEL, but **only** if they first seek and obtain **prior approval** from FEMA through NMDHSEM. Unless otherwise stated, all equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, subrecipients will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

TRAVEL: All reimbursable travel must be pre-approved by NMDHSEM 30 days prior to travel date.

PER DIEM: Reimbursements for state, local, tribal, and territorial jurisdictions cannot exceed the rates of the New Mexico Per Diem and Mileage Act, NMSA 1978, Section 10-8-4 (2021). Visit the Department of Finance and Administration for the latest rates.

TRAINING: Requires NMDHSEM pre–approval 30 days prior to registering or participating in training opportunities.

EXERCISE: Requires submission of an After–Action Report/Improvement Plan (AAR/IP) within 60 days after conduct of an exercise. The AAR/IP must be submitted to NMDHSEM's Training and Exercise Unit.

FOOD AND BEVERAGES: Per National Preparedness Directorate (NPD) allowances, food and/or beverage expenses provided by recipients are allowable costs if:

- The food and/or beverages are provided to participants at training sessions, meetings, or conferences that are allowable activities under the NPD program guidelines; and
- Expenses incurred for food and/or beverages, and provided at training sessions, meetings, or conferences, satisfy the following tests:
    - The cost of the food and/or beverages provided is considered to be reasonable.
    - The food and/or beverages provided are subject of a work-related event and work continues after meals are served.
    - Participation by all participants is mandatory; and
    - The food and/or beverages provided are not related directly to amusement and/or social event. (Any event where alcohol is being served is considered a social event; therefore, costs associated with the event are not allowed).

NON-REIMBURSABLE EXPENSES:

- Grant funds must comply with FEMA Policy 207-22-0002, Prohibited or Controlled Equipment Under FEMA Awards, and may not be used for the purchase of firearms, ammunition, grenade launchers, bayonets, or weaponized aircraft, vessels, or vehicles of any kind with weapons installed;
- Applying funds toward hiring full-time or permanent sworn public safety officers
- Reimbursement for the maintenance or wear and tear costs of general use vehicles (e.g., construction vehicles), medical supplies, and emergency response apparatus (e.g., fire trucks, ambulances); and
- Equipment that is purchased for permanent installation and/or use, beyond the scope of the conclusion of the exercise (e.g., electronic messaging sign).
- Transfer of funds between any programs.
- Contracts, single vendor response to a competitive bid, sole source contracts, and procurements greater than $60,000 not pre-approved by NMDHSEM.
- Training and related travel costs not pre-approved by NMDHSEM.
- Construction and renovation.
- Indirect costs.
- Supplanting (using federal funds to purchase items previously budgeted for with state, local, tribal, and territorial funds).
- Maintenance and/or wear and tear costs of general use vehicles and emergency response apparatus.
- Equipment purchased for an exercise cannot be used for permanent installation and/or beyond the scope of an exercise.
- Entertainment and sporting events.
- Personal items such as laundry, personal hygiene items, magazines, in-room movies, personal travel, personal phone calls.
- Travel insurance, visa, and passport charges.

- Lodging costs in excess of state per diem, as appropriate.
- Food reimbursement when travel does not exceed 24 hours.
- Alcoholic beverages.
- Late fees, or interest charges.
- Lobbying, political contributions, legislative liaison activities.
- Organized fund–raising, including salaries of persons while engaged in these activities.
- Land acquisition.
- Expenditures not supported with appropriate documentation when submitted for reimbursement. Only properly documented expenditures will be processed for payment. Unsupported expenditures will be returned to the jurisdiction for resubmission.
- Expenses not pre-approved by NMDHSEM via a RFA form.
- Operation Stonegarden (OPSG) Only
    - costs associated with evidence collection, arrest processing, prosecution, and Traffic/DUI checkpoints, such as evidence documentation cameras, fingerprinting supplies, alcohol breathalyzers, portable work lights, traffic barricades, and similar law enforcement expenses
    - costs associated with staffing and general IT computing equipment and hardware, such as personal computers, faxes, copy machines, modems, etc
    - hiring full-time or permanent sworn public safety officers
    - supplant inherent routine patrols and law enforcement operations or activities not directly related to providing enhanced coordination between local and federal law enforcement agencies
    - construction and/or renovation costs are prohibited

ARTICLE 6: PERFORMANCE MEASURES

The quarterly PPR form shall demonstrate performance and progress relative to acceptable performance metrics identified in The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov .

FY 2024 Performance Metrics:

- Percentage of funding allocated by the subrecipient to core capabilities to build or sustain national priorities identified in the HSGP FY 2024 NOFO.
- Percentage of funding and projects allocated by the subrecipient that align to capability gaps identified through the THIRA/SPR process.
- Percentage of projects identified by the subrecipient that address a capability gap in a core capability that has a target(s) rated as high.

ARTICLE 7: SUBRECIPIENT MONITORING POLICY

The NMDSHEM as the pass-through entity is responsible for monitoring their subrecipients in a manner consistent with the terms of the federal award at 2 C.F.R. Part 200, including 2 C.F.R. § 200.332. This includes the responsibility to monitor the activities of the subrecipient as necessary to ensure that the sub-award is used for authorized purposes, in compliance with federal statutes, regulations, and the terms and conditions of the sub-award; and that sub-award performance goals are achieved.

In terms of overall award management, subrecipient responsibilities include, but are not limited to accounting of receipts and expenditures, cash management, maintaining adequate financial records, reporting and refunding expenditures disallowed by audits, or other assessments and reviews, and ensuring overall compliance with the terms and conditions of the award or sub-award, as applicable, including the terms of 2 C.F.R. Part 200.

The NMDSHEM will conduct periodic monitoring as required to ensure that program goals, objectives, timelines, budgets, and other related program criteria are being met. The NMDHSEM will periodically monitor, review, and conduct analysis of financial, programmatic, and administrative policies, procedures, and practices. This monitoring may include review of accounting for receipts and expenditures, cash management, maintaining adequate financial records, means of allocating and tracking costs, contracting, procurement, records management, payroll, means of allocating staff costs, property and equipment management system, progress of project activities, etc. Monitoring may include desk and field audits. Technical assistance is available from NMDHSEM staff.

ARTICLE 8: FUNDING RESTRICTIONS; ALLOWABLE AND UNALLOWABLE COSTS; AND RECOVERY OF FUNDS

All costs charged to awards covered by the USDHS NOFO Fiscal Year 2023 Homeland Security Grant Program must comply with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements at 2 C.F.R. Part 200, unless otherwise indicated in the funding notice, or the terms and conditions of the award. This includes, among other requirements, that costs must be incurred, and products and services must be delivered, within the period of performance of the award. See 2 C.F.R. § 200.403(h) (referring to budget periods, which for FEMA awards under this award is the same as the period of performance).

In general, the Cost Principles establish standards for the allowability of costs, provide detailed guidance on the cost accounting treatment of costs as direct or administrative costs, and set forth allowability principles for selected items of cost. More specifically, except as otherwise stated in The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov, the terms and condition of an award, or other program materials, costs charged to awards covered by The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov must be consistent with the Cost Principles for Federal Awards located at 2 C.F.R. Part 200, Subpart E. In order to be allowable, all costs charged to a FEMA award or applied to the cost share must be reasonable in nature and amount and allocable to the particular FEMA award. Additionally, all costs charged to awards must comply with the grant program's applicable statutes, policies, and requirements in this notice as well as with the terms and conditions of the award. If FEMA and/or NMDHSEM staff identify costs that are inconsistent with any of these requirements, these costs may be disallowed, and FEMA and/or NMDHSEM staff may recover funds as appropriate, consistent with applicable laws, regulations, and policies.

As part of those requirements, subrecipients may only use federal funds for the purposes set forth in The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov and the terms and conditions of the award, and those costs must be consistent with the statutory authority for the award.

Grant funds may not be used for matching funds for other federal grants/cooperative agreements, lobbying, or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the federal government or any other government entity.

See the Allowable Cost Matrix section in The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov for allowable cost activities.

Equipment. The allowable prevention, protection, mitigation, response, and recovery equipment categories for SHSGP are listed on the FEMA Authorized Equipment List (AEL): https://www.fema.gov/grants/tools/authorized-equipment-list. Some equipment items require prior approval from FEMA through NMDHSEM before obligation or purchase of the items. Please reference the grant notes for each equipment item to ensure prior approval is not required or to ensure prior approval is obtained if necessary. Subrecipients may purchase equipment not listed on the AEL, but **only** if they first seek and obtain **prior approval** from FEMA through NMDHSEM. Allowable equipment

is listed on the FEMA Authorized Equipment List (AEL): https://www.fema.gov/grants/tools/authorized-equipment-list.

Unless otherwise stated, all equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, recipients will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

Investments in emergency communications systems and equipment must meet applicable guidance identified in the SAFECOM Guidance on Emergency Communications Grants (SAFECOM Guidance). Such investments must be coordinated with the New Mexico Statewide Interoperability Coordinator (SWIC) and the State Interoperability Governing Body (SIGB) to ensure interoperability and long-term compatibility.

Training. Allowable training-related costs under SHSGP include the establishment, support, conduct, and attendance of training specifically identified under the SHSGP program and/or in conjunction with emergency preparedness training by other federal agencies (e.g., Health and Human Services [HHS] and Department of Transportation [DOT]). Training conducted using SHSGP funds should address a performance gap identified through an Integrated Preparedness Plan (IPP) or other assessments (e.g., National Emergency Communications Plan [NECP] Goal Assessments) and contribute to building a capability that will be evaluated through a formal exercise. See the The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov for further information on allowable costs under this category.

Some training activities require Environmental and Historic Preservation (EHP) Review, including exercises, drills or trainings that require any type of land, water, or vegetation disturbance or building of temporary structures or that are not located at facilities designed to conduct training and exercises. Information on training requirements and EHP review can be found online at https://www.fema.gov/media-library/assets/documents/90195.

Exercises. Funding is allowable to design, develop, conduct and evaluate preparedness exercises. See the The U. S. Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) Fiscal Year 2024 Homeland Security Grant Program | FEMA.gov for further information on allowable costs under this category. Exercises conducted with grant funding should be managed and conducted consistent with Homeland Security Exercise and Evaluation Program (HSEEP). The HSEEP guidance for exercise design, development, conduct, evaluation, and improvement planning is located at https://www.fema.gov/emergency-managers/national-preparedness/exercises/hseep.

Some exercise activities require EHP review, including exercises, drills or trainings that require any type of land, water, or vegetation disturbance or building of temporary structures or that are not located at facilities designed to conduct training and exercises. Additional information on exercise requirements and EHP review can be found online at https://www.fema.gov/sites/default/files/documents/fema_gpd-ehp-policy-guidance.pdf.

Maintenance and Sustainment. Preparedness grant funds may be used to purchase maintenance contracts or agreements, warranty coverage, licenses, and user fees. These contracts may exceed the period of performance if they are purchased incidental to the original purchase of the system or equipment as long as the original purchase of the system or equipment is consistent with that which is typically provided for, or available through, these types of agreements, warranties, or contracts.

When purchasing a stand-alone warranty or extending an existing maintenance contract on an already-owned piece of equipment system, coverage purchased may not exceed the period of performance of the award used to purchase the maintenance agreement or warranty, and it may only cover equipment purchased with SHSGP funds or for equipment dedicated for SHSGP-related purposes. As with warranties and maintenance agreements, this extends to licenses and user fees as well.

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Except for maintenance plans or extended warranties purchased incidental to the original purchase of the equipment, the period covered by maintenance or warranty plan must not exceed the POP of the specific grant funds used to purchase the plan or warranty.

The policy set forth in FEMA's Information Bulletin (IB) 379, Guidance to State Administrative Agencies to Expedite the Expenditure of Certain USDHS/FEMA Grant Funding, initially for FY 2007-2011, allows for the expansion of eligible maintenance and sustainment costs which must be in (1) direct support of existing capabilities; (2) must be an otherwise allowable expenditure under the applicable grant program; (3) be tied to one of the core capabilities in the five mission areas contained within the Goal, and (4) shareable through the EMAC. Additionally, eligible costs may also be in support of equipment, training, and critical resources that have previously been purchased with either federal grant or any other source of funding other than FEMA preparedness grant program dollars.

Construction and Renovation. All construction and renovation projects require EHP review. Subrecipients proposing projects that have the potential to impact the natural or built environment, including, but not limited to, the construction of communication towers; modification or renovation of existing buildings, structures, and facilities; new construction, including replacement or relocation of facilities; and some training activities, must participate in the FEMA EHP review process. For the purposes of the limitations on funding levels, communications towers are not considered construction. All construction of communication towers requires EHP review. When applying for funds to construct communication towers, recipients and subrecipients must submit evidence that the Federal Communication Commission's Section 106 of the National Historic Preservation Act, Pub. L. No. 89-665, as amended, review process has been completed and submit all documentation resulting from that review to FEMA with a Grant Programs Directorate (GPD) EHP Screening Form and supporting materials for EHP review.

Written approval must be provided by FEMA through NMDHSEM prior to the use of any SHSGP funds for construction or renovation. When applying for construction funds, subrecipients must submit evidence of approved zoning ordinances, architectural plans, and any other locally required planning permits. Additionally, subrecipients are required to submit a SF-424C form with budget detail citing the project costs, and an SF-424D Form for standard assurances for the construction project.

Unallowable Costs

- Per FEMA policy, the purchase of weapons and weapons accessories, including ammunition is not allowed with SHSGP funds;
- Grant funds may not be used for the purchase of equipment not approved by FEMA. Grant funds must comply with FEMA Policy 207-22-0002 Prohibited or Controlled Equipment Under FEMA Awards, and may not be used for the purchase of the following equipment: firearms; ammunition; grenade launchers; bayonets; or weaponized aircraft, vessels, or vehicles of any kind with weapons installed;
- Unauthorized exercise-related costs include:
  - Reimbursement for the maintenance or wear and tear costs of general use vehicles (e.g., construction vehicles), medical supplies, and emergency response apparatus (e.g., fire trucks, ambulances); and
  - Equipment that is purchased for permanent installation and/or use, beyond the scope of the conclusion of the exercise (e.g., electronic messaging sign).

ARTICLE 9: PROCUREMENT

Procurement shall comply with all federal, state, and local procurement requirements including 2 C.F.R. § 200.320 and the New Mexico Procurement Code for expenditure of funds under this Agreement. The subrecipient must conform to applicable state and federal law and the Procurement Standards Sections 2 C. F. R § 200.317 through 2 C.F.R. § 200.327, and Appendix II to Part 200.

Contractors that develop or draft specifications, requirements, Statements of Work, and/or Requests for Proposals (RFP) for a proposed procurement shall be excluded from bidding or submitting a proposal to compete for the award of such procurement. Local bidder's preference is not allowed for federally funded procurements. Procurement transactions shall be conducted to provide maximum open and free competition.

When procuring property and services under this agreement, the subrecipient will follow 2 C.F.R. § 200.318 through 2 C.F.R. § 200.327 and Appendix II to Part 200. The subrecipient must use its own documented procurement procedures which reflect applicable state, local, tribal, and territorial laws, and regulations, provided that the procurements conform to applicable federal law and the standards identified in 2 C.F.R. 200. As such, the subrecipient must use one of the methods of procurement identified in 2 C.F.R. § 200.320. A RFA form must be approved by NMDHSEM staff prior to any tangible expenditures.

Procurement Documentation: Per 2 C.F.R. § 200.318(i), subrecipients are required to maintain and retain records sufficient to detail the history of procurement covering at least the rationale for the procurement method, selection of contract type, contractor selection or rejection, and the basis for the contract price. States and territories are encouraged to maintain and retain this information as well and are reminded that in order for any cost to be allowable, it must be adequately documented per 2 C.F.R. § 200.403(g). Examples of the types of documents that would cover this information include but are not limited to:

1. Solicitation documentation, such as requests for quotes, invitations for bids, or requests for proposals;
2. Responses to solicitations, such as quotes, bids, or proposals;
3. Pre-solicitation independent cost estimates and post-solicitation cost/price analyses on file for review by federal personnel, if applicable;
4. Contract documents and amendments, including required contract provisions; and
5. Other documents required by federal regulations applicable at the time a subgrant is awarded to a subrecipient.

Additional information on required procurement records can be found in the Procurement Disaster Assistance Team (PDAT) Field Manual, https://www.fema.gov/sites/default/files/documents/fema_PDAT-field-manual_102021.pdf.

Procurement from Minority Owned and Women Owned Business is encouraged and must be tracked and reported to NMDHSEM on the quarterly reports. Procurement transactions shall be conducted to provide maximum open and free competition. Each sole–source procurement single vendor response to a competitive bid, and all purchases require prior approval of NMDHSEM.

ARTICLE 10: COMPETITION AND CONFLICTS OF INTEREST

Among the requirements of 2 C.F.R. § 200.319(b) applicable to all non-federal entities other than states, in order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. The FEMA considers these actions to be an organizational conflict of interest and interprets this restriction as applying to contractors that help a subrecipient develop its grant application, project plans or project budget. This prohibition also applies to the use of former employees to manage the grant or carry out a contract when those former employees worked on such activities while they were employees of the non-federal entity.

Under this prohibition, unless the subrecipient solicits for and awards a contract covering both development and execution of specifications (or similar elements as described above), and this contract was procured in compliance with 2 C. F. R § 200.317 through 2 C.F.R. § 200.327, federal funds cannot be used to pay a contractor to carry out the work if that contractor also worked on the development of those specifications. This rule applies to all contracts funded with federal grant funds, including pre-award costs, such as grant writer fees, as well as post-award costs,

such as grant management fees. Additionally, some of the situations considered to be restrictive of competition include, but are not limited to:

1. Placing unreasonable requirements on firms for them to qualify to do business;
2. Requiring unnecessary experience and excessive bonding;
3. Noncompetitive pricing practices between firms or between affiliated companies;
4. Noncompetitive contracts to consultants that are on retainer contracts;
5. Organizational conflicts of interest;
6. Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance or other relevant requirements of the procurement; and
7. Any arbitrary action in the procurement process.

Per 2 C.F.R. § 200.319(c), the subrecipient must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, tribal, or territorial geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts state licensing laws. **When contracting for architectural and engineering services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.**

Under 2 C.F.R. § 200.318(c)(1), the subrecipient is required to maintain written standards of conduct covering conflicts of interest and governing the actions of their employees engaged in the selection, award, and administration of contracts. **No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest.** Such conflicts of interest would arise when the employee, officer or agent, any member of his or her immediate family, his or her partner, or an organization that employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The officers, employees, and agents of the non-federal entity may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, subrecipients entities may set standards for situations in which the financial interest is not substantial, or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the non-federal entity.

Under 2 C.F.R. § 200.318(c)(2), if the subrecipient has a parent, affiliate, or subsidiary organization that is not a state, local, tribal or territorial government, the subrecipient must also maintain written standards of conduct covering organizational conflicts of interest. In this context, organizational conflict of interest means that because of a relationship with a parent company, affiliate, or subsidiary organization, the subrecipient is unable or appears to be unable to be impartial in conducting a procurement action involving a related organization. The non-federal entity must disclose in writing any potential conflicts of interest to FEMA or NMDHSEM in accordance with applicable FEMA policy.

ARTICLE 11: REQUIREMENTS FOR SMALL UNMANNED AIRCRAFT SYSTEM (sUAS)

All requests to purchase Small Unmanned Aircraft Systems (sUAS) with FEMA grant funding must comply with FEMA Policy 207-22-0002, Prohibited or Controlled Equipment Under FEMA Awards, and also include a description of the policies and procedures in place to safeguard individuals' privacy, civil rights, and civil liberties of the jurisdiction that will purchase, take title to or otherwise use the sUAS equipment. SUAS policies are not required at the time of application but must be received and approved by FEMA prior to obligating HSGP funds. All grant-funded procurements must be executed in a manner compliant with federal procurement standards at 2 C. F. R § 200.317 through 2 C.F.R. § 200.327. For recipients that use HSGP funds for sUAS, FEMA advises that there is a general privacy concern related to the use of this equipment if the data the devices collect is transmitted to servers not under the control of the operator. It has been reported that some manufacturers of sUAS encrypt data and send that data to

servers outside the United States. The U.S. Department of Homeland Security's Privacy Office suggests the recipient fully explore data transmission and storage issues with vendors to reduce the possibility of data breaches.

Additionally, the Joint Explanatory Statement (JES) accompanying the FY 2024 DHS Appropriations Act further requires recipients to certify they have reviewed the Industry Alert on Chinese Manufactured Unmanned Aircraft Systems, and completed a risk assessment that considers the proposed use of foreign-made sUAS to ascertain potential risks (e.g., privacy, data breaches, cybersecurity, etc.) related to foreign-made versus domestic sUAS.

Acquisition and Use of Technology to Mitigate UAS (Counter-UAS)

In August 2020, FEMA was alerted of an advisory guidance document issued by DHS, the Department of Justice, the Federal Aviation Administration, and the Federal Communications Commission: Interagency Legal Advisory on UAS Detection and Mitigation Technologies Homeland Security (dhs.gov). The purpose of the advisory guidance document is to help non-federal public and private entities better understand the federal laws and regulations that may apply to the use of capabilities to detect and mitigate threats posed by UAS operations (i.e., Counter-UAS or C-UAS).

The Departments and Agencies issuing the advisory guidance document, and FEMA, do not have the authority to approve non-federal public or private use of UAS detection or mitigation capabilities, nor do they conduct legal reviews of commercially available product compliance with those laws. The advisory does not address state and local laws nor potential civil liability, which UAS detection and mitigation capabilities may also implicate.

It is strongly recommended that, prior to the testing, acquisition, installation, or use of UAS detection and/or mitigation systems, entities seek the advice of counsel experienced with both federal and state criminal, surveillance, and communications laws. Entities should conduct their own legal and technical analysis of each UAS detection and/or mitigation system and should not rely solely on vendors' representations of the systems' legality or functionality. Please also see the DHS press release on this topic for further information: Interagency Issues Advisory on Use of Technology to Detect and Mitigate Unmanned Aircraft Systems Homeland Security (dhs.gov).

ARTICLE 12: GENERAL SERVICES ADMINISTRATION SCHEDULES

States, tribes, and local governments, and any instrumentality thereof (such as local education agencies or institutions of higher education) may procure goods and services from a General Services Administration (GSA) schedule. GSA offers multiple efficient and effective procurement programs for state, tribal, and local governments, and instrumentalities thereof, to purchase products and services directly from pre-vetted contractors. The GSA Schedules (also referred to as the Multiple Award Schedules and the Federal Supply Schedules) are long-term government-wide contracts with commercial firms that provide access to millions of commercial products and services at volume discount pricing. Information about GSA programs for states, tribes, and local governments, and instrumentalities thereof, can be found at GSA's Programs for State and Local Governments and State and Local Governments webpages.

For tribes, local governments, and their instrumentalities that purchase off of a GSA schedule, this will satisfy the federal requirements for full and open competition provided that the subrecipient follows the GSA ordering procedures; however, tribes, local governments, and their instrumentalities will still need to follow the other rules under 2 C.F.R. § 200.317 through 2 C.F.R. §200.327, such as solicitation of minority businesses, women's business enterprises, small businesses, or labor surplus area firms (2 C.F.R. § 200.321), domestic preferences (2 C.F.R. § 200.322), contract cost and price (2 C.F.R. § 200.324), and required contract provisions (2 C.F.R. § 200.327 and Appendix II to Part 200).

Other Supply Schedules and Programs: For non-federal entities other than states (such as tribes, local governments, and nonprofits) that want to procure goods or services from a state supply schedule, cooperative purchasing

program, or other similar program, in order for such procurements to be permissible under federal requirements, the following must be true:

1. The procurement of the original contract or purchasing schedule and its use by the non-federal entity complies with state and local law, regulations, and written procurement procedures;
2. The state or other entity that originally procured the original contract or purchasing schedule entered into the contract or schedule with the express purpose of making it available to the non-federal entity and other similar types of entities;
3. The contract or purchasing schedule specifically allows for such use, and the work to be performed for the non-federal entity falls within the scope of work under the contract as to type, amount, and geography;
4. The procurement of the original contract or purchasing schedule complied with all the procurement standards applicable to a non-federal entity other than states under at 2 C.F.R. § 200.317 through 2 C.F.R. §200.327; and
5. With respect to the use of a purchasing schedule, the non-federal entity must follow ordering procedures that adhere to applicable state, tribal, and local laws and regulations and the minimum requirements of full and open competition under 2 C.F.R. Part 200.

If a non-federal entity other than a state seeks to use a state supply schedule, cooperative purchasing program, or other similar type of arrangement, FEMA recommends the subrecipient discuss the procurement plans with its NMDHSEM Point of Contact.

ARTICLE 13: CONTRACTS

Contracts for professional and consultant services executed during this grant period must include federal, state, local, tribal, and territorial government required contract language, a project budget, and require pre-approval by NMDHSEM prior to implementation. Contract deliverables must meet the intent of the grant application and grant requirements. Justification is required for compensation for individual consultant services, which must be reasonable and consistent with the amount paid for similar services in the marketplace. Detailed invoices and time and effort reports are required for consultants. **All** contracts **must be submitted** to the NMDHSEM Point of Contact with a **completed NMDHSEM Procurement Checklist** for NMDHSEM review **prior** to implementation**.** See 2 C.F.R. § 200.1, and 2 C.F.R. 200 Appendix II to Part 200 for Contract Provisions for Non-Federal Entity Contracts Under Federal Awards.

ARTICLE 14: AUDIT REQUIREMENTS

As the federal grant recipient, the State of New Mexico requires a subrecipient expending $1,000,000.00 or more in federal funds in the organization's fiscal year to conduct an organization–wide audit in accordance with 2 C.F.R. 200 Subpart F. The subrecipient will permit NMDHSEM staff and auditors to have access to the subrecipient's and third-party contractors' records and financial statements as necessary for the State of New Mexico to comply with 2 C.F.R. 200 Subpart F. Copies of audit findings must be submitted to the NMDHSEM Point of Contact within 30 days after the subrecipient receives its audit report, or within a 9–month period of the grant closeout date, whichever is earlier. Include the federal agency name, program, grant number, and year; the Assistance Listing title and number; and the name of the pass-through agency.

ARTICLE 15: PROPERTY AND EQUIPMENT MANAGEMENT

The subrecipient will follow the property standards articulated in 2 C.F.R. § 200.310 through 2 C.F.R. § 200.316. The subrecipient shall maintain an effective property management system; safeguards to prevent loss, damage or theft; maintenance procedures to keep equipment in good condition; and disposition procedures. A Property Inventory Report shall be submitted to NMDHSEM annually each January 30 with the Financial Progress Report during the performance period, and continued submission is required annually until final disposition of the equipment. The

subrecipient shall, when practical, prominently display the following on any equipment purchased with award funds: Purchased with funds provided by the U.S. Department of Homeland Security. No equipment purchased with these grant funds may be assigned to other entities or organizations without the expressed approval in writing from NMDHSEM, prior to the jurisdiction's encumbrance or expenditure for that equipment.

Any disposition of SHSGP/OPSG property or equipment must be in accordance with 2 C.F.R. 200.313(e) and pre-approved by FEMA through NMDHSEM.

ARTICLE 16: NATIONAL ENVIRONMENTAL POLICY ACT (NEPA)/ENVIRONMENTAL PLANNING AND HISTORIC PRESERVATION (EHP) COMPLIANCE

The subrecipient must provide information to FEMA of the legally required environmental planning and historic preservation (EHP) review and to ensure compliance with the applicable EHP laws and Executive Orders (EO). These EHP requirements include but are not limited to National Environmental Policy Act, National Historic Preservation Act, Endangered Species Act, E 11988 Floodplain Management, EO 11990 Protection of Wetlands, and EO 12898 Environmental Justice. The subrecipient must comply with all federal, state, local, tribal, and territorial EHP requirements and obtain applicable permits and clearances. See FEMA Policy: Grant Program Directorate Environmental Planning and Historic Preservation, FEMA Policy #108-023-1, Revision 2 for more information.

Subrecipients shall not undertake any activity from the project that would result in ground disturbance, facility modification, or relates to the use of sonar equipment without the prior approval of FEMA. These include but are not limited to communications towers, physical security enhancements involving ground disturbance, new construction, and modifications to buildings that are 50 years old or older, construction projects inside buildings less than 43 years old and exercises. The subrecipient must comply with all mitigation or treatment measures required for the project as the result of FEMA's EHP review. An EHP Screening Form does not need to be provided for those exercises that are planned to take place at previously approved facilities, such as, fire and police academies, search and rescue training facilities, and explosive testing centers. Any type of exercise that requires any type of land, water, or vegetation disturbance or building of temporary structures must undergo an EHP review.

Any change to an approved project description will require re-evaluation for compliance with EHP requirements before the project can proceed. If ground disturbing activities occur during project implementation, the subrecipient must ensure monitoring of ground disturbance and if any potential archeological resources are discovered, the subrecipient will immediately cease construction in that area and notify NMDHSEM, FEMA and the New Mexico Historic Preservation Division. Initiation of these activities prior to completion of FEMA's EHP review will result in a non-compliance finding and may result in ineligibility of grant funding.

ARTICLE 17: PUBLICATIONS

Publications created with funding under this grant shall prominently contain the following statement: "This Document was prepared under a subgrant from the U.S. Department of Homeland Security, and the New Mexico Department of Homeland Security and Emergency Management. Points of view or opinions expressed in this document are those of the authors and do not necessarily represent the official position or policies of the U.S. Department of Homeland Security or the State of New Mexico."

ARTICLE 18: RECORDKEEPING

The subrecipient will follow the record retention and access standards articulated in 2 C.F.R. § 200.333 through 2 C.F.R. § 200.337. The grant financial and administrative records shall be maintained for a period of three years following the date of the closure of the grant award, or audit if required. Time and effort, personnel and payroll records for all individuals reimbursed under the award must be maintained. Property and equipment records shall

be maintained for a period of three years following the final disposition, replacement or transfer of the property and equipment.

ARTICLE 19: CHANGES TO AWARD

In keeping with 2 C.F.R. § 200.308, the subrecipient must report deviations from the approved budget, project or program scope, or objective(s) in accordance with 2 C.F.R. § 200.329. The subrecipient must request prior approvals for budget and program plan revisions in accordance with this section. The subrecipient must request prior written approval for the following program and budget-related reasons:

(1) Change in the scope or the objective of the project or program (even if there is no associated budget revision requiring prior written approval).
(2) Change in key personnel (including employees and contractors) that are identified by name or position in the Federal award.
(3) The disengagement from a project for more than three months, or a 25 percent reduction in time and effort devoted to the Federal award over the course of the period of performance, by the approved project / program director.
(4) The inclusion, unless waived by the Federal agency, of costs that require prior approval in accordance with 2 C.F.R. Subpart E as applicable.
(5) The transfer of funds budgeted for participant support costs to other budget categories.
(6) Subaward activities not proposed in the application and approved in the Federal award or NMDHSEM subgrant agreement.
(7) Changes in the total approved cost-sharing amount.
(8) The need arises for additional Federal funds to complete the project.
(9) Transferring funds between the construction and non-construction work under a Federal award.
(10) A no-cost extension (meaning, an extension of time that does not require the obligation of additional Federal funds) of the period of performance

All change requests must be submitted either in writing or electronically to the NMDHSEM Point of Contact for review **90 days prior** to the termination of this agreement. All change requests must be accompanied by a justification narrative and a budget and spending plan. All change requests must be consistent with the scope of the project and grant guidelines. Change requests will be considered only if reporting requirements are current, and all other terms and conditions of this agreement have otherwise been met at the time of the request. If approved by NMDHSEM, changes in the programmatic activities, purpose of the project, key personnel specified on the grant award, contractual services for activities central to the purposes of the award, change in project site, or release of special conditions, may result in an amendment to this award. Requests for changes must be submitted using the Request for Budget-Project Revision form. **No more than two budget/project revisions will be considered per subgrant agreement.**

ARTICLE 20: EXTENSION REQUESTS

Extensions to the period of performance (POP) for this program are allowed. Extensions to the POP identified in the award will only be considered through formal, written requests and must contain specific and compelling justifications as to why an extension is required. Requests for extensions must be submitted using the Request for Subgrant Extension form.

Extensions due to exigent or emergency circumstances will be determined by NMDHSEM on a case-by-case basis. Applicants who experience technical issues must notify the NMDHSEM Point of Contact **within 90 days of the POP end date**. All extension requests must address the following:

1. The grant program, fiscal year, and award number;
2. Reason for the delay –including details of the legal, policy, or operational challenges that prevent the final outlay of awarded funds by the deadline;

3. Current status of the activity(ies);
4. Approved POP termination date and new project completion date;
5. Amount of funds drawn down to date;
6. Remaining available funds, both federal and, if applicable, non-federal;
7. Budget outlining how remaining federal and, if applicable, non-federal funds will be expended;
8. Plan for completion, including milestones and timeframes for achieving each milestone and the position or person responsible for implementing the plan for completion; and Certification that the activity(ies) will be completed within the extended POP without any modification to the original statement of work, as described in the Investment Justification (IJ) and as approved by FEMA.

Extension requests will be granted only due to compelling legal, policy or operational challenges. Extensions are typically granted for no more than a six-month period. Extension requests cannot extend past 12 months of the original subgrant agreement end date. Extension requests will only be considered for the following reasons:

1. Contractual commitments by the recipient or subrecipient with vendors prevent completion of the project, including delivery of equipment or services, within the existing POP;
2. The project must undergo a complex environmental review that cannot be completed within the existing POP;
3. Projects are long-term by design, and therefore acceleration would compromise core programmatic goals; or
4. Where other special or extenuating circumstances exist.

All requests for Subgrant award extensions must be received at NMDHSEM **prior to the 90-day subgrant award termination date**. Requests for subgrant award extensions will only be considered for documented extenuating circumstances and will be reviewed by the NMDHSEM Point of Contact on a case-by-case basis.

ARTICLE 21: OTHER GENERAL PROVISIONS

- The performance period for this grant award is **October 1, 2024** through **September 30, 2026**. Further, all personnel related grant activity must be completed between **October 1, 2024** through **September 30, 2026**. Funds may not be obligated outside of these time periods. An obligation occurs when funds are encumbered, as with a purchase order and/or commitment of salaries and benefits. All obligated and encumbered funds must be liquidated within 15 days of the end of the performance period when the final performance progress and financial progress reports are due.

- The FY 2024 SAFECOM Guidance on Emergency Communications Grants, in coordination with stakeholders and federal partners, and the National Emergency Communications Plan Goals, targets funding priorities to address:
    - Priority 1: Governance and Leadership
    - Priority 2: Planning and Procedures
    - Priority 3: Training, Exercises, and Evaluation
    - Priority 4: Activities that Enhance Communications Coordination
    - Priority 5: Standards-Based Technology and Infrastructure
    - Priority 6: Cybersecurity

- **Deployable / Shareable Assets:** All assets supported in part or entirely with non-disaster grant funding must be readily deployable to support emergency or disaster operations per existing Intrastate Mutual Aid System, (IMAS) and/or Emergency Management Assistance Compact (EMAC) and other mutual aid agreements. Assets that may not be physically deployable but support national response capabilities, such as interoperable communications systems and equipment, is considered shareable assets. Access to and use of these assets must be made readily available upon the request of NMDHSEM.

- The signatures of the signatory officials on this award certifies that all financial expenditures, including all supporting documentation submitted for reimbursement, have been incurred by the jurisdiction, and are eligible and allowable expenditures consistent with the grant guidelines for this project. The subrecipient shall follow the financial management requirements imposed on them by NMDHSEM, which includes the requirements of the USDHS.

- The signature of the signatory officials on this award attests to the subrecipient's understanding, acceptance, and compliance with Lobbying; Debarment, Suspension, and Other Responsibility Matters; Drug-free Workplace Requirements; Conflict of Interest, and Non-Supplanting certifications. Federal funds will not be used to supplant state, local, tribal, and territorial funds. Federal funds must be used to supplement existing funds to augment program activities, and not replace those funds which have been appropriated in the budget for the same purpose. Potential supplanting may be the subject of application and pre-award, post-award monitoring, and audit.

- The subrecipient shall ensure the accounting system used allows for separation of fund sources. These grant funds cannot be commingled with funds from other state, local, tribal, and territorial agencies, and each award is accounted for separately.

- The subrecipient shall comply with Federal Civil Rights Laws and Regulations: Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, Age Discrimination Act of 1975, and Americans with Disabilities Act of 1991. The subrecipient will take reasonable steps to ensure Limited English Proficient (LEP) persons have meaningful access to its programs and activities. Executive Order 13347 Individuals with Disabilities in Emergency Preparedness requires government to support safety and security for individuals with disabilities in situations involving disasters, including earthquakes, tornadoes, fires, floods, hurricanes, and acts of terrorism.

- The subrecipient certifies that it has an Affirmative Action Plan/Equal Employment Opportunity Plan (EEOP) (for USDHS/DOJ grants). An EEOP is not required for subrecipients of less than $25,000.00 or fewer than 50 employees.

- The subrecipient certifies that its employees are eligible to work in the U.S. as verified by Form I–9, Immigration & Naturalization Service Employment Eligibility.

ARTICLE 22: REMEDIES FOR NON-COMPLIANCE

For the reasons listed below, special conditions may be imposed, reimbursements may be partially or wholly withheld, the award may be wholly or partly suspended or terminated, or future awards, reimbursements and award modifications may be withheld. The NMDHSEM may institute the following, but is not limited to, withholding authority to proceed to the next phase of a project, requiring additional or more detailed financial reports, additional project monitoring, and/or establish additional prior approvals. The NMDHSEM shall notify the subrecipient of its decision in writing stating the nature and the reason for imposing the conditions/restrictions, the corrective action required and timeline to remove them, and the method of requesting reconsideration of the imposed conditions/restrictions. The subrecipient must respond within five days of receipt of notification. See 2 C.F.R. § 200.399.

- Unwillingness or inability to attain project goals.
- Unwillingness or inability to adhere to the Special Conditions section of this subgrant agreement.
- Failure or inability to adhere to grant guidelines and federal compliance requirements.
- Improper procedures regarding contracts and procurements.
- Inability to submit reliable and/or timely reports.

- Management systems which do not meet federal required management standards.
- Failure or inability to adhere to the terms and conditions of this agreement.

ARTICLE 23: TERMINATION

For Cause: In compliance with 2 C.F.R. § 200.340(a)(1), if performance is not occurring as agreed, the award may be reduced or terminated without compensation for reduction or termination costs. The NMDHSEM will provide notice of five days to the subrecipient stating the reasons for the action, steps taken to correct the problems, and the commencement date of the reduction or termination. The NMDHSEM will reimburse the subrecipient only for acceptable work or deliverables, necessary and allowable costs incurred through the date of reduction or termination. Final payment may be withheld at the discretion of NMDHSEM until completion of a final NMDHSEM review. Disposition of any equipment acquired under a terminated grant must be in accordance with 2 C.F.R. 200.313(e).

For Convenience: In compliance with 2 CFR § 200.340(a)(4), this Agreement may be terminated without cause by the subrecipient upon written notice setting forth the reasons for such termination, and the effective date at least 30 days prior to the intended date of termination. A termination pursuant to this provision does not nullify a party's obligations for performance, or liabilities for failure to perform already incurred prior to the date of termination. Any project may be terminated upon convenience, in whole or in part, for the convenience of the subrecipient; though a partial termination notification must specify that portion of the project which is to be terminated. Allowable costs obligated and/or incurred through the date of termination shall be reimbursed. Disposition of any equipment acquired under a terminated grant must be in accordance with 2 C.F.R. §200.313(e).

ARTICLE 24: SPECIAL CONDITIONS

- **The Homeland Security Grant Program Notice of Funding Opportunity Requirements** – All of the instructions, guidance, limitations, and other conditions set forth in the USDHS Preparedness Grants Manual and the NOFO for this program are incorporated here by reference in the terms and conditions of your award. All recipients must comply with any such requirements set forth in the USDHS Preparedness Grants Manual and the NOFO.

- The grant award amount is a funding allocation and is not to be interpreted as expenditure authorizations or approvals. Pre-approval from the Grants Management Bureau is required for all purchases regardless of any application review.

- All awarded projects must be planned for, conducted, budgeted, and expended within the designated performance period. Furthermore, at least **25%** of the grant award must be expended in the first quarter for each project; some exceptions and/or extenuating circumstances may apply.

- **Request for Approval** - Pre-approval from NMDHSEM staff is required for all purchases regardless of any application review. The grant award amount is a funding allocation and is not to be interpreted as expenditure authorizations or approvals. A Request for Approval (RFA) form must be approved prior to any tangible expenditures.

- **National Incident Management System (NIMS) -** All subrecipients and beneficiaries must have a completed NIMS Assessment on or before September 30 of each year. All funded beneficiaries, to include but not limited to, first response agencies and special teams, must also complete a NIMS Assessment. Subrecipients must continue working on NIMS implementation objectives throughout the performance period of the grant and thereafter.

- **Threat Hazard Identification Risk Assessment (THIRA) -** All subrecipients must complete and/or revise their THIRA every three years and submit to NMDHSEM no later than October 31 of that year. www.fema.gov/sites/default/files/2020-04/CPG201Final20180525.pdff

- **Stakeholder Preparedness Report (SPR) -** All subrecipients must complete and/or revise their SPR every year and submit to NMDHSEM no later than October 31st of that year. www.fema.gov/sites/default/files/2020-04/CPG201Final20180525.pdf

- **Tactical Interoperable Communication Plan (TICP) -** All subrecipients must complete and/or revise their local and/or regional Tactical Interoperable Communication Plan every year and submit to the New Mexico Statewide Interoperability Coordinator (SWIC) and your Local Preparedness Coordinator.

- **Emergency Operations Plan (EOP) -** All subrecipients must have a current, fully promulgated All Hazards Emergency Operations Plan (EOP); compliant with Developing and Maintaining Emergency Operations Plans, Comprehensive Preparedness Guide (CPG) 101, September 2021, Version 3.0; and approved by NMDHSEM and must update at least once every two years. Sub-recipients are required to complete and include the NMDHSEM provided EOP crosswalk when submitting their EOPs to their Local Preparedness Coordinator for approval.

- **National Qualification System (NQS) - National Qualification System (NQS) -** All subrecipients and their beneficiaries must achieve Phase 3 NQS Implementation Objectives outlined on Attachment 3. Subrecipients must have issued PTBs to incident workforce personnel, which they designate, and ensure incident workforce personnel show progress in working towards task endorsements and minimum training requirements.

- **Integrated Preparedness Plan (IPP)** - Subrecipients must have a current multi-year Integrated Preparedness Plan that identifies preparedness priorities and activities. The current multi-year IPP must be submitted to the NMDHSEM Training and Exercise Unit before April 1 of each year.

- All subrecipients are required to conduct one exercise to test the capabilities of equipment purchased with past or current federal preparedness grants. All AAR/IP and/or AAR/IP input forms must be sent to the NMDHSEM Training and Exercise Unit no later than 60 days after the exercise. Contact the DHSEM Point of Contact for more information.

- All SHSGP performance activities will be monitored by the assigned point of contact on a quarterly basis or as needed to ensure subrecipients are conducting progressive activities to ensure project completion within the specified performance period.

- Personnel hiring, overtime, and backfill expenses are permitted under this grant to perform allowable HSGP planning, organization, training, exercise, and equipment activities. All subrecipients of HSGP funds, including SHSGP, UASI, and OPSG allocations, may not use more than 50% of their awards to pay for personnel activities unless a waiver is approved by FEMA through NMDHSEM. For more information on the 50% personnel cap, please see FEMA IB 421b, Clarification on the Personnel Reimbursement for Intelligence Cooperation and Enhancement of Homeland Security Act of 2008 (Public Law 110-412) https://www.fema.gov/sites/default/files/2020-04/Price_Wavier_Act_Clarification_IB_421A_Final_06-04-19.pdf.

- **Program Performance Reporting Requirements (PPR) and Financial Progress Reports (FPR)** – Subrecipients are responsible for providing performance reports to the State Administrative Agency, NMDHSEM, on a quarterly basis. Final financial reports are due 15 days after the end of performance period. The PPR and

FFR shall be submitted to the point of contact and Grants Management Bureau at DHSEM-GrantsManagement@state.nm.us .

PERFORMANCE PERIOD	REPORT DUE DATE	LOCAL REPORT DUE
July 1 – September 30	October 15	Quarterly PPR & FPR
October 1 – December 31	January 15	Quarterly PPR & FPR
January 1 – March 31	April 15	Quarterly PPR & FPR
April 1 – June 30	July 15	Final PPR & FPR

- All revision requests must be reviewed and approved by the Grants Management Bureau. All requests must meet the original scope of the project and may result in a subgrant amendment.

- A revision of a project's scope of work must be pre-approved by the Grants Management Bureau before the jurisdiction can proceed with the request for approval process. Additional documentation may be requested from the subrecipient prior to a recommendation to NMDHSEM Leadership for final approval.

- Annual external audit reports must be submitted to NMDHSEM within 30 days of receipt by subrecipients.

- Contracts for professional and consultant services that have been executed without written pre-approval from NMDHSEM are **not eligible** for reimbursement. The subrecipient will be responsible for all costs associated with services rendered under the unapproved contract.

- The beneficiary of this award is solely responsible for all expenditures that are incurred outside of the award performance period. All expenditures that are incurred above and beyond the amount of this subgrant agreement are the sole responsibility of the subrecipient of this award.

- Upon completion of all awarded projects, any remaining funds will be de-obligated and reverted back to NMDHSEM.

- Extensions due to exigent or emergency circumstances will be determined by NMDHSEM on a case-by-case basis. Applicants who need to request an extension, must notify their NMDHSEM Point of Contact within 90 days of the POP end date.

- Grant funds may not be used for the following:
  - Unallowable Equipment: Grant funds must comply with FEMA Policy 207-22-0002 Prohibited or Controlled Equipment Under FEMA Awards, and may not be used for the purchase of firearms, ammunition, grenade launchers, bayonets, or weaponized aircraft, vessels, or vehicles of any kind with weapons installed.
  - Expenditures for weapons systems and ammunition.
  - Costs used to support the hiring of any personnel to fulfill traditional public health and safety duties nor to supplant traditional public health and safety positions and responsibilities.
  - Costs associated with hiring, equipping, training, etc. sworn public safety officers whose primary job responsibilities include fulfilling traditional public safety duties such as law enforcement, firefighting, emergency medical services, or other first responder duties.
  - Costs that supplant traditional public safety positions and responsibilities
  - Activities and projects unrelated to the completion and implementation of the SHSGP/OPSG Program.

ATTACHMENT 1
FY 2024 U.S. Department of Homeland Security Terms and Conditions
Version 3 dated November 29, 2022

The Fiscal Year (FY) 2024 Department of Homeland Security (DHS) Standard Terms and Conditions apply to all new federal awards of federal financial assistance (federal awards) for which the federal award date occurs in FY 2024 and flow down to subrecipients unless a term or condition specifically indicates otherwise. For federal awards that may involve continuation awards made in subsequent FYs, these FY 2024 DHS Standard Terms and Conditions will apply to the continuation award unless otherwise specified in the terms and conditions of the continuation award. The United States has the right to seek judicial enforcement of these terms and conditions.

All legislation and digital resources are referenced with no digital links. These FY 2024 DHS Standard Terms and Conditions are maintained on the DHS website at https://www.dhs.gov/publication/fy15-dhs- standard-terms-and-conditions.

A. Assurances, Administrative Requirements, Cost Principles, Representations and Certifications

I. Recipients must complete either the Office of Management and Budget (OMB) Standard Form 424B Assurances – Non- Construction Programs, or OMB Standard Form 424D Assurances – Construction Programs, as applicable. Certain assurances in these documents may not be applicable to your program and the DHS financial assistance office (DHS FAO) may require applicants to certify additional assurances. Applicants are required to fill out the assurances as instructed by the federal awarding agency.

B. General Acknowledgements and Assurances Recipients are required to follow the applicable provisions of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in effect as of the federal award date and located at 2 C.F.R. Part 200 and adopted by DHS at 2 C.F.R. § 3002.10

All recipients and subrecipients must acknowledge and agree to provide DHS access to records, accounts, documents, information, facilities, and staff pursuant to 2 C.F.R. § 200.337.

I. Recipients must cooperate with any DHS compliance reviews or compliance investigations.

II. Recipients must give DHS access to examine and copy records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities and personnel.

III. Recipients must submit timely, complete, and accurate reports to the appropriate DHS officials and maintain appropriate backup documentation to support the reports.

IV. Recipients must comply with all other special reporting, data collection, and evaluation requirements required by law, federal regulation, Notice of Funding Opportunity, federal award specific terms and conditions, and/or federal awarding agency program guidance.

V. Recipients must complete the DHS Civil Rights Evaluation Tool within thirty (30) days of receiving the Notice of Award for the first award under which this term applies. Recipients of multiple federal awards from DHS should only submit one completed tool for their organization, not per federal award. After the initial submission, recipients are required to complete the tool once every two (2) years if they have an active federal award, not every time a federal award is made. Recipients must submit the completed tool, including supporting materials, to CivilRightsEvaluation@hq.dhs.gov. This tool clarifies the civil rights obligations and related reporting requirements contained in these DHS Standard Terms and Conditions. Subrecipients are not required to complete and submit this tool to DHS. The evaluation tool can be found at https://www.dhs.gov/publication/dhs- civil-rights-evaluation-tool. DHS Civil Rights Evaluation Tool | Homeland Security.

The DHS Office for Civil Rights and Civil Liberties will consider, in its discretion, granting an extension to the 30-day deadline if the recipient identifies steps and a timeline for completing the tool. Recipients must request extensions by emailing the request to CivilRightsEvaluation@hq.dhs.gov prior to expiration of the 30-day deadline.

C. Standard Terms & Conditions

I. Acknowledgement of Federal Funding from DHS
Recipients must acknowledge their use of federal award funding when issuing statements, press releases, requests for proposal, bid invitations, and other documents describing projects or programs funded in whole or in part with federal award funds.

II. Activities Conducted Abroad
Recipients must coordinate with appropriate government authorities when performing project activities outside the United States obtain all appropriate licenses, permits, or approvals.

III. Age Discrimination Act of 1975
Recipients must comply with the requirements of the Age Discrimination Act of 1975, Pub. L. No. 94-135 (codified as amended at 42 U.S.C. § 6101 *et seq*.), which prohibits discrimination on the basis of age in any program or activity receiving federal financial assistance.

IV. Americans with Disabilities Act of 1990
Recipients must comply with the requirements of Titles I, II, and III of the Americans with Disabilities Act, Pub. L. No. 101-336 (1990) (codified as amended at 42 U.S.C. §§ 12101– 12213), which prohibits recipients from discriminating on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities.

V. Best Practices for Collection and Use of Personally Identifiable Information
Recipients who collect personally identifiable information (PII) as part of carrying out the scope of work under a federal award are required to have a publicly available privacy policy that describes standards on the usage and maintenance of the PII they collect. DHS defines PII as any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual. Recipients may also find the DHS Privacy Impact Assessments: Privacy Guidance and Privacy Template as useful resources respectively.

VI. Civil Rights Act of 1964 – Title VI
Recipients must comply with the requirements of Title VI of the Civil Rights Act of 1964, Pub. L. No. 88-352 (codified as amended at 42 U.S.C. § 2000d *et seq*.), which provides that no person in the United States will, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. DHS implementing regulations for the Act are found at 6 C.F.R. Part 21. Recipients of an award from the Federal Emergency Management Agency (FEMA) must also comply with FEMA's implementing regulations at 44 C.F.R. Part 7.

VII. Civil Rights Act of 1968
Recipients must comply with Title VIII of the Civil Rights Act of 1968, Pub. L. No. 90-284 (codified as amended at 42 U.S.C. § 3601 *et seq*.) which prohibits recipients from discriminating in the sale, rental, financing, and advertising of dwellings, or in the provision of services in connection. therewith, on the basis of race, color, national origin, religion, disability, familial status, and sex, as implemented by the U.S. Department of Housing and Urban Development at 24 C.F.R. Part 100. The prohibition on disability discrimination includes the requirement that new multifamily housing with four or more dwelling units— i.e., the public and

common use areas and individual apartment units (all units in buildings with elevators and ground-floor units in buildings without elevators)—be designed and constructed with certain accessible features. (See 24 C.F.R. Part 100, Subpart D.)

VIII. Copyright

Recipients must affix the applicable copyright notices of 17 U.S.C. §§ 401 or 402 to any work first produced under federal awards and also include an acknowledgement that the work was produced under a federal award (including the federal award number and federal awarding agency). As detailed in 2 C.F.R. § 200.315, a federal awarding agency reserves a royalty-free, nonexclusive, and irrevocable right to reproduce, publish, or otherwise use the work for federal purposes and to authorize others to do so.

IX. Debarment and Suspension

Recipients must comply with the non-procurement debarment and suspension regulations implementing Executive Orders (E.O.) 12549 and 12689 set forth at 2 C.F.R. Part 180 as implemented by DHS at 2 C.F.R. Part 3000. These regulations prohibit recipients from entering into covered transactions (such as subawards and contracts) with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in federal assistance programs or activities

X. Drug-Free Workplace Regulations

Recipients must comply with drug-free workplace requirements in Subpart B (or Subpart C, if the recipient is an individual) of 2 C.F.R. Part 3001, which adopts the Government- wide implementation (2 C.F.R. Part 182) of the Drug-Free Workplace Act of 1988 (41 U.S.C. §§ 8101-8106).

XI. Duplicative Costs

Recipients are prohibited from charging any cost to this federal award that will be included as a cost or used to meet cost sharing or matching requirements of any other federal award in either the current or a prior budget period. (See 2 C.F.R. § 200.403(f)). However, recipients may shift costs that are allowable under two or more federal awards where otherwise permitted by federal statutes, regulations, or the federal financial assistance award terms and conditions.

XII. Education Amendments of 1972 (Equal Opportunity in Education Act) – Title IX

Recipients must comply with the requirements of Title IX of the Education Amendments of 1972, Pub. L. No. 92-318 (codified as amended at 20 U.S.C. § 1681 *et seq*.), which provide that no person in the United States will, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program or activity receiving federal financial assistance. DHS implementing regulations are codified at 6 C.F.R. Part 17. Recipients of an award from the Federal Emergency Management Agency (FEMA) must also comply with FEMA's implementing regulations at 44 C.F.R. Part 19.

XIII. E.O. 14074 – Advancing Effective, Accountable Policing and Criminal Justice Practices to Enhance Public Trust and Public Safety Recipient State, Tribal, local, or territorial law enforcement agencies must comply with the requirements of section 12(c) of E.O. 14074. Recipient State, Tribal, local, or territorial law enforcement agencies are also encouraged to adopt and enforce policies consistent with E.O. 14074 to support safe and effective policing.

XIV. Energy Policy and Conservation Act

Recipients must comply with the requirements of the Energy Policy and Conservation Act, Pub. L. No. 94-163 (1975) (codified as amended at 42 U.S.C. § 6201 *et seq*.), which contain policies relating to energy efficiency that are defined in the state energy conservation plan issued in compliance with this Act.

XV. False Claims Act and Program Fraud Civil Remedies

Recipients must comply with the requirements of the Energy Policy and Conservation Act, Pub. L. No. 94-163 (1975) (codified as amended at 42 U.S.C. § 6201 *et seq*.), which contain policies relating to energy efficiency that are defined in the state energy conservation plan issued in compliance with this Act.

XVI. Federal Debt Status

All recipients are required to be non-delinquent in their repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowances, and benefit overpayments. (See OMB Circular A-129.)

XVII. Federal Leadership on Reducing Text Messaging while Driving

Recipients are encouraged to adopt and enforce policies that ban text messaging while driving recipient-owned, recipient-rented, or privately owned vehicles when on official government business or when performing any work for or on behalf of the Federal Government. Recipients are also encouraged to conduct the initiatives of the type described in Section 3(a) of E.O. 13513.

XVIII. Fly America Act of 1974

Recipients must comply with Preference for U.S. Flag Air Carriers (a list of certified air carriers can be found at: Certificated Air Carriers List | US Department of Transportation, https://www.transportation.gov/policy/aviation-policy/certificated-air-carriers-list)for international air transportation of people and property to the extent that such service is available, in accordance with the International Air Transportation Fair Competitive Practices Act of 1974, 49 U.S.C. § 40118, and the interpretative guidelines issued by the Comptroller General of the United States in the March 31, 1981, amendment to Comptroller General Decision B-138942.

XIX. Hotel and Motel Fire Safety Act of 1990

Recipients must ensure that all conference, meeting, convention, or training space funded entirely or in part by federal award funds complies with the fire prevention and control guidelines of Section 6 of the Hotel and Motel Fire Safety Act of 1990, 15 U.S.C. § 2225a.

XX. John S. McCain National Defense Authorization Act of Fiscal Year 2019

Recipients, subrecipients, and their contractors and subcontractors are subject to the prohibitions described in section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, Pub. L. No. 115-232 (2018) and 2 C.F.R. §§ 200.216, 200.327,200.471, and Appendix II to 2 C.F.R. Part 200. The statute – as it applies to DHS recipients, subrecipients, and their contractors and subcontractors – prohibits obligating or expending federal award funds on certain telecommunications and video surveillance products and contracting with certain entities for national security reasons.

XXI. Limited English Proficiency (Civil Rights Act of 1964, Title VI)

Recipients must comply with Title VI of the Civil Rights Act of 1964, (42 U.S.C. § 2000d et seq.) prohibition against discrimination on the basis of national origin, which requires that recipients of federal financial assistance take reasonable steps to provide meaningful access to persons with limited English proficiency (LEP) to their programs and services. For additional assistance and information regarding language access obligations, please refer to the DHS Recipient Guidance and additional resources on http://www.lep.gov.

XXII. Lobbying Prohibitions

Recipients must comply with 31 U.S.C. § 1352 and 6 C.F.R. Part 9, which provide that none of the funds provided under a federal award may be expended by the recipient to pay any person to influence, or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any federal action related to a federal award or contract, including any extension, continuation, renewal, amendment, or modification. Per 6 C.F.R. Part 9, recipients must file a lobbying certification form as described in Appendix A to 6 C.F.R.

Part 9 or available on Grants.gov as the Grants.gov Lobbying Form and file a lobbying disclosure form as described in Appendix B to 6 C.F.R. Part 9 or available on Grants.gov as the Disclosure of Lobbying Activities (SF-LLL).

XXIII. National Environmental Policy Act

Recipients must comply with the requirements of the National Environmental Policy Act of 1969, Pub. L. No. 91-190 (1970) (codified as amended at 42 U.S.C. § 4321 *et seq*.) (NEPA) and the Council on Environmental Quality (CEQ) Regulations for Implementing the Procedural Provisions of NEPA, which require recipients to use all practicable means within their authority, and consistent with other essential considerations of national policy, to create and maintain conditions under which people and nature can exist in productive harmony and fulfill the social, economic, and other needs of present and future generations of Americans.

XXIV. Nondiscrimination in Matters Pertaining to Faith-Based Organizations

It is DHS policy to ensure the equal treatment of faith-based organizations in social service programs administered or supported by DHS or its component agencies, enabling those organizations to participate in providing important social services to beneficiaries. Recipients must comply with the equal treatment policies and requirements contained in 6 C.F.R. Part 19 and other applicable statues, regulations, and guidance governing the participations of faith- based organizations in individual DHS programs.

XXV. Non-Supplanting Requirement

Recipients of federal awards under programs that prohibit supplanting by law must ensure that federal funds supplement but do not supplant non-federal funds that, in the absence of such federal funds, would otherwise have been made available for the same purpose.

XXVI. Notice of Funding Opportunity Requirements

All the instructions, guidance, limitations, scope of work, and other conditions set forth in the Notice of Funding Opportunity (NOFO) for this federal award are incorporated by reference. All recipients must comply with any such requirements set forth in the NOFO. If a condition of the NOFO is inconsistent with these terms and conditions and any such terms of the Award, the condition in the NOFO shall be invalid to the extent of the inconsistency. The remainder of that condition and all other conditions set forth in the NOFO shall remain in effect.

XXVII. Patents and Intellectual Property Rights

Recipients are subject to the Bayh-Dole Act, 35 U.S.C. § 200 *et seq*. and applicable regulations governing inventions and patents, including the regulations issued by the Department of Commerce at 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms under Government Awards, Contracts, and Cooperative Agreements) and the standard patent rights clause set forth at 37 C.F.R. § 401.14.

XXVIII. Procurement of Recovered Materials

States, political subdivisions of states, and their contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962) and 2 C.F.R. § 200.323. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition.

XXIX. Rehabilitation Act of 1973

Recipients must comply with the requirements of Section 504 of the Rehabilitation Act of 1973, Pub. L. No. 93-112 (codified as amended at 29 U.S.C. § 794), which provides that no otherwise qualified handicapped individuals in the United States will, solely by reason of the handicap, be excluded from participation in, be

denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

XXX. Reporting of Matters Related to Recipient Integrity and Performance General Reporting Requirements: If the total value of any currently active grants, cooperative agreements, and procurement contracts from all federal awarding agencies exceeds $10,000,000 for any period of time during the period of performance of the federal award, then the recipient must comply with the requirements set forth in the government-wide Award Term and Condition for Recipient Integrity and Performance Matters located at 2 C.F.R. Part 200, Appendix XII, the full text of which is incorporated by reference.

XXXI. Reporting Subawards and Executive Compensation
For federal awards that equal or exceed $30,000, recipients are required to comply with the requirements set forth in the government-wide award term on Reporting Subawards and Executive Compensation set forth at 2 C.F.R. Part 170, Appendix A, the full text of which is incorporated by reference.

XXXII. Required Use of American Iron, Steel, Manufactured Products, and Construction Materials
Recipients of an award of Federal financial assistance from a program for infrastructure are hereby notified that none of the funds provided under this award may be used for a project for infrastructure unless:

a) all iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
b) all manufactured products used in the project are produced in the United States—this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
c) all construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

Waivers

When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements. The agency should notify the recipient for information on the process for requesting a waiver from these requirements.

a) When the Federal agency has determined that one of the following exceptions applies, the awarding official may waive the application of the domestic content procurement preference in any case in which the agency determines that:
    1) applying the domestic content procurement preference would be inconsistent with the public interest;
    2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or

3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

A request to waive the application of the domestic content procurement preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office.

There may be instances where an award qualifies, in whole or in part, for an existing waiver described at "Buy America" Preference in FEMA Financial Assistance Programs for Infrastructure | FEMA.gov.

Definitions

The definitions applicable to this term are set forth at 2 C.F.R. § 184.3, the full text of which is incorporated by reference.

XXXIII. SAFECOM

Recipients receiving federal financial assistance awards made under programs that provide emergency communication equipment and its related activities must comply with the SAFECOM Guidance for Emergency Communication Grants, including provisions on technical standards that ensure and enhance interoperable communications. The SAFECOM Guidance is updated annually and can be found at Funding and Sustainment | CISA.

XXXIV. Terrorist Financing

Recipients must comply with E.O. 13224 and applicable statutory prohibitions on transactions with, and the provisions of resources and support to, individuals and organizations associated with terrorism. Recipients are legally responsible for ensuring compliance with the E.O. and laws.

XXXV. Trafficking Victims Protection Act of 2000 (TVPA)

Trafficking in Persons.

Recipients must comply with the requirements of the government-wide financial assistance award term which implements Trafficking Victims Protection Act of 2000, Pub. L. No. 106- 386, § 106 (codified as amended at 22 U.S.C. § 7104). The award term is located at 2 C.F.R. § 175.15, the full text of which is incorporated by reference.

XXXVI. Universal Identifier and System of Award Management

Recipients are required to comply with the requirements set forth in the government-wide financial assistance award term regarding the System for Award Management and Universal Identifier Requirements located at 2 C.F.R. Part 25, Appendix A, the full text of which is incorporated reference.

XXXVII. USA PATRIOT Act of 2001

Recipients must comply with requirements of Section 817 of the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (USA PATRIOT Act), which amends 18 U.S.C. §§ 175–175c.

XXXVIII. Use of DHS Seal, Logo and Flags

Recipients must obtain written permission from DHS prior to using the DHS seals, logos, crests, or reproductions of flags, or likenesses of DHS agency officials. This includes use of DHS component (e.g., FEMA, CISA, etc.) seals, logos, crests, or reproductions of flags, or likenesses of component officials.

XXXIX. Whistleblower Protection Act

Recipients must comply with the statutory requirements for whistleblower protections at 10 U.S.C § 470141 U.S.C. § 4712.

The remainder of this page is intentionally left blank.

ATTACHMENT 2
Reimbursement Checklist

Please Note: NMDHSEM reserves the right to update this check list throughout the life of the grant to ensure compliance with applicable state, local, tribal, and territorial rules, and regulations. Please only check the categories that apply to the reimbursement you are currently requesting.

EQUIPMENT

- ☐ Have all invoices been included?
- ☐ Has AEL # been identified for each purchase?
- ☐ If service/warranty expenses are listed, are they only for the performance period of the grant?
- ☐ Are expenditure(s) supported with source documentation (e.g., copies of proof of payment, invoices, receipts, timesheets with name/wage/hours, cost allocation, warrants, purchase order, etc.)
- ☐ Has proof of payment been included? (e.g., canceled check, Electronic Funds Transfer (EFT) confirmation, or P-Card back up documentation which will include receipt with vendor, copy of credit card statement showing expense charged, and payment to credit card Company for that statement)

CONSULTANTS/CONTRACTORS

- ☐ Does the amount billed by consultant add up correctly?
- ☐ Has all the appropriate documentation to denote hours worked been properly signed?
- ☐ Have copies of all planning materials and work products (e.g., meeting documents, copies of plans) been included? (If a meeting was held by recipient or contractor/consultant of recipient, an agenda and signup sheet with meeting date must be included).
- ☐ Has the invoice from consultant/contractor been included?
- ☐ Has proof of payment been included? (e.g., canceled check, Electronic Funds Transfer (EFT) confirmation, or P-Card back up documentation which will include receipt with vendor, copy of credit card statement showing expense charged, and payment to credit card Company for that statement).

SALARY POSITIONS

- ☐ Have the following been provided: signed time sheet by employee and supervisor and proof that employee was paid for time worked (statement of earnings, copy of payroll check or payroll register)?
- ☐ Has a time period summary sheet been included for the total claimed amount?
- ☐ Has a general ledger payroll report been included for the total claimed amount? Ensure this report includes both employee and employer payroll information (i.e., benefits/contributions).
- ☐ Does the back-up documentation include a copy of the check stub per employee for the period covered?
- ☐ Does the back-up documentation provided match the period for which reimbursement is being requested?

TRAINING

- ☐ Is the course DHS/FEMA approved? Is there a course or catalog number? If not, has NMDHSEM approved the non-DHS training request form? Is supporting documentation included your reimbursement request?
- ☐ Have sign-in sheets, rosters and agenda been provided?
- ☐ If billing for overtime and/or backfill, has a spreadsheet been if lists attendee names, department, # of hours spent at training, hourly rate and total amount paid to each attendee? Have printouts from entity's financial system been provided as proof attendees were paid? For backfill, has a clear delineation/cross reference been provided showing who was backfilling who? Have the names on the sign-in sheets been cross-referenced with the names of the individuals for whom training reimbursement costs are being sought?
- ☐ Have the names on the sign-in sheets been cross-referenced with the names of the individuals for whom training reimbursement costs are being sought?
- ☐ Have any expenditures occurred in support of the training (e.g., printing costs, costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, and

equipment)? If so, receipts and proof of payment must be submitted. (e.g., system generated ledger, canceled check, Electronic Funds Transfer (EFT) confirmation, or P-Card back up documentation which will include receipt with vendor, copy of credit card statement showing expense charged, and payment to credit card Company for that statement).

OTHER:

- ☐ If EHP form needed – has copy of it and approval from USDHS/FEMA been included?

MATCHING FUNDS

- ☐ Contributions are from non-federal funding sources.
- ☐ Contributions are from cash.
- ☐ Contributions are from in-kind contributions which may include training investments.
- ☐ Contributions are not from salary, overtime, or other operational costs unrelated to EMPG eligible activities.

The remainder of this page is intentionally left blank.

ATTACHMENT 3

NQS IMPLEMENTATION PHASE OBJECTIVES	
PHASE 0: NQS IMPLEMENTATION OBJECTIVES FOR CY 2022	**EXAMPLE INDICATORS**
▪ Only the 50 states, the District of Columbia and Puerto Rico shall work toward implementation of NQS by developing and Implementation Plan, using FEMA-provided two-page template. ▪ The Implementation Plan will identify a jurisdictions timeline for implementing NQS CY 2025. ▪ All other jurisdictions are encouraged to begin working toward identifying **at a minimum, request deployed positions** and implementation but will not be required until CY 2023.	▪ Completion of a jurisdiction implementation plan ▪ Identification of implementation challenges
PHASE 1: NQS IMPLEMENTATION OBJECTIVES FOR CY 2023	**EXAMPLE INDICATORS**
▪ All jurisdictions shall work toward implementation of NQS by developing an Implementation Plan, using the FEMA provided two-page template. ▪ Jurisdictions that began implementation in CY 2022 shall have designed and adopted organizational qualifications system procedures, a certification program and credentialing standard for incident workforce personnel in alignment with the NIMS Guideline for the National Qualification System.	▪ Completion of a jurisdiction implementation plan ▪ Identification of implementation challenges ▪ Qualification policies and procedures approved by the jurisdiction. Procedures may include: • Establishment of a Qualification Review Board, or equivalent review processes for incident workforce personnel qualifications. • Individual and team coach and evaluation processes for incident workforce personnel qualifications.
PHASE 2: NQS IMPLEMENTATION OBJECTIVES FOR CY 2024	**EXAMPLE INDICATORS**
▪ All jurisdictions shall have designed and approved organizational qualification system procedures, certification program and credentialing standards for incident workforce personnel in alignment with the NIMS Guideline for the NQS. ▪ Jurisdictions that began implementation of CY 2022 shall have issued position task books (PTBs) to incident workforce personnel, as designated by the jurisdiction, and ensure incident workforce personnel show progress in working towards task endorsements and minimum training requirements. ▪ IN CY 2024, all jurisdictions partially satisfy the requirement by ensuring incident workforce personnel, which they designate, meet the minimum training requirements from the Job Title. Position Qualifications. ▪ Jurisdictions shall use a resource management or qualification tool system to track the qualification, certification, and credentialing of incident workforce personnel.	▪ Qualification policies and procedures approved by the jurisdiction. ▪ Minimum criteria that trainees must meet to be qualified in a specific position is outlined in the NQS job Title/Position Qualification. ▪ PTB issuance and completion data. ▪ Adoption of a resource management system such as OneResponder which is a web-based application hosted in a cloud environment. It allows AHJs to manage qualifications of personnel.
PHASE 3: NQS IMPLEMENTATION OBJECTIVES FOR CY 2025	**EXAMPLE INDICATORS**
▪ All jurisdictions shall have issued PTBs to incident workforce personnel, which they designate, and ensure incident workforce personnel show progress in working towards task endorsements and minimum training requirements.	▪ PTB issuance and completion data.

Reporting:

Data Collection and reporting on NQS implementation will be addressed via the following:

- NIMS secondary assessment on the URT, http://www.preptoolkit.fema.gov/urt . This involves reporting the status of the qualification system used within the jurisdiction.
- NIMS State Coordinator will review jurisdictions NIMS data at the end of September during the annual technical assistance visits with the sub recipients

ATTACHMENT 4
Glossary and Definitions

After–Action Report/Improvement Plan (AAR/IP): The AAR/IP is a document that generally includes an exercise overview, analysis of capabilities, and a list of corrective actions. The AAR/IP should include an overview of performance related to each exercise objective and associated capabilities. Homeland Security Exercise and Evaluation Program (HSEEP), January 2020.

Authorized Equipment List (AEL): The FEMA Authorized Equipment List (AEL) is a list of approved equipment types allowed under FEMA's preparedness grant programs.

Backfill: The act of filling a position left by another employee who has been moved to another role.

Conduct of Exercise: Involves activities such as preparing for exercise play, managing exercise play, and conducting immediate exercise wrap-up activities. For a discussion-based exercise, conduct entails presentation, facilitation, and discussion. For an operations-based exercise, conduct, encompasses all operations occurring between the designated Start of the Exercise (StartEx) and End of the Exercise (EndEx). Homeland Security Exercise and Evaluation Program (HSEEP), January 2020.

Disallowed costs: Those charges to a federal award that the federal awarding agency or pass-through entity determines to be unallowable, in accordance with the applicable federal statutes, regulations, or the terms and conditions of the federal award. 2 C.F.R. 200.1 Disallowed costs.

Equipment: Tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-federal entity for financial statement purposes, or $10,000. 2 C.F.R. 200.1 Equipment.

Exercise: An event or activity delivered through discussion or action to develop, assess, or validate capabilities to achieve planned objectives. Types of exercises are seminar, workshop, tabletop, full scale, and functional. Homeland Security Exercise and Evaluation Program (HSEEP), January 2020.

Expenditures: Charges made by a non-federal entity to a project or program for which a federal award was received. 2 C.F.R. 200.1 Expenditures.

Federal Award: The federal financial assistance that a recipient receives directly from a federal awarding agency or indirectly from a pass-through entity. 2 C.F.R. 200.1 Federal award.

Federal Share: The portion of the federal award costs that are paid using federal funds. 2 C.F.R. 200.1 Federal share.

Homeland Security Grant Program (HSGP): One of three grant programs that constitute the DHS/FEMA focus on enhancing the ability of state, local, tribal, and territorial governments, as well as nonprofits, to prevent, protect against, respond to, and recover from terrorist attacks. The HSGP program includes: State Homeland Security Program (SHSP); Urban Area Security Initiative (UASI); and Operation Stonegarden (OPSG).

Improvement Plan (IP): A document that includes a consolidated list of corrective actions, responsible parties, and a timeline for completion. Homeland Security Exercise and Evaluation Program (HSEEP), January 2020.

Integrated Preparedness Plan (IPP): A document for combing efforts across components of the Integrated Preparedness Cycle to make sure that a jurisdiction/organization has the capabilities to handle threats and hazards. Homeland Security Exercise and Evaluation Program (HSEEP), January 2020.

NMDHSEM Request for Budget-Project Revision form: This form is used to request revision(s) to project(s) and/or budget(s) that are within the original scope of the project.

Notice of Funding Opportunity (NOFO): A formal announcement of the availability of federal funding through a financial assistance program from a federal awarding agency. The notice of funding opportunity provides information on the award, who is eligible to apply, the evaluation criteria for selection of an awardee, required components of an application, and how to submit the application. 2 C.F.R. 200.1 Notice of funding opportunity.

Operation Stonegarden (OPSG): Supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and federal, state, local, tribal, and territorial law enforcement agencies to improve overall border security. OPSG provides funding to support joint efforts to secure the United States' borders along routes of ingress/egress to and from international borders, to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders. SLTT law enforcement agencies utilize their own law enforcement authorities to support the border security mission and do not receive any additional authority as a result of participation in OPSG.

Pass-through Entity: A non-federal entity that provides a sub-award to a subrecipient to carry out part of a federal program. 2 C.F.R. 200.1 Pass through entity (PTE).

Performance Measure: A numerical expression that quantitatively conveys how well the organization is doing against an associated performance goal, objective, or standard.

Period of Performance (POP): The total estimated time interval between the start of an initial federal award and the planned end date, which may include one or more funded portions, or budget periods. 2 C.F.R. 200.1 Period of performance.

Preparedness: The actions taken to plan, organize, equip, train, and exercise to build and sustain the capabilities necessary to prevent, protect against, mitigate the effects of, respond to, and recover from those threats that pose the greatest risk to the security of the Nation. National Incident Management System, Third Edition, October 2017.

Quarterly Financial Progress Report: The information in this report is used by NMDHSEM to monitor subrecipient cash flow, performance, and project implementation to ensure proper use of federal funds.

Recipient: An entity, usually but not limited to non-federal entities that receives a federal award directly from a federal awarding agency. The term recipient does not include subrecipients or individuals that are beneficiaries of the award. 2 C.F.R. 200.1 Recipient.

Request for Approval Form (RFA): Used by subrecipient to request approval from NMDHSEM to expend funds for previously identified and approved projects. Approval must be received prior to expenditure.

Risk: Potential for an adverse outcome assessed as a function of threats, vulnerabilities, and consequences associated with an incident, event, or occurrence.

Stakeholder Preparedness Review (SPR): Annual three-step self-assessment of a community's capability levels based on the capability targets identified in the Threat and Hazards Identification and Risk Assessment (THIRA). Threat and Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR) Guide, Comprehensive Preparedness Guide, CPG 201, 3rd Edition, May 2018.

State Homeland Security Grant Program (SHSGP): Assists state, local, tribal, and territorial efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

Subrecipient: An entity, usually but not limited to non-federal entities, that receives a sub-award from a pass-through entity to carry out part of a federal award; but does not include an individual that is a beneficiary of such award. A subrecipient may also be a recipient of other federal awards directly from a federal awarding agency. 2 C.F.R. 200.1 Subrecipient.

Supplanting: When a state or unit of local government reduces state or local funds for an activity specifically because federal funds are available (or expected to be available) to fund that same activity. When supplanting is not permitted, federal funds must be used to **supplement** existing state or local funds for program activities and may not replace state or local funds that have been appropriated or allocated for the same purpose. Additionally, federal funding may not replace state or local funding that is required by law. If a question of supplanting arises, the applicant or grantee will be required to substantiate that the reduction in non-federal resources occurred for reasons other than the receipt or expected receipt of federal funds. US Department of Justice Office of Justice Programs, Grants 101.

Threat: Information expressing intent to conduct illegal activity often derived from intelligence sources, the overall context, a specific event or series of events, or observation of suspicious activity.

Threat and Hazard Identification and Risk Assessment (THIRA): Standard process for identifying community-specific threats and hazards and setting targets for each core capability identified in the National Preparedness Goal. Threat and Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR) Guide, Comprehensive Preparedness Guide, CPG 201, 3rd Edition, May 2018.

Unity of Effort: Coordination and cooperation among all organizational elements, even though they may not be part of the same command structure, to achieve success.

Urban Area Security Initiative (UASI): The HSGP program that assists high-risk urban areas' efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

Vulnerability: The protective measures in place are less than the protective measures needed to mitigate risk.

Project Ledger Request Form

Date of Request: 10/28/2024

Project Title: 2024 SHSGP - P1 - Plate Armor

Project Type: ☐ CIP ☑ Grant ☐ Internal Tracking

Project ID: OEM2522104

Grant ID: F2518

Approved By: 10/30/24

PL/CT (Finance Use Only)

Department: CH&S - OEM Project Manager: Kyle Morgan Ext: 6704

Project Date Range: 10/1/2024 to 9/30/2026 ☐ Create Fixed Asset

---

☐ Multi-Funding (complete all funding sources, should equal 100%)

Funding Source: US DHS - NM DHSEM % of Funding: 100

MUNIS ORG: 2212850 MUNIS OBJ: 490610 Awarded Amount: $119,000

Funding Source: _____ % of Funding: _____

MUNIS ORG: _____ MUNIS OBJ: _____ Awarded Amount: _____

Expense String Phase:

A project must have at least one phase identified, this can be used as an additional level of tracking, for example, CIP - Design, Construction, etc. For Grants can be used as reimbursable types, such as transportation, salaries.

(You can create more than one phase and you can default MUNIS ORGs and OBJs, optional)

Phase: OP SUPPLIES MUNIS ORG: 2212850 MUNIS OBJ: 530200

Grants Only (list all grants if applicable):

Grantor Name: USDHS/NM DHSEM-EMW-2024-SS-05231 Awarded Amount: 283,975.00

AR Charge Code: 2212850.490610 ☑ Grant funds multiple projects (Complete a form for each project)

Grantor Id: 700034 Federal CFDA (if applicable): 97.067

Grantor Name: _____ Awarded Amount: _____

CITY OF SANTA FE

DATE: October 11, 2024

TO: Governing Body
Finance Committee
Quality of Life Committee

VIA: Maria E. Sanchez-Tucker, Community Services Director Maria Tucker (Nov 4, 2024 17:31 MST)
Brian Stinett, Recreation Division Director Brian Stinett (Oct 31, 2024 12:34 MDT)
Marcella Apodaca, Business Operations Manager Marcella Apodaca

FROM: Melissa Bustos, Youth Program Manager

SUBJECT: Request for BAR to Move Expenditures

ITEM AND ISSUE:

The Recreation Division has submitted a request for a Budget Adjustment Request (BAR) to reallocate expenditures from Org/5500263, Obj/500750 to Org/2560423, Obj/500750. This adjustment is necessary as the youth programs' temporary summer positions were originally funded from Org/5500263. Following the establishment of a new org dedicated to the youth programs in July 2023 (Org/2560423), it was discovered that the expenditures for the temporary summer positions were incorrectly charged to the old org. The BAR aims to rectify this error and ensure that the expenses are accurately reflected under the new or/2560423

Org/5500263, Obj/500750 in the amount of $ 192,007.50 into Org/2560423, Obj/500750 in the amount of 192,007.50.

BACKGROUND AND SUMMARY:
When the Department of Community Health and Safety Department was formed in 2020, it was determined that the Recreation Division that used to be part of the Parks and Recreation Department would manage and oversee what was the Youth and Family Division's Recreation Program. Including the transfer of all staffing and positions.

ACTION REQUESTED:
Request for BAR approval. Org/5500263, Obj/500750 in the amount of $ 192,007.50 into Org/2560423, Obj/500750 in the amount of 192,007.50.

MEMORANDUM

Date: November 22, 2024

To: Finance Committee and Governing Body

From: Bernadette Salazar, HR Director

Through: Randy Randall, Interim City Manager
Emily Oster, Finance Director

Re: Retention Incentives

BACKGROUND AND SUMMARY:

In an effort to retain city employees, the city is proposing to implement a retention incentive comparable to last year. The same amount is contemplated for bargaining unit employees subject to approval from the unions. An agreement cannot exceed the allocated amount.

ACTION REQUESTED:

Request Approval of a Budget Adjustment Resolution (BAR) in the amount of $1,389,478 from Gross Receipts Taxes (GRT) in excess of budgeted estimates and available fund balances. This is to fund employee retention incentives of $1,000 for city employees. An agreement will be presented to employees for consideration of the incentive to include the requirement to remain employed until at least June 30, 2025, otherwise the retention incentive will have to be paid back to the city. This agreement is consistent with those implemented when issuing retention incentive payments in the past years.

FUNDING SOURCE:
GRT in excess of budgeted estimates and available fund balances.

CITY OF SANTA FE

Date: December 3, 2024

To: Governing Body
Finance Committee

Via: Randy Randall, Interim City Manager Randy Randall (Dec 3, 2024 17:21 MST)
Paul Joye, Chief of Police

From: Ben Valdez, Deputy Chief of Police B. Valdez, DC (Dec 3, 2024 16:48 MST)

Subject: **FY25 Vehicle Purchase**

Vendor Name(s): **Don Chalmers Ford (1693), MHQ (3527), Code 3 Service (8602)**

ITEM AND ISSUE: Request for the Approval of FY25 Police Vehicle Purchase Request. Total Amount is $1,707,653.26 for the 26 vehicles to include equipment and labor costs associated with each vehicle. (Ben Valdez, Deputy Chief of Police, bpvaldez@santafenm.gov, 505-955-5040)

Action Requested: **Police Vehicle Purchase**

BACKGROUND AND SUMMARY:
As part of the annual fleet replacement, the Santa Fe Police Department is requesting the purchase of 26 vehicles, to include the purchase of the equipment and labor costs associated with each vehicle. The 26 police vehicles and associated equipment is imperative to maintain the operational capability of the Police Department. The following is the list of vehicles to be purchased.

VEHICLES	COSTS	ORG#	OBJ#
Ford Police Interceptor (8)	$401,000.00	100/2230310	570950
Ford F150 (2)	$88,420.00	2230310	570950
Ford Mavrick (12)	$387,210.00	2230310	570950
Ford Mavrick (4)	$121,152.40	2230310	570950
Total costs for 26 vehicles:	**$997,782.40**		

EQUIPMENT	COSTS
➢ Vehicle emergency/safety equipment, emergency lights, radio speaker, etc.	$542,707.75
➢ Radios	$167,163.11

Total costs for equipment and installation: **$709,870.86**

Grand total purchase cost: Vehicles, equipment and installation **$1,707,653.26**

Ford Police Interceptor Utility EcoBoost
Eight Police Interceptor Utility vehicles will be purchased to replace the current Police Interceptor sedans that need replacement for the Patrol Section. The vehicles will be up fitted with the latest communication equipment including

police radios, mobile data terminals, and modems to work with our Dispatch Communications System, Records Management System and in car camera system.

The vehicle platform can accommodate varying sizes and compositions of officers while wearing protective and duty equipment. The ingress/egress for the vehicle does not require the officer to crouch down when entering the vehicle or to exit the vehicle from a crouched position. This can assist with minimizing issues with back pain, neck pain, and leg strain caused by entering/exiting the vehicle and minimizes lost time due to employee injuries. This remains a challenge with large statured officers who are issued a Police Interceptor sedan or a Ford Fusion sedan and often requires them being placed in an Interceptor Utility if available.

The vehicle also provides sufficient secured storage space to accommodate communications equipment, duty equipment while also making it readily available for deployment or service when needed. The vehicle platform is also able to safely operate within the manufacturers recommended payload capacity and gross vehicle weight rating (GVWR) without causing excessive brake, tire, and transmission wear when police vehicle equipment is installed, and duty equipment is loaded for duty use.

The vehicle comes standard as an all-wheel drive drivetrain providing improved handling stability and traction in all driving conditions. This is well suited for our community as we see all seasons. It is also the only vehicle, worldwide, that is engineered to meet the 75-mph rear-impact crash test that provides significant officer protection during a rear impact crash. Rear impact crashes are prone to occur while conducting traffic enforcement on roadways while a vehicle is parked on or alongside the roadway.

The Department was transitioning all Patrol and Administrative vehicles to a hybrid vehicle fleet as vehicles are identified for replacement. This is an effort to maximize the fuel savings for our Department, to lower the impact of emissions caused by our vehicles and maintain an operational fleet with emergency response capability that is suitable to stand up to the rigorous work environment for law enforcement vehicles.

Approval was granted to purchase a significant number of pursuit rated hybrid vehicles in FY22, but due to supply chain issues surrounding hybrid and electric vehicle manufacturing our order was delayed. In addition, the cost per vehicle increased significantly when the order was pushed to manufacturing year 2023. This caused the Department to change the hybrid vehicle engine to a fuel efficient EcoBoost engine, which is the next best option.

The supply chain challenges surrounding the hybrid platform remains. We will evaluate returning to transitioning hybrid vehicles once the supply chain is able to facilitate the timely manufacturing and delivery of the vehicles to avoid unexpected increases in purchase cost. Because of the need to replace the remaining aging vehicles in our fleet and the exhaustion of our reserve fleet, we need to quickly add as many vehicles to our fleet as possible until we can build up our reserve once more.

Ford F150 Truck

Two trucks will be purchased to replace the remaining two Animal Services trucks in need of replacement. The full-size truck platform is needed to accommodate the transport of impounded animals. A slide in kennel will be upfitted to the vehicle to facilitate safe transport. In addition, the vehicle must be capable of towing a horse trailer when needed to deploy for horses and livestock running at large.

The vehicle requires four-wheel drive capability to complete the above tasks in inclement weather and in areas where roads are not well maintained within our jurisdiction.
The vehicle will be up fitted with the latest communication equipment including police radio, mobile data terminal, and modem to work with our Dispatch Communications System and Records Management System.

We are evaluating transitioning to the F150 platform from the F250 platform for Animal Services due to cost increases on new model year trucks. If the F150 is successful, we will replace the existing F250s with F150s when the time comes for replacement in a few years.

Ford Maverick Trucks
Sixteen Ford Maverick Trucks will be purchased to replace twelve Public Safety Aide trucks and four Crime Scene Unit vehicles. The Mavericks will be equipped with the 2.0 liter EcoBoost engine with all-wheel drive providing improved handling stability and traction in all driving conditions. This is well suited for our community as we see all seasons.

This platform is being utilized by a neighboring law enforcement agency in the area and others around the country for use by safety aides and other support units. One of our determining factors was the cost of F150 trucks has nearly doubled since the prior Public Safety Aide vehicle purchase in 2020.

The Public Safety Aide Mavericks will also be equipped with a 4K towing package, to allow the towing of utility trailers, speed sign trailers and mobile video trailers. The truck bed will have a cover to secure traffic cones and other equipment used to support police operations.

The Crime Scene Mavericks will be equipped with a camper shell to allow transport of crime scene equipment and evidence items that need to be submitted.

The Maverick trucks will be up fitted with the latest communication equipment including police radio, mobile data terminal, and modem to work with our Dispatch Communications System and Records Management System.

The Maverick truck is offered in a hybrid platform, but the supply chain challenges concerning electric and hybrid vehicles also exists for this platform. In addition, the 4K towing package is not available on the hybrid platform.

PROCUREMENT METHOD:
NM Statewide Price Agreement [Chalmers Ford] # 00-00000-20-00088 AF which expires on March 4, 2025.

Statewide Price Agreement Amendment

Awarded Vendor:
17 Vendors

Number: **20-00000-21-00030**

Amendment No.: **Four**

Term: **April 25, 2022 – April 24, 2025**

Ship To:
All State of New Mexico agencies, commissions, institutions, political subdivisions and local public bodies allowed by law.

Invoice:
As Requested at Time of Order

Procurement Specialist: **Karen G. Acosta Gonzalez** KGA

Telephone No.: **(505) 372-9264**

Email: **Karen.Acosta-Gonzal@gsd.nm.gov**

Title: **Police Vehicle Equipment, Parts and Labor**

This amendment is to be attached to the respective Price Agreement and become a part thereof.

In accordance with Price Agreement provisions, and by mutual agreement of all parties, this Price Agreement is extended from April 25, 2024 to April 24, 2025 at the same price, terms and conditions for the following vendors:

(AA) BJW Ventures, LLC dba Accessories Unlimited
(AB) Advanced Communications and Electronics
(AC) Kevin Kocharoff dba Blue Sky Upfitting, LLC
(AD) Code 3 Service, LLC
(AE) Dana Safety Supply, Inc.
(AF) Chalmers Ford, Inc. dba MHQ
(AG) Enchanted Technology Solutions, LLC
(AH) Federal Signal Corporation
(AI) Frontline Upfitting, LLC
(AK) Motorola Solutions, Inc.
(AM) Organ Mountain Graphix, LLC
(AO) State of Emergency Upfitting, LLC
(AP) Gonzales, Joshua dba The Wrap Lab
(AQ) WAC Upfitters, LLC
(AR) West Mesa Auto Craft, Inc.
(AS) Mobile Communications America, Inc.

Vendor (AL) New Mexico Emergency Products at the same terms and conditions with a price increase as shown on Page 2.

Except as modified by this amendment, the provisions of the Price Agreement shall remain in full force and effect.

Accepted for the State of New Mexico

City of Santa Fe, New Mexico
Memorandum

DATE: December 4, 2024

TO: Governing Body

FROM: Bernadette Salazar, HR Director BJS

VIA: Randy Randall, Interim City Manager RR

ITEM:

Request for approval of the Memorandum of Agreement between the City of Santa Fe and Local 2059 City of Santa Fe Fire Department Employees, of the International Association of Firefighters (IAFF), for a one-time retention incentive payment in the amount of $1,000.

BACKGROUND AND SUMMARY:

The Governing Body approved a Budget Adjustment Resolution from Gross Receipts Taxes (GRT) in excess of budgeted estimates and available fund balances and a budget allocation for FY2025 for retention incentive in an effort to retain Fire bargaining unit employees. Bargaining unit employees will agree to an additional six months of service with the City of Santa Fe.

ACTION REQUESTED:

The city's management team and Local 2059 City of Santa Fe Fire Department Employees, of the International Association of Firefighters (IAFF) leadership respectfully request your review and approval of the Memorandum of Agreement between the City of Santa Fe and Local 2059 City of Santa Fe Fire Department Employees, of the International Association of Firefighters (IAFF) as described above.

Signature: Randy Randall (Dec 5, 2024 08:21 MST)

Email: rrandall@santafenm.gov

MEMORANDUM OF AGREEMENT BETWEEN CITY OF SANTA FE AND LOCAL 2059 CITY OF SANTA FE FIRE DEPARTMENT EMPLOYEES, OF THE INTERNATIONAL ASSOCIATION OF FIRE FIGHTERS FOR A ONE TIME RETENTION PAYMENT

THIS MEMORANDUM OF AGREEMENT ("MOA") is entered into by and between the City of Santa Fe, NM ("City") and the International Association of Firefighters ("Union"). The Union and City are collectively referred to as the ("Parties").

WHEREAS, the Union is the collective bargaining representative for the employees covers by this MOA, and

WHEREAS, the city of Santa Fe strives to remain competitive and retain city employees.

WHEREAS, the Governing Body is considering a Budget Adjustment Resolution (BAR) from Gross Receipts Taxes (GRT) in excess of budgeted estimates and available fund balances and a budget allocation for FY2025 for retention incentive pay for IAFF bargaining unit employees. This is one-time funding and cannot be used for recurring expenses.

Now, therefore, the Parties agree to the following:

I. **EFFECTIVE DATE**: The Parties agree that, contingent upon Governing Body approval of the budget allocation and so long as both parties sign this MOA, the "effective date" is the date that the last Party executes this MOA.

II. **TERMS OF MOA**: This MOA is a one-time retention payment of $1,000 per eligible bargaining unit employee. The Parties agree the bargaining unit employee must comply with the following to be eligible for the payment:

   a. To become eligible for the funding the bargaining unit employee must sign an agreement detailing they agree to an additional six months of service with City of Santa Fe. (Attachment 1).

   b. The agreement must be signed no later than December 4, 2024 and the payment will be made by December31, 2024.

   c. The intent of this MOA and retention incentive is to help with retention of city employees; therefore, it does not apply to bargaining unit employees on a retirement contract or who are in the process of resigning.

III. **FREELY AND VOLUNTARILY ENTERED**: This MOA has been entered into freely and voluntarily between the Parties, based on their own judgement, knowledge,

and information without relying on any promises or understanding except as expressly provided herein.

IV. **MOA CREATES NO THIRD-PARTY BENEFITS**: By entering into this MOA, the Parties do not intend to create any right, title, or interest in or for the benefit of any person other than the Parties. No person shall claim any right, title, or interest under this MOA or seek to enforce this MOA as a third-party beneficiary of this MOA.

V. **NO FURTHER AGREEMENT**. This MOA incorporates all the agreements, covenants, and understandings between the parties hereto concerning the payment to be performed hereunder, and all such agreements, covenants, and understandings have been merged into this MOA. This MOA expresses the entire MOA and understanding between the parties. No prior agreement or understanding, verbal or otherwise, between the Parties or their agents shall be valid or enforceable unless embodied in this MOA.

VI. **SEVERABILITY**. In case any one or more of the provisions contained in this MOA or any application thereof shall be invalid, illegal, or unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions contained herein, and any other application thereof shall not in any way be affected or impaired thereby.

VII. **ELECTRONIC SIGNATURES**. The Parties agree that this MOA may be electronically signed and that the electronic signatures appearing on the agreement are the same as handwritten signatures for the purposes of validity, enforceability, and admissibility.

IN WITNESS THEREOF, the parties have signed their names and affixed the signatures of their authorized representatives this _____day of December 2024.

City of Santa Fe, New Mexico
Memorandum

DATE: December 4, 2024

TO: Governing Body

FROM: Bernadette Salazar, HR Director BJS

VIA: Randy Randall, Interim City Manager RR

ITEM:

Request for approval of the Memorandum of Agreement between the City of Santa Fe and Local 3999 City of Santa Fe Employees of the American Federation of State, County and Municipal Employees, Council 18, AFL-CIO for a one-time retention incentive payment in the amount of $1,000.

BACKGROUND AND SUMMARY:

The Governing Body approved a Budget Adjustment Resolution from Gross Receipts Taxes (GRT) in excess of budgeted estimates and available fund balances and a budget allocation for FY2025 for retention incentive in an effort to retain AFSCME bargaining unit employees. Bargaining unit employees will agree to an additional six months of service with the City of Santa Fe.

ACTION REQUESTED:

The city's management team and AFSCME leadership respectfully request your review and approval of the Memorandum of Agreement between the City of Santa Fe and Local 3999 City of Santa Fe Employees of the American Federation of State, County and Municipal Employees, Council 18, AFL-CIO as described above.

City of Santa Fe, New Mexico
Memorandum

DATE: December 4, 2024

TO: Governing Body

FROM: Bernadette Salazar, HR Director BJS

VIA: Randy Randall, Interim City Manager RR

ITEM:

Request for approval of the Memorandum of Agreement between the City of Santa Fe and the Santa Fe Police Officer's Association for a one-time retention incentive payment in the amount of $1,000.

BACKGROUND AND SUMMARY:

The Governing Body approved a Budget Adjustment Resolution from Gross Receipts Taxes (GRT) in excess of budgeted estimates and available fund balances and a budget allocation for FY2025 for retention incentive in an effort to retain POA bargaining unit employees. Bargaining unit employees will agree to an additional six months of service with the City of Santa Fe.

ACTION REQUESTED:

The city's management team and POA leadership respectfully request your review and approval of the Memorandum of Agreement between the City of Santa Fe and the Santa Fe Police Officer's Association as described above.

Signature: Randy Randall (Dec 5, 2024 08:21 MST)

Email: rrandall@santafenm.gov

MEMORANDUM OF AGREEMENT BETWEEN CITY OF SANTA FE AND THE SANTA FE POLICE OFFICER'S ASSOCIATION FOR A ONE TIME RETENTION PAYMENT

THIS MEMORANDUM OF AGREEMENT ("MOA") is entered into by and between the City of Santa Fe, NM ("City") and the Police Officer's Association for a One Time Retention Payment ("Union"). The Union and City are collectively referred to as the ("Parties").

WHEREAS, the Union is the collective bargaining representative for the employees covers by this MOA, and

WHEREAS, the city of Santa Fe strives to remain competitive and retain city employees.

WHEREAS, the Governing Body is considering a Budget Adjustment Resolution (BAR) from Gross Receipts Taxes (GRT) in excess of budgeted estimates and available fund balances and a budget allocation for FY2025 for retention incentive pay for POA bargaining unit employees.

Now, therefore, the Parties agree to the following:

I. **EFFECTIVE DATE**: The Parties agree that contingent upon Governing Body approval of the budget allocation and so long as both parties sign this MOA, the "effective date" is the date that the last Party executes this MOA.

II. **TERMS OF MOA**: This MOA is a one-time retention payment of $1,000 per eligible bargaining unit employee. The Parties agree the bargaining unit employee must comply with the following to be eligible for the payment:

   a. To become eligible for the funding the bargaining unit employee must sign an agreement detailing they agree to an additional six months of service with City of Santa Fe. (Attachment 1).

   b. The agreement must be signed no later than December 6, 2024, and the payment will be made by December 31, 2024.

   c. The intent of this MOA and retention incentive is to help with retention of city employees; therefore, it does not apply to bargaining unit employees on a retirement contract or who are in the process of resigning.

III. **FREELY AND VOLUNTARILY ENTERED**: This MOA has been entered into freely and voluntarily between the Parties, based on their own judgement, knowledge, and information without relying on any promises or understanding except as expressly provided herein.

IV. **MOA CREATES NO THIRD-PARTY BENEFITS**: By entering into this MOA, the Parties do not intend to create any right, title, or interest in or for the benefit of any person other than the Parties. No person shall claim any right, title, or interest under this MOA or seek to enforce this MOA as a third-party beneficiary of this MOA.

V. **NO FURTHER AGREEMENT**. This MOA incorporates all the agreements, covenants, and understandings between the parties hereto concerning the payment to be performed hereunder, and all such agreements, covenants, and understandings have been merged into this MOA. This MOA expresses the entire MOA and understanding between the parties. No prior agreement or understanding, verbal or otherwise, between the Parties or their agents shall be valid or enforceable unless embodied in this MOA.

VI. **SEVERABILITY**. In case any one or more of the provisions contained in this MOA or any application thereof shall be invalid, illegal, or unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions contained herein, and any other application thereof shall not in any way be affected or impaired thereby.

VII. **ELECTRONIC SIGNATURES**. The Parties agree that this MOA may be electronically signed and that the electronic signatures appearing on the agreement are the same as handwritten signatures for the purposes of validity, enforceability, and admissibility.

IN WITNESS THEREOF, the parties have signed their names and affixed the signatures of their authorized representatives this _____day of December 2024.

From: Casey Dalbor, Economic Development Associate CJD

Via: Johanna Nelson, Office of Economic Development Director JN

RE: Enabling the Santa Fe County Improvement Special Assessment Program in the City of Santa Fe

---

EXECUTIVE SUMMARY:

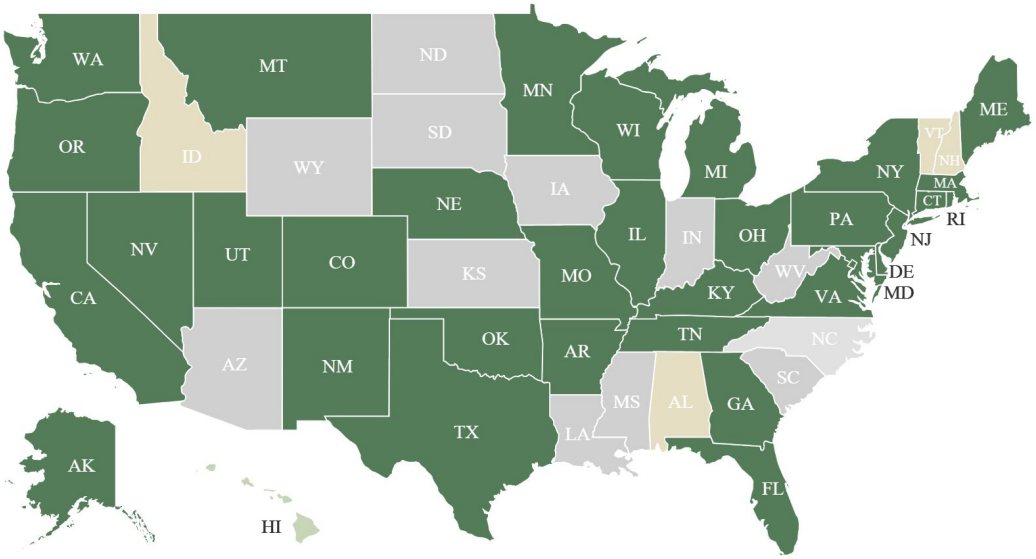
The proposed Resolution would allow for the Santa Fe County Improvement Special Assessment Program to operate within city of Santa Fe, pursuant to the New Mexico Improvement Special Assessment Act, codified as NMSA 1978, Sections 4-55D-1 to –10, and as Santa Fe County Ordinance 2024-8.

BACKGROUND:

"Commercial Property Assessed Clean Energy" ("C-PACE") programs are a type of financing structure enabled by state statute and local ordinance. As such, in 2023, the New Mexico Legislature passed the Improvement Special Assessment Act ("Act"), via House Bill 228, which authorized the Improvement Special Assessment Program. The Act provides an alternative source of financing for improvements to privately-owned commercial, agricultural, industrial property (including buildings on those properties) or any multi-family property of five or more dwelling units. The Act, Sections 4-55D-1 through 4-55D-10, NMSA 1978, allows counties to establish Improvement Special Assessment Programs ("Programs") via ordinance. Santa Fe County established an Improvement Special Assessment Program on September 13, 2024, in Ordinance Number 2024-8 ("Ordinance"). The Act and Ordinance allow owners of eligible properties to obtain long-term financing from private capital providers for eligible energy efficiency, renewable energy, water conservation, and resiliency improvements for qualifying properties. C-PACE programs established by a county may apply within the boundaries of a municipality if the municipality adopts a resolution approving the administration of that county's ordinance within the municipality.

ATTACHMENTS:

Resolution
FIR
Memo Attachment – New Mexico C-PACE Program



NM C-PACE Program

What is C-PACE?

- Commercial Property Assessed Clean Energy (C-PACE) is an alternative source of financing for improvements to commercial properties.
- Eligible properties include: any privately-owned commercial, agricultural, industrial, or multi-family property of five or more dwelling units. This includes properties owned by a not-for-profit organization.
- Covers the direct and indirect costs related to reducing energy or water consumption, generating renewable energy, or building resiliency.
- Over 90 C-PACE lenders and $6.3 billion funded on over 3,200 commercial properties across the US.

Active C-PACE Programs

PACE New Mexico

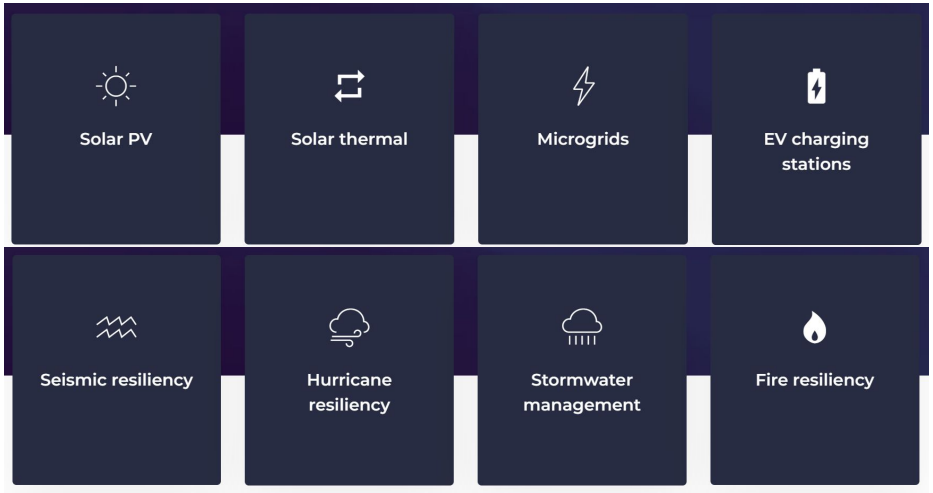
Map key

Active program(s)

Program in development

PACE-enabled

How to establish the program?



- States authorize C-PACE programs by statute. This was done in New Mexico through the Improvement Special Assessment Act enacted in 2023 via House Bill 228.
- Counties and Municipalities need to opt in to the program via ordinance (or resolution for Municipalities) so that projects within their jurisdiction can use it.
- Adelante Consulting has been contracted by NM EDD to serve as statewide program administrator for the C-PACE Program.
- C-PACE Capital providers provide funds without any public dollars or subsidy.

C-PACE Financing Process

1. Define the project and the portion eligible for C-PACE financing
2. The property owner and capital provider negotiate financial terms
3. Obtain a technical analysis of the project's utility savings
4. Obtain the consent of other lienholders on the property
5. The property owner/capital provider submits their application to the program administrator
6. The County signs and records 3 closing documents once a project application is approved
7. Payments are billed and collected by the capital provider but enforced like property taxes

Typical Measures Funded by C-PACE

General C-PACE Benefits

- Financing for 100% of direct and indirect costs;
- Fixed interest rates;
- Up to 30 years to repay;
- Secured by a property lien (not a personal guarantee); and
- Non-accelerable in the event of default.

Benefits for Property Owners/Developers

- Overcome the up-front costs of a potential project
- Increase property value
- Lower operating costs through energy efficiency
- Special assessment is transferable upon sale

Benefits for County/Municipal Governments

- More jobs are created
- Local building stock value is enhanced
- Carbon footprint of buildings is reduced
- Resiliency of buildings is improved
- Higher property tax payments

Benefits for Capital Providers

- Stronger security for investors due to repayment via property tax bill
- Increased collateral value
- Increased cash flow

Benefits for Existing Lienholders

- Enhance property value
- Improve building's longevity
- See collateral improved without increase in credit risk
- Financing only permitted with consent of all existing lienholders

Frequently Asked Questions

PACE New Mexico

- Q: Seniority of lienholders?
- A: From the statute - Written consent from any holder of a lien, mortgage or security interest in the real property that the property may participate in the program and that the special assessment lien shall have priority superior to all liens, claims and titles except a lien for general ad valorem property taxes or an improvement district lien that is coequal to property taxes.
- Q: Liability for local government?
- A: From the statute - A county is not liable in any way for the debt of the property owner, is not a third-party obligor and is not pledging or lending its credit to the property owner or the capital provider.

Frequently Asked Questions

- Q: Who is responsible for the billing and collection of loans?
- A: From the guidebook - Billing, collection, and enforcement of delinquent Improvement Special Assessment Liens or Improvement Special Assessment financing installment payments, including foreclosure, are the responsibility of the Capital Provider.
- Q: How are interest rates determined?
- A: From the guidebook - Interest rates are negotiated in a Special Assessment Financing Agreement between the Property Owner and the Capital Provider.

Frequently Asked Questions

- Q: What are the administrative fees associated with C-PACE?
- A: The Program Administrator's fees are outlined in the program guidebook and are paid at closing along with any required fees by the County for signing and recording the closing documents.
- Q: What is the responsibility of the program administrator?
- A: Responsibilities include:
  - Supporting interested Counties/Municipalities to opt in
  - Processing all project applications
  - Providing educational outreach and answering C-PACE questions for any interested stakeholders
  - Providing semi-annual reports on the C-PACE financing loan portfolio

Updates for New Mexico

- Counties connected with: Bernalillo, Doña Ana, Santa Fe, Sandoval, Valencia, McKinley, Curry, Taos, and Los Alamos.
- Bernalillo County introduced their C-PACE ordinance on April 9th, 2024 and final adoption is expected on May 28th.
- Albuquerque to introduce their resolution on May 20th, 2024.
- The NM C-PACE website is launched: www.nmcpace.com
- Connected to 9 out-of-state capital providers with C-PACE financing experience
- Reaching out to credit unions & other local financial institutions

Contact Information

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2024-__

INTRODUCED BY:

Mayor Alan Webber

Councilor Jamie Cassutt

A RESOLUTION

ENABLING THE SANTA FE COUNTY IMPROVEMENT SPECIAL ASSESSMENT PROGRAM IN THE CITY OF SANTA FE.

WHEREAS, in 2023, the New Mexico legislature passed the "Improvement Special Assessment Act," codified as NMSA 1978, Sections 4-55D-1 to -10 ("Act"), which allows counties to establish "Improvement Special Assessment" programs; and

WHEREAS, Section 4-55D-3 of the Act states that a county may establish a program by county ordinance and that the county ordinance may apply within the boundaries of a municipality, if the municipality adopts a resolution or ordinance approving the use of the county's ordinance within that municipality; and

WHEREAS, Santa Fe County ("County") adopted its Improvement Special Assessment Program ("Program") through County Ordinance No. 2024-8, attached as Exhibit A; and

WHEREAS, the Act and Program allow owners of certain properties ("Eligible Properties") to obtain long-term financing from private capital providers for certain property improvements for energy efficiency, renewable energy, water conservation, and resiliency; and

WHEREAS, the private capital providers cover the direct and indirect costs for reducing Eligible Properties' energy and water consumption; and

WHEREAS, under the Program, Eligible Properties include any privately-owned commercial, agricultural, or industrial properties (including buildings on those properties), and multi-family properties with five or more dwelling units, including properties owned by not-for-profit organizations; and

WHEREAS, the Program requires that qualifying improvements for Eligible Properties are permanent improvements, affixed to the real property and that they meet at least one of the following improvement types ("Qualifying Improvements"):

1) Measures, equipment, or devices that result in a decrease in consumption of or demand for electricity or natural gas;
2) Energy systems that generate energy by use of low-or-zero-emissions generation technology with substantial long-term production, including solar, wind, and geothermal resources, fuel cell equipment using an electrochemical process to generate electricity and heat, and/or biomass resources;
3) Measures, equipment, or devices that decrease the consumption of or demand for water, that address safe drinking water, or that eliminate lead from water used for drinking or cooking;
4) Improvements that increase the resilience of a property, including air quality, flood mitigation, storm water management, energy storage and microgrids, alternative vehicle charging stations, or fire or wind resistance or inundation adaptation; and

WHEREAS, the Program requires that the record owner of title of an Eligible Property work with a capital provider to submit an application to the County's approved program administrator; and

WHEREAS, after the owner completes the application submission, the program

administrator determines whether the application meets the guidelines of the Program, and, if the application meets the guidelines, then the property owner enters into a special assessment financing agreement with the capital provider; and

WHEREAS, once the property owner and capital provider enter into a special assessment financing agreement, the Program requires that the County sign the final closing documents; and

WHEREAS, the Governing Body would like the Program to be available for properties in the city of Santa Fe.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the City of Santa Fe ("City") accepts the Program, thus enabling it to apply within the city.

BE IT FURTHER RESOLVED that the City shall impose no restrictions on Qualifying Improvements or Eligible Properties, other than those imposed by Santa Fe County or the State of New Mexico.

BE IT FURTHER RESOLVED that the Program is effective upon adoption of this Resolution.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2024.

APPROVED AS TO FORM:

ERIN K. McSHERRY, CITY ATTORNEY

Legislation/2024/Resolutions/Commercial Property Assessed Clean Energy

EXHIBIT A

SANTA FE COUNTY
BOARD OF COUNTY COMMISSIONERS

ORDINANCE NO. 2024-08

AN ORDINANCE
ENACTING AN IMPROVEMENT SPECIAL ASSESSMENT PROGRAM WITHIN SANTA FE COUNTY; DESIGNATING OFFICIAL OR OFFICIALS TO ADMINISTER THE PROGRAM AND EXECUTE NECESSARY DOCUMENTS TO ENABLE SPECIAL ASSESSMENT FINANCING WITHIN SANTA FE COUNTY; APPROVING THE PROGRAM GUIDEBOOK AND RELATED DOCUMENTS REQUIRED TO IMPLEMENT THE PROGRAM; AND PROVIDING FOR OTHER MATTERS PROPERLY RELATING THERETO.

SECTION 1. SHORT TITLE.

This Ordinance shall be cited as "Improvement Special Assessment Program Ordinance," hereinafter referred to as the "Ordinance."

SECTION 2. PURPOSE.

The purpose of this Ordinance is to implement Santa Fe County's Improvement Special Assessment Program (the "Program").

SECTION 3. FINDINGS.

A. The Improvement Special Assessment Act, NMSA 1978, Sections 4-55D-1 through 4-55D-10 (the "Act") allows owners of eligible commercial property to obtain long-term financing from private Capital Providers (defined below) for qualifying energy efficiency, renewable energy, water conservation, and resiliency improvements for qualifying buildings; and

B. The Act allows individual counties to create Improvement Special Assessment programs to allow buildings to become more efficient and resilient; and

C. The New Mexico Economic Development Department has made available a program guidebook in conformance with the requirements of the Act; and.

D. Voluntary Special Assessment Financing (defined below) is secured by a senior lien on the property recorded by the County and repaid to the Capital Provider through the levy of a voluntary assessment collected by the Capital Provider; and

E. Property taxes assessed by the County on eligible property benefited by improvements remain superior to the Special Assessment Lien (defined below); and

F. Assessments for Special Assessment Financing is non-accelerating, meaning only current or past due payments can be collected, while future payments are the responsibility of whomever owns the property at the time; and

G. The Improvement Special Assessment repayment obligation transfers automatically to the next owner if the property is sold, spreading the cost of qualifying improvements over the useful life of the measures; and

H. The financing of Eligible Improvements (defined below), repaid by special assessments on eligible property benefited by such improvements, is in the interest of public health, safety and welfare; and

I. The County's adoption of the Program is necessary and advisable to meet the needs of the County and its residents; and

J. The Program is designed to have no impact on County liabilities or finances.

SECTION 4. AUTHORITY.

The Act allows counties to establish Improvement Special Assessment programs.

SECTION 5. DEFINITIONS.

The definitions in this section apply throughout this Ordinance unless the context clearly requires otherwise.

(1) "Application Checklist" means the list of items in a Project Application required by the Act, this Ordinance, and the Program Guidebook, and the corresponding documentation that the County accepts in order to show the application requirements are met.

(2) "Capital Provider" means a private entity or its designee, successor or assigns that finances or refinances an Eligible Improvement pursuant to the Act;

(3) "County" means Santa Fe County;

(4) "Eligible Improvement" means a permanently affixed Energy Efficiency Improvement, Renewable Energy Improvement, Water Conservation Improvement or Resiliency Improvement installed on Eligible Property as part of the construction or renovation of the property;

(5) "Eligible Property" means privately owned commercial, industrial, or agricultural or nonprofit real property or multifamily residential real property with five or more dwelling units, including real property owned by an entity formally recognized as tax exempt pursuant to the Internal Revenue Code of 1986, as amended. Eligible Property may include ground leases on Eligible Property;

(6) "Energy Efficiency Improvement" means measures, equipment or devices that result in a decrease in consumption of or demand for electricity or natural gas;

(7) "local government" means a municipality, county or other general function governmental unit established by state law;

(8) "municipal" or "municipality" means any incorporated city, town or village, whether incorporated under general act, special act or special charter, incorporated counties and H class counties;

(9) "Ordinance" means this ordinance adopted by the County pursuant to the Act to establish a program within the Region;

(10) "Program" means the Special Assessment program established under this Ordinance;

(11) "Program Administrator" means Adelante Consulting Inc., which has a contract with the State to administer the Program at no cost to the County and which is hereby designated by the County to administer the program in Santa Fe County;

(12) "Program Guidebook" means the comprehensive document that is adopted under this Ordinance and is substantively in the form of Program Guidebook made available by the New Mexico Department of Economic Development.

(13) "Project Application" means an application submitted to the Program Administrator to demonstrate that a proposed project qualifies for Special Assessment Financing pursuant to the Program;

(14) "Property Owner" means the owner of the eligible property for eligible improvements.

(15) "Region" means the geographical area designated pursuant to Section 2 of this Ordinance for the Program;

(16) "Renewable Energy Improvement" means an energy system that generates energy by use of low- or zero-emissions generation technology with substantial long-term

production, including solar, wind and geothermal resources, fuel cell equipment using an electrochemical process to generate electricity and heat or biomass resources;

(17) "Resiliency Improvement" means improvements that increase the resilience of a property, including air quality, flood mitigation, storm water management, energy storage and microgrids, alternative vehicle charging infrastructure, fire or wind resistance or inundation adaptation;

(18) "Special Assessment" means a voluntary assessment imposed on a property pursuant to the Act for the total amount of Special Assessment Financing together with interest, penalties, fees and charges related thereto;

(19) "Special Assessment Agreement" means a voluntary agreement between the County and the property owner to allow a County to place an assessment on the property owner's property to repay Special Assessment Financing pursuant to the Act;

(20) "Special Assessment Assignable Certificate" means a document assigning a Special Assessment Lien from the County to a Capital Provider in an amount not to exceed the amount of the Special Assessment Financing for the term of the Special Assessment Lien;

(21) "Special Assessment Financing" means the total amount of financing provided by a Capital Provider pursuant to a Special Assessment Financing Agreement, including accrual of interest and penalties, charges, fees, and cost of enforcement of a Special Assessment Lien; The Special Assessment Financing for a Eligible Improvement may authorize the Property Owner to (a) purchase directly the related equipment and materials for the installation or modification of an Eligible Improvement; and (b) contract directly, including through lease, power purchase agreement, or other service contract, for the installation or modification of a Eligible Improvement.

(22) "Special Assessment Financing Agreement" means a contract pursuant to which a property owner agrees to repay a Capital Provider for Special Assessment Financing and to the terms of the Special Assessment Financing, including the

treatment of prepayment and partial payment of a Special Assessment, details of any finance charges, fees, debt servicing, and accrual of interest and penalties;

(23) "Special Assessment Lien" means a lien recorded in the County to secure the Special Assessment, which assessment remains on the property until paid in full;

(24) "Water Conservation Improvement" means measures, equipment or devices that decrease the consumption of or demand for water, address safe drinking water or eliminate lead from water used for drinking or cooking.

SECTION 6: ESTABLISHMENT; REGION.

There is hereby established within the boundaries of the "County" the Program. The Program shall allow financing for the full range of Eligible Improvements on all Eligible Properties, as authorized by the Act, and shall abide by and operate according to the Act.

SECTION 7: RATIFICATION.

All actions heretofore taken and not inconsistent with the provisions of this Ordinance by the Board of County Commissioners and officers of the County directed toward adoption of the Program, be, and the same hereby are, ratified, approved, and confirmed.

SECTION 8: TERRITORY.

The Program shall be available to all Eligible Property within the boundaries of the County but outside the limits of any municipality. In accordance with the Act, the Program may be available within the limits on a municipality if the municipality adopts a resolution or an ordinance approving the application of the County's ordinance within the municipality.

SECTION 9: PROGRAM ADMINISTRATION

A. Pursuant to the Act, the County hereby designates, authorizes and directs the Santa Fe County Manager to enter into Special Assessment Agreements with property owners and Capital Providers and issue Special Assessment Assignable Certificates on behalf of the County to impose Special Assessments and assign Special Assessment Liens for assessments approved by the Program Administrator.

B. Pursuant to the Act, the County designates Adelante Consulting Inc. as the Program Administrator. The Program Administrator shall review and approve the Project Applications

submitted in accordance with the Program Guidebook, collect any fees, and record the documents requested by a Property Owner and the Capital Provider.

C. No services, including but not limited to energy audits, project development, or other activities associated or related to the development of a Project Application or installation of Eligible Improvements shall be offered through the Improvement Special Assessment Program unless priced separately and open to purchase by the property owner from third parties.

SECTION 10: IMPROVEMENT SPECIAL ASSESSMENT FINANCING

A. Pursuant to the Act, the County authorizes Special Assessment Financings to be provided by Capital Providers through a Special Assessment Financing Agreement entered directly into with the owner of an Eligible Property to fund Eligible Improvements. The rate of interest, delinquent interest, penalties, terms of prepayment and other terms of Special Assessment Financing shall be established by a Capital Provider in the related Special Assessment Financing Agreement for such assessment;

B. The Special Assessment Financing through a Program established under this Ordinance may include:

(1) The cost of materials and labor necessary for installation or modification of an Eligible Improvement;

(2) Permit fees;

(3) Inspection fees;

(4) Financing or origination fees;

(5) Project Application and administrative fees;

(6) Project development and engineering fees;

(7) Third-party review fees, including verification review fees;

(8) Capitalized interest;

(9) Interest reserves;

(10) Escrow for prepaid property taxes and insurance; or

(11) Any other fees or costs that may be incurred by the property owner incident to the installation, modification, or improvement on a specific or pro rata basis.

(12) Any other costs or fees as outlined in the Program Guidebook.

C. Prior to entering into a Special Assessment Financing Agreement, the Capital Provider must receive written consent from every holder of a lien, mortgage, or security interest in the real property that will be subject to the Special Assessment and Special Assessment Lien agreeing that the property may participate in the Program and that the Special Assessment Lien shall have priority superior to all liens, claims and titles except a lien for general ad valorem property taxes or an improvement district lien that is coequal to property taxes.

D. The proposed Special Assessment Financing for a qualified project may authorize the property owner to:

(1) Purchase directly the related equipment and materials for the installation or modification of an Eligible Improvement; and

(2) Contract directly, including through lease, power purchase agreement, or other service contract, for the installation or modification of an Eligible Improvement.

SECTION 11: SPECIAL ASSESSMENT LIEN

A. Upon entering into a Special Assessment Agreement, the County shall record a Special Assessment Lien on the subject property in the real property records of the County in which the property is located.

B. The recording of the Special Assessment Lien pursuant to Subsection A of this section shall include:

(1) the legal description of the property;

(2) the County Assessor's parcel number of the property;

(3) the grantor's name, which shall be the same as the property owner on the Special Assessment Agreement;

(4) the grantee's name, which shall be the county in which the property is located;

(5) the date on which the Special Assessment Lien was created;

(6) the principal amount of the Special Assessment Lien;

(7) the terms and length of the Special Assessment Lien; and

(8) a copy of the Special Assessment Agreement.

C. A Special Assessment Lien shall be effective during the period in which the Special Assessment is imposed and shall have priority superior to all liens, claims and titles except a lien

for general ad valorem property taxes or an improvement district lien that is coequal to property taxes.

D. A Special Assessment Lien runs with the land, and that portion of the Special Assessment Lien that has not yet become due is not accelerated or eliminated by foreclosure of the Special Assessment Lien or any lien for taxes or assessments imposed by the state, a local government or taxing district against the property on which the Special Assessment Lien is imposed.

E. Upon entering into a Special Assessment Agreement, the County shall execute and record a Special Assessment Assignable Certificate from the County to the appropriate Capital Provider. The Special Assessment Assignable Certificate shall convey the Special Assessment Lien including all the characteristics described in Section 8(C) and (D).

F. When the underlying Special Assessment Financing has been satisfied, the Special Assessment shall be removed from the property and the County shall record a release of the Special Assessment Lien.

SECTION 12: APPLICATION AND REVIEW

A. Property Owner and Capital Provider shall complete a Project Application and submit it to the Program Administrator for review.

B. The Project Application shall require:

(1) for an existing Eligible Property:

(a) where Energy Efficiency Improvements, Water Conservation Improvements or Renewable Energy Improvements are proposed, certification by a licensed professional engineer or other professional listed in the Program Guidebook stating the proposed Eligible Improvements will either result in more efficient use or conservation of energy or water, the reduction of greenhouse gas emissions, the reduction in demand for electricity or natural gas, or the addition of renewable sources of energy or water; or

(b) where Resiliency Improvements are proposed, certification by a licensed professional engineer stating the qualified improvements will result in improved resilience;

(2) for construction of a new Eligible Property, certification by a licensed professional engineer stating that the proposed Eligible Improvements will enable the property to exceed the energy efficiency, water conservation, renewable energy, renewable water or resilience requirements of the applicable building code, or the proposed Eligible Improvements will enable the property to reduce demand for electricity or natural gas compared to the requirements of the applicable building code;

(3) certification that the Property Owner requesting the proposed Eligible Improvements is the owner of record of the property on which the Special Assessment will be imposed and that there are no delinquent taxes or assessments on the property;

(4) the name of the Capital Provider providing the Special Assessment Financing and the proposed terms of the Special Assessment Financing Agreement, including:

(a) the Special Assessment Financing amount;

(b) the interest rate;

(c) administrative fees paid to the County and the Program Administrator;

(d) a schedule of the installments of the Special Assessment;

(e) the number of years the Special Assessment shall be imposed on the property;

(f) delinquent interest or penalties; and

(g) the conditions by which the property owner may prepay and permanently satisfy the debt owed pursuant to the Special Assessment Financing Agreement and remove the Special Assessment Lien from the property; and

(5) written consent from any holder of a lien, mortgage, or security interest in the real property that the property may participate in the Program and that the Special Assessment Lien shall have priority superior to all liens, claims and titles except a lien for general ad valorem property taxes or an improvement district lien that is coequal to property taxes.

C. The Program Administrator shall review the Project Application according to the Application Checklist solely to determine whether it is complete, proposes an Eligible Improvement, contains no errors on its face, and that all information is provided in the substance

and form required by the Application Checklist. If so, the Program Administrator shall sign the Application Checklist indicating that the Project Application is deemed approved. If a Project Application is incomplete and/or does not conform to the requirements of the Application Checklist, the Program Administrator shall inform the applicant as soon as practicable that the Project Application is denied, the reasons for the denial, and any corrections that could make the application acceptable. If feasible, the applicant shall have an opportunity to correct the Project Application.

D. Upon approval of a Project Application, a property owner or Capital Provider shall provide the following completed forms to the Santa Fe County Economic Development Office for execution at least five days prior to close of the Improvement Special Assessment transaction, along with a requested date for recordation of the Special Assessment Agreement, Notice of Special Assessment Lien, and Special Assessment Assignable Certificate. Expedited service may be available for a fee to be determined by the Santa Fe County Economic Development Office.

E. For a property owner and Capital Provider whose Project Application is denied by the Program Administrator, either party, or both, may request an adjudicative proceeding before the County's adjudicative body, consistent with the County's rules and subject to the applicable provisions of the New Mexico Administrative Procedures Act, NMSA 1978, Sections 12-8-1, *et seq.*

SECTION 13: PROGRAM GUIDEBOOK.

A. The Improvement Special Assessment Program shall be administered in accordance with the requirements contained in the Program Guidebook, adopted and incorporated herein as Exhibit A. The Program Guidebook shall include:

(1) A Project Application form, to be used by the property owner and Capital Provider.

(2) A form Special Assessment Agreement.

(3) A form of Special Assessment Lien.

(4) A form Special Assessment Assignable Certificate.

(5) A statement that the period of the Special Assessment Financing Agreement will not exceed 30 years.

(6) A description of the application and review process established under Section 9 of this Ordinance.

(7) A statement explaining the lender consent requirement under Section 9 of this Ordinance.

(8) A statement explaining the engineer certification requirement under Section 9 of this Ordinance.

(9) A statement that neither the County, its governing body, executives, or employees are personally liable as a result of exercising any rights or responsibilities granted under this Ordinance, especially and including all actions related to, or arising from, administering the Program.

B. The Program Guidebook and forms may be updated by the Program Administrator without approval by the Board of Commissioners, so long as it complies with this Ordinance and the Act.

SECTION 14: BILLING, COLLECTION AND ENFORCEMENT

A. The holder of the Special Assessment Assignable Certificate shall be solely responsible for the billing and collection of the related Special Assessment and for the enforcement of the Special Assessment Lien.

B. The holder of the Special Assessment Assignable Certificate shall bill a Special Assessment imposed pursuant to a Special Assessment Agreement through a stand-alone bill for the property subject to the Special Assessment and shall collect the Special Assessment at the times described in the Special Assessment Agreement and as provided for in this Ordinance.

C. Delinquent payments due on a Special Assessment incur interest and penalties as specified in the Special Assessment Agreement.

D. Delinquent payments due on a Special Assessment shall be enforced in the event of a nonpayment of the Special Assessment installment thereto. Delinquent payments due on a Special Assessment have the effect of a mortgage and shall be foreclosed and sold in the manner provided by law for the foreclosure of mortgages on real estate. The holder of a Special Assessment Assignable Certificate may institute proceedings to foreclose the Special Assessment Lien against the property that is delinquent in the payment of the Special Assessment or installment of a Special Assessment for a period of more than one year.

E. The Capital Provider may sell or assign, for consideration, any and all Special Assessment Liens received from the County. The Capital Provider or its assignee shall have and

possess the same powers and rights at law or in equity to enforce the Special Assessment Lien in the same manner as described in paragraph D of this section.

SECTION 15: FEES.

Subject to approval of an application by a Property Owner and a Capital Provider, and upon recordation of documents for an Improvement Special Assessment transaction, the Property Owner or the Capital Provider, as agreed upon between them, shall pay a fee (as outlined in the Program Guidebook) directly to the Program Administrator to reflect the reasonable costs of the Program Administrator to provide administrative services for the Program and to make the costs of the Program cost-neutral.

SECTION 16: ENACTMENT.

The provisions of this Ordinance are hereby declared to be severable, and if any section, phrase, or provision shall for any reason be declared by a court of competent jurisdiction to be invalid or unenforceable, such declaration shall not affect the validity or enforceability of the remainder of the sections, phrases and provisions hereof. All Ordinances, orders, resolutions, and parts thereof in conflict herewith are to the extent of such conflict hereby repealed upon the effectiveness of this Ordinance. No provision of the Santa Fe County ordinances or violation of any provision of such ordinances shall be deemed to impair the validity of this Ordinance or the instruments authorized by this Ordinance or to impair the security for or payment of the instruments authorized by this Ordinance; provided further, however, that the foregoing shall not be deemed to affect the availability of any other remedy or penalty for any violation of any provision of Santa Fe County ordinances in the event and to the extent of a conflict between this Ordinance and the Act, the Act shall govern.

SECTION 17: NO LIABILITY. NO PUBLIC FUNDS.

A. Notwithstanding anything contained in this Ordinance, neither the County's property, its full faith and credit nor its taxing power shall be pledged to the payment of any obligation or indebtedness under this Program. The amount and structure of debt of under this Program shall not have any direct negative material impact on the County's debt ratings with Standard & Poor's Corporation, Moody's Investors Services, Inc., Fitch Investor Services, Inc. or

any other nationally recognized bond-rating agency service then rating the County's outstanding bonds.

B. This Ordinance does not confer any right of action nor property interest upon any party to an Improvement Special Assessment transaction against the County, and the County shall incur no liability for enacting this Program, nor shall the County, its governing body, executives, or employees be personally liable as a result of exercising any rights or responsibilities granted under this Ordinance.

C. The Special Assessment Agreement shall specify that the County: (1) is not liable in any way for the debt of the property owner; (2) is not a third-party obligor; (3) is not pledging or lending its credit to the property owner or the Capital Provider within the meaning of any provision or limitation of the New Mexico Constitution, statutes of the State of New Mexico or any County ordinance; and shall require the Property Owner to indemnify the County and their agents and employees and hold harmless the County and their agents, officers and for, from and against any and all liabilities, claims, costs, and expenses, including attorneys' fees, demands, losses and liabilities to or by third parties, arising from or related to the processing of the Project Application, administration of this program, or the levying of any tax, assessment, or special levy or charge related to the Program.

SECTION 18: REPEAL.

Resolution No. 2009-127, Authorizing and Requesting the County Treasurer and County Assessor to Take Necessary Action in Connection with Requests By Owner of Real Property Within the County for the Imposition, Administration and Disbursement Of Solar Energy Improvement Special Assessments Pursuant to the Solar Energy Improvement Special Assessment Act, is hereby repealed in its entirety.

SECTION 19: EFFECTIVE DATE.

In accordance with NMSA 1978, Section 4-37-9(C), the Board of County Commissioners hereby declares that is necessary for the public peace, health, and safety that this Ordinance take effect immediately; therefore, this Ordinance shall take effect immediately when the Ordinance is authenticated and recorded by the County Clerk.

PASSED, APPROVED AND ADOPTED ON THIS 13th DAY OF Sept, 2024.

I. Introduction

1. About Improvement Special Assessments

Adelante Consulting, Inc. (the "Program Administrator") administers an Improvement Special Assessment program (the "Improvement Special Assessment Program" or the "Program") under Section 4-55D of the New Mexico Statutes Annotated ("NMSA") (the "Improvement Special Assessment Act"). The Improvement Special Assessment Program allows owners of eligible commercial property to obtain long-term financing from private capital providers for certain eligible improvements. While the financing is repaid to the Capital Provider, the Improvement Special Assessment Act directs the County to place a voluntary special assessment and record a special assessment lien (the "Improvement Special Assessment Lien") on the property. This approach to financing has been used by programs like the Improvement Special Assessment Program on thousands of properties in more than 31 states and the District of Columbia.

The New Mexico Legislature passed the Improvement Special Assessment Act enabling legislation, HB 228, in March 2023. This legislation allows counties to establish Improvement Special Assessment Programs. Improvement Special Assessments allow property owners to access financing for eligible energy efficiency, renewable energy, water conservation, and resiliency improvements for qualifying buildings. Improvements made to reduce lead in drinking water also qualify as eligible improvements.

Individual counties may now take action to opt into the statewide program. Creating a county Improvement Special Assessment Program is simple: One, a county adopts an ordinance and guidebook that govern how its Improvement Special Assessment Program works; and two, Adelante Consulting, Inc. (the Program Administrator) reviews the special assessment lien application for compliance with the Improvement Special Assessment state law, and then records the agreement that acknowledges the special assessment by the county.

In New Mexico, Improvement Special Assessment financing is available in four categories: energy efficiency, renewable energy, water conservation, and resiliency improvements. Improvements that reduce greenhouse gas emissions qualify, provided that the improvements also conserve energy or result in renewable energy improvements. A voluntary Improvement Special Assessment is secured by a special assessment lien on the property and paid back over time; tax liens and other government assessments remain superior to the Improvement Special Assessment lien. Like other assessments, Improvement Special Assessment financing is non-accelerating, which means only current or past due payments can be collected, while future payments are the responsibility of whomever owns the property at the time. The Improvement Special Assessment obligation transfers automatically to the next owner if the property is sold. In the event of default, only the payments in arrears are due. This arrangement spreads the cost of eligible improvements over the useful life of the measures.

The Program exists as a function of New Mexico's Improvement Special Assessment legislation and the rules established by the County. No change in the Program or in New Mexico's Improvement Special Assessment legislation will affect a property owner's obligations to pay Improvement Special Assessments incurred under the Program prior to such changes.

2. NM Improvement Special Assessment Program Guidebook

This Guidebook was developed to help counties launch Improvement Special Assessment programs. The Guidebook and form documents are available at no cost to counties to use and adopt. A major benefit to using a ready-made and legally reviewed program is that it allows counties, property owners, contractors, and capital

providers to follow a standard set of rules. This is critical in attracting the broadest capital investment to Improvement Special Assessment projects.

In this document you can find information about:

- Statutory and programmatic eligibility requirements for eligible properties and projects in New Mexico and Santa Fe County
- Process for applying for Improvement Special Assessment project approval

II. Benefits of Improvement Special Assessments

Improvement Special Assessments offer benefits to building owners, developers, municipalities, mortgage holders, and building professionals.

For Building Owners and Developers: One of the biggest barriers to converting potential projects to completed projects for efficiency and resiliency upgrades are the up-front cost of the types of measures identified in the statute as eligible improvements. Improvement Special Assessment financing typically requires little up-front investment, and eligible improvements may also increase property value. Energy efficiency measures also lower operating costs. In addition, Improvement Special Assessment financing has the following benefits:

- **Up to 100%, long-term financing**. Many owners lack the capital to complete efficiency and resiliency improvements. All direct and indirect costs incidental to the eligible improvements can be wrapped into Improvement Special Assessment financing.

- **Transferrable upon sale**. Some owners may want to sell the building before the special assessment is repaid. The special assessment lien and special assessment are attached to the property and transfer to the new owner.

- **Cash flow benefits**. Improvement Special Assessment financing may be repaid over the useful life of the improvements.

- **Triple-net and Full-net leases may allow pass-through of assessment installments to tenants**. Under triple/full net leases, special assessment payments can be passed along to tenants, who also typically derive benefit from any energy savings through reduced operating costs.

For Energy Auditors, Architects, Building Engineers, and Contractors: More substantial efficiency and resiliency improvements are now more affordable with Improvement Special Assessment. Energy auditors, architects, engineers, and contractors can suggest special assessment financing as a way for their clients to implement needed energy or resiliency upgrades that might otherwise be unaffordable. Improvement Special Assessments are a powerful business growth catalyst for building professionals like energy auditors and contractors.

For Counties: Improvement Special Assessments are an economic development tool. By making it more affordable for building owners to make major improvements to their buildings, local building stock value is enhanced, and more jobs are created. Energy and resiliency upgrades create a more competitive environment for retaining and attracting new businesses by lowering energy costs and improving the structural soundness of buildings. Upgraded buildings can generate higher property tax payments for the county. Energy upgrades also typically reduce greenhouse gases and other pollutants, which facilitates adherence to county or state climate action plans or goals.

For Existing Lien Holders: Eligible improvements can enhance property value and improve a building's longevity. In addition, special assessment financing is non-accelerating, meaning only current or past due annual payments can be collected. Existing mortgage holders may see their collateral improved without substantial increase in credit risk. Improvement Special Assessment financing is not permitted without the consent of all existing lien holders on the property.

III. Improvement Special Assessment Financing Program Rules

The purpose of this Program Guidebook is to provide standard guidelines for counties to use in establishing efficient and effective Improvement Special Assessment programs that are consistent from county-to-county across New Mexico.

This Program Guidebook (the "Guidebook") is prepared at the direction of the County, as required by the Improvement Special Assessment Act. The Guidebook is approved in connection with, and as an attachment to, the enabling ordinance for this program (the "Improvement Special Assessment Ordinance") dated _____. Capitalized terms used herein, but not defined herein, have the meaning given to such terms in the Improvement Special Assessment Ordinance.

The Guidebook establishes guidelines, eligibility, approval criteria, and an application form for the administration of the Improvement Special Assessment Program. The Improvement Special Assessment Program enables special assessment financing for commercial property owners ("Property Owners") to make certain energy efficiency, renewable energy, water conservation, and resiliency improvements (each, a "Qualified Improvement") as described in the Improvement Special Assessment Act and further clarified in this Guidebook.

Eligible Improvements, including all eligible costs that are to be financed as described in a project application (the "Project Application") approved by the Program, constitute an "Eligible Improvement." Property Owners may receive funding for their Eligible Improvements only from qualified private investors ("Capital Providers") pursuant to a separate special assessment financing agreement negotiated between the Property Owner and Capital Provider (a "Special Assessment Financing Agreement").

In these guidelines, a reader can find information about:

- Statutory and programmatic eligibility requirements for Improvement Special Assessment project financing in New Mexico, and
- The appropriate steps and forms needed for a County or Program Administrator to receive and process an Improvement Special Assessment project application.

1. Establishment of Improvement Special Assessment Program Boundaries

The County adopted Ordinance number _____ on _____, establishing the Improvement Special Assessment Program for all eligible properties within the boundaries of the County, but outside the limits of any municipality (the "Region"). In accordance with the Act, the Program may be available within the limits of a municipality if the municipality adopts a resolution or ordinance approving the application of the County's ordinance within the municipality.

2. Administration of Program; Authorized Officials

Adelante Consulting, Inc. is designated and authorized to review each Project Application to confirm that it is complete and contains no errors on its face. Adelante Consulting, Inc. will support the County to execute the Assessment Agreement, Notice of Special Assessment Lien, and Assignment of Notice of Special Assessment Lien documents. The County will record them with the real property records.

As part of Program operation, Adelante Consulting, Inc. (the Program Administrator) will:

- Accept Project Applications (refer to the Project Application Form) from Property Owners and Capital Providers for prospective Improvement Special Assessment projects.
- Review the Project Application to determine conformance with the Application Form (refer to the

Project Application Form).

- Approve/conditionally approve/deny the Project Application and communicate to the applicant.
- Support the County to execute the Assessment Agreement, Notice of Special Assessment Interest and Lien ("Notice of Assessment Interest"), and Assignment of Notice of Special Assessment Interest and Assessment Agreement ("Assignment").
- Provide the County and involved Municipalities with semi-annual reports on projects in their jurisdiction.

3. Eligibility Requirements

Eligible Property means any privately-owned commercial, agricultural, industrial, or multi-family real property of five (5) or more dwelling units located within the boundaries of the Region (including properties owned by a not-for-profit organization).

Ground leases on Eligible Property are permitted, so long as all requirements of the Improvement Special Assessment Ordinance are met, including requiring the Property Owner to enter into an Assessment Agreement. On ground-leased property, therefore, the special assessment and Special Assessment Lien encumber the fee interest in the property, not the ground leasehold.

Property Owner means an owner of eligible property, which is the record owner of title to the Eligible Property. The Property Owner may be any type of business, corporation, individual, or non-profit organization.

Eligible Improvements means a permanent improvement affixed to the real property that must meet at least one of these criteria:

- Decrease energy consumption or demand through the use of efficiency technologies, products, or activities that reduce or support the reduction of energy consumption or allow for the reduction in demand or reduce greenhouse gas emissions ("Energy Efficiency Improvement");

- Support the production of clean, renewable energy, including but not limited to a product, device, or interacting group of products or devices on the customer's side of the meter that generates electricity, provides thermal energy, or regulates temperature ("Renewable Energy Improvement");

- Decrease water consumption or demand and address safe drinking water through the use of efficiency technologies, products, or activities that reduce or support the reduction of water consumption, allow for the reduction in demand, or reduce or eliminate lead from water which may be used for drinking or cooking ("Water Conservation Improvement"); or

- Increase resilience, including but not limited to flood mitigation, stormwater management, wildfire and wind resistance, energy storage, and microgrids ("Resiliency Improvement").

Eligible Improvements include the following:

- The acquisition, construction (including new construction), lease, installation, or modification of a Qualified Improvement permanently affixed to an Eligible Property.

- For Renewable Energy Improvements, "permanently affixed" includes Eligible Improvements that are subject to a power purchase agreement or lease between the Property Owner/applicant and the owner of the subject renewable energy system, if the power purchase agreement or lease contains all of the following provisions:

a) The Renewable Energy Improvement relates to a Renewable Resource, defined as follows: (a) water; (b) wind; (c) solar energy; (d) geothermal energy; (e) renewable natural gas; (f) renewable hydrogen; (g) wave, ocean, or tidal power; (h) biodiesel fuel that is not derived from crops raised on land cleared from old growth or first-growth forests; or (i) biomass energy.
b) The term of the power purchase agreement or lease is at least as long as the term of the related Assessment Agreement.
c) The owner of the Renewable Energy Improvement agrees to install, maintain, and monitor the system for the entire term of the Assessment Agreement.
d) Neither the owner of the Renewable Energy Improvement, nor the Property Owner, nor any successors in interest are permitted to remove the system prior to completion of the full repayment of the Special Assessment and Special Assessment Lien.
e) After installation, the power purchase agreement or lease is paid, either partially or in full, using the funds from the Special Assessment financing.
f) The power purchase agreement or lease specifies the holder of the Special Assessment Lien is a third-party beneficiary of the power purchase agreement or lease until the Special Assessment Lien has been fully repaid.

- Eligible Improvements include the refinancing of existing properties that have had Eligible Improvements installed and completed for no more than three (3) years or thirty-six (36) months prior to the date of Project Application.

- Examples of Eligible Improvements include, but are not limited to:
  - A like-for-like roof associated with installing a roof-mounted solar photovoltaic array;
  - Asbestos abatement associated with a boiler retrofit;
  - New pads to support new plant equipment, such as a new chiller;
  - Replacement of ductwork and terminal boxes related to a packaged rooftop unit replacement;
  - Relocation of equipment associated with the installation of energy-saving measures, such as relocating a packaged rooftop unit to serve redistributed loads within a building better;
  - Rerouting of a fire sprinkler system to accommodate a new HVAC system upgrade;
  - Electrical upgrades associated with a new solar photovoltaic system, energy efficiency, or suitable measures, and electric vehicle charging;
  - Any utility infrastructure cost associated with electrical upgrades;
  - Existing Carport structures that support a solar photovoltaic array;
  - Demolition of an existing parking lot and installation of a new parking lot to allow for the installation of a bore field associated with a new ground source heat pump system;
  - Resurface or repaving of parking lots if solar photovoltaic carports are specified for new builds or installed on retrofits;
  - General construction costs required for the suitable measure;
  - Renewable energy improvements that are part of a community solar garden;
  - High efficiency electric appliances such as heat pumps and heat pump water heaters.

Capital Provider may be any of the following:
- a corporation, partnership, or other legal entity that provides proof that it is currently registered as a Improvement Special Assessment Capital Provider in two different states with C-PACE programs;
- a federal or state-chartered bank or credit union; or

- a private entity, whose principal place of business is located in New Mexico, provided it is licensed or permitted to do business within the state and can produce its most recent audited financial statement or regulatory business filing.

Qualifying costs that can be Improvement Special Assessment financed include:

- Materials and labor necessary for installation or modification of a Qualified Improvement;
- Permit fees;
- Inspection fees;
- Financing or origination fees;
- Program application and administrative fees;
- Project development, architectural and engineering fees;
- Third-party review fees, including verification review fees;
- Capitalized interest;
- Interest reserves;
- Escrow for prepaid property taxes and insurance;
- Any other fees or costs that may be incurred by the Property Owner incident to the installation, modification, or improvement on a specific or pro rata basis.

4. Application Process

The New Mexico Improvement Special Assessment Act reduces the administrative burden on participating counties as much as possible. Thus, Adelante Consulting, Inc. will review the Project Application for proof of compliance with the requirements of the statute. All applicants are encouraged to review the Project Application Form to ensure that the information the Program Administrator will rely upon to verify compliance with the statute are present in the completed Application.

The process of obtaining financing under the Program starts when a Property Owner approaches a Capital Provider. The Capital Provider will work with the Property Owner to collect due diligence items. Once all the items have been received, reviewed, and approved by the Capital Provider, the parties should settle on the Special Assessment Financing terms.

The general flow of the Improvement Special Assessment application process will be as follows:

(1) The Property Owner and the Capital Provider prepare the Project Application, consisting of the Project Application Form and all supporting documents. Applicants are encouraged to review the Project Application Form to confirm that the types of information that the Program Administrator will rely upon to verify compliance with the Improvement Special Assessment Act and Improvement Special Assessment Ordinance are present in the completed Project Application.

(2) Adelante Consulting, Inc. (the Program Administrator) will have 10 business days to review and approve the Project Application. If the Program Administrator has received an unusually high number of applications, or if review is delayed because of a *force majeure* event, the Program Administrator may notify the applicant that the application review and approval will be delayed by no more than 10 additional business days.

(3) The application review process is confined to confirming that the Project Application is complete, and all attachments conform to these guidelines. ***Program Administrator approval does not constitute endorsement of any representations that may be made with regard to the operation and any savings associated with the Eligible Improvements.*** Adelante Consulting, Inc. (the Program Administrator) will review the Project Application for proof of compliance with the requirements of the Improvement Special Assessment Act and Improvement Special

Assessment Ordinance. Incomplete Project Applications will be returned to the applicant, and the Program Administrator will notify the applicant about which items were not provided or are insufficient or inaccurate on their face. If the Project Application and supporting documents comply with the Project Application Form, the Project Application will be approved, and the approval communicated in writing to the applicant.

(4) The Project Application may be conditionally approved if the application is complete but the attachment regarding consent of all lienholders on the property is not yet available. Conditional approval will be treated the same as an approval, with exceptions noted below.

(5) Once the application is approved, the Capital Provider will draft the following Closing Documents: The Assessment Agreement, the Notice of Special Assessment Interest and Special Assessment Lien, and the Assignment of the Notice of Special Assessment and Assessment Agreement. At or before closing, at the request of the applicant, the designated and authorized official will execute the Closing Documents.

(6) If the Project Application received conditional approval, the Closing Documents executed by the Program Administrator may not be released from escrow unless and until all lien holder consents have been received and executed in accordance with the Improvement Special Assessment Act and Improvement Special Assessment Ordinance.

(7) At closing, the County will record the Assessment Agreement, the Notice of Special Assessment Interest and Special Assessment Lien, and the Assignment of the Notice of Special Assessment Interest and Special Assessment Lien. At the election of the applicant, the County may delegate the recording of the Closing Documents to the applicant or their designee(s).

(8) Upon confirmation of recordation, the Capital Provider will disburse funds in accordance with the Special Assessment Financing Agreement.

(9) The Capital Provider will send the Property Owner a separate bill to collect the Special Assessment installment amounts, as outlined in the Assessment Agreement and in accordance with the Special Assessment Financing Agreement.

(10) The Property Owner begins making assessment payments per the Assessment Agreement and in accordance with the Special Assessment Financing Agreement

5. Application Documents

The Project Application must be submitted with the following documents appended:

- Project Application Form
- Lienholder(s) Consent
- Certificate of Eligible Improvements

(1) <u>For Renewable Energy Improvements or Energy Efficiency Improvements on an existing building</u>: A certification stating that (a) the proposed Eligible Improvements will result either in more efficient use or conservation of energy or water, the reduction of greenhouse gas emissions, or the addition of renewable sources of energy or water; or (b) the subject property as a whole prior to the installation of the Eligible Improvements does not conform to the meeting the current

building energy or water code for the County, but will do so after the Eligible Improvements are installed.

The certification must be performed by a licensed professional engineer or an individual or firm accredited by one of the following:

- American Society of Heating, Refrigeration, and Air-Conditioning Engineers (ASHRAE)
  - Building Energy Assessment Professional (BEAP)
  - Building Energy Modeling Professional (BEMP)
  - Operations & Performance Management Professional Certification (OPMP)
  - High-Performance Building Design Professional Certification (HBDP)
- North American Board of Certified Energy Practitioners (NABCEP)
  - PV Installation Professional (PVIP)
  - PV Design Specialist (PVDS)
- Association of Energy Engineers (AEE)
  - Certified Energy Manager (CEM)
  - Certified Measurement and Verification Professional (CMVP)
  - Certified Energy Auditor (CEA)
- Building Performance Institute
  - Energy Auditor
- Investor Confidence Project
  - ICP Quality Assurance Assessor

Other professional qualifications may be accepted by the Program Administrator at its discretion.

(2) For Renewable Energy Improvements that are solar photovoltaics, a North American Board of Certified Energy Practitioners (NABCEP) PV Installation Professional (PVIP), or PV design specialist (PVDS) certification is acceptable, or a licensed Electrical Engineer, Building Energy Assessment Professional (BEAP), Building Energy Modeling Professional (BEMP), Certified Energy Manager (CEM), Certified Measurement and Verification Professional (CMVP), or Certified Energy Auditor (CEA). Other professional qualifications may be accepted by the Program Administrator at its discretion.

(3) For lead reduction in water improvements, a Water Quality Association Professional Certification.

(4) For Resilience Improvements on an existing building: Certification by a licensed professional engineer, or a North American Board of Certified Energy Practitioners (NABCEP) PVIP Installation Professional stating that the Qualified Improvements will result in improved resilience, including but not limited to flood mitigation, stormwater management, wildfire and wind resistance, energy storage, and microgrids.

(5) For new construction:
(A) Relating to energy or water efficiency, certification by a North American Board of Certified Energy Practitioners (NABCEP) PVIP Installation Professional, or a licensed professional engineer stating that each proposed Eligible Improvement will enable the subject property to exceed the energy efficiency, water efficiency, or renewable energy code requirements.

(B) Relating to resilience, certification by a licensed professional Civil Engineer that the proposed Eligible Improvements will enable the subject property to exceed the resiliency requirements of the current building code.

(6) For all Eligible Improvements, the licensed engineer, individual or firm providing the certification of eligibility of the Eligible Improvements must attest that the proposed term of the financing does not exceed the weighted average effective useful life of the proposed Eligible Improvements and that the Eligible Improvements are permanently affixed, as described in this Guidebook.

The application shall also include:

(7) the name of the capital provider providing the special assessment financing and the proposed terms of the special assessment financing agreement, including:

(a) the special assessment financing amount;
(b) the interest rate;
(c) administrative fees paid to the Program Administrator (Adelante Consulting, Inc);
(d) a schedule of the installments of the special assessment;
(e) the number of years the special assessment shall be imposed on the property;
(f) delinquent interest or penalties; and
(g) the conditions by which the property owner may prepay and permanently satisfy the debt owed pursuant to the special assessment financing agreement and remove the special assessment lien from the property; and

Prior to the County entering into a special assessment agreement, it shall receive the Program Administrator's certification that the proposed eligible improvements, eligible property and property owner qualify for financing pursuant to the program.

6. Closing Documents

The following documents require the signature of the County and shall be part of the closing of any Improvement Special Assessment transaction. Each document must be substantially similar in substance to the forms provided, although it is expected that Property Owners and Capital Providers will negotiate variations tailored to their specific projects.

- Assessment Agreement (form on the program website)
- Notice of Special Assessment Interest and Improvement Special Assessment Lien (form on the program website)
- Certificate of Assignment of Notice of Special Assessment Lien (form on the program website)

7. Interest Rates

Interest rates are negotiated in a Special Assessment Financing Agreement between the Property Owner and the Capital Provider. A County or a Program Administrator has no role in reviewing, setting, or opining on such interest rates or other aspects of the Special Assessment Financing Agreement. Market forces – such as competition, the intended use of the property, potential risk –will affect the terms negotiated by the Property Owners and Capital Providers.

8. Billing and Collection of Assessments

Billing, collection, and enforcement of delinquent Improvement Special Assessment Liens or Improvement Special Assessment financing installment payments, including foreclosure, are the responsibility of the Capital Provider.

9. Enforcement of Improvement Special Assessment Lien

The Improvement Special Assessment Special Assessment Lien may be enforced by the Capital Provider one year from the date of delinquency in the same manner as the collection of real estate mortgages, by prosecution of foreclosure proceedings under New Mexico common law and sale under foreclosure under NMSA 1978, Sections 39-5-1 *et seq.* Prior to the enforcement of any delinquency, the Capital Provider must provide written notification to all lien holders on the property.

By accepting Special Assessment Lien, the Capital Provider, or its assignee, as applicable, agrees to assume responsibility for prosecution of said action of foreclosure pursuant to New Mexico law, independent of and without assistance or consent from the prosecuting attorney, in accordance with the terms of the Special Assessment Financing Agreement.

10. Program Fee

Adelante Consulting, Inc. (the Program Administrator), as compensation for time and costs incurred in the establishment of the Improvement Special Assessment Program, including the Improvement Special Assessment Ordinance, this Guidebook, the draft documents, as well as for reviewing a Project Application for completeness and executing the Assessment Agreement, Special Assessment Lien, and Assignment, is entitled to a fee as outlined in the table below. The Property Owner must pay this fee directly to Adelante Consulting, Inc. (the Program Administrator) at the closing of the transaction between the Property Owner and the Capital Provider, and such payment is a condition precedent to recording by the County.

Based on the above description, Adelante Consulting Inc. (the Program Administrator) will be entitled to the following administrative fee, dependent on the total project costs.

Total Project Costs	Fee Structure	Adelante Fee
$2,499,999 and under	Percentage	1%
$2,500,000 and above	Flat fee	$25,000

11. Term of a Special Assessment; Calculation of Useful Life of Eligible Improvements

The term of a Special Assessment may not exceed the useful life of the Eligible Improvement or if more than one Eligible Improvement is included in the Qualified Project, weighted average life of all Eligible Improvements. In no case shall the term of the financing exceed thirty years.

12. Form of Closing Documents

The Program has adopted form Closing Documents: The Assessment Agreements, Notice of Special Assessment Interest and Special Assessment Lien, and Assignment of Notice of Special Assessments Interest and Assessment Agreement. A Property Owner and Capital Provider may adapt the forms to the needs of their particular transaction but must not modify or omit any material substantive terms contained in the forms.

13. Written Consent from Lienholder(s) Required

Before entering into an Assessment Agreement with the County, the Capital Provider must obtain, and the Project Applications must show proof of, written consent for the placement of the special assessment and Special Assessment Lien from any holder of a lien, mortgage, or security interest in the real property.

For qualifying multifamily projects (residential projects of five or more dwelling units), the Capital Provider must obtain written consent from any holder of affordable housing covenants, restrictions, or regulatory agreements encumbering the real property as a condition precedent to the participation in the Program by the property.

If the consents are executed at closing, the signatures of the County to the Closing Documents will be held in escrow and will not be released until the consents are obtained. After closing, at the election of the Program Administrator, an amended Project Application with the consents attached must be sent to the Program Administrator. Capital Providers are responsible for providing their own form of consent that conforms to the Improvement Special Assessment Ordinance and Improvement Special Assessment Act.

14. County Has No Liability or Financial Responsibility

Neither the County, its governing body, executives, or employees are personally liable as a result of exercising any rights or responsibilities granted under this Program. The County shall not pledge, offer, or encumber its full faith and credit for any lien amount under the Improvement Special Assessment program. No public funds may be used to repay any Improvement Special Assessment financing obligation.

15. Program Reporting

Adelante Consulting, Inc. (the Program Administrator) will prepare a report for the County no less than semi-annually with the following information regarding the loan portfolio of C-PACE financings completed within the County:

1) Types and amounts of eligible improvements financed;
2) Locations of projects;
3) Number of loans outstanding;
4) Overall aggregate dollar amount outstanding under such loans;
5) Average initial Loan Amount;
6) Number of loans with delinquent assessment payments; and
7) Number of loans foreclosed upon to date and the number of pending foreclosures

Summary:
The proposed Resolution would allow Santa Fe County's Improvement Special Assessment Program" ("Program") to operate within the city as part of New Mexico's Improvement Special Assessment Act. Santa Fe County recently adopted the Program in Ordinance Number 2024-8, pursuant to State statute NMSA 1987, Sections 4-55D-1 to -10. The Program provides an alternative source of financing for improvements to privately-owned commercial, agricultural, industrial property (and the buildings that exist on those properties) or any multi-family property of five or more dwelling units. The Program provides a mechanism for long-term financing provided by private capital providers for the direct and indirect costs related to reducing energy or water consumption, generating renewable energy, or building resiliency.

Departments Affected:
None.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then property owners within the city would not be able to benefit from the County's Program and will miss opportunities to grow and expand energy efficiency.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Santa Fe County Ordinance No. 2024-8 established the County's Improvement Special Assessment Program on September 13, 2024.

Performance and Administrative Implications:
The County's Improvement Special Assessment Program could potentially decrease water consumption and improve energy efficiency for commercial properties in the city.

Fiscal Implications:

None.

CITY OF SANTA FE
FINANCE

DATE: November 15, 2024

TO: Governing Body, Finance Committee, Public Works and Utilities Committee, and Quality of Life Committee

FROM: Andy Hopkins, Budget Officer AJH
Christina Martinez, Senior Budget Analyst CFM

VIA: Emily K. Oster, Finance Director EKO

ITEM AND ISSUE:

The resolution approves budget amendments for the Buckman Direct Diversion and Santa Fe Solid Waste Management Agency and requests Department of Finance and Administration approval of City of Santa Fe ("City") budget amendments for the fiscal year quarter ending September 30, 2024 (First Quarter).

BACKGROUND AND SUMMARY:

Attached is a resolution listing increases/decreases to the Fiscal Year 2024-2025 (FY2024/25) operating and capital projects budget. These amendments are included in this resolution because they result in a net increase or decrease to the various funds affected, and thus require approval from the New Mexico Department of Finance/Local Government Division (DFA/LGD) as part of the quarterly budget resolution. The schedule of detail supporting these increases/decreases is presented as Exhibit A of the proposed resolution in four sections:

A. Sub-Section A: Amendments to FY 2024/25 Budget That Have Previously Been Approved by the Governing Body: these budget amendments have been previously approved by the Governing Body and reflect amendments that exceed $60,000 and result in a net increase or decrease to any funds (and do not represent re-appropriations of unspent budget amounts from the prior year); per City ordinance, such amendments require Governing Body approval. They are included in this resolution for the purpose of summarizing all quarterly budget amendments on a single resolution to provide to DFA/LGD for its review and approval. Presentation of these amendments in a single resolution in this way is much more efficient than the alternative of presenting a revised resolution to DFA/LGD for each individual budget amendment approved by the Governing Body.

B. Sub-Section B: Amendments to FY 2024/25 Budget Previously Approved by other City Actors pursuant to SFCC 1987, Section 11-4 (A) and (B): these amendments were approved by and executed under the authority of the Finance Director (if the net budgetary change to any fund was under $5,000) or the City Manager (if the net budgetary change was between $5,000 and $60,000), per City ordinance. Also included are purely technical corrections and re-appropriations of unspent prior year budget amounts (including amounts over $60,000), which,

per City ordinance, the Finance Director may approve based on the prior year's Governing Body-approved budget authority.

C. Sub-Section C: Joint Operations (Buckman Direct Diversion & Santa Fe Solid Waste Management Agency) – Board-Approved Amendments to FY 2024/25 Budget: as the title of this section states, these amendments reflect net changes to the Buckman Direct Diversion and Santa Fe Solid Waste Management Agency joint operations budgets, approved and entered under the authority of the governing boards of those entities, contingent upon City approval. Like the amendments outlined above, these budgetary changes are included in this resolution for the purpose of presenting all quarterly net budgetary fund changes to DFA/LGD for its approval as required by New Mexico state statute.

D. Sub-Section D: Summary of All Quarterly Amendments to FY 2024/25 Budget by Fund: this section summarizes the net changes to all City funds detailed in the previous three sections (A-C). As shown at the bottom of this section, these amendments result in a net increase to the City's overall expenditure budget of $210,011,067 and a net increase to the overall revenue budget of $95,979,482. The resulting net expenditure increase of $114,031,585 (over and above additional revenue) is supported by current budgeted revenues and/or available fund balances.

Pursuant to SFCC 1987, Section 11-4 (D), the Budget Office summarizes all amendments resulting in net budgetary fund changes in a Resolution on a quarterly basis for Finance Committee consideration and Governing Body approval of the Resolution and subsequently submits said amendments to DFA/LGD for its approval.

ACTION RECOMMENDED:

Finance staff recommend that the Governing Body approve the resolution. Upon approval, the Resolution will be forwarded to DFA/LGD for its approval as is required by New Mexico state statute.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2024-__

INTRODUCED BY:

Mayor Alan Webber

A RESOLUTION

APPROVING BUDGET AMENDMENTS FOR THE BUCKMAN DIRECT DIVERSION BOARD AND SANTA FE SOLID WASTE MANAGEMENT AGENCY AND REQUESTING THAT NEW MEXICO DEPARTMENT OF FINANCE AND ADMINISTRATION APPROVE THE CITY OF SANTA FE'S FIRST QUARTER BUDGET AMENDMENTS FOR FISCAL YEAR 2025.

WHEREAS, SFCC 1987, Section 11-4(D), provides that budget adjustments approved by the City of Santa Fe's ("City's") Finance Director, City Manager, and the Governing Body shall be included by fund in a quarterly budget resolution approved by the Governing Body; and

WHEREAS, NMSA 1978, Section 6-6-2, provides that the Local Government Division of the New Mexico Department of Finance and Administration has the power and duty to authorize local public bodies to transfer funds from one budget item to another when the Secretary of the Department approves and a need exists meriting the transfer and the transfer is not prohibited by law; and

WHEREAS, Articles 3 and 4 of the Project Management and Fiscal Services Agreement

for the Buckman Direct Diversion Project requires that the Buckman Direct Diversion Project Board ("the BDD Board") establish and submit a budget to the City, Santa Fe County, and Las Campanas and to condition the BDD Board's approval of the budget on "appropriation by the City and/or [Santa Fe] County in an appropriate budget or budget amendment"; and

WHEREAS, the Joint Powers Agreement for the Santa Fe Solid Waste Management Agency ("the Waste Management Agency") requires that the Waste Management Agency recommend an annual budget, which "shall not be formally adopted or implemented unless and until it is approved by each of the City and [Santa Fe County]"; and

WHEREAS, the BDD Board and the Waste Management Agency have approved First Quarter adjustments for their respective budgets and these adjustments have been incorporated into the City's proposed First Quarter Budget amendments; and

WHEREAS, a First Quarter Review of the Fiscal Year 2025 Budget shows a need to address significant priorities through adoption of net budget amendments that the Governing Body, City Manager or Finance Director, Buckman Direct Diversion Board or the Santa Fe Solid Waste Management Agency's Board have authorized.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that it approves the budget amendments for the BDD Board and the Waste Management Agency; and

BE IT FURTHER RESOLVED that the Governing Body respectfully requests that the Secretary of the New Mexico Department of Finance and Administration approve the First Quarter Budget Amendments, as detailed on the attached Exhibit A, and that the Local Government Division then authorize the amendments.

PASSED, APPROVED, and ADOPTED the ___ day of _____, 2024.

FIR No. 10637.1

FISCAL IMPACT REPORT

General Information:

(Check) Bill: _____ Resolution: X

Short Title(s): First Quarter Budget Amendments, Fiscal Year 2024/2025

Sponsor(s): Mayor Alan Webber

Reviewing Department(s): Finance Department

Staff Completing FIR: Andy Hopkins Date: 11/15/2024 Phone: (505) 955-6177

Reviewed by City Attorney:  Date: Nov 22, 2024

Reviewed by Finance Director: Emily K. Oster Date: Nov 22, 2024

Summary:
The purpose of the Resolution is to approve Buckman Direct Diversion and Santa Fe Solid Waste Management Agency budget adjustments and request Department of Finance Authority to approve First Quarter FY 2025 budget amendments in the form of increases and decreases to various funds, which include adjustments for department priorities, grant adjustments, prior year encumbrances, and increases supported by available revenue.

Departments Affected:
Various.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City's budget will not sufficiently reflect the City's actual revenues and expenditures. Adjustments would not be submitted to the New Mexico Department of Finance Administration's approval, as is required by New Mexico State law, NMSA 1978, Section 6-6-2(H).

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None.

Performance and Administrative Implications:
None. Staff have already performed the necessary actions to comport with the purpose of the proposed budget amendments.

Fiscal Implications:
See Resolution, Exhibit A –City of Santa Fe 1st Quarter FY 2024-25 Budget Amendments.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2024-__

INTRODUCED BY:

Councilor Amanda Chavez

A RESOLUTION

ASSIGNING AUTHORIZED OFFICERS AND AGENTS FOR GRANT AGREEMENT NUMBER SAP 22-G2419-STB FOR THE PLAN, DESIGN, AND CONSTRUCTION OF IMPROVEMENTS ON JEMEZ ROAD.

WHEREAS, in the Laws of 2022, Chapter 52, Section 22, Subsection 118, the Legislature made an appropriation to the New Mexico Environment Department ("NMED"), funds from which NMED is making available to the City of Santa Fe ("Grantee") through Grant Agreement, number SAP 22-G2419-STB ("Agreement"), incorporated as Attachment A, in the amount of four hundred thousand dollars ($400,000), to plan, design, and construct improvements on Jemez Road, including a sewer line south of Airport Road, to improve residential septic systems in the city of Santa Fe, in Santa Fe County; and

WHEREAS, Article X.B.(v) of the Agreement states that, the "Grantee's governing body has duly adopted or passed as an official act a resolution, motion or similar action authorizing the person identified as the official representative of the Grantee to sign the Agreement and to sign Requests for Payment" and as is described in Article III of the agreement (Attachment A), the

signatories identified in the resolution "will be the contact and signatory for all disbursements and Notices of Obligation".

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that,

1) Alan Webber, Mayor, or successor(s) is the City's official authorized to sign the Agreement for this Project once approved by the Governing Body of the City of Santa Fe;
2) Stan Holland, Wastewater Division Engineer, or successor(s), is the Official Representative who is authorized to sign all other documents necessary to fulfill the Agreement and the requirements (Disbursements and Notices of Obligation) and to act as the Project contact;
3) Felicity Fonseca, Community Development Director, North Central New Mexico Economic Development District or successor(s) is the Fiscal Agent who is authorized to sign Disbursements.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2024.

DEPARTMENT OF ENVIRONMENT
FUND CAPITAL APPROPRIATION PROJECT
JEMEZ RD CONSTRUCT
SAP 22-G2419-STB

THIS AGREEMENT between the New Mexico Environment Department hereinafter called the "Department" or NMED, and City of Santa Fe, hereinafter called the "Grantee" becomes effective on the date signed by the NMED.

RECITALS

WHEREAS, in the Laws of 2022, Chapter 53, Section 22, Subsection 118, the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of, funds from this appropriation, in accordance with the terms and conditions of this Agreement; and

WHEREAS, NMED is empowered pursuant to Section 74-1-6 B, NMSA 1978 to contract in its own name.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

ARTICLE I. PROJECT DESCRIPTION, AMOUNT OF GRANT AND REVERSION DATE

A. The project that is the subject of this Agreement is described as follows:

SAP 22-G2419-STB $400,000.00 APPROPRIATION REVERSION DATE: June 30, 2026

Laws of 2022, Chapter 53, Section 22, Subsection 118, Four Hundred Thousand Dollars, ($400,000.00), for:

to plan, design and construct improvements on Jemez road, including a sewer line south of Airport road, to improve residential septic systems in Santa Fe in Santa Fe county

The Grantee's total reimbursements shall not exceed Four Hundred Thousand Dollars, $400,000.00 (the "Appropriation Amount") minus the allocation for Art in Public Places ("AIPP amount")[1], if applicable, No Dollars, $0.00, which equals Four Hundred Thousand Dollars, $400,000.00 (the "Adjusted Appropriation Amount").

[1] The AIPP amount is "an amount of money equal to one percent or two hundred thousand dollars ($200,000), whichever is less, of the amount of money appropriated for new construction or any major renovation exceeding one hundred thousand dollars ($100,000)." Section 13-4A-4 NMSA 1978.

In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I(A), the language of the laws cited herein shall control.

This project is referred to throughout the remainder of this Agreement as the "Project"; the information contained in Article I(A) is referred to collectively throughout the remainder of this Agreement as the "Project Description." The Special Conditions Attachment may set forth additional or more stringent requirements and conditions, which are incorporated by this reference as if set forth fully herein. If the Special Conditions Attachment imposes more stringent requirements than any requirement set forth in this Agreement, the more stringent requirements of the Attachment shall prevail, in the event of irreconcilable conflict. The Grantee shall reference the Project's number in all correspondence with and submissions to the Department concerning the Project, including, but not limited to, Requests for Payment and reports.

ARTICLE II. LIMITATION ON DEPARTMENT'S OBLIGATION TO MAKE GRANT DISBURSEMENT TO GRANTEE

A. Upon the Effective Date of this Agreement, for permissible purposes within the scope of the Project Description, the Grantee shall only be reimbursed monies for which the Department has issued and the Grantee has received a Notice of Department's Obligation to Reimburse[2] Grantee (hereinafter referred to as "Notice of Obligation"). This Grant Agreement and the disbursement of any and all amounts of the above referenced Adjusted Appropriation Amount are expressly conditioned upon the following:

(i) Irrespective of any Notice of Obligation, the Grantee's expenditures shall be made on or before the Reversion Date and, if applicable, an Early Termination Date (i.e., the goods have been delivered and accepted or the title to the goods has been transferred to the Grantee and/or the services have been rendered for the Grantee); and

(ii) The total amount received by the Grantee shall not exceed the lesser of: (a) the Adjusted Appropriation Amount identified in Article I(A) herein or (b) the total of all amounts stated in the Notice(s) of Obligation evidencing that the Department has received and accepted the Grantee's Third Party Obligation(s), as defined in subparagraph iii of this Article II(A); and

(iii) The Grantee's expenditures were made pursuant to the State Procurement Code and execution of binding written obligations or purchase orders with third party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project, hereinafter referred to as "Third Party Obligations"; and

(iv) The Grantee's submittal of timely Requests for Payment in accordance with the procedures set forth in Article IX of this Agreement; and

(v) In the event that capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private entity, the sale, lease, license, or operating agreement:

   a. must be approved by the applicable oversight entity (if any) in accordance with law; or
   b. if no oversight entity is required to approve the transaction, the Department must approve the transaction as complying with law.

Prior to the sale, lease, license, or operating agreement being approved pursuant to Articles II(A)(v)(a) and II(A)(v)(b) herein, the Department may, in its sole and absolute discretion and unless inconsistent with State Board of Finance imposed conditions, reimburse the Grantee for necessary expenditures

[2] "Reimburse" as used throughout this Agreement includes Department payments to the Grantee for invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee.

incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, such as plan and design expenditures; and

(vi) The Grantee's submission of documentation of all Third-Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance and the Grantee's receiving of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement shall be governed by the following:

a. The Grantee shall submit to the Department one copy of all Third-Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party **but prior to execution by the Grantee.**

b. Grantee acknowledges and agrees that if it chooses to enter into a Third-Party Obligation prior to receiving a Notice of Obligation that covers the expenditure, it is solely responsible for such obligations.

c. The Department may, in its sole and absolute discretion, issue to Grantee a Notice of Obligation for the particular amount of that Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is attached to this Agreement as Exhibit 2.

d. The date the Department signs the Notice of Obligation is the date that the Department's Notice of Obligation is effective. After that date, the Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third-Party Obligation and request the Third Party to begin work. Payment for any work performed or goods received prior to the effective date of the Notice of Obligation is wholly and solely the obligation of the Grantee.

B. The Grantee shall implement, in all respects, the Project. The Grantee shall provide all necessary qualified personnel, material, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

C. Project funds shall not be used for purposes other than those specified in the Project Description.

D. Unless specifically allowed by law, Project funds cannot be used to reimburse Grantee for indirect Project costs.

ARTICLE III. NOTICE PROVISIONS AND GRANTEE AND DEPARTMENT DESIGNATED REPRESENTATIVES

Whenever written notices, including written decisions, are to be given or received, related to this Agreement, the following provisions shall apply.

For all matters related to this Agreement, the Grantee designates their official representative(s) or successor, in their Signatory Resolution, as required in Article X. B. (v). The official representative will be the contact and signatory for all disbursements and Notices of Obligation.

If applicable, the Grantee designates an Alternative Fiscal Agent in the Signatory Resolution as required in Article X. B. (v), and in the Alternative

The Department designates the persons listed below, or their successors, as the Points of Contact for matters related to this Agreement.

NMED Program Administrator
Name: Paulette Ortiz
Email: paulette.ortiz@env.nm.gov
Telephone: 505-670-3583

NMED Project Manager
Name: Stephanie DuBois
Email: stephanie.dubois@env.nm.gov
Telephone: 505-222-9568

The Grantee and the Department agree that either party shall send all notices, including written decisions, related to this Agreement to the above named persons by email or regular mail. In the case of mailings, notices shall be deemed to have been given and received upon the date of the receiving party's actual receipt or five calendar days after mailing, whichever shall first occur. In the case of email transmissions, the notice shall be deemed to have been given and received on the date reflected on the delivery receipt of email.

ARTICLE IV. REVERSION DATE, TERM, DEADLINE TO EXPEND FUNDS

A. As referenced in Article I(A), the applicable law establishes a date by which Project funds must be expended by Grantee, which is referred to throughout the remainder of this Agreement as the "Reversion Date." Upon being duly executed by both parties, this Agreement shall be effective as of the date of execution by the Department. It shall terminate on June 30, 2026 the Reversion Date unless Terminated Before Reversion Date ("Early Termination") pursuant to Article V herein.

B. The Project's funds must be expended on or before the Reversion Date and, if applicable, Early Termination Date of this Agreement. For purposes of this Agreement, it is not sufficient for the Grantee to encumber the Project funds on its books on or before the Project's Reversion Date or Early Termination Date. Funds are expended and an expenditure has occurred as of the date that a particular quantity of goods are delivered to and received by the Grantee or title to the goods is transferred to the Grantee and/or as of the date particular services are rendered for the Grantee. Funds are ***not*** expended and an expenditure has ***not*** occurred as of the date they are encumbered by the Grantee pursuant to a contract or purchase order with a third party.

ARTICLE V. EARLY TERMINATION

A. Early Termination Before Reversion Date Due to Completion of the Project or Complete Expenditure of the Adjusted Appropriation or Violation of this Agreement

Early Termination includes:

(i) Termination due to completion of the Project before the Reversion Date; or
(ii) Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date; or
(iii) Termination for violation of the terms of this Agreement; or
(iv) Termination for suspected mishandling of public funds, including but not limited to, fraud, waste, abuse, and conflicts of interest.

Either the Department or the Grantee may early terminate this Agreement prior to the Reversion Date by providing the other party with a minimum of fifteen (15) days' advance, written notice of early termination. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(A).

B. Early Termination Before Reversion Date Due to Non-appropriation

The terms of this Agreement are expressly made contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. Throughout this Agreement the term "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature: deauthorization, reauthorization or revocation of a prior authorization. The Legislature may choose to non-appropriate the Appropriation referred to in Article I and, if that occurs, the Department shall early terminate this Agreement for non-appropriation by giving the Grantee written notice of such termination, and such termination shall be effective as of the effective date of the law making the non-appropriation. The Department's decision as to whether sufficient appropriations or authorizations are available shall be accepted by the Grantee and shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(B).

C. Limitation on Department's Obligation to Make Grant Disbursements to Grantee in the Event of Early Termination

In the event of Early Termination of this Agreement by either party, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth Article II.

ARTICLE VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. The Department may choose, in its sole and absolute discretion, to provide written notice to the Grantee to suspend entering into new and further obligations. Upon the receipt of such written notice by the Grantee:

(i) The Grantee shall immediately suspend entering into new or further written obligations with third parties; and

(ii) The Department will suspend the issuance of any new or further Notice of Obligation under this Agreement; and

(iii) The Department may direct the Grantee to implement a corrective action plan in accordance with Article VI(D) herein.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension

In the event that the Department chooses, in its sole and absolute discretion to direct the Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension. Such corrective action plan must be approved by the Department and be signed by the Grantee. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan, is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(iii). The corrective action plan is in addition to, and not in lieu of, any other equitable or legal remedy, including but not limited to Early Termination.

ARTICLE VII. AMENDMENT

This Agreement shall not be altered, changed, or amended except by instrument in writing duly executed by both the parties hereto.

ARTICLE VIII. REPORTS

A. Database Reporting

The Grantee shall report quarterly Project activity by entering such Project information as the Department and the Department of Finance and Administration may require, such information entered directly into a database maintained by the Department of Finance and Administration (Budget & Formulation Management System). Additionally, the Grantee shall certify on the Request for Payment form (Exhibit 1) that updates have been maintained and are current in the database. The Grantee hereby acknowledges that failure to perform and/or certify updates into the database will delay or potentially jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of thirty (30) days' advance written notice of any changes to the information the Grantee is required to report.

Quarterly reports shall be due on the last day of the month that is 30 days prior to the end of the quarter following execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter.

B. Requests for Additional Information/Project Inspection

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:

(i) request such additional information regarding the Project as it deems necessary; and

(ii) conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.

Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

ARTICLE IX. REQUEST FOR PAYMENT PROCEDURES AND DEADLINES

A. The Grantee shall request payment by submitting a Request for Payment, in the form attached hereto as Exhibit 1. Payment requests are subject to the following procedures:

(i) The Grantee must submit a Request for Payment; and

(ii) Each Request for Payment must contain proof of payment by the Grantee or liabilities incurred by the Grantee showing that the expenditures are valid or are liabilities incurred by the Grantee in the form of actual unpaid invoices received by the Grantee for services rendered by a third party or items of tangible personal property received by the Grantee for the implementation of the Project; provided, however, that the Grantee may be reimbursed for unpaid liabilities only if the

Department, in its sole and absolute discretion, agrees to do so and in accordance with any special conditions imposed by the Department.

(iii) In cases where the Grantee is submitting a Request for Payment to the Department based upon invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee, the Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or such shorter period of time as the Department may prescribe in writing. The Grantee is required to certify to the Department proof of payment to the third party contractor or vendor within ten (10) business days from the date of receiving reimbursement from the Department.

B. The Grantee must obligate 5% of the Adjusted Appropriation Amount within six months of acceptance of the grant agreement and must have expended no less than 85% of the Adjusted Appropriation Amount six months prior to the reversion date.

C. **Deadlines**

Requests for Payments shall be submitted by Grantee to the Department on the earlier of:

(i) Immediately as they are received by the Grantee but at a minimum thirty (30) days from when the expenditure was incurred or liability of the Grantee was approved as evidenced by an unpaid invoice received by the Grantee from a third party contractor or vendor; or

(ii) Twenty (20) days from date of Early Termination; or

(iii) **Twenty (20) days from the Reversion Date**.

D. The Grantee's failure to abide by the requirements set forth in Article II and Article IX herein will result in the denial of its Request for Payment or will delay the processing of Requests for Payment. The Department has the right to reject a payment request for the Project unless and until it is satisfied that the expenditures in the Request for Payment are for permissible purposes within the meaning of the Project Description and that the expenditures and the Grantee are otherwise in compliance with this Agreement, including but not limited to, compliance with the reporting requirements and the requirements set forth in Article II herein to provide Third Party Obligations and the Deadlines set forth in Article IX herein. The Department's ability to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department due to Grantee's violation of this Agreement.

ARTICLE X. PROJECT CONDITIONS AND RESTRICTIONS; REPRESENTATIONS AND WARRANTIES

A. The following general conditions and restrictions are applicable to the Project:

(i) The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the State Procurement Code (or local procurement ordinance, where applicable).

(ii) The Project must be implemented in accordance with the New Mexico Public Works Minimum Wage Act, Section 13-4-10 through 13-4-17 NMSA 1978, as applicable. Every contract or project in excess of sixty thousand dollars ($60,000) that the Grantee is a party to for construction, alteration, demolition or repair or any combination of these, including painting and decorating, of public buildings, public works or public roads and that requires or involves the employment of mechanics, laborers or both shall contain a provision stating the minimum wages

and fringe benefits to be paid to various classes of laborers and mechanics, shall be based upon the wages and benefits that will be determined by the New Mexico Department of Workforce Solutions to be prevailing for the corresponding classes of laborers and mechanics employed on contract work of a similar nature in the locality. Further, every contract or project shall contain a stipulation that the contractor, subcontractor, employer or a person acting as a contractor shall pay all mechanics and laborers employed on the site of the project, unconditionally and not less often than once a week and without subsequent unlawful deduction or rebate on any account, the full amounts accrued at time of payment computed at wage rates and fringe benefit rates not less than those determined pursuant to Section 13-4-11 (B) NMSA 1978 to be the prevailing wage rates and prevailing fringe benefit rates issued for the project.

(iii) The Project may only benefit private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico, the "Anti-Donation Clause."

(iv) The Grantee shall not for a period of 10 years from the date of this agreement convert any property acquired, built, renovated, repaired, designed or developed with the Project's funds to uses other than those specified in the Project Description without the Department's and the Board of Finance's express, advance, written approval, which may include a requirement to reimburse the State for the cost of the project, transfer proceeds from the disposition of property to the State, or otherwise provide consideration to the State.

(v) The Grantee shall comply with all federal and state laws, rules and regulations pertaining to equal employment opportunity. In accordance with all such laws, rules and regulations the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age or handicap, be excluded from employment with Grantee, be excluded from participation in the Project, be denied benefits or otherwise be subject to discrimination under, any activity performed under this Agreement. If Grantee is found to be not in compliance with these requirements during the life of this Agreement, Grantee agrees to take appropriate steps to correct any deficiencies. The Grantee's failure to implement such appropriate steps within a reasonable time constitutes grounds for terminating this Agreement.

B. The Grantee hereby represents and warrants the following:

(i) The Grantee has the legal authority to receive and expend the Project's funds.

(ii) This Agreement has been duly authorized by the Grantee, the person executing this Agreement has authority to do so, and, once executed by the Grantee, this Agreement shall constitute a binding obligation of the Grantee, enforceable according to its terms.

(iii) This Agreement and the Grantee's obligations hereunder do not conflict with any law or ordinance or resolution applicable to the Grantee, the Grantee's charter (if applicable), or any judgment or decree to which the Grantee is subject.

(iv) The Grantee has independently confirmed that the Project Description, including, but not limited to, the amount and Reversion Date, is consistent with the underlying appropriation in law.

(v) The Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign the Agreement and to sign Requests for Payment.

(vi) The Grantee shall abide by New Mexico laws regarding conflicts of interest, governmental conduct and whistleblower protection. The Grantee specifically agrees that no officer or employee of the local jurisdiction or its designees or agents, no member of the governing body, and no other public official of the locality who exercises any function or responsibility with

respect to this Grant, during their tenure or for one year thereafter, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed or goods to be received, pursuant to this Grant. Further, Grantee shall require all of its contractors to incorporate in all subcontracts the language set forth in this paragraph prohibiting conflicts of interest.

(vii) No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of this or any agency or body in connection with the awarding of any Third Party Obligation and that the Grantee shall require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans and cooperative agreements. All subrecipients shall be required to certify accordingly.

ARTICLE XI. STRICT ACCOUNTABILITY OF RECEIPTS AND DISBURSEMENTS; PROJECT RECORDS

A. The Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles, and, if feasible, maintain a separate bank account or fund with a separate organizational code, for the funds to assure separate budgeting and accounting of the funds.

B. For a period of six (6) years following the Project's completion, the Grantee shall maintain all Project related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the total funds from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department shall prescribe.

C. The Grantee shall make all Project records available to the Department, the Department of Finance and Administration, and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor or the Department of Finance and Administration finds that any or all of these funds were improperly expended, the Grantee may be required to reimburse to the State of New Mexico, to the originating fund, any and all amounts found to be improperly expended.

ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines that part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to, Project funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, or violation of this Agreement, the Grantee shall return such funds to the Department for disposition in accordance with law.

ARTICLE XIII. LIABILITY

Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Grantee and Department concerning the subject matter hereof. The Agreement supersedes any and all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

ARTICLE XV. REQUIRED NON-APPROPRIATIONS CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

The Grantee acknowledges, warrants, and agrees that Grantee shall include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

"The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, the Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination. The Santa Fe's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. Contractor hereby waives any rights to assert an impairment of contract claim against the Santa Fe or the New Mexico Environment Department or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the Santa Fe or the Department"

ARTICLE XVI. REQUIRED TERMINATION CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

Grantee acknowledges, warrants, and agrees that Grantee shall include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

"This contract is funded in whole or in part by funds made available under a New Mexico Environment Department Grant Agreement. Should the NMED early terminate the grant agreement, the Santa Fe may early terminate this contract by providing Contractor written notice of such termination. In the event of termination pursuant to this paragraph, the Santa Fe only liability shall be to pay Contractor for acceptable goods delivered and services rendered before the termination date."

Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department.

ARTICLE XVII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA.

A. Throughout the term of this Agreement, Grantee shall:

1. submit all reports of annual audits and agreed upon procedures required by Section 12-6-3(A)-(B) NMSA 1978 by the due dates established in 2.2.2 NMAC, reports of which must be a public record pursuant to Section 12-6-5(A) NMSA 1978 within forty-five days of delivery to the State Auditor;
2. have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);

3. timely submit all required financial reports to its budgetary oversight agency (if any); and

4. have adequate accounting methods and procedures to expend grant funds in accordance with applicable law and account for and safeguard grant funds and assets acquired by grant funds.

B. In the event Grantee fails to comply with the requirements of Paragraph A of this Article XVII, the Department may take one or more of the following actions:

1. suspend new or further obligations pursuant to Article VI(A) of this Agreement;

2. require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;

3. impose special grant conditions to address the non-compliance by giving the Grantee notice of such special conditions in accordance with Article III of this Agreement; the special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III; or

4. terminate this Agreement pursuant to Article V(A) of this Agreement.

ARTICLE XVIII.]OPTIONAL IF THE APPROPRIATION IS FUNDED BY SEVERANCE TAX BONDS OR GENERAL OBLIGATION BONDS] SEVERANCE TAX BOND AND GENERAL OBLIGATION BOND PROJECT CLAUSES

A. Grantee acknowledges and agrees that the underlying appropriation for the Project is a severance tax bond or general obligation bond appropriation, and that the associated bond proceeds are administered by the New Mexico State Board of Finance (SBOF), an entity separate and distinct from the Department. Grantee acknowledges and agrees that (i) it is Grantee's sole and absolute responsibility to determine through SBOF staff what (if any) conditions are currently imposed on the Project; (ii) the Department's failure to inform Grantee of a SBOF imposed condition does not affect the validity or enforceability of the condition; (iii) the SBOF may in the future impose further or different conditions upon the Project; (iv) all SBOF conditions are effective without amendment of this Agreement; (v) all applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s); and (vi) the Department's obligation to reimburse Grantee from the Project is contingent upon the then current SBOF conditions being satisfied.

B. Grantee acknowledges and agrees that the SBOF may in its sole and absolute discretion remove a project's assigned bond proceeds if the project doesn't proceed sufficiently. Entities must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by the grantee in the Bond Questionnaire and Certification documents submitted to the SBOF. Failure to comply may result in the bond proceeds reassignment to a new ready project. If this should occur this grant agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, NMAC 2.61.6, as may be amended or re-codified. The rule provides definitions and interpretations of grant language for the purpose of determining whether a particular activity is allowable under the authorizing language of the agreement.

IN WITNESS WHEREOF, the parties have duly executed this Agreement as of the date of execution by the Department.

ARTICLE 1 REVIEW

Upon execution of the grant agreement, the Grantee will follow the procedures listed below unless waived in writing by the New Mexico Environment Department (NMED) (payment may be withheld if any of these procedures are not followed by the Grantee).

A. The Grantee must submit copies to NMED of all executed contracts entered into by the Grantee and related to the project, for review and, if appropriate, approval. Only approved eligible expenditures incurred **after** the effective date of the Grant Agreement shall be reimbursed or paid from these funds.

B. If these grant funds are to be used for engineering and/or other professional services, the hiring process for engineering services and/or other professional services must be performed in compliance with the New Mexico Procurement Code [Sections 13-1-21 et seq. NMSA 1978]. If engineering fees exceed $60,000, excluding gross receipt taxes, the Grantee is required to contact the Professional Technical Advisory Board (PTAB) for assistance in the preparation of the Request for Proposals (RFP) package. (PTAB: phone (505) 888-6161 and e-mail ptab@acecnm.org.)

C. If these grant funds are used for engineering and/or other professional services, the Grantee must submit a copy of any executed engineering agreement and/or other professional services contract so a notice of obligation can be prepared and issued. If the Grantee's staff will be used to prepare the design, a letter certifying that must be submitted to NMED for the project record. The grantee has the option of using the NMED engineering agreement. In any case all engineering agreements must include the non-appropriation and termination clauses required by DFA in all agreements funded by capital outlay.

D. A preliminary engineering report (PER), technical memorandum, or study by a registered New Mexico Professional Engineer may be required.

E. If the grant funds are to be used for engineering design or for construction, the Grantee must submit all plans, specifications, bid documents, and engineer's construction cost estimate, for the project (prepared and sealed by a licensed and registered New Mexico Professional Engineer) to NMED **before** the project is advertised for construction bids, along with a letter **from the Grantee** stating that they have reviewed and accepted the plans and specifications. If required, the Grantee must also submit the plans and specifications to the appropriate regulatory agency for review and approval and provide a copy of the approval letter from the regulatory agency. Upon receipt of these documents the NMED will issue a letter confirming receipt of the required documents and informing the Grantee to proceed with advertising the project for construction bids.

F. A site certificate must be submitted prior to project bid advertisement that certifies all necessary easements, rights-of-way, and/or property upon or through which the project is being constructed have been obtained. The Site Certificate must be signed by an attorney, engineer, surveyor, or title abstractor.

G. If grant funds are to be used for the purchase or acquisition of real property as a part of this project and within the project period, the Grantee will submit documentation of the acquisition to NMED, including a legal description of the property, the date the property will be acquired, evidence of clear title, and an appraisal report prepared by a qualified appraiser selected through applicable procurement procedures.

H. The Grantee will submit the proof of advertisement, recommendation of award, bid tabulation, complete bid submittal of the selected contractor, any addenda issued, and funding analysis listing all funds that will pay for construction to NMED prior to award of the construction contract, along with a letter from the Grantee stating they concur with the recommendation of award to the selected contractor and price and confirming that the Grantee has sufficient funds for construction.

I. The Grantee will submit the notice of the award, the notice of a pre-construction conference, a copy of the executed construction contract documents (including payment and performance bonds), and the notice to proceed to NMED. NMED will prepare and issue the notice of obligation for the construction cost making the grant funds available for reimbursement of construction costs. The selected contractor will be required to post a performance and payment bond in accordance with requirements of Section 13-4-18 NMSA 1978.

J. The Grantee will provide a full-time construction inspector during construction of the project unless NMED determines that part time inspection is adequate for the project. This must be requested and approved by NMED prior to the start of construction.

K. All daily construction inspection reports shall be made available to the NMED upon request.

L. Notwithstanding the inspections performed by the Grantee and its engineer, NMED will have the right to examine all installations comprising the project, including materials delivered and stored on-site for use on the project. Such examinations will not be considered an inspection for compliance with contract plans but will be a general NMED review as described in Article 2 below.

M. If applicable, the Grantee (or the system owner) will employ qualified utility operators and will comply with all provisions of the New Mexico Utility Operators Certification Act, Section 61-33-1 et seq. NMSA 1978.

N. NMED will reimburse the grantee its actual costs when NMED determines, in its sole discretion, that expenditures were appropriate under the terms of the Agreement and that the expenditures were properly documented.

ARTICLE 2 NMED OVERSIGHT

NMED inspection, review and oversight is only for purposes of compliance with applicable state grant requirements, procedures, statutes, and regulations. NMED approval will not be interpreted as a warranty or guarantee of any kind. Responsibility for the design of the project will lie solely with the engineer of record. All defects and their correction will be the responsibility of the Grantee and its contractors and engineers or consultants. Any questions raised by NMED during its inspections and reviews shall be resolved exclusively by the Grantee. The Grantee and its contractors and engineers or consultants will remain responsible for the completion and success of the project. No action by NMED shall relieve the

owner, engineer, or contractor of legal responsibilities for the overall integrity of the project, adequacy of the design, safety, or compliance with all applicable regulations.

ARTICLE 3 CLOSEOUT

A. The project will not be considered complete until the work as defined in this agreement has been fully performed, and finally and unconditionally accepted by the Grantee and the engineer of record.

B. If the grant funds are used for purchase of equipment, final payment will be made after receipt of the equipment and equipment title, if applicable. Appraisal reports are required for the purchase of used equipment.

C. If the grant funds are used for construction, final payment will be made after the final inspection has been conducted by NMED and the following items, unless waived by NMED, have been provided to NMED, and have been reviewed and approved by NMED:

i. A certificate of substantial completion including punch list items.

ii. A final certified construction pay request prepared by the Grantee's project engineer and approved by the Grantee.

iii. A written consent of the surety, if any, to final payment.

iv. Complete and legally effective releases or waivers (satisfactory to the Grantee) of all liens arising out of the contract documents and the labor services performed and the materials and equipment furnished there under. In lieu thereof and as approved by the Grantee, contractor(s) may furnish receipts or releases in full; an affidavit of contractor that the releases and receipts include labor, services, materials, and equipment for which a lien could be filed and that all payrolls, material and equipment bills, and other indebtedness connected with the work for which the Grantee or its property might in any way be responsible, have been paid or otherwise satisfied.

v. Certification letter by the Grantee and contractor that the Labor Standards Contract Provisions have been met.

vi. Certification letter of project acceptance by the Grantee and the Grantee's project engineer stating that work has been satisfactorily completed and the construction contractor has fulfilled all of the obligations required under the contract documents with the Grantee, or if payment and materials performance bonds are "called", an acceptance close-out settlement to the Grantee and contractors will be submitted to NMED.

vii. Certification letter from the Grantee confirming receipt and acceptance of the record drawings and operation and maintenance manuals.

CITY OF SANTA FE

Memorandum

Date: November 4, 2024

To: Governing Body, Public Works and Utilities Committee, Finance Committee

From: Sean Moody, Public Works Capital Projects Manager SM

Via: Regina Wheeler, Public Works Department Director RW

RE: Authorizing Signatories for New Mexico Environment Department Grant Agreement – Grant Agreement Number SAP 22-G2419-STB

EXECUTIVE SUMMARY:

The Resolution designates a project contact and signature authority for the agreement and request for payment forms for Grant Agreement Number SAP 22-G2419-STB with the New Mexico Environment Department ("NMED"). The Grant Agreement makes available four hundred thousand dollars ($400,000.00) appropriated by the State of New Mexico Legislature to plan, design, and construct improvements on Jemez Road, including a sewer line south of Airport Road, to improve residential septic systems in the city of Santa Fe.

BACKGROUND:

The New Mexico Environment Department, through Article X. B. (v) of Grant Agreement Number SAP 22-G2419-STB, requires the City of Santa Fe, as the grantee, to agree that the Governing Body has duly adopted, as an official act, a resolution, motion, or similar action in order to receive the grant funding. Additionally, Article III of the agreement states that the resolution will identify who will act as the contact and signatory for request for payment forms related to the agreement. Adoption of this Resolution will satisfy this requirement, allowing the City to enter into the grant agreement.

Summary:
This Resolution assigns authorized representatives and agents for Grant Agreement Number SAP 22-G2419-STB with the New Mexico Environment Department Fund ("NMED"). The Grant Agreement makes available four hundred thousand dollars ($400,000.00) appropriated by the State of New Mexico Legislature, to plan, design, and construct improvements on Jemez Road including a sewer line south of Airport Road. Adoption of this Resolution satisfies the Grant Agreement's requirement that the governing body must duly adopt or pass an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee, the City of Santa Fe, to sign the agreement and to sign requests for payment.

Departments Affected:
Public Works Department.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will not receive the grant totaling four hundred thousand dollars ($400,000) from NMED, meaning the City of Santa Fe will not receive the funding needed to complete the plan, design, and construction for improvements on Jemez Road, which include a sewer line south of Airport Road.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None.

Performance and Administrative Implications:
The plan, design, and construction of the project associated with this Grant Agreement will be undertaken by City of Santa Fe's Department of Public Utilities and the grant will be administered with support from the City's Public Works Department.

Fiscal Implications:
None.

CITY OF SANTA FE, NEW MEXICO
PROPOSED AMENDMENT(S) TO RESOLUTION NO. 2024-__
SAP 22G2419-STB Authorizing the Assignments of Officers and Agents

Mayor and Members of the City Council:

In relation to Resolution No. 2024-__:

ASSIGNING AUTHORIZED OFFICERS AND AGENTS FOR GRANT AGREEMENT NUMBER SAP 22-G2419-STB FOR THE PLAN, DESIGN, AND CONSTRUCTION OF IMPROVEMENTS ON JEMEZ ROAD.

I intend to propose the following amendment(s)

1. On page 2, line 2, ***delete*** the period and replace with ";and".
2. On page 2, line 3, ***insert*** the following paragraphs:

   WHEREAS, in a letter dated August 24, 2023, the New Mexico Department of Finance and Administration ("DFA") took the position that it required the City to initiate a fiscal agent relationship in order for the City to utilize its current State Capital appropriations; and

   WHEREAS, as a result of DFA's position, the City entered into an intergovernmental services agreement, incorporated as Attachment B, with North Central Economic Development District ("NCEDD") for fiscal agent services, in which NCEDD agreed to review and sign Requests for Payment for permissible expenditures, on December 19, 2023.

3. On page 2, line 10 ***delete*** "Disbursements" and ***replace*** with "Requests for Payment".
4. On page 2, line 14 ***delete*** "Disbursements" and ***replace*** with "Requests for Payment submitted by the City to the State pursuant to Article IX of the Agreement and Attachment B".
5. After "ATTACHMENT A", ***insert*** "ATTACHMENT B", which is attached to this amendment sheet.

This amendment WILL change the caption. _____

This amendment WILL NOT change the caption. __x___

INTERGOVERNMENTAL SERVICES AGREEMENT
BETWEEN CITY OF SANTA FE AND
NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT
FOR FISCAL AGENT SERVICES

WHEREAS, the State of New Mexico appropriated funding for the purposes of improvements in the City of Santa Fe ("City") to the State of New Mexico, Department of Finance and Administration, Local Government Division, in the laws of Laws of 2021, Chapter 138, as detailed below ("Projects");

WHEREAS, NCNMEDD acknowledges that the appropriations for the Projects are intended for City;

WHEREAS, City, a municipality within Santa Fe County and the State of New Mexico, agrees to engage North Central New Mexico Economic Development District ("NCNMEDD") in providing fiscal agency services in relation to the Projects.

NOW, THEREFORE, the parties do mutually agree as follows:

This Agreement is entered into by and between City and NCNMEDD pursuant to the following purposes, conditions, and terms:

A. PURPOSE

The purpose of this Agreement is for NCNMEDD to provide fiscal agent services in connection with the Projects as specifically appropriated under New Mexico Legislative Appropriation Agreements identified as follows:

ApprID	Leg. Session	Appropriation Title	Year	Ch	Sect	Agency		Amount	Project Description
F2900	2021	SANTA FE PARKS UPGRADE	2021	138	29/341	341	Finance & Administration	1,000,000	to plan, design, construct, repair, improve and equip parks in Santa Fe in Santa Fe county;
F2902	2021	SANTA FE TIERRA CONTENTA TRAIL CONSTRUCT	2021	138	29/343	341	Finance & Administration	300,000	to plan, design and construct a trail in the Tierra Contenta subdivision in Santa Fe in Santa Fe county;
F2903	2021	SANTA FE MIDTOWN INFRA DES CONSTRUCT	2021	138	29/344	341	Finance & Administration	1,000,000	to plan, design, construct and improve infrastructure for the midtown Santa Fe property in Santa Fe in Santa Fe county;
F2899	2021	SANTA FE HOMEBOUND MEALS PROGRAM IMPROVE	2021	138	29/340	341	Finance & Administration	250,000	to plan, design, renovate, construct, improve and equip a facility for a meals program serving homebound and special needs individuals in Santa Fe in Santa Fe county;
F2901	2021	SANTA FE SOUTHSIDE TEEN CTR CONSTRUCT	2021	138	29/342	341	Finance & Administration	1,805,000	to plan, design, construct, furnish and equip a teen and resource center on the south side of Santa Fe in Santa Fe county;

Other projects may be included as agreed upon in writing and by amendment between the Parties.

B. SCOPE OF WORK

NCNMEDD's services in support of the above purpose shall be to provide fiscal agency services associated with the Projects, including:

1. NCNMEDD Fiscal Agency Services:

- Ensure that grant funds are expended in compliance with all applicable laws, regulations, and grant agreement and the transactions are appropriately accounted for in compliance with such laws, regulations, and grant agreement;
- Ensure safeguarding of grant funds and assets acquired with grant funds and proper accounting thereof in compliance with applicable laws, regulations, and grant agreement;
- Act as liaison between City and appropriate New Mexico state agencies as needed;
- Complete all required quarterly and financial reporting with information provided by City;
- Review and sign-off on project invoices to the appropriate State agency in a timely manner; and

- Work with the State on providing direct project reimbursements to City and act as a facilitator for such reimbursements as needed.

2. City Role and Responsibilities
   - City understands it remains ultimately responsible for executing and complying with all applicable laws, regulations, and grant agreement requirements such as flow down provisions, executing procurement responsibilities, and subcontractor management, as well as project, grant, and financial management.

C. TIMEFRAME

Work pursuant to this Agreement shall be effective no sooner than the date of last party signature below, and shall conclude upon notice by either party pursuant to paragraph I, but no later than one month following the reversion date of the appropriations, except as amended and mutually agreed upon in writing.

D. COMPENSATION:

NCNMEDD has agreed to provide the agreed upon services at three percent (3%) of the dollar amount(s) the City expends during the term of this Agreement towards the completion of the Projects, as those amounts were appropriated. Billing for services to City shall occur by NCNMEDD no more than on a monthly basis. The City will not use funds from this grant to make such payments.

E. RECORDS AND RECOVERY:

NCNMEDD shall maintain appropriate records of services rendered during the Agreement term and retain them for a period of three (3) years after the grant has been closed.

F. ACCESS TO INFORMATION

City and its contractors and subcontractors shall provide information, as needed, for purposes and work described in this Agreement. NCNMEDD will be included and copied on all invoices and reports, prior to City's submission to the appropriate State agency.

G. OWNERSHIP OF PROJECTS

All documents, capital improvements, and project assets produced pursuant to this Agreement shall be the property of City which shall assume full administrative responsibility for the life of the project; or the State grant agreement required period, whichever comes first.

H. LIMITATION OF LIABILITY

This Agreement shall not create a general liability of the constituent members of NCNMEDD.

City shall hold NCNMEDD harmless with respect to any damages, expenses, or claims arising or in connection with any negligent acts, errors, or omissions performed by City under this Agreement. This term shall not limit NCNMEDD liability with respect to NCNMEDD's negligence or willful misconduct.

I. MODIFICATION AND TERMINATION

Any modifications or amendments to this Agreement shall be in writing, and when signed by both parties shall be made part of the Agreement. This Agreement may be terminated by either party upon thirty (30) days written notice to the other.

J. CERTIFICATION

City shall comply with the requirements of all applicable laws, rules, and regulations, and shall assume full responsibility for payment of federal, state, and local taxes and contributions imposed or required under Social Security, Workers Compensation and income tax laws. City is required to follow all State procurement regulations and it is City obligation and responsibility to follow all State requirements as certified in the project bond questionnaire process and as included in associated State grant agreements, including reporting and drawdown requirements, such documents to be filed for each project in conjunction with this agreement.

K. ADEQUATE APPROPRIATIONS

Performance of this agreement is contingent upon sufficient appropriations and authorization being made for the performance of this Agreement. If sufficient appropriations and authorization are not made, this Agreement shall terminate immediately upon written notice being given by NCNMEDD to City. NCNMEDD's decision as to whether sufficient appropriations are available shall be accepted by City and shall be final. If NCNMEDD proposes an amendment to the Agreement to unilaterally reduce its Fiscal Agency Services, City shall have the option to terminate the Agreement or agree to negotiate for reduced Fiscal Agency Services: within thirty (30) days of receipt of the proposed amendment.

L. PENALTIES

The Procurement Code, NMSA 1978, Sections 13-1-28 to -199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities, and kickbacks.

M. NOTICES

Any notice required to be given to either party by this Agreement shall be in writing

and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid as follows:

To: City
City Manager John Blair
City of Santa Fe
200 Lincoln
Santa Fe, New Mexico, 87501j

To NCNMEDD:
Monica Abeita Executive Director NCNMEDD
3900 Paseo del Sol
Santa Fe, NM 87507

N. DISPUTE RESOLUTION

The parties to this agreement agree that in the event of a dispute that may arise hereunder, which dispute cannot be reasonably resolve, they will submit to mediation by a neutral mediator, the cost of which will be borne equally by both parties. Disputes that cannot be resolved by mediation shall be subject to the laws of the State of New Mexico under the jurisdiction of the First Judicial District Court.

O. BREACH AND DEFAULT

If either party commits a breach or default in the performance or observance of any of its obligations under this agreement and such breach or default continues and is not corrected within thirty (30) days of written notification of such breach or default by either party to the other, the non-breaching or non-defaulting party shall have the right to terminate this agreement by giving notice to the breaching or defaulting party.

P. ASSIGNMENT

No portion of this agreement may be assigned to another party without the express written consent of the City and NCNMEDD.

APPROVED THIS 19th DAY OF December, 2023, BY CITY.

NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT:

BY: Monica Abeita 12/8/23

Monica Abeita, Executive Director Date

IN WITNESS WHEREOF, the City of Santa Fe has agreed to this Waiver as of the date of the signature by the required approval authorities below.

CITY OF SANTA FE
AMENDMENT No. 1 TO
Intergovernmental Service Agreement
ITEM#23-0688

This AMENDMENT No 1 (the "Amendment") amends the INTERGOVERNMENTAL SERVICES AGREEMENT BETWEEN CITY OF SANTA FE AND NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT FOR FISCAL AGENT SERVICES, dated December 19, 2023 (the "Agreement"), between the City of Santa Fe (the "City") and the North Central New Mexico Economic Development District (NCNMEDD). The date of this Amendment shall be the date when it is executed by the City and the NCNMEDD whichever occurs last.

RECITALS:

A. Under the terms of the Agreement, the NCNMEDD has agreed to provide fiscal agent services in connection with the Capital Projects specified under the Agreement.

B. Pursuant to Article I of the Agreement, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged by the parties, the City and the NCNMEDD agree as follows:

1. PURPOSE:

Article A of the Agreement is amended to add an additional twenty-two (22) Capital appropriations as seen on Exhibit A.

2. COMPENSATION:

Article D, of the Agreement is amended in its entirety as follows:

NCNMEDD has agreed to provide the agreed upon services at one percent (1%) of the dollar amount(s) the City expends during the term of this Agreement towards the completion of the Projects, as those amounts were appropriated. Billing for services to City shall occur by NCNMEDD no more than on a monthly basis. The City will not use funds from these Capital appropriations to make such payments.

3. CONTRACT IN FULL FORCE.

Except as specifically provided in this Amendment, the Agreement remains and shall remain in full force and effect, in accordance with its terms.

IN WITNESS WHEREOF, the parties have executed this Amendment No.1 to the Agreement as of the dates set forth below.

CITY OF SANTA FE
AMENDMENT No. 2 TO
Intergovernmental Service Agreement
ITEM#23-0688

This AMENDMENT No 2 (the "Amendment") amends the INTERGOVERNMENTAL SERVICES AGREEMENT BETWEEN CITY OF SANTA FE AND NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT FOR FISCAL AGENT SERVICES, dated December 19, 2023 (the "Agreement"), between the City of Santa Fe (the "City") and the North Central New Mexico Economic Development District (NCNMEDD). The date of this Amendment shall be the date when it is executed by the City and the NCNMEDD whichever occurs last.

RECITALS:

A. Under the terms of the Agreement, the NCNMEDD has agreed to provide fiscal agent services in connection with the Capital Projects specified under the Agreement.

B. Pursuant to Article I of the Agreement, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged by the parties, the City and the NCNMEDD agree as follows:

1. PURPOSE:

Article A of the Agreement is amended to add an additional three (3) capital appropriations as seen on Exhibit B.

2. CONTRACT IN FULL FORCE.

Except as specifically provided in this Amendment, the Agreement remains and shall remain in full force and effect, in accordance with its terms.

IN WITNESS WHEREOF, the parties have executed this Amendment No.2 to the Agreement as of the dates set forth below.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2024-__

INTRODUCED BY:

Councilor Amanda Chavez

RED – Amendment A Chavez

A RESOLUTION

ASSIGNING AUTHORIZED OFFICERS AND AGENTS FOR GRANT AGREEMENT NUMBER SAP 22-G2419-STB FOR THE PLAN, DESIGN, AND CONSTRUCTION OF IMPROVEMENTS ON JEMEZ ROAD.

WHEREAS, in the Laws of 2022, Chapter 52, Section 22, Subsection 118, the Legislature made an appropriation to the New Mexico Environment Department ("NMED"), funds from which NMED is making available to the City of Santa Fe ("Grantee") through Grant Agreement, number SAP 22-G2419-STB ("Agreement"), incorporated as Attachment A, in the amount of four hundred thousand dollars ($400,000), to plan, design, and construct improvements on Jemez Road, including a sewer line south of Airport Road, to improve residential septic systems in the city of Santa Fe, in Santa Fe County; and

WHEREAS, Article X.B.(v) of the Agreement states that, the "Grantee's governing body has duly adopted or passed as an official act a resolution, motion or similar action authorizing the person identified as the official representative of the Grantee to sign the Agreement and to sign Requests for Payment" and as is described in Article III of the agreement (Attachment A), the

signatories identified in the resolution "will be the contact and signatory for all disbursements and Notices of Obligation"~~.~~; and

WHEREAS, in a letter dated August 24, 2023, the New Mexico Department of Finance and Administration ("DFA") took the position that it required the City to initiate a fiscal agent relationship in order for the City to utilize its current State Capital appropriations; and

WHEREAS, as a result of the DFA's position, the City entered into an intergovernmental services agreement, incorporated as Attachment B, with North Central Economic Development District ("NCEDD") for fiscal agent services, in which NCEDD agreed to review and sign Requests for Payment for permissible expenditures, on December 19, 2023.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that,

1) Alan Webber, Mayor, or successor(s) is the City's official authorized to sign the Agreement for this Project once approved by the Governing Body of the City of Santa Fe;
2) Stan Holland, Wastewater Division Engineer, or successor(s), is the Official Representative who is authorized to sign all other documents necessary to fulfill the Agreement and the requirements (~~Disbursements~~ Requests for Payment and Notices of Obligation) and to act as the Project contact;
3) Felicity Fonseca, Community Development Director, North Central New Mexico Economic Development District or successor(s) is the Fiscal Agent who is authorized to sign ~~Disbursements~~ Requests for Payment submitted by the City to the State pursuant to Article IX of the Agreement and Attachment B.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2024.

STATE OF NEW MEXICO
DEPARTMENT OF ENVIRONMENT
FUND CAPITAL APPROPRIATION PROJECT
JEMEZ RD CONSTRUCT
SAP 22-G2419-STB

THIS AGREEMENT between the New Mexico Environment Department hereinafter called the "Department" or NMED, and City of Santa Fe, hereinafter called the "Grantee" becomes effective on the date signed by the NMED.

RECITALS

WHEREAS, in the Laws of 2022, Chapter 53, Section 22, Subsection 118, the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of, funds from this appropriation, in accordance with the terms and conditions of this Agreement; and

WHEREAS, NMED is empowered pursuant to Section 74-1-6 B, NMSA 1978 to contract in its own name.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

ARTICLE I. PROJECT DESCRIPTION, AMOUNT OF GRANT AND REVERSION DATE

A. The project that is the subject of this Agreement is described as follows:

SAP 22-G2419-STB $400,000.00 APPROPRIATION REVERSION DATE: June 30, 2026

Laws of 2022, Chapter 53, Section 22, Subsection 118, Four Hundred Thousand Dollars, ($400,000.00), for:

to plan, design and construct improvements on Jemez road, including a sewer line south of Airport road, to improve residential septic systems in Santa Fe in Santa Fe county

The Grantee's total reimbursements shall not exceed Four Hundred Thousand Dollars, $400,000.00 (the "Appropriation Amount") minus the allocation for Art in Public Places ("AIPP amount")[1], if applicable, No Dollars, $0.00, which equals Four Hundred Thousand Dollars, $400,000.00 (the "Adjusted Appropriation Amount").

[1] The AIPP amount is "an amount of money equal to one percent or two hundred thousand dollars ($200,000), whichever is less, of the amount of money appropriated for new construction or any major renovation exceeding one hundred thousand dollars ($100,000)." Section 13-4A-4 NMSA 1978.

In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I(A), the language of the laws cited herein shall control.

This project is referred to throughout the remainder of this Agreement as the "Project"; the information contained in Article I(A) is referred to collectively throughout the remainder of this Agreement as the "Project Description." The Special Conditions Attachment may set forth additional or more stringent requirements and conditions, which are incorporated by this reference as if set forth fully herein. If the Special Conditions Attachment imposes more stringent requirements than any requirement set forth in this Agreement, the more stringent requirements of the Attachment shall prevail, in the event of irreconcilable conflict. The Grantee shall reference the Project's number in all correspondence with and submissions to the Department concerning the Project, including, but not limited to, Requests for Payment and reports.

ARTICLE II. LIMITATION ON DEPARTMENT'S OBLIGATION TO MAKE GRANT DISBURSEMENT TO GRANTEE

A. Upon the Effective Date of this Agreement, for permissible purposes within the scope of the Project Description, the Grantee shall only be reimbursed monies for which the Department has issued and the Grantee has received a Notice of Department's Obligation to Reimburse[2] Grantee (hereinafter referred to as "Notice of Obligation"). This Grant Agreement and the disbursement of any and all amounts of the above referenced Adjusted Appropriation Amount are expressly conditioned upon the following:

(i) Irrespective of any Notice of Obligation, the Grantee's expenditures shall be made on or before the Reversion Date and, if applicable, an Early Termination Date (i.e., the goods have been delivered and accepted or the title to the goods has been transferred to the Grantee and/or the services have been rendered for the Grantee); and

(ii) The total amount received by the Grantee shall not exceed the lesser of: (a) the Adjusted Appropriation Amount identified in Article I(A) herein or (b) the total of all amounts stated in the Notice(s) of Obligation evidencing that the Department has received and accepted the Grantee's Third Party Obligation(s), as defined in subparagraph iii of this Article II(A); and

(iii) The Grantee's expenditures were made pursuant to the State Procurement Code and execution of binding written obligations or purchase orders with third party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project, hereinafter referred to as "Third Party Obligations"; and

(iv) The Grantee's submittal of timely Requests for Payment in accordance with the procedures set forth in Article IX of this Agreement; and

(v) In the event that capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private entity, the sale, lease, license, or operating agreement:

   a. must be approved by the applicable oversight entity (if any) in accordance with law; or
   b. if no oversight entity is required to approve the transaction, the Department must approve the transaction as complying with law.

Prior to the sale, lease, license, or operating agreement being approved pursuant to Articles II(A)(v)(a) and II(A)(v)(b) herein, the Department may, in its sole and absolute discretion and unless inconsistent with State Board of Finance imposed conditions, reimburse the Grantee for necessary expenditures

[2] "Reimburse" as used throughout this Agreement includes Department payments to the Grantee for invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee.

incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, such as plan and design expenditures; and

(vi) The Grantee's submission of documentation of all Third-Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance and the Grantee's receiving of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement shall be governed by the following:

a. The Grantee shall submit to the Department one copy of all Third-Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party **but prior to execution by the Grantee.**

b. Grantee acknowledges and agrees that if it chooses to enter into a Third-Party Obligation prior to receiving a Notice of Obligation that covers the expenditure, it is solely responsible for such obligations.

c. The Department may, in its sole and absolute discretion, issue to Grantee a Notice of Obligation for the particular amount of that Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is attached to this Agreement as Exhibit 2.

d. The date the Department signs the Notice of Obligation is the date that the Department's Notice of Obligation is effective. After that date, the Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third-Party Obligation and request the Third Party to begin work. Payment for any work performed or goods received prior to the effective date of the Notice of Obligation is wholly and solely the obligation of the Grantee.

B. The Grantee shall implement, in all respects, the Project. The Grantee shall provide all necessary qualified personnel, material, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

C. Project funds shall not be used for purposes other than those specified in the Project Description.

D. Unless specifically allowed by law, Project funds cannot be used to reimburse Grantee for indirect Project costs.

ARTICLE III. NOTICE PROVISIONS AND GRANTEE AND DEPARTMENT DESIGNATED REPRESENTATIVES

Whenever written notices, including written decisions, are to be given or received, related to this Agreement, the following provisions shall apply.

For all matters related to this Agreement, the Grantee designates their official representative(s) or successor, in their Signatory Resolution, as required in Article X. B. (v). The official representative will be the contact and signatory for all disbursements and Notices of Obligation.

If applicable, the Grantee designates an Alternative Fiscal Agent in the Signatory Resolution as required in Article X. B. (v), and in the Alternative

The Department designates the persons listed below, or their successors, as the Points of Contact for matters related to this Agreement.

NMED Program Administrator
Name: Paulette Ortiz
Email: paulette.ortiz@env.nm.gov
Telephone: 505-670-3583

NMED Project Manager
Name: Stephanie DuBois
Email: stephanie.dubois@env.nm.gov
Telephone: 505-222-9568

The Grantee and the Department agree that either party shall send all notices, including written decisions, related to this Agreement to the above named persons by email or regular mail. In the case of mailings, notices shall be deemed to have been given and received upon the date of the receiving party's actual receipt or five calendar days after mailing, whichever shall first occur. In the case of email transmissions, the notice shall be deemed to have been given and received on the date reflected on the delivery receipt of email.

ARTICLE IV. REVERSION DATE, TERM, DEADLINE TO EXPEND FUNDS

A. As referenced in Article I(A), the applicable law establishes a date by which Project funds must be expended by Grantee, which is referred to throughout the remainder of this Agreement as the "Reversion Date." Upon being duly executed by both parties, this Agreement shall be effective as of the date of execution by the Department. It shall terminate on June 30, 2026 the Reversion Date unless Terminated Before Reversion Date ("Early Termination") pursuant to Article V herein.

B. The Project's funds must be expended on or before the Reversion Date and, if applicable, Early Termination Date of this Agreement. For purposes of this Agreement, it is not sufficient for the Grantee to encumber the Project funds on its books on or before the Project's Reversion Date or Early Termination Date. Funds are expended and an expenditure has occurred as of the date that a particular quantity of goods are delivered to and received by the Grantee or title to the goods is transferred to the Grantee and/or as of the date particular services are rendered for the Grantee. Funds are ***not*** expended and an expenditure has ***not*** occurred as of the date they are encumbered by the Grantee pursuant to a contract or purchase order with a third party.

ARTICLE V. EARLY TERMINATION

A. Early Termination Before Reversion Date Due to Completion of the Project or Complete Expenditure of the Adjusted Appropriation or Violation of this Agreement

Early Termination includes:

(i) Termination due to completion of the Project before the Reversion Date; or
(ii) Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date; or
(iii) Termination for violation of the terms of this Agreement; or
(iv) Termination for suspected mishandling of public funds, including but not limited to, fraud, waste, abuse, and conflicts of interest.

Either the Department or the Grantee may early terminate this Agreement prior to the Reversion Date by providing the other party with a minimum of fifteen (15) days' advance, written notice of early termination. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(A).

B. Early Termination Before Reversion Date Due to Non-appropriation

The terms of this Agreement are expressly made contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. Throughout this Agreement the term "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature: deauthorization, reauthorization or revocation of a prior authorization. The Legislature may choose to non-appropriate the Appropriation referred to in Article I and, if that occurs, the Department shall early terminate this Agreement for non-appropriation by giving the Grantee written notice of such termination, and such termination shall be effective as of the effective date of the law making the non-appropriation. The Department's decision as to whether sufficient appropriations or authorizations are available shall be accepted by the Grantee and shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(B).

C. Limitation on Department's Obligation to Make Grant Disbursements to Grantee in the Event of Early Termination

In the event of Early Termination of this Agreement by either party, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth Article II.

ARTICLE VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. The Department may choose, in its sole and absolute discretion, to provide written notice to the Grantee to suspend entering into new and further obligations. Upon the receipt of such written notice by the Grantee:

(i) The Grantee shall immediately suspend entering into new or further written obligations with third parties; and

(ii) The Department will suspend the issuance of any new or further Notice of Obligation under this Agreement; and

(iii) The Department may direct the Grantee to implement a corrective action plan in accordance with Article VI(D) herein.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension

In the event that the Department chooses, in its sole and absolute discretion to direct the Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension. Such corrective action plan must be approved by the Department and be signed by the Grantee. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan, is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(iii). The corrective action plan is in addition to, and not in lieu of, any other equitable or legal remedy, including but not limited to Early Termination.

ARTICLE VII. AMENDMENT

This Agreement shall not be altered, changed, or amended except by instrument in writing duly executed by both the parties hereto.

ARTICLE VIII. REPORTS

A. Database Reporting

The Grantee shall report quarterly Project activity by entering such Project information as the Department and the Department of Finance and Administration may require, such information entered directly into a database maintained by the Department of Finance and Administration (Budget & Formulation Management System). Additionally, the Grantee shall certify on the Request for Payment form (Exhibit 1) that updates have been maintained and are current in the database. The Grantee hereby acknowledges that failure to perform and/or certify updates into the database will delay or potentially jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of thirty (30) days' advance written notice of any changes to the information the Grantee is required to report.

Quarterly reports shall be due on the last day of the month that is 30 days prior to the end of the quarter following execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter.

B. Requests for Additional Information/Project Inspection

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:

(i) request such additional information regarding the Project as it deems necessary; and

(ii) conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.

Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

ARTICLE IX. REQUEST FOR PAYMENT PROCEDURES AND DEADLINES

A. The Grantee shall request payment by submitting a Request for Payment, in the form attached hereto as Exhibit 1. Payment requests are subject to the following procedures:

(i) The Grantee must submit a Request for Payment; and

(ii) Each Request for Payment must contain proof of payment by the Grantee or liabilities incurred by the Grantee showing that the expenditures are valid or are liabilities incurred by the Grantee in the form of actual unpaid invoices received by the Grantee for services rendered by a third party or items of tangible personal property received by the Grantee for the implementation of the Project; provided, however, that the Grantee may be reimbursed for unpaid liabilities only if the

Department, in its sole and absolute discretion, agrees to do so and in accordance with any special conditions imposed by the Department.

(iii) In cases where the Grantee is submitting a Request for Payment to the Department based upon invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee, the Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or such shorter period of time as the Department may prescribe in writing. The Grantee is required to certify to the Department proof of payment to the third party contractor or vendor within ten (10) business days from the date of receiving reimbursement from the Department.

B. The Grantee must obligate 5% of the Adjusted Appropriation Amount within six months of acceptance of the grant agreement and must have expended no less than 85% of the Adjusted Appropriation Amount six months prior to the reversion date.

C. **Deadlines**

Requests for Payments shall be submitted by Grantee to the Department on the earlier of:

(i) Immediately as they are received by the Grantee but at a minimum thirty (30) days from when the expenditure was incurred or liability of the Grantee was ~~a~~approved as evidenced by an unpaid invoice received by the Grantee from a third party contractor or vendor; or

(ii) Twenty (20) days from date of Early Termination; or

(iii) **Twenty (20) days from the Reversion Date**.

D. The Grantee's failure to abide by the requirements set forth in Article II and Article IX herein will result in the denial of its Request for Payment or will delay the processing of Requests for Payment. The Department has the right to reject a payment request for the Project unless and until it is satisfied that the expenditures in the Request for Payment are for permissible purposes within the meaning of the Project Description and that the expenditures and the Grantee are otherwise in compliance with this Agreement, including but not limited to, compliance with the reporting requirements and the requirements set forth in Article II herein to provide Third Party Obligations and the Deadlines set forth in Article IX herein. The Department's ability to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department due to Grantee's violation of this Agreement.

ARTICLE X. PROJECT CONDITIONS AND RESTRICTIONS; REPRESENTATIONS AND WARRANTIES

A. The following general conditions and restrictions are applicable to the Project:

(i) The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the State Procurement Code (or local procurement ordinance, where applicable).

(ii) The Project must be implemented in accordance with the New Mexico Public Works Minimum Wage Act, Section 13-4-10 through 13-4-17 NMSA 1978, as applicable. Every contract or project in excess of sixty thousand dollars ($60,000) that the Grantee is a party to for construction, alteration, demolition or repair or any combination of these, including painting and decorating, of public buildings, public works or public roads and that requires or involves the employment of mechanics, laborers or both shall contain a provision stating the minimum wages

and fringe benefits to be paid to various classes of laborers and mechanics, shall be based upon the wages and benefits that will be determined by the New Mexico Department of Workforce Solutions to be prevailing for the corresponding classes of laborers and mechanics employed on contract work of a similar nature in the locality. Further, every contract or project shall contain a stipulation that the contractor, subcontractor, employer or a person acting as a contractor shall pay all mechanics and laborers employed on the site of the project, unconditionally and not less often than once a week and without subsequent unlawful deduction or rebate on any account, the full amounts accrued at time of payment computed at wage rates and fringe benefit rates not less than those determined pursuant to Section 13-4-11 (B) NMSA 1978 to be the prevailing wage rates and prevailing fringe benefit rates issued for the project.

(iii) The Project may only benefit private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico, the "Anti-Donation Clause."

(iv) The Grantee shall not for a period of 10 years from the date of this agreement convert any property acquired, built, renovated, repaired, designed or developed with the Project's funds to uses other than those specified in the Project Description without the Department's and the Board of Finance's express, advance, written approval, which may include a requirement to reimburse the State for the cost of the project, transfer proceeds from the disposition of property to the State, or otherwise provide consideration to the State.

(v) The Grantee shall comply with all federal and state laws, rules and regulations pertaining to equal employment opportunity. In accordance with all such laws, rules and regulations the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age or handicap, be excluded from employment with Grantee, be excluded from participation in the Project, be denied benefits or otherwise be subject to discrimination under, any activity performed under this Agreement. If Grantee is found to be not in compliance with these requirements during the life of this Agreement, Grantee agrees to take appropriate steps to correct any deficiencies. The Grantee's failure to implement such appropriate steps within a reasonable time constitutes grounds for terminating this Agreement.

B. The Grantee hereby represents and warrants the following:

(i) The Grantee has the legal authority to receive and expend the Project's funds.

(ii) This Agreement has been duly authorized by the Grantee, the person executing this Agreement has authority to do so, and, once executed by the Grantee, this Agreement shall constitute a binding obligation of the Grantee, enforceable according to its terms.

(iii) This Agreement and the Grantee's obligations hereunder do not conflict with any law or ordinance or resolution applicable to the Grantee, the Grantee's charter (if applicable), or any judgment or decree to which the Grantee is subject.

(iv) The Grantee has independently confirmed that the Project Description, including, but not limited to, the amount and Reversion Date, is consistent with the underlying appropriation in law.

(v) The Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign the Agreement and to sign Requests for Payment.

(vi) The Grantee shall abide by New Mexico laws regarding conflicts of interest, governmental conduct and whistleblower protection. The Grantee specifically agrees that no officer or employee of the local jurisdiction or its designees or agents, no member of the governing body, and no other public official of the locality who exercises any function or responsibility with

respect to this Grant, during their tenure or for one year thereafter, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed or goods to be received, pursuant to this Grant. Further, Grantee shall require all of its contractors to incorporate in all subcontracts the language set forth in this paragraph prohibiting conflicts of interest.

(vii) No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of this or any agency or body in connection with the awarding of any Third Party Obligation and that the Grantee shall require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans and cooperative agreements. All subrecipients shall be required to certify accordingly.

ARTICLE XI. STRICT ACCOUNTABILITY OF RECEIPTS AND DISBURSEMENTS; PROJECT RECORDS

A. The Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles, and, if feasible, maintain a separate bank account or fund with a separate organizational code, for the funds to assure separate budgeting and accounting of the funds.

B. For a period of six (6) years following the Project's completion, the Grantee shall maintain all Project related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the total funds from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department shall prescribe.

C. The Grantee shall make all Project records available to the Department, the Department of Finance and Administration, and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor or the Department of Finance and Administration finds that any or all of these funds were improperly expended, the Grantee may be required to reimburse to the State of New Mexico, to the originating fund, any and all amounts found to be improperly expended.

ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines that part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to, Project funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, or violation of this Agreement, the Grantee shall return such funds to the Department for disposition in accordance with law.

ARTICLE XIII. LIABILITY

Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Grantee and Department concerning the subject matter hereof. The Agreement supersedes any and all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

ARTICLE XV. REQUIRED NON-APPROPRIATIONS CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

The Grantee acknowledges, warrants, and agrees that Grantee shall include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

"The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, the Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination. The Santa Fe's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. Contractor hereby waives any rights to assert an impairment of contract claim against the Santa Fe or the New Mexico Environment Department or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the Santa Fe or the Department"

ARTICLE XVI. REQUIRED TERMINATION CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

Grantee acknowledges, warrants, and agrees that Grantee shall include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

"This contract is funded in whole or in part by funds made available under a New Mexico Environment Department Grant Agreement. Should the NMED early terminate the grant agreement, the Santa Fe may early terminate this contract by providing Contractor written notice of such termination. In the event of termination pursuant to this paragraph, the Santa Fe only liability shall be to pay Contractor for acceptable goods delivered and services rendered before the termination date."

Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department.

ARTICLE XVII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA.

A. Throughout the term of this Agreement, Grantee shall:

1. submit all reports of annual audits and agreed upon procedures required by Section 12-6-3(A)-(B) NMSA 1978 by the due dates established in 2.2.2 NMAC, reports of which must be a public record pursuant to Section 12-6-5(A) NMSA 1978 within forty-five days of delivery to the State Auditor;
2. have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);

3. timely submit all required financial reports to its budgetary oversight agency (if any); and

4. have adequate accounting methods and procedures to expend grant funds in accordance with applicable law and account for and safeguard grant funds and assets acquired by grant funds.

B. In the event Grantee fails to comply with the requirements of Paragraph A of this Article XVII, the Department may take one or more of the following actions:

1. suspend new or further obligations pursuant to Article VI(A) of this Agreement;

2. require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;

3. impose special grant conditions to address the non-compliance by giving the Grantee notice of such special conditions in accordance with Article III of this Agreement; the special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III; or

4. terminate this Agreement pursuant to Article V(A) of this Agreement.

ARTICLE XVIII.]OPTIONAL IF THE APPROPRIATION IS FUNDED BY SEVERANCE TAX BONDS OR GENERAL OBLIGATION BONDS] SEVERANCE TAX BOND AND GENERAL OBLIGATION BOND PROJECT CLAUSES

A. Grantee acknowledges and agrees that the underlying appropriation for the Project is a severance tax bond or general obligation bond appropriation, and that the associated bond proceeds are administered by the New Mexico State Board of Finance (SBOF), an entity separate and distinct from the Department. Grantee acknowledges and agrees that (i) it is Grantee's sole and absolute responsibility to determine through SBOF staff what (if any) conditions are currently imposed on the Project; (ii) the Department's failure to inform Grantee of a SBOF imposed condition does not affect the validity or enforceability of the condition; (iii) the SBOF may in the future impose further or different conditions upon the Project; (iv) all SBOF conditions are effective without amendment of this Agreement; (v) all applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s); and (vi) the Department's obligation to reimburse Grantee from the Project is contingent upon the then current SBOF conditions being satisfied.

B. Grantee acknowledges and agrees that the SBOF may in its sole and absolute discretion remove a project's assigned bond proceeds if the project doesn't proceed sufficiently. Entities must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by the grantee in the Bond Questionnaire and Certification documents submitted to the SBOF. Failure to comply may result in the bond proceeds reassignment to a new ready project. If this should occur this grant agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, NMAC 2.61.6, as may be amended or re-codified. The rule provides definitions and interpretations of grant language for the purpose of determining whether a particular activity is allowable under the authorizing language of the agreement.

IN WITNESS WHEREOF, the parties have duly executed this Agreement as of the date of execution by the Department.

NEW MEXICO ENVIRONMENT DEPARTMENT
CAPITAL OUTLAY

ARTICLE 1 REVIEW

Upon execution of the grant agreement, the Grantee will follow the procedures listed below unless waived in writing by the New Mexico Environment Department (NMED) (payment may be withheld if any of these procedures are not followed by the Grantee).

A. The Grantee must submit copies to NMED of all executed contracts entered into by the Grantee and related to the project, for review and, if appropriate, approval. Only approved eligible expenditures incurred **after** the effective date of the Grant Agreement shall be reimbursed or paid from these funds.

B. If these grant funds are to be used for engineering and/or other professional services, the hiring process for engineering services and/or other professional services must be performed in compliance with the New Mexico Procurement Code [Sections 13-1-21 et seq. NMSA 1978]. If engineering fees exceed $60,000, excluding gross receipt taxes, the Grantee is required to contact the Professional Technical Advisory Board (PTAB) for assistance in the preparation of the Request for Proposals (RFP) package. (PTAB: phone (505) 888-6161 and e-mail ptab@acecnm.org.)

C. If these grant funds are used for engineering and/or other professional services, the Grantee must submit a copy of any executed engineering agreement and/or other professional services contract so a notice of obligation can be prepared and issued. If the Grantee's staff will be used to prepare the design, a letter certifying that must be submitted to NMED for the project record. The grantee has the option of using the NMED engineering agreement. In any case all engineering agreements must include the non-appropriation and termination clauses required by DFA in all agreements funded by capital outlay.

D. A preliminary engineering report (PER), technical memorandum, or study by a registered New Mexico Professional Engineer may be required.

E. If the grant funds are to be used for engineering design or for construction, the Grantee must submit all plans, specifications, bid documents, and engineer's construction cost estimate, for the project (prepared and sealed by a licensed and registered New Mexico Professional Engineer) to NMED **before** the project is advertised for construction bids, along with a letter **from the Grantee** stating that they have reviewed and accepted the plans and specifications. If required, the Grantee must also submit the plans and specifications to the appropriate regulatory agency for review and approval and provide a copy of the approval letter from the regulatory agency. Upon receipt of these documents the NMED will issue a letter confirming receipt of the required documents and informing the Grantee to proceed with advertising the project for construction bids.

F. A site certificate must be submitted prior to project bid advertisement that certifies all necessary easements, rights-of-way, and/or property upon or through which the project is being constructed have been obtained. The Site Certificate must be signed by an attorney, engineer, surveyor, or title abstractor.

G. If grant funds are to be used for the purchase or acquisition of real property as a part of this project and within the project period, the Grantee will submit documentation of the acquisition to NMED, including a legal description of the property, the date the property will be acquired, evidence of clear title, and an appraisal report prepared by a qualified appraiser selected through applicable procurement procedures.

H. The Grantee will submit the proof of advertisement, recommendation of award, bid tabulation, complete bid submittal of the selected contractor, any addenda issued, and funding analysis listing all funds that will pay for construction to NMED prior to award of the construction contract, along with a letter from the Grantee stating they concur with the recommendation of award to the selected contractor and price and confirming that the Grantee has sufficient funds for construction.

I. The Grantee will submit the notice of the award, the notice of a pre-construction conference, a copy of the executed construction contract documents (including payment and performance bonds), and the notice to proceed to NMED. NMED will prepare and issue the notice of obligation for the construction cost making the grant funds available for reimbursement of construction costs. The selected contractor will be required to post a performance and payment bond in accordance with requirements of Section 13-4-18 NMSA 1978.

J. The Grantee will provide a full-time construction inspector during construction of the project unless NMED determines that part time inspection is adequate for the project. This must be requested and approved by NMED prior to the start of construction.

K. All daily construction inspection reports shall be made available to the NMED upon request.

L. Notwithstanding the inspections performed by the Grantee and its engineer, NMED will have the right to examine all installations comprising the project, including materials delivered and stored on-site for use on the project. Such examinations will not be considered an inspection for compliance with contract plans but will be a general NMED review as described in Article 2 below.

M. If applicable, the Grantee (or the system owner) will employ qualified utility operators and will comply with all provisions of the New Mexico Utility Operators Certification Act, Section 61-33-1 et seq. NMSA 1978.

N. NMED will reimburse the grantee its actual costs when NMED determines, in its sole discretion, that expenditures were appropriate under the terms of the Agreement and that the expenditures were properly documented.

ARTICLE 2 NMED OVERSIGHT

NMED inspection, review and oversight is only for purposes of compliance with applicable state grant requirements, procedures, statutes, and regulations. NMED approval will not be interpreted as a warranty or guarantee of any kind. Responsibility for the design of the project will lie solely with the engineer of record. All defects and their correction will be the responsibility of the Grantee and its contractors and engineers or consultants. Any questions raised by NMED during its inspections and reviews shall be resolved exclusively by the Grantee. The Grantee and its contractors and engineers or consultants will remain responsible for the completion and success of the project. No action by NMED shall relieve the

owner, engineer, or contractor of legal responsibilities for the overall integrity of the project, adequacy of the design, safety, or compliance with all applicable regulations.

ARTICLE 3 CLOSEOUT

A. The project will not be considered complete until the work as defined in this agreement has been fully performed, and finally and unconditionally accepted by the Grantee and the engineer of record.

B. If the grant funds are used for purchase of equipment, final payment will be made after receipt of the equipment and equipment title, if applicable. Appraisal reports are required for the purchase of used equipment.

C. If the grant funds are used for construction, final payment will be made after the final inspection has been conducted by NMED and the following items, unless waived by NMED, have been provided to NMED, and have been reviewed and approved by NMED:

i. A certificate of substantial completion including punch list items.

ii. A final certified construction pay request prepared by the Grantee's project engineer and approved by the Grantee.

iii. A written consent of the surety, if any, to final payment.

iv. Complete and legally effective releases or waivers (satisfactory to the Grantee) of all liens arising out of the contract documents and the labor services performed and the materials and equipment furnished there under. In lieu thereof and as approved by the Grantee, contractor(s) may furnish receipts or releases in full; an affidavit of contractor that the releases and receipts include labor, services, materials, and equipment for which a lien could be filed and that all payrolls, material and equipment bills, and other indebtedness connected with the work for which the Grantee or its property might in any way be responsible, have been paid or otherwise satisfied.

v. Certification letter by the Grantee and contractor that the Labor Standards Contract Provisions have been met.

vi. Certification letter of project acceptance by the Grantee and the Grantee's project engineer stating that work has been satisfactorily completed and the construction contractor has fulfilled all of the obligations required under the contract documents with the Grantee, or if payment and materials performance bonds are "called", an acceptance close-out settlement to the Grantee and contractors will be submitted to NMED.

vii. Certification letter from the Grantee confirming receipt and acceptance of the record drawings and operation and maintenance manuals.

INTERGOVERNMENTAL SERVICES AGREEMENT
BETWEEN CITY OF SANTA FE AND
NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT
FOR FISCAL AGENT SERVICES

WHEREAS, the State of New Mexico appropriated funding for the purposes of improvements in the City of Santa Fe ("City") to the State of New Mexico, Department of Finance and Administration, Local Government Division, in the laws of Laws of 2021, Chapter 138, as detailed below ("Projects");

WHEREAS, NCNMEDD acknowledges that the appropriations for the Projects are intended for City;

WHEREAS, City, a municipality within Santa Fe County and the State of New Mexico, agrees to engage North Central New Mexico Economic Development District ("NCNMEDD") in providing fiscal agency services in relation to the Projects.

NOW, THEREFORE, the parties do mutually agree as follows:

This Agreement is entered into by and between City and NCNMEDD pursuant to the following purposes, conditions, and terms:

A. PURPOSE

The purpose of this Agreement is for NCNMEDD to provide fiscal agent services in connection with the Projects as specifically appropriated under New Mexico Legislative Appropriation Agreements identified as follows:

ApprID	Leg. Session	Appropriation Title	Year	Ch	Sect	Agency		Amount	Project Description
F2900	2021	SANTA FE PARKS UPGRADE	2021	138	29/341	341	Finance & Administration	1,000,000	to plan, design, construct, repair, improve and equip parks in Santa Fe in Santa Fe county;
F2902	2021	SANTA FE TIERRA CONTENTA TRAIL CONSTRUCT	2021	138	29/343	341	Finance & Administration	300,000	to plan, design and construct a trail in the Tierra Contenta subdivision in Santa Fe in Santa Fe county;
F2903	2021	SANTA FE MIDTOWN INFRA DES CONSTRUCT	2021	138	29/344	341	Finance & Administration	1,000,000	to plan, design, construct and improve infrastructure for the midtown Santa Fe property in Santa Fe in Santa Fe county;

Other projects may be included as agreed upon in writing and by amendment between the Parties.

B. SCOPE OF WORK

NCNMEDD's services in support of the above purpose shall be to provide fiscal agency services associated with the Projects, including:

1. NCNMEDD Fiscal Agency Services:

- Ensure that grant funds are expended in compliance with all applicable laws, regulations, and grant agreement and the transactions are appropriately accounted for in compliance with such laws, regulations, and grant agreement;
- Ensure safeguarding of grant funds and assets acquired with grant funds and proper accounting thereof in compliance with applicable laws, regulations, and grant agreement;
- Act as liaison between City and appropriate New Mexico state agencies as needed;
- Complete all required quarterly and financial reporting with information provided by City;
- Review and sign-off on project invoices to the appropriate State agency in a timely manner; and

- Work with the State on providing direct project reimbursements to City and act as a facilitator for such reimbursements as needed.

2. City Role and Responsibilities
   - City understands it remains ultimately responsible for executing and complying with all applicable laws, regulations, and grant agreement requirements such as flow down provisions, executing procurement responsibilities, and subcontractor management, as well as project, grant, and financial management.

C. TIMEFRAME

Work pursuant to this Agreement shall be effective no sooner than the date of last party signature below, and shall conclude upon notice by either party pursuant to paragraph I, but no later than one month following the reversion date of the appropriations, except as amended and mutually agreed upon in writing.

D. COMPENSATION:

NCNMEDD has agreed to provide the agreed upon services at three percent (3%) of the dollar amount(s) the City expends during the term of this Agreement towards the completion of the Projects, as those amounts were appropriated. Billing for services to City shall occur by NCNMEDD no more than on a monthly basis. The City will not use funds from this grant to make such payments.

E. RECORDS AND RECOVERY:

NCNMEDD shall maintain appropriate records of services rendered during the Agreement term and retain them for a period of three (3) years after the grant has been closed.

F. ACCESS TO INFORMATION

City and its contractors and subcontractors shall provide information, as needed, for purposes and work described in this Agreement. NCNMEDD will be included and copied on all invoices and reports, prior to City's submission to the appropriate State agency.

G. OWNERSHIP OF PROJECTS

All documents, capital improvements, and project assets produced pursuant to this Agreement shall be the property of City which shall assume full administrative responsibility for the life of the project; or the State grant agreement required period, whichever comes first.

H. LIMITATION OF LIABILITY

This Agreement shall not create a general liability of the constituent members of NCNMEDD.

City shall hold NCNMEDD harmless with respect to any damages, expenses, or claims arising or in connection with any negligent acts, errors, or omissions performed by City under this Agreement. This term shall not limit NCNMEDD liability with respect to NCNMEDD's negligence or willful misconduct.

I. MODIFICATION AND TERMINATION

Any modifications or amendments to this Agreement shall be in writing, and when signed by both parties shall be made part of the Agreement. This Agreement may be terminated by either party upon thirty (30) days written notice to the other.

J. CERTIFICATION

City shall comply with the requirements of all applicable laws, rules, and regulations, and shall assume full responsibility for payment of federal, state, and local taxes and contributions imposed or required under Social Security, Workers Compensation and income tax laws. City is required to follow all State procurement regulations and it is City obligation and responsibility to follow all State requirements as certified in the project bond questionnaire process and as included in associated State grant agreements, including reporting and drawdown requirements, such documents to be filed for each project in conjunction with this agreement.

K. ADEQUATE APPROPRIATIONS

Performance of this agreement is contingent upon sufficient appropriations and authorization being made for the performance of this Agreement. If sufficient appropriations and authorization are not made, this Agreement shall terminate immediately upon written notice being given by NCNMEDD to City. NCNMEDD's decision as to whether sufficient appropriations are available shall be accepted by City and shall be final. If NCNMEDD proposes an amendment to the Agreement to unilaterally reduce its Fiscal Agency Services, City shall have the option to terminate the Agreement or agree to negotiate for reduced Fiscal Agency Services: within thirty (30) days of receipt of the proposed amendment.

L. PENALTIES

The Procurement Code, NMSA 1978, Sections 13-1-28 to -199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities, and kickbacks.

M. NOTICES

Any notice required to be given to either party by this Agreement shall be in writing

and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid as follows:

To: City
City Manager John Blair
City of Santa Fe
200 Lincoln
Santa Fe, New Mexico, 87501j

To NCNMEDD:
Monica Abeita Executive Director NCNMEDD
3900 Paseo del Sol
Santa Fe, NM 87507

N. DISPUTE RESOLUTION

The parties to this agreement agree that in the event of a dispute that may arise hereunder, which dispute cannot be reasonably resolve, they will submit to mediation by a neutral mediator, the cost of which will be borne equally by both parties. Disputes that cannot be resolved by mediation shall be subject to the laws of the State of New Mexico under the jurisdiction of the First Judicial District Court.

O. BREACH AND DEFAULT

If either party commits a breach or default in the performance or observance of any of its obligations under this agreement and such breach or default continues and is not corrected within thirty (30) days of written notification of such breach or default by either party to the other, the non-breaching or non-defaulting party shall have the right to terminate this agreement by giving notice to the breaching or defaulting party.

P. ASSIGNMENT

No portion of this agreement may be assigned to another party without the express written consent of the City and NCNMEDD.

APPROVED THIS 19th DAY OF December, 2023, BY CITY.

CITY OF SANTA FE
AMENDMENT No. 1 TO
Intergovernmental Service Agreement
ITEM#23-0688

This AMENDMENT No 1 (the "Amendment") amends the INTERGOVERNMENTAL SERVICES AGREEMENT BETWEEN CITY OF SANTA FE AND NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT FOR FISCAL AGENT SERVICES, dated December 19, 2023 (the "Agreement"), between the City of Santa Fe (the "City") and the North Central New Mexico Economic Development District (NCNMEDD). The date of this Amendment shall be the date when it is executed by the City and the NCNMEDD whichever occurs last.

RECITALS:

A. Under the terms of the Agreement, the NCNMEDD has agreed to provide fiscal agent services in connection with the Capital Projects specified under the Agreement.

B. Pursuant to Article I of the Agreement, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged by the parties, the City and the NCNMEDD agree as follows:

1. PURPOSE:

Article A of the Agreement is amended to add an additional twenty-two (22) Capital appropriations as seen on Exhibit A.

2. COMPENSATION:

Article D, of the Agreement is amended in its entirety as follows:

NCNMEDD has agreed to provide the agreed upon services at one percent (1%) of the dollar amount(s) the City expends during the term of this Agreement towards the completion of the Projects, as those amounts were appropriated. Billing for services to City shall occur by NCNMEDD no more than on a monthly basis. The City will not use funds from these Capital appropriations to make such payments.

3. CONTRACT IN FULL FORCE.

Except as specifically provided in this Amendment, the Agreement remains and shall remain in full force and effect, in accordance with its terms.

IN WITNESS WHEREOF, the parties have executed this Amendment No.1 to the Agreement as of the dates set forth below.

Re: Request for Approval of a BAR over $60k

Item and Issue

Request for Approval of a Budget Amendment Resolution (BAR) in the Total Amount of $197,470 from Public Utilities Cash Balance to Repair and Maintenance to Fund a Construction Contract with AAC Construction to Excavate and Remove a Failing Manhole on Paseo de Peralta and Replace it with a New, Precast Concrete Manhole.

Background and Summary

The Public Utilities Department respectfully requests your review and approval of an Emergency Determination BAR approval to replace a failing manhole within Paseo de Peralta in the total amount of $197,469.86. The contract for this BAR was approved by the Interim City Manager Randy Randall on November 22, 2024. However, the BAR to fund the agreement is over $60k and requires approval by the Governing Body.

Recommended Action

Please approve the BAR to Fund the AAC Contract for Manhole Excavation and Replacement Within Paseo de Peralta

Subject: Paseo De Peralta Emergency Manhole Replacement Project

Vendor Name: AAC Construction, LLC

Munis Vendor Number: 7958

ITEM AND ISSUE:

The Public Utilities Department respectfully requests your review and approval of an Emergency Determination to replace a failing manhole in Paseo de Peralta. Request for the Approval of a construction contract in the total amount of $197,469.86 including NMGRT for construction services ending 6 months after approval.

CONTRACT NUMBER:

The FY25 Munis contract number is 3250274

BACKGROUND AND SUMMARY:

The contractor will excavate and remove a failing manhole within Paseo de Peralta and replace it with a new, precast concrete manhole. He will replace the pipe connections to the manhole to restore free flow through the manhole. The excavation will be backfilled and the roadway pavement restored.

CITY OF SANTA FE

CONSTRUCTION CONTRACT

THIS CONTRACT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and **AAC Construction, LLC**, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

RECITALS

WHEREAS, the City, through its Governing Body, is authorized to enter into a construction Contract for the project; and

WHEREAS, the City has procured this Contract according to the established State and Local Purchasing procedures for contracts of the type and amount; and

The City and the Contractor hereby agree as follows:

1. Scope of Work

A. The Contractor shall perform the following work:

The contractor will excavate and remove a failing manhole within Paseo de Peralta and replace it with a new, precast concrete manhole. He will replace the pipe connections to the manhole to restore free flow through the manhole. The excavation will be backfilled and the roadway pavement restored. The work will include all traffic control, materials, labor, and any incidentals necessary to complete the work and restore the sanitary sewer and roadway to serviceable condition.

The Contractor shall be responsible for verifications of all conditions, measurements, and dimensions.

The Contractor shall be responsible for all permits, fees, and State inspections associated with the construction.

***2.* Compensation**

A. The City shall pay to the Contractor in full payment for services satisfactorily performed, such compensation not to exceed one hundred ninety seven thousand four hundred sixty nine dollars and eighty six cents ($197,469.86), including gross receipts tax.

The total amount payable to the Contractor under this Contract, including Alternates (if needed) gross receipts tax and expenses, shall not exceed $197,469.86. This amount is a maximum and not a guarantee that the work assigned to be performed by Contractor under this Contract shall equal the amount stated herein. The parties do not intend for the Contractor to continue to provide

services without compensation when the total compensation amount is reached. Contractor is responsible for notifying the City when the services provided under this Contract reach the total compensation amount. In no event will the Contractor be paid for services provided in excess of the total compensation amount without this Contract being amended in writing prior to those services in excess of the total compensation amount being provided.

B. Payment is subject to availability of funds pursuant to the Appropriations Paragraph set forth below and to any negotiations between the parties from year to year pursuant to Paragraph 1, Scope of Work, and to approval by the City. All invoices MUST BE received by the City no later than thirty 30) days after the termination of the Fiscal Year in which the services were delivered. Invoices received after such date WILL NOT BE PAID.

C. Contractor must submit a detailed statement accounting for all services performed and expenses incurred. If the City finds that the services are not acceptable, within thirty days after the date of receipt of written notice from the Contractor that payment is requested, it shall provide the Contractor a letter of exception explaining the defect or objection to the services, and outlining steps the Contractor may take to provide remedial action. Upon certification by the City that the services have been received and accepted, payment shall be tendered to the Contractor within twenty-one days after the date of acceptance. If payment is made by mail, the payment shall be deemed tendered on the date it is postmarked.

D. If the City fails to pay the contractor within twenty-one days after receipt of an undisputed request for payment, the City shall pay interest to the contractor beginning on the twenty-second day after payment was due, computed at one and one-half percent of the undisputed amount per month or fraction of a month until the payment is issued. If the City receives an improperly completed invoice, the City shall notify the sender of the invoice within seven days of receipt in what way the invoice is improperly completed, and the owner has no further duty to pay on the improperly completed invoice until it is resubmitted as complete.

E. **Notice of Extended Payment Provision for Grant Funded Contracts**. This contract allows the City to make payment within 45 days after submission of an undisputed request for payment for contracts funded by grant money consistent with NMSA 1978, sec. 57-28-5(B).

3. Term

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED IN WRITING BY THE CITY. This contract shall terminate **six (6) months from date of final signature**.

4. Termination

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice; City Opportunity to Cure.

1) Except as otherwise provided in Paragraphs 7.A and 17, the City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2) Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of

this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3) Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph 5, "Appropriations," of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

5. Appropriations

The terms of this Contract are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

6. Status of Contractor

The Contractor and its agents and employees are independent contractors performing construction services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

7. Construction Contract Performance and Payment Bond

A. When a construction contract is awarded in excess of twenty-five thousand dollars ($25,000), the following bonds or security shall be delivered to the City and shall become binding on the parties upon the execution of the contract. If the Contractor fails to deliver the required performance and payment bonds, the Contractor's bid shall be rejected, its bid security shall be enforced to the extent of actual damages. Award of the contract shall be made pursuant to the Procurement Code in the following manner:

(1) a performance bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the

United States treasury department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract; and

(2) a payment bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the United States treasury department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract, for the protection of all persons supplying labor and material to the contractor or its subcontractors for the performance of the work provided for in the contract.

B. A subcontractor shall provide a performance and payment bond on a public works building project if the subcontractor's contract for work to be performed on a project is one hundred twenty-five thousand dollars ($125,000) or more.

8. Assignment

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

9. Subcontracting

The Contractor shall not subcontract any portion of the services to be performed under this Contract without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

10. Release

Final payment of the amounts due under this Contract shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Contract.

11. Confidentiality

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

12. Product of Service -- Copyright

All materials developed or acquired by the Contractor under this Contract shall become the property of the City and shall be delivered to the City no later than the termination date of this Contract. Nothing developed or produced, in whole or in part, by the Contractor under this Contract shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

13. Conflict of Interest; Governmental Conduct Act

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978.

C. Contractor's representations and warranties in Paragraphs A and B of this Article 12 are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article 12 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

14. <u>Amendment</u>

A. This Contract shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in Article 4 herein, or to agree to the reduced funding.

15. <u>Change Orders</u>

A. Changes. The Contractor may only make changes or revisions within the Scope of Work as defined by Article 1 and/or Exhibit 1 after receipt of written approval by the City Manager or his/her designee. Such change may only be made to Tasks or Sub-Task as defined in the Scope of Work. Under no circumstance shall such change affect the:

1) Deliverable requirements, as outlined in the Scope of Work;
2) Due date of any Deliverable, as outlined in the Scope of Work;
3) Compensation of any Deliverable, as outlined in the Scope of Work;
4) Contract compensation, as outlined in Article 2; or
5) Contract termination, as outlined in Article 4.

B. Change Request Process. In the event that circumstances warrant a change to accomplish the Scope of Work as described above, a Change Request shall be submitted that meets the following criteria:

1) The Project Manager shall draft a written Change Request for review and approval by the City Manager to include:
   (a) the name of the person requesting the change;
   (b) a summary of the required change;
   (c) the start date for the change;
   (d) the reason and necessity for change;
   (e) the elements to be altered; and
   (f) the impact of the change.

2. The City Manager shall provide a written decision on the Change Request to the Contractor within a maximum of ten (10) Business Days of receipt of the Change Request. All decisions made by the City Manager are final. Change Requests, once approved, become a part of the Contract, and become binding as a part of the original Contract.

16. Merger

This Contract incorporates all the agreements, covenants, and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements and understandings have been merged into this written contract.

No prior Agreement or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

17. Penalties for violation of law

NMSA 1978, sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities and kickbacks.

18. Equal Opportunity Compliance

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

19. Applicable Law

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

20. Workers Compensation

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

21. Other Insurance

If the services contemplated under this Contract will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Contract, the following insurance coverage(s), naming the City as additional insured.

A. **Commercial General Liability** insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. **Broader Coverage and Limits**. The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

C. Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

22. Records and Financial Audit

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments

23. Indemnification

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Contract. In the event that any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

24. New Mexico Tort Claims Act

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

25. Invalid Term or Condition

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

26. Enforcement of Contract

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

27. Notices

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the City: Ben Sandoval
73 Paseo Real, Santa Fe, NM 87507
basandoval@santafenm.gov

To the Contractor: Andrew Sisneros
18 La Luna Road, Santa Fe, NM 87507
andrew@cnsp.net

28. Authority

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter into a binding contract.

29. Progress Payments

Based upon Application for Payment submitted to the City by the Contractor and Certificates for Payment issued by the City, the City shall make progress payments on account of the Contract sum to the Contractor as provided in the Contract documents for the period ending the last day of the month as follows:

Not later than twenty-one (21) days following the end of the period covered by the Application for Payment, one hundred percent (100%) of the portion of the Contract Sum properly allocable to labor, materials, and equipment incorporated in the work and one hundred percent (100%) of the portion of the Contract sum properly allocable to materials and equipment suitably stored at the site or some other location agreed upon in writing for the period covered by the Application for Payment, less the aggregate of previous payments made by the City; and upon substantial completion of the entire work, a sum sufficient to increase the total payments to one hundred percent (100%) of the Contract sum, less such amounts as the City shall determine for all incomplete work and unsettled claims as provided in the Contract documents.

30. Final Payment

Final payment, constituting the entire unpaid balance of the Contract sum, unless it is a disputed payment, shall be paid by the City to the Contractor within twenty-one (21) calendar days, after all deficiencies to the

Contract document that were noted during the Substantial Completion Inspection and listed on the attachment to the Certificate of Substantial Completion have been corrected, and provided the Contract has been fully performed and a final Certificate for Payment has been issued by the City. In addition, the Contractor shall provide to the City a certified statement of Release of Lien (AIA Document G706A or approved form), Consent of Surety, Warranty from Prime Contractor, Warranties from Suppliers and Manufacturers, training sessions, equipment/operating manuals, and as-built drawings.

31. Schedule

The Contractor shall, within five (5) days after the effective date of Notice to Proceed, prepare and submit a progress schedule covering project operations for the 30-day Contract period. This progress schedule shall be of the type generally referred to as a Critical Path Method (CPM), Critical Path Schedule (CPS), and Critical Path Analysis (CPA), and other similar designations. The CPM shall be used to control the timing and sequences of the project. All work shall be done in accordance with the CPM Planning and Scheduling. A written statement of explanation shall be submitted with the progress schedule. All costs incurred by the contractor to implement the CPM shall be borne by the Contractor and are part of their Contract.

32. General and Special Provisions

A. Terms used in this Contract which are defined in the Conditions of the Contract shall have the meanings designated in those Conditions.

B. An enumeration of the Contractor's General Comprehensive Liability Insurance requirements appears in the General Conditions of the Contract for construction. Insurance requirements are also described in the Instructions to the Bidder section of the Project Manual. Contractor shall maintain adequate insurance in at least the maximum amounts, which the City could be liable under the New Mexico Tort Claims Act and shall provide proof of such insurance coverage to the City. It is the sole responsibility of the Contractor to comply with the law.

C. This Contract shall not become effective until: (1) approved by the Governing Body; and (2) signed by all parties required to sign this Contract.

D. The Contractor shall maintain detailed time records which indicate the date, time and nature of services rendered. These records shall be subject to inspection by the City, the Department of Finance and Administration and the State Auditor. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive illegal payments.

E. The Contractor warrants that the Contractor presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under this Contract.

F. The Contractor hereby warrants that the Contractor complies with the Americans with Disabilities Act, 29 CFR 1630.

G. Gender, Singular/Plural. Words of any gender used in this Contract shall be held and

construed to include any other gender, and words in the singular number shall be held to include the plural, unless the context otherwise requires.

H. Captions and Section Headings. The captions and section headings contained in this Contract are for convenience of reference only, and in no way limit, define, or enlarge the terms, scope, and conditions of this Contract.

I. Certificates and Documents Incorporated. All certificates and documentation required by the provisions of the Contract shall be attached to this Contract at the time of execution and are hereby incorporated by reference as though set forth in full in this Contract to the extent they are consistent with its conditions and terms.

J. Separability. If any clause or provision of this Contract is illegal, invalid or unenforceable under present or future laws effective during the term of this Contract, then and in that event, it is the intention of the parties hereto that the remainder of this Contract shall not be affected thereby.

K. Words and Phrases. Words, phrases, and abbreviations, which have well-known technical or trade meanings used in the Contract documents shall be used according to such recognized meaning. In the event of a conflict, the more stringent meaning shall govern.

L. Relationship of Contract Documents. The Contract Documents are complementary, and any requirement of one Contract Document shall be as binding as if required by all.

M. Pursuant to NMSA 1978, section 13-1-191, reference is hereby made to the Criminal Laws of New Mexico (including NMSA 1978, sections 30-14-1, 30-24-2, and 30-41-1 through 30-41-3) which prohibit bribes, kickbacks, and gratuities, violation of which constitutes a felony. Further, the Procurement Code (NMSA 1978, sections 13-1-28 through 13-1-199) imposes civil and criminal penalties for its violation.

N. Pursuant to NMSA 1978, section 13-4-11. Reference is hereby made to the Minimum Wage on Public Works; weekly payments; posting wage scale; withholding funds.

IN WITNESS WHEREOF, the Parties have executed this Contract as of the date of the signature by the required approval authorities below.

CONTRACTOR: A.A.C. Construction, LLC — **Mobilization Date:** 9/30/2024
PROJECT MANAGER: Andrew Sisneros, (505) 930-0481 — **Delivery/Completion Date:** 10/18/2024

DESCRIPTION:	**Customer Concern:** A SAS Manhole was recently dicovered and the camera revealed that the foundation of the manhole was missing and the main sewer pipe was disconnected from the manhole. The contrator is tasked to respond to the emergency and replace the manhole ASAP. A Cast In Place method was neccessary due to the close proximity of the 2 12" water pipes. An additional 12" steel pipe was encountered and the Water Division gave a directive to remove it to access the manhole work. The cut ends of the abandoned steel line were plugged with concrete. All safety standards/methods/equipment are being utilized during the excavation and backfill process.

City of Santa Fe
Emergency Determination Form

The Department that makes an emergency procurement to plan or prepare for the response to a serious threat to public health, welfare, safety or property caused by a flood, fire, epidemic, riot, act of terrorism, equipment failure or similar event shall account for the money spent in making the procurement and report on that accounting to the City's Finance Department Director within ninety days after the end of the contract or fiscal year in which the procurement was made, whichever comes first.

I. Department: _Public Utilities, **City of Santa Fe**

Department Director: John Dupuis_____

Department Contact: _P. Fred Heerbrandt, P.E.___

Department Telephone Number: 505-955-4623__

City of SF Chief Procurement Officer: **Travis Dutton-Leyda, CPO**

Telephone Number: **(505) 629-8351**

II. **Name of Contractor:** AAC Construction, LLC

Address of Contractor: 18 La Luna Road, Santa Fe, NM 87507

Amount of prospective contract: $197,469.86

Term of prospective contract: 6 Months

Location of Services: 608 Paseo de Peralta

III. **Please thoroughly list the services (scope of work), construction or items of tangible personal property of the contract:**
The contractor will excavate and remove a failing manhole within Paseo de Peralta and replace it with a new, precast concrete manhole. He will replace the pipe connections to the manhole to restore free flow through the manhole. The excavation will be backfilled and the roadway pavement restored.

IV. **Provide an explanation for the justification of the procurement including a description of the emergency condition(s) requiring use of emergency procurement and the practicable competition utilized in compliance with NMSA 1978, § 13-1-127.**
The manhole was structurally failing. A failure of the manhole would result in a sinkhole within the roadway and a likely spill and surcharging of sewage in the sewer line feeding the manhole. This failure would create a public safety as well as a public health emergency, and if sewage backed up into any service lines, it could have resulted in private civil suits for damages.

V. **Please describe what measures are being taken to minimize the duration and effect of this particular emergency procurement (for example: is the emergency only in place until a competitive process can be completed, etc.).**
The prompt replacement of the manhole will prevent the structural failure and resulting potential impacts, so that the duration of work will be as short as possible.

VI. **Describe what measures the Department will take in the future to prevent/mitigate use of emergency procurement under similar circumstances.**
The Collections group performs routine maintenance and inspection of their facilities to allow repair or replacement prior to the units reaching their end of life, but periodically they encounter a unit of the collection system that must be replaced immediately to avoid greater impacts from a failure.

WORK ORDER PRICING

A.A.C. Construction, LLC

OWNER: CITY OF SANTA FE SEWER DIVISION — **Project Contact :** Ben Sandoval, Ph: 505-955-4622
Owner's Rep.: Ben Sandoval

CONTRACTOR: A.A.C. Construction, LLC — **Mobilization Date:** 9/30/2024
PROJECT MANAGER: Andrew Sisneros, (505) 930-0481 — **Delivery/Completion Date:** 10/18/2024

DESCRIPTION:	**Customer Concern:** A SAS Manhole was recently dicovered and the camera revealed that the foundation of the manhole was missing and the main sewer pipe was disconnected from the manhole. The contrator is tasked to respond to the emergency and replace the manhole ASAP. A Cast In Place method was neccessary due to the close proximity of the 2 12" water pipes. An additional 12" steel pipe was encountered and the Water Division gave a directive to remove it to access the manhole work. The cut ends of the abandoned steel line were plugged with concrete. All safety standards/methods/equipment are being utilized during the excavation and backfill process.

CITY OF SANTA FE

Date: November 21, 2024

To: Governing Body

From: Caryn Grosse, PMP, Facilities Project Manager III

Via: Regina Wheeler, Public Works Department Director
Regina Wheeler (Nov 21, 2024 14:12 MST)
Sam Burnett, Facilities Division Director
JOHN BURNETT (Nov 21, 2024 14:10 MST)

Subject: Contract for Balanced Resources Acquisition and Information Network (BRAIN) Grid Modernization Project

Vendor Name: Paradise Power Company, Inc.

Munis Vendor Number: 9115

ACTION:
Request for Approval of a General Services Contract with Paradise Power Company, Inc., in the Total Amount of $589,730, Including NMGRT, for Implementation of the Balanced Resources Acquisition and Information Network (BRAIN) a Consolidated Energy Information Tool, with a Term Ending June 30, 2025. (Caryn Grosse, Public Works Project Manager, clgrosse@santafenm.gov)

CONTRACT NUMBER:
The FY25 Munis Contract Number is 3250276.

BACKGROUND AND SUMMARY:
Facilities Division applied for and received a $550,000 EMNRD Grid Modernization Grant to implement a Balanced Resource Acquisition and Information Network (BRAIN) for the City of Santa Fe. The BRAIN assesses and consolidates energy usage data from facilities and renewable energy generation into an intuitive, single-station control center. The tool will show real-time production and usage, provide alerts when operation parameters are not being met, incorporate billing data, produce energy reports and collect production and consumption data.

The system will help measure performance and efficiency and support optimization of building controls, energy generation resources and future storage resources.

Paradise Power Company (PPC) has proposed to install the BRAIN, via Statewide Price Agreement #20-00000-21-00029. The grant amount of $550,000 will cover a majority of the costs associated with this project, with additional funds, in the amount of $39,730.06, provided by Facilities Division to complete the project.

The Facilities Division met with the Vendor and the City's ITT Department to review this application. The ITT Department provided the Facilities Division with their approval for this project to proceed.

Implementation of the BRAIN is expected to be completed by June 30, 2025.

CITY OF SANTA FE
GENERAL SERVICES CONTRACT

GridWatch Balanced Resource Acquisition Information Network (BRAIN)

THIS CONTRACT is made and entered into by and between the City of Santa Fe, herein after referred to as the "City," and **Paradise Power Company, Inc.** herein after referred to as the "Contractor."

IT IS MUTUALLY AGREED BETWEEN THE PARTIES:

1. **Definitions**

A. "Products and Services Schedule" refers to the complete list of products and services offered under this Contract and the price for each. Product and service descriptions may be amended with the prior approval of the Contract Administrator. New products and services shall not be added to the Products and Services Schedule.

B. "Business Hours" means 8:00 a.m. to 5:00 p.m. Mountain Time.

2. **Scope of Work**

A. The Contractor shall perform the following work:

Implementation of secure, cloud-based, Balanced Resource Acquisition Information Network (BRAIN) to provide a city-wide, city-owned utility monitoring, analysis and reporting solution to assess and consolidate usage data from water, power and renewables into a single-station control center.

3. **Compensation**

Compensation Schedule. The City shall pay to the Contractor based upon fixed prices for each Deliverable, per the schedule outlined in Exhibit A, less retainage, if any, as identified in paragraph C of this Clause.

A. The total amount payable to the Contractor under this Agreement, excluding gross receipts tax and expenses, shall not exceed five hundred forty-five thousand one hundred dollars ($545,100.00) for labor and materials

B. Payment. The total compensation under this Agreement shall not exceed five hundred eighty nine thousand seven hundred thirty dollars and six cents ($589,730.06)], including New Mexico gross receipts tax. This amount is a maximum and not a guarantee that the work assigned to be performed by Contractor under this Agreement shall equal the amount stated herein. The Parties do not intend for the Contractor

to continue to provide Services without compensation when the total compensation amount is reached. Contractor is responsible for notifying the City when the Services provided under this Agreement reach the total compensation amount. In no event will the Contractor be paid for Services provided in excess of the total compensation amount without this Agreement being amended in writing prior to services, in excess of the total compensation amount being provided.

Payment shall be made upon Acceptance of each Deliverable and upon the receipt and Acceptance of a detailed, certified Payment Invoice. Payment will be made to the Contractor's designated mailing address. In accordance with Section 13-1-158 NMSA 1978, payment shall be tendered to the Contractor within thirty (30) days of the date of written certification of Acceptance. All Payment Invoices MUST BE received by the City no later than fifteen (15) days after the termination of this Agreement. Payment Invoices received after such date WILL NOT BE PAID.

C. Retainage. Not Applicable – The Parties agree there is no retainage.

D. Performance Bond. Not Applicable. The Parties agree there is no Performance Bond.

4. **Term**

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED IN WRITING BY THE CITY. This contract shall terminate **June 30, 2025.** The City reserves the right to renew this contract on an annual basis by mutual agreement not to exceed a total of ten (10) years in accordance with NMSA 1978, Sections 13-1-150 through 152.

5. **Default and Force Majeure**

The City reserves the right to cancel all, or any part of any orders placed under this contract without cost to the City, if the Contractor fails to meet the provisions of this contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of sub-contractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the sub-contractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this contract.

6. **Termination**

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor, or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice: City Opportunity to Cure.

1) The City shall give the Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2) Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3) Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph 17, "Appropriations", of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

7. **Amendment**

A. This Contract shall not be altered, changed, or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in Paragraph 7 herein, or to agree to the reduced funding.

8. **Status of Contractor**

The Contractor, and Contractor's agents and employees, are independent Contractors for the City and are not employees of the City. The Contractor, and Contractor's agents and employees, shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City because of this Contract. The Contractor acknowledges that all sums received hereunder are personally reportable by the Contractor for income tax purposes, including without limitation, self-employment tax and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has written authority to do so, and then only within the strict limits of that authority.

9. **Assignment**

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

10. **Subcontracting**

The Contractor shall not subcontract any portion of the services to be performed under this Contract without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

11. **Non-Collusion**

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City.

12. **Inspection of Plant**

The City may inspect, at any reasonable time during Contractor's regular business hours and upon prior written notice, the Contractor's plant or place of business, or any subcontractor's plant or place of business, which is related to the performance of this contract.

13. **Commercial Warranty**

The Contractor agrees that the tangible personal property or services furnished under this Contract shall be covered by the most favorable commercial warranties the Contractor gives to any customer for such tangible personal property or services, and that the rights and remedies provided herein shall extend to the City and are in addition to and do not limit any rights afforded to the City by any other clause of this order. The contractor agrees not to disclaim warranties of fitness for a particular purpose or merchantability.

14. **Condition of Proposed Items**

Where tangible personal property is a part of this Contract, all proposed items are to be NEW and of most current production, unless otherwise specified.

15. **Records and Audit**

During the term of this Contract and for three years thereafter, the Contractor shall maintain detailed records pertaining to the services rendered and products delivered. These records shall be subject to inspection by the City, the State Auditor and other appropriate state and federal authorities. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

16. **Appropriations**

The terms of this Contract, and any orders placed under it, are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the legislature, this Contract, and any orders placed under it, shall terminate upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

17. **Release**

The Contractor, upon final payment of the amount due under this Contract, releases the City, its officers, and employees, from all liabilities, claims and obligations whatsoever arising from or under this Contract. The

Contractor agrees not to purport to bind the City, unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

18. **Confidentiality**

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without prior written approval by the City.

19. **Conflict of Interest**

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract. The Contractor shall comply with any applicable provisions of the New Mexico Governmental Conduct Act and the New Mexico Financial Disclosures Act.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, Chapter 10, Article 16 NMSA 1978.

C. Contractor's representations and warranties in Paragraphs A and B of this Paragraph are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

20. **Approval of Contractor Representative(s)**

The City reserves the right to require a change in Contractor representative(s) if the assigned representative(s) are not, in the opinion of the City, adequately serving the needs of the City.

21. **Scope of Contract; Merger**

This Contract incorporates all the Agreements, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

This Contract is issued against the state or agency Master Agreement, established, and maintained by the State of New Mexico General Services Department, Purchasing Division (issuing entity), 20-00000-21-00029 Photovoltaic Systems, and through this language hereby incorporates this agreement by reference and is included in the order of precedence.

22. **Notice**

The Procurement Code, NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities, and kickbacks.

23. **Equal Opportunity Compliance**

The Contractor agrees to abide by all federal and state laws, and local Ordinances, pertaining to equal employment opportunity. In accordance with all such laws, rules, and regulations, the Contractor agrees to assure that no person in the United States shall on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

24. **Indemnification**

The Contractor shall hold the City and its employees harmless and shall indemnify the City and its employees against any and all claims, suits, actions, liabilities and costs of any kind, including attorney's fees for personal injury or damage to property arising from the acts or omissions of the Contractor, its agents, officers, employees or subcontractors. The Contractor shall not be liable for any injury or damage as a result of any negligent act or omission committed by the City, its officers or employees.

25. **New Mexico Tort Claims Act**

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

26. **Applicable Law**

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

27. **Limitation of Liability**

The Contractor's liability to the City, for any cause whatsoever shall be limited to the purchase price paid to the Contractor for the products and services that are the subject of the City's, claim. The foregoing limitation does not apply to paragraph 25 of this Contract or to damages resulting from personal injury caused by the Contractor's negligence.

28. **Incorporation by Reference and Precedence**

If this Contract has been procured pursuant to a request for proposals, this Contract is derived from (1) the request for proposal, (including any written clarifications to the request for proposals and any City response to questions); (2) the Contractor's best and final offer; and (3) the Contractor's response to the request for proposals.

In the event of a dispute under this Contract, applicable documents will be referred to for the purpose of clarification or for additional detail in the following order of precedence: (1) amendments to the Contract in reverse chronological order; (2) the Contract, including the scope of work and all terms and conditions thereof; (3) the request for proposals, including attachments thereto and written responses to questions and written clarifications; (4) the Contractor's best and final offer if such has been made and accepted by the City; and (5) the Contractor's response to the request for proposals.

29. **Workers' Compensation**

The Contractor agrees to comply with state laws and rules applicable to workers' compensation benefits for its employees. If the Contractor fails to comply with the Workers' Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

30. **Inspection**

If this contract is for the purchase of tangible personal property (goods), final inspection and acceptance shall be made at Destination. Tangible personal property rejected at Destination for non-conformance to specifications shall be removed at Contractor's risk and expense promptly after notice of rejection and shall not be allowable as billable items for payment.

31. **Inspection of Services**

If this contract is for the purchase of services, the following terms shall apply.

A. Services, as used in this Article, include services performed, workmanship, and material furnished or utilized in the performance of services.

B. The Contractor shall provide and maintain an inspection system acceptable to the City covering the services under this Contract. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the City and for as long thereafter as the Contract requires. The City has the right to inspect and test all services contemplated under this Contract to the extent practicable at all times and places during the term of the Contract. The City shall perform inspections and tests in a manner that will not unduly delay or interfere with Contractor's performance.

C. If the City performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.

D. If any part of the services do not conform with the requirements of this Contract, the City may require the Contractor to re-perform the services in conformity with the requirements of this Contract at no increase in contract amount. When the defects in services cannot be corrected by re-performance, the City may:

(1) require the Contractor to take necessary action(s) to ensure that future performance conforms to the requirements of this Contract; and

(2) reduce the contract price to reflect the reduced value of the services performed.

E. If the Contractor fails to promptly re-perform the services or to take the necessary action(s) to ensure future performance in conformity with the requirements of this Contract, the City may:

(1) by contract or otherwise, perform the services and charge to the Contractor any cost incurred by the City that is directly related to the performance of such service; or

(2) terminate the contract for default.

32. **Insurance**

If the services contemplated under this Contract will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Contract, the following insurance coverage(s), naming the City as additional insured.

A. Commercial General Liability insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. Broader Coverage and Limits. The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

C. Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

33. **Impracticality of Performance**

A party shall be excused from performance under this Contract for any period that the party is prevented from performing as a result of an act of God, strike, war, civil disturbance, epidemic, or court order, provided that the party has prudently and promptly acted to take any and all steps that are within the party's control to ensure performance. Subject to this provision, such non-performance shall not be deemed a default or a ground for termination.

34. **Invalid Term or Condition**

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

35. **Enforcement of Contract**

A party's failure to require strict performance of any provision of this Contract shall not

waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

36. **Patent, Copyright and Trade Secret Indemnification**

A. The Contractor shall defend, at its own expense, the City against any claim that any product or service provided under this Contract infringes any patent, copyright to trademark in the United States or Puerto Rico, and shall pay all costs, damages and attorneys' fees that a court finally awards as a result of any such claim. In addition, if any third party obtains a judgment against the City based upon Contractor's trade secret infringement relating to any product or services provided under this Contract, the Contractor agrees to reimburse the City for all costs, attorneys' fees and amount of the judgment. To qualify for such defense and or payment, the City shall:

1) give the Contractor prompt written notice within 48 hours of any claim;
2) allow the Contractor to control the defense of settlement of the claim; and
3) cooperate with the Contractor in a reasonable way to facilitate the defense or settlement of the claim.

B. If any product or service becomes, or in the Contractor's opinion is likely to become the subject of a claim of infringement, the Contractor shall at its option and expense:

1) provide the City the right to continue using the product or service and fully indemnify the City against all claims that may arise out of the City's use of the product or service;
2) replace or modify the product or service so that it becomes non-infringing; or,
3) accept the return of the product or service and refund an amount equal to the value of the returned product or service, less the unpaid portion of the purchase price and any other amounts, which are due to the Contractor. The Contractor's obligation will be void as to any product or service modified by the City to the extent such modification is the cause of the claim.

37. **Survival**

The Contract paragraphs titled "Patent, Copyright, Trademark, and Trade Secret Indemnification; Indemnification; and Limit of Liability" shall survive the expiration of this Contract. Software licenses, leases, maintenance and any other unexpired Agreements that were entered into under the terms and conditions of this Contract shall survive this Contract.

38. **Disclosure Regarding Responsibility**

A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty thousand dollars ($60,000.00) with any City for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Contract. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Contract. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Contract pursuant to the conditions set forth in Paragraph 7 of this Contract.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts during the term of this Contract. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

39. **Suspension, Delay or Interruption of Work**

The City may, without cause, order the Contractor, in writing, to suspend, delay or interrupt the work in whole or in part for such period of time as the City may determine. The contract sum and contract time shall be adjusted for increases in cost and/or time associated with Contractor's compliance therewith. Upon receipt of such notice, Contractor shall leave the jobsite and any equipment in a safe condition prior to departing. Contractor must assert rights to additional compensation within thirty (30) days after suspension of work is lifted and return to work is authorized. Any compensation requested for which entitlement is granted and the contract sum adjusted, shall have profit included (for work completed) and for cost only (not profit) for Contractor costs incurred directly tied to the suspension itself and not otherwise covered by Contract remedy. Any change in Total Compensation must be reflected in an Amendment executed pursuant to Section 8 of this Contract.

40. **Notification**

Either party may give written notice to the other party in accordance with the terms of this Paragraph. Any written notice required or permitted to be given hereunder shall be deemed to have been given on the date of delivery if delivered by personal service or hand delivery or three (3) business days after being mailed.

To the City:

Caryn Grosse, PMP
Project Administrator Sr
City of Santa Fe Public Works
2651 Siringo Road, Building E
PO Box 909
Santa Fe, NM 87504-0909

Exhibit A

CITY OF SANTA FE BRAIN PROPOSAL

October 3, 2024

Project Overview:

Paradise Power Company (PPC), based in Taos, NM, features the secure, cloud-based GridWatch LLC Balanced Resource Acquistion Information Network (BRAIN) to address the City of Santa Fe's (CoSF) long-term need for a city-wide, city-owned utility monitoring, analysis, and reporting solution. GridWatch assesses and consolidates usage data from every CoSF facility's water, power, and renewables into an intuitive, single-station control center.

The GridWatch BRAIN allows the CoSF to prioritize energy initiatives and measure and report to constituents, stakeholders, and other government incentivizing agencies.

Pricing and Fees:

GridWatch Implementation Cost: **$545,100.00**

- Implementation costs include labor and material required to accomplish the scope and payment milestones defined in "Attachment 1: City of Santa Fe BRAIN." The BRAIN allows existing systems to pull signals from the existing electric, gas, and water meters. The cost excludes tax, which we assume is billable and allowable.

- ***GridWatch Unlimited Software as a Service (SaaS) Use:*** **$0.00**
  Upon successful implementation, the City of Santa Fe retains the rights to use the BRAIN indefinitely with as many concurrent users it requires.

- ***Annual Maintenance and Services:*** **$0.00** (separate agreement following integration)

  GridWatch provides "Essential" annual maintenance and services to include:
  - "P1-P4" software support and escalation
  - Building additions/removal within the software
  - Administer cloud services
  - BRAIN platform bug fixes and patches

  We propose no cost for Essential maintenance for 120 days following project sign-off. Except as the parties may otherwise agree, retaining Essential annual maintenance is $69,000/year (exclusive of NMGRT) with savings available for longer-term agreements. Note: annual maintenance agreement is required to receive software support, patches, software updates, or software customizations.

PCC Solar Fee: $545,100.00
NM GRT (8.1875%): $44,630.06
Total Price: $589,730.06
The cost includes all applicable NM Statewide Price Agreement retail reductions.

Thank you for your consideration of PPC Solar for this project. We look forward to working with you and your team on this unique opportunity. Please feel free to contact me anytime with questions or for any clarifications or scope modifications.

Attachment 1:

CITY OF SANTA FE BRAIN

This proposal includes the following Execution Plan and Project Milestones:

The Balanced Resource Acquisition Information Network (BRAIN) integrates distributed energy resources to visualize utility data, usage and spend by site, department, and specified groups. The BRAIN enhances grid response/resiliency by improving and measuring building system performance/efficiency, optimizing existing building assets, and enabling adaptability of resources to interact with the modern grid.

The milestones below are not considered sequential; milestone efforts can overlap and potentially complete prior to another.

Milestone 1 – Project Kickoff

Conduct Project kickoff with an agenda to include points of contact, initial log-in permissions, approved ENTITY logos, general communication approach, issue escalation and resolution approach, milestone and milestone schedule review, milestone "completion state" alignment, and other administrative project management topics as identified.

Completion State: Project Kickoff meeting conducted.

Milestone 2 – Billing Data Correlation and API Portal Data Assessment

Billing Data Correlation: Query and identify facility information necessary for appropriate BRAIN functionality. Information to identify includes but not limited to:

Building / Facility Name	Existing Facility/Equipment Monitoring Software
Building / Facility Organization/Dept.	Issue notification methodology
Physical and Billing Address	Utility Providers (all)
Own, Lease, or Other (Status)	Utility Bills (historical thru current)
Current Facility Energy Assets	Facility Accounts (all)
Existing Controls if Applicable	Mechanical system

API Portal Data Assessment: Determine data available through each API's portal. Potential portals can include mechanical systems, solar systems, EV charger systems, and others.

Completion State: Facility information collected for each building and API available portal data known from each portal source.

Milestone 3 – Billing Data Configuration, Initial BRAIN Structure, and Billing Account Data Integration

Applying information identified during Milestone 2, specific tasks and BRAIN functionality created for Milestone 3 include:

- Create "Landing Page" with standard BRAIN "Widgets." ENTITY branding applied.
- Create "Public Interface Page" with standard BRAIN content, accessible to public without Login.

- Complete "Facility Mapping" (note: a facility can consist of multiple buildings and/or multiple meters), representing each facility on a map, along with appropriate standard "group" icon. Facility map includes standard BRAIN widgets/icons.
- Complete "Facility Grouping" – categorize each facility into a collection of like-type facilities (all police facilities become a "group," for example). Must appropriately define and assign groups.
- Initiate "Facility Dashboards" – each facility receives its own page to include standard BRAIN display and information: overhead (satellite) view of mapped facility; electric, gas, water, and solar usage/spend charts based on historical/most current provided billing data; standard filters; and standard BRAIN widgets. Note, billing data display not functional until completion of Milestone 4 activities below.
- Provide User Access – assumes two permission levels for access: Read Only and Read/Write. Must identify personnel and access level.

Billing Data Processing

Specific tasks and BRAIN functionality for Milestone 3 include:

- Provide utility bill upload automation and user training to manage and upload bills without intervention (automate). Work with utility providers to present billing data in a standard BRAIN-configured Excel (.csv) format.
- Display utility spend/usage/historical billing data on each Facility Dashboard.
- Display utility spend/usage/historical billing data for each group.
- Create "Facility Information" standard file structure allowing ENTITY to post files associated with an individual facility.
- Provide "Facility Comparison" standard functionality, allowing energy consumption comparison between buildings in the same group.
- Create "Data Export" report capability – standard PDF file summarizing utility spend/usage by group or facility.
- Provide "Building Performance" – measurements based on DOE calculations.
- Provide "Building Systems" – display existing systems for each facility to ease navigation

Completion State: Observe and confirm Milestone 3 functionality.

Milestone 4 – API/Real-time Electric Usage Integration

Specific tasks and BRAIN functionality and eGauge installation includes:

- BRAIN pulls appropriate data from each existing API portal and incorporates into current BRAIN configuration to analyze and display (no custom programming).
- Supply and install at main breaker eGauge core meter/data logger/server with necessary routing hardware (up to eight hardware installations). GridWatch procures equipment warrantees; PPC performs eGauge hardware installation.

Milestone 4 assumes:

- City of Santa Fe provides all Third-Party Consents for PPC/GW to log in to City of Santa Fe third-party software (API) providers. City of Santa Fe will also facilitate and/or allow direct communication from PPC/GW to third-party software (API) providers if needed.
- PPC/GW granted full access to all Client Data from relevant third party (API) vendors.

Completion State: Observe and confirm software functionality for APIs described above and eGauge hardware installed.

Milestone 5 – Alerting and Reporting / Real-time Electric Data Validation

Specific tasks and BRAIN functionality for Milestone 6 include:

- Provide an alert via standard icon on the Alert Map and Facility Table with alert management.
- Provide "Basic" alerts based on analysis of historical usage data against a ENTITY-provided threshold.
- Provide "Advanced" alerts from APIs based on email notifications originating from capable and available third-party software.
- Onboard eGauge data to BRAIN and integrate to support data reporting

Completion State: Observe and confirm BRAIN functionality described above.

Milestone 6 – Project Sign-off

Specific tasks and BRAIN functionality for Milestone 7 include:

- Formal event validating all functionality described in Milestones 1-6 above.

Completion State: Observe and concur integration complete.

Additional Contribution

- One eGauge core meter/data logger/server unit and installation at main facility breaker
- One Dell 75 4K interactive touch monitor or equivalent and installation (unless City must install its own office equipment)

Assumption/Exclusions:

1. GridWatch assumes the data provided for the BRAIN is accurate as provided
2. Any efforts in addition to those described in Attachment 1
3. Liability for existing controls and equipment
4. Startup and commissioning existing third-party controls and/or equipment
5. Permits or performance and/or payment bonds; priced separately if/when required
6. Hardware procurement and/or installation except as described
7.

Payment Milestones:

	PRICE	NMGRT	TOTAL PRICE
Project Kickoff	$143,750.00	$11,769.53	$155,519.53
Billing Data Correlation and API Portal Data Assessment	$86,250.00	$7,061.72	$93,311.72
Billing Data Configuration, Initial BRAIN Structure, and Billing Account Data Integration	$115,000.00	$9,415.63	$124,415.63
API/Real-time Electric Usage Integration	$149,500.00	$12,240.31	$161,740.31
Alerting and Reporting / Real-time Electric Data Validation	$39,100.00	$3,201.31	$42,301.31
Project Sign-off (withhold)	$11,500.00	$941.56	$12,441.56
TOTAL	**$545,100.00**	**$44,630.06**	**$589,730.06**

CITY OF SANTA FE BRAIN PROPOSAL

October 3, 2024

Project Overview:

Paradise Power Company (PPC), based in Taos, NM, features the secure, cloud-based GridWatch LLC Balanced Resource Acquistion Information Network (BRAIN) to address the City of Santa Fe's (CoSF) long-term need for a city-wide, city-owned utility monitoring, analysis, and reporting solution. GridWatch assesses and consolidates usage data from every CoSF facility's water, power, and renewables into an intuitive, single-station control center.

The GridWatch BRAIN allows the CoSF to prioritize energy initiatives and measure and report to constituents, stakeholders, and other government incentivizing agencies.

Pricing and Fees:

GridWatch Implementation Cost: **$545,100.00**

- Implementation costs include labor and material required to accomplish the scope and payment milestones defined in "Attachment 1: City of Santa Fe BRAIN." The BRAIN allows existing systems to pull signals from the existing electric, gas, and water meters. The cost excludes tax, which we assume is billable and allowable.

- ***GridWatch Unlimited Software as a Service (SaaS) Use:*** **$0.00**
  Upon successful implementation, the City of Santa Fe retains the rights to use the BRAIN indefinitely with as many concurrent users it requires.

- ***Annual Maintenance and Services:*** **$0.00** (separate agreement following integration)

  GridWatch provides "Essential" annual maintenance and services to include:
  - "P1-P4" software support and escalation
  - Building additions/removal within the software
  - Administer cloud services
  - BRAIN platform bug fixes and patches

  We propose no cost for Essential maintenance for 120 days following project sign-off. Except as the parties may otherwise agree, retaining Essential annual maintenance is $69,000/year (exclusive of NMGRT) with savings available for longer-term agreements. Note: annual maintenance agreement is required to receive software support, patches, software updates, or software customizations.

PCC Solar Fee: $545,100.00
NM GRT (8.1875%): $44,630.06
Total Price: $589,730.06
The cost includes all applicable NM Statewide Price Agreement retail reductions.

Thank you for your consideration of PPC Solar for this project. We look forward to working with you and your team on this unique opportunity. Please feel free to contact me anytime with questions or for any clarifications or scope modifications.

Attachment 1:

CITY OF SANTA FE BRAIN

This proposal includes the following Execution Plan and Project Milestones:

The Balanced Resource Acquisition Information Network (BRAIN) integrates distributed energy resources to visualize utility data, usage and spend by site, department, and specified groups. The BRAIN enhances grid response/resiliency by improving and measuring building system performance/efficiency, optimizing existing building assets, and enabling adaptability of resources to interact with the modern grid.

The milestones below are not considered sequential; milestone efforts can overlap and potentially complete prior to another.

Milestone 1 – Project Kickoff

Conduct Project kickoff with an agenda to include points of contact, initial log-in permissions, approved ENTITY logos, general communication approach, issue escalation and resolution approach, milestone and milestone schedule review, milestone "completion state" alignment, and other administrative project management topics as identified.

Completion State: Project Kickoff meeting conducted.

Milestone 2 – Billing Data Correlation and API Portal Data Assessment

Billing Data Correlation: Query and identify facility information necessary for appropriate BRAIN functionality. Information to identify includes but not limited to:

Building / Facility Name	Existing Facility/Equipment Monitoring Software
Building / Facility Organization/Dept.	Issue notification methodology
Physical and Billing Address	Utility Providers (all)
Own, Lease, or Other (Status)	Utility Bills (historical thru current)
Current Facility Energy Assets	Facility Accounts (all)
Existing Controls if Applicable	Mechanical system

API Portal Data Assessment: Determine data available through each API's portal. Potential portals can include mechanical systems, solar systems, EV charger systems, and others.

Completion State: Facility information collected for each building and API available portal data known from each portal source.

Milestone 3 – Billing Data Configuration, Initial BRAIN Structure, and Billing Account Data Integration

Applying information identified during Milestone 2, specific tasks and BRAIN functionality created for Milestone 3 include:

- Create "Landing Page" with standard BRAIN "Widgets." ENTITY branding applied.
- Create "Public Interface Page" with standard BRAIN content, accessible to public without Login.

- Complete “Facility Mapping” (note: a facility can consist of multiple buildings and/or multiple meters), representing each facility on a map, along with appropriate standard “group” icon. Facility map includes standard BRAIN widgets/icons.
- Complete “Facility Grouping” – categorize each facility into a collection of like-type facilities (all police facilities become a “group,” for example). Must appropriately define and assign groups.
- Initiate “Facility Dashboards” – each facility receives its own page to include standard BRAIN display and information: overhead (satellite) view of mapped facility; electric, gas, water, and solar usage/spend charts based on historical/most current provided billing data; standard filters; and standard BRAIN widgets. Note, billing data display not functional until completion of Milestone 4 activities below.
- Provide User Access – assumes two permission levels for access: Read Only and Read/Write. Must identify personnel and access level.

Billing Data Processing

Specific tasks and BRAIN functionality for Milestone 3 include:

- Provide utility bill upload automation and user training to manage and upload bills without intervention (automate). Work with utility providers to present billing data in a standard BRAIN-configured Excel (.csv) format.
- Display utility spend/usage/historical billing data on each Facility Dashboard.
- Display utility spend/usage/historical billing data for each group.
- Create “Facility Information” standard file structure allowing ENTITY to post files associated with an individual facility.
- Provide “Facility Comparison” standard functionality, allowing energy consumption comparison between buildings in the same group.
- Create “Data Export” report capability – standard PDF file summarizing utility spend/usage by group or facility.
- Provide “Building Performance” – measurements based on DOE calculations.
- Provide “Building Systems” – display existing systems for each facility to ease navigation

Completion State: Observe and confirm Milestone 3 functionality.

Milestone 4 – API/Real-time Electric Usage Integration

Specific tasks and BRAIN functionality and eGauge installation includes:

- BRAIN pulls appropriate data from each existing API portal and incorporates into current BRAIN configuration to analyze and display (no custom programming).
- Supply and install at main breaker eGauge core meter/data logger/server with necessary routing hardware (up to eight hardware installations). GridWatch procures equipment warrantees; PPC performs eGauge hardware installation.

Milestone 4 assumes:

- City of Santa Fe provides all Third-Party Consents for PPC/GW to log in to City of Santa Fe third-party software (API) providers. City of Santa Fe will also facilitate and/or allow direct communication from PPC/GW to third-party software (API) providers if needed.
- PPC/GW granted full access to all Client Data from relevant third party (API) vendors.

Completion State: Observe and confirm software functionality for APIs described above and eGauge hardware installed.

Milestone 5 – Alerting and Reporting / Real-time Electric Data Validation

Specific tasks and BRAIN functionality for Milestone 6 include:

- Provide an alert via standard icon on the Alert Map and Facility Table with alert management.
- Provide "Basic" alerts based on analysis of historical usage data against a ENTITY-provided threshold.
- Provide "Advanced" alerts from APIs based on email notifications originating from capable and available third-party software.
- Onboard eGauge data to BRAIN and integrate to support data reporting

Completion State: Observe and confirm BRAIN functionality described above.

Milestone 6 – Project Sign-off

Specific tasks and BRAIN functionality for Milestone 7 include:

- Formal event validating all functionality described in Milestones 1-6 above.

Completion State: Observe and concur integration complete.

Additional Contribution

- One eGauge core meter/data logger/server unit and installation at main facility breaker
- One Dell 75 4K interactive touch monitor or equivalent and installation (unless City must install its own office equipment)

Assumption/Exclusions:

1. GridWatch assumes the data provided for the BRAIN is accurate as provided
2. Any efforts in addition to those described in Attachment 1
3. Liability for existing controls and equipment
4. Startup and commissioning existing third-party controls and/or equipment
5. Permits or performance and/or payment bonds; priced separately if/when required
6. Hardware procurement and/or installation except as described
7.

Payment Milestones:

	PRICE	NMGRT	TOTAL PRICE
Project Kickoff	$143,750.00	$11,769.53	$155,519.53
Billing Data Correlation and API Portal Data Assessment	$86,250.00	$7,061.72	$93,311.72
Billing Data Configuration, Initial BRAIN Structure, and Billing Account Data Integration	$115,000.00	$9,415.63	$124,415.63
API/Real-time Electric Usage Integration	$149,500.00	$12,240.31	$161,740.31
Alerting and Reporting / Real-time Electric Data Validation	$39,100.00	$3,201.31	$42,301.31
Project Sign-off (withhold)	$11,500.00	$941.56	$12,441.56
TOTAL	**$545,100.00**	**$44,630.06**	**$589,730.06**

Statewide Price Agreement Amendment

Awarded Vendor:
8 Vendors

Number**: 20-00000-21-00029**

Amendment No.**: Two**

Term**: February 13, 2022 – February 12, 2025**

Ship To:
All State of New Mexico agencies, commissions, institutions, political subdivisions and local public bodies allowed by law.

Invoice:
As Requested at Time of Order

Procurement Specialist**: James Ortega**

Telephone No.**: (505) 795-2516**

Email: **james.ortega@gsd.nm.gov**

Title**: Photovoltaic (Solar Electric) Systems**

This amendment is to be attached to the respective Price Agreement and become a part thereof.

In accordance with Price Agreement provisions, and by mutual agreement of all parties, this Price Agreement is extended from February 13, 2024 to February 12, 2025 at the same price, terms and conditions.

Except as modified by this amendment, the provisions of the Price Agreement shall remain in full force and effect.

Accepted for the State of New Mexico

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

- You have read this Electronic Record and Signature Disclosure (ERSD); and
- You can print this ERSD on paper, or you can save and/ or send this ERSD to a location where you can print this ERSD, for your future reference and access; and
- Until or unless you notify SPD as stated in this ERSD, you consent to exclusively receive through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by SPD during the course of your electronic signature relationship with SPD.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a $1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: *GSD.SPDinfo@state.nm.us*

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at *GSD.SPDinfo@state.nm.us* and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a $1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to *GSD.SPDinfo@state.nm.us* and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:
https://support.docusign.com/guides/signer-guide-signing-system-requirements

K. Acknowledging your access and consent to receive and sign documents electronically

To confirm that you are able to electronically access the information contained in this Electronic Record and Signature Disclosure (ERSD), please confirm that you have: (1) read this ERSD, and either: (2) you are able to print on paper or electronically save this ERSD for your future reference and access; or (3) you are able to email this ERSD to an email address where you will be able to print this ERSD on paper and/or save this ERSD for your future reference and access. Further, if you consent to receiving notices and disclosures from DocuSign and/or SPD exclusively in electronic format, then select the check-box next to "I agree to use electronic records and signatures," before you click "CONTINUE" within the DocuSign system.

By selecting the check-box next to "I agree to use electronic records and signatures," you confirm that:

- You have read this Electronic Record and Signature Disclosure (ERSD); and
- You can print this ERSD on paper, or you can save and/ or send this ERSD to a location where you can print this ERSD, for your future reference and access; and
- Until or unless you notify SPD as stated in this ERSD, you consent to exclusively receive through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by SPD during the course of your electronic signature relationship with SPD.

Accepted for the State of New Mexico

Valerie Paulk

Date: 2/8/2022

Mark Hayden, New Mexico State Purchasing Agent

x **This Agreement was signed on behalf of the State Purchasing Agent**

DocuSign Envelope ID: DD2E30CC-E180-4FFA-AEAE-7AA3BF8F552E

Terms and Conditions

(Unless otherwise specified)

1. **General:** When the State Purchasing Agent or his/her designee issues a purchase document in response to the Vendor's bid, a binding contract is created.

2. **Variation in Quantity:** No variation in the quantity of any item called for by this order will be accepted unless such variation has been caused by conditions of loading, shipping, packing or allowances in manufacturing process and then only to the extent, if any, specified in this order.

3. **Assignment:**

a. Neither the order, nor any interest therein, nor any claim thereunder, shall be assigned or transferred by the Vendor, except as set forth in Subparagraph 3b or as expressly authorized in writing by the State Purchasing Agent or his/her designee. No such assignment or transfer shall relieve the Vendor from the obligations and liabilities under this order.

b. Vendor agrees that any and all claims for overcharge resulting from antitrust violations which are borne by the State as to goods, services, and materials purchased in connection with this bid are hereby assigned to the State.

4. **State Furnished Property:** State furnished property shall be returned to the State upon request in the same condition as received except for ordinary wear, tear and modifications ordered hereunder.

5. **Discounts:** Prompt payment discounts will not be considered in computing the low bid.

6. **Inspection:** Final inspection and acceptance will be made at the destination. Supplies rejected at the destination for nonconformance with specifications shall be removed at the Vendor's risk and expense, promptly after notice of rejection.

7. **Inspection of Plant:** The State Purchasing Agent or his/her designee may inspect, at any reasonable time, the part of the Contractor's, or any subcontractor's plant or place of business, which is related to the performance of this contract.

8. **Commercial Warranty:** The Vendor agrees that the supplies or services furnished under this order shall be covered by the most favorable commercial warranties the Vendor gives for such to any customer for such supplies or services. The rights and remedies provided herein shall extend to the State and are in addition to and do not limit any rights afforded to the State by any other clause of this order. **Vendor agrees not to disclaim warranties of fitness for a particular purpose of merchantability.**

9. **Taxes:** The unit price shall exclude all state taxes.

10. **Packing, Shipping and Invoicing:**

a. The State's purchasing document number and the Vendor's name, user's name and location shall be shown on each packing and delivery ticket, package, bill of lading and other correspondence in connection with the shipments. The user's count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing ticket.

b. The Vendor's invoice shall be submitted duly certified and shall contain the following information: order number, description of supplies or services, quantities, unit price and extended totals. Separate invoices shall be rendered for each and every complete shipment.

c. Invoices must be submitted to the using agency and NOT the State Purchasing Agent.

11. **Default:** The State reserves the right to cancel all or any part of this order without cost to the State, if the Vendor fails to meet the provisions of this order and, except as otherwise provided herein, to hold the Vendor liable for any excess cost occasioned by the State due to the Vendor's default. The Vendor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Vendor, such causes include but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the State shall determine that the supplies or services to be furnished by

DocuSign Envelope ID: DD2E30CC-E180-4FFA-AEAE-7AA3BF8F552E

the subcontractor were obtainable from other sources in sufficient time to permit the Vendor to meet the required delivery scheduled. The rights of the State provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this order.

12. **Non-Collusion:** In signing this bid the Vendor certifies he/she has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the State Purchasing Agent or his/her designee.

13. **Nondiscrimination:** Vendor doing business with the State of New Mexico must be in compliance with the Federal Civil Rights Act of 1964 and Title VII of the Act (Rev. 1979) and the Americans with Disabilities Act of 1990 (Public Law 101-336).

14. **The Procurement Code:** Sections 13-1-28 through 13-1-199 NMSA 1978, imposes civil and criminal penalties for its violation. In addition the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

15. **Items:** All bid items are to be NEW and of most current production, unless otherwise specified.

16. **Payment for Purchases:** Except as otherwise agreed to: late payment charges may be assessed against the user state agency in the amount and under the conditions set forth in Section 13-1-158 NMSA 1978.

17. **Workers' Compensation:** The Contractor agrees to comply with state laws and rules pertaining to Workers' Compensation benefits for its employees. If the Contractor fails to comply with Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the contracting agency.

18. **Submission of Bid:** Bids must be submitted in a sealed envelope with the bid number and opening date clearly indicated on the bottom left hand side of the front of the envelope. Failure to label bid envelope will necessitate the premature opening of the bid in order to identify the bid number.

19. **Contractor Personnel**: Personnel proposed in the Contractor's written bid to the Procuring Agency are considered material to any work performed under this Price Agreement. Once a Purchase Order or contract has been executed, no changes of personnel will be made by the Contractor without prior written consent of the Procuring Agency. Replacement of any Contractor personnel, if approved, shall be with personnel of equal ability, experience, and qualifications. The Contractor will be responsible for any expenses incurred in familiarizing the replacement personnel to insure their being productive to the project immediately upon receiving assignments. Approval of replacement personnel shall not be unreasonably withheld. The Procuring Agency shall retain the right to request the removal of any of the Contractor's personnel at any time.

20. **Subcontracting:** The Contractor shall not subcontract any portion of the Price Agreement without the prior written approval of the Procuring Agency. No such subcontracting shall relieve the Contractor from its obligations and liabilities under this Price Agreement, nor shall any subcontracting obligate payment from the Agency.

21. **Records and Audit:** The Contractor shall maintain detailed time and expenditure records that indicate the date, time, nature, and cost of services rendered during this Price Agreement's term and effect, and retain them for a period of three (3) years from the date of final payment under this Price Agreement. The records shall be subject to inspection by the Agency, State Purchasing Division, Department of Finance and Administration, and for Information Technology contracts, State Chief Information Officer. The Agency shall have the right to audit billings, both before and after payment. Payment for services under this Price Agreement shall not foreclose the right of the Agency to recover excessive or illegal payments.

22. **Subcontracts:** The foregoing requirements for Contractor Personnel, Subcontracting, and Audit shall be inserted into all subcontracts from the prime contractor to the subcontractor.

New Mexico Employees Health Coverage

A. If Contractor has, or grows to, six (6) or more employees who work, or who are expected to work, an average of at least 20 hours per week over a six (6) month period during the term of the contract, Contractor certifies, by signing

DocuSign Envelope ID: DD2E30CC-E180-4FFA-AEAE-7AA3BF8F552E

this agreement, to have in place, and agrees to maintain for the term of the contract, health insurance for its New Mexico Employees and offer that health insurance to its New Mexico Employees if the expected annual value in the aggregate of any and all contracts between Contractor and the State exceeds $250,000 dollars.

B. Contractor agrees to maintain a record of the number of its New Mexico Employees who have (a) accepted health insurance; (b) declined health insurance due to other health insurance coverage already in place; or (c) declined health insurance for other reasons. These records are subject to review and audit by a representative of the state.

C. Contractor agrees to advise all of its New Mexico Employees of the availability of State publicly financed health care coverage programs by providing each of its New Mexico Employees with, as a minimum, the following web site link to additional information: https://bewellnm.com.

D. For purposes of this Paragraph, the following terms have the following meanings:

(1) "New Mexico Employee" means any resident of the State of New Mexico employed by Contractor who performs the majority of the employee's work for Contractor within the State of New Mexico, regardless of the location of Contractor's office or offices; and

(2) "offer" means to make available, without unreasonable restriction, enrollment in one or more health coverage plans and to actively seek and encourage participation in order to achieve the goals of Executive Order 2007-049. This could include State publicly financed public health coverage programs such as *Insure New Mexico!*

Statewide Price Agreement

Article I – Statement of Work
Under the terms and conditions of this Price Agreement all State of New Mexico agencies, commissions, institutions, political subdivisions and local public bodies allowed by law may issue orders for items and/or services described herein. The terms and conditions of this Price Agreement shall form a part of each order issued hereunder.

The items and/or services to be ordered shall be as listed under Article IX - Price Schedule. All orders issued hereunder will bear both an order number and this Price Agreement number. It is understood that no guarantee or warranty is made or implied by the New Mexico State Purchasing Agent, his/her designee or the user that any order for any definite quantity will be issued under this Price Agreement. The Contractor is required to accept the order and furnish the items and/or services in accordance with the articles contained hereunder for the quantity of each order.

Article II – Term
The term of this Price Agreement, for issuance of orders, shall be as indicated in the specifications.

Article III – Specifications
Items and/or services furnished hereunder shall conform to the requirements of specifications and/or drawings applicable to items listed under Article IX-Price Schedule. Orders issued against this schedule will show the applicable Price Agreement item(s), number(s), and price(s); however they may not describe the item(s) fully.

Article IV – Shipping and Billing Instructions
Contractor shall ship in accordance with the following instructions: Shipment shall be made only against specific orders which the user may place with the Contractor during the term; The Contractor shall enclose a packing list with each shipment listing the order number, price agreement number and the commercial parts number (if any) for each item; Delivery shall be made as indicated on page1. If vendor is unable to meet stated delivery the State Purchasing Agent or his/her designee must be notified.

Article V – Termination
The Agency may terminate this Agreement for convenience or cause. The Contractor may only terminate this Agreement based upon the Agency's uncured, material breach of this Agreement. Contractor shall give Agency written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the Agency's material breaches of this Agreement upon which the termination is based and (ii) state what the Agency must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the Agency does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30)

DocuSign Envelope ID: DD2E30CC-E180-4FFA-AEAE-7AA3BF8F552E

days, the Agency does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach. Termination of this Contract, however, shall not affect any outstanding orders. This provision is not exclusive and shall not waive other rights and remedies afforded either party in the event of breach of contract or default. In such instances the contract may be cancelled effective immediately.

Article VI – Amendment
This Price Agreement may be amended by mutual agreement of the New Mexico State Purchasing Agent or his/her designee and the Contractor upon written notice by either party to the other. An amendment to this Price Agreement shall not affect any outstanding orders issued prior to the effective date of the amendment as mutually agreed upon, and as published by the New Mexico State Purchasing Agent or his/her designee. Amendments affecting price adjustments and/or the extension of a price agreement expiration date are not allowed unless specifically provided in the bid and price agreement specifications.

Article VII – Indemnity Clause
Contractor shall indemnify and hold harmless the State, its officers and employees, against liability, claims, damages, losses or expenses arising out of bodily injury to persons or damage to properties caused by, or resulting from Contractor's, and/or its employees, own negligent act or omission while Contractor, and/or its employees, perform or fails to perform its obligations and duties under the Terms and Conditions of this agreement. This save harmless and indemnification clause is subject to the immunities, provisions, and limitations of the Tort Claims Act (Section 41-4-1, et seq., N.M.S.A. 1978 comp. and Section 57-7-1 N.M.S.A. 1878 comp. and any amendments thereto.

It is specifically agreed between the parties executing this agreement that it is not intended by any of the provisions of any part of the agreement to create in the public or any member thereof a third party beneficiary or to authorize anyone not a party to the agreement to maintain a suit(s) for wrongful death(s), bodily and/ or personal injury(s) to person(s), damage(s) to property(ies) and/or any other claim(s) whatsoever pursuant to the provisions of this agreement.
Vendor shall provide all insurance necessary to employees on the work site, including but not limited to Worker's Compensation.

Article VIII – Issuance or Orders
Only written signed orders are valid under this Price Agreement.

Article IX – Packing (if applicable)
Packing shall be in conformance with standard commercial practices.

Article X – Price Schedule
Prices as listed in the price schedule hereto attached are firm.

Subject: RE: SOW Determination - BRAIN Grid Modernization
Date: Tuesday, October 1, 2024 11:02:34 AM
Attachments: image003.png

Greetings,

The scope of work as written would be General Services. This determination relates only to that question and is no comment on whether the scope of work or procurement method meet all legal standards. I reserve the right to change this determination if the scope of work differs from the scope of work submitted for the original determination. This procurement must be conducted using the processes and procedures set forth by the City of Santa Fe, Central Purchasing, the Procurement Manual, and state statutes.

Please note:

- Save this email as a PDF and upload it into the corresponding Munis records.
- Check with WorkQuest dba Horizons of New Mexico (vendor # 8673) (mloehman@horizonsofnewmexico.org) if this service appears on their approved list.
- If your request includes anything that needs to be reviewed and preapproved by another city Department/Division, please send your SOW to the corresponding email address, and provide their response to this office when you submit your procurement request for processing.
  -IT components - ereview@santafenm.gov
  -Vehicles – dmjaramillo@santafenm.gov
  -Grants - mtbonifer@santafenm.gov; cmthompson@santafenm.gov
  -Facilities, Furniture, Fixture, Equipment - jsburnett@santafenm.gov_
  -Emergency Related Purchases - bgwilliams@santafenm.gov
  -Asset over $5k - lmstorey@santafenm.gov

- Ensure that the appropriate templates and forms are used https://intranet.santafenm.gov/finance_1 and documented procedures/laws/rules are followed. _
- > $20k per year, when processing this procurement, please ensure the procurement number issued by Munis and the procurement name are used in the appropriate documents and the subject of emails.
- If you are processing a procurement where the forecasted amount is =/> $60k, per NMSA 1978, Section 13-1-102, the procurement method must be ITB (if you choose not to use a cooperative or an existing contract). If you feel you need to process an RFP, you must get an Authorization and Plan approved before you process.
- < $20k per year, one quote is acceptable.
  From $20k to $60k per year, if you aren't using a cooperative or existing contract,

you'll need to provide 3 quotes in your req. Must use the Munis Bid Module after 12/21/2023.

- Please keep this as part of the procurement file for future reference.
- Figure out your funding source and **inform Purchasing**. To ensure that the proper documents and language are used, it is important to identify the funding source for the subsequent contract. For instance, if federal funds are involved, the procurement request and subsequent contract must include the necessary federal language. Therefore, it is crucial to determine the funding source beforehand.
- Please review the pages linked below to determine whether any of the existing contracts/price agreements or cooperative agreements are applicable to this request. You might be able to use an existing price agreement to save time and money.
    - https://www.generalservices.state.nm.us/state-purchasing/statewide-price-agreements/ (if you choose to use a Statewide, you do not need to ask Horizons if they can do the work. State Purchasing must offer the SOW to Horizons prior to placing the award on their website.)

Subject: SOW Determination - BRAIN Grid Modernization

Good morning,

Facilities Division is requesting a SOW determination for the following:

> Implementation of secure, cloud-based, Balanced Resource Acquisition Information Network (BRAIN) to provide a city-wide, city-owned utility monitoring, analysis and reporting solution to assess and consolidate usage data from water, power and renewables into a single-station control center, using GridWatch Software as a Service (SaaS).

Mahalo!

Best,
Elizabeth "Lisa" Kahahane
Contracts Administrator | Facilities Division | Public Works Dept.

Pre-screening questions for Software/Solution Replacement Request

Information about the Existing System/Solution:

1. Name of the solution you are trying to replace N/A - move to next page
   (version/module)_____
2. Number of current users_____
3. Who is responsible for updating / troubleshooting the current solution?
   - ☐ ITT Representative (division/position/name/contact info): _____
   - ☐ Vendor (name / contact info): _____
   - ☐ City Department's representative (name/contact info): _____
   - ☐ 3rd Party Contractor (name/contact info): _____
   - ☐ Other: (Company/name/contact/allocated hours/mo): _____

     _____
4. Is the current system hosted in the cloud or locally by the City:
   - ☐ Hosted on ITT servers (name and location): _____
   - ☐ Hosted on Cloud (provider name and link): _____
5. What are main features you are utilizing with the current software:

   _____

   _____
6. Describe the limitations of the current software that new proposed solution will remedy:

   _____

   _____
7. What is the extent of the data that will be transferred to the new solution from the current solution:
   - ☐ All the data will be transferred and deleted from existing accounts;
   - ☐ Only partial/or no data will be transferred, and the data will be backed up into local drive. (where?)_____
   - ☐ No data will be transferred and backed up, and

8. Will there need to be an archival copy of the current solution maintained?
   - ☐ Yes (if yes – by who, and how long):_____
   - ☐ No
   - ☐ Uknown (specify): _____

Information about the Proposed System/Solution:

9. Name of the solution/software you are interested in purchasing: Brain / GridWatch
   (version/module): Customizable interfaith impact public works and public utilities, solar and other utilities production to monitor power use
10. What is the goal of the requested application? Energy consumption tracking and alerting
11. Number of users that will be utilizing the system and will need licenses: TBD - Unlimited
12. How many users will be covered by current quote?: Unlimited under 1 thousand, mainly for admins
13. Single sign on – is this solution capable of:
    - ☐ Azure Entra ID SAML
    - ☐ Azure Entra ID OAUTH2
    - ■ Other SSO: 2 factor authentication, not Azure, user will receive email w
14. Will the new solution be hosted:
    - ☐ Locally (address): _____
    - ■ or in the Cloud (address): United states, central data center for Google
15. Will the updates to the new system/solution be performed by:
    - ☐ City staff (Name/position/division): _____
    - ■ or the Vendor (assigned staff): Vendor (contact info #21)
16. What existing IT systems, if any, does this solution need to connect to?:
    - ☐ Email
    - ■ Network
    - ☐ GIS portal/databases* _____if yes answer GIS Module

    (specify) They will use API's to access the systems, and need some portals opened as per future discussion
17. Who will be responsible for installing and configuring the new solution and transferring existing data from the current solution?
    - ☐ ITT Representative (division/name/contact info):_____
    - ■ Vendor (name / contact info): Vendor Contact Info #21: Will work with access to other utilities systems
    - ■ City Department's representative (name/contact info): _____
    - ☐ 3rd Party Contractor (name/contact info): _____
    - ☐ Other: (Company/name/contact/allocated hours/mo): _____
18. What is the estimated timeframe for standing up this new solution, and transferring from the current solution to the new solution?

Unknown	Under 3 months	3 to 6 months	6-12 months	More than 1 yrs	Other:
☐	☐	✔	☐	☐	

Planning to lunch by mid December, have to be set up by June 30th(end of grant)

19. How or who handles any requests for support for the requested application?
Vendor and designated City Staff

20. What level of support is provided by the vendor for this new system/solution, and what are the applicable SLAs?

No Vendor Support ☐	Limited to # hours: _____ ☐	Unlimited Business Hours ☐	Unlimited 24/7 ☑	Other: Priority based response systems

Please include Service Level Agreement details_____

21. Vendors contact information for technical questions regarding this new solution:
Matt Hendrickson, CEO, GridWatch Energy Management Systems, matt.hendrickson@gridwatchems.com, 520-369-9664,
Gary Gunthorpe, Paradise Power Company,gary@ppcsolar.com, 505-395-2244, or gary@gridwatchems.com

22. Does the requested application require any specific browser, plugin, security setting, network setting, hardware or setting?
Will need access to certain systems, servers, cloud to cloud level, not on perm level, they will need top reach to ITT to open some of the firewalls.

23. Is there different level of access to the requested application? If so, how is access handled?
Admin, role, read role for reports, for mobile only users, group based permissions

ITT GIS Discovery questions

24. Will you require APA/Map service? N/A

25. Who is your City GIS Contact?:_____

26. List of data needed for map service: will not use GIS Services or layers, maps are based on Google Maps

27. Is there a data that needs to be reconciled back into City GIS databases?:_____

28. Will you need City GIS Team to create you field app/ dashboards/ additional services? _____

29. Will you require City's Esri Licenses and how many?: _____

30. Will this affect City's ESRI service agreement in any way?: _____

For ITT Only (End of discovery results):

A. Will this implementation require ITT resources?

☐ Yes (*) ☑ No

B. Will this implementation and management require ITT staff hours?

☑ Yes (*) ☐ No

C. Was the requested software vetted by ITT Security officer?

☑ Yes ☐ No (*)

D. Does the requested solution have Single Sign enabled?

☑ Yes ☐ No (*)

E. Are the deliverables for this solution already exist in City's EAS Library (or is this solution can be substituted by existing City of Santa Fe solution?)

☐ Yes (*) ☑ No

Request Approved? ■ **Yes** ☐ **No** (requires CCB)

CITY OF SANTA FE

Memorandum

Date: December 3, 2024

To: Finance Committee and Governing Body

From: Geronimo Griego, Santa Fe Fire Marshal GGG

Via: Brian Moya, Santa Fe Fire Chief BM

RE: Permitting Fireworks for Public Display New Years Eve, December 31, 2024

EXECUTIVE SUMMARY:

If adopted, the proposed resolution would provide Governing Body approval for a public fireworks display during the New Year's Eve event on the evening of December 31, 2024, through January 1, 2025, pursuant to SFCC 1987, Section 12-3.3. In the event that there are unused fireworks, the resolution would also allow for the discharge of any armed fireworks on January 1, 2025, in accordance with safety procedures from the Fire Marshal or Fire Marshal's designee.

Section 12-3.3 of SFCC 1987 requires that a permit for the public display of fireworks "be granted on application to the fire department, approval by the Governing Body and the filing of a bond by the applicant as herein provided." The ordinance goes on to say that the City of Santa Fe ("City") is not required to file a bond, and the applicant is in this case acting on behalf of the City. The resolution specifies that the public display of fireworks within the city limits will comply with Section 12-3 "Fireworks", including the stipulations outlined in Section 12-3.9 concerning the restrictions "during severe or greater drought conditions, pursuant to Section 60-2C8.1 NMSA 1978."

Applications for public fireworks display undergo review by the City Fire Department via the office of the Fire Marshal. As such, the Fire Marshal reviewed the application packet for the New Year's Eve fireworks event, to be held the evening of December 31, 2024, that is planned to be staged at the La Fonda Hotel. Upon this review, it has been determined that the application is complete and includes appropriate safety measures. If the resolution is approved, the event will include a dedicated City of Santa Fe Fire Department stand-by.

Chief Brian Moya &
Fire Marshal Geronimo G. Griego
Santa Fe Fire Department

Re: Fireworks Permit application for Santa Fe 2024 New Year's Eve

Dear Chief Moya & Fire Marshal Griego:

We have been contacted to conduct the fireworks display for the Santa Fe December 31, 2024, New Year's Eve Celebration to be staged at the La Fonda Plaza Hotel, same as last year. As per the request for the display, we are enclosing the following information.

1) Certificate of Insurance for Fireworks Display, Copy of New Mexico State Fire Marshal's Fireworks License for Western Enterprises, Inc.
2) Copy of BATF&E Explosives License for Western Enterprises, Inc.
3) Copy of United States DOT "Hazardous Materials Safety Permit" for Western Enterprises, Inc.
4) Product will be classified as **Articles, Pyrotechnic 1.4 G, UN 0431, (for Professional Use ONLY)** Product Description Script attached.
5) Copy of a site maps diagram of the launch site of the fireworks display
6) ATF Clearance for Technicians in charge: (Matthew Flores, Nick Flores & Kevin Connelly)

We hope this provides you with the information you need for the permit application.
If you have any questions, please feel free to email or call us immediately at 580-855-2203.

Respectfully,

Jim Burnett, President

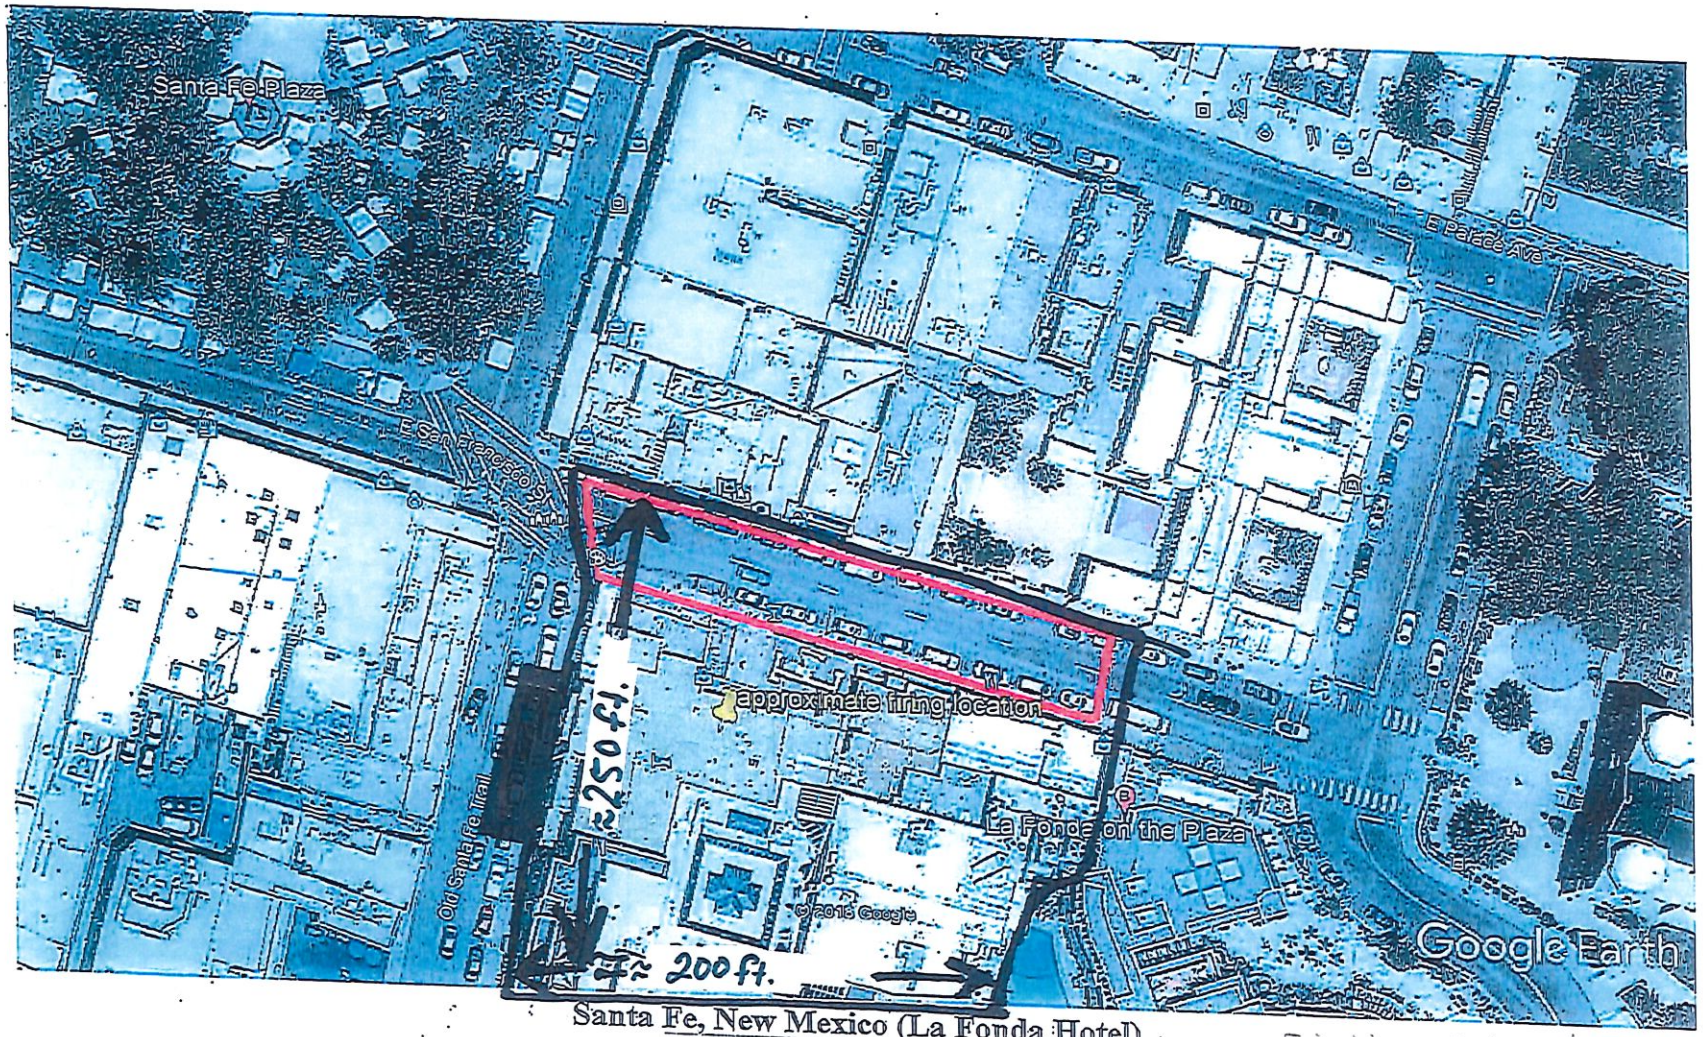
In reply refer to:
USDOT Number: 203517

SARAH PECHA
VICE-PRESIDENT
WESTERN ENTERPRISES INC
PO BOX 60
CARRIER, OK 73727

Dear SARAH PECHA:

HAZARDOUS MATERIALS SAFETY PERMIT HM Safety Permit ID: US-203517-OK-HMSP
Effective Date: August 1, 2023

The Hazardous Materials Safety Permit (HMSP) is verification of the motor carrier's permission to engage in the transportation of hazardous materials listed in 49 CFR 385.403 by motor vehicle in interstate, intrastate, or foreign commerce.



This HMSP will be effective beginning August 1, 2023, and remain effective through July 31, 2025, if your company maintains compliance with the requirements pertaining to the safe and secure movement of hazardous materials for the protection of the public (49 CFR 385 and other applicable Federal Motor Carrier Safety Regulations and Hazardous Material Regulations). Failure to maintain compliance will constitute sufficient grounds for suspension or revocation of this authority.

Willful and persistent noncompliance with applicable safety fitness regulations as evidenced by a Department of Transportation safety fitness rating less than "Satisfactory" or by other indicators, could result in a proceeding requiring the holder of this permit to show cause as to why this authority should not be suspended or revoked.

For questions regarding this document, you may contact the FMCSA Hazardous Materials Division by email at fmcsa.hmsp@dot.gov or by phone at (202) 385-2400 or by fax at (202) 366-3621.

Sincerely,

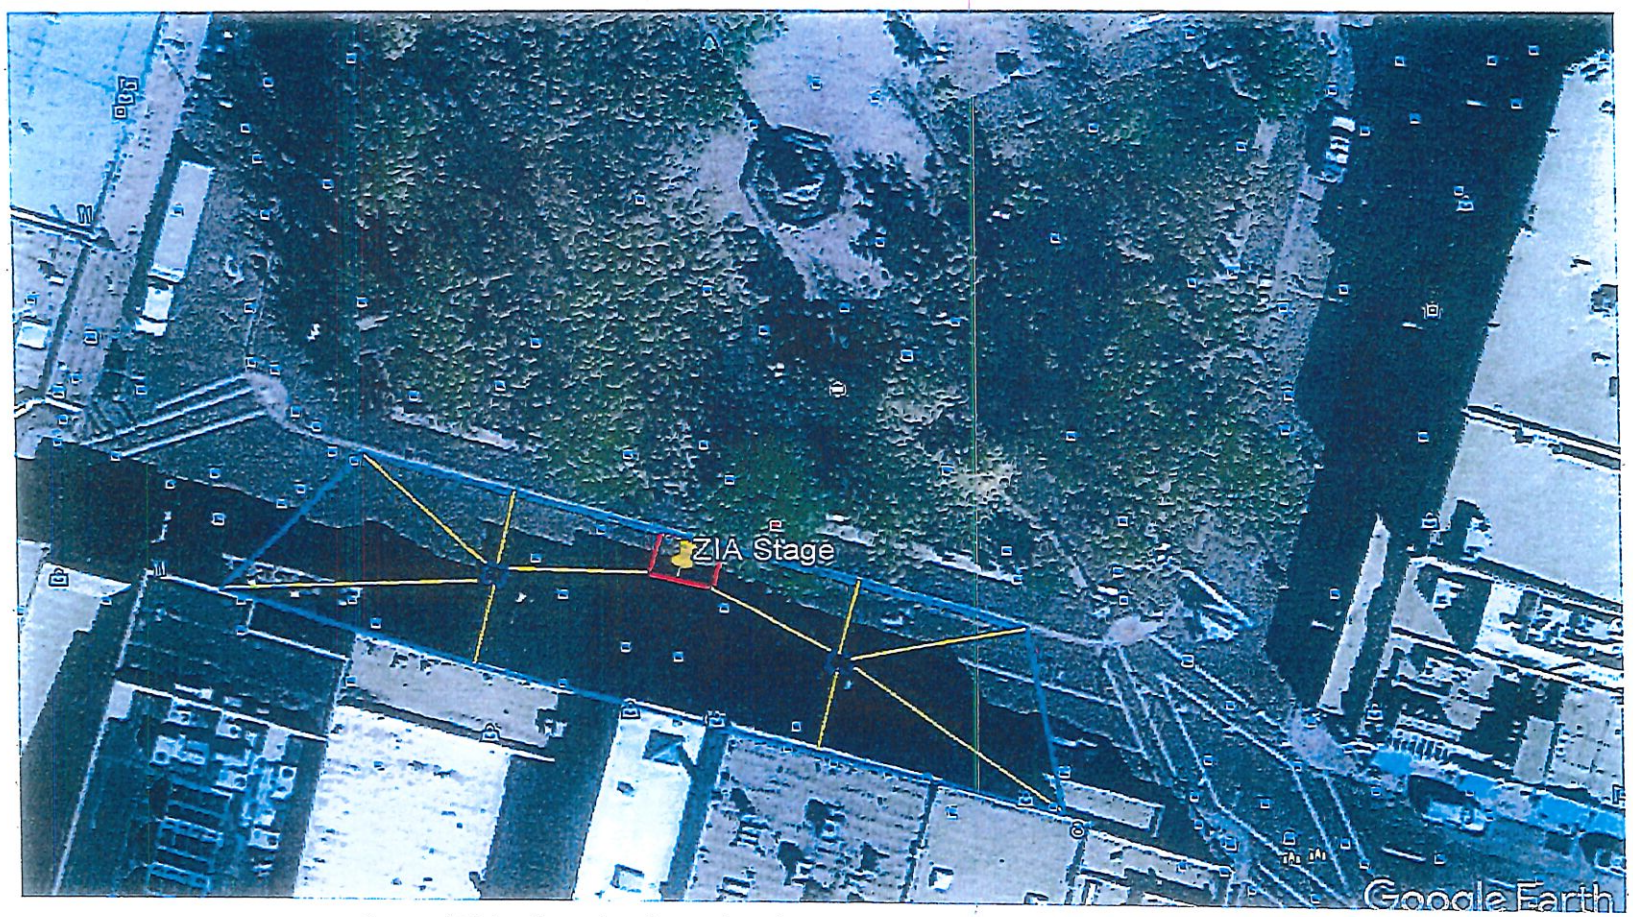
Paul Bomgardner
Chief, Hazardous Material Division

Santa Fe, New Mexico (La Fonda Hotel)

Fire time Midnight.

Yellow stick pin denotes approximate firing location

December 31, 2024



Outside "red lines" denote no spectators or parking during fireworks. This MUST be adhered to.

[redacted] = loading zone & apparatus location

—— Drop zone

Santa Fe NYE Plaza Site

December 31, 2024

Second Firing Location from the plaza area on San Francisco Street.

Requirements they are to provide for the close-proximity theatrical pyro on San Francisco Street

1. The **"Red Stage"** is approximate location for stage for ZIA
2. The **"Purple Squares"** denote gerb and 7/8' crackling mine placement. (the gerbs and mines are to be secured by "clamps" in a black frame platform. Gerbs and mines are fired simultaneously from left and right, see script)
3. **"Yellow Lines"** are drawn from the **"Purple Squares"** to the **"Blue Line Outside Safety Perimeter"**. (Pyro is approximately 20-ft to the north curb toward park, 35-ft from stage, 45-ft to east and west to secured area, and 22-ft back to the buildings) No spectators can be on the sidewalk in front of the buildings during the fireworks. There will be spectators outside of the **"Blue Line Outside Safety Perimeter"**.

NOTICE OF CLEARANCE

for individuals transporting, shipping, receiving, or possessing explosive materials.

ISSUED TO: WESTERN ENTERPRISES INC
NOTICE DATE: 09/17/2024

Federal Explosives license/permit no.: 5-OK-047-23-7D-00004
Expiration Date: April 1, 2027
Explosives License/Permit Type: 23-IMPORTER OF EXPLOSIVES

EXPIRATION DATE: This Notice expires when superseded by a newer Notice which will list all current responsible persons and employee possessors, or when the license or permit expires - whichever comes first.

1. WARNING. Only those individuals listed below as RESPONSIBLE PERSONS and EMPLOYEE POSSESSORS with a background clearance status of "CLEARED" or "PENDING" are authorized to transport, ship, receive, or possess explosive materials in the course of employment with you.
2. "DENIED" STATUS. If an employee possessor has a background clearance status of "DENIED", you MUST take immediate steps to remove the employee from a position requiring the transporting, shipping, receiving, or possessing of explosive materials. Also, if the employee has been listed as a person authorized to accept delivery of explosive materials, you MUST remove the employee from such list and immediately, and in no event later than the second business day after such change, notify distributors of such change, as stated in 27 CFR 555.33(a).
3. CHANGE IN RESPONSIBLE PERSONS. You MUST report any change in responsible persons to the Chief, Federal Explosives Licensing Center, within 30 days of the change and new responsible persons MUST include "appropriate identifying information" as defined in 27 CFR 555.11. Fingerprints and photos are NOT required, however they will be required upon renewal of the license or permit.
4. CHANGE OF EMPLOYEES. You MUST report any change of employee/possessors to the Chief, FELC, within 30 days. Reports relating to newly hired employees must be submitted on ATF Form 5400.28 for EACH employee.

Premises Address: 13513 W CARRIER ROAD
CARRIER, OK 73727

Mailing Address:
WESTERN ENTERPRISES INC
PO BOX 60
CARRIER, OK 73727

This 'Notice of Clearance' is provided to you as required by 18 U.S.C. 843(h) and MUST be retained as part of your permanent records and be made available for examination or inspection by ATF officers as required by 27 CFR 555.121. If you receive a Notice subsequent to this Notice, this Notice will no longer be valid.

In accordance with 27 CFR 555.33, Background Checks and Clearances, and 27 CFR 555.57, Change of Control, Change in Responsible Persons, and Change of Employees, ATF's Federal Explosives Licensing Center (FELC) has conducted background checks on the individual(s) you identified as a responsible person(s) and an employee/possessor(s) on your application, or reported after the issuance of your license/permit.

The following is a SUMMARY of the results of the background checks conducted on the individuals you reported as responsible persons and employee/possessors. ATF will be notifying ALL individuals listed on this document of their respective status by separate letter mailed to their residence address.

PLEASE BE ADVISED THAT IT IS UNLAWFUL FOR ANY PERSON REFLECTING A STATUS OF "DENIED" TO TRANSPORT, SHIP, RECEIVE, OR POSSESS EXPLOSIVE MATERIALS.

Please carefully review this Notice to ensure that all the information is accurate. If this Notice is incorrect, please return the Notice to the Chief, FELC, with a statement showing the nature of the error(s). The Chief, FELC, shall correct the error, and return a corrected Notice.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2024-__

INTRODUCED BY:

Councilor Signe Lindell

A RESOLUTION

APPROVING A PUBLIC FIREWORKS DISPLAY DURING THE SANTA FE PLAZA 2024-2025 NEW YEAR'S EVE EVENT.

WHEREAS, Resolution 2016-24 directed that City of Santa Fe ("City") staff "plan and execute" New Year's Eve annually as part of the "People to the Plaza" initiative; and

WHEREAS, New Year's Eve is held within City limits and utilizes fireworks to celebrate; and

WHEREAS, Section 12-3.3, "Public Display" states that permits for the public display of fireworks "shall be granted on application to the fire department, approval by the governing body, and the filing of a bond by the applicant"; and

WHEREAS, the City has engaged Western Enterprises, Inc., and the Kiwanis Club of Santa Fe ("Kiwanis Club") to act on the City's behalf to plan and execute the event; and

WHEREAS, Western Enterprises, Inc./Kiwanis Club, submitted, on behalf of the City, a timely and complete application to the Fire Department to hold a New Year's Eve event on the Plaza on December 31, 2024, requesting permission to hold a fireworks display, staged at the La Fonda Hotel, which is located within the City limits; and

WHEREAS, in the event that there are unused fireworks, the Kiwanis Club wishes to discharge any unused fireworks that are armed in accordance with safety procedures required by the Fire Marshal or Fire Marshal's designee; and

WHEREAS, the City's Fire Marshal determined in their professional capacity that the planning for the New Year's event, as described by the City's application, demonstrates the applicant has taken appropriate safety measures; and

WHEREAS, the Governing Body supports the use of fireworks during an annual City event on New Year's Eve, so long as the use complies with SFCC 1987, Section 12-3, "Fireworks", including the stipulations outlined in section 12-3.9, "Restrictions during severe or extreme drought conditions".

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the Governing Body approves the set up for and use of fireworks on New Year's Eve, December 31, 2024, and on New Year's Day, January 1, 2025, to be staged at the La Fonda Hotel, and to dispose of any unused fireworks in accordance with safety procedures of the Fire Marshal or Fire Marshal's designee's on January 1, 2025.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2024.

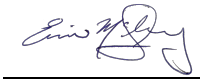
Legislation/2024/Resolutions/Permitting Fireworks Display New Years Eve 2024

FIR No. 10639.1

FISCAL IMPACT REPORT

General Information:



(Check) **Bill:** _____ **Resolution:** X

Short Title(s): Permitting Fireworks Display New Year's Eve, 2024

Sponsor(s): Councilor Signe Lindell

Reviewing Department(s): City Attorney's Office and Fire Department

Staff Completing FIR: Geronimo Griego **Date:** 12/03/2024 **Phone:** (505) 955- 3317

Reviewed by City Attorney:  **Date:** Dec 6, 2024

Reviewed by Finance Director: Emily K. Oster **Date:** Dec 6, 2024

Summary:
If adopted, the proposed resolution would provide Governing Body approval for public fireworks display during a New Year's Eve event on the evening of December 31, 2024, pursuant to SFCC 1987, 12-3.3. This Section of code requires that permits for the public display of fireworks "be granted on application to the fire department, approval by the governing body". The resolution also specifies that the event's compliance with Section 12-3 "Fireworks" would include stipulations outlined in Section 12-3.9, which cover the restrictions "during severe or extreme drought conditions".

Departments Affected:
Fire Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, fireworks would not be permitted during the City's New Year's Eve event.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None at this time.

Performance and Administrative Implications:
The Fire Marshall will provide oversight to the event.

Fiscal Implications:
** The Fire Department will provide dedicated personnel for the event as part of its budgeted, regular operations.

Fiscal Impact

**X Check here if no fiscal impact

RE: Land Use Appeal No. 2024-8666

I. INTRODUCTION

On July 8, 2024, Karl Sommer, Agent for Ferran Properties LLC ("Appellant") filed a verified appeal petition ("Petition"), asking the Planning Commission to overturn a land use director decision to decline to take enforcement action against a business located at 7625 Baca Lane, which the Petition describes as "Mr. G's Auto Sales, LLC aka Mr. G's Pro Tow" (Petition, Exh. 1, p.1).

The Land Use Director ("Director") and City Attorney's Office ("CAO") reviewed Appellants' appeal petition for conformity with the legal requirements set forth in the Santa Fe City Code ("SFCC" or "Code") Section 14-3.17. After their review, the Director and CAO determined that there was no basis for appeal, because there was no final action. The Director and CAO therefore recommend that the Governing Body deny the appeal without a public hearing.

II. ANALYSIS

SFCC 1987, Section 14-3.17 governs appeals. Under this section, the Director must "promptly review all appeals for conformity with the requirements of Section 14-3.17." SFCC 1987, § 14- 3.17(D)(6). If the Director determines that an appeal does not conform to the requirements of Section 14-3.17, the City's Code dictates that the Director refer that determination to the CAO for review. *See* SFCC 1987, § 14-3.17(D)(6). If the CAO agrees with the Director, the CAO is required to prepare a written recommendation for discussion by the Governing Body. *Id.* § 14- 3.7(D)(6)(a). If the Governing Body accepts the recommendation, the "decision is final and may be appealed to district court." *Id.* If the Governing Body disagrees with the recommendation, the case is scheduled for an appeal hearing. *See id.*

The Director and CAO reviewed Appellants' appeal petition for conformity with the legal requirements set forth in Section 14-3.17. It provides that "[o]nly final actions may be appealed." SFCC § 14- 3.17(A)(1)(a). **Critically, the Code states specifically that final action does *not* include "a decision not to take**

enforcement action." SFCC 1987, § 14- 3.17(A)(1)(d)(iv). Therefore, a decision not to take enforcement action is not a final action and is not appealable.

"Rules and regulations adopted by city ordinance have the force of law." *Apodaca v. AAA Gas Co.*, 2003-NMCA-085, 48, 134 N.M. 77, 73 P.3d 215. "Having the force of law, municipal rules and regulations impose a standard and a duty to comply with that standard." *Id*. The City's Code specifically prohibits appeals of decisions not to take enforcement action.

After their review, the Director and CAO determined that there was no appealable, final action. The CAO concurs with the Director's determination that the appeal does not conform to the legal requirements of Section 14-3.17(D)(2). The Director and CAO therefore recommend that the Governing Body deny the appeal without a public hearing.

V. CONCLUSION

For the reasons described above, the CAO recommends that the Governing Body deny the appeal without a public hearing.

If the Governing Body accepts this recommendation, the City's decision is final and may be appealed to district court. *See* SFCC 1987, § 14-3.17(D)(6)(a). If the Governing Body does not accept this recommendation, the appeal will be set for a public appeal hearing before the Governing Body in accordance with Chapter 14 of the SFCC. *See id*.

VI. OPTIONS FOR MOTIONS

There are two options for motions, as follows:

- I move to accept the recommendation of the City Attorney's Office and deny the appeal without a public hearing. The City's decision is final and may be appealed to the district court.

- I move to reject the recommendation of the City Attorney's Office and to set the appeal for a public hearing before the Governing Body in accordance with Chapter 14 of the Santa Fe City Code.

EXHIBIT A
TO VERIFIEDAPPEAL OF FERRAN PROPERTIES, LLC

The following are the responses required to be included with the Verified Appeal Petition filed on July 5, 2024, by Ferran Properties, LLC, a New Mexico limited company ("**Appellant**"):

Description of the final action from, and date on which final action was taken:

Appellant takes this appeal from the "final action" of the Planning and Land Use Department Director Jason Kluck dated June 26, 2024, which final action declined to take any enforcement action against Mr. G's Auto Sales, LLC, aka Mr. G's Pro Tow (Mr. G's). A copy of the final action is attached hereto as Attachment No. 1. The final action arising out of a complaint that Mr. G's is creating a public nuisance under the SFCC 1987 10-9 (et seq.) and the request to declare Mr. G's operations an illegally expanded and illegal non-conforming use under the Extraterritorial Zoning Ordinance, the ELUA Ordinance No. the Extraterritorial Land Use Authority Ordinance 2009-01 ("SPPAZO"), and SFCC 1987 § 14-10 (et seq.)

Describe the harm that would result to you from the action appealed from (attach additional pages if necessary).

Appellant owns the property located at 1716 Baca Lane, Santa Fe, New Mexico. Mr. G's illegal operation located at 7625 Baca Lane includes the parking of junk vehicles, the storage of equipment and junk vehicles, the storage and parking of equipment within Baca Lane, which is a roadway subject to a public easement, and the general conduct of Mr. G's business outside the boundaries of Mr. G's property. This illegal use of Baca Lane interferes with access to Appellant's property, Appellant's use of Baca Lane, and the ability of emergency vehicles to reach and service Appellant's property. Mr. G's illegal use has caused and continues to cause physical damage Appellant's property, including without limitation, damage to Appellant's fencing around its property. Furthermore, as detailed below, Mr. G's use constitutes a nuisance by allowing an illegally non-conforming use to continue to operate.

Please detail the basis for Appeal here (be specific):

A. Mr. G's Operates an Illegally Non-Conforming Business

Appellant's property and Mr. G's property are located within the "Baca Industrial Park". When the Baca Industrial Park was created in 1994, the property lay outside the municipal city limits of the City of Santa Fe and was subject to the joint planning and zoning regulations of the Extraterritorial Zoning Ordinance (the "EZO"), and the platting subdivision regulations of the County of Santa Fe. Pursuant to those zoning and platting regulations, the then-owner of the property, Richard Baca, applied for and obtained a final subdivision plat and final development plan entitled "Baca Industrial Park" and "Final Development Plan", recorded in the records of the Santa Fe County Clerk on February 23, 1995, as Document No. 859539, in Plat Book 297, Pages 005-006. (the "Final Plat and Development Plan" or the "Final Plat" or "Final Plan") The Final Plat and Development Plan zoned the property for certain approved uses and created

"Baca Lane" – a privately owned and maintained road subject to "public use". The Final Plan provided the following restriction and requirements:

> DEVELOPMENT OF INDIVIDUAL LOTS
>
> THE OWNER OF EACH LOT MUST PREPARE A DEVELOPMENT PLAN INDICATING THE TYPE OF USE, BUILDING LAYOUT, TRAFFIC CIRCULATION AND CONFORMANCE WITH THE STANDARDS OF THIS DEVELOPMENT PLAN. THIS DEVELOPMENT PLAN WILL BE SUBMITTED TO SANTA FE COUNTY LAND USE ADMINISTRATION FOR REVIEW AND APPROVAL BEFORE CONSTRUCT/ON MAY COMMENCE ON ANY LOT.

Hence, the EZO required every use in the Baca Industrial Park to fall within the approved use list in Final Plan and required every owner to obtain a development plan approval for each and every use proposed within the Baca Industrial Park

On March 30, 1999, Mr. G's Pro-Tow LLC purchased Lot 4 within the Baca Industrial Park. On June 6, 1999, Mr. G's Pro-Tow, LLC, obtained Development Permit No. 99-3111 allowing for the conduct an "office and automobile towing and storage yard" use on Lot 4. No other permit were obtained by Mr. G's for any additional uses on Lot 4. Between 1999 and 2009, Mr. Gutierrez expanded (without the required permits) the commercial uses of the property to include a recycling center, scrap metal business, and auto-crushing/dismantling business. On September 17, 2009, the property was zoned I-1 pursuant to Extraterritorial Land Use Authority Ordinance 2009-01, which zoning is still in effect. A recycling center is not an allowed use in the I-1 zone. No permit was obtained from the City for the use. Mr. G's has been operating an illegally expanded business since 2009, which includes automobile crushing, scrap metal recycling, and automobile dismantling. Mr. G's conducts these illegal activities within Baca Lane – both on Mr. G's Lot 4 and within Baca Lane.

The illegally expanded commercial operation do not constitute a legally non-conforming use under SFCC 1987 10-1(A) and 14-12.1. The final action misapplies these sections of the applicable land use regulation contain in SFCC 1987, and the resulting final action means that the illegal activities of Mr. G's will continue unabated to the extreme harm and detriment of Appellant.

B. Mr. G's Operation Constitutes a Public Nuisance

Mr. G's illegal activities as described herein create a "public nuisance" (as defined in SFCC 1987 § 10-9), because they threaten harm to the public comfort, health, peace, well-being or safety and Mr. G's is knowingly creating, performing, or maintaining anything affecting any number of citizens without lawful authority that is both (1) injurious to public health, safety, or well-being, and (2) interferes with the exercise and enjoyment of public rights, including the right to use public or private property.

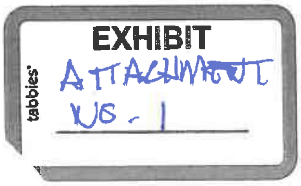
Re: Request to confirm legal non-conforming status of Mr. G's located at 7625 Baca Lane, Santa Fe, New Mexico

Dear Mr. Sommer,



Per your request this morning, I am confirming that Mr. G's Auto Sales, LLC, aka Mr. G's Pro Tow (Mr. G's), located at 7625 Baca Lane is a licensed business with legal non-conforming status for wrecker/towing service and auto salvage/recycling uses, and that no enforcement action will be taken regarding these current uses.

Analysis of the zoning and use status of the property at 7625 Baca Lane, Santa Fe, New Mexico:

Under the City's current zoning regulations, automobile salvage (including wrecking yards, junkyards and salvage operations) is permitted in general industrial (I-2) zoning districts, but is not a permitted use in light industrial (I-1) zoning districts. (See SFCC 1987 14-6.1, Table of Permitted Uses.) Consequently, use of land in an I-1 zoned area for auto salvage is designated as Nonconforming. The subject property lies within the I-1 zoning district.

Mr. G's has been in continuous operation at the current location as a State licensed auto dismantler since the year 2000. The Development Plan for the subject property recorded on March 31st, 1994 lists "Industrial Operation and Use" and "Auto, Truck, and Boat Service and Repair" as allowed uses within the Baca Industrial Park where the subject property resides.

Joe Catanach, Senior Technical Review Specialist with the Santa Fe County Land Use department issued a letter on June 12th, 2006 to the NMTRD, MVD affirming that "wrecker service and auto recycler" were

included as allowed uses on the subject property, and that those uses were in conformance with County zoning regulations and the approved development plan.

The property had been under continual use and operation as an auto salvage facility when it was annexed into the City of Santa Fe in 2013, and was previously subject to Ordinance 2009-01, Subdivision, Platting, Planning and Zoning Rules, ("SPPAZO") which conferred zoning rights upon the subject property as granted by Santa Fe County.

Therefore, Mr. G's Auto Sales, LLC ("Mr. G's), located at 7625 Baca Lane, a Towing and Scrap Metal Auto Recycling establishment, having held a standard business license with the City of Santa Fe since 2012 for its current operation, in addition to the reasons outlined above, is deemed subject to the regulations of SFCC 1987 14-10.1: Nonconformities, and is currently designated with a legally nonconforming use status under those regulations.

Sincerely,

Jason M. Kluck

THE UTILITY EASEMENT WITHIN THE "PRIVATE" ACCESS EASEMENT IS INTENDED TO BE A "PUBLIC" UTILITY EASEMENT.

COUNTY FIRE MARSHALL SHALL APPROVE THE FIRE PROTECTION PLAN PRIOR TO ISSUANCE OF A BUILDING PERMIT. ANY CHANGE IN USE OR ADDITION TO THE EXISTING BUILDING WILL REQUIRE APPROVAL OF THE FIRE PROTECTION PLAN PRIOR TO ISSUANCE OF THE BUSINESS LICENSE.

AIRPORT NOISE NOTICE

"The owner has been advised that the subject Property is located adjacent to a noise-impacted area. These present and future noise impacts might be annoying to users of the development of the land for its stated purpose and might interfere with the unrestricted use and enjoyment of the property in its intended use; that these noise impacts might change over time by virtue of greater numbers of aircrafts, louder aircrafts, seasonal variations and time-of-day variations; that changes in airport, aircraft and air traffic control operating procedures or in airport layout could result in increased noise impacts; and that the grantor's or user's own personal perceptions of the noise exposure could change and that his or her sensitivity to aircraft noise could increase."

CITY OF SANTA FE

Memorandum

Date: November 20, 2024

To: Governing Body, Finance Committee, Quality of Life Committee, and Public Works and Utilities Committee

From: Andréa Salazar, City Clerk AS

RE: Adoption of Open Meetings Act Notice Requirements for 2025

EXECUTIVE SUMMARY:
The proposed Resolution adopts reasonable notice requirements for the City's policymaking bodies for 2025, pursuant to the New Mexico Open Meetings Act (OMA). The Resolution will sunset when the Governing Body adopts its 2026 Open Meetings Act resolution.

BACKGROUND:
OMA, NMSA 1978, Sections 10-15-1 to -4, requires that public bodies adopt reasonable notice requirements for their public meetings at least annually. As a result, each year the Governing Body adopts a Resolution adopting notice requirements for that year.

ATTACHMENTS:

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2024-__

INTRODUCED BY:

Mayor Alan Webber

A RESOLUTION

ADOPTING ANNUAL OPEN MEETINGS ACT NOTICE REQUIREMENTS FOR 2025.

WHEREAS, the New Mexico Open Meetings Act ("Open Meetings Act"), NMSA 1978, §§ 10-15-1 to – 4, requires that public bodies "determine at least annually in a public meeting what notice for a public meeting is reasonable when applied to that body"; and

WHEREAS, the Open Meetings Act governs the City of Santa Fe's ("City's") Governing Body and the Governing Body's subordinate policymaking bodies; and

WHEREAS, the Governing Body desires to comply with the Open Meetings Act by adopting its notice requirements for the City's policymaking bodies; and

WHEREAS, the Governing Body seeks to give annual notice to the public of its determination, pursuant to NMSA 1978, Section 10-15-1(D), that a seventy-two (72) hour notice prior to its regular and special meetings is reasonable and that it deems that the same notice is reasonable for the meetings of its subordinate policymaking bodies.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. The applicability of the Open Meetings Act to the City's policymaking bodies is recognized.

Section 2. The notice requirements set forth below are hereby adopted.

A. The City shall give a minimum of seventy-two (72) hours' notice of all regular and special meetings of the Governing Body and its subordinate policymaking bodies.

B. The notice shall include the date, time, place(s) of the planned meeting (multiple places may be included in the notice when one or more online options for "attending" the meeting are available), and a list of the specific items of business to be discussed or transacted at the meeting or information about how the public may obtain a copy of such an agenda.

C. The City shall make the notice available to the public and news media through reasonable means, including posting on the City's website, and providing it to broadcast stations licensed by the federal communications commission and newspapers of general circulation that have provided a written request for such notice.

D. Agendas shall be posted on the City's website.

Section 3. Regular Meetings of the Governing Body

A. Unless otherwise specified, including in subsection B below, regular meetings of the Governing Body shall be held as follows:

i. On the second and last Wednesday of each month.

ii. In the City Council Chambers of the municipal building of the City, located at 200 Lincoln Avenue, Santa Fe.

B. When it is difficult or impossible for members of the Governing Body to meet in person, they may participate virtually pursuant to SFCC 1987, Section 1-

9.

C. To the extent possible, meetings will be broadcast via the City's YouTube channel and other media as available, such as the City's Government Channel on Comcast Channel 28 or Comcast Channel HD928, and on the radio from KSFR 101.1 FM.

Section 4. Special Meetings

A. The City shall provide a minimum of 72 hours' notice of all special meetings of the Governing Body and its subordinate policymaking bodies.

B. Unless otherwise specified, special meetings are held at the same place as regular meetings. The date, time, and place of a special meeting shall appear on the agenda and be made available to the public and news media through reasonable means including posting on the City's website.

C. The agenda shall be posted on the City's website.

D. When it is difficult or impossible for members of the Governing Body to meet in person, they may participate virtually pursuant to SFCC 1987, Section 1-9.

E. To the extent possible, meetings will be broadcast via the City's YouTube channel and other media as available, such as the City's Government Channel on Comcast Channel 28 or Comcast Channel HD928, and on the radio station KSFR 101.1 FM.

Section 5. Quasi-Judicial Committees and Subordinate Policymaking Bodies

A. The Governing Body hereby requires that every quasi-judicial committee, board, or commission, including but not limited to the planning commission, historic design review board, and board of adjustment, follow the same notice requirements as the Governing Body, and as provided in this resolution and the

Open Meetings Act.

B. The Governing Body of the City hereby requires that all other policymaking boards, commissions, and committees follow the same notice requirements as provided by the Open Meetings Act.

Section 6. Emergency Meetings

A. Pursuant to its procedural rules, the Governing Body or subordinate policymaking body may call, with, if possible, up to 24 hours' notice, a meeting to consider any matter that, if not addressed immediately, will likely result in injury or damage to persons or property or significant financial loss to the City. When possible, the City will provide 24-hour telephonic notice to all media who normally cover City meetings before the emergency meeting commences.

B. The notice for all emergency meetings shall include an agenda for the meeting or information on how the public may obtain a copy of the agenda. Unless there is a State or national emergency already declared for the same reasons, within ten (10) days of taking action on an emergency matter, the City will notify the Attorney General's Office that the emergency meeting took place.

Section 7. Term

This Resolution shall sunset upon adoption of the 2026 Open Meetings Act Resolution, making it unnecessary to rescind.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2025.

Reviewed by City Attorney: [signature] **Date:** Dec 6, 2024

Reviewed by Finance Director: Emily K. Oster **Date:** Dec 6, 2024

Summary:
The purpose of this Resolution is to comply with the Open Meetings Act (OMA) by adopting annual OMA notice requirements for 2025. The Resolution shall sunset upon adoption of the 2026 Open Meetings Act resolution.

Departments Affected:
Governing Body, City Clerk's Office, and Departments supporting policy making bodies.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the Governing Body would fail to comply with the OMA requirement that it adopt notice requirements for meetings governed by the OMA.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This Resolution sunsets upon the adoption of the 2026 Open Meetings Act resolution.

Performance and Administrative Implications:
Compliance with the OMA is required for the decisions of policy making bodies to be final and binding.

Fiscal Implications:
OMA does not require stenographers, but it does require minutes and funds for stenographers who take minutes come from the General Fund and are included in the City Clerk's budget for FY25.

Memorandum

Date: November 25, 2024

To: Governing Body and Quality of Life Committee

From: Marci Eannarino, Legislation and Policy Innovation Manager ME

Via: Erin K. McSherry, City Attorney EM

RE: Public Safety Administration

EXECUTIVE SUMMARY:

The proposed bill would amend SFCC 1987, Section 2-8.2 and create Sections 2-8.8 and 2-8.9. The Amendment to Section 2-8.2 would change the name of that Section from "Community Health and Safety Department" to the "Health and Human Services Department" and remove the subsections regarding the City of Santa Fe Police Department ("Police Department") and the City of Santa Fe Fire Department ("Fire Department"). The subsections regarding the Fire Department and the Police Department would be moved into the two newly created Sections: 2-8.8, "City of Santa Fe Police Department" and 2-8.9, "City of Santa Fe Fire Department".

BACKGROUND:
Ordinance No. 2020-22 established the Community Health and Safety Department and specified that it included five divisions: the Community Services Department, Police Department, Fire Department, Recreation Division, and the Office of Emergency Management and Safety.

Ordinance No. 2023-11 revised the Section of code describing the Community Health and Safety Department by removing language prescribing the "Recreation Division" as a division of the Community Health and Safety Department and specifying that the Family and Youth Services is part of the Community Services Department. It also removed the term "Safety" from the name of the Office of Emergency Management and Safety to make it "Office of Emergency Management".

BILL NO. 2024-18

INTRODUCED BY:

Councilor Amanda Chavez

Councilor Pilar Faulkner

Councilor Lee Garcia

A BILL

RELATING TO CITY ADMINISTRATION; AMENDING SECTION 2-8, SFCC 1987 TO CHANGE THE TITLE FROM "COMMUNITY HEALTH AND SAFETY DEPARTMENT" TO "HEALTH AND HUMAN SERVICES DEPARTMENT"; REMOVE THE POLICE DEPARTMENT AND THE FIRE DEPARTMENT FROM THAT SECTION; AND CREATE TWO NEW SECTIONS, 2-8.8 AND 2-8.9, FOR THE POLICE DEPARTMENT AND FIRE DEPARTMENT, RESPECTIVELY.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 2-8.2 of SFCC 1987 (being Ord. No. 2023-11, § 1, as amended) is amended to read as follows:

2-8.2 [~~Community Health and Safety Department~~] Health and Human Services Department.

A. *Creation of Department.* There is created a department of city government to be known as the "[~~community health and safety department~~] health and human department", which includes, but is not limited to, the [~~police department, the fire department,~~] the community services department [~~,~~] and the office of emergency management.

[~~B. ``Police Department.~~

underscored material = new [~~bracketed material~~] = delete

~~(1) *Powers and duties generally.* Police officers shall execute and return all writs and processes directed to them by the municipal judge and, in criminal cases or cases of violations of city ordinances, they may serve the same in any part of the country. They shall suppress all riots, disturbances and breaches of the peace, apprehend all disorderly persons within the city and shall pursue and arrest any person fleeing from justice. They shall apprehend any person in the act of committing any offense against the laws of the state or the ordinances of the city, and forthwith bring such persons before a competent authority for examination and trial. They shall have, in the discharge of their proper duties, like powers and be subject to like responsibilities as sheriffs or constables in similar cases.~~

~~(2) *Appointment of police officers; commissions.* No person shall assume or exercise the functions, powers, duties and privileges incident or belonging to the office of municipal police officers without first having received an appointment in writing, known as a "commission", from the governing body. The advice of the chief of police shall be obtained in the employment and commissioning of all police officers of the department.~~

~~(2) *Appointment of police officers; commissions.* No person shall assume or exercise the functions, powers, duties and privileges incident or belonging to the office of municipal police officers without first having received an appointment in writing, known as a "commission", from the governing body. The advice of the chief of police shall be obtained in the employment and commissioning of all police officers of the department.~~

~~(3) *Training schools and examinations.*~~

~~(a) There shall be held and conducted at such times as may be prescribed by the chief of~~

police, with the approval of the governing body, schools for training in modern police methods and practices. The schools for training and the checking of the qualifications and general fitness of applicants for positions in the police department shall be under the direction and supervision of the chief of police.

(b) All members of the police department shall take such examinations as may be prescribed.

(c) In the taking of all written examinations there shall be assigned to each applicant a number which shall be endorsed on the applicant's examination papers, and the grading of the examinations shall be by number only.

(d) Except as otherwise provided, no member shall be retained in the police department and no applicant shall be appointed to the police department unless such member or applicant, after taking the prescribed training courses, has successfully passed the prescribed examinations, written and oral; provided, that the minimum educational qualifications required by the City Personnel Act shall not apply to members of the present police department who are otherwise qualified under the provisions hereof; provided further, that in passing on the qualifications of members of the present police department, consideration shall be given to:

(i) Length of service and faithfulness to duty; and

(ii) General aptitude for police work as disclosed by the individual records of such members to be confirmed by oral examinations.

(4) *Extra or emergency police officers.* The city manager may employ on behalf of the city such extra or emergency police officers as may be required in the proper administration of municipal affairs.

(5) *Police department reserve.*

~~(a) *Created.* There is created the city "police department reserve force", hereinafter referred to as the "reserve".~~

~~(b) *Control by Chief of Police.* The reserve is under the exclusive control of the chief of the city police department who shall have the sole and exclusive authority to:~~

~~(i) Summarily discipline or dismiss members without appeal to any body or tribunal;~~

~~(ii) Approve or disapprove all bylaws, rules and regulations of the reserve; and~~

~~(iii) Approve or disapprove all officers, employees or agents of the reserve.~~

~~(c) *Authority.* The reserve and its individual members shall only have authority in law enforcement on specific request by the city police chief. A specific request shall be made for each individual instance of service.~~

~~(d) *Powers and Duties.*~~

~~(i) The duties of the reserve are to assist in enforcement of law by cooperating with all law enforcement agencies and regulatory bodies.~~

~~(ii) The reserve or its members when acting upon call, and only when acting upon call, of the city police chief, for the city or for another law enforcement agency or regulatory authority, shall be possessed of the same powers and duties as a city police officer or an officer of such law enforcement agency or regulatory authority.~~

~~(e) *Call of Members.* When the city police chief calls up the members of the reserve, the call shall be in writing, list the names of each member of the reserve called, the purpose of the call, and the date and time the call begins and terminates. Except when on call, reserve members shall have no more authority in law enforcement than that of any private citizen.~~

~~(f) *Requests for Assistance.* Should any law enforcement agency or regulatory body desire assistance from the reserve, the request shall be made to the city police chief~~

~~who may authorize it, if:~~

~~(i) Reserve members are fully covered by the workman's compensation insurance policy of the assisted agency or body, and this is evidenced by a writing presented to the chief; and~~

~~(ii) Any and all liability that may arise against the city, its officers, employees or agents, the reserve, or its members as a result of such assistance, is assumed in writing by the assisted agency or body.~~

~~(g) *Worker's Compensation.* The city shall immediately take steps to provide necessary worker's compensation insurance for the reserve and necessary liability insurance covering liability that may arise against the city, its officers, employees or agents as a result of the activities of the reserve on behalf of the city. If any or a portion of such liability is to be self-insured, the self-insurance fund shall be increased accordingly.~~

~~C. *Fire Department.*~~

~~(1) *Department authority and powers.*~~

~~(a) Pursuant to Section 3-18-1F. and G. NMSA 1978 and 3-18-11B(1), the city may provide proper means for protection from fire and protect the property of its municipality and its inhabitants and preserve the health, safety, peace and order within the municipality. Therefore, the stated purpose of this subsection is to grant the fire department all authority necessary to protect life and property from the hazards created by fire, explosion, and similar emergencies.~~

~~(b) The fire department shall have full and complete authority in connection with fighting, mitigating, and preventing the spread of any fire that may arise within the city, with the power to do and perform all necessary or expedient acts for the fighting of fire. When called to a fire, the fire department shall have:~~

~~(i) Full and complete authority of the premises to which it has been summoned until the fire has been extinguished and the premises are deemed safe by the fire department; and~~

~~(ii) By emergency vehicle or by foot, the right of ingress and egress on all public or private streets, alleyways, roads, driveways, and thoroughfares located within the city limits or the city annexation areas.~~

~~(c) The fire department shall have full and complete authority in connection with the provision of prehospital emergency medical services within the city, with the power to do and perform all necessary or expedient acts for the provision of these services.~~

~~(d) The fire chief shall have full authority to sign agreements, approved by the city attorney's office, with landowners to implement fire hazard mitigation activities.~~

~~(2) *Department members designated as special police officers.* Every member duly enrolled and in good standing in the fire department shall be a special police officer of the city with power to act as such from the time of the sounding of any fire alarm until the apparatus and equipment for fighting fire has been returned to the fire station.~~

~~(3) *Obstructing or interfering with firefighters.* It is unlawful for any person to obstruct or interfere with firefighters while in the discharge of their duties.~~]

[~~D~~] B. *Community Services Department.* The community services department includes, but is not limited to, senior services, and libraries.

[~~E~~] C. *Office of Emergency Management.*

(1) In accordance with Section 12-10-5 NMSA 1978, the "office of emergency management," shall consist of:

(a) An emergency manager who shall be appointed in accordance with Section 12-10-5 NMSA 1978, and who shall be subject to the personnel system of the city;

(b) Additional professional and administrative personnel as may be required to effectively carry out the emergency management program; and

(c) All other city officers and employees, together with those volunteer forces enrolled to aid the city during periods of disaster or emergency.

(2) *Definitions.*

Civil emergency means conditions of unrest, including but not limited to riot, civil disturbance, unlawful assembly, hostile military or paramilitary action, war, terrorism, or sabotage.

Comprehensive emergency management plan (CEMP) means a written document that describes the city's overall emergency management plan. A CEMP specifies the purpose, organization, responsibilities, and facilities of the agencies and officials of the city in the mitigation of, preparation for, response to, and recovery from emergencies and disasters.

Curfew means a period of time declared by the mayor, during which no person or persons, other than persons authorized by the mayor by administrative order, may be upon the public streets, sidewalks, grounds, or semi-public property, either on foot or in vehicles of any type, within the city.

Disaster means the occurrence of a natural catastrophe, technological accident, or human-caused event that has resulted in environmental damage, property damage, deaths, and/or multiple injuries, which may exceed the response capability of the local jurisdiction, necessitating state, and potentially federal, involvement.

Emergency means any occasion or instance, such as a terrorist attack, terrorist threat, civil unrest, wildland and urban fire, flood, hazardous materials spill, nuclear accident, aircraft accident, earthquake, hurricane, tornado, tropical storm, tsunami,

war-related disaster, public health or medical emergency, other occurrence requiring an emergency response, or any other condition that warrants action to protect life, property, or the environment.

Emergency management means an approach to prevent, protect against, respond to, recover from, and mitigate the effects of incidents.

Emergency operations center (EOC) means the physical location at which the coordination of information and resources to support incident management (on-scene operations) activities normally takes place.

Emergency plan means an ongoing plan for responding to a wide variety of potential hazards.

Hazard mitigation plan means the representation of the city's commitment to reduce risks from natural hazards, serving as a guide for decision makers as they commit resources to reducing the effects of natural hazards.

National Incident Management System (NIMS) means the federal government's standardized framework of doctrines, concepts, principles, terminology, and organizational processes for emergency management.

(3) *Purpose.*

(a) The purpose of the office of emergency management is to coordinate the efforts of all municipal agencies and employees, nongovernmental agencies, and private sector partners to prepare for and function in the event of disasters and emergencies endangering the lives of persons in the city, property of the residents of the city, or public property in the city.

(b) The duty of the office of emergency management is to coordinate the development of

emergency plans for the effective employment of municipal resources to protect the lives and health of the residents of the city and the private and public property therein from the effects of emergencies or natural or man-caused disasters.

(c) The office of emergency management shall coordinate the implementation of such plans in preparation for, during, and after periods of emergency or disaster. Such plans shall be coordinated with those of the county and in consonance with the state emergency management plans.

(d) The office of emergency management and safety shall ensure that the safety of all city employees is a priority throughout the city's operations and coordinate and oversee safety protocols and implementation for the city.

(4) *Emergency manager*. The emergency manager shall:

(a) Be responsible to the director of community health and safety for the organization, administration, and operation of the emergency management program of the city;

(b) Coordinate the emergency management activities of all municipal departments and agencies of the city, nongovernmental agencies, and private sector partners;

(c) Be the liaison and cooperate with the emergency management agencies of the federal government, the state, the county, and the other political subdivisions therein;

(d) Develop an organizational structure for the office of emergency management, subject to the approval of the governing body and recommend appointments to fill the positions established therein subject to the city manager's authority;

(e) Manage the EOC; establish the overall structure, roles, responsibilities, and direction for the operation of the EOC; and ensure that the EOC is appropriately sited, staffed, equipped, and maintained;

(f) Maintain written emergency plans, including but not limited to all chapters, annexes, and appendices of the comprehensive emergency management plan and hazard

mitigation plan, and annually review the plans to identify any recommendations for revisions; and

(g) Maintain records documenting compliance with requirements of federal and state emergency management programs, including the NIMS.

(5) *Financing.*

(a) Funds for necessary expenses of the office of emergency management, including salaries for approved positions, may be made available through appropriations by the governing body in accordance with Section 12-10-7 NMSA 1978.

(b) The emergency manager shall prepare and submit to the governing body an annual proposed budget for emergency management expenditures and shall indicate those amounts eligible for matching funds under the federal grant programs.

(c) During an emergency, purchases may be exempt from the city's procurement code, as permitted pursuant to Section 11-13 SFCC 1987.

Section 2. [NEW SECTION] Creating Section 2-8.8 of SFCC 1987, retaining language from current Section 2-8.2 (B) (being Ord. No. 2023-11, § 1 as amended), to read as follows:

2-8.8 - Police Department.

(1) *Powers and duties generally.* Police officers shall execute and return all writs and processes directed to them by the municipal judge and, in criminal cases or cases of violations of city ordinances, they may serve the same in any part of the country. They shall suppress all riots, disturbances and breaches of the peace, apprehend all disorderly persons within the city and shall pursue and arrest any person fleeing from justice. They shall apprehend any person in the act of committing any offense against the laws of the state or the ordinances of the city, and forthwith bring such persons

before a competent authority for examination and trial. They shall have, in the discharge of their proper duties, like powers and be subject to like responsibilities as sheriffs or constables in similar cases.

(2) *Appointment of police officers; commissions.* No person shall assume or exercise the functions, powers, duties and privileges incident or belonging to the office of municipal police officers without first having received an appointment in writing, known as a "commission", from the governing body. The advice of the chief of police shall be obtained in the employment and commissioning of all police officers of the department.

(3) *Training schools and examinations.*

(a) There shall be held and conducted at such times as may be prescribed by the chief of police, with the approval of the governing body, schools for training in modern police methods and practices. The schools for training and the checking of the qualifications and general fitness of applicants for positions in the police department shall be under the direction and supervision of the chief of police.

(b) All members of the police department shall take such examinations as may be prescribed.

(c) In the taking of all written examinations there shall be assigned to each applicant a number which shall be endorsed on the applicant's examination papers, and the grading of the examinations shall be by number only.

(d) Except as otherwise provided, no member shall be retained in the police department and no applicant shall be appointed to the police department unless such member or applicant, after taking the prescribed training courses, has successfully passed the prescribed examinations, written and oral; provided, that the minimum educational

qualifications required by the City Personnel Act shall not apply to members of the present police department who are otherwise qualified under the provisions hereof; provided further, that in passing on the qualifications of members of the present police department, consideration shall be given to:

(i) Length of service and faithfulness to duty; and

(ii) General aptitude for police work as disclosed by the individual records of such members to be confirmed by oral examinations.

(4) *Extra or emergency police officers.* The city manager may employ on behalf of the city such extra or emergency police officers as may be required in the proper administration of municipal affairs.

(5) *Police department reserve.*

(a) *Created.* There is created the city "police department reserve force", hereinafter referred to as the "reserve".

(b) *Control by Chief of Police.* The reserve is under the exclusive control of the chief of the city police department who shall have the sole and exclusive authority to:

(i) Summarily discipline or dismiss members without appeal to any body or tribunal;

(ii) Approve or disapprove all bylaws, rules and regulations of the reserve; and

(iii) Approve or disapprove all officers, employees or agents of the reserve.

(c) *Authority.* The reserve and its individual members shall only have authority in law enforcement on specific request by the city police chief. A specific request shall be made for each individual instance of service.

(d) *Powers and Duties.*

(i) The duties of the reserve are to assist in enforcement of law by cooperating with all law enforcement agencies and regulatory bodies.

(ii) The reserve or its members when acting upon call, and only when acting upon call, of the city police chief, for the city or for another law enforcement agency or regulatory authority, shall be possessed of the same powers and duties as a city police officer or an officer of such law enforcement agency or regulatory authority.

(e) *Call of Members.* When the city police chief calls up the members of the reserve, the call shall be in writing, list the names of each member of the reserve called, the purpose of the call, and the date and time the call begins and terminates. Except when on call, reserve members shall have no more authority in law enforcement than that of any private citizen.

(f) *Requests for Assistance.* Should any law enforcement agency or regulatory body desire assistance from the reserve, the request shall be made to the city police chief who may authorize it, if:

(i) Reserve members are fully covered by the workman's compensation insurance policy of the assisted agency or body, and this is evidenced by a writing presented to the chief; and

(ii) Any and all liability that may arise against the city, its officers, employees or agents, the reserve, or its members as a result of such assistance, is assumed in writing by the assisted agency or body.

(g) *Worker's Compensation.* The city shall immediately take steps to provide necessary worker's compensation insurance for the reserve and necessary liability insurance covering liability that may arise against the city, its officers, employees or agents as a result of the activities of the reserve on behalf of the city. If any or a portion of such liability is to be self-insured, the self-insurance fund shall be increased accordingly.

Section 3. [NEW SECTION] Creating Section 2-8.9 of SFCC 1987, retaining

language from current Section 2-8.2 (C) (being Ord. No. 2023-11, § 1 as amended), to read as follows:

2.8.9 - Fire Department.

(1) *Department authority and powers.*

(a) Pursuant to Section 3-18-1F. and G. NMSA 1978 and 3-18-11B (1), the city may provide proper means for protection from fire and protect the property of its municipality and its inhabitants and preserve the health, safety, peace and order within the municipality. Therefore, the stated purpose of this subsection is to grant the fire department all authority necessary to protect life and property from the hazards created by fire, explosion, and similar emergencies.

(b) The fire department shall have full and complete authority in connection with fighting, mitigating, and preventing the spread of any fire that may arise within the city, with the power to do and perform all necessary or expedient acts for the fighting of fire. When called to a fire, the fire department shall have:

(i) Full and complete authority of the premises to which it has been summoned until the fire has been extinguished and the premises are deemed safe by the fire department; and

(ii) By emergency vehicle or by foot, the right of ingress and egress on all public or private streets, alleyways, roads, driveways, and thoroughfares located within the city limits or the city annexation areas.

(c) The fire department shall have full and complete authority in connection with the provision of prehospital emergency medical services within the city, with the power to do and perform all necessary or expedient acts for the provision of these services.

(d) The fire chief shall have full authority to sign agreements, approved by the city

attorney's office, with landowners to implement fire hazard mitigation activities.

(2) *Department members designated as special police officers.* Every member duly enrolled and in good standing in the fire department shall be a special police officer of the city with power to act as such from the time of the sounding of any fire alarm until the apparatus and equipment for fighting fire has been returned to the fire station.

(3) *Obstructing or interfering with firefighters.* It is unlawful for any person to obstruct or interfere with firefighters while in the discharge of their duties.

Reviewed by City Attorney: _____ **Date:** Dec 6, 2024

Reviewed by Finance Director: Emily K. Oster **Date:** Dec 6, 2024

Summary:
The proposed bill would amend SFCC 1987, Section 2-8.2 and create Sections 2-8.8 and 2-8.9. The Amendment to Section 2-8.2 would change the name of that Section from "Community Health and Safety Department" to the "Health and Human Services Department" and remove the subsections regarding the City of Santa Fe Police Department ("Police Department") and the City of Santa Fe Fire Department ("Fire Department"). The subsections regarding the Fire Department and the Police Department would be moved into the two newly created Sections: 2-8.8, "City of Santa Fe Police Department" and 2-8.9, "City of Santa Fe Fire Department".

Departments Affected:
Community Health and Safety Department, Fire Department, and Police Department.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City's Administration chapter of code would continue to include a Community Health and Safety Department rather than and Health and Human Services Department and would continue to list the Police and Fire Departments as part of the Community Health and Safety Department.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Ordinance No. 2020-22 established the Community Health and Safety Department and described that it had five divisions: the Community Services Department, Police Department, Fire Department, Recreation Division, and the Office of Emergency Management and Safety.
Ordinance No. 2023-11 later revised the section of code regarding the Community Health and Safety Department by removing language prescribing a "Recreation Division" as one of its divisions and by listing the Family and Youth Services as a component of the Community Services Department. It also removed the term "Safety" from the Office of Emergency Management and Safety to make it "Office of Emergency Management".

Performance and Administrative Implications:
If the Bill is adopted, the City would have a department called "Health and Human Services". In addition, the City's code would no longer prescribe that the Fire Department and the Police Department be in the same department with the Community Services Department and the Office of Emergency Management Department.

Fiscal Implications:
None.

RE: Mufflers Technical Correction

EXECUTIVE SUMMARY:
The bill would relocate sub-paragraphs A through G in Article I ("Definitions") in the Uniform Traffic Ordinance ("UTO"), Section 12-1-23.1, to Section 12-10-1.10 of Article X ("Vehicle Regulations"), "Mufflers - Prevention of Noise - Emission Control Devices". This change is technical in nature because the sub-paragraphs contain regulations for mufflers. The placement of regulations in a definitions section does not make sense and has contributed to instances of confusion.

BACKGROUND
In 2023, the Governing Body amended Section 12-1 via Ordinance 2023-2. It appears that a heading error resulted in the information being placed in Section 12-1-23.1 of Article I, "Definitions", rather than where it was intended: Section 12-10-1.10 of Article X "Mufflers- Prevention of Noise- Emission Control Devices".

A BILL

MAKING A TECHNICAL CORRECTION; RELOCATING SUBPARAGRAPHS A-G OF SECTION 12-1-23.1 OF ARTICLE I ("DEFINITIONS") OF EXHIBIT A, CHAPTER 24, SFCC 1987, TO SECTION 12-10-1.10 OF ARTICLE X ("VEHICLE REGULATIONS") OF THE SAME EXHIBIT.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 12-1-23.1 of Article I ("Definitions") to Exhibit A of Chapter 24 (Uniform Traffic Ordinance) of SFCC 1987 (being Ord. No. 2023-2) is amended to read as follows:

12-1-23.1 FACTORY-INSTALLED EXHAUST OPTION.

"Factory-Installed Exhaust Option" means an exhaust system for a motor vehicle that is offered as an option by the manufacturer and/or dealer to the purchaser that allows the driver of the motor vehicle to adjust the sound levels of the motor vehicle's exhaust. Examples of Factory-Installed Exhaust Option include, but are not limited to, Ford's Active Valve Performance Exhaust and Porsche's Porsche Sports Exhaust.

[~~A. Every motor vehicle shall at all times be equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise, and no person shall use a muffler cutout, muffler bypass, straight-through mufflers that do not contain baffles (including but not limited to glass packs, steel packs, and straight pipes), or similar device upon a motor vehicle on a street in this municipality.~~

~~B. The muffler, emission control equipment or device, engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke.~~

~~C. Every registered gasoline-fueled motor vehicle manufactured or assembled, commencing with the 1968 models, shall at all times be equipped and maintained in good working order with the factory-installed devices and equipment or their replacements designed to prevent, reduce, or control exhaust emissions or air pollution. Such devices or equipment shall not be modified in a manner which will amplify or increase the noise emitted by the motor of such vehicle above that emitted by a muffler of the type originally installed on the vehicle.~~

~~D. The use of a factory-installed exhaust option is prohibited and violates this ordinance if the noise emitted exceeds the decibel level reading described in Section 10.2-9.~~

~~E. Muffler changes or modification. No person shall sell, offer for sale, install or offer to install, modify or change the exhaust muffler, intake muffler, or any other noise abatement device of a motor vehicle in a way that increases or tends to increase the exhaust fumes, smoke, or noise from a motor vehicle. Such prohibited changes or modifications shall include, but not be limited to cut-outs, by-passes, and straight-through mufflers that do not contain baffles (including but not limited to glass packs, steel packs, and straight pipes).~~

~~F. For a first offense under paragraphs A, B, or C above, a person shall not be convicted if repairs are affected on the motor vehicle and the vehicle passes a compliance test within ninety (90) days of the citation being issued.~~

~~G. The city manager or the city manager's designee shall prescribe the compliance test based on the decibel levels identified as excessive in Section 10.2-9. A person cited under this section may rely on measured decibel levels from the compliance test as an affirmative defense in challenging a citation. (Ord. No. 2023-2 , § 1)~~]

Section 2. Section 12-10-1.10 of Article X ("VEHICLE REGULATIONS") of Exhibit A of Chapter 24 (Uniform Traffic Ordinance) of SFCC 1987 is amended to read as follows:

12-10-1.10 - MUFFLERS—PREVENTION OF NOISE—EMISSION CONTROL DEVICES.

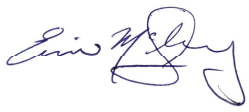
A. Every motor vehicle shall at all times be equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise, and no person shall use a muffler cutout, muffler bypass, straight-through mufflers that do not contain baffles (including but not limited to glass packs, steel packs, and straight pipes), or similar device upon a motor vehicle on a street in this municipality.

B. The muffler, emission control equipment or device, engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke.

C. Every registered gasoline-fueled motor vehicle manufactured or assembled, commencing with the 1968 models, shall at all times be equipped and maintained in good working order with the factory-installed devices and equipment or their replacements designed to prevent, reduce, or control exhaust emissions or air pollution. Such devices or equipment shall not be modified in a manner which will amplify or increase the noise emitted by the motor of such vehicle above that emitted by a muffler of the type originally installed on the vehicle. (66-3-844 NMSA 1978)

D. The use of a factory-installed exhaust option is prohibited and violates this

ordinance if the noise-emitted exceeds the decibel level reading described in Section 10.2-9.



E. Muffler changes or modification. No person shall sell, offer for sale, install or offer to install, modify or change the exhaust muffler, intake muffler, or any other noise abatement device of a motor vehicle in a way that increases or tends to increase the exhaust fumes, smoke, or noise from a motor vehicle. Such prohibited changes or modifications shall include, but not be limited to cut-outs, by-passes, and straight-through mufflers that do not contain baffles (including but not limited to glass packs, steel packs, and straight pipes).

F. For a first offense under paragraphs A, B, or C above, a person shall not be convicted if repairs are affected on the motor vehicle and the vehicle passes a compliance test within ninety (90) days of the citation being issued.

G. The city manager or the city manager's designee shall prescribe the compliance test based on the decibel levels identified as excessive in Section 10.2-9. A person cited under this section may rely on measured decibel levels from the compliance test as an affirmative defense in challenging a citation. *

RE: Change Fee Schedule for Muffler Noise Violation

EXECUTIVE SUMMARY:

The proposed bill would amend Schedule A of Exhibit A to Chapter 24, SFCC 1987, the Uniform Traffic Ordinance ("UTO"), to increase the penalties for first-time offenses of muffler noise violations, described in Section 12-10-1.10, from one-hundred dollars ($100.00) to five-hundred dollars ($500.00). The bill would also eliminate the concept of a graduated penalty scale, which currently employs a "2nd Offense" category resulting in a two-hundred fifty-dollar ($250.00) fine and after that, a "Subsequent Offenses" category resulting in a five-hundred-dollar ($500.00) fee. Instead, the bill proposes to eliminate the "Second Offense" category altogether and implement a five-hundred-dollar ($500.00) fee for any Muffler Noise Penalty Ordinance offenses after the first violation.

A BILL

AMENDING SCHEDULE A OF THE UNIFORM TRAFFIC ORDINANCE TO INCREASE PENALTIES FOR MUFFLER NOISE VIOLATIONS, ELIMINATE A DISTINCTION BETWEEN THE CATEGORIES "SECOND OFFENSE" AND "SUBSEQUENT VIOLATIONS", RECOGNIZE COMMUNITY SERVICE IS AN ALTERNATIVE TO ALL TRAFFIC VIOLATION PENALTIES UNDER THE CITY'S GENERAL PENALTY, AND ESTABLISH AN EFFECTIVE DATE.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Schedule A of Exhibit A of Chapter 24 (Uniform Traffic Ordinance) of SFCC 1987 (being Ord. No. 2023-2, as amended) is amended to read:

SCHEDULE A - TRAFFIC VIOLATION PENALTY ASSESSMENT SCHEDULE

ADOPTED: July 12, 2006 – Ord. No. 2006-24

AMENDED: March 25, 2009 – Ord. No. 2009-11

February 10, 2010 – Ord. No. 2010-2

June 29, 2011 – Ord. No. 2011-23

August 13, 2014 – Ord. No. 2014-26

February 24, 2021 – Ord. No. 2021-2

July 13, 2022 - Ord. No. 2022-11

January 25, 2023 - Ord. No. 2023-2

July 17, 2024 - Ord. No. 2024-4

SECTION 1.

This Exhibit may be cited as the city of Santa Fe traffic violation penalty assessment schedule for violations of the city of Santa Fe Uniform Traffic Code except those violations relating to parking which are set forth as Schedule B of the city of Santa Fe Uniform Traffic Code.

SECTION 2.

"Penalty assessment misdemeanor" means violation of the following listed sections of the city of Santa Fe Uniform Traffic Code for which the listed penalty assessment is established. The term "penalty assessment misdemeanor" does not include any violation which has caused or contributed to the cause of an accident resulting in injury or death to any person. When an alleged violator of a penalty assessment misdemeanor elects to accept a notice to appear in lieu of a notice of penalty assessment, the fine imposed upon late conviction shall not exceed the penalty assessment established for the particular penalty assessment misdemeanor and probation imposed upon a suspended or deferred sentence may include community service as contemplated in Section 1-3.1 and shall not exceed ninety days. (Ord. No. 2021-2, § 24)

[REMAINDER OF PAGE LEFT BLANK INTENTIONALLY]

COMMON NAME OF OFFENSE	SECTION VIOLATED	PENALTY ASSESSMENT
Obedience To Traffic-Control Devices/Failure To Stop	12-5-3	$25.00
Red Light	12-5-6	$25.00
Pedestrian Controls	12-5-7	$25.00

Summary:
The proposed bill would amend Schedule A of Exhibit A to Chapter 24 of the City's Code, the Uniform Traffic Ordinance, to increase the penalties described in 12-10-1.10 for first time offenses of muffler noise violations from $100.00 to $500.00. The bill would also eliminate the current gradual scale which increases fine amounts for successive penalties and instead would implement a $500.00 fee for any offense of the Muffler Noise Penalty ordinance.

Departments Affected:
Santa Fe Police Department and Municipal Court.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will continue to impose the current fines for noise violations.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Bill No. 2024-20 makes technical corrections to Section 12-10-1.10.

Performance and Administrative Implications:
None identified.

Fiscal Implications:
***According to data provided by the Santa Fe Municipal Court ("SFMC"), from April 2023 through September 2024, the Santa Fe Police Department issued 206 citations for muffler violations. The SFMC's judges (elected and pro tem) found defendants guilty in 114 of the 206 citations. In 38 muffler violation cases, the judges imposed a fine. In 2 of those 38 cases, the judges imposed a fine of $250, and in one case the judge imposed a $500 fine. For the 17 months of data, the monthly average number of cases in which judges imposed a fine is approximately 2.25 cases a month. Therefore, in a calendar year, the number of

cases in which the judge fines the defendant is approximately 27 cases, or $13,500 in fines. However, it is difficult to predict the number of violations for future years and if the court would impose a fine or defer the sentence or impose community service.

Fiscal Impact

RE: Changing Fireworks Display Requirements

EXECUTIVE SUMMARY:

State statute, NMSA 1978, Section 60-2C-9, requires that the Governing Body approve permits for public displays of fireworks. The proposed bill amends Section 12-3 of SFCC 1987, pertaining to the public display of fireworks. If approved, the bill would specify that legislation is not needed to approve permits for public firework displays and identifies the International Fire Code as the standard for the permitting of public displays of fireworks. The bill also requires operators to be certified and duly approved by the fire department.

RE: Allowing Ezee Fiber Texas LLC to operate a telecommunications network within the city of Santa Fe.

EXECUTIVE SUMMARY:

This Bill would allow Ezee Fiber Texas LLC (the "Applicant") to operate a telecommunications network and to provide telecommunications services to schools, governments (federal, state, City of Santa Fe ("City"), and tribal), commercial and retail customers within the city of Santa Fe limits ("city").

BACKGROUND:

SFCC 1987, Section 27-2, the Telecommunications Facilities in the Public Rights-of-Way Ordinance, states that telecommunications networks located within the public rights-of-way shall be authorized by franchise with the City of Santa Fe ("City"). The purpose of the ordinance is to permit competitively neutral and nondiscriminatory access to the public rights-of-way; to manage the public rights-of-way in order to minimize the impact and cost to the citizens of the placement of telecommunications facilities within the publics rights-of-way; to promote competition and encourage universal availability of services; to obtain fair and reasonable compensation for use of the rights-of-way; to minimize the congestion, inconvenience, visual impact, and other adverse effects on the City's public right-of-way; to protect public health, safety, and welfare, and to ensure continued quality of services; and to safeguard the rights of customers.

The Applicant has satisfied all City requirements outlined in SFCC 1987, Section 27-2.2, for obtaining a telecommunications franchise.

As compensation for use of the public's rights-of-way, the Applicant is required to pay the City an infrastructure maintenance franchise fee of two percent (2%) of all gross revenue charged by the

Applicant to service addresses in the city. The term of the franchise is ten (10) years, renewed annually thereafter, unless notification is provided by the Applicant.

ACTION:

This Bill requests approval of an ordinance granting Ezee Fiber Texas, LLC, a non-exclusive franchise to operate a telecommunications network within the city; the right to use City public rights-of-way to provide telecommunications services within the city; and fixing the terms and conditions thereof.

Memo Attachment – Ezee Fiber Texas LLC Application to Operate

CITY OF SANTA FE, NEW MEXICO

APPLICATION FOR TELECOMMUNICATION FRANCHISE

In accordance with Article 27-2 SFCC 1987, the City of Santa Fe (City) recognizes that the provision of telecommunications services is a highly technical enterprise subject to federal, state and local regulation. This application is designed to elicit necessary and required information to support the grant by the City of a franchise permitting use of the City's public rights-of-way for telecommunications facilities to provide telecommunications services.

Completion of this application is mandatory. The application is not considered complete until all questions have been answered and all attachments have been provided. If a specific question does not apply to an applicant, the applicant must enter the words "Not Applicable" or "N/A" in the space provided for an answer, and state why it is not applicable, e.g., "N/A – the proposed telecommunications system does not utilize antennas to transmit signals, but relies instead on a subsurface fiber-optic network." Any "Not Applicable" or "N/A" response not supported by an explanation will result in the application being deemed incomplete.

Every page of this application must be completed, initialed or signed where indicated and submitted to the City's Public Works Director at 500 Market Street Suite 200, Santa Fe, NM 87501, with a copy to the City Attorney's Office, 200 Lincoln Avenue, Santa Fe, NM 87501. The date the application is received in the office of the City's Public Works Director shall be the application date.

Questions regarding this form should be directed to the City of Santa Fe Public Works Director Director, by mail at Post Office Box 909, Santa Fe, NM 87504-0909; by telephone at 505.955.6622; or by e-mail at rawheeler@santafenm.gov .

CITY OF SANTA FE, NEW MEXICO
BILL NO. 2024-15

INTRODUCED BY:

Mayor Webber

A BILL

GRANTING EZEE FIBER TEXAS, LLC, A NON-EXCLUSIVE FRANCHISE, TO OPERATE A TELECOMMUNICATIONS NETWORK WITHIN THE CITY OF SANTA FE; THE RIGHT TO USE CITY PUBLIC RIGHTS-OF-WAY TO PROVIDE TELECOMMUNICATIONS SERVICES WITHIN THE CITY; AND FIXING THE TERMS AND CONDITIONS THEREOF.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Appendix G, Telecommunication Franchises, shall include a new Article VII, ordained to read as follows:

Section 1. - Legislative Findings. The governing body of the city of Santa Fe finds that:

A. The granting of a franchise to Ezee Fiber Texas, LLC. ("the Company"), is necessary for the access and use of public rights of way to provide telecommunications services within the city of Santa Fe ("city") limits in accordance with the terms and conditions of the Ordinance and the Telecommunications in the Public Rights of Way Ordinance, Article 27-2

underscored material = new [~~bracketed material~~] = delete

SFCC 1987 (“Section 27-2”).

B. The granting of such a franchise permits competitively neutral and nondiscriminatory access to the public rights of way for providers of telecommunications services; and allows the city to appropriately manage the public rights of way in order to minimize the impact and cost to the citizens of the placement of telecommunications facilities within the public rights of way.

C. The granting of a franchise promotes competition among telecommunications services providers and encourages the universal availability of telecommunications services to residents and businesses of the city through the careful management of public rights of way.

D. It is the intent of the city in the granting of the franchise to obtain fair and reasonable compensation for the use of public rights of way through the collection of fees and charges, and to minimize the congestion, inconvenience, visual impact, and other adverse effects on the public rights of way by Company’s commercial use of public rights of way.

E. To the extent permitted by state and federal law, the granting of a franchise allows the city to exercise such other powers, as the city may have to protect the public health, safety, and welfare, ensure the continued quality of telecommunications services, and safeguard the rights of consumers who are residents of the city.

F. In accordance with Article 27-2, Company submitted an application for a franchise on February 6, 2024.

G. The city is authorized to grant one or more non-exclusive franchises for telecommunications services within the city.

H. The city has reviewed Company’s application and has determined that granting a franchise in accordance with Article 27-2 is in the public interest and in the interest of the city and its residents.

I. This franchise, as it relates to the city’s costs, maintenance, management, and

necessary regulation of public rights of way, will assist in meeting the telecommunications related needs and interests of the community.

Section 2. Franchise Terms. In exchange for Company's compliance with the terms of this Ordinance, the provisions of Article 27--2, and other applicable city codes, there is hereby granted by the city to Company permission to use public rights-of-way to provide telecommunications services. All terms of Article 27-2 shall control Company's use of the public rights-of-way except as specifically set out in this Ordinance.

A. **Short Title; Purpose; Applicability.**

1. This Ordinance shall be cited as the "Ezee Fiber Texas FranchiseOrdinance".

2. The purpose of this Ordinance is to grant Company, the right, privilege, and authority to take the following actions:

(a) Furnish and distribute telecommunications services in the city, by means of its network, on, over, under, along and across public rights of- -way, now or hereafter included in the boundaries of the city as such boundaries now exist or may hereafter be extended; and

(b) Construct, purchase, acquire, locate, maintain, and extend into, within, and through the city, a telecommunications network for the period and upon the terms and conditions specified in this franchise comprised of all facilities and equipment used by Company to provide telecommunications services, including but not limited to "Backhaul Equipment" and "Wireless Communication Equipment."

This permission is not exclusive and does not prevent the city from issuing other franchises or authorizations or prevent the city itself from constructing or operating its own telecommunications network within the public rights of -way, with or without a franchise.

3. This franchise applies to the placement of telecommunications facilities

in the city's public rights-of-way.

B. **Definitions.**

Bad Debt means any portion of a debt that is related to a sale of telecommunications at retail, for which gross charges are not otherwise deductible or excludable, that has become worthless or uncollectible as determined under applicable federal income tax standards.

Department means the department of public works.

Gross Charge.

1. Includes all revenues derived directly or indirectly by a Provider from or in connection with the Telecommunications Services offered within the City through or by means of a Telecommunications Network within the City, exclusive of any Franchise Fee or tax passed through to consumers on behalf of governmental agencies, received by the Provider for services provided to customers through use of the Network. *Gross Charge* shall include any revenue received by a Provider or any Affiliate through any means that is intended to have the effect of evading the payment of compensation that would otherwise be paid to the City for Franchise Contract granted pursuant to this ordinance.

2. *Gross Charge* shall not include (i) proceeds from the sale of bonds, mortgages, or other evidence of indebtedness, securities, or stocks; or (ii) gross receipts taxes, bad debt write-offs, and customer credits; or (iii) revenue of any Affiliate or Provider from long distance service, commercial mobile radio service, cellular, personal communications service, other wireless communications service, or directory advertising. Each of the above are not included in the definition of *Gross Charge* and, therefore, are not included in the calculation of any fee due under a Franchise.

3. *Gross Charge* shall be measured and monitored periodically.

Sale of Telecommunications at Retail means the transmitting, supplying, or furnishing of telecommunications and all services rendered in connection therewith for consideration, other

than between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries, but only when the infrastructure maintenance fee imposed by this chapter previously has been paid to a retailer and the gross charge made by one such corporation to another such corporation is not greater than the gross charge paid to the retailer for use or consumption and not for resale.

Service Address means the location of telecommunications equipment from which telecommunications services are originated or at which telecommunications services are received. If this location is not a defined location, as in the case of wireless telecommunications, paging systems, maritime systems, air-to-ground systems and the like, "service address" shall mean the location of the customer's primary use of the telecommunications equipment as defined by the location in the city where bills are sent.

Telecommunications.

1. All transmissions between or among points specified by the user of information of the user's choosing (whether voice, video, or data), without change in the form or content of the information as sent and received, where such transmissions are accomplished by means of a Telecommunications Network.

2. *Telecommunications* shall not include cable services as defined in Title 47, Chapter 5, Subchapter V-A of the United States Code, as amended (47 USC § 521 et seq.) and shall not include telecommunications services provided and used by a public utility as that term is defined at NMSA 1978, § 62-3-3(G) , or successor statute, for (i) its internal system communication needs; and (ii) provided directly or indirectly to its customers, including but not limited to electronic meter reading, load control, demand side management, power quality monitoring, and other activities related to the delivery of electricity or natural gas.

Telecommunications Network means any System which includes facilities and/or equipment placed in the Public Rights-of-Way and used to provide any Telecommunications

Service.

Telecommunications Provider ("Provider") means:

1. Any Person who provides any Telecommunications Service within the City by means of the following methods:

(a) a Telecommunications Network owned by such Person or its Affiliate;

(b) specifically identifiable facilities of a Telecommunications Network reserved or made available for the use of such Person or its Affiliate under a lease or any other arrangement for a term longer than 120 days; or

(c) facilities of a Telecommunications Network not owned by such Person or its Affiliate and not specifically identifiable but obtained from another Person (including another Provider) if the use of such facilities is continuing and substantial. A Person owning or operating telecommunications facilities that merely pass through the City and such Person and facilities do not offer Telecommunications Service to subscribers within the City shall not be subject to this ordinance, provided that Person has received other appropriate authorization from the City to rent or occupy the Public Rights-of-Way.

2. Except to the extent that a *Provider* or a Person uses the Public Rights-of-Way, a *Provider* or any Person which provides commercial mobile radio service, cellular, personal communications service, or other wireless communications service shall not be subject to this ordinance with respect to such service.

Telecommunications Service. The offering of Telecommunications within the City for a fee directly to the public, or to such classes of users as to be effectively available directly to the public.

Trenchless excavation means any line installation, replacement or rehabilitation through the use of boring, jacking, horizontal drilling or tunneling.

Wireless Telecommunications includes cellular mobile telephone services, personal wireless services as defined in Section 704(C) of the Telecommunications Act of 1996 (Public Law Number 104-104), as now or hereafter amended, including all commercial mobile radio services and paging services.

C. **Infrastructure Maintenance Franchise Fee.**

1. Pursuant to the authority granted by NMSA 1978, section 3-42-1 and 47 U.S.C. § 253(c), there is hereby imposed an infrastructure maintenance franchise fee upon the Company at the rate of two percent (2%) of all gross charges charged by the Company to a service address in the city for telecommunications originating or received in the city.

2. The fee imposed by this chapter shall not be imposed in any circumstances in which the imposition of the fee would violate the Constitution or statutes of the United States.

D. **Filing Returns and Payment of Franchise Fee.**

1. On or before the last day of each quarter, the Company is required to pay the infrastructure maintenance fee imposed by this chapter and shall file with the City a remittance return and shall pay the fee attributable to gross charges for the preceding calendar month. The return shall contain such information as the director may reasonably require.

2. On or before the last day of the fourth quarter of 2024, the Company shall provide to the City a report certified by an independent certified public accountant attesting to the amount of the infrastructure maintenance fees paid to the department for the preceding calendar year, and that such amount complies with the requirements of this chapter.

E. **Collection of Additional Charges by Retailers.**

1. When the Company makes or effectuates a sale of telecommunications at retail, it shall pay the infrastructure maintenance fee to the department as provided by section C, of this chapter. The fee shall constitute a debt owed by the retailer to the city.

2. The retailer may charge each customer an additional charge in an amount equal to the infrastructure maintenance fee attributed to the customer's service address in the city. This additional charge to customers shall, when collected, be stated as a distinct item on the bill to each customer separate and apart from the retailer's gross charges to its customers for telecommunications.

3. Each retailer may retain 2% of the additional charges it collects under this chapter to reimburse itself for expenses incurred in connection with accounting for and remitting the fee to the department.

F. **Registration of Providers and Resellers.**

1. Within ninety (90) days after the effective date of the ordinance authorizing a franchise with the Company, the Company shall provide the name and address of every telecommunications reseller or other telecommunications company with whom the Company has a contractual relationship to provide telecommunications services or to make available telecommunications facilities in the public way. The Company shall have a continuing duty to file with the City, within 45 days after the date of occurrence of any changes in the information provided to the City, including the creation or termination of a contractual relationship described herein.

2. *Resales.* Whenever amounts are claimed to be excluded from gross charges as sales for resale, the reseller shall furnish to the Company the reseller's resale information. The Company shall retain the resale information with its books and records.

G. **Maintaining Books and Records.**

The Company shall keep accurate books and records of its business or activity, including original source documents and books of entry denoting the transactions that gave rise, or may have given rise, to any liability or exemption. All such books and records shall, at all times during business hours of the day, be subject to and available for inspection by the department with

twenty-four (24) hour notice.

H. **Insurance Requirements**. Company shall comply with the provisions of Section 27-2.9 SFCC 1987, and Company shall obtain and maintain in full force and effect throughout the term of this franchise the following types of insurance:

1. Commercial comprehensive general liability insurance; and

2. Workers' Compensation insurance, as required by law.

I. **Term of Franchise.** The term of this franchise, and the rights, privileges, and authority granted hereunder shall continue for a period of ten (10) years from the effective date hereof. The term of this franchise shall automatically be renewed annually unless Company provides notice to City of its intent not to renew at least thirty (30) days prior to expiration of the then current term. Company may surrender permits at any time and remove its telecommunications facilities at any particular location upon thirty (30) days' prior written notice to City. Company shall not be obligated to pay the franchise fee for such location following removal of its telecommunications facilities.

J. **Indemnity.** Company and City agree to defend, indemnify, and hold harmless each other and its officials, agents, volunteers, and employees from and against any and all claims, actions, suits, or proceedings of any kind brought against said parties because of any injury or damage received or sustained by any person, persons, or property arising out of or resulting from the activities of the indemnifying party pursuant to this franchise, except to the extent caused by the negligence or willful misconduct of the indemnitee or by reason of any asserted act or omission, neglect, or misconduct of the indemnitee, or its agents or employees, or any subcontractor or its agents or employees. The indemnity required hereunder shall not be limited by reason of the specification of any particular insurance coverage. Neither party shall be liable to the other for consequential, indirect or punitive damages (including lost revenues, loss of service, or loss of data) for any cause of action, whether in contract, tort or otherwise, even if the

party was or should have been aware of the possibility of these damages, whether under theory of contract, tort (including negligence), strict liability or otherwise. The maximum liability of either party to the other hereunder shall be the amount paid or payable during the preceding twelve (12) months.

K. **Violations and Penalties.** If the Company fails to pay the infrastructure maintenance franchise fee, as provided by this Chapter, the Company shall be subject to a fine of $100 for each day that the failure to pay continues. Each day that the Company fails to pay shall constitute a separate and distinct violation under this Chapter. Any retailer that becomes subject to this fine may be enjoined from doing business in the city until the Company has paid all sums due under this Chapter.

Any telecommunications company who otherwise violates this chapter shall be subject to a fine of $100 for each offense. Each day the violation continues shall constitute a separate offense.

L. Dispute Resolution Provision.

1. In the event of any other dispute arising from or relating to the franchise or breach thereof, and if the dispute cannot be settled through negotiations, the following process will be followed during which any of the above remedies and penalties may be imposed.

2. All disputes will be mediated prior to litigation. The costs of such mediation will be equally split. The place of the mediation session shall be in Santa Fe, New Mexico. The City and the Company will select a mediator or mediators by mutual agreement and, in cooperation with the mediator(s), shall determine all necessary rules and procedures for the mediation. The City and the Company will fully cooperate in the mediation activities. All mediation communications shall be confidential, not subject to disclosure and shall not be used as evidence in any arbitration, judicial, or administrative proceeding, as set forth in the Mediation Procedures Act, NMSA 1978, Sections 44-7b-1 through 44-7b-6.

M. **Unauthorized Use of Public Rights-Of-Way Unlawful.** In accordance with Section 27-2.8 SFCC 1987, Company shall not:

1. Use public rights-of-way without authorization to provide telecommunications services.

2. Place facilities on public structures or public utility infrastructure to provide telecommunications services which are not allowed under the terms of this franchise. Each unauthorized use shall be deemed to be a distinct and separate offense. The provisions of this paragraph do not apply to any dispute between the City and Company under this franchise where the City alleges that Company has failed to comply with the terms of this franchise.

N. **Obligations of Providers Regarding the Public Rights of Way.** The Provider shall comply with the provisions of Section 27-2.8 regarding the public right of way. Before the provider may conduct underground work involving excavation, new construction, or major relocation work in any public rights-of-way, the provider shall first notify the City through the acquisition of a street cut permit as per Section 23-2 SFCC 1987 and shall comply with any special conditions relating to location, scheduling, coordination, and public safety as more particularly described by Section 27-2.8.

O. **Compliance with Law.**

1. Company and City shall comply with the terms and conditions of Article 27-2 SFCC 1987 except as set forth herein, all other applicable City ordinances, and federal and state laws.

2. Company is explicitly subject to the police powers of the City, all other applicable governmental powers, and the city's rights under state and federal laws.

P. **Severability.** The requirements and provisions of this Ordinance and its sections, parts, subparts, paragraphs, and clauses are severable. In the event that any requirement, provision, section, part, subpart, paragraph, or clause of this Ordinance, or the application thereof

to any person or circumstance, is held by a court of competent jurisdiction to be invalid or unenforceable, it is the intent of the governing body that the remainder of the Ordinance be enforced to the maximum extent possible consistent with the purposes of this Ordinance.

Q. **Effective Date; Publication**. As provided by NMSA 1978, Section 3-42-1, this Ordinance shall not become effective until at least thirty (30) days after its adoption, during which time this Ordinance shall be twice published in full, not less than seven days apart. As required by law, Company shall pay the publication cost.

R. **Acceptance**. Company, within thirty (30) days of the date of adoption of this Ordinance, shall file with the city clerk an unconditional acceptance of this Ordinance, on a form prescribed by the city. Within ten (10) days after the filing of the acceptance, the city clerk shall acknowledge in writing the receipt of Company's acceptance. If Company does not file said acceptance this Ordinance shall not be or become effective.

S. **Notice.** For the purpose of this Ordinance:

1. Notice to the city shall be to:

City Manager
City of Santa Fe
Post Office Box 909
Santa Fe, New Mexico 87504-0909

With a copy to:

City Attorney
City of Santa Fe
Post Office Box 909
Santa Fe, New Mexico 87504-0909

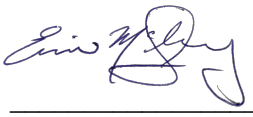
2. Notice to Company will be to:

General Manager, Southwest Region

Ezee Fiber Texas, LLC

14850 Woodham Drive

Suite B-105



Houston, TX 77073

Attn.: Carlos Rosa, Senior Vice President

3. Notice shall be effective upon delivery at the above addresses until the City or Company notifies the other in writing, of a change in address. All notices shall be delivered personally or sent by certified mail, return receipt requested to the parties at their respective addresses set forth above.

Legislation/2024/Bills/Granting Ezee Fiber Texas Franchise

FIR No. 10620

FISCAL IMPACT REPORT

General Information:

(Check) **Bill:** x **Resolution:** _____

Short Title(s): Granting Ezee Fiber Texas Franchise

Sponsor(s): Mayor Alan Webber

Reviewing Department(s): Public Works Department

Staff Completing FIR: Sean Moody **Date:** 23-July-24 **Phone:** (505) 995-6931

Reviewed by City Attorney: [signature] **Date:** Oct 4, 2024

Reviewed by Finance Director: Emily K. Oster **Date:** Oct 4, 2024

Summary:
This Bill would allow Ezee Fiber Texas, LLC, ("Applicant"), a non-exclusive franchise to operate a telecommunications network within the city of Santa Fe limits ("city"), the right to use public rights-of-way to provide telecommunications services within the city, and fixes the terms and conditions thereof. Granting this franchise will increase the number of competitive commercial options for obtaining internet service. As compensation for use of the publics rights-of-way, the Applicant would be required to pay the City of Santa Fe ("City") an infrastructure maintenance franchise fee of two percent (2%) of all gross revenue charged by the Applicant to service addresses in the city. The franchise fee revenue will accrue to the City's municipal general fund.

Departments Affected:
Public Works Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then the number of competitive commercial options for obtaining internet services would not increase.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Federal law requires competitively neutral and nondiscriminatory access to the public rights-of-way for telecommunications networks to promote competition among telecommunications services providers and to encourage the universal availability of telecommunications services to residents and businesses through careful management of the public rights-of-way. SFCC 1987, Section 27-2, the Telecommunications Facilities in the Publics Rights-of-Way Ordinance (Ordinance 2010-14), establishes a policy for use of the public rights-of-way for telecommunications in the city.

Performance and Administrative Implications:
Impacts to the public rights-of-way including street cuts, aerial work, temporary traffic controls and obstructions, require separate permitting by the Streets and Drainage Maintenance Division. Above-ground facilities require Land Use review.

Fiscal Implications:
The franchise imposes an infrastructure maintenance franchise fee of two precent (2%) of gross revenue charged by the provider to service addresses located within the city. Because the provider does not currently provide services within the city, recurring and non-recurring revenue is projected to be zero dollars ($) in Fiscal Years 2025, 2026, and 2027. The Applicant will need to build out its network as well as acquire customers.

Fiscal Impact

***See Fiscal Implications narrative above. Check here if no fiscal impact

Expenditures

Expenditure Type	FYE 2025	FYE 2026	FYE 2027	Require BAR (Y/N)	Recurring (R) or Non-recurring (NR)	Fund	3-Year Total Cost

CITY OF SANTA FE
NOTICE OF PUBLIC HEARING

Notice is hereby given that the Governing Body of the City of Santa Fe will hold a public hearing at their regular Governing Body Meeting at 7:00 p.m. on Wednesday, January 15, 2025.

The purpose of the public hearing will be to consider the following:

BILL NO. 2024-15. A Bill Granting Ezee Fiber Texas, LLC, a Non-Exclusive Franchise, to Operate a Telecommunications Network within the City of Santa Fe; the Right to use City Public Rights-of-Way to Provide Telecommunications Services within the City; and Fixing the Terms and Conditions Thereof. (Sean Moody, Project Administrator; sxmoody@santafenm.gov)

This bill is available in its entirety on the City's web site http://www.santafenm.gov (click on Departments/City Attorney/Legislative Services) or upon request and payment of a reasonable charge, in the City Clerk's Office, City Hall, 200 Lincoln Avenue, from 8:00 a.m. to 5:00 p.m., Monday through Friday.

Interested parties may view the meeting on the City's YouTube Channel: https://www.youtube.com/user/cityofsantafe. An agenda with complete information about meeting attendance and in-

structions to provide live public comment will be posted on the City's website no later than seventy-two (72) hours before the meeting: https://santafenm.portal.civicclerk.com/

The Governing Body shall review and consider all public input prior to taking action.

/s/Andréa Salazar, City Clerk/Director of Community Engagement

PUB: Dec. 5, 2024

CITY OF SANTA FE

Memorandum

Date: October 3, 2024

To: Governing Body and Quality of Life Committee

From: Geralyn F. Cardenas, Interim City Clerk

RE: Nominations to the Ethics and Campaign Review Board

EXECUTIVE SUMMARY:

This bill would remove the requirement that the First Judicial District Bar Association ("FJDBA") submit a list of eight (8) attorneys licensed to practice in New Mexico as nominees to sit on the City's Ethics and Campaign Review Board. The FJDBA requested this change.

The bill would require that the City Clerk's Office solicit member nominations from at least the following three sources: FJDBA, representatives of the New Mexico Board of Bar Commissioners who represent Santa Fe, the Santa Fe County League of Women Voters.

Fiscal Impact Report

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2024-16

INTRODUCED BY:

Mayor Alan Webber

A BILL

RELATED TO ETHICS AND CAMPAIGN REVIEW BOARD NOMINATIONS; AMENDING SECTION 6-16.1 OF SFCC 1987 TO REMOVE THE REQUIREMENT THAT THE FIRST JUDICIAL BAR ASSOCIATION SUBMIT A LIST OF EIGHT NOMINEES, FROM WHICH THE FOUR ATTORNEY MEMBERS MUST BE APPOINTED, AND REQUIRING THAT THE CITY CLERK SOLICIT NOMINATIONS FOR BOARD MEMBERS FROM AT LEAST THREE LOCAL SOURCES.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 6-16.1 of SFCC 1987 (being Ord. No. 2011-8, § 7, as amended) is amended to read:

A. **6-16.1 – Creation and Appointment.** *Creation*. There is created an "ethics and campaign review board ("the board").

B. *Appointment.*

(1) The board shall consist of seven (7) members appointed by the mayor, with the advice and consent of the city council, in the following manner:

(a) Four (4) [~~members appointed from a list of eight (8)~~] attorneys licensed to

underscored material = new [~~bracketed material~~] = delete

practice in New Mexico [~~submitted by the First Judicial District Bar Association~~].

(b) Three (3) members at large.

(2) The city clerk shall seek nominations to the board from the First Judicial District Bar Association, the New Mexico board of bar commissioners who represent the geographic area including the city of Santa Fe, and the Santa Fe County league of women voters.

[~~(2)~~] (3) Members shall be qualified by training and experience and have the ability to exercise sound and practical judgement regarding the powers and duties of the board.

[~~(3)~~] (4) Each member of the board shall be a resident of the city.

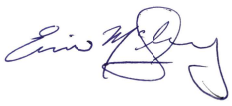
[~~(4)~~] (5) No member of the board shall be a member of the governing body, the city manager, the city attorney, the city clerk or a "public employee" or a member of the "family" of any of these persons (the quoted terms being used as defined in Section 1-7.5 SFCC 1987). No member of the board shall make a contribution to or participate in the campaign of any candidate for an elected municipal office.

C. *Chair and Subcommittees.* The board shall elect a chair and a vice-chair from among its members, and may organize subcommittees or panels to conduct hearings, recommend advisory opinions or preform other delegated tasks. The board may at any time act directly on any pending matter without subcommittee action or recommendation.

D. *Term*. Members shall be appointed for staggered terms of four (4) years ~~[beginning July 1, 2011~~]. The initial members shall draw lots to determine which three members serve an initial term of four years, which two members serve and initial term of three years and which two members serve an initial term of two years; thereafter all members shall serve four-year terms. Members shall serve until their successors are appointed and qualified. Members may be reappointed. A member who has participated in any hearing on a pending case involving an alleged violation of

the Code of Ethics, the Campaign Code or the Public Campaign Finance Code shall continue to serve as a board member for purposes of that case until the case is concluded, regardless of the expiration of that board member's term. Newley appointed board members shall not serve on cases in which hearings have already been held at the time of their appointment.

E. *Removal for Just Cause.* During a member's term, [~~her or she~~] the member may be removed only for just cause by a majority vote of the governing body.



F. *Vacancies.* A vacancy on the board shall be filled by appointment by the mayor, with the advice and consent of the city council, and the appointee shall serve for the remainder of the unexpired term. If the vacant position was originally filled by appointment from a list of nominees submitted by a particular group or organization, the appointment to fill the vacancy shall be made in the same manner.

G. *Compensation*. Members of the board shall not receive any salary or compensation for services.

H. *Meetings*. The board shall meet at least four (4) times yearly and on an as-needed basis.

Summary:
This bill would amend Section 6-16.1, SFCC 1987 to remove the requirement for the First Judicial Bar Association to submit a list of eight (8) attorneys licensed to practice in New Mexico to sit on the Ethics Campaign Review Board. Instead, the bill would require the City Clerk's Office to seek member nominations from the First Judicial District Bar Association, Representatives of the New Mexico Board of Bar Commissioners who represent Santa Fe, and the Santa Fe County League of Women Voters.

Departments Affected:
City Clerk's Office

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then the City's code would continue to require the First Judicial Bar Association to submit a list of eight (8) attorneys for the City of Santa Fe to select to sit on the Ethics and Campaign Review Board, despite the request by the Association that the ordinance not require it to make nominations.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None.

Performance and Administrative Implications:
The proposed bill would require the City Clerk's office to solicit member nominations from the First Judicial District Bar Association, from representatives of the New Mexico Board of Bar Commissioners who represent Santa Fe, and from the Santa Fe County League of Women's Voters for the Ethics and Campaign Review Board.

Fiscal Implications:
None.

RE: A Bill Approving the Sale of Buildings, Improvements, and Land at the Midtown Site, to ASPECT QOZB, LLC.

EXECUTIVE SUMMARY:
The City of Santa Fe ("City") and Midtown Santa Fe Productions QOF, LLC ("Offeror") entered into an Exclusive Negotiation Agreement on August 4, 2023, in order to negotiate a plan for Offeror to improve and purchase certain parcels of the Midtown Site, located at 1600 St Michaels Drive ("Property"). The proposed bill would approve the City and ASPECT QOZB, LLC ("Developer"), entering into a Development and Disposition Agreement (Agreement) for the Property. The DDA would requires a$5,000,000 payment, in four installments, required development of the property, and community benefits, if Purchaser completes all three phases of the purchase.

The date that the approved DDA goes into effect ("Effective Date") will be 45 days after the Bill is approved, unless a referendum is held. If a referendum is held and a majority of voters vote to approve the Ordinance, the Effective Date would be the date the election results are certified. If the majority of voters voted to disapprove the Ordinance, the Ordinance would not be effective and the Agreement would become obsolete.

NMSA 1987, Section 3-54-1, requires that the City approve the sale of City-owned property with an Ordinance. This Bill fulfills the City's requirement to comply with that statute. The purchase price consideration provided in this summary is further explained in a memorandum attached hereto called the Purchase Price Consideration for the Disposition and Development Agreement (DDA) by and between the City and Developer.

SUMMARY OF DEVELOPMENT AND DISPOSITION AGREEMENT

A. Introduction. The Agreement will set forth the terms and conditions of:

(i) Developer's obligation to design, develop and construct the Project (defined below) at the Property,

(ii) Developer's right to purchase the Property upon completion of the construction and satisfaction of certain related obligations,

(iii) the timeline, in relation to Developer's obligations, for the City's design and construction of roadway and other public improvements necessary for access to and use of the Project, and

(iv) the community benefit requirements that are required of Developer and its successors to satisfy after the purchase of the Property (as improved by Developer).

B. Project Requirements:

Project Overview: Developer's development and construction at the Property will be completed in three separate phases, as follows:

- "Phase 1" consists of the demolition of Onate Hall and the major renovation of the buildings currently known as Benildus Hall, Garson Studios (which includes "The Screen"), and Driscoll Hall, for the purpose of operating a state-of-the-art film and multi-media production studio and related office space, a publicly available theater or performance space, and a retail or restaurant space.
- "Phase 2" will include the construction of a multifamily residential building with at least 99 dwelling units (up to a maximum of 150 dwelling units), of which at least 15% will be affordable units subject to the City's inclusionary housing program.
- "Phase 3" will include the construction of either (i) a 65,000 square foot (or larger) film and multi-media production studio, or (ii) a comparable development project approved by the Governing Body that is complementary to and supportive of the film and multi-media production uses.

The buildings and other improvements contemplated as being constructed and installed for each Phase are collectively referred to as the "Private Improvements." The Private Improvements and the Property are collectively referred to as the "Project."

Financial Security: Developer will be required to provide a guaranty of performance and payment from its principal in connection with the initial Phase and a performance bond and a payment bond to the City with respect to the subsequent Phases, each of which will be in an amount sufficient to cover the cost of the construction of the applicable Private Improvements.

C. Master Plan Amendment: The uses contemplated for the Project are not all presently permitted under the Master Plan. As a condition precedent to the commencement of any construction at the Property, the MRA Office will need to submit and obtain approval for an amendment to the Master Plan that modifies the permitted uses at the Property to include addition uses previously not included, such as the housing mentioned above. If the additional uses are not approved, Developer will have the right to terminate the Agreement, upon which

City would return the Developer's deposit and neither the City nor Developer will have any further rights or obligations under the Agreement.

D. City Right-of-Way Improvements: The Agreement describes the City's responsibility for designing and constructing the public roadway improvements, storm drainage facilities, and related infrastructure lying within the areas of the Midtown Site that will be designated for public right of way, as described in the RFP. The Agreement describes that the City will use its best efforts to complete the portions of such public improvements necessary for Developer's use and operation of each Phase prior to Developer's completion of such Phase, provided that if the City is unable to timely complete the applicable public improvements, the City will not take any actions to impede the issuance to Developer of a certificate of occupancy for the completed Phase as a result of the City's delay so long as Developer constructs and installs temporary ADA improvements for access to such Phase in compliance with applicable law.

E. Developer's Purchase of the Property:

Purchase Price. The purchase price for the Property (the "Purchase Price") to be paid by Developer to the City is $5,000,000. On the Effective Date of the Agreement, Developer will pay an initial deposit of $1,000,000 ("Initial Deposit"), which amount is nonrefundable except in the event the amendment to the Master Plan is not approved.

Closing: Following the Initial Deposit, the City will continue to own the fee interest in the Property applicable to each Phase during Developer's construction of the Private Improvements for such Phase. Provided Developer is not in breach of the Agreement, the City will execute and record a quitclaim deed to the Property applicable to any Phase following Developer's receipt of the final certificates of occupancy for such Phase and the City's receipt of an installment payment of a portion of the Purchase Price, in the amount of $2,250,000 for Phase 1, $1,250,000 for Phase 2, and $500,000 for Phase 3.

F. Community Benefits:

- *Economic Impact Requirement*: Developer is required to cause film production companies operating at the Project to generate direct production expenditures in New Mexico of (i) at least $30,000,000 during the first five years of the Agreement, and (ii) at least $150,000,000, by the 15th year of the Agreement. If the Project fails to generate expenditures of at least the amounts set forth above, Developer will be required to pay a fee to the City of $25,000 per year per non-compliance event.
- *Economic Opportunity Requirement*: Developer is required to use commercially reasonable efforts to coordinate among local community organizations and certain employers operating at the Project from time to time to post or advertise employment opportunities available with such employers at the Project to local residents.

- *Commercial Use Requirement*: Developer is required to use commercially reasonable efforts to secure and maintain tenants for the retail space at Driscoll Hall that will continuously operate businesses open to the public during normal business hours.
- *Film Internship Requirement*: Developer is required to require that the production companies operating at the Property offer and fill an aggregate total of 20, six-week internships per year in partnership with a New Mexico-based film school or internship program, adjusted proportionally in relation to the percentage of leased studio space.
- *Cultural Elements Requirement*: Developer will (i) provide local community organizations access to the theater screen for at least eight days per year, (ii) coordinate with local community organizations to include within the programming for the theater space at least four events per year that promote the interests of a group historically subject to discrimination or otherwise underrepresented or of a cause supportive of any of such group's interests.
- *Educational Space Covenant*: The City will record a covenant against the Property requiring that at least 3,000 square feet of space in one of the buildings be used exclusively for educational uses (e.g., classroom study).

G. **Default Remedies**: If Developer defaults in its performance of any obligation under the Agreement beyond applicable notice and cure periods, in addition to other remedies available to the City, the City will have the right to terminate the Agreement, upon which the City may retake possession of the Property.

H. **Right of First Refusal**: During the five-year period following the completion of Phase I, if Developer receives an offer for the sale of any portion of the Property to a third-party that Developer desires to accept, the City will have a right of first refusal to purchase such portion of the Property on the terms and conditions set forth in the third-party offer.

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2024-19

INTRODUCED BY:

Mayor Alan Webber

A BILL

APPROVING THE SALE OF CITY-OWNED BUILDINGS, IMPROVEMENTS, AND SIX PARCELS LOCATED AT 1600 ST MICHAELS DRIVE WITHIN THE CITY AND COUNTY OF SANTA FE, NEW MEXICO, ASPECT QOZB, LLC, IN THREE PHASES, FOR A TOTAL OF $5,000,000.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. The City of Santa Fe ("City") hereby approves the sale of buildings, improvements, and land located at 1600 Saint Michaels Drive and further described in Section 3(A) below, to Aspect QOZB, LLC ("Purchaser"), with terms described in Section 3 below.

Section 2. This Ordinance shall be effective forty-five days after the date of adoption, unless a referendum is held pursuant to NMSA 1978, Section 3-54-1.

Section 3. Terms of the Sale:

A. Property to be Sold. The City agrees to sell its ownership interest in buildings, improvements, and land located at 1600 St. Michaels Drive in the City and County of Santa Fe, New Mexico, being more particularly described as follows to-wit: Ownership

interest in the buildings, improvements, and land which are located upon the six tracts of real estate more particularly described in Attachment A, the Development and Disposition Agreement ("Property").

B. The purpose for the municipality entering into the sale. The City issued a request for proposals for disposition of the Property and the Purchaser responded to that request. The City and the Purchaser entered into an Exclusive Negotiation Agreement on July 26, 2023, and, pursuant to this ordinance enter the attached Development and Disposition Agreement (Attachment A).

Amount of the Sale. The Purchaser shall pay $5,000,000 total in the following phases, as defined in Attachment A: $1,000,000.00 in cash on the Effective Date. Purchaser shall then pay $2,250,000 on the date of Phase 1 Closing, $1,250,000 at Phase 2 Closing, and $500,000 on the date of the Phase 3 Closing.

C. Time and Manner of the Sale. Closings shall comply with the statutory requirements in NMSA 1978, Section 3-54-1, and shall take place as described in in Article 10 of Attachment A.

D. Purchase "As Is". The Purchaser shall purchase the City's Property Interest in an "as is" condition with all known and latent defects. The City makes no representations or warranties as to the physical condition of the Property.

Section 4. This Ordinance shall be published as required by NMSA 1978, Sections 3-17-3 and 3-54-1.

Section 5. This Ordinance shall become effective forty-five (45) days after its adoption, unless a referendum election is held pursuant to NMSA 1978, Section 3-54-1.

Section 6. The City shall execute the necessary Quitclaim Deeds after the effective date of this ordinance, according to Exhibit A.

DEVELOPMENT AND DISPOSITION AGREEMENT

THIS DEVELOPMENT AND DISPOSITION AGREEMENT (this "**Agreement**") is entered into by and between the CITY OF SANTA FE, a municipal corporation and political subdivision of the State of New Mexico (the "**City**"), and ASPECT QOZB, LLC, a Delaware limited liability company ("**Developer**"), effective as of the Effective Date (defined below). The City and Developer are sometimes referred to herein individually as a "**Party**" and together as the "**Parties**."

RECITALS

A. The City owns the real property and improvements consisting of approximately 60 acres generally located within the block defined by Cerrillos Road, St. Michaels Drive, Llano Street, Siringo Road, and Camino Carlos Rey in the City of Santa Fe, County of Santa Fe, State of New Mexico, as generally depicted on Exhibit A attached hereto (the "**Midtown Site**").

B. By Resolution No. 2022-68, approved on November 30, 2022, the governing body of the City (the "**Governing Body**") adopted the Midtown Master Plan (the "**Master Plan**"), which, together with the Midtown Community Development Plan adopted on January 25, 2023 by Resolution No. 2023-5 (the "**Community Development Plan**"), sets forth the City's vision for development of the Midtown Site and establishes certain form-based zoning standards and certain other standards and policies for the future redevelopment of the Midtown Site as a sustainable, pedestrian-friendly, mixed-use neighborhood that provides employment and housing opportunities, improved mobility options, and access to recreation, public spaces, and cultural venues.

C. On August 9, 2023, the Governing Body, by Ordinance No. 2023-21, revised the City of Santa Fe metropolitan redevelopment code (the "**City Redevelopment Code**"), under which the Governing Body updated its ordinance establishing a metropolitan redevelopment agency (the "**MRA**"), comprised of the commission of the MRA (the "**MRA Commission**"), the director of the MRA ("**MRA Director**"), and staff, as the official body for making advisory recommendations to the Governing Body, at such time as an area is designated by the Governing Body with respect thereto, and for taking certain actions delegated to the MRA pursuant to the City Redevelopment Code. In the absence of a MRA Director, the City Manager or the City Manager's designee will act for the MRA Director hereunder.

D. The City released a Request for Proposals on December 1, 2022 (the "**Studio RFP**"), for the redevelopment and operation of the portion of the Midtown Site to, among other things, expand the existing film production studio facilities with the addition of more state-of-the art sound stages, pre- and post-production offices and work facilities to meet the needs of the industry and support film and multi-media production in the City, all as more specifically set forth in the Studio RFP. The City will subdivide the Property into parcels as set forth in Section 9.1 below.

E. Midtown Santa Fe Productions QOF, LLC, a Delaware limited liability company affiliated with Developer ("**QOF**"), submitted the only response to the Studio RFP on March 2, 2023, to redevelop the Property consistent with the Studio RFP (the "**Proposed Project**"). QOF proposed combining the Proposed Project with the adjacent Midtown Santa Fe Production Studio at the Shellaberger Property (defined below), and envisions that the combined projects will become the largest studio in northern New Mexico, featuring multi-family housing, six soundstages and nearly 180,000 square feet of production and support space across five different buildings.

F. Pursuant to the Studio RFP, the City established an Evaluation Committee to review and evaluate the response based on the factors set forth in the Studio RFP, following which the Evaluation Committee determined that QOF had the experience, qualifications, and capacity to implement the scope of work and achieve the vision and goals articulated in the Studio RFP.

G. The City and QOF entered into the Exclusive Negotiation Agreement approved by the Governing Body on July 26, 2023 (as extended, the "**ENA**"), for the redevelopment of the Proposed Project consistent with the Studio RFP. The ENA included, among other things, that the City and QOF would negotiate and enter into a disposition and development agreement setting forth the scope of the Proposed Project and the requirements and conditions for the design, development, operation and disposition of the completed Proposed Project.

H. The City intends to approve the Lease Agreement between the City and Developer attached hereto as Exhibit C (the "**Lease**"), for the purpose of leasing the Property to Developer to enable Developer to perform its obligations under this Agreement, until such time as the City conveys the Property (or a portion thereof) to Developer pursuant to the terms hereof.

I. Concurrently with Developer's lease of the Property, Developer will redevelop the Property in three phases (each, a "**Phase**" and, collectively, the "**Phases**"), as depicted on Exhibit B-1. The real property and the improvements now existing or hereinafter constructed pursuant to this Agreement, collectively, comprising the first, second and third Phases of the Property are referred to herein as "**Phase 1**", "**Phase 2**" and "**Phase 3**," respectively.

J. This Agreement sets forth the terms, conditions, covenants and obligations concerning (i) Developer's completion of the Private Improvements (defined below), (ii) the City's completion of the applicable Project ROW Improvements (defined below) applicable to Phase 1 and Phase 2, and (iii) the conveyance of each Phase to Developer upon satisfaction of the conditions for such Phase set forth in Article 10.

K. The City is authorized, pursuant to the City Code (defined below) to enter into a binding development and disposition agreement to carry out the plan for the development of the Property.

AGREEMENT

NOW THEREFORE, for and in consideration of the mutual promises, covenants and conditions contained herein, the receipt and sufficiency of which are hereby acknowledged, the City and Developer hereby agree that the foregoing recitals are true and correct and incorporated herein and as follows:

ARTICLE 1
DEFINITIONS

As used in this Agreement, the following terms shall have the following meanings:

1.1 "**ADA**" is defined in Section 20.1.

1.2 "**Adjacent Improvements**" is defined in Section 12.2.

1.3 "**Adjacent Land**" is defined in Section 12.2.

1.4 "**Affiliate**" means any Person (as defined below) which Controls, is Controlled by, or is under common Control with Developer.

1.5 "**Aggregate Spend Period**" is defined in Section 11.1.

1.6 "**Agreement**" is defined in the introductory paragraph.

1.7 "**Applicable Rules**" means, collectively, the provisions of this Agreement and the then-current versions of the following: (a) the City Code, including, but not limited to, the Midtown Local Innovation Corridor District adopted by the Governing Body on October 26, 2016 pursuant to Ordinance No. 2016-39, and all other rules, regulations, ordinances and officially adopted policies of the City; (b) the Master Plan, the Community Development Plan and the Plat (as of recordation thereof), in each case as may be amended pursuant to the City Code and this Agreement; and (c) any and all applicable local, state and federal laws, rules and regulations affecting the Property or otherwise applicable to the Parties. Subject to applicable laws, in the event of a conflict among the Applicable Rules, the more specific standard, limitation or requirement shall govern or prevail to the extent of the conflict. If neither standard is more specific, then the more stringent standard, limitation or requirement shall govern or prevail to the extent of the conflict unless otherwise specified by applicable laws.

1.8 "**Approvals**" is defined in Section 5.1.5.

1.9 "**Approved Designee**" has the meaning given in Section 15.1 of the Lease.

1.10 "**Approved Exceptions**" is defined in Section 10.5.5(a).

1.11 "**ArtHouse ROW Improvements**" is defined in Section 8.3.

1.12 "**Benildus Name**" is defined in Section 11.10.

1.13 "**Buildings**" is defined in Section 1.154.

1.14 "**Business Day**" means Monday through Friday and specifically excludes Federal, State, and City holidays and any additional days on which City offices are closed (other than essential services).

1.15 "**Certificate of Completion**" means a letter provided by the MRA Director for each Phase upon Developer's satisfactory achievement of Final Completion of such Phase, acknowledging satisfaction of the Private Improvement Project Specifications (defined below) required for each Phase.

1.16 "**City**" is defined in the introductory paragraph.

1.17 "**City Code**" means The Santa Fe City Code of 1987, as amended from time-to-time.

1.18 "**City Parties**" is defined in Section 5.5.

1.19 "**City Redevelopment Code**" is defined in Recital C above.

1.20 "**Claims**" is defined in Section 14.2.

1.21 "**Closing**" and "**Closings**" have the meaning set forth in Section 4.1.4.

1.22 "**Commercial Use Requirement**" is defined in Section 11.4.

1.23 "**Community Benefit Requirements**" is defined in Section 18.4.

1.24 "**Community Development Plan**" is defined in Recital B above.

1.25 "**Conceptual Plans**" means standard conceptual design and development plans required for development projects in the City of Santa Fe, including the following plans and information: dimensioned conceptual site plan(s) indicating building setbacks and frontages, circulation plans and landscape plans; conceptual building elevations indicating heights and massing, and conceptual renderings showing building elevations and site sections; and, as necessary, other concept drawings to indicate consistency with the Master Plan design concepts; together with the conceptual development program setting forth the number of buildings, square footage of building, space types, and uses, as well as any other conceptual uses, including affordability, that achieve requirements or goals of the Master Plan and Community Development Plan.

1.26 "**Construction Activities**" is defined in Section 12.1.

1.27 "**Construction Commencement**" or "**Commence Construction**" means, with respect to the construction of the applicable Private Improvements, such time as (a) the MRA Director has delivered to Developer a Notice to Proceed for the applicable Phase, (b) all Approvals required by any Governmental Authorities under the Applicable Rules have been issued, including payment of the required fees and the provision of required bonds, (c) Developer commences work or activities related to the grading, foundations, demolition or other site work at the Project, and (d) unless waived by the City, Developer has hosted a ground breaking ceremony in coordination with the City.

1.28 "**Consumer Price Index**" means the Consumer Price Index for All Urban Consumers for the West Region for all Items (1982-1984= 100) as published by the United States Department of Labor, Bureau of Labor Statistics. If the manner in which the Consumer Price Index is determined by the Bureau of Labor Statistics shall be substantially revised (including a change in the base index year), an adjustment shall be made by the City Manager in such revised index that produces results equivalent, as nearly as possible, to those which would have been obtained if the Consumer Price Index had not been so revised. If the Consumer Price Index is discontinued, then "Consumer Price Index" shall mean an index chosen by City Manager which is, in City Manager's reasonable judgment, comparable to the index specified above.

1.29 "**Control**" or "**Controlling**" (or any similar conjugated form thereof) means, when used with respect to any specified Person, the (a) possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities or other ownership interests, by contract or otherwise, and (b) ownership, directly or indirectly, in the aggregate, of at least 51% of the beneficial ownership interests of such Person.

1.30 "**Cultural Elements Requirements**" is defined in Section 11.6.

1.31 "**Deed**" is defined in Section 10.5.1.

1.32 "**Developer**" is defined in the introductory paragraph.

1.33 "**Developer Parties**" is defined in Section 12.1.

1.34 "**Developer's Principal**" means Phillip Gesue.

1.35 "**Developer's Share**" is defined in Section 8.3.

1.36 "**Discretionary Modifications**" is defined in Section 6.1

1.37 "**Disputes**" is defined in Section 20.26.

1.38 "**Driscoll Retail Space**" is defined in Section 7.1.5(b).

1.39 "**Economic Impact Benefit**" is defined in Section 11.1.

1.40 "**Effective Date**" is defined in Section 2.1.

1.41 "**Election Notice**" is defined in Section 19.1.

1.42 "**ENA**" is defined in Recital G above.

1.43 "**Environmental Laws**" means all federal, state and local environmental, health and safety statutes, as may from time to time be in effect, including but not limited to federal laws such as, but not limited to, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. §§ 9602 *et seq*., the Superfund Amendments and Reauthorization Act of 1986, 42 U.S.C. § 9601(20)(D), the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. §§ 6901 *et seq*., the Federal Water Pollution Control Act, as amended by the Clean Water Act Amendments of 1977, 33 U.S.C. §§ 1251 *et seq*. (CWA), the Clean Air Act of 1966, as amended, 42 U.S.C. §§ 7401 *et seq*., the Federal Insecticide, Fungicide and Rodenticide Act, 7 U.S.C. §§ 136 *et seq*., the Occupational Safety and Health Act, 29 U.S.C. §§ 651 *et seq*., the Safe Drinking Water Act, 42 U.S.C. §§ 300f *et seq*., the Toxic Substances Control Act, 15 U.S.C. §§ 2601 *et seq*., and any and all federal, state and local rules, regulations, authorizations, judgments, decrees, court decisions, concessions, grants, franchises, agreements, orders and other governmental restrictions and other agreements relating to the environment or to any Pollutants, as may from time to time be in effect.

1.44 "**Escrow Agent**" is defined in Section 8.3.

1.45 "**Escrow Amount**" is defined in Section 8.3.

1.46 "**Event of Default**" is defined in Section 18.1.

1.47 "**Film Internship Requirements**" is defined in Section 11.5.

1.48 "**Final Application**" is defined in Section 6.1.

1.49 "**Final Completion**" means, with respect to the applicable Phase, such time as (a) the Private Improvements for such Phase have been completed in accordance with the Final Design Plans and the Applicable Rules, subject only to minor punch list items (i.e., items that, individually and in

the aggregate, do not and will not prohibit, delay or adversely affect, under the Applicable Rules, the commencement and continued operation of business for the permitted use and can be corrected and completed within 60 days after identification), and if applicable, any land dedications required to be made and accepted by the City in accordance with the Applicable Rules, (b) a final or temporary certificate of occupancy (or its equivalent as the context requires) for all components of the applicable Private Improvements has been issued, (c) Developer has obtained all required approvals, permits, licenses, and certificates of any Governmental Authorities required under the Applicable Rules for the lawful occupancy and use of the applicable Private Improvements and applicable portion of the Property for its intended purpose, (d) the Developer has completed all obligations and liabilities of Developer set forth in this Agreement with respect to the Private Improvements for the applicable Phase to the City Manager's satisfaction, and (e) Developer has hosted a ribbon cutting ceremony in coordination with the City.

1.50 "**Final Design Plans**" means, collectively, the Phase 1 Component Final Design Plans, the Phase 2 Final Design Plans and the Phase 3 Final Design Plans.

1.51 "**Final Response Deadline**" is defined in Section 10.5.3.

1.52 "**Financial Statements**" is defined in Section 17.1.3.

1.53 "**Force Majeure Event**" is defined in Section 20.13.

1.54 "**Garson Name**" is defined in Section 11.10.

1.55 "**Gas Loop Declaration**" is defined in Section 8.6.1.

1.56 "**Gas Loop Regulations**" is defined in Section 8.6.1.

1.57 "**Guaranty**" is defined in Section 6.2.

1.58 "**Governance Documents**" is defined in Section 3.4.

1.59 "**Governing Body**" is defined in Recital B above.

1.60 "**Governmental Authorities**" means any and all federal, state, county, city, town, other municipal corporation, governmental or quasi-governmental board, agency, authority, department or body having jurisdiction over the Project.

1.61 "**Guaranty**" is defined in Section 6.2.

1.62 "**Historical Names**" is defined in Section 11.10.

1.63 "**Initial Spend Period**" is defined in Section 11.1.

1.64 "**IPRA**" means the New Mexico Inspection of Public Records Act (Sections 14-2-1 et seq., NMSA 1978).

1.65 "**Lease**" is defined in Recital H above.

1.66 "**Lease Term**" means the "Term" of the Lease, as such term is defined therein.

1.67 "**Leasing Deadline**" is defined in Section 11.4.

1.68 "**Legal Description**" is defined in Section 9.1.

1.69 "**Liabilities**" is defined in Section 5.5.

1.70 "**Lien**" is defined in Article 16.

1.71 "**Master Plan**" is defined in Recital B above.

1.72 "**Master Plan Amendment**" is defined in Section 6.1.

1.73 "**Midtown Engagement Partners**" means the community-based partners acting in concert with the City to provide outreach to the community, which partners are selected by the City from time to time.

1.74 "**Midtown Gas Loop**" is defined in Section 8.6.1.

1.75 "**Midtown ROW Improvements**" is defined in Section 8.1.

1.76 "**Midtown Site**" is defined in Recital A above.

1.77 "**Minimum Aggregate Amount**" is defined in Section 11.1.

1.78 "**Minimum Initial Amount**" is defined in Section 11.1.

1.79 "**Monetary Encumbrances**" is defined in Section 10.5.3.

1.80 "**MRA**" is defined in Recital C above.

1.81 "**MRA Director**" is defined in Recital C above.

1.82 "**New Exception**" is defined in Section 10.5.4.

1.83 "**New Exception Review Period**" is defined in Section 10.5.4.

1.84 "**Non-Compliance Fee**" is defined in Section 18.4.

1.85 "**Notice to Proceed**" means written notice from the MRA Director to Developer confirming that the conditions precedent to the commencement of a particular Phase have been satisfied.

1.86 "**Objection Deadline**" is defined in Section 10.5.3.

1.87 "**Objection Notice**" is defined in Section 10.5.3.

1.88 "**Offer Contract**" is defined in Section 19.2.

1.89 "**Offer Contract Deadline**" is defined in Section 19.2.

1.90 "**Offer Land**" is defined in Section 19.1.

1.91 "**Offer Notice**" is defined in Section 19.1.

1.92 "**Offer Party**" is defined in Section 19.1.

1.93 "**Official Records**" is defined in Section 20.3.

1.94 "**Party**" and "**Parties**" are defined in the introductory paragraph.

1.95 "**Permitted Exceptions**" is defined in Section 10.5.5.

1.96 "**Person**" means any individual, partnership, corporation, limited liability company, trust, estate, other legal entity or Governmental Authorities.

1.97 "**Phase**" is defined in Recital I above.

1.98 "**Phase 1**", "**Phase 2**", and "**Phase 3**" are defined in Recital I above.

1.99 "**Phase 1 Building Permit Submission Date**" is defined in Section 5.2.7.

1.100 "**Phase 1 Closing**" is defined in Section 10.2.2.

1.101 "**Phase 1 Closing Conditions**" is defined in Section 10.2.1.

1.102 "**Phase 1 Closing Date**" is defined in Section 10.2.2.

1.103 "**Phase 1 Commencement Date**" is defined in Section 5.2.8.

1.104 "**Phase 1 Component Final Design Plans**" is defined in Section 5.2.4.

1.105 "**Phase 1 Conceptual Plans**" is defined in Section 5.2.1.

1.106 "**Phase 1 Conveyance**" is defined in Section 10.2.1.

1.107 "**Phase 1 Final Completion Date**" means the date Developer achieves Final Completion of the Phase 1 Improvements.

1.108 "**Phase 1 Improvements**" is defined in Section 7.1.

1.109 "**Phase 1 MRA-Approved Component Design Plans**" is defined in Section 5.2.3.

1.110 "**Phase 1 Preliminary Component Design Plans**" is defined in Section 5.2.2.

1.111 "**Phase 1 Purchase Installment**" is defined in Section 4.1.2.

1.112 "**Phase 1 Purchase Notice**" is defined in Section 10.2.1(b).

1.113 "**Phase 2 Building Permit Submission Date**" is defined in Section 5.3.7.

1.114 "**Phase 2 Closing**" is defined in Section 10.3.2.

1.115 "**Phase 2 Closing Conditions**" is defined in Section 10.3.1.

1.116 "**Phase 2 Closing Date**" is defined in Section 10.3.2.

1.117 "**Phase 2 Commencement Date**" is defined in Section 5.2.8.

1.118 "**Phase 2 Conceptual Plans**" is defined in Section 5.3.1.

1.119 "**Phase 2 Conveyance**" is defined in Section 10.3.1.

1.120 "**Phase 2 Final Design Plans**" is defined in Section 5.3.4.

1.121 "**Phase 2 Improvements**" is defined in Section 7.2.

1.122 "**Phase 2 MRA-Approved Conceptual Plans**" is defined in Section 5.3.1.

1.123 "**Phase 2 MRA-Approved Design Plans**" is defined in Section 5.3.3.

1.124 "**Phase 2 Preliminary Design Plans**" is defined in Section 5.3.2.

1.125 "**Phase 2 Purchase Installment**" is defined in Section 4.1.3.

1.126 "**Phase 2 Purchase Notice**" is defined in Section 10.3.1(b).

1.127 "**Phase 3 Closing**" is defined in Section 10.4.2.

1.128 "**Phase 3 Closing Conditions**" is defined in Section 10.4.1.

1.129 "**Phase 3 Closing Date**" is defined in Section 10.4.2.

1.130 "**Phase 3 Commencement Date**" is defined in Section 5.4.8.

1.131 "**Phase 3 Conceptual Plans**" is defined in Section 5.4.1.

1.132 "**Phase 3 Conveyance**" is defined in Section 10.4.1.

1.133 "**Phase 3 Final Design Plans**" is defined in Section 5.4.4

1.134 "**Phase 3 Improvements**" is defined in Section 7.3.

1.135 "**Phase 3 MRA-Approved Conceptual Plans**" is defined in Section 5.4.1.

1.136 "**Phase 3 MRA-Approved Design Plans**" is defined in Section 5.4.3.

1.137 "**Phase 3 Preliminary Design Plans**" is defined in Section 5.4.2.

1.138 "**Phase 3 Purchase Installment**" is defined in Section 4.1.4.

1.139 "**Phase 3 Purchase Notice**" is defined in Section 10.4.1(c).

1.140 "**Phasing Plan**" is defined in Section 8.5.

1.141 "**Plans and Specifications**" means collectively any and all plans, site plans, specifications, architectural drawings, renderings, plans, plats, agreements, contracts, permits, certificates, entitlements and approvals, reports, assessments, studies, and surveys relating to the Property.

1.142 "**Plat**" is defined in Section 9.1.

1.143 "**Pollutant**" means any material, waste or substance that is now or may become regulated or governed by any Environmental Laws, or the presence of which requires investigation under any Environmental Laws, or any flammable, explosive, corrosive, reactive, carcinogenic, radioactive material, hazardous waste, toxic substance or related material and any other substance or material defined or designated as a hazardous or toxic substance, material or waste by any Environmental Laws.

1.144 "**Preliminary Approval Notice**" is defined in Section 5.2.

1.145 "**Preliminary Design Plans**" include detailed and dimensioned site plans indicating building setbacks and frontages, vehicular circulation, areas for parking and deliveries, pedestrian and bicycle circulation areas and facilities; landscape plans indicating plant and color palette, outdoor amenities, and materials identification; building elevations and floor plans indicating facade materials, color, entries/exits, and design features; site sections and general description of building systems, construction type, and green-building features, (for building rehabilitation, a general description of code compliance, accessibility, fire, health, and safety improvements) to indicate the design and construction intent of the proposed development, and consistency with the Master Plan. Preliminary Design Plans also includes a detailed development program with square footage of building area, space types, and uses, as well as any uses, including affordability, that achieve requirements or goals of the Master Plan and Community Development Plan.

1.146 "**Preliminary Disapproval Notice**" is defined in Section 5.2.

1.147 "**Private Improvement Project Specifications**" means, individually or collectively, as applicable, the obligations set forth in Article 7 required to be performed by Developer in order to achieve Final Completion of the Private Improvements for each Phase.

1.148 "**Private Improvements**" means, individually or collectively, as applicable, the Phase 1 Improvements, the Phase 2 Improvements, and the Phase 3 Improvements, or the applicable portion thereof.

1.149 "**Prohibited Person**" means any of the following: (a) a Person that is listed in the Annex to, or is otherwise subject to the provisions of, Executive Order No. 13224 on Terrorist Financing (effective September 24, 2001) (the "**Executive Order**"); (b) a Person owned or controlled by, or acting for or on behalf of any person or entity that is listed in the Annex to, or is otherwise

subject to the provisions of, the Executive Order; (c) a Person that is named as a "specially designated national" or "blocked person" on the most current list published by the U.S. Treasury Department's Office of Foreign Assets Control ("**OFAC**") at its official website, https://ofac.treasury.gov/sanctions-list-service; (d) a Person that is otherwise the target of any economic sanctions program currently administered by OFAC; or (e) a Person that is affiliated with any person or entity identified in clause (a), (b), (c) and/or (d) above.

1.150 "**Project**" means the Proposed Project, as developed and operated by Developer pursuant to the terms of this Agreement, including, but not limited to Developer's obligations under Article 7 and Article 11.

1.151 "**Project Employer**" is defined in Section 11.3.

1.152 "**Project Employment Opportunities**" is defined in Section 11.3.

1.153 "**Project ROW Improvements**" is defined in Section 8.1.

1.154 "**Property**" means the approximately 11 acres of land, together with the buildings known as Benildus Hall, Onate Hall, Driscoll Fitness Center and Garson Studios (collectively, the "**Buildings**"), and all other existing accessory structures and improvements located thereon, and rights of egress across adjacent roadways, located within in the Midtown Site and generally depicted on Exhibit B-1.

1.155 "**Proposed Project**" is defined in Recital E above.

1.156 "**Purchase Price**" is defined in Section 4.1.

1.157 "**QOF**" is defined in Recital E above.

1.158 "**Qualified Expenditures**" is defined in Section 11.1.

1.159 "**Qualified New Mexico Film School**" means any of the following: (a) a state authorized (in accordance with the Post-Secondary Educational Institution Act) or publicly-funded academic, vocational, technical, business, professional, or other post-secondary or other organization or Person offering or purporting to offer a curriculum that includes courses, instruction, training, or education in film and/or television production from a physical site in New Mexico; or (b) a nonprofit organization having a principal office in New Mexico that provides training and or academic curriculum in the film industry in partnership with a New Mexico-based film trade union.

1.160 "**Qualified New Mexico Internship Program**" means an internship program based in the State of New Mexico that offers on-the-job training to individuals pursuing or considering a career in the film or television industry.

1.161 "**Quarterly Construction Report**" is defined in Section 17.1.1.

1.162 "**Report**" is defined in Section 17.1.1.

1.163 "**Required Uses**" is defined in Section 6.1

1.164 "**Residential Project**" is defined in Section 7.2.

1.165 "**Response Deadline**" is defined in Section 10.5.3.

1.166 "**Response Notice**" is defined in Section 10.5.3.

1.167 "**Right of Way Plans**" is defined in Section 8.1.

1.168 "**Right of Way Schedule**" is defined in Section 8.2.

1.169 "**Shellaberger Property**" means the real property and improvements owned by Developer or an Affiliate of Developer and located at 1954 Siringo Road, Santa Fe, New Mexico 87505.

1.170 "**Solar Facilities**" is defined in Section 7.2.

1.171 "**Studio RFP**" is defined in Recital D above.

1.172 "**Survey**" is defined in Section 10.5.2.

1.173 "**Term**" is defined in Section 2.2.

1.174 "**Termination Event**" is defined in Section 18.2.1(b).

1.175 "**The Screen**" means the 165-seat theater located within the building known as Garson Studios.

1.176 "**TIF District**" is defined in Section 11.9.

1.177 "**Title Commitment**" is defined in Section 10.5.2.

1.178 "**Title Company**" is defined in Section 10.1.

1.179 "**Title Documents**" is defined in Section 10.5.2.

1.180 "**Title Objections**" is defined in Section 10.5.3.

1.181 "**Title Policy**" is defined in Section 10.5.2.

1.182 "**Title Receipt Deadline**" is defined in Section 10.5.2.

1.183 "**Transfer**" is defined in Section 15.1.

1.184 "**Uncontrollable Events**" means the occurrence of any (a) Force Majeure Event, (b) delay caused by Developer Parties, including Developer Parties' interference or failure to cooperate with the City's design and construction of the Midtown ROW Improvements, and/or (c) insufficiency of appropriations or authorizations as set forth in Section 20.29, that adversely impacts the ability of the City to complete any portion of the Project ROW Improvements.

1.185 "**Utilities**" is defined in Section 8.6.2.

1.186 "**Utilities Agreement**" is defined in Section 8.6.2.

ARTICLE 2
EFFECTIVE DATE; TERM OF AGREEMENT

2.1 Effective Date. This Agreement shall become effective on the date that is 45 days after the Governing Body adopts an ordinance approving this Agreement (the "**Effective Date**"); provided, however, if a referendum election is held, as required by Section 3-54-1, NMSA 1978, the Effective Date shall be suspended pending the outcome of the referendum election. If the results of the election are in favor of this Agreement, the Effective Date will commence on the date of the certification of a favorable election. If the referendum election results are against this Agreement, this Agreement shall be immediately null and void. Notwithstanding the foregoing, if the City has not recorded a new plat map to subdivide the Property into parcels (the "**Plat**") in the real property records of the Clerk's Office of Santa Fe County, New Mexico ("**Official Records**") prior to the Effective Date, the Effective Date shall be suspended until the recording date of the Plat.

2.2 Term. The term of this Agreement (the "**Term**") shall commence upon the Effective Date and shall continue until the earlier of (i) the expiration of the Lease, (ii) the consummation of the Phase 3 Conveyance, or (iii) the City's notice of termination pursuant to Article 18, provided that the provisions of Article 11 shall continue in effect for the duration of the terms set forth therein.

2.3 Lease. Concurrently herewith, the City and Developer shall enter into the Lease on the form attached hereto as Exhibit C, pursuant to which the City will lease the Property to Developer during the Lease Term for Developer to access, construct and operate the Project, all on the terms and conditions set forth herein and in the Lease.

2.4 Furniture, Fixtures & Equipment. As of the Effective Date, for good and valuable consideration forming a portion of the Initial Deposit, the sufficiency of which is hereby acknowledged, the City hereby conveys to Developer all furniture, fixtures and equipment located within or affixed to any Building at the Property.

ARTICLE 3
DEVELOPER REPRESENTATIONS, WARRANTIES AND COVENANTS

From and after the Effective Date, Developer represents and warrants to the City that:

3.1 Developer is a limited liability company duly organized, validly existing and in good standing under the laws of the State of Delaware, and has its principal office at 1954 Siringo Road, Santa Fe, New Mexico 87505. Developer is in good standing under the laws of the state of New Mexico.

3.2 Developer has full power and authority to execute, deliver and perform its obligations under this Agreement, and has taken all required entity actions and obtained all required approvals therefor, if any, and no other approvals or consents not obtained by Developer as of the Effective Date are necessary in connection with Developer's execution of or performance of obligations under this Agreement.

3.3 The individual signing this Agreement on behalf of Developer is authorized to sign this Agreement on Developer's behalf and to bind Developer hereto, and this Agreement is binding upon and enforceable against Developer in accordance with its terms.

3.4 The execution and delivery of this Agreement, the consummation of the transactions contemplated hereby, and Developer's compliance with the terms and conditions of this Agreement will not violate the terms of Developer's certificate of formation or limited liability company agreement (collectively, the "**Governance Documents**"), true and complete copies of which have been provided to the MRA Director prior to the Effective Date, or conflict with or result in a breach of any of the terms, conditions, or provisions of any restriction, agreement, or any instrument to which Developer is a party or by which it is bound, nor will it result in the creation or imposition of any prohibited lien, charge, or encumbrance of any nature whatsoever upon the Property or the Project, except for any permitted encumbrances.

3.5 Developer shall not amend or change its Governance Documents, including the addition of members or partners, in any manner that would conflict with or result in a breach of the terms of this Agreement.

3.6 Neither Developer nor Developer's Principal has (a) made a general assignment for the benefit of creditors, (b) filed for any voluntary petition in bankruptcy or, to Developer's knowledge, suffered the filing of an involuntary petition by Developer's creditors, (c) suffered the appointment of a receiver to take possession (or the attachment or other judicial seizure) of all, or substantially all, of such Person's assets, (d) admitted in writing its inability to pay its debts as they generally come due or (e) made an offer of settlement, extension or composition to its creditors generally.

3.7 There are no legal actions or proceedings pending or, to Developer's knowledge, threatened against Developer which would, if adversely determined, have a material adverse effect on Developer or the ability of Developer to perform its obligations under this Agreement.

3.8 Neither any member of the Governing Body nor any officer or employee of the City has any direct, indirect, legal, or beneficial interest in Developer, the Project, this Agreement or in any contract or agreement between the City and Developer or in any franchise, concession, right or privilege of any nature granted by the City to Developer in this Agreement.

3.9 Developer is not a Prohibited Person.

3.10 This Agreement is entered into by Developer without collusion on the part of Developer with any Person, without fraud and in good faith.

3.11 No gratuities, in the form of entertainment, gifts or otherwise, were, or during the Term of this Agreement, will be offered or given by Developer or any agent or representative of Developer to any officer or employee of the City with a view towards securing this Agreement or for securing more favorable treatment in connection with any matter hereunder for which a determination or performance invokes the City's discretion.

3.12 All members and officers of Developer, as well as all Persons (or their principals) holding an interest in any member of Developer, are set forth on Exhibit D attached hereto, and Developer shall provide the City with written notification of any change of Control of Developer within 30 days after any such change through the Term of this Agreement.

3.13 Developer has sufficient funds to enable Developer to develop and complete the construction of the Phase 1 Improvements and pay all fees and expenses necessary or related thereto, and prior to the commencement of construction of the Phase 2 Improvements and Phase 3 Improvements, Developer shall have sufficient funds and/or binding commitments from third parties to provide such funds to enable Developer to develop and complete the Phase 2 Improvements and Phase 3 Improvements and to pay all fees and expenses necessary or related thereto.

ARTICLE 4
PROJECT CONSIDERATION

4.1 Consideration. The purchase price for the Property (the "**Purchase Price**") to be paid by Developer to the City is $5,000,000.00. The Purchase Price, subject to the prorations and adjustments as provided in Article 10, shall be payable by Developer in immediately available funds as follows:

4.1.1 *Initial Deposit*. A portion of the Purchase Price in the amount of $1,000,000.00 (the "**Initial Deposit**") shall be payable in full on the Effective Date. The Initial Deposit shall be nonrefundable to Developer, except in the event Developer terminates this Agreement in accordance with Section 6.1 (Master Plan Amendment) or Section 18.6 (City Default).

4.1.2 *Phase 1 Purchase Installment*. A portion of the Purchase Price in the amount of $2,250,000 (the "**Phase 1 Purchase Installment**") shall be payable in full at the Phase 1 Closing.

4.1.3 *Phase 2 Purchase Installment*. A portion of the Purchase Price in the amount of $1,250,000 (the "**Phase 2 Purchase Installment**") shall be payable in full at the Phase 2 Closing.

4.1.4 *Phase 3 Purchase Installment*. A portion of the Purchase Price in the amount of $500,000 (the "**Phase 3 Purchase Installment**") shall be payable in full at the Phase 3 Closing. The Phase 1 Closing, Phase 2 Closing and Phase 3 Closing are referred to herein, collectively, as the "**Closings**" and, individually, as a "**Closing**."

ARTICLE 5
DEVELOPER ROLE; PROJECT APPROVALS AND TIMELINE

5.1 Developer Role. Developer shall be responsible for the overall conceptualization, design, and construction of the Project in accordance with the Final Design Plans and the Applicable Rules. In connection with the foregoing, Developer shall be responsible, at its sole cost and expense, for the entitlement, development, construction, and operation of the Project, including without limitation:

5.1.1 Assembling a Project team with the necessary expertise, experience, and capacity to develop and manage the Project.

5.1.2 Attending and/or facilitating public forums, hearings, and briefings with relevant stakeholders, adjacent neighborhood associations, the Governing Body, elected officials, City agencies, and other organizations as required to obtain the final permits for the Project.

5.1.3 Designing all Private Improvements related to the Project.

5.1.4 Securing all financing for the Project, including horizontal and vertical development and construction cost, acquisition costs, pre-development costs, soft costs, off-site costs, and infrastructure costs.

5.1.5 Preparing, processing and obtaining in a timely manner all required approvals, permits, licenses, and certificate(s) of any Governmental Authorities relating to the development and construction of the Project required under the Applicable Rules (collectively, as applicable, "**Approvals**").

5.1.6 Constructing the Project in accordance with the Approvals, and in compliance with the Project Standards. For purposes of this Agreement, "**Project Standards**" means the general standards of quality for construction, maintenance, operations, security and other activities applicable to the Project's use, in a first class manner consistent with reputable business standards and practices typical of similar projects within the Santa Fe metropolitan area.

5.1.7 Maintaining and operating the Project, including the community benefits set forth in Article 11, in compliance with the Project Standards.

5.1.8 Paying all property taxes and other taxes associated with the Project in accordance with this Agreement and the Lease.

5.2 Phase 1 Plans; Phase 1 Construction Schedule.

5.2.1 *Conceptual Plans*. Developer previously submitted its Conceptual Plans for Phase 1 to the MRA Director in the form attached hereto as Exhibit E (the "**Phase 1 Conceptual Plans**"), which Phase 1 Conceptual Plans have been reviewed by the MRA Director and deemed to be consistent with the Master Plan and Community Development Plan.

5.2.2 *Design Plans*. At least 30 days before Developer submits an application to the City and the State of New Mexico Construction Industries Division (the "**State CID**") for development plan and/or building permit approval for each component of Phase 1, Developer shall deliver to the MRA Director its Preliminary Design Plans for each such component of Phase 1 (the "**Phase 1 Preliminary Component Design Plans**"). The Phase 1 Preliminary Component Design Plans shall be in a format customarily acceptable to the City of Santa Fe Planning and Land Use Department. In addition to the foregoing, Developer shall provide a written affidavit to the City (a) setting forth Developer's estimate, based on Developer's initial modeling, of the total points the Phase 1 Improvements will receive within each of the subcategories designated as 'Required in RFP' on the Project Checklist attached as Appendix A to the Community Development Plan, as such subcategories and point system are further described in the United States Green Building Council (USGBC) Leadership in Environmental and Energy Design: Neighborhood Development (LEED-ND) attached hereto as Exhibit F (the "**LEED Requirements**"), and (b) identifying the fixtures, materials, systems and/or design elements incorporated within the Phase 1 Preliminary Component Design Plans that will cause the Phase 1 Improvements to meet the applicable LEED Requirements (i.e., those applicable to existing buildings and/or major renovation, as applicable) and which form the basis for Developer's estimate of the point totals for the Phase 1 Improvements. As of the Effective Date, to the City's knowledge, the Buildings known as Garson Studios, Benildus Hall, and Driscoll Hall either conform to the requirements of City Code or are legal nonconforming structures, as such term is defined in Article 14-12 of the City Code. Developer may submit individual Phase 1 Preliminary Component Design Plans for each building or parcel within Phase 1 to the MRA Director and the City or the State

CID, as applicable, and not all components must be completed simultaneously so long as all component submissions have been made by the date that is 120 days after the Effective Date.

5.2.3 *MRA Comments*. The MRA Director shall review each set of Phase 1 Preliminary Component Design Plans for consistency with the Phase 1 Conceptual Plans, the Master Plan and the Community Development Plan, and shall provide to Developer written notice of its approval or disapproval thereof (respectively, as applicable, the "**Preliminary Approval Notice**" or "**Preliminary Disapproval Notice**") within 20 Business Days following receipt of such Phase 1 Preliminary Component Design Plans, provided that any Preliminary Disapproval Notice shall identify the inconsistency or inconsistencies with the Phase 1 Conceptual Plans on which the disapproval is based. Any failure by the MRA Director to timely deliver Preliminary Approval Notice or Preliminary Disapproval Notice will be deemed to constitute the MRA Director's approval of the Phase 1 Preliminary Component Design Plans. If the MRA Director delivers a Preliminary Disapproval Notice, Developer shall revise the Phase 1 Preliminary Component Design Plans accordingly and deliver the Phase 1 Preliminary Component Design Plans, as revised, to the MRA Director for further review, following which the Preliminary Approval Notice or Preliminary Disapproval Notice and revision procedure detailed above shall continue until the MRA Director has delivered a Preliminary Approval Notice with respect to the Phase 1 Preliminary Component Design Plans (the "**Phase 1 MRA-Approved Component Design Plans**").

5.2.4 *Final Plans*. Any revisions to the Phase 1 MRA-Approved Component Design Plans required for approvals by the City in connection with any site improvements (other than vertical improvements) or by the State CID or other applicable Governmental Authorities in connection with the design or construction of the vertical improvements shall be incorporated into and made a part of the Phase 1 MRA-Approved Component Design Plans, without further approval of the MRA Director being required, and the Phase 1 MRA-Approved Component Design Plans, as revised and approved by the City or the State CID, as applicable, shall hereinafter be referred to as the "**Phase 1 Component Final Design Plans**."

5.2.5 *Development Approvals*. Developer acknowledges that Chapter 14 of the City Code sets forth certain review and approval requirements applicable to the Phase 1 Improvements which are not within the State CID's jurisdiction or authority pursuant to the Construction Industries Licensing Act, Chapter 60, Article 13, NMSA 1978 and Chapter 5, Title 14, N.M. Admin Code (collectively, the "**CIL Rules**"), including but not limited to zoning compliance and compliance with City Code provisions applicable to grading, landscaping, lighting, pedestrian and vehicular circulation, parking, infrastructure serving the site, and open space. Developer shall be required to complete the City review and approval process for each of the foregoing matters. Prior to submission of any application to the State CID for building permits in connection with the construction of the Phase 1 Improvements, Developer shall obtain a letter from the City Planning and Land Use Department confirming that the Phase 1 Component Final Design Plans comply with said regulations, and Developer acknowledges that Developer is not entitled to commence construction of the Phase 1 Improvements until Developer has obtained such letter.

5.2.6 *Inspection Approvals*. Developer shall not be deemed to have achieved Final Completion until such time as the City and State CID have inspected and approved the construction or installation of the Phase 1 Improvements for which the City or State CID, as applicable, approved the plans pursuant to Section 5.2.5, as the Phase 1 Improvements (or the applicable portion thereof) that correspond to such plans are completed. For the avoidance of doubt, the City's approval of plans shall

not be required for the issuance by the State CID of a temporary or permanent certificate of occupancy, but shall be required for Final Completion.

5.2.7 *Building Permit Submission Date*. Developer shall submit for building permits and all other Approvals for the Phase 1 Improvements (including each component thereof) no later than 30 days after the approval of the Phase 1 MRA-Approved Component Design Plans by all applicable Governmental Authorities ("**Phase 1 Building Permit Submission Date**").

5.2.8 *Commencement of Construction*. Developer shall Commence Construction for each component of Phase 1 within 45 days after Developer receives its building permit and zoning approval for said component. The date on which Developer is obligated to Commence Construction with respect to the first building permit obtained for Phase 1 is referred to herein as the "**Phase 1 Commencement Date**." Subject to the foregoing, Developer reserves the right to Commence Construction for components of Phase 1 at different times, and no provision hereof shall be construed to require Developer to commence all components of Phase 1 simultaneously. Notwithstanding the foregoing, if Developer has submitted applications for building permits to State CID in accordance with Section 5.2.7 prior to Developer's receipt of zoning approval from the City, but has not obtained zoning approval from the City despite commercially reasonable efforts to secure such approval, then Developer shall not be required to Commence Construction until such approval is granted so long as Developer diligently and continuously pursues such approvals.

5.2.9 *Completion of Construction*. Developer shall achieve substantial completion of the Phase 1 Improvements (as shall be evidenced by the issuance and receipt of applicable temporary or conditional certificates of occupancy therefor) on or before the first anniversary of the Phase 1 Commencement Date.

5.3 Phase 2 Plans; Phase 2 Construction Schedule.

5.3.1 *Conceptual Plans.* No later than nine months after the Effective Date, Developer shall deliver to the MRA Director its Conceptual Plans for Phase 2 (the "**Phase 2 Conceptual Plans**"). The MRA Director will have 20 Business Days after its receipt of the Phase 2 Conceptual Plans to review the same consistency with the requirements of this Agreement, the Master Plan and the Community Development Plan and deliver to Developer either a Preliminary Approval Notice or a Preliminary Disapproval Notice (which shall set forth the inconsistency or inconsistencies identified in the Phase 2 Conceptual Plans on which the MRA Director's disapproval is based). Any failure by the MRA Director to timely deliver a Preliminary Approval Notice or Preliminary Disapproval Notice will be deemed to constitute the MRA's approval of the Phase 2 Conceptual Plans. If the MRA Director delivers a Preliminary Disapproval Notice, Developer shall revise the Phase 2 Conceptual Plans accordingly and deliver the Phase 2 Conceptual Plans, as revised, to the MRA Director for further review, following which the Preliminary Approval Notice or Preliminary Disapproval Notice and revision procedure detailed above shall continue until the MRA Director has delivered a Preliminary Approval Notice with respect to the Phase 2 Conceptual Plans (the "**Phase 2 MRA-Approved Conceptual Plans**").

5.3.2 *Preliminary Design*. At least 30 days before Developer submits an application to the City or the State CID for development plan and/or building permits, Developer shall submit to the MRA Director Preliminary Design Plans for Phase 2 that are consistent with the Phase 2 MRA-Approved Conceptual Plans (the "**Phase 2 Preliminary Design Plans**"). Developer shall also provide a written affidavit to the City written affidavit to the City (a) setting forth Developer's estimate, based

on Developer's initial modeling, of the total points the Phase 2 Improvements will receive within each of the subcategories comprising the LEED Requirements, and (b) identifying the fixtures, materials, systems and/or design elements incorporated within the Phase 2 Preliminary Design Plans that will cause the Phase 2 Improvements to meet the applicable LEED Requirements and which form the basis for Developer's estimate of the point totals for the Phase 2 Improvements. Developer shall submit Phase 2 Preliminary Design Plans to the City or the State CID, as applicable, for approval on or before the first anniversary of the Effective Date.

5.3.3 *MRA Comment*. The MRA Director will have 20 Business Days following receipt from Developer to review the Phase 2 Preliminary Design Plans for consistency with the Phase 2 MRA-Approved Conceptual Plans and deliver to Developer either a Preliminary Approval Notice or a Preliminary Disapproval Notice, provided that any Preliminary Disapproval Notice shall identify the inconsistency or inconsistencies with the Phase 2 Preliminary Design Plans on which the disapproval is based. Any failure by the MRA Director to timely deliver a Preliminary Approval Notice or Preliminary Disapproval Notice will be deemed to constitute the MRA's approval of the Phase 2 Preliminary Design Plans. If the MRA Director delivers a Preliminary Disapproval Notice, Developer shall use commercially reasonable efforts to incorporate the MRA Director's comments into the Phase 2 Preliminary Design Plans in its next submission of the same to the City. Such submission shall be referred to herein as the "**Phase 2 MRA-Approved Design Plans**."

5.3.4 *Final Plans*. Any revisions to the Phase 2 MRA-Approved Design Plans required for approvals by the City in connection with any site improvements (other than vertical improvements) or by the State CID or other applicable Governmental Authorities in connection with the design or construction of the vertical improvements shall be incorporated into and made a part of the Phase 2 MRA-Approved Design Plans, without further approval of the MRA Director being required, upon which the Phase 2 MRA-Approved Design Plans, as revised and approved by the City, shall be referred to as the "**Phase 2 Final Design Plans**."

5.3.5 *Development Approvals*. Developer acknowledges that Chapter 14 of the City Code sets forth certain review and approval requirements applicable to the Phase 2 Improvements which are not within the State CID's jurisdiction or authority pursuant to the CIL Rules, including but not limited to zoning compliance and compliance with City Code provisions applicable to grading, landscaping, lighting, pedestrian and vehicular circulation, parking, infrastructure serving the site, and open space. Developer shall be required to complete the City review and approval process for each of the foregoing matters. Prior to submission of any application to the State CID for building permits in connection with the construction of the Phase 2 Improvements, Developer shall obtain a letter from the City Planning and Land Use Department confirming that the Phase 2 Final Design Plans comply with said regulations, and Developer acknowledges that Developer is not entitled to commence construction of the Phase 2 Improvements until Developer has obtained such letter.

5.3.6 *Inspection Approvals*. Developer shall not be deemed to have achieved Final Completion until such time as the City and State CID have inspected and approved the construction or installation of the Phase 2 Improvements for which the City or State CID, as applicable, approved the plans pursuant to Section 5.3.5, as the Phase 2 Improvements (or the applicable portion thereof) that correspond to such plans are completed. For the avoidance of doubt, the City's approval of plans shall not be required for the issuance by the State CID of a temporary or permanent certificate of occupancy, but shall be required for Final Completion.

5.3.7 *Building Permit Submission Date*. Developer shall submit for building permit and development plan approval for the Phase 2 Improvements no later than 60 days after the approval of the Phase 2 MRA-Approved Design Plans by all applicable Governmental Authorities (the "**Phase 2 Building Permit Submission Date**").

5.3.8 *Commencement of Construction*. Developer shall Commence Construction for each component of Phase 2 within 45 days after Developer receives its building permit and zoning approval for Phase 2. The date on which Developer is obligated to Commence Construction with respect to the first building permit obtained for Phase 2 is referred to herein as the "**Phase 2 Commencement Date**." Notwithstanding the foregoing, if Developer has submitted applications for building permits to State CID in accordance with Section 5.3.7 prior to Developer's receipt of zoning approval from the City, but has not obtained zoning approval from the City despite commercially reasonable efforts to secure such approval, then Developer shall not be required to Commence Construction until such approval is granted so long as Developer diligently and continuously pursues such approvals.

5.3.9 *Completion of Construction*. Developer shall achieve substantial completion of the Phase 2 Improvements (as shall be evidenced by the issuance and receipt of applicable temporary or conditional certificates of occupancy therefor) on or before the date that is 18 months after the Phase 2 Commencement Date.

5.4 Phase 3 Plans; Phase 3 Construction Schedule.

5.4.1 *Conceptual Plans.* No later than 27 months after the Effective Date, Developer shall deliver to the MRA Director the Conceptual Plans for Phase 3 (the "**Phase 3 Conceptual Plans**"). The MRA Director will have 15 Business Days after its receipt of the Phase 3 Conceptual Plans to review the same consistency with the requirements of this Agreement, the Master Plan and the Community Development Plan and deliver to Developer either a Preliminary Approval Notice or a Preliminary Disapproval Notice (which shall set forth the inconsistency or inconsistencies identified in the Phase 3 Conceptual Plans on which the MRA Director's disapproval is based). Any failure by the MRA Director to timely deliver a Preliminary Approval Notice or Preliminary Disapproval Notice will be deemed to constitute the MRA Director's approval of the Phase 3 Conceptual Plans. If the MRA Director delivers a Preliminary Disapproval Notice, Developer shall revise the Phase 3 Conceptual Plans accordingly and deliver the Phase 3 Conceptual Plans, as revised, to the MRA Director for further review, following which the Preliminary Approval Notice or Preliminary Disapproval Notice and revision procedure detailed above shall continue until the MRA Director has delivered a Preliminary Approval Notice with respect to the Phase 3 Conceptual Plans (the "**Phase 3 MRA-Approved Conceptual Plans**").

5.4.2 *Preliminary Design*. At least 30 days before Developer submits an application to the City and the State CID for development plan and/or building permit, Developer shall submit to the MRA Director the Preliminary Design Plans for Phase 3 that are consistent with the Phase 3 MRA-Approved Conceptual Plans (the "**Phase 3 Preliminary Design Plans**"). Developer shall also provide a written affidavit to the City (a) setting forth Developer's estimate, based on Developer's initial modeling, of the total points the Phase 3 Improvements will receive within each of the subcategories comprising the LEED Requirements, and (b) identifying the fixtures, materials, systems and/or design elements incorporated within the Phase 3 Preliminary Design Plans that will cause the Phase 3 Improvements to meet the applicable LEED Requirements and which form the basis for Developer's

estimate of the point totals for the Phase 3 Improvements. Developer shall submit Phase 3 Preliminary Design Plans to the City or the State CID, as applicable, for approval no later than 33 months after the Effective Date.

5.4.3 *MRA Comment*. The MRA Director will have 20 Business Days following receipt from Developer to review the Phase 3 Preliminary Design Plans for consistency with the Phase 3 MRA-Approved Conceptual Plans and deliver to Developer either a Preliminary Approval Notice or a Preliminary Disapproval Notice, provided that any Preliminary Disapproval Notice shall identify the inconsistency or inconsistencies with the Phase 3 Preliminary Design Plans on which the disapproval is based. Any failure by the MRA Director to timely deliver a Preliminary Approval Notice or Preliminary Disapproval Notice will be deemed to constitute the MRA's approval of the Phase 3 Preliminary Design Plans. If the MRA Director delivers a Preliminary Disapproval Notice, Developer shall use commercially reasonable efforts to incorporate the MRA Director's comments into the Phase 3 Preliminary Design Plans in its next submission of the same to the City. Such submission shall be referred to herein as the "**Phase 3 MRA-Approved Design Plans**."

5.4.4 *Final Plans*. Any revisions to the Phase 3 MRA-Approved Design Plans required for approvals by the City in connection with any site improvements (other than vertical improvements) or by the State CID or other applicable Governmental Authorities in connection with the design or construction of the vertical improvements shall be incorporated into and made a part of the Phase 3 MRA-Approved Design Plans, without further approval of the MRA Director being required, and the Phase 3 MRA-Approved Design Plans, as revised and approved by the City, shall hereinafter be referred to as the "**Phase 3 Final Design Plans**."

5.4.5 *Development Approvals*. Developer acknowledges that Chapter 14 of the City Code sets forth certain review and approval requirements applicable to the Phase 3 Improvements which are not within the State CID's jurisdiction or authority pursuant to the CIL Rules, including but not limited to zoning compliance and compliance with City Code provisions applicable to grading, landscaping, lighting, pedestrian and vehicular circulation, parking, infrastructure serving the site, and open space. Developer shall be required to complete the City review and approval process for each of the foregoing matters. Prior to submission of any application to the State CID for building permits in connection with the construction of the Phase 3 Improvements, Developer shall obtain a letter from the City Planning and Land Use Department confirming that the Phase 3 Final Design Plans comply with said regulations, and Developer acknowledges that Developer is not entitled to commence construction of the Phase 3 Improvements until Developer has obtained such letter.

5.4.6 *Inspection Approvals*. Developer shall not be deemed to have achieved Final Completion until such time as the City and State CID have inspected and approved the construction or installation of the Phase 3 Improvements for which the City or State CID, as applicable, approved the plans pursuant to Section 5.4.5, as the Phase 3 Improvements (or the applicable portion thereof) that correspond to such plans are completed. For the avoidance of doubt, the City's approval of plans shall not be required for the issuance by the State CID of a temporary or permanent certificate of occupancy, but shall be required for Final Completion.

5.4.7 *Building Permit Submission Date*. Developer shall submit for building permit and development plan approval for Phase 3 Improvements no later than 60 days after the approval of the Phase 3 MRA-Approved Design Plans by all applicable Governmental Authorities.

5.4.8 *Commencement of Construction*. Developer shall Commence Construction for Phase 3 no later than 45 days after Developer receives its first building permit and zoning approval for Phase 3. The date on which Developer is obligated to Commence Construction with respect to Phase 3 is referred to herein as the "**Phase 3 Commencement Date**." Notwithstanding the foregoing, if Developer has submitted applications for building permits to State CID in accordance with Section 5.4.7 prior to Developer's receipt of zoning approval from the City, but has not obtained zoning approval from the City despite commercially reasonable efforts to secure such approval, then Developer shall not be required to Commence Construction until such approval is granted so long as Developer diligently and continuously pursues such approvals.

5.4.9 *Completion of Construction*. Developer shall achieve substantial completion of the Phase 3 Improvements (as shall be evidenced by the issuance and receipt of applicable temporary or conditional certificates of occupancy therefor) on or before the date that is 18 months after the Phase 3 Commencement Date.

5.5 Defects in Plans. Developer acknowledges and agrees that neither the City, the MRA nor or any department, governing body, commission, agency, official, officer, employee, agent, representative or volunteer of the City or the MRA (collectively, the "**City Parties**") has made any representation or warranty, through this Agreement or otherwise, concerning the condition of the Property or the sufficiency of the development plans for any purpose, and no such City Parties shall be responsible either to Developer or to third parties in any way for defects in any development plans approved by any of the City Parties, nor for any structural, environmental or other defects in any work performed pursuant thereto. Developer, on behalf of itself and its successors and assigns, hereby waives and releases any claims, encumbrances, liens, demands, suits, judgments, proceedings, damages, losses, liabilities, penalties, fines, costs and expenses (including reasonable attorneys' fees and court costs) of any kind or nature (collectively, "**Liabilities**") against the City Parties for any monetary damages or compensation as a result of defects in such plans, including the violation of any laws or regulations, and for defects in any work done according to the such plans. The provisions of this Section shall survive any expiration or termination of this Agreement.

5.6 Cooperation with the City. Developer shall provide the MRA Director with copies of all applications for rezoning, site plans, any changes thereto, and any Approvals relating thereto made by or obtained from any Governmental Authorities with respect to the Property, the Private Improvements, and the Project.

ARTICLE 6
CONDITIONS PRECEDENT TO COMMENCEMENT OF CONSTRUCTION

6.1 Master Plan Amendment. Developer acknowledges that as of the Effective Date (a) the permitted uses for the parcels comprising Phase 1 include film related uses as existing nonconforming uses, but the Master Plan does not include film and multi-media production, cinema or supportive retail as permitted uses, and any development of Phase 1 for film and multi-media production, cinema or supportive retail uses is contingent upon the adoption of an amendment to the Master Plan approving such uses, (b) residential use is identified as an accessory use under the Master Plan, and any development of Phase 2 that includes a residential component that is not an accessory use is contingent upon the adoption of an amendment to the Master Plan approving such uses, and (c) the permitted uses under the Master Plan for the parcel(s) comprising Phase 3 do not include film and multi-media production and light industrial, and any development of Phase 3 for film and multi-media

production and/or light industrial use is contingent upon the adoption of an amendment to the Master Plan approving such uses. No later than 60 days after the Effective Date, Developer shall, at its sole cost and expense, prepare and deliver to the MRA Director, a draft application for an amendment to the Master Plan (the "**Master Plan Amendment**"), together with all documents and information required to be submitted for the Governing Body's consideration thereof, which provides for (i) the modifications to the permitted uses and ancillary uses for the Properties set forth on Exhibit N attached hereto (the "**Required Uses**"), and (ii) such additional modifications to the Master Plan in connection with the Project as Developer may reasonably request ("**Discretionary Modifications**"). Within 10 Business Days after the MRA Director's receipt of the draft application, the MRA Director shall review the draft application and deliver written notice to Developer either of the MRA Director's approval of the draft application or of any modifications required by the MRA Director (including, to the extent necessary, any supplemental or clarifying information required for Developer to implement the same). Developer acknowledges that the MRA Director may reject or change any Discretionary Modifications or require any additional modifications as the MRA Director determines in its sole discretion, provided that Developer's approval shall be required for any modifications that would further restrict the Required Uses or otherwise impose any additional obligations on Developer or reduce any rights of Developer, in any material respect, which are not provided for in this Agreement. Subject to the foregoing provision, within five Business Days after receipt of the MRA Director's required modifications, Developer shall incorporate the same and deliver an updated draft application to the MRA Director, and said review and approval or modification process shall be repeated until such time as the MRA Director approves the draft application (the "**Final Application**"). The Governing Body hereby authorizes and empowers the MRA Director to submit, or cause Developer (acting as agent on behalf of the MRA) to submit, the Final Application to the City Planning and Land Use Department for its review and recommendation. If, at the conclusion of the City's review of and decision concerning the Master Plan Amendment, the Governing Body issues a final action either denying the proposed Master Plan Amendment or approving or conditionally approving the Master Plan Amendment with modifications to the form that eliminate, limit or modify the Required Uses in a manner that materially adversely affects Developer's ability to develop and operate the Project consistent with the Required Uses, then on or before the date that is 30 days after the effective date of the Governing Body's final action, Developer may terminate this Agreement by delivering written notice of termination to the City, upon which the Lease shall automatically terminate, the City shall refund Developer's Initial Deposit and, except for the provisions which expressly survive termination, neither Party shall have any further rights or obligations under this Agreement. Developer shall be responsible for all costs related to the preparation and submission of the amendment to the Master Plan. For the avoidance of doubt, nothing in this Section 6.1 shall, at any time prior to the applicable Construction Commencement, operate to terminate or modify Developer's right to continue to operate Developer's business for film studio uses in the Buildings in their current existing nonconforming status.

6.2 Phase 1 Condition Precedent. To secure Developer's completion of the Phase 1 Improvements, as a condition precedent to Construction Commencement for the Phase 1 Improvements, Developer shall provide to the City or its designee (a) such documentation as the City or its designee may reasonably require, including, without limitation, financial statements (i.e., balance sheet, a statement of income, and contingent obligations in each case prepared in accordance with generally accepted accounting principles, consistently applied (collectively, "**Financial Statements**")), of Developer and Developer's Principal, subscription agreements or similar agreements obligating Developer's equity owners to make capital contributions to Developer and/or a

legally binding, firm loan commitment made to Developer, and the total project construction budget, in order to determine that Developer has secured available funds in an amount sufficient to complete Phase 1 in accordance with the Phase 1 Component Final Design Plans (i.e., evidence of debt and equity commitments at least equal to the total project construction budget), and (b) a personal payment and performance guaranty from Developer's Principal in an amount equal to the cost to complete the Phase 1 Improvements in accordance with the Phase 1 Component Final Design Plans, in the form attached hereto as Exhibit G-1 (a "**Guaranty**").

6.3 Phase 2 Conditions Precedent. To secure Developer's completion of the Phase 2 Improvements, as a condition precedent to Construction Commencement for the Phase 2 Improvements, Developer shall provide to the City or its designee (a) such documentation as the City or its designee may reasonably require, including, without limitation, Financial Statements of Developer and Developer's Principal, subscription agreements or similar agreements obligating Developer's equity owners to make capital contributions to Developer and/or a legally binding, firm loan commitment made to Developer, and the total project construction budget, in order to determine that Developer has secured available funds in an amount sufficient to complete Phase 2 in accordance with the Phase 2 Final Design Plans (i.e., evidence of debt and equity commitments at least equal to the total project construction budget), and (b) a cash bond or a bond from a surety licensed in the State of New Mexico, each (i) substantially in the form required by the City under then-current City standards (i.e., as of the date civil plans are approved for the applicable improvement) to secure the performance of the applicable obligation hereunder, and (ii) on a form substantially similar to the form of bond attached hereto as Exhibit G-2 (as applicable, a "**Bond**"), which Bond shall be in an amount equal to the cost to complete the Phase 2 Improvements in accordance with the Phase 2 Final Design Plans.

6.4 Phase 3 Conditions Precedent. To secure Developer's completion of the Phase 3 Improvements, as a condition precedent to Construction Commencement for the Phase 3 Improvements, Developer shall provide to the City or its designee (a) such documentation as the City or its designee may reasonably require, including, without limitation, Financial Statements of Developer and Developer's Principal, subscription agreements or similar agreements obligating Developer's equity owners to make capital contributions to Developer and/or a legally binding, firm loan commitment made to Developer, and the total project construction budget, in order to determine that Developer has secured available funds in an amount sufficient to complete Phase 3 in accordance with the Phase 3 Final Design Plans (i.e., evidence of debt and equity commitments at least equal to the total project construction budget), and (b) a Bond in an amount equal to the cost to complete the Phase 3 Improvements in accordance with the Phase 3 Final Design Plans.

Within five Business Days after the MRA Director's receipt of documentation in form and substance sufficient for the MRA Director to reasonably determine that Developer has satisfied the foregoing conditions precedent with respect to the applicable Phase, the MRA Director shall deliver to Developer a Notice to Proceed for such Phase.

ARTICLE 7
PRIVATE IMPROVEMENTS

7.1 Phase 1 Improvements. As part of Developer's obligations for Phase 1, Developer shall cause the Final Completion of the following work and improvements with a minimum investment

of not less than $5,000,000.00 in actual out-of-pocket expenditures, as evidenced by such documentation as the City may reasonably require (collectively, the "**Phase 1 Improvements**"):

7.1.1 the demolition or deconstruction of the existing building known as Onate Hall;

7.1.2 the disconnection of Garson Studios, Driscoll Hall, and the adjacent Shellaberger Property from the Midtown PNM electrical system and the construction and completion of the Aspect Electrical Loop pursuant to Exhibit H;

7.1.3 the construction and/or installation of all landscaping, signage, wayfinding, fencing, parking, and pedestrian circulation infrastructure, as applicable, set forth on Exhibit E;

7.1.4 the installation of (i) bicycle storage fixtures/facilities near the primary entrance of each building equal to or exceeding the minimum requirements set forth in the Master Plan, (ii) a minimum of two 'Level 3' charging facilities and two 'Level 2' charging facilities for electric vehicles and bicycles, each of which shall be operable and accessible to the public for at least 20 years; and

7.1.5 the construction of major renovations to Benildus Hall, Garson Studios, and Driscoll Hall necessary to operate the Project as a state-of-the-art film production studio and related office space, including without limitation:

(a) with respect to Garson Studios, the construction and installation of (i) The Screen theater renovations and all public accessibility renovations required by the Applicable Rules for such space to be available for public use as a movie theater or performance space, (ii) all demising improvements required to separate The Screen theater area (which will be accessible to the public) from the film production studio spaces, and (iii) the façade improvements according to the requirements set forth on Exhibit E, to the extent permitted by the Applicable Rules;

(b) with respect to Driscoll Hall, to the extent permitted under the Master Plan Amendment, the construction of a portion of the first floor having storefront exposure along the street frontage and consisting of no less than 2,000 rentable square feet for retail sales and services or food and beverage (restaurant) use (the "**Driscoll Retail Space**"), which Driscoll Retail Space shall, following execution of a lease and/or completion of tenant improvements, if applicable, be open for service to the general public at all times during normal business hours (subject to such customary exceptions as Developer may determine); and

(c) the issuance of temporary or permanent certificates of occupancy for each such Building.

7.2 Phase 2 Improvements. Prior to the Phase 2 Conveyance, Developer shall cause the Final Completion of: (a) the Residential Project, (b) the Solar Facilities, and (c) all landscaping, private utility facilities and other infrastructure and improvements required by the Applicable Rules (collectively, the "**Phase 2 Improvements**"). For purposes hereof, "**Residential Project**" means the multifamily residential building to be constructed on Phase 2 by Developer consisting of no less than 99 and no more than 150 dwelling units, of which (i) no less than 15% of said units will be accessible and affordable pursuant to the City's inclusionary housing program and in compliance with City Code Section 26-1, and (ii) no more than 15% of the total residential units may be reserved for occupancy by film production personnel; and "**Solar Facilities**" means the photovoltaic systems to be installed

on the roof (or such other location as may be set forth in the plans) of each building on Phase 2 and Phase 3, as applicable, for the purpose of generating electricity to serve such buildings, which systems shall (a) cover a minimum of 40% of the total square footage of each such roof, or (b) supply a minimum of 20% of the estimated electric demand for such building, as determined in Developer's discretion.

7.3 Phase 3 Improvements. Prior to the Phase 3 Conveyance, Developer shall cause the Final Completion of the construction of: (a) either (i) a film and multi-media production studio consisting of no less than 65,000 interior square feet, *or* (ii) subject to the prior approval of the Governing Body (or the MRA commission, when established by the Governing Body), acting in its reasonable discretion, a comparable development project having a use that constitutes a permitted use under the Master Plan (as amended) and is complementary to and supportive of the film and multi-media production uses, provided that Developer shall submit an alternative use proposal concurrently with the Phase 3 Conceptual Plans submission in accordance with Section 5.4.1; (b) the Solar Facilities; and (c) all landscaping, private utility facilities and other infrastructure and improvements required by the Applicable Rules (collectively, as applicable, the "**Phase 3 Improvements**"). No residential development is permitted as part of the Phase 3 Improvements.

7.4 Construction Standard; Other Requirements.

7.4.1 All construction performed in connection with the Project shall be conducted in a good and workmanlike manner, and in compliance with the construction and completion requirements for each Phase of the Project, and in accordance with all Applicable Rules and Project Standards.

7.4.2 Developer shall construct no more than 150 residential units on the Property (inclusive of all lots).

7.5 Site Restoration.

7.5.1 *Removal of Partially Constructed Improvements.* If Developer Abandons construction of the Project, Developer must, within 60 days after receipt by Developer of written notice from the City, either recommence construction on the Project or: (a) remove any partially constructed or partially completed structures or Private Improvements from the applicable Phase; and (b) perform Site Restoration on that portion of the Phase on which Developer has failed to achieve substantial completion of the applicable structures or other Private Improvements or related to the expired building permit, all in accordance with plans approved by the City. For purposes of this Agreement, "**Site Restoration**" means and includes the restoring of the original ground or paved hard surface area in compliance with the Project Standards, and includes but is not limited to the removal or elimination of all debris; the remediation and restoration of any environmental conditions; the elimination of conditions that may create a fire or pollution hazard; the minimization of erosion; and any repair, cleanup, backfilling, compaction, and stabilization, paving and other work necessary to place the site in acceptable condition following the conclusion of the work, or the expiration or revocation of the permit.

7.5.2 *Removal and Restoration by City*. In the event Developer fails or refuses to remove any partially completed Project Improvements, or to perform Site Restoration, as required pursuant to Section 7.5.1, the City will have, and is hereby granted, the right, at its option, to: (i) demolish and/or remove any of the partially completed Private Improvements from any and all portions

of the applicable Phase; (ii) perform Site Restoration; and/or (iii) cause the Private Improvements to be completed in accordance with the applicable final plans. Developer must fully reimburse the City for all costs and expenses, including legal and administrative costs, incurred by the City for such work. If Developer does not so fully reimburse the City, the City will have the right to enforce its rights and remedies under the Bond provided by Developer pursuant to Article 6, as necessary to cause such completion and/or to defray the entire cost of the work, including legal fees and administrative expenses. If Developer does not so fully reimburse the City, and the Bond proceeds are insufficient or otherwise unavailable to finance such work, then the City will have the right to place a lien on the applicable Phase for all such costs and expenses in the manner provided by law. The rights and remedies provided in this Section 7.5 are in addition to, and not in limitation of, any other rights and remedies otherwise available to the City in this Agreement, at law, and/or in equity.

ARTICLE 8
RIGHT OF WAY IMPROVEMENTS

8.1 Right of Way Plans. The City shall engage a third party to prepare the plans, specifications and drawings (the "**Right of Way Plans**") for the development and construction of certain public right of way improvements, storm drainage facilities and related infrastructure within the Midtown Site (the "**Midtown ROW Improvements**"), including, without limitation, the sections of roadway, any related curb and gutter, sidewalk, landscaping and irrigation, water, sewer, stormwater, electrical and other utilities, as applicable, within the areas of the Midtown Site identified as roadway segments 'C.1', 'D.2' and 'D.4' depicted on Exhibit I (the "**Project ROW Improvements**"). The City anticipates that the Right of Way Plans will be complete on or after June 30, 2026. Developer shall provide the final design and construction plans, survey and as-built plans for Developer's proposed PNM electrical loop lying below the Project ROW Improvements, and the City and Developer shall coordinate to ensure the Right of Way Plans are designed to reasonably accommodate the construction of said electrical loop. The City shall make best faith efforts to expedite the completion of the plans prior to June 30, 2026.

8.2 Right of Way Completion. Within 90 days after the City's completion of the Right of Way Plans, the City will provide Developer with a construction schedule, setting forth the anticipated commencement and completion of the applicable portions of the Project ROW Improvements (the "**Right of Way Schedule**"). Subject to extension for Uncontrollable Events, the City will substantially complete, or cause the substantial completion of, the portions of the Project ROW Improvements by the deadlines set forth in the Right of Way Schedule in a manner sufficient to prevent the denial or rejection of the issuance and receipt of applicable temporary or conditional certificates of occupancy for such Phase on the basis of the Project ROW Improvements, subject to Developer's proper application therefor and payment of applicable fees in connection therewith. If the City does not complete the Project ROW Improvements (or applicable portion thereof) by the applicable deadline set forth in the Right of Way Schedule, the City shall have the right to extend the applicable deadline(s) prior to the expiration of the then applicable deadline by delivering written notice to Developer of such election to extend, together with a copy of the updated Right of Way Schedule. An extension of time for any Uncontrollable Event shall commence from the commencement date of the Uncontrollable Event set forth in the City's written notice to Developer of such Uncontrollable Event. After the cessation of any such Uncontrollable Event, the City's obligation to perform shall recommence with a day-for-day delay extension to the applicable deadline. In no event shall any delay in completion of the Project ROW Improvements constitute a default by the City. Upon the City's completion of the Project ROW Improvements required in connection with the temporary or conditional certificates of

occupancy for any Phase, the City shall provide written notice to Developer of such completion. Subject to the provisions of Section 20.29, the City shall make best faith efforts to commence and complete construction prior to the dates set forth in the Right of Way Schedule.

8.3 Cost of Project ROW Improvements. The City shall complete the Project ROW Improvements at its sole cost and expense; provided, however, Developer shall be responsible for 100% of the cost ("**Developer's Share**") for the construction and completion of the section of roadway located immediately adjacent to the real property owned by Developer commonly known as 'The ArtHouse' and depicted on Exhibit I as the 'ArtHouse Frontage' (the "**ArtHouse ROW Improvements**"), which Developer's Share shall be equal to the portion of the total costs to complete the Project ROW Improvements obtained by dividing the total linear footage of the Midtown ROW Improvements by the total linear footage of the 'ArtHouse Frontage'. On or before the later of the date that is 10 days after the City's delivery of written notice to Developer of the estimated amount of Developer's Share of the ArtHouse ROW Improvements (such amount, the "**Escrow Amount**") and the date the City commences construction of the Midtown ROW Improvements, Developer shall deposit into escrow with a title company selected by the City (the "**Escrow Agent**"), the Escrow Amount to be held by the Escrow Agent pursuant to an escrow agreement reasonably acceptable to the City, Developer and the Escrow Agent. Upon completion of the ArtHouse ROW Improvements, the City shall deliver to Developer and the Escrow Agent written notice of the actual amount of Developer's Share of the completed ArtHouse ROW Improvements, and within 10 days following such written notice, the Escrow Agent shall disburse the Escrow Amount to the City, by wire transfer or other good funds as directed by the City. If the actual amount of the Developer's Share is less than the Escrow Amount, the Escrow Agent shall return to Developer the amount remaining in escrow after disbursing the actual Developer's Share to the City. If the actual amount of the Developer's Share is greater than the amount held in escrow, then within 10 days after receipt of the City's written notice of the actual Developer's Share, Developer shall deliver such shortfall directly to the City as instructed in the written notice. At least 30 days prior to the City's commencement of construction of the Midtown ROW Improvements, the City shall deliver to Developer its written estimate of Developer's Share of the ArtHouse ROW Improvements, which shall include the City's total projected budget for the ArtHouse ROW Improvements and the total linear footage of streets included in such construction.

8.4 Coordination; Cooperation. Developer shall cooperate with the City to avoid any interference between the City's construction of the Project ROW Improvements and the Developer's activities on the Property and/or the ArtHouse property. In addition, the City and Developer will coordinate the respective schedules for the City's construction of the Project ROW Improvements and Developer's construction of the roadway improvements for the Project and adjacent ArtHouse project so that the Developer's (or its affiliates) construction commences following the City's construction of the adjacent Midtown ROW Improvements (or roadway portion thereof) in order to maintain elevations, alignment and roadway finish construction consistency. Developer and the City shall meet quarterly to coordinate their respective design and construction activities. If during the City's construction of the Project ROW Improvements it becomes necessary for Developer to move or relocate any permanent or temporary ADA access to any portion of the Property or the ArtHouse property, Developer shall, within 60 days following written notice from the City and at Developer's sole cost and expense, move or relocate such access to an alternative ADA compliant location.

8.5 Ancillary Midtown ROW Improvements; City Delay. Subject to the provisions of Section 20.29, the City agrees to construct the necessary improvements to the Alumni Drive collector road that connects the Midtown Site to Siringo Road and neither Developer nor its affiliates shall be

responsible for the construction or cost of such improvements other than as otherwise provided in this Article 8. In addition, the City acknowledges it will provide access to Benildus Hall for automobile and pedestrian ingress and egress and that, prior to the City's completion of said access, Developer shall construct or install temporary ADA improvements in the locations depicted on plan attached hereto as Exhibit O (the "**Phasing Depiction**") and in accordance with all Applicable Rules. The City acknowledges that Developer may achieve substantial completion of one or more Phases or the ArtHouse development prior to the City's completion of the Midtown ROW Improvements. To the extent any Phase or the ArtHouse development is substantially completed prior to the City's completion of the applicable roadways or sidewalks, then so long as Developer has constructed or installed the temporary applicable ADA improvements in the locations generally shown on the Phasing Depiction and in compliance with all Applicable Rules, including the improvements to and from Alumni Drive in the locations depicted on the Phasing Depiction, the City agrees that it will not pursue any actions that impede the issuance of Developer's temporary certificates of occupancy to the extent Developer would be entitled to such issuance but for the ongoing construction of the applicable roadways or sidewalks in roadways.

8.6 Gas Loop Declaration; Existing Utilities and Utilities Agreement.

8.6.1 Developer acknowledges that the existing natural gas line serving the Midtown Site (the "**Midtown Gas Loop**") is owned and operated by the City of Santa Fe Public Works Department, under procedures, rules and regulations of the New Mexico Public Regulations Commission, Pipeline Safety Bureau, Parts 191 & 192, NMAC 18.60.2, and the Pipeline Safety Act 70-3-10 to 70-3-20 NMSA 1978, 1995 (as may be amended from time to time, the "**Gas Loop Regulations**"). Developer further acknowledges that the Midtown Gas Loop runs under a portion of the Property and other properties at the Midtown Site, and disconnecting or capping certain sections of the Midtown Gas Loop at the Property may have the effect of terminating or adversely affecting the provision of natural gas to other properties and tenants. Accordingly, if the Private Improvements (or any part thereof) will intersect with or be constructed above the Midtown Gas Loop, Developer may be required to relocate sections of the line and/or install temporary connections, in each case in compliance with the Gas Loop Regulations and at Developer's sole cost. In addition, Developer acknowledges that the City intends to prepare and record a declaration of covenants, conditions and restrictions, or similar instrument (as applicable, the "**Gas Loop Declaration**"), for the purpose of establishing an easement and setting forth certain rights and obligations related to the operation, safety conditions, maintenance, repair, replacement and removal of the Midtown Gas Loop and related facilities in compliance with the Gas Loop Regulations, and the coordination with the City to comply with minimum safety requirements for the operation of, and managing emergencies related to the Midtown Gas Loop. The Gas Loop Declaration, which will encumber the Property and all other properties on which the Midtown Gas Loop is located, shall be in the form adopted by the City, provided that no provision thereof shall impose on any property owner at the Midtown Site any material obligations or costs in excess of those set forth in the Gas Loop Regulations.

8.6.2 The City and Developer executed a utility services agreement attached hereto as Exhibit J (the "**Utilities Agreement**"), which Utilities Agreement outlines the provision of natural gas, water, stormwater and sanitary, and electrical service (collectively, the "**Utilities**") to the Buildings and the timeline for disconnection of the Buildings from the existing natural gas service line serving the Midtown Site.

ARTICLE 9
SUBDIVISION

9.1 Subdivision Plat. The City has recorded or will record a new plat map (the "**Plat**") that subdivides the Property into the parcels generally depicted on Exhibit B-1. Upon the recordation of a new plat map, the MRA Director will deliver written notice thereof to Developer, together with a copy of the recorded plat map and the platted legal description of the Property (the "**Legal Description**"), and the Developer shall execute and deliver to the City an acknowledgment including the Legal Description as Exhibit B-2 of this Agreement.

ARTICLE 10
CONVEYANCE OF PROPERTY

10.1 Closing; Closing Costs. Each Closing shall take place through a title company selected by the City (the "**Title Company**") by an escrow closing by mail or electronic delivery as mutually agreed upon by the City and Developer, and otherwise in accordance with the provisions of this Article 10. At each Closing, Developer shall pay any customary statutory transfer, sales, use, gross receipts or similar taxes, the cost of recording the Deed (including, without limitation, any documentary fees), the base premium and all fees for the Title Policy and any endorsements ordered by Developer, and all of the customary closing costs of the Title Company.

10.2 Phase 1 Closing.

10.2.1 *Phase 1 Closing Conditions*. The conveyance of Phase 1 by the City to Developer (the "**Phase 1 Conveyance**") shall be subject to the satisfaction, on or prior to the date that is 90 days after the deadline for substantial completion of the Phase 1 Improvements pursuant to Section 5.2.9 (as may be extended in accordance with this Agreement), of the following conditions (collectively, the "**Phase 1 Closing Conditions**"):

(a) Developer shall have achieved Final Completion of the Phase 1 Improvements;

(b) Developer shall have delivered to the City written notice of election to the City to purchase Phase 1 ("**Phase 1 Purchase Notice**"), which Phase 1 Purchase Notice must be delivered within 30 days after Final Completion of the Phase 1 Improvements, provided that Developer shall be entitled to notice and 10 days' opportunity to cure any failure to deliver such notice;

(c) Developer shall have delivered the Phase 1 Purchase Installment into escrow with the Title Company, along with all recording fees and other amounts required to consummate the Phase 1 Conveyance;

(d) Developer shall have complied in all material respects with (i) the obligations contained in this Agreement, including but not limited to Developer's compliance with the Community Benefit Requirements, and (ii) the obligations contained in the Lease;

(e) All of Developer's representations and warranties contained in this Agreement shall be true and correct in all material respects as of the Phase 1 Closing Date (with appropriate modifications permitted under this Agreement);

(f) Developer shall have paid in full the applicable Annual Assessment (as defined in the Lease) for Phase 1 for the period ending on the day immediately preceding the Closing (based on the number of days in such calendar year in which the City owns Phase 1); and

(g) Developer shall have delivered to the Title Company any and all reasonable and customary documentation, in a form reasonably acceptable to each Party, that may be required by the Title Company to consummate the Phase 1 Conveyance.

10.2.2 *Phase 1 Closing Date*. The consummation of the Phase 1 Conveyance (the "**Phase 1 Closing**") shall occur on the date that is 15 Business Days after all of the Phase 1 Closing Conditions have been satisfied, or on such other date as may be agreed upon by the Parties (as applicable, the "**Phase 1 Closing Date**"). At the Phase 1 Closing, the City will convey Phase 1 to Developer in its as-is condition by delivery of the Deed, without any warranty, express or implied, including but not limited to the presence of Pollutants, and subject to all matters of record. On the Phase 1 Closing Date, the Parties shall, by written instructions from each Party to the Title Company, authorize the Title Company to proceed to release the Phase 1 Purchase Installment to the City, record the quit claim deed to convey Phase 1 to Developer, and carry out such other tasks necessary to complete the Phase 1 Conveyance.

10.3 Phase 2 Closing.

10.3.1 *Phase 2 Closing Conditions*. The conveyance of Phase 2 by the City to Developer (the "**Phase 2 Conveyance**") shall be subject to the satisfaction, on or prior to the date that is 90 days after the deadline for substantial completion of the Phase 2 Improvements pursuant to Section 5.3.9 (as may be extended in accordance with this Agreement), of the following conditions (collectively, the "**Phase 2 Closing Conditions**"):

(a) Developer shall have achieved Final Completion of the Phase 2 Improvements;

(b) Developer shall have delivered to the City written notice of election to the City to purchase Phase 2 ("**Phase 2 Purchase Notice**"), which Phase 2 Purchase Notice must be delivered within 30 days after Final Completion of the Phase 2 Improvements, provided that Developer shall be entitled to notice and 10 days' opportunity to cure any failure to deliver such notice;

(c) Developer shall have delivered the Phase 2 Purchase Installment into escrow with the Title Company, along with all recording fees and other amounts required to consummate the Phase 1 Conveyance;

(d) Developer shall have complied in all material respects with (i) the obligations contained in this Agreement, including but not limited to Developer's compliance with the Community Benefit Requirements, and (ii) the obligations contained in the Lease;

(e) All of Developer's representations and warranties contained in this Agreement shall be true and correct in all material respects as of the Phase 2 Closing Date (with appropriate modifications permitted under this Agreement);

(f) The City shall have recorded, or delivered into escrow with the Title Company for recording at the Phase 2 Closing (prior to the Deed), the land use restriction in accordance with Section 11.8;

(g) Developer shall have paid in full the applicable Annual Assessment (as defined in the Lease) for Phase 2 for the period ending on the day immediately preceding the Closing (based on the number of days in such calendar year in which the City owns Phase 2); and

(h) The Parties shall have delivered to the Title Company any and all reasonable and customary documentation, in a form reasonably acceptable to each Party, that may be required by the Title Company to consummate the Phase 2 Conveyance.

10.3.2 *Phase 2 Closing Date*. The consummation of the Phase 2 Conveyance (the "**Phase 2 Closing**") shall occur on the date that is 15 Business Days after all of the Phase 2 Closing Conditions have been satisfied, or on such other date as may be agreed upon by the Parties (as applicable, the "**Phase 2 Closing Date**"). At the Phase 2 Closing, the City will convey Phase 2 to Developer in its as-is condition by delivery of the Deed, without any warranty, express or implied, including but not limited to the presence of Pollutants, and subject to all matters of record. On the Phase 2 Closing Date, the Parties shall, by written instructions from each Party to the Title Company, authorize the Title Company to proceed to release the Phase 2 Purchase Installment to the City, record the quit claim deed to convey Phase 2 to Developer, and carry out such other tasks necessary to complete the Phase 2 Conveyance.

10.4 Phase 3 Closing.

10.4.1 *Phase 3 Closing Conditions*. The conveyance of Phase 3 by the City to Developer (the "**Phase 3 Conveyance**") shall be subject to the satisfaction, on or prior to the date that is 90 days after the deadline for substantial completion of the Phase 3 Improvements pursuant to Section 5.4.9 (as may be extended in accordance with this Agreement), of the following conditions (collectively, the "**Phase 3 Closing Conditions**"):

(a) Developer shall have achieved Final Completion of the Phase 3 Improvements;

(b) Developer shall have delivered the Phase 3 Purchase Installment into escrow with the Title Company, along with all recording fees and other amounts required to consummate the Phase 3 Conveyance;

(c) Developer shall have delivered to the City written notice of election to the City to purchase Phase 3 ("**Phase 3 Purchase Notice**"), which Phase 3 Purchase Notice must be delivered within 30 days after Final Completion of the Phase 3 Improvements, provided that Developer shall be entitled to notice and 10 days' opportunity to cure any failure to deliver such notice;

(d) Developer shall have complied in all material respects with (i) the obligations contained in this Agreement, including but not limited to Developer's compliance with the Community Benefit Requirements, and (ii) the obligations contained in the Lease;

(e) All of Developer's representations and warranties contained in this Agreement shall be true and correct in all material respects as of the Phase 3 Closing Date (with appropriate modifications permitted under this Agreement);

(f) Developer shall have paid in full the applicable Annual Assessment (as defined in the Lease) for Phase 3 for the period ending on the day immediately preceding the Closing (based on the number of days in such calendar year in which the City owns Phase 3); and

(g) The Parties shall have delivered to the Title Company any and all reasonable and customary documentation, in a form reasonably acceptable to each Party, that may be required by the Title Company to consummate the Phase 3 Conveyance.

10.4.2 *Phase 3 Closing Date*. The consummation of the Phase 3 Conveyance (the "**Phase 3 Closing**") shall occur on the date that is 15 Business Days after all of the Phase 3 Closing Conditions have been satisfied, or on such other date as may be agreed upon by the Parties (as applicable, the "**Phase 3 Closing Date**"). At the Phase 3 Closing, the City will convey Phase 3 to Developer in its as-is condition by delivery of the Deed, without any warranty, express or implied, including but not limited to the presence of Pollutants, and subject to all matters of record. On the Phase 3 Closing Date, the Parties shall, by written instructions from each Party to the Title Company, authorize the Title Company to proceed to release the Phase 3 Purchase Installment to the City, record the quit claim deed to convey Phase 3 to Developer, and carry out such other tasks necessary to complete the Phase 3 Conveyance.

10.5 Title and Permitted Exceptions.

10.5.1 *Conveyance of Title*. At each Closing, subject to the terms and conditions of this Agreement, the City will convey title to the real property underlying the applicable Phase to Developer by New Mexico statutory form quitclaim deed (the "**Deed**"). Title to each applicable Phase will be free of all liens, encumbrances, easements, restrictions, rights and conditions of record, except for the Permitted Exceptions (defined below).

10.5.2 *Title Commitment; Survey*. On or before the date that is 30 days prior to Construction Commencement for each Phase (the "**Title Receipt Deadline**"), Developer shall obtain a commitment for title insurance (a "**Title Commitment**") from the Title Company for the applicable Phase for an ALTA owner's title insurance policy (a "**Title Policy**"), together with legible copies of the documents underlying each exception therein (collectively with the Title Commitment, the "**Title Documents**"). Developer shall cause the Title Company to concurrently distribute copies of the Title Documents to the City. In addition, at any time prior to the applicable Construction Commencement, Developer may order at its sole cost a new survey of the applicable Phase (a "**Survey**").

10.5.3 *Review of Title*. Developer shall have 15 days following the Title Receipt Deadline (with respect to each Phase, the "**Objection Deadline**") to deliver written notice to the City (the "**Objection Notice**") of any matters within the Title Documents to which Developer objects (the "**Title Objections**"), provided that Developer shall not be entitled to object to any matters which are Approved Exceptions (defined below), and no such Approved Exceptions shall constitute a Title Objection. Except as otherwise set forth in Section 10.5.4, if Developer fails to tender an Objection Notice on or before the Objection Deadline, Developer shall be deemed to have approved and irrevocably waived any objections to any matters covered by the Title Documents and the Survey. Within 10 days after the City's receipt of the Objection Notice (the "**Response Deadline**"), the City may, in the City's sole discretion, give Developer notice (the "**Response Notice**") of those Title Objections which the City is willing to cure, if any. If the City fails to deliver a Response Notice by the Response Deadline, the City shall be deemed to have elected not to cure or otherwise resolve any matter set forth in the Objection Notice. If Developer is dissatisfied with the Response Notice, Developer may, as its exclusive remedy, elect by written notice given to the City on or before Construction Commencement for such Phase (the "**Final Response Deadline**"), either to (a) accept the Title Documents and Survey with resolution, if any, of the Title Objections as set forth in the

Response Notice (or if no Response Notice is tendered, without any resolution of the Title Objections) and without any reduction or abatement of the Purchase Price, or (b) terminate this Agreement, in which event neither Party shall have any further rights or obligations hereunder, except for those that expressly survive termination hereof. Except as otherwise set forth in Section 10.5.4, if Developer fails to give notice to terminate this Agreement on or before the Final Response Deadline, Developer shall be deemed to have elected to approve and irrevocably waived any objections to any matters covered by the Title Documents or the Survey, subject only to resolution, if any, of the Title Objections as set forth in the Response Notice from the City (or if no Response Notice is tendered, without any resolution of the Title Objections). Notwithstanding anything to the contrary in this Agreement or in a Response Notice, (a) the City shall be obligated to remove, insure over or bond over any Monetary Encumbrances (as defined below), and (b) Developer shall not be required to tender any Title Objections to any Monetary Encumbrances. "**Monetary Encumbrances**" means any mechanics or materialmen's liens, any monetary lien or claim and the lien of any mortgage, deed of trust or similar security instrument encumbering the Property (or any part thereof) that is created by, under or through the City, except that no Approved Exceptions shall be deemed to constitute Monetary Encumbrances.

10.5.4 *New Title Exceptions*. If at any time after the expiration of the Objection Deadline, any update to the Title Commitment or Survey discloses any additional material item (other than any Approved Exceptions) that materially and adversely affects title to the applicable Phase which was not disclosed on any version of the Title Documents or Survey delivered to Developer prior to the expiration of the Objection Deadline (each, a "**New Exception**"), Developer shall have a period of 5 days from the date of Developer's receipt of such update (the "**New Exception Review Period**") to review and to approve or disapprove of the same. If the New Exception is unacceptable to it, Developer, at its sole option, may elect either (a) to terminate this Agreement, in which event neither Party shall have any further rights or obligations hereunder, except for those that expressly survive termination hereof, or (b) to waive such objections and proceed with the transactions contemplated by this Agreement, in which event Developer shall be deemed to have approved the New Exception. If Developer fails to timely notify the City of its election to terminate this Agreement in accordance with the foregoing clause prior to the expiration of the New Exception Review Period, Developer shall be deemed to have approved and irrevocably waived any objections to the New Exception, and such New Exception will constitute an additional Permitted Exception (as defined below). The provisions in Section 10.5.3 of this Agreement concerning Monetary Encumbrances shall apply to New Exceptions.

10.5.5 The applicable portion of the Property conveyed to Developer at each Closing shall be subject to the following, all of which shall be deemed "**Permitted Exceptions**":

(a) all exceptions appearing in the Title Commitment that were recorded before the date of Developer's execution of this Agreement and each document to be recorded pursuant to and in accordance with the terms of this Agreement, including without limation, the Plat, the Master Plan Amendment, the Gas Loop Declaration, this Agreement and the Lease (the "**Approved Exceptions**");

(b) all matters shown in the Title Documents and the Survey, other than those Title Objections the City has agreed to cure pursuant to the Response Notice under Section 10.5.3;

(c) applicable zoning and governmental regulations and ordinances; and

(d) any defects in or objections to title to the applicable Property, or title exceptions or encumbrances, arising by, through or under Developer (or with Developer's prior written approval).

10.6 No Warranties as to Property; As-Is. Except as otherwise expressly provided in this Agreement, at each Closing, the Property is and shall be delivered by the City to Developer in "as-is" condition, with no warranty expressed or implied by the City, including without limitation, the presence of Pollutants, the existence of refuse, or the condition of the soil, its geology, the presence of known or unknown seismic faults, or the suitability of the Property for the Project.

ARTICLE 11
COMMUNITY BENEFITS

11.1 Economic Impact Requirements. Developer shall commit to the recruitment of film, television and media productions that will generate qualifying direct production expenditures in New Mexico ("**Qualified Expenditures**") in accordance with the Film Production Tax Credit Act (Chapter 7, Article 2F NMSA 1978), as amended (the "**FPTCA**"), of at least $30,000,000.00 ("**Minimum Initial Amount**") during the period commencing on the Effective Date and ending on the fifth anniversary of the Phase 1 Final Completion Date (the "**Initial Spend Period**"). Commencing on the Phase 1 Final Completion Date and continuing for 15 years thereafter (the "**Aggregate Spend Period**"), Developer shall commit to securing productions that will generate Qualified Expenditures of at least $150,000,000.00, inclusive of the Minimum Initial Amount (the "**Minimum Aggregate Amount**").

11.2 Economic Impact Benefit. If Developer fails to secure productions that generate Qualified Expenditures of at least the Minimum Initial Amount by the expiration of the Initial Spend Period, or the Minimum Aggregate Amount by the expiration of the Aggregate Spend Period, Developer shall pay the City an amount equal to the percentage shortfall of the Qualified Expenditures multiplied by the applicable Economic Impact Benefit as the City's sole remedy for Developer's failure. For purposes hereof, "**Economic Impact Benefit**" means the estimated value of the economic impact to the City that will result from the generation of Qualified Expenditures of, (A) with respect to the Minimum Initial Amount, $300,000, and (B) with respect to the Minimum Aggregate Amount, $2,700,000. By way of example, if Developer sources productions that generate Qualified Expenditures of $20,000,000 during the Initial Spend Period and $120,000,000 during the Aggregate Spend Period (i.e., $100,000,000 during the period beginning on the next day following the fifth anniversary of the Phase 1 Final Completion Date and ending on the 15th anniversary of the Phase 1 Final Completion Date), then Developer would be required to pay the City the sum of (i) $100,000 (i.e., $300,000 × (($30,000,000 - $20,000,000) ÷ $30,000,000)) for Developer's failure to generate Qualified Expenditures of at least the Minimum Initial Amount by the expiration of the Initial Spend Period, and (ii) $540,000 (i.e., $2,700,000 × (($150,000,000 - $120,000,000) ÷ $150,000,000)) for Developer's failure to generate Qualified Expenditures of at least the Minimum Aggregate Amount by the expiration of the Aggregate Spend Period. In order to ensure Developer obtains and maintains accurate data related to the total Qualified Expenditures, Developer shall use commercially reasonable efforts to cause each written agreement between Developer and any film production company (as such term is defined in the FPTCA) – or any other Person that may qualify for a film and television tax credit pursuant to the FPTCA – whether such agreement is for the purpose of leasing or licensing all or any portion of the Property or for any other purpose related to the Property, to provide that such Person agrees, as a condition of such agreement, to timely submit to the City Office of Economic

Development all applications and information required to be submitted pursuant to Section 7-2F-6 in order to obtain the film and television tax credit, whether or not such Person qualifies or otherwise desires to obtain such credit. If any Qualified Expenditures arise in connection with a third-party agreement that provides for the use of space and/or equipment at the Property and at the Shellaberger Property, Developer shall be entitled to credit the Qualified Expenditures arising from both the Property and the Shellaberger Property.

11.3 Economic Opportunity Requirements. For a period of 20 years following the Phase 1 Commencement Date, Developer shall use commercially reasonable efforts to coordinate among local community organizations, the Midtown Engagement Partners, the Office of Economic Development and/or other stakeholders from time to time identified by the City and each Project Employer, on the other hand, to cause to be posted or advertised, and to otherwise utilize the available and offered services of such organizations, for the purpose of disseminating information regarding Project Employment Opportunities among residents of the City for prospective employment. For purposes hereof, "**Project Employer**" means any business or other entity that employs at least one employee for at least 20 hours per week at the Project, whether in connection with the design, construction, maintenance or operation of the Project, with the expectation that such employment at the site will continue at the Project for at least eight weeks, which Project Employers may include (but are not limited to) Developer, Developer's Affiliates, tenants, subtenants, contractors and subcontractors (but specifically excluding the City); and "**Project Employment Opportunities**" means all unfilled employment positions at the Project with any Project Employer during the applicable tax year, whether full-time or part-time, for which the Project Employer reasonably anticipates a majority of the responsibilities of the position during the six-month period following the desired hire date will relate to the Project.

11.4 Commercial Use Requirements. On or before the date that is three months after the Final Completion of Phase 1 (the "**Leasing Deadline**"), Developer shall secure tenants for the Driscoll Retail Space and The Screen for the purpose of operating commercial establishments in compliance with Applicable Rules, which are open to the public during normal business hours, consistent with similar establishments to those operated by tenants. Following the Leasing Deadline, Developer shall use its best efforts to ensure the Building currently known as Driscoll Hall and The Screen remain occupied and open to the public. Developer shall not permit either such space to remain vacant or otherwise closed to public use or access for more than nine months during any three-year period, including and shall, if so required, take such actions as are reasonably necessary in order to secure satisfactory tenants, including, without limitation, reducing the offered rent and/or accepting or conceding such other terms as may be reasonably necessary to secure tenants to operate commercial establishments, in compliance with Applicable Rules, in said spaces (the "**Commercial Use Requirement**"). The Commercial Use Requirement shall remain in effect for a period of 20 years following the Leasing Deadline. Notwithstanding the foregoing or any other provision of this Agreement to the contrary, the provisions of this Section 11.4 shall be applicable only to the extent the uses contemplated herein for the Driscoll Retail Space and The Screen constitute permitted uses pursuant to the Master Plan (as amended).

11.5 Film and Multi-Media Internship Requirements. Commencing on the date that is six months after the Phase 1 Final Completion Date and continuing for 20 years thereafter, Developer shall require that production companies operating at the Property offer and fill an aggregate total of up to 20 six-week internships per year (based on the Average Occupancy Rate defined below) in partnership with a Qualified New Mexico Film School or Qualified New Mexico Internship Program, to the extent

that such program exists in New Mexico in connection with such filming (the "**Film Internship Requirements**"). The number of internships required to be offered and filled each year shall equal the product of (i) 20, multiplied by (ii) the Average Occupancy Rate. For purposes hereof, "**Average Occupancy Rate**" means, for each one-year period beginning on the date that is six months after the Phase 1 Final Completion Date, the quotient, expressed as a percentage, of the "average occupied square footage" of the Studio Area divided by the Studio Area, rounded to the nearest multiple of 5%; and the term "average occupied square footage" means, with respect to each one-year period measured, the net rentable square footage of the Studio Area for which Developer is collecting rent or other revenue as of each day of the one-year period measured divided by the total number of days in such one-year period; and "**Studio Area**" means the net rentable square footage of the Property designated for film or multi-media production, including any industrial or light manufacturing area but excluding, without limitation, all areas for which office, commercial or retail are the sole permitted uses; and "**Base Rentable Studio Area**" means the total Studio Area at the Property determined pursuant to a measurement of the Buildings to be obtained by Developer and approved by the MRA Director prior to the operation of Developer's business at the Property. By way of example, if the Base Rentable Studio Area is 350,000 square feet, and during the course of an applicable one-year period consisting of 365 days, Developer licenses (a) 308,000 square feet of Studio Area (i.e., 88%) for 180 days, (b) 262,500 square feet of Studio Area (i.e., 75%) for 90 days, and (c) 227,500 square feet of Studio Area (i.e., 65%) for 95 days, the Average Occupancy Rate would be equal to 78.81% (i.e., **43.40%** *(88% × (180/365))* + **18.49%** *(75% × (90/365))* + **16.92%** *(90% × (95/365))*), which would round to 80% and result in a requirement of 16 internships (i.e., 20 × 80%) during said period.

11.6 Cultural Elements. Commencing no later than six months after the Phase 1 Final Completion Date and continuing for a minimum of 20 years thereafter, Developer shall (collectively, the "**Cultural Elements Requirements**"):

11.6.1 Provide local community organizations, the Midtown Engagement Partners, or other stakeholders identified from time to time by the City, access to The Screen at least eight days per year at no additional fees beyond reasonable operating costs, including security, staff, and maintenance. Such access shall be at times not normally reserved for normal public theater programming.

11.6.2 Include in the programing of the screening theater at least four events including but not limited to movie showings, guest speakers, and other related programs that are coordinated and/or co-created with local community organizations, the Midtown Engagement Partners, or other stakeholders identified from time to time by the City. Programs shall be inclusive and shall represent the interests of one or more groups historically subject to discrimination or underrepresented, such as the LGBTQ+ community, communities of color, low-income households, Spanish-speaking people, and Indigenous people, and/or causes supportive of any such group's interests, including but not limited to racial equity, social equity or gender equity.

11.6.3 From time-to-time following notice from the City, coordinate with the City to (a) select a mutually acceptable location at the Project for placement of up to three outdoor sculptures selected by the City which are currently located at the Property, and (b) relocate such sculptures onto the Project (at the City's expense). For the avoidance of doubt, the City shall retain the ownership and control of any such sculpture from and following relocation onto the Project, and may remove the same at any time and from time to time upon notice to Developer.

11.7 Dedication of Educational Space. Prior to the date that the City conveys Phase 1 to Developer, the City will record against the Property (or a portion thereof) the educational use covenant attached hereto as Exhibit K.

11.8 Housing Elements. If the Phase 2 Improvements consist of one or more residential units, then prior to the date that the City conveys Phase 2 to Developer, the City's Office of Affordable Housing will record against the real property comprising Phase 2 (or a portion thereof) the City's standard form of land use restriction that will include, among other things, the following obligations that will bind Developer and its successor and assigns:

11.8.1 15% of the total number of residential units developed on-site shall be affordable in compliance with the Santa Fe Homes Program, SFCC 1987, Section 26-1.

11.8.2 Developer shall prohibit property owners and property management entities of residential units from discriminating regarding the use of housing vouchers or source of income; as well as based on race; color, nation origin, religion, sex (including gender identity and sexual orientation), familial status, disability and other protected groups identified in the City's code or charter, in addition to the State of New Mexico's Human Rights Act, NMSA 1978, Section 28-1-7, or federal fair housing law.

11.9 Midtown District Assessments. In the event that the Property is included in a Tax Increment Finance district ("**TIF District**"), Developer shall properly indicate inclusion in the TIF District on all relevant documents submitted to the New Mexico State Department of Tax and Revenue. Developer shall contractually require all tenants occupying the Property to properly indicate inclusion in the TIF District on all relevant documents submitted to the New Mexico State Department of Taxation and Revenue. The City may require Developer to provide proof of compliance with the foregoing obligation.

11.10 Building Names. Commencing on the Effective Date and for a period of 20 years thereafter, Developer, for itself and its successors and assigns, hereby agrees that Developer shall not be entitled to change the names of the Buildings currently known as 'Benildus Hall' (the "**Benildus Name**") and 'Garson Studios' (the "**Garson Name**" and, together with the Benildus Name, the "**Historical Names**") without the prior written approval of the MRA Director, which approval shall not be unreasonably withheld, conditioned or delayed. Notwithstanding the foregoing, Developer, or the then current owner of either such Building, may, at no cost or expense to the City, may from time to time upon at least 30 days prior written notice to the MRA Director, effect a change of (a) the Benildus Name to a different name that includes the words "Benildus" or "Benildus Hall" or (b) the Garson Name to a different name that includes the words "Garson" or "Garson Studios."

11.11 Environmental Elements.

11.11.1 *Stormwater Management*. Developer shall follow the guidelines established in the Master Plan and Community Development Plan and implement best practices for site construction to ensure that completed stormwater features perform as designed, including implementing procedures to ensure that Developer's contractors avoid pre-compaction of infiltration areas with heavy equipment traffic. Developer shall incorporate water quality treatments for the 90th percentile storm event at the Midtown Site, provided that Developer may incorporate water quality treatments for the 80th percentile storm event following the City's written approval (which shall not be unreasonably withheld) if Developer submits a Technical Memorandum (defined below) to the City that incorporating the 90th

percentile treatments would (a) result in additional costs that exceed 115% of the cost of the 80th percentile treatments, or (b) be infeasible or otherwise result in site constraints that adversely affect the proposed development. For an estimation of the 90th percentile storm event discharge volume, Developer shall refer to U.S. Environmental Protection Agency's (EPA) Technical Report entitled "Estimating Pre-development Hydrology in the Urbanized Areas in New Mexico," and shall elect either the (i) site-specific 90th percentile storm event discharge volume using methodology specified in the referenced EPA Technical Report, or (ii) site-specific pre-development hydrology and associated storm event discharge volume using methodology specified in the referenced EPA Technical Report. If the obligations set forth in this Section are inconsistent with those contained in the Applicable Rules, the more stringent standard or obligation shall control unless a more stringent standard or obligation is expressly precluded by the Applicable Rules. Notwithstanding any provision of this Agreement to the contrary, the Applicable Rules regarding the design of the Project, if any, shall be those that are in effect at the time the Project plans are being processed for approval. "**Technical Memorandum**" means a memorandum, signed by a registered engineer in the state of New Mexico, substantiating the infeasibility of the site meeting the discharge requirements for the 90th percentile storm event, which includes a comprehensive demonstration of why compliance is not possible. Additionally, Developer shall be required to provide such supporting documentation, modeling, and drainage calculations related to the feasibility assessment as the City may reasonably request.

11.12 Environmental and Energy Design Requirements. Developer shall construct all new buildings and renovate all existing Buildings to earn the maximum eligible points for the subcategories designated as 'Required in RFP' on the Project Checklist attached as Appendix A to the Community Development Plan, as further described in the United States Green Building Council (USGBC) Leadership in Environmental and Energy Design: Neighborhood Development (LEED-ND) attached hereto as Exhibit F.

ARTICLE 12
MAINTENANCE AND REPAIR

12.1 Maintenance and Repair. Developer shall keep the Property, including sidewalks and driveways, in safe, good and clean condition, free and clear of equipment, building materials, trash, and debris, other than building materials needed immediately for the construction of the Private Improvements. All building materials stored by Developer Parties (defined below) on the Property in shall be kept in a safe and secure manner. At all times during which Developer, its officers, directors, managers, members, affiliates, agents, employees, representatives, contractors or subcontractors or any other person or entity acting at the direction or with the consent of Developer (each, including Developer, a "**Developer Party**" and, collectively, the "**Developer Parties**") are engaged in the performance of construction activities ("**Construction Activities**"), Developer shall: (a) bear the exclusive responsibility and expense of keeping roads and access ways within and in the vicinity of the Property in safe and clean condition, reasonably free of dirt, mud, and debris which result from Developer's Construction Activities, (b) maintain dumpsters or other trash receptacles at all times and shall empty such dumpsters and trash receptacle before they overflow, but not less frequently than once per week to prevent blowing trash, and (c) install a temporary chain link fence or other protective barriers and caution signage around applicable construction areas.

12.2 Damage. At all times during which the Developer Parties are engaged in Construction Activities, Developer shall take reasonable measures to prevent any damage to adjacent or nearby land, including land owned or maintained by the third parties, governmental entities, utility companies or

the City (the "**Adjacent Land**"), and any Adjacent Improvements located on the Adjacent Land from damage caused by the Construction Activities. "**Adjacent Improvements**" shall include, but shall not be limited to, the Midtown ROW Improvements and all other streets, curbs, gutters, sidewalks, streetlights, underground utilities, walls, landscaping and irrigation improvements, irrigation ditches, and all entry, parking and paving facilities, as well as any other improvements not owned by Developer. Developer shall notify the MRA Director within 10 days following the occurrence of damage to any portion of the Adjacent Land or Adjacent Improvements caused by a Developer Party. Developer shall, at its sole cost and expense, repair such damage and restore the Adjacent Land and/or Adjacent Improvements so damaged to the condition existing immediately prior to the date of such damage. Developer shall indemnify and hold harmless the City Parties from any loss, cost, claim, or damage, including reasonable attorneys' fees, arising from such damage, and shall pay the costs of repairing any damage to the Adjacent Land and/or Adjacent Improvements to the extent such damage results from Construction Activities of Developer or Developer Parties. If Developer fails to properly repair such damage within 30 days follow the occurrence of such damage, the City may elect, pursuant to the City Code, to repair such damage and restore the Adjacent Land and/or Adjacent Improvements so damaged to the condition existing immediately prior to the date of such damage, in which event Developer shall pay the City for the cost of such repair within 10 days following written notice thereof. Notwithstanding any provision of this Article 12 to the contrary, if any damage caused by a Developer Party to any portion of the Adjacent Land or Adjacent Improvements poses imminent danger to the health, safety or welfare of persons located thereon or persons or property in the vicinity thereof, the City may, without providing written notice to Developer or opportunity to cure, repair such damage and property so affected, in which event Developer shall reimburse the City for the cost of such repair within 10 days following written notice thereof.

ARTICLE 13
RESERVED

ARTICLE 14
RELEASE & INDEMNIFICATION

14.1 Release. Developer releases the City Parties from, and covenants and agrees that the City Parties shall not be liable to Developer for, any loss or damage to property or any injury to or death of any Person or Persons occasioned by any cause whatsoever pertaining to the Project, the Property, the use thereof, or any other transaction contemplated by this Agreement; provided that such release shall not apply to any loss or damage to the extent caused by the negligence, acts or omissions of the City Parties.

14.2 General Indemnity. Developer shall indemnify, defend (with counsel reasonably approved by the City, as applicable) and hold harmless the City Parties from all Liabilities, arising from any all claims ("**Claims**") brought against one or more City Parties by any third-party which arise out of or in connection with the Property or any activities, acts or omissions of any of the Developer Parties; provided, however, such indemnity shall not apply to any Liabilities caused by the negligence, acts or omissions of any City Parties and shall be subject to the limitations of NMSA 1978, Section 56-7-1. Developer's indemnity obligations owing to the City Parties under this Section are not limited by applicable insurance coverage required under the Lease. The City shall, after receipt of notice of the existence of a Claim for which it is entitled to indemnity hereunder, notify Developer in writing of the existence of such Claim or commencement of such action.

14.3 Environmental Indemnity. Developer hereby agrees to indemnify, defend (with counsel reasonably approved by the City, as applicable) and hold harmless the City Parties, from all Liabilities (including, but not limited to expenses, penalties and clean-up costs) arising from and against any and all Claims brought against one or more City Parties related to this Project, arising out of or in any way relating to (a) the presence, release, use, generation, transportation, discharge, storage or as a consequence of disposal by Developer Parties, or the presence of any Pollutants in, on or about the Property occurring as a result of or in connection with Developer Parties' use or occupancy of the Property, and in the removal, remediation and disposal of any Pollutants, and (b) the violation, or alleged violation, of any Environmental Laws relating to the use, generation, release, discharge, storage, disposal or transportation of Pollutants on, under, in or about, to or from the Property or migrating onto or under the Property from neighboring properties or otherwise affecting the Property, to the extent caused or permitted by any Developer Parties.

14.4 Survival. The provisions of this Article 14 shall survive any expiration or earlier termination of this Agreement.

ARTICLE 15
ASSIGNMENT; TRANSFER

15.1 Assignment; Transfer. The qualifications and identity of Developer are of particular concern to the City. It is because of those unique qualifications and identity that the City has entered into this Agreement with Developer. Accordingly, Developer shall not directly or indirectly (including by a direct or indirect transfer of the equity in Developer), sell, assign, transfer, convey, or otherwise dispose of, its right, title or interest in this Agreement or a Controlling interest in Developer, whether voluntarily or involuntary by foreclosure, trustee's sale, assignment in lieu thereof or other enforcement of a pledge, hypothecation or collateral assignment of this Agreement (in each case, a "**Transfer**"), without the prior written consent of the City, which consent may be withheld in the City's sole and absolute discretion. Any such attempted Transfer, other than as permitted in this Article 15, without such consent shall be null and void. No Transfer, whether with or without consent, shall operate to release Developer or alter Developer's primary liability to perform its obligations under this Agreement.

15.2 Permitted Transfer. Notwithstanding anything in this Article 15 to the contrary, and provided there is no uncured Event of Default by Developer under this Agreement or the Lease, Developer shall have the right, without the prior written consent of the Governing Body, to Transfer this Agreement or a direct or indirect ownership interest in Developer to (a) a third party, provided that Developer's Principal or an entity Controlled by Developer's Principal, remains the Controlling member of Developer, (b) a Leasehold Mortgagee (as such term is defined in the Lease), or (c) a purchaser of all or substantially all of Developer's assets from the Leasehold Mortgagee or its designee or nominee approved by the City following a Mortgagee Transfer Event (as defined in the Lease) (each, a "**Permitted Transfer**"); provided, however, that, except as otherwise set forth in Section 15.4, (i) such Permitted Transfer is for a valid business purpose and not to avoid any obligations under this Agreement, (ii) no later than 15 days prior to the effective date of the Permitted Transfer, Developer shall give notice to the City, which notice shall include the full name and address of the assignee, and a copy of all agreements executed between Developer and the assignee with respect to the Project or part thereof, as may be the case, (iii) no later than five days after the effective date of the Permitted Transfer, the assignee shall provide a written instrument satisfactory to the City evidencing assignee's assumption of all of the obligations of Developer hereunder, and (iv) within 10 days after the City's

written request, provide such reasonable documents or information which the City reasonably requests for the purpose of substantiating whether or not the Permitted Transfer is to an Affiliate or is otherwise in accordance with the terms and conditions of this Section 15.2. Developer shall not have the right to perform a Permitted Transfer, if, as of the date of the effective date of the Permitted Transfer, an Event of Default is then continuing.

15.3 Collateral Assignment. Notwithstanding the foregoing, Developer may collaterally assign this Agreement to a Leasehold Mortgagee (as defined in the Lease), provided that (i) Developer provides written notice to the MRA Director along with a copy of the collateral assignment at least 10 days prior to the closing of such Leasehold Mortgage, and (ii) the Leasehold Mortgagee complies with the terms and conditions of Section 15.4.

15.4 Financing.

15.4.1 If any interest of Developer in any Phase is Transferred by reason of any foreclosure, deed in lieu of foreclosure, trustee's deed or any other proceeding for enforcement of a Leasehold Mortgage, then the Leasehold Mortgagee thereunder (or any Approved Designee (as defined in the Lease) of the Leasehold Mortgagee) shall agree to assume the obligations of Developer hereunder without the necessity of entering into a an assignment and assumption agreement, except as otherwise provided in this Section 15.4. Notwithstanding the foregoing, the City shall not have the right to terminate this Agreement as a result of any Leasehold Mortgagee failing to assume the obligations of Developer hereunder unless such Leasehold Mortgagee or its Approved Designee fails to do so within 90 days after such Leasehold Mortgagee's acquisition of Developer's leasehold interest in the applicable Phase; it being acknowledged that such Leasehold Mortgagee may intend to Transfer its interest in the such Phase to an Approved Designee and such Approved Designee shall assume the obligations of Developer hereunder.

15.4.2 In no event may Developer represent that the City is or in any way may be liable for the obligations of Developer in connection with (i) any financing agreement or (ii) any public or private offering of securities. Developer agrees to indemnify, defend or hold the City and its respective officers, directors, agents and employees free and harmless from, any and all liabilities, costs, damages, claims or expenses arising out of or related to the breach of its obligations under this Section 15.4.

15.4.3 Developer's breach of this Agreement shall not defeat, render invalid, diminish or impair the lien of any Leasehold Mortgage on the applicable Phase made in good faith and for value.

15.4.4 Prior to terminating this Agreement or exercising any other right or remedy due to an Event of Default, the City will give written notice of any the Event of Default to each Leasehold Mortgagee that previously notified the City of its name, notice address, and of the Leasehold Mortgage's existence (together with a copy thereof), and shall afford the Leasehold Mortgagee a period of 30 days after delivery of such notice in which to cure the Event of Default; provided, however, if any such Event of Default arises from a non-monetary breach or violation that is susceptible to cure by the Leasehold Mortgagee but cannot reasonably be cured within such 30-day period, then so long as the Leasehold Mortgagee commences to cure the Event of Default within the 30-day period and diligently pursues such cure to completion, the Leasehold Mortgagee shall have up to 90 days after notice from the City in which to complete such cure.

15.4.5 Notwithstanding Section 15.4.4 to the contrary, in the event of a non-monetary default which cannot be cured without obtaining possession of the applicable Phase or that is otherwise personal to Developer (i.e., 18.1.1(d) (*General Assignment*), 18.1.1(e) (*Voluntary Petition*), 18.1.1(f) (*Involuntary Petition*) and 18.1.1(g) (*Appointment of Receiver*)) and not susceptible of being cured, the City will not seek any legal remedies under this Agreement without first giving each Leasehold Mortgagee (or its Approved Designee) reasonable time within which exercise its rights and remedies under the Leasehold Mortgage to obtain possession of the applicable Phase, including possession by a receiver, or to institute and complete foreclosure proceedings, and to the extent the Leasehold Mortgagee exercises such rights and remedies (and notifies the City of the same), no cure period set forth in Section 15.4.4 shall commence to run until the Leasehold Mortgagee obtains possession or control of Developer's interest in the applicable Phase. Upon acquisition of Developer's interest in the applicable Phase and performance by the Leasehold Mortgagee of all covenants and agreements of Developer, except those which by their nature cannot be performed or cured by any Person other than Developer (i.e., Sections 18.1.1(d) through 18.1.1(g)), the City's right to seek legal remedies for such non-monetary default shall be waived with respect to the matters which cannot be cured by the Leasehold Mortgagee; provided, however, the City shall not be deemed to have waived any remedies it may have against Developer or Developer's Principal, including without limitation, pursuant to Section 18.2.1(e).

ARTICLE 16
LIENS

Except with respect to leasehold financing permitted under the Lease, (a) Developer shall not place or allow to be placed on the Property (excluding any portion of the Property conveyed pursuant to Section 10.1). any mortgage, deed of trust, security interest, monetary encumbrance or lien (statutory or otherwise), or any agreement to enter into or create any of the foregoing (collectively, a "**Lien**"), on or affecting all or any portion of the Property. Notwithstanding the foregoing, no such Lien shall constitute an Event of Default if, within 30 days after Developer becomes aware of a Lien on or affecting the Property or the Private Improvements, Developer causes the debt secured by such Lien to be satisfied or other security (including a bond) to be deposited with the court in the amount determined by the court to be sufficient to cancel such Lien.

ARTICLE 17
REPORTING REQUIREMENTS

17.1 Reporting Requirements.

17.1.1 *Construction Related Reports*. Developer shall provide written reports substantially in the form attached hereto as Exhibit M (each, a "**Report**") to the MRA Director detailing: (a) the progress of all entitlements, permits, approvals and construction financing required for the commencement of construction of each Phase, (b) during construction, the progress of construction (expressed as a percentage of the completion of each Phase) and any concerns or perceived delays to complete the applicable Phase, and (c) any other information relating to the construction of the Project that the MRA Director may request in its sole discretion. The form of Report may be amended from time to time by the MRA Director. No later than January 31, April 30, July 31, and October 31 of each year, Developer shall deliver to the MRA Director a Report containing the applicable information described above for the prior three-month period (each, a "**Quarterly Construction Report**"). In addition to each Quarterly Construction Report, within 15 days following

the MRA Director's written request, Developer shall deliver to the MRA Director a Report containing the information specified in the MRA Director request.

17.1.2 *Program Related Reports*. On or before January 31st of each year following the Effective Date, Developer shall provide a report to the MRA Director summarizing the extent of Developer's material compliance with the terms of Developer's obligations contained in Sections 11.1 through 11.8 during the preceding calendar year or, with respect to the year in which this Agreement becomes effective, the preceding partial calendar year, provided that no report shall be required for calendar year 2024. This Section 17.1.2 shall survive the expiration or termination of this Agreement for the duration of Developer's obligations under Sections 11.1 through 11.8.

17.1.3 *Developer's Financial Statements*. During the Term of this Agreement, Developer agrees to furnish the MRA Director a copy of Developer's annual Financial Statements within 90 days after the end of Developer's fiscal year. All Financial Statements shall be certified as true and correct by Developer's Principal and reviewed by a certified public accountant who is not an employee or principal of Developer or its Affiliates.

17.2 Audits and Inspections. Not more than twice per calendar year, and at any time after the City has provided written notice to Developer of its reasonable, good faith belief that Developer has materially breached this Agreement (together with documentation or other evidence of such breach), Developer shall make available to the MRA Director for examination all of Developer's records with respect to all matters for which reports or statements are provided pursuant to Section 17.1 of this Agreement. The MRA Director shall give reasonable notice to Developer of such examination, and in any event, a minimum of 14-days' prior notice. Developer shall permit the MRA Director to audit, examine, and make excerpts or transcripts from such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Agreement. This Section 17.2 shall survive the expiration or termination of this Agreement for the duration of Developer's obligations under Sections 11.1 through 11.8.

17.3 IPRA Compliance. Developer understands that records in the possession of the City are subject to IPRA, and to the extent required, Developer will comply with IPRA.

ARTICLE 18
DEFAULT AND REMEDIES

18.1 Default by Developer.

18.1.1 *Events of Default*. The following constitute an "**Event of Default**" under this Agreement:

(a) *General Breach*. Developer's breach, or failure to perform in any material respect, any Applicable Rule or any commitment, agreement, covenant, term or condition of this Agreement (other than those specifically described in any other subparagraph of this Section 18.1.1), and failure to remedy any such breach or failure within 30 days after receipt of written notice from the City with respect thereto; provided, however, that such breach or failure will not constitute an Event of Default if such breach or failure cannot reasonably be cured within said 30-day period so long as (i) Developer, within said 30-day period, initiates and diligently and continuously pursues

appropriate measures to remedy the breach or failure, and (ii) such default is cured within 90 days after Developer's receipt of the notice from the City with respect thereto.

(b) *Abandonment*. Developer Abandons the construction of the Project. For purposes hereof, "**Abandon**" and "**Abandonment**" means the stoppage of construction of a Phase of the Project for more than 120 consecutive calendar days after Commencement of Construction of the Phase and prior to Final Completion of the Phase for any reason other than a Force Majeure Event or the City's failure to perform its obligations under Section 8.2 through no fault of Developer.

(c) *Failure to Complete*. Subject to a Force Majeure Event, (i) Developer's failure to cause the Final Completion of Phase 1 by the Phase 1 Final Completion Date, (ii) following Construction Commencement for the Phase 2 Improvements, Developer's failure to cause the Final Completion of the Phase 2 Improvements by the Phase 2 Final Completion Date, or (iii) following Construction Commencement for the Phase 3 Improvements, Developer's failure to cause the Final Completion of the Phase 3 Improvements by the Phase 3 Final Completion Date.

(d) *General Assignment*. Developer makes a general assignment for the benefit of creditors or admits in writing its inability to pay its debts as they become due.

(e) *Voluntary Petition*. Developer files a voluntary petition under any title of the United States Bankruptcy Code, as amended from time to time, or such petition is filed against Developer and an order for relief is entered, or Developer files any petition or answer seeking, consenting to or acquiescing in any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under any present or any future federal bankruptcy code or any other present or future applicable federal, state or similar statute or law, or seeks or consents to or acquiesces to or suffers the appointment of any trustee, receiver, custodian, assignee, liquidator or similar official of Developer, or of all or any substantial part of its properties or of the Project or any interest therein of Developer; provided, however, that Developer shall have the right, within 180 days after filing or receiving notice of any such petition or similar action or proceeding described in this subparagraph, to cause such petition or similar action or proceeding to be dismissed, in which case such petition or similar action or proceeding shall not be an Event of Default.

(f) *Involuntary Petition*. Any proceeding against Developer seeking any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any future federal bankruptcy code or any other present or future applicable federal, state or similar statute or law, has not been dismissed within 180 days after the commencement thereof.

(g) *Appointment of Receiver*. The appointment of any trustee, receiver, custodian, assignee, liquidator or other similar official of Developer or of all or any substantial part of its properties or of the Project or any interest therein of Developer, which appointment has not been vacated or stayed on appeal or otherwise within 180 days after the appointment, or such appointment has not been vacated within 180 days after the expiration of any such stay.

(h) *Breach of Representations.* Any material representation or warranty made by Developer in this Agreement, or in any certificate, notice, demand or request made by Developer in writing and delivered to the City pursuant to or in connection with this Agreement or the Lease, is untrue, false or misleading in any material respect as of the date made or furnished; provided, however, to the extent a representation or warranty is untrue, false or misleading for reasons other than an intentional, material misrepresentation by Developer, such untrue, false or misleading

representation or warranty shall not cause an Event of Default if (i) it is susceptible to cure (i.e., Developer's actions can cause the facts or circumstances relative to the applicable circumstance to change such that the representation or warranty as originally made will become correct), and (ii) such cure is made by Developer within 30 days after receipt by Developer of written notice from the City of the same, provided that if such cure cannot reasonably be completed within said 30-day period, then such longer period of time not to exceed 90 days after Developer's receipt of the notice from the City with respect thereto, so long as Developer, within said 30-day period, initiates and diligently and continuously pursues appropriate measures to cure such breach.

(i) *Failure to Maintain Insurance*. Developer fails to replace or otherwise maintain in full force and effect, without any gap in coverage, any insurance required to be maintained by Developer pursuant to Section 11 of the Lease.

(j) *Monetary Default*. Developer fails to make any payments required to be made by Developer hereunder as and when due, and fails to make any such payment within 30 days after receiving written notice of such failure from the City.

18.2 Remedies.

18.2.1 Upon the occurrence and during the continuance of an Event of Default, the City may, at the City's election:

(a) enter into a workout agreement with Developer to modify this Agreement in the City's sole discretion;

(b) terminate this Agreement and, if the City so elects, in its sole discretion, require the demolition and removal of any partially constructed or partially completed Private Improvements associated with the applicable Phase and the performance of Site Restoration pursuant to and in accordance with Section 7.5, but only if such Event of Default arises in connection with any of the following events (each, a "**Termination Event**"):

(i) any Event of Default arising in connection with any acts or omissions of Developer constituting gross negligence, willful or wanton misconduct, fraud or a knowing violation of any Applicable Rules;

(ii) any Event of Default under 18.1.1(d) (*General Assignment*), 18.1.1(e) (*Voluntary Petition*), 18.1.1(f) (*Involuntary Petition*) or 18.1.1(g) (*Appointment of Receiver*);

(iii) any Event of Default under Sections 18.1.1(b) (*Abandonment*);

(iv) any Event of Default under Section 18.1.1(c) (*Final Completion*) that continues for more than 12 months following the required date for Final Completion for any Phase thereunder;

(v) any Event of Default under Section 18.1.1(i) (*Failure to Maintain Insurance*), or, if the City obtains insurance on Developer's behalf pursuant to Section 18.2.1(d), Developer's failure to reimburse the City within 90 days after the City's written demand therefor; and

(vi) the occurrence of more than two Events of Default under any subsection of Section 18.1.1, exclusive of any other Terminating Event, in any 12-month period; and

(c) if the Developer Abandons the construction of the Project or fails to cause Final Completion of any applicable Phase, (i) do such acts and expend such reasonable funds at the expense of Developer as are reasonably necessary to construct and complete the applicable Private Improvements, in which event all funds expended by the City for such work shall be due and payable by Developer within 30 days after demand by the City, together with accrued interest thereon at 12% per annum from the date incurred until paid, *or* (ii) receive liquidated damages under the circumstances set forth in Section 18.3;

(d) if Developer fails to replace or otherwise maintain in full force and effect, without any gap in coverage, any insurance required to be maintained by Developer pursuant to Section 11 of the Lease, obtain such insurance on Developer's behalf, in which event Developer shall reimburse the City for the cost of such insurance premium within 30 days after written demand by the City, together with accrued interest thereon at 12% per annum from the date incurred until paid;

(e) exercise its rights and remedies under the Guaranty or Bond, as applicable;

(f) seek to enjoin or restrain Developer from commencing or continuing said Event of Default;

(g) seek to cause by injunction Developer to correct and cure said Event of Default; and/or

(h) exercise any and all remedies at law, in equity or otherwise available under this Agreement.

18.2.2 Upon the City's election to exercise its remedy to terminate this Agreement under Section 18.2.1(b) or construct the Private Improvements under Section 18.2.1(c)(i), Developer shall deliver to the City an Assignment of Plans in the form attached hereto as Exhibit L, pursuant to which Developer shall assign to the City all of Developer's right, title and interest in and to all Plans and Specifications and Approvals. Developer acknowledges and agrees that, as a condition of the City's consummation of the transactions herein, each written agreement between Developer and any Person performing work at or for the Project, including work relating to the preparation or modification of the Plans and Specifications, shall include such Person's consent to the assignment by Developer to the City of all right, title and interest of Developer in and to Plans and Specifications.

18.2.3 Upon the occurrence and during the continuance of any material breach, failure or other condition that, but for the City's delivery of notice or the lapse of time thereafter, would constitute an Event of Default, the City may withhold the release of any final maps and/or building permits or other City approvals until the breach or failure is resolved to the reasonable satisfaction of the City; provided, however, the City will not withhold the release of any of the foregoing maps, permits or approvals if Developer delivers written notice to the City of its commencement of actions to cure such breach, failure or other condition within the applicable cure period.

18.3 Liquidated Damages. The City and Developer covenant and agree that because of the difficulty and/or impossibility of determining the City's damages upon the occurrence of an Event of

Default pursuant to Section 18.1.1(c) (*Failure to Complete*), by way of detriment to the public benefit and welfare of the City through lost employment opportunities, degradation of the economic health of the City and loss of revenue, both directly and indirectly, if the City elects its remedy to receive liquidated damages under Section 18.2.1(c)(ii), Developer shall pay to the City, and the City shall accept as an exclusive remedy, as liquidated damages and as a reasonable forecast of such potential damages and not as penalties, $500 per calendar day commencing on the date that the City delivers written notice to Developer of its election to receive liquidated damages pursuant to this Section 18.3 and continuing until earlier of (a) the date that such Event of Default is cured, or (b) the termination of this Agreement pursuant to a Termination Event. Developer agrees to waive any and all affirmative defenses that the amount of liquidated damages provided herein constitutes a penalty.

18.4 Community Benefit and Commercial Use Requirements. Notwithstanding any provision of this Article 18 to the contrary, if Developer fails to satisfy or comply with any of the Community Benefit Requirements, and such failure or non-compliance continues for 30 days after the City provides written notice thereof (a "**Non-Compliance Event**"), Developer shall be obligated to pay to the City a fee (each, a "**Non-Compliance Fee**") for each such Non-Compliance Event, the amount of which shall be $25,000 as of the Effective Date and shall increase annually by the percentage increase in the Consumer Price Index from the Effective Date to the most recent anniversary of the Effective Date prior to the date such Non-Compliance Fee becomes due; provided, however, Developer shall not (i) be required to pay a Non-Compliance Fee more than one time in a calendar year for the same Non-Compliance Event, or (ii) be liable for payment of a Non-Compliance Fee for any Non-Compliance Events in excess of four such events (i.e., $100,000, subject to adjustment based on the Consumer Price Index). For purposes hereof, "**Community Benefit Requirements**" means each of the following independent requirements: (a) the economic opportunity requirements in Section 11.3, (b) the Commercial Use Requirements in Section 11.4, (c) the Film Internship Requirements in Section 11.5, and (d) the Cultural Element Requirements in Section 11.6. The Non-Compliance Fee shall constitute the City's sole and exclusive remedy with respect to Developer's failure to satisfy any such Community Benefit Requirements in any calendar year, except that Developer's failure to pay the City any Non-Compliance Fee within five days after the date such Non-Compliance Fee becomes due shall constitute an Event of Default upon which the City shall be entitled to exercise its remedies under this Article 18.

18.5 Rights and Remedies Cumulative. Except as otherwise expressly stated in Sections 18.3 (Liquidated Damages) and 18.4 (Community Benefit and Commercial Use Requirements), the rights and remedies of the City are cumulative and in addition to any other right or remedy given hereunder or now or hereafter existing by agreement, Applicable Rules, or in equity, and the exercise by the City of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same Event of Default or any other Event of Default, to the extent permitted by law. The provisions of this Article 18 shall survive the expiration or termination of this Agreement. No waiver made by the City or Developer shall apply to obligations beyond those expressly waived in writing.

18.6 Event of Default by City. If the City defaults in its obligation to convey title to any Phase to Developer at the applicable Closing for such Phase pursuant to and in accordance with this Agreement, Developer shall deliver to the City a written notice of default and, upon the City's receipt of the notice of default, the City shall commence and complete the cure of such default. If the City has not completed the cure of the default within 60 days after receipt of the written notice of default, or such longer period as may be reasonably required by the City, provided that the City continuously and

diligently pursues the cure of the default at all times during such period until such cure is completed, then the City's failure to convey title shall constitute a "**City Default**" hereunder. Upon any City Default, Developer may elect, by written notice to the City, as Developer's sole remedy, either to (i) terminate this Agreement, in which case the Initial Deposit will be returned to Developer and, the parties will be relieved of all further obligations under this Agreement except for those obligations that survive termination of this Agreement, or (ii) treat this Agreement as being in full force and effect and, within 30 days following written notice to the City of its election, file a suit for specific performance to compel the City to convey title to the applicable Phase to Developer in accordance with this Agreement. Developer irrevocably waives any right to bring an action for damages of any nature or type, including, without limitation, actual, consequential, incidental or punitive damages. As material consideration for the City entering into this Agreement with Developer, Developer expressly waives any right to record or file a lis pendens or a notice of pendency of action or similar notice against all of any portion of the Project. No part of this Agreement shall be deemed to abrogate or limit any immunities or defenses the City may otherwise have with respect to claims for monetary damages.

18.7 Waiver. Any failures or delays by either Party in asserting any of such Party's rights and remedies as to any Event of Default or City Default, as applicable, shall not operate as a waiver of such Event of Default or City Default, or of any of such Party's rights or remedies hereunder. The provisions of this Article 18 shall survive the expiration or termination of this Agreement.

18.8 Cross-Termination. The City does not desire to lease the Property to Developer pursuant to the Lease without Developer's commitment to develop and purchase the Project pursuant to this Agreement, and Developer does not desire to lease the Property from the City pursuant to the Lease without having the right to develop and acquire the Project pursuant to this Agreement. Therefore, the parties hereto agree that notwithstanding any other provision hereof, in the event (a) the Lease is terminated for any reason (other than termination with respect to a single, conveyed Phase), then this Agreement shall also terminate and be of no further force and effect, except for those obligations that survive termination of this Agreement, and (b) this Agreement is terminated for any reason, then the Lease shall also terminate and be of no further force and effect, except for those obligations that survive termination of the Lease, and in each such case, each party shall be entitled to pursue its applicable rights or remedies, if any, provided for under this Agreement and/or the Lease.

ARTICLE 19
RIGHT OF FIRST REFUSAL

19.1 City Right of First Refusal. If, at any time prior to the ROFR Termination Date (as defined in Section 19.3), Developer receives a bona fide offer from an unaffiliated third-party ("**Offer Party**") to acquire all or any portion of the Property that Developer intends to accept, then Developer shall promptly provide written notice to the City, setting forth the material terms of the offer, including the legal description of the applicable portion of the Property (the "**Offer Land**"), offer price, earnest money deposit, due diligence period, closing time, and other material terms and conditions (the "**Offer Notice**"). The City may elect to acquire all of the Offer Land (but not less than all) in accordance with the same material terms and conditions contained in the Offer Notice, by delivering written notice to Developer of the City's willingness to enter into a contract for the purchase of the Offer Land (the "**Election Notice**") no later than 45 days following the City's receipt of the Offer Notice (the "**Election Deadline**"); provided, however, the City shall not be required to accept any terms for which the City's agreement would constitute a violation of Applicable Rules.

19.2 Contract Negotiation. Within 10 days after Developer's receipt of the City's Election Notice to Developer, Developer shall provide a draft purchase and sale agreement consistent with the material terms of the offer, and the City and Developer shall endeavor in good faith to negotiate a mutually agreeable purchase and sale agreement containing the material terms of the offer ("**Offer Contract**") within 45 days after Developer's receipt of the Election Notice ("**Offer Contract Deadline**"). Each Party shall be responsible for all expenses, including, without limitation, all legal fees, incurred by such Party with respect thereto. The execution and delivery of the Offer Contract will be subject to approval by the Governing Body in accordance with the City Code.

19.3 Termination of Right of First Refusal. The City's right of first refusal under this Article 19 shall terminate with respect to the Offer Land on the earlier of (a) the expiration of the Election Deadline if the City fails to timely deliver its Election Notice for the Offer Land, or (b) the expiration of the Offer Contract Deadline if the City and Developer, despite their commercially reasonable efforts to do so, are unable to agree upon an Offer Contract for the Offer Land following delivery of any Election Notice. Upon any such termination, the City shall have no further right or interest in the Offer Land, and Developer shall thereafter be free to sell or transfer the Offer Land to the Offer Party, subject to this Agreement, the Applicable Rules and matters of record. Notwithstanding the foregoing, if the Offer Party fails to acquire the Offer Land on terms materially consistent with the original offer within 180 days after the referenced termination, the City's option under this Article 19 shall be reinstated with respect to the unacquired Offer Land. The City's right of first refusal under this Article 19 shall expire and be of no further force or effect on the earlier of (i) the fifth anniversary of the Phase 1 Closing Date, or (ii) the date Developer has conveyed all of the Property to one or more unaffiliated third parties in accordance with this Agreement (as applicable, the "**ROFR Termination Date**"). For the avoidance of doubt, prior to the ROFR Termination Date, the City's right of first refusal shall continue with respect any portion of the Property owned by Developer that is not subject to an Offer Contract.

ARTICLE 20
GENERAL PROVISIONS

20.1 Compliance with Laws. Developer shall carry out the design and construction of the Private Improvements and the operation of the Project in conformity with all Applicable Rules, including all applicable state labor standards, building, plumbing, mechanical, and electrical codes, and the Americans With Disabilities Act of 1990 (42 U.S.C. Section 12101, et seq., as amended, the "**ADA**"), as such Applicable Rules exist on the Effective Date or the date of the relevant application or request for permit, as applicable. During any Construction Activities, Developer shall comply, and cause the other Developer Parties to comply, with all Applicable Rules, including the ADA. Developer, through any contractor, agrees to be responsible for knowing all applicable requirements of the ADA and to defend, indemnify and hold harmless the City, its officials, agents and employees from and against any and all claims, actions, suits or proceedings of any kind brought against said parties as a result of any acts or omissions of Developer Parties or its agents in violation of the ADA.

20.2 Discrimination Prohibited. Developer shall comply, and cause the Developer Parties to comply, with Applicable Rules relating to discrimination against or segregation of any Person or group of Person, and will not on the grounds of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, sexual preference, marital status, source of income, physical or mental disability, medical condition, or citizenship status, discriminate or permit discrimination against any Person or group of Persons in any manner prohibited by Title 49 CFR Parts

21 and 23, the Civil Rights Act of 1964, as amended, the Equal Pay Act of 1963, the Rehabilitation Act of 1973, the New Mexico Human Rights Act, and SFCC 1987 Section 2.02. Without limiting the generality of the foregoing, Developer will not discriminate against any employee or applicant for employment or tenancy because of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, sexual preference, physical or mental disability, medical condition, or citizenship status. Such covered actions include, without limitation: employment, promotion, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; selection for training; and disciplinary actions and grievances. Developer agrees to post in conspicuous places available to employees, and applicants for employment, notice to be provided setting forth the provisions of this non-discrimination clause.

20.3 Recordation. Promptly after the later of the Effective Date and the recordation of the Plat, the City shall record an executed original of this Agreement in the real property records of the Clerk's Office of Santa Fe County, New Mexico (the "**Official Records**"). All amendments, transfers, and assignments hereto must be in writing signed by the appropriate officers of the City and Developer in a form suitable for recordation in the Official Records. Upon completion of the Private Improvements based on a Certificate of Completion for the final Phase, or the earlier revocation or termination of this Agreement, the final Certificate of Completion, revocation, or termination shall be signed by the appropriate officers of the City and Developer, and the City shall record such document in the Official Records; provided, however, such document or the recording thereof shall not effect or eliminate any obligations in this Agreement that expressly survive the termination or expiration hereof.

20.4 Covenants Running With the Land. This Agreement, including all covenants, agreements, rights, restrictions and obligations contained herein (subject to certain term limitations as contained in this Agreement) (i) shall run with the Property, (ii) shall be binding upon the Developer, the owner(s) of any portion of the Property, and each of its and their successors (by merger, consolidation, operation of law or otherwise), successors-in-title, assigns, and lessees, whether by operation of law or in any manner whatsoever, and (iii) shall inure to the benefit of the City, as the intended beneficiary of the terms and provisions of this Agreement and of the covenants running with the Property, without regard to whether the City has been, remains, or is an owner of any interest in the Property or the Midtown Site. In the event this Agreement is terminated by the City, this Agreement may be released of record, in whole or in part, upon execution and recording by the City of a notice of termination or other instrument evidencing such termination.

20.5 Notices. Any notice, request, demand, instruction or other document to be given or served hereunder or under any document or instrument executed pursuant hereto shall be in writing and shall be delivered either personally with a receipt requested therefor, or by overnight courier, or by certified mail, return receipt requested, postage prepaid, in any case addressed to the Parties at their respective addresses set forth below, and the same shall be effective (a) upon receipt or refusal if delivered personally, (b) one Business Day after depositing with such an overnight courier service, (c) three Business Days after deposit in the mail if mailed, or (d) upon successful electronic mail transmission evidenced by an electronic "read receipt" and provided that such notice is also delivered by the means described in clauses (a) or (b) within two Business Days after such electronic mail notice. All notices to the City or Developer shall be sent to the persons and addresses set forth below. A Party may change its address for receipt of notices by service of a notice of such change in accordance herewith.

Santa Fe, NM 87505

20.6 Relationship Between Parties. Notwithstanding any language in this Agreement or any representation or warranty to the contrary, the relationship between Developer and the City shall be as independent contractors, and neither the City nor Developer shall be deemed or constitute an employee, servant, agent, partner or joint venturer of the other.

20.7 No Third-Party Rights. This Agreement is for the sole and exclusive benefit of the Parties and their respective successors and permitted assigns, and no third party other than a permitted assignee of the City or Developer is contemplated to or shall have any rights hereunder.

20.8 Counterparts. This Agreement may be signed in multiple counterparts or with detachable signature pages, but either or both circumstances shall constitute one instrument, binding upon all parties thereto as if all parties signed the same document. If so executed, each such counterpart of this Agreement is to be deemed an original for all purposes and all such counterparts will collectively constitute one Agreement, but in making proof of this Agreement, it will not be necessary to produce or account for more than one such counterpart.

20.9 Exhibits; Ancillary Documents. All certificates, documents, exhibits, attachments, riders, and addenda referred to in this Agreement are hereby incorporated into this Agreement by reference and made a part hereof as though set forth in full in this Agreement to the extent they are consistent with its conditions and terms. In the event of any conflict between the terms set forth in this Agreement for any exhibit or ancillary document and the terms set forth in the agreed-upon exhibit or ancillary document, the terms of the agreed-upon exhibit or ancillary document, as applicable, shall control.

20.10 Time of Essence. Time is expressly made of the essence with respect to the performance by Developer of every obligation and condition of this Agreement.

20.11 Computation of Time. All references herein to "days" mean calendar days. All references herein to "months" mean the period starting on one day in a calendar month and ending on the numerically corresponding day in the next calendar month, except that, solely with respect to the last month of any period (a) if the numerically corresponding day is not a Business Day, that period will be deemed to end on the next Business Day, (b) if there is no numerically corresponding day in the next calendar month, then that period shall end on the first Business Day after the last day of that month. In computing any period of time under this Agreement in which days define the period, (i) the date of the act or event from which the designated period of time begins to run shall not be included, and (ii) the last day of the period so computed shall be included unless it is a day other than a Business Day, in which event the day for performance thereof shall be extended to the next Business Day. If any act is to be done by or within a period of time, the last day of said period of time shall be deemed to end at 5:00 p.m. MT.

20.12 Effect and Duration of Agreement Provisions. All obligations, covenants and agreements contained herein which are not performed at or before Final Completion of the Project (or any Phase thereof) but which are to be performed after Final Completion of the Project or the Phase, as applicable, as provided in this Agreement, shall survive the Final Completion of the Project or Phase, as applicable. Subject to the foregoing and any other provisions of this Agreement that by their terms expressly survive the performance, expiration or earlier termination of this Agreement, as applicable, the provisions of this Agreement applicable to any Private Improvement Project Specifications shall terminate with respect to each Phase upon the issuance of the Certificate of Completion for such Phase.

20.13 Force Majeure. Neither the City nor Developer shall be deemed to be in default hereunder if either Party is prevented from performing any of the obligations, other than monetary obligations hereunder, by reason of strikes, boycotts, labor disputes, embargoes, industry-wide or regional shortages of labor, energy or materials (to the extent not caused by the failure of any person to adequately plan materials orders or labor allocation as necessitated by the then-current markets therefor), acts of the public enemy, infectious disease or pandemic, weather conditions and the results of acts of nature, riots, rebellion, sabotage, any approval required by the City (not including any period of time normally expected for the processing of such approvals in the ordinary course of affairs), or any other similar circumstances for which it is not responsible or which are not within such Party's control (each a "**Force Majeure Event**"); provided, however, the Parties stipulate and agree that none of the following events or occurrences shall be deemed a Force Majeure Event: (a) the novel coronavirus COVID-19 pandemic (except to the extent the pandemic is the direct cause of any of the delay events listed above), (b) financial distress or the inability of a Party to earn a profit or avoid a financial loss, and (c) a Party's inability to perform its financial obligations hereunder, including Developer's inability to secure funds in an amount sufficient to complete the Private Improvements. An extension of time for any Force Majeure Event shall commence to run from the time of the commencement of the Force Majeure Event if notice by the Party claiming such extension is sent to the other Party within 30 days after said commencement. If such notice is delivered after such 30-day period, the extension period shall commence to run from the date of such notice. After the termination of any such Force Majeure Event, the obligation to perform shall recommence with a day-for-day delay extension to any deadlines.

20.14 Severability. In the event any covenant, condition or provision herein is held to be invalid, illegal, or unenforceable by any court of competent jurisdiction, such covenant, condition or provision shall be deemed amended to conform to Applicable Rules so as to be valid or enforceable or, if it cannot be so amended without materially altering the intention of the parties, it shall be stricken.

If stricken, all other covenants, conditions and provisions of this Agreement shall remain in full force and effect provided that the striking of such covenants, conditions or provisions does not materially prejudice either the City or Developer in its respective rights and obligations contained in the valid covenants, conditions or provisions of this Agreement.

20.15 Interpretation. Whenever the words "include," "includes" or "including" are used in this Agreement they shall be deemed to be followed by the words "without limitation." The words "hereof", "herein" and "hereunder" and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement. Unless otherwise expressly provided herein, any agreement, instrument or statute defined or referred to herein or in any agreement or instrument defined or referred to herein means such agreement, instrument or statute as from time to time amended, modified or supplemented, including (in the case of agreements or instruments) by waiver or consent and (in the case of statutes) by succession of comparable successor statutes, and references to all attachments thereto and instruments incorporated therein.

20.16 Sections. References to section numbers are to sections in this Agreement, unless otherwise expressly stated.

20.17 Gender, Singular/Plural. Words of any gender used in this Agreement shall be held and construed to include any other gender, and words in the singular number shall be held to include the plural, unless the context otherwise requires.

20.18 Headings and Captions. Headings and captions of sections and paragraphs are for convenience, not limitation, and are not to be construed as modifying text.

20.19 Further Assurances. Developer and the City covenant that they shall do, execute, acknowledge and deliver or cause to be done, executed, acknowledged and delivered such instrument, supplemental hereto and further acts, instruments and transfers as may be required hereunder. All such ancillary agreements shall be in accordance with and not contradictory to the terms and conditions set forth in this Agreement.

20.20 Waiver. No provisions of this Agreement shall be deemed to have been waived by either Party unless such waiver is in writing, signed by the Party making the waiver and addressed to the other Party, nor shall any custom or practice which may evolve between the Parties in the administration of the terms of this Agreement be construed to waiver or lessen the right of either Party to insist upon the performance of the other Party in strict accordance with the terms of this Agreement. Further, the waiver by any Party of a breach by the other Party or any term, covenant, or condition hereof shall not operate as a waiver of any subsequent breach of the same or any other term, covenant, or condition thereof. No acceptance by the City of any partial payment shall constitute an accord or satisfaction but shall only be deemed a partial payment.

20.21 Modifications; City Approval. Any amendment, alteration, change or modification of or to this Agreement, in order to become effective, shall be made in writing and in each instance signed on behalf of each Party and, if applicable, approved by the Governing Body and in accordance with any applicable City signature policy. The MRA Director shall record amendments, alterations, changes, and modifications to this Agreement in the Official Records, though a failure to so record shall not impair the effectiveness of such as between the Parties. The MRA Director may extend the time for the performance of any term or satisfaction of any condition hereunder for up to 180 days by the execution of a letter countersigned by Developer. The City Manager may approve changes to the

Project requested by Developer to the extent the value of such changes is not in excess of the City Manager's contractual authority and to the extent equal value is received by the City. At any time during which the MRA Director position is unoccupied or in the event the MRA ceases to exist, references in this Agreement to the "MRA Director" shall be deemed to refer instead to the City Manager who shall fulfill the role and assume the responsibilities of the MRA Director under this Agreement.

20.22 Legal Advice. Each Party represents to the other that it has carefully read this Agreement; and in signing this Agreement, it does so with full knowledge of any right which it may have; it has received independent legal advice from its legal counsel as to the matter set forth in this Agreement; and it has freely signed this Agreement without any reliance upon any agreement, promise, statement or representation by or on behalf of the other Party, or its agents, employees, or attorneys, except as specifically set forth in this Agreement, and without duress or coercion, whether economic or otherwise. This Agreement shall not be construed more strictly against one Party than against the other merely by virtue of the fact that it may have been prepared primarily by counsel for one of the Parties, it being recognized that both the City and Developer have contributed substantially and materially to the preparation of this Agreement.

20.23 Non-Liability of Officials and Employees of the City. No member, official or employee of the City shall be personally liable to Developer, or any successor in interest, in the event of any default or breach by the City or for any amount which may become due to Developer or its successors, or on any obligations under the terms of this Agreement.

20.24 New Mexico Tort Claims Act. The City's liability in connection with the Agreement is limited by the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et seq. NMSA 1978, as amended. The City and its "public employees", as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense, and do not waive any limitation of liability pursuant to law. No provision of this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

20.25 Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of New Mexico.

20.26 Legal Proceedings; Attorneys' Fees and Costs. The Parties agree that the exclusive venue for any claims, disputes, disagreements, controversies, lawsuits, or causes of action by or between Developer and the City arising out of or relating to this Agreement, the Project, the Property, or the Construction Activities (collectively, "**Disputes**"), shall be the First Judicial District Court located in Santa Fe, New Mexico. Any and all Disputes shall be tried as a bench trial and not as a jury trial. In the event it becomes necessary for the City to enforce any of the terms and provisions of this Agreement, whether or not suit be instituted, Developer shall pay all costs and expenses incurred by the City in connection with the City's enforcement of this Agreement, including, but not limited to, reasonable attorneys' fees.

20.27 Waiver of Jury Trial. TO THE EXTENT PERMITTED BY LAW, THE PARTIES HEREBY KNOWINGLY, INTENTIONALLY AND VOLUNTARILY, WITH AND UPON THE ADVICE OF COMPETENT COUNSEL, WAIVE, RELINQUISH AND FOREVER FORGO THE RIGHT TO A TRIAL BY JURY IN ANY ACTION OR PROCEEDING BASED UPON, ARISING OUT OF, OR IN ANY WAY RELATING TO A DISPUTE.

EACH PARTY ACKNOWLEDGES AND AGREES THAT ANY DISPUTE WHICH MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND THEREFORE IT HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO ANY DISPUTE. EACH PARTY CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE SUCH WAIVERS; (B) IT UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF SUCH WAIVERS; (C) IT MAKES SUCH WAIVERS VOLUNTARILY; AND (D) IT HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION 20.27.

20.28 Approval Required. This Agreement shall not become effective or binding until approved by the highest approval authority required by the City under this Agreement.

20.29 Appropriations. Notwithstanding any other provisions in this Agreement, the terms of this Agreement are contingent upon the Governing Body making the appropriations necessary for the performance of this Agreement. If sufficient appropriations and authorizations are not made by the Governing Body, or if unspent appropriations from any prior fiscal year are not appropriated in the then current fiscal year, this Agreement may be terminated upon 30 days' written notice given by the City to Developer. Such event shall not constitute a City Default or other default by the City. All obligations of the City and all of its interest in this Agreement will cease upon the date of termination. The City's decision as to whether sufficient appropriations are available shall be accepted by all parties and shall be final.

20.30 No Pecuniary Liability of City. No provision of this Agreement shall constitute an indebtedness of the City within the meaning of any constitutional provision or statutory limitations of the State of New Mexico, nor constitute or give rise to a pecuniary liability of the City or a charge against its general credit or taxing powers.

20.31 Officials, Agents and Employees Not Personally Liable. No official, agent, or employee of the City nor member of the Governing Body shall be personally liable to any person by virtue of any provision of this Agreement.

20.32 No Collusion. Developer represents that this Agreement is entered into by Developer without collusion on the part of Developer with any person or firm, without fraud and in good faith. Developer also represents that no gratuities, in the form of entertainment, gifts or otherwise, were, or during the term of this Agreement, will be offered or given by Developer or any agent or representative of Developer to any officer or employee of the City with a view towards securing this Agreement or for securing more favorable treatment with respect to making any determinations with respect to performing this Agreement.

20.33 Public Records. The Parties acknowledge that the City is a government entity and subject to the IPRA. Notwithstanding anything contained herein to the contrary, the City shall not be responsible to Developer or any third-party contractor for any disclosure of confidential information pursuant to the IPRA or pursuant to the City's public records act laws, rules, regulations, instructions or other legal requirement.

20.34 Governmental Right and Powers. Nothing in this Agreement will be construed or interpreted as limiting, relinquishing, or waiving any rights of ownership enjoyed by the City in the Property or waiving or limiting the City's control over the management, operations or maintenance of the Property, except as specifically provided in this Agreement, or impairing exercising or defining governmental rights and the police powers of the City.

20.35 Survival. All obligations, covenants and agreements contained herein which are intended to be performed in whole or in part after the completion of construction of the Project or termination of this Agreement shall survive the completion of construction of the Project or termination of this Agreement and shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and permitted assigns.

LEGAL DESCRIPTION OF THE PROPERTY

[To be attached upon recording of subdivision plat]

EXHIBIT C

FORM OF LEASE AGREEMENT

[attached]

Recording Requested By,
And When Recorded Return To:

CITY OF SANTA FE
200 LINCOLN AVENUE
SANTA FE, NM 87501
ATTN: ERIN MCSHERRY, CITY ATTORNEY

LEASE AGREEMENT BETWEEN
THE CITY OF SANTA FE AND ASPECT QOZB, LLC

THIS LEASE AGREEMENT (this "**Lease**") is made and executed as of the _____ day of _____ 20__, between the CITY OF SANTA FE, a municipal corporation and political subdivision of the State of New Mexico (the "**City**"), and ASPECT QOZB, LLC, a Delaware limited liability company ("**Developer**"), effective as of the Lease Commencement Date (defined below). The City and Developer are sometimes referred to herein individually as a "**Party**" and together as the "**Parties**."

Recitals

A. The City owns the real property and improvements consisting of approximately 60 acres generally located within the block defined by Cerrillos Road, St. Michaels Drive, Llano Street, Siringo Road, and Camino Carlos Rey in the City of Santa Fe, County of Santa Fe, State of New Mexico, as generally depicted on Exhibit A attached hereto (the "**Midtown Site**").

B. By Resolution No. 2022-68, approved on November 30, 2022, the governing body of the City (the "**Governing Body**") adopted the Midtown Master Plan (the "**Master Plan**"), which, together with the Midtown Community Development Plan adopted on January 25, 2023 by Resolution No. 2023-5 (the "**Community Development Plan**"), sets forth the City's vision for development of the Midtown Site and establishes certain form-based zoning standards and certain other standards and policies for the future redevelopment of the Midtown Site as a sustainable, pedestrian-friendly, mixed-use neighborhood that provides employment and housing opportunities, improved mobility options, and access to recreation, public spaces, and cultural venues.

C. On August 9, 2023, the Governing Body, by Ordinance No. 2023-21, revised the City of Santa Fe metropolitan redevelopment code (the "**City Redevelopment Code**"), under which the Governing Body updated its ordinance establishing a metropolitan redevelopment agency (the "**MRA**"), comprised of the commission of the MRA, director of the MRA ("**MRA Director**"), and staff, as the official body for making advisory recommendations to the Governing Body, at such time as an area is designated by the Governing Body with respect thereto, and for taking certain actions delegated to the MRA pursuant to the City Redevelopment Code. In the absence of a MRA Director, the City Manager or the City Manager's designee will act for the MRA Director hereunder.

D. The City released a Request for Proposals on December 1, 2022 (the "**Studio RFP**"), for the redevelopment and operation of the portion of the Midtown Site to, among other

things, expand the existing film production studio facilities with the addition of more state-of-the art sound stages, pre- and post-production offices and work facilities to meet the needs of the industry and support film and multi-media production in the City, all as more specifically set forth in the Studio RFP. The City will subdivide the Property (defined below) into parcels as set forth in Section 2.1 below.

E. Midtown Santa Fe Productions QOF, LLC, a Delaware limited liability company, affiliated with Developer ("**QOF**"), submitted the only response to the Studio RFP on March 2, 2023, to redevelop the Property consistent with the Studio RFP (the "**Proposed Project**"). QOF proposed combining the Proposed Project with the adjacent Midtown Santa Fe Production Studio, formerly the Shellaberger Tennis Center, and envisions that the combined projects will become the largest studio in northern New Mexico, featuring multi-family housing, six soundstages and nearly 180,000 square feet of production and support space across five different buildings.

F. Pursuant to the Studio RFP, the City established an Evaluation Committee to review and evaluate the response based on the factors set forth in the Studio RFP, following which the Evaluation Committee determined that QOF had the experience, qualifications, and capacity to implement the scope of work and achieve the vision and goals articulated in the Studio RFP.

G. The City and QOF entered into the Exclusive Negotiation Agreement approved by the Governing Body on July 26, 2023 (as extended, the "**ENA**"), for the redevelopment of the Proposed Project consistent with the Studio RFP. The ENA included, among other things, that the City and QOF would negotiate and enter into a disposition and development agreement setting forth the scope of the Proposed Project and the requirements and conditions for the design, development, operation and disposition of the completed Proposed Project.

H. Concurrent with the execution of this Lease, the City and Developer are entering into a Development and Disposition Agreement (the "**DDA**"), the purpose of which is to set forth the scope of the Project (as defined in the DDA) and the requirements and conditions for the design, development, operation and disposition of the completed Project.

I. The purpose of this Lease is to lease to Developer for the Term (defined below) the Property (or portion thereof) for Developer to perform its obligations set forth in the DDA, until such time as the City coveys the Property (or portion thereof) to Developer pursuant to the terms of the DDA.

J. The City is authorized, pursuant to the Santa Fe City Code of 1987, as amended from time to time (the "**City Code**") to enter into binding leases to carry out the plan for the development of the Property.

AGREEMENT

NOW THEREFORE, for and in consideration of the mutual promises, covenants and conditions contained herein, the receipt and sufficiency of which are hereby acknowledged, the

City, as landlord, and Developer, as tenant, hereby agree that the foregoing recitals are true and correct and incorporated herein and as follows:

ARTICLE 1
DEMISE AND DESCRIPTION OF PROPERTY

1.1 The City leases to Developer and Developer leases from City upon the terms and conditions contained herein, approximately 11 acres of land, together with the buildings known as Benildus Hall, Onate Hall, Driscoll Fitness Center and Garson Studios (collectively, the "**Buildings**"), and all other existing accessory structures and improvements located thereon, and rights of egress across adjacent roadways (collectively, the "**Property**"), located within in the Midtown Site and generally depicted on Exhibit B.

1.2 As of the Lease Commencement Date, pursuant to Section 2.4 of the DDA, the City conveyed to Developer all furniture, fixtures and equipment located within or affixed to any Building at the Property.

ARTICLE 2
COMMENCEMENT AND TERM.

2.1 This Lease shall become effective on the date that is 45 days after the Governing Body adopts an ordinance approving the DDA (the "**Lease Commencement Date**"); provided, however, if a referendum election is held, as required by Section 3-54-1, NMSA 1978, the Lease Commencement Date shall be suspended pending the outcome of the referendum election. If the results of the election are in favor of DDA, the Lease Commencement Date will commence on the date of the favorable election results. If the referendum election results are against the DDA, this Lease shall be immediately null and void. Notwithstanding the foregoing, if the City has not recorded a new plat map to subdivide the Property into parcels (the "**Plat**") in the real property records of the Clerk's Office of Santa Fe County, New Mexico ("**Official Records**") prior to the Lease Commencement Date, the Lease Commencement Date shall be suspended until the recording date of the Plat. Developer shall have the right to enter the Property to perform its obligations under the DDA on the Lease Commencement Date.

2.2 Upon the recordation of the Plat in the Official Records, the MRA Director will deliver written notice thereof to Developer ("**Plat Recording Notice**"), together with a copy of the recorded plat map and the platted legal description of the Property (the "**Legal Description**"), and the Developer shall execute and deliver to the City an acknowledgment including the Legal Description as Exhibit C to this Lease. Upon attachment of the Legal Description hereto, the City shall record this Lease in the Official Records. If the DDA is not approved, or if the DDA is approved and the referendum results are against the DDA, the City shall not be required to record the Plat or deliver a Plat Recording Notice to Developer.

2.3 This Lease shall expire 10 years following the Lease Commencement Date, unless earlier terminated (the "**Term**").

2.4 If Developer elects to acquire any Phase upon completion of an applicable Phase pursuant to the terms of the DDA, then upon the closing of the conveyance of such Phase (each a "**Closing**"), the Lease shall terminate with respect to such Phase and the Legal Description will be amended to remove the Phase so conveyed in accordance with Section 17.2 hereof. This Lease shall terminate in its entirety upon the earlier of (a) the expiration of the Term, (b) Developer's default under the terms of the DDA or this Lease, (c) upon the City's conveyance of all of the Property to Developer pursuant to the terms of the DDA, or (d) Developer's termination of the DDA as permitted under the DDA.

ARTICLE 3
RENT; TRIPLE NET LEASE; NO OFFSET

3.1 Developer hereby agrees to pay to the City the total base rent of $300,000.00 during the Term of the Lease ("**Rent**"), payable in annual installments of $30,000.00, without offset or reduction for any Partial Release (defined below). Such Rent shall be payable annually in advance, commencing on the Lease Commencement Date and on the same day of each year during the Term. Payment shall be made in good funds and shall be made to whomever the City designates in writing, from time to time.

3.2 In the event Developer fails to pay Rent when due and such failure continues beyond any notice and cure period provided in Section 13.1.3 hereof, then interest shall accrue at the rate of 18% per annum ("**Default Interest**") on the amount due and unpaid, compounded monthly, so long as said amount remains unpaid. The assessment and collection of the Default Interest is in addition to any other rights of the City, if the Developer does not faithfully perform the terms, covenants and conditions of this Lease.

3.3 It is expressly understood and agreed by and between the City and Developer that this Lease is a triple net lease, and the Rent, and all other sums payable hereunder to or on behalf of the City, shall be paid without notice or demand and without offset, counterclaim, abatement, suspension, deduction, or defense. This Lease shall yield to the City the Rent specified during the Term, and all costs and obligations of every kind and nature whatsoever relating to the Property shall be performed and paid by Developer. Developer shall perform all of its obligations under this Lease at its sole cost and expense.

ARTICLE 4
UTILITIES AND SERVICES

4.1 The City will provide gas and electricity to the Property pursuant to the terms of a utility agreement to be entered into by and between Developer and the City (the "**Utility Agreement**") and will invoice Developer for such gas and electric services as more specifically set forth in the Utility Agreement. Developer shall pay, when due, all charges for all other utility services used on the Property during the Term directly to the applicable utility provider, and for any other services in connection with Developer's operation of the Property. Developer may cause the installation of internet fiber in the existing utility rights-of-way located on the Property.

4.2 Developer shall be solely responsible for connection of such utilities to the Property, meter installation, tap and connection fees and all other costs and expense in connection with such utilities, as more specifically set forth in Utility Agreement.

ARTICLE 5
"AS IS" CONDITION OF PROPERTY

5.1 The Parties hereto intend that this Lease is made on an "as is, where is" basis with all faults. In connection therewith, the Parties hereto hereby agree as follows:

5.1.1 Developer acknowledges and agrees that the City has not made, does not make, will not make, and specifically disclaims, any representations, warranties, promises, covenants, agreements or guaranties of any kind or character whatsoever, whether express, implied, or statutory, oral or written, past, present or future, of, as to, concerning or with respect to: the nature, quality or condition of the Property or any part thereof, including, without limitation, the water, soil and geology; the economic feasibility of the Property or the income to be derived from the Property; the suitability of the Property for any and all activities and uses which Developer may conduct thereon; the nature and extent of any right-of-way, possession or title matter; the compliance of or by the Property, or the operation of any business or other enterprise thereon, with any laws, rules, ordinances or regulations of any applicable governmental authority or body; the rentability, habitability, merchantability or fitness for a particular purpose of the Property; or any other matter with respect to the Property.

5.1.2 Developer represents that it has investigated the Property prior to Lease Commencement Date, and that in leasing the Property, Developer has relied solely upon its independent examination, study, inspection and knowledge of the Property, including Developer's determination of the value of the Property and uses to which the Property may be put, and not on any information provided or to be provided by the City. Developer will make or cause to be made all inspections, investigations and analyses necessary or appropriate, in Developer's discretion, for the purpose of determining compliance or non-compliance by the Property with all building, health, environmental, zoning and land use laws, ordinances, rules and regulations, and the City makes no representation or warranty, express, implied or statutory, concerning the Property's compliance with such building, health, environmental, zoning and land use laws, ordinances, rules and regulations.

ARTICLE 6
TAXES

6.1 Taxes. Beginning on the Lease Commencement Date and throughout the Term, Developer shall pay, before they become delinquent, all taxes and assessments of any kind whatsoever levied, taxed or assessed against the Property, Developer, or the City during the Term related to or arising out of this Lease and the activities of the Parties hereunder, including without limitation, (i) all taxes or assessments upon the Property or any part thereof and upon any personal property, trade fixtures and improvements located on the Property, whether belonging to the City or Developer, or any tax or charge levied in lieu of such taxes and assessments; (ii) all taxes, charges, license fees and or similar fees imposed by reason of the use of the Property by Developer;

and (iii) all excise, franchise, transaction, privilege, license, sales, use and other taxes upon the Rent hereunder, the leasehold estate or the activities of Developer pursuant to this Lease.

6.2 Payment in Lieu of Taxes. In addition to the foregoing, commencing on January 1, 2026, and continuing through the Term, Developer shall pay to the City, in arrears, an annual payment in lieu of taxes for the preceding calendar year, in the following amounts for each Phase: (a) Phase 1: $37,500.00; (b) Phase 2: $10,700.00; and (c) Phase 3: $5,350.00 (collectively, the "**Annual Assessment**"). Developer shall pay to the City the total Annual Assessment due for the 2026 calendar no later than May 31, 2027, and shall pay to the City the Annual Assessment due for each calendar year thereafter no later than May 31st of each following calendar (including the calendar year following the expiration of the Term). In any calendar year in which the City conveys a Phase to Developer pursuant to the terms of the DDA, Developer shall pay to the City the prorata portion of the Annual Assessment for such Phase based on the number of days in such calendar year in which the City owned the applicable Phase. If the Santa Fe County Assessor levies a property tax for the assessed value of Developer's leasehold interest in the Property ("**County Assessment**"), the amount of the Annual Assessment then due to the City shall be reduced by the amount of the County Assessment paid by Developer to the Santa Fe County Assessor.

ARTICLE 7
ASSIGNMENT AND SUBLEASE

7.1 Developer shall not be permitted to Transfer (as defined in the DDA) all or any portion of Developer's rights or other interests under this Lease, without the prior written consent of the City, which consent may be withheld in the City's sole and absolute discretion. Any such attempted Transfer (except in connection with a Permitted Transfer as defined in and permitted in Article 15 of the DDA), without such consent shall be null and void. No Transfer, whether with or without consent, shall operate to release Developer or alter Developer's primary liability to perform its obligations under this Lease.

7.2 Based on the Lease Purpose (defined below), without the prior written consent of the City, which consent may be withheld in the City's sole and absolute discretion, Developer will not be permitted to sublease any of Developer's rights or obligations under this Lease; provided, however, Developer may, without the prior written consent of the City, sublease space within any building on the Property following substantial completion thereof to any residential, restaurant, retail and other commercial tenants for the use and occupancy of such buildings as contemplated under the DDA.

ARTICLE 8
PERMITTED USES; CONSTRUCTION; MAINTENANCE; APPLICABLE RULES.

8.1 Developer is permitted to use the Property solely for the purpose of carrying out Developer's obligations under the DDA, which includes Developer's development and operation of the Property in accordance with DDA ("**Lease Purpose**").

8.2 Subject to the development rights and obligations under the DDA, Developer shall, at Developer's sole cost and expense, be responsible for maintaining the Property in good condition and repair and in compliance with all laws.

8.3 Developer shall comply with all maintenance, repair and indemnification obligations under Article 12 of the DDA.

8.4 Developer shall comply with all Applicable Rules, as such term is defined in the DDA. Developer shall pay all costs, expenses, liabilities, losses, damages, fines, penalties, Claims (defined below) and demands, including reasonable attorney's fees, that may in any manner arise out of or be imposed because of the failure of Developer to comply with Applicable Rules.

8.5 Developer shall comply with Section 12.2 of the DDA regarding damage to Adjacent Land and Adjacent Improvements (each as defined in the DDA).

8.6 The City shall not be responsible for any maintenance, repair or replacement of any improvements located on the Property.

ARTICLE 9
USES PROHIBITED; ENVIRONMENTAL INDEMNITY

9.1 Developer shall not use or permit the use of the Property, or any part thereof, for any illegal purpose or purposes, nor shall Developer maintain a nuisance on the Property. The Property may not be used as a toxic waste dump or storage facility, a solid waste disposal site or any use which could have a harmful effect on the land itself.

9.2 Developer hereby agrees to indemnify, defend (with counsel reasonably approved by the City, as applicable) and hold harmless the City, the MRA or any department, governing body, commission, agency, official, officer, employee, agent, representative or volunteer of the City or the MRA (collectively, the "**City Parties**"), from any and all claims, encumbrances, liens, demands, suits, judgments, proceedings, damages, losses, liabilities, penalties, fines, costs and expenses (including reasonable attorneys' fees and court costs) ("**Liabilities**") (including, but not limited to expenses, penalties and clean-up costs) arising from and against any and all Claims brought against one or more City Parties related to the Project, arising out of or in any way relating to (a) the presence, release, use, generation, transportation, discharge, storage or as a consequence of disposal by Developer or Developer's officers, directors, managers, members, affiliates, agents, employees, representatives, contractors, subcontractors, any other person or entity acting at the direction or with the consent of Developer, assignees, subtenants, or licensees (collectively, including Developer, "**Developer Parties**", and individually, a "**Developer Party**"), or the presence of any Pollutants (as defined in the DDA) in, on or about the Property occurring as a result of or in connection with Developer Parties' use or occupancy of the Property, and in the removal, remediation and disposal of any Pollutants, and (b) the violation, or alleged violation, of any Environmental Laws (as defined in the DDA) relating to the use, generation, release, discharge, storage, disposal or transportation of Pollutants on, under, in or about, to or from the Property or migrating onto or under the Property from neighboring properties or otherwise affecting the Property, to the extent caused or permitted by any Developer Parties.

9.3 No Developer Party shall (i) manufacture, treat, use, improperly store or dispose of any Pollutant (as defined below) on the Property, or (ii) permit the release of a Pollutant on or from the Property, or (iii) permit the use of materials containing Pollutants on the Property in violation of applicable Environmental Laws (as defined in the DDA).

ARTICLE 10
GENERAL RELEASE & INDEMNIFICATION

10.1 Developer releases City Parties from, and covenants and agrees that the City Parties shall not be liable to Developer for, any loss or damage to property or any injury to or death of any person or persons caused by Developer Parties by any cause whatsoever pertaining to the Project, the Property, the use thereof, or any other transaction contemplated by this Lease; provided that such release shall not apply to any loss or damage caused by the negligence, acts or omissions of the City Parties.

10.2 Developer shall indemnify, defend (with counsel reasonably approved by the City, as applicable) and hold harmless the City Parties from all Liabilities, arising from any all claims ("**Claims**") brought against one or more City Parties by any third-party which arise out of or in connection with the Property or any activities, acts or omissions of any of the Developer Parties; provided, however, such indemnity shall not apply to any Liabilities caused by the negligence, acts or omissions of any City Parties and shall be subject to the limitations of NMSA 1978, Section 56-7-1. Developer's indemnity obligations owing to the City Parties under this Section are not limited by applicable insurance coverage required hereunder. The City shall, after receipt of notice of the existence of a Claim for which it is entitled to indemnity hereunder, notify Developer in writing of the existence of such Claim or commencement of such action.

10.3 The provisions of this Article 10 shall survive any expiration or earlier termination of this Lease.

ARTICLE 11
INSURANCE

11.1 During the Term, and for such other time as specified hereinbelow, Developer shall comply with the following insurance requirements:

11.1.1 *Workers' Compensation*. During the Term, Developer shall, at its sole cost and expense, fully comply with the terms of the laws of the State of New Mexico concerning workers' compensation. Said compliance shall include maintaining in full force and effect one or more policies of insurance insuring against any liability Developer may have for workers' compensation. Said policy shall also include Employer's Liability coverage no less than $1,000,000 per accident; $1,000,000 policy limit bodily injury by disease; $1,000,000 each employee bodily injury by disease. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of the City and City Parties.

11.1.2 *General Liability Insurance*. During the Term and for a period of 10 years following Final Completion (as defined in the DDA) of the Project, Developer shall, at its sole cost and expense, obtain and keep in full force and effect commercial general liability

insurance with contractual liability coverage, which policy shall be written on an occurrence basis providing coverage at least as broad as Insurance Services Office (ISO) form CG 00 01, for claims against bodily injury (including death), personal injury, and property damage with limits not less than $5,000,000 per occurrence, $5,000,000 in the aggregate, and Products and Completed Operations of $5,000,000 in the aggregate, and property damage and shall be endorsed with a waiver of subrogation in favor of the City Parties. Said policy shall be primary, and any insurance or self-insurance maintained by the City Parties shall not be required to contribute with it. Any excess or umbrella coverage shall not include any limitations or exclusions from the primary coverage and shall also be endorsed to name the City Parties as additional insureds. Developer's Commercial General Liability coverage shall:

(a) include the following endorsements:

(i) An Aggregate Limit Per Project endorsement;

(ii) ISO Additional Insured endorsements with coverage at least as broad as CG 20 10 (ongoing operations) and CG 20 37 (completed operations) or a blanket additional insured endorsement, in each case naming the City Parties as additional insureds, provided that, if the blanket additional insured endorsement is used, premises and operations, as well as products-completed operations coverage must be provided to the City Parties;

(iii) A Waiver of Subrogation endorsement in favor of the City Parties or a blanket waiver of subrogation endorsement; and

(iv) A Primary, Non-contributory endorsement in favor of the City Parties or a blanket primary, non-contributory endorsement.

(b) The Commercial General Liability policy shall <u>not</u> include the following endorsements:

(i) Amendment of Contractual Liability;

(ii) Total Pollution Exclusion;

(iii) Cross Claims or Cross Suits Liability Exclusion;

(iv) X, C, U Exclusion (Explosion, Collapse, and Underground Hazard); and

(v) Subsidence of Soil or Earth Movement Exclusion.

11.1.3 *Automobile Liability Insurance*. In the event Developer utilizes automobiles as part of its operations, use, or occupancy of the Property. during the term of this Agreement, Developer shall, at its sole cost and expense, obtain and keep in full force and effect a policy of automobile liability insurance, with a combined single limit (CSL) in the amount of $2,000,000 per accident for bodily injury and property damage for any owned, hired and non-owned vehicles used in the performance of this Agreement. Said policy shall include Contractual Liability and the following coverages and endorsements: (a) a Broadened Pollution Coverage endorsement; (b) an endorsement naming the City Parties or a blanket additional insured endorsement; (c) A Waiver

of Subrogation endorsement in favor of the City Parties or a blanket waiver of subrogation endorsement; (d) a Primary, Non-contributory endorsement in favor of the City Parties or a blanket primary, non-contributory endorsement; and (e) notice of cancellation/non-renewal to the City, providing 30-days prior notice of cancellation or non-renewal, excepting only non-payment of premium, which will be 10-days prior notice.

11.1.4 *Course of Construction/Builder's Risk Insurance*. During all construction and/or renovation work on the Property, Developer shall, at its sole cost and expense, obtain and keep (or cause its contractors to maintain and keep) in full force and effect Course of Construction/Builder's Risk insurance covering "Special Form" (All Risks) of direct physical loss, including, but not limited to, fire, theft, water, explosion, vandalism, mechanical breakdown, electrical arcing, ordinance or law, in an amount to cover the total value of the construction Project, including all subsequent change orders, without co-insurance penalties. Such coverage shall include all items of labor and material, soft costs such as loss of income, architect and engineering fees, building permits and any other non-recurring costs as may be appropriate for Developer or its Contractor. Said insurance policy shall: (a) include Developer, its contractors and subcontractors, and the City as insureds; (b) be maintained until the completion of the applicable construction; and (c) provide coverage from the time any covered property becomes the responsibility of Developer, and continue without interruption during construction, renovation, or installation.

11.1.5 *Contractors Pollution Liability Insurance*. A contractor's pollution liability policy with limits of at least $2,000,000 per claim and an aggregate limit of $2,000,000 with a deductible not to exceed $25,000. Coverage must be included for bodily injury and property damage, including coverage for loss of use and/or diminution in property value, and for clean-up costs, arising out of, pertaining to, or in any way related to the actual or alleged discharge, dispersal, seepage, migration, release or escape of contaminants or pollutants resulting from any services or work performed by Developer or its contractors under this Agreement, including the transportation of hazardous wastes, hazardous materials, or contaminants. Developer warrants that any retroactive date applicable to the coverage under the policy is the same as or precedes the Lease Commencement Date and that continuous coverage will be maintained or an extended discovery period will be exercised for a period of three years beginning from the time any construction performed under this Agreement is completed or if coverage is cancelled for any reason the extended discovery period will be exercised for the maximum time allowed by the policy. The Pollution Liability coverage shall include the following endorsements:

(a) ISO Additional Insured endorsements with coverage at least as broad as ISO forms CG 20 10 (ongoing operations) and CG 20 37 (completed operations) naming the City Parties or a blanket additional insured endorsement applicable "when required by written contract or agreement", provided that, if the blanket additional insured endorsement is used, premises and operations as well as products-completed operations coverage must be provided for the City Parties;

(b) A Waiver of Subrogation endorsement in favor of the City Parties or a blanket waiver of subrogation endorsement; and

(c) A Primary, Non-contributory endorsement in favor of the City Parties or a blanket primary, non-contributory endorsement.

11.1.6 *Professional Liability*. If Developer provides project management, design-build, engineer, architect or other types of professional services to the City, Developer shall obtain and maintain Professional Liability coverage with limits not less than $5,000,000 per claim and $5,000,000 aggregate limit. Such insurance coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by Developer in this Agreement, and shall include (a) a retroactive date no later than the Lease Commencement Date; and (b) an extended reporting period of not less than five years after the termination of this contract.

11.1.7 *Property Insurance*. Developer shall maintain "Special Form" (All-Risks) property insurance upon property of every description owned by Developer and located on the Premises, or for which Developer is legally liable, including without limitation, furnishings, fixtures, and equipment. Such insurance shall be in an amount equal to one hundred percent (100%) of the full insurable replacement value of the property. The City shall be included as loss payee.

11.1.8 *Subcontractor Insurance*. Developer shall ensure that all contractors and subcontractors are licensed in the State of New Mexico and as otherwise required by the Applicable Rules. Developer shall cause all subcontractors performing work at the Property to maintain appropriate insurance, including, but not limited to, Workers' Compensation, Commercial General Liability and Automobile Insurance in a form and with limits deemed appropriate by Developer for work performed in connection with this Agreement. Developer acknowledges that Developer is solely responsible for obtaining, prior to the commencement of any work at the Property by such Persons and maintaining from time to time thereafter current certificates of insurance and applicable endorsements from its contractors/subcontractors, and this information shall be promptly made available to the City upon request. Developer shall require all subcontractors to obtain the following endorsements:

(a) ISO Additional Insured endorsements with coverage at least as broad as ISO forms CG 20 10 and CG 20 37 naming Developer and the City Parties as additional insureds or a blanket additional insured endorsement applicable "when required by written contract or agreement", provided that, if the blanket additional insured endorsement is used, premises and operations as well as products-completed operations coverage must be provided for Developer and the City Parties;

(b) A Waiver of Subrogation endorsement in favor of the City Parties or a blanket waiver of subrogation endorsement; and

(c) A Primary, Non-contributory endorsement in favor of the City Parties or a blanket primary, non-contributory endorsement.

11.1.9 *Provisions Applicable to All Insurance Requirements*. Prior to the Construction Commencement (as defined in the DDA) at the Property or any portion thereof and annually thereafter, Developer shall furnish or cause to be furnished to the City certificates of insurance and all applicable endorsements evidencing the foregoing insurance coverages and limits. If any coverage is maintained on a claims-made basis, the following shall apply:

(a) The retroactive date must be shown and must be before the date of this Agreement or the beginning of any work or services under this Agreement;

(b) Except as otherwise set forth herein, coverage must be maintained and evidence of coverage must be provided for at least five years after termination of this Agreement;

(c) If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the Lease Commencement Date, Developer must purchase an extended reporting period for a minimum of five years after termination of this Agreement; and

(d) All insurance policies shall be written by an insurer with an A.M. Best rating of not less than A- (Excellent), Financial Size Category VII, and must be authorized to do business within the state of New Mexico; and

(e) Developer shall cause its insurer to deliver written notice to the City no later than 30-days prior to any cancellation or nonrenewal, and shall deliver to the City a copy of any notice of cancellation or nonrenewal within five days of Developer's receipt of such notice from its insurer.

ARTICLE 12
CONDEMNATION; CASUALTY

12.1 Condemnation.

12.1.1 Should the entire Property be taken (which term, as used in this Section, shall include any conveyance in avoidance or settlement of eminent domain, condemnation or other similar proceedings) by any governmental authority, corporation or other entity, excluding the City, under the right of eminent domain, condemnation or similar right, then this Lease shall terminate as of the date of taking possession by the condemning authority, and the award therefor will be distributed to the City and the Developer pro rata to their actual losses. After the distribution of the condemnation award as herein provided, this Lease shall terminate, and the parties shall have no further rights, duties or obligations under this Lease.

12.1.2 Should any portion of any Phase be taken by any governmental authority, corporation or other entity under the right of eminent domain, condemnation or similar right, such that (a) the untaken portion of such Phase is, in either Party's reasonable discretion, insufficient for the economic or feasible operation thereof by Developer; or (b) any access is taken that materially prohibits use of such Phase, unless reasonable alternate access is provided by the City, then Developer may either terminate this Lease and DDA with respect to the affected Phase as of the date of taking possession by the condemning authority in the same manner as provided in Section 12.1.1 for the entire Property and the award therefor shall be distributed as provided in Section 12.1.1, or Developer may continue to pursue its obligations under this Lease and the DDA with respect to the affected Phase. Should any other partial taking of the Property occur, then this Lease nevertheless shall continue in effect as to the Property, or the remainder thereof, as the case may be. In the event of a partial taking where this Lease is not terminated, the Rent payable during the remainder of the Term after taking of possession by the condemning authority shall be reduced on a just and proportionate basis having due regard to the relative value and square footage of the portion of the Property thus taken as compared to the remainder thereof and taking into

consideration the extent, if any, to which Developer's use of the remainder of the Property shall have been impaired or interfered with by reason of such partial taking.

12.2 Casualty. Developer covenants and agrees that in the event of damage to the Property or destruction of the whole or any part thereof, by any cause whatsoever, Developer shall proceed immediately and diligently to restore the Property to the same or equivalent condition or status as on the Lease Commencement Date.

ARTICLE 13
EVENT OF DEFAULT

13.1 The following constitute an "**Event of Default**" under this Lease:

13.1.1 an Event of Default (as such term is defined in the DDA) occurs under the DDA; or

13.1.2 Developer fails to pay in full when due any installment of Rent or other amount due hereunder within 30 days after such due date; or

13.1.3 Developer breaches or fails perform or observe any other requirement of this Lease not otherwise specifically referred to in this Article 13, and such failure continues for 30 days after written notice thereof from the City to Developer, provided, however, that such breach or failure will not constitute an Event of Default if such breach or failure cannot reasonably be cured within said 30-day period so long as (i) Developer, within said 30-day period, initiates and diligently and continuously pursues appropriate measures to remedy the breach or failure, and (ii) such breach or failure is cured within 90 days after Developer's receipt of the notice from the City with respect thereto.

13.2 Remedies. Upon the occurrence of an Event of Default, the City may take any of the following actions, and without limiting the City in the exercise of any other right and/or remedy which the City may have by reason of such Event of Default under this Lease:

13.2.1 If such Event of Default results in a Termination Event (as defined in the DDA), the City may terminate this Lease (in whole or in part) by giving Developer written notice thereof, effective at such time as may be specified by notice to Developer. The City may through any permitted legal process reenter and take possession of the Property and the improvements thereon without prejudice to any remedies for arrears of Rent or existing breaches hereof. In the event of such termination, Developer shall be liable to the City for damages immediately payable in an amount equal to the actual damages incurred by the City, including all expenses incurred by the City in enforcing its rights hereunder.

13.2.2 The City may through any permitted legal process reenter and take possession of the Property and the Buildings and without prejudice to any remedies for arrears of Rent or existing breaches hereof, lease, manage and operate the Property and collect the rents, issues and profits therefrom all for the account of Developer, and credit to the satisfaction of Developer's obligations hereunder the net rental thus received (after deducting therefrom all

reasonable costs and expenses of repossessing, leasing, managing and operating the Property, including, but not limited to brokerage commissions and any costs associated with advertising, remodeling, alterations or repair of the Property). If the net rental so received by the City exceeds the amounts necessary to satisfy all of Developer's obligations under this Lease, nevertheless the City shall retain such excess. The City shall use commercially reasonable efforts to mitigate its damages.

13.2.3 The City may bring an action against Developer for actual damages incurred by the City or any equitable relief available to the City and to the extent not prohibited by applicable law, to seize all personal property or fixtures upon the Property which Developer owns or in which it has an interest, in which the City shall have a landlord's lien and/or security interest, and to dispose thereof in accordance with the laws prevailing at the time and place of such seizure or to remove all or any portion of such property and cause the same to be stored in a public warehouse or elsewhere at Developer's sole expense, without becoming liable for any loss or damage resulting therefrom and without resorting to legal or judicial process, procedure or action.

13.2.4 If, after the City exercises its remedies in Section 13.2.1 or Section 13.2.2, Developer remains in possession of the Property or any portion thereof without express written approval of the City for such holdover possession, such possession may, at the sole option of the City, continue as a month-to-month tenancy, during which period Developer shall pay the City Holdover Rent on a monthly basis in advance on the first day of each calendar month thereafter, and all other terms and conditions of this Lease shall otherwise apply. "**Holdover Rent**" shall mean the then current market rent, as of the commencement of the holdover possession, for similar properties located in Santa Fe County, NM, as determined by the City in its sole discretion. The City may terminate such holdover possession in accordance with applicable law.

ARTICLE 14
SURRENDER

With respect to any portion of the Property remaining under this Lease upon the expiration or earlier termination of this Lease, Developer shall peaceably and quietly leave, surrender and deliver such Property to the City, together with all alterations, changes, additions and improvements located thereon, all of the foregoing to be surrendered in good and sufficient repair, order and condition, reasonable use, wear and tear excepted, and free of liens and occupants. Notwithstanding the foregoing, on or prior to the expiration or earlier termination of this Lease, Developer shall have the right to remove any and all personal property of Developer. Developer shall pay for the cost to repair or remedy any damage caused by Developer's removal of any such personal property, providing that no item may be removed if its removal would impair the structural integrity of any Building or any part thereof. All personal property not so removed shall be deemed abandoned and may either be retained by the City as its property or disposed of, without accountability, in such manner as the City may see fit.

ARTICLE 15
DEVELOPER FINANCING

15.1 Leasehold Mortgages. Throughout the Term, Developer may from time to time and without the City's consent, execute and deliver a mortgage, deed of trust, security agreement

or other hypothecating instrument (a "**Leasehold Mortgage**") encumbering Developer's leasehold interest in the Property (the "**Leasehold Estate**") for the benefit of a leasehold lender providing financing for Developer's obligations under the DDA (a "**Leasehold Mortgagee**"); provided, however, (a) no Leasehold Mortgage may constitute a lien on the fee title of the City, (b) the City shall not be required to encumber or subordinate, and nothing in this Lease will be construed as the City agreeing to encumber or subordinate, the City's right, title or interest in and to the fee interest to the Property, this Lease, the DDA, or the City's ROFR in the Property under the DDA, and (c) the City shall not be required to undertake any personal liability for the obligations of Developer secured or to be secured by any Leasehold Mortgage. Any Leasehold Mortgage and all rights acquired thereunder shall be subject all covenants, conditions and restrictions set forth in this Lease, including all obligations to comply with the terms and conditions of the DDA, and to all rights and interests of the City. Within 30 days after the recordation of a Leasehold Mortgage, Developer shall furnish to the City a complete copy of such recorded Leasehold Mortgage. In the event of a default by Developer under a Leasehold Mortgage, the City consents to the exercise by the Leasehold Mortgagee of any of its rights and remedies permitted under such Leasehold Mortgage, provided that such Leasehold Mortgagee delivers written notice to the City of such default prior to the exercise of any such remedies, and upon a Mortgagee Transfer Event (defined below), Leasehold Mortgagee (or its nominee or designee approved by the City ("**Approved Designee**")) shall assume all of Developer obligations under the DDA. A "**Mortgagee Transfer Event**" means that the Leasehold Mortgagee (or its Approved Designee) obtained possession of the Property through one of the following by Leasehold Mortgagee: (x) foreclosure or exercise of other remedies under the Leasehold Mortgage, (y) assumption of this Lease, or (z) a Replacement Lease (defined below). In no event shall a Leasehold Mortgage's exercise of remedies under a Leasehold Mortgage affect the City's rights or Developer's obligations under this Lease.

15.2 Leasehold Mortgagee's Rights to Cure a Lease Default. Prior to terminating this Lease or exercising any other right or remedy due to an Event of Default, the City will give written notice to the Leasehold Mortgagee, provided that the Leasehold Mortgage previously notified the City of its name, its address for notices and the fact that it is a Leasehold Mortgagee of a Leasehold Mortgage and includes with such notice a copy of the Leasehold Mortgage by virtue of which it became a Leasehold Mortgagee (a "**Notice Mortgagee**"), of any such Event of Default and shall afford the Notice Mortgagee a period of 30 days after notice is given in which to cure such Event of Default; provided, however, that (a) if such Event of Default is not a failure to pay Rent and is susceptible of cure by the Notice Mortgagee but cannot reasonably be cured within such 30-day period, then so long as the Notice Mortgagee commences a cure within such 30-day period (and notifies the City that it has done so), its cure period will be extended for as long as reasonably necessary for it to diligently pursue the cure to completion, but in no event longer than 90 days; and (b) if such Event of Default is not a failure to pay Rent and is susceptible of cure by the Notice Mortgagee but cannot reasonably be cured until the Notice Mortgagee obtains possession of the Property, then so long as the Notice Mortgagee commences to foreclose or otherwise enforce its Leasehold Mortgage (or assumes this Lease in lieu thereof) and thereafter diligently pursues such foreclosure, remedy or assumption to completion (and notifies the City that it has done so), Notice Mortgagee's 30-day cure period will be extended for as long as reasonably necessary for it to obtain possession of the Property and then promptly commence and thereafter diligently pursue the cure to completion, but in no event longer than 90 days after Notice Mortgagee obtains possession.

15.3 Notice Mortgagee's Right to Attorn. If, by virtue of an Event of Default, the City reenters and repossesses the Property without terminating this Lease or terminates this Lease, the City will give notice thereof to the Notice Mortgagee within 10 days prior to such reentry and repossession or termination, as the case may be. If the Notice Mortgagee notifies the City within 30 days after the City gives such notice that the Notice Mortgagee would like to attorn to the City and either assume Developer's obligations under this Lease (in the case of a reentry and repossession without termination of this Lease) or enter into a new lease with the City for the Property pursuant to the terms hereof (a "**Replacement Lease**") (in the case of a termination of this Lease), and provided that the Notice Mortgagee (a) pays the City all Rent, penalties and Default Interest due the City under this Lease at the date of reentry and repossession or termination and which thereafter becomes due or would have become due if this Lease had not been terminated up to and including the date the Notice Mortgagee's attornment to the City becomes effective, together with all of the City's expenses incident to the reentry and repossession or termination; and (b) covenants to promptly thereafter cure any Event of Default existing at the time of such reentry and repossession or termination that is not a failure to pay Rent and is susceptible of cure by the Notice Mortgagee pursuant to Section 15.2(b), then (i) the City will accept such attornment and either deliver possession of the Property to the Notice Mortgagee (or its Approved Designee) if the City has reentered and repossessed the same without terminating this Lease, whereupon the Notice Mortgagee (or its Approved Designee) will assume in writing all obligations of Developer arising under this Lease and the DDA from and after the date possession is so delivered and this Lease will continue in full force and effect as a direct obligation between the City and the Notice Mortgagee (or its Approved Designee), or (ii) the City will execute and deliver one Replacement Lease for the Property to the Notice Mortgagee (or its Approved Designee) for the balance of what would have been the Term had this Lease not been so terminated and otherwise upon all of the same terms and conditions set forth in this Lease. The lessee under the Replacement Lease will have the same leasehold interest in the Property as Developer had under this Lease.

15.4 Notice Mortgagee Limitation on Liability. Except for Developer's obligations under the DDA assumed by the Leasehold Mortgagee as required by this Lease, a Notice Mortgagee shall not have any other obligations under this Lease arising prior to the earlier of the date that the Notice Mortgagee assumes the obligations of Developer under this Lease or obtains absolute title to the Leasehold Estate. Any such Notice Mortgagee shall be liable to perform obligations under this Lease only for and during the period of time that such Notice Mortgagee directly holds such absolute title to the Leasehold Estate, except for any outstanding obligations of Developer's to be performed under the DDA. Further, in the event that a Notice Mortgagee elects to (a) perform Developer's obligations under this Lease, (b) continue operations on the Property, (c) acquire Developer's Leasehold Estate, or (d) enter into a Replacement Lease, then such Notice Mortgagee shall not have any personal liability to the City in connection therewith, and the City's sole recourse in the event of default by such Notice Mortgagee shall be to execute against such Notice Mortgagee's interest in the Leasehold Estate. Moreover, any Notice Mortgagee who acquires Developer's interest in the Leasehold Estate pursuant a Mortgagee Transfer Event shall not be liable to perform any obligations thereunder to the extent the same are incurred or accrue after such Notice Mortgagee no longer has ownership of the Leasehold Estate created thereby.

15.5 Prohibition Against Mutual Rescission. Except for a Partial Release (defined below), no mutual termination, cancellation or rescission of this Lease by the City and Developer will be effective unless and until the same is approved in writing by the Notice Mortgagee.

15.6 Bankruptcy. If this Lease is rejected in connection with a bankruptcy proceeding by Developer or a trustee in bankruptcy for Developer, such rejection, to the extent permitted under the Bankruptcy Code, shall be deemed an assignment by Developer to the Notice Mortgagee of the Leasehold Estate and all of Developer's interest under this Lease, and this Lease shall not terminate, and the Notice Mortgagee shall have all the rights of the Developer under this Lease as if such bankruptcy proceeding had not occurred, unless such Notice Mortgagee rejects such deemed assignment by notice in writing to the City within 30 days following rejection of this Lease by Developer or Developer's trustee in bankruptcy. If any court of competent jurisdiction shall determine that this Lease shall have been terminated notwithstanding the terms of the preceding sentence as a result of rejection by Developer or the trustee in connection with any such proceedings, the rights of one Notice Mortgagee to a Replacement Lease from the City pursuant to Section 15.2 hereof shall not be affected thereby.

ARTICLE 16
LEASE SUBORDINATE

16.1 This Lease and all of Developer's rights hereunder shall be subordinate to the lien and terms of any mortgage, deed of trust and related documents now or hereafter placed upon the Property by any lender of the City (if any, a "**City Mortgagee**") (including all advances made thereunder), and to all amendments, renewals, replacements, or restatements thereof (collectively, "**Mortgage**") unless any City Mortgagee elects to have this Lease superior to the lien and terms of its Mortgage pursuant to Section 16.2 below. Developer agrees that no documentation other than this Lease is required to evidence such subordination.

16.2 If any City Mortgagee elects to have this Lease superior to the lien of its Mortgage and gives notice to Developer, this Lease will be deemed prior to such Mortgage whether this Lease is dated prior or subsequent to the date of such Mortgage or the date of recording thereof.

16.3 In confirmation of subordination or superior position, as the case may be, Developer will execute such documents as may be required by any City Mortgagee and if it fails to do so within 10 days after demand, Developer hereby irrevocably appoints the City as Developer's attorney-in-fact and in Developer's name, place, and stead, to do so.

16.4 Following Developer's request therefor, the City shall use commercially reasonable efforts to obtain from any future City Mortgagee, a subordination, non-disturbance and attornment agreement on such City Mortgagee's form.

16.5 Developer hereby attorns to all successor owners of the Property, whether such ownership is acquired by sale, foreclosure of a Mortgage, or otherwise.

ARTICLE 17
PARTIAL RELEASE

17.1 During the Term, Developer will redevelop the Property in three phases (each, a "**Phase**" and, collectively, the "**Phase**s"), as depicted in the Property delineation map set forth on Exhibit B attached hereto. The real property and improvements, collectively, comprising the first, second and third Phases of the Property are referred to herein as "**Phase 1**", "**Phase 2**" and "**Phase 3**," respectively.

17.2 It is the intention of the Parties that the City shall convey the Phase 1, Phase 2, and Phase 3 portions of the Property in accordance with the DDA as the Developer completes the Phase 1 Closing Conditions, the Phase 2 Closing Conditions, and the Phase 3 Closing Conditions, as those are defined in the DDA, as applicable. pursuant to the terms of Article 10 of the DDA. As each Phase is conveyed to Developer, the Legal Description shall be automatically amended to remove the legal description of the applicable Phase to reflect the conveyance of such Phase to Developer (each, a "**Partial Release**").

ARTICLE 18
MISCELLANEOUS

18.1 Commissions. Developer hereby represents and warrants that it has not entered into contracts with any brokers or finders nor has Developer obligated itself to pay any real estate commissions or finder's fees on account of the execution of this Lease. The City hereby represents and warrants that it has not entered into contracts with any brokers or finders nor has the City obligated itself to pay any real estate commissions or finder's fees on account of the execution of this Lease. Based on such representations and warranties, the City and Developer hereby agree to indemnify and hold the other harmless from and against all claims, damages, expenses, liabilities, liens or judgments (including costs, expenses and attorneys' fees in defending the same) which arise on account of any claim that real estate commissions or finders' fees are payable and have not been discharged in their entirety.

18.2 Quiet Enjoyment. Except during the existence of an Event of Default and subject to the provisions of this Lease and the DDA, the City shall not disturb Developer's quiet possession of the Property for the entire Term. Developer acknowledges that the City's performance of its obligations under Article 8 of the DDA may restrict or temporarily prevent Developer's use of and/or access to the Property or otherwise inconvenience Developer. Developer agrees that no such events shall constitute a constrictive eviction of Developer or give rise to any remedies or right of Developer against the City; provided, however, if the City's performance of its obligations under Article 8 of the DDA substantially deprives Developer of its beneficial use and access to all of the Property for more than 30 consecutive days after written notice from Developer to the City, Rent shall abate commencing at the end of said 30 day period until the cessation of the activity causing the deprivation, unless the City has commenced to cure such cause or remediate such deprivation with reasonable diligence within such 30-day period. Further, the City shall under no circumstances be held responsible for any restriction or disruption of the use of or access to the Property from public streets caused by construction work or other actions taken by Developer or any Developer Parties, any other tenant or any third-party, or their contractors, employees, agents, visitors, or invitees, or any other cause not within the City's control, and any such circumstances shall not constitute a constructive eviction of Developer nor give rise to any remedies or right of Developer against the City.

18.3 Compliance with Laws. Through the Lease Term, Developer shall comply, and cause Developer Parties to comply, with all Applicable Rules then in effect, including the Americans With Disabilities Act of 1990 (42 U.S.C. Section 12101, et seq., as amended, the "**ADA**"). Developer agrees to be responsible for knowing all applicable requirements of the ADA and to defend, indemnify and hold harmless the City, its officials, agents and employees from and against any and all claims, actions, suits or proceedings of any kind brought against said parties as a result of any acts or omissions of Developer or Developer Parties in violation of the ADA.

18.4 Discrimination Prohibited. Developer shall comply, and cause the Developer Parties to comply, with Applicable Rules relating to discrimination against or segregation of any Person or group of Person, and will not on the grounds of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, sexual preference, marital status, source of income, physical or mental disability, medical condition, or citizenship status, discriminate or permit discrimination against any Person or group of Persons in any manner prohibited by Title 49 CFR Parts 21 and 23, the Civil Rights Act of 1964, as amended, the Equal Pay Act of 1963, the Rehabilitation Act of 1973, the New Mexico Human Rights Act, and SFCC 1987 Section 2.02. Without limiting the generality of the foregoing, Developer will not discriminate against any employee or applicant for employment or tenancy because of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, sexual preference, physical or mental disability, medical condition, or citizenship status. Such covered actions include, without limitation: employment, promotion, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; selection for training; and disciplinary actions and grievances. Developer agrees to post in conspicuous places available to employees, and applicants for employment, notice to be provided setting forth the provisions of this non-discrimination clause.

18.5 Recordation. Promptly after the later of the Lease Commencement Date and the recordation of the Plat, the City shall record an executed original of this Lease in the real property records of the Clerk's Office of Santa Fe County, New Mexico (the "**Official Records**"). All amendments, transfers, and assignments hereto must be in writing signed by the appropriate officers of the City and Developer in a form suitable for recordation in the Official Records.

18.6 Run with the Land. This Lease, including all covenants, agreements, rights, restrictions and obligations contained herein, shall run with the Property until expiration of the Lease. Except as provided herein, all covenants, agreements, rights, restrictions and obligations contained herein shall inure to the benefit of and be binding upon the Parties hereto and their respective successors and permitted assigns, and all persons claiming under them. In the event this Lease is terminated by the City with respect to all or any portion of the Property, this Lease may be released of record, in whole or in part, upon execution and recording by the City of a notice of termination or other instrument evidencing such termination.

18.7 Notices. Any notice, request, demand, instruction or other document to be given or served hereunder or under any document or instrument executed pursuant hereto shall be in writing and shall be delivered either personally with a receipt requested therefor, or by overnight courier, or by certified mail, return receipt requested, postage prepaid, in any case addressed to the Parties at their respective addresses set forth below, and the same shall be effective (a) upon receipt or refusal if delivered personally, (b) one Business Day after depositing with such an overnight courier service, (c) three Business Days after deposit in the mail if mailed, or (d) upon successful electronic mail transmission evidenced by an electronic "read receipt" and provided that such

notice is also delivered by the means described in clauses (a) or (b) within two Business Days after such electronic mail notice. A Party may change its address for receipt of notices by service of a notice of such change in accordance herewith. "**Business Day**" means Monday through Friday and specifically excludes any federal, state, and City holidays and any additional days on which City offices are closed (other than essential services). All notices to the City or Developer shall be sent to the persons and addresses set forth below. A Party may change its address for receipt of notices by service of a notice of such change in accordance herewith.

If to the City:	City of Santa Fe Attn: City Manager P.O. Box 909 Santa Fe, NM 87504
with a copy to:	Midtown Redevelopment Agency Attention: MRA Director 200 Lincoln Avenue Santa Fe, NM 87505
If to Developer:	Aspect QOZB, LLC Attention: Phillip Gesue 1954 Siringo Road Santa Fe, NM 87501
with a copy to:	Long, Komer & Associates, P.A. Attention: Nancy R. Long P.O. Box 5098 1800 Old Pecos Trail, Suite A Santa Fe, NM 87505

18.8 Relationship Between Parties. Notwithstanding any language in this Lease or any representation or warranty to the contrary, the relationship between the City and Developer shall be as landlord and tenant, respectively, and neither the City nor Developer shall be deemed or constitute an employee, servant, agent, partner or joint venturer of the other.

18.9 No Third-Party Rights. This Lease is for the sole and exclusive benefit of the Parties and their respective successors and permitted assigns, and no third party other than a permitted assignee of the City or Developer is contemplated to or shall have any rights hereunder.

18.10 Counterparts. This Lease may be signed in multiple counterparts or with detachable signature pages, but either or both circumstances shall constitute one instrument, binding upon all Parties thereto as if all Parties signed the same document. If so executed, each such counterpart of this Lease is to be deemed an original for all purposes and all such counterparts will collectively constitute one Lease, but in making proof of this Lease, it will not be necessary to produce or account for more than one such counterpart.

18.11 Time of Essence. Time is expressly made of the essence with respect to the performance by Developer of every obligation and condition of this Lease.

18.12 Computation of Time. All references herein to "days" mean calendar days. All references herein to "months" mean the period starting on one day in a calendar month and ending on the numerically corresponding day in the next calendar month, except that, solely with respect to the last month of any period (a) if the numerically corresponding day is not a Business Day, that period will be deemed to end on the next Business Day, (b) if there is no numerically corresponding day in the next calendar month, then that period shall end on the first Business Day after the last day of that month. In computing any period of time under this Lease in which days define the period, (i) the date of the act or event from which the designated period of time begins to run shall not be included, and (ii) the last day of the period so computed shall be included unless it is a day other than a Business Day, in which event the day for performance thereof shall be extended to the next Business Day. If any act is to be done by or within a period of time, the last day of said period of time shall be deemed to end at 5:00 p.m. MT.

18.13 Force Majeure. Neither the City nor Developer shall be deemed to be in default hereunder if either Party is prevented from performing any of the obligations, other than monetary obligations hereunder, by reason of a Force Majeure Event, as such term is defined in the DDA. An extension of time for any Force Majeure Event shall commence to run from the time of the commencement of the Force Majeure Event if notice by the Party claiming such extension is sent to the other Party within 30 days of the commencement of the cause. If such notice is delivered after such 30-day period, the extension period shall commence to run from the date of such notice. After the termination of any such Force Majeure Event, the obligation to perform shall recommence with a day-for-day delay extension to any deadlines.

18.14 Severability. In the event any covenant, condition or provision herein is held to be invalid, illegal, or unenforceable by any court of competent jurisdiction, such covenant, condition or provision shall be deemed amended to conform to Applicable Rules so as to be valid or enforceable or, if it cannot be so amended without materially altering the intention of the parties, it shall be stricken. If stricken, all other covenants, conditions and provisions of this Lease shall remain in full force and effect provided that the striking of such covenants, conditions or provisions does not materially prejudice either the City or Developer in its respective rights and obligations contained in the valid covenants, conditions or provisions of this Lease.

18.15 Interpretation. Whenever the words "include," "includes" or "including" are used in this Lease they shall be deemed to be followed by the words "without limitation." The words "hereof", "herein" and "hereunder" and words of similar import when used in this Lease shall refer to this Lease as a whole and not to any particular provision of this Lease. Unless otherwise expressly provided herein, any agreement, instrument or statute defined or referred to herein or in any agreement or instrument defined or referred to herein means such agreement, instrument or statute as from time to time amended, modified or supplemented, including (in the case of agreements or instruments) by waiver or consent and (in the case of statutes) by succession of comparable successor statutes, and references to all attachments thereto and instruments incorporated therein.

18.16 Sections. References to section numbers are to sections in this Lease, unless otherwise expressly stated.Gender, Singular/Plural. Words of any gender used in this Lease shall be held and construed to include any other gender, and words in the singular number shall be held to include the plural, unless the context otherwise requires.Headings and Captions. Headings and

captions of sections and paragraphs are for convenience, not limitation, and are not to be construed as modifying text.

18.19 Further Assurances. Developer and the City covenant that they shall do, execute, acknowledge and deliver or cause to be done, executed, acknowledged and delivered such instrument, supplemental hereto and further acts, instruments and transfers as may be required hereunder. All such ancillary agreements shall be in accordance with and not contradictory to the terms and conditions set forth in this Lease.

18.20 Waiver. No provisions of this Agreement shall be deemed to have been waived by either Party unless such waiver is in writing, signed by the Party making the waiver and addressed to the other Party, nor shall any custom or practice which may evolve between the Parties in the administration of the terms of this Agreement be construed to waiver or lessen the right of either Party to insist upon the performance of the other Party in strict accordance with the terms of this Agreement. Further, the waiver by any Party of a breach by the other Party or any term, covenant, or condition hereof shall not operate as a waiver of any subsequent breach of the same or any other term, covenant, or condition thereof. No acceptance by the City of any partial payment shall constitute an accord or satisfaction but shall only be deemed a partial payment.

18.21 Modifications; City Approval. Any amendment, alteration, change or modification of or to this Lease, in order to become effective, shall be made in writing and in each instance signed on behalf of each Party and, if applicable, approved by the Governing Body and in accordance with any applicable City signature policy. The MRA Director shall record amendments, alterations, changes, and modifications to this Lease in the Official Records, though a failure to so record shall not impair the effectiveness of such as between the Parties. The MRA Director may extend the time for the performance of any term or satisfaction of any condition hereunder for up to 180 days by the execution of a letter countersigned by Developer.

18.22 Legal Advice. Each Party represents to the other that it has carefully read this Lease; and in signing this Lease, it does so with full knowledge of any right which it may have; it has received independent legal advice from its legal counsel as to the matter set forth in this Lease; and it has freely signed this Lease without any reliance upon any agreement, promise, statement or representation by or on behalf of the other Party, or its agents, employees, or attorneys, except as specifically set forth in this Lease, and without duress or coercion, whether economic or otherwise. This Lease shall not be construed more strictly against one Party than against the other merely by virtue of the fact that it may have been prepared primarily by counsel for one of the Parties, it being recognized that both the City and Developer have contributed substantially and materially to the preparation of this Lease.

18.23 Non-Liability of Officials and Employees of the City. No member, official or employee of the City shall be personally liable to Developer, or any successor in interest, in the event of any default or breach by the City or for any amount which may become due to Developer or its successors, or on any obligations under the terms of this Lease.

18.24 New Mexico Tort Claims Act. The City's liability in connection with the Lease is limited by the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et seq. NMSA 1978, as amended. The City and its "public employees", as defined in the New Mexico

Tort Claims Act, do not waive sovereign immunity, do not waive any defense, and do not waive any limitation of liability pursuant to law. No provision of this Lease modifies or waives any provision of the New Mexico Tort Claims Act.

18.25 Governing Law. This Lease shall be governed by and construed in accordance with the laws of the State of New Mexico.

18.26 Legal Proceedings; Attorneys' Fees and Costs. The Parties agree that the exclusive venue for any claims, disputes, disagreements, controversies, lawsuits, or causes of action by or between Developer and the City arising out of or relating to this Lease, the Project, the Property, or the construction activities permitted under the DDA (collectively, "**Disputes**"), shall be the First Judicial District Court located in Santa Fe, New Mexico. Any and all Disputes shall be tried as a bench trial and not as a jury trial. In the event it becomes necessary for the City to enforce any of the terms and provisions of this Lease, whether or not suit be instituted, Developer shall pay all costs and expenses incurred by the City in connection with the City's enforcement of this Lease, including, but not limited to, reasonable attorneys' fees, unless as a part of such action a court determines that the claims made by City in such action were frivolous and not made in good faith.Waiver of Jury Trial. TO THE EXTENT PERMITTED BY LAW, THE PARTIES HEREBY KNOWINGLY, INTENTIONALLY AND VOLUNTARILY, WITH AND UPON THE ADVICE OF COMPETENT COUNSEL, WAIVE, RELINQUISH AND FOREVER FORGO THE RIGHT TO A TRIAL BY JURY IN ANY ACTION OR PROCEEDING BASED UPON, ARISING OUT OF, OR IN ANY WAY RELATING TO A DISPUTE.EACH PARTY ACKNOWLEDGES AND AGREES THAT ANY DISPUTE WHICH MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND THEREFORE IT HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO ANY DISPUTE. EACH PARTY CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE SUCH WAIVERS; (B) IT UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF SUCH WAIVERS; (C) IT MAKES SUCH WAIVERS VOLUNTARILY; AND (D) IT HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION 18.27.

18.28 Approval Required. This Lease shall not become effective or binding until approved by the highest approval authority required by the City under this Lease. No Pecuniary Liability of City. No provision of this Lease shall constitute an indebtedness of the City within the meaning of any constitutional provision or statutory limitations of the State of New Mexico, nor constitute or give rise to a pecuniary liability of the City or a charge against its general credit or taxing powers.Officials, Agents and Employees Not Personally Liable. No official, agent, or employee of the City nor member of the Governing Body shall be personally liable to any person by virtue of any provision of this Lease.No Collusion. Developer represents that this Lease is entered into by Developer without collusion on the part of the Developer with any person or firm, without fraud and in good faith. The Developer also represents that no gratuities, in the form of entertainment, gifts or otherwise, were, or during the term of this Lease, will be offered or given

by Developer or any agent or representative of Developer to any officer or employee of the City with a view towards securing this Lease or for securing more favorable treatment with respect to making any determinations with respect to performing this Lease.Public Records. The Parties acknowledge that the City is a government entity and subject to the IPRA. Notwithstanding anything contained herein to the contrary, the City shall not be responsible to Developer or any third-party contractor for any disclosure of confidential information pursuant to the IPRA or pursuant to the City's public records act laws, rules, regulations, instructions or other legal requirement.

18.33 Governmental Right and Powers. Nothing in this Lease will be construed or interpreted as limiting, relinquishing, or waiving any rights of ownership enjoyed by the City in the Property or waiving or limiting the City's control over the management, operations or maintenance of the Property, except as specifically provided in this Lease, or impairing exercising or defining governmental rights and the police powers of the City.

18.34 Survival. All obligations, covenants and agreements contained herein which are intended to be performed in whole or in part after the completion of construction of the Project or termination of this Lease shall survive the completion of construction of the Project or termination of this Lease and shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and permitted assigns.

Proposed
Site Enhancements
05.10.2024

RIOS

Landscape Approach:
To utilize native Northern New Mexico trees and plants that survive on little to no supplemental irrigation. The plantings provide ecological benefits like food and shelter to native wildlife. The landscape will require little maintenance while adding natural aesthetic to the studio campus.

ASPECT STUDIOS Hedgerow

Cooper's Hawk
Accipiter cooperii
Predatory bird that preys on small birds and rodents, known for its stealth and hunting approach.

Soaptree Yucca
Yucca elata
Pollinated by the yucca moth and historically used to create soaps and shampoo.

Santa Fe Coyote
Canis latrans
Common opportunistic predator of New Mexico that feed on native fruits, deer, and rodents.

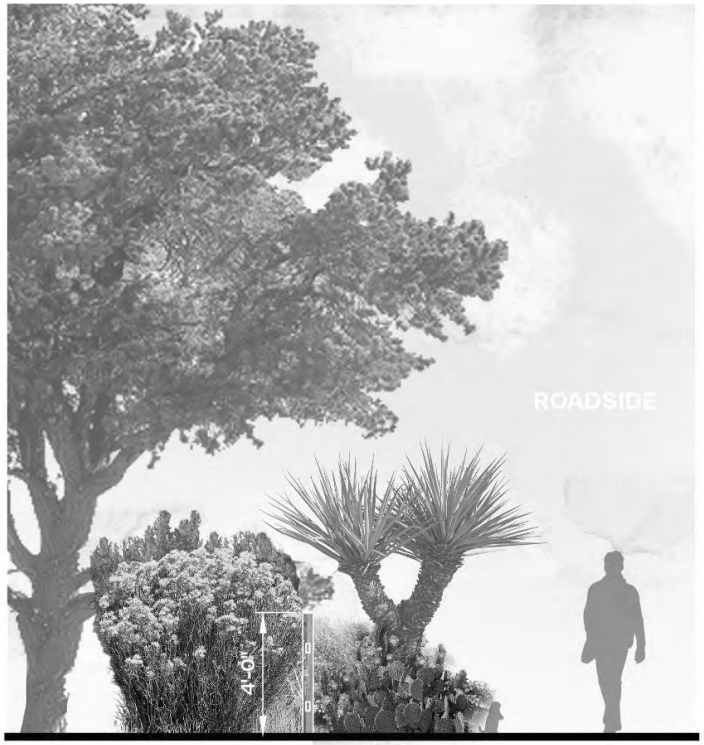
Uncas Skipper
Hesperia uncas W.H.Edwards
Feeds on nectar flowers and pollinates Opuntia species.

Cactus Wren
Campylorhynchus brunneicapillus
Common pollinator and helps spread seeds, creating biodiversity.

Twistpine Pricklypear
Opuntia macrorhiza
Produces showy yellow flowers, attracting butterflies, and bright pink fruit.

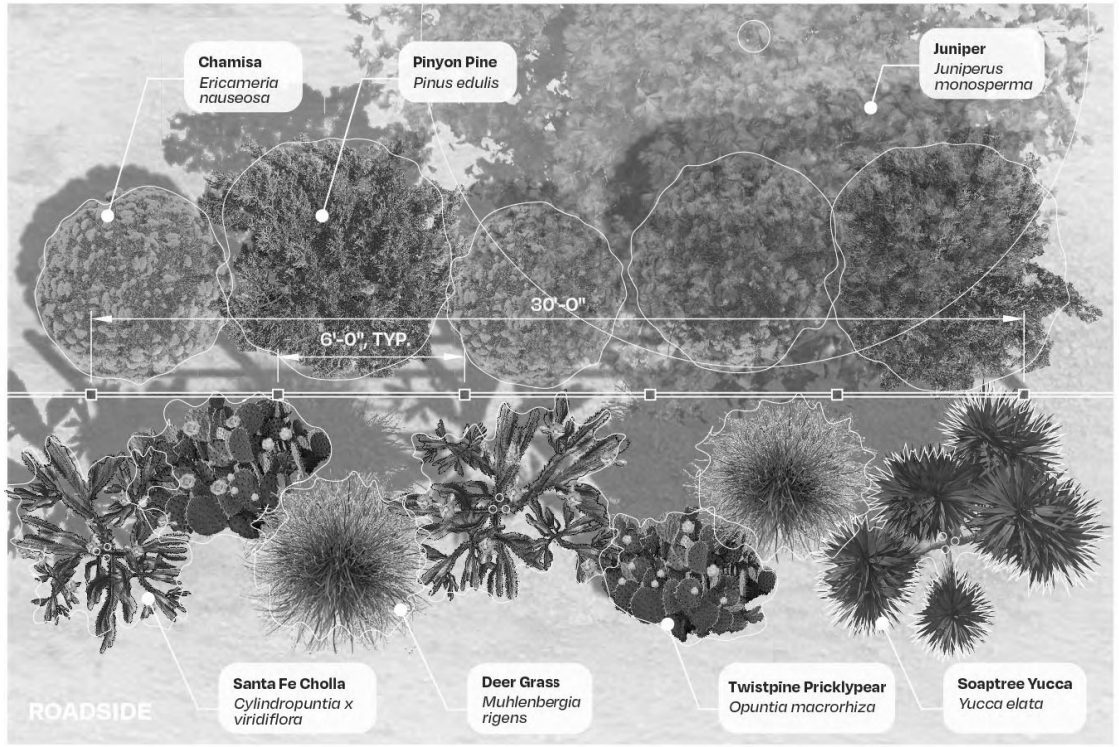
Tree Cane Cholla
Cylindropuntia imbricata
Produces showy pink flowers followed by yellow fruit and attracts bees, butterflies, deer and sheep.

Leafcutter Bee
Megachile rotundata
Common pollinator of cholla plants and help provide biodiverse environements.



Greater Roadrunner
Geococcyx californianus
The state bird of New Mexico, roadrunners nest in low trees, shrubs, and cacti.

Gunnison's Prairie Dog
Cynomys gunnisoni
A New Mexico native that is a keystone species in grassland ecosystems and provide vital ecosystem services.



Prairie dogs help increase nitrogen content of soil and plants along with improved soil aeration, carbon sequestration, and nutrient cycling.

SMART LOCATION AND LINKAGE (SLL)

SLL PREREQUISITE: SMART LOCATION
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage development within and near *existing* communities and public transit infrastructure. To encourage improvement and redevelopment of existing cities, suburbs, and towns while limiting the expansion of the *development footprint* in the region. To reduce vehicle trips and vehicle distance traveled. To reduce the incidence of obesity, heart disease, and hypertension by encouraging daily physical activity associated with walking and bicycling.

Requirements

ND PLAN, ND

For All Projects
Either (1) locate the *project* on a site served by existing *water and wastewater infrastructure* or (2) locate the project within a legally adopted, publicly owned, planned water and wastewater service area, and provide new water and wastewater infrastructure for the project.

The site should also meet the requirements of one of the following four options.

Option 1. Infill Sites

Locate the project on an *infill site.*

OR

Option 2. Adjacent Sites with Connectivity

Locate the project on an *adjacent site* (i.e., a site that is adjacent to *previously developed* land) where the *connectivity* of the adjacent land is at least 90 intersections per square mile (35 intersections per square kilometer) as measured within a ½-mile (800-meter) distance of a continuous segment of the *project boundary* that constitutes at least 25% of the total project boundary and is adjacent to previous development.

Existing intersections may be counted if they were not constructed or funded by the project *developer* within the past 10 years.

Locate and/or design the project such that a through-connection (of the circulation network) intersects the adjacent portion of the project boundary at least every 600 feet (180 meters) on average and at least every 800 feet (245 meters), connecting it with an existing circulation network outside the project; nonmotorized through-connections of the circulation network may count for no more than 20% of the total. The exemptions listed in NPD Prerequisite Connected and Open Community do not apply to this option.

OR

Option 3. Transit Corridor

Locate the project on a site with existing or planned transit service such that at least 50% of *dwelling units* and nonresidential use entrances (inclusive of existing buildings) are within a ¼-mile (400-meter) *walking distance* of at least one bus, *streetcar,* or *rideshare* stop, or within a ½-mile (800-meter) walking distance of at least one *bus*

rapid transit stop, light or heavy rail station, or commuter ferry terminal. The transit service at the stop(s) in aggregate must meet the minimums listed in Table 1.

Projects must meet the requirements for both weekday and weekend trips and provide service every day.

Table 1. Minimum daily transit service

	Weekday trips	Weekend trips
Projects with multiple transit types (bus, streetcar, rail, or ferry)	60	40
Projects with commuter rail or ferry service only	24	6

If transit service is planned but not yet operational, the project must demonstrate one of the following:

1. The relevant transit agency has a signed full-funding grant agreement with the Federal Transit Administration (or equivalent national agency for project outside the U.S.) that includes a revenue operations date for the start of transit service. The revenue operations date must be no later than the date by which 50% of the project's total building gross floor area will be occupied.
2. For bus, streetcar, bus rapid transit, or ferry service, the transit agency must certify that it has an approved budget that includes specifically allocated funds sufficient to provide the planned service at the levels listed above and that service at these levels will begin no later than the date by which 50% of the project's total building gross floor area will be occupied.
3. For rail service other than streetcars, the transit agency must certify that preliminary engineering for a rail line has begun. In addition, the service must meet either of these two requirements:
   - A state legislature or local subdivision of the state (or a local government for projects outside the U.S.) has authorized the transit agency to expend funds to establish rail transit service that will begin no later than the date by which 50% of the project's total building gross floor area will be occupied.

     Or

   - A local government has dedicated funding or reimbursement commitments from future tax revenue for the development of stations, platforms, or other rail transit infrastructure that will serve the project no later than the date by which 50% of the project's total building gross floor area will be occupied.

OR

Option 4. Sites with Nearby Neighborhood Assets

Include a residential component equaling at least 30% of the project's total building gross floor area (exclusive of portions of parking structures devoted exclusively to parking) and locate the project near existing *uses* (see Appendix 1) such that the project boundary is within a ¼-mile (400-meter) walking distance of at least five uses, or such that the project's geographic center is within a ½-mile (800-meter) walking distance of at least seven uses.
The following restrictions apply.

- A use counts as only one type (e.g., a retail store may be counted only once even if it sells products in several categories).
- No more than two uses in each use type may be counted (e.g., if five restaurants are within the required distance, only two may be counted).
- The uses accessible to the project must represent at least two categories.

SLL PREREQUISITE: IMPERILED SPECIES AND ECOLOGICAL COMMUNITIES CONSERVATION
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To conserve imperiled species and ecological communities.

Requirements

ND PLAN, ND

Consult with the state Natural Heritage Program and state fish and wildlife agencies (or local equivalent for projects outside the U.S.) to determine if any of the following have been or are likely to be found on the project site because of the presence of suitable habitat and nearby occurrences:

- species listed as threatened or endangered under the U.S. Endangered Species Act or the state's endangered species act, or
- species or ecological communities classified by NatureServe as GH (possibly extinct), G1 (critically imperiled), or G2 (imperiled), or
- species listed as threatened or endangered specified under local equivalent standards (in areas outside the U.S.) that are not covered by NatureServe data.

If the consultations are inconclusive and site conditions indicate that imperiled species or ecological communities could be present, perform biological surveys using accepted methodologies during appropriate seasons to determine whether such species or communities occur or are likely to occur on the site. Comply with the appropriate case or option below.

Case 1. Sites without Affected Species or Ecological Community

The prerequisite is satisfied if the consultation and any necessary biological surveys determine that no such imperiled species or ecological communities have been found or have a high likelihood of occurring.

OR

Case 2. Sites with Affected Species or Ecological Community

If the site has any affected species or ecological communities, meet either of the following two options.

Option 1. Habitat Conservation Plan
Comply with an approved habitat conservation plan under the U.S. Endangered Species Act (or local equivalent for projects outside the U.S.) for each identified species or ecological community.

OR

Option 2. Habitat Conservation Plan Equivalent
Work with a qualified biologist or ecologist, a conservation organization, or the appropriate national, state or local agency to create and implement a conservation plan that includes the following actions:

- Identify and map the extent of the habitat and the appropriate buffer, not less than 100 feet (30 meters), according to best available scientific information.
- If on-site protection can be accomplished, analyze threats from development and develop a monitoring and management plan that eliminates or significantly reduces the threats.

- Protect the identified habitat and buffer in perpetuity by donating or selling the land or a conservation easement on the land to an accredited land trust, conservation organization, or relevant government agency.
- If any portion of the identified habitat and buffer cannot be protected in perpetuity, quantify the effects by acres (hectares) or number of plants and/or animals affected, and protect from development in perpetuity habitat of similar or better quality, on-site or off-site, by donating or selling a conservation easement on it to an accredited land trust, conservation organization, or relevant government agency. The donation or easement must cover an amount of land equal to or larger than the area that cannot be protected.

SLL PREREQUISITE: WETLAND AND WATER BODY CONSERVATION
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To preserve water quality, natural hydrology, habitat, and biodiversity through conservation of *wetlands* and *water bodies.*

Requirements

ND PLAN, ND

Limit development effects on wetlands, water bodies, and surrounding buffer land according to the requirements below.

Case 1. Sites without Sensitive Areas

Locate the *project* on a site that includes no *preproject* wetlands, water bodies, land within 50 feet (15 meters) of wetlands, and land within 100 feet (30 meters) of water bodies.

Case 2. Sites with Sensitive Areas

If the site has preproject wetlands, water bodies, land within 50 feet (15 meters) of wetlands, or land within 100 feet (30 meters) of water bodies, select one of the following two options:

Option 1. No Development on Wetlands and Water Bodies
Locate the project such that *preproject* wetlands, water bodies, land within 50 feet (15 meters) of wetlands, and land within 100 feet (30 meters) of water bodies are not affected by new development, unless the development is minor improvements or is on *previously developed* land.

OR

Option 2. Rainwater Management and Protected Buffers
Earn at least 1 point under GIB Credit Rainwater Management, and limit any development beyond minor improvements to less than the percentage of buffer land listed in Table 1.

Table 1. Maximum allowable area of development within buffer zone, by project density

Residential density		*Nonresidential density (FAR)**	*Percentage of buffer land** where development beyond minor improvements is allowed*
*DU/acre**	*DU/hectare**		
> 25	> 62	> 1.75	≤ 20%
> 18 and ≤ 25	> 45 and ≤ 62	> 1.25 to ≤ 1.75	≤ 15%
> 10 and ≤ 18	> 25 and ≤ 45	> .75 to ≤ 1.25	≤ 10%
≤ 10	≤ 25	≤ .75	≤ 5%

DU = dwelling unit; FAR = floor-area ratio.

* For this option, a mixed-use project may use either its residential or its nonresidential *density* to determine the percentage of allowable development, regardless of which is higher.
** Buffer width may vary as long as the total buffer area is equal to the area within 50 feet (15 meters) of wetlands and/or within 100 feet (30 meters) of water bodies, minus excluded features (see list of minor improvements, below). In no case may the buffer width be less than 25 feet (7.5 meters) for wetlands and 50 feet (15 meters) for water bodies, measured from the edge. Inside this minimum buffer, only minor improvements and/or improvements that result in no ecological impairment of the wetland or water body, as determined by a qualified biologist, are allowed.

For All Projects
Comply with all local, state, and national regulations pertaining to wetland and water body conservation.
The following features are not considered wetlands, water bodies, or buffer land that must be protected for the purposes of this prerequisite:

- previously developed land;
- man-made water bodies (such as industrial mining pits, concrete-lined canals, or stormwater retention ponds) that lack natural edges and floors or native ecological communities in the water and along the edge;
- man-made linear wetlands that result from the interruption of natural drainages by *existing* rights-of-way; and
- wetlands that were man-made incidentally and have been rated "poor" for all measured wetland functions, as assessed by a qualified biologist using a method that is accepted by state or regional permitting agencies (or a local equivalent for projects outside the U.S.).

Minor improvements within the buffer may be undertaken to enhance appreciation for the wetland or water body, provided such facilities are open to public access. Only the following improvements are permitted:

- bicycle and pedestrian pathways no more than 12 feet wide (3.5 meters), of which no more than 8 total feet (2.5 meters) may be impervious;
- activities to maintain or restore native natural communities and/or natural hydrology;
- one single-story structure not exceeding 500 square feet (45 square meters) per 300 linear feet (90 linear meters) of buffer, on average;
- grade changes necessary to ensure public access;
- clearings, limited to one per 300 linear feet (90 linear meters) of buffer, on average, not exceeding 500 square feet (45 square meters) each, for tables, benches, and access for nonmotorized recreational watercraft;
- removal of hazardous trees (up to 75% of dead trees), trees smaller than 6 inches (150 millimeters) in diameter at breast height, trees with a condition rating of less than 40%, and up to 20% of trees larger than 6 inches (150 millimeters) in diameter at breast height with a condition rating of 40% or higher, as based on an assessment by an arborist certified by the International Society of Arboriculture (ISA) using ISA standard measures or for projects outside the U.S.an equivalent certified professional utilizing equivalent methodology; and
- *brownfield* remediation activities.

Off-street parking is not considered a minor improvement.

Direct development of wetlands and water bodies is prohibited, except for minimal-impact structures, such as an elevated boardwalk, that allow access to the water for educational and recreational purposes. Structures that protrude into wetlands or water bodies may be replaced, provided the replacement structure has the same or smaller footprint and a similar height.

SLL PREREQUISITE: AGRICULTURAL LAND CONSERVATION
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To preserve irreplaceable agricultural resources by protecting *prime* and *unique farmland* from development.

Requirements

ND PLAN, ND

Locate the *project* on a site that is not within a state or locally designated agricultural preservation district (or local equivalent for projects outside the U.S.), unless any changes made to the site conform to the requirements for development within the district (as used in this requirement, "district" does not equate to land-use zoning).

Meet the requirements of one of the following five options.

Option 1. Infill Sites
Locate the project on an *infill site.*

OR

Option 2. Sites Served by Transit
Comply with SLL Prerequisite Smart Location, Option 3, Transit Corridor.

OR

Option 3. Development Rights Receiving Area
Locate the project within a designated receiving area for development rights under a publicly administered farmland protection program that provides for the transfer of development rights from lands designated for conservation to lands designated for development.

OR

Option 4. Sites without Affected Soils
Locate the project's *development footprint* such that it does not disturb prime farmland, unique farmland, or farmland of statewide or local importance as defined by the U.S. Code of Federal Regulations, Title 7, Volume 6, Parts 400 to 699, Section 657.5 and identified in a state Natural Resources Conservation Service soil survey (or local equivalent for projects outside the U.S.).

OR

Option 5. Sites with Affected Soils
If development footprint affects land with prime farmland, unique farmland, or farmland of statewide or local importance as defined by the U.S. Code of Federal Regulations, Title 7, Volume 6, Parts 400 to 699, Section 657.5 and identified in a state Natural Resources Conservation Service soil survey (or local equivalent for projects outside the U.S.), mitigate the loss through the purchase or donation of easements providing permanent protection from development on land with comparable soils in accordance with the ratios based on densities per acre (per hectare) of *buildable land* listed in Tables 1 and 2.

Table 1. Mitigation ratios for projects in large metropolitan or micropolitan statistical areas (pop. 250,000 or more)

Residential density		*Nonresidential density (FAR of buildable land available for nonresidential use)*	*Mitigation ratio (area of easement : area of project on prime, unique, or significant farmland)*
DU per acre of buildable land available for residential use	*DU per hectare of buildable land available for residential use*		
> 7 and ≤ 8.5	> 17.5 and ≤ 21	> 0.50 and ≤ 0.67	2 to 1
> 8.5 and ≤ 10	> 21 and ≤ 25	> 0.67 and ≤ 0.75	1.5 to 1
> 10 and ≤ 11.5	> 25 and ≤ 28.5	> 0.75 and ≤ 0.87	1 to 1
> 11.5 and ≤ 13	> 28.5 and ≤ 32	> 0.87 and ≤ 1.0	.5 to 1
> 13	> 32	> 1.0	No mitigation

Table 2. Mitigation ratios for projects in small metropolitan or micropolitan statistical areas (pop. less than 250,000)

Residential density		*Nonresidential density (FAR of buildable land available for nonresidential use)*	*Mitigation ratio (area of easement : area of project on prime, unique, or significant farmland)*
DU/acre of buildable land available for residential use	*DU/hectare of buildable land available for residential use*		
> 7 and ≤ 8	> 17.5 and ≤ 20	> 0.50 and ≤ 0.58	2 to 1
> 8 and ≤ 9	> 20 and ≤ 22	> 0.58 and ≤ 0.67	1 to 1
> 9 and ≤ 10	> 22 and ≤ 25	> 0.67 and ≤ 0.75	0.5 to 1
> 10	> 25	> 0.75	No mitigation

DU = dwelling unit; FAR = floor-area ratio.

All off-site mitigation must be located within 100 miles (160 kilometers) of the project.
Up to 15% of the affected farmland area may be subtracted from the mitigation area required of the project in Tables 1 and 2 if it is permanently dedicated for community gardens. Portions of parking structures devoted exclusively to parking must be excluded from the numerator when calculating the *floor-area ratio* (FAR).

The mitigation ratio for a mixed-use project is calculated as follows:
1. Determine the total floor area of all residential and nonresidential uses.
2. Calculate the percentage residential and percentage nonresidential of the total floor area.
3. Determine the density of the residential and nonresidential components as measured in *dwelling units* per acre and FAR, respectively.
4. Referring to Tables 1 and 2, find the appropriate mitigation ratios for the residential and nonresidential components.
5. If the mitigation ratios are different, multiply the mitigation ratio of the residential component by its percentage of the total floor area, and multiply the mitigation ratio of the nonresidential component by its percentage.
6. Add the two numbers produced by step 5. The result is the mitigation ratio.

SLL PREREQUISITE: FLOODPLAIN AVOIDANCE
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To protect life and property, promote open space and habitat conservation, and enhance water quality and natural hydrologic systems.

Requirement

ND PLAN, ND

Case 1. Sites without Flood Hazard Areas

Locate on a site that is entirely outside any flood hazard area shown on a legally adopted flood hazard map or otherwise legally designated by the local jurisdiction or the state. For projects in places without legally adopted flood hazard maps or legal designations, locate on a site that is entirely outside any floodplain subject to a 1% or greater chance of flooding in any given year.

Case 2. Infill or Previously Developed Sites with Flood Hazard Areas

Locate the *project* on an *infill site* or a *previously developed site* and select one of the following two options.

Option 1. American Society of Civil Engineers Standard

For any portion of the site within the flood hazard area, design buildings in accordance with American Society of Civil Engineers Standard 24-05 (ASCE 24).

If the project includes construction of a critical facility that is intended to remain operational in the event of a flood, or whose function is critical for postflood recovery, design the facility to be protected and operable at the floodwater levels specified in ASCE 24, or at the water levels represented by a 0.2% annual chance (500-year) flood, whichever is higher. For the purpose of this requirement, critical facilities include, but are not limited to, hospitals, emergency operations centers, building or portions of buildings designated as emergency shelters, water and sewage treatment facilities, and fire and police stations.

OR

Option 2. National Flood Insurance Program

For any portion of the site within the flood hazard area, design buildings in accordance with National Flood Insurance Program (NFIP) requirements. Project outside the U.S. may use a local equivalent to NFIP if the program is equal to or more stringent than NFIP and is administered at the national level.

> If the project involves a critical facility that is intended to remain operational in the event of a flood, or whose function is critical for postflood recovery, design the facility to be protected and operable at the water levels represented by a 0.2% annual chance (500-year) flood. For the purpose of this requirement, critical facilities include, but are not limited to, hospitals, emergency operations centers, building or portions of buildings designated as emergency shelters, water and sewage treatment facilities, and fire and police stations.

Case 3. All Other Sites with Flood Hazard Areas

Meet the requirements of one of the following two options.

Option 1. American Society of Civil Engineers Standard

Previously developed portions of the site
On portions of the site that are previously developed and in the flood hazard area, design buildings in accordance with American Society of Civil Engineers Standard 24-05 (ASCE 24).

Nonpreviously developed portions of the site
On portions of the site that are not previously developed and in the flood hazard area, do not develop on land that is within either a regulatory floodway or a coastal high hazard area (Zone V), as shown on the flood hazard map.

On all other portions of the site that are not previously developed and in the flood hazard area, design buildings in accordance with ASCE 24.

Critical facilities in the flood hazard area
If the project involves a critical facility that is intended to remain operational in the event of a flood, or whose function is critical for postflood recovery, design the facility to be protected and operable at the floodwater levels specified in ASCE 24 or at the water levels represented by a 0.2% annual chance (500-year) flood, whichever is higher. For the purpose of this requirement, critical facilities include, but are not limited to, hospitals, emergency operations centers, building or portions of buildings designated as emergency shelters, water and sewage treatment facilities, and fire and police stations.

OR

Option 2. National Flood Insurance Program

Previously developed portions of the site
On portions of the site that are previously developed and in the flood hazard area, design buildings in accordance with National Flood Insurance Program (NFIP) requirements. Project outside of the U.S. may use a local equivalent to NFIP if the program is equal to or more stringent than NFIP and is administered at the national level.

Nonpreviously developed portions of the site
On portions of the site that are not previously developed and in the flood hazard area, do not develop on land that is within either a regulatory floodway or a coastal high hazard area (Zone V), as shown on the flood hazard map.

On all other portions of the site that are not previously developed and in the flood hazard area, design buildings in accordance with NFIP.

Critical facilities in the flood hazard area
If the project involves a critical facility that is intended to remain operational in the event of a flood, or whose function is critical for postflood recovery, design the facility to be protected and operable at the water levels represented by a 0.2% annual chance (500-year) flood. For the purpose of this requirement, critical facilities include, but are not limited to, hospitals, emergency operations centers, building or portions of buildings designated as emergency shelters, water and sewage treatment facilities, and fire and police stations.

SLL CREDIT: PREFERRED LOCATIONS

ND
1–10 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage development within *existing* cities, suburbs, and towns to reduce the environmental and public health consequences of sprawl. To reduce development pressure beyond the limits of existing development. To conserve the natural and financial resources required for infrastructure.

Requirements

ND PLAN, ND

Achieve any combination of requirements in the following three options, for a total of up to 10 points.

Option 1. Location Type (1–5 points)

Locate the *project* in one of the following locations:

- a *previously developed site* that is not an *adjacent site* or *infill site* (1 point);
- an *adjacent site* that is also a previously developed site (2 points);
- an infill site that is not a previously developed site (3 points); or
- an infill site that is also a previously developed site (5 points).

AND/OR

Option 2. Connectivity (1-5 points)

Locate the project in an area that has existing *connectivity,* as listed in Table 1. Measure connectivity one of two ways:

- within 1/2 mile (800 meters) of the project boundary; or
- within the project and within ½ mile (800 meters) of the project boundary.

Intersections within the site cannot be counted if they were constructed or funded by the *developer* within the past 10 years.

Table 1. Points for connectivity

Intersections per square mile	Intersections per square kilometer	Points
200–249	320–399	1
250–299	400–479	2
300–349	480–559	3
350–399	560–639	4
> 400	> 640	5

AND/OR

Option 3. Designated High-Priority Locations (3 points)

Earn at least 2 points under NPD Credit Housing Types and Affordability, Option 2, Affordable Housing.

AND

Locate the project in one of the following high-priority redevelopment areas:

- a site listed by the EPA National Priorities List;
- a Federal Empowerment Zone site;
- a Federal Enterprise Community site;
- a Federal Renewal Community site;
- a Department of the Treasury Community Development Financial Institutions Fund Qualified Low-Income Community (a subset of the New Markets Tax Credit Program);
- a site in a U.S. Department of Housing and Urban Development's Qualified Census Tract (QCT) or Difficult Development Area (DDA); or
- a local equivalent program administered at a national level for projects outside the U.S.

SLL CREDIT: BROWNFIELD REMEDIATION

ND
1–2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To encourage the cleanup of contaminated lands and developing sites that have been identified as contaminated.

Requirements

ND PLAN, ND (SLL)

Option 1. Brownfield Site (1 point)

At a project site identified as a brownfield or where soil or groundwater contamination has been identified, and the local, state, or national authority (whichever has jurisdiction) requires its remediation, perform remediation to the satisfaction of that authority.

OR

Option 2. High-Priority Redevelopment Area (2 points)
Achieve the requirements in Option 1.

AND

Locate the project in one of the following high-priority redevelopment areas:

- EPA National Priorities List
- Federal Empowerment Zone
- Federal Enterprise Community
- Federal Renewal Community
- Department of the Treasury Community Development Financial Institutions Fund Qualified Low-Income Community (a subset of the New Markets Tax Credit Program)
- U.S. Department of Housing and Urban Development's Qualified Census Tract (QCT) or Difficult Development Area (DDA)
- Or a local equivalent program administered at the national level for projects outside the U.S.

LT CREDIT: ACCESS TO QUALITY TRANSIT

ND
1–7 points
This credit applies to

- Neighborhood Development Plan (1–7 points)
- Neighborhood Development (1–7 points)

Intent

To encourage development in locations shown to have multimodal transportation choices or otherwise reduced motor vehicle use, thereby reducing greenhouse gas emissions, air pollution, and other environmental and public health harms associated with motor vehicle use.

Requirements

ND PLAN, ND

Locate the project on a site with existing or planned transit (i.e., service with the funding commitments as specified in SLL Prerequisite Smart Location) service such that at least 50% of *dwelling units* and nonresidential use entrances (inclusive of existing buildings) are within a ¼-mile (400-meter) *walking distance* of at least one bus or *streetcar* stop, or within a ½-mile (800-meter) walking distance of at least one *bus, streetcar, or rideshare stops or within a ½-mile (800-meter) walking distance of bus rapid transit* stop, light or heavy rail station, commuter rail station, or commuter ferry terminal and the transit service at the stop(s) in aggregate meets the minimums listed in Tables 1 and 2.

Projects must meet the requirements for both weekday and weekend trips and provide service every day.

Table 1. Minimum daily transit service for projects with multiple transit types (bus, *streetcar*, rail, or ferry).

Weekday trips	Weekend trips	Points
60	40	1
76	50	2
100	65	3
132	85	4
180	130	5
246	150	6
320	200	7

Table 2. Minimum daily transit service for projects with commuter rail or ferry service only

Weekday trips	Weekend trips	Points
24	6	1
40	8	2
60	12	3

Projects served by two or more transit routes such that no one route provides more than 60% of the prescribed levels may earn an additional point, up to the maximum number of points.

If existing transit service is temporarily rerouted outside the required distances for less than two years, the project may meet the requirements, provided the local transit agency has committed to restoring the routes with service at or above the prior level.

LT CREDIT: BICYCLE FACILITIES

ND
1–2 points
This credit applies to

- Neighborhood Development Plan (1-2 points)
- Neighborhood Development (1-2 points)

Intent

To promote bicycling and transportation efficiency and reduce vehicle distance traveled. To improve public health by encouraging utilitarian and recreational physical activity.

Requirements

ND PLAN, ND
Meet the following requirements in 90% of all new buildings. The buildings that do not have bicycle storage may not exceed 10% of the total project building floor area.

Non-Residential (excluding Retail) Buildings
Provide short-term bicycle storage for at least 2.5% of peak visitors, but no fewer than four storage spaces per building.

Provide long-term bicycle storage for at least 5% of all regular building occupants, but no fewer than four storage spaces per building in addition to the short-term bicycle storage spaces. Provide at least one on-site shower with changing facility for the first 100 regular building occupants and one additional shower for every 150 regular building occupants thereafter.

Multi-unit Residential Buildings
Provide short-term bicycle storage for at least 2.5% of all peak visitors, but no fewer than four storage spaces per building.

Provide long-term bicycle storage for at least 30% of all regular building occupants, but no less than one storage space per residential unit.

Retail Buildings
Provide at least two short-term bicycle storage spaces for every 5,000 square feet (465 square meters), but no fewer than two storage spaces per building.

Provide long-term bicycle storage for at least 5% of regular building occupants, but no fewer than two storage spaces per building in addition to the short-term bicycle storage.

Provide at least one on-site shower with changing facility for the first 100 regular building occupants and one additional shower for every 150 regular building occupants thereafter.

Mixed-Use Buildings
Meet the above requirements for the project's non-residential, multi-unit residential, and retail spaces.

For all projects:

Short-term bicycle storage must be within 100 feet (30 meters) walking distance of any main entrance. *Long-term bicycle storage* must be within 100 feet (30 meters) walking distance of any *functional entry*. It must be easily accessible to all building users.

Shower and changing facility requirements may be met by providing the equivalent of free access to on-site health club shower facilities, if the health club can be accessed without going outside.

Additionally, meet the requirements of at least one of the following two options.

Option 1. Bikable Location (1 point)

Locate the *project* such that the project boundary is within ¼ mile (400 meters) bicycling distance of an existing bicycle network that connects to at least one of the following.

- at least 10 diverse uses (see Appendix 1);
- a school or *employment center,* if the project total floor area is 50% or more residential; or
- *a bus rapid transit* stop, light or heavy rail station, commuter rail station, or ferry terminal.

All destinations must be within a 3-mile (4800-meter) bicycling distance of the project boundary.

AND/OR

Option 2. Bicycle Network (1 point)

Design the *project* such that at least 50% of *dwelling units* and nonresidential use entrances are located on an existing or planned *bicycle network* extending at least 3 continuous miles (4.8 contiguous kilometers). Within those 3 miles (4.8 kilometers), the network must connect to one of the following:

- a school;
- an employment center; or
- at least 10 diverse uses (see Appendix 1).

SLL CREDIT: HOUSING AND JOBS PROXIMITY

ND
3 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage balanced communities with a proximate housing and employment opportunities.

Requirements

ND PLAN, ND

Option 1. Project with Affordable Residential Component (3 points)

Include a residential component equaling at least 30% of the *project*'s total building floor area (exclusive of parking structures), and locate or design the project such that its geographic center (or boundary if the project exceeds 500 acres [200 hectares]) is within a ½-mile (800-meter) *walking distance* of *existing* full-time equivalent jobs whose number equals or exceeds the number of *dwelling units* in the project. Satisfy the requirements necessary to earn at least 1 point under NPD Credit Housing Types and Affordability, Option 2, Affordable Housing.

Option 2. Project with Residential Component (2 points)

Include a residential component equaling at least 30% of the project's total building floor area (exclusive of parking structures) and locate or design the project such that its geographic center (or boundary if the project exceeds 500 acres [200 hectares]) is within a ½-mile (800-meter) walking distance of existing full-time equivalent jobs whose number equals or exceeds the number of dwelling units in the project.

Option 3. Infill Project with Nonresidential Component (1 point)

Include a nonresidential component equaling at least 30% of the project's total building floor area (exclusive of parking structures) and locate on an *infill site* whose geographic center (or boundary if the project exceeds 500 acres [200 hectares]) is within a ½-mile (800-meter) walking distance of an existing rail transit, ferry, or tram stop and within a ½-mile (800-meter) walking distance of existing dwelling units whose number equals or exceeds 50% of the number of new full-time equivalent jobs located in the project.

SLL CREDIT: STEEP SLOPE PROTECTION

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To minimize erosion, protect habitat, and reduce stress on natural water systems by preserving steep slopes in a natural, vegetated state.

Requirements

ND PLAN, ND

The following requirements apply to projects sites that have slopes greater than 15%.

Ensure that the share of the development footprint on existing slopes less than 15% is greater than the share of the project site with existing slopes greater than 15%.

On any existing, previously developed slopes steeper than 15%, restore the slope area with *native plants* or noninvasive *adapted plants,* according to Table 1. In addition, on any existing, undeveloped slopes steeper than 15%, limit the development area according to Table 1.

Table 1. Required restoration and protection areas of slope

Slope	Previously developed slopes: % of area to be restored	Undeveloped slopes: % of area permitted for development
> 40%	100%	No development permitted
26% to 40%	60%	40%
>15% to 25%	40%	60%

For undeveloped slopes steeper than 40%, do not disturb portions of the project site within 50 feet (15 meters) horizontally of the top of the slope and 75 feet (23 meters) horizontally from the toe of the slope.

Develop *covenants, conditions, and restrictions* (CC&Rs), development agreements, or other binding documents that will protect all steep slopes in perpetuity.

SLL CREDIT: SITE DESIGN FOR HABITAT OR WETLAND AND WATER BODY CONSERVATION

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To conserve native plants, wildlife habitat, wetlands, and water bodies.

Requirements

ND PLAN, ND (SLL)

Case 1. Sites without Significant Habitat or Wetlands and Water Bodies (1 point)
Locate the project on a site that does not have significant habitat, as defined in Case 2 of this credit, and is not within 100 feet (30 meters) of such habitat. Fulfill the requirements of Case 1 or Case 2, Option 1 (with no minor improvements within buffer areas) under SLL Prerequisite Wetland and Water Body Conservation.

Case 2. Sites with Habitat or Wetlands or Water Bodies (1 point)

Meet the requirements of Option 1 or Option 2.

Option 1. Sites with Significant Habitat
Work with both the state's Natural Heritage Program and the state fish and wildlife agency (or local equivalent agency for projects outside the U.S.) to delineate identified significant habitat on the site. Do not disturb significant habitat or portions of the site within an appropriate buffer around the habitat. The geographic extent of the habitat and buffer must be identified by a qualified biologist, a nongovernmental conservation organization, or the appropriate state, regional, or local agency. Protect significant habitat and its identified buffers from development by donating or selling the land, or a conservation easement on the land, to an accredited land trust, conservation organization, or relevant government agency (a deed covenant is not sufficient to meet this requirement) for the purpose of long-term conservation.

Identify and commit to ongoing management activities, along with parties responsible for management and funding available, such that habitat is maintained in preproject condition or better for a minimum of three years after the project is built out. The requirement for identifying ongoing management activities may also be met by earning SLL Credit Long-Term Conservation Management of Habitat or Wetlands and Water Bodies.

Significant habitat for this credit is as follows:

- *Endangered species acts.* Habitat for species that are listed or are candidates for listing under state or national endangered species acts, habitat for species of special concern in the state, and habitat for species or ecological communities classified as GH, G1, G2, G3, S1, or S2 by NatureServe (local equivalent standards for threatened and endangered species may be used in countries outside the U.S. that do not have access to NatureServe data);
- *Locally or regionally significant habitat.* Locally or regionally significant habitat of any size, or patches of predominantly native vegetation at least 150 acres (60 hectares) (even if part of the area lies outside the project boundary); and
- *Habitat flagged for conservation.* Habitat flagged for conservation under a regional or state conservation or green infrastructure plan.

OR

Option 2. Sites with Wetlands and Water Bodies (1 point)
Design the project to conserve 100% of all water bodies, wetlands, land within 100 feet (30 meters) of water bodies, and land within 50 feet (15 meters) of wetlands on the site. Using a qualified biologist, conduct an assessment, or compile existing assessments, showing the extent to which those water bodies or wetlands provide (1) water quality maintenance; (2) wildlife habitat; and (3) hydrologic function maintenance, including flood protection. Assign appropriate buffers, measuring not less than 100 feet (30 meters) for water bodies and 50 feet (15 meters) for wetlands, based on the functions provided, contiguous soils and slopes, and contiguous land uses. Do not disturb wetlands, water bodies, or their buffers, and protect them from development by donating or selling the land, or a conservation easement on the land, to an accredited land trust, conservation organization, or relevant government agency (a deed covenant is not sufficient to meet this requirement) for the purpose of long-term conservation.

Identify and commit to ongoing management activities, along with parties responsible for management and funding available, such that habitat is maintained in preproject condition or better for a minimum of three years after the project is built out. The requirement for identifying ongoing management activities may also be met by earning SLL Credit Long-Term Conservation Management of Habitat or Wetlands and Water Bodies. The project does not meet the requirements if it degrades habitat for species identified in endangered species acts or habitat flagged for conservation in Option 1.

For All Projects
The following features are not considered wetlands, water bodies, or buffer land that must be protected:

a. previously developed land;
b. man-made water bodies (such as industrial mining pits, concrete-lined canals, or rainwater retention ponds) that lack natural edges and floors or native ecological communities in the water and along the edge;
c. man-made linear wetlands that result from the interruption of natural drainages by existing rights-of-way; and
d. wetlands that were created incidentally by human activity and have been rated “poor” for all measured wetland functions, as assessed by a qualified biologist using a method that is accepted by state or regional permitting agencies (or a local equivalent method for projects outside the U.S.).

SLL CREDIT: RESTORATION OF HABITAT OR WETLANDS AND WATER BODIES

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To restore native plants, wildlife habitat, wetlands, and water bodies harmed by previous human activities.

Requirements

ND PLAN, ND (SLL)

Using only native plants, restore *predevelopment* native ecological communities, *water bodies*, or *wetlands* on the *project* site in an area equal to or greater than 10% of the *development footprint*.

Work with a qualified biologist to ensure that restored areas will have the native species assemblages, hydrology, and other habitat characteristics that likely occurred in predevelopment conditions. Protect such areas from development by donating or selling the land, or a conservation easement on the land, to an accredited land trust, conservation organization or relevant government agency (a deed covenant is not sufficient to meet this requirement) for the purpose of long-term conservation.

Identify and commit to ongoing management activities, along with parties responsible for management and funding available, so that restored areas are maintained for a minimum of three years after the project is built out or the restoration is completed, whichever is later. The requirement for identifying ongoing management activities may also be met by earning SLL Credit Long-Term Conservation Management of Habitat or Wetlands and Water Bodies.

The project does not meet the requirements if it has negative effects on habitat for species identified in endangered species acts or habitat flagged for conservation in Option 1 of SLL Credit Site Design for Habitat or Wetland and Water Body Conservation.

SLL CREDIT: LONG-TERM CONSERVATION MANAGEMENT OF HABITAT OR WETLANDS AND WATER BODIES

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To conserve native plants, wildlife habitat, wetlands, and water bodies.

Requirements

ND PLAN, ND (SLL)

Create and commit to implementing a long-term (at least 10-year) management plan for existing or recently restored on-site native habitats, water bodies, or wetlands and their buffers, and create a guaranteed funding source for management.

Involve a qualified biologist or a professional from a natural resources agency or natural resources consulting firm in writing the management plan and conducting or evaluating the ongoing management.

The plan must include biological objectives consistent with habitat or water resource conservation, and it must identify the following:

- procedures and personnel for maintaining the conservation areas;
- estimated implementation costs and funding sources; and
- any threats that the project poses for habitat or water resources within conservation areas (e.g., introduction of exotic species, intrusion of residents in habitat areas) and measures to substantially reduce those threats.

The project does not meet the requirements if it has negative effects on habitat for species identified in endangered species acts or habitat flagged for conservation in Option 1 of SLL Credit Site Design for Habitat or Wetland and Water Body Conservation.

NEIGHBORHOOD PATTERN AND DESIGN (NPD)

NPD PREREQUISITE: WALKABLE STREETS
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To promote transportation efficiency and reduce vehicle distance traveled. To improve public health by providing safe, appealing, and comfortable street environments that encourage daily physical activity and avoid pedestrian injuries.

Requirements

ND PLAN, ND

Design and build the *project* to achieve all of the following:

a. 90% of new buildings have a *functional entry* onto the circulation network or other public space, such as a *park* or *plaza,* but not a parking lot. Whether opening to the circulation network or other public space, the functional entry must be connected to a sidewalk or equivalent provision for walking. If the public space is a square, park, or plaza, it must be at least 50 feet (15 meters) deep, measured at a point perpendicular to each entry.

b. At least 15% of the *block length* of the *existing* and new circulation networks within and bordering the project has a minimum building-height-to-street-centerline ratio of 1:1.5 (i.e., a minimum of 1 foot [300 millimeters] of building height for every 1.5 feet [450 millimeters] of width from street centerline to building façade). Alleys may be omitted from the calculations.

   - Projects that border a part of the circulation network must meet only their proportional share of the height-to-width ratio (i.e., only on the project side of the circulation network).

   - Building height is measured to eaves or, for a flat-roof structure, to the rooftop. For buildings with multiple heights or widths, use average heights or widths weighted by each portion's share of the total height or width.

c. Continuous sidewalks or equivalent *all-weather routes* for walking are provided along both sides of 90% of the circulation network block length within the project, including the project side of circulation network bordering the project. Bicycle- and pedestrian-only paths meet this requirement. New sidewalks must be at least 8 feet (2.5 meters) wide on retail or mixed-use blocks and at least 4 feet (1.2 meters) wide on all other blocks.

d. No more than 20% of the block length of the circulation network within the project is faced directly by garage and service bay openings. Alleys may be omitted from the calculations.

Portions of projects containing *historic buildings* or contributing buildings in a designated *historic district* subject to review by a local historic preservation entity are exempt from (b), (c), and (d) if approval for compliance is not granted.

Portions of projects containing historic buildings or contributing buildings in historic districts listed in or eligible for listing in a state provincial, or regional register, or the National Register of Historic Places that are subject to review by a state historic preservation office or the National Park Service (or local equivalent for projects outside the U.S.) are exempt from (b), (c), and (d) if approval for compliance is not granted.

NPD PREREQUISITE: COMPACT DEVELOPMENT
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To conserve land. To promote livability, walkability, and transportation efficiency and reduce vehicle distance traveled. To leverage and support transit investments. To improve public health by encouraging daily physical activity.

Requirements

ND PLAN, ND

Design and build the project to meet the densities specified below. Minimum densities must be met for both (1) the entire project at full build-out and (2) the portion of the project that will be built within five years of the date that the first new building of any type is occupied.

Case 1. Projects with Access to Quality Transit
For *projects* with *existing* or planned transit service (i.e., service with the funding commitments as specified in SLL Prerequisite Smart Location) that meets or exceeds the 2-point threshold in SLL Credit Access to Quality Transit, build at the following densities, based on the *walking distances* to the transit service specified in that SLL credit:

- for residential components located within the walking distances: 12 or more *dwelling units* per acre (30 DU per hectare) of buildable land available for residential uses;
- for residential components falling outside the walking distances: 7 or more dwelling units per acre (17.5 DU per hectare) of buildable land available for residential uses;
- for nonresidential components located within the walking distances: 0.80 or higher *floor-area ratio* (FAR) for the buildable land available for nonresidential uses; and
- for nonresidential components falling outside the walking distances: 0.50 or higher FAR for the buildable land available for nonresidential uses.

If the project location is served by a transit agency whose guidelines for minimum service densities are greater than the densities required by this prerequisite, the project must achieve those service densities instead.

Case 2. All Other Projects
Build any residential components of the project at a *density* of 7 or more dwelling units per acre (17.5 DU per hectare) of *buildable land* available for residential uses.

Build any nonresidential components of the project at a density of 0.50 or higher FAR for the buildable land available for nonresidential uses.

For All Projects Density calculations include all planned and existing buildings within the *project boundary,* excluding those portions of parking structures devoted exclusively to parking.

If the residential component of the project meets the minimum density requirement but the nonresidential component does not, or vice versa, include only the qualifying density. Use that component's dwelling units or nonresidential floor area in the numerator and the total buildable land area in the denominator. If the resulting density meets the minimum requirement, the prerequisite is achieved.

NPD PREREQUISITE: CONNECTED AND OPEN COMMUNITY
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To promote *projects* that have high levels of internal connectivity and are well connected to the community. To encourage development within *existing* communities that promote transportation efficiency through multimodal transportation. To improve public health by encouraging daily physical activity.

Requirements

ND PLAN, ND

Meet the requirements of Case 1 if the project has no circulation network intersections within the project boundary and is five acres or less in size. All other projects must meet Case 2.

Case 1. Surrounding Connectivity
Locate the project such that the connectivity within ¼ mile (400 meters) of the project boundary is at least 90 intersections per square mile (35 intersections per square kilometer). Any part of the circulation network that is counted toward the connectivity requirement must be available for general public use and not gated. Gated areas are not considered available for public use, with the exception of education and health care campuses and military bases where gates are used for security purposes.

Additionally, any circulation network within the project must be available for general public use and not gated.

Case 2. Internal Connectivity
Design and build the project such that its internal *connectivity* is at least 140 intersections per square mile (54 intersections per square kilometer).

Any part of the circulation network counted toward the connectivity requirement must be available for general public use at all times and not gated. Additionally, no more than 10% of the project area may be accessed via circulation network that is gated. Education campuses, health care campuses, and military bases where gates are used for security purposes are exempt from the 10% limit, and intersections within those projects may be counted toward the connectivity requirement.

Design and build the project with at least one through-connection (of the circulation network) intersecting or terminating at the *project boundary* at least every 800 feet (245 meters), or at existing abutting intervals and intersections of the circulation network, whichever is the shorter distance. These requirements do not apply to portions of the boundary where connections cannot be made because of physical obstacles, such as prior platting of property, construction of existing buildings or other barriers, slopes steeper than 15%, *wetlands* and *water bodies,* railroad and utility rights-of-way, existing limited-access motor vehicle rights-of-way, and parks and dedicated open space.

NPD CREDIT: WALKABLE STREETS

ND
1–9 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To promote transportation efficiency and reduce *vehicle distance traveled.* To improve public health by providing safe, appealing, and comfortable *street* environments that encourage daily physical activity and avoid pedestrian injuries.

Requirements

ND PLAN, ND

A *project* may earn a maximum of 9 points, awarded according to Table 1.

Table 1. Points for walkable street features

Items achieved	*Points*
2–3	1
4–5	2
6–7	3
8–9	4
10–11	5
12	6
13	7
14	8
15–16	9

Façades and Entries

a. At least 80% of the total linear distance of building façades facing the circulation network in the project is no more than 25 feet (7.5 meters) from the property line.

b. At least 50% of the total linear distance of building façades facing the circulation network in the project is no more than 18 feet (5.5 meters) from the property line.

c. At least 50% of the total linear distance of mixed-use and nonresidential building façades facing the circulation network in the project is within 1 foot (300 millimeters) of a sidewalk or equivalent walking route.

d. *Functional entries* to the building occur at an average of 75 feet (23 meters) or less along nonresidential or mixed-use buildings or *blocks.*

e. Functional entries to the building occur at an average of 30 feet (9 meters) or less along nonresidential or mixed-use buildings or blocks

Items (d) and (e) are cumulative.

Ground-Level Use and Parking

f. All ground-level retail, service, and trade uses that face a public space have clear glass on at least 60% of their façades between 3 and 8 feet (900 and 2500 millimeters) above grade.

g. If a façade extends along a sidewalk, no more than 40% of its length or 50 feet (15 meters), whichever is less, is blank (without doors or windows).

h. Any ground-level retail, service, or trade windows facing the circulation network must be kept visible (unshuttered) at night; this must be stipulated in *covenants, conditions, and restrictions* (CC&Rs) or other binding documents.

i. On-street parking is provided on at least 70% of both sides of the block length of all new and *existing* motorized portions of the circulation network, including the project side of bordering circulation network. The percentage of on-street parking is calculated by dividing the length of street designated for parking by the total length of the curb along each street, including curb cuts, driveways, and intersection radii. Space within the parking lane that is occupied by corner bulb-outs (within 24 feet [7 meters] of an intersection), transit stops, and motorcycle or bicycle parking may be counted as designated for parking in this calculation. Alleys may be exempted.

j. Continuous sidewalks or equivalent provisions for walking are available along both sides of the entire circulation network within the project, including the project side of the circulation network bordering the project. Bicycle- and pedestrian-only paths meet this requirement. New sidewalks must be at least 10 feet (3 meters) wide on retail or mixed-use blocks and at least 5 feet (1.5 meters) wide on all other blocks. Note that these requirements specify wider sidewalks than required by NPD Prerequisite Walkable Streets. Alleys may be exempted.

k. If the project has ground-floor *dwelling units,* the principal level of at least 50% of those units has an elevated finished floor at least 24 inches (60 centimeters) above the sidewalk grade. Below-grade basement spaces and/or *accessory dwelling units* are exempt from this requirement.

l. In nonresidential or mixed-use projects, 50% or more of the total number of office buildings includes ground-floor retail along 60% of the length of the street-level façade; 100% of mixed-use buildings include ground-floor retail, live-work spaces, or ground-floor dwelling units along at least 60% of the street-level façade; and all businesses or community services on the ground floor are accessible directly from sidewalks along the circulation network or other public space, such as a square, park, or plaza, but not a parking lot.

m. At least 40% of the block length of the circulation network within the project has a minimum building-height-to-street-centerline ratio of 1:1.5 (i.e., at least 1 foot (30 centimeters) of building height for every 1.5 feet (45 centimeters) of width from *circulation network* centerline to building façade). Alleys may be exempted.

Projects that border a part of the circulation network must meet only their proportional share of the height-to-centerline ratio (i.e., only on the project side of the circulation network).

Building height is measured to eaves or, for a flat-roof structure, to the rooftop, and width is measured façade to centerline. For buildings with multiple heights or widths, use average heights or widths weighted by each portion's share of the total height or width.

Design Speeds for Safe Pedestrian and Bicycle Travel

n. 75% of the length of new residential-only motorized parts of the circulation network within the project is designed for a target speed of no more than 20 mph (30 km/h).

o. 70% of the length of new nonresidential or mixed-use motorized parts of the circulation network within the project is designed for a target speed of no more than 25 mph (40km/h). A multiway boulevard, with travel lanes separated from access lanes by medians, may apply this requirement to its outer access lanes only (through-lanes are exempt), provided pedestrian crosswalks are installed across the boulevard at intervals no greater than 800 feet (245 meters).

Sidewalk Intrusions

p. At-grade crossings with driveways account for no more than 10% of the length of sidewalks within the project.

NPD CREDIT: COMPACT DEVELOPMENT

ND
1–6 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To conserve land and protect farmland and wildlife habitat by encouraging development in areas with existing infrastructure. To promote livability, walkability, and transportation efficiency, and reduce vehicle distance traveled. To improve public health by encouraging daily physical activity.

Requirements

ND PLAN, ND

Design and build the *project* such that residential and nonresidential components achieve the *densities* per acre (per hectare) of *buildable land* listed in Table 1 at build-out or within five years of the date that the first new building of any type is occupied (excluding those portions of parking structures devoted to parking), whichever is lower.

Table 1. Points for density per acre (hectare) of buildable land

Residential density		Nonresidential density (FAR)	Points
DU/acre	DU/hectare		
> 10 and ≤ 13	> 25 and ≤ 32	> 0.75 and ≤ 1.0	1
> 13 and ≤ 18	> 32 and ≤ 45	> 1.0 and ≤ 1.25	2
> 18 and ≤ 25	> 45 and ≤ 62	> 1.25 and ≤ 1.75	3
> 25 and ≤ 38	> 62 and ≤ 94	> 1.75 and ≤ 2.25	4
> 38 and ≤ 63	> 94 and ≤ 156	> 2.25 and ≤ 3.0	5
> 63	> 156	> 3.0	6

DU = dwelling unit; FAR = floor-area ratio.

The scoring of a mixed-use project is calculated with a weighted average, according to the following steps.

1. Determine the total floor area of all residential and nonresidential uses.
2. Calculate the percentage residential and percentage nonresidential of the total floor area.
3. Determine the density of each component as measured in *dwelling units* per acre or hectare and *floor-area ratio,* respectively.
4. Referring to Table 1, find the appropriate points for the densities of the residential and nonresidential components.
5. If the points are different, multiply the point value of the residential component by its percentage of the total floor area and multiply the point value of the nonresidential component by its percentage.
6. Add the two scores.

NPD CREDIT: MIXED-USE NEIGHBORHOODS

ND
1–4 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce vehicle distance traveled and automobile dependence, encourage daily walking, biking, and transit use, and support car-free living by providing access to diverse land uses.

Requirements

ND PLAN, ND

Locate or design the *project* such that 50% of its *dwelling units* are within a 1/4-mile (400-meter) *walking distance* of the number of uses (see Appendix 1) listed in Table 1. For projects with no dwelling units, 50% of dwelling units within a 1/4-mile (400-meter) walking distance of the *project boundary* must be within a 1/4-mile (400-meter) walking distance of the number of uses within the project specified in Table 1.

The specified number of uses must be in place by the time of 50% occupancy of total building floor area (exclusive of portions of parking structures devoted to parking).

Table 1. Points for uses within 1/4-mile (400-meter) walking distance, by percentage of occupancy

Diverse uses		*Points*
4–7		1
8–11		2
12–19		3
≥ 20		4

The following restrictions apply.

- A use may be counted as only one use type (e.g., a retail store may be counted only once even if it sells products in several categories).
- No more than two uses in each use type may be counted (e.g., if five restaurants are within the required distance, only two may be counted).
- The uses accessible to each counted dwelling unit must represent at least two categories.

For projects with regional-serving retail of 150,000 or more square feet (13 935 square meters) only

Additionally, a project that has at least one large retail *use (*defined as a use totaling 75,000 or more square feet [7 000 or more square meters]), must also meet at least the 2-point threshold for transit service under SLL Credit Access to Quality Transit. In this case, planned transit service can be counted. Each large retail use must be served by at least one transit stop providing trips that qualify under that SLL Credit.

If transit service is planned but not yet operational, the project must demonstrate one of the following:

1. The relevant transit agency has a signed full-funding grant agreement with the Federal Transit Administration (or equivalent national agency for projects outside the U.S.) that includes a revenue operations date for the start of transit service. The revenue operations date must be no later than the day by which 50% of the project's total building floor area will be occupied.
2. For bus, *streetcar*, *bus rapid transit,* or ferry service, the transit agency must certify that it has an approved budget that includes specifically allocated funds sufficient to provide the planned service at

the levels listed above and that service at these levels will begin no later than the day by which 50% of the project's total building floor area will be occupied.

3. For rail service other than *streetcars*, the transit agency must certify that preliminary engineering for a rail line has begun. In addition, the service must meet either of these two requirements:

- A state legislature or local subdivision of the state (or local government for projects outside the U.S.) has authorized the transit agency to expend funds to establish rail transit service that will begin no later than the date by which 50% of the project's total building floor area will be occupied.

  OR

- A local government has dedicated funding or reimbursement commitments from future tax revenue for the development of stations, platforms, or other rail transit infrastructure that will serve the project no later than the date by which 50% of the project's total building floor area will be occupied.

NPD CREDIT: HOUSING TYPES AND AFFORDABILITY

ND
1–7 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To promote socially equitable and engaging neighborhoods by enabling residents from a wide range of economic levels, household sizes, and age groups to live in a community.

Requirements

ND PLAN, ND

Meet the requirements of one or more of the following options.

Option 1. Diversity of Housing Types (1–3 points)

Include a sufficient variety of housing sizes and types in the *project* such that the total variety of planned and *existing* housing within the project achieves a Simpson Diversity Index score greater than 0.5, using the housing categories below. Projects of less than 125 acres (50.5 hectares) may calculate the Simpson Diversity Index for the area within ¼ mile (400 meters) of the project's geographic center. The Simpson Diversity Index calculates the probability that any two randomly selected *dwelling units* in a project will be of a different type.

Score = $1 - \sum (n/N)^2$

Where
n = the total number of dwelling units in a single category, and
N = the total number of dwelling units in all categories.

Table 1. Points for housing diversity

Simpson Diversity Index score	*Points*
> 0.5 to < 0.6	1
≥ 0.6 to < 0.7	2
≥ 0.7	3

Housing categories are defined by the dwelling unit's net floor area, exclusive of any garage, as listed in Table 2.

Table 2. Housing categories

Type	Square feet	Square meters
Detached residential, large	> 1,250	> 116
Detached residential, small	≤ 1,250	≤ 116
Duplex or townhouse, large	> 1,250	> 116
Duplex or townhouse, small	≤ 1,250	≤ 116
Dwelling unit in multiunit building with no elevator, large	> 1,250	> 116
Dwelling unit in multiunit building with no elevator, medium	> 750 to ≤ 1,250	> 70 to ≤ 116
Dwelling unit in multiunit building with no elevator, small	≤ 750	≤ 70
Dwelling unit in multiunit building with elevator, 4 stories or fewer, large	> 1,250	> 116
Dwelling unit in multiunit building with elevator, 4 stories or fewer, medium	> 750 to ≤ 1,250	> 70 to ≤ 116

Dwelling unit in multiunit building with elevator, 4 stories or fewer, small	≤ 750	≤ 70
Dwelling unit in multiunit building with elevator, 5 to 8 stories, large	> 1,250	> 116
Dwelling unit in multiunit building with elevator, 5 to 8 stories, medium	> 750 to ≤ 1,250	> 70 to ≤ 116
Dwelling unit in multiunit building with elevator, 5 to 8 stories, small	≤ 750	≤ 70
Dwelling unit in multiunit building with elevator, 9 stories or more, large	> 1,250	> 116
Dwelling unit in multiunit building with elevator, 9 stories or more, medium	> 750 to ≤ 1,250	> 70 to ≤ 116
Dwelling unit in multiunit building with elevator, 9 stories or more, small	≤ 750	≤ 70
Live-work space, large	> 1,250	> 116
Live-work space, small	≤ 1,250	≤ 116
Accessory dwelling unit, large	> 1,250	> 116
Accessory dwelling unit, small	≤ 1,250	≤ 116

For the purposes of this credit, townhouse and live-work units may have individual ground-level entrances or be within a multiunit or mixed-use building. Double counting is prohibited; each dwelling may be classified in only one category. The number of stories in a building is inclusive of the ground floor regardless of its use.

AND/OR

Option 2. Affordable Housing (1–3 points)

Include a proportion of new rental and/or for-sale dwelling units priced for households earning less than the *area median income* (AMI). Rental units must be maintained at affordable levels for a minimum of 15 years. Existing dwelling units are exempt from requirement calculations. Meet any combination of thresholds in Table 3, up to a maximum of 3 points.

Table 3. Points for affordable housing

Rental dwelling units				*For-sale dwelling units*			
Priced up to 60% AMI		*Priced up to 80% AMI*		*Priced up to 100% AMI*		*Priced up to 120% AMI*	
Percentage of total rental units	*Points*	*Percentage of total rental units*	*Points*	*Percentage of total for-sale units*	*Points*	*Percentage of total for-sale units*	*Points*
5	1	10	1	5	1	8	1
10	2	15	2	10	2	12	2
15	3	25	3	15	3	—	—

AMI = area median income.

AND/OR

Option 3. Housing Types and Affordable Housing (1 point)

A project may earn an additional point by earning at least 2 points in Option 1 and at least 2 points in Option 2 (at least one of which must be for providing housing at or below 100% AMI).

LT CREDIT: REDUCED PARKING FOOTPRINT

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To minimize the environmental harms associated with parking facilities, including automobile dependence, land consumption, and rainwater runoff.

Requirements

ND PLAN, ND

For new nonresidential buildings and *multiunit residential* buildings, either do not build new off-street parking lots, or locate all new off-street surface parking lots at the side or rear, leaving building frontages facing the circulation network free of surface parking lots (alleys may be exempted).

Use no more than 20% of the total *development footprint* area for all new off-street surface parking facilities, with no individual surface parking lot larger than 2 acres (0.8 hectare). For the purposes of this credit, surface parking facilities include ground-level garages unless they are under *habitable building* space. Underground or multistory parking facilities can be used to provide additional spaces. On-street parking spaces are exempt from this limitation.

Provide preferred parking for carpool or shared-use vehicle parking spaces equivalent to at least 10% of the total off-street parking spaces for each nonresidential and mixed-use building on the site. Such parking spaces must be marked and within 200 feet (60 meters) walking distance of entrances to the building served.

NPD CREDIT: CONNECTED AND OPEN COMMUNITY

ND
1–2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To conserve land and promote multimodal transportation by encouraging development within existing communities that have high levels of internal connectivity and are well connected to the larger community. To improve public health by encouraging daily physical activity and reducing motor vehicle emissions.

Requirements

ND PLAN, ND
Locate or design the project such that its internal *connectivity* falls within one of the ranges listed in Table 1. If the project has no internal circulation network, the connectivity within a ¼-mile (400-meter) distance of the project boundary must be used.

Table 1. Points for connectivity

Intersections per square mile	Intersections per square kilometer	Points
300–400	116–154	1
> 400	> 154	2

All parts of the circulation network that are counted toward the connectivity requirement must be available for general public use at all times and not gated. No more than 10% of the project area may be accessed via circulation network that is gated. Education campuses, health care campuses, and military bases where gates are used for security purposes are exempt from the 10% limit, and intersections within those projects may be counted toward the connectivity requirement.

AND

Design or locate the project such that a through-connection (of the circulation network) intersects or terminates at the *project boundary* at least every 400 feet (122 meters) or at existing abutting intervals and intersections of the circulation network, whichever is the shorter distance. Include a pedestrian or bicycle through-connection in at least 90% of any new *culs-de-sac.* These requirements do not apply to portions of the boundary where connections cannot be made because of physical obstacles, such as prior platting of property, construction of existing buildings or other barriers, slopes steeper than 15%, *wetlands* and *water bodies,* railroad and utility rights-of-way, existing limited-access motor vehicle rights-of-way, and parks and dedicated open space.

NPD CREDIT: TRANSIT FACILITIES

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage transit use and reduce vehicle distance traveled by providing safe, convenient, and comfortable transit waiting areas.

Requirements

ND PLAN, ND

Work with the transit agency or agencies serving the *project* to inventory existing transit stops and new transit stops within the project boundary that will be warranted within two years of project completion (because of either increased ridership on existing service or planned transit).

At those locations,

1. Confirm that transit facilities will be funded by either the transit agency or the project developer.

2. Install transit agency-approved shelters and any other required improvements at existing stops. Reserve space for transit facilities or install transit facilities at new stops.

Shelters must be covered, be at least partially enclosed to buffer wind and rain, have seating and illumination, and have signage that display transit schedules and route information.

NPD CREDIT: TRANSPORTATION DEMAND MANAGEMENT

ND
2 points
This credit applies to

- Neighborhood Development Plan (1-2 points)
- Neighborhood Development (1-2 points)

Intent

To reduce energy consumption, pollution, and harm to human health from motor vehicles by encouraging multimodal travel.

Requirements

ND PLAN, ND

Achieve at least two of the following options.

Earn 1 point for every two options, for a maximum of 2 points. For the purposes of this credit, *existing* buildings and their occupants are exempt from the requirements.

Option 1. Transit Passes

Provide transit passes valid for at least one year, subsidized to 100% of regular price, to each resident and employee locating within the project during the first three years of project occupancy (or longer). Publicize the availability of subsidized transit passes to project occupants.

AND/OR

Option 2. Developer-Sponsored Transit

Provide year-round, *developer*-sponsored transit service (vans, shuttles, buses) from at least one central point in the project to other major transit facilities or to other destinations, such as a retail or *employment center,* with service no less frequent than 45 daily weekday trips and 30 daily weekend trips. The service must begin by the time the project's total floor area is 20% occupied and must be guaranteed for at least three years beyond project build-out. The occupancy requirement is met when residents are living in 20% of the *dwelling units* and/or employees are working in 20% of the total nonresidential floor area.

Provide transit stop shelters and bicycle racks adequate to meet projected demand but no less than one shelter and one bicycle rack at each transit stop. Shelters must be covered, be at least partially enclosed to buffer wind and rain, and have seating and illumination. Bicycle racks must have a two-point support system for locking the frame and wheels and must be securely affixed to the ground or a building.

AND/OR

Option 3. Vehicle Sharing

Locate the project such that 50% of the dwelling units and nonresidential use entrances are within a ¼-mile (400-meter) *walking distance* of at least one vehicle in a vehicle-sharing program, as specified below, depending on project size.

- If the project has fewer than 100 dwelling units and/or employees, provide one vehicle.
- If the project has more than 100 dwelling units and/or employees and has a minimum transit service of 60 daily weekday trips and 40 daily weekend trips, provide at least one additional vehicle and parking space for every 100 dwelling units and/or employees.

- If the project has more than 100 dwelling units and/or employees but does not have transit service at the frequencies specified above, provide at least one additional vehicle and parking space for every 200 dwelling units and/or employees.

For each vehicle, dedicate one parking space accessible to vehicle-sharing members. Publicize to project occupants the availability and benefits of the vehicle-sharing program. Commit to providing vehicles to the locations for at least two years. If a new vehicle-sharing location is planned, the vehicle-sharing program must begin by the time the project's total floor area is 20% occupied. The occupancy requirement is met when residents are living in 20% of the dwelling units and/or employees are working in 20% of the total nonresidential floor area.

AND/OR

Option 4. Unbundling of Parking and Parking Fees

For 90% of multiunit residential units and/or nonresidential floor area, the associated parking spaces must be sold or rented separately from the dwelling units or nonresidential floor area.

Set parking fees within the project boundary for all off-street parking equal to or greater than the cost of monthly usage for public transit. Off-street parking in this instance does not include parking devoted to individual, detached residential units.

AND/OR

Option 5. Guaranteed Ride Home Program

Major employers within the project must commit to providing a guaranteed ride home program for employees. A major employer accounts for more than 25% of the workers on the project site. The program must provide free rides to employees who have carpooled, taken transit, walked, or cycled to work but must leave because of an unexpected personal emergency. Rides may be on taxis, company cars, or rental cars.

AND/OR

Option 6. Flexible Work Arrangements

Major employers within the project must commit to promoting and supporting flexible work arrangements with the goal of reducing vehicle trips during peak commuting hours. A major employer accounts for more than 25% of the workers on the project site. The employer must develop internal policies that outline the terms under which employees can engage in telework, flextime, compressed work weeks, staggered shifts, or other arrangements. These policies must also describe how the program will be promoted to employees.

NPD CREDIT: ACCESS TO CIVIC AND PUBLIC SPACE

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To provide open space close to work and home that enhances community participation and improves public health.

Requirements

ND PLAN, ND

Locate 90% of planned and *existing dwelling units* and nonresidential use entrances within a ¼ mile (400 meters) walk of at least one civic and passive use space. The spaces must be at least 1/6 acre (0.067 hectare) in area. Spaces less than 1 acre (0.4 hectare) must have a proportion no narrower than 1 unit of width to 4 units of length.

Projects larger than 10 acres (4 hectares) must have a median space size of at least 1 acre (0.4 hectare). Spaces over ½ acre (0.2 hectare) that are used to meet the 90% threshold are included in the median calculation.

NPD CREDIT: ACCESS TO RECREATION FACILITIES

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To enhance community participation and improve public health by providing recreational facilities close to work and home that facilitate physical activity and social networking.

Requirements

ND PLAN, ND

Locate or design the *project* so that a publicly accessible outdoor recreation facility at least 1 acre (0.4 hectares) in area, or a publicly accessible indoor recreational facility of at least 25,000 square feet (2325 square meters), lies within a ½-mile (800-meter) *walking distance* of 90% of new and *existing dwelling units* and nonresidential use entrances. Outdoor recreation facilities must consist of physical improvements and may include “tot lots,” swimming pools, and sports fields, such as baseball diamonds.

NPD CREDIT: VISITABILITY AND UNIVERSAL DESIGN

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To increase the proportion of areas usable by a wide spectrum of people, regardless of age or ability.

Requirements

ND PLAN, ND

Case 1. Projects with New Dwelling Units (1 point)

Design a minimum of 20% of the new dwelling units (but not less than one dwelling unit per type) in accordance with ICC A117.1, Type C, Visitable Unit, for each of the following residential building types:

- detached single-dwelling-unit buildings;
- attached single-dwelling-unit buildings; and
- buildings with two or three dwelling units.

Each unit must also have a kitchen, living area, bedroom, and full bath on an accessible level.

For multiunit buildings with four or more dwelling units, design a minimum of 20% of the units (but not less than one) to meet the requirements of one of the following options. This category includes mixed-use buildings with dwelling units.

Option 1. Universal Design Features Throughout the Home (1 point)
Throughout the home, include at least five of the following universal design features:

- easy-to-grip lever door handles;
- easy-to-grip cabinet and drawer loop handles;
- easy-to-grip locking mechanisms on doors and windows;
- easy-to-grip single-lever faucet handles;
- easy-touch rocker or hands-free switches;
- motion-detector lighting at entrance, in hallways and stairwells, and in closets, and motion-detector light switches in garages, utility spaces, and basements;
- large, high-contrast print for controls, signals, and the house or unit numbers;
- a built-in shelf, bench, or table with knee space below, located outside the entry door with weather protection overhead, such as porch or stoop with roof, awning, or other overhead covering;
- a minimum 32-inch (80-centimeter) clear door opening width for all doorways;
- tread at the entrance, on stairs, and other areas where slipping is common, with color contrast difference between stair treads and risers; and
- interior floor surfaces (e.g., low-pile carpets, hard-surface flooring) that provide easy passage for a wheelchair or walker, with color contrast between floor surfaces and trim; no carpet is permitted in a kitchen, bathroom, or other wet areas of the dwelling unit.

OR

Option 2. Kitchen Features (1 point)
On the main floor of the home (or on another floor, if an elevator or stair lift is provided), provide a kitchen with hard-surface flooring, plumbing with single-lever controls, a 5-foot (1.5-meter) turning radius, and at least four of the following universal design features:

- variable-height (28- to 42-inch [70- to 110-centimeter]) or adjustable work surfaces, such as countertops, sinks, and cooktops;
- clear knee space under sink and cooktops (this requirement can be met by installing removable base cabinets or fold-back or self-storing doors), cooktops and ranges with front or side-mounted controls, and wall-mounted ovens at a height to accommodate a seated adult;
- a toe kick area at the base of lower cabinets with a minimum height of 9 inches (23 centimeters), and full-extension drawers and shelves in at least half (by volume) of the cabinets;
- contrasting color treatment between countertops, front edges, and floor;
- adjustable-height shelves in wall cabinets; and
- glare-free task lighting.

OR

Option 3. Bedroom and Bathroom Features (1 point)
On the main floor of the building (or on another floor, if an elevator or stair lift is provided), include all of the following:

In at least one accessible bedroom,

- Size the room to accommodate a twin bed with a 5-foot (1.5-meter) turning radius around the bed.
- Install a clothes closet with a 32-inch (80-centimeter) clear opening with adjustable-height closet rods and shelves.

In at least one full bathroom on the same floor as the bedroom,

- Provide adequate maneuvering space with a 30-by-48-inch (75-by-120 centimeter) clear floor space at each fixture.
- Center the toilet 18 inches (45 centimeters) from any side wall, cabinet, or tub, and allow a 3-foot (90-centimeter) clear space in front.
- Install broad blocking in walls around toilet, tub, and/or shower for future placement and relocation of grab bars.
- Provide knee space under the lavatory (this requirement may be met by installing removable base cabinets or fold-back or self-storing doors).
- Install a long mirror whose bottom is no more than 36 inches (90 centimeters) above the finished floor and whose top is at least 72 inches (180 centimeters) high.

In addition, all bathrooms must have hard-surface flooring, all plumbing fixtures must have single-lever controls, and tubs or showers must have hand-held showerheads.

Case 2. Projects With Noncompliant Routes and No New Dwelling Units (1 point)
This case applies to projects that have no new residential units and are either (1) retrofitting existing public rights-of-way or publicly accessible travel routes that are not in compliance with the Americans with Disabilities Act (ADA, for private sector and local and state government facilities) or the Architectural Barriers Act (ABA, for federally funded facilities), or (2) building new publicly accessible travel routes that are not legally required to meet ADA-ABA accessibility guidelines.

Design, construct, or retrofit 90% of the rights-of-way and travel routes in accordance with the ADA-ABA accessibility guidelines, as applicable, or local equivalent for projects outside the U.S., whichever is more stringent.

NPD CREDIT: COMMUNITY OUTREACH AND INVOLVEMENT

ND
1–2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage responsiveness to community needs by involving the people who live or work in the community in *project* design and planning and in decisions about how the project should be improved or changed over time.

Requirements

ND PLAN, ND

Option 1. Community Outreach (1 point)

Engage the community in the following ways. Each activity must be led by the development team and be directly related to the LEED ND project.

Predesign
Meet with adjacent property owners, residents, business owners, and workers; local planning and community development officials; and any current residents or workers at the project site to solicit and document their input on the proposed project before beginning design.

Preliminary design
Advertise and host at least one open community meeting other than an official public hearing or recurring citizen advisory meeting, to generate comments on the preliminary project design concept. Work directly with community associations and/or the local government to advertise the meeting(s). Collect and summarize comments generated at the meeting(s).

Modify the project's preliminary design as a direct result of community input, or if modifications are not made, explain why community input did not generate design modifications.

Ongoing communication
Establish ongoing means for communication between the *developer* and the community throughout the design and construction phases and, in cases where the developer maintains any control, after construction.

OR

Option 2. Charrette (2 points)

Comply with Option 1 and conduct a design charrette or interactive workshop of at least two days that is open to the public and includes, at a minimum, participation by a representative group of nearby property owners, residents, business owners, and workers in the preparation of conceptual project plans and drawings.

OR

Option 3. Endorsement Program (2 points)

Comply with Option 1 and obtain an endorsement from an ongoing local or regional nongovernmental program that systematically reviews and endorses smart growth development projects under a rating or jury system.

NPD CREDIT: LOCAL FOOD PRODUCTION

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To promote the environmental and economic benefits of community-based food production and improve nutrition through better access to fresh produce.

Requirements

ND PLAN, ND

Establish *covenants, conditions, and restrictions* (CC&R) or other forms of deed restrictions stating that the growing of produce is not prohibited in *project* areas, including greenhouses, any portion of residential front, rear, or side yards; or balconies, patios, or rooftops. Greenhouses but not gardens may be prohibited in front yards that face the *circulation network.*

Meet the requirements of one of the following three options.

Option 1. Neighborhood Gardens (1 point)

Dedicate permanent and viable growing space or related facilities (such as greenhouses) within the project as specified in Table 1 (exclusive of *existing* dwellings). Ensure solar access and provide fencing, watering systems, garden bed enhancements (such as raised beds), secure storage space for tools, and pedestrian access for these spaces. Ensure that the spaces are owned and managed by an entity that includes occupants of the project in its decision making, such as a community group, homeowners association, or public body.

Table 1. Minimum garden space, by project density

Imperial units		*Metric units*	
Project density (DU/acre)	*Growing space (sf/DU)*	*Project density (DU/hectare)*	*Growing space (sq. meters/DU)*
> 7 and ≤14	200	> 17.5 and ≤ 35	18.5
> 14 and ≤ 22	100	> 35 and ≤ 55	9
> 22 and ≤ 28	80	> 55 and ≤ 69	7.5
> 28 and ≤ 35	70	> 69 and ≤ 87	6.5
> 35	60	> 87	5.5

DU = dwelling unit; sf = square feet; sq. meters = square meters.

An established community garden outside the *project boundary* but within a ½-mile (800-meter) *walking distance* of the project's geographic center can satisfy this option if the garden otherwise meets all the requirements.

OR

Option 2. Community-Supported Agriculture (1 point)

Purchase shares in a *community-supported agriculture* program located within 150 miles (240 kilometers) of the project site for at least 80% of *dwelling units* within the project (exclusive of existing dwelling units). Each counted dwelling unit must receive CSA service for at least two years, beginning when it is occupied. Shares must be delivered to a point within 1/2 mile (800 meters) of the project's geographic center on a regular schedule not less than twice per month at least four months of the year.

OR

Option 3. Proximity to Farmers Market (1 point)

Locate the project's geographic center within a 1/2-mile (800-meter) walking distance of an existing or planned farmers market that is open or will operate at least once weekly for at least five months annually. Farmers market vendors may sell only items grown within 150 miles (240 kilometers) of the project site. A planned farmers market must have firm commitments from farmers and vendors that the market will meet all the above requirements and be in full operation by the time 50% of the project's total floor area is occupied.

NPD CREDIT: TREE-LINED AND SHADED STREETSCAPES

ND
1–2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage walking and bicycling and discourage speeding. To reduce urban heat island effects, improve air quality, increase evapotranspiration, and reduce cooling loads in buildings.

Requirements

ND PLAN, ND

Option 1. Tree-Lined Blocks (1 point)

Provide trees at intervals of no more than 50 feet (12 meters) (exempting driveways) along at least 60% of the total existing and planned block length within the project, and on the project side of blocks bordering the project, between the vehicle travel way (if there is one) and walkway. Alleys may be exempted from the block length calculations.

AND/OR

Option 2. Shaded Sidewalks (1 point)

Provide shade from trees or permanent structures over at least 40% of the total length of existing and planned sidewalks within or bordering the project (alleys may be exempted). Trees must provide shade within 10 years of landscape installation. Use the estimated crown diameter to calculate the length of sidewalk shaded.

AND

For All Projects with Street Tree Plantings

From a registered landscape architect (or local equivalent for projects outside the U.S.), obtain a determination that planting details are appropriate to growing healthy trees, taking into account tree species, root medium, and width and soil volume of planter strips or wells, and that the selected tree species are not considered *invasive* in the project context according to USDA or the state agricultural extension service (or local equivalent for projects outside the U.S.).

NPD CREDIT: NEIGHBORHOOD SCHOOLS

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To promote community interaction and engagement by integrating *schools* into the neighborhood. To improve students' health by encouraging walking and bicycling to school.

Requirements

ND PLAN, ND

Include in the *project* a residential component that constitutes at least 30% of the project's total building floor area, and locate or design the project such that at least 50% of the *dwelling units* are within a ½-mile (800-meter) *walking distance* of the functional building entry of an *existing* or new elementary or middle school or within a 1-mile (1600-meter) walking distance of the functional building entry of an existing or new high school. If the school combines an elementary or middle school with a high school, 50% of the dwelling units must be a ½ mile (800 meter) walking distance of the functional building entry.

For any new school, the school authority must commit that the school will be open by the time 50% of the project dwelling units are occupied. A legally binding warrant committing to open the school by this time must be provided at the time of first building occupancy.

Portions of the circulation network within or bordering the *project boundary* that lead from dwelling units to the school site must have (1) a complete network of sidewalks on both sides and (2) either continuous bicycle lanes or a combination of traffic control and calming measures (alleys may be exempted). If the school is planned as part of the project, it must be designed such that pedestrians and cyclists can easily reach building entrances without crossing bus zones, parking entrances, and student drop-off areas.

New school campuses within the project boundary must not exceed the following limits:

- high school (students 15-18 years old), 15 acres (6 hectares);
- middle school (students 11-14 years old), 10 acres (4 hectares); and
- elementary school (students 6-10 years old), 5 acres (2 hectares).

Schools combining grade levels from more than one category may use the grade level with the higher allowable limits.

Facilities on the school site (e.g., athletic fields, playgrounds, multipurpose interior spaces) for which there is a formal joint-use agreement with another entity may be deducted from the total site area of the school.

GREEN INFRASTRUCTURE AND BUILDINGS (GIB)

GIB PREREQUISITE: CERTIFIED GREEN BUILDING
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To encourage the design, construction, and retrofit of buildings using green building practices.

Requirements

ND PLAN, ND (GIB)

Design, construct, or retrofit one whole building within the project to be certified through a LEED rating system (if LEED for Commercial Interiors, 75% of the total building floor area must be certified), or through a green building rating system requiring review by independent, impartial, third-party certifying bodies that have been accredited by an IAF-accredited body to ISO/IEC Guide 65 or, when available, ISO/IEC 17065.

GIB PREREQUISITE: MINIMUM BUILDING ENERGY PERFORMANCE Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage the design and construction of energy-efficient buildings that reduce air, water, and land pollution and environmental damage from energy production and consumption.

Requirements

ND PLAN, ND

The requirements apply to 90% of the total building floor area (rounded up to the next whole building) of all nonresidential buildings, mixed-use buildings, and multiunit residential buildings four stories or more constructed as part of the project or undergoing major renovations as part of the project. Each counted building must comply with one of the following options.

Option 1. Whole-Building Energy Simulation

Demonstrate an average improvement of 5% for new buildings, 3% for major building renovations, or 2% for core and shell buildings over ANSI/ASHRAE/IESNA Standard 90.1–2010, with errata (or a USGBC-approved equivalent standard for projects outside the U.S.) across all buildings pursuing Option 1. Multiple buildings may be grouped into a single energy model, provided (1) the building type (new construction, major renovation, or core and shell) is consistent for all buildings included in the energy model, or (2) an average 5% improvement is demonstrated for the entire energy model. Calculate the baseline building performance according to ANSI/ASHRAE/IESNA Standard 90.1–2010, Appendix G, with errata, using a simulation model.

Buildings must meet the minimum percentage savings before taking credit for renewable energy systems.

Each building's proposed design must meet the following criteria:

- compliance with the mandatory provisions of ANSI/ASHRAE/IESNA Standard 90.1–2010, with errata (or a USGBC-approved equivalent standard for projects outside the U.S.);
- inclusion of all energy consumption and costs within and associated with the building project; and
- comparison against a baseline building that complies with Standard 90.1–2010, Appendix G, with errata (or a USGBC-approved equivalent standard for projects outside the U.S.).

Document the energy modeling input assumptions for unregulated loads. Unregulated loads should be modeled accurately to reflect the actual expected energy consumption of the building.

If unregulated loads are not identical for both the baseline and the proposed building performance rating, and the simulation program cannot accurately model the savings, follow the exceptional calculation method (ANSI/ASHRAE/IESNA Standard 90.1–2010, G2.5). Alternatively, use the COMNET modeling guidelines and procedures to document measures that reduce unregulated loads.

OR

Option 2. Prescriptive Compliance: ASHRAE 50% Advanced Energy Design Guide

Comply with the mandatory and prescriptive provisions of ANSI/ASHRAE/IESNA Standard 90.1–2010, with errata (or a USGBC-approved equivalent standard for projects outside the U.S.).

Comply with HVAC and service water heating requirements applicable to the each building, including equipment efficiency, economizers, ventilation, and ducts and dampers, for the appropriate ASHRAE 50% Advanced Energy Design Guide and climate zone:

- ASHRAE 50% Advanced Energy Design Guide for Small to Medium Office Buildings, for office buildings smaller than 100,000 square feet (9 290 square meters);
- ASHRAE 50% Advanced Energy Design Guide for Medium to Large Box Retail Buildings, for retail buildings with 20,000 to 100,000 square feet (1 860 to 9 290 square meters);
- ASHRAE 50% Advanced Energy Design Guide for K–12 School Buildings; or
- ASHRAE 50% Advanced Energy Design Guide for Large Hospitals.
    - Over 100,000 square feet (9 290 square meters)

For projects outside the U.S., consult ASHRAE/ASHRAE/IESNA Standard 90.1–2010, Appendixes B and D, to determine the appropriate climate zone.

Option 3. Prescriptive Compliance: Advanced Buildings Core Performance Guide

Comply with the mandatory and prescriptive provisions of ANSI/ASHRAE/IESNA Standard 90.1–2010, with errata (or USGBC approved equivalent standard for projects outside the U.S.).

Comply with Section 1: Design Process Strategies, Section 2: Core Performance Requirements, and the following three strategies from Section 3: Enhanced Performance Strategies, as applicable. Where standards conflict, follow the more stringent of the two. For projects outside the U.S., consult ASHRAE/ASHRAE/IESNA Standard 90.1-2010, Appendixes B and D, to determine the appropriate climate zone.

3.5 Supply Air Temperature Reset (VAV)
3.9 Premium Economizer Performance
3.10 Variable Speed Control

To be eligible for Option 3, the project must be less than 100,000 square feet (9 290 square meters).

Note: Healthcare, Warehouse or Laboratory projects are ineligible for Option 3.

AND

For new *single-family residential* buildings and new lowrise multifamily buildings, 90% of the buildings must meet the requirements of LEED for Homes v4 EA Prerequisite: Minimum Energy Performance.

GIB PREREQUISITE: INDOOR WATER USE REDUCTION
Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce indoor water consumption.

Requirements

ND PLAN, ND

Nonresidential Buildings, Mixed-Use Buildings, and Multifamily Residential Buildings Four Stories or More

For new buildings and buildings undergoing major renovations as part of the *project*, reduce indoor water usage by an average of 20% from a baseline. All newly installed toilets, urinals, private lavatory faucets, and showerheads that are eligible for labeling must be WaterSense labeled (or a local equivalent for projects outside the U.S.).

For the fixtures and fittings listed in Table 1, as applicable to the project scope, reduce water consumption by 20% from the baseline. Base calculations on the volumes and flow rates shown in Table 1.

The design case is calculated as a weighted average of water usage for the buildings constructed as part of the project based on their floor area.

Table 1. Baseline water consumption of fixtures and fittings

Fixture or fitting	*Baseline (IP units)*	*Baseline (SI units)*
Toilet (water closet)*	1.6 gpf	6 lpf
Urinal*	1.0 gpf	3.8 lpf
Public lavatory (restroom) faucet	0.5 gpm at 60 psi** all others except private applications	1.9 lpm at 415 kPa, all others except private applications
Private lavatory faucet*	2.2 gpm at 60 psi	8.3 lpm at 415 kPa
Kitchen faucet (excluding faucets used exclusively for filling operations)	2.2 gpm at 60 psi	8.3 lpm at 415 kPa
Showerhead*	2.5 gpm at 80 psi per shower stall	9.5 lpm at 550 kPa per shower stall

* WaterSense label available for this product type
gpf = gallons per flush
gpm = gallons per minute
psi = pounds per square inch
lpf = liters per flush
lpm = liters per minute
kPa = kilopascals

New Single-Family Residential Buildings and New Multiunit Residential Buildings Three Stories or Fewer

90% of residential buildings must use a combination of fixtures and fittings that would earn 2 points under LEED for Homes v4 WE Credit Indoor Water Use.

GIB PREREQUISITE: CONSTRUCTION ACTIVITY POLLUTION PREVENTION Required

ND
This prerequisite applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To reduce pollution from construction activities by controlling soil erosion, waterway sedimentation, and airborne dust.

Requirements

ND PLAN, ND

Create and implement an erosion and sedimentation control plan for all new construction activities associated with the project. The plan must incorporate best management practices (BMPs) to control erosion and sedimentation in runoff from the entire project site during construction. The BMPs must be selected from EPA's BMPs for construction and post-construction site runoff control.

The erosion and sedimentation control plan must list the BMPs employed and describe how the project team will do the following:

- preserve vegetation and mark clearing limits;
- establish and delineate construction access;
- control flow rates;
- install sediment controls;
- stabilize soils;
- prevent soil loss during construction;
- stockpile topsoil for reuse;
- protect slopes;
- protect drain inlets, all rainwater conveyance systems, and receiving water bodies;
- stabilize channels and outlets;
- control pollutants including dust and particulate matter;
- control dewatering;
- maintain the BMPs; and
- manage the erosion and sedimentation control plan.

GIB CREDIT: CERTIFIED GREEN BUILDINGS

ND
1–5 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To encourage the design, construction, and retrofit of buildings using green building practices.

Requirements

ND PLAN, ND

Option 1. Projects with 10 or Fewer Habitable Buildings (1–5 points)
Design, construct, or retrofit one building as part of the project, beyond the prerequisite requirement, to be certified under a LEED green building rating systems (for LEED for Commercial Interiors, 75% of the total building floor area must be certified), or through a green building rating system requiring review by independent, impartial, third-party certifying bodies that have been accredited by an IAF-accredited body to ISO/IEC Guide 65 or, when available, ISO/IEC 17065. Up to five points may be earned for each additional certified building that is part of the project.

OR

Option 2. Projects of All Sizes (1–5 points)
Design, construct, or retrofit a percentage of the total project building floor area, beyond the prerequisite requirement, to be certified under a LEED green building rating systems or through a green building rating system requiring review by independent, impartial, third-party certifying bodies that have been accredited by an IAF-accredited body to ISO/IEC Guide 65 or, when available, ISO/IEC 17065.

Table 1. Points for green building certification

Percentage of total floor area certified	Points
≥ 10% and < 20%	1
≥ 20% and < 30%	2
≥ 30% and < 40%	3
≥ 40% and < 50%	4
≥ 50%	5

For All Projects Detached accessory dwelling units must be counted as separate buildings. Accessory dwellings attached to a main building are not counted separately.

GIB CREDIT: OPTIMIZE BUILDING ENERGY PERFORMANCE

ND
1–2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage the design and construction of energy-efficient buildings that reduce air, water, and land pollution and adverse environmental effects from energy production and consumption.

Requirements

ND PLAN, ND

The requirements apply to 90% of the total building floor area (rounded up to the next whole building) of all nonresidential buildings, mixed-use buildings, and *multiunit residential* buildings four stories or more constructed as part of the *project* or undergoing major renovations as part of the project.
Each counted building must comply with one of the following efficiency options.

Option 1. Whole-Building Energy Simulation (1–2 points)

New buildings must demonstrate an average percentage improvement of 12% (1 point) or 20% (2 points) over ANSI/ASHRAE/IESNA Standard 90.1–2010, with errata. Buildings undergoing major renovations as part of the project must demonstrate an average percentage improvement of 10% (1 point) or 18% (2 points). Core and shell buildings must demonstrate an average percentage improvement of 11% (1 point) or 15% (2 points). To determine percentage improvement, follow the method outlined in GIB Prerequisite Minimum Building Energy Performance.

OR

Option 2. Prescriptive Compliance: ASHRAE 50% Advanced Energy Design Guide (2 points)

To be eligible for Option 2, project must comply with all of requirements of Option 2 in GIB Prerequisite Minimum Building Energy Performance.

AND

Comply with the applicable recommendations and standards in Chapter 4, Design Strategies and Recommendations by Climate Zone, for the appropriate ASHRAE 50% Advanced Energy Design Guide and climate zone. For projects outside the U.S., consult ASHRAE/ASHRAE/IESNA Standard 90.1–2010, Appendixes B and D, to determine the appropriate climate zone.

ASHRAE 50% Advanced Energy Design Guide for Small to Medium Office Buildings

- *Building envelope, opaque:* roofs, walls, floors, slabs, doors, and continuous air barriers
- *Building envelope, glazing:* vertical fenestration
- *Interior lighting,* including daylighting and interior finishes
- *Exterior lighting*
- *Plug loads,* including equipment and controls

ASHRAE 50% Advanced Energy Design Guide for Medium to Large Box Retail Buildings

- *Building envelope, opaque:* roofs, walls, floors, slabs, doors, and vestibules
- *Building envelope, glazing:* fenestration - all orientations
- *Interior lighting,* excluding lighting power density for sales floor

- *Additional interior lighting* for sales floor
- *Exterior lighting*
- *Plug loads,* including equipment choices and controls

ASHRAE 50% Advanced Energy Design Guide for K–12 School Buildings

- *Building envelope, opaque:* roofs, walls, floors, slabs, and doors
- *Building envelope, glazing:* vertical fenestration
- *Interior lighting,* including daylighting and interior finishes
- *Exterior lighting*
- *Plug loads,* including equipment choices, controls, and kitchen equipment

ASHRAE 50% Advanced Design Guide for Large Hospitals

- *Building envelope, opaque:* roofs, walls, floors, slabs, doors, vestibules, and continuous air barriers
- *Building envelope, glazing:* vertical fenestration
- *Interior lighting,* including daylighting (form or nonform driven) and interior finishes
- *Exterior lighting*
- *Plug loads,* including equipment choices, controls, and kitchen equipment

For new *single-family residential* buildings and new multiunit residential buildings three stories or fewer, 90% of the buildings must reduce absolute estimated annual energy usage by 20% compared with the LEED Energy Budget for each building. Follow the method outlined in LEED v4 for Homes, EA Credit Annual Energy Use.

GIB CREDIT: INDOOR WATER USE REDUCTION

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce indoor water consumption.

Requirements

ND PLAN, ND

Nonresidential Buildings, Mixed-Use Buildings, and Multifamily Residential Buildings Four Stories or More

For new buildings and buildings undergoing major renovations as part of the *project*, reduce indoor water usage by an average of 40% from a baseline.

All newly installed toilets, urinals, private lavatory faucets, and showerheads that are eligible for labeling must be WaterSense labeled (or local equivalent for projects outside the U.S.).

For fixtures and fittings listed in Table 1, as applicable to the project scope, calculate the baseline water consumption using estimated occupant usage.

The design case is calculated as a weighted average of water usage for the buildings constructed as part of the project, based on their floor area.

Table 1. Baseline water consumption of fixtures and fittings

Fixture or fitting	*Baseline (IP units)*	*Baseline (SI units)*
Toilet (water closet)*	1.6 gpf	6 lpf
Urinal*	1.0 gpf	3.8 lpf
Public lavatory (restroom) faucet	0.5 gpm at 60 psi** all others except private applications	1.9 lpm at 415 kPa, all others except private applications
Private lavatory faucet*	2.2 gpm at 60 psi	8.3 lpm at 415 kPa
Kitchen faucet (excluding faucets used exclusively for filling operations)	2.2 gpm at 60 psi	8.3 lpm at 415 kPa
Showerhead*	2.5 gpm at 80 psi per shower stall	9.5 lpm at 550 kPa per shower stall

* WaterSense label available for this product type
gpf = gallons per flush
gpm = gallons per minute
psi = pounds per square inch
lpf = liters per flush
lpm = liters per minute
kPa = kilopascals

New Single-Family Residential Buildings and New Multiunit Residential Buildings Three Stories or Fewer

90% of buildings must use a combination of fixtures and fittings that would earn 4 points under LEED v4 for Building Design and Construction: Homes and Multifamily Lowrise v4 WE Credit Indoor Water Use.

GIB CREDIT: OUTDOOR WATER USE REDUCTION

ND
1–2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce outdoor water consumption.

Requirements

ND PLAN, ND

Reduce outdoor water use through one of the following options. Nonvegetated surfaces, such as permeable or impermeable pavement, should be excluded from landscape area calculations. Athletic fields and playgrounds (if vegetated) and food gardens may be included or excluded at the project team's discretion.

Option 1. No Irrigation Required (2 points)

Show that the landscape does not require a permanent irrigation system beyond a maximum two-year establishment period.

OR

Option 2. Reduced Irrigation (1–2 points)

Reduce the project's landscape water requirement (LWR) by at least 30% from the calculated baseline for the site's peak watering month. Reductions must first be achieved through plant species selection and irrigation system efficiency as calculated in the Environmental Protection Agency (EPA) WaterSense Water Budget Tool.

Additional reductions beyond 30% may be achieved using any combination of efficiency, alternative water sources, and smart scheduling technologies.

Table 1. Points for reducing irrigation water

Percentage reduction from baseline	*Points*
30%	1
50%	2

GIB CREDIT: BUILDING REUSE

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To extend the life cycle of buildings and conserve resources, reduce waste, and reduce environmental harm from materials manufacturing and transport for new buildings.

Requirements

ND PLAN, ND (GIB)

Case 1. Five Buildings or Fewer

For projects with five or fewer buildings undergoing major renovations, reuse 50% of one such building, based on surface area. Calculations must include structural elements (e.g., floors, roof decking) and enclosure materials (e.g., skin, framing). Exclude from the calculations window assemblies, nonstructural roofing material, and any hazardous materials that are remediated as part of the project.

Case 2. More Than Five Buildings

For projects with more than five buildings undergoing major renovations, reuse 20% of the total surface area of such buildings (including structure and enclosure materials, as defined in Case 1).

For All Projects Do not demolish any *historic buildings* or contributing buildings in a *historic district*, or portions thereof, or alter any *cultural landscapes* as part of the project.

An exception is granted only with approval from an appropriate review body. For buildings or landscapes listed locally, approval must be granted by the local historic preservation review board, or equivalent. For buildings or landscapes listed in a state register or in the National Register of Historic Places (or equivalent for projects outside the U.S.), approval must appear in a programmatic agreement with the state historic preservation office or National Park Service (or local equivalent for projects outside the U.S.).

GIB CREDIT: HISTORIC RESOURCE PRESERVATION AND ADAPTIVE REUSE

ND
2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To respect local and national landmarks and conserve material and cultural resources by encouraging the preservation and adaptive reuse of historic buildings and cultural landscapes.

Requirements

ND PLAN, ND (GIB)

This credit is available to projects with at least one historic building, contributing building in a historic district, or cultural landscape on the *project* site.

Do not demolish any historic buildings or contributing buildings in a historic district, or portions thereof, or alter any cultural landscapes as part of the project.

An exception is granted only with approval from an appropriate review body. For buildings or landscapes listed locally, approval must be granted by the local historic preservation review board, or equivalent. For buildings or landscapes listed in a state register or in the National Register of Historic Places (or equivalent for projects outside the U.S.), approval must appear in a programmatic agreement with the state historic preservation office or National Park Service (or local equivalent for projects outside the U.S.).

If any historic building or a contributing building in a historic district in the project site is to be altered (rehabilitated, preserved, or restored), use one of the following approaches for each building, as applicable.

- *Building subject to local review.* Obtain approval, in the form of a certificate of appropriateness, from a local historic preservation commission or architectural review board for any exterior alterations or additions.

- *Building subject to state or federal review.* If the building is subject to review by a state historic preservation office or the National Park Service (or equivalent body for projects outside the U.S.), the alteration must meet the Secretary of the Interior's Standards for the Treatment of Historic Properties (or equivalent for projects outside the U.S.).

- *Listed or eligible building not subject to review.* If a building is listed or determined eligible but alteration is not subject to local, state, or federal review, include on the project team a preservation professional who meets the U.S. federal qualifications for historic architects or architectural historians (or a local equivalent for projects outside the U.S.). The preservation professional must confirm adherence to the Secretary of the Interior's Standards for the Treatment of Historic Properties, or a local equivalent for projects outside the U.S.

If a cultural landscape is to be rehabilitated, restored, or preserved, do so in accordance with the Guidelines for the Treatment of Cultural Landscapes or local equivalent for projects outside the U.S. whichever is more stringent.

GIB CREDIT: MINIMIZED SITE DISTURBANCE

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To preserve existing noninvasive trees, native plants, and pervious surfaces.

Requirements

ND PLAN, ND (GIB)

Option 1. Development Footprint on Previously Developed Land (1 point)
Locate 100% of the development footprint and the construction impact zone on previously developed land.

OR

Option 2. Undeveloped Portion of Project Left Undisturbed (1 point)
Depending on the density of the project, do not develop or disturb a portion of the site that has not been previously developed, exclusive of (1) any land preserved by codified law, (2) a prerequisite of LEED for Neighborhood Development or (3) exempt areas designated as nonbuildable in comprehensive land-use plans. Stipulate in covenants, conditions, and restrictions (CC&R) or other binding documents that the undisturbed area will be protected from development by a private or governmental agency for the purpose of long-term conservation. When determining the minimum area to be left undeveloped, mixed-use projects must use the lowest applicable density from Table 1 or use the weighted average methodology in NPD Credit Compact Development. Densities and minimum percentages are as follows:

Table 1. Minimum undeveloped area, by project density

Residential density (DU/acre)	Residential density (DU/hectare)	Nonresidential density (FAR)	Minimum area left undisturbed
< 13	<32	< 0.5	20%
> 13 and ≤ 18	> 32 and ≤ 45	≥ 0.5 and ≤1	15%
> 18	> 45	> 1	10%

DU = dwelling unit; FAR = floor-area ratio.

For portions of the site that are not previously developed, identify construction impact zones that limit disturbance to the following:

- 40 feet (12 meters) beyond the building perimeter;
- 10 feet (3 meters) beyond surface walkways, patios, surface parking, and utilities less than 12 inches (30 centimeters) in diameter;
- 15 feet (4.5 meters) beyond street curbs and main utility branch trenches; and
- 25 feet (7.5 meters) beyond constructed areas with permeable surfaces (such as pervious paving areas, stormwater retention facilities, and playing fields) that require additional staging areas to limit compaction in the constructed zone.

For All Projects

Survey the site to identify the following:

- trees in good or excellent condition, as determined by an arborist certified by the International Society of Arboriculture (ISA) or local equivalent professional for projects outside the U.S.;
- any heritage or champion trees of special importance to the community because of their age, size, type, historical association, or horticultural value, as defined by a government forester;

- all trees larger than 6 inches (15 centimeters) in diameter at breast height (dbh, 4 feet 6 inches [1.4 meters] above ground); and
- any invasive plant species that affect trees present on the site, and whether those plants threaten the health of other trees to be preserved on the site, as determined by an ISA-certified arborist or local equivalent professional.

.

Preserve the following trees that are also identified as in good or excellent condition:

- all heritage or champion trees and trees whose dbh exceeds 50% of the state champion dbh for the species;
- a minimum of 75% of all noninvasive trees (including the above) larger than 18 inches (45 centimeters) dbh; and
- a minimum of 25% of all noninvasive trees (including the above) larger than 12 inches (30 centimeters) dbh if deciduous and 6 inches (15 centimeters) dbh if coniferous.

Tree condition ratings must be determined by an ISA-certified arborist using ISA-approved assessment measures or by a local equivalent professional utilizing an equivalent methodology.

Develop a plan, in consultation with and approved by an ISA-certified arborist or equivalent, for the health of the trees, including fertilization and pruning, and for their protection during construction.

If an ISA-certified arborist or local equivalent professional has determined that any trees to be preserved are threatened by invasive vegetation, develop a plan to reduce the invasive vegetation. Stipulate in codes, covenants, and restrictions or other binding documents that the undisturbed area of the preserved trees will be protected from development by a private or governmental agency for the purpose of long-term conservation.

GIB CREDIT: RAINWATER MANAGEMENT

ND
1–4 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To reduce runoff volume and improve water quality by replicating the natural hydrology and water balance of the site, based on historical conditions and undeveloped ecosystems in the region.

Requirements

ND PLAN, ND

In a manner best replicating *natural site hydrology* processes, *manage on site* the runoff from the developed site for the percentile of regional or local rainfall events listed in Table 1, using *low-impact development (LID)* and *green infrastructure*.

Use daily rainfall data and the methodology in the U.S. Environmental Protection Agency (EPA) Technical Guidance on Implementing the Stormwater Runoff Requirements for Federal Projects under Section 438 of the Energy Independence and Security Act to determine the percentile amounts listed in Table 1. The percentile rainfall event indicates the total volume to be retained on site.

Table 1. Points for retaining rainwater on site

Percentile rainfall event	Points
80th	1
85th	2
90th	3
95th	4

Projects that earn at least 2 points under this credit may earn an additional point if the site meets one of the following criteria.

- The project is located on a previously developed site.
- The project achieves 1 point in SLL Credit Brownfield Remediation.
- The project is designed to be transit ready by achieving at least 2 points each under NPD Credit Walkable Streets, NPD Credit Compact Development, and NPD Credit Mixed-Use Neighborhoods.

GIB CREDIT: HEAT ISLAND REDUCTION

ND
1 point
This credit applies to

- Neighborhood Development Plan (1 point)
- Neighborhood Development (1 point)

Intent
To minimize effects on microclimates and human and wildlife habitats by reducing heat islands.

Requirements

ND PLAN, ND

Option 1. Nonroof (1 point)
Use any combination of the following strategies for 50% of the nonroof site paving (including roads, sidewalks, courtyards, parking lots, parking structures, and driveways).

- Use the existing plant material or install plants that provide shade over the paving areas on the site within 10 years of plant material installation.
- Install and plant planters, either at grade or raised. Plant material cannot include artificial turf.
- Provide shade with structures covered by energy generation systems, such as solar thermal collectors, photovoltaics, and wind turbines, that produce energy used to offset some nonrenewable resource use.
- Provide shade with architectural devices or structures that have a three-year aged *solar reflectance (SR)* value of at least 0.28. If three-year aged value information is not available, use materials with an initial SR of at least 0.33 at installation,
- Provide shade with vegetated structures.
- Use paving materials with a three-year aged *solar reflectance (SR)* value of at least 0.28. If three-year aged value information is not available, use materials with an initial SR of at least 0.33 at installation.
- Use an *open-grid pavement system* (at least 50% unbound).

OR

Option 2. High-Reflectance and Vegetated Roofs (1 point)
Use roofing materials that have an SRI equal to or greater than the values in Table 1. Meet the three-year aged SRI value (if three-year aged value information is not available, use materials that meet the initial SRI value) for a minimum of 75% of the roof area of all new buildings within the project, or install a vegetated ("green") roof for at least 75% of the roof area of all new buildings within the project. Combinations of SRI-compliant and vegetated roofs can be used, provided they satisfy the equation in Option 3.

Table 1. Minimum solar reflectance index value, by roof slope

	Initial SRI	3-year aged SRI
Low (≤ 2:12)	82	64
Steep (> 2:12)	39	32

OR

Option 3. Mixed Nonroof and Roof Measures (1 point)
Use any of the strategies listed under Options 1 and 2 that in combination meet the following criterion:

Area of Area of High- Area of Total Site Total Roof Area

$$\frac{\text{Nonroof Measures}}{0.5} + \frac{\text{Reflectance Roof}}{0.75} + \frac{\text{Vegetated Roof}}{0.75} \geq \text{Paving Area} +$$

Alternatively, an SRI and SR weighted average approach may be used to calculate compliance:

GIB CREDIT: SOLAR ORIENTATION

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage energy efficiency by creating optimum conditions for the use of passive and active solar strategies.

Requirements

ND PLAN, ND

Option 1. Block Orientation (1 point)

This option is for projects that earn at least 2 points under NPD Credit Compact Development.

Design and orient the project or locate the project on existing blocks such that one axis of 75% or more of the blocks is within ±15 degrees of geographical east-west, and the east-west lengths of those blocks are at least as long as the north-south lengths.

OR

Option 2. Building Orientation (1 point)

Design and orient 75% or more of the project's total building floor area (excluding existing buildings) such that one axis of each qualifying building is at least 1.5 times longer than the other, and the longer axis is within 15 degrees of geographical east-west. The length-to-width ratio applies only to walls enclosing conditioned spaces; walls enclosing unconditioned spaces, such as garages, arcades, or porches, cannot contribute to credit achievement. The surface area of equator-facing vertical surfaces and slopes of roofs of buildings counting toward credit achievement must not be more than 25% shaded at the time of initial occupancy, measured at noon on the winter solstice.

GIB CREDIT: RENEWABLE ENERGY PRODUCTION

ND
1–3 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce the environmental and economic harms associated with fossil fuel energy by increasing self-supply of renewable energy.

Requirements

ND PLAN, ND

Incorporate on-site nonpolluting renewable energy generation, such as solar, wind, geothermal, small-scale or micro-hydroelectric, or biomass, with production capacity of at least 5% of the project's annual electrical and thermal energy cost (exclusive of *existing* buildings).

Points are awarded according to Table 1.

Table 1. Points for renewable energy production

Percentage of annual electrical and thermal energy cost	*Points*
5%	1
12.5%	2
20%	3

GIB CREDIT: DISTRICT HEATING AND COOLING

ND
2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage the development of energy-efficient neighborhoods by employing district heating and cooling strategies that reduce energy use and energy-related environmental harms.

Requirements

ND PLAN, ND

Incorporate a district heating and/or cooling system for space conditioning and/or water heating of new buildings (at least two buildings total) such that at least 80% of the *project's* annual heating and/or cooling consumption is provided by the district plant. *Single-family residential* buildings and *existing* buildings of any type may be excluded from the calculation.

Each system component that is addressed by ANSI/ASHRAE/IESNA Standard 90.1–2010 must have an overall efficiency performance at least 10% better than that specified by the standard's prescriptive requirements. Additionally, annual district pumping energy consumption that exceeds 2.5% of the annual thermal energy output of the heating and cooling plant must be offset by increases in the component's efficiency beyond the 10% improvement. If a combined heat and power (CHP) system is used to comply with the credit requirements, show equivalence by demonstrating that energy consumption savings from the CHP plant at least equal the energy savings that would result from using a conventional district energy system with components that are 10% better than ANSI/ASHRAE/IESNA Standard 90.1–2010. When determining equivalency, take into account the pumping energy as described above.

GIB CREDIT: INFRASTRUCTURE ENERGY EFFICIENCY

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce the environmental harms from energy used for operating public infrastructure.

Requirements

ND PLAN, ND

Design, purchase, or work with the municipality to install all new infrastructure (e.g., traffic lights, *street* lights, water and wastewater pumps) to achieve a 15% annual energy reduction below an estimated baseline energy use for this infrastructure. When determining the baseline, assume the use of lowest first-cost infrastructure items.

GIB CREDIT: WASTEWATER MANAGEMENT

ND
1–2 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce pollution from wastewater and encourage water reuse. .

Requirements

ND PLAN, ND (GIB)

Design and construct the project to retain on-site at least 25% of the average annual wastewater generated by the project (excluding any existing buildings), and reuse that wastewater to replace potable water. Provide on-site treatment to a quality required by state and local regulations for the proposed reuse, whichever is more stringent. Calculate the percentage of wastewater diverted and reused by determining the total wastewater flow, using the design case from GIB Prerequisite Indoor Water Use Reduction and adding wastewater flow from residential buildings, then determining how much of that volume is reused on site.

Table 1. Points for reusing wastewater

Percentage of wastewater reused	*Points*
25%	1
50%	2

GIB CREDIT: RECYCLED AND REUSED INFRASTRUCTURE

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To avoid the environmental consequences of extracting and processing virgin materials by using recycled and reclaimed materials.

Requirements

ND PLAN, ND (GIB)

Use materials for new infrastructure such that the sum of the *postconsumer* recycled content, on-site reused materials, and one-half of the *preconsumer* recycled content constitutes at least 50% of the total mass of infrastructure materials.

Count materials in all of the following infrastructure items, as applicable:

- roadways, parking lots, sidewalks, unit paving, and curbs;
- water retention tanks and vaults;
- base and sub-base materials for the above; and
- rainwater, sanitary sewer, steam energy distribution, and water piping.

Recycled content is defined in accordance with ISO/IEC 14021, Environmental Labels and Declaration, Self-Declared Environmental Claims (Type II environmental labeling).

GIB CREDIT: SOLID WASTE MANAGEMENT

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To reduce the volume of waste deposited in landfills and promote the proper disposal of hazardous waste.

Requirements

ND PLAN, ND (GIB)

Meet at least four of the following five requirements and publicize their availability and benefits.

a. Include as part of the *project* at least one recycling or reuse station, available to all project occupants, dedicated to the separation, collection, and storage of materials for recycling; or locate the project in a local government jurisdiction that provides recycling services. The recycling must cover at least paper, corrugated cardboard, glass, plastics, and metals.

b. Include as part of the project at least one drop-off point, available to all project occupants, for potentially hazardous office or household wastes and establish a plan for postcollection disposal or use; or locate the project in a local government jurisdiction that provides collection services. Examples of potentially hazardous wastes include paints, solvents, oil, mercury-containing lamps, electronic waste, and batteries.

c. Include as part of the project at least one compost station or location, available to all project occupants, dedicated to the collection and composting of food and yard wastes, and establish a plan for postcollection use; or locate the project in a local government jurisdiction that provides composting services. .

d. On every mixed-use or nonresidential *block* or at least every 800 feet (245 meters), whichever is shorter, include recycling containers either adjacent to or integrated into the design of other receptacles.

e. Recycle, reuse, or salvage at least 50% of nonhazardous construction, demolition, and renovation debris. Calculations can be done by weight or volume but must be consistent throughout. Develop and implement a construction waste management plan that identifies the materials to be diverted from disposal and specifies whether the materials will be stored on site or commingled. Reused or recycled asphalt, brick, and concrete (ABC) can account for no more than 75% of the diverted waste total. Exclude excavated soil, land-clearing debris, and materials contributing toward GIB Credit Building Reuse from calculations. Include materials destined for alternative daily cover (ADC) in the calculations as waste (not diversion).

GIB CREDIT: LIGHT POLLUTION REDUCTION

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent
To increase night sky access, improve nighttime visibility, and reduce the consequences of development for wildlife and people.

Requirements

ND PLAN, ND

Meet the Light Pollution Reduction requirements for the following:
1. One option in Exterior Lighting for Residential Areas
2. Exterior Lighting for Circulation Network
3. Uplight and light trespass requirements in Exterior Lighting for All Other Areas
4. Covenants, Conditions, and Restrictions.

Divide the project into model lighting ordinance (MLO) lighting zones LZ0 to LZ4 based on site-specific characteristics using the definitions of lighting zones provided in the Illuminating Engineering Society and International Dark Sky Association (IES/IDA) MLO User Guide.

Meet the requirements below for each lighting zone within the project.

Exterior Lighting for Residential Areas
Meet either Option 1 or Option 2 for all exterior lighting in new residential construction and residential buildings undergoing major renovations. Existing residential construction is exempt. Projects may use different options for uplight and light trespass.

> **Option 1. BUG Rating Method**
> Each fixture must have a backlight-uplight-glare (BUG) rating (as defined in IES TM-15-11, Addendum A) of no more than B2-U2-G2.
>
> OR
>
> **Option 2. Calculation Method**
> Meet the requirements of Option 2 in Exterior Lighting for All Other Areas, below.

Exterior Lighting for Circulation Network
For any portions of the circulation network not governed by national, state, or other superseding regulations, do not install street lighting unless conditions warrant the need for street lighting.

New and existing street lighting luminaires must not emit any light above 90 degrees (horizontal), based on the photometric characteristics of each luminaire when mounted in the same orientation and tilt as specified in the project design or as currently installed.

Exception for ornamental luminaires: Using the lowest MLO lighting zone for immediately adjacent properties, meet the requirements of the IES/IDA MLO, Table H.

AND

Exterior Lighting for All Other Areas

Use either the BUG method (Option 1) or the calculation method (Option 2) to meet uplight and light trespass

requirements. Projects may use different options for uplight and light trespass.

Uplight

Option 1. BUG Rating Method
Do not exceed the following luminaire uplight ratings, based on the specific light source installed in the luminaire as defined in IES TM-15-11, Addendum A.

Table 1. Maximum uplight ratings for luminaires, by lighting zone

MLO lighting zone	Luminaire uplight rating
LZ0	U0
LZ1	U1
LZ2	U2
LZ3	U3
LZ4	U4

Option 2. Calculation Method
Do not exceed the following maximum percentages of total lumens emitted above horizontal.

Table 2. Maximum percentage of lumens above horizontal

MLO lighting zone	Maximum allowed percentage of total luminaire lumens emitted above horizontal
LZ0	0%
LZ1	0%
LZ2	1.5%
LZ3	3%
LZ4	6%

Light Trespass

Option 1. BUG Rating Method
Do not exceed the following luminaire backlight and glare ratings (based on the specific light source installed in the luminaire) as defined in IES TM-15-11, Addendum A, based on the mounting location and distance from the *lighting boundary*.

Table 3. Maximum backlight and glare ratings, by lighting zone

	MLO lighting zone				
Luminaire mounting	LZ0	LZ1	LZ2	LZ3	LZ4
	Allowed backlight ratings				
> 2 mounting heights from lighting boundary	B1	B3	B4	B5	B5
1 to 2 mounting heights from lighting boundary and properly oriented	B1	B2	B3	B4	B4
0.5 to 1 mounting height to lighting boundary and properly oriented	B0	B1	B2	B3	B3

< 0.5 mounting height to lighting boundary and properly oriented	B0	B0	B0	B1	B2
	Allowed glare ratings				
Building-mounted > 2 mounting heights from any lighting boundary	G0	G1	G2	G3	G4
Building-mounted 1–2 mounting heights from any lighting boundary	G0	G0	G1	G1	G2
Building-mounted 0.5 to 1 mounting heights from any lighting boundary	G0	G0	G0	G1	G1
Building-mounted < 0.5 mounting heights from any lighting boundary	G0	G0	G0	G0	G1
All other luminaires	G0	G1	G2	G3	G4

A lighting boundary (or boundaries) is defined as the perimeter of each lighting zone within the project boundary. A lighting boundary can be modified under the following conditions:

- When the property line is adjacent to a public area that is a walkway, bikeway, plaza, or parking lot, the lighting boundary may be moved to 5 feet (1.5 meters) beyond the property line;
- When the property line is adjacent to a public street, alley, or transit corridor, the lighting boundary may be moved to the center line of that street, alley, or corridor;
- When there are additional properties owned by the same entity that are contiguous to the property, or properties, that the LEED project is within and have the same or higher MLO lighting zone designation as the LEED project, the lighting boundary may be expanded to include those properties.

Orient all luminaires less than two mounting heights from the lighting boundary such that the backlight points toward the nearest lighting boundary line. Building-mounted luminaires with the backlight oriented toward the building are exempt from the backlight rating requirement.

Option 2. Calculation Method

Do not exceed the following vertical illuminances at the lighting boundary of each lighting zone in the project (use the definition of lighting boundary in Option 1). Calculation points may be no more than 5 feet (1.5 meters) apart. Vertical illuminances must be calculated on vertical planes running parallel to the lighting boundary, with the normal to each plane oriented toward the property and perpendicular to the lighting boundary, extending from grade level to 33 feet (10 meters) above the height of the highest luminaire.

Table 4. Maximum vertical illuminance at lighting boundary, by lighting zone

MLO lighting zone	Vertical illuminance
LZ0	0.05 fc (0.5 lux)
LZ1	0.05 fc (0.5 lux)
LZ2	0.10 fc (1 lux)
LZ3	0.20 fc (2 lux)
LZ4	0.60 fc (6 lux)

FC = footcandle

Exemptions from Uplight and Light Trespass Requirements

The following exterior lighting is exempt from the requirements, provided it is controlled separately from the nonexempt lighting:

- specialized signal, directional, and marker lighting for transportation;
- internally illuminated signage;
- lighting that is used solely for façade and landscape lighting in MLO lighting zones 3 and 4 and is automatically turned off from midnight until 6 a.m.;
- lighting that is integral to other equipment or instrumentation that has been installed by the equipment or instrumentation manufacturer;
- lighting for theatrical purposes for stage, film, and video performances;
- street lighting;
- hospital emergency departments, including associated helipads; and
- lighting for the national flag in MLO lighting zones 2, 3, or 4.

Covenants, Conditions, and Restrictions

Establish *covenants, conditions, and restrictions* (CC&R) or other binding documents that require continued adherence to the above requirements.

INNOVATION (IN)

IN CREDIT: INNOVATION

ND
1–5 points
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage projects to achieve exceptional or innovative performance.

Requirements

ND PLAN, ND

To achieve all five innovation points, a project team must achieve at least one pilot credit, at least one innovation credit and no more than two exemplary performance credits.
Option 1. Innovation (1 point)
Achieve significant, measurable environmental performance using a strategy not addressed in the LEED green building rating system.

Identify the following:

- the intent of the proposed innovation credit;
- proposed requirements for compliance;
- proposed submittals to demonstrate compliance; and
- the design approach or strategies used to meet the requirements.

AND/OR

Option 2. Pilot (1 point)
Achieve one pilot credit from USGBC's LEED Pilot Credit Library.

AND/OR

Option 3. Additional Strategies

- **Innovation (1-3 points)**
  Defined in Option 1 above.
- **Pilot (1-3 points)**
  Meet the requirements of Option 2.
- **Exemplary Performance (1–2 points)**
  Achieve exemplary performance in an existing LEED v4 prerequisite or credit that allows exemplary performance, as specified in the LEED Reference Guide, v4 edition. An exemplary performance point is typically earned for achieving double the credit requirements or the next incremental percentage threshold.

IN CREDIT: LEED ACCREDITED PROFESSIONAL

ND
1 point
This credit applies to

- Neighborhood Development Plan
- Neighborhood Development

Intent

To encourage the team integration required by a LEED project and to streamline the application and certification process.

Requirements

ND PLAN, ND

At least one principal participant of the project team must be a LEED Accredited Professional (AP) with a specialty appropriate for the project.

REGIONAL PRIORITY (RP)

RP CREDIT: REGIONAL PRIORITY

ND
4 points
This credit applies to

- Neighborhood Development Plan (1-4 points)
- Neighborhood Development (1-4 points)

Intent

To provide an incentive for the achievement of credits that address geographically specific environmental, social equity, and public health priorities.

Requirements

ND PLAN, ND

Earn up to four of the six Regional Priority credits. These credits have been identified by the USGBC regional councils and chapters as having additional regional importance for the project's region. A database of Regional Priority credits and their geographic applicability is available on the USGBC website, http://www.usgbc.org.

One point is awarded for each Regional Priority credit achieved, up to a maximum of four.

APPENDICES

APPENDIX 1. USE TYPES AND CATEGORIES

Table 1. Use Types and Categories

Category	Use type
Food retail	Supermarket
	Grocery with produce section
Community-serving retail	Convenience store
	Farmers market
	Hardware store
	Pharmacy
	Other retail
Services	Bank
	Family entertainment venue (e.g., theater, sports)
	Gym, health club, exercise studio
	Hair care
	Laundry, dry cleaner
	Restaurant, café, diner (excluding those with only drive-thru service)
Civic and community facilities	Adult or senior care (licensed)
	Child care (licensed)
	Community or recreation center
	Cultural arts facility (museum, performing arts)
	Education facility (e.g., K—12 school, university, adult education center, vocational school, community college)
	Government office that serves public on-site
	Medical clinic or office that treats patients
	Place of worship
	Police or fire station
	Post office
	Public library
	Public park
	Social services center
Community anchor uses (BD&C and ID&C only)	Commercial office (100 or more full-time equivalent jobs)
	Housing (100 or more dwelling units)

Adapted from Criterion Planners, INDEX neighborhood completeness indicator, 2005.

APPENDIX 2. DEFAULT OCCUPANCY COUNTS

Use Table 1 to calculate default occupancy counts. Only use the occupancy estimates if occupancy is unknown.

For the calculation, use gross floor area, not net or leasable floor area. Gross floor area is defined as the sum of all areas on all floors of a building included within the outside faces of the exterior wall, including common areas, mechanical spaces, circulation areas, and all floor penetrations that connect one floor to another. To determine gross floor area, multiply the building footprint (in square feet or square meters) by the number of floors in the building. Exclude underground or structured parking from the calculation.

Table 1. Default Occupancy Numbers

	Gross square feet per occupant		Gross square meters per occupant	
	Employees	Transients	Employees	Transients
General office	250	0	23	0
Retail, general	550	130	51	12
Retail or service (e.g., financial, auto)	600	130	56	12
Restaurant	435	95	40	9
Grocery store	550	115	51	11
Medical office	225	330	21	31
R&D or laboratory	400	0	37	0
Warehouse, distribution	2,500	0	232	0
Warehouse, storage	20,000	0	1860	0
Hotel	1,500	700	139	65
Educational, daycare	630	105	59	10
Educational, K–12	1,300	140	121	13
Educational, postsecondary	2,100	150	195	14

EXHIBIT G-1

FORM OF GUARANTY

PAYMENT AND PERFORMANCE GUARANTY

This Payment and Performance Guaranty (this "**Guaranty**") is given this ___ day of ____, 202__, by Phillip Geuse, [a married/an unmarried] individual ("**Guarantor**"), for the benefit of the City of Santa Fe, a municipal corporation and political subdivision of the State of New Mexico (the "**City**").

RECITALS

A. The City owns the real property and improvements consisting of approximately 60 acres generally located within the block defined by Cerrillos Road, St. Michaels Drive, Llano Street, Siringo Road, and Camino Carlos Rey in the City of Santa Fe, County of Santa Fe, State of New Mexico, as generally depicted on Exhibit A attached hereto (the "**Midtown Site**").

B. ASPECT QOZB, LLC, a Delaware limited liability company ("**Developer**"), and the City entered into the Development and Disposition Agreement, dated of even date herewith (the "**DDA**"), pursuant to which Developer has agreed to, among other things, at Developer's sole cost and expense, to (i) redevelop the Property and (ii) pay the City the Purchase Price. Capitalized terms used but not defined herein shall have the meanings given to such terms in the DDA.

C. The City will lease the Property to Developer pursuant to the terms and conditions of the Lease to be entered into by Developer and the City as set forth in the DDA, for Developer to perform its obligations set forth in the DDA.

D. As a material inducement for the City to enter into the DDA and the Lease with Developer, Guarantor has agreed to guaranty to the City the prompt payment and performance of all the obligations of Developer under the DDA and the Lease.

E. Guarantor is [the sole member of] Developer, and as such, will receive direct, material and tangible benefits from Developer's development and lease of the Property and from the City entering into the DDA and Lease with Developer.

AGREEMENT

NOW, THEREFORE, intending to be legally bound, Guarantor, in consideration of the matters described in the foregoing Recitals and for other good and valuable consideration the receipt and sufficiency of which are acknowledged, hereby covenant and agree for the benefit of the City and its successors and assigns as follows:

1. Recitals. The recitals set forth above are incorporated herein by reference as if fully set forth in the body of this Guaranty.

2. Guaranteed Obligations. Guarantor hereby unconditionally and irrevocably guarantees to the City the full and complete performance of Developer's payment and performance obligations

under the DDA and the Lease in connection with Phase 1 and Developer's indemnification obligations pursuant to Section 14.3 with respect to all Phases, and agrees to indemnify and hold the City harmless from and against any and all costs or expenses, including litigation costs and reasonable attorneys' fees, arising from the City's enforcement of this Guaranty, whether incurred before or after judgment (collectively, the "**Guaranteed Obligations**").

3. Financial Covenants. Guarantor shall maintain (a) a minimum Net Worth of $5,000,000, as determined by the City based upon Guarantor's financial statements, and (b) minimum liquidity, in the form of unencumbered cash, cash-equivalents, and marketable securities of at least of $5,000,000 (each a "**Financial Requirement**"). "**Net Worth**" shall mean, as of a given date, (x) the total assets of Guarantor (excluding intangibles, such as goodwill) as of such date less (y) such Guarantor's total liabilities as of such date, determined in accordance with generally accepted accounting principles, consistently applied. Guarantor's failure to comply with any Financial Requirement for more than 30 consecutive days shall constitute a default hereunder (the "**Financial Default**"). Within 15 business days following a Financial Default, Guarantor shall provide a substitute guarantor acceptable to the City in its sole discretion. If Guarantor provides a substitute guarantor, the substitute guarantor shall meet each Financial Requirement, and if approved by the City, shall execute a performance and completion guaranty in the same form as this Guaranty. No later than 30 days after the end of each calendar quarter, Guarantor shall furnish to the MRA Director annual financial statements of Guarantor, which shall include a balance sheet, a statement of income, and contingent obligations of Guarantor, and shall be prepared in accordance with generally accepted accounting principles, consistently applied, and shall be certified as true and correct by Guarantor and reviewed by a certified public accountant who is not an employee or principal of Developer or its Affiliates. No later than sixty 30 days after filing, Guarantor shall furnish to the MRA Director signed copies of Guarantor's federal tax returns and including all extensions and all supporting schedules.

4. Guarantor Representations and Warranties. Guarantor represents to the City and acknowledges that Guarantor is an [married/unmarried] individual. Guarantor represents and warrants that Guarantor is fully informed of the terms of the DDA and the Lease and the remedies the City may pursue thereunder in the event the Guaranteed Obligations arise. Guarantor further represents and warrants to the City that the execution, delivery, and performance of this Guaranty by Guarantor does not violate the provisions of any applicable law or any agreement binding upon Guarantor, and that this Guaranty has been duly executed and delivered by Guarantor and constitutes a legally enforceable document.

5. Extent of Obligations; Waivers.

(a) In the event Developer fails to perform any of its obligations under the DDA or the Lease, the City may commence suit against Guarantor to enforce the provisions of this Guaranty, without first commencing any suit or otherwise proceeding against Developer or exhausting its remedies against Developer. Guarantor's liability under this Guaranty is primary. The City's rights shall not be exhausted by its exercise of any rights or remedies available to it at law and/or in equity or by any number of successive suits until and unless all obligations hereby guaranteed have been fully paid and performed. No circumstance that operates to discharge or to bar, suspend, or delay the City's right to enforce against Developer any obligation of Developer to the City (including but not limited to the effect of the pendency or conclusion of any proceeding under the federal Bankruptcy Code or any similar present or future federal or state law) shall have any effect upon the enforceability of Guarantor's obligations to the City hereunder. This Guaranty shall continue to be effective or be

reinstated (as the case may be) if at any time payment of all or any part of any sum is required to be returned by the City upon the insolvency, bankruptcy, dissolution, liquidation, or reorganization of Developer or Guarantor.

(b) The obligations of Guarantor hereunder shall remain in full force and effect without regard to, and shall not be affected or impaired by, (i) any modification or amendment to the DDA or Lease, whether or not Guarantor shall have received any notice of or consented to any such modification or amendment, (ii) the acceptance of partial payment of any Guaranteed Obligations (except to the extent that Guarantor's obligation hereunder shall be reduced accordingly); (iii) the granting of forbearances, compromises or adjustments with respect to any covenant or agreement under the DDA or Lease or claims thereunder; (iv) the dissolution or liquidation of the Developer; (v) an assignment of Developers rights and obligations (in whole or in part) to a third party; and (vi) any and all suretyship defenses or any circumstances which constitute a legal or equitable discharge of a guarantor or surety.

(c) Guarantor expressly waives all rights that Guarantor may have, if any, to require that any action be brought against Developer or any other person or entity in connection with the Guaranteed Obligations prior to demanding payment hereunder. Guarantor agrees that nothing contained herein shall prevent the City from exercising any rights available to the City under the DDA and the Lease and that the exercise of any of the aforesaid rights shall not constitute a legal or equitable discharge of any Guarantor until such time as the Guaranteed Obligations are paid in full. Guarantor agrees that Guarantor's liability as guarantor shall not be impaired or affected by the City's failure or election not to pursue any other remedies it may have against Guarantor, it being the intent hereof that Guarantor shall remain liable for the performance of the Obligations, notwithstanding any act or thing which might otherwise operate as a legal or equitable discharge of a surety.

6. Modification of Guaranty. This Guaranty constitutes the full and complete agreement between the parties hereto, and it is understood and agreed that the provisions hereof may only be modified by a writing executed by both parties hereto.

7. Gender, Singular/Plural. Words of any gender used in this Guaranty shall be held and construed to include any other gender, and words in the singular number shall be held to include the plural, unless the context otherwise requires.

8. Sections. References to section numbers are to sections in this Agreement, unless otherwise expressly stated.

9. Captions/Headings. Any captions or headings used in this Guaranty are for reference purposes only and are in no way to be construed as part of this Guaranty.

10. Invalidity. If any term, provision, covenant or condition of this Guaranty is held to be void, invalid, or unenforceable, the remainder of the provisions shall remain in full force and effect and shall in no way be affected, impaired, or invalidated.

11. Jurisdiction. Guarantor consents and submits to the jurisdiction of the federal and state courts located in the City and County of Santa Fe, New Mexico, and any suit shall be brought in a federal or state court located in the City and County of Santa Fe, New Mexico with appropriate

jurisdiction over the subject matter. Guarantor waives any defenses based on the venue, inconvenience of the forum, lack of personal jurisdiction or the like in any such suit.

12. Governing Law. This Guaranty shall be governed by and construed in accordance with the laws of the State of New Mexico.

13. Attorney's Fees. In the event it becomes necessary for the City to enforce any of the terms and provisions of this Guaranty, whether or not suit be instituted, Guarantor shall pay all of the City's costs and expenses incurred by the City in connection with the City's enforcement of this Guaranty, including, but not limited to, reasonable attorneys' fees.

14. Waiver of Jury Trial. TO THE EXTENT PERMITTED BY LAW, GUARANTOR HEREBY KNOWINGLY, INTENTIONALLY AND VOLUNTARILY, WITH AND UPON THE ADVICE OF COMPETENT COUNSEL, WAIVES, RELINQUISHES AND FOREVER FORGOES THE RIGHT TO A TRIAL BY JURY IN ANY ACTION OR PROCEEDING BASED UPON, ARISING OUT OF, OR IN ANY WAY RELATING TO THIS GUARANTY.

GUARANTOR ACKNOWLEDGES AND AGREES THAT ANY DISPUTE WHICH MAY ARISE UNDER THIS GUARANTY IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND THEREFORE IT HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS GUARANTY. GUARANTOR CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE SUCH WAIVERS; (B) IT UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF SUCH WAIVERS; (C) IT MAKES SUCH WAIVERS VOLUNTARILY.

15. Assignability. The City may assign this Guaranty in whole or in part at any time to any successor to the City's interest in the Guaranty. Guarantor shall not assign this Guaranty, in whole or in part, without the prior written consent of the City, in its sole discretion.

16. Successors and Assigns. This Guaranty shall be binding upon Guarantor and upon its heirs, successors and assigns.

17. New Mexico Tort Claims Act. The City's liability in connection with the Guaranty is limited by the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et seq. NMSA 1978, as amended. The City and its "public employees", as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense, and do not waive any limitation of liability pursuant to law. No provision of this Guaranty modifies or waives any provision of the New Mexico Tort Claims Act.

18. Public Records. Guarantor acknowledges that the City is a government entity and subject to the New Mexico Inspection of Public Records Act (Sections 14-2-1 et seq., NMSA 1978 ("**IPRA**"). Notwithstanding anything contained herein to the contrary, the City shall not be responsible to Guarantor or any third-party contractor for any disclosure of confidential information pursuant to

the IPRA or pursuant to the City's public records act laws, rules, regulations, instructions or other legal requirement.

19. Notices. Any notice, request, demand, instruction or other document to be given or served hereunder or under any document or instrument executed pursuant hereto shall be in writing and shall be delivered either personally with a receipt requested therefor, or by overnight courier, or by certified mail, return receipt requested, postage prepaid, in any case addressed to the parties at their respective addresses set forth below, and the same shall be effective (a) upon receipt or refusal if delivered personally, (b) one Business Day after depositing with such an overnight courier service, (c) three Business Days after deposit in the mail if mailed, or (d) upon successful electronic mail transmission evidenced by an electronic "read receipt" and provided that such notice is also delivered by the means described in clauses (a) or (b) within two Business Days after such electronic mail notice. All notices to the City or Guarantor shall be sent to the persons and addresses set forth below. Guarantor or the City may change its address for receipt of notices by service of a notice of such change in accordance herewith.

EXHIBIT G-2

FORM OF BOND

_____ INSURANCE COMPANY
QUASI-PUBLIC IMPROVEMENTS PERFORMANCE BOND

Bond No. _____
Initial Premium $ _____
Subject to Renewal

KNOW ALL MEN BY THESE PRESENTS: That _____, a _____ ("Principal") and _____, a corporation duly authorized under the laws of the State of New Mexico to become surety on bonds and undertakings ("Surety"), are held and firmly bound unto the City of Santa Fe, New Mexico ("Obligee"), in the full and just sum _____ Dollars and _____Cents ($_____) lawful money of the United States of America, to be paid to Obligee, its successors or assigns; for which payment, well and truly to be made, Principal and Surety bind themselves, their heirs, executors, successors, administrators and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THE OBLIGATION IS SUCH THAT:

Whereas, Principal and Obligee have entered into that certain Development and Disposition Agreement, effective _____ ___, 20__ (the "DDA") whereby Principal agrees to install and complete certain designated quasi-public improvements according to the DDA. is hereby referred to and made a part hereof; and

Whereas, said Principal is required under the terms of the DDA to furnish a bond for the faithful performance of the terms of the DDA.

Now, if Principal, its successors or assigns, shall perform the covenants, conditions and provisions in the DDA and any alteration thereof made as therein provided, on its or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the Obligee, its officers, agents and employees, as therein stipulated, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

Principal is responsible for all taxes and other costs incurred in fulfilling the requirements of the DDA. As a part of the obligation secured hereby and in addition to the face amount specified therefor, there shall be included costs and reasonable expenses and fees, including reasonable attorney's fees, incurred by Obligee in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the DDA or to the work to be performed thereunder or the specifications accompanying the same shall in anywise affect its obligations on this bond, and it does hereby

waive notice of any such change, extension of time, alteration or addition to the terms of the agreement or to the work or to the specifications.

This bond is enforceable without the need to have recourse to any judicial or arbitral proceeding.

Surety is authorized with the New Mexico Secretary of State to do business in the State of New Mexico, and its registered agent in the State of New Mexico is _____. The appointment of said agent shall remain in place for the entire duration of this bond.

Notice required by or provided pursuant to this bond shall be given in writing to the representatives identified herein. Notice shall be effective upon personal delivery to any such representative or seven (7) business days after deposit, postage prepaid and registered or certified, in an official receptacle of the U.S. Postal Service. Notice to the City of Santa Fe shall be made to the Planning and Land Use Director at 200 Lincoln Avenue, Santa Fe, New Mexico 87504.

The laws of the State of New Mexico shall govern the interpretation, validity, performance and enforcement of this this bond. In the case of any controversy or dispute in the interpretation, validity, performance or enforcement of this bond, the exclusive venue shall be the New Mexico First Judicial District Court, Santa Fe County, New Mexico. Surety and Principal consent to the venue and the jurisdiction of such court.

IN WITNESS WHEREOF, the seal and signature of said Principal is hereto affixed and the corporate seal and the name of the Surety is hereto affixed and attested by its duly authorized [Attorney-in-Fact] at_, this _____day of_____.

UTILITIES AGREEMENT

[attached]

UTILITIES AGREEMENT

THIS UTILITIES AGREEMENT (this "**Agreement**") is entered into effective as of the "Effective Date" under the DDA (as defined below) (the "**Effective Date**"), by and between **ASPECT QOZB, LLC**, a Delaware limited liability company ("**Developer**"), and the **CITY OF SANTA FE**, a municipal corporation and political subdivision of the State of New Mexico (the "**City**").

RECITALS:

A. The City owns the real property and improvements consisting of approximately 68.8 acres generally located within the block defined by Cerrillos Road, St. Michaels Drive, Llano Street, Siringo Road, and Camino Carlos Rey in the City of Santa Fe, County of Santa Fe, State of New Mexico, as generally depicted on Exhibit A attached hereto (the "**Midtown Site**").

B. The City and Developer are executing a Development and Disposition Agreement, dated as of the date hereof (the "**DDA**"), whereby Developer will re-develop and acquire approximately 11 acres of land comprising a portion of the Midtown Site, together with the buildings known as Benildus Hall, Onate Hall, Driscoll Fitness Center and Garson Studios (collectively, the "**Buildings**"), and all other existing accessory structures and improvements located thereon (collectively, the "**Property**").

C. The City and Developer intend to enter into a Lease Agreement (the "**Lease**"), for the purpose of leasing the Property to Developer to enable Developer to perform its obligations under the DDA, until such time as the City conveys the Property (or a portion thereof) to Developer pursuant to the terms thereof;

D. In connection with the Developer's development and operation of the Property, the City and Developer desire to enter into this Agreement in order to (i) enable to Developer to utilize certain utilities available at the Property, (ii) establish Developer's rights and obligations relating to the use of said utilities, and (iii) establish Developer's obligations relating to the modification or replacement of utilities at the Property, in each case subject to the terms and conditions set forth below.

AGREEMENT:

Developer and the City hereby agree as follows:

1. NATURAL GAS.

1.1 **Use; Submetering.** Subject to the terms and conditions of this Agreement, Developer shall have the right, during the Gas Utilization Period (as defined below), to utilize the natural gas service available at the Property by connecting to the existing natural gas lines thereon. Notwithstanding the foregoing, within 60 days after the Effective Date, as a condition to Developer's continued use of natural gas at the Property, Developer shall install, or cause to be installed, a natural gas submeter on the natural gas line providing gas to (a) the parcel on which Driscoll Studios is located and (b) the parcel on which Benildus Hall is located. Prior to construction or installation of any metering equipment or other utility facilities at the Property, Developer shall submit to the City a written request to proceed, which request shall set forth, for the City's approval, not to be unreasonably withheld, the name of Developer's contractor and the scope of work being performed.

1.2 **Pricing; Payment**.

(a) The price for the natural gas delivered to the Property shall initially be fixed at $12.78/MMBtu (the "**Gas Unit Price**"). On or before January 31st of each calendar year following the Effective Date, the City shall deliver to Developer written notice of its determination of the estimated

average Gas Unit Price for the current calendar year, which Gas Unit Price will be not less than 100% of the Gas Unit Price for the prior calendar year.

(b) Developer acknowledges that gas submeters have been installed on the natural gas lines serving the parcels commonly known as Shellaberger and Garson Studios. Within 3 business days after the Effective Date, Developer will email to the City a time-stamped photograph clearly depicting the current submeter reading for each of the submeters at Shellaberger and Garson Studios. Thereafter, within 15 days following the end of each calendar quarter during the Gas Utilization Period, Developer shall submit to the City (i) time-stamped photographs taken not more than 15 days prior to the date of Developer's submission that clearly depict the submeter reading for each of the submeters at Schellaberger, Garson Studios, Driscoll Studios and Benildus Hall, and (ii) payment, by check or other good funds made to the order of the City, in the amount of the Gas Unit Price multiplied by the total MMBtu used at the Property over the prior period (i.e., the difference between the current meter value set forth on the photographs provided therewith over the meter value shown on the photographs submitted with the immediately preceding payment (or the initial meter value, as applicable)). Any amounts not paid when due will accrue interest at rate of 1.5% per month.

1.3 **Gas Utilization Period; Disconnection.** Provided the Lease remains in effect and Developer is not in default thereunder, or, if the Lease is not in effect, that Developer is the fee owner of the Property, Developer shall have the right to use natural gas at the Property until the earlier of the seventh anniversary of the Effective Date or the date upon which the City ceases to use gas service at the property. (the "**Gas Utilization Period**"). Prior to the expiration of the Gas Utilization Period, Developer shall cause all natural gas use at the Property to be terminated and each of the natural gas lines at the Property to be disconnected from the City's connecting distribution lines.

2. ELECTRICAL SUPPLY.

2.1 **Use; Submetering.** Subject to the terms and conditions of this Agreement, Developer shall have the right, during the Electrical Use Period (as defined below), to use the electricity service available at the Property by connecting to the existing electrical utility lines thereon. Notwithstanding the foregoing, within 60 days after the Effective Date, as a condition to Developer's continued use of City-provided electricity at the Property, Developer shall install, or cause to be installed, an electrical submeter on the utility line providing electricity to (a) the parcel on which Driscoll Studios is located and (b) the parcel on which Benildus Hall is located. Prior to construction or installation of any metering equipment or other utility facilities at the Property, Developer shall submit to the City a written request to proceed, which request shall set forth, for the City's approval, not to be unreasonably withheld, the name of Developer's contractor and the scope of work being performed.

2.2 **Pricing; Payment**.

(a) The price for the electricity delivered to the Property shall initially be fixed at $0.11/kWh (the "**kWh Price**"). On or before January 31st of each calendar year following the Effective Date, the City shall deliver to Developer written notice of its determination of the estimated average kWh Price for the current calendar year, which kWh Price will be not less than 100% of the kWh Price for the prior calendar year.

(b) Developer acknowledges that electrical submeters have been installed on the transmission lines serving the parcels commonly known as Shellaberger and Garson Studios. Within 3 business days after the Effective Date, Developer will email to the City a time-stamped photograph clearly depicting the current submeter reading for each of the electrical submeters at Shellaberger and Garson Studios. Thereafter, within 15 days following the end of each calendar quarter during the Electricity Utilization Period, Developer shall submit to the City (i) time-stamped photographs taken not

more than 15 days prior to the date of Developer's submission that clearly depict the submeter reading for each of the submeters at Shellaberger, Garson Studios, Driscoll Studios, and Benildus Hall, and (ii) payment, by check or other good funds made to the order of the City, in the amount of the kWh Price multiplied by the total kWh of electricity used at the Property over the prior period (i.e., the difference between the current meter value set forth on the photographs provided therewith over the meter value shown on the photographs submitted with the immediately preceding payment (or the initial meter value, as applicable)). Any amounts not paid when due will accrue interest at rate of 1.5% per month.

2.3 **Electricity Utilization Period; Disconnection.** Provided the Lease remains in effect and Developer is not in default thereunder, or, if the Lease is not in effect, that Developer is the fee owner of the Property, Developer shall have the right to use the City-provided electricity serving the Property during the period beginning on the Effective Date and ending on the date 60 days after Developer's completion of the electrical transmission loop further described in the DDA (the "**Electricity Utilization Period**"). Prior to the expiration of the Electricity Utilization Period, Developer shall disconnect the Property's electrical distribution network from the City's transmission lines, and all existing buildings, new buildings, and structures constructed at the Property shall receive electrical service via the electrical transmission loop described in the DDA, excluding Benildus Hall which may remain on the City's transmission lines.

3. WATER SERVICE; METERING. Within 60 days after the Effective Date, (a) the City will cause the Water Division to terminate the City's account(s) at the Property, (b) Developer shall install a separate water meter on the water lines serving each of (i) the parcel on which Driscoll Studios is located and (ii) the parcel on which Benildus Hall is located. Following the City's termination of its water account at the Property, Developer shall establish a new billing account with the City's Water Division in Developer's name and shall thereafter be responsible for all costs and expenses relating to the water service at the Property. Prior to construction or installation of any metering equipment or other utility facilities at the Property, Developer shall submit to the City a written request to proceed, which request shall set forth, for the City's approval, not to be unreasonably withheld, the name of Developer's contractor and the scope of work being performed. Developer shall obtain water rights through the water rights transfer program or the water conservation credit program or through a combination of both.

4. TELECOMMUNICATIONS AND INTERNET. Developer is responsible for the installation of all required telecommunications and internet lines.

5. MAINTENANCE. Except with respect to any damage caused by the City, Developer shall be responsible for all maintenance, repair and replacement of the meters, submeters and utility lines or facilities located at the Property, up to and including the interconnections of the meters, submeters and utility lines or facilities at any points along the adjacent Property lines. Except with respect to any damage caused by Developer or its licensees or invitees, the City is responsible for all of the City's transmission facilities and equipment on the other side of the interconnection, provided that the City shall not be responsible for any of the foregoing to the extent the same are owned or operated by a third-party utility provider.

6. INDEMNITY. Developer shall indemnify, hold harmless and, if requested by the City (in the City's sole discretion), defend the City and its partners, employees, agents and representatives and each of their successors and assigns (together with the City, collectively, the "**City Indemnified Parties**"), from and against any and all damages, mechanics' liens, liabilities, losses, demands, actions, causes of action, claims, costs and expenses (including reasonable attorneys' fees) (collectively, "**Losses**") arising from Developer's or Developer's Representatives' construction, installation or use of the natural gas, electricity, water or other utilities on or with respect to the Property during the term of this Agreement; provided, that Developer shall not be required to indemnify the City for (i) any Losses arising out of the gross negligence or willful misconduct of any of the City's Indemnified Parties.

7. **INSURANCE.** Developer shall maintain, or cause to be maintained, at all times during the construction or installation of utility facilities or equipment at the Property, the insurance coverage required pursuant to the DDA and/or the Lease. Developer shall deliver proof of the insurance coverage required pursuant to this Agreement to the City (in the form of a certificate of insurance) prior to Developer (or any contractor) commencing work at the Property.

8. **TERMINATION.** This Agreement shall terminate upon the expiration or earlier termination of the Lease, unless as a result of Developer acquiring fee title to the Property. If not sooner terminated, this Agreement shall expire on the later of the expiration of the Gas Utilization Period and the Electricity Utilization Period, except that Sections 1.2, 2.2, 5, and 6 of this Agreement shall survive the termination hereof for a period of one year.

9. **NON-ASSIGNABILITY.** This Agreement may not be assigned without first obtaining the prior written approval of the non-assigning party.

10. **GOVERNING LAW.** This Agreement shall be governed by the laws of the State of New Mexico.

11. **NOTICES.** Any notices required by any provision of this Agreement shall be made in writing and delivered in the manner set forth in the DDA.

12. **COUNTERPARTS; ELECTRONIC/.PDF SIGNATURES.** This Agreement may be executed in any number of identical counterparts. This Agreement may be executed by electronic and/or .pdf signatures which shall be binding on the parties hereto, with original signatures to be delivered as soon as reasonably practical thereafter.

EDUCATIONAL USE COVENANT

THIS **EDUCATIONAL SPACE COVENANT** (this **"Covenant"**) is declared as of _____, 202__ (the **"Effective Date"**), by the CITY OF SANTA FE, a municipal corporation and political subdivision of the State of New Mexico (the "**City**").

RECITALS

A. The City owns the real property and improvements consisting of approximately 64 acres generally located within the block defined by Cerrillos Road, St. Michaels Drive, Llano Street, Siringo Road, and Camino Carlos Rey in the City of Santa Fe, County of Santa Fe, State of New Mexico (the "**Midtown Site**").

B. The City desires to create certain obligations and duties and to impose certain restrictions and covenants upon the portion of the Midtown Site legally described on Exhibit A (the "**Property**").

AGREEMENT

NOW, THEREFORE, the City hereby declares that the Property shall be held, conveyed, encumbered, leased, used, developed, occupied, altered, improved, and transferred subject to the terms and provisions set forth in this Covenant, and further declares as follows:

1. Defined Terms.

(a) "**Educator**" means any organization or establishment dedicated to providing formal instruction and learning experiences to individuals, through a college, university, academy, vocational, technical, business, professional school or other center of learning.

1. "**FP Educator**" means an Educator having its principal operation in New Mexico that exclusively offers an FP Program in such Educator's then current curriculum, such as, but not limited to, organizations such as Stagecoach Foundation or Santa Fe Community College.

(b) "**FP Program**" means a filmmaking, film production and or television provision training program, which includes classroom training and access to additional multimedia and filmmaking and film production space for practical training opportunities, with a curriculum based on best industry practices and then current technology.

(c) "**General Educator**" means an Educator that offers a General Program in such Educator's then current curriculum.

(d) "**General Program**" means a general training and educational program, which may include classroom and practical training, for the advancement of skills in a variety of industries.

2. Educational Use Covenants.

(a) During the period commencing on the Effective Date and continuing in perpetuity thereafter (the "**Term**"), any owner of fee title interest in the Property (each, an "**Owner**") shall, or shall cause any tenant or other occupant of the Property, to make available at least 2,000 square feet of office, classroom, studio and/or workspace (the "**Education Space**"), at no charge, to one or more FP Educators for an FP Program each academic year; provided, however, if no FP Educator exists in New Mexico that is willing to provide an FP Program in the Education Space, Owner shall, or shall cause any tenant or other occupant of the Property, to make the Education Space available to a General Educator.

(b) Owner shall, or shall cause any tenant or other occupant of the Property to use its best efforts to ensure that each FP Educator (or General Educator, if applicable) utilizing the Education Space:

(i) makes such FP Program (or General Program, if applicable) available to the residents of Santa Fe, New Mexico;

(ii) conducts commercially reasonable outreach and recruitment efforts to the surrounding communities, community organizations, including to residents of Santa Fe, and outreach to community-based partners selected by the City to provide outreach to the community, or other stakeholders as identified by the City;

(iii) efficiently utilizes the Education Space to accommodate the maximum number of students for the applicable FP Program or General Program, subject to Applicable Rules; and

(iv) operates an FP Program (or General Program, if applicable) in the Education Space for at least 50 credit hours in each academic year.

(c) To the extent the Property is owned or occupied by multiple Owners, the obligations of this Section 2 shall be deemed satisfied for the entire Property so long as one Owner is in compliance with this Covenant.

3. Fee in Lieu. Notwithstanding the foregoing, any Owner may satisfy this Covenant by remitting to the City a fee ("**Fee in Lieu**") in the amount of $1,500,000, increased as of the payment date of such Fee in Lieu by the percentage increase in the Consumer Price Index from the Effective Date to the date such payment. "**Consumer Price Index**" means the Consumer Price Index for All Urban Consumers for the West Region for all Items (1982-1984= 100) as published by the United States Department of Labor, Bureau of Labor Statistics. If the manner in which the Consumer Price Index is determined by the Bureau of Labor Statistics shall be substantially revised (including a change in the base index year), an adjustment shall be made by the City Manager in

such revised index that produces results equivalent, as nearly as possible, to those which would have been obtained if the Consumer Price Index had not been so revised. If the Consumer Price Index is discontinued, then "Consumer Price Index" shall mean an index chosen by City Manager which is, in City Manager's reasonable judgment, comparable to the index specified above. Upon payment in full of the Fee in Lieu to the City, this Covenant shall terminate and be of no further force or effect.

4. Compliance with Laws. Any Owner, tenant or other occupant of the Property shall carry out the operation of the Property in conformity with the then-current versions of the following: (a) the Santa Fe City Code of 1987, as amended from time-to-time, (b) the Midtown Master Plan, as adopted on November 30, 2022 pursuant to Resolution No. 2022-68, (c) the Midtown Community Development Plan, as adopted on January 25, 2023 pursuant to Resolution No. 2023-5, (d) the Midtown Local Innovation Corridor District, as adopted on October 26, 2016 pursuant to Ordinance No. 2016-39, (e) any other City-approved development plans and entitlements for the Property, and (f) any and all applicable local, state and federal laws, rules and regulations affecting the Property or otherwise applicable to the parties (collectively, with the provisions of this Covenant, the "**Applicable Rules**").

5. Indemnity. Any Owner shall indemnify, defend and hold harmless the City (including the governing body of the City), the metropolitan redevelopment agency for the Midtown Site, and each of their respective officials, officers, employees, agents, representatives and volunteers (collectively, including the City, the "**City Parties**"), from and against any and all liabilities, claims, demands, damages, expenses, fees (including attorneys' fees), fines, penalties, suits, proceedings, actions and causes of action of any and every kind or nature arising from the acts or omission of or the breach of this Covenant, including any violation of Applicable Rules, by any Owner, any of such Owner's officers, employees, agents, representatives, contractors, or any FP Educator.

6. Remedies. The City shall have all remedies available at law or equity to enforce this Covenant against an Owner that is violating such Covenant, provided that the City agrees not to exercise such remedies so long as such Owner commences and diligently proceeds to cure such violation within 30 days following written notice of violation from the City to such Owner, and cures such violation within 90 days thereafter. In the event it becomes necessary for the City to enforce any of the terms and provisions of this Covenant, whether or not suit be instituted, Owner shall pay all of the City's costs and expenses incurred by the City in connection with the City's enforcement of this Covenant, including, but not limited to, reasonable attorneys' fees.

7. Miscellaneous.

(a) Entire Agreement. This Covenant contains the entire declaration of Declarant with respect to the subject matter hereof, and may not be amended or modified except by an instrument executed in writing and signed by the Declarant hereto.

(b) Counterparts. This Covenant may be executed in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

(c) Governing Law. This Covenant shall be governed by and construed in accordance with the laws of the State of New Mexico without regard to the conflicts of laws principles thereof.

(d) Successors and Assigns. This Covenant shall be binding upon and inure to the benefit of the City, and all rights and responsibilities set forth in this Covenant shall be appurtenant to the Property. Any party acquiring title or an interest in the Property shall acquire and hold the title to the Property subject to the conditions and restrictions declared in this Covenant and all amendments thereto. Nothing in this Covenant shall be construed as preventing any Owner from dedicating additional space to a FP Educator or imposing additional restrictions on the Property; provided, however, that such additional restrictions may not interfere with the rights of the City hereunder.

(e) Severability. If any provision of this Covenant as applied to a particular circumstance shall be adjudicated as or otherwise become invalid or unenforceable, the remainder of this Covenant shall not be affected thereby, and each provision of this Covenant, unless specifically conditioned upon such invalid or unenforceable provision, shall be valid and enforceable to the fullest extent permitted by law.

(f) New Mexico Tort Claims Act. The City's liability in connection with the Covenant is limited by the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et seq. NMSA 1978, as amended. The City and its "public employees", as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense, and do not waive any limitation of liability pursuant to law. No provision of this Covenant modifies or waives any provision of the New Mexico Tort Claims Act.

(g) Notice. All notices or other communications required or permitted to be sent to Declarant hereunder shall be in writing, and shall be delivered to the address below by (i) personal delivery (including by means of professional messenger service); (ii) nationally recognized overnight courier; (iii) registered or certified mail, postage prepaid, return receipt requested; (iv) electronic mail, or electronic transmission of a pdf document followed by delivery of a hard copy through on of the methods described in (i) through (iii) above, and shall be deemed received upon the date of receipt thereof.

FORM OF ASSIGNMENT OF PLANS

ASSIGNMENT OF PLANS, SPECIFICATIONS AND CONTRACTS

(MIDTOWN – CITY OF SANTA FE)

THIS ASSIGNMENT OF PLANS, SPECIFICATIONS AND CONTRACTS (this "**Assignment**") is made as of _____, ___ 20__, by and between by and between [_____], a [_____] ("**Assignor**"), and the CITY OF SANTA FE, a municipal corporation and political subdivision of the State of New Mexico ("**Assignee**").

RECITALS

A. Assignor and Assignee entered into that certain Development and Disposition Agreement dated [_____] (as amended, the "**Development Agreement**"), whereby Assignee agreed to sell and Assignor agreed to purchase all of the Assignor's right, title and interest in and to certain real property located in the City of Santa Fe, New Mexico, as more particularly described on Exhibit A attached hereto (the "**Property**"). Capitalized terms used but not defined herein shall have the meaning given to such terms in the Development Agreement.

B. In connection with the foregoing transaction, Assignor agreed to pursue the completion of certain improvement plans, site plans, specifications, architectural drawings, renderings, plans, plats, agreements, contracts, permits, certificates, entitlements and approvals, reports, assessments, studies, and surveys relating to Assignor's development and construction at the Property (except to the extent excluded pursuant to Section 3 below, the "**Plans and Specifications**").

C. In connection with the completion of the Plans and Specifications, Assignor has engaged or intends to enter into one or more agreements (the "**Plan Consultant Contracts**" and, collectively with the Plans and Specifications, the "**Plan Documents**") with various consultants that will perform services or provide documents, materials or other information related to the Plans and Specifications.

D. In order to secure Assignor's obligations under the Development Agreement, Assignor now desires to enter into this Assignment to assign and convey to Assignee its right, title and interest in and to the Plans and Specifications on the Assignment Date and certain Plan Consultant Contracts concurrently therewith or thereafter, and Assignee desires to accept this Assignment on the terms and conditions set forth herein.

AGREEMENT

NOW THEREFORE, for good and valuable consideration, the receipt whereof is hereby acknowledged, the parties agree as follows:

1. Incorporation of Recitals. The Recitals set forth above are hereby incorporated into this Assignment as if fully set forth herein.

2. **Assignment Date**. This Assignment shall become immediately effective upon the termination of the Development Agreement for any reason other than in connection with Assignor's acquisition of the Property (the "**Assignment Date**").

3. **Assignment of Plans and Specifications**. As of the Assignment Date, without further action by either party hereto, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby transfers and assigns to Assignee all of Assignor's right, title, and interest in and to the Plans and Specifications, and Assignee hereby assumes all of Assignor's right, title and interest in and to the Plans and Specifications, except that Assignor shall remain liable for all claims, expenses, costs, obligations or other liabilities with respect to the Plans and Specifications arising out of or with respect to events occurring prior to the Assignment Date. On or before the Assignment Date, Assignor shall amend Schedule 1 attached hereto in order to include all professional services and Plan Consultant Contracts entered into on or prior to such date. The Plans and Specifications assigned hereunder shall exclude (a) any attorney-client work product or similar proprietary information of Assignor, (b) any specifications, architectural drawings, renderings, plans, plats, agreements, contracts, or portions thereof, for the design or construction of improvements not located on the Property (i.e., the Shellaberger Tennis Complex), and (c) any environmental studies, analysis or reports.

4. **Assignment of Plan Consultant Contracts**. Assignor shall, upon written notice from Assignee on or within 10 days following the Assignment Date, assign and transfer to Assignee, all of Assignor's right, title, and interest in and to such Plan Consultant Contracts specified by Assignee in its written notice, and Assignee shall assume all of Assignor's rights and obligations under such Plan Consultant Contracts, except for those claims, expenses, costs, obligations or other liabilities arising out of or with respect to events occurring prior to the Assignment Date.

5. **Representations, Warranties and Covenants**. Assignor represents and warrants to Assignee that Assignor has the right to assign to Assignee each of the Plan Documents, and that Assignor has obtained or will obtain all necessary consents or other documentation required, if any, for the assignment of the Plan Documents. Assignor agrees that Assignor will pay in full all costs and fees accrued in connection with the Plan Documents as of the Assignment Date. Assignor shall not be responsible for the costs associated with the Plan Documents for work performed following the Assignment Date. Except as set forth in this Agreement, Assignor makes no representation or warranty with respect to the Plan Documents of any nature whatsoever.

6. **Consent of Counterparties.** Upon Assignee's request, Assignor shall use commercially reasonable efforts to obtain the consent of the counterparty to each of the Plan Documents to the extent consent is required in order for Assignee to exercise its rights hereunder.

7. **Further Assurances.** At any time and from time to time, upon the written request of Assignee, at Assignee's sole expense, Assignor will promptly and duly execute and deliver any and all such further instruments and documents and take such further action as Assignee may reasonably deem necessary in obtaining the full benefits of this Agreement and of the rights and powers herein granted.

8. General Provisions.

8.1. Successors and Assigns. The Assignment shall be binding on and inure to the benefit of the parties hereto and to their respective heirs, executors, administrators, successors-in-interest and assigns.

8.2. Severability. If any one or more of the provisions contained in this Assignment shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision of this Assignment, but this Assignment shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

8.3. Recitals and Schedules Incorporated. The recitals set forth above and the schedule attached hereto are hereby incorporated into this Assignment as if set forth herein.

8.4. Counterparts. This Assignment may be executed in any number of counterparts, each of which shall be deemed an original, but all of which taken together shall constitute one and the same instrument, and either of the parties hereto may execute this Assignment by signing any such counterpart. This Assignment may be executed and delivered by facsimile or by electronic mail in portable document format (.pdf) or similar means and delivery of the signature page by such method will be deemed to have the same effect as if the original signature had been delivered to the other party.

8.5. Governing Law. This Assignment and any claims related to or arising out of this Assignment shall be governed by and construed in accordance with the laws of the State of New Mexico.

FISCAL IMPACT REPORT

General Information:

(Check) **Bill:** X **Resolution:** _____

Short Title(s): Approval of Midtown Studios Development and Disposition

Sponsor(s): Mayor Alan Webber

Reviewing Department(s): City Attorney's Office, Metropolitan Redevelopment Agency, Public Works

Staff Completing FIR: Pat Feghali **Date:** 9/23/24 **Phone:** 505-955-6501

Reviewed by City Attorney: _____ **Date:** Oct 25, 2024

Reviewed by Finance Director: Emily K. Oster **Date:** Oct 25, 2024

Summary:
The City of Santa Fe ("City") and Midtown Santa Fe Productions QOF, LLC ("Offeror") entered into an Exclusive Negotiation Agreement on August 4, 2023 in order to agree to a plan for Offeror to improve and purchase certain parcels of the Midtown Site, located at 1600 St Michaels Drive ("Property"). The City and ASPECT QOZB, LLC ("Purchaser"), successor to Offeror, are now entering into a Development and Disposition Agreement for the Property.

NMSA 1987, Section 3-54-1 requires that the City approve the sale of City-owned property with an Ordinance. This Bill is created to comply with that statute.

Departments Affected:
Community Development Department (MRA), Public Works Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the Development and Disposition Agreement cannot move forward, and the City would need to identify a new process for developing the affected parcels at Midtown

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Related to Resolution 2022-68, Midtown Master Plan Approval; and Resolution 2023-5, Midtown Community Development Plan Approval

Performance and Administrative Implications:
This Sale will transfer up to seven parcels from City ownership to private ownership.

Fiscal Implications:
The Developer will pay $5 million over the course of this sale, in four installments, assuming the Developer completes all three phases. The first should be in FY 2025, and the last in FY 2031.

From: Daniel Hernandez, Metropolitan Redevelopment Agency Director

Via: Randy Randall, Interim Community Development Director

Subject: **Lease Summary in connection with the Disposition and Development Agreement (DDA) by and between the City of Santa Fe and Aspect QOZB, LLC**

A summary of terms provided in the Lease Agreement by and between the City of Santa Fe ("City") and Aspect QOZB, LLC ("Developer") are outlined below:

Lease Term

- The Lease becomes effective on the date that the approved DDA goes into effect, which will be 45 days after the Ordinance is approved, unless a referendum is held. If a referendum is held and a majority of voters vote to approve the Ordinance, the effective date shall be the date the election results are certified. If a referendum is held and a majority of voters vote to disapprove the Ordinance, the Ordinance shall not be effective, and the Lease will not start.
- This Lease expires 10 years following the Lease Commencement Date ("Term").
- If the Developer elects to acquire the portion of property associated with any Phase upon completion of an applicable Phase pursuant to the terms of the DDA, then upon the closing of the conveyance of such Phase, the Lease terminates with respect to such portion of property that has been conveyed to the Developer.
- The Lease terminates in its entirety upon the earlier of (a) the expiration of the Term, (b) Developer's default under the terms of the DDA or the Lease, (c) upon the City's conveyance of all of the Property to Developer pursuant to the terms of the DDA, or (d) Developer's termination of the DDA as permitted under the DDA.

Lease Payments

- Developer is required to pay to the City the total base rent of $300,000.00 during the 10-year term of the Lease, payable in annual installments of $30,000.00.

If Developer fails to pay Rent when due exceeding notice and cure periods, then interest accrues at the rate of 18% per year on the amount due and unpaid, compounded monthly, so long as the amount remains unpaid.

Triple Net Lease

The Lease is a triple net lease, meaning that Developer will pay rent, utilities, and all operating expenses for the Property.

- The Lease is made on an “as is, where is” condition of property basis, and the City is not responsible for any repairs or maintenance of the Property.

Date: October 23, 2024

To: Governing Body, Public Works and Utilities Committee, Quality of Life Committee, Finance Committee, and Economic Development Advisory Committee

From: Daniel Hernandez, Metropolitan Redevelopment Agency Director

Via: Randy Randall, Interim Community Development Director

Subject: **Purchase Price Consideration for the Disposition and Development Agreement (DDA) by and between the City of Santa Fe and Aspect QOZB, LLC**

Pursuant to State statute, Section 3-54-1(B), NMSA 1978, when a municipality elects to sell real property, an appraisal is required to be submitted in writing to the governing body. In this case there were two appraisals that are included in this packet and are summarized here:

- Pursuant to an appraisal of the Property (as defined in the DDA) prepared for the City by Hippauf Dry & Connelly with an effective date of valuation as of November 15, 2023, the value of the fee interest in the Property is approximately $11,400,000 exclusive of (i) the cost to construct the public infrastructure, (ii) the value of the community development benefits, and (iii) the contractual obligations and risk of recourse set forth in this Agreement. Pursuant to an appraisal of the Property prepared for QOF by CB Richard Ellis on February 23, 2024, the value of the fee interest in the Property was determined to be approximately $4,800,000, exclusive of (i) the value of the community development benefits, (ii) the contractual obligations and risk of recourse set forth in this Agreement, and (iii) the costs and risk of entitlement.

The State statute also requires that, if a sale price that is less than the appraised value, the governing body shall cause a must have a detailed written explanation of that difference, to be prepared, which written explanation is hereby included in the legislative packet provided in connection with the public hearing for review of the DDA.

In this case, the City issued a competitive Request for Proposals that required proposals for developing the property and offering community benefits, in addition to payment for the Property. The current Purchaser is a successor in interest to the winning Offeror of the RFP and the resulting agreement requires development and community benefits, in addition to $5,000,000. Thus, the payment alone exceeds the value of one appraisal. City staff have also determined that the Agreement's required payments, Property development, and community benefits exceed the higher appraised value of the Property and that the disposition is in the best interests of the City.

Mr. Phillip Gesue

MIDTOWN SANTA FE PRODUCTIONS QOF, LLC
1 Worth St
New York, New York 10013

RE: Appraisal of: Santa Fe College of Arts (portion of)
1600 St Michaels Dr
Santa Fe, Santa Fe County, New Mexico 87505
CBRE, Inc. File No. CB23US105690-1

Dear Mr. Gesue:

At your request and authorization, CBRE, Inc. has prepared an appraisal of the market value of the referenced property. Our analysis is presented in the following Appraisal Report.

The subject consists of a portion of a former college campus, St. Michael's College, with roughly 500,000 square feet in numerous buildings, built from the 1850s through 2005, situated on a 64 acre site. The Santa Fe University of Art and Design vacated the property in 2018.

Since 2020, the City of Santa Fe has initiated large-scale redevelopment plans for the subject property and film studio production began in earnest with most useable buildings leased with annual terms for film productions. In March of 2022, the adjacent 8.6-acre Shellaberger Tennis Center was purchased for $6.7 million by PE Real Estate. In late 2022, the community issued an RFP for redevelopment, and in 2023 the Midtown Santa Fe plan was adopted, including planned uses such as affordable housing, arts, and film on the campus.

In March of 2023, PE Real Estate Holdings, which had previously purchased the Shellaberger property, submitted a proposal for redevelopment and expansion of the subject property as a "Studio Village." This included a purchase offer to the City of Santa Fe for $6,500,000, and included the buildings of Benildus Hall, Driscoll Fitness Center, and Garson Studio Complex, and Alumni Hall Special Events Center.

Subsequent negotiations have resulted in an alteration of the real property to be included. This analysis considers the Benildus Hall Classroom Building, 27,277 square feet, the Driscoll Fitness Center, 22,200 square feet, and the Garson Studio Complex, 49,200 square feet. The Alumni Hall is excluded. We were provided with preliminary site plans showing the land to be included

© 2024 CBRE, Inc.

at roughly 11.83 acres attributed to these three buildings. This is a low land-to-building ratio for the property type, indicating some land potentially available for future expansion or for additional parking. There is an additional building on the site, Onate Hall, which has no contributory value, and will be razed for future development. The parcels are indicated as Lots 4 (Benildus), 9 (Garson Complex), 11 (adjacent to Garson), 10 (Driscoll), 8 (adjacent to Driscoll) and 12 (vacant land) on the Midtown Site Layout provided by Wilson and Company.

There were no tenants or leases in place. For this reason, we have valued the property in Fee Simple Estate, developing an opinion of value based on market sales, as well as our pro forma development of market rent and income. Each of the buildings was inspected by Wilson and Co. engineering firm in January, 2023, with a total of over $5.7 Million in noted deferred maintenance. The engineer also prepared a cost estimate for site work of $2.5 million for bringing all utilities to code, but this included off-site work attributable to the entire campus rather than simply the subject property. For this reason we have estimated an additional $500,000 expense for site and infrastructural work. This figure, with an entrepreneurial incentive of 15%, is applied to the total indicated value upon completion of repairs, in order to determine the value of the property as is.

At the request of our client, the effective date of value is as of November 15, 2023. Based on the analysis contained in the following report, the market value of the subject is concluded as follows:

MARKET VALUE CONCLUSION

Appraisal Premise	Interest Appraised	Date of Value	Value Conclusion
As Is	Fee Simple Estate	November 15, 2023	$4,800,000

Compiled by CBRE

The report, in its entirety, including all assumptions and limiting conditions, is an integral part of, and inseparable from, this letter.

The following appraisal sets forth the most pertinent data gathered, the techniques employed, and the reasoning leading to the opinion of value. The analyses, opinions and conclusions were developed based on, and this report has been prepared in conformance with, the guidelines and recommendations set forth in the Uniform Standards of Professional Appraisal Practice (USPAP), and the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.

The intended use and user of our report are specifically identified in our report as agreed upon in our contract for services and/or reliance language found in the report. As a condition to being granted the status of an intended user, any intended user who has not entered into a written agreement with CBRE in connection with its use of our report agrees to be bound by the terms and conditions of the agreement between CBRE and the client who ordered the report. No other use or user of the report is permitted by any other party for any other purpose. Dissemination of this report by any party to any non-intended users does not extend reliance to any such party, and CBRE will not be responsible for any unauthorized use of or reliance upon the report, its conclusions or contents (or any portion thereof).

© 2024 CBRE, Inc.

It has been a pleasure to assist you in this assignment. If you have any questions concerning the analysis, or if CBRE can be of further service, please contact us.

Respectfully submitted,

Certification

We certify to the best of our knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are our personal, impartial and unbiased professional analyses, opinions, and conclusions.
3. We have no present or prospective interest in or bias with respect to the property that is the subject of this report and have no personal interest in or bias with respect to the parties involved with this assignment.
4. Our engagement in this assignment was not contingent upon developing or reporting predetermined results.
5. Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
6. This appraisal assignment was not based upon a requested minimum valuation, a specific valuation, or the approval of a loan.
7. Our analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice, as well as the requirements of the State of New Mexico.
8. The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
9. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
10. As of the date of this report, Ian R. Valenzuela, MAI has completed the continuing education program for Designated Members of the Appraisal Institute.
11. Ian R. Valenzuela, MAI has made a personal inspection of the property that is the subject of this report.
12. Ian R. Valenzuela, MAI was assisted by Jack Rancier, a licensed trainee, who compiled market research and interviews with market participants, input selected subject and statistical data into the report, and participated in selecting market data for comparison.
13. Valuation & Advisory Services operates as an independent economic entity within CBRE, Inc. Although employees of other CBRE, Inc. divisions may be contacted as a part of our routine market research investigations, absolute client confidentiality and privacy were maintained at all times with regard to this assignment without conflict of interest.
14. Ian Valenzuela, MAI has not provided any services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

Compiled by CBRE

DATE OF REPORT

The report was initially dated February 12, 2024. We were provided with a detailed site layout indicating the parcels and acreage subsequently, and have incorporated that exhibit into the report. The revised date of the report is February 23, 2024.

STRENGTHS, WEAKNESSES, OPPORTUNITIES AND THREATS (SWOT)

Strengths/ Opportunities

- The subject is located in Santa Fe, which is a tourist destination, and the seat of New Mexico State Government.
- The City has committed to redeveloping the immediate area

Weaknesses/ Threats

- Exposure & visibility to the subject are somewhat limited due to the configuration of the improvements on the site
- There is a limited buyer pool for a mixed use facility of this nature
- The valuation analysis indicates that use as an income property is not feasible in the current market.
- Commercial real estate market conditions have deteriorated at the macro level. The significant recent increase in the cost of capital and reduced volume of transaction activity is impacting price discovery and creating an increase in uncertainty. Increasing interest rates and subdued economic growth will continue to weigh on commercial real estate fundamentals and investment transaction volumes. This creates a higher degree of uncertainty in general, though the impacts may vary by market and asset class/type.

MARKET VOLATILITY

We draw your attention to a combination of inflationary pressures (leading to higher interest rates) and recent failures/stress in banking systems which have significantly increased the

© 2024 CBRE, Inc.

potential for constrained credit markets, negative capital value movements and enhanced volatility in property markets over the short-to-medium term.

Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect this heightened level of volatility and the potential for deteriorating market conditions.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

CURRENT ECONOMIC CONDITIONS

At its January 2024 meeting, the Federal Reserve held the federal funds rate at a range of 5.25% to 5.50% and indicated it will continue reducing its balance sheet by $95 billion per month. The Fed removed language from its policy statement about further tightening but stated it needs more confidence inflation "is moving sustainably toward 2.00%" before considering cuts. Rising real interest rates will be a headwind for the economy in coming quarters; however, CBRE expects the U.S. economy will remain resilient with growth averaging 1.6% for the year.

While opinions vary on future economic issues, the general market consensus at the time of this appraisal is the anticipation of moderating inflation as higher interest rates cool demand. Tighter lending conditions and a weakening economy will keep capital markets activity subdued and reduce leasing demand in the short to medium term. Amid this uncertain and dynamic environment, investment market performance will be uneven across property types.

EXTRAORDINARY ASSUMPTIONS

An extraordinary assumption is defined as "an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions." [1]

- The value includes an estimate of deferred maintenance provided by an engineering firm in January, 2023. We assume the condition of the property remains similar to that time and that the estimate of the budgeted repairs still remains reasonable.
- The use of these extraordinary assumptions may have affected the assignment results.

HYPOTHETICAL CONDITIONS

A hypothetical condition is defined as "a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purposes of analysis." [2]

EXPOSURE/MARKETING TIME

Current appraisal guidelines require an estimate of a reasonable time period in which the subject could be brought to market and sold. This reasonable time frame can either be examined historically or prospectively. In a historical analysis, this is referred to as exposure time. Exposure time always precedes the date of value, with the underlying premise being the time a property would have been on the market prior to the date of value, such that it would sell at its appraised value as of the date of value. On a prospective basis, the term marketing time is most often used. The exposure/marketing time is a function of price, time, and use. It is not an isolated estimate of time alone. In consideration of these factors, we have analyzed the following:

- exposure periods for comparable sales used in this appraisal;
- exposure/marketing time information from the CBRE, Inc. National Investor Survey and the PwC Real Estate Investor Survey; and
- the opinions of market participants.

The following table presents the information derived from these sources.

© 2024 CBRE, Inc.

EXPOSURE/MARKETING TIME DATA

Investment Type	Exposure/Mktg. (Months) Range	Average
Comparable Sales Data	4.0 - 11.0	7.0

Scope of Work

This Appraisal Report is intended to comply with the real property appraisal development and reporting requirements set forth under Standards Rule 1 and 2 of USPAP. The scope of the assignment relates to the extent and manner in which research is conducted, data is gathered, and analysis is applied.

INTENDED USE OF REPORT

This appraisal is to be used for buy/sell/exchange and no other use is permitted.

CLIENT

The client is Midtown Santa Fe Productions QOF, LLC.

INTENDED USER OF REPORT

This appraisal is to be used by Midtown Santa Fe Productions QOF, LLC. No other user(s) may rely on our report unless as specifically indicated in this report.

> Intended users are those who an appraiser intends will use the appraisal or review report. In other words, appraisers acknowledge at the outset of the assignment that they are developing their expert opinions for the use of the intended users they identify. Although the client provides information about the parties who may be intended users, ultimately it is the appraiser who decides who they are. This is an important point to be clear about: The client does not tell the appraiser who the intended users will be. Rather, the client tells the appraiser who the client needs the report to be speaking to, and given that information, the appraiser identifies the intended user or users. It is important to identify intended users because an appraiser's primary responsibility regarding the use of the report's opinions and conclusions is to those users. Intended users are those parties to whom an appraiser is responsible for communicating the findings in a clear and understandable manner. They are the audience. [3]

RELIANCE LANGUAGE

Reliance on any reports produced by CBRE under this Agreement is extended solely to parties and entities expressly acknowledged in a signed writing by CBRE as Intended Users of the respective reports, provided that any conditions to such acknowledgement required by CBRE or hereunder have been satisfied. Parties or entities other than Intended Users who obtain a copy of the report or any portion thereof (including Client if it is not named as an Intended User), whether as a result of its direct dissemination or by any other means, may not rely upon any opinions or conclusions contained in the report or such portions thereof, and CBRE will not be responsible for

[3] Appraisal Institute, The Appraisal of Real Estate, 15th ed. (Chicago: Appraisal Institute, 2020), 40.

© 2024 CBRE, Inc.

any unpermitted use of the report, its conclusions or contents or have any liability in connection therewith.

PURPOSE OF THE APPRAISAL

The purpose of this appraisal is to develop an opinion of the market value of the subject property.

DEFINITION OF VALUE

The current economic definition of market value agreed upon by agencies that regulate federal financial institutions in the U.S. (and used herein) is as follows:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. [4]

INTEREST APPRAISED

The value estimated represents the Fee Simple Estate as defined below:

> *Fee Simple Estate* - Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat. [5]
>
> *Leased Fee Interest* - The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires. [6]
>
> *Leasehold Estate* - The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease. [7]
>
> *Going Concern* – An established and operating business having an indefinite future life. [8]

Extent to Which the Property is Identified

The property is identified through the following sources:

postal address
assessor's records
legal description

Extent to Which the Property is Inspected

Ian Valenzuela inspected the interior and exterior of the subject, as well as its surrounding environs on the effective date of appraisal. This inspection was considered adequate and is the basis for our findings.

Type and Extent of the Data Researched

CBRE reviewed the following:

applicable tax data
zoning requirements
flood zone status
demographics
income and expense data
comparable data

Type and Extent of Analysis Applied

CBRE, Inc. analyzed the data gathered through the use of appropriate and accepted appraisal methodology to arrive at a probable value indication via each applicable approach to value. The steps required to complete each approach are discussed in the methodology section.

STATEMENT OF COMPETENCY

The appraisers have the appropriate knowledge, education and experience to complete this assignment competently.

APPRAISAL METHODOLOGY

In appraisal practice, an approach to value is included or omitted based on its applicability to the property type being valued and the quality and quantity of information available.

Cost Approach

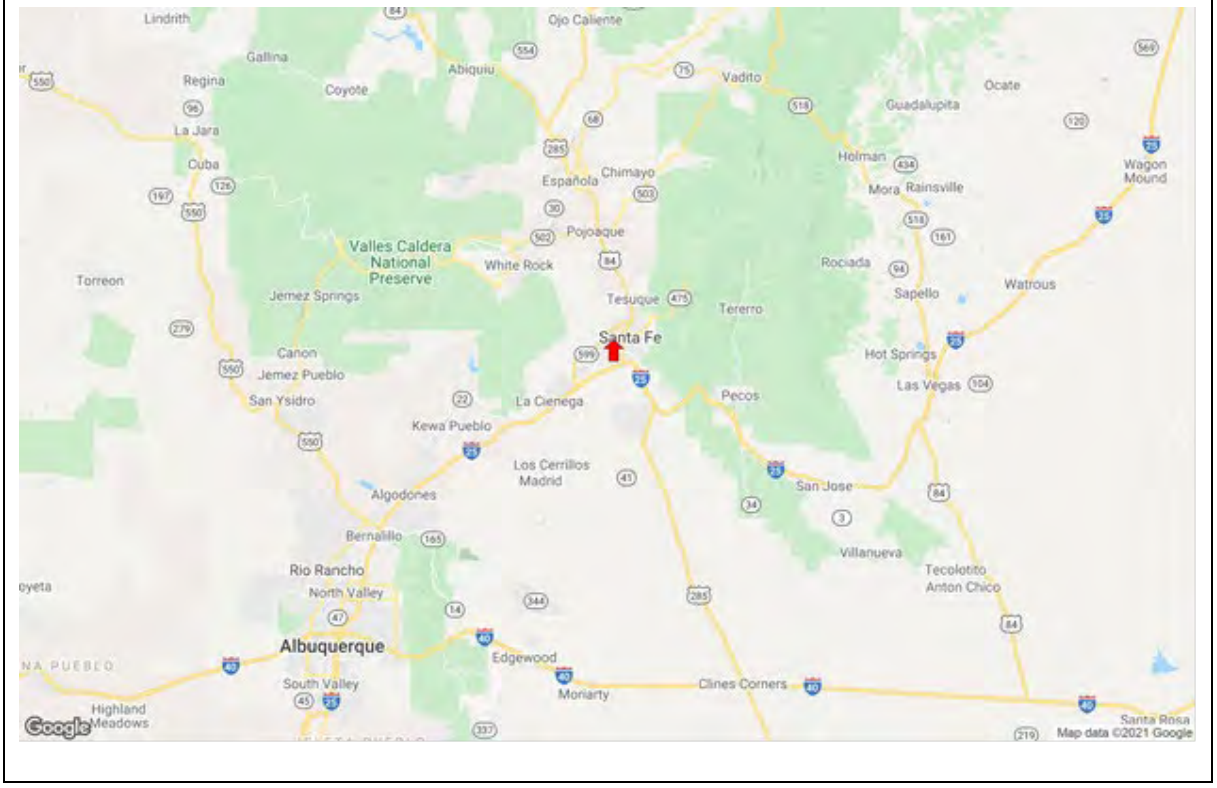
The cost approach is based on the proposition that the informed purchaser would pay no more for the subject than the cost to produce a substitute property with equivalent utility. This approach is particularly applicable when the property being appraised involves relatively new improvements that represent the highest and best use of the land, or when it is improved with relatively unique or specialized improvements for which there exist few sales or leases of comparable properties.

Sales Comparison Approach

The sales comparison approach utilizes sales of comparable properties, adjusted for differences, to indicate a value for the subject. Valuation is typically accomplished using physical units of comparison such as price per square foot, price per unit, price per floor, etc., or economic units of comparison such as gross rent multiplier. Adjustments are applied to the physical units of comparison derived from the comparable sale. The unit of comparison chosen for the subject is then used to yield a total value.

Income Capitalization Approach

The income capitalization approach reflects the subject's income-producing capabilities. This approach is based on the assumption that value is created by the expectation of benefits to be derived in the future. Specifically estimated is the amount an investor would be willing to pay to receive an income stream plus reversion value from a property over a period of time. The two common valuation techniques associated with the income capitalization approach are direct capitalization and the discounted cash flow (DCF) analysis.

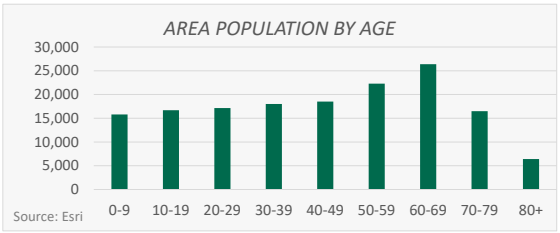


© 2024 CBRE, Inc.

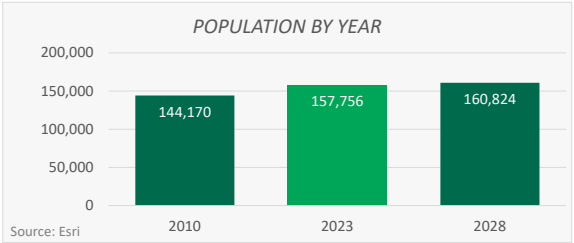
Methodology Applicable to the Subject

In valuing the subject, only the sales comparison and income capitalization approaches are applicable and have been used. The cost approach is not applicable in the estimation of market value, as market participants tend not to rely on this approach for market decisions. The exclusion of said approach(s) is not considered to compromise the credibility of the results rendered herein.

© 2024 CBRE, Inc.



Area Analysis

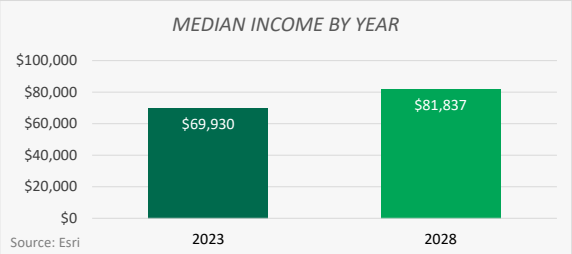


The subject is located in the Santa Fe, NM Metropolitan Statistical Area. Key information about the area is provided in the following tables.

POPULATION

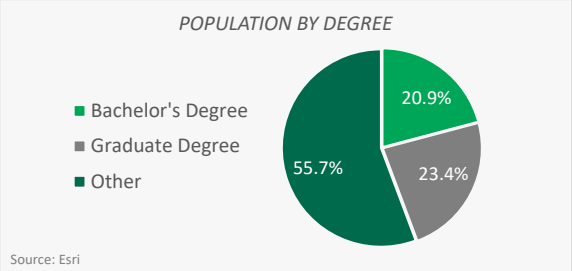
The area has a population of 157,756 and a median age of 46, with the largest population group in the 60-69 age range and the smallest population in 80+ age range.

Population has increased by 13,586 since 2010, reflecting an annual increase of 0.7%. Population is projected to increase by 3,068 between 2023 and 2028, reflecting a 0.4% annual population growth.



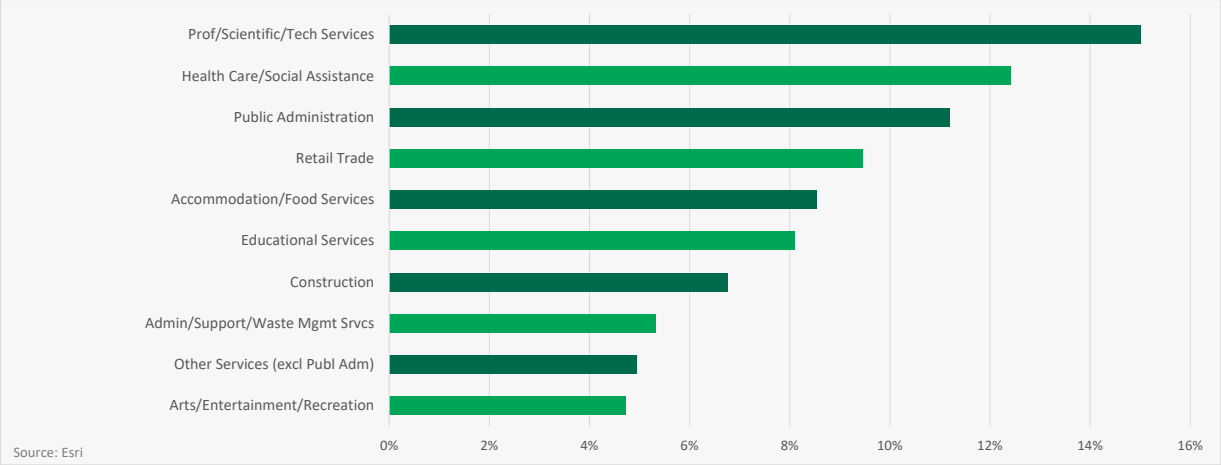
Source: ESRI, downloaded on Jan, 31 2024

© 2024 CBRE, Inc.



INCOME

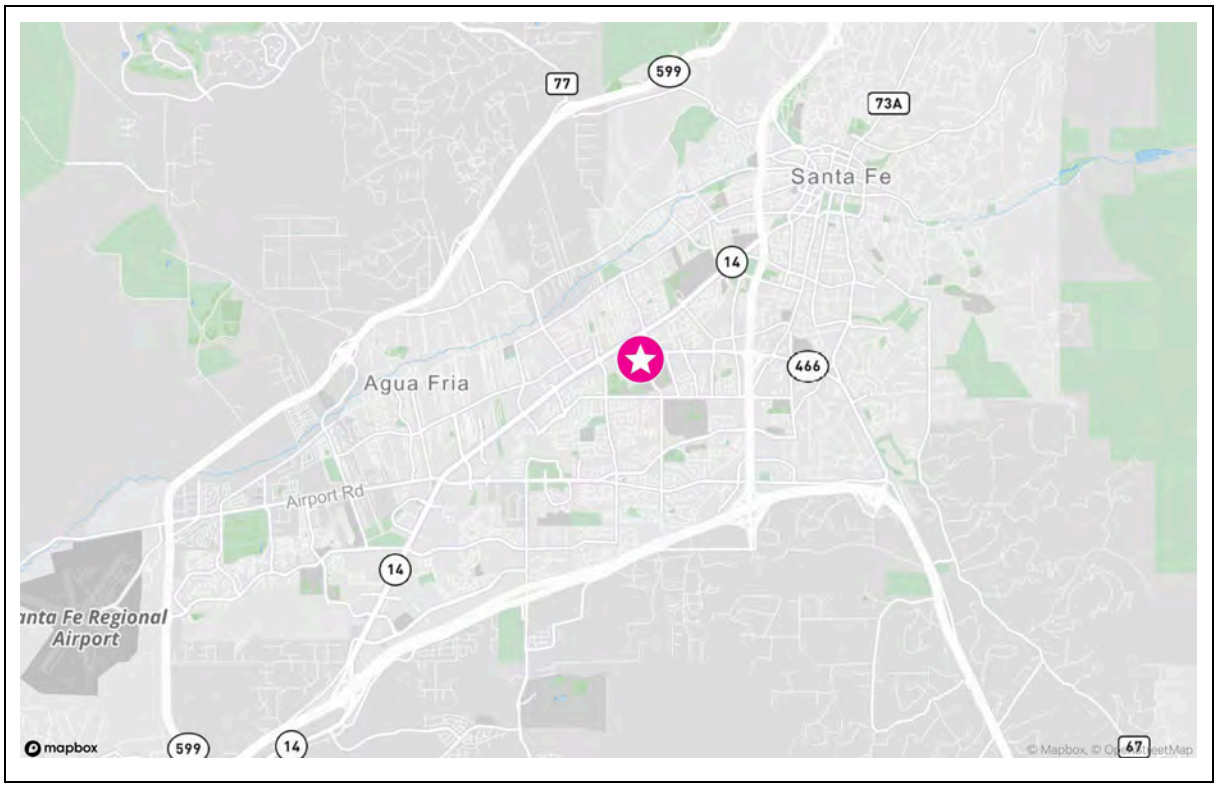
The area features an average household income of $108,696 and a median household income of $69,930. Over the next five years, median household income is expected to increase by 17.0%, or $2,381 per annum.



EDUCATION

A total of 44.3% of individuals over the age of 24 have a college degree, with 20.9% holding a bachelor's degree and 23.4% holding a graduate degree.

EMPLOYMENT



The area includes a total of 72,108 employees. The top three industries within the area are Prof/Scientific/Tech Services, Health Care/Social Assistance and Public Administration, which represent a combined total of 39% of the workforce.

Source: ESRI, downloaded on Jan 31, 2024; BLS.gov dated Jan 0, 1900

In summary, the area is forecasted to experience an increase in population and an increase in household income.

© 2024 CBRE, Inc.

Neighborhood Analysis

LOCATION

The subject is located in the city of Santa Fe and is considered a suburban location. The city of Santa Fe is situated in central Santa Fe County. The subject property is approximately three miles southwest of Downtown Santa Fe.

BOUNDARIES

The neighborhood boundaries are detailed as follows:

North:	Paseo de Peralta
South:	I-25
East:	Santa Fe Foothills
West:	Cerrillos Road

LAND USE

Land uses immediately surrounding the subject property are primarily retail along the Cerrillos Road corridor with some multi-family development and vacant commercial land in the interior. The Saint Francis Corridor has a concentration of office use, including New Mexico state offices and Santa Fe County and Municipal offices, while Cerrillos Road is the main business arterial for the city.

© 2024 CBRE, Inc.

GROWTH PATTERNS

The neighborhood is in the growth stage of the neighborhood life-cycle. Commercial development has occurred along primary commercial thoroughfares such as Airport Road and Cerrillos Road. The major retail development in the area is located at the edge of the neighborhood on the east side of Cerrillos Road. This area includes a regional mall, Santa Fe Place and a Power Center containing a Best Buy, Target, Albertson's and other retailers.

Recent commercial development has been ongoing within the neighborhood. A new Super-Walmart was completed in mid-2011 on Cerrillos Road just north of Interstate Highway 25. This has drawn new development to the surrounding area and several small commercial developments have already been built on pad sites around Walmart, as well as a new auto dealership just north for Honda and Subaru.

The Railyard

The most recent development in the area is focused on The Railyard, a master planned area north of the intersection of St. Francis Drive and Cerrillos Road. The Railyard Master Plan, adopted in 2002, designated the area for redevelopment of road and utilities infrastructure to support a large park and complementary urban neighborhood improvements, including retail for both local and tourist service, office, gallery, and residential use near the downtown plaza.

ACCESS

Access to and from the subject's neighborhood is considered good by way of state highways that connect with I-25. Major highways serving Santa Fe include I- 25, U.S. Highways 84 (St. Francis Drive), 85, 285 and 64; and State Routes 14 (Cerrillos Road) and 599 (Veterans Memorial Highway). The City of Albuquerque is situated 60 miles to the southwest of Santa Fe along I-25, which is the only north/south interstate highway in the State. The primary north/south roads in the subject neighborhood are US Highway 84, locally named St. Francis Drive, and SR-14, or Cerrillos Road, which is known to some in the area as Turquoise Trail. The subject property is located at the intersection of Cerrillos Road and St. Michel's Drive, ½ mile east of St. Francis Drive. Interstate 25 is accessed 2 miles southeast of the subject via St. Francis Drive, or four miles southwest of the subject via Cerrillos Road.

The Santa Fe Municipal Airport, founded in 1941, is situated on approximately 2,110 acres of land on the southwest side of Santa Fe, New Mexico, 9 miles southwest of Downtown Santa Fe. The airport is classified by the Federal Aviation Administration (FAA) as a non-hub, Part 139, class 3 airport. This classification means that the airport cannot handle commercial airline aircraft with more than 30 passenger seats. American Airlines is currently operating daily flights out of Santa Fe to and from Dallas-Fort Worth (DFW) and Phoenix (PHX) while United Airlines is operating daily flights to and from Denver (DIA). The airport is served by three active runways.

Source: ESRI

CONCLUSION

Santa Fe continues to grow south and west and the city center is shifting south and west as well. The old city center was downtown Santa Fe near Cerrillos Road and St. Francis Drive, and continues to function as a locus of government office use. However, this central core is mostly fully built out, and considered essentially stabilized, as evidenced by the slight decrease in projected population and household numbers within a one mile radius of the subject. The subject is well located in an area near Downtown, on a high traffic arterial road in the neighborhood and is anticipated to have good acceptance in the market.

Various sources compiled by CBRE

SITE SIZE

The entire campus measures 64.22 acres. The initial RFP included Alumni Hall and additional land, and was calculated at 17.26 acres. For the site size of the current proposed acquisition, we

© 2024 CBRE, Inc.

have been provided with calculations of portions outlined on the proposed site plan, estimated at 11.83 acres.

INGRESS/EGRESS

Ingress and egress is available to the site via one road along the southwestern right-of-way of St. Michael's Road and one road along the northern right-of-way of Siringo Road. Interior campus roads provide access to each building and site.

St. Michael's Road, at the subject, is a northwest/southeast arterial street that is improved with three marked lanes of traffic in each direction. Street improvements include center of median with turning lanes, asphalt paving and concrete curbs, gutters and sidewalks, and street lighting. Street parking is not permitted.

Siringo Road, at the subject is an east/west business street. It is improved with one marked lane of traffic in each direction. Additional street improvements include center turning lane, concrete curbs, gutters and sidewalks, and street lighting. Street parking is not permitted.

ENVIRONMENTAL ISSUES

An Environmental Site Assessment was provided and has been summarized below:

© 2024 CBRE, Inc.

ENVIRONMENTAL SITE ASSESSMENT SUMMARY	
Performed by:	Western Technologies
Performed for:	City of Santa Fe
Report Type:	Phase II
Report Date:	September 1, 2023
Status:	Final
Findings:	REC included: • Adjacent property chlorinated solvent groundwater contamination. • Vehicle maintenance stains visible, requiring Phase 2 soil samplings. • Existing Aboveground Storage Tanks (AST) in use with no apparent spills/stains. • Former Underground Storage Tanks (UST) removed with no apparent spills/stains. • Backfill with demolition debris, requiring a Phase 2 ESA, which identified Asbestos-Containing Materials (ACM)
Results:	According to Tim Farrell, a Property Development Manager for the City of Santa Fe, these RECs were addressed by Western Technologies who completed a Phase 2 ESA Report where soil samples (borings) and analysis were conducted. The results of those procedures were negative of any environmental impact.
Compiled by CBRE	

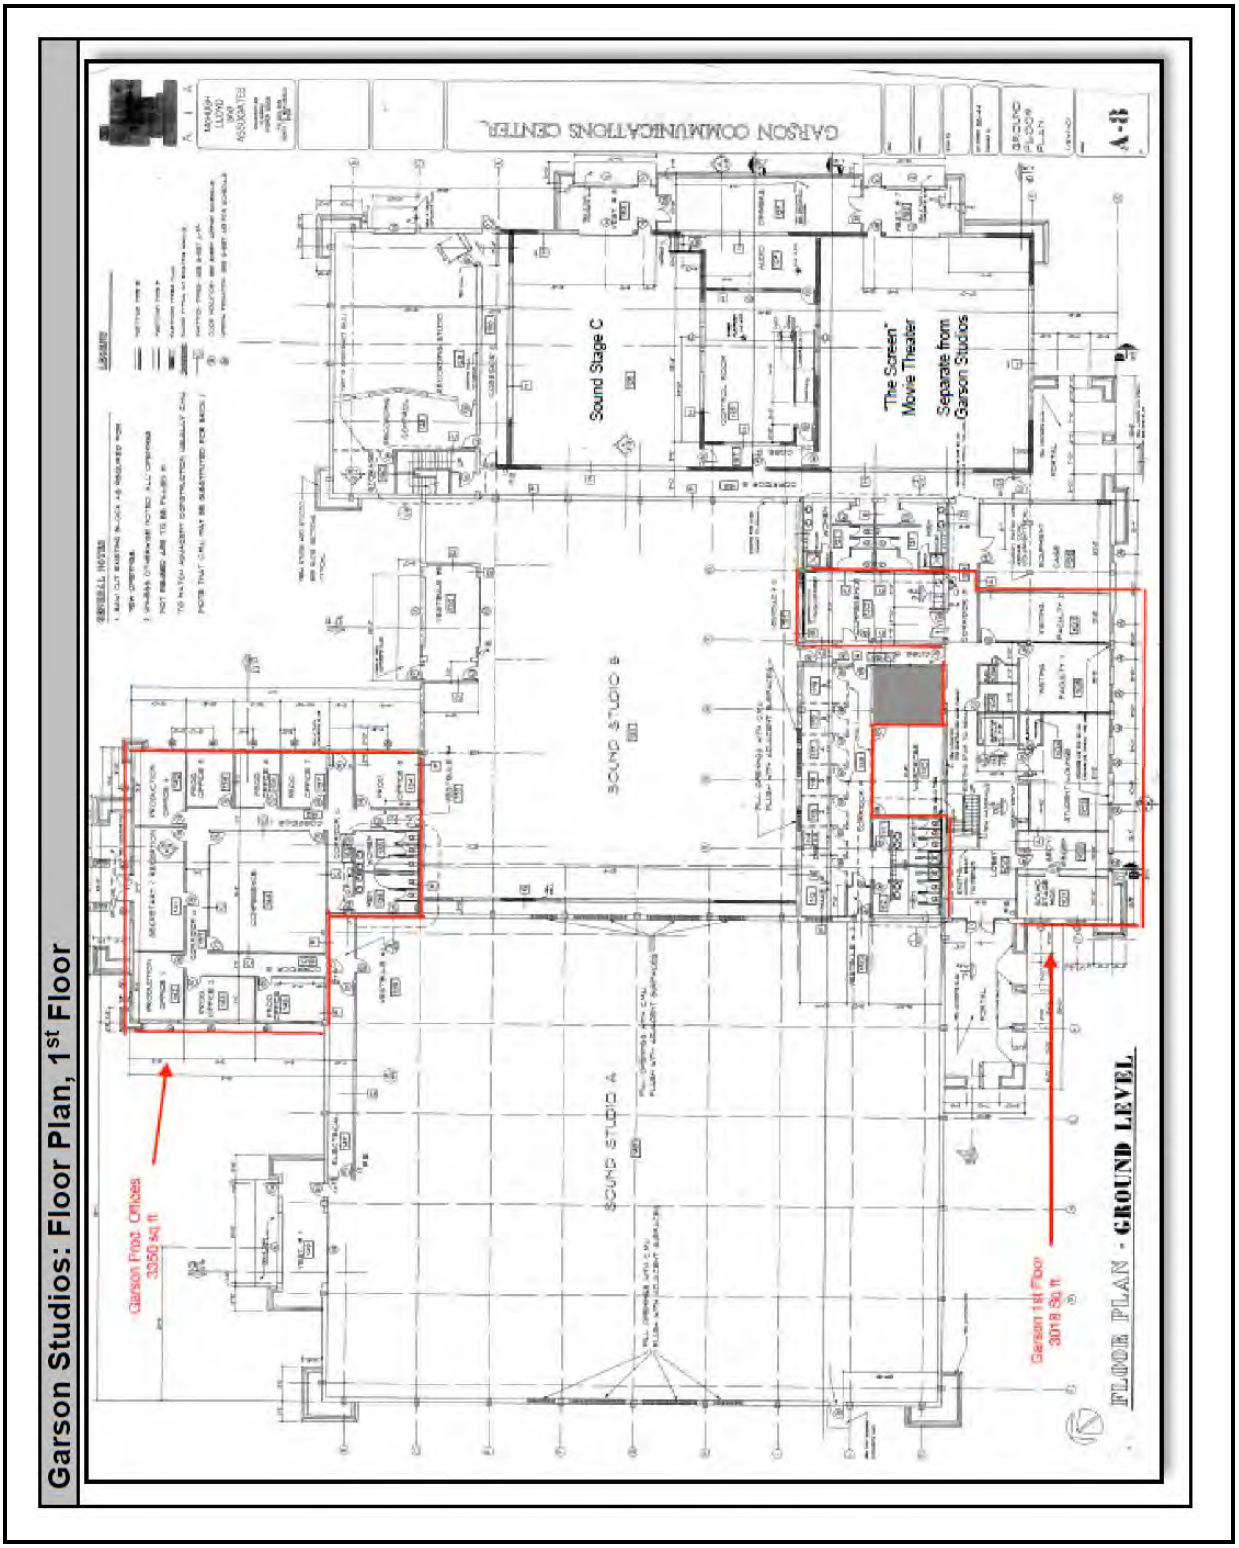
The appraiser is not qualified to detect the existence of potentially hazardous material or underground storage tanks which may be present on or near the site. The existence of hazardous materials or underground storage tanks may affect the value of the property. For this appraisal, CBRE, Inc. has specifically assumed that the property is not affected by any hazardous materials that may be present on or near the property.

ADJACENT PROPERTIES

The adjacent land uses are summarized as follows:

North: Retail
South: Residential
East: Retail and Residential
West: Institutional

CONCLUSION



The site is adequately located and afforded adequate access and visibility from roadway frontage. The size of the site is typical for the area and use, and there are no known detrimental uses in the immediate vicinity. The subject has access to a major arterial and a business street which affords excellent visibility and access. Overall, there are no known factors which are

© 2024 CBRE, Inc.

considered to prevent the site from development to its highest and best use, as if vacant, or adverse to the existing use of the site.

BUILDING DESCRIPTIONS

Garson Studios is 49,200 square feet, built in 1991, consisting of offices, a theater, and production sound stages of 14,000 square feet, 7,500 square feet, and 2,100 square feet. It has some deferred maintenance (see below) and is in average condition with some updating of interior finishes. The offices are in use as support for film production.

Driscoll Fitness Center is 22,200 square feet, built in 1993, and was used as an athletic complex, including dance studios, fitness center, locker rooms, and a large gymnasium. The gym has been converted into an industrial shop, with removal of the gym floor and athletic fixtures. There were initial plans to convert this space into a production studio, but subsequent engineering reports indicate this may not be feasible as the building cannot support the necessary infrastructure, so its likely use is for construction and maintenance support.

Benildus Hall is 27,757 square feet, constructed as a classroom and educational office. It was built in 1963, with an addition in 2005. There are some classrooms of varying sizes, and offices throughout, including recording and sound studio use. The interior finish has been remodeled, likely around the time of the addition in 2005.

PARKING AND DRIVES

All parking spaces and vehicle drives are concrete paved and considered to be in average condition. Patron parking areas are along the front and sides of the building. Benildus lacks adequate parking, and the developer has proposed that the City will provide 50 spaces at a market rental rate.

LANDSCAPING

Landscaping is considered to be in average condition, but has not been maintained for several years.

FUNCTIONAL UTILITY

The overall layout of the property is considered functional in utility for scholastic use, and will require reconfiguration for office or film use.

ADA COMPLIANCE

All common areas of the property appear to have handicap accessibility. The client/reader's attention is directed to the specific limiting conditions regarding ADA compliance.

FURNITURE, FIXTURES AND EQUIPMENT

Any personal property items contained in the property are not included in this analysis.

© 2024 CBRE, Inc.

ENVIRONMENTAL ISSUES

The appraiser is not qualified to detect the existence of potentially hazardous material or underground storage tanks which may be present on or near the site. The existence of hazardous materials or underground storage tanks may affect the value of the property. For this appraisal, CBRE, Inc. has specifically assumed that the property is not affected by any hazardous materials that may be present on or near the property.

CONDITION ANALYSIS

Facility assessment reports were prepared for each building. Significant items of deferred maintenance were identified, including renovations and alterations for ADA compliance, upgrading electrical, fire suppression systems, and HVAC to code, and general repairs to roofs, ceilings, floor coverings, plumbing and electrical systems and fixtures. Portions of the reports are included in the addenda.

DEFERRED MAINTENANCE

The following chart shows the deferred maintenance items identified and their respective estimated costs to cure, based upon all available information, as of the relevant dates.

ANALYSIS OF DEFERRED MAINTENANCE	
Benildus Hall	$1,759,269
Driscoll Fitness Center	$1,284,847
Garson Studios	$2,696,459
Site and Infrastructure	$500,000
Subtotal	$6,240,575
Plus: Profit @ 15%	$936,086
Total Deferred Maintenance:	$7,176,661
Source: Wilson & Co. Facility Assessments Jan. 2023	

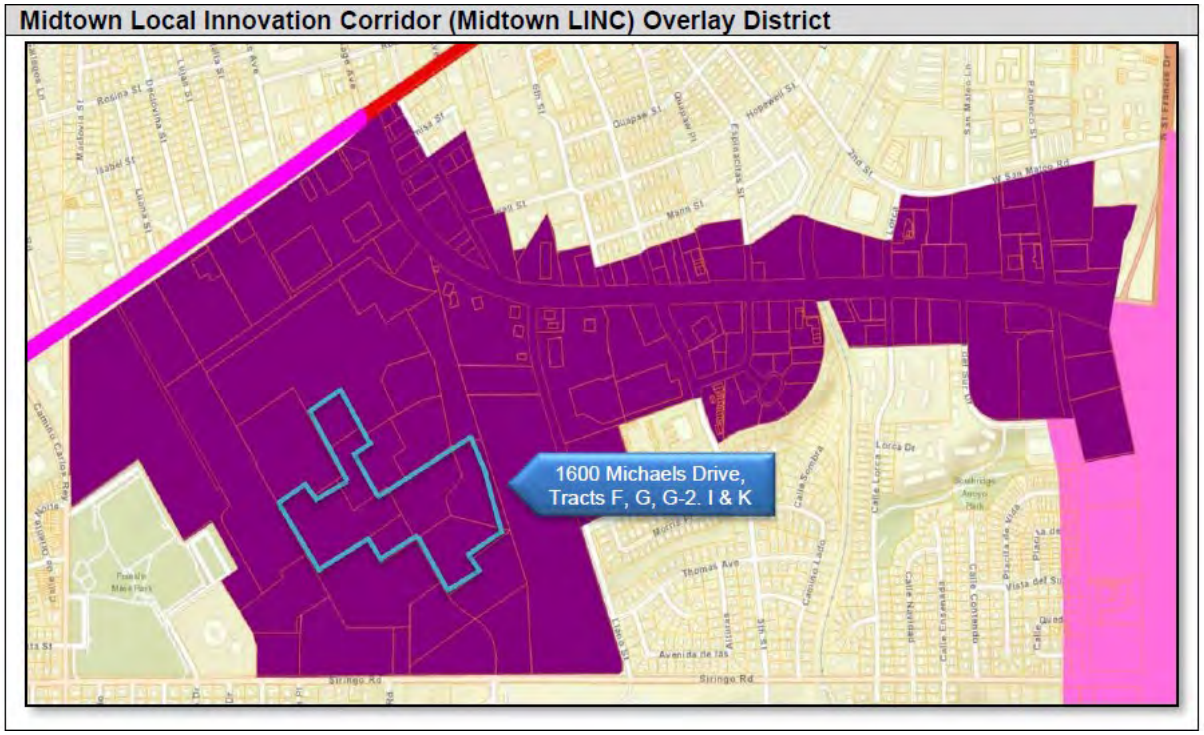
The total deferred maintenance estimate will be deducted from each approach in order to conclude the "as is" value for the subject.

ECONOMIC AGE AND LIFE

CBRE, Inc.'s estimate of the subject improvements effective age and remaining economic life is depicted in the following chart:

ECONOMIC AGE AND LIFE	
Actual Age	56 Years
Effective Age	25 Years
MVS Expected Life	50 Years
Remaining Economic Life	25 Years
Accrued Physical Incurable Depreciation	50.0%
Compiled by CBRE	

© 2024 CBRE, Inc.



The remaining economic life is based upon our on-site observations and a comparative analysis of typical life expectancies as published by Marshall and Swift, LLC, in the Marshall Valuation Service cost guide. While CBRE, Inc. did not observe anything to suggest a different economic life, a capital improvement program could extend the life expectancy.

CONCLUSION

The improvements are in average overall condition. With completion of the repairs identified in the facility conditions reports, there are no known factors that adversely impact the marketability of the improvements.

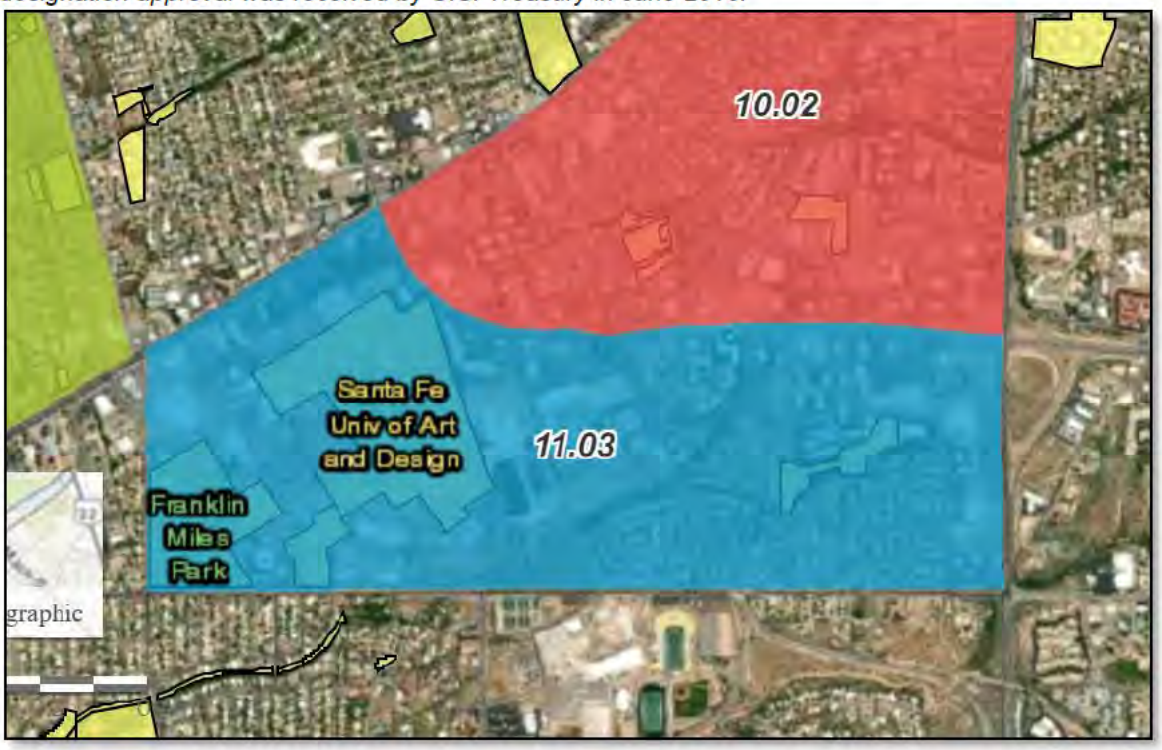
ZONING MAP

© 2024 CBRE, Inc.



ZONING MAP

Opportunity Zone: Census Tract 11:03 Midtown Campus Area

Additional: Opportunity Zone-Census Tract 11.03: Midtown Campus Area

Federal Opportunity Zones (QOZ's) are a new community development program established by Congress in the Tax Cuts and Jobs Act of 2017 to encourage long-term investments in low-income urban and rural communities nationwide. The QOZ program provides a tax incentive for investors to re-invest their unrealized capital gains into Opportunity Funds (QOF's) that are dedicated to investing into QOZ's designated by the chief executives of every U.S. state and territory.

Governor Martinez approved the subject census tract for designation to the US Treasury. Finally, designation approval was received by U.S. Treasury in June 2018.

Zoning

The following chart summarizes the subject's zoning requirements.

ZONING SUMMARY	
Current Zoning	Midtown LINC Overlay District
Legally Conforming	Yes
Uses Permitted	This district was developed to strengthen and animate the existing environment of the geographic center of the city. Especially the Santa Fe University of Art and Design and the Christus St. Vincent Regional Medical Center. This district incentivizes multi-family residential development and non-residential use, as well as improves and encourages pedestrian traffic. This district also provides more flexibility in sign design and location to encourage communications and business identification for existing buildings who have previously suffered from poor visibility
Zoning Change	Not likely
Category	**Zoning Requirement**
Maximum Height	62 Feet
Minimum Setbacks	
Front Yard	5 Feet
Street Side Yard	5 Feet
Interior Side Yard	5 Feet
Rear Yard	5 Feet
Maximum Bldg. Coverage	None
Maximum FAR/Density	None
Subject's Actual FAR	None
Parking Requirements	None
Subject's Actual Parking	3.49 spaces / 1000 SF
Source: Planning & Zoning Dept.	

ANALYSIS AND CONCLUSION

Although the subject property has operated as an educational and film production property, it has been zoned R-5 Residential. More recently, through a City of Santa Fe Resolution 2018-54 and 2022-12, the property is in the formal process of being rezoned to C-2, which will be the base zoning considered in this report. In addition to this base zoning the subject is located within the Midtown Local Innovation Corridor (Midtown LINC) Overlay District and the Opportunity Zone: Census Tract 11:03 Midtown Campus Area.

The City of Santa Fe's proposed Midtown Master Plan (the Midtown Land Development Plan), dated November 21, 2022, provided new development standards for the subject property in Chapter 5. The development standards are comprised of subzone (controls use) and façade (controls building masing and design) standards. The sub-zones support the objectives of the

© 2024 CBRE, Inc.

aforementioned Census Tract 11:03 Midtown Campus Area Opportunity Zone and Midtown LINC Overlay District, as well as Resolution No. 2022-12, which rezones the subject to a C-2 General Commercial District to allow for commercial, retail and residential uses. The subject is contained within the mixed-use film zone, for film production activities focused in the Garson Studios. It is presumed that adaptation of the property buildings will conform with this general designation, and that future improvements will conform to requirements of the zoning districts, master plan, and overlays.

It is beyond the scope of this analysis to determine the precise zoning designation and future use for each building and site in this analysis. The current improvements are believed to represent a legally-conforming use as of the effective date of the appraisal. Additional information may be obtained from the appropriate governmental authority. For purposes of this appraisal, CBRE has assumed the information obtained is correct.

© 2024 CBRE, Inc.

Tax and Assessment Data

The property has historically been owned by the City of Santa Fe and has been exempt from taxation. There are no truly comparable privately owned tax parcels in the jurisdiction to our knowledge. We have considered expense comparables in the income approach, and estimated a likely assessed value from our value conclusions. Our pro forma estimate of the assessed values and tax obligation is shown below.

AD VALOREM TAX INFORMATION

Parcel	Assessor's Parcel No.	Pro Forma
1	1052097137176000000	
	Subtotal	$10,000,000
	% of Assessed Value	33%
	Final Assessed Value	$3,333,000
	General Tax Rate (per $1,000 A.V.)	47.500000
	General Tax:	$158,318
	Effective Tax Rate (per $1,000 A.V.)	47.500000
	Total Taxes	**$158,318**
	Taxes per SF	$1.60

Source: Assessor's Office

CONCLUSION

Based on the foregoing information, the subject's current assessment is well supported by both its historical trend and by the comparable properties shown.

Based on the foregoing, the total taxes for the subject have been estimated as $158,318 for the base year of our analysis, based upon an assessed value of $3,333,000 or $33.78 per square foot.

For purposes of this analysis, CBRE, Inc. assumes that all taxes are current.

© 2024 CBRE, Inc.

Market Analysis

The market analysis forms a basis for assessing market area boundaries, supply and demand factors, and indications of financial feasibility. Primary data sources utilized for this analysis include IBISWorld and CoStar.

The subject is in the Santa Fe market and is considered a studio property, its main components are primarily functional as office. We have included portions of the IBISWorld Film Production Industry Report, and analysis of the local Santa Fe office market.

MOVIE AND VIDEO PRODUCTION IN THE UNITED STATES

The Movie and Video Production industry has grappled with stark declines over the past five years as the COVID-19 pandemic rattled movie production. Producers have benefited from steady demand for entertainment but have been hindered by the expansion of online streaming options. Since overall box office sales have fallen, the industry's business model has shifted to prioritize blockbusters and rely on foreign distribution. Digital distribution is also a growing revenue stream despite digital streaming being a source of competition. Overall, revenue for the Movie and Video Production industry has fallen at a CAGR of 3.4% to $31.6 billion through the end of 2023, with revenue rising 1.2% in 2023 as the industry recovers.

Slow box office receipts have made the industry more risk-averse in recent years. Producers have relied more on blockbusters, especially those based on existing creative properties. Studios are placing bigger bets on action movies, which fare best with both domestic and foreign moviegoers. The focus on blockbusters has kept profit high despite troubles. Still, this business strategy will make studios more vulnerable to profit losses in the future, given the fast-changing nature of consumer tastes. Major studios are catching on to the rapidly expanding digital distribution channel, with many investing in their own streaming platforms. More recently, widespread strikes have impeded production.

Over the next five years, movie and video producers will find growth opportunities in digital distribution and television licensing. Studios will focus more on original content and creating their own distribution channels. The box office will grow sluggishly as online streaming platforms continue to draw consumers away from theaters. Major studios will compete more fiercely by using new production technologies and advertising to younger consumers. Video producers will also find opportunities in social media and digital streaming platforms. Revenue is expected to rise at a CAGR of 3.5% through the end of 2028 to reach $37.5 billion.

© 2024 CBRE, Inc.

AT A GLANCE

Revenue **$31.6bn** '18-'23 ↓ 3.4 % '23-'28 ↑ 3.5 %	Employees **92,651** '18-'23 ↑ 1.8 % '23-'28 ↑ 3.5 %	Businesses **49,321** '18-'23 ↑ 6.8 % '23-'28 ↑ 5.6 %
Profit **$3.4bn** '18-'23 ↓ 6.7 %	Profit Margin **10.8%** '18-'23 ↓ 2.1 pp	Wages **$6.7bn** '18-'23 ↑ 0.9 % '23-'28 ↑ 3.5 %

Key Takeaways

Performance

Major movie producers lean on box office blockbusters to generate low-risk sales. Theater attendance is steadily declining as video streaming options expand.

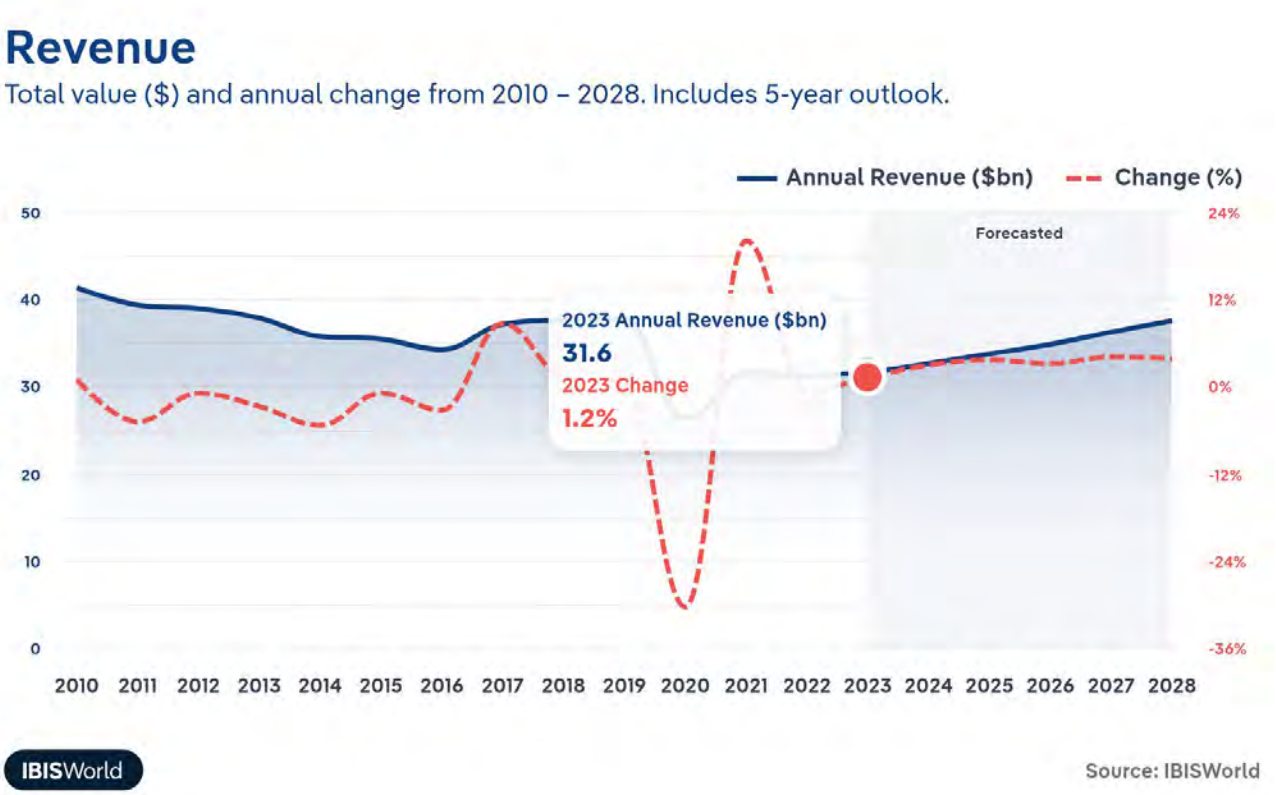
Online streaming encroaches on box office sales but provides a new revenue channel for producers. Digital distribution is quickly growing as a share of movie and video production revenue.

Video producers are finding new opportunities through social media and digital streaming platforms. Platforms like Twitch and YouTube are investing in professional video producers to create content.

SAG-AFTRA and major producers have settled a contract after a months-long strike. While the strike has been resolved, the repercussions of the long hiatus have been immense on the industry.

External Environment

Unions up the cost of labor for movie producers. Producers are bound by the wages unions negotiate for media professionals and may contend with strikes and production disruptions when fair wages aren't met.



Copyright laws protect key revenue channels for movie producers by preventing the unlawful distribution of content. Movie producers are also held accountable by copyright laws, ensuring they have the proper authorization to use copyrighted material in their works.

PERFORMANCE SNAPSHOT

WHAT'S DRIVING CURRENT INDUSTRY PERFORMANCE?

Producers turn to risk-averse blockbusters

- Sluggish box office sales have made film studios more risk-averse, a trend that's been gradually unfolding over the past decade. This stems in part from other technologies competing for audiences' time.
- Franchises and sequels represent tested concepts with more assured box office success that can subsidize studios' riskier bets on new creative enterprises. Betting on intellectual property has become more reliable than building projects around star power.

© 2024 CBRE, Inc.

- Film studios have become more reliant on the success of sequels, franchises and intellectual property based films, as they also have high returns on interest. This limitation has contributed to the Movie and Film Production Industry's overall decline.

COVID-19 rattles filmmaking

- The COVID-19 pandemic was the driving force behind the industry's poor performance through the end of 2023, as most domestic movie theaters closed in March 2020.
- Many studio blockbusters postponed their releases to 2021, and changes in release dates created a domino effect for other releases, compounding the adverse effects of the pandemic.
- Although box office sales declined, stay-at-home orders and theater closures helped boost sales from digital distribution and licensing. While demand was high during the COVID-19 pandemic, many Movie and Video production companies had to pause production, driving down industry revenue.

Studios leverage digital platforms to generate revenue

- The increasing accessibility of video content online has diminished the incentive to spend on a movie theater experience, producing a consumer shift in favor of at-home entertainment.
- Major studios used COVID-19 disruptions to leverage revenue from and expand their digital platforms. These methods helped prevent further declines despite tumbling box office sales.
- Warner Bros. Studios began a monthly release of its theatrical slate after disastrous box office results for its summer 2020 blockbuster, Tenet.
- The industry's transition to digital streaming platforms is one of the many motivating factors behind the 2023 widespread strikes. The strikes have halted many productions, and though the end is in sight the damage has been done.

Online substitutes provide new outlets for video producers

- Videos are becoming an increasingly popular form of communication, with businesses and individuals taking advantage of their ability to reach a large audience.
- Although online video platforms, like Twitch and YouTube, draw consumers away from theaters, they've also opened up new avenues for video producers, therefore have a mixed effect on the Movie and Video Production Industry in the US.

Production costs have decreased recently, making video production more accessible to a broader range of customers. Each of these new filmmakers, on some level, present a certain level of competition to larger players in the Movie and Video Production industry in the US.

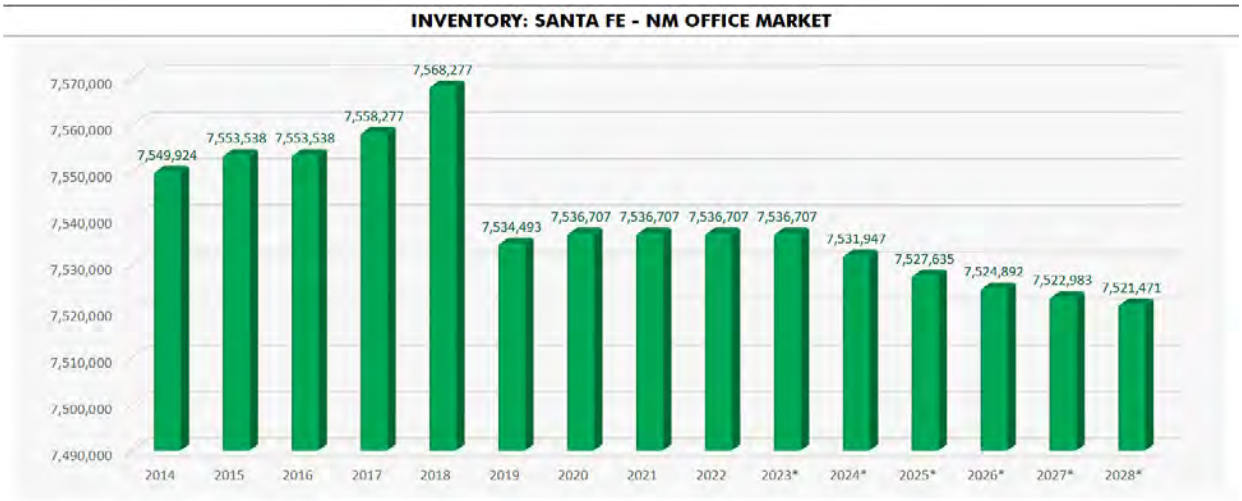
* Future Projected Data according to CoStar

Source: CoStar, 3rd Quarter 2023



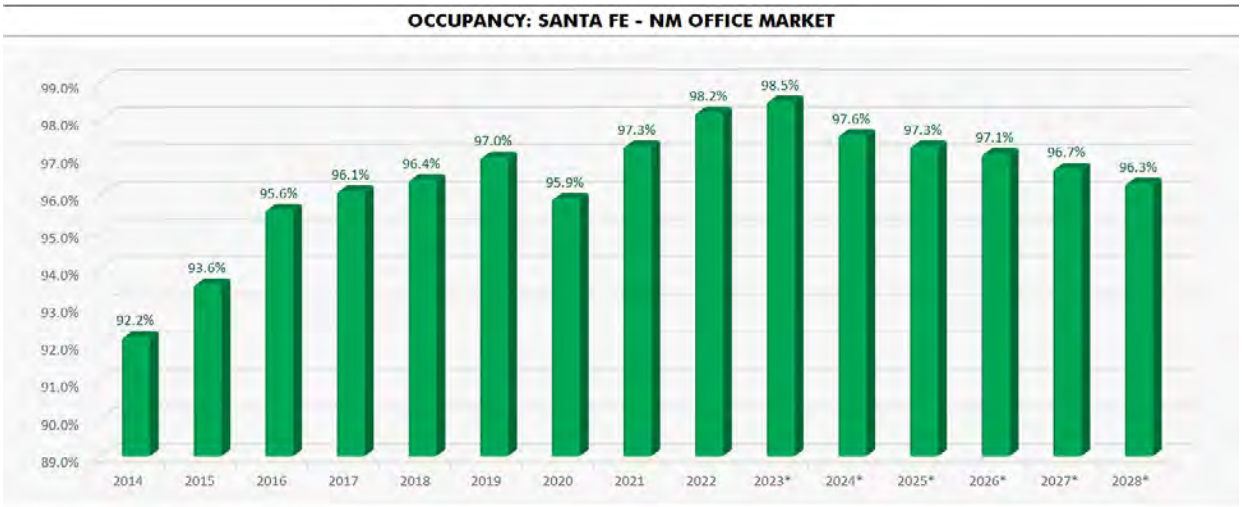
The Santa Fe - NM office market consists of approximately 7,536,707 square feet of office space. The following observations are noted from the table above:

- As of 3rd Quarter 2023, there was approximately 7,460,477 square feet of occupied office space (including sublet space), resulting in an occupancy rate of 99.0% for the metro area. This reflects a small increase from the previous quarter's occupancy of 98.9%, and an increase from an occupancy rate of 98.2% from last year.
- The area experienced positive 4,242 square feet of net absorption for the current quarter. This indicates an improvement from the previous quarter's negative 996 square feet of net absorption, and a decline from the positive 71,725 square feet of net absorption from last year.
- The area had zero completions for the current quarter, which indicates no change from the previous quarter's zero completions, and is unchanged from zero completions from last year.

© 2024 CBRE, Inc.

- The area achieved average asking rent of $23.09 per square foot, which indicates a small increase from the previous quarter's asking rent of $23.06 per square foot, and an increase from the asking rent of $22.68 per square foot from last year.

Historical Inventory – Market

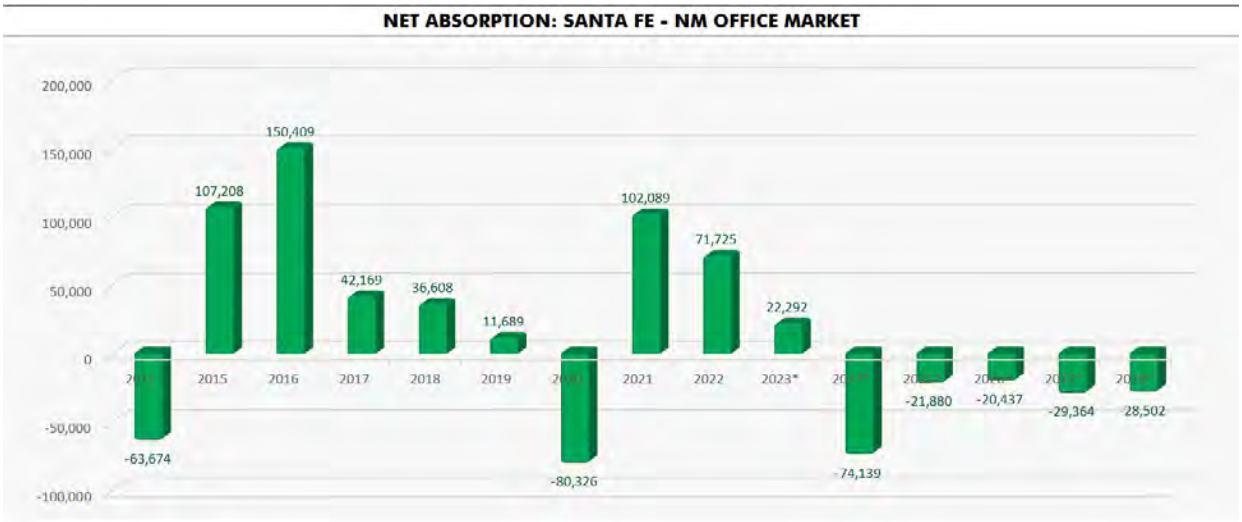


* Future Projected Data according to CoStar

Source: CoStar, 3rd Quarter 2023

Inventory is projected to be 7,536,707 square feet at the end of the current year, which represents no change from the previous year's inventory of 7,536,707 square feet. Inventory for next year is projected to be 7,531,947 square feet, reflecting a decrease from the current year.

Historical Occupancy - Market



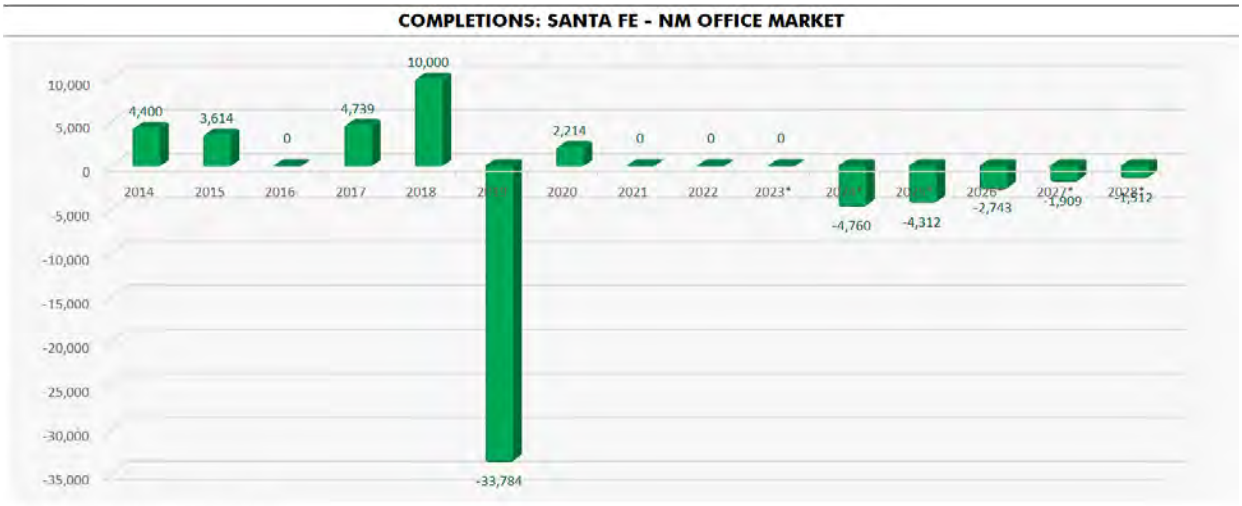
* Future Projected Data according to CoStar

Source: CoStar, 3rd Quarter 2023

At the end of the current year, the occupancy rate is projected to be 98.5%, which reflects an increase from the 98.2% occupancy rate at the end of last year. Occupancy for next year is projected to be 97.6%, reflecting a decrease from the current year.

© 2024 CBRE, Inc.

Historical Net Absorption - Market

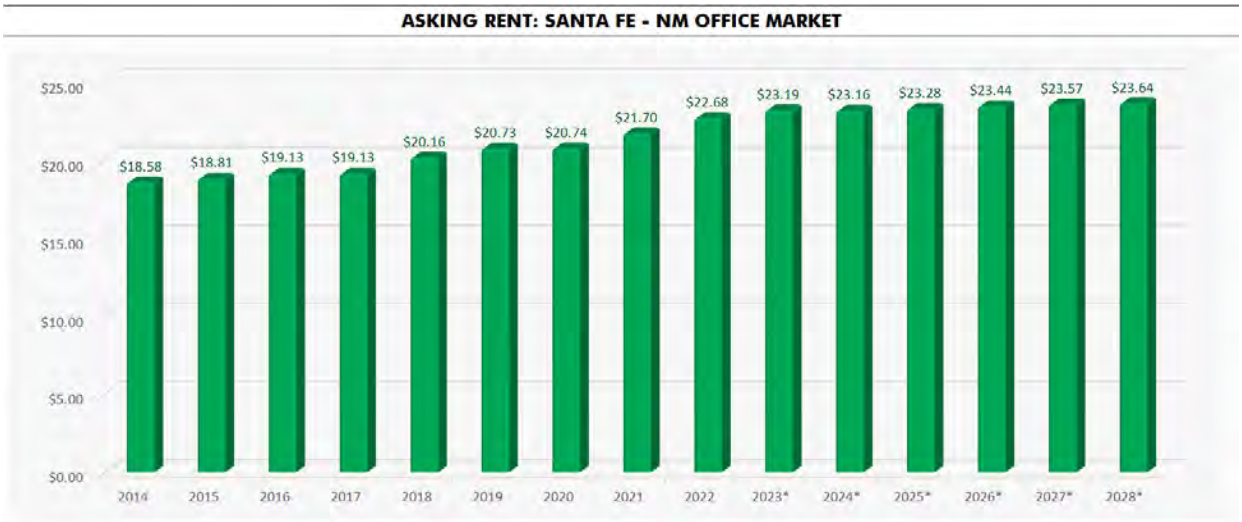


* Future Projected Data according to CoStar

Source: CoStar, 3rd Quarter 2023

At the end of the current year, the area is projected to experience positive 22,292 square feet of net absorption, which indicates a decline from the positive 71,725 square feet of net absorption for the previous year. The area is projected to experience negative 74,139 square feet of net absorption as of the end of next year, which indicates a decline from the current year.

Historical Completions - Market



* Future Projected Data according to CoStar

Source: CoStar, 3rd Quarter 2023

The area is projected to achieve zero completions for the current year, which is unchanged from the previous year's zero completions. The area is projected to experience completions of negative 4,760 square feet as of the end of next year, which indicates a decline from the current year.

© 2024 CBRE, Inc.

Historical Asking Rent - Market

Source: CoStar, 3rd Quarter 2023

The area is projected to achieve average asking rent of $23.19 per square foot at the end of the current year, which indicates an increase from the previous year's asking rent of $22.68 per square foot. The area is projected to achieve asking rent of $23.16 per square foot by the end of next year, indicating a small decrease from the current year.

Occupancy

Based on the foregoing analysis, CBRE, Inc.'s conclusion of stabilized occupancy for the subject is illustrated in the following table. Because of its location, its age and condition, mixed use and specialized buildout, it is likely that the stabilized occupancy of the property will be lower than typical for the market.

OCCUPANCY CONCLUSIONS	
Santa Fe - NM Market	96.3%
Rent Comparables	88.5%
Subject's Stabilized Occupancy	85.0%

Highest and Best Use

In appraisal practice, the concept of highest and best use represents the premise upon which value is based. The four criteria the highest and best use must meet are:

- legally permissible;
- physically possible;
- financially feasible; and
- maximally productive.

The highest and best use analysis of the subject is discussed below.

AS VACANT

Legal Permissibility

The legally permissible uses were discussed in the Site Analysis and Zoning Sections.

Physical Possibility

The subject will require additional site work to upgrade its utilities, and has an adequate shape and size, sufficient access, etc., to be a separately developable site. There are no known physical reasons why the subject site would not support any legally probable development (i.e. it appears adequate for development).

Financial Feasibility

Potential uses of the site include commercial, office, and production of film. The determination of financial feasibility is dependent primarily on the relationship of supply and demand for the legally probable land uses versus the cost to create the uses. As discussed in the market analysis, the subject office market is generally stabilized.

New office projects have not been recently developed in this market due to economic conditions. Further, there are proposed developments which are no longer moving forward due to inadequate construction financing and market conditions (increasing vacancy, declining effective rental rates, higher cap rates, etc.). Overall, there is significant risk in the office market and most investors would not move forward with new construction at this time on a speculative basis.

Maximum Productivity - Conclusion

The final test of highest and best use of the site as if vacant is that the use be maximally productive, yielding the highest return to the land.

Based on the information presented above and upon information contained in the market and neighborhood analysis, we conclude that the highest and best use of the subject as if vacant would be the development of an office property, or a film production studio or related facility.

As noted, new development is not financially feasible at this time. Therefore, the highest and best use of the site, as vacant, would be to hold for future development when economic conditions improve.

© 2024 CBRE, Inc.

AS IMPROVED

Legal Permissibility

The site has been improved with an office and school campus. This is a nonconforming use for the newly created master plan and zoning.

Physical Possibility

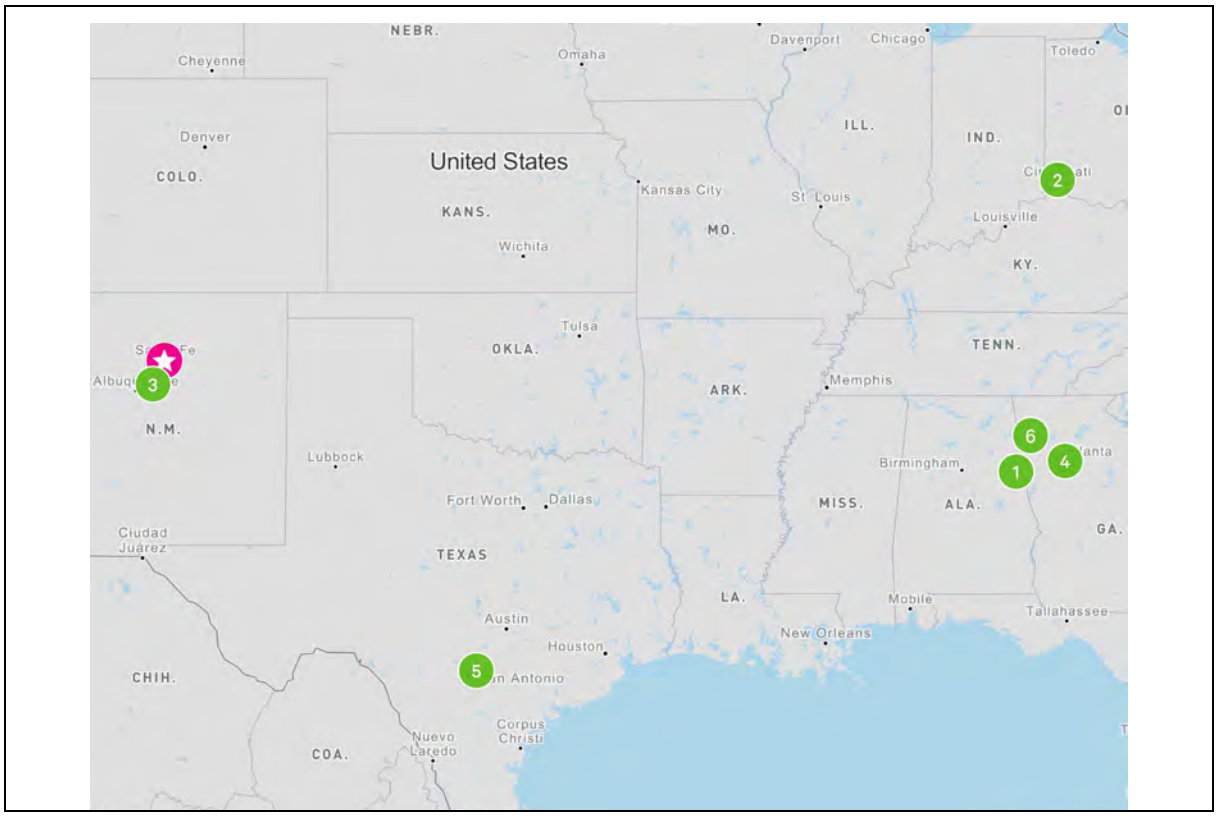
The layout and positioning of the improvements are considered functional for scholastic use, and will need some reconfiguration for office or film use. There is vacant land available for future expansion, but will require review by the City for approval of proposed new uses.

Financial Feasibility

The financial feasibility of an office property is based on the indicated value of the property compared to its land value. If a residual amount exists, then the land is being put to a productive use. Further, the value of the subject property as improved clearly exceeds the underlying land value. However, the analysis of the market indicates that use as an income property is not feasible in the current market.

Maximum Productivity - Conclusion

As shown in the applicable valuation sections, buildings that are similar to the subject have been acquired or continue to be used by office owners. Some of the comparable buildings have been acquired for conversion to an alternative use, similar to the subject. The most likely buyer for the subject property is as follows:



- Investor-Local

Based on the foregoing, the highest and best use of the property, as improved, is consistent with the existing use as a development, related to film production including studio use.

© 2024 CBRE, Inc.

Sales Comparison Approach

The following map and table summarize the comparable data used in the valuation of the subject. A detailed description of each transaction is included in the addenda.

SUMMARY OF COMPARABLE STUDIO AND SCHOOL CAMPUS SALES

No.	Property Name	Transaction Type	Transaction Date	Interest Transferred	YOC / Reno'd	Property Subtype	Site Coverage	NRA (SF)	Actual Sale Price	Adjusted Sale Price [1]	Price Per SF [1]

The sales utilized represent the best data available for comparison with the subject. They were selected from our research of comparable improved sales on a national basis as there is only one known sale similar to the subject from the Santa Fe area. These sales were chosen based upon mixed use campuses, including film production facilities, as well as educational facilities similar to the subject's original and most recent configuration.

We do not consider it appropriate to value the individual components of the subject property from local sales, and combine the sales comparisons individually to produce an overall value. Refer to USPAP Standard 1-4 (e), which states:

> When analyzing the assemblage of the various estates or component parts of a property, an appraiser must analyze the effect on value, if any, of the assemblage. An appraiser must refrain from valuing the whole solely by adding together the individual values of the various estates or component parts.[9]

Location Adjustments

The following supplemental data was collected in order to provide support for our location adjustments:

Compiled by CBRE

Of note, the adjustment for Sale 4 is not based on its surrounding demographics, but its ideal location in relation to surrounding film and television studios and its linkages. The indicated adjustments are applied in the following discussions.

DISCUSSION/ANALYSIS OF IMPROVED SALES

Improved Sale One

This comparable represents the sale of the former Carrie Steele Pitts Home campus located at 667 Fairburn Road NW in Atlanta, Georgia. The improvements include a total of 84,684 square feet in 8 buildings situated on a 15.76-gross acre campus. Due to a creek on the property, 14.2 acres are considered usable. The facility includes classrooms, gymnasium, commercial kitchen, cafeteria, offices, indoor pool, athletic field, playground, and 111 parking spaces. The property was listed for $5,000,000 and the broker reported multiple bids which drove up the price. The

[9] The Appraisal Foundation, *USPAP, 2024 Edition (Effective January 1, 2024)*

© 2024 CBRE, Inc.

property was purchased by a non-profit, Partnership for Southern Equity, Inc. for $5,200,000 or $61.40 per square foot in August 2023. The buyer will owner occupy three of the buildings representing 54,816 square feet. A school (Imhotep Academy), which had been leasing space at the property prior to the sale, will continue to lease/operate in four buildings representing 28,794 square feet. The buyer plans to renew the school tenant lease, which is on a month to month basis.

The upward adjustment for location reflects this comparable's inferior feature with respect to inferior demographics which garner lower rental rates. In terms of age/condition, this comparable was judged inferior due to older construction and more long-lived physical deterioration and received an upward adjustment for this characteristic. The adjustment for site coverage was warranted due to less land available for expansion, circulation, parking, or external storage. Therefore, an upward adjustment was judged proper for this comparable. Overall, this comparable was deemed inferior in comparison to the subject and an upward net adjustment was warranted to the sales price indicator.

Improved Sale Two

This comparable represents a 88,673 square foot school facility located in Cincinnati, Ohio. The property was originally built in 1895 and in 2022 was operating as the Mount Auburn International Academy The 88,673 square foot building includes a mix of offices , class rooms, gymnasium, cafeteria, & additional storage/maintenance rooms. The property is currently under contract to be purchased. The property was purchased in June 2023 for $5,000,000 or $56.39 per square foot. The property was purchased for use as the Mount Auburn Preparatory Academy charter school.

The upward adjustment for location reflects this comparable's inferior feature with respect to inferior demographics which garner lower rental rates. In terms of age/condition, this comparable was judged inferior due to older construction and more long-lived physical deterioration and received an upward adjustment for this characteristic. The adjustment for site coverage was warranted due to less land available for expansion, circulation, parking, or external storage. Therefore, an upward adjustment was judged proper for this comparable. With respect to amenities, this comparable was considered inferior in this aspect and received an upward adjustment because of lack of studio, stage, or auditorium facilities. Overall, this comparable was deemed inferior in comparison to the subject and an upward net adjustment was warranted to the sales price indicator.

Improved Sale Three

The former Shellaberger Tennis Center was constructed in 2002 tennis facility as a public tennis club on the College of Santa Fe campus. It has 65,000 square feet of gross building area, initially for indoor tennis use. It was marketed for mixed use, potentially residential or office, and sold in May, 2022, closing in October after the initial offer fell through. The closing price was $6,700,000. The buyer considered multiple reconfigurations, and ultimately repurposed the

© 2024 CBRE, Inc.

facility as a film soundstage/professional office. According to the new owners the facility required $1,500,000 for the soundstages to be retrofitted and soundproofed, as well as an additional $1,000,000 is needed for electrical upgrades. It has a low land-to-building ratio of 17%, indicating some potential surplus land available for expansion or exterior storage.

In terms of age/condition, this comparable was judged superior due to newer construction and received a downward adjustment for this characteristic. The adjustment for site coverage was warranted due to less land available for expansion, circulation, parking, or external storage. Therefore, an upward adjustment was judged proper for this comparable. With respect to amenities, this comparable was considered superior in this aspect and received a downward adjustment because of superior potential for film production. Overall, this comparable was deemed superior in comparison to the subject and a downward net adjustment was warranted to the sales price indicator.

Improved Sale Four

This comparable represents the sale of Blackhall Studios, a movie and film production studio located on two adjacent campuses in southeast Atlanta. The Main Campus is an approximate 411,532-square-foot, state-of-the-art movie and film production studio with nine sound stages and a centralized office, warehouse, and millwork facility, as well as individual office bungalows. These buildings were built in 2017-2018 and are located at 1415 Constitution Road SE. The East Campus, including The Grove, is an approximate 436,707-square-foot, movie and film production studio divided into multiple sound stages, office, and millwork uses. The buildings were constructed in 1987, and renovated, opening in 2017 and 2018. This property is located at 3475, 3495, and 3342 International Park Drive SE. Blackhall has been home to productions for Disney, Warner Brothers, and Universal Studios, as well as Netflix. . Blackhall Studios was sold to Los Angeles based private equity firm Commonwealth Group for a reported price of $120 million. The transaction was structured as an "Asset Purchase Agreement" and included both real property and assignment of leases for buildings and property comprising the East Campus (including The Grove), as well as furnishings and equipment, and assumption of certain liabilities. A detailed allocation was not available, though the recorded price for the fee simple interest transferred was $100 million. The pro forma shown is the seller's operating budget for 2021. It is generally supported by actual 2019 operations, allowing for additional operations. In 2020, revenue was significantly negatively impacted by the COVID-19 pandemic. However, commitments for 2021 had the studio operating at near-full capacity.

The downward adjustment for superior property rights conveyed is attributable to existing leases in place. The downward adjustment for location reflects this comparable's superior feature with respect to superior demographics which garner higher rental rates. Upon comparison with the subject, this comparable was considered inferior in terms of size and received an upward adjustment for this characteristic due to having significantly more square footage than the subject property. In terms of age/condition, this comparable was judged superior due to newer

© 2024 CBRE, Inc.

construction and received a downward adjustment for this characteristic. The adjustment for site coverage was warranted due to less land available for expansion, circulation, parking, or external storage. Therefore, an upward adjustment was judged proper for this comparable. With respect to amenities, this comparable was considered superior in this aspect and received a downward adjustment because of multiple studios for film production. Overall, this comparable was deemed superior in comparison to the subject and a downward net adjustment was warranted to the sales price indicator.

Improved Sale Five

This comparable represents the sale of a 68,098-square foot charter school located at 4018 South Presa Street in San Antonio, Texas. The improvements were originally constructed in 1921, renovated in 2013 and 2017, and are situated on a 7.10-acre site. Amenities include a full kitchen/cafeteria, basketball pavilion and athletic field. The property is presently owner-occupied by New Frontiers Public Schools and operated as the Frank L. Madla Accredited Collegiate Academy. It sold in March 2021 for $5,750,000, or $84.44 per square-foot.

The upward adjustment for location reflects this comparable's inferior feature with respect to inferior demographics which garner lower rental rates. The adjustment for site coverage was warranted due to less land available for expansion, circulation, parking, or external storage. Therefore, an upward adjustment was judged proper for this comparable. Overall, this comparable was deemed inferior in comparison to the subject and an upward net adjustment was warranted to the sales price indicator.

Improved Sale Six

This 18,458 square foot building is located at 1550 Agape Way in Decatur, GA. The improvements were constructed in 1993 and are situated on a 7.70 acre site. The improvements are tilt-up concreate exterior with a brick façade along the front of the building. The property was sold from Trinity Christian Center of Santa Ana who had their broadcasting network at this location, to ADA 108 LLC. The buyer purchased the property as a film production studio. The property is now known as the Aztec Warrior Studios. The property sold for $1,562,500 or $84.65 in July 2019.

The upward adjustment for location reflects this comparable's inferior feature with respect to inferior demographics which garner lower rental rates. Upon comparison with the subject, this comparable was considered superior in terms of size and received a downward adjustment for this characteristic due to having significantly fewer square feet than the subject property. With respect to amenities, this comparable was considered inferior in this aspect and received an upward adjustment because of inferior studio capacity. Overall, this comparable was deemed inferior in comparison to the subject and an upward net adjustment was warranted to the sales price indicator.

SALE PRICE PER SQUARE FOOT CONCLUSION

Overall, Comparables 3, 5 and 6 were given greater consideration because they required least overall adjustment. Comparable 3 is given greatest weight as it is adjacent to the subject property, a portion of the same campus, and is the only known recent sale of a film studio property from New Mexico. The following chart presents the valuation conclusion:

SALES COMPARISON APPROACH

NRA (SF)	X	Value Per SF	=	Value
98,677	X	$88.88	=	$8,770,658
98,677	X	$120.31	=	$11,871,602

Compiled by CBRE

The rentals utilized represent the best data available for comparison with the subject. They were selected from our research within the greater Santa Fe area, recent leases of industrial and office spaces comparable to the subject. The following table shows a summary of the space allocation for the subject.

MARKET RENT CATEGORIES

Space Allocation	Size
Industrial Space	11,200
Office Space	87,477

Compiled by CBRE

NATIONAL STUDIO SPACE RENT COMPARABLES

CBRE has compiled national rentals for film and television studios showing the space can rent from $25 to $115 per square foot. The wide range in rent for the comparables is mostly attributable to the composition of stage vs office/support space for each comparable. Rents tend to trend at the top range of office rents for the locality. The subject has good linkages, and is operated by a reputable company within the competitive market. However, its studio space is limited, and the size of sound stages available are smaller than typically desired for larger production studio operators. In conclusion, we estimate a stage rent for the subject consistent with the rate indicated by the comparable office spaces.

DISCUSSION/ANALYSIS OF RENT COMPARABLES

Rent Comparable One

This is a 53,668-square foot industrial (warehouse/distribution) facility located at 1000 Siler Park Ln in Santa Fe, New Mexico. The improvements were constructed in 1980 and are. situated on a 4.65-acre site. The clear height of the improvements is 20' and the office finish approximates 33.5%. The property has been leased by HAJOCA, which has been in this location since 1989,

© 2024 CBRE, Inc.

most recently extended in November, 2022, for a six year term, with a rent currently at $6.13 per square foot, or $328,755 annually.

Rent Comparable Two

This building is on Camino Entrada, just off of Cerrillos Road. It was formerly occupied by United Rentals, as well as Santa Fe Autoworks. It was placed on the market for $12.00 psf NNN in late 2021, and leased in April, 2022. The tenant was not disclosed, nor the lease amount, but market participants believe it is Amazon, being used as a last mile warehouse, and the lease signing was at or near list.

Rent Comparable Three

This comparable represents the renewal lease of a warehouse in the Siler Road industrial area of Santa Fe, NM, which was converted into a brewery and tap room for Second Street Brewery. This property is located just around the corner from the Meow Wolf art complex, a popular tourist attraction. This property had previously been utilized as a mattress warehouse and had minimal office buildout or yard area. This property was purchased by a local broker/investor in February 2015 for $1,000,000 who immediately started marketing it for lease. Second Street Brewery signed a 5-year NNN lease in approximately June 2016 at $120,000 per year, or $6.00 per square foot. This lease did not include any TI allowance and the brewery spent an estimated $1,000,000 on renovations to transform the property into a brewery and tap room. Approximately half of this was for real estate to include an HVAC system, new restrooms, upgraded electrical system, new trench drains, landscaping, and exterior improvements. The remainder represented equipment costs for a 20-barrel brewing system. The lease includes three 5-year renewal options with CPI escalations every three years throughout the initial and renewal terms.

Rent Comparable Four

This rental survey represents the direct lease for 4525 Hwy 14 Rd, Building 2 in Santa Fe County, Santa Fe New Mexico. This is an industrial property type with a single tenancy with a rentable area of 10,000 SF on 0.46 acres of land. This property was on the market for 5 months and was occupied in November of 2018. The reimbursements are on a modified gross basis and the lease is reported to be a 5 year term, occupied by Bimbo Bakeries.

Rent Comparable Five

This is a 23,000-square foot, one-story, suburban office building located at 11 Forest Lane in Santa Fe, New Mexico. The improvements were constructed in 2009 and are situated on a 5.00-acre site. Currently, the property is 100.0% occupied by the United States Department of Agriculture, Forest Service Division. An original 10-year, firm lease term commenced September 17, 2009. Base rent during the original term was flat at $676,890 per year, or approximately $29.43 per square foot, inclusive of amortized tenant improvements, with CPI adjustments to operating expenses of $4.13 per square foot. The lease included two, five-year options to renew

© 2024 CBRE, Inc.

at $520,950 per year, or approximately $22.65 per square foot, prior to CPI adjustments for operating expenses. The GSA tenant, in a letter dated March 12, 2019, indicated its intention of exercising the first, five-year renewal option. Based on executed Lease Amendment No. PLA047, signed December 16, 2019, the total annual rent for the first option period has been negotiated to $513,570.34 annually, equivalent to $22.33 per square foot, including a base rent of $18.52 per square foot, and CPI adjusted operating expenses of $3.81 per square foot.

Rent Comparable Six

This comparable represents a 20,595-square-foot, Class C multi-tenant office property at 330 Garfield Street, Santa Fe, NM. The 4-story improvements were originally constructed in 1881 and were considered in average condition at the time of our research. The property is currently 94% leased. The most recent leases signed in 2023 are gross leases at $23.70 and $28.00 per square foot, both 36 month leases to new tenants.

Rent Comparable Seven

This comparable represents a 10,799-square-foot, Class office park office property at 400 Kiva Court NE, Santa Fe, NM. The improvements were originally constructed in 2013 and were considered in condition at the time of our research. The property is currently 100% leased. Tenants pays flat rate plus utilities. The most recent leases in the complex range from $18.11 to $24.00 per square foot for new tenants.

Rent Comparable Eight

This comparable represents a 2,469-square-foot, Class B office condominium office property at 531 Harkle, Santa Fe, NM. The 1-story improvements were originally constructed in 1988 and were considered in condition at the time of our research. This is a single-tenant unit, leased to Family Medicine starting in October 2023, at $19.00 per square foot on a modified gross basis.

Rent Comparable Nine

This comparable represents a 24,273-square-foot, Class C+ other office property at 3600 Cerrillos Road, Building 700, Santa Fe, NM. The 3-story improvements were originally constructed in 2002 and were considered in average condition at the time of our research. This is a mixed-use development, consisting of 22 office suites and 18 residential units. The offices are typically small executive units from 150-300 square feet, with one larger tenant occupying 2,290 square feet. The apartments range from 440 square foot efficiency units to 1,400 square foot lofts, averaging 1,000 square feet, typically one-bedroom, all one-bath. Occupancy has ranged from 90% to 97% over the last two years, averaging roughly 90%. Most office spaces are leased from 12 to 36 months, while the residential units are commonly on 6 to 12 month leases. Roughly 50% of the tenants have been in place for 3 or more years. The improvements are in generally good condition, with no deferred maintenance.

MARKET RENT ANALYSIS

Local industrial space is typically rented on a NNN basis, with comparables ranging from $6.13 to $12.00 per square foot. The range in recent office leases is from $18.00 to $28.00 per square foot, typically on a gross or modified gross basis. The subject compares with the upper portion of the industrial range due to its locational and physical characteristics. The office space is most comparable to the lower portion of the indicated range in the market, primarily attributable to age and condition, as well as the classroom configuration.

MARKET RENT CONCLUSIONS

OPERATING EXPENSE CONCLUSION

The comparable data and projections for the subject are summarized as follows:

TOTAL OPERATING EXPENSES		
Year	Total	$/SF/Yr
Expense Comparable 1	---	$11.98
Expense Comparable 2	---	$5.91
Expense Comparable 3	---	$5.23
Expense Comparable 4	---	$8.78
CBRE Estimate	**$710,297**	**$7.20**
Compiled by CBRE		

We have concluded $9.51 per square foot for the subject's total operating expenses, which is within the range of the expense comparables.

DIRECT CAPITALIZATION

Direct capitalization is a method used to convert a single year's estimated stabilized net operating income into a value indication. The following subsections represent different techniques for deriving an overall capitalization rate.

© 2024 CBRE, Inc.

Comparable Sales

Only one income property was used in the sales comparison approach; the rest were owner-occupied. For this reason, additional sales of investment properties were selected from the market, from which applicable capitalization rates (OARs) could be confirmed.

COMPARABLE CAPITALIZATION RATES

Sale	Sale Date	Sale Price $/SF	Occupancy	Buyer's Primary Analysis	Operating Expense Ratio	OAR
4	Apr-21	$141.47	80%	Pro Forma (Stabilized)	41.59	9.13%
Indicated OAR:			85%			**9.13%-9.13%**

Compiled by CBRE

COMPARABLE CAPITALIZATION RATES

Secondary Sale	Sale Date	Sale Price $/SF	Occupancy	Buyer's Primary Analysis	Operating Expense Ratio	OAR
7	Dec-23	$70.85	100%	Trailing Actuals	38.55	8.13%
8	Nov-22	$96.02	94%	Trailing Actuals	n/a	9.27%
9	Sep-22	$188.85	100%	Trailing Actuals	n/a	7.99%

11	Jan-22	$230.13	100%	Trailing Actuals	n/a	8.50%
12	Sep-21	$72.73	83%	Trailing Actuals	46.59	10.53%
13	Apr-21	$117.05	79%	Pro Forma (Stabilized)	37.08	9.52%
Indicated OAR:			85%			**7.99%-10.53%**

Compiled by CBRE

The overall capitalization rates for these sales were derived based upon the actual or pro-forma income characteristics of the property. Primary emphasis has been placed upon the more recent data, which is generally reflective of current market trends, interest rates, and buyer's expectations and motivation in the market. Each of these sales shows a similar tenancy structure with regard to stability and credit rating, whereby little if any adjustments are required when compared with the subject.

Published Investor Surveys

The results of the most recent investor surveys are summarized in the following chart.

Band of Investment	9.40%
CBRE Estimate	**9.00%**
Compiled by CBRE	

We have also considered recent events and prevailing market conditions with respect to capitalization rates. This includes a combination of inflationary pressures, higher cost of capital (considering interest rates as well as risk spreads), and the recent geopolitical events. While the overall long-term outlook for commercial real estate remains positive, the full effect of these factors may not yet be reflected in transactional data. Overall, we view uncertainty and the higher cost of capital to have an upward influence on capitalization rates which is considered with respect to our conclusion herein.

Reconciliation of Value

The value indications from the approaches to value are summarized as follows:

SUMMARY OF VALUE CONCLUSIONS				
Appraisal Premise	As of Date	Sales Comparison Approach	Income Approach	Reconciled Value
As Is	November 15, 2023	$4,800,000	$3,900,000	$4,800,000
Compiled by CBRE				

In the sales comparison approach, the subject is compared to similar properties that have been sold recently or for which listing prices or offers are known. The sales used in this analysis are considered comparable to the subject, and the required adjustments were based on reasonable and well-supported rationale. In addition, market participants are currently analyzing purchase prices on similar properties as they relate to available substitutes in the market. Therefore, the sales comparison approach is considered to provide a reliable value indication, and has been given primary emphasis in the final value reconciliation.

The income capitalization approach is applicable to the subject since it is an income producing property leased in the open market. Market participants are primarily analyzing investment properties based on their income generating capability. Therefore, the income capitalization approach is considered a reasonable and substantiated value indicator, but it has been given secondary emphasis in the final value estimate as our analysis pertains to the Fee Simple interest in the property. Based on this analysis, the income approach does not indicate that the use as an income property is feasible.

Based on the foregoing, the market value of the subject has been concluded as follows:

MARKET VALUE CONCLUSION			
Appraisal Premise	Interest Appraised	Date of Value	Value Conclusion
As Is	Fee Simple Estate	November 15, 2023	$4,800,000
Compiled by CBRE

Assumptions and Limiting Conditions

1. CBRE, Inc. through its appraiser (collectively, "CBRE") has inspected through reasonable observation the subject property. However, it is not possible or reasonably practicable to personally inspect conditions beneath the soil and the entire interior and exterior of the improvements on the subject property. Therefore, no representation is made as to such matters.
2. The report, including its conclusions and any portion of such report (the "Report"), is as of the date set forth in the letter of transmittal and based upon the information, market, economic, and property conditions and projected levels of operation existing as of such date. The dollar amount of any conclusion as to value in the Report is based upon the purchasing power of the U.S. Dollar on such date. The Report is subject to change as a result of fluctuations in any of the foregoing. CBRE has no obligation to revise the Report to reflect any such fluctuations or other events or conditions which occur subsequent to such date.
3. Unless otherwise expressly noted in the Report, CBRE has assumed that:
   (i) Title to the subject property is clear and marketable and that there are no recorded or unrecorded matters or exceptions to title that would adversely affect marketability or value. CBRE has not examined title records (including without limitation liens, encumbrances, easements, deed restrictions, and other conditions that may affect the title or use of the subject property) and makes no representations regarding title or its limitations on the use of the subject property. Insurance against financial loss that may arise out of defects in title should be sought from a qualified title insurance company.
   (ii) Existing improvements on the subject property conform to applicable local, state, and federal building codes and ordinances, are structurally sound and seismically safe, and have been built and repaired in a workmanlike manner according to standard practices; all building systems (mechanical/electrical, HVAC, elevator, plumbing, etc.) are in good working order with no major deferred maintenance or repair required; and the roof and exterior are in good condition and free from intrusion by the elements. CBRE has not retained independent structural, mechanical, electrical, or civil engineers in connection with this appraisal and, therefore, makes no representations relative to the condition of improvements. CBRE appraisers are not engineers and are not qualified to judge matters of an engineering nature, and furthermore structural problems or building system problems may not be visible. It is expressly assumed that any purchaser would, as a precondition to closing a sale, obtain a satisfactory engineering report relative to the structural integrity of the property and the integrity of building systems.
   (iii) Any proposed improvements, on or off-site, as well as any alterations or repairs considered will be completed in a workmanlike manner according to standard practices.
   (iv) Hazardous materials are not present on the subject property. CBRE is not qualified to detect such substances. The presence of substances such as asbestos, urea formaldehyde foam insulation, contaminated groundwater, mold, or other potentially hazardous materials may affect the value of the property.
   (v) No mineral deposit or subsurface rights of value exist with respect to the subject property, whether gas, liquid, or solid, and no air or development rights of value may be transferred. CBRE has not considered any rights associated with extraction or exploration of any resources, unless otherwise expressly noted in the Report.
   (vi) There are no contemplated public initiatives, governmental development controls, rent controls, or changes in the present zoning ordinances or regulations governing use, density, or shape that would significantly affect the value of the subject property.
   (vii) All required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be readily obtained or renewed for any use on which the Report is based.
   (viii) The subject property is managed and operated in a prudent and competent manner, neither inefficiently, nor super-efficiently.
   (ix) The subject property and its use, management, and operation are in full compliance with all applicable federal, state, and local regulations, laws, and restrictions, including without limitation environmental laws, seismic hazards, flight patterns, decibel levels/noise envelopes, fire hazards, hillside ordinances, density, allowable uses, building codes, permits, and licenses.
   (x) The subject property is in full compliance with the Americans with Disabilities Act (ADA). CBRE is not qualified to assess the subject property's compliance with the ADA, notwithstanding any discussion of possible readily achievable barrier removal construction items in the Report.

© 2024 CBRE, Inc.

(xi) All information regarding the areas and dimensions of the subject property furnished to CBRE are correct, and no encroachments exist. CBRE has neither undertaken any survey of the boundaries of the subject property, nor reviewed or confirmed the accuracy of any legal description of the subject property.

Unless otherwise expressly noted in the Report, no issues regarding the foregoing were brought to CBRE's attention, and CBRE has no knowledge of any such facts affecting the subject property. If any information inconsistent with any of the foregoing assumptions is discovered, such information could have a substantial negative impact on the Report and any conclusions stated therein. Accordingly, if any such information is subsequently made known to CBRE, CBRE reserves the right to amend the Report, which may include the conclusions of the Report. CBRE assumes no responsibility for any conditions regarding the foregoing, or for any expertise or knowledge required to discover them. Any user of the Report is urged to retain an expert in the applicable field(s) for information regarding such conditions.

4. CBRE has assumed that all documents, data and information furnished by or on behalf of the client, property owner or owner's representative are accurate and correct, unless otherwise expressly noted in the Report. Such data and information include, without limitation, numerical street addresses, lot and block numbers, Assessor's Parcel Numbers, land dimensions, square footage area of the land, dimensions of the improvements, gross building areas, net rentable areas, usable areas, unit count, room count, rent schedules, income data, historical operating expenses, budgets, and related data. Any error in any of the above could have a substantial impact on the Report and any conclusions stated therein. Accordingly, if any such errors are subsequently made known to CBRE, CBRE reserves the right to amend the Report, which may include the conclusions of the Report. The client and intended user should carefully review all assumptions, data, relevant calculations, and conclusions of the Report and should immediately notify CBRE of any questions or errors within 30 days after the date of delivery of the Report.
5. CBRE assumes no responsibility (including any obligation to procure the same) for any documents, data or information not provided to CBRE, including, without limitation, any termite inspection, survey or occupancy permit.
6. All furnishings, equipment and business operations have been disregarded with only real property being considered in the Report, except as otherwise expressly stated and typically considered part of real property.
7. Any cash flows included in the analysis are forecasts of estimated future operating characteristics based upon the information and assumptions contained within the Report. Any projections of income, expenses and economic conditions utilized in the Report, including such cash flows, should be considered as only estimates of the expectations of future income and expenses as of the date of the Report and not predictions of the future. This Report has been prepared in good faith, based on CBRE's current anecdotal and evidence-based views of the commercial real estate market. Although CBRE believes its views reflect market conditions on the date of this Report, they are subject to significant uncertainties and contingencies, many of which are beyond CBRE's control. In addition, many of CBRE's views are opinion and/or projections based on CBRE's subjective analyses of current market circumstances. Actual results are affected by a number of factors outside the control of CBRE, including without limitation fluctuating economic, market, and property conditions. Actual results may ultimately differ from these projections, and CBRE does not warrant any such projections. Further, other firms may have different opinions, projections and analyses, and actual market conditions in the future may cause CBRE's current views to later change or be incorrect. CBRE has no obligation to update its views herein if its opinions, projections, analyses or market circumstances later change.
8. The Report contains professional opinions and is expressly not intended to serve as any warranty, assurance or guarantee of any particular value of the subject property. Other appraisers may reach different conclusions as to the value of the subject property. Furthermore, market value is highly related to exposure time, promotion effort, terms, motivation, and conclusions surrounding the offering of the subject property. The Report is for the sole purpose of providing the intended user with CBRE's independent professional opinion of the value of the subject property as of the date of the Report. Accordingly, CBRE shall not be liable for any losses that arise from any investment or lending decisions based upon the Report that the client, intended user, or any buyer, seller, investor, or lending institution may undertake related to the subject property, and CBRE has not been compensated to assume any of these risks. Nothing contained in the Report shall be construed as any direct or indirect recommendation of CBRE to buy, sell, hold, or finance the subject property.
9. No opinion is expressed on matters which may require legal expertise or specialized investigation or knowledge including, but not limited to, environmental, social, and governance principles ("ESG"), beyond that customarily employed by real estate appraisers. Any user of the Report is advised to retain experts in areas that fall outside the scope of the real estate appraisal profession for such matters.

© 2024 CBRE, Inc.

10. CBRE assumes no responsibility for any costs or consequences arising due to the need, or the lack of need, for flood hazard insurance. An agent for the Federal Flood Insurance Program should be contacted to determine the actual need for Flood Hazard Insurance.
11. Acceptance or use of the Report constitutes full acceptance of these Assumptions and Limiting Conditions and any special assumptions set forth in the Report. It is the responsibility of the user of the Report to read in full, comprehend and thus become aware of all such assumptions and limiting conditions. CBRE assumes no responsibility for any situation arising out of the user's failure to become familiar with and understand the same.
12. The Report applies to the property as a whole only, and any pro ration or division of the title into fractional interests will invalidate such conclusions, unless the Report expressly assumes such pro ration or division of interests.
13. The allocations of the total value estimate in the Report between land and improvements apply only to the existing use of the subject property. The allocations of values for each of the land and improvements are not intended to be used with any other property or appraisal and are not valid for any such use.
14. The maps, plats, sketches, graphs, photographs, and exhibits included in this Report are for illustration purposes only and shall be utilized only to assist in visualizing matters discussed in the Report. No such items shall be removed, reproduced, or used apart from the Report.
15. The Report shall not be duplicated or provided to any unintended users in whole or in part without the written consent of CBRE, which consent CBRE may withhold in its sole discretion. Exempt from this restriction is duplication for the internal use of the intended user and its attorneys, accountants, or advisors for the sole benefit of the intended user. Also exempt from this restriction is transmission of the Report pursuant to any requirement of any court, governmental authority, or regulatory agency having jurisdiction over the intended user, provided that the Report and its contents shall not be published, in whole or in part, in any public document without the written consent of CBRE, which consent CBRE may withhold in its sole discretion. Finally, the Report shall not be made available to the public or otherwise used in any offering of the property or any security, as defined by applicable law. Any unintended user who may possess the Report is advised that it shall not rely upon the Report or its conclusions and that it should rely on its own appraisers, advisors and other consultants for any decision in connection with the subject property. CBRE shall have no liability or responsibility to any such unintended user.

Comments

This comparable represents the sale of the former Carrie Steele Pitts Home campus located at 667 Fairburn Road NW in Atlanta, Georgia. The improvements include a total of 84,684 square feet in 8 buildings situated on a 15.76-gross acre campus. Due to a creek on the property, 14.2 acres are considered usable. The facility includes classrooms, gymnasium, commercial kitchen, cafeteria, offices, indoor pool, athletic field, playground, and 111 parking spaces. The property was listed for $5,000,000 and the broker reported multiple bids which drove up the price. The property was purchased by a non-profit, Partnership for Southern Equity, Inc. for $5,200,000 or $61.40 per square foot in August 2023. The buyer will owner occupy three of the buildings representing 54,816 square feet. A school (Imhotep Academy), which had been leasing space at the property prior to the sale, will continue to lease/operate in four buildings representing 28,794 square feet. The buyer plans to renew the school tenant lease, which is on a month to month basis.

Comments

The former Shellaberger Tennis Center was constructed in 2002 tennis facility as a public tennis club on the College of Santa Fe campus. It has 65,000 square feet of gross building area, initially for indoor tennis use. It was marketed for mixed use, potentially residential or office, and sold in May, 2022, closing in October after the initial offer fell through. The closing price was $6,700,000. The buyer considered multiple reconfigurations, and ultimately repurposed the facility as a film soundstage/professional office. According to the new owners the facility required $1,500,000 for the soundstages to be retrofitted and soundproofed, as well as an additional $1,000,000 is needed for electrical upgrades. It has a low land-to-building ratio of 17%, indicating some potential surplus land available for expansion or exterior storage.

Comments

This comparable represents the sale of Blackhall Studios, a movie and film production studio located on two adjacent campuses in southeast Atlanta. The Main Campus is an approximate 411,532-square-foot, state-of-the-art movie and film production studio with nine sound stages and a centralized office, warehouse, and millwork facility, as well as individual office bungalows. These buildings were built in 2017-2018 and are located at 1415 Constitution Road SE. The East Campus, including The Grove, is an approximate 436,707-square-foot, movie and film production studio divided into multiple sound stages, office, and millwork uses. The buildings were constructed in 1987, and renovated, opening in 2017 and 2018. This property is located at 3475, 3495, and 3342 International Park Drive SE. Blackhall has been home to productions for Disney, Warner Brothers, and Universal Studios, as well as Netflix.

Blackhall Studios was sold to Los Angeles based private equity firm Commonwealth Group for a reported price of $120 million. The transaction was structured as an "Asset Purchase Agreement" and included both real property and assignment of leases for buildings and property comprising the East Campus (including The Grove), as well as furnishings and equipment, and assumption of certain liabilities. A detailed allocation was not available, though the recorded price for the fee simple interest transferred was $100 million. The pro forma shown is the seller's operating budget for 2021. It is generally supported by actual 2019 operations, allowing for additional operations. In 2020, revenue was significantly negatively impacted by the COVID-19 pandemic. However, commitments for 2021 had the studio operating at near-full capacity.

Comments

This building is on Camino Entrada, just off of Cerrillos Road. It was formerly occupied by United Rentals, as well as Santa Fe Autoworks. It was placed on the market for $12.00 psf NNN in late 2021, and leased in April, 2022. The tenant was not disclosed, nor the lease amount, but market participants believe it is Amazon, being used as a last mile warehouse, and the lease signing was at or near list.

Second Street Brewery	Industrial	20,000	60	Renewal	Jun 2021	NNN	CPI/3 Years	0.00	$0.00	$6.75

Comments

This comparable represents the renewal lease of a warehouse in the Siler Road industrial area of Santa Fe, NM, which was converted into a brewery and tap room for Second Street Brewery. This property is located just around the corner from the Meow Wolf art complex, a popular tourist attraction. This property had previously been utilized as a mattress warehouse and had minimal office buildout or yard area. This property was purchased by a local broker/investor in February 2015 for $1,000,000 who immediately started marketing it for lease. Second Street Brewery signed a 5-year NNN lease in approximately June 2016 at $120,000 per year, or $6.00 per square foot. This lease did not include any TI allowance and the brewery spent an estimated $1,000,000 on renovations to transform the property into a brewery and tap room. Approximately half of this was for real estate to include an HVAC system, new restrooms, upgraded electrical system, new trench drains, landscaping, and exterior improvements. The remainder represented equipment costs for a 20-barrel brewing system. The lease includes three 5-year renewal options with CPI escalations every three years throughout the initial and renewal terms.

Comments

This is a 23,000-square foot, one-story, suburban office building located at 11 Forest Lane in Santa Fe, New Mexico. The improvements were constructed in 2009 and are situated on a 5.00-acre site. Currently, the property is 100.0% occupied by the United States Department of Agriculture, Forest Service Division. An original 10-year, firm lease term commenced September 17, 2009. Base rent during the original term was flat at $676,890 per year, or approximately $29.43 per square foot, inclusive of amortized tenant improvements, with CPI adjustments to operating expenses of $4.13 per square foot. The lease included two, five-year options to renew at $520,950 per year, or approximately $22.65 per square foot, prior to CPI adjustments for operating expenses. The GSA tenant, in a letter dated March 12, 2019, indicated its intention of exercising the first, five-year renewal option. Based on executed Lease Amendment No. PLA047, signed December 16, 2019, the total annual rent for the first option period has been negotiated to $513,570.34 annually, equivalent to $22.33 per square foot, including a base rent of $18.52 per square foot, and CPI adjusted operating expenses of $3.81 per square foot.

D. SCHEDULE AND ECONOMIC ANALYSIS PROPOSAL

1. NARRATIVE OF SCHEDULE AND ECONOMIC ANALYSIS PROPOSAL

NARRATIVE OF ECONOMIC ASSUMPTIONS

Key Assumptions

The Offeror's development program for the RFP Lots consists of the following: 1) redevelopment of the existing campus buildings into a full service production studio (Onate will be demolished,) 2) new construction of a 110,000 sf workforce housing development, 3) construction of two new large soundstages totaling approximately 60,000 sf based on market demand. Offeror will also create new retail spaces and a new educational facility in the existing campus buildings. Note that Offeror's valuation for the RFP Lots is based on their current and future development value without the addition of Shellaberger's soundstages. Offeror's Midtown Santa Fe Productions opportunity fund will use its own equity to acquire the RFP Lots and is required to invest such funds within 6 months of its 2023 March 15th corporate tax filing date, or by September 11th.

To value the land assets for each development program, Offeror has applied a direct cap rate to stabilized net income. It has then deducted the costs of development (excluding land) plus a 20% profit margin on equity to arrive at a residual asset/land value. Offeror has not used a discounted cash flow analysis because discount rates are unusually high, future cap rates are uncertain, and the interest rate environment is unpredictable. The resulting margin of error would distort a residual land valuation. All revenue and operating expense assumptions are assumed to be 2023/2024 fiscal year. Following are assumptions for each of the three main development programs:

NARRATIVE OF ECONOMIC ASSUMPTIONS (Contd pg 2)

Adaptive Reuse of Garson Studios, Benildus, Driscoll and Alumni

Operating revenue assumptions include a $3/sf/month rental rate for studio space, a $2/sf/month rental rate for office support and a $1.5/sf/month rental rate for storage and mill space. This analysis assumes a 70% occupancy rate for soundstages and a 60% occupancy rate for support space in the current configuration. It will be difficult to drive higher production occupancy in the office/support buildings at Benildus, Driscoll or Alumni only utilizing Garson one medium and two small stages. Without a large production in occupancy, which requires multiple large stages, there will be only correspondingly moderate demand for accessory office or support space.

In terms of operating costs for the existing studio properties, Offeror has created a zero-base budget in the absence of historical operating statements for the buildings, based on its recent experience at the Shellaberger. The payroll budget assumes that the studio complex will employ a staff consisting of: 1) general manager, 2) a stage manager, 3) maintenance person, 4) two porter/grounds keepers, and 5) night security for a total annual payroll of $400,000. All employees will be local hires and will receive health benefits and 401k. Note that the operating expenses required to manage this spread-out collection of smaller buildings makes the campus costlier to operate than a single large studio building. In the past, security, maintenance, payroll, management, utility, property management and landscape costs were paid by the city through its general operating budget. In the future, the Offeror will need to pay for these expenses as well as full real estate taxes.

NARRATIVE OF ECONOMIC ASSUMPTIONS (Contd pg 3)

The capitalization rate used to value the assets is 8%, reflecting the risk of the asset class and the restrictive zoning. As stated in the project summary, productions cannot typically be booked far in advance and they utilize short term leases. And because the RFP Lots have been zoned to permit only film production, when the market changes over time, the buildings may experience increased vacancy and financial downside. That increases the investment risk profile and decreases the valuation of the land.

It is the Offeror's plan to renovate the buildings utilizing its own opportunity fund equity and minimal debt. After the studio property is renovated and achieves stabilized operating income (and provided interest rates decrease,) Offeror will refinance the property with permanent debt. The proforma assumes a refinance at stabilization at 50% loan-to-cost at 6.5% interest and 30 year amortization.

The property assessment reports for Benildus Hall, Driscoll Hall and Garson Studio prepared by Wilson Companies on behalf of the city indicate an aggregate deferred maintenance of approximately $5.7m. That budget does not include the capital costs to separate the properties from the campus' private utility grid and bring public utilities to each of the properties. Offeror has assumed another $300,000 for that activity and have an overall renovation budget of approximately $6m of hard costs plus $1m in soft costs.

Based on the above assumptions and the following financial analysis, the adaptive Reuse of the existing campus buildings as a studio will generate annual real estate taxes of $65,000 and a residual land/existing building value of approximately $2,640,000.

NARRATIVE OF ECONOMIC ASSUMPTIONS (Contd pg 4)

Development of Workforce Housing

Offeror proposes to develop a 125 unit workforce housing project consisting of 15% workforce housing rental units and 85% market rate rental. The building will also include a furnished transient housing component with fully furnished apartments that can function as short term residential or hotel units for the production industry.

Current operating revenue assumptions include a $2/sf/month rental rate for workforce housing and $3/sf/month rental rate for residential market rate rentals. This analysis assumes a 95% occupancy rate for both workforce and market rate housing.

Offeror assumes a fully staffed multifamily operating expense budget that is equal to approximately 35% of revenue.

The attached letter from Jayne Construction from Albuquerque who has built many multifamily buildings in NM indicated cost of construction at $235,000/unit. Although this cost is 10-15% higher than Albuquerque and other parts of the United States, this development is economically feasible provided permanent interest rates decline in the future.

Based on the above assumptions and the following financial analysis, the adaptive Reuse of the existing campus buildings as a studio will generate annual real estate taxes of $200,000 and a residual land value of approximately $2,200,000.

NARRATIVE OF ECONOMIC ASSUMPTIONS (Contd pg 5)

Development of New Soundstages

Offeror proposes to develop two new 20,000 sf soundstages and approximately 27,000 sf of office support space. Current operating revenue assumptions include a $3.5/sf/month rental rate for studio space, a $2.25/sf/mo rental rate for office support and a $1.75/sf/month rental rate for storage and mill space. This analysis assumes an 80% occupancy rate for soundstages and 80% occupancy rate for office/support space in the current configuration. The cap rate has been reduced to 7% reflecting the fact that the studios will be state of the art and can attract larger productions.

In terms of operating costs for the new studio properties, Offeror assumes the addition of a new stage manager and maintenance person who will be supported by the existing staffing at the campus studio properties as well as customary studio real estate operating expenses.

The following letter from Klinger Construction in Albuquerque recently budgeted the expansion of Santa Fe Studios and estimated the cost of a tilt up concrete and steel industrial building at $327 psf in 2023. Unfortunately this high construction cost budget plus the required soft costs and financing costs, make this building economically infeasible to construct in the near future.

Based on the above assumptions and the following financial analysis, the adaptive Reuse of the existing campus buildings as a studio will generate annual real estate taxes of $150,000 and a residual land/existing building value of approximately ($13,270,000.) This large valuation deficit means that the project would not be economically feasible unless construction costs decrease, rents increase, occupancy increases and cap rates decrease.

NARRATIVE OF ECONOMIC ASSUMPTIONS (Contd pg 6)

Purchase Offer/Valuation Summary

The aggregate of the above residual property/land value is $4,840,000. Based on this aggregate and the potential for a positive future value for the new soundstage sites, Offeror proposes to pay a total consideration of $6,500,000 in the form of a fully amortizing land lease over 10 years at $650,000 per annum. When combined with enhanced real estate taxes (some of which will start in 2027,) this nets approximately $915,000 per annum for the city.

TECHNICAL MEMORANDUM

Wilson & Company Inc

City of Santa Fe
Midtown Engineering Support

To:	Lee Logston, Project Manager City of Santa Fe	**Date:**	08/11/2022 (rev. 8/25/22)
From:	Ross Gabaldon, PE	**Prepared by:**	Ross Gabaldon, PE
TM No.:	WWW-01	**Reviewed by:**	Brian Ambrogi, PE
Subject:	Technical Memorandum- Existing Water and Sewer Infrastructure		

SECTION 1: SUMMARY

The purpose of this report is to evaluate the existing water and sewer utility system's current capacity and determine if the existing water and sewer systems are able to satisfy the demands of the proposed new development for the Santa Fe Midtown area. The following options will be evaluated to determine the most critical infrastructure upgrades necessary to support the Midtown development:

- Sewer System
  - Existing Conditions – Evaluate the present-day flows and available capacity of the existing system
  - Full build-out scenario – Evaluate infrastructure upgrades necessary to the existing system to accommodate full build-out demands and prioritize recommended improvements to align with the respective phases of development.
- Water System
  - Existing Conditions – Evaluate the present-day flows and available capacity of the existing system
  - Full build-out scenario – Evaluate infrastructure upgrades necessary to the existing system to accommodate full build-out demands and prioritize recommended improvements to align with the respective phases of development.

The water and sewer systems were modeled in WaterCAD Connect Edition Update 2, Version 10.02.01.06 and SewerCAD Connect Edition Update 2, Version 10.02.00.55 (respectively) to determine the impact the future demands will have on pressure and flow on the water system and capacity on the sewer system. All assumptions for sewer and water flow rates are shown in **Table 1A and 1B** (attached)

SECTION 2: INTRODUCTION

This technical memorandum was developed in conjunction with the City of Santa Fe and Opticos Design to determine the water and sewer demand of a proposed re-development of the existing Midtown College Campus and evaluate the impacts these new demands would have on infrastructure capacity and sizing. The proposed project location can be found in **Figure 1**, see

Figure 2 for a more detailed layout of the proposed improvement area (definitions for lot codes can be found in **Table 1A and 1B**). Generally, the project is contained within the old community college campus, located near the intersection of Cerillos Rd. and St. Michaels Dr.

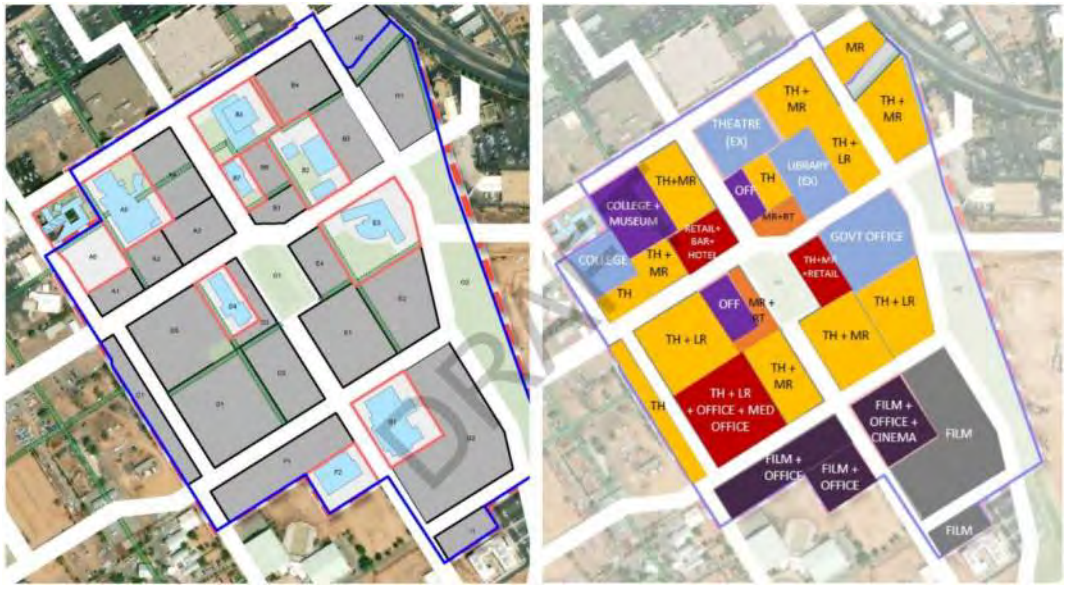

Figure 1: Project Location Map

SECTION 3: DESIGN CRITERIA / ASSUMPTIONS

General:

The proposed redevelopment of the campus consists of a variety of parcels, each parcel will be used for multifamily dwellings, commercial, office, or mixed use. See **Figure 2** below for a detailed layout of the various parcels as developed by Opticos Design.

(2-A) *(2-B)*

Figure 2 (A) Land Use Division (B) Land Use Category, See Table 1A & 1B for key

Wilson & Company has developed individual water and sewer demands for each parcel based on land-use data provided by Opticos Design and the City of Santa Fe. Water and sewer demands were calculated based on the use and on a per capita daily demand.

Water Base Flow Assumptions:

Residential

- Residents Per Unit (residential) = 3.41 Persons
- Usage Rate (residential) = 70 GPCPD (gallons per capita per day)

$$Base\ Demand = Residents * Usage * No.of\ Units$$

Office/Commercial

- Occupancy = 0.0032 Occupants / SqFt
- Usage Rate = 25 GPCPD

$$Base\ Demand = Occupancy * Usage * Area$$

Restaurant/Bar

- Occupancy = 330 Customers/day
- Usage Rate = 7 GPCPD

A peaking factor was applied to all water base flows, to determine the flow at the peak hour of the day. A peaking factor of 1.4 was used throughout the system. This peaking factor is used in similar sized developments in New Mexico and is also used by the City of Albuquerque for new xeriscaped residential and commercial developments.

$$Peak\ Flow = Base\ Flow * 1.4$$

Sewer Base Flow Assumptions:

Sewer flows are assumed to consist of 95% of the water base flow for residential and commercial applications. It is assumed that all landscaping will be xeriscaped and require low or no water. Irrigation flows for parks are accounted for separately in the model.

$$SAS\ Flow = Water\ Base\ Flow * 0.95$$

Peaking factors were also applied to the sewer flows. A separate peaking factor for residential and commercial has been used, with a higher peaking factor used for commercial/restaurants as compared to the residential peaking factor. A 1.3x peak factor was used for residential and a 1.6x peaking factor was used for all other parcels in this study. These peaking factors are used in similar sized developments in New Mexico and is also used by the City of Albuquerque for new xeriscaped residential and commercial developments.

$$SAS\ Peak\ Flow = 1.3(residential)\ or\ 1.6(commercial) * SAS\ Base\ Flow$$

SECTION 4: DESIGN ANALYSIS – WATER LINE

WATER SYSTEM DESIGN CRITERIA:

The water system was evaluated in two ways, to determine the capability of the existing system.

- Peak Flow Condition: The system is evaluated at peak flow, to determine if any pipes require upsizing
- Fire Flow condition: The system is run with fire flows (determined per IFC, maximum 2,000 GPM for the area), with the base water demand (not peak) also applied. No special requirements beyond IFC code from the Fire Marshall were specified.

For the initial model run, the system was run at peak flow, with no fire flow. In this condition, the existing system was found to be adequate to handle the peak flows for the area. The system was also evaluated at the base flow + fire flow and was found adequate in this scenario as well. Based on the calculated base and peak flows the existing water system was found to be capable of handling the proposed future demands of the development. As there is no justification to increase capacity of the existing system, no alternatives beyond simple pipe re-routing were analyzed in this report.

Option 1- Additional Waterline
This option is necessary to redirect existing water lines that are currently in the footprint of the future development. These redirected lines will be constructed in the new roadway and in the right of way. All new water lines will be a one to one replacement of existing lines, with no size increases.

As stated previously the existing water system currently will be able to meet the demands required of the future development. The system will have the adequate flows for base and peak demands and meet the required fire flow for the area. These scenarios were evaluated using WaterCAD analysis and design. See **Exhibit 3** for the results of the water modelling, anticipated flows, pipe diameter, and fire flow requirements. See **Exhibit 4** for a layout of the proposed vs. existing pipe line layout.

Additionally, this system was evaluated for fire flows. Based on information provided by the city, hydrants are tested in groups, rather than individually. Hydrant coverage and area flow availability can be seen on **Exhibit 5.** Flows in this exhibit are divided by block, and an average flow rating for any group of hydrants can be obtained by dividing the available flow in the block by the desired number of hydrants. The coverage area for each hydrant is also shown.

ASSUMPTIONS (All water lines):

- Water lines are adequately sized to provide for current and future demands (per modelling results)
- The required minimum fire flow of 2000 GPM will be met by all improvements
- The water analysis using WaterCAD is only taking into account the future development of the proposed project area, not pass-through demands for adjacent areas outside the project area. Evaluation of pass-through flows that would impact the overall City system were beyond the scope of this study.
- Relocated Lines will be installed in new roadways, no asphalt cost included in estimates

Option 1 Pros:
Waterlines will be relocated into accessible Public Right-of-Ways to eliminate future conflicts with area development. Connections along the north end and West of the property will be greatly improved by having a pipe located in the public ROW to connect to.

Option 1 Cons:
The costs incurred for the additional waterline and installation are estimated at $820,180.

Option 2- Do Nothing
Water lines currently interfere with planned development. Additionally, the water line running along the north of the property is within the shopping center parking lot which will present design difficulties and disruption to existing business. Design standards do not allow for the placement of permanent structures on top of utility lines. All areas with new water lines in this alternate will be designated as a public right-of-way.

Option 2 Pros:

Existing infrastructure is already sufficient for flows. The do-nothing scenario would require no costs to the City or future developers.

Option 2 Cons:
There can be no development on top of the existing waterlines. The new development would need to work around the existing water lines and provide easements. Connecting to the existing water line along the back of the cerillos road shopping center would cause design difficulties and disruption to the existing businesses currently served from this water line. This alternate is not recommended

SECTION 5: DESIGN ANALYSIS –SEWER LINE

SEWER SYSTEM ANALYSIS

The existing sewer system divides the existing flow into two sewer sheds, a northern connection point along Cerrillos Road, and a southern connection at Siringo Road. A field visit was performed by Wilson & Company to the proposed site and the existing sewer system was inspected. During inspection, the sewer system connected to the south at Siringo Road was found to exceed the design capacity, and surcharging manholes. The northern connection had a large underutilized sanitary sewer between the manhole on the south end of the breezeway at the Tony Anaya building to Cerillos Road. South of the Tony Anaya building the existing sewer system was in poor condition and undersized, and will need to be replaced.

Due to the poor condition of the Siringo Road sewer and the available capacity between the Tony Anaya Building and Cerillos Road, it was determined that all flow in the area could be successfully re-routed to the Cerillos Road connection point, immediately to the south of the Tony Anaya Building. Replacement of the Siringo Road sewer line with a larger line was briefly considered, but determined to be cost prohibitive due to the length and location of pipe that would need to be replaced.

The total sewer base flow for future development was calculate to be 301 GPM and the peak flow was determined to be 426 GPM.

Option S1 Sewer Redesign
Due to issues with capacity of the southern sewer line it is recommended that the existing system within the campus be replaced with the intent of directing all flow towards the north, connecting to the main line on Cerrilos Rd. This diversion of flow will help alleviate the surcharging issues on the Siringo Road Sewer by diverting some of the existing flows to the north. The design analysis in Sewer CAD was used to design the proposed sewer lines with adequate slopes, depths, and capacity to accommodate the full build-out flow condition. **Exhibit 1** illustrates the proposed sewer line improvements. Due to the change of direction of the sewer, the existing sewer lines cannot be re-used, and it is recommended that all sewer lines in the improvement area be replaced with new lines. See **Exhibit 1** for the results of the sewer modelling, including depths, slopes, pipe diameters, and anticipated flows. See **Exhibit 2** for a layout of the proposed system compared to the existing system.

Option S1 Assumptions:

- Sewer is sized to service all lots of the proposed development
- Sewer shall provide gravity service to all of the proposed development
- Velocity in sewer lines shall be less than 10 ft/sec, and greater than 2.2 ft/sec
- The sewer analysis using SewerCAD is only taking into account the future development of the proposed project area, and not the city at-large
- Sewer design flow shall be at 50% full
- The 30" Silar Road interceptor is in need of repair, and it is assumed that this interceptor will be re-lined (Via CIPP) under this project

Option S1 Pros:

Option S1 will follow the existing and proposed roadways allowing sewer pipes found to be under existing facilities to be abandoned. This option also helps to alleviate the flow on the southern sewer that presently exceeds capacity. New sewers will be able to be installed in optimal locations to avoid existing utilities and provide service to buildings.

Option S1 Cons:

Construction costs for the project will be an extra cost versus using the existing system, however the existing system is currently overloaded and cannot be used for future midtown development. Current underground composition is unknown, and conditions may present the need for rock or undesirable material excavation. A geotechnical investigation is recommended before proceeding. Pavement cuts will be required for sections that will be under existing roadways. This option is an estimated $1.1 million in capital cost.

Option S2 – Do Nothing

When Wilson and Company and City of Santa Fe officials inspected manholes in May of 2022 it was discovered that sewer lines were full and flowing over the bench along the Siringo sewer. The additional demand from the development could cause additional surcharging of the manholes, overflows, and sewer backups affecting customers and residents. Continuing with the development without the sewer redesign is not a viable option.

Option S2 Assumptions:

- Existing sewers will be used
- Existing sewers are currently over capacity (field observation)
- Existing sewers are currently in poor condition, and run underneath existing buildings
- Lines will be installed in new roadways, no asphalt cost included in estimates

Option S2 Pros:

This option unfortunately does not have any benefits if chosen. Future development of the area would create demands the existing system cannot handle leading to potential environmental hazards.

Option S2 Cons:

The extra demands on the sewer system will likely lead to sewer backups affecting residents and businesses. The existing sewer system is not in ideal locations and will likely still need relocation

to fit within public right-of-way. This option was not evaluated further since the existing system is over capacity.

SECTION 6: RECOMMENDATION OF ALTERNATIVE

It is the opinion of the Engineer that Option 1 be selected for the water line, and Option 1 be selected for the sewer line. These options both allow for the full build out of future development while providing sufficient capacity and locating all new utilities in the public right-of-way. Additionally, Option 1 will improve existing conditions on the sewer lines, by re-directing flows away from an over-capacity sewer line. Approximate costs of the recommended alternates are listed below, see **Table 2** for a more detailed breakdown of the costs for each alternative.

	RECOMMENDED ALTERNATIVE	**ALTERNATIVE COST**
WATER	WATER OPTION 1	$ 820,180.33
SEWER	SEWER OPTION 1	$ 1,105,233.70
	SUBTOTAL PROJECTED COST:	**$ 1,925,414.03**
	NMGRT @ 8.625%:	**$ 166,066.96**
	20% CONTINGENCY:	**$ 385,082.81**
	GRAND TOTAL:	**$ 2,476,563.80**

5.4 Development Standards + Regulating Plan

This Section demonstrates where form-based development standards and allowed uses apply within the Midtown Site.

Development Standards Approach

To deliver the vision described in the Plan, each development parcel on the Midtown Site shall be controlled by a combination of Sub-zone Standards that control use and Facade Zone Standards that control building massing, and design. Both sets of standards have been coordinated and must be satisfied for each development parcel on the Midtown Site.

Sub-zone Standards. These standards apply to the entirety of each site onto which they are mapped, and control allowed uses.

Facade Zone Standards. These standards apply to the edges of each site that abut public rights-of-way, civic spaces, or public access easements such as paseos. They control elements such as setbacks, height stepbacks and required frontage types.

Regulating Plan

Figure 5.4.1 (Development Standards Regulating Plan) identifies the applicable Sub-zone Standards and Facade Zone Standards for each development site in the Midtown Site.

Where development sites are combined, the applicable standards identified in the Regulating Plan must be met.

Where the location of flexible rights-of-way and easements—such as paseos and living alleys—as identified by Figure 5.2.1 (Thoroughfare Regulating Plan), is adjusted, the applicable Facade Zone Standards indicated in Figure 5.4.1 (Development Standards Regulating Plan) shall apply to the right-of-way or easement in its new location, unless the new location represents a substantial change in context which merits a change in Facade Zone type, to be determined by the Land Use Director.

Where Civic Spaces are established, such as those identified by Figure 5.3.1 (Civic Space Regulating Plan), the Facade Zone(s) mapped at the location of the Civic Space in Figure 5.4.1 (Development Standards Regulating Plan) shall govern development along all edges of the Civic Space that are not bounded by thoroughfares.

5.5 Sub-zone Standards

This Section refines the palette of uses allowed in base zoning and the Midtown LINC Zoning Area by establishing an allowed palette of uses for the Midtown Site.

Use Standards

Table 5.5.A (Allowed Uses) sets forth the uses allowed and prohibited according to the Sub-zones established by Section 5.4 (Development Standards Regulating Plan) and are not impacted by adjacent Facade Zones (see 5.6 Facade Zone Standards). These regulations are based on the patterns of development and physical activities that comprise the principal and accessory uses of land, rather than on whether the activity is conducted for profit, not for profit or other purposes. Any specific use type not listed or included in the Table 5.5.A (Allowed Uses) is prohibited unless the Land Use Director determines that it is to be included in an existing use category.

The Midtown Site Sub-zones

The following Sub-zones apply in the Midtown Site:

- Mixed-Use Neighborhood (MU–N) provides for a variety of housing options.
- Mixed-Use Commercial (MU–C) provides opportunities for limited commercial uses such as retail, dining and entertainment while providing a variety of housing options on upper floors and along pedestrian paseos.
- Mixed-Use Office (MU–O) provides opportunities for service commercial uses as a transition between film production uses and residential uses.
- Mixed-Use Film (MU–F) provides for film production activities focused on the Garson Studios.
- Community-Oriented (CO) provides for civic uses such as libraries, education, performing arts, and other uses that serve the community.
- Open Space (OS) provides for publicly-accessible civic and open space.

RE: Assignment Agreement | CB23US105690
Santa Fe College of Arts (portion of)
1600 St Michaels Dr
Santa Fe, NM 87505

Dear Mr. Gesue:

We are pleased to submit this proposal and our Terms and Conditions for this assignment.

PROPOSAL SPECIFICATIONS

Purpose:	To estimate the Market Value of the referenced real estate
Premise:	As Is
Rights Appraised:	Fee Simple
Intended Use:	Acquisition/Disposition/Exchange Due Diligence
Intended User:	The intended user is **Phillip Gesue & Midtown Santa Fe Productions QOF, LLC** ("Client"), and such other parties and entities (if any) expressly recognized by CBRE as "Intended Users" (as further defined herein).
Reliance:	Reliance on any reports produced by CBRE under this Agreement is extended solely to parties and entities expressly acknowledged in a signed writing by CBRE as Intended Users of the respective reports, provided that any conditions to such acknowledgement required by CBRE or hereunder have been satisfied. Parties or entities other than Intended Users who obtain a copy of the report or any portion thereof (including Client if it is not named as an Intended User), whether as a result of its direct dissemination or by any other means, may not rely upon any opinions or conclusions contained in the report or such portions thereof, and CBRE will not be responsible for any unpermitted use of the report, its conclusions or contents or have any liability in connection therewith.

Scope of Inspection: A full interior and exterior inspection of the property will be conducted and arranged with the property contact and performed by CBRE Valuations.

If this expected property inspection is not possible due to unforeseen issues (such as lack of on-site personnel cooperation, physical obstructions, or appraiser/property contact health and safety concerns), the client will be promptly advised. The client may continue this assignment based on other inspection options agreed upon by CBRE and client or provide CBRE with a written notice to cancel. If CBRE determines that a credible appraisal result cannot be achieved due to inspection limitations, it will promptly provide the client with a written cancellation of this assignment.

Valuation Approaches: The Cost and Sales Comparison Approaches to value will be considered.

Report Type: Restricted Appraisal Report
Appraisal Standards: USPAP
Appraisal Fee: $6,000.00. If cancelled by either party before a completion, the fee will be based on CBRE's hourly rates for the time expended; plus actual expenses.
Expenses: Fee includes all associated expenses
Retainer: A retainer of $6,000.00 is due prior to commencement of the outlined services.
Please remit retainer payments via wire to:

Name: Wells Fargo
ABA No.: 121000248
Swift ID: WFBIUS6S
Name on Account: CBRE Valuation Wire Receipts
General Account No.: 4121248561
Address: 420 Montgomery Street
San Francisco, CA 94104
Bank Contact: Michele Polcari
Telephone Number: (310) 606-4792

Please include the invoice number when submitting payment.

For additional payment remittance options, contact CBRE VAS Accounts Receivable - 901-620-3232 | **CBREVASAR@cbre.com**

Payment Terms: The full appraisal fee is considered earned upon delivery of the draft report.

Delivery Instructions:	CBRE encourages our clients to join in our environmental sustainability efforts by accepting an electronic copy of the report. An Adobe PDF file via email will be delivered to pgesue@pereholdings.com. The client has requested 0 bound final copy (ies).
Delivery Schedule:	
Preliminary Value:	Not Required
Draft Report:	15 business days after the Start Date
Final Report:	Upon Client's request
Start Date:	The appraisal process will start upon receipt of your signed agreement, the retainer, and the property specific data.
Acceptance Date:	These specifications are subject to modification if this proposal is not accepted within 5 business days from the date of this letter.

When executed and delivered by all parties, this letter, together with the Terms and Conditions and the Specific Property Data Request attached hereto and incorporated herein, will serve as the Agreement for appraisal services by and between CBRE and Client. Each person signing below represents that it is authorized to enter into this Agreement and to bind the respective parties, including all intended users, hereto.

We appreciate this opportunity to be of service to you on this assignment. If you have additional questions, please contact us.

Sincerely,

CBRE, Inc.

ADDITIONAL OPTIONAL SERVICE

Assessment & Consulting Services: CBRE's Assessment & Consulting Services group has the capability of providing a wide array of solution-oriented due diligence services in the form of property condition and environmental site assessment reports and other necessary due diligence service (seismic risk analysis, zoning compliance service, construction risk management, annual inspections, etc.).

Initial below if you desire CBRE to contact you to discuss a proposal for any part or the full complement of consulting services, or you may reach out to us at **ACSProposals@cbre.com**. We will route your request to the appropriate manager. For more information, please visit www.cbre.com/assessment.

TERMS AND CONDITIONS

1. The Terms and Conditions herein are part of an agreement for appraisal services (the "Agreement") between CBRE, Inc. (the "Appraiser") and the client signing this Agreement, and for whom the appraisal services will be performed (the "Client"), and shall be deemed a part of such Agreement as though set forth in full therein. The Agreement shall be governed by the laws of the state where the appraisal office is located for the Appraiser executing this Agreement.
2. Client shall be responsible for the payment of all fees stipulated in the Agreement. Payment of the appraisal fee and preparation of an appraisal report (the "Appraisal Report, or the "report") are not contingent upon any predetermined value or on an action or event resulting from the analyses, opinions, conclusions, or use of the Appraisal Report. Final payment is due as provided in the Proposal Specifications Section of this Agreement. If a draft report is requested, the fee is considered earned upon delivery of the draft report. It is understood that the Client may cancel this assignment in writing at any time prior to delivery of the completed report. In such event, the Client is obligated only for the hourly rate of the time and expenses incurred (including travel expenses to and from the engagement site), with a minimum charge of $500. Additional copies of the Appraisal Reports are available at a cost of $250 per original color copy and $100 per photocopy (black and white), plus shipping fees of $30 per report.
3. If Appraiser is subpoenaed or ordered to give testimony, produce documents or information, or otherwise required or requested by Client or a third party to participate in meetings, phone calls, conferences, litigation or other legal proceedings (including preparation for such proceedings) because of, connected with or in any way pertaining to this engagement, the Appraisal Report, the Appraiser's expertise, or the Property, Client shall pay Appraiser's additional costs and expenses, including but not limited to Appraiser's attorneys' fees, and additional time incurred by Appraiser based on Appraiser's then-prevailing hourly rates and related fees. Such charges include and pertain to, but are not limited to, time spent in preparing for and providing court room testimony, depositions, travel time, mileage and related travel expenses, waiting time, document review and production, and preparation time (excluding preparation of the Appraisal Report), meeting participation, and Appraiser's other related commitment of time and expertise. Hourly charges and other fees for such participation will be provided upon request. In the event Client requests additional appraisal services beyond the scope and purpose stated in the Agreement, Client agrees to pay additional fees for such services and to reimburse related expenses, whether or not the completed report has been delivered to Client at the time of such request.
4. Appraiser shall have the right to terminate this Agreement at any time for cause effective immediately upon written notice to Client on the occurrence of fraud or the willful misconduct of Client, its employees or agents, or without cause upon 5 days written notice.
5. In the event Client fails to make payments when due then, from the date due until paid, the amount due and payable shall bear interest at the maximum rate permitted in the state where the office is located for the Appraiser executing the Agreement. In the event either party institutes legal action against the other to enforce its rights under this Agreement, the prevailing party shall be entitled to recover its reasonable attorney's fees and expenses. Each party waives the right to a trial by jury in any action arising under this Agreement.
6. Appraiser assumes there are no major or significant items or issues affecting the Property that would require the expertise of a professional building contractor, engineer, or environmental consultant for Appraiser to prepare a valid report. Client acknowledges that such additional expertise is not covered in the Appraisal fee and agrees that, if such additional expertise is required, it shall be provided by others at the discretion and direction of the Client, and solely at Client's additional cost and expense.
7. In the event of any dispute between Client and Appraiser relating to this Agreement, or Appraiser's or Client's performance hereunder, Appraiser and Client agree that such dispute shall be resolved by means of binding arbitration in accordance with the commercial arbitration rules of the American Arbitration Association, and judgment upon the award rendered by an arbitrator may be entered in any court of competent jurisdiction. Depositions may be taken and other discovery obtained during such arbitration proceedings to the same extent as authorized in civil judicial proceedings in the state where the office of the Appraiser executing this Agreement is located. The arbitrator shall be limited to awarding compensatory damages and shall have no authority to award punitive, exemplary or similar damages. The prevailing party in the arbitration proceeding shall be entitled to recover its expenses from the losing party, including costs of the arbitration proceeding, and reasonable attorney's fees. Client acknowledges that Appraiser is being retained hereunder as an independent contractor to perform the services described herein and nothing in this Agreement shall be deemed to create any other relationship between

Client and Appraiser. This engagement shall be deemed concluded and the services hereunder completed upon delivery to Client of the Appraisal Report discussed herein.

8. All statements of fact in the report which are used as the basis of the Appraiser's analyses, opinions, and conclusions will be true and correct to Appraiser's actual knowledge and belief. Appraiser does not make any representation or warranty, express or implied, as to the accuracy or completeness of the information or the condition of the Property furnished to Appraiser by Client or others. TO THE FULLEST EXTENT PERMITTED BY LAW, APPRAISER DISCLAIMS ANY GUARANTEE OR WARRANTY AS TO THE OPINIONS AND CONCLUSIONS PRESENTED ORALLY OR IN ANY APPRAISAL REPORT, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF FITNESS FOR ANY PARTICULAR PURPOSE EVEN IF KNOWN TO APPRAISER. Furthermore, the conclusions and any permitted reliance on and use of the Appraisal Report shall be subject to the assumptions, limitations, and qualifying statements contained in the report.
9. Appraiser shall have no responsibility for legal matters, including zoning, or questions of survey or title, soil or subsoil conditions, engineering, or other similar technical matters. The report will not constitute a survey of the Property analyzed.
10. Client shall provide Appraiser with such materials with respect to the assignment as are requested by Appraiser and in the possession or under the control of Client. Client shall provide Appraiser with sufficient access to the Property to be analyzed, and hereby grants permission for entry unless discussed in advance to the contrary.
11. The data gathered in the course of the assignment (except data furnished by Client) and the report prepared pursuant to the Agreement are, and will remain, the property of Appraiser. With respect to data provided by Client, Appraiser shall not violate the confidential nature of the Appraiser-Client relationship by improperly disclosing any proprietary information furnished to Appraiser. Notwithstanding the foregoing, Appraiser is authorized by Client to disclose all or any portion of the report and related data as may be required by statute, government regulation, legal process, or judicial decree, including to appropriate representatives of the Appraisal Institute if such disclosure is required to enable Appraiser to comply with the Bylaws and Regulations of such Institute as now or hereafter in effect.
12. Unless specifically noted, in preparing the Appraisal Report the Appraiser will not be considering the possible existence of asbestos, PCB transformers, or other toxic, hazardous, or contaminated substances and/or underground storage tanks (collectively, "Hazardous Material) on or affecting the Property, or the cost of encapsulation or removal thereof. Further, Client represents that there is no major or significant deferred maintenance of the Property that would require the expertise of a professional cost estimator or contractor. If such repairs are needed, the estimates are to be prepared by others, at Client's discretion and direction, and are not covered as part of the Appraisal fee.
13. In the event Client intends to use the Appraisal Report in connection with a tax matter, Client acknowledges that Appraiser provides no warranty, representation or prediction as to the outcome of such tax matter. Client understands and acknowledges that any relevant taxing authority (whether the Internal Revenue Service or any other federal, state or local taxing authority) may disagree with or reject the Appraisal Report or otherwise disagree with Client's tax position, and further understands and acknowledges that the taxing authority may seek to collect additional taxes, interest, penalties or fees from Client beyond what may be suggested by the Appraisal Report. Client agrees that Appraiser shall have no responsibility or liability to Client or any other party for any such taxes, interest, penalties or fees and that Client will not seek damages or other compensation from Appraiser relating to any such taxes, interest, penalties or fees imposed on Client, or for any attorneys' fees, costs or other expenses relating to Client's tax matters.
14. Appraiser shall have no liability with respect to any loss, damage, claim or expense incurred by or asserted against Client arising out of, based upon or resulting from Client's failure to provide accurate or complete information or documentation pertaining to an assignment ordered under or in connection with this Agreement, including Client's failure, or the failure of any of Client's agents, to provide a complete copy of the Appraisal Report to any third party.
15. LIMITATION OF LIABILITY. EXCEPT TO THE EXTENT ARISING FROM SECTION 16 BELOW, OR SECTION 17 IF APPLICABLE, IN NO EVENT SHALL EITHER PARTY OR ANY OF ITS AFFILIATE, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS, OR CONTRACTORS BE LIABLE TO THE OTHER, WHETHER BASED IN CONTRACT, WARRANTY, INDEMNITY, NEGLIGENCE, STRICT LIABILITY OR OTHER TORT OR OTHERWISE, FOR ANY SPECIAL, CONSEQUENTIAL, PUNITIVE, INCIDENTAL OR INDIRECT DAMAGES, AND AGGREGATE DAMAGES IN CONNECTION WITH THIS AGREEMENT FOR EITHER PARTY (EXCLUDING THE OBLIGATION TO PAY THE FEES REQUIRED HEREUNDER) SHALL NOT EXCEED THE GREATER OF THE TOTAL FEES PAYABLE TO APPRAISER UNDER THIS AGREEMENT OR TEN THOUSAND DOLLARS ($10,000). THIS LIABILITY LIMITATION SHALL NOT APPLY IN THE EVENT OF A FINAL FINDING BY AN ARBITRATOR OR A COURT OF COMPETENT JURISDICTION THAT SUCH LIABILITY IS THE RESULT OF A PARTY'S FRAUD OR WILLFUL MISCONDUCT.

16. Client shall not disseminate, distribute, make available or otherwise provide any Appraisal Report prepared hereunder to any third party (including without limitation, incorporating or referencing the Appraisal Report , in whole or in part, in any offering or other material intended for review by other parties) except to (i) any third party expressly acknowledged in a signed writing by Appraiser as an "Intended User" of the Appraisal Report provided that either Appraiser has received an acceptable release from such third party with respect to such Appraisal Report or Client provides acceptable indemnity protections to Appraiser against any claims resulting from the distribution of the Appraisal Report to such third party, (ii) any third party service provider (including rating agencies and auditors) using the Appraisal Report in the course of providing services for the sole benefit of an Intended User, or (iii) as required by statute, government regulation, legal process, or judicial decree. In the event Appraiser consents, in writing, to Client incorporating or referencing the Appraisal Report in any offering or other materials intended for review by other parties, Client shall not distribute, file, or otherwise make such materials available to any such parties unless and until Client has provided Appraiser with complete copies of such materials and Appraiser has approved all such materials in writing. Client shall not modify any such materials once approved by Appraiser. In the absence of satisfying the conditions of this paragraph with respect to a party who is not designated as an Intended User, in no event shall the receipt of an Appraisal Report by such party extend any right to the party to use and rely on such report, and Appraiser shall have no liability for such unauthorized use and reliance on any Appraisal Report. In the event Client breaches the provisions of this paragraph, Client shall indemnify, defend and hold Appraiser, and its affiliates and their officers, directors, employees, contractors, agents and other representatives (Appraiser and each of the foregoing an "Indemnified Party" and collectively the "Indemnified Parties"), fully harmless from and against all losses, liabilities, damages and expenses (collectively, "Damages") claimed against, sustained or incurred by any Indemnified Party arising out of or in connection with such breach, regardless of any negligence on the part of any Indemnified Party in preparing the Appraisal Report.

17. Furthermore, Client shall indemnify, defend and hold each of the Indemnified Parties harmless from and against any Damages in connection with (i) any transaction contemplated by this Agreement or in connection with the appraisal or the engagement of or performance of services by any Indemnified Party hereunder, (ii) any Damages claimed by any user or recipient of the Appraisal Report, whether or not an Intended User, (iii) any actual or alleged untrue statement of a material fact, or the actual or alleged failure to state a material fact necessary to make a statement not misleading in light of the circumstances under which it was made with respect to all information furnished to any Indemnified Party or made available to a prospective party to a transaction, or (iv) an actual or alleged violation of applicable law by an Intended User (including, without limitation, securities laws) or the negligent or intentional acts or omissions of an Intended User (including the failure to perform any duty imposed by law); and will reimburse each Indemnified Party for all reasonable fees and expenses (including fees and expenses of counsel) (collectively, "Expenses") as incurred in connection with investigating, preparing, pursuing or defending any threatened or pending claim, action, proceeding or investigation (collectively, "Proceedings") arising therefrom, and regardless of whether such Indemnified Party is a formal party to such Proceeding. Client agrees not to enter into any waiver, release or settlement of any Proceeding (whether or not any Indemnified Party is a formal party to such Proceeding) without the prior written consent of Appraiser (which consent will not be unreasonably withheld or delayed) unless such waiver, release or settlement includes an unconditional release of each Indemnified Party from all liability arising out of such Proceeding.

18. Time Period for Legal Action. Unless the time period is shorter under applicable law, except in connection with paragraphs 16 and 17 above, Appraiser and Client agree that any legal action or lawsuit by one party against the other party or its affiliates, officers, directors, employees, contractors, agents, or other representatives, whether based in contract, warranty, indemnity, negligence, strict liability or other tort or otherwise, relating to (a) this Agreement or the Appraisal Report, (b) any services or appraisals under this Agreement or (c) any acts or conduct relating to such services or appraisals, shall be filed within two (2) years from the date of delivery to Client of the Appraisal Report to which the claims or causes of action in the legal action or lawsuit relate. The time period stated in this section shall not be extended by any incapacity of a party or any delay in the discovery or accrual of the underlying claims, causes of action or damages.

Professional Experience

Ian Valenzuela is a Vice President with the CBRE Valuation & Advisory Group. Ian has over 28 years of experience as a real estate appraiser, receiving his General Appraiser Certification in 2000, and the MAI designation from the Appraisal Institute in 2014. Ian has extensive experience in the New Mexico commercial real estate market, and has a comprehensive understanding of market trends and analysis. Ian has worked on a wide variety of valuation projects throughout New Mexico for a broad spectrum of property types including: self-storage, multi family, right of way, office, industrial, retail, residential and commercial subdivisions, auto dealerships, service stations, restaurants, hotels and motels, mixed-use properties and specialty property types such as car washes, recreational properties, worship facilities, and government offices. Assignments have included market value appraisals, market rent studies, ad veloram tax appraisals, right of way valuation, and highest and best use analysis. Ian has worked for private local appraisal firms including Roos and Owens Appraisal Service in Rio Rancho, NM, and American Property Consultants in Albuquerque, NM, as well as the Sandoval County Assessor's Office, and as a Senior Appraiser at Grubb & Ellis / Collier's International.

Ian's background in and experience and Appraisal allows him to provide his clients with the most in-depth, up-to-date information on how market conditions will affect the value of their property. He is an expert at leveraging the full portfolio of CBRE resources to ensure that his clients have all the information needed to make an informed decision.

Ian has a bachelor's degree in University Studies, with an emphasis in real estate and statistics, from the University of New Mexico. His professional education consists of classes from the Appraisal Institute including: General Applications, Apartment Appraisal, Advanced Income Capitalization, Report Writing & Valuation Analysis, Highest and Best Use/ Market Analysis, Advanced Applications, Comparative Analysis, Marketability Studies, Real Estate Finance Statistics & Modeling, Advanced Spreadsheet Modeling, Condemnation Appraising, Case Studies in Complex Valuation, Property Rights & Implications in Valuation. Ian received the MAI designation from the Appraisal Institute in 2014.

RE:	Appraisal of 1600 St. Michaels Drive, Santa Fe, NM 87505

Dear Mr. Logston;

Pursuant to your request, I have completed the appraisal of the above referenced property. The depth of discussion and supporting documentation contained in this report are specific, expressed requirements of the client. This appraisal was prepared in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP) 2024 and is subject to the assumptions and limiting conditions described in the report.

Based on the data and analyses contained in this report, it is my opinion the most probable fee simple market value (subject to extraordinary assumptions, easements and restrictions of record) in the subject property 'as is' as of November 15, 2023 is:

FINAL VALUE

Subject: Midtown Studios Pere		
Market Value	**Fee Simple**	**Eleven Million Four Hundred Thousand Dollars $11,400,000**

Extraordinary Assumptions
The property is subject to at least two City of Santa Fe Resolutions (No. 2018-54 and 2022-12), which result in the proposed, and now assumed, rezoning from a R-5 Residential Zone to a C-2 General Commercial District. If this assumption should prove to be inaccurate, the subject's value could be impacted.
The property has had two Phase 1 and one Phase 2 Environmental Site Assessment Reports completed and it is assumed any and all environmental concerns were addressed. If this assumption should prove to be inaccurate, the subject's value could be impacted.
The subject has excess land. No survey or engineering report has been provided to the appraiser to calculate the excess land. The appraiser has utilized lot coverage ratios in order to produce an amount of excess land. If this assumption should prove to be inaccurate, the subject's value could be impacted.
According to the appraiser the Driscoll structure should be converted into a soundstage with the remaining space used as supportive office. There have been some structural issues identified that could make the conversion of the building inappropriate. If the structure is found to be structurally adequate or financially feasible to be renovated to be adequate, the results of this appraisal are subject to change.
Note: If these assumptions should prove inaccurate, the subject's value could be impacted.

The attached appraisal report contains 107 pages plus addenda. If I can be of any further service with this appraisal or another matter, please do not hesitate to contact me.

Respectfully submitted,

Tim Connelly, MAI

Extraordinary Assumptions
The property is subject to at least two City of Santa Fe Resolutions (No. 2018-54 and 2022-12), which result in the proposed, and now assumed, rezoning from a R-5 Residential Zone to a C-2 General Commercial District. If this assumption should prove to be inaccurate, the subject's value could be impacted.
The property has had two Phase 1 and one Phase 2 Environmental Site Assessment Reports completed and it is assumed any and all environmental concerns were addressed. If this assumption should prove to be inaccurate, the subject's value could be impacted.
The subject has excess land. No survey or engineering report has been provided to the appraiser to calculate the excess land. The appraiser has utilized lot coverage ratios in order to produce an amount of excess land. If this assumption should prove to be inaccurate, the subject's value could be impacted.
According to the appraiser the Driscoll structure should be converted into a soundstage with the remaining space used as supportive office. There have been some structural issues identified that could make the conversion of the building inappropriate. If the structure is found to be structurally adequate or financially feasible to be renovated to be adequate, the results of this appraisal are subject to change.
Note: If these assumptions should prove inaccurate, the subject's value could be impacted.

CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial and unbiased professional analyses, opinions, and conclusions
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved
- I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment. I completed real estate consulting work on a neighboring property of the subject. This work was completed for parties that are the potential purchaser of the subject of this report.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the *Uniform Standards of Professional Appraisal Practice*
- I have made a personal inspection of the property that is the subject of this report
- I have personal knowledge of all comparable properties referenced within this report
- The use of this appraisal report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives
- Suzanna Denison provided significant real property appraisal assistance to the person signing this certification. Suzanna assisted with the property inspection, introduction and description sections and overall formatting of the report.
- The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives
- As of the date of this report, Tim Connelly has completed the continuing education program for Designated Members of the Appraisal Institute
- As of the date of this report, Tim Connelly has completed the requirements for the continuing education program of the State of New Mexico Real Estate Appraisers Board for General Certification.
- Tim Connelly has the education, knowledge, experience, resources, and geographic competency to appraise a property of this type in this location
- My certification and any professional designations are currently valid, in good standing and not subject to any restrictions or pending actions/sanctions
- The appraisal has been completed in accordance with the Clients Engagement Requirements

ASSUMPTIONS AND LIMITING CONDITIONS

This appraisal report has been prepared with the following specific assumptions:

1. It is assumed that the supporting documentation provided for the appraisal is correct.
2. I have relied on information prepared by licensed professionals in making certain decisions in the process of this appraisal. I have accepted this information as accurate, based on the fact that they represent matters beyond my expertise as an appraiser along with the fact that they were prepared by recognized professionals.

This report has been made with the following general assumptions:

3. No responsibility is assumed for the legal description or for matters including legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated.
4. The property is appraised free and clear of any or all liens or encumbrances unless otherwise stated.
5. Responsible ownership and competent property management are assumed.
6. The information furnished by others is believed to be reliable. However, no warranty is given for its accuracy.
7. All engineering is assumed to be correct. The plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.
8. It is assumed that there are no hidden or unapparent conditions of the property, subsoil or structures that render it more or less valuable. No responsibility is assumed for such conditions or for arranging engineering studies that may be required to discover them.
9. It is assumed that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless noncompliance is stated, defined, and considered in the report.
10. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless a nonconforming use has been stated, defined, and considered in the report. Please refer to the discussion of zoning found within the report.
11. It is assumed that all required licenses, permits, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
12. It is assumed that the utilization of the land and improvements is within the boundaries or property lines of the property described and that there is no encroachment or trespass unless noted in the report.
13. Unless otherwise stated in this report, the existence of hazardous substances, including, without limitation, asbestos, polychlorinated biphenyls, petroleum leakage, or agricultural chemicals, which may or may not be present on the property, or other environmental conditions, were not called to my attention nor did I become aware of such during the inspection. I have no knowledge of the existence of such materials on or in the property unless otherwise stated. However, I am not qualified to test such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde foam insulation, or other hazardous substances or environmental conditions, may affect the value of the property, the value estimated is predicated on the assumption that there is no condition on or in the property or in such proximity thereto that it would cause a loss in value. No responsibility is assumed for any such condition, or for any expertise or engineering knowledge required to discover them.
14. Unless otherwise stated in this report, the subject property is appraised without a specific compliance survey having been conducted to determine if the property is or is not in conformance with the requirements of the Americans with Disabilities Act. The presence of architectural and communications barriers that are structural in nature that would restrict access by disabled individuals may adversely affect the property's value, marketability, or utility.

The report has been prepared with the following limiting conditions:

15. The conclusions expressed in this appraisal report apply only as of the stated date of the appraisal and I assume no responsibility for economic or physical factors occurring at some

later date which may affect the opinions stated herein.

16. The distribution, if any, of the total valuation in this report between land and improvements applies only under the stated program of utilization.
17. By reason of the assignment, I am not required to give consultation, testimony, or be in attendance in court or any other hearing with reference to the property unless written contractual arrangements have been previously made relative to such additional services.
18. Disclosure of the contents of the report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
19. Neither all, nor any part of this report, or copy thereof shall be used for any purposes by anyone other than the client to which the report is addressed without the prior written consent of the appraiser, nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media, or any other means of communication (including without limitation prospectus, private offering memoranda and other offering material provided to prospective investors) without the prior written consent of the appraiser.

Extraordinary Assumptions
The property is subject to at least two City of Santa Fe Resolutions (No. 2018-54 and 2022-12), which result in the proposed, and now assumed, rezoning from a R-5 Residential Zone to a C-2 General Commercial District. If this assumption should prove to be inaccurate, the subject's value could be impacted.
The property has had two Phase 1 and one Phase 2 Environmental Site Assessment Reports completed and it is assumed any and all environmental concerns were addressed. If this assumption should prove to be inaccurate, the subject's value could be impacted.
The subject has excess land. No survey or engineering report has been provided to the appraiser to calculate the excess land. The appraiser has utilized lot coverage ratios in order to produce an amount of excess land. If this assumption should prove to be inaccurate, the subject's value could be impacted.
According to the appraiser the Driscoll structure should be converted into a soundstage with the remaining space used as supportive office. There have been some structural issues identified that could make the conversion of the building inappropriate. If the structure is found to be structurally adequate or financially feasible to be renovated to be adequate, the results of this appraisal are subject to change.
Note: If these assumptions should prove inaccurate, the subject's value could be impacted.

INTRODUCTION

Appraisal Report: This is an Appraisal Report which is intended to comply with the reporting requirements set forth under Standards Rule 2-2(a) of the Uniform Standards of Professional Appraisal Practice 2024. The report and the level of information in the report are based on the needs of the client.

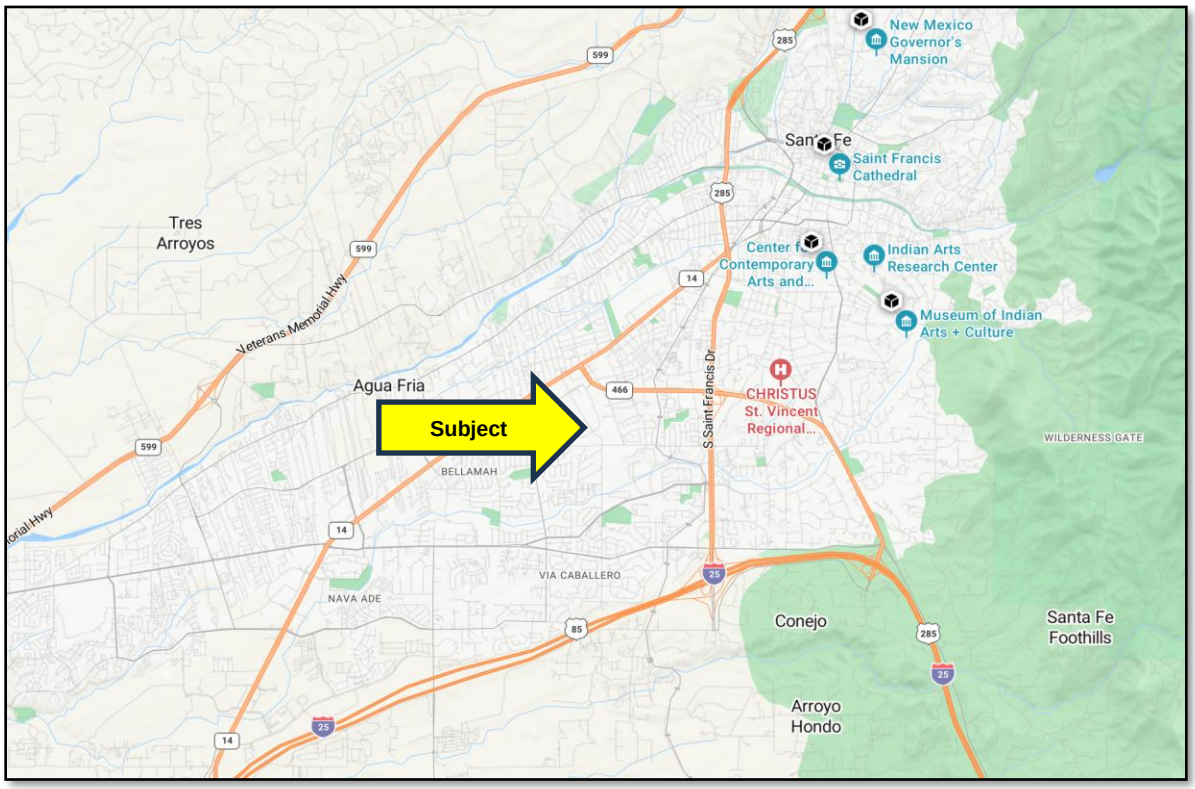
Property Identification: The subject of the appraisal is comprised of commercial – mixed use of offices, film studios, and a former gymnasium/fitness center located on multiple tracks located at 1600 St. Michaels Drive, Santa Fe, NM 87505. This is a portion of the property formerly known as the Santa Fe University of Art & Design.

Property Ownership and History:

Property	Current Owner
1600 St. Michaels Drive	City of Santa Fe
Comments	
The subject property is currently vested in the name of City of Santa Fe, who acquired title to the property in September 2009.	

The subject property has a longstanding history in the City of Santa Fe. Originally founded as St. Michael's College in 1859 by four brothers of the De La Salle Christian order as a Catholic facility, it grew to include secondary and higher education. In 1947, the property expanded when an adjacent portion of the abandoned Bruns Army Hospital, including army barracks used during World War II, was purchased by the College of Christian Brothers of New Mexico. In 1966, the subject was renamed the College of Santa Fe and in 1985, the Santa Fe Art Institute opened on the campus.

In September of 2009, the City of Santa Fe purchased the college from the Christian Brothers for $19,500,000 and signed a 26-year lease with the for-profit educational company Laureate Education, who relaunched the school as Santa Fe University of Art and Design. During the summer of 2018, the Santa Fe University of Art and Design gave notice that they would be vacating the facility due to financial difficulties.



Since 2020, the City of Santa Fe has initiated large-scale redevelopment plans for the subject property and film studio production began in earnest with most useable buildings leased with annual terms for film productions. In March of 2022, the adjacent

8.6-acre Shellaberger Tennis Center was purchased for $6.7 million by PE Real Estate Holdings and converted into sound stages and film production warehouses.

In February of 2023, a community development plan to address affordable housing, arts, film, and library with educational programming was approved after a series of public meetings. In March of 2023, the Midtown Studios Film Productions/PE Real Estate Holdings, the current tenants, submitted a proposal for redevelopment and expansion of the subject property as a “Studio Village” through a Request for Proposals initiated from the City of Santa Fe. It is the understanding of this appraiser that the sole bidder in this project is now in negotiations with the City to purchase the property that is the subject of this report. A copy of the Purchase Agreement was not provided to the appraiser.

Location Of The Property: 1600 St. Michaels Drive, Santa Fe, NM 87505 –
The subject property is located on south side of St. Michaels Drive and on the north side of Siringo Road, having access from these streets. The subject is on the west side of Llano Street, on the east side of Camino Carlos Ray and on the southeast side of Cerrillos Road but does not have access from these streets. The subject is located on the former campus of the private Santa Fe University of Art and Design and surrounded by public property including elementary, mid-school and high schools and City and State public buildings within Santa Fe, NM.

Location Map

Type and Definition of Value: The purpose of the appraisal is to provide the appraiser's best estimate of the market value of the subject property as of the effective date. The market value definition is defined by FIRREA:

Market Value Definition
The most probable price which a property should bring in a competitive and open market under conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:
1. Buyer and seller are typically motivated; 2. Both parties are well informed or well advised, and each acting in what they consider their own best interests; 3. A reasonable time is allowed for exposure in the open market; 4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and 5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.[1]

Intended Use of the Appraisal: The intended use of the appraisal is to assist the client with asset valuation for negotiation of potential lease/sale.

Intended User of the Report: The report is intended for use by the client, City of Santa Fe, Office of Economic Development. Any other party who chooses to rely on this report is advised the appraiser is not obligated to any party other than the original intended user, nor does reliance on the report by a party other than the original intended user result in such party becoming an intended user of the report.

Interest Valued: The subject is comprised of commercial – mixed use of offices, film studios, and a former gymnasium/fitness center that are available to be leased. Over the past several years the leases have short terms because the owner is attempting to sell the property subject to a development plan. As such, this appraisal will produce a final value, subject to fee simple ownership.

Definition: Fee Simple Interest
Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.[2]

Effective Date of Value: The effective date of the fee simple market value of the subject property 'as is' is November 15, 2023, which is the date the property was inspected.

[1] Department of Treasury, 12 CFR 34

[2] The Appraisal Institute, The Dictionary of real Estate Appraisal, 7th ed., (Chicago: Appraisal Institute, 2022), p. 73

Date of the Report: March 4, 2024

Legal Description: A survey on the subject has not been completed. The subject is a portion of the former College of Santa Fe, Located within Section 34, T17N, R9E within the City and County of Santa Fe, New Mexico

Property Taxes: The subject property is owned by the City of Santa Fe and is not subject to property taxation. If the property is conveyed to private ownership, it will be subject to property taxes.

Scope Of The Appraisal: This appraisal was prepared in accordance with the *Uniform Standards of Professional Appraisal Practice 2024* and instructions accompanying the definition of market value promulgated by the FDIC. The written reporting format for this assignment is defined by U.S.P.A.P. as an appraisal report. Preparation of the appraisal involved the following:

Subject Property	
Midtown Studios (Pere) located at 1600 St. Michaels Drive	
The subject property is comprised of several structures over 12+ acres of land.	
Scope of Work	
1. Inspected the site and the improvements	
2. Gathered and confirmed information on comparable improved commercial sales, rents, operating expenses and capitalization rates. Additionally, collected comparable estimates for demolition. ***Note: Sales were viewed by the appraisers in this firm and confirmed with a party knowledgeable regarding the transactions.***	
○ Valuation – based on the highest and best use. Confirmed and analyzed the data and applied the following approaches: ○ Sales Comparison Approach (buildings and excess land) ○ Income Approach: Direct Capitalization • Cost Approach: <u>not</u> developed due to age of improvements/speculative depreciation ○ Reconciled these approaches to a final estimate of market value	
Extraordinary Assumptions and Hypothetical Conditions	
Extraordinary assumptions	Yes - used in this report
Hypothetical conditions	Not used in this report

Definition: Extraordinary Assumption
An assignment-specific assumption, as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. Comment: Uncertain information might include physical, legal, or economic characteristics of the subject property, or conditions external to the property, such as market conditions or trends, or about the integrity of data used in an analysis. (USPAP, 2020-2023 ed.)[3]

Currently, the City of Santa Fe GIS Zoning Map shows that the subject is zoned as an R-5 Residential Zone. However, there are at least two City of Sante Fe Resolutions (No. 2018-54 and 2022-12), in which direct the City Zoning to rezoned the subject to a C-2 General Commercial District.

Extraordinary Assumption
The property is subject to at least two City of Santa Fe Resolutions (No. 2018-54 and 2022-12), which result in the proposed, and now assumed, rezoning from a R-5 Residential Zone to a C-2 General Commercial District. If this assumption should prove to be inaccurate, the subject's value could be impacted.

The subject has had two Phase 1 Environmental Site Assessment Reports, where several Recognized Environmental Conditions were concluded and then addressed by a Phase 2 Environmental Site Assessment Report. The results of those Phase 2 procedures were negative of any environmental impact.

Extraordinary Assumption
The property has had two Phase 1 and one Phase 2 Environmental Site Assessment Reports completed and it is assumed any and all environmental concerns were addressed. If this assumption should prove to be inaccurate, the subject's value could be impacted.

Currently, there is no known survey of the subject property. As such, the appraiser has used lot coverage ratios to calculate the excess land amount.

Extraordinary Assumption
The subject has excess land. No survey or engineering report has been provided to the appraiser to calculate the excess land. The appraiser has utilized lot coverage ratios in order to produce an amount of excess land. If this assumption should prove to be inaccurate, the subject's value could be impacted.

[3] Ibid., p. 68

No items of personal property are included in this appraisal. Aside from a casual inspection of the property, the appraisal included no assessment of potential environmental hazards.

The appraisal is prepared based on this assumption.

To the Best of my Knowledge, this Report Complies with:
• The Office of the Comptroller of the Currency Regulation 12 CFR Part 34 minimum standards. • The Appraisal Guidelines of Richard Brown • The New Mexico Real Estate Appraiser Laws • Uniform Standards of Professional Appraisal Practice of the Appraisal Foundation 2020-2023 • Code of Professional Ethics and Standards of Professional Practice of the Appraisal Institute

The final determination as to the level and degree of compliance of this report with regard to the foregoing policies and guidelines is the responsibility of any person relying on this report. The appraisal is performed according to Title XI of the Federal Financial Institution Reform Recovery and Enforcement Act (FIRREA). The appraisal is also subject to the appraiser's Certification and Statement of Assumptions and Limiting Conditions which accompany this report.

Marketing Time and Exposure Time:

The marketing/exposure time discussion follows.

Marketing Time Definition
An opinion of the amount of time to sell a property interest at the concluded market value or at a benchmark price during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which precedes the effective date of an appraisal. (Advisory Opinion 7 and Advisory Opinion 35 of the Appraisal Standards Board of The Appraisal Foundation address the determination of reasonable exposure and marketing time.)[4]
Exposure Time Definition
1. The time a property remains on the market. 2. An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. (USPAP, 2020-2023 ed.)[5]

In a stable market the marketing time and the exposure time should be the same. The Santa Fe market had been in a state of varying levels of decline for several years after the recession, with some of the market exhibiting tepid performance and some of the market exhibiting significant shifts. Those shifts could cause a difference in the marketing time and exposure time. However, based on economic data over the past few years, the market appears to have stabilized with less evidence of shifts in the market that could cause a difference in the marketing or exposure time. Therefore, they have been assumed to be the same in this analysis.

Marketing time will be affected by the supply and demand factors within the marketplace. Typically, support for a marketing time is sought from the known marketing time of similar properties.

Subject Property: 1600 St. Michaels Drive
The subject property is comprised of commercial – mixed use of offices, film studios, and a former gymnasium/fitness center.

[4] Ibid., p. 116
[5] Ibid., p. 68

Due to the limited number of sales of this property type, the search was extended to all commercial sales in Santa Fe. The MLS commercial improved sales in Santa Fe since 2016 and the current MLS listings are detailed in the following table.

COMMERCIAL SALES/LISTING TABLE

Sales							
		Median			**Average**		
Year	**Sales**	**SP**	**DOM**	**SP/LP**	**SP**	**DOM**	**SP/LP**
2023: (thru 11/23/23)	29	$825,000	345	95%	$842,552	123	94%
2022	49	$907,000	90	93%	$1,355,150	241	95%
2021	51	$603,000	110	97%	$892,640	158	95%
2020	40	$460,000	91	95%	$825,531	194	93%
2019	40	$461,750	131	96%	$876,824	189	89%
2018	34	$510,000	107	91%	$829,485	185	90%
2017	39	$468,592	327	94%	$688,567	350	86%
2016	38	$570,000	237	99%	$787,965	311	88%
Listings							
	Listings	**Median**			**Average**		
Year		**LP**	**DOM**	**SP/LP**	**LP**	**DOM**	**SP/LP**
Active	50*	$955,000	1138	n/a	$1,577,874	227	n/a
*Pending:6 current listings							
Source: Santa Fe Area Multiple Listing Service							

The data shows absorption of commercial real estate has been relatively stable from 2016 through 2020 with an increase in 2021 and 2022. There is a 12.2 months' supply based on the 2022 sales and current listings. The median and average market exposure among the sales in the last five years ranged from three to eight months.

Conclusion: Due to the subject's location in the fast-growing southwest sector of the city, the subject property is marketable; however, there are several structures and a larger than normal amount of land. If the subject property was actively marketed at or near the appraised value, the marketing time/exposure time is estimated to be three months to two years.

Marketing & Exposure Times	
1600 St. Michaels Drive	Estimated to be three months to two years if actively marketed at or near the current market value. The most likely buyer is a national investor.

DESCRIPTION OF REAL ESTATE APPRAISED
Location Description – City

Santa Fe is a small city located in the Sangre de Cristo Mountains of northern New Mexico. It is the oldest state capital in the U.S., having been established in 1610, and it is known for its historic, cultural and artistic heritage. In general, the population continues to increase. Below is data from the last three census from the U.S. Census Bureau:

Population Growth: City and County of Santa Fe

Area	2000	2010	Change/ Census Year	2020	Change/ Census Year
City of Santa Fe	62,203	67,947	9.23%	87,505*	28.78%*
Santa Fe County	129,292	144,170	11.5%	154,823	7.39%
*Includes city's annexation of 13,000+ residents effective January 1, 2014					

Economic indicators such as gross receipts tax, lodger's tax, and real estate sales all grew into the mid-2000's. Gross receipts posted their first decline in fiscal year 2008/2009, with onset of the recession, but they have increased each year since 2010/2011, and in fiscal year 2017/2018 they topped the pre-recession high of 2007/2008. Gross receipts for the fiscal year of 2019 increased approximately 15% from 2018 and decreased approximately 8.1% in 2020 from 2019. For the fiscal year of 2021, gross receipts increased 12.2% from 2020 and in fiscal year 2022, gross receipts decreased 21.4% from 2021. The lodger's tax for the city's hotel/motel rooms has followed the same general pattern; it was up 11% for the 2016/2017 fiscal year compared to the prior fiscal year. It increased 15.2% in 2018 and 14.0% in 2019 and then decreased 68.9% in 2020. In fiscal year 2021, lodger's tax increased 163.9% from 2020. Occupancy increased 2.2% in 2018, compared to 2017 and it decreased slightly by .6% in 2019 from 2018. The occupancy rate decreased from 69.9% in 2019 to 35.9% in 2020 and then increased to 58.8% in 2021 and to 66.8% in 2022. The average daily rate decreased from $146.87 in 2019 to $111.66 in 2020 and then increased to $169.79 in 2021 and to $198.72 in 2022. The decreases in 2020 are likely the result of the Covid-19 health crisis.

The Santa Fe economy is based primarily on tourism and government employment. While neither government nor tourism produces high incomes, the

government sector had been fairly stable until 2020 due to the Covid-19 health crisis. With the tourism declines experienced during the 2008 recession, Santa Fe remained one of the premier tourist destinations in the country according to national surveys. In 2022, the annual average employment for state government within the public sector was up 500 jobs or 0.9% and federal government employment was unchanged from the previous year's employment level. Employment in local government was up 2,800 jobs or 2.9% for 2022 (annual average).

Since 1850, the population in Santa Fe County has continued to increase. The median household income was $64,423 in 2021, higher than the median of $54,020 for New Mexico. With a median home price in 2021 of $315,100, the cost of a home is higher than the median for the state of $184,800. Slightly over 12% of the population lives below the poverty line, compared to 18.4% overall in New Mexico (2021 figures most recent available). The annual unemployment rates not seasonally adjusted for Santa Fe County and New Mexico since 2013 are listed in the following table.

UNEMPLOYMENT RATE TABLE

Area	Annual Unemployment Rate (Not Seasonally Adjusted)									
	2022	2021	2020	2019	2018	2017	2016	2015	2014	2013
New Mexico	4.0%	6.8%	8.4%	5.0%	4.9%	6.1%	6.7%	6.6%	6.6%	6.9%
Santa Fe County	3.6%	6.2%	8.3%	4.2%	4.1%	5.0%	5.3%	5.4%	5.4%	5.6%

Source: New Mexico Workforce Connection

The unadjusted unemployment rate for the City/County of Santa Fe was 3.4% for September 2023 (the latest data available), which is down 0.6% from the previous month, August 2023, and 0.5% lower than the previous year, September 2022. The city/county rate is lower than the state average of 3.5% and lower than the national average of 3.6% for September 2023. The rates for the city/county, state and national average all decreased slightly from August 2023.

Residential real estate sales volume (single family, condo, duplex, townhouse, x-plex) in the Santa Fe area (MLS Areas 001, 002, 003, 003N, 003S, 004N, 004S, 013) topped out in 2005, and the number of sales in 2018 was the highest since 2006, having increased each year since 2009 until 2014 and fluctuated thereafter; 2018 sales volume increased approximately 8.8% from 2017. The 2019 sales volume declined 3.4% from 2018, the 2020 sales volume declined 1.7% from 2019, the 2021 sales volume increased 15.4% from 2020 and the 2022 sales volume declined 51% from 2021.

Median sale price peaked in 2007 and for 2019 it was the same as the top of the market. It increased 1.7% for 2019, 15% for 2020, 9.3% for 2021 and 14.94% for 2022. Both median and average residential sale prices have remained relatively stable from 2011 through 2015 and subsequently increased each year. The median and average sale prices from 2016 through 2022 are shown in the following table.

Median and Average Residential Sales Prices

Year	2022	2021	2020	2019	2018	2017	2016
Median Sale Price	$500,000	$435,000	$398,000	$345,900	$340,000	$300,000	$290,000
Average Sale Price	$688,637	$608,316	$533,850	$472,703	$456,428	$418,063	$393,008
Note: MLS Areas 001, 002, 003, 003N, 003S, 004N, 004S & 013; Single Family, Condo, Duplex, Townhouse & X-plex							

The total number of building permits in Santa Fe for single unit homes and multi-unit homes are shown in the following chart.

Building Permits for Single Unit/Multi-Unit Privately Owned Housing Units

Year	Single Unit Homes	Multi-Unit Homes	Total
2019	344	245	589
2020	279	298	577
2021	228	612	840
2022*	178	300	478
*Preliminary			
Source: US Census Bureau			

The most current data available for commercial building permits is 2015. In 2015 there was 192,000 square feet of new commercial development (the ten-year annual average is approximately 100,000 square feet), compared to the prior two years new construction of 141,000 square feet (2014) and 144,000 square feet (2013).

Conclusion: The economic outlook for Santa Fe and the surrounding metro area is moderate as of the effective appraisal date. Commercial properties are oversupplied, while there is an undersupply among residential properties. Most of the residential markets are appreciating. Absorption of commercial real estate has been relatively stable from 2015 through 2020, then increased in 2021 and decreased slightly in 2022. All the data indicates a generally level economy in the area, and there is no reason to believe the foreseeable future will change greatly.

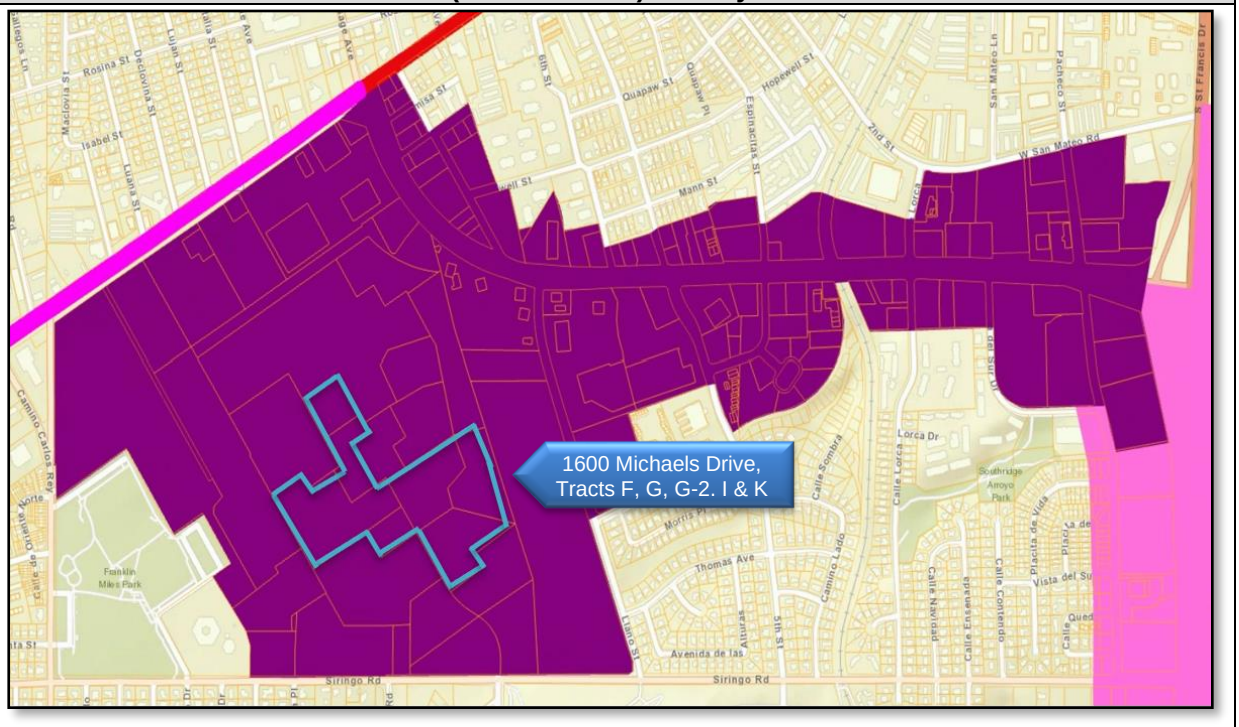
Location Description – Neighborhood

Subject Neighborhood
The subject's immediate neighborhood may be described as the commercial corridor extending along St. Michaels Drive from its intersection with Cerrillos Road to the St. Francis Drive overpass.

The subject is located within the Midtown development near the physical center of Santa Fe, southwest of St. Michaels Drive in a secondary location surrounded by property owned by the City of Santa Fe, the State of New Mexico and private ownership on the south and on the west side by Santa Fe Public Schools. The Midtown Campus is currently undergoing planning for redevelopment. The subject lies within the transition from the commercial/institutional use along St. Michael's Drive to the Bellamah tract home neighborhood south of Siringo Road.. St. Michaels Drive is a primary commercial arterial within southern Santa Fe, connecting the eastern portion of the city and western portion of the city. The area along St. Michaels Drive in the subject's neighborhood consists primarily of commercial development and institutional development backed by mixed commercial/industrial and residential to the south. The commercial retail development is primarily concentrated on St. Francis Drive and Cerrillos Road.

Immediately surrounding the subject, the land use is almost entirely institutional, including the former Santa Fe University of Art and Design, a public library and middle school farther to the southeast, three New Mexico state office/warehouse facilities to the southwest and an elementary school to the southwest and a park farther to the west/southwest. The largest public high school also lies directly southeast of the subject, at the southeast corner of Siringo Road and Yucca Street. Retail uses along St. Michael's Drive include several small to large sized strip retail centers, car dealerships, banks, restaurants, various local retail businesses and offices. The St. Michael's commercial corridor has been targeted by the City for redevelopment with higher density commercial and possibly multi-family development through planning and zoning.

Conclusion: The defined neighborhood encompasses an active retail commercial area in Santa Fe. This is a very viable area economically, and the outlook for the future is good.



Legal Use of the Property

Although the subject property has operated as an educational and film production property, it has been zoned R-5 Residential. More recently, through a City of Santa Fe Resolution 2018-54 and 2022-12, the property is in the formal process of being rezoned to C-2, which will be the base zoning considered in this report. In addition to this base zoning the subject is located within the Midtown Local Innovation Corridor (Midtown LINC) Overlay District and the Opportunity Zone: Census Tract 11:03 Midtown Campus Area. Each of these distinct regulations are exhibited below and in the following pages.

Subject Zoning	
C-2 (General Commercial District)	
Purpose: General Commercial Districts	
The C-2 General Commercial District includes areas along *streets* carrying large volumes of traffic where commercial uses are appropriate. Regulations are designed to guide future additions or changes so as to discourage extension of existing and formation of future strip *commercial development* , to preserve the carrying capacity of the *streets* and to provide for *off-street parking* and loading.	
Source: Santa Fe Land Development Code (14-4.3 Definitions)	
Zoning Detail: C-2 (General Commercial District) (Note 1)	
Minimum District and Lot Size	None; open space requirements see Section 14-7.5(D)(8)(c)
Maximum Height of Structures	45 feet
Minimum Setback Requirements (See Note 1 below for additional setback regulations)	Front: 15 feet Side: 0 feet Rear: 10 feet (See Note 2 for setback abutting residential district)
Maximum Lot Coverage (%) See Note 8 for non-residential open space requirements	60%
Notes [From Section 14-7.3-1] 1. Additional regulations, see also: Section 14-5 Overlay Districts and official zoning map. Provisions of overlay districts, including historic, escarpment or neighborhood districts may override standards in this table; Section 14-8.4(J)(3), fifteen-foot buffer required nonresidential uses adjacent to residential uses; Section 14-8.4(I)(2)(d), five-foot planting strip where parking lot abuts street required yard; Section 14-8.2(D)(4)(e)(i), setback from shoulder of arroyo, stream of watercourse; and Section 14-7.1(D), required yards. 2. Additional regulations: Rear yard ten feet, except on the rear of a lot abutting a residential district, in which case there shall be a required rear yard of not less than twenty-five feet or twenty percent of the depth of the lot, whichever is the least. See also Section 14-8.4(J)(3) Landscape Buffer for Nonresidential Uses, fifteen-foot buffer required for nonresidential uses adjacent to residential uses. 8. See Section 14-7.5(D) for amount of open space required for non-residential uses. From Section 14-7.5(D)(8)(c) (8) Open Space Requirements (c) C-2 District - *Open space* is required for each ground-floor *dwelling unit* at a minimum of two hundred fifty (250) square feet. *Dwelling units* located above the ground floor are not required to provide *open space* .	
Source: Santa Fe Land Development Code (14-7.3 Definitions)	

Extraordinary Assumption
The property is subject to two City of Santa Fe Resolutions (2018-54 and 2022-12), which resulted in the proposed, and now assumed, rezoning to C-2 General Commercial District. If this assumption should prove to be inaccurate, the subject's value and/or marketability could be impacted.

Midtown Local Innovation Corridor (Midtown LINC) Overlay District

Purpose: Midtown Local Innovation Corridor (Midtown LINC) Overlay District

The purpose and intent of the Midtown Local Innovation Corridor (LINC) Overlay District is to:

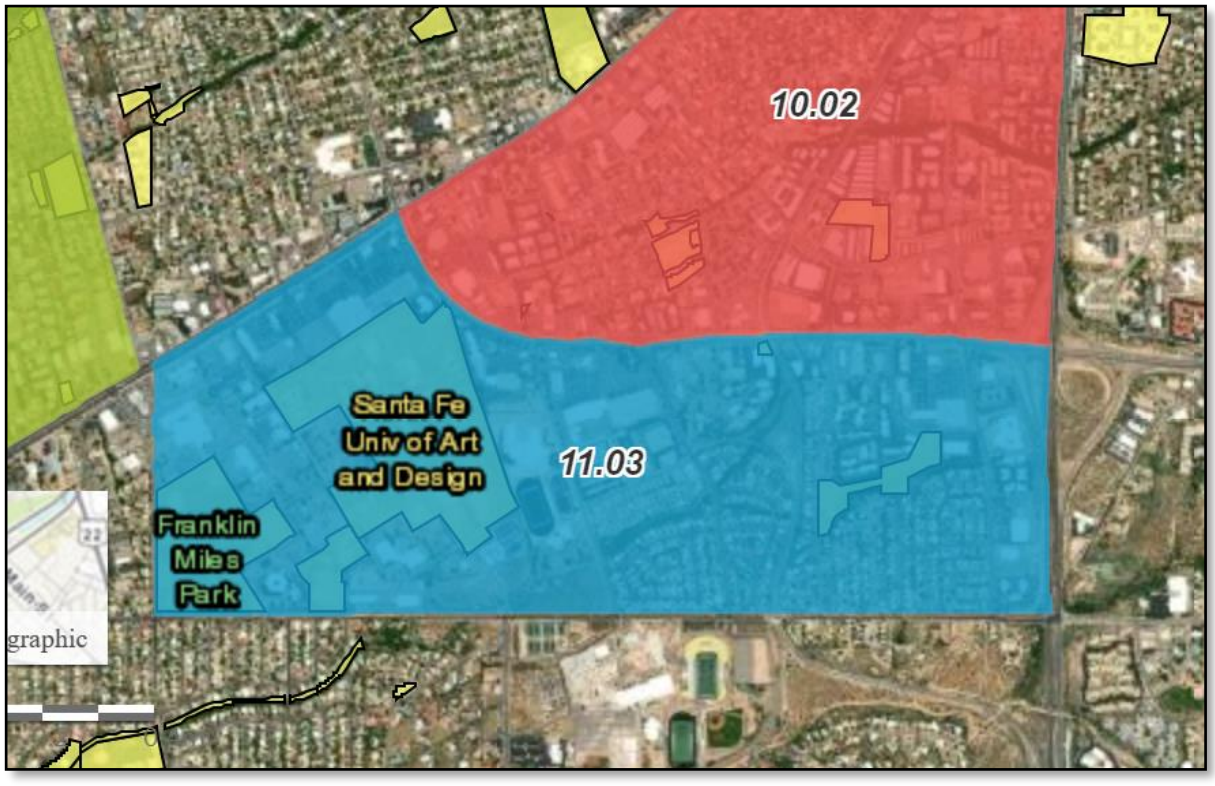
(a) Strengthen and animate the built environment and the business and population links within the demographic and geographic center of the city between the existing employment centers of the Santa Fe University of Art and Design and surrounding uses to the west and the Christus St. Vincent Regional Medical Center and related medical uses to the east;

(b) Incentivize multi-family residential development, complementary non-residential uses, and an enlivened, street-oriented pedestrian environment by freeing development capacity of existing under-developed land and buildings for these targeted uses, while allowing existing uses to continue as redevelopment occurs;

(c) Allow for innovative development and redevelopment of the district while providing buffering between the district and existing residential development outside of the district by the application of amended land development regulations and fees and by establishing conditions precedent for future infrastructure enhancements and the application of other redevelopment and financing tools;

(d) Promote a more healthy, safe, and enjoyable environment within the city's midtown area through the enhancement of pedestrian and bicycle accessibility and safety, landscaping and other street-related amenities and the eventual reduction of traffic speeds and provision of on-street parking, bicycle lanes, and improved crosswalks; and

(e) Provide flexibility in sign design and location so as to maintain effective communication, business identification and wayfinding for existing buildings whose visibility may be reduced by new development.



Source: City of Santa Fe Ordinance No. 2019-19

The LINC establishes standards for “qualifying projects” that meet the City’s objectives for redevelopment of the corridor. The LINC allows for a greatly expanded range of uses and qualifying projects are subject to relaxed standards for setbacks, height restrictions, landscaping and parking standards and also qualify for certain fee

waivers and/or reductions (construction permit fees, impact fees, water UECs, etc.). Importantly, qualifying projects of a certain size can be approved through administrative review, rather than going through a more traditional review and hearing at the Planning Commission.

Opportunity Zone: Census Tract 11:03 Midtown Campus Area

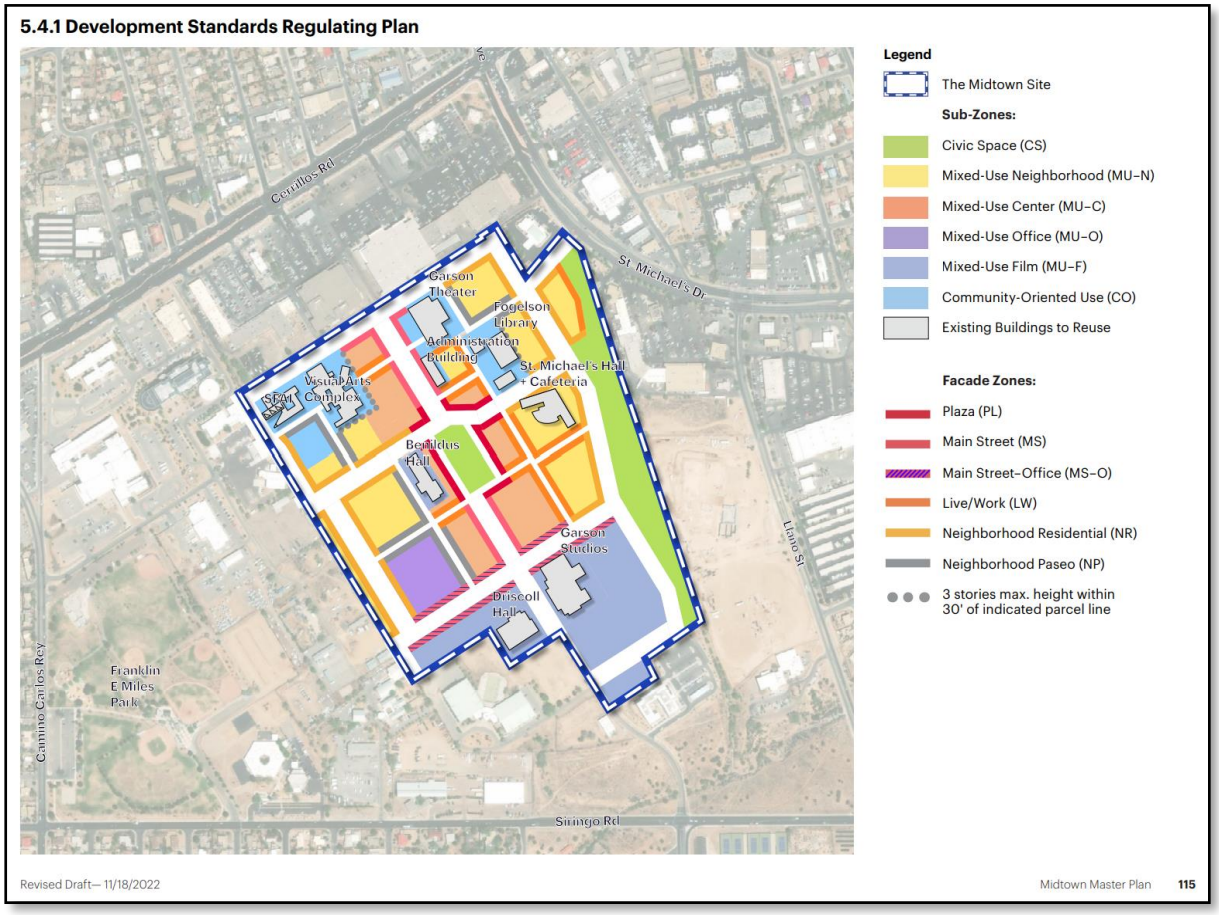
Additional: Opportunity Zone-Census Tract 11.03: Midtown Campus Area
Federal Opportunity Zones (QOZ's) are a new community development program established by Congress in the Tax Cuts and Jobs Act of 2017 to encourage long-term investments in low-income urban and rural communities nationwide. The QOZ program provides a tax incentive for investors to re-invest their unrealized capital gains into Opportunity Funds (QOF's) that are dedicated to investing into QOZ's designated by the chief executives of every U.S. state and territory.
Governor Martinez approved the subject census tract for designation to the US Treasury. Finally, designation approval was received by U.S. Treasury in June 2018.

Source: *https://www.santafenm.gov/opportunity_zones_in_santa_fe*

Resolution No. 2022-12

This Resolution was passed February 23, 2022 and set in-motion the steps the City of Santa Fe would take towards the reuse and redevelopment of the former College of Santa Fe, which is now referred to as the "Midtown Property". This resolution was the direct ascendant of Resolution No. 2018-54, which established to City's public policy

goals for the City owned property. As No. 2022-12 pertains to the subject property, the following actions were stated:

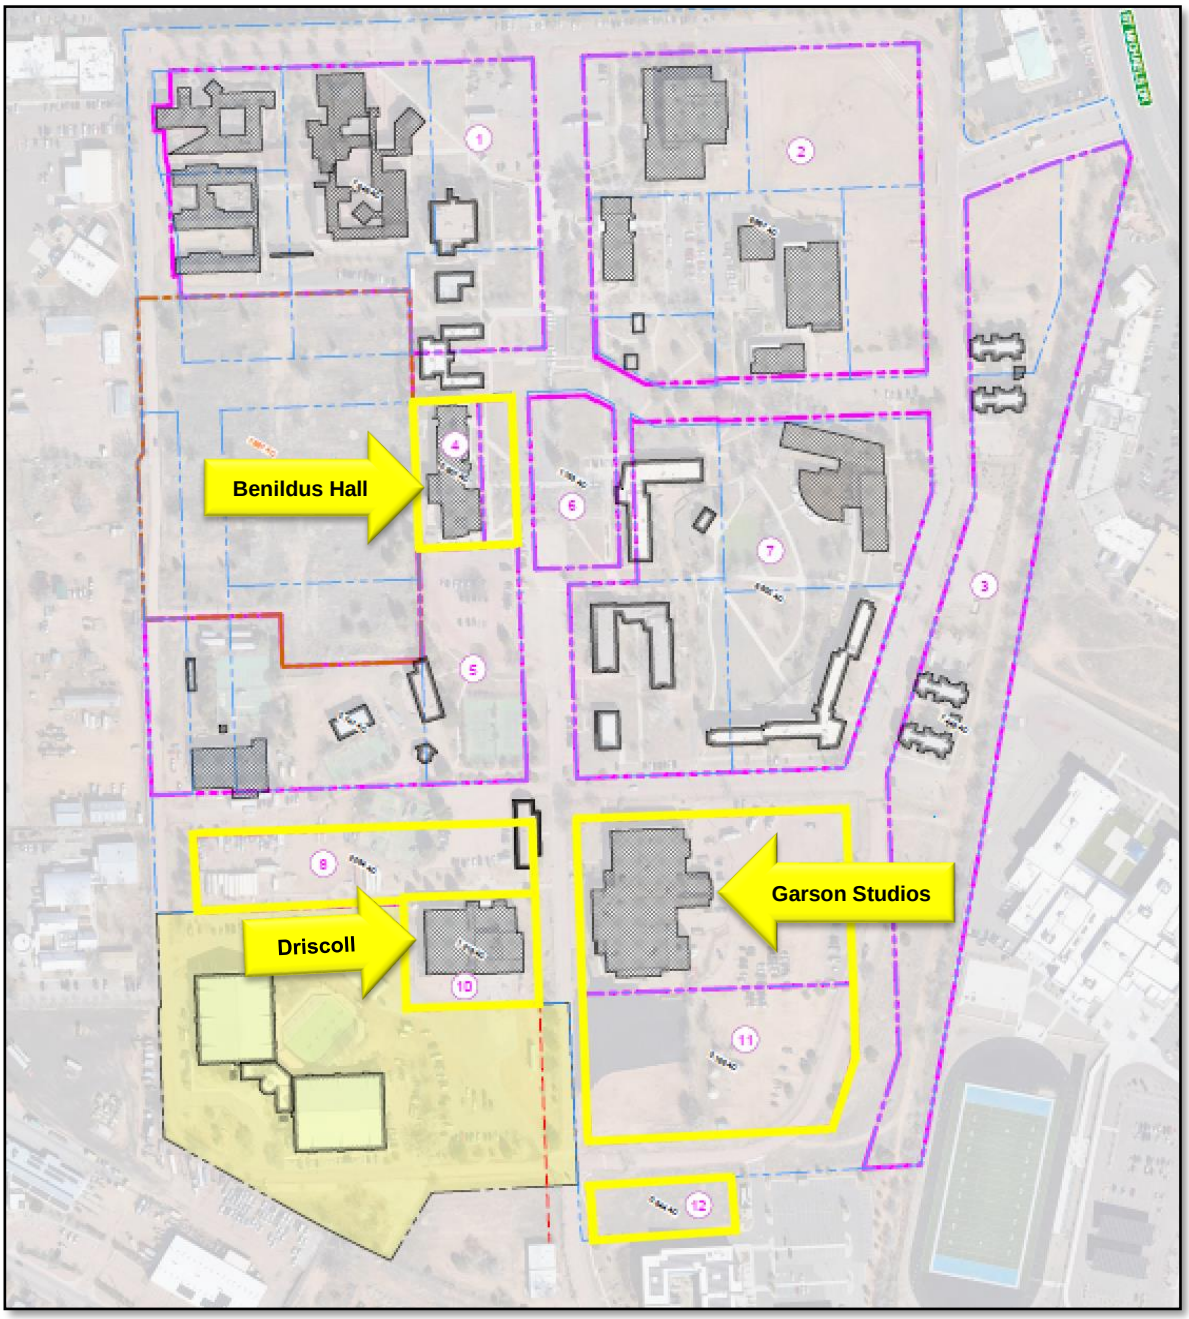


- Rezone the entire campus to C-2 commercial.
- Issue an RFP for the redevelopment, expansion, and operation of the Garson Studios for the purpose of creating a full-service studio for film or multimedia.

Midtown Proposed Master Plan

The City of Santa Fe's proposed Midtown Master Plan (the Midtown Land Development Plan), dated November 21, 2022, provided new development standards for the subject property in Chapter 5. The development standards are comprised of sub-zone (controls use) and façade (controls building masing and design) standards. The sub-zones support the objectives of the Census Tract 11:03 Midtown Campus Area Opportunity Zone and Midtown LINC Overlay District, as well as Resolution No. 2022-12, which rezones the subject to a C-2 General Commercial District to allow for commercial, retail and residential uses. The subject is covered within two sub-zones, namely the mixed-use film (for film production activities focused in the Garson Studios) and mixed-used office (for service commercial uses between film production and residential uses). These two sub-zones require that the subject's use will be for film and media purposes.

See the Development Standards Regulating Plan below for an illustration of the subject's film and office mixed-use sub-zones designations.



Midtown Proposed Master Plan

Source: City of Santa Fe Midtown Proposed Master Plan (11/21/2023)

Property Description
Site

Site: 1600 St. Michaels Drive
The subject site consists of 12.24 acres ±.

The subject is approximated on the aerial photograph by representatives from the City of Santa Fe

Site Details: Midtown Studios Pere	
Size	Total Site Size: 533,153 square feet or 12.24 acres ± Source: Client
Shape/Topography	Irregular/At street grade
Frontage	Alumni Drive on the east, south and west site boundaries
Access	Alumni Drive, a paved 2-lane street which lacks curbs, gutters, or sidewalks

Easements/ Encroachments	Plat or title work not provided
Legal Use	Zoning: C-2 (General Commercial District) & Midtown Local Innovation Corridor (Midtown LINC) Overlay District
Flood	Flood Zone X: Site is located in an area of minimal flood hazard. Flood Insurance Rate Maps 35049C0411E dated 12/4/2012 and 35049C0413E dated 12/4/2012.
Utilities	All/public (water, sewer, electricity, natural gas, telephone, internet)
Soil	A soil survey was not provided, and it is not known if one has been prepared. Construction on neighboring properties and on the subject appears to be stable. For the appraisal, it is assumed that soils are adequate to support construction. However, no warranties are made or implied by the appraiser.
Comments	No external obsolescence was noted

Environmental Site Assessment

The subject property has had two Phase 1 Environmental Site Assessment (ESA) Reports completed in the last several years. In April of 2021 the City of Santa Fe completed the first Phase I report. This report, done by Souder, Miller & Associates, covered the entire 64.22 acres campus property. The second Phase I report was done by Western Technologies in September of 2023. This report covered the 12.24 acres ± that is the subject of this report.

Central to both reports was the Recognized Environmental Conditions (REC) exhibited within the findings. These REC included:

- Adjacent property chlorinated solvent groundwater contamination.
- Vehicle maintenance stains visible, requiring Phase 2 soil samplings.
- Existing Aboveground Storage Tanks (AST) in use with no apparent spills/stains.
- Former Underground Storage Tanks (UST) removed with no apparent spills/stains.
- Backfill with demolition debris, requiring a Phase 2 ESA, which identified Asbestos-Containing Materials (ACM)

According to Tim Farrell, a Property Development Manager for the City of Santa Fe, these RECs were addressed by Western Technologies who completed a Phase 2 ESA Report where soil samples (borings) and analysis were conducted. The results of those procedures were negative of any environmental impact.

Extraordinary Assumption
The property has had two Phase 1 and one Phase 2 Environmental Site Assessment Reports completed and it is assumed any and all environmental concerns were addressed. If this assumption should prove to be inaccurate, the subject's value could be impacted.

Excess Land Calculation

Excess Land – Definition
Land that is not needed to serve or support the existing use. The highest and best use of the excess land may or may not be the same as the highest and best use of the improved parcel. Excess land has the potential to be sold separately and is valued separately.[6]

No planning or engineering has been provided to produce an exact amount of excess land on the subject. The subject site has a number of existing structures that have immediate use/utility, as well as a number of buildings that should be razed and removed. All commercial structures have requirements/needs for parking, landscaping/open space and emergency needs. Based on the nature of the filming industry a larger than normal amount of ancillary lands are needed; however, the subject's cumulative land size allows for parking "spill-over" situations.

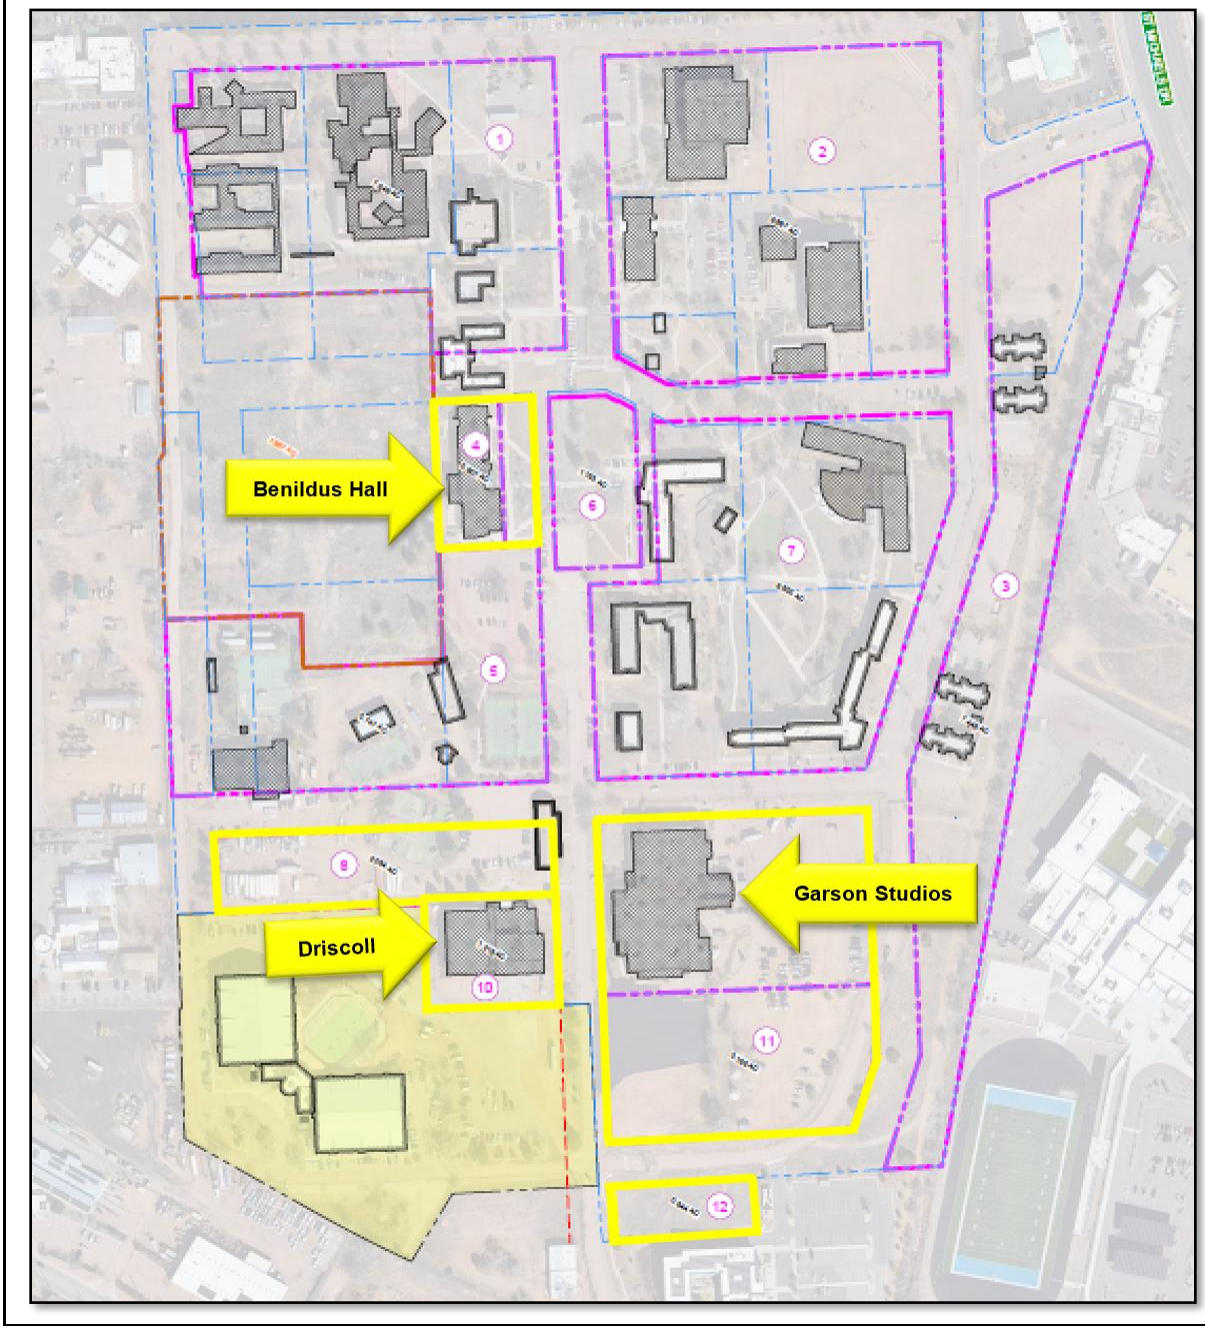
Benildus Hall (former education use – currently rented as professional office) is a structure that is are common in Santa Fe and there is considerable data to produce an estimate for needed ancillary lands. Because of the project design, Benildus does not have adequate parking. In order to provide the needed parking, the owner and the prospective buyer have agreed to a proposed land lease in the area immediately south of the structure. As such, the land calculated for Benildus Hall is comprised of a small lot under the structure and a small lot immediate to the east of the structure, which total 53,078 square feet.

The lot coverage ratios for the Garson Studios and Driscoll buildings are uncommon because they have soundstages, which require parking for large trucks and temporary trailers, as well as professional office space. Excess parking for the Garson Studios is evident due to the additional parking lease, even though the amount of parking area is not specified in the lease. Based on interviews with subject representatives and tenants, the lot ratio at Garson Studios appears to be 25%. Because the Driscoll Building is considered a "smaller" version of Garson Studios, the same lot coverage is applied.

[6] Appraisal Institute, The Dictionary of Real Estate Appraisal, 7th ed., (Chicago: Appraisal Institute, 2022), p. 66

The calculation for the lands needed for each of the useable structures on the subject is exhibited below with the final estimate of the subject's excess land. It is noted that the amount of land connected to Benildus (53,078 sf) is subtracted from the total site size.

Component	Bldg. size	Land Size needed	480,075 sf Site
Garcon Studios	49,200 sf	196,800 sf	(196,800)
Driscoll	22,200	88,800 sf	(88,800)
		Excess Land Total	**195,275 square feet**



The subject's excess land is estimated to be 195,275 square feet in size.

Extraordinary Assumption
The subject has excess land. No survey or engineering report has been provided to the appraiser to calculate the excess land. The appraiser has utilized lot coverage ratios in order to produce an amount of excess land. If this assumption should prove to be inaccurate, the subject's value could be impacted.

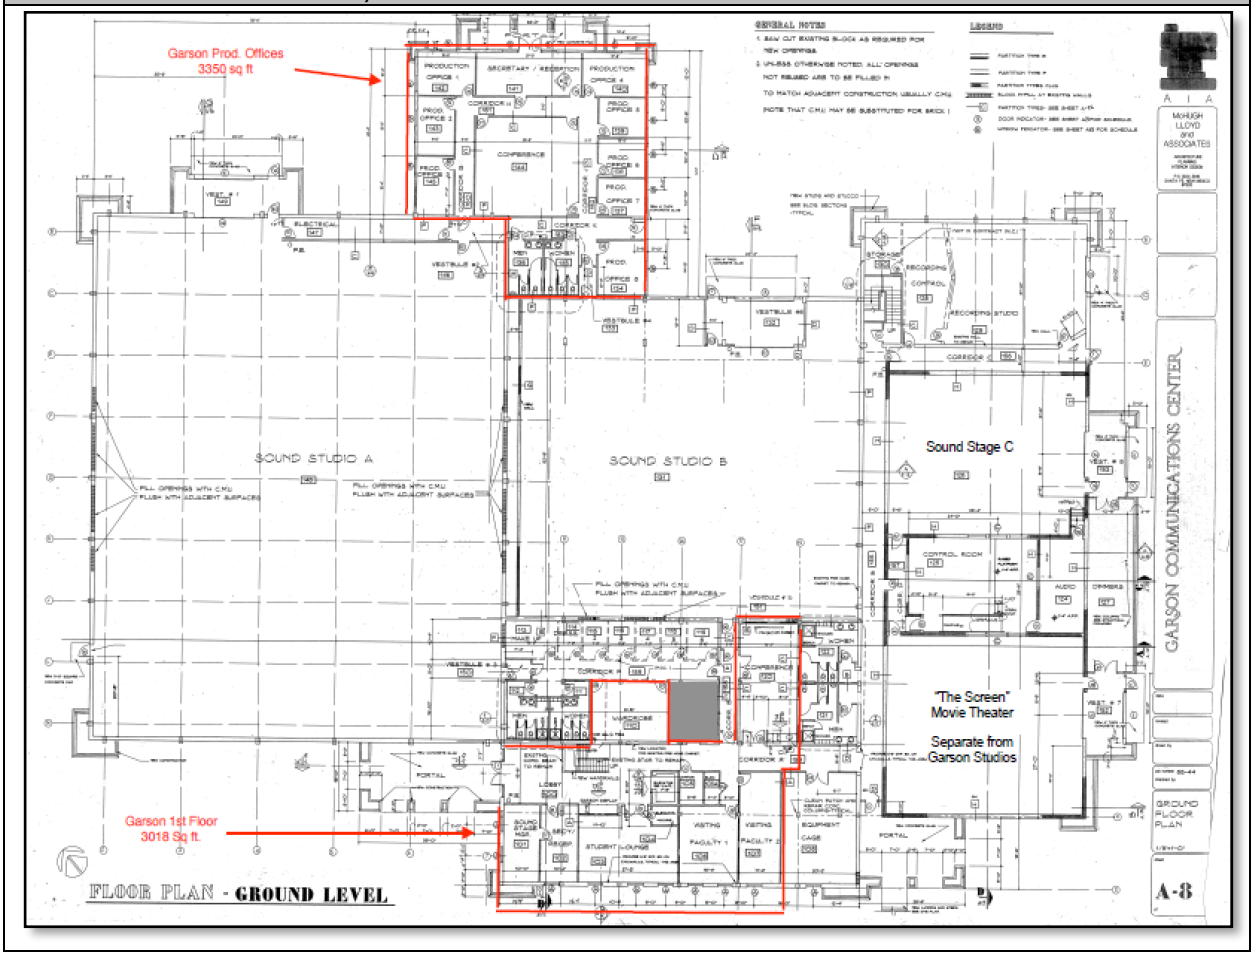
Improvements

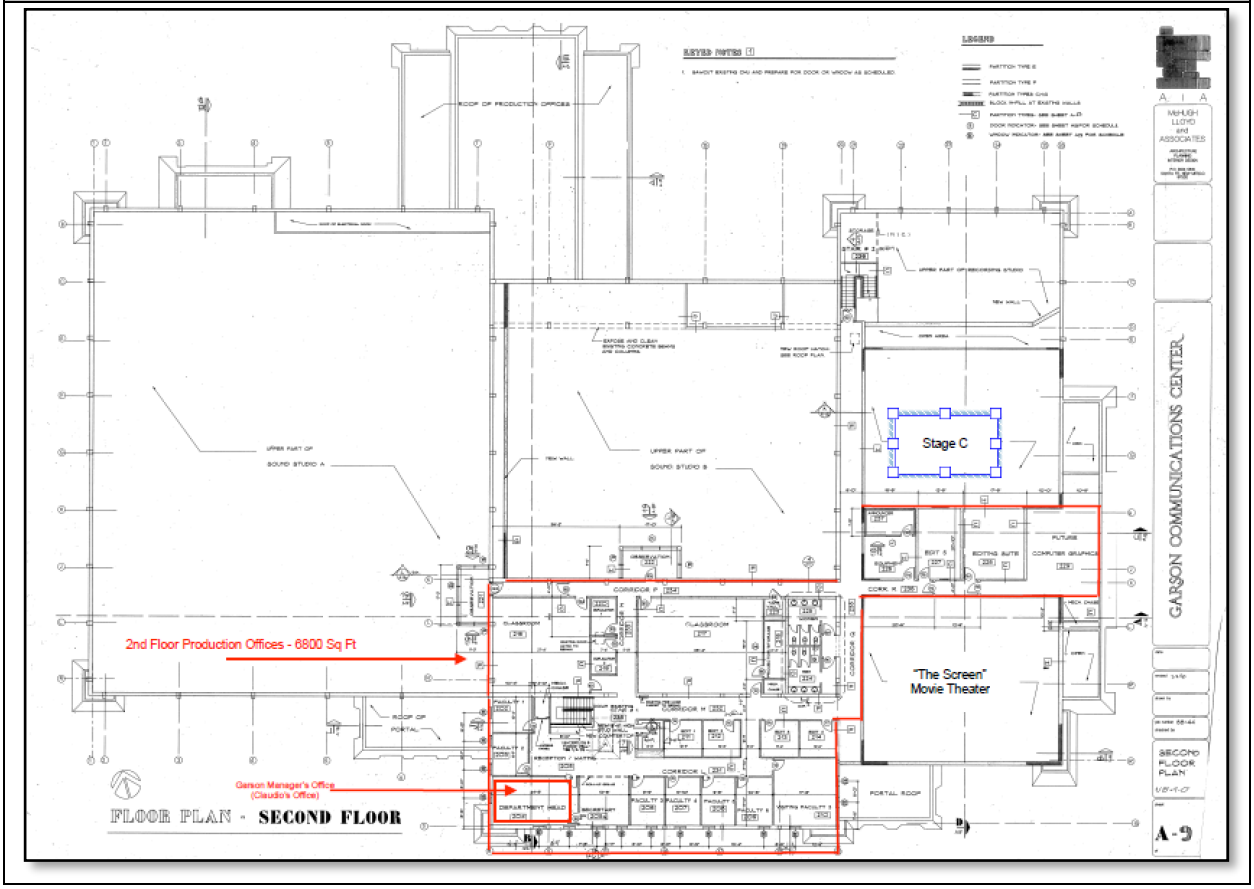
Subject: Midtown Studios Pere

The subject improvements are comprised of three buildings.

Garson Studios: Building Details	
Current Use	Three sound stages/professional offices/theater
Building Type	Steel constructed with wood framing
Building Areas	Gross: 49,200 square feet Three sound stages (A: 14,000 sf; B: 7,500 sf; and C: 2,100 sf) The Screen Theater: 2,000 sf Professional offices: 23,600 sf
Number of Stories	Two
Basic Structure	Steel/concrete/wood-framed building on a slab
Foundation	Masonry
Exterior Wall Cover	Stucco
Roof	Built-up composition
Interior Wall Cover	Drywall and acoustical panels with sound proofing in the sound stages
Flooring	Carpet and wood over concrete slab
Ceiling	Suspended acoustical tile and exposed
HVAC	Roof mounted HVAC system
Restrooms/Plumbing	Multiple with male and female locker rooms
Lighting	Fluorescent and recessed
Utilities	Full/public (water, sewer, electricity, natural gas, telephone)
Age	Constructed in 1991 *Estimated effective age: 22 years (based on observation/level of maintenance)* *Remaining economic life: 28 years*
Quality/Condition	Average *Property has been maintained on a regular basis since its construction*
Parking	Adequate for current use
Comments	Property was constructed for film production. Sound stages have upgraded electric and structural reinforcement from ceilings. Ready to rent
Deferred Maintenance	A Facility Assessment Report was completed by Wilson Company on January 4, 2023, to ascertain the cost to address the building's deferred maintenance. According to the report the cost is $2,696,459.

Garson Studios: Photos





Garson Studios: Floor Plan, 1st Floor

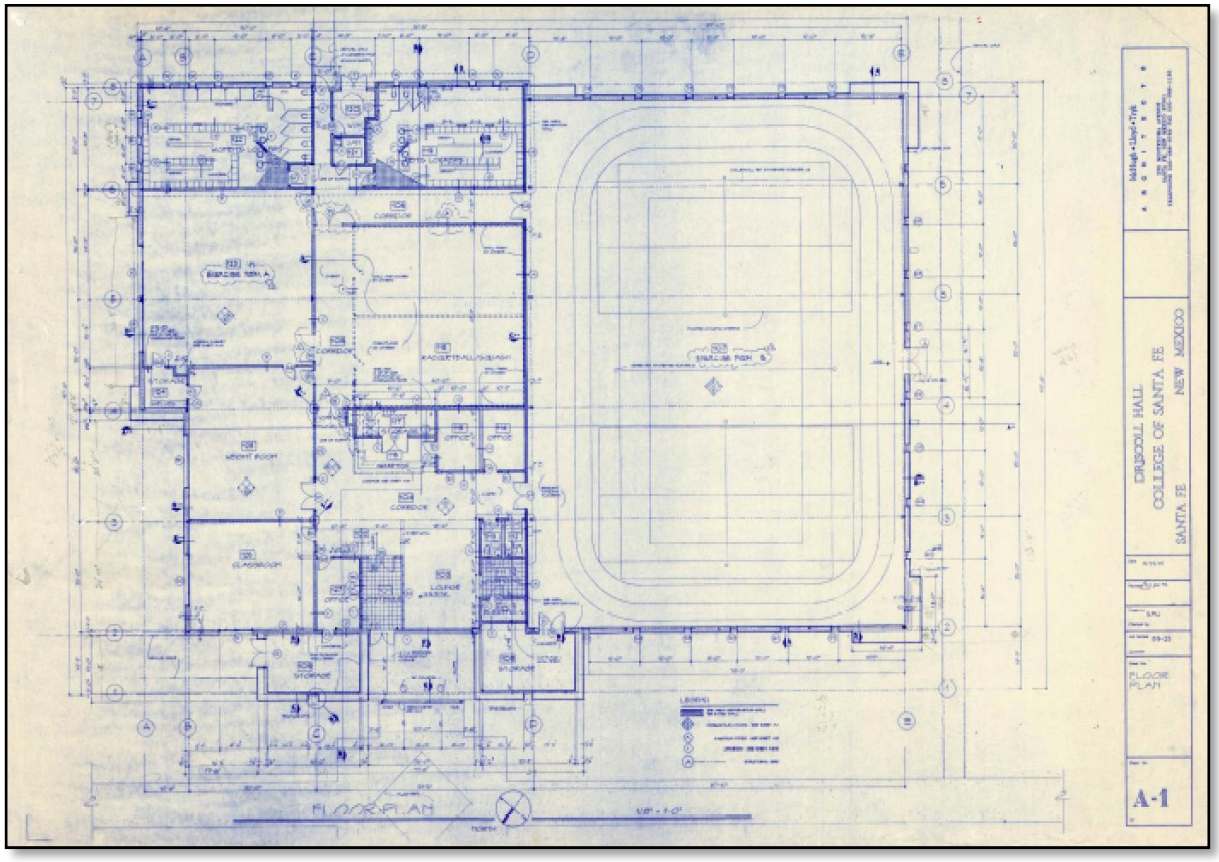
Garson Studios: Floor Plan, 2nd Floor

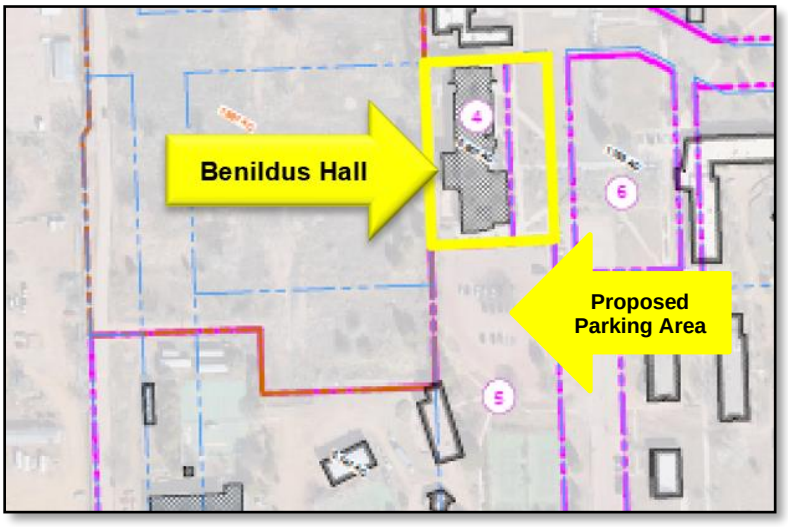
Driscoll: Building Details	
Historic/Current Use	Former athletic complex with large gymnasium/vacant
Building Type	Steel
Building Areas	Gross: 22,200 square feet
Number of Stories	One
Basic Structure	Steel and wood-framed building on a slab
Foundation	Masonry
Exterior Wall Cover	Stucco
Roof	Built-up composition
Interior Wall Cover	Drywall and wood panels
Flooring	Carpet and wood over concrete slab
Ceiling	Suspended acoustical tile and exposed
HVAC	Roof mounted HVAC system
Restrooms/Plumbing	Multiple with male and female locker rooms
Lighting	Fluorescent and recessed
Utilities	Full/public (water, sewer, electricity, natural gas, telephone)
Age	Constructed in 1993 *Estimated effective age: 22 years (based on observation/level of maintenance)* *Remaining economic life: 28 years*
Quality/Condition	Average *Property has been maintained on a regular basis since its construction*
Parking	Adequate for current use
Comments	Large gymnasium that has the beginning of a renovation to become a sound stage. Large (exercise rooms) located on the eastern portion of the building can be converted into offices.
Deferred maintenance	A Facility Assessment Report was completed by Wilson Company on January 11, 2023, to ascertain the cost to address the building's deferred maintenance. According to the report the cost is $1,284,847.

A draft report completed by Robert Wichmann (High Desert Structural Engineering, LLC. phone - 505-473-7373) was completed for the prospective buyer of the subject. According to this draft report, the roof over the gymnasium portion of this structure "does not appear to meet design criteria". Upon interviewing Mr. Wichmann, the appraiser learned that he had not had an opportunity to inspect the building plans (not provided) and as such, did not sign or stamp his report. **Without further (engineering) study,** this structure is inappropriate for sound stage development because of the need for suspended apparatus found in soundstages.

Extraordinary Assumption
According to the appraiser the Driscoll structure should be converted into a soundstage with the remaining space used as supportive office. There have been some structural issues identified that could make the conversion of the building inappropriate. If the structure is found to be structurally adequate or financially feasible to be renovated to be adequate, the results of this appraisal are subject to change.

Driscoll: Photos





Driscoll: Floor Plan

Benildus Hall: Building Details	
Current Use	Professional offices related to film production – formerly used as academic/classroom facility
Building Type	Steel with Masonry
Building Areas	Gross: 27,757 square feet
Number of Stories	Two
Basic Structure	Reinforced concrete perimeter/column pad footing
Foundation	Masonry
Exterior Wall Cover	Stucco, stone and brick
Roof	Built-up composition
Interior Wall Cover	Drywall and suspended
Flooring	Carpet and terrazzo
Ceiling	Suspended acoustical tile and suspended
HVAC	Roof mounted HVAC system
Restrooms/Plumbing	Multiple with male and female locker rooms
Lighting	Fluorescent and recessed
Utilities	Full/public (water, sewer, electricity, natural gas, telephone)
Age	Constructed in 1963 and addition constructed in 2005 *Estimated effective age: 18 years (based on observation/level of maintenance)* *Remaining economic life: 32 years*
Quality/Condition	Average plus *Property has been maintained on a regular basis since its construction*
Parking	Not adequate for current use
Deferred maintenance	A Facility Assessment Report was completed by Wilson Company on January 11, 2023, to ascertain the cost to address the building's deferred maintenance. According to the report the cost is $1,759,269.

For purposes of project design, this property does not have enough adequate property for parking. As such, the Property owner has entered into a "proposed" lease agreement for parking (+/- 60 spaces) located to the immediate south of the building.

Benildus: Floor Plan, 1st Floor

Benildus: Floor Plan, 2nd Floor

HIGHEST AND BEST USE

Highest and Best Use is Defined as:
1. The reasonably probable use of the property that results in the highest value. The four criteria that the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity. 2. The use of an asset that maximizes its potential and that is possible, legally permissible, and financially feasible. The highest and best use may be for continuation of an asset's existing use or for some alternative use. This is determined by the use that a market participant would have in mind for the asset when formulating the price that it would be willing to bid. (IVS). 3. [The] highest and most profitable use for which the property is adaptable and needed or likely to be needed in the reasonably near future. (Uniform Appraisal Standards for Federal Land Acquisitions) 4. [For Fair value determination] The use of a nonfinancial asset by market participants that would maximize the value of the asset or the group of assets and liabilities (for example, a business) within which the asset would be used. (FASB Glossary) The highest and best use of nonfinancial asset takes into account the use that is physically possible, legally permissible, and financially feasible. (FASB 820-10-35-10B). The highest and best use of a nonfinancial asset establishes the valuation premise used to measure the fair value of the asset, as follows: (a) The highest and best use of a nonfinancial asset might provide maximum value to market participants through its use in combination with other assets as a group (as installed or otherwise configured for use) or in combination with other assets and liabilities (for example, a business). (b) The highest and best use of the asset might provide maximum value to market participants on a standalone basis. (FASB 820-10-35-10E)[7]
Highest and Best Use Criteria
A) Is the use physically possible? B) Is the use legally permissible? C) Is the use financially feasible? D) Is the use maximally productive?

In addition to the four tests, appropriate use is included. It is not a specific test for highest and best use, but a test that is a function of the four tests. The highest and best use of a property is typically determined both as if vacant and as improved.

Highest and Best Use As Vacant

Highest and Best Use of Land as Though Vacant is:
Highest and best use of land as though vacant is based on the assumption the parcel of land is vacant or can be made vacant by demolishing any improvements.

[7] Ibid., p. 88

Legally Permissible: As shown in the "legal Use" section of this report, a C-2 (General Commercial District) is assumed as the subject's base zoning. This zoning allows various commercial uses - retail, service, institutional, office, hotel/motel, restaurant, and some limited light industrial uses. Residential use is primarily only allowed as an ancillary use for the owner/occupant of the commercial use. The current uses on the subject are considered legal.

In addition to the base zoning, the subject has two overlay districts. The first overlay district is the Midtown Local Innovation Corridor (LINC). The LINC establishes standards for "qualifying projects" that meet the City's objectives for redevelopment of the corridor. The LINC allows for a greatly expanded range of uses and qualifying projects are subject to relaxed standards for setbacks, height restrictions, landscaping and parking standards and also qualify for certain fee waivers and/or reductions (construction permit fees, impact fees, water UECs, etc.). Importantly, qualifying projects of a certain size can be approved through administrative review, rather than going through a more traditional review and hearing at the Planning Commission. Overall, this will make any expansions within the subject property larger, easier to be approved and cheaper to develop.

The second overlay is the Opportunity Zone, Midtown Campus Area. This Federal Opportunity Zones (QOZ's) are a new community development program established by (US) Congress in the Tax Cuts and Jobs Act of 2017 to encourage long-term investments in low-income urban and rural communities nationwide. The QOZ program provides a tax incentive for investors to re-invest their unrealized capital gains into Opportunity Funds (QOF's) that are dedicated to investing into QOZ's designated by the chief executives of every U.S. state and territory. Governor Martinez approved the subject census tract for designation to the US Treasury. Finally, designation approval was received by U.S. Treasury in June 2018. Ultimately, this will allow for future owners of the property to receive tax incentives to upgrade existing structures.

Lastly, The City of Santa Fe's proposed Midtown Master Plan (the Midtown Land Development Plan), dated November 21, 2022, provided new development standards for the subject property in Chapter 5. The development standards are comprised of sub-zone (controls use) and façade (controls building masing and design) standards. The

sub-zones support the objectives of the aforementioned Census Tract 11:03 Midtown Campus Area Opportunity Zone and Midtown LINC Overlay District, as well as Resolution No. 2022-12, which rezones the subject to a C-2 General Commercial District to allow for commercial, retail and residential uses. The subject is contained within two sub-zones, namely the mixed-use film (for film production activities focused in the Garson Studios) and mixed-used office (for service commercial uses between film production and residential uses). These two sub-zones require that the subject's use will be for film and media purposes.

Based on the legal restraints (zoning plus overlays), the subject's land use will be commercial as it accompanies film and media production. As such, this is the only land use option considered.

Highest and Best Use of Land as Though Vacant is:
Commercial – with all structures related to film and media production.

Highest and Best Use as Improved

Definition: Highest and Best Use of Property As Improved
The use that should be made of a property as it exists

This analysis considers the property with its existing structures. The property has an old history and many of the structures are beyond their economic life. Because we know the land use will be film production, one must consider whether the existing building has any current/future use as it relates to film production. Further, there are times when existing building can be renovated to create better utility. The following building are considered useable and income producing:

- Bendilus
- Garson Studios
- Driscoll

Except for the Benildus Hall, all of these structures have land for parking, landscaping and emergency needs. The buyer and sellers of the project have entered into a land lease agreement to account for parking at Benildus Hall. As such, the needed lands take up much of the subject's land; however, there is excess land. This is where the landowner can construct new buildings where there are existing/future utility needs, for example, housing, additional soundstages, or storage buildings (as they relate to film

production).

Highest and Best Use of Land as Improved is:
Commercial – with all structures related to film and media production. Benildus, Garson Studios, and Driscoll with excess land.

VALUATION

The valuation process is the procedure by which an estimate of value is determined for the subject. The property is appraised as its highest and best use: commercial film production property with (future) income producing residential. Because this property is unique to Santa Fe, sales of similar properties are not present. To produce a value for the subject, the (contributory) components of the subject property are valued separately and combined to produce a final value.

In general, the structures will be analyzed for needed lands for each structure and parking. Ideally, each of the structures will have a sales comparison and income approach performed and reconciled to produce a contributory value for each of the four structures. A sales comparison approach for the Garson Studios or Driscoll building is not performed. Per the discussion in the Site Description section of this report (page 27), the subject has excess land. The excess land portion of the subject will be valued "as if vacant" by using a sales comparison approach.

Each of the structures on the subject was constructed years ago and as such, reports have been produced that address the deferred maintenance of the buildings. Except for newly built or fully renovated buildings – all commercial properties have deferred maintenance. There are three methods appraisers can use to account for deferred maintenance. The first, and most ideal method, is to commission a single company (like the company commissioned to perform the deferred maintenance analysis on the subject's structures) to perform deferred maintenance analysis on the subject and all the comparables used. This provides an equal and most consistent analysis; however, this is not cost effective or appropriate when comparables are not in proximity or will not provide access for an inspection.

A second method of incorporating deferred maintenance reports into an appraisal is to understand that deferred maintenance is "baked-in" to all the comparable data. As a building ages, its parts get older and maintenance expenses increase until renovation occurs. Renovations will "reset' the effective age of a building. This is why appraisers will give a 100-year-old structure an effective age of 20 years. It's likely this same building has been renovated several times over its 100-year life. In this method the

appraiser seeks to find comparable buildings (in both the sales comparison and income approaches) that have similar effective ages as the subject. Adjustments are made within the separate valuations (sales and income) to accommodate for differences between the effective ages – this is the primary accounting for deferred maintenance (often characterized as a condition adjustment). It is inappropriate to incorporate a deferred maintenance amount (for example as provided by Wilson Company) using this method. By doing this the appraiser is accounting for the subject's deferred maintenance twice in the same analysis.

The third method of incorporating deferred maintenance reports into an appraisal is to initially value the subject "as if" the property is totally renovated and secondly, apply the deferred maintenance amount (supplied by a profession company – in this case, the Wilson Company) to the produce the "as is" value.

In the case of this appraisal, the third method was employed for the valuation of Benildus and Garson Studios. Both the client and the proposed buyer made this appraiser aware of the deferred maintenance reports completed on the subject properties and asked to have the deferred maintenance estimates incorporated into the report. Issues (building structure) have arisen that are in potential conflict with this appraiser's original understanding of the Driscoll structure (discussed on page 33). As such, the appraiser has decided to use this the second method described above until the structure can be properly studied and assessed by a certified engineer.

Building	Methodology	Page
Benildus	Sales Comparison Approach	46
	Income Approach	59
	"as if" Reconciliation	74

	Income Approach	81
	"as if" Reconciliation	88
Driscoll	Income Approach	91
Excess Land		95
	Final Value Conclusion	107

Benildus - Sales Comparison Approach

Definition: Sales Comparison Approach
The process of deriving a value indication for the subject property by comparing sales of similar properties to the property being appraised, identifying appropriate units of comparison, and making adjustments to the sale prices (or unit prices, as appropriate) of the comparable properties based on relevant, market-derived elements of comparison. The sales comparison approach may be used to value improved properties, vacant land, or land being considered as though vacant when an adequate supply of comparable sales is available.[8]

The sales comparison approach is based on the premise that a well-informed buyer would pay no more for an existing property than it would cost to buy a similar substitute property. While there are seldom exact duplicate properties available to a buyer, the prices paid for similar properties are indicative of value. In this approach to value, a common denominator is used in comparing sales to the subject. In this case, the price per square foot of the improvements is used. This figure was found by dividing the sale price by the size of the improvements. The subject is appraised to its highest and best use: commercial professional office tenancy as it relates to the film production industry.

It should be noted that this analysis is performed "as if" all the deferred maintenance on the subject is repaired – the subject is completely renovated.

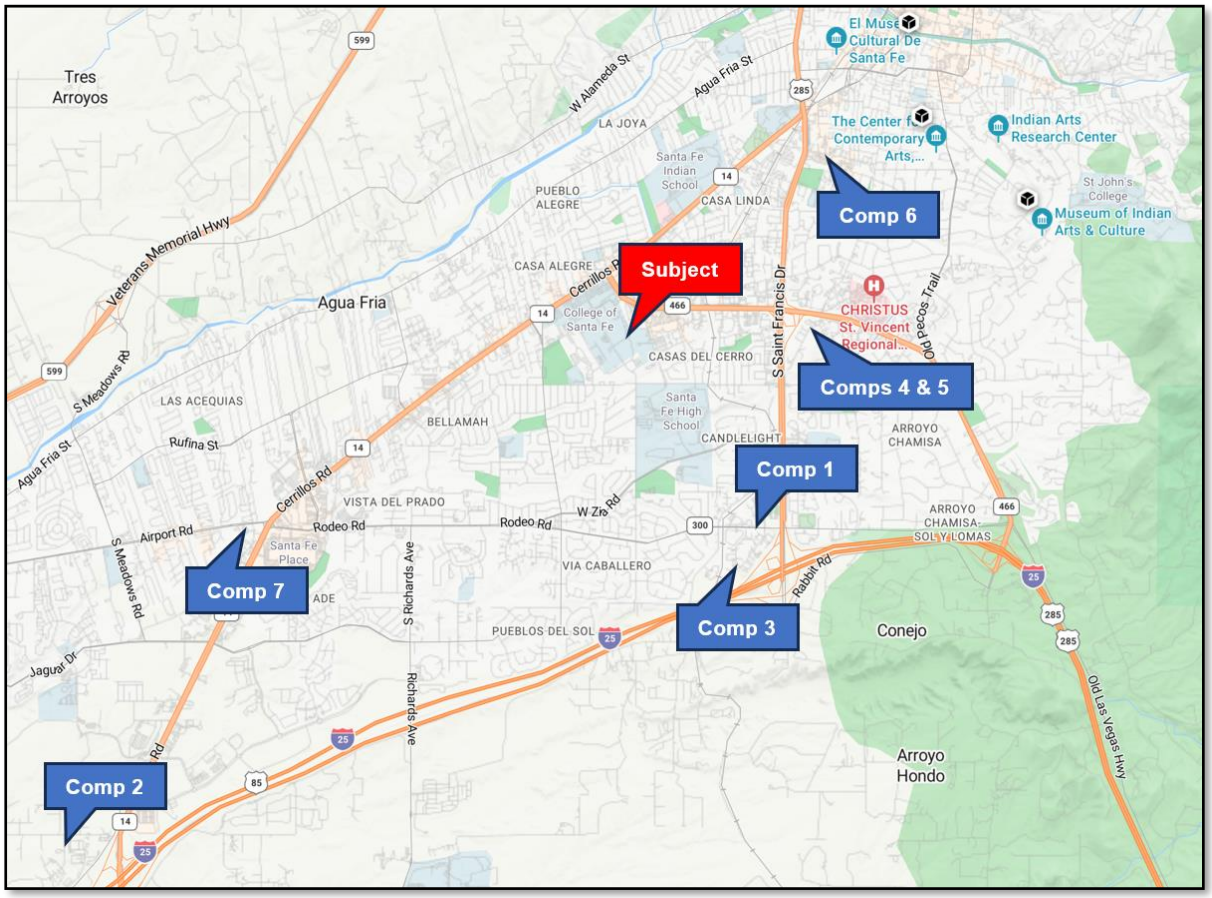
The sales comparables are summarized in the following chart and described individually on the pages following the chart.

COMMERCIAL SALES CHART

No.	Location	Date of Sale	Sales Price	SF	$/SF
1	1474 Rodeo Road	11/2018	$13,025,000	79,679	$163.47
2	1 Plaza La Prensa	11/2018	$5,775,000	52,253	$110.52
3	2945 Rodeo Park Drive East	12/2018	$2,100,000	23,285	$90.19
4	2044 & 2048 Galisteo	03/2019	$1,952,000	18,444	$105.83
5	2056 Galisteo	08/2019	$2,550,000	14,500	$175.86
6	525 Camino de Los Marquez	07/2021	$7,915,000	38,259	$206.88
7	2504 Camino Entrada	12/2021	$3,786,720	30,922	$122.46

Additional Sales

In addition to the comparables, two large office buildings (single tenant) sold recently.



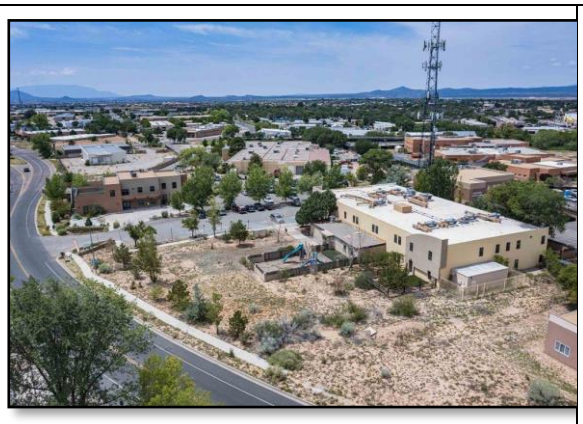
- 2009 S. Pacheco: 39,110 square feet
- 2025 S. Pacheco: 38,976 square feet

These buildings were most recently occupied by governmental entities. However, they are located in the Midtown Linc overlay and Opportunity Zone (Census tract 11.03: Midtown Campus Area) and were purchased for redevelopment (likely apartments/residential). They are older and are considered in fair to average condition.

[8] Appraisal Institute, The Dictionary of Real Estate Appraisal, 7th ed., (Chicago: Appraisal Institute, 2022), p. 170

Due to the purchase for redevelopment to another use, age/condition and location in the Midtown Linc overlay, they are not included in this analysis.
Note: based on changes in the market, these properties were maintained as office buildings and not subsequently redeveloped.

Sales Comparables Map



Sales Comparables - Details		
1		▪ **Location: 1474 Rodeo Road** ▪ Grantor: 1474 Rodeo Investors LLC ▪ Grantee: Boyd State Santa Fe, LLC ▪ Date of Sale: 11/2018 ▪ Sales Price: $13,025,000 ▪ Terms: cash/cash equivalent ▪ Land area: 193,007 square feet ▪ Gross building area: 79,679 square feet (3 story) ▪ Net Operating Income (NOI): $1,121,000 o Capitalization Rate: 8.6% ▪ Price per SF: $163.47 ▪ Age: 22 years (Effective age equivalent) ▪ Comments: average quality professional office building – tenancy primarily GSA. ~96% occupancy
2		▪ **Location: 1 Plaza La Prensa** ▪ Grantor: Santa Fe Natural Tobacco Company, Inc ▪ Grantee: NM Portfolio LLC ▪ Date of Sale: 11/2018 ▪ Sales Price: $5,775,000 ▪ Terms: cash/cash equivalent ▪ Land area: 254,390 square feet ▪ Gross building area: 52,253 square feet ▪ Net Operating Income (NOI): n/a - vacant ▪ Price per SF: $110.52 ▪ Age:14 years ▪ Effective age: 12 years ▪ Comments: average quality professional office building previously occupied by the owner. Property has been vacant for multiple years. The buyer has proposed updating building for a tentative GSA lease. The update budget is $1,719,298.

Sales Comparables - Details		

3		▪ **Location: 2945 Rodeo Park Drive East**
		▪ Grantor: 86th Street Associates LLC
		▪ Grantee: Manifest West LLC
		▪ Date of Sale: 12/2018
		▪ Sales Price: $2,100,000
		▪ Terms: cash/cash equivalent
		▪ Land area: 65,537 square feet
		▪ Gross building area: 25,109 square feet
		  o Net Rentable: 23,285 square feet (used in the analysis)
		▪ Net Operating Income (NOI): $226,115
		  o Capitalization rate: 10.8%
		▪ Price per SF: $90.19
		▪ Age:14 years
		▪ Effective age: 14 years
		▪ Comments: average quality professional office building that is subject to leases. New Lease signed immediately prior to sale. Net income and resulting capitalization rate are estimated based on new lease. A portion of the property has been vacant for multiple years.
		▪ ~94% occupancy (includes new lease)

4		▪ **Location: 2044 & 2048 Galisteo** ▪ Grantor: Francesca ▪ Grantee: Galisteo Drive, LLC ▪ Date of Sale: 03/2019 ▪ Sales Price: $1,952,000 ▪ Terms: cash/cash equivalent ▪ Land area: 62,378 square feet ▪ Gross building area: 18,444 square feet ▪ Net Operating Income (NOI): $200,275 o Capitalization Rate: 10.3% ▪ Price per SF: $105.83 ▪ Age: built in 1995 – estimated effective age of 20 years ▪ Comments: average quality professional office building – tenancy primarily GSA. ▪ ~84% occupancy

Sales Comparables - Details		
5		▪ **Location: 2056 Galisteo** ▪ Grantor: Sophia Santa Fe ▪ Grantee: Santa Fe Drive LLC ▪ Date of Sale: 08/2019 ▪ Sales Price: $2,550,000 ▪ Terms: cash/cash equivalent ▪ Land area: 50,074 square feet ▪ Gross building area: 14,500 square feet ▪ Net Operating Income (NOI): $263,925 o Capitalization Rate: 10.4% ▪ Price per SF: $175.86 ▪ Age: built in 2002 – estimated effective age of 15 years ▪ Comments: average quality professional office building/special use – tenancy primarily GSA/magistrate court. 100% occupancy
6		▪ **Location: 525 Camino de Los Marquez** ▪ Grantor: YMC New Mexico Properties, LLC ▪ Grantee: BJ North County Dental Center LLC ▪ Date of Sale: 07/2021 ▪ Sales Price: $7,915,000 ▪ Terms: cash/cash equivalent ▪ Land area: 107,100 square feet ▪ Gross building area: 38,259 square feet ▪ Net Operating Income (NOI): $607,638 o Capitalization Rate: 7.7% ▪ Price per SF: $206.88 ▪ Age: built in 1965 and renovated in 1980, 2013 and 2020 – estimated effective age of 15 years ▪ Comments: average to good quality professional office building – tenancy GSA (NM Environment Department). Note: purchaser was an out of state investor ▪ 100% occupancy

7		▪ **Location: 2504 Camino Entrada** ▪ Grantor: Yellow Brick Properties LLC ▪ Grantee:Vicki Yeomans, Betty Beachum and others ▪ Date of Sale: 11/30/2021 ▪ Sales Price: $3,786,720 ▪ Terms: cash/cash equivalent ▪ Land area:99,143 square feet ▪ Gross building area: 2 buildings, 22,996 sf and 7,926 sf ▪ Price per SF: $122.46 ▪ Age: built in 1988 – estimated effective age of 25 years ▪ Comments: average quality professional office buildings.

Analysis and Conclusion

Note
Seven comparable sales are presented in the Commercial Sales Chart. Due to the limited sales volume in the subject's neighborhood, the comparables were selected from competing areas in Santa Fe. The comparables represent the range of commercial sales sharing similarity/consistency with the subject. The comparable sales produced a value range from $90.19 per square foot to $206.88 per square foot before adjustment.

Several elements of comparison can affect the value of commercial structures. The elements of comparison and their resulting adjustments fall into two categories: transactional adjustments and property adjustments.

CHART OF ADJUSTMENTS

Category	Adjustment
Transactional	Real property rights conveyed Financing terms Conditions of sale Expenditures made immediately after purchase Market conditions
Property	Physical characteristics Location Economic characteristics Use/zoning Non-realty components value

These elements are analyzed to determine if an adjustment is required. They are discussed below and the findings summarized and reconciled on a comparison grid at the end of the valuation section. The transactional adjustments are applied in sequence. The property adjustments do not need to be applied in a specific sequence. The adjustments are summarized on a chart at the end of this section. Only those items requiring discussion/adjustment are discussed.

Transactional Adjustments

Real Property Rights Conveyed: The subject is leased. The lease is a short term lease. Comparable 2 was vacant at the time of sale. Comparables 1, 3, 4, 5, 6 and 7 were subject to leases.

Sales Comparables
Comp 1: avg rent based on NOI and leased SF: $14.66 psf per year on net basis
Comp 3: avg rent based on NOI and leased SF: $10.33 psf per year on net basis
Comp 4: avg rent based on NOI and leased SF: $12.93 psf per year on net basis
Comp 5: avg rent based on NOI and leased SF: $18.20 psf per year on net basis
Comp 6: avg rent based on NOI and leased SF: $15.88 psf per year on net basis
Comp 7; lease information not available
Subject
leased

With consideration of tenant/lease and the condition/quality of the buildings, an adjustment for real property rights conveyed was not developed, but is considered in the reconciliation.

Financing Terms: None of the sales were known to involve terms of sale other than cash to the seller. No adjustment is made for financing terms.

Conditions of Sale: Conditions of sale relates to any undue pressure on either the buyer or the seller. Comparable 2 was built for an owner/occupier-single tenant, former offices for Santa Fe Natural Tobacco (52k square feet). The original owner was purchased and subsequently relocated. The property remained vacant for several years. The vacancies and marketing occurred during the economic downturn, which likely increased marketing time. For Comparable 2, the owner was not located in New Mexico and had no desire to continue to hold the building. Comparable 3 was constructed for multiple tenants with the primary tenants comprised of governmental entities (FBI and IRS). When the FBI vacated at the end of its lease, this space remained vacant. The owner tried to market the building at a higher listing price, but had no success. It was reported that the seller substantially decreased the sales price to facilitate a quicker sale. These comparables may have been subject to atypical motivation, but were exposed to the market. Comparable 4 was subject to a 16% vacancy and the contract rent for the occupied space was on the low end of the range – established during the economic downturn. Due to the longer nature of the lease, the owner was subject to likely below market rent for a sustained period. Due to the unique attributes of the comparables and the existence/level of any undue pressure, a conditions of sale adjustment is not developed for these comparables, but considered in the final reconciliation.

Conditions of Sale
Comparables 3 and 4 represent the bottom of the range produced by the comparables. These comparables also may have had atypical motivation

Expenditures After Sale: This adjustment is included in the transactional adjustments because it reflects those items that a buyer would have considered part of the price at the time of sale. The subject is comprised of professional offices which may function as single or multi-tenant. Comparable 2 incurred conversion costs subsequent to the sale. Comparable 2 was the former offices for Santa Fe Natural Tobacco. The property was

comprised primarily of open concept areas and warehouse containing minimal delineation. The buyer of the property was in the process of securing a lease with a GSA entity requiring further buildout of the property for the tenant. The estimated cost of the buildout to offices was $1,719,298.

Expenditures After Sale adjustment
Comparable 2: $1,719,298 for buildout to offices

Market Conditions: The next element of comparison which was considered was market conditions (time of sale). The earliest sale on the chart is November 2018 which is 59 months before the effective date of the appraisal. Analysis of a sale and resale of the same property is the most accurate method of determining a time of sale adjustment. The market has experienced a certain amount of fluctuation since the economic downturn. However, overall economic indicators have begun to improve over the past 5 years. Furthermore, the impact of these changes in economic indicators in the real estate market is not yet fully realized, but may put downward pressure on the depreciation in the market. Within improved commercial properties, based on lease rates and vacancies, the leveling-off appears to have begun in 2015. Based on this discussion and the comparables, neither an appreciation rate nor depreciation rate is applied to the comparables.

Property Adjustments

Physical characteristics: Physical factors which were considered for adjustment included size, location, quality, age and functional utility.

Size: Size was the first category examined. Typically, there is an inverse relationship between size and price per square foot, as the size increases the price per square foot decreases. The subject contains a total of 27,757 square feet in a two-story building. The comparable sales range from 14,500 square feet to 79,679 square feet. Examination of the comparables revealed no clear trend in value as a function of size for these comparables. Therefore, the search was extended to other commercial sales. Two sales of warehouse properties that occurred in the same building and at the same time were analyzed.

Size Comparison			
Property	7510 Mallard Way, Unit C	7510 Mallard Way, Unit D	Difference
Price per sf	$128.70	$127.30	-$1.40
Size	2,331 square feet	2,553 square feet	222 square feet
Size adjustment			$0.006/sf of change

This adjustment was based on a size difference of 9.5%. The search is extended outward to other commercial markets in Santa Fe. The sale of 2960 Rodeo Park Dr. W is compared to a previous sale in the same area located at 2056 Galisteo.

Size Comparison			
Property	2960 Rodeo Park Dr. W	2056 Galisteo	Difference
Price per sf*	$225.06	$185.45	$39.61
Size	14,609 square feet	20,948 square feet	6,339 square feet
Size adjustment			$0.006/sf of change

*Adjusted for time

This comparison produced a size adjustment of $0.006 per square foot based on a difference of 6,339 square feet. Three sales of office condos that occurred in the same development are analyzed. The sales were adjusted for time. For the size adjustment, the largest sale was compared to the two smaller sales. These sales occurred within 13 months of each other during a time when the market was appreciating.

SIZE COMPARISON

Property	Date of sale	Size	Price	TOS Adjustment	Change: Size	Change: price	Adjustment $ per sf
2019 Galisteo, N-10	01/2005	3,738	$201.61	13 months $209.47			
2019 Galisteo, N-9A	11/2005	2,286	$222.85	3 months $224.86	1,452	$15.39	$0.011
2019 Galisteo, D-2	02/2006	1,475	$223.73	0 months $223.73	2,263	$14.26	$0.006

This comparison produced size adjustments of $0.011 per square foot based on a difference of 1,452 square feet and $0.006 per square foot based on a difference of 2,263 square feet. These adjustments may have been overstated based on the appreciation in the market at that time. Based on this analysis with specific consideration of the utility/use and size of the subject (large gross) and comparables, a size adjustment of $0.0006 per square foot is extrapolated and applied to the comparables based on the size of the subject.

Age/condition: Age and condition are examined. The age and condition adjustment is combined. The condition, quality and estimated effective age of the comparables is in the following chart. As mentioned earlier in this Valuation section, this analysis is performed "as if" all the deferred maintenance was addressed. As such, the effective age of the subject is estimated to be 10 years.

COMPARABLE EFFECTIVE AGE

No.	Condition	Quality	Estimated Effective Age (EA)
1	Average	Average	22
2	Average to good	Average	12
3	Average	Average	14
4	Average	Average	20
5	Average	Average	15
6	Average	Average to good	15
7	Average	Average	25
Subject	Average	Average	10

Lacking sales in the subject's immediate area the search is extended outward to include all commercial sales in Santa Fe. Four comparisons are made of the adjusted prices of older buildings to newer ones to derive an age adjustment. All the comparisons were adjusted for conditions of sale and time of sale. They are summarized in the following charts.

Age Comparison			
Comparison 1			
Property	2019 Galisteo, Unit N-9 A	1651 Galisteo Units 8,9,10	Difference
Price per sf	$230.53	$196.72	17.2%
Age	1 years	20 years	19 years
Age adjustment			0.90% per year
Comparison 2			
Property	1640 Old Pecos Trail	2019 Galisteo, Unit N-9 A	Difference
Price per sf	$201.25	$230.53	14.5%
Age	15 years	1 years	14 years
Age adjustment			1.04% per year
Comparison 3			
Property	404 Brunn School Rd. C	2590 Camino Entrada	Difference
Price per sf	$218.92	$204.55	7.0%
Age	4 years	12 years	8 years
Age adjustment			0.88% per year
Comparison 4			
Property	1630 Hospital Dr.	2056 Galisteo	Difference
Price per sf	$195.07	$228.82	17.3%
Age	21 years	3 years	18 years
Age adjustment			0.96% per year

Based on these extractions, an age adjustment of 1% per year is applied to the comparables based on their effective age.

Location: Location is one of the most important value determining factors for commercial property. The subject is located in middle of the St. Michaels Drive office node in a commercial node centered between St. Francis Drive and Cerrillos Road. The comparables were selected based on utility/use and are from the subject's neighborhood and competing neighborhoods. Comparable 6 is located on the peripheral of downtown. Comparable 1 and 3 are in the southeast office/commercial node with 3 within the Rodeo Business Park and Comparables 4 and 5 are located in the central office/commercial node, which is centered on Christus St. Vincent Hospital. Comparables 2 and 7 are located at the southern end of the southwest quadrant of the City of Santa Fe in the southwest office/commercial node. Comparison of the comparables' locations did not produce the basis for a location adjustment. Based on the utility/use of the comparables, a location adjustment is not applied to the comparables and the specific location differences are considered in the reconciliation.

Conclusion: The adjustments discussed above are summarized in the following chart. Only those items requiring adjustment have been included.

SALES COMPARISON ADJUSTMENT CHART

Comparable	Subject	Comp. 1	Comp. 2	Comp. 3	Comp. 4	Comp. 5	Comp 6	Comp 7

Adjustment		+12%	+2%	+4%	+10%	+5%	+5%	+15%
Location	St. Michaels	SE	SW-	SE	Central	Central	Central	SW
Final adj. $ per sf		**$217.98**	**$161.28**	**$91.01+**	**$110.27+**	**$176.30**	**$223.84**	**$143.01**

Reconciliation: After considering all factors, the adjusted price per square foot of the comparables is in the following table.

Comparables	Range: Adjusted $/SF	Average: Adjusted $/SF
All: 1-7	$91.01+ to $223.84	$160.53
Comparables 2, and 5-7	$143.01 to $223.84	$176.11
Note		
Based on the attributes of the sales, Comparables 2, 3, 4 included excess vacancy and/or may have been subject to atypical motivation. However, the proposed tenant was identified for Comparable 2 prior to the sale.		

All the comparables were professional offices at the time of sale and share the same/similar utility/use. Comparables 2, 3, and 4 were subject to above market vacancy at the time of sale and likely include similar motivation. However, for Comparable 2, the tenant had been identified for this comparable, which was adjusted for expenditures after sale (finish out). Comparables 3 and 4 produced the lowest adjusted values. The subject's location is centralized and benefits from ready access to any of the other commercial nodes. The primary driver of differences in value is the tenancy/vacancy. The properties with limited vacancy and lower risk tenancy, produced values at the top of the range and the properties with high vacancy produced values at the bottom of the range. These properties are primarily comprised of large units and with a limited market of large tenants, risk increases putting downward pressure on values. The subject has been consistently leased since September of 2020 (through COVID shutdowns and the Writers' Strike). The current owner does not allow long-term leases.

Conclusion: based on this discussion and the attributes of the subject, including current market, age/condition ("as if "totally renovated, tenancy/income and location, emphasis was given to the higher end of the modified range.

ESTIMATED PRICE PER SQUARE FOOT

Estimated Price per Square Foot
$175 per square foot

Final Value per the Sales Comparison Approach

For the final value, the estimated price per square foot is applied to the subject's square footage.

Value Per The Sales Comparison Approach – As If	
$175 per square foot X 27,757 sf =	$4,857,475
Rounded	$4,850,000

Benildus - Income Approach

The subject is currently leased as shown in the summary below.

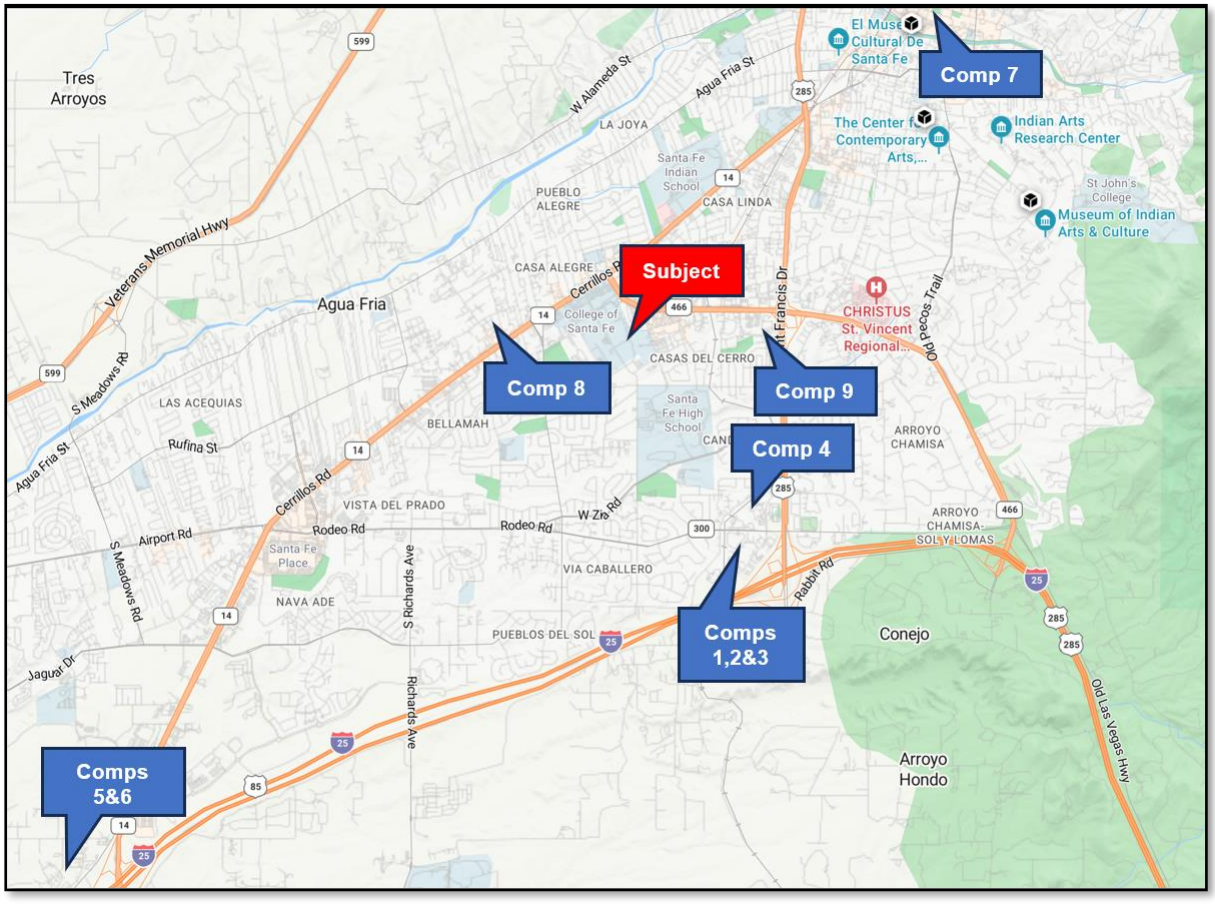
Lease Summary-	
Tenant	Name
Landlord	City of Santa Fe/Garson Studios
Term	One year Term: renewable current term 8/25/23 through 8/26/24
	Option Terms: one year
Rent	Commencement: 8/25/23 Total Rent at $21.75 per square foot
Lease Basis	• Tenant pays maintenance, janitorial • Landlord pays all utilities, taxes (waved), major maintenance and insurance
	Based on the operating expense division between the landlord and tenant, it is considered closely related to full service lease
Permitted Use	Professional office as related to film production

Direct Capitalization

Definition: Direct Capitalization
A method used to convert an estimate of a single year's income expectancy into an indication of value in one direct step, either by dividing the net income estimate by an appropriate capitalization rate or by multiplying the income estimate by an appropriate factor. Direct capitalization employs capitalization rates and multipliers extracted or developed from market data. Only one year's income is used. Yield and value changes are implied, but not explicitly identified.[9]

The Income Approach is based on the income producing capabilities of the property. For the Direct Capitalization method, a Potential Gross Income (PGI) is estimated from which vacancy loss is deducted to arrive at an Effective Gross Income (EGI). Expenses are then estimated and deducted from the EGI to obtain a Net Operating Income (NOI). The NOI is then capitalized into an indication of value by the application of an overall rate which has been developed through market extraction, development of the Modified Band of Investment and published sources.

It should be noted that this analysis is performed "as if" all the deferred maintenance on the subject is repaired – the subject is completely renovated.



[9] Ibid., p. 53

Market Rent: Rents were researched for buildings with commercial and similar construction with similar/related utility/use in the general area. Based on availability of rent comparables, the search was extended into competing commercial areas in the Santa Fe market. The rent comparables were selected that are generally of the same or similar quality/utility. All the rents are identified based on rent per square foot per year. The comparables are summarized in the following chart and described in more detail on the pages following.

RENT COMPARABLES CHART

No	Location	Leasable area (sf)	Rent sf/year	Lease type
Leases: GSA/Institutional

Rent Comparables - Details		
4		▪ **Location: 1474 Rodeo Road** ▪ Rental rate: $19.61 per square foot per year o Tenant: NM Human Service Department o Term: 09/2013-09/2022 ▪ Building Size: 37,478 square feet (portion of building) ▪ Vacancy: 0% ▪ Lease type: Full service ▪ Comments: Leased to a governmental entity. Professional office. Building is in fair condition. The owner stated that they are going to include $17 per square foot of tenant improvements and an additional $10 per square foot of building improvements.
5		▪ **Location: 1 Plaza La Prensa** ▪ Rental rate: $25.58 per square foot per year o Tenant: NM Human Service Department o Term: 05/2019-04/2029 ▪ Building Size: 46,976 square feet (portion of building) ▪ Vacancy: 0% ▪ Lease type: Full service ▪ Comments: Leased to a governmental entity. Professional office. Building is in average to good condition.
6		▪ **Location: 39 Plaza La Prensa** ▪ Rental rate: $29.30 per square foot per year o Tenant: NM Human Service Department o Term: 10/2008-09/2023 ▪ Building Size: 38,007 square feet ▪ Vacancy: 0% ▪ Lease type: Full service ▪ Comments: Leased to a governmental entity. Professional office. Building is in average condition.

Rent Comparables - Details		
7		▪ **Location: 142 W Palace** ▪ Rental rate: $16.50 per square foot per year o Tenant: Santa Fe County o Term: 12/2013-03/2021 ▪ Building Size: 18,099 square feet ▪ Vacancy: 0% ▪ Lease type: Full service ▪ Comments: Leased to a governmental entity. Professional office. Building is older and in fair condition. It is located in the downtown (BCD zoned), but its utility is limited to commercial/institutional office use, which is atypical for the location. The property is reaching the end of its economic life
Additional		
8		▪ **Location: 1301 Siler Road, Bldgs A, B/C, E, F** ▪ Rental rate: $22.43 per square foot per year o Tenants: NM Department of Health Pharmacy, NM Human Services Department, NM Department of Health o Term: varies ▪ Building Size: occupied 59,079 square feet (61,506 square feet total) ▪ Vacancy: 3.9% ▪ Lease type: Full service ▪ Comments: Leased to governmental entities. Professional office. Buildings are in average to good condition. Portion of building B/C is vacant unfinished: 2,427 sf
9		▪ **Location: 2055 S Pacheco** ▪ Rental rate: $22.20 per square foot per year o Tenants: NM State Treasure, Christus, NM Medical Board, High Country Macula, etc. o Term: varies ▪ Building Size: occupied 25,957 square feet (31,597 square feet total) ▪ Vacancy: 17.8% ▪ Lease type: Full service ▪ Comments: Leased primarily to governmental entities. Professional office. Buildings are in average condition. The vacant space is comprised of two areas. One was recently vacated and the owner states that there have been multiple interested parties

Analysis and Conclusion

Market Rents: In order to estimate market rent, the comparable rents were compared and adjusted. Estimation of market rent involved consideration of the following factors: lease type and attributes, physical attributes, and location. These elements are analyzed to determine if an adjustment is required. The elements are discussed below and the findings summarized and reconciled on a comparison grid.

Lease type: The subject's lease is most closely related to a full service lease. The comparables are leased on a full service basis.

Direct Capitalization Analysis: Lease Type
A full service lease is assumed for the analysis

Rents are primarily dependent on the type of lease. The three common types of leases are net, modified gross and full service.

LEASE TYPE DESCRIPTION

Lease Type	Expenses
Net	Tenant responsible for expenses • Tenant (lessee): All expenses • Landlord (lessor): No expenses (may pay management)
Modified gross (typical)	Expenses are split between tenant and landlord • Tenant (lessee): Janitorial and utilities • Landlord (lessor): Insurance, property taxes, maintenance and management
Full service	Landlord responsible for expenses • Tenant (lessee): No expenses • Landlord (lessor): All expenses

Note
The comparables are based on full service leases and did not require an adjustment for lease type.

Size: Size may also be a factor. A trend could not be extracted from the rent comparables. However, smaller spaces generally rent for more per square foot than larger spaces. Based on the size of the subject building and the comparables, no adjustment for size is applied, but is considered in the market rent reconciliation.

Age/Condition: The comparables have similar utility to the subject; however, the age/condition of the comparables varied. The estimated effective age of the rent comparables is in the following table.

COMPARABLE EFFECTIVE AGE

No.	Estimated Effective Age
1	12 years
2	12 years
3	12 years
4	15 years
5	10 years
6	10 years
7	30 years
Additional	
8	10 years
9	15 years
Subject	18 years

The age/condition adjustment developed in the sales comparison approach is applied to the comparables based on the subject's estimated effective age.

Location: The search for rent comparables included the subject's office node and was extended to competing nodes within Santa Fe. They share the same utility. Based on the utility of the comparables, a location adjustment is not applied, but considered in the reconciliation.

Conclusion: The rents after adjustment are in the following table.

ADJUSTED RENT CHART

No.	Location	Unadjusted Rent/SF/year	Adjusted Rent/SF/year
Leases: GSA/Institutional			
1	2905 Rodeo Park Dr. East, Bldg. 1	$23.94	$22.50
2	2905 Rodeo Park Dr. East, Bldg. 4 (portion)	$25.50	$23.97
3	2905 Rodeo Park Dr. East, Bldg. 5	$30.13	$28.32
4	1474 Rodeo Road	$19.61	$19.02
5	1 Plaza La Prensa	$25.58	$23.53
6	39 Plaza La Prensa	$29.30	$26.96
7	142 W Palace	$16.50	$18.48
Additional GSA/Institutional (primary)			
8	1301 Siler Road Bldgs A, B/C, E, F	Average: $22.43	$20.64
9	2055 S Pacheco	Average: $22.20	$21.53
	Leases	Average	$22.77
	On a full service basis	Minimum	$18.48
		Max	$28.32

Comparables 4 and 7 are at the bottom of the range and are the oldest properties having received varying levels of renovation. Comparable 3 and 6 are at the upper end of the range and are comprised primarily of seasoned leases. Comparables 5 and 6 are located at the southern end of the Southwest Office/Commercial Node.

Note
The upper half of the range is typically comprised of older/seasoned leases and the lower half of the range is typically comprised of newer leases and/or older properties. The subject's landlord does not allow for sublease terms greater than one year.

The subject's rent is not a "true" full-service lease. The tenants pay for maintenance and janitorial. If this estimated expense were added to the existing lease, it would add another $4 per sf and equal $25.75 per sf, which is still within the range of the comparables. The appraiser considers the short terms of the historical leases, as well as the "transitional period", when the City intends to sell the subject property as the primary reasons for the lease rates. As such, most weight is given to the subject's actual rent rate and the comparables are considered good supportive data.

Market Rent (as is)
$25.75 per square foot per year

Potential Gross Income (PGI): Multiplying the market rent times the square footage of the subject yields the potential gross income (PGI) for the subject.

POTENTIAL GROSS INCOME CHART

PGI Analysis	
27,757 square feet x $25.75 per sf per year	$714,743

The total potential gross income is based on the total potential income produced by the subject @ market without consideration of vacancy or expenses.

Vacancy/Collection Loss: Vacancy/Collection Loss must be deducted from the potential gross income to determine the effective gross income (EGI). The subject's office node is the St. Michaels Drive Office Node. Vacancy can be estimated based on the typical lease parameters and turn-over. Estimating a two-to-five-month vacancy with a typical three-year lease yields an annualized vacancy rate of 5.6% percent to 13%. However, this does not take into account a reasonable renewal probability. The vacancy and collection loss in the analysis is primarily a function of expectations based on the characteristics of the subject, which is related to film production. Because production groups have shorter leases, it is expected that vacancy will be much higher compared to typical professional office leases.

The property type is considered to have shorter leases, but longer marketing times when vacant. Based on this discussion and the subject's attributes, a vacancy of 15% is selected and applied to the potential gross income which results in a vacancy deduction.

Vacancy/Collection loss
15%

Effective Gross Income (PGI): Deducting vacancy from the PGI results in an effective gross income (EGI).

EGI Analysis		
PGI		$714,743
Vacancy	15%	($107,211)
Total:		$607,531

Expenses: The income approach is being calculated based on full service leases. Rents are heavily dependent on the type of lease. As previously discussed, the three usual types of leases are net, modified gross and full service. The rent comparables are comprised of full service leases. The expenses are categorized as fixed expenses, variable expense and replacement reserves.

Expense Classification	
Fixed	Operating expenses such as property taxes and insurance that generally do not vary with occupancy and that prudent management will pay for whether the property is occupied or vacant.10
Variable	Operating expenses that generally vary with the level of occupancy or the extent of services provided.11
Reserves	An allowance that provides for the periodic replacement of building components that wear out more rapidly than the building itself and must be replaced during the building's economic life; sometimes referred to as *reserves* or *reserves for replacement*.12 Such as roof covering, carpet, specific structural items and equipment with limited economic life expectancies

Subject Expenses: The subject is leased; however, the subject's historical expenses would not be representative and were not provided for the appraisal.

10 Ibid., p. 93
11 Ibid., p. 245
12 Ibid., p. 197

Comparable Expenses: Marc Bertram, a principle of ownership of comparables 1-3, 8 and 9, previously stated that the annual expenses ranged from $7.25 per square foot per year to $7.50 per square foot per year. These are reflective of full service GSA leases. In addition, the historical expenses associated with a GSA lease at 2056 Galisteo were $7.67 in 2013, $7.78 in 2014 and $7.51 in 2015.

Market Expenses: In the market, the cost of the utility expense and janitorial expense usually ranges from $2.00 to $4.00 per square foot depending on how many times per week the building is cleaned and the level of the building's energy efficiency. The cost of property taxes, insurance, and maintenance generally range from $2.00 to $4.00 per square foot depending on the age and amount of maintenance to the building. Management, as previously mentioned is frequently a negotiable item, typically calculated based on 4 % to 6% of effective gross income. The management expense in the Santa Fe market is generally carried by the landlord. Two additional historical expense comparables are included in the following table. These comparables each did not include some aspect of a full service lease.

EXPENSE COMPARABLES

Location	1630 Hospital		2025 Pacheco	
Size (sf)		10,249		39,110
Expenses	**Annual**	***per sf***	**Annual**	***per sf***
Prop Tax	$13,647	*$1.33*	$28,903	*$0.74*
Insurance	$3,130	*$0.31*	$2,998	*$0.08*
Maint./Repairs	$11,174	*$1.09*	$135,978	*$3.48*
Janitorial	Tenant	*n/a*	$31,828	*$0.81*
Utilities	Tenant	*n/a*	$120,325	*$3.08*
Management	$8,683	*$0.85*	n/a	*n/a*
Total	$36,634	*$3.57*	$320,032	*$8.18*

The first expense comparable is an older medical office building in good condition. The second expense comparable is an older building and is also leased to a governmental entity. Several of the expenses for the second expense comparable, 2025 Pacheco Street, appear to be outside of the range produced by the other expense comparable. The maintenance expenses, and utilities expense are significantly higher than these expenses for the other property. The insurance expense was based on an underpayment for the year. The actual insurance expense is $10,089 or $0.26 per square foot. The maintenance expense and the utilities expense are significantly above

the range produced by the other expense comparable. The detail showed that several charges for capital improvements were included in the maintenance expense which isn't typical for the market. When these expenses are removed, the maintenance expense drops to $60,423 or $1.54 per square foot. Finally, the owner of the property, Robert Berkelo, stated that the utilities are high based on the HVAC system which is old and inefficient and there are plans to replace the HVAC system which should lead to significant savings.

Expense Conclusion: Based on the subject's attributes, an expense of $9.50 per square foot is selected. Additionally, a 3% management fee is added.

RECONCILED EXPENSES - SUBJECT

Subject Size x Expense per SF	Total Expense
27,757 @ $9.50 per sf per year + 3% of EGI =	$281,917

Net Operating Income: Deducting the lessor's expenses from the effective gross income (EGI) results in a net operating income (NOI). The NOI needs to be capitalized into an indication of value. The Net Operating Income is capitalized into an indication of value by dividing the NOI by an appropriate capitalization rate.

NOI Analysis	
EGI	$607,531
Less: Expenses	($281,917)
NOI	$325,614

Capitalization Rate: The capitalization rate is the relationship between the sales price and the net income of the property. Inherent in this rate are all the influences of current market conditions, i.e. financing conditions, current interest rates, tax considerations, potential appreciation/depreciation possibilities, the personal needs and requirements of a purchaser and other factors. Two methods were used to derive a capitalization rate to be used in the analysis. The first was to extract capitalization rates from actual sales. The second method was the Modified Band of Investment. This method assigns a weighted percentage to the equity return and the mortgage rate. These are then added to give an overall capitalization rate. Sales of commercial properties in Santa Fe have generally shown overall rates in the range of 6.00% to 10.0%. The market extracted rates have tended to rise over the past few years with signs of leveling off over the past year. Five of the sales comparables produced a capitalization rate.

CAPITALIZATION RATES – SALES COMPARABLES

Sales Comparable	Capitalization Rate
1	8.6%
3	10.8%
4	10.3%
5	10.4%
6	7.7%

At the time of sale, Sales Comparables 1 (older building) and 5 are subject to governmental leases and Sales Comparables 3 and 4 are subject to governmental and non-governmental leases. Sales Comparable 4 also had atypical vacancy. Comparable 5's lease was seasoned and based on the remaining term and higher rent was considered higher risk. In addition, these are primarily comprised of larger single spaces and lack the versatility to meet market demand when it changes.

Note
Based on this, these capitalization rates are considered in the upper half of the range.

The search was extended to all commercial sales within Santa Fe. The comparables with similar utility to the subject receive most consideration. Based on the limited amount of data, the search was expanded to include 2008. Sales of commercial properties in Santa Fe have generally shown overall rates in the range of 6% to 10%. With the lower end of the market made up mostly of properties in the downtown and investor grade properties. These capitalization rates are derived by extraction from the market and are listed in the following chart.

CAPITALIZATION RATES (MARKET DERIVED)

Sale	Date of sale	Capitalization rate	Use
1672 Hospital Drive	07/08	7.0%	Office – medical
2590 Camino Entrada	09/08	7.9%	Office - medical
1474-1480 St. Francis	05/09	9.2%	Office
422 W. San Francisco	08/09	8.0%	Office/Retail - downtown
1215 Paseo de Peralta	09/09	8.3%	Office – downtown
1442-C St. Francis Drive	10/09	6.5%	Office
1925 Aspen Dr., Unit 801 A&B	05/10	7.2%	Office
221 Canyon Road	12/10	5.4%	Retail – downtown
421 St. Michaels Drive	01/11	6.5%	Office
404 Kiva Court Unit E	03/11	8.8%	Office
1421 Luisa Street Unit I	04/11	8.6%	Office
237 East Palace Avenue	08/11	7.0%	Retail - downtown
490-A West Zia Road	12/12	7.7%	Office - medical
2014 Cerrillos Road	03/13	8.5%	Restaurant
1221 Luisa	02/2015	6.4%	Office
1409 Luisa	04/2015	8.3%	Office

3023 Cielo Ct Units A,B,C,D	04/2021	8.6%	Office/Services
Note			
Sales volume in the market has been limited since 2008			

Subject – Capitalization Rate
Based on the table and the subject's attributes, primarily age/condition, utility/use and vacancy, there is downward pressure on the capitalization rate. A market derived capitalization rate of 7.0% to 8.5% is deemed appropriate.

The modified band of Investment requires utilization of an equity capitalization rate which is a rate expressing the relationship between one year's pre-tax cash flow (NOI less the annual debt service) and the equity investment. Equity capitalization rates may be estimated from current so-called "safe rates" such as CDs, bonds, and T-bills, or they may be market extracted. Since equity capitalization rates (equity dividend rates) tend to change with the economy, only the most recent sales are applicable.

It is also possible to build an equity capitalization rate using a known "safe" rate and adding percentage points for loss of liquidity and risk. “Safe rates” are derived from such sources as insured certificates of deposit and AAA bonds. At this time, they lie generally in the range of 3.0% to 6.0%. Risk for the subject was viewed as moderate. Therefore, two points were added for risk. An additional 2% was needed to compensate for loss of liquidity. This resulted in a range of 7.0% to 10% for an equity capitalization rate when derived in this manner. Analysis of the sale of 1401 Maclovia produced an equity capitalization rate of 8.2% which is within the estimated range. Based on the attributes of the subject and relative investor grade, the lower end of the range was weighted and 8% is selected for the equity capitalization rate.

The modified band of investment assigns a weighted percentage to the two factors that make up the total capitalization rate. The weighted percentage was derived from the loan-to-value ratio. Therefore, the mortgage factor was assigned a percentage of 70% and the equity factor is 30% (100%-70%). The annual mortgage constant for 5% interest based on a five-year fixed term based on a 20-year amortization is 0.079 or 7.9%. The calculation of the capitalization rate per the modified band of investments is

in the following table. The Modified Band of Investment produced a capitalization rate of 7.9%.

Modified Band Of Investments		
8% Return to Equity		
Annual Constant	0.0792 x .70 =	0.0554
Equity Requirement	0.0800 x .30 =	0.0240
	Total	0.0794

Derivation of the capitalization rate to be utilized in the income approach requires reconciliation of the market-derived capitalization rate and the Modified Band of Investment. The market extracted rates indicate a range for the subject of 8.0% to 9.0% with the most likely being the lower half of the range. The Modified Band of Investment produced a capitalization rate of 7.94%. Further support was sought from the PwC Real Estate Investor Survey (formerly Korpacz).

PWC – 3rd QUARTER 2023 – CAP RATES

Category	Capitalization Rates
National Secondary Office Market	6.00%-10.25% Average: 8.16%
National Suburban Office Building Market	5.00%-8.00% Average: 6.54%

With this support and with most emphasis on the market extracted rates, with specific emphasis on the tenancy and physical attributes (**all deferred maintenance has been addressed**) of the subject, a capitalization rate of 7.25% is concluded and is applied to the subject.

Income Approach Summary: Capitalizing the NOI results in a value indication. The income approach summary follows.

Income Approach Summary	
PGI	$714,743
Less: Vacancy @ 15%	($107,211)
EGI (PGI – Vacancy)	$607,531
Less: Expenses	($281,917)
NOI (EGI – Expenses)	$325,614

Final Value per the Income Approach

The Net Operating Income (NOI) must be capitalized in order to achieve a final value per the income approach.

Value Per the Income Approach: Direct Capitalization	
Final Value: NOI / Cap Rate $325,614 / 7.25% =	$4,491,226
Rounded	$4,500,000

Benildus - Reconciliation of Preliminary Values

Subject	
Benildus Hall	
Preliminary Value Indications	
Sales Comparison Approach	$4,850,000
Income Approach: Direct Capitalization	$4,500,000

For the appraisal, the sales comparison approach and the income approach (direct capitalization) are developed for the appropriate/respective preliminary values. Each of the approaches to value has validity and applicability to the appraisal problem. Ideally speaking, if each was done exactly correctly (implying uniform data), they would result in identical value estimates. However, the real estate market is not an exact arena. No two sales are exactly the same and rarely, if ever, are two commercial properties exact duplicates. Therefore, it is the responsibility of the appraiser to apply logic and experience to the data provided.

Contributory Value

Cost Approach: The cost approach is appropriate for new or nearly new construction. Based on the age of the improvements (excess of five years), the cost approach was not developed.

Sales Comparison: The sales comparison approach is a method of estimating value which involves direct comparison of the subject to other sales. The reliability of the sales comparison approach is dependent upon the degree of similarity of the comparables. The search for improved sales comparables was extended to November 2018. The comparables available for the sales comparison approach are considered ample. The adjustments were market derived and quantitative in nature. The value derived from this approach should be considered reliable.

Income Approach: The income approach is developed using the direct capitalization method.

Direct Capitalization: the gross rental income of the subject is estimated by determining the market rent from a survey of competing properties. The vacancy/collection loss and expenses are applied to the gross income in order to develop the net operating income. A capitalization rate was estimated by two methods, market extraction and modified band of investment, and supported by the PwC Cap Rate Survey. The net operating

income was divided by the capitalization rate to yield a value by the income approach. The rent comparables for the income approach are commercial properties in the subject's neighborhood and competing neighborhoods. They are considered adequate. The supporting data for the income approach is sufficient, and the value resulting from this approach should also be considered reliable.

Reconciliation: Reconciliation to a final value estimate involved consideration given to all approaches to value depending on their reliability. Investor buyers of income-producing properties typically place most weight on the income approach; however, the sales comparison approach offered three good comparables. As such the sales comparison is given supportive weight.

Conclusion: Based on the data presented in the report, it is my opinion that the most probable contributory value of the Benildus Hall (subject to easements and restrictions of record) 'as is' as of November 15, 2023 is:

PRELIMINARY FINAL VALUE

Subject: Benildus Hall		
Contributory Value – 'As If'	Fee simple	**Four Million Six Hundred Thousand Dollars $4,600,000**

It should be noted that this analysis is performed "as if" all the deferred maintenance on the subject is repaired – the subject is completely renovated.

Final Value Benildus

The initial value produced for the Benildus structure was completed “as if” the deferred maintenance was addressed, and all repairs were completed. A Facility Assessment Report was completed by Wilson Company on January 11, 2023, to ascertain the cost to address the building’s deferred maintenance. According to the report the cost is $1,759,269. This cost to applied to the preliminary value to produce a final value for the subject below.

Additionally, this building lacks sufficient parking. The buyer and sellers of the subject have agreed to a parking lease, until such time as land can be purchased. This drafted agreement was provided to the appraiser: however, the terms were provided orally from the seller representative. The lease term is 20 years with the ability to be renewed and the lease price is $15,000 per year. The appraiser produced a net present value through a discounted cash flow analysis. A 5% discount was used. The analysis produced a value of $251,445.34, which is rounded to $250,000.

Component	Value
Preliminary value for Benildus	$4,600,000
Cost to address deferred maintenance	$1,759,269
Less the discount for lack of parking	$250,000
Final Value	$2,840,731
Rounded	**$2,590,000**

Garson Studios – Case Study – Sales Comparison Approach

The Garson Studios Structure combines three soundstages, professional office space and a small theater. This property type is not uncommon in New Mexico; however, there is little sales data available. As such, an expanded sales comparison approach is not performed.

Next to the subject property, the former tennis facility known as Shellaberger sold in March of 2022 for $6,700,000. Shortly after the sale, the buyers were approached by the film industry for consideration of a transition from the historic (tennis) use to soundstage/professional office. After negotiations, the transition began, and the new facility has adapted and is being rented as a soundstage/office use. According to the new owners the facility required $1,500,000 for the soundstages to be retrofitted and soundproofed. An additional $1,000,000 is needed for electrical upgrades. Therefore, the cost of the structure with land is $9,200,000. There was a substantial amount of land included in the sale of the facility and after subtracting the “excess land” the true cost of the soundstage/office was $7,800,000 or $128.35 per square foot.

When comparing the Shellaberger facility to the Garson Studios one must consider the make-up of the two structures. Shellaberger has a greater amount of soundstage as a portion of the structure compared to Garson. Because the rent produced by the soundstage is greater than the office, and Shellaberger has more soundstage and is newer, it is considered superior.

Garson Studios - Income Approach

The subject is currently leased as shown in the summary below.

Lease Summary-	
Tenant	Aspect
Landlord	City of Santa Fe/Garson Studios
Term	One year Term: renewable current term 8/25/23 through 8/26/24
	Option Terms: one year
Rent	Commencement: 8/25/23 Studios, A, B and C and parking – rent varies per month
Lease Basis	• Full service
Permitted Use	film production

Direct Capitalization

Definition: Direct Capitalization
A method used to convert an estimate of a single year's income expectancy into an indication of value in one direct step, either by dividing the net income estimate by an appropriate capitalization rate or by multiplying the income estimate by an appropriate factor. Direct capitalization employs capitalization rates and multipliers extracted or developed from market data. Only one year's income is used. Yield and value changes are implied, but not explicitly identified.[13]

The Income Approach is based on the income producing capabilities of the property. For the Direct Capitalization method, a Potential Gross Income (PGI) is estimated from which vacancy loss is deducted to arrive at an Effective Gross Income (EGI). Expenses are then estimated and deducted from the EGI to obtain a Net Operating Income (NOI). The NOI is then capitalized into an indication of value by the application of an overall rate which has been developed through market extraction, development of the Modified Band of Investment and published sources.

It should be noted that this analysis is performed "as if" all the deferred maintenance on the subject is repaired – the subject is completely renovated.

[13] Ibid., p. 53

Market Rent: Rents were researched for similar buildings. The management of the Shellaberger facility were contacted. They stated that full-service lease for the soundstage portion of the facility will rent for between $2.50 and $3.00 per square foot per month.

A rent analysis completed by a local appraiser, Art Neudek, MAI. Within his report rent comparables in Los Angeles found were between $25 and $50 per square foot on a triple net basis. He stated that the soundstage rent (at Garson Studios) which included parking behind the building, should be $25 per square foot per year on a triple net basis. This does not include the office/storage/theater space in the structure.

The office portion of the building is important and useable because production requires more than a soundstage, for example, photography, make-up, conference rooms, and administration. If this space wasn't available on-site, the production would go off-site and into Santa Fe's professional office market top rent space. Based on the analysis provided in the Benildus sections of this report, market rent is $25.75 per square foot per full-service basis; however, the balance of the space in the building has storage areas and a small theater, with limited uses.

In the months between February of 2023 and July of 2023 the subject had an average contract rent of $137,412 per month. It should be noted that 2023 was a poor year for the demand of film production space due to a writers strike. As such, $137,000 per month is represented as a potential income and the subject's historic income.

Potential Gross Income (PGI):

POTENTIAL GROSS INCOME CHART

PGI Analysis	
$137,000 X 12 months	$1,644,000

The total potential gross income is based on the total potential income produced by the subject @ market without consideration of vacancy or expenses.

Vacancy: Vacancy/Collection Loss must be deducted from the potential gross income to determine the effective gross income (EGI). The subject structure is directly used for film/multimedia production and has a history of being leased. Over the past several years, the film industry has been challenged with COVID and a writer's strike. Additionally, productions rent terms are commonly between 6 months and 10 months. It would be unfair to use occupancy data from (unusual) times as representative; however, occupancy rates are lower than typical professional office or light industrial markets. The property type is considered to have shorter leases, but much longer marketing times when vacant. Based on this discussion and the subject's attributes, a vacancy of 20% is selected and applied to the potential gross income which results in a vacancy deduction.

Vacancy
20%

Effective Gross Income (PGI): Deducting vacancy from the PGI results in an effective gross income (EGI).

EGI Analysis		
PGI		$1,644,000
Vacancy	20%	($328,800)
Total:		$1,315,200

Expenses: This income approach is being calculated based on full-service leases. Rents are heavily dependent on the type of lease. As previously discussed, the three usual types of leases are net, modified gross and full service. The expenses are categorized as fixed expenses, variable expense and replacement reserves.

Expense Classification	
Fixed	Operating expenses such as property taxes and insurance that generally do not vary with occupancy and that prudent management will pay for whether the property is occupied or vacant.
Variable	Operating expenses that generally vary with the level of occupancy or the extent of services provided.
Reserves	An allowance that provides for the periodic replacement of building components that wear out more rapidly than the building itself and must be replaced during the building's economic life; sometimes referred to as *reserves* or *reserves for replacement*. Such as roof covering, carpet, specific structural items, and equipment with limited economic life expectancies

Subject Expenses: The subject is currently leased; however, the subject's historical expenses would not be representative and were not provided for the appraisal.

Expense	**Costs**
Maintenance @ $10.00* per sf	$492,000
Tax based on $4,500,000	$48,235
Management @ 3% of EGI	$39,456
Insurance @$0.30 per sf	$14,760
Total	$610,530

***Reflects maintenance after all deferred maintenance has been addressed**

Net Operating Income: Deducting the lessor's expenses from the effective gross income (EGI) results in a net operating income (NOI). The NOI needs to be capitalized into an indication of value. The Net Operating Income is capitalized into an indication of value by dividing the NOI by an appropriate capitalization rate.

NOI Analysis	
EGI	$1,315,200
Less: Expenses	($610,530)
NOI	$704,670

Capitalization Rate: The capitalization rate is the relationship between the sales price and the net income of the property. Inherent in this rate are all the influences of current market conditions i.e., financing conditions, current interest rates, tax considerations, potential appreciation/depreciation possibilities, the personal needs and requirements of a purchaser and other factors. Two methods were used to derive a capitalization rate to be used in the analysis. The first was to extract capitalization rates from actual sales. The second method was the Modified Band of Investment. This method assigns a weighted percentage to the equity return and the mortgage rate. These are then added to give an overall capitalization rate. Sales of commercial properties in Santa Fe have generally shown overall rates in the range of 6.00% to 10.0%. The market extracted rates have tended to rise over the past few years with signs of leveling off over the past year.

The search was extended to all commercial sales within Santa Fe. The comparables with similar utility to the subject receive most consideration. Based on the limited amount of data, the search was expanded to include 2008. Sales of commercial properties in Santa Fe have generally shown overall rates in the range of 6% to 10%. With the lower end of the market made up mostly of properties in the downtown and investor grade properties. These capitalization rates are derived by extraction from the market and are listed in the following chart.

CAPITALIZATION RATES (MARKET DERIVED)

Sale	Date of sale	Capitalization rate	Use
1672 Hospital Drive	07/08	7.0%	Office – medical
2590 Camino Entrada	09/08	7.9%	Office - medical

Note			
Sales volume in the market has been limited since 2008			

Subject – Capitalization Rate
Based on the table and the subject's attributes, primarily age/condition, utility/use and vacancy, there is upward pressure on the capitalization rate. A market derived capitalization rate of 7.5% to 9.0% is deemed appropriate.

The modified band of Investment requires utilization of an equity capitalization rate which is a rate expressing the relationship between one year's pre-tax cash flow (NOI less the annual debt service) and the equity investment. Equity capitalization rates may be estimated from current so-called "safe rates" such as CDs, bonds, and T-bills, or they may be market extracted. Since equity capitalization rates (equity dividend rates) tend to change with the economy, only the most recent sales are applicable.

It is also possible to build an equity capitalization rate using a known "safe" rate and adding percentage points for loss of liquidity and risk. “Safe rates” are derived from such sources as insured certificates of deposit and AAA bonds. At this time, they lie generally in the range of 3.0% to 6.0%. Risk for the subject was viewed as moderate. Therefore, two points were added for risk. An additional 2% was needed to compensate for loss of liquidity. This resulted in a range of 7.0% to 10% for an equity capitalization rate when derived in this manner. Analysis of the sale of 1401 Maclovia produced an equity capitalization rate of 8.2% which is within the estimated range. Based on the attributes of the subject and relative investor grade, the lower end of the range was weighted and 8% is selected for the equity capitalization rate.

The modified band of investment assigns a weighted percentage to the two factors that make up the total capitalization rate. The weighted percentage was derived from the loan-to-value ratio. Therefore, the mortgage factor was assigned a percentage of 70% and the equity factor is 30% (100%-70%). The annual mortgage constant for 5% interest based on a five-year fixed term based on a 20-year amortization is 0.079 or 7.9%. The calculation of the capitalization rate per the modified band of investments is

in the following table. The Modified Band of Investment produced a capitalization rate of 7.9%.

Modified Band Of Investments		
8% Return to Equity		
Annual Constant	0.0792 x .70 =	0.0554
Equity Requirement	0.0800 x .30 =	0.0240
	Total	0.0794

Derivation of the capitalization rate to be utilized in the income approach requires reconciliation of the market-derived capitalization rate and the Modified Band of Investment. The market extracted rates indicate a range for the subject of 8.5% to 10.0% with the most likely being the lower half of the range. The Modified Band of Investment produced a capitalization rate of 7.94%.

Further support was sought from the PwC Real Estate Investor Survey (formerly Korpacz). Based on the First Quarter publication, capitalization rates in most property sectors are on the rise.

With this support and with most emphasis on the market extracted rates, with specific emphasis on the tenancy and physical attributes **("as if" all deferred maintenance has been addressed**) of the subject, a capitalization rate of 8% is concluded and is applied to the subject.

Income Approach Summary: Capitalizing the NOI results in a value indication. The income approach summary follows.

Income Approach Summary	
PGI	$1,644,000
Less: Vacancy @ 20%	($328,800)
EGI (PGI – Vacancy)	$1,315,200
Less: Expenses	($610,530)
NOI (EGI – Expenses)	$704,670

Final Value per the Income Approach

The Net Operating Income (NOI) must be capitalized in order to achieve a final value per income approach.

Value Per the Income Approach: Direct Capitalization	
Final Value: NOI / Cap Rate $704,670 / 8.0% =	$8,808,375
Rounded	**$8,800,000**

Garson Studios - Reconciliation and Preliminary Value Conclusion

Subject	
Garson Studios	
Value Indications	
Study	Less than $128 per sf
Income Approach: Direct Capitalization	$8,800,000

For the appraisal, a sales comparison approach could not be completed because there were not enough adequate comparable sales. In leu of this approach, a neighboring property was examined as supportive data. This structure was formerly a tennis facility and now has been transitioned into a soundstage/office structure. Because this has a greater ratio of soundstage to office, has more rentable soundstage and is in better condition, it is considered far more superior than the subject. Only supportive weight is given to this analysis.

Cost Approach: The cost approach is appropriate for new or nearly new construction. Based on the age of the improvements (excess of five years), the cost approach is not developed.

Income Approach: The income approach is developed using the direct capitalization method.

Direct Capitalization: the gross rental income of the subject is estimated by determining the market rent from a survey of competing properties. The vacancy/collection loss and expenses are applied to the gross income in order to develop the net operating income. A capitalization rate was estimated by two methods, market extraction and modified band of investment, and supported by the PwC Cap Rate Survey. The net operating income was divided by the capitalization rate to yield a value by the income approach. The rent comparables for the income approach are commercial properties in the subject's neighborhood and competing neighborhoods. They are considered adequate. The supporting data for the income approach is sufficient, and the value resulting from this approach should also be considered reliable.

Reconciliation: Reconciliation to a final value estimate involved consideration given to all approaches to value depending on their reliability. Investor buyers of income-producing properties typically place most weight on the income approach. Only a small amount of weight is attributed to the neighboring sale property analysis.

Conclusion: Based on the data presented in the report, it is my opinion that the most probable contributory value (subject to easements and restrictions of record) in the Garson Studios 'as is' as of November 15, 2023 is:

PRELIMINARY FINAL VALUE

Subject: Garson Studios		
Contributory Value – 'As If'	Fee simple	**Eight Million Eight Hundred Thousand Dollars $8,800,000**

Final Value Garson Studios

The initial value produced for the Garson Studios structure was completed “as if” the deferred maintenance was addressed, and all repairs were completed. A Facility Assessment Report was completed by Wilson Company on January 4, 2023, to ascertain the cost to address the building’s deferred maintenance. According to the report the cost is $2,696,459. This cost to applied to the preliminary value to produce a final value for the subject below.

Component	Value
Preliminary value for Benildus	$8,800,000
Cost to address deferred maintenance	$2,696,459
Final Value	$6,103,541
Rounded	**$6,100,000**

Driscoll – Income Approach

The Driscoll building was formerly an athletic facility. Approximately one half of the structure was a gymnasium, and the other half was comprised of exercise rooms, locker rooms, racquetball courts and an entry. Upon this appraiser's initial inspection, the building was described as "in the process of being converted into a soundstage, where the gymnasium will be the soundstage and the remaining rooms will be converted into offices". This made sense because the basketball court flooring had been converted into flooring that is typical for soundstages.

It has come to the attention of the appraiser that soundstage development is inappropriate due to structural issues with the building. As such, the building will be appraised based as a "utility structure" as is needed and demand exists. It should be noted that the structure rents for approximately $30,000 per month in its current state.

Extraordinary Assumption
According to the appraiser the Driscoll structure should be converted into a soundstage with the remaining space used as supportive office. There have been some structural issues identified that could make the conversion of the building inappropriate. If the structure is found to be structurally adequate or financially feasible to be renovated to be adequate, the results of this appraisal are subject to change.

It should be noted that this valuation does consider the incorporation of the deferred maintenance report. The structure can/does produce income in its current condition. As such, this valuation analysis is performed in a "as is" condition of the structure.

Potential Gross Income (PGI): Multiplying the market rent times the square footage of the subject yields the potential gross income (PGI) for the subject.

POTENTIAL GROSS INCOME CHART

PGI Analysis	
$30,000 X 12 months	$360,000

The total potential gross income is based on the total potential income produced by the subject @ market without consideration of vacancy or expenses.

Vacancy: Vacancy/Collection Loss must be deducted from the potential gross income to determine the effective gross income (EGI). The subject structure is directly used for film/multimedia production and has a history of being leased. Over the past several years, the film industry has been challenged with COVID and a writer's strike. Additionally, productions rent terms are commonly between 6 months and 10 months. It would be unfair to use occupancy data from (unusual) times as representative; however, occupancy rates are lower than typical professional office or light industrial markets. The property type is considered to have shorter leases, but much longer marketing times when vacant. Based on this discussion and the subject's attributes, a vacancy of 20% is selected and applied to the potential gross income which results in a vacancy deduction.

Vacancy
20%

Effective Gross Income (PGI): Deducting vacancy from the PGI results in an effective gross income (EGI).

EGI Analysis		
PGI		$360,000
Vacancy	20%	($72,000)
Total:		$288,000

Expenses: This income approach is being calculated based on full service leases. Rents are heavily dependent on the type of lease. As previously discussed, the three usual types of leases are net, modified gross and full service. The expenses are categorized as fixed expenses, variable expense and replacement reserves.

Expense Classification	
Fixed	Operating expenses such as property taxes and insurance that generally do not vary with occupancy and that prudent management will pay for whether the property is occupied or vacant.
Variable	Operating expenses that generally vary with the level of occupancy or the extent of services provided.
Reserves	An allowance that provides for the periodic replacement of building components that wear out more rapidly than the building itself and must be replaced during the building's economic life; sometimes referred to as *reserves* or *reserves for replacement*. Such as roof covering, carpet, specific structural items and equipment with limited economic life expectancies

Subject Expenses: The subject is currently leased; however, the subject's historical expenses would not be representative and were not provided for the appraisal.

Expense	Costs
Maintenance @ $7.00 per sf	$177,600
Tax based on $850,000	$9,111
Management @ 3% of EGI	$8,640
Insurance @$0.30 per sf	$6,660
Total	$202,011

Net Operating Income: Deducting the lessor's expenses from the effective gross income (EGI) results in a net operating income (NOI). The NOI needs to be capitalized into an indication of value. The Net Operating Income is capitalized into an indication of value by dividing the NOI by an appropriate capitalization rate.

NOI Analysis	
EGI	$288,000
Less: Expenses	($202,011)
NOI	$85,989

Capitalization Rate: The capitalization rate is the relationship between the sales price and the net income of the property. Inherent in this rate are all the influences of current market conditions i.e., financing conditions, current interest rates, tax considerations, potential appreciation/depreciation possibilities, the personal needs and requirements of a purchaser and other factors.

With this support and with most emphasis on the market extracted rates, with specific emphasis on the tenancy and physical attributes ("as is") of the subject, a capitalization rate of 9.0% is concluded and is applied to the subject.

Income Approach Summary: Capitalizing the NOI results in a value indication. The income approach summary follows.

Income Approach Summary	
PGI	$360,000
Less: Vacancy @ 20%	($72,000)
EGI (PGI – Vacancy)	$288,000
Less: Expenses	($202,011)
NOI (EGI – Expenses)	$85,989

Preliminary Value per the Income Approach

The Net Operating Income (NOI) must be capitalized in order to achieve a preliminary value per the income approach.

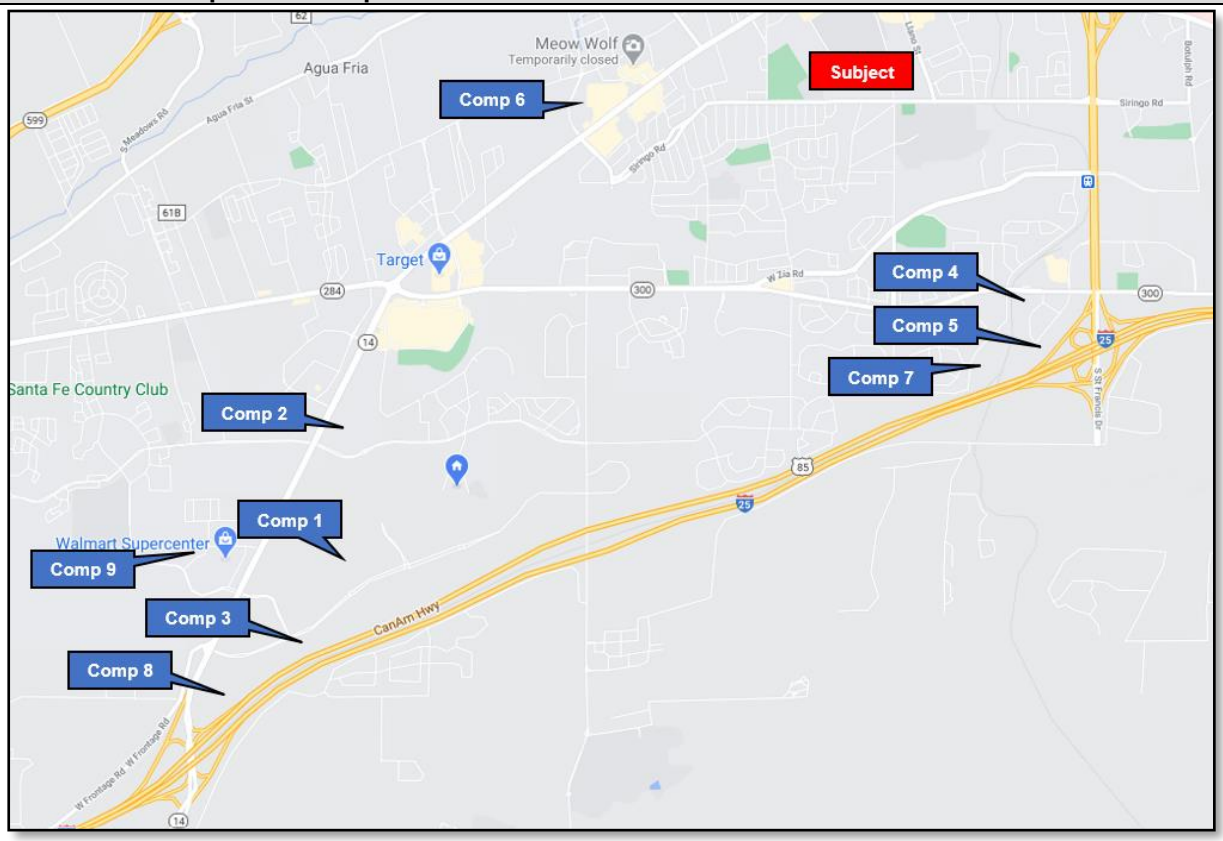
Final Value Per the Income Approach: Direct Capitalization	
Value: NOI / Cap Rate $85,989 / 9.0% =	$955,433
	$950,000

Extraordinary Assumption
According to the appraiser the Driscoll structure should be converted into a soundstage with the remaining space used as supportive office. There have been some structural issues identified that could make the conversion of the building inappropriate. If the structure is found to be structurally adequate or financially feasible to be renovated to be adequate, the results of this appraisal are subject to change.

Excess Land - Sales Comparison Approach

The subject's excess land is 136,525 square feet in size. The valuation is comprised of the sales comparison approach, which is typically the only approach appropriate to the appraisal of vacant land and there is adequate data and support for the adjustments.

Definition: Sales Comparison Approach
The process of deriving a value indication for the subject property by comparing sales of similar properties to the property being appraised, identifying appropriate units of comparison, and making adjustments to the sale prices (or unit prices, as appropriate) of the comparable properties based on relevant, market-derived elements of comparison. The sales comparison approach may be used to value improved properties, vacant land, or land being considered as though vacant when an adequate supply of comparable sales is available.[14]



While there are seldom exact duplicate properties available to a buyer, the prices paid for similar properties are indicative of value. In this approach to value a common denominator is used in comparing sales to the subject's land. In this particular case, the price per square foot was used. The initial search for sales was limited to land with similar utility/use-shared Highest and Best Use. Based on the limited number of sales in general, the search was extended to include commercial sales sharing attributes and competing neighborhoods in Santa Fe. The comparables are summarized in the following chart and described individually on the pages following the chart.

COMMERCIAL VACANT LAND COMPARABLES

No.	Location	Date of Sale	Sales Price	Size (sf)	Price Per sf
1	5011 Las Soleras Drive	08/2016	$1,583,842	349,787	$4.53
2	6820 Cerrillos Road	10/2016	$1,350,000	217,364	$6.21
3	5376 Beckner Road	10/2017	$1,200,000	291,765	$4.11
4	2952 Rodeo Park Dr West	10/2017	$1,800,000	344,560	$5.22
5	2977 Rodeo Park Dr East	12/2017	$1,188,317	148,583	$8.00
6	Lot 2-Richards Avenue (north of Cerrillos)	03/2018	$1,875,000	317,552	$5.90
7	2981 Galisteo Road	01/2020	$1,100,000	275,517	$3.99
8	5200 Beckner Road (Lot 2B)	01/2020	$3,544,655	495,756	$7.15
9	Lot 4-A1 - 4900 Hernandez Rd	06/2020	$2,172,576	324,261	$6.70
Note					
Comparables 1, 4, 6, 8 and 9 were purchased for multi-family development. Comparables 2, 3, 5 and 7 are commercial tracts that share utility/potential with the multi-family comparables, but also include some commercial development potential

Land Sales Comparables Map

Land Sales Comparables - Details		
1		• **Location: 5011 Las Soleras Drive (Lot 10)** • Grantor: Las Soleras Center, LLC • Grantee: Spectrum Acquisitions Santa Fe • Date of Sale: 08/2016 • Sales Price: $1,583,842 • Terms: cash/cash equivalent • Land area: 8.03 acres or 349,787 square feet • Price per SF: $4.53 • Comments: Located in Las Soleras proximity to I-25. Purchased for development of assisted living facility.
2		• Address: 6820 Cerrillos Road • Date of sale: 10/2016 • Grantor: Cloverdale LLC • Grantee: Carmax • Price: $1,350,000 • Terms: Cash to seller • Land area: 4.99 acres or 217,364 SF • Price per SF: $6.21 • Zoning: C-2 • Comments: Purchased with adjacent property at 6800 Cerrillos: assemblage. Property is improved with a dilapidated hotel/service station with aged/limited infrastructure. Improvements to be demolished: estimate $160,000. Rear of tract has slopes and a portion of flood plain. Flood plain can be used for open space (open space requirement without water harvesting: 25%). The area in the flood plain represents an area less than 25% of the entire site. Based on this, the gross size of the site is used in the price per square foot calculation. However, based on the slopes, the rear of the site not in the flood plain likely has less utility. Green: Flood plain
