Subject: Request to Include FY26 Section 5310 Grant MOA on December Finance and GB Consent Agendas

Hello,

We are requesting permission to include the attached FY26 Section 5310 Grant MOA to the Finance and Governing Body consent agendas. We were unable to get the required signatures on the grant agreement before the PWUC meeting deadline last Monday and need to receive approval of the grant to order 6 additional EV paratransit vehicles before the end of the calendar year to receive reduced pricing.

Please let us know if you have any questions.

Thank you,

Gabrielle N. Chavez

CITY OF SANTA FE

The Purchasing Memo

Date: November 26, 2025

To: Mayor Alan M. Webber, Governing Body and Finance Committee

From: Carly Venditti, Metropolitan Redevelopment Agency, Asset Development Manager CAV

Via: Mark Scott, Metropolitan Redevelopment Agency, Interim Director MS Mark Scott

Subject: Request for Approval of an Exclusive Negotiation Agreement for Midtown Parcel H-1a

---

ITEM AND ISSUE:

The Metropolitan Redevelopment Agency, Asset Development, respectfully requests your review and approval of an Exclusive Negotiation Agreement to negotiate the sale of Midtown Tracts H-1a to Integral Design and Development LLC. ("Offeror") for development as a mixed-use development. Offeror will deposit $10,000.00 (Ten Thousand Dollars) within 5 (five) business days of the Effective Date of this Agreement, (Carly Venditti, Asset Development Manager, cavenditti@santafen.gov).

BACKGROUND AND SUMMARY:

On March 21, 2025, the Governing Body unanimously approved the sale of real property located at 1600 Saint Michael's Drive, part of the Midtown Redevelopment Site, through direct disposition, in accordance with Resolution 2021-16. This resolution, which is attached for reference, outlines the City's strategy for the disposition of property valued over $25,000.

Approval of this public announcement enables the Metropolitan Redevelopment Agency (MRA) to move forward with the implementation of both the Midtown Master Plan and the Midtown Community Development Plan, collectively referred to as the Midtown Redevelopment Plans.

The MRA initiated a 77-day solicitation period beginning April 4, 2025, and concluding June 20, 2025, during which it received six development proposals. These proposals were evaluated based on criteria established in the Midtown Master Plan and Community Development Plan, as adopted by Resolution 2022-12. The Metropolitan Redevelopment Agency requests the ability to enter into an Exclusive Negotiation Agreement with Integral Design and Development LLC.

If approved, this Exclusive Negotiation Agreement will authorize Integral Design and Development LLC. to work in partnership with the MRA to develop a Disposition and Development Agreement (DDA) for the final transfer of the property. The Integral Design and Development LLC will also be required to comply with the City of Santa Fe Land Use Code, as well as all applicable local, state, and federal regulations.

Future land use, development standards, and other terms will be formalized through Disposition Agreements. The City retains the authority to apply Deed Restrictions, Covenants, Conditions, and Restrictions (CCRs) to ensure alignment with policy objectives when disposing of property via sale, exchange, or donation. In cases of ground lease disposition, the City may use lease terms to similarly guide land use and policy compliance, while supporting the developer's ability to secure financing.

Real Property Determination

CITY OF SANTA FE
METROPOLITAN REDEVELOPMENT AGENCY
EXCLUSIVE NEGOTIATION AGREEMENT
CITY-OWNED PROPERTY AT THE MIDTOWN SITE

This Exclusive Negotiation Agreement (the "ENA" or "Agreement") is entered this ___ day of —---------- ◆2025 (by and between the following: the CITY OF SANTA FE, a municipality chartered under the laws of New Mexico ("City" or "Owner") and INTEGRAL DESIGN AND DEVELOPMENT, LLC or it assigns ("Offeror"), collectively the "Parties," effective as of the last date that of either of the Parties executes this Agreement as set forth next to their signatures below ("Effective Date").

The Offeror shall be personally involved in the performance of the ENA and serve as the developer and operator of the **Proposed Project** as generally described in the Property Sale or Lease Offer submitted by the Offeror to the City dated April 7, 2025 (the "Offer") and generally in the conceptual plans and elevations attached hereto as **Exhibit A.**

1. **Purpose.** The Purpose of this Agreement is to provide a due diligence period to undertake feasibility studies and for the refinement and preparation of the Conceptual Development Proposal provided in the Offer. During this time period the City will negotiate only with the Offeror regarding sale, disposition and development of the Project Parcel, as defined below. The Conceptual Development Proposal and other terms (the "Development Plans") are to be refined and developed by the Offeror and negotiated by and between the Offeror and City during the term of this ENA. The negotiation of the terms and conditions between the Parties shall serve as the basis for entering a Disposition and Development Agreement (the "DDA") for the Project Parcel. Through the term of this Agreement, the City intends to undertake a process in which the Parties engage in a due diligence and negotiation period to ensure the viability of the Proposed Project, and that the Proposed Project is in the best interest of the City.

2. **City Property.** The City owns certain property comprising 64-acress of land and buildings known as the Midtown Site (the "Midtown Site") with a current address at 1600 St. Michaels Drive, Santa Fe, NM 87505, within Section 34, T.17N., R.9E., N.M.P.M., in Santa Fe County, New Mexico, U.S.A (the "Property"). See **Exhibit B: City Property Map.**

3. **Project Parcel.** The Project Parcel, identified as Tract H-la on the plat of survey entitled "Lot Split Plat to create TRACTS H-la and H-lb..." recorded in book 921, page 16, records of Santa Fe County, is located within the Midtown Site (the "Project Parcel"). The size of the Project Parcel is approximately 1.5514 acres or 67,581.71 square feet. See **Exhibit C: Project Parcel Map.**

4. **Offer Price and Consideration.** The Offeror proposed $200,000 (Two Hundred Thousand Dollars) for the Project Parcel for consideration by the City, pursuant to the Property Sale or Lease Offer submitted by the Offeror to the City dated April 7, 2025 (the "Offer Price").

5. **ENA Due Diligence Deposit.** The Offeror shall make a deposit of funds equal to five percent (5%) of Offer Price (the "ENA Due Diligence Deposit") ($10,000) which shall be deposited within five (5) business days of the Effective Date of this Agreement.

   The ENA Due Diligence Deposit shall be fully refundable to Offeror until the expiration of the ENA Due Diligence Period and shall be released to Offeror within fourteen {14) day after the sooner of (a) the expiration of the ENA Due Diligence Period if the parties have not executed a DDA prior to the expiration of the ENA Due Diligence Period or (b) Offeror's termination of this Agreement prior to the expiration of the ENA Due Diligence Period. In the event that the parties execute a DDA prior to the expiration of the ENA Due Diligence Period, and subject to any provisions in the DDA governing the return of the ENA Due Diligence Deposit to Offeror, the ENA Due Diligence Deposit shall be applied to the final Offer Price agreed to by the Parties as set forth in the DDA.

6. **ENA Due Diligence Period.** The term of this Agreement (the "ENA Due Diligence Period") shall commence upon the Effective Date of this Agreement and terminate eighteen {18) months thereafter unless extended pursuant to the terms of this Agreement.

   Offeror in its discretion may extend the ENA Due Diligence Period for two (2) periods of one-and-eighty (180) days each by depositing with City's selected title company, for each such extension, an additional sum of five percent (5%) ($10,000) of the Offer Price. Such additional deposited funds shall become a part of the ENA Due Diligence Deposit and subject to refund to Offeror in accordance with this Agreement.

7. **Negotiations.** During the ENA Due Diligence Period, the Parties shall negotiate a Disposition and Development Agreement ("DDA") for consideration by the City's Governing Body. Throughout the term of this Agreement, Owner shall appoint employees of Owner having the authority to negotiate the DDA and to take those actions of Owner contemplated by this Agreement during the ENA Due Diligence Period, including, but not limited to, the prompt review of those materials to be developed by Offeror under this Agreement.

8. **Development Plans/DOA Exhibits.** At a minimum, the DDA exhibits developed by the Offeror during the ENA Due Diligence Period, shall include the following elements of the Development Plans:
   A. Updated Price Offer and Terms
   B. Development Program
   C. Development Schedule and Phasing Plan
   D. Development Capital and Operating Budgets
   E. Schematic Site Plan(s)
   F. Conceptual Architectural Elevation(s)
   G. List of Community Development Plan Requirements and Value-Add Priorities with Cost Estimates

9. **DDA Predevelopment Plans.** The DDA will require a non-refundable Predevelopment Deposit in an amount to be negotiated and stated in the DDA.

10. **Inspections.** Offerer and its agents, consultants, employees, and contractors may inspect the Project Parcel during the ENA Due Diligence Period. Subject to the provisions of this Section 10, Owner hereby grants Offerer and its agents, consultants, employees, and contractors permission to go upon the Project Parcel at Offerer's expense to make such inspections, surveys, tests, and other engineering studies and site analyses as Offerer may require. Offerer may enter upon the Project Parcel without advance notice to Owner unless Offeror intends to perform invasive testing, such as soils testing, in which event, Offeror shall provide written notice to Owner within at least five (5) days prior to the occurrence of such testing, which notice shall provide a description of the testing to be performed, the name of the party that will perform such testing and evidence that party performing the testing satisfies the requirements for insurance stated in **Exhibit D.** Owner's consent to such testing shall not be unreasonably withheld and shall be deemed to be granted if no objection is received from Owner with said five-day notice period.

    The Offerer will restore the Property to the same condition in which it existed immediately prior to the conducting of any inspection or testing, promptly upon completion of each such inspection. The Offerer will not permit any liens or encumbrances to arise against the Property in connection with or as a result of such inspections of or testing upon the Project Parcel.

    The Offerer shall provide Owner with copies of any reports, testing results or studies involving the physical condition of the Project Parcel and prepared by third parties at Offerer's request.

11. **Insurance.** Offeror shall secure and submit evidence of insurance coverage in a form and amount meeting the requirements stated in **Exhibit D.**

12. **Other Conditions and Terms.**

    A. Offerer represents that Offerer has full legal authority to enter this ENA. The person executing this contract on behalf of Offerer has the full right and authority to do so, and Offeror will deliver to Owner prior to the execution of this ENA evidence as Owner may reasonably require that Offerer has taken all appropriate corporate action to authorize the Offer.

    B. The Owner represents and warrants to Offerer that no hazardous substances have been or are stored, disposed of or buried on the Project Parcel. The terms "hazardous substances" as used herein mean substances, materials, wastes, pollutants, oils or governmentally regulated substances or contaminants as defined or designated as hazardous, toxic, radioactive, dangerous, or any other similar term in or under any of the state or federal environmental laws, including but not limited to asbestos and asbestos containing materials, petroleum products including crude oil or any fraction thereof, gasoline, diesel fuel, lubricating oils and solvents, PCBs, radioactive materials or waste, or any other substance that, because of its quantity, concentration, physical, chemical, or infectious characteristics may cause or threaten a present or potential hazard to human health or the environment when improperly generated, used, stored handled, treated, discharged, distributed, disposed, or released.

    C. Offeror shall indemnify, hold harmless, or insure the City, including its officers, employees, and agents, against claims, liability, damages, losses and costs arising from any personal injury or damage to personal property, including attorney fees, to the extent that any such claim, liability,

damages, losses, or costs arise out of, or are proximately caused by any negligent act or omission of the Offerer, its officers, employees, agents, representatives, consultants or contractors in furtherance of this Agreement. Nothing in this Agreement shall be construed as an indemnification by the City for any loss, damages, injury, or death arising out of, or proximately caused, in whole or part, by the City, its officials, employees, attorneys, agents, representatives, consultants or contractors. Nothing herein shall obligate or be construed to obligate the City to provide any indemnity, insurance, or other protection for or on behalf of Offerer or any third party.

D. To the best of Owner's knowledge, there is no condemnation or similar proceeding or legal action of any kind or character whatsoever, affecting the Project Parcel pending, threatened, or contemplated by any governmental authority which will in any manner affect the rights of Offerer upon or after the execution of the DDA.

E. Within twenty-one (21) days of the Effective Date of this Agreement, Owner will provide the Offerer with copies of relevant documents in its possession relating to Project Parcel, including any covenants, conditions, and restrictions, reciprocal easements and parking agreements, copies of tax statements, existing leases, property or building assessments, environmental studies, soils testing reports and documents describing all prior uses of the Project Parcel, if any. Owner shall have no obligation to provide any information to the Offerer that is subject to the attorney-client privilege. With respect to any materials that Owner believes to be of a sensitive or confidential nature, Owner will advise Offerer that Owner is in possession of such documents, and the Parties will enter into an appropriate non-disclosure agreement that shall govern the production of such materials.

F. Offerer shall collaborate and coordinate with the Owner to ensure that Offerer's proposed horizontal development activities are aligned with Owner's planning, design, and construction of the infrastructure and public right of ways, including streets, sidewalks, open spaces, easements, and other related activities. Furthermore, Offerer shall coordinate with Owner regarding the implementation of the Midtown Master Plan into the Offerer's Project Plans with the objective of ensuring consistency with development and design guidelines, intents, and requirements described in the Midtown Master Plan.

G. During the ENA Due Diligence Period, Owner and Offerer shall negotiate terms for any public infrastructure improvements that directly impact the Offerer's Development Plans. Agreed upon terms shall be included in the DDA.

H. In the context of this Agreement, the City Manager may act on behalf of the Owner for extensions, notice, access.

I. Offerer may assign this Agreement. In the event of any such assignment, Offerer shall provide Owner with written notice of such assignment, and Offerer shall be released of its obligations under this Agreement, which shall be deemed to be assumed by Offerer's assignee.

13. **Survey.** Owner at Owner's expense shall provide any surveys in Owner's possession that include the Project Parcel within fourteen (14) days after the Effective Date of this Agreement.

    Offerer at Offerer's expense shall have the right to order a survey to expedite due diligence. Offerer shall be responsible for surveys to create additional parcels within the Project Parcel.

14. **Expenses.** Offeror shall pay its due diligence, inspections, legal review, appraisal, loan fees, environmental inspections, architecture and engineering fees, survey acceptable to financial institution requirements, and other expenses associated with this ENA.

15. **Exclusivity.** Upon execution of this ENA, both Offerer and Owner agree to negotiate in good faith, and Owner shall not solicit, accept or entertain any other offers for the Property for the term of this ENA and shall not enter into any negotiations with any party, other than Offeror, regarding the possible sale, leasing or development of the Project Parcel.

16. **Termination.**

    A. Failure to Pay Deposits. If Offerer fails to timely pay the Deposits this Agreement shall automatically terminate without further action by either Party.

    B. Discretionary Termination by Offerer. Offerer may terminate this Agreement at any time in its sole discretion by delivering written notice of such termination to Owner (to the attention of the Santa Fe City Manager with a copy to the Director of the City of Santa Fe Metropolitan Redevelopment Agency). Upon the delivery of such notice, the entire ENA Due Diligence Deposit shall be immediately refunded and released to Offerer, and the Parties shall be released of all further obligations under this Agreement.

    C. Expiration of Term. Unless terminated by Offeror as provided above, this Agreement shall terminate upon the sooner of (a) the expiration of the ENA Due Diligence Period in the event the Parties do not execute a DDA within the ENA Due Diligence Period or (b) the execution of a DDA by Owner and the Offeror.

    D. Termination for Default. Prior to expiration of the ENA Due Diligence Period, the Owner, in addition to the exercise of any other rights or remedies it may have, may terminate this Agreement upon the occurrence of a material default by the Offerer, and Offerer' s failure to cure such default within thirty {30) days after written notice to Offerer thereof from the City, which notice shall include a description of the reason why Owner believes Offerer to be in material default. Default shall be evidenced by Offerer's failure to timely or satisfactorily perform the due diligence activities as described above to refine and develop final development plans and offer terms.

    E. The Parties recognize communicating regarding obstacles to performance is paramount. Should unpredicted, unforeseen, acts of nature, disaster, or emergency, beyond the reasonable control of either of the Parties, cause either party to be unable to perform, the relevant Party shall alert the other as soon as possible, including the consideration of amendments to this Agreement to allow performance.

17. **Limitation on Effect of Agreement.** This Agreement does not obligate Owner or Offeror to enter a DDA for the disposition or development of the Property. Offeror understands and agrees that any proposed DDA resulting from the negotiations between Offeror and Owner pursuant to this ENA shall become effective only if and after such DDA has been approved by the City's Governing Body, acting in its sole and absolute discretion, and executed and delivered by both Owner and Offeror. Owner understands and agrees that Offeror's willingness to enter into and execute a DDA is also subject to Offeror's sole and absolute discretion. Offeror understands and agrees that this ENA does not indicate and does not imply that Owner, acting as a regulatory or permitting authority, has hereby granted, or is obligated to grant, any approval or permit that is required by law for the disposition of the Project Parcel or the development of the Project Parcel as contemplated by this ENA.

Exhibit A, Site Plan

Exhibit B, City Property Map

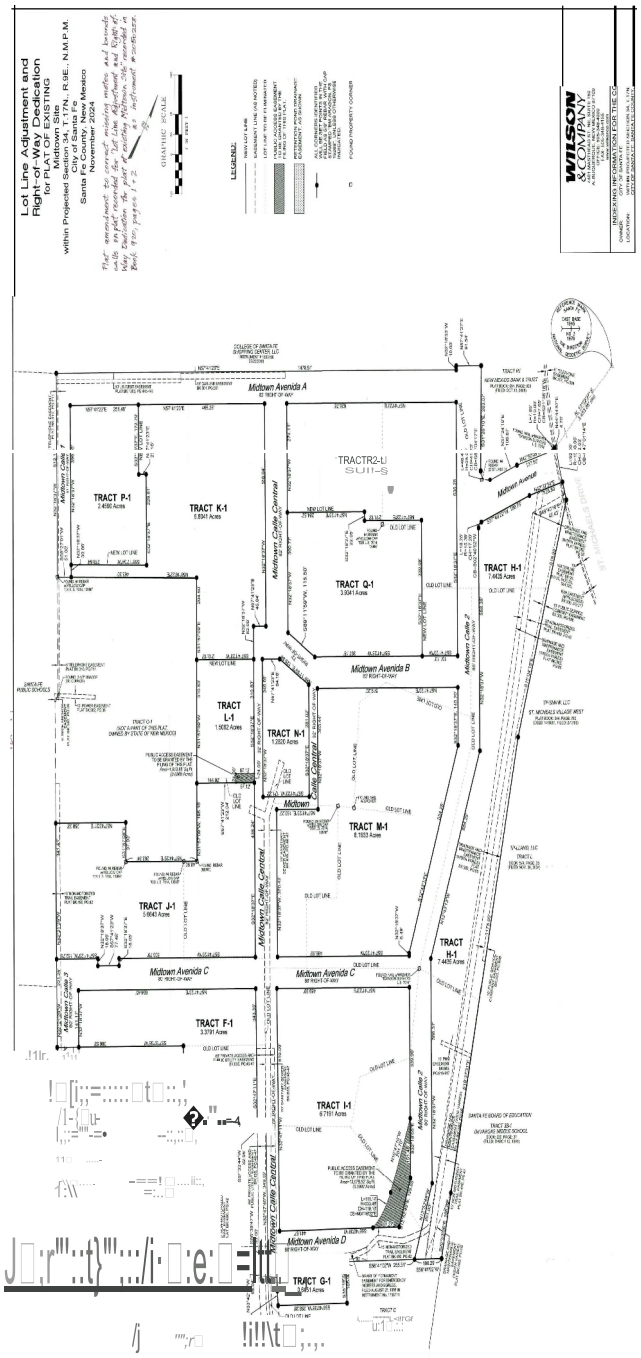

Exhibit C, Project Parcel Map

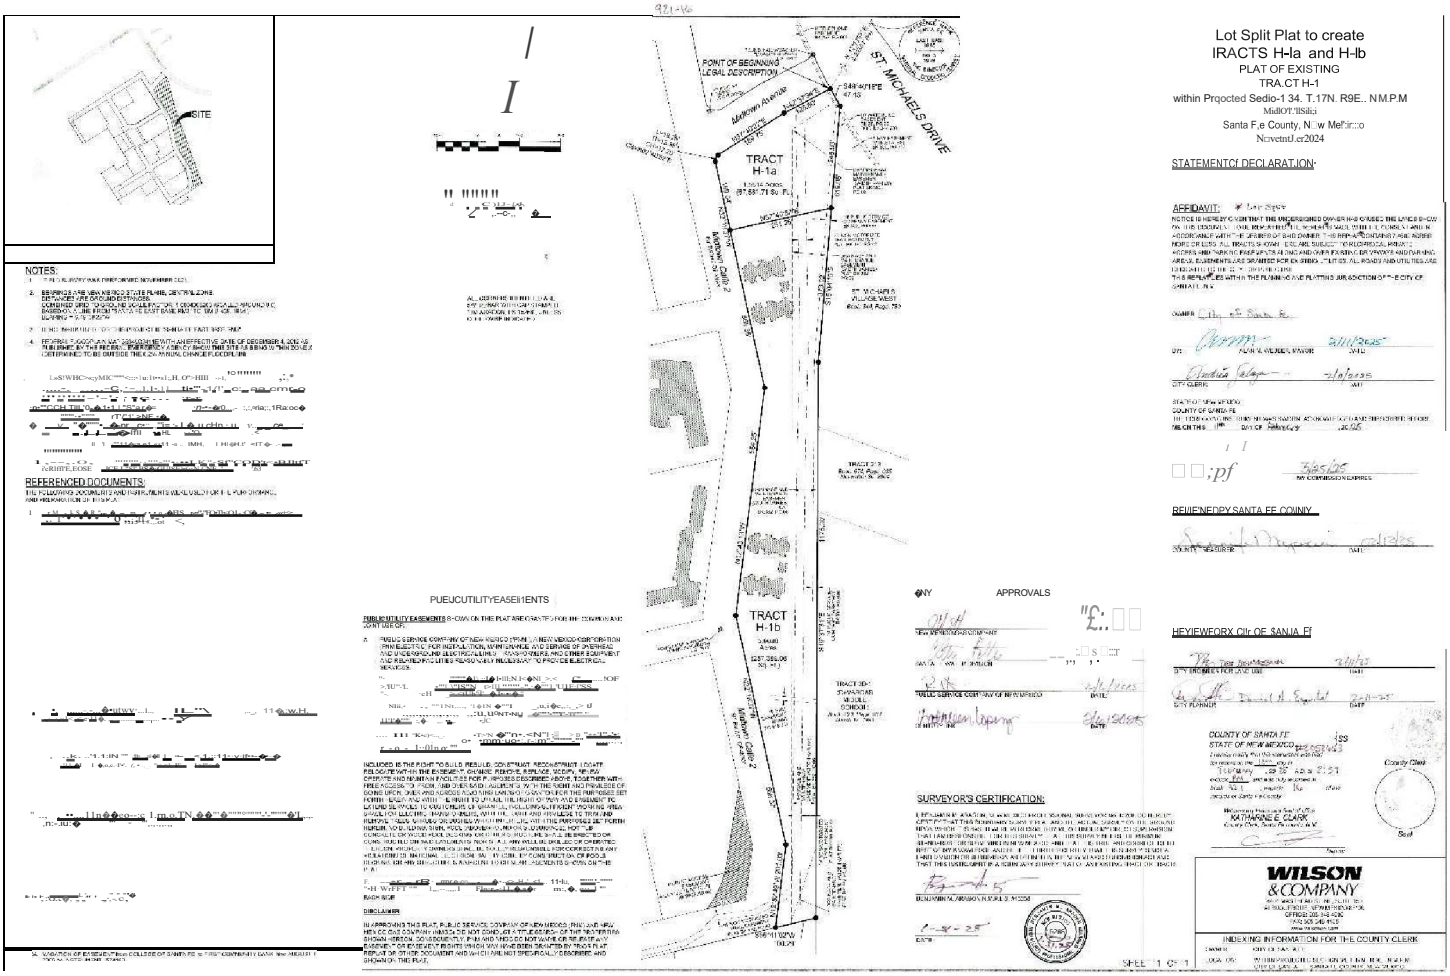

Exhibit D, Insurance Requirements

Contractor shall maintain professional liability insurance throughout the term of this Contract providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Contract.

If the services contemplated under this Contract will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Contract, the following insurance coverage(s), naming the City as additional insured.

A. **Commercial General Liability** insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. **Business Automobile Liability** insurance for all owned, non-owned automobiles, with a combined single limit not less than $1,000,000 per accident.

C. **Broader Coverage and Limits.** The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

D. Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

City of Santa Fe Memorandum

To: Finance Committee, Governing Body

From: Daniel Hernandez, Director, Metropolitan Redevelopment Agency DH

CC: Mark Scott, City Manager MS

Date: March 21, 2025

Re: Public Announcement: Midtown Real Property for Sale or Lease Pursuant to Resolution 2021-16

Pursuant to Resolution 2021-16 (attached), the Metropolitan Redevelopment Agency (MRA) seeks approval from the City of Santa Fe Governing Body to publicly announce that certain parcels of city-owned real property at the Midtown Site are available for sale or lease.

Disposition and development of the Midtown Site parcels are pursuant to the Midtown Master Plan and the Midtown Community Development Plan approved by the City's Governing Body. The Midtown Site address is 1600 St. Michaels Drive, Santa Fe, NM. The specific tracts associated with this public offer are: Tract H-1a; Tract J-1a; J-1b; Tract K-1b; Tract M-1a; Tract M-1b; Tract Q-1a; and Tract R2-1b within Projected Section 34, T.17N, R.9E, N.M.P.M., as described in Survey: Lot Splitto Create Tracts, Midtown Site, Santa Fe County, **NM.** November 2024. This public offer will be open until June 20, 2025, which may be extended at the City's sole discretion.

These tracts were identified as redevelopment parcels in the Midtown Master Plan, and do not include tracts with existing buildings identified for rehabilitation and reuse or public open spaces identified in the Midtown Master Plan, specifically, the Visual Arts Center (Tract K-1a; Tract P-1b), Santa Fe Art Institute (Tract P-1a), the Greer Garson Performing Arts Theater (Tract R2-1a), the Fogelson Library Complex (Tract Q-1b), the Arroyo Park area (Tract H-1b), the Midtown Plaza area (Tract N-1; Tract L-1b), the six tracts in development pursuant to an approved and executed Disposition and Development Agreement between the City and the developer, Aspect Studios, for the redevelopment and expansion of film and multi-media production studios in a mixed-use film zone (Tract F-1b; Tract G-1; Tract J-1a; Tract J-1b; Tract L-1a; Tracts F-1a), or the state-owned parcel (Tract 0).

Affordable housing parcels will be identified within the following tracts, which will require future subdivisions: Tract **M-1**a; Tract M-1b; Tract Q-1a; Tract R2-1b.

- The MRA will take the following steps to distribute the public announcement: Publish the announcement one or more times in a newspaper that maintains an office in Santa Fe and is of general circulation within the city.
- Issue press releases to local and regional newspapers, as well as real estate development industry publications.
- Post public announcement directly to developers and through professional associations that include developers as members.
- Conduct presentations and site tours for developers and related professionals and associations, such as architects, investors, and real estate professionals.
- Collaborate with the Office of Economic Development and Office of Affordable Housing to circulate public announcement to, and meet with, interested developers, including affordable housing developers.
- Collaborate with Urban Land Institute to circulate and post announcements to regional and national chapters and members
- Update the city's MRA website to provide developer access to documents and materials regarding redevelopment plans, parcel information, and contact information for interested developers to discuss and present development proposals.

Approval of the public announcement will allow the MRA to proceed with the implementation of the Midtown Master Plan and the Midtown Community Development Plan, together the Midtown Redevelopment Plans. The Midtown Community Development Plan provides guidance for the disposition of city-owned real property. *(Disposition of City Property and Development of Land at Midtown, page 26, January 25, 2023)*

1. **How land will be disposed of and developed at Midtown.**
   Disposition at Midtown may be through a sale, lease, exchange, or donation using competitive Solicitations (Solicitations, also called Request for Proposals or RFPs) or Direct Negotiation (Direct Negotiations) processes, whichever benefits the City and the development of the project. These disposition processes shall be initiated by the City through the MRA or Economic Development Division. Solicitations and Direct Negotiations will include the project description, the public vision and goals for the project, strategies listed in this Community Development Plan (as may be applicable to the proposed project), a scope of work to which the respondent must acknowledge and describe their approach for

undertaking the scope of work; as well as an economic and financial analysis for developing and operating the completed project.

Selected offerors must demonstrate excellence in the following areas:

- Experience on similar projects
- Capacity to undertake the scope of work
- Qualifications of project team members
- Economic analysis and financial approach and ability to secure financing

2. **How the City will ensure the objectives of the plans when it sells or leases land.**
The City will evaluate the disposition proposal to determine which disposition transaction is advantageous to the City and the development of the project. Land use, development performance, and other terms will be included in, and pursuant to, Disposition Agreements (Disposition Agreements).

The City may use Deed Restrictions, Covenants, Conditions and Restrictions (CCRs), and/or Development Agreements, accompanied with Plan Restrictions, to restrict and require certain land uses and accomplish other policy objectives if disposing of the parcel through a sale, exchange, or donation.

If disposing of a land parcel through a ground lease, the City will use lease terms to restrict and require certain land uses and achieve policy objectives through the ground leases while ensuring the developer can secure the necessary financing for the proposed development.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2021-16

INTRODUCED BY:

Councilor JoAnne Vigil Coppler

Councilor Michael J. Garcia
Councilor Renee Villarreal
Councilor Carol Romero-Wirth
Councilor Signe I. Lindell

A RESOLUTION

REQUIRING GOVERNING BODY APPROVAL PRIOR TO ANNOUNCING THE AVAILABILITY OF ANY CITY-OWNED LAND, BUILDINGS, OR OTHER REAL PROPERTY FOR SALE.

WHEREAS, Governing Body approval and a bill presented at a public hearing are required for an offeror to purchase City property having an appraised value in excess of twenty-five thousand dollars ($25,000); and

WHEREAS, approval from the Governing Body is not currently required before the City announces the opportunity for potential offerors to submit offers to buy City property for the Governing Body's consideration; and

WHEREAS, the Governing Body and staff work together to evaluate assets and staff seeks policy guidance from the Governing Body; and

WHEREAS, staff have expertise in real property transactions and m evaluating development strategies to maximize City interests; and

WHEREAS, the Governing Body has developed policy priorities for the use of certain

City-owned land, buildings, and other real property; and

WHEREAS, Santa Fe City Code sole guidance on real property sales is contained in Section 11-10.2 which cites to statutory authority (NMSA 1978, § 3-54-1), or as otherwise provided by law; and

WHEREAS, NMSA 1978, Section 3-54-1 sets forth the statutory process for selling municipal utility facilities and other real property subject to a required referendum period; and

WHEREAS, City-owned land, buildings, and other real property are public property; and

WHEREAS, the Governing Body understands the importance of holding executive sessions for sales of City-owned land, buildings, or other real property.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the Governing Body shall hold an executive session to discuss a proposed sale when recommended by staff.

BE IT FURTHER RESOLVED that, if staff does not recommend an executive session, then staff will provide a public presentation regarding the reasons for the recommended sale of City-owned land, buildings, or other real property.

BE IT FURTHER RESOLVED that, regardless of whether or not the Governing Body holds an executive session, prior to the City announcing the sale of any City-owned land, buildings, or other real property that has a value that exceeds $25,000, the Governing Body shall vote to approve a proposed announcement that includes the address, name, and description of the relevant property during a public meeting.

BE IT FURTHER RESOLVED that the Governing Body shall review this Resolution within three (3) years of the date of adoption to evaluate the efficacy of the process it establishes.

BE IT FURTHER RESOLVED that this Resolution shall apply to properties that are not already announced as "for sale" at the time of the adoption of this Resolution.

PASSED, APPROVED, and ADOPTED this 10th day of March, 2021.

ALAN WEBBER, MAYOR

Dear City Staff,

In accordance with State Statute and City Ordinances, this document serves as a blanket ***services'*** determination and is valid until June 30, 2026, for the types of general, professional, and construction services that are clearly one of the types pre-established and approved by the State Purchasing Agent and City CPO.

Please continue to obtain determinations for services that do not clearly and fully fit within the types listed below. For mixed or hybrid services, unclear scopes of work, and design-build projects, specific determinations will be required. In these cases, please email purchasing_det@santafenm.gov to obtain the necessary CPO determinations for your procurement needs.

Should you have any questions or require clarification on a particular service, feel free to contact CPD.

The following are General Services:

- Air/bus, vehicle charter/rental service
- Animal/k9 boarding - basic
- Auctioneers
- Audio-visual equipment setup and routine maintenance for events and presentations (including projectors, microphones, and speakers)
- Automotive mechanical services - all - including vehicle inspection, diagnostics, repair labor, parts replacement, and routine maintenance (e.g., oil changes, brake service, tune-ups, etc.)
- Banking Services (routine, transaction-based)
- Boiler testing/water treatment service
- Bookkeeping service (routine, transaction-based)
- Biohazard clean-up and disinfection services for crime scenes, homicides, suicides, unattended deaths, car accidents, deadly car crashes and cleanup of police units, along with any other biohazard situations. Building alarm systems, service and repair
- Check collection service
- Clothing, textile fabrication repair service

General Services (continued):

- Commercial laundry service, dry cleaning, etc.
- Communications systems installation, servicing, and repair
- Conference and trade show coordination
- Debt collection service
- Delivery/courier service
- Document storage, duplication, retrieval, review, and destruction service
- Drug testing and screening (standard tests)
- Engraving service
- Equipment installation, preventive maintenance, inspection, calibration, and repair
- Equipment rental services
- Exams administration and scoring service
- Executive recruitment
- Firefighting/suppression service
- Food preparation, vending, and catering services
- Health screening, basic diagnostic (wellness, blood pressure monitoring, blood draw, etc.)
- Herbicide application service
- Household goods packing, storage, transportation service
- HVAC system maintenance service - Includes filter changes, inspections, cleaning, minor repairs, and system diagnostics.
- Information Technology - Hosting only
- Information Technology Help Desk Services
- Information Technology Services requiring software or equipment
- Information Technology Software and Hardware Support Services
- Interpretive services: written/oral/sign language
- Inventory service
- Janitorial service, carpet cleaning, window washing
- Laboratory testing and analysis (standard tests only)
- Land clearing/debris removal service
- Landscaping-tree planting, grooming service, lawn mowing, etc. (but not landscape architects)
- Language translation service
- Linen rental service

General Services (continued):

- Marine equipment inspection, certification, and repair
- Medical equipment rental or repair service (wheelchairs, walkers, etc.), including measurements, adjustments, and modifications to meet patient needs
- Metal/pipe/wiring detection service
- Office furnishings installation, refurbishment, and repair service
- Package inspection and crating
- Painting service
- Paper shredding
- Parking lot sweeping/snow removal service
- Pest/weed control service
- Photographic/micrographic processing and delivery, includes aerial and ground photography (if analysis is included, then personal service)
- Printing/duplicating service
- Process serving
- Property management (ren ection; maintenance, etc
- Recycling/disposal/litter pickup service
- Retreat and workshop planning, conduct, coordination, etc.
- Security/armored car services
- Shop welding/metal fabrication service
- Software as a Service
- Steam cleaning, high pressure washing, parts cleaning service
- Studio photography service (does not include portrait painting)
- Telephone interview service (conduct of survey using prescribed survey instrument)
- Towing service
- Traffic control services - including certified flaggers, barricade setup/removal, temporary signage, and traffic control plans (not involving permanent installations or design engineering)
- Training-when offered as a regular course by an institution (such as a college or university)
- Travel service - air, surface, water
- Videotaping and recording service
- Warehouse dry/cold storage rental service
- Weather information service

The following are Professional Services:

- Accountants (certified public accountants and registered public accountants)
- Actuaries
- Analysts of processes, programs, fiscal impact, and compliance
- Appraisers
- Archeologists
- Architects
- Artwork, original (services creating the artwork)
- Audio/video media productions (design, development, and/or oversight of)
- Auditors
- Broadband
- Business process re-engineering
- Counselors
- Consultants (including IT Consultants)
- Curriculum/Examination development
- Data Backup Services
- Data Storage and Management Services
- Design
- Economists
- Engineers
- Environmental monitoring: noise level, safety, hazardous gas detection, radiation monitoring service, etc.
- Financial Advisors
- Grant writing
- Graphic designers (creative or original in nature)
- Hearing officer services
- Independent Verification and Validation
- Information Technology Hosting when it includes Maintenance and Support
- Information Technology Maintenance
- Information Technology Management
- Information Technology Programming
- Information Technology Risk Assessment

Professional Services (Continued):

- Insurance Adjusters/Brokers
- Investigators (personnel-related, etc.)
- Investment advisors and management
- Labor negotiators
- Landscape Architects
- Lawyers
- Lobbyists
- Managed Network Services
- Management and system analysts
- Management consultants
- Marketing consultants (including identifying market opportunities, conduct of marketing programs, planning, promotion, market research surveys, etc.)
- Medical arts practitioners
- Medical - doctors, immunizations, etc.
- Mental health support - Therapists, Counselors, etc.
- Network Cybersecurity Services
- Network Installation
- Physicals
- Planners
- Policy Advisors
- Polygraph services
- Product Development Services
- Program/Project Managers
- Psychologists
- Public relations advisors/Publicists
- Publication development (creation of audio/video productions, brochures, pamphlets, maps, signs, posters, annual reports, etc.)
- Researchers
- Scientists (Bio/Chem/Env/Geo/Hydro/Mech, etc.)

CITY OF SANTA FE

The Purchasing Memo

Date: November 26, 2025

To: Mayor Alan M. Webber, Governing Body and Finance Committee

From: Carly Venditti, Metropolitan Redevelopment Agency, Asset Development Manager CAV

Via: Mark Scott, Metropolitan Redevelopment Agency, Interim Director MS
Mark Scott

Subject: Request for Approval of an Exclusive Negotiation Agreement for Midtown Parcels J-1a & J-1b

---

ITEM AND ISSUE:

The Metropolitan Redevelopment Agency, Asset Development, respectfully requests your review and approval of an Exclusive Negotiation Agreement to negotiate the sale of Midtown Tracts J-1a and J-1b to Santa Fe Innovation Hub, LLC ("Offeror") for development as a mixed-use development. Offeror will deposit $18,125.00 (Eighteen Thousand One Hundred Twenty-Five Dollars) within 5 (five) business days of the Effective Date of this Agreement, (Carly Venditti, Asset Development Manager, cavenditti@santafen.gov).

BACKGROUND AND SUMMARY:

On March 21, 2025, the Governing Body unanimously approved the sale of real property located at 1600 Saint Michael's Drive, part of the Midtown Redevelopment Site, through direct disposition, in accordance with Resolution 2021-16. This resolution, which is attached for reference, outlines the City's strategy for the disposition of property valued over $25,000.

Approval of this public announcement enables the Metropolitan Redevelopment Agency (MRA) to move forward with the implementation of both the Midtown Master Plan and the Midtown Community Development Plan, collectively referred to as the Midtown Redevelopment Plans.

The MRA initiated a 77-day solicitation period beginning April 4, 2025, and concluding June 20, 2025, during which it received six development proposals. These proposals were evaluated based on criteria established in the Midtown Master Plan and Community Development Plan, as adopted by Resolution 2022-12. The Metropolitan Redevelopment Agency requests the ability to enter into an Exclusive Negotiation Agreement with Santa Fe Innovation Hub.

If approved, this Exclusive Negotiation Agreement will authorize Santa Fe Innovation Hub LLC. to work in partnership with the MRA to develop a Disposition and Development Agreement (DDA) for the final transfer of the property. Santa Fe Innovation Hub LLC will also be required to comply with the City of Santa Fe Land Use Code, as well as all applicable local, state, and federal regulations.

Future land use, development standards, and other terms will be formalized through Disposition Agreements. The City retains the authority to apply Deed Restrictions, Covenants, Conditions, and Restrictions (CCRs) to ensure alignment with policy objectives when disposing of property via sale, exchange, or donation. In cases

of ground lease disposition, the City may use lease terms to similarly guide land use and policy compliance, while supporting the developer's ability to secure financing.

Exclusive Negotiation Agreement
Resolution 2021-16
Real Property Determination

CITY OF SANTA FE
METROPOLITAN REDEVELOPMENT AGENCY
EXCLUSIVE NEGOTIATION AGREEMENT
CITY-OWNED PROPERTY AT THE MIDTOWN SITE

This Exclusive Negotiation Agreement (the "ENA" or "Agreement") is entered this ___ day of _____,2025 by and between the following the CITY OF SANTA FE, a municipality chartered under the laws of New Mexico ("City" or "Owner") and Santa Fe Innovation Hub LLC ("Offeror"), collectively the "Parties".

The Offeror shall be personally involved in the performance of the ENA and serve as the developer and operator of the **Proposed Project** as generally described in the Property Sale or Lease Offer submitted by the Offeror to the City dated May 19, 2025 (the "Offer").

1. **Purpose.** The Purpose of this Agreement is to provide a due diligence period to undertake feasibility studies and for the refinement and preparation of the Conceptual Development Proposal provided in the Offer. During this time period the City will only negotiate with the Offeror regarding disposition of the Project Parcel, as defined below. The Conceptual Development Proposal, Offer Price, and other terms (the "Development Plans") are to be refined and developed by the Offeror and negotiated by and between the Offeror and City during the term of this ENA. The negotiation of the terms and conditions between the Parties shall serve as the basis for entering a Disposition and Development Agreement (the "DDA") for the Project Parcel. Through the term of this Agreement, the City intends to undertake a process in which the Parties engage in a due diligence and negotiation period to ensure the viability of the Proposed Project, and that the Proposed Project is in the best interest of the City.

2. **City Property.** The City owns certain property comprising 64-acress of land and buildings known as the Midtown Site (the "Midtown Site") with a current address at 1600 St. Michaels Drive, Santa Fe, **NM** 87505, within Section 34, T.17N., R.9E., N.M.P.M., in Santa Fe County, New Mexico, U.S.A (the "Property"). See **Exhibit A: City Property Map.**

3. **Project Parcel.** The Project Parcel, identified as Tract #J-la and J-lb, is located within the City Property (the "Project Parcel"). The size ofthe Project Parcel is approximately 5.66 acres or 246,702 square feet. See **Exhibit B: Project Parcel Map.**

4. **Offer Price and Consideration.** The Offeror proposed $362,500 (three hundred sixty-two thousand, five hundred dollars) for the Project Parcel for consideration by the City, pursuant to the Property Sale or Lease Offer submitted by the Offeror to the City dated May 19, 2025 (the "Offer Price").

5. **ENA Due Diligence Deposit.** The Offeror shall make a deposit equal to 5% of Offer Price, (the "ENA Due Diligence Deposit") which shall be deposited within five (5) business days of full execution of this ENA.

The ENA Due Diligence Deposit shall be fully refundable until the end date of the ENA Due Diligence Period. The City will apply the ENA Due Diligence Deposit to the Offeror's payment of the final Offer Price agreed to by the Parties. ENA Due Diligence Deposit shall be fully refundable until 5:00pm, Mountain Time, on the last day of the Due Diligence Period.

6. **ENA Due Diligence Period.** The term of this Agreement (the "ENA Due Diligence Period") shall commence upon execution of this ENA and terminate 365 days from the execution of this ENA.

   The ENA Due Diligence Period may be extended in 4-month increments. Extension to the ENA Due Diligence Period is at the City's sole discretion.

7. **Disposition and Development Agreement.** The Parties shall negotiate a Disposition and Development Agreement for consideration by the City's Governing Body.

8. **Development Plans/ODA Exhibits.** At a minimum, the DDA exhibits developed by the Offeror during the ENA Due Diligence Period, shall include the following elements of the Development Plans:
   A. Updated Price Offer and Terms
   B. Development Program
   C. Development Schedule and Phasing Plan
   D. Development Capital and Operating Budgets
   E. Schematic Site Plan(s)
   F. Conceptual Architectural Elevation(s)
   G. List of Community Development Plan Requirements and Value-Add Priorities with Cost Estimates

9. **DDA Predevelopment Plans.** The DDA will require a non-refundable Predevelopment Deposit.

10. **Inspections.** Offeror has inspected or will inspect the Project Parcel or will waive the right to inspect the Project Parcel on or before 5:00pm Mountain Time at the end of the ENA Due Diligence Period. Owner will provide access to the Project Parcel upon Offeror's request for Offeror, its agents, assigns, consultants, legal counsel, etc., not to be unreasonably refused, and Owner hereby grants Offeror and its agents, assigns, consultants, employees, and contractors permission to go upon the Project Parcel at Offeror's expense to make such survey, tests, and other engineering studies and site analyses as Offeror may require, subject to a minimum five (5) business days written notice to Owner.

    Notwithstanding anything to the contrary in this ENA, Offeror shall not conduct any invasive third party testing, including environmental or archeological testing, on the Project Parcel without giving prior written notice to Owner for Owner written approval of the specific activity or scope of work to be undertaken (including, with respect to any invasive testing; a written plan for such testing; the name of the firm to perform such activity and their qualifications; signed contract between Offeror and the contractor; evidence of contractor's required insurance). See **Exhibit C: Insurance Requirements.**

The Grantee will restore the Property to the same condition in which it existed immediately prior to the conducting of any inspection or testing, promptly upon completion of each such inspection. The Grantee will not permit any liens or encumbrances to arise against the Property in connection with or as a result of such Access Studies.

The Offerer shall require that all Project Parcel assessments, investigations, reports, studies, and other due diligence documents produced or procured by the Offerer be additionally certified to the City.

11. **Insurance.** Offerer shall secure and submit insurance coverage in a form and amount acceptable to the Owner for Offeror and any contractor performing work at the Property and Project Parcel. See **Exhibit C: Insurance Requirements.**

12. **Other Conditions and Terms.**
    A. Offerer represents that Offerer has full legal authority to enter this ENA. The person executing this contract on behalf of Offerer has the full right and authority to do so, and Offerer will deliver to Owner prior to the execution of this ENA evidence as Owner may reasonably require that Offerer has taken all appropriate corporate action to authorize the Offer.

    B. Offerer shall indemnify, hold harmless, or insure the City, including its officers, employees, and agents, against claims, liability, damages, losses and costs arising from any personal injury or damage to personal property, including attorney fees, to the extent that any such claim, liability, damages, losses, or costs arise out of, or are proximately caused by any act or omission of the Offerer, its officers, employees, agents, representatives, consultants or contractors in furtherance of this Agreement. Nothing in this Agreement shall be construed as an indemnification by the City for any loss, damages, injury, or death arising out of, or proximately caused, in whole or part, by the City, its officials, employees, attorneys, agents, representatives, consultants or contractors. Nothing herein shall obligate or be construed to obligate the City to provide any indemnity, insurance, or other protection for or on behalf of Offeror or any third party.

    C. To the best of Owner's knowledge, there is no condemnation or similar proceeding or legal action of any kind or character whatsoever, affecting the Project Parcel pending, threatened, or contemplated by any governmental authority which will in any manner affect the rights of Offerer upon or after the execution of the DDA.

    D. Owner will provide the Offerer with copies of relevant documents in its possession relating to Project Parcel, including any covenants, conditions, and restrictions, reciprocal easements and parking agreements, copies of tax statements, existing leases, and property or building assessments, if any. Owner shall have no obligation to provide any information to the Offerer that is privileged, confidential, or otherwise not subject to public disclosure.

    E. Offerer shall collaborate and coordinate with the Owner to ensure that Offeror's proposed horizontal development activities are aligned with Owner's planning, design, and construction of the infrastructure and public right of ways, including streets, sidewalks, open spaces,

easements, and other related activities. Furthermore, Offerer shall coordinate with Owner regarding the implementation of the Midtown Master Plan into the Offerer's Project Plans with the objective of ensuring consistency with development and design guidelines, intents, and requirements described in the Midtown Master Plan.

F. During the ENA Due Diligence Period, Owner and Offerer shall negotiate terms for any public infrastructure improvements that directly impact the Offerer's Development Plans. Agreed upon terms shall be included in the DDA.

G. In the context of this Agreement, the City Manager may act on behalf of the Owner for extensions, notice, access.

13. **Survey.** Owner at Owner's expense shall provide any surveys in Owner's possession that include the Project Parcel within 30 days after execution ofthe ENA.

Offerer at Offerer's expense shall have the right to order a survey to expedite due diligence. Offerer shall be responsible for surveys to create additional parcels within the Project Parcel.

14. **Expenses.** Offerer shall pay its due diligence, inspections, legal review, appraisal, loan fees, environmental inspections, architecture and engineering fees, survey acceptable to financial institution requirements, and other expenses associated with this ENA.

15. **Exclusivity.** Upon execution of this ENA, both Offerer and Owner agree to negotiate in good faith, and Owner shall not entertain any other offers for the Property for the term of this ENA.

16. **Termination.**

A. Failure to Pay Deposits. If Offerer fails to timely pay the Deposits this Agreement shall automatically terminate without further action by either Party.

B. Execution of DDA. If a DDA is executed by the Parties relating to all or part of the Project Parcel during the ENA Due Diligence Period or any extensions, then this ENA shall terminate upon execution of said DDA with respect to the portion, or all, of the Project Parcel subject to the DDA.

C. Discretionary Termination by a Party. If either Party concludes at any time in its sole discretion that (a) the Proposed Project is not feasible, or (b) that the negotiations are unlikely to result in the execution of mutually agreeable DDA, then such Party may terminate this Agreement by delivering written notice thereof to the other Party.

D. Expiration of Term. Unless sooner terminated as provided above, this Agreement shall terminate upon expiration of the ENA Due Diligence Period hereof without further action by either Party.

E. Termination for Default. Prior to expiration ofthe ENA Due Diligence Period, the City, in addition to the exercise of any other rights or remedies it may have, may terminate this Agreement upon

the occurrence of a material default by the Offeror, and Offeror' s failure to cure such default within thirty (30) days after notice thereof from the City. Default shall be evidenced by Offeror's failure to timely or satisfactorily perform the due diligence activities as described above to refine and develop final development plans and offer terms.

F. The Parties recognize communicating regarding obstacles to performance is paramount. Should unpredicted, unforeseen, acts of nature, disaster, or emergency, beyond the reasonable control of either of the Parties, cause either party to be unable to perform, the relevant Party shall alert the other as soon as possible, including the consideration of amendments to this Agreement to allow performance. If amending the Agreement to address the inability to perform is not possible, the affected Party may terminate this Agreement without further obligations.

17. **Limitation on Effect of Agreement.** This Agreement does not obligate Owner or Offeror to enter a DDA for the disposition or development of the Property. Offeror understands and agrees that any proposed DDA resulting from the negotiations between Offeror and Owner pursuant to this ENA shall become effective only if and after such DDA has been approved by the City's Governing Body, acting in its sole and absolute discretion, and executed and delivered by both Owner and Offeror.

    Offeror understands and agrees that this ENA does not indicate and does not imply that Owner, acting as a regulatory or permitting authority, has hereby granted, or is obligated to grant, any approval or permit that is required by law for the disposition of the Project Parcel or the development of the Project Parcel as contemplated by this ENA.

Exhibit C, Insurance Requirements

Contractor shall maintain professional liability insurance throughout the term of this Contract providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Contract.

If the services contemplated under this Contract will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Contract, the following insurance coverage(s), naming the City as additional insured.

A. **Commercial General Liability** insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. **Business Automobile Liability** insurance for all owned, non-owned automobiles, with a combined single limit not less than $1,000,000 per accident.

C. **Broader Coverage and Limits.** The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

D. Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

Date: March 21, 2025

Re: Public Announcement: Midtown Real Property for Sale or Lease Pursuant to Resolution 2021-16

Pursuant to Resolution 2021-16 (attached), the Metropolitan Redevelopment Agency (MRA) seeks approval from the City of Santa Fe Governing Body to publicly announce that certain parcels of city-owned real property at the Midtown Site are available for sale or lease.

Disposition and development of the Midtown Site parcels are pursuant to the Midtown Master Plan and the Midtown Community Development Plan approved by the City's Governing Body. The Midtown Site address is 1600 St. Michaels Drive, Santa Fe, NM. The specific tracts associated with this public offer are: Tract H-1a; Tract J-1a; J-1b; Tract K-1b; Tract M-1a; Tract M-1b; Tract Q-1a; and Tract R2-1b within Projected Section 34, T.17N, R.9E, N.M.P.M., as described in Survey: Lot Split to Create Tracts, Midtown Site, Santa Fe County, NM. November 2024. This public offer will be open until June 20, 2025, which may be extended at the City's sole discretion.

These tracts were identified as redevelopment parcels in the Midtown Master Plan, and do not include tracts with existing buildings identified for rehabilitation and reuse or public open spaces identified in the Midtown Master Plan, specifically, the Visual Arts Center (Tract K-1a; Tract P-1b), Santa Fe Art Institute (Tract P-1a), the Greer Garson Performing Arts Theater (Tract R2-1a), the Fogelson Library Complex (Tract Q-1b), the Arroyo Park area (Tract H-1b), the Midtown Plaza area (Tract N-1; Tract L-1b), the six tracts in development pursuant to an approved and executed Disposition and Development Agreement between the City and the developer, Aspect Studios, for the redevelopment and expansion of film and multi-media production studios in a mixed-use film zone (Tract F-1b; Tract G-1; Tract J-1a; Tract J-1b; Tract L-1a; Tracts F-1a), or the state-owned parcel (Tract O).

Affordable housing parcels will be identified within the following tracts, which will require future subdivisions: Tract M-1a; Tract M-1b; Tract Q-1a; Tract R2-1b.

- The MRA will take the following steps to distribute the public announcement: Publish the announcement one or more times in a newspaper that maintains an office in Santa Fe and is of general circulation within the city.
- Issue press releases to local and regional newspapers, as well as real estate development industry publications.
- Post public announcement directly to developers and through professional associations that include developers as members.
- Conduct presentations and site tours for developers and related professionals and associations, such as architects, investors, and real estate professionals.
- Collaborate with the Office of Economic Development and Office of Affordable Housing to circulate public announcement to, and meet with, interested developers, including affordable housing developers.
- Collaborate with Urban Land Institute to circulate and post announcements to regional and national chapters and members
- Update the city's MRA website to provide developer access to documents and materials regarding redevelopment plans, parcel information, and contact information for interested developers to discuss and present development proposals.

Approval of the public announcement will allow the MRA to proceed with the implementation of the Midtown Master Plan and the Midtown Community Development Plan, together the Midtown Redevelopment Plans. The Midtown Community Development Plan provides guidance for the disposition of city-owned real property. (*Disposition of City Property and Development of Land at Midtown, page 26, January 25, 2023*)

1. **How land will be disposed of and developed at Midtown.**
   Disposition at Midtown may be through a sale, lease, exchange, or donation using competitive Solicitations (Solicitations, also called Request for Proposals or RFPs) or Direct Negotiation (Direct Negotiations) processes, whichever benefits the City and the development of the project. These disposition processes shall be initiated by the City through the MRA or Economic Development Division. Solicitations and Direct Negotiations will include the project description, the public vision and goals for the project, strategies listed in this Community Development Plan (as may be applicable to the proposed project), a scope of work to which the respondent must acknowledge and describe their approach for

undertaking the scope of work; as well as an economic and financial analysis for developing and operating the completed project.

Selected offerors must demonstrate excellence in the following areas:

- Experience on similar projects
- Capacity to undertake the scope of work
- Qualifications of project team members
- Economic analysis and financial approach and ability to secure financing

2. **How the City will ensure the objectives of the plans when it sells or leases land.**
The City will evaluate the disposition proposal to determine which disposition transaction is advantageous to the City and the development of the project. Land use, development performance, and other terms will be included in, and pursuant to, Disposition Agreements (Disposition Agreements).

The City may use Deed Restrictions, Covenants, Conditions and Restrictions (CCRs), and/or Development Agreements, accompanied with Plan Restrictions, to restrict and require certain land uses and accomplish other policy objectives if disposing of the parcel through a sale, exchange, or donation.

If disposing of a land parcel through a ground lease, the City will use lease terms to restrict and require certain land uses and achieve policy objectives through the ground leases while ensuring the developer can secure the necessary financing for the proposed development.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2021-16

INTRODUCED BY:

Councilor JoAnne Vigil Coppler

Councilor Michael J. Garcia Councilor Renee Villarreal

Councilor Carol Romero-Wirth Councilor Signe I. Lindell

A RESOLUTION

REQUIRING GOVERNING BODY APPROVAL PRIOR TO ANNOUNCING THE AVAILABILITY OF ANY CITY-OWNED LAND, BUILDINGS, OR OTHER REAL PROPERTY FOR SALE.

WHEREAS, Governing Body approval and a bill presented at a public hearing are required for an offeror to purchase City property having an appraised value in excess of twenty-five thousand dollars ($25,000); and

WHEREAS, approval from the Governing Body is not currently required before the City announces the opportunity for potential offerors to submit offers to buy City property for the Governing Body's consideration; and

WHEREAS, the Governing Body and staff work together to evaluate assets and staff seeks policy guidance from the Governing Body; and

WHEREAS, staff have expertise in real property transactions and m evaluating development strategies to maximize City interests; and

WHEREAS, the Governing Body has developed policy priorities for the use of certain

City-owned land, buildings, and other real property; and

WHEREAS, Santa Fe City Code sole guidance on real property sales is contained in Section 11-10.2 which cites to statutory authority (NMSA 1978, § 3-54-1), or as otherwise provided by law; and

WHEREAS, NMSA 1978, Section 3-54-1 sets forth the statutory process for selling municipal utility facilities and other real property subject to a required referendum period; and

WHEREAS, City-owned land, buildings, and other real property are public property; and

WHEREAS, the Governing Body understands the importance of holding executive sessions for sales of City-owned land, buildings, or other real property.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the Governing Body shall hold an executive session to discuss a proposed sale when recommended by staff.

BE IT FURTHER RESOLVED that, if staff does not recommend an executive session, then staff will provide a public presentation regarding the reasons for the recommended sale of City-owned land, buildings, or other real property.

BE IT FURTHER RESOLVED that, regardless of whether or not the Governing Body holds an executive session, prior to the City announcing the sale of any City-owned land, buildings, or other real property that has a value that exceeds $25,000, the Governing Body shall vote to approve a proposed announcement that includes the address, name, and description of the relevant property during a public meeting.

BE IT FURTHER RESOLVED that the Governing Body shall review this Resolution within three (3) years of the date of adoption to evaluate the efficacy of the process it establishes.

BE IT FURTHER RESOLVED that this Resolution shall apply to properties that are not already announced as "for sale" at the time of the adoption of this Resolution.

PASSED, APPROVED, and ADOPTED this 10th day of March, 2021.

Dear City Staff,

In accordance with State Statute and City Ordinances, this document serves as a blanket ***services'*** determination and is valid until June 30, 2026, for the types of general, professional, and construction services that are clearly one of the types pre-established and approved by the State Purchasing Agent and City CPO.

Please continue to obtain determinations for services that do not clearly and fully fit within the types listed below. For mixed or hybrid services, unclear scopes of work, and design-build projects, specific determinations will be required. In these cases, please email purchasing_det@santafenm.gov to obtain the necessary CPO determinations for your procurement needs.

Should you have any questions or require clarification on a particular service, feel free to contact CPD.

The following are General Services:

- Air/bus, vehicle charter/rental service
- Animal/k9 boarding - basic
- Auctioneers
- Audio-visual equipment setup and routine maintenance for events and presentations (including projectors, microphones, and speakers)
- Automotive mechanical services - all - including vehicle inspection, diagnostics, repair labor, parts replacement, and routine maintenance (e.g., oil changes, brake service, tune-ups, etc.)
- Banking Services (routine, transaction-based)
- Boiler testing/water treatment service
- Bookkeeping service (routine, transaction-based)
- Biohazard clean-up and disinfection services for crime scenes, homicides, suicides, unattended deaths, car accidents, deadly car crashes and cleanup of police units, along with any other biohazard situations. Building alarm systems, service and repair
- Check collection service
- Clothing, textile fabrication repair service

General Services (continued):

- Commercial laundry service, dry cleaning, etc.
- Communications systems installation, servicing, and repair
- Conference and trade show coordination
- Debt collection service
- Delivery/courier service
- Document storage, duplication, retrieval, review, and destruction service
- Drug testing and screening (standard tests)
- Engraving service
- Equipment installation, preventive maintenance, inspection, calibration, and repair
- Equipment rental services
- Exams administration and scoring service
- Executive recruitment
- Firefighting/suppression service
- Food preparation, vending, and catering services
- Health screening, basic diagnostic (wellness, blood pressure monitoring, blood draw, etc.)
- Herbicide application service
- Household goods packing, storage, transportation service
- HVAC system maintenance service - Includes filter changes, inspections, cleaning, minor repairs, and system diagnostics.
- Information Technology - Hosting only
- Information Technology Help Desk Services
- Information Technology Services requiring software or equipment
- Information Technology Software and Hardware Support Services
- Interpretive services: written/oral/sign language
- Inventory service
- Janitorial service, carpet cleaning, window washing
- Laboratory testing and analysis (standard tests only)
- Land clearing/debris removal service
- Landscaping-tree planting, grooming service, lawn mowing, etc. (but not landscape architects)
- Language translation service
- Linen rental service

General Services (continued):

- Marine equipment inspection, certification, and repair
- Medical equipment rental or repair service (wheelchairs, walkers, etc.), including measurements, adjustments, and modifications to meet patient needs
- Metal/pipe/wiring detection service
- Office furnishings installation, refurbishment, and repair service
- Package inspection and crating
- Painting service
- Paper shredding
- Parking lot sweeping/snow removal service
- Pest/weed control service
- Photographic/micrographic processing and delivery, includes aerial and ground photography (if analysis is included, then personal service)
- Printing/duplicating service
- Process serving
- Property management (ren ection; maintenance, etc
- Recycling/disposal/litter pickup service
- Retreat and workshop planning, conduct, coordination, etc.
- Security/armored car services
- Shop welding/metal fabrication service
- Software as a Service
- Steam cleaning, high pressure washing, parts cleaning service
- Studio photography service (does not include portrait painting)
- Telephone interview service (conduct of survey using prescribed survey instrument)
- Towing service
- Traffic control services - including certified flaggers, barricade setup/removal, temporary signage, and traffic control plans (not involving permanent installations or design engineering)
- Training-when offered as a regular course by an institution (such as a college or university)
- Travel service - air, surface, water
- Videotaping and recording service
- Warehouse dry/cold storage rental service
- Weather information service

The following are Professional Services:

- Accountants (certified public accountants and registered public accountants)
- Actuaries
- Analysts of processes, programs, fiscal impact, and compliance
- Appraisers
- Archeologists
- Architects
- Artwork, original (services creating the artwork)
- Audio/video media productions (design, development, and/or oversight of)
- Auditors
- Broadband
- Business process re-engineering
- Counselors
- Consultants (including IT Consultants)
- Curriculum/Examination development
- Data Backup Services
- Data Storage and Management Services
- Design
- Economists
- Engineers
- Environmental monitoring: noise level, safety, hazardous gas detection, radiation monitoring service, etc.
- Financial Advisors
- Grant writing
- Graphic designers (creative or original in nature)
- Hearing officer services
- Independent Verification and Validation
- Information Technology Hosting when it includes Maintenance and Support
- Information Technology Maintenance
- Information Technology Management
- Information Technology Programming
- Information Technology Risk Assessment

Professional Services (Continued):

- Insurance Adjusters/Brokers
- Investigators (personnel-related, etc.)
- Investment advisors and management
- Labor negotiators
- Landscape Architects
- Lawyers
- Lobbyists
- Managed Network Services
- Management and system analysts
- Management consultants
- Marketing consultants (including identifying market opportunities, conduct of marketing programs, planning, promotion, market research surveys, etc.)
- Medical arts practitioners
- Medical - doctors, immunizations, etc.
- Mental health support - Therapists, Counselors, etc.
- Network Cybersecurity Services
- Network Installation
- Physicals
- Planners
- Policy Advisors
- Polygraph services
- Product Development Services
- Program/Project Managers
- Psychologists
- Public relations advisors/Publicists
- Publication development (creation of audio/video productions, brochures, pamphlets, maps, signs, posters, annual reports, etc.)
- Researchers
- Scientists (Bio/Chem/Env/Geo/Hydro/Mech, etc.)
- Social and Human Services - Includes case management, outreach, crisis intervention, supportive housing assistance, and other services intended to support vulnerable or at-risk populations. Services may be delivered by licensed or trained professionals in coordination with public or nonprofit systems.

Professional Services (Continued):

- Speech writers
- Statisticians
- Surveyors
- Trade developers
- Training - when it is specifically designed for an agency as opposed to established courses (such as out of the box training offered to all at a training company, university, or college)
- Veterinarian services
- Web design and development

The following are Construction Services:

- Bid-Build (Standard)
- Construction Managers
- New Construction (including buildings, roads, bridges, utilities)
- Remodeling and Renovations (interior and exterior work)
- Demolition (including site clearance)
- Excavation and Earthwork
- Electrical Work (installation, repair, upgrades)
- Permanent installation or upgrades of audio-visual systems (including wiring and structural modifications)
- Plumbing (installation, repair, maintenance)
- Masonry and Concrete Work
- Roofing (installation, repair, maintenance)
- Structural Repair and Reinforcement
- Stucco installation, repair, and finishing
- Painting and Finishing (for construction purposes)
- Mechanical Work (HVAC systems, etc.)
- Site Preparation and Land Grading
- Utility Installation and Repair (water, sewer, gas lines)

CITY OF SANTA FE

The Purchasing Memo

Date: December 2, 2025

To: Governing Body, Finance Committee, and Quality of Life Committee

Via: Elisa Montoya Community Development Director ELISA D. MONTOYA (Dec 2, 2025 14:21:12 MST)

From: Faviola Chavez Affordable Housing Director Faviola A Chavez (Dec 2, 2025 14:13:42 MST)

Subject: Affordable Housing Trust Fund (AHTF) Program Year 2025 - FY26

Vendor Name: TWG Nueva Acequia 4% LIHTC

Munis Vendor Number: 10877

ITEM AND ISSUE:

The Office of Affordable Housing respectfully requests your review and approval of this Affordable Housing Trust Fund contract in the total amount of $935,000 to TWG in partnership with Santa Fe County. The recommended award will support the construction of 106 affordable housing units of the Nueva Acequia 4% Santa Fe County 4 LLC. This project is approved for 4% LIHTC and state gap funds by the NM Mortgage Finance Authority. These units will remain affordable until 2072. 25% of the units will be set aside for households with children, and 33 units will be set-aside for disabled and/or victims of domestic violence. The remainder of the units are for general income qualified tenants. In partnership with the County, services will be provided by the Community Housing Trust, the NM Department of Health, Youth Works, and the Boys and Girls Club. Services will include; and are not limited to, financial and credit counseling, limited health screening, health and nutrition education, career services, and youth programming.

CONTRACT NUMBER:

The FY26 Munis contract number is TBD

BACKGROUND AND SUMMARY:

Affordable Housing Trust Funds (AHTF) are generated from development activity (developer fees, pre-inclusionary housing agreements), payoffs of City-held liens, and land sales. In recent years, the Governing Body has committed $3,000,000 annually to the trust fund to respond to the urgent housing needs in Santa Fe. These funds are used for affordable housing projects and activities to benefit income-qualified households. Eligible housing activities are outlined in SFCC Chapter 26-3. Uses of funds are determined by the housing needs identified in the City's Five-Year Strategic Housing Plan and regulated by the NM Mortgage Finance Authority for compliance with the NM Affordable Housing Act. AHTF is used only for affordable housing, whether for capital costs or direct financial assistance to income qualified

beneficiaries. Because AHTF funds are local revenue, criteria for how they are used can be more localized to better meet Santa Fe's unique needs.

The City of Santa Fe and the Office of Affordable Housing issued a Request for Proposals on July 10, 2025, Amendment 1 released on July 25, 2025, and Amendment 2 released on August 1, 2025, to solicit proposals focused on supporting eligible costs associated with the acquisition, development, construction, renovation, conversion, financing, operation, or ownership of affordable housing—or related supporting infrastructure.

Funding is available to developers and sponsors of affordable housing, including partnerships, corporations, limited liability companies, joint ventures, public/private partnerships and non-profit organizations that are organized under state, local, or tribal laws and can provide proof of such organization. Eligible applicants must have proven financial capacity and organizational experience to carry out the activities described in the proposal submitted to receive an AHTF allocation.

An estimated balance of $3,675,000 in the AHTF is available. Funding recommendations were made by the City's Community Development Commission (CDC) at the CDC meetings on August 20, 2025 and November 19, 2025. The following criteria was evaluated by the CDC to make funding recommendations:

Tier 1

No.	Rating Criteria	Point Values
1	Team Qualifications & Past Relevant Projects	20
2	Clarity, Logic, and Execution Strategy	20
3	Affordability Duration	10
4	Leverage	10
5	Investment Impact	15
6	Readiness & Feasibility	15
7	Resident Well-Being	10
4	Local Preference	3% or 6% of the total available points

Tier 2

No.	Rating Criteria	Point Values
1	Program Alignment	20
2	Organizational Capacity	20
3	Outcomes & Measurability	15
4	Equity & Accessibility	15
5	Investment Impact	10
6	Readiness to Proceed	10
7	Use of Funds	10
4	Local Preference	3% or 6% of the total available points*

Twelve applications were submitted for the AHTF funds. Twelve AHTF applications were deemed responsive and eligible for funding. Because the funding requests for AHTF far exceeded what was available, funding amounts were determined based on a variety of factors related to priority needs identified in the Five-Year Affordable Housing Strategic Plan. The Table below details all of the Community Development Commission's recommendations:

Applications Received			Awarded Projects		
Tier 2	St. Elizabeth	$ 250,000	Tier 2	St. Elizabeth	$ -
Tier 2	Life Link	$ 250,000	Tier 2	Life Link	$ -
Tier 1	SF Housing Authority	$ 2,000,000	Tier 1	SF Housing Authority	$ -
Tier 2	Youthworks	$ 225,000	Tier 2	Youthworks	$ -
Tier 2	SF Recovery	$ 106,580	Tier 2	SF Recovery	$ -
Tier 1	TWG Development 4%	$ 1,245,500	Tier 1	TWG Development 4%	$ 935,000.00
Tier 1	TWG Development 9%	$ 676,251	Tier 1	TWG Development 9%	$ 565,000.00
Tier 1	Interfaith - withdrew	Withdrawn	Tier 1	Interfaith - withdrew	$ -
Tier 2	Adelante	$ 64,200	Tier 2	Adelante	$ -

CITY OF SANTA FE

PROFESSIONAL SERVICES CONTRACT

GB - TWG 4% - AHTF - RFP #26006

THIS CONTRACT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and TWG Development, LLC, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

RECITALS

WHEREAS, the Chief Procurement Officer of the City has made the determination that this Contract is in accordance with the provisions of the New Mexico Procurement Code (NMSA 1978, 13-1-28 et seq.) pursuant to NMSA 1978, section 13-1-NMSA 1978, Section 13-1-111, RFP; and

WHEREAS, the Contractor is one of such requisite and qualifications and is willing to engage with the City for professional services, in accordance with the terms and conditions hereinafter set out, and the Contractor understanding and consenting to the foregoing is willing to render such professional services as outlined in the Contract; and

The City and the Contractor hereby agree as follows:

1. SCOPE OF WORK

The Contractor shall provide the following services for the City:

TWG, the "Contractor", shall utilize Affordable Housing Trust Funds (AHTF) to provide the following affordable housing project for the City:

A. Contractor will use $935,000 AHTF Funds to subsidize the construction of 106 affordable housing units of the Nueva Acequia 4% Santa Fe County, LLC. The project has a pending Low Income Housing Tax Credit (LIHTC) application with the New Mexico Mortgage Finance Authority. As the LIHTC funding

is determined and development conditions evolve. AHTF can be used to support the construction of low to moderate income housing.

This project will be a total of 106 units.

The following units will be set aside as Affordable Housing units for households:

at 30% or below the Area Median Income (AMI): One (1) Studio, One (1) One-Bedroom, Four (4) Two-Bedroom and Four (4) Three-Bedroom for a total of 10;

at or below 40% of the Area Median Income (AMI): Two (2) Studio, One (1) One-Bedroom, Two (2) Two-Bedroom and Three (1) Three-Bedroom for a total of 6 units;

at or below 50% of the Area Median Income (AMI): Seventeen (17) Studios, Twenty-eight (28) One-Bedroom, Two (2) Two-Bedroom and One (1) one Three-Bedroom units for a total of 48 units;

at or below 60% of the Area Median Income (AMI): Six (6) Studio, Twenty (20) One-Bedroom, Four (4) Two-Bedroom and One (1) Three Bedroom units for a total of 31 units;

at or below 80% of the Area Median Income (AMI): One (1) Studio, One (1) One-Bedroom, Four (4) Two-Bedroom and Five (5) Three-Bedroom units for a total of 11 units and a project total development of 106 units.

The subsidy will be applied to support the gap financing for the LIHTC.

B. The Contractor shall maintain complete, accurate, and well-organized records to support all reported activities and expenditures. Required documentation includes construction progress records, cost verification, procurement files, contractor invoices, compliance certifications, and all supporting materials necessary for annual monitoring and audit review. All records must demonstrate adherence to program requirements and verify the proper use of infrastructure and development funds.

   Contractor will report to the City on a quarterly basis the use of funds.

2. STANDARD OF PERFORMANCE; LICENSES

A. The Contractor does hereby accept its designation as a professional service, rendering services related to GB - TWG 4% - AHTF - RFP #26006 for the City, as set forth in this Contract. The Contractor represents that Contractor possesses the personnel, experience, and knowledge necessary to perform the services described under this Contract.

B. The Contractor agrees to obtain and maintain throughout the term of this Contract, all applicable professional and business licenses required by law, for itself, its employees, agents, representatives, and subcontractors.

3. COMPENSATION

A. For the services and goods described in the scope of work, the City agrees pay the Contractor $935,000.00. The services and goods in the contract include GRT. The total compensation for the contract including GRT is $ 935,000.00

B. The compensation represents a maximum amount. The Contractor must notify the City when the Services provided under this Contract approach 90% of compensation total. Services rendered beyond the maximum compensation amount will not be reimbursed unless the Contract is amended in writing prior to the provision of such services.

C. Invoicing and Payment Terms Payment will be made upon the City's acceptance of deliverables and receipt of a detailed, certified invoice from the Contractor. Payments will be sent to the Contractor's designated address. The City shall issue payment in accordance with the timelines required by law. Invoices must be submitted no later than fifteen (15) days after the Contract's termination. Late invoices will not be processed or paid.

D. Extended Payment Terms for Grant-Funded Contracts. For grant-funded agreements, the City may issue payment within forty-five (45) days following submission of an undisputed payment request.

4. TERM

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Contract shall terminate **one (1) years from date of final signature** unless terminated pursuant to paragraph Termination and paragraph Appropriations. A contract for professional services may not exceed four years, including all extensions and renewals, except as otherwise provided by NMSA 1978, Sections 13-1-150 through 13-1-152 or SFCC 1987, Section 11-13.

5. TERMINATION

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice; City Opportunity to Cure.

1. The City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that

cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph "Appropriations", of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS **CONTRACT**.*

6. APPROPRIATIONS

The terms of this Contract are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

7. STATUS OF CONTRACTOR

The Contractor and its agents and employees are independent contractors performing professional services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

8. ASSIGNMENT

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

9. SUBCONTRACTING

. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

10. RELEASE

Final payment of the amounts due under this Contract shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Contract.

11. CONFIDENTIALITY

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

12. PRODUCT OF SERVICE - COPYRIGHT

Nothing developed or produced, in whole or in part, by the Contractor under this Contract shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

13. CONFLICT OF INTEREST; GOVERNMENTAL CONDUCT ACT

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Chapter 10, Article 16.

C. Contractor's representations and warranties in Paragraphs A and B of this Article are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

14. AMENDMENT

A. This Contract shall not be altered, changed, or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in "Term" herein, or to agree to the reduced funding.

15. ENTIRE AGREEMENT

This Contract, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Contract, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. In the event of any inconsistency between the statements in the body of this Contract, and the related Exhibits and Schedules, the statements in the body of this Contract shall control.

16. MERGER

This Contract incorporates all the Contracts, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

All terms and conditions of the **GB - TWG 4% - AHTF - RFP #26006** and the Contractor's response to such document(s) are incorporated herein by reference and is included in the order of precedence.

No prior Contract or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

17. PENALTIES FOR VIOLATION OF LAW

NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities, and kickbacks.

18. EQUAL OPPORTUNITY COMPLIANCE

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

19. APPLICABLE LAW

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

20. WORKERS' COMPENSATION

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

21. PROFESSIONAL LIABILITY INSURANCE

Contractor shall maintain professional liability insurance throughout the term of this Contract providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance as a condition prior to performing services under this Contract.

22. OTHER INSURANCE

Contractor shall maintain other insurance as appropriate providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance as a condition prior to performing services under this Contract.

22.1. COMMERCIAL GENERAL LIABILITY

Insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

22.2. BROADER COVERAGE AND LIMITS

The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

23. RECORDS AND FINANCIAL AUDIT

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

24. INDEMNIFICATION

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Contract. If any action, suit or proceeding related to the services performed by the Contractor or any officer,

agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

25. NEW MEXICO TORT CLAIMS ACT

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et. seq., as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

26. INVALID TERM OR CONDITION

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

27. ENFORCEMENT OF CONTRACT

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

28. NOTICES

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the City:	Affordable Housing	**To the Contractor:**
Chief Procurement Officer purchasing@santafenm.gov PO Box 909 Santa Fe, NM 87504-0909	Director 123 E Marcy Santa Fe, NM 87501 fachavez@santafenm.gov (505) 955-6346	TWG Megan Adams 1301 E Washington Street, Suite 100 Indianapolis, IN 46202 madams@twgdev.com (619) 889-3085

29. AUTHORITY

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter a binding contract.

30. NON-COLLUSION

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City's Chief Procurement Officer.

31. DEFAULT/BREACH

In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages, and the City may also seek all other remedies under the terms of this Contract and under law or equity.

32. EQUITABLE REMEDIES

The Contractor acknowledges that its failure to comply with any provision of this Contract will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Contract shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

33. DEFAULT AND FORCE MAJEURE

The City reserves the right to cancel all, or any part of any orders placed under this Contract without cost to the City, if the Contractor fails to meet the provisions of this Contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this Clause shall not be exclusive and are in addition to any other rights now being provided by law or under this Contract.

IN WITNESS WHEREOF, the Parties have executed this Contract as of the date of the signature by the required approval authorities below.

From: Faviola Chavez Affordable Housing Director Faviola A Chavez (Dec 2, 2025 14:14:27 MST)

Subject: Affordable Housing Trust Fund (AHTF) Program Year 2025 - FY26

Vendor Name: TWG Nueva Acequia 9% LIHTC

Munis Vendor Number: 10877

ITEM AND ISSUE:

The Office of Affordable Housing respectfully requests your review and approval of this Affordable Housing Trust Fund contract in the total amount of $565,000 to support the construction of 53 affordable housing units of the Nueva Acequia 9% Santa Fe County LLC. The project has an approved Low Income Housing Tax Credit (LIHTC) with the New Mexico Mortgage Finance Authority.

100% of these units will be set-aside for income eligible seniors. In partnership with Santa Fe County, the County will provide a range of onsite services in collaboration with the Santa Fe Housing Trust, Century Bank, and the Santa Fe County Senior Services Program. An example of services to be provided includes; and is not limited to, delivered meal service, fitness classes, health screening services, technology training, social and community engagement events, estate planning, and financial literacy. These units will remain affordable as defined by the Santa Fe Homes Program until 2072.

CONTRACT NUMBER:

The FY26 Munis contract number is 3260282

BACKGROUND AND SUMMARY:

Affordable Housing Trust Funds (AHTF) are generated from development activity (developer fees, pre-inclusionary housing agreements), payoffs of City-held liens, and land sales. In recent years, the Governing Body has committed $3,000,000 annually to the trust fund to respond to the urgent housing needs in Santa Fe. These funds are used for affordable housing projects and activities to benefit income-qualified households. Eligible housing activities are outlined in SFCC Chapter 26-3. Uses of funds are determined by the housing needs identified in the City's Five-Year Strategic Housing Plan and regulated by the NM Mortgage Finance Authority for compliance with the NM Affordable Housing Act. AHTF is used only for affordable housing, whether for capital costs or direct financial assistance to income qualified beneficiaries. Because AHTF funds are local revenue, criteria for how they are used can be more localized to better meet Santa Fe's unique needs.

The City of Santa Fe and the Office of Affordable Housing issued a Request for Proposals on July 10, 2025, Amendment 1 released on July 25, 2025, and Amendment 2 released on August 1,2025, to solicit proposals focused on supporting eligible costs associated with the acquisition, development, construction, renovation, conversion, financing, operation, or ownership of affordable housing—or related supporting infrastructure.

Funding is available to developers and sponsors of affordable housing, including partnerships, corporations, limited liability companies, joint ventures, public/private partnerships and non-profit organizations that are organized under state, local, or tribal laws and can provide proof of such organization. Eligible applicants must have proven financial capacity and organizational experience to carry out the activities described in the proposal submitted to receive an AHTF allocation.

An estimated balance of $3,675,000 in the AHTF is available. Applications were reviewed and funding recommendations were made by the City's Community Development Commission (CDC) at the CDC meetings on August 20, 2025 and November 19, 2025. The following criteria was evaluated by the CDC to make funding recommendations:

Tier 1

No.	Rating Criteria	Point Values
1	Team Qualifications & Past Relevant Projects	20
2	Clarity, Logic, and Execution Strategy	20
3	Affordability Duration	10
4	Leverage	10
5	Investment Impact	15
6	Readiness & Feasibility	15
7	Resident Well-Being	10
4	Local Preference	3% or 6% of the total available points

Tier 2

No.	Rating Criteria	Point Values
1	Program Alignment	20
2	Organizational Capacity	20
3	Outcomes & Measurability	15
4	Equity & Accessibility	15
5	Investment Impact	10
6	Readiness to Proceed	10
7	Use of Funds	10
4	Local Preference	3% or 6% of the total available points*

Twelve applications were submitted for the AHTF funds. Twelve AHTF applications were deemed responsive and eligible for funding. Because the funding requests for AHTF far exceeded what was available, funding amounts were determined based on a variety of factors related to priority needs identified in the Five-Year Affordable Housing Strategic Plan. The Table below details all of the Community Development Commission's recommendations:

Applications Received			Awarded Projects		
Tier 2	St. Elizabeth	$ 250,000	Tier 2	St. Elizabeth	$ -
Tier 2	Life Link	$ 250,000	Tier 2	Life Link	$ -

CITY OF SANTA FE

PROFESSIONAL SERVICES CONTRACT

GB - TWG 9% - AHTF - RFP #26006

THIS CONTRACT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and TWG Development, LLC, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

RECITALS

WHEREAS, the Chief Procurement Officer of the City has made the determination that this Contract is in accordance with the provisions of the New Mexico Procurement Code (NMSA 1978, 13-1-28 et seq.) pursuant to NMSA 1978, section 13-1-NMSA 1978, Section 13-1-111, RFP; and

WHEREAS, the Contractor is one of such requisite and qualifications and is willing to engage with the City for professional services, in accordance with the terms and conditions hereinafter set out, and the Contractor understanding and consenting to the foregoing is willing to render such professional services as outlined in the Contract; and

The City and the Contractor hereby agree as follows:

1. SCOPE OF WORK

The Contractor shall provide the following services for the City:

TWG, the "Contractor", shall utilize Affordable Housing Trust Funds (AHTF) to provide the following affordable housing project for the City:

A. Contractor will use $565,000 AHTF Funds to subsidize the construction of 53-affordable housing units of the Nueva Acequia 9% Santa Fe County, LLC. The project has a pending Low Income Housing Tax Credit (LIHTC) application with the New Mexico Mortgage Finance Authority. As the LIHTC funding

is determined and development conditions evolve. AHTF can be used to support the construction of low to moderate income housing.

This project will be a total of 53 units.

The following units wilbe set aside as Affordable Housing units for households:

at 30% or below the Area Median Income (AMI): \Five (5) Studio, Five (5) One-Bedroom, One (1) Two-Bedroom for a total of 11;

at or below 40% of AMI: One (1) Studio, Seven (7) One-Bedroom, One (1) Two-Bedroom for a total of 9 units;

at or below 50% of the AMI: One (1) Studios, Thirteen (13) One-Bedroom, One (1) Two-Bedroom units for a total of 15 units;

at or below 60% of the AMI: will be set aside for the following units: Eight (8) One-Bedroom, Two (2) Two-Bedroom units for a total of 10 units.

at or below 80% of the AMI: Five (5) One-Bedroom, Three (3) Two-Bedroom units for a total of 8 units.

The subsidy will be applied to support the gap financing for the LIHTC.

B. The Contractor shall maintain complete, accurate, and well-organized records to support all reported activities and expenditures. Required documentation includes construction progress records, cost verification, procurement files, contractor invoices, compliance certifications, and all supporting materials necessary for annual monitoring and audit review. All records must demonstrate adherence to program requirements and verify the proper use of infrastructure and development funds.

Contractor will report to the City on a quarterly basis the use of funds.

2. STANDARD OF PERFORMANCE; LICENSES

A. The Contractor does hereby accept its designation as a professional service, rendering services related to GB - TWG 9% - AHTF - RFP #26006 for the City, as set forth in this Contract. The Contractor represents that Contractor possesses the personnel, experience, and knowledge necessary to perform the services described under this Contract.

B. The Contractor agrees to obtain and maintain throughout the term of this Contract, all applicable professional and business licenses required by law, for itself, its employees, agents, representatives, and subcontractors.

3. COMPENSATION

A. For the services and goods described in the scope of work, the City agrees to pay the Contractor $565,000.00. The services and goods in the contract include GRT. The total compensation for the contract including GRT is $ 565,000. The Contractor must notify the City when the Services

provided under this Contract approach 90% of compensation total. Services rendered beyond the maximum compensation amount will not be reimbursed unless the Contract is amended in writing prior to the provision of such services.

B. Invoicing and Payment Terms Payment will be made upon the City's acceptance of deliverables and receipt of a detailed, certified invoice from the Contractor. Payments will be sent to the Contractor's designated address. The City shall issue payment in accordance with the timelines required by law. Invoices must be submitted no later than fifteen (15) days after the Contract's termination. Late invoices will not be processed or paid.

C. Extended Payment Terms for Grant-Funded Contracts. For grant-funded agreements, the City may issue payment within forty-five (45) days following submission of an undisputed payment request.

4. TERM

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Contract shall terminate one **(1) years from date of final signature** unless terminated pursuant to paragraph Termination and paragraph Appropriations. A contract for professional services may not exceed four years, including all extensions and renewals, except as otherwise provided by NMSA 1978, Sections 13-1-150 through 13-1-152 or SFCC 1987, Section 11-13.

5. TERMINATION

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice; City Opportunity to Cure.

1. The City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph "Appropriations", of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS **CONTRACT**.*

6. APPROPRIATIONS

The terms of this Contract are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

7. STATUS OF CONTRACTOR

The Contractor and its agents and employees are independent contractors performing professional services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

8. ASSIGNMENT

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

9. RELEASE

Final payment of the amounts due under this Contract shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Contract.

10. CONFIDENTIALITY

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

11. PRODUCT OF SERVICE - COPYRIGHT

Nothing developed or produced, in whole or in part, by the Contractor under this Contract shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

12. CONFLICT OF INTEREST; GOVERNMENTAL CONDUCT ACT

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Chapter 10, Article 16.

C. Contractor's representations and warranties in Paragraphs A and B of this Article are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

13. AMENDMENT

A. This Contract shall not be altered, changed, or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in "Term" herein, or to agree to the reduced funding.

14. ENTIRE AGREEMENT

This Contract, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Contract, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. In the event of any inconsistency between the statements in the body of this Contract, and the related Exhibits and Schedules, the statements in the body of this Contract shall control.

15. MERGER

This Contract incorporates all the Contracts, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

All terms and conditions of the **GB - TWG 9% - AHTF - RFP #26006** and the Contractor's response to such document(s) are incorporated herein by reference and is included in the order of precedence.

No prior Contract or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

16. PENALTIES FOR VIOLATION OF LAW

NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities, and kickbacks.

17. EQUAL OPPORTUNITY COMPLIANCE

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

18. APPLICABLE LAW

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

19. WORKERS' COMPENSATION

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

20. PROFESSIONAL LIABILITY INSURANCE

Contractor shall maintain professional liability insurance throughout the term of this Contract providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance as a condition prior to performing services under this Contract.

21. OTHER INSURANCE

Contractor shall maintain other insurance as appropriate providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance as a condition prior to performing services under this Contract. .

21.1. COMMERCIAL GENERAL LIABILITY

Insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and

advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

21.2. BROADER COVERAGE AND LIMITS

The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

22. RECORDS AND FINANCIAL AUDIT

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

23. INDEMNIFICATION

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Contract. If any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

24. NEW MEXICO TORT CLAIMS ACT

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et. seq., as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

25. INVALID TERM OR CONDITION

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

26. ENFORCEMENT OF CONTRACT

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

27. NOTICES

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the City: Chief Procurement Officer purchasing@santafenm.gov PO Box 909 Santa Fe, NM 87504-0909	Affordable Housing Director 123 E Marcy Santa Fe, NM 87501 fachavez@santafenm.gov (505) 955-6346	**To the Contractor:** TWG 1301 E. Washington Street, Suite 100 Indianapolis, IN 46202 madams@twgdev.com (619) 889-3085

28. AUTHORITY

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter a binding contract.

29. NON-COLLUSION

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City's Chief Procurement Officer.

30. DEFAULT/BREACH

In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages, and the City may also seek all other remedies under the terms of this Contract and under law or equity.

31. EQUITABLE REMEDIES

The Contractor acknowledges that its failure to comply with any provision of this Contract will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and

the Contractor consents to the City's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Contract shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

32. DEFAULT AND FORCE MAJEURE

The City reserves the right to cancel all, or any part of any orders placed under this Contract without cost to the City, if the Contractor fails to meet the provisions of this Contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this Clause shall not be exclusive and are in addition to any other rights now being provided by law or under this Contract.

The Purchasing Memo

Date: December 1, 2025

To: Governing Body, Finance Committee, and Quality of Life Committee

Via: Elisa Montoya Community Development Director ELISA D. MONTOYA (Dec 1, 2025 15:54:16 MST)

From: Faviola Chavez Affordable Housing Director Faviola A Chavez (Dec 2, 2025 12:46:01 MST)

Subject: Affordable Housing Trust Fund (AHTF) Program Year 2025 - FY26

Vendor Name: Santa Fe Community Housing Trust (SFCHT)

Munis Vendor Number: 1570

ITEM AND ISSUE:

The Office of Affordable Housing respectfully requests your review and approval of this Affordable Housing Trust Fund contract in the total amount of $675,000. This recommended award will support the construction of 8 permanently affordable homes at Arroyo Oeste Phase II for income-qualified families. More specifically, the recommended award will be applied to cover the gap between the effective's sales price and the actual cost of construction, calculated based on the size and configuration of the unit(s), lot layouts, infrastructure, and other unique conditions of developments. **CONTRACT NUMBER:**

The FY26 Munis contract number is 3260280

BACKGROUND AND SUMMARY:

Affordable Housing Trust Funds (AHTF) are generated from development activity (developer fees, pre-inclusionary housing agreements), payoffs of City-held liens, and land sales. In recent years, the Governing Body has committed $3,000,000 annually to the trust fund to respond to the urgent housing needs in Santa Fe. These funds are used for affordable housing projects and activities to benefit income-qualified households. Eligible housing activities are outlined in SFCC Chapter 26-3. Uses of funds are determined by the housing needs identified in the City's Five-Year Strategic Housing Plan and regulated by the NM Mortgage Finance Authority for compliance with the NM Affordable Housing Act. AHTF is used only for affordable housing, whether for capital costs or direct financial assistance to income qualified beneficiaries. Because AHTF funds are local revenue, criteria for how they are used can be more localized to better meet Santa Fe's unique needs.

The City of Santa Fe and the Office of Affordable Housing issued a Request for Proposals on July 10, 2025, Amendment 1 released on July 25, 2025, and Amendment 2 released on August 1, 2025, to solicit proposals focused on supporting eligible costs associated with the acquisition, development, construction, renovation, conversion, financing, operation, or ownership of affordable housing—or related supporting infrastructure.

Funding is available to developers and sponsors of affordable housing, including partnerships, corporations, limited liability companies, joint ventures, public/private partnerships and non-profit organizations that are organized under state, local, or tribal laws and can provide proof of such organization. Eligible applicants must

have proven financial capacity and organizational experience to carry out the activities described in the proposal submitted to receive an AHTF allocation.

An estimated balance of $3,675,000 in the AHTF is available for awards. Applications were reviewed and funding recommendations were made by the City's Community Development Commission (CDC) at the CDC meetings on **August 20, 2025 and November 19, 2025.** The following criteria was evaluated by the CDC to make funding recommendations:

Tier 1

No.	Rating Criteria	Point Values
1	Team Qualifications & Past Relevant Projects	20
2	Clarity, Logic, and Execution Strategy	20
3	Affordability Duration	10
4	Leverage	10
5	Investment Impact	15
6	Readiness & Feasibility	15
7	Resident Well-Being	10
4	Local Preference	3% or 6% of the total available points

Tier 2

No.	Rating Criteria	Point Values
1	Program Alignment	20
2	Organizational Capacity	20
3	Outcomes & Measurability	15
4	Equity & Accessibility	15
5	Investment Impact	10
6	Readiness to Proceed	10
7	Use of Funds	10
4	Local Preference	3% or 6% of the total available points*

Twelve applications were submitted for the AHTF funds. Twelve AHTF applications were deemed responsive and eligible for funding. Because the funding requests for AHTF far exceeded what was available, funding amounts were determined based on a variety of factors related to priority needs identified in the Five-Year Affordable Housing Strategic Plan. The Table below details all of the Community Development Commission's recommendations:

Applications Received			Awarded Projects		
Tier 2	St. Elizabeth	$ 250,000	Tier 2	St. Elizabeth	$ -
Tier 2	Life Link	$ 250,000	Tier 2	Life Link	$ -
Tier 1	SF Housing Authority	$ 2,000,000	Tier 1	SF Housing Authority	$ -
Tier 2	Youthworks	$ 225,000	Tier 2	Youthworks	$ -
Tier 2	SF Recovery	$ 106,580	Tier 2	SF Recovery	$ -
Tier 1	TWG Development 4%	$ 1,245,500	Tier 1	TWG Development 4%	$ 935,000.00
Tier 1	TWG Development 9%	$ 676,251	Tier 1	TWG Development 9%	$ 565,000.00

CITY OF SANTA FE

PROFESSIONAL SERVICES CONTRACT

GB-Santa Fe Community Housing Trust - AHTF-RFP26006

THIS CONTRACT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and Santa Fe Community Housing Trust, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

RECITALS

WHEREAS, the Chief Procurement Officer of the City has made the determination that this Contract is in accordance with the provisions of the New Mexico Procurement Code (NMSA 1978, 13-1-28 et seq.) pursuant to NMSA 1978, section 13-1-NMSA 1978, Section 13-1-111, RFP; and

WHEREAS, the Contractor is one of such requisite and qualifications and is willing to engage with the City for professional services, in accordance with the terms and conditions hereinafter set out, and the Contractor understanding and consenting to the foregoing is willing to render such professional services as outlined in the Contract; and

The City and the Contractor hereby agree as follows:

1. SCOPE OF WORK

Santa Fe Community Housing Trust "Contractor" shall utilize Affordable Housing Trust Funds (AHTF) to provide the following affordable housing project for the City:

A. Contractor will use $675,000 AHTF Funds to subsidize the construction of homes sold at a restricted price, according to the City's Santa Fe Homes Program (SFHP) pricing schedule, to homebuyers earning low and moderate incomes. The subsidy will be applied to cover the gap between the effective sales

price and the actual cost of construction, calculated based on the size and configuration of the unit(s), lot layouts and infrastructure requirements, and other unique conditions of development.

B. The Contractor shall develop a minimum of eight (8) households with the goal to serve the following income categories: three (3) households earning 30-50% AMI; three (3) households earning 50-65% AMI; and two (2) households earning 65-80% AMI.

C. The Contractor shall maintain complete, accurate, and well-organized records to support all reported activities and expenditures. Required documentation includes construction progress records, cost verification, procurement files, contractor invoices, compliance certifications, and all supporting materials necessary for annual monitoring and audit review. All records must demonstrate adherence to program requirements and verify the proper use of infrastructure and development funds.

2. STANDARD OF PERFORMANCE; LICENSES

A. The Contractor does hereby accept its designation as a professional service, rendering services related to GB-Santa Fe Community Housing Trust - AHTF-RFP26006 for the City, as set forth in this Contract. The Contractor represents that Contractor possesses the personnel, experience, and knowledge necessary to perform the services described under this Contract.

B. The Contractor agrees to obtain and maintain throughout the term of this Contract, all applicable professional and business licenses required by law, for itself, its employees, agents, representatives, and subcontractors.

3. COMPENSATION

A. Payment. For the services and goods described in the scope of work, the City agrees to pay the Contractor $675,000.00. The services and goods in the contract include GRT. The total compensation for the contract including GRT is $ 675,000.00.

B. The compensation represents a maximum amount. The Contractor must notify the City when the Services provided under this Contract approach 90% of compensation total. Services rendered beyond the maximum compensation amount will not be reimbursed unless the Contract is amended in writing prior to the provision of such services.

C. Invoicing and Payment Terms Payment will be made upon the City's acceptance of deliverables and receipt of a detailed, certified invoice from the Contractor. Payments will be sent to the Contractor’s designated address. The City shall issue payment in accordance with the timelines required by law. Invoices must be submitted no later than fifteen (15) days after the Contract’s termination. Late invoices will not be processed or paid.

D. Extended Payment Terms for Grant-Funded Contracts. For grant-funded agreements, the City may issue payment within forty-five (45) days following submission of an undisputed payment request.

4. TERM

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Contract shall terminate one **(1) year from date of final signature** unless terminated pursuant to paragraph Termination

and paragraph Appropriations. A contract for professional services may not exceed four years, including all extensions and renewals, except as otherwise provided by NMSA 1978, Sections 13-1-150 through 13-1-152 or SFCC 1987, Section 11-13.

5. TERMINATION

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice; City Opportunity to Cure.

1. The City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph "Appropriations", of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

6. APPROPRIATIONS

The terms of this Contract are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted

by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

7. STATUS OF CONTRACTOR

The Contractor and its agents and employees are independent contractors performing professional services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

8. ASSIGNMENT

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

9. SUBCONTRACTING

. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

10. RELEASE

Final payment of the amounts due under this Contract shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Contract.

11. CONFIDENTIALITY

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

12. PRODUCT OF SERVICE - COPYRIGHT

Nothing developed or produced, in whole or in part, by the Contractor under this Contract shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

13. CONFLICT OF INTEREST; GOVERNMENTAL CONDUCT ACT

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Chapter 10, Article 16.

C. Contractor's representations and warranties in Paragraphs A and B of this Article are material representations of fact upon which the City relied when this Contract was entered into by the

parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

14. AMENDMENT

A. This Contract shall not be altered, changed, or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in "Term" herein, or to agree to the reduced funding.

15. ENTIRE AGREEMENT

This Contract, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Contract, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. In the event of any inconsistency between the statements in the body of this Contract, and the related Exhibits and Schedules, the statements in the body of this Contract shall control.

16. MERGER

This Contract incorporates all the Contracts, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

All terms and conditions of the **TBD - GB-Santa Fe Community Housing Trust - AHTF-RFP26006** and the Contractor's response to such document(s) are incorporated herein by reference and is included in the order of precedence.

No prior Contract or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

17. PENALTIES FOR VIOLATION OF LAW

NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities, and kickbacks.

18. EQUAL OPPORTUNITY COMPLIANCE

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

19. APPLICABLE LAW

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

20. WORKERS' COMPENSATION

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

21. PROFESSIONAL LIABILITY INSURANCE

Contractor shall maintain professional liability insurance throughout the term of this Contract providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance and of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Contract.

22. OTHER INSURANCE

The Contractor shall furnish the City with proof of any other required insurance and of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Contract.

22.1. COMMERCIAL GENERAL LIABILITY

Insurance shall be written on an occurrence basis and be as broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

22.2. BROADER COVERAGE AND LIMITS

The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No

representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

23. RECORDS AND FINANCIAL AUDIT

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

24. INDEMNIFICATION

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Contract. If any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

25. NEW MEXICO TORT CLAIMS ACT

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et. seq., as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

26. INVALID TERM OR CONDITION

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

27. ENFORCEMENT OF CONTRACT

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

28. NOTICES

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the City: Chief Procurement Officer purchasing@santafenm.gov PO Box 909 Santa Fe, NM 87504-0909	Affordable Housing Director 123 E Marcy Santa Fe, NM 87501 fachavez@santafenm.gov (505) 955-6346	**To the Contractor:** Santa Fe Community Housing Trust 6005 Jaguar Drive, Ste 101 Santa Fe, NM 87507 rabeyta@housingtrustonlie.org 505-989-3960

29. AUTHORITY

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter a binding contract.

30. NON-COLLUSION

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City's Chief Procurement Officer.

31. DEFAULT/BREACH

In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages, and the City may also seek all other remedies under the terms of this Contract and under law or equity.

32. EQUITABLE REMEDIES

The Contractor acknowledges that its failure to comply with any provision of this Contract will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Contract shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

33. DEFAULT AND FORCE MAJEURE

The City reserves the right to cancel all, or any part of any orders placed under this Contract without cost to the City, if the Contractor fails to meet the provisions of this Contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the

control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this Clause shall not be exclusive and are in addition to any other rights now being provided by law or under this Contract.

Except as otherwise stated in this endorsement, the terms and conditions of the Policy apply.

A. The following is added to Section **C. WHO IS AN INSURED**:

Additional Insureds When Required By Written Contract, Written Agreement Or Permit

The person(s) or organization(s) identified in Paragraphs **a.** through **f.** below are additional insureds when you have agreed, in a written contract or written agreement, or when required by a written permit issued by a state or governmental agency or subdivision or political subdivision that such person or organization be added as an additional insured on your Coverage Part, provided the injury or damage occurs subsequent to the execution of the contract or agreement, or the issuance of the permit.

A person or organization is an additional insured under this provision only for that period of time required by the contract, agreement or permit.

However, no such person or organization is an additional insured under this provision if such person or organization is included as an additional insured by any other endorsement issued by us and made a part of this Coverage Part.

The insurance afforded to such additional insured will not be broader than that which you are required by the contract, agreement, or permit to provide for such additional insured.

The insurance afforded to such additional insured only applies to the extent permitted by law.

The limits of insurance that apply to additional insureds are described in Section **D. LIABILITY AND MEDICAL EXPENSES LIMITS OF INSURANCE.** How this insurance applies when other insurance is available to an additional insured is described in the Other Insurance Condition in Section **E. LIABILITY AND MEDICAL EXPENSES GENERAL CONDITIONS.**

a. Vendors

Any person(s) or organization(s) (referred to below as vendor), but only with respect to "bodily injury" or "property damage" arising out of "your products" which are distributed or sold in the regular course of the vendor's business and only if this Coverage Part provides coverage for "bodily injury" or "property damage" included within the "products-completed operations hazard".

(1) The insurance afforded to the vendor is subject to the following additional exclusions:

This insurance does not apply to:

(a) "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;

(b) Any express warranty unauthorized by you;

(c) Any physical or chemical change in the product made intentionally by the vendor;

(d) Repackaging, except when unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;

(e) Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;

(f) Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product;

(May include copyrighted material of Insurance Services Office, Inc., with its permission)

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

(g) Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or

(h) "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:

(i) The exceptions contained in Paragraphs **(d)** or **(f)**; or

(ii) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.

(2) This insurance does not apply to any insured person or organization from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.

b. Lessors Of Equipment

(1) Any person or organization from whom you lease equipment; but only with respect to their liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by your maintenance, operation or use of equipment leased to you by such person or organization.

(2) With respect to the insurance afforded to these additional insureds, this insurance does not apply to any "occurrence" which takes place after you cease to lease that equipment.

c. Lessors Of Land Or Premises

(1) Any person or organization from whom you lease land or premises, but only with respect to liability arising out of the ownership, maintenance or use of that part of the land or premises leased to you.

(2) With respect to the insurance afforded to these additional insureds, this insurance does not apply to:

(a) Any "occurrence" which takes place after you cease to lease that land or be a tenant in that premises; or

(b) Structural alterations, new construction or demolition operations performed by or on behalf of such person or organization.

d. Architects, Engineers Or Surveyors

(1) Any architect, engineer, or surveyor, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by your acts or omissions or the acts or omissions of those acting on your behalf:

(a) In connection with your premises;

(b) In the performance of your ongoing operations performed by you or on your behalf; or

(c) In connection with "your work" and included within the "products-completed operations hazard", but only if:

(i) The written contract, written agreement or permit requires you to provide such coverage to such additional insured; and

(ii) This Coverage Part provides coverage for "bodily injury" or "property damage" included within the "products-completed operations hazard".

(2) With respect to the insurance afforded to these additional insureds, the following additional exclusion applies:

This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of or the failure to render any professional services, including:

(i) The preparing, approving, or failure to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders, designs or drawings and specifications; or

(ii) Supervisory, surveying, inspection, architectural or engineering activities.

This exclusion applies even if the claims allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by an insured, if the "bodily injury", "property

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

damage", or "personal and advertising injury" arises out of the rendering of or the failure to render any professional service.

e. State Or Governmental Agency Or Subdivision Or Political Subdivision Issuing Permit

(1) Any state or governmental agency or subdivision or political subdivision, but only with respect to operations performed by you or on your behalf for which the state or governmental agency or subdivision or political subdivision has issued a permit.

(2) With respect to the insurance afforded to these additional insureds, this insurance does not apply to:

(a) "Bodily injury", "property damage" or "personal and advertising injury" arising out of operations performed for the federal government, state or municipality; or

(b) "Bodily injury" or "property damage" included within the "products-completed operations hazard".

f. Any Other Party

(1) Any other person or organization who is not in one of the categories or classes listed above in Paragraphs **a.** through **e.** above, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by your acts or omissions or the acts or omissions of those acting on your behalf:

(a) In the performance of your ongoing operations performed by you or on your behalf;

(b) In connection with your premises owned by or rented to you; or

(c) In connection with "your work" and included within the "products-completed operations hazard", but only if:

(i) The written contract, written agreement or permit requires you to provide such coverage to such additional insured; and

(ii) This Coverage Part provides coverage for "bodily injury" or "property damage" included within the "products-completed operations hazard".

(2) With respect to the insurance afforded to these additional insureds, the following additional exclusion applies:

This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or the failure to render, any professional architectural, engineering or surveying services, including:

(a) The preparing, approving, or failure to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders, designs or drawings and specifications; or

(b) Supervisory, surveying, inspection, architectural or engineering activities.

This exclusion applies even if the claims allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by an insured, if the "bodily injury", "property damage", or "personal and advertising injury" arises out of the rendering of or the failure to render any professional service described in Paragraphs **f.(2)(a)** or **f.(2)(b)** above.

ADDITIONAL INSURED - VENDORS

This endorsement modifies insurance provided under the following:

BUSINESS LIABILITY COVERAGE FORM

Except as otherwise stated in this endorsement, the terms and conditions of the Policy apply.

A. The following is added to Section **C. WHO IS AN INSURED**:

Additional Insured - Vendors

a. Any person(s) or organization(s) (referred to throughout this endorsement as vendor) shown in the Declarations as an Additional Insured – Vendor is also an additional insured, but only with respect to "bodily injury" or "property damage" arising out of "your products" which are distributed or sold in the regular course of the vendor's business and only if this Coverage Part provides coverage for "bodily injury" or "property damage" included within the "products-completed operations hazard".

b. If coverage provided to these additional insureds is required by a written contract or written agreement, or when required by a written permit issued by a state or governmental agency or subdivision or political subdivision, the insurance afforded to these additional insureds will not be broader than that which you are required by the contract, agreement, or permit to provide for these additional insureds.

c. The insurance afforded to these additional insureds only applies to the extent permitted by law.

B. With respect to the insurance afforded to such additional insured(s) by this endorsement, the following changes are made to Section **B. EXCLUSIONS**:

1. the following exclusion is added:

This insurance does not apply to:

a. "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;

b. Any express warranty unauthorized by you;

c. Any physical or chemical change in the product made intentionally by the vendor;

d. Repackaging, unless unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;

e. Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;

f. Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product;

g. Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or

h. "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:

(1) The exceptions contained in Paragraphs **d.** or **f.**; or

(2) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.

2. The following exclusion is added:
This insurance does not apply to any insured person or organization from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.

CITY OF SANTA FE

Date: October 24, 2025

To: Governing Body

From: Romella Glorioso-Moss, Complete Streets Capital Projects Manager RGM

Via: Regina Wheeler, Public Works Department Director Regina Wheeler (Oct 27, 2025 09:21:14 MDT)

Subject: Capital Appropriation Agreement Project C5253296 for Rufina Lopez Lane Intersection

---

ACTION:
Request for Approval of Capital Outlay Grant Agreement with New Mexico Department of Transportation for Project C5253296 Rufina Lopez Lane Intersection Improvements in the Total Amount of $400,000 with a Reversion Date of June 30, 2029. (Romella Glorioso-Moss, Complete Streets Capital Projects Manager, rsglorioso-moss@santafenm.gov)

Request for Approval of a Budget Amendment Resolution (BAR) to Allocate $400,000 from the 2025 Capital Appropriation to FY26 Revenue and WIP Design for Improvements to the Rufina Lopez Lane Intersection.

BACKGROUND AND SUMMARY:
This grant agreement is for Capital Appropriation ID J3296 in the amount of $400,000 "…to acquire rights of way and to plan, design and construct improvements to the Rufina Street and Lopez Lane intersection ...". Roadway improvements may include the construction of a roundabout, ADA compliant sidewalks and buffered bicycle lanes.

A separate resolution designating signatories and accepting responsibility for the project is required by NMDOT to execute this grant. That resolution will be brought to the Governing Body under a separate action.

NEW MEXICO CAPITAL OUTLAY GRANT AGREEMENT
DEPARTMENT OF TRANSPORTATION
CAPITAL APPROPRIATION PROJECT

THIS AGREEMENT is made and entered into by and between the State of New Mexico, Department of Transportation, ("**Department**") and City of Santa Fe, ("**Grantee**") (individually "**Party**" and collectively "**Parties**"). This Agreement shall be effective as of the date the Department executes it ("**Effective Date**").

WITNESSETH

WHEREAS, in the Laws of 2025, HB450, Chapter 159, Section 39, Subsection 76, the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of funds from this appropriation, in accordance with the terms and conditions of this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

AGREEMENT

I. PROJECT DESCRIPTION, GRANT AMOUNT, AND REVERSION

A. **C5253296** ("**Project**"), Appropriation ID **J3296**, Reversion Date **6/30/2029** ("**Reversion Date**"). Laws of 2025, Chapter 159, Section 39, Subsection 76, (Four Hundred Thousand Dollars and No Cents) **($400,000), to acquire rights of way and to plan, design and construct improvements to the Rufina street and Lopez lane intersection in Santa Fe in Santa Fe county; .**

B. Grantee's total reimbursements shall not exceed Four Hundred Thousand Dollars and No Cents, (**$400,000)** ("**Appropriation Amount**") minus the allocation for Art in Public Places ("**AIPP amount**"), if applicable, Zero Dollars and No Cents, which equals Four Hundred Thousand Dollars and No Cents ("**Adjusted Appropriation Amount**").

C. In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I, the language of the laws cited herein shall control.

The information contained in Article I is referred to collectively as the "**Project Description.**"

II. DISBURSEMENT LIMITATION

A. Upon the Effective Date, the Grantee shall submit to the Department a comprehensive procurement plan and expenditure plan, detailing a Project timeline with milestones, required procurements, and identifying

expected expenditures per milestone (collectively, "**Project Budget**"). The Department shall review and approve the Project Budget by approving a Notice of Department's Obligation ("**Notice of Obligation**"), in accordance with the Project Description, a sample of which is attached hereto as **Exhibit B** and incorporated herein by reference. After receipt of approved Notice of Obligation, the Grantee may be reimbursed for allowable costs up to the Adjusted Appropriation Amount. This Agreement and any reimbursements up to the Adjusted Appropriation Amount are expressly conditioned upon the following:

a. Irrespective of any Notice of Obligation, Grantee's expenditures shall be made in accordance with the Project Budget, on or before the Reversion Date and/or, if applicable, any Early Termination Date; and
b. The total amount received by Grantee shall not exceed the lesser of:
    i. the Adjusted Appropriation Amount identified in Article I (B) herein; or
    ii. the total of all amounts stated in the Notice(s) of Obligation evidencing the Department has received and accepted Grantee's Third Party Obligation(s); and
c. Grantee's expenditures are made and accounted for pursuant to the State Procurement Code, State's Model Accounting Practices, and execution of binding written obligations or purchase orders with third-party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project ("**Third Party Obligations**"); and
d. Grantee's submittal of timely Requests for Payment and supporting documentation in accordance with the procedures set forth in this Agreement; and
e. In the event capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private entity, the sale, lease, license, or operating agreement:
    i. must be approved by the applicable oversight entity (if any) in accordance with §§ 13-6-2, 13-6-2.1, and 13-6-3; or
    ii. If no oversight entity is required to approve the transaction, the Department of Finance and Administration's Infrastructure Planning Development Division (IPDD) must approve it as complying with the law.

B. Prior to the sale, lease, license, or operating agreement being approved pursuant to Articles II(A)(e) (i) or (ii) herein, the Department may, in its sole and absolute discretion, unless inconsistent with State Board of Finance imposed conditions, reimburse Grantee for necessary expenditures incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, limited to planning and design expenditures; and

C. Grantee's submission of documentation of all Third Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement shall be governed by the following:

a. Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third Party Obligation, and request the Third Party to begin work after issuance of a Notice of Obligation by the Department.
b. Grantee acknowledges and agrees that any Third Party Obligations agreed to prior to receiving a Notice of Obligation are its sole responsibility.
c. Grantee shall submit to the Department one copy of all Third Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party but prior to execution by the Grantee.
d. Department may, in its sole and absolute discretion, issue a Notice of Obligation for the particular amount of a Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is incorporated herein and attached hereto as **Exhibit B.**

D. Grantee shall provide all necessary qualified personnel, materials, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

E. Prior to entering into this Agreement, the Department conducted a risk assessment on the Grantee and a project readiness review for the Project. In accordance with State Model Accounting Practices, FIN 9.2, if the Department determines that the expenditure of Project funds by the Grantee requires special conditions, those conditions are identified and listed in **Exhibit C**, which is attached and incorporated by reference. The Parties agree that, to the extent the Department, in its sole and absolute discretion, determines additional special conditions are necessary or that existing special conditions are no longer required, it may update **Exhibit C** from time to time without the need for a formal amendment of this Agreement.

F. Project funds shall not be used for purposes other than those authorized by the Department in accordance with the Project Description.

G. Project funds cannot be used to reimburse the Grantee for indirect Project costs unless specifically allowed by law.

III. NOTICES

The following provisions shall apply whenever written notices, including written decisions, are to be given or received related to this Agreement.

A. The Grantee designates the person(s) listed below, or their successor, as their official representative(s) concerning all matters related to this Agreement:

Grantee: City of Santa Fe
Name: Regina Wheeler
Title: Public Works Director
Address: P.O. Box 909, Santa Fe, New Mexico 87504
Email: rawheeler@santafenm.gov
Telephone:

B. The Grantee designates the person(s) listed below, or their successor, as their Fiscal Officer or Fiscal Agent concerning all matters related to this Agreement:

Grantee:
Name:
Title:
Address:
Email:
Telephone:

C. The Department designates the persons listed below, or their successors, as the Points of Contact for matters related to this Agreement.

Department: Department of Transportation, District 5 Office
Name: Amanda Nino
Title: Capital Outlay District Coordinator
Address: P.O. Box 4127, Santa Fe, NM 87502

Email: Amanda.Nino@dot.nm.gov
Telephone: 505-660-6357

The Parties agree that all notices, including written decisions, related to this Agreement shall be sent to the persons named above by email or regular mail. For mailings, notices shall be deemed to have been given and received upon the date of the receiving party's actual receipt or five (5) calendar days after mailing, whichever shall first occur. In the case of email transmissions, the notice shall be deemed to have been given and received on the date reflected on the delivery receipt of the email.

IV. TERM & DEADLINE TO EXPEND FUNDS

A. The term of this Agreement shall begin on the Effective Date and terminate on the 30th day of June during the calendar year of the **Reversion Date** unless Terminated Before Reversion Date ("**Early Termination**") pursuant to Article V herein (collectively "**Term**").

B. The Project's funds must be expended on or before the Reversion Date and, if applicable, the Early Termination Date of this Agreement.

   a. For purposes of this Agreement, it is not sufficient for the Grantee to encumber the Project funds on its books on or before the Reversion Date or Early Termination Date.
   b. For purposes of this Agreement, an expenditure of funds has occurred on the date the particular quantity of goods is delivered to and received by the Grantee, title to the goods is transferred to the Grantee, and/or as of the date particular services are rendered to and accepted by the Grantee.
   c. For purposes of this Agreement, an encumbrance of funds pursuant to a contract or purchase order with a third party does not qualify as an expenditure.

V. EARLY TERMINATION

A. General Provision. The Department may terminate this Agreement before the Reversion Date based on the Completion of the Project, Complete Expenditure of the Adjusted Appropriation, and/or Violation of this Agreement. Early Termination hereunder includes:

   a. Termination due to completion of the Project before the Reversion Date;
   b. Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date;
   c. Termination for violation of the terms of this Agreement; or
   d. Termination for suspected mishandling of public funds, including but not limited to fraud, waste, abuse, and conflicts of interest.

B. Non-appropriation. This Agreement is expressly contingent upon the New Mexico State Legislature making sufficient appropriations and authorizations for the Project Description.

   a. If the Legislature does not appropriate the Appropriation Amount, this Agreement shall terminate upon the Department giving the Grantee written notice of such termination. Such termination shall be effective as of the effective date of the law making the non-appropriation.
      i. The Department's decision as to whether sufficient appropriations or authorizations are available shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement.
   b. As used herein, "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature:

i. Deauthorization, reauthorization, or revocation of a prior authorization.

C. Grant Disbursements in the Event of Early Termination. In the event of Early Termination, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II above.

D. Notice. Either Party may terminate this Agreement prior to the Reversion Date by providing the other Party with a minimum of fifteen (15) days advance written notice of the Early Termination. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement by the Department.

VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. Department, in its sole and absolute discretion, may provide written notice to Grantee to suspend entering into further obligations. Upon the receipt of such written notice by the Grantee:

a. Grantee shall immediately suspend entering into new or further written obligations with third parties;
b. Department will suspend the issuance of any new or further Notice of Obligation under this Agreement; and
c. Department may direct the Grantee to implement a corrective action plan in accordance with Article VI (D) herein.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for a Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension. Where the Department, in its sole and absolute discretion, directs Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension.

a. Such a corrective action plan must be approved by the Department and be signed by the Grantee.
b. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(c).
c. A corrective action plan shall be in addition to, and not in lieu of, any other equitable or legal remedy authorized hereunder or at law, including but not limited to Early Termination.

VII. AMENDMENTS

Unless expressly stated otherwise herein, this Agreement shall not be altered, changed, or amended except by an instrument in writing duly executed by both parties hereto with the same formalities as this agreement.

VIII. REPORTING

A. Database Reporting

a. Grantee shall provide the Department with quarterly reports of Project activity, entering the required Project information directly into a database required by the Department.
b. Additionally, Grantee shall certify on each Request for Payment form, attached hereto as **Exhibit A** and incorporated herein, that all information provided in the database is true and accurate, updates to the database have been maintained, and all Project activity complies with applicable law and the terms of this Agreement.
c. Grantee hereby acknowledges that failure to perform and/or certify updates to the database will jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of fourteen (14) days' advance written notice of any changes to the information the Grantee is required to report.
d. At the Department's discretion, all reports required hereunder may be directed to and facilitated through an electronic database.
e. Quarterly reports shall be due on the last day of the month, that is, 30 days prior to the end of the quarter following the execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter.

B. Requests for Additional Information/Project Inspection

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:

i. request such additional information regarding the Project as it deems necessary; and
ii. conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.

Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

B. Requests for Additional Information/Project Inspection

a. During the term of this Agreement and the Record Retention Period, the Department may:
    i. Request additional information regarding the Project as it deems necessary and
    ii. Conduct on-site inspections of the Project at reasonable times and upon reasonable notice.
b. Grantee shall respond to such requests for additional information within the time established by the Department.

IX. REQUEST FOR PAYMENT PROCEDURES

A. Grantee shall request payment by submitting the form attached hereto as **Exhibit A.** Payment requests are subject to the following procedures:

a. Each Request for Payment must be in accordance with the Project Budget and contain proof of payment by the Grantee or liabilities incurred by the Grantee.
    i. Proof of payment must demonstrate the validity of an expenditure or liabilities incurred by Grantee.
    ii. However, Grantee may be reimbursed for unpaid liabilities only if the Department, in its sole and absolute discretion, agrees to do so and in accordance with any special conditions imposed by the Department.

iii. The Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or in a shorter period than the Department may prescribe in writing.
iv. The Department reserves the right to make such payments directly to the contractors or vendors as a special condition under this Agreement.
v. The Grantee is required to certify to the Department proof of payment to the third-party contractor or vendor within five (5) business days from the date the Department reimburses the Grantee.

B. Until the Project is fully planned, designed, and all necessary procurements identified in the Project Budget are completed, Grantee's reimbursements will be limited to the planning, design, and procurement costs outlined in the Project Budget. Once the planning, designing, and procuring stages are complete, the Grantee must obligate at least ten percent (10%) of the Adjusted Appropriation Amount within one (1) year and must have utilized at least eighty-five percent (85%) of the Adjusted Appropriation Amount six (6) months before the reversion date.

C. Deadlines. Grantee shall submit requests for Payments to the Department on the earlier of:

a. Immediately as Grantee receives them, but at a maximum of thirty (30) days from when Grantee incurred the expenditure or liability; or
b. Twenty (20) days from the date of Early Termination or Reversion Date for expenditures or liabilities incurred before the Early Termination date or Reversion Date.

D. Grantee's failure to abide by the requirements set forth in Article II and Article IX herein may result in the denial of its Request for Payment. Department reserves the right to reject a payment request for the Project unless and until it is satisfied that the expenditures or liabilities are for permissible purposes within the meaning of the Project Description, identified within the Project Budget, and that the Grantee is otherwise in compliance with this Agreement.

a. Department's authority to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department under this Agreement, at law, or in equity.

X. PROJECT CONDITIONS AND RESTRICTIONS

A. The following general conditions and restrictions shall apply to the Project:

a. The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the State Procurement Code.
b. The Project's expenditures and liabilities must be accounted for in accordance with the State's Model Accounting Practices, as amended from time to time.
c. The Project must be implemented in accordance with the New Mexico Public Works Minimum Wage Act, Section 13-4-10 through 13-4-17 NMSA 1978, as applicable.
d. The Project must provide a public benefit above and beyond any incidental benefit to private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico.
e. Without prior written approval from the Department and State Board of Finance, for the useful life of any asset purchased under this Agreement, Grantee shall not convert any property acquired, built, renovated, repaired, designed, or developed with Project funds to uses other than those specified in the Project Description.

i. In addition to other remedies available at law or in equity, any disposal or conversion of property acquired, built, renovated, repaired, designed, or developed with Project funds without the Department's and the Board of Finance's express written approval will trigger the Department's right to reimbursement from Grantee of the Appropriated Amount, transfer proceeds from any disposition of property to the State, or otherwise provide consideration to the State for the Appropriated Amounts.

f. Grantee shall comply with all applicable federal and state laws, rules, and regulations pertaining to civil rights and equal employment opportunity.
   i. In accordance with all such laws, rules, and regulations, the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age, or handicap, be excluded from participation in the Project, use of the Project, employment with Grantee, or otherwise be denied benefits/subject to discrimination for any activity performed under this Agreement.

g. Where the Department, in its sole and absolute discretion, determines Grantee has failed to comply with the above conditions and restriction, Grantee agrees to take appropriate steps to correct any deficiencies immediately. The Grantee's failure to implement such appropriate steps within a reasonable time, but no longer than thirty (30) days after notice from the Department, constitutes a breach of this Agreement and grounds for Early Termination.

XI. REPRESENTATIONS AND WARRANTIES

A. Reliance by Department.
   a. Grantee expressly acknowledges that the Department relies on the representations and warranties made by Grantee in this Agreement. Grantee acknowledges that such representations and warranties are a material inducement for the Department to enter into this Agreement and provide the Appropriated Amount.
   b. Grantee shall ensure all representations and warranties provided herein are true, accurate, and complete as of the date of the Effective Date and shall remain so throughout the Term of this Agreement. Grantee is responsible for promptly notifying the Department in writing of any changes or inaccuracies in the representations and warranties contained herein.

B. Grantee hereby represents and warrants the following:

   a. Grantee has taken all necessary steps to attain the legal authority to receive and expend the Project's funds.
   b. Grantee has duly authorized this Agreement, and the person executing it has authority to do so. Once executed by Grantee, this Agreement shall constitute a binding obligation of Grantee, enforceable according to its terms.
   c. Grantee's obligations hereunder do not conflict with any law, ordinance, or resolution applicable to Grantee, Grantee's charter (if applicable), or any judgment or decree to which Grantee is subject.
   d. Grantee has independently confirmed that the Project Description, including, but not limited to, the Appropriated Amount and Reversion Date, is consistent with the underlying appropriation in law.
   e. Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign and submit Requests for Payment on behalf of Grantee.
   f. Grantee will abide by New Mexico laws regarding conflicts of interest, governmental conduct, and whistleblower protection.
      i. Grantee agrees explicitly none of its officers or employees or its designees or agents, no member of the governing body, and no other public official of Grantee who exercises any

function or responsibility with respect to this Agreement, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for the Project.

ii. Further, Grantee will require all of its contractors to incorporate the language set forth in this paragraph prohibiting conflicts of interest in all subcontracts.

g. No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of the State, any agency, or body in connection with the awarding of any Third Party Obligation.

i. Grantee will require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans, and cooperative agreements.

C. Consequences of False or Misleading Representations. If any representation or warranty made by Grantee is found to be false or misleading, the Department shall have the right to exercise any or all of the following remedies:

a. **Termination of Agreement:** Department may terminate this Agreement immediately upon written notice to the Grantee.
b. **Repayment of Grant Funds:** Grantee shall repay all Appropriated Amounts disbursed under this Agreement, upon demand by the Department.
c. **Other Remedies:** Department may pursue any other remedies available at law or in equity.

D. Survival of Representations and Warranties. The representations and warranties made by the Grantee shall survive the Early Termination or expiration of this Agreement.

XII. PROJECT RECORDS

A. Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles and the State's Model Accounting Practices and, if feasible, maintain a separate bank account or fund with a separate organizational code to ensure separate budgeting and accounting of the funds.

B. For six (6) years following the Project's completion ("**Record Retention Period**"), Grantee shall maintain all Project-related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the Appropriated Amount from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department may prescribe.

C. Grantee shall make all Project records available to the Department, the Department's Independent Public Accountant, and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor or the Department finds any funds were improperly expended, Grantee shall be required to reimburse the State all amounts found to be improperly expended.

XIII. IMPROPERLY REIMBURSED FUNDS

If the Department determines part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, after ten (10) days' notice to Grantee and the opportunity to return such funds to the Department, the Department may offset any funds due to Grantee from the State, until the Appropriation Amount is fully repaid.

XIV. LIABILITY

Neither Party shall be responsible for liability incurred as a result of the other Party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

XV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Parties concerning the subject matter hereof. The Agreement supersedes all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

XVI. REQUIRED NON-APPROPRIATIONS CLAUSE

A. Grantee acknowledges and agrees to include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

   a. "The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of the State of New Mexico ("**Legislature**") for the performance of this Agreement.
   b. If the Legislature does not make sufficient appropriations and authorization, [Grantee's name] may immediately terminate this Agreement by giving Contractor written notice of such termination.
   c. [Grantee's name]'s decision as to whether sufficient appropriations are available shall be final and accepted by the Contractor. Contractor hereby waives any rights to assert an impairment of contract claim against the [Grantee's name] or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the [Grantee's name] or the State Department of Finance and Administration."

XVII. REQUIRED TERMINATION CLAUSE

A. Grantee acknowledges and agrees to include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

   a. "This contract is funded in whole or in part by funds made available by the State of New Mexico ("**State**"). Should the State terminate its Agreement with [Grantee's name], [Grantee's name] may terminate this contract immediately by providing Contractor written notice of such termination.
   b. In the event of termination pursuant to this paragraph, [Grantee's name] only liability to Contractor shall be for goods and services delivered and accepted prior to the termination date."

XVIII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA

A. Throughout the term of this Agreement, Grantee shall:

   a. Submit all reports of annual audits and agreed-upon procedures required by § 12-6-3(A)-(B), NMSA 1978 by the due dates established in § 2.2.2 NMAC, reports of which must be a public record pursuant to § 12-6-5(A), NMSA 1978 within forty-five (45) days of delivery to the State Auditor;

b. Have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);
c. Timely submit all required financial reports to its budgetary oversight agency (if any); and
d. Use accounting methods and procedures consistent with Generally Accepted Accounting Principles and the State's Model Accounting Principals to expend the Appropriated Amount in accordance with applicable law and account for and safeguard Project funds and assets acquired with Project funds.

B. In the event Grantee fails to comply with the requirements of subparagraph A of this Article XVIII, Department may take one or more of the following actions:

a. Suspend new or further obligations pursuant to Article VI(A) of this Agreement;
b. Require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;
c. Impose special conditions to address the non-compliance by giving Grantee notice of such special conditions in accordance with Article III of this Agreement;
    i. The Parties agree that any special conditions imposed to address non-compliance shall be incorporated into this Agreement, through **Exhibit C**, upon notice to Grantee, without need for formal amendment of this Agreement;
    ii. Special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III or
d. Terminate this Agreement pursuant to Article V(A) of this Agreement.

XIX. SEVERANCE TAX AND GENERAL OBLIGATION BONDS

A. Grantee acknowledges and agrees that the underlying appropriation for the Project may originate from the issuance of tax-exempt severance tax bonds or general obligation bonds by the State. Proceeds from such bonds are administered by the New Mexico State Board of Finance ("**SBOF**"), an entity separate and distinct from the Department.

a. Grantee acknowledges and agrees:
    i. It is Grantee's responsibility to determine through SBOF what (if any) conditions are currently imposed on the Project;
    ii. Department's failure to inform Grantee of an SBOF-imposed condition does not affect the validity or enforceability of the condition;
    iii. The SBOF may in the future impose further or different conditions upon the Project;
    iv. All SBOF conditions are attached to the Project and Appropriation Amount without the need for formal amendment of this Agreement;
    v. All applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s) and
    vi. The Department's obligation to reimburse Grantee from the Project is expressly contingent upon the satisfaction of the then-current SBOF conditions.

B. Grantee acknowledges and agrees SBOF may, at its sole and absolute discretion, require reimbursement or remove eligibility for bond proceeds for the Project if the Project doesn't proceed sufficiently.

a. Grantee must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by Grantee in the Bond Questionnaire and Certification documents submitted to the SBOF.

b. Failure to comply may result in the reassignment of the bond proceeds. Upon reassignment of bond proceeds, this Agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, § 2.61.6, NMAC, as may be amended from time to time or re-codified.

XX. GENERAL PROVISIONS

A. Assignment: Grantee's rights and obligations under this Agreement are personal and may not be transferred or assigned without the prior written consent of the State. Any attempt at assignment or transfer without such consent shall be void. Any assignment or transfer of Grantee's rights and obligations approved by the State shall be subject to the provisions of this Agreement.

B. Subcontractors: Grantee shall not enter any subgrant or subcontract in connection with its obligations under this Agreement without the prior written approval of the State. Upon request, Grantee shall submit to the Department a copy of each such subgrant or subcontract.

C. Binding Effect: Except as otherwise provided, all provisions of this Agreement, including the benefits and burdens, shall extend to and be binding upon the Parties' respective successors and assigns.

D. Authority: Each Party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such Party's obligations have been duly authorized.

E. Captions and References: The captions and headings in this Agreement are for the convenience of reference only and shall not be used to interpret, define, or limit its provisions. All references in this Agreement to sections (whether spelled out or using the § symbol), subsections, exhibits, or other attachments are references to sections, subsections, exhibits, or other attachments contained herein or incorporated as a part hereof, unless otherwise noted.

F. Counterparts: This Agreement may be executed in multiple, identical, original counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute the same agreement.

G. Digital Signatures: If any signatory signs this agreement using a digital signature in accordance with the State Policies regarding the use of digital signatures, then any agreement or consent to use digital signatures within the electronic system through which that signatory signed shall be incorporated into this Agreement by reference.

H. Modification: Except as otherwise provided in this Agreement, any modification to this Agreement shall only be effective if agreed to in a formal amendment, properly executed and approved in accordance with applicable New Mexico law and State fiscal policies and rules. Modifications permitted under this Agreement, other than Agreement amendments, shall conform to the policies issued by the State.

I. Statutes, Regulations, Fiscal Rules, and Other Authority: Any reference in this Agreement to a statute, regulation, policy, or other authority shall be interpreted to refer to such authority then current, as may have been changed or amended after the Effective Date of this Agreement.

J. External Terms and Conditions: Notwithstanding anything to the contrary herein, the State shall not be subject to any provision included in any terms, conditions, or agreements appearing on Grantee's or a subcontractor's website or any provision incorporated into any click-through or online agreements related to the Work unless that provision is specifically referenced in this Agreement.

K. Severability: The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and

effect, provided that the Parties can continue to perform their obligations under this Agreement in accordance with its intent.

L. Survival of Certain Agreement Terms: Any provision of this Agreement that imposes an obligation on a Party after the termination or expiration of this Agreement shall survive the termination or expiration of this Agreement and shall be enforceable by the other Party.

M. Third Party Beneficiaries: Except for the Parties' respective successors and assigns described in this Agreement, it does not and is not intended to confer any rights or remedies upon any person or entity other than the Parties. Enforcement of this Agreement and all rights and obligations hereunder are reserved solely to the Parties. Any services or benefits that third parties receive as a result of this Agreement are incidental to this Agreement and do not create any rights for such third parties.

N. Waiver: A Party's failure or delay in exercising any right, power, or privilege under this Agreement, whether explicit or by lack of enforcement, shall not operate as a waiver, nor shall any single or partial exercise of any right, power, or privilege preclude any other or further exercise of such right, power, or privilege.

O. Standard and Manner of Performance: Grantee shall perform its obligations under this Agreement in accordance with the highest standards of care, skill, and diligence in Grantee's industry, trade, or profession.

P. Licenses, Permits, and Other Authorizations: Grantee shall secure, prior to the Effective Date, and maintain at all times during the term of this Agreement, at its sole expense, all licenses, certifications, permits, and other authorizations required to perform its obligations under this Agreement and shall ensure that all employees, agents, and subcontractors secure and maintain at all times during the term of their employment, agency or subcontractor, all license, certifications, permits and other authorizations required to perform their obligations in relation to this Agreement.

Q. Publicity: Any Publicity regarding the subject matter of this Agreement may not be released without prior written approval from the Department. For purposes of this agreement, "**Publicity**" means notices, informational pamphlets, press releases, email responses, research, reports, signs, and similar public notices prepared by or for the Grantee or jointly with others.

   a. Grantee shall obtain written approval prior to issuing any press release or making any public announcement regarding this agreement. Grantee agrees to obtain approval of the Department in advance with respect to all Public Relations, all communications with media, or all communications with any other member of the public with respect to this agreement, except to acknowledge that an agreement does exist.
   b. For purposes of this agreement, "Public Relations" includes community relations and means those activities dedicated to maintaining the Department's image or maintaining or promoting understanding and favorable relations with the community or public at large or any segment of the public.
   c. Violations of either Article XX (Q)(a) or (b) shall constitute a material Breach of Agreement.

R. Data Sharing: The State intends to secure and collate specific data generated by Grantee under this Agreement to use in support of the State's organizational, policy-making, and management of public resource functions. State, in accordance with **Exhibit E**, attached hereto and incorporated herein by reference, reserves the right to require Grantee and/or its subcontractors to provide specific data relevant to the above-listed functions. Data provided by Grantee may be incorporated into existing or future

developed State integrated analysis tools or databases, including but not limited to geographic information system (GIS) networks and databases accessible by the public. Dissemination of data collected may include historical data and projections based on such historical data.

a. To the extent any data transferred as part of this Agreement is legally determined to be the property of Subrecipient or its subcontractors, Subrecipient and/or its subcontractors grants State a nonexclusive, fully paid-up right and license to reproduce, use, distribute, do derivative works based on, and archive data transferred as part of this Agreement.

S. Venue and Choice of Law: This Agreement shall be governed by and construed in accordance with the laws of the State of New Mexico, without regard to any conflict of law provisions. Any legal suit, action, or proceeding arising out of or related to this Agreement shall be instituted exclusively in the district courts located in Santa Fe, New Mexico. The Parties hereby irrevocably submit to the exclusive jurisdiction and venue of such courts in any such suit, action, or proceeding. The Parties waive any objection to the laying of the venue of any such suit, action, or proceeding in the district courts of Santa Fe, New Mexico, and irrevocably waive and agree not to plead or claim in any such court that any such suit, action, or proceeding brought in any such court has been brought in an inconvenient forum.

Data Sharing Provisions for New Mexico Capital Outlay Agreements

I. Introduction:

This Data Sharing Provisions Exhibit ("Exhibit") is incorporated into the New Mexico Capital Outlay Agreements ("Agreements") between the State of New Mexico ("State") and [Insert Partner Name] ("Partner"). This Exhibit outlines the terms and conditions under which data will be shared between the Parties to ensure compliance with New Mexico state laws and regulations, focusing on data privacy, security, and compliance.

II. Definitions:

a. Authorized User: An employee, agent, assign, representative, independent contractor, or other person or entity authorized by Partner or State to access, use, or disclose information through this exhibit.

b. Confidential Information: All data or information shared in confidence, with the expectation that it will not be disclosed in an identifiable form. This includes data that is exempt from public disclosure under the New Mexico Inspection of Public Records Act (§ 14-2-1 et seq. NMSA 1978) or other relevant laws.

c. Data Storage: Electronic media that hold recorded information.

d. Data Transmission: The process of moving information over a network from its source to one or more destinations.

e. Direct Identifier: Records or data containing personal identifiers such as names, addresses, and social security numbers.

f. Disclosure: Permission to access, release, transfer, or otherwise communicate confidential information by any means to any third party, except as authorized by the Party that controls the record.

g. Encryption involves using algorithms to encode data, rendering it unreadable without a specific key. It may be necessary during data transmission and/or storage.

h. Information: Any data, figures, statistics, or other facts provided or learned about someone or something, including Confidential Information, that may be legally transmitted under this Exhibit.

i. Limited Dataset: A data file that omits Direct Identifiers.

j. Protected Personally Identifiable Information: Sensitive personal details such as social security numbers and financial account numbers, with specific exclusions as outlined in the Agreements.

III. Purpose:

The purpose of this exhibit is to promote transparency, facilitate information sharing between the parties, support better policy and decision-making, and enhance public services through collaborative data analysis from various sources.

IV. Use of Information:

a. Use of Information obtained or created under this exhibit shall be strictly limited to the purposes stated herein and in the agreements. The parties agree not to sell Information to third parties or use it for commercial, solicitation, or political purposes.

b. Each Party shall serve as the custodian of the Information and comply with all conditions for its use, including security measures to prevent unauthorized access.

c. The Parties shall follow all relevant federal and state laws and regulations governing the use of such Information.

V. Safeguarding Information:

a. Confidentiality: Access to Confidential Information shall be limited to the minimum necessary to accomplish the purposes of this Exhibit. Authorized Users must adhere to the confidentiality requirements.

b. Security: Security practices shall comply with the requirements of the New Mexico Department of Information Technology Act and related regulations. The Parties agree to notify each other within three business days of any suspected or actual security breach.

c. Information Storage and Transmission: Data Storage and Transmission shall take place on an encrypted server with appropriate security controls.

VI. Re-Disclosure of Information:

The Parties agree not to disclose Information except as required by law or with prior written approval of the other Party. If there is a public records request, the Party receiving it shall notify the other Party within three business days.

VII. Ownership of Information:

Legal title to Information shall remain with the provider. The Partner grants the State a royalty-free, non-exclusive, non-transferable license to use the Information in furtherance of the purposes outlined in this Exhibit.

EXHIBIT F
NM DEPARTMENT OF TRANSPORTATION PROVISIONS

The City of Santa Fe shall agree to comply with the following Provisions:

1. Assume the lead role for the Project.
2. Be responsible for all applicable design, environmental and archaeological clearances, and right-of-way acquisition, in accordance with current local, state, federal laws, Uniform Relocation Act, and current design practices and specifications.
3. Be responsible for project development, project construction, construction management, and testing.
4. Utilize the Project Control Number in all correspondence and submittals to the Department.
5. Adopt a written resolution of support for the Project, including as applicable an assumption of ownership, liability, and maintenance responsibility for the scope, or related amenities and required funding to support the Project.
6. Complete the Project using current American Public Works Association (APWA) specifications, implemented Grantee's design standards and specifications, or Department specifications.
7. Use Rental Rate Blue Book rates, if not provided in the Department established equipment rates, in the implementation of this Project. Any equipment rates not found in the Department established rates shall be reimbursed at the Blue Book rates.

The City of Santa Fe shall agree to comply with the following Lighting and Signal Provisions as applicable:

1. After subject signal system(s) has/have been constructed, make provisions for and provide, at its own expense, all electrical energy, routine maintenance such as lamp replacement, emergency shutdown in case of accidental damage or equipment failure and make any repairs necessary due to accidental damage to, or equipment failure of, the signal head and poles.
2. In the event that accidental damage or equipment failure should occur, provide for equipment shut down/or emergency traffic control as needed. In addition, should the accidental damage or equipment failure involve the Controller (and cabinet) or the loop detection system, promptly notify the Traffic Technical Support Bureau of the Department.
3. In the event that the traffic signal should be rendered completely inoperable as a result of accidental damage, secure the intersection with stop signs at all approach legs until such time as the traffic signal is made operable.
4. Make ample future provisions in its budget each year for the cost of maintaining and providing energy to the traffic signals and telephone service to the signal system and intersection lighting.
5. At its own expense, maintain the signal controller and control equipment (the "Controller") including and maintenance of the machine vision vehicle detection system with cameras and emergency vehicle pre-empt system and repair or replace the Controller in the event the Controller and/or cabinet is damaged or there is an equipment failure.
6. After the installation of the roadway lighting system, if any, provide any and all utilities, maintenance, and such other items as may be necessary of continued satisfactory operation of said subject lighting system.
7. Make all timing adjustments to the Signal Control equipment and review the Signal System(s) for efficient and satisfactory operation.
8. Obtain approval from the Department for all signal equipment prior to installation.
9. Require the construction contractor to name the Department and the Grantee as an additional insured in the construction contractor's general liability policy.
10. Enter into a Signalization and Lighting Agreement with the Department's Traffic Technical Support Bureau as required.

The Purchasing Memo

Date: December 2, 2025

To: Governing Body, Finance Committee, and Quality of Life Committee

Via: Elisa Montoya Community Development Director ELISA D. MONTOYA (Dec 2, 2025 12:48:51 MST)

From: Faviola Chavez Affordable Housing Director Faviola A. Chavez (Dec 2, 2025 12:47:12 MST)

Subject: Affordable Housing Trust Fund (AHTF) Program Year 2025 - FY26

Vendor Name: Homewise

Munis Vendor Number: 2481

ITEM AND ISSUE:

The Office of Affordable Housing respectfully requests your review and approval of this Affordable Housing Trust Fund contract in the total amount of $1,500,000 for the construction of spine infrastructure for 1,500 owner-occupied homeownership units in Phase 3A of Tierra Contenta. These units will be priced below the median price for a home and 40% of the homes will meet the affordability standards of the City of Santa Fe for low and moderate-income households. The spine infrastructure includes the construction of a main thoroughfare and two community loop roads, water, sewer, and stormwater infrastructure, electric and dry utilities, and streetlighting.

CONTRACT NUMBER:

The FY26 Munis contract number is 3260265.

BACKGROUND AND SUMMARY:

Affordable Housing Trust Funds (AHTF) are generated from development activity (developer fees, pre-inclusionary housing agreements), payoffs of City-held liens, and land sales. In recent years, the Governing Body has committed $3,000,000 annually to the trust fund to respond to the urgent housing needs in Santa Fe. These funds are used for affordable housing projects and activities to benefit income-qualified households. Eligible housing activities are outlined in SFCC Chapter 26-3. Uses of funds are determined by the housing needs identified in the City's Five-Year Strategic Housing Plan and regulated by the NM Mortgage Finance Authority for compliance with the NM Affordable Housing Act. AHTF is used only for affordable housing, whether for capital costs or direct financial assistance to income qualified beneficiaries. Because AHTF funds are local revenue, criteria for how they are used can be more localized to better meet Santa Fe's unique needs.

The City of Santa Fe and the Office of Affordable Housing issued a Request for Proposals on July 10, 2025, Amendment 1 released on July 25, 2025, and Amendment 2 released on August 1,2025, to solicit proposals focused on supporting eligible costs associated with the acquisition, development, construction, renovation, conversion, financing, operation, or ownership of affordable housing—or related supporting infrastructure.

Funding is available to developers and sponsors of affordable housing, including partnerships, corporations, limited liability companies, joint ventures, public/private partnerships and non-profit organizations that are organized under state, local, or tribal laws and can provide proof of such organization. Eligible applicants must have proven financial capacity and organizational experience to carry out the activities described in the proposal submitted to receive an AHTF allocation.

An estimated balance of $3,675,000 in the AHTF is available. Applications were reviewed and funding recommendations were made by the City's Community Development Commission (CDC) at the CDC meetings on August 20, 2025, and on November 19, 2025. The following criteria was evaluated by the CDC to make funding recommendations:

Tier 1

No.	Rating Criteria	Point Values
1	Team Qualifications & Past Relevant Projects	20
2	Clarity, Logic, and Execution Strategy	20
3	Affordability Duration	10
4	Leverage	10
5	Investment Impact	15
6	Readiness & Feasibility	15
7	Resident Well-Being	10
4	Local Preference	3% or 6% of the total available points

Tier 2

No.	Rating Criteria	Point Values
1	Program Alignment	20
2	Organizational Capacity	20
3	Outcomes & Measurability	15
4	Equity & Accessibility	15
5	Investment Impact	10
6	Readiness to Proceed	10
7	Use of Funds	10
4	Local Preference	3% or 6% of the total available points*

Twelve applications were submitted for the AHTF funds. Twelve AHTF applications were deemed responsive and eligible for funding. Because the funding requests for AHTF far exceeded what was available, funding amounts were determined based on a variety of factors related to priority needs identified in the Five-Year Affordable Housing Strategic Plan. The Table below details all of the Community Development Commission's recommendations:

Applications Received			Awarded Projects		
Tier 2	St. Elizabeth	$ 250,000	Tier 2	St. Elizabeth	$ -
Tier 2	Life Link	$ 250,000	Tier 2	Life Link	$ -
Tier 1	SF Housing Authority	$ 2,000,000	Tier 1	SF Housing Authority	$ -
Tier 2	Youthworks	$ 225,000	Tier 2	Youthworks	$ -
Tier 2	SF Recovery	$ 106,580	Tier 2	SF Recovery	$ -
Tier 1	TWG Development 4%	$ 1,245,500	Tier 1	TWG Development 4%	$ 935,000.00
Tier 1	TWG Development 9%	$ 676,251	Tier 1	TWG Development 9%	$ 565,000.00
Tier 1	Interfaith - withdrew	Withdrawn	Tier 1	Interfaith - withdrew	$ -

CITY OF SANTA FE

PROFESSIONAL SERVICES CONTRACT

GB-Homewise-RFP26006

THIS CONTRACT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and Homewise, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

RECITALS

WHEREAS, the Chief Procurement Officer of the City has made the determination that this Contract is in accordance with the provisions of the New Mexico Procurement Code (NMSA 1978, 13-1-28 et seq.) pursuant to NMSA 1978, section 13-1-NMSA 1978, Section 13-1-111, RFP; and

WHEREAS, the Contractor is one of such requisite and qualifications and is willing to engage with the City for professional services, in accordance with the terms and conditions hereinafter set out, and the Contractor understanding and consenting to the foregoing is willing to render such professional services as outlined in the Contract; and

The City and the Contractor hereby agree as follows:

1. SCOPE OF WORK

Contractor shall utilize Affordable Housing Trust Funds ("AHTF") to provide the following affordable housing project for the City:

A. $1,500,000.00, excluding GRT for the construction of spine infrastructure, to support the home construction of 1,500 owner-occupied homeownership units in Phase 3A of Tierra Contenta. These units will be priced below the median price for a home and 40% will meet the affordability standards of the City of Santa Fe for low and moderate-income households.

B. The spine infrastructure includes the construction of a main thoroughfare and two community loop roads, water, sewer, and stormwater infrastructure, electric and dry utilities, and streetlighting.

Homewise will act as a project manager and will issue an RFP to select the subcontractor for the construction of the spine infrastructure.

C. Contractor will report to the City on a quarterly basis the use of funds. Contractor will provide accurate and thorough recordkeeping copies on file for monitoring to include through documentation regarding the use of funds. regarding the use of this funding for the construction of spine infrastructure.

2. STANDARD OF PERFORMANCE; LICENSES

A. The Contractor does hereby accept its designation as a professional service, rendering services related to GB-Homewise-RFP26006 for the City, as set forth in this Contract. The Contractor represents that Contractor possesses the personnel, experience, and knowledge necessary to perform the services described under this Contract.

B. The Contractor agrees to obtain and maintain throughout the term of this Contract, all applicable professional and business licenses required by law, for itself, its employees, agents, representatives, and subcontractors.

3. COMPENSATION

A. Payment. The City shall compensate the Contractor in full payment for services satisfactorily performed in the scope of work, $1,500,000. .The total compensation for the contract including GRT is $1,500,000.

B. The compensation represents a maximum amount. The Contractor must notify the City when the Services provided under this Contract approach 90% of compensation total. Services rendered beyond the maximum compensation amount will not be reimbursed unless the Contract is amended in writing prior to the provision of such services.

C. Invoicing and Payment Terms Payment will be made upon the City's acceptance of deliverables and receipt of a detailed, certified invoice from the Contractor. Payments will be sent to the Contractor's designated address. The City shall issue payment in accordance with the timelines required by law. Invoices must be submitted no later than fifteen (15) days after the Contract's termination. Late invoices will not be processed or paid.

D. Extended Payment Terms for Grant-Funded Contracts. For grant-funded agreements, the City may issue payment within forty-five (45) days following submission of an undisputed payment request.

4. TERM

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Contract shall terminate one **(1) year from date of final signature** unless terminated pursuant to paragraph Termination and paragraph Appropriations. A contract for professional services may not exceed four years, including all extensions and renewals, except as otherwise provided by NMSA 1978, Sections 13-1-150 through 13-1-152 or SFCC 1987, Section 11-13.

5. TERMINATION

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice; City Opportunity to Cure.

1. The City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph "Appropriations", of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

6. APPROPRIATIONS

The terms of this Contract are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

7. STATUS OF CONTRACTOR

The Contractor and its agents and employees are independent contractors performing professional services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

8. ASSIGNMENT

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

9. SUBCONTRACTING

No subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

10. RELEASE

Final payment of the amounts due under this Contract shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Contract.

11. CONFIDENTIALITY

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

12. PRODUCT OF SERVICE - COPYRIGHT

All materials developed or acquired by the Contractor under this Contract shall become the property of the City and shall be delivered to the City no later than the termination date of this Contract. Nothing developed or produced, in whole or in part, by the Contractor under this Contract shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

13. CONFLICT OF INTEREST; GOVERNMENTAL CONDUCT ACT

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Chapter 10, Article 16.

C. Contractor's representations and warranties in Paragraphs A and B of this Article are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of

this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

14. AMENDMENT

A. This Contract shall not be altered, changed, or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in "Term" herein, or to agree to the reduced funding.

15. ENTIRE AGREEMENT

This Contract, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Contract, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. In the event of any inconsistency between the statements in the body of this Contract, and the related Exhibits and Schedules, the statements in the body of this Contract shall control.

16. MERGER

This Contract incorporates all the Contracts, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

All terms and conditions of the **26006 - GB-Homewise-RFP26006** and the Contractor's response to such document(s) are incorporated herein by reference and is included in the order of precedence.

No prior Contract or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

17. PENALTIES FOR VIOLATION OF LAW

NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities, and kickbacks.

18. EQUAL OPPORTUNITY COMPLIANCE

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the

Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

19. APPLICABLE LAW

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

20. WORKERS' COMPENSATION

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

21. PROFESSIONAL LIABILITY INSURANCE

Contractor shall maintain professional liability insurance throughout the term of this Contract providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Contract.

22. OTHER INSURANCE

The Contractor shall furnish the City with proof of any other required insurance and of Contractor’s compliance with the provisions of this section as a condition prior to performing services under this Contract.

22.1. COMMERCIAL GENERAL LIABILITY

Insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

22.2. BROADER COVERAGE AND LIMITS

The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

23. RECORDS AND FINANCIAL AUDIT

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

24. INDEMNIFICATION

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Contract. If any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

25. NEW MEXICO TORT CLAIMS ACT

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et. seq., as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

26. INVALID TERM OR CONDITION

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

27. ENFORCEMENT OF CONTRACT

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

28. NOTICES

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the City: Chief Procurement Officer purchasing@santafenm.gov PO Box 909 Santa Fe, NM 87504-0909	Affordable Housing Project Administrator 123 E Marcy Street, Ste 205 Santa Fe, NM 87501 rlcatanach@santafenm.gov (505) 955-6421	**To the Contractor:** Homewise 1301 Siler Road Santa Fe, NM 87501 Jgilligan@homewise.org 5059839473

29. AUTHORITY

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter a binding contract.

30. NON-COLLUSION

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City's Chief Procurement Officer.

31. DEFAULT/BREACH

In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages, and the City may also seek all other remedies under the terms of this Contract and under law or equity.

32. EQUITABLE REMEDIES

The Contractor acknowledges that its failure to comply with any provision of this Contract will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Contract shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

33. DEFAULT AND FORCE MAJEURE

The City reserves the right to cancel all, or any part of any orders placed under this Contract without cost to the City, if the Contractor fails to meet the provisions of this Contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery

scheduled. The rights and remedies of the City provided in this Clause shall not be exclusive and are in addition to any other rights now being provided by law or under this Contract.

IN WITNESS WHEREOF, the Parties have executed this Contract as of the date of the signature by the required approval authorities below.

POLLUTION COVERAGE FOR UPSET OF MOBILE EQUIPMENT
REASONABLE FORCE EXPANSION - PROPERTY DAMAGE
SUPPLEMENTARY PAYMENTS - HIGHER LIMITS
VOLUNTARY PROPERTY DAMAGE
WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US
ADDITIONAL COMMERCIAL GENERAL LIABILITY CONDITIONS
LOST KEY COVERAGE

A. Additional Insured - Owners, Lessees, or Contractors - Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II** - Who Is An Insured is amended to include as an additional insured any person or organization for whom you are performing operations when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy and any other person or organization you are required to add as an additional insured under the contract or agreement. Such person or organization is an additional insured only with respect to liability for "bodily injury," "property damage" or "personal and advertising injury" caused, in whole or in part, by:

a. Your acts or omissions; or

b. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured.

Except as provided for in the exception to **2.b.** below, a person's or organization's status as an additional insured under this endorsement ends when your operations for that additional insured are completed.

However, the insurance afforded to such additional insured described above:

a. only applies to the extent permitted by law; and

b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

2. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to:

a. "Bodily injury," "property damage" or "personal and advertising injury" arising out of the rendering of, or the failure to render, any professional architectural, engineering or surveying services, including:

1) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

2) Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of, or failure to render, any professional architectural, engineering or surveying services.

b. "Bodily injury" or "property damage" occurring after:

1) All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or

2) That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

However, exclusion **b.** does not apply when in conflict with the requirements of a written contract or agreement.

3. The most we will pay on behalf of the additional insured is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

B. Additional Insured - Managers or Lessors of Premises - Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II** - Who Is An Insured is amended to include as an insured any person or organization when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy, but only with respect to liability arising out of the ownership, maintenance or use of that part of the premises leased to you and subject to the following additional exclusions:

This insurance does not apply to:

a. Any "occurrence" which takes place after you cease to be a tenant in that premises.

b. Structural alterations, new construction or demolition operations performed by or on behalf of the additional insured.

However, the insurance afforded to such additional insured described above:

a. only applies to the extent permitted by law; and

b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

2. The most we will pay on behalf of the additional insured is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

C. Additional Insured – Lessor of Leased Equipment – Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II –** Who Is An Insured is amended to include as an additional insured any person or organization from whom you lease equipment when you and such a person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy. Such person or organization is an insured only with respect to liability for "bodily injury," "property damage" or "personal and advertising injury" caused, in whole or in part, by your maintenance, operation or use of equipment leased to you by such person or organization.

However, the insurance afforded to such additional insured described above:

a. only applies to the extent permitted by law; and

b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

A person's or organization's status as an additional insured under this endorsement ends when their contract or agreement with you for such leased equipment ends.

2. With respect to the insurance afforded to these additional insureds, this insurance does not apply to any "occurrence" which takes place after the equipment lease expires.

3. The most we will pay on behalf of the additional insured is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

D. Additional Insured - Vendors - Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II** - Who Is An Insured is amended to include as an insured any person or organization (referred to below as vendor) when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy, but only with respect to "bodily injury" or "property damage" arising out of "your products" shown in the Schedule, Declarations or Change Endorsement which are distributed or sold in the regular course of the vendor's business.

However, the insurance afforded to such additional insured described above:

a. only applies to the extent permitted by law; and

b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

2. With respect to the insurance afforded to these vendors, the following additional exclusions apply:

a. "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;

b. An express warranty unauthorized by you;

c. Any physical or chemical change in the product made intentionally by the vendor;

d. Repackaging, except when unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;

e. Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;

f. Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product;

g. Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or

h. "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:

1) The exceptions contained in Sub-paragraphs **d.** or **f.**; or

2) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.

3. This insurance does not apply to any insured person or organization, from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.

4. The most we will pay on behalf of the vendor is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

E. Aggregate Limits Of Insurance (not applicable to Employee Benefits Liability Coverage)

The General Aggregate Limit under SECTION III - LIMITS OF INSURANCE, Paragraph **2**. applies separately to each of your "location(s)" owned by or rented to you or "project(s)" away from "location(s)" owned by or rented to you.

"Location" and/or "project" means premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway or right-of-way of a railroad.

F. Employee Benefits Liability Coverage

The following is added to SECTION I - COVERAGES:

EMPLOYEE BENEFITS LIABILITY COVERAGE

1. Insuring Agreement

a. We will pay those sums that the insured becomes legally obligated to pay as damages because of any act, error or omission of the insured, or of any other person for whose acts the insured is legally liable, to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages to which this insurance does not apply. We may, at our discretion, investigate any report of an act, error or omission and settle any "claim" or "suit" that may result. But:

1) The amount we will pay for damages is limited as described in SECTION **III** LIMITS OF INSURANCE for Employee Benefits Liability Coverage and

2) Our right and duty to defend end when we have used up the applicable limit of insurance in the payment of judgments or settlements.

No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments.

b. This insurance applies to damages only if:

1) The act, error or omission is negligently committed in the "administration" of your "employee benefit program";

2) The act, error or omission is caused by an "occurrence" that takes place in the "coverage territory"; and

3) The act, error or omission occurs during the policy period.

2. Exclusions

This insurance does not apply to:

a. Dishonesty, Fraud Or Criminal Act

Damages arising out of any dishonest, fraudulent, criminal or malicious act or omission, committed by any insured, including the willful or reckless violation of any statute.

b. Bodily Injury, Property Damage, Or Personal And Advertising Injury

"Bodily injury," "property damage" or "personal and advertising injury."

c. Failure To Perform A Contract

Damages arising out of failure of performance of contract by any insurer.

d. Insufficiency Of Funds

Damages arising out of an insufficiency of funds to meet any obligations under any plan included in the "employee benefit program."

e. Inadequacy Of Performance Of Investment/Advice Given To Participate

Any "claim" or "suit" based upon:

1) Failure of any investment to perform;

2) Errors in providing information on past performance of investment vehicles; or

3) Advice given to any person to participate or not to participate in any plan included in the "employee benefit program."

f. Workers Compensation And Similar Laws

Damages arising out of any "claim" related to any workers compensation, unemployment compensation insurance, social security or disability benefits law or any similar law.

g. ERISA

Damages for which the insured is liable because of liability imposed on a fiduciary by the Employee Retirement Income Security Act of 1974, as now or hereafter amended, or any similar federal, state or local laws.

h. Available Benefits

Any "claim" for benefits to the extent that such benefits are available, with reasonable effort and cooperation of the insured, from the applicable funds accrued or other collectible insurance.

i. Taxes, Fines Or Penalties

1) Taxes, fines or penalties, including those imposed under the Internal Revenue Code or any similar state or local law; or

2) Loss or damages arising out of the imposition of such taxes, fines or penalties.

j. Employment-Related Practices

Damages arising out of wrongful termination of employment, discrimination, or other employment-related practices.

3. Supplementary Payments - Coverages A and B

For the purposes of the coverage provided by Employee Benefits Liability Coverage, the SUPPLEMENTARY PAYMENTS - COVERAGES **A** AND **B** apply except for Paragraphs **1.b.** and **2.**

SECTION II - WHO IS AN INSURED, Paragraphs **2.** and **3.** are replaced by the following for Employee Benefits Liability Coverage:

2. Each of the following is also an insured:

a. Each of your "employees" who is or was authorized to administer your "employee benefit program."

b. Any persons, organizations or "employees" having proper temporary authorization to administer your "employee benefit program" if you die, but only until your legal representative is appointed.

c. Your legal representative if you die, but only with respect to duties as such. That representative will have all your rights and duties under this Endorsement.

3. Any organization you newly acquire or form, other than a partnership, joint venture or limited liability company, and over which you maintain ownership or majority interest, will qualify as a Named Insured if there is no other similar insurance available to that organization. However:

a. Coverage under this provision is afforded only until the 180th day after you acquire or form the organization or the end of the policy period, whichever is earlier.

b. Coverage under this provision does not apply to any act, error or omission that occurred before you acquired or formed the organization.

SECTION III - LIMITS OF INSURANCE is replaced by the following for the Employee Benefits Liability Coverage:

1) The Limits of Insurance shown below and the rules below fix the most we will pay regardless of the number of:

a) Insureds;

b) "Claims" made or "suits" brought;

c) Persons or organizations making "claims" or bringing "suits";

d) Acts, error or omissions which result in loss; or

e) Benefits included in your "employee benefit program."

2) **$2,000,000** is the most we will pay for all damages because of acts, errors or omissions committed in the "administration" of your "employee benefit program."

3) Subject to the above Limit, **$1,000,000** is the most we will pay for all damages sustained by any one "employee," including damages sustained by such "employee's" dependents and beneficiaries, as a result of:

a) An act, error or omission; or

b) A series of acts, errors or omissions

negligently committed in the "administration" of your "employee benefit program."

However, the amount paid under this endorsement shall not exceed, and will be subject to, the limits and restrictions that apply to the payment of benefits in any plan included in the "employee benefit program."

The Limits of Insurance of this endorsement apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations of the policy to which this endorsement is attached, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits Of Insurance.

4. Deductible

a. Our obligation to pay damages on behalf of the insured applies only to the amount of damages in excess of **$1,000.** The limits of insurance shall not be reduced by the amount of this deductible.

b. The deductible amount applies to all damages sustained by any one "employee," including such "employee's" dependents and beneficiaries, because of all acts, errors or omissions to which this insurance applies.

c. The terms of this insurance, including those with respect to:

1) Our right and duty to defend any "suits" seeking those damages; and

2) Your duties, and the duties of any other involved insured, in the event of an act, error or omission, "claim" or "suit" apply irrespective of the application of the deductible amount.

d. We may pay any part or all of the deductible amount to effect settlement of any "claim" or "suit" and, upon notification of the action taken, you shall promptly reimburse us for such part of the deductible amount as we have paid.

SECTION IV - CONDITIONS, Paragraphs **2.** and **4.** are replaced by the following for the Employee Benefits Liability Coverage:

2. Duties In The Event Of An Act, Error Or Omission, "Claim" Or "Suit"

a. You must see to it that we are notified as soon as practicable of an act, error or omission which may result in a "claim." To the extent possible, notice should include:

1) What the act, error or omission was and when it occurred; and

2) The names and addresses of anyone who may suffer damages as a result of the act, error or omission.

b. If a "claim" is made or "suit" is brought against any insured, you must:

1) Immediately record the specifics of the "claims" or "suit" and the date received; and

2) Notify us as soon as practicable.

You must see to it that we receive written notice of the "claim" or "suit" as soon as practicable.

c. You and any other involved insured must:

1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the "claim" or "suit";

2) Authorize us to obtain records and other information;

3) Cooperate with us in the investigation or settlement of the "claim" or defense against the "suit"; and

4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of an act, error or omission to which this insurance may also apply.

d. No insured will, except at the insured's own cost, voluntarily make a payment, assume any obligation or incur any expense without our consent.

4. Other Insurance

If other valid and collectible insurance is available to the insured for a loss we cover under this endorsement, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary except when **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in **c.** below.

b. Excess Insurance

Any other primary insurance available to you covering acts, errors or omissions for which you have been added as an additional insured.

When this insurance is excess, we will have no duty to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit." If no other insurer defends, we may undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

1) The total amount that all such other insurance would pay for the loss in absence of this insurance; and

2) The total of all deductible and self-insured amounts under all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown.

c. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.
If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limits of insurance of all insurers.

SECTION V - DEFINITIONS is amended by adding the following definitions for Employee Benefits Liability Coverage:

1. "Administration" means:

a. Providing information to "employees," including their dependents and beneficiaries, with respect to eligibility for or scope of "employee benefit programs";

b. Handling records in connection with the "employee benefit program"; or

c. Effecting, continuing or terminating any "employee's" participation in any benefit included in the "employee benefit program."

However, "administration" does not include handling payroll deductions.

2. "Cafeteria plans" means plans authorized by the applicable law to allow employees to elect to pay for certain benefits with pre-tax dollars.

3. "Claim" means any demand, or "suit," made by an "employee" or an "employee's" dependents and beneficiaries, for damages as the result of an act, error or omission.

4. "Employee benefit program" means a program providing some or all of the following benefits to "employees," whether provided through a "cafeteria plan" or otherwise.

a. Group life insurance; group accident or health insurance; dental, vision and hearing plans; and flexible spending accounts; provided that no one other than an "employee" may subscribe to such benefits and such benefits are made generally available to those "employees" who satisfy the plan's eligibility requirements;

b. Profit sharing plans, employee savings plans, employee stock ownership plans, pension plans and stock subscription plans, provided that no one other than an "employee" may subscribe to such benefits and such benefits are made generally available to all "employees" who are eligible for such benefits;

c. Unemployment insurance, social security benefits, workers compensation and disability benefits;

d. Vacation plans, including buy and sell programs; leave of absence programs, including military, maternity, family, and civil leave; tuition assistance plans; transportation and health club subsidies.

SECTION V - DEFINITIONS - the definition of “employee” and “suit” is replaced for Employee Benefits Liability Coverage by the following:

“Employee” means a person actively employed, formerly employed, on leave of absence or disabled, or retired. “Employee” includes a “leased worker.” “Employee” does not include a “temporary worker.”

“Suit” means a civil proceeding in which damages because of an act, error or omission to which this insurance applies are alleged. “Suit” includes:

a. An arbitration proceeding in which such damages are claimed and to which the insured must submit or does submit with our consent; or

b. Any other alternative dispute resolution proceeding in which such damages are claimed and to which the insured submits with our consent.

G. Fire, Sprinkler Leakage Or Explosion

1. The word “fire” is changed to “fire, sprinkler leakage or explosion” where it appears in:

a. The Limits of Insurance section of the Declaration:

b. Paragraph **6.** of SECTION III - LIMITS OF INSURANCE; and

c. Paragraph **4.b.** of the OTHER INSURANCE condition;

2. Section **9.a**. under SECTION V. - DEFINITIONS is amended to read: a. A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for damage by fire, sprinkler leakage or explosion to premises while rented to you or temporarily occupied by you with permission of the owner is not an insured contract.

3. The last paragraph of SECTION I - COVERAGE A (after the exclusions) is replaced by the following: Exclusions **c**. through **n**. do not apply to damage by fire, sprinkler leakage or explosion to premises while rented to you or temporarily occupied by you with permission of the owner. A separate limit of insurance applies to this coverage as described in SECTION III - LIMITS OF INSURANCE.

But the Limit of Insurance shown in the Declaration will apply to all damage proximately caused by the same event. Whether such damage results from fire, sprinkler leakage or explosion or any combination of the three.

4. The Damage to Premises Rented To You Limit in Paragraph **6.** of SECTION III - LIMITS OF INSURANCE, is replaced by a new Fire, Sprinkler Leakage or Explosion Limit, which will be subject to all of the terms of SECTION III - LIMITS OF INSURANCE. The new Fire, Sprinkler Leakage or Explosion Limit is **$300,000** unless a higher limit is shown on the Declarations or Change Endorsement.

H. Home Builders Amendments

SECTION I - COVERAGES, Coverage A, Exclusion **j.** Damage to Property, is replaced with the following:

“Property damage” to:

1) Property you own, rent, or occupy, including any costs or expenses incurred by you, or any other person, organization or entity, for repair, replacement, enhancement, restoration or maintenance of such property for any reason, including prevention of injury to a person or damage to another’s property;

2) Premises you give away or abandon, if the “property damage” arises out of any part of those premises;

3) Property loaned to you;

4) Personal property in the care, custody or control of the insured;

5) That particular part of real property on which you or any contractors or subcontractors working directly or indirectly on your behalf are performing operations, if the “property damage” arises out of those operations; or

6) Property that you rent or hold for rental which must be restored, repaired, or replaced because of “your work”.

Paragraph **(1)** of this exclusion does not apply to property you rent or occupy if that property is "your work" and not owned by you.

Paragraphs **(1)**, **(3)** and **(4)** of this exclusion do not apply to "property damage" (other than damage by fire) to premises, including the contents of such premises, rented to you for a period of seven or fewer consecutive days. A separate limit of insurance applies to Damage to Premises Rented to You as described in SECTION III - LIMITS OF INSURANCE.

Paragraphs **(3)**, **(4)**, **(5)** and **(6)** of this exclusion do not apply to liability assumed under a sidetrack agreement.

Paragraph **(6)** of this exclusion does not apply to "property damage" included in the "products-completed operations hazard".

SECTION I - COVERAGES, Coverage A, Exclusion **l**. Damage to Your Work, is replaced with the following:

1. Damage to Your Work

"Property damage" to "your work" arising out of it or any part of it and included in the "products-completed operations hazard."

This exclusion does not apply if the damaged work or the work out of which the damage arises was performed on your behalf by a subcontractor.

This exclusion only applies to that particular part of "your work" that causes the "property damage."

I. Include Directors Or Trustees On Committees As Employees (not applicable to Employee BenefitsLiability Coverage)

SECTION V - DEFINITIONS is amended by the addition of the following to definition **5.**:

"Employee" also includes any of your directors or trustees acting as a member of any of your elected or appointed committees to perform on your behalf specific, as distinguished from general, directorial acts.

J. Limited Fungi Or Bacteria, Silica Or Silica-Related Dust And Exterior Insulation And Finish Systems Coverage:

1. Coverage provided by this insurance for "bodily injury" or "property damage," arising out of a "fungi" or bacteria, "silica" or "silica-related dust" or an "exterior insulation and finish system" incident, is subject to a **$100,000** Aggregate Limit as described in Paragraph 2. of this section. This provision 1. does not apply to any "fungi" or bacteria that are, are on, or are contained in, a good or product intended for bodily consumption.

2. The following are added to SECTION III - LIMITS OF INSURANCE:

A. Subject to Paragraphs **2**. and **3**. of SECTION III - LIMITS OF INSURANCE, as applicable, the Fungi or Bacteria, Silica or Silica-Related Dust, and Exterior Insulation and Finish Systems Liability Aggregate Limit is the most we will pay under Coverage A for all "bodily injury" or "property damage" and Coverage **C**. for Medical Payments arising out of one or more "fungi" or bacteria, "silica" or "silica-related dust" or "exterior insulation and finish system" incidents. This provision **B.1**. does not apply to any "fungi" or bacteria that are, are on, or are contained in, a good or product intended for bodily consumption.

B. Paragraph **5.**, the Each Occurrence Limit, Paragraph **6.**, the Damage To Premises Rented To You Limit, and Paragraph **7.**, the Medical Expense Limit, of SECTION III - LIMITS OF INSURANCE continue to apply to "bodily injury" or "property damage" arising out of a "fungi" or bacteria, "silica" or "silica-related dust" or an "exterior insulation and finish system incident" but only if, and to the extent that, limits are available under the Fungi or Bacteria, Silica or Silica-Related Dust and Exterior Insulation and Finish Systems Liability Aggregate Limit.

3. The following exclusion is added to Paragraph **2.**, Exclusions of SECTION I - COVERAGE B - PERSONAL AND ADVERTISING INJURY LIABILITY:

2. Exclusions

This insurance does not apply to:

a. "Personal and Advertising Injury" arising, in whole or in part, out of the actual, alleged, threatened or suspected inhalation of, ingestion of, contact with, exposure to, existence of, or presence of, "silica" or "silica-related dust."

b. "Personal and Advertising Injury" arising out of a "fungi or bacteria incident."

c. "Personal and Advertising Injury" arising out of, caused by, or attributed to, whether in whole or in part, the following:

1) The design, manufacture, construction, fabrication, preparation, distribution and sale, installation, application, maintenance or repair, including remodeling, service, correction or replacement, of any "exterior insulation and finish system" or any part thereof, or any substantially similar system or any part thereof, including the application or use of conditioners, primers, accessories, flashings, coatings, caulking or sealants in connection with such a system; or

2) "Your product" or "your work" with respect to any exterior component, fixture or feature of any structure if an "exterior insulation and finish system," or any substantially similar system, is used on the part of that structure containing that component, fixture or feature.

d. Any loss, cost or expense arising, in whole or in part, out of the abating, testing for, monitoring, cleaning up, removing, containing, treating, detoxifying, neutralizing, remediating or disposing of, or in any way responding to or assessing the effects of "fungi" or bacteria, "silica" or "silica-related dust," or "exterior insulation and finish system" by any insured or by any other person or entity.

4. The following definitions are added to the Definitions Section:

a. "Exterior insulation and finish system" means a non-load bearing exterior cladding or finish system, and all component parts therein, used on any part of any structure, and consisting of:

1) A rigid or semi-rigid insulation board made of expanded polystyrene and other materials;

2) The adhesive and/or mechanical fasteners used to attach the insulation board to the substrate;

3) A reinforced or unreinforced base coat;

4) A finish coat providing surface texture to which color may be added; and

5) Any flashing, caulking or sealant used with the system for any purpose.

b. "Fungi" means any type or form of fungus, including mold or mildew and any mycotoxins, spores, scents or byproducts produced or released by fungi.

c. "Fungi or bacteria incident" means an incident which would not have occurred, in whole or in part, but for the actual, alleged or threatened inhalation of, ingestion of, contact with, exposure to, existence of, or presence of, any "fungi" or bacteria on or within a building or structure, including its contents, regardless of whether any other cause, event, material or product contributed concurrently or in any sequence to such injury or damage.

d. "Silica" means silicon dioxide (occurring in crystalline, amorphous and impure forms), silica particles, silica dust or silica compounds.

e. "Silica-related dust" means a mixture or combination of silica and other dust or particles.

K. Newly Formed Or Acquired Organizations (not applicable to Employee Benefits Liability Coverage)

SECTION II - WHO IS AN INSURED is amended to include any organization you newly acquire or form, other than a partnership or joint venture, and over which you maintain ownership or majority interest, will qualify as a Named Insured if there is no other similar insurance available to that organization. However:

1. Coverage under this provision is afforded only until 180 days after you acquire or form the organization or the end of the policy period, whichever is earlier.

2. Coverage A does not apply to "bodily injury" or "property damage" that occurred before you acquired or formed the organization; and

3. Coverage B does not apply to "personal injury and advertising injury" arising out of an offense committed before you acquired or formed the organization.

L. Non-Owned Watercraft And Non-Owned Aircraft Liability

SECTION I - COVERAGE A, exclusion **2.g**. is replaced by the following:

g. "Bodily injury" or "property damage" arising out of the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft owned or operated by or rented or loaned to any insured. Use includes operation and "loading or unloading." This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage" involved the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft that is owned or operated by or rented or loaned to any insured.

This exclusion does not apply to:

1) A watercraft while ashore on premises you own or rent;

2) A watercraft you do not own that is:

a) Less than 60 feet long; and

b) Not being used to carry persons or property for a charge;

3) Parking an "auto" on, or on the ways next to, premises you own or rent, provided the "auto" is not owned by or rented or loaned to you or the insured;

4) Liability assumed under any "insured contract" for the ownership, maintenance or use of aircraft or watercraft; or

5) "Bodily injury" or "property damage" arising out of:

a) The operation of machinery or equipment that is attached to, or part of, a land vehicle that would qualify under the definition of "mobile equipment" if it were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged; or

b) The operation of any of the machinery or equipment listed in paragraph f.2) or f.3) of the definition of "mobile equipment."

6) An aircraft you do not own provided it is not operated by any insured.

M. Notice Of Occurrence, Knowledge Of Occurrence, Unintentional Omission

The following is added to SECTION IV. - COMMERCIAL GENERAL LIABILITY, CONDITION 2, DUTIES IN THE EVENT OF OCCURRENCE, OFFENSE, CLAIM OR SUIT:

e. Notice of Accident/Occurrence

When you report to your Workers Compensation carrier the occurrence of any accident which later develops into a liability claim covered under this policy, failure to report the accident to us at the time of occurrence is not in violation of the Conditions of this policy. However, as soon as you are definitely made aware of the fact that the particular accident is a liability claim rather than a Workers Compensation claim prompt notification must be given to us.

f. Unintentional Errors and Omissions

The insurance afforded by this policy is not invalidated by any unintentional errors, omissions or improper description of premises or your unintentional failure to disclose all hazards existing at inception date of the policy.

g. Knowledge of Accident/Occurrence

Knowledge of an accident/occurrence by your agent, servant or employee is not knowledge by you unless an executive officer of your Corporation received such notice from its agent, servant or employee.

N. Pollution Coverage For Upset Of Mobile Equipment

The Insuring Agreement for "property damage" liability with respect to your operations is extended as follows:

1. We will pay those sums which you become legally obligated to pay for "property damage" caused directly by immediate, abrupt and accidental upset, overturn or collision of your "mobile equipment" while transporting "pollutants" which are intended for and normally used in your operations. The operations must be in compliance with local, state, and federal ordinances and laws.

2. EXCLUSIONS

a. With regard only to the coverage provided by this extension L., SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE LIABILITY, **2**. Exclusions, **f.** is deleted and replaced by the following for this extension only:

f. Pollution

Any loss, cost or expense arising out of any:

1) Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

2) Claim or suit by or on behalf of a governmental authority for damages because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of "pollutants."

3) Premises, site or location which is or was at any time owned, rented or loaned to any insured.

O. Reasonable Force Expansion - Property Damage

Exclusion **2.a**. of SECTION I - Coverage A is replaced with the following:

a. Expected Or Intended Injury

"Bodily injury" or "property damage" expected or intended from the standpoint of the insured. This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

P. Supplementary Payments - Higher Limits

Under SECTION I - SUPPLEMENTARY PAYMENTS - COVERAGES A AND B:

Paragraph **1.b.** is replaced by the following:

Up to **$2,000** for cost of bail bonds required because of accidents or traffic law violations arising out of the use of any vehicle to which the Bodily Injury Liability Coverage applies. We do not have to furnish these bonds.

Paragraph **1.d.** is replaced by the following:

All reasonable expenses incurred by the insured at our request to assist us in the investigation or defense of the claim or "suit," including actual loss of earnings up to **$400** a day because of time off from work.

Q. Voluntary Property Damage

1. We will pay, at your request, for loss due to "Property Damage" to property of others caused by you, or while in your possession, arising out of your business operations.

2. "Loss" means unintentional damage or destruction but does not include disappearance, theft, or loss of use.

3. Limits of Insurance - The most we will pay for "loss" under the Voluntary Property Damage is **$2,500** for each "occurrence." The most we will pay for the sum of all damages because of "Property Damage" is an annual policy aggregate limit of **$25,000.**

4. Deductible - We will not pay for "loss" in any one "occurrence" until the amount of "loss" exceeds **$250.**

We may pay any part or all of the deductible amount to effect settlement of any "claim" or "suit" and, upon notification of the action taken, you shall promptly reimburse us for such part of the deductible amount as we have paid.

5. The insurance under the Voluntary Property Damage shall not apply:

a. To "loss" of property at premises owned, rented, leased, operated, or used by you;

b. To "loss" of property while in transit;

c. To "loss" of property owned by, rented to, leased to, borrowed by or used by you;

d. To the cost of repairing or replacing (1) any work defectively or incorrectly done, (2) any product manufactured, sold or supplied by you, unless the "Property Damage" is caused directly by you after delivery of the product or completion of the work and resulting from a subsequent undertaking;

e. To "loss" of property included within the "Products/Completed Operations Hazard";

f. To "loss" of property which is an "auto" or "mobile equipment."

g. To "loss" of property caused by "pollutants."

6. In the event of "loss" covered by this endorsement, you shall, if requested by us, replace the property or furnish the labor and materials necessary for repairs thereto at your actual cost, excluding profit or overhead charges.

R. Waiver Of Transfer Of Rights Of Recovery Against Others To Us

The TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US, SECTION **IV** CONDITION **8.**, is amended by the addition of the following:

We waive any right of recovery we may have against any person or organization because of payments we

make for injury or damage arising out of your ongoing operations or “your work” done under a contract with that person or organization and included in the “products-completed operations hazard.” This waiver applies only to the person or organization which, before the loss, you have agreed in writing to waive your right of recovery.

S. Additional Commercial General Liability Conditions

1. Other Insurance

The following is added to SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS, Item **4.** OTHER INSURANCE:

When this Home Builders Plus endorsement provides coverage and such coverage is also provided by any other provision of this policy:

a. There shall be no duplication of the Limits of Insurance.

b. Any loss payment made under such other provisions shall reduce by such loss payments the Limits of Insurance available under the Home Builders Plus endorsement.

2. Liberalization

SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS is amended by addinng LIBERALIZATION

If we adopt a change in our Commercial General Liability Coverage forms or rules that would broaden the coverage without extra charge, the broader coverage will apply to this Endorsement. It will apply when the change becomes effective in your state.

T. Lost Key Coverage

1. SECTION I - COVERAGES

COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE LIABILITY

Exclusion **2.j.4)** Personal property in the care, custody or control of the insured is amended to add:

However, coverage for property of others in the care, custody or control of the insured is provided forthe loss of keys which are in the possession of the insured or his “employees” subject to the following additional provisions:

a. The insurance afforded with respect to Lost Key Coverage shall not apply to “property damage” caused by misappropriation, secretion, conversion, infidelity or any dishonest act on the part of any insured or his employees or agents;

b. Our liability for all damages because of “property damage” to which this coverage applies shall be limited to the actual cost of keys, adjustment of locks to accept new keys or, if required, new locks including cost of their installation. Subject to such limitation, our total liability for all damages as the result of any one occurrence shall not exceed $25,000. Each claim is subject to a $250 deductible.

2. SECTION II - WHO IS AN INSURED

The following is added to item **2.a.2)b):**

However, coverage is provided for the loss of keys which are in the possession of the insured or his “employees,” subject to the following additional provisions:

a. The insurance afforded with respect to Lost Key Coverage shall not apply to “property damage” caused by misappropriation, secretion, conversion, infidelity or any dishonest act on the part of any insured or his “employees” or agents;

b. Our liability for all damages because of “property damage” to which this coverage applies shall be limited to the actual cost of keys, adjustment of locks to accept new keys or, if required, new locks including cost of their installation. Subject to such limitation, our total liability for all damages as the result of any one occurrence shall not exceed $25,000. Each claim is subject to a $250 deductible.

CITY OF SANTA FE

Memorandum

Date: December 3rd, 2025

To: Governing Body, Finance Committee, Quality of Life Committee, and Public Works and Utilities Committee

From: Andréa Salazar, City Clerk

RE: Adoption of Open Meetings Act Notice Standards for 2026

EXECUTIVE SUMMARY:
The proposed Resolution adopts reasonable notice standards for the City's policymaking bodies for 2026, which is required by the New Mexico Open Meetings Act (OMA). The Governing Body's Open Meetings Act Resolution from 2025 will sunset when the Governing Body adopts the 2026 Resolution and the 2026 Resolution will sunset when the Governing Body adopts its 2027 Open Meetings Act resolution.

BACKGROUND:
OMA, NMSA 1978, Sections 10-15-1 to -4, requires that public bodies adopt reasonable notice standards for their public meetings at least annually. As a result, each year the Governing Body adopts a Resolution adopting notice standards for that year.

ATTACHMENTS:
Resolution
Fiscal Impact Report

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2025-__

INTRODUCED BY:

Councilor Jamie Cassutt

Mayor Alan Webber

A RESOLUTION

ADOPTING ANNUAL OPEN MEETINGS ACT NOTICE STANDARDS FOR 2026.

WHEREAS, the New Mexico Open Meetings Act ("Open Meetings Act") NMSA 1978, §§ 10-15-1 to – 4, requires that public bodies "determine at least annually in a public meeting what notice for a public meeting is reasonable when applied to that body"; and

WHEREAS, the Open Meetings Act applies to the City of Santa Fe's ("City's") Governing Body and the Governing Body's subordinate policymaking bodies; and

WHEREAS, the Governing Body desires to comply with the Open Meetings Act's annual public notice requirement by adopting this resolution, establishing reasonable notice standards for the City's policymaking bodies; and

WHEREAS, the Governing Body seeks to give annual notice to the public of its determination, pursuant to NMSA 1978, Section 10-15-1(D), that it adopts an annual regular meeting calendar for the Governing Body's regular meetings for the entire calendar year and provides at least a seventy-two (72) hour notice of the agenda items scheduled for discussion prior to its regular and special meetings; and

WHEREAS, although many of the City's subordinate policy-making bodies' meetings are noticed weeks or months in advance, seventy-two hours notice is also reasonable for noticing the meetings of subordinate policymaking bodies and for posting agendas listing the matters that will be discussed.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. The Open Meetings Act applies to the City's policymaking bodies.

Section 2. The notice requirements set forth below are hereby adopted.

A. The City shall give at least seventy-two (72) hours' notice of all regular and special meetings of the Governing Body and its subordinate policymaking bodies.

B. The notice shall include the date, time, place(s) of the planned meeting, and a list of the specific items of business to be discussed or transacted at the meeting or information about how the public may obtain a copy of such an agenda.

C. The City shall make the notice available to the public and news media through reasonable means, including posting on the City's website, and providing the notice to broadcast stations licensed by the federal communications commission and newspapers of general circulation that have provided a written request for such notice.

D. Agendas shall be posted on the City's website.

Section 3. Regular Meetings of the Governing Body

A. Unless otherwise specified, including in subsection B below, regular meetings of the Governing Body shall be held as follows:

i. On the 15th of January and last Wednesday of January.

ii. The second and last Wednesday of each month after January, other

than November and December, when regular meetings will be on the second Wednesday but not the last Wednesday.

iii. In the City Council Chambers of the municipal building of the City, located at 200 Lincoln Avenue, Santa Fe.

B. When it is difficult or impossible for members of the Governing Body to meet in person, they may participate virtually pursuant to SFCC 1987, Section 1-9.

C. To the extent possible, meetings will be broadcast via the City's YouTube channel and other media as available, such as on the radio from KSFR 101.1 FM.

Section 4. Special Meetings

A. The City shall provide a minimum of 72 hours' notice of all special meetings of the Governing Body and its subordinate policymaking bodies.

B. Unless otherwise specified, special meetings are held at the same place as regular meetings. The date, time, and place of a special meeting shall appear on the agenda and be made available to the public and news media through reasonable means including posting on the City's website.

C. The agenda shall be posted on the City's website.

D. When it is difficult or impossible for members of the Governing Body to meet in person, they may participate virtually pursuant to SFCC 1987, Section 1-9.

E. To the extent possible, meetings will be broadcast via the City's YouTube channel and other media as available, such as on the radio station KSFR 101.1 FM.

Section 5. Quasi-Judicial Committees and Subordinate Policymaking Bodies

A. Every quasi-judicial committee, board, or commission, including but not limited to the planning commission, historic design review board, and board of

adjustment, shall follow the same notice requirements as the Governing Body, and as provided in this resolution and the Open Meetings Act.

B. All other policymaking boards, commissions, and committees shall follow the same notice requirements as provided by the Open Meetings Act.

Section 6. Emergency Meetings

A. Pursuant to its procedural rules, the Governing Body or subordinate policymaking body may call, with, if possible, up to 24 hours' notice, a meeting to consider any matter that, if not addressed immediately, will likely result in injury or damage to persons or property or significant financial loss to the City. When possible, the City will provide 24-hour telephonic notice to all media who normally cover City meetings before the emergency meeting commences.

B. The notice for all emergency meetings shall include an agenda for the meeting or information on how the public may obtain a copy of the agenda. Unless there is a State or national emergency already declared for the same reasons, within ten (10) days of taking action on an emergency matter, the City will notify the Attorney General's Office that the emergency meeting took place.

Section 7. Term

This Resolution shall sunset upon adoption of the 2027 Open Meetings Act Resolution, making it unnecessary to rescind.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2025.

Reviewed by Finance Director: Emily K. Oster **Date:** 12/03/2025

Summary:
The purpose of this Resolution is to comply with the Open Meetings Act (OMA) by adopting annual OMA notice standards for 2026. The Resolution shall sunset upon adoption of the 2027 Open Meetings Act resolution.

Departments Affected:
Governing Body, City Clerk's Office, and Departments supporting policy making bodies.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the Governing Body would fail to comply with the OMA requirement that it adopt annual notice standards for meetings governed by the OMA.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
The 2025 Resolution sunsets upon adoption of this Resolution and this Resolution will sunset upon the adoption of the 2027 Open Meetings Act resolution.

Performance and Administrative Implications:
Complying with the OMA is required for the decisions of policy making bodies to be final and binding.

Fiscal Implications:
OMA does not require stenographers, but it does require minutes for the Governing Body. Funds for contracting with persons who take minutes come from the General Fund and are included in the City Clerk's budget for FY26.

RE: Updating City Manager Qualifications

SUMMARY:

The proposed legislation would amend SFCC 1987, Section 2-4.2 to update qualifications for the City of Santa Fe's ("City") City Manager position to require candidates for City Manager and Deputy City Manager to meet the following two criteria:

1. have the necessary administrative and managerial skills and experience to manage the City; and
2. be credentialed by the International City/County management Association ("ICMA") or have equivalent education and experience to qualify for a credential.

The updated language would also specify that if not already credentialed, a candidate for City Manager must apply for credentials within one year of being appointed to the City Manager position. Lastly, the bill proposes that if after five months, a credentialed candidate or a candidate qualified to apply for a professional credential is not appointed, the Mayor may consider an individual who meets requirements to be considered as a candidate for a *future* credential such as "Credentialed Manager Candidate Status", as defined by the ICMA.

The bill also specifies that acting and/or interim city managers must have "the necessary administrative and managerial skills and experience to manage the City".

Additionally, the bill removes language from Section 2-4.12(B) prohibiting an acting city manager from hiring or removing employees "engaged in the administration service of the city except on the approval of the governing body".

Finally, the bill leaves language specific to the Deputy City manager role, Section 2-4.6(L), unchanged, stating that the "powers and duties designated to the deputy city manager shall not exceed the powers and duties of the city manager; and the minimum qualifications shall be at least those required for the city manager".

BACKGROUND AND ANALYSIS:

The International City/County Management Association (ICMA) is a professional association of city and county managers nationwide. According to the ICMA website, the organization, "offers membership, professional development programs, research, publications, data and information, technical assistance, and training to local government chief administrative officers, their staff, and other organizations around the globe."

The website also states that in order to be "eligible" for an ICMA credential, an individual must be local government chief administrative officers or assistant chief administrative officer, with minimum number of years of experience in qualifying roles and/or education in qualifying decrees, obtain prescribed training, pass an examination, provide professional references and peer review. Requirements for obtaining the credential include a combination of experience, education, and continuing professional development. Examples provided by the organization with respect to what is required within these three criteria are as follows:

1) Experience with staff management, financial management, policy facilitation and implementation, and service delivery;
2) Education requirements in combination with executive experience would include
    a. Masters in public administration or policy + 7 years;
    b. Other graduate degree +8 years;
    c. Baccalaureate degree + 9 years; or
    d. Less than Bachelor's + 15 years.

In addition to the above, in order to maintain a credential from the ICMA, a person who obtains a credential must participate in continuing professional development.

Lastly, individuals who do not meet the combined experience and education, but who expect to attain it within two years, can apply for "credential manager candidate status", meaning the candidate will be "able to receive the full credential as soon as the individual meets the requirements due to already being approved".

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2025-23

INTRODUCED BY:

Councilor Jamie Cassutt

Councilor Pilar Faulkner

A BILL

AMENDING SFCC 1987, SECTION 2-4.2, TO REQUIRE CITY MANAGERS TO BE INTERNATIONAL CITY MANAGER ASSOCIATION ("ICMA") -CREDENTIALED OR CREDENTIAL-ELIGIBLE UNLESS AN APPOINTMENT AND CONSENT OF SUCH A CANDIDATE IS NOT POSSIBLE AFTER FIVE MONTHS; REQUIRING CANDIDATES FOR DEPUTY CITY MANAGER TO HAVE THE SAME QUALIFICATIONS PURSUANT TO SECTION 2-4.6(L); REMOVING PORTIONS OF SECTION 2-4.3 THAT CONFLICT WITH CITY CHARTER; AND REMOVING THE PROHIBITION FOR AN ACTING CITY MANAGER TO EMPLOY AND DISCHARGE PERSONNEL.

Section 1. Section 2-4.2 of SFCC 1987 (being Ord. No. 1981-15, § 7, as amended) is amended to read:

2-4.2 – QUALIFICATIONS.

A. The city manager shall [~~be selected and appointed solely on the basis of their training, experience and other qualifications for office as hereinafter prescribed without regard for affiliation, or lack of affiliation with any political party or other organization~~]

underscored material = new [~~bracketed material~~] = delete

(1) have the necessary administrative and managerial skills and experience to manage the city of Santa Fe, and

(2) be credentialed by the International City/County Management Association ("ICMA") ("Credentialed") or have the equivalent education and experience to qualify to apply for the ICMA's credentialing program and agree to apply for credentialing within one year of appointment.

B. A mayor shall preferentially consider Credentialed and Credential-eligible candidates for City Manager.

C. If a mayor has not identified a Credentialed or Credential-eligible candidate to appoint or the governing body has not consented to such appointed candidates after five months from the date a city manager resigns, the position becomes vacant, the city opens an application for city manager or begins any other process used to identify a new city manager, whichever occurs first, the mayor may appoint an individual who is not Credentialed or Credential-eligible who agrees to apply for credentialed manager candidate status within six months of the hire date.

Section 2. Section 2-4.3 of SFCC 1987 (being Ord. No. 1996-18, § 2, as amended) is amended to read:

2-4.3 – APPOINTMENT [~~; DISMISSAL~~].

A. The mayor, within [~~ninety (90) days~~] six months of the beginning date of the vacancy in the office of the city manager, shall submit to the city council, at least seven (7) days before the meeting at which the nomination of the appointee shall be made, the name and qualifications of the mayor's prospective appointee to serve as city manager. The governing body, at its next regular meeting shall [~~accept~~] consent to or reject the appointment [~~nomination~~] by a majority vote of all the members of the governing body.

[~~B. The council may dismiss the city manager by a majority vote of all members of the governing body, at a regularly scheduled meeting~~.

~~C. The mayor may dismiss the city manager by a majority vote of all members of the governing body, at a regularly scheduled meeting~~.]

Section 3. Section 2-4.12 of SFCC 1987 (being Ord. No. 1996-37, § 2, as amended) is amended to read:

2-4.12 – ACTING CITY MANAGER; FILLING OF VACANCY.

A. During any temporary absence or disability of the city manager the city manager shall immediately appoint a city employee having the [~~qualifications prescribed in subsection 2-4.2 (A)(1)~~] necessary administrative and managerial skills and experience to manage the city of Santa Fe and to temporarily perform [~~his or her~~] city manager duties until the city manager returns from [~~his or her~~] the temporary absence or disability.

B. The acting city manager has the same duties and responsibilities as granted to a city manager under the Santa Fe City Code [~~; except, that he or she shall neither employ nor discharge any person engaged in the administration service of the city except on the approval of the governing body~~].

C. During any period when the office of city manager shall be vacant for any cause other than a temporary absence or disability, as defined in paragraph A., herein, the mayor shall appoint a city employee having the [~~qualifications prescribed in subsection 2-4.2 (A)(1),~~] the necessary administrative and managerial skills and experience to manage the city of Santa Fe and to temporarily perform the city manager's duties until a regularly selected city manager is appointed. This appointment shall be subject to the consent of a majority of all members of the city council and shall be made within seventy-two (72) hours, at a legally noticed special city council meeting.

Summary:

The proposed legislation would amend SFCC 1987, Section 2-4.2, to require candidates for the City of Santa Fe's ("City") City Manager position either be credentialed by the International City/County management Association ("ICMA") or be eligible for the credential, unless no such candidate is identified for six months. A credential-eligible candidate for City Manager must apply for credentials within one year of being appointed to the City Manager position. If, after five months, a credentialed candidate or a candidate qualified to be credentialed is not hired, the Mayor may consider a candidate who agrees to apply for "Credentialed Manager Candidate Status", as defined by the ICMA, within a six months of the hire date.

The bill also addresses criteria for the event of a temporary absence or disability of the city manager or for a vacancy period in the office. In these circumstances the mayor would appoint someone who has "the necessary administrative and managerial skills and experience to manage the City".

Additionally, the bill removes language from Section 2-4.12(B) prohibiting an acting city manager from hiring or removing employees "engaged in the administration service of the city except on the approval of the governing body".

Another section of code requires the Deputy City Manager to have the same qualifications as the City Manager. Therefore, by changing the required qualifications for the City Manager, the Bill would also change the qualifications for the Deputy City Manager.

Departments Affected:

Mayor's Office and City Manager's Office

Consequences of Not Enacting Legislation:

If this legislation is not adopted, then the qualifications for City Manager and Deputy City Manager will not include having or obtaining ICMA credentials.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
The amendments to Section 2-4.2 would amend by reference the qualifications required for the Deputy City Manager: Section 2-4.6(L) provides that "[t]he powers and duties designated to the deputy city manager shall not exceed the powers and duties of the city manager, and the minimum qualifications shall be at least those required for the city manager."

Performance and Administrative Implications:
The proposed legislation would require future City Manager and Deputy City Manager candidates to 1) possess the necessary administrative and managerial skills and experience to manage the City, and 2) be ICMA credentialed or be ICMA credential-eligible and commit to obtaining ICMA credentials within one year of being appointed. If a candidate with these two requirements is not appointed and consented to within six months, the proposed language allows for the appointment of a candidate who has the "necessary administrative and managerial skills and experience to manage the City" and who would within six months apply for "Credentialed Manager Candidate Status", as defined by the ICMA.

Fiscal Implications:
None.

RE: Community Energy Efficiency Development (CEED) Grant Approval

---

EXECUTIVE SUMMARY:

The purpose of this Bill is to approve a Community Energy Efficiency Development (CEED) block grant from the New Mexico State Energy, Minerals, and Natural Resources Department, Energy Conservation and Management Division, as outlined in Exhibit A of the Bill.

BACKGROUND:

The State of New Mexico EMNRD ECAM has awarded the City of Santa Fe a $1,254,170 CEED Grant to implement targeted residential energy efficiency improvements for low-income and energy-burdened households. The investment will support underserved communities in Census Tracts 12.02, 12.03, and 12.05 by reducing energy consumption, lowering household utility costs, and improving home comfort, health, and energy resilience.

Under the Governmental Services Agreement (GSA), the City will administer the CEED project in accordance with the CEED Block Grant Act and ECAM program requirements. The project will be implemented in partnership with Homewise, which will provide outreach, energy audits, household eligibility verification, construction management, and post-retrofit evaluation.
The grant is fully funded by the State of New Mexico and requires no City matching funds.

BILL NO. 2025-26

INTRODUCED BY:

Mayor Alan Webber

Carol Romero-Wirth

Jamie Cassutt

A BILL

APPROVING A COMMUNITY ENERGY EFFICIENCY DEVELOPMENT ("CEED") BLOCK GRANT FROM THE NEW MEXICO STATE ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT, ENERGY CONSERVATION AND MANAGEMENT DIVISION PURSUANT TO THE "CEED BLOCK GRANT ACT" TO AUTHORIZE A CEED PROGRAM PROJECT AND APPROVE THE TERMS AND CONDITIONS OF THE GRANT AGREEMENT.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

WHEREAS, the City of Santa Fe ("City") is a legally created public body, established, organized and existing incorporated charter municipality with home-rule powers under the constitution and laws of the State of New Mexico; and

WHEREAS, the CEED Block Grant ("Act") was enacted to establish the CEED Program and allow local governments to provide financing to support affordable housing energy efficiency

underscored material = new [~~bracketed material~~] = delete

programs and projects; and

WHEREAS, pursuant to NMSA 1978, Section 62-17A, the purpose of CEED Program projects is to provide improvements to residential buildings in underserved communities that will, in the aggregate, reduce energy consumption, energy-related operating costs, carbon intensity of energy consumption, or a combination thereof; and

WHEREAS, the CEED Program project will promote the general welfare and significantly benefit the quality of life of underserved communities in the City; and

WHEREAS, the Energy Conservation and Management Division is the administering agency for the CEED Program and is authorized to issue competitive grant awards to eligible entities; and

WHEREAS, NMSA 1978, Section 62-17A-5, requires counties and municipalities to enact an ordinance formally accepting the grant and incorporating the terms and conditions of the grant.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE, NEW MEXICO:

Section 1. **Approval.** The City of Santa Fe ("City") formally approves the Community Energy Efficiency Development ("CEED") grant and accepts the CEED Program award from the New Mexico Energy, Minerals and Natural Resources Department ("EMNRD"). This ordinance may be cited as the "Community Energy Efficiency Development Block Grant Ordinance."

Section 2. **Purpose.** This Ordinance is adopted to implement the City's CEED Program project as is described in the Scope of Work portion of Exhibit A.

Section 3. **Grant Terms and Conditions.** The City formally adopts the full terms and conditions of the CEED Program grant as set forth in the Governmental Services Agreement ("GSA") EMNRD issued and included as Exhibit A. The GSA is incorporated herein by

reference, cited here as Exhibit A, and shall have the full force and effect of law within the jurisdiction of the City.

The City agrees to implement the CEED Program in compliance with the GSA and all applicable federal, state, and local laws, including reporting, procurement, wage compliance, and allowable use of funds.

Section 4. **Effective Date.** This Ordinance shall take effect five days after it is published, as consistent with SFCC 1987, Section 2-2.4. The City shall provide a certified copy to EMNRD as evidence of formal compliance with CEED Program requirements.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2025.

ERIN K. McSHERRY, CITY ATTORNEY

STATE OF NEW MEXICO
GOVERNMENTAL SERVICES AGREEMENT
BETWEEN THE
STATE OF NEW MEXICO,
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
AND
CITY OF SANTA FE

THIS GOVERNMENTAL SERVICES AGREEMENT (Agreement) is made and entered into by and between the State of New Mexico, Energy, Minerals and Natural Resources Department (EMNRD), Energy Conservation and Management Division (ECAM), and City of Santa Fe (City).

THE PARTIES MUTUALLY AGREE:

1. **Scope of Work**: The City shall:

A. Plan, manage and implement a Community Energy Efficiency Development (CEED) Program Project (Project) in accordance with the New Mexico Community Energy Efficiency Development Block Grant Act and the application materials approved by ECAM attached hereto and incorporated by reference as Attachment 1.

B. Provide targeted energy efficiency and conservation improvements to residential housing units for underserved communities in New Mexico. The geographic location of the households served will be within the City of Santa Fe. The City shall effectuate the goals of the CEED Program for residential buildings in underserved communities, including reducing energy consumption; reducing energy-related operating costs; reducing the carbon intensity of energy consumption; or a combination thereof.

C. Implement Energy Conservation Measure (ECM) improvements outlined in Attachment 2 hereto. The ECM improvements shall not cause an energy bill or cost increase in relation to the total cost a household spends on utilities.

1) City shall obtain the approval of ECAM for the installation of ECM improvements or appliances not specified in Attachment 2.

2) City is required to document all measureable energy installations and any potential Health and Safety (H&S) findings. ECAM recognizes it may not be possible to catalog all potential H&S issues. Should H&S concerns not enumerated in Attachment 2 be identified, it is the City's responsibility to

notify ECAM of the problem and obtain directions from ECAM on how to proceed before any work commences. Failure to adhere to this requirement may result in disallowed costs for the City and potential liability for any subcontractor.

3) The maximum average allowable ECM improvement cost per residential housing unit is $16,000.00, but City may seek ECAM approval for variances to the maximum average allowable per-unit cost.

D. City shall adhere to the following program administration requirements:

1) Section 19.1.10.12 (D), NMAC to determine participant household eligibility. Certification verification process will require ECAM review prior to program commencement.

2) Procure, as applicable, services from community partner(s) and service providers(s) with experience in the geographic area(s) in which the project will take place.

3) Collect and report data on, but not limited to, project performance, energy savings, and non-energy benefits resulting from project energy efficiency, conservation, and retrofit measures.

4) Prepare, review, certify, and submit the reports as outlined below, in the form and content specified by ECAM:

Report Title	**Reporting Period**	**Due Date**
Program Financial Reports	Quarterly	● Jan. 1–Mar. 3 = due Apr. 20 ● Apr. 1–June 30 = due July 20 ● July 1–Sep. 30 = due Oct. 20 ● Oct. 1–Dec. 31 = due Jan. 20
Program Performance Reports	Quarterly	● Jan. 1–Mar. 3 = due Apr. 20 ● Apr. 1–June 30 = due July 20 ● July 1–Sep. 30 = due Oct. 20 ● Oct. 1–Dec. 31 = due Jan. 20
Project Update Reports	Monthly, with each request for payment/ reimbursement	On the 20th of the month for the previous period
If the due date falls on a weekend/holiday, the report will be due the following business day.		

5) The City shall review all invoices for reimbursement from subcontractors and verify that claimed expenditures are allowable costs. The City shall

maintain documentation adequate to support all claimed costs reported for reimbursement or City share.

6) To the greatest extent practicable, City should take advantage of available New Mexico state and federal rebates and tax incentives, including the DOE Home Energy Rebates programs: Home Electrification and Appliance Rebates (HEAR), Home Efficiency Rebates (HER).

7) City may apply for variances pursuant to Section 19.1.10.20 NMAC. Should the City elect to undertake activities or change locations prior to written authorization from ECAM, the City does so at risk of not receiving funding.

8) Outreach/marketing activities must be directly related to the CEED Program and educational activities must be targeted and specific to the residential unit or building.

9) Training and Certifications costs must apply directly to CEED Program activities. Staff time spent on CEED Program projects should be accounted for accurately, with costs claimed being the costs incurred.

10) City shall also comply with requirements specified in Attachment 3, Special Terms and Conditions.

11) Prepare, review, certify, and submit reimbursement requests as outlined below, in the form and content specified by ECAM.

2. **Compensation**:

A. EMNRD shall pay City for services satisfactorily performed pursuant to the Scope of Work and as specified below. This amount shall not exceed one million two hundred fifty four thousand one hundred seventy dollars and zero cents ($1,254,170.00), including New Mexico governmental gross receipts taxes, and any travel, if necessary, pursuant to Paragraphs B and C of this Compensation Section. EMNRD shall make payment upon the satisfactory and timely completion of the work described in the Scope of Work and for no more than the maximum amount set forth below for each deliverable:

Deliverable	**Maximum Amount Not to Exceed**	**Invoice Due Date**
Submit reimbursement requests for Administrative Costs related to the planning, management and implementation of the CEED Program Project.	$188,125.50	20th day of each month for costs incurred during the previous month

Submit reimbursement requests for costs related to retrofit work and ECM improvements to residential housing units within the City of Santa Fe.	$1,066,044.50	20th day of each month for costs incurred during the previous month

This amount is a maximum and not a guarantee that the work assigned to be performed by City under this Agreement shall equal the amount stated herein or the amounts stated per task. The parties do not intend for the City to continue to provide services without compensation when the total compensation amount is reached. City is responsible for notifying EMNRD when the services provided under this Agreement reach the total compensation amount. In no event shall the City be paid for services provided exceeding the total compensation amount without this Agreement being amended in writing prior to those services exceeding the total compensation amount being provided. EMNRD MUST receive all invoices no later than 10 days after the termination of the Fiscal Year in which the services were delivered. Invoices received after such date SHALL NOT BE PAID.

B. EMNRD shall pay such travel expenses as may be incurred in, and that are necessary for, this Agreement's performance at the rates established in the Per Diem and Mileage Act, NMSA 1978, Sections 10-8-1 *et seq.* as implemented by the current Department of Finance and Administration (DFA) rule and the current EMNRD travel policy.

C. City shall be responsible for paying New Mexico Governmental Gross Receipts taxes levied on amounts payable under this Agreement, if applicable.

D. City must submit detailed invoices accounting for all services performed, and expenses incurred. Invoices evidencing the propriety of each claim for payment must be supported by approved purchase order. When compensation is based on hourly rates, City shall also provide documentation of hours expended on the services provided. If EMNRD finds that the invoice services, or expenses are not acceptable, within 30 days of receipt of written notice from City that payment is requested for services received, EMNRD shall provide City a letter of exception explaining the defect or objection to the invoice, services, or expenses, and outlining steps City may take to provide remedial action. Upon certification by EMNRD that the invoice, services, or expenses have been received and accepted, EMNRD shall tender payment to City within 30 days after the date of acceptance. If payment is made by mail, the payment shall be deemed tendered on the date it is postmarked. However, EMNRD shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

3. **Term**: This Agreement becomes effective when executed by an authorized representative of City and of EMNRD and when DFA encumbers funds for this Agreement. It shall terminate on Dec 31, 2027 unless earlier terminated pursuant to

Section 4, Termination, or Section 5, Appropriations, below.

4. **Termination**: Either party may terminate this Agreement upon written notice delivered to the other at least 10 days prior to the intended termination date. By such termination, neither party may nullify or avoid any obligation required to have been performed prior to termination.

5. **Appropriations**: This Agreement's terms are contingent upon the New Mexico State Legislature granting sufficient appropriation and authorization. If sufficient appropriation or authorization is not granted, EMNRD may terminate this Agreement, or in the alternative suspend performance pending approval of sufficient appropriation or authorization, upon written notice from EMNRD to City. EMNRD's decision as to whether sufficient appropriations are available shall be at its sole and absolute discretion and shall be final, binding, and accepted by City.

6. **Status of City**: City and its agents and employees are independent contractors performing professional services for EMNRD and are not employees of the State of New Mexico. City and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of state vehicles, or any other benefits afforded to employees of the State of New Mexico as a result of this Agreement. City agrees not to purport to bind the State of New Mexico unless the City has express written authority to do so, and then only within the strict limits of that written authority.

7. **Assignment**: City shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without EMNRD's prior written approval.

8. **Subcontracting**: City shall not subcontract any portion of the services to be performed under this Agreement or obligate itself in any manner to any third party, with respect to any rights or responsibilities under this Agreement, without EMNRD's prior written approval. EMNRD may disallow costs incurred by the City in relation to a subcontract if City does not obtain prior written approval.
.

A. Any contract shall include all provisions necessary to allow City to meet its obligations and requirements under this Agreement and all provisions required by law.

B. Travel expense reimbursement requested for subcontractors, if applicable, shall be reimbursed in accordance with rates established in the Per Diem and Mileage Act, NMSA 1978, Section 10-8-1 *et seq*., as implemented by the current DFA Rule and EMNRD Travel Policy.

9. **Release**: Final payment of the amounts due under this Agreement shall operate as a release of EMNRD, its officers, and employees, and the State of New Mexico from all liabilities, claims, and obligations whatsoever arising from or under this Agreement.

10. **Confidentiality**: Any confidential information provided to or developed by City in

the performance of this Agreement shall be kept confidential and shall not be made available by City to any individual or organization without EMNRD's prior written approval.

11. **Product of Services; Copyright**: All materials developed or acquired by City under this Agreement shall become the State of New Mexico's property and be delivered to EMNRD no later than this Agreement's expiration date. Nothing City produces, in whole or in part, under this Agreement shall be the subject of a copyright application or other claim of ownership by or on behalf of City.

12. **Conflict of Interest; Governmental Conduct Act**: City warrants that it presently has no interest and that it shall not acquire any interest, direct or indirect, which would conflict in any manner with performance or other services required under this Agreement. City certifies that all applicable provisions of the requirements of the Governmental Conduct Act, NMSA 1978, Sections 10-16-1 through –18, including provisions related to contracting with, or employing, public officers, legislators, state employees, or former state employees, have been followed.

13. **Amendment**: This Agreement shall not be altered, changed, or amended except by written instrument executed and approved by the parties hereto.

14. **Merger**: This Agreement incorporates all the agreements, covenants, and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written Agreement. No prior agreement or understanding, verbal or otherwise, of the parties or their agents shall be valid or enforceable unless as embodied in this Agreement.

15. **Penalties for Violation of Law**: The Procurement Code, NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities, and kickbacks.

16. **Equal Opportunity Compliance**: City agrees to abide by all federal and state laws and rules and regulations, and executive orders of the Governor of the State of New Mexico, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the City assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation, or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If City is found not to be in compliance with these requirements during the life of this Agreement, City agrees to take appropriate steps to correct these deficiencies.

17. **Applicable Law**: The laws of the State of New Mexico shall govern this Agreement, without giving effect to New Mexico's choice of law provisions. Venue shall

be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-1(G). By execution of this Agreement, City acknowledges and agrees to the exclusive jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

18. **Records and Audit**:

A. City shall maintain detailed time and expenditure records that indicate the date, time, nature, and cost of services rendered during the Agreement's term and effect and retain them until six years after the termination date specified in Section 3, Term. These records shall be maintained and available within the State of New Mexico. During this time, such records shall be subject to inspection by EMNRD, DFA, and the State Auditor. City further agrees to include in all subcontracts hereunder the same right of inspection and audit against all subcontractors. EMNRD shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose EMNRD's right to recover excessive or illegal payments. The periods of inspection and audit may be extended for records, which relate to litigation or settlement of claims arising out of performance of this Agreement or any authorized representative and shall continue until all potential litigation, appeals, claims, or exceptions have expired or been resolved.

19. **Liability**: Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred with this Agreement is subject to the immunities and limitations of the Tort Claims Act, NMSA 1978, Sections41-4-1 *et seq.*, as amended.

20. **Procurement, Utilization, and Disposition of Property**: City shall report acquisition of any capital property (property with an expected life of at least one year) to EMNRD within one month following the acquisition. If upon termination of this Agreement City has any property in its possession belonging to EMNRD, City shall account for the property and dispose of it as EMNRD directs.

21. **Invalid Term or Condition**: If any term or condition of this Agreement shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected and shall be valid and enforceable.

22. **Enforcement of Agreement**: A party's failure to require strict performance of any provision of this Agreement shall not waive or diminish that party's right thereafter to demand strict performance with that or any other provision. No waiver by a party of any of its rights under this Agreement shall be effective unless express and in writing, and no waiver of a specified right by a party shall be effective to waive any other rights.

23. **Notice**: Except as otherwise specified herein, all notices hereunder shall be in writing) and shall be given to the relevant party at its address set forth below, or such other address as such party may hereafter specify by notice to the other given by

courier, by United States certified or registered mail, or by telecommunication device capable of creating a written record of such notice and its receipt.

To EMNRD:
Buildings and Community Program Manager
EMNRD – ECMD
1220 S. St Francis Drive
Santa Fe, NM 87505

General Counsel
EMNRD – Office of the Secretary
1220 S. St Francis Drive
Santa Fe, NM 87505

To City of Santa Fe:
City Manager
200 Lincoln Ave
Santa Fe, NM 87501

To Risk Management Division:
Risk Management Division
General Services Department
P.O. Drawer 26100
Santa Fe, NM 87502

24. **Authority**: If City is other than a natural person, the individual(s) signing this Agreement on behalf of City represent and warrant that the individual has the power and authority to bind City, and that no further action, resolution, or approval from City or any other City is necessary to enter a binding contract.

25. **Acknowledgment**: City shall acknowledge EMNRD as a co-sponsor and funding source in all news releases, programs, proceedings, and related publicity/publications for the project.

26. **Minimum Wage Rate**: If applicable, City shall comply with minimum wage rates as established by the New Mexico Department of Workforce Solutions, Labor Relations Division, and with all other applicable requirements of that Department, including posting of the wage rates in a prominent location on the site for hiring and performing of this Agreement.

27. **Compliance with Law and Funding Source Conditions**:

A. City shall comply with all applicable state and federal statutes, regulations, or rules, including without limitation those imposed as a consequence of funding pursuant to this Agreement.

B. In the event this Agreement is funded with federal monies, Contractor shall comply with 2 C.F.R. 200.318 through 200.327 for procurement conducted pursuant to this Agreement.

28. **Insurance Coverage**: City shall provide EMNRD a statement indicating that the activities described in the Scope of Work are covered by insurance as set forth below, secured in accordance with any method allowed by applicable law, including self-insurance, pooling of self-insured reserves, or insurance provided by a third party, prior to commencing work under this Agreement. City shall maintain continuous coverage of the activities described in the Scope of Work, so long as this Agreement is in effect. Failure to maintain such coverage is reason for immediate termination of this Agreement. City shall notify EMNRD prior to cancellation or expiration of any insurance required under this Agreement.

A. Worker's Compensation protection that complies with the requirements of the Worker's Compensation Act, NMSA 1978, Sections 52-1-1 *et seq*., if applicable. If the City fails to comply with the Workers Compensation Act and applicable rules when required to do so, EMNRD may terminate this Agreement.

B. Comprehensive public liability protection covering property damage and personal injury liability that may arise under this Agreement and any amendments hereto, in amounts equal or greater than liability limits set forth in NMSA 1978, Sections 41-4-19, as it may be amended from time to time.

[This space intentionally left blank]

IN WITNESS WHEREOF, the parties hereto have herein below executed this Agreement.

ATTACHMENT 1: Application Materials

CEED Program	Application – City of Santa Fe
Applicant City Legal Name:	City of Santa Fe
Type of Applicant City:	Municipal government
Project type City is applying for:	Type 1 Project
Title of Applicant's project:	City of Santa Fe Low-Income Household Energy Efficiency & Electrification
One sentence description of the project:	City of Santa Fe Environmental Services will work with community-based organizations to delivery energy efficiency improvements and renewable energy to low-income, energy-burdened households
One sentence description on the impact and beneficiaries of the project:	Low-income households requesting assistance with utility bills, rent, and home repair will benefit by becoming more financially stable as a result of home improvements.
Total funding request amount:	$1,254,170.00
Project Location	The proposed project takes place in New Mexico
State the selected geographic block location *	City of Santa Fe. Focus: Census tracts 12.02, 12.03 & 12.05
Describe the rationale used for the geographic selection.	The Climate and Economic Justice Screening Tool identifies disadvantaged communities which have been historically burdened by systemic disinvestment, climate change, pollution, and environmental hazards through the use of over 30 environmental, health, and infrastructure criteria. Over 88% of residents in these census tracts are low income (below the 200% Federal Poverty Line), housing burdened (pay more than 30 percent of their income for housing), in proximity to hazardous waste sites, have low life expectancies, lack high school education, and are linguistically isolated. All of these factors coalesce into lived environmental inequality that can begin to be corrected with CEED funds. According to the Department of Energy, the average energy burden for non-low-income households is 3%. However, because the percent of household income spent on energy increases as income decreases, the result is an energy burden ranging 6-13% of income for households at 0-60% of Area Median Income (AMI). Targeting energy and housing cost burdened households is the highest goal, but also targeting census tracts with high linguistic isolation and low educational attainment will help reach populations that are not as likely to take advantage of energy services and energy efficiency rebates offered by local utility companies.
Project Purpose:	The proposed project targets the adoption of energy efficient consumer behavior, equipment, or devices resulting in reduced energy consumption without the amount or quality of energy services.
Project Purpose: Check all that apply to the proposed project:	energy-efficient consumer behavior energy-efficient equipment energy-efficient devices equipment or electrification upgrades health and safety measures
Which of the following CEED Program Project Goals does the proposed project serve? Check all that apply:	reduce energy consumption reduce energy-related operating costs reduce the carbon intensity of energy consumption

Scope of Work:	The Department of Energy Low-Income Energy Affordability Data (LEAD) Tool shows that households below the federal poverty line in New Mexico spend an average of $1,645 annually on energy-related costs, or 16% of household income (compared to a state average of $1,768, or 3% of household income). Reducing household energy use through weatherization alone can result in a 27% reduction in a resident's overall energy use in New Mexico. Further, renewable energy and electrification can reduce the carbon intensity of the energy consumed. This will provide utility bill savings, provide better heating and cooling, and allow low-income households to participate in the clean energy transition.
Describe any additional benefits not described above that should be factored into the evaluation of this application.	The DOE Low-Income Energy Affordability Data (LEAD) Tool shows that households below the federal poverty line in New Mexico spend an average of $1,645 annually on energy-related costs, or 16% of household income (compared to a state average of $1,768, or 3% of household income). Reducing household energy use through weatherization alone can result in a 27% reduction in a resident's overall energy use in New Mexico. Further, renewable energy and electrification can reduce the carbon intensity of the energy consumed. This will provide utility bill savings, provide better heating and cooling, and allow low-income households to participate in the clean energy transition. If a low-income resident chooses to subscribe to community solar, they can expect savings of 27-30% on their electric bill by law. If a resident chooses rooftop solar, the City of Santa Fe Environmental Services will procure a solar contractor and offer an approximately $5,000 stipend (City funds only) to ensure that the monthly cost of the solar loan payment will be equal to the household's typical monthly electric bill. Energy Sage estimates the average home in New Mexico will pay off a rooftop solar loan in 10 years. Solar is essential to offset any electric bill increases as a result of electrification. The rooftop solar portion of the improvements will be offered completely separate from the grant because the solar installation would not be able to be completed within the grant timelines based on Environmental Services experience with local contractors and permitting. All improvements will be made with residents' approval. Additional education will be provided to explain that for homes currently using natural gas for the furnace and/or hot water heater, switching to electric could cause an increase in electric bills, but the cost will be offset by other measures and will result in more efficient and cleaner energy. While energy savings is a main goal, providing choice and cleaner energy options is also a benefit of this program for low-income households.
Describe the project benefits to the selected underserved community, what specific outcomes will result from the completion of this project, and the approach for maximizing project benefits in the community.	Reduced energy use will result in more grid reliability and a reduced need for grid upgrades, which is key as low-income households are most likely to experience negative effects as a result of blackouts or power loss. Second, financial savings can free up families to inject money into the local economy, invest in education, and improve their quality of life. Third, reduced water usage will mitigate the City of Santa Fe's current and expected future drought conditions. Lastly, as PNM - the electric utility in Santa Fe - transfers to renewable energy as required by state law, energy efficiency improvements and electrification are paramount to achieving the City of Santa Fe's goal of carbon neutrality by 2040 and providing a cleaner environment for Santa Fe neighborhoods. A lack of new housing stock has led to an increasingly competitive and unaffordable housing market in Santa Fe as the population continues to grow. Market rate rents in Santa Fe increased by 46% since 2014. Over half of all renter households report feeling "cost-burdened," which means that they are paying more than 30% of their income on housing costs. For renters, cost burden implies economic insecurity, thus decreasing their ability to save enough for a down payment and transition to homeownership. For owners, cost burden increases risk of foreclosure, which has long-term effects on a household's financial security. As housing costs in Santa Fe continue to rise, addressing housing burden through

	energy burden is one strategy that can help maintain homeownership and increase wealth building for at-risk households. During the program, jobs will be created locally as a result of the grant funds and there will be temporary local economic impact as a result of the construction spending.
Describe the project's alignment with the CEED Program's purpose and goals.	This scope of work will result in reduced energy use, reduced water usage, reduced utility costs, and reduced carbon intensity of energy consumption. This program will promote energy-efficient consumer behavior and equipment that will result in a decrease in energy consumption without reducing the amount or quality of energy services. Depending on the improvements chosen, households may see improved indoor air quality as the building envelope and HVAC equipment are improved and repaired. Education and resources will be provided to allow residents to take advantage of community solar subscriptions. Tailored energy assessments, recommendations, and education will provide access to the clean energy transition for low-income households, who are often unable to participate due to financial constraints and lack of access to information or programs.
How will the project meet these objectives, and how will this impact be measured?	• Reduced electric/water usage and utility bills - review of utility bills before and after under typical household usage • Reduced emissions - calculate metric tons of emissions before and after using Clearpath tool • Improved housing affordability - review of housing cost to energy cost ratio before and after • Reduced carbon intensity of energy use (electrification, solar, etc.) - conduct energy audit before and after & number of appliances switched to electric and/or EnergyStar models, number of homes transitioned to solar • More comfortable and healthier living environments - conduct household survey before and after • Reduced stress/housing insecurity - conduct household survey before and after • Increased education and understanding of available energy services/programs - conduct household survey before and after • Increased engagement with Spanish-speaking, low-income residents - conduct household survey before and after
Describe Applicant's plan to engage community partners, service providers, and participant households in the project.	The City of Santa Fe will partner with Homewise to identify eligible low-income households. Using the Homewise inventory of requests for home repair, utility assistance, and other related requests, the City will narrow down recipients of CEED funding based on these priorities: -Highest priority: households Under 50% AMI with fixed incomes (social security, disability, etc.) and/or on propane -Medium priority: households Under 70% AMI -Lower priority: households 71%-80% AMI **The average AMI for the current City home repair/rehabilitation program is 36% AMI City of Santa Fe Conservation & Sustainability will work with Homewise team members to identify eligible, low-income households. The City of Santa Fe will also partner with Homewise for the outreach and construction. Homewise is already contracted with the City's Office of Affordable Housing to deliver home repair and energy efficiency upgrades through other funding sources, such as Community Development Block Grants and the Mortgage Finance Authority. Homewise regularly works in the Santa Fe community and is experienced in operating in English and Spanish. Homewise will conduct outreach about eligibility with households which may include calls, mail outs, and in-person meetings to gauge interest in the CEED program. Once contact has been established, desire to participate and income eligibility will be confirmed, utility bills will be obtained and households will take household surveys. Homewise is already contracted with the City's Office of Affordable Housing to deliver home repair and energy efficiency upgrades through other funding

	sources, such as Community Development Block Grants. Homewise regularly works in the Santa Fe community and is experienced in operating in English and Spanish. Outreach will also include explaining CEED program purpose, energy audit process, resident options for improvements, potential cost savings, construction process, and all other aspects of the CEED program. Lastly, City of Santa Fe Conservation & Sustainability Division will work with grant partners to provide outreach about additional electricity savings and decarbonization of households that can be achieved through purchasing rooftop solar and/or subscribing to community solar. The Coalition for Sustainable Communities New Mexico is a partner in providing education and resources related to the Community Solar Act. All resources and consultation will be provided in English and in Spanish.
Describe Applicant's strategy to prevent fraud, waste, and abuse.	All City departments receiving grants funds adhere to City Policy and Procedure. No grant funds are disbursed until the agenda item and budget are approved by City Council. All modifications to the budget must adhere to City policy. All procurement activity associated with grant funds must follow procedures outlined by the City. Further, all contracts and purchases made with grant funds follow a multi-step, multi-approval process ensuring that the request for purchased goods will be reviewed by the Purchasing Department. The City of Santa Fe is well-prepared to handle the project's financial and regulatory aspects. Being a CDBG (Community Development Block Grant) entitlement city, it has a dedicated grants management division within its Finance Department. This division has experience in managing grants and adhering to federal and state regulations and reporting requirements. Additionally, the city's program staff in the Office of Affordable Housing and Conservation & Sustainability Division have extensive grant experience, ensuring compliance with funding and reporting requirements. For instance, the Office of Affordable Housing conducts annual performance monitoring of program recipients for CBDG and Affordable Housing Trust Fund (AHTF) respectively. Throughout the year, all program subrecipients submit quarterly reports to track program expenditures and progress along with an annual report. As part of the annual performance monitoring, subrecipients provide their codes of conduct for financial systems and record keeping.
Participant eligibility requirements	Participant eligibility will follow 19.1.10.12 (D) NMAC.
Describe the proposed process for certifying the eligibility determination of participant households.	Certification process to be submitted to Division for approval prior to project commencement.
What specific outcomes will result from the completion of this project?	Santa Fe households will receive repair and improvements that result in reduced energy/water usage, improved health and safety, improved comfort, reduced electric/water bills, reduced stress related to affordability, increased housing security, and participation in the clean energy transition via electrification and/or roof top or community solar.
Describe the reporting metrics/measures. —	Metrics used will include (but not be limited to): I. Retrofits ● Number of Units Retrofitted: Track the total number of residential units that receive energy efficiency retrofits. ● Square Footage of Buildings Retrofitted: Measure the total square footage of buildings that undergo retrofits. ● Estimated Project Savings: Calculate the estimated annual savings in terms of: ○ Dollars ○ Kilowatt-hours (kWh) of electricity ○ Therms of natural gas

	○ Gallons of fuel oil ○ Therms of propane ○ Gallons of water ○ Gallons of kerosene ○ Tons of wood ● Energy Management Systems Installed: Track the number of energy management systems installed in residential units. ● Water Conservation Retrofits: Measure the number of water conservation retrofits completed. ● Fuel Switching: Track the number of buildings where the primary fuel type is switched to a more efficient or cleaner fuel source. ● Realized Reduction in Consumption: Measure the actual reduction in consumption for various energy sources (electricity, fuel oil, natural gas, propane, kerosene, wood). II. Energy Audits ● Energy Audits Performed: Track the number of energy audits conducted for residential units. ● Square Footage of Buildings Audited: Measure the total square footage of buildings that undergo energy audits. III. Training and Education/Technical Assistance ● Education, Outreach, and Training: Track the number of workshops, training sessions, and education sessions held and the number of participants. ● Staff Hired: Measure the number of full-time equivalent (FTE) energy management staff and subrecipient staff hired. ● Information Contacts: Track the number of information connections where energy efficiency or renewable energy measures were recommended. IV. Community and Stakeholder Engagement ● Community Engagement Events: Track the number of community engagement events held (both virtual and in-person). ● Community Members Engaged: Measure the total number of community members or stakeholders engaged in the grant program, including those from underserved communities. V. Participant Data ● Participant eligibility criteria ● Participant demographic data ● Energy consumption data: including the measurement and tracking of electricity, natural gas and propane consumption ● Utility bill costs: and associated energy-related operating costs] Reduced electric/water usage, increased weatherization, increased education and understanding of energy services - (project objective: reduced energy consumption & reduced operating costs) Reduced emissions, number of appliances switched to electric, rooftop or community solar participation – (project objective: reduced carbon intensity of energy consumption) Improved housing affordability, reduced stress/housing insecurity, more comfortable and healthier living environments - (project objective: improved health of household)
Describe the tracking and data collection methods.	At the beginning of the project, households will certify incomes, take a brief household survey for social/emotional factors, and provide several months of utility bills (water, gas, electric) to assess average utility usage. Based on utility usage, average emissions will be calculated per household using Clearpath tool.

Reduction of energy use that will come from implementation of the proposed measures:	30% reduction or 3,572 kWh from weatherization alone (Average NM electric use of 11,900 kWh/year) (Energy Sage & NM Mortgage Finance Authority) Average rooftop solar array of 3 kW produces 5,200 kWhW year
Reduction of energy cost that will come from implementation of the proposed measures:	$250/annually (without heat pump installation) (NM Mortgage Finance Authority) or additional $100-$1,000/annually (with heat pump, depending on energy source of original heating system)
Reduction in carbon intensity of energy consumption from implementation of the proposed measures:	-21.7 metric tons of carbon per house per year without solar (NM Mortgage Finance Authority) + 2 MT per 3 kW solar array installed
Other identified measured project impact(s):	Gallons of water saved - 5.6/day or 1,048/year per house (NM Mortgage Finance Authority)
Average impact by household:	-30% reduction in energy use, 5,200 kWh produced per solar array, $250 (or more) saved annually on electric bill, 21.7 or 23.7 MT of carbon reduced, 1,048 gallons/year saved
Total aggregated impact of the project:	(Based on average: 35 households) 125,020 kWh saved annually; 182,000 kWh produced by solar, $8,750 dollars saved annually; 759.5-829.5 MT of carbon reduced; 36,330 gallons of water saved
Total number of participant households of the project:	70 households, depending on level of investment needed/desired per household. (= 35 with a lower than average persons per household at 2.0 to account for households with older residents without kids)
Number of project partner beneficiaries:	70 households (= 35 with a lower than average persons per household at 2.0 to account for households with older residents without kids)
Timeline for implementation, including project milestones.	Q4 year 0: Conservation & Sustainability works with Homewise to identify complete list of eligible CEED funds recipients Dec. year 0: Grant Application Due Q2 year 1: Grant awardees announced by EMNRD & approved by Santa Fe Governing Body Q2 year 1: Grant team identifies short-list of high-priority residents to receive CEED grant funds Q3 year 1: City enters into contract with Homewise for grant implementation services Q4 year 1: Homewise begins outreach to confirm participants (Recipients & income will be fully verified and household survey distributed) Q1 year 2: Homewise will begin scheduling home energy audits and recommending improvements to the building based on highest cost savings and decarbonization potential. Q2 year 2- Q1 year 3: Construction scheduled and improvements implemented (approx. 30 days per house) Q2 year 3: Post-construction household assessment to measure program results & final reporting (1 month)
Describe Applicant's work plan detailing how tasks will be executed within the allotted timeframe and by which members of the project team.	1. City of Santa Fe Conservation & Sustainability will work with Homewise team members to identify eligible, low-income households. 2. Grant project team City of Santa Fe and Homewise) will select and prioritize recipients of CEED funds.

	3. Homewise will conduct outreach to households which may include calls, mail outs, and in-person meetings to gauge interest in the CEED program. Once contact has been established, Homewise will confirm desire to participate, confirm insurance and ownership, confirm income eligibility, obtain current utility bills and conduct household surveys. Outreach will also include explaining CEED program purpose, energy audit process, resident options for improvements, potential cost savings, construction process, and all other aspects of the CEED program. 4. Homewise will perform energy audits of homes, analyze improvement options, obtain written approval from residents, and manage the construction process, while maintaining clear and consistent communication with residents. One priority will be to schedule construction with as little disruption to the lives of residents as possible. a) Once the energy audit is complete, with Homewise's recommendation, residents can choose to pursue either rooftop solar or a community solar subscription. Conservation & Sustainability will provide education and outreach on why and how to subscribe to community solar. Homewise's solar contractor will provide residents with assessment, estimate on the cost of a rooftop solar system, loan options, and estimated future energy bill. b) City funds will provide residents seeking rooftop solar a $5,000 stipend to assist with increasing the affordability of the solar system loan. (Through Santa Fe Environmental Services' experience with rooftop Solarize programs, a $5k stipend is sufficient to ensure that the resident's loan payment will be equal to their historic electric bill cost). 5. After construction and installation, Homewise will obtain utility bills after all improvements have been completed to confirm utility bill cost savings and energy savings and conduct the post-construction household survey one more time to measure quantitative metrics. Conservation & Sustainability will work with Homewise throughout to provide all grant reporting and budget updates to EMNRD, as needed.
Is environmental/ground disturbance anticipated for the project?	No
How long will the project take to complete?	From grant award to post-construction review, 3 years
Describe any proposed Community Partner(s) with experience in the area(s) in which the project will take place.	Homewise is the ideal partner for the City of Santa Fe to execute the CEED grant because it brings decades of trusted community presence, extensive experience delivering energy-efficiency and home repair services, and strong administrative capacity for state-funded programs. Its EnergyWise program built on decades of home improvement lending, a decade of solar lending, and the successful administration of $3.3 million in ARPA-funded Home Preservation programs for households under 80% AMI demonstrates Homewise's proven ability to deliver energy-efficient improvements at scale to low-income residents. With established systems for outreach, eligibility verification, contractor oversight, and project documentation, Homewise can efficiently deploy CEED-funded energy upgrades to the households the program is designed to serve. Their mission aligns directly with CEED's goals, and their ability to leverage additional resources amplifies the impact of this state-funded initiative without requiring City funding or new City infrastructure. Coalition for Sustainable Communities New Mexico (CSCNM) is a nonprofit, membership organization that "[combines] policy interests from a number of [New Mexican] communities into a cohesive voice advocating for state

	policy". CSCNM was vital to the adoption of the New Mexico Community Solar Act and assists in outreach and education related to community solar in New Mexico. CSCNM has hosted webinars and provided written materials to inform New Mexico about community solar.
Describe any proposed Service Providers(s) with experience in the area(s) in which the project will take place.	N/A

ATTACHMENT 2: Energy Conservation Measure Improvements

Energy Conservation Measure (ECM) improvements will target the adoption of energy-efficient consumer behavior, equipment, or devices that result in a decrease in energy consumption without reducing the amount or quality of energy services. This includes health and safety (H&S) measures, including those that use efficient equipment or devices to improve indoor air or drinking water quality, and equipment or electrification upgrades. The ECM improvements shall not cause an energy bill or cost increase in relation to the total cost a household spends on utilities. The following provisions are included to ensure the successful execution of projects. Improvements list is subject to change.

A. City shall implement ECMs in an order that prioritizes greatest savings (*e.g.* sealing the building envelope prior to heat pump installation). City shall follow the U.S. Department of Energy (DOE) Weatherization Assistance Program (WAP) guidelines regarding prioritizing measures (air sealing, duct sealing outside the thermal boundary, and thermal boundary insulation [attic, wall, floor or belly, foundation, sill, etc.]) and installing in order of savings to investment Ratio (SIR) the ECMs and related H&S and incidental repairs measures (SIR calculation = (Annual $ savings x Expected Usage Lifetime (EUL)) ÷ (Initial $ cost). EUL durations can be found at: https://www.energy.gov/sites/default/files/2023-03/WPN%2023-06%20Revised%20Energy%20Audit%20Procedures%20Attachments.pdf (*see also*: Table 1: Allowable Default ECM Lifetimes, *below*).

B. ECM improvements for residential housing units may include, but are not limited to: envelope upgrades; air sealing; duct sealing; insulation installation; EnergyStar windows; EnergyStar doors; LED lighting; water tank insulation and water heater pipe insulation;

1) cleaning, repair or replacement of heating and cooling systems;
   i. Heating systems
      a. Replacement or installation of secondary heating systems are not allowed.
      b. Use proper sizing protocols according to Manual J, State approved sizing protocols, NEAT/MHEA outputs, etc.
      c. High efficiency air source heat pumps. (Cold climate rated units as appropriate for climate zone).
   ii. Cooling systems
      a. Replacement or installation of secondary cooling systems are not allowed.
   iii. Ensure no bill increase
      a. Replace existing electric units or fuel switch from propane

2) prioritized appliance repair or replacement:

i. Clean or repair baseload appliances/fixtures, as well as (in no particular order);
ii. High efficiency heat pump water heaters,
    a. Household should have a minimum of 3 persons.
    b. New units should have an EF of 3.0 or higher.
    c. Replace only electric resistance water heaters.
    d. Cost is limited to $1,750.
    e. Thermostat set to 120 degrees maximum.
    f. Include water heater blanket, pipe insulation (as appropriate).
iii. EnergyStar refrigerator, cost is limited to $900.
    a. Must have automatic defrost, top freezer preferred. May be no more than 2 cubic feet larger than existing refrigerator.
iv. EnergyStar dishwasher, cost is limited to $525.
v. EnergyStar clothes washer, cost is limited to $675.
vi. EnergyStar clothes dryer, cost is limited to $700.
    a. Heat pump clothes dryer cost is limited to $840.
vii. EnergyStar oven/range, cost is limited to $1000
    a. New units may only have a single oven, induction ranges must not increase spending for participant
viii. Programmable/smart thermostats, cost is limited to $150.

3) incidental repairs; cost is limited to $1000 per unit. Allowable items include, but are not limited to:
    i. Sealing of cracks
    ii. Weather-stripping, caulking, hole patching.
    iii. Installation of door sweeps
    iv. Repair and replacement of thresholds
    v. Repair and replacement of fireplace dampers.
    vi. Repair or replacement of broken glass in window
    vii. Exterior door repair
    viii. Repair of building envelope to maintain the integrity of ECMs
    ix. Low-flow showerheads diverter replacement or fixture repair.;
    x. Electrical repair for lighting retrofits;

4) residential Health and Safety (H&S) measures, cost is limited to 20% average cost per unit. Allowable items include, but are not limited to:
    i. Safety devices: smoke and carbon monoxide alarms, fire extinguishers
    ii. Heating and cooling system safety checks;
    iii. Asbestos
        a. In siding, walls, ceilings, etc., in vermiculite, on pipes, furnaces, and other small-covered surfaces

b. General abatement of asbestos siding or replacement with new siding is not an allowable H&S cost

iv. Biologicals and unsanitary conditions
v. Building structure and roofing
vi. Code compliance
vii. Combustion gases
viii. Unsafe electrical
ix. Formaldehyde, volatile organic compounds (VOCs), flammable liquids, other air pollutants
x. Fuel leaks
xi. Hazardous materials disposal
xii. Injury prevention of occupants and project workers
xiii. Lead based paint
xiv. Mold and moisture
xv. Radon
xvi. Ventilation and indoor air quality
xvii. Window and door replacement, window guards
a. Storm windows
b. Window coverings
1. Purchase of new window guards not allowed

C. ECM improvements do not include installations of new roofs or photovoltaic solar (the CEED Program follows the DOE Weatherization Assistance Program determination that roof replacements and repairs are not energy saving measures (https://www.energy.gov/sites/prod/files/2019/09/f66/WPN-19-5.pdf)). Electrical fuse box/panel upgrades or installations are not included unless accompanied by an approved priority appliance installation. ECM improvements do not include replacement of functional, new (purchased within the last 10 years) appliances.

D. All ECMs and replacement units must meet safety guidelines. Under no circumstance should retrofit work that would exacerbate health and safety problems, for either the occupant or the worker, proceed.

1) All applicable State and local (or Authorities Having Jurisdiction (AHJ)) codes must be followed, and manufacturer approved materials and instructions must be used while installing any ECM.
i. Workers shall know when the AHJ requires a licensed professional to perform a certain task.

E. Replacement appliances shall comply with the minimum standards of energy efficiency for major appliances established by the National Appliance Energy Conservation Act (NAECA) of 1987.

1) Disposal according to applicable State and Federal laws, as appropriate. For Entities that contract out replacement and

disposal to third-party contractors, Entities are responsible for obtaining assurances from the third-party contractor that these items were disposed of according to applicable State and Federal laws, as appropriate.

F. All activities carried out with CEED Program funding must meet the objectives of the program (in addition to meeting the list of eligible activities specified above) ensuring energy bill totals do not increase and ensuring cost limitations are followed. Beneficial electrification or fuel switching measures may be installed as part of the retrofit process but must follow those parameters.

G. The term 'retrofit' is used as 'rehabilitation' implies improvements beyond the scope of an energy efficiency program. Unallowable rehabilitation activities include but are not limited to: creating additions or accessory units, changing floor plans, finishing attics and basements, repairing or replacing plumbing or electrical systems, completing kitchen and bathroom remodeling, renovating or constructing a garage, or installing new roofing/gutters/siding/etc., or major roof repairs.

TABLE 1: Allowable Default ECM Lifetimes

www.energy.gov/sites/default/files/2023-03/WPN%2023-06%20Revised%20Energy%20Audit%20Procedures%20Attachments.pdf

Maximum Lifetimes of Energy Conservation Measures			
#	**Measure Type**	**Measure Name**	**Life (yr.)**
1	Building Insulation	Attic insulation: blown in and batt	30
2	Building Insulation	Attic insulation: all other types	20
3	Building Insulation	Sill box insulation	20
4	Building Insulation	Foundation wall insulation	20
5	Building Insulation	Slab insulation	20
6	Building Insulation	Floor insulation: loose and batt types installed in fully enclosed air-tight cavities, and rigid insulation	30
7	Building Insulation	Floor insulation: all other types including loose and batt not installed in fully enclosed air-tight cavities	20
8	Building Insulation	Wall insulation: dense pack insulation, rigid insulation and full-cavity batt insulation in fully enclosed air-tight cavities	30
9	Building Insulation	Wall insulation: all other types	20
10	Building Insulation	Kneewall insulation: loose and batt types installed in fully enclosed air-tight cavities, and rigid insulation	30

3. 4,000 hours

ATTACHMENT 3: Special Terms and Conditions

The following are incorporated into this Award by reference:

- Ch. 62-17A *et seq.*, NMSA 1978;
- 19.1.10 NMAC;
- The City's application/proposal as approved by ECAM;
- Procurement Code § 13-1-28, *et seq.* NMSA 1978 and § 13-1-191.1 NMSA 1978

1. **Flow Down Requirement:** The City agrees to apply the terms and conditions of this Award, as applicable, including the Intellectual Property Provisions, to all subcontractors (as appropriate), and to require their strict compliance therewith. Further, the City must apply the Award terms to all subcontractors (as appropriate), and to require their strict compliance therewith.

2. **Post-Award Due Diligence Reviews:** During the life of the Award, EMNRD may conduct ongoing due diligence reviews, through Government resources, to identify potential risks. In the event a risk is identified, EMNRD may require risk mitigation measures, including but not limited to, requiring an individual or City not participate in the Award.

3. **Allowable Costs:** ECAM determines the allowability of costs through reference to 2 CFR part 200 as amended by 2 CFR part 910, if applicable. The City is responsible for maintaining records adequate to demonstrate that costs claimed have been incurred, are reasonable, allowable and allocable, and comply with generally accepted accounting principles. The City must document and maintain records of all project costs, including, but not limited to, the costs paid by Federal funds, costs claimed by its subcontractors and project costs that the City claims as cost sharing, including in-kind contributions. Upon request, the City is required to provide such records to ECAM. Such records are subject to audit. Failure to provide ECAM adequate supporting documentation may result in a determination by ECAM that those costs are unallowable.

4. **Budget Amendments:** If any changes to the budget are required, the City shall request a budget amendment from ECAM and the request must be approved prior to implementation. Budget amendments shall be compatible with the terms of this Agreement and of such a nature as to qualify as an allowable cost. Budget amendments requested during the ninety (90) prior to the completion date will be approved on a limited basis.

5. **Subcontractor Change Notification:** Except for subcontractors specifically proposed as part of the City's Application for award, the City must notify ECAM in writing 30 days prior to the execution of new or modified subcontractor agreements, including naming any To Be Determined subcontractors.

6. **Organizational Conflict of Interest:** Organizational conflicts of interest are those where, because of relationships with a parent company, affiliate, or subsidiary organization, the City is unable or appears to be unable to be impartial in conducting procurement action involving a related organization.
The City must disclose in writing any potential or actual organizational conflict of interest to ECAM. The City must provide the disclosure prior to engaging in a procurement or transaction using project funds with a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe.

A. If the effects of the potential or actual organizational conflict of interest cannot be avoided, neutralized, or mitigated, the City must procure goods and services from other sources when using project funds.

B. The City must flow down the requirements of the COI Policy to any subcontractor entities. The City is responsible for ensuring subcontractor compliance with this term. If the City has a parent, affiliate, or subsidiary organization, the City must maintain written standards of conduct covering organizational conflicts of interest.

7. **Financial Conflicts of Interest:** The City must disclose in writing any managed or unmanageable financial conflicts of interest involving a member of the project team and include sufficient information to enable EMNRD to understand the nature and extent of the financial conflict, and to assess the appropriateness of the non-Federal City's management plan.

8. **Penalties**: Failure to follow any of the program guidelines or the provisions laid out in this Agreement can result in EMNRD imposing specific grant requirements or taking one or more of the following actions:

A. temporary withholding of payments until City takes corrective action;

B. disallowance of costs for all or part of the activity associated with the noncompliance of the City;

C. suspension or termination of the grant in part or in its entirety;

D. debarment or suspension of the City;

E. withholding of further funds from EMNRD; or

F. any and all other legal remedies.

9. **Fraud, Waste and Abuse:** The City must disclose, in a timely manner, in writing to EMNRD all violations of Federal or state criminal law involving fraud, bribery, or gratuity violations potentially affecting the award. Failure to make required disclosures can result in any of the remedies described in Section 8, above.

10. **Prevailing Wage Requirements:** This award is funded as a Public Works

program. All laborers and mechanics employed by the City, subcontractors, contractors or subcontractors in the performance of construction, alteration, or repair work in excess of $60,000 on an award funded directly by or assisted in whole or in part by funds made available under this award shall be paid wages at rates not less than those prevailing on similar projects in the locality, as determined by NMDWS or the US Secretary of Labor.

A. Recipients shall provide written assurance acknowledging the Prevailing Wage requirements for the award or project and confirming that all of the laborers and mechanics performing construction, alteration, or repair, through funding under the award are paid or will be paid wages at rates not less than those prevailing on projects of a character similar in the locality.

B. The City must comply with all of the Prevailing Wage requirements, including but not limited to:

1) ensuring that the wage determination(s) and appropriate Prevailing Wage clauses and requirements are flowed down to and incorporated into any applicable subcontracts or subcontractor awards.
2) being responsible for compliance by any subcontractor or subcontractor with the Prevailing Wage labor standards.
3) receiving and reviewing certified weekly payrolls submitted by all subcontractors and subcontractors for accuracy and to identify potential compliance issues.
4) maintaining original certified weekly payrolls for 3 years after the completion of the project and must make those payrolls available to the State, EMNRD or the Department of Labor upon request.
5) conducting payroll and job-site reviews for construction work, including interviews with employees, with such frequency as may be necessary to assure compliance by its subcontractors and subcontractors and as requested or directed by the State or EMNRD.
6) cooperating with any authorized representative of the Department of Labor in their inspection of records, interviews with employees, and other actions undertaken as part of a Department of Labor investigation.
7) posting in a prominent and accessible place the wage determination(s) and Department of Labor Publication: WH-1321, Notice to Employees Working on Federal or Federally Assisted Construction Projects.
8) notifying ECAM of all labor standards issues, including all complaints regarding incorrect payment of prevailing wages and/or

fringe benefits, received from the City, subcontractor, contractor, or subcontractor employees; significant labor standards violations; disputes concerning labor standards; disputed labor standards determinations; Department of Labor investigations; or legal or judicial proceedings related to the labor standards under this GSA, a subcontract, or subcontractor award.

9) preparing and submitting to ECAM, the Prevailing Wage Semi-Annual Labor Compliance information in Quarterly Reports, by April 20 and October 20 of each year.

FIR No. 10728.1

FISCAL IMPACT REPORT

General Information:

(Check) **Bill:** X **Resolution:** _____

Short Title(s): Approving the Execution of a CEED Project

Sponsor(s): Mayor Alan Webber, Councilor Carol Romero-Wirth, Councilor Jamie Cassutt

Reviewing Department(s): _____

Staff Completing FIR: Jesse Roach, Interim Public Utilities Director
Date: 12/5/2025 **Phone:** (505) 955-4309

Reviewed by Finance Director: Emily K. Oster **Date:** 12/05/2025

Summary:
The purpose of this Bill is to approve a Community Energy Efficiency Development ("CEED") block grant from the New Mexico State Energy, Minerals, and Natural Resources Department in the amount of $1,254,170. The grant will provide financing to support affordable housing energy efficiency programs and projects.

Departments Affected:
Public Utilities Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then the City of Santa Fe will not authorize the CEED block grant and obtain $1,254,170 to provide financing to support affordable housing energy efficiency programs and projects.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None.

Performance and Administrative Implications:
The Conservation and Sustainability Division will manage the grant.

Fiscal Implications:
The City of Santa Fe will receive $1,254,170 from the CEED grant and will function as an administrator of the funds. A contractor will executes the work of the grant.

RE: Prohibiting Animals on Medians

EXECUTIVE SUMMARY:
This bill would Amend SFCC 1987, Section 5-2, "Definitions" to define "abandonment" and "unattended animal" as well as prohibit keeping an animal on any median longer than it takes to cross the street, regardless of the owner's presence. It would also increase the fine for abandoning an animal from two hundred dollars ($200) to five hundred dollars ($500). It creates a fine structure for unattended animals—two hundred dollars ($200) for the first offense and five hundred dollars ($500) for subsequent offenses. Lastly, it imposes a fine of two hundred dollars ($200) for keeping an animal on a median.

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2025-22

INTRODUCED BY:

Councilor Jamie Cassutt

Councilor Signe Lindell

A BILL

AMENDING SFCC 1987, SECTION 5-2, TO DEFINE "ABANDONMENT" AND "UNATTENDED ANIMAL"; SECTION 5-5.4 TO PROHIBIT KEEPING AN ANIMAL ON ANY MEDIAN; AND SECTION 5-8.4 TO SPECIFY THAT ABANDONING AN ANIMAL WILL INCUR A FINE; CREATING A NEW SECTION, 5-8.14, "UNATTENDED ANIMAL", PROHIBITING UNATTENDED ANIMALS AND IMPOSING A FINE; AND AMENDING TABLE 15-12.1 TO INCREASE THE FINE FOR ABANDONING AN ANIMAL FROM $200 TO $500, IMPOSE A $200 FINE FOR A FIRST UNATTENDED ANIMAL OFFENSE AND A $500 FINE FOR SUBSEQUENT OFFENSES, AND IMPOSE A $200 FINE FOR KEEPING ANIMALS ON MEDIANS.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 5-2 of SFCC 1987 (being Ord. No. 2020-6, §1) is amended to read:

As used in this chapter:

Abandonment consists of relinquishing ownership of an animal by any person having

underscored material = new [~~bracketed material~~] = delete

charge, custody, or ownership, through any of the following acts:

A. Leaving an animal without adequate food, water or shelter;

B. Leaving an animal in circumstances where the animal's health, safety, or welfare is endangered;

C. Leaving an animal with the intent to permanently give up custody, ownership, or responsibility for the animal without making proper arrangements for the animal's continued care; or

D. Leaving an animal in a confined space without adequate ventilation, temperature control, or means of escape.

Administrator means the person responsible for the operations of the animal services division.

Animal means any vertebrate member of the animal kingdom excluding human beings.

Animal services center means the facility maintained and operated pursuant to the provisions of this chapter.

Animal services officer means an employee of the city, designated as such by the administrator, who has the authority of a peace officer to issue citations for violations of this chapter and performs such other duties relating to animal services as prescribed by the city manager.

Anti-escape provision means any housing, fencing or device which a guard dog cannot go over, under, through or around.

Bite means an actual puncture or tear of the skin inflicted by the teeth of an animal.

Breeder means any person involved in controlled breeding of animals except those complying with subsection 5-9.5 SFCC 1987 for litter fees. Breeders are subject to the professional animal care permit requirements set forth in subsection 5-6.2 SFCC 1987.

Commercial property means:

A. A portion of land, buildings, or land and buildings in the city, zoned for, or utilized

for commercial or business uses, including temporary sites; and

B. Any vehicle utilized for commercial or business purposes in the city.

Cruelty means an overt act committed with the intent to harm or needlessly kill an animal or committed out of depraved indifference for the animal's wellbeing, including but not limited to torture, maiming, beating or otherwise committing violence that causes injury or death.

Dangerous animal means:

A. An animal which, when unprovoked, engages in behavior that requires a defensive action by a person to prevent great bodily harm to a person or domesticated animal provided that the person or the second animal are not on the premises of the owner or person having custody of the first animal; or

B. An animal which, when unprovoked, injures a person but the injury does not result in great bodily harm; or

C. An animal which, because of its poisonous bite or sting, constitutes a significant hazard to the public.

Dog park means an official city designated park or portion thereof where dogs can exercise and run off leash in a safe, secure environment within the established limits and boundaries of an official city designated dog park.

Domestic animal means an animal that is sufficiently tame to live with humans, such as a dog or cat.

Establishment means a place of business together with its grounds and equipment.

Feces means excrement and other waste matter discharged from the bowels of an animal.

Great bodily harm means an injury to a person or domesticated animal which:

A. Creates a high probability of death; or

B. Results in serious disfigurement; or

C. Results in loss of any member or organ of the body; or

D. Results in permanent or prolonged impairment of the use of any member or organ of the body.

Grooming parlor means any establishment, or part thereof, or premises maintained for the purpose of offering animals cosmetic services for profit.

Guard dog means any dog that is utilized to protect commercial property, as defined above.

Guard dog site means any premises utilizing a guard dog that has a current guard dog permit.

Handler means a person who trains dogs for socialization or dog shows or trials or a security person capable of controlling guard dogs.

Handler breeder or hobby breeder means any person involved in controlled breeding of animals that are approved by a nationally recognized animal breeding organization, and are eligible to be so registered.

Heat or season means a regularly recurring state of estrus during which the female animal is capable of attracting or accepting the male for breeding or is capable of conceiving.

Hybrid means an animal created by breeding animals of different species. For purposes of this article, it includes, but is not limited to, the hybrid offspring of domesticated dogs and wolves, or domesticated dogs and coyotes.

Impound means to take-up and confine an animal in a humane manner.

Inspection officer means an animal services officer authorized by ordinance to conduct inspectorial searches.

Inspection order means an order issued by a municipal or district court judge.

Inspectorial search means an entry into and examination of premises for the purpose of ascertaining the existence or nonexistence of conditions dangerous to health or safety or otherwise relevant to the public interest, in accordance with inspection prescribed by this chapter enacted for the promotion of public well-being.

Kennel means any commercial establishment or premises where ten (10) or more dogs or cats, over three (3) months of age, are boarded, kept, or maintained for any purpose whatsoever, with the exception of state-inspected veterinary hospitals and shelters.

Licensed veterinarian means a person with a doctor of veterinary medicine degree, licensed to practice in the state.

Livestock means cattle, horses, mules, donkeys, swine, sheep or goats.

Neglect means an overt act involving failure to provide for animal health or safety, including but not limited to failure to provide adequate food, water, shelter, exercise, or necessary veterinary care to an animal or to adequately confine an animal in a manner appropriate to its species, breed, age and condition.

Nuisance means, but is not limited to defecation, urination, disturbing the peace, emitting noxious or offensive odors, or otherwise endangering or offending the well-being of the inhabitants of the city.

Owner of animal means a person who owns, harbors or keeps, or knowingly permits an animal to be harbored or kept, or has an animal in their care, or who permits an animal to remain on or about their premises.

Person means any individual, household, firm, partnership, corporation, company, society, association, and every officer, agent or employee thereof.

Person in charge means, for the purpose of inspection, the individual present in an establishment who is the apparent supervisor of the establishment at the time of inspection. If no individual is the apparent supervisor, then any employee present shall be considered the person in charge.

Pet shop means any commercial establishment or premises or part thereof maintained for the purchase, sale, exchange of animals of any type, except that the term shall not include livestock auctions.

Playground means an area where outdoor equipment is placed for children to play on, athletic fields such as baseball, football, soccer fields, handball courts, tennis courts, skateboard parks, etc.

Police dog means any dog owned by a public agency and used in law enforcement activities under the direction of a handler.

Premises means a parcel of land and the structures thereon.

Professional animal care business means a business operated by a person or persons that involves live animals, and includes, but is not limited to, animal rescue, animal shelter, boarding kennel, breeder, grooming parlor, grooming service, commercial kennel, pet day care facility, pet day care, pet sitting, pet store, training facility, dog walking, and circus acts.

Professional animal care permit means a permit issued by the city of Santa Fe animal services administrator to a professional animal care business.

Quarantine means to detain or isolate an animal suspected of having a contagious disease.

Restraint means:

A. Confinement within the real property limits of an animal owner where the animal is secured by a leash or lead or is otherwise under the control of a responsible person; or

B. Confinement within a vehicle in a manner that prevents an animal from escaping.

Running at large means not to be confined within a building, shelter, walled or fenced area or secured by a leash, rope, chain or other restraining device, unless under the direct control of the owner/handler or keeper.

Service animal means a dog or miniature horse that is individually trained to do work or perform tasks for a person with a disability.

Shelter means:

A. Any establishment owned and operated by a non-profit humane organization

licensed to do business in the state; or

B. A structure that is moisture-proof, wind-proof, and of suitable size to accommodate an animal, allowing for freedom of movement to make normal postural adjustments, including the ability to stand, turn around, and lie down with limbs outstretched including, but not limited to, a dog house, shed, barn, private residence, or similar structure.

Stray animal means any animal found running at large beyond the boundaries of the premises of the owner unless the animal is within the established limits and boundaries of an official city designated dog park.

Unaltered means not neutered or spayed.

Unattended animal means any animal left in a situation where the animal's immediate welfare may be compromised and the animal is without direct supervision by any person having charge, custody, or ownership, including situations when the animal lacks immediate access to adequate food, water, shelter, or care appropriate to the animal's age, species, and physical condition and when the animal is left beyond reasonable time periods in a vehicle, on chains or tethers, or in yards or enclosures without proper shelter from weather conditions.

Vaccination means protection provided against rabies by inoculation with anti-rabies vaccine recognized and approved by the state.

Vermin means small insects and animals (such as fleas, mice, rats, or gophers) that are sometimes harmful to plants or other animals and that are difficult to get rid of.

Vicious animal means an animal which kills or causes great bodily harm. It does not include an animal that bites, attacks or injures a person or second animal unlawfully upon the premises of the owner or person having custody of the first animal. Any animal that has previously been found to be a dangerous animal may thereafter be deemed vicious upon a second or subsequent offense.

Wild or exotic animal means any animal not normally considered domesticated and shall include, but not be limited to, the following:

A. Class reptilia; order phidia, such as racers, boas, water snakes, and pythons, and order loricata, such as alligators, caymans and crocodiles;

B. The following members of the class aves; order falconiforms, such as hawks, eagles, and vultures, and subdivision ratitae, such as ostriches, rheas, cassowaries, and emus;

C. Class mammalia; order carnivora; family felidae, such as ocelots, margays, tigers, jaguars, leopards, and cougars, except commonly accepted domesticated cats; family canidae, such as wolves, dingos, coyotes and jackals, except commonly accepted domesticated dogs; family mustelidae, such as weasels, martins, mink, badgers, except ferrets, family procynnidae, such as raccoons; family ursidae, such as bears; family pinnipedia such as seals, sea lions and walruses; order marsupialia, such as kangaroos, and common opossums; order edentata, such as sloths, anteaters, and armadillos; order proboscidea, such as elephants; order primata, such as monkeys, chimpanzees, and gorillas; order rodenta, such as porcupines; order ungulata, such as hippopotamuses, giraffes, llamas, antelope, deer, bison and camels but excluding cattle, swine, sheep, and goats; and order euungulata such as rhinoceroses, tapirs, and zebras but excluding horses, ponies, donkeys, burros and mules;

D. Class chondrichthyes, subclass elasmobranchii such as sharks, stingrays and skates; and

E. Hybrids, which includes the offspring of two (2) animals of different races, breeds, species, varieties or genera involving any one or more of the animals mentioned in Subsections A—D above.

Section 2. Section 5-5.4 of SFCC 1987 (being Ord. No. 2020-6, § 2, 3-11-20) is amended to read:

5-5.4 Restraint of animals.

A. Voice command is not an acceptable form of restraint.

B. Except for city permitted events that allow for animals to be present, animals which are not service animals shall not be allowed upon playgrounds or upon the grounds of swimming pools, or within a building, any of which are owned, operated or maintained by the city, nor shall they be allowed upon the premises of public schools, preschool through high school unless permission is obtained from the school official. All animals which are not service animals shall be prohibited in Cathedral Park.

C. Animals shall not be allowed upon a public street, alley, easement, city property or other place open to the public or upon any property other than that of the owner of the animal unless properly restrained. Dogs shall be on a secure leash no longer than six (6) feet in length and under the immediate effective physical control of the person having custody thereof. Longer, retractable leashes may be used, provided the person with the dog is capable of controlling the dog. All other animals must be secured in a fashion acceptable for the species of animal. The person having custody shall be a person of such age and maturity to be reasonably responsible therefor and shall be capable of controlling and restraining the animal. A person inside an enclosed structure shall not be considered to be in the physical control of a dog not in the enclosed structure. The provisions of this paragraph do not apply when an animal is participating in a bona fide animal show or training program which has been authorized by the animal services division or is in a city park designated by the governing body as an off-leash exercise ground for dogs. The provisions also do not apply to police canine units unleashed while on public property while acting in a law enforcement activity.

D. Animals located upon the property of the owner of the animal shall be restrained

in such a manner as to secure the animal, using devices such as a kennel, invisible fencing, or inescapable walled or fenced area. Voice command is not an acceptable form of restraint. The animal shall be restrained in such a way as to prevent the animal from reaching outside the perimeter of the property.

E. Animals shall not be carried in or upon any vehicle in a cruel, inhumane or unsafe manner. An animal carried in the bed of a truck shall be crated or restrained upon a non-metal mat so it cannot fall or jump from the truck or be strangled.

F. It is unlawful to confine a domestic animal by the use of a tether, chain, trolley, or similar restraint. Fixed point tethering of any domestic animal to stationary objects is permitted in limited circumstances such as picnics or gatherings in a park or open space, for emergency purposes to permit an individual to render aid to a human or other animal, and only when the owner is immediately present.

G. It is unlawful for any individual to restrain or have an animal on any median, regardless of the owner's presence, for longer than needed to cross the street.

Section 3. Section 5-8.4 of SFCC 1987 (being Ord. No. 2004-20, § 1) is amended to read:

5-8.4 – Abandonment.

It is unlawful for any person having charge, custody, or ownership to abandon any animal. Persons who are not acting on behalf of the city as an animal services officer may turn over any [~~All~~] animals [~~which~~] that are [~~to be~~] abandoned [~~may be turned over~~] to the animal services center or the animal shelter for adoption.

Section 4. [NEW MATERIAL] A new Section 5-8.14 is hereby ordained to read:

5-8.14 – Unattended animals.

It is unlawful for any person having charge, custody, or ownership to leave an animal unattended.

Section 5. Section 5-12 of SFCC 1987 (being Ord. No. 2020-6, § 9) and the related Table 15-12.1 is amended to read:

5-12 – LICENSES AND PERMIT FEES; FINES AND PENALTIES; OTHER CHARGES; AND ADMINISTRATIVE HEARINGS.

A. Any violation of this chapter shall be punished as provided in Table 5-12.1 below or as provided in Section 1-3 of this Code. If any person is cited for or convicted of cruelty or mistreatment of an animal, the animal shall be removed from the owner's custody and placed with the administrator. The administrator shall develop and alternative payment program for those residents who receive first-time civil citations and who have affirmed their inability to pay the associated fines. as

Table 5-12.1		
[Editor's note: prior rows omitted for brevity]		
Restraint of animals (Section 5-5.4)	Unaltered animal	Altered Animal
1st civil citation in 36 month period	$50	$25
2nd civil citation in 36 month period	$100	$50
3rd civil citation in 36 month period	$250	$125
4th civil citation in 12 month period	$500	$250
Restraint of an animal on any median (first and subsequent offenses) (Section 5-5.4(G))	$200	$200
[Editor's note: rows omitted for brevity]		
Neglect (Sections 5-5.7, 5-5.8, and 5-8.3)		
1st [C]criminal conviction in 48-month	$150	

period	
2nd criminal conviction in 48 month period	$250
3rd criminal conviction in 48 month period	$500 and/or up to ninety (90) days in jail and surrender of animal
Abandonment (Section 5-8.4)	[~~$200~~] $500
Poisoning (Section 5-8.5)	$500 and/or up to ninety (90) days in jail and surrender of animal
Animal fights (Section 5-8.10)	$500 and/or up to ninety (90) days in jail and surrender of animal
Unattended Animals (Section 5-8.14)	
1st offense	$200
Subsequent offenses	$500
Notes: [1] In addition to the fees and fines due to the city, the pet owner shall also be responsible for any and all boarding fees accrued at a shelter and the state spay/neuter deposit, if applicable. [2] Any combination of kennel, grooming parlor, pet shop, or shelter operating as a single business at one location is only required to obtain a single permit. Multiple locations require a permit for each location. [3] Any person who breeds animals shall obtain a breeder permit for each animal, an unaltered license for each animal, and a litter permit for each animal from each litter. [4] Each day violation occurs after the initial citation shall be considered a separate citation or crime. Failure to pay or contest a citation as specified below within fifteen (15) days of the date of the citation shall result in a late fee equal to the original citation.

Summary:
This bill would Amend SFCC 1987, Section 5-2, "Definitions" to define "abandonment" and "unattended animal" as well as prohibit keeping an animal on any median longer than it takes to cross the street, regardless of the owner's presence on or near the median. It would also increase the penalty for abandoning an animal from two hundred dollars ($200) to five hundred dollars ($500). It creates a fine structure for unattended animals—two hundred dollars ($200) for the first offense and five hundred dollars ($500) for subsequent offenses. Lastly, it creates a fine of two hundred dollars ($200) for keeping an animal on a median.

Departments Affected:
Police Department (Animal Services)

Consequences of Not Enacting Legislation:
If this legislation is not adopted, keeping an animal on a median will not be illegal or subject to fine. Nor will Section 5-2 define "abandonment" and "unattended animal". Lastly the penalty for abandoning an animal will remain two hundred dollars ($200), and there would be no penalty for "unattended animals".

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None at this time.

Performance and Administrative Implications:
Adopting this bill has potential implications for improving staff's ability to respond to constituent complaints regarding abandoned and unattended animals.

Fiscal Implications:
**It is difficult to predict the number of violations for future years and whether the citations will result in successful payment of the related fines. However, for reference, no abandonment citations have been issued

in the past two years.

BILL NO. 2025-22

INTRODUCED BY:

Councilor Jamie Cassutt

Councilor Signe Lindell

RED – AMENDMENT A – Councilor Romero-Wirth & Councilor Jamie Cassutt

A BILL

AMENDING SFCC 1987, SECTION 5-2, TO DEFINE "ABANDONMENT" AND "UNATTENDED ANIMAL"; SECTION 5-5.4 TO PROHIBIT KEEPING AN ANIMAL ON ANY MEDIAN; AND SECTION 5-8.4 TO SPECIFY THAT ABANDONING AN ANIMAL WILL INCUR A FINE; CREATING A NEW SECTION, 5-8.14, "UNATTENDED

underscored material = new [~~bracketed material~~] = delete

ANIMAL", PROHIBITING UNATTENDED ANIMALS AND IMPOSING A FINE; AND AMENDING TABLE 15-12.1 TO INCREASE THE FINE FOR ABANDONING AN ANIMAL FROM $200 TO $500, IMPOSE A $200 FINE FOR A FIRST UNATTENDED ANIMAL OFFENSE AND A $500 FINE FOR SUBSEQUENT OFFENSES, AND IMPOSE A $~~200~~ 50 FINE FOR KEEPING ANIMALS ON MEDIANS.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 5-2 of SFCC 1987 (being Ord. No. 2020-6, §1) is amended to read:

As used in this chapter:

Abandonment consists of relinquishing ownership of an animal by any person having charge, custody, or ownership, through any of the following acts:

A. Leaving an animal without adequate food, water or shelter;

B. Leaving an animal in circumstances where the animal's health, safety, or welfare is endangered;

C. Leaving an animal with the intent to permanently give up custody, ownership, or responsibility for the animal without making proper arrangements for the animal's continued care; or

D. Leaving an animal in a confined space without adequate ventilation, temperature control, or means of escape.

Administrator means the person responsible for the operations of the animal services division.

Animal means any vertebrate member of the animal kingdom excluding human beings.

Animal services center means the facility maintained and operated pursuant to the provisions of this chapter.

Animal services officer means an employee of the city, designated as such by the administrator, who has the authority of a peace officer to issue citations for violations of this chapter and performs such other duties relating to animal services as prescribed by the city manager.

Anti-escape provision means any housing, fencing or device which a guard dog cannot go over, under, through or around.

Bite means an actual puncture or tear of the skin inflicted by the teeth of an animal.

Breeder means any person involved in controlled breeding of animals except those complying with subsection 5-9.5 SFCC 1987 for litter fees. Breeders are subject to the professional animal care permit requirements set forth in subsection 5-6.2 SFCC 1987.

Commercial property means:

A. A portion of land, buildings, or land and buildings in the city, zoned for, or utilized for commercial or business uses, including temporary sites; and

B. Any vehicle utilized for commercial or business purposes in the city.

Cruelty means an overt act committed with the intent to harm or needlessly kill an animal or committed out of depraved indifference for the animal's wellbeing, including but not limited to torture, maiming, beating or otherwise committing violence that causes injury or death.

Dangerous animal means:

A. An animal which, when unprovoked, engages in behavior that requires a defensive action by a person to prevent great bodily harm to a person or domesticated animal provided that the person or the second animal are not on the premises of the owner or person having custody of the first animal; or

B. An animal which, when unprovoked, injures a person but the injury does not result in great bodily harm; or

C. An animal which, because of its poisonous bite or sting, constitutes a significant hazard to the public.

Dog park means an official city designated park or portion thereof where dogs can exercise and run off leash in a safe, secure environment within the established limits and boundaries of an official city designated dog park.

Domestic animal means an animal that is sufficiently tame to live with humans, such as a dog or cat.

Establishment means a place of business together with its grounds and equipment.

Feces means excrement and other waste matter discharged from the bowels of an animal.

Great bodily harm means an injury to a person or domesticated animal which:

A. Creates a high probability of death; or

B. Results in serious disfigurement; or

C. Results in loss of any member or organ of the body; or

D. Results in permanent or prolonged impairment of the use of any member or organ of the body.

Grooming parlor means any establishment, or part thereof, or premises maintained for the purpose of offering animals cosmetic services for profit.

Guard dog means any dog that is utilized to protect commercial property, as defined above.

Guard dog site means any premises utilizing a guard dog that has a current guard dog permit.

Handler means a person who trains dogs for socialization or dog shows or trials or a security person capable of controlling guard dogs.

Handler breeder or hobby breeder means any person involved in controlled breeding of animals that are approved by a nationally recognized animal breeding organization, and are eligible to be so registered.

Heat or season means a regularly recurring state of estrus during which the female animal is capable of attracting or accepting the male for breeding or is capable of conceiving.

Hybrid means an animal created by breeding animals of different species. For purposes of this article, it includes, but is not limited to, the hybrid offspring of domesticated dogs and wolves, or domesticated dogs and coyotes.

Impound means to take-up and confine an animal in a humane manner.

Inspection officer means an animal services officer authorized by ordinance to conduct inspectorial searches.

Inspection order means an order issued by a municipal or district court judge.

Inspectorial search means an entry into and examination of premises for the purpose of ascertaining the existence or nonexistence of conditions dangerous to health or safety or otherwise relevant to the public interest, in accordance with inspection prescribed by this chapter enacted for the promotion of public well-being.

Kennel means any commercial establishment or premises where ten (10) or more dogs or cats, over three (3) months of age, are boarded, kept, or maintained for any purpose whatsoever, with the exception of state-inspected veterinary hospitals and shelters.

Licensed veterinarian means a person with a doctor of veterinary medicine degree, licensed to practice in the state.

Livestock means cattle, horses, mules, donkeys, swine, sheep or goats.

Neglect means an overt act involving failure to provide for animal health or safety, including but not limited to failure to provide adequate food, water, shelter, exercise, or necessary veterinary care to an animal or to adequately confine an animal in a manner appropriate to its species, breed, age and condition.

Nuisance means, but is not limited to defecation, urination, disturbing the peace, emitting noxious or offensive odors, or otherwise endangering or offending the well-being of the inhabitants of the city.

Owner of animal means a person who owns, harbors or keeps, or knowingly permits an

animal to be harbored or kept, or has an animal in their care, or who permits an animal to remain on or about their premises.

Person means any individual, household, firm, partnership, corporation, company, society, association, and every officer, agent or employee thereof.

Person in charge means, for the purpose of inspection, the individual present in an establishment who is the apparent supervisor of the establishment at the time of inspection. If no individual is the apparent supervisor, then any employee present shall be considered the person in charge.

Pet shop means any commercial establishment or premises or part thereof maintained for the purchase, sale, exchange of animals of any type, except that the term shall not include livestock auctions.

Playground means an area where outdoor equipment is placed for children to play on, athletic fields such as baseball, football, soccer fields, handball courts, tennis courts, skateboard parks, etc.

Police dog means any dog owned by a public agency and used in law enforcement activities under the direction of a handler.

Premises means a parcel of land and the structures thereon.

Professional animal care business means a business operated by a person or persons that involves live animals, and includes, but is not limited to, animal rescue, animal shelter, boarding kennel, breeder, grooming parlor, grooming service, commercial kennel, pet day care facility, pet day care, pet sitting, pet store, training facility, dog walking, and circus acts.

Professional animal care permit means a permit issued by the city of Santa Fe animal services administrator to a professional animal care business.

Quarantine means to detain or isolate an animal suspected of having a contagious disease.

Restraint means:

A. Confinement within the real property limits of an animal owner where the animal is secured by a leash or lead or is otherwise under the control of a responsible person; or

B. Confinement within a vehicle in a manner that prevents an animal from escaping.

Running at large means not to be confined within a building, shelter, walled or fenced area or secured by a leash, rope, chain or other restraining device, unless under the direct control of the owner/handler or keeper.

Service animal means a dog or miniature horse that is individually trained to do work or perform tasks for a person with a disability.

Shelter means:

A. Any establishment owned and operated by a non-profit humane organization licensed to do business in the state; or

B. A structure that is moisture-proof, wind-proof, and of suitable size to accommodate an animal, allowing for freedom of movement to make normal postural adjustments, including the ability to stand, turn around, and lie down with limbs outstretched including, but not limited to, a dog house, shed, barn, private residence, or similar structure.

Stray animal means any animal found running at large beyond the boundaries of the premises of the owner unless the animal is within the established limits and boundaries of an official city designated dog park.

Unaltered means not neutered or spayed.

Unattended animal means any animal left in a situation where the animal's immediate welfare may be compromised and the animal is without direct supervision by any person having charge, custody, or ownership, including situations when the animal lacks immediate access to adequate food, water, shelter, or care appropriate to the animal's age, species, and physical

condition and when the animal is left beyond reasonable time periods in a vehicle, on chains or tethers, or in yards or enclosures without proper shelter from weather conditions.

Vaccination means protection provided against rabies by inoculation with anti-rabies vaccine recognized and approved by the state.

Vermin means small insects and animals (such as fleas, mice, rats, or gophers) that are sometimes harmful to plants or other animals and that are difficult to get rid of.

Vicious animal means an animal which kills or causes great bodily harm. It does not include an animal that bites, attacks or injures a person or second animal unlawfully upon the premises of the owner or person having custody of the first animal. Any animal that has previously been found to be a dangerous animal may thereafter be deemed vicious upon a second or subsequent offense.

Wild or exotic animal means any animal not normally considered domesticated and shall include, but not be limited to, the following:

A. Class reptilia; order phidia, such as racers, boas, water snakes, and pythons, and order loricata, such as alligators, caymans and crocodiles;

B. The following members of the class aves; order falconiforms, such as hawks, eagles, and vultures, and subdivision ratitae, such as ostriches, rheas, cassowaries, and emus;

C. Class mammalia; order carnivora; family felidae, such as ocelots, margays, tigers, jaguars, leopards, and cougars, except commonly accepted domesticated cats; family canidae, such as wolves, dingos, coyotes and jackals, except commonly accepted domesticated dogs; family mustelidae, such as weasels, martins, mink, badgers, except ferrets, family procynnidae, such as raccoons; family ursidae, such as bears; family pinnipedia such as seals, sea lions and walruses; order marsupialia, such as kangaroos, and common opossums; order edentata, such as sloths,

anteaters, and armadillos; order proboscidea, such as elephants; order primata, such as monkeys, chimpanzees, and gorillas; order rodenta, such as porcupines; order ungulata, such as hippopotamuses, giraffes, llamas, antelope, deer, bison and camels but excluding cattle, swine, sheep, and goats; and order euungulata such as rhinoceroses, tapirs, and zebras but excluding horses, ponies, donkeys, burros and mules;

D. Class chondrichthyes, subclass elasmobranchii such as sharks, stingrays and skates; and

E. Hybrids, which includes the offspring of two (2) animals of different races, breeds, species, varieties or genera involving any one or more of the animals mentioned in Subsections A—D above.

Section 2. Section 5-5.4 of SFCC 1987 (being Ord. No. 2020-6, § 2, 3-11-20) is amended to read:

5-5.4 Restraint of animals.

A. Voice command is not an acceptable form of restraint.

B. Except for city permitted events that allow for animals to be present, animals which are not service animals shall not be allowed upon playgrounds or upon the grounds of swimming pools, or within a building, any of which are owned, operated or maintained by the city, nor shall they be allowed upon the premises of public schools, preschool through high school unless permission is obtained from the school official. All animals which are not service animals shall be prohibited in Cathedral Park.

C. Animals shall not be allowed upon a public street, alley, easement, city property or other place open to the public or upon any property other than that of the owner of the animal unless properly restrained. Dogs shall be on a secure leash no longer than six (6) feet in length and under the immediate effective physical control of the person having custody thereof. Longer,

retractable leashes may be used, provided the person with the dog is capable of controlling the dog. All other animals must be secured in a fashion acceptable for the species of animal. The person having custody shall be a person of such age and maturity to be reasonably responsible therefor and shall be capable of controlling and restraining the animal. A person inside an enclosed structure shall not be considered to be in the physical control of a dog not in the enclosed structure. The provisions of this paragraph do not apply when an animal is participating in a bona fide animal show or training program which has been authorized by the animal services division or is in a city park designated by the governing body as an off-leash exercise ground for dogs. The provisions also do not apply to police canine units unleashed while on public property while acting in a law enforcement activity.

D. Animals located upon the property of the owner of the animal shall be restrained in such a manner as to secure the animal, using devices such as a kennel, invisible fencing, or inescapable walled or fenced area. Voice command is not an acceptable form of restraint. The animal shall be restrained in such a way as to prevent the animal from reaching outside the perimeter of the property.

E. Animals shall not be carried in or upon any vehicle in a cruel, inhumane or unsafe manner. An animal carried in the bed of a truck shall be crated or restrained upon a non-metal mat so it cannot fall or jump from the truck or be strangled.

F. It is unlawful to confine a domestic animal by the use of a tether, chain, trolley, or similar restraint. Fixed point tethering of any domestic animal to stationary objects is permitted in limited circumstances such as picnics or gatherings in a park or open space, for emergency purposes to permit an individual to render aid to a human or other animal, and only when the owner is immediately present.

G. It is unlawful for any individual to restrain or have an animal on any median, regardless of the owner's presence, for longer than needed to cross the street.

Section 3. Section 5-8.4 of SFCC 1987 (being Ord. No. 2004-20, § 1) is amended to read:

5-8.4 – Abandonment.

It is unlawful for any person having charge, custody, or ownership to abandon any animal. Persons who are not acting on behalf of the city as an animal services officer may turn over any [~~All~~] animals [~~which~~] that are [~~to be~~] abandoned [~~may be turned over~~] to the animal services center or the animal shelter for adoption.

Section 4. [NEW MATERIAL] A new Section 5-8.14 is hereby ordained to read:

5-8.14 – Unattended animals.

It is unlawful for any person having charge, custody, or ownership to leave an animal unattended.

Section 5. Section 5-12 of SFCC 1987 (being Ord. No. 2020-6, § 9) and the related Table 15-12.1 is amended to read:

5-12 – LICENSES AND PERMIT FEES; FINES AND PENALTIES; OTHER CHARGES; AND ADMINISTRATIVE HEARINGS.

A. Any violation of this chapter shall be punished as provided in Table 5-12.1 below or as provided in Section 1-3 of this Code. If any person is cited for or convicted of cruelty or mistreatment of an animal, the animal shall be removed from the owner's custody and placed with the administrator. The administrator shall develop and alternative payment program for those residents who receive first-time civil citations and who have affirmed their inability to pay the associated fines. as

Table 5-12.1
[Editor's note: prior rows omitted for brevity]

Restraint of animals (Section 5-5.4)	Unaltered animal	Altered Animal
1st civil citation in 36 month period	$50	$25

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2025-22

INTRODUCED BY:

Councilor Jamie Cassutt

Councilor Signe Lindell

GREEN – AMENDMENT B – Councilor Alma Castro

A BILL

AMENDING SFCC 1987, SECTION 5-2, TO DEFINE "ABANDONMENT" AND "UNATTENDED ANIMAL"; SECTION 5-5.4 TO PROHIBIT KEEPING AN ANIMAL ON ANY MEDIAN; AND SECTION 5-8.4 TO SPECIFY THAT ABANDONING AN ANIMAL WILL INCUR A FINE; CREATING A NEW SECTION, 5-8.14, "UNATTENDED

underscored material = new [~~bracketed material~~] = delete

ANIMAL", PROHIBITING UNATTENDED ANIMALS AND IMPOSING A FINE; AND AMENDING TABLE 15-12.1 TO INCREASE THE FINE FOR ABANDONING AN ANIMAL FROM $200 TO $500, IMPOSE A $200 FINE FOR A FIRST UNATTENDED ANIMAL OFFENSE AND A $500 FINE FOR SUBSEQUENT OFFENSES, AND IMPOSE A $200 FINE FOR KEEPING ANIMALS ON MEDIANS.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 5-2 of SFCC 1987 (being Ord. No. 2020-6, §1) is amended to read:

As used in this chapter:

Abandonment consists of relinquishing ownership of an animal by any person having charge, custody, or ownership, through any of the following acts:

A. Leaving an animal without adequate food, water or shelter;

B. Leaving an animal in circumstances where the animal's health, safety, or welfare is endangered;

C. Leaving an animal with the intent to permanently give up custody, ownership, or responsibility for the animal without making proper arrangements for the animal's continued care; or

D. Leaving an animal in a confined space without adequate ventilation, temperature control, or means of escape.

Administrator means the person responsible for the operations of the animal services division.

Animal means any vertebrate member of the animal kingdom excluding human beings.

Animal services center means the facility maintained and operated pursuant to the provisions of this chapter.

Animal services officer means an employee of the city, designated as such by the administrator, who has the authority of a peace officer to issue citations for violations of this chapter and performs such other duties relating to animal services as prescribed by the city manager.

Anti-escape provision means any housing, fencing or device which a guard dog cannot go over, under, through or around.

Bite means an actual puncture or tear of the skin inflicted by the teeth of an animal.

Breeder means any person involved in controlled breeding of animals except those complying with subsection 5-9.5 SFCC 1987 for litter fees. Breeders are subject to the professional animal care permit requirements set forth in subsection 5-6.2 SFCC 1987.

Commercial property means:

A. A portion of land, buildings, or land and buildings in the city, zoned for, or utilized for commercial or business uses, including temporary sites; and

B. Any vehicle utilized for commercial or business purposes in the city.

Cruelty means an overt act committed with the intent to harm or needlessly kill an animal or committed out of depraved indifference for the animal's wellbeing, including but not limited to torture, maiming, beating or otherwise committing violence that causes injury or death.

Dangerous animal means:

A. An animal which, when unprovoked, engages in behavior that requires a defensive action by a person to prevent great bodily harm to a person or domesticated animal provided that the person or the second animal are not on the premises of the owner or person having custody of the first animal; or

B. An animal which, when unprovoked, injures a person but the injury does not result in great bodily harm; or

C. An animal which, because of its poisonous bite or sting, constitutes a significant hazard to the public.

Dog park means an official city designated park or portion thereof where dogs can exercise and run off leash in a safe, secure environment within the established limits and boundaries of an official city designated dog park.

Domestic animal means an animal that is sufficiently tame to live with humans, such as a dog or cat.

Establishment means a place of business together with its grounds and equipment.

Feces means excrement and other waste matter discharged from the bowels of an animal.

Great bodily harm means an injury to a person or domesticated animal which:

A. Creates a high probability of death; or

B. Results in serious disfigurement; or

C. Results in loss of any member or organ of the body; or

D. Results in permanent or prolonged impairment of the use of any member or organ of the body.

Grooming parlor means any establishment, or part thereof, or premises maintained for the purpose of offering animals cosmetic services for profit.

Guard dog means any dog that is utilized to protect commercial property, as defined above.

Guard dog site means any premises utilizing a guard dog that has a current guard dog permit.

Handler means a person who trains dogs for socialization or dog shows or trials or a security person capable of controlling guard dogs.

Handler breeder or hobby breeder means any person involved in controlled breeding of animals that are approved by a nationally recognized animal breeding organization, and are eligible to be so registered.

Heat or season means a regularly recurring state of estrus during which the female animal is capable of attracting or accepting the male for breeding or is capable of conceiving.

Hybrid means an animal created by breeding animals of different species. For purposes of this article, it includes, but is not limited to, the hybrid offspring of domesticated dogs and wolves, or domesticated dogs and coyotes.

Impound means to take-up and confine an animal in a humane manner.

Inspection officer means an animal services officer authorized by ordinance to conduct inspectorial searches.

Inspection order means an order issued by a municipal or district court judge.

Inspectorial search means an entry into and examination of premises for the purpose of ascertaining the existence or nonexistence of conditions dangerous to health or safety or otherwise relevant to the public interest, in accordance with inspection prescribed by this chapter enacted for the promotion of public well-being.

Kennel means any commercial establishment or premises where ten (10) or more dogs or cats, over three (3) months of age, are boarded, kept, or maintained for any purpose whatsoever, with the exception of state-inspected veterinary hospitals and shelters.

Licensed veterinarian means a person with a doctor of veterinary medicine degree, licensed to practice in the state.

Livestock means cattle, horses, mules, donkeys, swine, sheep or goats.

Neglect means an overt act involving failure to provide for animal health or safety, including but not limited to failure to provide adequate food, water, shelter, exercise, or necessary veterinary care to an animal or to adequately confine an animal in a manner appropriate to its species, breed, age and condition.

Nuisance means, but is not limited to defecation, urination, disturbing the peace, emitting noxious or offensive odors, or otherwise endangering or offending the well-being of the inhabitants of the city.

Owner of animal means a person who owns, harbors or keeps, or knowingly permits an

animal to be harbored or kept, or has an animal in their care, or who permits an animal to remain on or about their premises.

Person means any individual, household, firm, partnership, corporation, company, society, association, and every officer, agent or employee thereof.

Person in charge means, for the purpose of inspection, the individual present in an establishment who is the apparent supervisor of the establishment at the time of inspection. If no individual is the apparent supervisor, then any employee present shall be considered the person in charge.

Pet shop means any commercial establishment or premises or part thereof maintained for the purchase, sale, exchange of animals of any type, except that the term shall not include livestock auctions.

Playground means an area where outdoor equipment is placed for children to play on, athletic fields such as baseball, football, soccer fields, handball courts, tennis courts, skateboard parks, etc.

Police dog means any dog owned by a public agency and used in law enforcement activities under the direction of a handler.

Premises means a parcel of land and the structures thereon.

Professional animal care business means a business operated by a person or persons that involves live animals, and includes, but is not limited to, animal rescue, animal shelter, boarding kennel, breeder, grooming parlor, grooming service, commercial kennel, pet day care facility, pet day care, pet sitting, pet store, training facility, dog walking, and circus acts.

Professional animal care permit means a permit issued by the city of Santa Fe animal services administrator to a professional animal care business.

Quarantine means to detain or isolate an animal suspected of having a contagious disease.

Restraint means:

A. Confinement within the real property limits of an animal owner where the animal is secured by a leash or lead or is otherwise under the control of a responsible person; or

B. Confinement within a vehicle in a manner that prevents an animal from escaping.

Running at large means not to be confined within a building, shelter, walled or fenced area or secured by a leash, rope, chain or other restraining device, unless under the direct control of the owner/handler or keeper.

Service animal means a dog or miniature horse that is individually trained to do work or perform tasks for a person with a disability.

Shelter means:

A. Any establishment owned and operated by a non-profit humane organization licensed to do business in the state; or

B. A structure that is moisture-proof, wind-proof, and of suitable size to accommodate an animal, allowing for freedom of movement to make normal postural adjustments, including the ability to stand, turn around, and lie down with limbs outstretched including, but not limited to, a dog house, shed, barn, private residence, or similar structure.

Stray animal means any animal found running at large beyond the boundaries of the premises of the owner unless the animal is within the established limits and boundaries of an official city designated dog park.

Unaltered means not neutered or spayed.

Unattended animal means any animal left in a situation where the animal's immediate welfare may be compromised and the animal is without direct supervision by any person having charge, custody, or ownership, including situations when the animal lacks immediate access to adequate food, water, shelter, or care appropriate to the animal's age, species, and physical

condition and when the animal is left beyond reasonable time periods in a vehicle, on chains or tethers, or in yards or enclosures without proper shelter from weather conditions.

Vaccination means protection provided against rabies by inoculation with anti-rabies vaccine recognized and approved by the state.

Vermin means small insects and animals (such as fleas, mice, rats, or gophers) that are sometimes harmful to plants or other animals and that are difficult to get rid of.

Vicious animal means an animal which kills or causes great bodily harm. It does not include an animal that bites, attacks or injures a person or second animal unlawfully upon the premises of the owner or person having custody of the first animal. Any animal that has previously been found to be a dangerous animal may thereafter be deemed vicious upon a second or subsequent offense.

Wild or exotic animal means any animal not normally considered domesticated and shall include, but not be limited to, the following:

A. Class reptilia; order phidia, such as racers, boas, water snakes, and pythons, and order loricata, such as alligators, caymans and crocodiles;

B. The following members of the class aves; order falconiforms, such as hawks, eagles, and vultures, and subdivision ratitae, such as ostriches, rheas, cassowaries, and emus;

C. Class mammalia; order carnivora; family felidae, such as ocelots, margays, tigers, jaguars, leopards, and cougars, except commonly accepted domesticated cats; family canidae, such as wolves, dingos, coyotes and jackals, except commonly accepted domesticated dogs; family mustelidae, such as weasels, martins, mink, badgers, except ferrets, family procynnidae, such as raccoons; family ursidae, such as bears; family pinnipedia such as seals, sea lions and walruses; order marsupialia, such as kangaroos, and common opossums; order edentata, such as sloths,

anteaters, and armadillos; order proboscidea, such as elephants; order primata, such as monkeys, chimpanzees, and gorillas; order rodenta, such as porcupines; order ungulata, such as hippopotamuses, giraffes, llamas, antelope, deer, bison and camels but excluding cattle, swine, sheep, and goats; and order euungulata such as rhinoceroses, tapirs, and zebras but excluding horses, ponies, donkeys, burros and mules;

D. Class chondrichthyes, subclass elasmobranchii such as sharks, stingrays and skates; and

E. Hybrids, which includes the offspring of two (2) animals of different races, breeds, species, varieties or genera involving any one or more of the animals mentioned in Subsections A—D above.

Section 2. Section 5-5.4 of SFCC 1987 (being Ord. No. 2020-6, § 2, 3-11-20) is amended to read:

5-5.4 Restraint of animals.

A. Voice command is not an acceptable form of restraint.

B. Except for city permitted events that allow for animals to be present, animals which are not service animals shall not be allowed upon playgrounds or upon the grounds of swimming pools, or within a building, any of which are owned, operated or maintained by the city, nor shall they be allowed upon the premises of public schools, preschool through high school unless permission is obtained from the school official. All animals which are not service animals shall be prohibited in Cathedral Park.

C. Animals shall not be allowed upon a public street, alley, easement, city property or other place open to the public or upon any property other than that of the owner of the animal unless properly restrained. Dogs shall be on a secure leash no longer than six (6) feet in length and under the immediate effective physical control of the person having custody thereof. Longer,

retractable leashes may be used, provided the person with the dog is capable of controlling the dog. All other animals must be secured in a fashion acceptable for the species of animal. The person having custody shall be a person of such age and maturity to be reasonably responsible therefor and shall be capable of controlling and restraining the animal. A person inside an enclosed structure shall not be considered to be in the physical control of a dog not in the enclosed structure. The provisions of this paragraph do not apply when an animal is participating in a bona fide animal show or training program which has been authorized by the animal services division or is in a city park designated by the governing body as an off-leash exercise ground for dogs. The provisions also do not apply to police canine units unleashed while on public property while acting in a law enforcement activity.

D. Animals located upon the property of the owner of the animal shall be restrained in such a manner as to secure the animal, using devices such as a kennel, invisible fencing, or inescapable walled or fenced area. Voice command is not an acceptable form of restraint. The animal shall be restrained in such a way as to prevent the animal from reaching outside the perimeter of the property.

E. Animals shall not be carried in or upon any vehicle in a cruel, inhumane or unsafe manner. An animal carried in the bed of a truck shall be crated or restrained upon a non-metal mat so it cannot fall or jump from the truck or be strangled.

F. It is unlawful to confine a domestic animal by the use of a tether, chain, trolley, or similar restraint. Fixed point tethering of any domestic animal to stationary objects is permitted in limited circumstances such as picnics or gatherings in a park or open space, for emergency purposes to permit an individual to render aid to a human or other animal, and only when the owner is immediately present.

G. It is unlawful for any individual to restrain or have an animal on any median, regardless of the owner's presence, for longer than needed to cross the street.

Section 3. Section 5-8.4 of SFCC 1987 (being Ord. No. 2004-20, § 1) is amended to read:

5-8.4 – Abandonment.

It is unlawful for any person having charge, custody, or ownership to abandon any animal. ~~Persons who are not acting on behalf of the city as an animal services officer may turn over any [All] animals [which] that are [to be] abandoned [may be turned over] to the animal services center or the animal shelter for adoption.~~

Section 4. [NEW MATERIAL] A new Section 5-8.14 is hereby ordained to read:

5-8.14 – Unattended animals.

It is unlawful for any person having charge, custody, or ownership to leave an animal unattended.

Section 5. Section 5-12 of SFCC 1987 (being Ord. No. 2020-6, § 9) and the related Table 15-12.1 is amended to read:

5-12 – LICENSES AND PERMIT FEES; FINES AND PENALTIES; OTHER CHARGES; AND ADMINISTRATIVE HEARINGS.

A. Any violation of this chapter shall be punished as provided in Table 5-12.1 below or as provided in Section 1-3 of this Code. If any person is cited for or convicted of cruelty or mistreatment of an animal, the animal shall be removed from the owner's custody and placed with the administrator. The administrator shall develop and alternative payment program for those residents who receive first-time civil citations and who have affirmed their inability to pay the associated fines.

Table 5-12.1
[Editor's note: prior rows omitted for brevity]

Restraint of animals (Section 5-5.4)	Unaltered animal	Altered Animal
1st civil citation in 36 month period	$50	$25
2nd civil citation in 36 month period	$100	$50
3rd civil citation in 36 month period	$250	$125
4th civil citation in 12 month period	$500	$250
Restraint of an animal on any median (first and subsequent offenses) (Section 5-5.4(G))	$200	$200
[Editor's note: rows omitted for brevity]		
Neglect (Sections 5-5.7, 5-5.8, and 5-8.3)		
1st [€]criminal conviction in 48-month period	$150	
2nd criminal conviction in 48 month period	$250	
3rd criminal conviction in 48 month period	$500 and/or up to ninety (90) days in jail and surrender of animal	
Abandonment (Section 5-8.4)	[~~$200~~] $500	
Poisoning (Section 5-8.5)	$500 and/or up to ninety (90) days in jail and surrender of animal	
Animal fights (Section 5-8.10)	$500 and/or up to ninety (90) days in jail and surrender of animal	
Unattended Animals (Section 5-8.14)		
1st offense	$200	
Subsequent offenses	$500	

Notes:
[1] In addition to the fees and fines due to the city, the pet owner shall also be responsible for any and all boarding fees accrued at a shelter and the state spay/neuter deposit, if applicable.
[2] Any combination of kennel, grooming parlor, pet shop, or shelter operating as a single business at one location is only required to obtain a single permit. Multiple locations require a permit for each location.
[3] Any person who breeds animals shall obtain a breeder permit for each animal, an unaltered license for each animal, and a litter permit for each animal from each litter.
[4] Each day violation occurs after the initial citation shall be considered a separate citation or crime. Failure to pay or contest a citation as specified below within fifteen (15) days of the date of the citation shall result in a late fee equal to the original citation.

Legislation/Amendment/2025/Bill/ Banning Animals on Medians

CITY OF SANTA FE, NEW MEXICO

PROPOSED AMENDMENT(S) TO BILL NO. 2025-22

Banning Animals on Medians

Mayor and Members of the City Council:

This amendment WILL change the caption. _____

This amendment WILL NOT change the caption. __X___

I intend to propose amending Bill No. 2025-22 as follows:

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2025-22

INTRODUCED BY:

Councilor Jamie Cassutt

Councilor Signe Lindell

ORANGE – AMENDMENT C – Councilor Alma Castro

A BILL

AMENDING SFCC 1987, SECTION 5-2, TO DEFINE "ABANDONMENT" AND "UNATTENDED ANIMAL"; SECTION 5-5.4 TO PROHIBIT KEEPING AN ANIMAL ON ANY MEDIAN; AND SECTION 5-8.4 TO SPECIFY THAT ABANDONING AN ANIMAL WILL INCUR A FINE; CREATING A NEW SECTION, 5-8.14, "UNATTENDED

underscored material = new [~~bracketed material~~] = delete

ANIMAL", PROHIBITING UNATTENDED ANIMALS AND IMPOSING A FINE; AND AMENDING TABLE 15-12.1 TO INCREASE THE FINE FOR ABANDONING AN ANIMAL FROM $200 TO $500, IMPOSE A $200 FINE FOR A FIRST UNATTENDED ANIMAL OFFENSE AND A $500 FINE FOR SUBSEQUENT OFFENSES, AND IMPOSE A $200 FINE FOR KEEPING ANIMALS ON MEDIANS.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 5-2 of SFCC 1987 (being Ord. No. 2020-6, §1) is amended to read:

As used in this chapter:

Abandonment consists of relinquishing ownership of an animal by any person having charge, custody, or ownership, through any of the following acts:

A. Leaving an animal without adequate food, water or shelter;

B. Leaving an animal in circumstances where the animal's health, safety, or welfare is endangered;

C. Leaving an animal with the intent to permanently give up custody, ownership, or responsibility for the animal without making proper arrangements for the animal's continued care; or

D. Leaving an animal in a confined space without adequate ventilation, temperature control, or means of escape.

Administrator means the person responsible for the operations of the animal services division.

Animal means any vertebrate member of the animal kingdom excluding human beings.

Animal services center means the facility maintained and operated pursuant to the provisions of this chapter.

Animal services officer means an employee of the city, designated as such by the administrator, who has the authority of a peace officer to issue citations for violations of this chapter and performs such other duties relating to animal services as prescribed by the city manager.

Anti-escape provision means any housing, fencing or device which a guard dog cannot go over, under, through or around.

Bite means an actual puncture or tear of the skin inflicted by the teeth of an animal.

Breeder means any person involved in controlled breeding of animals except those complying with subsection 5-9.5 SFCC 1987 for litter fees. Breeders are subject to the professional animal care permit requirements set forth in subsection 5-6.2 SFCC 1987.

Commercial property means:

A. A portion of land, buildings, or land and buildings in the city, zoned for, or utilized for commercial or business uses, including temporary sites; and

B. Any vehicle utilized for commercial or business purposes in the city.

Cruelty means an overt act committed with the intent to harm or needlessly kill an animal or committed out of depraved indifference for the animal's wellbeing, including but not limited to torture, maiming, beating or otherwise committing violence that causes injury or death.

Dangerous animal means:

A. An animal which, when unprovoked, engages in behavior that requires a defensive action by a person to prevent great bodily harm to a person or domesticated animal provided that the person or the second animal are not on the premises of the owner or person having custody of the first animal; or

B. An animal which, when unprovoked, injures a person but the injury does not result in great bodily harm; or

C. An animal which, because of its poisonous bite or sting, constitutes a significant hazard to the public.

Dog park means an official city designated park or portion thereof where dogs can exercise and run off leash in a safe, secure environment within the established limits and boundaries of an official city designated dog park.

Domestic animal means an animal that is sufficiently tame to live with humans, such as a dog or cat.

Establishment means a place of business together with its grounds and equipment.

Feces means excrement and other waste matter discharged from the bowels of an animal.

Great bodily harm means an injury to a person or domesticated animal which:

A. Creates a high probability of death; or

B. Results in serious disfigurement; or

C. Results in loss of any member or organ of the body; or

D. Results in permanent or prolonged impairment of the use of any member or organ of the body.

Grooming parlor means any establishment, or part thereof, or premises maintained for the purpose of offering animals cosmetic services for profit.

Guard dog means any dog that is utilized to protect commercial property, as defined above.

Guard dog site means any premises utilizing a guard dog that has a current guard dog permit.

Handler means a person who trains dogs for socialization or dog shows or trials or a security person capable of controlling guard dogs.

Handler breeder or hobby breeder means any person involved in controlled breeding of animals that are approved by a nationally recognized animal breeding organization, and are eligible to be so registered.

Heat or season means a regularly recurring state of estrus during which the female animal is capable of attracting or accepting the male for breeding or is capable of conceiving.

Hybrid means an animal created by breeding animals of different species. For purposes of this article, it includes, but is not limited to, the hybrid offspring of domesticated dogs and wolves, or domesticated dogs and coyotes.

Impound means to take-up and confine an animal in a humane manner.

Inspection officer means an animal services officer authorized by ordinance to conduct inspectorial searches.

Inspection order means an order issued by a municipal or district court judge.

Inspectorial search means an entry into and examination of premises for the purpose of ascertaining the existence or nonexistence of conditions dangerous to health or safety or otherwise relevant to the public interest, in accordance with inspection prescribed by this chapter enacted for the promotion of public well-being.

Kennel means any commercial establishment or premises where ten (10) or more dogs or cats, over three (3) months of age, are boarded, kept, or maintained for any purpose whatsoever, with the exception of state-inspected veterinary hospitals and shelters.

Licensed veterinarian means a person with a doctor of veterinary medicine degree, licensed to practice in the state.

Livestock means cattle, horses, mules, donkeys, swine, sheep or goats.

Neglect means an overt act involving failure to provide for animal health or safety, including but not limited to failure to provide adequate food, water, shelter, exercise, or necessary veterinary care to an animal or to adequately confine an animal in a manner appropriate to its species, breed, age and condition.

Nuisance means, but is not limited to defecation, urination, disturbing the peace, emitting noxious or offensive odors, or otherwise endangering or offending the well-being of the inhabitants of the city.

Owner of animal means a person who owns, harbors or keeps, or knowingly permits an

animal to be harbored or kept, or has an animal in their care, or who permits an animal to remain on or about their premises.

Person means any individual, household, firm, partnership, corporation, company, society, association, and every officer, agent or employee thereof.

Person in charge means, for the purpose of inspection, the individual present in an establishment who is the apparent supervisor of the establishment at the time of inspection. If no individual is the apparent supervisor, then any employee present shall be considered the person in charge.

Pet shop means any commercial establishment or premises or part thereof maintained for the purchase, sale, exchange of animals of any type, except that the term shall not include livestock auctions.

Playground means an area where outdoor equipment is placed for children to play on, athletic fields such as baseball, football, soccer fields, handball courts, tennis courts, skateboard parks, etc.

Police dog means any dog owned by a public agency and used in law enforcement activities under the direction of a handler.

Premises means a parcel of land and the structures thereon.

Professional animal care business means a business operated by a person or persons that involves live animals, and includes, but is not limited to, animal rescue, animal shelter, boarding kennel, breeder, grooming parlor, grooming service, commercial kennel, pet day care facility, pet day care, pet sitting, pet store, training facility, dog walking, and circus acts.

Professional animal care permit means a permit issued by the city of Santa Fe animal services administrator to a professional animal care business.

Quarantine means to detain or isolate an animal suspected of having a contagious disease.

Restraint means:

A. Confinement within the real property limits of an animal owner where the animal is secured by a leash or lead or is otherwise under the control of a responsible person; or

B. Confinement within a vehicle in a manner that prevents an animal from escaping.

Running at large means not to be confined within a building, shelter, walled or fenced area or secured by a leash, rope, chain or other restraining device, unless under the direct control of the owner/handler or keeper.

Service animal means a dog or miniature horse that is individually trained to do work or perform tasks for a person with a disability.

Shelter means:

A. Any establishment owned and operated by a non-profit humane organization licensed to do business in the state; or

B. A structure that is moisture-proof, wind-proof, and of suitable size to accommodate an animal, allowing for freedom of movement to make normal postural adjustments, including the ability to stand, turn around, and lie down with limbs outstretched including, but not limited to, a dog house, shed, barn, private residence, or similar structure.

Stray animal means any animal found running at large beyond the boundaries of the premises of the owner unless the animal is within the established limits and boundaries of an official city designated dog park.

Unaltered means not neutered or spayed.

Unattended animal means any animal left in a situation where the animal's immediate welfare may be compromised and the animal is without direct supervision by any person having charge, custody, or ownership, including situations when the animal lacks immediate access to adequate food, water, shelter, or care appropriate to the animal's age, species, and physical

condition and when the animal is left beyond reasonable time periods in a vehicle, on chains or tethers, or in yards or enclosures without proper shelter from weather conditions.

Vaccination means protection provided against rabies by inoculation with anti-rabies vaccine recognized and approved by the state.

Vermin means small insects and animals (such as fleas, mice, rats, or gophers) that are sometimes harmful to plants or other animals and that are difficult to get rid of.

Vicious animal means an animal which kills or causes great bodily harm. It does not include an animal that bites, attacks or injures a person or second animal unlawfully upon the premises of the owner or person having custody of the first animal. Any animal that has previously been found to be a dangerous animal may thereafter be deemed vicious upon a second or subsequent offense.

Wild or exotic animal means any animal not normally considered domesticated and shall include, but not be limited to, the following:

A. Class reptilia; order phidia, such as racers, boas, water snakes, and pythons, and order loricata, such as alligators, caymans and crocodiles;

B. The following members of the class aves; order falconiforms, such as hawks, eagles, and vultures, and subdivision ratitae, such as ostriches, rheas, cassowaries, and emus;

C. Class mammalia; order carnivora; family felidae, such as ocelots, margays, tigers, jaguars, leopards, and cougars, except commonly accepted domesticated cats; family canidae, such as wolves, dingos, coyotes and jackals, except commonly accepted domesticated dogs; family mustelidae, such as weasels, martins, mink, badgers, except ferrets, family procynnidae, such as raccoons; family ursidae, such as bears; family pinnipedia such as seals, sea lions and walruses; order marsupialia, such as kangaroos, and common opossums; order edentata, such as sloths,

anteaters, and armadillos; order proboscidea, such as elephants; order primata, such as monkeys, chimpanzees, and gorillas; order rodenta, such as porcupines; order ungulata, such as hippopotamuses, giraffes, llamas, antelope, deer, bison and camels but excluding cattle, swine, sheep, and goats; and order euungulata such as rhinoceroses, tapirs, and zebras but excluding horses, ponies, donkeys, burros and mules;

D. Class chondrichthyes, subclass elasmobranchii such as sharks, stingrays and skates; and

E. Hybrids, which includes the offspring of two (2) animals of different races, breeds, species, varieties or genera involving any one or more of the animals mentioned in Subsections A—D above.

Section 2. Section 5-5.4 of SFCC 1987 (being Ord. No. 2020-6, § 2, 3-11-20) is amended to read:

5-5.4 Restraint of animals.

A. Voice command is not an acceptable form of restraint.

B. Except for city permitted events that allow for animals to be present, animals which are not service animals shall not be allowed upon playgrounds or upon the grounds of swimming pools, or within a building, any of which are owned, operated or maintained by the city, nor shall they be allowed upon the premises of public schools, preschool through high school unless permission is obtained from the school official. All animals which are not service animals shall be prohibited in Cathedral Park.

C. Animals shall not be allowed upon a public street, alley, easement, city property or other place open to the public or upon any property other than that of the owner of the animal unless properly restrained. Dogs shall be on a secure leash no longer than six (6) feet in length and under the immediate effective physical control of the person having custody thereof. Longer,

retractable leashes may be used, provided the person with the dog is capable of controlling the dog. All other animals must be secured in a fashion acceptable for the species of animal. The person having custody shall be a person of such age and maturity to be reasonably responsible therefor and shall be capable of controlling and restraining the animal. A person inside an enclosed structure shall not be considered to be in the physical control of a dog not in the enclosed structure. The provisions of this paragraph do not apply when an animal is participating in a bona fide animal show or training program which has been authorized by the animal services division or is in a city park designated by the governing body as an off-leash exercise ground for dogs. The provisions also do not apply to police canine units unleashed while on public property while acting in a law enforcement activity.

D. Animals located upon the property of the owner of the animal shall be restrained in such a manner as to secure the animal, using devices such as a kennel, invisible fencing, or inescapable walled or fenced area. Voice command is not an acceptable form of restraint. The animal shall be restrained in such a way as to prevent the animal from reaching outside the perimeter of the property.

E. Animals shall not be carried in or upon any vehicle in a cruel, inhumane or unsafe manner. An animal carried in the bed of a truck shall be crated or restrained upon a non-metal mat so it cannot fall or jump from the truck or be strangled.

F. It is unlawful to confine a domestic animal by the use of a tether, chain, trolley, or similar restraint. Fixed point tethering of any domestic animal to stationary objects is permitted in limited circumstances such as picnics or gatherings in a park or open space, for emergency purposes to permit an individual to render aid to a human or other animal, and only when the owner is immediately present.

G. It is unlawful for any individual to restrain or have an animal on any median, regardless of the owner's presence, for longer than needed to cross the street.

Section 3. Section 5-8.4 of SFCC 1987 (being Ord. No. 2004-20, § 1) is amended to read:

5-8.4 – Abandonment.

It is unlawful for any person having charge, custody, or ownership to abandon any animal. Persons who are not acting on behalf of the city as an animal services officer may turn over any [~~All~~] animals [~~which~~] that are [~~to be~~] abandoned [~~may be turned over~~] to the animal services center or the animal shelter for adoption.

Section 4. [NEW MATERIAL] A new Section 5-8.14 is hereby ordained to read:

5-8.14 – Unattended animals.

It is unlawful for any person having charge, custody, or ownership to leave an animal unattended.

Section 5. Section 5-12 of SFCC 1987 (being Ord. No. 2020-6, § 9) and the related Table 15-12.1 is amended to read:

5-12 – LICENSES AND PERMIT FEES; FINES AND PENALTIES; OTHER CHARGES; AND ADMINISTRATIVE HEARINGS.

A. Any violation of this chapter shall be punished as provided in Table 5-12.1 below or as provided in Section 1-3 of this Code. If any person is cited for or convicted of cruelty or mistreatment of an animal, the animal shall be removed from the owner's custody and placed with the administrator. The administrator shall develop an alternative payment program for those residents who meet one or more of the following circumstances:

a. receive first-time civil citations; and/or

b. ~~who~~ have affirmed their inability to pay the associated fines.

Table 5-12.1		
[Editor's note: prior rows omitted for brevity]		
Restraint of animals (Section 5-5.4)	Unaltered animal	Altered Animal
1st civil citation in 36 month period	$50	$25
2nd civil citation in 36 month period	$100	$50
3rd civil citation in 36 month period	$250	$125
4th civil citation in 12 month period	$500	$250
Restraint of an animal on any median (first and subsequent offenses) (Section 5-5.4(G))	$200	$200
[Editor's note: rows omitted for brevity]		
Neglect (Sections 5-5.7, 5-5.8, and 5-8.3)		
1st [~~C~~]criminal conviction in 48-month period	$150	
2nd criminal conviction in 48 month period	$250	
3rd criminal conviction in 48 month period	$500 and/or up to ninety (90) days in jail and surrender of animal	
Abandonment (Section 5-8.4)	[~~$200~~] $500	
Poisoning (Section 5-8.5)	$500 and/or up to ninety (90) days in jail and surrender of animal	
Animal fights (Section 5-8.10)	$500 and/or up to ninety (90) days in jail and surrender of animal	
Unattended Animals (Section 5-8.14)		
1st offense	$200	
Subsequent offenses	$500	

Notes:
[1] In addition to the fees and fines due to the city, the pet owner shall also be responsible for any and all boarding fees accrued at a shelter and the state spay/neuter deposit, if applicable.
[2] Any combination of kennel, grooming parlor, pet shop, or shelter operating as a single business at one location is only required to obtain a single permit. Multiple locations require a permit for each location.
[3] Any person who breeds animals shall obtain a breeder permit for each animal, an unaltered license for each animal, and a litter permit for each animal from each litter.
[4] Each day violation occurs after the initial citation shall be considered a separate citation or crime. Failure to pay or contest a citation as specified below within fifteen (15) days of the date of the citation shall result in a late fee equal to the original citation.

CITY OF SANTA FE
CITY ATTORNEY

MEMORANDUM

To: **Members of the Governing Body**

From: **Frank Ruybalid, Assistant City Attorney**

Via: **Erin K. McSherry, City Attorney** EM

Re: **Appeal # 2025-11127-APPL of Case # 2025-10494-HDRB.** Property Owner FC3 Ltd. Co. Appeals the Historic Districts Review Board's July 22, 2025, Decision Denying the Project Applicant Archaeo Architects' Request for an Exception to Remove and Replace All Windows and Doors on a Contributing Building at 206 McKenzie St. in the Downtown and Eastside Historic District.

Date: **November 26, 2025, for the December 10, 2025, Governing Body meeting**

The Property owner, FC3 Ltd. Co., and its agents Mindy Hale and Pamela Koster ("Appellants"), have filed an Appeal challenging a decision by the Historic Districts Review Board ("HDRB" or "Board") denying their application to remove and replace certain windows and doors on a historic building at 206 McKenzie Street. The building is a mixed-use commercial and multi-family complex listed as contributing to the Downtown and Eastside Historic District.

The architect, Bradyn Furry (the "Applicant"), proposed several alterations to the building, one of which was to remove and replace all the windows and doors. Three of the proposed alterations required Historic Districts Review Board ("HDRB" or "Board") approval as exceptions to Historic Districts standards in Santa Fe City Code 1987 ("SFCC"), Section 14-5.2(C)(5)(c). In public meetings June 24, 2025, and July 22, 2025, the HDRB approved most of the architect's proposal, including two changes that required exceptions, but the Board denied an exception to remove and replace all the existing windows and doors. The Board approved replacing (or installing in newly created openings) 37 windows and 18 doors, but found that the proposal did not meet the exception criteria for replacing 52 other windows and three other doors. The Appellants appeal the HDRB's denial of this exception.

The Code restricts the replacement of windows and doors on the primary façades of buildings that have a "contributing" designation. The Code requires "historic" windows (generally, those 50 or more years old) on primary façades of contributing buildings to be repaired or restored "wherever possible." **[SFCC Section 14-5.2(D)(5)(a)(i)]**. The Code

permits exceptions to the Historic Districts standards **[SFCC Section 14-5.2(C)(5)(b)]** if the Applicant conclusively demonstrates exception criteria.

In this "de novo" appeal, the Governing Body may uphold or reverse the HDRB's decision to deny the application and the exception. **[SFCC Section 14-2.2(F)]** A "de novo" hearing is one in which the Governing Body conducts an independent application of the law to the evidence to decide whether the facts and the law support the request for an exception.

I. BACKGROUND

A. The Property and its History

The large, complex building at 206 McKenzie Street is a conjoined cluster of structures built in different eras on a 0.6-acre lot. **[Ex. D, Staff Memo, at COSF 34]** (References to page numbers are to the exhibit compilation, preceded by "COSF".) In contrast to other buildings on the street which, consistent with the Historic Districts Code, have earth-toned colors, the Building is white, reflecting the religious beliefs of former owner Edna Ballard, and is commonly called the "White Building." **[Ex. E, Staff Documents, at 124]** Historians have some evidence of man-made structures on the property dating back to 1766, and the original core of the structure appears clearly on an 1846 Territorial engineer's map. **[Ex. E, Staff Documents, at 106-107]** The original Spanish Pueblo style building was developed in a vernacular and accretional manner, undergoing many changes, including alterations of its architectural style to Territorial, then Renaissance Revival. Owners added a two-story addition at the northwest corner in the 1930s, and another second-story addition at the southeast corner in the 1940s. Further additions at the southwest corner were present by 1958, although it is not clear what year they were built. **[Ex. E, Staff Documents, at 58]**

The historic associations of this property are noteworthy. Cleofus Jaramillo, the widow of Territorial Col. V. Jaramillo, lived there for about 10 years from 1923 through the early 1930s, and the house became known as the Cleofus Jaramillo house. **[Ex. E, Staff Documents, at 54-55]** Cleofus Jaramillo's profile in the community was bolstered by her formation of La Sociaded de Folklorico of Santa Fe and publication of her autobiography, *The Romance of a Little Village Girl*. The property became a sanctuary for followers of the I Am religious order after Edna Ballard acquired it in 1942. **[Ex. E, Staff Documents, at 56]** Edna Ballard's husband Guy Ballard had founded the "I Am" religious order in the 1930s, which encouraged its followers to dress and decorate in bright colors and to avoid black and red. Ms. Ballard had all structures on her compound painted white in accordance with I Am's doctrine. **[Ex. E, Staff Documents, at 56, 115]** Ms. Ballard and her son, Donald, were later indicted for and convicted of mail fraud for using the U.S. Mail to defraud persons by seeking donations to a false religion. Famously, the Ballards appealed their convictions to the United States Supreme Court, which overturned the convictions, holding that the First Amendment prohibits juries from deciding the truth or falsity of a defendant's religious beliefs. *United States v. Ballard*, 322 U.S. 78 (1944). **[Ex. E, Staff Documents, at 114]**

In 2013, in Case # H-13-003, the HDRB reviewed the historic status of the property and designated the main structure as contributing and the two carports as non-contributing to the

Downtown and Eastside Historic District. The Board also designated all but the southernmost half of the west elevation and the westernmost third of the south elevation as primary façades. **[Ex. E, Staff Documents, at 124]**

In 2020, Case # 2020-1990-HDRB, the Board approved a list of repairs and renovations proposed by a previous architect, including the repair of various historic windows, replacement of some historic windows deteriorated beyond repair, replacement of some non-historic windows, re-roofing of all the structures, and other alterations. **[Ex. E, Staff Documents, at 124-127]** The present architect, Bradyn Furry, alleges that previous contractors damaged the structure and some of its fixtures by removing historic material, and damaging some walls, making them unstable. **[Ex. G, Applicant Documents, at 136, 145]** Mr. Furry alleges that the previous contractor destroyed, rendered inoperable, and incorrectly sealed and flashed some of the historic windows. **[Ex. C, Minutes, at 23, 27]**

B. Historic District Standards

This property has been designated historically "contributing" under the Historic Districts Code. **[Ex. D, Staff Memo, at 34-35]** SFCC, Section 14-12.1, defines this status level for historic properties:

> CONTRIBUTING STRUCTURE: A structure, located in a historic district, approximately 50 years old or older that helps to establish and maintain the character of that historic district. Although a contributing structure is not unique in itself, it adds to the historic associations or historic architectural design qualities that are significant for a district. The contributing structure may have had minor alterations, but its integrity remains.

[SFCC Section 14-5.2(D)(5)(a)]

All work in the Historic Districts is governed by general design standards, which differ from district to district. The Historic Districts Code also has special protections for certain windows on historic structures. SFCC Section 14-5.2(D)(5)(a)(i) reads, in part:

> For all facades of significant and landmark structures and for the primary facades of contributing structures: . . . Historic windows shall be repaired or restored wherever possible. Historic windows that cannot be repaired or restored shall be duplicated in the size, style, and material of the original.

In accord with this Code section, a window that is (1) historic, (2) on a primary façade, and (3) is not so deteriorated that it cannot be repaired, *must* be repaired or restored. (Alternatively, the Applicant may choose to leave these windows and doors as they are.)

Proposed additions or alterations that do not comply with Code restrictions for significant or contributing buildings are not entirely prohibited; the HDRB can permit them if the property owner or project applicant requests "exceptions" and meets three criteria described in the Code at SFCC Section 14-5.2(C)(5)(b):

(i) Do not damage the character of the district;

(ii) Are required to prevent a hardship to the applicant or an injury to the public welfare; and

(iii) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

The applicant has the burden of "conclusively demonstrating" the exception criteria. **[SFCC Section 14-5.2(C)(5)(b)]**

In their Appeal, the Appellants claim that they met the exception criteria, including hardship, because to repair and restore the windows and doors they cannot replace would require the removal of old jambs and frames, which would damage the jambs and frames beyond repair. **[Ex. A, Verified Appeal Petition ("Petition"), at 3]** Further, Appellants argue that the windows' inadequate flashing is permitting moisture to seep into the walls, deteriorating the adobe, and it would be impossible to install proper flashing without replacing the windows. **[Ex. A, Petition, at 3]** The Appellants also complain that the Board's decision disregarded the written assessment of a professional who evaluates historic windows and concluded that many of these windows and doors were either non-historic or deteriorated beyond repair.

II. PROCEDURAL HISTORY

A. Application for Renovations

In May 2025, Mr. Furry and Archeo Architects submitted an application for several changes, in addition to those approved by the HDRB in 2020. The new proposal included:

- Replacing all the doors and windows
- Install rooftop solar panels and HVAC units
- Install a new pedestrian gate on the north elevation
- Build a steel carport within the courtyard parking lot
- Increase the height of a parapet on the north elevation
- Where needed, replace exterior stucco to match the existing

[Ex. G, Applicant Documents, at 141-142]

Of these six project elements, the Historic Preservation staff determined that three of them – replacing all windows and doors, the new steel carport, and augmenting the northside parapet – would require the Applicant to fulfill the exception criteria in SFCC Section 14-5.2(C)(5)(b). **[Ex. D, Staff Memo, at 34-35]** The Staff set an HDRB hearing on the application for June 24, 2025. The Applicant requested that the HDRB grant the three exceptions, and he offered reasons that he believed fulfilled the criteria for each of the three required exceptions. **[Ex. G, Applicant Documents, at 143-145]**

B. Staff Recommendations

In its Staff Report, the Historic Preservation Staff recommended a finding that the Applicant fulfilled the exception criteria for replacing all windows and doors and for the addition of the steel carport (concealed behind walls off the west façade). **[Ex. D, Staff Memo, at 34]** The HP Staff recommended a finding that the Applicant had *not* fulfilled the exception criteria to extend the parapet. The Staff did not object to the other elements of Mr. Furry's application.

C. Board Decision to Deny Window and Door Replacement

On June 24, 2025, the HDRB held a public hearing about the application and request for the exceptions. Five members of the Board participated in the hearing. Vice Chair John Bienvenu acted as the Chair for the meeting. **[Ex. C, Minutes, at 11]** Because the chair only has a vote in the event of a tie, four members voted. **[City Resolution # 2009-20, Art. 11, § 2(B); Ex. C, Minutes, at 32-33]** The Staff gave a history of the property; described the project application; and recommended that the HDRB deny the exception for the parapet extension, that the HDRB approve the exceptions for the window and door replacement and addition of the carport, and that the remainder of the project proposal be granted. **[Ex. C, Minutes, at 11-12]**

The Board approved all the components for which no exceptions were necessary, granted the exception for the steel carport, and tabled the request for parapet extension to give the Applicant time to redesign it. **[Ex. C, Minutes, at 14, 21]** When the Board took up the window and door replacement, Acting Chair John Bienvenu gave a synopsis of SFCC, Sections 14-5.2(D)(1)(a), which prohibits the removal of historic material, and 14-5.2(D)(5)(a)(i), which protects historic windows on primary façades that are repairable. **[Ex. C, Minutes, at 21, 23]** Both Acting Chair Bienvenu and Member Scott Cherry discussed the history of this building and its prominence in Santa Fe. Both noted that windows are an important part of the integrity of any historic building, and for the Board to carelessly approve window replacement for historic windows that can be repaired would have a huge impact in the district. **[Ex. C, Minutes, at 22-23, 26]** Member Cherry noted, based on a site visit the day before the hearing, that he did not see much evidence that the existing windows were causing damage to the structure, which is a hardship the Applicant claimed in his application. **[Ex. C, Minutes, at 23]**

Board Members had differing interpretations of a report by Ra N. Patterson, RPA & Associates, LLC, who regularly submits reports to the Board on the condition of windows and doors on historic buildings. **[Ex. H, Window Assessment, at 160-166]** Member Jennifer Biedschied noted that Patterson classified windows in "fair" condition when they had 30 to 40 percent deterioration, making them unrepairable, but Acting Chair Bienvenu said the Board should rule only "unsatisfactory" windows to be unrepairable, not windows in "fair" condition. **[Ex. C, Minutes, at 24, 29]** Architect Bradyn Furry and FC3 CEO Pamela Koster addressed the Board on the issue of the feasibility of repair. **[Ex. C, Minutes, at 27]** Furry told the Board that many windows were installed without flashing and insulation, this substandard installation was causing damage to the walls and could not be corrected without replacing the window, which supported his claim under the exception criteria that to replace them prevented a hardship. **[Ex. G, Applicant Documents, at 43]**

Three members of the public addressed the Board, all of them suggesting that the Applicants have Mr. Patterson more clearly explain his criteria for deciding which windows should be replaced and which should be repaired. **[Ex. C, Minutes, at 28]**

In voting on the window and door replacement, the Board decided it would be clearest to make a motion for each of the four elevations, specifying which windows on each elevation could be replaced, which could be repaired **[Ex. C, Minutes, at 30-31]** (There were as many as 34 windows and 5 doors on each elevation.) Board Member Scott Cherry made four motions and the Board voted four times, once for each elevation:

North elevation: Approve replacement of 23 windows and 4 doors, and deny approval to replace 7 windows and 1 door. This motion passed on a vote of 3 to 1. **[Ex. C, Minutes, at 31-32]**

East elevation: Approve replacement of 4 windows and 4 doors, and deny approval to replace 8 windows and 2 doors; passed 3 to 1. **[Ex. C, Minutes, at 32]**

South elevation: Approve replacement of 3 windows and 5 doors, and deny approval to replace 31 windows; passed 3 to 1. **[Ex. C, Minutes, at 32]**

West elevation: Approve replacement of 7 windows and 5 doors, and deny approval to replace 6 windows; passed 3 to 1. **[Ex. C, Minutes, at 32-33]**

For all these votes, Board Members Scott Cherry, Mary Ellen Degnan and Amanda Mather voted yes, and Member Jennifer Biedscheid voted no. **[Ex. C, Minutes, at 31-33]**

The Board's consideration of the Applicants' project proposal was incomplete until its July 22, 2025, meeting, when the Board reviewed the architect's redesign for the north parapet, found the exception criteria had been met, and approved it. **[Ex. B, Findings & Conclusions, at 9-10]** The Appellants request that the Governing Body review the HDRB's denial of their request to replace all the windows and doors.

III. APPEAL TO THE GOVERNING BODY

A. Applicable Code Sections

Under SFCC Section 14-3.17(A)(2), an appeal of an HDRB decision may be filed for one or more of the following reasons:

(a) To contest non-compliance of a final action with Chapter 14 or Sections 3-21-1 through 3-21-14 NMSA 1978 (the New Mexico zoning enabling act);

(b) To contest the application of SFCC Chapter 14; or

(c) To appeal a decision lacking substantial evidence to support it.

B. The Appellants' Claims

In their Verified Appeal Petition ("Petition"), the Appellants claim the HDRB made a

ruling which was not based on the facts of the case. **[Ex. A, Petition, at 3]** They claim as follows:

1. Full removal of the jambs and frames of all windows and doors is the only way to install adequate flashing, removing them will damage them beyond repair, and many are already damaged to the point that they cannot be restored to their historic condition. "Repairing" these would still require replacement of most of the historic materials. **[Ex. A, Petition, at 3]**

2. The window assessment by Ra Patterson, RPA & Associates, LLC, is based on many site visits and extensive study of each window and door, and his informed conclusion is that the doors and windows have been damaged beyond the point where they can be restored to their historic design and function. **[Ex. A, Petition, at 3]**

3. Analysis by some Board members who voted to deny the window and door replacement completely disregarded the window and door assessment by Ra Patterson, devising their own assessment criteria based on a single site visit at which they did not examine each window and door in detail. **[Ex. A, Petition, at 3]**

4. Inconsistencies and errors in the specification of the windows and doors to be restored make it impossible to comply with the Board's determination; for example, by requiring repair to doors and windows that had been deemed non-historic and were removed during the previous work on the building. **[Ex. A, Petition, at 4]**

These arguments may be characterized as a challenge under SFCC Section 14-3.17(A)(2)(c), that the HDRB's decision lacked substantial evidence to support it.

IV. ANALYSIS

A. <u>Evidence Considered by the Board</u>

The Board's comments addressed the impact to historic integrity of comprehensive window and door replacement to this and other buildings, and the impact to the character of the Historic Districts; and whether the condition of the existing windows was causing damage and would continue causing damage to the building. As these facts apply to the exception criteria under SFCC Sections 14-5.2(5)(b)(i) (will cause no damage to the character of the district) and 14-5.2(5)(b)(iii) (are required to prevent a hardship to the applicant or injury to the public welfare), the Governing Body may consider:

1. Whether there is a hardship to the Applicants by requiring them to repair the windows for which exceptions were denied:

Member Cherry is the President of Lightfoot, Inc., a construction company specializing in natural building and design, and extensively involved in historic restoration. **[Ex. C, Minutes, at 26, 28]** He said that many of the windows were open during the HDRB's site visit (June 23, 2025), and he looked at them closely to get an idea of their condition. He said that much of the historic material, such as the interior trim and sashes, can be reused. **[Ex. C, Minutes, at 25-26]**

Member Cherry disagreed that the original installation of the windows was defective, and reasoned that many historic windows in the Historic Districts do not have "buck" frame inserts, and they have remained functional for over 100 years. Of the windows on the south, primary façade, Member Cherry said he saw little evidence during the site visit that moisture is leaking between the window and the wall. **[Ex. C, Minutes, at 23]**

2 & 3. Whether Ra Patterson's window assessment is "substantial evidence," a basis for appeal under SFCC Section 14-3.17(A)(2)(c), conclusively demonstrating the hardship of repairing the windows for which an exception was denied:

Although Ra Patterson can give an opinion based on his expertise, similarly to an expert witness in a trial, New Mexico law holds that a fact-finder is not bound by the opinion evidence of expert witnesses. *Martinez v. Martinez*, 1984-NMCA-026, 101 N.M. 493, 684 P.2d 1158.

Further, Ra Patterson's window assessment does not specifically declare which windows are repairable and which windows are deteriorated beyond repair. **[Ex. H, Window Assessment, at 161-166]** Rather, Mr. Patterson's assessment categorizes windows and doors on a scale from "premium" to "unsatisfactory." The "fair" category is for windows with exterior finishes that are cracked and peeled, putty glazing that is cracking or missing on 30 to 40 percent of the sashes, and "all sashes, frames, and casings have some members 30% to 40% completely deteriorated." **[Ex. H, Window Assessment, at 161]** Windows categorized as "unsatisfactory" have exterior finishes that are completely deteriorated, putty glazing mostly missing, and "all sashes, frames and casing members have more than 30% - to 40% deterioration, beyond repair." **[Ex. H, Window Assessment, at 161]**

Thus, for windows deemed "fair," Mr. Patterson has not given his opinion whether they can be repaired, and the Board has discretion how to decide this question, and whether a 30- to 40-percent deterioration of "some members" makes the window unrepairable. Also, the Board must consider whether all the evidence, including photos and personal observations during site visits, support Patterson's perspective.

4. Whether errors in specifying which windows and doors cannot be replaced demonstrate that the Board disregarded the substantial evidence favoring an exception:

The Appellants give no indication which windows or doors they believe the HDRB erroneously protected, and for a building with 89 windows and 21 doors it is impossible to know which doors and windows the Appellants are referring to without more specificity. However, it is clear that the Board members paid careful attention to Mr. Patterson's door and window assessment and, for the most part, accepted his conclusions which doors and windows were historic. For example, the Board permitted replacement of the three windows labeled H, nine windows in the DD cluster, and 11 windows in the TT cluster on the north elevation; replacement of windows J, EE, FF and YY on the east; replacement of windows D, Q and XX on the south; and replacement of windows C and F on the west. **[Ex. C, Minutes, at 31-33]** The H, DD, TT, J, EE and FF windows clearly are on primary façades, but Mr. Patterson concluded that all these windows are non-historic. **[Ex. H, Window Assessment, at 155, 157-158]** Non-historic windows would not be protected under SFCC Section 14-5.2(D)(5)(a)(i), even

on primary façades.

Further, the windows and doors for which the Board would not approve replacement were all designated historic by Mr. Patterson and are on primary façades, with one exception. The exception was window I on the primary, north elevation, a steel casement window set in a wood jamb, which Patterson found to be non-historic. **[Ex. H, Window Assessment, at 155]** However, Member Cherry found it to be historic based on its materials and construction and noted that his conclusion differed from Mr. Patterson's when Member Cherry made the motion to deny its replacement. **[Ex. C, Minutes, at 30-31]**

The floor plan of this iconic property is, no doubt, complicated, with elevations that abut the sidewalk, elevations that are set back in courtyards, insets with small windows, and architectural protrusions with walls facing three directions. Nonetheless, it is clear from the various floor plans, elevation drawings, Mr. Patterson's detailed window assessment and Member Cherry's specificity when he made his motions, that the Board gave ample consideration to all available evidence.

B. Standard of Review

On appeal, the Governing Body should determine whether there is substantial evidence to support the exceptions. **[SFCC Section 14-3.17(A)(2)(c)]** The Governing Body should independently apply the Code provisions described above to the facts of this case. *See* Appendix, SFCC Sections 14-5.2(C)(5)(b)(i-iii), 14-5.2(D)(1)(a) and 14-5.2(D)(5)(a)(i).

V. CONCLUSION

In considering the Appellant's appeal, the Governing Body must address the following question:

Have the Appellants conclusively demonstrated they fulfill the three criteria for an exception to the Historic District standards?

If the answer is "**no**," deny the appeal.

If the answer is "**yes**," state the facts supporting each of the three criteria.

VI. MOTION OPTIONS

There are two options for motions in this case:

Motion 1: I move to deny the appeal, on the grounds that the Historic Districts Code prohibits the replacement of repairable historic windows on the primary façades of contributing structures in the Historic Districts, and the Appellants have not conclusively demonstrated the three criteria for an exception to these standards.

Motion 2: I move to grant the appeal, on the grounds that the Appellants have

conclusively demonstrated the three exception criteria for replacement of historic windows on the primary façades of a contributing structure in a Historic District because [insert the facts supporting the exception criteria].

APPENDIX:
EXCERPTS FROM SANTA FE CITY CODE

§ 14-5.2 – Historic Districts

(A) General Provisions

(1) General Purpose

In order to promote the economic, cultural, and general welfare of the people of the city and to ensure the harmonious, orderly and efficient growth and development of the city, it is deemed essential by the governing body that the qualities relating to the history of Santa Fe, and a harmonious outward appearance, which preserve property values and attract tourists and residents alike, be preserved, some of these qualities being:

(a) The continued existence and preservation of historical areas and buildings;

(b) The continued construction of buildings in the historic styles; and

(c) A general harmony as to style, form, color, height, proportion, texture and material between buildings of historic design and those of more modern design.

. . .

(C) Regulation of Significant and Contributing Structures in the Historic Districts

(1) Purpose and Intent

It is intended that:

(a) Each structure to be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as the addition of conjectural features or architectural elements from other buildings, shall not be undertaken;

(b) Changes to structures that have acquired historic significance in their own right shall be retained and preserved, recognizing that most structures change over time;

(c) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a structure be preserved; and

(d) New additions and related or adjacent new construction be undertaken in such a manner that if removed in the future, the original form and integrity of the historic property and its environment would be unimpaired.

. . .

(5) Exceptions

Staff shall determine if an exception to this section is required. The historic board may grant or deny an exception to the regulations set forth in this section provided that such exception does not exceed the underlying zoning.

. . .

(b) Design Standards and Signage:

The board is the city administrative board reviewing and granting or denying requests for exceptions from standards set forth in Subsections 14-5.2(D)(1-8, 10, 11) and 14-5.2(E) through (I) for construction or alterations within the historic districts, and in 14-8.10(H), for signs in historic districts. . . . Exceptions are project specific and do not apply to the subject property in perpetuity. In order to approve an exception, the board shall make findings of fact that the applicant conclusively demonstrated that requested exceptions comply with all the criteria listed as follows:

(i) Do not damage the character of the district;

(ii) Are required to prevent a hardship to the applicant or an injury to the public welfare; and

(iii) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

(D) General Design Standards for All H Districts

In any review of proposed additions or alterations to structures that have been declared significant or contributing in any historic district or a landmark in any part of the city, the following standards shall be met:

(1) General:

(a) The status of a significant, contributing, or landmark structure shall be retained and preserved. If a proposed alteration will cause a structure to lose its significant, contributing, or landmark status, the application shall be denied. The removal of historic materials or alteration of architectural features and spaces that embody the status shall be prohibited.

(b) If a proposed alteration or new construction will cause an adjacent structure to lose its significant, contributing, or landmark status, the application may be denied.

. . .

(5) Windows, Doors, and Other Architectural Features:

(a) For all façades of significant and landmark structures and for the primary façades of contributing structures:

(i) Historic windows shall be repaired or restored wherever possible. Historic windows that cannot be repaired or restored shall be duplicated in the size, style, and material of the original. Thermal double pane glass may be used. No opening shall be widened or narrowed.

§ 14-12.1 – Definitions

CONTRIBUTING STRUCTURE

A structure, located in a historic district, approximately fifty years old or older that helps to establish and maintain the character of that historic district. Although a contributing structure is not unique in itself, it adds to the historic associations or historic architectural design qualities that are significant for a district. The contributing structure may have had minor alterations, but its integrity remains.

HISTORIC STRUCTURE

A structure that is fifty years old or older.

PRIMARY FAÇADE

One or more principal faces or elevations of a building with features that define the character of the building's architecture.

Appeal # 2025-11127-APPL of Case # 2025-10494-HDRB, 206 McKenzie St.

Appeal by FC3 Ltd. Co. of HDRB Denial

Have the Appellants conclusively demonstrated ALL THREE CRITERIA for an EXCEPTION to Historic District standards:

- **Prohibiting removal of historic material, and**
- **Prohibiting replacement of repairable historic windows on primary façades?**

The deviation:

(1) Does not damage the character of the district

NO → **DENY the appeal**

YES

(2) Is required to prevent a hardship to the applicant or an injury to the public welfare

NO → **DENY the appeal**

YES

(3) Strengthens the City's unique heterogeneous character by providing a full range of design options to ensure that residents can continue to reside in the Historic Districts

NO → **DENY the appeal**

YES → **GRANT the appeal**

CITY OF SANTA FE

VERIFIED APPEAL PETITION
PLUD-17

BASIS OF STANDING (SECTION 14-3.17 SFCC)

Basis for Appeal: ✓ The facts were incorrectly determined Ordinance/laws were violated and/or misrepresented

Description of the final action appealed from, and date on which final action was taken:

July 22, 2025: Motion 4A, 4B, 4C, 4D: A list of windows and doors approved for replacement and those denied replacement.

✓ Check here if you have attached a copy of the final action that is being appealed.

A. DESCRIPTION OF HARM Describe the harm that would result to you from the action appealed (attach additional pages if necessary):

Please see attached.

B. EXPLAIN THE BASIS FOR APPEAL Please detail the basis for Appeal here (be specific):

Please see attached.

SIGNATURE & VERIFICATION

I hereby certify that the documents submitted for review and consideration by the City of Santa Fe have been prepared to meet the minimum standards outlined in the Land Development Code, Chapter 14 SFCC 2001. Failure to meet these standards may result in the rejection or postponement of my application. I also certify that I have met with the City's Current Planning staff to verify that the attached proposal is in compliance with the City's zoning requirements.

Appellant Signature: _____ Date: 8/30/2025

DESCRIPTION OF HARM
Describe the harm that would result to you from the action appealed:

If repair were attempted, the windows and doors will continue to deteriorate and allow moisture into the wall to accelerate the deterioration of the building wall structure. To keep this from happening, the doors and windows need to be flashed correctly with the existing building. The only way to do this properly is to flash between the door and window jambs/frames which requires full removal of the jambs and frames. Since the existing doors and window jambs and frames are also providing structural support for the building, removing these would damage them beyond repair, leaving inadequate material to work with. Leaving damaged jambs and frames in place or not performing the correct flashing will further damage the building and weaken its integrity. In essence, this will cause deterioration to the building at the expense of just saving door and window units that cannot be brought back to their previous historic status anyway. The windows and doors have already been damaged to the point they cannot be brought back to their original historic aesthetic and function. Trying to do so defeats the purpose of what repairing historic elements are meant to achieve. No amount of work done will be able to refurbish the detailing of the window profiles and functions.

EXPLAIN THE BASIS FOR APPEAL Please detail the basis for Appeal here (be specific):

1. Ra Patterson of RPA & Associates, LLC., preapproved by the City, was retained to assess the condition and viability of repairing the doors and windows of the building as required by the Historic Design Review Board. After numerous site visits over numerous days and extensive individual study of each of the windows and doors, he prepared a comprehensive report addressing the viability of repairing each door and window located on the building. As part of that report, a summary was provided which stated that to varying degrees, each of the doors and windows on the building had been damaged beyond the point they could be repaired to match their previous historic design.
2. During the HDRB meeting where the replacement of the windows and doors was discussed and voted on, the Board, except for member Biedscheid, completely ignored the assessment report provided as part of the review package and voted with member Cherry who devised his own assessment during the meeting. His conclusions were not based on a thorough assessment of the doors and windows but from a very abbreviated site visit where he did not even attempt to operate any of the doors and windows in question and certainly did not conduct anything near a thorough examination.

3. During the voting, member Biedscheid stated the fact that it is not the Review Board's purview to create their own assessments but rather rely on the reports provided by preapproved assessors, using the findings of those reports for the basis of their decisions. The Board in effect completely ignored the assessment report provided and instead relied on a determination of another Board member. As such, the impromptu determination had inconsistencies and errors in its determination. The motions referred to wrong door and window locations, requiring repair to doors and windows that were no longer in existence that had been removed with previous work on the building, and requiring repair to doors and windows which had already been deemed non-historic to name but a few.
4. When the HDRB decides to completely ignore an assessment, which the Board requires for evaluation, the validity of their subsequent decisions on the assessment becomes suspect when they are not adhering to the Board's own requirements. Had the Board member(s) performed their own detailed assessment, studying each door and window in depth as the hired historian had, then such impromptu evaluation may have some validity.

EXHIBIT B

City of Santa Fe
Historic Districts Review Board
Findings of Fact and Conclusions of Law

Case # 2025-10494-HDRB
Address – 206 McKenzie St.
Agent's Name – Bradyn Furry, Archaeo Architects
Owner/Applicant's Name – Mindy Hale

THIS MATTER came before the Historic Districts Review Board ("Board") for hearings on June 24, 2025, and July 22, 2025.

BACKGROUND

The large, complex building at 206 McKenzie St. is a conjoined cluster of structures built in different eras on a .6-acre lot. The original core of the structure appears on an 1848 fire insurance map. The original Spanish Pueblo style building developed in a vernacular and accretional manner, undergoing many changes, including alterations of its architectural style to Territorial, then Renaissance Revival. Owners added a two-story addition at the northwest corner in the 1930s, and another second-story addition at the southeast corner in the 1940s. Further additions at the southwest corner were present by 1958, although it is not clear what year they were built.

Cleofus Jaramillo, the widow of Territorial Col. V. Jaramillo, lived there from 1923 through the early 1930s, and the house became known as the Cleofus Jaramillo house. Her profile in the community was bolstered by her formation of La Sociaded de Folklorico of Santa Fe and publication of her autobiography, *The Romance of a Little Village Girl*. In 1942 the property was acquired by Edna Ballard, whose husband Guy Ballard had founded the "I Am" religious order. I Am encouraged its followers to dress and decorate in bright colors, and Ms. Ballard had all structures on the compound painted white in accordance with I Am's doctrine. Ms. Ballard and her son, Donald, were later indicted for and convicted of mail fraud for using the U.S. Mail to seek donations to a "false religion." In 1944 the U.S. Supreme Court overturned the convictions, holding that the First Amendment prohibits juries from deciding the truth or falsity of a defendant's religious beliefs. *United States v. Ballard*, 322 U.S. 78 (1944).

In 2013, in Case # H-13-003, the HDRB reviewed the historic status of the property and designated the main structure as contributing to the Downtown and Eastside Historic District. The Board also designated all but the southernmost half of the west elevation and the westernmost third of the south elevation as primary façades. In 2020, Case # 2020-1990-HDRB, the Board approved repairs and renovations proposed by another, earlier architect, including the repair of some historic windows, replacement of some historic windows deteriorated beyond repair, replacement of some non-historic windows, re-roofing of all structures, and other alterations. The present architect, Bradyn Furry, alleges that those contractors damaged the structure and some of its fixtures, removing historic materials, and damaging some walls. Mr. Furry reports that that contractor destroyed some historic windows, rendered others inoperable, and incorrectly sealed and flashed some.

At this hearing, the Applicant requests Board approval of the following items:

1) Replace all the doors and windows, for which exceptions are requested to Santa Fe City Code ("SFCC") Sections 14-5.2(D)(1)(a) for the removal of historic material and 14-5.2(D)(5)(a)(1) for replacement of repairable historic windows on a primary façade.
2) Construct a new steel carport within the existing auto courtyard, for which an exception is requested to SFCC Section 14-5.2(E) for use of exposed steel as a structural material in the Downtown and Eastside Historic District.
3) Increase the height of a north-elevation parapet by 3'3" from 14'½" to 17'3", from a previously approved parapet alteration, for which an exception is requested to SFCC Section 14-5.2(D)(2)(c) for creating an addition to a primary façade.
4) Install roof-mounted HVAC units and solar collectors.
5) Construct a new pedestrian gate on the McKenzie Street façade.
6) Re-stucco the exterior of the structure with new stucco to match the existing.

FINDINGS OF FACT

After conducting a public hearing and having heard from the Applicant and all interested persons, the Board hereby FINDS, as follows:

1. Land Use Department Staff conducted a preliminary zoning review ("PZR") and determined that the application meets the underlying zoning standards set forth in the Santa Fe City Code.
2. Historic Preservation Division Staff reviewed the application and related materials and information submitted by the Applicant for conformity with applicable Code requirements and provided to the Board a written report of its findings ("Staff Report"), which evaluates the factors relevant to the application.
3. Historic Preservation Division Staff Recommendation: Staff recommended approval of Items 1-2 and 4-6 of the proposed project and found that the application complied with SFCC Section 14-5.2(D), General Design Standards for all Historic Districts, and 14-5.2(E), Downtown and Eastside Design Standards. Staff recommended findings that the exception criteria had been met for Items 1 (door and window replacement) and 2 (steel carport), but that the exception criteria had not been met for Item 3, addition and height increase to the parapet on the north-elevation facade. Staff recommended that the Applicant find other design options for the parapet, including lowering it to be subservient to the adjacent historic parapet.
4. The project is subject to SFCC Section 14-5.2(C), Regulation of Significant and Contributing Structures.
5. The project is subject to the requirements and general design standards set forth in SFCC Section 14-5.2(D), General Design Standards.
6. The property is located in the Downtown and Eastside Historic District and is subject to the district design standards set forth in SFCC Section 14-5.2(E).
7. Under SFCC Sections 14-2.6(B-C), 14-5.2(A)(1), 14-5.2(C)(2)(a-d & f), 14-5.2(C)(3)(a-b), 14-5.2(C)(4) and 14-5.2(D), the Board has authority to review, approve, with or without conditions, or deny, all or some of the Applicant's proposed design to assure overall compliance with applicable design standards.

Window and Door Replacement

8. Under SFCC Section 14-5.2(D)(1)(a), removal of historic materials from a significant, contributing or landmark structure is prohibited.
9. Under SFCC Section 14-5.2(D)(5)(a)(i), historic windows on all façades of significant and landmark structures, and historic windows on the primary façades of contributing structures, shall be repaired or restored wherever possible.
10. The Applicant proposes to replace all the doors and windows on this contributing structure, including historic windows on the primary façades, which would result in the removal of historic material and replacement of historic windows that are repairable on primary façades.
11. The Staff determined that exceptions to SFCC Section 14-5.2(D)(1)(a) and 14-5.2(D)(5)(a)(i) would be required for approval of Item # 1 in the application, and the Applicant requested the exceptions.
12. To obtain an exception, the Applicant was required to conclusively demonstrate that the three exception criteria set forth in SFCC Section 14-5.2(C)(5)(b) have been met specifically for Item # 1 of the application.
13. Based on the information set forth in the Staff Report and exhibits, and the evidence and testimony presented at the hearing, the Board finds that the Applicant has **not** conclusively demonstrated that the exception criteria have been met for replacement of: windows E, OO (three) and NN (three) on the west, primary elevation; windows G, I, PP and SS, and door 6 on the north, primary elevation; window K and doors 7 and 9 on the east, primary elevation, and windows Z, BB (three), QQ (two) and RR on an east-facing façade in the northeast courtyard; and windows L, N, M, O, P, R, S (three), T (three), U, V (two), W (two), GG (three), HH (three), II, JJ (two), LL (three), KK (three), MM (three) on the south, primary elevation:
    a. Pursuant to SFCC Section 14-5.2(C)(5)(b)(i), the Board finds that granting the exception would damage the character of the district because the proposal to replace all the windows and doors is grand in scale, involving the replacement of 54 historic windows and three historic doors on primary elevations of a contributing structure at a prominent location in the Downtown and Eastside Historic District;
    b. Pursuant to SFCC Section 14-5.2(C)(5)(b)(ii), the Board finds that the exception is not required to prevent a hardship to the Applicant or an injury to the public welfare because there is no clear evidence these windows and doors are deteriorated beyond repair, no persuasive evidence that they cannot be restored, and no substantial evidence that their present condition contributes to the deterioration of the structure; and
    c. Pursuant to SFCC Section 14-5.2(C)(5)(b)(iii), the Board finds no substantial evidence that granting the exception would strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the Historic Districts.
14. The Board approves the replacement of: doors 2, 3, 4 and 5, and windows C, D, F and ZZ (four) on the west elevation, and window YY on a west-facing façade in the northeast courtyard; windows H (three) on the north elevation, and windows DD (nine) and TT (eleven), and door 19 on a north-facing façade in the northeast courtyard; windows J, EE (two) and FF (two), and doors 8 and 18 on the east elevation, and window Y and door 15

on east-facing façades in the northeast courtyard; windows X (two) and doors 10, 11 and 14 on the south elevation, and window Q and door 12 on an east-facing façade on the south elevation. These doors and windows are either on non-primary façades or the evidence demonstrates that they are not historic.

15. On the primary, east elevation, the Board approves the Applicant's proposal to move doors 7 and 9 to a lower position within their existing openings, in conjunction with their restoration.

Steel-Framed Carport

16. Under SFCC Section 14-5.2(E)(1)(e), Old Santa Fe style buildings must be constructed of adobe with a mud plaster finish, or constructed of blocks, bricks or other materials with a simulated adobe effect.
17. The Applicant proposes to construct a carport off the west elevation which would consist of exposed steel members, which is inconsistent with the Old Santa Fe style requirement of an adobe effect.
18. The Staff determined that an exception to SFCC Section 14-5.2(E)(1)(e) would be required for approval of Item # 2 of the application, and the Applicant requested the exception.
19. To obtain an exception, the Applicant was required to conclusively demonstrate that the three exception criteria set forth in SFCC Section 14-5.2(C)(5)(b) have been met specifically for Item # 2 of the application.
20. Based on the information set forth in the Staff Report and exhibits, and the evidence and testimony presented at the hearing, the Board finds that the Applicant has conclusively demonstrated that all exception criteria have been met for construction of a steel-framed carport, to a height of 8'8", in the auto court on the westernmost part of the property:
    a. Pursuant to SFCC Section 14-5.2(C)(5)(b)(i), the Board finds that granting the exception would not damage the character of the district because there are already carports in the west parking area of this property, and the proposed carport will be hidden from view within existing perimeter walls, which will be raised in places to fully screen the carport from public view;
    b. Pursuant to SFCC Section 14-5.2(C)(5)(b)(ii), the Board finds that the exception is required to prevent a hardship to the Applicant or an injury to the public welfare because the auto court within the perimeter walls is restrictive, movement within it is limited, and a cantilevered carport is the only design that will allow for maximum maneuverability while providing the necessary framework for solar panels; and
    c. Pursuant to SFCC Section 14-5.2(C)(5)(b)(iii), the Board finds that granting the exception would strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts because the proposed carport would allow for added off-street parking on an unusually narrow two-lane street.

Parapet Addition

21. Under SFCC Section 14-5.2(D)(2)(c), additions are not permitted to primary façades of contributing, significant or landmark structures.
22. The Applicant proposes to create an addition which would increase by 3'3" the height of

an existing parapet on the north, McKenzie Street elevation, which is a primary façade.

23. The Staff determined that an exception to SFCC Section 14-5.2(D)(2)(c) would be required for approval of Item # 3 of the application, and the Applicant requested the exception.
24. To obtain an exception, the Applicant was required to conclusively demonstrate that the three exception criteria set forth in SFCC Section 14-5.2(C)(5)(b) have been met specifically for Item # 3 of the application.
25. Based on the information set forth in the Staff Report and exhibits, and the evidence and testimony presented at the hearing, the Board finds that the Applicant has conclusively demonstrated that all exception criteria have been met for the addition to the north-elevation parapet, based on a re-design of the parapet, presented to the Board at its meeting on July 22, 2025:
    a. Pursuant to SFCC Section 14-5.2(C)(5)(b)(i), the Board finds that granting the exception would not damage the character of the district because the augmented parapet would conceal rooftop mechanical appurtenances from public view, it would permit the re-design of the roof behind it to channel stormwater away from the front entrance, and the Board previously approved a parapet at a similar height in Case # 2021-3826-HDRB;
    b. Pursuant to SFCC Section 14-5.2(C)(5)(b)(ii), the Board finds that the exception is required to prevent a hardship to the Applicant or an injury to the public welfare because the wall adjacent to the existing parapet is compromised by inclement weather, and a heightened parapet would help direct the flow of stormwater to an internal downspout and prevent water from draining over the front door and onto the McKenzie Street sidewalk; and
    c. Pursuant to SFCC Section 14-5.2(C)(5)(b)(iii), the Board finds that granting the exception would strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

26. The information contained in the Staff Report and exhibits, and the testimony and evidence submitted at the hearing, establishes that all applicable requirements for Board review as herein described have been met.
27. The information contained in the Staff Report and exhibits, and the testimony and evidence submitted at the hearing establishes that all applicable design criteria have been met with respect to Items # 2 through 6 of the application.

CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Board acted upon the application as follows:

1. The Board has the authority to review and approve the application.
2. The Board approves Item # 1 for only: doors 2, 3, 4 and 5, and windows C, D, F and ZZ (four) on the west elevation, and window YY on a west-facing façade in the northeast courtyard; windows H (three) on the north elevation, and windows DD (nine) and TT (eleven), and door 19 on a north-facing façade in the northeast courtyard; windows J, EE (two) and FF (two), and doors 8 and 18 on the east

elevation, and window Y and door 15 on east-facing façades in the northeast courtyard; and windows X (two) and doors 10, 11 and 14 on the south elevation, and window Q and door 12 on an east-facing façade on the south elevation.

3. The Board denies the exceptions to SFCC Sections 14-5.2(D)(1)(a) and 14-5.2(D)(5)(a)(i) requested in Item # 1 of the application with respect to replacement of windows E, OO (three) and NN (three) on the west, primary elevation; windows G, I, PP and SS, and door 6 on the north, primary elevation; window K and doors 7 and 9 on the east, primary elevation, and windows Z, BB (three), QQ (two) and RR on an east-facing façade in the northeast courtyard; and windows L, N, M, O, P, R, S (three), T (three), U, V (two), W (two), GG (three), HH (three), II, JJ (two), LL (three), KK (three), MM (three) on the south, primary elevation.
4. The Board approves Items # 2 through 6 as set forth in the application.
5. The Board grants the exception to SFCC Section 14-5.2(E)(1)(e) as requested in the application for the steel-framed carport, Item # 2.
6. The Board grants the exception to SFCC Section 14-5.2(D)(2)(c) as requested in the application for the parapet addition, Item # 3, as re-drawn and re-submitted to the Board July 22, 2025.

IT IS SO ORDERED ON THIS 9th DAY of DECEMBER, 2025, BY THE HISTORIC DISTRICTS REVIEW BOARD OF THE CITY OF SANTA FE.

Guadalupe Street, where there's still a sign up that doesn't do much in terms of attracting your attention for the reason it is up; it's just visually distracting.

6. **Matters from the Public**

Acting Chair Bienvenu stated that since she was unable to access the Zoom meeting earlier in time for public comment, he would allow Ms. Beninato to make her remarks now.

Stefanie Beninato wondered why there are big HVACs like those at 300 Galisteo on Old Santa Fe Trail, the Georgia O'Keeffe Museum, that are not being screened. She stated that she has brought this to attention for well over a year and also want to point out that on the Garcia Street case at the last hearing where the board allowed somebody to take down two feet of a historic wall for safety reasons that it was never explained how taking that down and still backing out would make it safer and that staff said that safety was not something unique to any given property and that other design issues needed to be considered, also in terms of sustainability in terms of that project it went from an eight-foot portal to a twelve-foot wide portal with the alleged excuse that it would keep the door from being wet but again if we're looking at sustainability an eight-foot portal would be plenty to keep a door from getting wet and might have allowed some solar gain into that house. If you're balancing sustainability and historic preservation, it seemed that the whole criterion was ignored.

8. **Old Business**

a. **2025-010494-HDRB, 206 McKenzie St**., Downtown & Eastside Historic District, Contributing, Bradyn Furry, agent for Mindy Hale and FC3 Ltd. Co., owner, requests approval to replace all the doors and windows which requires an exception to 14- 5.2(D)(1)(a) for the removal of historic material; construct a new detached steel carport to a height of 8'-8" with roof-mounted solar units within the existing auto court which requires an exception to 14-5.2(D)(E) Downtown and Eastside Design Standards; an increase in height by 3'-3" of a previously approved parapet on the McKenzie St. façade which requires an exception to 14-5.2(D)(2)(c) additions are not permitted unless set back 10' from primary facade, and install roof top HVAC units, and a new pedestrian gate on McKenzie St. adjacent to the vehicle entrance.

Acting Chair Bienvenu summarized that this was heard at the last meeting and was continued for further review of the window and door assessment report that was provided at the meeting, and to conduct another site visit. Nothing has changed in the application.

Mr. Duran confirmed that it is correct and the recommendations by staff are the same, and followed up with the site visit that took place on Monday. Staff recommended approval of the proposed project and found that the application complies with Section 14-5.2(D) General Design Standards for all Historic Districts, and 14-5.2(E) Downtown and Eastside

Design Standards and the exception criteria were met for all exception requests except for the request for an exception to 14-5.2(D)(2)(c) for the addition and increase in height to the primary south elevation facade. Staff also recommended that the applicant find other design options for that addition, including lowering the parapet to be subservient to the adjacent historic parapet.

Acting Chair Bienvenu stated that the board heard this two weeks ago; therefore it is suggested that we have the board proceed to begin considering the application. We've heard from both staff and the applicant already; we can hear from both staff and the applicant again in response to any specific questions that the board has. He confirmed this was acceptable to the members of the board.

Acting Chair Bienvenu added that six essential exterior alterations are being requested, three of which require exceptions. He noted they were all found on page 11 of the staff report, which is page 14 of the packet. He summarized the application; the first is replace all the doors and windows that requires an exception under 14-5.2(D)(1)(a) for the removal of historic material, the second is to construct a new steel carport within the existing auto court that requires an exception under 4-5.2(E) to permit the use of metal for the structure in this district, the third is changing the overall height by 3 feet 3 inches of a previously approved parapet on the McKenzie Street facade from 14 feet 1/2 inches to 17 feet 3 inches high with a slightly different design and an exception is requested under 14-5.2(D)(2)(c). Those are the three that require exceptions. The fourth item is the roof-mounted HVAC units, the fifth item is to construct a new pedestrian gate on the McKenzie Street façade, and finally, stuccoing the exterior with new stucco to match the existing.

Acting Chair Bienvenu recommended that each item be considered individually with a separate motion for each, to keep everyone focused on the same aspect of the request. While there would then be several motions, it would be nice if they could all be incorporated into a single document of findings of fact and conclusions of law, as opposed to six separate findings.

Attorney Ruybalid confirmed that this would be an option since this is all one presentation on one case. The findings and conclusions would have to be broken out with each exception and explanation of the criteria for the exception, but it can all be a single document.

Stated that due to the complexity of item one, the board would consider item two first.

2) Construct a new steel carport within the existing auto court for which an exception is requested to 14-5.2(E) to permit the use of metal for the structure in the Downtown & Eastside Historic District.

Member Biedscheid did not have any concerns about the steel framing for that or the solar panels that are proposed on top, provided that it's hidden by the surrounding yard wall, which, according to the drawings, it would be, but only with additional CMU coursing at the top of the wall to make that wall a consistent height. If it's already an 8-foot wall, is there any issue with increasing the height of a wall that's already quite tall?

Mr. Duran stated this was a concern with this steel carport because the wall's current height is not sufficient to cover the steel carport; it would need to be raised to about ten feet tall. This is in the BCD zoning district, which allows them eight feet. Therefore, some considerations need to take place so the solar would not be publicly visible to approve the exception and to meet the zoning requirements for that yard wall. Such that they might need to go to the Board of Adjustments or some further processes beyond the exception criteria.

Member Biedscheid asked if it would be appropriate for the board to include a motion with a condition that the carport not be visible from McKenzie, subject to other approvals that dictate the allowable height of the wall.

Mr. Duran confirmed that it would be correct.

Member Cherry stated he had no problem with the carport; it is a good idea and adds functional parking and a sustainability component with solar in a graceful way that's separate from the structure.

Acting Chair Bienvenu stated that, obviously, in this case, the issue is whether the exception criteria have been met.

Bradyn Furry, PO Box 238, Santa Fe, was sworn in. Mr. Furry clarified that the building is in the BCD district and the McKenzie Street subdistrict, which does not have a maximum height for a yard wall. The intent was just to raise it enough to hide the carport from the public view, and it is hard to tell that the existing yard wall is many different levels because there is a lot of ivy and growth on it. Therefore, it would be made into a uniform one-level yard wall just high enough to hide the carport and solar panels.

Public Comment regarding the carport:
Ms. Stefanie Beninato, PO Box 1601, Santa Fe, New Mexico, was sworn in. She was opposed to having a metal carport on this property, which is a significant property in the Downtown and Eastside Historic District, where metal is not an approved material, and even though it's not connected, but detracts from the historic nature of the building. It is difficult to believe that on one part of the BCD, there's a four-foot-high wall limit, and there's no maximum wall height on this one, and it seems like it's probably going to go up

to about ten feet on an already narrow street which would make it sort of tunnel-like, all to avoid being seen. Surely, they could find some other place to put the solar panels. It's an issue of sustainability but there's no real need for it, it's a want, it's a desire and if it works it Works, but if you have to get all these exceptions and have to go up to ten feet then maybe it should not be considered because it's not really in keeping with the rest of the streetscape that doesn't have these high walls.

Board Action:
Member Biedscheid moved in case 2025-010494-HDRB at 206 Mckenzie Street for the item concerning the construction of a new detached steel carport to a height of 8'8" with roof mounted solar units within the existing auto court to approve the application as submitted noting that staff has determined the exception criteria to be met and with the condition that the carport be screened by a yard wall that is of a height compliant with the underlying zoning such that the carport and solar panels are not visible from McKenzie Street. Member Degnan seconded. The motion passed by roll call vote with the Board voting unanimously (4-0).

4) Roof-mounted HVAC units.
5) Construct a new pedestrian gate on the McKenzie St. façade.
6) Re-stucco the exterior of the structure with a new one to match the existing.

Acting Chair Bienvenu stated that items four, five, and six would be reviewed together next.

There was no further discussion on these three items beyond the discussion from two weeks ago.

Public Comment regarding the HVAC, gate, and stucco:
Ms. Stefanie Beninato, previously sworn in, stated that she understood that to install the HVAC units, the parapets had to be raised. She could not see this in the packet because there are no drawings, no application, and it is poorly presented to the public, but she understood this to be the case. She stated there was no issue with the pedestrian gate as long as it was in keeping with what was there, nor any issue with the restuccing, which needed to be done.

Acting Chair Bienvenu questioned if anyone else had issues accessing the packet.
There were no issues from staff or the board.

Acting Chair Bienvenu did not think this required raising the parapets but asked the applicant.

Mr. Furry explained that the parapet did need to be raised, but it was previously approved to fully screen the rooftop units through a prior submittal.

Mr. Furry confirmed that the parapet was previously approved for screening, so this approval was just for the units.

Board Action:
Member Degnan moved in case 2025-0104954-HDRB at 206 Mackenzie Street to approve the three items as outlined. Member Mather seconded. Member Biedscheid offered a friendly amendment that clarification be made that this is for the roof-mounted HVC units, the new pedestrian gate on McKenzie Street, and the stucco to match the existing stucco. The amendment was accepted. The motion passed with the Board voting unanimously (4-0).

3) Change the overall height by 3'-3" from 14'-0 1/2" to 17'-3" high from a previously approved parapet on the McKenzie St for which an exception is requested to 14-5.2(D)(2)(c) addition to a primary façade.

Acting Chair Bienvenu shared that the next item for discussion was item three, which requires an exception, and staff does not recommend approval. He explained that this item is for changing the overall design and height from the existing height of 14 feet 1/2 inches to 17 feet 3 inches in height, and that the 14 feet 1/2 inches was a previous board-approved modification, and asked if staff would clarify the reasoning for the recommendation of denial.

Mr. Duran confirmed the board did approve the previous modification to the height. Mr. Duran shared the image of the previous approval for the north façade. He stated that there were no issues with the design when it was previously approved. However, now the as-built design before the board for approval is the revised pre-board approval construction to complete the façade. The current infrastructure needs the extra 3 feet 3 inches to provide screening for rooftop appurtenances. Staff had concerns with the architectural design, raising what was approved because it changed the character of that northern façade; therefore, staff are not recommending approval. However, there is the fact that the applicant needed this to provide the necessary screening for their rooftop skylights and other appurtenances, and it is as built.

Acting Chair Bienvenu confirmed that the staff is stating is not the design, but that the exception criteria have not been met.

Mr. Duran confirmed.

Acting Chair Bienvenu questioned why the parapet was not previously addressed for additional height. if it was necessary to raise the parapets to be higher to screen rooftop appurtenances why was the issue not discussed several years ago when the parapets were previously discussed.

Mr. Duran stated these skylights have not yet been added it is currently open space.

Acting Chair Bienvenu asked if the skylights were a part of the original plan that was approved a few years ago.

Mr. Duran stated that they were approved in 2022.

Acting Chair Bienvenu stated he was trying to understand if the as approved in 2022, if the skylights were approved as well, and if they would have been approved as being publicly visible.

Mr. Duran stated that they would have been hidden behind the parapet.

Acting Chair Bienvenu asked if they would have been hidden in 2022, why the additional height is required now.

Mr. Duran shared that the issue is the structural integrity of the adobe in the building. in order to hold the integrity of the building and the adobe and the current structure and the current framing of the structure it had to be raised.

Acting Chair Bienvenu stated that it is a very strong alteration of the design characteristic of that façade.

Mr. Furry gave some background about the portion of the building that is behind the wall. In the early 1900s, this was an open alley, and sometime in the 1940s, we're not sure what year, it was enclosed by the owner at that time. What the current owners want to do is bring the look of an open alley back, and to return the building to what it was, but it can't be an exterior space anymore. The solution for that would be to put in glass skylights or a glass roof that would disappear as much as possible for anybody using the space inside. So, it's as if you were outside again, like the building was originally. The skylights in the previous submittal were approved along with this design. However, the wall that was there that we were adding has disintegrated due to a lack of maintenance beforehand from years past and negligence from a previous construction process. Now that had to be rebuilt because it was destroyed with the new skylight structure behind it and with the way it would need to drain to avoid draining on the street, the slope has to drain onto the adjacent roof so it has to be high enough to get over that roof be able to be flashed that's what determines the height of this wall. Again, that is influenced first by the height of the

glass roof and then the wall in front of it to hide it, so the design being submitted is the same design of the wall, it's just three feet three inches higher. With the previously approved design the top of the arch that was submitted was more in line with the facade that you see on the left which was on the east side now, by pushing it up we feel that it sets this part of the building apart more because between the two sections of the building we have two different heights and this now pushes it in between whereas before it was in line with the one so it got a little lost in the existing façade.

Acting Chair Bienvenu stated it does make it more prominent but that corresponds to is it makes the other feature less prominent which is what is considered as the facade and is now dominated by the new structure. He asked the applicant what was mean by the wall disintegrated, was it the wall on the street? He asked if the applicant could point out what disintegrated that if required someone to rebuild that feature.

Mr. Furry pointed at the area on the screen and explained that the adobe construction with the open roof for several years had melted the front of the wall. That portion of the wall was compromised because it was open to the elements and basically destroyed. So, it needed to be rebuilt, which was previously approved. We have gone back in and found all the problems with the building since that approval; we re-evaluated how that space worked, which required the raising of the parapet and the raising of the skylight behind it, they're interconnected.

Acting Chair Bienvenu asked why that wall couldn't have just been rebuilt exactly the way it was approved by the board the last time, or couldn't be rebuilt exactly the way it was approved, other than wanting to add the skylights.

Mr. Furry stated the skylights were approved to be there, but once they had worked out several of the other problems, they had to remove plaster and stucco, which is when they realized what was compromised underneath. Reinforcing the existing structure created a difference from the original design. They were infusing between two different styles, so this design was trying to take a little bit of both and simplify, but give it a little bit of interest. However, the main requirement for it was to be high enough to screen the skylights. They like this design but are open to any other modifications as long as they can have the height needed.

Acting Chair Bienvenu, the part we're talking about, is very faint on the original design drawing.

Mr. Furry agreed it somehow got lighter. He stated the wall was partially there and they were approved to add to it but since it was destroyed, they were now rebuilding the entire wall.

Member Degnan asked the staff to elaborate a little bit on how this changes the historic nature of the north façade.

Mr. Duran showed the façade before the construction. He stated that staff evaluated the applicant's response and the previously approved design in 2021. The previous approval had a lower parapet, and that lower parapet allowed the fenestrations from the designs on that northern facade to complement what is currently there. The new design takes over that primary façade, and that conflicts with what historic preservation is trying to do. It should be aesthetically pleasing, but it needs to retain the integrity of that north primary façade. To create a new facade while trying to replicate, but which overwhelms the northern façade, is not consistent with what the board previously approved. The decorative feature on the parapet is not sufficiently distinguished from the historic feature on the adjacent parapet; that was the concern from staff that it detracts from the primary facade and what is currently established.

Member Biedscheid recalled being on the Board during the previous case approval in 2022. She said the reasoning for that approval was that the design allowed the historic roof line to be dominant. It was shorter than the original building to its left. She wondered if it's possible to keep that roof line below that level since it's already built. She asked if it was considered to differentiate the connection between the two distinct buildings with something that differs in design, like even exposing the steel skylight structure, though she was unclear how the side view would look. It would be better to have a modern, contemporary connection because it appears on the inside that the objective is to have a sort of contemporary take on an outdoor space that used to exist. After all, there is steel with a glass roof and a living wall, which are more modern interpretations of outdoor feeling spaces, and it might be possible to acknowledge that on the outside without trying to hide it. She asked if that was ever part of the design process.

Mr. Furry stated that there was discussion, but the primary focus was to hide the skylight because it was understood that it was a requirement. He said the applicant is open to simplifying the facade by changing it slightly if needed. The curve was just a simplified way to speak to the facade next to it, but not to be the same.

Member Cherry asked if the archway that was drawn in was recessed or if it went all the way through.

Mr. Furry stated it is a recess that simulates the existing recess on the facade to the left.

Public Comment regarding Item 3:
(inaudible) Oster, 1102 Piedras Rojas, was sworn in. Ms. Oster clarified that they were happy to make accommodations for whatever the board recommends. If the steel structure is acceptable and the board saw on the site visit how it was shored up, it's not

just the front facade that was compromised; it is the whole perpendicular wall. One side of the passage is completely compromised, and the skylights had to be raised because a concrete bond beam had to be put in the top to be able to hold the structure's integrity. That was the origin of the whole design, and if it is the Board's will that it be taken down and the frame is shown, the team is willing to make those modifications as well as any other modifications that the Board requires. It really was that it was an attempt to hide it, as was thought to be required. We can hide it another way if the Board pleases.

Acting Chair Bienvenu confirmed there is a requirement to hide the solar panels; an exception would be necessary if they were publicly visible. So, you were correct about that. There are two conflicting requirements to get the skylights; one is that they can't be publicly visible, and the other is that the Board has already approved the height of that parapet.

Elizabeth West, 318 Sena Street, Santa Fe, was sworn in. Ms. West acknowledged the complexity of the case and the conflicting requirements for the code. She felt the design was interesting and admitted the conflicting code requirements with a traditional way of coping with the conundrum. She liked the slight undulation that's hinted at, and it’s a nice little addition that's quite attractive.

Ramon Sarason, 2794 Calle De Valdes, Santa Fe, was sworn in. Mr. Sarason stated it is a very interesting conundrum and an opportunity to explore some other design options. He did not like the approved plan, and this just elongates the transition between these two important parts of such a phenomenal historical edifice is worthy of some exploration that might be able to make good use of a transitional design that doesn't meet the exact standards that are applicable here, since they're contradictory. He challenged the architect and the owner to see if they could come to a solution that would be an enhancement to this important facility.

Ms. Beninato, previously sworn in, was opposed to the exception being requested because it dominates the façade which is a primary facade, it hides some of the windows or obscure some of the windows behind it, the openings are there, the window openings in that little addition are larger than what was approved before, and the hardship is something about the structural integrity being compromised but putting in bond beams doesn't mean that you need to raise it three and a half feet. The real issue is that they want a glass roof there, it's not glass skylights, but a glass roof. Regarding drainage, a quarter inch per foot is plenty for drainage; therefore, none of this seems to really add up to needing an exception. It was a mistake that the board allowed an exception to begin with, but the applicant should go back to the originally approved design which is lower and doesn't overtake the historic part of this facade and if the glass roof has to be eliminated it should be fine because they have plenty of glass in this building including in the addition that they're proposing. So, it is not a hardship in any way shape or form and

a structural compromise of a wall doesn't mean that you need to add three and a half feet to a parapet or to a facade and the idea that you would even suggest allowing steel to be exposed on a primary facade is outrageous and not in keeping with the requirements of the of the district.

Member Cherry asked Mr. Furry if a different facade height was requested, how high it would need to be to conceal the roof, assuming the high part of the roof is on the west side, the low parts on the east side, so the arch, which is in the middle currently, is the highest.

Mr. Furry stated the arch could be removed and make it more of a flat parapet, and still hide the skylights. The base of the arch height is the minimum height needed for the skylights.

Member Cherry stated this is a great piece of information to have because it helps visualize what the requirement is for the glass roof, which is appreciated because it does a lot to honor the building. The tour was very helpful as well. The construction challenges are better understood, especially having to drain that area of the roof onto the other roof and the height requirement. It is beneficial for the building to have that, and if there were no glass roof there, the water would still need to be drained, and a shed roof would be needed, which is not necessarily very appealing and would still require a parapet façade, whether it was an arch or flat, or anything to conceal that roof. Therefore, what is being constructed inside is not relevant to what we are charged with. From a construction standpoint, it's been well thought out, and it's very functional, and having some form of facade there that's a parapet, whether it be curved or flat, is a good solution for that area.

Mr. Furry stated that the only other way to drain that roof would be onto the sidewalk and the street on a north façade, and that was what caused all the degradation to begin with.

Member Biedscheid stated that there have been a couple of options for alternative designs, like Member Cherry’s suggestion with a flat parapet and maybe removing the niche or a more exposed design. Would the applicant be willing to think about those suggestions and come back with an alternate design for review and approval at a later date?

Mr. Furry stated yes, they would. Alternative designs were discussed including the flat parapet and removing the alcove so it is at the minimum height for screening of the skylights which is the height of the outer dimension called out on the right on the new elevation.

Acting Chair Bienvenu stated that it would be lower than the height of the arch that was previously approved, which would help with maintaining the dominance of the feature to the north, and in fact that what was currently existing when the board reviewed this was something flat in that space.

Board Action:
Member Biedscheid moved in case 2025-0104954-HDRB at 206 Mackenzie Street in respect to raising the roof 3'3" in addition to the previously approved parapet, finding that the exception criteria have not been met, postpone this item for a redesign requesting that the applicant come back to the HDRB with some alternate design suggestions that minimize the roof line as much as possible while hiding the steel structure behind and/or an alternate design that the applicant prefers for consideration noting that the exception criteria might be required for exposed steel items. Member Degnan seconded. The motion passed by roll call vote with the Board voting unanimously (4-0).

The applicant consented to the postponement.

There was discussion on whether this should be to a date certain on June 22nd, and on posting requirements. It was confirmed that this item is postponed to a date certain of June 22, 2025.

Clarification of the motion was made.

1) Replace all the doors and windows for which an exception is requested to 14-5.2(D)(1)(a) for the removal of historic material.

Acting Chair Bienvenu stated item one for this case is requesting to replace all the doors and windows for which an exception is requested under 14-5.2(D)(1)(a) for the removal of historic material. Presentations from staff and the applicant, and there has been a site visit, and there is also a report from the window assessor.

Member Cherry asked for clarification on what the proposal was for window J.

Acting Chair Bienvenu remarked that, in looking through the packet, one thing that was not mentioned is that at the last meeting there was also a discussion about the windows and the applicant at that time sought to repair the historic windows and replace ones that were non-repairable and that had deteriorated beyond repair, and that was what the board's action approved, so in essence there's some argument to be made that we're revisiting an issue that's already been decided and ruled upon.

Mr. Furry stated that when the owners bought the property, there was a boarded-up hole in window J. The request is to infill the open hole with a window that matches what was there historically and that also matches the rest of the windows on the building.

Member Cherry asked if that window would be constructed to match the windows on that façade.

Mr. Furry confirmed that it was the divided light double hung.

Member Cherry questioned if the proposal is for a Marvin factory window.

Mr. Furry confirmed it is a Marvin factory window with a wood exterior, and painted the same color as the rest of the windows.

Member Cherry stated he wanted some clarification on those windows because there was a drawing, but not a detail, and when replacing in-kind, it includes the muntin being the same width, the same profile, and the same mill design, and that rarely occurs with a factory window. Typically, a window has to be replicated for it to truly be in kind.

Mr. Furry stated that they went with Marvin because, for some other cases here in Santa Fe, Marvin was able to recreate windows in a factory that did match historic sizes of muntin widths, divisions, and the like, and Marvin told them they could do the same for this project.

Member Cherry stated there are a couple of different numbers on everything because Ra Patterson did not number the same as the applicant. Using the applicants' numbers, The door 100, how would that be constructed?

Mr. Furry stated that the door is wood and does exist. It is currently in storage for construction purposes, but it will be reinstalled.

Member Cherry pointed out that this is where the confusion is coming from; the proposal states replacing all windows and doors, and there are some that aren't being replaced.

Member Cherry stated that this is a super important building, it's a beautiful building, and the applicants are doing a really careful job to preserve it. However, the windows are an important part of the historic integrity to and there are some windows here that are worth preserving and while there are limitations that those windows have due to their age such as condensing moisture on the inside in the winter time and not being as energy efficient or as tight, there are some sophisticated good ways to restore those windows. There are a number of windows here that deserve preservation, along with a number of windows here that deserve to be replaced. Some of these windows are in really good shape from

a degradation standpoint and should remain. He asked the applicant if they were willing to work at retaining some of the windows rather than replacing them, or if the replacement for most of the windows.

Mr. Furry stated the issue was more about the way the windows are installed in the existing wall; they're not flashed, they're not insulated, and just the building materials of the building itself are the reason for the replacement of pretty much all the windows. For the building to be stable for the next 100-plus years, this is something that, because of their age, we can't get away from. The only remedy is to remove the windows and flash them properly, but once removed, it destroys the window. So, for the building to be stable, this is the best way to do that and not compromise the stability of the building.

Member Cherry respectfully disagreed that certain windows, which have been there for close to 100 years, are not what has injured the integrity of that building. There is no evidence that most of the windows on the south facade seem like they're in really good shape and do not show a lot of evidence of leaking moisture through the interface between the window and the wall.

Mr. Furry stated that they did have the window assessment done as required, and they are using those recommendations based on their understanding of the condition of the windows.

Acting Chair Bienvenu stated that the basic idea with window replacements is to review three things. First, we check if we are discussing a primary facade or not, because windows and doors have a different set of rules that apply to them, even when they're Historic, if they're not on a primary façade. A decorative feature, such as a piece of wood On a non-primary facade might be preservable under our ordinance or be required to be preserved because of the fact that we have a prohibition on removing historic materials, no matter where they're located. However, the ordinance carves out windows and doors for different treatment; it could be a drafting error, but it does call out specifically window and door uh replacement as being differentiated as to whether or not it's on a primary façade. So, if it's on a non-primary facade, essentially, there's not a lot that can be done to protect them if someone wants to remove them. On a primary façade, the general rule is that they must be repaired, and only if they're non-repairable are they allowed to be replaced. Then they must be replaced in-kind, meaning exact duplicates. In this case, we need to look first at the windows and doors in question on the primary façade. This is almost a significant building because almost the entire structure has a primary facade designation, with a few exceptions. Secondly, if it is on a primary facade, is it historic, and thirdly, if it's repairable? If it is not historic, it has the presumption of being replaceable. If it is historic, then the next question is whether it's repairable. This is the flowchart of dealing with all of these windows and doors.

Member Biedscheid added that if the window assessment can be considered as true, the window assessment identifies which windows are historic and which are on primary facades, and for those on primary facades that are historic. Mr. Patterson has assigned a rating of “fair,” which is defined as having 30% to 40% deterioration, making them not repairable. If that is all accurate in this case, and where in the past when faced with cases like this the board often requires repair on the primary facades, but allows replacement on the non- primary facades, the primary facades are not repairable so they would need to be replaced in-kind concerning material and style and that's what the application intends to do.

Acting Chair Bienvenu stated the coding for this window assessment is P for premium, S for satisfactory, F for fair, and U for unsatisfactory. There is some confusion about the difference between the fair and the unsatisfactory. Fair is defined as “putty glazing, cracking, and missing at 30 to 40% of the sashes, frames, and casings, have some members 30 to 40% completely deteriorated.” The unsatisfactory says “casing members have more than 30 to 40% deterioration beyond repair.” It seems to cut in two different directions that the fair is repairable by calling it fair and by not saying it's beyond repair, and saying that some parts of it are 30 to 40% deteriorated. He asked if anyone had any clarification on the window assessor's coding.

Mr. Duran could not clarify but explained the window assessor has this curriculum that he uses, and this is a common way of defining the condition of the windows, but staff don't have an interpretation for his way of assessing the windows.

Acting Chair Bienvenu questioned how to apply his characterizations to the ordinance.

Mr. Duran stated that the 30% to 40% deterioration on primary facades, as Member Biedscheid had stated. So, if the window assessment shows a good condition or fair condition and is repairable, staff recommend repair. If they are not repairable with 30% or greater deterioration and they need to be replaced, staff recommend replacement. If the request is for replacing windows on a primary façade, an exception is required for the removal of historic materials.

Acting Chair Bienvenu stated he understood the policy of applying the 30% rule. He was not sure that it was written anywhere, but he was unsure how to apply the 30% rule to the ratings of fair and unsatisfactory because the assessor uses 30 to 40% figures to call a window fair and then say it's not restorable. It would seem that unsatisfactory is what corresponds to not being repairable.

Mr. Duran stated that the staff agrees.

Acting Chair Bienvenu summarized the translation of the coding; a window that's designated as “U” would be something that should be replaced in-kind under our ordinance, and something that's designated as “P”, “S”, or “F” should be repaired or restored. He stated

The assessment is about the wood members being repairable and restorable, and the window assessor and the applicant are making a secondary argument that even if the wood could be repaired, it doesn't make them repairable because their removal will compromise the structural integrity. This is a separate issue there, but our focus is on the repairability and restorability because that's what our ordinance speaks to.

Mr. Duran stated that it was where staff made the recommendation of the removal of the windows and replacement in-kind because of the impact on the structure. Given that windows “P”, “S”, and “F”, but those windows have historic sashes and jams, many of the sills are buried in stucco and will need to be removed to make these windows seal Properly. If the units are removed, the jams will be destroyed because the jams are the buck in the adobe. The assessment reads, “*the adobe and the interior plaster is showing signs of deterioration from water getting in around the existing jams due to the lack of flashing and moisture from condensation because of the quantity and size of the single glazed windows*”. It continues, “*the best solution to protect the integrity of the structure is to remove these units and replace in-kind all wood windows with divided light and insulated glass*”. These windows are located on the non-primary elevations. There are three elevations that are primary on this structure. Taking into consideration what the assessment says, the staff takes into consideration the best solution to protect the structure with these repairable windows, if they can be repaired and returned into place, that would be the preference, where possible; however, that may not be possible given the assessor's assessment. The assessment makes it sound like once the window is removed for repair, the pen tile and adobe block around the window will be adversely impacted. So, a new window would be required. Therefore, staff is recommending that the exception criteria have been met for the replacement of the windows. Most of the windows are painted shut and are non-operable; however, to what extent they can be repaired, staff do not know, which is why staff depend on the window assessor. The window assessor stated, “*The best solution moving forward for this structure is to replace in-kind.*” This is the reasoning for the staff’s recommendation.

Member Cherry disagreed, explaining there is a large majority of windows in the historic buildings in Santa Fe that don't have bucks, and many of those windows have been functional for over 100 years and are repairable. So, if that argument were true, then it would be a great argument to just take the whole bunch of windows in Santa Fe out. From his observation, the board is charged with preserving.
What can be preserved, what is intact, what's not 30% degraded? There's a certain number of those windows that don't meet that criteria, which are not degraded to 30%

can be argued to be replaced because of how it was originally constructed into the building might be causing a problem. There was no problem until recently. The proposed retrofit of flashing and weather stripping, with stucco application, is good at interfacing the perimeter of that buck. So, it is a little bit dangerous to use how they were originally installed as a deciding factor; we need to look at what is in the code, and that is the degradation level of those windows, since they are on a primary facade, and they can be restored.

Mr. Duran thanked Member Cherry for his statements. He stated that staff greatly appreciates Member Cherry's consideration on the subject because he is an expert in the field of window restoration, and while staff understand the plan sets, they do not have firsthand experience with window installation, so it is nice to have an expert to help guide the decision in window replacement. Staff will appreciate the motion, whether it is in keeping with the staff recommendation or not.

Acting Chair Bienvenu stated that the board is traditionally very jealous of protecting windows and doors whenever possible because they are an extremely important aspect of the historic integrity that, once removed and taken away, is never regained. This is why the board is so careful and why the board has been disappointed with the rule, which will hopefully change with the code rewrite, that seems to treat primary facades differently, because that allows perfectly good historic windows to be trashed. After all, people have a misguided notion that they want modern double pane insulated windows, even though we know that is not a significant impact on the insulation value of the house, and conversely has a huge impact on the historic integrity and the appearance of the home. That's why the board tends to be as objective as we can when reviewing an assessment report that tells whether they're repairable or restorable. It is dangerous to go to the next phase of saying, "Sure, they're restorable, but once you take them out, it's hard to put them back in without altering the structure." But that's just a that's just sort of conundrum that has to be dealt with, and there are ways to deal with it. New windows are going to be put in here, so there will be ways to also put historic windows back in as well if the will is there. We will need to go through the windows one by one from the assessment report and look to see if they are primary, historic, and repairable, and make those decisions to make a motion.

Member Cherry stated that the charge is to preserve historic material that can be preserved, and the windows are historic material that can be preserved. These windows were installed in an era when things were serviceable. So, the interior trim comes off, the balances can be replaced, the ropes can be replaced, the pulleys can be replaced, the sashes can come out of the frames in situ and be repaired. There are certain windows that had some damage caused by the previous construction project that couldn't be rebuilt because the material has been removed, but certainly those windows were intended to come out to be serviced, reglazed, and they could be refinished. It's just a different way

that things are built nowadays to be disposable, and those windows were certainly built to be serviced.

Mr. Furry stated that besides the integrity of the bucks and the wall around it, there has been a lot of damage done to the windows themselves as part of the profiles and the design of the window from excessive scraping over the years, and trying to do things to The windows that were not good for them. So those are the types of things that can't be preserved because they are gone. They can't be added back in like profiles, shapes of the frame, and such. It would be nice to say that there is always the possibility that parts could be taken out, repaired, and put back in, but it's a huge unknown, and there is a risk of trying to do that and then finding out that this assessment is correct and the windows need to be replaced. Then the situation is worse because now the project is further down the line, extending the construction, exposing the building further and longer to the elements, which are things the applicant is trying to avoid. The assessment was done as required, and what the assessor put in the report is what is being followed. The assessor may have a bit of an ambiguous rating system, but his summary does say for all the windows that he does recommend they be replaced for various reasons. Some things aren't readily seen from looking at the window. For instance, anything within the frame itself, just looking at the sash and the trim, isn't going to give the whole story for every window. Whereas Mr. Patterson has gone in and done exploratory investigations into the wall next to the windows and into the windows. The requirement was to have an assessment done, which has been done, and the assessment recommends that the windows be replaced. It seems a little cut and dry in this case when reading the summary of the assessment.

Ms. Oster stated that the owners are not driving the replacement of the windows, they want to care for the building the best that they can, but they are not experts on windows. So, they are relying on the assessment. It is confusing what criteria would be used as a basis if it is not the window assessment from the assessor with the expertise.

Member Cherry stated that different professionals in the same profession have different opinions. This happens to be his profession, historic window restoration,
and he is one of the approved assessors. While his observations are cursory but they are experienced in the field, so there is an ability to look at a window to get an assessment. Many of the windows were open during the tour, and he looked at them closely to get an idea of their condition. There are other options, like getting another window assessment; he would abstain because he is already involved at this level, but it is an option. He appreciated the desire to restore this building and felt the intent, honesty, and desire to revive it. He stated that it was not intended to indicate that none of the windows needed to be replaced, but there are specific windows that could be repaired and preserved, which will help the integrity of the structure.

Ms. Oster stated she understood Member Cherry was more qualified than herself, but requested the board give an avenue forward, especially if they are rejecting the assessor's evaluation, as an alternative path will be needed.

Acting Chair Bienvenu clarified that the board does tend to rely very heavily on any approved window assessor's assessment of the repairability of a window, and so that part of the report is something that the board typically accepts. If it says repairable, it is accepted to be repairable. If it says non-repairable, it is accepted. However, the second aspect, the additional information, is more than what is in question. It says it might be repairable, but the best solution is replacement for various reasons. The board is weighing the difference, not necessarily contesting the assessment of repairability so much as that secondary comment. Also, to clarify, Ra Patterson nor anyone on the list of assessors do not works for the board or the staff; they are private contractors who are on a list for an applicant to hire if they so desire. The board understands that as an applicant or member of the public, you need to know how to proceed.

Member Cherry stated that there will be a way to proceed given tonight by giving a motion and path of approval, which the applicant may agree with or not, but it would give a path forward.

Public Comment regarding Item 1:

Elizabeth West asked if an assessor says windows can be repaired, but they suggest replacement, does that allow the property owner to go back to the assessor for clarification on any ambiguity?

Ramon Sarason stated that the ambiguity on this decision comes down to the assessor's report not stating the percentage of degradation, and an answer could be to have the assessor say this is 32% degraded, or a more thorough degradation
threshold identified by the assessor.

Stephanie Beninato agreed with Member Cherry's remarks, and the staff misinterpreted the law to say that the structure is the only thing to preserve. Preservation also applies to certain windows on primary facades, and if they are repairable, then they should be repaired, and if it is degraded more than 30% then they can be replaced. The rationale about having to take the historic window out and make a repair, say of the sill, and then put it back somehow, that would degrade the building, would happen whether you took it out and replaced it or whether you took it out and repaired it and put it back in. The assessment should go window by window, which would give enough information to make

a decision tonight, if not, ask the owners to take it back to the expert they hired and have the assessment be more specific, window by window.

Member Biedscheid clarified that, according to the report, there are seven windows on the primary facade that are historic. The largest window, the applicant is not proposing any change, this would be window G, so then there are six windows, and the way this reads is that the difference between the fair and the unsatisfactory is that fair is 30 to 40% whereas unsatisfactory is greater than that range. The assessment says some members have “more than,” and this is used for unsatisfactory. The board’s criteria have historically been to at the 30% mark. She was willing to accept this assessment, and knowing that the applicants are going out of their way to try to do the right thing here and are willing to do repairs if that's what was recommended, there does not seem to be a reason to second-guess an expert’s report that is in hand. She said she would like to see what's repairable repaired since there is no contradictory evidence to that fact before us tonight.

Acting Chair Bienvenu believed Member Biedscheid was correct about the 30 to 40% but the report says the window that they're keeping is an “F,” which is fair.

Member Biedscheid stated it could be the applicants’ choice.

Ms. Oster stated that the window is really big in the Hazel Hyde Studio, and the decision was made to retain it because the community members who came to speak to the applicants about that particular room loved the windows and desired to see them stay. The community is looking forward to having the building functional and available to them again. The window is a skylight that becomes a window, and a modern skylight has been placed over the original skylight to protect it and the window from damage. The vertical plane windows have been partially repaired, though they need to be shored up more, but the applicant is committed to retaining those windows because they mean so much to the community.

Member Cherry stated it is a great point and illustrates that the window is repairable, just like the other windows that he believes are repairable, and the reason that that window, even though it might have, according to the assessor, this level of degradation that makes it replaceable, there's a willingness on your part to repair it. So, if there was an equal willingness to repair these other windows, the structure would have better integrity. All for repairing the repairable windows.

Member Mather asked if it would be worth having a conversation with Mr. Patterson about his assessment.

Acting Chair Bienvenu stated that he has come before the board before, but if there can be a resolution tonight, it would be preferable.

Ms. Oster asked if the board had the summary on page seven of eight and if the windows B, E, G, K, PP, KK, RR that are listed are the ones in discussion right now.

Member Cherry responded that the discussion is regarding all of the windows at this time.

Ms. Oster stated if they try to repair those that are in the same line of list with G that we do give it our best shot but we go ahead and replace the others we are considering is taking that set of windows and trying to repair those and going ahead and following his direction on the rest to replace but giving our best shot to repair.

Acting Chair Bienvenu stated that they seem to be going by what is in the assessment, as a primary façade is historic and is repairable.

Member Cherry stated that because there is some ambiguity, a window-by-window motion would be best, but it might be too complicated to follow, and pretty long.

Acting Chair Bienvenu agreed that that would be the best approach, and looking at page 152 of the packet, which is the report, every window or door is marked from “a” all the way to “y” and it's sequential window by window. The motion should address the three factors, which are whether it is the primary façade, whether the window is historic, and whether it's repairable.

Board Action:
Member Cherry moved in case 2025-0104954-HDRB at 206 Mackenzie Street in respect to window replacement of window a door dr1, door 108, door 107, window B, ZZ or ZZ3, ZZ2, ZZ1. Door 104A, window C, window E, window F, window X2, window X1, all the DDs (DD1 through DD10, window Y, window U, door 138, door 130B, all the TT windows, EE, FF, window R, and the restoration or repair of door 11O8, W2, W1, T3, T2, T1, S3, S2, S1, P, O, N, M, L, K, door 135D, I, all of the OOs, OO1, OO2, OO3, OO4, OO5, all the NNs (1, 2, and 3), all MMs, M1, M2, M3, all LLs, LL1, LL2, LL3, all KKs (1 through 3), JJ1, JJ2, I1, HH3, HH2, HH1, GG3, GG2, GG1, QQ1, QQ2, and RR and for window J install an in-kind to match window K and regarding the gates 141B and 135D should be lowered and retained.

Acting Chair Bienvenu asked if this was in keeping with the assessment and asked if there was some way to correlate the groupings.

Member Cherry said it was not in keeping with the assessment, that this was his recommendation from his review based on the different conditions, such as the windows

in the second group of the windows in the assessment, the profile was removed during previous construction, so that they cannot be replaced.
Member Degnan seconded.
Member Biedscheid stated she could not follow the motion there seemed that some of the windows that were non-historic, and there is no requirement to repair non-historic windows, and some were recommended to be replaced. It has been the practice to limit the repair of windows to those on the primary facades. This building has a lot, many are not publicly visible; it would be more helpful to group these by historic and on a primary faced and are repairable.

Member Cherry explained he did not intend for this to be so complicated. He is recommending the replacement of all the non-historic windows on non-primary facades.

Attorney Ruybalid recommended breaking the motion by façade and voting on five, six, or ten windows at a time.

The motion was withdrawn.

Member Cherry asked for a façade map of the property.

Mr. Duran asked the board to consider section 14-5.2(D)(5) "*For all facades of significant and landmark structures and the primary facades of contributing structures: (i) historic windows shall be repaired or restored wherever possible*
historic windows that cannot be repaired or restored shall be duplicated in the size style and material of the original." To be taken into consideration when making the motion, because there can not be a requirement to repair non-historic, non-primary windows.

Mr. Duran confirmed there was not a façade map like those created for the status reviews, but there is the site plan that shows which elevations are primary.

Acting Chair Bienvenu asked that staff page 157 of the packet, which has the diagram that shows the letter for each window and corresponds with Mr. Patterson's report.

Board Action:
Member Cherry moved in case 2025-0104954-HDRB at 206 Mackenzie Street in respect to window replacement on the north façade approve the applicants proposal to on the first-floor to restore window G, install a new window in the H location,
restore window I on the first floor and to restore window PP and window SS to replace windows TT on the second floor and restore door 6 and replace door 19. Member Mather seconded the motion.

Acting Chair Bienvenu confirmed that there was an intent to restore a non-historic window.

Member Cherry confirmed that it was intentional.

The motion passed by roll call vote (3-1) with Members Mather, Cherry, and Degnan voting for and Member Biedscheid voting against.

Board Action:
Member Cherry moved in case 2025-0104954-HDRB at 206 Mackenzie Street in respect to window replacement on the east elevation approve adding a window in the opening of window J, retain door number seven and lower it as necessary for ADA requirement, replace door 8, restore window K and retain and restore door 9 and lower it in its' location as necessary, replace window EE, FF and door 18, restore QQ, restore RR, replace window Y, restore window Z, and restore BB1, BB2, and BB3. Member Mather seconded the motion.

Acting Chair Bienvenu stated that there were no non-historic windows in that group.

The motion passed by roll call vote (3-1) with Members Mather, Cherry, and Degnan voting for and Member Biedscheid voting against.

Board Action:
Member Cherry moved in case 2025-0104954-HDRB at 206 Mackenzie Street in respect to window replacement on the south elevation approve replacement of X1 and X2, replacement of Door 14, and windows V, U, T, S, O, N, M, L, replace D10, D11, and D12 and window Q on the first floor and restore MM, LL, KK, GG, HH, and II. Member Mather seconded the motion.

Member Biedscheid stated that everything proposed for restoration in this grouping is associated with the assessment that the jams will be destroyed when they are removed from the adobe.

Member Cherry stated he felt they could be restored without removing the jams.

The motion passed by roll call vote with Members Mather, Cherry, and Degnan voting for and Member Biedscheid voting against.

Board Action:
Member Cherry moved in case 2025-0104954-HDRB at 206 Mackenzie Street in respect to window replacement on the west elevation approve replacement of window A, doors 1, 2, 3, 4, windows B, C, B, F and replacement or installation of those doors and windows

and the ZZs and 104A greenhouse windows and door on the first floor, and restoration of OOs, NNs, on the second floor. Member Mather seconded the motion.

Member Biedscheid stated that though they are we're halfway through this, she stated for the record that she objects to the way this is proceeding. She felt like the board was replacing the entire window assessment that was part of the packet with a new assessment, which might be just as valid, but there may be missing windows and doors because the numbering seems a bit off, and some of them have historic sashes and jams, but may not be historic in their entirety.

The motion passed by roll call vote (3-1) with Members Mather, Cherry, and Degnan voting for and Member Biedscheid voting against.

9. **New Business** 3:02

a. **2025-010496-HDRB, 492 Arroyo Tenorio**, Downtown & Eastside Historic District, Non-contributing, Will McDonald, agent for Rob Johnson, owner, requests approval for a 112 sq. ft. addition on the south elevation.

Mr. Paul Duran presented the case and staff recommendation. Staff recommended approval of the proposed project and found that the application complies with section 14-5.2(D) Historic Districts Design Standards.

Will McDonald, 488 Arroyo Tenorio, was sworn in. Mr. McDonald had nothing to share and was available for questions.

Public Comment:
There was no public comment.

Board Action:
Member Biedscheid moved to approve the application as submitted and as recommended by staff. Member Cherry seconded. The motion passed with the Board voting unanimously (4-0).

b. **2025-010497-HDRB, 964 Acequia Madre**, Downtown & Eastside Historic District, Contributing, Manuel Mendoza, agent for Anjani Thomas, owner, requests to replace roofing material to a 26-gauge sloped metal roof color natural galvanized steel and requests two exceptions to 14-5.2(D)(1)(a) removal of historic material and 14-5.2(D)(5)(b) architectural features, finishes, and details other than doors and windows, shall be repaired rather than replaced.

STAFF RECOMMENDATION:

Staff recommends approval of the proposed project and finds that the application complies with Section 14-5.2(D) General Design Standards for all Historic Districts, and 14-5.2(E) Downtown and Eastside Design Standards and the exception criteria have been met for all exception requests except for the request for an exception to 14-5.2(D)(2)(c) for the addition and increase in height to the primary south elevation facade. Staff recommends that the applicant find other design options for that addition including lowering the parapet to be subservient to the adjacent historic parapet.

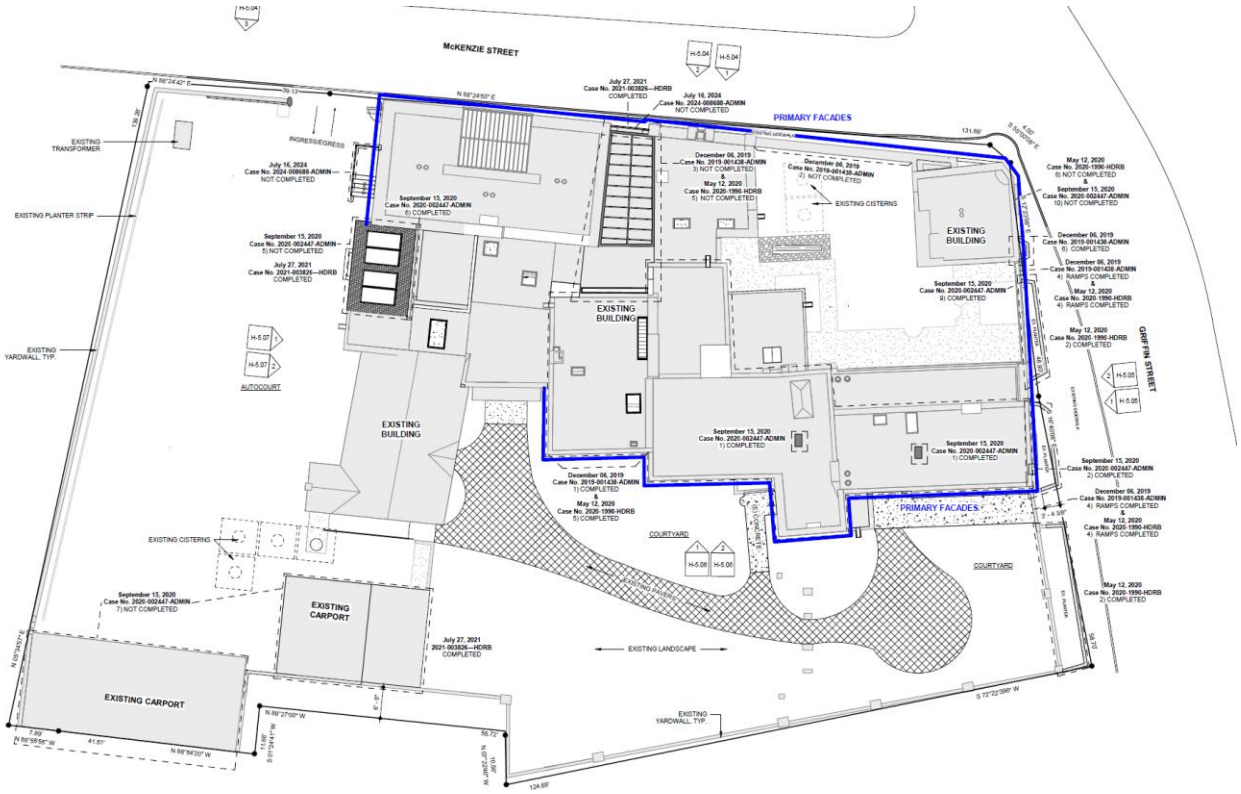
Sample motions:

a. Approve or deny Case #2025-010494 to allow these alterations to 206 McKenzie Street.
b. Approve or deny Case #2025-010494 to allow these alterations to 206 McKenzie Street subject to conditions.
c. Approve or deny the exception to 14-5.2(D)(1)(a) for the removal of historic material to replace all the doors and windows at 206 McKenzie Street.
d. Approve or deny the exception to 14-5.2(D)(E) Downtown and Eastside Design Standards to construct a steel carport for 16 cars.
e. Approve or deny the exception to 14-5.2(D)(2)(c) additions are not permitted unless set back 10' from the primary façade for raising the parapet on the north primary façade.
f. Approve or deny Case #2025-010494 to allow those alterations to 206 McKenzie Street that do not require an exception.

Should the Board deny the exception request(s), the applicant shall return with an alternative proposal for review and approval prior to proceeding to building permit.

BACKGROUND & SUMMARY:

The mixed-use commercial and multi-family complex at 206 McKenzie Street is listed as contributing to the Downtown and Eastside Historic District with the north, east, and partial southern and western facades designated as primary. The original structure has been identified in the 2005 Historic Cultural Properties Inventory (HCPI) survey form to have been constructed pre-1766 to 1846 with several changes from the 1930s and 1940s into the present. The unique eclectic nature of the structure and location on the Grant Avenue and McKenzie Street streetscape has made this structure a stand-alone complex unmirrored by anything seen in the Downtown and Eastside Historic District.



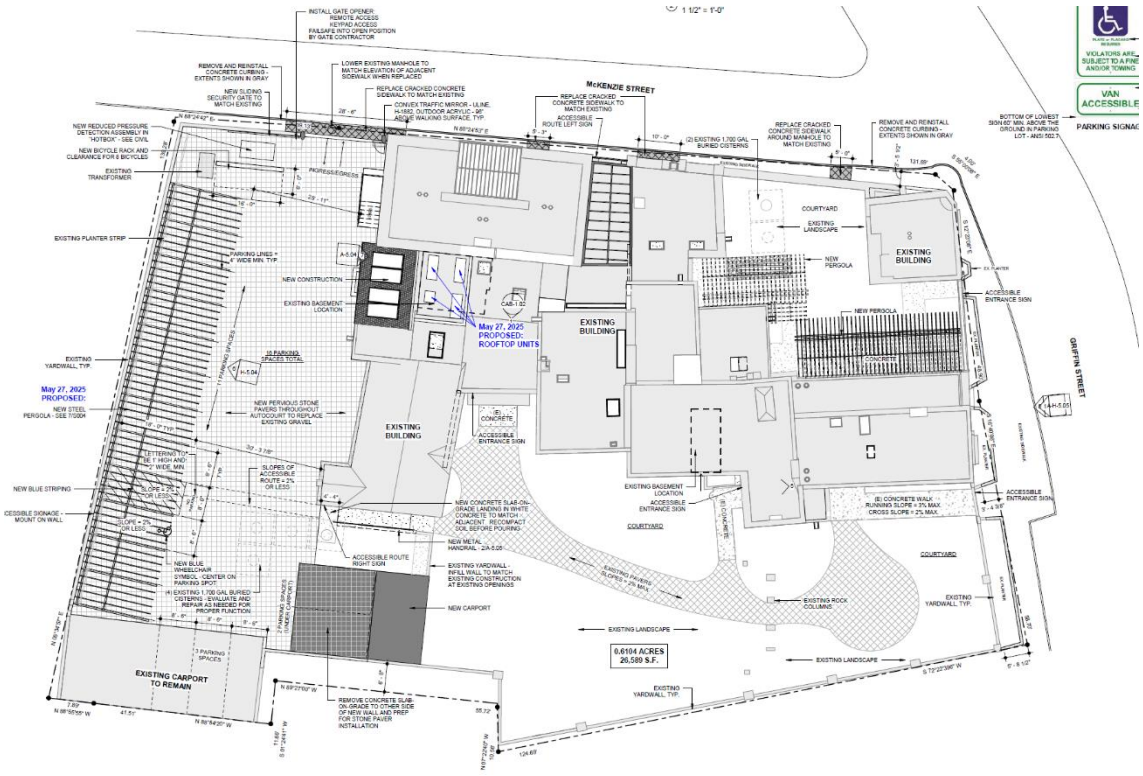


Figure 1. Primary Facade Diagram,

As part of the application materials, Mr. Bradyn Furry (architect/agent) has put together a detailed and thorough summarization of previously approved Historic Districts Review Board (Board) and administratively approved (ADMIN) work at 206 McKenzie Street which is part of the Proposal Letter for this application. Several changes in contractors and scope of work has left the contributing structure in disrepair. The proposed application will rectify all previous approved HDRB and ADMIN approvals and the preservation and protection of the structure for the future.

APPLICANT'S REQUEST:

The applicant proposes the following exterior alterations:

1) Replace all the doors and windows for which an exception is requested to 14-5.2(D)(1)(a) for the removal of historic material.
2) Construct a new steel carport within the existing autocourt for which an exception is requested to 14-5.2(E) to permit the use of metal for the structure in the Downtown & Eastside Historic District.
3) Change the overall height by 3'-3" from 14'-0 1/2" to 17'-3" high from a previously approved parapet on the McKenzie St for which an exception is requested to 14-5.2(D)(2)(c) addition to a primary façade.
4) Roof mounted HVAC units.
5) Construct a new pedestrian gate on the McKenzie St. façade.
6) Re-stucco the exterior of the structure with a new one to match the existing.

Staff does not support the exception to increase the parapet height on the south elevation. The height of the parapet was raised 3'-3" contrary to HDRB approval. In Case# ? the HDRB approved a height lower than the adjacent parapet to allow for the distinctive historic roofline to be the dominant feature. Staff concurs with this lower height and recommends the lower height be restored.

Figure 4. North Primary Facade.

EXCEPTION CRITERIA AND RESPONSES:

Exception to 14-5.2(D)(1)(a) removal of historic material: Staff requests an exception to remove historic doors and windows on primary facades of the contributing structure.

(i) *Do not damage the character of the district*

Applicant Response: The design of the doors and windows on the existing building replicate structures and accessories which are currently present, on the building. The new windows and doors will match the same sizes, mullion and muntin layouts, materials, and glazing sizes and locations.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has been met. The historic architect has noted that many of the historic doors and windows are inoperable and unrepairable. Given the historic architectural assessment and maintaining the district standards with regard to the integrity and best preservation practices in protecting the structure, new doors and windows will provide aesthetic continuity within the structure and protection from outside inclement weather exposure.

(ii) *Are required to prevent a hardship to the applicant or an injury to the public welfare;*

Applicant Response: If an attempt were made to repair those that could be repaired, uncovering them would destroy their structural attachments to the building, thus rendering them unsalvable. If the units are removed, the jambs will be destroyed because the jambs are the buck in the adobe. The adobe and the interior plaster are showing signs of deterioration from water intrusion around the existing jambs due to the lack of flashing and moisture from condensation due to the quantity and size of the single glazed windows.

Staff Response: Staff has evaluated the applicant's response and finds that the exception criteria has been met. Given the current condition of the structure, the request for new doors and windows would provide protection measures that will preserve the overall integrity and status of the structure for the future.

(iii*) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts;*

Applicant Response: The application of these modifications do not affect the ability for residents to continue to reside within this historic district and area and does not change the overall look of the building.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has been met. The applicant is proposing on installing new doors and windows that replicate the same sizes, mullion and muntin layouts, materials, and glazing sizes and locations on the structure. The new doors and windows will accentuate what is currently on the structure.

EXCEPTION CRITERIA AND RESPONSES:

Exception to 14-5.2(E) metal carport: Staff request an exception to construct a metal carport which is not an approved material in the Downtown and Eastside Design Standards.

(i) *Do not damage the character of the district;*

Applicant Response: The proposed carport will be hidden from view within the existing perimeter yard walls which will be raised in places which have an inconsistent height. The overall height of the yard wall will be adjusted to fully screen the carport from public view. The building is in the Business Capital District – McKenzie Street subdistrict which does not have a restriction on the height of walls and fences, so yard wall heights can be easily adjusted for full screening from the public.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has been met. Generally, metal gates and other metal structural elements need Board approval with an exception that will be publicly visible. The applicant proposes the metal carport will not be publicly visible from Griffin Street, Grant Avenue, or McKenzie Street, which is acceptable.

(ii) *Are required to prevent a hardship to the applicant or an injury to the public welfare;*

Applicant Response: Because the auto-court within the perimeter yard-walls is tight and maneuvering within is limited, a cantilevered carport is proposed. A cantilevered structure provides the necessary framework for solar panels while keeping the largest possible, open maneuverable space for cars to access underneath. A wood structure, which would typically be proposed for this area, with columns at the corners and at the extents of the structure, would limit the maneuverability of the cars accessing the parking spaces below, making it almost impossible to use. A cantilevered structure of the size required requires a steel structure to achieve the necessary clear space for maneuverability.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has been met. The auto-court area is limited in space and maneuverability and to provide parking for those who live and work at 206 McKenzie Street, the metal carport will provide the structural infrastructure needed to maximize the parking availability.

(iii*) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts;*

Applicant Response: The intent of the new carport installation is that it serves the needs of the applicant and users of the building while its existence is virtually unknown and invisible to the public view.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has been met. The applicant has stated they would have come before the Board with a different design if it were possible but due to the dimensions of the structure a wooden carport would not be structurally sound so a metal carport is requested.

EXCEPTION CRITERIA AND RESPONSES:

Exception to14-5.2(D)(2)(c) additions are not permitted to primary facades : Staff requests an exception to raise the parapet on the north primary façade 3'-3" higher than the original façade from 14'-1" to 17'-3" high.

(i) *Do not damage the character of the district;*

Applicant Response: The core design of the proposed addition to the north façade was previously approved by the HDRB and is in keeping with the aesthetic nature of the adjacent portions of the building. The proposed modification only raises the overall height of the parapet.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has not been met. The previously approved design in Case No. 2021-003826-HDRB, had a lower parapet so as to not overwhelm the adjacent distinctive parapet which is part of defining the building's contributing status. The current request for an exception to raise the parapet is not consistent with what the Board has previously approved. Furthermore, the decorative feature on the parapet is not sufficiently distinguished from the historic feature on the adjacent parapet.

(ii) *Are required to prevent a hardship to the applicant or an injury to the public welfare;*

Applicant Response: Due to work done by a previous contractor, the portion of the wall in question was severely damaged and its structural integrity compromised. The damaged wall needs to be removed and replaced, and the design was modified to more reflect the adjacent facades and the overall aesthetic of the building.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has not been met. The current condition of the adjacent wall (to the west) is compromised by inclement weather. The proposed design does adversely impact the primary façade as it overwhelms the existing historic parapet. Other design options should be considered to protect the wall from potential weather impacts.

(iii*) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts;*

Applicant Response: Because the proposed modification to the previously approved design further separates this portion of the façade from the adjacent building masses, it strengthens the perception that this infill is not trying masquerade as an original piece of the building. Rather, through its increased separation from the adjacent massing's, it further enhances the significance of the original portions of the building.

Staff Response: Staff has evaluated the applicant's response and finds that this exception criterion has not been met. The proposed design and raising of the parapet adversely impacts the primary façade of the structure and other design options should be considered in order to maintain the distinctive historic character of the building.

RELEVANT CODE CITATIONS:

14-5.2 HISTORIC DISTRICTS

(A) General Provisions

(1) General Purpose

In order to promote the economic, cultural, and general welfare of the people of the *city* and to ensure the harmonious, orderly and efficient growth and *development* of the *city* , it is deemed essential by the *governing body* that the qualities relating to the history of Santa Fe, and a harmonious outward appearance, which preserve *property* values and attract tourists and residents alike, be preserved, some of these qualities being:

(a) The continued existence and *preservation* of historical areas and *buildings*;

(b) The continued construction of *buildings* in the historic styles; and

(c) A general harmony as to style, form, color, height, proportion, texture and material between *buildings* of historic design and those of more modern design.

(C) Regulation of Significant and Contributing Structures in the Historic Districts

(Ord. No. 2004-26)

(1) Purpose and Intent

It is intended that:

(a) Each *structure* to be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical *development*, such as the addition of conjectural features or architectural elements from other *buildings*, shall not be undertaken;

(b) Changes to *structures* that have acquired historic *significance* in their own right shall be retained and preserved, recognizing that most *structures* change over time;

(c) Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a *structure* be preserved; and

(d) New additions and related or adjacent new construction be undertaken in such a manner that if removed in the future, the original form and integrity of the historic *property* and its environment would be unimpaired.

(4) Compliance with General and Specific Design Standards Required

All *development* located within the historic districts and subject to this Section 14-5.2 shall comply with all applicable general *development* standards set forth in Subsection 14-5.2(D), as well as any applicable specific *development* standards set forth in Subsections 14-5.2(E) through (I).

(5) Exceptions

Staff shall determine whether an exception to this section is required. The historic board may grant an exception to the regulations set forth in this section provided that such exception does not exceed the underlying zoning.

(a) Height

If the *applicant* requests approval of a height in the historic district that exceeds the underlying zoning district requirement, the *applicant* shall first receive an exception to this Section 14-5.2. If approved by the historic board, the *applicant* shall proceed to the board of adjustment or other applicable *city* body for consideration of the proposed variance.

(b) Design Standards and Signage

The board may recommend exceptions to Subsections 14-5.2(D)(1-8, 10-11) and 14-5.2(E) through (I) for construction or alterations within the historic district. The recommendation for exceptions shall be made to the *governing body*. Procedures for public notice and hearing before the *governing body* shall be as set forth in Section 14-3.6(B)(3). Exceptions are *project* specific and do not apply to the subject *property* in perpetuity. If approved by the *governing body*, the inspections and enforcement *office* shall accept and review an *application* for, and issue, as appropriate, a *building permit*. The *applicant* for such exceptions shall conclusively demonstrate and the board shall make a positive finding of fact that such exceptions comply with all the criteria listed as follows:

(i) Do not damage the character of the district;

(ii) Are required to prevent a hardship to the *applicant* or an injury to the public welfare; and

(iii) Strengthen the unique heterogeneous character of the *City* by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

(D) **General Design Standards for All H Districts**

In any review of proposed additions or alterations to *structures* that have been declared significant or contributing in any historic district or a *landmark* in any part of the *city*, the following standards shall be met:

(1) General

(a) The status of a significant, contributing, or *landmark structure* shall be retained and preserved. If a proposed alteration will cause a *structure* to lose its significant, contributing, or *landmark* status, the *application* shall be denied. The removal of historic materials or alteration of architectural features and spaces that embody the status shall be prohibited.

(b) If a proposed alteration or new construction will cause an adjacent *structure* to lose its significant, contributing, or *landmark* status, the *application* may be denied.

(2) Additions

(a) Additions shall have similar materials, architectural *treatments* and styles, features, and details as the existing *structure*, but shall not duplicate those of the existing *structure* in a manner that will make the addition indistinguishable from the existing *structure*.

(b) Additions to *buildings* that meet the standards of Subsection 14-5.2(E) shall continue to meet those standards set forth in Subsection 14-5.2(E) in addition to the standards set forth in this section.

(c) Additions are not permitted to *primary façades*.

(d) Additions are not permitted to the side of the existing footprint unless the addition is set back a minimum of ten (10) feet from the primary facade. The addition shall not exceed fifty percent of the square footage of the existing footprint, and shall not exceed fifty percent of the existing dimension of the primary facade. To the extent architecturally practicable, new additions shall be attached to any existing noncontributing portion of *structures* instead of attaching them to the significant or contributing portion.

(e) The height of additions:

(i) For significant and *landmark structures* shall be a minimum of six (6) inches less than the parapet or equivalent roof-feature of the existing adjacent connecting facade.

(ii) For contributing *structures* shall be no more than one additional *story* higher than the existing *structure*. To the extent architecturally practicable, two-story additions shall be set to the rear or the side rear of the *structure*. When an additional *story* is to be placed upon an existing contributing *structure*, that footprint may be no greater than fifty percent of the footprint of the existing *structure*, subject to the provisions of Subsection A(1) above. For the purposes of this paragraph, an additional *story* shall not exceed twelve (12) feet from the existing rooftop to the highest point of that *story*.

(3) Remodeling to Increase Height; Rooftop Appurtenances

(a) For *remodeling* of existing significant and *landmark structures*, no increase in height of the *structures* is permitted. (For standards relating to additions to existing *structures*, see paragraph (2) above.)

(b) For significant and *landmark structures*, *publicly visible* roof top appurtenances, including but not limited to solar collectors, clerestories, decks, or mechanical equipment, shall not be added nor shall the parapet be raised to conceal the *rooftop appurtenances*. For contributing *buildings* solar collectors, clerestories, decks, or mechanical equipment if *publicly visible* shall not be added.

(4) Porches and Portals

Existing *porches* or *portals* shall not be enclosed.

(5) Windows, Doors, and Other Architectural Features

(a) For all facades of significant and *landmark structures* and for the primary facades of contributing *structures*:

(i) Historic windows shall be repaired or restored wherever possible. Historic windows that cannot be repaired or restored shall be duplicated in the size, style, and material of the original. Thermal double pane glass may be used. No opening shall be widened or narrowed.

(ii) No new opening shall be made where one presently does not exist unless historic documentation supports its prior existence.

(iii) No existing opening shall be closed.

(b) For all façades of significant, contributing and *landmark structures*, architectural features, finishes, and details other than doors and windows, shall be repaired rather than replaced. In the event *replacement* is necessary, the use of new material may be approved. The new material shall match the material being replaced in composition, design, color, texture, and other visual qualities. *Replacement* or duplication of missing features shall be substantiated by documentation, physical or pictorial evidence.

(6) Roofs

The existing roof styles and materials shall be maintained or replaced in kind if necessary. The addition of dormers or other roof features should only be considered when they are an existing or historical feature of the *structure*.

(8) Archaeological Resources

Discovery of archaeological resources made during the historic districts review process shall be referred to the archaeological review committee.

(9) Height, Pitch, Scale, Massing and Floor Stepbacks

The height, pitch, *scale*, and massing of any *structure* in an historic district, as defined in this section, shall be limited as provided for in this section, unless further restricted within this chapter.

(a) Applicability

The following sections identify specific areas and specific *projects* subject to this section. Planning and land use department staff shall determine whether or not properties are included within this section. (Ord. No. 2007-45 § 30; Ord. #2020-22, § 16)

F. When the proposed *building*, *yardwall*, or fence is located in a *streetscape* that includes no *buildings* , *yardwalls*, or fences, the height of the proposed *building* shall not exceed sixteen (16) feet. *Yardwalls* and fences in this *streetscape* shall not exceed five (5) feet in height.

(c) Height

(ii) In exercising its authority under this section, the board shall limit the height of *structures* as set forth in this section. Heights of existing *structures* shall be as set forth on the official map of *building* heights in the historic districts.

A. If a proposed *building* has a parapet, the façade shall not be in excess of two (2) feet of the average of the height of the façades in the *streetscape*.

B. If the proposed *building* has a pitched roof, the ridge height of the proposed *building* shall not be in excess of two (2) feet of the average of the ridge height of the pitched roofs in the *streetscape*.

C. *Yardwalls* and fences shall be limited to a height that does not exceed the average of the height of other *yardwalls* and fences in the *streetscape*.

D. Pursuant to Section 14-7.4(C), the height of any other *structure* shall be limited to the allowable *building* height within the applicable *streetscape*, as defined in this section. (Ord. No. 2002-37 § 26)

E. The height and dimension of signage are as set forth in Section 14-8.10(H).

F. The board may increase the allowable height for proposed *buildings* and additions located on a sloping site where the difference in the natural *grade* along the *structure's* foundation exceeds two (2) feet. In no case shall the height of a façade exceed four (4) feet above the allowable height of the applicable *streetscape* measured from natural or finished *grade*, whichever is more restrictive. This increase in height shall be constructed only in the form of *building* stepbacks from the *street*.

(d) Pitch

If the determined *streetscape* includes over fifty percent of *buildings* with pitched roofs, the proposed *building* may have a pitched roof. A pitched roof is defined as a gable, shed, or *hipped roof*. The pitch of the roof shall match the predominant pitch extant in the *streetscape*.

(e) Scale

The height of a proposed *building* or addition, its façade length, and its roof form and pitch shall appear to be in proportion to the height, façade length, and roof form and pitch of *buildings* in the applicable *streetscape*, or the *building* on which the addition is proposed.

(f) Massing and Floor Stepbacks

The Board may require that upper floor levels be stepped back, to carry out the intent of this section; provided that the board in making such determinations shall take into account whether the height of the proposed *building*, *yardwall*, fence, or proposed stepback of upper floor levels is in harmony with the massing of the applicable *streetscape* and *preservation* of the historic and characteristic visual qualities of the *streetscape*. The Board shall also require that the *publicly visible* façades of the *structure* be in conformance with Subsections 14-5.2(E) through (H), and in meeting those requirements, may require that different floor levels be stepped back.

(E) **Downtown and Eastside Design Standards**

The *governing body* recognizes that a style of architecture has evolved within the *city* from the year 1600 to the present characterized by construction with *adobe*, hereafter called "old Santa Fe style", and that another style has evolved, hereafter called "recent Santa Fe style", which is a *development* from, and an elaboration of the old Santa Fe style, with different materials and frequently with added decorations.

(1) Old Santa Fe Style

Old Santa Fe style, characterized by construction with *adobe*, is defined as including the so-called "pueblo" or "pueblo-Spanish" or "Spanish-Indian" and "territorial" styles and is more specifically described as follows:

(a) With rare exception, *buildings* are of one *story*, few have three stories, and the characteristic effect is that the *buildings* are long and low. Roofs are flat with a slight *slope* and surrounded on at least three sides by a firewall of the same color and material as the *walls* or of brick. Roofs are never carried out beyond the line of the *walls* except to cover an enclosed *portal* or *porch* formed by setting back a portion of the *wall* or to form an exterior *portal*, the outer edge of the roof being supported by wooden columns. Two- *story* construction is more common in the territorial than in other sub-styles, and is preferably accompanied by a balcony at the level of the floor of the second *story*. Façades are flat, varied by inset *portales*, exterior *portales*, projecting vigas or roof beams, canales or water-spouts, flanking buttresses and wooden lintels, architraves and cornices, which, as well as doors, are frequently carved and the carving may be picked out with bright colors. Arches are almost never used except for nonfunctional arches, often slightly ogive, over gateways in freestanding *walls*;

(b) All exterior *walls* of a *building* are painted alike. The colors range from a light earth color to a dark earth color. The exception to this rule is the protected space under *portales*, or in church-derived designs, inset panels in a *wall* under the roof, in which case the roof overhangs the panel. These spaces may be painted white or a contrasting color, or have mural decorations;

(c) Solid *wall* space is always greater in any façade than window and door space combined. Single panes of glass larger than thirty (30) inches in any dimension are not permissible except as otherwise provided in this section;

(d) The rule as to flat roofs shall not be construed to prevent the construction of skylights or installation of air conditioning devices, or any other necessary roof *structures*, but such *structures* other than chimneys, flues, vents and aerials, shall be so placed as to be concealed by the firewall from the view of anyone standing in the *street* on which the *building* fronts;

(e) True old Santa Fe style *buildings* are made of *adobe* with mud plaster finish. Construction with masonry blocks, bricks, or other materials with which the *adobe* effect can be simulated is permissible; provided, that the exterior *walls* are not less than eight (8) inches thick and that geometrically straight façade lines are avoided. Mud plaster or hard plaster simulating *adobe*, laid on smoothly, is required; and

(f) It is characteristic of old Santa Fe style commercial *buildings* to place a *portal* so that it covers the entire sidewalk, the columns being set at the curb line.

(2) Recent Santa Fe Style

Recent Santa Fe style intends to achieve harmony with historic *buildings* by *retention* of a similarity of materials, color, proportion, and general detail. The dominating effect is to be that of *adobe* construction, prescribed as follows:

(a) No *building* shall be over two stories in height in any façade unless the façade shall include projecting or recessed *portales*, *setbacks* or other design elements;

(b) The combined door and window area in any *publicly visible* façade shall not exceed forty percent of the total area of the façade except for doors or windows located under a *portal*. No door or window in a *publicly visible* façade shall be located nearer than three (3) feet from the corner of the façade;

(c) No cantilevers shall be permitted except over projecting vigas, beams, or wood corbels, or as part of the roof *treatment* described below;

(d) No less than eighty percent of the surface area of any *publicly visible* façade shall be *adobe* finish, or stucco simulating *adobe* finish. The balance of the *publicly visible* façade, except as above, may be of natural stone, wood, brick, tile, terra cotta, or other material, subject to approval as hereinafter provided for *building permits*;

(e) The *publicly visible* façade of any *building* and of any adjoining *walls* shall, except as otherwise provided, be of one color, which color shall simulate a light earth or dark earth color, matte or dull finish and of relatively smooth texture. Façade surfaces under *portales* may be of contrasting or complimentary colors. Windows, doors and *portals* on *publicly visible* portions of the *building* and *walls* shall be of one of the old Santa Fe styles; except that *buildings* with *portals* may have larger plate glass areas for windows under *portals* only. Deep window recesses are characteristic; and

(f) Flat roofs shall have not more than thirty (30) inches overhang.

DEFINITIONS:

14-12 Contributing Structure:
A structure, located in a historic district, approximately fifty years old or older that helps to establish and maintain the character of that historic district. Although a contributing structure is not unique in itself, it adds to the historic associations or historic architectural design qualities that are significant for a district. The contributing structure may have had minor alterations, but its integrity remains.

14-12 Primary Façade:
One or more principal faces or elevations of a building with features that define the character of the building's architecture.

EXHIBIT E

History of the Building:

GENERAL PROPERTY INFORMATION

Legal Description

The property is legally described on a survey plat entitled "Plat of Boundary Survey for Christopher C. Hill, White Buffalo Ltd., a Texas Limited Partnership."

A copy of the latest survey plat is provided under Historic Documents.

Zoning and Status

The subject property is located in the McKenzie sub-district of the Business Capitol District, as designated by the Santa Fe Zoning Office. The City of Santa Fe Historic Structures Survey Map, compiled from 1983 through 1995, lists the adobe structures on the property as a Contributing structure. The current Status established in 2005 is listed as CONTRIBUTING except for a parking shed and storage shed at the south west end of the property.

It must be noted that at one time the status was "suggested" by the 2005 Surveyor as "possibly significant" due to its association with (unnamed) historic persons and not due to architectural cohesiveness or unique design or perfection. The structure that is most associated with Historic figures and this property was 142 Griffen Street which was torn down in 1951.

Property Description

The property is located at 206 McKenzie Street in the City of Santa Fe, Santa Fe County, New Mexico. It is designated on King's Official Map of Santa Fe (circa1912), as lying within lots 1, 2 and the eastern end of lot 12 in block 18.

(Ref:Sanborn Maps & King's Map). The property currently consists of approximately 0.6104 acres of developed land.

The property is currently comprised of several interconnecting one- and two-floor structures with yard walls that are constructed of adobe, hallow masonry tile (pen-tile 1902-1945) and concrete masonry units (pumice block). The overall footprint of the building is approximately 8500 s.f., that was forged over a period from 1886 to the 1970's.

The remainder of the property is occupied by courtyards that lie between the remnants of former structures and in gardens along the south side where an historic structure (142 Griffin Street) once occupied a prominent place on the streetscape.

A parking area along the west side of the property was once occupied by a 1920s brick residence (212 McKenzie Street) and several adobe structures.

The architectural design and detailing of the property is a true combination of early Pueblo Revival style adobe buildings that have been fitted with adaptations of Spanish Baroque detailing on some windows and gates and an impressive espadana (bell tower like) facade over a room that faces McKenzie Street.

Territorial coping, iron window grille work and other details were applied in the 1930s and major demolitions and second story additions executed in brick and pen tile were accomplished in the 1940s. No major changes have taken place on the exterior primary facades since 1958.

Through the 1960s and 1970s interior modifications were accomplished to create apartments and commercial offices within the structure. CMU storage units, parking sheds, aluminum windows, garage doors and a few infill projects were inflicted upon the exterior of the property during the same period of time, however; most of it was applied to non-primary facades and what can be considered as noncontributing structures.

Boundaries

The property is bounded on the north by McKenzie Street. The address 206 McKenzie Street has slowly become the address of choice for the entire complex. The McKenzie Street elevation can be considered one of two primary facades.

The east boundary of the property is on Griffin Street. (Formerly Griffin Avenue). The access to courtyards and parts of the commercial occupancies are located on Griffin, but these are not the primary access points. These gates were primary access to portions of the complex that once carried the addresses of 146 and 142 Griffin. It is noted that a street realignment, subsequent to 1960, removed a large section of sidewalk and promenade along the east boundary of the complex. CMU planters that now define the streetscape along the east boundary are not historic fabric associated with the original buildings.

The boundary to the South - Southeast is partially on Grant Avenue, however; the historic structure once located on the edge of the property carried an address of 142 Griffin. Walls were raised to a height, generally 10 feet above grade during the 1940s to create an effective visual screen to assure privacy for the religious sect that owned the building complex during the 1940s and 1950s.

The south boundary is created by a high CMU wall that segregates the 206 McKenzie property from the "Hovey House" (once designated as the Historic Tully house). The 136 Griffin Street building, now called the "Hovey House" was restored by the Historic Santa Fe Foundation in the early 1970s and remains one of the flagship historic properties for that foundation. The history of the subject property was tied to the Historic Santa Fe Foundation property in the early development of the streetscape.

The Hovey House has been re-purposed over the years as attorney offices, galleries and, most recently, as an antique retail establishment but none the less remains a significant property.

The west boundary of the subject property is defined by the continuation of the white painted, CMU block that shows up as early as 1958 on survey maps. The white painted wall that surrounds the parking lot and some non contributing parking sheds. It should be noted that the grade in the parking lot has been raised approximately 1-9" higher than the original grade and thus may mask some historic walls or foundations in that area. An archaeologist has been engaged to study the unseen aspects of the site.

History

This document will study the building design and persons associated therewith in a manner that hopefully brings into clear focus the history and significance of the property.

It is clear that a building was located on this site as early as 1846 as found on the historic Gilmer map of that date. Although it appears that the 2005 surveyor inappropriately attributed portions of the Historic Santa Fe Foundation "Hovey House" at 136 Griffin Street as part of the current 206 McKenzie property.

Other maps have been presented that indicate that there was a possible structure in this vicinity on the 1766 Urritia map. It is almost impossible to determine if the structures represented on those maps actually represent this particular complex.

History of the Property as documented by the Sanborn Fire Insurance Maps, the 1912 King's Official Map of Santa Fe, and Santa Fe City Directories bring a more detailed picture of the property history and use (Ref: Appendix VI - Sanborn Maps & Kings Map; Appendix VII - City Directory and Title Research).

It is important to point out that the property at 206 McKenzie is associated with several other addresses as follows:

142 Griffin Street- (now torn down)

146 -148 Griffin Street

206 McKenzie

210 -212 McKenzie

Ms. Cleofus Jaramillo was associated with the building at 142 Griffin Street, which is identified on the Sanborn Fire Insurance maps as an adobe one-story structure located set back from Griffin Street in what is now a large courtyard; that structure was demolished sometime soon after 1948 by Bullard. Thus the portions of the complex associated most with C. Jaramillo were destroyed.

210 McKenzie Street was a 1920 -1930 era residence that was associated with a J.C. Martinez as late as 1930 according to the City directories. It is not known if that J.C. Martinez was related to the original Martinez-Jaramillo ownership; and that house, too, was razed as early as 1934 to make room for the two-story studio that was constructed under the supervision of Hazel Hyde.

It is interesting to note that Hazel Hyde built the studio for her husband George Blodgett, a sculptor artist, but he left her and the studio soon after it was constructed according to some resources.

The location of the 212 McKenzie Street house and several adobe structures south of this house were located where the existing parking is to the west of the main structures.

It is also apparent by the measuring and documentation that has been accomplished by the current team of professionals; that the parking lot area has been raised with imported fill, approximately 1-9" over its entire area.

An archeological study is being accomplished to further document historic "events" on this property. The results of that study have not been completed as of this report.

History of the Property as documented by the Sanborn Fire Insurance Maps, the 1912 King's Official Map of Santa Fe, and Santa Fe City Directories bring a more detailed picture of the property history and use (Ref: Appendix VI - Sanborn Maps & Kings Map; Appendix VII - City Directory and Title Research).

The earliest Fire Insurance maps that show the property indicate that it was developed for residential use at least since 1898. The building configuration on this and succeeding maps indicate that the core of some of the existing adobe structures may date from this era, although the historic structures survey indicates that the structures date from 1931 to 1945. At some time between 1931 and 1948, the Fire Insurance map made in 1948 shows the addition of Pen Tile structures along the west side of the existing adobe buildings. The map also shows that Pen Tile upper floors were added to some of the existing adobe buildings (Note: Pen Tile refers to the brick masonry units manufactured at the New Mexico State Penitentiary, formerly located in the Cordova Road area in Santa Fe; many buildings in Santa Fe dating from these years are constructed from Pen Tile which date from 1902 to the late 1940s).

What is important is the "nature" of this building and the associated structures adjacent to this building has been a nature of "change". Major change has been the characterization from every surveyor who has been assigned to assess the structure for historic character. If there are components or remnants of the structure that date back to the earliest maps of "urbanized" Santa Fe, it can be said that those building remnants have lost their intrinsic character and significance to the current form and nature of the current structure.

Association with People

The deeds to the structure reveal a somewhat clear path of ownership and a glimpse into the sequence of development of the property.

The original post contact property ownership was associated with a grant to Antonio Lucero de Godoy in 1693. He came to New Mexico with Don Diego De Vargas and after the Revolt of 1680 returned in 1690 to claim land and be part of the New Spain.

The grant was hewn down through purchase and inheritance to a property that was purchased by a family named Escudero in the late 1800's. Some historic references to the Escudero property have been found but need further study to resolve a chain of title. It appears that there was a structure on the site as early as 1851.

The more "modern" day events from the 1890s to the property as it has evolved in 1960s begins with a plat that is described in the 1884 Gilmore map as the Oliver P Hovey estate. The Hovey estate encompassed a large area that was bounded by a property line of almost 250 feet along Griffin and Grant Streets and almost 300 feet along what is now known as McKenzie Street.

Most of the property to the west along what is now McKenzie Street was vacant and used for agricultural purposes. There was an unnamed acequia that ran though US Military parade fields to the east of this property and down what would later be called McKenzie Street. In the 1920s, formal development of the areas north and west of the Hovey Estate resulted in several small brick houses being built that show up on the 1930 maps.

James Conklin's son in law named Pickney Tully acquired the 136 Griffin Street in 1857 but only lived there for a few years .The property was acquired and restored by the Historic Santa Fe Foundation in 1974-1978

It is important the "significant" Owners of the 206 McKenzie Street properties made significant changes to the property, then moved on. They were not associated with the property for more than 10 or 12 years.

Cleofus Jaramillo

The property at 206 McKenzie is most associated with Col. V. Jaramillo, a member of the Governor Otero staff and a resident of Arroyo Hondo, who died an untimely death in early 1921. After his death, his wife, the beautiful (see historic picture) Cleofus Jaramillo came to Santa Fe from her home in El Rito and assumed ownership of the property.

Mrs. Jaramillo inherited the property from her father, J.A. Martinez of Taos and Arroyo Hondo,NM. Mr. Martinez purchased the property from Hovey who was another James Conklin son-in-law. Cleofus Jaramillo occupied a portion of 142 Griffin Street from 1923 through the early 1930s. In 1931, her adult daughter was murdered in one of the front apartments of 142 Griffin Street. Her association with the property ended at that time.

Ms. Jaramillo is known for the formation of the La Sociedad de Folklorico of Santa Fe in 1935 and writing of a simple cookbook in 1942. Her autobiography "The Romance of a Little Village Girl" was published by Sunstone press in 1955, one year before her death in 1956.

Her association with the 206 property postdated these accomplishments, but the building seemed to carry an association with Ms. Jaramillo for several years after her departure from the building. This is noted in some historic photos captured by Harmon Parhurst, a well-known Santa Fe Photographer who attributed the photos as Mrs. Jaramillo's house even though it was owned at the time by Hazel Hyde, a real estate agent and entrepreneur.

Hazel Hyde

Hazel Hyde is associated with the property as the owner of the property starting in the early 1930s. She is also shown to occupy several apartments within the various structures and is credited with several major additions and alterations of the building complex. She also is shown as owner and operator of a "dining room" called El Cercado, which occupied one of the front apartments at 146 Griffin Street and used the courtyard on the north side of the complex as a patio with a gate that opened onto McKenzie Street.

Her contributions are documented in some of the Parkhurst photos and includes the large 18-foot high studio and the Spanish Baroque facade on McKenzie Street and some stone detailing around doors and windows on Griffin Street.

The studio was constructed ostensibly for the use of George Blodgett, her husband for a short period of time. He can be described as a light- to middle-weight member of the Santa Fe artist colony. (See document from 1930) Very little is known about his works except that he worked in bronze and kept to a narrow subject matter of North Americans and portrait busts. (See bust of K. Chapman)

The classic north-facing window and skylight popular with the Taos artists is clearly influenced by the north-facing skylights and window walls of Joseph Sharp, Blumenstein and Couse to name a few. The light monitor in this form was not as popular in Santa Fe. This maybe an iconic use of the architectural detail in Santa Fe and a clear character defining feature; although, George Blodgett made little use of the studio and was disassociated with Helen Hyde before 1938. He may have left Santa Fe soon thereafter.

Ms. Hyde is also noted as the person who wrote one of the books on the potter, Maria Martinez of San Juan Pueblo. It is not known if she developed a friendship with Ms Hyde or had another relationship that was formed to write the book. The book was written in the 1960s, well after Ms. Hyde's association with the buildings at 206 McKenzie.

Ms. Hyde also accomplished several other changes to the structure to accommodate it to her needs. A second-story addition to a middle apartment was constructed of brick and "Pen Tile" as documented in the Parkhurst photos. It appears that the Spanish Baroque detailing may have been added to enhance the romantic notion of the courtyard restaurant that occupied parts of the building at 146 Griffin, notably the Northeast corner.

She sold the property in 1942 to Edna Ballard who was associated with the "I Am" religious sect formed in California by her husband. Due to some legal troubles with the federal government and local law enforcement officials, the property was transferred to the St. Germaine Foundation, which was formed to be the publishing arm of the "I Am" religion. The entire property was referred to as the "I am Sanctuary"

Throughout the occupancy of the building by Edna Ballard (sometimes referred to as Ma Ballard), many changes and additions took place to accommodate the complex as a worship space, apartments for followers and classrooms for students. Second-story additions were added to existing adobe and brick structures and the building at 142 Griffin Street was demolished. The religion had (has) an affinity for white and all exterior building, faces, details and window trim were transformed to 100 percent white. The interiors were generally pastel in color. The most significant change was probably the demolition of the structure at 143 Griffen Street and the second story additions at 146 Griffen Street now facing into the courtyard vacated by 142 Griffen.

Another white building at 510 Old Taos Highway is currently identified as owned and operated by the St. Germaine Foundation and may have also been purchased in the early 1940s according to some documents.

The Foundation owned the buildings until the early 1970s, but Ms. Ballard left Santa Fe in the mid-1950s and died in Illinois in 1971. The myth and mystery of the property came into being during the occupancy by the "I Am" sect due to their secrecy and low profile in the community. The use of the property from the mid-50s through the early 70s was mostly that of an apartment structure.

Walter O Ingram

In the early 1970s, the property went through several ownership events. Walter O Ingram of Santa Fe was the owner and steward of the property from 1973 until 2001. His association was longer than most of the previous Owners. During that period it appears that several changes and additions were made to "improve" the property as a residential apartment compound. Those changes included a fiberglass roof being placed over one courtyard on the west side of the complex.

It was framed in with 2x6 wood framing. A laundry room and trash structure was remodeled in that same period which included new garage doors and a pitched roof extended from a 1950's roof to extend over one or two of these small shed structures. Two parking sheds were created with 6 x 6 wood posts and wood framing and corrugated metal roofing. Concrete masonry units were also used to enhance the height of walls around the outside edges of the south and west property boundaries and to construct storage sheds for the tenants.

Garage door openings were enlarged and new garage doors were placed over these openings to complete the accommodations for the tenants.

Conclusion

It is the opinion of this writer that the additions and modifications to the west facing structures has rendered those structures as noncontributing to the historic context of the structures that remain from the 1930 to 1958 period of significance for the complex. The McKenzie Street and Griffin Street facades are sufficiently unchanged over 50 years to qualify those buildings as Contributing to the Downtown Santa Fe Historic District.

Clearly, the structures that were torn down and/or substantially altered from the 1930s through 1950s and the associations with people associated with the 206 McKenzie Street building complex ,and who accomplished interesting things AFTER their association with the buildings; cannot be used as part of the significance of the complex as it now stands.

The history of this structure is one of mystery and intrigue and it deserves protection of a Contributing status for those elements that remain reasonably unchanged as part of the historic fabric of downtown Santa Fe. Those components will receive the light tough that is afforded contributing structures. The elements that have changed and become less than complimentary to the historic facades should be assigned a non contributing status due to alterations and changes and thus allow these elements to be modified or removed in order to reinforce the historic structure in a better way.

10. Photo Information
Digital 09-15-2005

Negative Location:
ArcCom PO Box 89 Santa Fe, NM 87504.

11. Brief Description of the Property: 206 McKenzie Street is located on the NW corner of McKenzie Street and Griffin Street, and is constructed of adobe and concrete block with stucco, wood frame stucco. The massive, marginally well-maintained building includes both one and two-story partitions, two enclosed courtyards, ten-foot high cinder block walls, a two-story studio, a shed with corrugated fiberglass roofing; a cinderblock garage with apartment, fireplace, and pitched roof, and a cinderblock and steel carport. The building is a combination of several architectural styles reflecting the eclectic nature of former owners and residents including, at the turn of the 20th Century, J. A. Martinez, a prominent Taos County figure, and later his daughter Cleofes Jaramillo, founder of the Sociedad Folklorio and a heritage preservation activist; artist Hazel Hyde and sculptor George Blodgett in the 1930s; Edna Ballard, founder of the I-Am religious sect in the 1940s. The structure has been altered several times during the last two centuries, but the original structure appears on the 1846 Gilmer map, and possibly the 1766 Urrutia map.

12. Who uses the property? Owner occupies one of nine rented units. Units are used for residential and light commercial-studio space.

13. Construction Date:
Date: pre-1846 X Known ___ Estimated Source: Gilmer map (p. 17).

14. Setting: __ Suburban __ Rural __ Village X Urban If Urban: X Commercial __ Industrial X Residential __ Public

15. Relationship to Surroundings: X Similar _____ Dissimilar

Comments: primarily Territorial

NEW MEXICO HISTORIC BUILDING INVENTORY - SANTA FE RESURVEY 1995 (concluded)

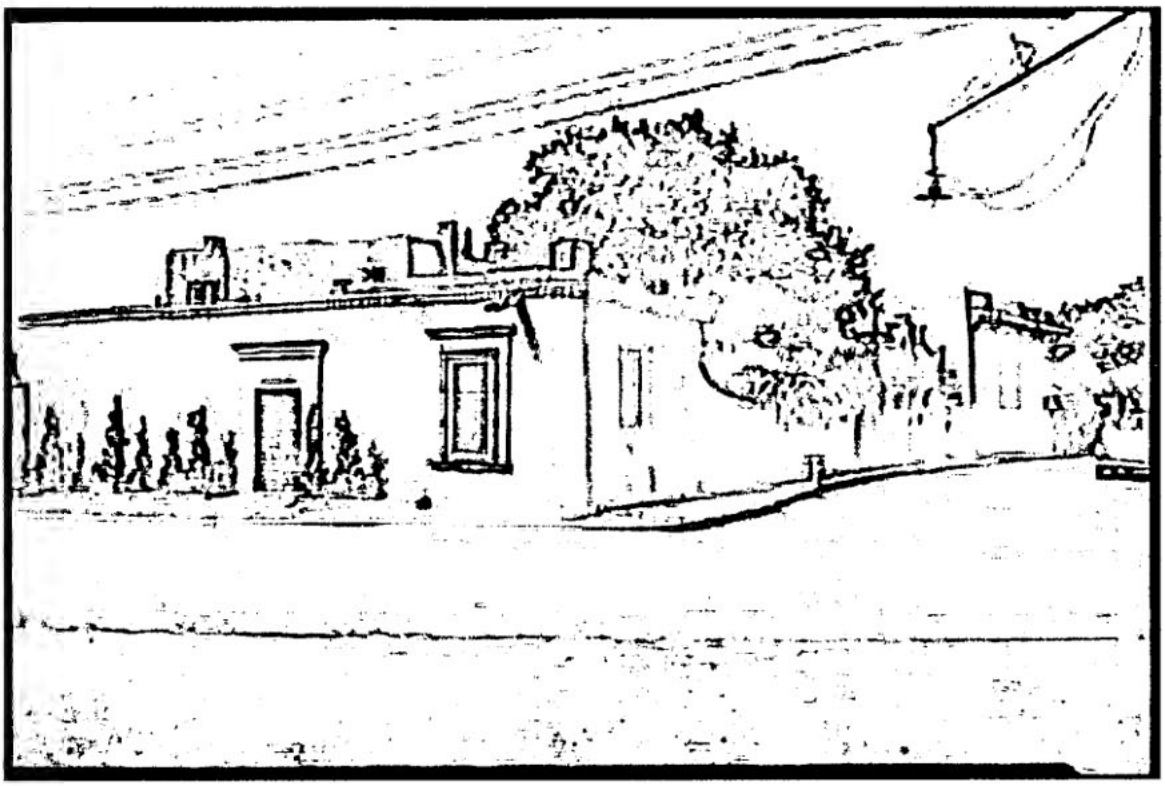
IDENTIFICATION

ADDRESS: 146 Griffin & 206 McKenzie

ID NUMBER: 0516 10071

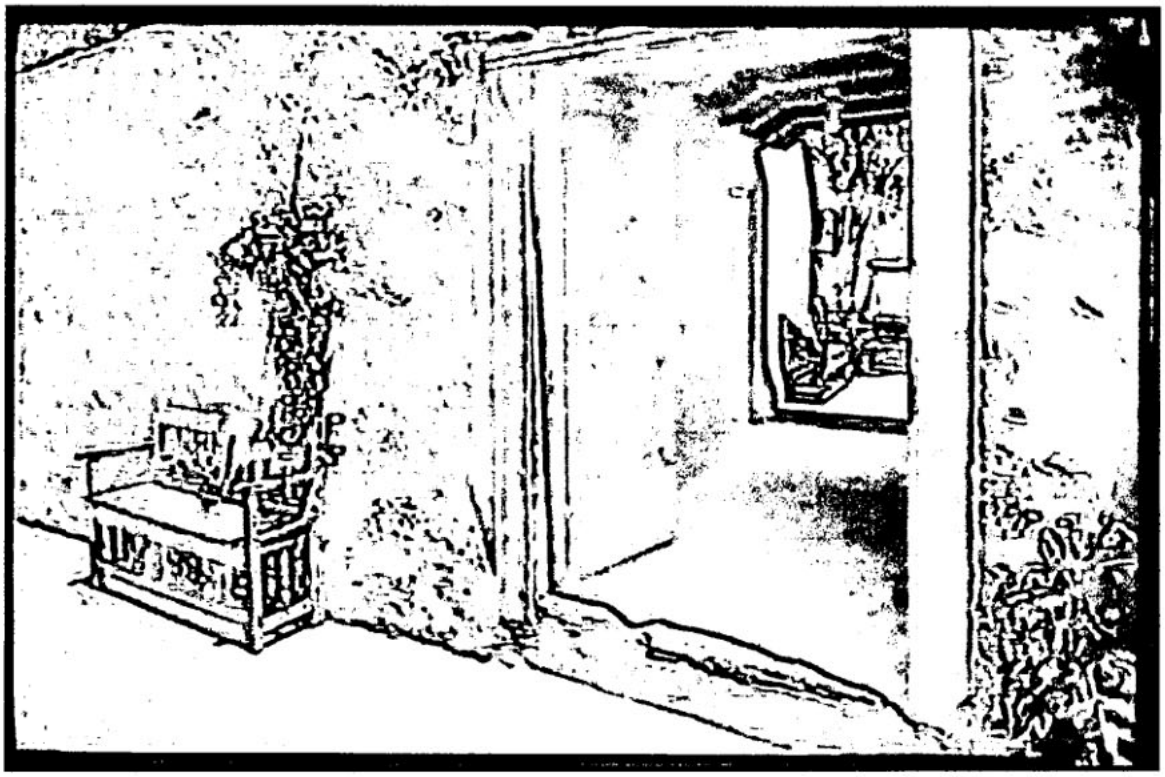
SANTA FE ID NUMBER: H 2258

SURVEYED/RESEARCHED DATE 7/95 BY DB



The building at 142 Griffin, now demolished, was the home of Cleofes Jaramillo, founder of the Sociedad Folklorico and an activist for preservation of local culture.

Major changes occurred between 1934 and 1937 (see photos) when the artist Hazel Hyde lived at 206 McKenzie. The large studio was added for sculptor George Blodgett, the second story was added to the Griffin section, and the espadana was added on the north. The Griffin street facade was remodeled from Territorial to a Renaissance Revival appearance, although the brick coping remained.



Sometime after 1937 the courtyard walls were raised to roof height, a major change to the building's appearance which makes it impossible to distinguish buildings from courtyards. The building at 142 Griffin was demolished in the early 1940s, when the property was owned by Edna Ballard, the founder of the I Am religious sect.

The current owner does not wish to permit survey, so that it was impossible to determine the exact building configuration. Intrusive cinder block carport on SW.

1951 - The Flaming Sword of Saint Germain

On January 5, 1951, the Santa Fe New Mexican front page carried a banner headline: " 'I Am' Leader Sued Here." The story involved Hepzibah Powell, a 75 year-old woman bedridden at St. Vincent Hospital, who filed a suit against Edna Ballard, leader of the controversial religious sect known as the Mighty I Am. Mrs. Powell, through her lawyer, Donnan Stephenson, claimed that Ballard had promised to take care of all of Powell's earthly needs and to protect Powell's interests in the next world. In return, Powell gave Ballard $9,000 in cash and $3,000 in jewels. But Ballard had refused to pay her hospital bills. Powell, in her lawsuit, asked for her $12,000 back plus $50,000 in punitive damages.

For her part, Ballard issued a statement to the United Press that the lawsuit was nothing more than a smear campaign.The $12,000 was simply a donation to her ministry and she had no obligation to return it. Ballard, who identified herself as president of the St. Germain Foundation, sniffed, "If she (Powell) had brought as much love and blessing into the world as I have, she wouldn't be in this shape."

The New Mexican story went on to remind readers that the federal government had indicted Ballard which led to a series of sensational trials during the war years. But the story actually began much earlier.

→ Sometime in 1930, Edna Ballard learned that her husband, Guy Ballard, was the reincarnation of Jesus. And Moses, Frances Bacon, Buddha, George Washington and nearly every illustrious personage of the last four thousand years of human history. In this life, Guy Ballard was a rather less colorful mining engineer from Newton, Kansas who had married, in 1916, a charming concert harpist named Edna Wheeler. Both shared a deep interest in theosophy, a rather elaborate belief that a group of immortals that had transcended the cycle of reincarnation were guiding human destiny from above. This philosophy was a large and generous one, easily accommodating theories concerning the occult, magic potions, astrology and the lost continents of Atlantis and Lemuria.

As Guy Ballard tells it, he was climbing California's Mount Shasta when he became thirsty. He felt a presence behind him and there, on the mountain top, Ballard encountered Le Comte de Saint Germain. The count was a mysterious occultist and magician who took his name from the French village, Saint Germain, in which he resided. The Count was fabulously wealthy, loved jewels and was reputed to converse with the spirits. And he had died in 1784. To Ballard in 1930, however, Saint Germain appeared to be none the worse for it.

Saint Germain offered Ballard a creamy drink which Ballard found wonderfully exhilarating, then he told Ballard an amazing tale. Saint Germain was a member of an elite group of humans known as the Great White Brotherhood, each of whom had undergone multiple reincarnations so successfully that they had "ascended" to become Masters to guide human history. Saint Germain himself had been tasked with leading the human race through the Aryan age of Aquarius, a Seventh Plane of existence, into the light of the Violet Flame. There might also have been something about Atlantis as well. At any rate, Saint Germain required someone to speak for him on earth and so appointed Guy Ballard, his wife Edna (herself the reincarnation of Joan of Arc and Benjamin Franklin) and his son Donald as "Accredited Messengers" of the Ascended Masters.

Ballard began to spread the teachings of Saint Germain first in Chicago, then in Los Angeles through an organization he called the Mighty I AM. (The name is taken from a verse in Exodus which describes Moses encountering a burning bush calling his name. When Moses inquires who it is, the voice of God responds by saying, "I am who I am. This is what you are to say to the Israelites: 'I am has sent me to you.'")

By 1938, Ballard had gathered, some say, more than a million followers who devoured the "decrees" of Saint Germain as revealed to him. These decrees resembled high speed chanting. This constituted the I Am Activity, an amalgamation of Theosophist ideas and various occult notions which proved very popular in California. Eager

followers bought books, pamphlets, posters, rings – even a New Age Cold Cream – and otherwise showered the Ballards with "love offerings" in the neighborhood of $3 million (in Depression-era America!), enabling the Accredited Messengers to live a decidedly luxurious lifestyle.

Then, in 1939, Guy Ballard died of heart failure. This was inconvenient as he had often declared his body physically indestructible and preached that he would someday ascend, body and soul, to become a Master himself. His quick-thinking widow, Edna, had the body cremated and told the followers that Ballard had indeed "ascended," leaving her in charge. As principal Accredited Messenger, Edna Ballard took the name Lotus Ray King

Barely weeks after Guy Ballard's death, the United States government indicted Edna Ballard and her son, Donald, with mail fraud. Simply put, the Ballards were charged with manufacturing a bogus religion and using it to separate money from the gullible.

The Ballards were convicted in spite of, or perhaps because of Edna's invocations of the Ascended Masters and the Violet Flame. Donald's defense fared no better: he claimed that he could make himself invisible at will and that, using his psychic powers, he had sunk several German U-Boats during the war. The conviction was appealed, resulting in a historic Supreme Court decision holding that the truth of a religious belief may not be examined under our Constitution although the sincerity of that belief may be put before a jury. United States v. Ballard, 322 US 78 (1944). Because the trial court allowed inquiry outside the constitutional bounds, the Ballards' conviction was fatally flawed.

It was a close decision, 5-4, with Justice Robert Jackson's dissent the most often quoted. Excerpts follow:

> I should say the defendants have done just that for which they are indicted. If I might agree to their conviction without creating a precedent, I cheerfully would do so. I can see in their teachings nothing but humbug, untainted by any trace of truth. But that does not dispose of the constitutional question whether misrepresentation of religious experience or belief is prosecutable; it rather emphasizes the danger of such prosecutions....
>
> In the first place, as a matter of either practice or philosophy I do not see how we can separate an issue as to what is believed from considerations as to what is believable. The most convincing proof that one believes his statements is to show that they have been true in his experience. Likewise, that one knowingly falsified is best proved by showing that what he said happened never did happen.
>
> How can the Government prove these persons knew something to be false which it cannot prove to be false? If we try religious sincerity severed from religious verity, we isolate the dispute from the very considerations which in common experience provide its most reliable answer . . .
>
> Some who profess belief in the Bible read literally what others read as allegory or metaphor, as they read Aesop's fables. Religious symbolism is even used by some with the same mental reservations one has in teaching of Santa Claus or Uncle Sam or Easter bunnies or dispassionate judges. It is hard in matters so mystical to say how literally one is bound to believe the doctrine he teaches and even more difficult to say how far it is reliance upon a teacher's literal belief which induces followers to give him money....
>
> If the members of the ["I Am"] sect get comfort from the celestial guidance of their "Saint Germain," however doubtful it seems to me, it is hard to say that they do not get what they pay for. Scores of sects flourish in this country by teaching what to me are queer notions. It is plain that there is wide variety in American religious taste. The Ballards are not alone in catering to it with a pretty dubious product.
>
> The chief wrong which false prophets do to their following is not financial. The collections aggregate a tempting total, but individual payments are not ruinous. I doubt if the vigilance of the law is equal to making money stick by over-credulous people.
>
> But the real harm is on the mental and spiritual plane. There are those who hunger and thirst after

higher values which they feel wa[illegible]ng in their humdrum lives. They live in [illegible]ental confusion or moral anarchy and seek vaguely for truth and beauty and moral support. When they are deluded and then disillusioned, cynicism and confusion follow.

The wrong of these things, as I see it, is not in the money the victims part with half so much as in the mental and spiritual poison they get. But that is precisely the thing the Constitution put beyond the reach of the prosecutor, for the price of freedom of religion or of speech or of the press is that we must put up with, and even pay for, a good deal of rubbish.

Prosecutions of this character easily could degenerate into religious persecution. I do not doubt that religious leaders may be convicted of fraud for making false representations on matters other than faith or experience, as for example if one represents that funds are being used to construct a church when in fact they are being used for personal purposes. But that is not this case, which reaches into wholly dangerous ground.

When does less than full belief in a professed credo become actionable fraud if one is soliciting gifts or legacies? Such inquiries may discomfort orthodox as well as unconventional religious teachers, for even the most regular of them are sometimes accused of taking their orthodoxy with a grain of salt. I would dismiss the indictment and have done with this business of judicially examining other people's faiths.

On re-trial, the Ballards were again convicted and the matter went up on appeal in 1946. The Supreme Court overturned the conviction again, this time on the sole basis that women had been unconstitutionally excluded from the jury, never reaching the merits. The government took no further court action but, through its administrative agencies, successfully denied the I Am Activity access to the mails and tax exemption on religious grounds for nearly a decade.

It was in the midst of these troubled times, in March of 1942, that Edna Ballard purchased a large house in Santa Fe at 510 Old Taos Highway, moved the Saint Germain Press there and opened an I Am school. By 1951, the members of the I Am sect, usually wearing colorful clothes, were a familiar part of the Santa Fe scene. (The sect members wore different colors for each day of the week; Saturday, for example, was a day for violet or purple colors. The colors red and black, however, were evil and never worn.)

In January of 1951, the I Am School was hosting some 600 students from around the nation who had come to hear Edna Ballard's "dictations" from Saint Germain and otherwise receive the blessings of the Messenger, Lotus Ray King.Then came the headline in the New Mexican on January 5, 1951, opening old wounds and inflicting fresh ones.

The following day, about 40 I Am students -- almost all women -- crashed through the front door of the New Mexicanoffices on Marcy Street, demanding to speak to the editors. A few were led to meet with editors Will Harrison and John Mickey McGuire where they delivered an ultimatum to the stunned newspapermen. Mrs. Ballard, they told the editors, demanded the right to review and approve any article regarding the Powell lawsuit before publication or else the newspaper faced a citywide boycott of its advertisers. Other students spread out through the plant, condemning secretaries and printers with strange incantations. The police were called to escort wandering I AM students to the more public areas of the building. Things appeared peaceful if somewhat noisy.

Then, in the midst of debate, a "portly woman in a fur trimmed coat" slapped the paper's managing editor, John Mickey McGuire, in the face. Another unidentified student slapped editor Will Harrison. Even Calla Hay, the society editor, injured a finger attempting to avoid a roundhouse from an I Am student. Someone broke an antique table in the editor's conference room. The newspaper was threatened variously with death by a Divine Hand, a $10 million libel suit, bankruptcy, a boycott of advertisers and, worst of all, the "flaming sword of Saint Germain." Police removed four male I Am students who were threatening employees with fists but the majority of the students simply planted themselves in the building and refused to move.

In less than an hour, the police – armed with a restraining order issued by a District Judge David Chavez – escorted the I Am students out of the building. Though closed for five hours, the newspaper brought out the Saturday edition on time with this headline: "Angry 'I Am' Mob Lays Siege to New Mexican on Suit Tale." The somewhat defiant editor of

the New Mexican issued this editorial:

No Thank You, Mrs. Ballard

Mrs. Edna Ballard, president of the I Am activity, has threatened the New Mexico with boycott and rioting, unless she is permitted to read and approve before publication articles relating to a suit filed in district court Friday by an I AM student accusing the I AM president of fraud.

The proposal to call off the boycott, which Mrs. Ballard said had been arranged among merchants of the city, and to keep mobs out of The New Mexican building came after five hours of siege Saturday morning in which throngs who said they were Mrs. Ballard's followers crowded through the newspaper building, slapping three employees, breaking a piece of furniture and engaging in verbal abuse.

It is a disturbing situation in a little town where we have all been living together in mutual respect and happiness, and we trust it will soon pass.

But more disturbing is the demand to print or not print news under threat of financial ruin. It is the first time, we think, that anything like this has been presented to the New Mexican in its 101 year history of publication.

Of course we cannot comply. If Mrs. Ballard or her representatives want space in the New Mexican to present their views, they may have it. But they may not determine the nature of the news that we are to publish.

We trust this threat was a hasty one and made in excitement. We hope it was because it would not be good to have among us a group that would censor the public information given to a community of 30,000.

Meanwhile (with cheek still tingling) the New Mexican wishes for its neighbors an early settlement of the difficulties that have risen among them and a return to the happy days.

A few days later, attorneys for Ballard and the I AM group arrived in Santa Fe, ostensibly to investigate the Powell matter but they also appeared for Mrs. Ballard in the scheduled January 12, 1951 hearing on the restraining order before Judge Chavez. But there was no hearing. Instead, the lawyers for the New Mexican and for Mrs. Ballard arrived at a settlement in which the injunction action against Ballard was dismissed and Mrs. Ballard issued this statement:

It is a matter of regret if any students of the "I Am" Religious Activity created a public disturbance at the office of the New Mexican the 6th of January last. It was not and never has been my intention that for any of our people to create any public disturbance, and I sincerely regret that any violence occurred. In making any protest they had in mind, it should have been done peacefully and with dignity.

President and publisher of the New Mexican, Robert McKinney, reiterated the newspaper's policy of printing the news as they saw fit and graciously accepted Ballard's statement which the newspaper generously called an "apology."There was no further action arising of this curious incident. No personal injury suits were filed by Harrison, McGuire or Hay; no property damages were sought and, despite front page photographs as graphic evidence, no criminal charges for assault or battery were lodged. It was as if it had never happened. More interestingly, the Hepzibah Powell case was never again mentioned in the pages of the Santa Fe New Mexican.

Eventually, Ballard and most of the school left Santa Fe to settle in Schaumberg, Illinois where Ballard died in 1971. Today, the numbers of the faithful have dwindled considerably. After Edna's 1961 death (or "transition" as it is called within the organization), a board of directors now passes along Saint Germain's messages while Donald Ballard long ago left the movement to run a manufacturing plant. The Mighty I Am is still based in Chicago but maintains about 300 activity "centers" throughout the United States, including a "Sanctuary" in the house off Old Taos Highway in Santa Fe, New Mexico.

I find myself thoroughly puzzled by the whole affair. The New Mexican, victim of an astonishing outrage, responded by yapping like a chihuahua about censorship yet seeking harmonious relations with a patently deranged bag of nuts. Back to "the happy days," indeed. Its only legal action – a simple injunction – was dumped when la presidente Ballard uttered a mealy-mouthed statement of general regret without even the scent of personal responsibility, a statemen which only the deluded could call an apology. Most tellingly, the newspaper made sure never to offend the Ascended Masters by not mentioning Ballard or the I Am group again.

Perhaps the lesson, if there is one, is this: While the pen may be mightier than the sword, it isn't mightier than the flaming sword of Saint Germain.

EARLY PRINT BY NEW MEXICO ARTIST NORMA VAN SWERINGEN
ABOUT THE PRINT: Norma Van Sweringen is the rare "native born" New Mexican artist who arrived in the Land of Enchantment well before it was "discovered" by the other well-known artists from back east. When she illustrated scenes such as this, she tells a story. This one depicts a woman dressed in a "rebosa" – the native dress of Hispanic women of the day – having just passed through the entry gate, walking back toward her home. The two "family" burros, standing side by side, seem to be transfixed by the laundry, freshly hung, flapping in the breeze. Van Sweringen doesn't miss a thing – including a tree in the corral to provide afternoon shade for the burros during the long, hot summer days and an old pick-up bed that's been converted to a water trough. The simple lines of the mountains in the distance place the location somewhere in northern New Mexico. It is all brought together by the deft hand of Van Sweringen.
SIZE: The image area measures 9-3/4 x 12-1/8 inches and sheet size is 10-1/8 x 13-1/8 inches.
CONDITION: This very large linocut print is in very good to excellent condition, is unsigned and has limited margins (a common issue with some early prints and printmakers). A small piece of paper tape remains along the top edge of the verso, there's a tear on the deckled edge, a bend on two corners (one slightly in the image – bottom left) and a small spot near one of the burro's rump. This spot appears to be a paper defect and nothing more. Please note: Our photos appear to be a little pink in nature, in reality, this print has been printed on a light yellow stock. It's a great print and undoubtedly from a very low edition. We've only seen two prints by this rare and listed woman artist in our 30+ years of collecting and the other one we sold last year.
ABOUT THE ARTIST: Norma Van Sweringen or Van Swearingen was known as a painter and illustrator. Born in San Marcial, New Mexico on September 2, 1888, she died October 4, 1953 in Santa Fe, New Mexico. – Source: An Encyclopedia of Woman Artists of the American West by Phil Kovinick and Marian Yoshiki-Kovinick. In my copy of Artists of the Canyons & Caminos: Santa Fe: Early Twentieth Century By Edna Robertson and Sarah Nestor, she's listed as an active participant with a "who's who" of 1930's artists.
Here's an excerpt: "Meanwhile, the Art Museum (Museum of New Mexico), under the direction of Mrs. R, Van Stone, continued its open-door policy. An Article in El Palacio, on August 1930, told of plans for the Annual Exhibition of Artists and Sculptors of the Southwest, which was to coincide with the Fiesta:
Plans for the annual exhibition are far advanced. Mrs. Mary R. Van Stone, curator of the art gallery, has mailed invitations to 73 artists asking them to participate. Each artist now working in the southwest is assured of representation, and more than one work of each will be exhibited if space permits. For this reason, paintings over 12 square feet in area will be submitted to a jury. These invitations were mailed to the following artists: Santa Fe – Frank C. Applegate, George W. Blodgett, Jozef Bakos, Henry Balink Gustave Baumann, Harry Behn, Gerald Cassidy, Howard Coluzzi, Mrs. Fayette Curtis, Russell Cowles, Catherine C. Critcher, May Connell, Randall Davey, Andrew Dasburg, Allison Sommerville Dodge, Claire Dieman, John Dorman, Fremont Ellis, O.S. Emblem, William Penhallow Henderson, Raymond Jonson, Dorothy Kent, Cyril Kay Scott, Datus Myers, Alice Clark Myers, Evaline Myers, Gladys Milligan, Willard Nash, Helen Needham, B.J.O. Nordfelt, Guyrah Newkirk, Howard Ashman Patterson, Sheldon Parsons, Olive Rush, Charles S. Rawles, Warren E. Rollins, Albert H. Schmidt, Will Shuster, John Sloan, Norma Van Swearingen , Theodore Van Soelen, Dorothy Stewart, Eugenie Shonnard, Beulah Stevenson, Beulah Sutherland, Carlos Vierra, Dr. Charles Winchester, and Mrs. West.
She was also the illustrator for CABALLEROS The Romance of Santa Fe and the Southwest By Ruth Laughlin

Approved Scope of Work: *Perform the following maintenance and repair items:*

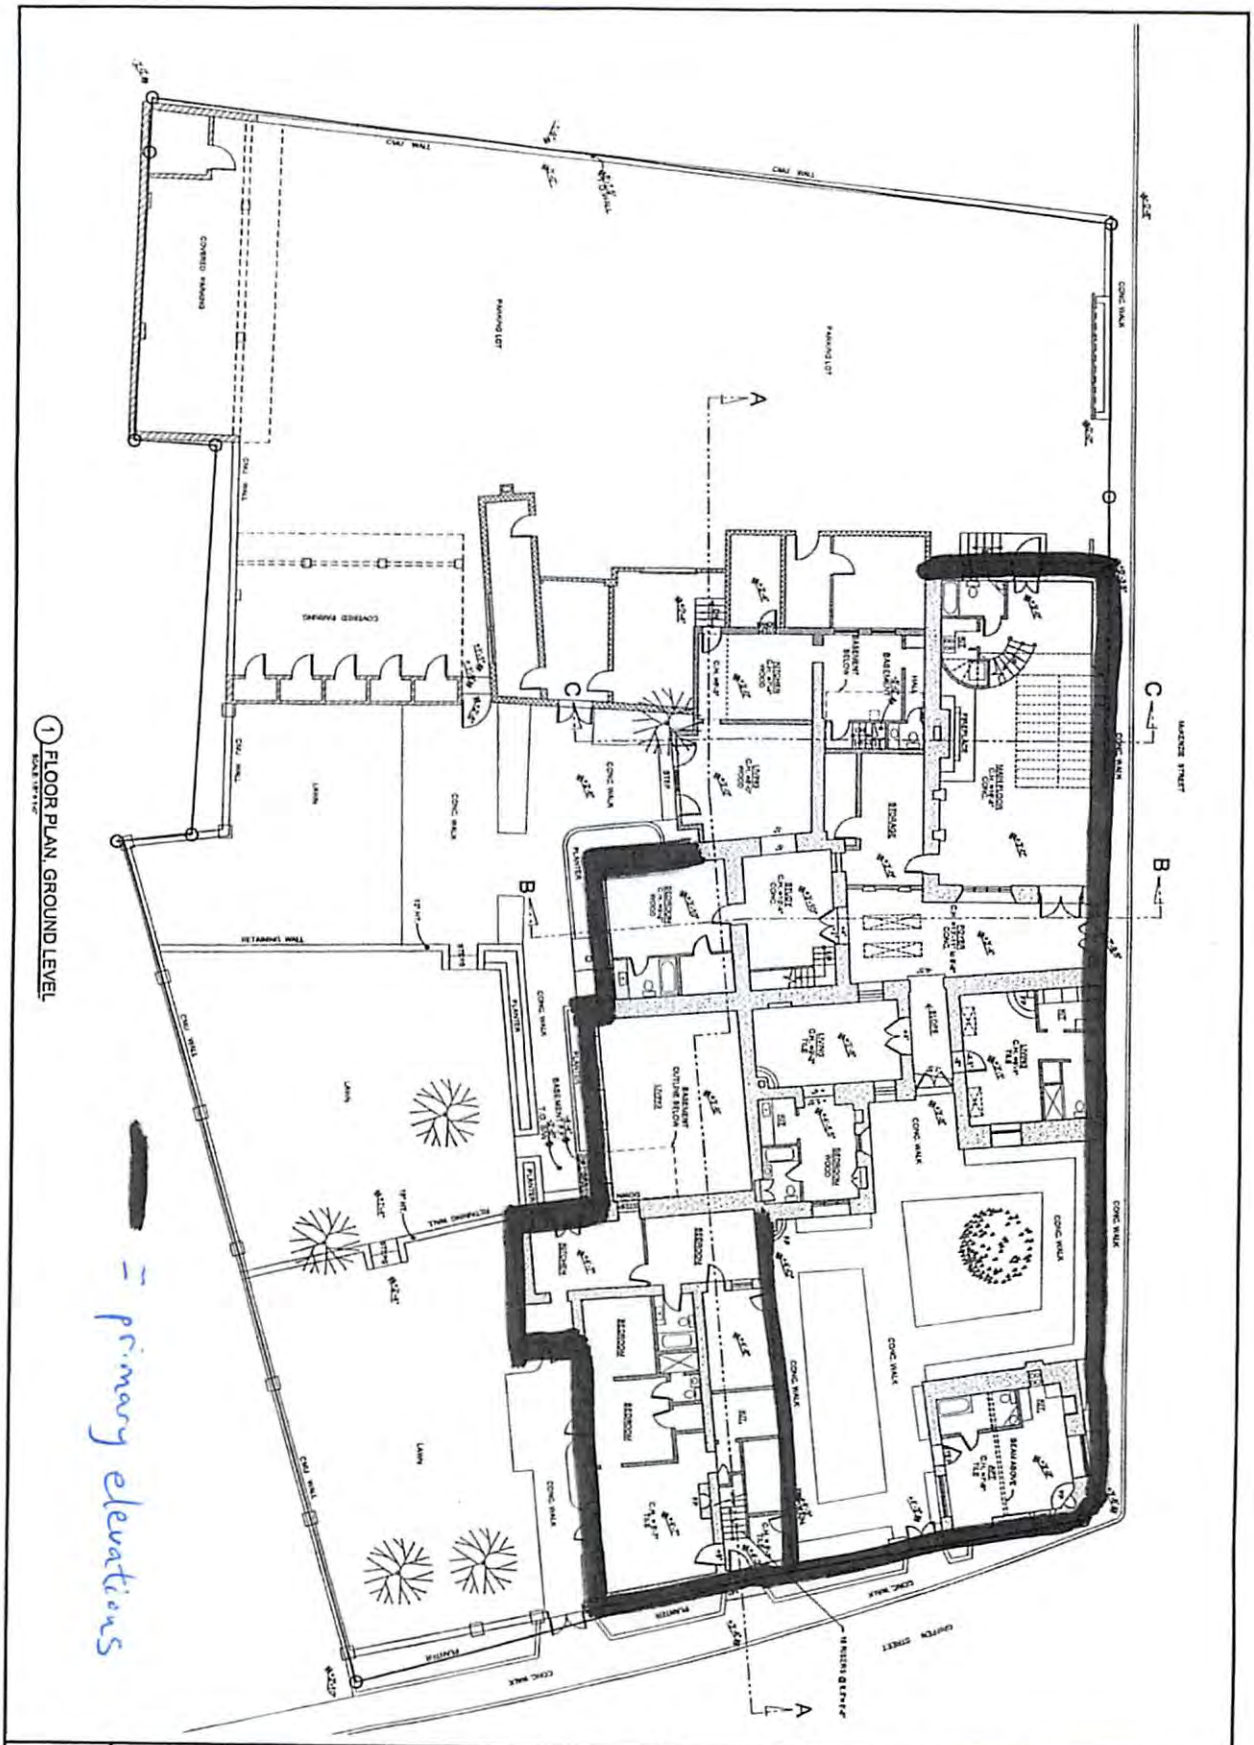
1) Prepare a stucco sample in the color treatment proposed on one of the walls that are interior to the property (south facade). This is a test to see if the color will be compliant with Downtown and Eastside standards.

2) Install a mural on the north courtyard wall, provided it will not be publicly visible.

3) Install ADA ramps at the two entrances on Griffin Street. This will require removeal of existing concrete step and extending and repairing the bottoms of the doors at these two locations. Doors will be painted white, and the extensions will be white steel door kicks.

4) Replace non-contributing planters on Griffin Street in-kind with white concrete in a block patter to match existing. Heights and configurations to remain the same.

5) Replace a small portion of sloped roof at the McKenzie street frontage with grey/zinc standing seam metal.



6) Repair a hole in the sidewalk at the corner of McKenzie and Griffin with a planter to match the existing planters on Griffin Street.

FURTHER ACTIONS REQUIRED: PERMIT or PERMIT REVISION

ROUTE TO HISTORIC DIVISION

FINAL HISTORIC INSPECTION

ITEM # 20-0277

City of Santa Fe
Historic Districts Review Board
Findings of Fact and Conclusions of Law

Case # 2020-1990-HDRB
Address – 206 McKenzie Street
Agent's Name – Wood Metal Concrete Architecture
Owner/Applicant's Name – FC3 LTD CO

THIS MATTER came before the Historic Districts Review Board ("Board") for hearing on May 12, 2020.

BACKGROUND

206 McKenzie Street, known presently as "The White Building" and historically as the "Escudero House," was constructed in a vernacular manner in 1898 and possibly earlier. The building underwent numerous changes historically, including alterations to architectural style that can mostly be characterized as Territorial and then Renaissance Revival. In the first half of the 20th century, significant changes occurred, including a 1930s two-story addition at the northwest corner, another second story addition at the southeast corner in the 1940s, and additions at the southwest corner which were present by 1958, including massing between the solar roof addition and the garage remodel. After 1970, pitched roofs and alterations to the garage's westernmost massing occurred, and two free-standing carports were constructed. The property has a long and interesting history, with numerous stories to tell of its occupants. More on the history of the property can be found in the attached HCPI documentation (updated in 2005) as well as a supplemental building history prepared in 2014 by architect Dale Zinn.

In 2013 (case H-13-003), the HDRB reviewed the historic status of the property and designated the main structure as contributing and both carports as non-contributing to the Downtown and Eastside Historic District. Primary façades were also designated at that time, and can be seen in the attached Primary Façade Diagram. In 2015 (also case H-13-003), the HDRB again reviewed historic status, this time focusing on the yardwalls and planters at the property. The prominent yardwalls along the street frontages of Griffin Street and McKenzie Street are constructed of CMU at 8 to 15 feet tall and are painted white. These walls were constructed in the 1940s in association with the ownership of the property by the I-Am religions sect. The walls that front the large courtyard at the northeast corner of the property were included in primary façade designation for the main structure in 2013. The remaining north and east yardwalls, gates and planters, were designated as non-contributing structures in 2015, with the exception of a small portion of the east yardwall that contains a carved wooden bileaf gate.

Since September 2019, staff has worked with the new owners of the property and their agent to approve administratively a series of maintenance, repair, and restoration tasks, including the following:

1) Repair the large window and skylight on the north elevation in order to complete asbestos abatement, and restore operability by removing a non-historic awning scrim.
2) Repair and replace in-kind the substantially damaged non-contributing concrete planters along Griffin Street.

Witness: Thomas Easterson-Bond
Exhibit
37
Kristine Kaczor, CCR# 545
Nov 22, 2024

3) Replace in-kind a small portion of sloped roof at the McKenzie Street frontage with grey standing seam metal.

4) Install small ADA ramps at the two Griffin Street gates, and install white steel gate kick plates at these locations.

5) Prepare a stucco sample in the color treatment proposed here on one of the walls that are interior to the property as a test to facilitate determination as to whether this treatment will meet district design standards.

6) Temporarily install a video display in the east facing window at the corner of McKenzie and Griffin as a temporary construction sign, for a period of 90 days.

At this hearing, the Applicant proposed the following exterior alterations, which require further review and approval by the Board:

1) Repair of historic windows throughout the structure, replacement in-kind of wire window screens where present, and replacement in-kind of windows on the south elevation and some windows at the north elevation in the northeast courtyard which have deteriorated beyond repair. Proposed replacements are wood divided light units to match the existing dimensions and light pattern and painted white. In addition, the applicant proposes to strip the existing iron window grates and railings, where present, to their original charcoal grey color.

2) Replacement of five existing non-historic brown plastic windows at a non-primary west façade with larger undivided window white aluminum clad units. Windows are not considered publicly visible in this location.

3) Restucco the structure using a custom white fade of cementitious stucco. A photo of the sample wall is provided in the packet for demonstration of the fade effect, which is meant to replicate the faded white of the existing structure.

4) Replace the existing roof over the main pedestrian entrance on the north/McKenzie Street façade with grey standing seam metal, featuring a slight curve to echo the curve of the adjacent ornate detailing and the interior brick vault in this area.

5) Re-roof all structures, and replace grey asphalt shingled and corrugated plastic pitched roofs on the west non-primary garage structures, and installation of Tesla solar shingles here. Proposed shingles are low-profile and lay flat against the roof surface. These shingles will be visible over the yard walls and vehicular gate from the northwest but not visible from any primary façade.

6) Restore vehicular gate at the north elevation / McKenzie Street entrance.

7) Replacement of existing rotted wooden railing at a second floor deck on the east and north elevations with a simple metal railing. Finish color to be specified by applicant.

8) Installation of a white metal tube trellis to support the preservation of existing plantings at the interior north courtyard.

9) Installation of new metal screen wall at a non-publicly visible location on the west elevation to shield new mechanical units. Finish to be specified by applicant.

10) Installation of permanent video display at the northeast corner in a presently boarded up window opening that faces Griffin Street. Opening dimensions are not proposed to be altered. Presently, the Applicant has received administrative approval via the authority of the Land Use Director to temporarily install a video display in this location to serve as a temporary construction sign. The proposed permanent installation would be considered a public art

installation (not promotional business signage) and would feature video art associated with artists that are working in collaboration with the owners of the building.

11) Installation of new exterior lighting set into recessed nichos, as depicted on the elevation drawings.

FINDINGS OF FACT

After conducting a public hearing and having heard from the Applicant and all interested persons, the Board hereby FINDS, as follows:

1. Land Use Department Staff conducted a preliminary zoning review ("PZR") and determined that the Application appears to meet the underlying zoning standards set forth in the Santa Fe City Code (SFCC).
2. Historic Preservation Division City staff reviewed the Application and related materials and information submitted by the Applicant for conformity with applicable SFCC requirements and provided the Board with a written report of its findings ("Staff Report"), which evaluates the factors relevant to the Application.
3. Historic Preservation Division Staff Recommendation: Staff recommended approval of the proposed project and found that the application complies with SFCC Sections 14-5.2(D), General Design Standards for all Historic Districts; and 14-5.2(E), Downtown and Eastside Design Standards.
4. The project is subject to requirements of the following sections of the SFCC:
    - Section 14-5.2(D), General Design Standards; and
    - Section 14-5.2(C), Regulation of Significant and Contributing Structures.
5. The property is located in the Downtown and Eastside Historic District and is subject to the district design standards set forth in SFCC Section 14-5.2(E).
6. Staff determined that no exceptions would be required for approval of the Application, and the Applicant did not request any exceptions.
7. At the hearing, individual members of the Board expressed various questions and concerns about the video display proposed as Item 10. The Applicant volunteered to withdraw this portion of the proposal and to prepare a mock-up on site for the Board's consideration and discussion at a future meeting.
8. Under SFCC Sections 14-2.6(C), 14-2.7(C)(2), 14-5.2(A)(1), 14-5.2(C)(2)(a-d & f), 14-5.2(C)(3)(a-b), and 14-5.2(D), the Board has authority to review, approve, with or without conditions, or deny, all or some of the Applicant's proposed design to assure overall compliance with applicable design standards.
9. Under SFCC Section 14-5.2(C)(3)(b), the Board has the authority to approve an application for alteration or new construction on the condition that changes relating to exterior appearance recommended by the Board be made in the proposed work, and no permit is to issue until new exhibits, satisfactory to the Board, have been submitted.
10. The information contained in the Application, and provided in testimony and evidence establishes that all applicable requirements for Board review as herein described have been met.
11. The information contained in the Application and provided in testimony and evidence establishes that all applicable design criteria have been met.

CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Board acted upon the Application as follows:

1. The Board has the authority to review and approve the Application.
2. The Board approves Items 1-9, as set forth in the Application and recommended by Staff.
3. The Board postpones a decision on Item 10.

IT IS SO ORDERED ON THIS 26th DAY OF MAY 2020, BY THE HISTORIC DISTRICTS REVIEW BOARD OF THE CITY OF SANTA FE.

BOARD ACTION

NOTE: Applicant can use this action letter to apply for construction permit, but the permit shall not be released until the end of the appeal period which starts on the date of filing of the Findings and Conclusions in the City Clerk's office (SFCC 14-3.17(D)). Your permit will be denied if any changes on plans that were not approved by the HDRB or if conditions of approval are not met. **Please attach copies of this letter to all sets when submitting for construction permits.**

This is to certify that the Historic Districts Review Board (HDRB) acted on your request at their hearing on Jun 24, 2025. The decision of the Board was to Motion 1: approve item number two in the staff report concerning the construction of the new detached steel carport to a height of 8'-8" with roof mounted solar units within the existing auto court, approve the application as submitted noting that staff has determined the exception criteria have been met with the condition that the carport be screened by a yard wall with the height that is compliant with the underlying zoning as such that the carport and the solar panels are not visible from McKenzie Street.
Vote: The vote was four for and none against (4-0). Members Mather, Cherry, Degnan, and Biedscheid voted for and none against.
Motion 2: approve of the three items as submitted. Member Biedscheid requested a friendly amendment to approve item numbers 4, 5, and 6, in the staff report for roof mounted HVAC units, the construction of a new pedestrian gate on the McKenzie St. façade, and re-stucco the exterior of the structure with a new one to match the existing.
Vote: The vote was four for and none against (4-0). Members Cherry, Biedscheid, Mather, and Degnan voted for and none against.
Motion 3: postpone item number three in the staff report to change the overall height by 3'-3" from 14'-0 1/2" to 17'-3" high from a previously approved parapet on the McKenzie St façade, finding the exception criteria have not been met, move to postpone this item for a re-design and to request the applicant come back with some alternative design suggestions that minimize the roof line as much as possible while hiding the steel structure behind and/or an alternate design that the applicant prefers for consideration noting that the exception criteria might be required for the exposed steel items.
Vote: The vote was four for and none against (4-0). Members Mather, Cherry, Biedscheid, and Degnan voted for and none against.
Motion 4-A: approve the applicant's proposal to restore and replace the doors and windows on the North Façade including those on the 1st and 2nd floor as described below:
Restore doors and windows numbered: G, PP, SS, and D-6.
Replace doors and windows numbered: H, TT, I, D-19.
Vote: The vote was three for and one against (3-1). Members Cherry, Degnan, and Mather voted for and Member Biedscheid voted against.
Motion 4-B: approve the applicant's proposal to restore and replace the doors and windows on the East Façade including those on the 1st and 2nd floor as described below:
Restore doors and windows numbered: K, Z, BB, QQ, RR, D-7, and D-9.
Replace doors and windows numbered: J, Y, EE, and FF
Vote: The vote was three for and one against (3-1). Members Cherry, Degnan, and Mather voted for and Member Biedscheid voted against.
Motion 4-C: approve the applicant's proposal to restore and replace the doors and windows on the South Façade including those on the 1st and 2nd floor as described below:
Restore doors and windows numbered: L, M, N, O, S, T, U, V, GG, HH, II, KK, and LL
Replace doors and windows numbered: Q, XX, D-10, D-11, D-12, and D-14
Vote: The vote was three for and one against (3-1). Members Cherry, Degnan, and Mather voted for and Member Biedscheid voted against.
Motion 4-C: approve the applicant's proposal to restore and replace the doors and windows on the West Façade including those on the 1st and 2nd floor as described below:
Restore doors and windows numbered: NN, and OO
Replace doors and windows numbered: B, C, F, ZZ, D-1, D-2, D-3, D-4, and 104-A
Vote: The vote was three for and one against (3-1). Members Cherry, Degnan, and Mather voted for and Member Biedscheid voted against.

For further information please call 505-955-6605.

NOTE: Applicant can use this action letter to apply for construction permit, but the permit shall not be released until the end of the appeal period which starts on the date of filing of the Findings and Conclusions in the City Clerk's office (SFCC 14-3.17(D)). Your permit will be denied if any changes on plans that were not approved by the HDRB or if conditions of approval are not met. **Please attach copies of this letter to all sets when submitting for construction permits.**

Historic Review

RE: 206 McKenzie St.

The building located at 206 McKenzie Street, also known as “The White Building”, has been undergoing a renovation for the past six years. The initial renovation was started in 2019 and, due to the negligence of the original architect and problems with the work of the original contractor, the building has had extensive work done on it in recent years to remedy many issues that stem from that negligence and lack of craftsmanship, including removing and reconstructing work done during the original effort. During its long renovation process, the building has had several Historic approvals issued. The earliest approvals for the ongoing renovation date back to September of 2019 and have been received as late as July of 2024. The following is a list of approvals and whether the work was completed or not. Copies of the approvals are included at the end of this letter.

September 27, 2019
Case No. 2019-000989-Admin

Approved Scope of Work:

Remove, repair, and reinstall large window on North elevation, in order to complete asbestos abatement. Remove awning scrim from this window I order to restore operability.

This work was completed as approved.

December 06, 2019
Case No. 2019-001438-ADMIN

Approved Scope of Work:

1) Prepare a stucco sample in the color treatment proposed on one of the walls that are interior to the property (south façade). This is a test to see if the color will be compliant with Downtown and Eastside standards.

This sample was installed and approved, and the stucco color was applied to the building as a whole.

2) Install a mural on the north courtyard wall, provided it will not be publicly visible.

This mural has not been installed at this time.

3) Install ADA ramps at the two entrances on Griffin Street. This will require removal of existing concrete steps and extending and repairing the bottoms of the doors at these two locations. Doors will be painted white, and the extensions will be white steel door kicks.

The ADA ramps have been installed but the doors have not been modified at this time.

4) Replace non-contributing planters on Griffin Street in-kind with white concrete in a block pattern to match existing. Heights and configurations to remain the same.

The replacement planters have been constructed and remain in place.

5) Replace a small portion of sloped roof at the McKenzie Street frontage with grey/zinc standing seam metal.

This roof had not been installed during the renovation process.

6) Repair a hole in the sidewalk at the corner of McKenzie and Griffin with a planter to match the existing planters on Griffin Street.

The planter has been constructed and remains in place.

*This approval also includes a drawing showing the location of the primary facades for the building included in this packet.

May 12, 2020
Case No. 2020-1990-HDRB

Approved Scope of Work:
1) Repair the large window and skylight on the north elevation in order to complete asbestos abatement, and restore operability by removing a non-historic awning scrim.

This work was completed as approved.

2) Repair and replace in-kind the substantially damaged non-contributing concrete planters along Griffin Street.

The replacement planters have been constructed and remain in place.

3) Replace in-kind a small portion of sloped roof at the McKenzie Street frontage with grey standing seam metal.

This roof had not been installed during the renovation process.

4) Install small ADA ramps at two Griffin Street gates, and install white steel gate kick plates at these locations.

The ADA ramps have been installed but the doors have not been modified at this time.

5) Prepare a stucco sample in the color treatment proposed here on one of the walls that are interior to the property as a test to facilitate determination as to whether this treatment will meet district design standards.

This sample was installed and approved and the stucco color was applied to the building as a whole.

6) Temporarily install a video display in the east facing window at the corner of McKenzie and Griffin as a temporary construction sign, for a period of 90 days.

The video display was not installed, nor is a plan in place to include it in the new construction.

September 15, 2020
Case No. 2020-002447-ADMIN

Approved Scope of Work:
Amend a previous HRDB and Administrative approvals as follows:
1) Install two urban bee hives on the roof, with the condition that they shall not be publicly visible;

The hives have been installed.

2) Install gas lamps at the Griffin St entrance and at the McKenzie St entrance, as submitted;

The lamps have been installed at the Griffin St. entrance but have not been installed at the McKenzie St. entrance.

3) Enlarge window opening on the west (interior parking side) façade to its original opening dimensions, and install a new 3/3 divided light window, as submitted;

The new window has been installed.

4) NOT INCLUDED
5) Modify sloped roof of west façade to replace deteriorated corrugated plastic with whitewashed glazing panels, as submitted;

The roof had not been installed, instead the structure was removed.

6) Install screen wall to screen new rooftop mechanical units on west elevation, as submitted;

The screen is currently framed and awaiting the stucco finish.

7) Re-affirm the use of solar shingles on sloped roof of west façade above garage and storage, as previously approved;

The solar shingles were not installed.

8) Remove existing wire screens from windows on the McKenzie St elevation, and replace three non-historic windows to the left of the pedestrian entrance to match existing (in-kind);

The wire screen have been removed and the windows to the left of the pedestrian entrance were replaced, though they do not match the existing windows in-kind.

9) Re-affirm the installation of cut-in exterior sconces at Griffin and McKenzie elevations, as submitted and previously approved;

The sconces have been installed.

10) Re-affirm temporary video monitor art installation at location of boarded up window on Griffin St elevation for a period of up to 90 days only. Permanent installation requires HDRB approval.

The video display was not installed, nor is a plan in place to include it in the new construction.

November 06, 2020
Case No. 2020-002835-ADMIN

Approved Scope of Work:
1) Install a roof mounted solar array as submitted with the conditions that there shall be no publicly visible rooftop appurtenances, that line sets shall go through the parapets and shall not be publicly visible.

The solar array was not installed, nor is it feasible to do so on the roof of the main building.

July 27, 2021
2021-003826—HDRB

Approved Scope of Work:
Construct a new carport, green house, and parapet and install window grates on a contributing structure. Exceptions to Sections 14-5.2(E)(1)(c) to construct a structure with more window than wall area, 14-5.2(D)(2)(d) to construct within 10 feet of a primary façade, and 14-5.2(D)(1)(a) to alter architectural features and spaces that embody the status.

For reference, the following is taken from the Proposal Letter for this submittal:

Exterior Window Protection
We are asking for approval to install a total of four window grates on the exterior of the building, all located on the McKenzie Street elevation. Each will be designed to match the existing window grates which are installed on the Griffin Street elevation. Because of the difference in sizes of the windows, each grate will be scaled to be proportionate to the window they are protecting. The company's internal security requirements dictate the need for this protection since highly valuable equipment used for the daily operation of the company is located behind these windows.

New Parapet Over Main Entry
We would like to install a new parapet over the main entry to the building on the McKenzie Street elevation. This new entry will hide the roof and its appurtenances from public view. Also, the parapet will aid in the drainage of the roof behind, directing the flow of water to an internal downspout, under the sidewalk and out into the street. Without the parapet, the water draining from the roof will sheet flow directly over the main door and offer no protection from precipitation for those visiting the building nor walking by on the sidewalk.

The design of the new parapet will be influenced by the adjacent parapet in a simplified manner. This will give importance to the front entry, act as a wayfinding element to the entry and help reinforce the design of the adjacent façade design.

New Carport to Replace Existing
In place of the existing carport, we are proposing to build a new one in the same location. The previous carport was condemned and removed for the sake of physical safety to the public. Both of the original carports were not deemed Historic structures. We are wanting to use those materials from the original structure which were able to be salvaged to rebuild the new one to the furthest extent possible. These materials will be used on the front

façade facing the parking lot. This will visually tie the new carport together with the carport to remain which is built with a similar design.

The original carport had enclosed storage which we would like to continue within the new structure. This portion of the building will be enclosed with painted CMU which matches the construction and finish of the surrounding yardwalls and carport. The roof of the carport will be pitched to match the adjacent carport but will be pitched in two directions – both east and west. This keeps the roof height at the top of the ridge within the surrounding yardwall and not extend above. Visually, the front of the carport will look virtually identical in construction to the remaining one adjacent.

New Greenhouse
At the location of the existing greenhouse, we are proposing to construct a new greenhouse within the same footprint. The previous greenhouse was also condemned and removed for the sake of physical safety to the public and was not deemed a Historic structure. The new greenhouse will be modern in design in terms of performance regarding energy efficiency and function. The design draws from the existing window and skylight combination found around the corner, on the north elevation of the building. Designing the greenhouse in this way will reinforce the design of both and keep the window and skylight combination from being a complete anomaly. Informal interviews and unsolicited comments from the general public show that community members find the windows aesthetically pleasing and a point of unique interest.

July 16, 2024
Case No. 2024-008688-ADMIN

Approved Scope of Work:

1) Install a 5’ 11” wide by 2’ 9” tall metal security grill painted to match the existing security grills on the north façade.

The security grill has not yet been installed pending repair to the exterior stucco.

2) Construct a 3’ 6” tall by 9’ long metal hand rail on the west façade.

The handrail has not yet been installed pending repair to the exterior stairs.

For the current application, we are requesting several additional changes to the design of the building which include: Replacing all the doors and windows; approval of Roof Top Units; a new pedestrian gate on the McKenzie St. façade; a new steel carport within the existing autocourt; a change to the overall height of a previously approved parapet on the McKenzie St. façade; and replacing the exterior stucco system with a new one to match the existing. Also, the attached Site Plan details the locations of the primary facades of the building. Please see below for further explanation of each submittal item.

Replacing all doors and windows:

We are asking for approval for the replacement of all the doors and windows throughout the building. The current doors and windows are in complete disrepair, missing in some places, and broken beyond repair in others. A majority of the doors and windows that had historic status have already been removed and replaced throughout the building's history. In addition, those that are still of historic status have been destroyed, rendered inoperable, or incorrectly sealed and flashed during the previous remodel. If an attempt were made to repair those that could be repaired, uncovering them would destroy their structural attachments to the building, thus rendering them unsalvable.

Because of their condition, we would like to replace all the doors and windows with new ones that are both energy-efficient and look exactly like they did when we started the current remodel project. The new windows and doors will match the same sizes, mullion and muntin layouts, materials, and glazing sizes and locations. We have had a Historic Assessment performed by RPA & Associates, LLC., the resulting report included with this submission. The new windows and doors will be Marvin, Ultimate Clad in the color Stone White. All are labeled on the attached plans to correspond to the designations in the Historic Assessment report. The Historic Assessment report also identifies those windows which had previously carried a historic status.

New doors and windows would also contribute to the energy efficiency of the building. The overall renovation includes many exercises to increase efficiency, doors and windows being a huge contributor to energy loss.

Rooftop Units

As part of the recent remodeling project and the current one, Rooftop Units are required for the heating and cooling system. The units are located on the west side of the building, beyond the extents of the primary façade and behind a screening wall previously approved by the Historic Review Board. The units will not be visible from any public areas.

New Pedestrian Gate

On the north, McKenzie St. façade, we are asking to replace an existing metal gate accessing the autocourt from the sidewalk. The historic gate has already been replaced with a new steel gate made from steel angle and square livestock fencing. We are proposing a new gate that has an aesthetic which keeps with the existing steel security grates found on the exterior of the building and which is in line with the original aesthetic of the building. The current gate is very utilitarian and does not reflect the look and feel of the building's history.

New Steel Carport

Within the existing perimeter yardwalls that enclose the autocourt, we are proposing a new steel carport that both provides shade for the parked cars for users of the building and provides a structure for photovoltaic panels which will supplement power to the building. Investigating the feasibility of placing the panels on the

various roofs, the distance between the solar panels, the location of the main service disconnect and transformer, and the required cabling to connect the panels on different roofs, it is not conducive to an installation on the existing building. The solution for providing the most solar power generation is to provide an alternate structure on which to install the panels. That structure is a new steel carport.

The proposed carport will be hidden from view within the existing perimeter yardwalls. However, the existing heights of the wall are inconsistent and are below the height of the new structure with solar panels in several locations, which would expose the construction. CMU courses will be added to the wall to bring its overall height to a consistent elevation which will hide the carport. The building is in the Business Capital District – McKenzie Street subdistrict which does not have a restriction on the height of walls and fences.

Because the autocourt is tight and maneuvering within is limited, a cantilevered carport is proposed. A cantilevered structure provides the necessary framework for solar panels while keeping the largest possible, open maneuverable space for cars to access underneath. A typical wood structure with columns at the corners and at the extents of the structure would limit the maneuverability of the cars accessing the parking spaces below making it almost impossible to use. A cantilevered structure of the size required requires a steel structure to achieve the necessary clear space for maneuverability.

The owners of the property are trying to add as much photovoltaic power feasible for the building to be as environmentally conscious as possible. The preapproved carport locations do not provide enough power, and the only way to add more solar power would be to add a structure to the property.

Parapet Extension

On the McKenzie façade, a parapet design was previously approved by the Historic Board to screen a set of skylights beyond. As the design of the skylights was refined, we realized they needed to be installed at a greater slope which requires a higher parapet in front to fully screen them from public view. We are proposing an increase of just over three feet to the front parapet. The design of the parapet will remain the same, with only an increase to the overall height.

Stucco

The existing stucco is failing by delaminating from the structure of the building and needs to be replaced. The replacement stucco will be a three-coat cementitious system of the same white color that was previously applied. The color will be Parex, Colonial White, a sample of which is located at the jobsite.

Historic Districts and Historic Landmarks
Design Standards and Signage Exception Criteria

14-5.2(D)(1)(a) removal of historic material: Doors and Windows

The status of a significant, contributing, or landmark structure shall be retained and preserved. If a proposed alteration will cause a structure to lose its significant, contributing, or landmark status, the application shall be denied. The removal of historic materials or alteration of architectural features and spaces that embody the status shall be prohibited.

(i) Do not damage the character of the district;

Response:
The design of the doors and windows on the existing building replicate structures and accessories which are currently present, on the building. The new windows and doors will match the same sizes, mullion and muntin layouts, materials, and glazing sizes and locations.

(ii) Are required to prevent a hardship to the applicant or an injury to the public welfare;

Response:
If an attempt were made to repair those that could be repaired, uncovering them would destroy their structural attachments to the building, thus rendering them unsalvable. If the units are removed, the jambs will be destroyed because the jambs are the buck in the adobe. The adobe and the interior plaster are showing signs of deterioration from water intrusion around the existing jambs due to the lack of flashing and moisture from condensation due to the quantity and size of the single glazed windows.

(iii) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

Response:
The application of these modifications do not affect the ability for residents to continue to reside within this historic district and area and does not change the overall look of the building.

14-5.2(D)(E) Downtown and Eastside Design Standards: Metal Carport

(i) Do not damage the character of the district;

Response:
The proposed carport will be hidden from view within the existing perimeter yardwalls which will be raised in places which have an inconsistent height. The overall height of the yardwall will be adjusted to fully screen the carport from public view. The building is in the Business Capital District – McKenzie Street subdistrict which does not have a restriction on the height of walls and fences, so yardwall heights can be easily adjusted for full screening from the public.

(ii) Are required to prevent a hardship to the applicant or an injury to the public welfare;

Response:
Because the autocourt within the perimeter yardwalls is tight and maneuvering within is limited, a cantilevered carport is proposed. A cantilevered structure provides the necessary framework for solar panels while keeping the largest possible, open maneuverable space for cars to access underneath. A wood structure, which would typically be proposed for this area, with columns at the corners and at the extents of the structure, would limit the maneuverability of the cars accessing the parking spaces below, making it almost impossible to use. A cantilevered structure of the size required requires a steel structure to achieve the necessary clear space for maneuverability.

(iii) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

Response:
The intent of the new carport installation is that it serves the needs of the applicant and users of the building while its existence is virtually unknown and invisible to the public view.

14-5.2(D)(2)(c) additions are not permitted to primary facades.

(i) Do not damage the character of the district;

Response:
The core design of the proposed addition to the north façade was previously approved by the HDRB and is in keeping with the aesthetic nature of the adjacent portions of the building. The proposed modification only raises the overall height of the parapet.

(ii) Are required to prevent a hardship to the applicant or an injury to the public welfare;

Response:
Due to work done by a previous contractor, the portion of the wall in question was severely damaged and its structural integrity compromised. The damaged wall needs to be removed and replaced, and the design was modified to more reflect the adjacent facades and the overall aesthetic of the building.

(iii) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

Response:
Because the proposed modification to the previously approved design further separates this portion of the façade from the adjacent building masses, it strengthens the perception that this infill is not trying masquerade as an original piece of the building. Rather, through its increased separation from the adjacent massings, it further enhances the significance of the original portions of the building.

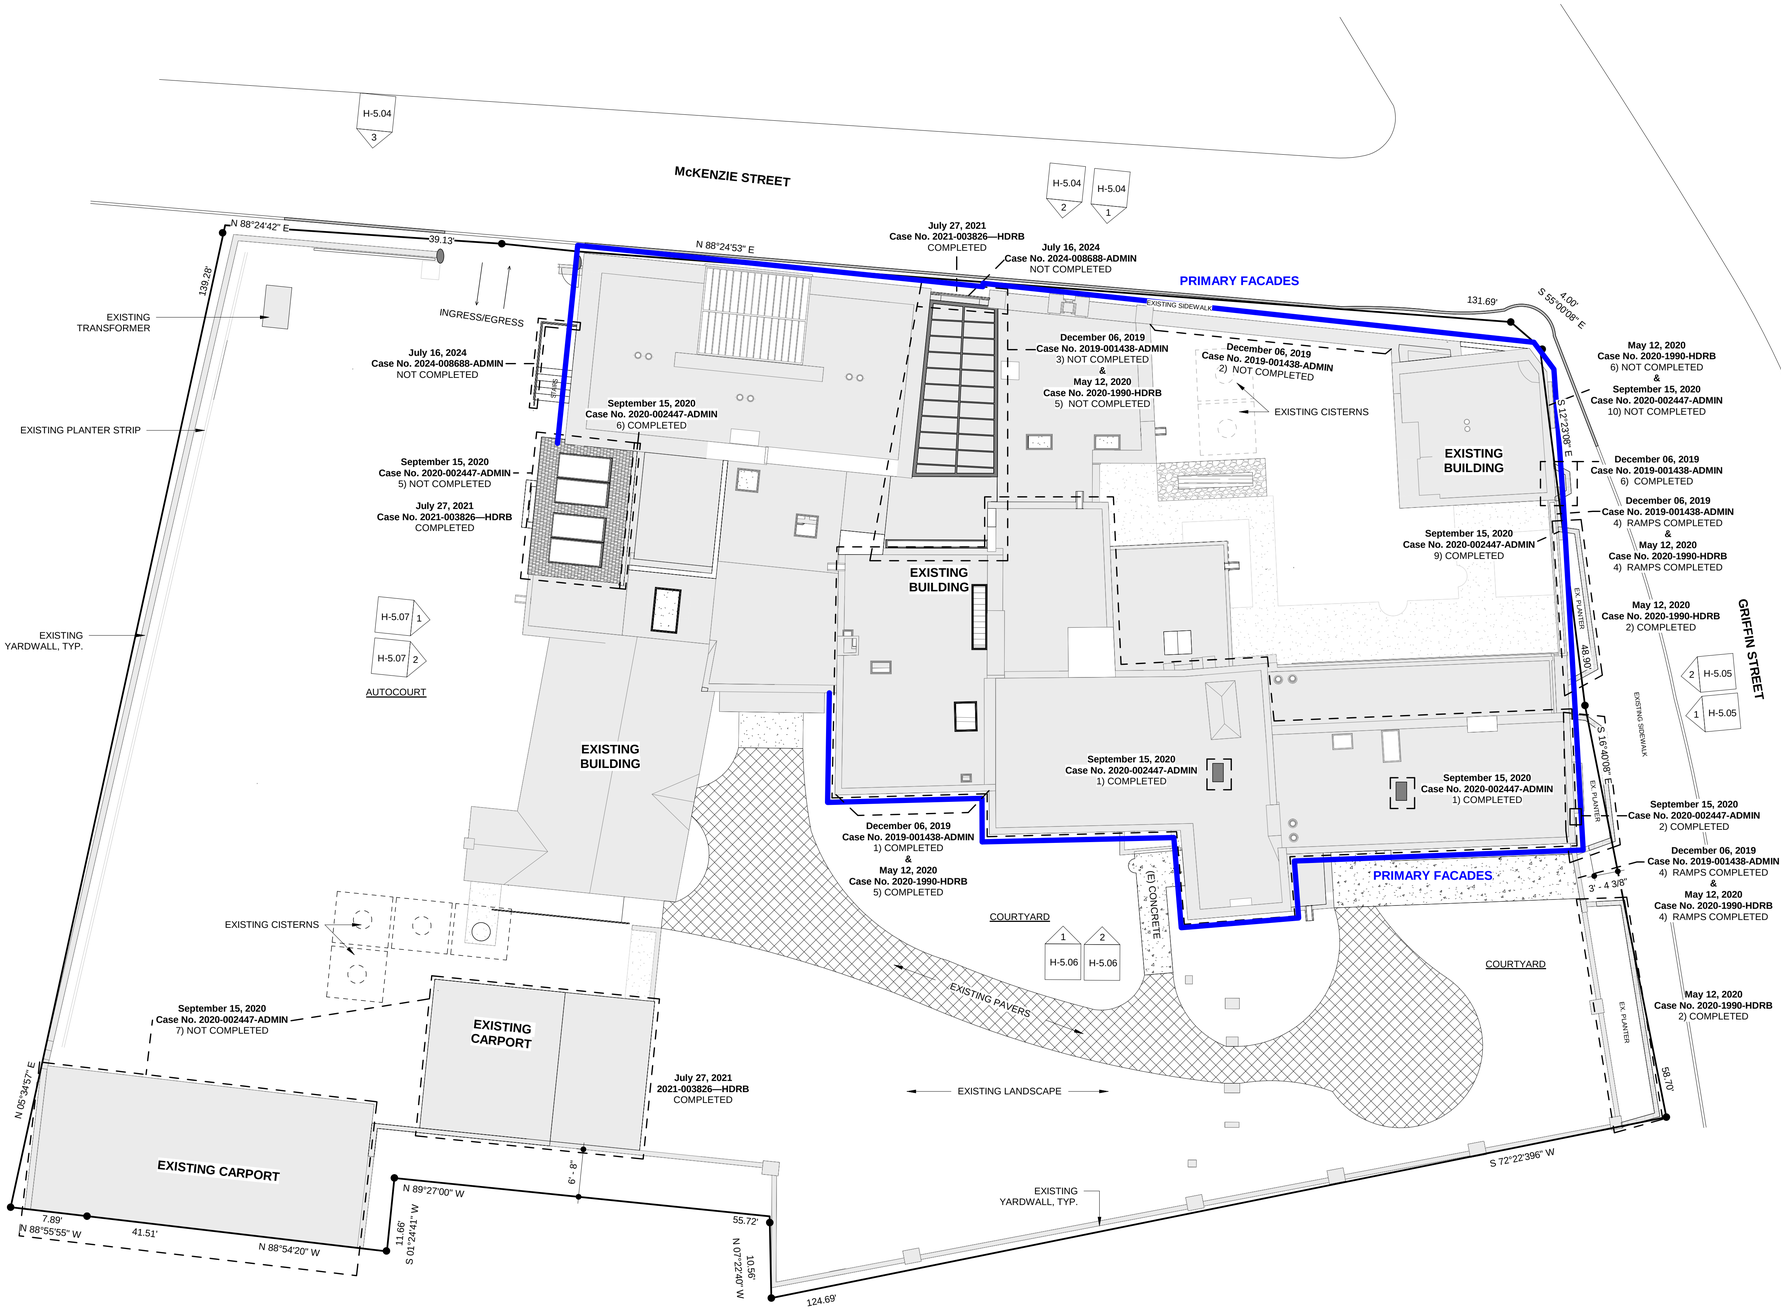
14-5.2(D)(5)(b) architectural features, finishes, and details other than doors and windows, shall be repaired rather than replaced.

(i) Do not damage the character of the district;

Response:
The core design of the proposed addition to the north façade was previously approved by the HDRB and is in keeping with the aesthetic nature of the adjacent portions of the building. The proposed modification only raises the overall height of the previously approved parapet.

(ii) Are required to prevent a hardship to the applicant or an injury to the public welfare;

Response:
Due to work done by a previous contractor, the portion of the wall in question was severely damaged and its structural integrity compromised. The damaged wall needs to be removed and replaced as it was no longer safe and would compromise the ability for this portion of the building to continue to be used. The design was modified to more reflect the adjacent facades and the overall aesthetic of the building and will be built in the authentic adobe construction associated with Santa Fe's history.



(iii) Strengthen the unique heterogeneous character of the City by providing a full range of design options to ensure that residents can continue to reside within the historic districts.

Response:
Because the proposed modification to the previously approved design further separates this portion of the façade from the adjacent building masses, it strengthens the perception that this infill is not trying masquerade as an original piece of the building. Rather, through its increased separation from the adjacent massings, it further enhances the significance of the original portions of the building.

In closing, my professional opinion is as follows:

Windows:
A, C, D, F, H (3), I, J, Q, X, DD (9), EE, FF, TT (11), UU, VV, WW, XX, and YY – are non-historic.

Doors:
1, 3, 4, 5, 6, 8, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, and 21 – are non-historic.

Windows:
B, E, G, K, PP, QQ, RR – are historic and primary façade.

Window:
R – is historic however the unit is not the original window to the building.

Windows:
** L, M, N, O, P, R, S, T, U, V, W, GG, HH, II, JJ, KK, LL, MM, NN, and OO – all have historic sashes and jambs. Many of the sills are buried in stucco and will need to be removed to make these windows seal properly. If the units are removed the jambs will be destroyed because the jambs are the buck in the adobe. The adobe and the interior plaster is showing signs of deterioration from water getting in around the existing jambs due to the lack of flashing and moisture from condensation because of the quantity and size of the single glazed windows.

The best solution to protect the integrity of the structure is to remove these units and replace in like and kind, all wood windows with divided light and insulated glass. These windows are located on the non-primary elevations.

Window:
SS – is historic (not original) set out of plumb. This unit will not operate or seal.

Door:
Door #2 & #20 – are historic however it is not located on the primary façade.

- Door # 7 & #9 – is historic and it is located on the primary façade. These units will need wood added to the bottom and top to fit the opening. For this unit to be made stain grade (to match the panels) it should probably be re-made. The panels may be re-used and installed in a new matching size stile and rail door.

Window:
Y – is historic however missing sashes.

Windows:
Z, AA, BB, and CC - are historic however not on the primary façade.

If you have any questions, please contact me at 505-379-7900.

Assessment prepared by: *Ra N. Patterson*

RPA & ASSOCIATES, LLC | WINDOW & DOOR CONDITION AND INTEGRITY CODES

CODE	CONDITION AND INTEGRITY CODES
P = PREMIUM	EXTERIOR FINISHES AND SASH, FRAME, AND CASING MEMBER IN PREMIUM OR VERY GOOD CONDITION.
	PUTTY GLAZE INTACT.
	ONLY COSMECTIC TOUCH-UP, IF NEEDED.
S = SATISFACTORY	EXTERIOR FINISHES FADING AND WORN IN PLACES BUT STILL ADHERED TO THE WINDOW MEMBERS.
	PUTTY GLAZING CRACKING BUT INTACT AND ALL SASHES, FRAMES, AND CASING MEMBER WITH LESS THAN 30% –
	40% DETERIORATION.
F = FAIR	EXTERIOR FINISHES HAVE CRACKED & PEELED. MISSING TO BARE SURFACE.
	PUTTY GLAZING CRACKING AND MISSING IN 30% – 40% OF THE SASHES. ALL SASHES, FRAMES, AND CASINGS HAVE
	SOME MEMBERS 30% – 40% COMPLETELY DETERIORATED.
U = UNSATISFACTORY	EXTERIOR FINISHES HAVE COMPLETELY DETERIORATED.
	PUTTY GLAZING MOSTLY MISSING. ALL SASHES, FRAMES, AND CASING MEMBERS HAVE MORE THAN 30% - 40%
	DETERIORATION, BEYOND REPAIR.

memo

DATE: December 10, 2025

TO: Governing Body

VIA: Elisa Montoya, Community Development Director
Heather L. Lamboy, AICP Planning and Land Use Director
Maggie Moore, Assistant Land Use Director
Dan Esquibel, Planning Manager

FROM: Joel Cruz-Haber, Planner Senior, Current Planning Division

---

CONSIDERATION OF RESOLUTION.
Master Plan Amendment. Case #2025-10706. Midtown Redevelopment Agency, Applicant, through its Agent, Emily Reynolds of NV5 Inc, asks the Governing Body to adopt a resolution amending standards within the Midtown Master Plan in Section 5.4, "Development Standards Regulating Plan", section 5.5, "Sub-Zone Standards", section 5.6, "Façade-Zone Standards", and section 5.8, "Design Standards General to All" (Joel Cruz-Haber, Case Manager, jacruzhaber@santafenm.gov).

I. Planning Commission Recommendation:

On July 17, 2025, the Planning Commission recommended the Governing Body take the following action:

1. **APPROVE** Case #2025-10706, amending the Midtown Master Plan for 1600 St. Michael's Drive, with conditions.

II. Sample Motion:

One (1) motion will be required:

1. **Move to approve or deny** a resolution amending the Midtown Master Plan for a property located at 1600 St Michaels Dr. (Case #2025-10706).

III. Executive Summary

The Metropolitan Redevelopment Agency ("MRA" or the "Applicant"), through its agent, Emily Reynolds of NV5 Inc, ("Agent"), requests to amend the Midtown Master Plan (the "Amendment"), to modify standards set forth in the following sections of the Midtown Master Plan:

1. Section 5.4, Development Standards Regulating Plan,
2. Section 5.5, Sub-Zone Standards,
3. section 5.6, Façade-Zone Standards, and
4. Section 5.8, Design Standards General to All.

Below is a general breakdown list of the Amendment. A detailed discussion of the existing standards compared to the proposed the Amendment section are in tables 1 – 4 provide a summary of the Amendment In section VI of this report:

1. Allow additional uses that are consistent with the underlying C-2 (General Commercial) zoning district;
2. Revise landscaping standards to allow for new trees;
3. Establish new design standards for signage and art installations;
4. Change certain sub-zones to promote the highest and best uses on Tract-O, which is owned by the State of New Mexico; and
5. Remove step-back requirements at façade zones and inserting design standards that encourage the use of step-backs, fenestration, and other forms of façade articulation to provide additional design options.

The Amendment provides a revised framework for the redevelopment of the Midtown Master Plan area, in order to meet the expressed desires of the public, stakeholders, the Applicant, and Resolution 2022-68 (Attachment A, Resolutions) that adopted the Midtown Master Plan. See Attachment A (Commission Packet from July 17, 2025)

III. Planning Commission Process and Recommendation

On March 19, 2025, the Applicant, and Planning and Land Use Department staff ("Staff") held a pre-application meeting to discuss the review and approval procedures and the applicant's proposal prior to submittal. The Applicant hosted an Early Neighborhood Notification ("ENN") meeting on June 3rd, 2025, and submitted its application on June 18, 2025. On July 17, 2025, the Planning Commission (the "Commission") held a public hearing to make a recommendation to the Governing Body on Case #2025-10706. The Commission received a report from Staff (the "Staff Report") as well as testimony and evidence from the Applicant, and public comments by interested members of the public.

Following public comment, members of the public and Commission raised concerns regarding the proposed removal of step-back standards in Section 5.6 "Facade Zone Standards". The Commission unanimously decided to table the case to the end of the agenda to allow the applicant to revise the Amendment to section 5.6 of the Midtown Master Plan. Upon reconvening later in the

meeting, the Applicant and Staff presented an alternative to the removal of step back requirements and introduced a condition of approval as stated below. .

> *Façade Articulation Requirement: All building façades exceeding three stories and facing a public street shall incorporate articulation at regular intervals of the building façade to enhance the pedestrian experience and soften the architectural massing within the streetscape. Methods of Articulation include but are not limited to:*
>
> *Recesses or projections of the building wall plane*
> *Changes in material, color, or texture*
> *Roofline variations or parapet offsets*
> *Balconies, roof decks, and step-backs*

See Attachment B for the recommended condition of approval - Commission Approved Findings of Fact and Conclusions of Law (Master Plan Amendment), pg. 2 and 3

The Commission accepted Staff's proposed condition of approval and found that the Amendment was consistent with the General Plan and that the Applicant had met all approval criteria. Based on these findings, the Commission recommended that the Governing Body approve the Amendment proposed in Case #2025-10706, (Attachment A "7_17_25 PC Staff Report"). On August 7, 2025, the Planning Commission adopted Findings of Fact and Conclusions of Law, (Attachment B, "Planning Commission Approved Findings of Fact and Conclusions of Law") and Commission Minutes (Attachment C, "Planning Commission Minutes_7_17_25"), reflecting its holdings from the public hearing.

V. Midtown Master Plan Background

The Midtown Master Plan area (the "Property") comprises the campus of the former College of Santa Fe and adjacent City-owned properties. The Property is located at 1600 St. Michael's Drive, which is defined by Cerrillos Road, St. Michael's Drive, Llano Street, Siringo Road, and Camino Carlos Rey (Figure 1). For over 80 years, the Property has served as an institutional anchor for Santa Fe, starting in 1943 with the Bruns Army Hospital which employed more than 1,000 Santa Feans along with 500 military men and 100 military nurses. After Bruns Army Hospital was decommissioned, half of the Property was turned over to the Brothers of the Christian Schools, which established St. Michael's College, later renamed to the College of Santa Fe. Other portions of the original Army Hospital campus were turned over to local, state, and federal agencies. When the College of Santa Fe ceased operation in 2009, the City, with a commitment to preserve the civic and educational uses, purchased the Property and leased it to a private, for-profit university, the Santa Fe University of Art and Design ("SFUAD").

Following the closure of the SFUAD in 2018, the City adopted Resolution 2018-54 (Attachment A, Resolutions) to initiate the Midtown redevelopment process. In the initial concept phase, the community engagement process included informed programming, planning, and development approaches for the future reuse of the Property. The community engagement process led to the

approval of the "Planning Guidelines" for the Property in the summer of 2018 (Attachment A, Applicant Submittals, 7. Midtown Master Plan Clouding, pg.15).

After mutually terminating its exclusive negotiation agreement with a master developer during the COVID 19 pandemic, the Governing Body directed City staff through Resolution 2022-12 (Attachment A, Resolutions) to pursue a General Plan amendment, Rezoning, and Master Plan for Midtown. In 2022, the Governing Body unanimously approved a master plan (the "Midtown Master Plan") with Resolution 2022-68 (Attachment A, Resolutions). The Midtown Master Plan established standards for the Property regarding land uses, urban design, open space, vehicular, bicycle and pedestrian circulation, stormwater management, as well as other sustainable design and development practices. In 2023, the Governing Body unanimously approved the Midtown Development Plan under Resolution 2023-5 (Attachment A, Resolutions). The Midtown Development Plan provides policy requirements and priorities in response to community voices regarding equity, environment, economy, and culture which have become the four elements that make up sustainable development within the Property.

VI. PROPOSED MASTER PLAN AMENDMENT

The following tables (1-4) describe current Plan standards and the proposed Plan amendments and provide a Plan page and section for reference.

Figure 1 Midtown Sub Zones & Façade Zones

5.4.1 Development Standards Regulating Plan

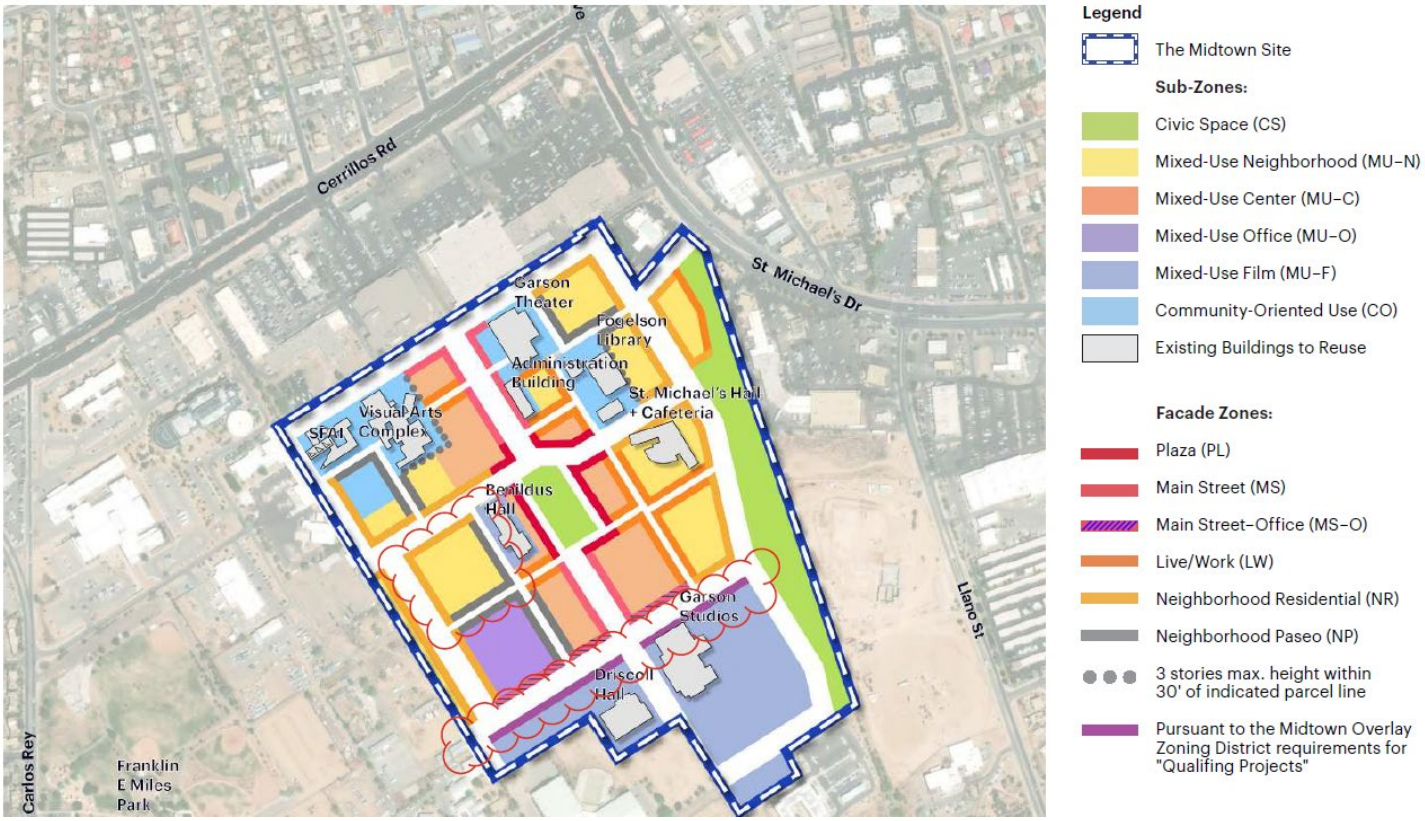

Table 1. Section 5.4 Development Standards Regulating Plan

Page	Section	Current	Proposed
114.	5.4	Main Street-Office (MS-O) Facade Zone Standards are currently applied to the northern frontages of MU-F development tracts F1-a and I1a.	Remove Façade Zone Standards Main Street-Office (MS-O) standards at MU-F northern façade zone.
115.	5.4	Tract O is currently designated subzone MU-N.	Insert footnote stating that “The northern façade zone of the MU-F will be pursuant to the Midtown Overlay Zoning District requirements for "Qualifying Projects".”
115.	5.4	Tract O is currently designated subzone MU-N	Change Tract O (including Benildus) subzone to MU-C. (Figure 1)

Table 2. Section 5.5 Sub-Zone Standards

Page	Section	Current	Proposed
117-121.	5.5	Permitted Use Table specifies permitted, prohibited, and conditional uses for each subzone in the Midtown Site	Remove Permitted Use Table; state more clearly which uses are prohibited as set forth through the Midtown Community Engagement process prior to the adoption of the Master Plan in 2022. Replace table with a list of prohibited uses and conditional uses (Tables 5 & 6). Add C-2 Permitted Uses, Refer to SFCC 14-6.1, Table 14-6.1-1. Add Language "Subzones are the recommended and preferred use for the parcels"

Table 3. Section 5.6 Facade Zone Standards

Page	Section	Current	Proposed
127-129.	5.6	Step-backs required above the third story, as defined in note 2 under "Height" and referenced as E in the illustration.	*Insert the following language as recommended by the Commission: “Façade Articulation Requirement: All building façades exceeding three stories and facing a public street shall incorporate articulation at regular intervals of the building façade to enhance the pedestrian experience and soften the architectural massing within the streetscape. Methods of Articulation include but are not limited to:* *a. Recesses or projections of the building wall plane* *b. Changes in material, color, or texture* *c. Roofline variations or parapet offsets* *d. Balconies, roof decks, and step-backs"*

131-135.	5.6	"Building Height in Façade Zone" specified as "3 stories max" and called out as A in illustration.	Change "Building Height in Façade Zone" to "5 stories max" to match the height that is allowed elsewhere.
125.	5.6	(No Current language or standard)	Insert language that encourages creative, human scale architecture, including but are not limited to the following: • "Recesses or projections of the building wall plane • Changes in material, color, or texture • Roofline variations or parapet offsets • Balconies, roof decks, and step-backs"

Table 4. Section 5.8 Design Standards General to All

Page	Section	Current	Proposed
154.	5.8	No mention of landscape standards.	"Require landscape design to follow SFCC 14-5.5(D)(9) for the Midtown Local Innovation Corridor (LINC), with a note that the caliper for new trees on the Midtown Site is 2 inches at time of planting. Require new street trees to have a 4 inches caliper".
154.	5.8	No mention of signage or temporary art installation standards.	Insert general state that "signage located in the Midtown Site is governed by SFCC 14-5.5(D)(8) in addition to the requirements found in Section 14-8.10.
154.	5.8	No language or standard.	Insert the following language: "Building Signage. Signage and font shall be similar or the same as found on existing buildings throughout the Midtown Site, which form the basis for future Midtown standards (see the Fogelson Library and Garson Performance Theater, as reference). Signs shallbe painted on the building skin or on thin panels mounted closely to the building."
Page	Section		Insert the following language: "Pin and channel letters and numbers shall be mounted closely to the building.
154.	5.8	(No Current language or standard)	Pole mounted signs are not permitted. Hanging signs may be placed under canopies or portales. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision."
154.	5.8	No language or standard.	Insert the following language: "Site Directional and Wayfinding Signs. Signs are to be fabricated in metal and finished in durable high quality metal paint finish or natural metal finishes. Wayfinding signs shall be used at street edges and bus stops. Sign colors shall

			be consistent with the Midtown color palette (see Midtown color palette). Sign forms shall be simple and minimalistic. Signs shall be constructed of metal, color shall be black, plus 1 or 2 accent colors using the Midtown color palette. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision. Wall signs associated with film studio stages within the Midtown LINC Overlay District and whose sign faces parallel to a wall or garage attached to a film studio stage shall be painted and shall not exceed 380 sq ft."
154	5.8	No language or standard.	Insert the following language: "Murals and Art Installations. Publicly visible murals and art installations are permissible with approvals from the Metropolitan Redevelopment Agency. The relocation of existing sculpture and installation of new art in public and publicly visible spaces are encouraged and must consider structural stability, weather, circulation, and safety. Murals on public property shall comply with the MRA Public Arts Murals Agreement."

Permitted Uses

The proposed change to the existing 5.5.A Allowed Uses table is consistent with the current intent and will maintain the non-permitted uses and conditional uses as established during community engagement sessions.

The underlying zoning is C-2 which allows uses defined by SFCC Chapter 14-6.1 Land Use Categories; Table of Permitted Uses with the exception of the following uses.

Table 5 Section 5.5 List of Prohibited Uses

Group Residential Care Facility, Correctional	Drive-throughs
Mobile home, permanent installation	Cabinet Shops, Custom
Mobile home park	Sign Shops
Short-Term Rental Unit	Sexually Oriented Business
Vacation Time Share Projects	Automobile Salvage and Wreckage Yard
Electrical Facilities; Substation, Switching Stations, Transmission Lines	Vehicle Service and Repair Establishments including Tire Service
Vocational or trade schools, light industrial	Manufacturing and Production
Hospital and Extended Care Facilities	Light assembly and manufacturing
State Licensed Foster Homes	Storage Facilities
Cemeteries, Mausoleums and Columbarium	Outdoor Storage
Funeral Homes or Mortuaries	Animal Production and Commercial Stables
Animal Sales and Service	Composting

Cannabis; Consumption Area, Manufacturing, Producers with more than 200 plants, Outdoor growing, Laboratory

The following uses may be permitted as conditional uses (previously known as special uses) according to SFCC Chapter 14-3.6 Special Use Permits.

Table 6 Section 5.5 List of Conditional Uses

Continuing Care Community	Cannabis Testing Laboratory
Group Residential Care Facility	Commissary Kitchen
Boarding, dormitory, monastery	Department and Discount Stores
Police and Fire Stations (More than 6 Staff)	Religious Assembly
Elementary and secondary schools, public and private	Religious, educational and charitable institutions (does not include schools or assembly uses)
Colleges and Universities	Transit transfer facilities
Adult day care	Nonprofit theaters for production of live shows
Human service establishments	Urban Farm (Ground Level, Roof Level, and Open-Air)
Sheltered care facilities	Aquaponics, Aquaculture (less than 750 sf), Hydroponics
Utility Facility	

VII. Master Plan Amendment Approval Criteria

City Code, Section 14-3.9, sets out the purpose and procedures for approval of a Master Plan, including submission requirements, applicability, approval criteria and conditions. Before approving a Master Plan the Governing Body must make findings that the proposal meets the approval criteria outlined in §14-3.9(D)(1) or may specify conditions of approval that are necessary to ensure compliance with the provisions of Chapter 14 and further the implementation of the policies of the general plan. Table 6 provides the Applicant's responses and staff's analysis of the Master Plan Approval Criteria.

Table 6. Applicant and Staff's Response to §14-3.9(D)(1), Master Plan Approval Criteria

Criterion A [14-3.9(D)(1)(a)]: The Master Plan is consistent with the General Plan	**Criterion Met:** **YES**
Applicant Response: The 1999 City of Santa Fe General Plan identified the area surrounding the Midtown Property as the "St. Michael's Drive Redevelopment Corridor", signaling a long-term intention to support use intensification and mixed-use development. Since then, the area has been designated as "Transitional Mixed Use" on the City's Future Land Use Map, reinforcing the vision of creating a dynamic urban environment. This designation encourages redevelopment that balances higher intensity commercial corridors with adjacent	

lower-density neighborhoods by promoting a mix of residential, commercial, and community-serving uses. To further support these goals, the Midtown Local Innovation Corridor (LINC) Overlay District was established in 2016. The overlay aims to catalyze revitalization through the introduction of additional housing options and compatible non-residential development—a step toward fostering a more vibrant and diverse urban core.

In 2017, the Governing Body passed Resolution 2017-78, formally recognizing the historical and strategic importance of the Midtown Property—formerly home to the College of Santa Fe and the Santa Fe University of Art and Design (SFUAD). As both the demographic and geographic center of the city, the Midtown Property was seen as central to implementing the objectives of the LINC Overlay District. The resolution also called for a renewed community vision for the site. City staff were tasked with initiating a "Concept Phase" of planning, including broad community engagement efforts. Known as the Midtown Campus Project, this initiative attracted approximately 3,000 participants and culminated in a set of community-informed planning guidelines.

Following the closure of SFUAD in 2018, the City passed Resolution 2018-54, which formally adopted the planning guidelines developed during the Concept Phase. The resolution also directed staff to begin the "Planning Phase," initiating a consultant-led process to develop a comprehensive land use strategy for the site, grounded in continued community engagement.

These efforts resulted in the creation of two foundational planning documents: the Midtown Master Plan and the Midtown Community Development Plan, approved by the Governing Body in 2022 and 2023, respectively. Together, these documents articulate a clear framework for a mixed-use, high-activity redevelopment district that reflects community priorities and long-standing city policy.

With its strategic location near major transportation corridors, business districts, and neighborhood-serving amenities, the Midtown Property is envisioned as a hub for residential living, arts and culture, and economic opportunity. The planned redevelopment reflects the City's commitment to equitable, sustainable growth, as envisioned in the 1999 General Plan and reaffirmed in successive planning initiatives. The proposed amendments to the Midtown Master Plan are intended to ensure efficient and effective implementation of this shared vision and are in alignment with the General Plan and subsequently adopted resolutions and policies (Attachment A).

In addition to the above, the proposed Amendment to the Midtown Master Plan aligns with following Guiding Policies, found in Chapters 3 (Land Use), 4 (Growth Management), 5 (City Character), and 6 (Transportation) of the 1999 General Plan:

- Guiding Policy 3-G-2: There shall be a mix of uses and housing types in all parts of the city.
- Guiding Policy 3-G-3: There shall be infill development at densities that support the construction of affordable housing and a designated mix of land uses that provide an adequate balance of service retail and employment opportunities to address residential growth throughout the Urban Area.

• Guiding Policy 4-1-G-2: Concentrate population at greater densities in developing areas with centrally located neighborhood centers to encourage pedestrian scale development, reduce auto dependence, and provide central transit nodes.
• Guiding Policy 5-1-G-2: Encourage new residential growth in the form of human-scale and vital neighborhoods that provide a mix of services and uses.
• Guiding Policy 5-1-G-3: Increase the connectivity between neighborhoods and individual developments
• Guiding Policy 5-2-G-4: Provide for uses to meet every day needs within neighborhoods in the form of pedestrian-oriented neighborhood centers.
• Guiding Policy 6-1-G-3: Provide for a closely spaced network of narrower streets as opposed to fewer wider streets.
• Guiding Policy 6-1-G-5: Ensure that new development is more "connected" to its surroundings with an increased number of access points and pedestrian and bicycle connections to a neighborhood network.

Staff Response:

The General Plan serves as the blueprint for the community's future growth and development and includes actions and implementing policies. The General Plan addresses the following themes in the Land Use Chapter: Affordable Housing, Quality of Life, Transportation Alternatives, Economic Diversity, Sustainable Growth, Character, Urban Form, Community-Oriented Downtown, Community-Oriented Development, and Mixed-Use. The Amendment is consistent with the following guiding policies from the General Plan:

- Guiding Policy 3-G-2: There shall be a mix of uses and housing types in all parts of the city.
- Guiding Policy 3-G-3: There shall be infill development at densities that support the construction of affordable housing and a designated mix of land uses that provide an adequate balance of service retail and employment opportunities to address residential growth throughout the Urban Area
- Guiding Policy 4-1-G-2: Concentrate population at greater densities in developing areas with centrally located neighborhood centers to encourage pedestrian scale development, reduce auto dependence, and provide central transit nodes
- Guiding Policy 5-1-G-2: Encourage new residential growth in the form of human-scale and vital neighborhoods that provide a mix of services and uses.
- Guiding Policy 5-1-G-3: Increase the connectivity between neighborhoods and individual developments.
- Guiding Policy 5-2-G-4: Provide for uses to meet every day needs within neighborhoods in the form of pedestrian-oriented neighborhood centers.
- Guiding Policy 6-1-G-3: Provide for a closely spaced network of narrower streets as opposed to fewer wider streets.
- Guiding Policy 6-1-G-5: Ensure that new development is more "connected" to its surroundings with an increased number of access points and pedestrian and bicycle connections to a neighborhood network.

- General Plan Theme 1.7.1 Affordable Housing: Actively participate in the creation of affordable housing. Opportunities are provided for housing for all income segments of the population in all areas of the City.
- General Plan Theme 1.7.4 Sustainable Growth: Ensure that development is sustainable and that growth, conservation, redevelopment, and natural resource protection are balanced. There is a consensus that growth should not diminish the quality and diversity of natural resources. Sensitive resources that require protection are mapped in the Plan, and resource-based development standards and project review procedures are established. The General Plan seeks to permit development only upon known and certain availability of water and requires new growth to pay for costs of securing additional water rights. The Plan calls for adoption of an adequate public facilities ordinance.

- General Plan Theme 1.7.9 Urban Form: Promote a compact urban form and encourage sensitive/ compatible infill development. Promotion of compact urban form has been a major criterion in selecting new growth areas. Growth and reintensification areas have been selected to minimize distances between different parts of the city, and between job centers and residential areas. Incentives are provided to promote infill development.

- General Plan Theme 1.7.11 Community-Oriented Development: Orient new development to the community; foster public life, vitality, and community spirit. Plan policies call for new development to be oriented to established neighborhoods, to urban context, to pedestrians, and to promote active street and outdoor life. Urban design standards are offered that seek to prevent neighborhoods from being isolated from each other but to maintain a continuum of urban fabric, particularly regarding public access and vehicular/ pedestrian circulation. Parks, open space, and neighborhood services are located within neighborhoods.

- General Plan Theme 1.7.12 Mix of Uses: Provide a mix of land uses in all areas of the city. The General Plan provides a mix of compatible uses that fulfill everyday retail and service needs in existing and new neighborhoods. This urban structure affirms Santa Fe's traditional development pattern.

Staff concurs with applicant's response to criterion A.

Criterion B [14-3.9(D)(1)(b)]: The Master Plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts.	**Criterion Met:** **YES**

Applicant Response:

The Midtown Site is located within the C2-PUD zoning district and the Midtown Local Innovation Corridor (LINC) Overlay District. In 2022, the City's Governing Body adopted Resolution 2022-68, finding that the Midtown Master Plan was consistent with the purpose, intent, and development standards of these underlying zoning designations. The proposed amendments to the Midtown Master Plan continue to align with all applicable zoning requirements. In many cases, the amendments provide greater specificity and clearer references to the regulations and design guidelines set forth in the C2 and Midtown LINC districts, further supporting implementation of the City's planning and development objectives for the site.

Staff Response:

Staff agrees that the Applicant's proposed amendment will be consistent with the underlying zoning district, C-2 PUD and Midtown LINC overlay district. For example, adding C-2 Permitted Uses to Midtown Master Plan section 5.5 Sub-Zone section, which is derived from SFCC 14-6.1, Table 14-6.1-1, ensures desired land uses are consistent with the purpose and intent of the zoning district. Currently C-2 uses are permitted only if the Master Plan does address the proposed use. Furthermore, the proposed amendments are consistent with the purpose and intent of the Midtown LINC overlay district and would apply to future developments within the overlay such as prohibited uses and design criteria.

The proposed change clearly identifies what uses are and are not permitted in Midtown. Permitted uses will be comparable to and compatible with surrounding uses, and impacts will be mitigated through a clear listing of prohibited uses in the Master Plan. Staff concurs with Applicant's response to criterion B.

Criterion C [14-3.9(D)(1)(c)]: Development of the Master Plan area will contribute to the coordinated and efficient development to the community.	**Criterion Met:** **YES**

Applicant Response:

The proposed amendments to the Midtown Master Plan are intended to facilitate the effective implementation of the Plan's core intent: to establish a vibrant, inclusive, and economically sustainable mixed-use district at the heart of Santa Fe. The amendments contribute to this goal in several keyways.

First, the proposed amendments strengthen support for mixed-use development. The amendments refine and clarify the land use framework to more explicitly support a variety of compatible uses throughout the Midtown Site. This flexibility encourages integrated, human-scale development that supports day-to-day activity and long-term community vibrancy.

Importantly, the proposed amendments ensuring multi-unit residential is permitted site-wide, consistent with the City's goals for increasing housing supply, promoting affordability, and supporting a mix of housing types. This provision ensures that residential development is not limited to certain areas, enabling a more

cohesive and balanced community fabric. Furthermore, by referencing and aligning more closely with the underlying C-2 and Midtown LINC Overlay zoning regulations, the amendments reduce potential conflicts between the Master Plan and the City's regulatory framework. This alignment makes the Plan more actionable and provides clearer guidance for both public and private development partners.

By prioritizing mixed-use, multi-unit, and pedestrian-oriented development, the amendments help realize the long-term vision of the Midtown area as a dynamic, urban district that contributes to citywide goals for housing, economic development, and cultural enrichment.

Staff Response:

Staff concurs with the applicant's response that the Amendment will contribute to the coordinated and efficient development of the community of Midtown. Amending uses that align with the City's list of permitted uses in the C-2 zoning district and better-defined design standards increases the efficiency for development and provides predictability to meet community expectations. Furthermore, the additional land use options will help promote a variety of development types at Midtown. Staff concurs with applicant's response to criterion C.

Criterion D [14-3.9(D)(1)(d)] The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.	**Criterion Met:** **YES**

Applicant Response:

Along with the Midtown LINC Overlay District and other relevant regulations in SFCC Chapter 14, the proposed amendments to the Midtown Master Plan will accommodate future development and infrastructure needs while also updating existing infrastructure in alignment with the redevelopment vision established by the Midtown Master Plan. The design and engineering of infrastructure upgrades to the Midtown Site are currently underway, and the proposed amendments will not impede or affect the outcome of such design efforts. Furthermore, the application has been revised to align with the Development Review Team's recommendation that new street trees have a minimum caliper of 4 inches at the time of planting and a mature height of 25 feet.

Staff Response:

The proposed Master Plan amendment, Midtown LINC Overlay District, and Land Development ordinances established in Chapter 14 will accommodate future development projects and their infrastructure needs, providing a grid-based street network that is friendly to pedestrians, bicyclists, and vehicles. The Master Plan also provides for attractive streetscapes, including street furniture and street trees. The "Amendment" includes an upsize of the minimum required street trees to improve the overall character of Midtown. The City's Landscape Engineer reviewed the proposed amendment and

recommended that only new street trees have a caliper of 4 inches as described in Project Analysis, section VII. of this report. Staff concurs with applicant's response to criterion D.

VIII. CONCLUSION

The Applicant has met the approval criteria to amend the Midtown Master Plan established in SFCC Section 14-3.9(D)(1).

CITY OF SANTA FE

Planning and Land Use Department
Planning Commission Staff Report

Case No:	2025-10706
Hearing Date:	July 17, 2025
Applicant:	City of Santa Fe Midtown Redevelopment Agency.
Agent:	Lisa Gavioli, NV5, Inc
Request:	Master Plan Amendment
Location:	1600 St. Michaels Drive
Case Mgr.:	Joel Cruz-Haber
Zoning:	C-2 PUD (General Commercial)
Overlay:	Midtown LINC Overlay District
Pre-app Mtg:	N/A
ENN Mtg:	June 3, 2025
Proposal:	The applicant proposes amendments to the master site plan's development standards regulating plan and sub-zone designation that align with its core vision, intent goals, and objectives, and further policy directives for the areas as stated in the Midtown Community Development Plan, the Midtown LINC overlay district, and the General Plan.

Case #2025-10706. Midtown Master Plan Amendment. , 1600 St. Michaels Dr. NV5, Inc, Agent for Daniel Hernandez, Director of the Midtown Redevelopment Agency, Applicant, request a master plan amendment to the Midtown Master Plan on 64.22 +/- acres. The property is zoned C-2 PUD (General Commercial Planned Unit Development) and within the Midtown Local Innovation Corridor (LINC) overlay district. (Joel Cruz-Haber, Case Manager, jacruzhaber@santafenm.gov, 955-6689).

I. RECOMMENDATION:

The Planning Commission should recommend that the Governing Body **APPROVE** Case **2025-10706** *"Midtown Master Plan Amendment."*

One motion will be required, in the following order, for this case:

- *Recommend the Governing Body approve or deny the Master Plan Amendment for Case #2025-10706;*

II. EXECUTIVE SUMMARY:

The proposed Midtown Master Plan Amendment (the "Amendment") provides a revised framework for redevelopment of the Midtown Master Plan area to meet the expressed desires of the public, stakeholders, and the Midtown Redevelopment Agency ("MRA")(Attachment B). The MRA is the City's agent who is responsible for implementing the master plan to achieve the City's redevelopment goals ofsocial equity, economic prosperity, and cultural and historic preservation , while responsibly managing our natural resources.

The Midtown Master Plan (the "Plan") sets design guidelines with a form-based, context-sensitive approach. The Plan also allows the MRA to respond to specific site conditions and evolving market demands during implementation to achieve the desired outcomes of the Plan. The Plan addresses pedestrian/bicycle/vehicle connectivity, open space and parks, infrastructure improvements and associated phasing.

This Amendment is focused on the following items which are discussed in more detail in Section VI:

1. Allowing uses that are consistent with the underlying C-2 (General Commercial) zoning district,
2. Revisions to landscaping standards to allow for new trees,
3. Establishing new design standards for signage and art installations,
4. Changing certain sub-zones to promote the highest and best uses on Tract-O, which is owned by the State of New Mexico,
5. Removing step-back requirements at façade zones and inserting design standards that encourage the use of step-backs, fenestration, and other forms of façade articulation to provide additional design options.

Figure 1: Midtown's Four Elements of Sustainable Development

III. BACKGROUND

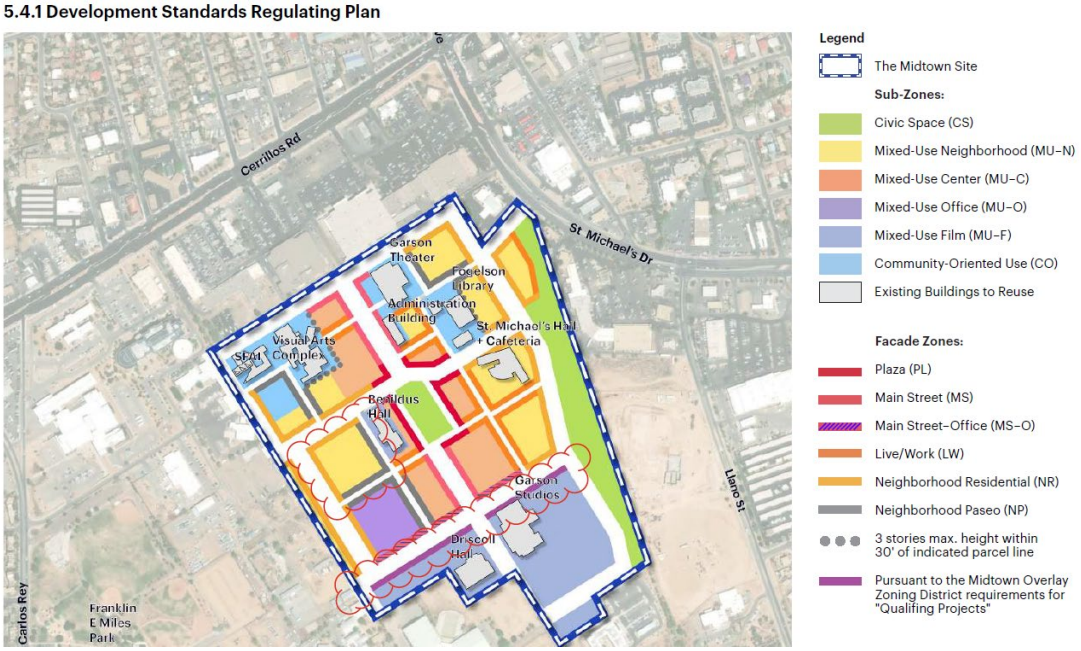
The Midtown Master Plan area (the "Property") comprises the former Santa Fe University of Art and Design campus and adjacent city-owned properties. The Property is located at 1600 St. Michael's Drive, which is defined by Cerrillos Road, St. Michael's Drive, Llano Street, Siringo Road, and Camino Carlos Rey. The Property served as an institutional anchor for Santa Fe, starting in 1943 with the Bruns Army Hospital which employed more than 1,000 Santa Feans along with 500 military men and 100 military nurses (Figure 2). After Bruns Army Hospital was decommissioned, half of the Property was turned over to the Brothers of the Christian Schools, which established St. Michael's College which was later renamed to the College of Santa Fe. Other portions of the original Army campus were turned over to local, state, and federal agencies. When the College of Santa Fe ceased operation in 2009, the City, with a commitment to preserve the civic and educational uses, purchased the Property and leased it to a private, for-profit university, the Santa Fe University of Art and Design (SFUAD).

Following the closure of the SFUAD in 2018, the City of Santa Fe passed Resolution 2018-54 (Attachment A) to initiate the Midtown redevelopment process. In the initial concept phase, the community engagement process informed programming, planning, and development approaches for the future reuse of the Property. The community engagement process led to the approval of the Planning Guidelines for the Property in the summer of 2018.

Figure 2:

After an unsuccessful effort to secure a master developer, the Governing Body directed City staff through Resolution 2022-12 (Attachment A) to pursue a General Plan amendment, Rezoning, and Master Plan for Midtown. In 2022 the Midtown Master Plan was unanimously approved by City Council under Resolution 2022-68. (Attachment A) The Midtown Master Plan established regulations regarding land uses, urban designs, open space and circulation, stormwater management, as well as other sustainable design and development practices. In 2023, the City Council unanimously approved the Midtown Development Plan under resolution 2023-5 (Attachment A). The Midtown Development Plan provides policy requirements and priorities in response to community voices regarding equity, environment, economy, and culture which has become the four elements that make up sustainable development within Midtown (Figure 1).

IV. EXISTING CONDITIONS



Apart from the legacy buildings as noted in the Master Plan, many existing buildings not utilized will be demolished and the property will be redeveloped to accommodate for new mixed-use development.

V. PROPOSED MASTER PLAN AMENDMENT

The following tables (a-d) describe current Plan standards and the proposed Plan amendments and provide a Plan page and section for reference. Wherever the current columns cell has a dash (-) symbol, this indicates the proposed standard is new.

a. <u>Development Standards Regulating Plan</u> (Figure 3)

Figure 1 **Midtown Sub Zones & Façade Zones**

Page	Section	Current	Proposed
114.	5.4	Remove Façade Zone Standards Main Street-Office (MS-O) standards at MU-F northern façade zone	Remove Façade Zone Standards Main Street-Office (MS-O) standards at MU-F northern façade zone.
115.	5.4	Insert footnote stating that the northern façade zone of the MU-F will be pursuant to the Midtown Overlay Zoning District requirements for "Qualifying Projects".	Insert footnote stating that the northern façade zone of the MU-F will be pursuant to the Midtown Overlay Zoning District requirements for "Qualifying Projects".
		Tract O is currently designated subzone	Change Tract O (including Benildus) subzone to

115.	5.4	MU-N.	MU-C.

b. Sub-Zone Standards

Page	Section	Current	Proposed
117-121.	5.5	Permitted Use Table specifies permitted, prohibited, and conditional uses for each subzone in the Midtown Site	Remove Permitted Use Table; state more clearly which uses are prohibited as as set forth through the Midtown Community Engagement process prior to the adoption of the Master Plan in 2022.
117-121.	5.5	-	Replace table with a list of prohibited uses and conditional uses.
117-121.	5.5	-	Add Language "Subzones are the recommended and preferred use for the parcels"

c. Façade Zone Standards

Page	Section	Current	Proposed
127-129.	5.6	Step-backs required above the third story, as defined in note 2 under "Height" and referenced as E in the illustration.	Remove step-back requirement for all buildings at façade zone to provide for more design options and interest along Midtown streetscapes.
131-135.	5.6	"Building Height in Façade Zone" specified as "3 stories max" and called out as A in illustration.	Change "Building Height in Façade Zone" to "5 stories max" to match the height that is allowed elsewhere.
125.	5.6	-	Insert language that encourages the use of step-backs, fenestration, and other forms of façade articulation.

d. Design Standards, General to All

Page	Section	Current	Proposed
154.	5.8	No mention of landscape standards presently.	Insert language that requires landscape design to follow SFCC 14-5.5(D)(9) for the Midtown Local Innovation Corridor (LINC), with a note that the caliper for new trees on the Midtown Site is 2" at time of planting. New Street Trees shall have a 4” caliper.
154.	5.8	No mention of signage or temporary art installation standards presently.	Add signage and temporary art language adapted from the Railyard Master Plan Insert general statement that signage located in the Midtown Site

			is governed by SFCC 14-5.5(D)8 in addition to the requirements found in Section 14-8.10. Insert: Building Signage. Signage and font shall be similar or the same as found on existing buildings throughout the Midtown Site, which form the basis for future Midtown standards (see the Fogelson Library and Garson Performance Theater, as reference). Signs are to be painted on the building skin or on thin panels mounted closely to the building.
Page	Section		Pin and channel lettering and numbers are to be mounted closely to the building. Pole mounted signs are not permitted. Hanging signs are permitted under canopies or portales. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision.
154.	5.8	-	Insert: Site Directional and Wayfinding Signs. Signs are to be fabricated in metal and finished in durable high quality metal paint finish or natural metal finishes. Wayfinding signs shall be used at street edges and bus stops. Sign colors shall be consistent with the Midtown color palette (see Midtown color palette). Sign forms shall be simple and minimalistic. Signs shall be constructed of metal, color shall be black, plus 1 or 2 accent colors using the Midtown color palette. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision. Wall signs associated with film studio stages within the Midtown LINC Overlay District and whose sign faces parallel to a wall or garage attached to a film studio stage shall be painted and shall not exceed 380 sq ft.
Page	Section		Insert: Murals and Art Installations. Publicly visible murals and art installations are permissible with approvals from the Metropolitan Redevelopment Agency. The relocation of existing sculpture and installation of new art in public and publicly visible spaces are encouraged and must consider structural stability, weather, circulation, and safety. Murals on public property shall be pursuant to the MRA Public Arts Murals Agreement.
154.	5.8	-	

The Master Plan can be amended, subject to meeting the approval criteria in SFCC Section14-3.9(D)(1):

Criterion A [14-3.9(D)(1)(a)]: ***The Master Plan is consistent with the General Plan***	**Criterion Met:** **YES**
Applicant Response:	

The 1999 City of Santa Fe General Plan identified the area surrounding the Midtown Property as the "St. Michael's Drive Redevelopment Corridor", signaling a long-term intention to support use intensification and mixed-use development. Since then, the area has been designated as "Transitional Mixed Use" on the City's Future Land Use Map, reinforcing the vision of creating a dynamic urban environment. This designation encourages redevelopment that balances higher intensity commercial corridors with adjacent lower-density neighborhoods by promoting a mix of residential, commercial, and community-serving uses.

To further support these goals, the Midtown Local Innovation Corridor (LINC) Overlay District was established in 2016. The overlay aims to catalyze revitalization through the introduction of additional housing options and compatible non-residential development—a step toward fostering a more vibrant and diverse urban core.

In 2017, the Governing Body passed Resolution 2017-78, formally recognizing the historical and strategic importance of the Midtown Property—formerly home to the College of Santa Fe and the Santa Fe University of Art and Design (SFUAD). As both the demographic and geographic center of the city, the Midtown Property was seen as central to implementing the objectives of the LINC Overlay District. The resolution also called for a renewed community vision for the site. City staff were tasked with initiating a "Concept Phase" of planning, including broad community engagement efforts. Known as the Midtown Campus Project, this initiative attracted approximately 3,000 participants and culminated in a set of community-informed planning guidelines.

Following the closure of SFUAD in 2018, the City passed Resolution 2018-54, which formally adopted the planning guidelines developed during the Concept Phase. The resolution also directed staff to begin the "Planning Phase," initiating a consultant-led process to develop a comprehensive land use strategy for the site, grounded in continued community engagement.

These efforts resulted in the creation of two foundational planning documents: the Midtown Master Plan and the Midtown Community Development Plan, approved by the Governing Body in 2022 and 2023, respectively. Together, these documents articulate a clear framework for a mixed-use, high-activity redevelopment district that reflects community priorities and long-standing city policy.

With its strategic location near major transportation corridors, business districts, and neighborhood-serving amenities, the Midtown Property is envisioned as a hub for residential living, arts and culture, and economic opportunity. The planned redevelopment reflects the city's commitment to equitable, sustainable growth, as envisioned in the 1999 General Plan and reaffirmed in successive planning initiatives. The proposed amendments to the Midtown Master Plan are intended to ensure efficient and effective implementation of this shared vision and are in alignment with the General Plan and subsequently adopted resolutions and policies (Attachment A).

In addition to the above, the proposed Amendment to the Midtown Master Plan aligns with following Guiding Policies, found in Chapters 3 (Land Use), 4 (Growth Management), 5 (City Character), and 6 (Transportation) of the 1999 General Plan:

- *Guiding Policy 3-G-2: There shall be a mix of uses and housing types in all parts of the city.*
- *Guiding Policy 3-G-3: There shall be infill development at densities that support the construction of affordable housing and a designated mix of land uses that provide an adequate balance of service retail and employment opportunities to address residential growth throughout the Urban Area*
- *Guiding Policy 4-1-G-2: Concentrate population at greater densities in developing areas with centrally located neighborhood centers to encourage pedestrian scale development, reduce auto dependence, and provide central transit nodes*

- *Guiding Policy 5-1-G-2: Encourage new residential growth in the form of human-scale and vital neighborhoods that provide a mix of services and uses.*
- *Guiding Policy 5-1-G-3: Increase the connectivity between neighborhoods and individual developments*
- *Guiding Policy 5-2-G-4: Provide for uses to meet everyday needs within neighborhoods in the form of pedestrian-oriented neighborhood centers*
- *Guiding Policy 6-1-G-3: Provide for a closely spaced network of narrower streets as opposed to fewer wider streets*
- *Guiding Policy 6-1-G-5: Ensure that new development is more "connected" to its surroundings with an increased number of access points and pedestrian and bicycle connections to a neighborhood network.*

Staff Response:

The General Plan serves as the blueprint for the community's future growth and development and includes actions and implementing policies. The General Plan addresses the following themes In the Land Use Chapter: Affordable Housing, Quality of Life, Transportation Alternatives, Economic Diversity, Sustainable Growth, Character, Urban Form, Community-Oriented Downtown, Community-Oriented Development, and Mixed-Use.

The proposed Master Plan Amendment is consistent with the following Guiding Policies of the General Plan:

- Guiding Policy 3-G-2: There shall be a mix of uses and housing types in all parts of the city.
- Guiding Policy 3-G-3: There shall be infill development at densities that support the construction of affordable housing and a designated mix of land uses that provide an adequate balance of service retail and employment opportunities to address residential growth throughout the Urban Area
- Guiding Policy 4-1-G-2: Concentrate population at greater densities in developing areas with centrally located neighborhood centers to encourage pedestrian scale development, reduce auto dependence, and provide central transit nodes
- Guiding Policy 5-1-G-2: Encourage new residential growth in the form of human-scale and vital neighborhoods that provide a mix of services and uses.
- Guiding Policy 5-1-G-3: Increase the connectivity between neighborhoods and individual developments
- Guiding Policy 5-2-G-4: Provide for uses to meet everyday needs within neighborhoods in the form of pedestrian-oriented neighborhood centers
- Guiding Policy 6-1-G-3: Provide for a closely spaced network of narrower streets as opposed to fewer wider streets

Guiding Policy 6-1-G-5: Ensure that new development is more "connected" to its surroundings with an increased number of access points and pedestrian and bicycle connections to a neighborhood network.

Criterion B [14-3.9(D)(1)(b)]: ***The Master Plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts.***	**Criterion Met:** **YES**

Applicant Response:

The Midtown Site is located within the C2-PUD zoning district and the Midtown Local Innovation Corridor (LINC) Overlay District. In 2022, the City's Governing Body adopted Resolution 2022-68, finding that the Midtown Master Plan was consistent with the purpose, intent, and development standards of these underlying zoning designations. The proposed amendments to the Midtown Master Plan continue to align with all applicable zoning requirements. In many cases, the amendments provide greater specificity and clearer references to the regulations and design guidelines set forth in the C2 and Midtown LINC districts, further supporting implementation of the City's planning and development objectives for the site.

Staff Response:

Staff concurs the proposed amendment to the sub-zone standards will be consistent with the underlying zoning district, C-2 PUD and Midtown LINC overlay district. For example, adding C-2 Permitted Uses, established in SFCC 14-6.1, Table 14-6.1-1 ensures desired land uses are unvarying from the purpose and intent of the zoning district. Currently C-2 uses are permitted only if the Master Plan does not address the proposed use. Furthermore, the proposed amendments are consistent with the purpose and intent of the Midtown LINC overlay district and shall apply to future developments within the overlay such as, prohibited uses and design criteria.

Criterion C [14-3.9(D)(1)(c)]: Development of the Master Plan area will contribute to the coordinated and efficient development to the community.	**Criterion Met:** **YES**

Applicant Response:

The proposed amendments to the Midtown Master Plan are intended to facilitate the effective implementation of the Plan's core intent: to establish a vibrant, inclusive, and economically sustainable mixed-use district at the heart of Santa Fe. The amendments contribute to this goal in several keyways.

First, the proposed amendments strengthen support for mixed-use development. The amendments refine and clarify the land use framework to more explicitly support a variety of compatible uses throughout the Midtown Site. This flexibility encourages integrated, human-scale development that supports day-to-day activity and long-term community vibrancy.

Importantly, the proposed amendments ensuring multi-unit residential is permitted site-wide, consistent with the City's goals for increasing housing supply, promoting affordability, and supporting a mix of housing types. This provision ensures that residential development is not limited to certain areas, enabling a more cohesive and balanced community fabric.

Furthermore, by referencing and aligning more closely with the underlying C-2 and Midtown LINC Overlay zoning regulations, the amendments reduce potential conflicts between the Master Plan and the City's regulatory framework. This alignment makes the Plan more actionable and provides clearer guidance for both public and private development partners.

By prioritizing mixed-use, multi-unit, and pedestrian-oriented development, the amendments help realize the long-term vision of the Midtown area as a dynamic, urban district that contributes to citywide goals for housing, economic development, and cultural enrichment.

Staff Response:

Staff concurs with the applicant's response that the master plan amendments will contribute to the coordinated and efficient development of the community of Midtown. Amending uses that align with the City's list of permitted uses in the C-2 zoning district and better-defined design standards increases the efficiency for development in the community. Furthermore, the additional options will help promote the redevelopment of the Midtown site.

Criterion D [14-3.9(D)(1)(d)]: ***(d) The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.***	**Criterion Met:** **YES**

Applicant Response:

Along with the Midtown LINC Overlay District and other relevant regulations in SFCC Chapter 14, the proposed amendments to the Midtown Master Plan will accommodate future development and infrastructure needs while also updating existing infrastructure in alignment with the redevelopment vision established by the Midtown Master Plan. The design and engineering of infrastructure upgrades to the Midtown Site are currently underway, and the proposed amendments will not impede or affect the outcome of such design efforts. Furthermore, the application has been revised to align with the Development Review Team's recommendation that new street trees shall have a minimum caliper of 4 inches at the time of planting and shall have a mature height of 25 feet.

Staff Response:

The proposed Master Plan amendment, Midtown LINC Overlay District, and Land Development ordinances established in chapter 14 will accommodate future development projects and their infrastructure needs, simultaneously, renewing existing infrastructure. The proposed amendment to the master plan pertaining to Infrastructure improvements are the caliper of new trees. The City's Landscape Engineer reviewed the proposed amendment and recommended that only new street trees have a caliper of 4" as described in *Project Analysis, section* VII. of this report. Staff concurs with applicant's response to criterion 4.

VI. PROJECT ANALYSIS: MASTER PLAN

Landscaping

The proposed minor modification to the caliper of new trees to be 2" for the entire site has been changed to include a minimum of 4" caliper for new street trees within the Property, following comments from Landscape Engineer, Lawrence Rivera.

"I approve the provided note "Landscape design shall follow SFCC 14-5.5(D)9 for the Midtown Local Innovation Corridor. Note: caliper for new trees on the Midtown Site is 2" at the time of

planting." With the inclusion: "For all trees within the open space landscape, ponding areas, buffer strips, and parking lots. All street trees are required to be a minimum of 4" caliper at the time of planting as stated in the code above."

VII. EARLY NEIGHBORHOOD NOTIFICATION

An Early Neighborhood Notification (ENN) meeting was held via Zoom on June 3, 2025. It was attended by approximately 5 people. A presentation was given that explained the proposed amendments to the Master Plan, the various components of the application, and the process moving forward. Questions were answered at the ENN and are provided in attachment (B).

VIII. EXPIRATION

The Master Plan amendment, if approved by the Governing Body, created vested uses and entitlements, are transferrable, and will not expire.

Case# 2025-10706 Midtown Master Plan Amendment

Lisa Gavioli NV5/ Midtown Redevelopment Agency

Dear Lisa,

Your application was received on June 18th, 2025, and has been reviewed by Planning Division staff (Staff) and the City's Development Review Team (DRT). Attached are the initial DRT review comments including conditions of approval and technical corrections. I would like to highlight and summarize the following key items:

A. Initial Planning Division Review Summary

Your master plan amendment application has been reviewed by Planning Division staff and the following necessary revisions have been identified:

1. Change proposed studio signage from 250 square feet to 380 square feet.

2. Provide a written findings for the minor modification request addressing 14.2-11(C)(2)(a, b, c, and d)

B. Initial DRT Review Summary

Your master plan amendment application has been reviewed by the DRT and the following necessary revisions have been identified:

1. Lawrance Rivera, Landscaping

City Code 14-5.5(D)(9)(c) reads as follows: City Code 14-5.5(D)(9)(c) reads as follows: Street trees shall be planted at a maximum spacing of thirty (30) feet on-center along the street frontages of development sites on St. Michael's Drive or Cerrillos Road as applicable. Existing street trees within the above areas may be counted toward this requirement. Street trees shall have a minimum four (4) inch caliper at time of planting and shall have a minimum mature height of twenty-five (25) feet. The required spacing of

trees may be adjusted to allow for the clustering of trees as part of a development's landscape design as determined by the land use director . The location and minimum mature height of street trees may be adjusted where conflicts exist with overhead or underground utility lines, wall - or building -mounted signage, site visibility triangles, crosswalks, bus stops, or on-street parking spaces.

I approve the provided note “Landscape design shall follow SFCC 14-5.5(D)9 for the Midtown Local Innovation Corridor. Note: caliper for new trees on the Midtown Site is 2” at the time of planting.” With the inclusion: “For all trees within the open space landscape, ponding areas, buffer strips, and parking lots. All street trees are required to be a minimum of 4” caliper at the time of planting as stated in the code above.”

-

Please review all Staff and DRT Initial comments, revise your submittals as needed and resubmit for review and final approval. Once revised submittals are accepted, a public hearing date may be scheduled. Please let me know if you have any questions or concerns or if you would like to request a Review Coordination Meeting.

Thank you,

Joel Cruz-Haber
Senior Planner, Planning and Land Use Department

memo

DATE: November 30, 2022 City Council meeting

TO: Governing Body

VIA: _____
Jason M. Kluck, Director, Land Use Department

FROM: Heather L. Lamboy, AICP, Assistant Director, Land Use Department

---

Case #2022-5763. Midtown General Plan Amendment. The City of Santa Fe, Agent/Owner, requests that the Governing Body approve a Resolution to amend the existing General Plan Future Land Use classification from Public/Institutional to Transitional Mixed-Use for the ±64-acre Midtown property at 1600 St. Michaels Drive. (Heather Lamboy, Case Manager, hllamboy@santafenm.gov, 955-6598).

Case #2022-5765. Midtown Rezoning. The City of Santa Fe, Agent/Owner, requests that the Governing Body approve an Ordinance to rezone the ±64-acre Midtown property at 1600 St. Michaels Drive from R-5 (5 residential dwelling units per acre) to C-2 PUD (General Commercial -Planned Unit Development). The property is within the Midtown LINC Overlay District. (Heather Lamboy, Case Manager, hllamboy@santafenm.gov, 955-6598).

Case #2022-5764. Midtown Master Plan. The City of Santa Fe, Agent/Owner, requests that the Governing Body approve a resolution to adopt the Midtown Land Development Plan, a Master Plan for the ±64-acre property located at 1600 St. Michaels Drive with "innovative street design standards" per SFCC 1987, Section 14-9.2(B)(3). The property is currently zoned R-5 and within the Midtown LINC Overlay District with a proposed zoning of C-2 PUD (see Case #2022-5765). (Heather Lamboy, Case Manager, hllamboy@santafenm.gov, 955-6598).

Case #2022-5766. Midtown LINC Text Amendment. The City of Santa Fe, Agent/Owner, requests that the Governing Body approve a Text Amendment to the Midtown Local Innovation Corridor (Midtown LINC) Overlay District, SFCC 1987, Section 14-5.5(D), to expand the permitted uses in the Midtown LINC Overlay District to include all qualifying projects, update the name of the area formerly known as the Santa Fe University of Art and Design, format the use chart consistently with the rest of Chapter 14's Charts, allow alternative open space compliance for institutional buildings, and reduce landscape area minimum requirements around

the base of qualifying residential projects within the Midtown Planned Unit Development, and removing an expired provision regarding review of the Ordinance. (Heather Lamboy, Case Manager, hllamboy@santafenm.gov, 955-6598).

Case #2022-5767. Midtown Adjacent Parcels General Plan Amendment. The City of Santa Fe, Agent, requests that the Governing Body approve a Resolution to amend the existing General Plan Future Land Use classification for the City of Santa Fe and New Mexico State-owned parcels comprising ±24-acres adjacent to 1600 St. Michaels Drive from Public/Institutional to Transitional Mixed Use. (Heather Lamboy, Case Manager, hllamboy@santafenm.gov, 955-6598).

Case #2022-5769. Midtown Adjacent Parcels Rezoning. The City of Santa Fe, Agent, requests that the Governing Body approve an Ordinance to rezone the City of Santa Fe and New Mexico State-owned parcels comprising ±24-acres adjacent to 1600 St. Michaels Drive from R-5 (5 residential dwelling units per acre) to C-2 (General Commercial). The parcels are within the Midtown LINC Overlay District. (Heather Lamboy, Case Manager, hllamboy@santafenm.gov, 955-6598).

I. RECOMMENDATION

The Planning Commission **RECOMMENDS APPROVAL TO THE GOVERNING BODY** of the General Plan Amendment (Case #2022-5763).

The Planning Commission **RECOMMENDS APPROVAL TO THE GOVERNING BODY** of the rezoning to C-2 PUD (Case #2022-5765).

The Planning Commission **RECOMMENDS APPROVAL TO THE GOVERNING BODY** of the Midtown Master Plan (Case #2022-5764).

The Planning Commission **RECOMMENDS APPROVAL TO THE GOVERNING BODY** of the rezoning to LINC Text Amendment (Case #2022-5766).

The Planning Commission **RECOMMENDS APPROVAL TO THE GOVERNING BODY** of the General Plan Amendment for Adjacent Parcels from Public/Institutional to Transitional Mixed-Use (Case #2022-5767).

The Planning Commission **RECOMMENDS APPROVAL TO THE GOVERNING BODY** of the rezoning for Adjacent Parcels to C-2 (Case #2022-5769).

Six (6) motions will be required for these cases:

Sample motions for Case #2022-5763:

- ***Move to approve*** *the request to amend the General Plan Future Land Use Classification from Public/Institutional to Community Commercial located at 1600 St. Michael's Drive (Midtown).*

OR

- ***Move to deny*** *the request to amend the General Plan Future Land Use Classification from Public/Institutional to Community Commercial located at 1600 St. Michael's Drive (Midtown).*

Sample motions for Case #2021-5765:

- ***Move to approve*** *the request to rezone from R-5 (Residential- five dwelling unit per acre) to C-2 PUD (Commercial – Planned Unit Development) for property located at 1600 St. Michael's Drive.*

OR

- ***Move to deny*** *the request to rezone from R-5 (Residential- five dwelling unit per acre) to C-2 PUD (Commercial – Planned Unit Development) for property located at 1600 St. Michael's Drive.*

Sample motions for Case #2021-5764:

- ***Move to approve*** *the Midtown Master Plan for property located at 1600 St. Michael's Drive.*

OR

- ***Move to deny*** *the Midtown Master Plan for property located at 1600 St. Michael's Drive.*

Sample motions for Case #2021-5766:

- ***Move to approve*** *the text amendments to the LINC Overlay Ordinance in SFCC 1987, Section 14-5.5(D).*

OR

- ***Move to deny*** *the text amendments to the LINC Overlay Ordinance in SFCC 1987, Section 14-5.5(D).*

Sample motions for Case #2021-5767:

- ***Move to approve*** *the request to amend the General Plan Future Land Use Map from Public/Institutional to Transitional Mixed-Use for property located at 1600 St. Michael's Drive.*

OR

- ***Move to deny*** *the request to amend the General Plan Future Land Use Map from Public/Institutional to Transitional Mixed-Use for property located at 1600 St. Michael's Drive.*

Sample motions for Case #2021-5769:

- ***Move to approve*** *the request to rezone from R-5 (Residential- five dwelling unit per acre) to C-2 (General Commercial) for property located at 1600 St. Michael's Drive.*

OR

- ***Move to deny*** *the request to rezone from R-5 (Residential- five dwelling unit per acre) to C-2 (General Commercial) for property located at 1600 St. Michael's Drive.*

II. EXECUTIVE SUMMARY

The proposed Midtown Master Plan represents the culmination of a multi-year public engagement process and planning effort, and a response to direction given by the Governing Body in Resolution

2022-12, "Midtown Moving Forward". The combined applications provide a framework for redevelopment of the Midtown site over many years to meet the expressed desires of the public. This framework addresses urban design standards and requirements, density patterns, public realm standards, utility plans, stormwater management, multi-modal circulation, open space, land use programming as well as standards for green building and site resiliency, and inclusionary zoning requirements.

The plan is focused on the elements of sustainable development, which includes social equity, economic prosperity, culture and history, and environment and natural resources. Contained within those four elements is additional guidance that reflects direct input from the community including the 2018 Midtown Planning Guidelines and additional public engagement.

Beyond the overarching vision, the Master Plan sets design guidelines with a form-based, context-sensitive approach. The Master Plan addresses pedestrian/bicycle/vehicle connectivity, open space and parks, infrastructure improvements and associated phasing. As the master plan area is proposed to have a C-2 PUD zone district, this document will serve as the design and infrastructure guidance as part of the planned development. Furthermore, a table of permitted uses sets forth and implements the mixed-use vision for the property.

This Application is comprised of six requests, divided into six cases, specific to the parcels involved:

1. General Plan Amendment from Institutional to Transitional Mixed-Use for the Midtown Master Planned Area;
2. Rezoning request from R-5 (Residential- five dwelling units per acre) to C-2 PUD (General Commercial Planned Unit Development) for the Midtown Master Planned Area, with the adopted Master Plan providing the development standards of the PUD;
3. Master Plan approval for the Midtown Master Planned Area;
4. Text Amendment to the Midtown LINC Overlay District to acknowledge the Master Plan and PUD standards for the Midtown Master Planned Area;
5. General Plan Amendment from Institutional to Transitional Mixed-Use for State-owned properties adjacent to the Midtown Master Planned Area; and
6. Rezoning request from R-5 (Residential- five dwelling units per acre) to C-2 (General Commercial) for State-owned properties adjacent to the Midtown Master Planned Area.

The General Plan Amendments, Rezonings, Master Plan, and the LINC Text Amendment are necessary to develop the property in a way that is consistent with community goals and Governing Body direction, as expressed through multiple years of public input and Governing Body Resolutions.

The Master Plan approval is also essential for creating a legal and regulatory framework to allow future development proposals to be evaluated by the City and create the district as envisioned in the Midtown Planning Guidelines.

III. MIDTOWN SITE BACKGROUND

The Midtown Master Plan area comprises the former Santa Fe University of Art and Design campus and some adjacent city-owned properties. The Site is located at 1600 St. Michael's Drive, within the block defined by Cerrillos Road, St. Michael's Drive, Llano Street, Siringo Road, and Camino Carlos Rey. Midtown served as an institutional anchor for Santa Fe, starting in 1943 with the Bruns Army Hospital which employed more than 1,000 Santa Feans along with 500 military men and 100 military nurses. After Bruns Army Hospital was decommissioned, half of the property was turned over to the Brothers of the Christian Schools, which established St. Michael's College which was later renamed to the College of Santa Fe. Other portions of the original Army campus were turned over to local, state, and federal agencies. When the Christian Brothers College ceased operation in 2009, the City, with a commitment to preserve the civic and educational uses, purchased Midtown and leased it to a private, for-profit university, the Santa Fe University of Art and Design (SFUAD).

Following the closure of the SFUAD in 2018, the City of Santa Fe passed Resolution 2018-54 to initiate the Midtown redevelopment process. In the initial concept phase, the community engagement process informed programming, planning, and development approaches for the future reuse of Midtown. The community engagement process led to the approval of the Planning Guidelines for the City's Midtown Property in the summer of 2018.

After an unsuccessful effort to secure a master developer, the Governing Body directed City staff through Resolution 2022-12 to pursue a General Plan amendment, Rezoning, and Master Plan for Midtown.

IV. PLANNING EFFORTS FOR MIDTOWN

Concept Phase: The City began the Concept Phase known more commonly as the Midtown Campus Project in August 2018, to provide opportunities for the public to create a vision and concept for the future of Midtown. The redevelopment is also informed by previous research, including the Re:MIKE study for the redesign the St. Michaels corridor; Culture Connects; and the 2017 National Citizens Survey and Pollinating Prosperity Report.

The Concept Phase culminated in 2018 with the publication of the Midtown Planning Guidelines, which the Governing Body approved by Resolution 2018-54. These continue to guide the vision, goals, and ongoing public engagement efforts to inform and regulate the development of Midtown.

Planning Phase: The City's Planning Phase began in 2021-2022 and included City-hosted public planning sessions supported by community organizations, collectively known as the Midtown Engagement Partners (MEPs). The resulting, actionable public engagement plan informed the Midtown Redevelopment Plans, which include the interrelated Midtown Master Plan and Community Development Plan. The Governing Body will review and vote on the Community Development Plan and Master Plan as a joint package called the Midtown Redevelopment Plans.

- The Master Plan will regulate land uses, zoning, and development plans, including urban design guidelines and requirements, density patterns, infrastructure and circulation, open space, as well as green building and site resiliency, and zoning for housing affordability and other public policy benefits. Both the Planning Commission and the Governing Body will review, and the Governing Body will vote to adopt the Master Plan.

The Master Plan establishes design and development standards as noted below to implement the vision for the Midtown Site:

- To establish land uses and development regulations specific to the built character of the Midtown Site in furtherance of a C-2 base zoning and consistent with the Midtown LINC.
- To create the standards and requirements for civic and open spaces that also promote soils resiliency and water retention and detention.
- To establish the primary public streets and other forms of mobility, with a priority to pedestrian and bicycle friendly circulation patterns.
- To be flexible to respond to evolving market conditions by establishing a parcelization plan and phased incremental development that will allow the site to be developed by various qualified private for-profit and non-profit developers.
- To establish the fundamental development and infrastructure framework for a mixed-use district that also preserves certain existing "legacy" buildings for adaptive reuse.
- To create the basic form-based requirements to guide the built character of the Midtown Site, including the design and location of the public realm, the sidewalk and street frontage conditions, density patterns, and the contextual massing and set-backs of buildings.

- To build on the City's current USGBC LEED-Gold City rating by designing the Midtown Redevelopment Plans based on the LEED-Neighborhood Development program. (United States Green Building Council – Leadership in Energy and Environmental Design), with a focus on the four pillars of sustainable development – Equity, Environment, Economic, Culture.

- The Community Development Plan will implement and achieve public policy objectives surrounding sustainable development with community development goals related to equity, environment, economic, and culture. The plan provides requirements, guidance, and preferences as development is implemented, which will be included in City Development Solicitations. The Governing Body will adopt the Community Development Plan by Resolution.

V. GOVERNING BODY DIRECTION FOR MIDTOWN

The Governing Body has adopted several Resolutions over the years related to the planning and future development of the Midtown site.

Resolution 2017-78, adopted October 25, 2017:

- Acknowledged the importance of the College of Santa Fe and the Santa Fe University of Art and Design to the history of Santa Fe;
- Recognized the significance of the site as the geographic and demographic center of Santa Fe and its connection to the recently created Midtown LINC Overlay District;
- Acknowledged the City's investment in the property;
- Called for a renewed vision for property that would integrate a forward-looking educational use with other community-centered uses built on the City's existing strengths and capacity; and
- Expressed the desire for the City of Santa Fe and its residents to act as the catalyst for change embodying the common values of the City.

The Resolution further directed the City Manager and staff to pursue continued higher education opportunities at the site, to pursue expanded film and emerging media activity at the site, pursue workforce housing at the site, pursue partnerships with local and regional technical institutions, transform the Fogelson Library into a 21st century library capable of delivering City and community services, reach out to community interest groups to further refine the vision for the site, seek partnership opportunities with adjacent property owners, explore co-worker and maker space opportunities that align with community needs, work with existing businesses to promote City needs and their own goals, and to examine different governance models to maximize opportunity and further innovation and entrepreneurship.

Resolution 2018-54, adopted August 8, 2018:

- Acknowledged the City's public outreach and market research efforts constituting the "Concept Phase" of the redevelopment process at the Midtown site;

- Adopted Planning Guidelines developed through the Concept Phase for future redevelopment of the Midtown site; and
- Authorized the "Planning Stage" of the redevelopment of the Midtown site.

This Resolution made particular note of Action item 6 of Resolution 2017-78, which directed staff to reach out to local community-based interest groups led by or representing diverse constituencies to further refine the vision for the site. This effort constituted the "Concept Phase" identified in Resolution 2018-54, which culminated in accepting the "Midtown Campus Project Final Report" detailing public outreach efforts and adopted "Planning Guidelines" that represented the City's conceptual vision for the future of the site. The Resolution also directed staff to commence the "Planning Phase" for the Midtown site, prepare RFP/RFQs to procure consulting services to produce land development framework, and to continue to work with community groups.

Resolution 2022-12, adopted February 23, 2022:

- Called for next steps for the reuse and redevelopment of the Midtown site, including the pursuit of rezonings, general plan amendments, a master plan;
- Called for the adoption of a Community Development Plan;
- Called for the issuance of Requests for Proposals for specific elements of the Midtown site;
- Called for additional studies and assessments of the Midtown site;
- Called for the acquisitions of land within or adjacent to the Midtown site;
- Acknowledged the work City staff had done with public engagement partners to solicit input from underrepresented and/or disenfranchised communities within the City, including the "block party", planning sessions, web-based and in-person surveys, interviews, and presentations to various civic organizations and the Governing Body to obtain community feedback on the redevelopment of the property;
- Acknowledged affordable housing as an expressed community desire for the Midtown site;
- Acknowledged arts, film, library, and educational uses as expressed community desires for the site;
- Directed staff to pursue purchase or trade of adjacent State-owned properties in order to enable better connectivity of the site and to create a more viable redevelopment project; and
- Directed staff to propose strategies such as a Metropolitan Redevelopment Area.

The Resolution specifically called for the following RFPs:

- The Visual Arts Center as a "local community arts and culture hub".
- The redevelopment, expansion, and operation of the Garson Studios with the goals of creating a full-service studio for film and multimedia production, including pre- and post-production facilities; and retaining existing jobs and creating new job opportunities at various skill levels within the production industry and facilities.
- For the Garson Performance Theater as a publicly accessible venue for local,

regional, and visiting national and international groups.

- For the Fogelson Library Complex for a Public Library, Civic Space, and Innovation Center.

VI. MIDTOWN LINC OVERLAY

The Midtown Local Innovation Corridor (LINC) Overlay District was created in 2016 (Ordinance 2016-39) to spur redevelopment along St. Michaels Drive and portions of Cerrillos Road corridor. The purpose and intent of the Midtown LINC Overlay District is stated in Subsection 14-5.5(D)(1):

(a) Strengthen and animate the built environment and the business and population links within the demographic and geographic center of the city between the existing employment centers of the Santa Fe University of Art and Design and surrounding uses to the west and the Christus St. Vincent Regional Medical Center and related medical uses to the east;
(b) Incentivize multi-family residential development, complementary non-residential uses, and an enlivened, street-oriented pedestrian environment by freeing development capacity of existing under-developed land and buildings for these targeted uses, while allowing existing uses to continue as redevelopment occurs;
(c) Allow for innovative development and redevelopment of the district while providing buffering between the district and existing residential development outside of the district by the application of amended land development regulations and fees and by establishing conditions precedent for future infrastructure enhancements and the application of other redevelopment and financing tools;
(d) Promote a more healthy, safe, and enjoyable environment within the city's midtown area through the enhancement of pedestrian and bicycle accessibility and safety, landscaping and other street-related amenities and the eventual reduction of traffic speeds and provision of on-street parking, bicycle lanes, and improved crosswalks; and
(e) Provide flexibility in sign design and location so as to maintain effective communication, business identification and wayfinding for existing buildings whose visibility may be reduced by new development.

An amendment to the LINC Overlay is proposed to ensure that its regulations and the Midtown Master Plan development standards are consistent. Modifications for the proposed Midtown Master Planned Area, such as required open space percentages, have been amended in the LINC to account for the unique conditions associated with Midtown. Overall processes for review and approval of applications within Midtown will be consistent with the LINC standards.

VII. PLANNNING COMMISSION DISCUSSION

The Planning Commission conducted a public hearing on October 20, 2022. The Planning Commission found that the Applicant satisfied **all general plan approval criteria** set forth in **SFCC Subsection 14-3.2(E)**, **all rezoning approval criteria** set forth in **SFCC Subsection 14-3.5(C)**, **all master plan approval criteria** set forth in **SFCC Subsection 14-3.9(D)**, and **all Chapter XIV text amendment criteria** set forth in **SFCC Subsection 14-3.3(B)** subject to the Governing Body approving the adopted Findings of Fact and Conclusions of Law to that

effect.

At its October 20, 2022, Planning Commission meeting, staff presented a condition of approval that stated "Any text or graphics included in the Midtown Master Plan proposal and associated case documents referencing proposed, desired or long-range improvements that include or illustrate circulation, connecting networks, or other planning concepts and features on properties external to the Midtown Master Planned Area, shall be not be considered as part of any recommendation or final action related to the Master Plan." Staff added that the recommendation was a result of conversations held with the community as a result of concern raised regarding potential street and pedestrian connections traversing their properties. The intent of the illustration was to identify potential long-term connections that could be made as adjoining property may be redeveloped; however, the applicant team agreed to remove the illustrations on adjoining properties. Most of the graphics with these illustrations were updated prior to the Planning Commission hearing and were included in the staff report packet. Chair Clow asked staff to clarify that the illustrations will be updated to exclude road or other improvements on adjoining properties, and that those would not be what would be considered approval. Staff affirmed that no adjoining properties would be required to have any improvements associated with the development of Midtown.

The Planning Commission sought clarification that the existing connections to Midtown (St. Michael's Drive and Siringo Road) were sufficient to serve Midtown. Staff responded affirmatively. The Commission discussed the types of applications that would be reviewed by them, noting that certain qualifying projects are reviewed administratively according to the LINC.

The Planning Commission sought clarification as to why the schools were not consulted regarding the Master Plan. Staff responded that the school district sent notice regarding the ENN and Planning Commission hearing, but acknowledged that additional dialogue while drafting the Master Plan was needed.

The Commission asked for clarification as to whether the design standards would have the force of law, or whether they were guidelines. Staff responded that since the Master Plan is adopted by ordinance the design standards would not be suggestions or guidelines but would be required to be followed in order to obtain project approval.

The Commission asked how the public would be notified of development applications, noting that many of the applications would qualify as administrative projects. Staff responded that not only will there be an RFP process that would include a Citizen Advisory Board regarding selection of the developers for the site, but also ENN meetings would be required for each development.

A question was asked about whether the legacy anchor buildings, such as The Screen at the Garson Theatre, would remain open to the public. Staff responded that it would be available for community functions.

The Commission asked for an estimate of how many people participated in the planning process. The Midtown staff responded that over the years there have been several processes that have included the public. In 2018, when the visioning and planning guidelines were developed, staff estimated that there were 700-800 people engaged in that process. Staff added that over 1,000 people participated in in the Midtown Block party, and that approximately 100 people attended the ENN meeting for the Master Plan.

Public comments included concerns regarding the impacts of construction and stormwater runoff, the timing of infrastructure development. The Old Santa Fe Association supported strong design guidelines for Midtown. Other comments included ensuring the development is inclusive, and not permitting developments to use fee in-lieu for affordable housing. Additionally, a comment was made regarding the importance of a bicycle connection along the drainage ditch connecting Siringo Road with St. Michael's Drive.

An adjoining property owner group raised the concern regarding the potential Master Plan's impacts on adjacent property rights. In response to the note proposed by staff, the property owners commented that it did not go far enough. The property owners sought removal of the stub-outs on the plan that illustrated potential future access through their property. Furthermore, the property owners sought additional input regarding a note on the plan that would clarify that the Master Plan and associated standards would not apply to adjoining property.

In response to the concerns raised by the adjoining property owner group, the Commission added conditions of approval that staff continue to work with adjoining neighbors regarding their concerns regarding potential street connections. The Commission also included the staff-recommended condition as follows: "Any text or graphics included in the Midtown Master Plan proposal and associated case documents referencing proposed, desired, or long-range improvements that include or illustrate circulation, connecting networks, or other planning concepts and features on properties external to the Midtown Master Planned Area shall not be considered as part of any recommendation or final action related to the Master Plan."

Staff has worked with the adjoining property owners to identify the best way to address their concerns.

The staff-recommended note which has been added is as follows: "*No external connection shall be constructed, dedicated, or made a condition of approval of any development application on an adjacent property, without the express consent of the affected adjacent property owner.*"

VIII. GOVERNING BODY DECISIONS

A. General Plan Amendment (Case #2022-5763) Approval Criteria

In considering the General Plan Amendment, the Governing Body must base its decision on the approval criteria and balancing test set forth in SFCC Subsection 14-3.2(E)(1), as follows:

(1) The planning commission and the governing body shall review all general plan amendment proposals on the basis of the following criteria, and shall make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any amendment to the general plan:
(a) consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;
(b) consistency with other parts of the general plan;
(c) the amendment does not:
(i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or
(ii) affect an area of less than two acres, except when adjusting boundaries between districts; or
(iii) benefit one or a few landowners at the expense of the surrounding landowners or the general public;
(d) an amendment is not required to conform with Subsection 14-3.2{E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;
(e) compliance with extraterritorial zoning ordinances and extraterritorial plans;
(f) contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development; and
(g) consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.

Case #2022-5763 is a request to amend the General Plan Future Land Use designation from Public/Institutional to Transitional Mixed Use for 64± acres of land. The properties are located at 1600 St. Michael's Drive.

If the Governing Body finds that the Application meets the General Plan Amendment criteria set forth in Subsection 14-3.2(E)(1), Staff recommends that the Governing Body approve the request to amend the Future Land Use Designation.

B. Rezoning (Case #2022-5765) Approval Criteria

In considering the rezonings, the Governing Body must base its decision on the approval criteria and balancing test set forth in SFCC Subsection 14-3.5(C), as follows:

(1) The planning commission and the governing body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:
(a) one or more of the following conditions exist:
(i) there was a mistake in the original zoning;

(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or
(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;

(b) all the rezoning requirements of Chapter 14 have been met;
(c) the rezoning is consistent with the applicable policies of the general plan, including the future land use map;
(d) the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city; and
(e) the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations, will be able to accommodate the impacts of the proposed development.

(2) Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:
(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;
(b) affect an area of less than two acres, unless adjusting boundaries between districts; or
(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.

If the Governing Body finds that application meets the Rezoning criteria set forth in Subsections 14-2.3(C)(7)(c) and Section 14-3.5(B)(1), Staff recommends that the Governing Body approve the request for the Rezoning.

C. Master Plan (Case # 2022-5764) Approval Criteria

In considering the Master Plan, the Governing Body must base its decision on the approval criteria and balancing test set forth in SFCC Subsection 14-3.9(D)(1), as follows:

(1) The planning commission and the governing body shall review all Master Plan Amendment proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any Master Plan Amendment:
(a) the master plan is consistent with the general plan;
(b) the master plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts;
(c) development of the master plan area will contribute to the coordinated and efficient development of the community; and

(d) the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.

Case #2022-5764 is a request Master Plan approval for properties totaling 64± acres. The properties are located at 1600 St. Michael's Drive.

If the Governing Body finds that the Master Plan meets the Subsection 14- 3.9(C)(4) criteria, Staff recommends that the Governing Body approve the Master Plan.

D. LINC Text Amendment (Case # 2022-5766) Approval Criteria

In considering the LINC Text Amendment, the Governing Body must base its decision on the approval criteria and balancing test set forth in SFCC Subsection 14-3.9(D)(1), as follows:

All text amendments shall be reviewed on the basis of the following criteria:
(1) compliance with law;
(2) consistency with the general plan ;
(3) consistency with other policies adopted by the governing body ;
(4) consistency with the purpose and intent of Chapter 14 and of the section being amended;
(5) consideration of how the amendment relates to other provisions of the Santa Fe City Code and the avoidance of unintended consequences; and
(6) consistency with any approved neighborhood conservation overlay districts.

Case #2022-5766 is a request for a text amendment to the Midtown Local Innovation Corridor (Midtown LINC) Overlay District in order to expand the permitted uses in the Midtown LINC Overlay District to include all qualifying projects, update the name of the area formerly known as the Santa Fe University of Art and Design, format the use chart consistently with the rest of Chapter 14's Charts, allow alternative open space compliance for institutional buildings, reduce landscape area minimum requirements around the base of qualifying residential projects within the Midtown Planned Unit Development, and remove an expired provision regarding review of the Ordinance.

If the Governing Body agrees that the amendment meets Subsection 14- 3.3(4) criteria, Staff recommends that the Governing Body approve the text amendment.

E. General Plan Amendment (Case #2022-5767) Approval Criteria

In considering the General Plan Amendment, the Governing Body must base its decision on the approval criteria and balancing test set forth in SFCC Subsection 14-3.2(E)(1), as follows:

(1) The planning commission and the governing body shall review all general plan amendment proposals on the basis of the following criteria, and shall make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any amendment to the general plan:
(a) consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;
(b) consistency with other parts of the general plan;
(c) the amendment does not:
(i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or
(ii) affect an area of less than two acres, except when adjusting boundaries between districts; or
(iii) benefit one or a few landowners at the expense of the surrounding landowners or the general public;
(d) an amendment is not required to conform with Subsection 14-3.2{E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;
(e) compliance with extraterritorial zoning ordinances and extraterritorial plans;
(f) contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development; and
(g) consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.

Case #2022-5767 is a request to amend the General Plan Future Land Use designation from Public/Institutional to Transitional Mixed Use for 24± acres of land. The properties are located adjacent to 1600 St. Michael's Drive.

If the Governing Body agrees that the application meets the General Plan Amendment criteria set forth in Subsection 14-3.2(E)(1), Staff recommends that the Governing Body approve the General Plan Amendment.

F. Rezoning (Case #2022-5769) Approval Criteria

In considering the rezonings, the Governing Body must base its decision on the approval criteria and balancing test set forth in SFCC Subsection 14-3.5(C), as follows:

(3) The planning commission and the governing body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:
(a) one or more of the following conditions exist:
(i) there was a mistake in the original zoning;

(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or
(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;

(b) all the rezoning requirements of Chapter 14 have been met;
(c) the rezoning is consistent with the applicable policies of the general plan, including the future land use map;
(d) the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city; and
(e) the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations, will be able to accommodate the impacts of the proposed development.

(4) Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:
(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;
(b) affect an area of less than two acres, unless adjusting boundaries between districts; or
(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.

Case #2022-5769 is a request to rezone from R-5 (Residential, 5 dwelling units per acre to C-2 (General Commercial) for 24± acres of land. The properties are located adjacent to 1600 St. Michael's Drive.

If the Governing Body agrees that the application meets the Rezoning criteria set forth in Subsections 14-2.3(C)(7)(c) and Section 14-3.5(B)(1) Staff recommends that the Governing Body approve the Rezoning.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2017-78

INTRODUCED BY

Councilor Michael A. Harris

Councilor Signe I. Lindell

A RESOLUTION

ACKNOWLEDGING THE IMPORTANCE OF THE COLLEGE OF SANTA FE AND THE SANTA FE UNIVERSITY OF ART AND DESIGN TO THE HISTORY OF SANTA FE; RECOGNIZING THE SIGNIFICANCE OF THE LOCATION OF THE UNIVERSITY CAMPUS IN THE GEOGRAPHIC AND DEMOGRAPHIC CENTER OF SANTA FE AND ITS CONNECTION TO THE RECENTLY-CREATED MIDTOWN LINC OVERLAY DISTRICT; ACKNOWLEDGING THE CITY'S INVESTMENT IN THE UNIVERSITY PROPERTY; CALLING FOR A RENEWED VISION FOR THE PROPERTY INTEGRATING A FORWARD-LOOKING EDUCATIONAL USE WITH OTHER COMMUNITY-CENTERED USES BUILT ON THE CITY'S EXISTING STRENGTHS AND CAPACITY; AND FOR THE CITY OF SANTA FE AND ITS RESIDENTS TO ACT AS THE CATALYST FOR CHANGE EMBODYING THE COMMON VALUES OF THE CITY.

WHEREAS, St. Michael's College was opened by the De La Salle Christian Brothers in 1859 and received a charter for higher education in 1874, making it the oldest chartered college in New Mexico; and

WHEREAS, in 1966, the Christian Brothers changed the name of the school to the College of Santa Fe (College) and until 2009 offered 4-year degree programs under that name to City of Santa Fe residents, as well as attracting students from around the region and the country; and

WHEREAS, in February 2009 the College declared a state of financial emergency and came close to closing; and

WHEREAS, the City of Santa Fe, in recognition of the institution's critical role in community life and the significance of its location in the geographic and demographic center of the City, anchoring the west end of St. Michael's Drive, and in partnership with the State of New Mexico and Laureate Education, Inc. (Laureate) purchased the campus and entered into an agreement with Laureate to lease the campus property (Property) and reopen the school in September 2009 as the Santa Fe University of Art and Design (SFUAD); and

WHEREAS, the Property is comprised of 10 parcels totaling 64.22 acres improved with 33 buildings totaling approximately 500,000 square feet; and

WHEREAS, the purchase of the Property and the lease with SFUAD represented a significant investment by the City, not only in acquisition costs, but in costs associated with upgrading the buildings and infrastructure to address deferred maintenance at the College, resulting in annual debt service of $2.23 million funded with SFUAD's rental payments; and

WHEREAS, The Film School of SFUAD has educated and trained individuals for film and digital media careers, and Garson Studios, located on the Property, has provided production space for movies and television shows, creating a revenue stream and supporting the regional film economy; and

WHEREAS, SFUAD has announced that it will close after the 2017-2018 school year and is currently teaching out its last class and the City expects to receive from SFUAD a request to reduce its leased area as of December 31, 2017 with a commensurate reduction in rent as a result of the reduction in the numbers of students and programs due to the teach out; and

WHEREAS, on Friday October 13, 2017 the City received from the Santa Fe University of Art and Design it's notice of termination of the lease effective June 30, 2018; and"

WHEREAS, the Governing Body and City staff have been working diligently in partnership with SFUAD and others to provide for a seamless transfer of the school to another institution of higher education, but notwithstanding significant interest expressed by a number of institutions, have not succeeded in identifying one that can commit to acquiring the entire campus and continuing all the programs offered there in the past by SFUAD; and

WHEREAS, the Governing Body recognizes the changes in higher education as colleges and universities attempt to adjust to changed enrollments, increased competition for students and other resources, changes in the workplace leading to demands for modified workforce skills and experience, and other social changes, including changes in technology driving remote learning and greater national and international connectivity; and

WHEREAS, the Governing Body recognizes in light of these changes the need for a new approach to the use of the Property that is both deliberative and experimental and wishes the City to act, as it did in 2009, as a catalyst for stability and change, building on the recent enactment of the Midtown Local Innovation Corridor (LINC) Overlay District; and

WHEREAS, the Governing Body has taken certain steps with the potential to affect the Property in the future, including obtaining an updated improvement survey and appraisal report in order to provide opportunities for splitting off portions of the Property for new uses; the adoption of a new debt management policy to expand the tools available to the City to advance beneficial public-private partnerships; contributing funding toward the examination of the characteristics of a 21st century library; and directing the City Manager to study using only renewable energy sources for all City facilities and to analyze the potential costs and benefits of consolidating some or all City facilities on the Property; and

WHEREAS, the Governing Body, in conjunction with a delegated working group of City

staff, increasingly envisions the Property focused on innovation, based on the understanding that the Property will reach its full potential when the necessary physical, economic and networking assets are fully developed in a supportive, inclusive, and risk-taking culture.

NOW THEREFORE, BE IT RESOLVED THAT THE GOVERNING BODY OF THE CITY OF SANTA FE directs the City Manager to take the following actions in furtherance of the foregoing vision:

1. Continue to pursue discussions with education institutions that have the potential to anchor the redevelopment of the Property while serving both traditional and nontraditional educational needs.

2. Pursue the expansion of existing film facilities and programs to include post-production and expanded sound studios providing access to current technologies to create a nexus where the film industry, the emerging media industry, the anchor school use, and private and public interests in the larger community meet to produce and deliver content and provide new educational and employment opportunities.

3. Encourage the development of work-force housing by the private sector utilizing the incentives provided by the LINC.

4. Reach out to local and regional research and technical institutions such as Los Alamos National Laboratory, Sandia National Laboratories, the Santa Fe Institute, and the School for Advanced Research to engage them in partnering in projects or programs in conjunction with the anchor school use and other public and private institutions and businesses to further shared interests that reach beyond local concerns.

5. Consider utilizing the Fogelson Library to replace the LaFarge Library, incorporating the elements identified in the study now underway as the necessary to a 21st century library and the delivery of some City services.

6. Reach out to local interest groups to further refine the vision set out in this resolution,

including, among other things, how the Property should develop physically to better integrate the inner campus with its neighbors through improved visual and physical access from St. Michael's Drive and internal circulation, to suggest design criteria in conjunction with the LINC to provide a unified identity as the campus develops, and to identify potential community and business uses for the Property, particularly those buildings and features that are purpose-built".

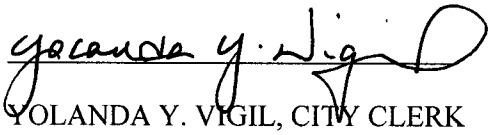
7. Reach out to neighboring landowners to explore the potential for productive partnership opportunities.

8. Explore maker space and co-working opportunities that align with Santa Fe business, educational, and community needs.

9. Work with existing businesses and local business associations to identify the resources they bring to promote the City's goals and their own expansion and growth.

10. Refine potential approaches to reduce debt service on the Property over time and to create incentives for public-private partnerships to further the foregoing vision.

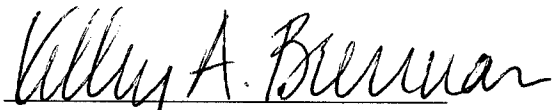
11. Examine differing governance models to identify ways to maximize opportunities to foster development appropriate to a dynamic environment focused on innovation and entrepreneurship.



12. Develop a timeline applicable to the next ninety (90) days through the activities of the working group which, to the greatest extent possible, addresses the actions described above.

BE IT FURTHER RESOLVED that an assessment be performed of the city's aesthetic and artistic assets at SFUAD, including a plan to identify their value, storage, security, or potential disposition."

PASSED, APPROVED AND ADOPTED this 25th day of October, 2017.



JAVIER M. GONZALES, MAYOR

ATTEST:

YOLANDA Y. VIGIL, CITY CLERK

APPROVED AS TO FORM:

KELLEY A. BRENNAN, CITY ATTORNEY

M/Legislation/Resolutions 2017/2017-78 SFUAD Vision

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2018-54

INTRODUCED BY:

Mayor Alan M. Webber

Councilor Mike Harris
Councilor JoAnne Vigil Coppler
Councilor Signe I. Lindell
Councilor Peter N. Ives

A RESOLUTION

ACKNOWLEDGING THE CITY'S PUBLIC OUTREACH AND MARKET RESEARCH EFFORTS TO DATE THAT CONSTITUTE THE "CONCEPT PHASE" OF THE REDEVELOPMENT PROCESS OF THE CITY-OWNED PROPERTY AT THE FORMER CAMPUS OF THE COLLEGE OF SANTA FE AND THE SANTA FE UNIVERSITY OF ART AND DESIGN, NOW REFERRED TO AS THE CITY'S MIDTOWN PROPERTY; ADOPTING PLANNING GUIDELINES FOR FUTURE USES OF THE MIDTOWN PROPERTY DEVELOPED THROUGH THE CONCEPT PHASE; AND AUTHORIZING COMMENCEMENT OF THE "PLANNING STAGE" OF THE REDEVELOPMENT PROCESS OF THE MIDTOWN PROPERTY.

WHEREAS, on October 25, 2017, the Governing Body unanimously adopted Resolution 2017-78 that acknowledged the importance of the former College of Santa Fe and the Santa Fe University of Art and Design; recognized the significance of the location of the former campus property (Midtown Property) in the demographic and geographic center of the city and its connection to the Midtown LINC Overlay District; acknowledged the city's investment in the property; and called for a

renewed vision for the Midtown Property; and

WHEREAS, through Resolution #2017-78 the Governing Body envisioned the Midtown Property to be "focused on innovation, based on the understanding that the [Midtown] Property will reach its full potential when the necessary physical, economic and networking assets are fully developed in a supportive, inclusive and risk-taking culture."; and

WHEREAS, Resolution #2017-78 directed the City Manager to take a number of actions in furtherance of the Governing Body's general vision; and

WHEREAS, as directed by Resolution #2017-78, a delegated working group of city staff and Governing Body members across two city administrations, have taken, and continue to take, the actions enumerated in the Resolution; and

WHEREAS, in particular, action item 6 of Resolution #2017-78 directed staff to: "Reach out to local interest groups to further refine the vision set out in [the] resolution, including among other things, how the [Midtown] Property should develop physically to better integrate the inner campus with its neighbors through improved visual and physical access from St. Michael's Drive and internal circulation, to suggest design criteria in conjunction with the Midtown LINC to provide a unified identity as the campus develops, and to identify potential community and business uses for the Midtown Property, particularly those buildings and features that are purpose-built."; and

WHEREAS, the city staff work under this action item is completed and is referred to as the "Concept Phase" of the Midtown Property, which has been comprised of three activities: collection, visioning, and evaluation; and

WHEREAS, the Concept Phase of the Midtown Property has produced:

1) A report entitled "Midtown Campus Project Final Report" that details the public outreach and market research conducted during the collection, visioning and evaluation activities of the Concept Phase of the Midtown Property; and

2) "Planning Guidelines" that represent the city's conceptual vision for the future of the

Midtown Property; and

WHEREAS, in order to have a more complete and inclusive vision and plan for the Midtown Property, the city will continue to seek public input and conduct outreach in the Planning Stage to augment the outreach conducted during the Concept Phase to better reach people and communities who are underrepresented in the Concept Phase research results, and attempt to reflect the demographic makeup and needs of the City's residents, communities and neighborhoods; and

WHEREAS, by partnering with local community-based groups who are led by and/or represent diverse constituencies in our community, there is an opportunity to enhance the city's efforts to make for a more equitable community engagement process; and

WHEREAS, the Resident's Bill of Rights Resolution (#2015-65), which was passed unanimously by the Governing Body in 2015, provides a framework for housing and urban planning policies, and directs appropriate staff to "collaborate with community organizations that represent and/or serve workers, renters, low-income homeowners and/or people experiencing homelessness and/or displacement as specifically related to upcoming and ongoing planning processes; and

WHEREAS, the City of Santa Fe receives an annual entitlement grant from the United States Department of Housing and Urban Development (HUD) called the Community Development Block Grant (CDBG), the objectives of which are to "develop strong community by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for low- and moderate-income persons"; and

WHEREAS, on May 30, 2018, the Governing Body approved the city's Annual Action Plan for 2018-19 which called for diversifying housing types and meeting emerging needs in the community and designated $160,044 to the planning and redevelopment of the Midtown Property, to fulfill opportunities for infill at a centralized location, close to transit routes, public services, educational facilities and employment centers; and

WHEREAS, the Midtown Property is located within a Qualifying Census Tract/Opportunity

Zone as defined by HUD and redevelopment of the Midtown Property has the potential to increase access to opportunity for surrounding neighborhoods as called for in the city's Assessment of Fair Housing which identifies donating city-owned land as a primary means to support a diversity of housing types, affordable to a mix of incomes, as well as leveraging future HUD Section 108 partnerships to finance economic development, housing rehabilitation, public facilities, and other physical development projects; and

WHEREAS, in addition to the $160,044 in HUD funding already designated for the planning and redevelopment of the Midtown Property, the Asset Development Office has generated, and continues to generate, additional revenue from the Midtown Property that can be used for its planning and redevelopment.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the attached Midtown Campus Project Final Report is hereby accepted, and the attached "Planning Guidelines" for the Midtown Property are hereby adopted as the culmination of the Concept Phase of the Midtown Property and represent the city's conceptual vision for the future of the Midtown Property.

BE IT FURTHER RESOLVED that the City Manager is directed to commence the Planning Stage of the Midtown Property by preparing, as appropriate, one or more Requests for Qualifications (RFQs) and/or Requests for Proposals (RFPs) for the procurement of professional consulting services to produce a land development framework plan that includes analyses of economic feasibility, equity assessments, and financial yields; also to include community-based processes for public outreach and engagement by working with local organizations to collaborate on the design and implementation of these public outreach processes that specifically engage and/or represent neighborhoods adjacent to the Midtown Property and the demographic makeup of our city; also to include any other professional studies for the Midtown Property which staff deems necessary to complete the Planning Stage, all to be developed in accordance with the Planning Guidelines adopted herein.

BE IT FURTHER RESOLVED that the City Manager is directed to continue action on the remaining items enumerated by Resolution #2017-78 as appropriate.

PASSED, APPROVED, and ADOPTED this 8th day of August, 2018.

ALAN M. WEBBER, MAYOR

Introduction to the Midtown Campus Project Report

The Midtown Campus Project is the public engagement process representing the core of the first stage of a three stage process to redevelop the property commonly referred to as Santa Fe University of Art and Design or the College of Santa Fe ("Property").

The three stages are:

(a) **Concept Stage** which was the market research, idea generation and concept development work done during the Midtown Campus Project that culminates in strategic, planning guidelines for the next stage,
(b) **Planning Stage** which will culminate in an appropriately scaled land development plan and financial model that can be successfully executed, and
(c) **Implementation Stage** which will be the phased implementation of the development plan or modifications thereof. Both the Planning and Implementation phases will also involve public input.

This report serves as a summary of the outreach and results conducted between January through May of 2018. The spectrum of research conducted covered a broad array of input from ideation, surveys, and evaluation. And, concluded in planning guidelines for the Midtown Property.

Summary:
SFUAD Resolution

Collegiate History

- The modern history begins in Fall of 1947 when Brother Benildus of the Christian Brothers reopens the property as St. Michael's College.
- Change of name in 1966 to the College of Santa Fe offering 4-year degrees. It closed in 2009.
- Santa Fe University of Art and Design (SFUAD) reopens in 2009

Purchase & Lease

- Partnership with State of New Mexico and Laureate Education, Inc.
- Acquisition, upgrading and infrastructure result in annual debt of $2.23 million
- Funded with SFUAD rental payments
- Reduction of leased are in 2017 and SFUAD closing in 2018

Property

- 64.22 Acres
- 33 buildings
- 500,000 square feet

Click here for SFUAD October 2017 Resolution

Summary:
Communication and Community Outreach

The overall support of local organizations, volunteers and press increased the success of our grassroots effort. If it were not for their email blasts, social media posts, newsletter spotlights and radio interviews, we would not have the record number of participants.

Collection Phase Part I	**198 people generated 971 ideas**
Collection Phase Part II	**2,234 online and in-person surveys. 800+ substantive comments.**
Evaluation Phase Quantitative	**538 online interactive surveys. 428 people added written comments.**
Evaluation Phase Qualitative	**413 people attended in-person forums. 986 substantive comments.**

We know that some people participated in multiple phases of this process. Given that, we estimate 2,800+ individuals participated in one of the Midtown Campus Project phases. This is a very high participation rate, and demonstrates the passion and commitment of the community to help shape the future of the Property and Santa Fe.

Summary:

Impact of Outreach and Communication Efforts

Just some of the press and engagement generated at each phase	
Kick Off	– 2 articles: one by SF Reporter and one by Santa Fe New Mexican – 30% open rate on Mayor's email list – Posters in all libraries and city-owned community centers
Collection Phase Part I	– Word of mouth spread through dozens of organizations – 20,000 water bills with announcement – 7,500 Nextdoor
Collection Phase Part II	– 2,287 people reached and 161 engagement (shares, clicks, posts) via Facebook posts – 93% open rate amongst organization leaders in email blasts to over 10,000 people – 3 articles by Santa Fe New Mexican – 7,500 Nextdoor
Evaluation Phase Qualitative in-person forums	– 708 people reached, 103 engagement via boosted Facebook City Event – 1,331 people reached, 79 Link clinks, 41 share via boosted Facebook City post – 2,173 reached and 220 engaged via boosted Facebook City post – 2 TV interviews & 4 radio interviews (NPR, Que Suave, Nuestra America, Hutton) – 30,000 water bills with announcement – Bilingual ads on city buses – 60% open rate amongst organization leaders – PSAs in Spanish and English on Ques Suave, NPR and Hutton Radio Start – 50,000 reach via Bilingual Santa Fe New Mexican print ad – 3 articles: two by Santa Fe New Mexican and one by Santa Fe Reporter
Evaluation Phase Quantitative online forums	– 1,079 people reached 25 link clicks via boosted Facebook city post – 50,000 reach via Bilingual Santa Fe New Mexican print ad. Add included mail-in sign up form.

Midtown Property:
The Opportunity

This is a once in a generation opportunity to improve the quality of life for all Santa Feans and those who love to learn, live, work and play here by thoughtfully and professionally redeveloping the property commonly known as the Santa Fe University of Art and Design or College of Santa Fe ("Property") .

We are mindful that we must connect this opportunity to the City's rich history and culture, while looking forward to a more sustainable, resilient and socially equitable future.

We believe that the redevelopment of the Property will create more vibrant and thriving Santa Fe far into the future. Additionally, it will act as a catalyst for the development contemplated and incentivized by the Midtown Local Innovation Corridor overlay ("Midtown LINC").

January: Kick Off Project – Start With Outreach

Three Project Phases Defined - Collection, Visualization, Evaluation

Project Timeline

Outreach - Overview:

Context for launching communication and community engagement

Began process considering limitations and opportunities such as a mayoral election would be taking place:

Our budget was small and its impact could be diminished by competing communication from City and candidates

- City was conducting an educational campaign on new electoral system
- Candidates would be using their funding for media and engaging with local community until March

Additional considerations:

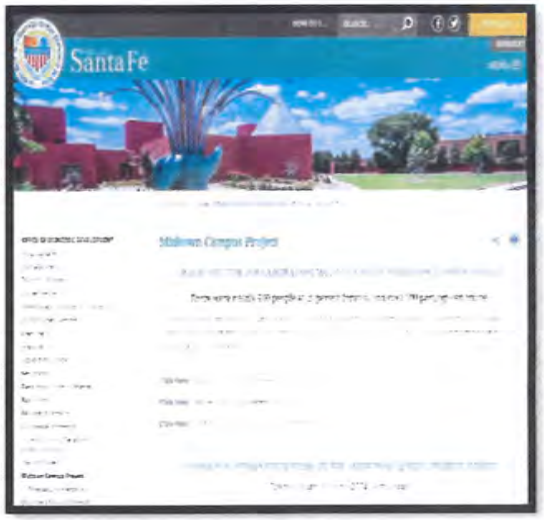
- Property has historical significance in the community both educationally and communally
- Santa Fe is a city with active residents and many cultural organizations
- Over 50% Hispanic population, including roughly 14% first generation immigrants
- Historically, certain neighborhoods and populations can be disconnected from civic engagement
- Concerns over empty site, city debt and burden which could fall upon citizens
- Many non-profit and community organizations with invested interest in forging Santa Fe future

Outreach - Overview:

Guidelines for Midtown Campus Communication

1. All material to be provided and created in English and Spanish
2. Begin with grassroots movement and build momentum
3. Increase investment after election when there is less media noise
4. Involve mayoral candidates in communications and outreach
5. Continuously involve press
6. Capitalize on all and any free City media

Outreach – Kick Off:



Conducted a press conference in January generating the first wave of media coverage and created a website for publishing all information

January Article on Midtown Campus

January Article on Midtown Campus

Central hub for Midtown Campus Project on City's website with all phases, research and related documents published

Outreach – Kick Off:

While media helped generate awareness, community leaders were at the heart of our campaigns; helping spread the word more grass roots style

February : Collection Part I - Collaborative Research Sessions

Overview – Collection Phase I:

Collaborative research sessions to collect the participants' ideas for possible uses for the Property

Objective:

Discover unexpected new ideas. Develop "existing ideas". Obtain insights and feedback for community's desires and needs for the campus. Build empathy among participants. We wanted to attract 100-200 participants.

Methodology:

Collaborative, user-friendly, and versatile online forums using the Weave platform to spark engagement and creativity within a highly visual and collaborative structure.

Participants could participate in group of 4-6 in a professionally moderated session or on their own with or without a facilitator. Facilitators were bi-lingual. Sessions were originally scheduled over a 7 days and included a Saturday and Sunday options. Duration extended an extra week and weekend to accommodate requests from community.

Participation Goal & Results – Collection Phase I

Goal: 100-200 participants with 500-1000 individual ideas.

Results: Either solo or in groups of 4-6 people, 198 participants generated 971 ideas for the possible uses of the property.

There were bilingual facilitators for groups to engage online in English or Spanish and create an online community feel

These were analyzed and prioritized to develop the survey which was used in Collection Phase II.

s:

Sample Ideas – Collection Phase I

A great variety of ideas were generated from the collaboration sessions

Botanical garden

Memorial to Indigenous Peoples

AIDS Memorial Garden

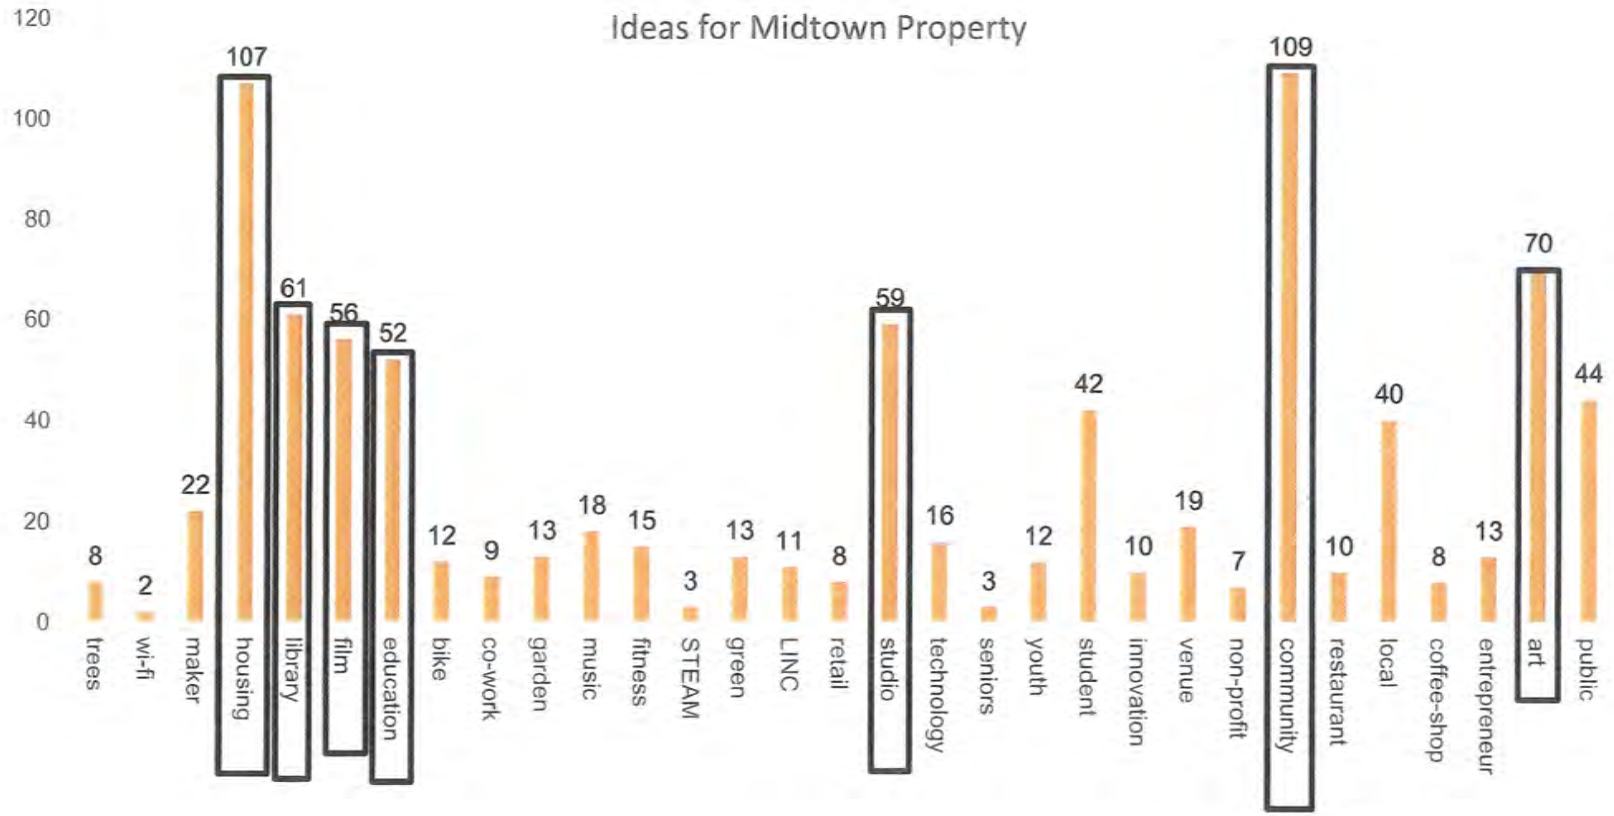
Recreate the Area

Plaza

Amphitheatre

Barracks area redevelopment

Fence and Park overlook



Art park

Quad Contemporary Sculpture park

21

Ideas Analyzed, Categorized & Prioritized – Collection Phase I

Majority of ideas linked to housing, community, library, art, film and education

Themes – Collection Phase I:

Examining patterns and comments related to ideas revealed five key themes

1. Education

"I would like to see a collaboration or partnership with UNM or NMSU to establish a college or university that concentrates on STEM curricula. By using SFUAD campus for academics, we would limit the cost of repurposing the land."

2. Film

"Film production expanding as TV and traditional movie industry is being disrupted by amazon and Netflix productions etc. etc. Other cities have been successful doing this. SF needs to capitalize on this as the campus has amazing equipment, etc"

3. Community Center

"I really hope they incorporate the idea of INTEGRATING all: industry (film, tech) with education levels, with Pueblos, with senior citizens and children, with the disadvantaged, athletics.....a great space for ALL levels of Santa Fe."

4. Performing Arts

"The theatre was a gift to the City and it should be maintained and supported as a theatre space."

"Benildus could house a great many of these theatre offices, offer a "black box" type of theater"

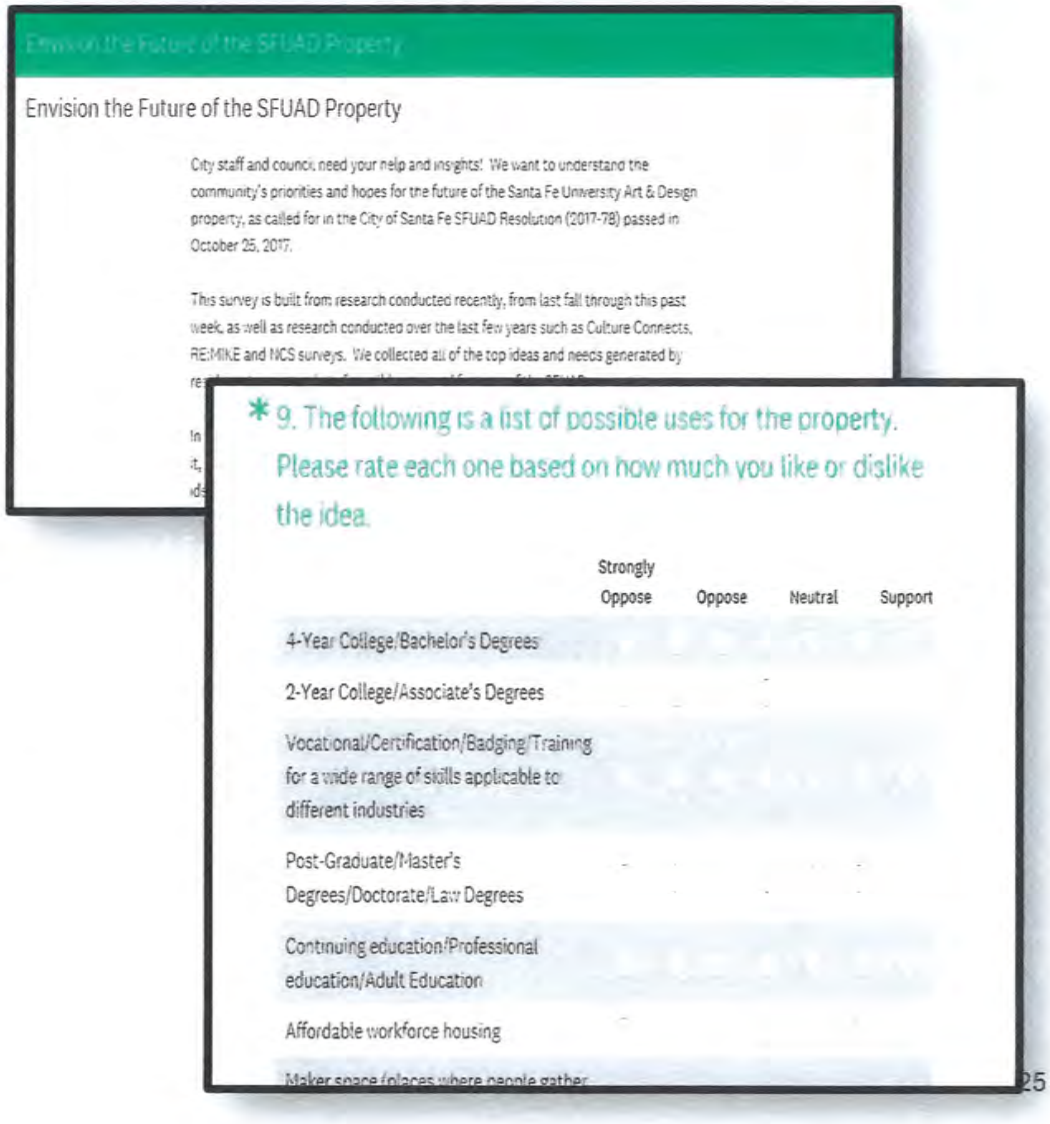
5. Entrepreneurship

"This site should be focused on technology and business development focused on growing good paying jobs and industry in Santa Fe and NM overall"

"Classroom space for a program where students actually start and run a business over two semesters. The goal is to produce an operating business that can be duplicated easily."

March: Collection Part II - Ranking & Rating of Top 25 Ideas

Overview - Collection Phase Part II –
The Rating and Ranking Survey



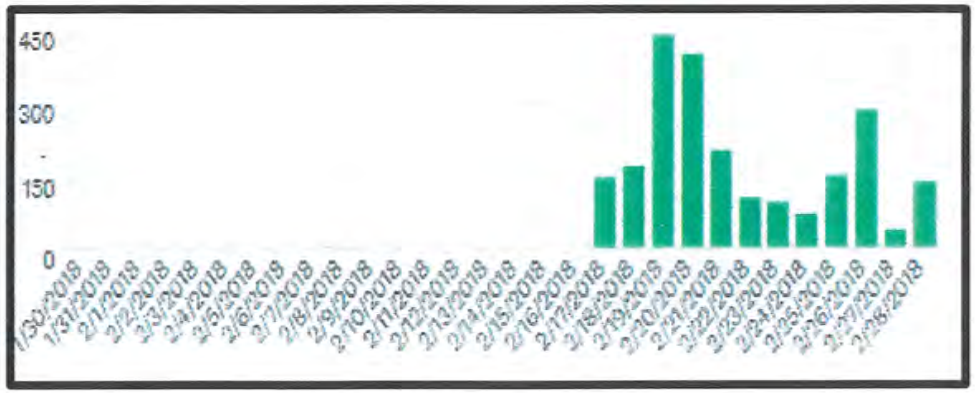
Objective: Create a final list of preferred and non-preferred attributes and usages for the property to brief designers in the Visualization phase.

Methodology: Using SurveryMonkey, create and deliver survey for residents to

- RATE and determine people's passion for each idea
- RANK each idea to understand most and least favored ideas. This required residents to choose between ideas to understand preferences relative to each other.

Posted online for 6 days between 2/17 – 2/28

Printed and provided in-person at Southside and Railyard Farmer's Markets, Walmart, Southside Library, Capital High and Downtown Library, as well as provided to leaders to share with their communities.

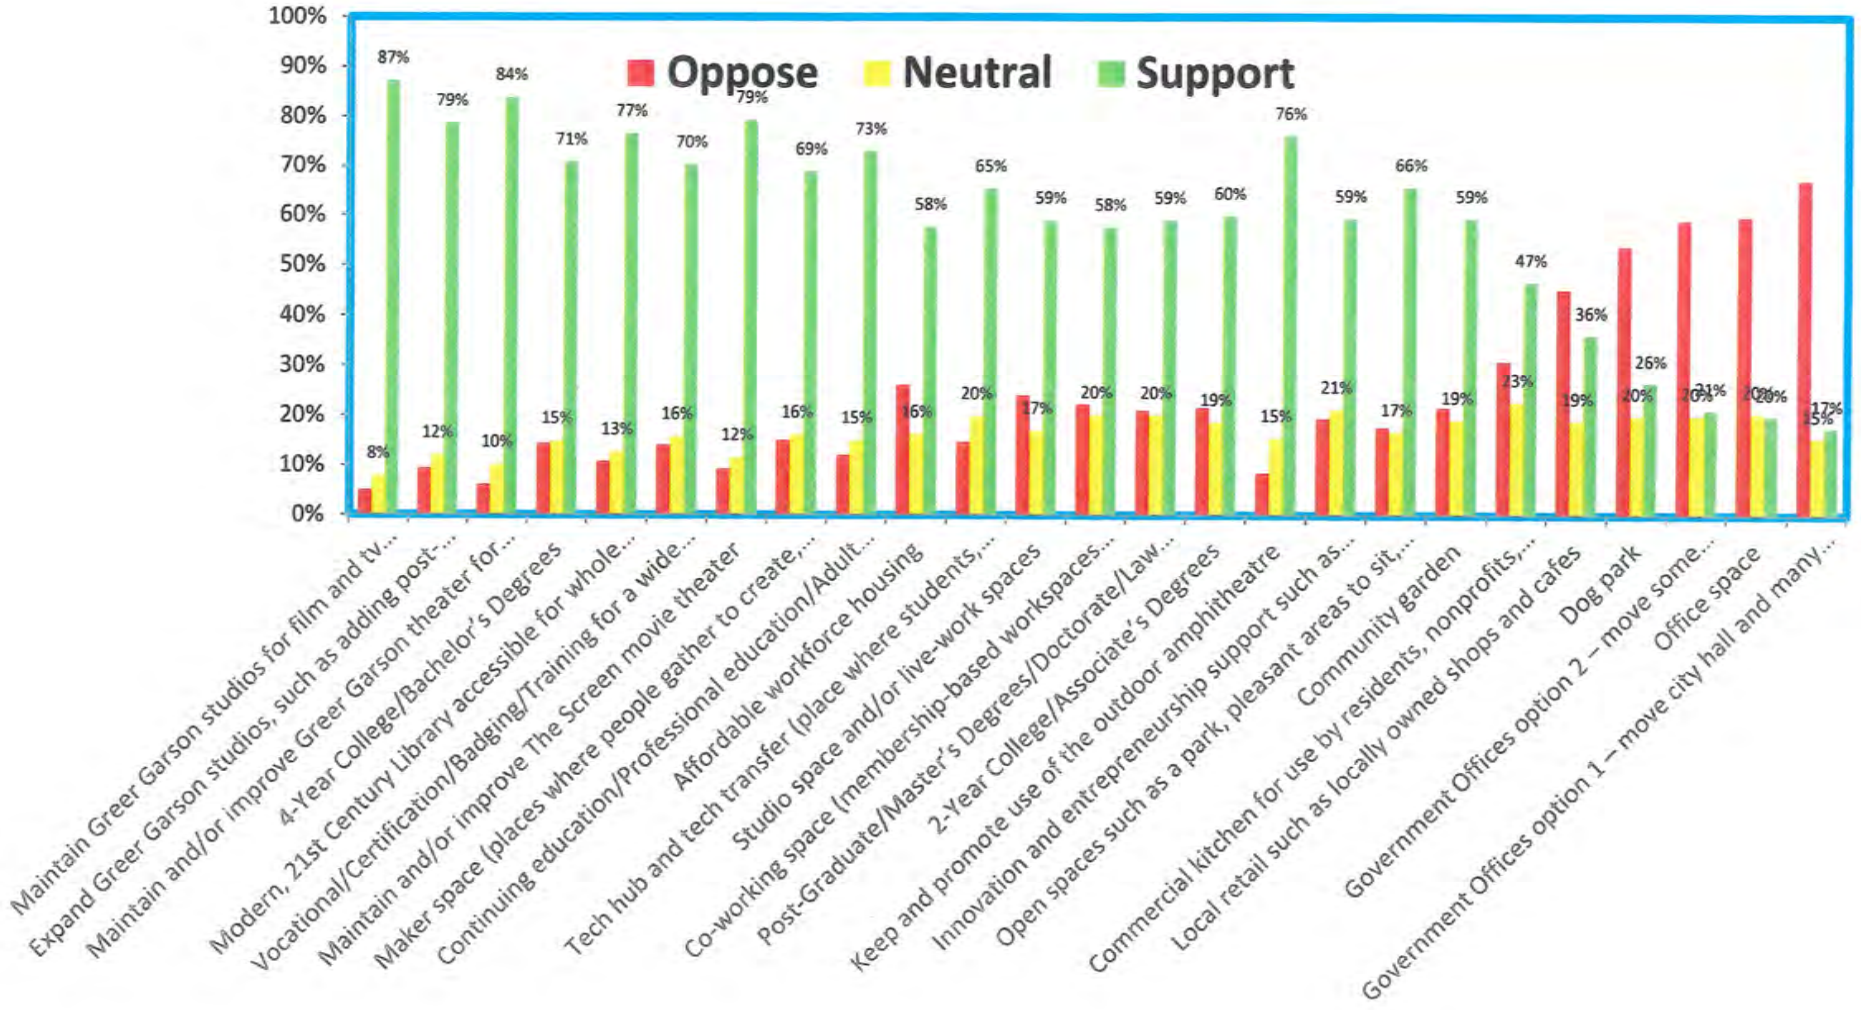


Participation Goal & Results – Collection Phase II

Goal: 500 completed surveys and 200+ individual comments.

- We had 198 participants in Collection Phase I, although 400 people signed up to participate.
- We thought we can be more ambitious for Phase II because we are asking people to give input on existing ideas instead of creating site specific ideas, and surveys are much shorter to take.
- We surpassed our goal on the first 2 days, and set new goal at 800.
- People also asked to extend the deadline, which we did by an additional 2 weeks.

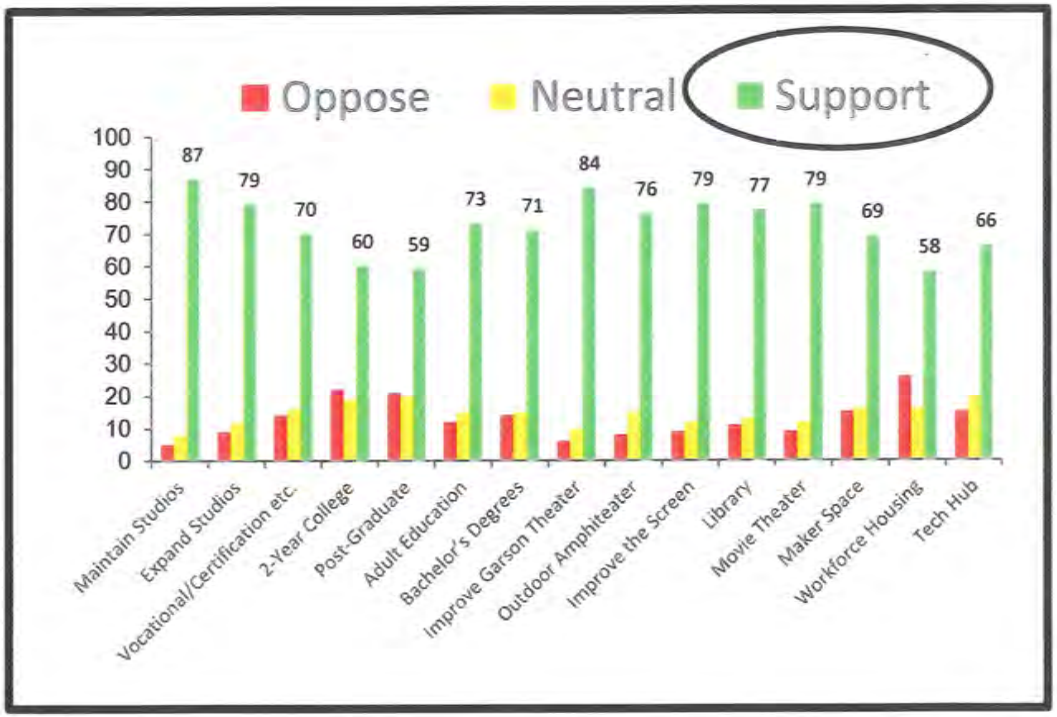
Results: 2,234 completed surveys and 800+ individual comments.
The graph shows participation rates online.



Survey Questions & Short Version

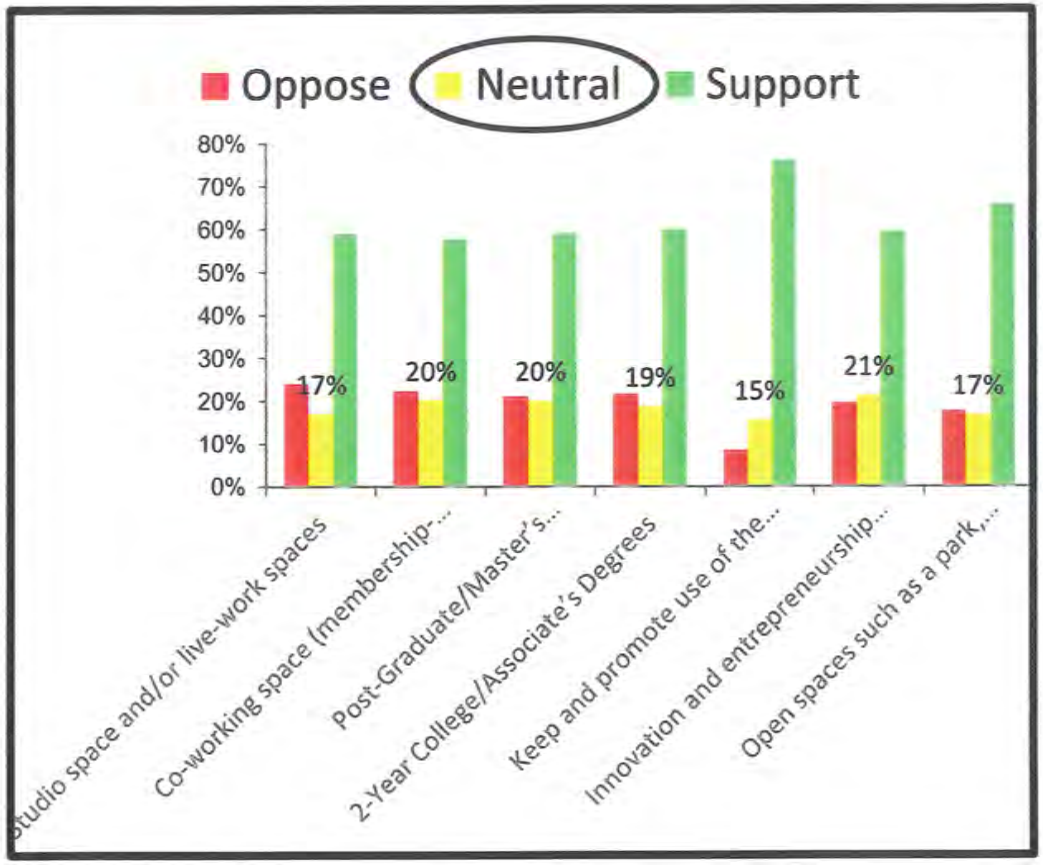
The "Short Version" name (in the right column) will be used in some of the following slides. If more than one use shares the same Short Version name, you can consider them to be equivalent. For example, Studios refers to both Maintain and Expand Greer Garson. These two options rated and ranked 1, 2 or 3 in all segmentations of the data we examined.

Survey Questions Regarding Different Uses	Short Version
Maintain Greer Garson studios for film and tv production and to support film education	Studios
Expand Greer Garson studios, such as adding post-product facility, a mill, offices and/or extra stage to increase film, tv and other media production	Studios
4-Year College/Bachelor's Degrees	Higher Education
Maintain and/or improve Greer Garson theater for performing arts such as music, dance, lectures, and plays	Arts Theater
Modern, 21st Century Library accessible for whole community including books, computers, learning spaces, educational programs, online tools, etc.	Library
Vocational/Certification/Badging/Training for a wide range of skills applicable to different industries	Higher Education
Maintain and/or improve The Screen movie theater	Movie Theater
Maker space (places where people gather to create, invent, and learn with a range of equipment, tools and supplies like 3D printers, motion capture, sewing machines, software, electronics, craft supplies, etc.)	Maker Space
Continuing education/Professional education/Adult Education	Continuing Education
Affordable workforce housing	Workforce Housing
Tech hub and tech transfer (place where students, residents and businesses can learn about, access and/or create new businesses with new technologies, especially from national laboratories and universities located in NM).	Tech Hub
Studio space and/or live-work spaces	Live/Work Housing
Co-working space (membership-based workspaces where diverse groups of freelancers, remote workers, and other independent professionals work together in a shared, communal setting that may include computers, presentation tools, desks, conference rooms, food, places to sit and relax, etc.)	Co-Working
Post-Graduate/Master's Degrees/Doctorate/Law Degrees	Higher Education
2-Year College/Associate's Degrees	Higher Education
Keep and promote use of the outdoor amphitheater	Amphitheater
Innovation and entrepreneurship support such as business accelerator, education, financial sources, incubator	E-Ship Ecosytem
Open spaces such as a park, pleasant areas to sit, walking paths, etc.	Open Spaces
Community garden	Community Garden
Commercial kitchen for use by residents, nonprofits, entrepreneurs, small business and educators	Commercial Kitchen
Local retail such as locally owned shops and cafes	Local Retail
Dog park	Dog Park
Government Offices option 2 – move some government services such as land use, business permitting, youth and family services	Gov't Offices (small)
Office space	Office Space
Government Offices option 1 – move city hall and many other city services to the property	Gov't Offices (city hall)



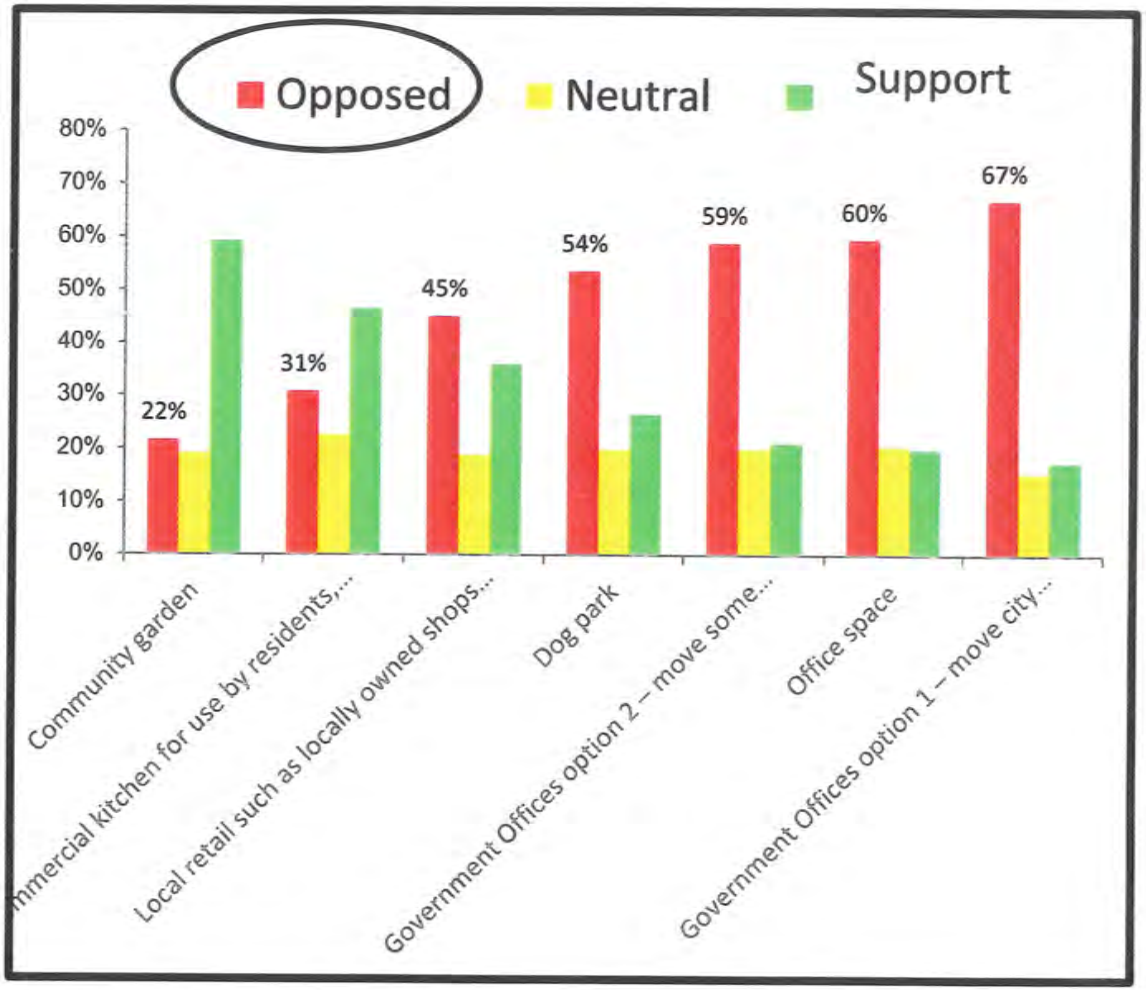
Survey Data – 25 Ideas Rated and Ranked

Summary



Ideas Analyzed & Prioritized –
Uses which SHOULD be included on Property

1. **Studios:** Maintain and Expand Greer Garson were both highly rated.
2. **Higher Education:** 4 year College was #3 in Ranking and #5 in Rating. Vocational and Continuing education all rated and ranked in top 10.
3. **Arts Theater**
4. **Library**
5. **Movie Theater**
6. **Maker Space**
7. **Workforce Housing** Housing Ranked #10, but only Rated #17.
   Possible explanations include
   1) picking housing because there were numerous education options
   2) participants may want housing, but not necessarily on campus – elsewhere in city or Midtown LINC. Also, comments indicate that housing is often connected to a theme such as housing for students and faculty for higher education, or for crews and staff for film industry.
8. **Tech Hub**



Ideas Analyzed & Prioritized –
Uses that COULD be included on the Property

1. **Live/Work Housing:** It is unclear if people were voting more for the studios or the live/work spaces contemplated in the question. Therefore, we assume both are desired.
2. **Co-Working Space**
3. **Amphitheater:** This Rated very high (#5), but Ranked much lower (#16). Despite the passion for it, when forced to choose, most people selected the amphitheater near the bottom. Therefore, we put it in the Neutral level. No other use had such a high degree of variance.
4. **E-Ship Ecosystem:** This item may rationally connect with the Tech Hub and Maker Space identified as "Support" uses.
5. **Open Spaces**

Ideas Analyzed & Prioritized –
Uses NOT desired on the Property

1. **Community Garden** - Just missed being in the Neutral category.
2. **Commercial Kitchen**
3. **Local Retail** - Community may be expecting local retail to be developed on St. Mike's, rather than the property.
4. **Dog Park** - Controversial. We assume the small support is from dog owners.
5. **Gov't Office (small) and (city hall)**
6. **Office Space**

Outreach - Collection Part II:

Additional outreach through canvassing in the community and continued grass roots through community leaders to increase participation

April: Visualization Phase focused on development of Five Strategic Concepts

Overview:
Visualization Phase

Objective: Visualize and draft written description of new possibilities for the space from local architectural, design, urban planning and landscape experts.

Methodology: Contracted with Santa Fe Art Institute (SFAI) which led this phase.

SFAI assembled an illustrative review panel and solicited RFPs for concept development. The panel reviewed and approved 5 design teams to receive a $5,000 stipend to develop visual and written strategic visions for the site. These visions were based on the guidelines created at the end of the Collection Phases.

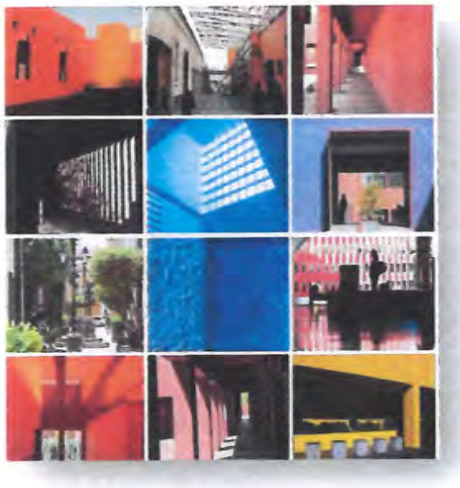
The teams had 7 weeks to create and present their visions to the public.

Visualization Phase - Concept #1 Summary

Midtown Motion led by Spears Horn Architecture

Midtown Motion: Contemporary city center where people, projects and ideas are in motion to foster interaction with pedestrian, bicycle and vehicular network.

Connect: maximize pedestrian and vehicular links to surroundings to enhance urban vitality and cultural connections.



Low & Dense: use characteristic Santa Fe urban form – low-height, high-density, with portals, balconies, roof decks, green courtyards, gardens and pedestrian links.

Contemporary Architectural Style: mandate bold contemporary style and non-traditional colors and materials.

Retain Existing Buildings: retain buildings for economic viability, cultural memory and vitality.

On Street Parking: maximize street parking for convenience, access, and streetscape vitality.

Midtown Fusion led by Autotroph

Midtown Fusion: An innovation district leveraging existing campus resources combined with new buildings for housing, education, community, and growth.

Civic: Center for Civic Innovation including gov't, non-profits, and business to continually improve quality of life. Commercial Innovation: have flexible buildings in form of studio, co-working, tech lab, and meeting facilities to lease for creative and tech partners.

Film and Emerging Media: expand studios to include additional sound sets, offices, and production facilities.

Education: supplement existing education with Higher Education Institution focusing on art, STEM, film and other creative fields.

Central Plaza & Art Park: convert band shell into gathering and performance space.

ph

Visualization Phase - Concept #2 Summary

Midtown Fusion led by Autotroph

Vision: An Innovation District, Santa Fe Style

Midtown Fusion is an innovation ecosystem located in the geographic heart of Santa Fe. It leverages existing valuable resources on and off the former SFUAD campus and combines them with new buildings and infrastructure to provide housing, community connectivity, education, and economic development opportunities. Midtown Fusion expands the site beyond the former campus boundary to foster relationships with adjacent Federal, State, SFPS, City, and commercial properties. Thus, creating a true Innovation District. Midtown Fusion harbors Synergies among various creative and collaborative entities while fostering growth for local enterprise and small businesses. It is a place where the public, college students, government officials, entrepreneurs, and the like cross-pollinate ideas through sharing resources. Midtown Fusion will also be a place where Santa Feans can follow a life path from early Childhood to Career. This vision is achieved by combining four primary sectors in the tenant make up:

Civic

The City of Santa Fe is envisioned to have a permanent presence in Midtown Fusion. The city maintained and operated Greer Garson Theater, Forum, and Southwest Annex serve as community resources. Fogelson Library is to be adapted as the Midtown library branch. A police substation, the Center for Civic Innovation, and office space for non-profit organizations along with city departments is also included.

Film and Emerging Media

The Garson Studio Complex is expanded to include additional sound sets, offices, and production facilities. This complex is leased to film and emerging media companies and is available to other innovation district neighbors as well.

Education

A new Higher Education Institution, which focuses on art and other creative fields, serves as an anchor tenant to the complex. It supplements the existing educational facilities including Nava ES, Milagro MS, Santa Fe HS, and the Higher Education Center.

Commercial Innovation Partners

A variety of buildings are leased to local businesses with focus on technology, arts, and other creative enterprises. These are flexible buildings which take the form of studio, office, tech lab, and meeting facilities. The buildings are both new and converted big box stores.

Midtown Fusion autotroph

Visualization Phase - Concept #2 Summary

Midtown Fusion led by Autotroph

Opportunity: Implement Midtown LINC & Plan for Community

The Midtown Local INnovation Corridor Overlay District seeks to re-envision the mid town area by promoting re-development of Big Box shopping centers into mixed use projects that enhance a pedestrian oriented streetscape provides access to public spaces, Civic facilities, fitness opportunities, educational entities, and workforce housing.

Midtown Fusion is a catalytic project that kick-starts the implementation of the Midtown LINC overlay district. High density mixed-use development appropriate to the major boulevards of Cerrillos Rd. and St. Michael's Dr. is located on the northern edge of the site, implementing the Midtown LINC Ordinance. On the southern edge of the site, lower density commercial and single family home developments blend into adjacent neighborhoods.

Midtown Fusion incorporates many sensible planning principles to contribute to the public realm. It features various landscape and street connections to the surrounding areas and creates a welcoming place for local residents as well as businesses and institutions. Midtown Fusion provides access to public spaces, Civic facilities, fitness opportunities, educational entities, and workforce housing.

Visualization Phase - Concept #3 Summary

Midtown Ecodistrict led by Surroundings

Midtown Ecodistrict: A sustainable and profitable framework to drive innovation in water, energy and connectivity prioritizing people and planet.

Connectivity: district fiber-optic loop for commerce and 21st Century digital connectivity.

Living Infrastructure: new buildings harvest storm water, roof capture of solar energy, and be environmentally certified (LEED).

Energy: generate 100% of energy needed on site and have "Smart Grid" for district.

Mobility: new transit hub for buses, car and bike sharing as well as wide pedestrian walkways and bike lanes.

Water: water waste treatment facility, storm water and grey water irrigation and aim for a net-zero increase in potable water over current usage.

Visualization Phase - Concept #3 Summary

Midtown Ecodistrict led by Surroundings

WHAT THE SANTA FE COMMUNITY PRIORITIZES

- Film and Emerging Media
- Performance and Visual Arts
- Technology and Innovation Hubs
- Higher Education Institutions

So, what are those industries looking for to decide where to locate?

amazon

Companies and institutions now prioritize "development-prepped sites" with 21st century infrastructure in place. Proximity to mass transit, major roads, and fiber connectivity are paramount more than ever, and district energy, water and wastewater recycling reduce operational costs and attract business.

MIDTOWN ECODISTRICT: THE OPPORTUNITY

Develop the Midtown Campus infrastructure and utilities to drive innovation in water, energy and connectivity.

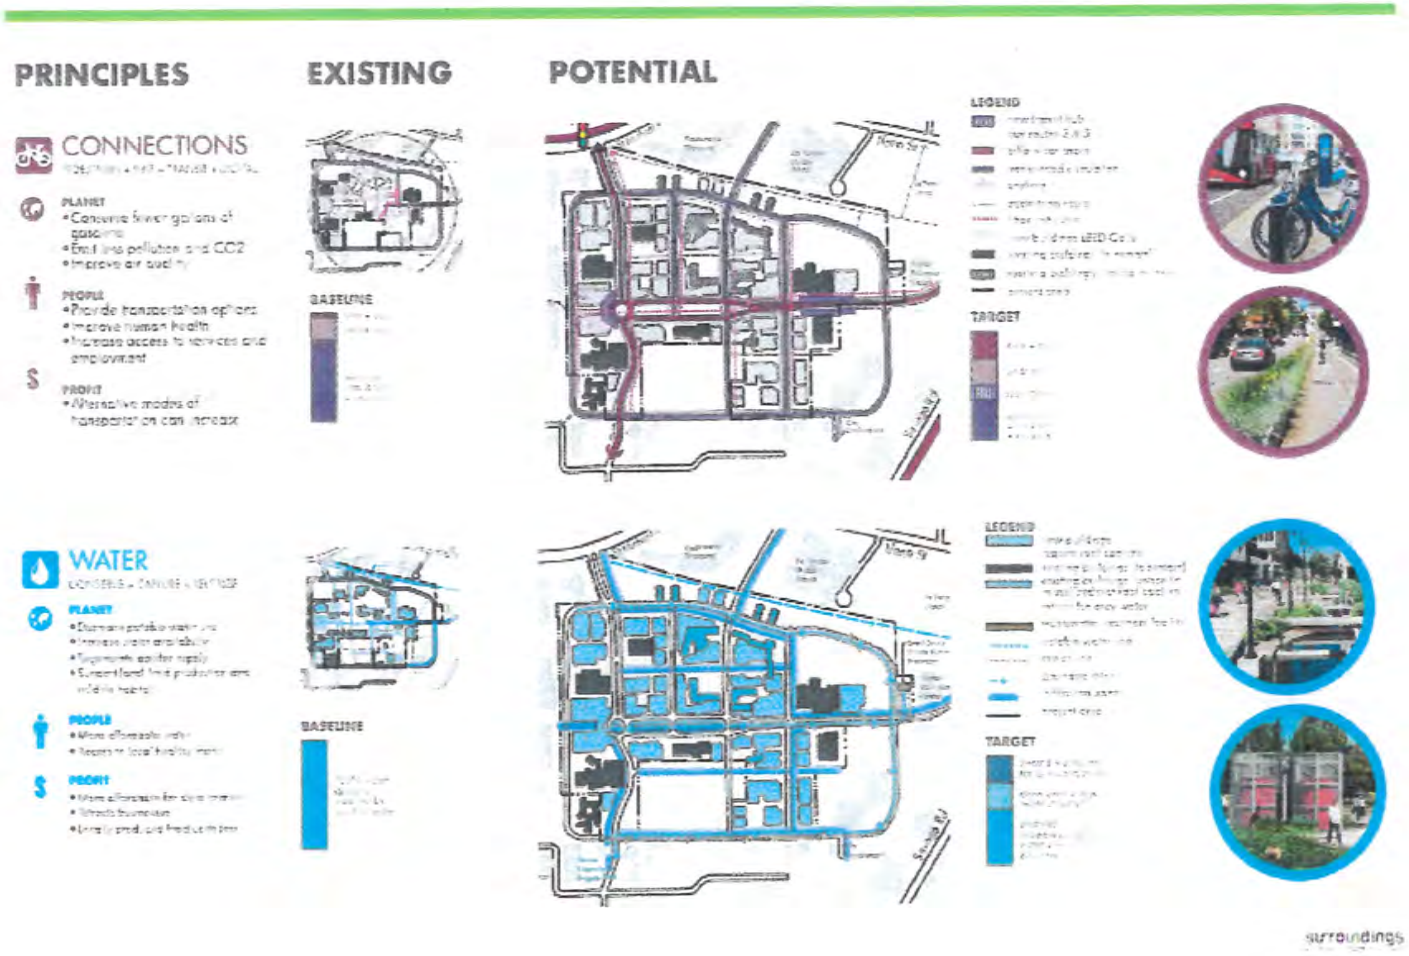
POTENTIAL ADDED ECONOMIC VALUE OF ECODISTRICTS

CONNECTIONS

pedestrian and transit oriented ecodistricts **reduce transportation costs and increase commerce.**

WATER

stormwater and black water reuse decrease demand and **reduce cost of potable water.**



ENERGY

leverage 350 days of sun annually to **reduce energy costs** for the district.

May: Evaluation Phase - Input on Five Strategic Concepts

Overview – Evaluation Phase:

Conducted online (quantitative) and in-person (qualitative) forums for residents to evaluate concepts from Visualization Phase

Objective: To determine the community's reactions to and preferences based on the visual and narrative concepts developed by the five design teams. These concepts served to make ideas more tangible versus previous research where ideas were tested in text only. Also, it provided a range of options for the community to respond to in order to provide us with greater clarity on priorities and principles for redevelopment of the Property.

Methodology: Notably, any research method has its strengths and weaknesses. Thus, we utilized a variety of quantitative and qualitative approaches to compensate for weaknesses.

- **Quantitative**: We used the Metroquest platform for online, interactive surveys. This tool is used by cities around the US and abroad. It designed to ensure that the data collected is accurate and unbiased. To view demo of interactive survey, click https://midtowncampus-demo.metroquest.com/
- **Qualitative**: We conducted three in-person events at Santa Fe Art Institute, Southside Library and GCCC. All events were facilitated by local, professional facilitators, most of whom were bilingual. Two events were limited to 100 people because of size constraints. The third at GCCC was open to all.

On the following slides, the title will indicate whether the information represented is quantitative or qualitative.

Participation Goal & Results – Evaluation Phase

Goal: 400-600 in-person participants. 300-500 online participants.

Results: 413 total in-person participants generating 986 substantive comments on Post-Its.
538 completed online surveys. 428 people added written comments.

Quantitative Research – Evaluation Phase

1 - Category Ranking Overview

Before reviewing and rating the five concepts or individual elements of each concept, respondents were asked to rank category priorities by putting them in numerical order of importance to them.

These categories are represent the top themes and uses from the Collection Phases.

This slide and the next two slides demonstrate respondents' options, respective definitions and results.

Quantitative Research – Evaluation Phase

1 - Category Definitions

Education

Mix of 4-year degree, vocational and professional education covering subjects like art & design, business & entrepreneurship, film & emerging media, public policy and STEM. Coordinate with high schools and local & regional higher-education institutions. 21st Century Library, probably, Fogelson upgrade.

Housing

Increase workforce housing options. A mix of housing and outdoors spaces that integrate with other uses of the site and the surrounding community. Primarily apartments and live/work spaces. Possibly some single family homes and/or condos bordering existing residential neighborhoods.

Film and Emerging Media

Expand Film & emerging media industries. Garson Studio Complex is expanded to include additional sound stages, post-production facilities, mill, offices, etc. Complex is leased to film and emerging media companies. Also used by education providers and other creative businesses

Sustainability

Become model of sustainability. Using and innovate sustainability best practices. Develop infrastructure for water capture & reuse, solar energy production & storage, micro-grid energy distribution, etc. Landscape for beauty, shade and drought tolerant. Pedestrian & bike friendly.

Art and Creativity Center

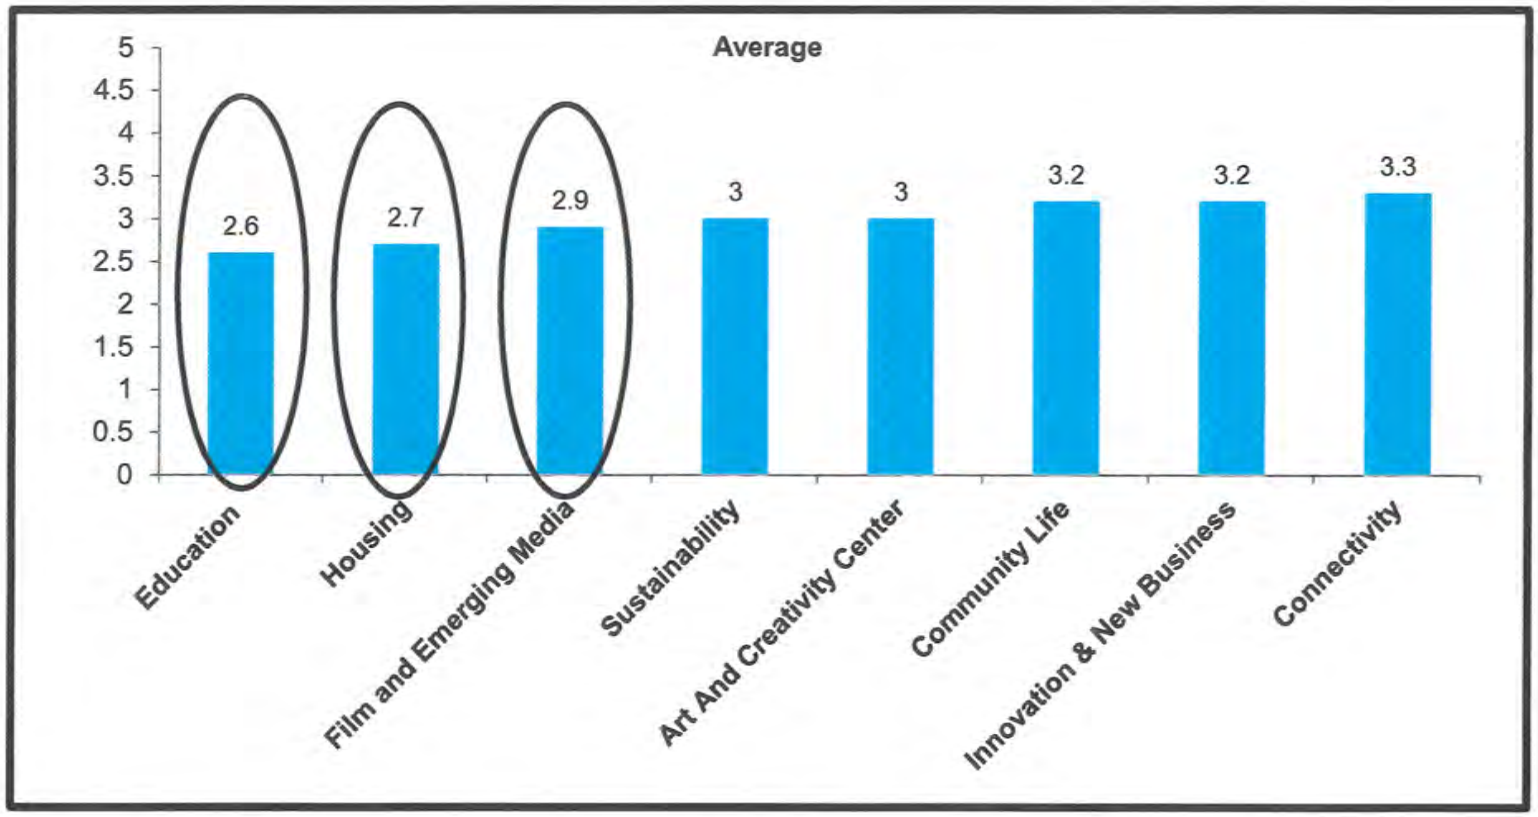
Be a hub of art, design & creativity. Expand the visual and performing arts by adding contemporary museum, culture center or other new buildings to enhance the experiences provided at the Greer Garson Theater, The Screen and SFAI. Bring more festivals, events and family activities outside.

Community Life

Improve quality of life for all residents, especially middle income families and people in their 20s and 30s, with a 21st century library, inviting outdoor spaces, fitness centers, playgrounds, health & wellness providers, day care, food trucks, etc.

Innovation and New Business

Building on our creative culture, promote new business and innovation with premier maker space, co-working locations, business accelerator, internship & mentor programs, tech transfer hub, small business resource center, etc. High speed broadband.



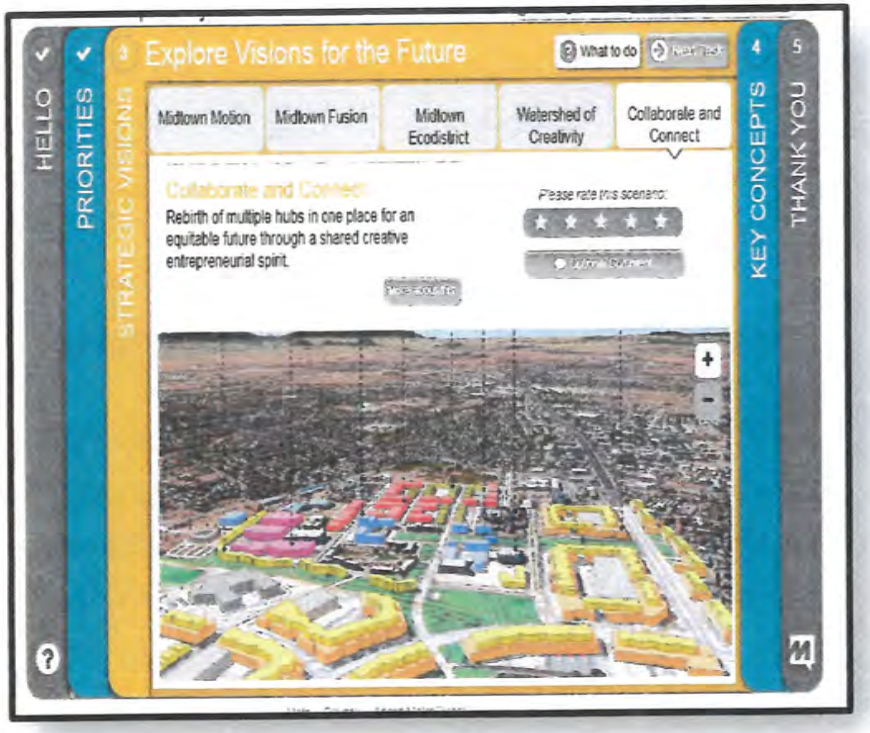
Connectivity

Physically: Enhance how people can get to and from destinations in and around the site. Make this efficient and enjoyable.

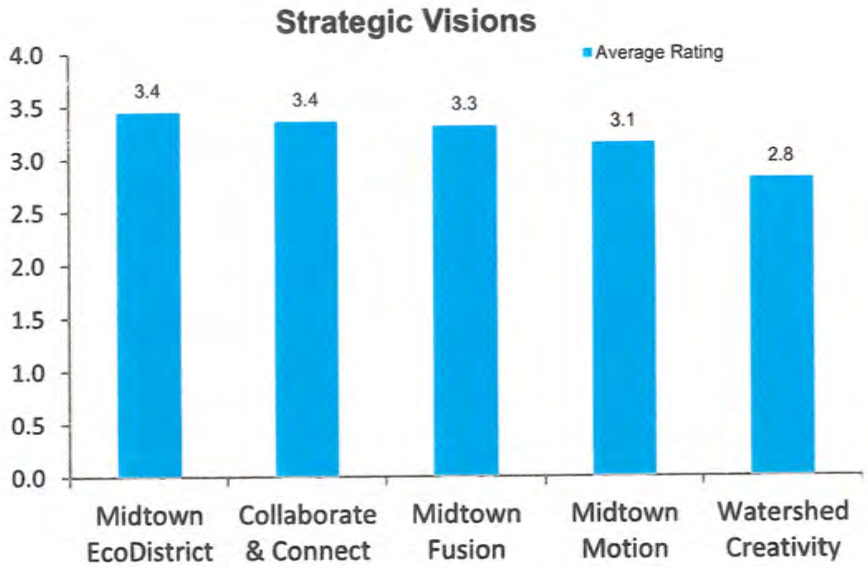
Quantitative Research – Evaluation Phase

1 - Category Ranking Results

Lower score is better. People were asked to rank on a scale of 1 – 5 with one being highest priority.



There is not a significant spread between the best (2.6) and the worst (3.3), indicating that all categories are valued highly to moderately high. This is not surprising since these categories were derived from the research in the Collection Phases of this process, as well as from information gathered in prior research such as RE:MIKE, Culture Connects and NCS.

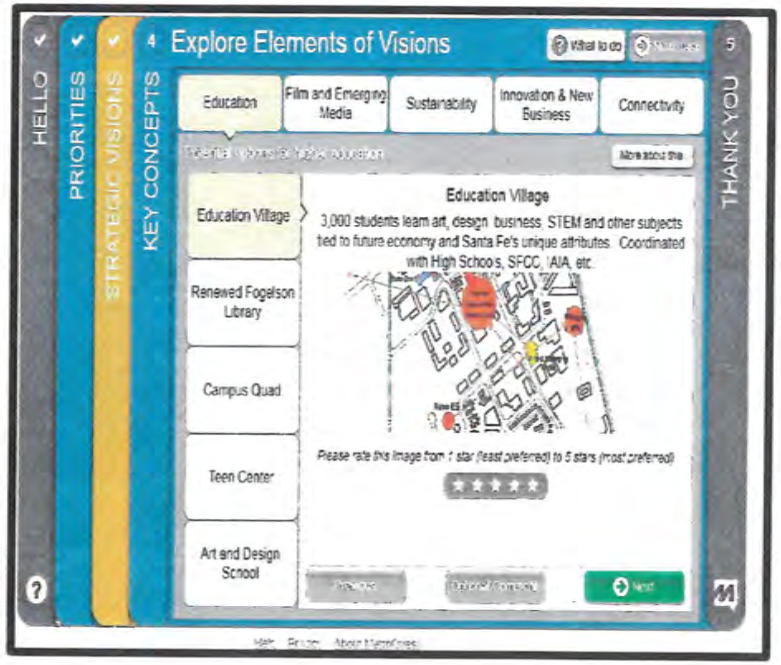


Quantitative Research – Evaluation Phase

2 - Concept Rating Overview and Results

After ranking the Categories, participants were invited to rate and comment on each of the five visual concepts developed during the Visioning Phase. In this case, higher the score is better.

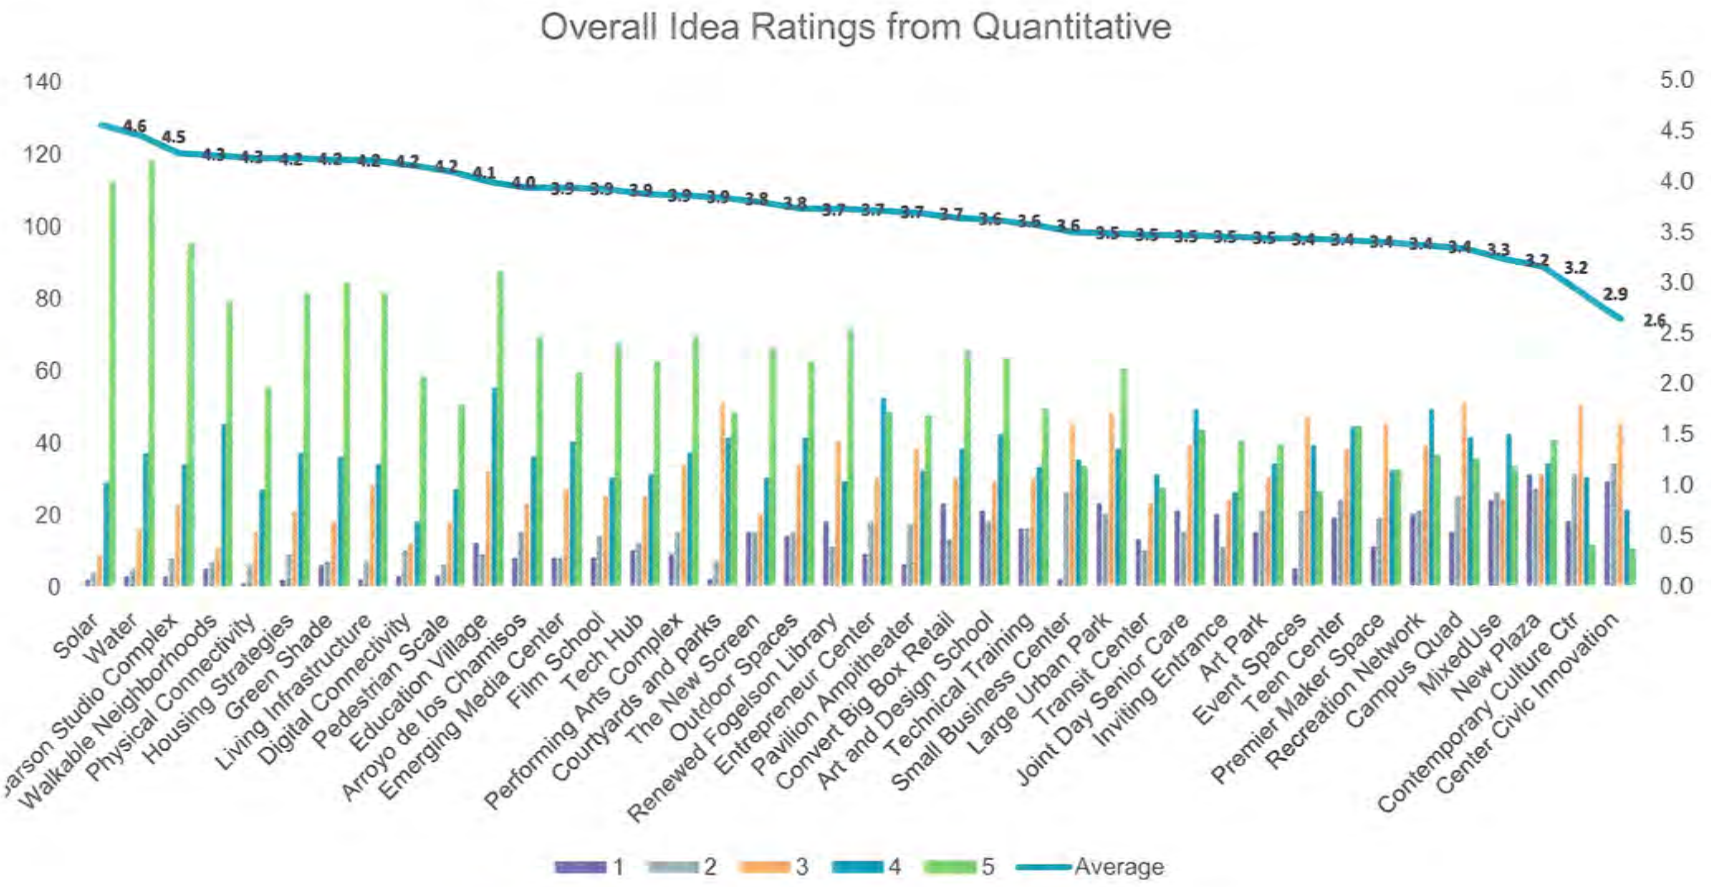
The visual concepts served as a basis for a dialogue around possibilities, compromises, principles, needs and aspirations for the Property and surrounding areas.



Any score above 3 is considered favored or strongly favored. The maximum score possible is approximately 3.8. Only Watershed Creativity concept scored below 3.

Quantitative Research – Evaluation Phase

3 - Individual Element Rating Overview



After rating the five Concepts, participants were invited to rate and comment on specific elements from the designs. In total, there were 40 elements to rate.

The following four slides show the results of the survey.

Quantitative Research – Evaluation Phase

3 - Individual Element Rating Results – Summary

- Ideas scoring 4.0+ are considered top priorities. Those rating 3.5-3.9 are preferred.
- "Sustainability" and "Film & Emerging Media" rated below "Education" as the top categories, however, some of the individual elements of those categories were in the top tier of preferred uses.

Quantitative Research – Evaluation Phase

3 - Individual Element Rating Analysis – Top Priorities

- **Solar and water (4.5).** To maintain sustainability and drive innovation in the industries (4.4).
- **Capitalize on Garson Studios (4.3)** Can be integrated with emerging media center (3.9) and/or film school (3.9).
- **Green shade and living infrastructures promoting community interaction (4.2).** Preserve and integrate Arroyo Chamiso (3.8). May include signature feature of a large urban park (3.5) and variety of outdoor spaces (3.6)
- **Walk-able neighborhoods and pedestrian scale (4.2).** Ample physical connection to surrounding areas. Moderate to high desire to convert big box retailers to change current landscape, preventing area from becoming a generic without unique Santa Fe characteristics (3.6).
- **Variety of housing strategies (4.1).** Avoid displacement. Promote social equity and prosperity. Support on-site uses such as housing for all students.
- **Digital connectivity (4.1)**
- **Higher education village capitalizing on Santa Fe's assets, resources and culture (4.0)** We did not test all curriculum subject areas. Film school (3.9) and Art & Design rated (3.5) as preferred.

Note: Some ideas are related and, therefore, merged for presentation purposes. Example Solar and Water are both related to sustainability

Quantitative Research – Evaluation Phase

3 - Individual Element Rating Analysis – Next Tier of Preferred Priorities

- **Tech hub that may include business accelerator, financing organizations, new & existing businesses and/or onsite tech transfer services tied to NM labs and universities (3.9).** Consider integrating
  - Entrepreneurship Center (3.6) and Small Business Center (3.4) to create opportunities, diversity and grow of both local and export-based businesses.
  - Technical Training Center (3.6) to increase possibilities for young people without duplicating efforts with SFCC.
  - Premier Maker Space (3.4) that can also serve educational needs
- **Add one or more multi-use buildings to expand performing and visual arts currently available at Greer Garson Theater and SFAI (3.8).** Add one or more multi-use buildings to expand performing and visual arts currently available at Greer Garson Theater and SFAI a well as create outdoor performance space. Possibly modernize The Screen (3.8) to take digital films and improve sound quality.
- **Renewed Fogelson or other 21st Century Library (3.7)**
- **Incorporate variety of courtyards and parks (3.6),** outdoor spaces (3.6) and a pavilion amphitheater (3.6) to enrich residential life and activities in a centrally located area.
- **Transit center to promote a greater variety of mobility (pedestrian, sharing, electric, biking, public) and access to site activities (3.5).**

Quantitative Research – Evaluation Phase

3 - Individual Element Rating Analysis – Bottom Tier

Not Desired for Property Unless Integrated with other Priorities

- Joint Senior and Child Day Care Center (3.4)
- Inviting Entrance that makes the campus visible and easily accessible by car, bus, bike, foot (3.4)
- Art Park: Variation of large urban park with emphasis on artwork and art events (3.4)
- Teen Center: Innovation center, mentorship programs, job preparation, internship placement and/or a variety of skills training (3.3)
- Premier Maker Space: Some residents concerned about competition with MakeSF (3.3)
- Recreation Network: Variety of indoor and outdoor fitness and athletic venues (3.2)
- Campus Quad and/or New Plaza(3.2)
- Mixed-use housing located on St. Mike's or Cerrillos with commercial on ground floor and housing above (3.3)
- Contemporary Culture Center: residents value more democratic community activities, yet an additional cultural center or museum is seen as redundant in Santa Fe (2.9)
- Center for Civic Innovation (2.6) making government more accessible is , "nice to have" but not a priority (2.7)

Quantitative Research from Collection Phases

Additional Non-desired Uses for the Property

The following were not specifically tested in the Evaluation Phase. However, some of the visual concepts included one or more of these, none of which resulted in any measurable positive support.

- Homeless shelter, although workforce training for homeless was positively identified
- New City Hall
- Consolidating portion of city government offices
- Dog park
- Office space, unless it is tied to specific strategic objective like expanding film business
- Substantial retail
- Significant single family housing development

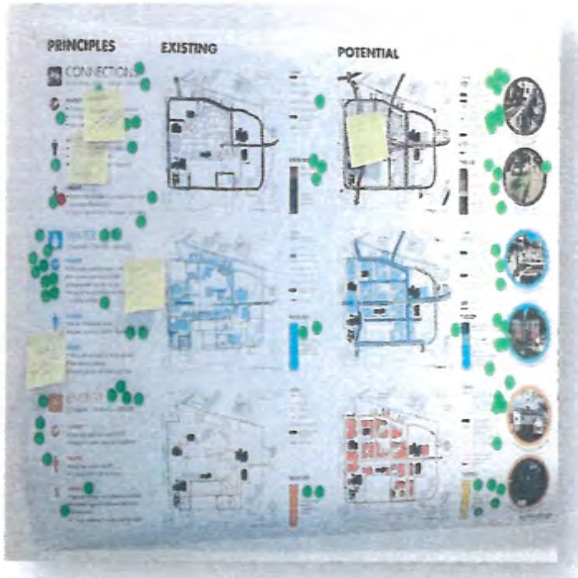
Qualitative Research – Evaluation Phase - Overview

In-person events to engage residents with designers and each other to have deeper conversations on preferences and concerns

At the three in-person events, participants were invited to write comments on post-it notes and to use green (positive) and red (negative) stickers to indicate elements of the concepts they liked or disliked. They also were able to vote on their overall favorite concept.

We tabulated and grouped all of the stickers, and read all of the comments, in order to identify areas of passion or concern.

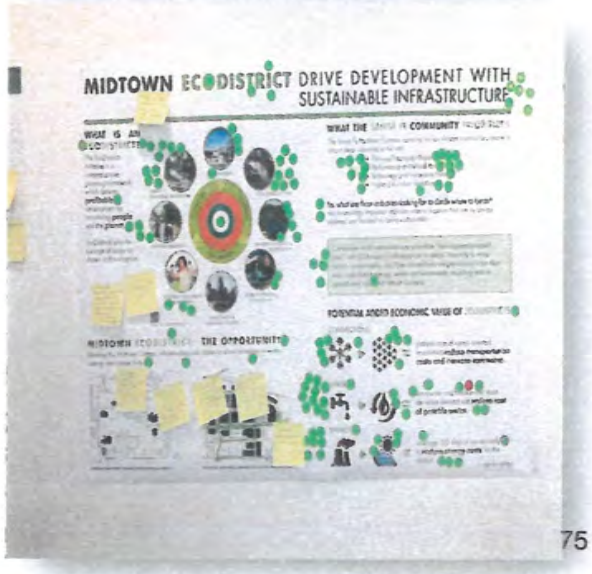
All of this is qualitative data. The primary value of this information was to add details and context to the quantitative data we collected as described in prior slides.

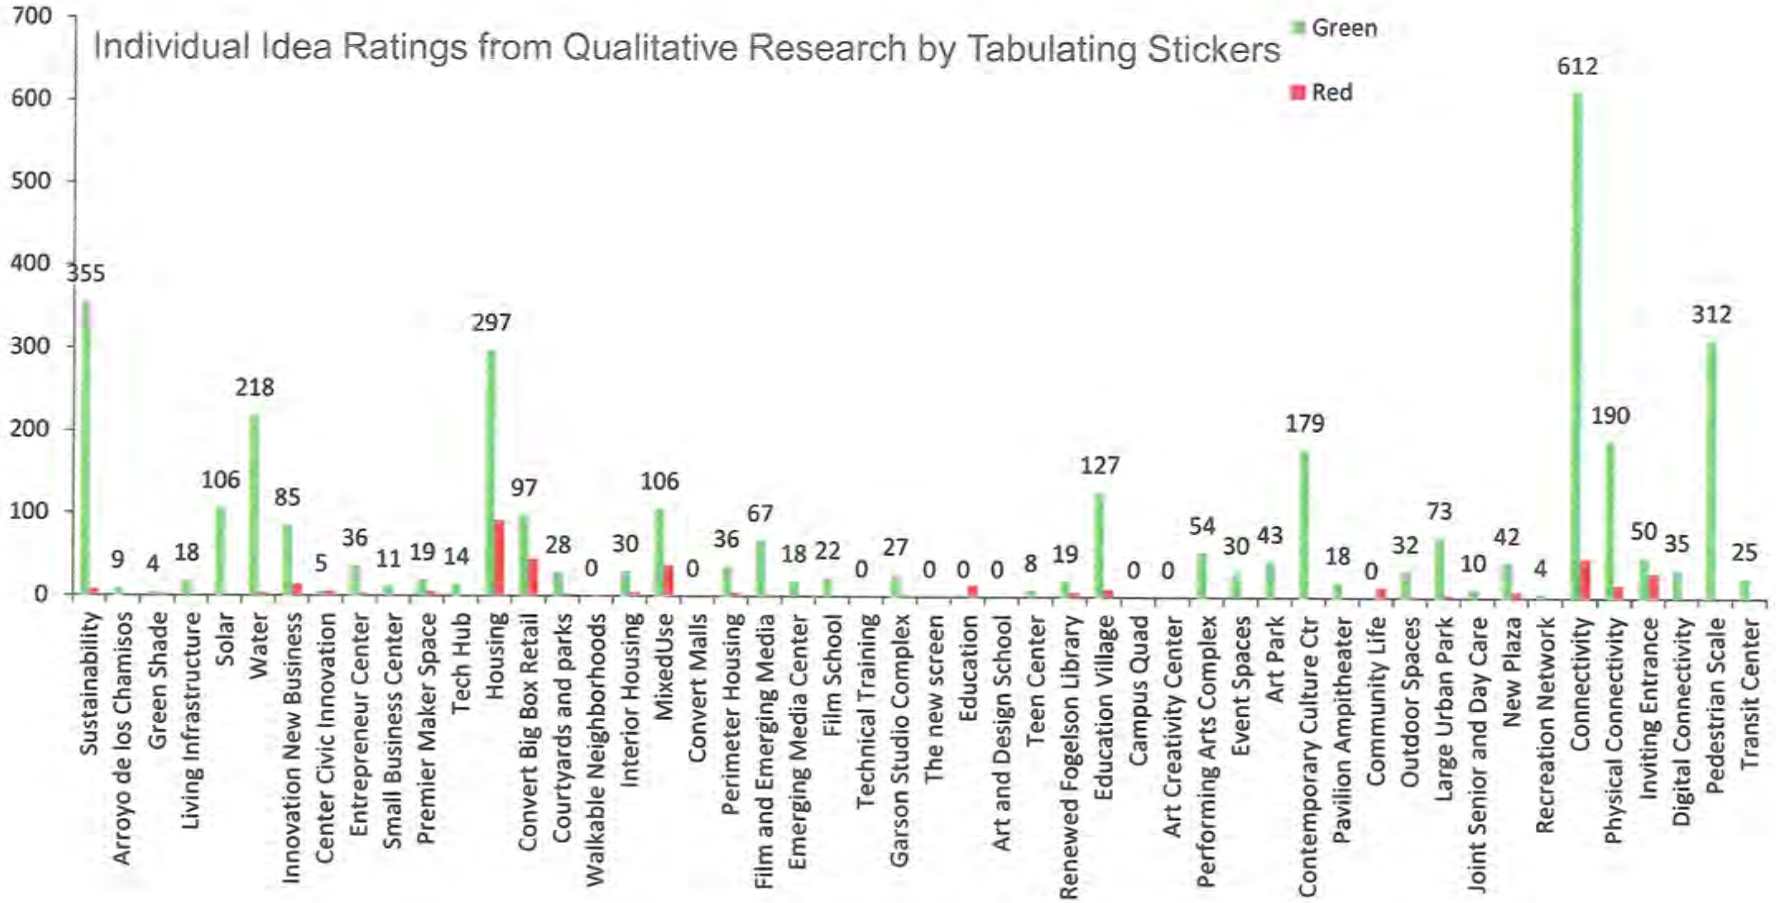


74

Qualitative Research – Evaluation Phase

Samples of in-person feedback





75

Qualitative Research – Evaluation Phase – Stickers Tabulation

Individual Elements - Summary: Desired (Green) and Undesired (Red)

Qualitative Research – Evaluation Phase – Stickers Tabulation

Individual Elements - Analysis and Priorities

Sustainability (355): Solar (106) & Water (218)

Connectivity (319): Physical (190), Inviting/grand entrance (50/30), Digital (35. This is a low number but many comments that is a "no brainer")

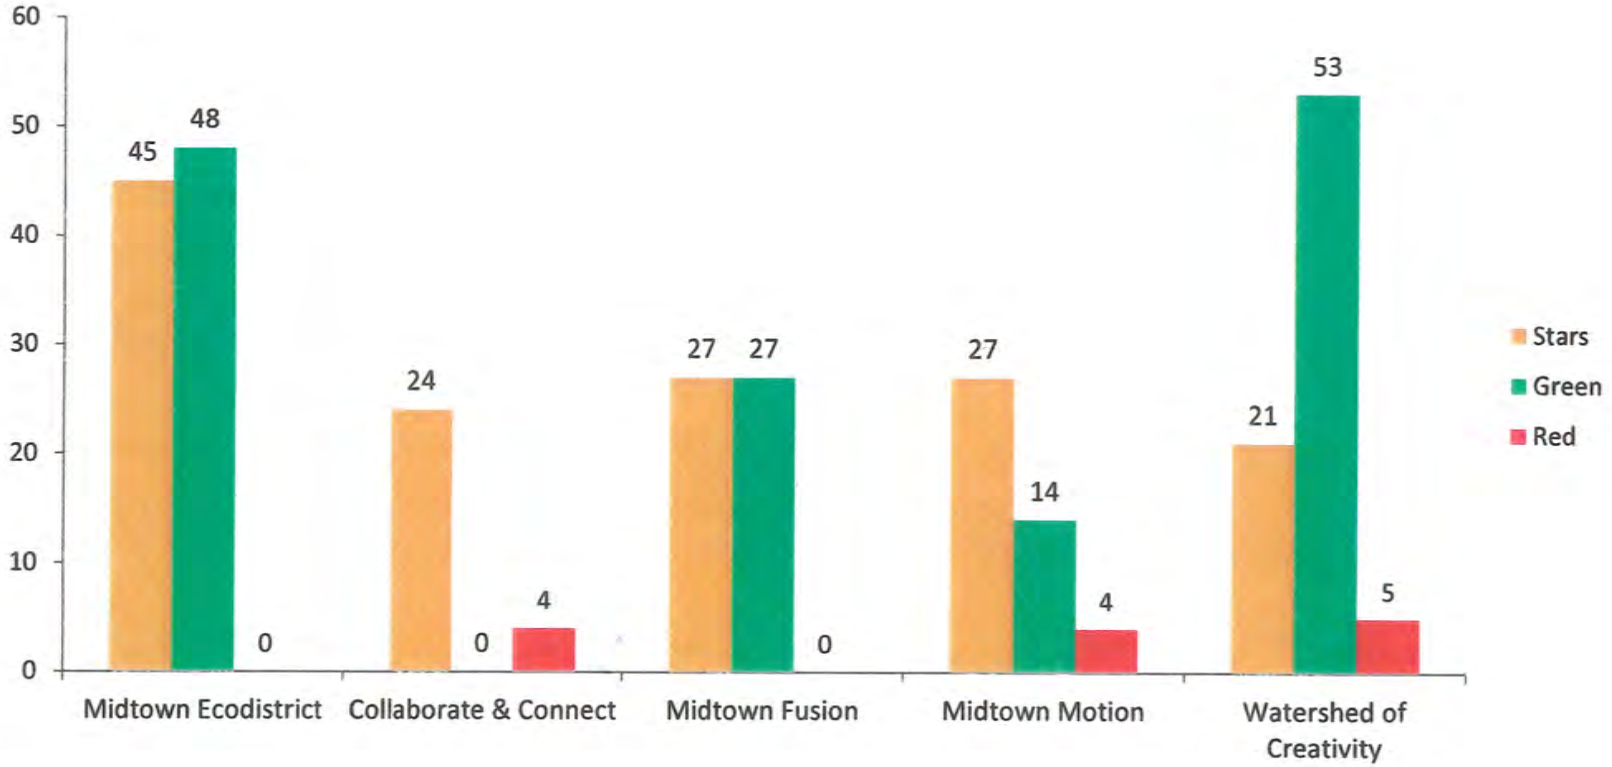
Housing (297): Perimeter housing (36). Possibly convert malls to high density housing and parking (97/44), and develop mixed-use buildings which are apartments and/or condos above commercial use on ground floor (106/37)

Community Life (161): Large urban park (73), variety of outdoor spaces (32), new plaza (42/7). See Midtown Fusion and Collaborate & Connect for examples of large urban parks.

Art & Creativity Center (145): Performing arts complex (54); Art park, which is derivative of the larger urban park proposed in Midtown Fusion (43); Variety of indoor and outdoor event spaces (30)

Film & Emerging Media (127): Expand Greer Garson Complex (87), Film School (22)

Education (101): Higher Education Village (74), Fogelson as 21st century library (19/5)



Innovation & New Business (85): Entrepreneur center (36), Tech Hub (14)

- The numbers are skewed in favor of the top items in part because two concepts were primarily about sustainability, and all concepts addressed the importance of connectivity/integration with surrounding neighborhoods and Santa Fe at large.
- If there is a single number, it indicates high, positive interest. If there is combination (ex: 106/37), it indicates an element that is desired, but potentially controversial because of ratio of green to red dots.

Qualitative Research – Evaluation Phase – Stickers Tabulation

Favorite Concept Voting

People were given stars to vote on favorite overall concept. They also used green and red dots to express additional support as well as red dots to express dislike of overall concepts.

Qualitative Research – Evaluation Phase – Comments from Post-Its

Comments were organized into the five themes developed at the conclusion of the Collection Phases.

1. Higher Education
2. Center for Entrepreneurship
3. Film and Emerging Media
4. A New City Center
5. Center for the Arts

All comments were documented, read, categorized and analyzed.

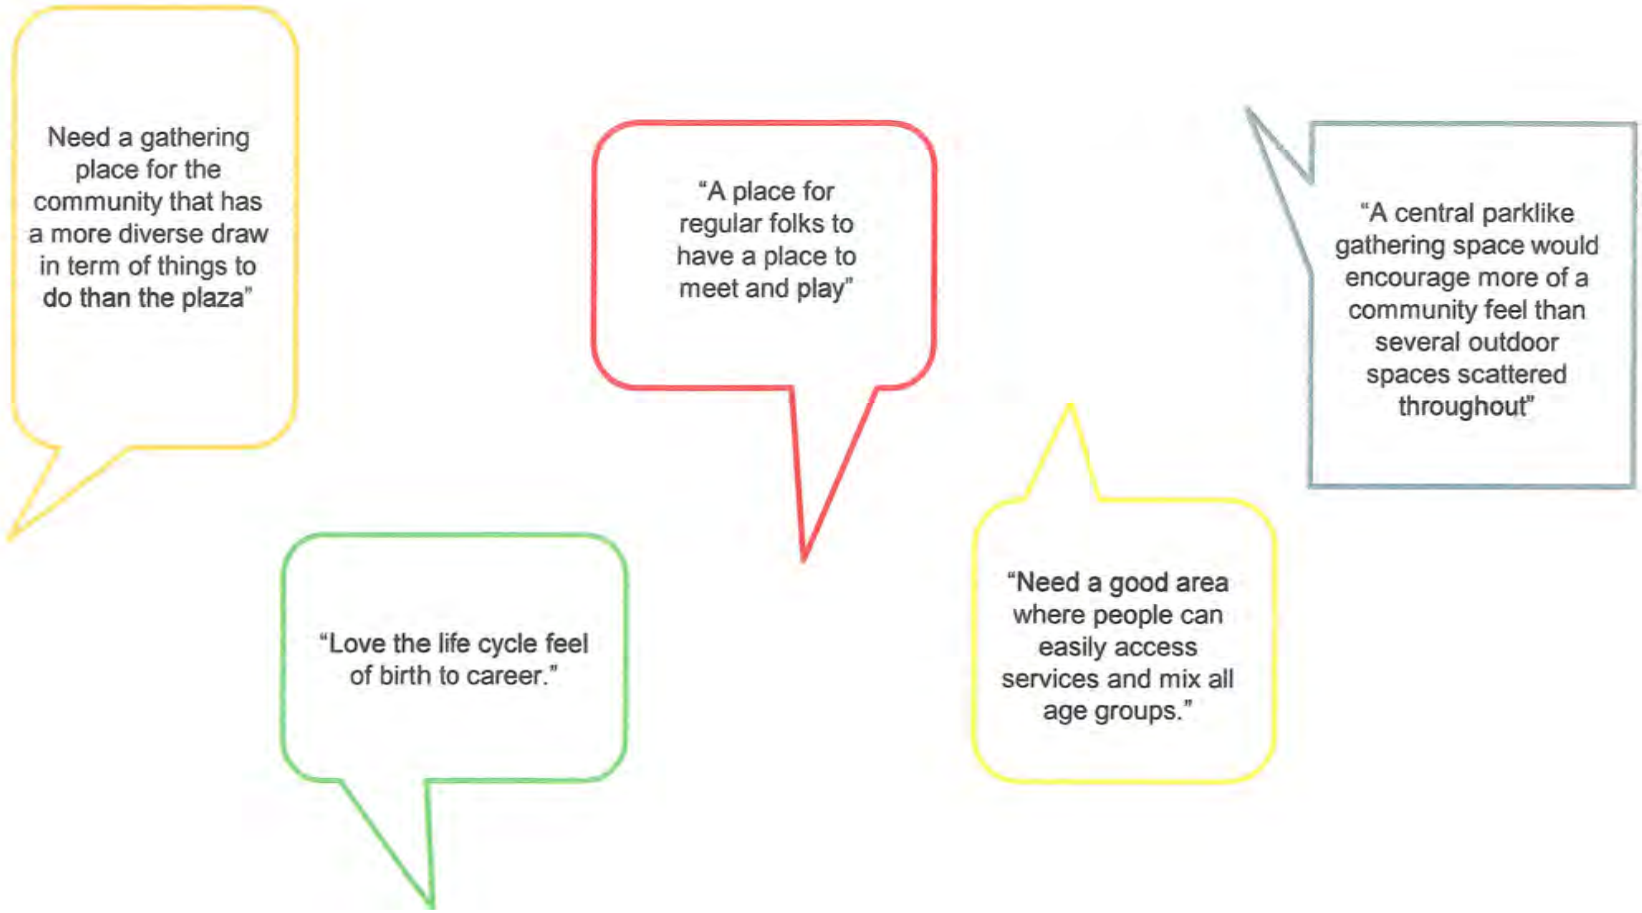
Representative quotes are on the following five slides.

1. Sustainability - comments which exemplify most residents opinions

2. Connectivity - comments which exemplify most residents opinions

3. Housing - comments which exemplify most residents opinions

"Just because you can go 5 stories does not mean you should. Santa Fe is known for its views."



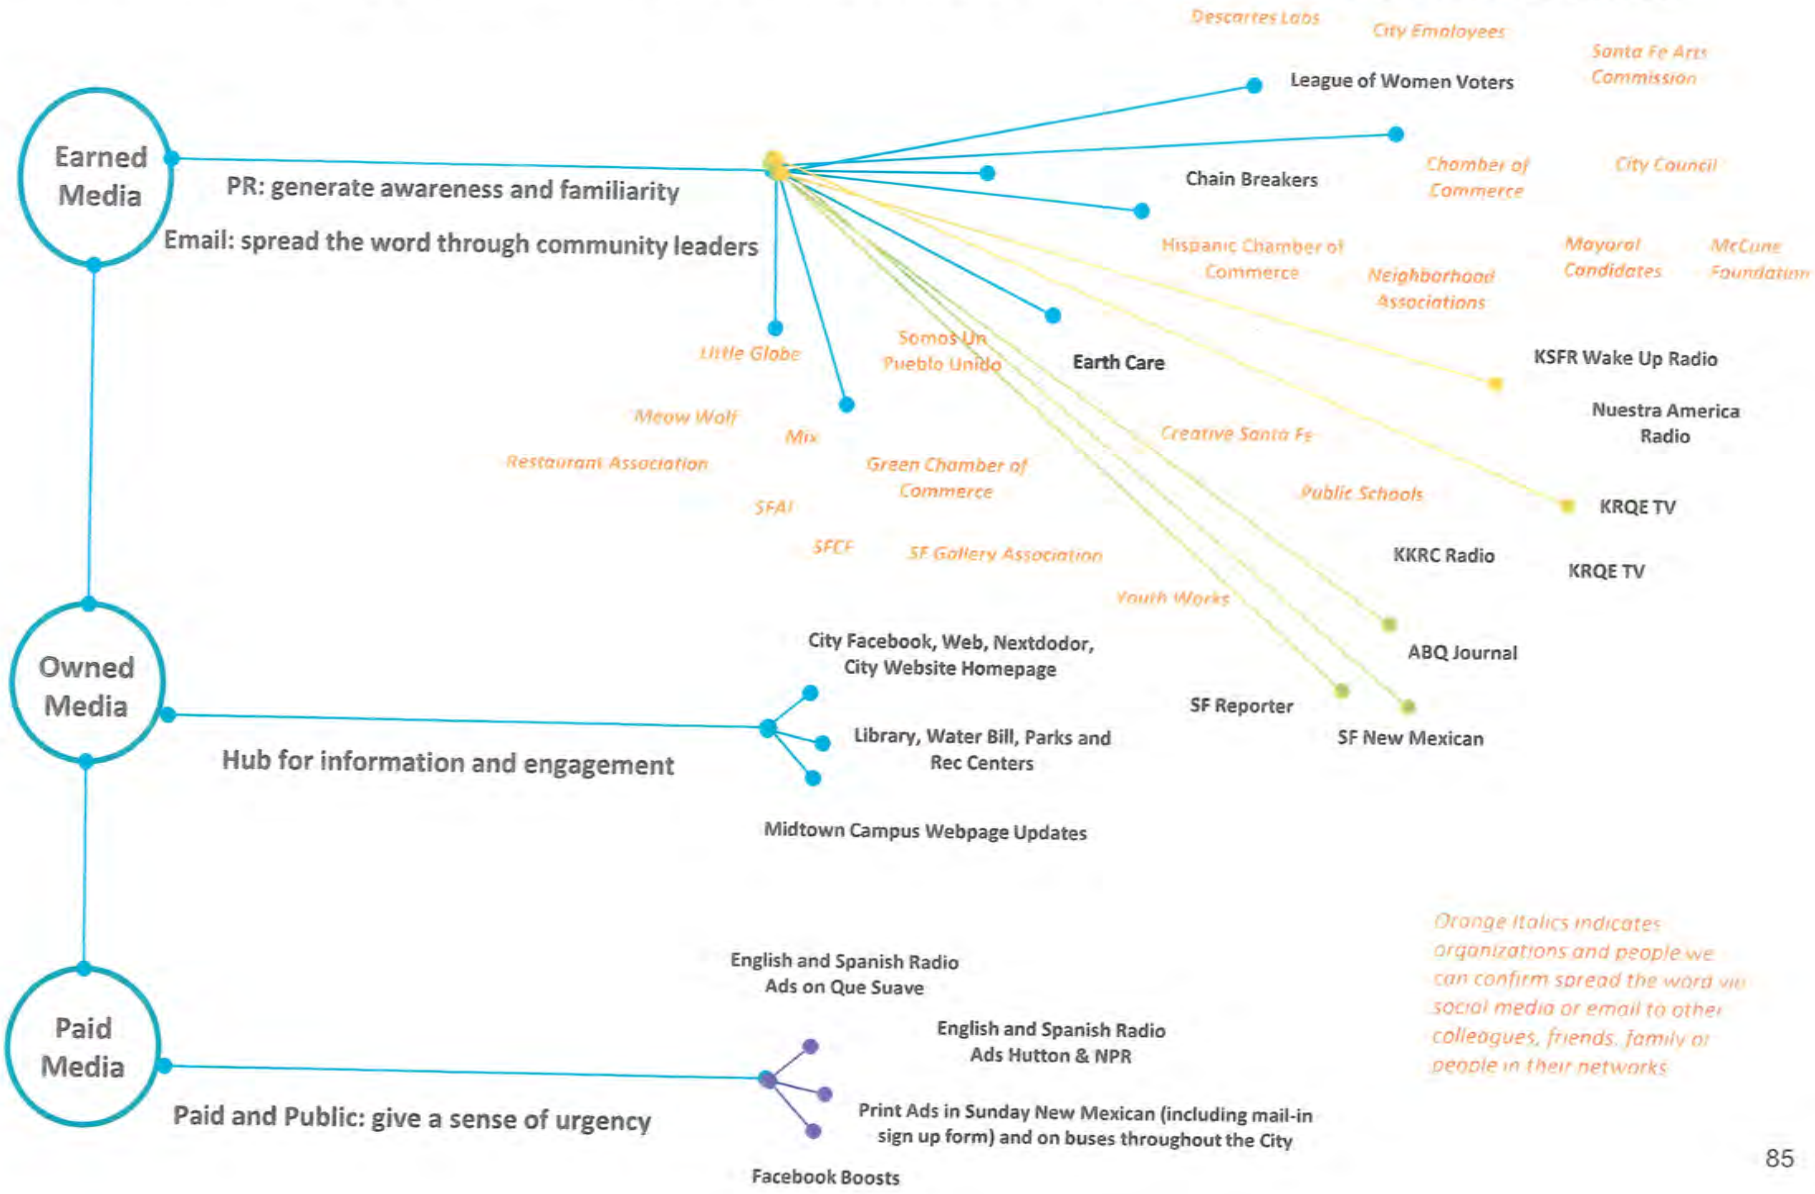
"It is ok to use different parts of the campus for different things. Let's use each of its buildings purpose for that purpose.

"Mixed use, rentals, affordable housing; all to be done to maximize payment of city debt."

"Displacement is a huge issue."

"While affordable housing is imperative, this project should be viewed only as a very small, partial solution inside a much larger city redevelopment/housing plan."

4. Community Life - comments which exemplify most residents opinions



5. Art and Creativity Center - qualitative comments which exemplify most residents opinions

Outreach – Evaluation Phase

Included more paid media and increased earned media via interviews

Next Steps are Planning and Implementation

Planning Stage - Overview

The Midtown Campus Project culminated in the development of strategic Planning Guidelines. These set forth the guiding principles, vision and prioritized uses for the Property.

They will be used by the Governing Body, City Staff and any vendors, partners or other stakeholders to guide decision-making regarding planning for and implementing any plans or other activities related to the use and development of the Midtown Property. This includes the on-going management of the Property unless or until another party is responsible for such management.

It is anticipated that the Governing Body will adopt the Planning Guidelines in July 2018, and direct City Staff to being the Planning Stage in August 2018.

The Planning Guidelines will be found at https://www.santafenm.gov/midtown_campus_project.

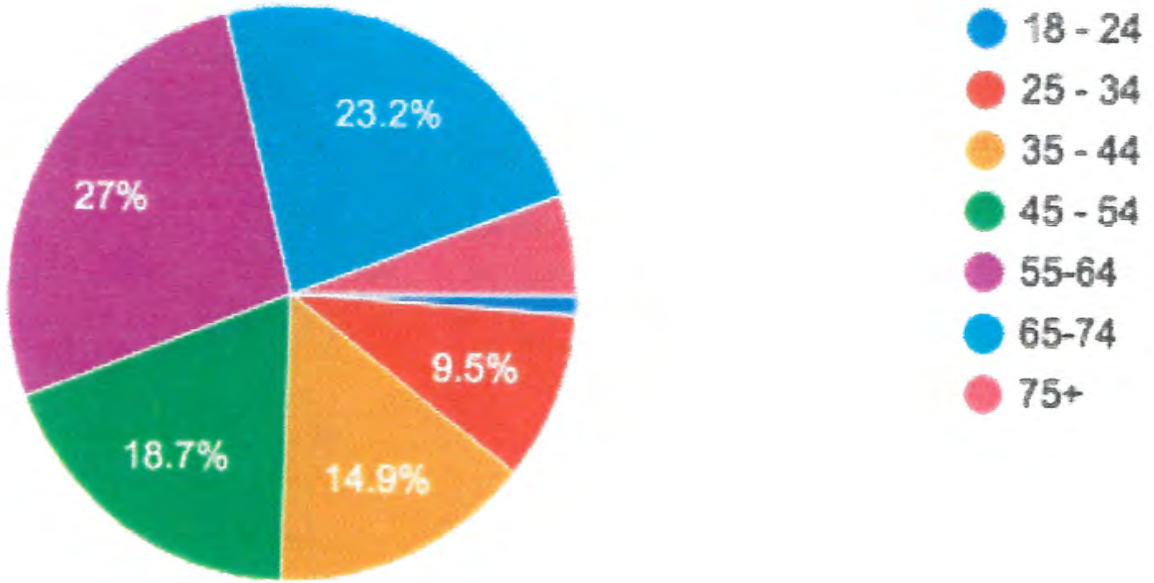
Collection Phase I & II : Demographic and Geographic Analysis

The following eight slides provide additional detail on the demographics and geographic profile of the participants in our Collection Phase I & II.

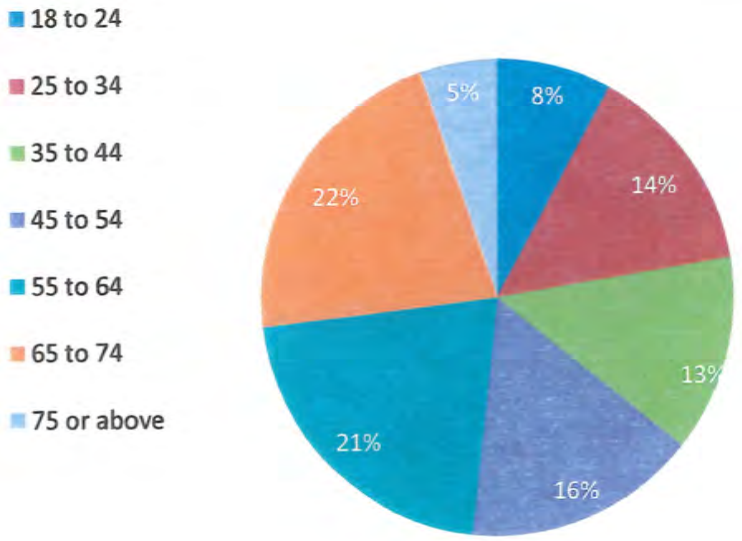
We conducted a variety of comparisons such as local neighborhoods to remainder of City, each district to the other, Hispanics relative to non-Hispanics, and low income relative to high income for Collection Phase II. In each instance, there was not statistically meaningful difference among any group versus another .

There are some slight differences which are summarized on following slides.



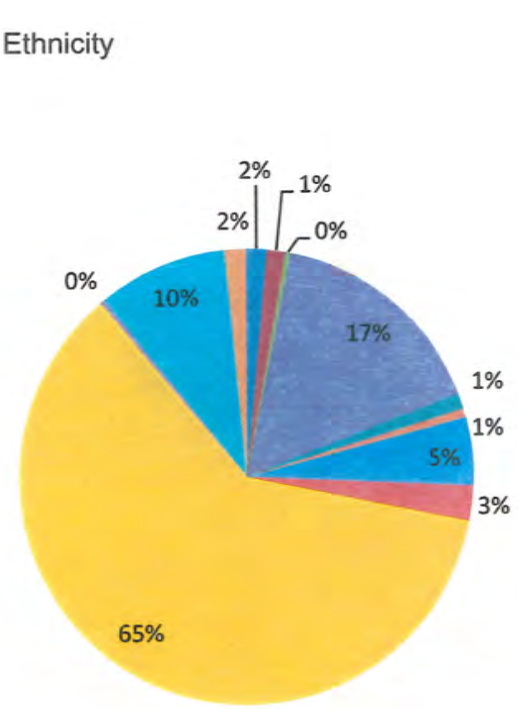
Collection Phase I: Ideation Session Demographics

Collection Phase I: Ideation Session Demographics

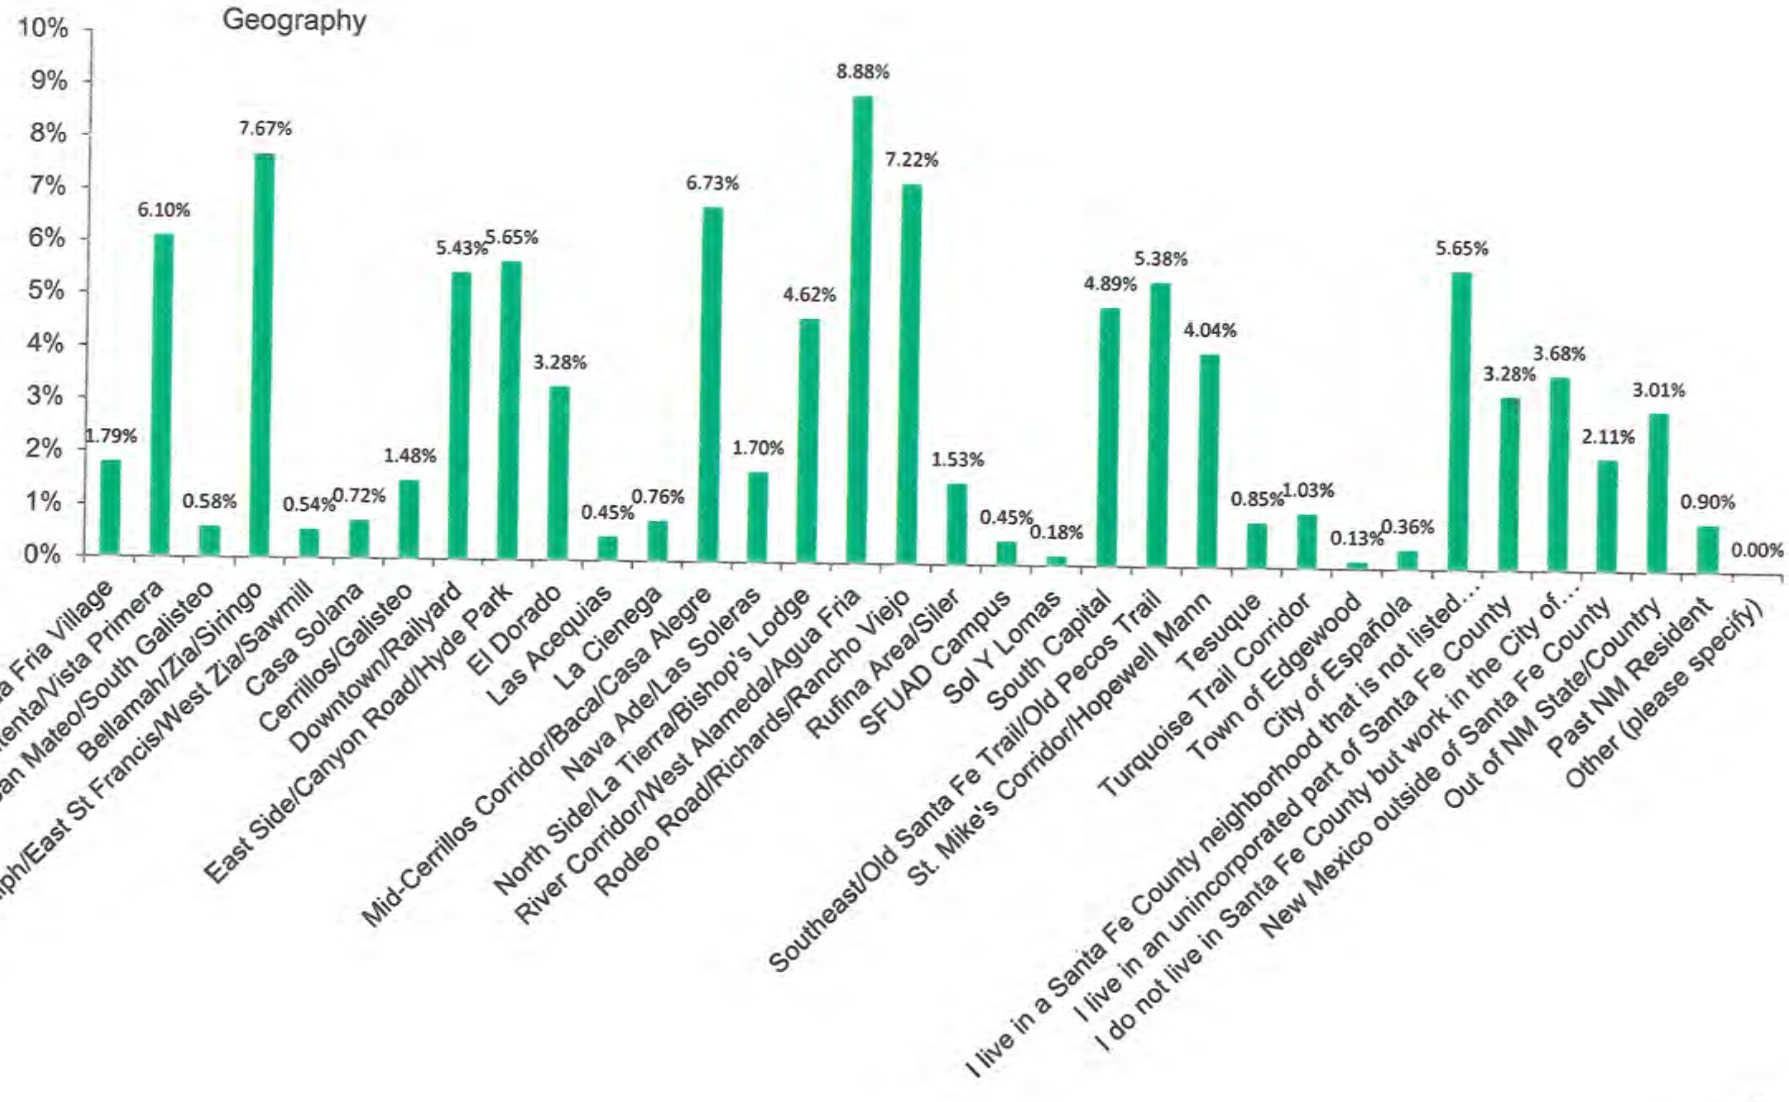


What is your age?

444 responses



Collection Phase II: Rating and Ranking Survey Demographics



Age

Ethnicity

Collection Phase II: Rating and Ranking Geography of Participants

Collection Phase II: Rating and Ranking Income Distribution of Participants

Collection Phase II: Neighborhood Variations

There is very little difference between the local neighborhoods and the community at large.

The immediate neighborhoods next to and residents living on SFUAD tend to Rate a use slightly higher than the norm, perhaps suggesting more overall enthusiasm for improvements to the Property.

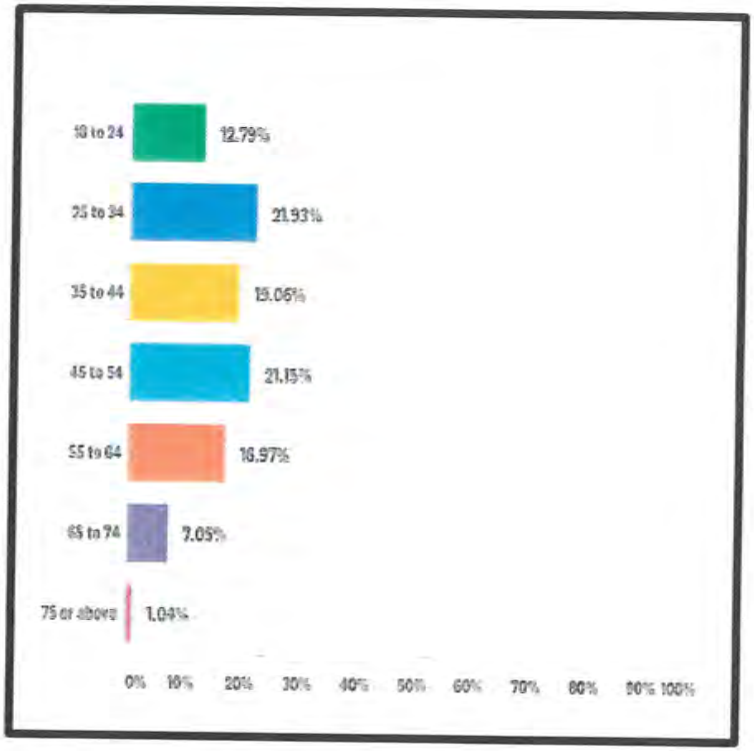
Relative to all other participants, the neighbors and SFUAD residents had 9 of the same top 10 in Ranking.

- More strongly favored the Library (Rated 7.3 out of 9) than other residents (6.8).
- Favored local retail more strongly than the norm, but still was neutral on that use for the property.

Collection Phase II: Age Variations - Under 35 Compared to 55-74

Under 35 slightly favored the following more than the norm

- Higher Education: 4 year college, 2 year college and post-graduate
- Maker Space



Under 35 disfavored moving Gov't Offices and creating Office Space even more than older participants.

Each age demographic (18-24, 25-35, so on) slightly favors Open Spaces more than the prior age group.

Collection Phase II: Ethnicity Variations - Hispanic/Latino to All Others

Hispanic and Latino:

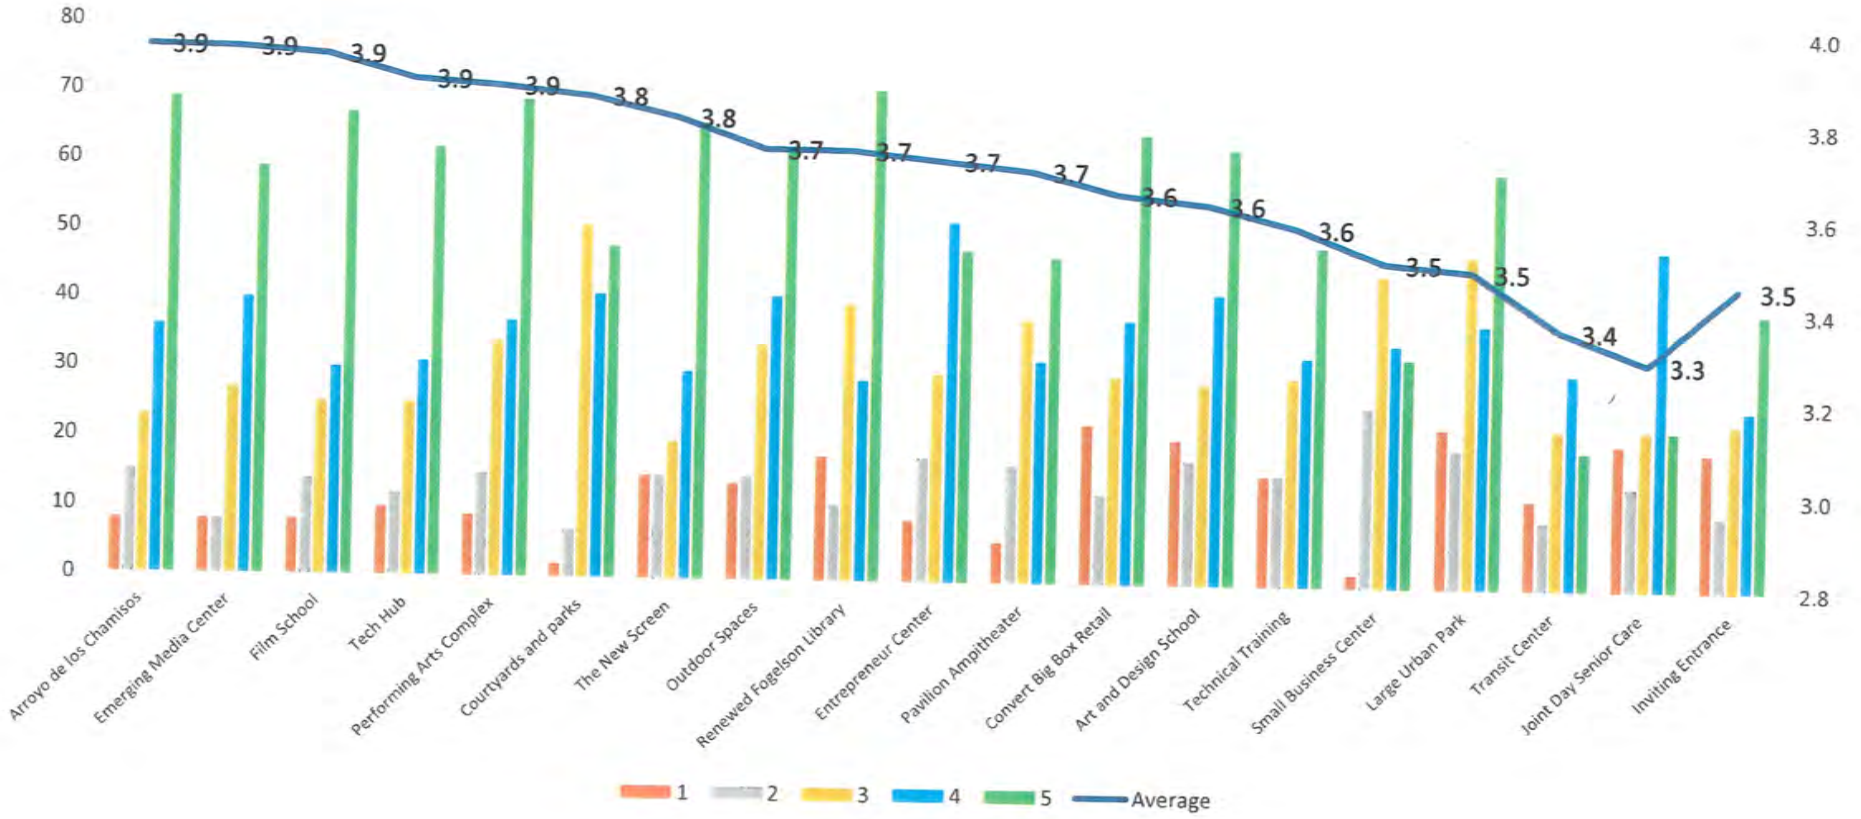
- Strongest group in favor of Higher Education, including ranking Post-Graduate and 2-Year College in the top ten. But, still only slightly higher than all other participants.
- Ranked Workforce Housing 4 levels below the average.
- Significantly lower on Live/Work Housing than rest of respondents.
- Somewhat lower on Co-Working and Community Garden.
- Younger on average than all respondents.

Collection Phase II: Additional Voting on General Features for the Property

Feature	Strong Support
Make and maintain property clean and in good shape	67%
Promote environmental sustainability, such as adding solar power and/or new water reclamation systems	59%
Make property more beautiful such as nicer entrance, trees and green spaces	47%
More bike and pedestrian friendly	47%
Keep and/or increase public art	43%
Promote social equity such as job training in commercial kitchen, improved public transportation to property, increased access to services from city and/or nonprofits	34%
Increase physical connection to the surrounding areas such as a more visible entrance and easier access to local shopping centers on St Michael's and Cerrillos	33%

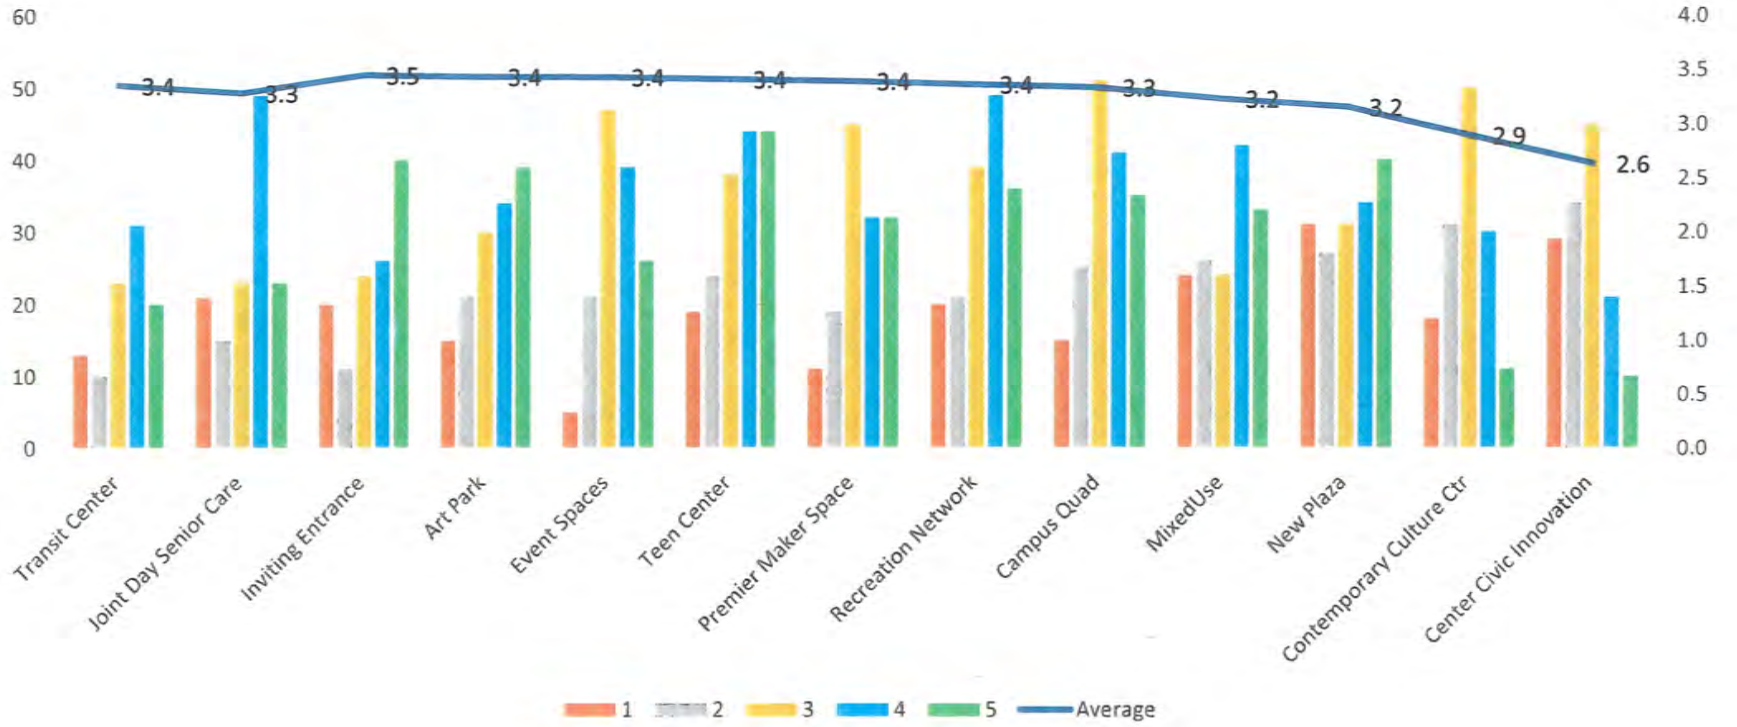
Collection Phase II: Additional Voting on Education

If the campus includes an educational component, residents prioritized the optimal focus as follows



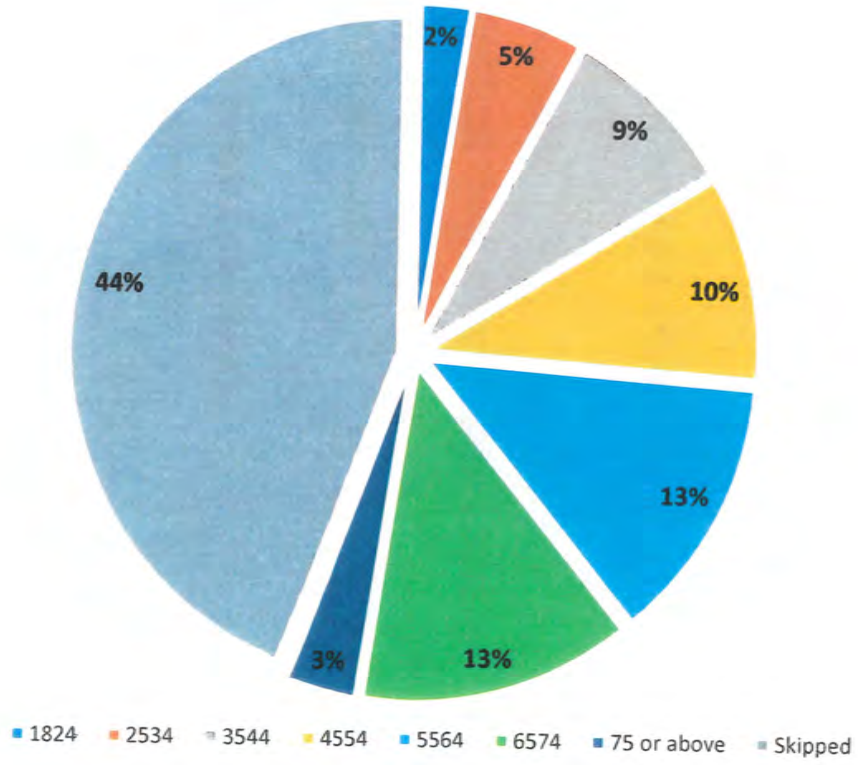
Educational component	Important or Very Important
Film and Media including movie, TV, video game, and virtual reality production, design, development	83.69%
Art and Design including fine art, performing art, curation, architecture, graphic design, web design	78.51%
Wide range of vocational training and certification such as electrician, carpentry, 3D printing, project management, set design, hospitality, advanced manufacturing	74.61%
Science, technology, math and/or engineering	68.50%
Liberal arts including history, philosophy, literature, geography, psychology	60.76%
Business including entrepreneurship, general management, leadership, project management	59.84%
Healthcare, medicine and/or wellness	58.98%

Evaluation Phase - Quantitative Results: Top Priorities Graphed

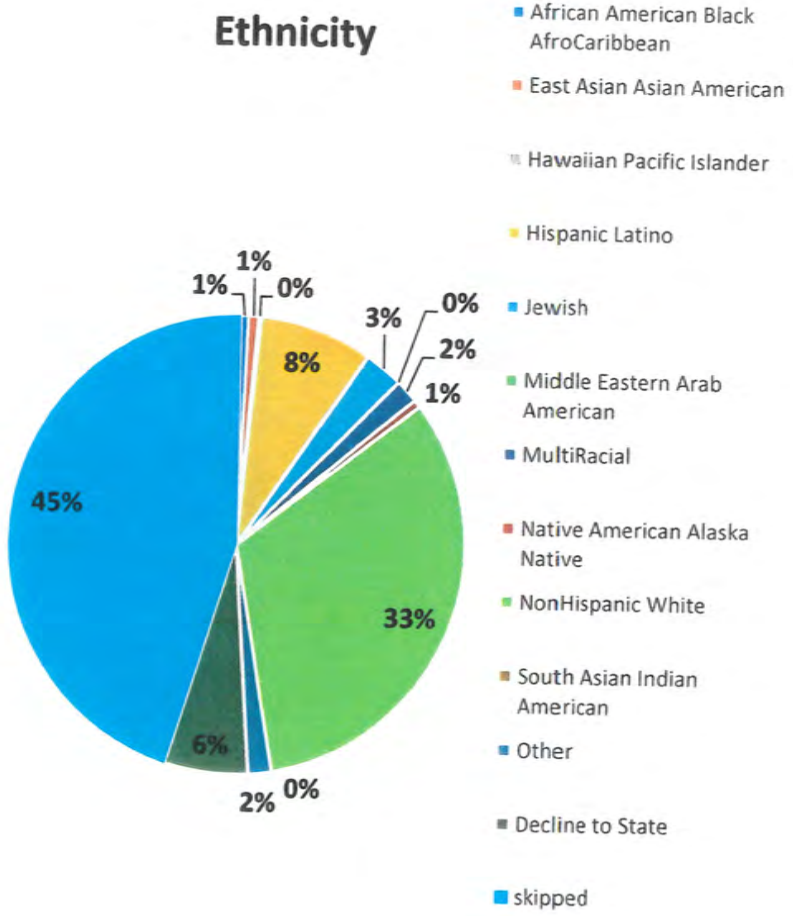


Top Rated Individual Elements – Higher Averages are Better as people were asked to rank on a scale of 1- 5.

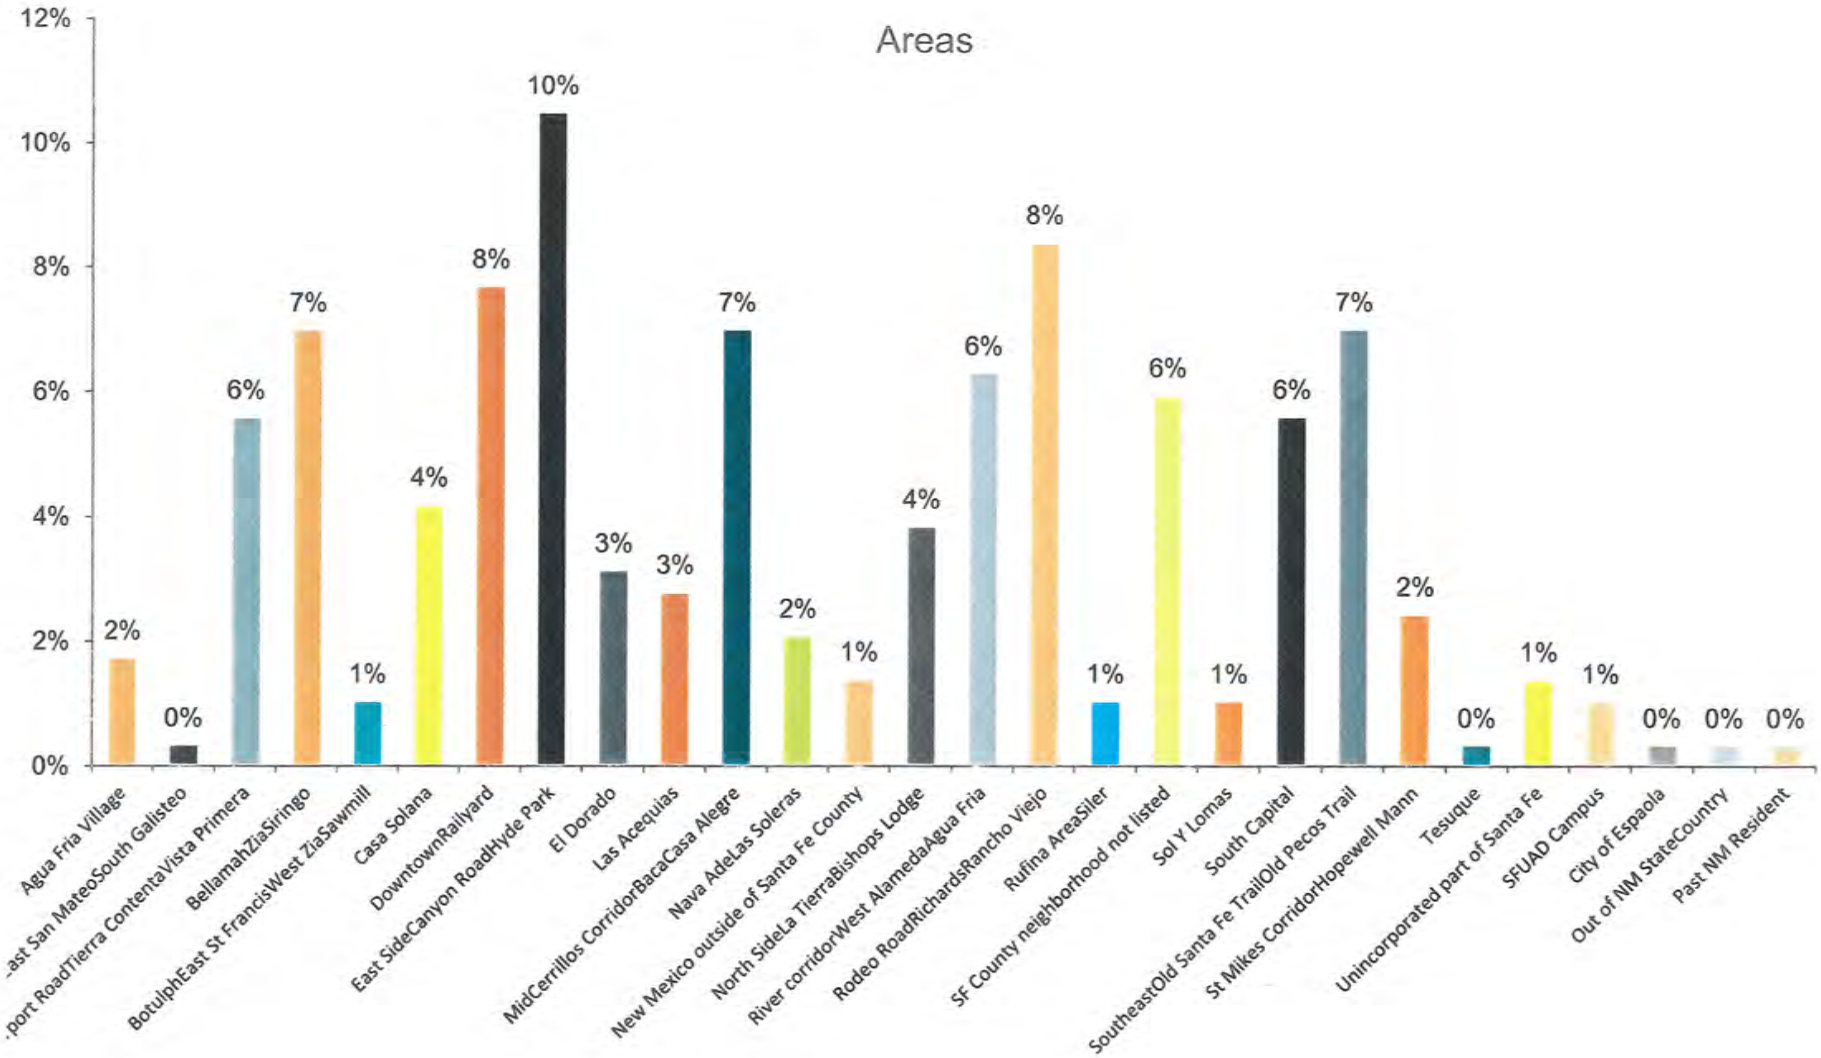
Evaluation Phase - Quantitative Results: Second Tier Priorities Graphed



While these were not in the top tier of voting, they represent desired uses for the Property or perhaps for expansion into the Midtown LINC.

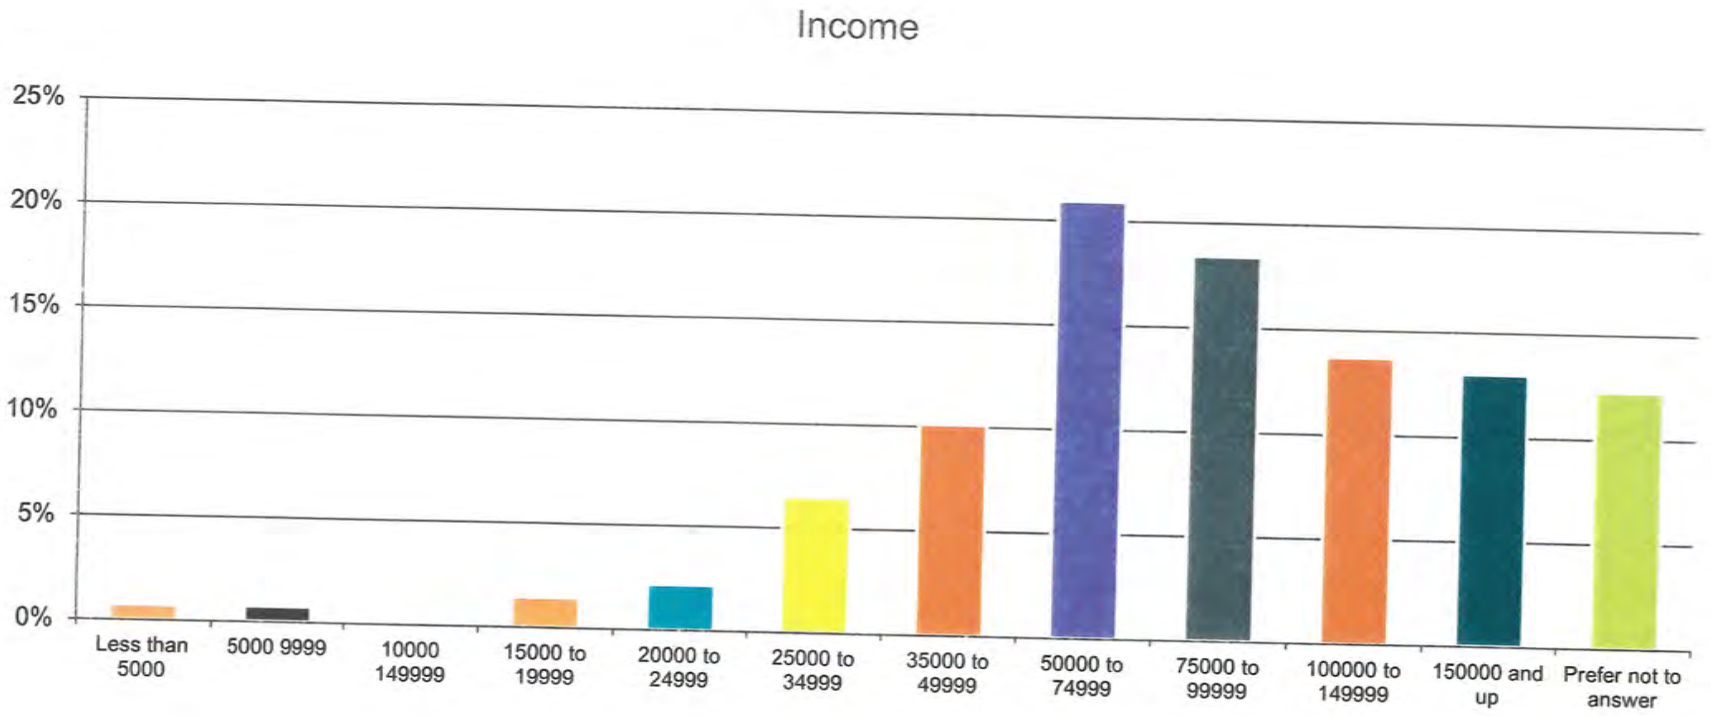


Evaluation Phase - Quantitative Results: Lowest Tier Graphed

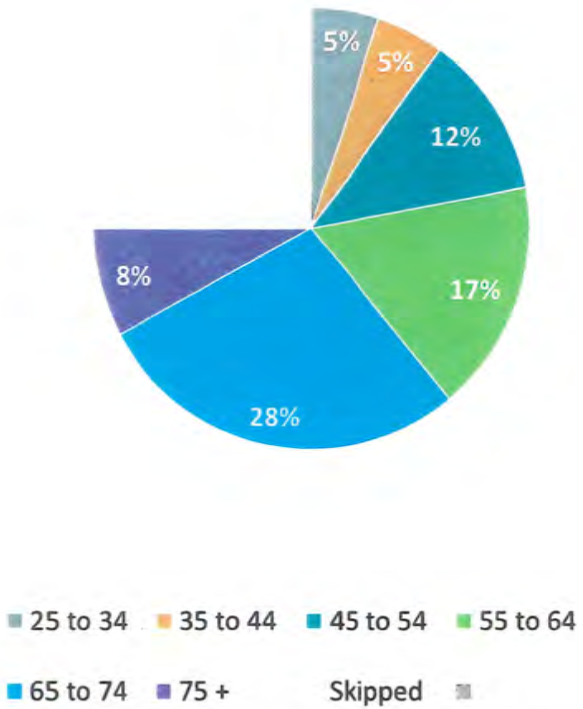


Lowest Level Individual Elements – Higher Better (1-5) All of the following rated below 3.5. Anything below 3.0 considered to be undesired for the Property. While they may be valued, not at the expense of higher preferences.

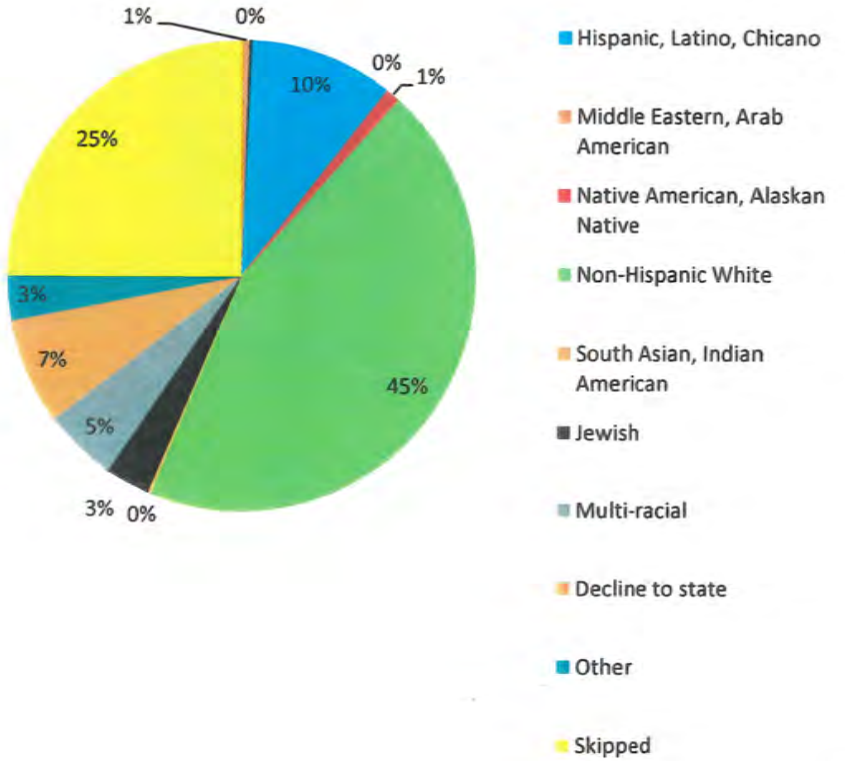
Evaluation Phase: Quantitative Demographics - Age & Ethnicity



Evaluation Phase: Quantitative Demographics - Geographic Areas

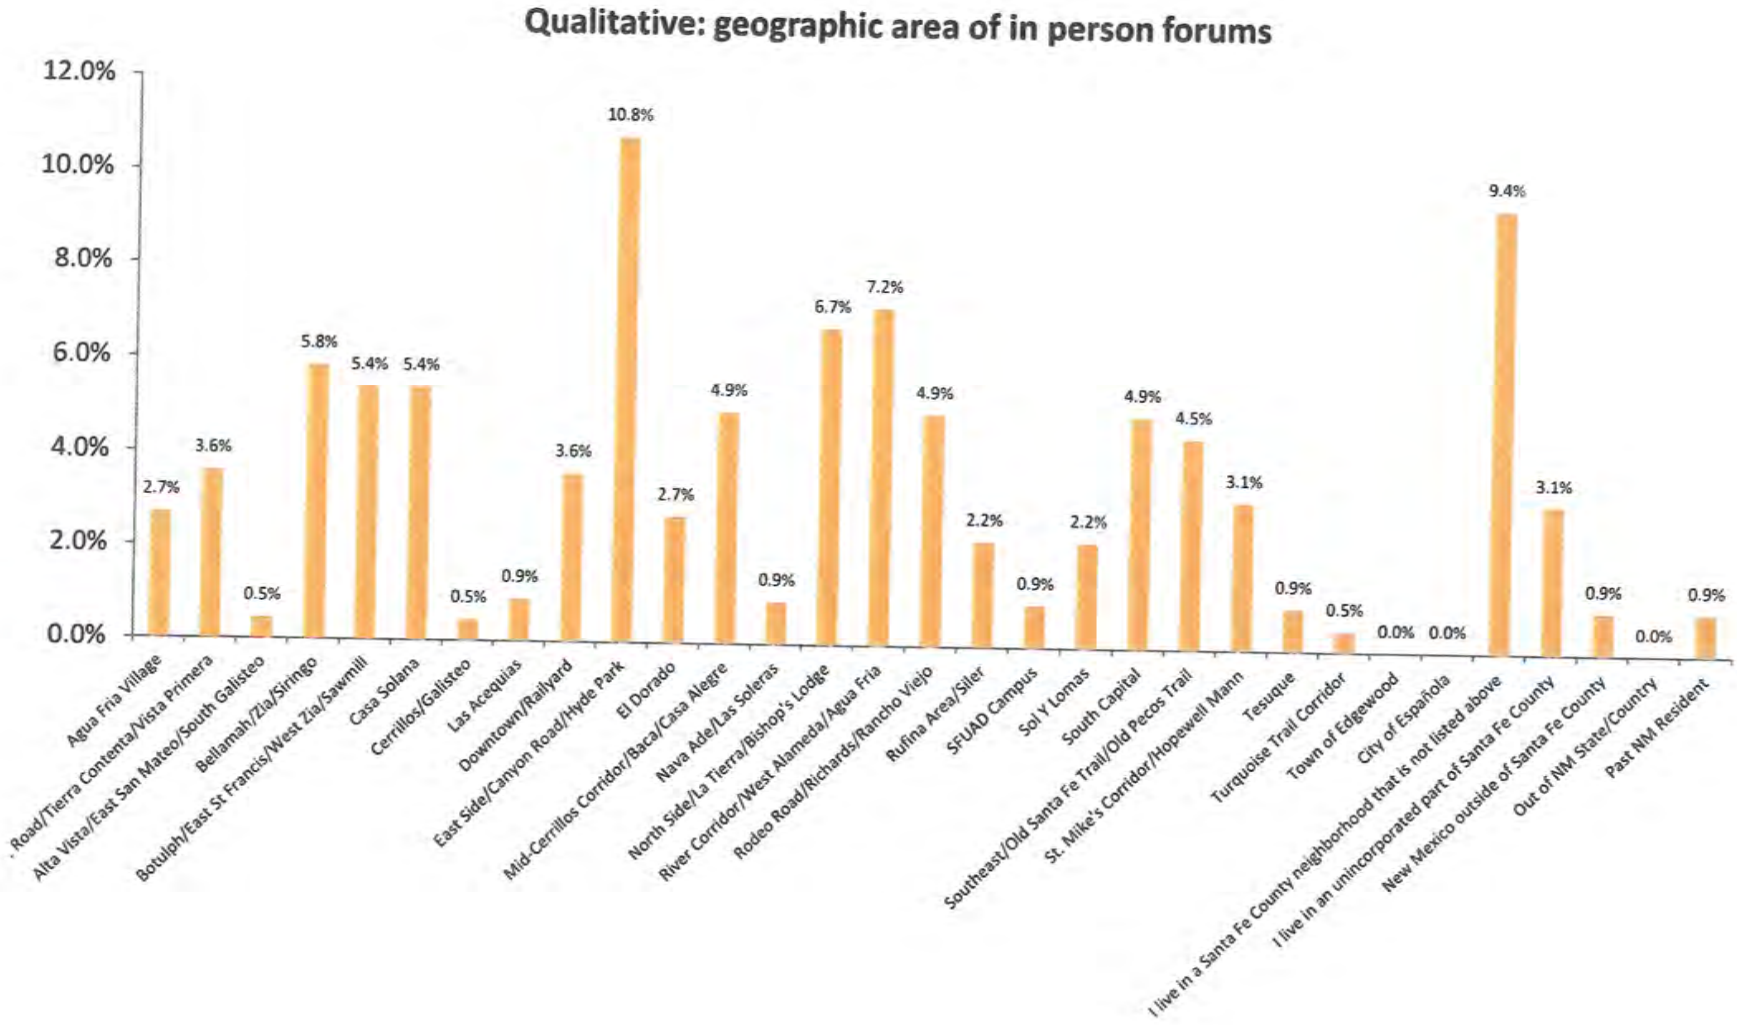


Evaluation Phase: Quantitative Demographics - Income Distribution

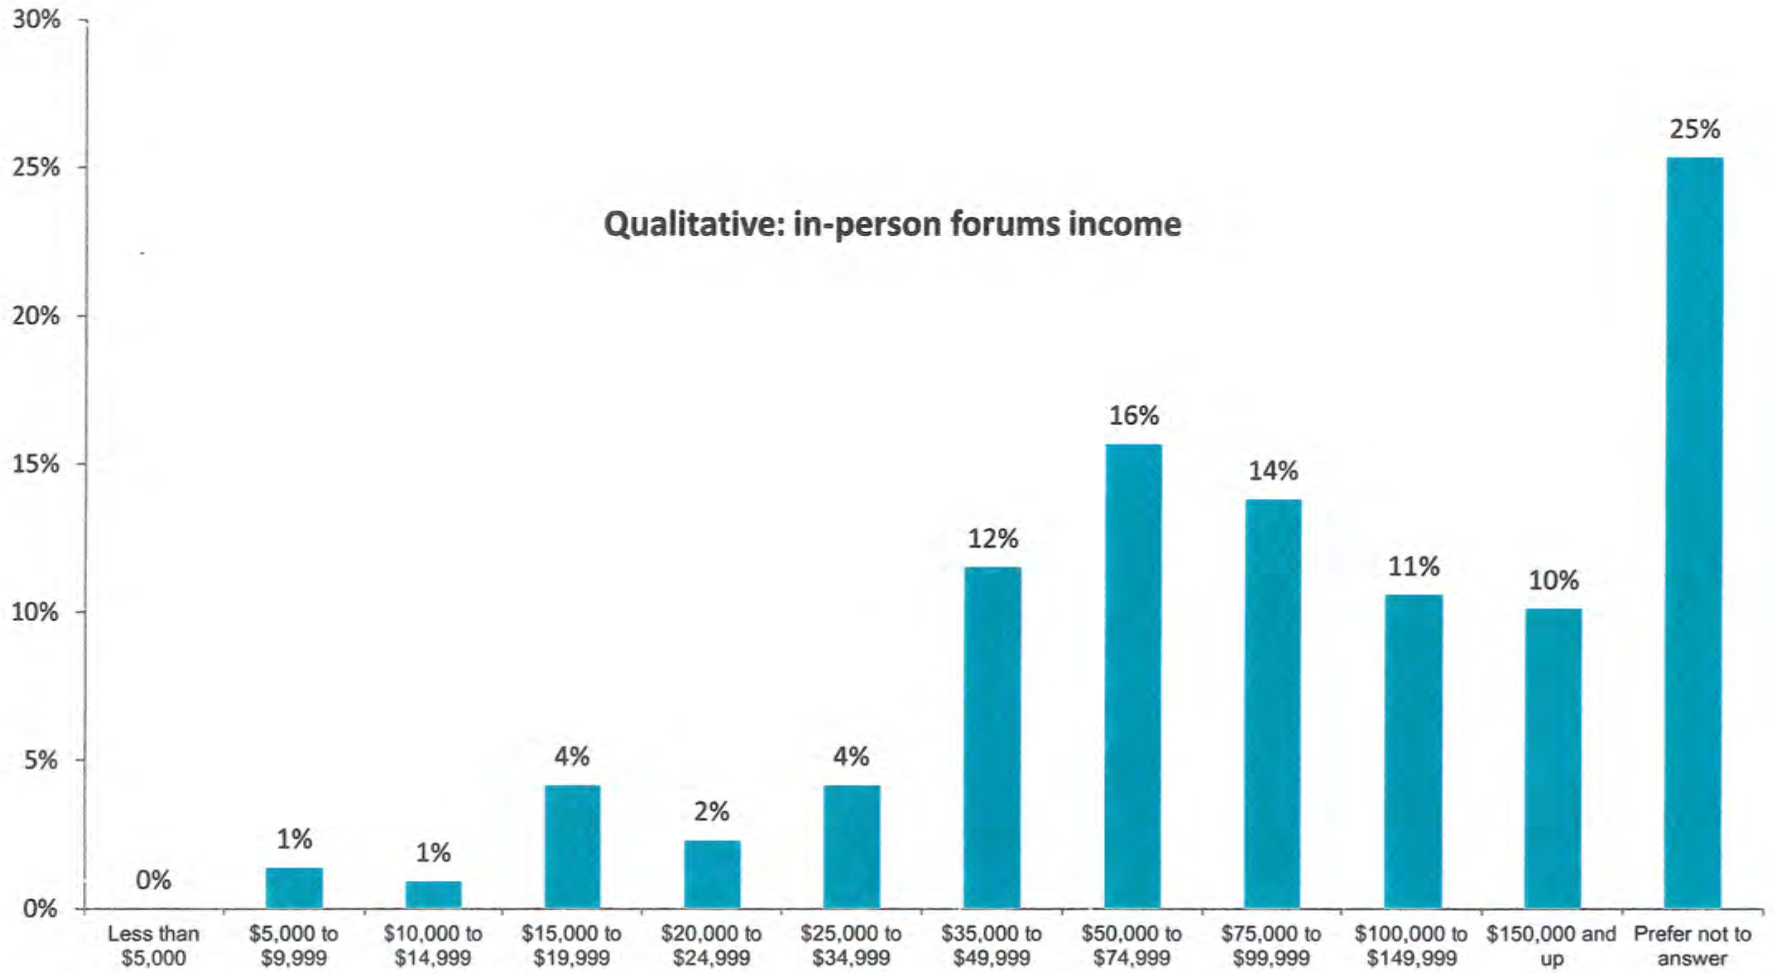


Evaluation Phase: Quantitative Demographics - Total number of participants 413 but not all choose to include their demographic profile and therefore there is a "skipped" group

Qualitative: age distribution in-person forums

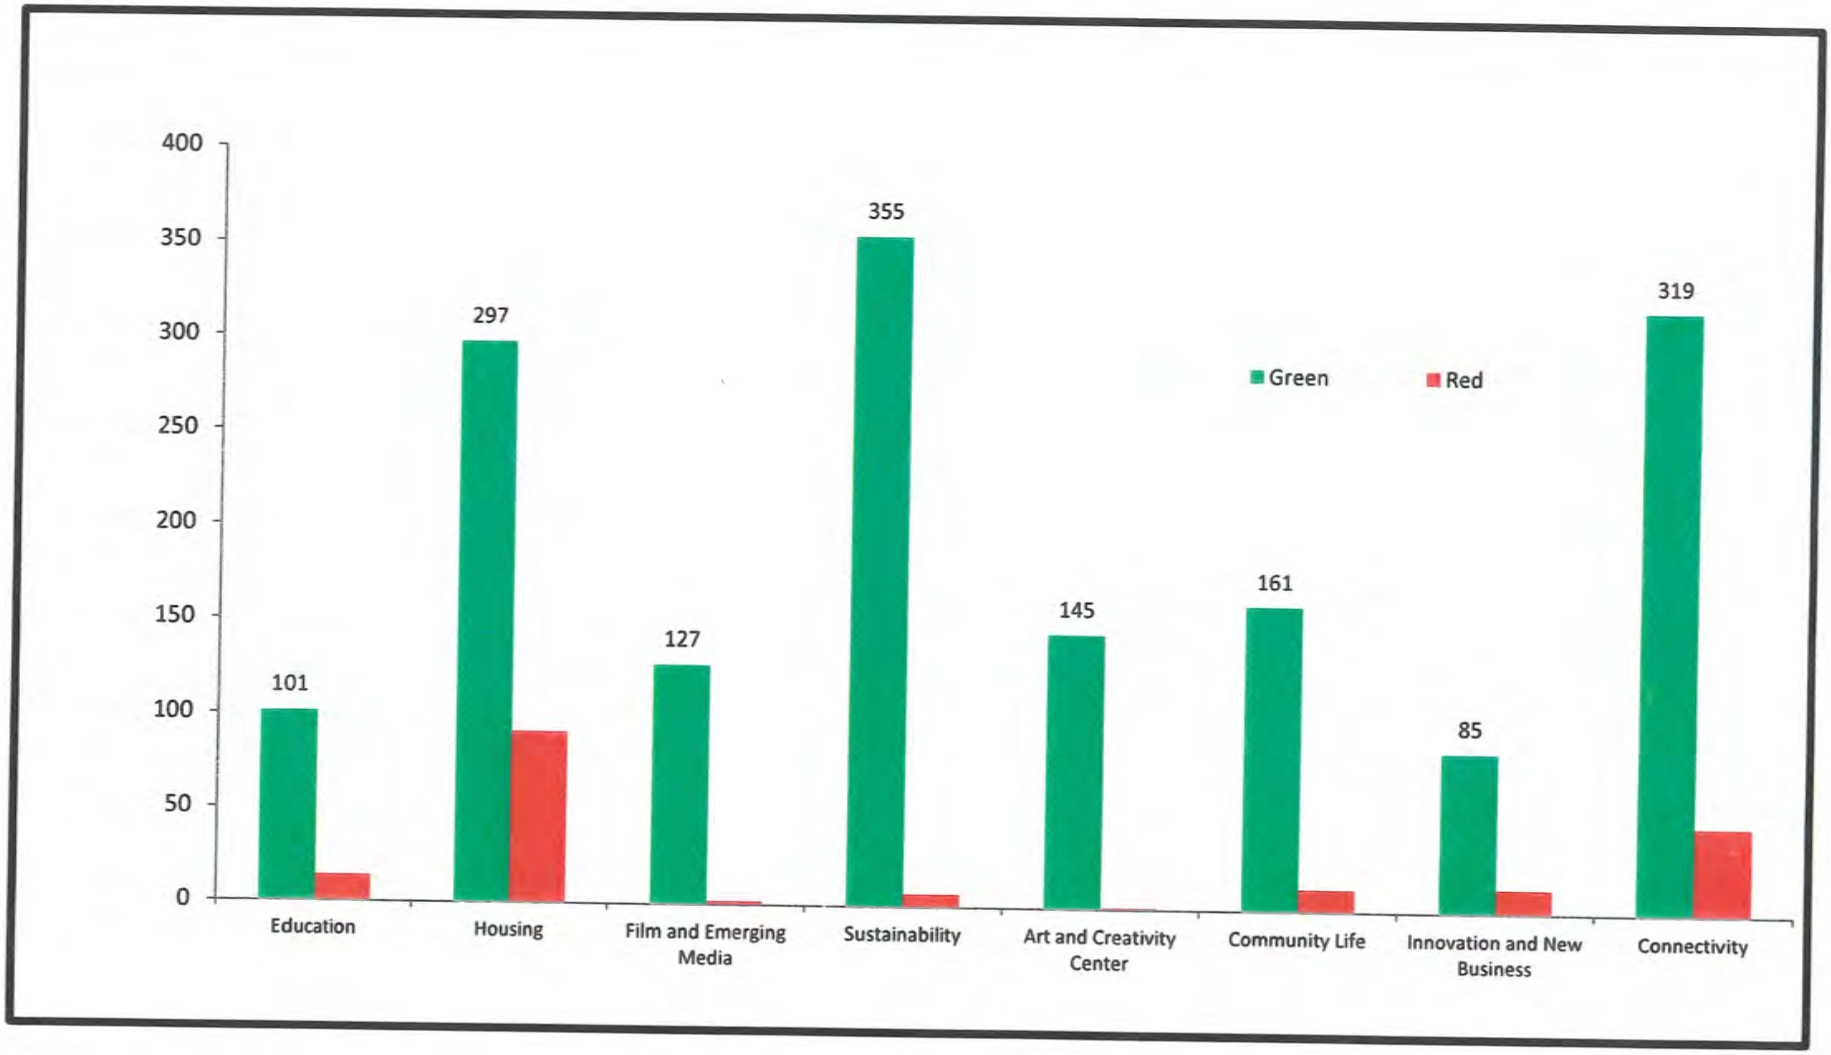


Qualitative: Ethnicity of In-person forums



Evaluation Phase: Qualitative Demographics

Geographical location of participants



Evaluation Phase: Qualitative Demographics

Income distribution of participants

Evaluation Phase – Qualitative Results: Preferences Graphed

These categories are derived from analyzing and merging similar ideas into larger category. Participants were not explicitly asked to rate a category in-person. Most important preferences are those with the highest number of green dots.

THANK YOU SANTA FE FOR YOUR PARTICIPATION

Background

The City's "Midtown Property" currently known as the Santa Fe University of Art and Design campus ("SFUAD") stopped being operated by Santa Fe University of Art and Design, LLC on June 30, 2018. The City owns the 64.22 acre former SFUAD property and some adjacent lands (see **Appendix** for aerial photo). For purposes of this document, we will refer to the Midtown Property and adjacent City owned properties as the "Site". All control of the Site reverted to the City of Santa Fe on July 1, 2018.

The City assumed substantial debt to purchase and make improvements to the property in 2009. Currently, the City is obligated to pay approximately $2.2 million annually through June 1, 2036 if not paid off earlier.

In October 2016, City Council approved the Midtown Local Innovation Corridor District ("Midtown LINC"). This is a zoning overlay district in and around St. Michael's Drive between Cerrillos Road and St. Francis Drive. The 378-acre district is designed to promote higher density housing and complementary commercial uses by heavily incentivizing and removing obstacles to mixed-use redevelopment of existing properties within the district. The Midtown LINC was designed with two anchors: The Site on the west end and the hospital and related medical uses on the east end.

On October 25, 2017, City Council passed a resolution No. 2017 -78 available at https://www.santafenm.gov/archive_center/document/18083. This provided guidance to staff and established a strategic goal for the property to have a variety of uses, with a preference for higher education as the anchor. Examples include continuing to pursue discussions with education institutions, pursue the expansion of existing film facilities and programs, develop workforce housing, consider replacing the LaFarge library with the Fogelson library, refine potential approaches to reduce debt service on the property, and examine different governance models to identify ways to maximize opportunities.

It directed City Staff to develop and run a process for gathering public input on the possible and desired uses of the Site. This public process was called the "Midtown Campus Project", a city-wide engagement conducted January-April 2018 engaging approximately 3,000 participants that culminated in these planning guidelines. This project was supplemented and informed by other research conducted over the last several years including RE:MIKE, Culture Connects, 2017 National Citizens Survey and Pollinating Prosperity Report all of which are publicly available (collectively referred to as "Research").

The Midtown Campus Project is phase one of a three phase process to redevelop the Site. The three phases are: (a) **Concept Phase** which was the market research, idea generation and concept development work done during the Midtown Campus Project, (b) **Planning Phase** which

will culminate in an appropriately scaled development plan and financial model that can be successfully executed, and (c) **Implementation Phase** which will be the phased implementation of the development plan or modifications thereof. Both the Planning and Implementation phases will also involve public input.

Guidelines

Overview: The following are a set of strategic guidelines resulting from the Midtown Campus Project. These are intended to:

- Guide the efforts and decision-making of the Governing Body, City Staff and any partners or other stakeholders in the Planning and Implementation phases.
- Guide the efforts and decision-making of the Governing Body and City Staff regarding outreach, inquiries, negotiations, proposals or other activities regarding use or other disposition of the Site.

These guidelines include principles, preferred uses and non-preferred uses. The guidelines have not yet involved detailed planning or financial evaluation, therefore, are directional not prescriptive. Some uses or principles described herein may need to be modified based on factors discovered during subsequent work.

Vision: Over time, our community aspires for the Midtown LINC to be an essential hub of Santa Fe reflecting the city's heritage and culture where all residents are invited to live, work, play, and learn. We want the Site to become the most creative location in the U.S. where a wide diversity of people interacts and collaborate to find their passions; build their skills for a great career; live in a thriving, vibrant neighborhood and city; and create a great future for our community, region and beyond.

Goal: Utilizing these guidelines, City Staff will continue to take a disciplined, professional approach to develop a phased plan for redevelopment of the Site. We would pursue a space that is beautifully designed; provide residents, especially young people and families, with opportunities to prosper, grow, and continue the tradition of multi-generational families in Santa Fe; encourages creativity in all forms while promoting social equity, environmental sustainability and the special characteristics of Santa Fe's heritage and culture; and becomes a mixed use area that is a vibrant center at the geographic and demographic center of the City, serving to catalyze the redevelopment anticipated by the Midtown LINC.

For the Guiding Principles and any Uses described below, the property shall be developed in accordance with goals, policies or plans adopted by the Governing Body with direction to City Staff responsible for implementation of such Guiding Principles or Uses.

Guiding Principles: Based on the substantial Research, the following represent core values and beliefs of our community that serve as a foundation for decisions and actions that affect the entire development of the site.

A. Sustainable Development: Adopt a "triple bottom line" approach to development that seeks to balance and improve social, environmental and economic impacts and benefits of developing the Site.
   a. Social: Improve social equity by encouraging development of locations, facilities and services on the Site to make it attractive and accessible to all residents, including low and middle income, to live, work, play and learn on or near the Site.
   b. Environmental: Apply best environmental practices in energy production and distribution with emphasis on solar; water capture, treatment and management; uses of living infrastructure, native plants, and green building techniques; and connections to and preservation of existing natural habitats. Increase energy resilience and contribute to City's carbon reduction goals.
   c. Economic: The redevelopment must be financially sustainable, remove the current debt obligation of the City in a reasonable time, and support the diversification and resilience of our economy by making it easier for people to launch new businesses, grow existing businesses or move their businesses to the site or nearby.

B. A City Center: Develop the Site with a variety of uses that make it inviting and affordable for residents of the city and region to live, work, play and learn. Integrate with and rejuvenate neighboring communities by seeking to retain and strengthen unique characteristics and assets of those neighborhoods, minimize displacement and promote social equity and economic vitality.
   a. Accessibility:
      i. Connections: Develop a variety of connections to and integration with surrounding neighborhoods, existing commercial development, and all of Santa Fe, including roads, bike paths and walking paths. As an example, create an entrance that makes the campus visible and easily accessible by car, bus, bike, or foot while integrating with the surrounding area and neighborhoods.
      ii. Transportation: Design for current and future transportation needs, including sufficient parking, shared transportation like cars and bikes, electric vehicle charging stations, bus service, shuttle service to train depots and other key locations.
   b. Density: In accordance with the Midtown LINC, adopt a medium to medium-high urban density connected by and incorporating a variety of open spaces,

courtyards, parks, and, possibly, large urban park or new plaza. This is best exemplified in the concepts named Midtown Fusion and Collaborate & Connect (see Appendix for example images).

c. Aesthetics: Encourage a blend of architecture that modernizes current site styling and is in-synch with Santa Fe's unique look and feel, as well as with world-class buildings on the Site designed by Ricardo Legoretta.
    i. Consider a signature building or structure that advances Santa Fe's brand and iconic status and can be a beacon for the community.

d. Variety of Uses: Develop the site to accommodate three primary uses of the Site, namely, higher education, expanding the film and emerging media industry, and housing residents can afford with an emphasis on rental units. See below for more explanation and description of preferred uses for the property.

C. Adaptable Infrastructure: Develop the physical and digital infrastructure so that it increases accessibility, improves current uses of the property, and supports the initial steps of development which will be part of a future Implementation phase. Additionally, design the infrastructure to remain flexible and responsive to later stages of development and to enable the achievement of any sustainable development goals and plans.

a. Physical infrastructure includes roads, bike paths, walkways, electricity distribution, natural gas distribution, sewer, water, and buildings that can support a variety of uses or reuses.

b. Digital infrastructure includes broadband, telecommunications, microgrid and other "smart city" technologies to support a variety of residential and commercial uses. This includes achieving broadband speeds to support film and emerging media businesses, and any other businesses that require super high-speed broadband.

D. Catalyze and Utilize Midtown LINC Overlay: These guidelines were developed based on research focused on the Site and immediate surrounding properties. However, achieving our community's preferred uses does not all have to occur on the Site. The property is located within the Midtown LINC; therefore, the subsequent phases can consider how the plans for the Site can spur owners of properties in the Midtown LINC corridor to redevelop their properties in ways that advance the Principles and Uses described in these guidelines.

Preferred Uses: Based on the Research, the following are the top five preferred uses for the site, in ranked order. All of them are highly supported by majority of our community.

1. Higher Education: Pursue and secure premier, accredited higher education, including vocational and skills training programs, that is great and accessible for local and regional

students, and also attracts students nationally and internationally. Considerations and parameters include:

a. Education Village: Attract a single provider or multiple education providers, preferably, with existing national or international reputation for the high quality of the programs. An example would be one college expanding its film school to the property while another expands its technology and engineering school.
b. Collaborate: Encourage any higher education providers on the Site to cooperate or collaborate with existing local, regional and state higher education providers, as well as with local public and private elementary, middle and high schools for the educational and career advancement of all students and residents.
c. Types and Subject-Matter: Initially pursue 4-year degree providers, as well as vocational and technical training programs that do not directly compete with local and regional community colleges. Prefer curriculum areas that align well with Santa Fe and New Mexican heritage, resources and business opportunities, as well as build skills for career paths in projected growth areas in the local, regional and national economy.
    i. Over time consider adding other types of education such as master's degrees, doctoral degrees and professional development.
    ii. Support and encourage workforce development.
d. Size: At maturity, 2,000 or more students would attend school or training programs on site.

2. Housing: Utilizing a variety of strategies, provide housing that is affordable for a wide range of residents and income levels, including students. Considerations and parameters include:
    a. If the Site includes higher education, then the priority is for sufficient housing to be provided for students on campus or in new housing along St. Michaels or Cerrillos corridors within the Midtown LINC.
    b. 500-1,000+ units attractive to all residents and prioritizing rental units over homes for purchase.
    c. Develop housing options that align to any housing strategies or plans adopted by the Governing Body or City Staff.
    d. Include a variety of open spaces and courtyards for both connectivity to and within the Site and the private uses of residents and employees working on the property.
3. Film & Emerging Media: Expand Greer Garson Studios in order to support television, large film, augmented reality, virtual reality, video game, animation, short-form and other emerging media production. Considerations and parameters include:

a. Seek to increase gross receipts tax (GRT) by 100% in next 5 years related to film and emerging media industry.
b. Additions may include 2-4 soundstages, storage, backlot, offices and a post-production facility with high speed broadband sufficient to support the users, as well as a mill and/or large "maker-space" that may be shared with local business, schools and workforce development providers.
c. Attract a premier film school that can leverage the facilities for educational purposes and help students secure professional development opportunities.

4. Arts & Creativity: Maintain or expand the use of property as center of arts and creativity leveraging the Greer Garson Theater, Visual Arts Center and the Santa Fe Arts Institute, which is located directly adjacent to the Site. Considerations and parameters include:
   a. Update Greer Garson Theater as needed, possibly as a performing arts center, to maintain its high-quality status and promote regular, highly attended performances.
   b. Add one or more mixed-use indoor and outdoor venues, including outdoor pavilion or amphitheater with 200-600 seating capacity.
   c. Update The Screen movie theater to show digital films and improve sound quality, provided that the market demand and/or academic value supports the upgrade.
5. New Business & Innovation: Diversify and strengthen our economy to provide more opportunities for more residents of all skill and experience levels. Accelerate entrepreneurship, help existing companies grow, and make it easy and enticing for people and companies to relocate to Santa Fe. Strong preference for enabling a hub of technology-focused businesses, as well as expanding film and emerging media as described above. Considerations and parameters include:
   a. Promote and attract blend of businesses and entrepreneurs that collectively increase the City's export GDP and replacement of imports with locally sources goods and services.
   b. Attract and grow existing businesses, including those that can provide goods and services on site to residents, visitors and employees.
   c. Foster development of burgeoning industry clusters such as high tech, creative economy, and value-added[1] and craft food.
   d. Develop key physical components of an entrepreneurial and business growth ecosystem including ubiquitous broadband access, high quality telecommunications, co-working space, multi-use buildings, tech transfer center and/or an advanced maker space, which can be combined with mill for educational, private business and film and emerging media industry uses.

[1] "Value-added" food is also known as consumer-packaged goods, ready-to-eat or ready-to-cook foods, as distinct from raw agricultural commodities and food items.

i. Motivate other interested parties like financial management, venture capitalists, impact investment groups, philanthropies, private investors, accelerators and incubators to locate or work on or nearby the site.

Other Possible Uses: While the following were not in the top tier of voting, they represent desired uses for the property or perhaps for expansion into adjacent properties or throughout the Midtown LINC.

6. Tech Hub: One or more buildings that may include a business accelerator, financing organizations, new and existing businesses, and/or onsite tech transfer services tied to NM labs and universities.
   a. Consider an entrepreneurship center and/or small business center to deliver services and support to both local and economic-base businesses. The Small Business Development Center could be a potential partner.
   b. Consider integrating a technical training center to increase opportunities for young people in coordination with or without duplicating efforts of SFCC.
7. 21st Century Library: Upgrade Fogelson library to serve both academic and community needs as a 21st century library and replacement for the LaFarge library.
8. Transit Center: Develop a physical center connecting key routes to promote a greater variety of mobility and access including pedestrian, vehicle and bike sharing, electric charging stations, biking, buses and train shuttles.
9. Joint Senior and Child Day Care Center: Day care provides support to employees and residents, and the senior facility is housing for active seniors and provides them with opportunities to interact and support children in our community.
10. Health Care: A small facility that serves the residents of the Site and surrounding neighborhoods. Note that at within 2 miles on St. Michael's is a hospital and numerous other health services.
11. Art Park: Variation of large urban park with emphasis on artwork and art events.
12. Teen Center: Innovation center, mentorship programs, job preparation, internship placement and/or a variety of skills training.
13. Premier Maker Space: Could be used for educational and business uses. May be incorporated with Tech Hub described above.
14. Recreation Network: Variety of indoor and outdoor fitness and athletic venues.
15. "Mixed-Use" Commercial and Residential Buildings: Multi-story buildings located on St. Michael's or Cerrillos with commercial on ground floor and housing above.

Non-Preferred Uses: The following are undesired uses for the SITE. However, these uses may be valid for other locations adjacent to the Site, within the Midtown LINC or elsewhere in the City.

- City government: People see a need to make government more accessible and easy to use, but permanent relocation of all or some of the government offices to the Site itself is not currently a community priority.
- Contemporary Cultural Center: Residents value community and cultural activities and gathering spaces, yet an additional cultural center or museum is seen as redundant.
- Offices and large amounts of retail: With the exception of medical uses that might serve residents of the Site, generic offices and large amounts of retail are perceived as leading to a more generic space which would detract instead of increase community value and interaction.
- Large, single-family housing development: While some residences for purchase may be desired as part a desired mix of housing options, fitting a "suburban layout" into the Site or making the Site primarily a single-family housing development would diminish its community value and economic potential.
- Avoid homeless shelters: However, consider enabling and encouraging job training for people experience homelessness on the Site.
- Dog park: Amplify the effects of outdoor space. Do not minimize the use of green spaces by developing a dog park which can be perceived as a "one-off" instead of encompassing the needs of all residents.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2022-12

INTRODUCED BY:

Mayor Alan Webber

Councilor Jamie Cassutt Councilor Amanda Chavez

A RESOLUTION

ADOPTING NEXT STEPS FOR THE REUSE AND REDEVELOPMENT OF THE MIDTOWN PROPERTY INCLUDING APPLYING FOR LAND USE REZONING, GENERAL PLAN AMENDMENT, AND A MASTER PLAN; ADOPTING A COMMUNITY DEVELOPMENT PLAN; ISSUING CERTAIN REQUESTS FOR PROPOSALS; CONDUCTING CERTAIN STUDIES AND ASSESSMENTS; AND SEEKING THE ACQUISITION OF LAND LOCATED WITHIN OR ADJACENT TO THE MIDTOWN SITE.

WHEREAS, the Governing Body adopted Resolution No. 2018-54, the Midtown Planning Guidelines (Guidelines), which resulted from substantial public input regarding the 65 acre property formerly known as the College of Santa Fe and referred to as the "Midtown Property"; and

WHEREAS, the Guidelines established that the City's public policy goals for the Midtown Property are to move forward with the planning and predevelopment for the development of an innovative, inclusive, and integrated Midtown District; and

WHEREAS, the Midtown Property is currently zoned R-1 and listed as "Institutional" under the General Plan, which prevents development consistent with most of the land use incentives made available in the Midtown LINC Overlay District; and

WHEREAS, the City's public engagement partners and other City representatives have been collecting, and have established plans to continue to collect, public input for creating a Master Plan for the Midtown Site and for economic and development feasibility; and

WHEREAS, the Office of Economic Development (OED) presented an Action Plan to the Governing Body for starting the planning and predevelopment phases of Midtown Property in a memorandum issued by the Director of Community and Economic Development, Richard Brown, dated March 26, 2021; and

WHEREAS, the City has retained consultants to assist with the Midtown Property's rezoning, general plan amendments, master plan, financial modeling and public engagement; and

WHEREAS, the City's consultants and the OED held several public engagement events, including a block party and planning sessions, web and in-person surveys, documented interviews, as well as presentations to various civic organizations and city council meetings to obtain broad community feedback on the future development of the Midtown Property; and

WHEREAS, the existing affordable housing market in Santa Fe does not meet the current demand; and

WHEREAS, it is a priority of the City to expand and develop affordable housing opportunities for the citizens residents of Santa Fe; and

WHEREAS, through the community engagement process, community groups and members have identified that one priority use of the property is to provide affordable housing options.

WHEREAS, the Guidelines identified various preferred uses, including arts, film, and a library with educational uses for the Midtown Property, and the community engagement feedback

gathered after the Governing Body adopted the Guidelines has confirmed those prioritized uses; and

WHEREAS, the Midtown Property has buildings and personal property that could facilitate the arts, film, and library uses as initial projects; and

WHEREAS, the existing Garson Studios' limited sound stages, lot area, and modern facilities constrain it from attracting a broader range of film and multimedia production and limit its ability to host pre- and post- production activities;

WHEREAS, in order to increase its revenue potential, create new jobs and a film training program, and retain local professional film crews, Garson Studios needs to expand and modernize the existing studio area to establish a competitive production campus; and

WHEREAS, the Midtown Property is abutted by key properties owned by the State, federal government, and public schools that, if owned by the City, would improve the access and connectivity of the Midtown Property to adjacent neighborhoods and to the rest of the city, to create a more viable development project; and

WHEREAS, redevelopment of the Midtown Property will require investment of public and private resources, which could include strategies such as a Metropolitan Redevelopment Area and/or a Tax Increment Development District to provide development incentives and leverage other financial instruments; and

WHEREAS, the City requires temporary space for City offices and services, as the City undertakes analysis and predevelopment activities regarding the feasibility of a government facility to replace the existing dilapidated and outdated city hall structure;

WHEREAS, the Midtown Property has certain buildings that may be occupied on a temporary basis for city offices and services until a new city hall is developed; and

WHEREAS, key items the OED proposed in the Action Plan and presented to the Governing Body in monthly progress reports require Governing Body's direction.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the City Manager is authorized and directed to proceed with the following predevelopment actions to achieve the public policy goals described above for the redevelopment of the Midtown Property:

1. Rezone, Amend the General Plan, and Adopt a Master Plan: prepare and submit an application for (i) land use zoning the Midtown Property to a C-2 District; (2) amending the General Plan; and (3) a master plan.
2. Community Development Plan: Develop a Community Development Plan to achieve an equitable and sustainable Midtown District that is informed by Resolution No. 2015-65, informally referred to in the Planning Guidelines as the "Resident Bill of Rights," and through the public engagement process. The Community Development Plan should be prepared for Governing Body approval as a Resolution and identify the public policy goals to be delivered as development occurs.
3. Request for Proposals for the Visual Arts Center: Issue a Request for Proposals (RFP) for the redevelopment and reuse of the existing buildings and barracks within the Visual Arts Center as a "local community arts and culture hub".
4. Request for Proposals for Garson Studios: Issue an RFP for the redevelopment, expansion, and operation of the Garson Studios with the goals of creating a full-service studio for film and multimedia production, including pre- and post-production facilities; and retaining existing jobs and creating new job opportunities at various skill levels within the production industry and facilities. The criteria for selecting a proposal should include an evaluation of how a proposal addresses cooperation with local and state higher education institutions to create professional training programs that ensure the retention and enhancement of jobs in the film

and multimedia industry.

5. Request for Proposals for the Garson Performance Theater: Issue an RFP for the redevelopment and reuse of the existing performance theater as a publically accessible venue for local, regional, and visiting national and international groups.

6. Fogelson Complex Reuse for a Public Library, Civic Space, and Innovation Center: Propose a plan for the redevelopment and reuse of the Fogelson Library Complex, commencing with due diligence activities related to building systems and other code requirements; planning and programming of the Complex; and identifying potential partners to facilitate these programs at the Complex.

7. Viability analysis of Government and Community Services Building: Study the viability of locating city facilities on the Midtown Property or on adjacent city-owned parcels within the broader Midtown District.

8. Metropolitan Redevelopment Act (MRA) and/or Tax Increment Development District (TIDD): Make recommendations to the Governing Body regarding the use of a MRA and/or a TIDD for the Midtown District.

9. Acquiring adjacent parcels of land: Proceed with all tasks and activities for a land swap of critical State-owned parcels and for the acquisition of critical federally owned parcels adjacent to the Midtown Site.

BE IT FURTHER RESOLVED that the Governing Body wishes to continue to receive Progress reports on a monthly basis, with updates on the actions listed above.

PASSED, APPROVED, and ADOPTED this 23rd day of February 2022.

Legislation/2022/Resolutions/2022-12 Midtown Moving Forward

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2022-68

A RESOLUTION

APPROVING A MASTER PLAN FOR PROPERTY COMPRISING AN AREA OF APPROXIMATELY 64 ACRES WITHIN THE CITY OF SANTA FE, LOCATED AT 1600 SAINT MICHAELS DRIVE (MIDTOWN MASTER PLAN, CASE NO. 2022-5764).

WHEREAS, the City owns parcels of land comprising approximately 64 acres located at 1600 Saint Michaels Drive within Section 34, T.17N., R.9E., N.M.P.M., in Santa Fe County, New Mexico (the "Property"); and

WHEREAS, in Resolution No. 2022-12, the Governing Body directed the City Manager to prepare and submit an application for a Master Plan for the Property; and

WHEREAS, the City has submitted an application to adopt a master plan for the Property ("Master Plan"); and

WHEREAS, a review of a Master Plan by the Planning Commission is required by Subsection 14-3.9(C)(5) of the City Code; and

WHEREAS, at its October 20, 2022 meeting, the Planning Commission reviewed the Master Plan and voted to recommend that the Governing Body adopt the Master Plan; and

WHEREAS, the Governing Body held a public hearing on the proposed Master Plan; reviewed the staff report, the recommendation of the Planning Commission, and the evidence obtained at the public hearing; and determined that the proposed Master Plan, as recommended by the Planning Commission, meets the approval criteria set forth in SFCC 1987, Section 14-3.9(D)(1); and

WHEREAS, adoption of the Master Plan is consistent with the General Plan Themes and Policies for Land Use and Growth Management (General Plan, Chapters 3 and 4) because it will provide affordable infill housing, as well as other desired community amenities; and

WHEREAS, Section 3.3 of the General Plan also specifically addresses the need for a mixing of uses in all new and existing neighborhoods to encourage walkable, integrated neighborhoods, in which services and amenities are designed to complement and enhance the quality of life; and

WHEREAS, the Property has suitable access to and availability of necessary infrastructure; and

WHEREAS, the Governing Body desires to provide for more coordinated, adjusted, and harmonious development at 1600 Saint Michaels Drive that will not have adverse impacts on the surrounding neighborhood.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that it adopts the Master Plan for the 64-acre Property located at 1600 Saint Michaels Drive within Section 34, T.17N., R.9E., N.M.P.M., in Santa Fe County, New Mexico, as shown in Exhibit A, attached hereto.

PASSED, APPROVED, and ADOPTED this 30th day of November, 2022.

CITY OF SANTA FE, NEW MEXICO
PROPOSED AMENDMENT(S) TO RESOLUTION NO. 2022-68
Midtown Property Master Plan Adoption

Members of the Governing Body:

I propose the following amendment(s) to Resolution No. 2022-68:

1. Amend Table 5.5.A – Allowed Uses of the Master Plan as follows:

	MU-N	MU-C	MU-O	MU-F	CO	OS
Preschool, Daycare for Infants or Children						
Small (6 or Fewer)	P	P[*]	P	[~~S~~]P	[~~S~~]P	--
Large (More than 6)	[~~S~~]P	[~~S~~*]P	[~~S~~]P	[~~S~~]P	[~~S~~]P	--

Respectfully submitted,

Jamie Cassutt

Jamie Cassutt (Dec 2, 2022 15:37 MST)

What's Inside?

Midtown Master Plan (the Midtown Land Development Plan)

1. Purpose + Intent	11
2. Background + Setting	25
3. Urban Design Vision	37
4. Connectivity + Mobility Vision	71
5. Development Standards	89
6. Stormwater + Infrastructure	165
7. Appendices	187

How to Use this Document

What you will find + where to find it:

Chapter 1 Purpose + Intent

What's included in this Plan...	**1.1** Midtown Master Plan Organization
Why this Plan?	**1.2** Purpose of the Midtown Master Plan
What this Plan will accomplish?	**1.3** Mission + Development Vision
How this Plan works with other existing plans + standards?	**1.4** Relation to Existing Plans, Policies + Regulations
Goals for sustainable development...	**1.5** Elements of Sustainable Development

Chapter 2 Background + Setting

The Midtown Site in context	**2.1** Regional Considerations + The Site History
Existing conditions at the Midtown Site	**2.2** Site Considerations
What inspired the urban design concepts in this Plan?	**2.3** Santa Fe Urban Form + Public Realm

Chapter 3 Urban Design Vision

The vision for the Midtown Site development	**3.1** The Midtown Site Development Vision
Strategies for improving connectivity	**3.2** Connectivity + Mobility
Strategies for managing stormwater	**3.3** Integrated Stormwater Management
Strategies for open spaces at the Midtown Site	**3.4** Civic + Open Spaces
Strategies for urban design	**3.5** Urban Form + Building Scale
What is place-based design	**3.6** Place-based Approach
Proposed development phasing	**3.7** Development Program + Phasing
Strategies for affordable housing	**3.8** Affordable Housing
Designing for community health	**3.9** Reinforcing Community Health Through Urban Design

Chapter 4 Connectivity + Mobility Vision

Approach to connectivity + mobility	**4.1** Conceptual Connectivity + Mobility Framework
When and where streets get built	**4.2** Connectivity + Mobility Phasing
Ideas for making great streets at the Midtown Site	**4.3** Multimobility Best Practices
Steps to improve mobility + connectivity	**4.4** Connectivity + Mobility Action Items

Chapter 5 Development Standards

Why new development standards for the Midtown Site?	**5.1** Purpose + Intent
Regulations for street and right-of-way design	**5.2** Thoroughfare Standards
Regulations for open space design	**5.3** Civic + Open Space Standards
Where different standards apply?	**5.4** Development Standards + Regulating Plan
Allowed uses at the Midtown Site	**5.5** Sub-zone Standards
Standards on setbacks, frontage types, height, + other design elements	**5.6** Facade Zone Standards
Allowed building frontage types	**5.7** Frontage Types
Design standards applicable to all development parcels	**5.8** Design Standards General to All
Guidance for review of development applications	**5.9** Plan Administration
Terminology specific to development standards	**5.10** Definitions

Chapter 6 Infrastructure + Stormwater

Improvements to the stormwater management system	**6.1** Stormwater + Water Quality Management
Integrated stormwater management approach	**6.2** Policy for The Midtown Site + Surrounding Area
What already exists on the Midtown Site	**6.3** Existing Utilities + Infrastructure
Improvements to support future use and development	**6.4** Improvements to Utilities + Infrastructure

Chapter 7 Appendix

Referenced Maps → **7.1** Map Series

Phasing Diagram, Zoning Framework - Facade Zones, Open Space Framework, Thoroughfare Network Framework, Transit + Access Framework

Adopted by Reference → **7.2** Midtown Infrastructure Report

1. Purpose + Intent

In this chapter

1.1 Midtown Master Plan Organization	12
1.2 Purpose of the Midtown Master Plan	14
1.3 Mission + Development Vision	18
1.4 Relation to Existing Plans, Policies + Regulations	20
1.5 Elements of Sustainable Development	22

1.1 Midtown Master Plan Organization

Chapter 1
Mission + Statement

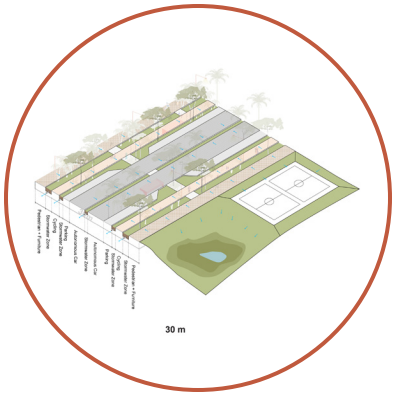
Provides an overview of the Midtown Master Plan and its relationship to the existing regulatory framework.

Chapter 2
Background + Setting

Summarizes existing conditions and identifies key characteristics regarding regional relevance, demographics and local urban form.

Chapter 3
Urban Design Vision

Gives an overview of the development vision and phasing, articulates goals around sustainability, and desired connectivity, stormwater, open space and built form.



Chapter 4
Connectivity + Mobility Vision

Provides design for the future thoroughfare network within the Midtown Site, describes modal prioritization strategies, and parking policies. Also, it illustrates the connectivity phasing with upgrades to existing infrastructure and construction of streets.

Chapter 5 Development Standards

Establishes form-based zoning standards that regulate the future built character of the Midtown Site.

Chapter 6 Infrastructure + Stormwater

Describes green infrastructure for the Midtown Site and addresses water and sewer improvements to realize the Master Plan vision.

Chapter 7 Appendices

Includes a map series of key frameworks developed throughout the Master Plan document.

APPLICABILITY

Chapters 3 (Urban Design Vision) and 4 (Connectivity + Mobility Vision) present a comprehensive vision for development intensity and form, street network and connectivity, civic and open space, and stormwater and sustainability for the Midtown Site.

Chapter 5 (Development Standards) sets the legal requirements for physical development and provides standards for buildings, thoroughfares, and civic spaces within the Midtown Site boundary.

Improvements external to the Midtown Site in this Plan are conceptual and not regulatory. The City is interested in collaborating with adjacent property owners in the Midtown LINC Zoning Area to ensure a cohesive district and smooth development approval processes for new development. No external connection shall be constructed, dedicated, or made a condition of approval of any development application on an adjacent property, without the express consent of the affected adjacent property owner.

1.2 Purpose of the Midtown Master Plan

The Midtown Master Plan implements the community's vision for the Midtown Site by enabling reinvestment and future development that is feasible, predictable, and consistent with community aspirations and priorities.

Purpose

The Midtown Master Plan (Plan) is the culmination of a four-year planning effort (from 2018 to 2022) by City staff, an interdisciplinary consultant team, community members, organizations, and stakeholders. A vision for the Midtown Site (the Site) is articulated jointly in the Midtown Master Plan (this document) and the Midtown Community Development Plan. These complimentary plans provide a roadmap to achieve the community's objectives for development at the Site. The Midtown Master Plan focuses on increasing housing options and accessibility, improving walkability and transportation choices, creating jobs, and advancing climate change resiliency.

The Midtown Master Plan (Plan) presents policies and standards that help prioritize investment and regulate private development to deliver a future for the Site consistent with the community's aspirations.

Midtown Public Engagement Process

Following the closure of the Santa Fe University of Art and Design in 2018, the City of Santa Fe passed a resolution to initiate the Midtown Redevelopment Process. In this initial concept stage, the City developed a project plan and an online hub and established a vision for community outreach. The Midtown Redevelopment Process began with Collaborative Research Sessions, which took place in February 2018. The community engagement process informed programming, planning, and development approaches for the future reuse of the Site.

Around 2,800+ individuals participated in one of the phases (Concept Phase, Planning Phase, and Implementation Phase). They shared their ideas for the Site as part of the initial outreach process. The very high participation rate demonstrates the community's passion and commitment to shaping the future of the Midtown Property and Santa Fe. Four elements were identified based on the input received to guide sustainable development: Equity, Economy, Culture, and Environment. The four elements have been used as principles in this Plan.

The community engagement process led to the approval of the Planning Guidelines for the Midtown Property in the summer of 2018. The Guiding Principles and "Preferred Uses" helped to inform this Plan, along with updated feedback received as part of the engagement process during the Plan. "Other Possible Uses" are included in the Plan, and the Development Standards provide use regulations that address the "Non-Preferred Uses."

Images from the Public Engagement Process of 2018 and the Guiding Principles Document.

2018 PLANNING GUIDELINES*

- ***Sustainable Development.*** *Adopt a "triple bottom line" approach to development to balance and improve social, environmental, and economic impacts. Sustainable Development includes* ***Social, Environmental, and Economic*** *guidelines.*
- ***A City Center.*** *Develop the Site with a variety of uses that make it easy for residents of the city and region to live, work, play and learn. Integrate with neighboring communities by strengthening unique characteristics, minimizing displacement, promote social equity and economic vitality. A City Center includes guidelines on* ***Connections, Transportation, Density, Aesthetics, and Variety of Uses****.*
- ***Adaptable Infrastructure.*** *Develop the physical and digital infrastructure so that it increases accessibility and supports the initial steps of development. Design the infrastructure to be flexible and responsive to later stages of development. Adaptable Infrastructure includes guidelines about* ***Physical and Digital Infrastructure****.*
- ***Catalyze Midtown LINC Zoning Area.*** *Consider how owners of properties in the Midtown LINC Zoning Area can redevelop their properties in ways that will advance the Principles and Uses described.*

2018 USES*

Preferred Uses

- *Higher Education*
- *Housing*
- *Film + Emerging Media*
- *Arts + Creativity*
- *New Business + Innovation*

Other Possible Uses

- *Tech Hub*
- *21st Century Library*
- *Transit Center*
- *Joint Senior + Child Care Center*
- *Health Care*
- *Art Park*
- *Teen Center*
- *Premier Maker Space*
- *Recreation Network*
- *Mixed-Use Commercial + Residential Buildings*

Non-Preferred Uses

- *City Government*
- *Contemporary Cultural Center*
- *Offices + Large Amounts of Retail*
- *Large, Single-family Housing Development*
- *Avoid Homeless Shelters*
- *Dog Park*

**Source: Planning Guidelines for the City's Midtown Property Report, City of Santa Fe.*

The Midtown Site Planning Process

In 2019, the City of Santa Fe issued a formal request for proposals. Developers and operators submitted formal recommendations for the disposition and development of the Midtown Site (Midtown Property). The Midtown Property Planning Guidelines were used as criteria to evaluate the proposals. While a master developer was selected, they exited the project in 2020. The City decided to become the Strategic Planner for the redevelopment process at the Site moving forward.

Since 2020, the City has worked with community stakeholders and a consultant team to lead the two-part planning process subsequently:

- The Midtown Master Plan (Plan) guides land uses and provides an infrastructure framework to enable development and future investment. The Plan creates opportunities for types of development the community wants and provides guidance for mobility and connectivity, open space, and development at the Site.
- The Midtown Community Development Plan identifies community benefit expectations that can be delivered as development occurs. It is a policy-driven document to address housing choice and affordability, access to jobs and training, community arts, and cultural heritage recognition.

These plans provide a framework that private developers, nonprofits, and the City can use to deliver development at the Site.

A series of Listening Sessions held in June 2021, followed by a Visioning Workshop held in September 2021, helped to define the key issues and design priorities included in the Midtown Master Plan and presented in Chapter 2 (Background and Setting).

How the Plan Guides Development

This Plan is a visionary and regulatory document.

Within the Site, the Plan sets development standards to implement the vision for growth. The built character is guided by standards that articulate design expectations for the public realm, the sidewalk and frontage conditions, and the massing composition of new buildings. These standards establish design regulations specific to building form and land use that supplement standards in the base zoning and the Midtown LINC Zoning Area. Additional standards for civic and open spaces standards and thoroughfare design implement the vision for better access and mobility.

Within the greater Midtown LINC Zoning Area, the Plan establishes policies and priorities for future development.

Midtown Community Development Plan Timeline

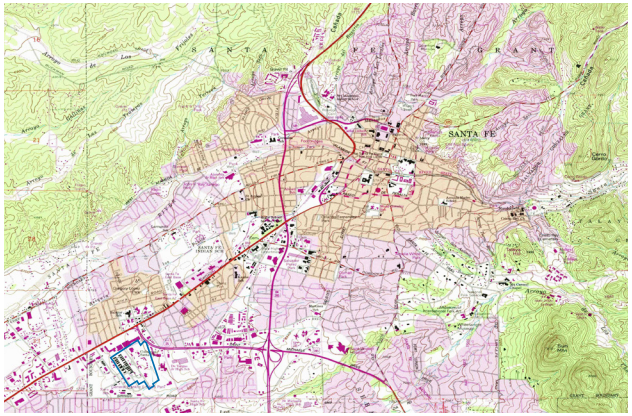
Midtown Master Plan Timeline

1.3 Mission + Development Vision

The University of Arts and Design occupied the Midtown Site until 2018. Earlier, it was home to the College of Santa Fe.

The Midtown Master Plan provides a development framework to enable the implementation of the community's vision, priorities and aspirations for the Midtown Site.

Mission



This Plan documents the community and stakeholder-driven long-term vision for the Midtown Site (the Site) in central Santa Fe. Once home to the Santa Fe University of Art and Design (SFUAD), investment has not occurred at the Site since the SFUAD closure. The future development of the Site creates an opportunity to leverage much-needed economic investment and respond to the need for more housing options, greater access to employment opportunities, and the desire for a new civic and cultural center for Santa Feans in the heart of the city.

Development Vision

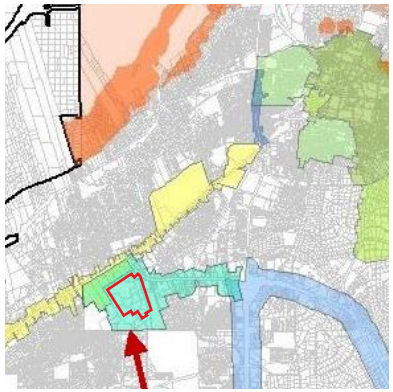
This Plan focuses on how the City of Santa Fe can direct and support planned development at the Site. It describes strategies to create a sustainable, walkable community over time and provide employment and housing opportunities, improved mobility options, and access to recreation, public spaces, and cultural venues.

The Plan articulates a clear vision for the Site as a pedestrian-friendly, mixed-use neighborhood. The Site can accommodate an expanded footprint for film production facilities, over 1,000 housing units, including opportunities for affordable housing, cultural and employment uses, and over 5 acres of public parks and open spaces.

Historic map of Santa Fe in 1952. The Midtown Site was once on the periphery of Santa Fe. As urban expansion occurred, the built environment around the Site transitioned from a rural context (in the map) to the suburban context that exists today.

Location + Overview

The Midtown Site is located in the center of Santa Fe. It sits at the intersection of Cerrillos Rd. and St. Michael's Dr., and it is adjacent to College Plaza Shopping Center.



The Plan guides the revitalization of the former campus (Santa Fe University of Art and Design, SFUAD) to create a new center for Santa Feans that celebrates the City's rich history and culture. The Site's central location can provide a new center for Santa Fe, where civic services and amenities are accessible to all. Improved accessibility for surrounding neighborhoods such as Hopewell-Mann and Agua Fria can make reaching new amenities, employment opportunities, and cultural facilities at the Site easier.

Legend

The Midtown Site

Existing Access Points

1.4 Relation to Existing Plans, Policies + Regulations

The Site is covered by the Midtown LINC Zoning Area, and abuts the Cerrillos Rd. Highway Corridor overlay district.

The Midtown Master Plan establishes regulatory Design Standards in Chapter 5 (Development Standards), which are complementary and supplementary to regulations in the Santa Fe Land Development Code and the Midtown LINC Zoning Area.

Relation to Existing Plans

Development Standards in this Plan have been coordinated with existing planning and regulatory documents, including the General Plan, Land Development Code, and the Midtown LINC Overlay. Amendments to some documents following this Plan may be necessary to ensure alignment with the vision for the Site.

General Plan

The General Plan serves as the blueprint for the city's future growth and development, including actions and implementing policies. The General Plan addresses ten areas known as "themes:" Affordable Housing, Quality of Life, Transportation Alternatives, Economic Diversity, Sustainable Growth, Character, Urban Form, Community-oriented Downtown, Community-oriented Development, and Mixed-use. In addition, the General Plan outlines the following Guiding Policies for future development:

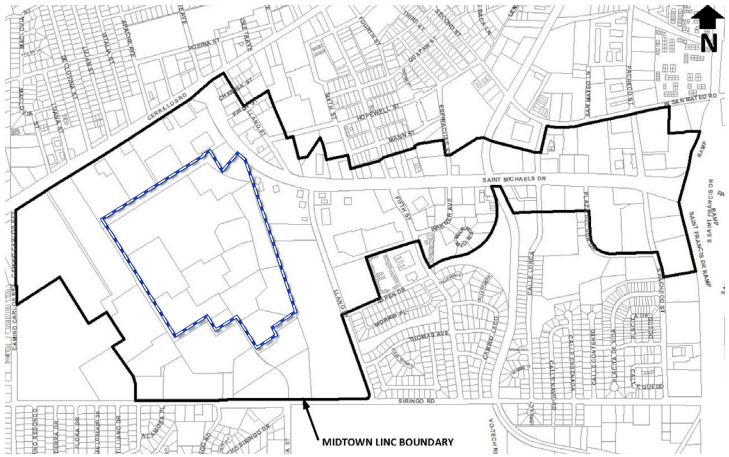
- There shall be consistency between the General Plan and the city's land use development laws.
- There shall be a mix of uses and housing types in all parts of the city.
- There shall be infill development at densities that support the construction of affordable housing, and a designated mix of land uses that provide an adequate balance of service retail and employment opportunities to address residential growth throughout the Urban Area.

Currently the Site is designated as Public/Institutional land use in the General Plan. Upon adoption of this Plan, the Site will be designated as Transitional Mixed-Use.

Land Development Code Zoning

The Site is currently zoned as single-family residential (R5). R5 allows only for low density residential developments. To allow for a broader set of uses, this Plan proposes that zoning be changed to C-2 (General Commercial District) upon plan adoption.

Areas adjacent to the Site are currently zoned C-2. On their own, standards are designed to guide future additions or changes to existing strip commercial developments in the area. Together with new development standards included in the Plan, this update will ensure that the buildings, streets and public spaces that get built at the Site are consistent with the community's vision.



An illustrative vision of St. Michael's Dr. shows the type of walkable, higher-intensity development envisioned by the Midtown LINC Zoning Area.

Midtown LINC Zoning Area

The Midtown Local Innovation Corridor Overlay District (Midtown LINC Zoning Area) aims to create a vibrant, mixed-use neighborhood within the demographic and geographic center of the city.

Adopted in 2016, it incentivizes multi-family residential development, complementary nonresidential uses, and an enlivened, street-oriented pedestrian environment by freeing development capacity of existing under-developed land and buildings, while allowing existing uses to continue as redevelopment occurs.

The Plan provides guidance for how nearby properties in the Midtown LINC Zoning Area can evolve to be complementary with new development on the Site.

The Midtown Site is located within the Midtown LINC Zoning Area which extends along St. Michael's Dr. to St. Francis Dr.

Legend

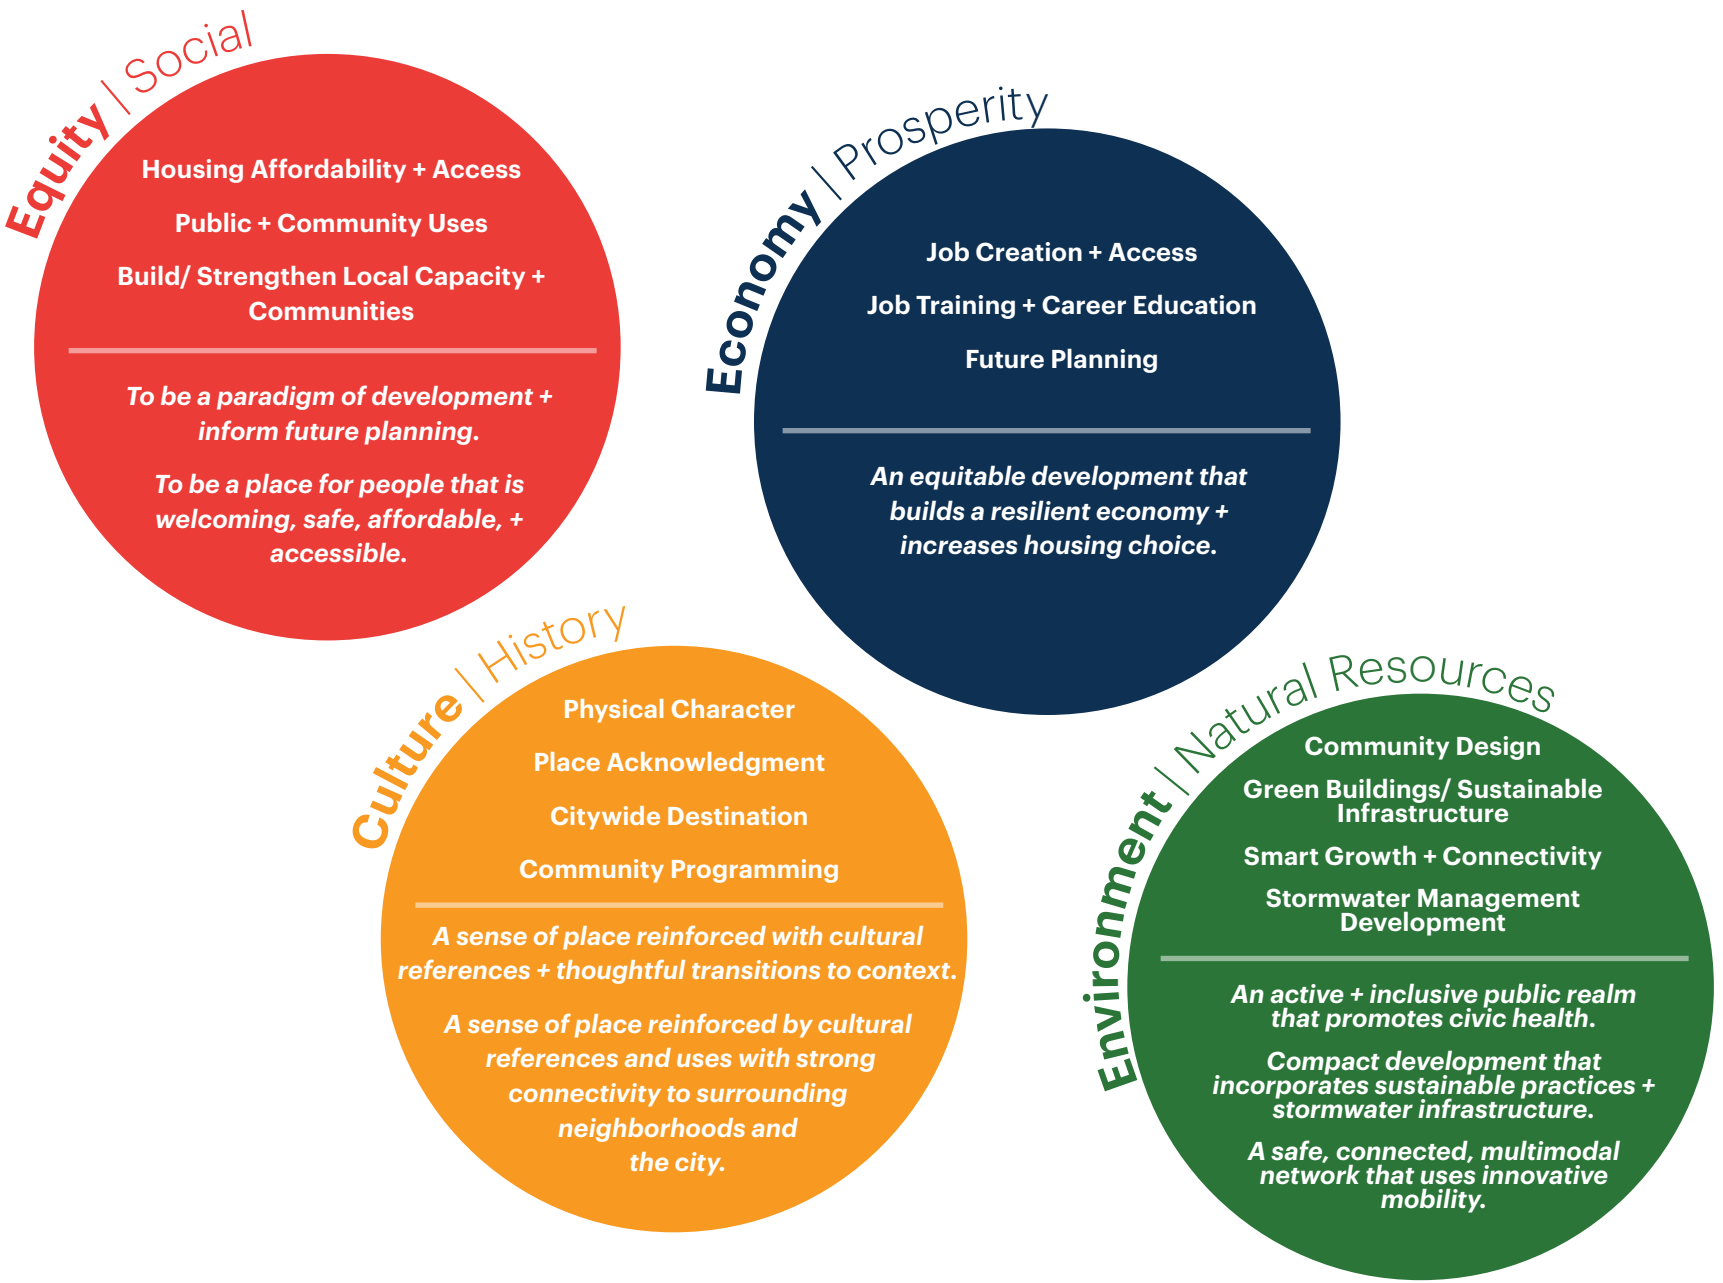
The Midtown Site

Midtown LINC Zoning Area

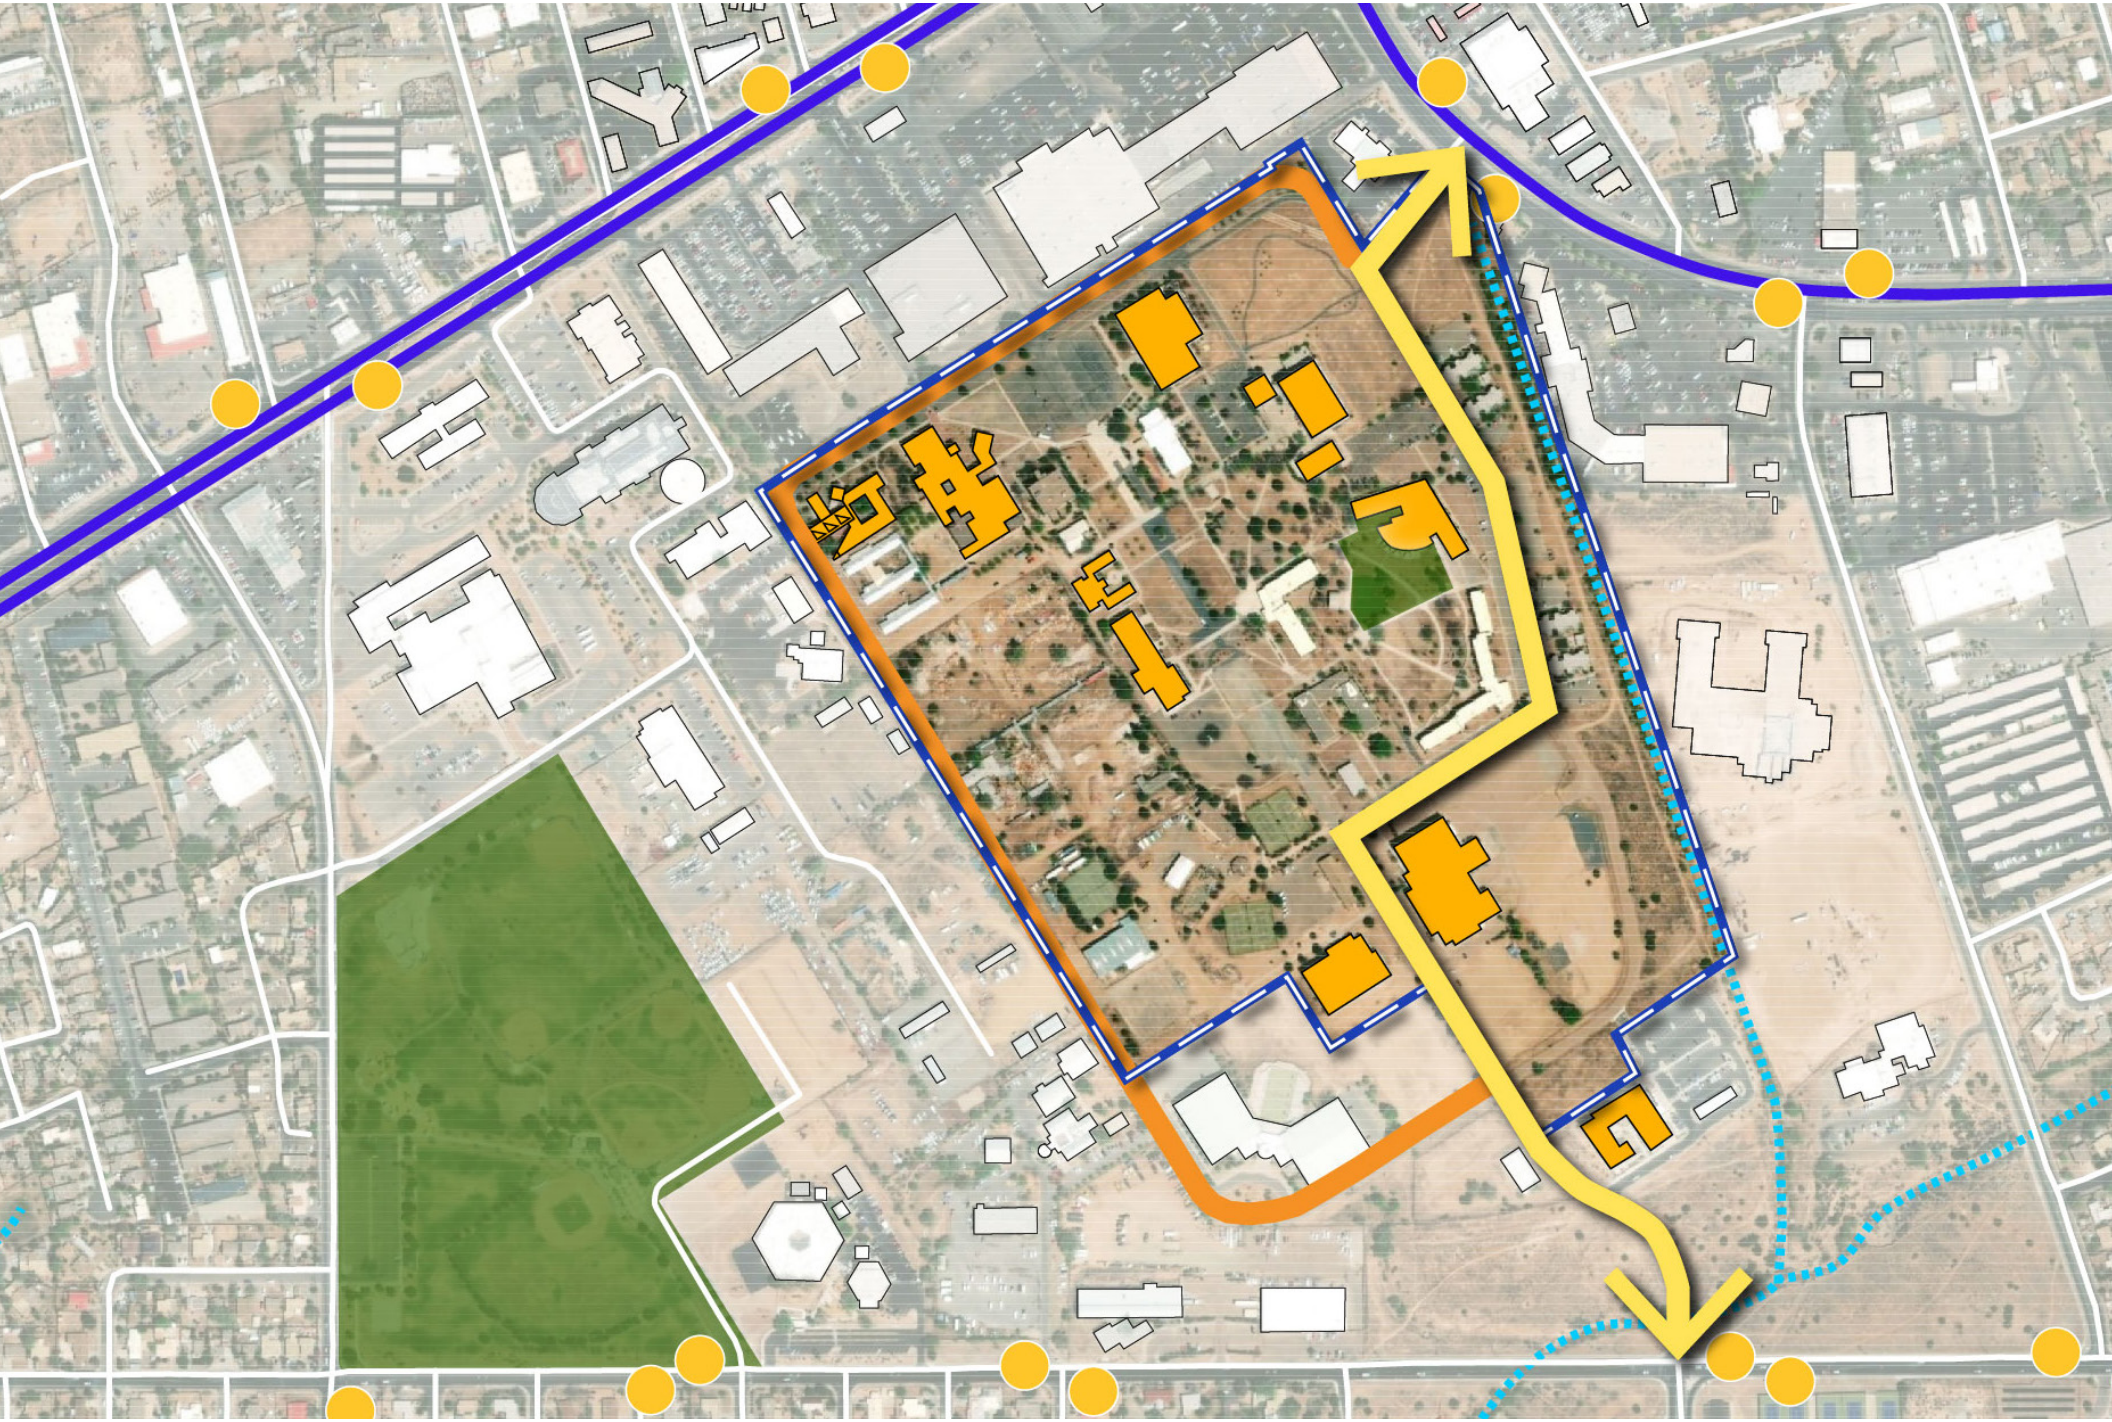
1.5 Elements of Sustainable Development

Four elements of sustainable development were chosen through the community engagement process to guide visioning and planning for the Midtown Site.

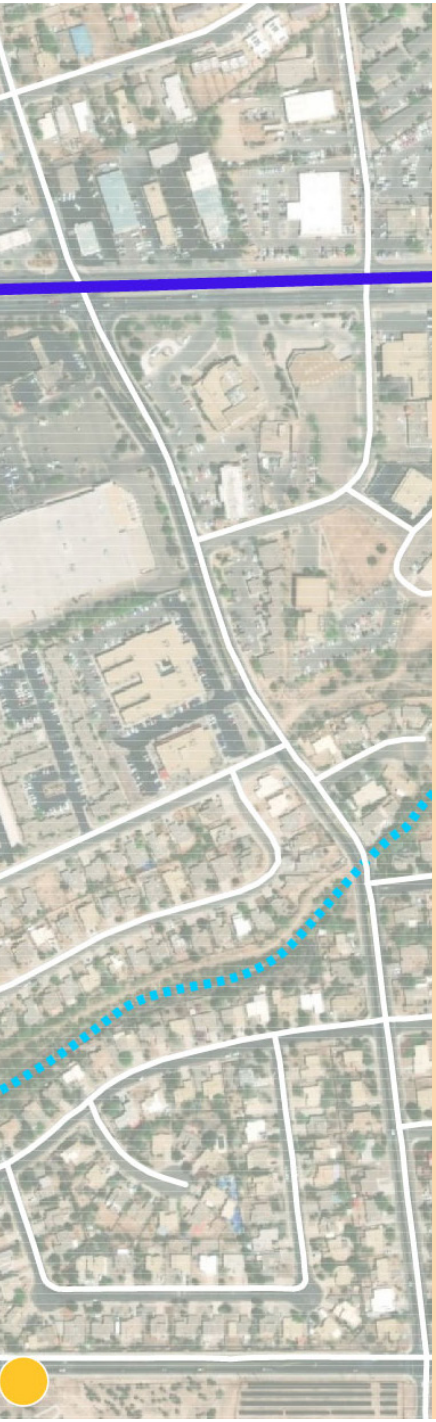
Four Elements of Sustainable Development



More than 2,800 people shared their ideas for the Site as part of the initial outreach process, which concluded in 2018. Based on the input received, four elements were identified to guide sustainable development:



- Equity;
- Environment;
- Economy, and
- Culture.

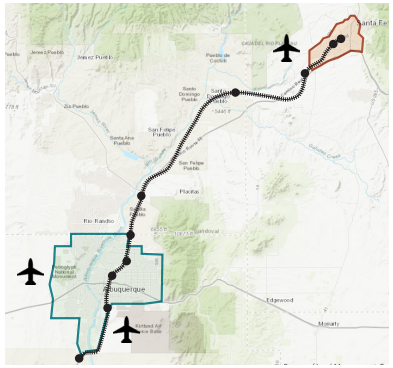


These four elements have informed the vision and standards described in this Plan. Goals and objectives for each of the four sustainable development elements are described on the facing page.

Reinforcing Sustainable Development Approaches

In order to reinforce a sustainable development approach, the criteria established by the United States Green Building Council's Leadership in Energy and Environmental Design for Neighborhood Design (LEED-ND) certification program were consulted to inform the development standards included in this Plan. LEED-ND encourages sustainable development, and that involves innovative design thinking. Additional details about how LEED-ND certification criteria complement this plan can be found in Chapter 3 (Urban Design Vision).

Equity | Social
Housing Affordability + Access
Public + Community Uses
Build/ Strengthen Local Capacity + Communities
To be a paradigm of development + inform future planning.
To be a place for people that is welcoming, safe, affordable, + accessible.
Economy | Prosperity
Job Creation + Access
Job Training + Career Education
Future Planning
An equitable development that builds a resilient economy + increases housing choice.
Culture | History
Physical Character
Place Acknowledgment
Citywide Destination
Community Programming
A sense of place reinforced with cultural references + thoughtful transitions to context.
A sense of place reinforced by cultural references and uses with strong connectivity to surrounding neighborhoods and the city.
Environment | Natural Resources
Community Design
Green Buildings/ Sustainable Infrastructure
Smart Growth + Connectivity
Stormwater Management Development
An active + inclusive public realm that promotes civic health.
Compact development that incorporates sustainable practices + stormwater infrastructure.
A safe, connected, multimodal network that uses innovative mobility.



2. Background + Setting

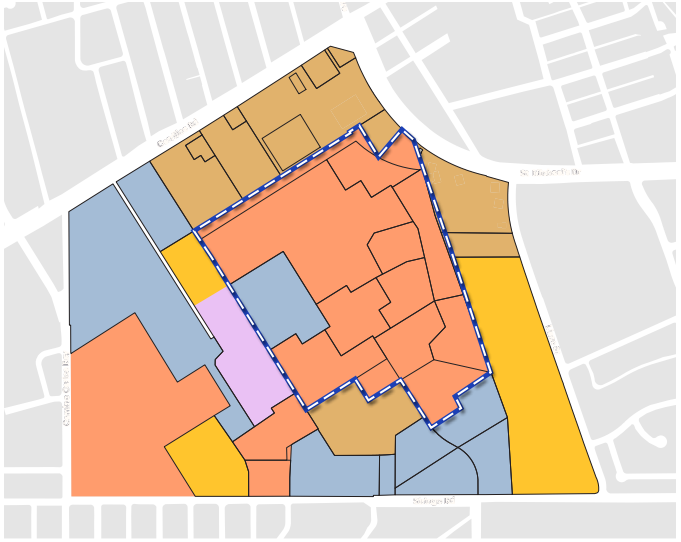
In this chapter

2.1 Regional Considerations + Site History	26
2.2 Site Considerations	30
2.3 Santa Fe Urban Form + Public Realm	34

2.1 Regional Considerations + Site History

Legend

- Albuquerque
- Santa Fe
- New Mexico Rail Runner
- Rail Runner Station
- Regional Airports



Geographic Setting

Santa Fe lies in the northern Rio Grande valley at 6,996 feet above sea level, at the foot of the Sangre de Cristo Mountains. It has an area of approximately 68 square miles (43,550 acres) within the Urban Area (defined by the 1999 General Plan). Santa Fe is a well-connected city to the region by Interstate 25 and the New Mexico Rail Runner Express to Albuquerque. Albuquerque and Los Alamos are nearby cities between which some people commute to or from Santa Fe. The Santa Fe Regional Airport is located about 8 miles southwest of the Midtown Site (the Site).

Adjacent Parcels

The Midtown Site contains parcels owned by the City of Santa Fe and the State of New Mexico. For successful development, the two agencies can coordinate to swap land so the Site can develop in a consistent manner.

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the Midtown LINC Zoning Overlay to create a cohesive, mixed-use Midtown. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Ownership

Legend

- The Midtown Site
- Private Land
- State of New Mexico
- Santa Fe Public Schools
- City of Santa Fe
- Federally-owned

The Midtown Site and the adjacency area contains parcels owned by the City of Santa Fe and the State of New Mexico. For successful development, the two agencies can coordinate and adopt tools to make development and infrastructure easier.

Site History

Land holds the memory of place, and the Midtown Site is no exception. The Site has been contextualized by the broader history and cultural heritage of Santa Fe, and it has historically served public purposes, including education, health, recovery, arts, and culture.

The colonial and present capital of New Mexico, Santa Fe, was originally settled by ancestral Pueblo Indians, Tewa-speaking Tanos. Hispanic colonists arrived in New Mexico in 1598 and by 1610 had begun the construction of a new capital city in the Spanish fashion, with the plaza at its center.

With the establishment of the Mexican Republic in 1821, the Santa Fe Trail was opened to traders and trappers from the eastern United States, bringing goods to market in Santa Fe.

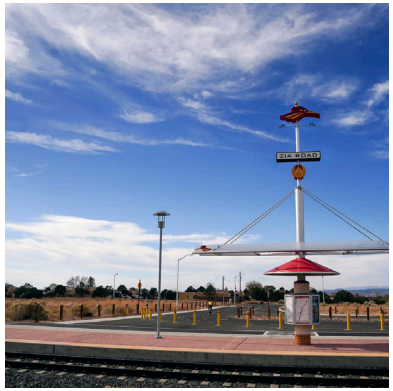
In February 1880, the Atchison, Topeka, and Santa Fe Railroad reached Santa Fe, signaling the end of the Santa Fe Trail as a freighting route to the Southwest. In the late 1800s and early 1900s, Santa Fe became a mecca for Americans disenchanted with the industrialized east. Many writers, artists, and patrons of the arts flocked to Santa Fe, making it the cultural center of New Mexico.

Statehood was finally granted to New Mexico in 1912, and elected officials replaced the appointed territorial governor and other office holders.

The Midtown Site served as an institutional anchor for Santa Fe, starting in 1943 with the Bruns Army Hospital which employed more than 1,000 Santa Feans along with 500 military men and 100 military nurses. After Bruns Army Hospital was decommissioned, half of the property was turned over to the Brothers of the Christian Schools, which established St. Michael's College, later renamed to the College of Santa Fe. Other portions of the original Army campus were turned over to local, state, and federal agencies. When the Christian Brothers College ceased operation in 2009, the City, with a commitment to preserve the civic and educational uses, purchased Midtown and leased it to a private, for-profit university, the Santa Fe University of Art and Design (SFUAD) in 2010. Due to significant financial challenges, SFUAD officially closed its doors in May of 2018.

The Site's civic use purpose continues with the City's commitment to creating a new center in what has now become the geographic center of Santa Fe.

Adapted from "Santa Fe" by William H. Wroth
New Mexico State Records Center & Archives,
https://newmexicohistory.org/2014/03/07/santa-fe-d81/



The Christian Brothers operated the College of Santa Fe on the Midtown Site until 2009.

The Midtown Site in the City of Santa Fe

The Midtown Site lies within a network of mixed-use centers in Santa Fe. These include transit-oriented sites anchored by the New Mexico Rail Runner and other cultural, civic, and employment centers. Development at the Site will support economic activity elsewhere in the city. It can also catalyze development at other centers as they expand and connections between them improve.

As such, connections between centers are crucial, improved transit and connectivity can realize the potential of these mutually beneficial relationships.

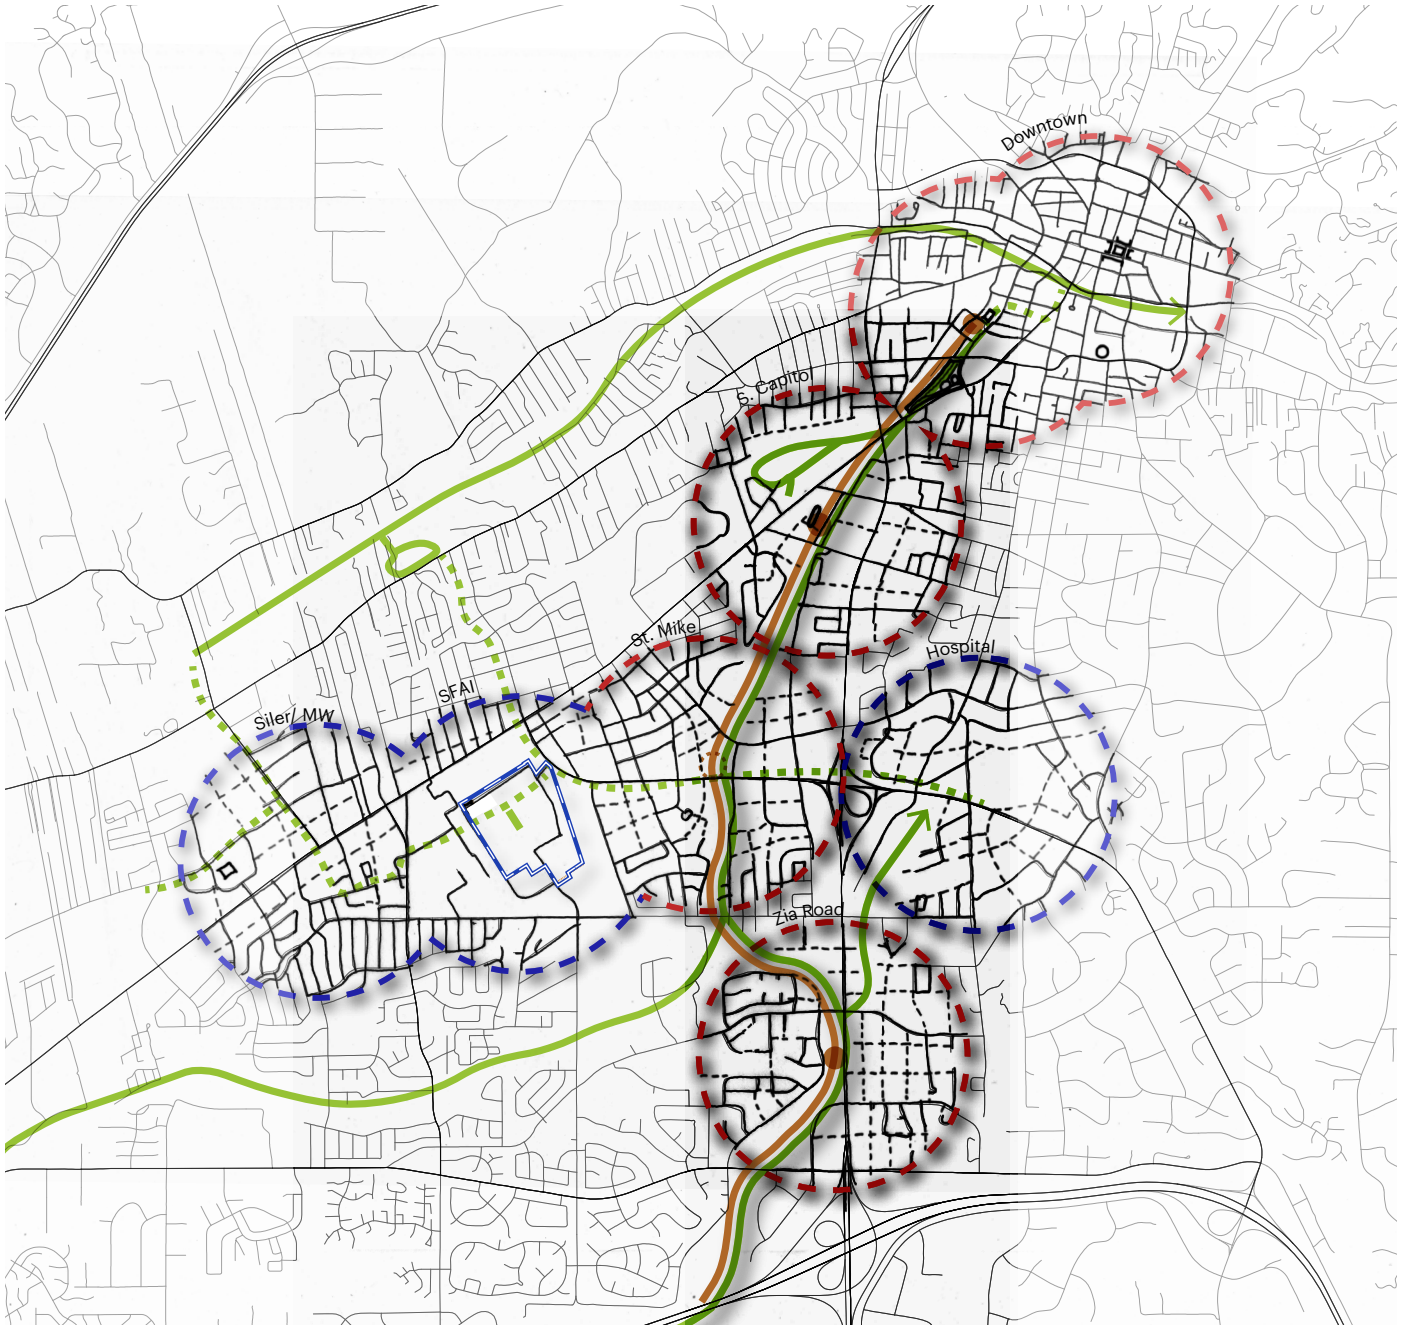
Zia Road Rail Runner Station. Image courtesy: santafenewmexican.com

Santa Fe Railyards Site.

Transit Oriented + Cultural Centers

Historic Downtown
Historic Downtown is Santa Fe's central landmark with special significance for arts and culture in the city. It contains cultural anchors, such as the Historic Plaza and the Palace of the Governors.

South Capitol Station
This transit hub is a stop for the New Mexico Rail Runner and is a transfer point for bus lines, providing access for commuters.



St. Michael's Dr. (St, Mike's)
St. Mike's is located at the center of Santa Fe and near the Midtown Site. It contains three significant corridors: St. Michael's Dr., 2nd St, and St. Francis Dr. Recently, this area has begun to experience redevelopment activity and has attracted new businesses and services.

Zia Road Station
The Zia Road Rail Runner station was opened in the spring of 2017, bringing South Santa Fe a major transportation opportunity. Since then, plans have been underway to construct new housing in currently vacant sites and introduce a mix of uses to the area.

Employment + Civic Centers

Hospital
The Christus St. Vincent Regional Medical Center at St. Michael's Dr. is a significant destination for healthcare and employment in Santa Fe and Northern New Mexico.

Siler District
The Siler District is a growing employment center in Santa Fe. Rufina St. — which runs through the district — is an important corridor connecting to other employment and residential areas in southwest Santa Fe. The Siler District has experienced infill activity in vacant land, bringing housing and jobs.

Relationship with other Activity Centers

2.2 Site Considerations

Existing Conditions

The Midtown Site's desirable location, existing buildings, and existing infrastructure provide an opportunity for adaptive reuse. An appraisal of the Site[1] showed that some existing facilities can be repurposed. A similar study on current infrastructure conditions highlights opportunities and the extent to which existing facilities can get upgraded[2]. The upgrade and reuse of existing facilities can control costs and reduce overall carbon emissions, especially when associated with construction, and by prolonging existing facilities' life.

During the Site analysis and community engagement process, spatial issues were identified. These are described in this Section along with how to approach them as opportunities for improvement. All these issues will need to be addressed as part of redeveloping the Site.

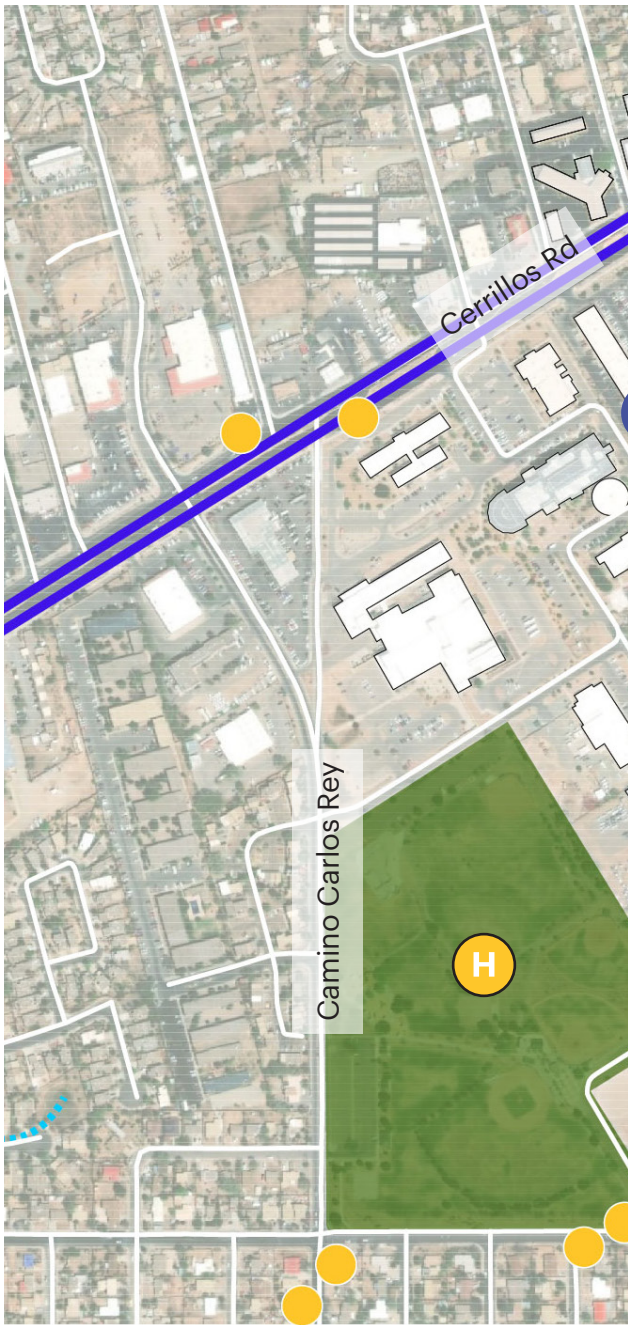
Issues

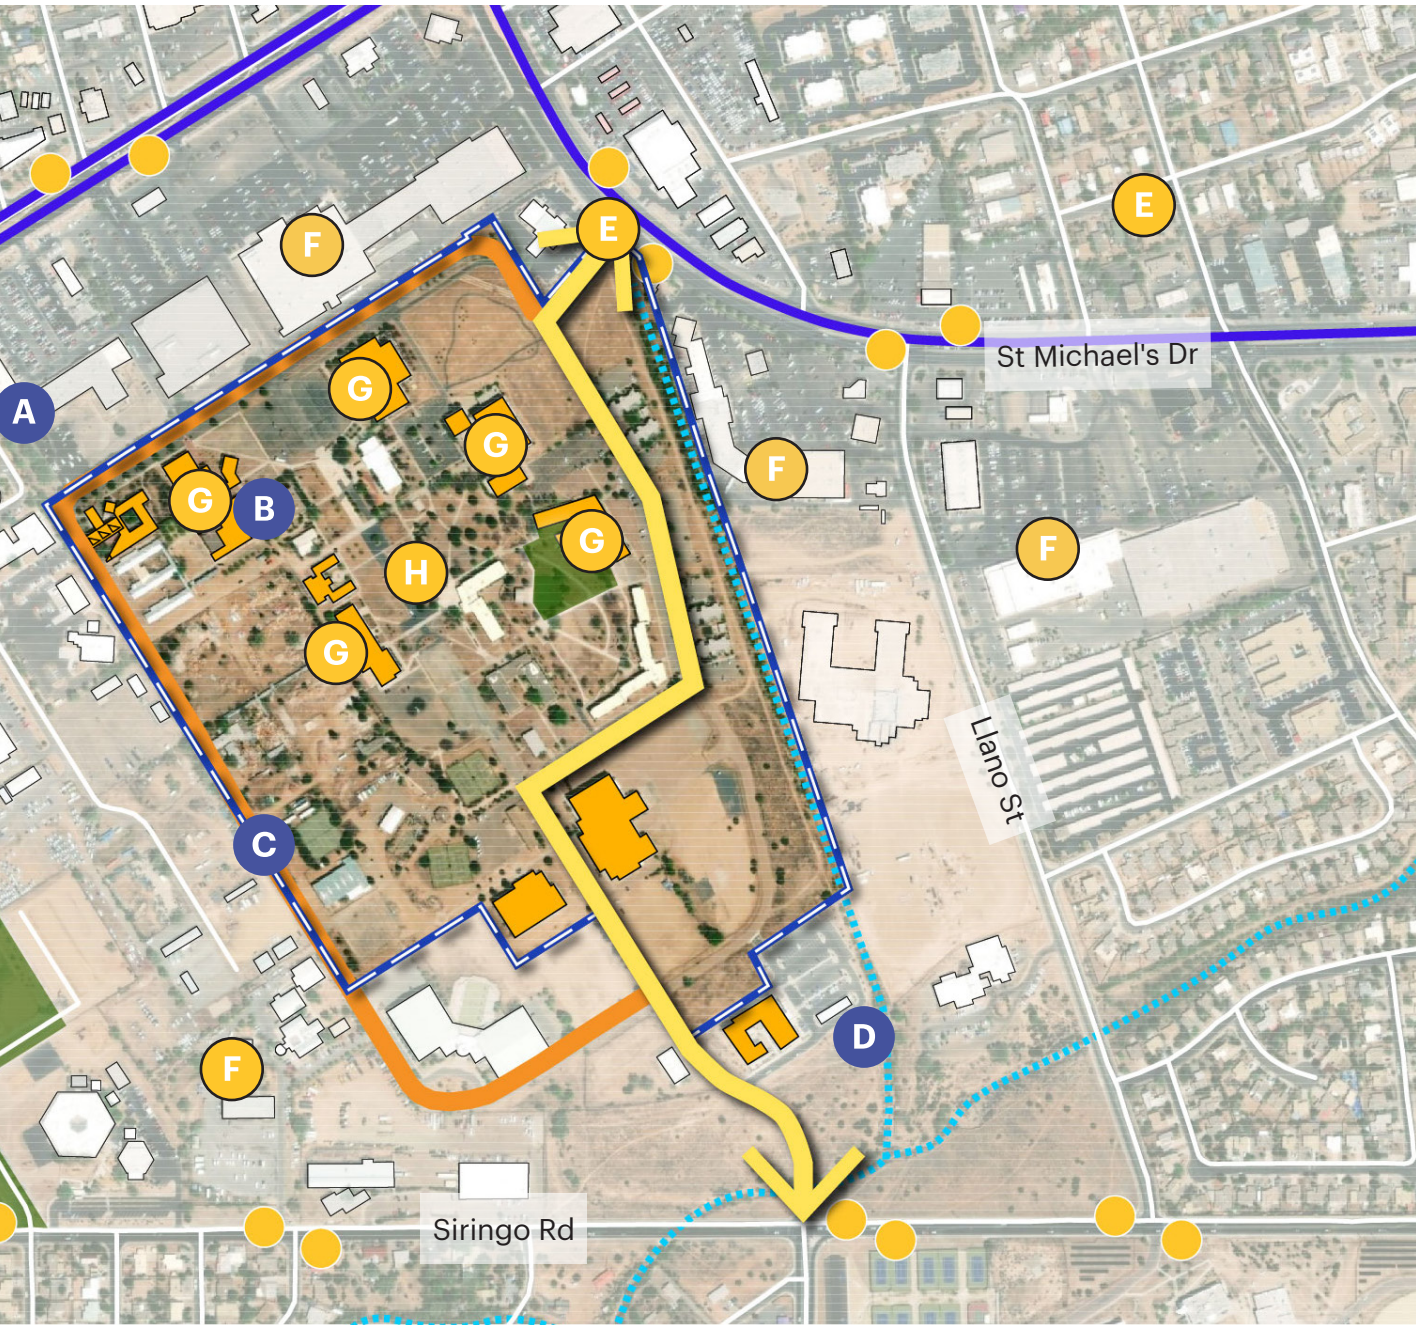
A **Poor External Connectivity**

B **Inconsistent Public Realm**



C **Some Infrastructure is Outdated**

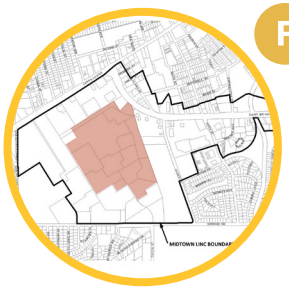
D **Poor Stormwater Infrastructure**



Existing Conditions

Legend

- The Midtown Site
- Major Streets
- Alumni Dr.
- Existing Bus Stop
- Existing Building
- Existing Arroyo
- Existing Open Space



Opportunities

E

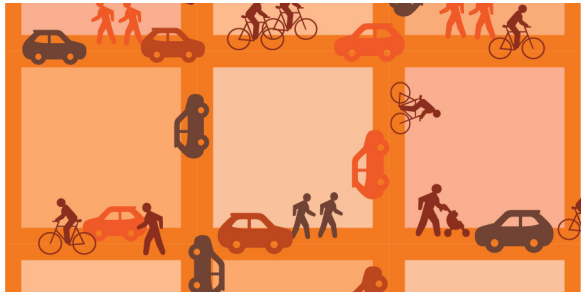
Connect Adjacent Neighborhoods to High School + Future Resources at the Site

F

Synergy with Midtown LINC Zoning Area

G

Some Buildings can be Adaptively Reused



H

New + Expanded Civic Amenities

Consideration

Isolated Site/ Poor Connectivity

Issue

Poor connectivity separates the Midtown Site from nearby neighborhoods and other hubs of culture and employment. Existing external connections are provided via single outlets to St. Michael's Dr. and Siringo Rd. via Alumni Dr.

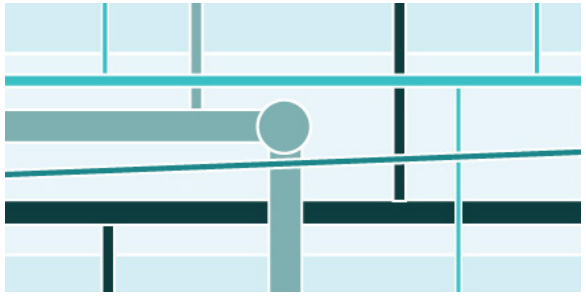
Opportunity

The Midtown Site, owned by the City of Santa Fe, is located in the heart of Santa Fe. Increasing connectivity to surrounding areas through improved crosswalks, and pedestrian paths can increase access and visibility. Additionally, improved crosswalks and pedestrian paths could provide access to the Hopewell-Mann residents and people using Franklin E. Miles Park.

Consideration

Inconsistent Public Realm

Issue



The quality of the Midtown Site public realm is inconsistent and does not provide a comfortable experience. Welcoming building frontages, wide sidewalks, street greenery, and lighting are lacking. The existing buildings and public realm do not relate in a coordinated manner, resulting in a disjointed experience across the Site.

Opportunity

The Midtown Site has the essential foundation for a well-connected street grid that can organize new buildings and create a pleasant public realm. New streets can incorporate high-quality public realm design, including trees, green infrastructure, and shade strategies to support walking, outdoor recreation and dining.

Consideration

Outdated Infrastructure

Issue

The lack of investment in existing utilities at the Midtown Site means that current systems are inadequate for future needs. Existing systems do not provide service across the entire Site and may not provide adequate capacity to serve the types of uses envisioned by the community for the Site. Additionally, existing infrastructure may not be suited to support current best practices for sustainable development.

Opportunity

Upgrades to existing and additional utilities provide the opportunity to build a modern, sustainable system of infrastructure that can support the electrification of climate control and vehicles, serve data-intense film studio activities and manage water efficiently and sustainably.

Consideration

Poor Stormwater Management

Issue

The Midtown Site lacks adequate stormwater management infrastructure to support the development envisioned in the Site. Existing facilities are inadequate for additional service development and do not take advantage of low-impact, green design strategies.

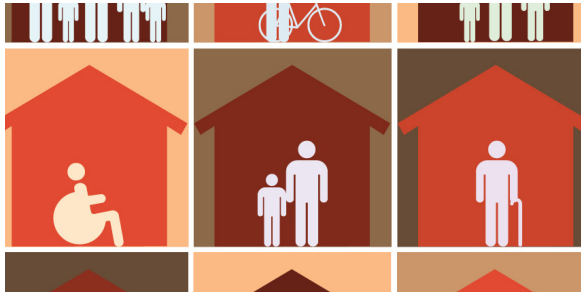
Opportunity

The availability of open land and existing topography can benefit the design and development of a sustainable stormwater management system. Integrating stormwater facilities with new streets, public spaces, and infrastructure can manage existing and anticipated stormwater runoff while contributing to a high-quality public realm for the Midtown Site.

Consideration

No Multi-modal Options

Issue



Internal pedestrian and bike connectivity at the Midtown Site are inconsistent, and there is limited access to nearby bus and rail connections. Existing pedestrian facilities are not readily accessible to and usable by people of varying abilities and people who require mobility assistance.

Opportunity

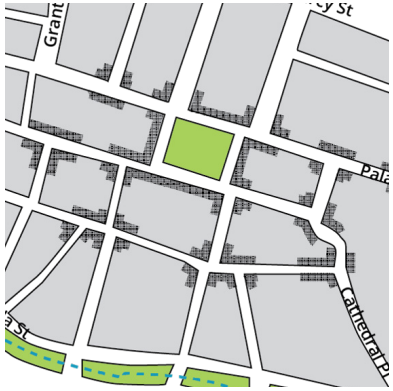
The Midtown Site can become a model for development that accommodates diverse users with different transportation needs, preferences, and abilities and prioritizes modes of transportation other than the private automobile. Promoting alternate transportation can reduce environmental pollution, encourage physical activity, and contribute to a healthier community.

Consideration

"One-size Fits All" Zoning

Issue

Existing residential zoning is inadequate to deliver a vibrant mixed-use district despite the presence of the Midtown LINC Zoning Area. Allowed uses, required public realm, and building form standards are inconsistent with the community's vision for the Site.



Opportunity

The redevelopment of the Midtown Site is an opportunity to introduce design standards that provide a model for the practice of zoning in Santa Fe and promote sustainable development. New development standards that are more prescriptive than what exists in the Midtown LINC Zoning Area can provide a roadmap for the incremental growth of the Site and adjacent areas over time.

2.3 Santa Fe Urban Form + Public Realm

Santa Fe Historic Plaza

Historic Downtown's and Historic Plaza urban configuration.

Santa Fe's unique sense of place is defined by its buildings and public spaces. Learning from the urban form elements that make up Santa Fe can help inform the Midtown Site's design and reinforce the Santa Fe sense of place.

Historic Urban Form + Landscapes

Santa Fe's memorable historic center is a result of unique urban elements. The block hierarchy, the mix of building scales, and the architectural "Pueblo Style" contribute to its distinctive sense of place and identity. The Historic Plaza is an excellent example of the New Mexico plaza traditions because of its orientation (north-south), the ratio of length-to-width (1.15), degree of "enclosure" by adjacent buildings (2 to 3-story buildings), and size (325' x 275').

Existing Urban Form, Pueblo + Abobe

Santa Fe's urban form is unique in scale, frontage articulation, construction technique, and materials. Overall, the importance of frontage dominates the urban character, particularly how building frontages address the sidewalk and the public realm. Elaborate architectural elements found in Santa Fe are references to the sophisticated Pueblo vernacular style and the adobe-like construction. Nowadays, although the adobe style dominates the city, Santa Fe has a diversity of architectural styles, including examples of Victorian, Italianate, and California Mission Revival styles.

Public Realm

Santa Fe's narrow streets, small alley-ways, and Historic Plaza have contributed to its strong public realm related to religious, civic, and commercial participation.

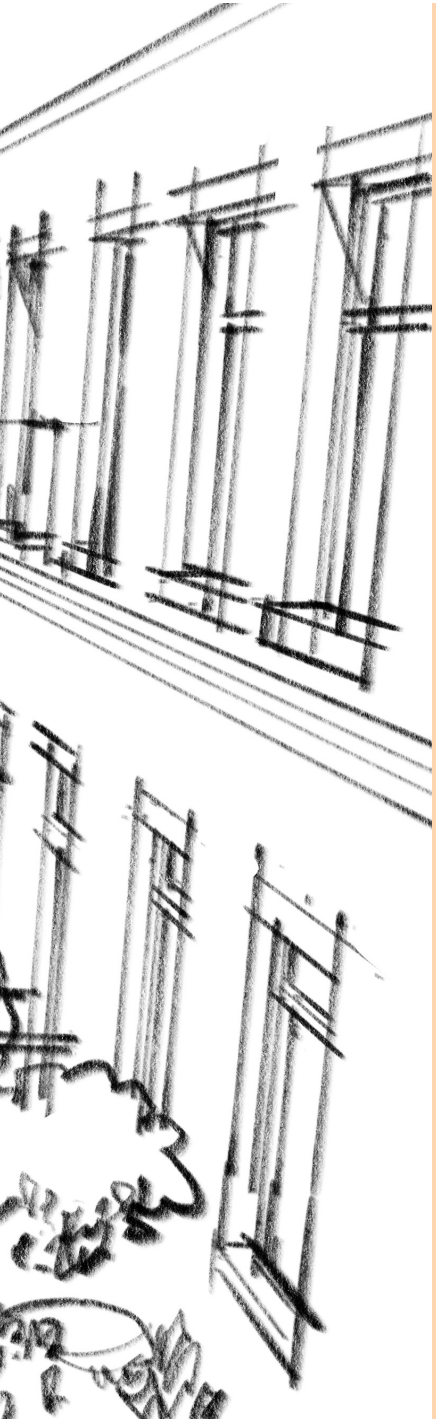
Frequent and offset T-intersections create a sense of enclosure and make the streets feel like outdoor rooms. Looking down a street towards a T-intersection – or "terminated vista" – provides an opportunity for signature buildings to take pride of place at the end of the street. Architectural elements, such as covered passageways and arcades (portales) provide shelter from rain or sunlight. These elements reinforce Santa Fe's unique sense of place driven by the local climate and culture. As a result, the public realm is categorized into formal open spaces, like the Historic Plaza, and informal open spaces, like the Alameda. Both complete the public realm of the Historic Downtown.

Historic Plaza
The Historic Plaza is a place full of history and memories and is a central part of Santa Fe's civic life. Its symbolic and functional presence serves everyday public activities and annual art and music events.

Cultural Anchors
Landmarks can be found all around Santa Fe. The Cathedral Basilica of Saint Francis of Assisi is placed at high ground anchoring the Downtown. More cultural places, like museums and galleries and the Palace of the Governors, add to its rich and diverse public realm.

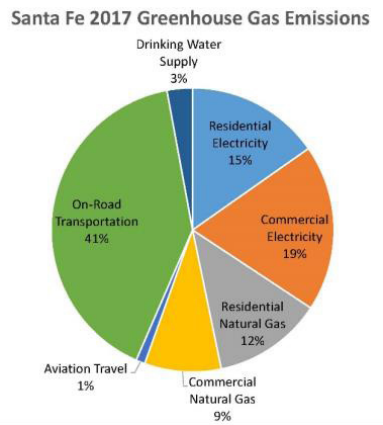
Community Gathering Spaces
Open spaces and parks are essential to Santa Fe residents for community gatherings, fiestas, civic events, and religious processions. Big open spaces like Franklin E. Miles Park have been restored after community involvement and attract many youth and adult users.

Distinct Urban Form
Santa Fe is known for the "Santa Fe Style" - a homogeneous Spanish/Pueblo architectural style. It contains pueblo-style adobe exteriors, thick hand-plastered walls, carved wooden doors, exposed natural wood vigas, and earthy hues.



Climate-responsive Architecture
Santa Fe's architecture has adapted over time to include elements that contribute to temperature control through shading, cooling, and ventilating. The courtyard and the continuous arcade frontages help mitigate heat effects, protect from bad weather conditions, and provide shelter.

Water as a Form-Giver
Water has always been a precious resource for New Mexicans. Settlements had to be constructed near water sources, which affected the location of historical patterns of development.



3. Urban Design Vision

In this chapter

3.1 The Midtown Site Development Vision	38
3.2 Connectivity + Mobility	40
3.3 Integrated Stormwater Management	44
3.4 Civic + Open Spaces	48
3.5 Urban Form + Building Scale	54
3.6 Place-based Approach	58
3.7 Development Program + Phasing	60
3.8 Affordable Housing	64
3.9 Reinforcing Community Health Through Urban Design	66

3.1 The Midtown Site Development Vision

In 2020, the U.S. Green Building Council (USGBC) awarded the City of Santa Fe with LEED Gold Certification for its exceptional performance in fostering a sustainable, resilient city.

Development at the Midtown Site will provide a model for equitable development and sustainable urbanism and will become a new center of culture and community for Santa Feans.

A Sustainable Development Model

Sustainable development at the Midtown Site (the Site) encompasses environmental protection, social equity, and economic prosperity. The Midtown Master Plan (Plan) promotes sustainable development in an integrated manner by coordinating the design of streets, open spaces, stormwater management, and new and reused buildings to deliver a sustainable, complete neighborhood. By integrating design and policy considerations, development at the Site can model a holistic approach to sustainability, delivering on the Santa Fe community's economic, social, and environmental goals.

The Plan provides design standards at the scale of a building and at the scale of a neighborhood to achieve a comprehensive and holistic design vision for the Site. At the scale of the building, sustainability strategies can be implemented through the design and retrofit of new and existing streets, construction of new buildings and public spaces, and the reuse of existing facilities. At the scale of the neighborhood, sustainability strategies related to the layout of new streets and the location and massing (size and footprint) of buildings can provide a holistic approach for future sustainable development at the Site.

Additionally, the Plan provides opportunities to realize community priorities regarding housing affordability and economic opportunity at the Site. By coordinating the layout of blocks and lots with the development standards, the Plan enables new affordable housing and employment-generating uses.

Vision for Sustainable Development with LEED-ND

To promote sustainable design at all levels, the Plan lays the groundwork for achieving certification through the sustainable design certification program of Leadership in Energy and Environmental Design for Neighborhood Design (LEED-ND), administered by the United States Green Building Council. LEED-ND recognizes new developments that achieve sustainability and energy efficiency by building in a compact, walkable, and accessible way.

The LEED-ND system rates neighborhood development according to four categories:

- Smart location + linkage;
- Neighborhood pattern + design;
- Green infrastructure + buildings, and
- Innovation + design process.

The Plan has been guided by LEED-ND principles. The development standards included in the plan have been coordinated with LEED-ND criteria to promote environmentally sustainable design at the Site and satisfy LEED-ND certification requirements.

The Midtown Site as a Walkable, Mixed-use Environment

The Midtown Site is envisioned as a vibrant, walkable, and mixed-use center for Santa Feans. A mix of uses in new and existing buildings will promote sustained economic growth and deliver a high-quality environment for people living, working, learning and visiting at the Site. New housing choices will make the Site into a complete neighborhood, along with a variety of open spaces and other community-oriented uses.

Historical + Cultural Inspiration

Development in the Site will refer to Santa Fe's culture and history and respond to the local climate and culture by retaining existing buildings important to the community and integrating civic spaces for cultural and artistic uses and gatherings. The development vision is also inspired by urban elements distinct to Santa Fe, such as the composition of continuous arcades and the use of the Historic Plaza as a community space.

WALKABLE NEIGHBORHOODS

*For the purpose of this Plan, **walkable** describes places where a person can walk, roll or bike to fulfill daily needs. These environments allow for use of automobiles but do not require one for every trip.*

Walkable does not mean only recreational walking such as on paths and trails, but rather walking to a destination like work, a café, park, community center, and other amenities.

3.2 Connectivity + Mobility

Development will enhance accessibility at the Midtown Site by providing new connections to and within the Site and supporting mobility options for Santa Feans of all abilities.

The Midtown Site Connectivity Goals

- Improve access to outdoor recreational facilities such as parks and green spaces.
- Build or enhance infrastructures such as sidewalks, paths, and trails to support walking, rolling, and bicycling for active transportation and recreation.
- Improve access to public transportation.
- Improve access to community-serving uses at the Site, such as the new Library, by providing safe and convenient routes for walking, rolling, and bicycling from nearby neighborhoods.
- Enhance personal and traffic safety in areas where people are or could be physically active.

East - West Connectivity Goals

- Connect to adjacent neighborhoods, such as Hopewell-Mann neighborhood, and Franklin E. Miles Park.
- Prioritize pedestrians and cyclists over vehicles.
- Provide access to transit along St. Michael's Dr.
- Deliver good internal connectivity.

North - South Connectivity Goals

- Connect to regional trail systems such as the Arroyo de Los Chamisos Trail.
- Provide access to transit on Cerrillos Rd. and Siringo Rd.
- Minimize cut-through traffic.

Equitable, Sustainable, Multimodal Connectivity + Mobility

The Midtown Master Plan acknowledges different user needs by introducing various mobility and connectivity options. Multimodal street design accommodates diverse users with varying transportation needs, preferences, and abilities. The proposed multimodal street design includes a forward- thinking, flexible design that can integrate stormwater and green infrastructure technologies and allows for environmental sustainability.

Complete Streets

The vision for the Midtown Site is one in which users choose to meet their daily needs by walking, rolling, bicycling, taking transit, and ridesharing. The Complete Street concept prioritizes space-efficient modes of transportation — pedestrians, bicycles, and transit — when allocating space on streets and maximizing the capacity to move people and goods. An essential aspect of the Complete Street concept is universal access and the design of features that make streets safe and comfortable for people of all ages and abilities. Policy and design guidance in this Chapter ensures that the entire right-of-way is planned, designed, constructed, operated, and maintained to provide safe access for all users, and that connections between destinations provide for safe and convenient access within Midtown and to destinations around Santa Fe.

Connectivity + Mobility Vision

For more information on the vision for connectivity and mobility at the Midtown Site, see Chapter 4 (Connectivity and Mobility Vision). For more information about standards for street design, see Chapter 5 (Development Standards).

No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner,

Access + Connectivity Vision

Legend

- The Midtown Site

- Existing Bus Stops
- New Paseos/ Pedestrian Paths
- Major Roads + Access Points
- Long-range Streets
- Existing Buildings to be Adaptively Reused
- New Plazas + Parks
- New Open Space/ Linear Park
- Existing Open Space

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Dedicated Bike Lanes *Protected bike lanes make bicycling safe for all ages. Image courtesy: www.metaefficient.com.*

Slender, Low-Speed Streets *Slender, low-speed streets help to create family-friendly public places. The image above shows a slender. low-speed street, Octavia Boulevard, in San Francisco.*

Complete Streets Principles + Vision for Streets at The Midtown Site

Multimodal. Each street serves all users by balancing the needs of automobiles, buses, and trucks with those of pedestrians and cyclists. Multimodal is achieved in different ways and by using different strategies depending upon the use of the street and prioritization.

Context Sensitive. Each street is designed to work within the area's existing or intended physical context.

Physical Appeal. Each street is designed integrally with the public realm — the spaces between buildings such as sidewalks and parks — keeping in mind the needs of different user groups. For additional information on Complete Streets, visit www.smartgrowthamerica.org/complete-streets.

Streets for All Users. The transportation system serves a variety of users, including people traveling on foot, bike, wheelchair, bus, and automobile. Travel to and from the Midtown Site marks the beginning and end of a person's experience, establishing vital first and last impressions of the Site. Moreover, convenient access to the Site through a well-connected and effective multimodal transportation network is an essential component of the overall experience for existing neighborhood residents and future residents, employees, and visitors.

Streets as Public Spaces. Beyond their role as conduits for the movement of people and goods, streets host social interactions, provide space for community gatherings, and influence public life. Designing streets as public spaces where people want to spend time maximize their contributions to the public realm.

Streets in Support of the Economic Development. Businesses benefit from streets that efficiently move and transfer goods while attracting and serving customers.

Streets to be Adaptable. A multitude of design options is possible within a given street width. Street designs can change as the needs of their users evolve. Interim design treatments using paint and movable planters can demonstrate the effectiveness of design concepts while gradually adjusting user travel behaviors.

Streets Designed for Safety. Conflicts between people walking, driving, and bicycling are inherent on multimodal streets. Good street design considers sources of multimodal conflicts to minimize the potential for collisions.

Streets are Ecosystems. Streets are designed as ecosystems where man-made systems interface with natural systems.

COMPLETE STREETS

Example of a Complete Street
Showing features that create a context-sensitive, pedestrian-oriented public realm.

A Pedestrian Prioritization at Intersections
Design intersections to reduce wait times for pedestrians needing to cross the street.

B Intelligent Traffic Signals
Use intelligent traffic signals to control traffic flow, transit, and pedestrian crossing safely and efficiently.

C Comfortable Bicycle Facilities
Design bicycle facilities to create space for bicycles and protect them from moving cars.

D Minimum Vehicular Travel Lanes
Reduce the number and width of travel lanes to provide traffic calming and enable wider sidewalks.

E Enhanced Crosswalks
Design crosswalks to make the pedestrian experience safer and easier.

F Wide Sidewalks
Design sidewalks for a comfortable pedestrian experience for all ages and sidewalk dining with the widest sidewalks on shopping streets.

G Street Trees
Select species that thrive in urban environments provide shade and beauty and reduce air pollution.

H Green Infrastructure
Design Infrastructure that adds visual interest while directing stormwater directly to the soil to allow groundwater recharge.

I Ease of Maintenance
Reduce the cost of maintenance for streets through a selection of durable materials.

J Universal Design + Visitability
Include universal design features where possible to enable people of all abilities to use streets and sidewalks safely and comfortably.

3.3 Integrated Stormwater Management

The Plan advances applications of conventional stormwater management practices and implements improved code compliance strategies to provide water quality benefits, flood resilience, and peak flow improvements.

Vision for The Midtown Site

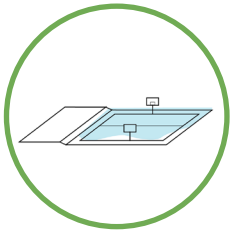
The Midtown Site integrates low-impact development (LID) and green infrastructure (GI) in its open spaces and public plazas, parks, paseos, and streets, to treat and address stormwater runoff at its source. The proposed strategies restore natural hydrologic processes to improve water quality and groundwater recharge, cultivate a robust urban ecology, protect the Site and adjacent communities from flooding impacts, and reduce erosion in Arroyo de Los Pinos. Integrated GI strategies support complete streets and improved pedestrian safety and promote recreational and educational opportunities for sustained social engagement and environmental stewardship.

The open space and stormwater management vision for the Site has been developed through a collaborative process, with input from community members, City of Santa Fe agencies and departments, and design and engineering teams.

Stormwater Strategies

The vision is to use a suite of best management practices (BMPs) which have the ability to work in concert with each other to meet the Site's water quality, retention, and flood protection goals:

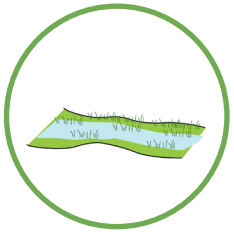
- **Water quality and retention** through treatment, evapotranspiration, and infiltration. The development will implement water quality treatment facilities within private development parcels and the public right of way (PROW) throughout the Site. Water quality facilities are required within individual private parcels to treat the first flush (see Section 6.2 Policy for the Midtown Site + Surrounding Area) to the maximum extent practicable. Strategies include bioretention areas, flow-through planters, bioswales, tree box filters, permeable sidewalks, parking lanes, and runnels.
- **Conveyance features** within the PROW to safely move stormwater through the district while maximizing ecological benefit and protecting infrastructure from flooding. The Site integrates open channel and closed pipe conveyance across. Strategies include drainage channels, infiltration galleries/trench drains, and



roadside bioswales, coupled with an underground storm drain system at the periphery of the Site.

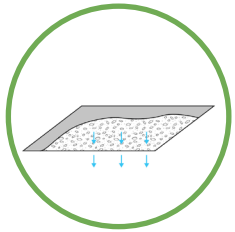
- **Peak flow and volume mitigation** provided by the decentralized BMPs (bioretention, permeable surfaces, drainage channels) proposed across the Site contribute to reducing peak flow and runoff volumes for frequent storms and for large, infrequent storm events (e.g., storm events with up to 50 or 100-year return period) where feasible. A centralized stormwater basin will manage the remaining runoff by retrofiting the existing pond, which will detain and retain additional stormwater as needed so that the peak discharge to Arroyo de Los Pinos is not exceeded.
- **Flood resilience** in the design of infrastructure and open spaces. Open space features, such as fields and courts, will be depressed to allow for additional flooding capacity within the system during extreme events beyond the 100-year design storm.

Integrated Open Space + Stormwater Management



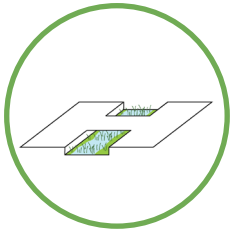
Integral to the success of the Midtown Site's stormwater and open space vision is the seamless integration of proposed stormwater strategies into the urban fabric, open spaces, and thoroughfare typologies described throughout this document. Successful integration will promote cross-cutting benefits within the public realm, including:

- **Complete street enhancement.** The Midtown Site prioritizes bicycle and pedestrian-focused environments with safe, comfortable, inviting, and visually legible wayfinding systems. Complete streets optimize space within the PROW for walking, sitting, and gathering — activities further enhanced by integrating green infrastructure elements such as bioretention and drainage channels. Green infrastructure is incorporated to promote traffic calming (i.e. bioretention bulb-outs).
- **Urban ecology and heat-island impact.** Vegetated and naturalized stormwater conveyance systems, and tree corridors, provide shade and reduce the urban heat island effect. Stormwater BMPs enhance infiltration and evaporation, hydrating soils and promoting a healthy urban canopy. Bioretention areas and vegetated BMPs provide pockets of urban habitat.
- **Dual purpose, resilient spaces.** Elements within open spaces such as plazas, parks, and courtyards can be designed for emergency detention during extreme; climate-change influenced storm events (e.g. floodable playgrounds, depressed landscape areas).
- **Educational infrastructure.** Visible green infrastructure draws attention to stormwater and climate issues, providing an educational opportunity for the Site and the surrounding community. Signage can be incorporated to enhance specific strategies and features.



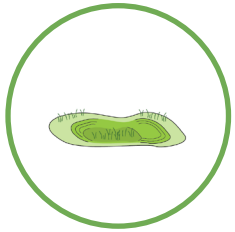
FLOODABLE SPACES

Non-critical open spaces used as a buffer for extreme storm events. The floodable space can be set at slightly lower elevations than surrounding roads and buildings, protecting against flooding of critical infrastructure.



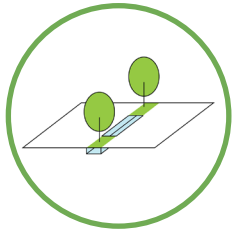
BIOSWALE

Vegetated swale designed to treat, convey and infiltrate runoff from adjacent roadways.



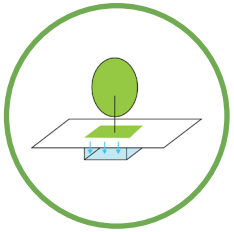
PERMEABLE PAVING

Permeable pavements are appropriate as a retention strategy where infiltration rates are adequate. Consider pervious materials to reduce runoff from site hardscapes and promote infiltration.



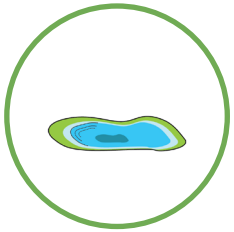
DRAINAGE CHANNELS

Open channels used to convey and detain runoff in street with a wider right-of-way.



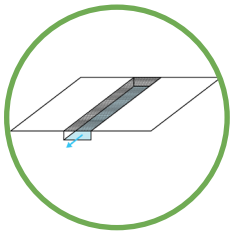
BIORETENTION AREAS

Larger bioretention facilities where space is available to contour the basin into the surrounding site and landscape naturally.



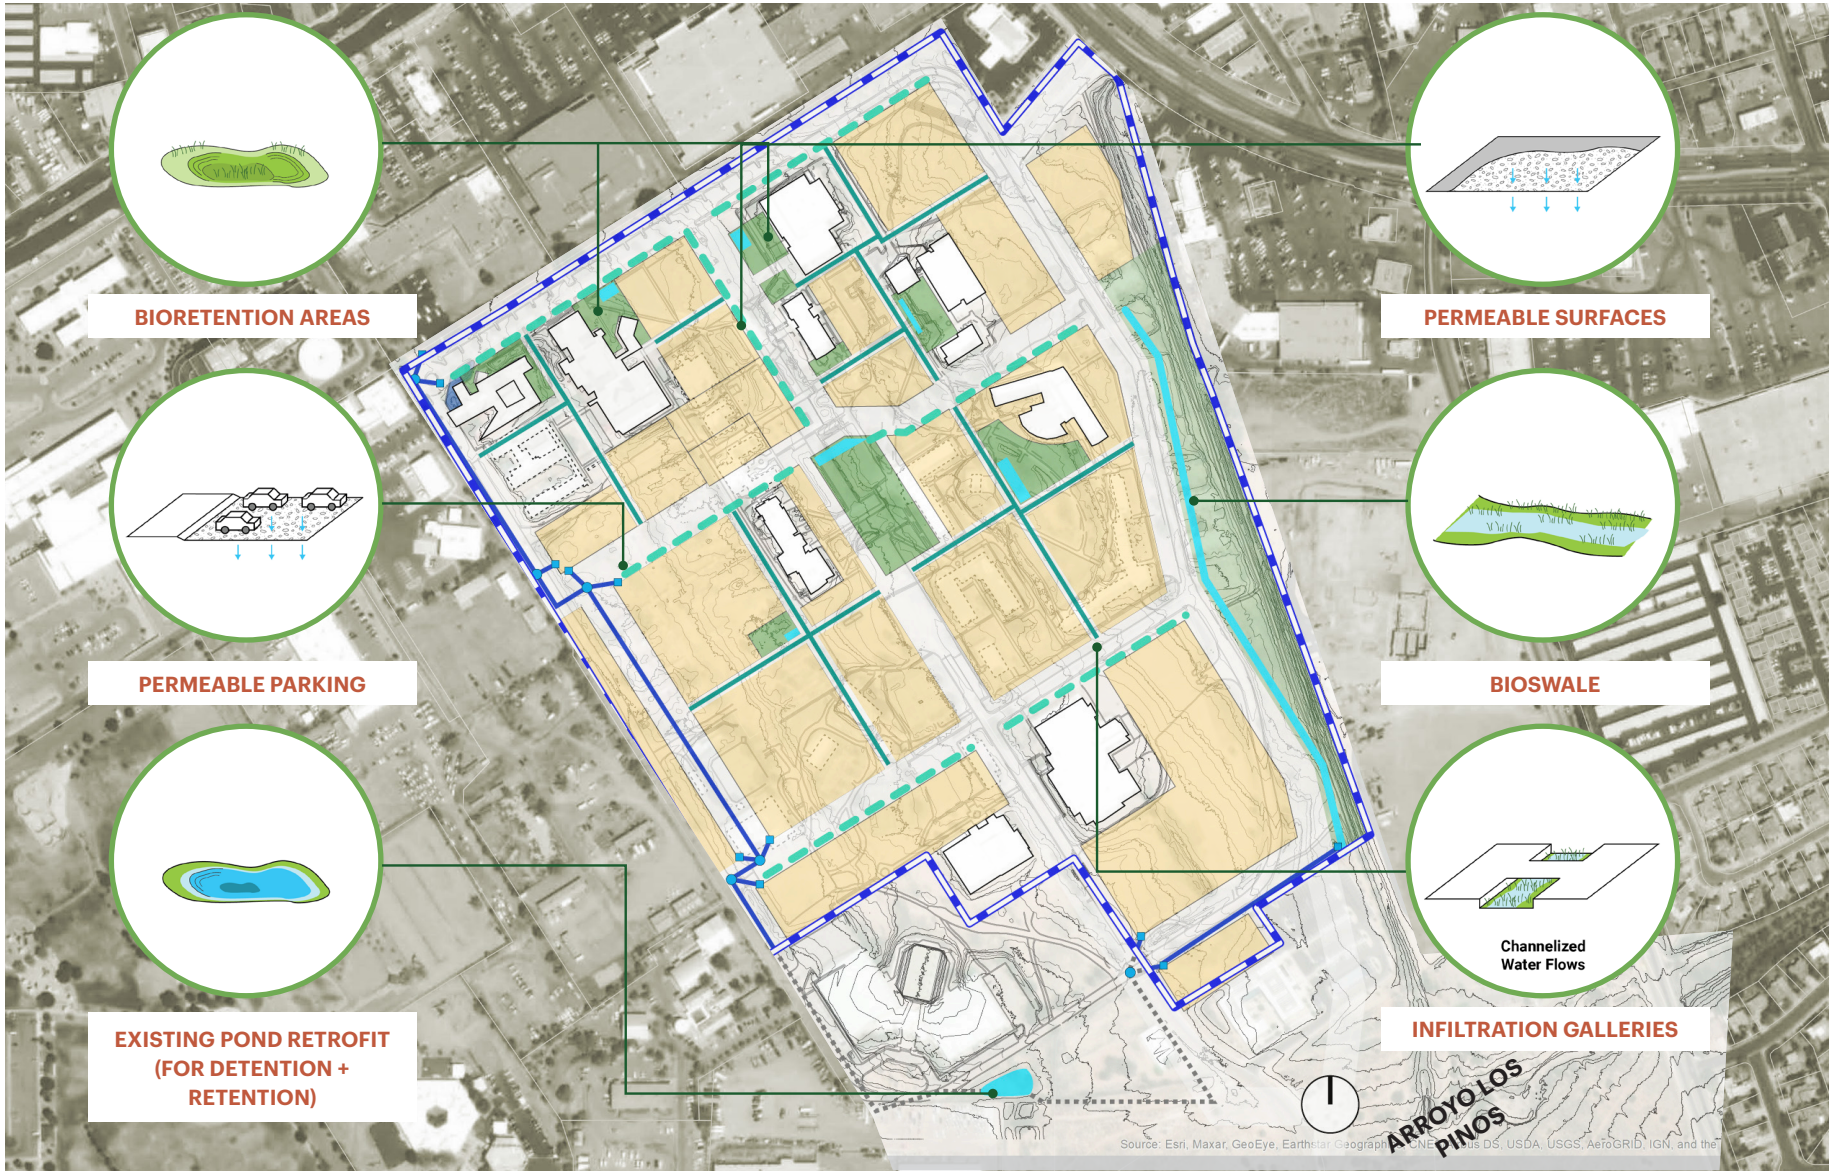
FLOW-THRU PLANTERS

Flow-thru planters (FTPs) are structured biotreatment facilities typically designed with concrete curb-walls and used in more space-constrained locations.



TREE BOX FILTER

Bioretention treatment integrated into treewells, appropriate for use in narrow PROWs adjacent to proposed stormwater inlets.



STORMWATER BASIN (EXISTING POND RETROFIT)

Used at the end of the stormwater management train, to detain and retain stormwater runoff.

INFILTRATION GALLERIES / TRENCH DRAINS

Infiltration galleries and trench drains integrated into urban, pedestrian-oriented areas to convey water at the surface while maintaining circulation.

Integrated Stormwater Management Vision

Legend

- The Midtown Site
- Open Channel/ Drainage Channel
- Stormwater Pipe

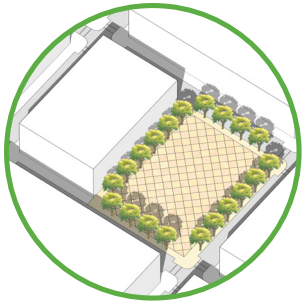
- Bioswale
- Storm Catch Basins
- Storm Manholes
- Bioretention Areas

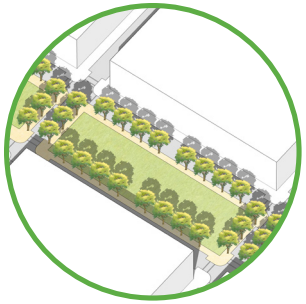
3.4 Civic + Open Spaces

Variety of Civic + Open Spaces



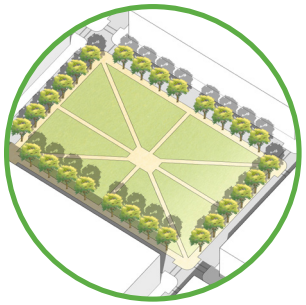
The Midtown Site includes a variety of civic and open spaces such as a grand plaza, pocket parks and plazas, a linear open space with trails, and intimate pedestrian paseos. The open space network is designed to be convenient to access, comfortable to use, and provide facilities and spaces for various activities and community needs. Places for gathering, such as the central plaza, encourage a sense of belonging and provide a venue for cultural activities and community celebrations.

Franklin E. Miles Park will continue to play an essential role as a space for recreation and other outdoor activities, and it is part of the new connections between the park and the Site. The ballfields and skate park at Franklin E. Miles Park will be more accessible to residents of the Site and surrounding neighborhoods. A network of pedestrian paseos provides a high degree of pedestrian connectivity within the Site and links all civic and open spaces across the Site. New pocket parks and pocket plazas in private developments provide additional open spaces for people living and working at the Site.

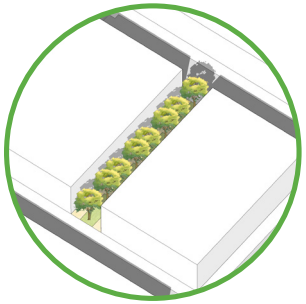


The civic spaces presented in this Section are regulated by standards included in Chapter 5 (Development Standards).

Objectives for Open Space Design

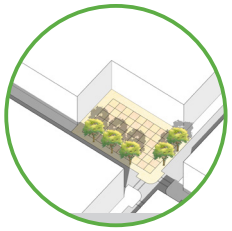


- Provide a variety of spaces to accommodate diverse uses and activities.
- Include facilities access safe and easy to access for pedestrians and people riding bikes.
- Provide shade and select tree species that thrive in Santa Fe.
- Design spaces for simple and cost-effective maintenance.
- Use principles of universal design and visitability to create accessible spaces.

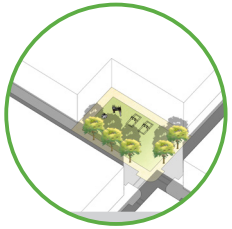


A Plaza *Community-wide focal space designed to accommodate both passive daily use and special community activities such as markets, community celebrations, and festivals.*

B Arroyo Park *Open space arranged in a linear composition along the existing arroyo to provide a natural environment for passive recreation.*

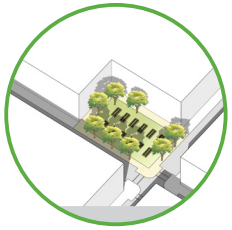


C Quad Park *An informal space where adjacent buildings provide a sense of enclosure. Pathways running through or around the space provide access through the park. Programmed areas are located among informal plantings or lawn/open areas.*



D Paseo *A pedestrian pathway that connects a street with another street or block interior is lined by ground floor entries to residential or live/work units and shopfront.*

Open Space at The Midtown Site	
Open Space Types	**Min. Area**
Civic Spaces	5.2 ac
+ Paseos	3.3 ac
+ Open Spaces on Community-Oriented Use parcels	0.4 ac
+ Open Spaces on Development parcels	20.5 ac
Total Minimum Open Space at the Midtown Site	**29.4 ac**



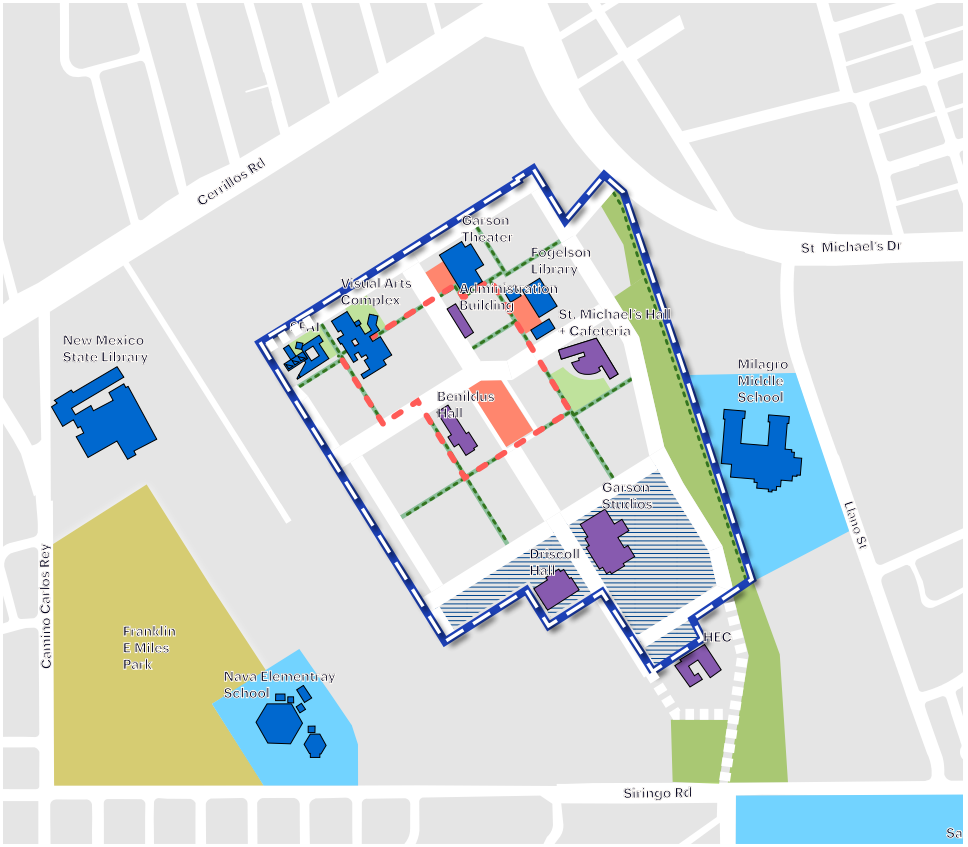
The following civic space types can be integrated with other types and/or used to satisfy open space requirements detailed in Chapter 5 (Development Standards).

Pocket Plaza or Pocket Park *Small-scale open space for informal activities, with seating and shade, sometimes at the intersection of two paseos.*

Playground *Space designed and equipped for children's recreation, with shade and visibility from a street or paseo.*

Community Garden *A grouping of garden plots available to nearby residents for small-scale cultivation.*

Above, the Historic Santa Fe Plaza is shown at the same scale as the Open Space Plan for the Midtown Site. While the Plaza at the Site could be a different shape, it is intended to be similar in size to the Historic Plaza.



Civic, Cultural + Community Spaces

The Plan integrates a variety of civic spaces designed to support community activities. Additionally, the Plan proposes rehabilitating and reusing several significant existing buildings to stabilize, enhance and promote community arts and culture. These include the Visual Arts Complex, which will be repurposed as a Community Arts and Culture Hub, the Fogelson Library complex, which will get new life as a public library and community learning and innovation center, and the Greer Garson Theatre. Pocket plazas are placed adjacent to several buildings to complement their community-oriented uses. A network of paseos links all these spaces together, forming a "necklace" of community-serving cultural spaces and civic spaces at the Midtown Site.

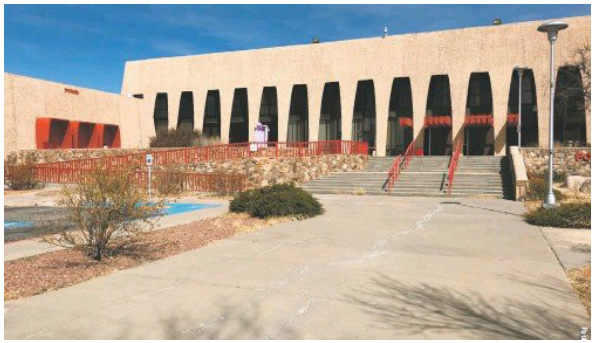
Civic, Cultural + Community Spaces

Legend

- The Midtown Site
- Existing Buildings for Cultural Community-oriented Uses
- Other Existing Buildings to be Adaptive Reused
- Existing School Site
- New Plaza/ Pocket Plaza
- "Necklace" of Community + Cultural Spaces
- Film Studio Area
- New Open Space/ Linear Park
- Existing Open Space
- New Paseos/ Pedestrian Paths
- Long-range Streets

The civic space network includes a variety of spaces that can accommodate multiple cultural activities and respond to specific community needs. A network of pedestrian paseos ties these spaces together in a "necklace" of community and cultural spaces.

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.



Civic Spaces + Community-oriented Buildings

Habitat Creation + Native Plants
The Arroyo Park can serve as an important open space and green connector between destinations in the Midtown Site. It also provides an opportunity to preserve and create habitats for native flora and fauna.

Midtown Plaza
The Historic Plaza in Santa Fe is an iconic place that attracts visitors from all over the country. It is considered a National Landmark, an exemplary case of a traditional Spanish-American plaza. The Plan proposes a central plaza for Santa Feans at the Midtown Site inspired by the Historic Plaza to be a place for community gathering and social interaction.

Fogelson Library
The Fogelson Library will operate as the City's Public Library branch. It is envisioned as a community anchor for the Midtown Site, attracting Santa Feans from across and allowing them to take advantage of services offered there. The Pocket Plaza in front of the library building can host community events related to library activities.

Community Activities

Community Food + Artisan Market
The Midtown Plaza is a central space suitable for pop-up markets where area artisans, small businesses, and food startups can make their goods available for sale to the Santa Fe community.

Community Arts + Culture Events
Plazas are spaces for community events and civic gatherings. The new Plaza in the Midtown Site will accommodate events at various scales since the streets around the Plaza are designed to extend the plaza space to the opposite sidewalks.

Literary Festivals with Fogelson Library + Nearby Schools
Civic spaces at the Midtown Site will host annual literary events to encourage engagement with writing and reading, such as book festivals to celebrate local authors, cooperative events with area schools to spotlight youth authors and publications, and Library Book Sales.

A New Center in Santa Fe

The Midtown Site is envisioned as a new Center for life in Santa Fe. The new Plaza will serve as a civic hub and a thriving cultural and community space that celebrates what makes Santa Fe unique. It will be an active space for special events and everyday activities and reflect Santa Fe's diversity and creativity.

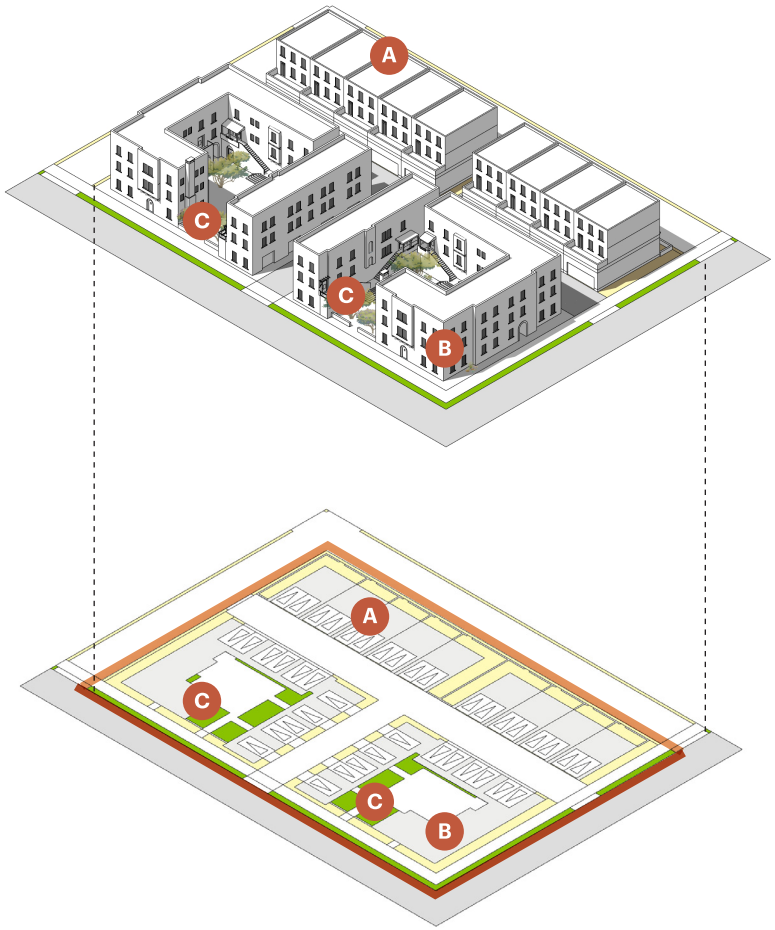
Buildings around the Plaza will frame the open space, and active ground floor uses will engage pedestrians. These active frontages and covered sidewalks will allow indoor activity to spill into the outdoors. Ample shade will be provided for pedestrians and passersby through arcades — covered sidewalks. This way, the Plaza will be a large "outdoor room" at the heart of the Site.

Vision

- **A** The Midtown Plaza will be similar in size to the Historic Santa Fe Plaza.
- **B** Covered sidewalks frame the Plaza and provide shade for pedestrians.
- **C** Opportunities for a mix of uses will activate the Plaza space.
- **D** Low-speed, curbless streets around the Plaza can be closed to vehicular traffic to create a larger Plaza space during special events.

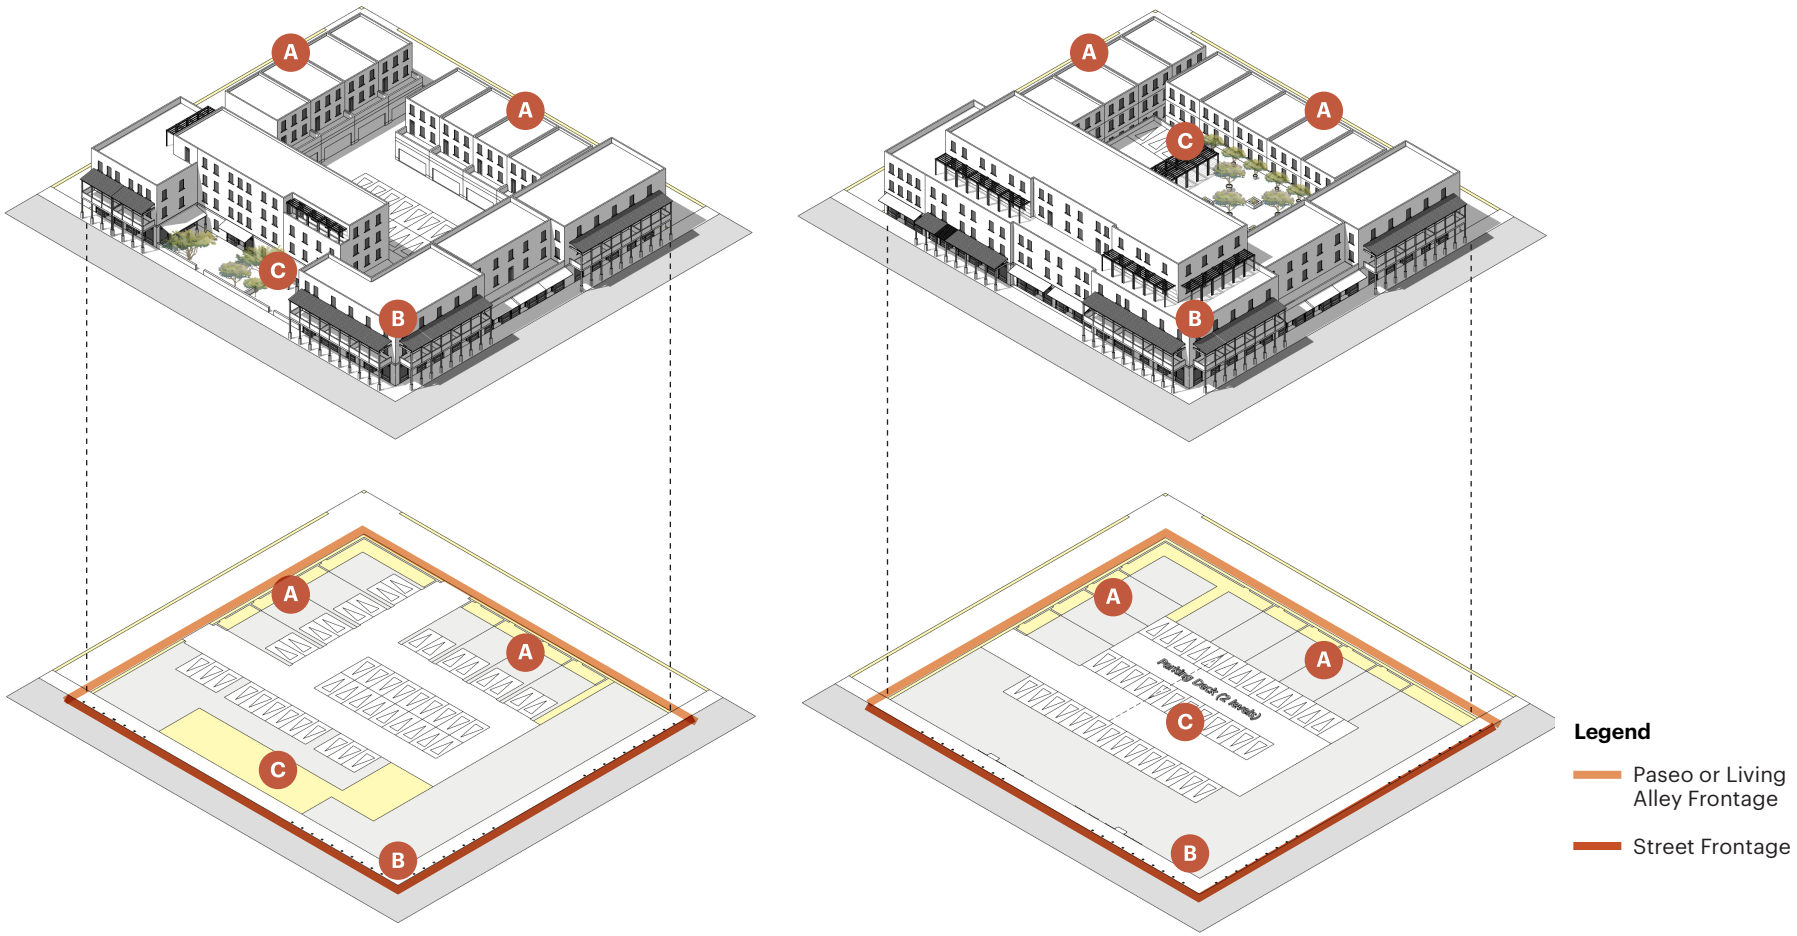
3.5 Urban Form + Building Scale

Development Blocks + Parcels



New development in the Midtown Site will happen incrementally over time. The Plan utilizes a street grid of larger development blocks broken into smaller development parcels by pedestrian paseos and living alleys. This concept is intended to provide development flexibility in response to changes in market conditions while prioritizing an urban environment with buildings oriented to streets and public spaces.

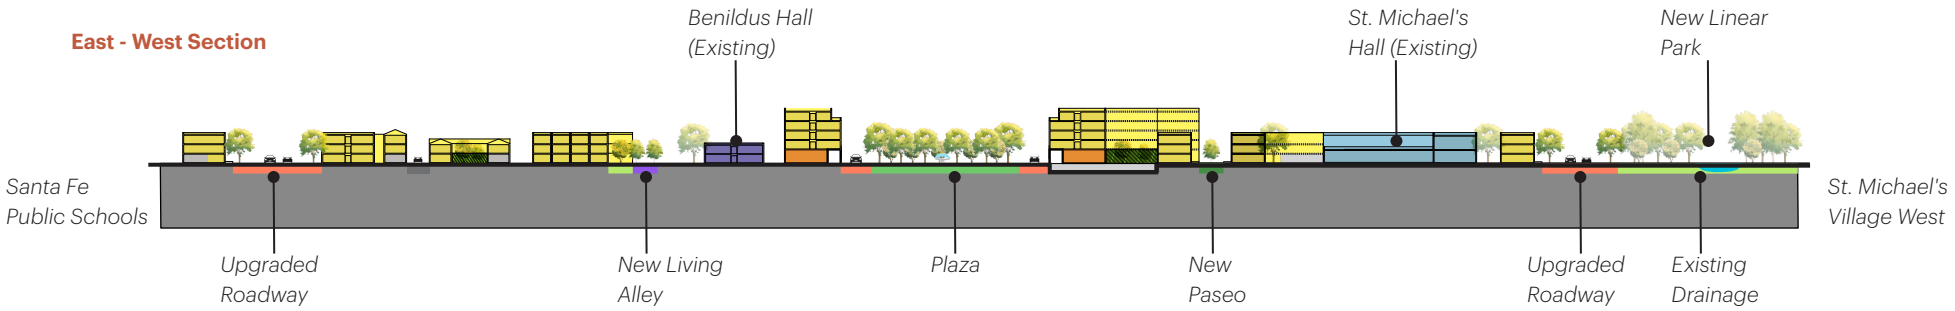
Blocks at the Site are scaled to promote walkability by limiting block face and perimeter dimensions according to the Development Standards Regulating Plan and the Thoroughfare Regulating Plan (see Chapter 5 Development Standards). A high degree of connectivity and intersection density diffuses traffic throughout the Site and provides multiple route options for people walking, rolling, and riding bikes.



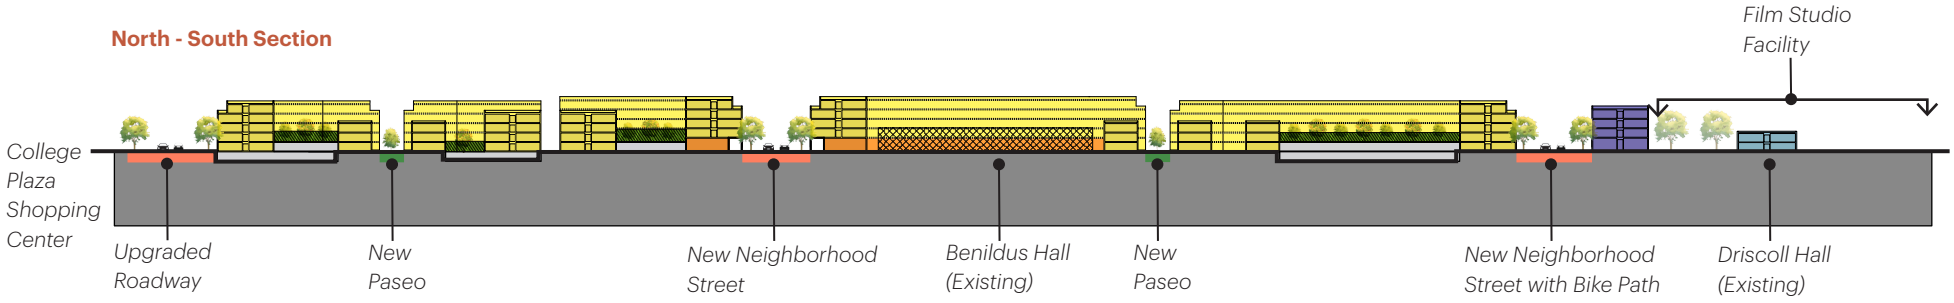
The diagrams to the right illustrate how a variety of building types and scales (size of building footprint and building height) can be arranged on a block. Larger, more intense buildings are located along the street frontages, while smaller buildings are located along the paseo frontages at the rear.

Parking and service areas are in the center of the block to not negatively impact street and paseo frontages. Open spaces in courtyards are connected to sidewalks, while frontage conditions such as shopfronts with awnings and galleries provide shade to promote a high-quality public realm by protecting pedestrians from sun and rain and support walking, rolling, riding bikes, and taking transit.

The variety of building types enabled by the Plan lays the groundwork for more housing choices for Santa Feans. It provides the opportunity for both affordable and market-rate housing in the Site. The Plan allows for both fee simple (for sale) and rental housing, along with other typologies such as co-living and community land trusts.



Lower Intensity Block Example
Courtyard Apartment/ Condo Buildings along streets A
Townhouses along paseos B
Multiple courtyards C
3 stories
1-2 parking spaces per unit; tuck-under parking



Medium Intensity Block Example
Mixed-Use Apartment/ Condo/ Office Buildings along streets A
Townhouses along paseos B
Courtyards at ground level C
Primarily 3 stories, some 4 story buildings
1-2 parking spaces per unit; parking lot + tuck-under parking

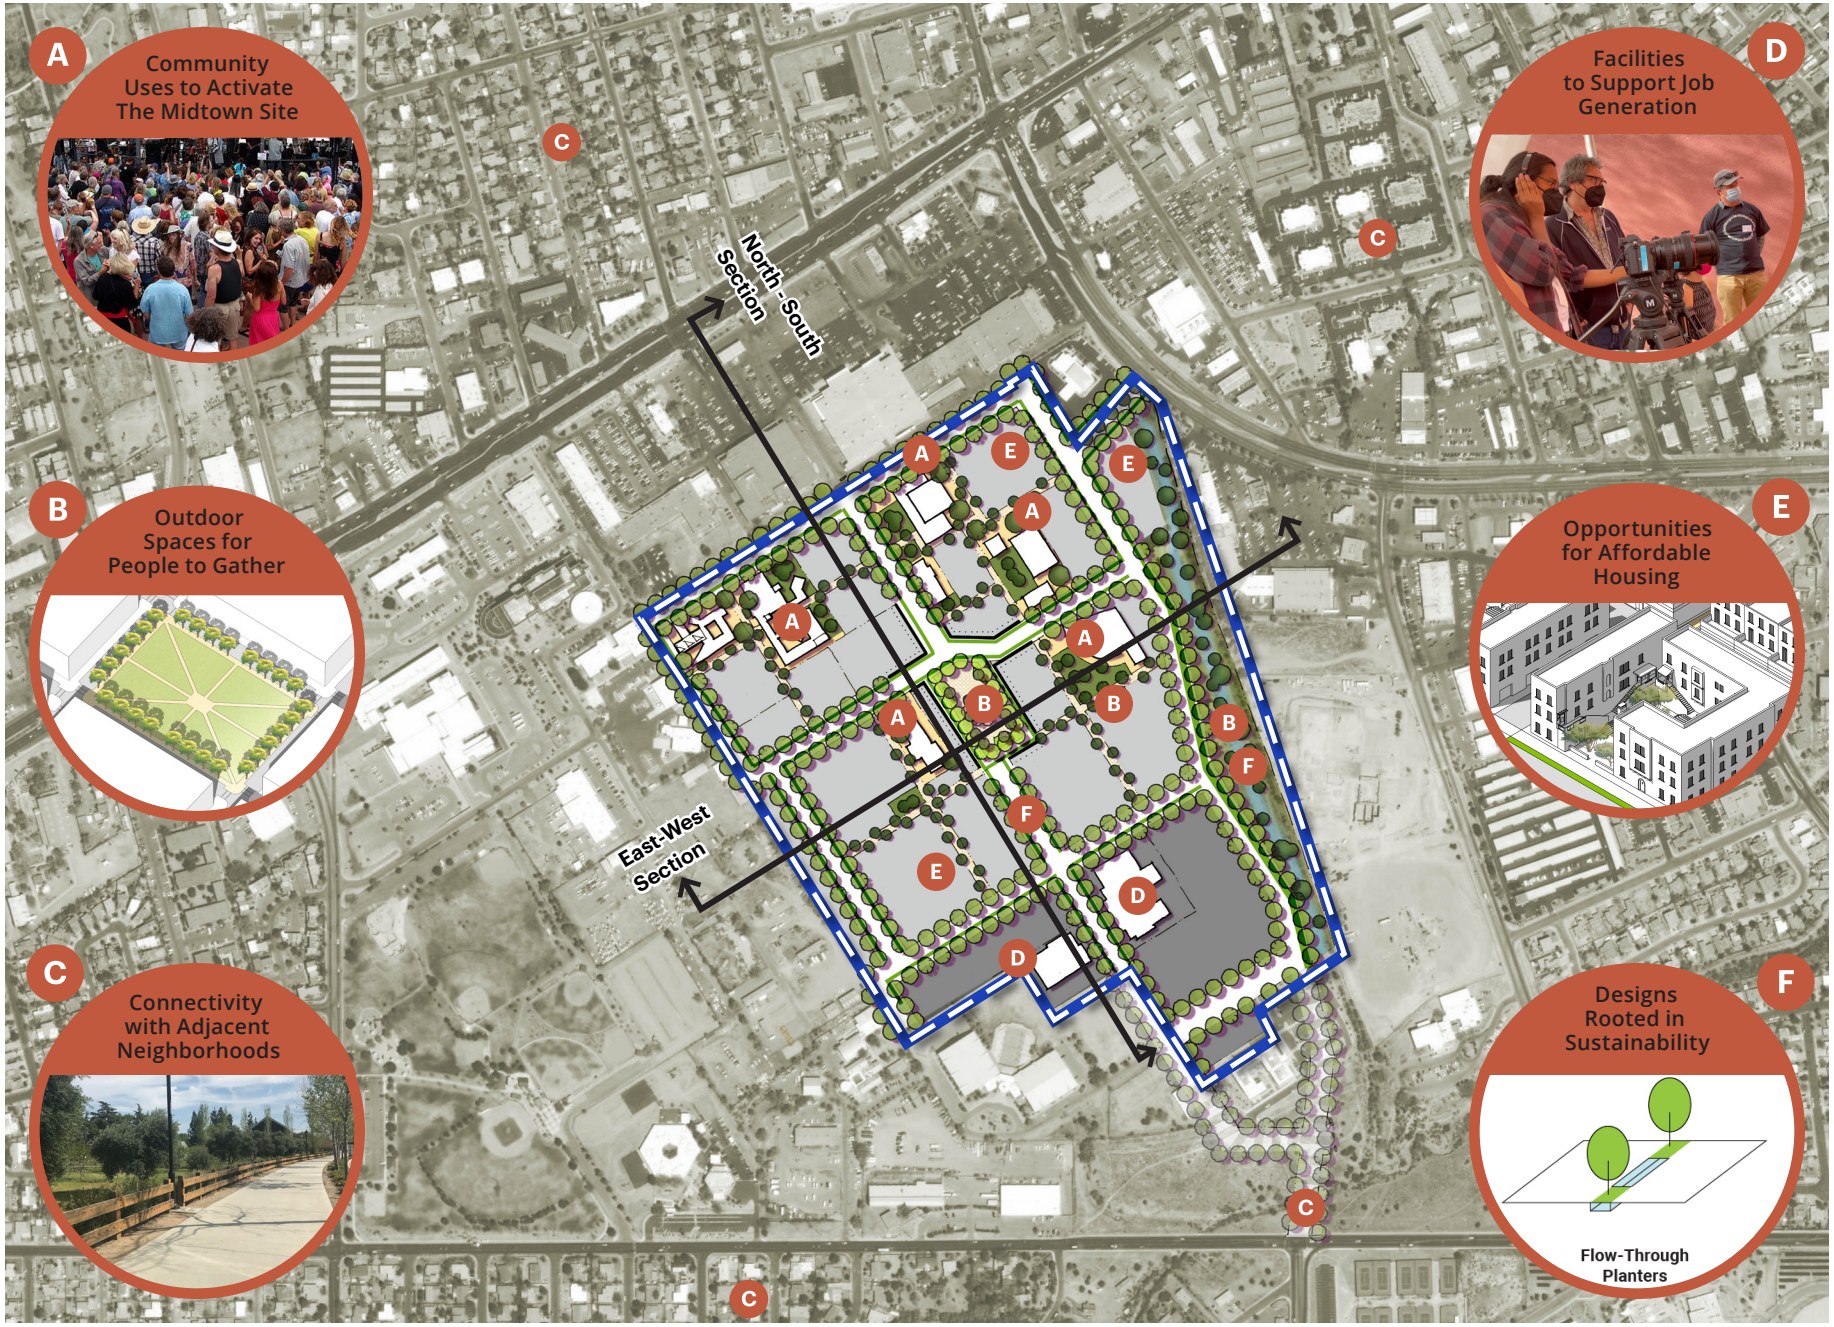
Higher Intensity Block Example
Mixed-Use Apartment/ Condo/ Office Buildings along streets A
Townhouses along paseos B
Courtyards located on top of parking deck C
3-5 stories
1 parking space per unit; parking deck + underground parking

East - West Section

North - South Section

Variety of Building Scales

Building scale refers to the size of a building based on its footprint (length and width) and height. Each block should include various building scales to promote a diversity of housing options and provide flexibility for the different uses envisioned at the Midtown Site. Taller, more intense buildings are appropriate along streets, while shorter, smaller-scale buildings are more appropriate along paseos and living alleys. Even in instances where a single building type is used across the entire face of a block, different frontage conditions and changes in building height should respond to the adjacent street and paseo contexts.



Legend

Uses

3.6 Place-based Approach

Place-based Design Principles

Place-based design — which considers local climate and culture — shapes the Midtown Site's vision. Taking inspiration from local building traditions, architectural heritage, local weather, and historic and cultural resources, buildings and public spaces in the Site will look and feel distinct to Santa Fe. Chapter 5 (Development Standards) implements this place-based design as a strategy by providing standards that are tailored to reflect the building traditions and climate context of Santa Fe.

The place-based approach for the Site balances the need for a variety of building types, the importance of economic feasibility, and the integration of sustainability goals. Place-based design at the Site should consider:

- Creation of comfortable outdoor spaces that take advantage of Santa Fe's climate.
- Incorporation of architectural elements typical of Santa Fe including courtyards, roof terraces, and shaded walkways.
- Public art.
- Use of native plants and cultivars suited to Santa Fe climate.
- Attention to solar orientation when positioning building openings and when locating outdoor spaces.

Facade Zones *These images illustrate the vision for the Main Street (top) and Live/Work Flex (bottom) Facade Zones. Coordinated Facade Zones encourage a variety of environments at the Midtown Site to reinforce Santa Fe's urban form patterns and discourage monotonous development.*

Proposed Zones

The Plan establishes Sub-Zones and Facade Zones to regulate development at the Midtown Site. These are listed below and mapped on the Development Standards Regulating Plan in Chapter 5 (Development Standards). The Zones allow for types of uses desirable to the community and promote walkable development while reflecting Santa Fe's unique culture and climate.

Sub-Zones

- Civic Space
- Mixed-Use Neighborhood
- Mixed-Use Center
- Mixed-Use Office
- Mixed-Use Film
- Community-Oriented Use

Facade Zones

- Plaza
- Main Street
- Main Street-Office
- Live/Work
- Neighborhood Residential
- Neighborhood Paseo

Building Types

The Plan anticipates a range of building types able to provide a variety of residential and retail unit sizes and price points, making housing more affordable.

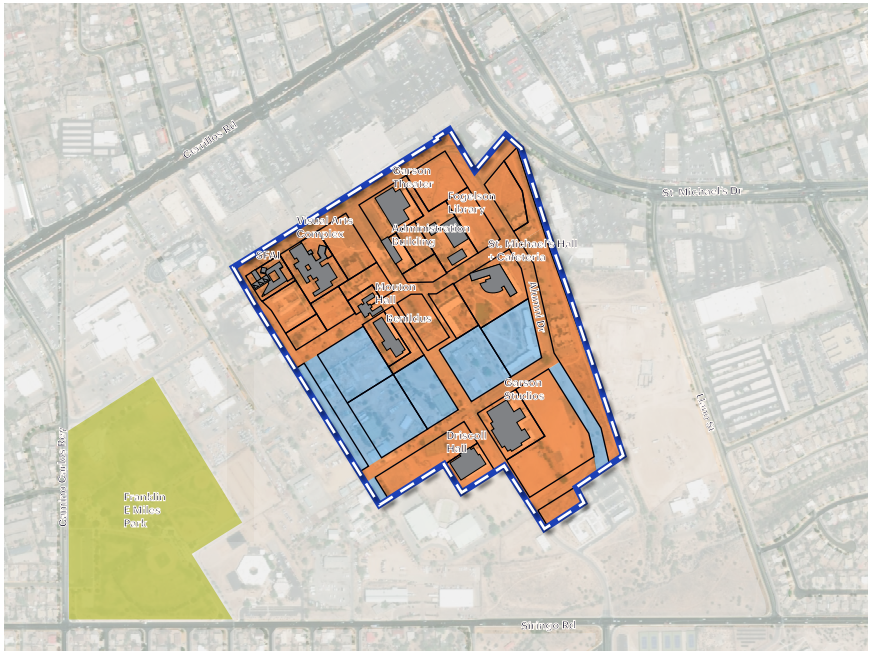
The development standards in Chapter 5 (Development Standards) allow for the following building types but do not limit development exclusively to these types:

- Townhouse
- Live/Work Townhouse
- Courtyard Residential Building
- Mid-Rise: Residential or Mixed-Use Building

In addition to these building types, the Plan envisions the reuse of existing buildings, such as the Fogelson Library and Greer Garson Theatre, and the Visual Arts Complex.

Frontage Types *These images illustrate frontages part of the Plaza Facade Zone, articulating a recessed ground floor facade.*

3.7 Development Program + Phasing



Uses + Distribution of Uses

The Midtown Site will be a mixed-use and mixed-income district enabling a variety of uses — from residential buildings to offices, retail and commercial spaces, flex spaces designed to fulfill artists' needs, theater and film production areas, and community-oriented uses. The Midtown Site will invite all Santa Feans to live, work, learn and visit.

Shops, artists' studios, and places to eat are proposed centrally along the north-south street leading from the Plaza, forming an arts-and-culture corridor through the center of the Site. Community-oriented uses are clustered in existing buildings at the northern end of the Site, while employment uses anchored by the Greer Garson Studio Complex are located at the southern end of the Site to accommodate future expansion of film production spaces. Residential blocks are situated in the north end and at the center of the Site to provide proximity to amenities.

Development Phasing

Development will happen incrementally, combining public and private development efforts to realize the City's and community's goals for the Midtown Site. The first development phase uses existing buildings and infrastructure to animate community facilities while opening up opportunities for infill development on the adjacent parcels. The central Plaza anchors new development and adaptively repurposed amenities. New and upgraded streets establish good internal connectivity for Phase 1. In Phase 2, more developable parcels at the Site become available, in line with infrastructure and connectivity investments. Small and significant open spaces support the new development and the added street infrastructure.

Phasing + Development Blocks

Legend

- The Midtown Site
- Existing Buildings to be Adaptively Reused
- Development Blocks
- Phase 1: Build on and revitalize existing facilities
- Phase 2: Build out the rest of the Site

Phase 1

Legend

- The Midtown Site

- Film Use Area
- Parcels Developed in Previous Phase
- New Plazas/ Open Spaces/ Linear Park
- New Road Infrastructure within the Site
- Paseos/ Pedestrian Paths
- Existing Open Space

Phase 2

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

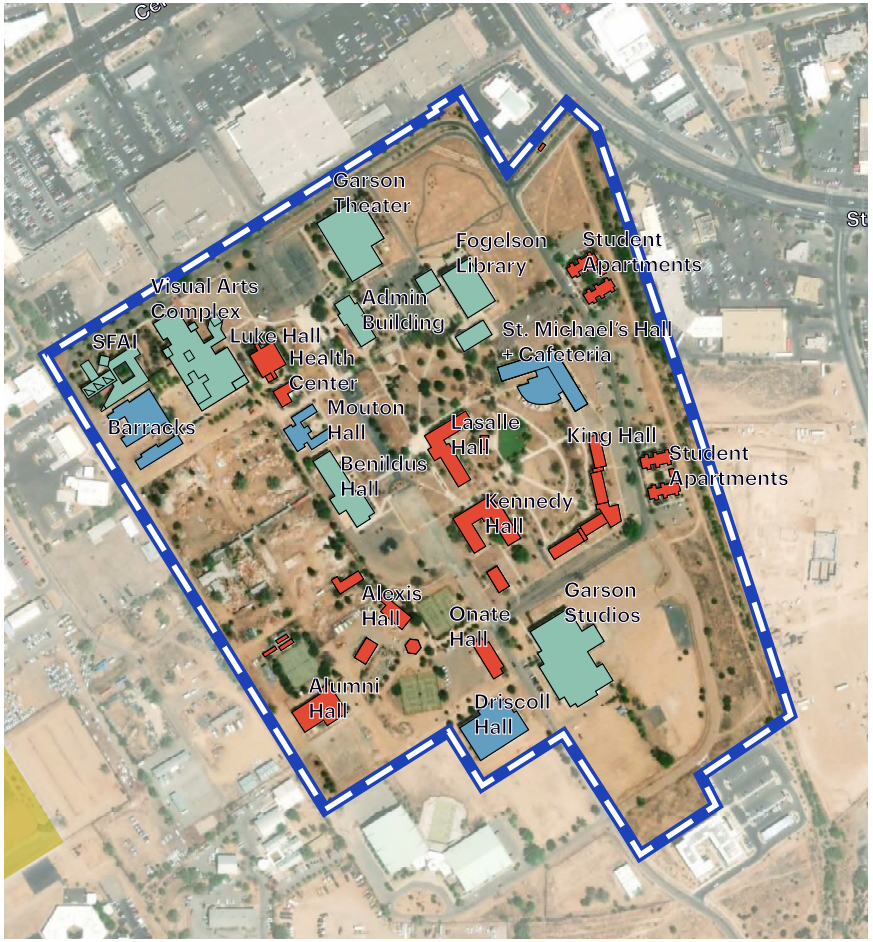
CONNECTIONS TO MIDTOWN DISTRICT AMENITIES

Internal connectivity within the Midtown Site improves access to amenities:

- **A** *Reorientation of connections around HEC and tennis center;*
- **B** *To Cerillos Rd and nearby shopping;*
- **C** *To St. Michael's Dr., and*
- **D** *To Franklin E. Miles Park and repurposing of nearby public lands for complementary housing and mixed-use development.*

Connectivity Concepts for the Midtown Site:

- **E** *Improving connections to Hopewell-Mann;*
- **F** *Achieve regional connections to pathways, and*
- **G** *Good connections to New Mexico Rail Runner and local transit.*
- **H** *Safe routes to nearby schools.*



Building Reuse Strategy

A thorough appraisal of existing buildings was undertaken in 2017[1] to determine suitability for reuse. Based on this and ongoing assessments, buildings have been identified for the following:

- **Permanent Adaptive Reuse**. These buildings are among those in the best condition on the Site, provide significant architectural and cultural value, and are best suited for adaptive reuse.
- **Temporary Reuse + Further Assessment**. The condition of these buildings could accommodate temporary reuse; however, further assessment is needed to determine the feasibility of upgrading these facilities to support longer-term uses.
- **Demolition**. These buildings pose significant challenges for reuse and need substantial improvements and/ or structural and mechanical systems, which make reuse difficult and expensive.

Sources:
1. Appraisal Report/CBRE/2017

Building Reuse Strategy		
Permanent Adaptive Reuse	**Temporary Reuse**	**Demolition**
Administration Building	St. Michael Hall Complex	Alexis Hall
Benildus Hall	Driscoll Fitness Center	Entry Station
Fogelson Library Complex	Mouton Hall	Health Center
Greer Garson Studio Complex	Barracks	Kennedy Hall
Greer Garson Theatre Center		King Hall
Visual Arts Center		La Salle Hall
		Modular Trailers + Security Building
		Luke Hall
		Student Apartments
		Onate Hall

Building Reuse Strategy

Legend

- The Midtown Site
- Existing Buildings for Permanent Adaptive Reuse
- Existing Buildings for Temporary Reuse + Further Assessment
- Existing Buildings for Demolition

Administration Building*
Single story building currently used by City of Santa Fe Office of Emergency Management.

Benildus Hall
Two story classroom building with modern facilities to be utilized by future Greer Garson Studio Complex tenant.

Fogelson Library Complex*
Multi-building complex to be reused by the Santa Fe Public Library.

Greer Garson Studio Complex*
Building and studio lot with soundstages and screening facilities.

Greer Garson Theatre*
513 seat theater to be reused as a performing arts venue.

Visual Arts Center
Ricardo Legorreta-designed complex including classrooms, library and performance space.

Adaptive Reuse Buildings

Buildings identified for Permanent Adaptive Reuse will be made available through a Request for Proposal process that will identify a suitable user and program for these buildings.

These buildings have been integrated into the urban design vision for the Midtown Site and serve as important cultural and community anchors while physically linking the future of the Site with its history.

** Denotes building designed by local architect Philippe Register, a practitioner of "southwest regional modernism" that is unique to Santa Fe.*

3.8 Affordable Housing

Affordable Housing

The Midtown Master Plan directly addresses land uses for affordable housing development so that a minimum of 30% of the homes developed within the Midtown Master Plan area will be priced affordably to low- and moderate-income households. The City has control of the land and will purposefully leverage land value in its disposition process to ensure that community objectives are realized.

Excerpts for the Midtown Community Development Plan:

- The City's Housing Inclusionary Zoning requirement (SFCC 26-1, 26-2) shall be applied to the Midtown Site, in addition to leveraging subsidy and incentives to ensure affordability goals are reached or exceeded.
- Furthermore, if inclusionary programs are to create and preserve mixed-income communities, long-term restrictions are vital for the program to have a lasting impact. The City's goal is to increase the stock of long term affordable housing in Santa Fe. To achieve that goal the City, at its sole discretion, will issue Solicitations (Request for Proposals, RFPs) tailored for Midtown that require mixed-use and residential development. The objectives for housing development are the following:
  - Inclusionary homeownership units will have affordability controls or deed restrictions placed on them that impose resale restrictions and never expire. RFPs may state that projects that propose shared equity models, land trust structures, or other forms of long-term community control will be more competitive;
  - Developers may not opt out of the regulation by (i) developing in other areas outside of Midtown Master Plan area; (ii) or making cash contributions according to formulas included in the Santa Fe Homes Program Ordinance and Regulations outside of Midtown Master Plan area;
  - For rental units, the City will protect affordability through deed restrictions or covenants for a fixed affordability period, to be not less than 30 years.
- RFPs for mixed-use and residential development will facilitate the development of various housing types and sizes to meet the housing needs of Santa Feans based on market studies and community data, required to be demonstrated in the proposals submitted.
- RFPs for the development of affordable housing on certain parcels will encourage various tenures, including ownership, rental, land trust, and co-housing.
  - The City, at its sole discretion, will maintain a preemptive option for the property to remain price-restricted after any applicable affordability period has expired, as deemed necessary to best serve the public interest.

This page intentionally left blank

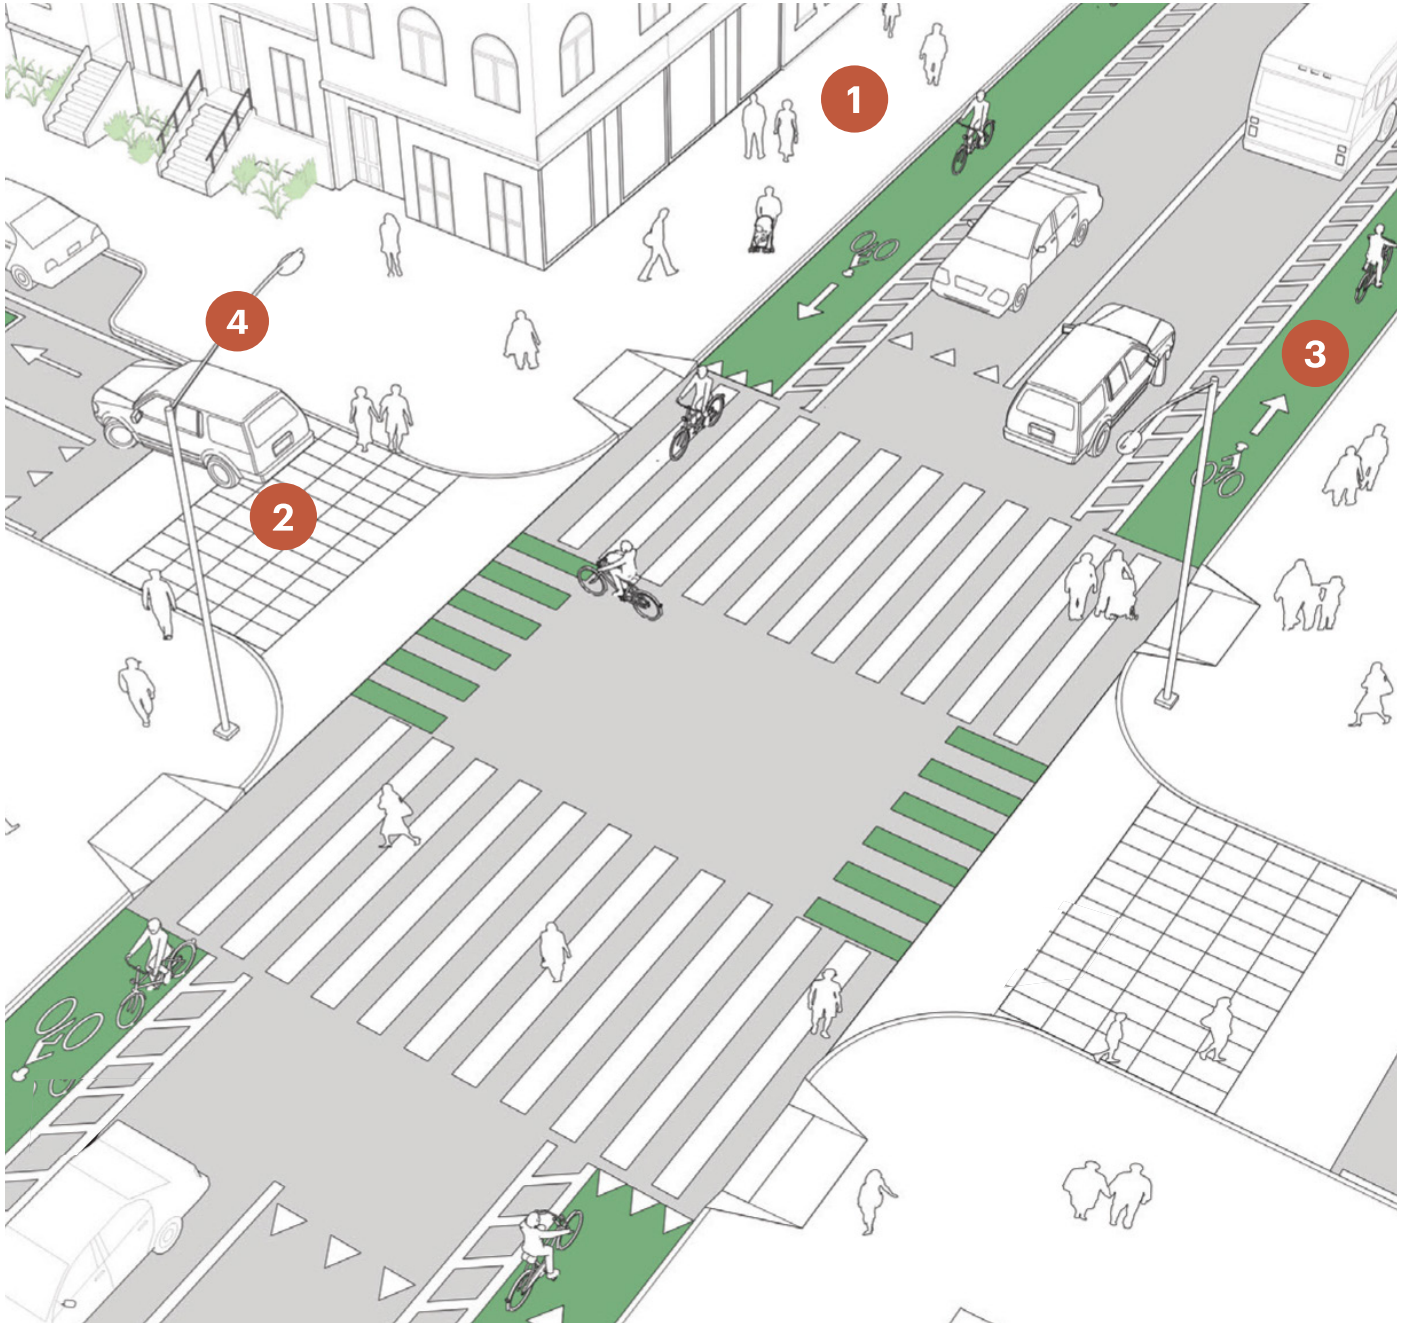
Designing for ADA, children and seniors.

3.9 Reinforcing Community Health Through Urban Design

The new center for Santa Fe, civic spaces, streets and buildings in the Midtown Site will be inclusive and accessible for all.

Universal Design + Visitability

The Center for Universal Design at North Carolina State University – a national leader in the advancement and development of Universal Design practice – promotes seven basic principles of Universal Design. These inform design and policy considerations at the Midtown Site to create a place accessible to all Santa Feans. Below are some ways these principles could be applied at the Site:



- **Equitable use.** The Site to be accessed and enjoyed by people of diverse abilities.
- **Flexibility in use.** The Site to be experienced in a variety of ways, and people to be able to move around using a variety of transportation types/modes.
- **Simple + intuitive use.** Routes of travel at the Site to be clearly marked, and building entrances to be obvious.
- **Perceptible information.** Wayfinding signage to be clear and easy to use by people of diverse abilities.
- **Tolerance for error.** Multiple routes for pedestrians means that making a wrong turn does not require substantial backtracking.
- **Low physical effort.** Direct pedestrian routes, so people do not need to go out of their way to access a building or civic space.
- **Size + space for approach + use.** Sidewalks and pathways to be wide enough to accommodate multiple users traveling in opposite directions at the same time.

Active Design

Active Design is an approach to developing buildings, streets, and neighborhoods that uses architecture and urban planning features to make daily physical activity and healthy foods more accessible and inviting[1].

Improved bicycle and pedestrian network implemented via the Plan includes multi-use paths that promote active transportation options and various physical activities. The network assumes the integration of civic spaces and green infrastructure to encourage active recreation and promote daily physical activity and an active lifestyle. Safe and convenient access to nearby grocery stores, community gardens in civic spaces, and a central plaza accommodate a food and art market to make healthy food accessible to the Site residents and residents of nearby neighborhoods.

HEALTH + WALKABILITY

The societal benefits of a walkable environment are an active lifestyle, better public health, safety, and a sense of community. Equally beneficial is providing open space and nature access, particularly in dense urban conditions. The quality of a place's public realm, described as its streets and civic spaces, plays a prominent role in determining how ***walkable*** *that place will be. Open spaces can include public parks, plazas, and publicly accessible open spaces on privately-owned parcels. Open spaces can take various forms to respond to different environments, and design criteria vary accordingly.*

Designing for Health at The Midtown Site

A well-designed and inclusive public realm is one that all residents and visitors can visit and enjoy freely and comfortably, feels safe at all times, and encourages day-to-day, spontaneous interaction. It promotes an active lifestyle, improves public health, and creates safer, more close-knit communities.

The Midtown Site has the opportunity to create a development that promotes health equity by encouraging active lifestyles and providing access to resources that promote health. The Site can make active transportation options the preferred way of getting around and offer better connections to healthy food places and other resources that promote community health.

Health Equity Framework

A fundamental element of the vision for the Site is a well-designed, cohesive public realm that functions as connective tissue, integrating adjacent neighborhoods and creating a strong sense of place. The Plan includes a variety of pedestrian network enhancements to maintain a high-quality pedestrian environment and encourage active transportation. Through a defined network of streets and public spaces, the Plan creates a district that promotes better health through physical activity:

- Parks and plazas are located throughout the Site, to provide spaces for recreation and physical exercise, and
- Streets and paseos enhance pedestrian and bicycle connectivity and link key destinations to encourage active transportation.

Promoting Physical Activity + Health Equity in Design

Thoughtful environmental and urban design are vital to building and maintaining a healthy society. Active design may have particular consequences for children's health, especially those in low-income neighborhoods. Increasing the number of facilities encouraging physical activity has been associated with lower obesity and more significant physical activity in youth. Access to parks, open spaces, recreational facilities, and children's play areas can promote better health through physical activity.

Parks, Open Spaces + Recreational Facilities

- The design of parks, open spaces, and recreational facilities can complement the cultural preferences of the local population, and accommodate a range of age groups, including both children and their parents and guardians. Co-locating physical activity spaces for children and parents or guardians can simultaneously promote physical activity in different age groups.

Children's Play Areas

- Locations for play should be visible from the public right-of-way to allow for community surveillance and easy access.
- Lights on sidewalks and active play areas to extend opportunities for physical activity into the evening.
- A variety of climate environments can facilitate activity in different seasons and weather conditions. For example, include sunny, wind-protected areas for use in the winter and shaded zones for use in the summer.

4. Connectivity + Mobility Vision

In this chapter

4.1 Conceptual Connectivity + Mobility Framework	72
4.2 Connectivity + Mobility Phasing	76
4.3 Multimobility Best Practices	80
4.4 Connectivity + Mobility Action Items	86

4.1 Conceptual Connectivity + Mobility Framework

Multimodal Connectivity + Enhanced Mobility

The Midtown Master Plan (Plan) acknowledges different user needs by introducing various mobility and connectivity options. Multimodal street design will accommodate diverse users with varying transportation needs, preferences, and abilities. A cohesive network of streets, paseos, and bike lanes will bring cyclists, pedestrians, and cars from Cerrillos Rd. and St. Michael's Dr. to the Midtown Site (the Site).

The Plan presents a hierarchy of streets in the Site to balance vehicular traffic with the needs of pedestrians and cyclists, and balance short and long-term needs. Initially, 'soft connections' will build upon the existing potential for pedestrian and bike connectivity and connect the Site to important cultural anchors around. The soft connections vary from improved sidewalks, bike lanes, multi-use paths, and connections to existing trails and nearby schools.

East - West Connectivity Goals

- Connect to adjacent neighborhoods, such as Hopewell-Mann neighborhood, and Franklin E. Miles Park.
- Prioritize pedestrians and cyclists over vehicles.
- Provide access to transit along St. Michael's Dr.
- Deliver good internal connectivity.

North - South Connectivity Goals

- Connect to acequia and arroyo trail system.
- Minimize cut-through traffic.
- Provide access to transit on Siringo Rd.

Streets for a New Center
Enjoyable and highly walkable streets lined with shops, restaurants, and community uses.

Neighborhood Streets
Typical streets that balance vehicular, bike, pedestrian, and green space.

Multimodal Corridors
North - south and east - west streets that include separated bike paths and sidewalks.

Shared-use "Slow Streets"
Living alleys designed for very slow vehicle speeds.

Enhanced Bike/ Pedestrian Paths
Bike and pedestrian-only pathways that connect within the Midtown Site and to surrounding neighborhoods.

Pedestrian Paseos
Urban pedestrian pathways between buildings and within open/civic space.

Legend
The Midtown Site
Streets with Bike Lanes
Shared-use Streets
Streets with Separated Two-way Bike Lane
Plazas + Paseos
Parks + Open Spaces

The Midtown Site Connectivity + Mobility Guiding Principles

Balanced. Ensure people can easily move within the Midtown Site and get there by bike, walking, taking transit, driving, rideshare, or by e-mobility. Dedicating specific routes within the Site promotes safe active transportation options and still allows auto connectivity.

Connected. Allow for the Midtown Site to be well-connected both internally and also easily accessible by surrounding neighborhoods, regional parks, trails, open space, schools, civic areas, commercial centers, and transit stops, including the New Mexico Rail Runner.

Enjoyable. Streets are designed to maximize the comfort of the walking and biking experience. Landscaping and street trees help soften the streetscape, help create a buffer between vehicular movement, and cool the street during hot daytime conditions. Streets easily blend into small pedestrian-friendly plazas and plaza spaces within the Midtown Site.

Sustainable. The Midtown Site streets and connections go beyond moving people and serve as ecological corridors using landscaped-based stormwater management, trees for passive solar energy and ambient air cooling, and a diversity of plant species, including pollinator-friendly low-water use plants.

Flexible. Design streets, especially in the heart of the Midtown Site, to be used as flexible public spaces. Streets can be closed for special events but still allow traffic to move effectively through the Site. Flexible streets can also be designed as "flush" or "curbless" to the surrounding sidewalks allowing for the easy physical transformation of space.

Authentic. The flavor and feel of the Midtown Site streets should be a reflection of the local area. Paving materials, landscaping, street furniture, lighting, wayfinding/ signage, and public art should be unique to Santa Fe and not overpower the aesthetic of the surrounding neighborhoods.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site.

Vehicular Parking Strategy

The Plan brings a variety of parking strategies to the Site to reduce the need for large parking lots, which can negatively impact walkability and increase the heat island effect. While the Site will be accessible by various transportation options, including walking/ rolling, bicycling, and transit, people who drive to the Site, will be encouraged to "park once" and walk to different destinations within the Site rather than driving between each destination. Some parking strategies to include:

- On-street parallel parking to be shaded by street trees.
- Above or below ground public parking structure with capacity for solar panels on roof located near the edge of the Site to reduce the number of cars traveling through the Site to reach parking.
- Small surface lots and/or "tuck-under" parking on the ground floor of 2-3 story buildings.
- Parking to be located in "podiums" and underground structures for larger 4-5 story buildings.
- Parking to be located behind buildings with access via driveways and/or Living Alleys whenever possible.

In the Midtown Site, parking will be designed and managed to accommodate different users:

- Public parking on streets and in public parking structure(s).
- Private parking for use by future residents, businesses, and customers.

Public parking is detailed on the map to the right. A Parking Demand Management Strategy may be needed to leverage the Site's proximity to schools, shopping, and other destinations, including transit, and analyze the complete pedestrian and bike network proposed for the Site. The Parking Management Strategy could support the implementation of affordable housing and smaller-scale incremental development by showing the effects on development when reducing parking requirements.

Parking Vision

Legend

- The Midtown Site
- Proposed Parking Structure Site for Public Parking
- On-street Parking
- New Paseos/ Pedestrian Paths
- Long-range Streets
- Existing Buildings to be Adaptively Reused
- New Plazas + Parks
- New Open Space/ Linear Park
- Existing Open Space

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

4.2 Connectivity + Mobility Phasing

Connectivity + Mobility Phase 1

- Upgrades to some existing streets.
- Construction of new streets and paseos.
- Enhancements to existing external connections.
- New potential connection to Cerrillos Rd.

Phase 1. *Within the Site partial public street and pathways build-out.*

Connectivity + Mobility Phase 2

- Upgrades to remaining existing streets.
- Construction of remaining new streets and paseos.
- Potential new connections to St. Michael's Dr. and Siringo Rd.

Phase 2. *Within the Site public street and pathways build-out.*

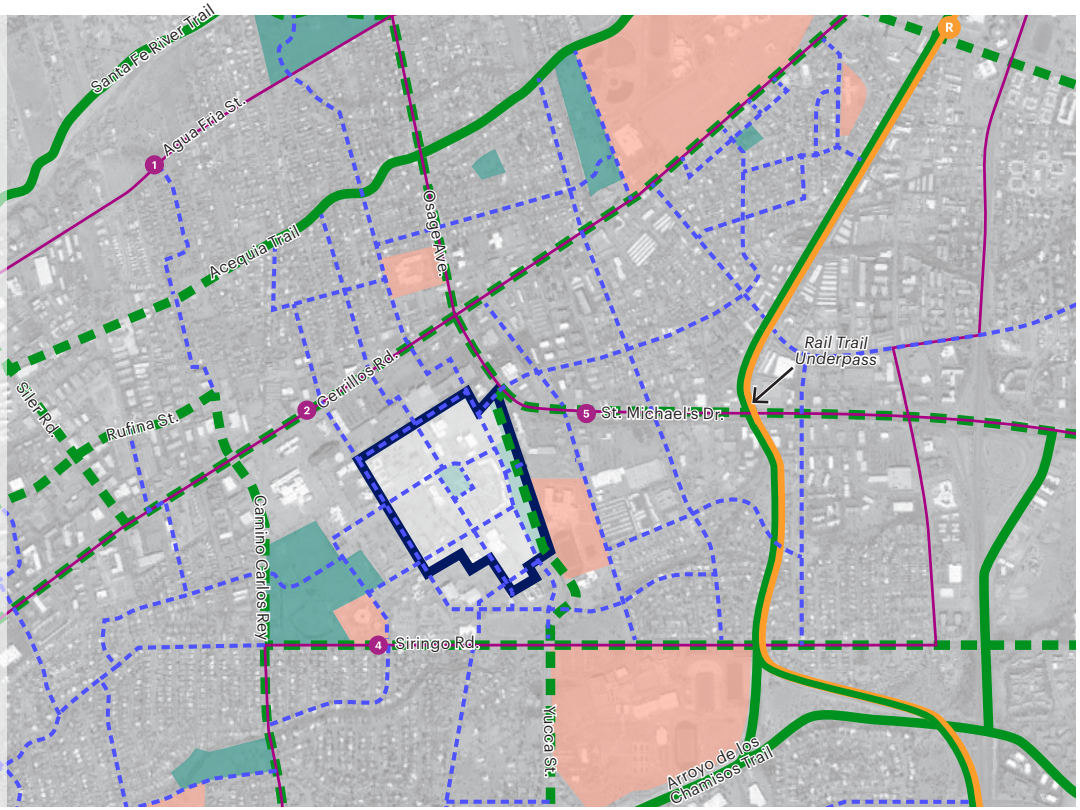
Connectivity + Mobility Phase 3

- Potential new connection to Franklin E. Miles Park.
- Potential new connections to St. Michael's Dr. and Siringo Rd.

Phase 3. *Connection to park.*

Phasing

Streets, pedestrian paseos, living alleys, and bike paths will be developed incrementally to facilitate an orderly and efficient build-out of the Midtown Site and encourage complimentary redevelopment on adjacent parcels. New facilities will prioritize convenient and safe access to and within the Site for people walking and rolling, riding bikes, taking transit, and using other forms of active transportation, in addition to accommodating service and construction vehicles and those traveling by car.



It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Legend

- The Midtown Site
- Streets with Existing or In-design Phase Bike Facilities, MPO
- Future Bike Connections + Trails, MPO
- New Paseos/ Pedestrian Paths
- New Bike Streets within the Site
- Existing Buildings to be Adaptively Reused
- Existing Bus Stops
- New Parks + Plazas
- New Open Space/ Linear Park
- Existing Open Space

Regional Connectivity

As the Master Plan circulation network is implemented, the City will facilitate and encourage the completion of two important, non-road shared-use paths prioritized in the 2019 Bicycle Master Plan (BMP). The first is the Midtown Campus Trail, an important connection between Siringo to the existing Midtown entrance at St. Michaels Drive, identified in the BMP as a critical north-south, road-independent bicycle and pedestrian link with potential connections to Yucca Street, Milagro Middle School, and shopping opportunities. The second is the Midtown Campus Wall Trail, envisioned as linking the Midtown Campus Trail to Lujan Street at Cerrillos Road, as a link north to The Acequia Trail and west to Franklin Miles Park.

Regional Connectivity Vision

Enhancing existing streets to make them more comfortable and safer for people walking, rolling, and riding bikes can help connect the Midtown Site to existing and planned regional trails and transit facilities.

Legend

- The Midtown Site
- Regional Trails
- Regional Bike/ Pedestrian Routes
- Neighborhood Bike/ Pedestrian Routes
- Santa Fe Trails Bus Routes*
- New Mexico Rail Runner Express + Rail Trail
- Civic Facilities
- Parks

**As the residential and workforce population at the Site grows, alignment of transit routes and location of transit facilities could change to better serve the Site based on evolving demand for transit.*

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

Connections to Hopewell Mann + Adjacent Neighborhoods

The Plan prioritizes safe and convenient connections between the Midtown Site and nearby neighborhoods, such as Hopewell-Mann, providing current residents access to the amenities and community uses proposed at the Site. Improvements to existing external connections along St. Michael's Dr. will create safer and more convenient pedestrian crossings. Improvements to existing external connections along St. Michael's Dr. will create safer and more convenient pedestrian crossings to St. Michael's Dr. and to Midtown from Hopewell-Mann.

Regional Connections

Improved connections between the Site and existing regional trails — such as the River Trail, Arroyo de Los Chamisos Trail, and Rail Trail — will provide connectivity options for people traveling between the Site and Downtown, the Railyard, Santa Fe Place Mall, and other regional destinations. Upgrading existing bike and pedestrian facilities and providing new facilities, as illustrated in the map above, can support connections to these trails and Siler Rd. employment area.

Short Term

Long Term

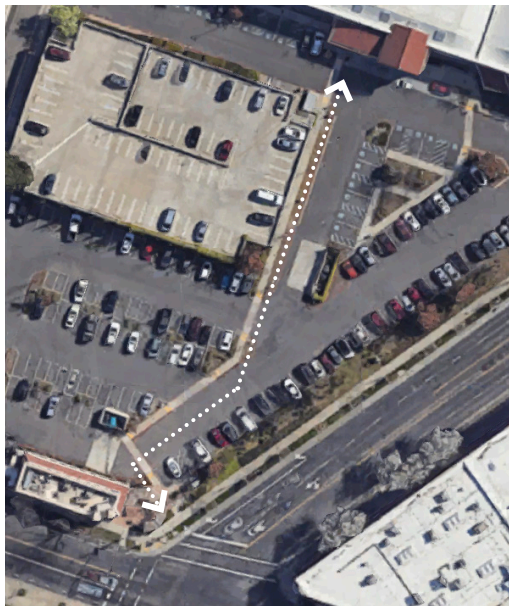
Bike, Pedestrian + Transit Vision

Streets, pedestrian facilities, and bike facilities will be designed to achieve the following:

- Sidewalks on every street and crosswalks at every intersection.
- Bike facilities on every street.
- Crosswalks at all external connections to existing streets.
- Direct pedestrian connections to bus stops.
- All civic/open spaces and community use buildings to be accessible via walk/roll sidewalks and/or paths and bicycle facilities.

Legend

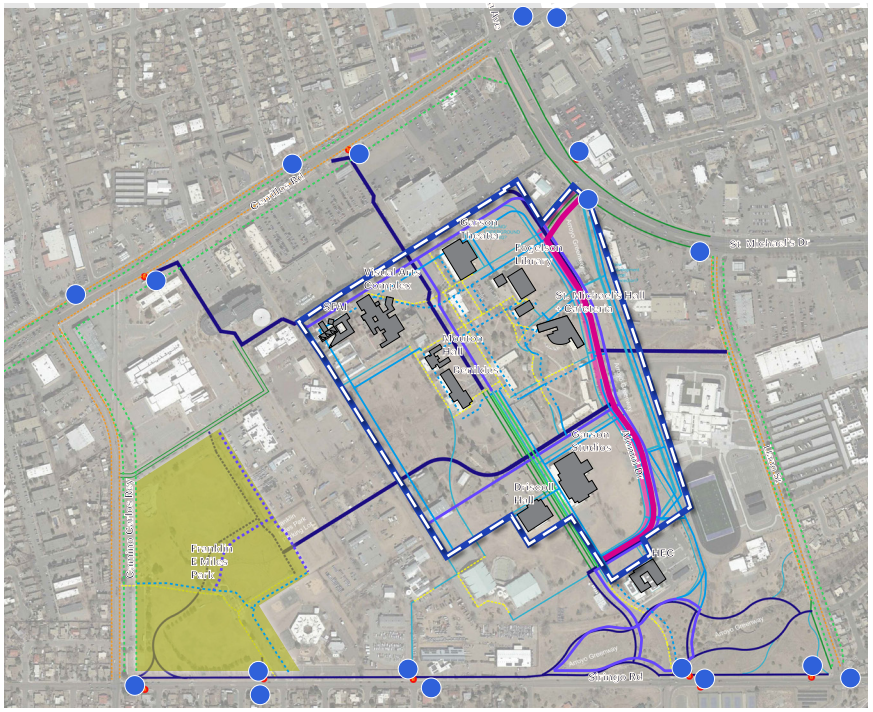
- The Midtown Site
- Streets with Existing or In-design Phase Bike Facilities, MPO
- Future Bike Connections + Trails, MPO
- New Paseos/ Pedestrian Paths
- New Bike Streets within the Site
- Existing Buildings to be Adaptively Reused
- Existing Bus Stops
- New Parks + Plazas
- New Open Space/ Linear Park
- Existing Open Space



It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Improvements to St. Michael's Dr. + Cerrillos Rd.

Projects undertaken by the City and the State will provide improvements to Cerrillos Rd. and St. Michael's Dr. specific to the safety, comfort, and convenience of people walking, rolling, riding bikes, and taking transit. The projects will improve accessibility to the Midtown Site. Future upgrades to sidewalks, intersections, transit facilities, and bike facilities should provide accessibility to the Site for all Santa Feans.



Early Phase "Soft Connections"

The Plan envisions a variety of street types that balance vehicular traffic with the needs of people walking, rolling, riding bikes and taking transit. Short and long-term needs are recognized by a phasing plan that includes 'soft connections' preceding Phase 1 that will build upon the existing roadway and sidewalk network to provide improved connectivity to nearby destinations and neighborhoods. The soft connections vary from improved or new sidewalks, bikelanes, multi-use paths, and connections to existing trails and amenities.

This example shows how minor modifications to an existing parking lot allow for a pathway that connects people walking, rolling, and riding bikes. P St & Stockton Blvd, Sacramento, CA. Source: Google Maps

Coordination with adjacent property owners will be necessary to create these "soft connections" over time as they look to redevelop or improve their properties. Connections between the Midtown Site and existing commercial areas could provide new opportunities for economic development and incentivize the implementation of the existing Midtown LINC overlay. In addition, the redevelopment of Midtown creates an opportunity for collaboration between the city and the school district to create Safe Routes to School programs that make it safer and more accessible for students to walk and bike to school and encourage more walking and biking where safety is not a barrier.

Soft Connections

Legend

- The Midtown Site
- Existing Buildings to be Adaptively Reused
- Existing Open Space
- Alumni Dr.
- Existing Pedestrian Connections
- New Sidewalks
- Existing Bus Stops
- Existing On-street Bike
- New On-street Bike
- Existing Multi-use
- New Off-street Multi-use

Pre-phase one improvements will provide direct connections between the Midtown Site, adjacent roads and parks, and the Hopewell-Mann neighborhood. These connections can be upgraded during future phases of development. It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

4.3 Multimobility Best Practices

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Overview

Proposed multimodal concepts are drawn from best practice mobility design components and strategies, including interventions that can be applied to the Midtown Site, and those meant for implementation in specific circumstances as determined by traffic operations and site context.

Continuity and consistency are key to the success of bike and pedestrian facilities; the Site offers an opportunity for consistent and continuous multimodal facilities, including on- and off-street bikeways, to support a wide range of biking abilities and interests. Consistent intersection treatments provide legibility and rhythm for people traveling the corridor on foot, wheelchair, bike, or other mode.

The separation of modes is a critical component of high-comfort multimodal streets. Many proposed streets within the development project separate pedestrian and bike paths and add protected on-street bike lanes and intersection protection to keep people biking separated from vehicular travel.

Streets designed for pedestrian and bicycle travel offer a multitude of health, environmental, safety, and livability benefits. Streets with multimodal mobility options promote active transportation and slow vehicle speeds and inspire conviviality and public life. The following pages describe several key mobility best practices, but they are not limited to what is shown.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Shared-use Pathways

Shared-use paths are physically separated from motor vehicle traffic by an open space or barrier. The separation creates a facility that is comfortable for people of all ages and abilities.

1. The desirable width of the separated path for bikes and micromobility devices is 12 feet, excluding the shoulders. Surface materials can be asphalt or concrete with special paving at mixing zones and approaches to intersections. See Pedestrian + Bike Mixing Zones.
2. Provide a shoulder or horizontal clearance between the path and vertical elements such as fences, walls, or signs.
3. When space allows, provide separation between people walking and rolling and people on bikes or other micromobility devices to reduce conflicts between modes. When the pedestrian path is separated from the bike or wheeled path, the materials should be dissimilar to make the separation clear to users. The desirable width for the separated path for people walking and rolling is 8 feet, but it should be no narrower than 6 feet.
4. A buffer between the pedestrian path and the bike/wheel path encourages people to stay in their path. The buffer can be special paving, vegetation, or other feature denoting separation. At-grade planters that will allow for street trees should be 5 feet or wider.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Class IV Separated Bike Lanes

Class IV or separated bike lanes include a physical barrier from the roadway. The conceptual design includes a physical barrier in some areas of the corridor. In those locations, the following guidelines should be considered.

1. Physical separation in the buffer between the bike lane and motor vehicle lane can include cast-in-place concrete, pre-cast curbs, plantings, flexible posts, inflexible posts, etc. At-grade planters in the buffer should be 3 feet or wider to provide space for low plants. 5-feet minimum width is required to support street trees. Keep vertical elements in the buffer, including plantings, below 30 inches to maintain sightlines.
2. The bike lane can be at the roadway, sidewalk grade, or midway between. The bike lane width should be 5 feet or wider, not including the gutter.
3. If applicable, a buffer between the separated bike lane and sidewalk encourages people biking to stay in the bike lane. The buffer can be special paving, vegetation, or other feature denoting separation. At-grade planters that will allow for street trees should be 5 feet or wider.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Class II Buffered Bike Lanes

On-street bicycle lanes provide an exclusive space for bicyclists in the roadway and provide accommodation for more confident bicyclists who desire to travel at greater speeds.

1. Class II or buffered bike lanes include pavement markings in the buffer space between the bike lane and motor vehicle lane. The buffer width should be 2 feet or wider. When space is constrained, and the minimum bike lane dimensions cannot be provided as mentioned above, low-profile rectangular reflective pavement delineators can be used to provide an additional visual and physical marker between the motorist travel lane and the bike lane.
2. The bike lane width should be 5 feet or wider.
3. If applicable, a buffer between the bike lane and sidewalk encourages people biking to stay in the bike lane. The buffer can be special paving, vegetation, or other feature denoting separation. At-grade planters that will allow for street trees should be 5 feet or wider.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Curb Extensions

Curb extensions, also known as neckdowns, bulb-outs, or bump-outs, are created by extending the sidewalk and planting buffers at corners or mid-block. Curb extensions are intended to increase safety, calm traffic, and provide extra space along sidewalks for users, amenities, planting, and green infrastructure.

1. Curb extensions visually and physically narrow the roadway to create safer and shorter crossing distances for pedestrians while increasing the available space for street furniture, benches, plantings, trees, and green stormwater infrastructure.
2. Curb extensions prevent cars from parking where parking is not allowed and improve sightlines near the crosswalks, midblock crossings, and stop signs. The curb extension should be the 20-feet minimum length at signalized intersections and 30-feet minimum length at stop-controlled intersections.
3. Curb extensions can also change the geometry of intersections, resulting in smaller corner radii and slowing turning motor vehicles. It is important to design the curb extensions so that street sweeping equipment can still adequately maneuver and clean the street gutter.
4. The curb extension should not reduce the bike lane width below the minimums.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Pedestrian + Bike Mixing Zones

Where people walking and rolling cross paths with people biking, mixing zones are provided as a signal to all users that they must yield. Mixing zones are indicated by a paving material that differs from the pedestrian and bike paths.

1. Special paving at mixing zones indicates people on wheels yielding to people walking and rolling. The special paving should be comfortable for people on wheels, with minimal pavement joints.

4.4 Connectivity + Mobility Action Items

NOTE

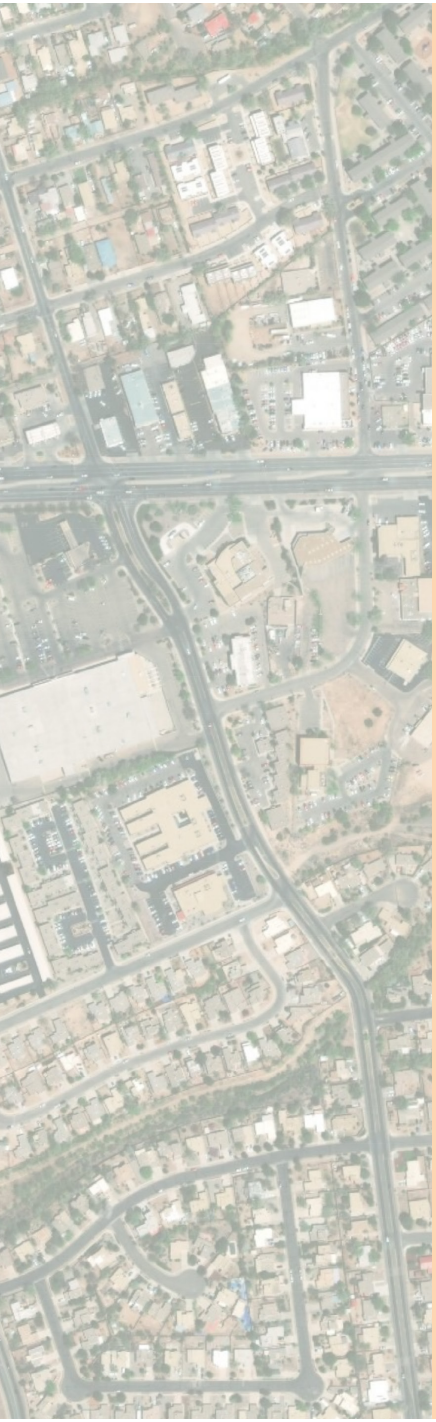
It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

Short Term

1. Construct new connections and upgrade existing connections between existing bus stops and the Midtown Site.
2. Develop a parking enforcement strategy for all on-street and public parking facilities at the Midtown Site.
3. Create and implement a Parking Demand Management Strategy to provide options and tools that reduce the amount of parking needed for development.
4. Improve connectivity between neighborhoods to the north, east, and south of the Midtown Site by improving pedestrian and bicycle connections at intersections on Cerrillos Rd., St. Michael's Dr., and Siringo Rd.
5. Work with nearby property owners to determine the desirability and feasibility of "Soft Connections" that improve convenience, safety, and comfort of people accessing the Midtown Site by walking, rolling and riding bikes, including improvements to crosswalks, intersections, and sidewalks along Cerrillos Rd, St. Michael's Dr. and Siringo Rd.

Medium Term

1. Work with Santa Fe Trails to improve service between the Midtown Site and key destinations and neighborhoods in Santa Fe.
2. Upgrade existing bus stops near the Midtown Site to promote the use of transit.
3. Include charging facilities for electric vehicles and bicycles for on-street parking and parking located in structures that serve community use buildings.
4. Provide incentives and consider requirements for electric vehicle and bicycle charging facilities for private developments.
5. Work with State, County, and Local entities to promote improvements and upgrades on area streets that make it safer and more convenient to access the Midtown Site using active transportation and transit.
6. Collaborate with adjacent property owners to plan and develop additional multimodal connections between the Midtown Site and existing streets within the Midtown/LINC Zoning Area.



Long Term

1. Include the Midtown Site in planning for micro-mobility services such as bike-share and scooter-share programs.
2. Investigate opportunities to strengthen connection to RailRunner via existing bus routes or a new shuttle route.
3. Upgrade bike and pedestrian facilities that connect the Midtown Site to regional networks such as the Rail Trail and the Acequia Trail.
4. Collaborate with adjacent property owners to plan and develop additional multimodal connections and Safe Routes to Schools between the Midtown Site and existing streets within the Midtown/LINC Zoning Area, as well as building frontages and circulation networks that enhance a strong Midtown/LINC Zoning Area, the Midtown District. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

NOTE

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

5. Development Standards

In this chapter

5.1 Purpose + Intent	90
5.2 Thoroughfare Standards	94
5.3 Civic + Open Space Standards	104
5.4 Development Standards + Regulating Plan	114
5.5 Sub-zone Standards	116
5.6 Facade Zone Standards	122
5.7 Frontage Types	136
5.8 Design Standards General to All	154
5.9 Plan Administration	158
5.10 Definitions	162

5.1 Purpose + Intent

The Development Standards in this Chapter provide supplemental standards to the Midtown LINC Zoning Area. They shape the physical form and built character of development and refine the palette of allowed uses at the Midtown Site. The development standards will not apply to adjacent properties.

Organization

The Development Standards are organized as follows:

- Section 5.2 (Thoroughfare Standards) provides standards for thoroughfare design and location.
- Section 5.3 (Civic + Open Space Standards) provides standards and guidelines for the development and location of civic and open spaces.
- Section 5.4 (Development Standards Regulating Plan) demonstrates where specific standards apply.
- Section 5.5 (Sub-Zone Standards) allowed uses.
- Section 5.6 (Facade Zone Standards) identifies required building setbacks, height and frontage standards relative to specific public way adjacencies.
- Section 5.7 (Frontage Types) provides required supplemental frontage standards for each frontage type.
- Section 5.8 (Design Standards General to All) provides supplemental standards for required courtyards, roof terraces, parking, and open space requirements.
- Section 5.9 (Plan Administration) provides special procedures and requirements for the preparation, filing, and processing of development applications applicable to Plan Area
- Section 5.10 (Definitions) provides terminology relevant to standards in this Section.

Development in Compliance with Regulating Plan

Steps	Instructions	Section/ Title
1	**Identify Sub-zone(s)**	Consult Section 5.4 (Development Standards Regulating Plan) Comply with Section 5.5 (Sub-zone Standards)
2	**Identify Facade Zone(s)**	Consult Section 5.4 (Development Standards Regulating Plan) Apply standards in Section 5.6 (Facade Zones) Apply standards in Section 5.7 (Frontage Types)
3	**Apply Supplemental Standards**	Apply standards Section 5.8 (Design Standards General to All)

Development Requiring Modifications to Regulating Plan

Modifications to Regulating Plan may include subdividing a development block into individual Lots, adjusting the location of paseos or civic spaces, or establishing public easements for alleys and paseos not included on the regulating plan.

Steps	Instructions	Section/ Title
1	**Identify Sub-zone(s)**	Consult Section 5.4 (Zoning Regulating Plan) Comply with Section 5.5 (Sub-zone Standards)
2	**Place Thoroughfares, Civic Spaces + Lots** **1.** Determine location and boundaries of thoroughfares, including alley and paseo easements. **2.** Determine location and boundaries of civic spaces. **Optional:** Subdivide remaining development block area into individual Lots, providing each with required frontage.	Comply with Section 5.2 (Thoroughfare Standards) Comply with Section 5.3 (Civic + Open Space Standards)
3	**Apply Facade Zone(s)** **1.** Identify applicable facade zone(s). **2.** Apply the appropriate facade zone(s) to new or modified thoroughfares. **3.** Apply the appropriate facade zone(s) to new or modified civic spaces. **4.** Apply standards.	Consult Section 5.4 (Zoning Regulating Plan) Comply with Section 5.2 (Thoroughfare Standards) Apply standards in Section 5.6 (Facade Zones) Apply standards in Section 5.7 (Frontage Types)
4	**Apply Supplemental Standards**	Apply standards Section 5.8 (Design Standards General to All)

Applying Standards at Various Scales of Development

The Development Standards are applied at three different scales as follows:

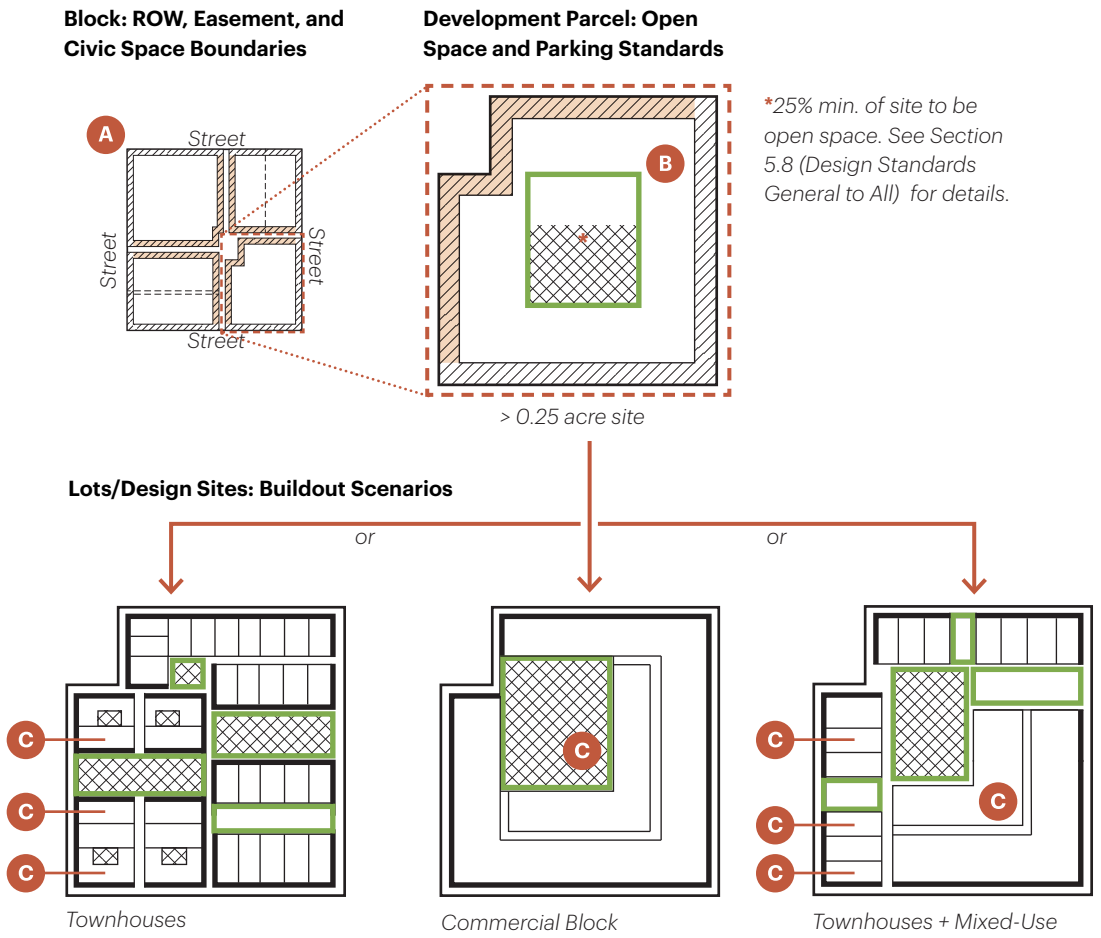
- Block – applying Sub-Zone, Thoroughfare, and Civic + Open Space Standards;
- Development Parcel – resulting from Blocks after placement of Streets, Paseos and Civic Spaces; and
- Lot/Design Site – determining form of buildings.

Key

Levels of Applicability

- A Block
- B Development Parcel
- C Lot/Design Site

Facade Zones Applied



- Street/Primary Frontage
- Paseo/Civic Space
- Side/Rear Lot Line

Open Space

- Common Open Space
- Courtyard Space

Building Facades

- Front/Side
- Rear/Internal

This page intentionally left blank

5.2 Thoroughfare Standards

NOTE

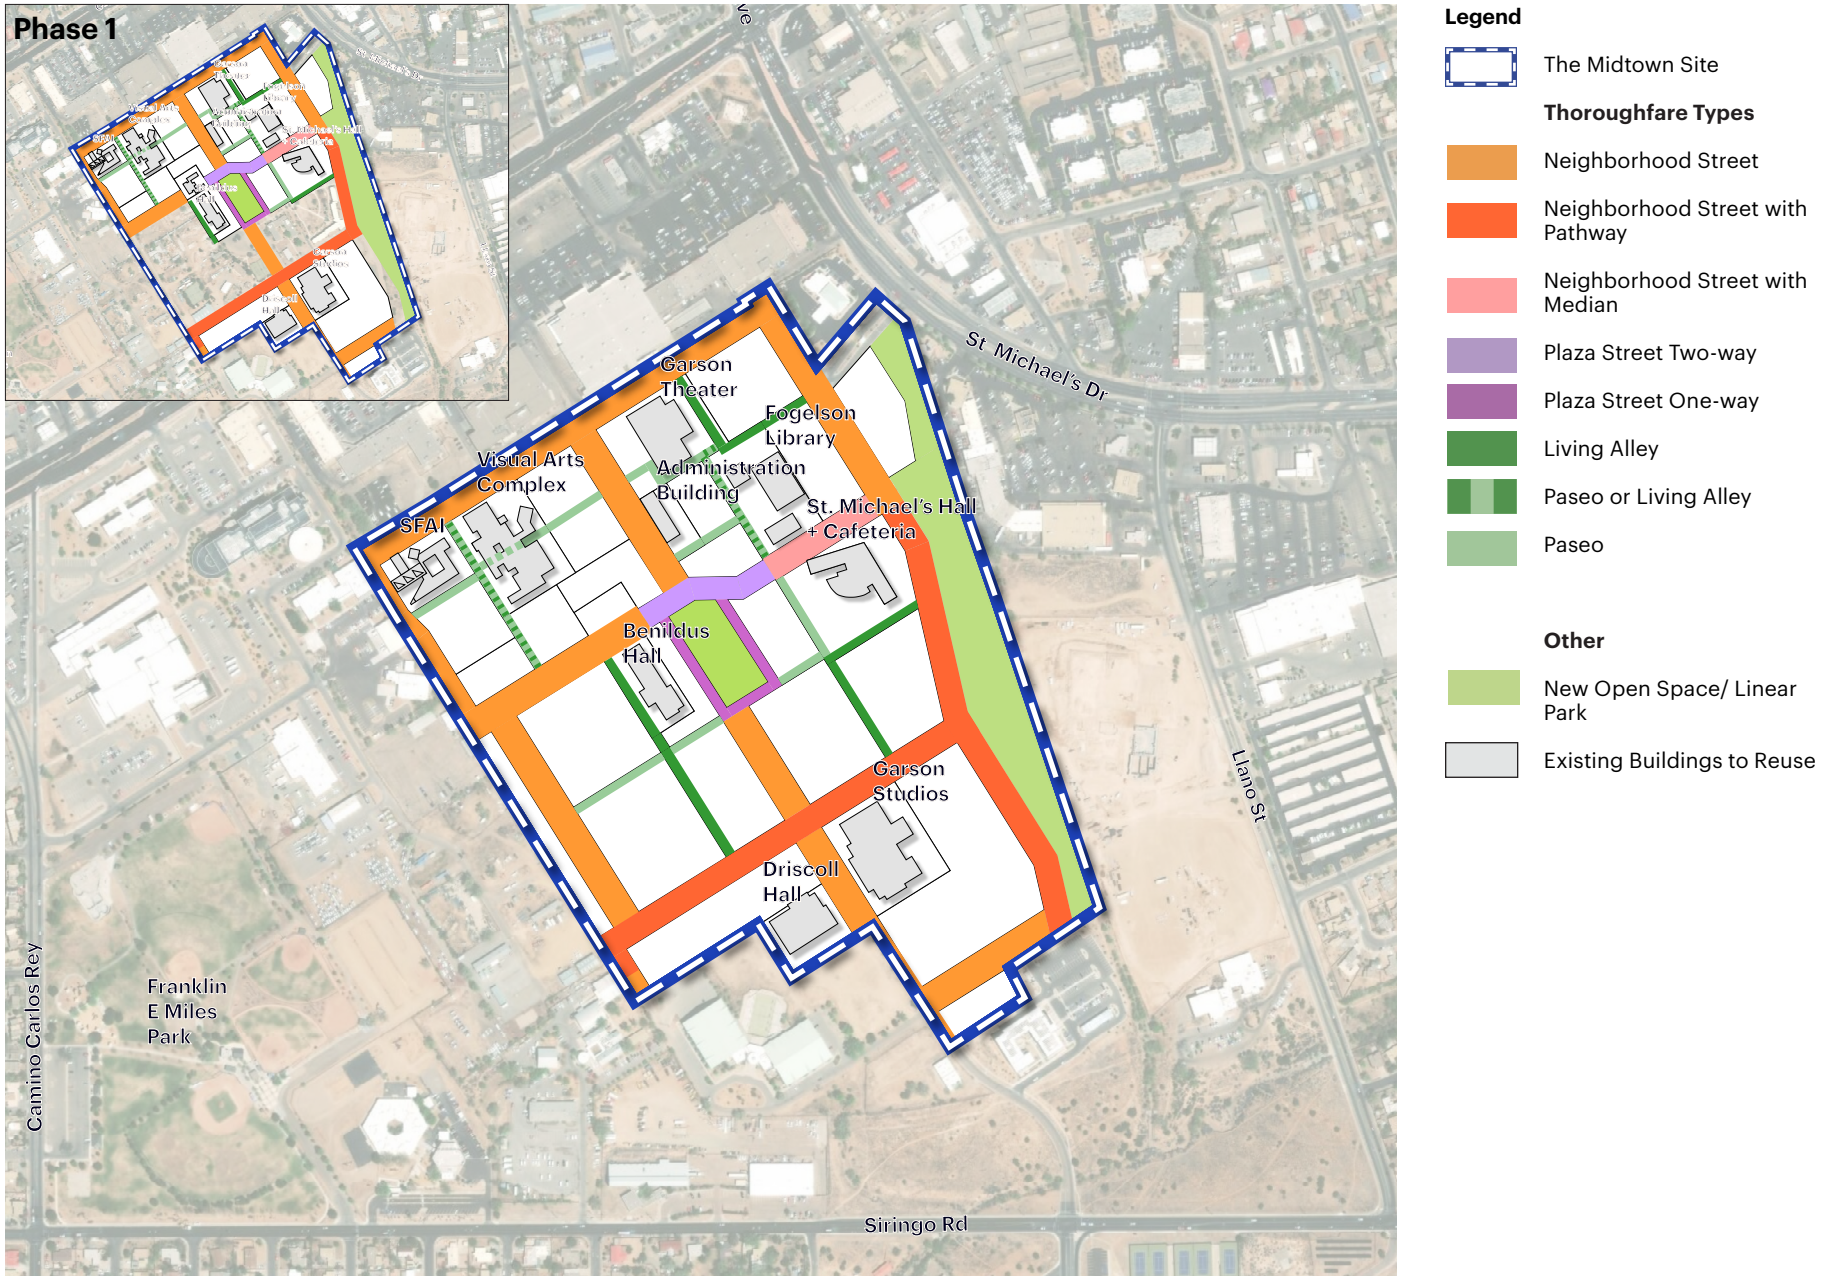
It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

This Section establishes the standards applicable to thoroughfares throughout the Midtown Site. These standards apply to public right-of-ways as well as to publicly-accessible easements within the development blocks and to generate a comprehensive and connected network.

Thoroughfare Placement + Standards

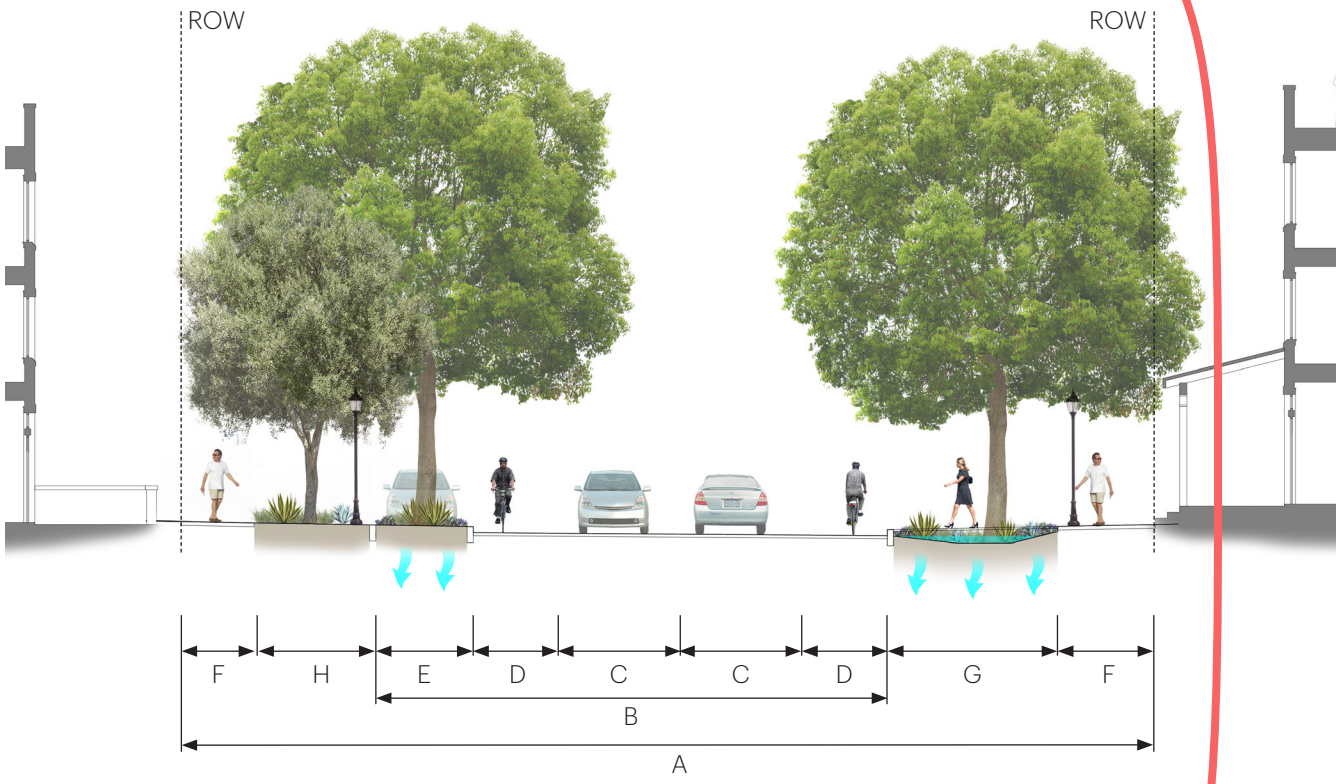
Thoroughfares shall be located in accordance with Figure 5.2.1 (Thoroughfare Regulating Plan) within the Midtown Site. The location of thoroughfares identified by the Regulating Plan may be adjusted with approval of the Director in either direction, measured perpendicular to the thoroughfare as mapped. Regardless of location, such thoroughfares must meet the standards for the applicable Thoroughfare Type, as provided in this Section.

Easements in Addition to Mapped Thoroughfares. In addition to the thoroughfares shown in the Regulating Plan easements may be established within individual development blocks to increase connectivity and access. Such easements, within the Midtown Site, shall connect to public right-of-ways and shall meet the standards for either the Paseo (if intended as a pedestrian space) or Living Alley (for vehicular and utility access).



Facade Zones on Unmapped Thoroughfares. For Paseos, where no facade zone is indicated in the Regulating Plan, the Neighborhood Paseo Facade Zone shall apply to any buildable area abutting the easement. No facade zone is required for buildable area abutting an alley not mapped in the Regulating Plan.

Relationship of Thoroughfares to Development Blocks + Lots



The arrangement of thoroughfares and the nature of the blocks they define are intimately connected. Each of the thoroughfares shown in the Regulating Plan defines the front of adjacent buildings, where they engage with the pedestrian realm and where main entrances may be identified.

Frontage Requirements for Subdivided Lots. If development blocks are further subdivided, each resulting lot shall have at least one frontage line extending for no less than 18 feet along a thoroughfare, civic space, or easement connected to a thoroughfare, where the standards in Section 5.6 (Facade Zones) and Section 5.7 (Frontage Types) shall apply.

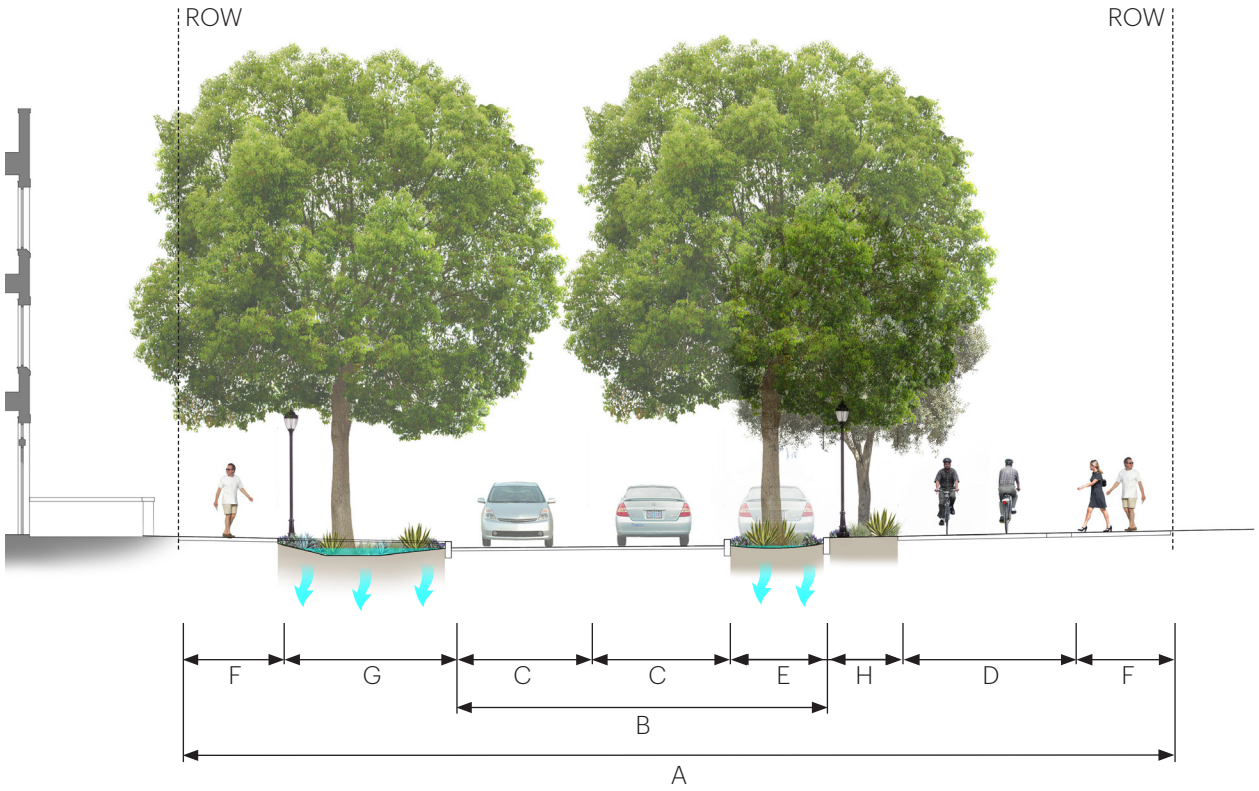
5.2.1 Thoroughfare Regulating Plan

5.2A Neighborhood Street

The Midtown Site

Neighborhood Street

Description



This street provides generous sidewalks, travel lanes and buffered bike lanes in both directions, with on-street parking on one side of the street and a rain garden or surface stormwater conveyance facility on the other.

Overall Widths		
Right-of-Way	72' to 82'	A
Curb to Curb Pavement	42'	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@10'	C
Bicycle Lanes	2@5' Lane + 2' Buffer	D
Parking Lanes/Curb Extensions	1@8'	E
Sidewalks	2@10'	F
Stormwater Conveyance Spine	1@14'	G
Planting Strip/Furnishing Zone	1@6'	H

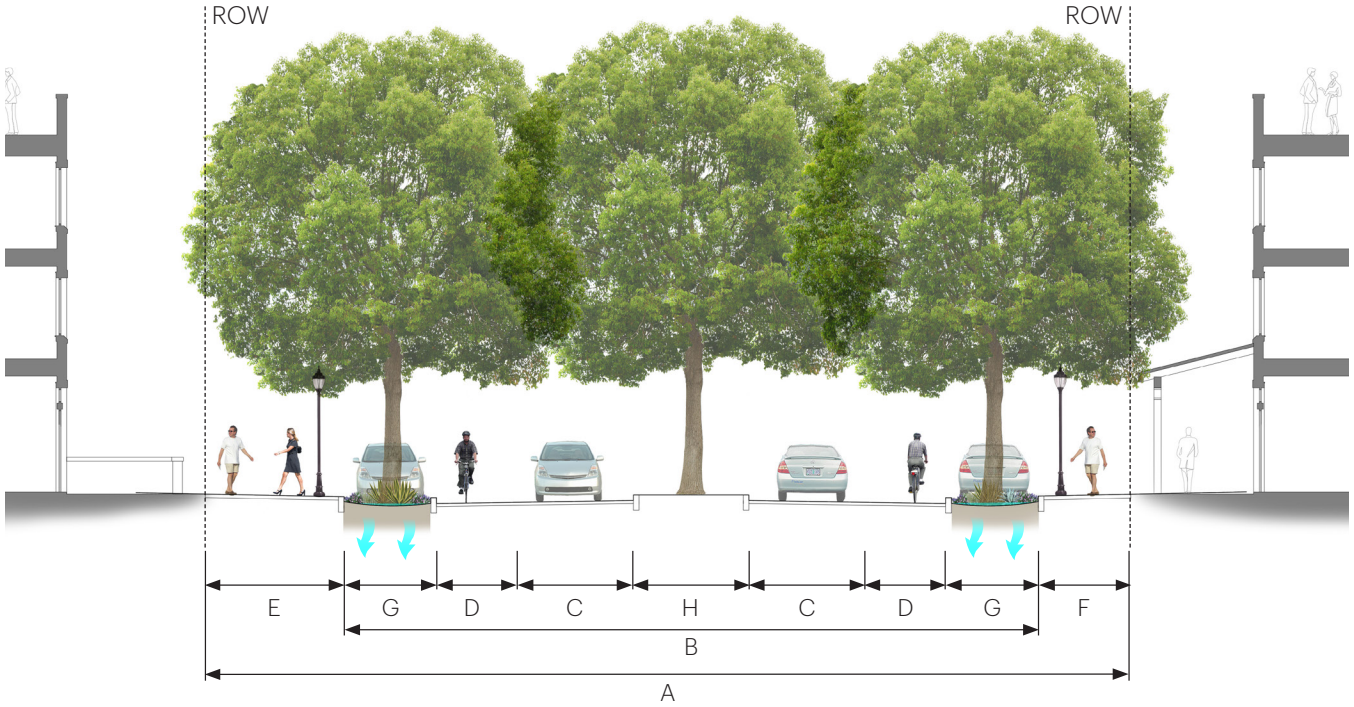
Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30' o.c. avg.
Stormwater Spine	Rain Garden/Boardwalk

5.2B Neighborhood Street with Pathway

The Midtown Site

Neighborhood Street with Pathway

Description



Main perimeter road with a separated major pedestrian and bike route and on-street parking on one side of the street. Stormwater is managed with both pervious pavement and stormwater curb extensions within the parking zone of the street as well as a prominent linear "stormwater spine." The majority of the street is graded towards the stormwater spine to maximize the capture of runoff.

Overall Widths		
Right-of-Way	80′	A
Curb to Curb Pavement	30′	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@11′	C
Two-Way Bicycle Trail	1@12′ + 2' Buffer	D
Parking Lanes/Curb Extensions	1@8′	E
Sidewalks	2@8'	F
Stormwater Conveyance Spine	1@14'	G
Planting Strip/Furnishing Zone	1@6'	H

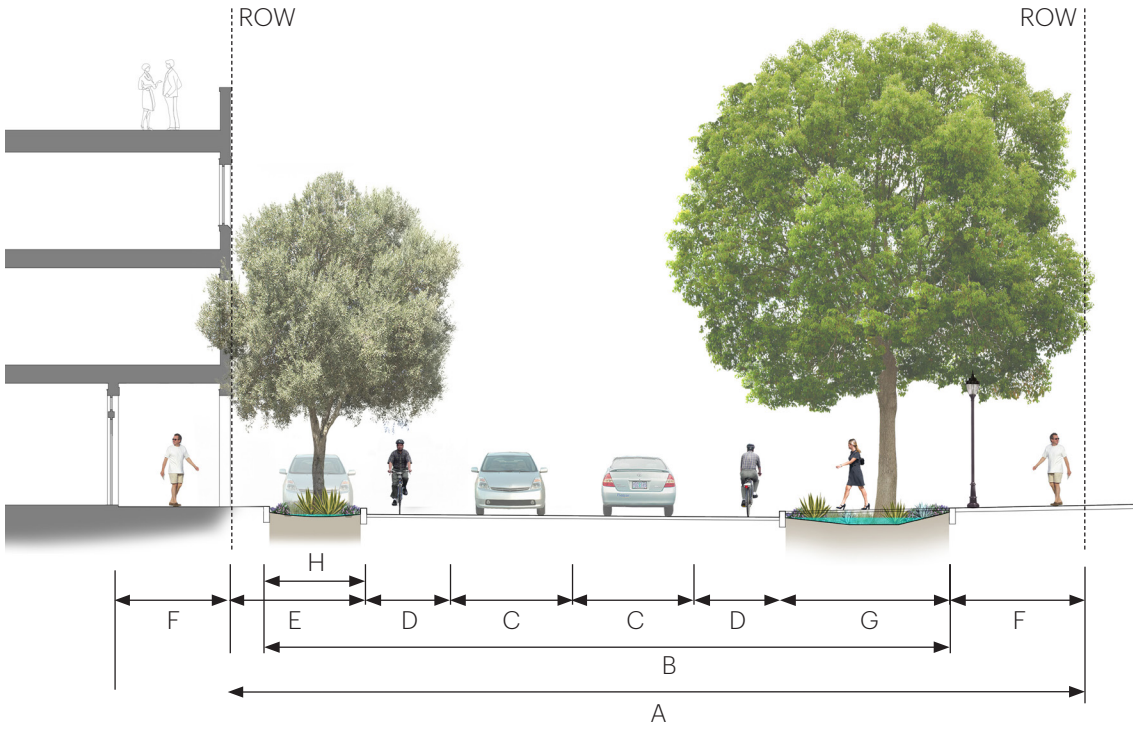
Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine	Rain Garden/Boardwalk

5.2C Neighborhood Street with Median

The Midtown Site

Neighborhood Street with Median

Description



This street provides generous sidewalks, on-street parking, travel lanes and buffered bike lanes in both directions, and a center median to provide additional planting area for street trees and a pedestrian refuge for people crossing the street.

Overall Widths		
Right-of-Way	80′	A
Curb to Curb Pavement	60′	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@10′	C
Bicycle Lanes	2@5′ Lane + 2' Buffer	D
Sidewalks	1@12'/1@8'	E/F
Parking Lanes/ Curb Extensions	2@8'	G
Landscape Median	1@10'	H

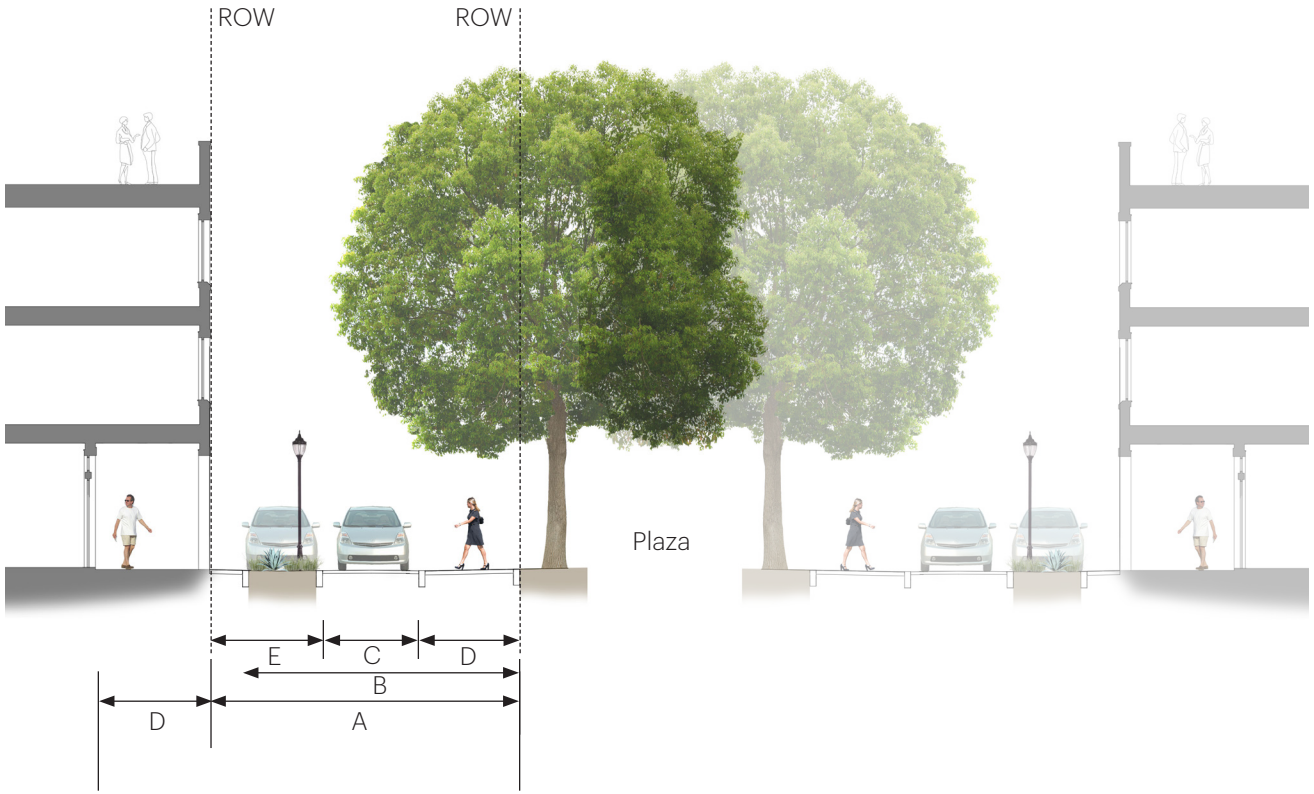
Green Infrastructure Assembly	
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30′ o.c. avg.

5.2D Plaza Street Two-Way

The Midtown Site

Plaza Street Two-Way

Description



This street combines elements of the Neighborhood Street with the wide pedestrian path and arcades that surround the Plaza. The bicycle lanes and stormwater spine ensure continuity for these elements across the Midtown Site.

Overall Widths		
Right-of-Way	72′	A
Curb to Curb Pavement	60′	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@10′	C
Bicycle Lanes	2@5′ Lane + 2' Buffer	D
Parking Lanes/Curb Extensions	1@8′ + 4' Buffer	E
Sidewalks	2@12'	F
Stormwater Conveyance Spine	1@14'	G
Planting Strip/Furnishing Zone	1@8'	H

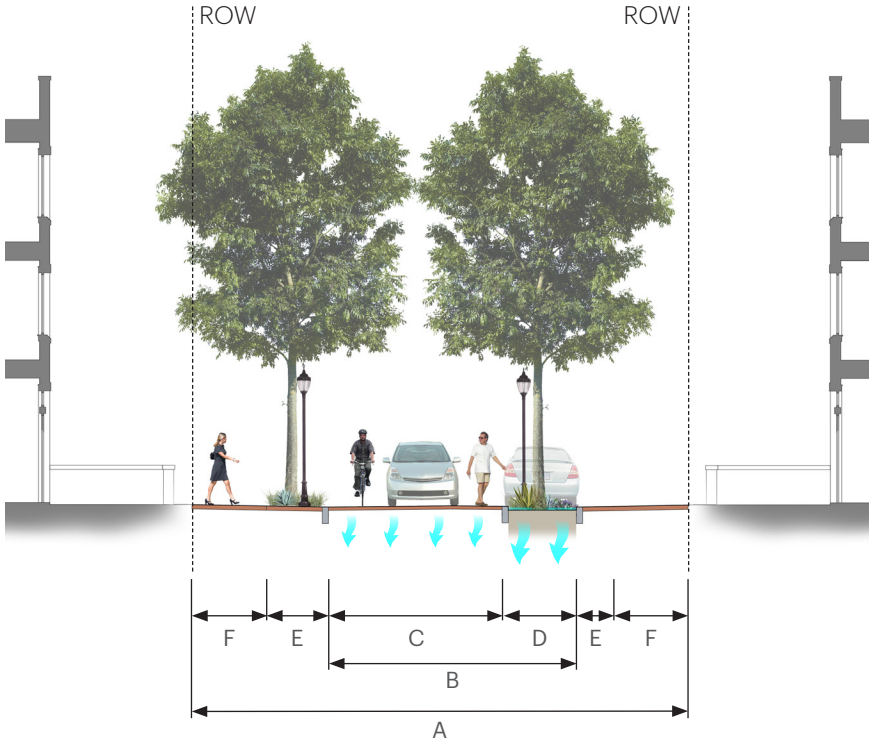
Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine	Rain Garden/Boardwalk

5.2E Plaza Street One-way

The Midtown Site

Plaza Street One-Way

Description



This curbless street facilitates pedestrian movement across the Plaza as well as counterclockwise traffic around it. It features parallel parking adjacent to the arcade frontage and a wide pedestrian zone on the plaza side that can also expand emergency vehicle access when needed.

Overall Widths		
Right-of-Way	32'	A
Curb to Curb Pavement	28'	B

Street Mode Assembly		
Vehicle Traffic Lanes	1@10′	C
Arcade/ Sidewalk	2@10'-14'	D
Parking Lanes/ Rain Garden	1@8′ + 4' Buffer	E

Green Infrastructure Assembly	
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine Zone	Rain Gardens/Boardwalk

5.2F Living Alley

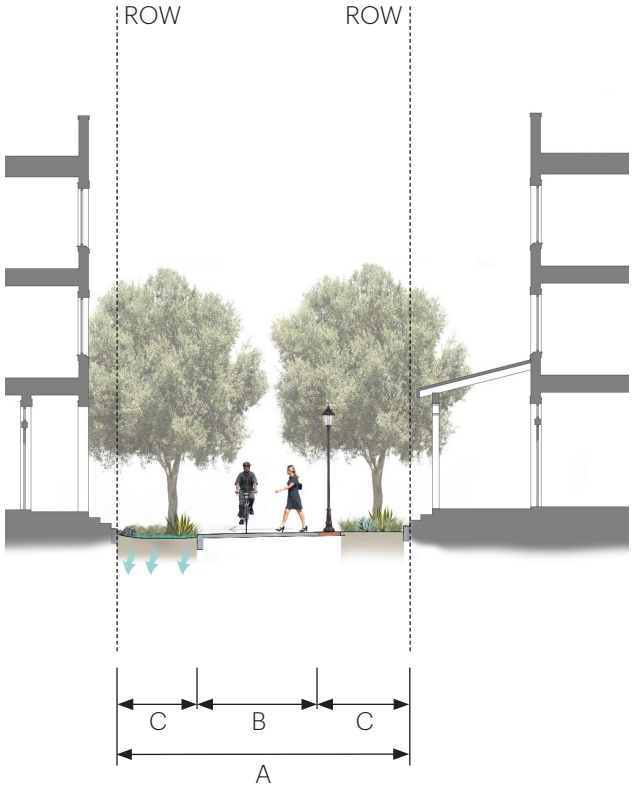
Design Considerations

Living Alleys should be designed to provide a comfortable environment for people walking and rolling through the Midtown Site while also providing service access to parking, loading/ unloading areas, and service entries. Living Alleys should use the following design strategies:

- Use pavers to slow traffic and allow for stormwater infiltration
- Travel lane should meander to slow traffic
- Parking/rain gardens should alternate sides to slow traffic
- Maintain vehicular traffic speed at 10 miles per hour or less

The Midtown Site
Living Alley

Description



This service street provides a two-way queuing lane (yield condition) that is meant as a slow-speed travel lane that accommodates people walking or riding bicycles, as well as the occasional vehicle. On-street parking is provided on alternating sides of the street and incorporates rain gardens in curb extensions.

Overall Widths		
Right-of-Way	26′	A
Curb to Curb Pavement	13'-26′ (Variable)	B

Street Mode Assembly		
Shared Travel Lanes	1@13′ Queuing Lane	C
Parking Lanes/Curb Extensions	1@7', Alternating Sides	D
Planting Strip/Furnishing Zone	1@6', Alternating Sides	E

Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Tree Zone	Trees @ 50′ o.c. avg.
Shared Travel Lane	Permeable Pavers
Parking Zone	Pervious Pavement/Rain Gardens

5.2G Paseo

Design Considerations

Paseos should be designed to provide a comfortable environment for people walking and rolling through the Midtown Site. Shade, seating, adequate pedestrian-scale lighting and public art can help to make the Paseo a pleasant outdoor space that serves to improve connections across the Site.

Description

Intended as a non-vehicular connection, the paseo provides a generous shared use path and green spaces for stormwater conveyance and infiltration.

Overall Widths		
Right-of-Way	26′	A

Street Mode Assembly		
Shared Use Path	1@10'	B
Stormwater Spine Zone	2@8' avg. (Variable)	C

Green Infrastructure Assembly	
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine Zone	Rain Gardens/Boardwalk

5.2H Additional Design Standards Applicable to All Thoroughfares

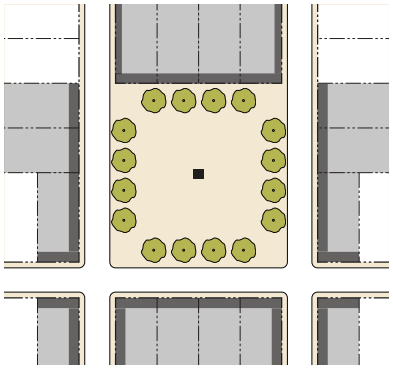
All Thoroughfares should be designed to demonstrate consistency with the following design standards. Reference the NACTO Urban Street Design Guide for additional design guidance.

Low-Speed Movements

- Thoroughfare design should reinforce motor vehicle travel speeds that are appropriate for the neighborhood environment envisioned for the Midtown Site:
- Living Alleys should be designed to a Target Speed of 5-10 mph.
- All other thoroughfare types in the Site should be designed to a Target Speed of no more than 20 mph.

Lighting

- Utilize light poles that are capable of accommodating at least one pole banner, where appropriate, but not on residential streets. Required on thoroughfares adjacent to Plaza and Main Street Facade Zones.
- 14-8.9 Outdoor Lighting in the Santa Fe Code of Ordinances establishes cutoff requirements for luminaires and average illumination levels for sidewalks, pedestrian areas, and public spaces consistent with Dark Sky policies.
- Lighting fixtures within the right-of-way should be pedestrian-scale in order to improve walkway illumination for pedestrian traffic and enhance community safety.



Stormwater Management Facilities

- Curb extensions at intersections and at mid-block locations as appropriate should be used for rain gardens and street trees.
- Low Impact Design (LID) stormwater management facilities should be integrated into the design of every thoroughfare in the Site.

Intersections

- Intersections and mid-block crossings should be designed so as to prioritize the safety and convenience of people walking, rolling, and riding bikes through the use of curb extensions, raised crosswalks, pedestrian refuges, and other design elements as appropriate.
- Intersections and mid-block crossings should include clearly marked pedestrian crosswalks, including instances where pedestrian paseos and/or living alleys intersect with multi-modal streets.
- Curb extensions and changes in paving material and/or color should be utilized where pedestrian paseos and/or living alleys intersect with multi-modal streets and at all mid-block crossings. Raised crosswalks may also be appropriate in these conditions.
- Curb ramps should be directional as feasible.

5.3 Civic + Open Space Standards

Building Frontage Adjacent to a Civic Space

Key

- Building Frontage
- Building Adjacent to Civic Space

This Section establishes the standards applicable to existing and new civic spaces and civic buildings. These standards supplement the standards for each zone. Civic spaces are land in the public realm—whether publicly or privately owned—available for civic gathering purposes.

Civic Space Types

Standards and Characteristics. The intent and purpose of each civic space type is described along with standards and characteristics regarding general physical character, uses, size and location. Characteristics are considered standards unless stated otherwise.

Amount of Open Space Required. As required by Section 5.8 (Design Standards General to All), development sites are required to include a minimum area of the site as open space. One or more civic spaces may be used to meet the open space requirements. Civic spaces identified on Figure 5.3.1 (Civic Space Regulating Plan) as having a flexible location shall be located within the same block as indicated by the Regulating Plan and shall be connected to the public right-of-way by adjacent paseos.

Civic Spaces, Public and Private. All civic spaces, whether privately or publicly owned, are required to be in compliance with the standards in this Section.

Stormwater Management Through Civic Spaces. Civic spaces in zones serve the additional purpose of managing stormwater. There is no minimum standard for the amount of stormwater to be detained in each civic space.

Civic spaces, and required open space in general, are intended to contribute to each development's stormwater management plan. This is to be accomplished as follows:

1. Stormwater is to be directed to civic space(s), open space on individual lots (such as courtyards, dooryards, and forecourts), planted medians, and tree planting areas along travel lanes.
2. Except for Plazas, Pocket Plazas, Playgrounds, and Community Gardens, each civic space shall accommodate stormwater while primarily being designed as a gathering space for people.
3. Civic spaces shall make use of permeable paving to reduce stormwater runoff—see Chapter 6 (Infrastructure and Stormwater).
4. Civic spaces are required to be designed in compliance with the standards of this Section and the Civic Space Regulating Plan.

Facade Zones Along or Adjacent to Civic Spaces. Each civic space shall be bounded on all sides by facade zones and/or rights-of-way. The applicable facade zone standards in Section 5.6 (Facade Zone Standards) shall govern the design of building facades facing the civic space.

5.3.1 Civic Space Regulating Plan

Legend

The Midtown Site

Civic Space Types:

Arroyo Park

Plaza

Quad Park

Pocket Park/Plaza

Other

Paseos

Existing Buildings to Reuse

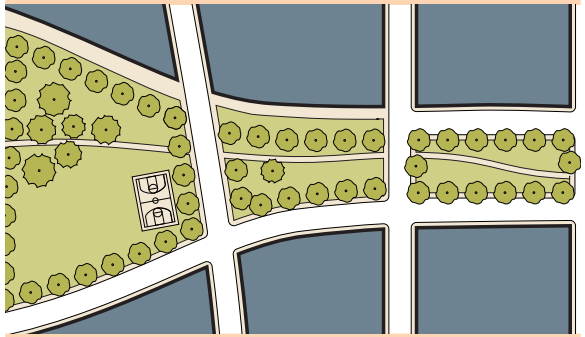
Development Blocks

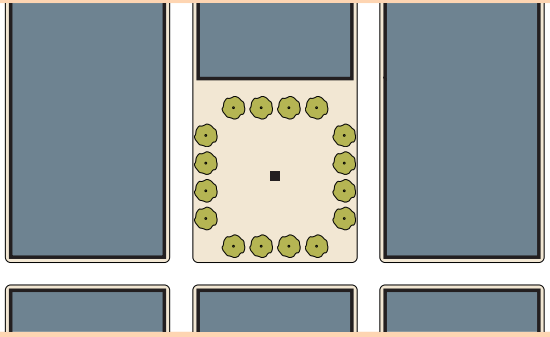
Civic Spaces shall be located in accordance with Figure 5.3.1 (Civic Space Regulating Plan) within the Midtown Site. The location of civic spaces identified by the Regulating Plan may be adjusted with approval of the Director within the blocks where they are mapped. Regardless of location, such civic spaces must meet the standards for the applicable Civic Space Type, as provided in this Section.

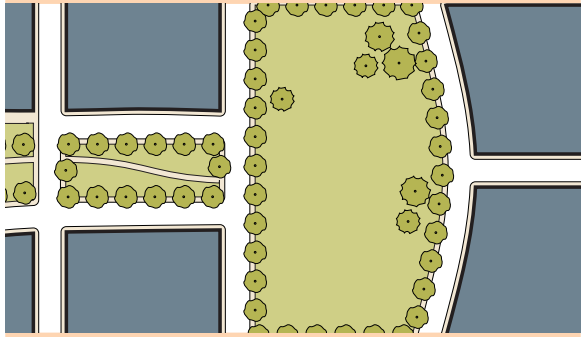
Overview of Civic + Open Space Types

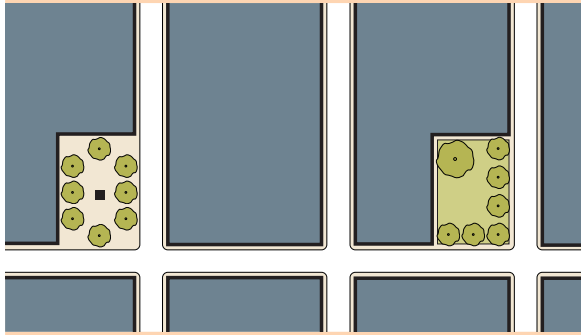
This Sub-section identifies the civic and open space types envisioned for the Midtown Site. Additional details, including minimum dimensional standards, are detailed on the following pages.

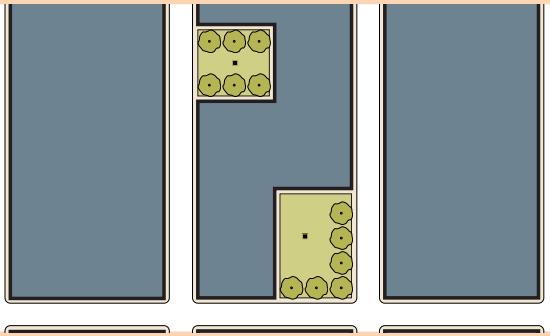
Table 5.3.A Civic and Open Space Types Overview

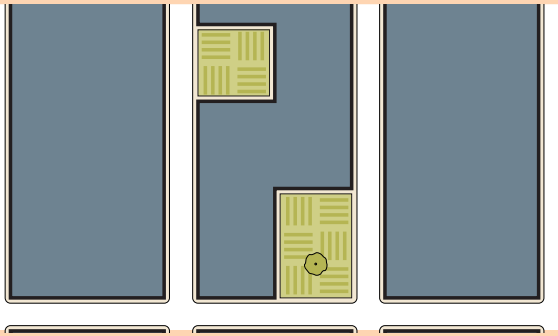


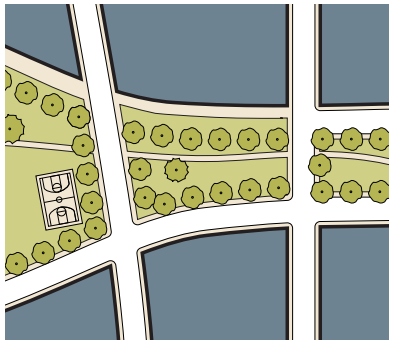












Arroyo Park	Plaza	Quad Park
		
Description	**Description**	**Description**
A linear space two or more blocks in length for community gathering, bicycling, running, or strolling, defined by a pathway that runs the length of the arroyo park. The park is bordered on the east side by the existing arroyo and on the west side by a new street to provide public access. Programmed open spaces such as playgrounds or gardens may be located along the linear space. The arroyo park will serve an important role as a green connector between destinations.	Community-wide focal point designed to accommodate both passive daily use and special community activities such as markets, community celebrations and festivals.	An informal space where adjacent buildings provide a sense of enclosure. Pathways running through or around the space provide access through the park. Programmed areas are located among informal plantings or lawn/open areas.

Table 5.3.A Civic and Open Space Types Overview

Pocket Plaza/Pocket Park	Playground	Community Garden
		
Description	**Description**	**Description**
An intimate, small-scale space, serving the immediate neighborhood, available for informal activities in close proximity to neighborhood residences, and civic purposes.	A small-scale space designed and equipped for the recreation of children. These spaces serve as quiet, safe places protected from the street and typically in locations where children do not have to cross any major streets. An open shelter, play structures, or interactive art and fountains may be included. Playgrounds may be included within all other civic space types.	A small-scale space designed as a grouping of garden plots available to nearby residents for small-scale cultivation. Community Gardens may be fenced and may include a small accessory structure for storage. Community Gardens may be included within all other civic space types except Plaza.

5.3A Civic Space Type: Arroyo Park

Description

Inspired by Footbridges Park, this linear space provides a space for community gathering, bicycling, running, or strolling, defined by a pathway that runs the length of the arroyo park. The park is bordered on the east side by the existing arroyo and on the west side by a new street to provide public access. Programmed open spaces such as playgrounds or gardens may be located along the linear space. The arroyo park will serve an important role as a green connector between destinations.

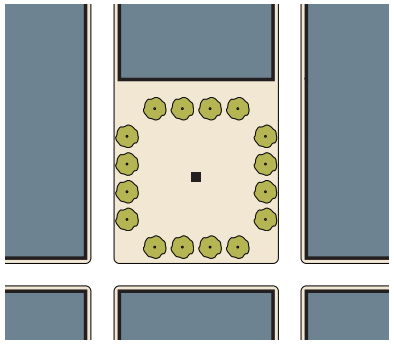
Image courtesy OJB

Arroyo Park Standards
General Character
Formal or informal, dominated by landscaping and trees with integral stormwater management capacity
Multi-use path along length of linear park
Continuous or periodic access from adjacent right-of-way
Shade and seating provided

Arroyo Park Standards (Continued)	
Size	
Area	5.8 acres min.
Width	60' min.
Length	As mapped

Note: Images are illustrative

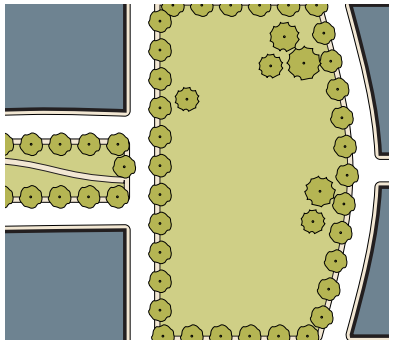


5.3B Civic Space Type: Plaza

Image courtesy Gensler Architects.

Description

Community-wide focal point designed to accommodate both passive daily use and special community activities such as markets, community celebrations and festivals. Primarily hardscaped, with some planted areas. Adjacent streets with bollarded curbless edges could allow for temporary enlargement of the plaza area and could accommodate food trucks or mobile vendors.



Plaza Standards
General Character
Formal, urban
Hardscaped and planted areas in formal patterns
Spatially defined by buildings and tree-lined streets
Adjacent buildings front onto plaza

Plaza Standards (Continued)	
Size	
Area	1.2 acres min.
Width	165' min.*
Length	165' min.*

* shortest dimension of historic Santa Fe Plaza

Note: Images are illustrative

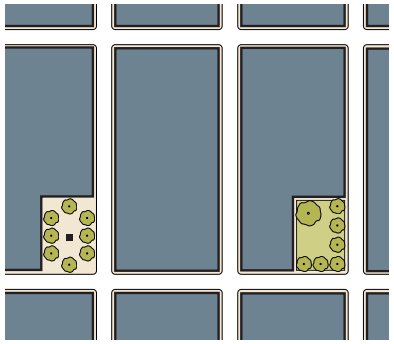
5.3C Civic Space Type: Quad Park

Description

An informal space where adjacent buildings provide a sense of enclosure. Pathways running through or around the space provide access through the park. Programmed areas are located among informal plantings or lawn/open areas.

Quad Park Standards
General Character
Separated from major streets by building volumes
Hardscape paths connecting main access points
Programmed areas provided

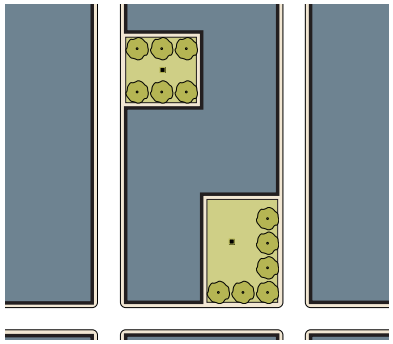
Quad Park Standards (Continued)	
Size	
Area	7,260 sf min.
Width	50' min.; 350' max.
Length	75' min.; 500' max.



Note: Images are illustrative

5.3D Civic Space Type: Pocket Plaza/Park

Description



An intimate, small-scale space, serving the immediate neighborhood, available for informal activities in close proximity to neighborhood residences, and civic purposes.

Pocket Park/Plaza Standards
General Character
Informal or formal, combination of planted areas and hardscape
Spatially defined by building frontages and trees
Adjacent buildings front onto plaza
Walkways along edges or across space

Pocket Park/Plaza Standards (Continued)	
Size	
Area	3,750 sf min.
Width	50' min.; 80' max.
Length	75' min.

Note: Images are illustrative

5.3E Civic Space Type: Playground

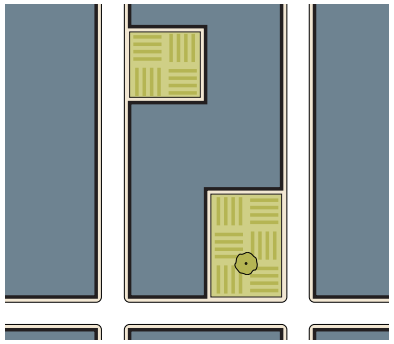
Description

A small-scale space designed and equipped for the recreation of children. These spaces serve as quiet, safe places protected from the street and typically in locations where children do not have to cross any major streets. An open shelter, play structures, or interactive art and fountains may be included. Playgrounds may be included within all other civic space types.

Image courtesy Foursquare

Playground Standards
General Character
Focused toward children
Play structure, interactive art, and/ or fountains
Shade and seating provided
May be fenced

Playground Standards (Continued)	
Size	
Area	2,400 sf min.
Width	40' min.
Length	60' min.



Note: Images are illustrative

5.3F Civic Space Type: Community Garden

Description

A small-scale space designed as a grouping of garden plots available to nearby residents for small-scale cultivation. Community Gardens are fenced and typically include a small accessory structure for storage. Community Gardens may be included within all other civic space types except Plaza.

Community Garden Standards
General Character
Dedicated to food production
Siting ensures year-round solar access
May include greenhouse(s)
Owned or managed by an entity whose decision making includes neighborhood residents
Primary circulation network provides pedestrian access to garden and all required features

Community Garden Standards (Continued)	
Size	
Area	3,750 sf min.
Width	40' min.
Length	75' min.
Required Features	
Continuous fencing along all sides	
Watering systems (e.g. drip irrigation)	
Garden bed enhancements (e.g. raised beds)	
Secure storage space for tools and supplies	

Note: Images are illustrative

5.4 Development Standards + Regulating Plan

This Section demonstrates where form-based development standards and allowed uses apply within the Midtown Site.

Development Standards Approach

To deliver the vision described in the Plan, each development parcel on the Midtown Site shall be controlled by a combination of Sub-zone Standards that control use and Facade Zone Standards that control building massing, and design. Both sets of standards have been coordinated and must be satisfied for each development parcel on the Midtown Site.

Sub-zone Standards. These standards apply to the entirety of each site onto which they are mapped, and control allowed uses.

Facade Zone Standards. These standards apply to the edges of each site that abut public rights-of-way, civic spaces, or public access easements such as paseos. They control elements such as setbacks, height stepbacks and required frontage types.

Regulating Plan

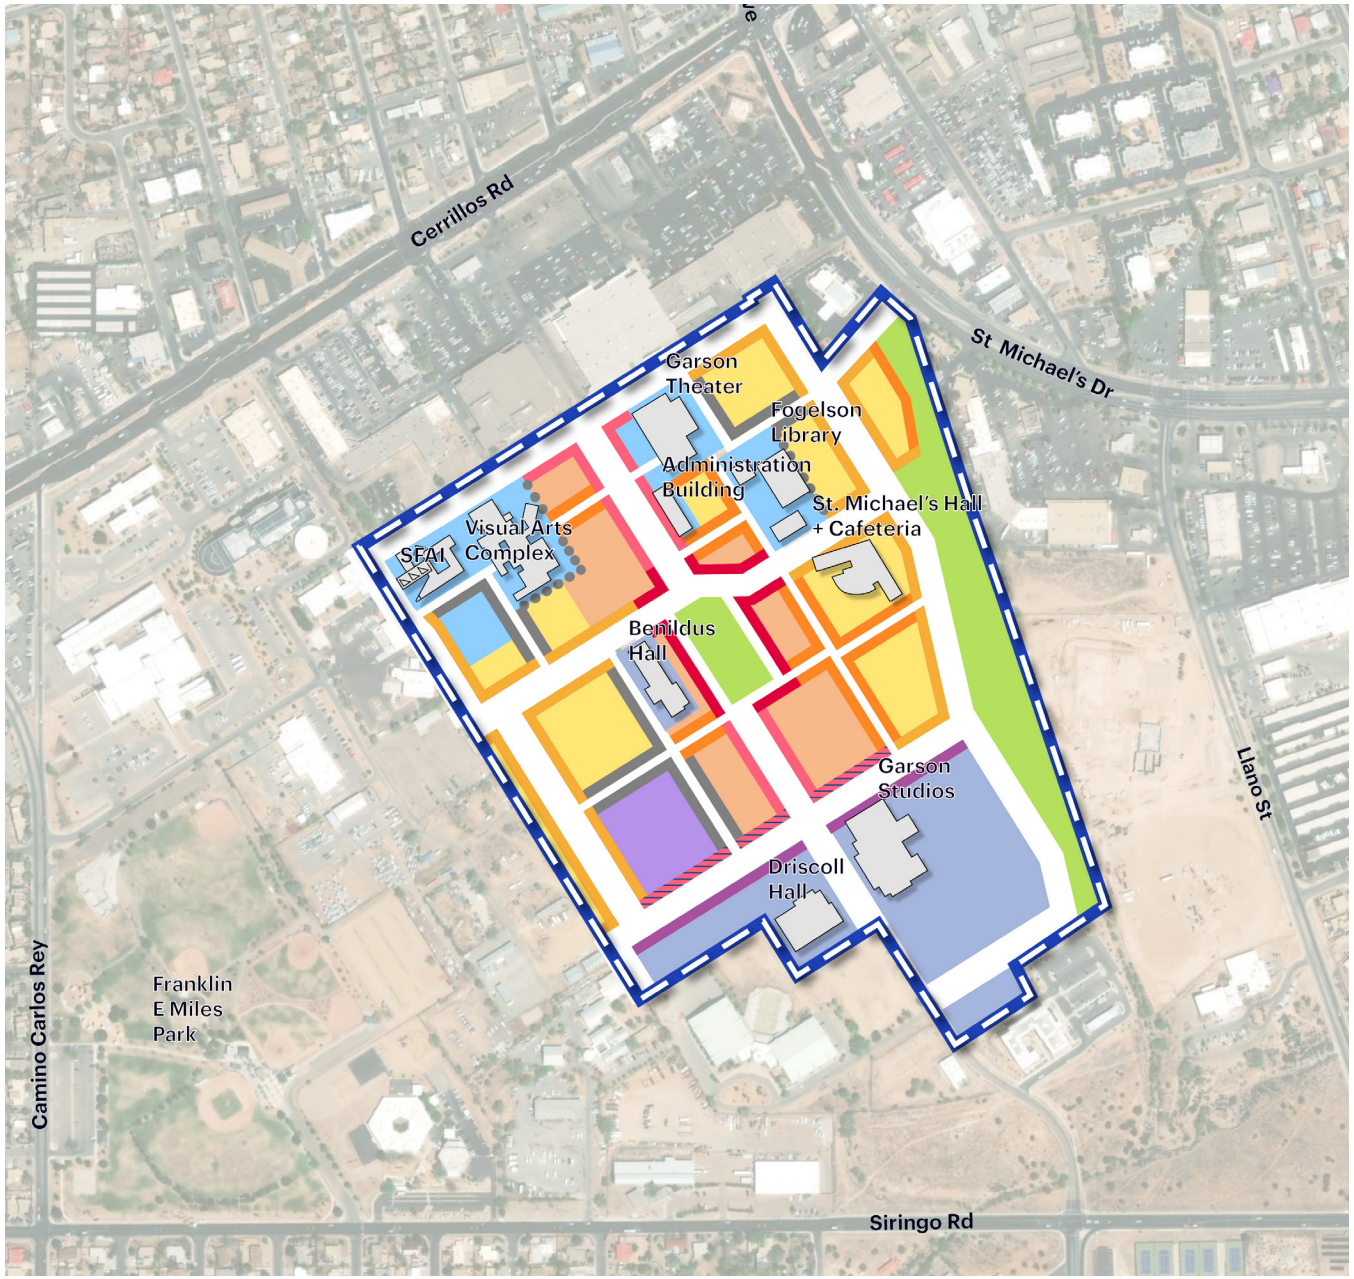


Figure 5.4.1 (Development Standards Regulating Plan) identifies the applicable Sub-zone Standards and Facade Zone Standards for each development site in the Midtown Site.

Where development sites are combined, the applicable standards identified in the Regulating Plan must be met.

Where the location of flexible rights-of-way and easements—such as paseos and living alleys—as identified by Figure 5.2.1 (Thoroughfare Regulating Plan), is adjusted, the applicable Facade Zone Standards indicated in Figure 5.4.1 (Development Standards Regulating Plan) shall apply to the right-of-way or easement in its new location, unless the new location represents a substantial change in context which merits a change in Facade Zone type, to be determined by the Land Use Director.

Where Civic Spaces are established, such as those identified by Figure 5.3.1 (Civic Space Regulating Plan), the Facade Zone(s) mapped at the location of the Civic Space in Figure 5.4.1 (Development Standards Regulating Plan) shall govern development along all edges of the Civic Space that are not bounded by thoroughfares.

5.4.1 Development Standards Regulating Plan

Legend

The Midtown Site

Sub-Zones:

- Civic Space (CS)
- Mixed-Use Neighborhood (MU–N)
- Mixed-Use Center (MU–C)
- Mixed-Use Office (MU–O)
- Mixed-Use Film (MU–F)
- Community-Oriented Use (CO)
- Existing Buildings to Reuse

Facade Zones:

- Plaza (PL)
- Main Street (MS)
- Main Street–Office (MS–O)
- Live/Work (LW)
- Neighborhood Residential (NR)
- Neighborhood Paseo (NP)
- 3 stories max. height within 30' of indicated parcel line
- Pursuant to the Midtown Overlay Zoning District requirements for "Qualifing Projects"

5.5 Sub-zone Standards

This Section refines the palette of uses allowed in base zoning and the Midtown LINC Zoning Area by establishing an allowed palette of uses for the Midtown Site.

Use Standards

Table 5.5.A (Allowed Uses) sets forth the uses allowed and prohibited according to the Sub-zones established by Section 5.4 (Development Standards and Regulating Plan) and are not impacted by adjacent Facade Zones (see 5.6 Facade Zone Standards). These regulations are based on the patterns of development and physical activities that comprise the principal and accessory uses of land, rather than on whether the activity is conducted for profit, not for profit or other purposes. Any specific use type not listed or included in the Table 5.5.A (Allowed Uses) is prohibited unless the Land Use Director determines that it is to be included in an existing use category.

The Midtown Site Sub-zones

The following Sub-zones apply in the Midtown Site:

- Mixed-Use Neighborhood (MU–N) provides for a variety of housing options.
- Mixed-Use Center (MU–C) provides opportunities for limited commercial uses such as retail, dining and entertainment while providing a variety of housing options on upper floors and along pedestrian paseos.
- Mixed-Use Office (MU–O) provides opportunities for service commercial uses as a transition between film production uses and residential uses.
- Mixed-Use Film (MU–F) provides for film production activities focused on the Garson Studios.
- Community-Oriented (CO) provides for civic uses such as libraries, education, performing arts, and other uses that serve the community.
- Open Space (OS) provides for publicly-accessible civic and open space.

Key

P = Permitted Use
S = Special Use Permit
A = Accessory Use
— = Not Allowed
* = Use must be located on upper floors, or on ground floor behind another permitted use.
** = Allowed on ground floor where access to use is via Live/Work Facade Zone.

5.6 Facade Zone Standards

This Section establishes Facade Zone Standards that regulate setbacks, frontage types, height, and other elements that impact the quality of the pedestrian realm. These standards are meant to complement Section 5.8 Design Standards General to All.

Walkable, Pedestrian-Oriented Design

Standards for specific Facade Zones are intended to create a high-quality public realm that provides an appealing experience for people moving around the Midtown Site on foot. This goal is achieved through intentionally regulating design elements such as ground floor frontages, facade definition, the shape of buildings along the streetscape, and composition of openings.

Context-Sensitive Standards

To deliver the high quality public realm envisioned by this plan, specific standards for particular Facade Zones are applied according to Section 5.4 (Development Standards and Regulating Plan). These standards correspond to different thoroughfare environments, and are scaled accordingly. Facade Zones that allow for taller heights and facade conditions appropriate for commercial uses are prescribed for major thoroughfares, while lower-intensity Facade Zones with reduced building heights are prescribed for more intimate paseos and residential streets. The Frontage Types allowed under each Facade Zone are calibrated to the physical character and types of activity envisioned for each environment.

Application of Facade Zone Standards

Facade Zones are applied along the edges of rights-of-way, easements, and civic spaces, as shown in Section 5.4 (Development Standards and Regulating Plan). The standards in this Section govern the above-grade portion of a development block within a certain distance of these public spaces, defined as the Facade Zone (see the table below). All standards contained in Section 5.5 (Sub-zone Standards) and Section 5.8 (Design Standards General to All) remain applicable within the Facade Zone.

Applicability of Standards	
Facade Zone Extents	
Depth (From Frontage Line[1])	Up to 30'
Height (Above Grade)	To maximum height in sub-zone

[1]The frontage line shall be defined as the boundary of the adjacent public way or easement.

Openings

Standards in this Section shall apply to all walls contained within a single lot and facing a public way or open space.

Table 5.6.A Facade Zones Overview

Plaza (PL)

Intent

An active, arcaded streetscape characterized by high pedestrian density and commercial activity. This Facade Zone reinforces the Central Plaza as a gathering point for the neighborhood.

Main Street/Main Street-Office (MS/MS-O)

Intent

A walkable main street environment designed for a mix of housing and workplaces, which can evolve to accommodate increasing commercial activity as the neighborhood matures.

Live/Work (LW)

Intent

Inspired by traditional city streets, this Facade Zone features a pedestrian-oriented passage lined by buildings that combine residences with ground-floor shops and studios.

Neighborhood Residential (NR)

Intent

An environment in which residences face onto a landscaped public realm accommodating pedestrians, bikes, and low-speed auto traffic—gracefully transitioning to the private realm through appropriate frontage types.

Neighborhood Paseo (NP)

Intent

A fine-grained, intimate environment with homes facing onto pathways for foot and bike traffic.

Note: Images are illustrative

Facade Definition

Note: Images are illustrative

Intent

A continuously varied streetscape contributes to a more pleasant pedestrian experience, providing interest for people navigating the neighborhood on foot and helping them to orient themselves. Even in environments where the street wall is more or less continuous, differentiating building facades through changes in various architectural parameters can help to realize these benefits.

Photo Gallery

Facade Variety in Development Standards

The standards for each Facade Zone include a maximum width for defined Facades. Where individual buildings are no wider than the maximum facade width for the Facade Zone, defined Facades shall correspond to individual buildings. Buildings wider than the maximum Facade width shall incorporate multiple Facades no wider than the maximum for the Facade Zone.

Facade Definition	
Max. Width of Defined Facade	Per Facade Zone Standards
Boundary between defined Facades shall extend vertically for the full height of the building(s).	A
Facades shall be designed to be or appear to be structurally independent. Vertical support elements (columns, etc.) may not be shared between adjacent Facades.	B
A defined Facade shall be differentiated from adjacent Facades through two or more of the following techniques[1]:	
Change in frontage type, or its material composition	
Change in wall color or material	
Change in eave or parapet height	
Change in story where stepback/roof terrace occurs	
Recess or projection ≥ 18" deep	
Change in typical windows, doors, and surrounds	

(Facing page) Collections of unique townhouses in Tucson, Arizona illustrate how varying facade characteristics along a block face can reinforce a human scale of development.

(Above) Diagram showing how differentiation between adjacent facades may be achieved through variation of architectural features. Image is illustrative, not regulatory.

Plaza (PL)

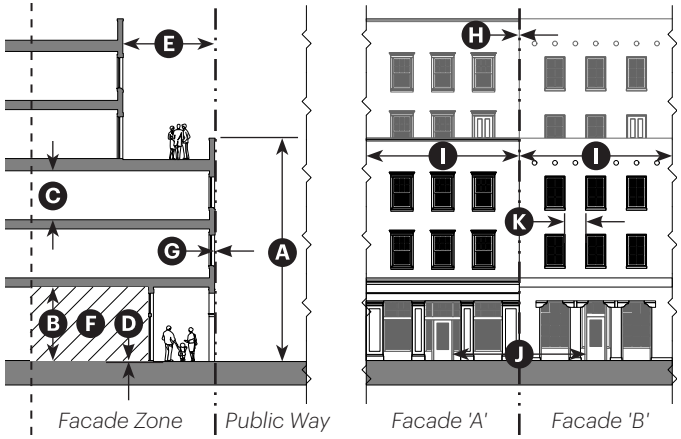
Note: Images are illustrative

Overview

An active, arcaded streetscape characterized by high pedestrian density and commercial activity. This Facade Zone reinforces the Central Plaza as a gathering point for the neighborhood.

Allowed Frontage Types in the Plaza Facade Zone

Arcade



Shopfront[1]

Gateway/ Zaguan[1]

[1] In the Plaza Facade Zone, Shopfront and Gateway/ Zaguan frontage types must be used within the Arcade frontage type, articulating the recessed ground floor facade.

Building Form Within Facade Zone

Driveways
Driveways are not permitted in this Facade Zone
Vehicular access shall be via alley or shared access easement

5.7 Frontage Types

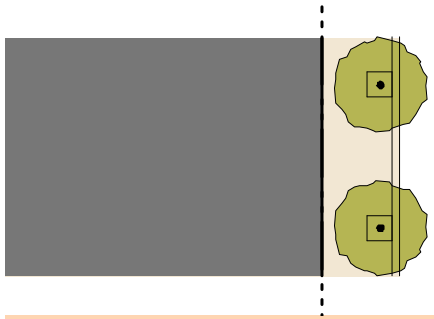
This Section establishes standards for all frontage types. Frontages are the components of a building that provide the transition and interface between the public realm (street, sidewalk, or civic space) and the private realm (yard or building).

Application of Frontage Types

- Each building shall be connected to the adjacent street, paseo, or civic space by at least one frontage type. A single building may have multiple frontage types in compliance with the types listed for the applicable Facade Zone(s).
- The frontage line shall be defined as the boundary of the adjacent street, paseo, or civic space from which the entrance is accessed.
- Frontage types shall be located in compliance with the Facade Zone per Item 2 (Building Placement) and Item 3 (Encroachments).
- Frontage types not listed in the standards for the Facade Zone under "Allowed Frontage Types" are not allowed in that Facade Zone.
- The names of the frontage types indicate their particular configuration or function and are not intended to limit uses within the associated building. For example, a Shopfront may serve residential uses, and a portal may serve non-residential uses as allowed by the Sub-zone.

Frontage Types + Entrances

- Each frontage type shall accommodate at least one entrance.
- The primary building entrance shall be on the front of the building unless a side street or paseo are present—in which case the building entrance may be in any of these locations.
- Access to entrance doors of individual dwelling units located above the ground floor level may be provided by an enclosed lobby or corridor and stairway. Unenclosed or partially enclosed exterior stairways, open-air corridors, and/or egress balconies are also permitted as the primary means of access to dwelling units located on the second floor.
- Dwelling units on the ground floor and their entrances must be connected to adjacent public way(s), as well as to parking areas and other on site facilities.



Arcade

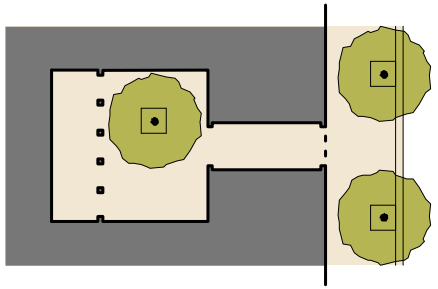
Description

The ground floor facade is set back to form a covered passageway, with the surrounding structure supporting habitable space up to the frontage line on the upper floors. Frequently incorporates the Shopfront or Gateway/Zaguan frontage types.

Shopfront

Description

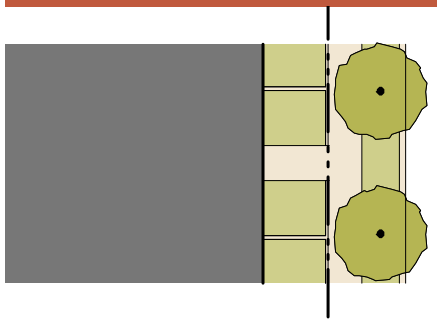
The main facade is at or near the frontage line with at-grade entrance along the sidewalk. Includes substantial glazing between the Shopfront base and the ground floor ceiling, frequently shaded by a canopy or awning over the sidewalk.



Gallery

Description

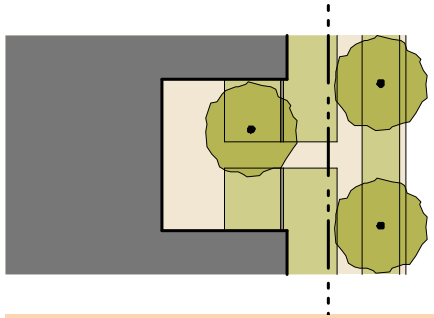
The main facade is at or near the frontage line and an at-grade covered structure, typically articulated with a colonnade that extends into the right-of-way. May be one or two stories and typically incorporates the Shopfront type.



Gateway/Zaguan

Description

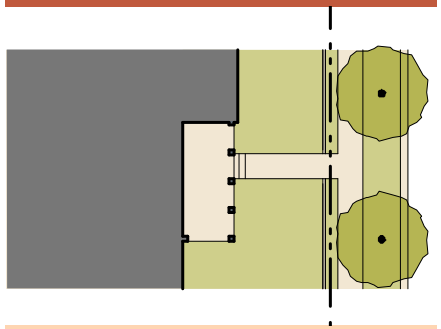
The main facade is at or near the frontage line, with a prominent Gateway linking the sidewalk to an interior court via a covered, open-air passage or Zaguan. This type often accommodates a vertical change in grade from the sidewalk to the court.



Dooryard

Description

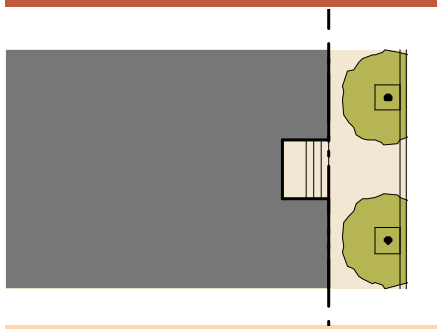
The main facade is set back from the frontage line, which is defined by a low wall, creating a small private area between the sidewalk and the facade. Each Dooryard is separated from adjacent Dooryards. The Dooryard may be raised or at grade.



Forecourt

Description

The main facade is at or near the frontage line and a portion is set back, extending the public realm into the lot for an entry court or shared garden space, or as an additional shopping or restaurant seating area within retail and service contexts.



Portal

Description

A portion of the main facade is set back from the frontage line, creating space for a projecting covered structure. May be up to two stories and may have up to three adjacent sides that are engaged to the building, with at least one side open.

Stoop/ Recessed Entry

Description

The main facade is near the frontage line, with steps to an elevated and/ or covered entry recessed into the main facade, providing a defined transition between the sidewalk and the interior. Stairs or ramps may lead directly to the sidewalk or may be parallel to the sidewalk.

Frontage Type: Arcade

Note: Images are illustrative

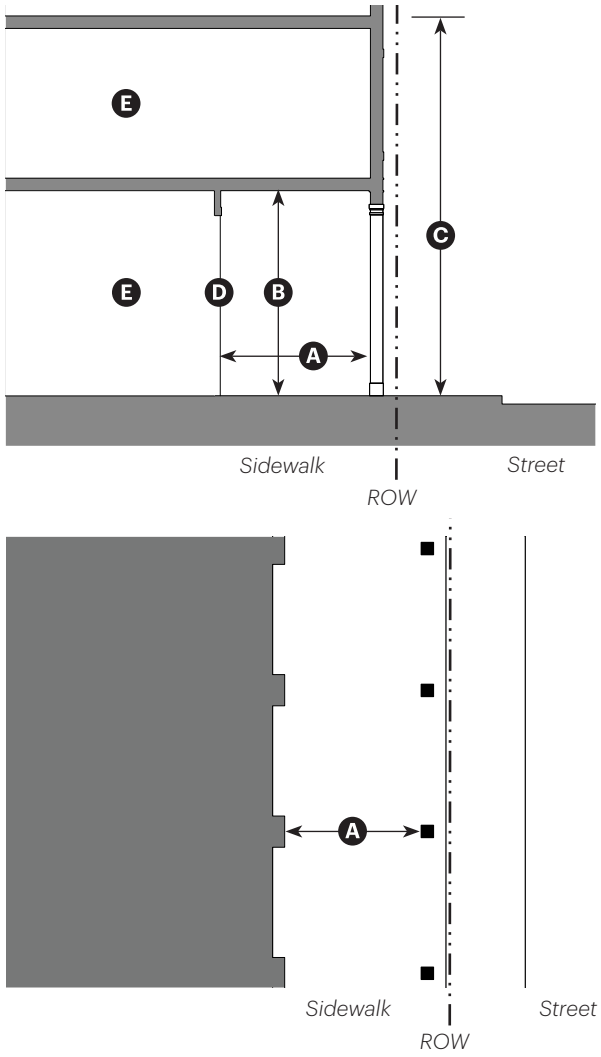
Description

The ground floor facade of the building is set back to form a covered passageway, with the surrounding structure supporting habitable space up to the frontage line on the upper floors. The recessed ground floor facade frequently incorporates the Shopfront or Gateway/ Zaguan frontage types.

Intent

To provide shelter for pedestrians and to create an indoor-outdoor environment that accommodates activities that activate the public realm—such as outdoor dining and vending.

Photo Gallery



Arcade Standards		
Size		
Depth, Clear	10' min.	A
Ceiling Height	12' min.	B
Building Height at Arcade	3 stories max.	C
Miscellaneous		
Building facade within arcade shall follow the standards for the Shopfront and/or Gateway/Zaguan Frontage Type(s)		D
Habitable Interior Space		E
Arcades shall have a consistent depth		
Arcades are not allowed to project over the sidewalk in the public right of way.		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Shopfront

Note: Images are illustrative

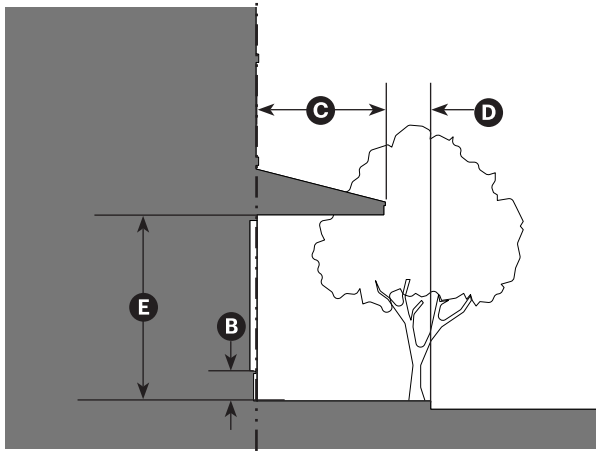
Description

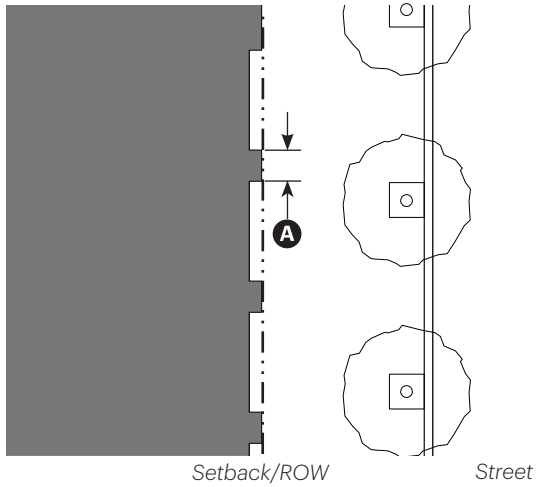
The main facade of the building is at or near the frontage line with at-grade entrance along the sidewalk. This type is intended for service, retail, or restaurant use and includes substantial glazing between the Shopfront base and the ground floor ceiling, frequently shaded by a canopy or awning that overlaps the sidewalk.

Intent

To activate the streetscape by providing a visual connection between activities taking place inside and pedestrian activity on the sidewalk.

Photo Gallery





Shopfront Standards		
Size		
Distance between Glazing	2' max.	A
Ground Floor Glazing between Sidewalk and Finished Ceiling Height	65% min.	
Depth of Recessed Entries	5' max.	
Shopfront Base	6" min.; 30" max.	B
Awning (When Present)		
Depth	5' min.	C
Setback from Curb	2' min.	D
Height, Clear	8' min.	E
Miscellaneous		
Residential types of windows are not allowed		
Rounded and hooped awning are not allowed		
When decorative accordion-style doors/windows or other operable windows that allow the space to open to the street are included, Site Plan Review is required		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Gallery

Note: Images are illustrative

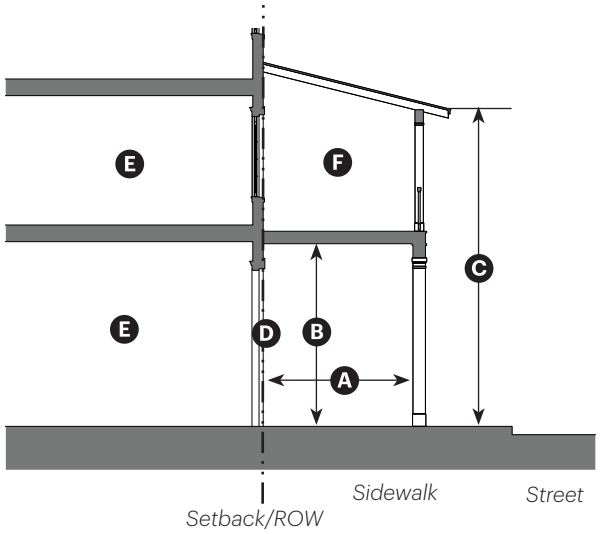
Description

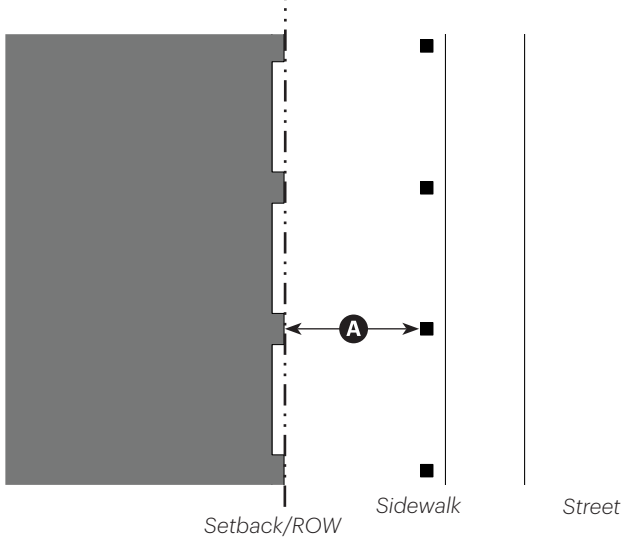
The main facade of the building is at or near the frontage line and an at-grade covered structure, typically articulated with a colonnade or arches, covers a pedestrian area extending into the right-of-way. This type may be one or two stories and typically incorporates the Shopfront frontage type.

Intent

To provide shelter for pedestrians and to create an indoor-outdoor environment along the sidewalk that accommodates activities that activate the public realm—such as outdoor dining and vending.

Photo Gallery





Gallery Standards		
Size		
Depth, Clear	8' min.	A
Ground Floor Ceiling Height	10' min.	B
Gallery Height	2 stories max.	C
Miscellaneous		
Building facade within gallery shall follow the standards for the Shopfront and/or Gateway/Zaguan Frontage Type(s)		D
Habitable Interior Space		E
Second story of Gallery may be used as a Balcony and may be covered by a roof		F

Note: Images are illustrative

Frontage Type: Gateway/Zaguan

Description

The main facade of the building is at or near the frontage line, with a prominent Gateway linking the sidewalk to an interior courtyard by way of a covered, open-air passage or Zaguan. This type often accommodates a vertical change in grade from the sidewalk to the courtyard.

Intent

To reinforce an architectural element that is common in Santa Fe and to provide access control, natural light and ventilation, and a transition between the public and private realms.

Photo Gallery

Gateway/ Zaguan Standards

Courtyard Access

This frontage type provides direct access from the sidewalk to a Courtyard[1] via a sequence consisting of the following elements:

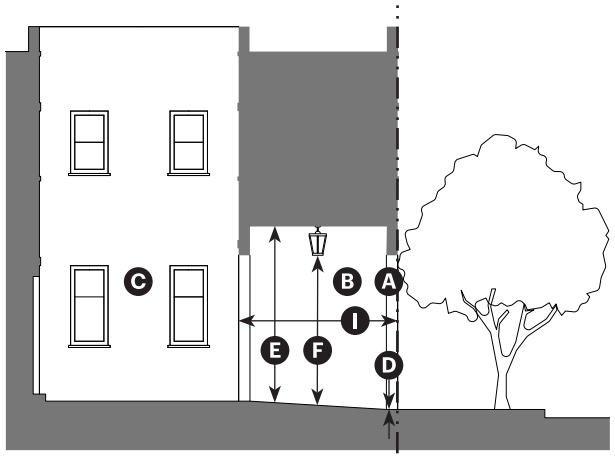
Gateway	A
Zaguan (unless Courtyard is adjacent to ROW[2])	B
Courtyard[1]	C

[1] See Section 5.8 (Design Standards General to All) for Courtyard standards

[2] If Courtyard is adjacent to ROW, Gateway may open directly onto Courtyard

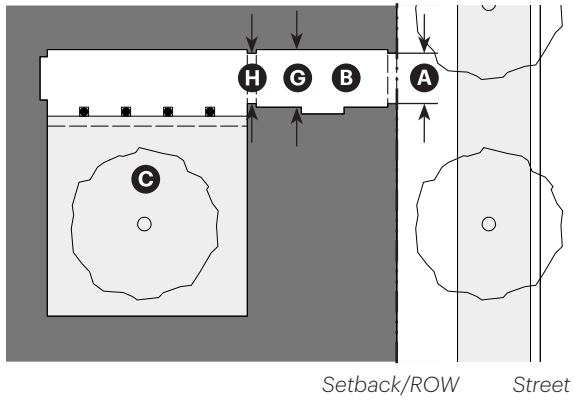
Gateway

Clear Width of Entrance	3' min., 11' max.	A
Threshold Elevation Above Sidewalk at Gateway	0" max.	D

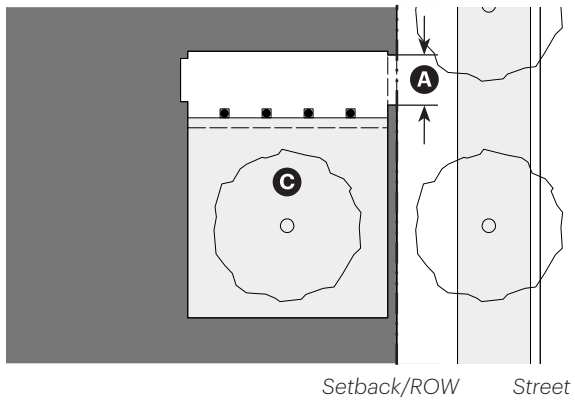


Gateway shall be constructed to enable cross-ventilation, daylighting, and visibility—either through gaps between vertical members equal to or wider than the vertical members, or through unglazed transoms/eye-level openings in an otherwise solid door

Zaguan



Height		
Ceiling Height	10' min., 24' max.	E
Clear Height	7' min.	F
Width		
Wall to Wall	4' min., 12' max.	G
Clear Width	44" min.	H
Length	10' min., 40' max.	I



Zaguan may serve as part of an exit discharge system, subject to requirements of the applicable building code

Zaguan may slope toward Courtyard

Note: Images are illustrative

Frontage Type: Dooryard

Note: Images are illustrative

Description

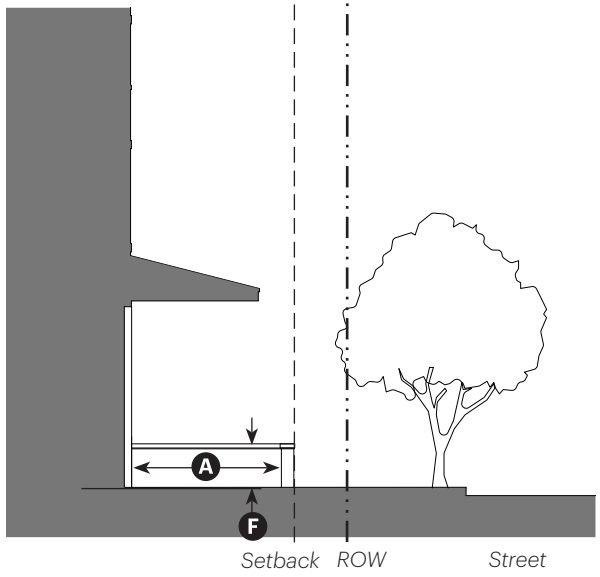
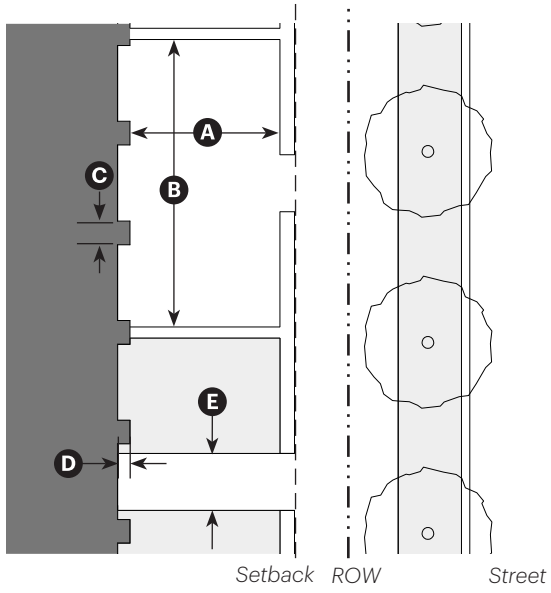
The main facade of the building is set back from the frontage line, which is defined by a low wall, creating a small private area between the sidewalk and the facade. Each Dooryard is separated from adjacent Dooryards. The Dooryard may be raised or at grade.

Intent

To provide a transition between the public and private realms and to provide an outdoor area that can accommodate activities that activate the public realm—such as socializing and outdoor dining and vending.

Photo Gallery





Dooryard Standards		
Size		
Depth, Clear	7' min.	A
Length, Clear	12' min.	B
Distance Between Glazing	4' max.	C
Depth of Recessed Entries	12" max.	D
Pedestrian Access Width	3' min.	E
Height of Dooryard Fence/Wall Above Finish Level	36" max.	F
Miscellaneous		
In the Main Street and Live/Work Facade Zones, building facade(s) within dooryard(s) shall follow the standards for the Shopfront Frontage Type		
Each Dooryard shall contain only one ground floor entry		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Forecourt

Note: Images are illustrative

Description

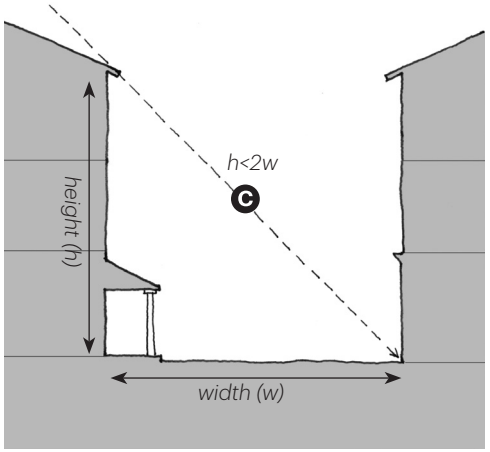
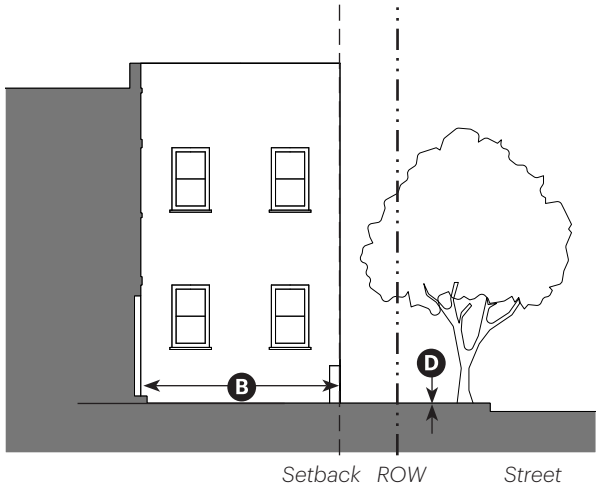
The main facade of the building is at or near the frontage line and a portion is set back, extending the public realm into the lot for an entry court or shared garden space for housing, or as an additional shopping or restaurant seating area within retail and service contexts.

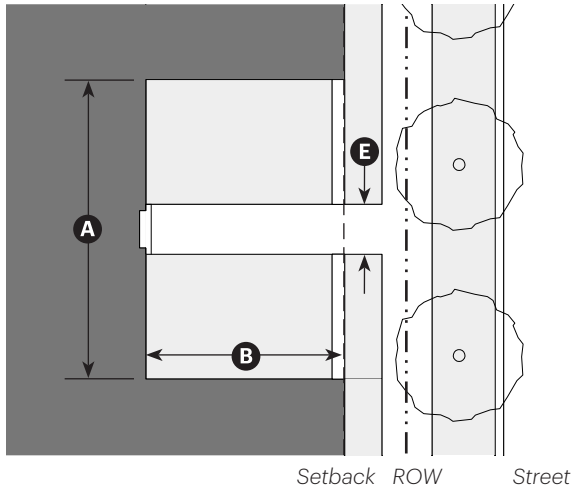
Intent

To extend the public realm and to create the sense of an outdoor room that can accommodate activities that activate the public realm—such as outdoor dining and vending.

Photo Gallery







Forecourt Standards		
Size		
Width, Clear	15' min.	A
Depth, Clear	15' min.	B
Ratio, Height to Width	2:1 max.	C
Height from Sidewalk	12" max.	D
Pedestrian Access Width	3' min.	E
Miscellaneous		
May be utilized to group several entries at a common elevation in compliance with the zone ground floor finish level standards		
The proportions and orientation of these spaces shall comply with the diagram below for solar orientation and user comfort		
Sliding doors are not allowed as the entry door(s)		
Other frontage types as allowed in the facade zone may be applied to the front of the building and/or within the Forecourt		

Note: Images are illustrative

Frontage Type: Portal

Note: Images are illustrative

Description

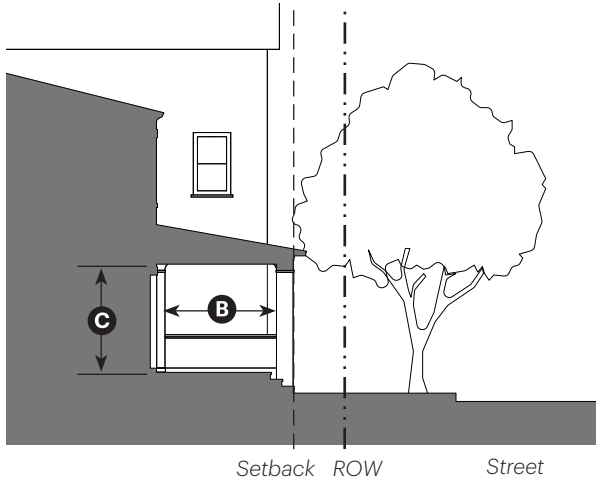
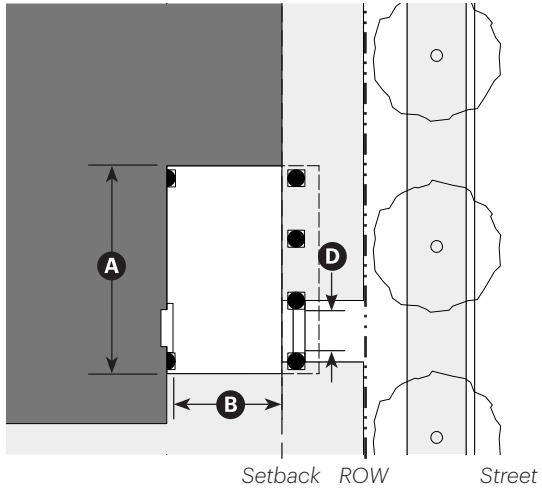
A portion of the main facade of the building is set back from the frontage line, creating an area for a covered structure that projects from the facade. The Portal may be one or two stories and may have one, two, or three adjacent sides that are engaged to the building, with at least one side open.

Intent

To provide a transition between the public and private realm, to provide protection from the weather for a building entry, and to provide a shady outdoor area for socialization and relaxation.

Photo Gallery





Portal Standards		
Size		
Width, Clear	12' min.	A
Depth, Overall		B
Elevated < 12" from average finish grade	8' min.	
Elevated ≥ 12" from average finish grade	6' min.	
Height, Clear	8' min	C
Stories	2 stories max.	
Pedestrian Access Width	3' min.	D
Miscellaneous		
Portal shall be open at least on one side and shall be covered by a roof		
Clear glass may be installed between the columns if the minimum size of individual panes is 12"		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Stoop/Recessed Entry

Note: Images are illustrative

Description

The main facade of the building is near the frontage line, with steps to an elevated entry and/ or a covered entryway recessed into the main facade, providing a defined transition between the sidewalk and the interior. Stairs or ramps from the Stoop/ Recessed Entry may lead directly to the sidewalk or may be parallel to the sidewalk.

Intent

To provide a transition between the public and private realms and to provide protection from the weather for a building entry.

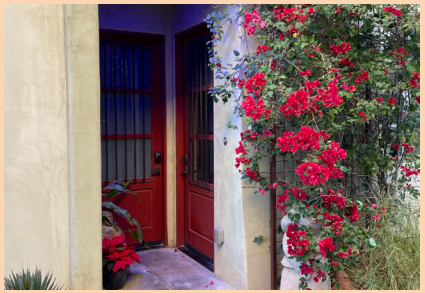

Photo Gallery

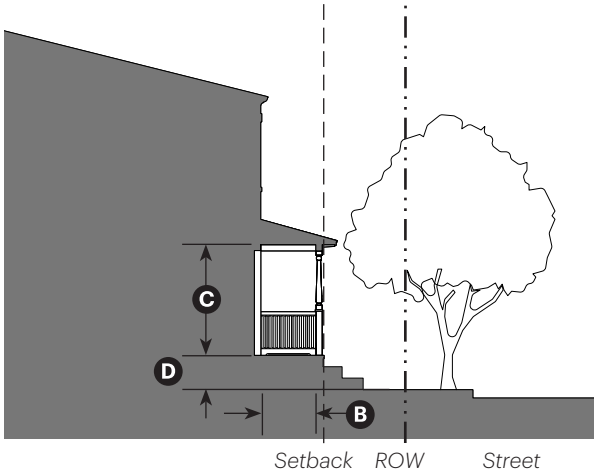

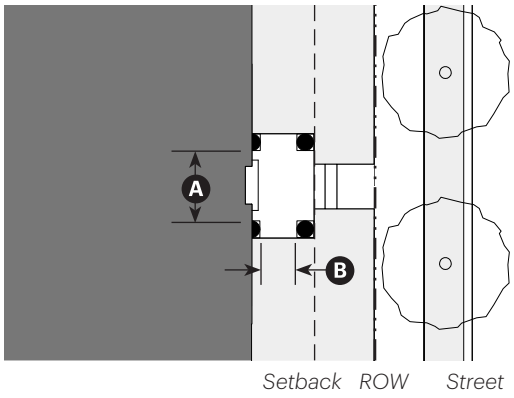

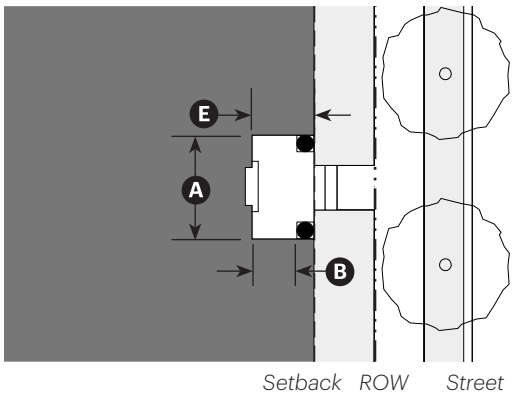

Stoop/Recessed Entry Standards		
Size		
Landing Width, Clear	5' min.	A
Landing Depth, Clear	3' min.	B
Height at Landing, Clear	8' min	C
Stories	1 story max.	
Finish Level Above Sidewalk		D
Entry Recessed ≥ 60" from facade	0" min.	
Entry Recessed < 60" from facade	12" min.	
Depth of Recessed Entries	6' max.	E
Miscellaneous		
Stairs may be perpendicular or parallel to the building facade		
Ramps shall be parallel to facade or along the side of the building		
Entry doors are covered or recessed to provide shelter from the elements		
Gates are not allowed		
At least one entry door shall face the street		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

5.8 Design Standards General to All

This Section establishes design standards that are applicable to all development parcels at the Midtown Site.

General to All

Design standards described in this Section apply to all development parcels in the Midtown Site, regardless of underlying Sub-zone and Facade Zone. Design standards applicable to all parcels include certain building setbacks, minimum open space standards, parking standards, and courtyard and roof terrace design standards as described in this Section.

Building Setbacks		
From Public Way with Facade Zone indicated	A	Per Facade Zone standards
From Easement with no Facade Zone indicated	B	0' min.
From Shared Lot Line	C	0' min.

Exceptions to Height Limits

Mechanical rooms, stair enclosures, elevator towers, renewable energy generating equipment, and shade structures/pergolas may exceed height limits set by this Chapter.

Open Space

Required Open Space

% of Parcel Area	25% min.[1]

On parcels > 1/4 acre in area, min. open space requirement shall be satisfied through common open space.

Area of Courtyards and Roof Terraces meeting the applicable standards in this Section, and of Forecourts meeting the standards in Section 5.7 (Frontage Standards), may apply toward required common open space.

[1] Minimum open space requirement may be reduced by 5-10% of the total parcel area if the development incorporates rainwater harvesting; see Sub-section 14-7.5(D)(6) for standards.

Courtyards + Roof Terraces

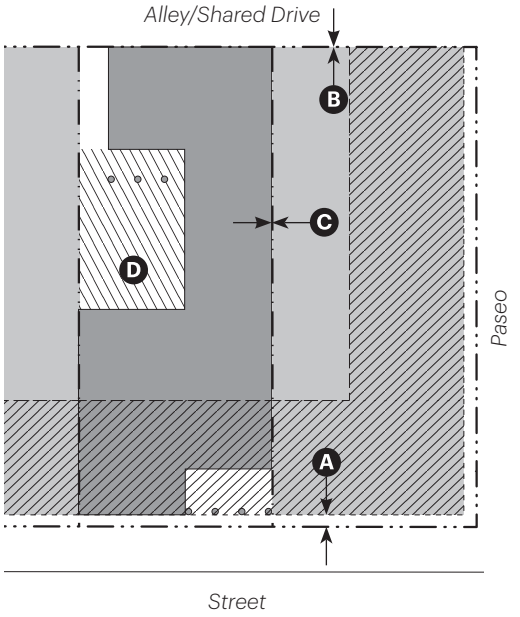
Courtyard Requirement (per standards in this Section)	D	15% of Parcel area min. on Parcels over 2,500 sf

Area of Roof Terraces meeting the standards in this Section may apply toward required open space in excess of required Courtyard area.

Parking

Vehicle Parking Location + Access

Vehicle parking spaces are restricted within the Facade Zone. See Section 5.6 (Facade Zone Standards).



Vehicular access shall be via alley or shared access easement where feasible.

Required Vehicle Parking Spaces

Residential Uses	2/du max.	
Non-residential Uses	2/1,000 sf max.	
Minimum Required Bicycle Storage Spaces[2]	**Short Term**	**Long Term**
Residential Uses (greater of:)	1/40 visitors or 4/bldg	3/10 occupants or 1/du
Non-residential Uses[3] (greater of:)	1/40 visitors or 4/bldg	1/20 occupants or 4/bldg

[2] Required bicycle storage shall be within 100 ft walking distance of an entrance serving the relevant use.

[3] Non-residential uses shall have free access to ≥ 1 on site shower with changing facilities per 100 occupants.

Courtyards, Roof Terraces, + Balconies

Description

Courtyards, Roof Terraces, and Balconies feature prominently in the region's native and Spanish architectural heritage, offering opportunities for residents to enjoy the outdoors while making efficient use of available land. These features also provide buildings with the associated benefits of natural light, ventilation, and passive cooling.

Note: Images are illustrative

Photo Gallery

Courtyards		
Area		
Total Area Required	15% of parcel area min. for parcels > 2,500 sq ft[1, 2]	A
Impervious Cover	25% of courtyard area max.[3]	
[1] Required Area may be divided among multiple Courtyards		
[2] Courtyard area includes adjacent open-air circulation, but does not include vehicular use area or parking		
[3] Impervious cover excludes Courtyard area covered by landscaping or permeable pavement.		
Dimensions	**Width/Depth**	**Area**
Private Courtyard	12' min.	250 sq ft min. B
Common Courtyard	15' min.	500 sq ft min. B
Courtyards may be used to satisfy open space requirements of § 14-7.5.		
Enclosure + Access		
Enclosure Required		All sides
Perimeter Enclosed by Exterior Building Wall		50% min.
Enclosure Height by Type		
Exterior Building Wall		10' min. C
Perimeter Wall		30" min. D
Portal Required along Exterior Building Wall; see standards in Section 5.7 (Frontage Types): Portal.		1 North Edge min. E
Open-air connection to public way required[4]		F
Courtyard shall be located either at grade or on an accessible route from a public way at grade		
A courtyard abutting a frontage line and meeting the requirements of this Section may function as a Forecourt; see standards in Section 5.7 (Frontage Types): Forecourt.		
[4] Access to Public Way from Courtyard shall meet egress requirements of the applicable building code		

Roof Terraces		
Area		
Area of Roof Terrace(s) may contribute to any required open space in excess of required Courtyard area.		G
Area may be divided among multiple Roof Terraces.		
Roof Terrace(s) may be located at any story above the first.		
Dimensions	**Width/Depth**	**Area**
Private Terrace	6' min.	75 sq ft min. H
Common Terrace	9' min.	200 sq ft min. H
Enclosure		
Enclosure Required		All sides
Enclosure Height by Type		
Exterior Building Wall		10' min. I
Parapet Wall and/or Railing		42" min. J

Balconies (as applicable)		
Total Area		
Area of Balconies shall not count toward required open space		
Balcony area shall include upper-story area of two-story Portals and/or Galleries; see Section 5.7 (Frontage Types): Portal; Gallery.		
Width	**Depth**	**Area**
8' clear min.[6]	6' clear min.[6]	48 sq ft min.[6]
[6] Minimum dimensions shall not apply if at least 80% of innermost Balcony edge is occupied by doorway(s) to adjacent habitable space.		
Enclosure + Access		
Railing Height		42" min.
Access required from habitable space on same floor		

5.9 Plan Administration

Overview

This Section provides guidance for review of development applications within the Midtown Site. This information supplements existing City review procedures applicable to the Midtown LINC Overlay District (Section 14-5.5(D)) to more effectively implement the vision for the Midtown Site.

Plan Interpretation

Change in the Midtown Site will be dynamic and incremental, with buildout likely occurring over many years. The Plan provides clear and reasonable expectations and standards designed to minimize the need for interpretation and eliminate uncertainties. When projects are proposed, the applicant should first look to evaluate them against the policy direction and guidance established in Chapters 3 (Urban Design Vision) and 4 (Connectivity + Mobility Vision). Development Standards in this Chapter are designed to accommodate a range of potential, compliant outcomes that will further the vision of the Plan.

In some situations, new information may be provided as part of a proposal that is consistent with the vision described in the Midtown Plan but requires one or more minor adjustments to the Development Standards in this Chapter. In these situations, the guidance for Minor Modifications in this Chapter should be utilized.

In other situations, new information may be provided that will require both the policy direction in Chapters 3 (Urban Design Vision) and 4 (Connectivity + Mobility Vision) and this Chapter to be revisited. In these cases, the Midtown Master Plan will require legislative Amendments.

Minor Modifications + Administrative Deviations

The Zoning Ordinance provides authority to the Land Use Director to grant Minor Modifications to approved Master and Development Plans (14-2.11(C)(2)) as well as Administrative Deviations in (14.2.11(C)(3) to provide review flexibility.

In some situations, development applications may be consistent with the policy direction in Chapters 3 (Urban Design Vision) and 4 (Mobility + Connectivity Vision) but require one or more minor adjustments to this Chapter. Minor Modifications in this Section provide a degree of flexibility and specificity in implementing the Plan.

Guidance for Minor Modifications in this Section aims to ensure that applicants seeking measured relief from development standards can still uphold the intent and vision described in the Plan.

Applicability. Minor Modifications are considered for only those items specified in Table 5.9.A Types of Minor Modifications Allowed, and only after first making the findings listed below.

Findings. The Land Use Director shall make the following findings when considering Minor Modifications and Administrative Deviations:

1. There are special circumstances or conditions applicable to the subject property (e.g., location, shape, size, surroundings, topography, or other physical features, etc.) that do not generally apply to other properties in the vicinity under an identical Facade Zone classification;
2. Strict compliance with Development Standards requirements would deprive the subject property of privileges enjoyed by other properties in the vicinity and under an identical Facade Zone classification;
3. Approving the Minor Modification would not constitute a grant of special privilege inconsistent with the limitations on other properties in the same vicinity and Facade Zone in which the subject property is situated; and
4. The requested Minor Modification would not allow a use or activity that is not otherwise expressly authorized by the regulations governing the subject parcel.

Precedents. Each application shall be reviewed on a case-by-case basis, and the approval of a prior Minor Modification is not admissible evidence for approving a new Minor Modification.

Conditions of Approval. In approving a Modification application, the Review Authority may impose conditions deemed reasonable and necessary to ensure that the approval would be in compliance with the findings listed above.

Amendments

Amendments to the Midtown Master Plan may be required when new information is provided that requires both the policy direction in Chapters Three and Four and the standards in Chapter Five Development Standards to be revisited. Amendments to the Plan are legislative and require the Planning Commission's recommendation and the Governing Body's authorization in accordance with Section 14-3.9(C).

Table 5.9.A Types of Minor Modifications

Type of Minor Modification	Definition of Modification	Allowed Max. Modification
Building Height	A deviation in the height calculation for main buildings, ground floor finish level, upper-floor stepbacks, and ceiling height (feet and inches).	10 percent
Footprint	A decrease in the minimum required depth of ground floor space for residential and retail/service, or the minimum required ground floor flex space where applicable (feet and inches).	20 percent
Building Placement	A deviation from the required build-to-lines and setbacks (e.g., front, side, street-side, and rear) for structures (feet and inches).	20 percent
Civic Space	Deviations from the minimum, maximum, typical dimensions, and location (as applicable) (feet and inches).	20 percent
Facade Composition	A deviation from the maximum width of defined facades, wall length between entrances or other openings, or openings as a percentage of wall area.	20 percent
Driveways	A deviation in maximum driveway width and/or separation (feet and inches).	20 percent
Frontage Type	A deviation in any minimum or maximum dimension regulated by a frontage type (feet and inches)	10 percent
Open Space	A decrease in the minimum required open space or courtyard area, or minimum dimensions for courtyards, roof terraces, or balconies (feet and inches)	20 percent

5.10 Definitions

Definitions

This Section provides definitions for specialized terms and phrases used in this Chapter.

C Definitions

Civic Space. A piece of land made available for public gathering purposes. A civic space may be publicly or privately owned. For Civic Space Types, see Section 5.3 (Civic + Open Space Standards).

Common (Courtyard/Terrace/Open Space). An outdoor space for use by inhabitants of the building through which the space is accessed or to which it is attached.

E Definitions

Edge, North. A boundary of a space, defined such that for most points along the boundary, a portion of the space lies directly to the south. Because the infrastructure network in the Midtown Site is oriented obliquely relative to the compass points, most rectangular spaces will have two North Edges.

Edge, South. A boundary of a space, defined such that for most points along the boundary, a portion of the space lies directly to the north. Because the infrastructure network in the Midtown Site is oriented obliquely relative to the compass points, most rectangular spaces will have two South Edges.

F Definitions

Finish Level, Ground Floor. Height difference between the finished floor on the ground floor and the adjacent sidewalk. Standards for ground floor finish level for ground floor residential uses do not apply to ground floor lobbies and common areas in multi-unit buildings.

Flex Space. A room or group of internally connected rooms designed to accommodate an evolution of use over time in response to an evolving market demand. Typically designed to accommodate future commercial uses, while accommodating less intense short-term uses, including, but not limited to, residential or live/work, until the commercial demand has been established.

H Definitions

Habitable Space. Space designed to accommodate living, sleeping, food preparation, eating, or non-residential activities such as assembly or commerce. Includes outdoor space appropriate for these activities but excludes mechanical/utility rooms and storage.

L Definitions

Lot Line, Shared. A defined line that forms a boundary between adjacent lots. Does not include the boundary between a single lot and an adjacent right-of-way or easement.

N Definitions

North Edge. See Edge, North.

P Definitions

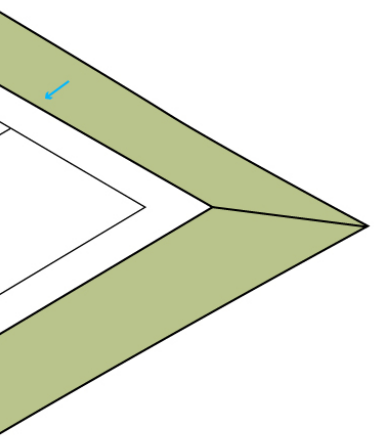
Perimeter Wall. A linear masonry structure that defines an edge. Typically 18" in height to allow for functionality as a seat when at ground level.

Portal. A space outside the main walls of a structure, with a roof supported by vertical posts. For the Portal Frontage Type, see Section 5.7 (Frontage Types): Portal.

Private (Courtyard/Terrace/Open Space). An outdoor space for use by inhabitants of the unit through which the space is accessed or to which it is attached.

Public Way. A street, alley, or other parcel of land open to the outside air leading to a street, that has been deeded, dedicated, or otherwise permanently appropriated to the public for public use and which has a clear width and height of not less than 10 feet (2021 IBC). Includes civic spaces.

S Definitions



Shared Lot Line. See Lot Line, Shared.

South Edge. See Edge, South.

Z Definitions

Zaguan. A covered passageway leading from the outer entrance of a building to an internal patio or courtyard. For the Gateway/Zaguan Frontage Type, see Section 5.7 (Frontage Types): Gateway/Zaguan.

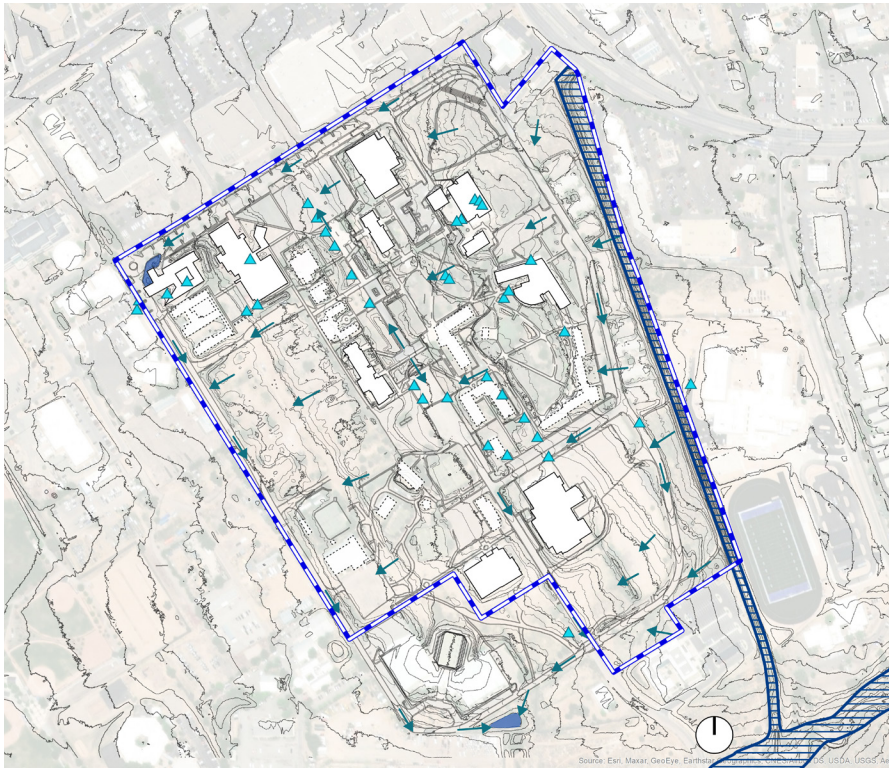
6. Stormwater + Infrastructure

In this chapter

6.1 Stormwater + Water Quality Management	166
6.2 Policy for The Midtown Site + Surrounding Area	173
6.3 Other Utilities + Infrastructure	176
6.4 Infrastructure Implementation Strategy	182

6.1 Stormwater + Water Quality Management

Existing Stormwater + Drainage



The Midtown Site (the Site) features drywell inlets that capture stormwater runoff across the Site, natural swales with no outflows that appear to quickly infiltrate stormwater runoff, a bioretention area adjacent to SFAI, and an existing pond right outside on the south end of the Site that outfalls to Arroyo de lo Pinos. The storm drain system within the Site is owned and managed by the City of Santa Fe.

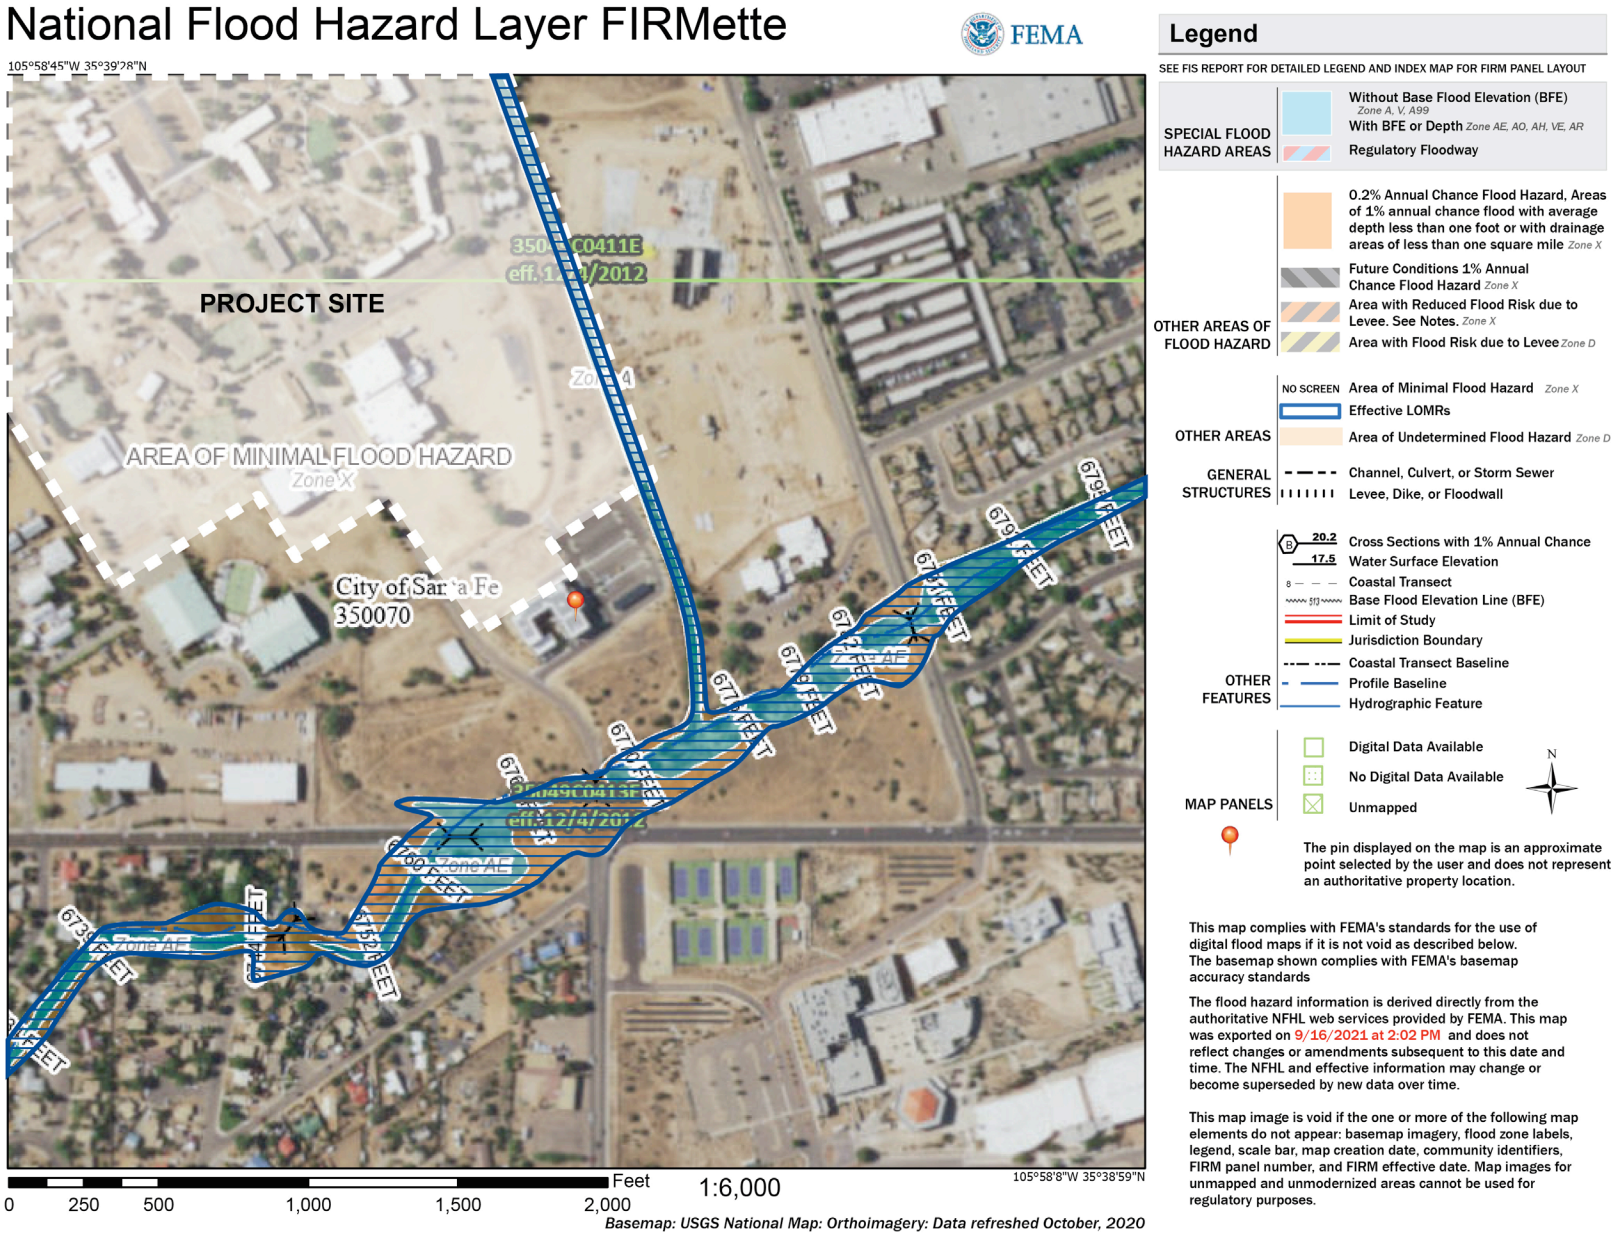
In general, stormwater runoff flows from east to west following the natural site topography, and once the runoff hits the road on the western edge of the Site, the flow pattern changes from north to south. For the most part, the Site grades across the project area do not properly direct stormwater runoff to existing drainage structures. This has resulted in erosion across the Site, localized flooding, and road damage. Soil erosion contributes to high levels of total suspended solids (TSS) which are currently in need of improved management. The area draining to the existing bioretention, by SFAI, needs re-grading to maximize the treatment capabilities, and the existing pond needs maintenance and further evaluation to determine its existing capacity and performance.

The existing pond is intended to provide detention and manage peak flow discharge into Arroyo de los Pinos, however, it is unknown if the pond was designed to provide water quality treatment. In general, the pond's landscaping and outlet structure are in need of maintenance and repairs. Further evaluation is highly recommended and required to determine existing detention capacity and whether the pond provides any water quality benefits.

FEMA Floodplain

The Site features a FEMA regulated floodplain (1% Annual Chance Flood Hazard) located on the east side of the project boundary, classified as a Zone A floodplain. The existing floodplain is confined within the existing channel that runs along the Site's east boundary conveying off-site runoff only. This project has no plans to change the geometry of the channel or propose new outfall into the channel. No impacts to the floodplain are anticipated.

Existing Stormwater Facilities



Legend

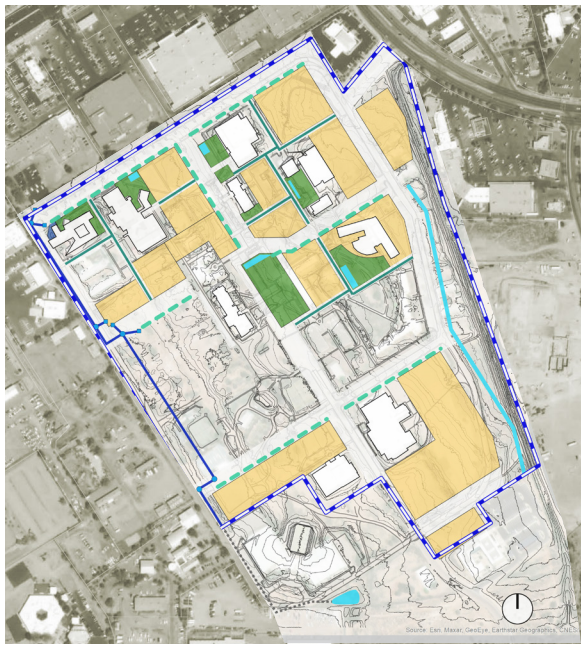
Disclaimer:

[1]The existing pond is outside the project boundary but it currently drains the Site and is located within City easements.

Existing Floodplain

Proposed Stormwater + Drainage Approach



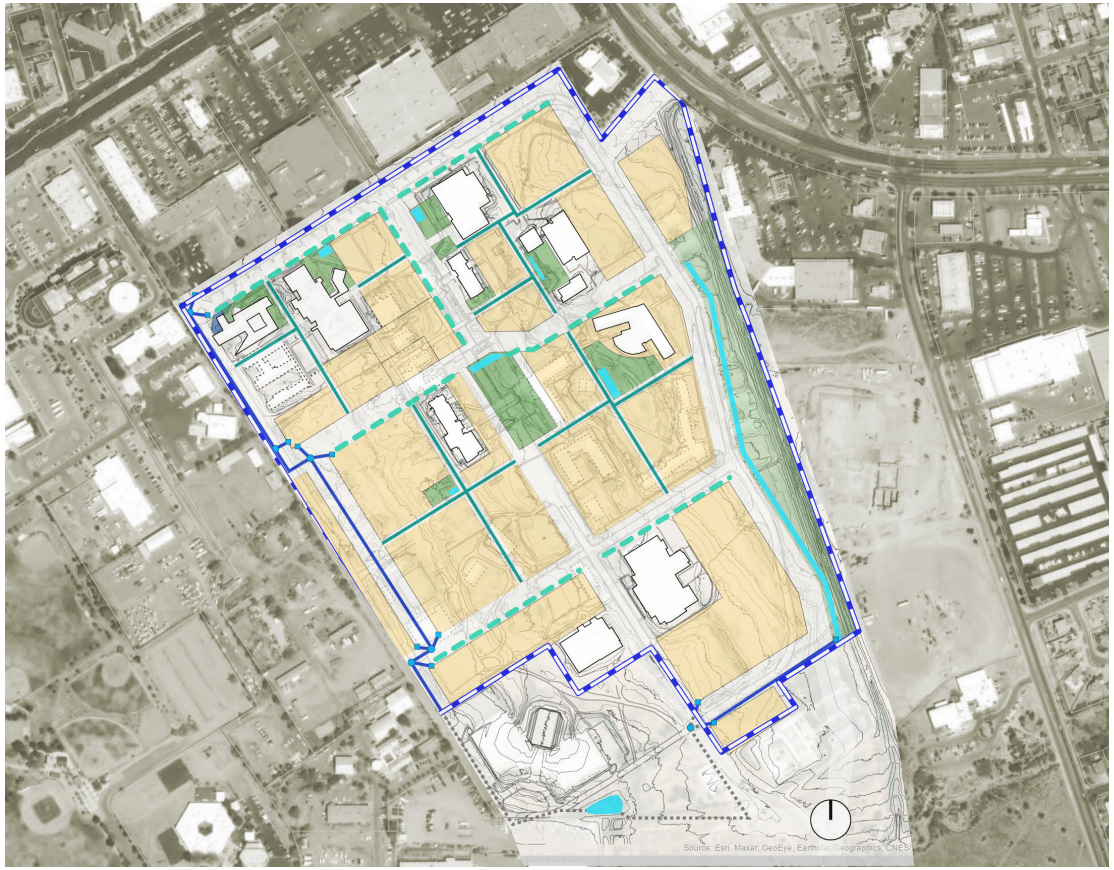
The proposed stormwater management system will manage water quality and quantity to ensure the protection of the receiving bodies of water and public safety. A suite of green infrastructure strategies, described in Section 3.3 (Integrated Stormwater Management) will be employed throughout the Midtown Site, rolled out over three Phases. Similarly as in existing conditions, stormwater conveyance will follow natural topography from east to west. Additionally, a proposed gravity pipe system, along the western boundary of the Site, will intercept and route stormwater from north to south into the retrofitted existing pond, which ultimately outfalls to Arroyo de Los Pinos.

All components of the storm drain system will be designed and constructed in accordance with applicable City, State, and Federal codes. Proposed stormwater policy specific to the Site is described in Section 6.2 (Policy for The Midtown Site + Surrounding Area).

The proposed stormwater system works in an interconnected manner to treat, infiltrate, detain and convey water from both private development and public spaces, and rights-of-ways:

- Private development parcels will route stormwater runoff to stormwater conveyance (open channels such as drainage channels, infiltration galleries, and flow-through planters) located in the adjacent Public Right of Way(s) (PROWs). Private parcels will be encouraged to minimize imperviousness and required to manage stormwater quality onsite, however, retention and peak flow management (conveyance and detention) will be provided in the PROWs, as well as public parks and open spaces.
- Runoff reduction and water quality treatment will be achieved in streets, alleys, paseos and plazas by integrating permeable pavements and bioretention (bioswales, flow through planters, tree box filters).
- The proposed network of drainage channels primarily serve as the backbone conveyance system for the district. Drainage channels will receive runoff from the PROW and adjacent private parcels. Because of the relatively flat topography and permeable native soils, significant retention and water quality (through infiltration) will occur throughout the drainage channel system, serving to reduce the volume and peak runoff to be managed downstream.
- Within secondary streets and constrained PROWs (alleys, paseos), alternative surface conveyance strategies such as infiltration galleries, gutters and trench drains can be used to route water to the drainage channels.
- Where shown, larger water quality features (bioretention areas) will be integrated within public open spaces. Stormwater will be diverted from the upstream drainage channels into the facility to further treat and attenuate peak flows, then overflow back into the downstream drainage channels to be conveyed to the centralized system.
- Drainage channels outfall into the underground storm drain pipe system running along the west side of the Site that conveys runoff into the existing pond. The existing pond will be retrofitted to meet stormwater management requirements to detain the 100-yr storm event.

Proposed Stormwater Management



Phase 1

All drywells within the Phase 1 area will be demolished. The main trunkline of the piped storm drain system will be constructed, as well as supporting Phase 1 drainage infrastructure. Stormwater management BMPs (bioretention, permeable surfaces at sidewalks and parking lanes, drainage channels, infiltration galleries, flow through planters) will be integrated into the associated PROWs constructed with this Phase.

Phase 2

All drywells within the Phase 2 area will be demolished. Phase 2 expands the stormwater system put in place in during Phase 1. Major improvements associated with this phase include retrofitting the existing pond and extension of the piped storm drain system on the south east end of the Site. During this phase a park adjacent to the existing channel is created and it incorporates a bioswale that treat and conveys runoff from the Public Right of Way Area(s) (PROWAs) in Phase 1, proposed stormwater management features will be constructed with the PROWs and open spaces.

Legend

- The Midtown Site
- Open Channel/ Drainage Channel

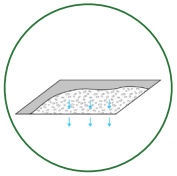
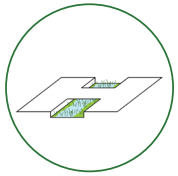
- Existing Pond[1]



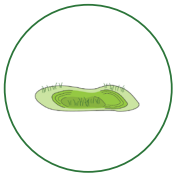
Disclaimer:

[1]The existing pond (to be retrofitted) is outside the project boundary within City easements.



[2] All anticipated work to take place within City's ROW or easements

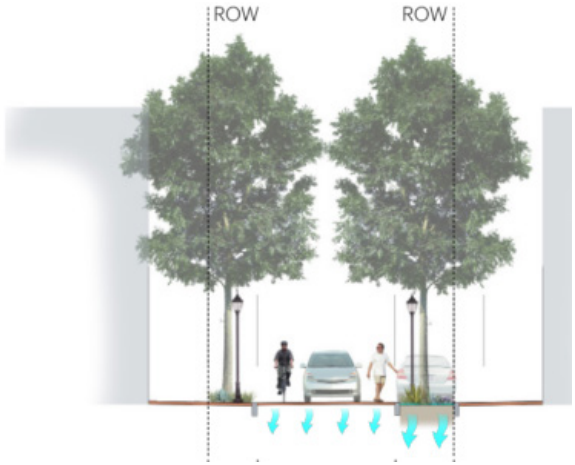
Stormwater Integration: Neighborhood Street



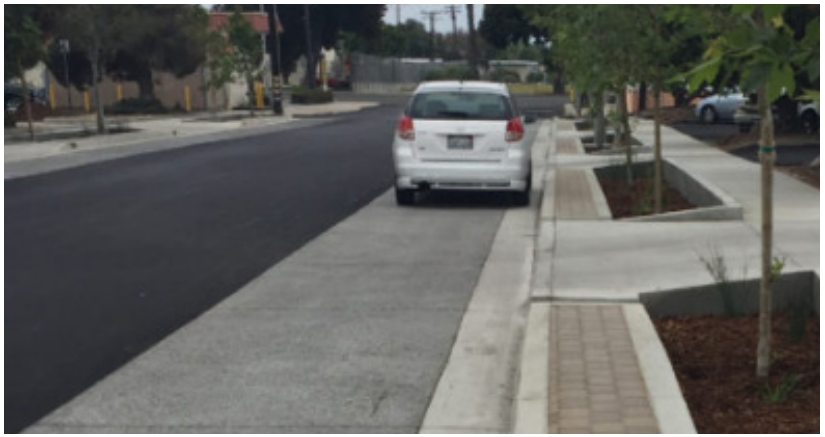
PERMEABLE PAVING

DRAINAGE CHANNEL

BIORETENTION CURB EXTENSION



Drainage channels are proposed adjacent to pedestrian pathways to provide a more naturalized experience, such as this rustic example.

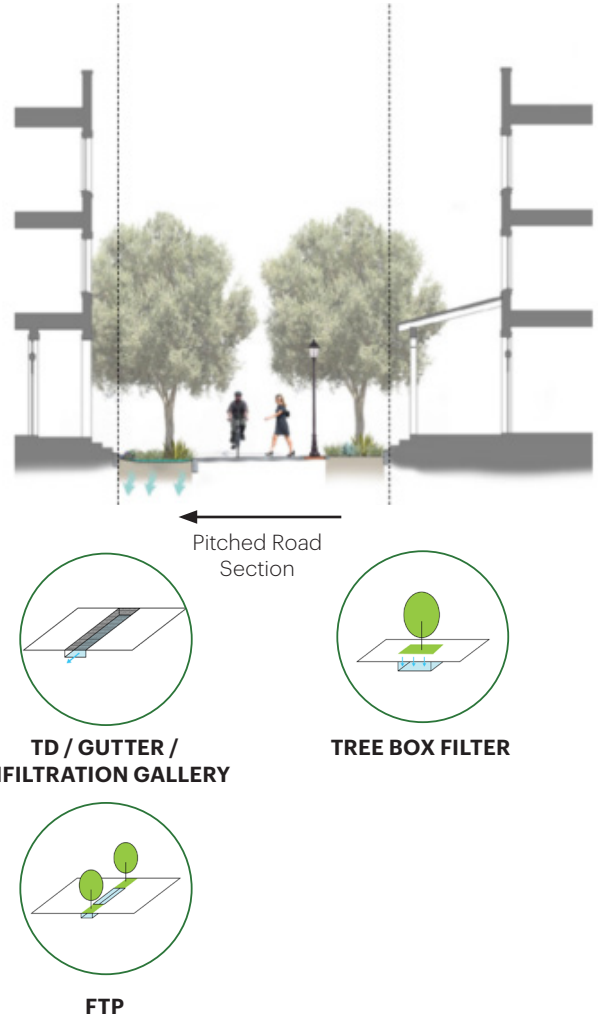


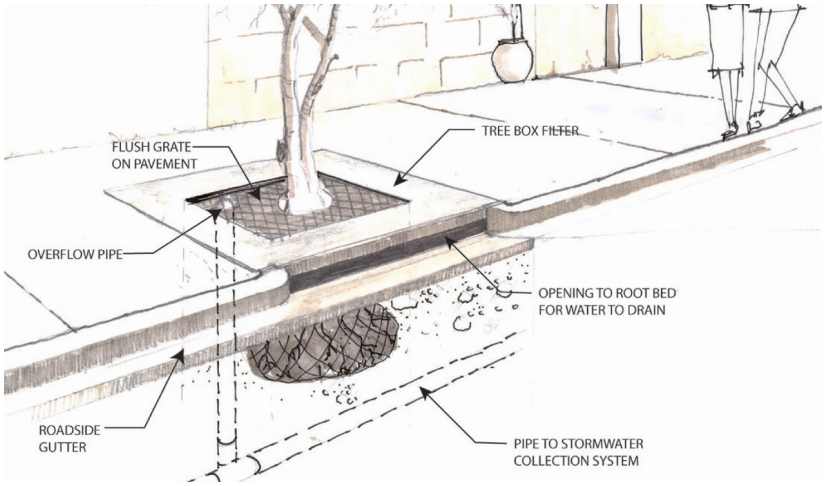
Bioretention curb extension or bulb-outs enlarge the sidewalk to incorporate the parking lane, which increases the pedestrian zone at strategic locations. This can be implemented at corners and mid block. Curb extensions enhance the safety by increasing pedestrian visibility while providing additional space for stormwater management.

Stormwater Integration: Living Alleys

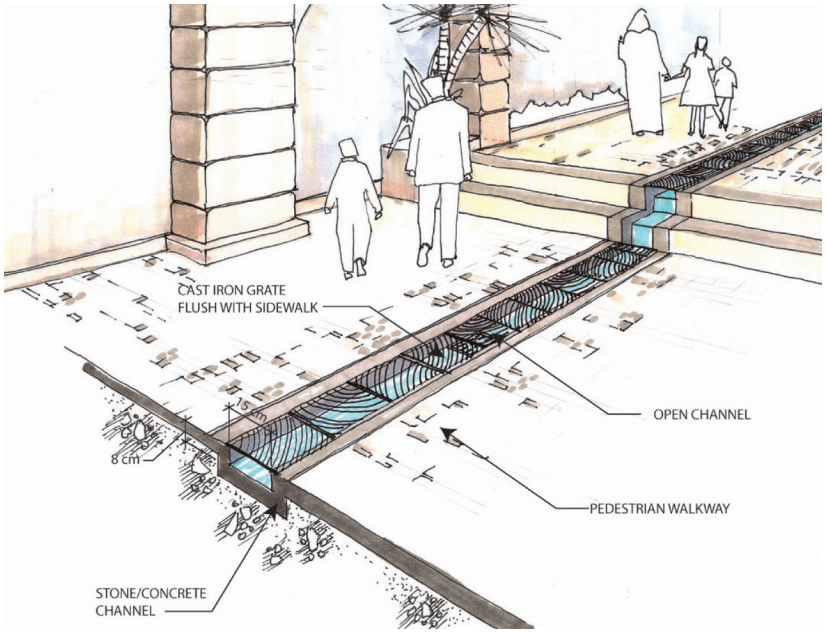
[1] FTP: Flow-through Planter

[2] TD: Trench Drain





Permeable parking aisles reduce runoff, enhance infiltration



Flow through planters create opportunities for habitat and ecology to be created and provide the public with shade

Stormwater Integration: Paseos

Tree box filters are highly adaptable to constrained PROW providing shade and habitat.

Trench drains control excess surface water and keep travelers safe and seamlessly adapt to different configurations.

6.2 Policy for The Midtown Site + Surrounding Area

Existing Stormwater Policy

The City's current stormwater criteria requires all new development to manage stormwater runoff such that the post-development peak discharge rate does not exceed the pre-development rate for the 100-year, 24-hour design storm. The City has a Land Use Code and Stormwater Codes that speak to water quality and illicit discharges (city of Santa Fe Ordinance 2005-3), however, the purpose is focused on "prohibiting non-storm water discharges to the city's storm drain system"[1]. Policies or requirements that enforce water quality management through onsite stormwater infiltration or stormwater retention are not enforced. As such, current City policy doesn't address onsite hydrologic improvements that directly or indirectly impact downstream conveyance systems. The policies proposed for the Site aim to manage stormwater to enhance water quality, stream stability, sediment transport, and stormwater volume management.

All new development is required to pay a City "Stormwater Utility Service Charge Fee" based on the size of the proposed development parcel(s). Because the service charge is based only on total parcel size, the service charge has been described as "inflexibly structured with no basis for extending incentives or credits to customers for taking measures to reduce the rate or volume of storm runoff or to improve runoff water quality."[2]

Stormwater Policy for The Midtown Site

The Midtown Site development implements strategies that address water quality and retention, in addition to peak mitigation. The proposed policies, summarized in the Table 6.2.A (Current City Policy), incorporate a stormwater quality standard to manage the 90th percentile or 80th percentile storm event on the Site. Estimation of the 90th or 80th percentile storm event discharge volume is included in EPA's Technical Report entitled "Estimating Pre-development Hydrology in the Urbanized Areas in New Mexico".

The proposed stormwater management policies for Midtown are put into practice as follows:

A. Stormwater Management Requirements. All new development will be designed and required to implement stormwater management systems that capture and manage the 90th percentile storm event, defined as a rainfall depth of 0.80 inches, onsite.

- Development proposals shall include a technical memorandum with all supporting documentation, modeling results, and drainage calculations related to the feasibility analysis for complying with the stormwater management requirements, which shall be addressed and submitted to the City as part of the development review process.
- All stormwater management documentation and supporting analysis shall be prepared and signed by a registered engineer licensed in the State of New Mexico.

1. City of Santa Fe code of Ordinances, Chapter XIII Stormwater Utility, Section 13-2.3 Purpose.

2. Final Stormwater Strategic Compendium Section 11.

B. Non-Compliance with 90th Percentile Storm Management

- In the event that the proposed development is unable to manage the 90th percentile storm onsite, a technical memorandum must be submitted to the City for consideration. The technical memorandum shall include a comprehensive analysis detailing the infeasibility of meeting the discharge requirements for the 90th percentile storm event onsite.

C. Stormwater Variance Requests and Associated Fees

- Development proposals seeking a variance from the 90th percentile storm management requirement may be subject to additional stormwater management fees. The specific fee assessment shall be determined by the City at the time of the variance request.

D. Minimum Stormwater Management Requirements

- Development proposals unable to comply with the 90th percentile storm management requirement shall, at a minimum, manage the 80th percentile storm event, defined as a rainfall depth of 0.50 inches, onsite.

Private Development Parcels

The Site is proposing and implementing a district-wide approach to stormwater management. Hence, developers will be required to meet stormwater quality requirements onsite to the MEP. Furthermore, onsite management of the 2-year 24-hr event will be incentivized through the stormwater fee structure described below, however, developers may "opt out" and utilize BMPs within the PROW to meet stormwater runoff volume requirements. Private development parcels will be required to document the stormwater management volume as described above.

Stormwater Fees

For the Midtown Site, the stormwater rate shall be in accordance with the parcel's impervious area footprint (encompassing rooflines, pavement, and any other impervious surface) combined with the already in place flat rate. This fee will account for runoff volume that will be managed in the PROW.

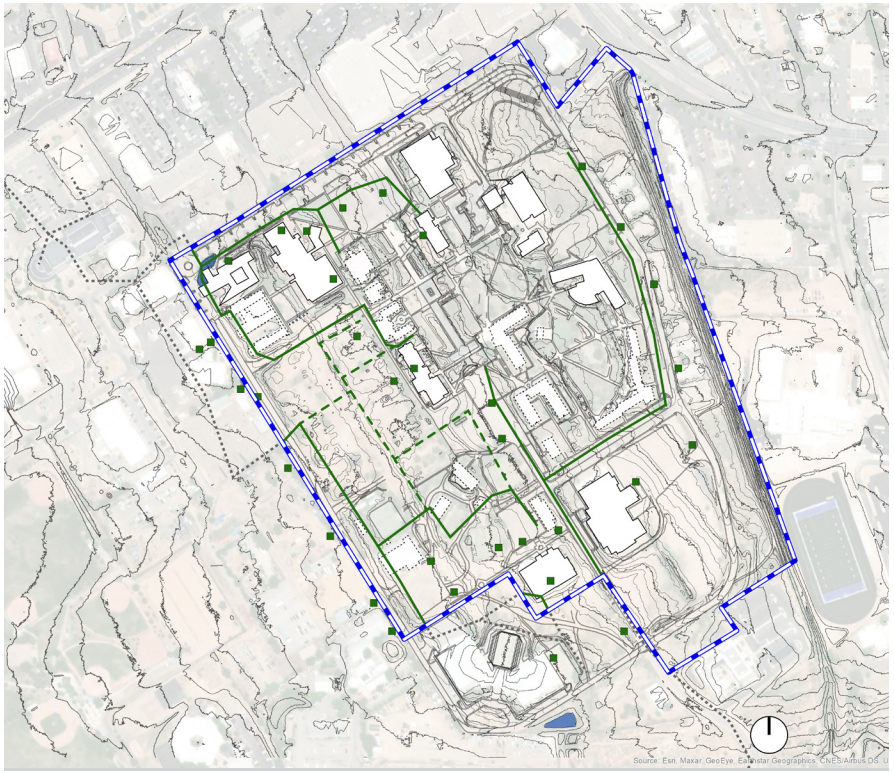


Table 6.2.A Current City Policy		Proposed The Midtown Site Policy	Additional Notes
Peak Mitigation + Detention / Flood Control			
Design Storm: 100-year, 24-hr storm for post development should not exceed pre development conditions at the Midtown Site outfall.	Post-project peak flows cannot exceed existing peak flows at the parcel level for the 100-yr 24 hr event.	• Maintains the current city requirement, but considers the full the Midtown Site collectively. • Individual parcels/developments are not required to meet this standard. • Individual parcels are encouraged to retain the 2-yr 24-hr storm event	• Significant reduction will achieved through the decentralized stormwater management train employed throughout the Midtown Site. • The existing stormwater pond will be retrofitted as needed to maintain peak discharge to the receiving Arroyo de Los Pinos at or below existing conditions.
Volume Control + Conveyance			
Design Storm: Open channels in paseos to be be designed to convey the 10-yr storm. Open channels in main streets to also include 0.5 ft of freeboard. Storm drain closed pipe system to be design to convey the 100-yr 24-hr storm event.	All conveyance system to be designed to convey the 100-yr 24-hr storm event	**Private Development:** Encouraged to retain the 2-yr 24-hr onsite. **Within Public ROW:** Infiltration galleries and trenches to be designed to convey the 10-yr 24 hr Drainage channels to be designed to convey the 10-yr and provide a 0.25 ft of clearance, and to convey the 50-yr 24-hr event. Closed pipe system to be designed to convey the 100-yr 24-hr event.	Drainage design criteria in Section 200 of New Mexico Department of Transportation (NMDOT) Drainage Manual requires the 50-yr design flood and 100-yr check flood for open channels and trunk lines.
Water Quality + Retention			
Water Quality + Retention **Design Storm:** 80th percentile (minimum); 90th percentile (aspirational)	• No runoff water quality requirements. • There is an stormwater illicit discharge ordinance that aims to protect and enhance the water quality of watercourses and groundwater by prohibiting non-stormwater discharges to the city's storm drain system (Ord. #2005-3, § 4)	**Private Development** Will be required to provide water quality treatment to the maximum extent practicable. **Public ROW** GI and LIDs to be implemented across the Midtown Site.	

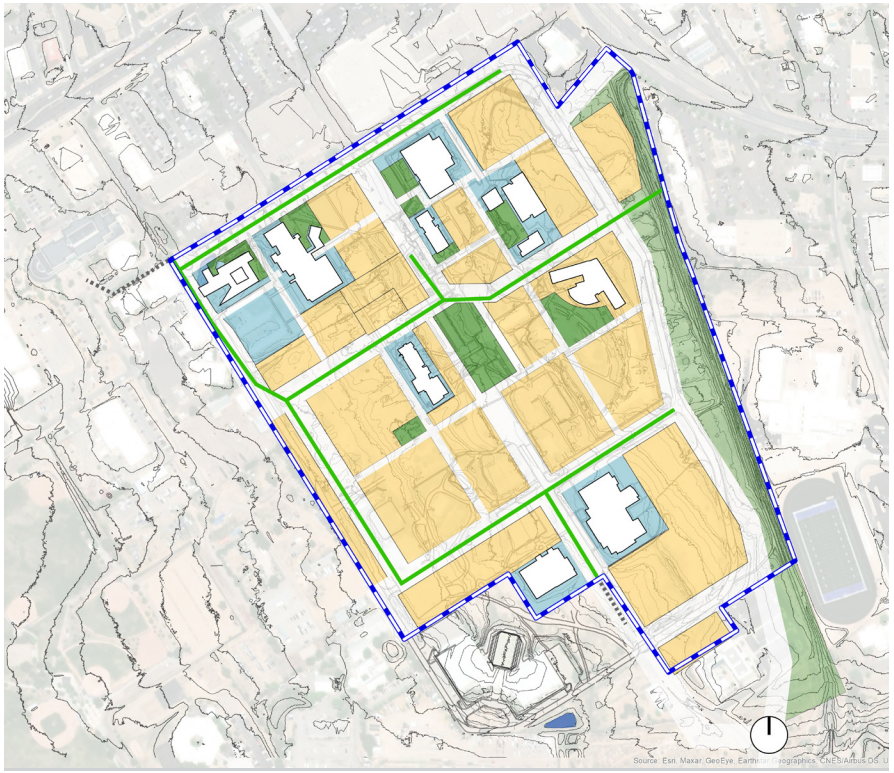
6.3 Other Utilities + Infrastructure

Sanitary Sewer - Existing Conditions

The Midtown Site is currently served by an existing sanitary sewer system that divides the flow into two sewer sheds- a northern connection point along Cerrillos Rd., and a southern connection at Siringo Rd. During a site visit it was observed that the sewer system connected to the south at Siringo Rd. exceeded the design capacity, surcharging existing manholes. However, the northern connection features an underutilized sanitary sewer with available capacity between the Tony Anaya Building and Cerrillos Rd. South of the Tony Anaya building, the existing sewer system is in poor condition, undersized and in need of replacement.

This utility is managed by the City of Santa Fe.

Existing Sanitary Sewer



Legend

- The Midtown Site
- Existing Sewer Mains
- Abandoned Sewer Mains
- Existing Sewer Mains outside Project Area
- Existing Sewer Manholes

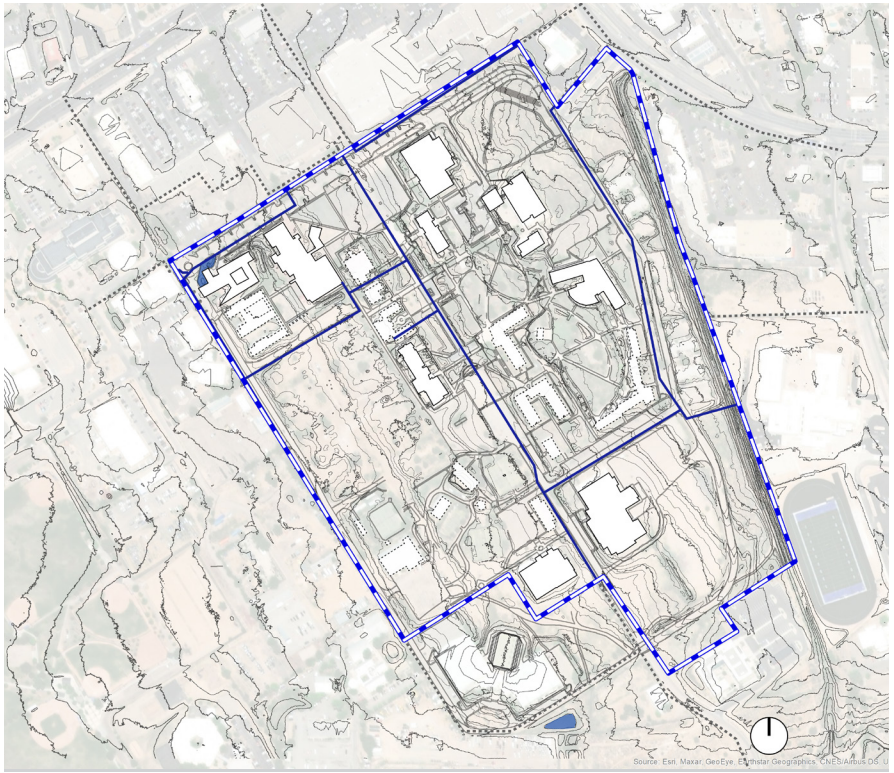
Proposed Sanitary Sewer

The Midtown Site's development will feature a new sanitary sewer system that will direct all flows towards the north, connecting to the main line on Cerrillos Rd. This diversion of flow will help alleviate the surcharging issues on the Siringo Rd. sewer system. The proposed design shall provide gravity services to all of the proposed development, and will be designed with adequate slopes, depths, and capacity to accommodate the full build-out flow condition. Sewer design flow shall be at 50% full and velocity in sewer lines shall be less than 10 ft/sec and greater than 2.2 ft/s.

Due to the change of direction of the sewer, the existing sewer lines and structures cannot be reused and shall be abandoned and or demolished. As part of proposed conditions the 30' Silar Rd. interceptor shall be repaired and re-lined (Via CIPP).

Proposed Sanitary Sewer

Legend



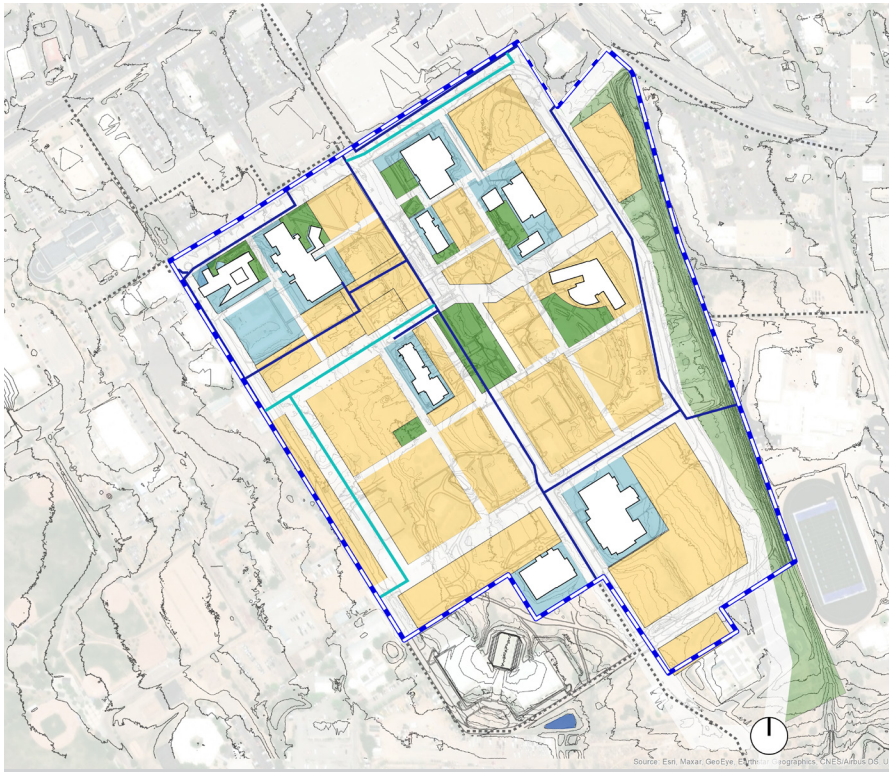
- The Midtown Site
- Proposed Sewer Lines
- Proposed Sewer Lines outside Project Area

Disclaimer:

The proposed sanitary sewer system will require a connection outside the project boundary. All anticipated impacted areas are within the City's right of way or easements.

Potable Water - Existing Conditions

The Midtown Site is served by existing underground system and supporting infrastructure mostly located within the existing public right of way with segments going through private parcels. Modeling results show that the existing system has enough capacity in current conditions and proposed conditions for both peak flows and fire flows. This utility is managed by the City of Santa Fe.



Existing Potable Water

Legend

- The Midtown Site
- Existing Water Mains
- Existing Water Mains outside Project Area

Proposed Potable Water

The majority of the existing water system will be preserved, however, the proposed development plan will necessitate relocation of specific sections of water main to follow new right-of-way alignments. Where relocation is required, water mains will be replaced with the same pipe size and will be constructed to City of Santa Fe requirements.

Proposed Potable Water

Legend

- The Midtown Site
- Existing Water Mains
- Existing Water Mains outside Project Area
- Proposed Water Mains

Disclaimer:

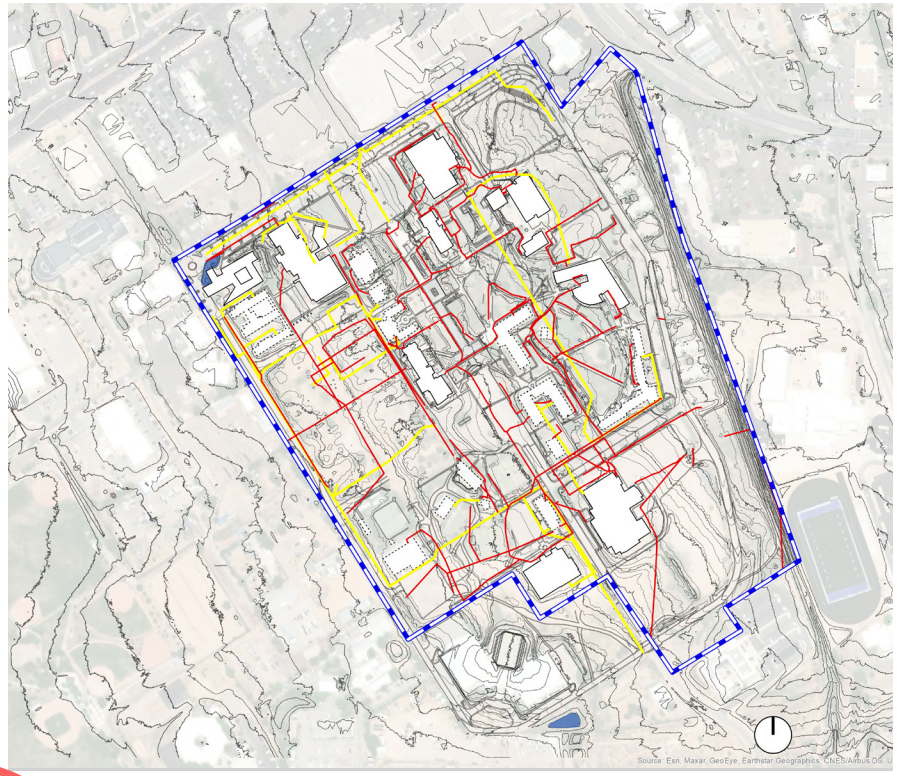
The proposed water system may require work outside the project boundary. All anticipated impacted areas are within the City's right of way or easements.

Electrical - Existing Conditions

The Midtown Site is currently served by underground and above ground electricity lines and infrastructure that run on the existing right of way across the Site. This utility is managed by PNM.

Gas - Existing Conditions

The Site is currently served by underground natural gas pipes and infrastructure that run mostly on the existing right away and connect to existing buildings. This utility is managed by New Mexico Gas Company.



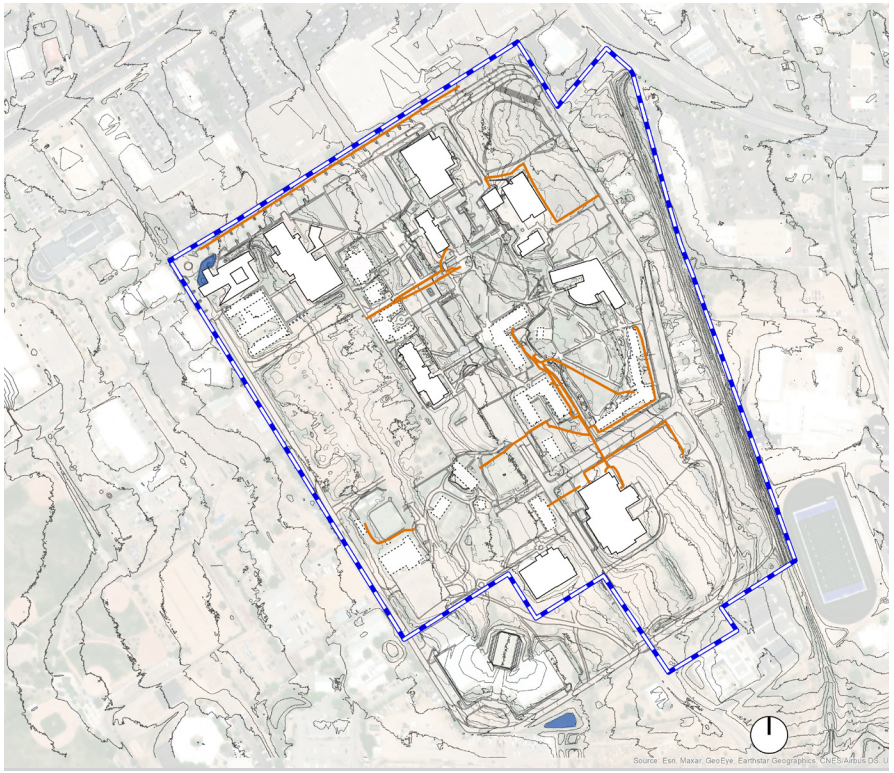
Energy Vision

To support sustainable development, energy infrastructure at the Midtown Site will be upgraded to support a fully electric future. Existing gas lines will be abandoned and electrical trunk lines within the right of way will be upgraded to support 100% electrification of existing and future buildings' energy needs, including climate control, and to provide adequate supply to support electric vehicle charging. Specific electric infrastructure will be development-dependent and costs may be borne by developers of specific parcels according to the specific need of the development program associated with that parcel.

Alternative Energy Sources

Solar Photovoltaic System. New construction standards on Midtown development sites require the installation of a solar photovoltaic (PV) system on the roof area of the building, or on the development site, to provide electricity to newly constructed buildings. A roof is considered all outside coverings of a building or structure, including the structural supports, decking, and top layer exposed to the outside, at all levels of building, excluding roof area designated for skylights. For each new building, this energy standard shall be met by implementing one of the following approaches, whichever provides a greater supply of electricity.

- At least fifty percent (50%) of the roof area shall be dedicated to a PV a photovoltaic system; or
- At least fifty percent (50%) of the building's energy needs shall be estimated to be provided by the on-site PV system, as provided in energy calculations submitted by a certified engineer.



Existing Electrical + Gas Lines

Legend

Existing Communications Lines

6.4 Infrastructure Implementation Strategy

Infrastructure Phasing

The Midtown Site will be built out with both public and private infrastructure. Table 6.4.A (Preliminary Midtown Infrastructure Costs by Phase) shows very preliminary estimated construction cost by phase for all infrastructure that will be owned and maintained by the city, including the Public Utility. Table 6.4.B (Midtown Infrastructure Funding and Financing Sources) shows the potential funding sources for each infrastructure asset class. These costs are subject to change as more specific design information becomes available and as more detailed engineering studies are completed.

Water and sanitary sewer system upgrades will be managed by the Public Utility with funding coming from the future developers who acquire development sites through the Midtown disposition process. In addition, new development will have to pay for new system demand in the form of water rights or by paying a fee in lieu of water for Midtown LINC qualified projects. These cost estimates reflect the cost to upgrade the sanitary sewer system and move certain trunk lines for the water system to align with road rights-of-way. Developers will pay for their lateral connections to the trunk infrastructure.

Road construction will comprise the single largest infrastructure cost. The cost estimates provided in Table 6.4.A (Preliminary Midtown Infrastructure Costs by Phase) are only for road construction within the Midtown Site. There could also be additional road construction costs involving new entrances and access roads to the campus. However, to build such roads will require cooperation with adjacent property owners and will evolve as the Midtown development process proceeds. Therefore, estimated costs for these streets were not included in this analysis. Maintenance costs were also not included.

The Midtown Master Plan Thoroughfare Regulating Plan (Section 5.2.1) identifies nine street types. Five of these types (neighborhhood streets, neighborhood streets with pathways, neighborhood streets with median, plaza two-way street, and plaza one-way street) will all be built within the Midtown Site in the locations specified in the Plan, with the exception that those types that may potentially connect through the lands of adjacent property owners will notbe built without the express consent of the affected adjacent property owner. The Regulating Plan governs thoroughfare typologies and locations only for those thoroughfares built within the Midtown Site. For these street types, the Public Works Department will oversee construction. Costs include the road construction including associated sidewalks, medians, pathways, and storm water improvements. Funding will come primarily from developer contributions as well as from public sources such as federal grants, state legislative funding, and local sources such gross receipts taxes (GRT) or property taxes that can be leveraged through GRT bonds and general obligation bonds. It is possible that the City may initially pay for road construction using bond

debt, but over time, most of the cost will be recaptured through developer contributions.

Roads that will be built within development parcels including living alleys, paseos, and pedestrian access connections will be built by developers as part of their project costs. in these cases, construction will be overseen by the Division of Roads and Trails with plan review from the Public Works Department.

Phase 1 road construction projects include streets necessary to enhance circulation primarily for existing buildings on the Site. However, future road construction phases will vary with the pace and intensity of future development.

The **electric distribution system** will also require considerable upgrading. However, no system assessment has been completed yet. This work will be initiated within the next month and will provide a general approach to designing the new system. It is expected that as property is purchased or leased, that individual property owners will work directly with PNM. PNM will be responsible for building the system.

Table 6.4.A Preliminary Midtown Infrastructure Costs by Phase				
Asset	**Phase**			**Total**
	Phase 1	**Phase 2**	**Phase 3**	
Water	$ 584,911	$ 235,269	N/A	**$ 820,180**
Sanitary Sewer	$ 762,660	$ 342,574	N/A	**$ 1,105,234**
Roads	$ 17,718,309	$ 3,518,941		**$ 21,237,250**
Civic Parks and Open Space	$	$ 2,600,000		
Parking Garage			TBD	
Electrical	N/A	N/A	N/A	**N/A**
Total	**$ 19,065,880**	**$ 6,696,784**	**-**	**$ 23,162,664**

Other Infrastructure

Civic parks and open space will primarily be built in the second development phase to coincide with new development opportunities in the Midtown Site's southern portion. However, this timing is flexible and some civic spaces, including the Plaza, could be built sooner depending on funding availability and community priorities. Funding sources for parks and open space will be the same as for roads. The Parks and Open Space Division will be responsible for overseeing construction of these facilities.

Funding and timing for constructing a **parking garage** are to be determined based on funding availability and community priorities. In the past, Santa Fe has used bond funds to pay for parking garages. Garages are also often financed by charging parking fees.

Fiscal Impact

The ongoing costs to provide municipal utilities to Midtown will be recovered through utility rates paid by users. This includes water, sanitary sewer, and garbage collection. Ongoing costs for road and park and open space maintenance will be covered through both the general fund and potentially through a Property Improvement District (PID) which would be formed to assess future Midtown occupants for common space maintenance costs similar to the way a homeowners' association works. These maintenance costs will be significant. However, it is also important to note that the development will generate new ongoing revenue for the City.

The police and fire departments were both consulted in the process of preparing the Midtown Master Plan. Both departments confirm that they will have the capacity to serve future development at Midtown without having to increase any staff or capital resources. However, if additional services are required, the Midtown Site is expected to generate considerable increases in GRT, property, and other tax revenues for the city's general fund that should be adequate to absorb these costs.

Financial Incentives for Midtown Developers

The Midtown locations offers a series of financial incentives for developers. First, the Site is in a federal Opportunity Zone, which offers considerable tax benefits for qualified development projects. Second, the Site is within the Midtown LINC Zoning Area. This enables qualified projects to be exempt from all impact fees, as from wastewater and water utility expansion charges. Third, if a Metropolitan Redevelopment Area is formed for Midtown, developers and future businesses will have access automatic access to all LEDA benefits offered by the State of New Mexico.

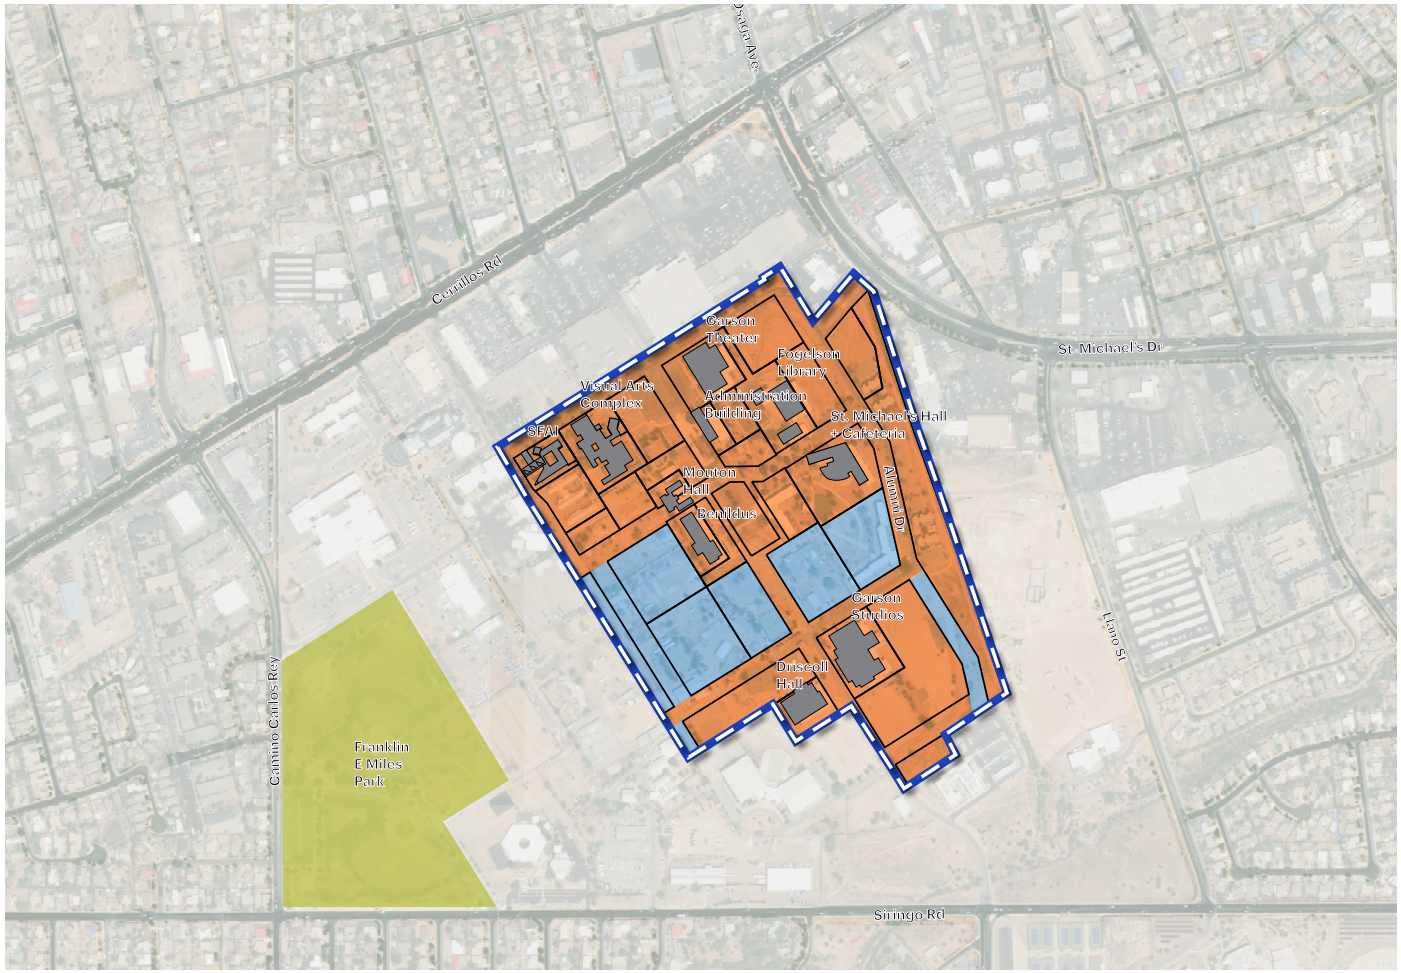
7.2 Midtown Infrastructure Report	194



7.1 Map Series

Purpose of the Map Series

The following pages include reproduction of maps that appear earlier in the Midtown Master Plan (Plan) document. They are repeated here to provide a quick reference to developers, staff, and the public as they use the Plan.

Phasing Diagram

See Chapter 3 (Urban Design Vision), Section 3.7 (Development Program + Phasing).

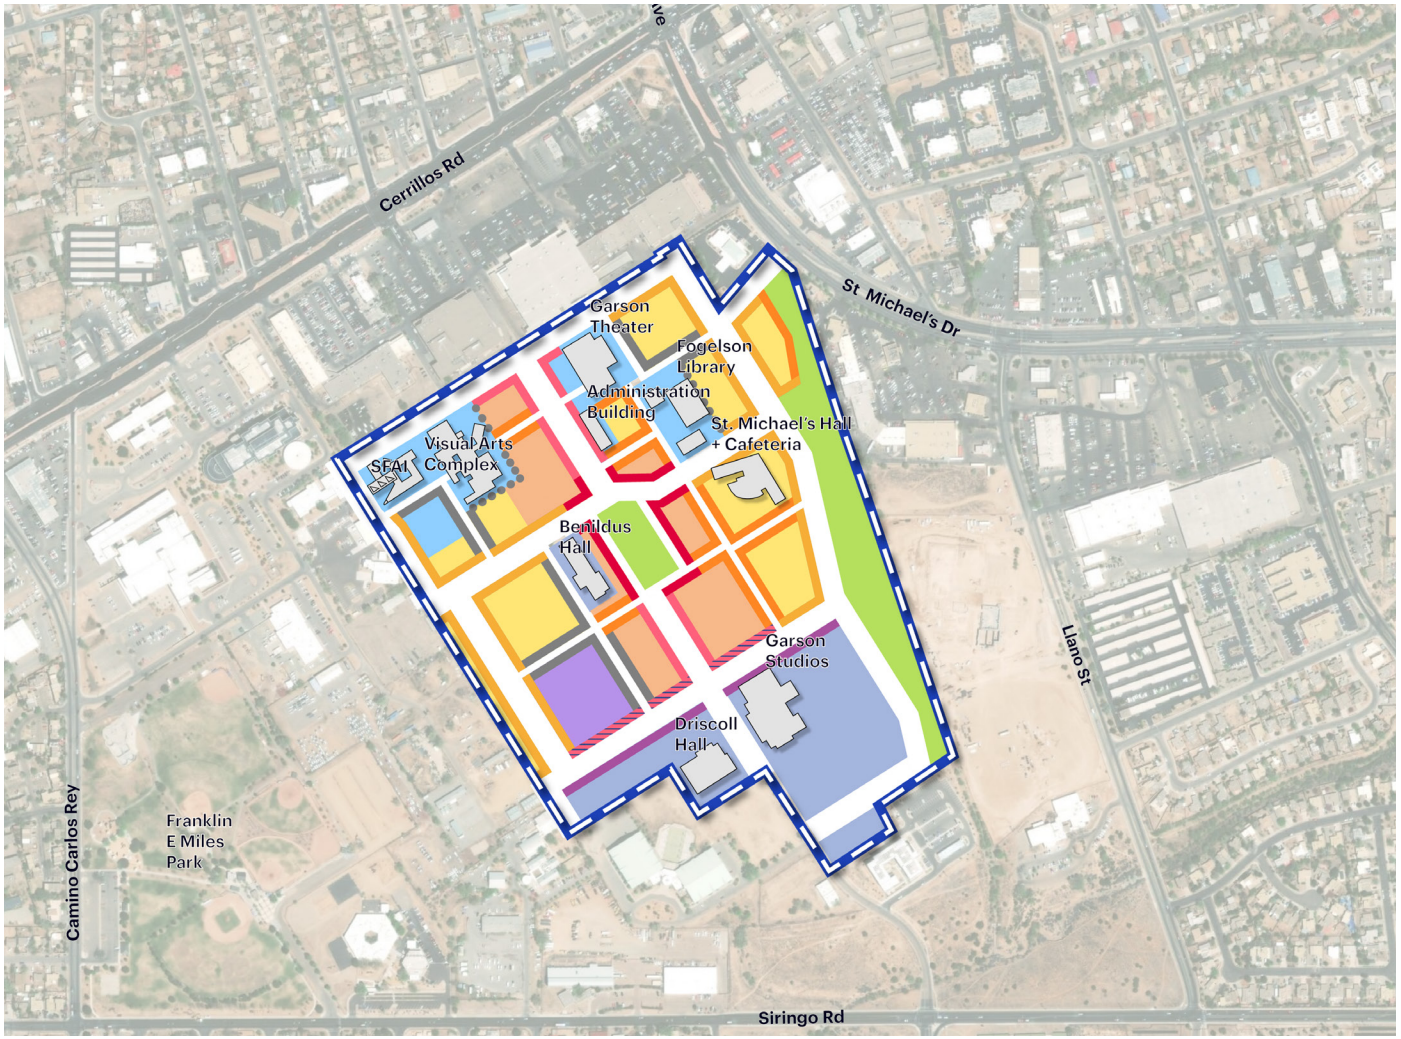
Legend

- The Midtown Site
- Buildings to Reuse
- Development Blocks
- Phase 1: Build on and revitalize existing facilities.
- Phase 2: Build out the rest of the Midtown Site.

Zoning Framework - Facade Zones

See Chapter 5 (Development Standards), Section 5.4 (Development Standards + Regulating Plan).

Legend



The Midtown Site

Sub-Zones:

- Civic Space (CS)
- Mixed-Use Neighborhood (MU–N)
- Mixed-Use Center (MU–C)
- Mixed-Use Office (MU–O)
- Mixed-Use Film (MU–F)
- Community-Oriented Use (CO)
- Existing Buildings to Reuse

Facade Zones:

- Plaza (PL)
- Main Street (MS)
- Main Street–Office (MS–O)
- Live/Work (LW)
- Neighborhood Residential (NR)
- Neighborhood Paseo (NP)
- 3 stories max. height within 30' of indicated parcel line
- Pursuant to the Midtown Overlay Zoning District requirements for "Qualifing Projects"

Open Space Framework

See Chapter 5 (Development Standards), Section 5.3 (Civic + Open Space Standards).

Legend

- The Midtown Site

Civic Space Types:

- Arroyo Park
- Plaza
- Quad Park
- Pocket Park/Plaza

Other

- Paseos
- Existing Buildings to Reuse
- Development Blocks

Thoroughfare Network Framework

See Chapter 5 (Development Standards), Section 5.2 (Thoroughfare Standards).

Legend

The Midtown Site

Thoroughfare Types

Neighborhood Street

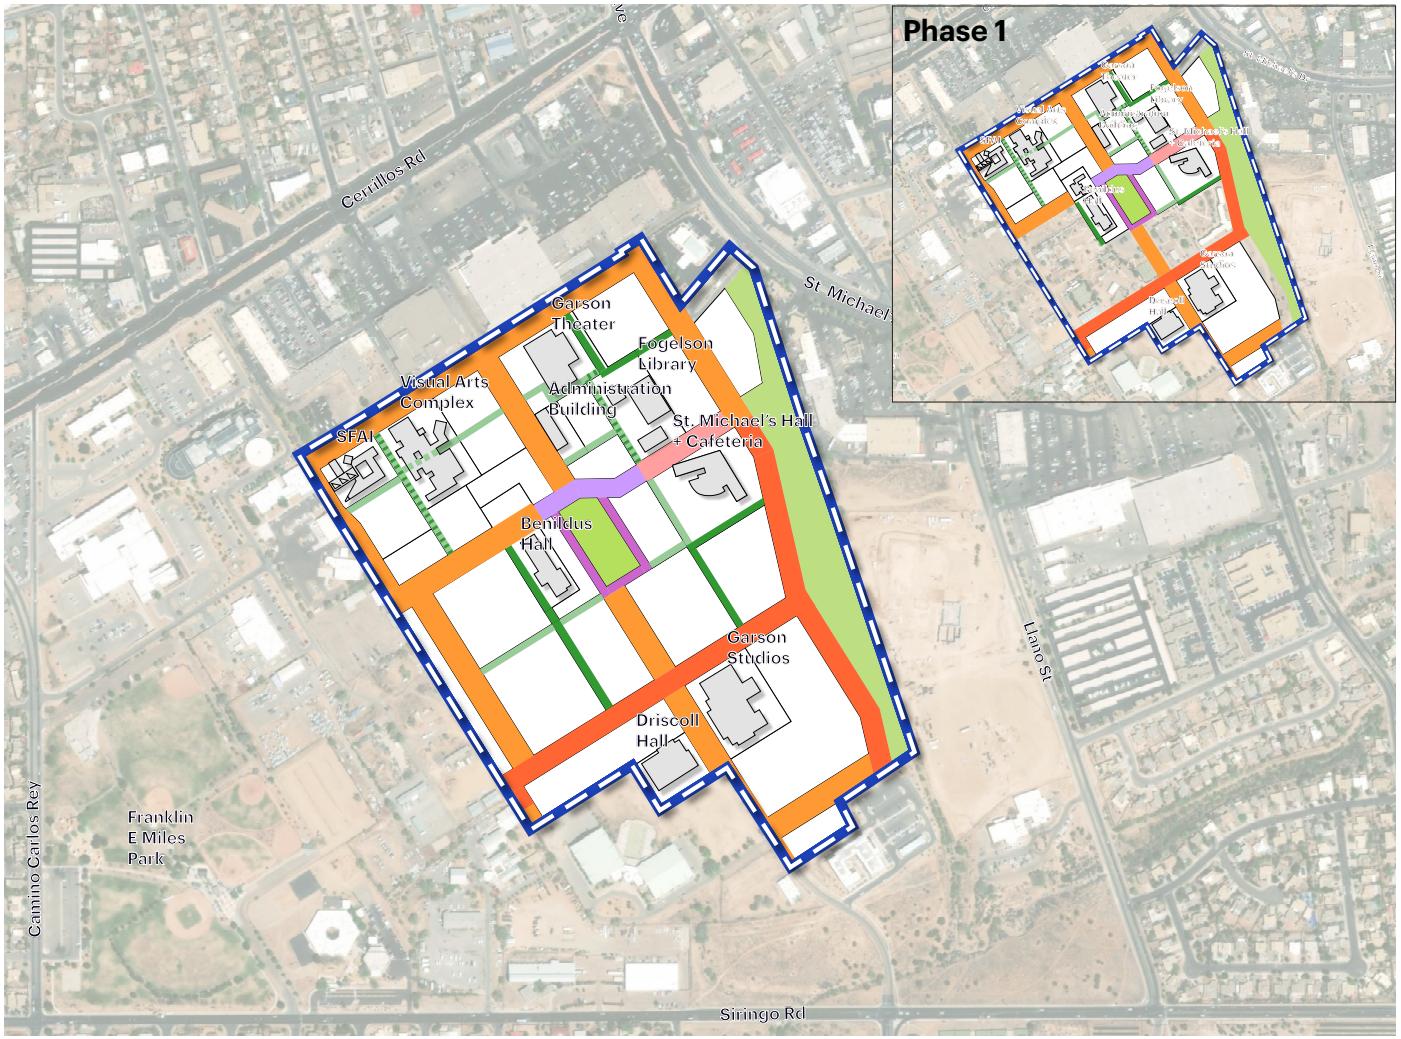
Neighborhood Street with Pathway

Neighborhood Street with Median

Plaza Street Two-way

Plaza Street One-way

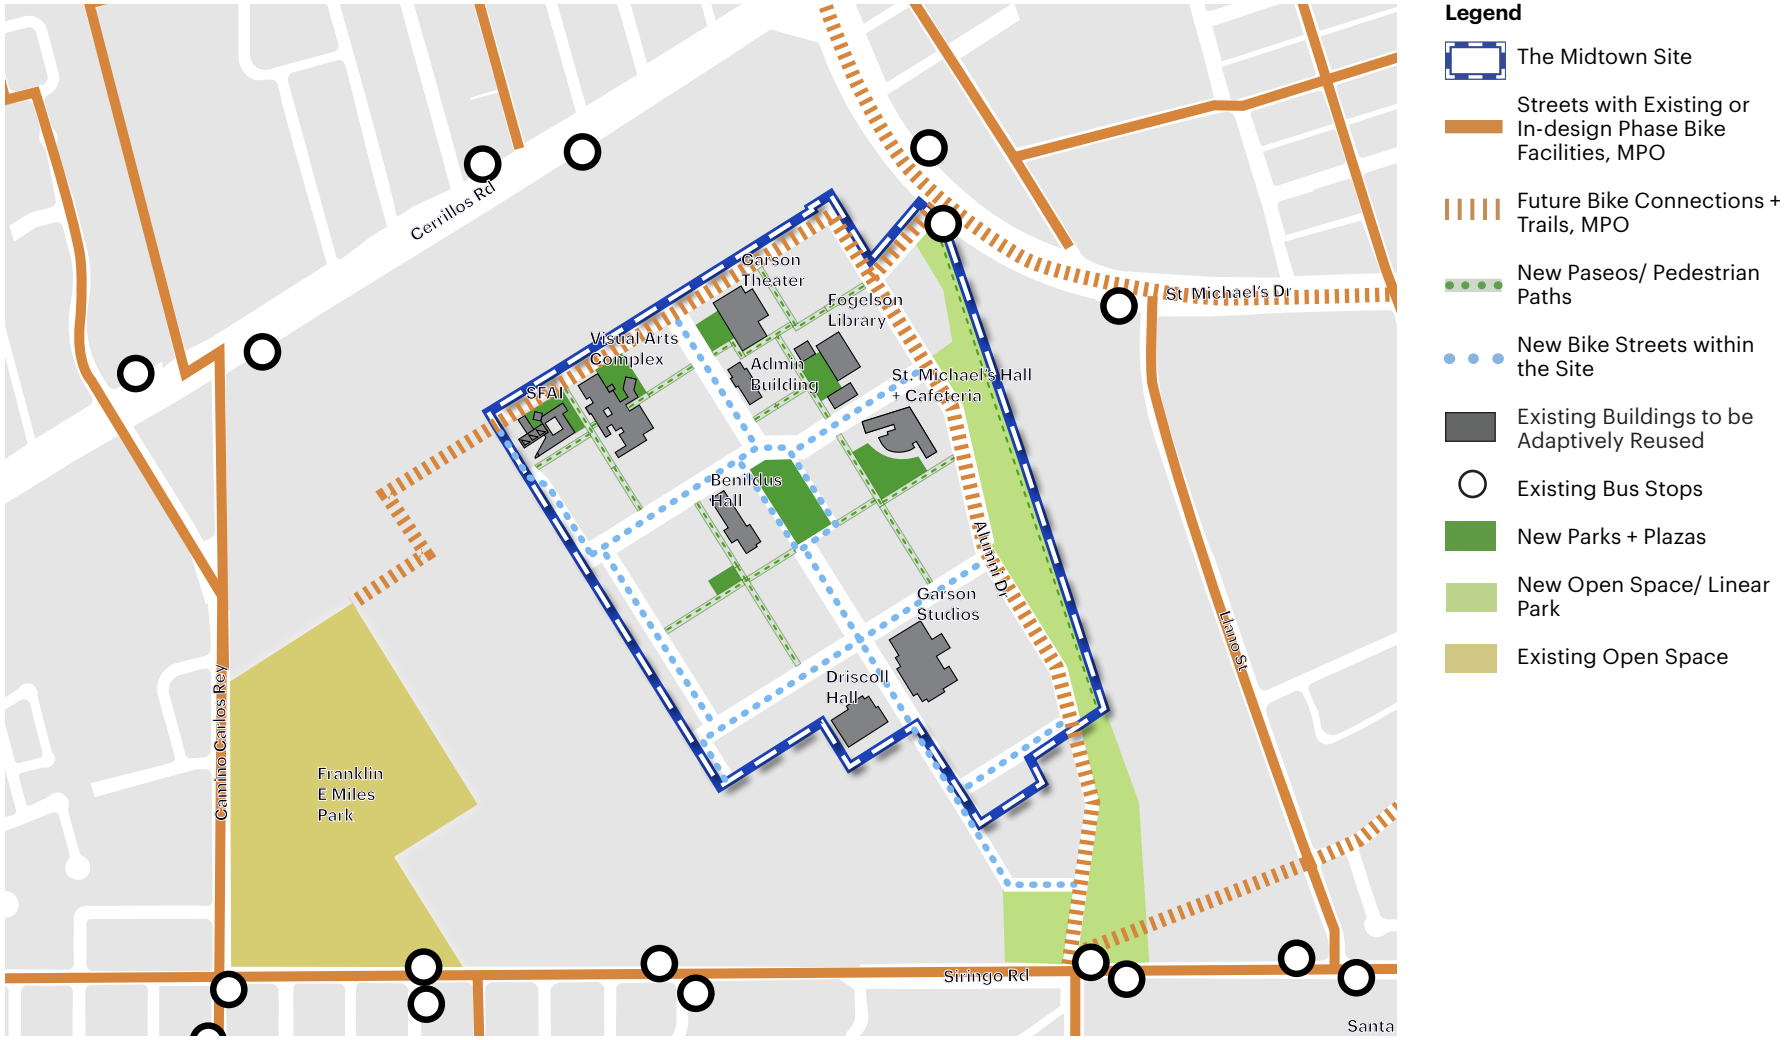
Living Alley



Paseo or Living Alley

Paseo

Other



New Open Space/ Linear Park

Existing Buildings to Reuse

Transit + Access Framework

See Chapter 4 Connectivity + Mobility Vision), Section 4.2 (Midtown Connectivity + Mobility Phasing).

7.2 Midtown Infrastructure Report

Technical Memorandum - Existing Sewer and Water Infrastructure prepared by Wilson & Company (8/11/22 rev. 8/25/22) is incorporated by reference.

MASTER PLAN (SECTION 14-3.9(A) SFCC)

Purpose and Intent:

1. The intent of the master plan is to:
   a. provide a comprehensive plan that must be followed during the subsequent review and approval of development plans and subdivision plats for the master-planned area.
   b. enable the governing body , land use boards and land use director to ensure compliance with Chapter 14;
   c. document compliance with final actions to approve or conditionally approve development applications;
2. A master plan provides for:
   a. comprehensive and coordinated planning for the development of land, often involving multiple phases occurring over a period of several years or more and may also involve multiple developers;
   b. plans for the funding and phased construction of major public or private infrastructure improvements required to serve the planned development.

MASTER PLAN SUBMITTAL CHECKLIST 14-3.9(C)(1)

Submittal requirements may vary based on the individual application. The City reserves the right to request additional information during the review process. Please submit each of the following items as separate PDF files saved with unique and descriptive file names:

- [x] Application letter, including valuation
- [x] Existing Conditions Site Plan
- [x] Legal lot of record, legal description
- [x] Proposed Modifications Site Plan
- [x] ENN meeting notes
- [ ] Infrastructure Plan
- [ ] Fire and emergency access plan per IFC
- [ ] Water Budget per 14-8.13 SFCC 1987
- [ ] Dimensioned color elevations
- [ ] Site Section (if applicable)
- [ ] Traffic impact analysis (if applicable)
- [ ] Phases of Development (if applicable)
- [ ] Archaeological clearance (if applicable)
- [ ] Affordable Housing Proposal (if applicable)
- [ ] Infrastructure Financing (if applicable)
- [ ] Fiscal Impact Analysis (if applicable)
- [x] Delta Sheet of proposed changes
- [x] Midtown Master Plan document with areas of proposed changes bubbled

SPECIAL DEVELOPMENT STANDARDS & DESIGN GUIDELINES

a. Approval of the master plan may include approval of special development standards or design guidelines to be applied within the master plan area when such regulations are necessary to implement specific goals of the master plan.

b. Special standards and guidelines must be approved as part of the master plan.

c. Special standards and guidelines are normally more restrictive than the general standards contained in Chapter 14. All aspects of land use and development within a master planned area that are not addressed by a special guideline or standard are subject to the general standards of Chapter 14.

PRC & PRRC MASTER PLANS

a. The master plan must include a designation of the maximum density allowed for each tract designated for use. Unless special standards are adopted, development standards for each tract shall be those specified in Section 14-7 Building Envelope and Open Space Standards and Measurements for the corresponding density .

b. The master plan must include a designation of the type of use and extent of development allowed for each tract designated for nonresidential or mixed uses . In addition to nonresidential uses allowed in residential districts, such as schools and religious assembly, the development may include: neighborhood shopping ceners, not more than thirty-five percent of mixed-used development, and neighborhood centers. Unless special standards are adopted, the provisions of Section 14-6 Permitted Uses and Use Regulations apply within the PRC and PRRC districts.

Is this an amendment to a previously approved Master Plan? ☐ Yes ☐ No

PARCEL INFORMATION

Project Name:	Midtown Master Plan Amendments
Address:	1600 Saint Michael's Drive
Property Size:	64.22 acres
Zoning:	C2-PUD / Midtown LINC Overlay
Current Use of Land:	Mostly vacant former higher ed campus
Proposed Use of Land:	Mixed-use
Does a rezoning application accompany this application?	☐ Yes ☑ No
Are any variances required?	☐ Yes ☑ No
Pre-application Conference Date:	February 10, 2025
Early Neighborhood Notice (ENN) Meeting Date:	June 3, 2025
Estimated Total Cost of Development:	N/A

PROPERTY OWNER INFORMATION

Name (First, Last):	City of Santa Fe / Metropolitan Redevelopment Agency
Address:	200 Lincoln Avenue

Midtown Master Plan Amendments
Early Neighborhood Notification – Summary Notes

Date: June 3, 2025
Time: 5:30-7:00pm
Location: Zoom / Virtual
Attendees: Carly Venditti, Asset Development Manager, City of Santa Fe Metropolitan Redevelopment Agency (*applicant)*
Lisa Gavioli, Senior Project Manager, NV5 (*agent*)
Heather Lamboy, Director, Planning and Land Use (PLU) Department
Joel Cruz-Haber, Senior Planner, City of Santa Fe PLU Department
5 members of the public

Comment/Question	Response
Written Comment: "*I request that the changes being made to ease the process, reduce limitations and requirements, and allow additional permitted uses than are currently allowed by the LINC Overlay, particularly the standards for landscape, signage and temporary art installations (excluding the increase to the maximum building height), extend the least restrictive of the existing LINC Overlay District provisions or the proposed provisions and apply to all properties in the Overlay district, as it is unfair that the City allow for benefiting the property it owns, without providing the same benefits to other property owners in the LINC Overlay District*."	The changes proposed apply only to the Midtown Master Plan, which regulates development at the Midtown Site specifically. Although this site is located within the Midtown LINC Overlay District, standards defined within the Midtown Master Plan only apply to the Midtown Site. The City is not the only property owner within the Midtown Site.
Concern that the changes being proposed, especially the height increase at the façade zones, will substantially alter the character of the primary human interface as it was envisioned by the community engagement process.	The proposed amendments will remove the requirement for step-backs in the façade zones and will bring the maximum allowable height in the façade zones up to 5 stories, matching the allowable height throughout the Midtown Site. In response to the concerns over the character of the streetscape, the MRA is planning to include language that strongly encourages step-backs or other forms of façade relief.
Concern that the proposed amendments to the proposed use table will effectively change the zoning to C-2.	The underlying zoning of the site is C-2, so aligning the permitted uses with C-2 will not have the effect of rezoning the site. All of the prohibited and conditional uses as defined by the use table in the Master Plan will remain prohibited and conditional. Making reference to the permitted uses in C-2 will have the effect of ensuring that multi-unit residential development can be included throughout the site.

Comment/Question	Response
Concern that the proposed changes do not involve enough public process. The creation of the plan took place over many months and engaged over 2,000 people, while the proposed amendments will only have one ENN meeting and any required public hearings.	Whenever a master plan of this scale and type is adopted, it is always presumed that as implementation takes place, minor adjustments may be needed in order to correct unintended conflicts or development challenges that the master plan did not anticipate. The minor changes being proposed represent such an effort to tweak the plan so that it is easier to implement in alignment with the vision that was co-created with extensive community involvement.
Does the Midtown Master Plan supercede the Midtown LINC Overlay District?	The Midtown Master Plan does supercede the regulations in the Midtown LINC Overlay District where deviations from the LINC are specifically addressed. Where the Midtown Master Plan is silent on a topic, the regulations in the underlying zoning apply, including C-2 and the Midtown LINC Overlay District.
Will the ENN meeting be documented with a transcript or with summary notes?	The ENN meeting will be documented with summary notes.
Concern about reduction in street size and infrastructure changes, including sewer design. Will there be additional ENN meetings to address these issues?	The topic of this ENN is specifically the proposed amendments to the Midtown Master Plan. The ongoing infrastructure design for the Midtown Site will involve additional ENN meetings where these concerns can be directly addressed.
Preference expressed that the landscape language that will be introduced direct developers to plant low-level, low-water-use vegetation. Concern that 2” caliper trees will not survive, even with the required irrigation.	The landscape standards in the Land Development code already require low-water-use vegetation, and the proposed 2” tree caliper is in alignment with what is required throughout the City as a minimum size for deciduous trees.

Midtown Master Plan Amendments and Modifications				
Page	**Section**	**Proposed Standard**	**Current Standard**	**Date of Approval**
114	**5.4**	**Development Standards Regulating Plan**	**Development Standards Regulating Plan**	
115		Remove Façade Zone Standards Main Street-Office (MS-O) standards at MU-F northern façade zone	Main Street-Office (MS-O) Façade Zone Standards are currently applied to the northern frontages of MU-F development tracts F1-a and I1-a.	
		Insert footnote stating that the northern façade zone of the MU-F will be pursuant to the Midtown Overlay Zoning District requirements for "Qualifying Projects".		
		Change Tract O (including Benildus) subzone to MU-C.	Tract O is currently designated subzone MU-N.	
	5.5	**Sub-Zone Standards**	**Sub-Zone Standards**	
117-121		Remove Permitted Use Table.	Permitted Use Table specifies permitted, prohibited, and conditional uses for each subzone in the Midtown Site.	
		Replace table with a list of prohibited uses and conditional uses.		
		Add C-2 Permitted Uses, Refer to SFCC 14-6.1, Table 14-6.1-1		
		Add Language "Subzones are the recommended and preferred use for the parcels"		
	5.6	**Façade Zone Standards**	**Façade Zone Standards**	
127 & 129		Remove step-back requirement for all buildings at façade zone.	Step-backs required above the third story, as defined in note 2 under "Height" and referenced as E in the illustration.	
131 - 135		Change "Building Height in Façade Zone" to "5 stories max" to match the height that is allowed elsewhere.	"Building Height in Façade Zone" specified as "3 stories max" and called out as A in illustration.	
125		Insert language that encourages the use of step-backs, fenestration, and other forms of façade articulation.		
	5.8	**Design Standards General to All**	**Design Standards General to All**	
154		Insert language that requires landscape design to follow SFCC 14-5.5(D)(9) for the Midtown Local Innovation Corridor (LINC), with a note that the caliper for new trees on the Midtown Site is 2" at time of planting.	No mention of landscape standards presently.	
		Add signage and temporary art language adapted form the Railyard Master Plan (see below).	No mention of signage or temporary art installation standards presently.	
		Insert general statement that signage located in the Midtown Site is governed by SFCC 14-5.5(D)8 in addition to the requirements found in Section 14-8.10.		
		Insert: ***Building Signage.*** *Signage and font shall be similar or the same as found on existing buildings throughout the Midtown Site, which form the basis for future Midtown standards (see the Fogelson Library and Garson Performance Theater, as reference). Signs are to be painted on the building skin or on thin panels mounted closely to the building. Pin and channel lettering and numbers are to be mounted closely to the building. Pole mounted signs are not permitted. Hanging signs are permitted under canopies or portales. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision.*		
		Insert: ***Site Directional and Wayfinding Signs.*** *Signs are to be fabricated in metal and finished in durable high quality metal paint finish or natural metal finishes. Wayfinding signs shall be used at street edges and bus stops. Sign colors shall be consistent with the Midtown color palette (see Midtown color palette). Sign forms shall be simple and minimalistic. Signs shall be constructed of metal, color shall be black, plus 1 or 2 accent colors using the Midtown color palette. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision. Wall signs associated with film studio stages within the Midtown LINC Overlay District and whose sign faces parallel to a wall or garage attached to a film studio stage shall be painted and shall not exceed 250 sqft.*		
		Insert: ***Murals and Art Installations.*** *Publicly visible murals and art installations are permissible with approvals from the Metropolitan Redevelopment Agency. The relocation of existing sculpture and installation of new art in public and publicly visible spaces are encouraged and must consider structural stability, weather, circulation, and safety. Murals on public property shall be pursuant to the MRA Public Arts Murals Agreement.*		

Midtown Master Plan – Administrative Approval

The Midtown Redevelopment Authority requested administrative minor modifications to the Midtown Master Plan approved November 30, 2022 (Resolution 2022-68) as of February 10th, 2025. The following provisions in the Midtown Master Plan and SFCC granted the Land Use Director power to administratively approve these as of March 17, 2025.

Midtown Master Plan Modifications

Section 5.2A	**Neighborhood Street**	p. 96
	Add text "Street widths and on-street parking layout will be subject to field testing and adaptable to site conditions"	
	Change maximum Right-of-Way width from 94' to 82'	
	Change maximum Sidewalk width from 16' to 10'	
Section 6.2	**Policy for the Midtown Site + Surrounding Area**	p. 173
	Change title "Proposed Policies for the Midtown Site" to "Stormwater Policy for the Midtown Site"	
	Delete text under "Proposed Policies for the Midtown Site" and insert new text requiring that all new development will be required to implement stormwater management systems that capture and manage the 90th percentile storm event.	
Section 6.3	**Alternative Energy - Photovoltaics**	p.180
	Insert new sub-section title: "Alternative Energy Sources"	
	Under "Alternative Energy Sources" insert new text requiring that all new construction standards on Midtown development sites require the installation of a solar photovoltaic (PV) system on the roof area of the building, or on the development site, to provide electricity to newly constructed buildings	

Chapter 14 Land Use Director Approval Authority

Administrative changes within the Midtown Master plan shall be facilitated through minor modifications and or administrative deviations as determined by SFCC 14-2.11(C).

Minor Modification *SFCC 14.2-11(C)2*

The land use director may approve minor quantitative and qualitative modifications on an approved master plan, development plan, subdivision plat , special use permit or other development approval, subject to the following:

Midtown Master Plan – Administrative Approval

a. written request by the applicant explaining the need for the modification;
b. written finding by the land use director that the modifications do not substantially change the function or appearance of the development , and will not result in any negative health or safety impacts on the community or negatively impact a neighboring property ;
c. the minor modification may not allow increased density or allow uses not otherwise shown on the approved plan or plat ; and
d. the minor modification complies with all standards and requirements of Chapter 14, except as otherwise allowed by this section.

The Planning Commission is empowered by SFCC 14-3.9 to recommend the amendment of Master Plans to the Governing Body. Additional amendment requests will be pursued through a Master Plan amendment application with the City of Santa Fe Metropolitan Redevelopment Agency as the applicant.

Date: July 1, 2025

Re: Midtown Master Plan Administrative Minor Modifications

Good afternoon, Heather,

The Metropolitan Redevelopment Authority (MRA) is requesting administrative minor modifications to the Midtown Master Plan approved November 30, 2022 (Resolution 2022-12). Per SFCC §14-2.11(C)(2), the Land Use Director may approve "minor quantitative and qualitative modifications on an approved master plan, development plan, subdivision plan, *special use permit* or other development approval, subject to the following:

a) Written request by the applicant explaining the need for the modification.
b) Written finding by the land use director that the modifications do not substantially change the function or appearance of the development, and will not result in any negative health or safety impacts on the community or negatively impact a neighboring property;
c) The minor modification may not allow increased density or allow uses not otherwise shown on the approved plan or plat; and
d) The minor modification complies with all standards and requirements of Chapter 14, except as otherwise allowed by this section."

Accordingly, the MRA requests such minor modifications to the Midtown Master Plan in order to facilitate smooth implementation of the plan in alignment with the vision for the Midtown Property, as described below.

PROPOSED MINOR MODIFICATIONS

Section 5.2: Thoroughfare Standards: 5.2A Neighborhood Street (Page 96)

The dedication of right-of-way and utility planning throughout the Midtown Site required the revision of the throughway type 5.2A Neighborhood Street. This right-of-way was previously designated with a total width of 94', comprised of vehicle traffic lanes, bicycle lanes, parking lanes with curb extensions, sidewalks, stormwater infrastructure, and a landscaped zone. However, after further analysis by the roadway and infrastructure team, including the City's Public Works Department, it was determined that a modification was needed to the sidewalk widths in the Neighborhood Street throughway type. The proposed Minor Modification provides for a reduced right-of-way at 82', resulting from the reduction of sidewalk widths to 10' on each side of the street rather than the originally approved 16'.

Section 5.2 Roadway Width Reduction at Certain Location. The Minor Modification is a required reduction of the roadway width adjacent to the west of Tract P1.a and Tract P1.b. This will allow for the continuous development of the exterior thoroughfare along Tracts P1.a and P1.b adjacent to Santa Fe Art Institute's proposed Makers Space within the Visual Arts Center campus. A roadway width reduction will allow for increased green space in front of the makers space and allow for infrastructural continuity.

Section 6.2: Policy for the Midtown Site + Surrounding Area 6.2 (Page 173)

Stormwater Management Requirements

The proposed Stormwater Policy originally required private developments to design flood control management set at a minimum 80th percentile and an aspirational 90th percentile. The proposed Minor Modification requires that all new developments manage 90th percentile storm events—defined as 0.80 inches of rainfall onsite. The new text was prepared by a member of the Development Review Team (DRT) from River and Watershed Management in consultation with the infrastructure team.

This modification will eliminate existing text under "Proposed Policies for the Midtown Site," and insert a new title "Stormwater Policy for the Midtown Site" and text requiring all new development will be required to implement stormwater management systems that capture and manage the 90th percentile storm event. The proposed stormwater management policies for Midtown are put into practice, as follows:

A. *Stormwater Management Requirements. All new development will be designed and required to implement stormwater management systems that capture and manage the 90th percentile storm event, defined as a rainfall depth of 0.80 inches, onsite.*

    1. *Development proposals shall include a technical memorandum with all supporting documentation, modeling results, and drainage calculations related to the feasibility analysis for complying with the stormwater management requirements, which shall be addressed and submitted to the City as part of the development review process.*

    2. *All stormwater management documentation and supporting analysis shall be prepared and signed by a registered engineer licensed in the State of New Mexico.*

B. *Non-Compliance with 90th Percentile Storm Management*

    1. *In the event that the proposed development is unable to manage the 90th percentile storm onsite, a technical memorandum must be submitted to the City for consideration. The technical memorandum shall include a comprehensive analysis detailing the infeasibility of meeting the discharge requirements for the 90th percentile storm event onsite.*

C. Stormwater Variance Requests and Associated Fees

1. *Development proposals seeking a variance from the 90th percentile storm management requirement may be subject to additional stormwater management fees. The specific fee assessment shall be determined by the City at the time of the variance request.*

D. Minimum Stormwater Management Requirements

1. *Development proposals unable to comply with the 90th percentile storm management requirement shall, at a minimum, manage the 80th percentile storm event, defined as a rainfall depth of 0.50 inches, onsite.*

Section 6.3: Other Utilities + Infrastructure 6.3 (Page 180)

Alternative Energy - Photovoltaics

The Master Plan provides for eliminating gas as an energy source and the development of electric infrastructure and building requirements. The City's Public Works Department has proposed a policy that allows flexibility in alternative energy sources with a focus on photovoltaics (PV) under a new sub-section title "Alternative Energy Sources." Under the proposed Minor Modification, solar photovoltaic (PV) systems for new buildings must meet one of the following approaches that provides the greatest supply of electricity:

- At least fifty percent (50%) of the roof area shall be dedicated to a PV; or
- At least fifty percent (50%) of the building's energy needs shall be estimated to be provided by the on-site PV system, as provided in energy calculations submitted by a certified engineer.

Minor Modification Approval Criteria Responses

The Metropolitan Redevelopment Agency (MRA) is requesting approval for a minor modification to the existing Midtown Master Plan to allow for implementation that aligns with site conditions and sustainability best practices and maintains alignment with the development vision for the Midtown Property. Below are the MRA's responses to each of the approval criteria for minor modifications, as specified in SFCC §14-2.11(C)(2).

a) Need for modifications: The Master Plan was approved in 2022 with the intention that the implementation of the plan would be dynamic and incremental, adapting to conditions according to site and market conditions. Section 3 of the Master Plan describes the Plan as a model for equitable development and sustainable urbanism—one that creates a mixed-use center. In the process of establishing the parcels for development on the blighted site, the proposed modifications are necessary to adapt roadway, stormwater, and photovoltaic standards to current site-specific conditions.
b) Modifications do not substantially change the function or appearance of the development and will not result in negative health or safety impacts on the community or neighboring properties: The proposed

changes will not substantially alter the function or appearance of the development pursuant to the Master Plan, nor will they result in health or safety impacts to the community or neighboring properties.

1. Reducing the right-of-way width west of Tracts P1.a and P1.b. maintains pedestrian, bicycle, and vehicle access as outlined in Section 5.2 of the Master Plan, while allowing for expanded green space in front of the Makers Space and improved infrastructure continuity.
2. Enhanced stormwater retention—meeting the 90th percentile threshold—will also reduce runoff onto adjacent properties during rain events.
3. Proposed photovoltaic standards allow for smooth implementation of alternative energy at Midtown without negative impacts to the performance or appearance of resulting buildings.

c) Minor modification will not allow increased density or allow uses not otherwise show on the approved plan: The proposed Minor Modifications do not increase density or introduce any uses not already permitted under the approved Master Plan (Resolution 2022-12), which maintains the mixed-use development.

d) Minor modifications will comply with all standards and requirements of Chapter 14: The regulatory design standards established in the Master Plan are complimentary and supplemental to existing SFCC Chapter 14 regulations, including the Midtown Local Innovation Corridor (LINC). All Minor Modifications will comply with standards and requirements in SFCC Chapter 14.

Conclusion

Thank you in advance for your review and attention to this request. Please let us know if you need any additional information or clarifications. I can be reached at 505-362-8294 or lisa.gavioli@nv5.com, and Carly Venditti can be reached at 505-795-0675 or cavenditti@santafenm.gov.

Attachment: Midtown Master Plan, revised 3.17.2025

CITY OF SANTA FE
METROPOLITAN REDEVELOPMENT AGENCY

NV5

June 18, 2025
<<revised July 10, 2025>>

Joel Cruz-Haber, Senior Planner
Planning and Land Use Department
City of Santa Fe
Sent via email: jacruzhaer@santafenm.gov and planning@santafenm.gov

RE: APPLICATION FOR AMENDMENT 1 TO THE MIDTOWN MASTER PLAN

Dear Mr. Joel-Haber,

On behalf of the City of Santa Fe Metropolitan Redevelopment Agency ("MRA"), I respectfully submit this application letter and supporting documentation for Amendment 1 to the Midtown Master Plan for review and consideration. The Midtown Property (also referred to as the "Midtown Site") is located at 1600 Saint Michael's Drive. It is zoned C2-PUD and is located within the Midtown Local Innovation Corridor (LINC) Overlay District. The Future Land Use Map identifies the Midtown Property as "Transitional Mixed Use."

BACKGROUND

The Midtown Property is a 64.22-acre area comprised of multiple parcels located in the geographic center of the City of Santa Fe (See attached Vicinity Map and Legal Lot of Record Documentation). The Midtown Property had previously been used as a higher education campus, for both the College of Santa Fe and the Santa Fe University of Art and Design (SFUAD). When SFUAD operations ceased in 2018, the City of Santa Fe ("City") immediately commenced a city-wide, community-driven planning process to determine the future of the Midtown Site. The "Concept Phase" culminated with a Vision and Concept Plan that established the Midtown Planning Guidelines. Based on the Midtown Planning Guidelines, the "Planning Phase" focused on creating the regulatory and policy plans for the redevelopment of the Midtown Property.

The Midtown Master Plan ("Master Plan") establishes regulations regarding land uses, urban designs, open space and circulation, stormwater management, as well as other sustainable design and development practices. The Midtown Community Development Plan provides policy requirements and priorities in response to community voices regarding equity, environment, economy, and culture. These two plans were unanimously approved by the City's Governing Body in 2022 (Resolution 2022-68) and 2023 (Resolution 2023-5), respectively. Together,

these plans are called the Midtown Redevelopment Plans, which regulate and direct all development at the Midtown Property.

The Metropolitan Redevelopment Agency ("MRA") proposes amendments to the Midtown Master Plan to facilitate development as intended by the approved Midtown Redevelopment Plans. Multi-phased master plans, like the Midtown Master Plan, require continual evaluation and oversight to ensure that the plans respond to specific site conditions and evolving market demands during implementation to achieve the desired outcomes of the approved master plans. The MRA, the City's agency responsible to implement and steward the Midtown Redevelopment Plans, has identified minor changes to the Master Plan that align with its core vision, intent, goals, and objectives, and that further policy directives for the area as stated in the Midtown Community Development Plan, the Midtown LINC Overlay District, and the General Plan. In March 2025, a request for several minor modifications to the plan were submitted for administrative approval, including minor changes to the Neighborhood Street section and the addition of policy statements related to stormwater and alternative energy sources. (See attached *Midtown Master Plan Administrative Amendment Memo*, dated March 17, 2025, and *Midtown Master Plan Administrative Minor Modifications Memo*, dated July 1, 2025.) The changes proposed within Amendment 1 require Planning Commission and Governing Body review and are intended to allow for the Midtown Master Plan to be implemented more smoothly and efficiently.

PROPOSED AMENDMENTS: DEVELOPMENT STANDARDS REGULATING PLAN

The proposed amendments to the Development Standards Regulating Plan include removal of the Main Street - Office (MS-O) Façade Zone from the northern frontage of the Mixed-Use Fim (MU-F) Sub-Zone (Tracts F-1a and I-1a) as well as changing the Sub-Zone designation for Tract O from Mixed-Use Neighborhood (MU-N) to Mixed-Use Center (MU-C). Please see attached Existing and Proposed Development Standards Regulating Plan for reference.

Initial development proposals for Tract F-1a have demonstrated that the MS-O Façade Zone is not compatible with the Mixed-Use Film (MU-F) Sub-Zone, and the LINC Overlay along with the design standards established by the Midtown Master Plan are sufficient to address character and appearance for residential and mixed-use development in the MU-F Sub-Zone. Specifically, the MS-O Façade Zone requires numerous openings (doors and/or windows) consistent with a building form with street-level commercial shop fronts and upper story residential units. However, this type of development is not consistent with the Mixed-Use Film (MU-F) Sub-Zone and is overly restrictive for the redevelopment and infill development intended for those tracts. All development within the MU-F Sub-Zone will comply with the underlying Midtown LINC requirements, upon which the Master Plan is based, including the architectural points review process required by the LINC (SFCC §14-8.7). In addition, all development will refer to and be evaluated for consistency with architectural and urban design guidelines provided in the Midtown Master Plan (pages 136-153).

Additionally, the proposed Sub-Zone change to Tract O will provide for a greater range of commercial uses on that parcel than were originally anticipated but which align with the mixed-use intent of the Midtown Master Plan in this central area of the Midtown Site. The tract is presently designated Mixed-Use Neighborhood (MU-N), which limits development to a range of housing types and very few commercial uses; whereas, changing the Sub-Zone to Mixed-Use Center (MU-C) will provide opportunities for a wider range of job-creating commercial uses, including retail, dining, and entertainment, in addition to housing, which will encourage a more robust mixed-use development program on this centrally located tract.

The proposed amendments to the Development Standards Regulating Plan provide the flexibility to allow an appropriate range of commercial uses as well as multi-unit residential development throughout the Midtown Site, as was intended by the Midtown Redevelopment Plans. The proposed amendments to the Development Standards Regulating Plan effectively facilitate the development of a mixture of uses on all parcels within the Midtown Site.

PROPOSED AMENDMENTS: SUB-ZONE STANDARDS

Within the Sub-Zone Standards, the proposed amendments will replace the Permitted Use Table with a reference to the Permitted Uses delineated for C-2 zoning (SFCC §14-6.1, Table 14-6.1-1) and a list of Prohibited and Conditional Uses that apply to the Midtown Property. As staff began applying the Permitted Use Table, they realized that it was too restrictive to implement the development vision for Midtown and that the permitted uses in C-2 more closely align with the intent of the plan. This change will permit multi-unit residential development throughout the Midtown Property, including those tracts where previously it was not permitted (such as MU-F), while maintaining all Special Uses (also called Conditional Uses) and Prohibited Uses to remain consistent with the Midtown Master Plan as originally approved. This amendment to allow a mix of uses does not apply to the Open Space (OS) or Community-Oriented (OS) Sub-Zones. The allowable mix of uses under this amendment are consistent with and refer to C-2 districts, which is the underlying zoning upon which the Midtown Master Zone is based.

The proposed change to the existing Table 5.5.A Allowed Uses is consistent with the intent of the Master Plan and will maintain the non-permitted uses and conditional uses as established during community engagement sessions. The underlying zoning is C-2, which allows uses defined by SFCC §14-6.1 Land Use Categories and Table 14-6.1-1 of Permitted Uses, with the exception of the Prohibited and Conditional Uses as they are currently defined in the Master Plan. Reference will be made to the Permitted Uses in C-2, and the following lists of Prohibited and Conditional Uses will be inserted into the Master Plan:

All uses that are permitted in C-2 Districts, as specified in SFCC §14-6.1, Table 14-6.1-1, are permitted throughout the Midtown Site, with the exception of the Prohibited and Conditional Uses specified below.

The following uses are prohibited throughout the Midtown Site, in all Sub-Zones:

Prohibited Uses

Group Residential Care Facility, Correctional	*Drive-throughs*
Mobile home, permanent installation	*Cabinet Shops, Custom*
Mobile home park	*Sign Shops*
Short-Term Rental Unit	*Sexually Oriented Business*
Vacation Time Share Projects	*Automobile Salvage and Wreckage Yard*
Electrical Facilities; Substation, Switching Stations, Transmission Lines	*Vehicle Service and Repair Establishments including Tire Service*
Vocational or trade schools, light industrial	*Manufacturing and Production*
Hospital and Extended Care Facilities	*Light assembly and manufacturing*
State Licensed Foster Homes	*Storage Facilities*
Cemeteries, Mausoleums and Columbarium	*Outdoor Storage*
Funeral Homes or Mortuaries	*Animal Production and Commercial Stables*
Animal Sales and Service	*Composting*
Cannabis; Consumption Area, Manufacturing, Producers with more than 200 plants, Outdoor growing, Laboratory	

The following uses may be permitted as Conditional Uses (also known as "Special Uses") in all Mixed-Use Sub-Zones and are subject to SFCC §14-3.6 Special Use Permits.

Conditional Uses

Continuing Care Community	*Cannabis Testing Laboratory*
Group Residential Care Facility	*Commissary Kitchen*
Boarding, dormitory, monastery	*Department and Discount Stores*
Police and Fire Stations (> 6 Staff)	*Religious Assembly*
Elementary and secondary schools, public and private	*Religious, educational and charitable institutions (does not include schools or assembly uses)*
Colleges and Universities	*Transit transfer facilities*

Adult day care	*Nonprofit theaters for production of live shows*
Human service establishments	*Urban Farm (Ground Level, Roof Level, and Open-Air)*
Sheltered care facilities	*Aquaponics, Aquaculture (less than 750 sf), Hydroponics*
Utility Facility	

PROPOSED AMENDMENTS: FAÇADE ZONE STANDARDS

Within the Façade Zone Standards, proposed amendments eliminate step-back requirements at third story, street-facing façades and allow the height of street-facing building façades to match the maximum of five stories allowed elsewhere at the Midtown Site. This amendment also includes language that encourages the use of façade step-backs at the street and expresses a preference for architectural design proposals that fulfill the intent of the Midtown Master Plan to create diverse building forms and façade articulation to enhance the aesthetic quality, interest, and pedestrian scale of the public realm. Rather than requiring step-backs, MRA and City staff will direct development proposals to refer to and be consistent with sample images of façade articulation, set-backs, fenestration, and other street frontage design intents provided in the Midtown Master Plan.

The proposed amendments to the Façade Zone Standards provide for more flexibility in applying urban design guidelines while also increasing the potential for additional residential units. MRA and Planning and Land Use Department oversight and design review of development proposals will be important to ensure alignment with the intent of the Midtown Master Plan urban design guidelines.

PROPOSED AMENDMENTS: DESIGN STANDARDS, GENERAL TO ALL

The proposed amendment to the Design Standards General to All provides for the following:

1) Signage design requirements, which had not been previously included;
2) Temporary art installation guidelines and requirements, including murals, which had not been previously included; and
3) Language that references the landscape design standards for the Midtown LINC Overlay District (SFCC §14-5.5(D)(9)), while specifying that the minimum caliper for new street trees at the Midtown Property shall be 4" at the time of planting and shall have a minimum mature height of 25' and that other new trees shall have a minimum caliper of 2" at the time of planting, which is consistent with the requirements for large scale projects elsewhere in the City.

These additions to the Midtown Master Plan will add specificity pertaining to signage, temporary art installations, and landscape design. The proposed amendments facilitate the

implementation of cultural intents and strategies provided in the Community Development Plan and will have the effect of clarifying the regulations and guidelines of the Midtown Master Plan.

Guidelines and requirements for signage and temporary art installations have been adapted from the Railyard Master Plan. Staff used these existing requirements from the City's first major redevelopment plan as a guide for appropriate regulations for the Midtown Site, with adjustments made for consistency with the Midtown Vision. Proposed language for signage and temporary art installations is as follows:

> *Generally, signage located in the Midtown Site is governed by SFCC §14-5.5(D)8 in addition to the requirements found in SFCC §14-8.10. Specific rules for building signage, directional and wayfinding signage, and murals and art installations at the Midtown Site is as follows:*
>
> ***Building Signage:*** *Signage and font shall be similar or the same as found on existing buildings throughout the Midtown Site, which form the basis for future Midtown standards (see the Fogelson Library and Garson Performance Theater, as reference). Signs are to be painted on the building skin or on thin panels mounted closely to the building. Pin and channel lettering and numbers are to be mounted closely to the building. Pole mounted signs are not permitted. Hanging signs are permitted under canopies or portales. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision.*
>
> ***Site Directional and Wayfinding Signs:*** *Signs are to be fabricated in metal and finished in durable high quality metal paint finish or natural metal finishes. Wayfinding signs shall be used at street edges and bus stops. Sign colors shall be consistent with the Midtown color palette (see Midtown color palette). Sign forms shall be simple and minimalistic. Signs shall be constructed of metal, color shall be black, plus 1 or 2 accent colors using the Midtown color palette. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision. Wall signs associated with film studio stages within the Midtown LINC Overlay District and whose sign faces parallel to a wall or garage attached to a film studio stage shall be painted and shall not exceed 380 sqft.*
>
> ***Murals and Art Installations:*** *Publicly visible murals and art installations are permissible with approval from the Metropolitan Redevelopment Agency. The relocation of existing sculpture and installation of new art in public and publicly visible spaces are encouraged and must consider structural stability, weather, circulation, and safety. Murals on public property shall be pursuant to the MRA Public Arts Murals Agreement.*

APPROVAL CRITERIA

The proposed amendments to the Midtown Master Plan comply with the approval criteria for master plan specified in SFCC §14-3.9(D)(1), as described below:

(a) The Master Plan is consistent with the General Plan.

Applicant Response: The 1999 City of Santa Fe General Plan identified the area surrounding the Midtown Property as the "St. Michael's Drive Redevelopment Corridor", signaling a long-term intention to support use intensification and mixed-use development. Since then, the area has been designated as "Transitional Mixed Use" on the City's Future Land Use Map, reinforcing the vision of creating a dynamic urban environment. This designation encourages redevelopment that balances higher intensity commercial corridors with adjacent lower-density neighborhoods by promoting a mix of residential, commercial, and community-serving uses.

To further support these goals, the Midtown Local Innovation Corridor (LINC) Overlay District was established in 2016. The overlay aims to catalyze revitalization through the introduction of additional housing options and compatible non-residential development—a step toward fostering a more vibrant and diverse urban core.

In 2017, the Governing Body passed Resolution 2017-78, formally recognizing the historical and strategic importance of the Midtown Property—formerly home to the College of Santa Fe and the Santa Fe University of Art and Design (SFUAD). As both the demographic and geographic center of the city, the Midtown Property was seen as central to implementing the objectives of the LINC Overlay District. The resolution also called for a renewed community vision for the site. City staff were tasked with initiating a "Concept Phase" of planning, including broad community engagement efforts. Known as the Midtown Campus Project, this initiative attracted approximately 3,000 participants and culminated in a set of community-informed planning guidelines.

Following the closure of SFUAD in 2018, the City passed Resolution 2018-54, which formally adopted the planning guidelines developed during the Concept Phase. The resolution also directed staff to begin the "Planning Phase," initiating a consultant-led process to develop a comprehensive land use strategy for the site, grounded in continued community engagement.

These efforts resulted in the creation of two foundational planning documents: the Midtown Master Plan and the Midtown Community Development Plan, approved by the Governing Body in 2022 and 2023, respectively. Together, these documents articulate a clear framework for a mixed-use, high-activity redevelopment district that reflects community priorities and long-standing city policy.

With its strategic location near major transportation corridors, business districts, and neighborhood-serving amenities, the Midtown Property is envisioned as a hub for residential living, arts and culture, and economic opportunity. The planned redevelopment reflects the city's commitment to equitable, sustainable growth, as envisioned in the 1999 General Plan and reaffirmed in successive planning initiatives. The proposed amendments to the Midtown Master Plan are intended to ensure efficient and effective implementation of this shared vision and are in alignment with the General Plan and subsequently adopted resolutions and policies.

In addition to the above, the proposed Amendment to the Midtown Master Plan aligns with following Guiding Policies, found in Chapters 3 (Land Use), 4 (Growth Management), 5 (City Character), and 6 (Transportation) of the 1999 General Plan:

- *Guiding Policy 3-G-2: There shall be a mix of uses and housing types in all parts of the city.*
- *Guiding Policy 3-G-3: There shall be infill development at densities that support the construction of affordable housing and a designated mix of land uses that provide an adequate balance of service retail and employment opportunities to address residential growth throughout the Urban Area*
- *Guiding Policy 4-1-G-2: Concentrate population at greater densities in developing areas with centrally located neighborhood centers to encourage pedestrian scale development, reduce auto dependence, and provide central transit nodes*
- *Guiding Policy 5-1-G-2: Encourage new residential growth in the form of human-scale and vital neighborhoods that provide a mix of services and uses.*
- *Guiding Policy 5-1-G-3: Increase the connectivity between neighborhoods and individual developments*
- *Guiding Policy 5-2-G-4: Provide for uses to meet everyday needs within neighborhoods in the form of pedestrian-oriented neighborhood centers*
- *Guiding Policy 6-1-G-3: Provide for a closely spaced network of narrower streets as opposed to fewer wider streets*
- *Guiding Policy 6-1-G-5: Ensure that new development is more "connected" to its surroundings with an increased number of access points and pedestrian and bicycle connections to a neighborhood network.*

(b) The Master Plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts.

Applicant Response: The Midtown Site is located within the C2-PUD zoning district and the Midtown Local Innovation Corridor (LINC) Overlay District. In 2022, the City's Governing Body adopted Resolution 2022-68, finding that the Midtown Master Plan was consistent with the purpose, intent, and development standards of these underlying zoning designations. The proposed amendments to the Midtown Master Plan continue to align with all applicable zoning requirements. In many cases, the amendments provide greater specificity and clearer references to the regulations and design guidelines set forth in the C2 and Midtown LINC districts, further supporting implementation of the City's planning and development objectives for the site.

(c) Development of the Master Plan area will contribute to the coordinated and efficient development of the community.

Applicant Response: The proposed amendments to the Midtown Master Plan are intended to facilitate the effective implementation of the Plan's core intent: to establish a vibrant, inclusive, and economically sustainable mixed-use district at the heart of Santa Fe. The amendments contribute to this goal in several key ways.

First, the proposed amendments strengthen support for mixed-use development. The amendments refine and clarify the land use framework to more explicitly support a variety of compatible uses throughout the Midtown Site. This flexibility encourages integrated, human-scaled development that supports day-to-day activity and long-term community vibrancy.

Importantly, the proposed amendments ensuring multi-unit residential is permitted site-wide, consistent with the City's goals for increasing housing supply, promoting affordability, and supporting a mix of housing types. This provision ensures that residential development is not limited to certain areas, enabling a more cohesive and balanced community fabric.

Furthermore, by referencing and aligning more closely with the underlying C2 and Midtown LINC Overlay zoning regulations, the amendments reduce potential conflicts between the Master Plan and the City's regulatory framework. This alignment makes the Plan more actionable and provides clearer guidance for both public and private development partners.

By prioritizing mixed-use, multi-unit, and pedestrian-oriented development, the amendments help realize the long-term vision of the Midtown area as a dynamic, urban district that contributes to citywide goals for housing, economic development, and cultural enrichment.

(d) The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.

Applicant Response: Along with the Midtown LINC Overlay District and other relevant regulations in SFCC Chapter 14, the proposed amendments to the Midtown Master Plan will accommodate future development and infrastructure needs while also updating existing infrastructure in alignment with the redevelopment vision established by the Midtown Master Plan. The design and engineering of infrastructure upgrades to the Midtown Site are currently underway, and the proposed amendments will not impede or affect the outcome of such design efforts. Furthermore, the application has been revised to align with the Development Review Team's recommendation that new street trees shall have a minimum caliper of 4 inches at the time of planting and shall have a mature height of 25 feet.

CONCLUSIONS

In conclusion, the Metropolitan Redevelopment Agency respectfully submits Amendment 1 to the Midtown Master Plan as a necessary and strategic refinement to facilitate the timely and effective implementation of the City's long-held vision for the Midtown Site. As stewards of the Midtown Redevelopment Plans, the MRA has carefully identified minor yet meaningful updates that align with the Plan's core intent, reflect site-specific conditions, and respond to current market dynamics. These amendments are consistent with the policy direction outlined in the Midtown Community Development Plan, the Midtown LINC Overlay District, and the City of Santa Fe General Plan.

Amendment 1 will enhance clarity, support mixed-use development, and ensure that multi-unit residential housing is achievable throughout the site, all while preserving the integrity of the original Master Plan. We appreciate your thoughtful consideration and continued support in advancing the redevelopment of the Midtown Property.

Sincerely,

Lisa Gavioli, AICP

What's Inside?

Midtown Master Plan (the Midtown Land Development Plan)

1. Purpose + Intent	11
2. Background + Setting	25
3. Urban Design Vision	37
4. Connectivity + Mobility Vision	71
5. Development Standards	89
6. Stormwater + Infrastructure	165
7. Appendices	187

How to Use this Document

What you will find + where to find it:

Chapter 1 Purpose + Intent

What's included in this Plan...	**1.1** Midtown Master Plan Organization
Why this Plan?	**1.2** Purpose of the Midtown Master Plan
What this Plan will accomplish?	**1.3** Mission + Development Vision
How this Plan works with other existing plans + standards?	**1.4** Relation to Existing Plans, Policies + Regulations
Goals for sustainable development...	**1.5** Elements of Sustainable Development

Chapter 2 Background + Setting

The Midtown Site in context	**2.1** Regional Considerations + The Site History
Existing conditions at the Midtown Site	**2.2** Site Considerations
What inspired the urban design concepts in this Plan?	**2.3** Santa Fe Urban Form + Public Realm

Chapter 3 Urban Design Vision

The vision for the Midtown Site development	**3.1** The Midtown Site Development Vision
Strategies for improving connectivity	**3.2** Connectivity + Mobility
Strategies for managing stormwater	**3.3** Integrated Stormwater Management
Strategies for open spaces at the Midtown Site	**3.4** Civic + Open Spaces
Strategies for urban design	**3.5** Urban Form + Building Scale
What is place-based design	**3.6** Place-based Approach
Proposed development phasing	**3.7** Development Program + Phasing
Strategies for affordable housing	**3.8** Affordable Housing
Designing for community health	**3.9** Reinforcing Community Health Through Urban Design

Chapter 4 Connectivity + Mobility Vision

Approach to connectivity + mobility	**4.1** Conceptual Connectivity + Mobility Framework
When and where streets get built	**4.2** Connectivity + Mobility Phasing
Ideas for making great streets at the Midtown Site	**4.3** Multimobility Best Practices
Steps to improve mobility + connectivity	**4.4** Connectivity + Mobility Action Items

Chapter 5 Development Standards

Why new development standards for the Midtown Site?	**5.1** Purpose + Intent
Regulations for street and right-of-way design	**5.2** Thoroughfare Standards
Regulations for open space design	**5.3** Civic + Open Space Standards
Where different standards apply?	**5.4** Development Standards + Regulating Plan
Allowed uses at the Midtown Site	**5.5** Sub-zone Standards
Standards on setbacks, frontage types, height, + other design elements	**5.6** Facade Zone Standards
Allowed building frontage types	**5.7** Frontage Types
Design standards applicable to all development parcels	**5.8** Design Standards General to All
Guidance for review of development applications	**5.9** Plan Administration
Terminology specific to development standards	**5.10** Definitions

Chapter 6 Infrastructure + Stormwater

Improvements to the stormwater management system	**6.1** Stormwater + Water Quality Management
Integrated stormwater management approach	**6.2** Policy for The Midtown Site + Surrounding Area
What already exists on the Midtown Site	**6.3** Existing Utilities + Infrastructure
Improvements to support future use and development	**6.4** Improvements to Utilities + Infrastructure

Chapter 7 Appendix

Referenced Maps → **7.1** Map Series

Phasing Diagram, Zoning Framework - Facade Zones, Open Space Framework, Thoroughfare Network Framework, Transit + Access Framework

Adopted by Reference → **7.2** Midtown Infrastructure Report

1. Purpose + Intent

In this chapter

1.1 Midtown Master Plan Organization	12
1.2 Purpose of the Midtown Master Plan	14
1.3 Mission + Development Vision	18
1.4 Relation to Existing Plans, Policies + Regulations	20
1.5 Elements of Sustainable Development	22

1.1 Midtown Master Plan Organization

Chapter 1
Mission + Statement

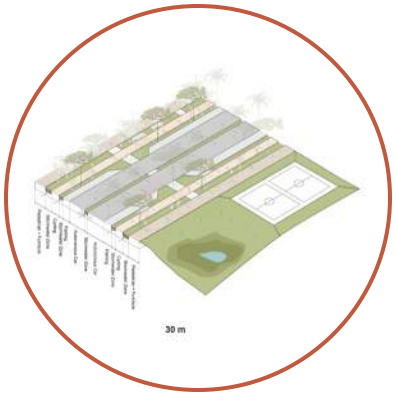
Provides an overview of the Midtown Master Plan and its relationship to the existing regulatory framework.

Chapter 2
Background + Setting

Summarizes existing conditions and identifies key characteristics regarding regional relevance, demographics and local urban form.

Chapter 3
Urban Design Vision

Gives an overview of the development vision and phasing, articulates goals around sustainability, and desired connectivity, stormwater, open space and built form.



Chapter 4
Connectivity + Mobility Vision

Provides design for the future thoroughfare network within the Midtown Site, describes modal prioritization strategies, and parking policies. Also, it illustrates the connectivity phasing with upgrades to existing infrastructure and construction of streets.

Chapter 5 Development Standards

Establishes form-based zoning standards that regulate the future built character of the Midtown Site.

Chapter 6 Infrastructure + Stormwater

Describes green infrastructure for the Midtown Site and addresses water and sewer improvements to realize the Master Plan vision.

Chapter 7 Appendices

Includes a map series of key frameworks developed throughout the Master Plan document.

APPLICABILITY

Chapters 3 (Urban Design Vision) and 4 (Connectivity + Mobility Vision) present a comprehensive vision for development intensity and form, street network and connectivity, civic and open space, and stormwater and sustainability for the Midtown Site.

Chapter 5 (Development Standards) sets the legal requirements for physical development and provides standards for buildings, thoroughfares, and civic spaces within the Midtown Site boundary.

Improvements external to the Midtown Site in this Plan are conceptual and not regulatory. The City is interested in collaborating with adjacent property owners in the Midtown LINC Zoning Area to ensure a cohesive district and smooth development approval processes for new development. No external connection shall be constructed, dedicated, or made a condition of approval of any development application on an adjacent property, without the express consent of the affected adjacent property owner.

1.2 Purpose of the Midtown Master Plan

The Midtown Master Plan implements the community's vision for the Midtown Site by enabling reinvestment and future development that is feasible, predictable, and consistent with community aspirations and priorities.

Purpose

The Midtown Master Plan (Plan) is the culmination of a four-year planning effort (from 2018 to 2022) by City staff, an interdisciplinary consultant team, community members, organizations, and stakeholders. A vision for the Midtown Site (the Site) is articulated jointly in the Midtown Master Plan (this document) and the Midtown Community Development Plan. These complimentary plans provide a roadmap to achieve the community's objectives for development at the Site. The Midtown Master Plan focuses on increasing housing options and accessibility, improving walkability and transportation choices, creating jobs, and advancing climate change resiliency.

The Midtown Master Plan (Plan) presents policies and standards that help prioritize investment and regulate private development to deliver a future for the Site consistent with the community's aspirations.

Midtown Public Engagement Process

Following the closure of the Santa Fe University of Art and Design in 2018, the City of Santa Fe passed a resolution to initiate the Midtown Redevelopment Process. In this initial concept stage, the City developed a project plan and an online hub and established a vision for community outreach. The Midtown Redevelopment Process began with Collaborative Research Sessions, which took place in February 2018. The community engagement process informed programming, planning, and development approaches for the future reuse of the Site.

Around 2,800+ individuals participated in one of the phases (Concept Phase, Planning Phase, and Implementation Phase). They shared their ideas for the Site as part of the initial outreach process. The very high participation rate demonstrates the community's passion and commitment to shaping the future of the Midtown Property and Santa Fe. Four elements were identified based on the input received to guide sustainable development: Equity, Economy, Culture, and Environment. The four elements have been used as principles in this Plan.

The community engagement process led to the approval of the Planning Guidelines for the Midtown Property in the summer of 2018. The Guiding Principles and "Preferred Uses" helped to inform this Plan, along with updated feedback received as part of the engagement process during the Plan. "Other Possible Uses" are included in the Plan, and the Development Standards provide use regulations that address the "Non-Preferred Uses."

Images from the Public Engagement Process of 2018 and the Guiding Principles Document.

2018 PLANNING GUIDELINES*

- ***Sustainable Development.*** *Adopt a "triple bottom line" approach to development to balance and improve social, environmental, and economic impacts. Sustainable Development includes* ***Social, Environmental, and Economic*** *guidelines.*
- ***A City Center.*** *Develop the Site with a variety of uses that make it easy for residents of the city and region to live, work, play and learn. Integrate with neighboring communities by strengthening unique characteristics, minimizing displacement, promote social equity and economic vitality. A City Center includes guidelines on* ***Connections, Transportation, Density, Aesthetics, and Variety of Uses****.*
- ***Adaptable Infrastructure.*** *Develop the physical and digital infrastructure so that it increases accessibility and supports the initial steps of development. Design the infrastructure to be flexible and responsive to later stages of development. Adaptable Infrastructure includes guidelines about* ***Physical and Digital Infrastructure****.*
- ***Catalyze Midtown LINC Zoning Area.*** *Consider how owners of properties in the Midtown LINC Zoning Area can redevelop their properties in ways that will advance the Principles and Uses described.*

2018 USES*

Preferred Uses

- *Higher Education*
- *Housing*
- *Film + Emerging Media*
- *Arts + Creativity*
- *New Business + Innovation*

Other Possible Uses

- *Tech Hub*
- *21st Century Library*
- *Transit Center*
- *Joint Senior + Child Care Center*
- *Health Care*
- *Art Park*
- *Teen Center*
- *Premier Maker Space*
- *Recreation Network*
- *Mixed-Use Commercial + Residential Buildings*

Non-Preferred Uses

- *City Government*
- *Contemporary Cultural Center*
- *Offices + Large Amounts of Retail*
- *Large, Single-family Housing Development*
- *Avoid Homeless Shelters*
- *Dog Park*

**Source: Planning Guidelines for the City's Midtown Property Report, City of Santa Fe.*

The Midtown Site Planning Process

In 2019, the City of Santa Fe issued a formal request for proposals. Developers and operators submitted formal recommendations for the disposition and development of the Midtown Site (Midtown Property). The Midtown Property Planning Guidelines were used as criteria to evaluate the proposals. While a master developer was selected, they exited the project in 2020. The City decided to become the Strategic Planner for the redevelopment process at the Site moving forward.

Since 2020, the City has worked with community stakeholders and a consultant team to lead the two-part planning process subsequently:

- The Midtown Master Plan (Plan) guides land uses and provides an infrastructure framework to enable development and future investment. The Plan creates opportunities for types of development the community wants and provides guidance for mobility and connectivity, open space, and development at the Site.
- The Midtown Community Development Plan identifies community benefit expectations that can be delivered as development occurs. It is a policy-driven document to address housing choice and affordability, access to jobs and training, community arts, and cultural heritage recognition.

These plans provide a framework that private developers, nonprofits, and the City can use to deliver development at the Site.

A series of Listening Sessions held in June 2021, followed by a Visioning Workshop held in September 2021, helped to define the key issues and design priorities included in the Midtown Master Plan and presented in Chapter 2 (Background and Setting).

How the Plan Guides Development

This Plan is a visionary and regulatory document.

Within the Site, the Plan sets development standards to implement the vision for growth. The built character is guided by standards that articulate design expectations for the public realm, the sidewalk and frontage conditions, and the massing composition of new buildings. These standards establish design regulations specific to building form and land use that supplement standards in the base zoning and the Midtown LINC Zoning Area. Additional standards for civic and open spaces standards and thoroughfare design implement the vision for better access and mobility.

Within the greater Midtown LINC Zoning Area, the Plan establishes policies and priorities for future development.

Midtown Community Development Plan Timeline

Midtown Master Plan Timeline

1.3 Mission + Development Vision

The University of Arts and Design occupied the Midtown Site until 2018. Earlier, it was home to the College of Santa Fe.

The Midtown Master Plan provides a development framework to enable the implementation of the community's vision, priorities and aspirations for the Midtown Site.

Mission

This Plan documents the community and stakeholder-driven long-term vision for the Midtown Site (the Site) in central Santa Fe. Once home to the Santa Fe University of Art and Design (SFUAD), investment has not occurred at the Site since the SFUAD closure. The future development of the Site creates an opportunity to leverage much-needed economic investment and respond to the need for more housing options, greater access to employment opportunities, and the desire for a new civic and cultural center for Santa Feans in the heart of the city.

Development Vision

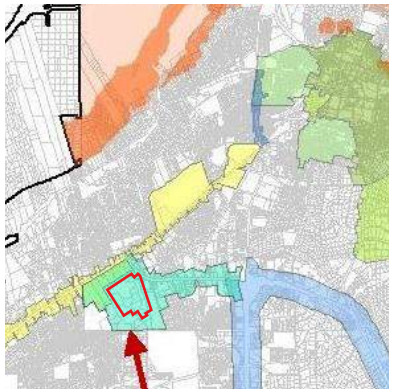
This Plan focuses on how the City of Santa Fe can direct and support planned development at the Site. It describes strategies to create a sustainable, walkable community over time and provide employment and housing opportunities, improved mobility options, and access to recreation, public spaces, and cultural venues.

The Plan articulates a clear vision for the Site as a pedestrian-friendly, mixed-use neighborhood. The Site can accommodate an expanded footprint for film production facilities, over 1,000 housing units, including opportunities for affordable housing, cultural and employment uses, and over 5 acres of public parks and open spaces.

Historic map of Santa Fe in 1952. The Midtown Site was once on the periphery of Santa Fe. As urban expansion occurred, the built environment around the Site transitioned from a rural context (in the map) to the suburban context that exists today.

Location + Overview

The Midtown Site is located in the center of Santa Fe. It sits at the intersection of Cerrillos Rd. and St. Michael's Dr., and it is adjacent to College Plaza Shopping Center.



The Plan guides the revitalization of the former campus (Santa Fe University of Art and Design, SFUAD) to create a new center for Santa Feans that celebrates the City's rich history and culture. The Site's central location can provide a new center for Santa Fe, where civic services and amenities are accessible to all. Improved accessibility for surrounding neighborhoods such as Hopewell-Mann and Agua Fria can make reaching new amenities, employment opportunities, and cultural facilities at the Site easier.

Legend

The Midtown Site

Existing Access Points

1.4 Relation to Existing Plans, Policies + Regulations

The Site is covered by the Midtown LINC Zoning Area, and abuts the Cerrillos Rd. Highway Corridor overlay district.

The Midtown Master Plan establishes regulatory Design Standards in Chapter 5 (Development Standards), which are complementary and supplementary to regulations in the Santa Fe Land Development Code and the Midtown LINC Zoning Area.

Relation to Existing Plans

Development Standards in this Plan have been coordinated with existing planning and regulatory documents, including the General Plan, Land Development Code, and the Midtown LINC Overlay. Amendments to some documents following this Plan may be necessary to ensure alignment with the vision for the Site.

General Plan

The General Plan serves as the blueprint for the city's future growth and development, including actions and implementing policies. The General Plan addresses ten areas known as "themes:" Affordable Housing, Quality of Life, Transportation Alternatives, Economic Diversity, Sustainable Growth, Character, Urban Form, Community-oriented Downtown, Community-oriented Development, and Mixed-use. In addition, the General Plan outlines the following Guiding Policies for future development:

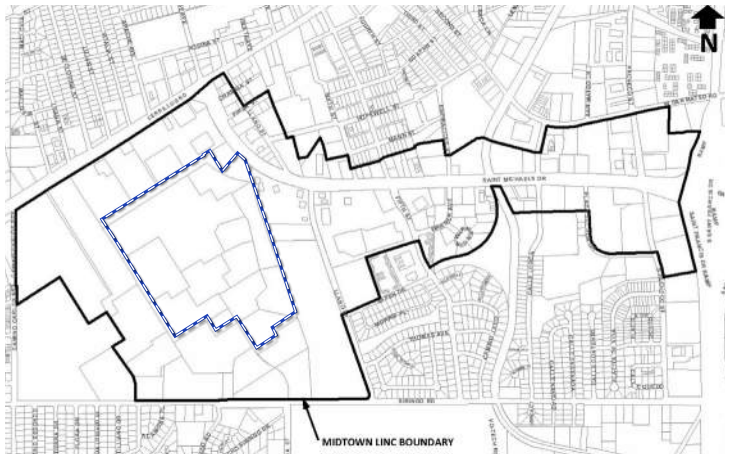
- There shall be consistency between the General Plan and the city's land use development laws.
- There shall be a mix of uses and housing types in all parts of the city.
- There shall be infill development at densities that support the construction of affordable housing, and a designated mix of land uses that provide an adequate balance of service retail and employment opportunities to address residential growth throughout the Urban Area.

Currently the Site is designated as Public/Institutional land use in the General Plan. Upon adoption of this Plan, the Site will be designated as Transitional Mixed-Use.

Land Development Code Zoning

The Site is currently zoned as single-family residential (R5). R5 allows only for low density residential developments. To allow for a broader set of uses, this Plan proposes that zoning be changed to C-2 (General Commercial District) upon plan adoption.

Areas adjacent to the Site are currently zoned C-2. On their own, standards are designed to guide future additions or changes to existing strip commercial developments in the area. Together with new development standards included in the Plan, this update will ensure that the buildings, streets and public spaces that get built at the Site are consistent with the community's vision.



An illustrative vision of St. Michael's Dr. shows the type of walkable, higher-intensity development envisioned by the Midtown LINC Zoning Area.

Midtown LINC Zoning Area

The Midtown Local Innovation Corridor Overlay District (Midtown LINC Zoning Area) aims to create a vibrant, mixed-use neighborhood within the demographic and geographic center of the city.

Adopted in 2016, it incentivizes multi-family residential development, complementary nonresidential uses, and an enlivened, street-oriented pedestrian environment by freeing development capacity of existing under-developed land and buildings, while allowing existing uses to continue as redevelopment occurs.

The Plan provides guidance for how nearby properties in the Midtown LINC Zoning Area can evolve to be complementary with new development on the Site.

The Midtown Site is located within the Midtown LINC Zoning Area which extends along St. Michael's Dr. to St. Francis Dr.

Legend

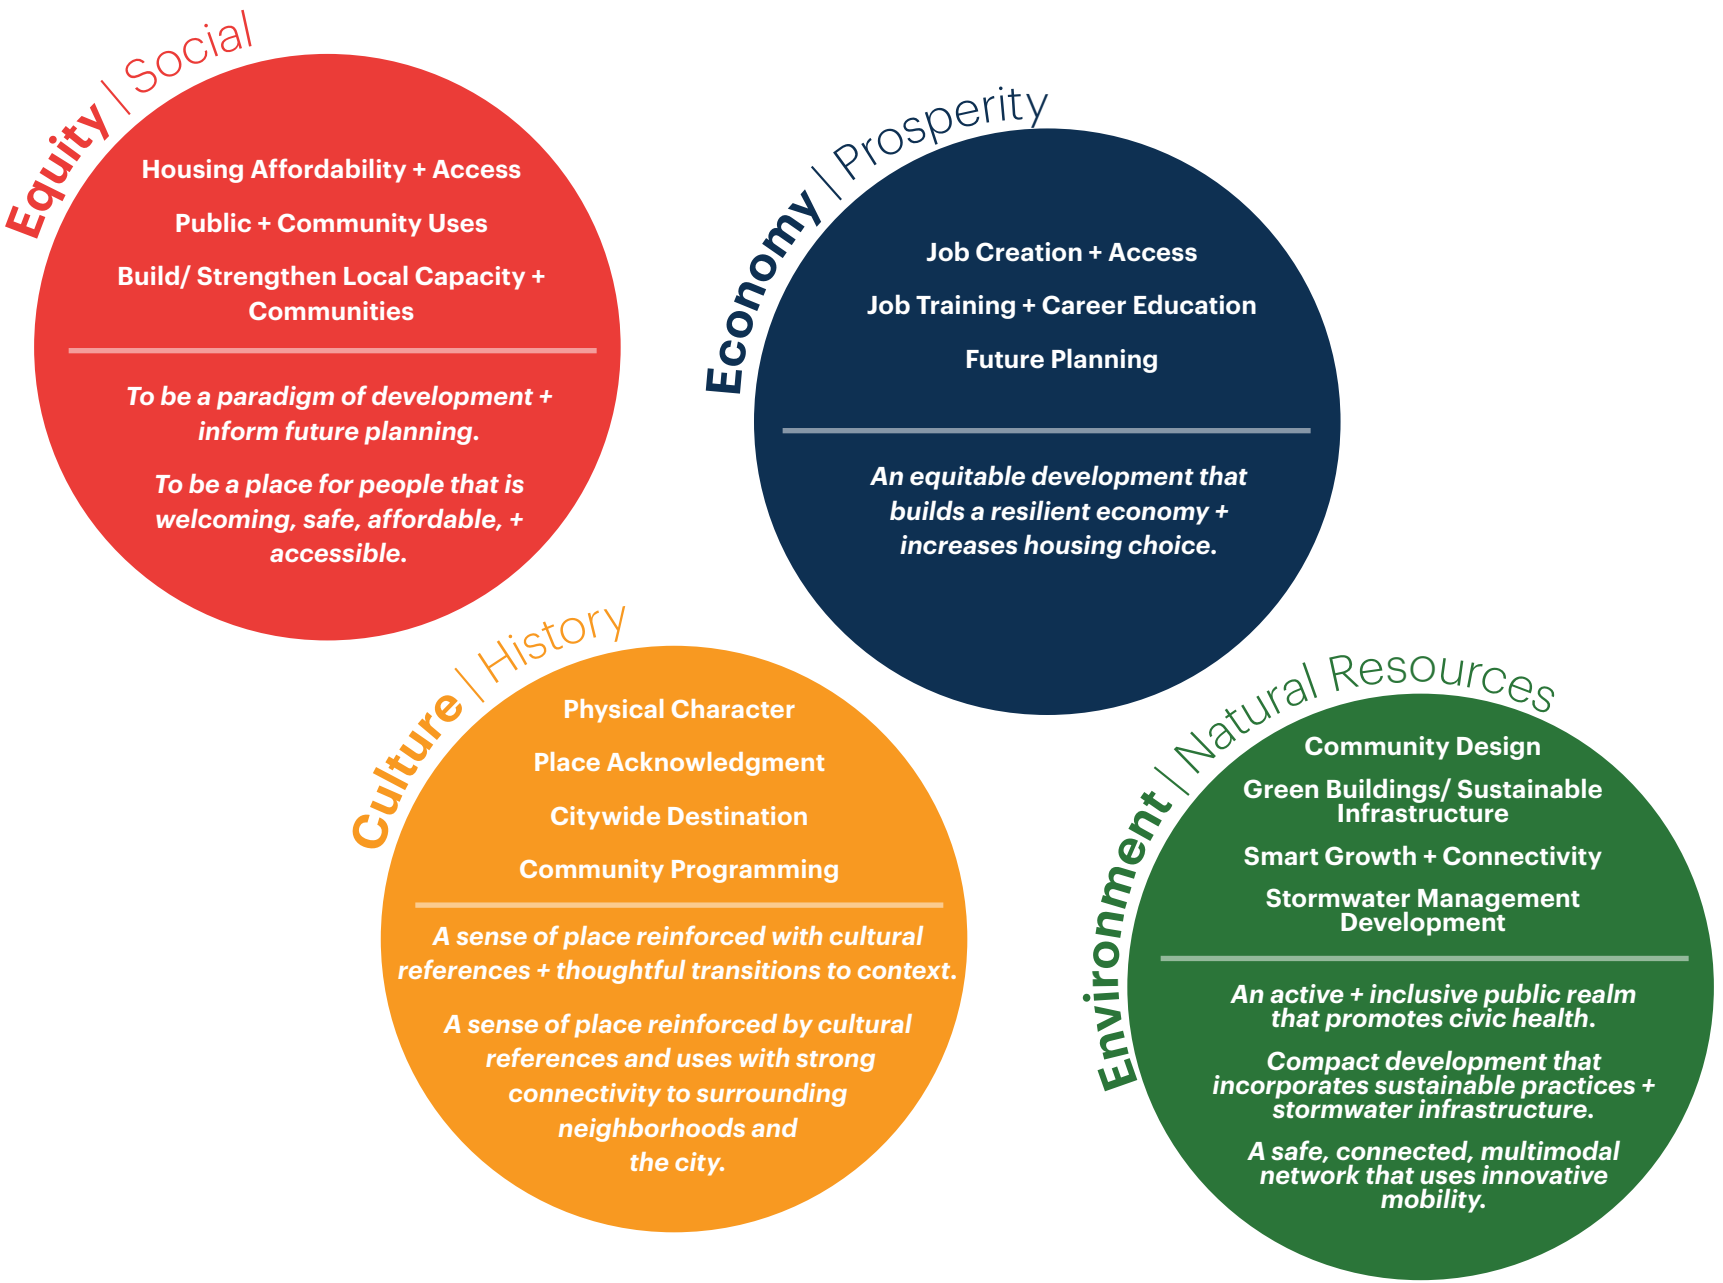
The Midtown Site

Midtown LINC Zoning Area

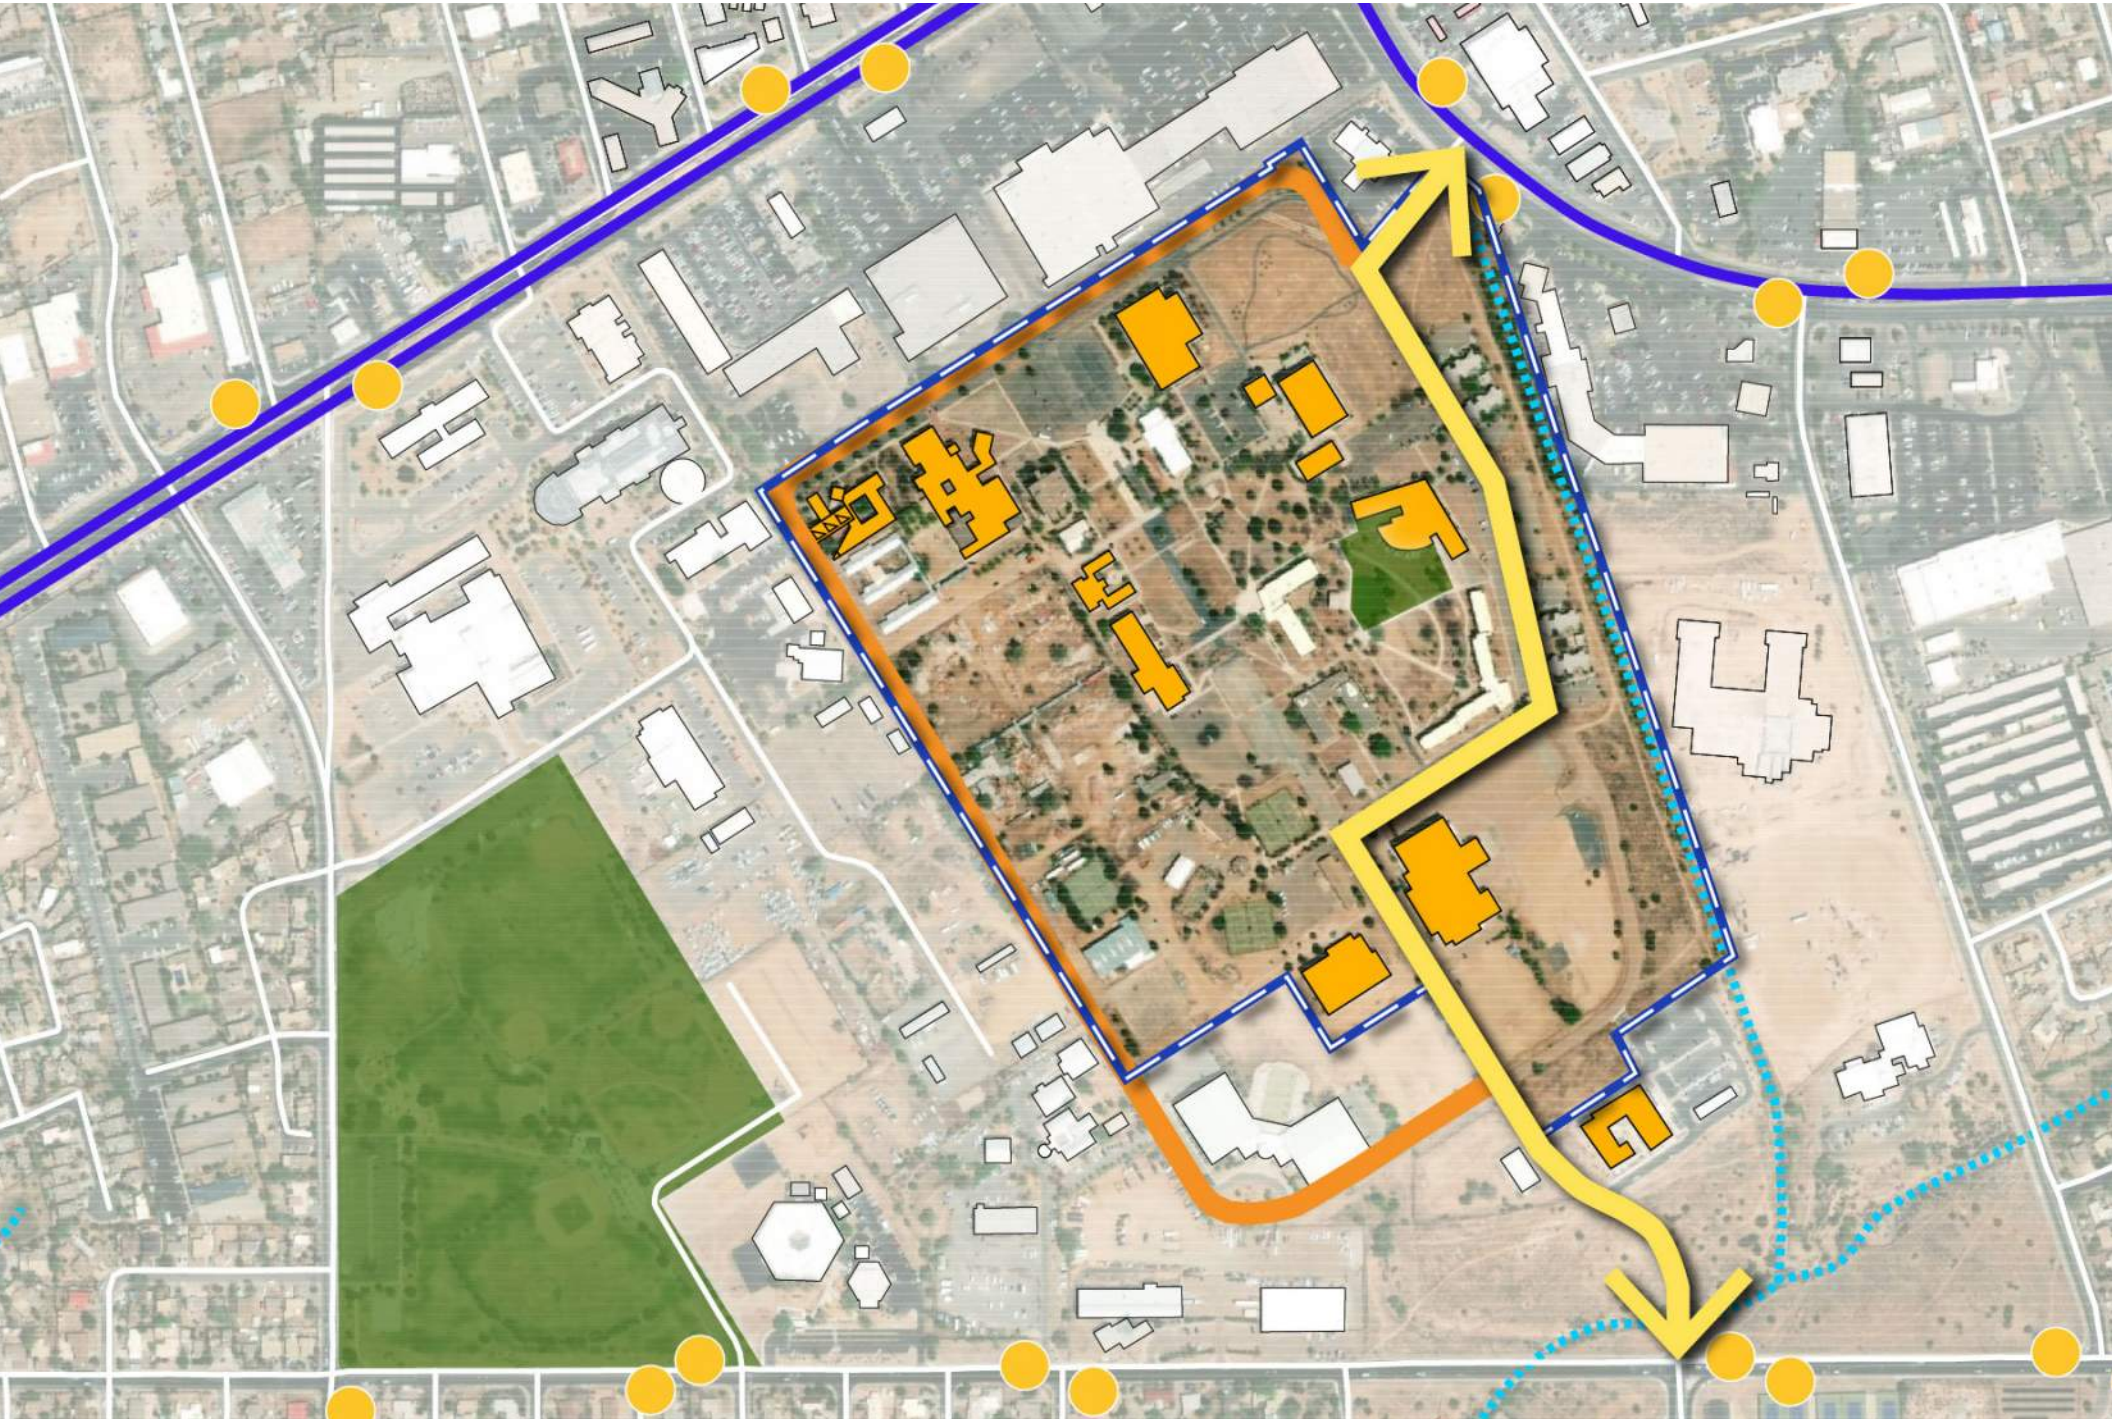
1.5 Elements of Sustainable Development

Four elements of sustainable development were chosen through the community engagement process to guide visioning and planning for the Midtown Site.

Four Elements of Sustainable Development



More than 2,800 people shared their ideas for the Site as part of the initial outreach process, which concluded in 2018. Based on the input received, four elements were identified to guide sustainable development:



- Equity;
- Environment;
- Economy, and
- Culture.

These four elements have informed the vision and standards described in this Plan. Goals and objectives for each of the four sustainable development elements are described on the facing page.

Reinforcing Sustainable Development Approaches

In order to reinforce a sustainable development approach, the criteria established by the United States Green Building Council's Leadership in Energy and Environmental Design for Neighborhood Design (LEED-ND) certification program were consulted to inform the development standards included in this Plan. LEED-ND encourages sustainable development, and that involves innovative design thinking. Additional details about how LEED-ND certification criteria complement this plan can be found in Chapter 3 (Urban Design Vision).

Equity | Social
Housing Affordability + Access
Public + Community Uses
Build/ Strengthen Local Capacity + Communities
To be a paradigm of development + inform future planning.
To be a place for people that is welcoming, safe, affordable, + accessible.
Economy | Prosperity
Job Creation + Access
Job Training + Career Education
Future Planning
An equitable development that builds a resilient economy + increases housing choice.
Culture | History
Physical Character
Place Acknowledgment
Citywide Destination
Community Programming
A sense of place reinforced with cultural references + thoughtful transitions to context.
A sense of place reinforced by cultural references and uses with strong connectivity to surrounding neighborhoods and the city.
Environment | Natural Resources
Community Design
Green Buildings/ Sustainable Infrastructure
Smart Growth + Connectivity
Stormwater Management Development
An active + inclusive public realm that promotes civic health.
Compact development that incorporates sustainable practices + stormwater infrastructure.
A safe, connected, multimodal network that uses innovative mobility.

2. Background + Setting

In this chapter

2.1 Regional Considerations + Site History 26

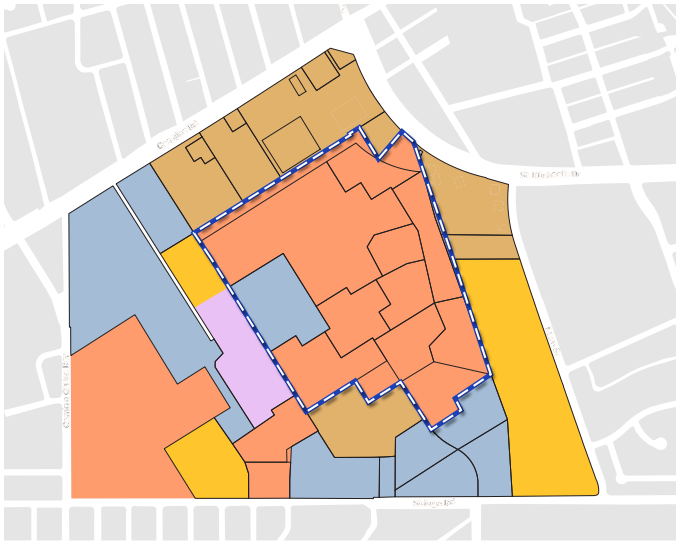
2.2 Site Considerations 30

2.3 Santa Fe Urban Form + Public Realm 34

2.1 Regional Considerations + Site History

Legend

- Albuquerque
- Santa Fe
- New Mexico Rail Runner
- Rail Runner Station
- Regional Airports



Geographic Setting

Santa Fe lies in the northern Rio Grande valley at 6,996 feet above sea level, at the foot of the Sangre de Cristo Mountains. It has an area of approximately 68 square miles (43,550 acres) within the Urban Area (defined by the 1999 General Plan). Santa Fe is a well-connected city to the region by Interstate 25 and the New Mexico Rail Runner Express to Albuquerque. Albuquerque and Los Alamos are nearby cities between which some people commute to or from Santa Fe. The Santa Fe Regional Airport is located about 8 miles southwest of the Midtown Site (the Site).

Adjacent Parcels

The Midtown Site contains parcels owned by the City of Santa Fe and the State of New Mexico. For successful development, the two agencies can coordinate to swap land so the Site can develop in a consistent manner.

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the Midtown LINC Zoning Overlay to create a cohesive, mixed-use Midtown. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Ownership

Legend

- The Midtown Site
- Private Land
- State of New Mexico
- Santa Fe Public Schools
- City of Santa Fe
- Federally-owned

The Midtown Site and the adjacency area contains parcels owned by the City of Santa Fe and the State of New Mexico. For successful development, the two agencies can coordinate and adopt tools to make development and infrastructure easier.

Site History

Land holds the memory of place, and the Midtown Site is no exception. The Site has been contextualized by the broader history and cultural heritage of Santa Fe, and it has historically served public purposes, including education, health, recovery, arts, and culture.

The colonial and present capital of New Mexico, Santa Fe, was originally settled by ancestral Pueblo Indians, Tewa-speaking Tanos. Hispanic colonists arrived in New Mexico in 1598 and by 1610 had begun the construction of a new capital city in the Spanish fashion, with the plaza at its center.

With the establishment of the Mexican Republic in 1821, the Santa Fe Trail was opened to traders and trappers from the eastern United States, bringing goods to market in Santa Fe.

In February 1880, the Atchison, Topeka, and Santa Fe Railroad reached Santa Fe, signaling the end of the Santa Fe Trail as a freighting route to the Southwest. In the late 1800s and early 1900s, Santa Fe became a mecca for Americans disenchanted with the industrialized east. Many writers, artists, and patrons of the arts flocked to Santa Fe, making it the cultural center of New Mexico.

Statehood was finally granted to New Mexico in 1912, and elected officials replaced the appointed territorial governor and other office holders.

The Midtown Site served as an institutional anchor for Santa Fe, starting in 1943 with the Bruns Army Hospital which employed more than 1,000 Santa Feans along with 500 military men and 100 military nurses. After Bruns Army Hospital was decommissioned, half of the property was turned over to the Brothers of the Christian Schools, which established St. Michael's College, later renamed to the College of Santa Fe. Other portions of the original Army campus were turned over to local, state, and federal agencies. When the Christian Brothers College ceased operation in 2009, the City, with a commitment to preserve the civic and educational uses, purchased Midtown and leased it to a private, for-profit university, the Santa Fe University of Art and Design (SFUAD) in 2010. Due to significant financial challenges, SFUAD officially closed its doors in May of 2018.

The Site's civic use purpose continues with the City's commitment to creating a new center in what has now become the geographic center of Santa Fe.

Adapted from "Santa Fe" by William H. Wroth
New Mexico State Records Center & Archives,
https://newmexicohistory.org/2014/03/07/santa-fe-d81/

The Christian Brothers operated the College of Santa Fe on the Midtown Site until 2009.

The Midtown Site in the City of Santa Fe

The Midtown Site lies within a network of mixed-use centers in Santa Fe. These include transit-oriented sites anchored by the New Mexico Rail Runner and other cultural, civic, and employment centers. Development at the Site will support economic activity elsewhere in the city. It can also catalyze development at other centers as they expand and connections between them improve.

As such, connections between centers are crucial, improved transit and connectivity can realize the potential of these mutually beneficial relationships.

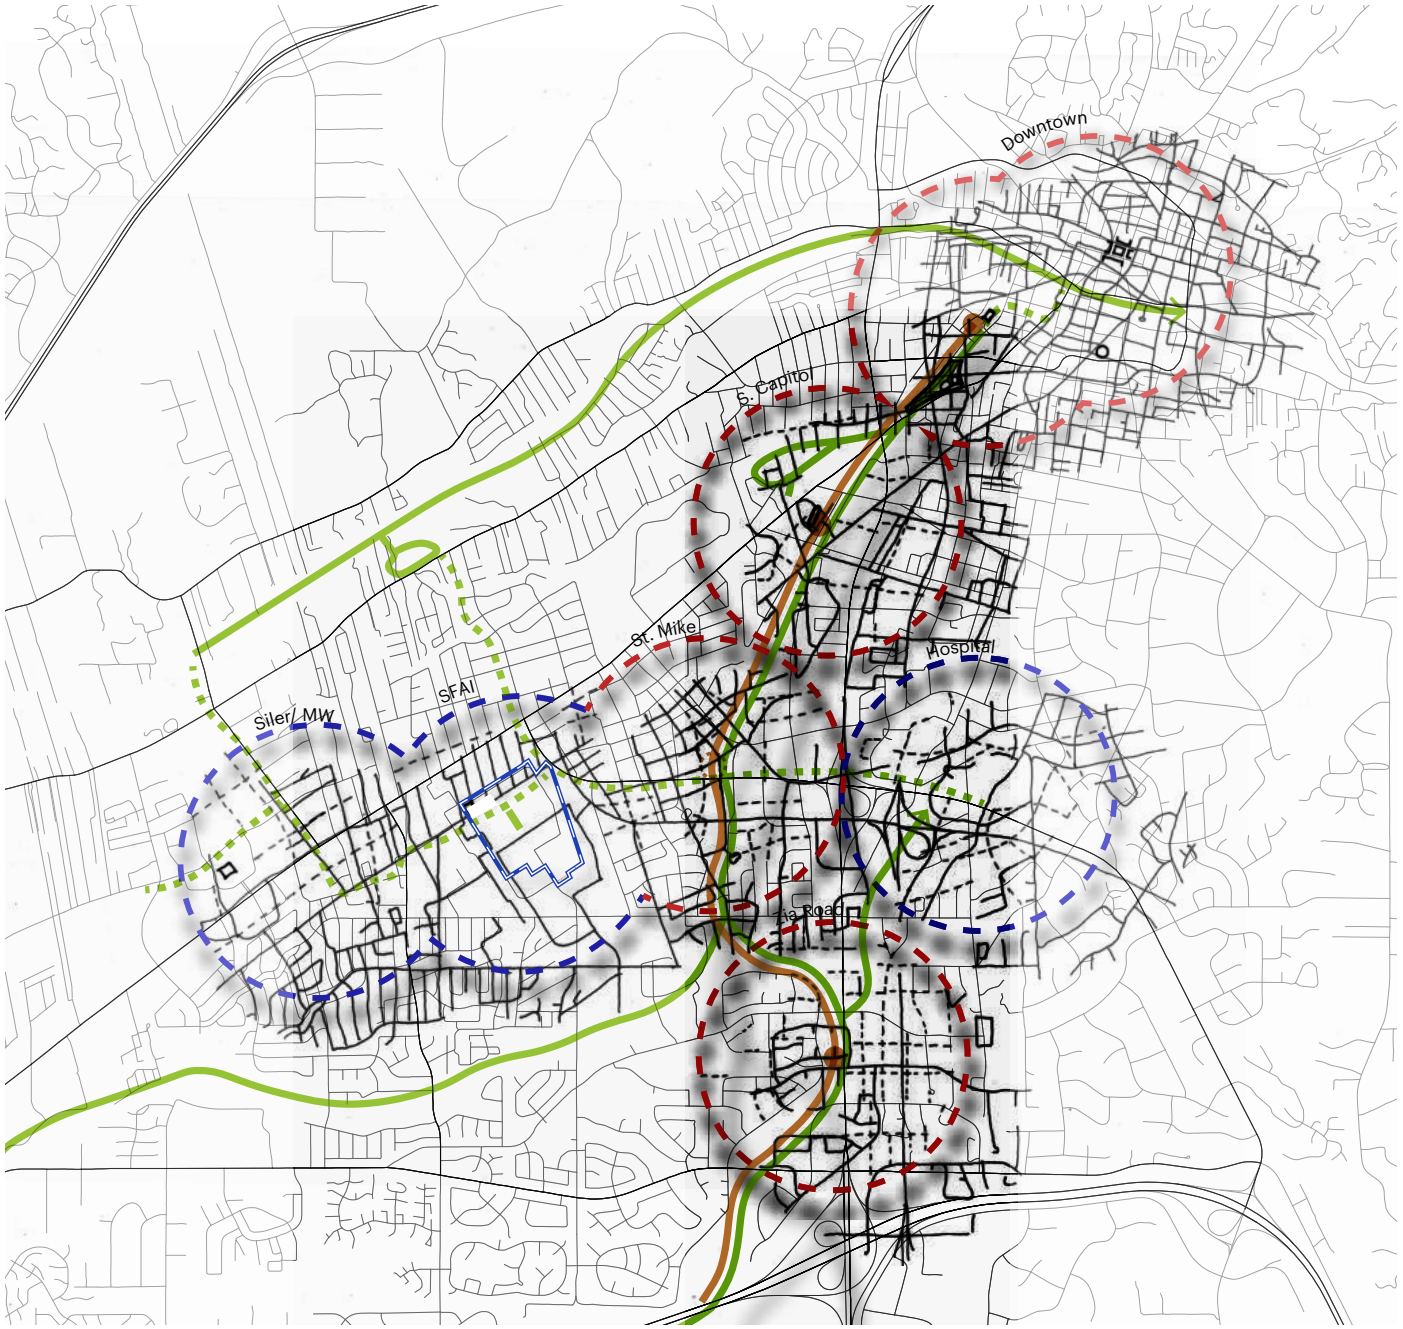
Zia Road Rail Runner Station. Image courtesy: santafenewmexican.com

Santa Fe Railyards Site.

Transit Oriented + Cultural Centers

Historic Downtown
Historic Downtown is Santa Fe's central landmark with special significance for arts and culture in the city. It contains cultural anchors, such as the Historic Plaza and the Palace of the Governors.

South Capitol Station
This transit hub is a stop for the New Mexico Rail Runner and is a transfer point for bus lines, providing access for commuters.



St. Michael's Dr. (St, Mike's)
St. Mike's is located at the center of Santa Fe and near the Midtown Site. It contains three significant corridors: St. Michael's Dr., 2nd St, and St. Francis Dr. Recently, this area has begun to experience redevelopment activity and has attracted new businesses and services.

Zia Road Station
The Zia Road Rail Runner station was opened in the spring of 2017, bringing South Santa Fe a major transportation opportunity. Since then, plans have been underway to construct new housing in currently vacant sites and introduce a mix of uses to the area.

Employment + Civic Centers

Hospital
The Christus St. Vincent Regional Medical Center at St. Michael's Dr. is a significant destination for healthcare and employment in Santa Fe and Northern New Mexico.

Siler District
The Siler District is a growing employment center in Santa Fe. Rufina St. — which runs through the district — is an important corridor connecting to other employment and residential areas in southwest Santa Fe. The Siler District has experienced infill activity in vacant land, bringing housing and jobs.

Relationship with other Activity Centers

2.2 Site Considerations

Existing Conditions

The Midtown Site's desirable location, existing buildings, and existing infrastructure provide an opportunity for adaptive reuse. An appraisal of the Site[1] showed that some existing facilities can be repurposed. A similar study on current infrastructure conditions highlights opportunities and the extent to which existing facilities can get upgraded[2]. The upgrade and reuse of existing facilities can control costs and reduce overall carbon emissions, especially when associated with construction, and by prolonging existing facilities' life.

During the Site analysis and community engagement process, spatial issues were identified. These are described in this Section along with how to approach them as opportunities for improvement. All these issues will need to be addressed as part of redeveloping the Site.

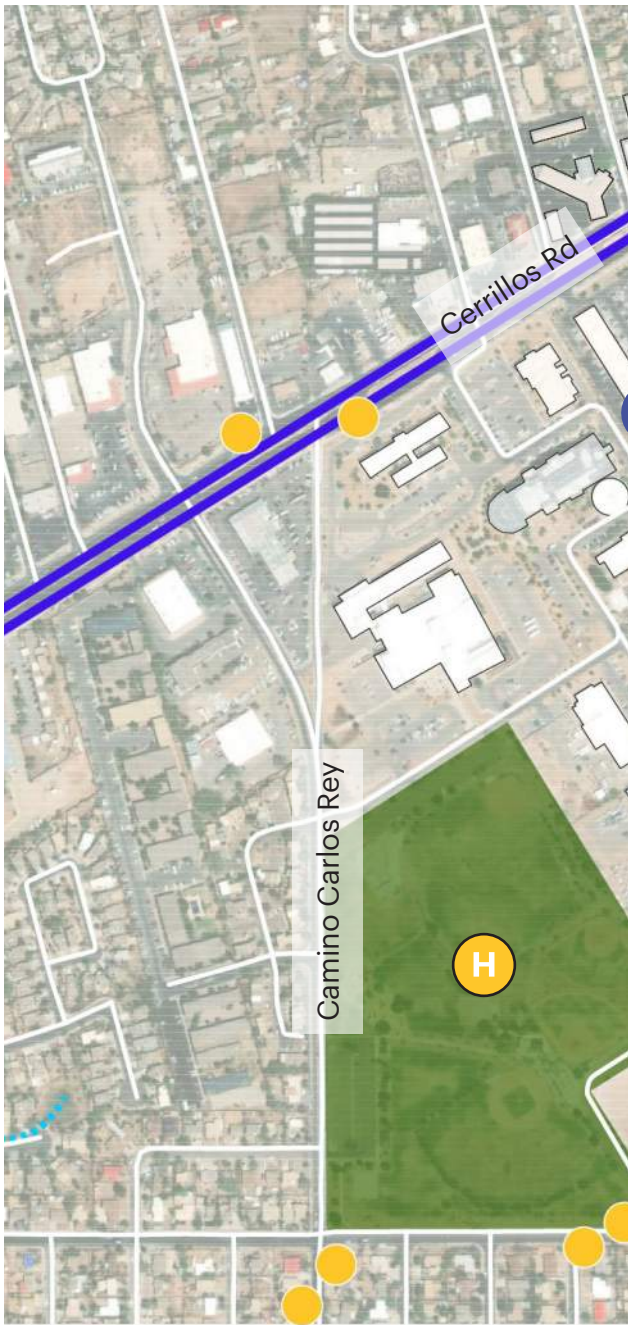
2. Wilson Report/2021

Issues

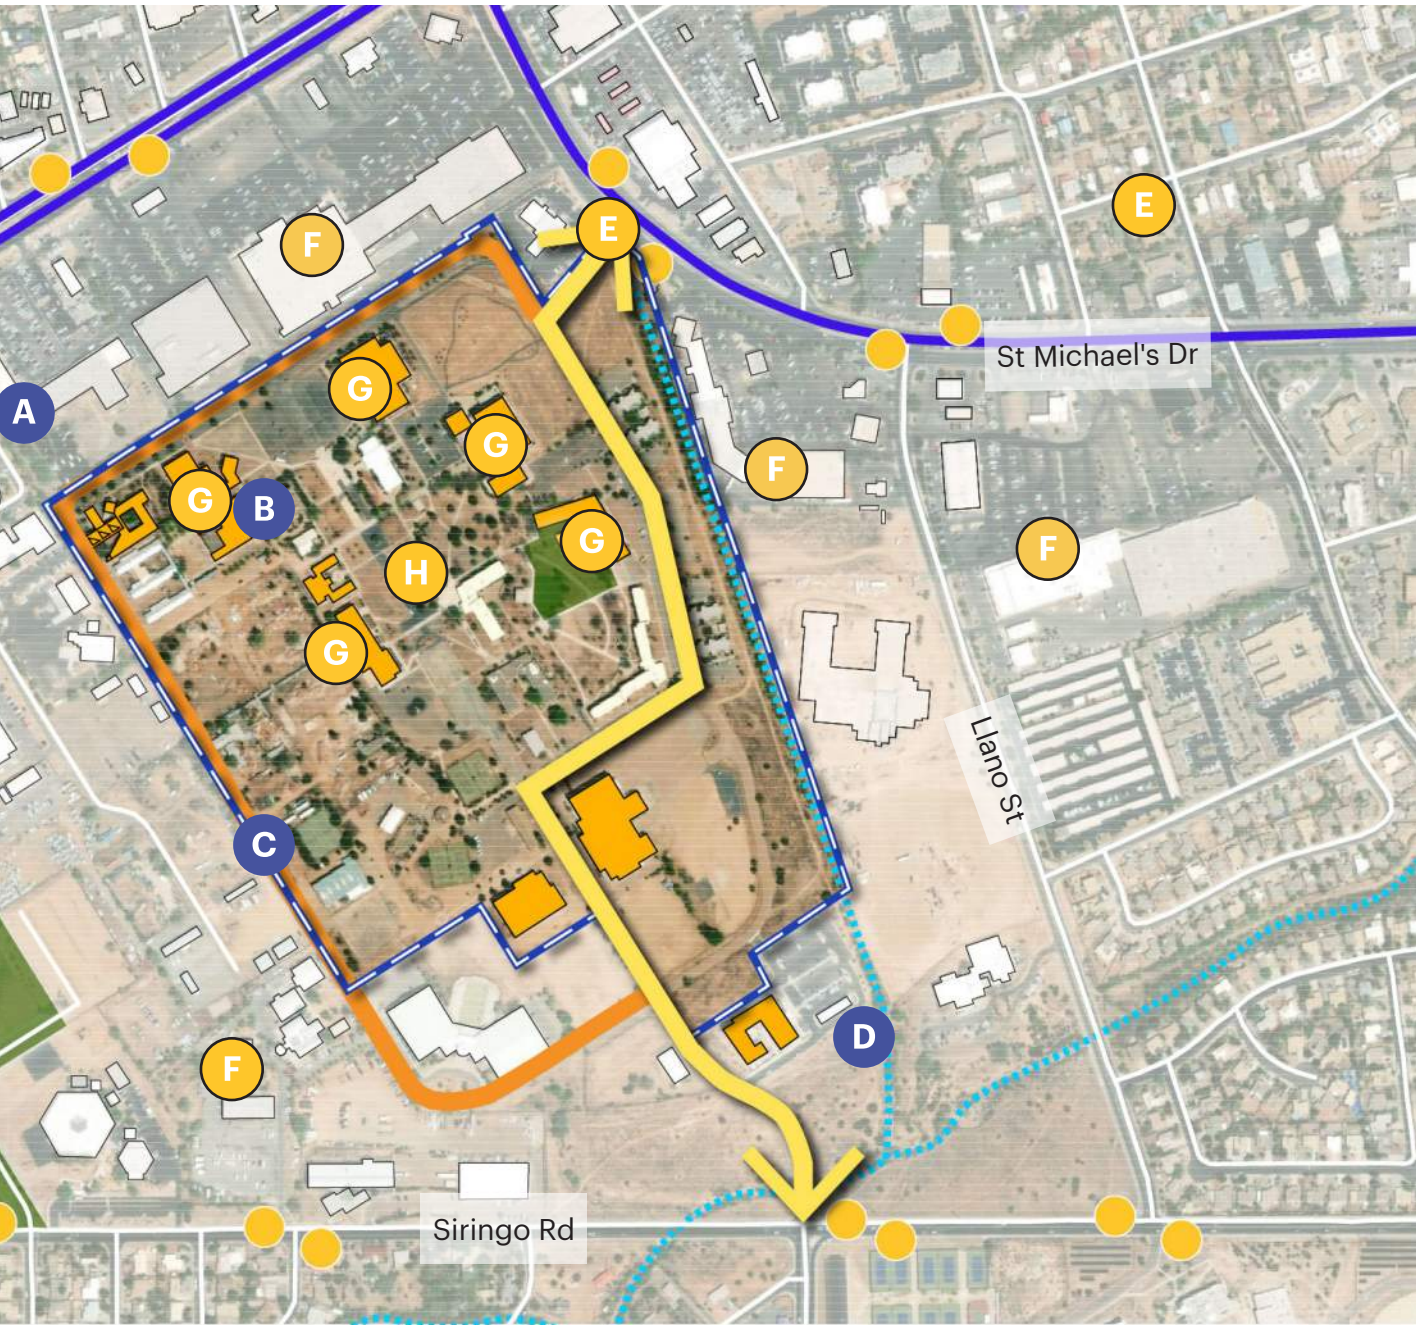
A **Poor External Connectivity**

B **Inconsistent Public Realm**



C **Some Infrastructure is Outdated**

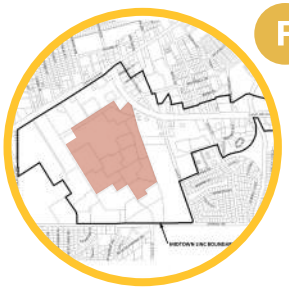
D **Poor Stormwater Infrastructure**



Existing Conditions

Legend

- The Midtown Site
- Major Streets
- Alumni Dr.
- Existing Bus Stop
- Existing Building
- Existing Arroyo
- Existing Open Space



Opportunities

E

Connect Adjacent Neighborhoods to High School + Future Resources at the Site

F

Synergy with Midtown LINC Zoning Area

G

Some Buildings can be Adaptively Reused

H

New + Expanded Civic Amenities

Consideration

Isolated Site/ Poor Connectivity

Issue

Poor connectivity separates the Midtown Site from nearby neighborhoods and other hubs of culture and employment. Existing external connections are provided via single outlets to St. Michael's Dr. and Siringo Rd. via Alumni Dr.

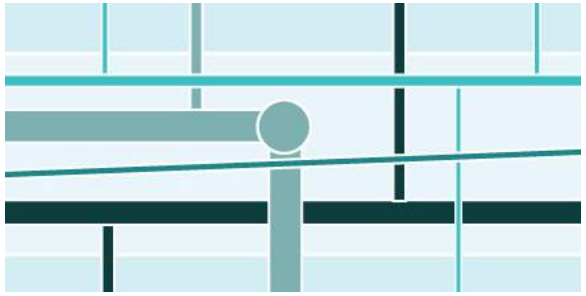
Opportunity

The Midtown Site, owned by the City of Santa Fe, is located in the heart of Santa Fe. Increasing connectivity to surrounding areas through improved crosswalks, and pedestrian paths can increase access and visibility. Additionally, improved crosswalks and pedestrian paths could provide access to the Hopewell-Mann residents and people using Franklin E. Miles Park.

Consideration

Inconsistent Public Realm

Issue



The quality of the Midtown Site public realm is inconsistent and does not provide a comfortable experience. Welcoming building frontages, wide sidewalks, street greenery, and lighting are lacking. The existing buildings and public realm do not relate in a coordinated manner, resulting in a disjointed experience across the Site.

Opportunity

The Midtown Site has the essential foundation for a well-connected street grid that can organize new buildings and create a pleasant public realm. New streets can incorporate high-quality public realm design, including trees, green infrastructure, and shade strategies to support walking, outdoor recreation and dining.

Consideration

Outdated Infrastructure

Issue

The lack of investment in existing utilities at the Midtown Site means that current systems are inadequate for future needs. Existing systems do not provide service across the entire Site and may not provide adequate capacity to serve the types of uses envisioned by the community for the Site. Additionally, existing infrastructure may not be suited to support current best practices for sustainable development.

Opportunity

Upgrades to existing and additional utilities provide the opportunity to build a modern, sustainable system of infrastructure that can support the electrification of climate control and vehicles, serve data-intense film studio activities and manage water efficiently and sustainably.

Consideration

Poor Stormwater Management

Issue

The Midtown Site lacks adequate stormwater management infrastructure to support the development envisioned in the Site. Existing facilities are inadequate for additional service development and do not take advantage of low-impact, green design strategies.

Opportunity

The availability of open land and existing topography can benefit the design and development of a sustainable stormwater management system. Integrating stormwater facilities with new streets, public spaces, and infrastructure can manage existing and anticipated stormwater runoff while contributing to a high-quality public realm for the Midtown Site.

Consideration

No Multi-modal Options

Issue

Internal pedestrian and bike connectivity at the Midtown Site are inconsistent, and there is limited access to nearby bus and rail connections. Existing pedestrian facilities are not readily accessible to and usable by people of varying abilities and people who require mobility assistance.

Opportunity

The Midtown Site can become a model for development that accommodates diverse users with different transportation needs, preferences, and abilities and prioritizes modes of transportation other than the private automobile. Promoting alternate transportation can reduce environmental pollution, encourage physical activity, and contribute to a healthier community.

Consideration

"One-size Fits All" Zoning

Issue

Existing residential zoning is inadequate to deliver a vibrant mixed-use district despite the presence of the Midtown LINC Zoning Area. Allowed uses, required public realm, and building form standards are inconsistent with the community's vision for the Site.

Opportunity

The redevelopment of the Midtown Site is an opportunity to introduce design standards that provide a model for the practice of zoning in Santa Fe and promote sustainable development. New development standards that are more prescriptive than what exists in the Midtown LINC Zoning Area can provide a roadmap for the incremental growth of the Site and adjacent areas over time.

2.3 Santa Fe Urban Form + Public Realm

Santa Fe Historic Plaza

Historic Downtown's and Historic Plaza urban configuration.

Santa Fe's unique sense of place is defined by its buildings and public spaces. Learning from the urban form elements that make up Santa Fe can help inform the Midtown Site's design and reinforce the Santa Fe sense of place.

Historic Urban Form + Landscapes

Santa Fe's memorable historic center is a result of unique urban elements. The block hierarchy, the mix of building scales, and the architectural "Pueblo Style" contribute to its distinctive sense of place and identity. The Historic Plaza is an excellent example of the New Mexico plaza traditions because of its orientation (north-south), the ratio of length-to-width (1.15), degree of "enclosure" by adjacent buildings (2 to 3-story buildings), and size (325' x 275').

Existing Urban Form, Pueblo + Abobe

Santa Fe's urban form is unique in scale, frontage articulation, construction technique, and materials. Overall, the importance of frontage dominates the urban character, particularly how building frontages address the sidewalk and the public realm. Elaborate architectural elements found in Santa Fe are references to the sophisticated Pueblo vernacular style and the adobe-like construction. Nowadays, although the adobe style dominates the city, Santa Fe has a diversity of architectural styles, including examples of Victorian, Italianate, and California Mission Revival styles.

Public Realm

Santa Fe's narrow streets, small alley-ways, and Historic Plaza have contributed to its strong public realm related to religious, civic, and commercial participation.

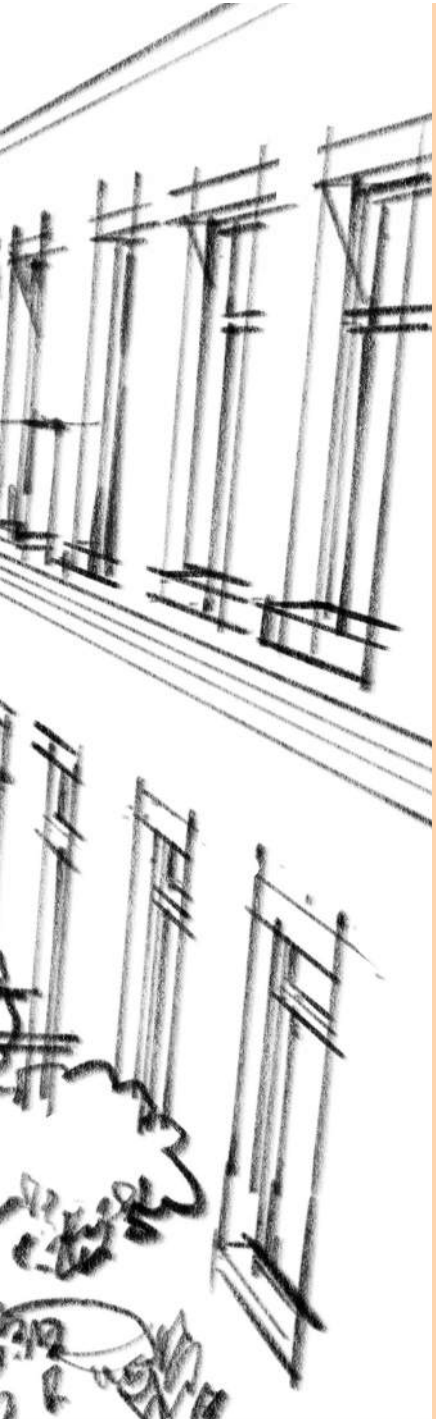
Frequent and offset T-intersections create a sense of enclosure and make the streets feel like outdoor rooms. Looking down a street towards a T-intersection – or "terminated vista" – provides an opportunity for signature buildings to take pride of place at the end of the street. Architectural elements, such as covered passageways and arcades (portales) provide shelter from rain or sunlight. These elements reinforce Santa Fe's unique sense of place driven by the local climate and culture. As a result, the public realm is categorized into formal open spaces, like the Historic Plaza, and informal open spaces, like the Alameda. Both complete the public realm of the Historic Downtown.

Historic Plaza
The Historic Plaza is a place full of history and memories and is a central part of Santa Fe's civic life. Its symbolic and functional presence serves everyday public activities and annual art and music events.

Cultural Anchors
Landmarks can be found all around Santa Fe. The Cathedral Basilica of Saint Francis of Assisi is placed at high ground anchoring the Downtown. More cultural places, like museums and galleries and the Palace of the Governors, add to its rich and diverse public realm.

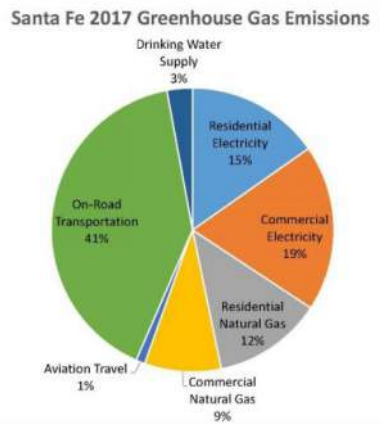
Community Gathering Spaces
Open spaces and parks are essential to Santa Fe residents for community gatherings, fiestas, civic events, and religious processions. Big open spaces like Franklin E. Miles Park have been restored after community involvement and attract many youth and adult users.

Distinct Urban Form
Santa Fe is known for the "Santa Fe Style" - a homogeneous Spanish/Pueblo architectural style. It contains pueblo-style adobe exteriors, thick hand-plastered walls, carved wooden doors, exposed natural wood vigas, and earthy hues.



Climate-responsive Architecture
Santa Fe's architecture has adapted over time to include elements that contribute to temperature control through shading, cooling, and ventilating. The courtyard and the continuous arcade frontages help mitigate heat effects, protect from bad weather conditions, and provide shelter.

Water as a Form-Giver
Water has always been a precious resource for New Mexicans. Settlements had to be constructed near water sources, which affected the location of historical patterns of development.



3. Urban Design Vision

In this chapter

3.1 The Midtown Site Development Vision	38
3.2 Connectivity + Mobility	40
3.3 Integrated Stormwater Management	44
3.4 Civic + Open Spaces	48
3.5 Urban Form + Building Scale	54
3.6 Place-based Approach	58
3.7 Development Program + Phasing	60
3.8 Affordable Housing	64
3.9 Reinforcing Community Health Through Urban Design	66

3.1 The Midtown Site Development Vision

In 2020, the U.S. Green Building Council (USGBC) awarded the City of Santa Fe with LEED Gold Certification for its exceptional performance in fostering a sustainable, resilient city.

Development at the Midtown Site will provide a model for equitable development and sustainable urbanism and will become a new center of culture and community for Santa Feans.

A Sustainable Development Model

Sustainable development at the Midtown Site (the Site) encompasses environmental protection, social equity, and economic prosperity. The Midtown Master Plan (Plan) promotes sustainable development in an integrated manner by coordinating the design of streets, open spaces, stormwater management, and new and reused buildings to deliver a sustainable, complete neighborhood. By integrating design and policy considerations, development at the Site can model a holistic approach to sustainability, delivering on the Santa Fe community's economic, social, and environmental goals.

The Plan provides design standards at the scale of a building and at the scale of a neighborhood to achieve a comprehensive and holistic design vision for the Site. At the scale of the building, sustainability strategies can be implemented through the design and retrofit of new and existing streets, construction of new buildings and public spaces, and the reuse of existing facilities. At the scale of the neighborhood, sustainability strategies related to the layout of new streets and the location and massing (size and footprint) of buildings can provide a holistic approach for future sustainable development at the Site.

Additionally, the Plan provides opportunities to realize community priorities regarding housing affordability and economic opportunity at the Site. By coordinating the layout of blocks and lots with the development standards, the Plan enables new affordable housing and employment-generating uses.

Vision for Sustainable Development with LEED-ND

To promote sustainable design at all levels, the Plan lays the groundwork for achieving certification through the sustainable design certification program of Leadership in Energy and Environmental Design for Neighborhood Design (LEED-ND), administered by the United States Green Building Council. LEED-ND recognizes new developments that achieve sustainability and energy efficiency by building in a compact, walkable, and accessible way.

The LEED-ND system rates neighborhood development according to four categories:

- Smart location + linkage;
- Neighborhood pattern + design;
- Green infrastructure + buildings, and
- Innovation + design process.

The Plan has been guided by LEED-ND principles. The development standards included in the plan have been coordinated with LEED-ND criteria to promote environmentally sustainable design at the Site and satisfy LEED-ND certification requirements.

Add Signage

The Midtown Site as a Walkable, Mixed-use Environment

The Midtown Site is envisioned as a vibrant, walkable, and mixed-use center for Santa Feans. A mix of uses in new and existing buildings will promote sustained economic growth and deliver a high-quality environment for people living, working, learning and visiting at the Site. New housing choices will make the Site into a complete neighborhood, along with a variety of open spaces and other community-oriented uses.

Historical + Cultural Inspiration

Development in the Site will refer to Santa Fe's culture and history and respond to the local climate and culture by retaining existing buildings important to the community and integrating civic spaces for cultural and artistic uses and gatherings. The development vision is also inspired by urban elements distinct to Santa Fe, such as the composition of continuous arcades and the use of the Historic Plaza as a community space.

WALKABLE NEIGHBORHOODS

*For the purpose of this Plan, **walkable** describes places where a person can walk, roll or bike to fulfill daily needs. These environments allow for use of automobiles but do not require one for every trip.*

Walkable does not mean only recreational walking such as on paths and trails, but rather walking to a destination like work, a café, park, community center, and other amenities.

3.2 Connectivity + Mobility

Development will enhance accessibility at the Midtown Site by providing new connections to and within the Site and supporting mobility options for Santa Feans of all abilities.

The Midtown Site Connectivity Goals

- Improve access to outdoor recreational facilities such as parks and green spaces.
- Build or enhance infrastructures such as sidewalks, paths, and trails to support walking, rolling, and bicycling for active transportation and recreation.
- Improve access to public transportation.
- Improve access to community-serving uses at the Site, such as the new Library, by providing safe and convenient routes for walking, rolling, and bicycling from nearby neighborhoods.
- Enhance personal and traffic safety in areas where people are or could be physically active.

East - West Connectivity Goals

- Connect to adjacent neighborhoods, such as Hopewell-Mann neighborhood, and Franklin E. Miles Park.
- Prioritize pedestrians and cyclists over vehicles.
- Provide access to transit along St. Michael's Dr.
- Deliver good internal connectivity.

North - South Connectivity Goals

- Connect to regional trail systems such as the Arroyo de Los Chamisos Trail.
- Provide access to transit on Cerrillos Rd. and Siringo Rd.
- Minimize cut-through traffic.

Equitable, Sustainable, Multimodal Connectivity + Mobility

The Midtown Master Plan acknowledges different user needs by introducing various mobility and connectivity options. Multimodal street design accommodates diverse users with varying transportation needs, preferences, and abilities. The proposed multimodal street design includes a forward- thinking, flexible design that can integrate stormwater and green infrastructure technologies and allows for environmental sustainability.

Complete Streets

The vision for the Midtown Site is one in which users choose to meet their daily needs by walking, rolling, bicycling, taking transit, and ridesharing. The Complete Street concept prioritizes space-efficient modes of transportation — pedestrians, bicycles, and transit — when allocating space on streets and maximizing the capacity to move people and goods. An essential aspect of the Complete Street concept is universal access and the design of features that make streets safe and comfortable for people of all ages and abilities. Policy and design guidance in this Chapter ensures that the entire right-of-way is planned, designed, constructed, operated, and maintained to provide safe access for all users, and that connections between destinations provide for safe and convenient access within Midtown and to destinations around Santa Fe.

Connectivity + Mobility Vision

For more information on the vision for connectivity and mobility at the Midtown Site, see Chapter 4 (Connectivity and Mobility Vision). For more information about standards for street design, see Chapter 5 (Development Standards).

No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner,

Access + Connectivity Vision

Legend

- The Midtown Site

- Existing Bus Stops
- New Paseos/ Pedestrian Paths
- Major Roads + Access Points
- Long-range Streets
- Existing Buildings to be Adaptively Reused
- New Plazas + Parks
- New Open Space/ Linear Park
- Existing Open Space

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Dedicated Bike Lanes *Protected bike lanes make bicycling safe for all ages. Image courtesy: www.metaefficient.com.*

Slender, Low-Speed Streets *Slender, low-speed streets help to create family-friendly public places. The image above shows a slender, low-speed street, Octavia Boulevard, in San Francisco.*

Complete Streets Principles + Vision for Streets at The Midtown Site

Multimodal. Each street serves all users by balancing the needs of automobiles, buses, and trucks with those of pedestrians and cyclists. Multimodal is achieved in different ways and by using different strategies depending upon the use of the street and prioritization.

Context Sensitive. Each street is designed to work within the area's existing or intended physical context.

Physical Appeal. Each street is designed integrally with the public realm — the spaces between buildings such as sidewalks and parks — keeping in mind the needs of different user groups. For additional information on Complete Streets, visit www.smartgrowthamerica.org/complete-streets.

Streets for All Users. The transportation system serves a variety of users, including people traveling on foot, bike, wheelchair, bus, and automobile. Travel to and from the Midtown Site marks the beginning and end of a person's experience, establishing vital first and last impressions of the Site. Moreover, convenient access to the Site through a well-connected and effective multimodal transportation network is an essential component of the overall experience for existing neighborhood residents and future residents, employees, and visitors.

Streets as Public Spaces. Beyond their role as conduits for the movement of people and goods, streets host social interactions, provide space for community gatherings, and influence public life. Designing streets as public spaces where people want to spend time maximize their contributions to the public realm.

Streets in Support of the Economic Development. Businesses benefit from streets that efficiently move and transfer goods while attracting and serving customers.

Streets to be Adaptable. A multitude of design options is possible within a given street width. Street designs can change as the needs of their users evolve. Interim design treatments using paint and movable planters can demonstrate the effectiveness of design concepts while gradually adjusting user travel behaviors.

Streets Designed for Safety. Conflicts between people walking, driving, and bicycling are inherent on multimodal streets. Good street design considers sources of multimodal conflicts to minimize the potential for collisions.

Streets are Ecosystems. Streets are designed as ecosystems where man-made systems interface with natural systems.

Add Signage and Temporary Art Language adapted from the Railyard Master Plan
Building Signage

COMPLETE STREETS

Example of a Complete Street
Showing features that create a context-sensitive, pedestrian-oriented public realm.

A Pedestrian Prioritization at Intersections
Design intersections to reduce wait times for pedestrians needing to cross the street.

B Intelligent Traffic Signals
Use intelligent traffic signals to control traffic flow, transit, and pedestrian crossing safely and efficiently.

C Comfortable Bicycle Facilities
Design bicycle facilities to create space for bicycles and protect them from moving cars.

D Minimum Vehicular Travel Lanes
Reduce the number and width of travel lanes to provide traffic calming and enable wider sidewalks.

E Enhanced Crosswalks
Design crosswalks to make the pedestrian experience safer and easier.

F Wide Sidewalks
Design sidewalks for a comfortable pedestrian experience for all ages and sidewalk dining with the widest sidewalks on shopping streets.

G Street Trees
Select species that thrive in urban environments provide shade and beauty and reduce air pollution.

H Green Infrastructure
Design Infrastructure that adds visual interest while directing stormwater directly to the soil to allow groundwater recharge.

I Ease of Maintenance
Reduce the cost of maintenance for streets through a selection of durable materials.

J Universal Design + Visitability
Include universal design features where possible to enable people of all abilities to use streets and sidewalks safely and comfortably.

3.3 Integrated Stormwater Management

The Plan advances applications of conventional stormwater management practices and implements improved code compliance strategies to provide water quality benefits, flood resilience, and peak flow improvements.

Vision for The Midtown Site

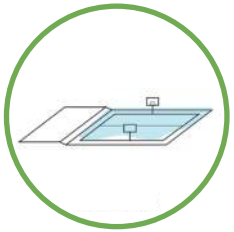
The Midtown Site integrates low-impact development (LID) and green infrastructure (GI) in its open spaces and public plazas, parks, paseos, and streets, to treat and address stormwater runoff at its source. The proposed strategies restore natural hydrologic processes to improve water quality and groundwater recharge, cultivate a robust urban ecology, protect the Site and adjacent communities from flooding impacts, and reduce erosion in Arroyo de Los Pinos. Integrated GI strategies support complete streets and improved pedestrian safety and promote recreational and educational opportunities for sustained social engagement and environmental stewardship.

The open space and stormwater management vision for the Site has been developed through a collaborative process, with input from community members, City of Santa Fe agencies and departments, and design and engineering teams.

Stormwater Strategies

The vision is to use a suite of best management practices (BMPs) which have the ability to work in concert with each other to meet the Site's water quality, retention, and flood protection goals:

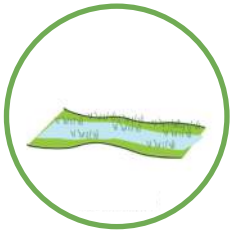
- **Water quality and retention** through treatment, evapotranspiration, and infiltration. The development will implement water quality treatment facilities within private development parcels and the public right of way (PROW) throughout the Site. Water quality facilities are required within individual private parcels to treat the first flush (see Section 6.2 Policy for the Midtown Site + Surrounding Area) to the maximum extent practicable. Strategies include bioretention areas, flow-through planters, bioswales, tree box filters, permeable sidewalks, parking lanes, and runnels.
- **Conveyance features** within the PROW to safely move stormwater through the district while maximizing ecological benefit and protecting infrastructure from flooding. The Site integrates open channel and closed pipe conveyance across. Strategies include drainage channels, infiltration galleries/trench drains, and



roadside bioswales, coupled with an underground storm drain system at the periphery of the Site.

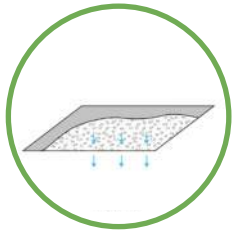
- **Peak flow and volume mitigation** provided by the decentralized BMPs (bioretention, permeable surfaces, drainage channels) proposed across the Site contribute to reducing peak flow and runoff volumes for frequent storms and for large, infrequent storm events (e.g., storm events with up to 50 or 100-year return period) where feasible. A centralized stormwater basin will manage the remaining runoff by retrofiting the existing pond, which will detain and retain additional stormwater as needed so that the peak discharge to Arroyo de Los Pinos is not exceeded.
- **Flood resilience** in the design of infrastructure and open spaces. Open space features, such as fields and courts, will be depressed to allow for additional flooding capacity within the system during extreme events beyond the 100-year design storm.

Integrated Open Space + Stormwater Management



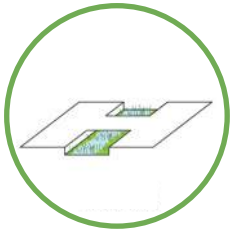
Integral to the success of the Midtown Site's stormwater and open space vision is the seamless integration of proposed stormwater strategies into the urban fabric, open spaces, and thoroughfare typologies described throughout this document. Successful integration will promote cross-cutting benefits within the public realm, including:

- **Complete street enhancement.** The Midtown Site prioritizes bicycle and pedestrian-focused environments with safe, comfortable, inviting, and visually legible wayfinding systems. Complete streets optimize space within the PROW for walking, sitting, and gathering — activities further enhanced by integrating green infrastructure elements such as bioretention and drainage channels. Green infrastructure is incorporated to promote traffic calming (i.e. bioretention bulb-outs).
- **Urban ecology and heat-island impact.** Vegetated and naturalized stormwater conveyance systems, and tree corridors, provide shade and reduce the urban heat island effect. Stormwater BMPs enhance infiltration and evaporation, hydrating soils and promoting a healthy urban canopy. Bioretention areas and vegetated BMPs provide pockets of urban habitat.
- **Dual purpose, resilient spaces.** Elements within open spaces such as plazas, parks, and courtyards can be designed for emergency detention during extreme; climate-change influenced storm events (e.g. floodable playgrounds, depressed landscape areas).
- **Educational infrastructure.** Visible green infrastructure draws attention to stormwater and climate issues, providing an educational opportunity for the Site and the surrounding community. Signage can be incorporated to enhance specific strategies and features.



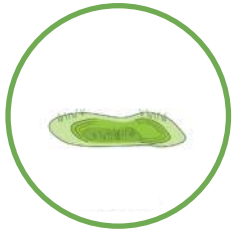
FLOODABLE SPACES

Non-critical open spaces used as a buffer for extreme storm events. The floodable space can be set at slightly lower elevations than surrounding roads and buildings, protecting against flooding of critical infrastructure.



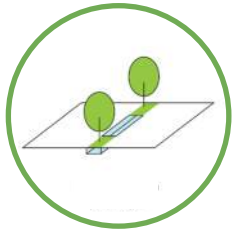
BIOSWALE

Vegetated swale designed to treat, convey and infiltrate runoff from adjacent roadways.



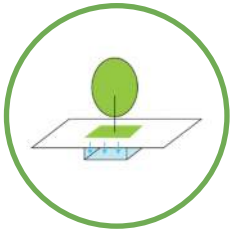
PERMEABLE PAVING

Permeable pavements are appropriate as a retention strategy where infiltration rates are adequate. Consider pervious materials to reduce runoff from site hardscapes and promote infiltration.



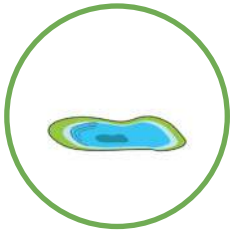
DRAINAGE CHANNELS

Open channels used to convey and detain runoff in street with a wider right-of-way.



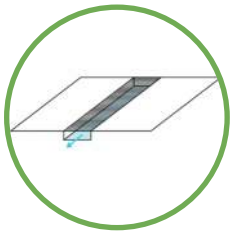
BIORETENTION AREAS

Larger bioretention facilities where space is available to contour the basin into the surrounding site and landscape naturally.



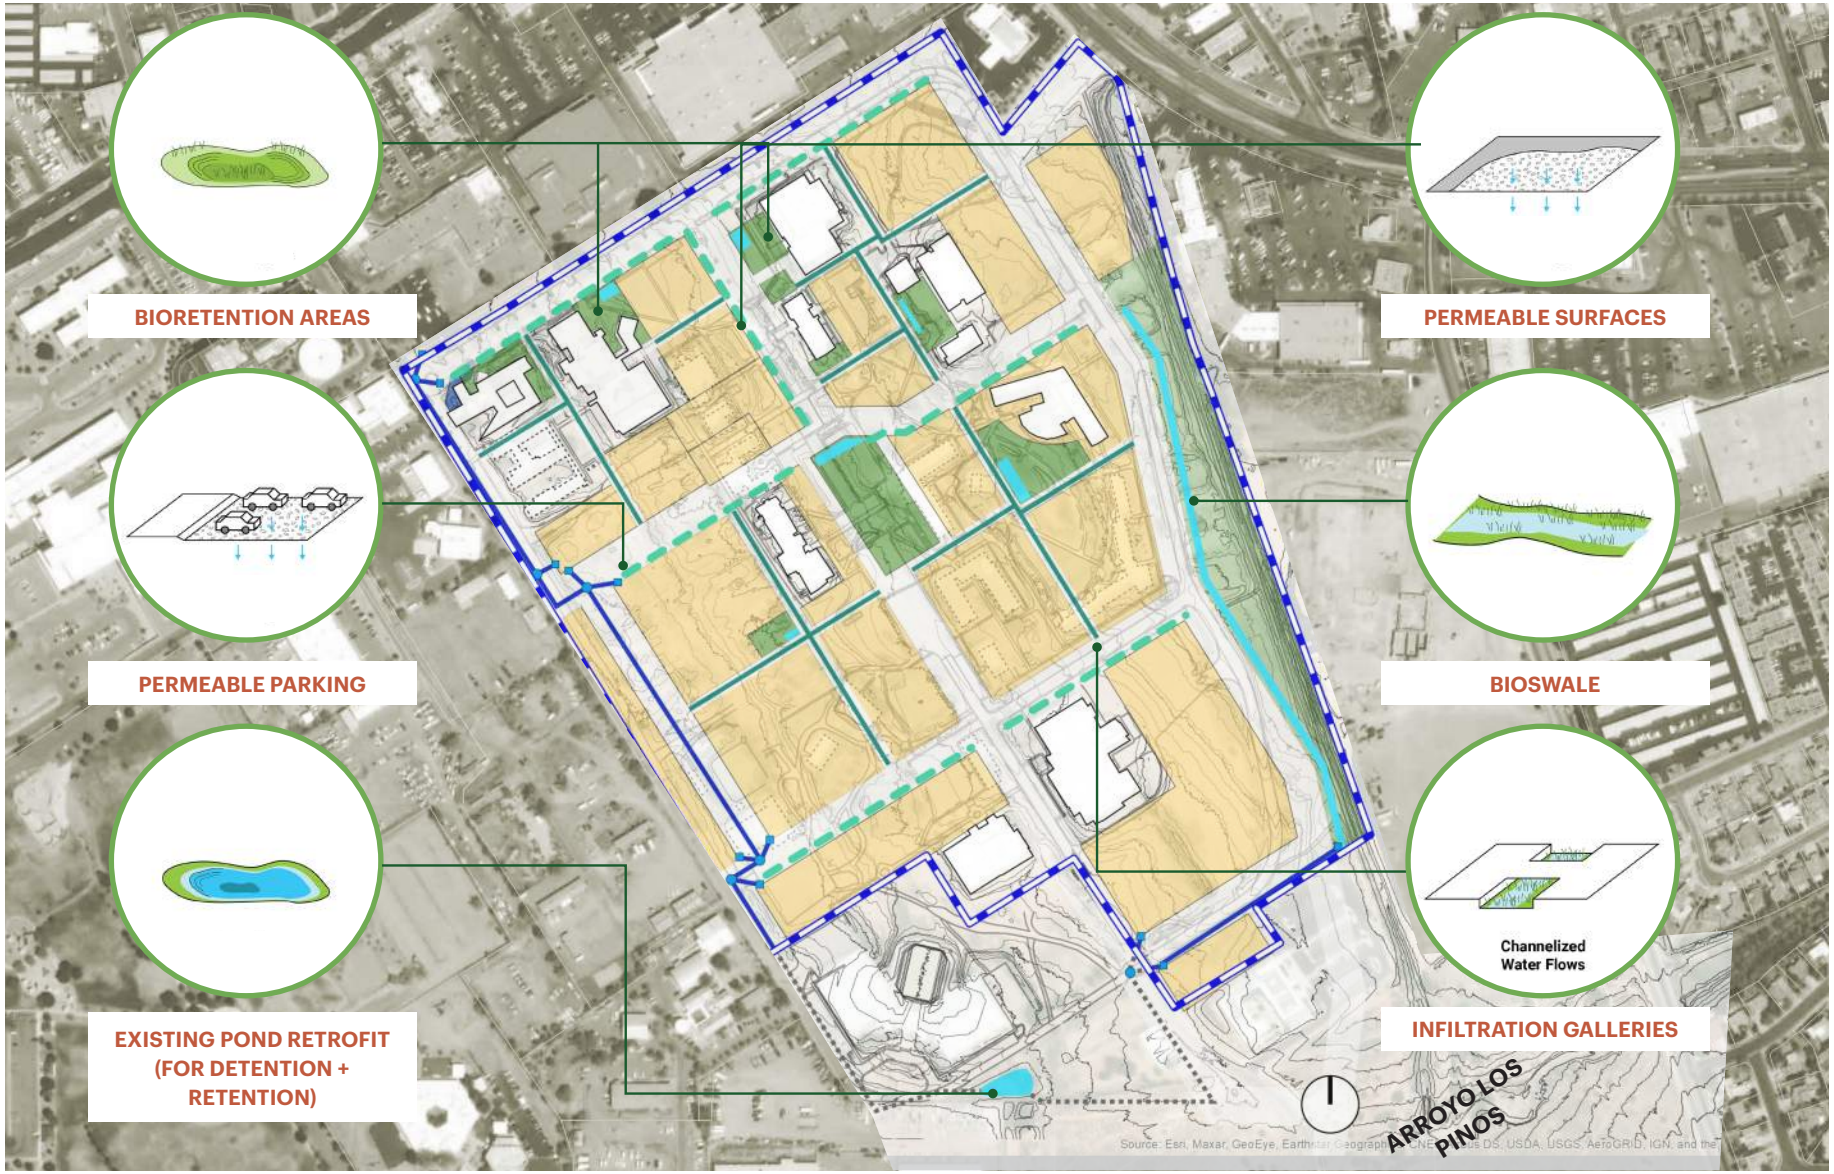
FLOW-THRU PLANTERS

Flow-thru planters (FTPs) are structured biotreatment facilities typically designed with concrete curb-walls and used in more space-constrained locations.



TREE BOX FILTER

Bioretention treatment integrated into treewells, appropriate for use in narrow PROWs adjacent to proposed stormwater inlets.



STORMWATER BASIN (EXISTING POND RETROFIT)

Used at the end of the stormwater management train, to detain and retain stormwater runoff.

INFILTRATION GALLERIES / TRENCH DRAINS

Infiltration galleries and trench drains integrated into urban, pedestrian-oriented areas to convey water at the surface while maintaining circulation.

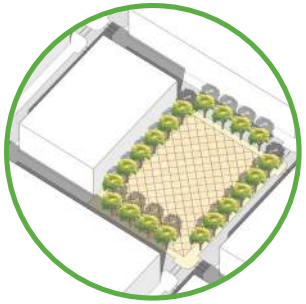
Integrated Stormwater Management Vision

Legend

- The Midtown Site
- Open Channel/ Drainage Channel
- Stormwater Pipe
- Infiltration Galleries
- Bioswale
- Storm Catch Basins
- Storm Manholes
- Bioretention Areas

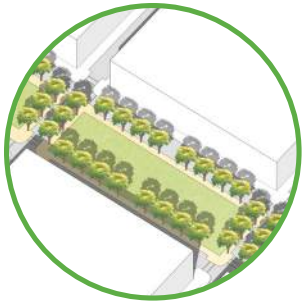
3.4 Civic + Open Spaces

Variety of Civic + Open Spaces



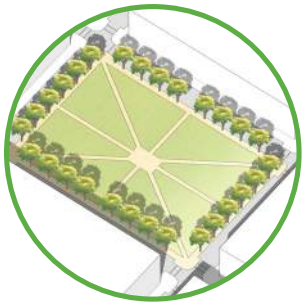
The Midtown Site includes a variety of civic and open spaces such as a grand plaza, pocket parks and plazas, a linear open space with trails, and intimate pedestrian paseos. The open space network is designed to be convenient to access, comfortable to use, and provide facilities and spaces for various activities and community needs. Places for gathering, such as the central plaza, encourage a sense of belonging and provide a venue for cultural activities and community celebrations.

Franklin E. Miles Park will continue to play an essential role as a space for recreation and other outdoor activities, and it is part of the new connections between the park and the Site. The ballfields and skate park at Franklin E. Miles Park will be more accessible to residents of the Site and surrounding neighborhoods. A network of pedestrian paseos provides a high degree of pedestrian connectivity within the Site and links all civic and open spaces across the Site. New pocket parks and pocket plazas in private developments provide additional open spaces for people living and working at the Site.

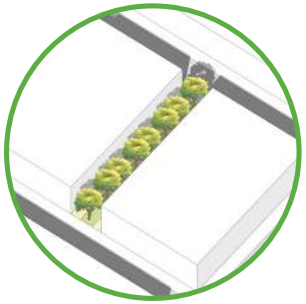


The civic spaces presented in this Section are regulated by standards included in Chapter 5 (Development Standards).

Objectives for Open Space Design

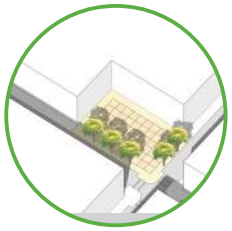


- Provide a variety of spaces to accommodate diverse uses and activities.
- Include facilities access safe and easy to access for pedestrians and people riding bikes.
- Provide shade and select tree species that thrive in Santa Fe.
- Design spaces for simple and cost-effective maintenance.
- Use principles of universal design and visitability to create accessible spaces.

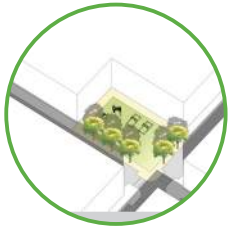


A Plaza *Community-wide focal space designed to accommodate both passive daily use and special community activities such as markets, community celebrations, and festivals.*

B Arroyo Park *Open space arranged in a linear composition along the existing arroyo to provide a natural environment for passive recreation.*



C Quad Park *An informal space where adjacent buildings provide a sense of enclosure. Pathways running through or around the space provide access through the park. Programmed areas are located among informal plantings or lawn/open areas.*



D Paseo *A pedestrian pathway that connects a street with another street or block interior is lined by ground floor entries to residential or live/work units and shopfront.*

Open Space at The Midtown Site	
Open Space Types	**Min. Area**
Civic Spaces	5.2 ac
+ Paseos	3.3 ac
+ Open Spaces on Community-Oriented Use parcels	0.4 ac
+ Open Spaces on Development parcels	20.5 ac
Total Minimum Open Space at the Midtown Site	**29.4 ac**

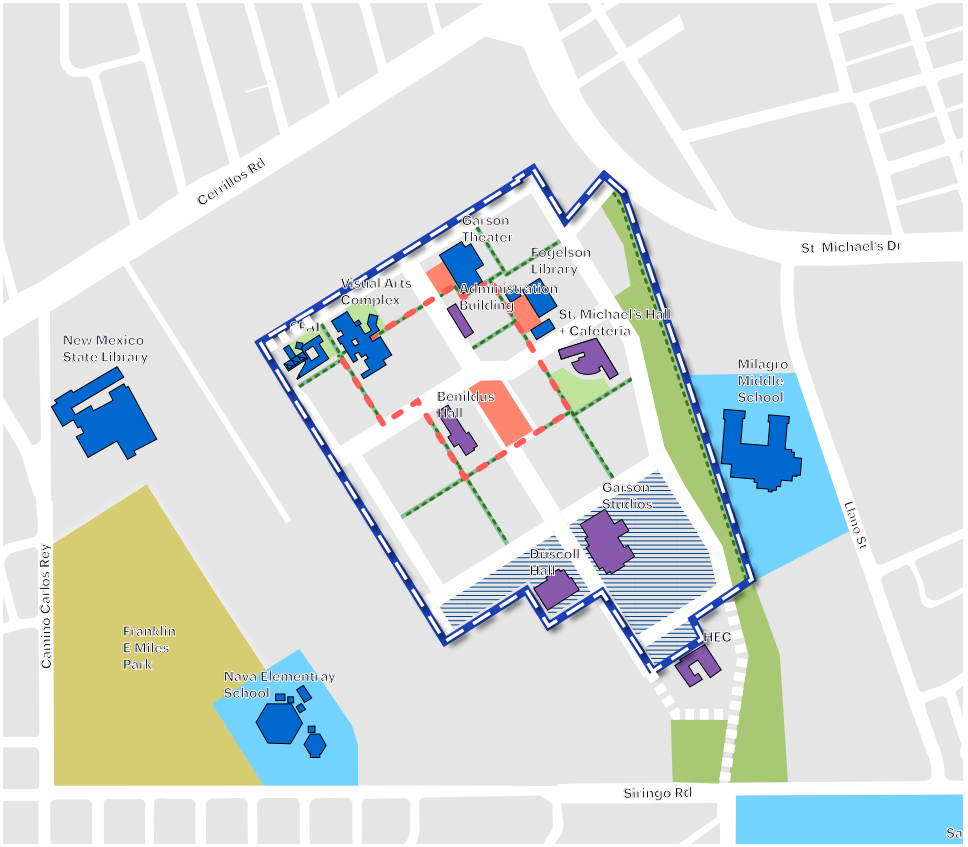
The following civic space types can be integrated with other types and/or used to satisfy open space requirements detailed in Chapter 5 (Development Standards).

Pocket Plaza or Pocket Park *Small-scale open space for informal activities, with seating and shade, sometimes at the intersection of two paseos.*

Playground *Space designed and equipped for children's recreation, with shade and visibility from a street or paseo.*

Community Garden *A grouping of garden plots available to nearby residents for small-scale cultivation.*

Above, the Historic Santa Fe Plaza is shown at the same scale as the Open Space Plan for the Midtown Site. While the Plaza at the Site could be a different shape, it is intended to be similar in size to the Historic Plaza.



Civic, Cultural + Community Spaces

The Plan integrates a variety of civic spaces designed to support community activities. Additionally, the Plan proposes rehabilitating and reusing several significant existing buildings to stabilize, enhance and promote community arts and culture. These include the Visual Arts Complex, which will be repurposed as a Community Arts and Culture Hub, the Fogelson Library complex, which will get new life as a public library and community learning and innovation center, and the Greer Garson Theatre. Pocket plazas are placed adjacent to several buildings to complement their community-oriented uses. A network of paseos links all these spaces together, forming a "necklace" of community-serving cultural spaces and civic spaces at the Midtown Site.

Civic, Cultural + Community Spaces

Legend

- The Midtown Site
- Existing Buildings for Cultural Community-oriented Uses
- Other Existing Buildings to be Adaptive Reused
- Existing School Site
- New Plaza/ Pocket Plaza
- "Necklace" of Community + Cultural Spaces
- Film Studio Area
- New Open Space/ Linear Park
- Existing Open Space
- New Paseos/ Pedestrian Paths
- Long-range Streets

The civic space network includes a variety of spaces that can accommodate multiple cultural activities and respond to specific community needs. A network of pedestrian paseos ties these spaces together in a "necklace" of community and cultural spaces.

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Civic Spaces + Community-oriented Buildings

Habitat Creation + Native Plants
The Arroyo Park can serve as an important open space and green connector between destinations in the Midtown Site. It also provides an opportunity to preserve and create habitats for native flora and fauna.

Midtown Plaza
The Historic Plaza in Santa Fe is an iconic place that attracts visitors from all over the country. It is considered a National Landmark, an exemplary case of a traditional Spanish-American plaza. The Plan proposes a central plaza for Santa Feans at the Midtown Site inspired by the Historic Plaza to be a place for community gathering and social interaction.

Fogelson Library
The Fogelson Library will operate as the City's Public Library branch. It is envisioned as a community anchor for the Midtown Site, attracting Santa Feans from across and allowing them to take advantage of services offered there. The Pocket Plaza in front of the library building can host community events related to library activities.

Community Activities

Community Food + Artisan Market
The Midtown Plaza is a central space suitable for pop-up markets where area artisans, small businesses, and food startups can make their goods available for sale to the Santa Fe community.

Community Arts + Culture Events
Plazas are spaces for community events and civic gatherings. The new Plaza in the Midtown Site will accommodate events at various scales since the streets around the Plaza are designed to extend the plaza space to the opposite sidewalks.

Literary Festivals with Fogelson Library + Nearby Schools
Civic spaces at the Midtown Site will host annual literary events to encourage engagement with writing and reading, such as book festivals to celebrate local authors, cooperative events with area schools to spotlight youth authors and publications, and Library Book Sales.

A New Center in Santa Fe

The Midtown Site is envisioned as a new Center for life in Santa Fe. The new Plaza will serve as a civic hub and a thriving cultural and community space that celebrates what makes Santa Fe unique. It will be an active space for special events and everyday activities and reflect Santa Fe's diversity and creativity.

Buildings around the Plaza will frame the open space, and active ground floor uses will engage pedestrians. These active frontages and covered sidewalks will allow indoor activity to spill into the outdoors. Ample shade will be provided for pedestrians and passersby through arcades — covered sidewalks. This way, the Plaza will be a large "outdoor room" at the heart of the Site.

Vision

A The Midtown Plaza will be similar in size to the Historic Santa Fe Plaza.

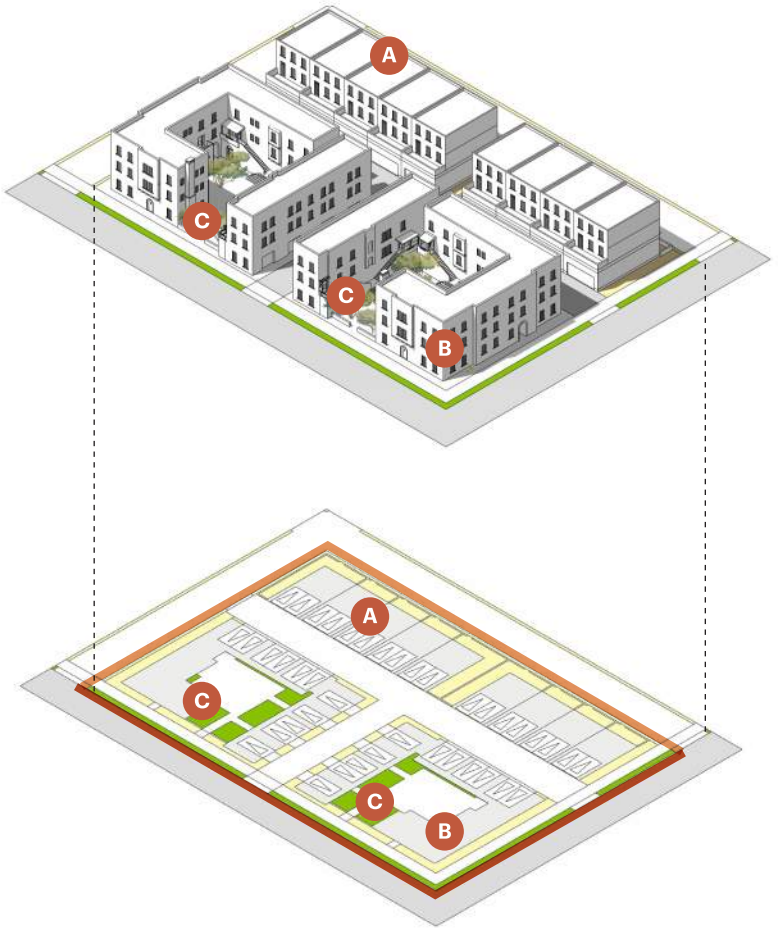
B Covered sidewalks frame the Plaza and provide shade for pedestrians.

C Opportunities for a mix of uses will activate the Plaza space.

D Low-speed, curbless streets around the Plaza can be closed to vehicular traffic to create a larger Plaza space during special events.

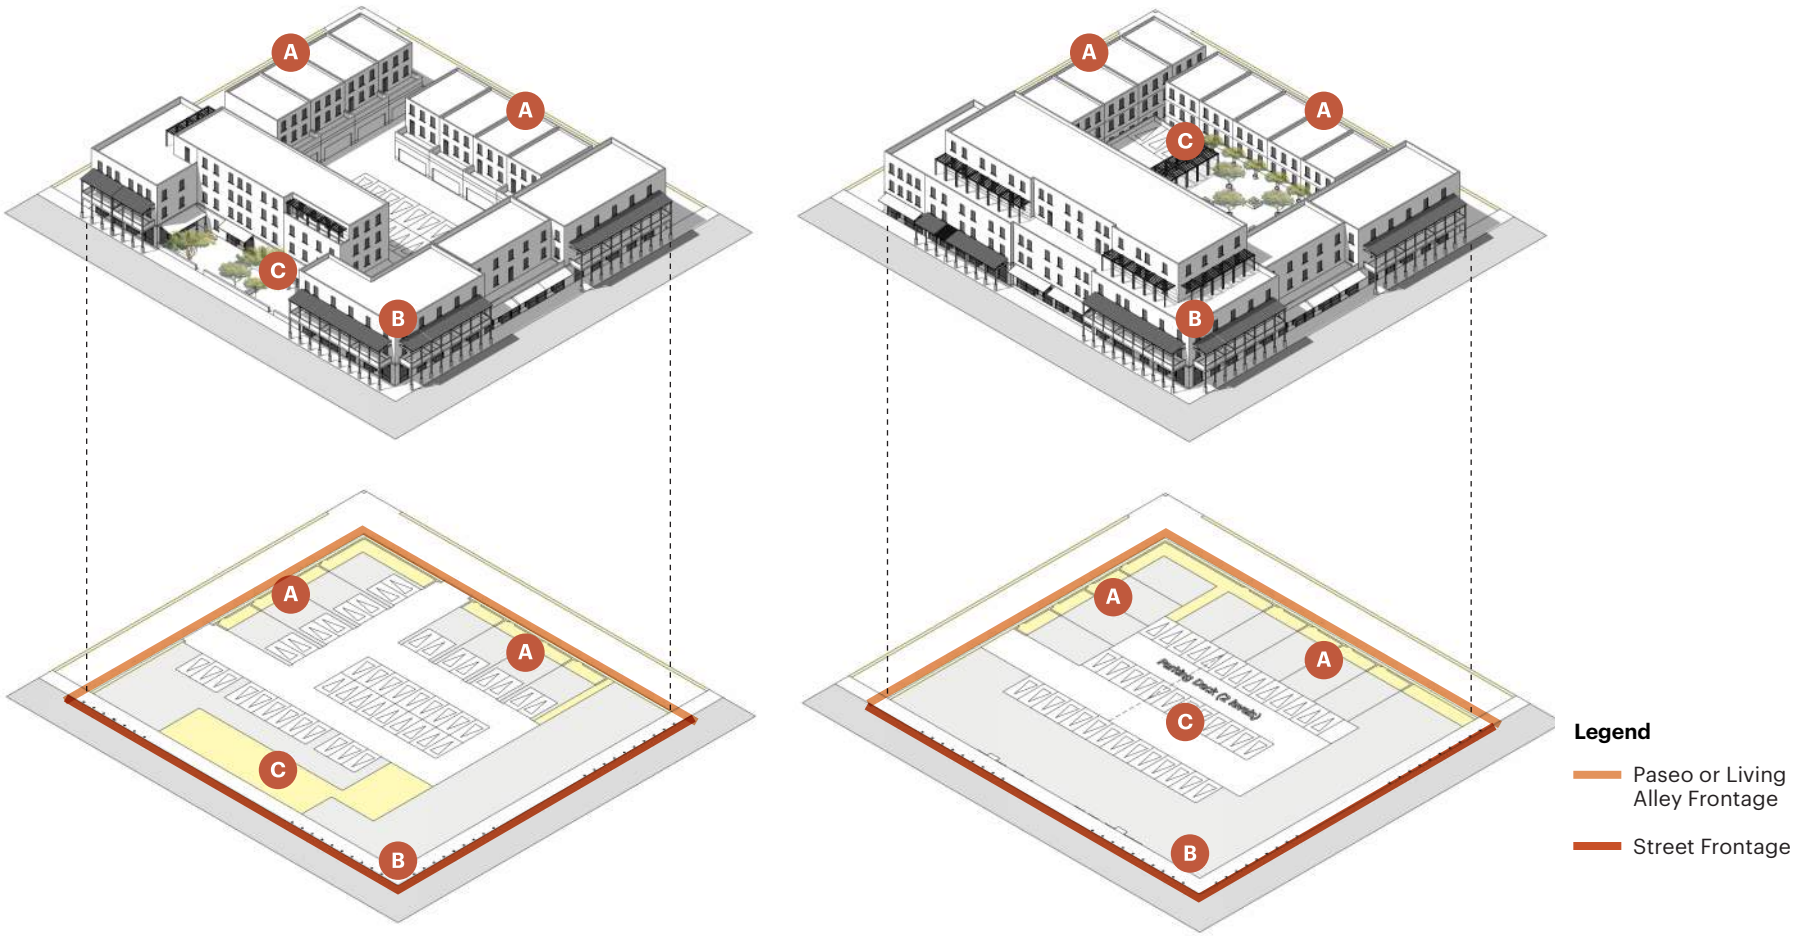
3.5 Urban Form + Building Scale

Development Blocks + Parcels



New development in the Midtown Site will happen incrementally over time. The Plan utilizes a street grid of larger development blocks broken into smaller development parcels by pedestrian paseos and living alleys. This concept is intended to provide development flexibility in response to changes in market conditions while prioritizing an urban environment with buildings oriented to streets and public spaces.

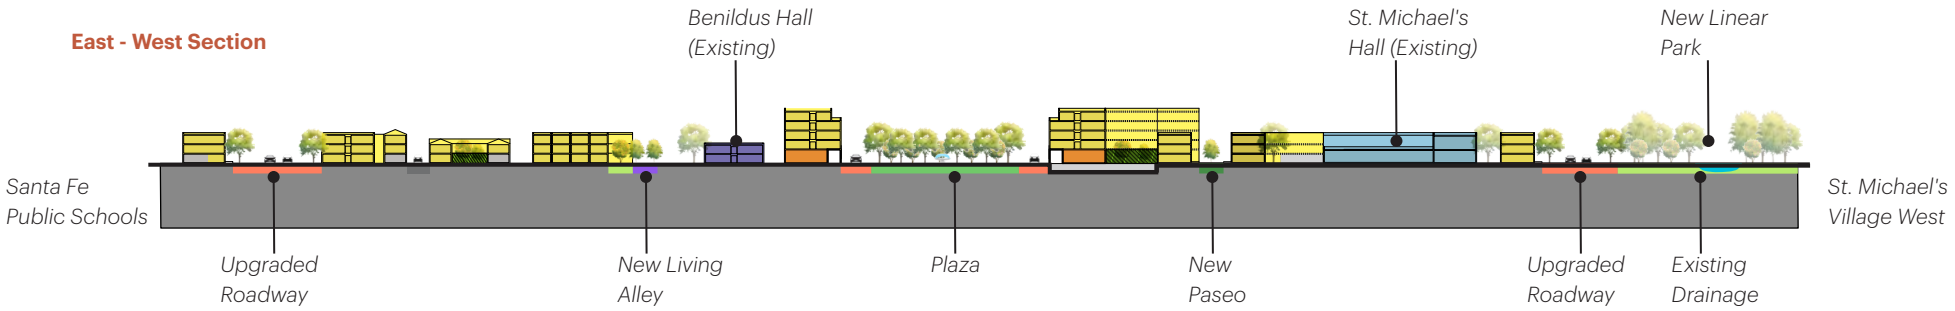
Blocks at the Site are scaled to promote walkability by limiting block face and perimeter dimensions according to the Development Standards Regulating Plan and the Thoroughfare Regulating Plan (see Chapter 5 Development Standards). A high degree of connectivity and intersection density diffuses traffic throughout the Site and provides multiple route options for people walking, rolling, and riding bikes.



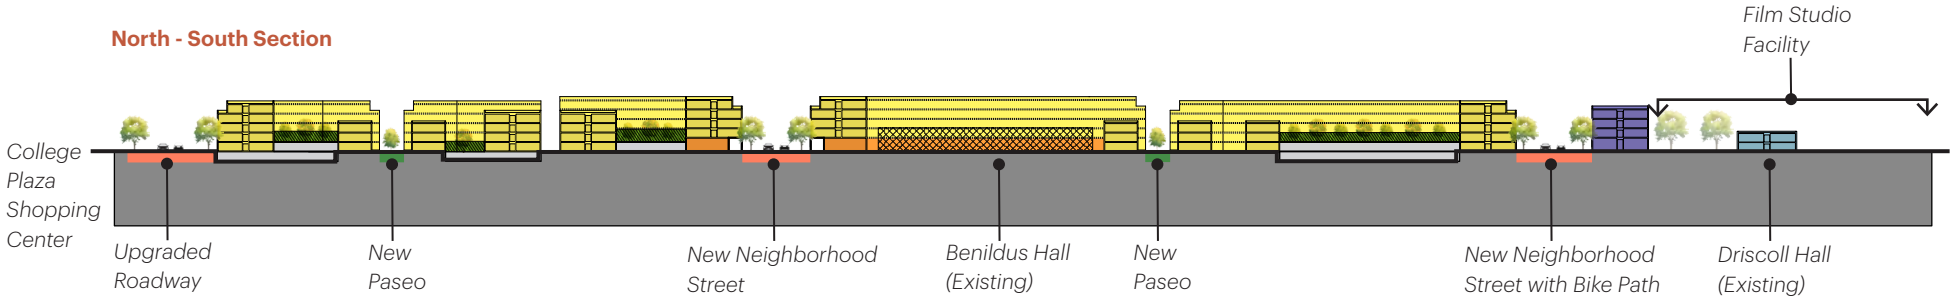
The diagrams to the right illustrate how a variety of building types and scales (size of building footprint and building height) can be arranged on a block. Larger, more intense buildings are located along the street frontages, while smaller buildings are located along the paseo frontages at the rear.

Parking and service areas are in the center of the block to not negatively impact street and paseo frontages. Open spaces in courtyards are connected to sidewalks, while frontage conditions such as shopfronts with awnings and galleries provide shade to promote a high-quality public realm by protecting pedestrians from sun and rain and support walking, rolling, riding bikes, and taking transit.

The variety of building types enabled by the Plan lays the groundwork for more housing choices for Santa Feans. It provides the opportunity for both affordable and market-rate housing in the Site. The Plan allows for both fee simple (for sale) and rental housing, along with other typologies such as co-living and community land trusts.



Lower Intensity Block Example
Courtyard Apartment/ Condo Buildings along streets A
Townhouses along paseos B
Multiple courtyards C
3 stories
1-2 parking spaces per unit; tuck-under parking



Medium Intensity Block Example
Mixed-Use Apartment/ Condo/ Office Buildings along streets A
Townhouses along paseos B
Courtyards at ground level C
Primarily 3 stories, some 4 story buildings
1-2 parking spaces per unit; parking lot + tuck-under parking

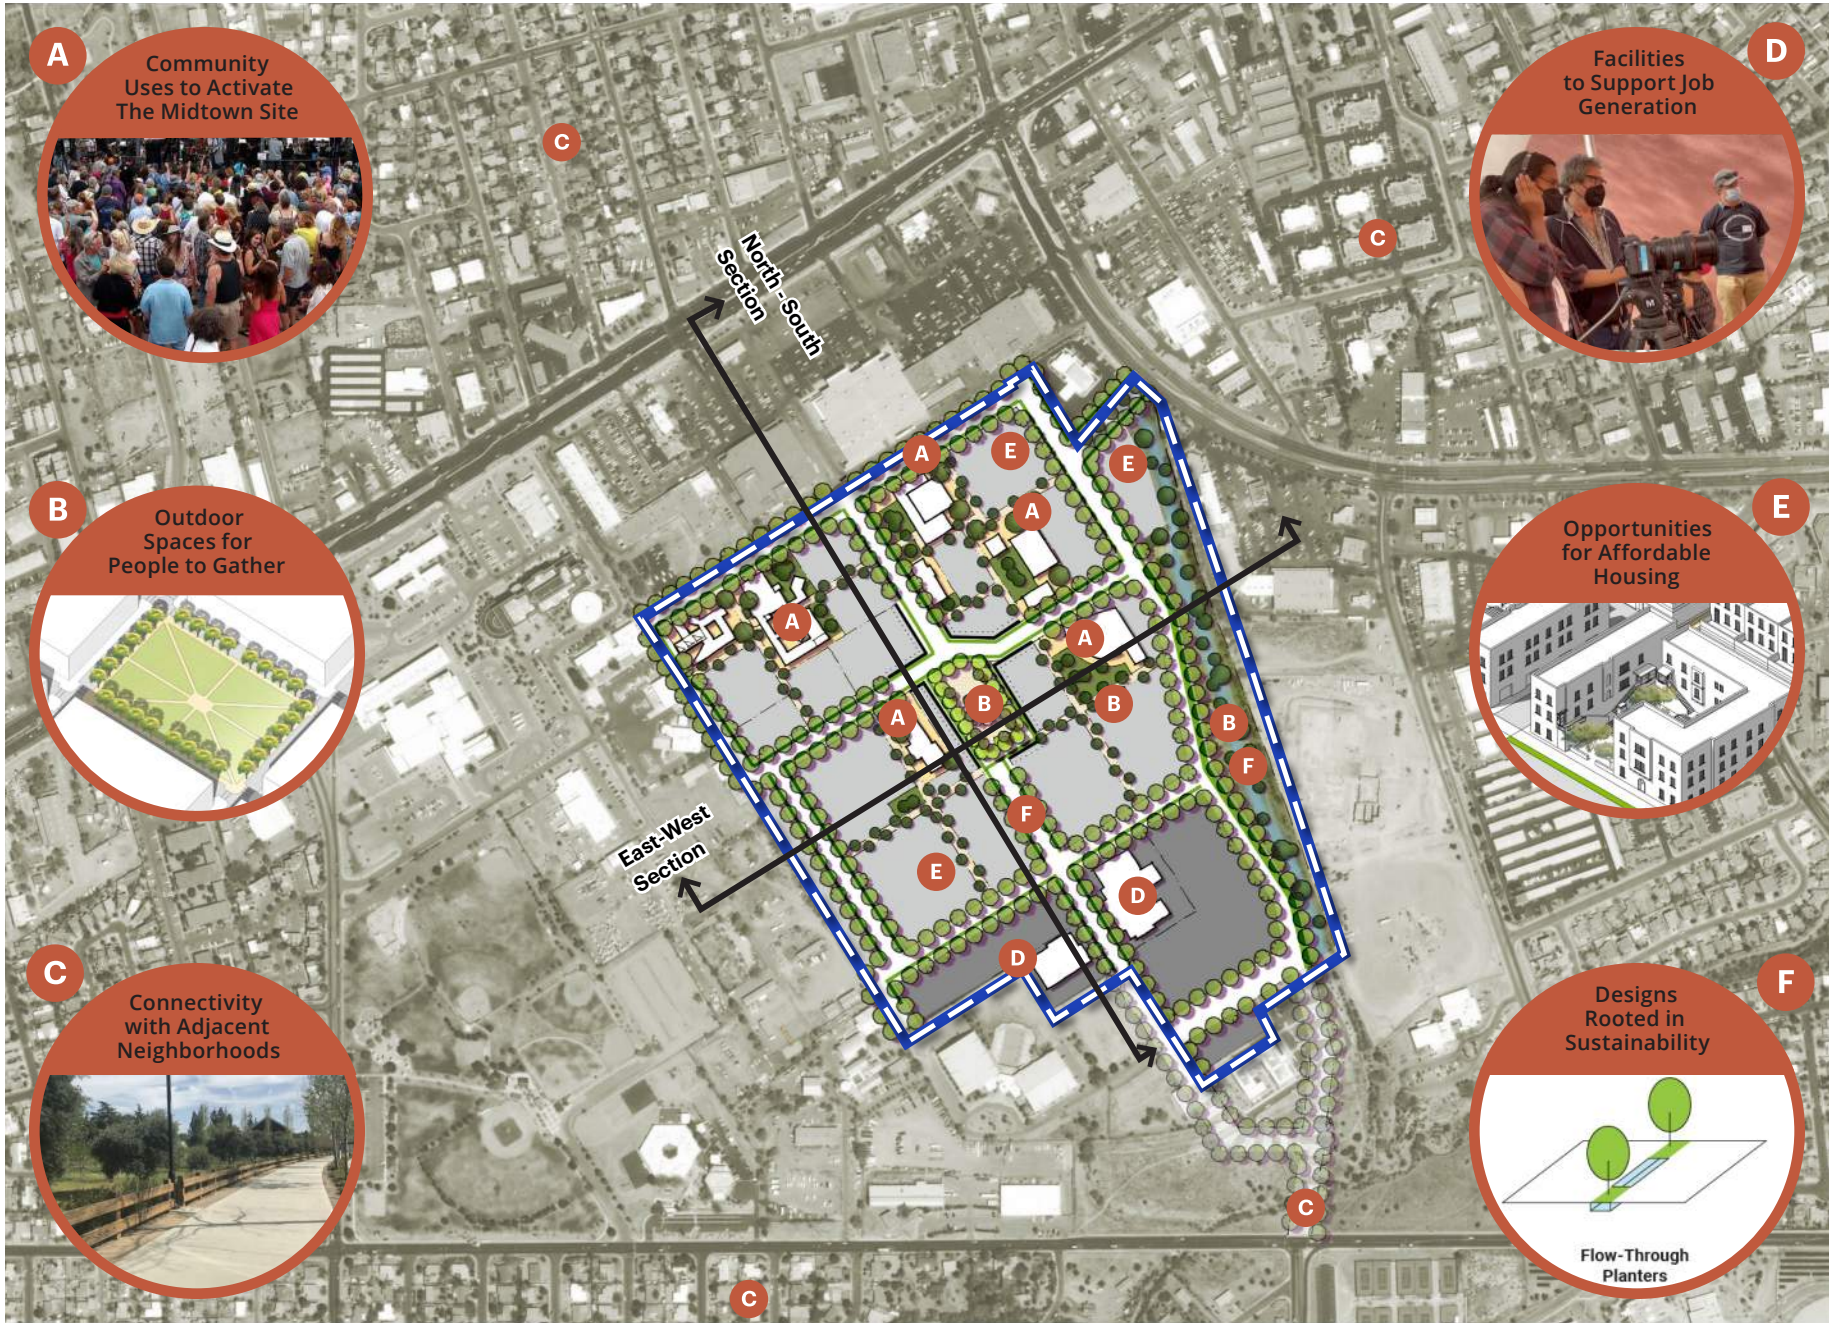
Higher Intensity Block Example
Mixed-Use Apartment/ Condo/ Office Buildings along streets A
Townhouses along paseos B
Courtyards located on top of parking deck C
3-5 stories
1 parking space per unit; parking deck + underground parking

East - West Section

North - South Section

Variety of Building Scales

Building scale refers to the size of a building based on its footprint (length and width) and height. Each block should include various building scales to promote a diversity of housing options and provide flexibility for the different uses envisioned at the Midtown Site. Taller, more intense buildings are appropriate along streets, while shorter, smaller-scale buildings are more appropriate along paseos and living alleys. Even in instances where a single building type is used across the entire face of a block, different frontage conditions and changes in building height should respond to the adjacent street and paseo contexts.



Legend

Uses

- Residential
- Active Ground Floor
- Office

3.6 Place-based Approach

Place-based Design Principles

Place-based design — which considers local climate and culture — shapes the Midtown Site's vision. Taking inspiration from local building traditions, architectural heritage, local weather, and historic and cultural resources, buildings and public spaces in the Site will look and feel distinct to Santa Fe. Chapter 5 (Development Standards) implements this place-based design as a strategy by providing standards that are tailored to reflect the building traditions and climate context of Santa Fe.

The place-based approach for the Site balances the need for a variety of building types, the importance of economic feasibility, and the integration of sustainability goals. Place-based design at the Site should consider:

- Creation of comfortable outdoor spaces that take advantage of Santa Fe's climate.
- Incorporation of architectural elements typical of Santa Fe including courtyards, roof terraces, and shaded walkways.
- Public art.
- Use of native plants and cultivars suited to Santa Fe climate.
- Attention to solar orientation when positioning building openings and when locating outdoor spaces.

Facade Zones *These images illustrate the vision for the Main Street (top) and Live/Work Flex (bottom) Facade Zones. Coordinated Facade Zones encourage a variety of environments at the Midtown Site to reinforce Santa Fe's urban form patterns and discourage monotonous development.*

Proposed Zones

The Plan establishes Sub-Zones and Facade Zones to regulate development at the Midtown Site. These are listed below and mapped on the Development Standards Regulating Plan in Chapter 5 (Development Standards). The Zones allow for types of uses desirable to the community and promote walkable development while reflecting Santa Fe's unique culture and climate.

Sub-Zones

- Civic Space
- Mixed-Use Neighborhood
- Mixed-Use Center
- Mixed-Use Office
- Mixed-Use Film
- Community-Oriented Use

Facade Zones

- Plaza
- Main Street
- Main Street-Office
- Live/Work
- Neighborhood Residential
- Neighborhood Paseo

Building Types

The Plan anticipates a range of building types able to provide a variety of residential and retail unit sizes and price points, making housing more affordable.

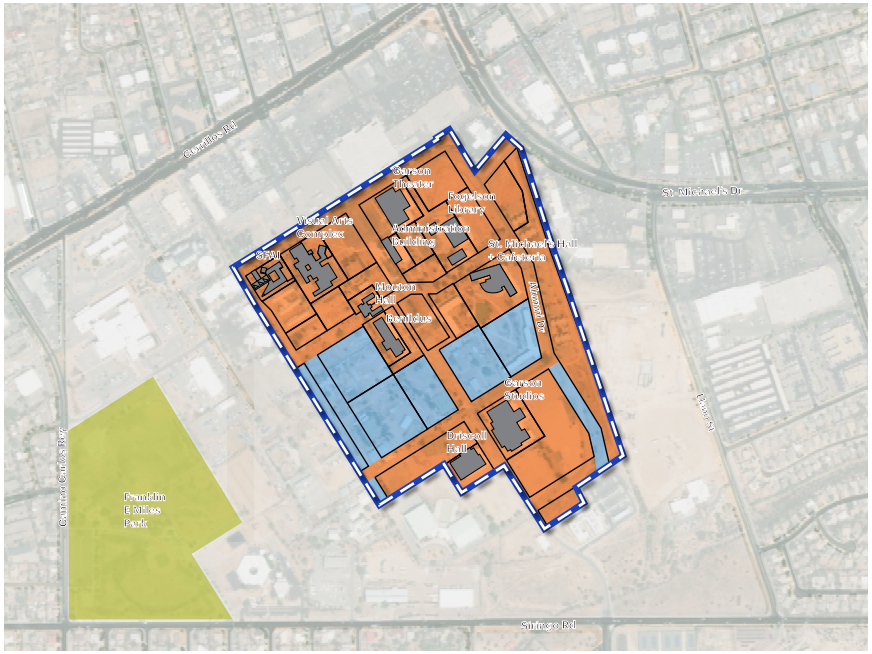
The development standards in Chapter 5 (Development Standards) allow for the following building types but do not limit development exclusively to these types:

- Townhouse
- Live/Work Townhouse
- Courtyard Residential Building
- Mid-Rise: Residential or Mixed-Use Building

In addition to these building types, the Plan envisions the reuse of existing buildings, such as the Fogelson Library and Greer Garson Theatre, and the Visual Arts Complex.

Frontage Types *These images illustrate frontages part of the Plaza Facade Zone, articulating a recessed ground floor facade.*

3.7 Development Program + Phasing



Uses + Distribution of Uses

The Midtown Site will be a mixed-use and mixed-income district enabling a variety of uses — from residential buildings to offices, retail and commercial spaces, flex spaces designed to fulfill artists' needs, theater and film production areas, and community-oriented uses. The Midtown Site will invite all Santa Feans to live, work, learn and visit.

Shops, artists' studios, and places to eat are proposed centrally along the north-south street leading from the Plaza, forming an arts-and-culture corridor through the center of the Site. Community-oriented uses are clustered in existing buildings at the northern end of the Site, while employment uses anchored by the Greer Garson Studio Complex are located at the southern end of the Site to accommodate future expansion of film production spaces. Residential blocks are situated in the north end and at the center of the Site to provide proximity to amenities.

Development Phasing

Development will happen incrementally, combining public and private development efforts to realize the City's and community's goals for the Midtown Site. The first development phase uses existing buildings and infrastructure to animate community facilities while opening up opportunities for infill development on the adjacent parcels. The central Plaza anchors new development and adaptively repurposed amenities. New and upgraded streets establish good internal connectivity for Phase 1. In Phase 2, more developable parcels at the Site become available, in line with infrastructure and connectivity investments. Small and significant open spaces support the new development and the added street infrastructure.

Phasing + Development Blocks

Legend

- The Midtown Site
- Existing Buildings to be Adaptively Reused
- Development Blocks
- Phase 1: Build on and revitalize existing facilities
- Phase 2: Build out the rest of the Site

Phase 1

Legend

- The Midtown Site
- Existing Buildings to be Adaptively Reused
- New Parcels for Development in Phase Noted on Illustration
- Film Use Area
- Parcels Developed in Previous Phase
- New Plazas/ Open Spaces/ Linear Park
- New Road Infrastructure within the Site
- Paseos/ Pedestrian Paths
- Existing Open Space

Phase 2

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

CONNECTIONS TO MIDTOWN DISTRICT AMENITIES

Internal connectivity within the Midtown Site improves access to amenities:

- **A** *Reorientation of connections around HEC and tennis center;*
- **B** *To Cerillos Rd and nearby shopping;*
- **C** *To St. Michael's Dr., and*
- **D** *To Franklin E. Miles Park and repurposing of nearby public lands for complementary housing and mixed-use development.*

Connectivity Concepts for the Midtown Site:

- **E** *Improving connections to Hopewell-Mann;*
- **F** *Achieve regional connections to pathways, and*
- **G** *Good connections to New Mexico Rail Runner and local transit.*
- **H** *Safe routes to nearby schools.*

Building Reuse Strategy

A thorough appraisal of existing buildings was undertaken in 2017[1] to determine suitability for reuse. Based on this and ongoing assessments, buildings have been identified for the following:

- **Permanent Adaptive Reuse**. These buildings are among those in the best condition on the Site, provide significant architectural and cultural value, and are best suited for adaptive reuse.
- **Temporary Reuse + Further Assessment**. The condition of these buildings could accommodate temporary reuse; however, further assessment is needed to determine the feasibility of upgrading these facilities to support longer-term uses.
- **Demolition**. These buildings pose significant challenges for reuse and need substantial improvements and/ or structural and mechanical systems, which make reuse difficult and expensive.

Sources:
1. Appraisal Report/CBRE/2017

Building Reuse Strategy		
Permanent Adaptive Reuse	**Temporary Reuse**	**Demolition**
Administration Building	St. Michael Hall Complex	Alexis Hall
Benildus Hall	Driscoll Fitness Center	Entry Station
Fogelson Library Complex	Mouton Hall	Health Center
Greer Garson Studio Complex	Barracks	Kennedy Hall
Greer Garson Theatre Center		King Hall
Visual Arts Center		La Salle Hall
		Modular Trailers + Security Building
		Luke Hall
		Student Apartments
		Onate Hall

Building Reuse Strategy

Legend

- The Midtown Site
- Existing Buildings for Permanent Adaptive Reuse
- Existing Buildings for Temporary Reuse + Further Assessment
- Existing Buildings for Demolition

Administration Building*
Single story building currently used by City of Santa Fe Office of Emergency Management.

Benildus Hall
Two story classroom building with modern facilities to be utilized by future Greer Garson Studio Complex tenant.

Fogelson Library Complex*
Multi-building complex to be reused by the Santa Fe Public Library.

Greer Garson Studio Complex*
Building and studio lot with soundstages and screening facilities.

Greer Garson Theatre*
513 seat theater to be reused as a performing arts venue.

Visual Arts Center
Ricardo Legorreta-designed complex including classrooms, library and performance space.

Adaptive Reuse Buildings

Buildings identified for Permanent Adaptive Reuse will be made available through a Request for Proposal process that will identify a suitable user and program for these buildings.

These buildings have been integrated into the urban design vision for the Midtown Site and serve as important cultural and community anchors while physically linking the future of the Site with its history.

** Denotes building designed by local architect Philippe Register, a practitioner of "southwest regional modernism" that is unique to Santa Fe.*

3.8 Affordable Housing

Affordable Housing

The Midtown Master Plan directly addresses land uses for affordable housing development so that a minimum of 30% of the homes developed within the Midtown Master Plan area will be priced affordably to low- and moderate-income households. The City has control of the land and will purposefully leverage land value in its disposition process to ensure that community objectives are realized.

Excerpts for the Midtown Community Development Plan:

- The City's Housing Inclusionary Zoning requirement (SFCC 26-1, 26-2) shall be applied to the Midtown Site, in addition to leveraging subsidy and incentives to ensure affordability goals are reached or exceeded.
- Furthermore, if inclusionary programs are to create and preserve mixed-income communities, long-term restrictions are vital for the program to have a lasting impact. The City's goal is to increase the stock of long term affordable housing in Santa Fe. To achieve that goal the City, at its sole discretion, will issue Solicitations (Request for Proposals, RFPs) tailored for Midtown that require mixed-use and residential development. The objectives for housing development are the following:
  - Inclusionary homeownership units will have affordability controls or deed restrictions placed on them that impose resale restrictions and never expire. RFPs may state that projects that propose shared equity models, land trust structures, or other forms of long-term community control will be more competitive;
  - Developers may not opt out of the regulation by (i) developing in other areas outside of Midtown Master Plan area; (ii) or making cash contributions according to formulas included in the Santa Fe Homes Program Ordinance and Regulations outside of Midtown Master Plan area;
  - For rental units, the City will protect affordability through deed restrictions or covenants for a fixed affordability period, to be not less than 30 years.
- RFPs for mixed-use and residential development will facilitate the development of various housing types and sizes to meet the housing needs of Santa Feans based on market studies and community data, required to be demonstrated in the proposals submitted.
- RFPs for the development of affordable housing on certain parcels will encourage various tenures, including ownership, rental, land trust, and co-housing.
  - The City, at its sole discretion, will maintain a preemptive option for the property to remain price-restricted after any applicable affordability period has expired, as deemed necessary to best serve the public interest.

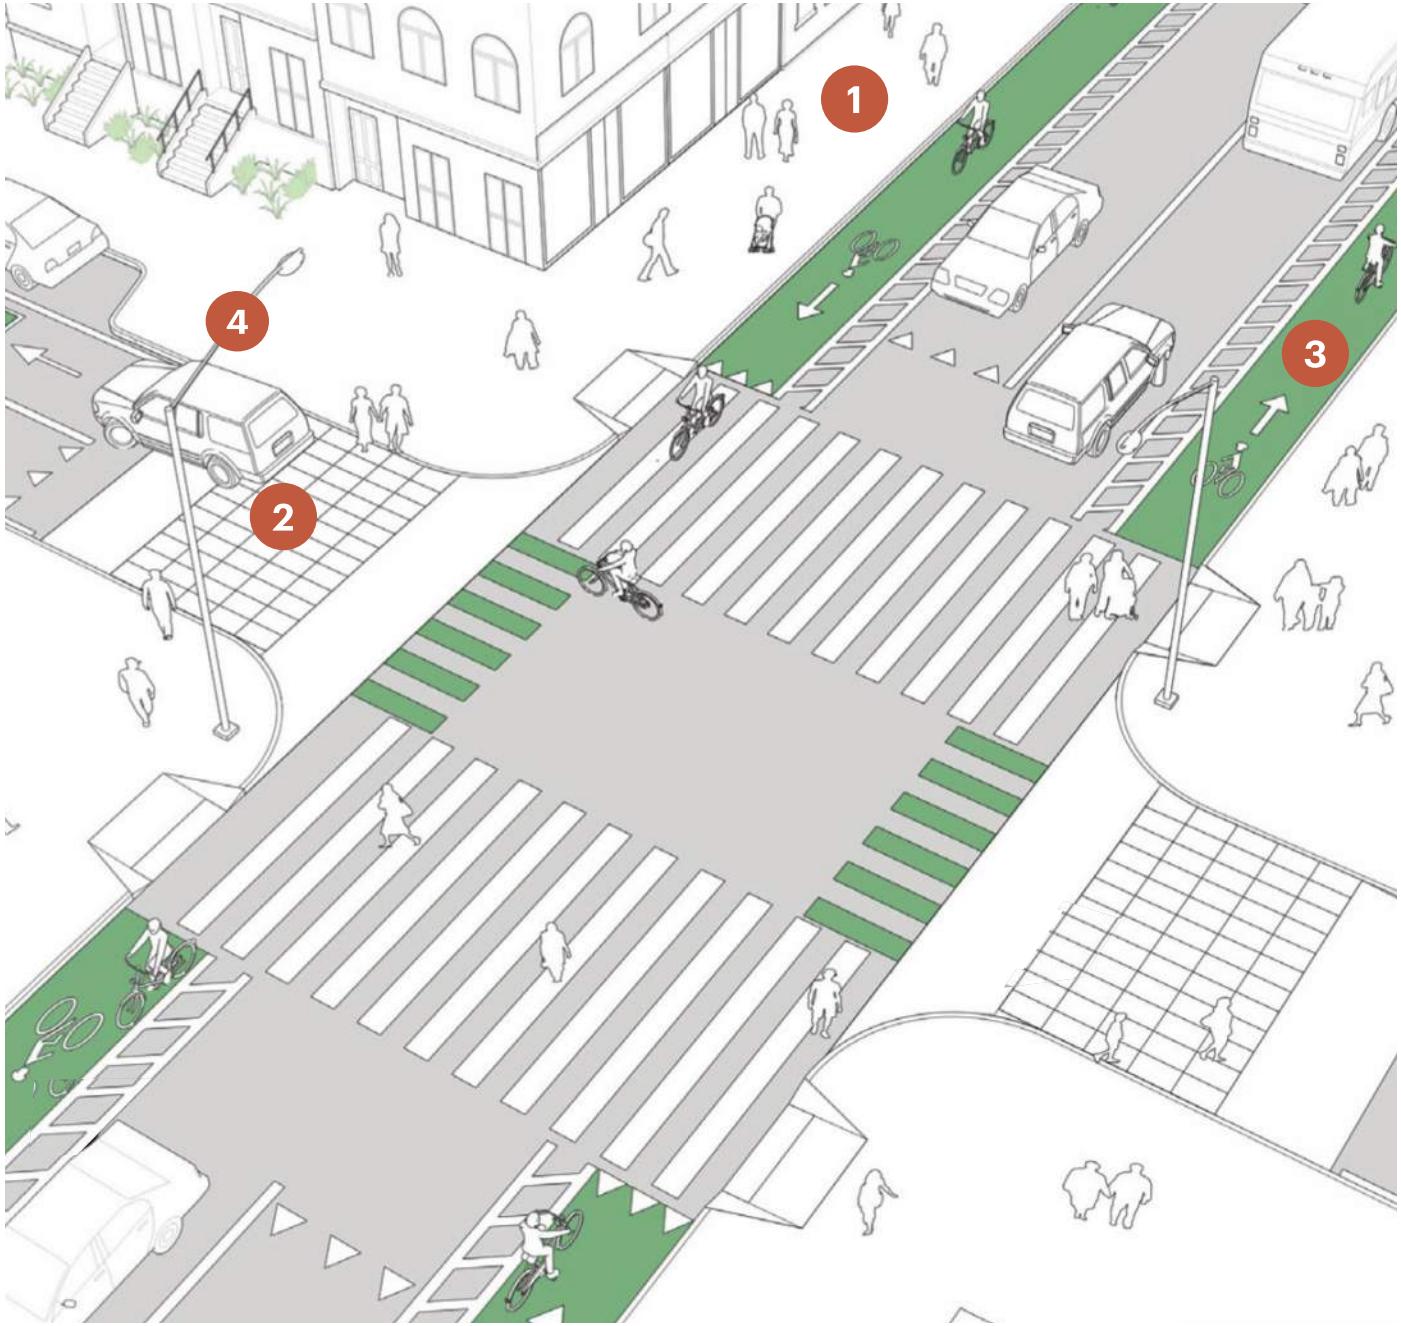
Designing for ADA, children and seniors.

3.9 Reinforcing Community Health Through Urban Design

The new center for Santa Fe, civic spaces, streets and buildings in the Midtown Site will be inclusive and accessible for all.

Universal Design + Visitability

The Center for Universal Design at North Carolina State University – a national leader in the advancement and development of Universal Design practice – promotes seven basic principles of Universal Design. These inform design and policy considerations at the Midtown Site to create a place accessible to all Santa Feans. Below are some ways these principles could be applied at the Site:



- **Equitable use.** The Site to be accessed and enjoyed by people of diverse abilities.
- **Flexibility in use.** The Site to be experienced in a variety of ways, and people to be able to move around using a variety of transportation types/modes.
- **Simple + intuitive use.** Routes of travel at the Site to be clearly marked, and building entrances to be obvious.
- **Perceptible information.** Wayfinding signage to be clear and easy to use by people of diverse abilities.
- **Tolerance for error.** Multiple routes for pedestrians means that making a wrong turn does not require substantial backtracking.
- **Low physical effort.** Direct pedestrian routes, so people do not need to go out of their way to access a building or civic space.
- **Size + space for approach + use.** Sidewalks and pathways to be wide enough to accommodate multiple users traveling in opposite directions at the same time.

Active Design

Active Design is an approach to developing buildings, streets, and neighborhoods that uses architecture and urban planning features to make daily physical activity and healthy foods more accessible and inviting[1].

Improved bicycle and pedestrian network implemented via the Plan includes multi-use paths that promote active transportation options and various physical activities. The network assumes the integration of civic spaces and green infrastructure to encourage active recreation and promote daily physical activity and an active lifestyle. Safe and convenient access to nearby grocery stores, community gardens in civic spaces, and a central plaza accommodate a food and art market to make healthy food accessible to the Site residents and residents of nearby neighborhoods.

HEALTH + WALKABILITY

The societal benefits of a walkable environment are an active lifestyle, better public health, safety, and a sense of community. Equally beneficial is providing open space and nature access, particularly in dense urban conditions. The quality of a place's public realm, described as its streets and civic spaces, plays a prominent role in determining how ***walkable*** *that place will be. Open spaces can include public parks, plazas, and publicly accessible open spaces on privately-owned parcels. Open spaces can take various forms to respond to different environments, and design criteria vary accordingly.*

Designing for Health at The Midtown Site

A well-designed and inclusive public realm is one that all residents and visitors can visit and enjoy freely and comfortably, feels safe at all times, and encourages day-to-day, spontaneous interaction. It promotes an active lifestyle, improves public health, and creates safer, more close-knit communities.

The Midtown Site has the opportunity to create a development that promotes health equity by encouraging active lifestyles and providing access to resources that promote health. The Site can make active transportation options the preferred way of getting around and offer better connections to healthy food places and other resources that promote community health.

Health Equity Framework

A fundamental element of the vision for the Site is a well-designed, cohesive public realm that functions as connective tissue, integrating adjacent neighborhoods and creating a strong sense of place. The Plan includes a variety of pedestrian network enhancements to maintain a high-quality pedestrian environment and encourage active transportation. Through a defined network of streets and public spaces, the Plan creates a district that promotes better health through physical activity:

- Parks and plazas are located throughout the Site, to provide spaces for recreation and physical exercise, and
- Streets and paseos enhance pedestrian and bicycle connectivity and link key destinations to encourage active transportation.

Promoting Physical Activity + Health Equity in Design

Thoughtful environmental and urban design are vital to building and maintaining a healthy society. Active design may have particular consequences for children's health, especially those in low-income neighborhoods. Increasing the number of facilities encouraging physical activity has been associated with lower obesity and more significant physical activity in youth. Access to parks, open spaces, recreational facilities, and children's play areas can promote better health through physical activity.

Parks, Open Spaces + Recreational Facilities

- The design of parks, open spaces, and recreational facilities can complement the cultural preferences of the local population, and accommodate a range of age groups, including both children and their parents and guardians. Co-locating physical activity spaces for children and parents or guardians can simultaneously promote physical activity in different age groups.

Children's Play Areas

- Locations for play should be visible from the public right-of-way to allow for community surveillance and easy access.
- Lights on sidewalks and active play areas to extend opportunities for physical activity into the evening.
- A variety of climate environments can facilitate activity in different seasons and weather conditions. For example, include sunny, wind-protected areas for use in the winter and shaded zones for use in the summer.

4. Connectivity + Mobility Vision

In this chapter

4.1 Conceptual Connectivity + Mobility Framework	72
4.2 Connectivity + Mobility Phasing	76
4.3 Multimobility Best Practices	80
4.4 Connectivity + Mobility Action Items	86

4.1 Conceptual Connectivity + Mobility Framework

Multimodal Connectivity + Enhanced Mobility

The Midtown Master Plan (Plan) acknowledges different user needs by introducing various mobility and connectivity options. Multimodal street design will accommodate diverse users with varying transportation needs, preferences, and abilities. A cohesive network of streets, paseos, and bike lanes will bring cyclists, pedestrians, and cars from Cerrillos Rd. and St. Michael's Dr. to the Midtown Site (the Site).

The Plan presents a hierarchy of streets in the Site to balance vehicular traffic with the needs of pedestrians and cyclists, and balance short and long-term needs. Initially, 'soft connections' will build upon the existing potential for pedestrian and bike connectivity and connect the Site to important cultural anchors around. The soft connections vary from improved sidewalks, bike lanes, multi-use paths, and connections to existing trails and nearby schools.

East - West Connectivity Goals

- Connect to adjacent neighborhoods, such as Hopewell-Mann neighborhood, and Franklin E. Miles Park.
- Prioritize pedestrians and cyclists over vehicles.
- Provide access to transit along St. Michael's Dr.
- Deliver good internal connectivity.

North - South Connectivity Goals

- Connect to acequia and arroyo trail system.
- Minimize cut-through traffic.
- Provide access to transit on Siringo Rd.

Streets for a New Center
Enjoyable and highly walkable streets lined with shops, restaurants, and community uses.

Neighborhood Streets
Typical streets that balance vehicular, bike, pedestrian, and green space.

Multimodal Corridors
North - south and east - west streets that include separated bike paths and sidewalks.

Shared-use "Slow Streets"
Living alleys designed for very slow vehicle speeds.

Enhanced Bike/ Pedestrian Paths
Bike and pedestrian-only pathways that connect within the Midtown Site and to surrounding neighborhoods.

Pedestrian Paseos
Urban pedestrian pathways between buildings and within open/civic space.

Legend
The Midtown Site
Streets with Bike Lanes
Shared-use Streets
Streets with Separated Two-way Bike Lane
Plazas + Paseos
Parks + Open Spaces

The Midtown Site Connectivity + Mobility Guiding Principles

Balanced. Ensure people can easily move within the Midtown Site and get there by bike, walking, taking transit, driving, rideshare, or by e-mobility. Dedicating specific routes within the Site promotes safe active transportation options and still allows auto connectivity.

Connected. Allow for the Midtown Site to be well-connected both internally and also easily accessible by surrounding neighborhoods, regional parks, trails, open space, schools, civic areas, commercial centers, and transit stops, including the New Mexico Rail Runner.

Enjoyable. Streets are designed to maximize the comfort of the walking and biking experience. Landscaping and street trees help soften the streetscape, help create a buffer between vehicular movement, and cool the street during hot daytime conditions. Streets easily blend into small pedestrian-friendly plazas and plaza spaces within the Midtown Site.

Sustainable. The Midtown Site streets and connections go beyond moving people and serve as ecological corridors using landscaped-based stormwater management, trees for passive solar energy and ambient air cooling, and a diversity of plant species, including pollinator-friendly low-water use plants.

Flexible. Design streets, especially in the heart of the Midtown Site, to be used as flexible public spaces. Streets can be closed for special events but still allow traffic to move effectively through the Site. Flexible streets can also be designed as "flush" or "curbless" to the surrounding sidewalks allowing for the easy physical transformation of space.

Authentic. The flavor and feel of the Midtown Site streets should be a reflection of the local area. Paving materials, landscaping, street furniture, lighting, wayfinding/ signage, and public art should be unique to Santa Fe and not overpower the aesthetic of the surrounding neighborhoods.

Add Signage and Temporary Art Language adapted from the Railyard Master Plan

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site.

Vehicular Parking Strategy

The Plan brings a variety of parking strategies to the Site to reduce the need for large parking lots, which can negatively impact walkability and increase the heat island effect. While the Site will be accessible by various transportation options, including walking/ rolling, bicycling, and transit, people who drive to the Site, will be encouraged to "park once" and walk to different destinations within the Site rather than driving between each destination. Some parking strategies to include:

- On-street parallel parking to be shaded by street trees.
- Above or below ground public parking structure with capacity for solar panels on roof located near the edge of the Site to reduce the number of cars traveling through the Site to reach parking.
- Small surface lots and/or "tuck-under" parking on the ground floor of 2-3 story buildings.
- Parking to be located in "podiums" and underground structures for larger 4-5 story buildings.
- Parking to be located behind buildings with access via driveways and/or Living Alleys whenever possible.

In the Midtown Site, parking will be designed and managed to accommodate different users:

- Public parking on streets and in public parking structure(s).
- Private parking for use by future residents, businesses, and customers.

Public parking is detailed on the map to the right. A Parking Demand Management Strategy may be needed to leverage the Site's proximity to schools, shopping, and other destinations, including transit, and analyze the complete pedestrian and bike network proposed for the Site. The Parking Management Strategy could support the implementation of affordable housing and smaller-scale incremental development by showing the effects on development when reducing parking requirements.

Parking Vision

Legend

- The Midtown Site
- Proposed Parking Structure Site for Public Parking
- On-street Parking
- New Paseos/ Pedestrian Paths
- Long-range Streets
- Existing Buildings to be Adaptively Reused
- New Plazas + Parks
- New Open Space/ Linear Park
- Existing Open Space

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

4.2 Connectivity + Mobility Phasing

Connectivity + Mobility Phase 1

- Upgrades to some existing streets.
- Construction of new streets and paseos.
- Enhancements to existing external connections.
- New potential connection to Cerrillos Rd.

Phase 1. *Within the Site partial public street and pathways build-out.*

Phasing

Streets, pedestrian paseos, living alleys, and bike paths will be developed incrementally to facilitate an orderly and efficient build-out of the Midtown Site and encourage complimentary redevelopment on adjacent parcels. New facilities will prioritize convenient and safe access to and within the Site for people walking and rolling, riding bikes, taking transit, and using other forms of active transportation, in addition to accommodating service and construction vehicles and those traveling by car.

Connectivity + Mobility Phase 2

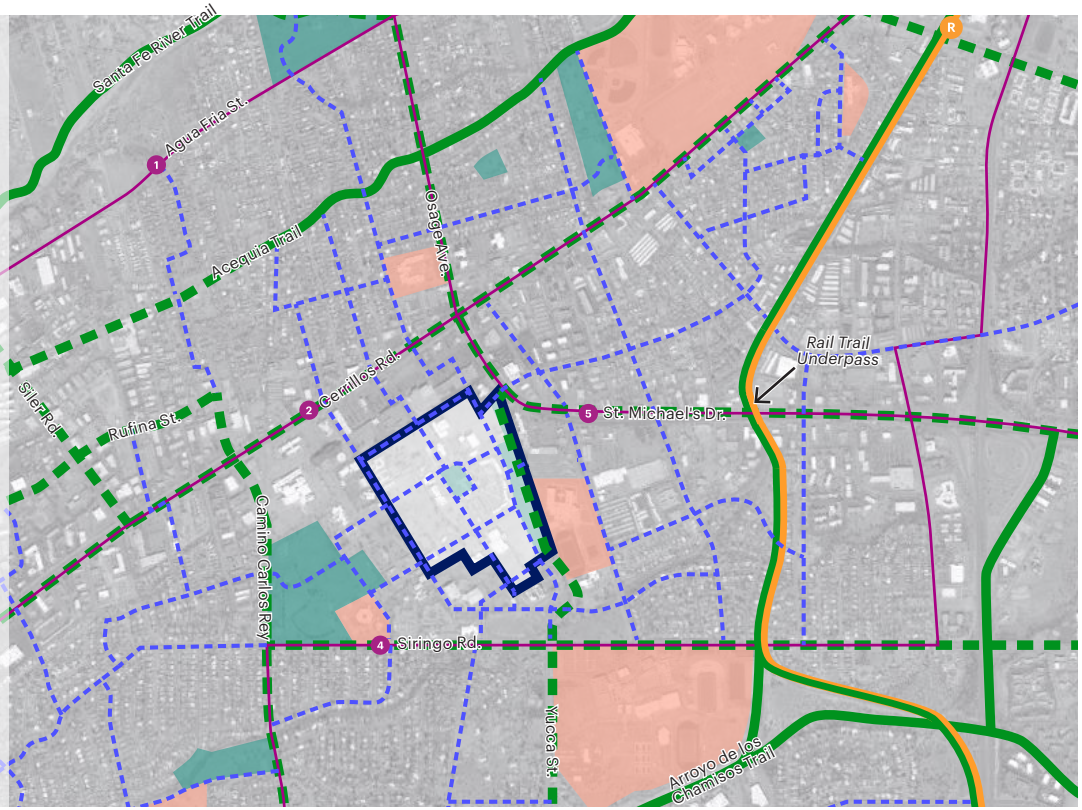
- Upgrades to remaining existing streets.
- Construction of remaining new streets and paseos.
- Potential new connections to St. Michael's Dr. and Siringo Rd.

Phase 2. *Within the Site public street and pathways build-out.*

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Connectivity + Mobility Phase 3

- Potential new connection to Franklin E. Miles Park.
- Potential new connections to St. Michael's Dr. and Siringo Rd.



Phase 3. *Connection to park.*

Legend

- The Midtown Site
- Streets with Existing or In-design Phase Bike Facilities, MPO
- Future Bike Connections + Trails, MPO
- New Paseos/ Pedestrian Paths
- New Bike Streets within the Site
- Existing Buildings to be Adaptively Reused
- Existing Bus Stops
- New Parks + Plazas
- New Open Space/ Linear Park
- Existing Open Space

Regional Connectivity

As the Master Plan circulation network is implemented, the City will facilitate and encourage the completion of two important, non-road shared-use paths prioritized in the 2019 Bicycle Master Plan (BMP). The first is the Midtown Campus Trail, an important connection between Siringo to the existing Midtown entrance at St. Michaels Drive, identified in the BMP as a critical north-south, road-independent bicycle and pedestrian link with potential connections to Yucca Street, Milagro Middle School, and shopping opportunities. The second is the Midtown Campus Wall Trail, envisioned as linking the Midtown Campus Trail to Lujan Street at Cerrillos Road, as a link north to The Acequia Trail and west to Franklin Miles Park.

Regional Connectivity Vision

Enhancing existing streets to make them more comfortable and safer for people walking, rolling, and riding bikes can help connect the Midtown Site to existing and planned regional trails and transit facilities.

Legend

- The Midtown Site
- Regional Trails
- Regional Bike/ Pedestrian Routes
- Neighborhood Bike/ Pedestrian Routes
- Santa Fe Trails Bus Routes*
- New Mexico Rail Runner Express + Rail Trail
- Civic Facilities
- Parks

**As the residential and workforce population at the Site grows, alignment of transit routes and location of transit facilities could change to better serve the Site based on evolving demand for transit.*

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

Connections to Hopewell Mann + Adjacent Neighborhoods

The Plan prioritizes safe and convenient connections between the Midtown Site and nearby neighborhoods, such as Hopewell-Mann, providing current residents access to the amenities and community uses proposed at the Site. Improvements to existing external connections along St. Michael's Dr. will create safer and more convenient pedestrian crossings. Improvements to existing external connections along St. Michael's Dr. will create safer and more convenient pedestrian crossings to St. Michael's Dr. and to Midtown from Hopewell-Mann.

Add Signage and Temporary Art Language adapted from the Railyard Master Plan

Add

Regional Connections

Improved connections between the Site and existing regional trails — such as the River Trail, Arroyo de Los Chamisos Trail, and Rail Trail — will provide connectivity options for people traveling between the Site and Downtown, the Railyard, Santa Fe Place Mall, and other regional destinations. Upgrading existing bike and pedestrian facilities and providing new facilities, as illustrated in the map above, can support connections to these trails and Siler Rd. employment area.

Short Term

Long Term

Bike, Pedestrian + Transit Vision

Streets, pedestrian facilities, and bike facilities will be designed to achieve the following:

- Sidewalks on every street and crosswalks at every intersection.
- Bike facilities on every street.
- Crosswalks at all external connections to existing streets.
- Direct pedestrian connections to bus stops.
- All civic/open spaces and community use buildings to be accessible via walk/roll sidewalks and/or paths and bicycle facilities.

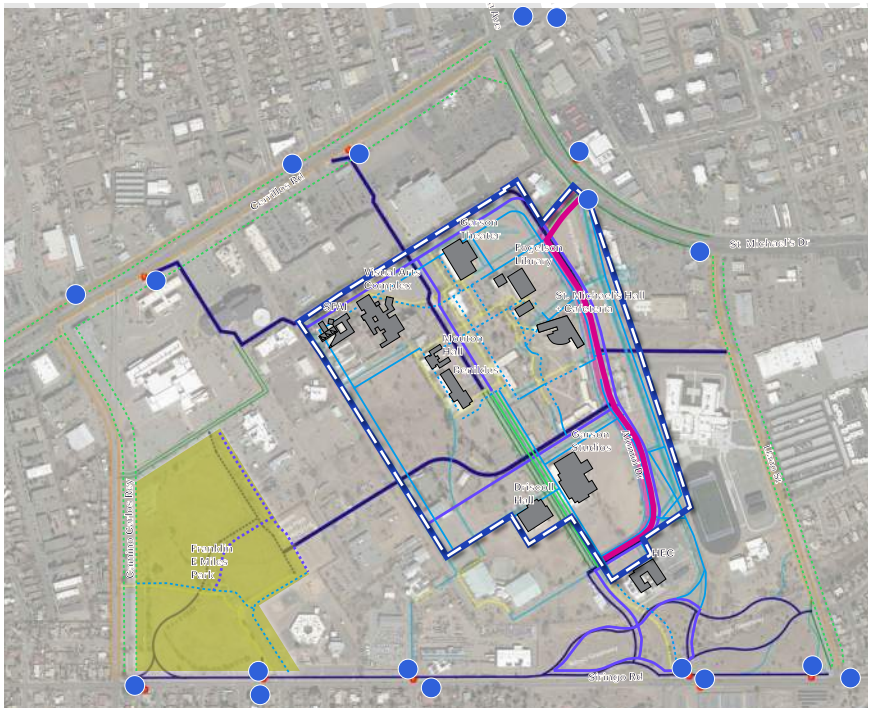
Legend

- The Midtown Site
- Streets with Existing or In-design Phase Bike Facilities, MPO
- Future Bike Connections + Trails, MPO
- New Paseos/ Pedestrian Paths
- New Bike Streets within the Site
- Existing Buildings to be Adaptively Reused
- Existing Bus Stops
- New Parks + Plazas
- New Open Space/ Linear Park
- Existing Open Space

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

Improvements to St. Michael's Dr. + Cerrillos Rd.

Projects undertaken by the City and the State will provide improvements to Cerrillos Rd. and St. Michael's Dr. specific to the safety, comfort, and convenience of people walking, rolling, riding bikes, and taking transit. The projects will improve accessibility to the Midtown Site. Future upgrades to sidewalks, intersections, transit facilities, and bike facilities should provide accessibility to the Site for all Santa Feans.



Early Phase "Soft Connections"

The Plan envisions a variety of street types that balance vehicular traffic with the needs of people walking, rolling, riding bikes and taking transit. Short and long-term needs are recognized by a phasing plan that includes 'soft connections' preceding Phase 1 that will build upon the existing roadway and sidewalk network to provide improved connectivity to nearby destinations and neighborhoods. The soft connections vary from improved or new sidewalks, bikelanes, multi-use paths, and connections to existing trails and amenities.

This example shows how minor modifications to an existing parking lot allow for a pathway that connects people walking, rolling, and riding bikes. P St & Stockton Blvd, Sacramento, CA. Source: Google Maps

Coordination with adjacent property owners will be necessary to create these "soft connections" over time as they look to redevelop or improve their properties. Connections between the Midtown Site and existing commercial areas could provide new opportunities for economic development and incentivize the implementation of the existing Midtown LINC overlay. In addition, the redevelopment of Midtown creates an opportunity for collaboration between the city and the school district to create Safe Routes to School programs that make it safer and more accessible for students to walk and bike to school and encourage more walking and biking where safety is not a barrier.

Soft Connections

Legend

- The Midtown Site
- Existing Buildings to be Adaptively Reused
- Existing Open Space
- Alumni Dr
- Existing Pedestrian Connections
- New Sidewalks
- Existing Bus Stops
- Existing On-street Bike
- New On-street Bike
- Existing Multi-use
- New Off-street Multi-use

Pre-phase one improvements will provide direct connections between the Midtown Site, adjacent roads and parks, and the Hopewell-Mann neighborhood. These connections can be upgraded during future phases of development. It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

4.3 Multimobility Best Practices

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Overview

Proposed multimodal concepts are drawn from best practice mobility design components and strategies, including interventions that can be applied to the Midtown Site, and those meant for implementation in specific circumstances as determined by traffic operations and site context.

Continuity and consistency are key to the success of bike and pedestrian facilities; the Site offers an opportunity for consistent and continuous multimodal facilities, including on- and off-street bikeways, to support a wide range of biking abilities and interests. Consistent intersection treatments provide legibility and rhythm for people traveling the corridor on foot, wheelchair, bike, or other mode.

The separation of modes is a critical component of high-comfort multimodal streets. Many proposed streets within the development project separate pedestrian and bike paths and add protected on-street bike lanes and intersection protection to keep people biking separated from vehicular travel.

Streets designed for pedestrian and bicycle travel offer a multitude of health, environmental, safety, and livability benefits. Streets with multimodal mobility options promote active transportation and slow vehicle speeds and inspire conviviality and public life. The following pages describe several key mobility best practices, but they are not limited to what is shown.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Shared-use Pathways

Shared-use paths are physically separated from motor vehicle traffic by an open space or barrier. The separation creates a facility that is comfortable for people of all ages and abilities.

1. The desirable width of the separated path for bikes and micromobility devices is 12 feet, excluding the shoulders. Surface materials can be asphalt or concrete with special paving at mixing zones and approaches to intersections. See Pedestrian + Bike Mixing Zones.
2. Provide a shoulder or horizontal clearance between the path and vertical elements such as fences, walls, or signs.
3. When space allows, provide separation between people walking and rolling and people on bikes or other micromobility devices to reduce conflicts between modes. When the pedestrian path is separated from the bike or wheeled path, the materials should be dissimilar to make the separation clear to users. The desirable width for the separated path for people walking and rolling is 8 feet, but it should be no narrower than 6 feet.
4. A buffer between the pedestrian path and the bike/wheel path encourages people to stay in their path. The buffer can be special paving, vegetation, or other feature denoting separation. At-grade planters that will allow for street trees should be 5 feet or wider.

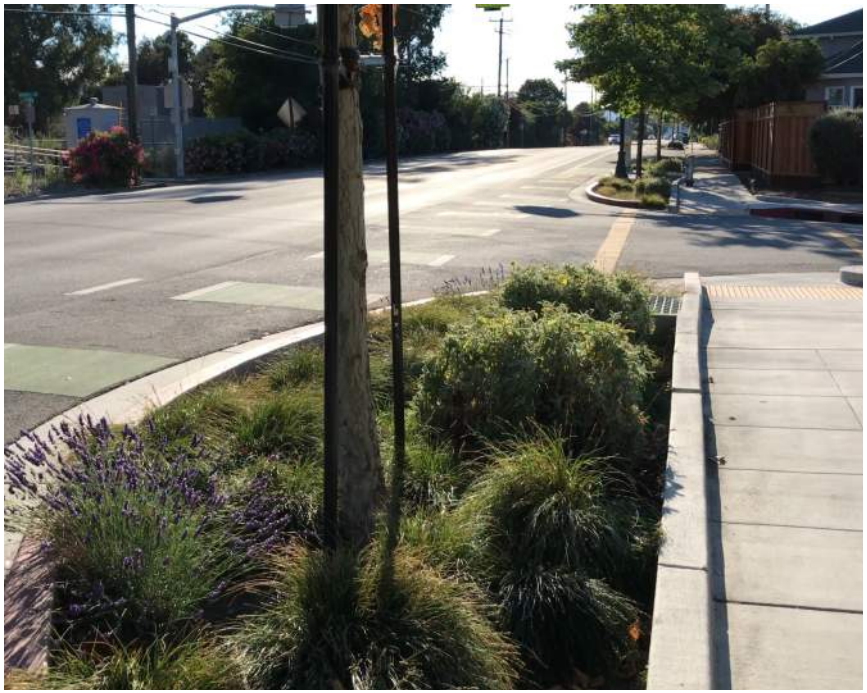
Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Class IV Separated Bike Lanes

Class IV or separated bike lanes include a physical barrier from the roadway. The conceptual design includes a physical barrier in some areas of the corridor. In those locations, the following guidelines should be considered.

1. Physical separation in the buffer between the bike lane and motor vehicle lane can include cast-in-place concrete, pre-cast curbs, plantings, flexible posts, inflexible posts, etc. At-grade planters in the buffer should be 3 feet or wider to provide space for low plants. 5-feet minimum width is required to support street trees. Keep vertical elements in the buffer, including plantings, below 30 inches to maintain sightlines.
2. The bike lane can be at the roadway, sidewalk grade, or midway between. The bike lane width should be 5 feet or wider, not including the gutter.
3. If applicable, a buffer between the separated bike lane and sidewalk encourages people biking to stay in the bike lane. The buffer can be special paving, vegetation, or other feature denoting separation. At-grade planters that will allow for street trees should be 5 feet or wider.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.



Class II Buffered Bike Lanes

On-street bicycle lanes provide an exclusive space for bicyclists in the roadway and provide accommodation for more confident bicyclists who desire to travel at greater speeds.

1. Class II or buffered bike lanes include pavement markings in the buffer space between the bike lane and motor vehicle lane. The buffer width should be 2 feet or wider. When space is constrained, and the minimum bike lane dimensions cannot be provided as mentioned above, low-profile rectangular reflective pavement delineators can be used to provide an additional visual and physical marker between the motorist travel lane and the bike lane.
2. The bike lane width should be 5 feet or wider.
3. If applicable, a buffer between the bike lane and sidewalk encourages people biking to stay in the bike lane. The buffer can be special paving, vegetation, or other feature denoting separation. At-grade planters that will allow for street trees should be 5 feet or wider.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Curb Extensions

Curb extensions, also known as neckdowns, bulb-outs, or bump-outs, are created by extending the sidewalk and planting buffers at corners or mid-block. Curb extensions are intended to increase safety, calm traffic, and provide extra space along sidewalks for users, amenities, planting, and green infrastructure.

1. Curb extensions visually and physically narrow the roadway to create safer and shorter crossing distances for pedestrians while increasing the available space for street furniture, benches, plantings, trees, and green stormwater infrastructure.
2. Curb extensions prevent cars from parking where parking is not allowed and improve sightlines near the crosswalks, midblock crossings, and stop signs. The curb extension should be the 20-feet minimum length at signalized intersections and 30-feet minimum length at stop-controlled intersections.
3. Curb extensions can also change the geometry of intersections, resulting in smaller corner radii and slowing turning motor vehicles. It is important to design the curb extensions so that street sweeping equipment can still adequately maneuver and clean the street gutter.
4. The curb extension should not reduce the bike lane width below the minimums.

Images on this page illustrate general concepts applicable to the Midtown Site, but do not represent proposals for specific facilities at the Site. Dimensions are not regulatory.

Pedestrian + Bike Mixing Zones

Where people walking and rolling cross paths with people biking, mixing zones are provided as a signal to all users that they must yield. Mixing zones are indicated by a paving material that differs from the pedestrian and bike paths.

1. Special paving at mixing zones indicates people on wheels yielding to people walking and rolling. The special paving should be comfortable for people on wheels, with minimal pavement joints.

4.4 Connectivity + Mobility Action Items

NOTE

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

Short Term

1. Construct new connections and upgrade existing connections between existing bus stops and the Midtown Site.
2. Develop a parking enforcement strategy for all on-street and public parking facilities at the Midtown Site.
3. Create and implement a Parking Demand Management Strategy to provide options and tools that reduce the amount of parking needed for development.
4. Improve connectivity between neighborhoods to the north, east, and south of the Midtown Site by improving pedestrian and bicycle connections at intersections on Cerrillos Rd., St. Michael's Dr., and Siringo Rd.
5. Work with nearby property owners to determine the desirability and feasibility of "Soft Connections" that improve convenience, safety, and comfort of people accessing the Midtown Site by walking, rolling and riding bikes, including improvements to crosswalks, intersections, and sidewalks along Cerrillos Rd, St. Michael's Dr. and Siringo Rd.

Medium Term

1. Work with Santa Fe Trails to improve service between the Midtown Site and key destinations and neighborhoods in Santa Fe.
2. Upgrade existing bus stops near the Midtown Site to promote the use of transit.
3. Include charging facilities for electric vehicles and bicycles for on-street parking and parking located in structures that serve community use buildings.
4. Provide incentives and consider requirements for electric vehicle and bicycle charging facilities for private developments.
5. Work with State, County, and Local entities to promote improvements and upgrades on area streets that make it safer and more convenient to access the Midtown Site using active transportation and transit.
6. Collaborate with adjacent property owners to plan and develop additional multimodal connections between the Midtown Site and existing streets within the Midtown/LINC Zoning Area.

Long Term

1. Include the Midtown Site in planning for micro-mobility services such as bike-share and scooter-share programs.
2. Investigate opportunities to strengthen connection to RailRunner via existing bus routes or a new shuttle route.
3. Upgrade bike and pedestrian facilities that connect the Midtown Site to regional networks such as the Rail Trail and the Acequia Trail.
4. Collaborate with adjacent property owners to plan and develop additional multimodal connections and Safe Routes to Schools between the Midtown Site and existing streets within the Midtown/LINC Zoning Area, as well as building frontages and circulation networks that enhance a strong Midtown/LINC Zoning Area, the Midtown District. No external connections shall be constructed or dedicated without the express consent of the affected adjacent property owner.

NOTE

It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

5. Development Standards

In this chapter

5.1 Purpose + Intent	90
5.2 Thoroughfare Standards	94
5.3 Civic + Open Space Standards	104
5.4 Development Standards + Regulating Plan	114
5.5 Sub-zone Standards	116
5.6 Facade Zone Standards	122
5.7 Frontage Types	136
5.8 Design Standards General to All	154
5.9 Plan Administration	158
5.10 Definitions	162

5.1 Purpose + Intent

The Development Standards in this Chapter provide supplemental standards to the Midtown LINC Zoning Area. They shape the physical form and built character of development and refine the palette of allowed uses at the Midtown Site. The development standards will not apply to adjacent properties.

Organization

The Development Standards are organized as follows:

- Section 5.2 (Thoroughfare Standards) provides standards for thoroughfare design and location.
- Section 5.3 (Civic + Open Space Standards) provides standards and guidelines for the development and location of civic and open spaces.
- Section 5.4 (Development Standards Regulating Plan) demonstrates where specific standards apply.
- Section 5.5 (Sub-Zone Standards) allowed uses.
- Section 5.6 (Facade Zone Standards) identifies required building setbacks, height and frontage standards relative to specific public way adjacencies.
- Section 5.7 (Frontage Types) provides required supplemental frontage standards for each frontage type.
- Section 5.8 (Design Standards General to All) provides supplemental standards for required courtyards, roof terraces, parking, and open space requirements.
- Section 5.9 (Plan Administration) provides special procedures and requirements for the preparation, filing, and processing of development applications applicable to Plan Area
- Section 5.10 (Definitions) provides terminology relevant to standards in this Section.

Development in Compliance with Regulating Plan

Steps	Instructions	Section/ Title
1	**Identify Sub-zone(s)**	Consult Section 5.4 (Development Standards Regulating Plan) Comply with Section 5.5 (Sub-zone Standards)
2	**Identify Facade Zone(s)**	Consult Section 5.4 (Development Standards Regulating Plan) Apply standards in Section 5.6 (Facade Zones) Apply standards in Section 5.7 (Frontage Types)
3	**Apply Supplemental Standards**	Apply standards Section 5.8 (Design Standards General to All)

Development Requiring Modifications to Regulating Plan

Modifications to Regulating Plan may include subdividing a development block into individual Lots, adjusting the location of paseos or civic spaces, or establishing public easements for alleys and paseos not included on the regulating plan.

Steps	Instructions	Section/ Title
1	**Identify Sub-zone(s)**	Consult Section 5.4 (Zoning Regulating Plan) Comply with Section 5.5 (Sub-zone Standards)
2	**Place Thoroughfares, Civic Spaces + Lots** **1.** Determine location and boundaries of thoroughfares, including alley and paseo easements. **2.** Determine location and boundaries of civic spaces. **Optional:** Subdivide remaining development block area into individual Lots, providing each with required frontage.	Comply with Section 5.2 (Thoroughfare Standards) Comply with Section 5.3 (Civic + Open Space Standards)
3	**Apply Facade Zone(s)** **1.** Identify applicable facade zone(s). **2.** Apply the appropriate facade zone(s) to new or modified thoroughfares. **3.** Apply the appropriate facade zone(s) to new or modified civic spaces. **4.** Apply standards.	Consult Section 5.4 (Zoning Regulating Plan) Comply with Section 5.2 (Thoroughfare Standards) Apply standards in Section 5.6 (Facade Zones) Apply standards in Section 5.7 (Frontage Types)
4	**Apply Supplemental Standards**	Apply standards Section 5.8 (Design Standards General to All)

Applying Standards at Various Scales of Development

The Development Standards are applied at three different scales as follows:

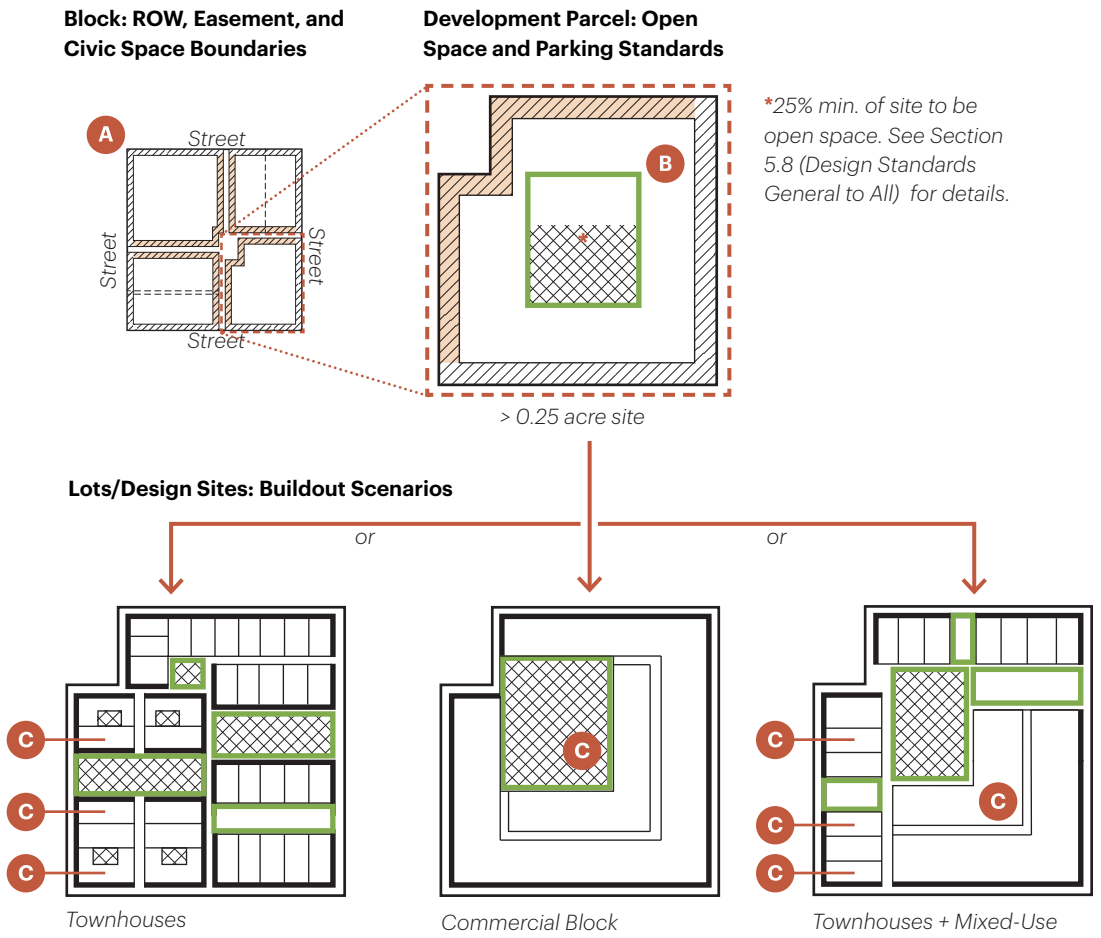
- Block – applying Sub-Zone, Thoroughfare, and Civic + Open Space Standards;
- Development Parcel – resulting from Blocks after placement of Streets, Paseos and Civic Spaces; and
- Lot/Design Site – determining form of buildings.

Key

Levels of Applicability

- A Block
- B Development Parcel
- C Lot/Design Site

Facade Zones Applied



- Street/Primary Frontage
- Paseo/Civic Space
- Side/Rear Lot Line

Open Space

- Common Open Space
- Courtyard Space

Building Facades

- Front/Side
- Rear/Internal

This page intentionally left blank

5.2 Thoroughfare Standards

NOTE

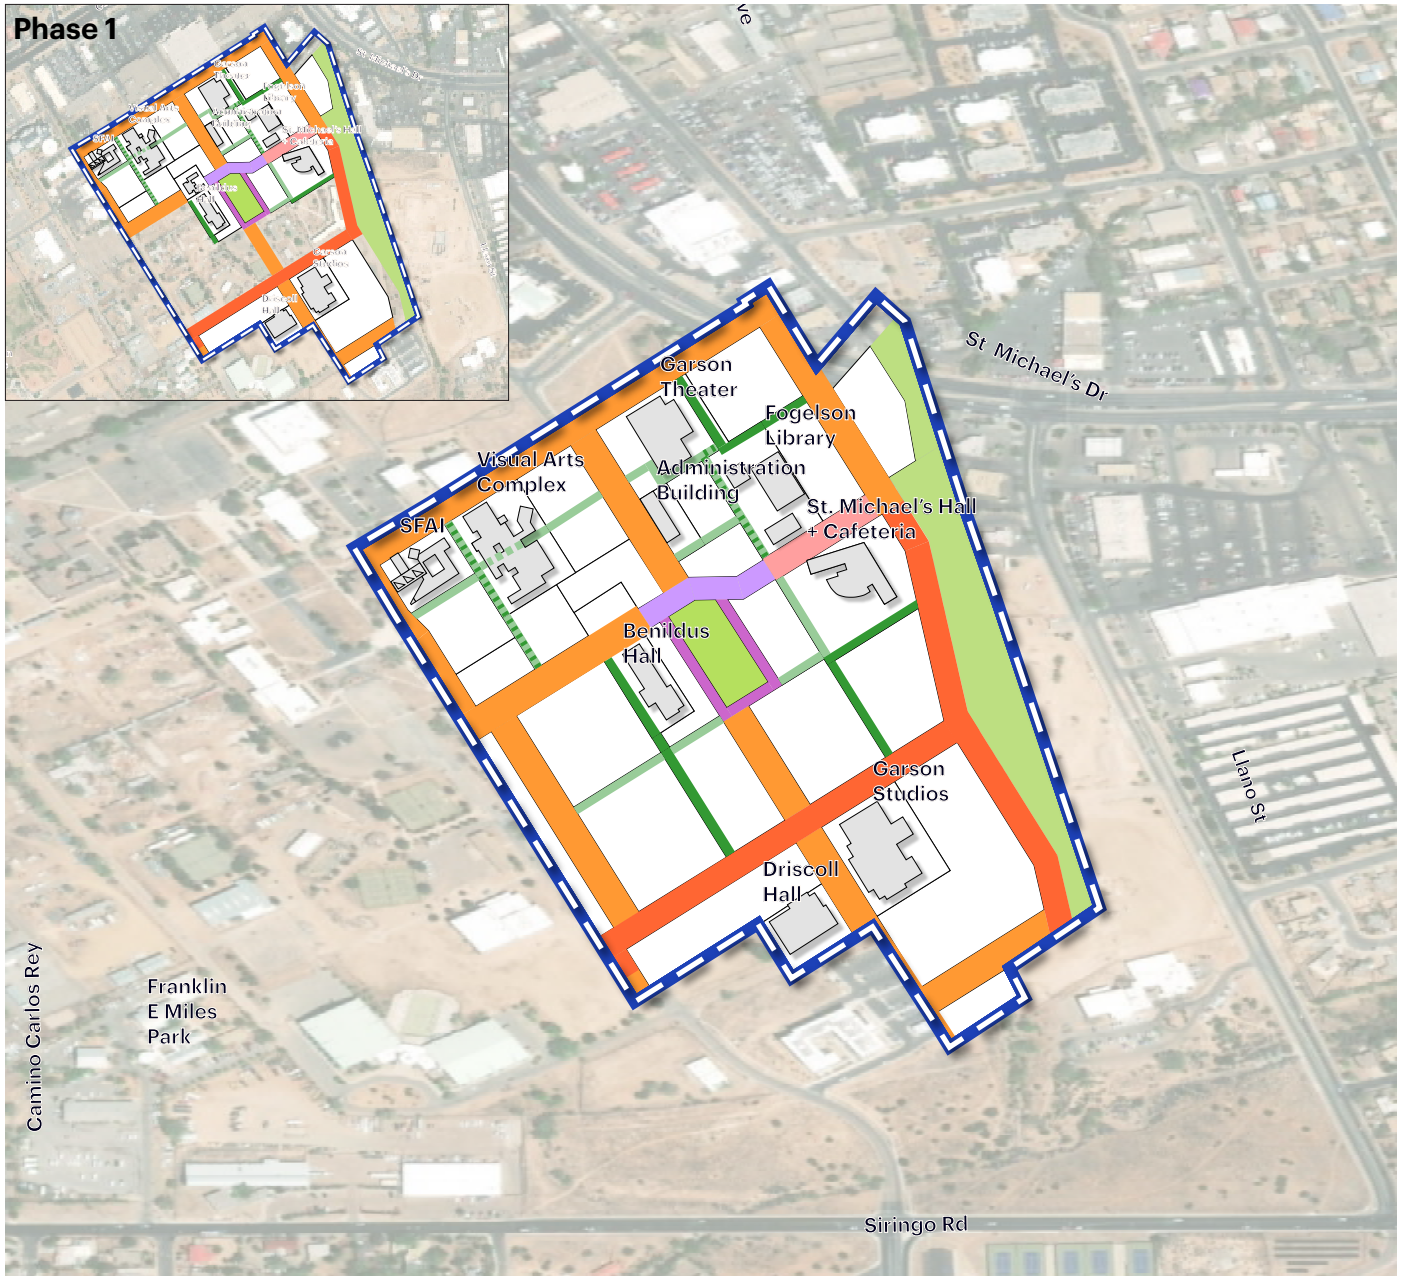
It is the City's intent to work with adjacent property owners to achieve a public objective of creating stronger and accessible multimodal connecting networks, as well as land uses and building frontages, that further the intent of the Midtown Master Plan and the LINC Zoning Overlay to create a cohesive, mixed-use Midtown District. Any plans in this Midtown Master Plan that illustrate public circulation and connecting networks, or other planning concepts on adjacent properties, are conceptual only.

This Section establishes the standards applicable to thoroughfares throughout the Midtown Site. These standards apply to public right-of-ways as well as to publicly-accessible easements within the development blocks and to generate a comprehensive and connected network.

Thoroughfare Placement + Standards

Thoroughfares shall be located in accordance with Figure 5.2.1 (Thoroughfare Regulating Plan) within the Midtown Site. The location of thoroughfares identified by the Regulating Plan may be adjusted with approval of the Director in either direction, measured perpendicular to the thoroughfare as mapped. Regardless of location, such thoroughfares must meet the standards for the applicable Thoroughfare Type, as provided in this Section.

Easements in Addition to Mapped Thoroughfares. In addition to the thoroughfares shown in the Regulating Plan easements may be established within individual development blocks to increase connectivity and access. Such easements, within the Midtown Site, shall connect to public right-of-ways and shall meet the standards for either the Paseo (if intended as a pedestrian space) or Living Alley (for vehicular and utility access).



Facade Zones on Unmapped Thoroughfares. For Paseos, where no facade zone is indicated in the Regulating Plan, the Neighborhood Paseo Facade Zone shall apply to any buildable area abutting the easement. No facade zone is required for buildable area abutting an alley not mapped in the Regulating Plan.

Relationship of Thoroughfares to Development Blocks + Lots

The arrangement of thoroughfares and the nature of the blocks they define are intimately connected. Each of the thoroughfares shown in the Regulating Plan defines the front of adjacent buildings, where they engage with the pedestrian realm and where main entrances may be identified.

Frontage Requirements for Subdivided Lots. If development blocks are further subdivided, each resulting lot shall have at least one frontage line extending for no less than 18 feet along a thoroughfare, civic space, or easement connected to a thoroughfare, where the standards in Section 5.6 (Facade Zones) and Section 5.7 (Frontage Types) shall apply.

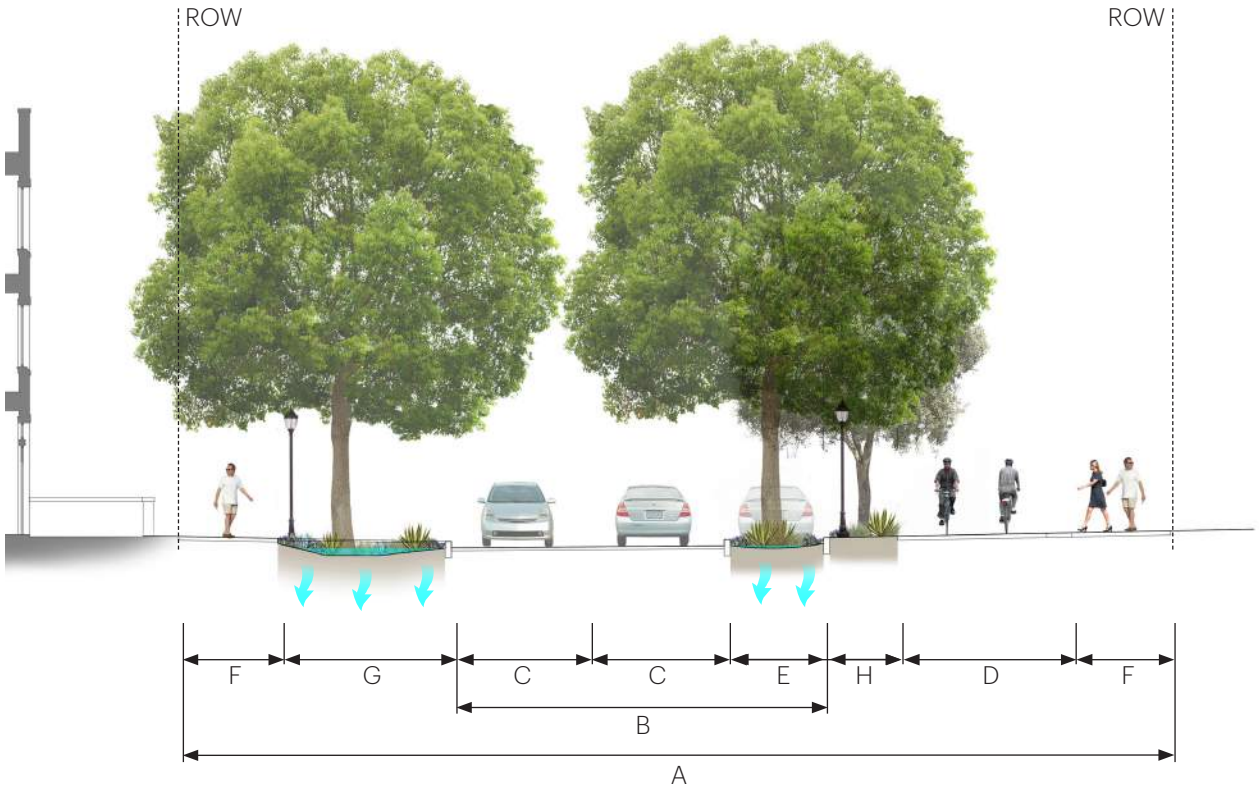
Added via Administrative Approval 3.17.25

5.2A Neighborhood Street

The Midtown Site

Neighborhood Street

Description



This street provides generous sidewalks, travel lanes and buffered bike lanes in both directions, with on-street parking on one side of the street and a rain garden or surface stormwater conveyance facility on the other.

Overall Widths		
Right-of-Way	72' to 82'	A
Curb to Curb Pavement	42'	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@10'	C
Bicycle Lanes	2@5' Lane + 2' Buffer	D
Parking Lanes/Curb Extensions	1@8'	E
Sidewalks	2@10'	F
Stormwater Conveyance Spine	1@14'	G
Planting Strip/Furnishing Zone	1@6'	H

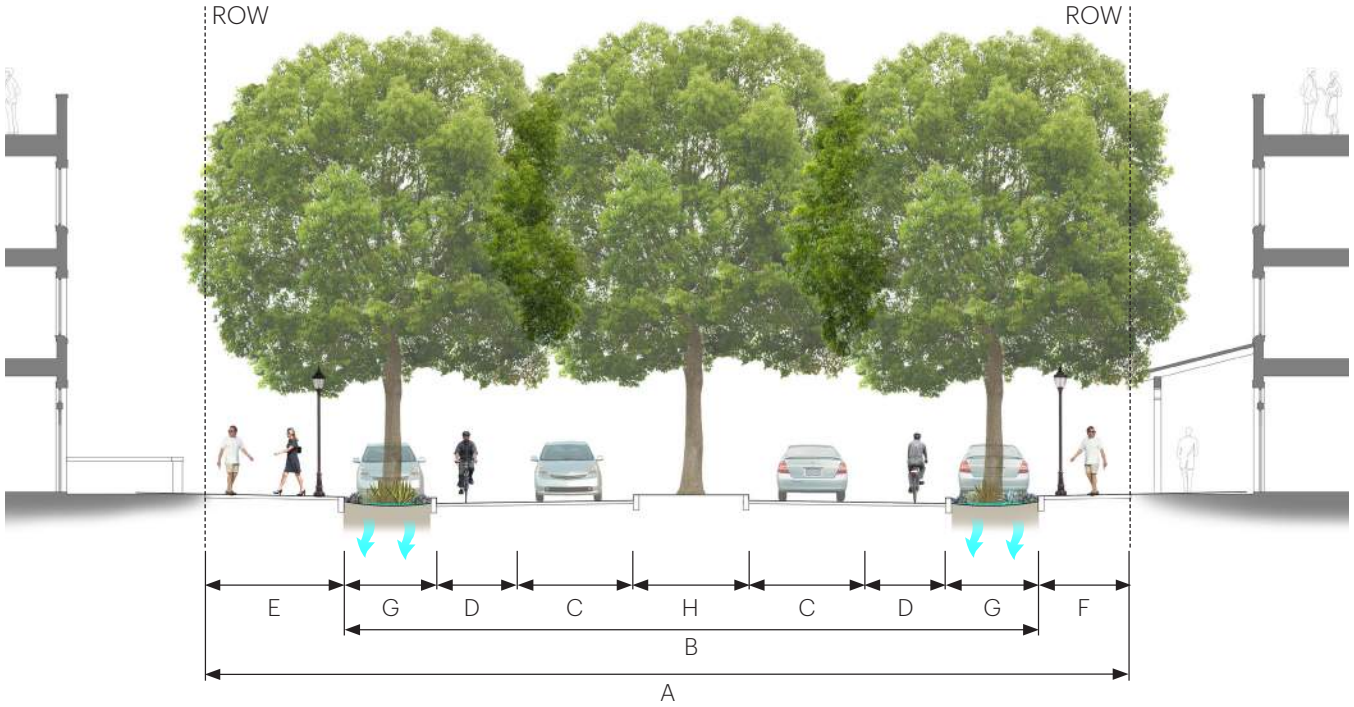
Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30' o.c. avg.
Stormwater Spine	Rain Garden/Boardwalk

5.2B Neighborhood Street with Pathway

The Midtown Site

Neighborhood Street with Pathway

Description



Main perimeter road with a separated major pedestrian and bike route and on-street parking on one side of the street. Stormwater is managed with both pervious pavement and stormwater curb extensions within the parking zone of the street as well as a prominent linear "stormwater spine." The majority of the street is graded towards the stormwater spine to maximize the capture of runoff.

Overall Widths		
Right-of-Way	80′	A
Curb to Curb Pavement	30′	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@11′	C
Two-Way Bicycle Trail	1@12′ + 2' Buffer	D
Parking Lanes/Curb Extensions	1@8′	E
Sidewalks	2@8'	F
Stormwater Conveyance Spine	1@14'	G
Planting Strip/Furnishing Zone	1@6'	H

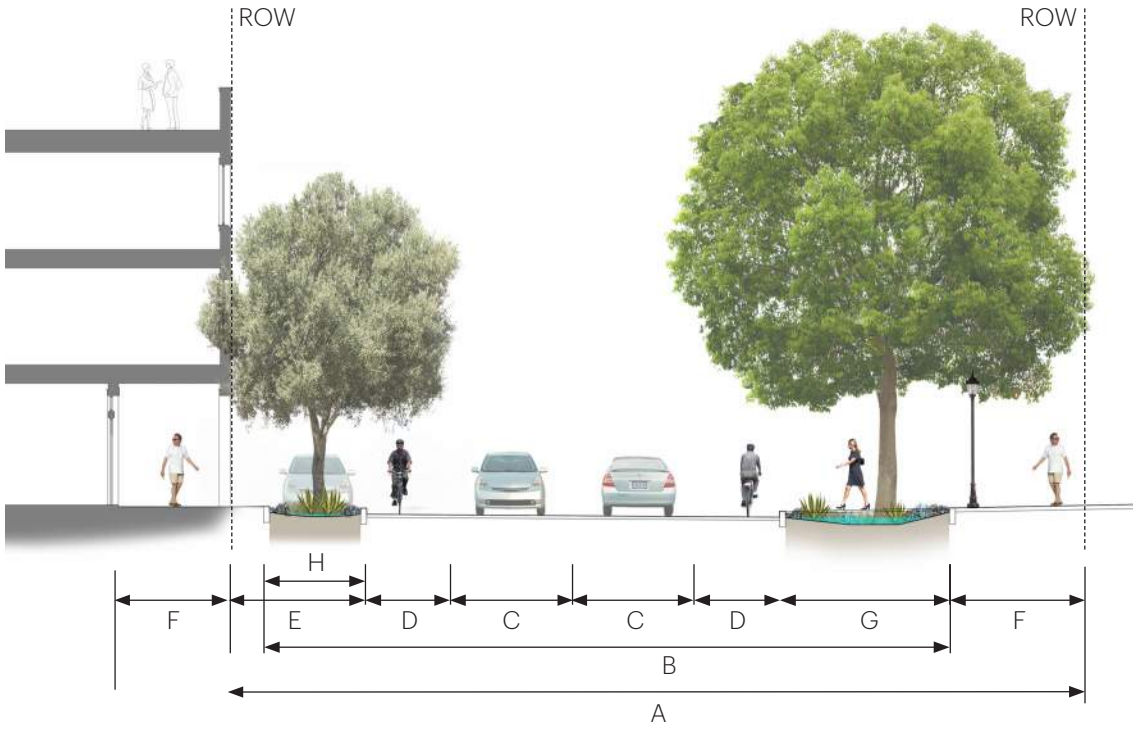
Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine	Rain Garden/Boardwalk

5.2C Neighborhood Street with Median

The Midtown Site

Neighborhood Street with Median

Description



This street provides generous sidewalks, on-street parking, travel lanes and buffered bike lanes in both directions, and a center median to provide additional planting area for street trees and a pedestrian refuge for people crossing the street.

Overall Widths		
Right-of-Way	80′	A
Curb to Curb Pavement	60′	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@10′	C
Bicycle Lanes	2@5′ Lane + 2' Buffer	D
Sidewalks	1@12'/1@8'	E/F
Parking Lanes/ Curb Extensions	2@8'	G
Landscape Median	1@10'	H

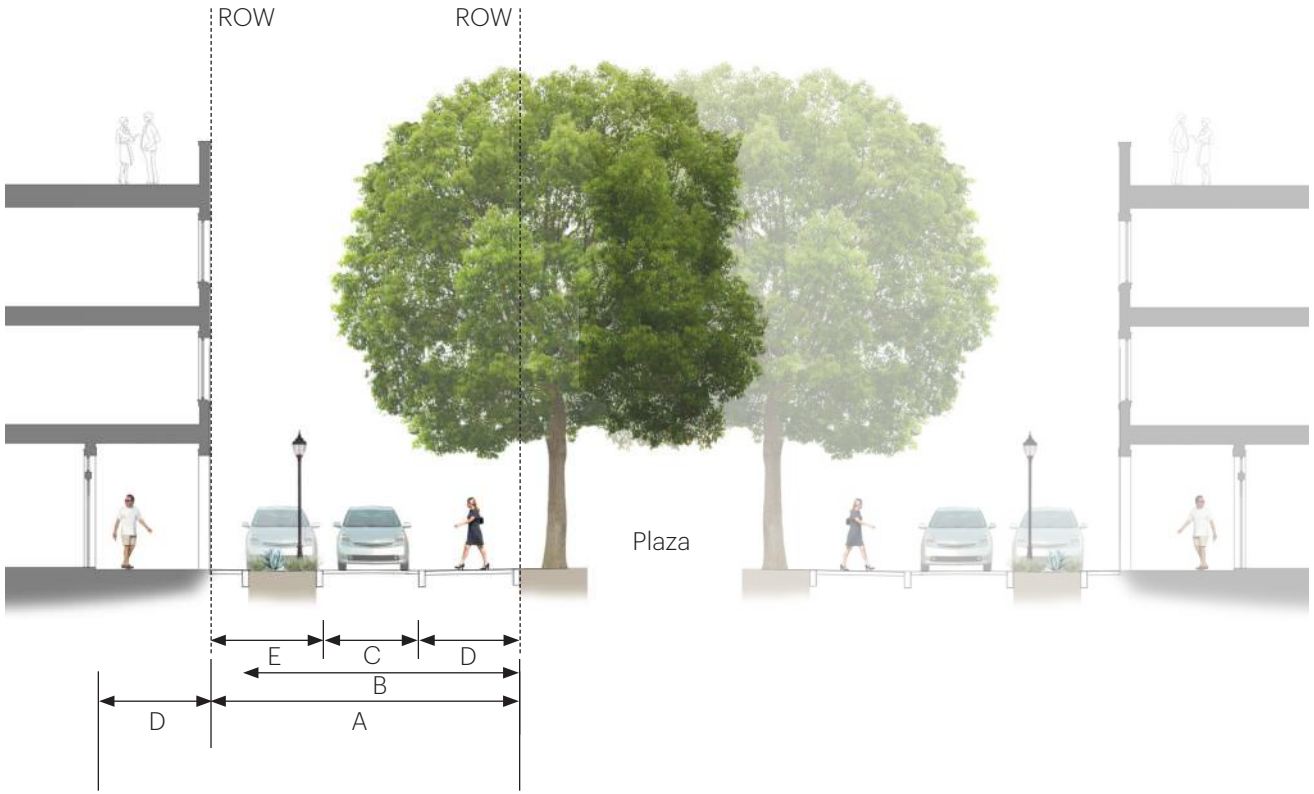
Green Infrastructure Assembly	
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30′ o.c. avg.

5.2D Plaza Street Two-Way

The Midtown Site

Plaza Street Two-Way

Description



This street combines elements of the Neighborhood Street with the wide pedestrian path and arcades that surround the Plaza. The bicycle lanes and stormwater spine ensure continuity for these elements across the Midtown Site.

Overall Widths		
Right-of-Way	72′	A
Curb to Curb Pavement	60′	B

Street Mode Assembly		
Vehicle Traffic Lanes	2@10′	C
Bicycle Lanes	2@5′ Lane + 2' Buffer	D
Parking Lanes/Curb Extensions	1@8′ + 4' Buffer	E
Sidewalks	2@12'	F
Stormwater Conveyance Spine	1@14'	G
Planting Strip/Furnishing Zone	1@8'	H

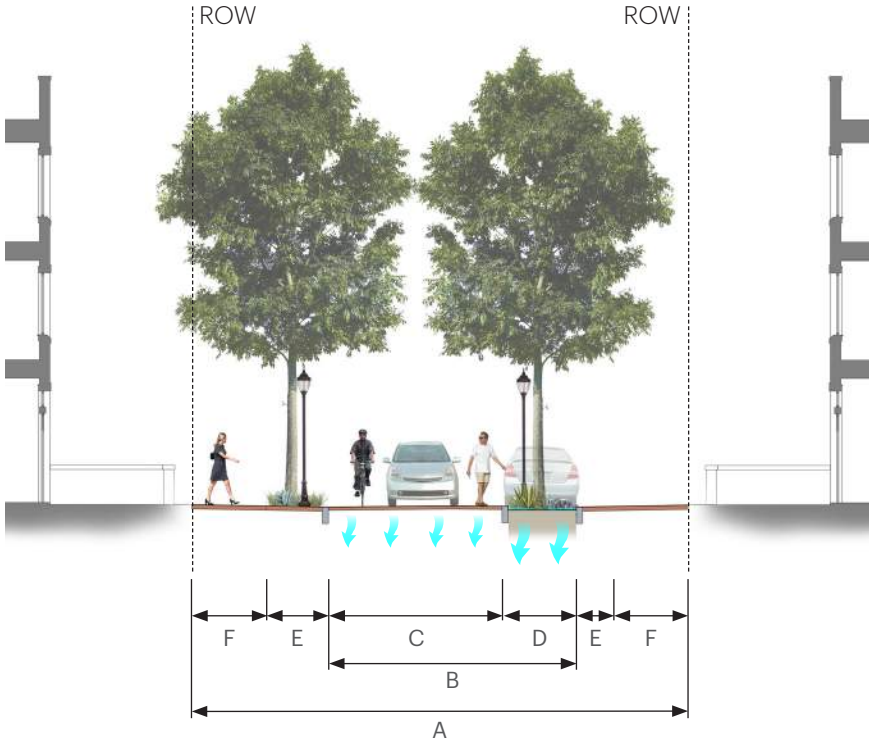
Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Parking Zone	Pervious Pavement/ Rain Gardens
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine	Rain Garden/Boardwalk

5.2E Plaza Street One-way

The Midtown Site

Plaza Street One-Way

Description



This curbless street facilitates pedestrian movement across the Plaza as well as counterclockwise traffic around it. It features parallel parking adjacent to the arcade frontage and a wide pedestrian zone on the plaza side that can also expand emergency vehicle access when needed.

Overall Widths		
Right-of-Way	32'	A
Curb to Curb Pavement	28'	B

Street Mode Assembly		
Vehicle Traffic Lanes	1@10′	C
Arcade/ Sidewalk	2@10'-14'	D
Parking Lanes/ Rain Garden	1@8′ + 4' Buffer	E

Green Infrastructure Assembly	
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine Zone	Rain Gardens/Boardwalk

5.2F Living Alley

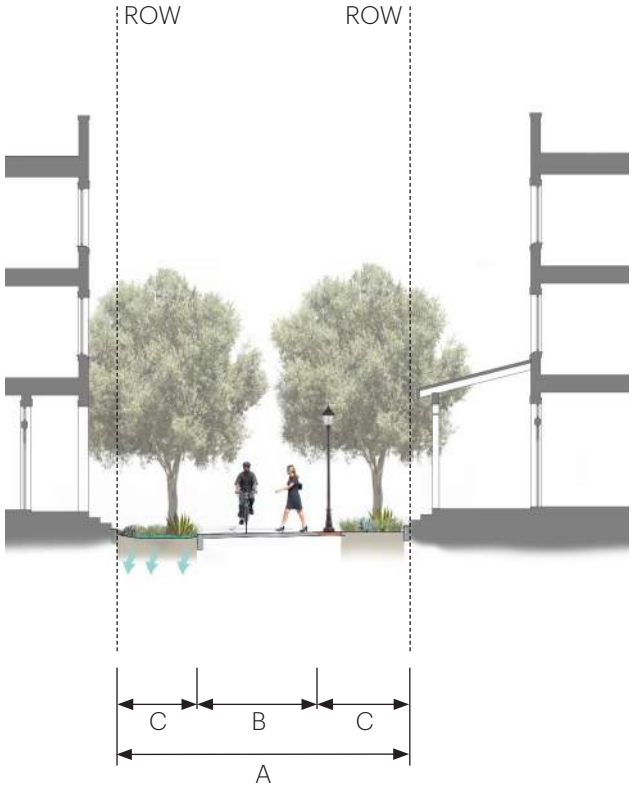
Design Considerations

Living Alleys should be designed to provide a comfortable environment for people walking and rolling through the Midtown Site while also providing service access to parking, loading/ unloading areas, and service entries. Living Alleys should use the following design strategies:

- Use pavers to slow traffic and allow for stormwater infiltration
- Travel lane should meander to slow traffic
- Parking/rain gardens should alternate sides to slow traffic
- Maintain vehicular traffic speed at 10 miles per hour or less

The Midtown Site
Living Alley

Description



This service street provides a two-way queuing lane (yield condition) that is meant as a slow-speed travel lane that accommodates people walking or riding bicycles, as well as the occasional vehicle. On-street parking is provided on alternating sides of the street and incorporates rain gardens in curb extensions.

Overall Widths		
Right-of-Way	26′	A
Curb to Curb Pavement	13'-26′ (Variable)	B

Street Mode Assembly		
Shared Travel Lanes	1@13′ Queuing Lane	C
Parking Lanes/Curb Extensions	1@7', Alternating Sides	D
Planting Strip/Furnishing Zone	1@6', Alternating Sides	E

Green Infrastructure Assembly	
Furnishing Zone	Pervious Pavement/ Landscape
Tree Zone	Trees @ 50′ o.c. avg.
Shared Travel Lane	Permeable Pavers
Parking Zone	Pervious Pavement/Rain Gardens

5.2G Paseo

Design Considerations

Paseos should be designed to provide a comfortable environment for people walking and rolling through the Midtown Site. Shade, seating, adequate pedestrian-scale lighting and public art can help to make the Paseo a pleasant outdoor space that serves to improve connections across the Site.

Description

Intended as a non-vehicular connection, the paseo provides a generous shared use path and green spaces for stormwater conveyance and infiltration.

Overall Widths		
Right-of-Way	26′	A

Street Mode Assembly		
Shared Use Path	1@10'	B
Stormwater Spine Zone	2@8' avg. (Variable)	C

Green Infrastructure Assembly	
Tree Zone	Trees @ 30′ o.c. avg.
Stormwater Spine Zone	Rain Gardens/Boardwalk

5.2H Additional Design Standards Applicable to All Thoroughfares

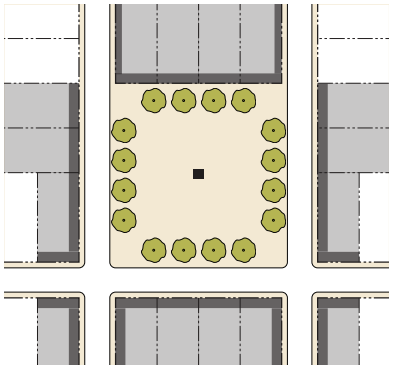
All Thoroughfares should be designed to demonstrate consistency with the following design standards. Reference the NACTO Urban Street Design Guide for additional design guidance.

Low-Speed Movements

- Thoroughfare design should reinforce motor vehicle travel speeds that are appropriate for the neighborhood environment envisioned for the Midtown Site:
  - Living Alleys should be designed to a Target Speed of 5-10 mph.
  - All other thoroughfare types in the Site should be designed to a Target Speed of no more than 20 mph.

Lighting

- Utilize light poles that are capable of accommodating at least one pole banner, where appropriate, but not on residential streets. Required on thoroughfares adjacent to Plaza and Main Street Facade Zones.
- 14-8.9 Outdoor Lighting in the Santa Fe Code of Ordinances establishes cutoff requirements for luminaires and average illumination levels for sidewalks, pedestrian areas, and public spaces consistent with Dark Sky policies.
- Lighting fixtures within the right-of-way should be pedestrian-scale in order to improve walkway illumination for pedestrian traffic and enhance community safety.



Stormwater Management Facilities

- Curb extensions at intersections and at mid-block locations as appropriate should be used for rain gardens and street trees.
- Low Impact Design (LID) stormwater management facilities should be integrated into the design of every thoroughfare in the Site.

Intersections

- Intersections and mid-block crossings should be designed so as to prioritize the safety and convenience of people walking, rolling, and riding bikes through the use of curb extensions, raised crosswalks, pedestrian refuges, and other design elements as appropriate.
- Intersections and mid-block crossings should include clearly marked pedestrian crosswalks, including instances where pedestrian paseos and/or living alleys intersect with multi-modal streets.
- Curb extensions and changes in paving material and/or color should be utilized where pedestrian paseos and/or living alleys intersect with multi-modal streets and at all mid-block crossings. Raised crosswalks may also be appropriate in these conditions.
- Curb ramps should be directional as feasible.

5.3 Civic + Open Space Standards

Building Frontage Adjacent to a Civic Space

Key

- Building Frontage
- Building Adjacent to Civic Space

This Section establishes the standards applicable to existing and new civic spaces and civic buildings. These standards supplement the standards for each zone. Civic spaces are land in the public realm—whether publicly or privately owned—available for civic gathering purposes.

Civic Space Types

Standards and Characteristics. The intent and purpose of each civic space type is described along with standards and characteristics regarding general physical character, uses, size and location. Characteristics are considered standards unless stated otherwise.

Amount of Open Space Required. As required by Section 5.8 (Design Standards General to All), development sites are required to include a minimum area of the site as open space. One or more civic spaces may be used to meet the open space requirements. Civic spaces identified on Figure 5.3.1 (Civic Space Regulating Plan) as having a flexible location shall be located within the same block as indicated by the Regulating Plan and shall be connected to the public right-of-way by adjacent paseos.

Civic Spaces, Public and Private. All civic spaces, whether privately or publicly owned, are required to be in compliance with the standards in this Section.

Stormwater Management Through Civic Spaces. Civic spaces in zones serve the additional purpose of managing stormwater. There is no minimum standard for the amount of stormwater to be detained in each civic space.

Civic spaces, and required open space in general, are intended to contribute to each development's stormwater management plan. This is to be accomplished as follows:

1. Stormwater is to be directed to civic space(s), open space on individual lots (such as courtyards, dooryards, and forecourts), planted medians, and tree planting areas along travel lanes.
2. Except for Plazas, Pocket Plazas, Playgrounds, and Community Gardens, each civic space shall accommodate stormwater while primarily being designed as a gathering space for people.
3. Civic spaces shall make use of permeable paving to reduce stormwater runoff—see Chapter 6 (Infrastructure and Stormwater).
4. Civic spaces are required to be designed in compliance with the standards of this Section and the Civic Space Regulating Plan.

Facade Zones Along or Adjacent to Civic Spaces. Each civic space shall be bounded on all sides by facade zones and/or rights-of-way. The applicable facade zone standards in Section 5.6 (Facade Zone Standards) shall govern the design of building facades facing the civic space.

5.3.1 Civic Space Regulating Plan

Legend

The Midtown Site

Civic Space Types:

Arroyo Park

Plaza

Quad Park

Pocket Park/Plaza

Other

Paseos

Existing Buildings to Reuse

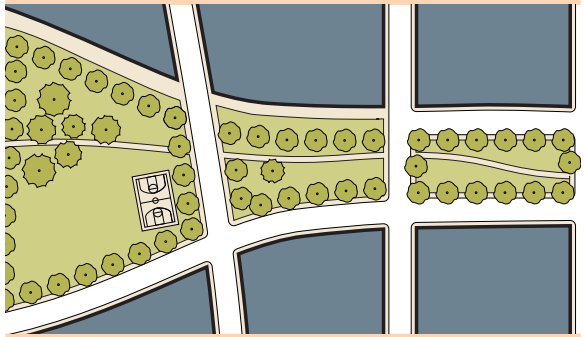
Development Blocks

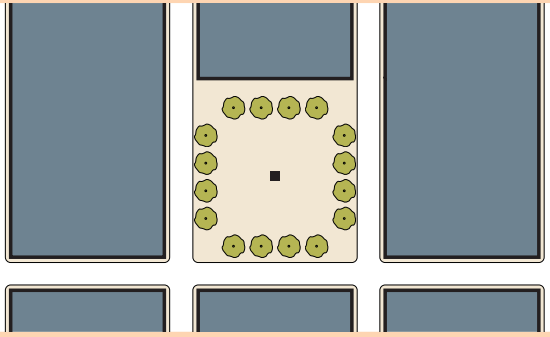
Civic Spaces shall be located in accordance with Figure 5.3.1 (Civic Space Regulating Plan) within the Midtown Site. The location of civic spaces identified by the Regulating Plan may be adjusted with approval of the Director within the blocks where they are mapped. Regardless of location, such civic spaces must meet the standards for the applicable Civic Space Type, as provided in this Section.

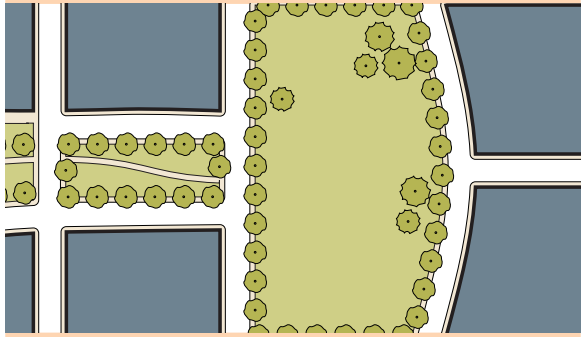
Overview of Civic + Open Space Types

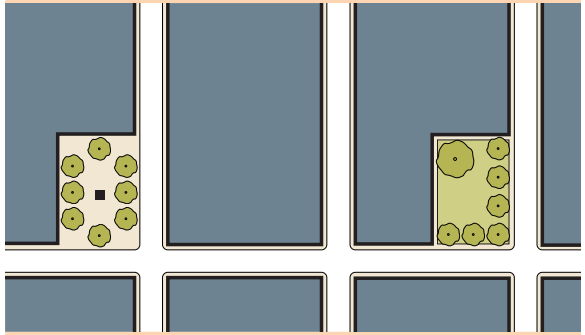
This Sub-section identifies the civic and open space types envisioned for the Midtown Site. Additional details, including minimum dimensional standards, are detailed on the following pages.

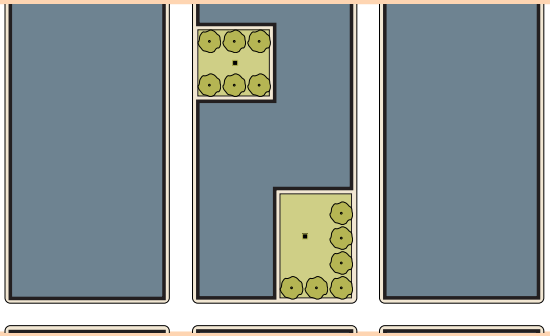
Table 5.3.A Civic and Open Space Types Overview

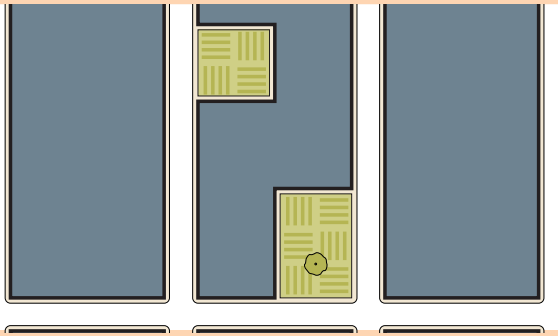


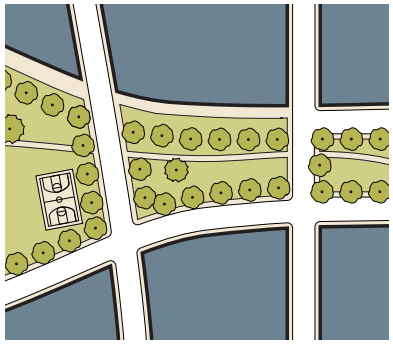












Arroyo Park	Plaza	Quad Park
		
Description	**Description**	**Description**
A linear space two or more blocks in length for community gathering, bicycling, running, or strolling, defined by a pathway that runs the length of the arroyo park. The park is bordered on the east side by the existing arroyo and on the west side by a new street to provide public access. Programmed open spaces such as playgrounds or gardens may be located along the linear space. The arroyo park will serve an important role as a green connector between destinations.	Community-wide focal point designed to accommodate both passive daily use and special community activities such as markets, community celebrations and festivals.	An informal space where adjacent buildings provide a sense of enclosure. Pathways running through or around the space provide access through the park. Programmed areas are located among informal plantings or lawn/open areas.

Table 5.3.A Civic and Open Space Types Overview

Pocket Plaza/Pocket Park	Playground	Community Garden
		
Description	**Description**	**Description**
An intimate, small-scale space, serving the immediate neighborhood, available for informal activities in close proximity to neighborhood residences, and civic purposes.	A small-scale space designed and equipped for the recreation of children. These spaces serve as quiet, safe places protected from the street and typically in locations where children do not have to cross any major streets. An open shelter, play structures, or interactive art and fountains may be included. Playgrounds may be included within all other civic space types.	A small-scale space designed as a grouping of garden plots available to nearby residents for small-scale cultivation. Community Gardens may be fenced and may include a small accessory structure for storage. Community Gardens may be included within all other civic space types except Plaza.

5.3A Civic Space Type: Arroyo Park

Description

Inspired by Footbridges Park, this linear space provides a space for community gathering, bicycling, running, or strolling, defined by a pathway that runs the length of the arroyo park. The park is bordered on the east side by the existing arroyo and on the west side by a new street to provide public access. Programmed open spaces such as playgrounds or gardens may be located along the linear space. The arroyo park will serve an important role as a green connector between destinations.

Image courtesy Rails to Trails Conservancy

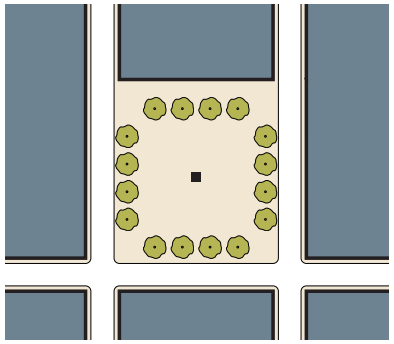
Image courtesy GoodHomeGroup

Image courtesy OJB

Arroyo Park Standards
General Character
Formal or informal, dominated by landscaping and trees with integral stormwater management capacity
Multi-use path along length of linear park
Continuous or periodic access from adjacent right-of-way
Shade and seating provided

Arroyo Park Standards (Continued)	
Size	
Area	5.8 acres min.
Width	60' min.
Length	As mapped

Note: Images are illustrative

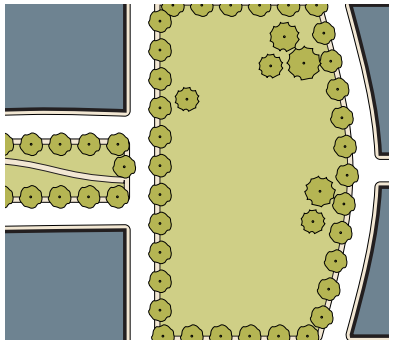


5.3B Civic Space Type: Plaza

Image courtesy Gensler Architects.

Description

Community-wide focal point designed to accommodate both passive daily use and special community activities such as markets, community celebrations and festivals. Primarily hardscaped, with some planted areas. Adjacent streets with bollarded curbless edges could allow for temporary enlargement of the plaza area and could accommodate food trucks or mobile vendors.



Plaza Standards
General Character
Formal, urban
Hardscaped and planted areas in formal patterns
Spatially defined by buildings and tree-lined streets
Adjacent buildings front onto plaza

Plaza Standards (Continued)	
Size	
Area	1.2 acres min.
Width	165' min.*
Length	165' min.*

* shortest dimension of historic Santa Fe Plaza

Note: Images are illustrative

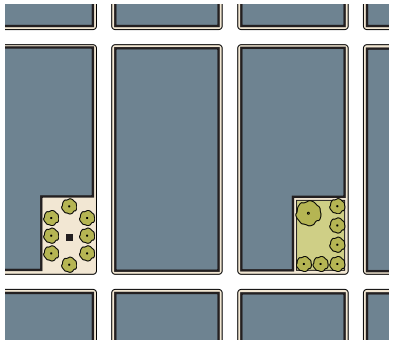
5.3C Civic Space Type: Quad Park

Description

An informal space where adjacent buildings provide a sense of enclosure. Pathways running through or around the space provide access through the park. Programmed areas are located among informal plantings or lawn/open areas.

Quad Park Standards
General Character
Separated from major streets by building volumes
Hardscape paths connecting main access points
Programmed areas provided

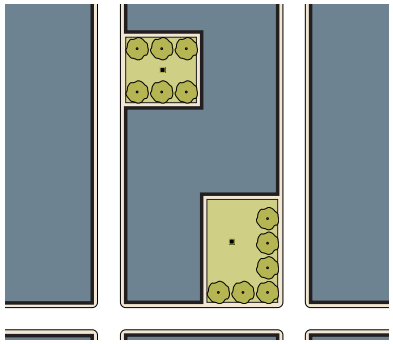
Quad Park Standards (Continued)	
Size	
Area	7,260 sf min.
Width	50' min.; 350' max.
Length	75' min.; 500' max.



Note: Images are illustrative

5.3D Civic Space Type: Pocket Plaza/Park

Description



An intimate, small-scale space, serving the immediate neighborhood, available for informal activities in close proximity to neighborhood residences, and civic purposes.

Pocket Park/Plaza Standards
General Character
Informal or formal, combination of planted areas and hardscape
Spatially defined by building frontages and trees
Adjacent buildings front onto plaza
Walkways along edges or across space

Pocket Park/Plaza Standards (Continued)	
Size	
Area	3,750 sf min.
Width	50' min.; 80' max.
Length	75' min.

Note: Images are illustrative

5.3E Civic Space Type: Playground

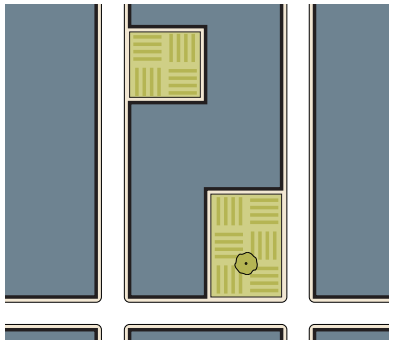
Description

A small-scale space designed and equipped for the recreation of children. These spaces serve as quiet, safe places protected from the street and typically in locations where children do not have to cross any major streets. An open shelter, play structures, or interactive art and fountains may be included. Playgrounds may be included within all other civic space types.

Image courtesy Foursquare

Playground Standards
General Character
Focused toward children
Play structure, interactive art, and/ or fountains
Shade and seating provided
May be fenced

Playground Standards (Continued)	
Size	
Area	2,400 sf min.
Width	40' min.
Length	60' min.



Note: Images are illustrative

5.3F Civic Space Type: Community Garden

Description

A small-scale space designed as a grouping of garden plots available to nearby residents for small-scale cultivation. Community Gardens are fenced and typically include a small accessory structure for storage. Community Gardens may be included within all other civic space types except Plaza.

Community Garden Standards
General Character
Dedicated to food production
Siting ensures year-round solar access
May include greenhouse(s)
Owned or managed by an entity whose decision making includes neighborhood residents
Primary circulation network provides pedestrian access to garden and all required features

Community Garden Standards (Continued)	
Size	
Area	3,750 sf min.
Width	40' min.
Length	75' min.
Required Features	
Continuous fencing along all sides	
Watering systems (e.g. drip irrigation)	
Garden bed enhancements (e.g. raised beds)	
Secure storage space for tools and supplies	

Note: Images are illustrative

5.4 Development Standards + Regulating Plan

This Section demonstrates where form-based development standards and allowed uses apply within the Midtown Site.

Development Standards Approach

To deliver the vision described in the Plan, each development parcel on the Midtown Site shall be controlled by a combination of Sub-zone Standards that control use and Facade Zone Standards that control building massing, and design. Both sets of standards have been coordinated and must be satisfied for each development parcel on the Midtown Site.

Sub-zone Standards. These standards apply to the entirety of each site onto which they are mapped, and control allowed uses.

Facade Zone Standards. These standards apply to the edges of each site that abut public rights-of-way, civic spaces, or public access easements such as paseos. They control elements such as setbacks, height stepbacks and required frontage types.

Regulating Plan

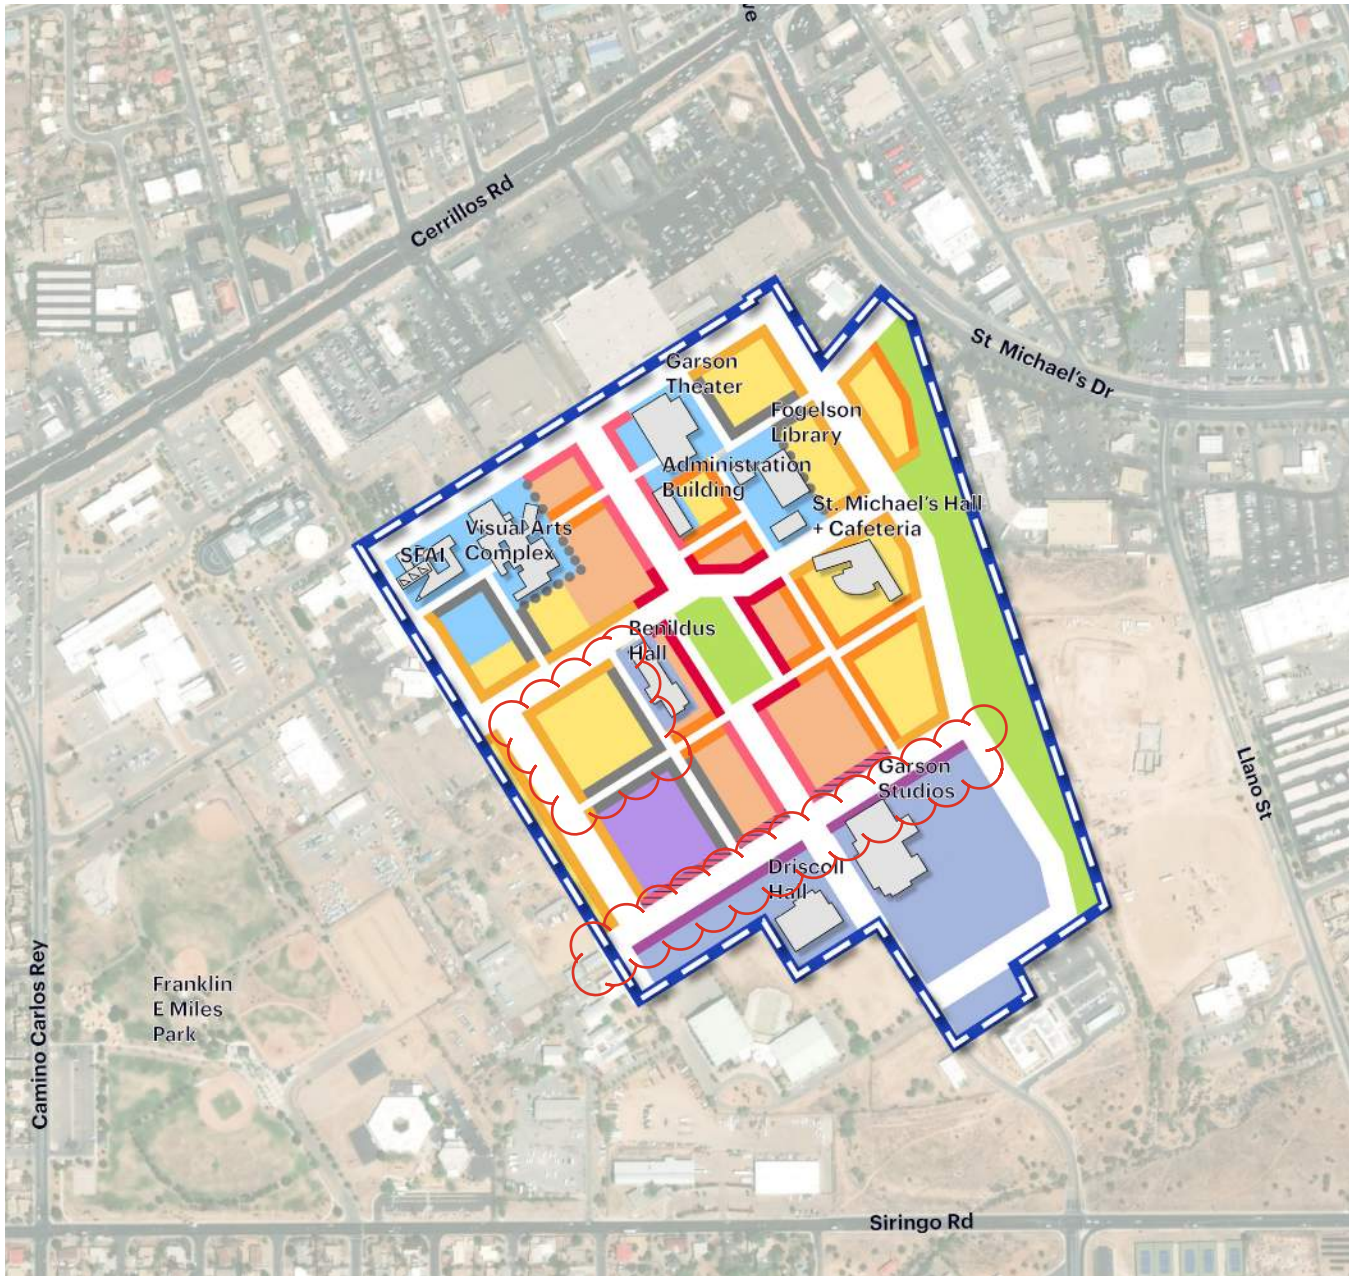


Figure 5.4.1 (Development Standards Regulating Plan) identifies the applicable Sub-zone Standards and Facade Zone Standards for each development site in the Midtown Site.

Where development sites are combined, the applicable standards identified in the Regulating Plan must be met.

Where the location of flexible rights-of-way and easements—such as paseos and living alleys—as identified by Figure 5.2.1 (Thoroughfare Regulating Plan), is adjusted, the applicable Facade Zone Standards indicated in Figure 5.4.1 (Development Standards Regulating Plan) shall apply to the right-of-way or easement in its new location, unless the new location represents a substantial change in context which merits a change in Facade Zone type, to be determined by the Land Use Director.

Where Civic Spaces are established, such as those identified by Figure 5.3.1 (Civic Space Regulating Plan), the Facade Zone(s) mapped at the location of the Civic Space in Figure 5.4.1 (Development Standards Regulating Plan) shall govern development along all edges of the Civic Space that are not bounded by thoroughfares.

5.4.1 Development Standards Regulating Plan

Legend

The Midtown Site

Sub-Zones:

- Civic Space (CS)
- Mixed-Use Neighborhood (MU–N)
- Mixed-Use Center (MU–C)
- Mixed-Use Office (MU–O)
- Mixed-Use Film (MU–F)
- Community-Oriented Use (CO)
- Existing Buildings to Reuse

Facade Zones:

- Plaza (PL)
- Main Street (MS)
- Main Street–Office (MS–O)
- Live/Work (LW)
- Neighborhood Residential (NR)
- Neighborhood Paseo (NP)
- 3 stories max. height within 30' of indicated parcel line
- Pursuant to the Midtown Overlay Zoning District requirements for "Qualifing Projects"

5.5 Sub-zone Standards

This Section refines the palette of uses allowed in base zoning and the Midtown LINC Zoning Area by establishing an allowed palette of uses for the Midtown Site.

Use Standards

Table 5.5.A (Allowed Uses) sets forth the uses allowed and prohibited according to the Sub-zones established by Section 5.4 (Development Standards and Regulating Plan) and are not impacted by adjacent Facade Zones (see 5.6 Facade Zone Standards). These regulations are based on the patterns of development and physical activities that comprise the principal and accessory uses of land, rather than on whether the activity is conducted for profit, not for profit or other purposes. Any specific use type not listed or included in the Table 5.5.A (Allowed Uses) is prohibited unless the Land Use Director determines that it is to be included in an existing use category.

The Midtown Site Sub-zones

The following Sub-zones apply in the Midtown Site:

- Mixed-Use Neighborhood (MU–N) provides for a variety of housing options.
- Mixed-Use Center (MU–C) provides opportunities for limited commercial uses such as retail, dining and entertainment while providing a variety of housing options on upper floors and along pedestrian paseos.
- Mixed-Use Office (MU–O) provides opportunities for service commercial uses as a transition between film production uses and residential uses.
- Mixed-Use Film (MU–F) provides for film production activities focused on the Garson Studios.
- Community-Oriented (CO) provides for civic uses such as libraries, education, performing arts, and other uses that serve the community.
- Open Space (OS) provides for publicly-accessible civic and open space.

Key

P = Permitted Use
S = Special Use Permit
A = Accessory Use
— = Not Allowed
* = Use must be located on upper floors, or on ground floor behind another permitted use.
** = Allowed on ground floor where access to use is via Live/Work Facade Zone.

5.6 Facade Zone Standards

This Section establishes Facade Zone Standards that regulate setbacks, frontage types, height, and other elements that impact the quality of the pedestrian realm. These standards are meant to complement Section 5.8 Design Standards General to All.

Walkable, Pedestrian-Oriented Design

Standards for specific Facade Zones are intended to create a high-quality public realm that provides an appealing experience for people moving around the Midtown Site on foot. This goal is achieved through intentionally regulating design elements such as ground floor frontages, facade definition, the shape of buildings along the streetscape, and composition of openings.

Context-Sensitive Standards

To deliver the high quality public realm envisioned by this plan, specific standards for particular Facade Zones are applied according to Section 5.4 (Development Standards and Regulating Plan). These standards correspond to different thoroughfare environments, and are scaled accordingly. Facade Zones that allow for taller heights and facade conditions appropriate for commercial uses are prescribed for major thoroughfares, while lower-intensity Facade Zones with reduced building heights are prescribed for more intimate paseos and residential streets. The Frontage Types allowed under each Facade Zone are calibrated to the physical character and types of activity envisioned for each environment.

Application of Facade Zone Standards

Facade Zones are applied along the edges of rights-of-way, easements, and civic spaces, as shown in Section 5.4 (Development Standards and Regulating Plan). The standards in this Section govern the above-grade portion of a development block within a certain distance of these public spaces, defined as the Facade Zone (see the table below). All standards contained in Section 5.5 (Sub-zone Standards) and Section 5.8 (Design Standards General to All) remain applicable within the Facade Zone.

Applicability of Standards	
Facade Zone Extents	
Depth (From Frontage Line[1])	Up to 30'
Height (Above Grade)	To maximum height in sub-zone

[1]The frontage line shall be defined as the boundary of the adjacent public way or easement.

Openings

Standards in this Section shall apply to all walls contained within a single lot and facing a public way or open space.

Table 5.6.A Facade Zones Overview

Plaza (PL)

Intent

An active, arcaded streetscape characterized by high pedestrian density and commercial activity. This Facade Zone reinforces the Central Plaza as a gathering point for the neighborhood.

Main Street/Main Street-Office (MS/MS-O)

Intent

A walkable main street environment designed for a mix of housing and workplaces, which can evolve to accommodate increasing commercial activity as the neighborhood matures.

Live/Work (LW)

Intent

Inspired by traditional city streets, this Facade Zone features a pedestrian-oriented passage lined by buildings that combine residences with ground-floor shops and studios.

Neighborhood Residential (NR)

Intent

An environment in which residences face onto a landscaped public realm accommodating pedestrians, bikes, and low-speed auto traffic—gracefully transitioning to the private realm through appropriate frontage types.

Neighborhood Paseo (NP)

Intent

A fine-grained, intimate environment with homes facing onto pathways for foot and bike traffic.

Note: Images are illustrative

Facade Definition

Note: Images are illustrative

Intent

A continuously varied streetscape contributes to a more pleasant pedestrian experience, providing interest for people navigating the neighborhood on foot and helping them to orient themselves. Even in environments where the street wall is more or less continuous, differentiating building facades through changes in various architectural parameters can help to realize these benefits.

Photo Gallery

Add text:
Encourage facade articulation including step backs, fenestration, and best practices to break up sheer walls.

Facade Variety in Development Standards

The standards for each Facade Zone include a maximum width for defined Facades. Where individual buildings are no wider than the maximum facade width for the Facade Zone, defined Facades shall correspond to individual buildings. Buildings wider than the maximum Facade width shall incorporate multiple Facades no wider than the maximum for the Facade Zone.

Facade Definition	
Max. Width of Defined Facade	Per Facade Zone Standards
Boundary between defined Facades shall extend vertically for the full height of the building(s).	A
Facades shall be designed to be or appear to be structurally independent. Vertical support elements (columns, etc.) may not be shared between adjacent Facades.	B
A defined Facade shall be differentiated from adjacent Facades through two or more of the following techniques[1]:	
Change in frontage type, or its material composition	
Change in wall color or material	
Change in eave or parapet height	
Change in story where stepback/roof terrace occurs	
Recess or projection ≥ 18" deep	
Change in typical windows, doors, and surrounds	

(Facing page) Collections of unique townhouses in Tucson, Arizona illustrate how varying facade characteristics along a block face can reinforce a human scale of development.

(Above) Diagram showing how differentiation between adjacent facades may be achieved through variation of architectural features. Image is illustrative, not regulatory.

Plaza (PL)

Overview

An active, arcaded streetscape characterized by high pedestrian density and commercial activity. This Facade Zone reinforces the Central Plaza as a gathering point for the neighborhood.

Open to Sky	10% min. 35% max.	
Shaded by Gallery, Portal, Canopy, or Awning	10% min. 50% max.	

[2] Openings located between 42" and 73" above floor level.

Driveways
Driveways are not permitted in this Facade Zone
Vehicular access shall be via alley or shared access easement

5.7 Frontage Types

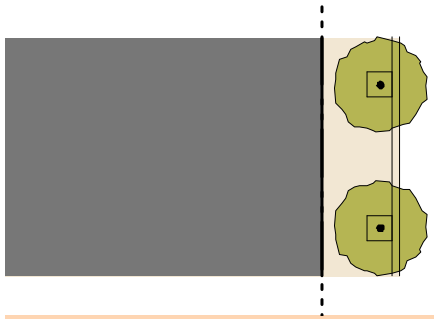
This Section establishes standards for all frontage types. Frontages are the components of a building that provide the transition and interface between the public realm (street, sidewalk, or civic space) and the private realm (yard or building).

Application of Frontage Types

- Each building shall be connected to the adjacent street, paseo, or civic space by at least one frontage type. A single building may have multiple frontage types in compliance with the types listed for the applicable Facade Zone(s).
- The frontage line shall be defined as the boundary of the adjacent street, paseo, or civic space from which the entrance is accessed.
- Frontage types shall be located in compliance with the Facade Zone per Item 2 (Building Placement) and Item 3 (Encroachments).
- Frontage types not listed in the standards for the Facade Zone under "Allowed Frontage Types" are not allowed in that Facade Zone.
- The names of the frontage types indicate their particular configuration or function and are not intended to limit uses within the associated building. For example, a Shopfront may serve residential uses, and a portal may serve non-residential uses as allowed by the Sub-zone.

Frontage Types + Entrances

- Each frontage type shall accommodate at least one entrance.
- The primary building entrance shall be on the front of the building unless a side street or paseo are present—in which case the building entrance may be in any of these locations.
- Access to entrance doors of individual dwelling units located above the ground floor level may be provided by an enclosed lobby or corridor and stairway. Unenclosed or partially enclosed exterior stairways, open-air corridors, and/or egress balconies are also permitted as the primary means of access to dwelling units located on the second floor.
- Dwelling units on the ground floor and their entrances must be connected to adjacent public way(s), as well as to parking areas and other on site facilities.



Arcade

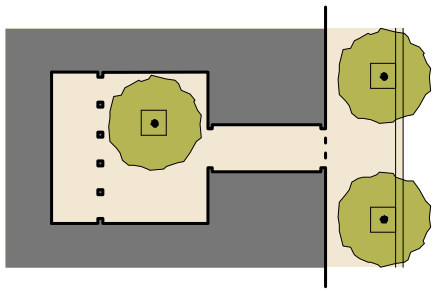
Description

The ground floor facade is set back to form a covered passageway, with the surrounding structure supporting habitable space up to the frontage line on the upper floors. Frequently incorporates the Shopfront or Gateway/Zaguan frontage types.

Shopfront

Description

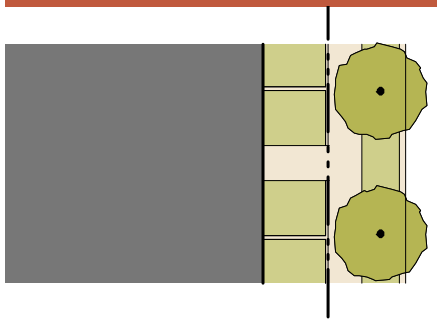
The main facade is at or near the frontage line with at-grade entrance along the sidewalk. Includes substantial glazing between the Shopfront base and the ground floor ceiling, frequently shaded by a canopy or awning over the sidewalk.



Gallery

Description

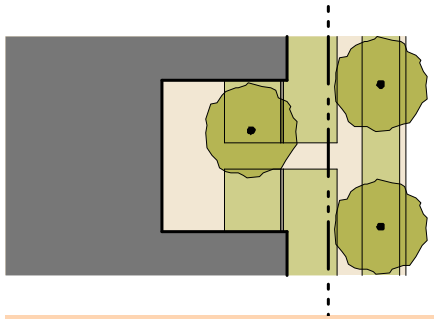
The main facade is at or near the frontage line and an at-grade covered structure, typically articulated with a colonnade that extends into the right-of-way. May be one or two stories and typically incorporates the Shopfront type.



Gateway/Zaguan

Description

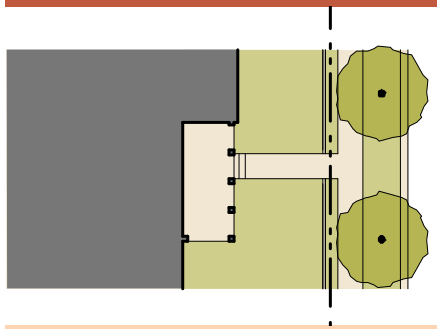
The main facade is at or near the frontage line, with a prominent Gateway linking the sidewalk to an interior court via a covered, open-air passage or Zaguan. This type often accommodates a vertical change in grade from the sidewalk to the court.



Dooryard

Description

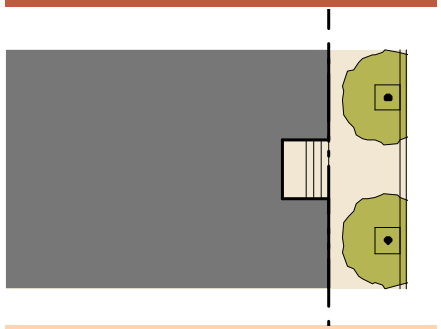
The main facade is set back from the frontage line, which is defined by a low wall, creating a small private area between the sidewalk and the facade. Each Dooryard is separated from adjacent Dooryards. The Dooryard may be raised or at grade.



Forecourt

Description

The main facade is at or near the frontage line and a portion is set back, extending the public realm into the lot for an entry court or shared garden space, or as an additional shopping or restaurant seating area within retail and service contexts.



Portal

Description

A portion of the main facade is set back from the frontage line, creating space for a projecting covered structure. May be up to two stories and may have up to three adjacent sides that are engaged to the building, with at least one side open.

Stoop/ Recessed Entry

Description

The main facade is near the frontage line, with steps to an elevated and/ or covered entry recessed into the main facade, providing a defined transition between the sidewalk and the interior. Stairs or ramps may lead directly to the sidewalk or may be parallel to the sidewalk.

Frontage Type: Arcade

Note: Images are illustrative

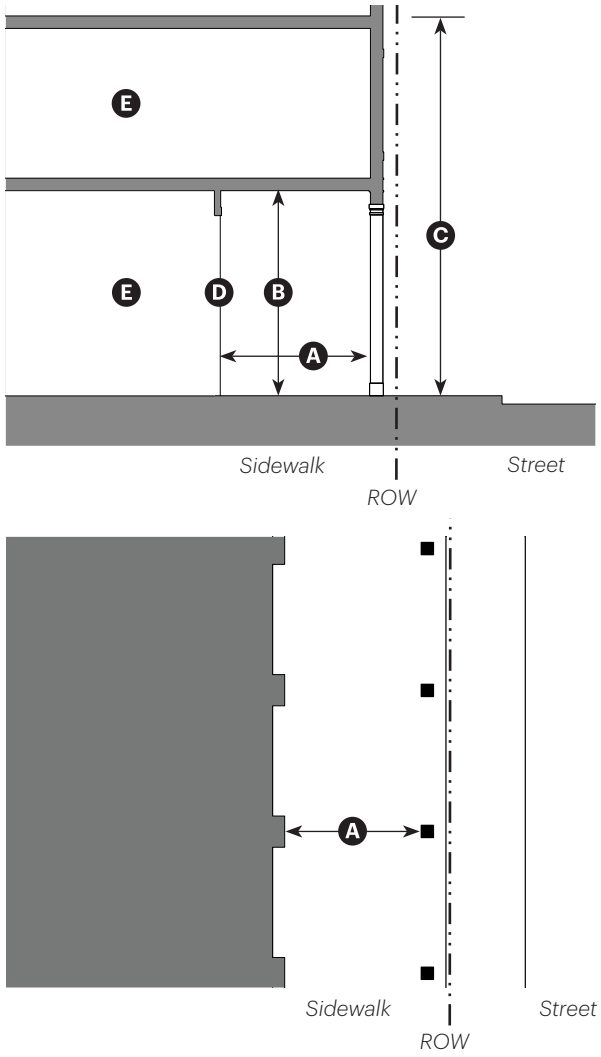
Description

The ground floor facade of the building is set back to form a covered passageway, with the surrounding structure supporting habitable space up to the frontage line on the upper floors. The recessed ground floor facade frequently incorporates the Shopfront or Gateway/ Zaguan frontage types.

Intent

To provide shelter for pedestrians and to create an indoor-outdoor environment that accommodates activities that activate the public realm—such as outdoor dining and vending.

Photo Gallery



Arcade Standards		
Size		
Depth, Clear	10' min.	A
Ceiling Height	12' min.	B
Building Height at Arcade	3 stories max.	C
Miscellaneous		
Building facade within arcade shall follow the standards for the Shopfront and/or Gateway/Zaguan Frontage Type(s)		D
Habitable Interior Space		E
Arcades shall have a consistent depth		
Arcades are not allowed to project over the sidewalk in the public right of way.		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Shopfront

Note: Images are illustrative

Description

The main facade of the building is at or near the frontage line with at-grade entrance along the sidewalk. This type is intended for service, retail, or restaurant use and includes substantial glazing between the Shopfront base and the ground floor ceiling, frequently shaded by a canopy or awning that overlaps the sidewalk.

Intent

To activate the streetscape by providing a visual connection between activities taking place inside and pedestrian activity on the sidewalk.

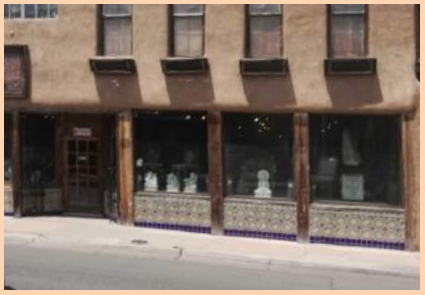


Photo Gallery

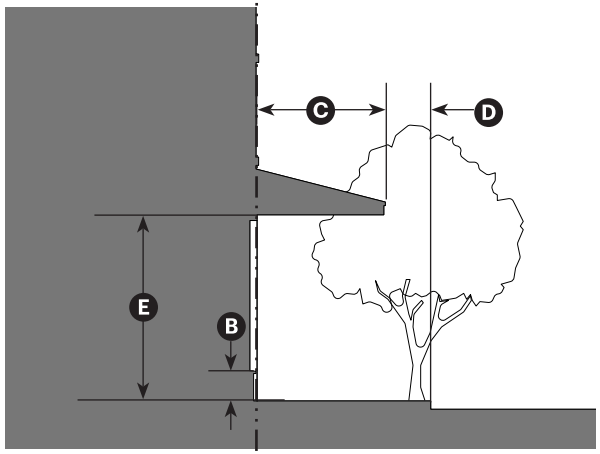
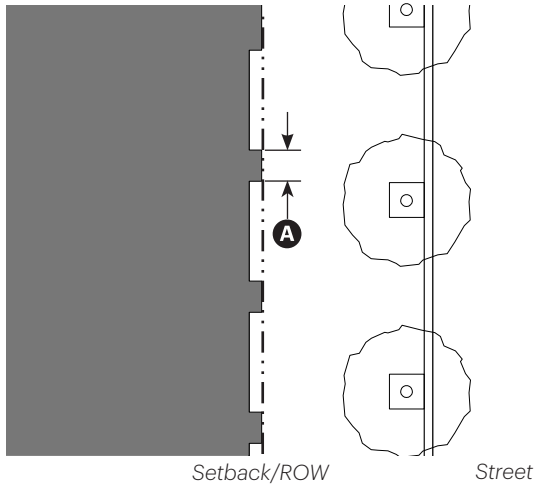




Shopfront Standards		
Size		
Distance between Glazing	2' max.	A
Ground Floor Glazing between Sidewalk and Finished Ceiling Height	65% min.	
Depth of Recessed Entries	5' max.	
Shopfront Base	6" min.; 30" max.	B
Awning (When Present)		
Depth	5' min.	C
Setback from Curb	2' min.	D
Height, Clear	8' min.	E
Miscellaneous		
Residential types of windows are not allowed		
Rounded and hooped awning are not allowed		
When decorative accordion-style doors/windows or other operable windows that allow the space to open to the street are included, Site Plan Review is required		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Gallery

Note: Images are illustrative

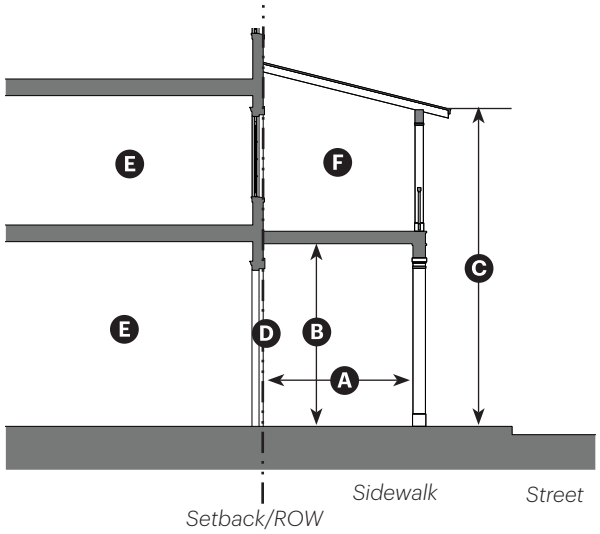
Description

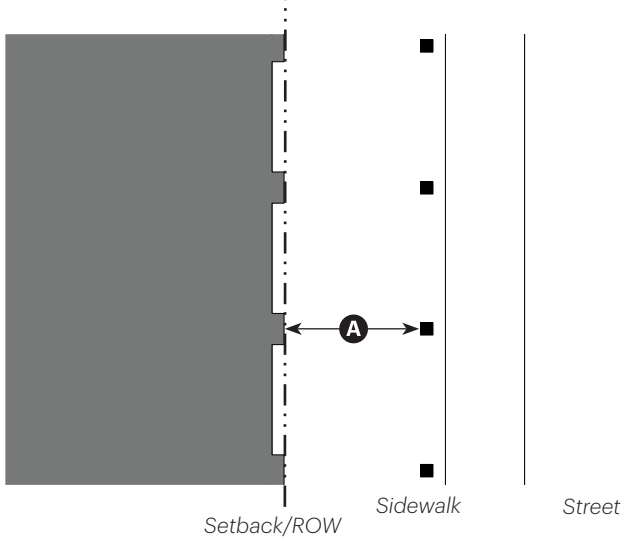
The main facade of the building is at or near the frontage line and an at-grade covered structure, typically articulated with a colonnade or arches, covers a pedestrian area extending into the right-of-way. This type may be one or two stories and typically incorporates the Shopfront frontage type.

Intent

To provide shelter for pedestrians and to create an indoor-outdoor environment along the sidewalk that accommodates activities that activate the public realm—such as outdoor dining and vending.

Photo Gallery





Gallery Standards		
Size		
Depth, Clear	8' min.	A
Ground Floor Ceiling Height	10' min.	B
Gallery Height	2 stories max.	C
Miscellaneous		
Building facade within gallery shall follow the standards for the Shopfront and/or Gateway/Zaguan Frontage Type(s)		D
Habitable Interior Space		E
Second story of Gallery may be used as a Balcony and may be covered by a roof		F

Note: Images are illustrative

Frontage Type: Gateway/Zaguan

Description

The main facade of the building is at or near the frontage line, with a prominent Gateway linking the sidewalk to an interior courtyard by way of a covered, open-air passage or Zaguan. This type often accommodates a vertical change in grade from the sidewalk to the courtyard.

Intent

To reinforce an architectural element that is common in Santa Fe and to provide access control, natural light and ventilation, and a transition between the public and private realms.

Photo Gallery

Gateway/ Zaguan Standards

Courtyard Access

This frontage type provides direct access from the sidewalk to a Courtyard[1] via a sequence consisting of the following elements:

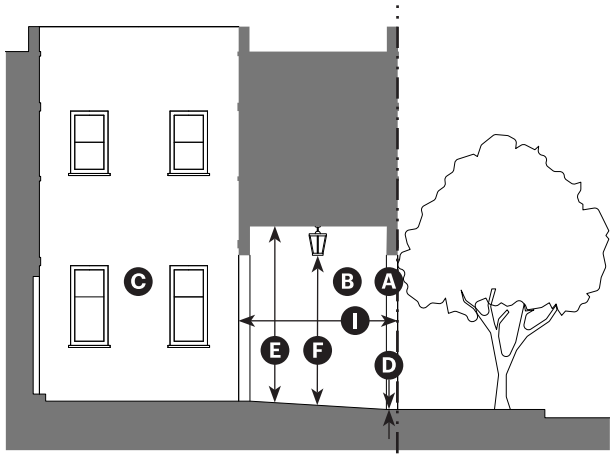
Gateway	A
Zaguan (unless Courtyard is adjacent to ROW[2])	B
Courtyard[1]	C

[1] See Section 5.8 (Design Standards General to All) for Courtyard standards

[2] If Courtyard is adjacent to ROW, Gateway may open directly onto Courtyard

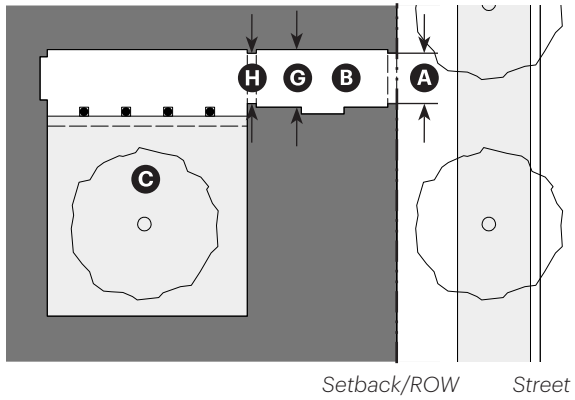
Gateway

Clear Width of Entrance	3' min., 11' max.	A
Threshold Elevation Above Sidewalk at Gateway	0" max.	D

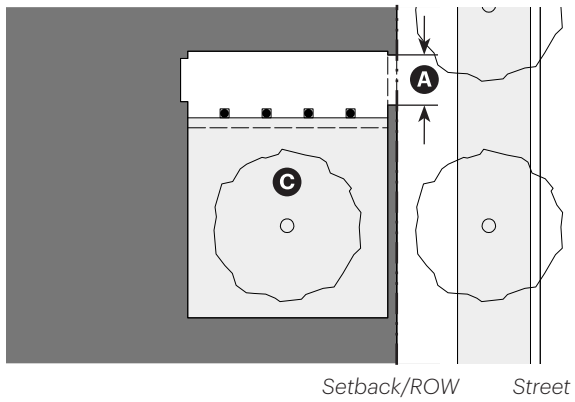


Gateway shall be constructed to enable cross-ventilation, daylighting, and visibility—either through gaps between vertical members equal to or wider than the vertical members, or through unglazed transoms/eye-level openings in an otherwise solid door

Zaguan



Height		
Ceiling Height	10' min., 24' max.	E
Clear Height	7' min.	F
Width		
Wall to Wall	4' min., 12' max.	G
Clear Width	44" min.	H
Length	10' min., 40' max.	I



Zaguan may serve as part of an exit discharge system, subject to requirements of the applicable building code

Zaguan may slope toward Courtyard

Note: Images are illustrative

Frontage Type: Dooryard

Note: Images are illustrative

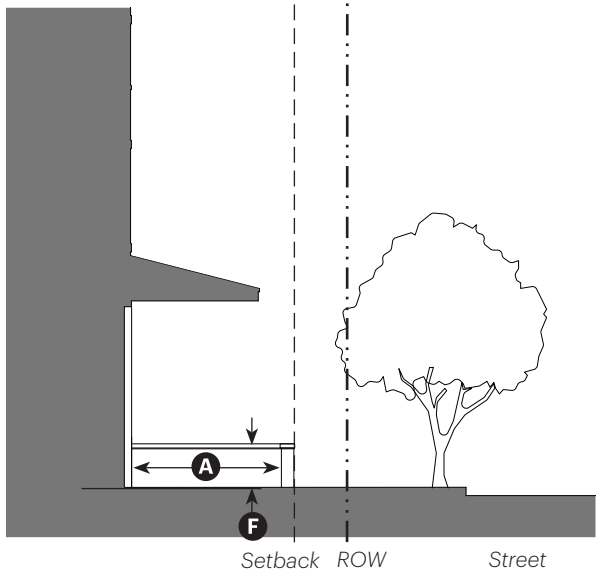
Description

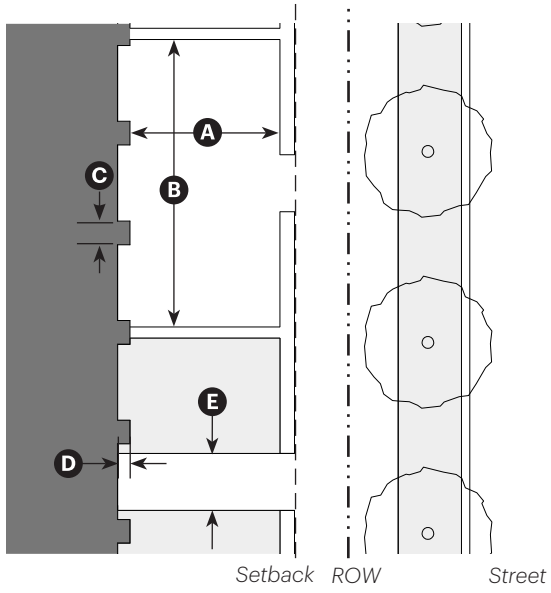
The main facade of the building is set back from the frontage line, which is defined by a low wall, creating a small private area between the sidewalk and the facade. Each Dooryard is separated from adjacent Dooryards. The Dooryard may be raised or at grade.

Intent

To provide a transition between the public and private realms and to provide an outdoor area that can accommodate activities that activate the public realm—such as socializing and outdoor dining and vending.

Photo Gallery





Dooryard Standards		
Size		
Depth, Clear	7' min.	A
Length, Clear	12' min.	B
Distance Between Glazing	4' max.	C
Depth of Recessed Entries	12" max.	D
Pedestrian Access Width	3' min.	E
Height of Dooryard Fence/Wall Above Finish Level	36" max.	F
Miscellaneous		
In the Main Street and Live/Work Facade Zones, building facade(s) within dooryard(s) shall follow the standards for the Shopfront Frontage Type		
Each Dooryard shall contain only one ground floor entry		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Forecourt

Note: Images are illustrative

Description

The main facade of the building is at or near the frontage line and a portion is set back, extending the public realm into the lot for an entry court or shared garden space for housing, or as an additional shopping or restaurant seating area within retail and service contexts.

Intent

To extend the public realm and to create the sense of an outdoor room that can accommodate activities that activate the public realm—such as outdoor dining and vending.

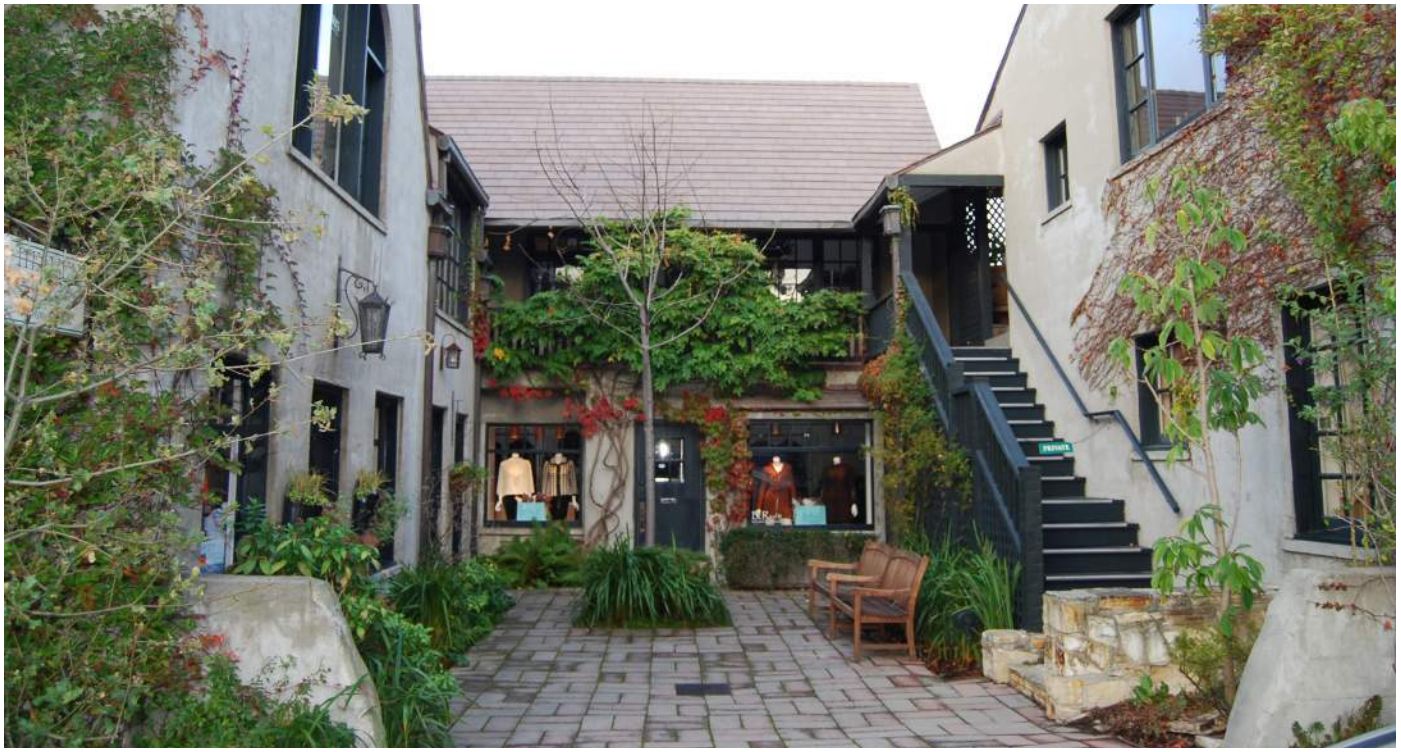


Photo Gallery

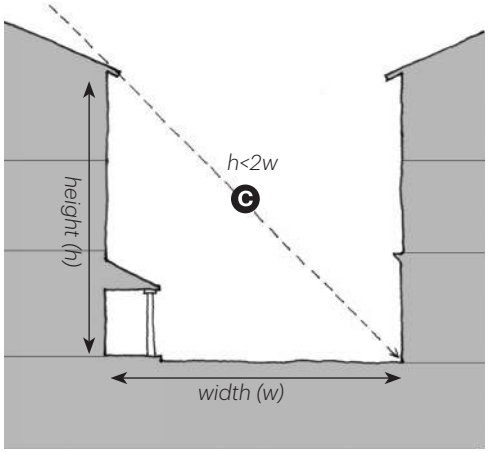
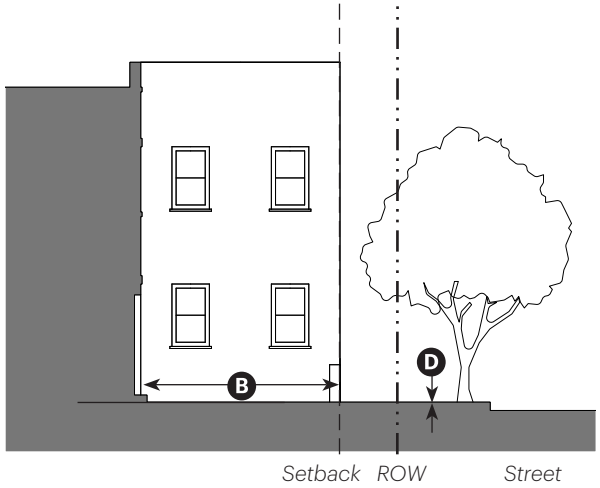
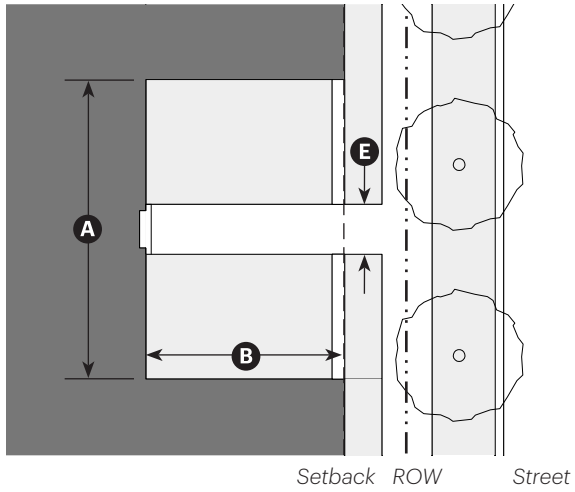






Forecourt Standards		
Size		
Width, Clear	15' min.	A
Depth, Clear	15' min.	B
Ratio, Height to Width	2:1 max.	C
Height from Sidewalk	12" max.	D
Pedestrian Access Width	3' min.	E
Miscellaneous		
May be utilized to group several entries at a common elevation in compliance with the zone ground floor finish level standards		
The proportions and orientation of these spaces shall comply with the diagram below for solar orientation and user comfort		
Sliding doors are not allowed as the entry door(s)		
Other frontage types as allowed in the facade zone may be applied to the front of the building and/or within the Forecourt		

Note: Images are illustrative

Frontage Type: Portal

Note: Images are illustrative

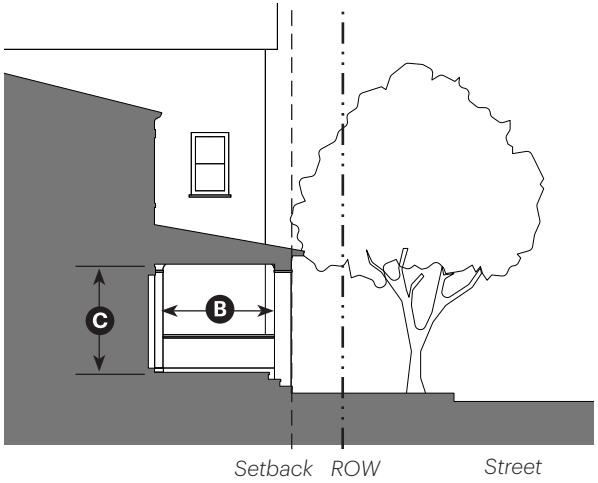
Description

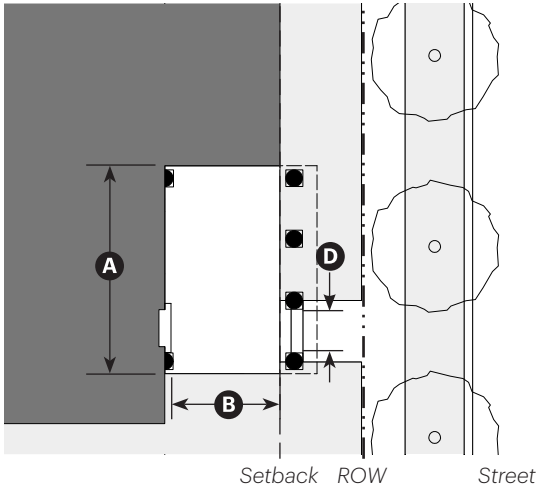
A portion of the main facade of the building is set back from the frontage line, creating an area for a covered structure that projects from the facade. The Portal may be one or two stories and may have one, two, or three adjacent sides that are engaged to the building, with at least one side open.

Intent

To provide a transition between the public and private realm, to provide protection from the weather for a building entry, and to provide a shady outdoor area for socialization and relaxation.

Photo Gallery





Portal Standards		
Size		
Width, Clear	12' min.	A
Depth, Overall		B
Elevated < 12" from average finish grade	8' min.	
Elevated ≥ 12" from average finish grade	6' min.	
Height, Clear	8' min	C
Stories	2 stories max.	
Pedestrian Access Width	3' min.	D
Miscellaneous		
Portal shall be open at least on one side and shall be covered by a roof		
Clear glass may be installed between the columns if the minimum size of individual panes is 12"		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

Frontage Type: Stoop/Recessed Entry

Note: Images are illustrative

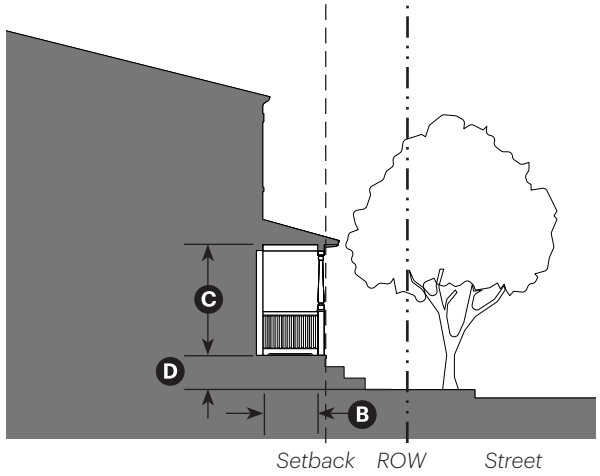
Description

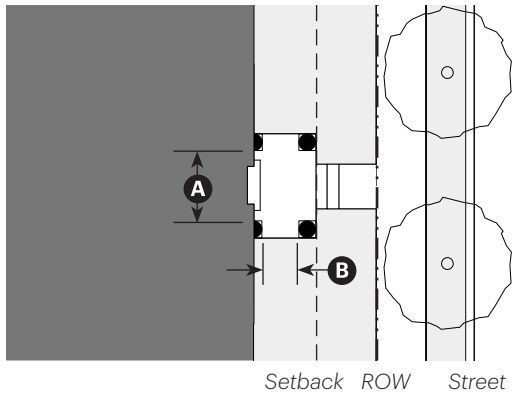
The main facade of the building is near the frontage line, with steps to an elevated entry and/ or a covered entryway recessed into the main facade, providing a defined transition between the sidewalk and the interior. Stairs or ramps from the Stoop/ Recessed Entry may lead directly to the sidewalk or may be parallel to the sidewalk.

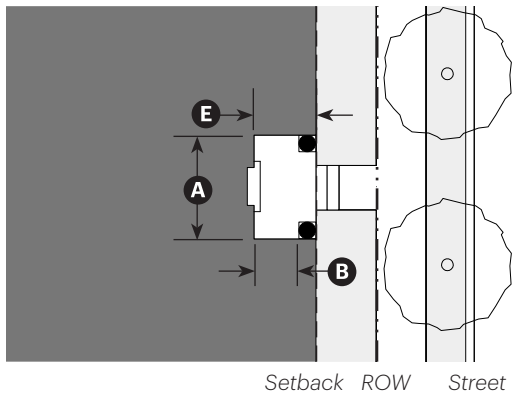
Intent

To provide a transition between the public and private realms and to provide protection from the weather for a building entry.

Photo Gallery







Stoop/Recessed Entry Standards		
Size		
Landing Width, Clear	5' min.	A
Landing Depth, Clear	3' min.	B
Height at Landing, Clear	8' min	C
Stories	1 story max.	
Finish Level Above Sidewalk		D
Entry Recessed ≥ 60" from facade	0" min.	
Entry Recessed < 60" from facade	12" min.	
Depth of Recessed Entries	6' max.	E
Miscellaneous		
Stairs may be perpendicular or parallel to the building facade		
Ramps shall be parallel to facade or along the side of the building		
Entry doors are covered or recessed to provide shelter from the elements		
Gates are not allowed		
At least one entry door shall face the street		
Sliding doors are not allowed as the entry door(s)		

Note: Images are illustrative

5.8 Design Standards General to All

This Section establishes design standards that are applicable to all development parcels at the Midtown Site.

General to All

Design standards described in this Section apply to all development parcels in the Midtown Site, regardless of underlying Sub-zone and Facade Zone. Design standards applicable to all parcels include certain building setbacks, minimum open space standards, parking standards, and courtyard and roof terrace design standards as described in this Section.

Add Text:

Add signage and temporary art lanague adapted from the Railyard Master Plan.
- Building Signage
- Site Directional and Wayfinding Signage
- Murals and Art Installations

Landscape design shall follow SFCC 14-5.5(D)9 for the Midtown Local Innovation Corridor. Note: caliper for new trees on the Midtown Site is 2" at time of planting.

Building Setbacks		
From Public Way with Facade Zone indicated	A	Per Facade Zone standards
From Easement with no Facade Zone indicated	B	0' min.
From Shared Lot Line	C	0' min.

Exceptions to Height Limits

Mechanical rooms, stair enclosures, elevator towers, renewable energy generating equipment, and shade structures/pergolas may exceed height limits set by this Chapter.

Open Space

Required Open Space

% of Parcel Area	25% min.[1]

On parcels > 1/4 acre in area, min. open space requirement shall be satisfied through common open space.

Area of Courtyards and Roof Terraces meeting the applicable standards in this Section, and of Forecourts meeting the standards in Section 5.7 (Frontage Standards), may apply toward required common open space.

[1] Minimum open space requirement may be reduced by 5-10% of the total parcel area if the development incorporates rainwater harvesting; see Sub-section 14-7.5(D)(6) for standards.

Courtyards + Roof Terraces

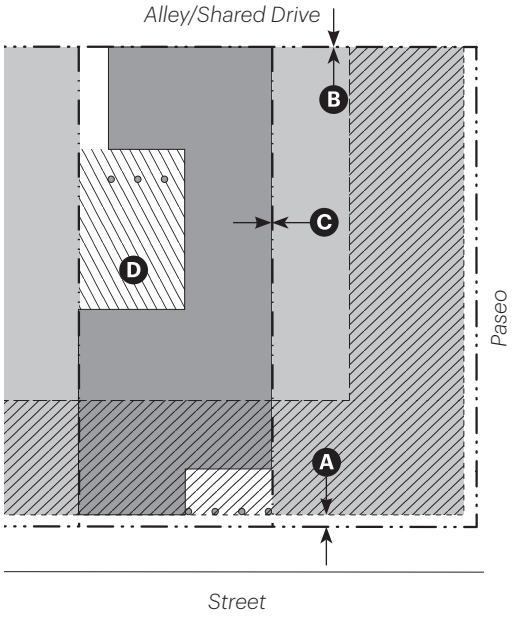
Courtyard Requirement (per standards in this Section)	D	15% of Parcel area min. on Parcels over 2,500 sf

Area of Roof Terraces meeting the standards in this Section may apply toward required open space in excess of required Courtyard area.

Parking

Vehicle Parking Location + Access

Vehicle parking spaces are restricted within the Facade Zone. See Section 5.6 (Facade Zone Standards).



Vehicular access shall be via alley or shared access easement where feasible.

Required Vehicle Parking Spaces

Residential Uses	2/du max.	
Non-residential Uses	2/1,000 sf max.	
Minimum Required Bicycle Storage Spaces[2]	**Short Term**	**Long Term**
Residential Uses (greater of:)	1/40 visitors or 4/bldg	3/10 occupants or 1/du
Non-residential Uses[3] (greater of:)	1/40 visitors or 4/bldg	1/20 occupants or 4/bldg

[2] Required bicycle storage shall be within 100 ft walking distance of an entrance serving the relevant use.

[3] Non-residential uses shall have free access to ≥ 1 on site shower with changing facilities per 100 occupants.

Courtyards, Roof Terraces, + Balconies

Note: Images are illustrative

Description

Courtyards, Roof Terraces, and Balconies feature prominently in the region's native and Spanish architectural heritage, offering opportunities for residents to enjoy the outdoors while making efficient use of available land. These features also provide buildings with the associated benefits of natural light, ventilation, and passive cooling.

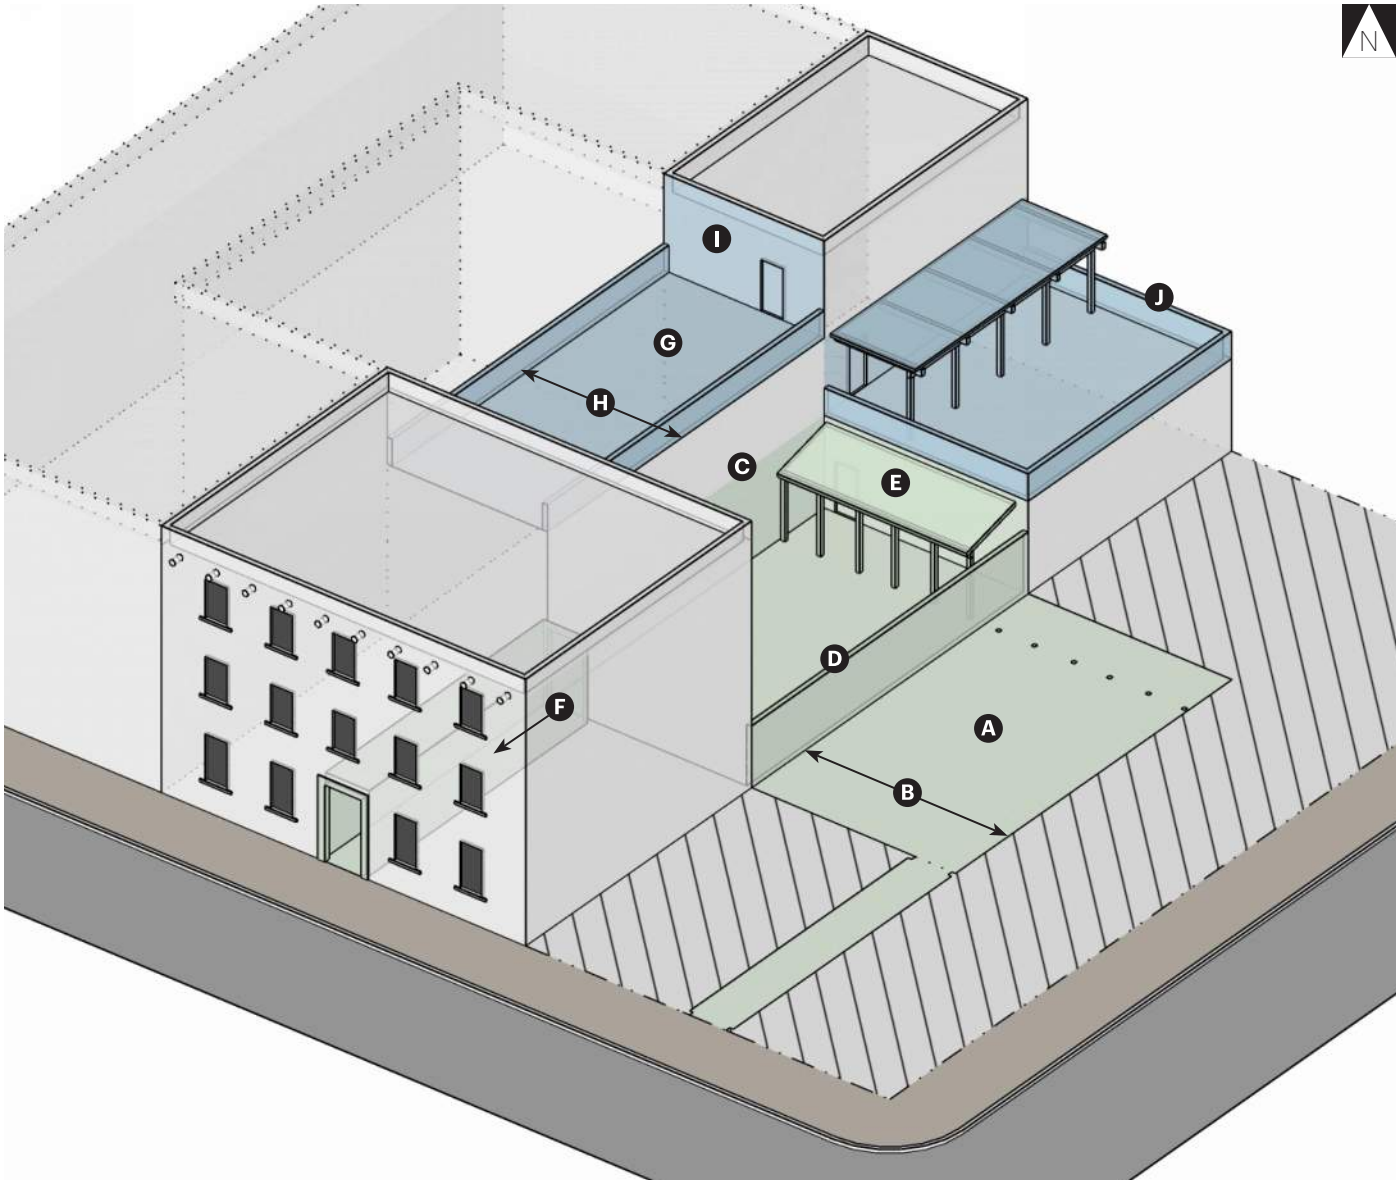


Photo Gallery

Courtyards		
Area		
Total Area Required	15% of parcel area min. for parcels > 2,500 sq ft[1, 2]	A
Impervious Cover	25% of courtyard area max.[3]	
[1] Required Area may be divided among multiple Courtyards		
[2] Courtyard area includes adjacent open-air circulation, but does not include vehicular use area or parking		
[3] Impervious cover excludes Courtyard area covered by landscaping or permeable pavement.		
Dimensions	**Width/Depth**	**Area**
Private Courtyard	12' min.	250 sq ft min. B
Common Courtyard	15' min.	500 sq ft min. B
Courtyards may be used to satisfy open space requirements of § 14-7.5.		
Enclosure + Access		
Enclosure Required		All sides
Perimeter Enclosed by Exterior Building Wall		50% min.
Enclosure Height by Type		
Exterior Building Wall		10' min. C
Perimeter Wall		30" min. D
Portal Required along Exterior Building Wall; see standards in Section 5.7 (Frontage Types): Portal.		1 North Edge min. E
Open-air connection to public way required[4]		F
Courtyard shall be located either at grade or on an accessible route from a public way at grade		
A courtyard abutting a frontage line and meeting the requirements of this Section may function as a Forecourt; see standards in Section 5.7 (Frontage Types): Forecourt.		
[4] Access to Public Way from Courtyard shall meet egress requirements of the applicable building code		

Roof Terraces		
Area		
Area of Roof Terrace(s) may contribute to any required open space in excess of required Courtyard area.		G
Area may be divided among multiple Roof Terraces.		
Roof Terrace(s) may be located at any story above the first.		
Dimensions	**Width/Depth**	**Area**
Private Terrace	6' min.	75 sq ft min. H
Common Terrace	9' min.	200 sq ft min. H
Enclosure		
Enclosure Required		All sides
Enclosure Height by Type		
Exterior Building Wall		10' min. I
Parapet Wall and/or Railing		42" min. J

Balconies (as applicable)		
Total Area		
Area of Balconies shall not count toward required open space		
Balcony area shall include upper-story area of two-story Portals and/or Galleries; see Section 5.7 (Frontage Types): Portal; Gallery.		
Width	**Depth**	**Area**
8' clear min.[6]	6' clear min.[6]	48 sq ft min.[6]
[6] Minimum dimensions shall not apply if at least 80% of innermost Balcony edge is occupied by doorway(s) to adjacent habitable space.		
Enclosure + Access		
Railing Height		42" min.
Access required from habitable space on same floor		

5.9 Plan Administration

Overview

This Section provides guidance for review of development applications within the Midtown Site. This information supplements existing City review procedures applicable to the Midtown LINC Overlay District (Section 14-5.5(D)) to more effectively implement the vision for the Midtown Site.

Plan Interpretation

Change in the Midtown Site will be dynamic and incremental, with buildout likely occurring over many years. The Plan provides clear and reasonable expectations and standards designed to minimize the need for interpretation and eliminate uncertainties. When projects are proposed, the applicant should first look to evaluate them against the policy direction and guidance established in Chapters 3 (Urban Design Vision) and 4 (Connectivity + Mobility Vision). Development Standards in this Chapter are designed to accommodate a range of potential, compliant outcomes that will further the vision of the Plan.

In some situations, new information may be provided as part of a proposal that is consistent with the vision described in the Midtown Plan but requires one or more minor adjustments to the Development Standards in this Chapter. In these situations, the guidance for Minor Modifications in this Chapter should be utilized.

In other situations, new information may be provided that will require both the policy direction in Chapters 3 (Urban Design Vision) and 4 (Connectivity + Mobility Vision) and this Chapter to be revisited. In these cases, the Midtown Master Plan will require legislative Amendments.

Minor Modifications + Administrative Deviations

The Zoning Ordinance provides authority to the Land Use Director to grant Minor Modifications to approved Master and Development Plans (14-2.11(C)(2)) as well as Administrative Deviations in (14.2.11(C)(3) to provide review flexibility.

In some situations, development applications may be consistent with the policy direction in Chapters 3 (Urban Design Vision) and 4 (Mobility + Connectivity Vision) but require one or more minor adjustments to this Chapter. Minor Modifications in this Section provide a degree of flexibility and specificity in implementing the Plan.

Guidance for Minor Modifications in this Section aims to ensure that applicants seeking measured relief from development standards can still uphold the intent and vision described in the Plan.

Applicability. Minor Modifications are considered for only those items specified in Table 5.9.A Types of Minor Modifications Allowed, and only after first making the findings listed below.

Findings. The Land Use Director shall make the following findings when considering Minor Modifications and Administrative Deviations:

1. There are special circumstances or conditions applicable to the subject property (e.g., location, shape, size, surroundings, topography, or other physical features, etc.) that do not generally apply to other properties in the vicinity under an identical Facade Zone classification;
2. Strict compliance with Development Standards requirements would deprive the subject property of privileges enjoyed by other properties in the vicinity and under an identical Facade Zone classification;
3. Approving the Minor Modification would not constitute a grant of special privilege inconsistent with the limitations on other properties in the same vicinity and Facade Zone in which the subject property is situated; and
4. The requested Minor Modification would not allow a use or activity that is not otherwise expressly authorized by the regulations governing the subject parcel.

Precedents. Each application shall be reviewed on a case-by-case basis, and the approval of a prior Minor Modification is not admissible evidence for approving a new Minor Modification.

Conditions of Approval. In approving a Modification application, the Review Authority may impose conditions deemed reasonable and necessary to ensure that the approval would be in compliance with the findings listed above.

Amendments

Amendments to the Midtown Master Plan may be required when new information is provided that requires both the policy direction in Chapters Three and Four and the standards in Chapter Five Development Standards to be revisited. Amendments to the Plan are legislative and require the Planning Commission's recommendation and the Governing Body's authorization in accordance with Section 14-3.9(C).

Table 5.9.A Types of Minor Modifications

Type of Minor Modification	Definition of Modification	Allowed Max. Modification
Building Height	A deviation in the height calculation for main buildings, ground floor finish level, upper-floor stepbacks, and ceiling height (feet and inches).	10 percent
Footprint	A decrease in the minimum required depth of ground floor space for residential and retail/service, or the minimum required ground floor flex space where applicable (feet and inches).	20 percent
Building Placement	A deviation from the required build-to-lines and setbacks (e.g., front, side, street-side, and rear) for structures (feet and inches).	20 percent
Civic Space	Deviations from the minimum, maximum, typical dimensions, and location (as applicable) (feet and inches).	20 percent
Facade Composition	A deviation from the maximum width of defined facades, wall length between entrances or other openings, or openings as a percentage of wall area.	20 percent
Driveways	A deviation in maximum driveway width and/or separation (feet and inches).	20 percent
Frontage Type	A deviation in any minimum or maximum dimension regulated by a frontage type (feet and inches)	10 percent
Open Space	A decrease in the minimum required open space or courtyard area, or minimum dimensions for courtyards, roof terraces, or balconies (feet and inches)	20 percent

5.10 Definitions

Definitions

This Section provides definitions for specialized terms and phrases used in this Chapter.

C Definitions

Civic Space. A piece of land made available for public gathering purposes. A civic space may be publicly or privately owned. For Civic Space Types, see Section 5.3 (Civic + Open Space Standards).

Common (Courtyard/Terrace/Open Space). An outdoor space for use by inhabitants of the building through which the space is accessed or to which it is attached.

E Definitions

Edge, North. A boundary of a space, defined such that for most points along the boundary, a portion of the space lies directly to the south. Because the infrastructure network in the Midtown Site is oriented obliquely relative to the compass points, most rectangular spaces will have two North Edges.

Edge, South. A boundary of a space, defined such that for most points along the boundary, a portion of the space lies directly to the north. Because the infrastructure network in the Midtown Site is oriented obliquely relative to the compass points, most rectangular spaces will have two South Edges.

F Definitions

Finish Level, Ground Floor. Height difference between the finished floor on the ground floor and the adjacent sidewalk. Standards for ground floor finish level for ground floor residential uses do not apply to ground floor lobbies and common areas in multi-unit buildings.

Flex Space. A room or group of internally connected rooms designed to accommodate an evolution of use over time in response to an evolving market demand. Typically designed to accommodate future commercial uses, while accommodating less intense short-term uses, including, but not limited to, residential or live/work, until the commercial demand has been established.

H Definitions

Habitable Space. Space designed to accommodate living, sleeping, food preparation, eating, or non-residential activities such as assembly or commerce. Includes outdoor space appropriate for these activities but excludes mechanical/utility rooms and storage.

L Definitions

Lot Line, Shared. A defined line that forms a boundary between adjacent lots. Does not include the boundary between a single lot and an adjacent right-of-way or easement.

N Definitions

North Edge. See Edge, North.

P Definitions

Perimeter Wall. A linear masonry structure that defines an edge. Typically 18" in height to allow for functionality as a seat when at ground level.

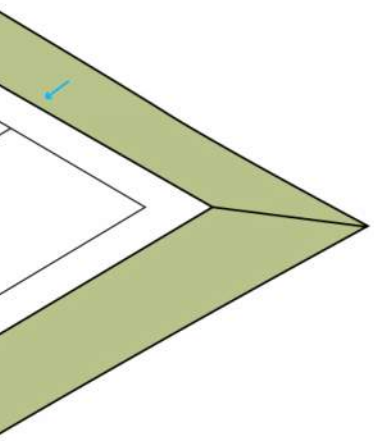
Portal. A space outside the main walls of a structure, with a roof supported by vertical posts. For the Portal Frontage Type, see Section 5.7 (Frontage Types): Portal.

Private (Courtyard/Terrace/Open Space). An outdoor space for use by inhabitants of the unit through which the space is accessed or to which it is attached.

Public Way. A street, alley, or other parcel of land open to the outside air leading to a street, that has been deeded, dedicated, or otherwise permanently appropriated to the public for public use and which has a clear width and height of not less than 10 feet (2021 IBC). Includes civic spaces.

S Definitions

Shared Lot Line. See Lot Line, Shared.



South Edge. See Edge, South.

Z Definitions

Zaguan. A covered passageway leading from the outer entrance of a building to an internal patio or courtyard. For the Gateway/Zaguan Frontage Type, see Section 5.7 (Frontage Types): Gateway/Zaguan.

6. Stormwater + Infrastructure

In this chapter

6.1 Stormwater + Water Quality Management 166

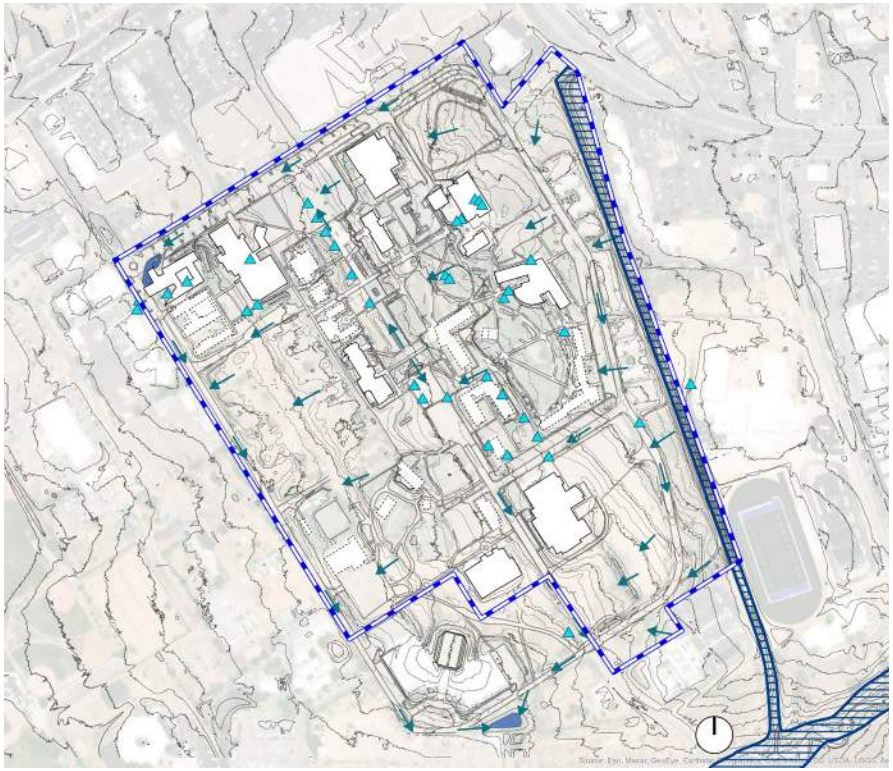
6.2 Policy for The Midtown Site + Surrounding Area 173

6.3 Other Utilities + Infrastructure 176

6.4 Infrastructure Implementation Strategy 182

6.1 Stormwater + Water Quality Management

Existing Stormwater + Drainage



The Midtown Site (the Site) features drywell inlets that capture stormwater runoff across the Site, natural swales with no outflows that appear to quickly infiltrate stormwater runoff, a bioretention area adjacent to SFAI, and an existing pond right outside on the south end of the Site that outfalls to Arroyo de lo Pinos. The storm drain system within the Site is owned and managed by the City of Santa Fe.

In general, stormwater runoff flows from east to west following the natural site topography, and once the runoff hits the road on the western edge of the Site, the flow pattern changes from north to south. For the most part, the Site grades across the project area do not properly direct stormwater runoff to existing drainage structures. This has resulted in erosion across the Site, localized flooding, and road damage. Soil erosion contributes to high levels of total suspended solids (TSS) which are currently in need of improved management. The area draining to the existing bioretention, by SFAI, needs re-grading to maximize the treatment capabilities, and the existing pond needs maintenance and further evaluation to determine its existing capacity and performance.

The existing pond is intended to provide detention and manage peak flow discharge into Arroyo de los Pinos, however, it is unknown if the pond was designed to provide water quality treatment. In general, the pond's landscaping and outlet structure are in need of maintenance and repairs. Further evaluation is highly recommended and required to determine existing detention capacity and whether the pond provides any water quality benefits.

FEMA Floodplain

The Site features a FEMA regulated floodplain (1% Annual Chance Flood Hazard) located on the east side of the project boundary, classified as a Zone A floodplain. The existing floodplain is confined within the existing channel that runs along the Site's east boundary conveying off-site runoff only. This project has no plans to change the geometry of the channel or propose new outfall into the channel. No impacts to the floodplain are anticipated.

Existing Stormwater Facilities

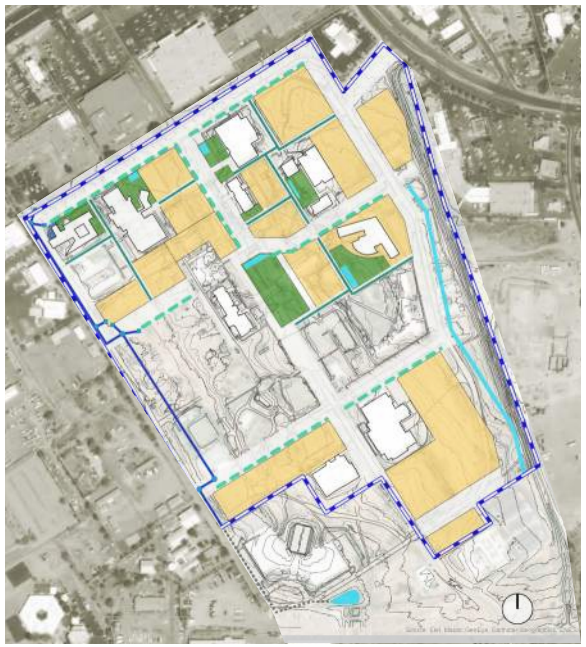
- Existing Pond[1]
- Base Flood Elevation

Disclaimer:

[1]The existing pond is outside the project boundary but it currently drains the Site and is located within City easements.

Existing Floodplain

Proposed Stormwater + Drainage Approach



The proposed stormwater management system will manage water quality and quantity to ensure the protection of the receiving bodies of water and public safety. A suite of green infrastructure strategies, described in Section 3.3 (Integrated Stormwater Management) will be employed throughout the Midtown Site, rolled out over three Phases. Similarly as in existing conditions, stormwater conveyance will follow natural topography from east to west. Additionally, a proposed gravity pipe system, along the western boundary of the Site, will intercept and route stormwater from north to south into the retrofitted existing pond, which ultimately outfalls to Arroyo de Los Pinos.

All components of the storm drain system will be designed and constructed in accordance with applicable City, State, and Federal codes. Proposed stormwater policy specific to the Site is described in Section 6.2 (Policy for The Midtown Site + Surrounding Area).

The proposed stormwater system works in an interconnected manner to treat, infiltrate, detain and convey water from both private development and public spaces, and rights-of-ways:

- Private development parcels will route stormwater runoff to stormwater conveyance (open channels such as drainage channels, infiltration galleries, and flow-through planters) located in the adjacent Public Right of Way(s) (PROWs). Private parcels will be encouraged to minimize imperviousness and required to manage stormwater quality onsite, however, retention and peak flow management (conveyance and detention) will be provided in the PROWs, as well as public parks and open spaces.
- Runoff reduction and water quality treatment will be achieved in streets, alleys, paseos and plazas by integrating permeable pavements and bioretention (bioswales, flow through planters, tree box filters).
- The proposed network of drainage channels primarily serve as the backbone conveyance system for the district. Drainage channels will receive runoff from the PROW and adjacent private parcels. Because of the relatively flat topography and permeable native soils, significant retention and water quality (through infiltration) will occur throughout the drainage channel system, serving to reduce the volume and peak runoff to be managed downstream.
- Within secondary streets and constrained PROWs (alleys, paseos), alternative surface conveyance strategies such as infiltration galleries, gutters and trench drains can be used to route water to the drainage channels.
- Where shown, larger water quality features (bioretention areas) will be integrated within public open spaces. Stormwater will be diverted from the upstream drainage channels into the facility to further treat and attenuate peak flows, then overflow back into the downstream drainage channels to be conveyed to the centralized system.
- Drainage channels outfall into the underground storm drain pipe system running along the west side of the Site that conveys runoff into the existing pond. The existing pond will be retrofitted to meet stormwater management requirements to detain the 100-yr storm event.

Proposed Stormwater Management

Phase 1

All drywells within the Phase 1 area will be demolished. The main trunkline of the piped storm drain system will be constructed, as well as supporting Phase 1 drainage infrastructure. Stormwater management BMPs (bioretention, permeable surfaces at sidewalks and parking lanes, drainage channels, infiltration galleries, flow through planters) will be integrated into the associated PROWs constructed with this Phase.

Phase 2

All drywells within the Phase 2 area will be demolished. Phase 2 expands the stormwater system put in place in during Phase 1. Major improvements associated with this phase include retrofitting the existing pond and extension of the piped storm drain system on the south east end of the Site. During this phase a park adjacent to the existing channel is created and it incorporates a bioswale that treat and conveys runoff from the Public Right of Way Area(s) (PROWAs) in Phase 1, proposed stormwater management features will be constructed with the PROWs and open spaces.

Legend

- The Midtown Site
- Open Channel/ Drainage Channel

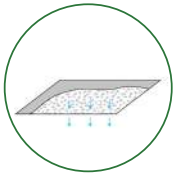
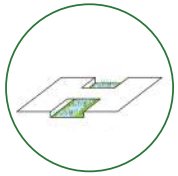
- Infiltration Galleries + Flow through Planters
- Bioretention / Bioswale
- Stormwater Pipes[2] outside Project Area
- Storm Catch Basins
- Storm Manholes
- Bioretention Areas
- Existing Pond[1]



Disclaimer:

[1]The existing pond (to be retrofitted) is outside the project boundary within City easements.



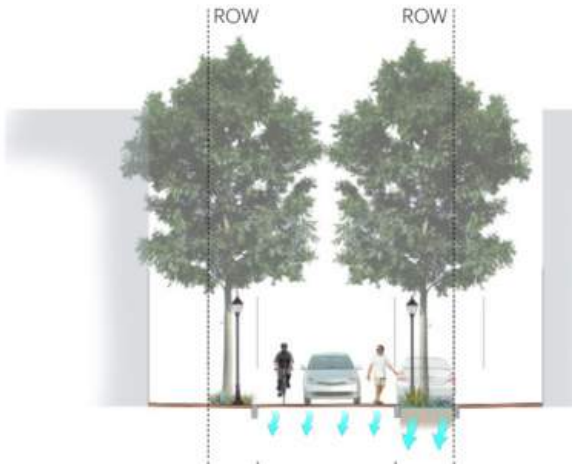
[2] All anticipated work to take place within City's ROW or easements

Stormwater Integration: Neighborhood Street

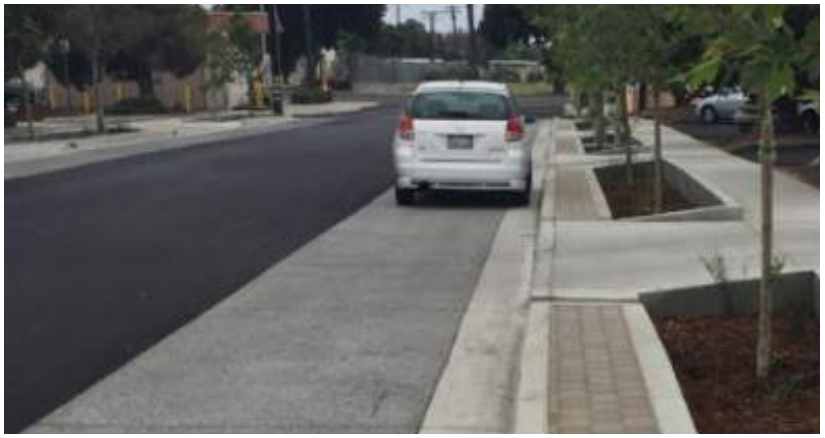
PERMEABLE PAVING

DRAINAGE CHANNEL

BIORETENTION CURB EXTENSION



Drainage channels are proposed adjacent to pedestrian pathways to provide a more naturalized experience, such as this rustic example.

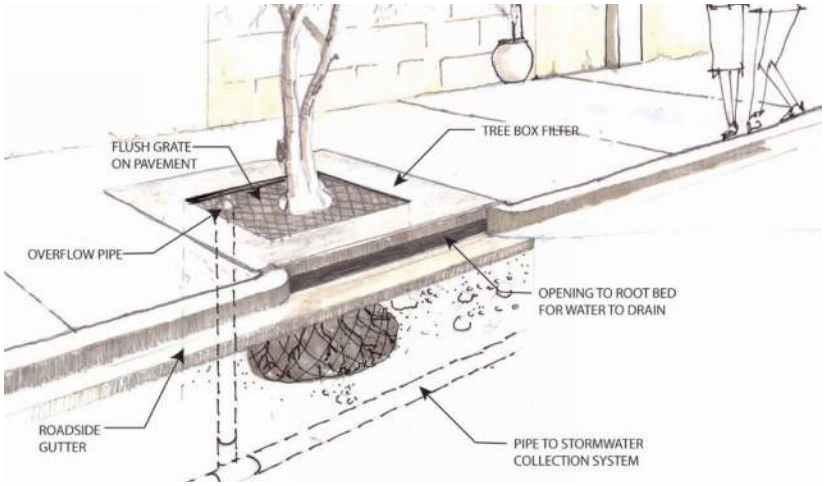


Bioretention curb extension or bulb-outs enlarge the sidewalk to incorporate the parking lane, which increases the pedestrian zone at strategic locations. This can be implemented at corners and mid block. Curb extensions enhance the safety by increasing pedestrian visibility while providing additional space for stormwater management.

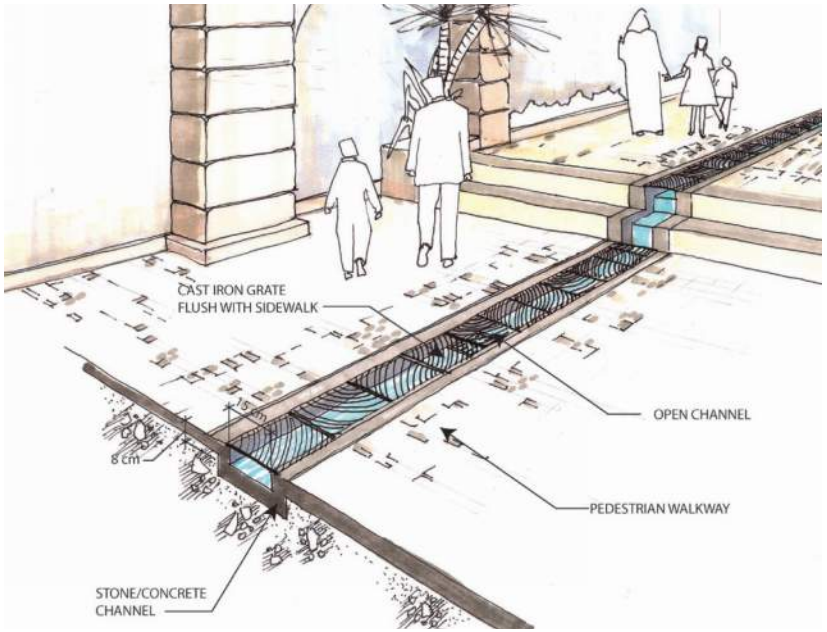
Stormwater Integration: Living Alleys

[1] FTP: Flow-through Planter

[2] TD: Trench Drain



Permeable parking aisles reduce runoff, enhance infiltration



Flow through planters create opportunities for habitat and ecology to be created and provide the public with shade

Stormwater Integration: Paseos

Tree box filters are highly adaptable to constrained PROW providing shade and habitat.

Trench drains control excess surface water and keep travelers safe and seamlessly adapt to different configurations.

6.2 Policy for The Midtown Site + Surrounding Area

Added via Administrative Approval 3.17.25

Existing Stormwater Policy

The City's current stormwater criteria requires all new development to manage stormwater runoff such that the post-development peak discharge rate does not exceed the pre-development rate for the 100-year, 24-hour design storm. The City has a Land Use Code and Stormwater Codes that speak to water quality and illicit discharges (city of Santa Fe Ordinance 2005-3), however, the purpose is focused on "prohibiting non-storm water discharges to the city's storm drain system"[1]. Policies or requirements that enforce water quality management through onsite stormwater infiltration or stormwater retention are not enforced. As such, current City policy doesn't address onsite hydrologic improvements that directly or indirectly impact downstream conveyance systems. The policies proposed for the Site aim to manage stormwater to enhance water quality, stream stability, sediment transport, and stormwater volume management.

All new development is required to pay a City "Stormwater Utility Service Charge Fee" based on the size of the proposed development parcel(s). Because the service charge is based only on total parcel size, the service charge has been described as "inflexibly structured with no basis for extending incentives or credits to customers for taking measures to reduce the rate or volume of storm runoff or to improve runoff water quality."[2]

Stormwater Policy for The Midtown Site

The Midtown Site development implements strategies that address water quality and retention, in addition to peak mitigation. The proposed policies, summarized in the Table 6.2.A (Current City Policy), incorporate a stormwater quality standard to manage the 90th percentile or 80th percentile storm event on the Site. Estimation of the 90th or 80th percentile storm event discharge volume is included in EPA's Technical Report entitled "Estimating Pre-development Hydrology in the Urbanized Areas in New Mexico".

The proposed stormwater management policies for Midtown are put into practice as follows:

A. Stormwater Management Requirements. All new development will be designed and required to implement stormwater management systems that capture and manage the 90th percentile storm event, defined as a rainfall depth of 0.80 inches, onsite.

- Development proposals shall include a technical memorandum with all supporting documentation, modeling results, and drainage calculations related to the feasibility analysis for complying with the stormwater management requirements, which shall be addressed and submitted to the City as part of the development review process.
- All stormwater management documentation and supporting analysis shall be prepared and signed by a registered engineer licensed in the State of New Mexico.

1. City of Santa Fe code of Ordinances, Chapter XIII Stormwater Utility, Section 13-2.3 Purpose.

2. Final Stormwater Strategic Compendium Section 11.

B. Non-Compliance with 90th Percentile Storm Management

- In the event that the proposed development is unable to manage the 90th percentile storm onsite, a technical memorandum must be submitted to the City for consideration. The technical memorandum shall include a comprehensive analysis detailing the infeasibility of meeting the discharge requirements for the 90th percentile storm event onsite.

C. Stormwater Variance Requests and Associated Fees

- Development proposals seeking a variance from the 90th percentile storm management requirement may be subject to additional stormwater management fees. The specific fee assessment shall be determined by the City at the time of the variance request.

D. Minimum Stormwater Management Requirements

- Development proposals unable to comply with the 90th percentile storm management requirement shall, at a minimum, manage the 80th percentile storm event, defined as a rainfall depth of 0.50 inches, onsite.

Private Development Parcels

The Site is proposing and implementing a district-wide approach to stormwater management. Hence, developers will be required to meet stormwater quality requirements onsite to the MEP. Furthermore, onsite management of the 2-year 24-hr event will be incentivized through the stormwater fee structure described below, however, developers may "opt out" and utilize BMPs within the PROW to meet stormwater runoff volume requirements. Private development parcels will be required to document the stormwater management volume as described above.

Stormwater Fees

For the Midtown Site, the stormwater rate shall be in accordance with the parcel's impervious area footprint (encompassing rooflines, pavement, and any other impervious surface) combined with the already in place flat rate. This fee will account for runoff volume that will be managed in the PROW.

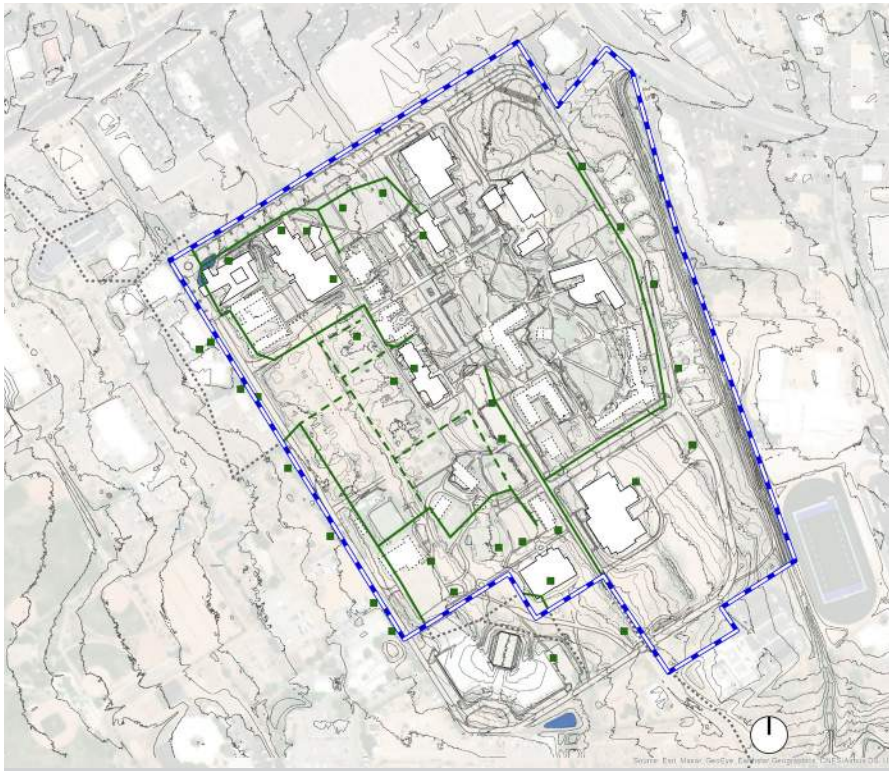


Table 6.2.A Current City Policy		Proposed The Midtown Site Policy	Additional Notes
Peak Mitigation + Detention / Flood Control			
Design Storm: 100-year, 24-hr storm for post development should not exceed pre development conditions at the Midtown Site outfall.	Post-project peak flows cannot exceed existing peak flows at the parcel level for the 100-yr 24 hr event.	• Maintains the current city requirement, but considers the full the Midtown Site collectively. • Individual parcels/developments are not required to meet this standard. • Individual parcels are encouraged to retain the 2-yr 24-hr storm event	• Significant reduction will achieved through the decentralized stormwater management train employed throughout the Midtown Site. • The existing stormwater pond will be retrofitted as needed to maintain peak discharge to the receiving Arroyo de Los Pinos at or below existing conditions.
Volume Control + Conveyance			
Design Storm: Open channels in paseos to be be designed to convey the 10-yr storm. Open channels in main streets to also include 0.5 ft of freeboard. Storm drain closed pipe system to be design to convey the 100-yr 24-hr storm event.	All conveyance system to be designed to convey the 100-yr 24-hr storm event	**Private Development:** Encouraged to retain the 2-yr 24-hr onsite. **Within Public ROW:** Infiltration galleries and trenches to be designed to convey the 10-yr 24 hr Drainage channels to be designed to convey the 10-yr and provide a 0.25 ft of clearance, and to convey the 50-yr 24-hr event. Closed pipe system to be designed to convey the 100-yr 24-hr event.	Drainage design criteria in Section 200 of New Mexico Department of Transportation (NMDOT) Drainage Manual requires the 50-yr design flood and 100-yr check flood for open channels and trunk lines.
Water Quality + Retention			
Water Quality + Retention **Design Storm:** 80th percentile (minimum); 90th percentile (aspirational)	• No runoff water quality requirements. • There is an stormwater illicit discharge ordinance that aims to protect and enhance the water quality of watercourses and groundwater by prohibiting non-stormwater discharges to the city's storm drain system (Ord. #2005-3, § 4)	**Private Development** Will be required to provide water quality treatment to the maximum extent practicable. **Public ROW** GI and LIDs to be implemented across the Midtown Site.	

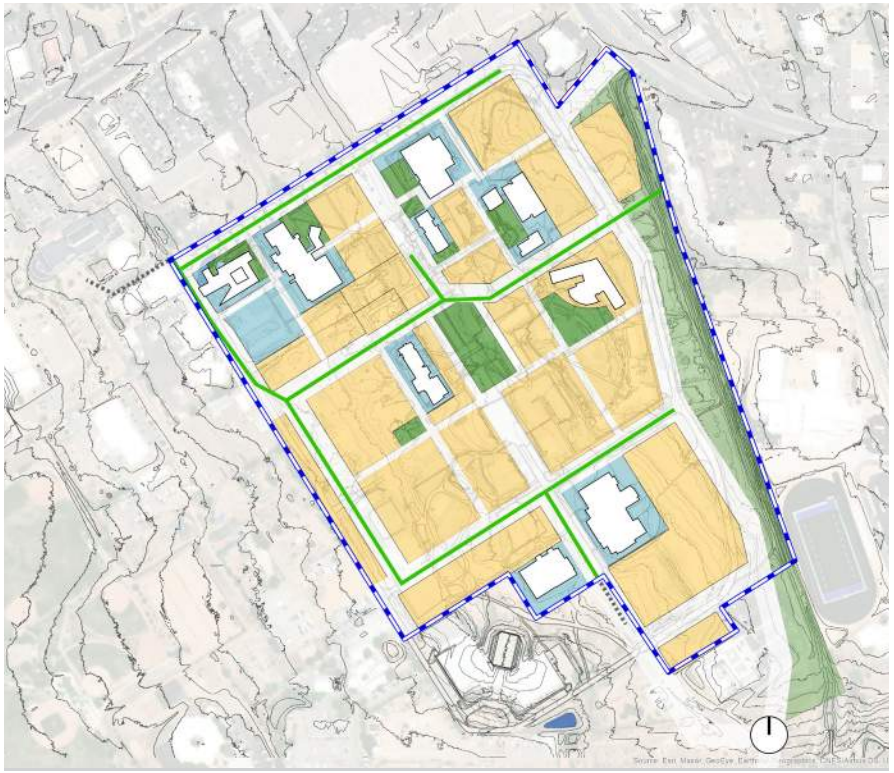
6.3 Other Utilities + Infrastructure

Sanitary Sewer - Existing Conditions

The Midtown Site is currently served by an existing sanitary sewer system that divides the flow into two sewer sheds- a northern connection point along Cerrillos Rd., and a southern connection at Siringo Rd. During a site visit it was observed that the sewer system connected to the south at Siringo Rd. exceeded the design capacity, surcharging existing manholes. However, the northern connection features an underutilized sanitary sewer with available capacity between the Tony Anaya Building and Cerrillos Rd. South of the Tony Anaya building, the existing sewer system is in poor condition, undersized and in need of replacement.

This utility is managed by the City of Santa Fe.

Existing Sanitary Sewer



Legend

- The Midtown Site
- Existing Sewer Mains
- Abandoned Sewer Mains
- Existing Sewer Mains outside Project Area
- Existing Sewer Manholes

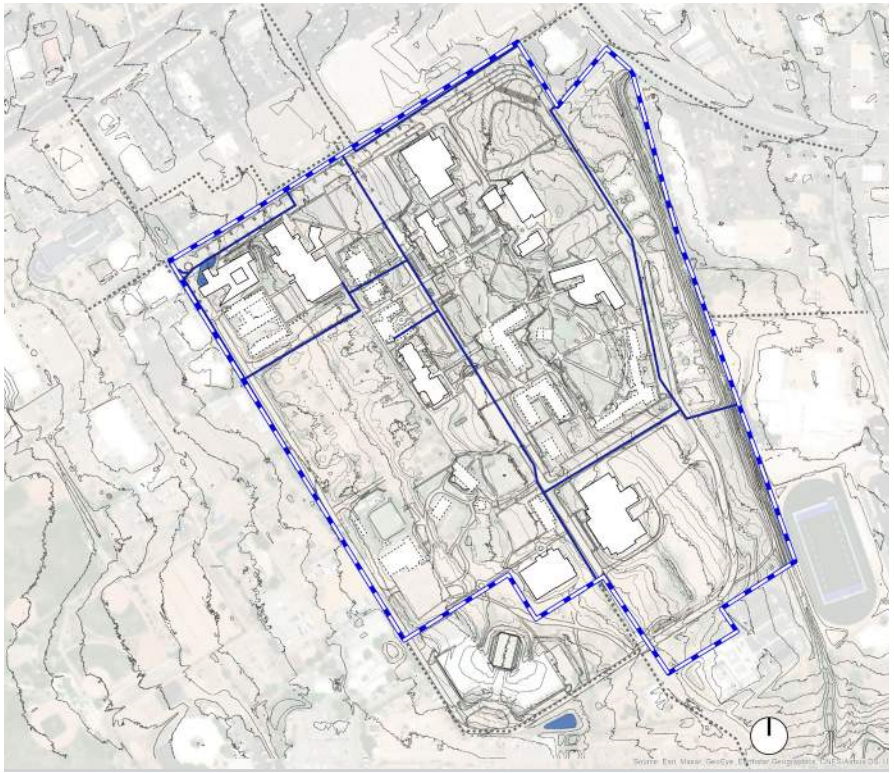
Proposed Sanitary Sewer

The Midtown Site's development will feature a new sanitary sewer system that will direct all flows towards the north, connecting to the main line on Cerrillos Rd. This diversion of flow will help alleviate the surcharging issues on the Siringo Rd. sewer system. The proposed design shall provide gravity services to all of the proposed development, and will be designed with adequate slopes, depths, and capacity to accommodate the full build-out flow condition. Sewer design flow shall be at 50% full and velocity in sewer lines shall be less than 10 ft/sec and greater than 2.2 ft/s.

Due to the change of direction of the sewer, the existing sewer lines and structures cannot be reused and shall be abandoned and or demolished. As part of proposed conditions the 30' Silar Rd. interceptor shall be repaired and re-lined (Via CIPP).

Proposed Sanitary Sewer

Legend



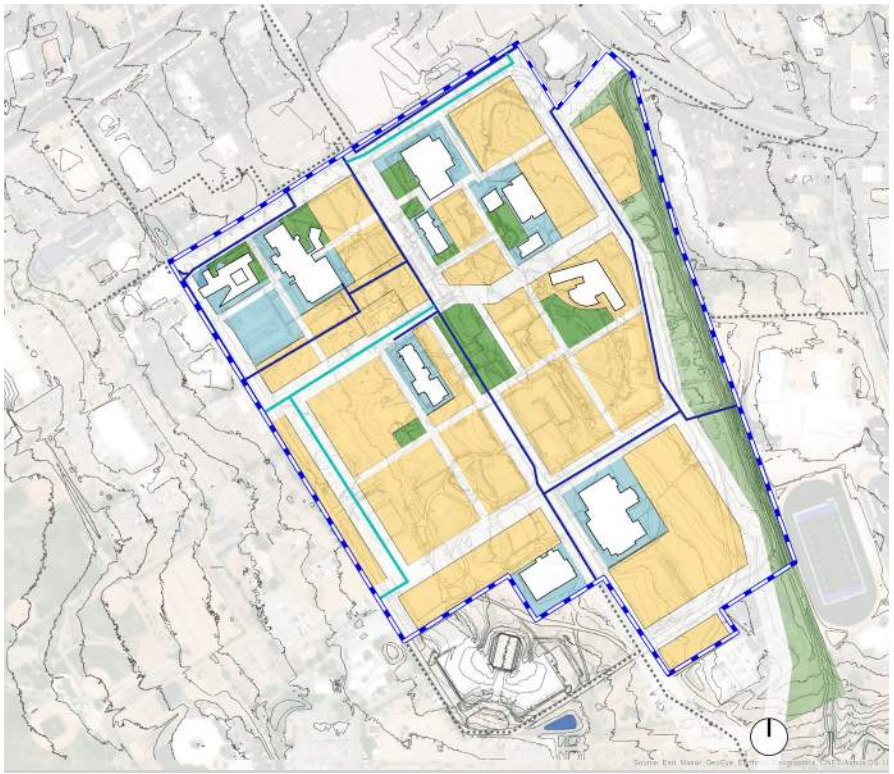
- The Midtown Site
- Proposed Sewer Lines
- Proposed Sewer Lines outside Project Area

Disclaimer:

The proposed sanitary sewer system will require a connection outside the project boundary. All anticipated impacted areas are within the City's right of way or easements.

Potable Water - Existing Conditions

The Midtown Site is served by existing underground system and supporting infrastructure mostly located within the existing public right of way with segments going through private parcels. Modeling results show that the existing system has enough capacity in current conditions and proposed conditions for both peak flows and fire flows. This utility is managed by the City of Santa Fe.



Existing Potable Water

Legend

- The Midtown Site
- Existing Water Mains
- Existing Water Mains outside Project Area

Proposed Potable Water

The majority of the existing water system will be preserved, however, the proposed development plan will necessitate relocation of specific sections of water main to follow new right-of-way alignments. Where relocation is required, water mains will be replaced with the same pipe size and will be constructed to City of Santa Fe requirements.

Proposed Potable Water

Legend

- The Midtown Site
- Existing Water Mains
- Existing Water Mains outside Project Area
- Proposed Water Mains

Disclaimer:

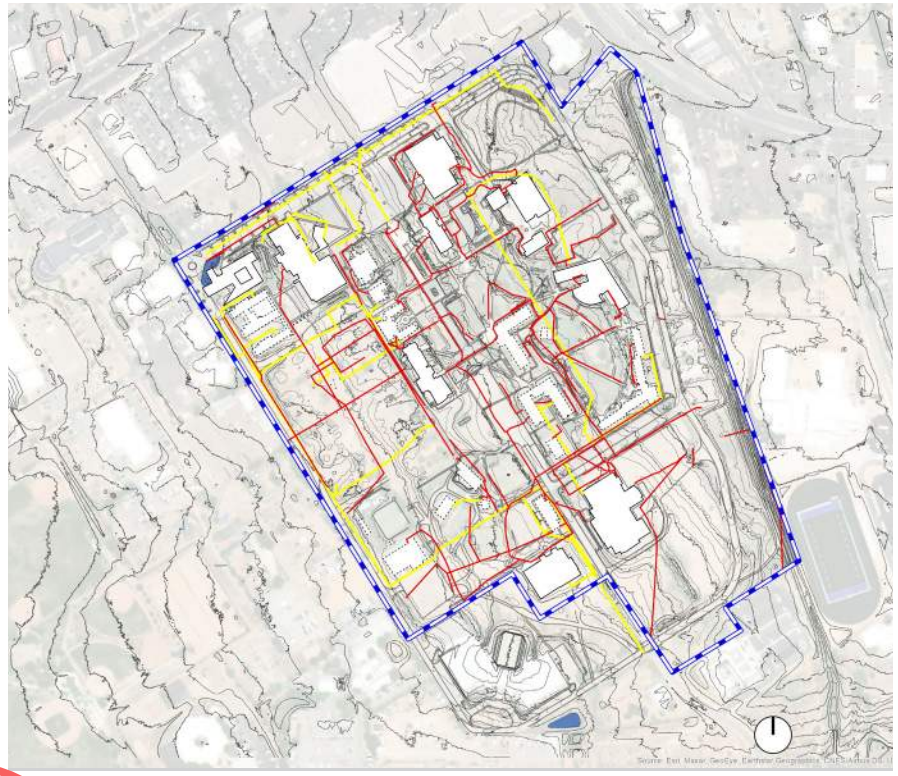
The proposed water system may require work outside the project boundary. All anticipated impacted areas are within the City's right of way or easements.

Electrical - Existing Conditions

The Midtown Site is currently served by underground and above ground electricity lines and infrastructure that run on the existing right of way across the Site. This utility is managed by PNM.

Gas - Existing Conditions

The Site is currently served by underground natural gas pipes and infrastructure that run mostly on the existing right away and connect to existing buildings. This utility is managed by New Mexico Gas Company.



Energy Vision

To support sustainable development, energy infrastructure at the Midtown Site will be upgraded to support a fully electric future. Existing gas lines will be abandoned and electrical trunk lines within the right of way will be upgraded to support 100% electrification of existing and future buildings' energy needs, including climate control, and to provide adequate supply to support electric vehicle charging. Specific electric infrastructure will be development-dependent and costs may be borne by developers of specific parcels according to the specific need of the development program associated with that parcel.

Alternative Energy Sources

Solar Photovoltaic System. New construction standards on Midtown development sites require the installation of a solar photovoltaic (PV) system on the roof area of the building, or on the development site, to provide electricity to newly constructed buildings. A roof is considered all outside coverings of a building or structure, including the structural supports, decking, and top layer exposed to the outside, at all levels of building, excluding roof area designated for skylights. For each new building, this energy standard shall be met by implementing one of the following approaches, whichever provides a greater supply of electricity.

- At least fifty percent (50%) of the roof area shall be dedicated to a PV a photovoltaic system; or
- At least fifty percent (50%) of the building's energy needs shall be estimated to be provided by the on-site PV system, as provided in energy calculations submitted by a certified engineer.

6.4 Infrastructure Implementation Strategy

Infrastructure Phasing

The Midtown Site will be built out with both public and private infrastructure. Table 6.4.A (Preliminary Midtown Infrastructure Costs by Phase) shows very preliminary estimated construction cost by phase for all infrastructure that will be owned and maintained by the city, including the Public Utility. Table 6.4.B (Midtown Infrastructure Funding and Financing Sources) shows the potential funding sources for each infrastructure asset class. These costs are subject to change as more specific design information becomes available and as more detailed engineering studies are completed.

Water and sanitary sewer system upgrades will be managed by the Public Utility with funding coming from the future developers who acquire development sites through the Midtown disposition process. In addition, new development will have to pay for new system demand in the form of water rights or by paying a fee in lieu of water for Midtown LINC qualified projects. These cost estimates reflect the cost to upgrade the sanitary sewer system and move certain trunk lines for the water system to align with road rights-of-way. Developers will pay for their lateral connections to the trunk infrastructure.

Road construction will comprise the single largest infrastructure cost. The cost estimates provided in Table 6.4.A (Preliminary Midtown Infrastructure Costs by Phase) are only for road construction within the Midtown Site. There could also be additional road construction costs involving new entrances and access roads to the campus. However, to build such roads will require cooperation with adjacent property owners and will evolve as the Midtown development process proceeds. Therefore, estimated costs for these streets were not included in this analysis. Maintenance costs were also not included.

The Midtown Master Plan Thoroughfare Regulating Plan (Section 5.2.1) identifies nine street types. Five of these types (neighborhhood streets, neighborhood streets with pathways, neighborhood streets with median, plaza two-way street, and plaza one-way street) will all be built within the Midtown Site in the locations specified in the Plan, with the exception that those types that may potentially connect through the lands of adjacent property owners will notbe built without the express consent of the affected adjacent property owner. The Regulating Plan governs thoroughfare typologies and locations only for those thoroughfares built within the Midtown Site. For these street types, the Public Works Department will oversee construction. Costs include the road construction including associated sidewalks, medians, pathways, and storm water improvements. Funding will come primarily from developer contributions as well as from public sources such as federal grants, state legislative funding, and local sources such gross receipts taxes (GRT) or property taxes that can be leveraged through GRT bonds and general obligation bonds. It is possible that the City may initially pay for road construction using bond

debt, but over time, most of the cost will be recaptured through developer contributions.

Roads that will be built within development parcels including living alleys, paseos, and pedestrian access connections will be built by developers as part of their project costs. in these cases, construction will be overseen by the Division of Roads and Trails with plan review from the Public Works Department.

Phase 1 road construction projects include streets necessary to enhance circulation primarily for existing buildings on the Site. However, future road construction phases will vary with the pace and intensity of future development.

The **electric distribution system** will also require considerable upgrading. However, no system assessment has been completed yet. This work will be initiated within the next month and will provide a general approach to designing the new system. It is expected that as property is purchased or leased, that individual property owners will work directly with PNM. PNM will be responsible for building the system.

Table 6.4.A Preliminary Midtown Infrastructure Costs by Phase				
Asset	**Phase**			**Total**
	Phase 1	**Phase 2**	**Phase 3**	
Water	$ 584,911	$ 235,269	N/A	**$ 820,180**
Sanitary Sewer	$ 762,660	$ 342,574	N/A	**$ 1,105,234**
Roads	$ 17,718,309	$ 3,518,941		**$ 21,237,250**
Civic Parks and Open Space	$	$ 2,600,000		
Parking Garage			TBD	
Electrical	N/A	N/A	N/A	**N/A**
Total	**$ 19,065,880**	**$ 6,696,784**	**-**	**$ 23,162,664**

Other Infrastructure

Civic parks and open space will primarily be built in the second development phase to coincide with new development opportunities in the Midtown Site's southern portion. However, this timing is flexible and some civic spaces, including the Plaza, could be built sooner depending on funding availability and community priorities. Funding sources for parks and open space will be the same as for roads. The Parks and Open Space Division will be responsible for overseeing construction of these facilities.

Funding and timing for constructing a **parking garage** are to be determined based on funding availability and community priorities. In the past, Santa Fe has used bond funds to pay for parking garages. Garages are also often financed by charging parking fees.

Fiscal Impact

The ongoing costs to provide municipal utilities to Midtown will be recovered through utility rates paid by users. This includes water, sanitary sewer, and garbage collection. Ongoing costs for road and park and open space maintenance will be covered through both the general fund and potentially through a Property Improvement District (PID) which would be formed to assess future Midtown occupants for common space maintenance costs similar to the way a homeowners' association works. These maintenance costs will be significant. However, it is also important to note that the development will generate new ongoing revenue for the City.

The police and fire departments were both consulted in the process of preparing the Midtown Master Plan. Both departments confirm that they will have the capacity to serve future development at Midtown without having to increase any staff or capital resources. However, if additional services are required, the Midtown Site is expected to generate considerable increases in GRT, property, and other tax revenues for the city's general fund that should be adequate to absorb these costs.

Financial Incentives for Midtown Developers

The Midtown locations offers a series of financial incentives for developers. First, the Site is in a federal Opportunity Zone, which offers considerable tax benefits for qualified development projects. Second, the Site is within the Midtown LINC Zoning Area. This enables qualified projects to be exempt from all impact fees, as from wastewater and water utility expansion charges. Third, if a Metropolitan Redevelopment Area is formed for Midtown, developers and future businesses will have access automatic access to all LEDA benefits offered by the State of New Mexico.

City of Santa Fe
Planning Commission
Findings of Fact and Conclusions of Law

Case #2025-10706
Midtown Master Plan Amendment
Owner's/Applicant's Name – City of Santa Fe / Midtown Redevelopment Agency
Agent's Name – Lisa Gavioli NV5, Inc

THIS MATTER came before the Planning Commission (Commission) for public hearing on July 17, 2025 (Hearing) upon the application (Application) of the Midtown Redevelopment Agency ("MRA") (Applicant).

I. INTRODUCTION

The Application pertains to the property known as Midtown located at 1600 St. Michaels Drive, totaling ±64 acres ("Property"). The Applicant requests that the Commission recommend approval to the Governing Body of amendments to the Midtown Master Plan to accommodate the unique design and development standards proposed for the Midtown property in the proposed Master Plan Amendment

After conducting a public hearing and having heard from staff and all interested persons, the Commission hereby FINDS, as follows:

II. FINDINGS OF FACT

1. Santa Fe City Code (SFCC) 1987 Section 14-3.9(C)(4) action and recommendation of a Master Plan by the Planning Commission is required; and

2. SFCC 1987 Section 14-3.1 sets out certain procedures to be followed on the Application, including, without limitation, (a) a pre-application conference [SFCC 1987 § 14-3.l(E)]; (b) an Early Neighborhood Notification (ENN) meeting [SFCC 1987 § 14-3.1(F)(2)(a)(xii)]; and (c) compliance with notice and public hearing requirements [SFCC 1987 § 14-3.1(H)-(I)].

   a. Multiple pre-application meetings were held in accordance with SFCC 1987 Section 14-3.l(E)(1).

   b. Pursuant to SFCC 1987 Section 14-3.1(H), notice of the ENN meeting was properly given.

   c. Pursuant to SFCC 1987 Section 14-3.1(F), a virtual ENN meeting was held on the Application and related cases on June 3, 2025. There were approximately 7 attendees including the Applicant team, members of City staff, and members of the public. A slide show presentation was given, and the questions that followed were generally centered around: landscape requirements, concerns of step back removal; site planning and design; infrastructure; Land Use approval process; The meeting ended at approximately 7:00 PM.

3. City staff reviewed the Midtown Master Plan amendment Application, and the related materials and information submitted by the Applicant, for conformity with applicable SFCC

requirements (Submittal Requirements) and provided the Commission with a written report of its findings (Staff Report), which evaluates the factors relevant to the Application.

4. Staff recommended that the Commission recommend approval of the Midtown Master Plan amendments to Governing Body.

5. Pursuant to SFCC 1987 Sections14-3.9(C)(4) the Commission has the authority to review and make recommendations to the Governing Body regarding Master Plan amendments to Chapter 14.

6. At the Hearing, the Commission considered the Application in Case 2025-10706, and the Commission received reports from staff, testimony and evidence from the Applicant, and testimony offered by any interested members of the public prior to making a decision.

7. Pursuant to SFCC 1987 Section 14-3.9(D)(1), the land use director shall review the proposed master plan amendment and make a recommendation as to its conformance to the review criteria. The land use director may suggest changes to the amendment to better conform to the review criteria or current policy and procedure. Staff's recommendation of approval at the Hearing demonstrates the applicant meets the approval criteria set forth in Section 14-3.9(D)(1)(a-d).

    a. the master plan is consistent with the general plan;

    b. the master plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts;

    c. development of the master plan area will contribute to the coordinated and efficient development of the community; and

    d. the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.

8. Based on the Staff Report, exhibits and the testimony and evidence presented at the hearing, the Commission tabled the application to allow staff and the Applicant to discuss and revise the proposed removal of step back requirements in Section 5.6 Façade Zone Standards. Upon reconvening later in the meeting, staff presented an alternative to the removal of step back requirements;

    a. Façade Articulation Requirement: All building façades exceeding three stories and facing a public street shall incorporate articulation at regular intervals of the building façade to enhance the pedestrian experience and soften the architectural massing within the streetscape. Methods of Articulation include but are not limited to:

        - Recesses or projections of the building wall plane
        - Changes in material, color, or texture

- Roofline variations or parapet offsets
- Balconies, roof decks, and step-backs

9. The Commission agreed to the alternate amendment and unanimously voted to recommend approval of the proposed amendments with changes as recommended by staff and find all applicable review criteria in SFCC 1987 Section 14-3.9(D)(a-d) have been met.

10. The Commission directed staff to continue to work with adjoining neighbors between this July 17, 2025, meeting and the time the matter is heard by the Governing Body to address their concerns.

III. CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Commission CONCLUDES as follows:

1. Pursuant to SFCC 1987 Section 14-3.1(H)(1), all procedural requirements regarding the notice of public hearing have been met.

2. The Applicant has the right under the SFCC to propose an amendment to the a previously approved Master Plan.

3. The Commission has the power and authority at law and under the SFCC to review the proposed amendments to the Midtown Master Plan to make recommendations regarding the proposed amendments to the Midtown Master Plan to the Governing Body.

4. The Applicant met the applicable Submittal Requirements.

5. The Commission should recommend approval of the requested amendments to the Midtown Master Plan because all applicable code requirements and criteria for recommendation of approval of the proposed amendments have been met, subject to the facade articulation requirements set forth in the Findings of Fact, Section 8, above.

WHEREFORE, IT IS ORDERED ON THE 4th DAY OF SEPTEMBER 2025 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE:

Considering the foregoing findings and conclusions, the Commission recommends that the Governing Body approve the Midtown Master Plan amendment, as requested in the Application for Case #2025-10706.

MINUTES

REGULAR MEETING OF THE PLANNING COMMISSION
July 17, 2025, AT 6:00 PM

A. ROLL CALL

Commissioners Present:
Chair Janet Clow *(Zoom)*
Vice Chair Peter Smith
Commissioner Thomas (TJ) Rieland
Commissioner Piper Kapin
Commissioner Kelly McReynolds
Commissioner Scott Barber *(Zoom)*
Commissioner Sasha McGhee
Commissioner Gurushabad Mirando

B. PLEDGE OF ALLEGIANCE

C. APPROVAL OF AGENDA

MOTION: Commissioner McGhee moved, seconded by Commissioner Mirando, to approve the agenda with postponement of Case #2024-9320 to August 7, 2025.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner Gurushabad Mirando Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain: None

D. CONSENT OF AGENDA

MOTION: Commissioner Rieland moved, seconded by Commissioner McGhee to approve the agenda as presented.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner Gurushabad Mirando Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain: None

E. APPROVAL OF MINUTES

1. June 5, 2025

MOTION: Commissioner McGhee moved, seconded by Commissioner Kapin, to approve the minutes from Planning Commission meeting on June 5, 2025.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain: Member Gurushabad Mirando

E. APPROVAL OF FINDINGS/CONCLUSIONS

1. **Case #2025-010094. 5211 Las Soleras Dr., Development Plan.** JenkinsGavin, Inc., Agent, for HomeWise, Inc., owner and applicant ("Applicant"), was approved of a Preliminary Subdivision Plat for a 97-unit residential development consisting of 42 townhomes and 55 single-family detached homes, as well as the development of a 5.12-acre public park. The subject 14.41-acre parcel is located at 3730 South Meadows Road and is zoned R-6 (six residential units per acre). (Janice Biletnikoff, AICP, Case Manager,jibiletnikoff@santafenm.gov). (POSTPONED FROM JUNE 5, 2025)

MOTION: Commissioner Kapin moved, seconded by Commissioner McReynolds, to approve Findings for Case #2025-010094 without changes or corrections.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain:
Commissioner Sasha McGhee
Commissioner Gurushabad Mirando

2. **Case #2024-8027. 635 Alto Street Development Plan.** Brian Lawler, Agent, Santa Fe Habitat for Humanity, Applicant. Requests approval of a Development Plan for a multifamily residential use consisting of 5 two-story affordable single-family attached dwelling units. The subject 0.25-acre parcel is located in the Historic Downtown Archaeological Review district and zoned R21 (residential twenty-one dwelling units per acre). (Rebekah Clouser, Case Manager, reclouser@santafenm.gov).

MOTION: Commissioner Kapin moved, seconded by Commissioner Rieland, to approve Findings for Case #2024-8027 without changes or corrections.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain:
Commissioner Sasha McGhee
Commissioner Gurushabad Mirando

3. **Case #2025-10276. 3439 Cerrillos Rd Rezoning.** JenkinsGavin, Agent, for RKSS Santa Fe 1, LLC, Applicant, requests approval to rezone a 1.49- acre lot from its current land use designation of R-3 (Residential three dwelling units per acer) to C-2 (General Commercial). The property is located within the Suburban Archaeological Review District. (Claudia Kath, Case Manager, dcmkath@santafenm.gov).

MOTION: Commissioner McGhee moved, seconded by Commissioner Kapin, to approve Findings for Case #2025-10276 without changes or corrections.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain:
Commissioner Gurushabad Mirando

4. **Case#2025-10420. 3730 South Meadows Road Final Subdivision Plat.** JenkinsGavin, Inc., Agent, for Homewise, Inc., Applicant. Requests approval of a Final Subdivision Plat on 14.41 +/- acres for a 97-unit residential subdivision. The Final Plat consists of 42 townhomes and 55 single-family detached dwelling units. The property is located within the Suburban, and River and Trails Archaeological Review Districts and is zoned R-6 (residential six dwelling units per acre). (Janice Biletnikoff, AICP, Case Manager, jibiletnikoff@santafenm.gov).

MOTION: Commissioner Rieland moved, seconded by Commissioner Kapin, to approve Findings for Case #2025-10420 without changes or corrections.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain:
Commissioner Gurushabad Mirando

F. CONSENT

1. **Case #2024-8026. Casa De Todos Final Subdivision Plat Time Extension.** Liaison Planning Services, Inc, Agent for Luna Turquzo, LLC owner requests a time extension for the approved final subdivision plat for Casa De Todos (Case# 2021-3355). The Applicant is requesting a 1-year extension to the time allowed for approvals granted by the Planning Commission on May 5, 2024. (Claudia Kath, Case Manager, cmkath@santafenm.gov)

MOTION: Commissioner McGhee moved, seconded by Commissioner Mirando, to approve the consent of Case #2024-8026 as is.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner Gurushabad Mirando Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain: None

G. OLD BUSINESS

H. NEW BUSINESS

1. **Case # 2025-10706. 1600 St. Michaels Dr, Master Plan Amendment.** NV5,Inc, Agent for Daniel Hernandez, Director of the Midtown Redevelopment Agency, applicant, request a master plan amendment to the Midtown Master Plan on 64.22 +/- acres. The property is zoned C-2 PUD (General Commercial Planned Unit Development) and within the Midtown Local Innovation Corridor (LINC) overlay district. (Joel Cruz-Haber, Case Manager, jacruzhaber@santafenm.gov)

MOTION: Commissioner McGhee moved, seconded by Commissioner Rieland, to table to a later point in the public meeting, Case #2025-10706, to revise the proposed amendments to Section 5.6 of the Midtown Master Plan.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes

Chair

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2025-

A RESOLUTION

AMENDING THE MIDTOWN MASTER PLAN, GOVERNING THE DEVELOPMENT OF AN AREA OF APPROXIMATELY SIXTY-FOUR (64) ACRES LOCATED AT 1600 SAINT MICHAELS DRIVE WITHIN THE CITY OF SANTA FE, MODIFYING THE DEVELOPMENT, SUB-ZONE, FAÇADE, AND DESIGN STANDARDS IN SECTIONS 5.4, 5.5, 5.6, AND 5.8, RESPECTIVELY (CASE NO. 2025-10706).

WHEREAS, on November 30, 2022, the Governing body approved Resolution 2022-68, adopting the Midtown Master Plan ("Master Plan") for the 64-acre Property located at 1600 Saint Michaels Drive within Section 34, T.17N., R.9E., N.M.P.M., Santa Fe County, New Mexico (the "Property"); and

WHEREAS, the City of Santa Fe, through the Metropolitan Redevelopment Agency ("Applicant"), has submitted an application to amend the adopted Master Plan ("Amendments"); and

WHEREAS, Subsection 14-3.9(C)(5) of the City Code requires the Planning Commission to review proposed Master Plan amendments; and

WHEREAS, amending the Master Plan requires an early neighborhood notification ("ENN") meeting and the Applicant held an ENN on June 3, 2025; and

WHEREAS, Section 14-3.9(D)(1) of SFCC 1987 requires the following findings to amend a Master Plan:

(a) The master plan is consistent with the general plan;

(b) The master plan is consistent with the purpose and intent of the zoning districts that apply to or will apply to the master plan area and with the applicable use

regulations and development standards of those districts;

(c) Development of the master plan area will contribute to the coordinated and efficient development of the community; and

(d) The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development; and

WHEREAS, Section 5.1 of the Master Plan, "Purpose and Intent", includes both preferred and non-preferred uses; and

WHEREAS, preferred uses include higher education, housing, film and emerging media, arts and creativity, and new business and innovation, which are all permissible uses in C-2 zoning; and

WHEREAS, Section 5.1 also includes a list of non-preferred uses, which include large office, single-family housing, and government buildings; and

WHEREAS, Table 5.5A table should be amended to be consistent with the current intent, in order to expressly describe non-permitted uses and conditional uses as established during community engagement sessions; and

WHEREAS, the Planning Commission ("Commission") reviewed evidence related to the Amendments, held a public hearing about them on July 17, 2025, including a staff report, exhibits, testimony and evidence presented at the hearing, and received a staff recommendation to include the following, alternate language with respect to building setbacks:

Façade Articulation Requirement: All building façades exceeding three stories and facing a public street shall incorporate articulation at regular intervals of the building façade to enhance the pedestrian experience and soften the architectural massing within the streetscape. Methods of Articulation include but are not limited to:

a. Recesses or projections of the building wall plane

b. Changes in material, color, or texture

c. Roofline variations or parapet offsets

d. Balconies, roof decks, and step-backs.;

and

WHEREAS, the Commission agreed to the alternate amendment and unanimously voted to recommend approval of the proposed amendments with changes as recommended by staff and found the Amendments as amended met all applicable review criteria in SFCC 1987, Section 14-3.9(D)(1)(a-d); and

WHEREAS, on December 10, 2025, the Governing Body held a public hearing on the proposed amendment and, having reviewed the staff report, the recommendation of the Commission, and the evidence obtained at the public hearing, determines that the proposed amendment to the Master Plan, as recommended by the Commission, meets the approval criteria set forth in Section 14-3.9(D) of SFCC 1987; and

WHEREAS, the proposed master plan amendments are consistent with the general plan, the purpose and intent of the applicable zoning districts, and the applicable use regulations and development standards for those districts; the development will contribute to the coordinated and efficient development of the community; and the existing and future infrastructure will be able to accommodate the impacts of future development.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that it adopts the amendments to the Master Plan described in Exhibit A modifying the development, sub-zone, façade, and design standards in sections 5.4, 5.5, 5.6, and 5.8.

PASSED, APPROVED, and ADOPTED this ____ day of _____, 2025.

Legislation/Resolutions/Land Use/2025/Midtown Master Plan Amendment

Exhibit A

Section 5.4 Development Standards Regulating Plan

Page	Section	Current	Proposed
114.	5.4	Main Street-Office (MS-O) Facade Zone Standards are currently applied to the northern frontages of MU-F development tracts F1-a and I1a.	Remove Façade Zone Standards Main Street-Office (MS-O) standards at MU-F northern façade zone.
115.	5.4	Tract O is currently designated subzone MU-N.	Insert footnote stating “That the northern façade zone of the MU-F will be pursuant to the Midtown Overlay Zoning District “requirements for "Qualifying Projects".
115.	5.4	Tract O is currently designated subzone MU-N	Change Tract O (including Benildus) subzone to MU-C.

Section 5.5 Sub-Zone Standards

Page	Section	Current	Proposed
117-121.	5.5	Permitted Use Table specifies permitted, prohibited, and conditional uses for each subzone in the Midtown Site	Remove Permitted Use Table; state more clearly which uses are prohibited as set forth through the Midtown Community Engagement process prior to the adoption of the Master Plan in 2022. Replace table with a list of prohibited uses and conditional uses. Add C-2 Permitted Uses, Refer to SFCC 1987, Section 14-6.1, Table 14-6.1-1. Add Language "Subzones are the recommended and preferred use for the parcels"

Section 5.6 Facade Zone Standards

Page	Section	Current	Proposed
127-129.	5.6	Step-backs required above the third story, as defined in note 2 under "Height" and referenced as E in the illustration.	*Insert the following language as recommended by the Commission: "Façade Articulation Requirement: All building façades exceeding three stories and facing a public street shall incorporate articulation at regular intervals of the building façade to enhance the pedestrian experience and soften the architectural massing within the streetscape. Methods of Articulation include but are not limited to:* *a. Recesses or projections of the building wall plane* *b. Changes in material, color, or texture* *c. Roofline variations or parapet offsets* *d. Balconies, roof decks, and step-backs"*
131-135.	5.6	"Building Height in Façade Zone" specified as "3 stories max" and called out as A in illustration.	Change "Building Height in Façade Zone" to "5 stories max" to match the height that is allowed elsewhere.
125.	5.6	No language or standard.	Insert language that encourages Methods of Articulation include but are not limited to: • "Recesses or projections of the building wall plane • Changes in material, color, or texture • Roofline variations or parapet offsets • Balconies, roof decks, and step-backs"

Section 5.8 Design Standards General to All

Page	Section	Current	Proposed
154.	5.8	No mention of landscape standards.	Insert requirement that landscape design to follow SFCC 1987, *Section 14*-5.5(D)(9) for the Midtown Local Innovation Corridor (LINC), with a note that "The caliper for new trees on the Midtown Site must be 2 inch at time of planting and that new Street Trees must have a 4 inch caliper."

154.	5.8	No mention of signage or temporary art installation standards .	Insert general statement: “Signage located in the Midtown Site is governed by SFCC 1987, Section 14-5.5(D)(8) in addition to the requirements found in Section 14-8.10.”
154.	5.8	No language or standard	Insert the following provision: “Building Signage. Signage and font shall be similar or the same as found on existing buildings throughout the Midtown Site, which form the basis for future Midtown standards (see the Fogelson Library and Garson Performance Theater, as reference). Signs shall be painted on the building skin or on thin panels mounted closely to the building.”
Page	Section	No language or standard.	Insert the following language: “Pin and channel letter and numbers shall be mounted closely to
154.	5.8		the building. Pole mounted signs are not permitted. Hanging signs may be placed under canopies or portales. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision.
154.	5.8	No language or standard	Insert the following language: “Site Directional and Wayfinding Signs. Signs are to be fabricated in metal and finished in durable high quality metal paint finish or natural metal finishes. Wayfinding signs shall be used at street edges and bus stops. Sign colors shall be consistent with the Midtown color palette (see Midtown color palette). Sign forms shall be simple and minimalistic. Signs shall be constructed of metal, color shall be black, plus 1 or 2 accent colors using the Midtown color palette. Sign logos and text may be internally illuminated if lamp is not visible, and light does not glare or impede vision. Wall signs associated with film studio stages within the Midtown LINC Overlay District and whose sign faces parallel to a wall or garage attached to a film studio stage shall be painted and shall not exceed 380 sq ft.”
154	5.8	No language or standard.	Insert the following language: “Murals and Art Installations. Publicly visible murals and art

installations are permissible with approvals from the Metropolitan Redevelopment Agency. The relocation of existing sculpture and installation of new art in public and publicly visible spaces are encouraged and must consider structural stability, weather, circulation, and safety. Murals on public property shall be comply with the MRA Public Arts Murals Agreement."

Permitted Uses

Table 5.5.A "Allowed Uses" shall be deleted and replaced with the following text and the following tables of prohibited and conditional uses:

"The uses permitted in the underlying zoning is C-2 are permitted unless otherwise prohibited or conditioned below."

Prohibited Uses

Subject: Public Comment regarding November 24 neighborhood notification from MRA

Greetings,

I was disappointed that it was chosen to not notify both of the registered neighborhood association contacts for Casa Alegre regarding the request for public comment on the proposed amendments to the Midtown Master Plan. Casa Alegre is adjacent to Midtown and fully expects an impact to the quality of life in our neighborhood. Please review the list of contacts for all neighborhoods adjacent to Midtown that is maintained by the City. It is unfortunate that there was not enough time to enable feedback from the residents and businesses of Casa Alegre. But, I am glad to see for the first time an attempt to communicate with the Casa Alegre Neighborhood.

Personally, I do not see any impact on the form or format of Casa Alegre with these changes. In fact what gets built in Midtown should be different than the design and style of Casa Alegre. What is being proposed seems to reflect the architectural history of the three cultures of Santa Fe; Pueblo, Spanish and American. And supportive of the desire to make Midtown the "center" of Santa Fe.

Sincerely,
William (Bill) Adrian

Preserving the Past, Improving the Present, and Planning for the Future

City of Santa Fe, New Mexico

memo

DATE: December 10, 2025

TO: Governing Body

VIA: Elisa Montoya, Community Development Director
Heather L. Lamboy, AICP Planning and Land Use Director
Maggie Moore, Assistant Land Use Director
Dan Esquibel, Planning Manager

FROM: Claudia Kath, Planner Senior, Current Planning Division

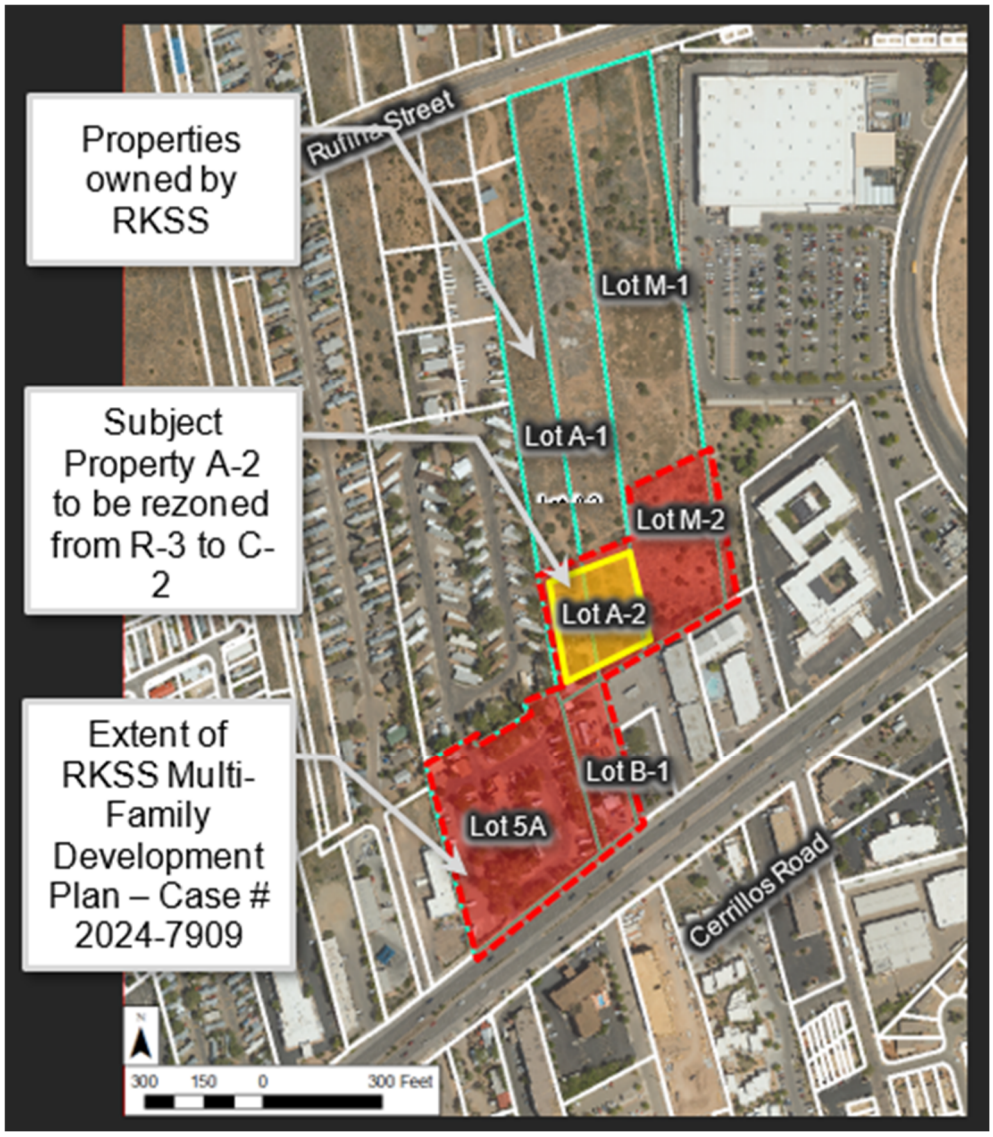
1. CONSIDERATION OF BILL NO. 2025-20
   Rezoning. Case #2025-10276. JenkinsGavin, Inc., Agent for Applicant, RKSS Santa Fe 1, LLC., asks the Governing Body to adopt Bill 2025-20 to rezone +/- 1.49-acres located at 3439 Cerrillos Road from Residential Three Units per Acre district (R-3) to General Commercial (C-2). (Claudia Kath, Case Manager, cmkath@santafenm.gov)

I. Planning Commission Recommendation

On June 5, 2025, the Planning Commission recommended the Governing Body take the following action:

1. **APPROVE** Case #2025-10276. 3439 Cerrillos Road Rezoning from Residential Three Units per Acre (R-3) to General Commercial (C-2).

II. Sample Motion



One (1) motion will be required in the case:

1. **Move to approve or deny** Case #2025-10276, adopting Bill 2025-20 changing the official Zoning Map Designation from R-3 to C-2 for ±1.49-acres located at 3439 Cerrillos Road.

III. Executive Summary

The Applicant, RKSS Santa Fe 1, LLC., (the "Applicant"), through its agent, JenkinsGavins, Inc., (the "Agent"), requests approval for a rezone ("Application") changing the zoning district from R-3 to C-2. The proposed Application allows for 3439 Cerrillos Road to complete the RKSS multi-family development on Cerrillos Road. The Application satisfies approval criteria and goals expressed in Santa Fe City Code "SFCC", Chapter 14 and the General Plan.

The applicant and staff had a pre-application conference on July 27, 2023, to discuss the application prior to submittal. An Early Neighborhood Notification (ENN) meeting was held on March 11, 2025. On June 5, 2025, the Planning Commission held a public hearing to review Case #2025-10276 during which the Planning Commission heard reports from City Planning and Land Use Department staff ("Staff"), testimony and evidence from the Applicant. There were no public comments by interested members of the public. The Planning Commission found that the Application was consistent with the General Plan and that all approval criteria had been met.

The Planning Commission ("Commission") recommended that the Governing Body approve Case #2025-10276, (see Attachment A "Planning Commission Packet"). On September 4, 2025, the Planning Commission adopted Findings of Fact and Conclusions of Law for case #2025-10276, (Attachment B), and Commission Minutes, ("Planning Commission Minutes"), reflecting its holdings from the public hearing (Attachment C).

IV. Rezoning Approval Criteria

The City Code requires the Governing Body to review all rezoning proposals based on the criteria addressed below and make complete findings of fact "sufficient to show that these criteria have

been met" before it approves a rezoning. *See* SFCC 1987, Sec. 14-3.5(C). Table 1 provides the Applicant's responses and staff's analysis of the approval criteria subject to §14-3.5(C) and §14-3.5(D).

Table 1

Criterion 1 (SFCC 1987, § 14-3.5(C)(1)(a)) requires that one or more of the following conditions exist: **(i) there was a mistake in the original zoning;** **(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or** **(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;**	**Criterion Met: (Yes/No)** **YES**
Applicant's Response: *(i) N/A* *(ii) The subject parcel is a remnant of the traditional land pattern along the Agua Fria and Rufina corridors comprising long, narrow tracts historically used for agricultural purposes. The intensity of land uses in the area has increased significantly over time and, accordingly, this parcel relates much more to the Cerrillos Road corridor than Rufina St. The change in the surrounding area is further evidenced by the subject property's designations of Community Commercial and Transitional Mixed-Use on the City's Future Land Use Map. The subject parcel is bordered by C-2 zoning to the west, south, and east.* *(iii) With this rezone, the subject parcel will support a 194-unit multifamily community, as opposed to the development of just four dwelling units permissible under the current R-3 zoning. This is more advantageous to the community through the provision of much needed housing in the urban area with access to public transit, services, and employment.*	
Staff Response: (i) Staff agrees with the Applicant and finds that there was no mistake in the original zoning. (ii) The neighborhood exhibits a diverse land use pattern, comprising single-family homes, multifamily residential developments, vacant parcels, and commercial structures accompanied by surface parking facilities. Historically agricultural in character, the area has undergone a gradual transformation toward increased commercial activity. The site is immediately adjacent to a C-2 (General Commercial) zoning district, and the Future Land Use Map identifies the area as suitable for Transitional Mixed Use (TMU) and Community Commercial (CCOM), reflecting its evolving urban context. (iii) Staff finds that a different zone district (in this case, C-2 zoning) would allow for more advantageous development in that additional housing opportunities will be provided through the completion of this project. In addition, that would enhance compliance with the General Plan policies; specifically, the themes and policies relating to higher densities, compact urban form, and infill as growth management. The C-2 rezoning request has the potential to provide long-term, higher density and mixed-use solutions where infrastructure is already present.	

Furthermore, the C-2 zone district will allow for more density and enable a wider range of permitted uses.

Staff finds that the application request on its merits contains sufficient information to address Criterion 1.

Criterion 2 (SFCC 1987, § 14-3.5(C)(1)(b)) requires that all the rezoning requirements of Chapter 14 have been met;	**Criterion Met: (Yes/No) Yes**

Applicant's Response:

All rezoning requirements of Chapter 14 have been met. The rezone requirements specified in §14-3.1 and §14-3.5 are addressed in the RKSS Rezone Report provided by the Agent in Attachment B.

Staff Response:

The Applicant has met all the requirements of Chapter 14 for a rezoning request. They participated in a pre-application meeting on July 27th, 2023, held an ENN meeting on March 11th, 2025, and properly notified the public of the ENN meeting and this Planning Commission public hearing. Additionally, the applicant submitted a complete application that meets the requirements of Chapter 14.

Staff finds that the application request does address Criterion 2.

Criterion 3 (SFCC 1987, § 14-3.5(C)(1)(c)) requires that the rezoning is consistent with the applicable policies of the general plan, including the future land use map.	**Criterion Met: (Yes/No) Yes**

Applicant's Response:

This rezone request complies with the property's Future Land Use Map designations of both Community Commercial and Transitional Mixed-Use. This parcel is part of the RKSS Cerrillos Road multi-family Development Plan, which was approved by the Planning Commission on February 6, 2025. The balance of the RKSS premises is zoned C-2 and this rezone will bring the subject property into conformance with the surrounding C-2 zoning, allowing the parcel to potentially be developed with outdoor recreational amenities and additional resident parking. This rezone and the RKSS project also align with General Plan Themes and Policies such as Affordable Housing, Economic Diversity, Urban Form/Higher Densities, Transportation Alternatives, and Community Oriented Development. Furthermore, the project exemplifies key elements of the General Plan Land Use Framework, including compact urban form and the provision of a mix of housing types in all neighborhoods. As an infill site, the subject property is efficiently served by existing utility and roadway infrastructure.

<u>Affordable Housing Policy 4-4-G-7</u>
This increase in housing supply provided by the RKSS multifamily project will help alleviate the current housing shortage in Santa Fe. In addition, a fee in lieu of affordable housing will be paid to the Affordable Housing Trust Fund to support future affordable housing efforts.

<u>Economic Development Strategic Plan</u>
The provision of adequate housing opportunities for the workforce is critical to economic development. Furthermore, the RKSS development enhances the mixed-use environment of the Cerrillos Road corridor, whose residents will support local businesses in the vicinity.

Urban Form/Higher Densities - Growth Management Methods 4.1
"In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows. This approach does not necessarily require greater building height but rather greater massing on specifically identified infill sites within the Urban Area."

The rezoning supports the General Plan's emphasis on higher densities and a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl, and supporting walkability and transit- oriented development. By promoting higher-density residential development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

Community-Oriented Development - Growth Management Methods 4-1-G-3
"Use a full range of growth management methods to achieve a superior quality of life and to ensure a financially and environmentally sustainable community."

The RKSS project, supported by this rezoning, will help meet the community's housing needs in a sustainable manner. Developing housing in the Cerrillos Road corridor provides walkable access to services and employment opportunities.
Furthermore, the site is served by a Santa Fe Trails bus stop directly adjacent to its Cerrillos frontage.

Compact Urban Form 4-3-G-2
Rezoning to C-2 supports a more compact urban form by making more efficient use of the land. This is particularly important for infill sites where existing utility and roadway infrastructure can be leveraged without the need for extensive new development. This efficient use of land and infrastructure is a key goal of the General Plan, helping to reduce the environmental impact of development and supporting more sustainable urban growth.

Mix of Housing Types in All Neighborhoods (3.3 Land Use Framework)
"Future Land Use (Figure 3-2) illustrates neighborhoods with integrated housing types, designed to locate a larger share of residences close to transit and neighborhood centers."

The subject property is in a diverse neighborhood of commercial uses and a variety of residential densities. The RKSS multifamily project adds to this diversity, increasing the housing supply in this mixed-use area. Furthermore, access to public transit, services, and employment make the site an ideal infill location for multi-family development.

Staff Response:

Staff finds that the proposed rezoning aligns with the applicable policies of the General Plan, and most importantly the Future Land Use Map. The zone district proposed in this request allows for greater density in an area identified in the Future Land Use Map as Transitional Mixed Use and Community Commercial, which is intended to accommodate a mix of uses and more dwelling units per acre, providing for "apartments, condominiums, and other forms of multifamily housing." Rezoning could facilitate infill development and the use of existing infrastructure, reducing urban sprawl and the need for greenfield development that is further away from community services and transit.

Staff finds that the application request on its merits contains sufficient information to address Criterion 3.

Criterion 4 (SFCC 1987, § 14-3.5(C)(1)(d)) requires that the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city.	**Criterion Met: (Yes/No) YES**

Applicant's Response:

The rezoning is consistent with the City's policies regarding the provision of urban land sufficient to meet the projected growth in both population and housing demand. This consistency is reflected in several key aspects of the General Plan, particularly regarding infill development, higher densities, and sustainable urban growth.

General Plan Figure 4-4, Urban Sub-Areas, designates the subject property and surrounding area as an "Infill Area." General Plan Section 4.1 states, "In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows" to help "create efficient use of already existing roads and utilities, help ensure cost-efficient public transit, and provide the type of housing that will be in demand…".

The rezoning proposal supports the city's policy of maximizing the efficiency of existing urban infrastructure. By increasing the density of a property within an established urban area, the city can accommodate growth without the need to extend roads, utilities, or other public services into undeveloped areas. This not only aligns with sustainability goals but also helps manage the rate of growth in a manner consistent with long-term city planning.

The rezoning is also consistent with the city's policy to ensure that the supply of urban land meets long-term housing demand, thereby supporting sustained population growth. By rezoning for higher density, the city is not just responding to immediate tenant needs but is planning for future demand. This strategic approach ensures that as the population grows, there is adequate housing available in desirable locations, contributing to economic stability and urban vitality.

Staff Response:

Staff agrees with the Applicant's response and finds that rezoning the Property could provide for potential housing needs where infrastructure already exists and reduce pressure to accommodate such growth at the edges of the City.

Staff finds that the application request on its merits contains sufficient information to address Criterion 4 (14-3.5(C)(1)(d)].

Criterion 5 (SFCC 1987, § 14-3.5(C)(1)(e)) requires that the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.	**Criterion Met: (Yes/No) YES**

Applicant's Response:

<u>Water and Sewer Capacity</u>: The City's Water and Wastewater Divisions have confirmed that the RKSS development, of which the subject parcel is a part, will be served and identified the infrastructure improvements necessary for service.

Public Schools: A Santa Fe Public Schools (SFPS) Impact Form was submitted and, to my knowledge, SFPS has not issued a response.

Park Capacity: Given the significant commercial nature of the Cerrillos Road corridor, the nearest neighborhood park is San Isidro Village Park, which is 0.75 miles away. Given this distance, the future residents of the RKSS community will have minimal impact on the Park. Given this environment, the RKSS project is providing 1.18 acres of common open space and outdoor amenities. The rezone of Lot A-2 will enable additional development of outdoor recreational space to serve the residents.

Public Transportation: The property is served by Santa Fe Trails Route 2 and there are bus stops directly in front of the site and across the street.

Emergency Services: The potential development of Lot A-2 with outdoor recreational amenities will not have a significant impact on emergency services. Furthermore, the Fire Department reviewed the RKSS Multifamily Development Plan and did not express any concerns regarding capacity to serve the project.

Road Capacity: A Traffic Impact Analysis was reviewed and approved as part of the RKSS Multifamily Development Plan with a finding that there would not be significant impact on the roadway network.

Staff Response:

Staff coordinated with the Design Review Team (DRT) agencies for water, wastewater, fire and terrain management regarding the subject Property. Each stated that the comments made for the RKSS Multi-Family Development Plan apply to this rezoning as well. Based on the information that the Applicant provided for the RKSS Multi-Family Development Plan, Staff had sufficient information to determine that the existing public infrastructure will be able to accommodate for any development permitted in proposed C-2 zone district.

Staff finds that the application request contains sufficient information to address Criterion 5.

Criterion 6 (SFCC 1987, § 14-3.5(C)(2) provides that: unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to: **(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;** **(b) affect an area of less than two acres, unless adjusting boundaries between districts; or** **(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.**	**Criterion Met: (Yes/No)** **YES**

Applicant's Response:

The proposed C-2 zoning not only complies with the property's Future Land Use Map designations of Community Commercial and Transitional Mixed-Use, but it also embodies many of the Plan's themes and policies with respect to infill, compact urban form, and economic development. Therefore, the criteria above are not applicable to this application.

Staff Response:

Staff agrees with the Applicant's response. The proposed change is consistent with applicable general plan policies and themes including Affordable Housing, Economic Diversity, Urban Form / Higher Densities, Transportation Alternatives, and Community Oriented Development. The prevailing use and character of the area is a mix of medium density residential (Trailer Ranch), multi-family residential (Oslo, RKSS, and Stage Coach Motor Inn Apartments) and commercial. Rezoning the subject Property from R-3 to C-2 is consistent with the density that was contemplated in and established by the Future Land Use Map.

Staff finds that the application request on its merits contains sufficient information to address Criterion 6.

V. CONCLUSION

Upon the Planning Commission and staff's review of the applicant's request, submittal, and written findings, the Planning Commission and staff have determined the applicant has met the approval criteria to approve a rezone from Residential Three Units per Acre to General Commercial established in SFCC §14-3.5(C), §14-3.5(D), and §14-3.9(D)(1).

Planning and Land Use Department
Planning Commission Staff Report

Case No:	2025-10276
Hearing Date:	June 5, 2025
Applicant:	RKSS Santa Fe 1, LLC
Agent:	JenkinsGavin, Inc
Request:	Rezoning
Location:	3439 Cerrillos Rd
Case Mgr.:	Claudia Kath
Zoning:	R-3
Overlay:	Suburban Archaeological Review District Review District
Future Land Use:	Transitional Mixed-Use and Community Commercial
Pre-app. Mtg.:	July 27th, 2023
ENN Mtg.:	March 11th, 2025
Proposal:	Rezoning R-3 (Residential – Three (3) dwelling units per acre) to C-2(General Commercial) for +/-1.49 acres.

Case #2025-10276. 3439 Cerrillos Rd Rezoning. JenkinsGavin, Agent, for RKSS Santa Fe 1, LLC, Applicant, requests approval for the rezoning of a 1.49- acre lot from R-3 (Residential three dwelling units per acer) to C-2 (General Commercial). The property is located within the Suburban Archaeological Review District and currently zoned R-3. (Claudia Kath, Case Manager, cmkath@santafenm.gov).

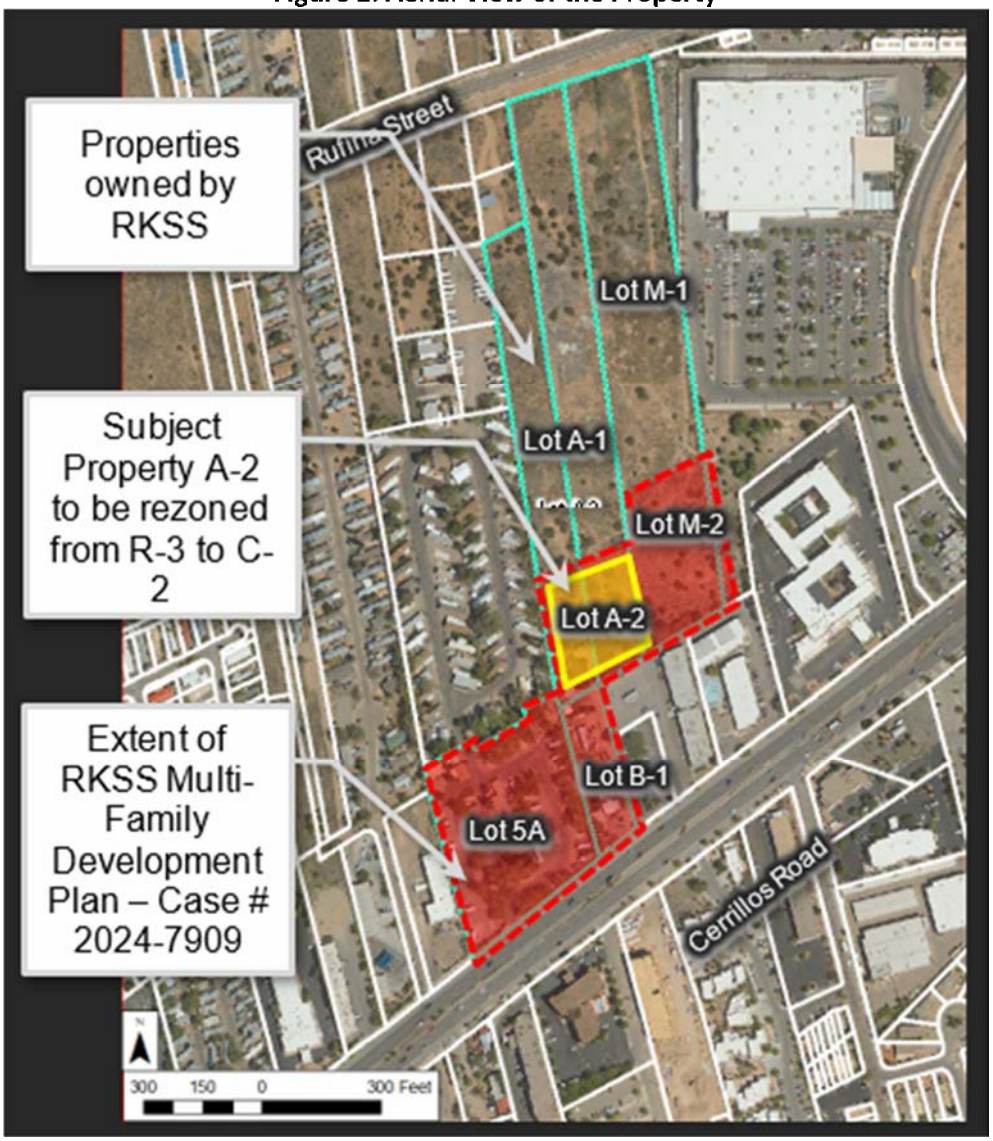
I. RECOMMENDATION

The Planning Commission should recommend that the Governing Body **APPROVE** Case #2025-10276 "3439 Cerrillos Rd Rezoning" from R-3 to C-2 as outlined in this report. No conditions are recommended with this rezoning request.

One motion will be required for this case:

a. Recommend the Governing Body approve or deny Case #2025-10276 3439 Cerrillos Rd Rezoning.

Pending a decision by the Planning Commission for this project, the Findings of Fact and Conclusions of Law will be presented at the next Planning Commission meeting for approval.



II. EXECUTIVE SUMMARY

JenkinsGavin ("Agent"), representing RKSS Santa Fe 1, LLC ("Applicant"), requests approval for a rezoning of a +/-1.49 acre property located at 3439 Cerrillos Rd ("Property") from R-3 (Low Density Residential - Three [3] dwellings per acre) to C-2 (General Commercial) (see Figure 1: "Aerial View of the Property").

On January 16, 2025, the Applicant came before the Planning Commission requesting approval of a development plan spanning four (4) lots, including the Property (Lot A-2). The Planning Commission postponed their decision on the application due to concerns about the mix of zone districts (R-3 and C-2) and the mix of uses proposed within the development plan not being consistent with the existing zone districts. The initial proposal included an access road, parking and an open space/dog park on Lot A-2, which is zoned R-3, and was planned to serve the residential uses proposed on the other three (3) lots, which are all zoned C-2.

Following the postponement, the Applicant amended the proposal and removed the parking lot and dog park uses from Lot A-2. The only remaining proposed development on Lot A-2 was a "lot access driveway" at the southern end of the subject property, connecting the other lots within the development plan. On February 6, 2025, the Applicant returned to the Planning Commission and received approval of the amended proposal (Case# 2024-7909).

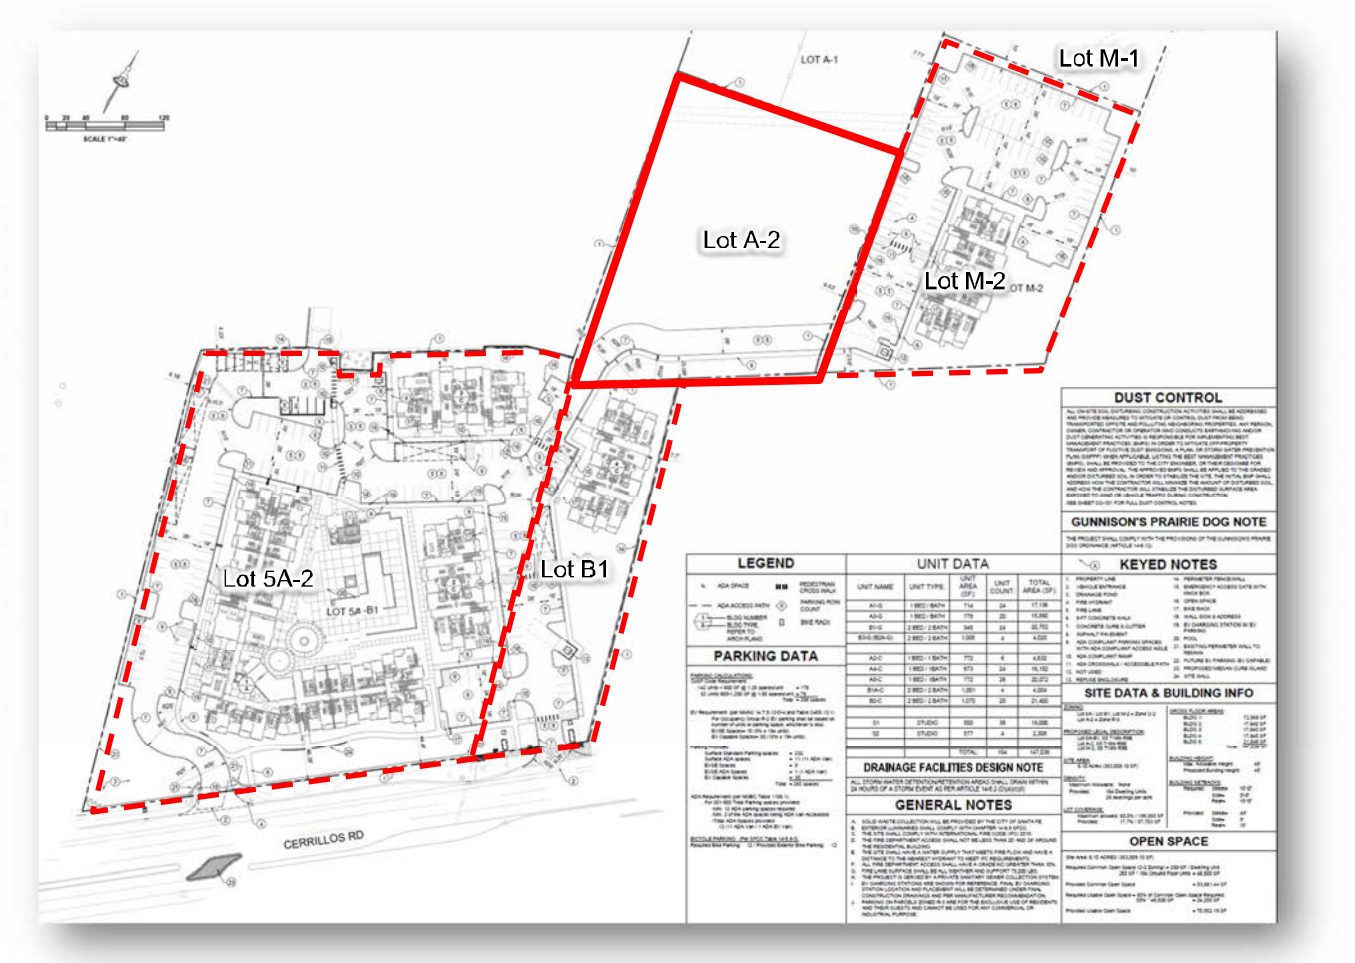


Figure 1: Aerial View of the Property

The subject Property is a legal lot of record, as documented in the records of the Santa Fe County Clerk. It is identified as Lot A-2 on the RKSS Multi-Family Development Plan (Case #2024-7909), which was approved by the Planning Commission on February 6, 2025 (see Figure 2 "Approved Development Plan").

In their review of the RKSS Multi-Family Development Plan, the Design Review Team (DRT) did not anticipate any issues with the availability or provision of infrastructure, nor did they provide any additional comments in their review of this rezoning request. As such, the DRT comments from the Development Plan (Case #2024-7909) are included for reference in Attachment A.

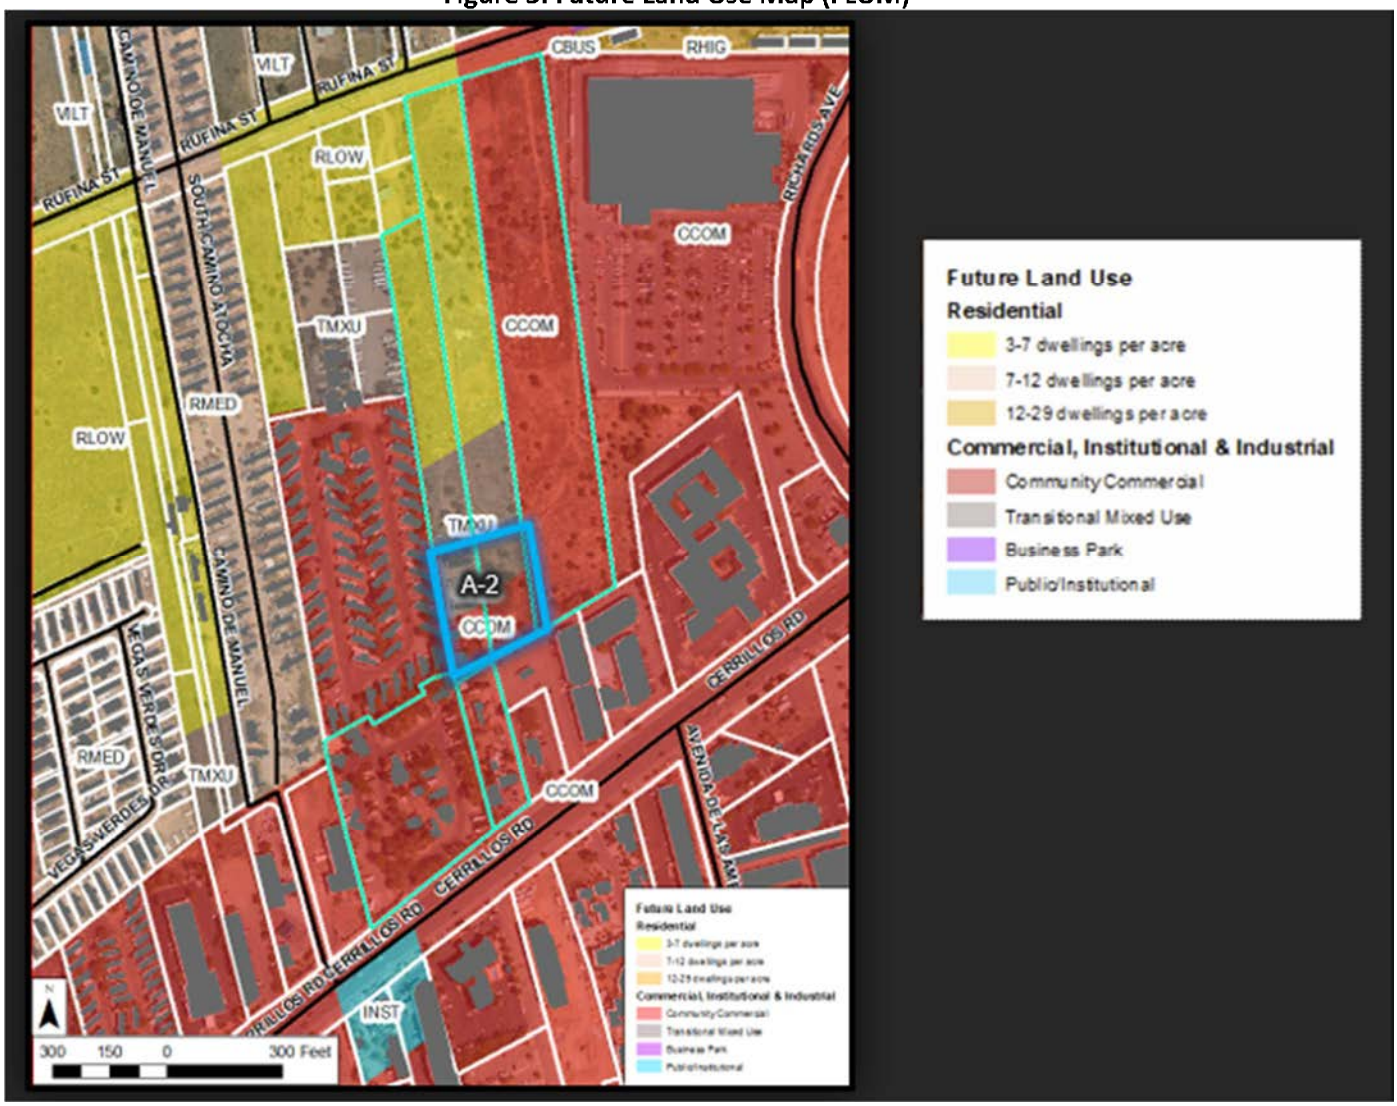
Figure 2: Approved Development Plan & Open Space Plan

The Applicant owns approximately nineteen (19) acres of land located between Rufina Street and Cerrillos Road (north and south), and Richards Avenue and Camino de Manuel (east and west). Through various lot consolidations, adjustments, and splits, nearly half of this acreage will be utilized for the RKSS Multi-Family Development Plan (see Table 1: "Lots & Acreage Owned by the Applicant"). The Applicant will be extending future construction to other lots as part of a phase 2 development.

Table 1: Lots & Acreage Owned by the Applicant

Address	Lot #	Lot Consolidation	Lot Line Adjustment	Lot Split	Acreage	Date Recorded
3431 Cerrillos Rd	B1	✓			.98	2/10/2021
3471 Cerrillos Rd	5A	✓	✓		+/-3.93 ac	-
3450 Cerrillos Rd	A1				+/-6.13 ac	-
3439 Cerrillos Rd	A2	✓	✓		+/-1.49 ac	-
3420 Rufina St	M1				+/-5.52 ac	-
3420 Rufina St	M2			✓	+/-1.61 ac	-
Total Acreage Included in RKSS Development Plan					**+/- 8.01 ac**	
Total Acreage of Land owned by RKSS					**+/- 19.66 ac**	

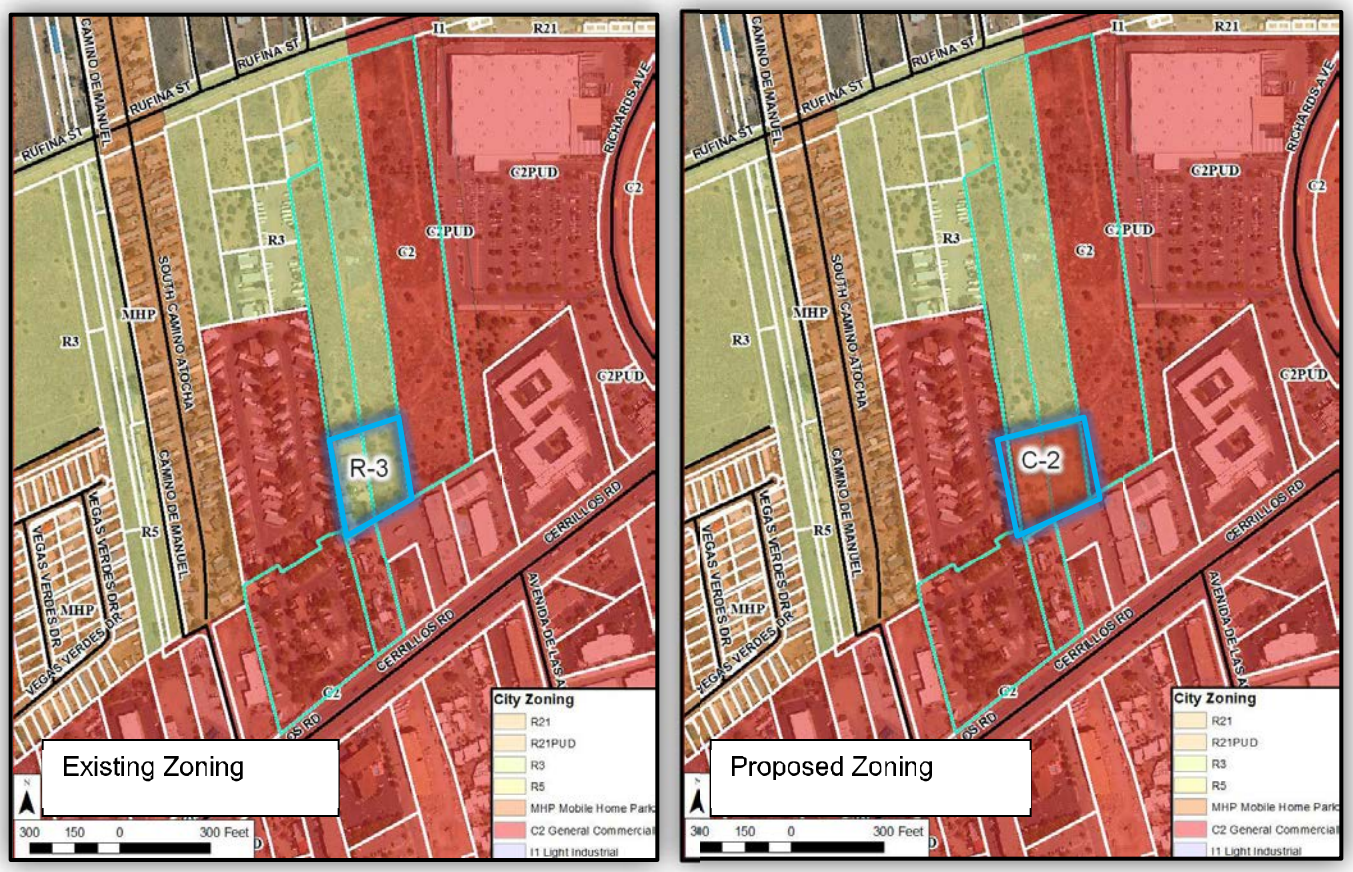
The Applicant has complied with Subsection 14-3.1(E) "Pre-Application Conferences," 14-3.1(F) "Early Neighborhood Notification Procedures," and 14-3.1(H) "Notice Requirements."



Staff's analysis finds that the Project satisfies Subsection 14-3.5(C) "Approval Criteria" for rezoning.

III. PROJECT ANALYSIS

A. Property Information



As outlined in the City of Santa Fe Land Development Code, all rezoning requests must demonstrate consistency with the General Plan's Future Land Use Map (FLUM). The subject Property is identified on the FLUM (see Figure 3: "Future Land Use Map") primarily as Transitional Mixed Use (TMU), with a small portion along the southern boundary designated as Community Commercial (CCOM).

Figure 3: Future Land Use Map (FLUM)

The Property's existing R-3 zoning is inconsistent with the General Plan FLUM Transitional Mixed Use (TMU) and community commercial (CCOM) designations. The TMU land use category is intended to support a diverse mix of uses and residential types, promoting flexibility in development patterns. The proposed rezoning to C-2 (General Commercial), if approved, would be consistent with the underlying TMU and CCOM designations, as the C-2 zone allows for a compatible mix of commercial and residential uses envisioned in these future land use areas. Therefore, the requested C-2 rezoning aligns with the General Plan Future Land Use Map, and no General Plan Amendment would be required to enable development of the tract.

Figure 4: Existing and Proposed Zoning

B. Adjacent Properties

The Property is adjacent to commercially zoned properties along Cerrillos Road to the south. There is a vacant lot to the east and the Trailer Ranch property to the west, both of which are zoned C-2. To the north, there are two linear lots currently zoned R-3. The properties adjacent to the subject Property are described in (Table 2: "Adjacent Uses and Zoning") below.

Table 2: Adjacent Uses and Zoning

Direction	Property Address	Zoning
North	3439 Cerrillos Road	R-3 (Low Density Residential) owned by RKSS
East	3420 Rufina Street	C-2 (General Commercial) owned by RKSS
South	3431 Cerrillos Road	C-2 (General Commercial)
West	3471 Cerrillos Road	C-2 (General Commercial) (Trailer Ranch)

C. Overlay District

The Property is located within the Suburban Archeological Review Overlay District, which the Santa Fe City Code ("SFCC" or "Code") SFCC 1987, § 14-5.3(C)(c) describes as follows::

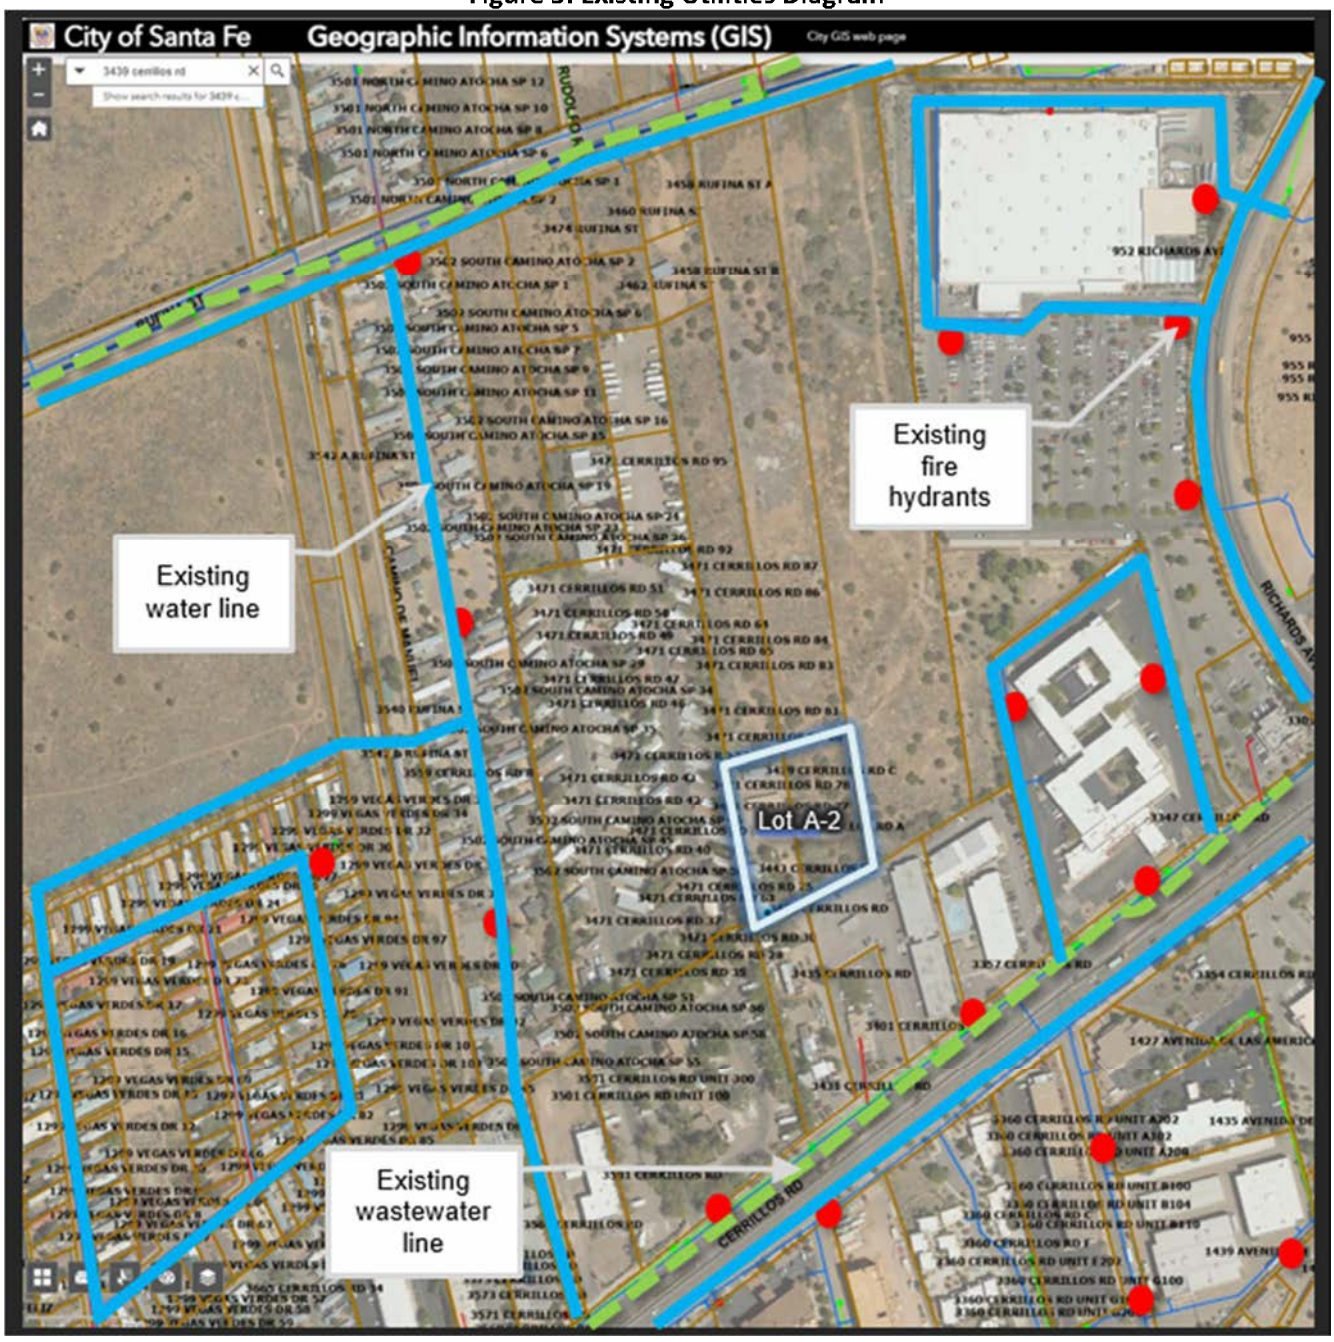
(c) Suburban Archaeological Review District
Land within the suburban archaeological review district has a moderate potential of containing significant cultural remains and is not a part of the historic downtown or river and trails archaeological review districts.

However, archeological review is not required for this rezoning because the Property is less than ten (10) acres in size. *See* SFCC 1987, § 14-3.13(B)(3).

D. Utilities

a. Water

As shown on Figure 5: "Existing Utility Diagram", there is an existing water main in Rufina Street which is approximately 800 feet to the north from the subject Property. There is also an existing water main in Cerrillos Road which is approximately 500 feet to the south. A connection to either of these water sources would be through property owned by the Applicant and would not require a special easement. The City's Water Division has provided DRT Comments for the RKSS Multi-Family Development Plan, previously approved by the Planning Commission on February 6, 2025, which are included for reference in Attachment A.



b. **Sewer**

Existing wastewater lines are located on Rufina Street and Cerrillos Road. The DRT has indicated the Applicant will need to provide private 8" sewer lines and manhole locations on a utility plan for review and approval. Further comments are included in Attachment A.

c. Fire

As shown on Figure 5: "Existing Utility Diagram", there are multiple existing fire hydrants near the subject Property. The closest hydrant is approximately 500 feet from the Property. As part of the DRT review process the Fire Marshall has indicated the comments for the RKSS Multi-Family Development plan also apply to the subject Property rezoning request. These comments can be found in Attachment A.

Figure 5: Existing Utilities Diagram

d. Terrain Management

The site slopes gently from the northeast to the southwest of the Property and there are no arroyos on the site. The Terrain Management review has indicated that DRT comments for the RKSS Multi-Family Development Plan apply to the subject Property rezoning request. These can be found in Attachment A.

IV. ZONING APPROVAL CRITERIA

Code Sections 14-3.5(A) and (C) sets forth approval criteria for rezoning as follows:

(1) The Planning Commission and the Governing Body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:

Criterion 1 (SFCC 1987, § 14-3.5(C)(1)(a)) requires that one or more of the following conditions exist: **(i) there was a mistake in the original zoning;** **(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or** **(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;**	**Criterion Met: (Yes/No)** **YES**
Applicant's Response: *(i) N/A* *(ii) The subject parcel is a remnant of the traditional land pattern along the Agua Fria and Rufina corridors comprising long, narrow tracts historically used for agricultural purposes. The intensity of land uses in the area has increased significantly over time and, accordingly, this parcel relates much more to the Cerrillos Road corridor than Rufina St. The change in the surrounding area is further evidenced by the subject property's designations of Community Commercial and Transitional Mixed-Use on the City's Future Land Use Map. The subject parcel is bordered by C-2 zoning to the west, south, and east.* *(iii) With this rezone, the subject parcel will support a 194-unit multifamily community, as opposed to the development of just four dwelling units permissible under the current R-3 zoning. This is more advantageous to the community through the provision of much needed housing in the urban area with access to public transit, services, and employment.*	
Staff Response: (i) Staff agrees with the Applicant and finds that there was no mistake in the original zoning. (ii) The neighborhood exhibits a diverse land use pattern, comprising single-family homes, multifamily residential developments, vacant parcels, and commercial structures accompanied by surface parking facilities. Historically agricultural in character, the area has undergone a gradual transformation toward increased commercial activity. The site is immediately adjacent to a C-2 (General Commercial) zoning district, and the Future Land Use Map identifies the area as suitable for Transitional Mixed Use (TMU) and Community Commercial (CCOM), reflecting its evolving urban context. (iii) Staff finds that a different zone district (in this case, C-2 zoning) would allow for more advantageous development of the Property as part of the RKSS Multi-Family Development Plan. In addition, that would enhance compliance with the General Plan policies; specifically, the themes and policies relating to higher densities, compact urban form, and infill as growth management. The C-2 rezoning request has the potential to provide long-term, higher density and mixed-use solutions where infrastructure is already present. Furthermore, the C-2 zone district will allow for more density and enable a wider diversity of permitted uses.	

Staff finds that the application request on its merits contains sufficient information to address Criterion 1.

Criterion 2 (SFCC 1987, § 14-3.5(C)(1)(b)) requires that all the rezoning requirements of Chapter 14 have been met;	**Criterion Met: (Yes/No) Yes**

Applicant's Response:

All rezoning requirements of Chapter 14 have been met. The rezone requirements specified in §14-3.1 and §14-3.5 are addressed in the RKSS Rezone Report provided by the Agent in Attachment B.

Staff Response:

The Applicant has met all the requirements of Chapter 14 for a rezoning request. They participated in a pre-application meeting on July 27th, 2023, held an ENN meeting on March 11th, 2025, and properly notified the public of the ENN meeting and this Planning Commission public hearing. Additionally, the applicant submitted a complete application that meets the requirements of Chapter 14.

Staff finds that the application request does address Criterion 2.

Criterion 3 (SFCC 1987, § 14-3.5(C)(1)(c)) requires that the rezoning is consistent with the applicable policies of the general plan, including the future land use map.	**Criterion Met: (Yes/No) Yes**

Applicant's Response:

This rezone request complies with the property's Future Land Use Map designations of both Community Commercial and Transitional Mixed-Use. This parcel is part of the RKSS Cerrillos Road multi-family Development Plan, which was approved by the Planning Commission on February 6, 2025. The balance of the RKSS premises is zoned C-2 and this rezone will bring the subject property into conformance with the surrounding C-2 zoning, allowing the parcel to potentially be developed with outdoor recreational amenities and additional resident parking. This rezone and the RKSS project also align with General Plan Themes and Policies such as Affordable Housing, Economic Diversity, Urban Form/Higher Densities, Transportation Alternatives, and Community Oriented Development. Furthermore, the project exemplifies key elements of the General Plan Land Use Framework, including compact urban form and the provision of a mix of housing types in all neighborhoods. As an infill site, the subject property is efficiently served by existing utility and roadway infrastructure.

Affordable Housing Policy 4-4-G-7

This increase in housing supply provided by the RKSS multifamily project will help alleviate the current housing shortage in Santa Fe. In addition, a fee in lieu of affordable housing will be paid to the Affordable Housing Trust Fund to support future affordable housing efforts.

Economic Development Strategic Plan

The provision of adequate housing opportunities for the workforce is critical to economic development. Furthermore, the RKSS development enhances the mixed-use environment of the Cerrillos Road corridor, whose residents will support local businesses in the vicinity.

Urban Form/Higher Densities - Growth Management Methods 4.1

"In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows. This approach does not necessarily require

greater building height but rather greater massing on specifically identified infill sites within the Urban Area."

The rezoning supports the General Plan's emphasis on higher densities and a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl, and supporting walkability and transit- oriented development. By promoting higher-density residential development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

Community-Oriented Development - Growth Management Methods 4-1-G-3
"Use a full range of growth management methods to achieve a superior quality of life and to ensure a financially and environmentally sustainable community."

The RKSS project, supported by this rezoning, will help meet the community's housing needs in a sustainable manner. Developing housing in the Cerrillos Road corridor provides walkable access to services and employment opportunities.
Furthermore, the site is served by a Santa Fe Trails bus stop directly adjacent to its Cerrillos frontage.

Compact Urban Form 4-3-G-2
Rezoning to C-2 supports a more compact urban form by making more efficient use of the land. This is particularly important for infill sites where existing utility and roadway infrastructure can be leveraged without the need for extensive new development. This efficient use of land and infrastructure is a key goal of the General Plan, helping to reduce the environmental impact of development and supporting more sustainable urban growth.

Mix of Housing Types in All Neighborhoods (3.3 Land Use Framework)
"Future Land Use (Figure 3-2) illustrates neighborhoods with integrated housing types, designed to locate a larger share of residences close to transit and neighborhood centers."

The subject property is in a diverse neighborhood of commercial uses and a variety of residential densities. The RKSS multifamily project adds to this diversity, increasing the housing supply in this mixed-use area. Furthermore, access to public transit, services, and employment make the site an ideal infill location for multi-family development.

Staff Response:

Staff finds that the proposed rezoning aligns with the applicable policies of the General Plan, and most importantly the Future Land Use Map. The zone district proposed in this request allows for greater density in an area identified in the Future Land Use Map as Transitional Mixed Use and Community Commercial, which is intended to accommodate more dwelling units per acre, providing for "apartments, condominiums, and other forms of multifamily housing." Rezoning could facilitate infill development and the use of existing infrastructure, which reduces urban sprawl and the need for greenfield development that is further away from community services and transit.

Staff finds that the application request on its merits contains sufficient information to address Criterion 3.

Criterion 4 (SFCC 1987, § 14-3.5(C)(1)(d)) requires that the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies	**Criterion Met: (Yes/No)**

regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city.	**YES**

Applicant's Response:

The rezoning is consistent with the City's policies regarding the provision of urban land sufficient to meet the projected growth in both population and housing demand. This consistency is reflected in several key aspects of the General Plan, particularly regarding infill development, higher densities, and sustainable urban growth.

General Plan Figure 4-4, Urban Sub-Areas, designates the subject property and surrounding area as an "Infill Area." General Plan Section 4.1 states, "In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows" to help "create efficient use of already existing roads and utilities, help ensure cost-efficient public transit, and provide the type of housing that will be in demand…".

The rezoning proposal supports the city's policy of maximizing the efficiency of existing urban infrastructure. By increasing the density of a property within an established urban area, the city can accommodate growth without the need to extend roads, utilities, or other public services into undeveloped areas. This not only aligns with sustainability goals but also helps manage the rate of growth in a manner consistent with long-term city planning.

The rezoning is also consistent with the city's policy to ensure that the supply of urban land meets long-term housing demand, thereby supporting sustained population growth. By rezoning for higher density, the city is not just responding to immediate tenant needs but is planning for future demand. This strategic approach ensures that as the population grows, there is adequate housing available in desirable locations, contributing to economic stability and urban vitality.

Staff Response:

Staff agrees with the Applicant's response and finds that rezoning the Property could provide for potential housing needs where infrastructure already exists and reduce pressure to accommodate such growth at the edges of the City.

Staff finds that the application request on its merits contains sufficient information to address Criterion 4 (14-3.5(C)(1)(d)].

Criterion 5 (SFCC 1987, § 14-3.5(C)(1)(e)) requires that the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.	**Criterion Met: (Yes/No) YES**

Applicant's Response:

<u>Water and Sewer Capacity</u>: The City's Water and Wastewater Divisions have confirmed that the RKSS development, of which the subject parcel is a part, will be served and identified the infrastructure improvements necessary for service.

<u>Public Schools</u>: A Santa Fe Public Schools (SFPS) Impact Form was submitted and, to my knowledge, SFPS has not issued a response.

Park Capacity: Given the significant commercial nature of the Cerrillos Road corridor, the nearest neighborhood park is San Isidro Village Park, which is 0.75 miles away.
Given this distance, the future residents of the RKSS community will have minimal impact on the Park. Given this environment, the RKSS project is providing 1.18 acres of common open space and outdoor amenities. The rezone of Lot A-2 will enable additional development of outdoor recreational space to serve the residents.

Public Transportation: The property is served by Santa Fe Trails Route 2 and there are bus stops directly in front of the site and across the street.

Emergency Services: The potential development of Lot A-2 with outdoor recreational amenities will not have a significant impact on emergency services. Furthermore, the Fire Department reviewed the RKSS Multifamily Development Plan and did not express any concerns regarding capacity to serve the project.

Road Capacity: A Traffic Impact Analysis was reviewed and approved as part of the RKSS Multifamily Development Plan with a finding that there would not be significant impact on the roadway network.

Staff Response:

Staff coordinated with the DRT agencies for water, wastewater, fire and terrain management regarding the subject Property. Each stated that the comments made for the RKSS Multi-Family Development Plan apply to this rezoning as well. Based on the information that the Applicant provided with the application for the RKSS Multi-Family Development Plan, Staff had sufficient information to determine that the existing infrastructure and terrain will be able to accommodate the proposed rezoning.

Staff finds that the application request on its merits contains sufficient information to address Criterion 5.

Criterion 6 (SFCC 1987, § 14-3.5(C)(2) provides that: unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to: **(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;** **(b) affect an area of less than two acres, unless adjusting boundaries between districts; or** **(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.**	**Criterion Met: (Yes/No)** **YES**

Applicant's Response:

The proposed C-2 zoning not only complies with the property's Future Land Use Map designations of Community Commercial and Transitional Mixed-Use, but it also embodies many of the Plan's themes and policies with respect to infill, compact urban form, and economic development. Therefore, the criteria above are not applicable to this application.

Staff Response:

Staff agrees with the Applicant's response. The proposed change is consistent with applicable general plan policies and themes including Affordable Housing, Economic Diversity, Urban Form / Higher Densities, Transportation Alternatives, and Community Oriented Development. The prevailing use and

character of the area is a mix of medium density residential (Trailer Ranch), multi-family residential (Oslo, RKSS, and Stage Coach Motor Inn Apartments) and commercial. Rezoning the subject Property from R-3 to C-2 is consistent with the density that was contemplated in and established by the Future Land Use Map.

Staff finds that the application request on its merits contains sufficient information to address Criterion 6.

V. EARLY NEIGHBORHOOD NOTIFICATION

The Applicant conducted an Early Neighborhood Notification ("ENN") meeting virtually via ZOOM on March 11th, 2025. City staff, the Applicant's team, one member of the public and one member of the press were present. The member of the public asked if additional buildings were planned for Lot A-2. The applicants answered that only parking and recreational facilities were planned for the parcel. Staff answered that if any further buildings were to be proposed it would require a significant amendment to the Development Plan that would likely require a hearing.

11	Key notes 15 and 16 are duplicates on sheets 11-1 and 11-2	Wastewater	Prior to Recordation
12	The sewer line from manhole 1 to manhole 2 shall be public. The sewer line from manhole 2 to manhole 6 shall be a private.	Wastewater	Prior to Recordation
13	Identify the locations of the 4-inch sewer service lines and the cleanout locations	Wastewater	Prior to Recordation
14	Need to add details for the sewer cleanouts	Wastewater	Prior to Recordation
15	Stormwater Agreement Notes shall include the following inspection/maintenance language: INSPECTIONS SHALL BE CONDUCTED BY A REGISTERED PROFESSIONAL ENGINEER IN THE STATE OF NEW MEXICO OR OTHER QUALIFIED PERSON. INSPECTIONS SHALL BE CONDUCTED ON THE DRAINAGE FACILITIES IN ACCORDANCE WITH THE FOLLOWING SCHEDULE: ON OR ABOUT MARCH 15TH, ON OR ABOUT SEPTEMBER 15TH, AND AFTER EACH STORM EVENT OF 1-INCH OR GREATER. MAINTENANCE OF THE DRAINAGE FACILITIES SHALL BE CONDUCTED AND DOCUMENTED BY THE ENGINEER AND THE OWNER. THE OWNER SHALL MAINTAIN A FILE OF THE INSPECTIONS AND REMEDIAL ACTION CONDUCTED ON THE DRAINAGE FACILITIES. WORK SHALL BE CONDUCTED IN ACCORDANCE WITH THE ENGINEER'S RECOMMENDATIONS, AND SHALL INCLUDE BUT NOT LIMITED TO THE FOLLOWING: A. FLUSH ALL CULVERTS, DROP INLETS AND DRAINAGE PIPES TO REMOVE SEDIMENT AND VEGETATION THAT PREVENTS OR HINDERS THE FLOW OF STORMWATER IN THE DRAINAGE STRUCTURE. B. REMOVE SEDIMENT IN PONDS THAT IS GREATER THAN 6-INCHES IN DEPTH AND IF NECESSARY RESEED WITH NATIVE GRASSES AND 3 TO 4 INCH COBBLE AS DIRECTED BY THE ENGINEER. C. INSPECT FOR SEDIMENTATION IN ALL SWALES, DITCHES, DRAINAGE PONDS AND REMOVE AND STABILIZE AS NECESSARY. D. INSPECT FOR SOIL EROSION AT ALL DRAINAGE PONDS CUT AND FILL SLOPES AND REPAIR OR STABILIZE ACCORDINGLY. E. INSPECT STRUCTURAL INTEGRITY OF DRAINAGE PONDS SLOPES RIP-RAP AND OTHER EROSION CONTROL MEASURES AND REPAIR OR STABILIZE ACCORDINGLY. THE CITY OF SANTA FE IS HEREBY GRANTED THE RIGHT TO ACCESS AND INSPECT THESE EASEMENTS AND DRAINAGE FACILITIES AT THE DISCRETION OF THE CITY. THE OWNER AGREES TO INDEMNIFY AND TO HOLD HARMLESS FROM ALL DAMAGE TO PERSONS OR PROPERTY RESULTING FROM THE CITY'S REASONABLE EXERCISE TO THEIR ACCESS AND INSPECTION RIGHT.	River and Trails	Prior to Recordation

16	An approved Development Water Budget including a 9.8% contingency per SFCC 14-8.13(E)(1) will be required. A technical evaluation request for a Development Water Budget needs to be submitted to the City Water Division for review.	Water Resources	Prior to Final Development Plan Approval
17	An Agreement to Construct and Dedicate (ACD) from the Water Division will be required for all new public water infrastructure or fire services. An approved Development Water Budget, including Landscape Irrigation Budget and a 9.8% Contingency is required prior to processing the ACD.	Water Resources	Prior to ACD
18	Each lot shall be served by a separate water service at the time of development.	Water Resources	Prior to Building Permit Application

Attachment A

	TECHNICAL CORRECTIONS	Department	To be completed by:
1	Specific technical comments on the water plans will be provided by the Water Division to the design engineer.	Water	Prior to Water Plan Approval
2	Provide a significant tree survey, list species, size, and quantities. Any trees to be removed shall be marked on the plan with a red X.	Landscape	Prior to Recordation
3	City Staff respectfully request the replacement Pinon Pine with another evergreen tree variety from the City approved plant list. Due to the black scale and bark beetle infestations plaguing Pinon in many areas of Santa Fe.	Landscape	Prior to Recordation
4	On the Plant Schedule remove 4'-6' for the size of all evergreen trees and replace with "6 feet and taller". 14-8.4 (F)(2)(c) All required evergreen trees shall be a minimum of six (6) feet in height.	Landscape	Prior to Recordation
5	Pond #3: Landscape Plan shows 4,902 square feet of Bluegrass Sod. 4. 14-8.4(F)(3)(a) Turf grass sod or turf grass seed mixes installed within the city limits shall contain no more than twenty-five percent Kentucky Bluegrass. City staff have concerns with sod installed in pond bottoms due to silt buildup and extended time the sod may be underwater. City staff require gravel/cobble over weed fabric or a native seeding with irrigation. The native seed will need to be evaluated after each storm event and reseeding may be required. Pond trees and shrubs are required in all ponds per city code 14-8.4(F)(2)(e) stormwater detention ponds and retention ponds shall be planted with appropriate trees, shrubs, and grasses, with a minimum of one tree and three shrubs per five hundred (500) square feet of required ponding area. Plants located in the bottom third of the detension pond or retention pond must be adaptable to periods of submerson and may require replacement during periodic maintenance to remove silt.	Landscape	Prior to Recordation
6	A water level measuring device with zero set at finish grade located at the center of each pond is required.	Landscape	Prior to Recordation
7	Retention ponds deeper than three feet require a security fence and maintenance gate. Fence shall be five in height. The following shall also apply 14-8.4(J) Screening and Buffering, 14-8.5 Walls and Fences.	Landscape	Prior to Recordation
8	Landscape plan calculations must include the following information: Street tree calculations as required by 14-8.4(G) and retention / detention pond plant material.	Landscape	Prior to Recordation
9	Playground mulch must be a minimum depth of 12 inches. Provide note on landscape plan on sheet 3-2	Landscape	Prior to Recordation

10	Provide details and cut sheets of the playground equipment.	Landscape	Prior to Recordation
11	Provide additional screening of the parking lots per city code 14-8.4(I)(2)(c). Provide additional shrubs for lower screening at deciduous trees and gaps between evergreen trees.	Landscape	Prior to Recordation
12	Drip valve detail shown on sheet L3-1 requires a pressure regulator after the Wye Filter.	Landscape	Prior to Recordation
13	Provide an emitter placement detail for trees.	Landscape	Prior to Recordation
14	Shrub locations within the ponds are difficult to see, please revise for better visibility.	Landscape	Prior to Recordation
15	14-8.4(E)(4)(h) irrigation systems shall be zoned by levels of water use. For the most efficient water use, plant with similar water use requirements shall be grouped together. Trees and shrubs shall have separate zones. Drought tolerant and very low water-use tree shall have a separate zone. Native shrubs and very low water-use shrubs shall be irrigated on a separate zone. Separate zones are required for permanent and temporary irrigation lines.	Landscape	Prior to Recordation
16	Provide a landscape irrigation design for the Pop-Up Spray System. Provide a complete set of installation details, notes, and specifications for the irrigation system. Show on the detailed drawings the installation of all assemblies without any questions about size or type of materials to use for said irrigation system.	Landscape	Prior to Recordation
17	The water budget requires revision; Sod is not included in the calculations.	Landscape	Prior to Recordation
18	City Staff respectfully request the use of lateral lines, 4mm barb fitting, spaghetti tubing and compensating emitters for drip irrigation. Inline emitter tubing has a minimal life expectancy due to the high content of calcium in our water.	Landscape	Prior to Recordation
19	Irrigation plans shall be to scale 1-inch=20 feet.	Landscape	Prior to Recordation
20	Photometrics do not meet Code requirements. See Article 14-8.9 and revise for compliance.	Landscape	Prior to Recordation
21	See attached letter date 5/1425 from Wilson & Company. (See Attachment B for letter)	Traffic	Prior to Development Plan Approval

22	Possible confusion on landscape plan page 5, within the legend, 'all gravel types' are noted to be without filter fabric and in the Landscape Notes, it states that all gravel to be placed over filter fabric.	River and Trails	Prior to Recordation
23	Additionally, I assume it means weed barrier when using the term 'filter fabric'. There should be a note saying "no plastic" sheeting to be used and the type of fabric should be specified (ie. Commercial grade spun fabric, not woven)	River and Trails	Prior to Recordation
24	Please see the comments provided on the plans - in Attachment B	Terrain Management	Prior to Recordation
25	There is a tree on top of a fire hydrant. Trees must be a minimum of 15' from a hydrant.	Land Use/Planning	Prior to Recordation
26	There are 4 van accessible spaces listed in the legend but only 2 are shown on the plan.	Land Use/Planning	Prior to Recordation
27	Include fence and gate details	Land Use/Planning	Prior to Recordation
28	Building labels vary between plan drawing sheets – clarify and make consistent throughout the set.	Land Use/Planning	Prior to Recordation
29	There are 36 bicycle parking spaces indicated on the legend but 34 are shown on the plan	Land Use/Planning	Prior to Recordation
30	Please correct on sheet 3-3; Water Demand Calculations table contradicts Water Budget irrigation calculations.	Water Resources	Prior to Final Development Plan Approval

RKSS Rezone Report

JENKINSGAVIN
LAND USE | PROJECT MANAGEMENT

March 21, 2025
(Revised May 23, 2025)

Claudia Kath, Senior Planner
Planning & Land Use Department
City of Santa Fe
200 Lincoln Avenue
Santa Fe, NM 87501

RE: RKSS Cerrillos Road – Lot A-2 (3439 Cerrillos Rd./3450 Rufina St.)
Rezone Application

Dear Claudia:

This letter is respectfully submitted on behalf of RKSS Santa Fe 1, LLC in application to rezone Lot A-2 comprising 1.49 acres from R-3 (Residential, three dwellings per acre) to C-2 (General Commercial), for consideration by the Planning Commission on May 1, 2025. The subject parcel is designated both Community Commercial (southern half) and Transitional Mixed-Use (northern half) on the General Plan Future Land Use Map.

Project Summary

The 1.49-acre subject parcel, Lot A-2, is being created via a Lot Consolidation Plat submitted on February 12, 2024 (attached) and is currently under review. This parcel is part of the RKSS Cerrillos Road multi-family project premises, the Development Plan for which was approved by the Planning Commission on February 6, 2025. The balance of the RKSS premises is zoned C-2 and this rezone will bring the subject property into conformance with the surrounding C-2 zoning and allow the parcel to potentially be developed with outdoor recreational amenities and additional resident parking. The approved Development Plan (attached for reference) includes only an access drive across Lot A-2 in compliance with the property's R-3 zoning restrictions.

Rezone Approval Criteria

Responses to the rezoning approval criteria in SFCC §14-3.5(C) and (D) are detailed below.

(1) The planning commission and the governing body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:

(a) *One or more of the following conditions exist:*

(i) *there was a mistake in the original zoning.* N/A

(ii) *there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning.*

The subject parcel is a remnant of the traditional land pattern along the Agua Fria and Rufina corridors comprising long, narrow tracts historically used for agricultural purposes. The intensity of land uses in the area has increased significantly over time and, accordingly, this parcel relates much more to the Cerrillos Road corridor than Rufina St. The change in the surrounding area is further evidenced by the subject property's designations of Community Commercial and Transitional Mixed-Use on the City's Future Land Use Map. The subject parcel is bordered by C-2 zoning to the west, south, and east.

(iii) *a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans.*

With this rezone, the subject parcel will support a 194-unit multifamily community, as opposed to the development of just four dwelling units permissible under the current R-3 zoning. This is more advantageous to the community through the provision of much needed housing in the urban area with access to public transit, services, and employment.

(b) *all the rezoning requirements of Chapter 14 have been met.*

The rezone requirements specified in §14-3.1 and §14-3.5 are addressed below.

(c) *the rezoning is consistent with the applicable policies of the general plan, including the future land use map;*

This rezone request complies with with the property's Future Land Use Map designations of both Community Commercial and Transitional Mixed-Use. This parcel is part of the RKSS Cerrillos Road multi-family Development Plan, which was approved by the Planning Commission on February 6, 2025. The balance of the RKSS premises is zoned C-2 and this rezone will bring the subject property into conformance with the surrounding C-2 zoning, allowing the parcel to potentially be developed with outdoor recreational amenities and additional resident parking. This rezone and the RKSS project also align with General Plan Themes and Policies such as Affordable Housing, Economic Diversity, Urban Form/Higher Densities, Transportation Alternatives, and Community Oriented Development. Furthermore, the project exemplifies key elements of the General Plan Land Use Framework, including compact urban form and the provision of a mix of housing types in all neighborhoods. As an infill site, the subject property is efficiently served by existing utility and roadway infrastructure.

Affordable Housing Policy 4-4-G-7

This increase in housing supply provided by the RKSS multifamily project will help alleviate the current housing shortage in Santa Fe. In addition, a fee in lieu of affordable housing will be paid to the Affordable Housing Trust Fund to support future affordable housing efforts.

Economic Development Strategic Plan

The provision of adequate housing opportunities for the workforce is critical to economic development. Furthermore, the RKSS development enhances the mixed-use environment of the Cerrillos Road corridor, whose residents will support local businesses in the vicinity.

Urban Form/Higher Densities - Growth Management Methods 4.1

"In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows. This approach does not necessarily require greater building height but rather greater massing on specifically identified infill sites within the Urban Area."

The rezoning supports the General Plan's emphasis on higher densities and a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl, and supporting walkability and transit-oriented development. By promoting higher-density residential development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

Community-Oriented Development - Growth Management Methods 4-1-G-3

"Use a full range of growth management methods to achieve a superior quality of life and to ensure a financially and environmentally sustainable community."

The RKSS project, supported by this rezoning, will help meet the community's housing needs in a sustainable manner. Developing housing in the Cerrillos Road corridor provides walkable access to services and employment opportunities. Furthermore, the site is served by a Santa Fe Trails bus stop directly adjacent to its Cerrillos frontage.

Compact Urban Form 4-3-G-2

Rezoning to C-2 supports a more compact urban form by making more efficient use of the land. This is particularly important for infill sites where existing utility and roadway infrastructure can be leveraged without the need for extensive new development. This efficient use of land and infrastructure is a key goal of the General Plan, helping to reduce the environmental impact of development and supporting more sustainable urban growth.

Mix of Housing Types in All Neighborhoods (3.3 Land Use Framework)

"Future Land Use (Figure 3-2) illustrates neighborhoods with integrated housing types, designed to locate a larger share of residences close to transit and neighborhood centers."

The subject property is in a diverse neighborhood of commercial uses and a variety of residential densities. The RKSS multifamily project adds to this diversity, increasing the housing supply in this mixed-use area. Furthermore, access to public transit, services, and employment make the site an ideal infill location for multi-family development.

Applicable General Provisions, §14-3.1

(B) Authority to File Applications

(1) Unless otherwise specified in Chapter 14, applications for review and approval under Chapter 14 may be filed by:

(a) the owner of the property that is the subject of the application;

RKSS Santa Fe 1, LLC is the legal owner of the subject property per the Warranty Deed attached.

(b) the owner's authorized agent with written authorization;

JenkinsGavin is authorized to submit this application on behalf of the owner per the attached letter of authorization.

(c) a land use board; or N/A

(d) the land use director. N/A

(2) When a land use board files an application, it does so without prejudice to the outcome.

(C) Form of Application

(1) Applications required by Chapter 14 shall be submitted in a form and in such number as required by the land use director.

(2) Each application shall include plans, calculations, and reports sufficient to clearly demonstrate compliance with all applicable provisions of Chapter 14 and applicable state and federal regulations that are administered or enforced by the city. The

number and format of the required documentation shall be as required by the land use director.

(3) The land use director shall provide standardized checklists and format guidelines for each type of application. The land use director may waive the submittal of items on the checklist or require supplemental materials not included on the checklist where such action is necessary to clearly demonstrate compliance with applicable provisions.

(4) In the course of reviewing an application, the governing body and the land use boards may waive the submission of items on the checklist or may require supplemental materials not included on the checklist where such action is necessary to clearly demonstrate compliance with applicable provisions.

This application complies with the form application outlined above.

(D) Schedule of Fees, Charges and Expenses

The governing body shall establish by resolution a schedule of fees, charges, and expenses and a collection procedure for construction permits, appeals, subdivisions, amendments, and other applications. This schedule of fees, charges, and expenses shall be posted in the planning and land use department and may be altered or amended only by the governing body. No permit or approval required under Chapter 14 shall be issued or granted unless and until applicable charges, fees, and expenses have been paid in full.

This application acknowledges the Schedule of Fees, Charges, and Expenses outlined above.

(E) Pre-Application Conferences

(1) Applicability

(a) Pre- Pre-application conferences are required prior to submission of applications for:(i)amendment of the number, shape, boundary, or area of any district, whether by a non-governing-body -initiated annexation or a rezoning;(ii)subdivisions, unless the land use director waives, in writing, the requirement for good cause shown; and(iii)a residential development request that is subject to the Santa Fe Homes Program set forth in Section 26-1 SFCC 1987;

(b) The land use director may determine that a pre-application conference is necessary for other applications to land use boards due to the scope or complexity of the proposed project; and

(c) The land use director may waive or modify the pre-application conference procedures based on a determination that the purposes of the conference have

been achieved by other means or that the limited scope or simplicity of the project does not warrant a formal pre-application conference.

(2) Procedures

(a) At least fifteen calendar days before the application is filed, the applicant shall initiate a pre-application conference with the land use director.

(b) For annexations and rezonings, the purpose of the pre-application conference is to review the proposal for conformity with the general plan, availability of community facilities and utilities, proposed utilities and street improvements, required park and open space improvements, and other requirements as may be dictated by city ordinance.

(3) Responsibility

The city does not assume any responsibility for a lack of understanding of these regulations by the applicant. Advice to the applicant shall not be construed to result in the city, its officers, agents, or employees becoming responsible for damages to the applicant as a result of the applicant's reliance on information given by them. Advice to the applicant does not limit the discretion of any land use board or the governing body in making conditions of approval for the proposed development not anticipated at the time of the pre-application conference.

This application acknowledges the Pre-Application Conference's applicability, procedures, and responsibility outlined above. The requisite Pre-Application Conference was conducted on July 27, 2023.

F) Early Neighborhood Notification Procedures

(1) Intent

Early neighborhood notification (ENN) is intended to provide for an exchange of information between the applicant and residents and property owners in affected neighborhoods before plans become too firm to respond meaningfully to community input and before changes in plans might cause major financial losses by the applicant. Notification set forth in this section is in addition to notification required elsewhere in Chapter 14, unless the other notification procedures are duplicative with the requirements of this section.

(2) Applicability to Projects Reviewed by the board of adjustment, planning commission or the governing body.
(Ord. No. 2013-16 § 4)

(a) ENN is required for the following types of projects, if a public hearing before the board of adjustment, planning commission or the governing body is required by other provisions of Chapter 14:

(iii)rezonings;

(5) ENN Meeting

The announced meeting shall take place at least ten days before the development project application is submitted. Attendees should make a good-faith effort to communicate with the applicant. The meeting shall be attended by a representative of the land use director whose role at the meeting shall be to acquaint the applicant and community with provisions of city ordinances, applicable requirements of city codes and the development review process. At the meeting, the applicant shall present schematic or preliminary plans for the proposed project and a drawing or other graphical representation suitable to reasonably indicate streets and structures within a two hundred (200) foot radius from the perimeter of the property that is the subject of the application.

(6) ENN Guidelines

For any project application required to meet ENN requirements, the applicant and neighborhood shall use the guidelines set forth below to assist them in discussing the project at ENN meetings. The guidelines are based on the requirements of Chapter 14 and the general plan and other formally adopted city plans. Where applicable, the applicant shall respond in writing with a short narrative statement. Interested parties may also respond. Responses from all participants shall be provided to the land use board hearing the application. Responses for specific elements may be cross-referenced to other submittal documents. The ENN guidelines provided in this paragraph are adopted for use by applicants in meeting with interested parties.

The Early Neighborhood Notification (ENN) Meeting was conducted in accordance with these provisions on March 11, 2025.

(G) Application Completeness

An application shall be considered complete if it is submitted in the required form; includes all mandatory information, including all exhibits specified by the land use director; and is accompanied by the applicable fee. The land use director shall make a determination of application completeness. If an application is determined to be incomplete, the land use director shall provide notice to the applicant along with an explanation of the application's deficiencies. No further processing of the application shall occur until the deficiencies are corrected in a future re-submittal.

This application acknowledges the completeness standards and procedures outlined above.

(H) Notice Requirements The notices required by this section shall indicate the nature of the change proposed; the property affected; the time, date, and place of the hearing or meeting; and the deadline for receiving written comments regarding the request, if applicable. The notice shall be approved by the land use director. Neighborhood associations that wish to receive notifications of hearings and meetings and copies of agendas, including email notifications, must register with the land use director.

(1) Notice of Public Hearing Before Land Use Boards and ENN Meetings.

(a) General Notice Requirements
The notice requirements in Subsections 14-3.1(H)(1)(b), (c) and (d) below apply to public hearings required for all applications and ENN meetings, except that:

(i) Public hearings concerning development review actions initiated by the city require notification as described in Subsection 14-3.1(H)(1)(e);

(ii) Public hearings concerning Archaeological Clearance Permits require notification in accordance with Section 14-3.13(C)(3);

(iii) Public hearings concerning projects heard before the historic districts review board shall meet the agenda and posting requirements in Subsections 14-3.1(H)(1)(b) and (c) below, but mailed notification in accordance with Subsection 14-3.1(H)(1)(d) is not required; and

(iv) Public hearings concerning appeals must provide notice as described in Subsection 14-3.1(H)(4).

All general notice requirements have been met for this application with respect to the ENN meeting.

(b) Agenda Requirements

For all public hearings required before any land use board, the land use director shall place the tentative meeting agenda in a local daily newspaper of general circulation at least fifteen calendar days prior to the scheduled meeting. In addition, the land use director shall post the tentative meeting agenda in City Hall and send a copy to neighborhood associations that are registered with the land use director, at least fifteen days prior to the scheduled meeting.

Application acknowledges the agenda requirements stated above.

(c) Posting Requirements

(i) For all ENN meetings and public hearings required before a land use board, except appeals, the property shall be posted by the applicant with posters obtained from the land use director at the applicant's expense. At

least one poster shall be prominently displayed, visible from each public and private street and road abutting the property, and securely placed on the property at least fifteen calendar days prior to the scheduled meeting. Placement of the posters shall be in such a manner as to not compromise public safety.

(ii) The posters shall be removed within thirty days after final action, and failure to do so may result in the city removing the poster and charging the applicant a civil fee of fifty dollars ($50.00).

All posting requirements were satisfied for the ENN meeting.

(d) Mailing and Emailing Requirements
Notice of a public hearing or ENN meeting shall be mailed via the United States postal service by the applicant at least fifteen calendar days prior the public hearing or meeting as follows:

(i) notices shall be mailed by first class mail to the owners of properties within three hundred (300) feet of the subject property as shown in the records of the county treasurer, and to the physical addresses of such properties where the property's address is different than the address of the owner ;

(ii) notices shall also be mailed by first class mail to neighborhood associations that have registered with the land use director and that will be directly affected by the proposed action or that have a boundary within three hundred (300) feet of the subject property. Email notices to the neighborhood associations shall be provided on the same day the applicant sends postal notices;

(iii) for zone changes of one block or less, notices to property owners for public hearings before the governing body or the planning commission shall be by certified mail with return receipt requested as required by Section 3-21-6 NMSA 1978;

(iv) in the case of an application for a telecommunications facility, all property owners within the corresponding setback distances listed in Section 14-6.2(E) shall also receive notices;

(v) if a notice by certified mail of a zoning change is returned undelivered, the city shall attempt to discover the owner's most recent address and shall send the notice by certified mail to that address as required by Section 3-21-6 NMSA 1978;

(vi) copies of all required mailing lists, mailing certificates and return receipts shall be provided to the land use director prior to the public

hearing or ENN meeting with an affidavit of mailing signed by the person who mailed the notices.

All mailing and emailing requirements have been met for the ENN meeting. Applicant also acknowledges the public hearing notice requirements and the special provisions for rezone applications requiring notice via certified mail, return receipt, to all property owners within 100 feet of the subject parcel.

(2) Notice of Public Hearing Before Governing Body

Notice shall be provided as required in Subsection 14-3.1(H)(1)(a) or (e), as applicable. In addition, the applicant shall publish one notice in a local daily newspaper of general circulation at least fifteen calendar days prior to the public hearing.

Applicant acknowledges the notice requirements outlined above.

(3) Postponed or Recessed and Reconvened Public Hearings and Meetings
If a public hearing or ENN meeting is postponed prior to the scheduled meeting, re-notification is not necessary if notice of the new date, time, and location of the meeting is clearly posted at the time and place where the original public hearing or meeting was to be held. A public hearing or meeting may be recessed and reconvened without re-noticing if the date, time, and place for the meeting is specified immediately prior to recessing. N/A

14-3.5 (A) General Provisions

(1) Initiation of Proposals

A rezoning, or amendment to the official zoning map, may be proposed by:

(d) any other person , who must submit a request in writing to the governing body , along with all submissions required by Chapter 14 and any other information requested by the land use director as reasonably necessary to determine compliance with this chapter.

This is the "request in writing" referenced above, which is accompanied by all requisite submittal materials listed at the end of this report.

(2) Plan Requirements

Plan submittal requirements for rezonings are set forth in Articles 14-4 (Zoning Districts) and 14-5 (Overlay Zoning Districts).

There are no plan submittals required for a rezone to C-2. Nevertheless, the RKSS Multifamily Development Plan is submitted for reference.

(3) Uniform Zoning Classification for Entire Lot Required

Except where a legal lot of record is divided by a zoning district boundary, no request to change the zoning classification on a portion of a legal lot of record shall be considered unless the change will establish a uniform zoning classification for the entire lot . A new zoning district boundary shall not divide a legal lot of record, except to establish overlay district boundaries based on topography or other physical conditions.

The entirety of Lot A-2 is proposed to be rezoned.

(d) the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city.

The rezoning is consistent with the City's policies regarding the provision of urban land sufficient to meet the projected growth in both population and housing demand. This consistency is reflected in several key aspects of the General Plan, particularly regarding infill development, higher densities, and sustainable urban growth.

General Plan Figure 4-4, Urban Sub-Areas, designates the subject property and surrounding area as an "Infill Area." General Plan Section 4.1 states, *"In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows"* to help "create efficient use of already existing roads and utilities, help ensure cost-efficient public transit, and provide the type of housing that will be in demand…".

The rezoning proposal supports the city's policy of maximizing the efficiency of existing urban infrastructure. By increasing the density of a property within an established urban area, the city can accommodate growth without the need to extend roads, utilities, or other public services into undeveloped areas. This not only aligns with sustainability goals, but also helps manage the rate of growth in a manner consistent with long-term city planning.

The rezoning is also consistent with the city's policy to ensure that the supply of urban land meets long-term housing demand, thereby supporting sustained population growth. By rezoning for higher density, the city is not just responding to immediate tenant needs, but is planning for future demand. This strategic approach ensures that as the population grows, there is adequate housing available in desirable locations, contributing to economic stability and urban vitality.

(e) the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.

Water and Sewer Capacity: The City's Water and Wastewater Divisions have confirmed that the RKSS development, of which the subject parcel is a part, will be served and identified the infrastructure improvements necessary for service.

Public Schools: A Santa Fe Public Schools (SFPS) Impact Form was submitted and, to my knowledge, SFPS has not issued a response.

Park Capacity: Given the significant commercial nature of the Cerrillos Road corridor, the nearest neighborhood park is San Isidro Village Park, which is 0.75 miles away. Given this distance, the future residents of the RKSS community will have minimal impact on the Park. Given this environment, the RKSS project is providing 1.18 acres of common open space and outdoor amenities. The rezone of Lot A-2 will enable additional development of outdoor recreational space to serve the residents.

Public Transportation: The property is served by Santa Fe Trails Route 2 and there are bus stops directly in front of the site and across the street.

Emergency Services: The potential development of Lot A-2 with outdoor recreational amenities will not have a significant impact on emergency services. Furthermore, the Fire Department reviewed the RKSS Multifamily Development Plan and did not express any concerns regarding capacity to serve the project.

Road Capacity: A Traffic Impact Analysis was reviewed and approved as part of the RKSS Multifamily Development Plan with a finding that there would not be significant impact on the roadway network.

(2) Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:

(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;

(b) affect an area of less than two acres, unless adjusting boundaries between districts; or

(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.

The proposed C-2 zoning not only complies with the property's Future Land Use Map designations of Community Commercial and Transitional Mixed-Use, but it also embodies many of the Plan's themes and policies with respect to infill, compact urban form, and economic development. Therefore, the criteria above are not applicable to this application.

SFCC §14-3.5(D): Additional Applicant Requirements

(1) If the impacts of the proposed development or rezoning cannot be accommodated by the existing infrastructure and public facilities, the city may require the developer to participate wholly or in part in the cost of construction of off-site facilities in conformance with any applicable city ordinances, regulations or policies;

(2) If the proposed rezoning creates a need for additional streets , sidewalks or curbs necessitated by and attributable to the new development , the city may require the developer to contribute a proportional fair share of the cost of the expansion in addition to impact fees that may be required pursuant to Section 14-8.14.

The infrastructure requirements for the RKSS project are documented in the approved Development Plan. There are no additional infrastructure requirements to serve the potential outdoor amenity and parking improvements on Lot A-2.

Early Neighborhood Notification

The Early Neighborhood Meeting (ENN) for the rezone request was conducted on March 11, 2025. In addition to City staff and the Applicant team, one neighbor and a member of the press were present. Following the Applicant's presentation, the neighbor inquired if an additional resident building would be constructed on Lot A-2 and the Applicant responded that only outdoor recreational amenities and resident parking are being considered.

In support of this request, the following documentation is submitted herewith for your reference:

1. Rezone Application
2. Agent Authorization Letter
3. Boundary Survey & Lot of Record Deed
4. Warranty Deeds
5. ENN Meeting Notice & Participant List
6. SFPS Impact Form
7. RKSS Development Plan
8. Lot Consolidation Plat (Lot A-2)

The application fees are calculated as follows:

Rezoning Application 1-9.99 acres (first 5 acres)	$1,000.00
Notice Poster	$0.00 (will re-use ENN poster)
TOTAL	**$1,000.00**

Please contact me should you have any questions or require additional information. Thank you.

Sincerely,

Jennifer Jenkins, Principal

Early Neighborhood Notification (ENN) Guidelines

Section 14-3.1(F)(5) SFCC 1987, as Amended

Please address each of the criteria below. Each criterion is based on the Early Neighborhood Notification (ENN) guidelines for meetings, and can be found in Section 14-3.1(F)(5) SFCC 1987, as amended, of the Santa Fe City Code. A short narrative should address each criterion (if applicable) in order to facilitate discussion of the project at the ENN meeting. These guidelines should be submitted with the application for an ENN meeting to enable staff enough time to distribute to the interested parties. For additional detail about each criterion, consult the Land Development Code.

(a) EFFECT ON CHARACTER AND APPEARANCE OF THE SURROUNDING NEIGHBORHOODS *For example: number of stories, average setbacks, mass and scale, architectural style, landscaping, lighting, access to public places, open spaces and trails.(Ord. No. 2008-29 § 3)*

Project Description: The 2.981 acre subject parcel at 3443 Cerrillos Road is intended to be consolidated with adjacent C-2 parcels being developed as a 194-unit multi-family community. The rezone will establish identical zoning for the consolidated parcels.

The property located at 3443 Cerrillos Road is currently zoned R-3 (Residential, 3 dwelling units per acre) with a proposed zoning of C-2 (General Commercial). The surrounding parcels are zoned R-3 and C-2. The proposed rezone would support the current character of the surrounding neighborhood and support future development in the area.

(b) EFFECT ON PROTECTION OF THE PHYSICAL ENVIRONMENT *For example: trees, open space, rivers, arroyos, floodplains, rock outcroppings, escarpments, trash generation, fire risk, hazardous materials, easements, etc.*

The site slopes gently from the northeast to the southwest. There are no arroyos on the property. Any development that occurs on the property will work to preserve as many trees as possible.

(c) IMPACTS ON ANY PREHISTORIC, HISTORIC, ARCHAEOLOGICAL OR CULTURAL SITES OR STRUCTURES, INCLUDING ACEQUIAS AND THE HISTORIC DOWNTOWN *For example: the project's compatibility with historic or cultural sites located on the property where the project is proposed.*

The property is located in the Suburban Archaeological District area.The site is 2.981 aces, which is less than 10 acres, an archaeological clearance permit is not required.

(d) RELATIONSHIP TO EXISTING DENSITY AND LAND USE WITHIN THE SURROUNDING AREA AND WITH LAND USES AND DENSITIES PROPOSED BY THE CITY GENERAL PLAN *For example: how are existing City Code requirements for annexation and rezoning, the Historic Districts, and the General Plan and other policies being met.*

As described above, the property is consistent with surrounding use intensities. The subject properties General Plan Future Land Use designation is General Commercial and Transitional Mixed Use. The proposed rezone would not only support the unison with its adjacent parcels but also bring the parcel into compliance with the General Plan Future Land Use designations.

(e) EFFECTS UPON PARKING, TRAFFIC PATTERNS, CONGESTION, PEDESTRIAN SAFETY, IMPACTS OF THE PROJECT ON THE FLOW OF PEDESTRIAN OR VEHICULAR TRAFFIC AND PROVISION OF ACCESS FOR TEH DISABLED, CHILDREN, LOW-INCOME AND ELDERLY TO SERVICES *For example: increased access to public transportation, alternate transportation modes; traffic mitigation, cumulative traffic impacts, pedestrian access to destinations and new or improved pedestrian trails.*

The project design for this community will include pedestrian connections to the existing sidewalk along Cerrillos Rd and the Santa Fe Trails bus stop. No negative impact on access to services is anticipated, including pedestrian access for Trailer Ranch residents.

(f) IMPACT ON THE ECONOMIC BASE OF SANTA FE *For example: availability of jobs to Santa Fe residents; market impacts on local businesses; and how the project supports economic development efforts to improve living standards of neighborhoods and their businesses.*

The rezone will support the proposed 194-unit multi-family community. This will create a new housing supply, which is critical to economic development is Santa Fe by providing more housing opportunities for the employment base. In addition, the project will create jobs in construction related industries.

(g) EFFECT ON THE AVAILABILITY OF AFFORDABLE HOUSING AND AVAILABILITY OF HOUSING CHOICES FOR ALL SANTA FE RESIDENTS *For example: creation, retention or improvement of affordable housing; how the project contributes to serving different ages, incomes and family sizes; the creation or retention of affordable business space. (Ord. No. 2005-30(A) § 4)*

The project will comply with the Santa Fe Homes Program through payment of a fee to the Affordable Housing Trust Fund.

(h) EFFECT UPON PUBLIC SERVICES SUCH AS FIRE, POLICE PROTECTION, SCHOOL SERVICES AND OTHER PUBLIC SERVICES OR INFRASTRUCTURE ELEMENTS SUCH AS WATER, POWER, SEWER, COMMUNICATIONS, BUS SYSTEMS, COMMUTER OR OTHER SERVICES OR FACILITIES *For example: whether or how the project maximizes the efficient use or improvement of existing infrastructure; and whether the project will contribute to the improvement of existing public infrastructure and services.*

The project will be served by City water and sewer, as well as existing emergency services. the site is served by Route 26 of the Santa Fe Trails bus system and there are three bus stops in close proximity. The area is served by several public schools and a school impact form is submitted with this report.

(i) IMPACTS UPON WATER SUPPLY, AVAILABILITY AND CONSERVATION METHODS *For example: conservation and mitigation measures; efficient use of distribution lines and resources; effect of construction or use of the project on water quality and supplies.*

In accordance with City requirements, water rights will be purchased to offset the project's water demand, so there will be no new demand on the City's water supply. The project will comply with the City's regulations governing landscaping and water conservation.

(j) EFFECT ON THE OPPORTUNITIES FOR COMMUNITY INTEGRATION AND SOCIAL BALANCE THROUGH MIXED LAND USE, PEDESTRIAN ORIENTED DESIGN, AND LINKAGES AMONG NEIGHBORHOODS AND RECREATIONAL ACTIVITY AND EMPLOYMENT CENTERS *For example: how the project improves opportunities for community integration and balance through mixed land uses, neighborhood centers and/or pedestrian-oriented design.*

The project improves the opportunities for community integration and balance by incorporating a pedestrian- oriented design and linkages among neighborhoods, including Trailer Ranch access. As well as access to employment and services in walking distance.

(k) EFFECT UPON SANTA FE'S URBAN FORM *For example: how are policies of the existing City General Plan being met? Does the project promote a compact urban form through appropriate infill development? The project's effect on intra-city travel; and between employment and residential centers.*

As an infill site, the proposed project promotes a compact urban form. Furthermore, the site is easily accessible to commercial services and employment.

ADDITIONAL COMMENTS (Optional)

City of Santa Fe
Planning Commission
Findings of Fact and Conclusions of Law

Case #2025-10276
3439 Cerrillos Road Rezoning from R-3 to C-2
Owner's/Applicant's Name – RKSS Santa Fe 1
Agent's Name – JenkinsGavin, Inc.

THIS MATTER came before the Planning Commission ("Commission") for public hearing on June 5, 2025 ("Hearing") upon the application ("Application") of JenkinsGavin, Inc. ("Agent") for RKSS Santa Fe 1 ("Applicant").

The Applicant requests approval for a rezoning of a +/-1.49 acre property located at 3439 Cerrillos Road ("Property") from R-3 (Low Density Residential - Three [3] dwellings per acre) to C-2 (General Commercial).

After conducting a public hearing and having heard from staff and all interested persons, the Planning Commission ("Commission") hereby FINDS, as follows:

FINDINGS OF FACT

1. SFCC 1987 Section 14-3.5(C) sets out approval criteria and requires the Commission to make complete findings of fact sufficient to show that these criteria have been met before recommending the Governing Body approve the Rezoning.
2. In this case, the Applicant sought a rezoning from R-3 to C-2.
3. SFCC 1987 Section 14-3.5(B) sets out procedures for rezoning and requires the Commission to hold a public hearing, review the Application, and make a recommendation to the Governing Body.
4. The property is approximately 1.49 acres, located at 3439 Cerrillos Road.
5. SFCC 1987 Section 14-3.1 sets out certain procedures to be followed on the Application, including, without limitation, (a) a pre-application conference [SFCC 1987 §14-3.l(E)]; (b) an Early Neighborhood Notification ("ENN") meeting [SFCC 1987 § 14-3.1(F)(2)(a)(iii)]; and (c) compliance with notice and public hearing requirements [SFCC 1987 §14-3.1(H)-(I)].
6. The Applicant effected notice by: mailing out notice via first-class mail to property owners within 300 feet of the subject property on February 4, 2025; mailing out notice via certified mail to those within 100 feet; e-mailing neighborhood associations within 300 feet; and posting the required City sign on the property from February 4, 2025 to February 19, 2025.
7. The Applicant attended a pre-application conference on July 27, 2023.
8. The Applicant conducted an ENN meeting on February 19, 2025, virtually via Zoom. The Agent, Applicant, and City land use staff ("Staff") attended the ENN meeting. Several members of the public attended the ENN meeting.
9. City staff reviewed the Application, as well as the related materials and information submitted by the Applicant for conformity with applicable SFCC requirements. Staff also provided the Planning Commission with a written report of its findings (Staff Report), which evaluates the factors relevant to the Application.
10. Staff recommended that the Commission approve the rezoning Application request.

11. After discussion, the Planning Commission voted unanimously in favor of the motion to recommend the Governing Body Approve the Rezoning request.

CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Commission CONCLUDES as follows:

1. Pursuant to SFCC 1987 Section 14-3.1(H)(1), the Applicant properly gave notice of the ENN meeting.
2. The Applicant properly conducted the ENN meeting pursuant to SFCC 1987 Section 14-3.1(F).
3. The Applicant has the right under the SFCC to propose the rezoning of the Property. Pursuant to SFCC 1987 Section 14-3.5(A)(1)(d), any person may submit a written request for rezoning, along with all submissions required by the SFCC 1987 Chapter 14 and any other information requested by the land use director as reasonably necessary to determine compliance with Chapter 14 ("Submittal Requirements").
4. Pursuant to SFCC 1987 Table 14-2.1-1: Review and Decision-Making Bodies and Responsibilities and Section 14-3.5(B)(1), and 14-3.5(C), the Commission has the authority to review and recommend the Governing Body approve or deny the rezoning request.
5. SFCC 1987 Section 14-3.5(B) sets out procedures for rezoning and requires the Commission to hold a public hearing, review the Application, make a recommendation to the Governing Body, and transmit the application, including any plans, to the Governing Body, together with a recommendation as to findings and conclusions, desirable changes and recommendations for approval or denial.
6. Pursuant to SFCC 1987 Section 14-3.5(C)(1)(a)(iii), the Commission finds that the Rezoning would increase density in the central area of the City and would therefore directly align with the intent of the General Plan, which has identified the Future Land Use of the parcel as "High Density Residential" and within the designated "Infill Area."
7. Pursuant to SFCC 1987 Section 14-3.5(C)(1)(b), the Commission finds that the Application is complete as required by Chapter SFCC 1987, 14-3.5(C) "Approval Criteria", and the rezoning request meets all rezoning approval criteria required by Chapter 14 SFCC 1987, Subsection 14-3.5(C).
8. Pursuant to SFCC 1987 Section 14-3.5(C)(1)(c), the Commission finds that the Rezoning is consistent with General Plan Themes and Policies such that the rezoning from R-3 to C-2 is merited. The Rezoning request satisfies all rezoning approval criteria.
9. Pursuant to SFCC 1987 Section 14-3.5(C)(1)(d), the Commission finds the Rezoning provides sufficient information to address 14-3.5(C)(1)(d). The current use of the property (Low Density Residential) is consistent with the General Plan Future Land Use Map of Transitional Mixed Use (TMU) and Community Commercial (CCOM). Additionally, the increased density would be compatible with surrounding development patterns.
10. Pursuant to SFCC 1987 Section 14-3.5(C)(1)(e), the Commission finds that the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development .
11. Pursuant to SFCC 1987 Section 14-3.5(C)(2), the Commission finds:
    a. The prevailing use and character of the area is primarily commercial uses along Cerrillos Road with some single-family residential closer to Rufina Street. The rezoning from R-3 residential to C-2 commercial will remain consistent with the prevailing character in the area.

b. The property is less than two acres in size.
c. The increase in density enhances compliance with the City's adopted General Plan, which serves the interest of the general public. The neighborhood contains commercial developments at a frequency and density greater than single-family homes and any new multi-family residential use will continue this existing use at a slightly higher intensity. This was intended by the General Plan to take place at this location since 1999.

12. Pursuant to SFCC 1987 Section 14-3.1, all procedural requirements regarding the pre-application conference, ENN meeting, and notice of public hearing have been met.
13. The Commission has the power and authority to review, approve or deny Case #2025-10276: 3439 Cerrillos Road Rezoning from R-3 to C-2.
14. The Applicant met the applicable Submittal Requirements.
15. The Commission recommended the Governing Body approve the Rezoning because the Application met all applicable Code criteria.

WHEREFORE, IT IS ORDERED ON THE 17 DAY OF JULY 2025, BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE:

Considering the foregoing findings and conclusions, the Commission approves the rezone request for the Property, as described in the Application for Case #2025 - 10276.

E. APPROVAL OF MINUTES

1. June 5, 2025

MOTION: Commissioner McGhee moved, seconded by Commissioner Kapin, to approve the minutes from Planning Commission meeting on June 5, 2025.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain: Member Gurushabad Mirando

E. APPROVAL OF FINDINGS/CONCLUSIONS

1. **Case #2025-010094. 5211 Las Soleras Dr., Development Plan.** JenkinsGavin, Inc., Agent, for HomeWise, Inc., owner and applicant ("Applicant"), was approved of a Preliminary Subdivision Plat for a 97-unit residential development consisting of 42 townhomes and 55 single-family detached homes, as well as the development of a 5.12-acre public park. The subject 14.41-acre parcel is located at 3730 South Meadows Road and is zoned R-6 (six residential units per acre). (Janice Biletnikoff, AICP, Case Manager,jibiletnikoff@santafenm.gov). (POSTPONED FROM JUNE 5, 2025)

MOTION: Commissioner Kapin moved, seconded by Commissioner McReynolds, to approve Findings for Case #2025-010094 without changes or corrections.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain:
Commissioner Sasha McGhee
Commissioner Gurushabad Mirando

2. **Case #2024-8027. 635 Alto Street Development Plan.** Brian Lawler, Agent, Santa Fe Habitat for Humanity, Applicant. Requests approval of a Development Plan for a multifamily residential use consisting of 5 two-story affordable single-family attached dwelling units. The subject 0.25-acre parcel is located in the Historic Downtown Archaeological Review district and zoned R21 (residential twenty-one dwelling units per acre). (Rebekah Clouser, Case Manager, reclouser@santafenm.gov).

MOTION: Commissioner Kapin moved, seconded by Commissioner Rieland, to approve Findings for Case #2024-8027 without changes or corrections.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain:
Commissioner Sasha McGhee
Commissioner Gurushabad Mirando

3. **Case #2025-10276. 3439 Cerrillos Rd Rezoning.** JenkinsGavin, Agent, for RKSS Santa Fe 1, LLC, Applicant, requests approval to rezone a 1.49- acre lot from its current land use designation of R-3 (Residential three dwelling units per acer) to C-2 (General Commercial). The property is located within the Suburban Archaeological Review District. (Claudia Kath, Case Manager, dcmkath@santafenm.gov).

MOTION: Commissioner McGhee moved, seconded by Commissioner Kapin, to approve Findings for Case #2025-10276 without changes or corrections.

VOTE: The motion was approved on the following Roll Call vote:

For:
Chair Janet Clow Yes
Commissioner Sasha McGhee Yes
Commissioner TJ Rieland Yes
Commissioner Piper Kapin Yes
Commissioner Kelly McReynolds Yes
Commissioner Scott Barber Yes

Against: None

Abstain:
Commissioner Gurushabad Mirando

4. **Case#2025-10420. 3730 South Meadows Road Final Subdivision Plat.** JenkinsGavin, Inc., Agent, for Homewise, Inc., Applicant. Requests approval of a Final Subdivision Plat on 14.41 +/- acres for a 97-unit residential subdivision. The Final Plat consists of 42 townhomes and 55 single-family detached dwelling units. CITY OF SANTA FE, NEW MEXICO

BILL NO. 2025-20

A BILL

REZONING APPROXIMATELY 1.49 ACRES OF LAND LOCATED AT 3439 CERRILLOS ROAD, FROM R-3 (RESIDENTIAL THREE UNITS PER ACRE) TO C-2 (GENERAL COMMERCIAL) (CASE NO. 2025-10276).

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. The real property located at 3439 Cerrillos Road, Township 16, Ranch 9 East, Section 5, Lot A-2, As Recorded in Book 926, Pages 17-18, instrument number 2061504, and being more particularly described in Attachment A, comprising approximately 1.49 acres within the municipal boundaries of the city of Santa Fe (the "Property"), which is restricted to and classified as R-3, is now restricted to and reclassified as C-2.

Section 2. The official zoning map of the city of Santa Fe adopted by Ordinance No. 2001-27 is amended to conform to the change of zoning classification for the Property set forth in Section 1 of this Ordinance.

Section 3. Pursuant to SFCC 1987, Section 2-2.4, this Ordinance shall be published by title and general summary and shall become effective five (5) days after publication.

PASSED, APPROVED, AND ADOPTED this _____ day of _____, 20___.

SUMMARY

Significant national asset management, leasing, property management, construction and development experience with a wide variety of commercial properties. Developed a 550,000 SF project and negotiated over 4.0 million SF of leases. Managed a real estate business unit with $47 million in annual revenue. Supervised and mentored hundreds of employees. Project management experience in the Middle East. Served as the CEO of a $147 million historic district redevelopment project.

PROFESSIONAL EXPERIENCE

SANTA FE RAILYARD COMMUNITY CORPORATION, Santa Fe, NM 2004 to 2021

Executive Director

Managed the development of a 37 acre infill site in the historic Santa Fe Railyard. Directly responsible for the development, construction, leasing and property management of this 550,000 SF mixed use project. At completion a total of $147 million will be expended including $13 million for infrastructure and $19 million for a 400 space underground parking structure. Managed up to 68 lines of funding. Pre-leased 80% of the 43 ground parcels and buildings. Drafted and negotiated construction contracts and all ground and building leases. Successfully managed the entitlement process including environmental remediation and archeological investigation. This high profile position requires the interpersonal skills to succeed in a development averse community under a high degree of public scrutiny. Worked closely with senior City staff, City Council and the Mayor. Earned a NAIOP Award of Excellence in 2008 and the Rudy Bruner Award for Urban Excellence in 2011.

BGK GROUP, Santa Fe, NM 2002 to 2004

Senior Asset Manager

Assessed new markets, asset strengths and weaknesses, as well as the capabilities of the incumbent leasing & management teams in order to establish marketing, financial, capital and operations strategies. P&L responsibility for a fluid portfolio of 10-12 office, retail and industrial properties throughout the US. Includes due diligence for acquisitions and coordination of asset disposition. Selected to reposition properties in challenging markets such as Cleveland, Minneapolis/ St Paul, Louisiana, etc. Doubled occupancy in a flex property in Mobile, AL in less than one year. Negotiated a $15.1 million law firm renewal in Charleston, West Virginia. Established a redevelopment plan for a 210,000 SF historic building in the Minneapolis CBD.

BROOKFIELD COMMERCIAL PROPERTIES, Denver, CO 1995 to 2002

Vice President, Operations

Regional management responsibilities for this REIT included asset management, marketing, leasing, property management and construction for a 4.0 million SF portfolio in three states. Managed a team of eight property managers and seventy employees. Properties varied from a 1.3 million SF CBD high-rise to a 100,000 SF triple net suburban building. Approved and signed an average of 300 lease transactions per year. Negotiated tenant, contractor and labor disputes. Performed due diligence for potential acquisitions and listed properties for sale. Built positive relationships with tenants, vendors and brokers. Recommended asset strategies for vacant land parcels. Significant experience in value modeling to establish asset strategies.

Additional Brookfield Accomplishments:

- Reduced Operating Costs by $3.2 million in the first two years through bidding contracts, restructuring staff, and energy conservation measures.
- Managed a 7-year project to abate asbestos, relocate tenants, renovate common areas and install new infrastructure in
- a 415,000 SF building increasing the value from $24 to $125 per SF with an investment of $50 per foot.

- Implemented a telecommunications management program, which yielded $500,000 in annual revenue from a capital investment of $50,000.
- Directed a $1.1 million redevelopment of a 766,000 SF building including lobbies, elevators, corridors, signage, etc., which increased rents from $13.75 to $25 and occupancy to 98%.

LaSALLE PARTNERS LIMITED (now Jones Lang LaSalle), Denver, CO 1983 to 1995

Equity Vice President, Group Manager

Progressed from Assistant Manager to Equity VP in six years. Responsible for leasing and management of a variety of assets including a 12 building 2.2 million SF portfolio of suburban office, retail and industrial properties, and CBD towers up to 655,000 SF. Repositioned properties in the challenging Denver, CO market to gain occupancy and maximize NOI. Negotiated leases up to 200,000 SF. Managed over 1.0 million SF of tenant improvement construction. Sourced and earned new third party management and leasing assignments. Directed third party agents as asset manager for a T. Rowe Price portfolio of retail and industrial buildings.

Additional LaSalle Partners Accomplishments:

- Directed the redevelopment of a functionally obsolete 200,000 SF office campus valued at only $5 per SF (land cost equivalent) into a fully functional project valued at $80 per SF with a capital investment of $37 per SF.
- Managed a $3.5 million asbestos abatement and redevelopment of a 56,000 SF CBD podium building which allowed for the change of use from office to retail. Rents increased from $8 net to $20 net.
- Directed a marketing and leasing program that increased occupancy in a 571,000 SF building from 40% to 87% in a market with 30% vacancy.
- Turned a neglected 8 building 1.1 million SF portfolio of Class B suburban buildings into the top rated properties in LaSalle Partners 135 million SF national portfolio based on operations audits and tenant satisfaction scores resulting in the LaSalle Partners Property of the Year Award. Also earned seven annual management excellence awards.

TOSCO CORPORATION, Denver, CO 1981 to 1983

Supervisor of Contracting and Purchasing

Designed and managed the procurement program for this oil shale development firm. Created a standardized contract for services. Administered over 50 service and construction contracts plus all purchases over $100,000. Negotiated Davis-Bacon Act cost impacts for the $6.0 billion Colony Oil Shale Project. Ensured adherence to project budgets.

FLUOR ENGINEERS AND CONSTRUCTORS, INC. 1976 to 1981

Varied experience includes construction management in Saudi Arabia with a typical project load of $50 million. Built industrial facilities, pipelines and electrical distribution. Managed significant materials supply and logistics challenges. Worked with offices in Holland, the UK, US and Japan to coordinate materials and technical support. Three years in Saudi Arabia plus two years in the home office in Irvine, California provided experience in managing budgets, logistics, resources, and diverse groups of people.

THE OFFSHORE COMPANY 1975

Worked on offshore oil drilling facilities in the Gulf of Mexico and Southeast Asia. Acquired basic mechanical skills in welding, heavy lifts, hydraulic equipment, etc.

CITY OF SANTA FE
ARTS & CULTURE

301 WEST MARCY STREET, SANTA FE, NM 87504 | WWW.SANTAFENM.GOV/ARTS-AND-CULTURE-DEPARTMENT

DATE: November 24, 2025

FROM: Chelsey Johnson, Director of Arts & Culture

TO: Mayor Alan Webber

CC: Elisa Montoya, Director of Community Development ELISA D. MONTOYA (Dec 4, 2025 16:59:22 MST)

ITEM AND ISSUE: Recommendation to extend for one additional year the terms of the City Historian and Poet Laureate

BACKGROUND AND SUMMARY:

In December 2023, the Arts & Culture Department oversaw the application and selection process for the next Poet Laureate and City Historian, to serve two-year terms for the calendar years January 1, 2024, through December 31, 2025. The Mayor and Governing Body approved the appointment of Tommy Archuleta as Poet Laureate and Dr. Andrew Lovato as City Historian.

The Arts & Culture Department recommends extending the terms of both Poet Laureate and City Historian for an additional (third) year, through 2026. This will enable Mr. Archuleta and Dr. Lovato to build on their present momentum and continue to implement ongoing programming to completion. As a point of comparison, the New Mexico state equivalents of these positions serve standard three-year terms.

Poet Laureate Tommy Archuleta is a poet, musician, mental health therapist, and substance abuse counselor. His debut full-length poetry collection, *Susto*, was published in 2023 by the University of Colorado Press to strong acclaim. His poems have also appeared in several literary journals and the high-profile Academy of American Poets Poem-a-Day program and Poetry Daily newsletter. Born and raised in Santa Fe, Archuleta earned his bachelor's degree from the College of Santa Fe, which he attended as a first-generation college student on a full merit scholarship. He has been highly visible as Poet Laureate, engaging in multiple public talks, ceremonial events, community workshops, and media appearances, including a reading at the Library of Congress in Washington, DC, this September. In July 2025, Archuleta received a prestigious, nationally competitive Academy of American Poets Fellowship to carry out an ambitious program of poetry workshops, readings, and a chapbook anthology for unhoused Santa Feans. Workshops are now

underway for this project, which extends into 2026. Archuleta would also continue to offer regular free poetry workshops and work with the Arts & Culture Department on expanded National Poetry Month programming in April.

City Historian Dr. Lovato is a Santa Fe native and a descendent of both Pueblo and Hispanic cultures. He has spent his career as a college professor at The College of Santa Fe and Santa Fe Community College and as an author promoting empathy and respect for differing cultural perspectives. Lovato received his Ph.D. in Communication with an emphasis in Intercultural Communication from the University of New Mexico in 2000, and was selected as a Fulbright Scholar in 2008. Lovato's books include *Santa Fe Hispanic Culture: Preserving Identity in a Tourist Town* and *The Year Zozobra Escaped*. Lovato is a contributing author for four other books related to New Mexico history and culture. He has also written numerous articles and has given lectures to diverse groups such as the Santa Fe Fiesta, the Institute of American Indian Arts, and the Newcomers Club of Santa Fe. Additionally, he has taught college courses specifically drawing on content related to the history and culture of Santa Fe. He has given two TED talks: Keeping Cultural Authenticity: A Santa Fe Story and Why History Matters. As City Historian, he continues to document the work and lives of Santa Fe culture-makers on his weekly KSFR radio show, as well as regularly speaking to conferences and community groups and working with individuals who reach out with inquiries for their own research.

Lovato's two primary projects for 2026 would be a community history project centered on the Midtown campus, creating a living archive of audio, video, photographic, and written histories of the College of Santa Fe and Santa Fe University Art and Design to capture this location's unique and multilayered past at a time of transformation into its next era; and a community radio storytelling project that will include a series of interviews of everyday Santa Feans about their lives, histories, and communities, as well as training for youth and others to interview elders in their families and communities, with public workshops in radio interviewing at locations that could include libraries, the Teen Center and senior centers. In addition, Lovato will consult with the Arts & Culture Department, Arts Commission, and artists on integrating local histories and cultures into new murals and other public arts initiatives.

RECOMMENDED ACTION: The Arts & Culture Department recommends that Tommy Archuleta's term as Poet Laureate and Dr. Andrew Lovato's term as City Historian be renewed for a third and final year of service, spanning January 1-December 31, 2026.

Thank you for your consideration.

Chelsey Johnson

ANDREW L. LOVATO

Education

-- Ph.D. : Intercultural Communication, University of New Mexico, Albuquerque, New Mexico, August, 2000.
-- M.A. : Organizational Communication, University of New Mexico, Albuquerque, New Mexico, August, 1983.

Subject: Recommendation for the reappointment of Diane Rubin to the City Audit Committee

Dear Mayor Webber,

I am writing to express my support and recommendation for the reappointment of Diane Rubin to the City of Santa Fe Audit Committee. As you know, the Audit Committee plays a vital role in ensuring the financial integrity and transparency of our city government.

Mrs. Rubin has demonstrated exceptional dedication and expertise during her previous tenure on the committee. Her continued service would provide valuable continuity and institutional knowledge, ensuring the committee can effectively perform its oversight functions as outlined in the City Code.

Thank you for your time and consideration of this important recommendation.
Sincerely,

Judge Chad Chittum
City of Santa Fe
Municipal Court

Subject: Recommendation for the reappointment of Adolfo Montoya to the City Audit Committee

Dear Mayor Webber,

I am writing to express my support and recommendation for the reappointment of Adolfo Montoya to the City of Santa Fe Audit Committee. As you know, the Audit Committee plays a vital role in ensuring the financial integrity and transparency of our city government.

Mr. Montoya has demonstrated exceptional dedication and expertise during his previous tenure on the committee. His continued service would provide valuable continuity and institutional knowledge, ensuring the committee can effectively perform its oversight functions as outlined in the City Code.

Thank you for your time and consideration of this important recommendation.
Sincerely,

Judge Chad Chittum
City of Santa Fe
Municipal Court

Adolfo R. Montoya

Experience

State of New Mexico
General Services Department *CFO* ***08/25 - Present***

The Chief Financial Officer (CFO) provides strategic leadership and oversight for all financial operations of the General Services Department (GSD) State of New Mexico. This includes managing complex accounting functions, leading the annual financial audit, and preparing the agency's Comprehensive Annual Financial Report (CAFR) in compliance with statutory requirements and Department of Finance and Administration (DFA) guidelines.

- Coordinate yearly Financial Audit
- Direct work plan/assignments for timely and efficient reporting
- Maintain and monitor general ledger
- Set goals and objectives for efficient and accurate reporting.
- Review and interpret financial data
- Assist with Budget preparation and monitoring

ADC LTD NM, *Assistant Controller* ***10/20 – 08/25***
Albuquerque, NM

- Supervision of all financial accounting processes including Accounts Payable, Accounts Receivable, General Ledger, Payroll and Financial statements
- Oversight of government contract billings and financial contract management
- Management of year end and interim audits both governmental and private auditors
- Review and approve monthly reconciliations and bank balances.
- Supervise staff of four in A/P, A/R, General Ledger, & Payroll processing
- Top Secret Clearance

Wildflower International LTD, *Assistant Controller* ***10/2019 – 10/2020***
Santa Fe, NM

- Oversight of financial functions of a major Government Sub-contractor while supervising six employees
- Consistent and timely production of financial statements monthly
- Successful collections of Accounts Receivable with Receivables turnaround of 25 – 30 days.
- Management of Government invoices submitted via E-mail and Wide Area Workflow

- Timely & successful management and payment of Accounts payable invoices
- Management of year end as well as interim audits from both Financial and Government auditors

Ghost Ranch, ***Finance & Accounting Director*** ***03/2018 – 10/2019***
Abiquiu, NM

- Oversight of financial functions of a major non-profit organization while supervising five employees
- Produce timely and accurate financial statements monthly
- Process timely payment of accounts payable, collection of accounts receivable on program and property activities
- Manage the year-end audit
- Serve as corporate contact for banking, audit, and other financial relationships

- Oversight of financial functions of a major non-profit organization while supervising five employees
- Produce timely and accurate financial statements monthly
- Process timely payment of accounts payable, collection of accounts receivable on program and property activities
- Manage the year-end audit
- Serve as corporate contact for banking, audit, and other financial relationships

State of New Mexico **3/2014 – 3/2018**
Taxation & Revenue Department
Deputy Director, Administrative Services **3/2015 – 3/2018**
Santa Fe, NM

- Responsible for administrative services for State Agencies including accounts payable, accounts receivable, general ledger, payroll allocations, and financial statements
- Supervised four Bureau Chiefs in Financial Services, Financial Distribution, Budget, and General Services for agency of 1100 employees
- Managed grant funding, state general fund budgets, and other state sources of revenue
- Oversaw budgets for seven departments and multiple special projects in monitoring approximate budget of $ 87m
- Processed $6-7B of tax distributions to local government agencies, state agencies, and municipalities
- Risk management and record archives planning and implementation
- Responsible for yearly financial audit and government fund analysis
- Oversaw General Services Bureau in inventory, call center, and supply distribution
- Worked closely with New Mexico State Department of Finance and Administration in compliance with accounting and procurement regulations
- Served as Agency Loss Control Prevention Coordinator as well as Agency Chief Records Officer
- Served as Agency Certified Procurement Officer for procurement and contract regulations and statue compliance

Department of Homeland Security and Emergency Management
Administrative Services Bureau Chief **3/2014 – 3/2015**
Santa Fe, NM

- Responsible for annual budget of $50m
- Supervised grant and sub-grant recipients to ensure compliance with FEMA requirements
- Supervised and monitored New Mexico General Fund Budget and worked directly with the Department of Finance and Administration, State Purchasing Department, and State Personnel Department to ensure compliance with state mandated requirements

- Worked closely with project managers, counties, and municipalities in grant compliance and monitoring
- Supervised budgetary and financial processes, including human resources, finance and grant management, facilities and fleet management
- As Chief Financial Officer, maintained internal control procedures to ensure compliance with Department of Finance and Administration rules and regulations
- Worked closely with Department of Finance and Administration on year-end audit and preparation of the Comprehensive Annual Financial Report (CAFR)
- Worked with Legislative Finance Committee analyst and NM State Budget office on budget and Agency operation issues
- Responded to inquiries from Governor's office on constituent concerns
- Used statewide SHARE and HCM system to process financial data for agency

- Participated in preparation of company business plan in development stage
- Raised $25m in investment from both private and venture capitalist investors
- Managed cash flow to ensure startup company was successful

Rick L. Herrman

[redacted]

For five decades, for nonprofit and for-profit entities, I have served in wide-ranging roles including engagement with designing and implementing: **i)** strategic and operational plans; **ii)** risk management policies & plans; **iii)** developing and attaining short, intermediate and longer term goals and objectives; **iv)** accounting & finance intitiaties including controls, systems and reporting; **v)** sales and marketing programs; **vi)** operations and process improvement plans and KPIs; **vii)** human resource functions, including benefit design and developing enhancements to recruitment, training, remuneration, and retention; and **viii)** IT and IP practices including design for manufacturing, outsourcing, supply chain management, and other performance enhancing strategies and tactics. I have served in staff functions, as well as CFO, COO, CEO and COB roles, and am energized to be part of engaged teams aligned with meaningful missions.

Career Experience:

New Mexico Finance Authority (NMFA; Managing Director of Credit), Santa Fe, NM 5/23 to 10/25/24.

NMFA is a 32 year old $3B independent agency, with a mission to improve the quality of life for New Mexicans by providing financing for infrastructure, capital equipment, and economic development projects to communities and businesses statewide. I continue to serve as a contract consultant.

Santa Fe Botanical Garden (SFBG; Exec. Director, COO & CFO), Santa Fe, NM 7/20 to 9/22

I joined SFBG to perform a comprehensive restructure and, once stabilized, creating and implementing rebuilding initiatives. During my tenure, the Garden produced record profits, visitation and liquidity, while investing substantially in site improvements and visitor experience enhancements and creating SFBG's first ever endowment. Meaningful programs and continued site enhancements were outlined for the ensuing several years.

Chihuahuan Desert Research Institute (CDRI; Exec. Dir., COO, CFO, Fort Davis, TX (1/2015-12/2018) (Treasurer, 2019-present)

In 2008, we semi-retired to the Davis Mountains of far West Texas. In late 2014 I was invited to become only the 4th Exec. Director in CDRI's then 42 year history. CDRI operates a 507 acre Nature Center and 20 acre Botanical Garden in a highly rural setting in the Davis Mountains, home to the McDonald Observatory.

Leveraging a solid legacy, the team delivered an immediate fiscal rebound and began a sustainable, enterprise wide expansion. Prior to my 2018 transition from daily operations, CDRI established records for visitation, K-8th student programs, volunteer recruitment/engagement, gross revenues from all components, including special events and membership, revised governance documentation, position descriptions, risk management policies and insurance, reduced operating costs, enhanced efficiencies, impact and effectiveness, created and effectuated an internal development plan for the successor Executive Director, built the Board's size, diversity and expertise, and modified its bylaws and policies. I led the creation of the 2015-2017, 2017-2019 and 2019-2023 Strategic Plans.

I became Treasurer Jan. 1, 2019 and continue to serve in this role. All duties are handled from Santa Fe, NM.

The Catalyst Group, Inc. (Founder; Co-Owner), Houston, TX 1990-2014

Catalyst formed and managed five equity and two mezzanine investment partnerships, including three Federally licensed SBICs, each focused on risk capital investments of $1M-$10M for companies with revenues generally between $1M-$25M. Total investible capital exceeded $250M. We began a systematic portfolio liquidation of 15 companies in late 2006, culminating in Aug. 2008, prior to the collapse of the broad financial markets. We then ceased active "fund" management. Our investor return performance placed Catalyst easily in the top 5% of comparable U.S. private equity firms. For example, our 2002 fund, which was fully liquidated in 12 years, produced a cash-on-cash IRR to LPs, after all costs and GP carried interest, in excess of 82% p.a. Our common sense investment thesis was to form partnerships with management to intensify the focus on positioning good companies to become better. Successful outcomes were achieved via: **a)** proper capitalization, and **b)** by combining; **i)** management team based "inside" or tactically oriented perspectives and focus, with **ii)** board/advisor level "outside" strategic and operationally grounded perspectives.

Catalyst invested in more than 75 companies in a variety of industries and across the U.S., with an average holding period of approximately 5 years (ranging from six mos. to twelve years). The seventh partnership, which ceased investing in 2009, included the three largest of Catalyst's original four LPs, illustrating strong and persistent LP endorsement over 20+ years. Each fund produced audited returns, net of costs and carried interests, easily within the top 5-10% of all comparable, reporting private investment partnerships. Catalyst and all stakeholders were rewarded by realizing outstanding returns from its well executed, common sense strategy and by developing quality and lasting relationships. We believe the results, returns, and relationships, resulted from consistently following a "win-win" approach to all relationships.

Ernst & Young (Principal, Mergers & Acquisitions), NY, NY 1987-1990

I served as a principal in the mergers and acquisition practice in the New York City office. As such, I was responsible for assisting clients (principally Warburg Pincus) in conducting diligence regarding potential investments, including assisting in evaluating controls,

policies and procedures, management, systems, financial modeling, tax planning, investment structure and SWOT analyses. I returned to the Houston office in January 1990, before starting Catalyst in February of 1990.

Merrill Lynch Private Capital (MLPC)/Merrill Lynch, Dallas, Austin 1985-1987

I was recruited from Woodruff & Co. to become one of three VPs in Dallas, supporting three Managing Directors. MLPC had similar office configurations in the principal U.S. cities, delivering a range of financial services, including direct investing and lending to a targeted niche of ultra high net worth individuals and their businesses. From June 1986 through November 1987, I worked in the Austin, TX office as a registered representative serving high net worth (HNW) clients while completing my first three of four semesters in pursuit of an MBA from UT Austin. My final semester was completed while at Ernst & Young.

Wm. K. Woodruff & Co. (VP Director Corp. Finance), Dallas 1983-1984

I led this institutional brokerage firm into a formalized corporate finance practice. During my 13 month tenure, the firm completed two IPOs (one for a defense electronics firm and one for a medical products company) as lead underwriter and syndicate manager, and initiated and completed a $90M+ merger of Home Centers of America with K-Mart Corp. Visibility in the financial community, from this activity, combined with personal relationships led to my joining Merrill Lynch Private Capital.

M Bank (1st VP, Portfolio Manager), Dallas 1979-1983

I progressed through an accelerated commercial lending training program to a position of 1st VP and Portfolio Manager in four years, serving DFW based public and private companies with revenues between $10-250M. We delivered a full range of credit products (loans and leases; mostly non-syndicated credits) and cash management services. I participated on the bank's SBIC Investment Committee. I led the bank's "high tech", "venture capital", and brokerage firm practices, which led to the relationship with Woodruff & Co. and the decision to expand my career from commercial to investment banking. It was during my 1st year in banking that I passed the CPA exam.

Arthur Andersen & Co. (Public Accountant), Houston 1976-1979

My only on-campus placement interview led to me joining the Houston office in the tax department. During my three years, I was exposed to partnership, trust, and corporate tax issues, including compliance, research and structuring. The experience and relationships made possible by the firm's Houston prominence led to my career shift to commercial banking.

Board Service:

Current Business Boards:

- Sport Clips, Inc. 1,850 unit franchisor of men's hair salons (9/96-present)

Professional Summary

Venture investor, conference organizer, and innovator. Brings over two decades of experience designing data-driven, strategic solutions in regulated industries such as financial services, insurance, and the future of work. Proven ability to convene large groups of industry-stakeholders and navigate complex systems with long-term impact in mind. Helped a few startups that became important in millions of peoples' lives.

Experience

SemperVirens Venture Capital — General Partner (2020 – Present)

- Lead investments in early-stage startups focused on enabling workforce and employer success across software, financial services and healthcare.
- Apply data and system design thinking to identify high-leverage, scalable solutions.

HR Transform Conference — Co-Founder (2017 – 2023)

- Created a platform for discussing how technology is reshaping work and society.
- Demonstrated ability to lead multi-stakeholder engagement on systemic issues with policy implications.

InsureTech Connect — Co-Founder & Chairman (2015 – 2022)

- Built the world's largest conference at the intersection of insurance and technology.
- Catalyzed dialogue among startups, incumbents, and policymakers on complex, regulated challenges.

QED Investors — Co-Founder & Partner (2008 – 2017)

- Co-founded VC firm that has become one of the leading investors across FinTech

Capital One — Executive Roles (1998 – 2008)

- Led digital transformation initiatives with a focus on analytics, process redesign, and operational efficiency.
- Managed a 200-person underwriting operation, applying structured decision-making frameworks to optimize performance.

Education

- University of Virginia School of Law — JD
- University of Virginia – Darden School of Business — MBA
- Harvard University — AB in Physics & Philosophy

Board Memberships & Advisory Roles

- Special Advisor, Blueprint Vegas — Industry conference focused on PropTech
- Board Member at Kin Insurance, Buddy Insurance

Select Publications & Thought Leadership

- "Making Risk-Taking Your Strength"
- "How My 'Stupid' Career Decision Led Me to My Dream Job"
- "In Defense Of Small Data"
- "COVID-19 Cast as a Catalyst for Change. Now What?"
- Frequent speaker at conferences on innovation, particularly in the Insurance sector.

Personal

Resides in Santa Fe, NM with his wife and their occasionally annoying dog. Enjoys pursuing harebrained ideas and helping good people succeed at doing interesting things.

CITY OF SANTA FE

Memorandum

Date: November 5, 2025

To: Mayor Alan M. Webber

From: Christine M. Spiers, Santa Fe Women's Commission Liaison CS

Via: Erin K. McSherry, City Attorney EM

RE: Request for Approval of Appointment of Santa Fe Women's Commission Member

---

The Santa Fe Women's Commission was established by Resolution No. 2019-24 to advance the cause of gender equity and opportunity for all women and girls in Santa Fe. The Resolution provides that the Women's Commission works to provide a gender equity policy lens through which to evaluate the City of Santa Fe's ("City's") programs, policies, services, ordinances, budget, and practices as they relate to and affect women and girls.

The purpose of the Commission is "to advance the causes of gender equity and opportunity for all women and girls in Santa Fe". The Commission's role is to make recommendations that improve the lives of women and girls. Such recommendations of the Commission include, but are not limited to the following topics:

- "The impact of existing or proposed ordinances and/or City policies or practices on women and girls in the City and surrounding communities;
- The impact of the structure, policies, and/or practices of City departments on women and girls working for the City;
- The impact of the City's public statements, advertising, messaging, and/or marketing on women and girls;
- Way the City can use evidence- and date-driven decision-making to align its programs, policies and practices with larger aims of social justice and human rights, including issues of equity and opportunity; and
- Ensuring that diverse voices of women in the community at large are being represented and heard."

The Women's Commission consists of seven (7) members appointed by the mayor and consented to by the Governing Body, with representation from each district and at-large members. In addition, two alternates may be appointed. The Commission has three (3) vacancies total: one (1) in District two, (1) in District Three, one (1) at-large, and one alternate.

CITY OF SANTA FE

Memorandum

The Chair of the Santa Fe Women's Commission recommends reappointing Anna Brunson for reappointment to the Santa Fe Women's Commission to fill the at large vacancy. Ms. Brunson was serving as a District One representative but has since moved from District One to District Four, which already has a representative. As reflected in her attached resume, Ms. Brunson brings valuable experience and a continued dedication to promoting opportunity and representation for women and girls in Santa Fe.

Anna Ruth Brunson, MSW
