URBAN ALCHEMY

L.O.V.E

IN SANTA FE

Chief Administrative Officer, Mike Anderer
mikea@urban-alchemy.us

Chief Financial Officer, Melek Nasr-Totah
melektotah@urban-alchemy.us

Regional Director of Operations, Roberto Gonzalez
robertogonzalez@urban-alchemy.us

WE HAVE ONE MISSION

create quality jobs for people who have been incarcerated, improving their reentry while reducing recidivism.

WE SOLVE TWO PROBLEMS

people falling through the social safety net, and the resulting turmoil this creates in public places.

WE OFFER THREE GROUNDBREAKING SOLUTIONS

Safe Communities, Housed Communities, and Connected Communities. These initiatives foster health, safety, and peace through relationship-building rather than traditional enforcement and outdated social service programs.

SAFE COMMUNITIES

Practitioners make communities safer by building relationships and serving as the community's helping hands and eyes on the street.

LOVE Santa Fe–
Leading Outreach with Valued Engagement

HOUSED COMMUNITIES

Urban Alchemy works to help individuals exit homelessness, emphasizing intake, referrals, and care coordination.

Interim Housing
Agape House

CONNECTED COMMUNITIES

Practitioners address hygiene services, space activation, and well-being, restoring a sense of pride and building relationships.

The Oasis @ Agape House
(a part of LOVE)

REVOLUTIONARIES AT THE HELM

Our co-founders were raised in the crucible of San Francisco's Hunter's Point.

They created a revolutionary model that transforms trauma into community resilience.

Urban Alchemy's staff, molded by these visionary leaders, stands unyielding in the face of our collective challenges.

Mr. Bayron Wilson,
formerly incarcerated visionary

Dr. Lena Miller,
groundbreaking clinical psychologist

BUILT BY AND FOR PRACTITIONERS

The trauma and deprivation of prolonged can lead to a profound process of self-transformation. It can cultivate extraordinary emotional intelligence, resilience, and leadership skills. Practitioners have grit and are less likely to grapple with the fear, frustration, and burnout historically prevalent in the social services field.

- 96% of staff, including leadership, have been incarcerated and formerly homeless
- 92% of staff at all levels identify as Black, Indigenous, or People of Color

PROVEN RESULTS

URBAN ALCHEMY TRANSFORMS PRACTITIONERS

CREATED JOBS

Provided over 1,000 formerly incarcerated individuals with stable, well-paying jobs

LOWERED RECIDIVISM

Maintained a staff recidivism rate at under 2%, in stark contrast to the national average of 40-60%

REDUCED HOMELESSNESS

Ensuring the rate of homelessness among our staff is functionally zero, while formerly incarcerated individuals are 10 times more likely to experience homelessness

PROVIDED STABILITY

Paying over $75 million in wages and benefits to returning citizens

PROVEN RESULTS

PRACTITIONERS TRANSFORM PEOPLE

CONNECTED TO PERMANENT HOUSING

Helped 1,000+ people exit homelessness through permanent housing solutions

PROVIDED HYGIENE SERVICES

Provided 10,000 showers for people living in Oakland

FACILITATED POSITIVE INTERACTIONS

Engaged with 5,000+ people in homeless encampments in Austin

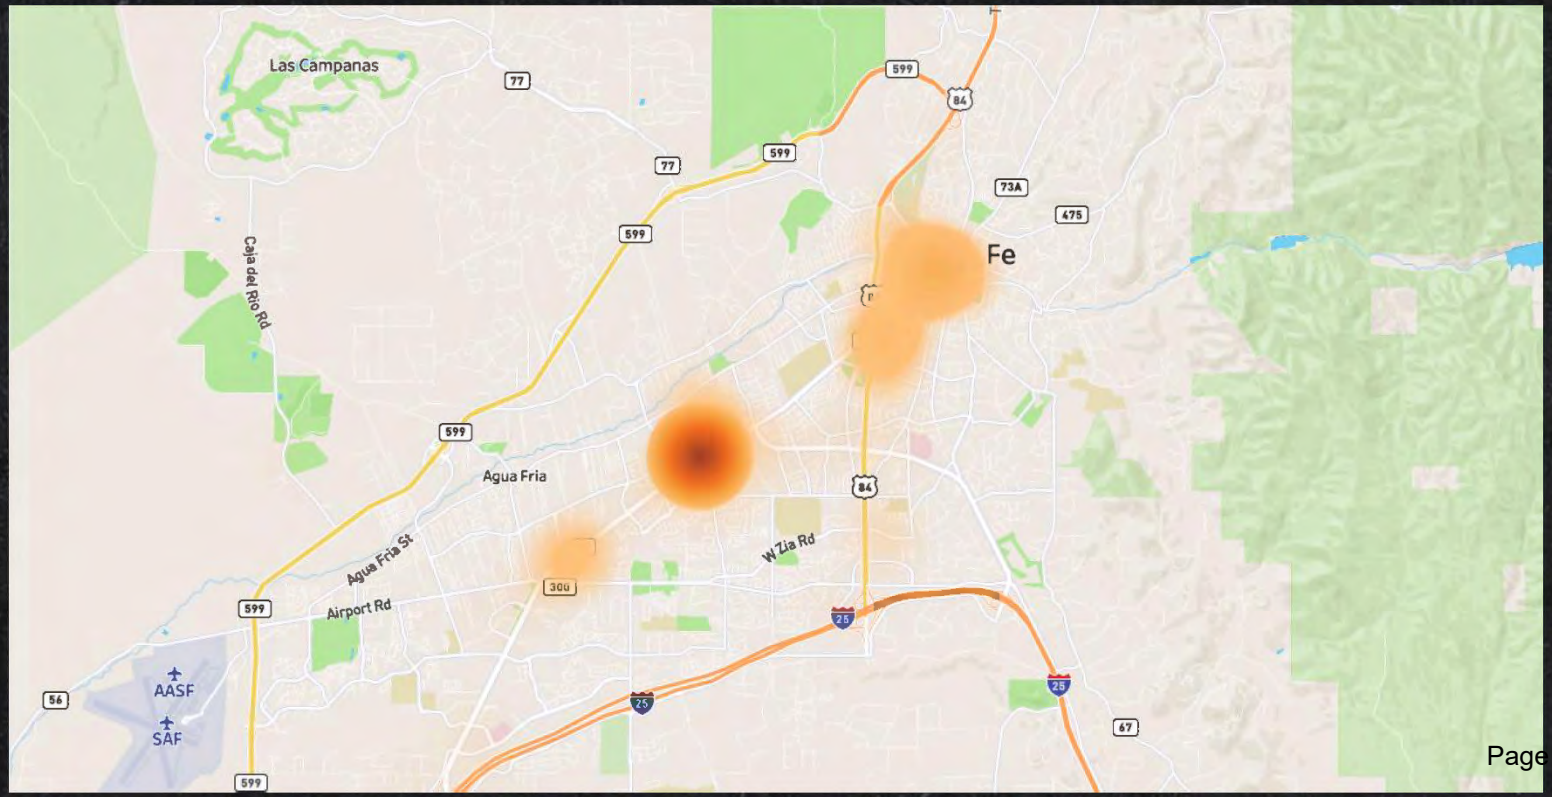
SHELTERED THOUSANDS

Sheltered 1,200+ people nightly in low-barrier, client-centered facilities

CONNECTED TO LOCAL SERVICES

Connected 4,000 people experiencing homelessness to shelter and services

WHAT is L.O.V.E?



LEADING OUTREACH with VALUED ENGAGEMENT

- LOVE is Urban Alchemy's foundational outreach program that responds to community-initiated concerns such as loitering, disturbances, or public disorder.
- LOVE teams proactively engage people in public spaces, provide de-escalation when needed and build trust through consistent presence.
- LOVE emphasizes long-term relationship building and visible, compassionate engagement in areas of high need.
- LOVE's unique innovation is the coordinated dispatch of outreach teams by a TAPPED IN Call Center that receives, assigns and tracks engagements in the field.

WE HAVE ONE MISSION

create quality jobs for people who have been incarcerated, improving their reentry while reducing recidivism.

WE SOLVE TWO PROBLEMS

people falling through the social safety net, and the resulting turmoil this creates in public places.

WE OFFER THREE GROUNDBREAKING SOLUTIONS

Safe Communities, Housed Communities, and Connected Communities. These initiatives foster health, safety, and peace through relationship-building rather than traditional enforcement and outdated social service programs.

SAFE COMMUNITIES

Practitioners make communities safer by building relationships and serving as the community's helping hands and eyes on the street.

LOVE Santa Fe–
Leading Outreach with Valued Engagement

HOUSED COMMUNITIES

Urban Alchemy works to help individuals exit homelessness, emphasizing intake, referrals, and care coordination.

Interim Housing
Agape House

CONNECTED COMMUNITIES

Practitioners address hygiene services, space activation, and well-being, restoring a sense of pride and building relationships.

The Oasis @ Agape House
(a part of LOVE)

REVOLUTIONARIES AT THE HELM

Our co-founders were raised in the crucible of San Francisco's Hunter's Point.

They created a revolutionary model that transforms trauma into community resilience.

Urban Alchemy's staff, molded by these visionary leaders, stands unyielding in the face of our collective challenges.

Mr. Bayron Wilson,
formerly incarcerated visionary

Dr. Lena Miller,
groundbreaking clinical psychologist

BUILT BY AND FOR PRACTITIONERS

The trauma and deprivation of prolonged can lead to a profound process of self-transformation. It can cultivate extraordinary emotional intelligence, resilience, and leadership skills. Practitioners have grit and are less likely to grapple with the fear, frustration, and burnout historically prevalent in the social services field.

- 96% of staff, including leadership, have been incarcerated and formerly homeless
- 92% of staff at all levels identify as Black, Indigenous, or People of Color

PROVEN RESULTS

URBAN ALCHEMY TRANSFORMS PRACTITIONERS

CREATED JOBS

Provided over 1,000 formerly incarcerated individuals with stable, well-paying jobs

LOWERED RECIDIVISM

Maintained a staff recidivism rate at under 2%, in stark contrast to the national average of 40-60%

REDUCED HOMELESSNESS

Ensuring the rate of homelessness among our staff is functionally zero, while formerly incarcerated individuals are 10 times more likely to experience homelessness

PROVIDED STABILITY

Paying over $75 million in wages and benefits to returning citizens

PROVEN RESULTS

PRACTITIONERS TRANSFORM PEOPLE

CONNECTED TO PERMANENT HOUSING

Helped 1,000+ people exit homelessness through permanent housing solutions

PROVIDED HYGIENE SERVICES

Provided 10,000 showers for people living in Oakland

FACILITATED POSITIVE INTERACTIONS

Engaged with 5,000+ people in homeless encampments in Austin

SHELTERED THOUSANDS

Sheltered 1,200+ people nightly in low-barrier, client-centered facilities

CONNECTED TO LOCAL SERVICES

Connected 4,000 people experiencing homelessness to shelter and services

WHAT'S DIFFERENT AT AGAPE?

- 86 beds TO 99 beds
- Overnight Emergency Shelter TO Low-Barrier Interim Housing (Bridge Housing)
- Dinner Meal Service + TO 3 meals a day for all Agape guests and Oasis Visitors
- Bathroom access to bathrooms and showers for all Agape guests 24 hours a day, 7 days a week
- PLUS 12 overflow cots in new Oasis Community Room for CODE BLUE events.

Why did Urban Alchemy make these changes at Agape House?

- To prioritize the guest experience according to UA mission and values
- To stabilize some elements of the guests' daily life so they might begin to imagine alternative futures
- To reduce real, negative quality of life impacts on the surrounding community

What about "Volunteers?"

- Change in service model and organizational mission of service provider changed the need for volunteers

What need volunteers and donations do we have?

Groups to prepare and serve meals and . . .

Donations of clothing, blankets, etc and . . .

WHAT ARE THE RESULTS AT AGAPE?

- 226 Unique Clients Served
- 100% Enrolled in HMIS
- 43% with at least one disability
- 60% of Clients received Connection Services
- 14% of Exits to Permanent Housing or other positive housing alternative

WHAT WERE/ARE THE CHALLENGES AT AGAPE?

- Bed bug infestation
- Major roof leaks
- Significant black mold
- Training and Scaling Up Staff Quickly
- Culture/habit of drug use in area
- Propagation of misinformation/ misunderstandings about Urban Alchemy and our services
- Procurement/purchasing delays on capital and other major improvements

WHAT ARE THE NEXT PRIORITIES AT AGAPE?

- Coordinated Entry Assessments
- Connections to Service
- Integrating with existing resources and providers include Santa Fe Connect
- Collaborations with local and regional leaders and providers to increase beds, supports, and the strength of the homeless services continuum in Northern New Mexico

PROVEN RESULTS

URBAN ALCHEMY TRANSFORMS PRACTITIONERS

- Currently 41 active employees (93 employment opportunities since July 2025
- Cars leased/purchased; housing secured; houses purchased
- Many Families supported

PRACTITIONERS TRANSFORM PEOPLE

- 25 or more “positive” exits (16% of all exits
- 227 unique guests served at Agape House
- 1,478 engagements with neighbors, housed and unhoused
- Over 15,000 duplicated visitors to the Oasis since August

Original Service Plan

75 Bed Shelter – open 16 hours	$1.5M
2 Community Oasis Sites (LOVE)	$.93M
LOVE Street Teams	$1M
TOTAL BUDGET	$3.43M

Revised Service Plan

798 Guest Shelter – open 24 hours	$2.43M
1 Oasis Site Co-Located at Shelter	
LOVE Street Teams + State DWS Expansion ($.44M)	$1.44M
75 Guest Shelter – open 16 hours	$3.87M

10. ACTION ITEMS: DISCUSSION AGENDA

A. REQUEST FOR APPROVAL OF THE FOUR YEAR STRATEGIC GOALS AND FY27 BUDGET PRIORITIES

MOTION A motion was made by Councilor Chavez, seconded by Councilor Faulkner, to approve the four year strategic goals and the FY27 budget priorities.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Castro, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

11. MATTERS FROM THE CITY MANAGER

Heard.

12. MATTERS FROM THE CITY ATTORNEY

The City Attorney recommended entering into Executive Session for the reasons as stated.

A. IN ACCORDANCE WITH THE OPEN MEETINGS ACT, NMSA 1978, SECTION 10-15-1. H.8., DISCUSSION OF THE PURCHASE, ACQUISITION, OR DISPOSAL OF REAL PROPERTY OR WATER RIGHTS BY THE PUBLIC BODY, INCLUDING BUT NOT LIMITED TO, NEGOTIATION OF THE SALE OF TRACTS AS LAS ESTRELLA; AND THE DISCUSSION OF THE PURCHASE, ACQUISITION, OR DISPOSAL OF REAL PROPERTY AT OR AROUND MIDTOWN.

MOTION A motion was made by Councilor Chavez, seconded by Councilor Garcia, to enter into Executive Session in accordance with the Open Meetings Act, NMSA 1978, Section 10-15-1 H.8.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Castro, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

The Governing Body entered into Executive Session at 6:28 pm.

Councilor Castro left the meeting at 7:00 pm.

MOTION A motion was made by Councilor Chavez, seconded by Councilor Faulkner, to reconvene in open session and that no action was taken in Executive Session.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

The Governing Body reconvened in open session at 7:04 pm.

13. EXECUTIVE SESSION ACTION ITEMS

A. DISCUSSION AND ACTION ON DIRECTING THE CITY MANAGER TO WORK WITH STAFF TO FACILITATE ANY NECESSARY CONVEYANCES OF PROPERTY TO THE STATE OF NEW MEXICO IN AND AROUND MIDTOWN.

MOTION A motion was made by Councilor Cassutt, seconded by Councilor Chavez, to direct the City Manager to work with staff to facilitate any necessary conveyances of property to the State of New Mexico in and around Midtown.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

MOTION A motion was made by Councilor Chavez, seconded by Councilor Faulkner, to move to item 17 Petitions From The Floor as the next item of business. Then return to the regular agenda.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

17. PETITIONS FROM THE FLOOR

Elizabeth West. Ms. West said it is lovely to come in here and hear you talking about what you doing together. She spoke to her request to have a State Certified architect on the H Board.

Jennia Maria Obalescent. Ms. Obalescent said she is on the Mayors Commission on Disability. We have had two of our meetings cancelled without any explanation. Why? Why is this not an accessible podium.

Stephanie Beninato. Ms. Beninato spoke to not receiving information she has requested and not getting responses to emails and the City Hall door that does not work.

14. MATTERS FROM THE CITY CLERK

Heard.

15. COMMUNICATIONS FROM THE GOVERNING BODY

Councilor Castro returned virtually.

Heard.

16. INTRODUCTION OF LEGISLATION

A. CONSIDERATION OF BILL NO. 2026-02. ADOPTION OF ORDINANCE NO. 2026-_____. A BILL AMENDING SFCC 1987, SECTION 11-13 TO EXPAND EXEMPTIONS PERMITTED BY NMSA 1978, SECTIONS 13-1-98 THROUGH 13-1-98.2, INCLUDING CERTAIN PURCHASE TYPES AND LEGAL SERVICE TYPES; ADDING EXEMPTIONS FOR CERTAIN PREPAYMENT REQUIRED ITEMS, NOT EXCEEDING $100,000 AND FOR LOBBYING SERVCIES REPRESENTING THE CITY OF SANTA FE'S INTERESTS; REQUIRING THE PROCUREMENT MANUAL TO BE ADOPTED BY RESOLUTION; ESTABLISHING AN EIGHT-YEAR MAXIMUM TERM FOR PROFESSIONAL SERVICE CONTRACTS, AUTHORIZING THE CHIEF

PROCUREMENT OFFICER TO APPROVE PURCHASE ORDERS AND TO APPROVE THE USE OF REQUESTS FOR APPLICATIONS; ADOPTING CONSTRUCTION MANAGER AT RISK DELIVERY METHOD PROCEDURES; MODIFYING CERTAIN AMOUNTS LISTED IN NMSA 1978, SECTION 13-1-125; AUTHORIZING THE CITY MANAGER TO APPROVE CONTRACT AMENDMENTS THAT DO NOT MATERIALLY ALTER THE SCOPE OF WORK.

Introduced.

B. A RESOLUTION AUTHORIZING THE CITY OF SANTA FE TO SUBMIT APPLICATIONS TO THE LOCAL GOVERNMENT FUND, THE MUNICIPAL ARTERIAL PROGRAM, THE TRANSPORTATION PROJECT FUND, AND ANY OTHER APPLICABLE STATE TRANSPORTATION PROGRAMS FOR STATE TRANSPORTATION CONSTRUCTION FUNDING FOR THE HENRY LYNCH ROAD RECONSTRUCTION PROJECT FROM RUFINA STREET TO AGUA FRIA STREET AND COMMITTING TO THE APPLICATIONS' REQUIREMENT FOR A LOCAL MATCH OF FUNDING.

Introduced.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE: AUTHORIZING THE EXECUTION AND DELIVERY OF A WATER PROJECT FUND LOAN/GRANT -AGREEMENT BY AND BETWEEN THE NEW MEXICO FINANCE AUTHORITY ("NMFA") AND THE CITY OF SANTA FE, NEW MEXICO (THE "BORROWER/GRANTEE"), IN THE TOTAL AMOUNT OF $7,750,000, INCLUDING A LOAN IN THE AMOUNT OF $3,100,000 EVIDENCING AN OBLIGATION OF THE BORROWER/GRANTEE TO UTILIZE LOAN/GRANT AMOUNT SOLELY FOR THE PURPOSE OF FINANCING THE COSTS OF CONSTRUCTION OF NEW FLOCCULATION AND SEDIMENTATION IMPROVEMENTS TO THE CANYON ROAD WATER TREATMENT PLANT, INCLUDING DEMOLITION OF EXISTING CLARIFER EQUIPMENT, STRUCTURAL ADDITIONS, NEW FLOCCULATION AND SEDIMENTATION EQUIPMENT, ALL ASSOCIATED POWER, CONTROLS, PROCESS AND CHEMICAL PIPING, AND VALVES, NEW FLOCCULATION MASTER CONTROL CENTER ELECTRICAL BUILDING AND ASSOCIATED GRADING AND PAVING, POTABLE WATER YARD PIPING RELOCATION AND ALL ASSOCIATED INSTRUMENTATION, ELECTRICAL, ARCHITECTURAL AND HVAC DESIGN COMPONENTS, INCLUDING RELATED WORK AND REVISIONS, AND SOLELY IN THE MANNER DESCRIBED IN THE LOAN/GRANT AGREEMENT; PROVIDING FOR THE PLEDGE AND PAYMENT OF THE LOAN AMOUNT AND ON ADMINISTRATIVE FEE SOLELY FROM THE NET REVENUES OF THE WATER UTILITY SYSTEM OF THE BORROWER/GRANTEE; CERTIFYING THAT THE LOAN/GRANT AMOUNT, TOGETHER WITH OTHER FUNDS AVAILABLE TO THE BORROWER/GRANTEE, IS SUFFICIENT TO COMPLETE THE PROJECT; APPROVING THE FORM OF AND OTHER DETAILS CONCERNING THE LOAN/GRANT AGREEMENT; RATIFYING ACTIONS HERETOFORE TAKEN; REPEALING ALL ACTION INCONSISTENT WITH THIS ORDINANCE; AND AUTHORIZING THE TAKING OF OTHER ACTIONS IN CONNECTION WITH THE EXECUTION AND DELIVERY OF THE LOAN/GRANT AGREEMENT.

There were no public comments.

19. FINAL ACTION ON LEGISLATION (PUBLIC HEARING)

A. CONSIDERATION OF BILL NO. 2025-26. ADOPTION OF ORDINANCE NO. 2025-_____. A BILL APPROVING A COMMUNITY ENERGY EFFICIENCY DEVELOPMENT ("CEED")) BLOCK GRANT

FROM THE NEW MEXICO ENERGY MINERALS AND NATURAL RESOURCES DEPARTMENT, ENERGY CONSERVATION AND MANAGEMENT DIVISION, PURSUANT TO THE "CEED BLOCK GRANT ACT", TO AUTHORIZE A CEED PROGRAM PROJECT AND APPROVE THE TERMS AND CONDITIONS OF THE GRANT AGREEMENT.

There were no public comments.

MOTION A motion was made by Councilor Chavez, seconded by Councilor Cassutt, to approve Bill No. 2025-26.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Castro, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

B. CONSIDERATION OF BILL NO. 2025-23. ADOPTION OF ORDINANCE NO. 2025-_____. A BILL AMENDING SFCC 1987, SECTION 2-4.2, TO REQUIRE CITY MANAGERS TO BE INTERNATIONAL CITY MANAGER ASSOCIATION ("ICMA") - CREDENTIALED OR CREDENTIAL-ELIGIBLE UNLESS AN APPOINTMENT AND CONSENT OF SUCH A CANDIDATE IS NOT POSSIBLE AFTER FIVE MONTHS; REQUIRING CANDIDATES FOR DEPUTY CITY MANAGER TO HAVE THE SAME QUALIFICATIONS PURSUANT TO SECTION 2-4.6 (I); REMOVING PORTIONS OF SECTION 2-4.3 THAT CONFLICT WITH CITY CHARTER; AND REMOVING THE PROHIBITION FOR AN ACTING CITY MANAGER TO EMPLOY AND DISCHARGE PERSONNEL.

Elizabeth West. Ms. West said this is terrific .

Stephanie Beninato. Ms. Beninato spoke to the need for multiple experiences.

MOTION A motion was made by Councilor Faulkner, seconded by Councilor Cassutt, to approve Bill No. 2025-23.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Castro, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

20. PUBLIC HEARINGS (LAND USE CASES, APPEALS AND OTHER ITEMS REQUIRED TO HAVE A PUBLIC HEARING)

A. CONSIDERATION OF BILL NO. 2025-24. ADOPTION OF ORDINANCE NO. 2026-_____. A BILL REZONING AN APPROXIMATELY 4.12 ACRE TRACT OF LAND LOCATED AT 2768 AGUA FRIA, FROM M-U (MIXED-USE) TO C-2 (GENERAL COMMERCIAL). (CASE NO. 2025-8901)

The public hearing, presentations and public comment addressed both items A and B.

Santos Montoya. Mr. Montoya said we have been living near that property for 100 years. This is the 3rd zoning change. We would like to have it all commercial. No residential at all.

Jennia Marie Obalescent. Ms. Obalescent spoke about accessible parking.

Elizabeth West. Ms. West said she is in favor of infill and mixed use. She thinks this is being approached in a good way.

Brian Nguyen. Mr. Nguyen said he and his father own property adjacent to this property. Density is our concern. 130 units is quite dense.

Stephanie Beninato. Ms. Beninato said this does not touch any similar zones. She spoke to parking and affordability.

B. CONSIDERATION OF RESOLUTION NO. 2026-_____. A RESOLUTION ADOPTING A MASTER PLAN FOR ONE TRACT OF LAND LOCATED AT 2768 AGUA FRIA ROAD, WITHIN THE CITY OF SANTA FE, AND COMPRISING OF APPROXIMATELY 4.12 ACRES. (CASE NO. 2024-8802)

MOTION A motion was made by Councilor Cassutt, seconded by Councilor Faulkner, to approve the Resolution.

MOTION A motion was made by Councilor Feghali, seconded by Councilor Faulkner, to move Amendment A.

VOTE The motion on the Amendment passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Castro, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes;

Councilor Bustamante, yes.

VOTE The main motion as amended passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Castro, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

21. APPOINTMENTS

A. AUDIT COMMITTEE

- **LEILEI LI - APPOINTMENT - TERM ENDING 11/2029**

MOTION A motion was made by Councilor Chavez, seconded by Councilor Faulkner, to approve the appointment to the Audit Committee.

VOTE The motion passed on a roll call vote as follows:

Councilor Chavez, yes; Councilor Castro, yes; Councilor Barrett, yes; Councilor Cassutt, yes; Councilor Garcia, yes; Councilor Feghali, yes; Councilor Faulkner, yes; Councilor Bustamante, yes.

22. ADJOURN

DATE: February 11, 2026

TO: Renee Barela-Gutierrez, Liquor Hearing Officer

FROM: Emily Aragon, Constituent Services Specialist

ITEM & ISSUE:

Request from F&C Restaurant, LLC for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at F&C Restaurant 109 N. Guadalupe St. Suites 5 & 5A Santa Fe, New Mexico.

BACKGROUND AND SUMMARY:

Request from F&C Restaurant for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only with Patio Service to be located at F&C Restaurant, 109 N. Guadalupe St. Suites 5 & 5A, Santa Fe, New Mexico.

Attached are staff reports regarding litter, noise, and traffic. Staff does not anticipate a substantial change in litter and noise, or any unacceptable traffic impacts due to the approval of this request. The proposed location is not within 300 feet of a church, school, or daycare.

The applicant currently is pending a Business license with the City of Santa Fe therefore as a condition of approval staff is recommending that it be noted that the applicant will be required to obtain all necessary permits and licenses and comply with all Fire, Building and Land Use Code requirements prior to issuance of the City Liquor License.

Additionally, as a condition of doing business in the city, staff recommend that it be noted that the applicant is required to comply with all city ordinances.

ACTION REQUESTED
Consideration of the above request

City of Santa Fe
Attn: Andrea Salazar
City Clerk and Director of Community
PO Box 909
Santa Fe, NM 87504-0909

RECEIVED - CITY CLERK
28 FEB 2

Lic. No. /Appl. No.: **BLA-0000015860**
Name of Applicant: F&C Restaurant, LLC
Doing Business As: Hook it Up
Proposed Location: 109 North Guadalupe Street, Suites 5 and 5A, Santa Fe, New Mexico 87501

The Director of the Alcoholic Beverage Control Division (ABC) has reviewed the referenced Application and granted **Preliminary Approval.** It is being forwarded to you for Local Option District approval or disapproval of the Liquor License Application.

Notice of the Public Hearing required by the Liquor Control Act **shall be given by the governing body by publishing a notice** of the date, time, and place of the hearing **twice during the 30 days prior to the hearing** in a newspaper of general circulation within the territorial limits of the governing body. **The first notice must be published at least thirty (30) days before the hearing. Both publications must occur before a hearing can be conducted.** The notice shall include:

(A) Name and address of the Applicant/Licensee;
(B) The action proposed to be taken;
(C) The location of the licensed premises.

In addition, if the Local Option District has a website, **the Notice shall also be published on the website.**

While the law states that "within forty-five **(45)** days after receipt of a Notice from the Alcoholic Beverage Control, the governing body shall hold a Public Hearing in the question of whether the department should approve the proposed issuance or transfer", we recognize the potential for conflict between the requirement for publication of 30 day notice and the 45 day hearing requirement.

With that in mind, when a local governing body receives a liquor license application from ABC, that governing body has a couple of options:

1) Hold a hearing on the license application within the statutory time frame of forty-five (45) days, as required by the Liquor Control Act, and comply with all other statutory and regulatory procedures and notify ABC of your decision within thirty (30) days of the hearing;

2) Request from ABC an extension of time, past the forty-five (45) days, designating how much additional time will be needed to conduct the hearing in compliance with all statutory and regulatory procedures. After the extension is granted and the hearing is held, notify ABC of your decision within thirty (30) days of the hearing;
ABC has no preference in the option you choose.

The governing body is required to send notice by certified mail to the Applicant of the date, time, and place of the Public Hearing. The governing body may designate a Hearing Officer to conduct the hearing. **A record shall be made** of the hearing.

THE APPLICANT IS SEEKING RESTAURANT A – BEER AND WINE LIQUOR LICENSE WITH ON PREMISES CONSUMPTION ONLY WITH PATIO SERVICE

Within thirty (30) days after the Public Hearing, the governing body shall notify ABC of their decision to approve or disapprove the issuance or transfer of the license by signing the enclosed original Page 1 of the Application. The original Page 1 of the Application must be returned together with the notices of publication. **If the Governing Body fails to either approve or disapprove the issuance or transfer of the license within thirty days after the Public Hearing, the Director may issue the license.**

If the Governing Body disapproves the issuance or transfer of the license, it shall notify ABC within thirty (30) days setting forth the reasons for the disapproval. A copy of the Minutes of the Public Hearing shall be submitted to ABC with the Notice of Disapproval (*Page 1 of the Application, noting disapproval*).

RE: Zoning Verification for 109 North Guadalupe Street, Santa Fe, NM

Dear Ms. Stoker,

This letter provides zoning verification on the above referenced property. According to the Official Zoning Map, this property is zoned BCD Business-Capitol District and is within the Plaza/San Francisco Townscape Sub-district and lies within the Downtown and Eastside Historic Overlay District.

14-4.3 (E) BCD BUSINESS-CAPITOL DISTRICT

(1) Purpose

In recognition of the fact that the economic health of the city depends on the economic viability of the BCD, the purpose of the BCD is to provide for a mixture of land uses, including residential uses, designed to promote the district's economic wellbeing while preserving the unique architecture, townscape and aesthetics that foster a strong tourist industry and sustain the quality of life, sense of community and historical identity in the district and the city.

(3) Townscape Subdistricts

(a) The existing townscape subdistricts include: Alameda Street, Barrio de Analco, Cerrillos Road, Don Gaspar, East Marcy/East Palace, Loretto, Marcy, McKenzie Street, Old Santa Fe Trail, Plaza/San Francisco, Rosario Boulevard/NW Paseo de Peralta, Sandoval/Montezuma, State Capitol and Westside.

(b) The townscape subdistricts are intended to: (i) preserve the overall aesthetic quality of the BCD;

(ii) maintain diversity among the various subdistricts; and

(iii) protect the unique features, recognizable historic character and other common identifying characteristics of each subdistrict.

(c) Property is eligible for rezoning to a townscape sub district if the land is located within or adjacent to the BCD and meets all other requirements of Chapter

14. 14-7.4 - BUSINESS-CAPITOL DISTRICT

(1) Standards for Entire District

(B) Additional Regulations

(c) Drive-in or Drive-through Facilities Drive-in or drive-through facilities are permitted as principal or accessory uses and structures in the Rosario Boulevard/Northwest Paseo de Peralta, Sandoval/Montezuma and Cerrillos Road Subdistricts, where traffic generated

by the use will not substantially interfere with existing vehicular and pedestrian traffic. Drive-in or drive-through facilities are prohibited in the other subdistricts of the BCD.

(3) Design Objectives for Individual Townscape Subdistricts The best existing qualities of the individual townscape subdistricts should be preserved, while encouraging diversity of design in the individual townscape subdistricts. New development should be harmonious with the specific physical characteristics and development and design objectives listed below:

(j)Plaza/San Francisco Subdistrict:

(i) maintain narrow streets and continuous street façades;

(ii) encourage additional portals for pedestrian use and provide continuity of building mass;

(iii) limit building height to heights characteristic of existing buildings;

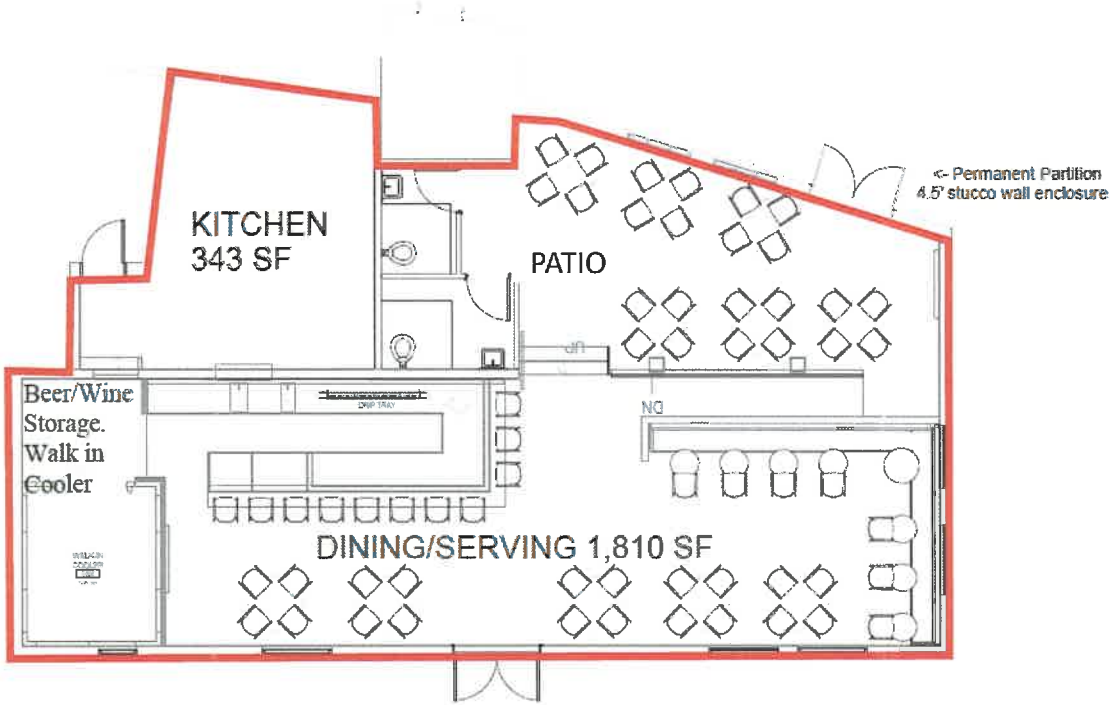
(iv) encourage high walls to separate open or vacant areas from the public right of way and provide continuity of street façade;

(v) except for Plaza and Cathedral areas, confine landscaping to interior patios or walled courtyards; and

(vi) emphasize verticality of façades on San Francisco Street.

Development standards for the Townscape Subdistricts may be found within Santa Fe City Code, Chapter 14, Table 14-7.4(A)-1, and development standards for the Historic Districts may be found within Santa Fe City Code, Chapter 14-5.2.

Full-service restaurants which may or may not have patio services, with incidental alcohol service for on-site consumption are permitted uses in the BCD district.



For additional information, please reference City of Santa Fe Chapter 14 SFCC regarding these districts (Chapter 14-4 – Zoning Districts/14-6 Permitted Uses) https://library.municode.com/nm/santa_fe/codes/code_of_ordinances?nodeId=CH14LADE. All uses are subject to compliance with applicable development standards such as parking, lot coverage, etc.

Note: The information provided in this letter is solely derived from the Official Zoning Map and the minimum requirements set forth in Chapter 14, SFCC 1987. This letter intends to provide advice regarding zoning regulations. It is not the intent to state that the subject property complies with zoning requirements. Occupancy is determined based on zoning compliance at the time of building permit or certificate of occupancy, whichever applies. Additionally, it is not the intent to interfere with or to abrogate or annul any official document including conditions or safeguards made a part of the subject property at the time of any public hearings. Applicants are advised to pursue an independent search of official documents.

If you have any further questions, please contact me at sjperea@santafenm.gov.

CITY OF SANTA FE
LIQUOR LICENSE HEARING OFFICER

Recommended
Findings of Fact and Conclusions of Law

Lic. No./Appl. No.: BLA-00000015860
Name of Applicant: F&C Restaurant, LLC
Doing Business As: Hook it Up
Proposed Location: 109 N. Guadalupe St. Suites 5 & 5A, Santa Fe, NM 87501

THIS MATTER came before the Liquor License Hearing Officer for public hearing on **February 18, 2026** at 4:00 PM by video hearing, on the application of **F&C, LLC** (Applicant) for:

1. Request from F&C Restaurant for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only with Patio Service to be located at F&C Restaurant, 109 N. Guadalupe St. Suites 5 & 5A, Santa Fe, New Mexico.

The Hearing Officer recommends that the Governing Body adopt the following findings of fact and conclusions of law.

After reviewing the record, conducting a public hearing and having provided an opportunity to be heard from city staff, the Applicant and any interested persons, the Hearing Officer hereby proposes that the Governing Body find as follows:

FINDINGS OF FACT

1. Staff submitted a packet containing the following, which was reviewed by the Hearing Officer and relied on in making these findings:

    a. February 11, 2026 memo from Emily Aragon, Constituent Services Specialist.
    b. January 27, 2026 letter from New Mexico Regulation and Licensing Department, Alcohol and Gaming Division (NMRLD/AGD) Hearing Officer Charmaine Martinez to the City of Santa Fe granting preliminary approval and forwarding the application to the City for local option district approval or disapproval.
    c. (NMRLD/AGD) Restaurant A Intake Application.
    d. December 17, 2025 letter from Stephanie Perea, Land Use Planner, City of Santa Fe, to Applicant stating the property is zoned BCD Business-Capitol District and is within the Plaza/San Francisco Townscape sub district and lies within the Downtown and Eastside Historic Overlay District.
    e. Premises map.
    f. Notices of Public Hearing (*Santa Fe New Mexican*, City of Santa Fe website)
    g. Checklist per Ordinance 4-4-3.

h. February 5, 2026 letter from Jason D. Sena, Enforcement Division Manager, stating it is not anticipated that there will be a substantial change in litter and noise because of this request.

2. City Clerk staff member Xavier Vigil presented the application.
3. Applicant was represented by Kyla Stoker..
4. No members of the public appeared to testify.
5. Notice of the Application, including the date, time and place of the hearing, the name and address of the licensee, the action proposed to be taken by the department, the location of the licensee's premises and such other information as may be required by the department was published in the *Santa Fe New Mexican*, which is a newspaper of general circulation within the territorial limits of the governing body, on February 9 and February 16, 2026 and on the City's website.
6. The Application is for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at F&C Restaurant, 109 N. Guadalupe St. Suites 5 & 5A, Santa Fe, New Mexico. This location is not within 300 feet of a church or school.
7. There is no record of violations.
8. Traffic is not expected to significantly increase, and the Public Works Director has found that it does not appear that approval will create unacceptable traffic impacts.
9. The proposed location is not expected to cause a substantial change in litter or noise.
10. The proposed location is not within an area where sale of alcoholic beverages is prohibited by the laws of New Mexico.
11. The applicant is in compliance with all Land Use Codes, and issuance or transfer will not be in violation of a zoning or other ordinance of the governing body, once applicant complies with conditions of approval.
12. Issuance or transfer will not be detrimental to the public health, safety or morals of the residents of the local option district.
13. The hearing was recorded and a copy of the recording is made a part of the record.

CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Hearing Officer CONCLUDES:

1. Notice of the Application was properly given by publication, mail and posting on the website pursuant to Section 60-6B-4(D).
2. The governing body may disapprove a transfer or issuance only if individuals opposing the transfer or issuance provide positive evidence showing that the transfer or issuance would be detrimental to the health, safety or morals of the community. This evidence must be based on authentic, relevant facts related to s specific prospective licensee and specific location. *The Southland Corporation v. Manzagol*, 1994-NMSC-099, 118 N.M. 423
3. The Applicant does not have the burden to prove that the transfer would not be detrimental to the health, safety or morals of the residents of the local option district. *Dick v. City of Portales*, 1994-NMSC-092, 118 N.M. 541.

4. The Application meets the requirements of §60-6B-4(F)(2).

CONDITIONS OF APPROVAL

1. Applicant is required to obtain all necessary permits and licenses.
2. Applicant is required to comply with all fire, building, and land use codes.
3. Applicant is required to comply with all City of Santa Fe ordinances.

WHEREFORE, the Liquor License Hearing Officer recommends to the Governing Body that the Application be **APPROVED**.

/s/ Renee Barela-Gutierrez Date: 02/18/2026
Renee Barela-Gutierrez

DATE: February 11, 2026

TO: Renee Barela-Gutierrez, Liquor Hearing Officer

FROM: Emily Aragon, Constituent Services Specialist

ITEM & ISSUE:

Request from Yamas, LLC for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at Yamas, 2411 Cerrillos Rd Santa Fe, New Mexico.

BACKGROUND AND SUMMARY:

Request from Yamas, LLC for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at Yamas, 2411 Cerrillos Rd., Santa Fe, New Mexico.

Attached are staff reports regarding litter, noise, and traffic. Staff does not anticipate a substantial change in litter and noise, or any unacceptable traffic impacts due to the approval of this request. The proposed location is not within 300 feet of a church, school, or daycare.

The applicant currently is pending a Business license with the City of Santa Fe therefore as a condition of approval staff is recommending that it be noted that the applicant will be required to obtain all necessary permits and licenses and comply with all Fire, Building and Land Use Code requirements prior to issuance of the City Liquor License.

Additionally, as a condition of doing business in the city, staff recommend that it be noted that the applicant is required to comply with all city ordinances.

Lic. No. /Appl. No.: **BLA-0000014831**
Name of Applicant: Yamas, LLC
Doing Business As: Yamas Greek Rotisserie
Proposed Location: 2411 Cerrillos Rd. Santa Fe, NM 87505

The Director of the Alcoholic Beverage Control Division (ABC) has reviewed the referenced Application and granted **Preliminary Approval.** It is being forwarded to you for Local Option District approval or disapproval of the Liquor License Application.

Notice of the Public Hearing required by the Liquor Control Act **shall be given by the governing body by publishing a notice** of the date, time, and place of the hearing **twice during the 30 days prior to hearing** in a newspaper of general circulation within the territorial limits of the governing body. **The first notice must be published at least thirty (30) days before the hearing. Both publications must occur before a hearing can be conducted.** The notice shall include:

(A) Name and address of the Applicant/Licensee.
(B) The action proposed to be taken.
(C) The location of the licensed premises.

In addition, if the Local Option District has a website, **the Notice shall also be published on the website.**

While the law states that "within forty-five **(45)** days after receipt of a Notice from the Alcoholic Beverage Control, the governing body shall hold a Public Hearing in the question of whether the department should approve the proposed issuance or license", we recognize the potential for conflict between the requirement for publication of 30-day notice and the 45-day hearing requirement.

With that in mind, when a local governing body receives a liquor license application from ABC, that governing body has a couple of options:

1) Hold a hearing on the license application within the statutory time frame of forty-five (45) days, as required by the Liquor Control Act, and comply with all other statutory and regulatory procedures and notify ABC of your decision within thirty (30) days of the hearing.
2) Request from ABC an extension of time, past the forty-five (45) days, designating how much additional time will be needed to conduct the hearing in compliance with all statutory and

regulatory procedures. After the extension is granted
and the hearing is held, notify ABC of your decision within thirty (30) days of the hearing.

ABC has no preference in the option you choose.

The governing body is required to send notice by certified mail to the Applicant of the date, time, and place of the Public Hearing. The governing body may designate a Hearing Officer to conduct the hearing. **A record shall be made** of the hearing.

THE APPLICANT IS SEEKING A RESTAURANT A – BEER AND WINE LICENSE WITH ON PREMISES CONSUMPTION AND NO PATIO SERVICE

Within thirty (30) days after the Public Hearing, the governing body shall notify ABC of their decision to approve or disapprove the issuance or transfer of the license by signing the enclosed original Page 1 of the Application. The original Page 1 of the Application must be returned together with the notices of publication. **If the Governing Body fails to either approve or disapprove the issuance or transfer of the license within thirty days after the Public Hearing, the Director may issue the license.**

If the Governing Body disapproves of the issuance or transfer of the license, it shall notify ABC within thirty (30) days, setting forth the reasons for the disapproval. A copy of the Minutes of the Public Hearing shall be submitted to ABC with the Notice of Disapproval (*Page 1 of the Application, noting disapproval*).

Subject: Zoning Verification for 2411 Cerrillos Road, Santa Fe, NM

Dear Mr. Salazar,

This letter provides zoning verification on the above referenced property. According to the Official Zoning Map, this property is zoned C-2 General Commercial District and is in the Cerrillos Road Highway Corridor Protection District (CRHC) 2 overlay district.

14-4.3 (B) C-2 GENERAL COMMERCIAL DISTRICT

The C-2 general commercial district includes areas along streets carrying large volumes of traffic where commercial uses are appropriate. Regulations are designed to guide future additions or changes so as to discourage extension of existing and formation of future strip commercial development, to preserve the carrying capacity of the streets and to provide for off-street parking and loading.

14-5.5 - HIGHWAY CORRIDOR PROTECTION DISTRICTS

(B) CRHC Cerrillos Road Highway Corridor Protection District
(1) Purpose and Intent Cerrillos Road is one of Santa Fe's busiest thoroughfares, one of Santa Fe's primary entranceways, and one of the community's major commercial strips. For these reasons, it is the purpose and intent of the CRHC district to assure that Cerrillos Road:
(a) accommodates, in a safe and efficient manner, both through and local traffic;
(b) provides for a visually attractive and aesthetically appropriate introduction to Santa Fe;
(c) allows for clear identification of, and easy access to, all commercial and institutional establishments;
(d) provides for a gradual transition between the rural character of the county and the urban character of the city; and
(e) accentuates, to the greatest extent possible, architecture and landscaping rather than parking lots and commercial signage.
(3) Uses The uses permitted in the CRHC district are the same as those permitted in the underlying district.

City of Santa Fe, New Mexico

200 Lincoln Avenue, P.O. Box 909, Santa Fe, N.M. 87504-0909

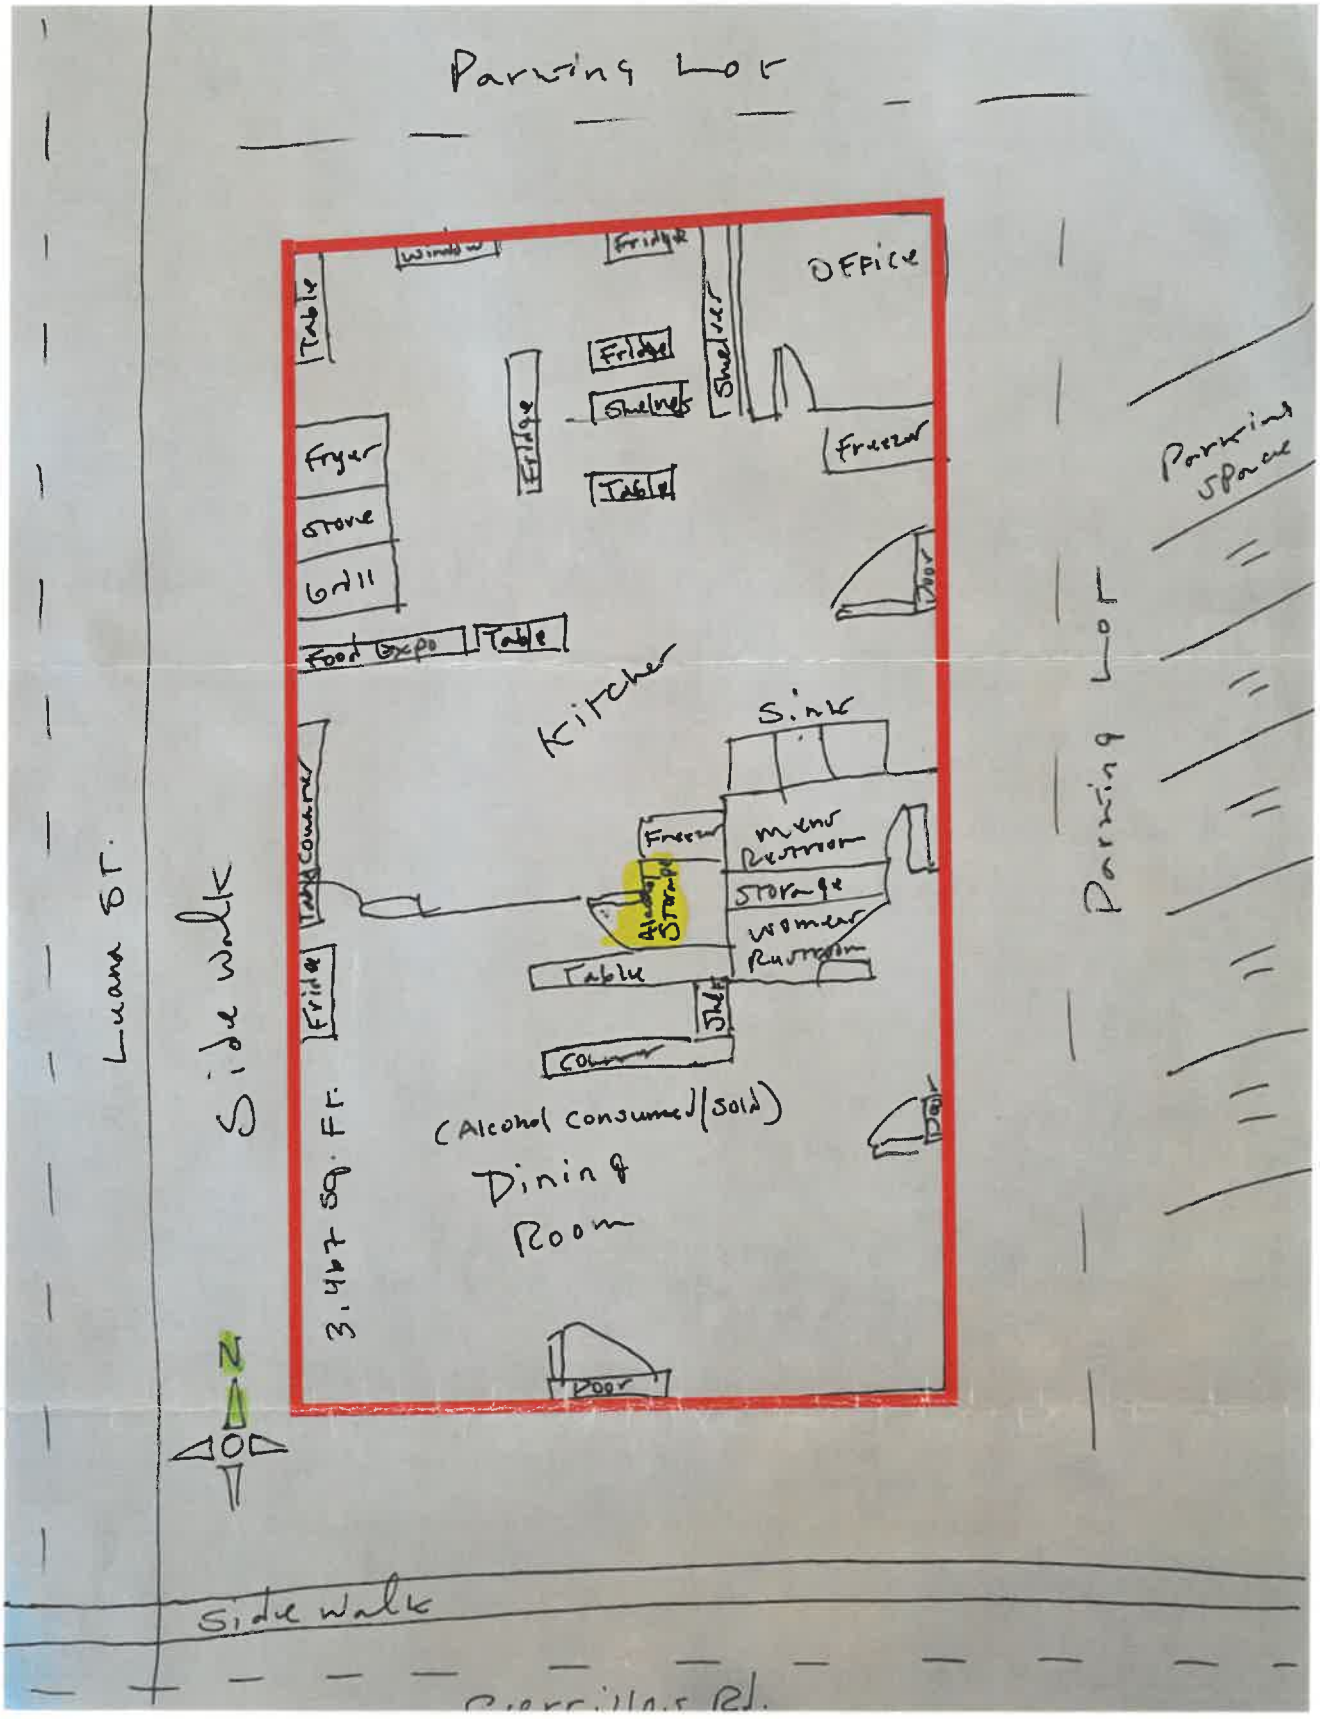
Chris Rivera, District 3
Jamie Cassutt, District 4
Amanda Chavez, District 4

Full service restaurants which may or may not have patio services, with incidental alcohol service for on-site consumption are permitted uses in the C-2 General Commercial District.



For additional information, please reference City of Santa Fe Chapter 14 SFCC regarding these districts (Chapter 14-4 – Zoning Districts/14-6 Permitted Uses) https://library.municode.com/nm/santa_fe/codes. All uses are subject to compliance with applicable development standards such as parking, lot coverage, etc.

Note: The information provided in this letter is solely derived from the Official Zoning Map and the minimum requirements set forth in Chapter 14, SFCC 1987. This letter intends to provide advice regarding zoning regulations. It is not the intent to state that the subject property complies with zoning requirements. Occupancy is determined based on zoning compliance at the time of building permit or certificate of occupancy, whichever applies. Additionally, it is not the intent to interfere with or to abrogate or annul any official document including conditions or safeguards made a part of the subject property at the time of any public hearings. Applicants are advised to pursue an independent search of official documents.

If you have any further questions, please contact me at sjperea@santafenm.gov

CITY OF SANTA FE
LIQUOR LICENSE HEARING OFFICER

Recommended
Findings of Fact and Conclusions of Law

Lic. No./Appl. No.: BLA-00000014831
Name of Applicant: Yamas, LLC
Doing Business As: Yamas Greek Rotisserie
Proposed Location: 2411 Cerillos Road, Santa Fe, NM 87505

THIS MATTER came before the Liquor License Hearing Officer for public hearing on **February 18, 2026** at 4:00 PM by video hearing, on the application of **Yamas, LLC** (Applicant) for:

1. Request from Yamas, LLC for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only with Patio Service to be located at F&C Restaurant, 2411 Cerillos Road, Santa Fe, New Mexico.

The Hearing Officer recommends that the Governing Body adopt the following findings of fact and conclusions of law.

After reviewing the record, conducting a public hearing and having provided an opportunity to be heard from city staff, the Applicant and any interested persons, the Hearing Officer hereby proposes that the Governing Body find as follows:

FINDINGS OF FACT

1. Staff submitted a packet containing the following, which was reviewed by the Hearing Officer and relied on in making these findings:

    a. February 11, 2026 memo from Emily Aragon, Constituent Services Specialist.
    b. January 27, 2026 letter from New Mexico Regulation and Licensing Department, Alcohol and Gaming Division (NMRLD/AGD) Hearing Officer Trinidad Alderete to the City of Santa Fe granting preliminary approval and forwarding the application to the City for local option district approval or disapproval.
    c. (NMRLD/AGD) Restaurant A Intake Application.
    d. December 17, 2025 letter from Stephanie Perea, Land Use Planner, City of Santa Fe, to Applicant stating the property is zoned C2 General Commercial District and is in the Cerillos Road Highway Protection District (CRHC) 2 overlay district.
    e. Premises map.
    f. Notices of Public Hearing (*Santa Fe New Mexican*, City of Santa Fe website)
    g. Checklist per Ordinance 4-4-3.

h. February 5, 2026 letter from Jason D. Sena, Enforcement Division Manager, stating it is not anticipated that there will be a substantial change in litter and noise because of this request.
i. Yamas Assessment letter.

2. City Clerk staff member Xavier Vigil presented the application.
3. Applicant was represented by John Salazar.
4. No members of the public appeared to testify.
5. Notice of the Application, including the date, time and place of the hearing, the name and address of the licensee, the action proposed to be taken by the department, the location of the licensee's premises and such other information as may be required by the department was published in the *Santa Fe New Mexican*, which is a newspaper of general circulation within the territorial limits of the governing body, on February 9 and February 16, 2026 and on the City's website.
6. The Application is for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at Yamas, 2411 Cerrillos Rd Santa Fe, New Mexico. This location is not within 300 feet of a church or school.
7. There is no record of violations.
8. Traffic is not expected to significantly increase, and the Public Works Director has found that it does not appear that approval will create unacceptable traffic impacts.
9. The proposed location is not expected to cause a substantial change in litter or noise.
10. The proposed location is not within an area where sale of alcoholic beverages is prohibited by the laws of New Mexico.
11. The applicant is in compliance with all Land Use Codes, and issuance or transfer will not be in violation of a zoning or other ordinance of the governing body, once applicant complies with conditions of approval.
12. Issuance or transfer will not be detrimental to the public health, safety or morals of the residents of the local option district.
13. The hearing was recorded and a copy of the recording is made a part of the record.

CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Hearing Officer CONCLUDES:

1. Notice of the Application was properly given by publication, mail and posting on the website pursuant to Section 60-6B-4(D).
2. The governing body may disapprove a transfer or issuance only if individuals opposing the transfer or issuance provide positive evidence showing that the transfer or issuance would be detrimental to the health, safety or morals of the community. This evidence must be based on authentic, relevant facts related to s specific prospective licensee and specific location. *The Southland Corporation v. Manzagol*, 1994-NMSC-099, 118 N.M. 423
3. The Applicant does not have the burden to prove that the transfer would not be detrimental to the health, safety or morals of the residents of the local option district. *Dick v. City of Portales*, 1994-NMSC-092, 118 N.M. 541.

4. The Application meets the requirements of §60-6B-4(F)(2).

CONDITIONS OF APPROVAL

1. Applicant is required to obtain all necessary permits and licenses.
2. Applicant is required to comply with all fire, building, and land use codes.
3. Applicant is required to comply with all City of Santa Fe ordinances.

WHEREFORE, the Liquor License Hearing Officer recommends to the Governing Body that the Application be **APPROVED**.

/s/ Renee Barela-Gutierrez Date: 02/18/2026
Renee Barela-Gutierrez

DATE: February 11, 2026

TO: Renee Barela-Gutierrez, Liquor Hearing Officer

ITEM & ISSUE:

Request from EVO Entertainment Santa Fe, LLC for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at EVO Entertainment Santa Fe, 3474 Zafarano Drive, Santa Fe, New Mexico.

BACKGROUND AND SUMMARY:

Request from EVO Entertainment Santa Fe, LLC for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at EVO Entertainment Santa Fe, 3474 Zafarano Drive, Santa Fe, New Mexico.

Attached are staff reports regarding litter, noise, and traffic. Staff does not anticipate a substantial change in litter and noise, or any unacceptable traffic impacts due to the approval of this request. The proposed location is not within 300 feet of a church, school, or daycare.

The applicant currently is pending a Business license with the City of Santa Fe therefore as a condition of approval staff is recommending that it be noted that the applicant will be required to obtain all necessary permits and licenses and comply with all Fire, Building and Land Use Code requirements prior to issuance of the City Liquor License.

Additionally, as a condition of doing business in the city, staff recommend that it be noted that the applicant is required to comply with all city ordinances.

Name of Applicant:	EVO Entertainment Santa Fe, LLC
Doing Business As:	EVO Entertainment Santa Fe
Proposed Location:	3474 Zafarano Drive, Santa Fe, New Mexico 87507

The Director of the Alcoholic Beverage Control Division (ABC) has reviewed the referenced Application and granted **Preliminary Approval.** It is being forwarded to you for Local Option District approval or disapproval of the Liquor License Application.

Notice of the Public Hearing required by the Liquor Control Act **shall be given by the governing body by publishing a notice** of the date, time, and place of the hearing **twice during the 30 days prior to the hearing** in a newspaper of general circulation within the territorial limits of the governing body. **The first notice must be published at least thirty (30) days before the hearing. Both publications must occur before a hearing can be conducted.** The notice shall include:

(A) Name and address of the Applicant/Licensee;
(B) The action proposed to be taken;
(C) The location of the licensed premises.

In addition, if the Local Option District has a website, **the Notice shall also be published on the website.**

While the law states that "within forty-five **(45)** days after receipt of a Notice from the Alcoholic Beverage Control, the governing body shall hold a Public Hearing in the question of whether the department should approve the proposed issuance or transfer", we recognize the potential for conflict between the requirement for publication of 30 day notice and the 45 day hearing requirement.

With that in mind, when a local governing body receives a liquor license application from ABC, that governing body has a couple of options:

1) Hold a hearing on the license application within the statutory time frame of forty-five (45) days, as required by the Liquor Control Act, and comply with all other statutory and regulatory procedures and notify ABC of your decision within thirty (30) days of the hearing;

2) Request from ABC an extension of time, past the forty-five (45) days, designating how much additional time will be needed to conduct the hearing in compliance with all statutory and regulatory procedures. After the extension is granted and the hearing is held, notify ABC of your decision within thirty (30) days of the hearing;
ABC has no preference in the option you choose.

The governing body is required to send notice by certified mail to the Applicant of the date, time, and place of the Public Hearing. The governing body may designate a Hearing Officer to conduct the hearing. **A record shall be made** of the hearing.

THE APPLICANT IS SEEKING RESTAURANT A – BEER AND WINE LIQUOR LICENSE WITH ON PREMISES CONSUMPTION ONLY

Within thirty (30) days after the Public Hearing, the governing body shall notify ABC of their decision to approve or disapprove the issuance or transfer of the license by signing the enclosed original Page 1 of the Application. The original Page 1 of the Application must be returned together with the notices of publication. **If the Governing Body fails to either approve or disapprove the issuance or transfer of the license within thirty days after the Public Hearing, the Director may issue the license.**

If the Governing Body disapproves the issuance or transfer of the license, it shall notify ABC within thirty (30) days setting forth the reasons for the disapproval. A copy of the Minutes of the Public Hearing shall be submitted to ABC with the Notice of Disapproval (*Page 1 of the Application, noting disapproval*).

RE: Zoning Verification for 3474 Zafarano Dr, Santa Fe, NM

Dear Ms. Cosper,

This letter provides zoning verification on the above referenced property. According to the Official Zoning Map, this property is zoned C-2PUD General Commercial District, in a Planned Unit Development District, and is not located in any overlay districts .

14-4.3 (B) C-2 COMMERCIAL DISTRICT

The C-2 general commercial district includes areas along streets carrying large volumes of traffic where commercial uses are appropriate. Regulations are designed to guide future additions or changes so as to discourage extension of existing and formation of future strip commercial development, to preserve the carrying capacity of the streets and to provide for off-street parking and loading.

14-5.7 - PUD PLANNED UNIT DEVELOPMENT DISTRICT

(A) Purpose and Intent

(1) This section is intended to allow the creation of planned districts, each conceived as a unit of cohesive development and integrated uses in either a single development operation or a planned series of development operations that may take place over a period of several years. It is also intended to allow and encourage innovative site planning and design to ensure that each planned unit development compatibly integrates with development on adjoining properties and creates an attractive, healthful, sustainable and stable environment for living and working that is superior to the development attainable under existing zoning regulations.

(2) It is further intended that PUD regulations in this section and throughout Chapter 14 accomplish the purposes of land use regulation to the same degree that existing zoning regulations do in cases where planning and development are not on a unified basis.

Entertainment centers with movie theaters, arcades, bars, and full-service restaurants which may or may not have patio services, with incidental alcohol service for on-site consumption are permitted uses in the C-2 General Commercial District.

For additional information, please reference City of Santa Fe Chapter 14 SFCC regarding these districts (Chapter 14-4 – Zoning Districts/14-6 Permitted Uses) https://library.municode.com/nm/santa_fe/codes. All uses are subject to compliance with applicable development standards such as parking, lot coverage, etc.

Note: The information provided in this letter is solely derived from the Official Zoning Map and the minimum requirements set forth in Chapter 14, SFCC 1987. This letter intends to provide advice regarding zoning regulations. It is not the intent to state that the subject property complies with zoning requirements. Occupancy is determined based on zoning compliance at the time of building permit or certificate of occupancy, whichever applies. Additionally, it is not the intent to interfere with or to abrogate or annul any official document including conditions or safeguards made a part of the subject property at the time of any public hearings. Applicants are advised to pursue an independent search of official documents.

CITY OF SANTA FE
LIQUOR LICENSE HEARING OFFICER

Recommended
Findings of Fact and Conclusions of Law

Lic. No./Appl. No.: BLA-00000015021
Name of Applicant: Evo Entertainment Santa Fe, LLC
Doing Business As: Evo Entertainment
Proposed Location: 3474 Zafarano Drive., Santa Fe, NM 87507

THIS MATTER came before the Liquor License Hearing Officer for public hearing on **February 18, 2026** at 4:00 PM by video hearing, on the application of **Evo Entertainment Santa Fe, LLC** (Applicant) for:

1. Request from EVO Entertainment Santa Fe, LLC for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at EVO Entertainment Santa Fe, 3474 Zafarano Drive, Santa Fe, New Mexico.

The Hearing Officer recommends that the Governing Body adopt the following findings of fact and conclusions of law.

After reviewing the record, conducting a public hearing and having provided an opportunity to be heard from city staff, the Applicant and any interested persons, the Hearing Officer hereby proposes that the Governing Body find as follows:

FINDINGS OF FACT

1. Staff submitted a packet containing the following, which was reviewed by the Hearing Officer and relied on in making these findings:

    a. February 11, 2026 memo from Emily Aragon, Constituent Services Specialist.
    b. January 30, 2026 letter from New Mexico Regulation and Licensing Department, Alcohol and Gaming Division (NMRLD/AGD) Hearing Officer Charmaine Martinez to the City of Santa Fe granting preliminary approval and forwarding the application to the City for local option district approval or disapproval.
    c. (NMRLD/AGD) Restaurant A Intake Application.
    d. October 24, 2025 letter from Stephanie Perea, Land Use Planner, City of Santa Fe, to Applicant stating the property is zoned C-2PUD General Commercial District, in a Planned Unit Development District, and is not located in any overlay district.
    e. Premises map.
    f. Notices of Public Hearing (*Santa Fe New Mexican*, City of Santa Fe website)

g. Checklist per Ordinance 4-4-3.
h. February 5, 2026 letter from Jason D. Sena, Enforcement Division Manager, stating it is not anticipated that there will be a substantial change in litter and noise because of this request.

2. City Clerk staff member Xavier Vigil presented the application.
3. Applicant was represented by Lisa Cosper.
4. No members of the public appeared to testify.
5. Notice of the Application, including the date, time and place of the hearing, the name and address of the licensee, the action proposed to be taken by the department, the location of the licensee's premises and such other information as may be required by the department was published in the *Santa Fe New Mexican*, which is a newspaper of general circulation within the territorial limits of the governing body, on February 9 and February 16, 2026 and on the City's website.
6. The Application is for a Restaurant A (Beer and Wine) Liquor License with On-Premises Consumption Only to be located at EVO Entertainment Santa Fe, 3474 Zafarano Drive, Santa Fe, New Mexico. This location is not within 300 feet of a church or school.
7. There is no record of violations.
8. Traffic is not expected to significantly increase, and the Public Works Director has found that it does not appear that approval will create unacceptable traffic impacts.
9. The proposed location is not expected to cause a substantial change in litter or noise.
10. The proposed location is not within an area where sale of alcoholic beverages is prohibited by the laws of New Mexico.
11. The applicant is in compliance with all Land Use Codes, and issuance or transfer will not be in violation of a zoning or other ordinance of the governing body, once applicant complies with conditions of approval.
12. Issuance or transfer will not be detrimental to the public health, safety or morals of the residents of the local option district.
13. The hearing was recorded and a copy of the recording is made a part of the record.

CONCLUSIONS OF LAW

Under the circumstances and given the evidence and testimony submitted during the hearing, the Hearing Officer CONCLUDES:

1. Notice of the Application was properly given by publication, mail and posting on the website pursuant to Section 60-6B-4(D).
2. The governing body may disapprove a transfer or issuance only if individuals opposing the transfer or issuance provide positive evidence showing that the transfer or issuance would be detrimental to the health, safety or morals of the community. This evidence must be based on authentic, relevant facts related to s specific prospective licensee and specific location. *The Southland Corporation v. Manzagol*, 1994-NMSC-099, 118 N.M. 423

3. The Applicant does not have the burden to prove that the transfer would not be detrimental to the health, safety or morals of the residents of the local option district. *Dick v. City of Portales*, 1994-NMSC-092, 118 N.M. 541.
4. The Application meets the requirements of §60-6B-4(F)(2).

CONDITIONS OF APPROVAL

1. Applicant is required to obtain all necessary permits and licenses.
2. Applicant is required to comply with all fire, building, and land use codes.
3. Applicant is required to comply with all City of Santa Fe ordinances.

WHEREFORE, the Liquor License Hearing Officer recommends to the Governing Body that the Application be **APPROVED**.

From: Romella Glorioso-Moss, PhD, CPM, Complete Streets Capital Projects Manager RGM

ACTION:
Request for Approval of a Budget Adjustment Resolution (BAR) to Allocate Road Impact Fees in the Total Amount of $600,000 to FY2026 Revenue and Expenses for the Construction of Agua Fria-Cottonwood Roundabout Project (Romella Glorioso-Moss, rsglorioso-moss@santafenm.gov).

BACKGROUND AND SUMMARY:
The Agua Fria–Cottonwood Roundabout Project is supported by $3,058,628 in construction funding from the Federal Highway Administration (FHWA). This funding does not include construction management services and material testing, which are estimated to cost an additional $600,000. Pursuant to Section 3.d of the federal funding agreement, the City is responsible for all project costs that exceed the awarded federal funds. In addition, Section 3.e requires the City to reimburse FHWA for all federal funds if the project is cancelled, including $162,000 already expended on project design as well as any construction funds spent to date.

To meet these contractual obligations and ensure successful project delivery, staff is requesting $600,000 in supplemental construction funding from road impact fees. The Agua Fria–Cottonwood Roundabout Project is included in the City's Impact Fee Capital Improvement Plan and is eligible for impact fee funding of up to $2,000,000, making this request both appropriate and fiscally responsible.

Beyond the financial considerations, construction of the roundabout is critical to improving public safety and multimodal accessibility at one of the City's most hazardous intersections. A 2012 crash analysis conducted by Worcester Polytechnic Institute evaluated intersections throughout the City and identified the intersection of Agua Fria Street and Cottonwood Drive as the most dangerous at the time, with a crash rate of 4.75 MEV/EDPO.

This crash rate is a standardized safety metric used by transportation agencies to account for both traffic volume and crash severity. A rate of 4.75 means that for every one million vehicles entering the Agua Fria–Cottonwood intersection, the equivalent of nearly five property-damage-only crashes occurred after accounting for severity. This is a very high crash rate compared to similar intersections and indicates a history of frequent and severe crashes.

Due to this documented safety concern, the project qualified for design and construction funding through the Highway Safety Improvement Program. Approving the requested supplemental funding will allow the

City to fulfill its federal funding obligations, avoid the risk of repaying federal funds, and deliver a proven safety improvement at a historically high-crash location.

Re: Corte de Princesa Emergency Funding

ACTION:
Request for Approval of a Budget Amendment Resolution (BAR) in the Total Amount of $360,000 to Allocate ½% GRT to Complete Streets FY26 WIP Construction for Repairs to Corte de Princesa. (Marcos Esquibel, Acting Complete Streets Division Director: mpesquibel@santafenm.gov)

BACKGROUND AND SUMMARY:
On the night of July 31, 2025, the City of Santa Fe experienced an extreme weather event involving rainfall levels not seen since 2018.The resulting arroyo flooding caused a catastrophic failure of the sidewalk and retaining wall at the intersection of Corte de Princesa and Camino Consuelo. Immediate emergency repairs were initiated to secure the site and stabilize the arroyo and road. An Emergency Proclamation was issued on August 8, 2025.

Due to the extent of damage, an engineering firm stabilized the site and designed repairs for the City of Santa Fe. Design is now complete and construction is ready to begin. Additionally, larger, more permanent improvements to the area are being planned pending FEMA approval.

CITY OF SANTA FE
PLANNING & LAND USE

DATE: **February 11, 2026**

TO: **Governing Body**

FROM: **Heather Lamboy, Planning & Land Use Director**
Amanda Encinias, Administrative Manager

RE: **Use of One-Time Funding for OpenGov Software Acquisition and Configuration**

ITEM/ISSUE:
The Planning and Land Use Department is requesting a budget adjustment request in the amount of $80,000 to transfer funding from Planning & Land Use to ITT to compensate for the purchase of the OpenGov software. The $80,000 was granted to the department as one-time funding to support the modernization of the department and implementation of electronic construction permit review.

BACKGROUND AND SUMMARY:

With the fundamental goals of continued professionalization, expansion of capacity and greater responsiveness to the community by the department, we requested funding to help purchase OpenGov software. Other requests for one-time funding included the purchase of Avenue/Neumo Short Term Rental management software, technology purchases, and funding for the creation of a Development Manual. These include the following:

OpenGov Permitting Management Solution

Software supporting planning processes and construction permit reviews is intended primarily to improve our ability to deliver consistently high-quality customer service, manage the high volume of permit reviews, and eliminate avoidable processing delays. This involves creating and implementing solutions, including:

- Timely engagement and initial response to customer and public questions and concerns, and appropriate follow-up
- Clear guidance on materials needed for development applications processed by the Planning & Land Use Department
- Proper routing and channelized communication regarding development applications between customers and other departmental staff
- Decrease in permit review timelines where all plan reviews can be done concurrently
- Decrease in plan production costs that a currently borne by the development community.

To support this need, we request the following Budget Amendment Request (BAR):

1. **Digital Planning and Development Solutions**

Subject: City of Santa Fe Market Station Condominium Unit - Common Area Adjustment

---

ACTION:
Request for Approval of First Amendment to Amended Condominium Declaration for Market Station to Adjust the Common Area of the City of Santa Fe's Office Condominium at 500 Market Street. (Tim Farrell, Interim Facilities Division Director, tgfarrell@santafenm.gov)

BACKGROUND AND SUMMARY:
The City of Santa Fe owns Office Space Condominium Unit #2 at 500 Market Station. The City's unit comprises 26.44% of the Market Station building, with the remaining 73.56% owned by State Properties of New Mexico ("SPONM").

The City's condominium is currently divided into two separated areas:

- A north unit consisting of 10,318 square feet (sf) of unfinished, vacant space.
- A south unit consisting of 11,156 sf, formerly occupied by Public Works, Parking, and other City departments.

A designated Condominium Common Area is located between the two City units (see attached plan).

The south portion of the City's condominium will soon be re-occupied by the Information Technology & Telecommunications (ITT) Department. Design work for the ITT relocation has been completed by Woven Architecture, a construction bid has been received, and the City is prepared to proceed into the remodel phase.

To properly secure both the south and north City units, and to improve functional use of the full City-owned condominium area, Facilities Management approached the Condominium Manager, SPONM, to request a modification to the Market Station Condominium Declaration (see attached). The proposed modification transfers 583 sf of the existing Common Area located between the two City units into the City's defined condominium space.

This transfer increases the City's total square footage from 21,474 sf to 22,057 sf, and the City's ownership share from 26.44% to 26.97% of the building. The additional area is critical to the project, as it allows for the construction of:

- A secure reception area for ITT, and
- A secured internal corridor providing controlled access to the north unit for a future tenant.

SPONM has agreed to transfer the 583 sf to the City at no cost. Based on the resulting 0.53% increase in the City's ownership share, the City should anticipate an estimated $1,900 annual increase in its proportionate share of Common Area Maintenance (CAM) costs, based on current billing rates.

Article 1
Submission of the Property; Defined Terms

1.1 Submission of Property.

Railyard Company, LLC, a New Mexico limited liability company, is lessee of certain real property located within Santa Fe County, New Mexico under a sublease agreement with Santa Fe Railyard Community Corporation, dated October 1, 2007. The land to which this leasehold is applicable and the conditions of superior leases covering the same property are described on Exhibit "A", attached hereto and incorporated herein. Railyard Company, LLC, hereby submits the real property, together with all easements, rights and appurtenances thereto (Property) to the provisions of Chapter 47, Articles 7A, 7B, 7C and 7D, NMSA 1978, known as the New Mexico Condominium Act (Condominium Act or the Act), and creates a Condominium with respect to the Property to be known as Market Station, a Condominium (Condominium).

1.2 Defined Terms.

1.2.1 **Articles of Incorporation or Articles**: the Articles of Incorporation of Market Street Association, Inc.

1.2.2 **Assessment**: the assessments levied on all Units by the Association to fund the Common Expenses, including reserves, for the general benefit of all Units.

1.2.3 **Association**: Market Station Association, Inc., a New Mexico non-profit corporation.

1.2.4 **Bylaws**: the Bylaws of the Association.

1.2.5 **Common Elements**: all portions of the Condominium, other than the Units.

1.2.6 **Common Expense**: expenditures made by or financial liabilities of the Association, together with any allocations to reserves.

1.2.7 **Condominium**: Market Station, a Condominium.

1.2.8 **Condominium Instruments**: the Declaration, Articles of Incorporation and Bylaws, Plat and Plans, Rules and Regulations (if any), as amended. Any exhibit, schedule, or certification accompanying a Condominium Instrument is a part of that Instrument.

SFC CLERK RECORDED 05/18/2012

1.2.9 **Costs of Enforcement**: all monetary fees, fines, late charges, interest, expenses, costs, including receiver's and appraiser's fees, and reasonable attorneys' fees and disbursements, including legal assistants' fees, incurred by the Association in connection with the collection of Assessments or in connection with the enforcement of the terms, conditions and obligations of the Condominium Instruments.

1.2.10 **Directors**: the Board of Directors of the Association.

1.2.11 **Mortgagee**: the holder of a first Security Interest in a Unit.

1.2.12 **Limited Common Element**: a portion of the Common Elements allocated by this Declaration, or the Act, for the exclusive use of one or more but fewer than all of the Units in the Condominium.

1.2.13 **Occupant**: a person or persons, other than the Owner, in possession of a Unit, including tenants and guests.

1.2.14 **Owner**: the owner of a Unit as defined herein. In the event a Unit is held in trust or owned by a legal entity, the term shall also include the trustee, an officer or director, manager or member or the owner of a beneficial interest in the entity.

1.2.15 **Plat and Plans**: the plat and plans required by §47-7B-9 of the Condominium Act, attached hereto and incorporated herein as Exhibit "B".

1.2.16 **Property**: the real property more particularly described on Exhibit "A".

1.2.17 **Reserved Common Element**: a portion of the Common Elements designated by the Directors for the exclusive use of one or more but fewer than all the Units, pursuant to § 47-7C-2 NMSA 1978 of the Condominium Act.

1.2.18 **Rules and Regulations**: Regulations of the Association, if any, adopted by the Directors of the Association, pursuant to § 47-7C-2 NMSA 1978 of the Condominium Act.

1.2.19 **Security Interest**: an interest in real estate created by contract or conveyance, which secures payment or performance of an obligation. The term includes a lien created by a mortgage, deed of trust, land sales contract, lease intended as security, assignment of lease or rents intended

SFC CLERK RECORDED 05/18/2012

as security, and any other consensual lien or title retention contract intended as security for an obligation.

1.2.20 **SFRCC Lease:** the Amended and Restated Lease Agreement between Santa Fe Railyard Community Corporation, as Lessor, and Railyard Company, LLC, as Tenant, dated October 1, 2007.

1.2.21 **Undefined Terms**: terms not otherwise defined herein or in the Plat and Plans, exhibits, Bylaws, or in any amendment hereto, shall have the meanings specified in § 47-7A-3 of the Condominium Act.

1.2.22 **Unit**: a Unit designated in this Declaration or any amendment thereto.

Article 2
Building on the Property; Unit Boundaries; Maintenance

2.1 The Building.

The location, dimensions and area of the building on the Property are depicted on the Plat and Plans, attached hereto and incorporated herein as Exhibit "B". This project consists of one building which contains four (4) Units.

2.2 Units.

The location of Units and any Limited Common Elements allocated exclusively to each Unit are shown on the Plat and Plans. Attached hereto as Exhibit "C" is a list of all Units, their identifying letter, size (as shown more fully on the Plat and Plans), and the Percentage Interest of each Unit in the Common Elements, as well as liability for Common Expenses and the vote in the Association appurtenant to each Unit, determined on the basis of size. The size of each Unit is the total number of interior square feet, determined by reference to the dimensions shown on the Plat and Plans. The Percentage Interest allocated to each Unit is the ratio of the size of the Unit to the size of all Units in the Condominium, expressed as a percentage. The number of Units created hereby is four (4).

2.3 Unit Boundaries.

Each Unit shall consist of the space bounded by the unfinished walls, ceilings and floors.

2.4 Maintenance Responsibilities of the Unit Owner.

Each Owner shall be responsible for the maintenance and repair of his or her Unit and shall be responsible for the repair and replacement of glass in the windows and doors of

SFC CLERK RECORDED 05/18/2012

his or her Unit. All replacement glass shall be subject to the approval of the Association. An Owner shall, at the Owner's expense, maintain and keep in good repair all fixtures, equipment, and utilities installed and included in a Unit, commencing at a point where the fixtures, equipment and utilities enter the Unit. No Owner shall allow any action or work that will impair or modify the Common Elements or impair the proper functioning of the utilities, heating, ventilation, or plumbing systems, without approval of the Association. Each Owner shall keep clean any Limited Common Elements appurtenant to his or her Unit.

2.5 Limited Common Elements.

Certain portions of the Common Elements are initially designated on the Plat and Plans as Limited Common Elements reserved for the exclusive use or primary benefit of the Owners and Occupants of specified Units. All costs associated with the maintenance, repair, replacement, insurance and reserves for such expenses shall be assessed by the Association against the Owners of the Units to which the Limited Common Elements are appurtenant.

2.6 Maintenance Responsibilities of the Association.

All of the Condominium not required in this Declaration to be maintained and kept in good repair by a Unit Owner, including all Common Elements and all Limited Common Elements, shall be maintained by the Association.

Article 3
Assessments

3.1 Common Expenses Attributable to Fewer Than All Units.

Any Common Expense associated with the maintenance, repair or replacement of any Limited Common Element shall be assessed against the Unit or Units to which the Limited Common Element is assigned. If any such Limited Common Element is assigned to more than one Unit, the Common Expenses attributable to the Limited Common Element shall be assessed equally among the Units to which it is assigned.

3.1.1 Any Common Expense for services provided by the Association to an individual Unit at the request of an Owner shall be assessed against the Unit which benefits from such service.

3.1.2 Fees, charges, late charges, fines, collection costs, and interest charged against an Owner pursuant to the Condominium Instruments and the Act are enforceable as Common Expense assessments.

SFC CLERK RECORDED 05/18/2012

3.2 Negligent Damage.

In the event that the need for maintenance, repair or replacement of all or any portion of the Common Elements is caused through or by the negligent or willful act or omission of an Owner or Occupant, then the expenses incurred by the Association for such maintenance, repair or replacement shall be a personal obligation of such Owner, and shall be an assessment levied against such Unit, enforceable by the Association in accordance with this Declaration.

3.3 Owner Misconduct.

If a Common Expense is caused by the misconduct of an Owner, the Association may assess that expense exclusively against that Owner's Unit.

3.4 Insurance.

The cost of insurance shall be assessed in proportion to risk.

3.5 Ratification of Budget.

Any proposed budget for the Condominium shall be deemed ratified by all Unit Owners, unless at a meeting to consider ratification of any proposed budget, Owners holding two-thirds (⅔) or more of the votes in the Association vote, in person or by proxy, to reject the proposed budget. The budget may be deemed ratified whether or not a quorum is present at the meeting. In the event the proposed budget is rejected, the budget last ratified by the Unit Owners shall continue in force until such time as the Unit Owners ratify a subsequent budget proposed by the Board.

3.6 Groundlease Payment.

The Association shall include in each annual budget such sums as may be necessary to pay rent under the Sublease between Santa Fe Railyard Community Corporation (Lessor) and Railyard Company, LLC, (Lessee), dated October 1, 2007, excluding any sum due from another sublessee if part of the Sublease has been assigned with the consent of Lessor. The rent described herein shall be assessed against the units as to which there is no partial assignment of the Sublease.

Article 4
Restriction on Units and Common Elements

4.1 Units. All Units created by this Declaration are designated for Commercial, Mixed-Use, multi-tenant and other uses allowed under the Master Plan for Santa Fe Railyard, dated May, 2002, as subsequently amended.

SFC CLERK RECORDED 05/18/2012

4.2 Designation of Reserved Common Elements.

The Directors shall have the power in their discretion to designate from time to time certain Common Elements as Reserved Common Elements, to grant reserved rights to any or less than all of the Owners, and to establish a reasonable charge to such Owners for the use and maintenance thereof. Such designation by the Directors shall not be construed as a sale or disposition of the Common Elements.

4.3 Use of Unit and the Common Elements.

No immoral, improper, offensive or unlawful use may be made of the Property and Owners shall comply with and conform to all applicable laws and regulations. A violating Owner shall hold the Association and other Owners harmless from all fines, penalties, costs and prosecutions for the violation thereof or noncompliance therewith.

4.4 Signs on Common Elements.

Subject to the approval of the Association, each Unit shall be permitted to have one exterior sign for displaying the business name and/or Owner information associated with the purpose of the Unit, and each Unit shall be listed on a directory located in the elevator lobby. Owners wishing to post additional signs shall apply, in writing, for permission to do so from the Association. The Association may promulgate Rules and Regulations offering reasonable guidelines governing size, placement and design of proposed signs.

4.5 Occupancy Restrictions.

The following occupancy restrictions apply to all Units and to the Common Elements:

4.5.1 No electrical device creating electrical overloading of standard circuits may be used without permission from the Association. Misuse or abuse of appliances or fixtures within a Unit which affects other Units or the Common Elements is prohibited. Any damage resulting from such misuse shall be the responsibility of the Owner from whose Unit it shall have been caused. Total electrical usage in any Unit shall not exceed the capacity of the circuits as labeled on the circuit breaker boxes serving that Unit.

4.5.2 Each Owner shall keep his or her Unit in a good state of preservation and cleanliness. No storage of trash will be permitted in or outside any Unit in such manner as to permit the spread of fire, odors, seepage, or encouragement of vermin.

4.5.3 All fixtures and equipment shall be used for the purposes for which they were designed.

SFC CLERK RECORDED 05/18/2012

4.5.4 No noxious, offensive, dangerous or unsafe activity shall be carried on in any Unit, nor shall anything be done therein either willfully or negligently, which may be or become an annoyance or nuisance to the other Owners or Occupants. No Owner or Occupant shall make or permit any disturbing noises by himself or herself, his or her family, servants, employees, agents, visitors and licensees, nor do or permit anything to be done by such persons that will interfere with the rights, comforts or convenience of other Owners or Occupants. No Owner or Occupant shall cause noise or play, or suffer to be played, any audio equipment at such high volume or in such other manner that it shall cause unreasonable disturbances to other Owners or Occupants.

4.5.5 Nothing shall be altered, or constructed in, or removed from the Common Elements or Limited Common Elements, except with the prior written consent of the Association.

4.5.6 The Common Elements shall be used only for the uses for which each was designed and is reasonably suited incident to the use and occupancy of the Units.

4.5.7 No Owner shall enter into a lease of his or her Unit without first executing a written lease with the lessee. Such lease shall require the lessee to comply with the terms and provisions of the Condominium Instruments and, further, provide that the failure of the lessee to comply with them constitutes a default under the terms of the lease. Each Unit Owner shall, promptly following the execution of any such lease, forward a conformed copy thereof to the Association. The foregoing provisions of this subsection shall not apply to a Mortgagee in possession of a Unit as a result of foreclosure or any proceeding *in lieu* of foreclosure, during the period of such Mortgagee's possession.

4.5.8 No Unit shall be used for an adult amusement establishment, an adult bookstore, for the sale of drug paraphernalia, for the purpose of providing tattoo or piercing services, for take-away liquor sales, nor for the purpose of storing, manufacturing or selling any explosives, flammables or other inherently dangerous substance, chemical, or device.

4.5.9 No Unit shall be used for any purpose not allowed under the SFRCC Lease or the Master Plan for Santa Fe Railyard, dated May, 2002, as subsequently amended, nor shall any Unit be sued for residential purposes.

SFC CLERK RECORDED 05/18/2012

4.6 Satellite Antennae.

Pursuant to the provisions of the Federal Communications Commission (FCC) Over-the-Air Reception Devices Rule, 47 C.F.R. Section 1.4000, any device that is used for the receipt of video programming services, including direct broadcast satellite (DBS), multipoint distribution service (MDS), and local television broadcast signals (TVBS), and any device used to receive or transmit fixed wireless signals (FWS) that are one meter (39.37 inches) or less in diameter may be installed by an Owner, with the prior approval of the Association. A mast, cabling, supports, guide wires, conduits, wiring, fasteners, or other accessories necessary for the proper installation, maintenance, and use of a device shall be considered part of the device. Devices shall be no larger nor installed higher than is absolutely necessary for reception of an acceptable-quality signal. Permission for the installation shall be denied only if the proposed installation would cause material damage to the Common Elements.

4.7 Subdivision of Units.

Pursuant to the terms of § 47-7B-13 of the Condominium Act, upon application by an Owner to subdivide a Unit, the Association shall prepare, execute and record an amendment to the Declaration, including revised Plat and Plans, subdividing that Unit. The amendment to the Declaration must be executed by the Owner of the Unit to be subdivided and an officer of the Association. The amendment shall assign an identifying letter to each Unit created and re-allocate the allocated interests formerly allocated to the subdivided Unit between the new Units in any reasonable manner prescribed by the Owner of the subdivided Unit. An Owner wishing to subdivide his or her Unit shall pay for all costs associated with the drafting of the amendment, the revised Plat and Plans, and the recording fees assessed by the Santa Fe County Clerk.

4.8 Relocation of Unit Boundaries.

A proposed relocation of Unit boundaries between adjoining Units shall be permitted upon application to the Association by the Owners of the affected Units, subject to compliance with the provisions of § 47-7B-12 of the Condominium Act. If the Owners of the adjoining Units have specified a re-allocation between the Units of their allocated interests (Percentage Interests), the application shall state the proposed re-allocation. Unless the Directors determine that the re-allocation is unreasonable, the Association shall prepare an amendment that identifies the Units involved, contains words of conveyance between the Unit Owners, and states the re-allocation. The amendment shall be executed by those Unit Owners and an officer of the Association and, upon recordation, shall be indexed in the name of the grantor and the grantee. The Association shall prepare and record revised Plats or Plans necessary to show the altered boundaries between adjoining Units, as well as their dimensions and identifying letters. Unit Owners wishing to relocate the boundaries between their Unit shall pay for all costs associated with the drafting of the

SFC CLERK RECORDED 05/18/2012

amendment, the revised Plat and Plans, and the recording fees assessed by the Santa Fe County Clerk.

Article 5
Access to Units

The Association shall have the right of access to any Unit as provided in § 47-7C-7 of the Condominium Act. In case of emergency, such entry shall be immediate whether the Owner is present at the time or not.

Article 6
Amendment of Declaration; Restrictions

6.1 Restrictions on Amendments.

No material amendment of this Declaration of an adverse nature to Mortgagees may be made by the Association or the Owners without the prior written consent of Mortgagees representing at least fifty-one percent (51%) of the votes of the Units subject to mortgages. An addition or amendment to this Declaration shall not be considered material if it is for the purpose of correcting technical errors, or for clarification only. Any amendment or change to any provision which establishes, governs or regulates any interest of Mortgagees, including any action which terminates the legal status of the Condominium after substantial destruction or condemnation occurs, or for other reasons, or which by act or omission withdraws the submission of the Property to the Condominium Act, except as provided by the Condominium Instruments or the Condominium Act, shall be considered materially adverse.

6.2 Implied Consent of Mortgagees.

A proposed amendment shall be deemed approved by a Mortgagee when the Mortgagee fails to submit a response to any written proposal for an amendment within sixty (60) days after the Mortgagee receives proper notice of the proposal, provided the notice was delivered by certified or registered mail, with a "return receipt" requested.

6.3 Amendment by Unit Owners.

Except as otherwise provided or reserved herein or in the Condominium Act, this Declaration may be amended only by a vote of agreement of Owners of Units to which at least sixty-seven percent (67%) of the votes in the Association are allocated. Execution by the president of the Association of a certificate stating that Owners holding sixty-seven percent (67%) or more votes in the Association have approved the amendment shall be sufficient to show assent by Unit Owners to the amendment.

SFC CLERK RECORDED 05/18/2012

6.4 Execution of Amendments.

An amendment to the Declaration required by the Condominium Act to be recorded by the Association which has been adopted in accordance with this Declaration and the Act, must be prepared, executed, recorded and certified on behalf of the Association by an officer of the Association designated for that purpose or, in the absence of designation, by the president of the Association.

Article 7
Protection of Security Interests

7.1 Mortgagee Protection.

Except as specifically provided in the Declaration or in the Act, no provision of the Declaration shall be construed to grant to any Owner or to any other person, any priority over any lien rights of a Mortgagee pursuant to its Security Interest in the case of distributions of insurance proceeds or condemnation awards.

7.2 Subordination.

Notwithstanding any other provision of this Declaration to the contrary, any first Mortgagee who obtains title to a Unit pursuant to the remedies in the mortgage or through foreclosure will not be liable for more than six (6) months of the Unit's unpaid regularly budgeted dues or charges accrued before acquisition of the title to the Unit by the Mortgagee. Such limited subordination shall not apply to the Costs of Enforcement. Such subordination shall apply only to assessments on a Unit which have become due and payable prior to a sale or transfer of such Unit pursuant to a decree of foreclosure, or to any deed or other proceeding in lieu of foreclosure. Any such sale or transfer in foreclosure or *in lieu* of foreclosure shall not relieve the purchaser of the Unit from liability for any assessment thereafter becoming due, nor from the lien of any such subsequent assessment.

7.3 Notice of Actions.

The Association shall give prompt written notice to each Mortgagee of:

7.3.1 Any condemnation loss or any casualty loss which affects a material portion of the Condominium or any Unit in which there is a Security Interest held by such Mortgagee;

7.3.2 Any delinquency in the payment of Common Expense assessments owed by an Owner whose Unit is subject to a first Security Interest held by such Mortgagee, which remains uncured for a period of sixty (60) days;

SFC CLERK RECORDED 05/18/2012

7.3.3 Any lapse, cancellation, or material modification of any insurance policy or fidelity bond maintained by the Association;

7.3.4 Any proposed action which would require the consent of a specified percentage of Mortgagees as specified in Article 6 hereof.

7.4 Enforcement.

The provisions of this Article are for the benefit of Mortgagees and their successors, and may be enforced by any of them, by any available means, at law or in equity.

Article 8
Reserved Development Rights

Declarant reserves the right, until the twenty-fifth (25th) anniversary of the recordation hereof, to subdivide any unit it owns.

Article 9
Subordination to Leases

The lien for assessments is hereby subordinated to any *bona fide* lease of a Unit to an independent third party. In the event of a foreclosure of the lien against a Unit which is subject to such a lease, the Unit shall be sold at foreclosure subject to the lease and the rights of the tenant thereunder, but (i) no payment of rent by the tenant more than one month in advance will be binding upon any such foreclosure purchaser; (ii) such purchaser shall have no liability to the tenant for damages arising from any breach or default of the Owner occurring prior to the date of the foreclosure sale; and (iii) the tenant must agree, in writing, to attorn to the foreclosure purchaser.

Article 10
Association May Assign Income

The Association shall have all the powers provided for in § 47-7C-2 of the Condominium Act including but not limited to the right to assign its right to future income (including the right to receive Common Expense Assessments) for the purpose of securing repayment of funds borrowed or indebtedness incurred by the Association in the performance of its responsibilities.

SFC CLERK RECORDED 05/18/2012

Article 11
Substantial Completion

It is hereby certified that the structural and mechanical systems of the building containing Units have been substantially completed in accordance with the Plat and Plans.

Article 12
Taxation

Each Unit shall be deemed a separate parcel for tax purposes and shall be separately assessed.

Article 13
Use of New Technology

Due to the ongoing development of new technologies and corresponding changes in business practices, to the extent permitted by law, now or in the future: (1) any notice required to be sent or received; (2) any signature, vote, consent or approval required to be obtained; or (3) any payment required to be made, under the Condominium Instruments may be accomplished using the most advanced technology available at that time if such use is a generally accepted business practice. *The use of technology in implementing the provisions of this Declaration and the Association Bylaws dealing with notices, payments, signatures, votes, consents or approvals is governed by the Bylaws of the Association and the New Mexico Nonprofit Corporation Act (§ 53- 8-1 to § 53-8-99 NMSA 1978).*

In witness whereof, the undersigned Declarant has executed this Declaration on the date last set forth below.

First Amendment to Amended Condominium Declaration
for
Market Station, a Condominium

This First Amendment to Amended Condominium Declaration for Market Station, a Condominium, is made effective as of the date of recordation in the records of Santa Fe County, New Mexico.

Recitals

A. The Market Station, a Condominium (the "Condominium"), was created by Condominium Declaration for Market Station, a Condominium, recorded as Instrument No. 1669764, as amended, by the Amended Condominium Declaration recorded as Instrument No. 1956637, in the records of Santa Fe County, New Mexico (the "Declaration") and as shown on plat of survey entitled "Condominium Survey of Market Station for the Railyard Company LLC..." in Plat Book 745 pages 21-22 as Instrument No. 1669765, records of Santa Fe County, New Mexico (the Condominium Plat").

B. The undersigned, representing 100% of the Unit owners in the Condominium have agreed to modify the designation of a portion of the Common Elements and add these additional areas to the boundaries of Unit 2 and reallocate the Percentage Interest of each Unit.

C. NMSA §47-7B-17 and Section 6.3 of the Declaration permit the amendment to the Declaration as set forth herein.

NOW THEREFORE, the Declaration is amended as follows:

Amendment

1. Amendment to Condominium Plat. The amended location, dimensions and area of the building in the Condominium are shown on Exhibit D hereto.

2. Amendment to Declaration. Exhibit E of the Declaration is modified as attached hereto reflecting the updated square footage and Percentage of Common Element Interest for each unit.

3. Grant of Easement. The owner of Unit 2 expressly reserves for the owners of Units 1, 3 and 4, and their agents, employees and lessees, an easement through the two areas added to Unit 2 as shown on Exhibit A, as may be reasonably necessary, for the purpose of accessing the boiler room, maintenance closet, elevator, stairwell, or inspecting any portion of the Condominium, or for any other reasonable purpose.

4. Remaining Provisions. All other terms and provisions of the Declaration are in full force and effect.

NEW MEXICO CAPITAL OUTLAY GRANT AGREEMENT
CAPITAL APPROPRIATION PROJECT

THIS AGREEMENT is made and entered into by and between the State of New Mexico, Department of Finance & Administration, 407 Galisteo Street, Santa Fe, NM 87501, ("**Department**") and the City of Santa Fe, ("**Grantee**") (individually "**Party**" and collectively "**Parties**"). This Agreement shall be effective as of the date the Department executes it ("**Effective Date**").

WITNESSETH

WHEREAS, in the Laws of 2025, Chapter 159, Section 54, the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of funds from this appropriation, in accordance with the terms and conditions of this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

AGREEMENT

I. PROJECT DESCRIPTION, GRANT AMOUNT, AND REVERSION

25-J5981 ("**Project**") 4/11/2027 ("**Reversion Date**"). Laws of 2025, Chapter 159, Section 54, Three Hundred Thousand Dollars and Zero Cents, $300,000.00, For project completion for the replacement of the Cerro Gordo Bridge in Santa Fe in Santa Fe county.

Grantee's total reimbursements shall not exceed $300,000.00 Three Hundred Thousand Dollars and Zero Cents, ("**Appropriation Amount**") minus the allocation for Art in Public Places ("**AIPP amount**"), if applicable, $0.00 Zero Dollars, which equals $300,000.00 Three Hundred Thousand Dollars and Zero Cents ("**Adjusted Appropriation Amount**").

In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I, the language of the laws cited herein shall control.

The information contained in Article I is referred to collectively as the "**Project Description**."

II. DISBURSEMENT LIMITATION

A. Upon the Effective Date, the Grantee shall submit to the Department a comprehensive procurement plan and expenditure plan, detailing a Project timeline with milestones, required procurements, and identifying expected expenditures per milestone (collectively, "**Project Budget**"). The Department shall

review and approve the Project Budget by issuing a Notice of Department's Obligation ("**Notice of Obligation**"), in accordance with the Project Description, a sample of which is attached hereto as **Exhibit A** and incorporated herein by reference. After receipt of a Notice of Obligation, the Grantee may be reimbursed for allowable costs up to the Adjusted Appropriation Amount. This Agreement and any reimbursements up to the Adjusted Appropriation Amount are expressly conditioned upon the following:

a. Irrespective of any Notice of Obligation, Grantee's expenditures shall be made in accordance with the Project Budget, on or before the Reversion Date and/or, if applicable, any Early Termination Date; and

b. The total amount received by Grantee shall not exceed the lesser of:

i. the Adjusted Appropriation Amount identified in Article I (B) herein; or

ii. the total of all amounts stated in the Notice(s) of Obligation evidencing the Department has received and accepted Grantee's Third Party Obligation(s); and

c. Grantee's expenditures are made and accounted for pursuant to the State Procurement Code, State's Model Accounting Practices, and execution of binding written obligations or purchase orders with third-party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project ("**Third Party Obligations**"); and

d. Grantee's submittal of timely Requests for Payment and supporting documentation in accordance with the procedures set forth in this Agreement; and

e. In the event capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private entity, the sale, lease, license, or operating agreement:

i. must be approved by the applicable oversight entity (if any) in accordance with §§ 13-6-2, 13-6-2.1, and 13-6-3; or

ii. If no oversight entity is required to approve the transaction, the Department of Finance and Administration's Infrastructure Planning Development Division (IPDD) must approve it as complying with the law.

B. Prior to the sale, lease, license, or operating agreement being approved pursuant to Articles II(A)(e) (i) or (ii) herein, the Department may, in its sole and absolute discretion, unless inconsistent with State Board of Finance imposed conditions, reimburse Grantee for necessary expenditures incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, limited to planning and design expenditures; and

C. Grantee's submission of documentation of all Third Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement shall be governed by the following:

a. Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third Party Obligation, and request the Third Party to begin work after issuance of a Notice of Obligation by the Department.

b. Grantee acknowledges and agrees that any Third Party Obligations agreed to prior to receiving a Notice of Obligation are its sole responsibility.

c. Grantee shall submit to the Department one copy of all Third Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party but prior to execution by the Grantee.

d. Department may, in its sole and absolute discretion, issue a Notice of Obligation for the particular amount of a Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is incorporated herein and attached hereto as Exhibit 2.

D. Grantee shall provide all necessary qualified personnel, materials, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

E. Prior to entering into this Agreement, the Department conducted a risk assessment on the Grantee and a project readiness review for the Project. In accordance with State Model Accounting Practices, FIN 9.2, if the Department determines that the expenditure of Project funds by the Grantee requires special conditions, those conditions are identified and listed in **Exhibit D**, which is attached and incorporated by reference. The Parties agree that, to the extent the Department, in its sole and absolute discretion, determines additional special conditions are necessary or that existing special conditions are no longer required, it may update **Exhibit D** from time to time without the need for a formal amendment of this Agreement.

F. Project funds shall not be used for purposes other than those authorized by the Department in accordance with the Project Description.

G. Project funds cannot be used to reimburse the Grantee for indirect Project costs unless specifically allowed by law.

III. NOTICES

The following provisions shall apply whenever written notices, including written decisions, are to be given or received related to this Agreement.

The Grantee designates the person(s) listed below, or their successor, as their official representative(s) concerning all matters related to this Agreement:

Grantee: City of Santa Fe
Name: David Chapman
Title: Grant Administrator
Address: PO Box 909, Santa Fe NM, 87504
Email: dachapman@santafenm.gov
Telephone: 505-955-6251

The Grantee designates the person(s) listed below, or their successor, as their Fiscal Officer or Fiscal Agent concerning all matters related to this Agreement:

Grantee: City of Santa Fe
Name: Erika Lujan
Title: Grant Manager
Address: PO Box 909, Santa Fe NM, 87504
Email: evlujan@santafenm.gov
Telephone: 505-479-1334

The Department designates the persons listed below, or their successors, as the Points of Contact for matters related to this Agreement.

Department: DFA/Local Government Division
Name: Daniel Catanach
Title: Grant Manager
Address: Bataan Memorial Bldg. Rm 202, Santa Fe NM 87501
Email: DanielN.Catanach@dfa.nm.gov
Telephone: 505-231-6090

IV. TERM & DEADLINE TO EXPEND FUNDS

A. The term of this Agreement shall begin on the Effective Date and terminate on the 11th day of April during the calendar year of the Reversion Date unless Terminated Before Reversion Date ("**Early Termination**") pursuant to Article V herein (collectively "**Term**").

B. The Project's funds must be expended on or before the Reversion Date and, if applicable, the Early Termination Date of this Agreement.

   a. For purposes of this Agreement, it is not sufficient for the Grantee to encumber the Project funds on its books on or before the Reversion Date or Early Termination Date.
   b. For purposes of this Agreement, an expenditure of funds has occurred on the date the particular quantity of goods is delivered to and received by the Grantee, title to the goods is transferred to the Grantee, and/or as of the date particular services are rendered to and accepted by the Grantee.

c. For purposes of this Agreement, an encumbrance of funds pursuant to a contract or purchase order with a third party does not qualify as an expenditure.

V. EARLY TERMINATION

A. General Provision. The Department may terminate this Agreement before the Reversion Date based on the Completion of the Project, Complete Expenditure of the Adjusted Appropriation, and/or Violation of this Agreement. Early Termination hereunder includes:

a. Termination due to completion of the Project before the Reversion Date;
b. Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date;
c. Termination for violation of the terms of this Agreement; or
d. Termination for suspected mishandling of public funds, including but not limited to fraud, waste, abuse, and conflicts of interest.

B. Non-appropriation. This Agreement is expressly contingent upon the New Mexico State Legislature making sufficient appropriations and authorizations for the Project Description.

a. If the Legislature does not appropriate the Appropriation Amount, this Agreement shall terminate upon the Department giving the Grantee written notice of such termination. Such termination shall be effective as of the effective date of the law making the non-appropriation.
    i. The Department's decision as to whether sufficient appropriations or authorizations are available shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement.
b. As used herein, "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature:
    i. Deauthorization, reauthorization, or revocation of a prior authorization.

C. Grant Disbursements in the Event of Early Termination. In the event of Early Termination, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II above.

D. Notice. Either Party may terminate this Agreement prior to the Reversion Date by providing the other Party with a minimum of fifteen (15) days advance written notice of the Early Termination. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement by the Department.

VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. Department, in its sole and absolute discretion, may provide written notice to Grantee to suspend entering into further obligations. Upon the receipt of such written notice by

the Grantee:

a. Grantee shall immediately suspend entering into new or further written obligations with third parties;
b. Department will suspend the issuance of any new or further Notice of Obligation under this Agreement; and
c. Department may direct the Grantee to implement a corrective action plan in accordance with Article VI (D) herein.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for a Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension. Where the Department, in its sole and absolute discretion, directs Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension.

a. Such a corrective action plan must be approved by the Department and be signed by the Grantee.
b. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(c).
c. A corrective action plan shall be in addition to, and not in lieu of, any other equitable or legal remedy authorized hereunder or at law, including but not limited to Early Termination.

VII. AMENDMENTS

Unless expressly stated otherwise herein, this Agreement shall not be altered, changed, or amended except by an instrument in writing duly executed by both parties hereto with the same formalities as this agreement.

VIII. REPORTING

A. Database Reporting

a. Grantee shall provide the Department with quarterly reports of Project activity, entering the required Project information directly into a database required by the Department.
b. Additionally, Grantee shall certify on each Request for Payment form, attached hereto as **Exhibit B** and incorporated herein, that all information provided in the database is true and accurate, updates to the database have been maintained, and all Project activity complies with applicable law and the terms of this Agreement.
c. Grantee hereby acknowledges that failure to perform and/or certify updates to the database will jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of fourteen (14) days' advance written notice of any changes to the information the Grantee is required to report.
d. At the Department's discretion, all reports required hereunder may be directed to and facilitated through an electronic database.
e. Quarterly reports shall be due on the last day of the month, that is, 30 days prior to the end of the quarter following the execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter. Quarterly reports shall be in the form required by **Exhibit C**, attached hereto and incorporated herein by reference.

B. Requests for Additional Information/Project Inspection

a. During the term of this Agreement and the Record Retention Period, the Department may:
    i. Request additional information regarding the Project as it deems necessary and
    ii. Conduct on-site inspections of the Project at reasonable times and upon reasonable notice.
b. Grantee shall respond to such requests for additional information within the time established by the Department.

IX. REQUEST FOR PAYMENT PROCEDURES

A. Grantee shall request payment by submitting the form attached hereto as **Exhibit B**
B. Payment requests are subject to the following procedures:

a. Each Request for Payment must be in accordance with the Project Budget and contain proof of payment by the Grantee or liabilities incurred by the Grantee.
    i. Proof of payment must demonstrate the validity of an expenditure or liabilities incurred by Grantee.
    ii. However, Grantee may be reimbursed for unpaid liabilities only if the Department, in its sole and absolute discretion, agrees to do so

and in accordance with any special conditions imposed by the Department.

b. Obligated but unpaid invoices received by Grantee from third-party contractors or vendors may be reimbursed if the invoices comply with the provisions of this Agreement.
    i. The Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or in a shorter period than the Department may prescribe in writing.
    ii. The Department reserves the right to make such payments directly to the contractors or vendors as a special condition under this Agreement.
    iii. The Grantee is required to certify to the Department proof of payment to the third-party contractor or vendor within five (5) business days from the date the Department reimburses the Grantee.

B. Until the Project is fully planned, designed, and all necessary procurements identified in the Project Budget are completed, Grantee's reimbursements will be limited to the planning, design, and procurement costs outlined in the Project Budget. Once the planning, designing, and procuring stages are complete, the Grantee must obligate at least ten percent (10%) of the Adjusted Appropriation Amount within one (1) year and must have utilized at least eighty-five percent (85%) of the Adjusted Appropriation Amount six (6) months before the reversion date.

C. Deadlines. Grantee shall submit requests for Payments to the Department on the earlier of:

a. Immediately as Grantee receives them, but at a maximum of thirty (30) days from when Grantee incurred the expenditure or liability; or
b. Twenty (20) days from the date of Early Termination or Reversion Date for expenditures or liabilities incurred before the Early Termination date or Reversion Date.

D. Grantee's failure to abide by the requirements set forth in Article II and Article IX herein may result in the denial of its Request for Payment. Department reserves the right to reject a payment request for the Project unless and until it is satisfied that the expenditures or liabilities are for permissible purposes within the meaning of the Project Description, identified within the Project Budget, and that the Grantee is otherwise in compliance with this Agreement.

a. Department's authority to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department under this Agreement, at law, or in equity.

X. PROJECT CONDITIONS AND RESTRICTIONS

A. The following general conditions and restrictions shall apply to the Project:

a. The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the State Procurement Code.
b. The Project's expenditures and liabilities must be accounted for in accordance with the State's Model Accounting Practices, as amended from time to time.
c. The Project must be implemented in accordance with the New Mexico Public Works Minimum Wage Act, Section 13-4-10 through 13-4-17 NMSA 1978, as applicable.
d. The Project must provide a public benefit above and beyond any incidental benefit to private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico.
e. Without prior written approval from the Department and State Board of Finance, for the useful life of any asset purchased under this Agreement, Grantee shall not convert any property acquired, built, renovated, repaired, designed, or developed with Project funds to uses other than those specified in the Project Description.
    i. In addition to other remedies available at law or in equity, any disposal or conversion of property acquired, built, renovated, repaired, designed, or developed with Project funds without the Department's and the Board of Finance's express written approval will trigger the Département's right to reimbursement from Grantee of the Appropriated Amount, transfer proceeds from any disposition of property to the State, or otherwise provide consideration to the State for the Appropriated Amounts.
f. Grantee shall comply with all applicable federal and state laws, rules, and regulations pertaining to civil rights and equal employment opportunity.
    i. In accordance with all such laws, rules, and regulations, the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age, or handicap, be excluded from participation in the Project, use of the Project, employment with Grantee, or otherwise be denied benefits/subject to discrimination for any activity performed under this Agreement.
g. Where the Department, in its sole and absolute discretion, determines Grantee has failed to comply with the above conditions and restriction, Grantee agrees to take appropriate steps to correct any deficiencies immediately. The Grantee's failure to implement such appropriate steps within a reasonable time, but no longer than thirty (30) days after notice from the Department, constitutes a breach of this Agreement and grounds for Early Termination.

XI. REPRESENTATIONS AND WARRANTIES

A. Reliance by Department.

a. Grantee expressly acknowledges that the Department relies on the representations and warranties made by Grantee in this Agreement. Grantee acknowledges that such representations and warranties are a material inducement for the Department to enter into this Agreement and provide the Appropriated Amount.
b. Grantee shall ensure all representations and warranties provided herein are true, accurate, and complete as of the date of the Effective Date and shall remain so throughout the Term of this Agreement. Grantee is responsible for promptly notifying the Department in writing of any changes or inaccuracies in the representations and warranties contained herein.

B. Grantee hereby represents and warrants the following:

a. Grantee has taken all necessary steps to attain the legal authority to receive and expend the Project's funds.
b. Grantee has duly authorized this Agreement, and the person executing it has authority to do so. Once executed by Grantee, this Agreement shall constitute a binding obligation of Grantee, enforceable according to its terms.
c. Grantee's obligations hereunder do not conflict with any law, ordinance, or resolution applicable to Grantee, Grantee's charter (if applicable), or any judgment or decree to which Grantee is subject.
d. Grantee has independently confirmed that the Project Description, including, but not limited to, the Appropriated Amount and Reversion Date, is consistent with the underlying appropriation in law.
e. Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign and submit Requests for Payment on behalf of Grantee.
f. Grantee will abide by New Mexico laws regarding conflicts of interest, governmental conduct, and whistleblower protection.
    i. Grantee agrees explicitly none of its officers or employees or its designees or agents, no member of the governing body, and no other public official of Grantee who exercises any function or responsibility with respect to this Agreement, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for the Project.
    ii. Further, Grantee will require all of its contractors to incorporate the language set forth in this paragraph prohibiting conflicts of interest in all subcontracts.
g. No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of the State, any agency, or body in connection with the awarding of any Third Party Obligation.
    i. Grantee will require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans,

and cooperative agreements.

C. Consequences of False or Misleading Representations. If any representation or warranty made by Grantee is found to be false or misleading, the Department shall have the right to exercise any or all of the following remedies:

a. **Termination of Agreement:** Department may terminate this Agreement immediately upon written notice to the Grantee.
b. **Repayment of Grant Funds:** Grantee shall repay all Appropriated Amounts disbursed under this Agreement, upon demand by the Department.
c. **Other Remedies:** Department may pursue any other remedies available at law or in equity.

D. Survival of Representations and Warranties. The representations and warranties made by the Grantee shall survive the Early Termination or expiration of this Agreement.

XII. PROJECT RECORDS

A. Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles and the State's Model Accounting Practices and, if feasible, maintain a separate bank account or fund with a separate organizational code to ensure separate budgeting and accounting of the funds.

B. For six (6) years following the Project's completion ("**Record Retention Period**"), Grantee shall maintain all Project-related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the Appropriated Amount from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department may prescribe.

C. Grantee shall make all Project records available to the Department, the Department's Independent Public Accountant, and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor or the Department finds any funds were improperly expended, Grantee shall be required to reimburse the State all amounts found to be improperly expended.

XIII. ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, after ten (10) days' notice to Grantee and the opportunity to return such funds to the Department, the

Department may offset any funds due to Grantee from the State, until the Appropriation Amount is fully repaid.

XIV. ARTICLE XIII. LIABILITY

Neither Party shall be responsible for liability incurred as a result of the other Party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

XV. ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Parties concerning the subject matter hereof. The Agreement supersedes all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

XVI. REQUIRED NON-APPROPRIATIONS CLAUSE

A. Grantee acknowledges and agrees to include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

   a. "The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of the State of New Mexico ("**Legislature**") for the performance of this Agreement.
   b. If the Legislature does not make sufficient appropriations and authorization, City of Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination.
   c. City of Santa Fe's decision as to whether sufficient appropriations are available shall be final and accepted by the Contractor. Contractor hereby waives any rights to assert an impairment of contract claim against the City of Santa Fe or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the City of Santa Fe or the State Department of Finance and Administration."

XVII. REQUIRED TERMINATION CLAUSE

A. Grantee acknowledges and agrees to include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

   a. "This contract is funded in whole or in part by funds made available by the State of New Mexico ("**State**"). Should the State terminate its Agreement with City of

Santa Fe, City of Santa Fe may terminate this contract immediately by providing Contractor written notice of such termination.

b. In the event of termination pursuant to this paragraph, City of Santa Fe only liability to Contractor shall be for goods and services delivered and accepted prior to the termination date."

XVIII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA

A. Throughout the term of this Agreement, Grantee shall:

a. Submit all reports of annual audits and agreed-upon procedures required by § 12-6-3(A)-(B), NMSA 1978 by the due dates established in § 2.2.2 NMAC, reports of which must be a public record pursuant to § 12-6-5(A), NMSA 1978 within forty-five (45) days of delivery to the State Auditor;

b. Have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);

c. Timely submit all required financial reports to its budgetary oversight agency (if any); and

d. Use accounting methods and procedures consistent with Generally Accepted Accounting Principles and the State's Model Accounting Principals to expend the Appropriated Amount in accordance with applicable law and account for and safeguard Project funds and assets acquired with Project funds.

B. In the event Grantee fails to comply with the requirements of subparagraph A of this Article XVIII, Department may take one or more of the following actions:

a. Suspend new or further obligations pursuant to Article VI(A) of this Agreement;

b. Require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;

c. Impose special conditions to address the non-compliance by giving Grantee notice of such special conditions in accordance with Article III of this Agreement;

i. The Parties agree that any special conditions imposed to address non-compliance shall be incorporated into this Agreement, through **Exhibit D**, upon notice to Grantee, without need for formal amendment of this Agreement;

ii. Special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III or

d. Terminate this Agreement pursuant to Article V(A) of this Agreement.

XIX. SEVERANCE TAX AND GENERAL OBLIGATION BONDS

A. Grantee acknowledges and agrees that the underlying appropriation for the Project may originate from the issuance of tax-exempt severance tax bonds or general obligation bonds by the State. Proceeds from such bonds are administered by the New Mexico State Board of Finance ("**SBOF**"), an entity separate and distinct from the Department.

a. Grantee acknowledges and agrees:
   i. It is Grantee's responsibility to determine through SBOF what (if any) conditions are currently imposed on the Project;
   ii. Department's failure to inform Grantee of an SBOF-imposed condition does not affect the validity or enforceability of the condition;
   iii. The SBOF may in the future impose further or different conditions upon the Project;
   iv. All SBOF conditions are attached to the Project and Appropriation Amount without the need for formal amendment of this Agreement;
   v. All applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s) and
   vi. The Department's obligation to reimburse Grantee from the Project is expressly contingent upon the satisfaction of the then-current SBOF conditions.

B. Grantee acknowledges and agrees SBOF may, at its sole and absolute discretion, require reimbursement or remove eligibility for bond proceeds for the Project if the Project doesn't proceed sufficiently.

   a. Grantee must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by Grantee in the Bond Questionnaire and Certification documents submitted to the SBOF.
   b. Failure to comply may result in the reassignment of the bond proceeds. Upon reassignment of bond proceeds, this Agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, § 2.61.6, NMAC, as may be amended from time to time or re-codified.

XX. GENERAL PROVISIONS

A. Assignment: Grantee's rights and obligations under this Agreement are personal and may not be transferred or assigned without the prior written consent of the State. Any attempt at assignment or transfer without such consent shall be void. Any assignment or transfer of Grantee's rights and obligations approved by the State shall be subject to the provisions of this Agreement.

B. Subcontractors: Grantee shall not enter any subgrant or subcontract in connection with its obligations under this Agreement without the prior written approval of the State. Upon request, Grantee shall submit to the Department a copy of each such subgrant or subcontract.

C. Binding Effect: Except as otherwise provided, all provisions of this Agreement, including the benefits and burdens, shall extend to and be binding upon the Parties' respective successors and assigns.

D. Authority: Each Party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such Party's obligations have been duly authorized.

E. Captions and References: The captions and headings in this Agreement are for the convenience of reference only and shall not be used to interpret, define, or limit its provisions. All references in this Agreement to sections (whether spelled out or using the § symbol), subsections, exhibits, or other attachments are references to sections, subsections, exhibits, or other attachments contained herein or incorporated as a part hereof, unless otherwise noted.

F. Counterparts: This Agreement may be executed in multiple, identical, original counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute the same agreement.

G. Digital Signatures: If any signatory signs this agreement using a digital signature in accordance with the State Policies regarding the use of digital signatures, then any agreement or consent to use digital signatures within the electronic system through which that signatory signed shall be incorporated into this Agreement by reference.

H. Modification: Except as otherwise provided in this Agreement, any modification to this Agreement shall only be effective if agreed to in a formal amendment, properly executed and approved in accordance with applicable New Mexico law and State fiscal policies and rules. Modifications permitted under this Agreement, other than Agreement amendments, shall conform to the policies issued by the State.

I. Statutes, Regulations, Fiscal Rules, and Other Authority: Any reference in this Agreement to a statute, regulation, policy, or other authority shall be interpreted to refer to such authority then current, as may have been changed or amended after the Effective Date of this Agreement.

J. External Terms and Conditions: Notwithstanding anything to the contrary herein, the State shall not be subject to any provision included in any terms, conditions, or agreements appearing on Grantee's or a subcontractor's website or any provision incorporated into any click-through or online agreements related to the Work unless that provision is specifically referenced in this Agreement.

K. Severability: The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect, provided that the Parties can continue to perform their obligations under this Agreement in accordance with its intent.

L. Survival of Certain Agreement Terms: Any provision of this Agreement that imposes an obligation on a Party after the termination or expiration of this Agreement shall survive the termination or expiration of this Agreement and shall be enforceable by the other Party.

M. Third Party Beneficiaries: Except for the Parties' respective successors and assigns described in this Agreement, it does not and is not intended to confer any rights or remedies upon any person or entity other than the Parties. Enforcement of this Agreement and all rights and obligations hereunder are reserved solely to

the Parties. Any services or benefits that third parties receive as a result of this Agreement are incidental to this Agreement and do not create any rights for such third parties.

N. Waiver: A Party's failure or delay in exercising any right, power, or privilege under this Agreement, whether explicit or by lack of enforcement, shall not operate as a waiver, nor shall any single or partial exercise of any right, power, or privilege preclude any other or further exercise of such right, power, or privilege.

O. Standard and Manner of Performance: Grantee shall perform its obligations under this Agreement in accordance with the highest standards of care, skill, and diligence in Grantee's industry, trade, or profession.

P. Licenses, Permits, and Other Authorizations: Grantee shall secure, prior to the Effective Date, and maintain at all times during the term of this Agreement, at its sole expense, all licenses, certifications, permits, and other authorizations required to perform its obligations under this Agreement and shall ensure that all employees, agents, and subcontractors secure and maintain at all times during the term of their employment, agency or subcontractor, all license, certifications, permits and other authorizations required to perform their obligations in relation to this Agreement.

Q. Publicity: Any Publicity regarding the subject matter of this Agreement may not be released without prior written approval from the Department. For purposes of this agreement, "**Publicity**" means notices, informational pamphlets, press releases, email responses, research, reports, signs, and similar public notices prepared by or for the Grantee or jointly with others.

a. Grantee shall obtain written approval prior to issuing any press release or making any public announcement regarding this agreement. Grantee agrees to obtain approval of the Department in advance with respect to all Public Relations, all communications with media, or all communications with any other member of the public with respect to this agreement, except to acknowledge that an agreement does exist.

b. For purposes of this agreement, "Public Relations" includes community relations and means those activities dedicated to maintaining the Department's image or maintaining or promoting understanding and favorable relations with the community or public at large or any segment of the public.

c. Violations of either Article XX (Q)(a) or (b) shall constitute a material Breach of Agreement.

R. Data Sharing: The State intends to secure and collate specific data generated by Grantee under this Agreement to use in support of the State's organizational, policy-making, and management of public resource functions. State, in accordance with **Exhibit E**, attached hereto and incorporated herein by reference, reserves the right to require Grantee and/or its subcontractors to provide specific data relevant to the above-listed functions. Data provided by Grantee may be

incorporated into existing or future developed State integrated analysis tools or databases, including but not limited to geographic information system (GIS) networks and databases accessible by the public. Dissemination of data collected may include historical data and projections based on such historical data.

a. To the extent any data transferred as part of this Agreement is legally determined to be the property of Subrecipient or its subcontractors, Subrecipient and/or its subcontractors grants State a nonexclusive, fully paid-up right and license to reproduce, use, distribute, do derivative works based on, and archive data transferred as part of this Agreement.

S. Venue and Choice of Law: This Agreement shall be governed by and construed in accordance with the laws of the State of New Mexico, without regard to any conflict of law provisions. Any legal suit, action, or proceeding arising out of or related to this Agreement shall be instituted exclusively in the district courts located in Santa Fe, New Mexico. The Parties hereby irrevocably submit to the exclusive jurisdiction and venue of such courts in any such suit, action, or proceeding. The Parties waive any objection to the laying of the venue of any such suit, action, or proceeding in the district courts of Santa Fe, New Mexico, and irrevocably waive and agree not to plead or claim in any such court that any such suit, action, or proceeding brought in any such court has been brought in an inconvenient forum.

1 Administrative and/or Indirect Cost – generally, the legislation authorizing the issuance of bonds prohibits the use of its proceeds for indirect expenses (e.g. penalty fees or damages other than pay for work performed, attorney fees, and administrative fees). Such use of bond proceeds shall not be allowed unless specifically authorized by statute.

Revised 7/2025

[THIS SPACE LEFT BLANK INTENTIONALLY]

OPTIONAL EXHIBIT C
SPECIAL CONDITIONS

The capital outlay oversight requires grantees' accounting methods and procedures, including their internal control framework, to be scrutinized, so as to safeguard State capital outlay appropriations and assets acquired with such appropriations.

This Capital Outlay Special Grant Condition(s) **Exhibit C** is necessary pursuant to § 6-3b-1 et seq., NMSA 1978 (Public Finance Accountability Act) and MAPS Fin 9.2, due to the Grantees' material weaknesses, significant deficiencies, or findings that raised concerns as to the ability to expend grant funds in accordance with applicable law in the organization's FY[20XX] audit. The Special Conditions identified below apply to the authorized agent, [insert the Grantee or Fiscal Agent name].

Procurement - All purchases or contracts the Grantee enters that shall use funding from the Department capital appropriations grant must be approved by the Department prior to the initiation of implementing purchasing documents. The Grantee shall receive such prior approval via official correspondence from the Department, which may be through letter or email. The Grantee shall submit the following to the Department in pursuit of prior approval: purchasing policies and procedures, CFO certification, documentation of management and program approval, policies and procedures governing purchasing and contracting, a copy of the current procurement and contracting policies, and documentation regarding informing staff responsible for purchasing and contracting on such policies and procedures.

Budget - Provide documentation of approval of your current budget from DFA Local Government or other authoritative agency. Provide policies and procedures on who is responsible for and how annual budgets (expenditures and revenue) are established, monitored and adjusted. Provide a corrective action plan on how budget issues identified in your audit will be/have been addressed. Also include documentation on how staff responsible for budgeting is informed on budget policies and procedures.

Capital Assets - Provide a complete list of inventory including inventory control numbers and current location. Provide policies and procedures on capital assets and inventory and specify how the proposed purchased items will be included, tagged, and tracked in capital asset inventory. Also include documentation on how staff responsible for capital assets is informed on capital asset policies and procedures.

Travel and Per Diem - Provide policies and procedures on travel and per diem. Also include how staff who travel and those responsible for travel reimbursement are informed on travel and per diem policies and procedures.

Timely Audits – Provide policies and procedures on annual audits. Provide documentation on how and who is responsible for insuring that annual audits are completed timely. Also include documentation on how staff responsible for the annual audit is informed on audit policies and procedures.

Cash Management – policies and procedures on cash management of federal funds. Provide procedures used to draw and disburse federal funds. Provide procedures to reconcile draw amounts, deposits and disbursements; and to prepare federal cash reporting documents to ensure compliance with federal regulations.

The <Grantee> was required to, and has provided sufficient documentation regarding [insert specific names of the Special Condition(s)], as referenced in the <Grantee>'s [20XX] Audit file. Therefore, the criteria to enter into this agreement have been met.

Exhibit E

Data Sharing Provisions for New Mexico Capital Outlay Agreements

I. Introduction:

This Data Sharing Provisions Exhibit ("Exhibit") is incorporated into the New Mexico Capital Outlay Agreements ("Agreements") between the State of New Mexico ("State") and [Insert Partner Name] ("Partner"). This Exhibit outlines the terms and conditions under which data will be shared between the Parties to ensure compliance with New Mexico state laws and regulations, focusing on data privacy, security, and compliance.

II. Definitions:

a. Authorized User: An employee, agent, assign, representative, independent contractor, or other person or entity authorized by Partner or State to access, use, or disclose information through this exhibit.

b. Confidential Information: All data or information shared in confidence, with the expectation that it will not be disclosed in an identifiable form. This includes data that is exempt from public disclosure under the New Mexico Inspection of Public Records Act (§ 14-2-1 et seq. NMSA 1978) or other relevant laws.

c. Data Storage: Electronic media that hold recorded information.

d. Data Transmission: The process of moving information over a network from its source to one or more destinations.

e. Direct Identifier: Records or data containing personal identifiers such as names, addresses, and social security numbers.

f. Disclosure: Permission to access, release, transfer, or otherwise communicate confidential information by any means to any third party, except as authorized by the Party that controls the record.

g. Encryption involves using algorithms to encode data, rendering it unreadable without a specific key. It may be necessary during data transmission and/or storage.

h. Information: Any data, figures, statistics, or other facts provided or learned about someone or something, including Confidential Information, that may be legally transmitted under this Exhibit.

i. Limited Dataset: A data file that omits Direct Identifiers.

j. Protected Personally Identifiable Information: Sensitive personal details such as social security numbers and financial account numbers, with specific exclusions as outlined in the Agreements.

III. Purpose:

The purpose of this exhibit is to promote transparency, facilitate information sharing between the parties, support better policy and decision-making, and enhance public services through collaborative

data analysis from various sources.

IV. Use of Information:

a. Use of Information obtained or created under this exhibit shall be strictly limited to the purposes stated herein and in the agreements. The parties agree not to sell Information to third parties or use it for commercial, solicitation, or political purposes.

b. Each Party shall serve as the custodian of the Information and comply with all conditions for its use, including security measures to prevent unauthorized access.

c. The Parties shall follow all relevant federal and state laws and regulations governing the use of such Information.

V. Safeguarding Information:

a. Confidentiality: Access to Confidential Information shall be limited to the minimum necessary to accomplish the purposes of this Exhibit. Authorized Users must adhere to the confidentiality requirements.

b. Security: Security practices shall comply with the requirements of the New Mexico Department of Information Technology Act and related regulations. The Parties agree to notify each other within three business days of any suspected or actual security breach.

c. Information Storage and Transmission: Data Storage and Transmission shall take place on an encrypted server with appropriate security controls.

VI. Re-Disclosure of Information:

The Parties agree not to disclose Information except as required by law or with prior written approval of the other Party. If there is a public records request, the Party receiving it shall notify the other Party within three business days.

VII. Ownership of Information:

Legal title to Information shall remain with the provider. The Partner grants the State a royalty-free, non-exclusive, non-transferable license to use the Information in furtherance of the purposes outlined in this Exhibit.

NEW MEXICO CAPITAL OUTLAY GRANT AGREEMENT
CAPITAL APPROPRIATION PROJECT

THIS AGREEMENT is made and entered into by and between the State of New Mexico, Department of Finance & Administration, 407 Galisteo Street, Santa Fe, NM 87501, ("**Department**") and the City of Santa Fe, ("**Grantee**") (individually "**Party**" and collectively "**Parties**"). This Agreement shall be effective as of the date the Department executes it ("**Effective Date**").

WITNESSETH

WHEREAS, in the Laws of 2025, Chapter 159, Section 54, the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of funds from this appropriation, in accordance with the terms and conditions of this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

AGREEMENT

I. PROJECT DESCRIPTION, GRANT AMOUNT, AND REVERSION

25-J5960 ("**Project**") 4/11/2027 ("**Reversion Date**"). Laws of 2025, Chapter 159, Section 54, Nine Hundred Ninety Seven Thousand Eight Hundred Fifty Dollars and Zero Cents, $997,850.00, For project completion to make improvements to the Nichols Dam safety rehabilitation project in Santa Fe in Santa Fe County..

Grantee's total reimbursements shall not exceed $997,850.00 Nine Hundred Ninety Seven Thousand Eight Hundred Fifty Dollars and Zero Cents, ("**Appropriation Amount**") minus the allocation for Art in Public Places ("**AIPP amount**"), if applicable, $0.00 Zero Dollars, which equals $997,850.00 Nine Hundred Ninety Seven Thousand Eight Hundred Fifty Dollars and Zero Cents ("**Adjusted Appropriation Amount**").

In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I, the language of the laws cited herein shall control.

The information contained in Article I is referred to collectively as the "**Project Description**."

II. DISBURSEMENT LIMITATION

A. Upon the Effective Date, the Grantee shall submit to the Department a comprehensive procurement plan and expenditure plan, detailing a Project timeline with milestones, required procurements, and identifying expected expenditures per milestone (collectively, "**Project Budget**"). The Department shall

review and approve the Project Budget by issuing a Notice of Department's Obligation ("**Notice of Obligation**"), in accordance with the Project Description, a sample of which is attached hereto as **Exhibit A** and incorporated herein by reference. After receipt of a Notice of Obligation, the Grantee may be reimbursed for allowable costs up to the Adjusted Appropriation Amount. This Agreement and any reimbursements up to the Adjusted Appropriation Amount are expressly conditioned upon the following:

a. Irrespective of any Notice of Obligation, Grantee's expenditures shall be made in accordance with the Project Budget, on or before the Reversion Date and/or, if applicable, any Early Termination Date; and

b. The total amount received by Grantee shall not exceed the lesser of:

i. the Adjusted Appropriation Amount identified in Article I (B) herein; or

ii. the total of all amounts stated in the Notice(s) of Obligation evidencing the Department has received and accepted Grantee's Third Party Obligation(s); and

c. Grantee's expenditures are made and accounted for pursuant to the State Procurement Code, State's Model Accounting Practices, and execution of binding written obligations or purchase orders with third-party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project ("**Third Party Obligations**"); and

d. Grantee's submittal of timely Requests for Payment and supporting documentation in accordance with the procedures set forth in this Agreement; and

e. In the event capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private entity, the sale, lease, license, or operating agreement:

i. must be approved by the applicable oversight entity (if any) in accordance with §§ 13-6-2, 13-6-2.1, and 13-6-3; or

ii. If no oversight entity is required to approve the transaction, the Department of Finance and Administration's Infrastructure Planning Development Division (IPDD) must approve it as complying with the law.

B. Prior to the sale, lease, license, or operating agreement being approved pursuant to Articles II(A)(e) (i) or (ii) herein, the Department may, in its sole and absolute discretion, unless inconsistent with State Board of Finance imposed conditions, reimburse Grantee for necessary expenditures incurred to develop the Project sufficiently to make the sale,

lease, license, or operating agreement commercially feasible, limited to planning and design expenditures; and

C. Grantee's submission of documentation of all Third Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement shall be governed by the following:

a. Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third Party Obligation, and request the Third Party to begin work after issuance of a Notice of Obligation by the Department.

b. Grantee acknowledges and agrees that any Third Party Obligations agreed to prior to receiving a Notice of Obligation are its sole responsibility.

c. Grantee shall submit to the Department one copy of all Third Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party but prior to execution by the Grantee.

d. Department may, in its sole and absolute discretion, issue a Notice of Obligation for the particular amount of a Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is incorporated herein and attached hereto as Exhibit 2.

D. Grantee shall provide all necessary qualified personnel, materials, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

E. Prior to entering into this Agreement, the Department conducted a risk assessment on the Grantee and a project readiness review for the Project. In accordance with State Model Accounting Practices, FIN 9.2, if the Department determines that the expenditure of Project funds by the Grantee requires special conditions, those conditions are identified and listed in **Exhibit D**, which is attached and incorporated by reference. The Parties agree that, to the extent the Department, in its sole and absolute discretion, determines additional special conditions are necessary or that existing special conditions are no longer required, it may update **Exhibit D** from time to time without the need for a formal amendment of this Agreement.

F. Project funds shall not be used for purposes other than those authorized by the Department in accordance with the Project Description.

G. Project funds cannot be used to reimburse the Grantee for indirect Project costs unless specifically allowed by law.

III. NOTICES

The following provisions shall apply whenever written notices, including written decisions, are to be given or received related to this Agreement.

The Grantee designates the person(s) listed below, or their successor, as their official representative(s) concerning all matters related to this Agreement:

Grantee: City of Santa Fe
Name: David Chapman
Title: Grant Administrator
Address: PO Box 909, Santa Fe NM, 87504
Email: dachapman@santafenm.gov
Telephone: 505-955-6251

The Grantee designates the person(s) listed below, or their successor, as their Fiscal Officer or Fiscal Agent concerning all matters related to this Agreement:

Grantee: City of Santa Fe
Name: Erika Lujan
Title: Grant Manager
Address: PO Box 909, Santa Fe NM, 87504
Email: evlujan@santafenm.gov
Telephone: 505-479-1334

The Department designates the persons listed below, or their successors, as the Points of Contact for matters related to this Agreement.

Department: DFA/Local Government Division
Name: Daniel Catanach
Title: Grant Manager
Address: Bataan Memorial Bldg. Rm 202, Santa Fe NM 87501
Email: DanielN.Catanach@dfa.nm.gov
Telephone: 505-231-6090

IV. TERM & DEADLINE TO EXPEND FUNDS

A. The term of this Agreement shall begin on the Effective Date and terminate on the 11th day of April during the calendar year of the Reversion Date unless Terminated Before Reversion Date ("**Early Termination**") pursuant to Article V herein (collectively "**Term**").

B. The Project's funds must be expended on or before the Reversion Date and, if applicable, the Early Termination Date of this Agreement.

   a. For purposes of this Agreement, it is not sufficient for the Grantee to encumber the Project funds on its books on or before the Reversion Date or Early Termination Date.
   b. For purposes of this Agreement, an expenditure of funds has occurred on the date the particular quantity of goods is delivered to and received by the Grantee,

title to the goods is transferred to the Grantee, and/or as of the date particular services are rendered to and accepted by the Grantee.

c. For purposes of this Agreement, an encumbrance of funds pursuant to a contract or purchase order with a third party does not qualify as an expenditure.

V. EARLY TERMINATION

A. General Provision. The Department may terminate this Agreement before the Reversion Date based on the Completion of the Project, Complete Expenditure of the Adjusted Appropriation, and/or Violation of this Agreement. Early Termination hereunder includes:

a. Termination due to completion of the Project before the Reversion Date;
b. Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date;
c. Termination for violation of the terms of this Agreement; or
d. Termination for suspected mishandling of public funds, including but not limited to fraud, waste, abuse, and conflicts of interest.

B. Non-appropriation. This Agreement is expressly contingent upon the New Mexico State Legislature making sufficient appropriations and authorizations for the Project Description.

a. If the Legislature does not appropriate the Appropriation Amount, this Agreement shall terminate upon the Department giving the Grantee written notice of such termination. Such termination shall be effective as of the effective date of the law making the non-appropriation.
    i. The Department's decision as to whether sufficient appropriations or authorizations are available shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement.
b. As used herein, "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature:
    i. Deauthorization, reauthorization, or revocation of a prior authorization.

C. Grant Disbursements in the Event of Early Termination. In the event of Early Termination, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II above.

D. Notice. Either Party may terminate this Agreement prior to the Reversion Date by providing the other Party with a minimum of fifteen (15) days advance written notice of the Early Termination. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement by the Department.

VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. Department, in its sole and absolute discretion, may provide written notice to Grantee to suspend entering into further obligations. Upon the receipt of such written notice by the Grantee:

a. Grantee shall immediately suspend entering into new or further written obligations with third parties;
b. Department will suspend the issuance of any new or further Notice of Obligation under this Agreement; and
c. Department may direct the Grantee to implement a corrective action plan in accordance with Article VI (D) herein.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for a Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension. Where the Department, in its sole and absolute discretion, directs Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension.

a. Such a corrective action plan must be approved by the Department and be signed by the Grantee.
b. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(c).
c. A corrective action plan shall be in addition to, and not in lieu of, any other equitable or legal remedy authorized hereunder or at law, including but not limited to Early Termination.

VII. AMENDMENTS

Unless expressly stated otherwise herein, this Agreement shall not be altered, changed, or amended except by an instrument in writing duly executed by both parties hereto with the same formalities as this agreement.

VIII. REPORTING

A. Database Reporting

a. Grantee shall provide the Department with quarterly reports of Project activity, entering the required Project information directly into a database required by the Department.
b. Additionally, Grantee shall certify on each Request for Payment form, attached hereto as **Exhibit B** and incorporated herein, that all information provided in the database is true and accurate, updates to the database have been maintained, and all Project activity complies with applicable law and the terms of this Agreement.
c. Grantee hereby acknowledges that failure to perform and/or certify updates to the database will jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of fourteen (14) days' advance written notice of any changes to the information the Grantee is required to report.
d. At the Department's discretion, all reports required hereunder may be directed to and facilitated through an electronic database.
e. Quarterly reports shall be due on the last day of the month, that is, 30 days prior to the end of the quarter following the execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter. Quarterly reports shall be in the form required by **Exhibit C**, attached hereto and incorporated herein by reference.

B. Requests for Additional Information/Project Inspection

a. During the term of this Agreement and the Record Retention Period, the Department may:
    i. Request additional information regarding the Project as it deems necessary and
    ii. Conduct on-site inspections of the Project at reasonable times and upon reasonable notice.
b. Grantee shall respond to such requests for additional information within the time established by the Department.

IX. REQUEST FOR PAYMENT PROCEDURES

A. Grantee shall request payment by submitting the form attached hereto as **Exhibit B**
B. Payment requests are subject to the following procedures:

a. Each Request for Payment must be in accordance with the Project Budget and contain proof of payment by the Grantee or liabilities incurred by the Grantee.
    i. Proof of payment must demonstrate the validity of an expenditure or liabilities incurred by Grantee.

ii. However, Grantee may be reimbursed for unpaid liabilities only if the Department, in its sole and absolute discretion, agrees to do so

and in accordance with any special conditions imposed by the Department.

b. Obligated but unpaid invoices received by Grantee from third-party contractors or vendors may be reimbursed if the invoices comply with the provisions of this Agreement.

i. The Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or in a shorter period than the Department may prescribe in writing.

ii. The Department reserves the right to make such payments directly to the contractors or vendors as a special condition under this Agreement.

iii. The Grantee is required to certify to the Department proof of payment to the third-party contractor or vendor within five (5) business days from the date the Department reimburses the Grantee.

B. Until the Project is fully planned, designed, and all necessary procurements identified in the Project Budget are completed, Grantee's reimbursements will be limited to the planning, design, and procurement costs outlined in the Project Budget. Once the planning, designing, and procuring stages are complete, the Grantee must obligate at least ten percent (10%) of the Adjusted Appropriation Amount within one (1) year and must have utilized at least eighty-five percent (85%) of the Adjusted Appropriation Amount six (6) months before the reversion date.

C. Deadlines. Grantee shall submit requests for Payments to the Department on the earlier of:

a. Immediately as Grantee receives them, but at a maximum of thirty (30) days from when Grantee incurred the expenditure or liability; or

b. Twenty (20) days from the date of Early Termination or Reversion Date for expenditures or liabilities incurred before the Early Termination date or Reversion Date.

D. Grantee's failure to abide by the requirements set forth in Article II and Article IX herein may result in the denial of its Request for Payment. Department reserves the right to reject a payment request for the Project unless and until it is satisfied that the expenditures or liabilities are for permissible purposes within the meaning of the Project Description, identified within the Project Budget, and that the Grantee is otherwise in compliance with this Agreement.

a. Department's authority to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department under this Agreement, at law, or in equity.

X. PROJECT CONDITIONS AND RESTRICTIONS

A. The following general conditions and restrictions shall apply to the Project:

a. The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the State Procurement Code.
b. The Project's expenditures and liabilities must be accounted for in accordance with the State's Model Accounting Practices, as amended from time to time.
c. The Project must be implemented in accordance with the New Mexico Public Works Minimum Wage Act, Section 13-4-10 through 13-4-17 NMSA 1978, as applicable.
d. The Project must provide a public benefit above and beyond any incidental benefit to private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico.
e. Without prior written approval from the Department and State Board of Finance, for the useful life of any asset purchased under this Agreement, Grantee shall not convert any property acquired, built, renovated, repaired, designed, or developed with Project funds to uses other than those specified in the Project Description.
    i. In addition to other remedies available at law or in equity, any disposal or conversion of property acquired, built, renovated, repaired, designed, or developed with Project funds without the Department's and the Board of Finance's express written approval will trigger the Département's right to reimbursement from Grantee of the Appropriated Amount, transfer proceeds from any disposition of property to the State, or otherwise provide consideration to the State for the Appropriated Amounts.
f. Grantee shall comply with all applicable federal and state laws, rules, and regulations pertaining to civil rights and equal employment opportunity.
    i. In accordance with all such laws, rules, and regulations, the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age, or handicap, be excluded from participation in the Project, use of the Project, employment with Grantee, or otherwise be denied benefits/subject to discrimination for any activity performed under this Agreement.
g. Where the Department, in its sole and absolute discretion, determines Grantee has failed to comply with the above conditions and restriction, Grantee agrees to take appropriate steps to correct any deficiencies immediately. The Grantee's failure to implement such appropriate steps within a reasonable time, but no longer than thirty (30) days after notice from the Department, constitutes a breach of this Agreement and grounds for Early Termination.

XI. REPRESENTATIONS AND WARRANTIES

A. Reliance by Department.

a. Grantee expressly acknowledges that the Department relies on the representations and warranties made by Grantee in this Agreement. Grantee acknowledges that such representations and warranties are a material inducement for the Department to enter into this Agreement and provide the Appropriated Amount.
b. Grantee shall ensure all representations and warranties provided herein are true, accurate, and complete as of the date of the Effective Date and shall remain so throughout the Term of this Agreement. Grantee is responsible for promptly notifying the Department in writing of any changes or inaccuracies in the representations and warranties contained herein.

B. Grantee hereby represents and warrants the following:

a. Grantee has taken all necessary steps to attain the legal authority to receive and expend the Project's funds.
b. Grantee has duly authorized this Agreement, and the person executing it has authority to do so. Once executed by Grantee, this Agreement shall constitute a binding obligation of Grantee, enforceable according to its terms.
c. Grantee's obligations hereunder do not conflict with any law, ordinance, or resolution applicable to Grantee, Grantee's charter (if applicable), or any judgment or decree to which Grantee is subject.
d. Grantee has independently confirmed that the Project Description, including, but not limited to, the Appropriated Amount and Reversion Date, is consistent with the underlying appropriation in law.
e. Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign and submit Requests for Payment on behalf of Grantee.
f. Grantee will abide by New Mexico laws regarding conflicts of interest, governmental conduct, and whistleblower protection.
    i. Grantee agrees explicitly none of its officers or employees or its designees or agents, no member of the governing body, and no other public official of Grantee who exercises any function or responsibility with respect to this Agreement, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for the Project.
    ii. Further, Grantee will require all of its contractors to incorporate the language set forth in this paragraph prohibiting conflicts of interest in all subcontracts.
g. No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of the State, any agency, or body in connection with the awarding of any Third Party Obligation.
    i. Grantee will require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans,

and cooperative agreements.

C. Consequences of False or Misleading Representations. If any representation or warranty made by Grantee is found to be false or misleading, the Department shall have the right to exercise any or all of the following remedies:

a. **Termination of Agreement:** Department may terminate this Agreement immediately upon written notice to the Grantee.
b. **Repayment of Grant Funds:** Grantee shall repay all Appropriated Amounts disbursed under this Agreement, upon demand by the Department.
c. **Other Remedies:** Department may pursue any other remedies available at law or in equity.

D. Survival of Representations and Warranties. The representations and warranties made by the Grantee shall survive the Early Termination or expiration of this Agreement.

XII. PROJECT RECORDS

A. Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles and the State's Model Accounting Practices and, if feasible, maintain a separate bank account or fund with a separate organizational code to ensure separate budgeting and accounting of the funds.

B. For six (6) years following the Project's completion ("**Record Retention Period**"), Grantee shall maintain all Project-related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the Appropriated Amount from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department may prescribe.

C. Grantee shall make all Project records available to the Department, the Department's Independent Public Accountant, and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor or the Department finds any funds were improperly expended, Grantee shall be required to reimburse the State all amounts found to be improperly expended.

XIII. ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, after ten (10) days' notice to Grantee and the opportunity to return such funds to the Department, the

Department may offset any funds due to Grantee from the State, until the Appropriation Amount is fully repaid.

XIV. ARTICLE XIII. LIABILITY

Neither Party shall be responsible for liability incurred as a result of the other Party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

XV. ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Parties concerning the subject matter hereof. The Agreement supersedes all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

XVI. REQUIRED NON-APPROPRIATIONS CLAUSE

A. Grantee acknowledges and agrees to include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

   a. "The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of the State of New Mexico ("**Legislature**") for the performance of this Agreement.
   b. If the Legislature does not make sufficient appropriations and authorization, City of Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination.
   c. City of Santa Fe's decision as to whether sufficient appropriations are available shall be final and accepted by the Contractor. Contractor hereby waives any rights to assert an impairment of contract claim against the City of Santa Fe or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the City of Santa Fe or the State Department of Finance and Administration."

XVII. REQUIRED TERMINATION CLAUSE

A. Grantee acknowledges and agrees to include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

   a. "This contract is funded in whole or in part by funds made available by the State of New Mexico ("**State**"). Should the State terminate its Agreement with City of

Santa Fe, City of Santa Fe may terminate this contract immediately by providing Contractor written notice of such termination.

b. In the event of termination pursuant to this paragraph, City of Santa Fe only liability to Contractor shall be for goods and services delivered and accepted prior to the termination date."

XVIII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA

A. Throughout the term of this Agreement, Grantee shall:

a. Submit all reports of annual audits and agreed-upon procedures required by § 12-6-3(A)-(B), NMSA 1978 by the due dates established in § 2.2.2 NMAC, reports of which must be a public record pursuant to § 12-6-5(A), NMSA 1978 within forty-five (45) days of delivery to the State Auditor;

b. Have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);

c. Timely submit all required financial reports to its budgetary oversight agency (if any); and

d. Use accounting methods and procedures consistent with Generally Accepted Accounting Principles and the State's Model Accounting Principals to expend the Appropriated Amount in accordance with applicable law and account for and safeguard Project funds and assets acquired with Project funds.

B. In the event Grantee fails to comply with the requirements of subparagraph A of this Article XVIII, Department may take one or more of the following actions:

a. Suspend new or further obligations pursuant to Article VI(A) of this Agreement;

b. Require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;

c. Impose special conditions to address the non-compliance by giving Grantee notice of such special conditions in accordance with Article III of this Agreement;

i. The Parties agree that any special conditions imposed to address non-compliance shall be incorporated into this Agreement, through **Exhibit D**, upon notice to Grantee, without need for formal amendment of this Agreement;

ii. Special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III or

d. Terminate this Agreement pursuant to Article V(A) of this Agreement.

XIX. SEVERANCE TAX AND GENERAL OBLIGATION BONDS

A. Grantee acknowledges and agrees that the underlying appropriation for the Project may originate from the issuance of tax-exempt severance tax bonds or general obligation bonds by the State. Proceeds from such bonds are administered by the New Mexico State Board of Finance ("**SBOF**"), an entity separate and distinct from the Department.

a. Grantee acknowledges and agrees:
   i. It is Grantee's responsibility to determine through SBOF what (if any) conditions are currently imposed on the Project;
   ii. Department's failure to inform Grantee of an SBOF-imposed condition does not affect the validity or enforceability of the condition;
   iii. The SBOF may in the future impose further or different conditions upon the Project;
   iv. All SBOF conditions are attached to the Project and Appropriation Amount without the need for formal amendment of this Agreement;
   v. All applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s) and
   vi. The Department's obligation to reimburse Grantee from the Project is expressly contingent upon the satisfaction of the then-current SBOF conditions.

B. Grantee acknowledges and agrees SBOF may, at its sole and absolute discretion, require reimbursement or remove eligibility for bond proceeds for the Project if the Project doesn't proceed sufficiently.

   a. Grantee must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by Grantee in the Bond Questionnaire and Certification documents submitted to the SBOF.
   b. Failure to comply may result in the reassignment of the bond proceeds. Upon reassignment of bond proceeds, this Agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, § 2.61.6, NMAC, as may be amended from time to time or re-codified.

XX. GENERAL PROVISIONS

A. Assignment: Grantee's rights and obligations under this Agreement are personal and may not be transferred or assigned without the prior written consent of the State. Any attempt at assignment or transfer without such consent shall be void. Any assignment or transfer of Grantee's rights and obligations approved by the State shall be subject to the provisions of this Agreement.

B. Subcontractors: Grantee shall not enter any subgrant or subcontract in connection with its obligations under this Agreement without the prior written approval of the State. Upon request, Grantee shall submit to the Department a copy of each such subgrant or subcontract.

C. Binding Effect: Except as otherwise provided, all provisions of this Agreement, including the benefits and burdens, shall extend to and be binding upon the Parties' respective successors and assigns.

D. Authority: Each Party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such Party's obligations have been duly authorized.

E. Captions and References: The captions and headings in this Agreement are for the convenience of reference only and shall not be used to interpret, define, or limit its provisions. All references in this Agreement to sections (whether spelled out or using the § symbol), subsections, exhibits, or other attachments are references to sections, subsections, exhibits, or other attachments contained herein or incorporated as a part hereof, unless otherwise noted.

F. Counterparts: This Agreement may be executed in multiple, identical, original counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute the same agreement.

G. Digital Signatures: If any signatory signs this agreement using a digital signature in accordance with the State Policies regarding the use of digital signatures, then any agreement or consent to use digital signatures within the electronic system through which that signatory signed shall be incorporated into this Agreement by reference.

H. Modification: Except as otherwise provided in this Agreement, any modification to this Agreement shall only be effective if agreed to in a formal amendment, properly executed and approved in accordance with applicable New Mexico law and State fiscal policies and rules. Modifications permitted under this Agreement, other than Agreement amendments, shall conform to the policies issued by the State.

I. Statutes, Regulations, Fiscal Rules, and Other Authority: Any reference in this Agreement to a statute, regulation, policy, or other authority shall be interpreted to refer to such authority then current, as may have been changed or amended after the Effective Date of this Agreement.

J. External Terms and Conditions: Notwithstanding anything to the contrary herein, the State shall not be subject to any provision included in any terms, conditions, or agreements appearing on Grantee's or a subcontractor's website or any provision incorporated into any click-through or online agreements related to the Work unless that provision is specifically referenced in this Agreement.

K. Severability: The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect, provided that the Parties can continue to perform their obligations under this Agreement in accordance with its intent.

L. Survival of Certain Agreement Terms: Any provision of this Agreement that imposes an obligation on a Party after the termination or expiration of this Agreement shall survive the termination or expiration of this Agreement and shall be enforceable by the other Party.

M. Third Party Beneficiaries: Except for the Parties' respective successors and assigns described in this Agreement, it does not and is not intended to confer any rights or remedies upon any person or entity other than the Parties. Enforcement of this Agreement and all rights and obligations hereunder are reserved solely to

the Parties. Any services or benefits that third parties receive as a result of this Agreement are incidental to this Agreement and do not create any rights for such third parties.

N. Waiver: A Party's failure or delay in exercising any right, power, or privilege under this Agreement, whether explicit or by lack of enforcement, shall not operate as a waiver, nor shall any single or partial exercise of any right, power, or privilege preclude any other or further exercise of such right, power, or privilege.

O. Standard and Manner of Performance: Grantee shall perform its obligations under this Agreement in accordance with the highest standards of care, skill, and diligence in Grantee's industry, trade, or profession.

P. Licenses, Permits, and Other Authorizations: Grantee shall secure, prior to the Effective Date, and maintain at all times during the term of this Agreement, at its sole expense, all licenses, certifications, permits, and other authorizations required to perform its obligations under this Agreement and shall ensure that all employees, agents, and subcontractors secure and maintain at all times during the term of their employment, agency or subcontractor, all license, certifications, permits and other authorizations required to perform their obligations in relation to this Agreement.

Q. Publicity: Any Publicity regarding the subject matter of this Agreement may not be released without prior written approval from the Department. For purposes of this agreement, "**Publicity**" means notices, informational pamphlets, press releases, email responses, research, reports, signs, and similar public notices prepared by or for the Grantee or jointly with others.

a. Grantee shall obtain written approval prior to issuing any press release or making any public announcement regarding this agreement. Grantee agrees to obtain approval of the Department in advance with respect to all Public Relations, all communications with media, or all communications with any other member of the public with respect to this agreement, except to acknowledge that an agreement does exist.

b. For purposes of this agreement, "Public Relations" includes community relations and means those activities dedicated to maintaining the Department's image or maintaining or promoting understanding and favorable relations with the community or public at large or any segment of the public.

c. Violations of either Article XX (Q)(a) or (b) shall constitute a material Breach of Agreement.

R. Data Sharing: The State intends to secure and collate specific data generated by Grantee under this Agreement to use in support of the State's organizational, policy-making, and management of public resource functions. State, in accordance with **Exhibit E**, attached hereto and incorporated herein by reference, reserves the right to require Grantee and/or its subcontractors to provide specific data relevant to the above-listed functions. Data provided by Grantee may be

incorporated into existing or future developed State integrated analysis tools or databases, including but not limited to geographic information system (GIS) networks and databases accessible by the public. Dissemination of data collected may include historical data and projections based on such historical data.

a. To the extent any data transferred as part of this Agreement is legally determined to be the property of Subrecipient or its subcontractors, Subrecipient and/or its subcontractors grants State a nonexclusive, fully paid-up right and license to reproduce, use, distribute, do derivative works based on, and archive data transferred as part of this Agreement.

S. Venue and Choice of Law: This Agreement shall be governed by and construed in accordance with the laws of the State of New Mexico, without regard to any conflict of law provisions. Any legal suit, action, or proceeding arising out of or related to this Agreement shall be instituted exclusively in the district courts located in Santa Fe, New Mexico. The Parties hereby irrevocably submit to the exclusive jurisdiction and venue of such courts in any such suit, action, or proceeding. The Parties waive any objection to the laying of the venue of any such suit, action, or proceeding in the district courts of Santa Fe, New Mexico, and irrevocably waive and agree not to plead or claim in any such court that any such suit, action, or proceeding brought in any such court has been brought in an inconvenient forum.

[THIS SPACE LEFT BLANK INTENTIONALLY]

OPTIONAL EXHIBIT C
SPECIAL CONDITIONS

The capital outlay oversight requires grantees' accounting methods and procedures, including their internal control framework, to be scrutinized, so as to safeguard State capital outlay appropriations and assets acquired with such appropriations.

This Capital Outlay Special Grant Condition(s) **Exhibit C** is necessary pursuant to § 6-3b-1 et seq., NMSA 1978 (Public Finance Accountability Act) and MAPS Fin 9.2, due to the Grantees' material weaknesses, significant deficiencies, or findings that raised concerns as to the ability to expend grant funds in accordance with applicable law in the organization's FY[20XX] audit. The Special Conditions identified below apply to the authorized agent, [insert the Grantee or Fiscal Agent name].

Procurement - All purchases or contracts the Grantee enters that shall use funding from the Department capital appropriations grant must be approved by the Department prior to the initiation of implementing purchasing documents. The Grantee shall receive such prior approval via official correspondence from the Department, which may be through letter or email. The Grantee shall submit the following to the Department in pursuit of prior approval: purchasing policies and procedures, CFO certification, documentation of management and program approval, policies and procedures governing purchasing and contracting, a copy of the current procurement and contracting policies, and documentation regarding informing staff responsible for purchasing and contracting on such policies and procedures.

Budget - Provide documentation of approval of your current budget from DFA Local Government or other authoritative agency. Provide policies and procedures on who is responsible for and how annual budgets (expenditures and revenue) are established, monitored and adjusted. Provide a corrective action plan on how budget issues identified in your audit will be/have been addressed. Also include documentation on how staff responsible for budgeting is informed on budget policies and procedures.

Capital Assets - Provide a complete list of inventory including inventory control numbers and current location. Provide policies and procedures on capital assets and inventory and specify how the proposed purchased items will be included, tagged, and tracked in capital asset inventory. Also include documentation on how staff responsible for capital assets is informed on capital asset policies and procedures.

Travel and Per Diem - Provide policies and procedures on travel and per diem. Also include how staff who travel and those responsible for travel reimbursement are informed on travel and per diem policies and procedures.

Timely Audits – Provide policies and procedures on annual audits. Provide documentation on how and who is responsible for insuring that annual audits are completed timely. Also include documentation on how staff responsible for the annual audit is informed on audit policies and procedures.

Cash Management – policies and procedures on cash management of federal funds. Provide procedures used to draw and disburse federal funds. Provide procedures to reconcile draw amounts, deposits and disbursements; and to prepare federal cash reporting documents to ensure compliance with federal regulations.

The <Grantee> was required to, and has provided sufficient documentation regarding [insert specific names of the Special Condition(s)], as referenced in the <Grantee>'s [20XX] Audit file. Therefore, the criteria to enter into this agreement have been met.

Data Sharing Provisions for New Mexico Capital Outlay Agreements

I. Introduction:

This Data Sharing Provisions Exhibit ("Exhibit") is incorporated into the New Mexico Capital Outlay Agreements ("Agreements") between the State of New Mexico ("State") and [Insert Partner Name] ("Partner"). This Exhibit outlines the terms and conditions under which data will be shared between the Parties to ensure compliance with New Mexico state laws and regulations, focusing on data privacy, security, and compliance.

II. Definitions:

a. Authorized User: An employee, agent, assign, representative, independent contractor, or other person or entity authorized by Partner or State to access, use, or disclose information through this exhibit.

b. Confidential Information: All data or information shared in confidence, with the expectation that it will not be disclosed in an identifiable form. This includes data that is exempt from public disclosure under the New Mexico Inspection of Public Records Act (§ 14-2-1 et seq. NMSA 1978) or other relevant laws.

c. Data Storage: Electronic media that hold recorded information.

d. Data Transmission: The process of moving information over a network from its source to one or more destinations.

e. Direct Identifier: Records or data containing personal identifiers such as names, addresses, and social security numbers.

f. Disclosure: Permission to access, release, transfer, or otherwise communicate confidential information by any means to any third party, except as authorized by the Party that controls the record.

g. Encryption involves using algorithms to encode data, rendering it unreadable without a specific key. It may be necessary during data transmission and/or storage.

h. Information: Any data, figures, statistics, or other facts provided or learned about someone or something, including Confidential Information, that may be legally transmitted under this Exhibit.

i. Limited Dataset: A data file that omits Direct Identifiers.

j. Protected Personally Identifiable Information: Sensitive personal details such as social security numbers and financial account numbers, with specific exclusions as outlined in the Agreements.

III. Purpose:

The purpose of this exhibit is to promote transparency, facilitate information sharing between the parties, support better policy and decision-making, and enhance public services through collaborative

[THIS SPACE LEFT BLANK INTENTIONALLY]

data analysis from various sources.

IV. Use of Information:

a. Use of Information obtained or created under this exhibit shall be strictly limited to the purposes stated herein and in the agreements. The parties agree not to sell Information to third parties or use it for commercial, solicitation, or political purposes.

b. Each Party shall serve as the custodian of the Information and comply with all conditions for its use, including security measures to prevent unauthorized access.

c. The Parties shall follow all relevant federal and state laws and regulations governing the use of such Information.

V. Safeguarding Information:

a. Confidentiality: Access to Confidential Information shall be limited to the minimum necessary to accomplish the purposes of this Exhibit. Authorized Users must adhere to the confidentiality requirements.

b. Security: Security practices shall comply with the requirements of the New Mexico Department of Information Technology Act and related regulations. The Parties agree to notify each other within three business days of any suspected or actual security breach.

c. Information Storage and Transmission: Data Storage and Transmission shall take place on an encrypted server with appropriate security controls.

VI. Re-Disclosure of Information:

The Parties agree not to disclose Information except as required by law or with prior written approval of the other Party. If there is a public records request, the Party receiving it shall notify the other Party within three business days.

VII. Ownership of Information:

Legal title to Information shall remain with the provider. The Partner grants the State a royalty-free, non-exclusive, non-transferable license to use the Information in furtherance of the purposes outlined in this Exhibit.

NEW MEXICO CAPITAL OUTLAY GRANT AGREEMENT
CAPITAL APPROPRIATION PROJECT

THIS AGREEMENT is made and entered into by and between the State of New Mexico, Department of Finance & Administration, 407 Galisteo Street, Santa Fe, NM 87501, ("**Department**") and the City of Santa Fe, ("**Grantee**") (individually "**Party**" and collectively "**Parties**"). This Agreement shall be effective as of the date the Department executes it ("**Effective Date**").

WITNESSETH

WHEREAS, in the Laws of 2025, Chapter 158, Section 371, the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of funds from this appropriation, in accordance with the terms and conditions of this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

AGREEMENT

I. PROJECT DESCRIPTION, GRANT AMOUNT, AND REVERSION

A. **25-J4369** ("**Project**") 6/30/2027 ("**Reversion Date**"). Laws of 2025, Chapter 158, Section 371, Four hundred fifty-four thousand one hundred eighty-six and seventy-nine cents , $454,186.79, The time of expenditure for the local government division project in Subsection 344 of Section 29 of Chapter 138 of Laws 2021 to plan, design, construct and improve infrastructure for the midtown Santa Fe property in Santa Fe in Santa Fe county is extended through fiscal year 2027..

B. Grantee's total reimbursements shall not exceed $454,186.79 Four hundred fifty-four thousand one hundred eighty-six and seventy-nine cents , ("**Appropriation Amount**") minus the allocation for Art in Public Places ("**AIPP amount**"), if applicable, $0.00 Zero Dollars and No Cents, which equals $454,186.79 Four hundred fifty-four thousand one hundred eighty-six and seventy-nine cents ("**Adjusted Appropriation Amount**").

C. In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I, the language of the laws cited herein shall control.

The information contained in Article I is referred to collectively as the "**Project Description**."

II. DISBURSEMENT LIMITATION

A. Upon the Effective Date, the Grantee shall submit to the Department a comprehensive procurement plan and expenditure plan, detailing a Project timeline with milestones, required procurements, and identifying expected expenditures per milestone (collectively, "**Project**

Budget"). The Department shall review and approve the Project Budget by approving a Notice of Department's Obligation ("**Notice of Obligation**"), in accordance with the Project Description, a sample of which is attached hereto as **Exhibit B** and incorporated herein by reference. After receipt of approved Notice of Obligation, the Grantee may be reimbursed for allowable costs up to the Adjusted Appropriation Amount. This Agreement and any reimbursements up to the Adjusted Appropriation Amount are expressly conditioned upon the following:

a. Irrespective of any Notice of Obligation, Grantee's expenditures shall be made in accordance with the Project Budget, on or before the Reversion Date and/or, if applicable, any Early Termination Date; and
b. The total amount received by Grantee shall not exceed the lesser of:
    i. the Adjusted Appropriation Amount identified in Article I (B) herein; or
    ii. the total of all amounts stated in the Notice(s) of Obligation evidencing the Department has received and accepted Grantee's Third Party Obligation(s); and
c. Grantee's expenditures are made and accounted for pursuant to the State Procurement Code, State's Model Accounting Practices, and execution of binding written obligations or purchase orders with third-party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project ("**Third Party Obligations**"); and
d. Grantee's submittal of timely Requests for Payment and supporting documentation in accordance with the procedures set forth in this Agreement; and
e. In the event capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private entity, the sale, lease, license, or operating agreement:
    i. must be approved by the applicable oversight entity (if any) in accordance with §§ 13-6-2, 13-6-2.1, and 13-6-3; or
    ii. If no oversight entity is required to approve the transaction, the Department of Finance and Administration's Infrastructure Planning Development Division (IPDD) must approve it as complying with the law.

B. Prior to the sale, lease, license, or operating agreement being approved pursuant to Articles II(A)(e) (i) or (ii) herein, the Department may, in its sole and absolute discretion, unless inconsistent with State Board of Finance imposed conditions, reimburse Grantee for necessary expenditures incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, limited to planning and design expenditures; and

C. Grantee's submission of documentation of all Third Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement shall be governed by the following:

a. Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third Party Obligation, and request the Third Party to begin work after issuance of a Notice of Obligation by the Department.
b. Grantee acknowledges and agrees that any Third Party Obligations agreed to prior to receiving a Notice of Obligation are its sole responsibility.
c. Grantee shall submit to the Department one copy of all Third Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party but prior to execution by the Grantee.

d. Department may, in its sole and absolute discretion, issue a Notice of Obligation for the particular amount of a Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is incorporated herein and attached hereto as **Exhibit B**.

D. Grantee shall provide all necessary qualified personnel, materials, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

E. Prior to entering into this Agreement, the Department conducted a risk assessment on the Grantee and a project readiness review for the Project. In accordance with State Model Accounting Practices, FIN 9.2, if the Department determines that the expenditure of Project funds by the Grantee requires special conditions, those conditions are identified and listed in **Exhibit C**, which is attached and incorporated by reference. The Parties agree that, to the extent the Department, in its sole and absolute discretion, determines additional special conditions are necessary or that existing special conditions are no longer required, it may update **Exhibit C** from time to time without the need for a formal amendment of this Agreement.

F. Project funds shall not be used for purposes other than those authorized by the Department in accordance with the Project Description.

G. Project funds cannot be used to reimburse the Grantee for indirect Project costs unless specifically allowed by law.

III. NOTICES

The following provisions shall apply whenever written notices, including written decisions, are to be given or received related to this Agreement.

A. The Grantee designates the person(s) listed below, or their successor, as their official representative(s) concerning all matters related to this Agreement:

Grantee: City of Santa Fe
Name: David Chapman
Title: Grants Administrator
Address: PO Box 909, Santa Fe, NM 87504
Email: dachapman@santafenm.gov
Telephone: 505-955-6251

B. The Grantee designates the person(s) listed below, or their successor, as their Fiscal Officer or Fiscal Agent concerning all matters related to this Agreement:

Grantee: City of Santa Fe
Name: Erika Lujan
Title: Grant Manager
Address: PO Box 909, Santa Fe, NM 87504
Email: evlujan@santafenm.gov

Telephone: 505-479-1334

C. The Department designates the persons listed below, or their successors, as the Points of Contact for matters related to this Agreement.

Department: DFA/Local Government Division
Name: Daniel Catanach
Title: Grant Manager
Address: Bataan Memorial Bldg. Rm 202, Santa Fe NM 87501
Email: danieln.catanach@dfa.nm.gov
Telephone: 505-231-6090

The Parties agree that all notices, including written decisions, related to this Agreement shall be sent to the persons named above by email or regular mail. For mailings, notices shall be deemed to have been given and received upon the date of the receiving party's actual receipt or five (5) calendar days after mailing, whichever shall first occur. In the case of email transmissions, the notice shall be deemed to have been given and received on the date reflected on the delivery receipt of the email.

IV. TERM & DEADLINE TO EXPEND FUNDS

A. The term of this Agreement shall begin on the Effective Date and terminate on the 30th day of June during the calendar year of the Reversion Date unless Terminated Before Reversion Date ("**Early Termination**") pursuant to Article V herein (collectively "**Term**").

B. The Project's funds must be expended on or before the Reversion Date and, if applicable, the Early Termination Date of this Agreement.

a. For purposes of this Agreement, it is not sufficient for the Grantee to encumber the Project funds on its books on or before the Reversion Date or Early Termination Date.
b. For purposes of this Agreement, an expenditure of funds has occurred on the date the particular quantity of goods is delivered to and received by the Grantee, title to the goods is transferred to the Grantee, and/or as of the date particular services are rendered to and accepted by the Grantee.
c. For purposes of this Agreement, an encumbrance of funds pursuant to a contract or purchase order with a third party does not qualify as an expenditure.

V. EARLY TERMINATION

A. General Provision. The Department may terminate this Agreement before the Reversion Date based on the Completion of the Project, Complete Expenditure of the Adjusted Appropriation, and/or Violation of this Agreement. Early Termination hereunder includes:

a. Termination due to completion of the Project before the Reversion Date;
b. Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date;
c. Termination for violation of the terms of this Agreement; or
d. Termination for suspected mishandling of public funds, including but not limited to fraud, waste, abuse, and conflicts of interest.

B. Non-appropriation. This Agreement is expressly contingent upon the New Mexico State Legislature making sufficient appropriations and authorizations for the Project Description.

   a. If the Legislature does not appropriate the Appropriation Amount, this Agreement shall terminate upon the Department giving the Grantee written notice of such termination. Such termination shall be effective as of the effective date of the law making the non-appropriation.
      i. The Department's decision as to whether sufficient appropriations or authorizations are available shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement.
   b. As used herein, "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature:
      i. Deauthorization, reauthorization, or revocation of a prior authorization.

C. Grant Disbursements in the Event of Early Termination. In the event of Early Termination, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II above.

D. Notice. Either Party may terminate this Agreement prior to the Reversion Date by providing the other Party with a minimum of fifteen (15) days advance written notice of the Early Termination. Grantee hereby waives any rights to assert an impairment of contract claim against the State of New Mexico in the event of Early Termination of this Agreement by the Department.

VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. Department, in its sole and absolute discretion, may provide written notice to Grantee to suspend entering into further obligations. Upon the receipt of such written notice by the Grantee:

   a. Grantee shall immediately suspend entering into new or further written obligations with third parties;
   b. Department will suspend the issuance of any new or further Notice of Obligation under this Agreement; and
   c. Department may direct the Grantee to implement a corrective action plan in accordance with Article VI (D) herein.

B. In the event of Suspension of this Agreement, the Department's sole and absolute obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for a Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension. Where the Department, in its sole and absolute discretion, directs Grantee to suspend entering into new or further written obligations

with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension.

a. Such a corrective action plan must be approved by the Department and be signed by the Grantee.
b. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(c).
c. A corrective action plan shall be in addition to, and not in lieu of, any other equitable or legal remedy authorized hereunder or at law, including but not limited to Early Termination.

VII. AMENDMENTS

Unless expressly stated otherwise herein, this Agreement shall not be altered, changed, or amended except by an instrument in writing duly executed by both parties hereto with the same formalities as this agreement.

VIII. REPORTING

A. Database Reporting

a. Grantee shall provide the Department with quarterly reports of Project activity, entering the required Project information directly into a database required by the Department.
b. Additionally, Grantee shall certify on each Request for Payment form, attached hereto as **Exhibit A** and incorporated herein, that all information provided in the database is true and accurate, updates to the database have been maintained, and all Project activity complies with applicable law and the terms of this Agreement.
c. Grantee hereby acknowledges that failure to perform and/or certify updates to the database will jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of fourteen (14) days' advance written notice of any changes to the information the Grantee is required to report.
d. At the Department's discretion, all reports required hereunder may be directed to and facilitated through an electronic database.
e. Quarterly reports shall be due on the last day of the month, that is, 30 days prior to the end of the quarter following the execution of this Agreement by the Department and ending during the quarter of the submission of the final request for reimbursement for the Project, or the following quarter.

B. Requests for Additional Information/Project Inspection

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:

i. request such additional information regarding the Project as it deems necessary; and
ii. conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.

Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

B. Requests for Additional Information/Project Inspection

a. During the term of this Agreement and the Record Retention Period, the Department may:
   i. Request additional information regarding the Project as it deems necessary and
   ii. Conduct on-site inspections of the Project at reasonable times and upon reasonable notice.
b. Grantee shall respond to such requests for additional information within the time established by the Department.

IX. REQUEST FOR PAYMENT PROCEDURES

A. Grantee shall request payment by submitting the form attached hereto as **Exhibit A**. Payment requests are subject to the following procedures:

a. Each Request for Payment must be in accordance with the Project Budget and contain proof of payment by the Grantee or liabilities incurred by the Grantee.
   i. Proof of payment must demonstrate the validity of an expenditure or liabilities incurred by Grantee.
   ii. However, Grantee may be reimbursed for unpaid liabilities only if the Department, in its sole and absolute discretion, agrees to do so and in accordance with any special conditions imposed by the Department.
   iii. The Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or in a shorter period than the Department may prescribe in writing.
   iv. The Department reserves the right to make such payments directly to the contractors or vendors as a special condition under this Agreement.
   v. The Grantee is required to certify to the Department proof of payment to the third-party contractor or vendor within five (5) business days from the date the Department reimburses the Grantee.

B. Until the Project is fully planned, designed, and all necessary procurements identified in the Project Budget are completed, Grantee's reimbursements will be limited to the planning, design, and procurement costs outlined in the Project Budget. Once the planning, designing, and procuring stages are complete, the Grantee must obligate at least ten percent (10%) of the Adjusted Appropriation Amount within one (1) year and must have utilized at least eighty-five percent (85%) of the Adjusted Appropriation Amount six (6) months before the reversion date.

C. Deadlines. Grantee shall submit requests for Payments to the Department on the earlier of:

a. Immediately as Grantee receives them, but at a maximum of thirty (30) days from when Grantee incurred the expenditure or liability; or
b. Twenty (20) days from the date of Early Termination or Reversion Date for expenditures or liabilities incurred before the Early Termination date or Reversion Date.

D. Grantee's failure to abide by the requirements set forth in Article II and Article IX herein may result in the denial of its Request for Payment. Department reserves the right to reject a payment request for the Project unless and until it is satisfied that the expenditures or liabilities are for permissible purposes within the meaning of the Project Description, identified within the Project Budget, and that the Grantee is otherwise in compliance with this Agreement.

a. Department's authority to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department under this Agreement, at law, or in equity.

X. PROJECT CONDITIONS AND RESTRICTIONS

A. The following general conditions and restrictions shall apply to the Project:

a. The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the State Procurement Code.
b. The Project's expenditures and liabilities must be accounted for in accordance with the State's Model Accounting Practices, as amended from time to time.
c. The Project must be implemented in accordance with the New Mexico Public Works Minimum Wage Act, Section 13-4-10 through 13-4-17 NMSA 1978, as applicable.
d. The Project must provide a public benefit above and beyond any incidental benefit to private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico.
e. Without prior written approval from the Department and State Board of Finance, for the useful life of any asset purchased under this Agreement, Grantee shall not convert any property acquired, built, renovated, repaired, designed, or developed with Project funds to uses other than those specified in the Project Description.
    i. In addition to other remedies available at law or in equity, any disposal or conversion of property acquired, built, renovated, repaired, designed, or developed with Project funds without the Department's and the Board of Finance's express written approval will trigger the Department's right to reimbursement from Grantee of the Appropriated Amount, transfer proceeds from any disposition of property to the State, or otherwise provide consideration to the State for the Appropriated Amounts.
f. Grantee shall comply with all applicable federal and state laws, rules, and regulations pertaining to civil rights and equal employment opportunity.
    i. In accordance with all such laws, rules, and regulations, the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age, or handicap, be excluded from participation in the Project, use of the Project, employment with Grantee, or otherwise be denied benefits/subject to discrimination for any activity performed under this Agreement.
g. Where the Department, in its sole and absolute discretion, determines Grantee has failed to comply with the above conditions and restriction, Grantee agrees to take appropriate steps to correct any deficiencies immediately. The Grantee's failure to implement such appropriate steps within a reasonable time, but no longer than thirty (30) days after

notice from the Department, constitutes a breach of this Agreement and grounds for Early Termination.

XI. REPRESENTATIONS AND WARRANTIES

A. Reliance by Department.
   a. Grantee expressly acknowledges that the Department relies on the representations and warranties made by Grantee in this Agreement. Grantee acknowledges that such representations and warranties are a material inducement for the Department to enter into this Agreement and provide the Appropriated Amount.
   b. Grantee shall ensure all representations and warranties provided herein are true, accurate, and complete as of the date of the Effective Date and shall remain so throughout the Term of this Agreement. Grantee is responsible for promptly notifying the Department in writing of any changes or inaccuracies in the representations and warranties contained herein.

B. Grantee hereby represents and warrants the following:

   a. Grantee has taken all necessary steps to attain the legal authority to receive and expend the Project's funds.
   b. Grantee has duly authorized this Agreement, and the person executing it has authority to do so. Once executed by Grantee, this Agreement shall constitute a binding obligation of Grantee, enforceable according to its terms.
   c. Grantee's obligations hereunder do not conflict with any law, ordinance, or resolution applicable to Grantee, Grantee's charter (if applicable), or any judgment or decree to which Grantee is subject.
   d. Grantee has independently confirmed that the Project Description, including, but not limited to, the Appropriated Amount and Reversion Date, is consistent with the underlying appropriation in law.
   e. Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign and submit Requests for Payment on behalf of Grantee.
   f. Grantee will abide by New Mexico laws regarding conflicts of interest, governmental conduct, and whistleblower protection.
      i. Grantee agrees explicitly none of its officers or employees or its designees or agents, no member of the governing body, and no other public official of Grantee who exercises any function or responsibility with respect to this Agreement, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for the Project.
      ii. Further, Grantee will require all of its contractors to incorporate the language set forth in this paragraph prohibiting conflicts of interest in all subcontracts.
   g. No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of the State, any agency, or body in connection with the awarding of any Third Party Obligation.
      i. Grantee will require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans, and cooperative agreements.

C. Consequences of False or Misleading Representations. If any representation or warranty made by Grantee is found to be false or misleading, the Department shall have the right to exercise any or all of the following remedies:

a. **Termination of Agreement:** Department may terminate this Agreement immediately upon written notice to the Grantee.
b. **Repayment of Grant Funds:** Grantee shall repay all Appropriated Amounts disbursed under this Agreement, upon demand by the Department.
c. **Other Remedies:** Department may pursue any other remedies available at law or in equity.

D. Survival of Representations and Warranties. The representations and warranties made by the Grantee shall survive the Early Termination or expiration of this Agreement.

XII. PROJECT RECORDS

A. Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles and the State's Model Accounting Practices and, if feasible, maintain a separate bank account or fund with a separate organizational code to ensure separate budgeting and accounting of the funds.

B. For six (6) years following the Project's completion ("**Record Retention Period**"), Grantee shall maintain all Project-related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the Appropriated Amount from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department may prescribe.

C. Grantee shall make all Project records available to the Department, the Department's Independent Public Accountant, and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor or the Department finds any funds were improperly expended, Grantee shall be required to reimburse the State all amounts found to be improperly expended.

XIII. IMPROPERLY REIMBURSED FUNDS

If the Department determines part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, after ten (10) days' notice to Grantee and the opportunity to return such funds to the Department, the Department may offset any funds due to Grantee from the State, until the Appropriation Amount is fully repaid.

XIV. LIABILITY

Neither Party shall be responsible for liability incurred as a result of the other Party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to

immunities and limitations of the New Mexico Tort Claims Act.

XV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Parties concerning the subject matter hereof. The Agreement supersedes all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

XVI. REQUIRED NON-APPROPRIATIONS CLAUSE

A. Grantee acknowledges and agrees to include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

    a. "The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of the State of New Mexico ("**Legislature**") for the performance of this Agreement.
    b. If the Legislature does not make sufficient appropriations and authorization, City of Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination.
    c. The City of Santa Fe's decision as to whether sufficient appropriations are available shall be final and accepted by the Contractor. Contractor hereby waives any rights to assert an impairment of contract claim against the City of Santa Fe or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the City of Santa Fe or the State Department of Finance and Administration."

XVII. REQUIRED TERMINATION CLAUSE

A. Grantee acknowledges and agrees to include the following termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

    a. "This contract is funded in whole or in part by funds made available by the State of New Mexico ("**State**"). Should the State terminate its Agreement with the City of Santa Fe, the City of Santa Fe may terminate this contract immediately by providing Contractor written notice of such termination.
    b. In the event of termination pursuant to this paragraph, the City of Santa Fe's only liability to Contractor shall be for goods and services delivered and accepted prior to the termination date."

XVIII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA

A. Throughout the term of this Agreement, Grantee shall:

    a. Submit all reports of annual audits and agreed-upon procedures required by § 12-6-3(A)-(B), NMSA 1978 by the due dates established in § 2.2.2 NMAC, reports of which must be a

public record pursuant to § 12-6-5(A), NMSA 1978 within forty-five (45) days of delivery to the State Auditor;

b. Have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);
c. Timely submit all required financial reports to its budgetary oversight agency (if any); and
d. Use accounting methods and procedures consistent with Generally Accepted Accounting Principles and the State's Model Accounting Principals to expend the Appropriated Amount in accordance with applicable law and account for and safeguard Project funds and assets acquired with Project funds.

B. In the event Grantee fails to comply with the requirements of subparagraph A of this Article XVIII, Department may take one or more of the following actions:

a. Suspend new or further obligations pursuant to Article VI(A) of this Agreement;
b. Require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;
c. Impose special conditions to address the non-compliance by giving Grantee notice of such special conditions in accordance with Article III of this Agreement;
    i. The Parties agree that any special conditions imposed to address non-compliance shall be incorporated into this Agreement, through **Exhibit C**, upon notice to Grantee, without need for formal amendment of this Agreement;
    ii. Special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III or
d. Terminate this Agreement pursuant to Article V(A) of this Agreement.

XIX. SEVERANCE TAX AND GENERAL OBLIGATION BONDS

A. Grantee acknowledges and agrees that the underlying appropriation for the Project may originate from the issuance of tax-exempt severance tax bonds or general obligation bonds by the State. Proceeds from such bonds are administered by the New Mexico State Board of Finance ("**SBOF**"), an entity separate and distinct from the Department.

a. Grantee acknowledges and agrees:
    i. It is Grantee's responsibility to determine through SBOF what (if any) conditions are currently imposed on the Project;
    ii. Department's failure to inform Grantee of an SBOF-imposed condition does not affect the validity or enforceability of the condition;
    iii. The SBOF may in the future impose further or different conditions upon the Project;
    iv. All SBOF conditions are attached to the Project and Appropriation Amount without the need for formal amendment of this Agreement;
    v. All applicable SBOF conditions must be satisfied before the SBOF will release to the Department funds subject to the condition(s) and
    vi. The Department's obligation to reimburse Grantee from the Project is expressly contingent upon the satisfaction of the then-current SBOF conditions.

B. Grantee acknowledges and agrees SBOF may, at its sole and absolute discretion, require reimbursement or remove eligibility for bond proceeds for the Project if the Project doesn't

proceed sufficiently.

a. Grantee must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified by Grantee in the Bond Questionnaire and Certification documents submitted to the SBOF.
b. Failure to comply may result in the reassignment of the bond proceeds. Upon reassignment of bond proceeds, this Agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, § 2.61.6, NMAC, as may be amended from time to time or re-codified.

XX. GENERAL PROVISIONS

A. Assignment: Grantee's rights and obligations under this Agreement are personal and may not be transferred or assigned without the prior written consent of the State. Any attempt at assignment or transfer without such consent shall be void. Any assignment or transfer of Grantee's rights and obligations approved by the State shall be subject to the provisions of this Agreement.

B. Subcontractors: Grantee shall not enter any subgrant or subcontract in connection with its obligations under this Agreement without the prior written approval of the State. Upon request, Grantee shall submit to the Department a copy of each such subgrant or subcontract.

C. Binding Effect: Except as otherwise provided, all provisions of this Agreement, including the benefits and burdens, shall extend to and be binding upon the Parties' respective successors and assigns.

D. Authority: Each Party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such Party's obligations have been duly authorized.

E. Captions and References: The captions and headings in this Agreement are for the convenience of reference only and shall not be used to interpret, define, or limit its provisions. All references in this Agreement to sections (whether spelled out or using the § symbol), subsections, exhibits, or other attachments are references to sections, subsections, exhibits, or other attachments contained herein or incorporated as a part hereof, unless otherwise noted.

F. Counterparts: This Agreement may be executed in multiple, identical, original counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute the same agreement.

G. Digital Signatures: If any signatory signs this agreement using a digital signature in accordance with the State Policies regarding the use of digital signatures, then any agreement or consent to use digital signatures within the electronic system through which that signatory signed shall be incorporated into this Agreement by reference.

H. Modification: Except as otherwise provided in this Agreement, any modification to this Agreement shall only be effective if agreed to in a formal amendment, properly executed and approved in accordance with applicable New Mexico law and State fiscal policies and rules.

Modifications permitted under this Agreement, other than Agreement amendments, shall conform to the policies issued by the State.

I. Statutes, Regulations, Fiscal Rules, and Other Authority: Any reference in this Agreement to a statute, regulation, policy, or other authority shall be interpreted to refer to such authority then current, as may have been changed or amended after the Effective Date of this Agreement.

J. External Terms and Conditions: Notwithstanding anything to the contrary herein, the State shall not be subject to any provision included in any terms, conditions, or agreements appearing on Grantee's or a subcontractor's website or any provision incorporated into any click-through or online agreements related to the Work unless that provision is specifically referenced in this Agreement.

K. Severability: The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect, provided that the Parties can continue to perform their obligations under this Agreement in accordance with its intent.

L. Survival of Certain Agreement Terms: Any provision of this Agreement that imposes an obligation on a Party after the termination or expiration of this Agreement shall survive the termination or expiration of this Agreement and shall be enforceable by the other Party.

M. Third Party Beneficiaries: Except for the Parties' respective successors and assigns described in this Agreement, it does not and is not intended to confer any rights or remedies upon any person or entity other than the Parties. Enforcement of this Agreement and all rights and obligations hereunder are reserved solely to the Parties. Any services or benefits that third parties receive as a result of this Agreement are incidental to this Agreement and do not create any rights for such third parties.

N. Waiver: A Party's failure or delay in exercising any right, power, or privilege under this Agreement, whether explicit or by lack of enforcement, shall not operate as a waiver, nor shall any single or partial exercise of any right, power, or privilege preclude any other or further exercise of such right, power, or privilege.

O. Standard and Manner of Performance: Grantee shall perform its obligations under this Agreement in accordance with the highest standards of care, skill, and diligence in Grantee's industry, trade, or profession.

P. Licenses, Permits, and Other Authorizations: Grantee shall secure, prior to the Effective Date, and maintain at all times during the term of this Agreement, at its sole expense, all licenses, certifications, permits, and other authorizations required to perform its obligations under this Agreement and shall ensure that all employees, agents, and subcontractors secure and maintain at all times during the term of their employment, agency or subcontractor, all license, certifications, permits and other authorizations required to perform their obligations in relation to this Agreement.

Q. Publicity: Any Publicity regarding the subject matter of this Agreement may not be released without prior written approval from the Department. For purposes of this agreement, "**Publicity**"

means notices, informational pamphlets, press releases, email responses, research, reports, signs, and similar public notices prepared by or for the Grantee or jointly with others.

a. Grantee shall obtain written approval prior to issuing any press release or making any public announcement regarding this agreement. Grantee agrees to obtain approval of the Department in advance with respect to all Public Relations, all communications with media, or all communications with any other member of the public with respect to this agreement, except to acknowledge that an agreement does exist.
b. For purposes of this agreement, "Public Relations" includes community relations and means those activities dedicated to maintaining the Department's image or maintaining or promoting understanding and favorable relations with the community or public at large or any segment of the public.
c. Violations of either Article XX (Q)(a) or (b) shall constitute a material Breach of Agreement.

R. Data Sharing: The State intends to secure and collate specific data generated by Grantee under this Agreement to use in support of the State's organizational, policy-making, and management of public resource functions. State, in accordance with **Exhibit E**, attached hereto and incorporated herein by reference, reserves the right to require Grantee and/or its subcontractors to provide specific data relevant to the above-listed functions. Data provided by Grantee may be incorporated into existing or future developed State integrated analysis tools or databases, including but not limited to geographic information system (GIS) networks and databases accessible by the public. Dissemination of data collected may include historical data and projections based on such historical data.

a. To the extent any data transferred as part of this Agreement is legally determined to be the property of Subrecipient or its subcontractors, Subrecipient and/or its subcontractors grants State a nonexclusive, fully paid-up right and license to reproduce, use, distribute, do derivative works based on, and archive data transferred as part of this Agreement.

S. Venue and Choice of Law: This Agreement shall be governed by and construed in accordance with the laws of the State of New Mexico, without regard to any conflict of law provisions. Any legal suit, action, or proceeding arising out of or related to this Agreement shall be instituted exclusively in the district courts located in Santa Fe, New Mexico. The Parties hereby irrevocably submit to the exclusive jurisdiction and venue of such courts in any such suit, action, or proceeding. The Parties waive any objection to the laying of the venue of any such suit, action, or proceeding in the district courts of Santa Fe, New Mexico, and irrevocably waive and agree not to plead or claim in any such court that any such suit, action, or proceeding brought in any such court has been brought in an inconvenient forum.

[THIS SPACE LEFT BLANK INTENTIONALLY]

OPTIONAL EXHIBIT C
SPECIAL CONDITIONS

The capital outlay oversight requires grantees' accounting methods and procedures, including their internal control framework, to be scrutinized, so as to safeguard State capital outlay appropriations and assets acquired with such appropriations.

This Capital Outlay Special Grant Condition(s) **Exhibit C** is necessary pursuant to § 6-3b-1 et seq., NMSA 1978 (Public Finance Accountability Act) and MAPS Fin 9.2, due to the Grantees' material weaknesses, significant deficiencies, or findings that raised concerns as to the ability to expend grant funds in accordance with applicable law in the organization's FY[20XX] audit. The Special Conditions identified below apply to the authorized agent, [insert the Grantee or Fiscal Agent name].

Procurement - All purchases or contracts the Grantee enters that shall use funding from the Department capital appropriations grant must be approved by the Department prior to the initiation of implementing purchasing documents. The Grantee shall receive such prior approval via official correspondence from the Department, which may be through letter or email. The Grantee shall submit the following to the Department in pursuit of prior approval: purchasing policies and procedures, CFO certification, documentation of management and program approval, policies and procedures governing purchasing and contracting, a copy of the current procurement and contracting policies, and documentation regarding informing staff responsible for purchasing and contracting on such policies and procedures.

Budget - Provide documentation of approval of your current budget from DFA Local Government or other authoritative agency. Provide policies and procedures on who is responsible for and how annual budgets (expenditures and revenue) are established, monitored and adjusted. Provide a corrective action plan on how budget issues identified in your audit will be/have been addressed. Also include documentation on how staff responsible for budgeting is informed on budget policies and procedures.

Capital Assets - Provide a complete list of inventory including inventory control numbers and current location. Provide policies and procedures on capital assets and inventory and specify how the proposed purchased items will be included, tagged, and tracked in capital asset inventory. Also include documentation on how staff responsible for capital assets is informed on capital asset policies and procedures.

Travel and Per Diem - Provide policies and procedures on travel and per diem. Also include how staff who travel and those responsible for travel reimbursement are informed on travel and per diem policies and procedures.

Timely Audits – Provide policies and procedures on annual audits. Provide documentation on how and who is responsible for insuring that annual audits are completed timely. Also include documentation on how staff responsible for the annual audit is informed on audit policies and procedures.

Cash Management – policies and procedures on cash management of federal funds. Provide procedures used to draw and disburse federal funds. Provide procedures to reconcile draw amounts, deposits and disbursements; and to prepare federal cash reporting documents to ensure compliance with federal regulations.

The <Grantee> was required to, and has provided sufficient documentation regarding [insert specific names of the Special Condition(s)], as referenced in the <Grantee>'s [20XX] Audit file. Therefore, the criteria to enter into this agreement have been met.

Exhibit E

Data Sharing Provisions for New Mexico Capital Outlay Agreements

I. Introduction:

This Data Sharing Provisions Exhibit ("Exhibit") is incorporated into the New Mexico Capital Outlay Agreements ("Agreements") between the State of New Mexico ("State") and [Insert Partner Name] ("Partner"). This Exhibit outlines the terms and conditions under which data will be shared between the Parties to ensure compliance with New Mexico state laws and regulations, focusing on data privacy, security, and compliance.

II. Definitions:

a. Authorized User: An employee, agent, assign, representative, independent contractor, or other person or entity authorized by Partner or State to access, use, or disclose information through this exhibit.

b. Confidential Information: All data or information shared in confidence, with the expectation that it will not be disclosed in an identifiable form. This includes data that is exempt from public disclosure under the New Mexico Inspection of Public Records Act (§ 14-2-1 et seq. NMSA 1978) or other relevant laws.

c. Data Storage: Electronic media that hold recorded information.

d. Data Transmission: The process of moving information over a network from its source to one or more destinations.

e. Direct Identifier: Records or data containing personal identifiers such as names, addresses, and social security numbers.

f. Disclosure: Permission to access, release, transfer, or otherwise communicate confidential information by any means to any third party, except as authorized by the Party that controls the record.

g. Encryption involves using algorithms to encode data, rendering it unreadable without a specific key. It may be necessary during data transmission and/or storage.

h. Information: Any data, figures, statistics, or other facts provided or learned about someone or something, including Confidential Information, that may be legally transmitted under this Exhibit.

i. Limited Dataset: A data file that omits Direct Identifiers.

j. Protected Personally Identifiable Information: Sensitive personal details such as social security numbers and financial account numbers, with specific exclusions as outlined in the Agreements.

III. Purpose:

The purpose of this exhibit is to promote transparency, facilitate information sharing between the parties, support better policy and decision-making, and enhance public services through collaborative

[THIS SPACE LEFT BLANK INTENTIONALLY]

data analysis from various sources.

IV. Use of Information:

a. Use of Information obtained or created under this exhibit shall be strictly limited to the purposes stated herein and in the agreements. The parties agree not to sell Information to third parties or use it for commercial, solicitation, or political purposes.

b. Each Party shall serve as the custodian of the Information and comply with all conditions for its use, including security measures to prevent unauthorized access.

c. The Parties shall follow all relevant federal and state laws and regulations governing the use of such Information.

V. Safeguarding Information:

a. Confidentiality: Access to Confidential Information shall be limited to the minimum necessary to accomplish the purposes of this Exhibit. Authorized Users must adhere to the confidentiality requirements.

b. Security: Security practices shall comply with the requirements of the New Mexico Department of Information Technology Act and related regulations. The Parties agree to notify each other within three business days of any suspected or actual security breach.

c. Information Storage and Transmission: Data Storage and Transmission shall take place on an encrypted server with appropriate security controls.

VI. Re-Disclosure of Information:

The Parties agree not to disclose Information except as required by law or with prior written approval of the other Party. If there is a public records request, the Party receiving it shall notify the other Party within three business days.

VII. Ownership of Information:

Legal title to Information shall remain with the provider. The Partner grants the State a royalty-free, non-exclusive, non-transferable license to use the Information in furtherance of the purposes outlined in this Exhibit.

GRANT AGREEMENT AMENDMENT 2 – E5290

STATE OF NEW MEXICO AGING AND LONG-TERM SERVICES DEPARTMENT

FUND 89200 CAPITAL APPROPRIATION PROJECT

I. This is an AMENDMENT to the GRANT AGREEMENT between Aging and Long-Term Services Department, hereafter known as "Department," or abbreviation such as "ALTSD," and the MARY ESTHER GONZALES SENIOR CENTER, of the CITY OF SANTA FE, in SANTA FE COUNTY, hereinafter called the "Grantee." When this GRANT AGREEMENT AMENDMENT is signed by both the Department and the Grantee, it becomes official and legally binding between both parties.

II. AMENDMENT: This amendment extends the reversion date for encumbered funds under grant number E5290, appropriated pursuant to Laws of 2020, Chapter 84, Section 10, Paragraph 91. This extension was approved by the New Mexico State Board of Finance. The original reversion date was 6/30/2024, the new reversion date is 06/30/2026.

III. The amendment is to extend the expenditure period for all encumbered obligations submitted prior to the original reversion date, in the amount of $ 170,259.18. No additional action need be taken regarding encumbered obligations submitted prior to the original reversion date.

IV. The Grantee agrees to abide by all terms, requirements and provisions of the original GRANT AGREEMENT that are not specifically changed by this AMENDMENT.

V. The Department's point of contact for this Amended GRANT AGREEMENT is:

Name: Tasha Martinez
Title: Bureau Chief
Address: 2550 Cerrillos Rd., Santa Fe, NM 87505
Email: capital.outlay@altsd.nm.gov
Telephone: 505.316.8900

VI. The Grantee's point of contact for this Amended GRANT AGREEMENT is:

Grantee: City of Santa Fe
Name: Manuel Sanchez
Title: Senior Services Division Director
Address: 1121 Alto Street, Santa Fe, NM 87501
Email: mnsanchez@santafenm.gov
Telephone: 505-955-4710

This AMENDMENT is signed and agreed to by individual(s) who are legally authorized to sign legally binding documents on behalf of the Department and Grantee.

GRANT AGREEMENT AMENDMENT 1 – A20E5290

STATE OF NEW MEXICO AGING AND LONG-TERM SERVICES DEPARTMENT

FUND 89200 CAPITAL APPROPRIATION PROJECT

I. This is an AMENDMENT to the GRANT AGREEMENT between Aging and Long-Term Services Department, hereafter known as "Department", or abbreviation such as "ALTSD", and Mary Esther Gonzales senior center, in the City of Santa Fe, in Santa Fe County, hereinafter called the "Grantee". When this GRANT AGREEMENT AMENDMENT is signed by both the Department and the Grantee, it becomes official and legally binding between both parties.

II. AMENDMENT: This amendment seeks to extend the reversion date for encumbered funds under Senate Bill 207 from the 2020 Capital Projects General Obligation Bond Act. The current reversion date of June 30, 2024. The proposed extension is until June 30, 2025.

III. The amendment is to extend the expenditure period for those encumbered obligations submitted prior to the original reversion date in the amount of $546,900.32.

IV. The Grantee agrees to abide by all terms, requirements and provisions of the original GRANT AGREEMENT that are not specifically changed by this AMENDMENT.

V. The Department's point of contact for this Amended GRANT AGREEMENT is:

Name: Tasha Martinez
Title: Bureau Chief
Address: 2550 Cerrillos Rd., Santa Fe, NM 87505

STATE OF NEW MEXICO
AGING AND LONG-TERM SERVICES DEPARTMENT
FUND 89200 CAPITAL APPROPRIATION PROJECT

THIS AGREEMENT is made and entered into as of this 01 day of November, 2022, by and between the Aging and Long-Term Services Department, 2550 Cerrillos Road, Santa Fe, New Mexico, 87505, hereinafter called the "Department" or abbreviation such as "ALTSD", and the City of Santa Fe, hereinafter called the "Grantee". This Agreement shall be effective as of the date it is executed by the Department.

RECITALS

WHEREAS, in the Laws of 2020, Chp. 84, Section 10, Subsection A, Paragraph 91 the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of, funds from

WHEREAS, State Agency on Aging (28-4-1 to 28-4-9 NMSA 1978: successor agency, Aging and Long-Term Services Department (9-23-1 to 9-23-12 NMSA 1978) may enter into grants and contracts as appropriated by law.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

ARTICLE I. PROJECT DESCRIPTION, AMOUNT OF GRANT AND REVERSION DATE

A. The project that is the subject of this Agreement is described as follows:

A20E5290 $827,000 APPROPRIATION REVERSION DATE: 30-June-2024

Laws of 2020, Chapter 84, Section 10, Subsection A, Paragraph 91, eight hundred twenty-seven dollars $827,000 to purchase and equip vehicles for the Mary Esther Gonzales senior center in Santa Fe in Santa Fe County.

The Grantee's total reimbursements shall not exceed the appropriation eight hundred twenty-seven dollars $827,000 (the "Appropriation Amount") minus the allocation for Art in Public Places ("AIPP amount")[1], if applicable, zero dollars $0.00, which equals eight hundred twenty-seven dollars $827,000, (the "Adjusted Appropriation Amount").

In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I(A), the language of the laws cited herein shall control.

[1] The AIPP amount is "an amount of money equal to one percent or two hundred thousand dollars ($200,000), whichever is less, of the amount of money appropriated for new construction or any major renovation exceeding one hundred thousand dollars ($100,000)." Section 13-4A-4 NMSA 1978.

This project is referred to throughout the remainder of this Agreement as the "Project"; the information contained in Article I(A) is referred to collectively throughout the remainder of this Agreement as the "Project Description." Exhibit 4 sets forth additional or more stringent requirements and conditions, which are incorporated by this reference as if, set forth fully herein. If Exhibit 4 imposes more stringent requirements than any requirement set forth in this Agreement, the more stringent requirements of Exhibit 4 shall prevail, in the event of irreconcilable conflict. The Grantee shall reference the Project's number in all correspondence with and submissions to the Department concerning the Project, including, but not limited to, Requests for Payment and reports.

ARTICLE II. LIMITATION ON DEPARTMENT'S OBLIGATION TO MAKE GRANT DISBURSEMENT TO GRANTEE

A. Upon the Effective Date of this Agreement, for permissible purposes within the scope of the Project Description, the Grantee shall only be reimbursed monies for which the Department has issued and the Grantee has received a Notice of Department's Obligation to Reimburse[2] Grantee (hereinafter referred to as "Notice of Obligation"). This Grant Agreement and the disbursement of any and all amounts of the above referenced Adjusted Appropriation Amount are expressly conditioned upon the following:

(i) Irrespective of any Notice of Obligation, the Grantee's expenditures shall be made on or before the Reversion Date and, if applicable, an Early Termination Date (i.e., the goods have been delivered and accepted or the title to the goods has been transferred to the Grantee and/or the services have been rendered for the Grantee); and

(ii) The total amount received by the Grantee shall not exceed the lesser of: (a) the Adjusted Appropriation Amount identified in Article I(A) herein or (b) the total of all amounts stated in the Notice(s) of Obligation evidencing that the Department has received and accepted the Grantee's Third-Party Obligation(s), as defined in subparagraph iii of this Article II(A); and

(iii) The Grantee's expenditures were made pursuant to the Grantee's legal procurement and execution of binding written obligations or purchase orders with third party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project, hereinafter referred to as "Third Party Obligations"; and

(iv) The Grantee's submittal of timely Requests for Payment in accordance with the procedures set forth in Article IX of this Agreement;

(v) In the event that capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private Grantee or Fiscal Agent for Grantee, the sale, lease, license, or operating agreement:

a. must be approved by the applicable oversight entity or Fiscal Agent for Grantee (if any) in accordance with law; or

b. if no oversight entity or Fiscal Agent for Grantee is required to approve of the transaction, the Department must approve of the transaction as complying with law.

Prior to the sale, lease, license, or operating agreement being approved pursuant to subparagraph (a) or (b) above, the Department may, in its discretion and unless inconsistent with New Mexico State Board of Finance imposed conditions, reimburse the Grantee for necessary expenditures incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, such as plan and design expenditures; and

(vi) The Grantee's submittal of documentation of all Third-Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance and the Grantee's receiving

[2] "Reimburse" as used throughout this Agreement includes Department payments to the Grantee for invoices received, but not yet paid, by the Grantee from a third-party contractor or vendor if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee.

of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement as follows:

a. The Grantee shall submit to the Department one copy of all Third-Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party but prior to execution by the Grantee.
b. Grantee acknowledges and agrees that if it chooses to enter into a Third-Party Obligation prior to receiving a Notice of Obligation that covers the expenditure, it is solely responsible for such expenditures.
c. The Department may, in its absolute discretion, issue to Grantee a Notice of Obligation for the particular amount of that Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is attached to this Agreement as Exhibit 2.
d. The date the Department sends, by mail or email, the Notice of Obligation is the date that the Department's Notice of Obligation is effective. After that date, the Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third-Party Obligation and request the Third Party begin work.

B. The Grantee shall implement, in all respects, the Project. The Grantee shall provide all necessary qualified personnel, material, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

C. Project funds shall not be used for purposes other than those specified in the Project Description.

D. Unless specifically allowed by law, Project funds cannot be used to reimburse Grantee for indirect Project costs.

ARTICLE III. NOTICE PROVISIONS AND GRANTEE AND DEPARTMENT DESIGNATED REPRESENTATIVES

Whenever written notices, including written decisions, are to be given or received, related to this Agreement, the following provisions shall apply.

The Grantee and the Department hereby designate the persons listed below as their official representative concerning all matters related to this Agreement:

Name:	Gino Rinaldi
Title:	Director
Address:	PO Box 909 Santa Fe NM 87504
Email:	earinaldi@santafenm.gov
Phone:	505-955-4710

Name:	Anya Alarid
Title:	Program Manager
Address:	PO Box 909 Santa Fe NM 87504
Email:	aalarid@santafenm.gov
Phone:	505-955-4744

Department:	Aging and Long-Term Services Department
Name:	Barbara J. Romero
Title:	Capital Projects Bureau Chief
Address:	2550 Cerrillos Rd., Santa Fe, NM 87505
Email:	barbara.romero@state.nm.us
Telephone:	505-365-3660

The Grantee and the Department agree that either party shall send all notices, including written decisions, related to this Agreement to the above-named persons by facsimile, email, or regular mail. In the case of mailings, notices shall be deemed to have been given and received upon the date of the receiving party's actual receipt or five calendar days after mailing, whichever shall first occur. In the case of facsimile transmissions, the notice shall be deemed to have been given and received on the date reflected on the facsimile confirmation indicating a successful transmission of all pages included in the writing. In the case of email transmissions, the notice shall be deemed to have been given and received on the date reflected on the delivery receipt of email.

ARTICLE IV. REVERSION DATE, TERM, EARLY TERMINATION

A. As referenced in Article I(A), the applicable law establishes a date by which Project funds must be expended by Grantee, which is referred to throughout the remainder of this Agreement as the "Reversion Date." Upon being duly executed by both parties, this Agreement shall be effective as of the date of execution by the Department. It shall terminate on **June 30, 2024**, the Reversion Date unless Terminated Before Reversion Date ("Early Termination") pursuant to Article V herein.

B. The Project's funds must be "expended" on or before the Reversion Date and, if applicable, Early Termination Date of this Agreement. For purposes of this Agreement, it is not sufficient for the Grantee to "encumber" the Project funds on its books on or before the Project's Reversion Date or Early Termination Date. Funds are "expended" and an "expenditure" has occurred as of the date that a particular quantity of goods are delivered to and received by the Grantee or title to the goods is transferred to the Grantee and/or as of the date particular services are rendered for the Grantee. Funds are ***not*** "expended" and an "expenditure" has ***not*** occurred as of the date they are "encumbered" by the Grantee pursuant to a contract or purchase order with a third party.

ARTICLE V. EARLY TERMINATION

A. Early Termination Before Reversion Date Due to Completion of the Project or Complete Expenditure of the Adjusted Appropriation or Violation of this Agreement

Early Termination includes:

(i) Termination due to completion of the Project before the Reversion Date; or
(ii) Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date; or
(iii) Termination for violation of the terms of this Agreement; or
(iv) Termination for suspected mishandling of public funds, including but not limited to, fraud, waste, abuse, conflicts of interest.

Either the Department or the Grantee may early terminate this Agreement prior to the Reversion Date by providing the other party with a minimum of fifteen (15) days' advance, written notice of early termination. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(A).

B. Early Termination Before Reversion Date Due to Non-appropriation

The terms of this Agreement are expressly made contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. Throughout this Agreement the term "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature: deauthorization, reauthorization or revocation of a prior authorization. The Legislature may choose to non-appropriate the Appropriation referred to Article I and, if that occurs, the Department shall early terminate this Agreement for non-appropriation by giving the Grantee written notice of such termination, as of the effective date of the law making the non-appropriation. The Department's decision as to whether sufficient appropriations or authorizations are available shall be accepted by the Grantee and shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(B).

C. Limitation on Department's Obligation to Make Grant Disbursements to Grantee in the Event of Early Termination

In the event of Early Termination of this Agreement by either party, the Department's sole obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth Article II.

ARTICLE VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. The Department may choose, in its absolute discretion, to direct the Grantee to suspend entering into new and further obligations.

(i) The Grantee shall immediately suspend entering into new or further written obligations with third parties upon the date the Grantee receives written notice given by the Department; and
(ii) The Department is, upon the date the Grantee receives written notice given by the Department, suspending issuance of any new or further Notice of Obligation under this Agreement; and
(iii) The Department may direct the Grantee to implement a corrective action plan in accordance with Article VI(D) herein.

B. In the event of Suspension of this Agreement, the Department's sole obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension

In the event that the Department chooses, in its absolute discretion to direct the Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension. Such corrective action plan must be approved by the Department and be signed by the Grantee. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan, is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(iii). The corrective action plan is in addition to, and not in lieu of, any other equitable or legal remedy, including but not limited to Early Termination.

ARTICLE VII. AMENDMENT

This Agreement shall not be altered, changed, or amended except by instrument in writing duly executed by both the parties hereto.

ARTICLE VIII. REPORTS

A. Database Reporting

The Grantee shall report monthly Project activity by entering such Project information as the Department and the Department of Finance and Administration may require, such information entered directly into a database maintained by the Department of Finance and Administration (http://cpms.dfa.state.nm.us). Additionally, the Grantee shall certify on the Request for Payment form (Exhibit 1) that updates have been maintained and are current in the database. The Grantee hereby acknowledges that failure to perform and/or certify updates into the database will delay or potentially jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of thirty (30) days' advance written notice of any changes to the information the Grantee is required to report.

Monthly reports shall be due on the last day of each month, beginning with the first full month following execution of this Agreement by the Department and ending upon the submission of the final request for reimbursement for the Project.

B. Requests for Additional Information/Project Inspection

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:
request such additional information regarding the Project as it deems necessary; and
conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.
Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

ARTICLE IX. REQUEST FOR PAYMENT PROCEDURES AND DEADLINES

A. The Grantee shall request payment by submitting a Request for Payment, in the form attached hereto as Exhibit 1. Payment requests are subject to the following procedures:

(i) The Grantee must submit one original and one copy of each Request for Payment; and

(ii) Each Request for Payment must contain proof of payment by the Grantee or liabilities incurred by the Grantee in the form of a notarized certification by Grantee's designated representative in Article III herein, that the expenditures are valid or are liabilities incurred by the Grantee in the form of actual unpaid invoices received by the Grantee of services rendered by a third party or items of tangible personal property received by the Grantee for the implementation of the Project; provided, however, that the Grantee may be reimbursed for unpaid liabilities only if the Department, in its discretion, agrees to do so and in accordance with any special conditions, see Exhibit 3, imposed by the Department.

(iii) In cases where the Grantee is submitting a Request for Payment to the Department based upon invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee, the Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or such shorter period of time as the Department may prescribe in writing.

B. The Grantee must obligate 5% of the Adjusted Appropriation Amount within six months of acceptance of the grant agreement and must have expended no less than 85% of the Adjusted Appropriation Amount six months prior to the reversion date.

C. **Deadlines**

Requests for Payments shall be submitted by Grantee to the Department on the earlier of:

(i) Immediately as they are received by the Grantee but at a minimum twenty (20) from the end of the calendar quarter in which the expenditure was incurred or liability of the Grantee was incurred as evidenced by an unpaid invoice received by the Grantee from a third-party contractor or vendor, if total unreimbursed expenditures or liabilities at calendar quarter end exceed $25,000; or

(ii) July 15 of each year for all unreimbursed expenditures incurred during the previous fiscal year; or

(iii) Twenty (20) days from date of Early Termination; or

(iv) Twenty (20) days from the Reversion Date.

D. The Grantee's failure to abide by the requirements set forth in Article II herein will result in the denial of its Request for Payment or will delay the processing of Requests for Payment. The Department has the right to reject a payment request for the Project unless and until it is satisfied that the expenditures in the Request for Payment are for permissible purposes within the meaning of the Project Description and that the expenditures and the Grantee are otherwise in compliance with this Agreement, including but not limited to, compliance with the reporting requirements and the requirements set forth in Article II herein to provide Third Party Obligations. The Department's ability to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department due to Grantee's violation of this Agreement.

ARTICLE X. PROJECT CONDITIONS AND RESTRICTIONS; REPRESENTATIONS AND WARRANTIES

A. The following general conditions and restrictions are applicable to the Project:

(i) The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the Procurement Code (or local procurement ordinance, where applicable).

(ii) The Project must be implemented in accordance with the New Mexico Public Works Minimum Works Act, Section 13-4-10 through 13-4-17 NMSA 1978, if applicable. Every contract or project in excess of sixty thousand dollars ($60,000) that the Grantee is a party to for construction, alteration, demolition or repair or any combination of these, including painting and decorating, of public buildings, public works or public roads and that requires or involves the employment of mechanics, laborers or both shall contain a provision stating the minimum wages and fringe benefits to be paid to various classes of laborers and mechanics, shall be based upon the wages and benefits that will be determined by the New Mexico Department of Workforce Solutions to be prevailing for the corresponding classes of laborers and mechanics employed on contract work of a similar nature in the locality. Further, every contract or project shall contain a stipulation that the contractor, subcontractor, employer or a person acting as a contractor shall pay all mechanics and laborers employed on the site of the project, unconditionally and not less often than once a week and without subsequent unlawful deduction or rebate on any account, the full amounts accrued at time of payment computed at wage rates and fringe benefit rates not less than those determined pursuant to Section 13-4-11 B. NMSA 1978 to be the prevailing wage rates and prevailing fringe benefit rates issued for the project.

(iii) The Project may only benefit private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico, the so-called "Anti-Donation Clause."

(iv) The Grantee shall not at any time convert any property acquired or developed with the Project's funds to uses other than those specified in the Project Description without the Department's express, advance, written approval.

(v) The Grantee shall comply with all federal and state laws, rules and regulations pertaining to equal employment opportunity. In accordance with all such laws, rules and regulations the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age or handicap, be excluded from employment with Grantee, be excluded from participation in the Project, be denied benefits or otherwise be subject to discrimination under, any activity performed under this Agreement. If Grantee is found to be not in compliance with these requirements during the life of this Agreement, Grantee agrees to take appropriate steps to correct any deficiencies. The Grantee's failure to implement such appropriate steps within a reasonable time constitutes grounds for terminating this Agreement.

B. The Grantee hereby represents and warrants the following:

(i) The Grantee has the legal authority to receive and expend the Project's funds.

(ii) This Agreement has been duly authorized by the Grantee, the person executing this Agreement has authority to do so, and, once executed by the Grantee, this Agreement shall constitute a binding obligation of the Grantee, enforceable according to its terms.

(iii) This Agreement and the Grantee's obligations hereunder do not conflict with any law or ordinance or resolution applicable to the Grantee, the Grantee's charter (if applicable), or any judgment or decree to which it is subject.

(iv) The Grantee has independently confirmed that the Project Description, including, but not limited to, the amount and Reversion Date, is consistent with the underlying appropriation in law.

(v) The Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign the Agreement and to sign Requests for Payment.

(vi) The Grantee shall abide by New Mexico laws regarding Conflict of Interest and Governmental Conduct and whistleblower protection. The Grantee specifically agrees that no officer or employee of the local jurisdiction or its designees or agents, no member of the governing body, and no other public official of the locality who exercises any function or responsibility with respect to this Grant, during his/her tenure or for one year thereafter, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed pursuant to this Grant. Further, Grantee shall require all of its contractors to incorporate in all subcontracts the language set forth in this paragraph prohibiting conflicts of interest.

(vii) No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of this or any agency or body in connection with the awarding of any Third-Party Obligation and that the Grantee shall require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans and cooperative agreements. All subrecipients shall be required to certify accordingly.

ARTICLE XI. STRICT ACCOUNTABILITY OF RECEIPTS AND DISBURSEMENTS; PROJECT RECORDS

A. The Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles, and, if feasible, maintain a separate bank account or fund with a separate organizational code, for the funds to assure separate budgeting and accounting of the funds.

B. For a period of six (6) years following the Project's completion, the Grantee shall maintain all Project related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the total funds from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department shall prescribe.

C. The Grantee shall make all Project records available to the Department and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor finds that any or all of these funds were improperly expended, the Grantee may be required to reimburse to the State of New Mexico, to the originating fund, any and all amounts found to be improperly expended.

ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines that part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to, Project funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, or violation of this Agreement, the Grantee shall return such funds to the Department for disposition in accordance with law.

ARTICLE XIII. LIABILITY

Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Grantee and Department concerning the subject matter hereof. The Agreement supersedes any and all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

ARTICLE XV. REQUIRED NON-APPROPRIATIONS CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

The Grantee acknowledges and agrees that Grantee shall include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

"The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, the City of Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination. The City of Santa Fe's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. Contractor hereby waives any rights to assert an impairment of contract claim against the City of Santa Fe or the Aging and Long-Term Service Department or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the City of Santa Fe or the Department."

ARTICLE XVI. REQUIRED TERMINATION CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

Grantee acknowledges and agrees that Grantee shall include the following or a termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

"This contract is funded in whole or in part by funds made available under the Aging and Long-Term Services Department Grant Agreement. Should the Aging and Long-Term Services Department early terminate the grant agreement, the City of Santa Fe may early terminate this contract by providing Contractor written notice of such termination. In the event of termination pursuant to this paragraph, the City of Santa Fe's only liability shall be to pay Contractor for acceptable goods delivered and services rendered before the termination date."

Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department.

XVII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA.

A. Throughout the term of this Agreement, Grantee shall:

1. submit all reports of annual audits and agreed upon procedures required by Section 12-6-3(A)-(B) NMSA 1978 by the due dates established in 2.2.2 NMAC, reports of which must be a public record pursuant to Section 12-6-5(A) NMSA 1978 within forty-five days of delivery to the State Auditor;
2. have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);
3. timely submit all required financial reports to its budgetary oversight agency (if any); and
4. have adequate accounting methods and procedures to expend grant funds in accordance with applicable law and account for and safeguard grant funds and assets acquired by grant funds.

B. In the event Grantee fails to comply with the requirements of Paragraph A of this Article XVII, the Department may take one or more of the following actions:

1. suspend new or further obligations pursuant to Article VI(A) of this Agreement;
2. require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;
3. impose special grant conditions to address the non-compliance by giving the Grantee notice of such special conditions in accordance with Article III of this Agreement; the special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III; or
4. terminate this Agreement pursuant to Article V(A) of this Agreement.

ARTICLE XVIII. SEVERANCE TAX BOND AND GENERAL OBLIGATION BOND PROJECT CLAUSES

A. Grantee acknowledges and agrees that the underlying appropriation for the Project is a severance tax bond or general obligation bond appropriation, which is administered by the New Mexico State Board of Finance (BOF), an entity separate and distinct from the Department. Grantee acknowledges and agrees that (i) it is Grantee's sole responsibility to determine through BOF staff what (if any) conditions are currently imposed on the Project; (ii) the Department's failure to inform Grantee of a BOF imposed condition does not affect the validity or enforceability of the condition; (iii) the BOF may in the future impose further or different conditions upon the Project; (iv) all BOF conditions are effective without amendment of this Agreement; (v) all applicable BOF conditions must be satisfied before the BOF will release to the Department funds subject to the condition(s); and (vi) the Department's obligation to reimburse Grantee from the Project is contingent upon the then current BOF conditions being satisfied.

B. Grantee acknowledges and agrees that the SBOF may in its sole and absolute discretion remove a project's assigned bond proceeds if the project doesn't proceed sufficiently. Entities must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified

by the grantee in the Bond Questionnaire and Certification documents submitted to the SBOF. Failure to comply may result in the bond proceeds reassignment to a new ready project. If this should occur this grant agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, NMAC 2.61.6, as may be amended or re-codified. The rule provides definitions and interpretations of grant language for the purpose of determining whether a particular activity is allowable under the authorizing language of the agreement.

[THIS SPACE LEFT BLANK INTENTIONALLY]

IN WITNESS WHEREOF, the parties have duly executed this Agreement as of the date of execution by the Department.

1 Administrative and/or Indirect Cost – generally, the legislation authorizing the issuance of bonds prohibits the use of its proceeds for indirect expenses (e.g. penalty fees or damages other than pay for work performed, attorney fees, and administrative fees). Such use of bond proceeds shall not be allowed unless specifically authorized by statute.

EXHIBIT 3
ALTSD CAPITAL OUTLAY
SPECIAL GRANT CONDITIONS

The capital outlay oversight requires grantees' accounting methods and procedures, including their internal control framework, to be scrutinized, so as to safeguard State capital outlay appropriations and assets acquired with such appropriations.

This Capital Outlay Special Grant Condition(s) **Exhibit 3** is necessary pursuant to Executive Order 2013-006 (2.A.2.a-c, if applicable), due to the Grantees' material weaknesses, significant deficiencies, or findings that raised concerns as to the ability to expend grant funds in accordance with applicable law in the organization's current published audit. The Special Conditions identified below apply to the authorized agent, City of Santa Fe.

The City of Santa Fe's special conditions have been cleared by DFA/Local Government and are no longer required to provide documentation regarding special conditions. Therefore, the criteria to enter into this agreement have been met.

GRANT AGREEMENT AMENDMENT 2 – E5288

STATE OF NEW MEXICO AGING AND LONG-TERM SERVICES DEPARTMENT

FUND 89200 CAPITAL APPROPRIATION PROJECT

I. This is an AMENDMENT to the GRANT AGREEMENT between Aging and Long-Term Services Department, hereafter known as "Department," or abbreviation such as "ALTSD," and the MARY ESTHER GONZALES SENIOR CENTER, of the CITY OF SANTA FE, in SANTA FE COUNTY, hereinafter called the "Grantee." When this GRANT AGREEMENT AMENDMENT is signed by both the Department and the Grantee, it becomes official and legally binding between both parties.

II. AMENDMENT: This amendment extends the reversion date for encumbered funds under grant number E5288, appropriated pursuant to Laws of 2020, Chapter 84, Section 10, Paragraph 89. This extension was approved by the New Mexico State Board of Finance. The original reversion date was 6/30/2024, the new reversion date is 06/30/2026.

III. The amendment is to extend the expenditure period for all encumbered obligations submitted prior to the original reversion date, in the amount of $ 133,762.68. No additional action need be taken regarding encumbered obligations submitted prior to the original reversion date.

IV. The Grantee agrees to abide by all terms, requirements and provisions of the original GRANT AGREEMENT that are not specifically changed by this AMENDMENT.

V. The Department's point of contact for this Amended GRANT AGREEMENT is:

Name: Tasha Martinez
Title: Bureau Chief
Address: 2550 Cerrillos Rd., Santa Fe, NM 87505
Email: capital.outlay@altsd.nm.gov
Telephone: 505.316.8900

VI. The Grantee's point of contact for this Amended GRANT AGREEMENT is:

Grantee: City of Santa Fe
Name: Manuel Sanchez
Title: Senior Services Division Director
Address: 1121 Alto Street, Santa Fe, NM 87501
Email: mnsanchez@santafenm.gov
Telephone: 505-955-4710

This AMENDMENT is signed and agreed to by individual(s) who are legally authorized to sign legally binding documents on behalf of the Department and Grantee.

GRANT AGREEMENT AMENDMENT 1 – A20E5288

STATE OF NEW MEXICO AGING AND LONG-TERM SERVICES DEPARTMENT

FUND 89200 CAPITAL APPROPRIATION PROJECT

I. This is an AMENDMENT to the GRANT AGREEMENT between Aging and Long-Term Services Department, hereafter known as "Department", or abbreviation such as "ALTSD", and Mary Esther Gonzales senior center, in the City of Santa Fe, in Santa Fe County, hereinafter called the "Grantee". When this GRANT AGREEMENT AMENDMENT is signed by both the Department and the Grantee, it becomes official and legally binding between both parties.

II. AMENDMENT: This amendment seeks to extend the reversion date for encumbered funds under Senate Bill 207 from the 2020 Capital Projects General Obligation Bond Act. The current reversion date of June 30, 2024. The proposed extension is until June 30, 2025.

III. The amendment is to extend the expenditure period for those encumbered obligations submitted prior to the original reversion date in the amount of $2,311,925.49.

IV. The Grantee agrees to abide by all terms, requirements and provisions of the original GRANT AGREEMENT that are not specifically changed by this AMENDMENT.

V. The Department's point of contact for this Amended GRANT AGREEMENT is:

Name: Tasha Martinez
Title: Bureau Chief
Address: 2550 Cerrillos Rd., Santa Fe, NM 87505

STATE OF NEW MEXICO
AGING AND LONG-TERM SERVICES DEPARTMENT
FUND 89200 CAPITAL APPROPRIATION PROJECT

THIS AGREEMENT is made and entered into as of this 17 day of November, 2022, by and between the Aging and Long-Term Services Department, 2550 Cerrillos Road, Santa Fe, New Mexico, 87505, hereinafter called the "Department" or abbreviation such as "ALTSD", and the City of Santa Fe, hereinafter called the "Grantee". This Agreement shall be effective as of the date it is executed by the Department.

RECITALS

WHEREAS, in the Laws of 2020, Chp. 84, Section 10, Subsection A, Paragraph 89 the Legislature made an appropriation to the Department, funds from which the Department is making available to the Grantee pursuant to this Agreement; and

WHEREAS, the Department is granting to Grantee, and the Grantee is accepting the grant of, funds from

WHEREAS, State Agency on Aging (28-4-1 to 28-4-9 NMSA 1978: successor agency, Aging and Long-Term Services Department (9-23-1 to 9-23-12 NMSA 1978) may enter into grants and contracts as appropriated by law.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations contained herein, the parties hereby mutually agree as follows:

ARTICLE I. PROJECT DESCRIPTION, AMOUNT OF GRANT AND REVERSION DATE

A. The project that is the subject of this Agreement is described as follows:

A20E5288 $2,484,852 APPROPRIATION REVERSION DATE: 30-June-2024

Laws of 2020, Chapter 84, Section 10, Subsection A, Paragraph 89, two million four hundred eight-four thousand eight hundred fifty-two dollars $2,484,852 to plan, design, construct, equip and furnish the Mary Esther Gonzales senior center in Santa Fe in Santa Fe County.

The Grantee's total reimbursements shall not exceed the appropriation two million four hundred eight-four thousand eight hundred fifty-two dollars $2,484,852 (the "Appropriation Amount") minus the allocation for Art in Public Places ("AIPP amount")[1], if applicable, twenty-four thousand eight hundred forty-nine dollars $24,849, which equals two million four hundred sixty thousand three dollars $2,460,003, (the "Adjusted Appropriation Amount").

In the event of a conflict among the Appropriation Amount, the Reversion Date, as defined herein and/or the purpose of the Project, as set forth in this Agreement, and the corresponding appropriation language in the laws cited above in this Article I(A), the language of the laws cited herein shall control.

[1] The AIPP amount is "an amount of money equal to one percent or two hundred thousand dollars ($200,000), whichever is less, of the amount of money appropriated for new construction or any major renovation exceeding one hundred thousand dollars ($100,000)." Section 13-4A-4 NMSA 1978.

This project is referred to throughout the remainder of this Agreement as the "Project"; the information contained in Article I(A) is referred to collectively throughout the remainder of this Agreement as the "Project Description." Exhibit 4 sets forth additional or more stringent requirements and conditions, which are incorporated by this reference as if, set forth fully herein. If Exhibit 4 imposes more stringent requirements than any requirement set forth in this Agreement, the more stringent requirements of Exhibit 4 shall prevail, in the event of irreconcilable conflict. The Grantee shall reference the Project's number in all correspondence with and submissions to the Department concerning the Project, including, but not limited to, Requests for Payment and reports.

ARTICLE II. LIMITATION ON DEPARTMENT'S OBLIGATION TO MAKE GRANT DISBURSEMENT TO GRANTEE

A. Upon the Effective Date of this Agreement, for permissible purposes within the scope of the Project Description, the Grantee shall only be reimbursed monies for which the Department has issued and the Grantee has received a Notice of Department's Obligation to Reimburse[2] Grantee (hereinafter referred to as "Notice of Obligation"). This Grant Agreement and the disbursement of any and all amounts of the above referenced Adjusted Appropriation Amount are expressly conditioned upon the following:

(i) Irrespective of any Notice of Obligation, the Grantee's expenditures shall be made on or before the Reversion Date and, if applicable, an Early Termination Date (i.e., the goods have been delivered and accepted or the title to the goods has been transferred to the Grantee and/or the services have been rendered for the Grantee); and

(ii) The total amount received by the Grantee shall not exceed the lesser of: (a) the Adjusted Appropriation Amount identified in Article I(A) herein or (b) the total of all amounts stated in the Notice(s) of Obligation evidencing that the Department has received and accepted the Grantee's Third-Party Obligation(s), as defined in subparagraph iii of this Article II(A); and

(iii) The Grantee's expenditures were made pursuant to the Grantee's legal procurement and execution of binding written obligations or purchase orders with third party contractors or vendors for the provision of services, including professional services, or the purchase of tangible personal property and real property for the Project, hereinafter referred to as "Third Party Obligations"; and

(iv) The Grantee's submittal of timely Requests for Payment in accordance with the procedures set forth in Article IX of this Agreement;

(v) In the event that capital assets acquired with Project funds are to be sold, leased, or licensed to or operated by a private Grantee or Fiscal Agent for Grantee, the sale, lease, license, or operating agreement:

   a. must be approved by the applicable oversight entity or Fiscal Agent for Grantee (if any) in accordance with law; or
   b. if no oversight entity or Fiscal Agent for Grantee is required to approve of the transaction, the Department must approve of the transaction as complying with law.

   Prior to the sale, lease, license, or operating agreement being approved pursuant to subparagraph (a) or (b) above, the Department may, in its discretion and unless inconsistent with New Mexico State Board of Finance imposed conditions, reimburse the Grantee for necessary expenditures incurred to develop the Project sufficiently to make the sale, lease, license, or operating agreement commercially feasible, such as plan and design expenditures; and

(vi) The Grantee's submittal of documentation of all Third-Party Obligations and amendments thereto (including terminations) to the Department and the Department's issuance and the Grantee's receiving

[2] "Reimburse" as used throughout this Agreement includes Department payments to the Grantee for invoices received, but not yet paid, by the Grantee from a third-party contractor or vendor if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee.

of a Notice of Obligation for a particular amount in accordance with the terms of this Agreement as follows:

a. The Grantee shall submit to the Department one copy of all Third-Party Obligations and amendments thereto (including terminations) as soon as possible after execution by the Third Party but prior to execution by the Grantee.
b. Grantee acknowledges and agrees that if it chooses to enter into a Third-Party Obligation prior to receiving a Notice of Obligation that covers the expenditure, it is solely responsible for such expenditures.
c. The Department may, in its absolute discretion, issue to Grantee a Notice of Obligation for the particular amount of that Third Party Obligation that only obligates the Department to reimburse Grantee's expenditures made on or before the Reversion Date or an Early Termination Date. The current Notice of Obligation form is attached to this Agreement as Exhibit 2.
d. The date the Department sends, by mail or email, the Notice of Obligation is the date that the Department's Notice of Obligation is effective. After that date, the Grantee is authorized to budget the particular amount set forth in the Notice of Obligation, execute the Third-Party Obligation and request the Third Party begin work.

B. The Grantee shall implement, in all respects, the Project. The Grantee shall provide all necessary qualified personnel, material, and facilities to implement the Project. The Grantee shall finance its share (if any) of the costs of the Project, including all Project overruns.

C. Project funds shall not be used for purposes other than those specified in the Project Description.

D. Unless specifically allowed by law, Project funds cannot be used to reimburse Grantee for indirect Project costs.

ARTICLE III. NOTICE PROVISIONS AND GRANTEE AND DEPARTMENT DESIGNATED REPRESENTATIVES

Whenever written notices, including written decisions, are to be given or received, related to this Agreement, the following provisions shall apply.

The Grantee and the Department hereby designate the persons listed below as their official representative concerning all matters related to this Agreement:

Name:	Gino Rinaldi
Title:	Director
Address:	PO Box 909 Santa Fe NM 87504
Email:	earinaldi@santafenm.gov
Phone:	505-955-4710

Name:	Caryn Grosse
Title:	Facilities CIP Project Manager
Address:	2651 Siringo Road, Building E, Santa Fe, NM 87505
Email:	clgrosse@santafenm.gov
Phone:	505-955-5938

Department:	Aging and Long-Term Services Department
Name:	Barbara J. Romero
Title:	Capital Projects Bureau Chief
Address:	2550 Cerrillos Rd., Santa Fe, NM 87505
Email:	barbara.romero@state.nm.us
Telephone:	505-365-3660

The Grantee and the Department agree that either party shall send all notices, including written decisions, related to this Agreement to the above-named persons by facsimile, email, or regular mail. In the case of mailings, notices shall be deemed to have been given and received upon the date of the receiving party's actual receipt or five calendar days after mailing, whichever shall first occur. In the case of facsimile transmissions, the notice shall be deemed to have been given and received on the date reflected on the facsimile confirmation indicating a successful transmission of all pages included in the writing. In the case of email transmissions, the notice shall be deemed to have been given and received on the date reflected on the delivery receipt of email.

ARTICLE IV. REVERSION DATE, TERM, EARLY TERMINATION

A. As referenced in Article I(A), the applicable law establishes a date by which Project funds must be expended by Grantee, which is referred to throughout the remainder of this Agreement as the "Reversion Date." Upon being duly executed by both parties, this Agreement shall be effective as of the date of execution by the Department. It shall terminate on June 30, 2024, the Reversion Date unless Terminated Before Reversion Date ("Early Termination") pursuant to Article V herein.

B. The Project's funds must be "expended" on or before the Reversion Date and, if applicable, Early Termination Date of this Agreement. For purposes of this Agreement, it is not sufficient for the Grantee to "encumber" the Project funds on its books on or before the Project's Reversion Date or Early Termination Date. Funds are "expended" and an "expenditure" has occurred as of the date that a particular quantity of goods are delivered to and received by the Grantee or title to the goods is transferred to the Grantee and/or as of the date particular services are rendered for the Grantee. Funds are *not* "expended" and an "expenditure" has *not* occurred as of the date they are "encumbered" by the Grantee pursuant to a contract or purchase order with a third party.

ARTICLE V. EARLY TERMINATION

A. Early Termination Before Reversion Date Due to Completion of the Project or Complete Expenditure of the Adjusted Appropriation or Violation of this Agreement

Early Termination includes:

(i) Termination due to completion of the Project before the Reversion Date; or
(ii) Termination due to complete expenditure of the Adjusted Appropriation Amount before the Reversion Date; or
(iii) Termination for violation of the terms of this Agreement; or
(iv) Termination for suspected mishandling of public funds, including but not limited to, fraud, waste, abuse, conflicts of interest.

Either the Department or the Grantee may early terminate this Agreement prior to the Reversion Date by providing the other party with a minimum of fifteen (15) days' advance, written notice of early termination. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(A).

B. Early Termination Before Reversion Date Due to Non-appropriation

The terms of this Agreement are expressly made contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. Throughout this Agreement the term "non-appropriate" or "non-appropriation" includes the following actions by the New Mexico Legislature: deauthorization, reauthorization or revocation of a prior authorization. The Legislature may choose to non-appropriate the Appropriation referred to Article I and, if that occurs, the Department shall early terminate this Agreement for non-appropriation by giving the Grantee written notice of such termination, as of the effective date of the law making the non-appropriation. The Department's decision as to whether sufficient appropriations or authorizations are available shall be accepted by the Grantee and shall be final. Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department pursuant to Article V(B).

C. Limitation on Department's Obligation to Make Grant Disbursements to Grantee in the Event of Early Termination

In the event of Early Termination of this Agreement by either party, the Department's sole obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth Article II.

ARTICLE VI. SUSPENSION OF NEW OR FURTHER OBLIGATIONS

A. The Department may choose, in its absolute discretion, to direct the Grantee to suspend entering into new and further obligations.

(i) The Grantee shall immediately suspend entering into new or further written obligations with third parties upon the date the Grantee receives written notice given by the Department; and
(ii) The Department is, upon the date the Grantee receives written notice given by the Department, suspending issuance of any new or further Notice of Obligation under this Agreement; and
(iii) The Department may direct the Grantee to implement a corrective action plan in accordance with Article VI(D) herein.

B. In the event of Suspension of this Agreement, the Department's sole obligation to reimburse the Grantee is expressly conditioned upon the limitations set forth in Article II herein.

C. A suspension of new or further obligations under this Agreement shall remain in effect unless or until the date the Grantee receives written notice given by the Department informing the Grantee that the Suspension has been lifted or that the Agreement has been Early Terminated in accordance with Article V herein. If the Suspension is lifted, the Department will consider further requests for Notice of Obligation.

D. Corrective Action Plan in the Event of Suspension

In the event that the Department chooses, in its absolute discretion to direct the Grantee to suspend entering into new or further written obligations with third parties pursuant to Article VI(A), the Department may, but is not obligated to, require the Grantee to develop and implement a written corrective action plan to remedy the grounds for the Suspension. Such corrective action plan must be approved by the Department and be signed by the Grantee. Failure to sign a corrective action plan or meet the terms and deadlines set forth in the signed corrective action plan, is hereby deemed a violation of the terms of this Agreement for purposes of Early Termination, Article V(A)(iii). The corrective action plan is in addition to, and not in lieu of, any other equitable or legal remedy, including but not limited to Early Termination.

ARTICLE VII. AMENDMENT

This Agreement shall not be altered, changed, or amended except by instrument in writing duly executed by both the parties hereto.

ARTICLE VIII. REPORTS

A. Database Reporting

The Grantee shall report monthly Project activity by entering such Project information as the Department and the Department of Finance and Administration may require, such information entered directly into a database maintained by the Department of Finance and Administration (http://cpms.dfa.state.nm.us). Additionally, the Grantee shall certify on the Request for Payment form (Exhibit 1) that updates have been maintained and are current in the database. The Grantee hereby acknowledges that failure to perform and/or certify updates into the database will delay or potentially jeopardize the reimbursement of funds. The Department shall give Grantee a minimum of thirty (30) days' advance written notice of any changes to the information the Grantee is required to report.

Monthly reports shall be due on the last day of each month, beginning with the first full month following execution of this Agreement by the Department and ending upon the submission of the final request for reimbursement for the Project.

B. Requests for Additional Information/Project Inspection

During the term of this Agreement and during the period of time during which the Grantee must maintain records pursuant to Article VIII, the Department may:
request such additional information regarding the Project as it deems necessary; and
conduct, at reasonable times and upon reasonable notice, onsite inspections of the Project.
Grantee shall respond to such requests for additional information within a reasonable period of time, as established by the Department.

ARTICLE IX. REQUEST FOR PAYMENT PROCEDURES AND DEADLINES

A. The Grantee shall request payment by submitting a Request for Payment, in the form attached hereto as Exhibit 1. Payment requests are subject to the following procedures:

(i) The Grantee must submit one original and one copy of each Request for Payment; and

(ii) Each Request for Payment must contain proof of payment by the Grantee or liabilities incurred by the Grantee in the form of a notarized certification by Grantee's designated representative in Article III herein, that the expenditures are valid or are liabilities incurred by the Grantee in the form of actual unpaid invoices received by the Grantee of services rendered by a third party or items of tangible personal property received by the Grantee for the implementation of the Project; provided, however, that the Grantee may be reimbursed for unpaid liabilities only if the Department, in its discretion, agrees to do so and in accordance with any special conditions, see Exhibit 3, imposed by the Department.

(iii) In cases where the Grantee is submitting a Request for Payment to the Department based upon invoices received, but not yet paid, by the Grantee from a third party contractor or vendor, if the invoices comply with the provisions of this Agreement and are a valid liability of the Grantee, the Grantee shall make payment to those contractors or vendors within five (5) business days from the date of receiving reimbursement from the Department or such shorter period of time as the Department may prescribe in writing.

B. The Grantee must obligate 5% of the Adjusted Appropriation Amount within six months of acceptance of the grant agreement and must have expended no less than 85% of the Adjusted Appropriation Amount six months prior to the reversion date.

C. Deadlines

Requests for Payments shall be submitted by Grantee to the Department on the earlier of:

(i) Immediately as they are received by the Grantee but at a minimum twenty (20) from the end of the calendar quarter in which the expenditure was incurred or liability of the Grantee was incurred as evidenced by an unpaid invoice received by the Grantee from a third-party contractor or vendor, if total unreimbursed expenditures or liabilities at calendar quarter end exceed $25,000; or

(ii) July 15 of each year for all unreimbursed expenditures incurred during the previous fiscal year; or

(iii) Twenty (20) days from date of Early Termination; or

(iv) Twenty (20) days from the Reversion Date.

D. The Grantee's failure to abide by the requirements set forth in Article II herein will result in the denial of its Request for Payment or will delay the processing of Requests for Payment. The Department has the right to reject a payment request for the Project unless and until it is satisfied that the expenditures in the Request for Payment are for permissible purposes within the meaning of the Project Description and that the expenditures and the Grantee are otherwise in compliance with this Agreement, including but not limited to, compliance with the reporting requirements and the requirements set forth in Article II herein to provide Third Party Obligations. The Department's ability to reject any Request for Payment is in addition to, and not in lieu of, any other legal or equitable remedy available to the Department due to Grantee's violation of this Agreement.

ARTICLE X. PROJECT CONDITIONS AND RESTRICTIONS; REPRESENTATIONS AND WARRANTIES

A. The following general conditions and restrictions are applicable to the Project:

(i) The Project's funds must be spent in accordance with all applicable state laws, regulations, policies, and guidelines, including, but not limited to, the Procurement Code (or local procurement ordinance, where applicable).

(ii) The Project must be implemented in accordance with the New Mexico Public Works Minimum Works Act, Section 13-4-10 through 13-4-17 NMSA 1978, if applicable. Every contract or project in excess of sixty thousand dollars ($60,000) that the Grantee is a party to for construction, alteration, demolition or repair or any combination of these, including painting and decorating, of public buildings, public works or public roads and that requires or involves the employment of mechanics, laborers or both shall contain a provision stating the minimum wages and fringe benefits to be paid to various classes of laborers and mechanics, shall be based upon the wages and benefits that will be determined by the New Mexico Department of Workforce Solutions to be prevailing for the corresponding classes of laborers and mechanics employed on contract work of a similar nature in the locality. Further, every contract or project shall contain a stipulation that the contractor, subcontractor, employer or a person acting as a contractor shall pay all mechanics and laborers employed on the site of the project, unconditionally and not less often than once a week and without subsequent unlawful deduction or rebate on any account, the full amounts accrued at time of payment computed at wage rates and fringe benefit rates not less than those determined pursuant to Section 13-4-11 B. NMSA 1978 to be the prevailing wage rates and prevailing fringe benefit rates issued for the project.

(iii) The Project may only benefit private entities in accordance with applicable law, including, but not limited to, Article IX, Section 14 of the Constitution of the State of New Mexico, the so-called "Anti-Donation Clause."

(iv) The Grantee shall not at any time convert any property acquired or developed with the Project's funds to uses other than those specified in the Project Description without the Department's express, advance, written approval.

(v) The Grantee shall comply with all federal and state laws, rules and regulations pertaining to equal employment opportunity. In accordance with all such laws, rules and regulations the Grantee agrees to assure that no person shall, on the grounds of race, color, national origin, sex, sexual preference, age or handicap, be excluded from employment with Grantee, be excluded from participation in the Project, be denied benefits or otherwise be subject to discrimination under, any activity performed under this Agreement. If Grantee is found to be not in compliance with these requirements during the life of this Agreement, Grantee agrees to take appropriate steps to correct any deficiencies. The Grantee's failure to implement such appropriate steps within a reasonable time constitutes grounds for terminating this Agreement.

B. The Grantee hereby represents and warrants the following:

(i) The Grantee has the legal authority to receive and expend the Project's funds.

(ii) This Agreement has been duly authorized by the Grantee, the person executing this Agreement has authority to do so, and, once executed by the Grantee, this Agreement shall constitute a binding obligation of the Grantee, enforceable according to its terms.

(iii) This Agreement and the Grantee's obligations hereunder do not conflict with any law or ordinance or resolution applicable to the Grantee, the Grantee's charter (if applicable), or any judgment or decree to which it is subject.

(iv) The Grantee has independently confirmed that the Project Description, including, but not limited to, the amount and Reversion Date, is consistent with the underlying appropriation in law.

(v) The Grantee's governing body has duly adopted or passed as an official act a resolution, motion, or similar action authorizing the person identified as the official representative of the Grantee to sign the Agreement and to sign Requests for Payment.

(vi) The Grantee shall abide by New Mexico laws regarding Conflict of Interest and Governmental Conduct and whistleblower protection. The Grantee specifically agrees that no officer or employee of the local jurisdiction or its designees or agents, no member of the governing body, and no other public official of the locality who exercises any function or responsibility with respect to this Grant, during his/her tenure or for one year thereafter, shall have any interest, direct or indirect, in any contract or subcontract, or the proceeds thereof, for work to be performed pursuant to this Grant. Further, Grantee shall require all of its contractors to incorporate in all subcontracts the language set forth in this paragraph prohibiting conflicts of interest.

(vii) No funds have been paid or will be paid, by or on behalf of the Grantee, to any person for influencing or attempting to influence an officer or employee of this or any agency or body in connection with the awarding of any Third-Party Obligation and that the Grantee shall require certifying language prohibiting lobbying to be included in the award documents for all subawards, including subcontracts, loans and cooperative agreements. All subrecipients shall be required to certify accordingly.

ARTICLE XI. STRICT ACCOUNTABILITY OF RECEIPTS AND DISBURSEMENTS; PROJECT RECORDS

A. The Grantee shall be strictly accountable for receipts and disbursements relating to the Project's funds. The Grantee shall follow generally accepted accounting principles, and, if feasible, maintain a separate bank account or fund with a separate organizational code, for the funds to assure separate budgeting and accounting of the funds.

B. For a period of six (6) years following the Project's completion, the Grantee shall maintain all Project related records, including, but not limited to, all financial records, requests for proposals, invitations to bid, selection and award criteria, contracts and subcontracts, advertisements, minutes of pertinent meetings, as well as records sufficient to fully account for the amount and disposition of the total funds from all sources budgeted for the Project, the purpose for which such funds were used, and such other records as the Department shall prescribe.

C. The Grantee shall make all Project records available to the Department and the New Mexico State Auditor upon request. With respect to the funds that are the subject of this Agreement, if the State Auditor finds that any or all of these funds were improperly expended, the Grantee may be required to reimburse to the State of New Mexico, to the originating fund, any and all amounts found to be improperly expended.

ARTICLE XII. IMPROPERLY REIMBURSED FUNDS

If the Department determines that part or all of the Appropriation Amount was improperly reimbursed to Grantee, including but not limited to, Project funds reimbursed to Grantee based upon fraud, mismanagement, misrepresentation, misuse, violation of law by the Grantee, or violation of this Agreement, the Grantee shall return such funds to the Department for disposition in accordance with law.

ARTICLE XIII. LIABILITY

Neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Any liability incurred in connection with this Agreement is subject to immunities and limitations of the New Mexico Tort Claims Act.

ARTICLE XIV. SCOPE OF AGREEMENT

This Agreement constitutes the entire and exclusive agreement between the Grantee and Department concerning the subject matter hereof. The Agreement supersedes any and all prior or contemporaneous agreements, understandings, discussions, communications, and representations, written or verbal.

ARTICLE XV. REQUIRED NON-APPROPRIATIONS CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

The Grantee acknowledges and agrees that Grantee shall include a "non-appropriations" clause in all contracts between it and other parties that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement that states:

"The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, the City of Santa Fe may immediately terminate this Agreement by giving Contractor written notice of such termination. The City of Santa Fe's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. Contractor hereby waives any rights to assert an impairment of contract claim against the City of Santa Fe or the Aging and Long-Term Service Department or the State of New Mexico in the event of immediate or Early Termination of this Agreement by the City of Santa Fe or the Department."

ARTICLE XVI. REQUIRED TERMINATION CLAUSE IN CONTRACTS FUNDED IN WHOLE OR PART BY FUNDS MADE AVAILABLE UNDER THIS AGREEMENT

Grantee acknowledges and agrees that Grantee shall include the following or a termination clause in all contracts that are (i) funded in whole or part by funds made available under this Agreement and (ii) entered into after the effective date of this Agreement:

"This contract is funded in whole or in part by funds made available under the Aging and Long-Term Services Department Grant Agreement. Should the Aging and Long-Term Services Department early terminate the grant agreement, the City of Santa Fe may early terminate this contract by providing Contractor written notice of such termination. In the event of termination pursuant to this paragraph, the City of Santa Fe's only liability shall be to pay Contractor for acceptable goods delivered and services rendered before the termination date."

Grantee hereby waives any rights to assert an impairment of contract claim against the Department or the State of New Mexico in the event of Early Termination of this Agreement by the Department.

XVII. COMPLIANCE WITH UNIFORM FUNDING CRITERIA.

A. Throughout the term of this Agreement, Grantee shall:

1. submit all reports of annual audits and agreed upon procedures required by Section 12-6-3(A)-(B) NMSA 1978 by the due dates established in 2.2.2 NMAC, reports of which must be a public record pursuant to Section 12-6-5(A) NMSA 1978 within forty-five days of delivery to the State Auditor;
2. have a duly adopted budget for the current fiscal year approved by its budgetary oversight agency (if any);
3. timely submit all required financial reports to its budgetary oversight agency (if any); and
4. have adequate accounting methods and procedures to expend grant funds in accordance with applicable law and account for and safeguard grant funds and assets acquired by grant funds.

B. In the event Grantee fails to comply with the requirements of Paragraph A of this Article XVII, the Department may take one or more of the following actions:

1. suspend new or further obligations pursuant to Article VI(A) of this Agreement;
2. require the Grantee to develop and implement a written corrective action plan pursuant to Article VI(D) of this Agreement to remedy the non-compliance;
3. impose special grant conditions to address the non-compliance by giving the Grantee notice of such special conditions in accordance with Article III of this Agreement; the special conditions shall be binding and effective on the date that notice is deemed to have been given pursuant to Article III; or
4. terminate this Agreement pursuant to Article V(A) of this Agreement.

ARTICLE XVIII. SEVERANCE TAX BOND AND GENERAL OBLIGATION BOND PROJECT CLAUSES

A. Grantee acknowledges and agrees that the underlying appropriation for the Project is a severance tax bond or general obligation bond appropriation, which is administered by the New Mexico State Board of Finance (BOF), an entity separate and distinct from the Department. Grantee acknowledges and agrees that (i) it is Grantee's sole responsibility to determine through BOF staff what (if any) conditions are currently imposed on the Project; (ii) the Department's failure to inform Grantee of a BOF imposed condition does not affect the validity or enforceability of the condition; (iii) the BOF may in the future impose further or different conditions upon the Project; (iv) all BOF conditions are effective without amendment of this Agreement; (v) all applicable BOF conditions must be satisfied before the BOF will release to the Department funds subject to the condition(s); and (vi) the Department's obligation to reimburse Grantee from the Project is contingent upon the then current BOF conditions being satisfied.

B. Grantee acknowledges and agrees that the SBOF may in its sole and absolute discretion remove a project's assigned bond proceeds if the project doesn't proceed sufficiently. Entities must comply with the requirement to encumber five percent (5%) of Project funds within six months of bond issuance as certified

by the grantee in the Bond Questionnaire and Certification documents submitted to the SBOF. Failure to comply may result in the bond proceeds reassignment to a new ready project. If this should occur this grant agreement will be suspended until the entity has demonstrated readiness as determined by the SBOF and the Department.

C. Grantee acknowledges and agrees that this Agreement is subject to the SBOF's Bond Project Disbursements rule, NMAC 2.61.6, as may be amended or re-codified. The rule provides definitions and interpretations of grant language for the purpose of determining whether a particular activity is allowable under the authorizing language of the agreement.

[THIS SPACE LEFT BLANK INTENTIONALLY]

IN WITNESS WHEREOF, the parties have duly executed this Agreement as of the date of execution by the Department.

1 Administrative and/or Indirect Cost – generally, the legislation authorizing the issuance of bonds prohibits the use of its proceeds for indirect expenses (e.g. penalty fees or damages other than pay for work performed, attorney fees, and administrative fees). Such use of bond proceeds shall not be allowed unless specifically authorized by statute.

EXHIBIT 3
ALTSD CAPITAL OUTLAY
SPECIAL GRANT CONDITIONS

The capital outlay oversight requires grantees' accounting methods and procedures, including their internal control framework, to be scrutinized, so as to safeguard State capital outlay appropriations and assets acquired with such appropriations.

This Capital Outlay Special Grant Condition(s) **Exhibit 3** is necessary pursuant to Executive Order 2013-006 (2.A.2.a-c, if applicable), due to the Grantees' material weaknesses, significant deficiencies, or findings that raised concerns as to the ability to expend grant funds in accordance with applicable law in the organization's current published audit. The Special Conditions identified below apply to the authorized agent, City of Santa Fe.

The City of Santa Fe's special conditions have been cleared by DFA/Local Government and are no longer required to provide documentation regarding special conditions. Therefore, the criteria to enter into this agreement have been met.

EXHIBIT 4
ALTSD CAPITAL OUTLAY
PROJECT DESCRIPTION
SCOPE OF WORK (SOW)

PROJECT DESCRIPTION FORM
SCOPE OF WORK (SOW)
(Please email per instructions to ALTSD in WORD format)

1. Name of Grantee/ Fiscal Agent: City of Santa Fe
2. Project Title: Mary Esther Gonzales Senior Center Construction
3. Grant Agreement Number: A20E5288

4. Background Narrative:
The MEG Senior Center is the main senior center in the City of Santa Fe. It is centrally located in the northeastern side of the City where senior population is concentrated. Based on 2018 Census estimates, 27.3% of the City's population was 60 years and older; of which 1 in 3 had disabilities. In the past few years MEG has seen a dramatic increase in wheelchair clients – whether wheelchair van transportation, congregate, or arts & crafts and fitness. While wheelchair users can be comfortably accommodated in the cafeteria, they are unable to easily access the fitness room or the arts & crafts room. In addition to creating wider entrances to the rooms, allowing multiple people to get through the doorway without creating bottlenecks, equipment and furnishings must be more widely spaced to allow room for wheelchairs. Also, there is currently only 1 ADA toilet in the MEG and during peak hours, when 200-250 people may be present in the building, wheelchair clients may have to use non-ADA toilets which may compromise their safety and privacy. Additional offices are also need for counseling, assessment of clients, and respite.
In addition, the vehicle corral needs to be expanded to securely accommodate all DSS vehicles, as well as 3 steel storage units for use by Title III programs to store medical equipment and nutritional support. The neighborhood surrounding the MEG has undergone enormous social change in recent years; higher crime rates, drug use, homelessness and unemployment have resulted in theft and vandalism to vehicles which are parked outside the corral.

5. Work Plan:
The $2,484,852 in capital outlay funds will be used for:
- $528,000 for improvements to vehicle corral to expand the size and add storage
- $1,956,852 for expansion and conversion of the fitness room into an adaptive gym; building 2 ADA multipurpose rooms; adding ADA toilets and Title III offices.

Schematic designs have already been prepared for both. Design development will begin as soon as a fully executed Grant Agreement contract is received. The Division of Senior Services will follow State and City of Santa Fe procurement procedures and work will be supervised/monitored by a City of Santa Fe Public Works Project Administrator.

6. Budget Detail:

Project Cost Activities *(These are only examples .Insert activities specific to the proposed project.)*	Other Funds	State Funds
Architect/Engineer	$100,019	$148,466
Construction		2,011,537
Renovation		
Improvements for Code Compliance		300,000
Equipment		
Vehicle Purchase		
Arts in Public Places (AIPP) 1%		24,849
Totals	$100,019	$2,484,852

7. **Performance Measures:**
   a. Percentage of increase or decrease in the number of eligible seniors utilizing the Senior Center (e.gs. participating in activities like arts and crafts, bingo, yoga and Zumba; watching films; etc.).
   b. Percentage of increase or decrease in the number of eligible seniors with disabilities accessing the Senior Center with ease.
   c. Number of eligible seniors with disabilities who reported having social ties/ perceived social support.

8. **Results Expected:**
   a. A safe and code compliant facility.
   b. Greater socialization and interaction with others.
   c. Reduction in loneliness due to use of the Senior Center.
   d. Improved access to information or linkages to other services and resources on aging issues.
   e. An efficient and effective continuity facility for City of Santa Fe's Senior Services.

9.

Via: Sam Burnett, Interim Public Works Director for S. Burnett

Melissa McDonald, Parks and Open Space Division Director

From: Zoë Isaacson, River and Watershed Manager

Subject: Arroyo de Los Chamisos Urban Trail Repair at Vo Tech Road

Vendor: Gordo, LLC

Munis Vendor Number: 10901

ACTION:

Request for Approval of a Construction Contract with Gordo, LLC for the Arroyo de Los Chamisos Urban Trail Repair at Vo Tech Road in the Total Amount of $643,159 through June 30, 2029. (Zoe Isaacson, River and Watershed Manager: zrisaacson@santafenm.gov)

Request for Approval of a Budget Amendment Resolution (BAR) in the Total Amount of $643,159 from the Stormwater Clean Water State Revolving Fund Loan to WIP Construction. (Zoe Isaacson, River and Watershed Manager: zrisaacson@santafenm.gov)

Committee Review

Public Works and Utilities Committee: 02/16/2026
Finance Committee: 2/23/2026
Governing Body: 2/25/2026

City Council

Alma G. Castro, District 1 | Elizabeth "Liz" Barrett, District 2 | Lee Garcia, Mayor Pro Tem, District 3 | Jamie Cassutt, District 4
Patricia Feghali, District 1 | Paul C. Bustamante, District 2 | Pilar F.H. Faulkner, District 3 | Amanda Chavez, District 4

CONTRACT NUMBER:

The FY26 Munis contract number is 3260348.

BACKGROUND AND SUMMARY:

On September 8th, 2021, the Governing Body approved Ordinance No. 2021-17, authorizing a $4,000,000 Clean Water State Revolving Fund (CWSRF-088) for use on city stormwater infrastructure projects. Specifically, this 1% interest CWSRF loan, disbursed on a project-by-project basis, funds projects that address needs highlighted in the Stormwater Management Strategic Plan (2019) - an adopted policy to guide stormwater program development and watershed drainage planning for the City of Santa Fe.

The Arroyo de Los Chamisos Urban Trail Repair is the third project funded by this loan. This project aims to improve channel conveyance, stabilize banks, and repair a section of paved trail threatened by erosion. These improvements will be achieved through the installation of a reno mattress to arrest scour and gabion baskets for long-term bank stabilization. This project is located just west of the Vo Tech Road and Arroyo de Los Chamisos crossing.

As the Arroyo de Los Chamisos is an ephemeral channel, work within the waterway is constrained by native flows and localized storm events; therefore, the target date for completing this work is prior to the 2026 monsoon season.

- Tentative start date: 3/9/2026
- Substantial completion: 6/15/2026
- Final walkthrough: 6/26/2026

CITY OF SANTA FE

CONSTRUCTION CONTRACT

Arroyo de Los Chamisos Urban Trail Repair

THIS CONTRACT is made and entered into by and between the City of Santa Fe, New Mexico, hereinafter referred to as the "City," and **Gordo, LLC**, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Parties.

RECITALS

WHEREAS, the City, through its Governing Body, is authorized to enter into a construction Contract for the project; and

WHEREAS, the City has procured this Contract according to the established State and Local Purchasing procedures for contracts of the type and amount; and

The City and the Contractor hereby agree as follows:

1. SCOPE OF WORK

A.

The Contractor shall perform all the work required by the Contract Documents for *Arroyo de Los Chamisos Urban Trail Repair (Bid Number FY26-CONST.ITB-029)* including:

1. Site Preparation. The Contractor shall review the final construction plans, perform an initial site survey, and clearly mark all features scheduled for demolition and/or protection. All necessary permits (including erosion control, traffic management, and environmental compliance) shall be obtained prior to mobilization. The Contractor is responsible for mobilizing all equipment, establishing staging areas, and implementing site-specific traffic control measures as required to begin the project safely and in compliance with governing agencies.

2. Removal & Demolition. The scope includes selective demolition of existing infrastructure to accommodate the trail improvements. Work includes the removal of sections of asphalt trail, concrete aprons, headwalls, and existing concrete outfall protection features. Any conflicting existing structures or materials within the designated work zone that obstruct the proposed improvements shall be removed and properly disposed of per project specifications and local regulations.

3. Earthwork & Grading. Contractor shall perform excavation, cutting, and filling operations as needed to bring the site to the required subgrade elevations. This includes compaction of subgrade materials and shaping of the terrain to support proper drainage, trail alignment, and structural stability of new improvements. All earthwork shall conform to the specified grading tolerances and compaction requirements.

4. Drainage & Outfall Protection. As part of the erosion mitigation effort, the Contractor shall remove, reconstruct, or repair concrete outfall protection structures in accordance with the plans. Special attention shall be paid to ensure that reconstructed drainage features mitigate erosion and support long-term site stability.

5. Paving & Trail Construction. The trail and apron surfaces shall be constructed using appropriate base materials (e.g., aggregate base course), followed by the placement of concrete or asphalt surfaces per project specifications. All materials, thicknesses, and finishing methods shall adhere to the engineering plans and relevant municipal standards.

6. Erosion Control & Site Restoration. If not already provided, the Contractor shall develop and implement a comprehensive Erosion Control Plan, including both temporary and permanent erosion control measures. This may involve the installation of silt fences, sediment traps, erosion control blankets, or other best management practices (BMPs). Final site restoration shall comply with the current NMDOT Standard Specification Section 632: Revegetation. Revegetation shall be completed using approved Class C seeding protocols as described in NMDOT Standard Specification 632: Revegetation.

7. Traffic Control. A Traffic Control Plan shall be prepared and implemented to ensure the safety of pedestrians, vehicles, and workers during construction. The Contractor shall provide all required traffic signage, barricades, flagging operations, and detours in accordance with applicable City of Santa Fe and MUTCD standards. The work zone must always remain safe and accessible.

8. Mobilization, Demobilization & Final Cleanup. The Contractor shall mobilize all labor, materials, and equipment necessary to perform the work. Upon completion of construction, all temporary installations, debris, excess materials, and equipment shall be removed from the site. Final cleanup shall return the site to a neat, orderly condition, satisfactory to the Engineer and the City. All final restoration work, including revegetation and erosion control measures, shall be verified for compliance prior to demobilization as described in the Contract Documents.

The Contractor shall be responsible for verifications of all conditions, measurements, and dimensions. The Contractor shall be responsible for all permits, bonds, Workforce Solutions requirements, fees, and State inspections associated with the construction.

B. Project: Arroyo de Los Chamisos Urban Trail Repair

2. COMPENSATION

A. Payment. The City shall compensate the Contractor for the services described in the scope of work, the City agrees pay the Contractor $594,485.00. The GRT levied on this contract will be paid at the current rate of 8.1875% equaling $48,673.46. The total compensation for the contract including GRT is $643,158.46.

B. The compensation represents a maximum amount. The Contractor must notify the City when the Services provided under this Contract approach 90% of compensation total. Services rendered beyond the maximum compensation amount will not be reimbursed unless the Contract is amended in writing prior to the provision of such services.

C. Invoicing and Payment Terms Payment will be made upon the City's acceptance of deliverables and receipt of a detailed, certified invoice from the Contractor. Payments will be sent to the Contractor's designated address. The City shall issue payment in accordance with the timelines required by law. Invoices must be submitted no later than fifteen (15) days after the Contract's termination. Late invoices will not be processed or paid.

D. Extended Payment Terms for Grant-Funded Contracts For grant-funded agreements, the City may issue payment within forty-five (45) days following submission of an undisputed payment request.

3. TERM

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Contract shall terminate 3 years from the date of final signature unless terminated pursuant to the Terminationor Appropriations articles of this contract. A contract for construction services may not exceed ten (10) years, including all extensions and renewals, except as otherwise provided by NMSA 1978, Sections 13-1-150 through 13-1-152 or SFCC 1987, Section 11-13.

4. TERMINATION

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

1. Except as otherwise provided in Paragraphs "Construction Contract Performance and Payment Bond" and "Penalties for Violation of Law", the City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph "Appropriations," of this Contract.

B. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.*

5. APPROPRIATIONS

The terms of this Contract are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

6. STATUS OF CONTRACTOR

The Contractor and its agents and employees are independent contractors performing construction services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

7. CONSTRUCTION CONTRACT PERFORMANCE AND PAYMENT BOND

A. When a construction contract is awarded in excess of twenty-five thousand dollars ($25,000), the following bonds or security shall be delivered to the City and shall become binding on the parties upon the execution of the contract. If the Contractor fails to deliver the required performance and payment bonds, the Contractor's bid shall be rejected, its bid security shall be enforced to the extent of actual damages. Award of the contract shall be made pursuant to the Procurement Code in the following manner:

1. a performance bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the United States Treasury Department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract; and

2. a payment bond satisfactory to the City, executed by a surety company authorized to do business in this state and said surety to be approved in federal circular 570 as published by the United States Treasury Department or the state board of finance or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract, for the protection of all persons supplying labor and material to the contractor or its subcontractors for the performance of the work provided for in the contract.

B. A subcontractor shall provide a performance and payment bond on a public works building project if the subcontractor's contract for work to be performed on a project is one hundred twenty-five thousand dollars ($125,000) or more.

8. ASSIGNMENT

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

9. SUBCONTRACTING

The Contractor shall not subcontract any portion of the services to be performed under this Contract without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

10. RELEASE

Final payment of the amounts due under this Contract shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Contract.

11. CONFIDENTIALITY

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

12. PRODUCT OF SERVICE - COPYRIGHT

All materials developed or acquired by the Contractor under this Contract shall become the property of the City and shall be delivered to the City no later than the termination date of this Contract. Nothing developed or produced, in whole or in part, by the Contractor under this Contract shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

13. CONFLICT OF INTEREST; GOVERNMENTAL CONDUCT ACT

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Chapter 10, Article 16.

C. Contractor's representations and warranties in Paragraphs A and B of this Article are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

14. AMENDMENT

A. This Contract shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in "Termination" herein, or to agree to the reduced funding.

15. CHANGE ORDERS

A. Changes. The Contractor may only make changes or revisions within the Scope of Work and/or Exhibit 1 after receipt of written approval by the City Manager or his/her designee. Such change may only be made to Tasks or Sub-Task as defined in the Scope of Work. Under no circumstance shall such change affect the:

(i). Deliverable requirements, as outlined in the Scope of Work;

(ii). Due date of any Deliverable, as outlined in the Scope of Work;

(iii). Compensation of any Deliverable, as outlined in the Scope of Work;

(iv). Contract compensation, as outlined in "Compensation"; or

(v). Contract termination, as outlined in "Termination".

B. Change Request Process. In the event that circumstances warrant a change to accomplish the Scope of Work as described above, a Change Request shall be submitted that meets the following criteria:

(i). The Project Manager shall draft a written Change Request for review and approval by the City Manager to include:

(a.) the name of the person requesting the change;

(b.) a summary of the required change;

(c.) the start date for the change;

(d.) the reason and necessity for change;

(e.) the elements to be altered; and

(f.) the impact of the change.

(ii.) The City Manager shall provide a written decision on the Change Request to the Contractor within a maximum of ten (10) Business Days of receipt of the Change Request. All decisions made by the City Manager are final. Change Requests, once approved, become a part of the Contract, and become binding as a part of the original Contract.

16. MERGER

This Contract incorporates all the agreements, covenants, and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements and understandings have been merged into this written contract.

All terms and conditions of the **ITB FY26-CONST.ITB-029** and the Contractor's response to such document(s) are incorporated herein by reference and is included in the order of precedence.

No prior Agreement or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

17. PENALTIES FOR VIOLATION OF LAW

NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities and kickbacks.

18. EQUAL OPPORTUNITY COMPLIANCE

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

19. APPLICABLE LAW

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

20. WORKERS' COMPENSATION

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

21. OTHER INSURANCE

If the services contemplated under this Contract will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Contract, the following insurance coverage(s), naming the City as additional insured.

A. **Commercial General Liability** insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. **Business Automobile Liability** insurance for all owned, non-owned automobiles, with a combined single limit not less than $1,000,000 per accident.

C. **Broader Coverage and Limits**. The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

D. Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

22. RECORDS AND FINANCIAL AUDIT

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

23. INDEMNIFICATION

The Contractor shall indemnify, hold harmless, or insure the City, including its officers, employees or agents, against liability, claims, damages, losses or expenses, including attorney fees, only to the extent that the liability, damages, losses or costs are caused by, or arise out of, the acts or omissions of the indemnitor or its officers, employees or agents. In the event that any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) business days after it receives notice thereof, notify the legal counsel of the City.

24. NEW MEXICO TORT CLAIMS ACT

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et. seq., as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

25. INVALID TERM OR CONDITION

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affect-ed and shall be valid and enforceable.

26. ENFORCEMENT OF CONTRACT

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

27. NOTICES

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

To the City:	To the Contractor:
Public Works/Parks and Open Space Zoe Isaacson, River & Watershed Manager 1142 Siler Rd Building C Santa Fe, NM 87507 zrisaacson@santafenm.gov 505-955-6853	Eric Biderman Gordo, LLC 1890 Camino Calvario Santa Fe, NM 87507 bidermaneric@gmail.com (575) 799-9723

28. AUTHORITY

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter into a binding contract.

29. PROGRESS PAYMENTS

Based upon Application for Payment submitted to the City by the Contractor and Certificates for Payment issued by the City, the City shall make progress payments on account of the Contract sum to the Contractor as provided in the Contract documents for the period ending the last day of the month as follows:

Not later than twenty-one (21) days following the end of the period covered by the Application for Payment, one hundred percent (100%) of the portion of the Contract Sum properly allocable to labor, materials, and equipment incorporated in the work and one hundred percent (100%) of the portion of the Contract sum properly allocable to materials and equipment suitably stored at the site or some other location agreed upon in writing for the period covered by the Application for Payment, less the aggregate of previous payments made by the City; and upon substantial completion of the entire work, a sum sufficient to increase the total payments to one hundred percent (100%) of the Contract sum, less such amounts as the City shall determine for all incomplete work and unsettled claims as provided in the Contract documents.

30. FINAL PAYMENT

Final payment, constituting the entire unpaid balance of the Contract sum, unless it is a disputed payment, shall be paid by the City to the Contractor within twenty-one (21) calendar days, after all deficiencies to the Contract document that were noted during the Substantial Completion Inspection and listed on the attachment to the Certificate of Substantial Completion have been corrected, and provided the Contract has been fully performed and a final Certificate for Payment has been issued by the City. In addition, the Contractor shall provide to the City a certified statement of Release of Lien (AIA Document G706A or approved form), Consent of Surety, Warranty from Prime Contractor, Warranties from Suppliers and Manufacturers, training sessions, equipment/operating manuals, and as-built drawings.

31. SCHEDULE

The Contractor shall, within five (5) days after the effective date of Notice to Proceed, prepare and submit a progress schedule covering project operations for the 30-day Contract period. This progress schedule shall be of the type generally referred to as a Critical Path Method (CPM), Critical Path Schedule (CPS), and Critical Path Analysis (CPA), and other similar designations. The CPM shall be used to control the timing and sequences of the project. All work shall be done in accordance with the CPM Planning and Scheduling. A written statement of explanation shall be submitted with the progress schedule. All costs incurred by the contractor to implement the CPM shall be borne by the Contractor and are part of their Contract.

32. GENERAL AND SPECIAL PROVISIONS

A. Terms used in this Contract which are defined in the Conditions of the Contract shall have the meanings designated in those Conditions.

B. An enumeration of the Contractor's General Comprehensive Liability Insurance requirements appears in the General Conditions of the Contract for construction. Insurance requirements are also described in the Instructions to the Bidder section of the Project Manual. Contractor shall maintain adequate insurance in at least the maximum amounts, which the City could be liable under the New Mexico Tort Claims Act and shall provide proof of such insurance coverage to the City. It is the sole responsibility of the Contractor to comply with the law.

C. This Contract shall not become effective until: (1) approved by the Governing Body; and (2) signed by all parties required to sign this Contract.

D. The Contractor shall maintain detailed time records which indicate the date, time and nature of services rendered. These records shall be subject to inspection by the City, the Department of Finance and Administration and the State Auditor. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive illegal payments.

E. The Contractor warrants that the Contractor presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under this Contract.

F. The Contractor hereby warrants that the Contractor complies with the Americans with Disabilities Act, 29 CFR 1630.

G. Gender, Singular/Plural. Words of any gender used in this Contract shall be held and construed to include any other gender, and words in the singular number shall be held to include the plural, unless the context otherwise requires.

H. Captions and Section Headings. The captions and section headings contained in this Contract are for convenience of reference only, and in no way limit, define, or enlarge the terms, scope, and conditions of this Contract.

I. Certificates and Documents Incorporated. All certificates and documentation required by the provisions of the Contract, including those required by the funding agency, shall be attached to this Contract at the

time of execution and are hereby incorporated by reference as though set forth in full in this Contract to the extent they are consistent with its conditions and terms.

J. Separability. If any clause or provision of this Contract is illegal, invalid or unenforceable under present or future laws effective during the term of this Contract, then and in that event, it is the intention of the parties hereto that the remainder of this Contract shall not be affected thereby.

K. Words and Phrases. Words, phrases, and abbreviations, which have well-known technical or trade meanings used in the Contract documents shall be used according to such recognized meaning. In the event of a conflict, the more stringent meaning shall govern.

L. Relationship of Contract Documents. The Contract Documents are complementary, and any requirement of one Contract Document shall be as binding as if required by all.

M. Pursuant to NMSA 1978, Section 13-1-191, reference is hereby made to the Criminal Laws of New Mexico (including NMSA 1978, Sections 30-14-1, 30-24-2, and 30-41-1 through 30-41-3) which prohibit bribes, kickbacks, and gratuities, violation of which constitutes a felony. Further, the Procurement Code (NMSA 1978, Sections 13-1-28 through 13-1-199) imposes civil and criminal penalties for its violation.

N. Pursuant to NMSA 1978, Section 13-4-11. Reference is hereby made to the Minimum Wage on Public Works; weekly payments; posting wage scale; withholding funds.

O. The 2019 Edition of the New Mexico Department of Transportation Standard Specifications for Highway and Bridge Construction Section 416: Minor Paving shall apply as required.

P. The 2019 Edition of the New Mexico Department of Transportation Standard Specifications for Highway and Bridge Construction Section 632: Revegetation (as modified May 15, 2023) shall apply as required.

1. DEBARRED OR SUSPENDED CONTRACTORS

A business (e.g., contractor, subcontractor, supplier) that has either been debarred or suspended pursuant to the requirements of City Purchasing Manual, ordinance or NMSA 1978, Sections 13-1-177 through 13-1-180, and 13-4-17, shall not be permitted to do business with the City and shall not be considered for award of Contract during the period for which it is debarred or suspended.

2. PROCUREMENT AND CONTRACTING REQUIREMENTS

2.1. Solicitation Information

Solicitation No.: FY26-Const. ITB-029

Project Title: Arroyo de los Chamisos Urban Trail Repair

Issue ITB:	November 14, 2025
Pre-Bid Conference (Mandatory):	November 20, 2025, 11:00am 35.647823, -105.966425 (see attachment A for location map)
Deadline for Pre-Bid Questions:	December 3, 2025, 5:00pm
Response to Pre-Bid Questions:	December 10, 2025, 5:00pm

Electronic Bid Submittal Deadline:	December 17, 2025, 2:00pm

BIDS RECEIVED AFTER THE ABOVE BID DUE DATE AND TIME WILL NOT BE ACCEPTED.

2.2. ITB Access and Bid Submission

A. Bidders may contact ONLY the Department Project Manager and the CPD regarding this procurement at the following emails:
Project Manager: Jimmie Gallegos
Email: jgallegos1@santafenm.gov
CPD: purchasing_ITB@santafenm.gov
Other city employees do not have the authority to respond on behalf of the Project Manager.

B. Bidders shall promptly notify the Project Manager and the CPD of any ambiguity, inconsistency, or error which they may discover upon examination of the bid. Any response made by the City will be provided in writing to all contractors by addendum, no verbal responses shall be authoritative.

C. Bids shall be valid for ninety (90) days subject to action by the City.

D. Solicitation packets are available in the OpenGov Procurement Portal at https://procurement.opengov.com/portal/santafenm.
It is each Bidder's responsibility to ensure all documents are completely uploaded and submitted electronically via OpenGov by the Bid due date and time. Such submissions will be considered sealed. Bidders must ensure their bids are correct, accurate, and correspond with any amendments before submission. Complete and submit all required documents, including specifications, supporting materials, certificates, pricing, etc., through OpenGov as per instructions to form a complete, responsive bid (NMSA 1978, Sections 13-1-82 through 13-1-84 and 13-1-133).

- Bidders must ensure adequate time is allowed for large uploads and to fully complete bid submittal by the deadline. Bids that are not both: (1) fully complete; and (2) received, by the deadline, will be deemed late. Further, bids that are not received by the deadline because the response was captured, blocked, filtered, quarantined, or otherwise prevented from reaching the proper destination server by any anti-virus or other security software will be deemed late.

2.3. Resident and Local Preference

Preferences **do not** apply to this procurement as it will utilize **federal grant funds**.

2.4. Bid Opening

A. Public bid openings, will be held Virtually at the following link:
The bid tabulations will be posted to the City of Santa Fe website at the following link:
https://procurement.opengov.com/portal/santafenm/projects/206850

B. The City of Santa Fe is committed to ensuring accessibility for all individuals, including those with disabilities. Bid openings are conducted virtually and include features such as closed captioning, which

participants can enable during the session. If you experience technical issues or have specific concerns related to accessibility, you may contact the Chief Procurement Officer (CPO) or their designee in advance.

C. CPO contact information is:
Travis Dutton-Leyda, CPO
purchasing@santafenm.gov

D. The Department, along with the CPO, reserves the right to reject any bids or to waive any non-substantial irregularity in bids received as long as it doesn't affect the price, quantity or quality of the bid, whenever such rejection or waiver is in the best interest of the City.

E. The Bidding Documents and subsequent Work Orders contain a time for completion of the work by the successful Bidder and further imposes liquidated damages for failure to comply with that time.

F. Bidders shall be responsible for verifications of all existing conditions, measurements, and dimensions before responding to this bid.

3. INSTRUCTIONS TO BIDDERS

3.1. Examination of Bidding Documents and Site

A. Before submitting a Bid, each Bidder must (a) examine the Bidding Documents thoroughly, (b) become familiar with Federal, State, and local laws, ordinances, rules, and regulations that may in any manner effect cost, progress, or performance of the work, and (c) study and carefully correlate the Bidder's observations with the Bidding Documents, (d) at their own expense, make such additional investigations and tests as the Bidder may deem necessary to determine a Bid for performance of the work in accordance with the time, price, and other terms and conditions of the Bidding Documents.

B. The lands and properties upon which the work is to be performed, rights-of-way for access thereto, and other lands designated for use by the Contractor in performing the work are primarily inside the City Limits of Santa Fe.

C. The submission of a Bid will constitute an incontrovertible representation by the Bidder that they have complied with every requirement of this ITB and that the Bidding Documents are sufficient in scope and detail to indicate and convey understanding of all terms and conditions for performance of the work.

D. It shall be the responsibility of the successful awarded contractor to secure from the New Mexico Regulations & Licensing Department, Construction Industries Division (CID) and the City such permits or licenses required to carry out the construction. Construction Industries Division website is as follows: https://www.rld.nm.gov/construction-industries/

3.2. Bidding Documents

A. Copies of Bidding Documents:

1. This record contains all complete bidding documents. The City does not assume responsibility for errors or misinterpretations.

2. Deposits are not required for plans obtained through this portal (OpenGov).

3.3. Interpretations

A. All questions concerning this solicitation must be submitted through the Questions & Answers section of the solicitation's page in OpenGov.

B. Responses will be posted directly on the same page and visible to all registered vendors. If a question results in a material change to the solicitation, a formal Addendum will be issued through OpenGov. Vendors will receive an automated email notification when an Addendum is posted. Only information provided in written Addenda shall be considered binding.

3.4. Substitute Material and Equipment

A. The Contract, if awarded, will be based on materials, labor and equipment described in the Specifications without consideration of possible substitute ("of equal" or "or equal") items. Whenever it is indicated in the Specifications that substitute ("of equal" or "or equal") items of material or equipment may be furnished or used by the Contractor if acceptable to the Owner, application of such acceptance will not be considered by the Owner until after the "effective date of the Contract." The procedure for submittal of any such application by the Contractor and consideration by the Owner is set forth in the Contract Documents.

3.5. Amendment/Addenda

A. Oral and other interpretations or clarifications will be without legal effect. No oral interpretations of the meaning of the specifications or other pre-bid documents will be binding. Oral communications are permitted in order to make assessment for an amendment or addendum.

B. Any and all such interpretations and any supplemental instructions will be in the form of written amendments or addenda to the specifications which, if issued, will be delivered electronically to all prospective bidders not later than three (3) days prior to the date fixed for the opening of the bids.

C. Failure of any bidder to receive any such amendment or addendum or interpretations shall not relieve such bidder from any obligation under a bid as submitted. All amendments or addenda so issued shall become part of the contract documents.

D. Procurement amendments are processed through OpenGov. If amendments (addenda) are processed,

- before bids are submitted, ensure bids reflect the amendments;
- after bids are submitted, bidders must update the bid by clicking "modify" and updating the associated area(s)* to ensure bid reflects the amendment.
  *Bidders must replace the previously submitted documents if the amendment affects uploaded documents.

E. The City reserves the right to not comply with these time frames if a critical change, which will be written in amendment or addendum, is required or if the bid deadline needs to be extended due to a critical reason in the best interest of the City of Santa Fe.

3.6. Form and Style of Bids

A. Bids shall be submitted in OpenGov.

B. All addenda will be acknowledged when submitting in OpenGov.

3.7. Bid Security

A. Bid security, made payable to the City of Santa Fe, in the amount of 5% of the total of all Item Prices shall be submitted with the Bid. Bid security shall be in the form of a Bid Bond issued by Surety licensed to conduct business in the State of New Mexico, or by cashier's check.

B. The Bid security shall pledge that the Bidder will enter into a Contract with the City in accordance with the terms stated herein and will furnish bonds covering the faithful performance of the Contract and payment of all obligations arising there under. Should the Bidder refuse to enter into such Contract or fail to furnish such bonds, the amount of the Bid security shall be forfeited to the City as liquidated damages, not as a penalty.

C. The City will have the right to retain the Bid security of Bidders to whom an award is being considered until either (a) the Contract has been executed, and bonds have been furnished, or (b) the specified time has elapsed so that Bids may be withdrawn, or (c) all Bids have been rejected.

D. When the Bidding Documents require Bid security, noncompliance by the Bidder requires that the Bid be rejected.

E. If a Bidder is permitted to withdraw a Bid before award, no action shall take place against the Bidder or the Bid Security.

3.8. Pre-Bid Conference

A. The City may conduct a NO VALUE, NO VALUE, Pre-Bid Conference prior to the Bid opening date. All pre-bid conferences shall be stated in the Invitation for Bid.

B. The City and consultants, as applicable, shall be represented. Prospective Bidders and Prospective Subcontractors should ask questions regarding clarification of the Bidding Documents either during the Pre-Bid Conference or by submitting a question as outlined below. The failure of a Bidder, Subcontractor, or Vendor to make inquiries shall be interpreted to mean that the Bid Documents are clear and acceptable. Such clarity and acceptability shall be presumed with respect to all Bidders.

C. Questions and requests for clarification are to be submitted via the OpenGov Procurement Portal at https://procurement.opengov.com/portal/santafenm/projects/206850

D. Responses to questions will be written and issued electronically as Amendment or Addenda. No verbal response shall be binding.

3.9. Subcontractors

A. The listing threshold amount for this project shall be one-half of one percent of the architect's or engineer's estimate of the total project cost, not including alternates, whichever is greater. The General

Contractor must list all Subcontractors who will perform work in excess of this threshold. Only one Subcontractor may be listed for each category as defined by the Contractor. The Subcontractor Fair Practice Act (NMSA 1978, Sections 13-4-31 through 13-4-43) shall apply.

B. The Bidder shall list on the Subcontractor Listing Form attached to the Bidding Document, all proposed Subcontractors or material suppliers for all trades or items. If the Bidder is awarded the contract, the listed Subcontractors and suppliers shall perform their trade scope of services as indicated unless a request for a change or substitution is approved by the City for any reason as outlined herein. If the work is self-performed, the Prime Contractor shall list themselves on the form.

C. The City shall consider any request for a change in the listed Subcontractors if the Bidder can furnish evidence of being able to perform the work in a manner more satisfactory and beneficial to both the City and the Bidder by using a different Subcontractor or self-performing said work. Satisfactory reasons for a substitution may include the inability to bond or lack of evidence of being able to furnish acceptable materials on schedule. Also, if the Bidder has made a legitimate error in listing a low Subcontractor, a request for substitution, made after the Bid Opening with the City's approval, will be considered. The proof of error must be conclusive, based upon the approval of said evidence by the listed Subcontractor or material suppler and/or any other confirmation satisfactory to the City.

D. The Bidder shall not be listed as the supplier or as the Subcontractor for any trade unless having previously performed work of this type and shall have all required licenses and certifications to perform the work.

E. Non-compliance with the intent of the Subcontractor Listing will be grounds for considering a Bid as non-responsive.

F. Prior to the award of the Contract, the City will notify the Bidder in writing if, after due investigation and written findings of fact, has reasonable and substantial objection to any person or organization on such list and refuses, in writing, to accept such person or organization. The Bidder may then optionally, (1) withdraw the Bid, or (2) submit an acceptable substitute Subcontractor with no increase in the Bid Price. In the event of withdrawal under this paragraph, Bid security will not be forfeited.

G. The successful Bidder shall, within ten (10) calendar days of notification of selection for the award of Contract for the work, submit the following information to the City:

   1. A signed list of the proprietary names and the suppliers of principal items or systems of materials and equipment proposed for the work; and

   2. A list signed by all Subcontractors proposed for the principal portions of the work in accordance with the Subcontractors Listing Form submitted with the Bid.

H. The successful Bidder will be required to establish, to the satisfaction of the City, the reliability and responsibility of the persons or entities proposed to furnish and perform the work described in the Bidding Documents.

I. Persons and organizations proposed by the Bidder and to whom the City has made no reasonable objection shall perform the work as indicated on the Subcontractor Listing Form and shall not be changed except with the written consent of the City.

J. No successful Bidder shall be required to employ any Subcontractor, other person, or organization against whom the Bidder has reasonable objection.

3.10. Correction or Withdrawal of Bids

A. A Bid containing a mistake discovered before Bid Opening may be modified or withdrawn by a Bidder prior to the time set for Bid Opening by delivering electronic written or telegraphic notice to the location designated in the Invitation for Bid as the place where Bids are to be received.

B. Withdrawn Bids may be resubmitted up to the time and date designated for the receipt of Bids, provided they are then fully in conformance with the Bid Documents.

C. After Bid Opening, no modifications in Bid prices or other provisions of Bids shall be permitted. A low Bidder alleging a material mistake of fact which makes said Bid non-responsive may be permitted to withdraw the Bid if:

1. The mistake is clearly evident on the face of the Bid document; or

2. The Bidder submits evidence which clearly and convincingly demonstrates that a mistake was made.

D. Any decision by the City to permit or deny the withdrawal of a Bid on the basis of a mistake contained therein shall be supported by a determination setting forth the grounds for the decision. If withdrawal is permitted, Bid security will not be forfeited.

3.11. Bribes, Gratuities and Kickbacks

A. It is illegal in the State of New Mexico for any public employee to solicit or accept anything of value in connection with award of this Bid and for any person to offer or pay anything of value to any such public employee (NMSA 1978, Sections 30-24-1 through 30-24-2).

B. Pursuant to NMSA 1978, Section 13-1-191, reference is hereby made to the Criminal Laws of New Mexico (including NMSA 1978, Sections 30-24-1, 30-23-2, and 30-41-1 through 3-41-3), which prohibit bribes, kick-backs, and gratuities and violation of which constitutes a felon. Further, the Procurement Code (NMSA 1978, Sections 13-1-28 through 13-1-199), imposes civil and criminal penalties for its violation.

3.12. Notice of Contract Requirements Binding on Bidder

A. By submitting a Bid, the Bidder represents familiarity with the nature and extent of the following requirements of the Conditions of the Construction Contract (General, Supplementary, and Other Conditions).

1. Definitions - Sections 1.0 to 1.1;

2. Contract Bond Requirements - Section 4.2;

3. Bribes, Gratuities, and Kickbacks - Section 4.8;

4. Equal Employment Opportunity - Labor Standards Provisions and other listed within the Contract Documents.

3.13. Rejection or Cancellation of Bids

A. An Invitation for Bid may be canceled, or any or all Bids may be rejected in whole or in part, when it is in the best interest of the City. A determination containing the reasons shall be made part of the Project file. Bid security for rejected Bids shall be returned to the Bidder.

3.14. Protests

A. Any Bidder who is aggrieved in connection with this procurement (Bid) may protest in writing to the CPD. The protest shall be submitted in writing within fifteen (15) calendar days after knowledge of the facts or occurrences giving rise to the protest.

3.15. Competitive Sealed Bids

A. Contracts solicited by competitive sealed Bids shall require that the base Bid amount exclude the applicable state gross receipts taxes or applicable local option taxes, but that the contracting agency shall be required to pay the applicable taxes including any increase in the applicable tax which becomes effective after the date the Contract is entered into. The applicable gross receipts taxes or local option taxes shall be shown as a separate amount on each billing or request for payment made under the contract.

3.16. Consideration of Bids Receipt, Opening, and Tabulation

A. Bids shall be unconditionally accepted for consideration for award without alteration or correction, except as authorized in the Procurement Code. In addition to the requirement for the prime contractor and subcontractors to be registered as provided in NMSA 1978, Section 13-4-13.1, bids shall be evaluated based on the requirements set forth in the invitation for bids, which requirements may include criteria to determine acceptability such as inspection, testing, quality, workmanship, delivery and suitability for a particular purpose. Those criteria such as discounts, transportation costs and total or life-cycle costs that will affect the bid price shall be objectively measurable, which shall be defined by rule. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. A bid submitted by a prime contractor that was not registered as required by NMSA 1978, Section 13-4-13.1 shall not be considered for award. A bid submitted by a registered prime contractor that includes any subcontractor that is not registered in accordance with that section may be considered for award following substitution of a registered subcontractor for any unregistered subcontractor in accordance with NMSA 1978, Section 13-4-36.

B. Bid tabulations for public information and inspection will be posted to the following link: https://procurement.opengov.com/portal/santafenm/projects/206850

C. The City shall have the right to waive any informalities or irregularities in any Bid or Bids received and to accept the Bid or Bids which are in the City's best interest.

3.17. Bid Evaluation and Award

A. It is the intent of the City to award a Contract to the most responsive and responsible Bidder submitting the lowest bid on the base bid, provided the Bid has been submitted in accordance with the requirements of the Bidding Documents, does not exceed the funds available and is in the best interest of the City. The City reserves the right to award a contract to the lowest Bidder using the criteria within the Bidding Documents. The unreasonable failure of a Bidder to promptly supply information in connection with an inquiry with respect to responsibility is grounds for a determination that the Bidder is not a responsible Bidder.

B. The subsequent contract will be established as a source and convenience of the City. It is the responsibility of the Requesting Department to utilize this Contract to the best interests of the City.

C. Discrepancies in the Bid Form between words and figures will be resolved in favor of words. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum

3.18. Notice of Award

A. A written Notice of Award shall be issued by the City after review and approval of the Bid and related documents by the City of Santa Fe Governing Body.

3.19. Identical Bids

A. When two or more of the Bids submitted are identical in price and are the low Bid, the CPD may:

1. Award to a resident local business if the identical low Bids are submitted by a resident or local business and a non-resident business;
2. Award to resident or local manufacturer if the identical low Bids are submitted by a resident or local manufacturer and a resident business;
3. Award by lottery to one of the identical low Bidders;
4. Make multiple awards if it is in the best interest of the City, or
5. Reject all Bids and re-solicit Bids for the required services, construction, or items of tangible personal property.

3.20. Cancellation of Award

When in the best interest of the public, the City in its sole discretion, may cancel the award of any Contract at any time before the execution of said contracts by all parties without any liability against the City.

3.21. Post-Bid Information

A. Return of Bid Security - All Bid security in the form of cashier's checks, except those of the two lowest Bidders, will be returned immediately following the opening and checking of the Bids. The retained Bid security of the unsuccessful of the two lowest Bidders, if in the form of a cashier's check, will be returned within thirty (30) days following the award of contract. The retained Bid security of the

successful Bidder, if in the form of a cashier's check, will be returned after a satisfactory contract bond has been furnished and the Contract has been executed.

B. Notice of Award – The City will issue a written Notice of Award to the Contractor stipulating the scope of work, the contract sum, including taxes, and the required bonds. The Notice of Award will also include the contract for signature that will be sent back with the required executed bonds.

C. Contractor's Qualification Statement - Bidders to whom award of a Contract is under consideration shall, when requested, submit information and data to prove that their financial resources, production or service facilities, personnel and service reputation and experience are adequate to make satisfactory delivery of the services, construction, or items of personal property described in the Bid Documents and form of Statement of Bidder's Qualifications.

D. Contract Bond Requirements - The successful Bidder, where the Contract price exceeds twenty five thousand dollars ($25,000), shall post a one hundred percent (100%) Performance Bond and one hundred percent (100%) Labor and Material Payment Bond. Bonds shall be executed on Performance Bond and Labor and Material Bond forms similar to the forms attached hereto, with amount payable conforming to the terms of the Contract. Surety shall be a company licensed to do business in the State of New Mexico and acceptable to the City.

E. Insurance Requirements - The selected Bidder shall purchase and maintain, with a company or companies licensed to do business in the State of New Mexico, Liability and Property Insurance as required by law.

1. The insurance shall be in limits not less than those stated in the enclosed contract forms. The insurance limits may be greater if required by law.

2. The insurance coverage shall include workers' compensation, employers liability, comprehensive general liability Comprehensive automobile liability (owned and hired), excess liability (umbrella form). For more specific insurance requirements refer to the enclosed Agreement Forms.

3. All insurance coverage must be maintained for the entire life of the project. Products and completed operations coverage shall be maintained for a minimum period of one (1) year after Work Order/project Substantial Completion.

4. A valid certificate of insurance must be submitted to the City prior to routing the final Contract between the City and the Contractor for City approval. Be prepared to provide this with the City and project name listed as an additional insured.

F. Failure to Execute Contract - Failure to return the signed Contract with acceptable contract bonds and Certificate of Insurance within ten (10) calendar days after the date of the Notice of Award shall be just cause for the cancellation of the award and the forfeiture of the Bid Security, which shall become damages sustained. Award may then be made to the next lowest responsible Bidder, or the work may be re-advertised.

G. Notice to Proceed - The City will issue a written Notice to Proceed, after a Purchase Order (PO) is issued, to the Contractor stipulating the contract time start date substantial completion date (Contract Time, finish date), subject to valid modifications of the Contract authorized by written amendment/Change Order.

3.22. Minimum Wage Rates

A. In accordance with state requirements, any construction contract exceeding sixty thousand dollars ($60,000) is subject to the minimum wage rates established by the New Mexico Department of Workforce Solutions (NMDWS). This project is governed by Wage Decision No. SF-25-3437-A, as issued and approved by NMDWS.

B. Bidders shall ensure that the minimum wage rate determination, included herein, has been utilized in preparation of the Bid.

C. The Bidder will be required to submit a bid that complies with the City's Living Wage Ordinance to the extent applicable.

D. The awarded Contractor will be required to pay wages as per whichever wage decision is highest.

3.23. New Mexico Department of Workforce Solutions (NMDWS) Contractor and Subcontractor Registration

A. A contractor or subcontractor that submits a bid valued at more than sixty thousand dollars ($60,000) for a City project that is subject to the Public Works Minimum Wage Act (NMSA 1978, Section 13-4-10) shall be registered with the New Mexico Department of Workforce Solutions. The registration number shall be provided in the bid submitted for the contractor in the space provided (See Bid Form 00-5000 3.0) and for subcontractors on the subcontractor form. After the bid opening, the registration number(s) will be verified by the City and the bid will be determined to be non-responsive and disqualified if the registration number(s) appear to be not valid and the Contractor does not provide proof of the required registration for itself or its subcontractors. It is the responsibility of all bidders and the subcontractors to ensure the registration is completed prior to the bid opening.

4. PROCUREMENT SCOPE

4.1. Arroyo de los Chamisos Urban Trail Repair

1. Site Preparation

The Contractor shall review the final construction plans, perform an initial site survey, and clearly mark all features scheduled for demolition and/or protection. All necessary permits (including erosion control, traffic management, and environmental compliance) shall be obtained prior to mobilization. The Contractor is responsible for mobilizing all equipment, establishing staging areas, and implementing site-specific traffic control measures as required to begin the project safely and in compliance with governing agencies.

2. Removal & Demolition

The scope includes selective demolition of existing infrastructure to accommodate the trail improvements. Work includes the removal of sections of asphalt trail, concrete aprons, headwalls, and existing concrete outfall protection features. Any conflicting existing structures or materials within the designated work zone that obstruct the proposed improvements shall be removed and properly disposed of per project specifications and local regulations.

3. Earthwork & Grading

Contractor shall perform excavation, cutting, and filling operations as needed to bring the site to the required subgrade elevations. This includes compaction of subgrade materials and shaping of the terrain to support proper drainage, trail alignment, and structural stability of new improvements. All earthwork shall conform to the specified grading tolerances and compaction requirements.

4. Drainage & Outfall Protection

As part of the erosion mitigation effort, the Contractor shall remove and reconstruct wire enclosed riprap stilling basin outfall structure in accordance with the plans. Additionally, contractor shall build drainage mitigation structures as specified, throughout the site, in accordance with the plans and specifications herein. Special attention shall be paid to ensure that reconstructed drainage features mitigate erosion and support long-term site stability.

5. Paving & Trail Construction

The trail and apron surfaces shall be constructed using appropriate base materials (e.g., aggregate base course), followed by the placement of concrete or asphalt surfaces per project specifications. All materials, thicknesses, and finishing methods shall adhere to the engineering plans and relevant municipal standards.

6. Erosion Control & Site Restoration

If not already provided, the Contractor shall develop and implement a comprehensive Erosion Control Plan, including both temporary and permanent erosion control measures. This may involve the installation of silt fences, sediment traps, erosion control blankets, or other best management practices (BMPs). Final site restoration shall include the placement of topsoil, seeding, and vegetation in all disturbed areas to stabilize the site and prevent future erosion.

Revegetation shall be completed using seed mixes and specifications compliant with current NMDOT standards for revegetation, including approved native seed species, application rates, soil amendments, and establishment practices.

7. Traffic Control

A Traffic Control Plan shall be prepared and implemented to ensure the safety of pedestrians, vehicles, and workers during construction. The Contractor shall provide all required traffic signage, barricades, flagging operations, and detours in accordance with applicable City of Santa Fe and MUTCD standards. The work zone must always remain safe and accessible.

8. Mobilization, Demobilization & Final Cleanup

The Contractor shall mobilize all labor, materials, and equipment necessary to perform the work. Upon completion of construction, all temporary installations, debris, excess materials, and equipment shall be removed from the site. Final cleanup shall return the site to a neat, orderly condition, satisfactory to the Engineer and the City. All final restoration work, including revegetation and erosion control measures, shall be verified for compliance prior to demobilization.

5. INFORMATION AVAILABLE TO BIDDERS

5.1. Existing Conditions

A. It is the Contractor's responsibility to verify existing conditions prior to bidding.

B. Accessing existing utility infrastructure may require special coordination. Bidders shall verify accessibility and take into consideration the access strategy as part of the offer. The Contractor shall notify 811 before beginning any work.

6. VENDOR QUESTIONNAIRE

1. Acceptance of Bid*

All bidders agree, that if their bid is accepted, to enter into a Contract with the City in the form included in the bidding documents to perform and furnish all work as specified or indicated for the Contract price and within the Contract time indicated in this Bid and in accordance with the other terms and conditions of the Contract documents.

☐ Please confirm

*Response required

2. Acceptance of Terms and Conditions*

By submitting a bid, all Bidders acknowledge and accept the terms and conditions outlined in this ITB and its Instructions, including, but not limited to, provisions related to bid security and required documentation. Any concerns or objections to the contents of this solicitation must be submitted in writing to the Chief Procurement Officer (CPO) and, if applicable, the sponsoring Department (contact information provided in the ITB), with sufficient time for the City to issue an Addendum, if warranted

Bids shall remain valid and subject to acceptance for a period of one hundred and twenty (120) calendar days following the bid opening date. The selected Bidder must execute the Contract between the City and Contractor, including submission of all required bonds and supporting documents, within fifteen (15) calendar days of receiving the City's electronic signature request.

☐ Please confirm

*Response required

3. Bidder has become familiar with the nature and extent of the bidding documents, work, site, locality, all local condition, laws, and regulations that in any manner may affect cost, progress, performance, or furnishing of the work.*

☐ Yes
☐ No

*Response required

4. Bidder has carefully studied all reports and drawings of subsurface conditions which are identified in the information available to Bidders and accepts the determination set forth in the information available to Bidders of the extent of the technical data contained in such reports and drawings upon which the Bidder is entitled to rely.*

☐ Yes
☐ No

*Response required

5. Bidder has correlated the results of all such observations, examinations, investigations, explorations, tests, reports, and studies with the terms and conditions of the bidding documents.*

☐ Yes
☐ No

*Response required

6. Bidder has given the City's representative written notice of all conflicts, errors, or discrepancies that have been discovered in the bidding documents, and the written resolution thereof by the City's representative is acceptable to the Bidder. All of this must be accomplished prior to the Bid Opening date.*

☐ Yes
☐ No

*Response required

7. Collusion*

This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm, or corporation and is not submitted inconformity with any agreement or rules of any group, association, organization, or corporations, the Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham bid; the Bidder has not solicited or induced any person, firm or corporation to refrain from bidding; and the Bidder has not sought by collusion to obtain any advantage over any other Bidder or over the City. It is understood that the City reserves the right to reject any or all Bids and to waive any technical irregularities in the bidding.

☐ Yes
☐ No

*Response required

8. It is the intent of the City to award a contract to the responsible Bidder submitting the lowest base bid, provided the Bid has been submitted in accordance with the requirements of the bidding documents and is in the best interest of the City. *

☐ Please confirm

*Response required

9. The Scope of Work together with all related work required for comprehensive, fully functioning, warrantied systems and finishing includes but is not limited to the work listed in the PROCUREMENT SCOPE.*

- Contractor shall be responsible for adherence to the contract documents, construction documents, specifications and approved directives.
- Contractor shall be responsible for State CID requirements and permit.
- Contractor shall be responsible for verifications of all existing conditions, measurements and dimensions for bidding.
- Contractor shall be responsible for all permits, fees, and State and/or City inspections associated with the construction.
- Contractor shall be responsible for removal and securing of any existing equipment necessary to provide for the new work in accordance with the contract documents and to re-install these items in good work condition.

☐ Please confirm

*Response required

10. Confirmation of Bidder Regarding Equal Employment Opportunity*

This certification is required pursuant to Executive Order 11246 (30 F.R. 12319-25). The implementing rules and regulations provide that any Bidder or perspective contractor, or any of their proposed Subcontractors, shall state as an initial part of the Bid or negotiations of the Contract whether he has participated in any previous Contract or subcontract subject to the equal opportunity clause; and, if so, whether he has filed all compliance reports due under applicable instructions.

Where the certification indicates that the Bidder has not filed a compliance report due under applicable instructions, such Bidder shall be required to submit a compliance report within seven calendar days after Bid opening. No Contract shall be awarded unless such report is submitted.

Certification - The information above is true and complete to the best of my knowledge and belief.

ADDENDA CONFIRMATION

No addenda issued

QUESTIONNAIRE

1. Acceptance of Bid*

Pass

All bidders agree, that if their bid is accepted, to enter into a Contract with the City in the form included in the bidding documents to perform and furnish all work as specified or indicated for the Contract price and within the Contract time indicated in this Bid and in accordance with the other terms and conditions of the Contract documents.

Confirmed

2. Acceptance of Terms and Conditions*

Pass

By submitting a bid, all Bidders acknowledge and accept the terms and conditions outlined in this ITB and its Instructions, including, but not limited to, provisions related to bid security and required documentation. Any concerns or objections to the contents of this solicitation must be submitted in writing to the Chief Procurement Officer (CPO) and, if applicable, the sponsoring Department (contact information provided in the ITB), with sufficient time for the City to issue an Addendum, if warranted

Bids shall remain valid and subject to acceptance for a period of one hundred and twenty (120) calendar days following the bid opening date. The selected Bidder must execute the Contract between the City and Contractor, including submission of all required bonds and supporting documents, within fifteen (15) calendar days of receiving the City's electronic signature request.

Confirmed

3. Bidder has become familiar with the nature and extent of the bidding documents, work, site, locality, all local condition, laws, and regulations that in any manner may affect cost, progress, performance, or furnishing of the work.*

Pass

Yes

4. Bidder has carefully studied all reports and drawings of subsurface conditions which are identified in the information available to Bidders and accepts the determination set forth in the information available to Bidders of the extent of the technical data contained in such reports and drawings upon which the Bidder is entitled to rely.*

Pass

Yes

5. Bidder has correlated the results of all such observations, examinations, investigations, explorations, tests, reports, and studies with the terms and conditions of the bidding documents.*

Pass

Yes

6. Bidder has given the City's representative written notice of all conflicts, errors, or discrepancies that have been discovered in the bidding documents, and the written resolution thereof by the City's representative is acceptable to the Bidder. All of this must be accomplished prior to the Bid Opening date.*

Pass

Yes

7. Collusion*

Pass

This Bid is genuine and not made in the interest of or on behalf of any undisclosed person, firm, or corporation and is not submitted inconformity with any agreement or rules of any group, association, organization, or corporations, the Bidder has not directly or

indirectly induced or solicited any other Bidder to submit a false or sham bid; the Bidder has not solicited or induced any person, firm or corporation to refrain from bidding; and the Bidder has not sought by collusion to obtain any advantage over any other Bidder or over the City. It is understood that the City reserves the right to reject any or all Bids and to waive any technical irregularities in the bidding.

Yes

8. It is the intent of the City to award a contract to the responsible Bidder submitting the lowest base bid, provided the Bid has been submitted in accordance with the requirements of the bidding documents and is in the best interest of the City. *

Pass

Confirmed

9. The Scope of Work together with all related work required for comprehensive, fully functioning, warrantied systems and finishing includes but is not limited to the work listed in the PROCUREMENT SCOPE.*

Pass

- Contractor shall be responsible for adherence to the contract documents, construction documents, specifications and approved directives.
- Contractor shall be responsible for State CID requirements and permit.
- Contractor shall be responsible for verifications of all existing conditions, measurements and dimensions for bidding.
- Contractor shall be responsible for all permits, fees, and State and/or City inspections associated with the construction.
- Contractor shall be responsible for removal and securing of any existing equipment necessary to provide for the new work in accordance with the contract documents and to re-install these items in good work condition.

Confirmed

10. Confirmation of Bidder Regarding Equal Employment Opportunity*

Pass

This certification is required pursuant to Executive Order 11246 (30 F.R. 12319-25). The implementing rules and regulations provide that any Bidder or perspective contractor, or any of their proposed Subcontractors, shall state as an initial part of the Bid or negotiations of the Contract whether he has participated in any previous Contract or subcontract subject to the equal opportunity clause; and, if so, whether he has filed all compliance reports due under applicable instructions.

Where the certification indicates that the Bidder has not filed a compliance report due under applicable instructions, such Bidder shall be required to submit a compliance report within seven calendar days after Bid opening. No Contract shall be awarded unless such report is submitted.

Certification - The information above is true and complete to the best of my knowledge and belief.

Confirmed

AIA® Document A310™ – 2010

Bid Bond

CONTRACTOR:
(Name, legal status and address)
Gordo, LLC
1890 Camino Calavario
Santa Fe, NM 87507

SURETY:
(Name, legal status and principal place of business)
Philadelphia Indemnity Insurance Company
One Bala Plaza, Suite 100
Bala Cynwyd, PA 19004-1403

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

OWNER:
(Name, legal status and address)
City of Santa Fe
PO Box 909
Santa Fe, NM 87504

BOND AMOUNT: Five Percent (5%) of the Total Amount of the Bid

PROJECT:
(Name, location or address, and Project number, if any)
ITB#: FY26-Const. ITB-029 Arroyo de los Chamisos Urban Trail Repair

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

Ce1·tificntio11 of No11 Segregated Facilities

Tl1c constn1ctio11 contractor certifies tl1nt lie docs not rnaintnin or provide for his employees a1 1y scgrcgnted fncilities at any of l1is establishments and that he does not permit his cttlt)loyccs to perfor111 their services at any location, under his control, where segregated t1\cilit1cs are 1nnintnined. The construction contractor certifies further that he will not maintain or provide for 11is employees any segregated facilities at any of his establishments, and that he ,, ill not permit his employees to perform their services at any location, under his control, ,vl1ere segregated facilities are maintained. The construction contractor agrees that a breacl1 of tl1is certification is a violation of the Equal Opportunity Clause in this contract. As used in tl1is certification, the term "segregated facilities" means: any waiting room, work areas, rest rooms and wash rooms, restaurants and other eating areas; time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided tot employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color, or national origin because of habit, local custom, or otherwise. The construction contractor agrees that (except where he has obtained identical certifications from proposed Subcontractors for specific time periods) he will obtain identical certifications from proposed SUBCONTRACTORS prior to the award of subcontracts exceeding $10,000 which are not exempt from the provision of the Equal Opportunity Clause and that he will retain such certifications in his files.

Contractors and Subcontractors are required to comply with the following provisions:

CIVIL RIGHTS ACT OF 1964
The Contractor and any subcontractors shall not, on the grounds of race, color, or national origin, or sex, exclude from participation in, deny the benefits of, or subject to discrimination, any person under any program or activity receiving federal financial assistance.

SECTION 13 of PL 92-500; UNDER THE FEDERAL WATER POLLUTION CONTROL ACT; REHABILITATION ACT OF 1973; PL 93-112, AND AGE DISCRIMINATION ACT OF 1975
The Contractor and any subcontractors shall not on the grounds of race, color, national origin, or sex, exclude from participation in, deny the benefits of, or subject to discrimination any person under any program or activity funded in whole or in part with Federal funds. Any prohibition against discrimination on the basis of age under the Age Discrimination Act of 1975, or with respect to an otherwise qualified handicapped individual as provided in Section 504 of the Rehabilitation Act of 1973 shall also apply to any such program or activity.

The US Environmental Protection Agency requires that contracts exceeding $1,000,000 prominently display the Office of the Inspector General Hotline poster within contractor work areas and facilities where work is performed.

Posters may be obtained at:

https://www.epa.gov/office-inspector-general/poster-report-fraud-waste-and-abuse-epa-oig-hotline

The following clause must be inserted into all construction contracts for CWSRF Equivalency and Grant projects.

General Compliance (40 CFR Part 33).
The CONTRACTOR shall comply with the requirements of the Environmental Protection Agency's Program for Participation by Disadvantaged Business Enterprises (DBE) 40 CFR Part 33.

Note: EPA accepts DBE certifications from the following entities:

- The Small Business Administration (SBA) (both SBA 8(a) Program certifications and SBA Small Disadvantaged Business (SDB) Program self-certifications);
- The Department of Transportation's (DOT) state implemented DBE Certification Program (with U.S. citizenship) (New Mexico's Certified Disadvantaged Business Enterprise Directory may be found online at https://nmdotstar.com/links/);
- Tribal, State and local governments, as long as their standards for certification meet or exceed EPA's; and
- Independent private organization certifications as long as their standards for certification meet or exceed EPA's.

APPENDIX A: Non-discrimination Provision (40 CFR Appendix A to Part 33).
The CONTRACTOR shall not discriminate on the basis of race, color, national origin or sex in the performance of this contract. The CONTRACTOR shall carry out applicable requirements of 40 CFR part 33 in the award and administration of contracts awarded under EPA financial assistance agreements. Failure by the CONTRACTOR to carry out these requirements is a material breach of this contract which may result in the termination of this contract or other legally available remedies.

Contract Administration Requirements

The CONTRACTOR must adhere to the following:

1. Pay subcontractor(s) for satisfactory performance no more than 30 days from the prime contractor's receipt of payment from the recipient.
2. Notify the SRF assistance recipient in writing prior to any termination of a DBE subcontractor for convenience by the prime contractor.
3. Employ the six good faith efforts described in §33.301 in procurement of goods and services.
4. If a DBE subcontractor fails to complete work under the subcontract for any reason, the prime contractor must employ the six good faith efforts described in §33.301 if soliciting a replacement subcontractor.
5. Ensure that each procurement contract it awards contains the term and condition specified in APPENDIX A (40 CFR Appendix A to Part 33) concerning compliance with the requirements of this part.
6. Ensure that the term and condition in APPENDIX A (40 CFR Appendix A to Part 33) is included in each procurement contract awarded by an entity receiving an identified loan under a financial assistance agreement to capitalize a revolving loan fund.

Six Good Faith Efforts (40 CFR Part 33 Subpart C).

The CONTRACTOR agrees to make the following good faith efforts whenever procuring subcontracts, equipment, services and supplies. The CONTRACTOR shall retain records documenting compliance with the following six good faith efforts.

1. Ensuring Disadvantaged Business Enterprises are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and Local and Government recipients, this will include placing Disadvantaged Business Enterprises on solicitation lists and soliciting them whenever they are potential sources. New Mexico's Certified Disadvantaged Business Enterprise Directory may be found online at https://nmdotstar.com/links/

2. Making information on forthcoming opportunities available to Disadvantaged Business Enterprises and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by Disadvantaged Business Enterprises in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of thirty (30) calendar days before the bid or proposal closing date.

3. Considering in the contracting process whether firms competing for large contracts could subcontract with Disadvantaged Business Enterprises. For Indian Tribal, State and local Government recipients, this will include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by Disadvantaged Business Enterprises in the competitive process.

4. Encourage contracting with a consortium of Disadvantaged Business Enterprises when a contract is too large for one of these firms to handle individually.

5. Using services and assistance of the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

6. If the prime contractor awards subcontracts, requiring the subcontractors to take the six good faith efforts in paragraphs 1 through 5 above.

The following clause must be inserted into all construction contracts for CWSRF Equivalency or Grant projects.

PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT

The CONTRACTOR shall comply with 2 CFR 200.216, which prohibits the use of loan or grant funds to procure or use certain telecommunication and video surveillance services or equipment either:

1. produced by Huawei Technologies Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hilkvision Digital Technology Company, or Dahua Technology Company, or any subsidiary or affiliate of such entities; or
2. provided by an entity that the Secretary of Defense reasonably believes to be an entity owned or controlled by the government of a covered foreign county.

Entities on the excluded parties list can be found in the System for Award Management (www.sam.gov). This prohibition cannot be waived. See Public Law 115-232, section 889 for additional information.

Recipients of CWSRF financial assistance for projects identified as Equivalency Projects are required to comply with the policy described below.

Signage to Increase Public Awareness

For Clean Water State Revolving Fund
(CWSRF) Projects

On June 3, 2015, the United States Environmental Protection Agency (EPA) issued a memorandum that introduced new guidelines with the purpose of increasing public awareness of EPA assistance nationwide. The EPA "Signage Requirement" applies to CWSRF projects that have been selected to meet the federal requirements ("equivalency" projects). Costs to comply with the signage requirement are eligible expenses under the CWSRF assistance agreement.

What follows are some suggested methods that communities can use to increase awareness of the funding source for CWSRF projects.

1. **Standard Signage:** Use of a traditional sign that includes the name of the facility, project, and community; project cost; the NMED logo; and the EPA logo (see Attachment). This option should be selected for projects where the sign would be easily visible, such as near a major road or thoroughfare or where the facility is in a location where this would effectively publicize the project.

2. **Posters or Brochures:** The poster should be visible at the facility or community offices and should include the name of the facility, project, and community; brief description of the project; a brief description of the water quality benefits the project will achieve; the NMED logo; and that the project is wholly or partially funded with EPA funding. If a brochure is used, it could be included in a standard mailing or be available at community offices, public libraries, community centers, or court house. This option may be more appropriate for projects located in rural areas.

3. **Newsletter, Periodical, or Press Release:** For communities where there is no suitable public space or where advertisement through signage is unlikely to reach community members effectively, projects may be advertised in a community newsletter or similar periodical. The newsletter, periodical, or press release should contain the name of the facility, project, and community; the NMED logo; that the project is wholly or partially funded with EPA funding; a brief description of the project; and a brief description of the water quality benefits to be achieved.

4. **Insert or Pamphlet in Water/Sewer Bill:** This approach would effectively publicize the project to those individuals directly benefiting from the project. The insert or pamphlet should include the name of the facility, project, and community; the NMED logo; that the project is wholly or partially funded with EPA funding; a brief description of the project; and a brief listing of water quality benefits that will be achieved. A sample insert is attached.

5. **Online and Social Media Publicity:** Many communities are increasingly finding that the online forum is the most cost-effective approach to publicize their programs and reach a broad audience of stakeholders. Online publicity may appear on the town, community, or facility website if available. Social media sites such as Facebook or Twitter can also be used. This option could be a more cost-effective option than traditional signs or print media. In the case of some projects, such as nonpoint source projects, there might be additional opportunities for online publicity through partner agencies or organizations. When using this option, the online notice should include the name of the facility, project, and community; the NMED logo; that the project was wholly or partially funded with EPA funding; and a brief description of the project and water quality benefits that will be achieved.

Below is sample language that communities may use in any of the above options:

> *Construction of upgrades and improvements to the [Name of Facility, Project Location, or WWTP] were financed by the [Clean Water/Drinking Water] State Revolving Fund. The [CWSRF/DWSRF] program is administered by the New Mexico Environment Department with joint funding from the U.S. Environmental Protection Agency and the State of New Mexico. This project will [description of project] and will provide water quality benefits [details specifying particular benefits] for community residents and businesses in and near [name of town, city, and/or water body or watershed to benefit from the project]. [CWSRF/DWSRF] programs operate around the country to provide states and communities the resources necessary to maintain and improve the infrastructure that protects our valuable water resources nationwide.*

If a community chooses to use any of the above signage options, the costs associated with those activities are eligible for CWSRF or DWRF funding. Ideally, a cost estimate should be included with the Project Plan, and final cost documentation should be submitted with the Part II Application. Communities are encouraged to consider the costs and benefit of each of these options and which would be the most effective in their area. Be sure to provide a hard copy of the selected signage option to the Construction Programs Bureau office for documentation. If a sign, poster, or online publicity method is being, used please send a Word or PDF copy.

How to Acquire the EPA and NMED Logos

Attached you will find an electronic copy of the EPA logo (If you need a higher resolution/quality EPA logo, please contact our office). You may use the EPA logo for your signage needs, but be sure to comply with the attached EPA Logo and Seal Specifications memo. Also attached is an electronic copy of the NMED logo. Please only use these files for your CWSRF or DWSRF signage purposes, any other uses are not permitted.

If you have any questions about this policy or use of the logos you may contact NMED at (505) 469-3365.

This publication is intended for guidance only and may be impacted by changes in legislation, rules, policies, and procedures adopted after the date of publication. Although this publication makes every effort to teach users how to meet applicable compliance obligations, use of this publication does not constitute the rendering of legal advice.

United States
Environmental Protection
Agency

EPA LOGO & SEAL SPECIFICATIONS FOR SIGNAGE PRODUCED BY EPA ASSISTANCE AGREEMENT RECIPIENTS

EPA's logo is a two-leaved flower, without stem, accompanied by the Agency's initials to the right. The EPA logo is the primary identifier for use on construction grant signage. Assistance agreement recipients are not required to receive EPA approval to use the EPA logo when used in accordance with the terms and conditions of their assistance agreement award.

The official seal of EPA is circular and is comprised of the two-leaved flower, with stem, encircled by the title UNITED STATES ENVIRONMENTAL PROTECTION AGENCY. The EPA seal may be used only when official comparable seals are used and the recipient has received prior written EPA approval.

It is important that the EPA logo and seal always be reproduced with consistent high quality. The seal and logo must remain intact and unchanged (for example, don't use the flower from the seal by itself). The logo and seal may only be displayed using either the standard color scheme or a single color that complements the background where it appears.

COLOR AND SPACING

- The entire logo and seal must appear in black, gray, or any uniform color or knock out white on a dark background. The flower and text may not be different colors. The flower itself may not contain more than one color. The seal can be monotone or full color, based on the rest of the seals that it's placed with.
- The relationship between the flower portion of the logo and Helvetica type should never be shifted or adjusted.

PMS 362

PMS 660

Process Black at 70%

Process Black 100%

Knock out on a dark color

PREFERRED USE

Use the preferred presentation of the logo on products that do not have enough space for the full logo with text. It may also be used in the presence of other logos.

SIZE AND LOGO WITH OTHER LOGOS

It's important that all parts of the EPA logo be readable. The EPA logo should not be reproduced at sizes any smaller than 1.0" height on a sign. There are no maximum size restrictions as long as the clear space requirements are met. The logo should be made the same relative size as the other logos on the signage.

1.0"

MTA Maryland

NJ TRANSIT The Way To Go.

SIZE AND SEAL WITH OTHER SEALS

When there are multiple state or Federal seals/circular logos, the use of the EPA seal is appropriate with prior written EPA approval. The EPA seal should be the same size as the seals that accompany it and should be a minimum of 3 inches in height.

SAMPLE INSERT for Water/Sewer Bill

You may have noticed some construction activity around town! We are currently making improvements to the Heartland Wastewater Treatment Plan located at 100 Heartland Drive. Improvements include the installation of a new pump and clarifier basin improvements. These improvements are being made so that we can continue to treat Heartland's wastewater and maintain the quality of the water that is discharged into Heart River. This project is financed using state and federal funding from the New Mexico Environment Department and the U.S, Environmental Protection Agency. If you have any questions you can contact the city at 111-123-4567.

	U.S. Environmental Protection Agency Certification of Non-Segregated Facilities	Form #C1

SRF Project Number: FY26-Const. ITB-029
Project Name: Arroyo de los Chamisos Urban Trail Repair
Assistance Recipient: City of Santa Fe

(Applicable to contracts, subcontracts, and agreements with applicants who are themselves performing Federally assisted construction contracts, exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause.)

By the submission of this bid, the bidder, offeror, applicant, or subcontractor certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. He certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments, and that he will not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. The bidder, offeror, applicant, or subcontractor agrees that a breach of this certification is a violation of the Equal Opportunity clause in this contract. As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color, or national original, because of habit, local custom, or otherwise. He further agrees that (except where he has obtained identical certifications from proposed subcontractors for specific time periods) he will obtain identical certifications from proposed subcontractors prior to the award of subcontracts exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause; that he will retain such certifications in his files; and that he will forward the following notice to such proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

NOTICE TO PROSPECTIVE SUBCONTRACTORS OF REQUIREMENT FOR CERTIFICATIONS OF NON-SEGREGATED FACILITIES

A Certification of Non-segregated Facilities, as required by the May 9, 1967, order (33 F.R. 7808, May 28, 1968) on Elimination of Segregated Facilities, by the Secretary of Labor, must be submitted prior to the award of a subcontract exceeding $10,000 which is not exempt from the provisions of the Equal Opportunity clause. The certification may be submitted either for each subcontract or for all subcontracts during a period (i.e., quarterly, semiannually, or annually).

	Debarments and Suspensions	Form #C2

The Contractor is required to sign this form and return it to the Assistance Recipient for any CWSRF Equivalency or Grant-Funded project. In addition, the Contractor must require any Sub-Contractor for contracts $25,000 and above to sign and return this form to the Contractor.

SRF Project Number: FY26-Const. ITB-029
Project Name: Arroyo de los Chamisos Urban Trail Repair
Assistance Recipient: City of Santa Fe

Any bidder or equipment supplier whose firm or affiliate is listed in on the U.S. General Services Administration Excluded Parties List will be prohibited from the bidding process. The excluded parties records search engine is located at the System for Award Management (SAM) website: https:// www.sam.gov/SAM/. Pursuant to 2 CFR Part 180, as supplemented by 2 CFR 1532, any entity submitting a bid while the SAM website lists that entity as having an active exclusion will be determined by the DNR to be a non-responsive bidder and will not be able to receive SRF funding.

United States Environmental Protection Agency Washington, DC 20460
Certification Regarding Debarment, Suspension, and Other Responsibility Matters

The prospective participant certifies to the best of its knowledge and belief that it and the principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
(b) Have not within a three year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction: violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
(c) Are not presently indicted or otherwise criminally or civilly charged by a government entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification; and
(d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

I understand that a false statement on this certification may be grounds for rejection of this proposal or termination of the award. In addition, under 18 U SC Sec. 10 01, a false statement may result in a fine of up to $10,000 or imprisonment for up to 5 years, or both.

Name and Title of Authorized Representative

☐ I am unable to certify to the above statements. My explanation is attached.

Instructions

Under Executive Order 12549 an individual or organization debarred or excluded from participation in Federal assistance or benefit programs may not receive any assistance award under a federal program, or a sub-agreement thereunder for $25,000 or more.

Accordingly, each prospective recipient of an EPA grant, loan, or cooperative agreement and any contract or sub-agreement participant thereunder must complete the attached certification or provide an explanation why they cannot. For further details, see 40 CFR 32.510, Participants' responsibilities, in the attached regulation.

Where to Submit

The prospective EPA grant, loan, or cooperative agreement recipient must return the signed certification or explanation with its application to the appropriate EPA Headquarters or Regional office, as required in the application instructions.

A prospective prime contractor must submit a completed certification or explanation to the individual or organization awarding the contract.

Each prospective subcontractor must submit a completed certification or explanation to the prime contractor for the project.

How to Obtain Forms:

EPA includes the certification form, instructions, and a copy of its implementing regulation (40 CFR Part 32) in each application kit. Applicants may reproduce these materials as needed and provide them to their prospective prime contractor, who, in turn, may reproduce and provide them to prospective subcontractors.

Additional copies/assistance may be requested from:

Compliance Branch
Grants Administration Division (PM-216F)
U.S. Environmental Protection Agency
401 M Street, SW
Washington DC 20460
(Telephone: 202-475-8025)

EPA Form 5700-19 (11-88)

	Disadvantaged Business Enterprise Good Faith Efforts Checklist	Form #C7

This form and Good Faith Efforts Checklist must be completed and signed by the Prime Contractor ***when hiring a subcontractor*** and must be submitted to the project owner (SRF assistance recipient).

Disadvantaged Business Enterprise (DBE) Solicitation Good-Faith Efforts

The Six Good Faith Efforts are required methods employed by all EPA financial assistance agreement recipients to ensure that Disadvantaged Business Enterprises (DBEs) have the opportunity to compete for contracts and subcontracts funded by EPA financial assistance dollars.

Prime Contractor's DBE requirements for SRF projects include:

- Taking affirmative steps for DBE participation
- Maintaining documentation of these affirmative steps

PROJECT INFORMATION

SRF Project Number:	FY26 Const. ITB-029
SRF Project Name:	Arroyo de los Chamisos Urban Trail Repair
Assistance Recipient:	City of Santa Fe
Prime Contractor:	Gordo LLC
Address of Prime Contractor:	1890 Camino Calvario, Santa Fe, NM 87507

Signature of Authorized Representative:	Eric Biderman
Check if Prime Contractor is: ☐ **Minority-Owned** ☐ **Women-Owned**	

Note: New Mexico's Certified Disadvantaged Business Enterprise Directory may be found online at https://nmdotstar.com/links/

In addition, NMED also accepts DBE certifications from the following entities:

- The Small Business Administration (SBA) (both SBA 8(a) Program certifications and SBA Small Disadvantaged Business (SDB) Program self-certifications);
- The Department of Transportation's (DOT) state implemented DBE Certification Program (with U.S. citizenship)
- Tribal, State and local governments, as long as their standards for certification meet or exceed EPA's; and
- Independent private organization certifications as long as their standards for certification meet or exceed EPA's.

GOOD FAITH EFFORTS CHECKLIST

Please complete the checklist when soliciting subcontractors for the SRF Project noted above to determine if you have complied with the requirement to make good faith efforts to ensure that certified Disadvantaged Business Enterprises (DBEs) have the opportunity to compete for procurements funded by EPA financial assistance funds. Bidders/offerors must make good faith efforts prior to submission of bids/proposals.

1. Did you ensure that DBEs are made aware of subcontracting opportunities to the fullest extent practicable through outreach and recruitment activities? [x] Yes [ ] No

2. Did you make information on forthcoming opportunities available to DBEs and arrange time frames for subcontracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process? This includes, whenever possible, posting solicitation for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date. [x] Yes [ ] No

3. Did you consider in the subcontracting process whether firms competing for large sub-contracts could subcontract with DBEs? This will include dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process. [x] Yes [ ] No

4. Did you encourage subcontracting with a consortium of DBEs when a subcontract is too large for one of these firms to handle individually? [x] Yes [ ] No

5. Did you use the services of the Small Business Administration and the Minority Business Development Agency of the Department of Commerce to identify potential subcontractors? [x] Yes [ ] No

6. List the potential DBE subcontractors that were contacted.

Name	How Contacted (e.g. letter, phone call, fax, e-mail)	Response (e.g. did not respond, not interested, not competitive)
Renee Roybal	phone, and email	NMDOT is redoing the entire DBE program based on new federal rules
Frank's supply	phone	gave a price for equipment
Southwest landscape	phone	not competitive
Montanos	phone	does not have material

CONTRACT ADMINISTRATION PROVISIONS

Several contract provisions are required to prevent unfair practices that adversely affect DBEs. These include:

1. Prime Contractor must pay its Subcontractor for satisfactory performance no more than 30 days from the Prime Contractor's receipt of payment from the SRF loan recipient.

2. Prime Contractor must notify the SRF loan recipient in writing prior to termination of a DBE subcontractor for convenience.

3. Prime Contractor must employ the six Good Faith Efforts to solicit a replacement subcontractor if a DBE subcontractor fails to complete work under a subcontract for any reason.

Scope of Work

Construction will consist of removal and reconstruction activities to mitigate erosion along the

Arroyo de los Chamisos Trail. The work includes removal of deteriorated infrastructure, regrading,

drainage, and outfall protection improvements, erosion control implementation, and final trail

restoration.

The scope of work for construction will include, but is not limited to

- Onsite Meetings with the Engineer of Record
- Site Preparation
- Removal & Demolition
- Earthwork & Grading
- Drainage & Outfall Protection
- Trail Construction & Paving
- Erosion Control & Site Restoration
- Traffic Control
- Mobilization, Demobilization & Final Cleanup

Thank you,

Outlook-l5ybs0rf.png
Outlook-Chart. tex

Greetings,

Based on the information provided, the scope of work is classified as **Construction**. This determination is made solely for the purpose of addressing the classification question and does not constitute a comprehensive review of the scope or the procurement method's compliance with all applicable legal or regulatory requirements.

This determination is subject to change if the scope of work is modified from the original submission.

The procurement process must comply with all applicable requirements, including but not limited to:

- The City of Santa Fe's Procurement Manual
- Central Purchasing procedures
- Applicable state statutes
- Requirements of the New Mexico Department of Workforce Solutions, if applicable

Please note:

- Save this email as a PDF and upload it into the corresponding Munis record(s).
- If your request includes anything that needs to be reviewed and preapproved by another City Department/Division, please send the same SOW to the corresponding email address and include their response in your packet/Munis.

-Treasury (Point of Sale Systems) – questions: drsena@santafenm.gov; clromero@santafenm.gov. Request signature from: clromero@santafenm.gov
-IT components (everything IT) – questions: ereview@santafenm.gov. Request signature from: edcandelaria@santafenm.gov;
Copy: zxdushdurova@santafenm.gov; lenobes@santafenm.gov; lfworstell@santafenm.gov
-Vehicles – questions: fleet@santafenm.gov. Request signature from: dmjaramillo@santafenm.gov
-Grants – questions: grants@santafenm.gov. Request signature from: evlujan@santafenm.gov
- Construction, Facilities, Furniture, Fixtures, Equipment, etc. – questions: fmdreview@santafenm.gov. Request signature from: jsburnett@santafenm.gov_
-Emergency Related Purchases – questions oem@santafenm.govand. Request signature from: klmorgan@santafenm.gov
-Asset over $5k – questions: accountspayable@santafenm.gov. Request signature from: jxbolden@santafenm.gov

- Ensure that the appropriate templates and forms are used https://intranet.santafenm.gov/finance_1 and documented procedures/laws/rules are followed.
- When processing this procurement, please ensure the procurement number issued by Munis and the procurement name are used in the appropriate documents and the subject of emails.

- If you are processing a procurement where the forecasted amount is =/> $60k, per NMSA 1978, Section 13-1-102, the procurement method must be ITB (if you choose not to use a cooperative or an existing contract). If you feel you need to process an RFP, you must get an Authorization and Plan approved before you process.

- < $20k per year, one quote is acceptable.

- From $20k to $60k per year, if you aren't using a cooperative or existing contract, you must provide 3 quotes in your req. Must use the Munis Bid Module, OpenGov, or Pavilion.

- **Identify your funding source and notify Purchasing.**
It's essential to determine the funding source early, as it impacts the required documentation and contract language. For example, if federal funds are being used, specific federal provisions must be included in both the procurement request and the resulting contract. Notifying Purchasing of the funding source upfront ensures compliance and avoids delays.

- Follow the link below to review existing price agreements, contracts, or cooperative agreements that might be applicable to this request. You might be able to use an existing price agreement/contract to save time and money.

    - Pavilion: Free Cooperative Contract Search for Governments (please work with Purchasing if you think you found an existing or cooperative contract that might work)

- Submit via **Submit Purchase Requests** or the appropriate email address:

    - Determination requests to purchasing_det@santafenm.gov

    - All other requests to purchasing@santafenm.gov

Thank you for submitting this scope of work for my review.

Book time to meet with me

Subject: Software Agreement for Electronic Reporting Software

Vendor Name: Image Trend

Munis Vendor Number: 9260

ITEM AND ISSUE:

Fire Department respectfully requests your review and approval of a General Services Contract / Software Agreement. The total compensation for this Contract, including GRT, shall not exceed four hundred six thousand six hundred fifty-eight dollars and forty-nine cents ($406,658.49) for call reporting software for a term of four years with Image Trend, Inc.

CONTRACT NUMBER:

The FY26 Munis contract number is 3260270.

BACKGROUND AND SUMMARY:

Data capture and records management is crucial for the Santa Fe Fire Department (SFFD) for clinical, compliance, financial, evaluations, legal and business operations reasons. We have utilized this software for the past four years. This request will establish a new contract extending our relationship for another four-year term. The Image Trend software platform allows SFFD to improve data workflow and ability to access and organize department data.

Justification
Unique Expertise

Explain the Purpose/Need of the Purchase
Scope of Work
A. The Contractor shall perform the following work and as described in Exhibit "A" attached hereto: The Scope of Work is broken into three categories: I.) Front End and Data Capture, 2.) Back End and Data Organization, Storage and Analysis and 3.) Compliance and Interface. IT support, troubleshooting, and customer service are expected to be ongoing throughout time of contract. Unless otherwise stated, the system, software, data, and interfaces must be created prior to "go-live" date of January 1, 2022 and maintained throughout the duration of the contract.

Front End and Data Capture
These features allow front end users to easily create accurate incident records. Contractor will:
• User-friendly front end: Create a user-friendly front end to capture granular details for fire department activities including all 911 responses and prevention activities:
o EMS: create records-capture capability for EMS calls to capture all State (NMEMSTARS) and Federally-required (NEMSIS) data fields, all fields required for processing of medical billing claims by billing company as well as supplemental questions necessary for EMS management functions such as clinical and system quality monitoring.
o MIH: create records-capture capability for prevention, response and follow up operations.
o FP: create records-capture capability for fire prevention activities including: plan review, inspections, certificates of compliance and fire investigations.
o RMS: create records-generating capability for incident capture including all Federally-required NFIRS data fields and all fields required for processing of incident (fire/recovery) billing claims.
• Uptime: Guarantee 99.5% uptime 24/7/365
• Record transfer: Provide capability of facile transfer of incidents between users/units (e.g. first responding to transporting unit)
• Property inspections: Have the ability for FP users to generate annual property inspections independent of Certificate of Compliance existence

• Online user capacity: Ensure that all staff have the ability to be logged in simultaneously as needed, or detail if this is not the case (e.g. specify if there is a limit of how many users can be logged into the system at once if
it's limited).
• Training: Within the first year of contract, provide transition/roll out training.
o Training includes two trips/six onsite days (3 days per trip) and eight webinar sessions (each session is two hours in length).
• Optical character recognition: Use optical character recognition, barcode and QR code capability to automatically populate appropriate section(s) on record from drivers' licenses, hospital face sheets, insurance
cards, etc.
• Location pin: CAD latitude and longitude data can be populated in the incident fields so long as the City's CAD Contractor collects and sends the data to Contractor. If the coordinates are not populated from CAD, a user can "Set Scene GPS coordinates" within the ePCR that will populate the location of the device at the time the field button is selected within the record to "pin" a location based on the device's geolocation (to correct a CAD error, specify a patient or incident location, etc.).

Back End and Data Organization, Storage and Analysis
These features, used primarily by system administrators, organize and store our data. Contractor will:
• User-friendly back end: Create a user-friendly back end to manage data fields, workflows/closed-call rules, reports with depth and breadth across sections (scheduled and on-demand), and other system administration processes:
o Deliver a platfonn which is customized to meet all administrative requirements including:
■ All sections will have architecture that:
• Is user-friendly;
• Allows customization of data fields;
• Allows customization of closed-call rules while protecting NMEMSTARS, NEMSIS and NFIRS required data fields;
• Allows customization of workflow of records for QA and billing function;
• Through branching logic, have the ability to determine closed call rules and autofill specified data fields.
• Creates "parent/longitudinal" records for individuals, businesses and locations across sections;
• Allows for the creation of reports with depth and breadth across sections and with multiple variables (including reports based on "parent/longitudinal" records).
■ EMS section:
• Closed-call rules which meet required State and Federal NEMSIS data fields, medical billing data fields and supplemental questions for EMS management
• Create custom reports as needed by SFFD staff.
■ MIH section:
• Closed-call rules for prevention, response and follow up operations;
• Create custom reports as needed by SFFD staff.
■ FP section:
• Validation rules for plan review, fire inspections, certificates of compliance and investigations;
• Create custom reports as needed by SFFD staff.
■ RMS section:
• Closed call rules for all Federally-required NFIRS data fields and all fields required for processing of incident (fire/recovery) billing claims;
• Create custom reports as needed by SFFD staff.
• IT support: supply on-call technical support as needed for users and administrators pursuant to the Service Level Agreement attached as Exhibit A and incorporated herein by reference.

• Dashboards: Provide customizable dashboards for administrators and managers.
• Flags: Create automatically-generated, real-time alerts and notifications based on specified triggers (to frontend users and to administrators).
• Longitudinal data: Provide longitudinal organization ofrecords by patient, location, business and other nexuses across sections. For example, have the functionality to elegantly display and interact with all records (generated by EMS, MIH, FP, fire) based on a specified location or patient name.
Probabilistic matching: Provide functionality which allows front end users to select a particular individual from all patient care records through fields including but not limited to: first name, last name, patient address and social security number (complete or "last four") and which then downloads fields associated with that patient from past incident data including but not limited to: demographics, medical history, medications and allergies, billing information, practitioner information, vital signs, impressions, symptoms, device images and more. Also provide functionality solely within the Community Health module which allows administrators to lock a "master patient record" with certain information which can be added to but cannot be deleted or changed by a field provider. Also provide functionality to remove unwanted or duplicate entries and merge records of repeat patients manually when necessary by a user, with permission, within Elite Repeat Patient.
• Host data: Be able to host server and data or work with Microsoft Windows Hypervisor to ensure that current host is able to continue hosting.
• Training: Within the first year of the contract, provide transition/roll out training.
o Training includes two trips/six onsite days (3 days per trip) and eight webinar sessions (each session is two hours in length).
• Data migration: Migrate historical records into new platform:
o By December 31, 2021, migration of legacy ePCR incidents in a compliant NEMSIS V3 xml format and legacy fire incident data in the standard NFIRS text file format.

Compliance and Interface
These features help different divisions of SFFD communicate with each other, and help SFFD staff communicate with external stakeholders, as well as assure billing and legal compliance. Contractor will:
• Messaging: Provide HIPAA compliant Direct Secure Messaging between system users. This includes ability for users to message administrators and vice versa, as well as messaging across all sections and users.
Records referenced in the messaging should be easily accessible from message conversation (this spans front and back-end users, as it describes communication between the two groups).
• Referrals: Provide ability for staff to refer individuals to MIH services/programs or flag incidents for quality assurance programs.
• Alerts: Facilitate bidirectional infonnation sharing (between non-emergency, administrative and emergency users) through alerts and longitudinal profiles (such as longitudinal patient and property profiles). For example, have the functionality to add critical/time-sensitive notes for emergency responders to see when while interacting with particular records ("Patient has appointment with _ on _. Please contact_" or "Property pending reinspection. Hazard X present at exterior entry door on C side of building") as well as the functionality for emergency responders to share notes with non-emergency and/or administrative staff.
• PSAP: Create and maintain interface with PSAP
o PCR fields should autofill from CAD wherever appropriate.
o Integrate data with CAD Contractors via a direct web service, file type, or query type. An EMS or Fire CAD incident view is visible in the website to users.
• Staffing Software: Create an interface with staffing software to ensure proper personnel are assigned and accurately represented in all generated records.
• Billing: Create interface with billing company
• HIPAA/HITECH: Maintain compliance with most recent laws governing patient privacy (HIPAA and HITECH) for Electronic Health Records
• NMEMSTARS/NEMSIS: Maintain compliance with most current NMEMSTARS and federal NEMSIS reporting requirements.
• HL7: Maintain compatibility with HL7 for EMS and MIH records.
• Cardiac Monitor: Create interface with cardiac monitors
o Interface with Physio, Zoll and Philips monitors. EKG information, including the waveform graphic, can be transmitted to the PCR and data is incorporated into the correct fields in the run form. The six second strips and 12-leads are created as PDF attachments. The strips can be printed with the PCR, if desired. EKG data transmission will be accomplished using Bluetooth, cable, or internet, depending upon EKG and device capabilities.

• IBC/IFC: Create interface to quickly access International Fire Code (currently 2015 IFC) and International Building Code (currently 2015 IBC) for FP records.
• NFPA: Create an interface to quickly access NFPA standards related to IFC and IBC.
• Training and Record-Keeping Software: Ability to interface with Target Solutions
• Airtraq: Ability to upload video files from AirTraq intubations to application and ability to attach PDFs, JPEGs, MOVs, MP4s, PNG, JPGs etc. to individual ePCRs
• LifeNet: Create an interface with cardiac arrest QA tool (LifeNet) as needed for quality management review of incidents and charts.

Conversion:
To Contract

Term of Contract (Sole Source)
4 years

Department Criteria:
This procurement ensures the department continues to meet its operational, safety, and compliance obligations effectively and efficiently without interruption. Data capture and records management is crucial for the Santa Fe Fire Department (SFFD) for clinical, compliance, financial, evaluations, legal and business operations reasons. We have utilized this software for the past four years. This request will establish a new contract extending our relationship for another four-year term. The Image Trend software platform allows SFFD improved data workflow and ability to access and organize department data.

Vendor Name
ImageTrend, LLC

Vendor's Address
1305 Corporate Center Drive, Suite 500, Eagan, NM 55121

Assessment of Vendor's Exclusive Qualifications:
The software supports the operational, administrative, and regulatory needs of the department and ensures accurate and efficient data capture during emergency incidents.

The selected software is uniquely capable of fulfilling the department's needs due to the following essential features and capabilities that are not available as a complete package from any other vendor:
• User-Friendly Interface: The platform provides an intuitive and accessible interface, reducing training time and ensuring rapid adoption by field personnel under high-stress emergency conditions.
• Customizable Forms and Parameters: The system allows department administrators to create, modify, and configure forms used in incident documentation. This includes the ability to set and enforce parameters for closed call rules, ensuring compliance and completeness of records.
• Customizable Quality Assurance Module: The software includes a fully integrated QA module that can be tailored to reflect department-specific standards, workflows, and review processes. This ensures effective tracking and improvement of documentation and response quality.
• Integrated Firefighting and Prevention Modules: The platform combines modules for all hazards emergency response and fire prevention, allowing a single system to manage incident reporting, hydrant inspections, pre-fire planning, code enforcement, and public education activities. This eliminates the need for multiple systems and ensures comprehensive data continuity.
• Interoperability with Third-Party Platforms: The system is engineered for seamless integration with external IT platforms such as CAD (Computer-Aided Dispatch), RMS (Records Management Systems), and state-level reporting databases. This ensures streamlined operations and data sharing across systems.

Explanation of Unsuitable Alternatives
While other systems offer partial capabilities, none were found to provide the full suite of required features in a single platform with the same degree of customization, ease of use, and interoperability.

Additionally, transitioning to another vendor would result in:
• Significant retraining and operational disruption.
• Loss of historical data integrity or the need for costly data migration.
• Increased costs due to system fragmentation and third-party integrations.

Other vendors do not offer the combination of fully customizable forms, QA tools, and integrated modules specifically tailored for fire service operations, making this a proprietary solution.

Place checkmarks to affirm this request aligns with each of the requirements in NMSA 1978, Section 13-1-126

- There is only one source for the required service, construction, or item of tangible personal property.

Place checkmarks to affirm you agree and have included these documents

- The vendor has affirmed sole source for the services, construction, or items of tangible personal property by providing a letter on company letterhead signed by leadership affirming they are the sole provider of the goods/services outlined in the scope of work, and documentation has been provided that due diligence was conducted to identify other possible vendors/contractors to provide the requested services/goods but proved unsuccessful.
- Itemized price quote from sole source vendor fully detailing costs for goods/services in scope of work. (Must state whether they are going to charge tax or not.)
- If contract value exceeds CM Approval Amount, include agenda item to present to 2 Committees and Governing Body.
- The requesting department has verified through Pavilion, internet searches, and other market research that these sources are not available from alternative vendors.

Sten A Johnson
Assistant Chief – Support Services
City of Santa Fe Fire Department
200 Murales Rd.
Santa Fe, NM 87501
PH: 505-467-9799

Dear Sten A Johnson,

Thank you for your recent sole source inquiry. ImageTrend Elite™ is solely developed, produced, distributed and supported by ImageTrend, LLC. This product is copyrighted and trademarked. Only available from ImageTrend is our seamless integration with any of over 50 CAD vendors that we have worked with in the past. These CAD integrations allow for data to be directly imported into the Elite EMS run form, reducing data collection needs and human error.

The Elite solution offers drag and drop form template configuration available to manage system-wide, regionally or specific to agency's workflow, in addition, easy to create validation rules to meet state or agency documentation standards. The solution includes a proprietary Report Writer for usage and generation of standard and ad hoc reports by any level of system user within their reporting permission rights.

Additionally, ImageTrend Continuum®, our live near real-time data reporting solution for Elite, provides a live data feed populating Dashboards and Monitors that can be configured by you. This information is then displayed over maps and graphical overlays to give you an accurate representation of your organization at any given time. Elite and Continuum are only able to be connected to each other by ImageTrend Client Services.

This solution from ImageTrend, LLC. is based upon the unique modules and basic architectural features of the data management systems that have been designed by ImageTrend for many applications. The experience and input from our current users have collaboratively helped us to develop a commercial-off-the-shelf (COTS) solution and best practices exclusively for the EMS market.

ImageTrend is the only company to offer a fully integrated EMS/Fire solution compatible and data certified with NEMSIS v3, NFIRS, and NERIS that incorporates both mobile-device compatibility from the ground up, as well as the option to self-host the Elite system database in their own hosted environment. The Elite solution is scalable within one system to handle millions of incidents with thousands of users annually. Elite's unique security concept and enterprise design allow for multiple tiered, secure usage and views by individual services, regional groups and state entities all within one system.

As the sole source vendor of this software, we distribute on a use license basis and maintain beneficiary escrow accounts. All data obtained and maintained within the application is proprietary to and owned by the licensed user. ImageTrend does not distribute the source code to any other vendors or resellers and therefore development, modification or implementation of Elite and its modules and extensions can only be performed by ImageTrend, LLC.

Please feel free to contact us at 1-888-469-7789 if you need any further information.

Sincerely,

Joe Graw

This Order Form is subject to the terms of the Master Subscription Agreement located at http://www.imagetrend.com/legal/msa unless there is a separate agreement between Santa Fe Fire Department (NM) and ImageTrend.
This proposal is valid for 90 days from the date listed above.

Additional Terms:

- One-Time Fees will be due upon contract signature.
- Recurring fees will be invoiced annually in advance, beginning on the Effective Date, unless Customer provides notice of cancellation in accordance with the MSA, no less than sixty (60) days prior to the end of a Subscription Term.
- Payments are due 30 days after receipt of an invoice.
- Recurring fees are subject to price increases each year following the first year of the Subscription Term, and will not exceed 3%% of the then-current price in any given year.
- Any terms not defined herein shall have the same meaning as defined in the Master Subscription Agreement.
- The Subscription Term for any Services added by Customer after the beginning of the thencurrent Subscription Term will be coterminous with the then-current Subscription Term for existing Services.

CITY OF SANTA FE
GENERAL SERVICES CONTRACT

SOFTWARE AGREEMENT

THIS AGREEMENT is made and entered into by and between the City of Santa Fe, herein after referred to as the "City," and **ImageTrend, LLC** herein after referred to as the "Contractor."

IT IS MUTUALLY AGREED BETWEEN THE PARTIES:

1. **Definitions**

A. "Products and Services Schedule" refers to the complete list of products and services offered under this Contract and the price for each. Product and service descriptions may be amended with the prior approval of the Contract Administrator. New products and services shall not be added to the Products and Services Schedule.

B. "Business Hours" means 8:00 a.m. to 5:00 p.m. Mountain Time.

C. "Fiscal Year" means the twelve-month period beginning on July 1 and ending on June 30 of the following calendar year.

D. "Fiscal Year Quarters" means the four three-month periods within the City's fiscal year, defined as follows: Quarter 1 is July 1 through September 30; Quarter 2 is October 1 through December 31; Quarter 3 is January 1 through March 31; and Quarter 4 is April 1 through June 30.

2. **Scope of Work**

The Contractor shall perform the following work:

The Scope of Work is broken into three categories: 1.) Front End and Data Capture, 2.) Back End and Data Organization, Storage and Analysis and 3.) Compliance and Interface. IT support, troubleshooting, and City service will be provided throughout term of the contract.

Front End and Data Capture

These features allow front end users to easily create accurate incident records. Contractor will:

- **User-friendly front end:** Create a user-friendly front end to capture granular details for fire department activities including all 911 responses and prevention activities:
    - Emergency Medical Services (EMS): create records-capture capability for EMS calls to capture state required New Mexico Emergency Medical Services Tracking and Reporting System (NMEMSTARS) and Federally-required National Emergency Medical Services Information System (NEMSIS) data fields, all fields required for

processing of medical billing claims by billing company as well as supplemental questions necessary for EMS management functions such as clinical and system quality monitoring.
    - Mobile Integrated Health (MIH): create records-capture capability for prevention, response and follow up operations.
    - Fire Prevention (FP): create records-capture capability for fire prevention activities including: plan review, inspections, certificates of compliance and fire investigations.
    - Record Management System (RMS): create records-generating capability for incident capture including all Federally-required National Fire Incident Reporting System (NFIRS) and NFIRS replacement when activated National Emergency Response Information System (NERIS) data fields and all fields required for processing of incident (fire/recovery) billing claims.
- **Uptime:** Guarantee 99.5% uptime 24/7/365
- **Record transfer:** Provide capability of facile transfer of incidents between users/units (e.g. first responding to transporting unit)
- **Property inspections:** Have the ability for FP users to generate annual property inspections independent of Certificate of Compliance existence
- **Online user capacity:** Ensure that all staff have the ability to be logged in simultaneously as needed, or detail if this is not the case (e.g. specify if there is a limit of how many users can be logged into the system at once if it's limited).
- **Training:** Within the first year of contract, provide transition/roll out training.
    - Training includes two trips/six onsite days (3 days per trip) and eight webinar sessions (each session is two hours in length).
- **Optical character recognition:** Use optical character recognition, barcode and QR code capability to automatically populate appropriate section(s) on record from drivers' licenses, hospital face sheets, insurance cards, etc.
- **Location pin:** CAD latitude and longitude data can be populated in the incident fields so long as the City's CAD Contractor collects and sends the data to Contractor. If the coordinates are not populated from CAD, a user can "Set Scene GPS coordinates" within the ePCR that will populate the location of the device at the time the field button is selected within the record to "pin" a location based on the device's geolocation (to correct a CAD error, specify a patient or incident location, etc.).

Back End and Data Organization, Storage and Analysis

These features, used primarily by system administrators, organize and store our data. Contractor will:

- **User-friendly back end:** Create a user-friendly back end to manage data fields, workflows/closed-call rules, reports with depth and breadth across sections (scheduled and on-demand), and other system administration processes:
    - Deliver a platform which is customized to meet all administrative requirements including:
        - All sections will have architecture that:
            - Is user-friendly;

Business Private

- Allows customization of data fields;
- Allows customization of closed-call rules while protecting NMEMSTARS, NEMSIS, NFIRS, and NERIS required data fields;
- Allows customization of workflow of records for QA and billing function;
- Through branching logic, have the ability to determine closed call rules and autofill specified data fields.
- Creates "parent/longitudinal" records for individuals, businesses and locations across sections;
- Allows for the creation of reports with depth and breadth across sections and with multiple variables (including reports based on "parent/longitudinal" records).

■ EMS section:
- Closed-call rules which meet required State and Federal NEMSIS data fields, medical billing data fields and supplemental questions for EMS management
- Create custom reports as needed by SFFD staff.

■ MIH section:
- Closed-call rules for prevention, response and follow up operations;
- Create custom reports as needed by SFFD staff.

■ FP section:
- Validation rules for plan review, fire inspections, certificates of compliance and investigations;
- Create custom reports as needed by SFFD staff.

■ RMS section:
- Closed call rules for all Federally-required NFIRS data fields and all fields required for processing of incident (fire/recovery) billing claims;
- Create custom reports as needed by SFFD staff.

- **IT support:** supply on-call technical support as needed for users and administrators pursuant to the Service Level Agreement attached as Exhibit A and incorporated herein by reference.
- **Dashboards:** Provide customizable dashboards for administrators and managers.
- **Flags:** Create automatically-generated, real-time alerts and notifications based on specified triggers (to front- end users and to administrators).
- **Longitudinal data:** Provide longitudinal organization of records by patient, location, business and other nexuses across sections. For example, have the functionality to elegantly display and interact with all records (generated by EMS, MIH, FP, fire) based on a specified location or patient name.
- **Probabilistic matching:** Provide functionality which allows front end users to select a particular individual from all patient care records through fields including but not limited to: first name, last name, patient address and social security number (complete or "last four") and which then downloads fields associated with that patient from past incident data including but not limited to: demographics, medical history, medications and allergies, billing information,

practitioner information, vital signs, impressions, symptoms, device images and more. Also provide functionality solely within the Community Health module which allows administrators to lock a "master patient record" with certain information which can be added to but cannot be deleted or changed by a field provider. Also provide functionality to remove unwanted or duplicate entries and merge records of repeat patients manually when necessary by a user, with permission, within Elite Repeat Patient.

- **Host data:** Be able to host server and data **or** work with Microsoft Windows Hypervisor to ensure that current host is able to continue hosting.
- **Training:** Within the first year of the contract, provide transition/roll out training.
    - Training includes two trips/six onsite days (3 days per trip) and eight webinar sessions (each session is two hours in length).
- **Data migration:** Migrate historical records into new platform:
    - By December 31, 2021, migration of legacy ePCR incidents in a compliant NEMSIS V3 xml format and legacy fire incident data in the standard NFIRS text file format.

Compliance and Interface

These features help different divisions of SFFD communicate with each other, and help SFFD staff communicate with external stakeholders, as well as assure billing and legal compliance. Contractor will:

- **Messaging:** Provide HIPAA-compliant Direct Secure Messaging between system users. This includes ability for users to message administrators and vice versa, as well as messaging across all sections and users. Records referenced in the messaging should be easily accessible from message conversation (this spans front and back-end users, as it describes communication between the two groups).
- **Referrals:** Provide ability for staff to refer individuals to MIH services/programs or flag incidents for quality assurance programs.
- **Alerts:** Facilitate bidirectional information sharing (between non-emergency, administrative and emergency users) through alerts and longitudinal profiles (such as longitudinal patient and property profiles). For example, have the functionality to add critical/time-sensitive notes for emergency responders to see when while interacting with particular records ("Patient has appointment with _on _. Please contact_" or "Property pending reinspection. Hazard X present at exterior entry door on C side of building") as well as the functionality for emergency responders to share notes with non-emergency and/or administrative staff.
- **PSAP:** Create and maintain interface with PSAP
    - PCR fields should autofill from CAD wherever appropriate.
    - Integrate data with CAD Contractors via a direct web service, file type, or query type. An EMS or Fire CAD incident view is visible in the website to users.
- **Staffing Software:** Create an interface with staffing software to ensure proper personnel are assigned and accurately represented in all generated records.
- **Billing:** Create interface with billing company
- **HIPAA/HITECH:** Maintain compliance with most recent laws governing patient privacy (HIPAA and HITECH) for Electronic Health Records
- **NMEMSTARS/NEMSIS:** Maintain compliance with most current NMEMSTARS and federal NEMSIS reporting requirements.
- **HL7:** Maintain compatibility with HL7 for EMS and MIH records.

- **Cardiac Monitor:** Create interface with cardiac monitors
    - Interface with Physio, Zoll and Philips monitors. EKG information, including the waveform graphic, can be transmitted to the PCR and data is incorporated into the correct fields in the run form. The six second strips and 12-leads are created as PDF attachments. The strips can be printed with the PCR, if desired. EKG data transmission will be accomplished using Bluetooth, cable, or internet, depending upon EKG and device capabilities.
- **IBC/IFC:** Create interface to quickly access International Fire Code (currently 2015 IFC) and International Building Code (currently 2015 IBC) for FP records.
- **NFPA:** Create an interface to quickly access NFPA standards related to IFC and IBC.
- **Training and Record-Keeping Software:** Ability to interface with Target Solutions
- **Airtraq:** Ability to upload video files from AirTraq intubations to application and ability to attach PDFs, JPEGs, MOVs, MP4s, PNG, JPGs etc. to individual ePCRs
- **LifeNet:** Create an interface with cardiac arrest QA tool (LifeNet) as needed for quality management review of incidents and charts.

3. **Compensation**

The City shall pay to the Contractor pursuant to the Compensation Sheet attached hereto as Exhibit B and incorporated herein by reference.

The total compensation for this Contract, including GRT, shall not exceed four hundred six thousand six hundred fifty-eight dollars and forty-nine cents ($406,658.49).

4. **Payment Provisions**

All payments under this Contract are subject to the following provisions.

A. Acceptance - In accordance with NMSA 1978, Section 13-1-158 the City shall determine if the product or services provided meet specifications. Until the products or services have been accepted in writing by the City, the City shall not pay for any products or services. Unless otherwise agreed upon between the City and the Contractor, within thirty (30) days from the date the City receives written notice from the Contractor that payment is requested for services or within thirty (30) days from the receipt of products, the City shall issue a written certification (by letter or email) of complete or partial acceptance or rejection of the products or services. Unless the City gives notice of rejection within the specified period, the products or services will be deemed to have been accepted.

B. Payment of Invoice - Upon acceptance that the products or services have been received and accepted, payment shall be tendered to the Contractor within thirty (30) days after the date of certification. After the thirtieth day from the date that written certification of acceptance is issued, late payment charges shall be paid on the unpaid balance due on the contract to the Contractor at the rate of 1.5 % per month. Contractor may submit invoices for payment no more frequently than monthly. Payment will be made to the Contractor's designated mailing address. Payment on each invoice shall be due within 30 days from the date of the acceptance of the invoice. The City agrees to pay in

Business Private

full the balance shown on each account's statement, by the due date shown on said statement.

The Software Licensing Terms Attachment attached as Exhibit C is incorporated herein by reference.

The Product Specific Terms Attachment attached as Exhibit D is incorporated herein by reference

3. Compensation

A. Payment. The City shall compensate the Contractor based on the itemized amounts and/or rates specified in Exhibit B, plus GRT as calculated below.

For the services described in the scope of work, the City agrees pay the Contractor as follows for year one.	$89,846.21
The services in the contract include GRT. The New Mexico GRT levied on the amounts payable under this Agreement shall be paid by the City to the Contractor. The GRT on this contract at 8.1875% equals	+ $7,356.16
The total compensation for the contract including GRT for year one is	= $97,202.37

A breakdown of each year's compensation and GRT for the term of this Contract is as follows:

	YEAR 1	YEAR 2	YEAR 3	YEAR 4
COST	89,846.21	92,541.60	95,317.86	98,177.40
GRT 8.1875%	7,356.16	7,576.84	7,804.15	8,038.27
TOTAL	97,202.37	100,118.44	103,122.01	106,215.67

B. **The total compensation for this Contract, including GRT, shall not exceed four hundred six thousand six hundred fifty-eight dollars and forty-nine cents ($406,658.49).** This represents a maximum amount. The Contractor must notify the City when the Services provided under this Contract approach 90% of compensation total. Services rendered beyond the maximum compensation amount will not be reimbursed unless the Contract is amended in writing prior to the provision of such services.

C. Invoicing and Payment Terms Payment will be made upon the City's acceptance of deliverables and receipt of a detailed, certified invoice from the Contractor. Payments will be sent to the Contractor's designated address. The City shall issue payment in accordance with the timelines required by law. Invoices must be submitted no later than fifteen (15) days after the Contract's termination. Late invoices will not be processed or paid.

D. Extended Payment Terms for Grant-Funded Contracts For grant-funded agreements, the City may issue payment within forty-five (45) days following submission of an undisputed payment request.

4. **Term**

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Agreement shall terminate June 30, 2029 unless terminated pursuant to Paragraph 6 (Termination)

or Paragraph 16 (Appropriations). A contract for general services may not exceed ten (10) years, including all extensions and renewals, except as otherwise provided by NMSA 1978, Sections 13-1-150 through 13-1-152 or SFCC 1987, Section 11-13.

5. **Default and Force Majeure**

The City reserves the right to cancel all, or any part of any orders placed under this contract without cost to the City, if the Contractor fails to meet the provisions of this contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of sub-contractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the sub-contractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this contract.

6. **Termination**

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor, or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice: City Opportunity to Cure.

i) The City shall give the Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

ii) Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

iii) Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph 16, "Appropriations", of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S*

OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS CONTRACT.

7. **Amendment**

A. This Contract shall not be altered, changed, or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in Paragraph 6 herein, or to agree to the reduced funding.

8. **Status of Contractor**

The Contractor, and Contractor's agents and employees, are independent Contractors for the City and are not employees of the City. The Contractor, and Contractor's agents and employees, shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City because of this Contract. The Contractor acknowledges that all sums received hereunder are personally reportable by the Contractor for income tax purposes, including without limitation, self-employment tax and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has written authority to do so, and then only within the strict limits of that authority.

9. **Assignment**

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

10. **Subcontracting**

The Contractor shall not subcontract any portion of the services to be performed under this Contract without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

11. **Non-Collusion**

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City.

12. **Inspection of Plant**

The City may inspect, at any reasonable time during Contractor's regular business hours and upon prior written notice, the Contractor's plant or place of business, or any subcontractor's plant or place of business, which is related to the performance of this contract.

13. **Commercial Warranty**

The Contractor agrees that the tangible personal property or services furnished under this Contract shall be covered by the most favorable commercial warranties the Contractor gives to any City for such tangible personal property or services, and that the rights and remedies provided herein shall extend to the City and are

in addition to and do not limit any rights afforded to the City by any other clause of this order. The contractor agrees not to disclaim warranties of fitness for a particular purpose or merchantability.

14. **Condition of Proposed Items**

Where tangible personal property is a part of this Contract, all proposed items are to be NEW and of most current production, unless otherwise specified.

15. Records and Audit

During the term of this Contract and for three years thereafter, the Contractor shall maintain detailed records pertaining to the services rendered and products delivered. These records shall be subject to inspection by the City, the State Auditor and other appropriate state and federal authorities. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

16. Appropriations

The terms of this Contract, and any orders placed under it, are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract, and any orders placed under it, shall terminate upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

17. Release

The Contractor, upon final payment of the amount due under this Contract, releases the City, its officers, and employees, from all liabilities, claims and obligations whatsoever arising from or under this Contract. The Contractor agrees not to purport to bind the City, unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

18. Confidentiality

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without prior written approval by the City.

19. Conflict of Interest

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract. The Contractor shall comply with any applicable provisions of the New Mexico Governmental Conduct Act and the New Mexico Financial Disclosures Act.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Chapter 10, Article 16.

C. Contractor's representations and warranties in Paragraphs A and B of this Paragraph are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

20. Approval of Contractor Representatives

The City reserves the right to require a change in the Contractor's assigned representatives if they are not adequately serving the City's needs.

21. Scope of Contract; Merger

This Contract incorporates all the agreements, covenants, and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

All terms and conditions of the **Sole Source Contractor#60-M0087-25-CP375** and the Contractor's response to such document(s) are incorporated herein by reference and is included in the order of precedence.

22. Notice

The Procurement Code, NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities, and kickbacks.

23. Equal Opportunity Compliance

The Contractor agrees to abide by all federal and state laws, and local Ordinances, pertaining to equal employment opportunity. In accordance with all such laws, rules, and regulations, the Contractor agrees to assure that no person in the United States shall on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

24. Indemnification

The Contractor shall hold the City and its employees harmless and shall indemnify the City and its employees against any claim, suits, actions, liabilities brought by a third party, including reasonable attorney's fees for personal injury or damage to property arising from the grossly negligent acts or willful omissions of the Contractor ("Claim"), its agents, officers, employees or subcontractors. Contractor will indemnify and defend City from and against any infringement or misappropriation a third party's valid patent, copyright, trademark or trade secret (an "IP Claim"); The Contractor shall not be liable for any injury or damage as a result of any negligent act or omission committed by the City, its officers or employees. Contractor shall, at Contractor's expense, defend such Claim and pay damages finally awarded against City in connection therewith, including reasonable fees and expenses of attorneys engaged by Contractor for such defense, provided that (a) City promptly notifies Contractor of the threat or notice of such Claim; (b) Contractor will have sole, exclusive control and authority to select defense attorneys, defend and/or settle any such Claim (however, Contractor shall not settle or compromise any claim that results in liability or admission of any liability by City without City's prior written consent); and (c) City fully cooperates with Contractor in connection therewith. If use of a Service by City has become, or, in Contractor's opinion, is likely to become, the subject of any IP Claim, Contractor may, at Contractor's option and expense (i) procure for City the right to continue using the Service(s) as set forth hereunder; (ii) replace or modify a Service to make it non-infringing; or (iii) if options (i) or (ii) are not commercially reasonable or practicable as determined by Contractor, terminate City's subscription to the Service(s) and repay City, on a pro-rata basis, any Subscription Charges paid to Contractor for the unused portion of City's Subscription Term for such Service(s). Contractor will have no liability or obligation under this Section with respect to any IP Claim if such claim is caused in whole or in part by (x) compliance with designs, data, instructions or specifications provided by City; (y) modification of the Service(s) by anyone other than Contractor or Contractor Personnel; or (z) the combination, operation or use of the Service(s) with other hardware or software where a Service would not by itself be infringing. The provisions of this Section state the sole, exclusive and entire liability of Contractor to City and City's sole remedy with respect to a Claim brought by reason of access to or use of a Service by City.

25. New Mexico Tort Claims Act

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et. seq., as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

26. Applicable Law

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

27. Limitation of Liability

EXCLUSION OF DAMAGES. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY (WHETHER IN CONTRACT, TORT, NEGLIGENCE OR OTHERWISE) SHALL EITHER PARTY TO THIS AGREEMENT, OR THEIR RESPECTIVE AFFILIATES, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS, SERVICE PROVIDERS, SUPPLIERS OR LICENSORS, BE LIABLE TO THE OTHER PARTY OR ITS AFFILIATES FOR ANY LOST PROFITS, LOST SALES OR BUSINESS, LOST DATA (WHERE SUCH DATA IS LOST IN THE COURSE OF TRANSMISSION VIA CITY'S SYSTEMS OR OVER THE INTERNET THROUGH NO FAULT OF CONTRACTOR),

BUSINESS INTERRUPTION, LOSS OF GOODWILL, COSTS OF COVER OR REPLACEMENT, OR FOR ANY OTHER TYPE OF INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, CONSEQUENTIAL OR PUNITIVE LOSS OR DAMAGES, OR FOR ANY OTHER INDIRECT LOSS OR DAMAGES INCURRED BY THE OTHER PARTY OR ITS AFFILIATES IN CONNECTION WITH THIS AGREEMENT, THE SERVICES OR PROFESSIONAL SERVICES, REGARDLESS OF WHETHER SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF OR COULD HAVE FORESEEN SUCH DAMAGES.

LIMITATION OF LIABILITY. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, CONTRACTOR'S AGGREGATE LIABILITY TO THE CITY ARISING OUT OF THIS AGREEMENT, THE SERVICES OR PROFESSIONAL SERVICES, SHALL IN NO EVENT EXCEED THE SUBSCRIPTION CHARGES AND/OR PROFESSIONAL SERVICES FEES PAID BY THE CITY DURING THE TWELVE (12) MONTHS PRIOR TO THE FIRST EVENT OR OCCURRENCE GIVING RISE TO SUCH LIABILITY. CITY ACKNOWLEDGES AND AGREES THAT THE ESSENTIAL PURPOSE OF THIS SECTION IS TO ALLOCATE THE RISKS UNDER THIS AGREEMENT BETWEEN THE PARTIES AND LIMIT POTENTIAL LIABILITY GIVEN THE SUBSCRIPTION CHARGES AND PROFESSIONAL SERVICES FEES, WHICH WOULD HAVE BEEN SUBSTANTIALLY HIGHER IF CONTRACTOR WERE TO ASSUME ANY FURTHER LIABILITY OTHER THAN AS SET FORTH HEREIN. CONTRACTOR HAS RELIED ON THESE LIMITATIONS IN DETERMINING WHETHER TO PROVIDE CITY WITH THE RIGHTS TO ACCESS AND USE THE SERVICES AND/OR THE PROFESSIONAL SERVICES PROVIDED FOR IN THIS AGREEMENT. THE LIMITATIONS SET FORTH IN THIS SECTION SHALL NOT APPLY TO CLAIMS OR DAMAGES RESULTING FROM CONTRACTOR'S INDEMNITY OBLIGATIONS IN SECTION 24 OF THIS AGREEMENT.

LIMITATION OF LIABILITY IN THE AGGREGATE. THE LIMITATION OF LIABILITY PROVIDED FOR HEREIN APPLIES IN AGGREGATE TO ANY AND ALL CLAIMS BY CITY AND ITS AFFILIATES, AND SHALL NOT BE CUMULATIVE.

Enforceable against Contractor. Any claims or damages that City may have against Contractor shall only be enforceable against Contractor and not any other entity, nor any officers, directors, representatives or agents of Contractor.

28. Incorporation by Reference and Precedence

If this Contract has been procured pursuant to a request for proposals, this Contract is derived from (1) the request for proposal, (including any written clarifications to the request for proposals and any City response to questions); (2) the Contractor's best and final offer; and (3) the Contractor's response to the request for proposals.

In the event of a dispute under this Contract, applicable documents will be referred to for the purpose of clarification or for additional detail in the following order of precedence: (1) amendments to the Contract in reverse chronological order; (2) the Contract, including the scope of work and all terms and conditions thereof; (3) all documents regarding Sole Source #60-M0087-25-CP375; and (4) the Contractor's best and final offer if such has been made and accepted by the City.

29. Workers' Compensation

The Contractor agrees to comply with state laws and rules applicable to workers' compensation benefits for its employees. If the Contractor fails to comply with the Workers' Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

30. Inspection

If this contract is for the purchase of tangible personal property (goods), final inspection and acceptance shall be made at Destination. Tangible personal property rejected at Destination for non-conformance to specifications shall be removed at Contractor's risk and expense promptly after notice of rejection and shall not be allowable as billable items for payment.

31. Inspection of Services

If this contract is for the purchase of services, the following terms shall apply.

A. Services, as used in this Article, include services performed, workmanship, and material furnished or utilized in the performance of services.

B. The Contractor shall provide and maintain an inspection system acceptable to the City covering the services under this Contract. Complete records of all inspection work performed by the Contractor shall be maintained and made available to the City and for as long thereafter as the Contract requires. The City has the right to inspect and test all services contemplated under this Contract to the extent practicable at all times and places during the term of the Contract. The City shall perform inspections and tests in a manner that will not unduly delay or interfere with Contractor's performance.

C. If the City performs inspections or tests on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of such inspections or tests.

D. If any part of the services do not conform with the requirements of this Contract, the City may require the Contractor to re-perform the services in conformity with the requirements of this Contract at no increase in contract amount. When the defects in services cannot be corrected by re-performance, the City may:

i. require the Contractor to take necessary action(s) to ensure that future performance conforms to the requirements of this Contract; and

ii. reduce the contract price to reflect the reduced value of the services performed.

E. If the Contractor fails to promptly re-perform the services or to take the necessary action(s) to ensure future performance in conformity with the requirements of this Contract, the City may:

iv) by contract or otherwise, perform the services and charge to the Contractor any cost incurred by the City that is directly related to the performance of such service; or

v) terminate the contract for default.

32. Insurance

If the services contemplated under this Contract will be performed on or in City facilities or property, Contractor shall maintain in force during the entire term of this Contract, the following insurance coverage(s), naming the City as additional insured.

A. Commercial General Liability insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

B. Broader Coverage and Limits. The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage

and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

C. Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

33. Impracticality of Performance

A party shall be excused from performance under this Contract for any period that the party is prevented from performing as a result of an act of God, strike, war, civil disturbance, epidemic, or court order, provided that the party has prudently and promptly acted to take any and all steps that are within the party's control to ensure performance. Subject to this provision, such non-performance shall not be deemed a default or a ground for termination.

34. Invalid Term or Condition

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

35. Enforcement of Contract

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

36. Disclosure Regarding Responsibility

A. Any prospective Contractor and any of its Principals who enter into a contract greater than sixty thousand dollars ($60,000.00) with any City for professional services, tangible personal property, services or construction agrees to disclose whether the Contractor, or any principal of the Contractor's company is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body.

B. Principal, for the purpose of this disclosure, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity or related entities.

C. The Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, the Contractor learns that the Contractor's disclosure was at any time erroneous or became erroneous by reason of changed circumstances.

D. A disclosure that any of the items in this requirement exist will not necessarily result in

termination of this Contract. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Contract. Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Contract pursuant to the conditions set forth in Paragraph 7 of this Contract.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts during the term of this Contract. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the City. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the City may terminate the involved contract for cause. Still further the City may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the City.

37. Temporary Suspension

In the event Contractor detects or has reasonable suspicion of any Malicious Software connected to City's Account or use of a Service by City, Contractor reserves the right to restrict functionalities or suspend the Services (or any part thereof), City's Account or City's rights to access and use the Services and remove, disable or quarantine any City Data or other content. Unless legally prohibited from doing so or where Contractor is legally required to take immediate action, Contractor will use commercially reasonable efforts to notify City as soon as practicable when taking any of the foregoing actions. Contractor will use commercially reasonable efforts to (a) mitigate any interruption to the Service, and (b) restore the Services as soon as practicable. Contractor will not be liable to City or any other third party for any modification, suspension or discontinuation of City's rights to access and use the Services under this Section 7. Contractor may refer any suspected fraudulent, abusive, or illegal activity by City to law enforcement authorities at Contractor's sole discretion.

38. Notification

Either party may give written notice to the other party in accordance with the terms of this Paragraph. Any written notice required or permitted to be given hereunder shall be deemed to have been given on the date of delivery if delivered by personal service or hand delivery or three (3) business days after being mailed.

To the City: Chief Procurement Officer purchasing@santafenm.gov PO Box 909 Santa Fe, NM 87504-0909	Fire Department Mario Risso 200 Murales Road mdrisso@santafenm.gov 505-955-3110	**To the Contractor:** ImageTrend, LLC Attn: Legal Department 1305 Corporate Center Drive, Suite 500 Eagan MN 55121 contracts@imagetrend.com

Either party may change its representative or address above by written notice to the other in accordance with the terms of this Paragraph. The carrier for mail delivery and notices shall be the agent of the sender.

39. Succession

This Contract shall extend to and be binding upon the successors and assigns of the parties.

IN WITNESS WHEREOF, the Parties have executed this Contract as of the date of the signature by the required approval authorities below.

BUSINESS ASSOCIATE AGREEMENT

This HIPAA Business Associate Agreement (the “Agreement”) is entered into by and between the City of Santa Fe, New Mexico (“Covered Entity”), and ImageTrend, LLC (“Business Associate”) (each a “Party” and collectively the “Parties”).

1. BACKGROUND

Business Associate performs functions, activities, or services for, or on behalf of, Covered Entity under an existing written agreement (the “Underlying Agreement”) and Business Associate creates, receives, maintains, or transmits Protected Health Information ("PHI"), including Electronic Protected Health Information ("EPHI"), in order to perform such functions, activities, or services (referred to collectively as the "Services").

The purpose of this Agreement is to set forth the terms and conditions of disclosure of PHI by Covered Entity to Business Associate, to set forth the terms and conditions of Business Associate's use and disclosure of PHI, and to ensure the confidentiality, integrity, and availability of EPHI that Business Associate creates, receives, maintains, or transmits on behalf of Covered Entity. It is the intent of Covered Entity and Business Associate that this Agreement will meet the requirements of the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”), the American Recovery and Reinvestment Act of 2009, Public Law 111-5 ("ARRA"), the Privacy Rule, and the Security Rule, 45 C.F.R. Parts 160 and 164.

2. DEFINITIONS

Terms used, but not otherwise defined, in this Agreement shall have the same meaning as those terms in HIPAA, ARRA, the Privacy Rule, and the Security Rule. Following are some of the key terms of this Agreement.

2.1 **Electronic Protected Health Information**. “Electronic Protected Health Information” or “EPHI” shall have the same meaning as the term “electronic protected health information” in 45 C.F.R. § 160.103, but shall be limited to the EPHI that Business Associate creates, receives, maintains, or transmits on behalf of Covered Entity.

2.2 **Individual**. “Individual” shall have the same meaning as the term “individual” in 45 C.F.R. § 160.103 and shall include a person who qualifies as a personal representative in accordance with 45 C.F.R. § 164.502(g).

2.3 **Minimum Necessary**. “Minimum Necessary” shall have the same meaning as "minimum necessary" described in 45 C.F.R. § 164.502(b) and Section 13405(b) of ARRA.

2.4 **Privacy Rule**. “Privacy Rule” shall mean the Standards for Privacy of Individually Identifiable Health Information at 45 C.F.R. Parts 160 and Part 164, subparts A and E.

2.5 **Protected Health Information**. “Protected Health Information” or “PHI” shall have the same meaning as the term “protected health information” in 45 C.F.R. § 160.103, but shall be limited to the information that Business Associate creates, receives, maintains, or transmits on behalf of Covered Entity.

2.6 **Required by Law**. “Required by Law” shall have the same meaning as the term “required by law” in 45 C.F.R. § 164.103.

2.7 **Secretary**. “Secretary” shall mean the Secretary of the United States Department of Health and Human Services or his designee.

2.8 **Security Incident**. “Security Incident” shall have the same meaning as “security incident” in 45 C.F.R. § 164.304.

2.9 **Security Rule**. “Security Rule” shall mean the Security Standards for the Protection of EPHI at 45 C.F.R. Parts 160 and 164, subparts A and C.

2.10 **Subcontractor**. "Subcontractor" shall have the same meaning as "subcontractor" in 45 C.F.R. § 160.103.

3. OBLIGATIONS AND ACTIVITIES OF BUSINESS ASSOCIATE

3.1 **Use and Disclosure**. Business Associate agrees to not use or disclose PHI other than as permitted or required by this Agreement and any Underlying Agreement(s) related to the Services, or as Required by Law. Business Associate shall also comply, where applicable, with the Privacy Rule and the Security Rule.

3.2 **Safeguards**. Business Associate agrees to use appropriate safeguards and comply, where applicable, with the Security Rule with respect to EPHI, to prevent use or disclosure of the information other than as provided for by this Agreement.

3.3 **Business Associate's Reporting Obligations**.

(a) **Reports of Non-Permitted Use or Disclosure**. Business Associate agrees to report to Covered Entity any use or disclosure of the PHI not provided for by this Agreement of which Business Associate becomes aware. Where applicable, such report shall comply with the requirements outlined in Sections 3.3(b) and 3.3(c).

(b) **Reports of Breach of Unsecured PHI**.

1. For purposes of this Section, "Breach" and "Unsecured PHI" shall have the same meaning as "breach" and "unsecured protected health information," respectively, as such terms are defined by 45 C.F.R. § 164.402.

2. Following the discovery of a Breach of Unsecured PHI, Business Associate shall notify Covered Entity of the Breach. Such notification shall be made without unreasonable delay after discovering the Breach, but no later than five (5) calendar days after its discovery.

3. Business Associate’s notice shall include, to the extent possible, the identification of each Individual whose Unsecured PHI has been or is reasonably believed by Business Associate to have been, accessed, acquired, used, or disclosed during or as a result of the Breach. Business Associate shall also provide Covered Entity with at least the following information: (i) a description of the Breach, including the date of Breach

and the date of discovery of the Breach, if known; (ii) a description of the types of Unsecured PHI involved in the Breach; (iii) any steps Individuals should take to protect themselves from potential harm resulting from the Breach; (iv) a brief description of what Business Associate is doing to investigate the Breach, to mitigate harm to Individuals, and to protect against any further Breaches; and (v) any other information Covered Entity is required to include in notification to the affected Individual(s) under 45 C.F.R. § 164.404(c). Business Associate will provide additional information to Covered Entity as such information becomes available.

(c) **Reports of Security Incidents**. Business Associate agrees to report to Covered Entity any Security Incident of which it becomes aware. Where applicable, such report shall comply with the requirements outlined in Sections 3.3(a) and (b). This Agreement serves as Business Associate's notice to Covered Entity that attempted but unsuccessful Security Incidents, such as pings and other broadcast attacks on Business Associate's firewall, port scans, unsuccessful log-on attempts, denials of service and any combination of the above, regularly occur and that no further notice will be made by Business Associate unless there has been a successful Security Incident.

3.4 **Subcontractors**. Business Associate agrees to ensure that any Subcontractor that creates, receives, maintains, or transmits PHI (including EPHI) on behalf of Business Associate agrees to substantially the same restrictions and conditions that apply through this Agreement to Business Associate with respect to such information, including but not limited to, compliance with the applicable requirements of 45 C.F.R. Parts 160 and 164. Such agreement between Business Associate and the Subcontractor must be made in writing and must comply with the terms of this Agreement and the requirements outlined in 45 C.F.R. §§ 164.504(e) and 164.314.

3.5 **Access to Designated Record Set**. The Parties do not intend for Business Associate to maintain any PHI in a Designated Record Set for Covered Entity. To the extent Business Associate possesses PHI in a Designated Record Set, Business Associate agrees to provide access, at the request of Covered Entity, to PHI in a Designated Record Set, to Covered Entity or, as directed by Covered Entity, to an Individual in order to meet the requirements under 45 C.F.R. § 164.524. Business Associate is not required to provide such access where the PHI contained in a Designated Record Set is duplicative of the PHI contained in a Designated Record Set possessed by Covered Entity. If an Individual makes a request for access pursuant to 45 C.F.R. § 164.524 directly to Business Associate, or inquires about his or her right to access, Business Associate will direct the Individual to Covered Entity.

3.6 **Amendments to Designated Record Set**. The Parties do not intend for Business Associate to maintain any PHI in a Designated Record Set for Covered Entity. To the extent Business Associate possesses PHI in a Designated Record Set, Business Associate agrees to make available such PHI for amendment and incorporate any amendment(s) to PHI in a Designated Record Set that Covered Entity directs or agrees to pursuant to 45 C.F.R. § 164.526 at the request of Covered Entity or an Individual. If an Individual submits a written request for amendment pursuant to 45 C.F.R. § 164.526 directly to Business Associate, or inquires about his or her right to amendment, Business Associate will either forward such request to Covered Entity or direct the Individual to Covered Entity.

3.7 **Accounting of Disclosures**.

(a) Business Associate agrees to document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 C.F.R. § 164.528.

(b) Business Associate agrees to provide to Covered Entity or an Individual information collected in accordance with Section 3.7(a) of this Agreement, to permit Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 C.F.R. § 164.528.

3.8 **Compliance with Law**. To the extent Business Associate is expressly obligated under the Underlying Agreement(s) to carry out one or more of Covered Entity's obligation(s) under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligation(s).

3.9 **Records and Audits**. Business Associate agrees to make internal practices, books, and records relating to the use and disclosure of PHI received from, or created or received by Business Associate on behalf of, Covered Entity available to the Secretary for purposes of the Secretary determining Covered Entity's compliance with the Privacy Rule and Security Rule.

3.10 **Mitigation**. Business Associate agrees to mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or disclosure of PHI by Business Associate in violation of the requirements of this Agreement.

4. PERMITTED USES AND DISCLOSURES BY BUSINESS ASSOCIATE

4.1 **General Use and Disclosure**.

(a) Except as otherwise limited in this Agreement, Business Associate may use or disclose PHI to perform Services for, or on behalf of, Covered Entity as such services may be specified in any Underlying Agreement(s), provided that such use or disclosure would not violate the Privacy Rule or the Security Rule if done by Covered Entity.

(b) All uses and disclosures of PHI must comply with the Minimum Necessary requirements under the Privacy Rule. The Party disclosing PHI shall determine what constitutes the Minimum Necessary to accomplish the intended purpose of the disclosure.

4.2 **Specific Use and Disclosure.**

(a) Business Associate may use or disclose PHI to carry out Business Associate's legal responsibilities and for the proper management and administration of Business Associate, provided that any such disclosures are either (1) Required by Law, or (2) Business Associate obtains reasonable assurances from the person to whom the information is disclosed that it will remain confidential and used or further disclosed only as Required by Law or for the purpose for which it was disclosed to the person, and the person notifies Business Associate of any instances of which it becomes aware in which the confidentiality of the information has been breached.

(b) Business Associate may use PHI to provide Data Aggregation services to Covered Entity as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B).

(c) Business Associate may use and disclose PHI to report violations of law to appropriate state and federal authorities, to the extent permitted or required by 45 C.F.R. § 164.502(j)(1) and state law.

(d) Business Associate may use PHI to create de-identified information in accordance with the requirements outlined in the Privacy Rule. Data that has been de-identified will no longer be subject to the terms of this Agreement.

5. OBLIGATIONS OF COVERED ENTITY

5.1 **Privacy Practices**. Covered Entity will notify Business Associate of any limitation(s) in its notice of privacy practices in accordance with 45 C.F.R. § 164.520, to the extent that such limitation may affect Business Associate's use or disclosure of PHI. Covered Entity will provide such notice no later than fifteen (15) days prior to the effective date of the limitation.

5.2 **Notice of Changes Regarding Individual Permission**. Covered Entity will obtain any consent or authorization that may be required by the Privacy Rule, or applicable state law, prior to furnishing Business Associate with PHI. Covered Entity will notify Business Associate of any changes in, or revocation of, permission by an Individual to use or disclose PHI, to the extent that such changes may affect Business Associate's use or disclosure of PHI. Covered Entity will provide such notice no later than fifteen (15) days prior to the effective date of the change.

5.3 **Notice of Restrictions to Use or Disclosure of PHI**. Covered Entity will notify Business Associate of any restriction to the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 C.F.R. § 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI. Covered Entity will provide such notice no later than fifteen (15) days prior to the effective date of the restriction. If Business Associate reasonably believes that any restriction agreed to by Covered Entity pursuant to this Section may materially impair Business Associate's ability to perform its obligations under the Underlying Agreement or this Agreement, the Parties will mutually agree upon any necessary modification of Business Associate's obligations under such agreements.

5.4 **Permissible Requests by Covered Entity**. Covered Entity shall not request Business Associate to use or disclose PHI in any manner that would not be permissible under the Privacy Rule or the Security Rule if done by Covered Entity, except that Business Associate may use or disclose PHI as set forth herein.

5.5 **Safeguards**. Covered Entity shall use appropriate safeguards to maintain the confidentiality, privacy, and security of PHI in transmitting PHI to Business Associate pursuant to this Agreement.

6. TERM AND TERMINATION

6.1 **Term**. This Agreement shall be effective upon the Effective Date of the Underlying Agreement and shall remain in effect until all of the PHI provided by Covered Entity to Business Associate or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or, if it is infeasible to return or destroy PHI, protections are extended to such information, in accordance with Section 6.3(b).

6.2 **Termination**.

(a) **Termination Resulting from the End of Services**. This Agreement shall terminate in the event that the Underlying Agreement(s) under which Covered Entity discloses PHI to Business Associate terminates for any reason, or if the Services that give rise to the necessity of a business associate agreement terminate for any reason.

(b) **Termination for Cause**. Upon either Party's knowledge of a material breach of this Agreement by the other Party, the non-breaching Party must either:

1. Provide an opportunity for the breaching Party to cure the breach or end the violation within thirty (30) business days, and if the breaching Party does not cure the breach or end the violation within thirty (30) business days, the non-breaching Party shall terminate this Agreement; or

2. Immediately terminate this Agreement if cure is not possible.

6.3 **Return or Destruction of PHI**.

(a) Except as provided in paragraph (b) of this Section, upon termination of this Agreement for any reason, Business Associate shall return or destroy all PHI received from Covered Entity or created or received by Business Associate on behalf of Covered Entity, that Business Associate still maintains in any form. This provision shall also apply to PHI that is in the possession of Subcontractors of Business Associate. Business Associate shall retain no copies of the PHI. Pursuant to the Underlying Agreement and Section 4.2(b) and (d) of this Agreement, de-identified data and insights derived from Business Associate's provision of Data Aggregation services are not subject to the provisions of this Section 6.3.

(b) In the event that Business Associate determines that returning or destroying the PHI is infeasible, Business Associate and its Subcontractors shall extend the protections of this Agreement to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate and/or its Subcontractors maintain such PHI.

7. MISCELLANEOUS

7.1 **Regulatory References**. A reference in this Agreement to a section in the Privacy Rule, the Security Rule, HIPAA, or ARRA, or any other reference to a law or regulation, means the section or law as in effect as of the date of this Agreement or as subsequently amended.

7.2 **Amendment**. The Parties agree to take such action as is necessary to amend this Agreement from time to time to comply with the requirements of the Privacy Rule, the Security Rule, HIPAA, and ARRA.

7.3 **Survival**. The respective rights and obligations of Business Associate under Section 6.3 of this Agreement shall survive the termination of this Agreement.

7.4 **Interpretation**. Any ambiguity in this Agreement shall be resolved in favor of a meaning that permits compliance with the Privacy Rule, the Security Rule, HIPAA, and ARRA.

7.5 **Relationship to Other Agreement Provisions**. In the event that a provision of this Agreement is contrary to a provision of an Underlying Agreement or Agreements under which Covered Entity discloses PHI to Business Associate, the provision of this Agreement shall control. Otherwise, this Agreement shall be construed under, and in accordance with, the terms of such Underlying Agreement or Agreements between the Parties.

7.6 **Prior Business Associate Agreements**. Consistent with Section 7.5, this Agreement shall supersede any and all prior business associate agreement(s), or terms of other agreements addressing the privacy and security of PHI, between the Parties.

7.7 **No Third-Party Beneficiaries**. Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than Covered Entity or Business Associate any rights, remedies, obligations, or liabilities whatsoever.

7.8 **Modification of Agreement**. No alteration, amendment, or modification of the terms of this Agreement shall be valid or effective unless in writing and signed by Business Associate and Covered Entity.

7.9 **Relationship of Parties**. Business Associate, in furnishing services to Covered Entity, is acting as an independent contractor, and Business Associate has the sole right and obligation to supervise, manage, contract, direct, procure, perform, or cause to be performed, all work to be performed by Business Associate under this Agreement. Business Associate is not an agent of Covered Entity and has no authority to represent Covered Entity as to any matters, except as expressly authorized in this Agreement.

7.10 **Notices**. Any notices required or permitted to be given under this Agreement by either Party shall be given in writing: (a) by personal delivery; (b) by electronic facsimile with confirmation sent by United States first class mail; (c) by bonded courier or nationally recognized overnight delivery service; or (d) by United States first class registered or certified mail, postage prepaid, return receipt requested, addressed to the Parties at the addresses set forth below or to such other addresses as the Parties may request in writing by notice pursuant to this Section 7.10. Notices shall be deemed received on the earliest of personal delivery, upon the next business day after delivery by electronic facsimile with confirmation that the transmission was completed or upon receipt by any other method of delivery.

Business Associate: ImageTrend, LLC, Attn: Legal Department, 1305 Corporate Center Drive, Suite 500, Eagan, MN 55121.

Covered Entity: City of Santa Fe, Fire Department, Attn: Toniette Candelaria-Martinez, 200 Murales Road, Santa Fe, NM 87501.

7.11 **Governing Law**. This Agreement shall be governed by and interpreted in accordance with the laws of the State of New Mexico.

7.12 **Counterparts**. This Agreement may be executed in two (2) or more counterparts, each of which shall be deemed an original and when taken together shall constitute one agreement.

IN WITNESS WHEREOF: the undersigned parties, each having authority to bind their respective organizations, hereby agree.

SERVICE LEVEL AGREEMENT ATTACHMENT

ImageTrend is committed to offering exceptional levels of service to our customers. This Service Level Agreement ("SLA") guarantees your website or application's availability, reliability and performance. This SLA applies to any site or application hosted on our network.

1. Customer Support

ImageTrend is committed in providing an exceptional level of customer support. ImageTrend's servers are monitored 24 hours per day, 7 days per week, 365 days per year and our support staff is available via phone (888.469.7789) and email (www.imagetrend.com/support) as posted on the company's website. ImageTrend works to promptly resolve all issues reported by customers, and will acknowledge the disposition and potential resolution according to the chart below:

Severity Level	Examples of Severity	Notification of Acknowledgement by ImageTrend	Action Expectation: Update and Anticipated Error Resolution Plan After Notification by ImageTrend
Site Down/Critical	• Complete shutdown or partial shutdown of one or more critical software functions. • Access to one or more Software functions not available. • Major subset of software application impacted.	Within one (1) hour of initial notification via email or ticketing system.	Six (6) hours.
CAD Down/High	• Minor subsystem failure. • Data entry or access impaired on a limited basis – usually can be delegated to local Client contact as a first level or response for resolution – usually user error (i.e. training).	Within four (4) hours of initial notification during business hours via phone, email, or ticketing system.	Twenty-four (24) business hours.
Medium/Normal	• System operational with minor issues; suggested enhancements as mutually agreed upon.	Within twenty-four (24) hours of initial notification during business hours.	Future Release.

2. Data Ownership

All customer data collected and maintained by ImageTrend shall at all times remain the property of the customer.

3. Data Protection

ImageTrend takes data privacy and cybersecurity very seriously. ImageTrend utilizes compliant and industry recognized best practices to ensure data security, and does not use or make available any personally identifiable information to third parties without customer consent or as required by law. ImageTrend acknowledges that its handling of information on behalf of customers may be subject to federal, state or local laws, rules, regulation and restrictions regarding the privacy of consumer information. ImageTrend agrees to comply with all of such laws, rules, regulations and restrictions at its sole cost and expense.

4. Suspension of Service

ImageTrend reserves the right to suspend and limit network resources to customers failing to pay the monthly fee in advance at its own discretion. In the event of service suspension, full service delivery will be restored within 48 hours from the date and time that payment is received.

5. Availability

ImageTrend is fully committed to providing quality service to all customers. To support this commitment, ImageTrend offers the following commitments related to application server Availability:

Availability Objective: ImageTrend will provide 99.5% Availability (as defined below) for the ImageTrend network services within ImageTrend's Immediate Control. For purposes, hereof, "Availability" or "Available" means the ImageTrend Services are available for access and use through the Internet.

"Immediate Control" includes ImageTrend's network services within the ImageTrend data center which extends to, includes and terminates at the Internet Service Provider ("ISP") circuit termination point on the router in ImageTrend's data center (*i.e.,* public Internet connectivity).

Specifically excluded from the definition of "Immediate Control" are the following:

a. Equipment, data, materials, software, hardware, services and/or facilities provided by or on behalf of Client or a third-party entity (or any of their vendors or service providers) and Client's or a third party entity's network services or end-user hardware.

b. Acts or omissions of Client, their employees, contractors, agents or representatives, third party vendors or service providers or anyone gaining access to the ImageTrend Services at the request of Client.

c. Issues arising from bugs, defects, or other problems in the software, firmware, or hardware of third parties.

d. Delays or failures due to circumstances beyond ImageTrend's reasonable control that could not be avoided by its exercise of due care.

e. Any outage, network unavailability or downtime outside the ImageTrend data center.

Availability Calculation: Availability is based on a monthly calculation. The calculation will be as follows: ((a – b) / a) x 100, where "a" is the total number of hours in a given calendar month, excluding Scheduled Maintenance (as defined below), and "b" is the total number of hours that service is not Available in a given month.

Offline Capability: The Software may have offline capability which provides redundancy when network or server back-end capability is not available. Periods of time when the Software's primary functions continue to function offline shall be excluded from the unavailability calculation "b" above.

Scheduled Maintenance: ImageTrend conducts scheduled maintenance, as necessary, every last Wednesday of the month. ImageTrend will perform scheduled maintenance within that maintenance window between the hours of 9:00 p.m. CST to 11:00 p.m. CST. ImageTrend may change the regularly scheduled maintenance window from time to time at ImageTrend's discretion upon reasonable notice to Client.

Service Disruption: Upon customer's written notice to ImageTrend, if Availability for the month is below the guaranteed level, ImageTrend will issue a credit to customer in accordance with the schedule below:

Availability: 99.0% - 99.5% = 5% of monthly hosting fee credited
95.0% - 98.99% = 10% of monthly hosting fee credited
90.0% - 94.99% = 15% of monthly hosting fee credited
89.99% or below = 2.5% for every 1% of lost Availability (in no event exceeding 50% of monthly hosting fees)

ImageTrend maintains precise and objective Availability metrics, which shall be determinative when calculating any customer requested credit. ImageTrend maintained Availability metrics shall only be requested in good faith to address material customer concerns. To receive a credit, customers must specifically request it during the month following the month for which the credit is requested. Credits shall not be issued if a customer account is past due, suspended or pending suspension.

6. General

ImageTrend reserves the right to change or modify this SLA and the related services being provided to benefit its customers, including changes to hosting environments and infrastructure, provided that any such improvements shall adhere to the regulatory guidelines and best practices referenced herein.

This Order Form is subject to the terms of the Master Subscription Agreement located at http://www.imagetrend.com/legal/msa unless there is a separate agreement between Santa Fe Fire Department (NM) and ImageTrend.
This proposal is valid for 90 days from the date listed above.

Additional Terms:

- One-Time Fees will be due upon contract signature.
- Recurring fees will be invoiced annually in advance, beginning on the Effective Date, unless Customer provides notice of cancellation in accordance with the MSA, no less than sixty (60) days prior to the end of a Subscription Term.
- Payments are due 30 days after receipt of an invoice.
- Recurring fees are subject to price increases each year following the first year of the Subscription Term, and will not exceed 3%% of the then-current price in any given year.
- Any terms not defined herein shall have the same meaning as defined in the Master Subscription Agreement.
- The Subscription Term for any Services added by Customer after the beginning of the thencurrent Subscription Term will be coterminous with the then-current Subscription Term for existing Services.

EXHIBIT C- SOFTWARE LICENSING TERMS ATTACHMENT

The following terms shall apply:

"ImageTrend Elite Data Marts" means the relational database(s) that contain an enhanced and simplified reporting-ready format of the transactional data collected within ImageTrend Elite. The Elite Data Marts are available for use with the ImageTrend Elite Reporting Tools.

"ImageTrend Elite Reporting Tools" means the Transactional Report Writer, Visual Informatics, Analytical Chart Reporting Tool and Analytical Tabular Reporting Tool in the Software that are based on a set of Elite Data Marts.

"Incident(s)" means an instance where the Client sends a vehicle or emergency responder to a situation requiring emergency response, as measured by the number of incident reports within ImageTrend Software systems excluding incidents relating to Mobile Integrated Health services.

"Licensed Information" means other Deliverables provided to Client by ImageTrend relating to the operation or design of the Software, or other Deliverables provided to Client by ImageTrend which are common to ImageTrend (e.g. such Deliverables are not unique to Client). A copy of the software specification Licensed Information is available within the Software labeled as "ImageTrend University."

"The Software" means the sum of all software licenses granted by this Agreement hereto as provided in Section 1 below.

1. GRANT OF LICENSE TO SOFTWARE.

Name of License	Terms of License
Software as a Service License (SaaS) or Integration as a Service (IaaS) ("SaaS")	ImageTrend hereby grants Client a non-exclusive, non-transferable license to use the ImageTrend Software product(s) listed in the Agreement for such time as listed in said Agreement. During the term of the Agreement, the Client shall have access to the Software, which will be installed on servers at the ImageTrend hosting facility and subject to the Service Level Agreement attached. All copies of the Software and/or Licensed Information in any form provided by ImageTrend to Client hereunder are the sole property of ImageTrend and/or its suppliers, and that Client shall not have any right, title, or interest to any such Software and/or Licensed Information or copies thereof except as provided in this Agreement.

2. PROTECTION OF SOFTWARE AND LICENSED INFORMATION

Client agrees to respect and not to, nor permit any third-party to, remove, obliterate, or cancel from view any copyright, trademark, confidentiality or other proprietary notice, mark, or legend appearing on any of the Software or Licensed Information, and to reproduce and include the same on each authorized copy of the Software and Licensed Information. Client shall not nor shall Client permit any third-party under Client's control to, copy, reverse engineer, or duplicate the Software or any part thereof except for the purposes of system backup, testing, maintenance, or recovery. Client may duplicate the Licensed Information only for internal training, provided that all the names, trademark rights, product names, copyright statement, and other proprietary right statements of ImageTrend are reserved. ImageTrend reserves all rights which are not expressly granted to Client in this Agreement.

Client shall not, nor shall Client permit any third-party to, modify, reverse engineer, disassemble, or decompile the Software, or any portion thereof, and shall not use the software or portion thereof for purposes other than as intended and provided for in this Agreement.

3. INSTALLATION, INTRODUCTORY TRAINING AND DEBUGGING.

IMPLEMENTATION. ImageTrend shall provide Client with start-up services such as the installation and introductory training relating to the Software, and, if necessary, initial debugging services known as "Implementation". During Implementation, Client must make available sufficient time and resources as is necessary to accomplish the milestones and tasks per the party's project plans (as applicable), typically between 4 and 15 hours a week. Depending on Client's objectives, Client may need to allocate more time or resources to achieve Client's desired timelines.

TRAIN THE TRAINER. ImageTrend may provide "Train-the-trainer" training for administrators as detailed in the Agreement. Additionally, online training videos and user guides in electronic format will be made available via ImageTrend University.

SOFTWARE SUPPORT. ImageTrend shall provide Software Support as detailed in the Service Level Attachment, included here as Exhibit A.

TRAINING USAGE AND EXPIRATION. The training line items and quantities as detailed in price table attached must be delivered within 2 years of the Effective Date. It shall be Client's responsibility to request the training session(s). Training not used within the 2 year cut-off shall expire and no refund or credit will be payable to Client.

4. SOFTWARE WARRANTIES.

PERFORMANCE WARRANTY. ImageTrend warrants that the Software will conform to the specifications as set forth in the Licensed Information. However, this warranty shall be revoked in the event that any person other than ImageTrend and its agents make unauthorized modification or change to the Software in any manner outside of the configuration available within the Software's built-in functionality. This warranty does not apply to data extracted from the system.

OWNERSHIP WARRANTY. ImageTrend represents that it is the owner of the entire right, title, and interests in and to the Software, and that it has the sole right to grant licenses thereunder, and that it has not knowingly granted licenses thereunder to any other entity that would restrict rights granted hereunder to Client.

LIMITATIONS ON WARRANTY. All of ImageTrend's obligations under this Section shall be contingent on Client's use of the Software in accordance with this Agreement and in accordance with ImageTrend's instructions as provided by ImageTrend in the Licensed Information, and as such instructions may be amended, supplemented, or modified by ImageTrend from time to time. ImageTrend shall have no warranty obligations with respect to usage which does not conform with ImageTrend's instructions as provided by ImageTrend in the Licensed Information. ImageTrend shall have no warranty obligations with respect to any failures of the Software which are the result of accident, abuse, misapplication, extreme power surge or extreme electromagnetic field of a Client device. In addition to any other limitation on warranty or liability; Client's sole remedy for breach of warranty related to or arising out of the Software, or a defect with the Software, shall be at Client's option 1) repair of the Software or defect, 2) termination of this Agreement for convenience as outlined elsewhere in this Agreement.

THE EXPRESS WARRANTIES PROVIDED HEREIN ARE THE ONLY WARRANTIES MADE BY ImageTrend WITH RESPECT TO THE SOFTWARE AND SUPERSEDE ALL OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY AND WARRANTIES FOR ANY SPECIAL PURPOSE.

5. MAINTENANCE.

ImageTrend shall provide scheduled updates and new releases for the Software, as well as defect correction as needed per the Service Level Agreement, attached for so long as Client has contracted for support (as indicated by a recurring fee containing the product name and word 'Support'). Specific out-of-scope system enhancement requests are excluded from support. Should Client desire specific source-code level modifications to the system, Client may submit a request to ImageTrend's UserVoice page at https://ImageTrend.uservoice.com/.

6. RETURN OF DATA.

Upon termination of this Agreement for any reason, Client may request ImageTrend provide to Client a copy of Client's data. ImageTrend will produce this data by first using relevant expo1t functionality provided by the application, e.g. for ImageTrend Elite the data would be produced as a NEMSIS Version 3 XML file(s), or by other native data export format should the application provide no export functionality. ImageTrend may redact or remove ImageTrend trade secret and confidential information, such as database schema design details, or data which is used solely in an operational or administrative fashion (e.g. data which was never entered by Client end-users). For clarity, ImageTrend may not redact or remove data that Client or Client's end-users entered. ImageTrend will provide this exported data to Client via secure electronic transfer, such as SFTP/FTPS. ImageTrend shall have 90 days from Client's request to produce the native data

export for Client. Should Client desire the data to come in any alternative format or be in any way different than as described in this section, Client must request those services from ImageTrend separately on a Time and Materials basis under its own time frame. ImageTrend will make efforts to accommodate Client's request, but ImageTrend is under no obligation to do so.

7. IMAGETREND ELITE AUTHORIZED USERS AND SCOPE OF USAGE

This Grant of License is strictly conditioned on the Software being used by only Authorized Users. ImageTrend may audit Client's Software, users, and usage to ensure compliance with the scope of usage detailed by this Agreement, in ImageTrend's discretion. Non-compliance with the scope of usage shall be considered a material breach.

8. DE-IDENTIFICATION

ImageTrend may create a de-identified data set of Client's data ("the De-identified Data Set") and ImageTrend may, in ImageTrend's discretion, transform, analyze, distribute and redistribute, create derivative works of, license, make available to 3rd party researchers, or otherwise use the De-identified Data Set except as limited by: 1) this Agreement, 2) applicable law and regulation, e.g. State and Local data privacy law and HIPANHITECH, 3) notwithstanding any of the prior, ImageTrend shall create the De-identified Data Set in accordance with the then current HIPAA Safe Harbor Rule at 45 CFR § 164.514(2)(i) by removing the 18 listed data elements, and any additional data element designated as 'Personal Information' by State and Local data breach law (or equivalent laws). ImageTrend shall ensure its methods for creating the De-identified Data Set comport with industry best practices and guidance such as NISTIR 8053 'De-Identification of Personal Information' (available at http://dx.doi.org/l0.6028/NIST.1R.8053). ImageTrend shall use reasonable administrative, technical, and physical safeguards to protect and prevent unauthorized disclosure of the De-identified Data Set. ImageTrend shall not attempt to re-identify any de-identified records.

9. GRANT OF LICENSE TO IMAGETREND'S PRE-EXISTING IP AND OWNERSHIP OF NEW IP

All Intellectual Property Rights connected to the ImageTrend pre-existing materials such as architectural structure, modules, processes, and Know-How that may be used in Deliverables ("Pre-existing IP"), shall remain owned by ImageTrend. ImageTrend agrees to grant to Client a royalty-free, worldwide, transferable, non-exclusive, use license for these architectural structures, modules, and processes that may be used solely in conjunction with the Deliverables and services performed under this Agreement and in accordance with the license granted herein, conditioned upon full payment of the Agreement from which the Deliverable containing Pre-Existing IP originates. This license may not be transferred, and Client may not sublicense, use, reproduce, distribute or prepare derivative works of ImageTrend's Pre-Existing IP except to the extent strictly necessary to fulfill the purpose of this Agreement. New Deliverables utilizing the same Pre-Existing IP may require another license for that new Deliverable, in ImageTrend's discretion. New Custom Intellectual Property authored by the parties in the course of performing this Agreement shall be owned by the party that authored the Intellectual Property and in the case of derivative works, it shall be owned by the party who owns the work from which the derivative is made, or as otherwise set forth in the Agreement. In the case of ImageTrend Software products licensed herein, or "Modified Off The Shelf Software" as defined above, ImageTrend shall own all Intellectual Property related to or arising out of any Agreement. Subsequent agreements may specify who owns the intellectual property embodied in a Deliverable; however, absent such terms in a future agreement, the terms of this Agreement shall control. Any right not hereby granted is reserved.

EXHIBIT D -- PRODUCT SPECIFIC TERMS ATTACHMENT

LEGACY DATA IMPORT AND IMAGETREND VAULT™ TERMS OF USE

"NEMSIS" is the National Emergency Medical Services Information System (NEMSIS), and provides standardized data formats for submission of EMS Data.

"Legacy Data" means data originated by any system which is not ImageTrend Elite

"Legacy Data System" means the particular software application which generated, stored, or created the Legacy Data.

IMAGETREND VAULT EMS LEGACY DATA IMPORT SPECIFICATIONS

IMAGETREND VAULT LICENSING TERMS

- Notwithstanding anything in this Agreement to the contrary, CLIENT is hereby granted the following license rights to ImageTrend Vault. All other rights not explicitly granted reserved by ImageTrend.

- Client shall have a non-transferrable, non-exclusive license to use ImageTrend Vault for the Term of this Agreement as described in this Exhibit, and such license shall expire simultaneously with this Agreement.

- ImageTrend reserves the right to monitor and audit the quantity of records stored in ImageTrend Vault and to increase future fees (e.g. fees on Renewal Terms or subsequent Agreements of the parties, after expiration of this Agreement or its Initial Term) in accordance with the then-current price.

Description

- ImageTrend Vault can store additional data fields from ImageTrend Service Bridge, Fire Bridge, State Bridge, or Rescue Bridge ("ImageTrend Version 2 Products") products. These are the data fields beyond the NEMSIS National Data Elements but supported by ImageTrend Version 2 Products. These data fields have the ImageTrend "IT" flag in the NISE export file as exported by the ImageTrend Version 2 Products. ImageTrend Vault may also import related incident attachments and pre-existing attached PDFs from ImageTrend Version 2 Products. ImageTrend Vault cannot accept nor store data beyond the elements identified here for legacy data ImageTrend Version 2 products. ImageTrend makes no promise to accept or store data in ImageTrend Vault except as identified herein.

- ImageTrend Vault can import NEMSIS 2.2.1 standardized Legacy Data with the following limitations:

  i. NEMSIS 2.2.1 XML Legacy Data from non-ImageTrend Contractors may be imported into ImageTrend Vault provided the NEMSIS 2.2.1 XML Legacy Data is the same compatible format as the NEMSIS 2.2.1 XML Legacy Data System's State NEMSJS submission and otherwise conforming with the NEMSIS Data Dictionary v2.2.1 available at https://nemsis.org/media/nemsis_v2/documents/NEMSIS_Data_Elements_Definitions_v2.2.1.xls ("Conforming Legacy Data File"). It shall be the CLIENT and/or CLIENT Contractor's responsibility to ensure ImageTrend is supplied with a conforming NEMSIS 2.2.1 XML Legacy Data file.

  ii. As part of the ImageTrend Vault product and service package, ImageTrend shall perform a one (1) time import of Legacy data by either 1) Importing data from CLIENT's ImageTrend Version 2 Product(s) utilizing ImageTrend tools, or 2) importing a Conforming Legacy Data File. Additional uploads, corrections or modifications to uploaded data elements, or any other activity related to importing Legacy Data after

ImageTrend has completed the one-time import is out of scope. ImageTrend may or may not choose to undertake this additional work at ImageTrend's sole discretion. CLIENT shall have the option to contract ImageTrend to undertake this work per "Creation of Statements of Work" below.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 6/16/2025

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. CITY OF SANTA FE

The Purchasing Memo

Date: January 30, 2026

To: Governing Body, Finance Committee, and Quality of Life Committee

Via: Thomas Grundler, Interim Police Chief THOMAS J GRUNDLER
THOMAS J GRUNDLER (Feb 3, 2026 08:17:08 MST)

From: Jimmie Montoya, Police Captain

Subject: Purchase of ShotSpotter- Gun Shot Detection Service

Vendor Name: SoundThinking, Inc

Vendor Number: 11340

ITEM AND ISSUE:

The Santa Fe Police Department respectfully requests your review and approval of a purchase in the total amount of $354,000 not to exceed for a Gunshot Detection, Location, and Forensic Analysis Service for a one-year term.

CONTRACT NUMBER:

The FY26 Munis contract number is 3260317

BACKGROUND AND SUMMARY:

The City of Santa Fe, through its Youth and Family Services Division, in partnership with the Santa Fe Police Department, applied for and was awarded a grant from the New Mexico Department of Health in the amount of $818,387.10 on 4/30/2025. This funding supports a coordinated, evidence-based approach to addressing community and youth violence while enhancing public safety outcomes.

As part of this initiative, the City of Santa Fe legal team and Santa Fe Police Department approved a contract in the fall of 2025 with Sound Thinking, formerly known as ShotSpotter. This technology is intended to support violence prevention and intervention efforts, improve response times to gunfire-related incidents, enhance officer safety, and strengthen investigative capabilities.

ShotSpotter is a gunfire detection system designed to identify, locate, and alert law enforcement to confirm gunfire events in near real time. The system is not designed to monitor individuals or record conversations; rather, it detects impulsive sounds consistent with gunfire and provides officers with timely, actionable information.

Additionally, Sound Thinking provides analytical and technical support that can assist prosecutors by offering verified incident data that may be used in conjunction with traditional investigative evidence during judicial proceedings.

Overall, this initiative aligns with the City's commitment to public safety, transparency, and responsible use of technology. It represents a data-driven investment aimed at reducing gun violence, improving emergency response, and enhancing the safety of both residents and first responders.

The total amount for an annual subscription with 5.0-mile coverage is $354,000. The one year of service does not start until the Santa Fe Police Department goes live with technology.

The ShotSpotter's current annual subscription fees for cities the size of Santa Fe is $59,500 per square mile. These rates are available for coverage of up to two square miles. Any coverage beyond two square miles will be a standard annual subscription rate of $75,000 per square mile, plus one service initiation fee of 10,000 per square mile

EXHIBIT A – SOUNDTHINKING PROPOSAL 1

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

This Master Services Agreement (this "Agreement") is entered into by and between SoundThinking™, Inc. (referred to herein as "SoundThinking"), with offices located at 39300 Civic Center Dr., Suite 300, Fremont, CA 94538, and the City of Santa Fe, New Mexico (hereinafter referred to as "Customer" or "City"), with offices located at 200 Lincoln Avenue, Santa Fe, New Mexico 87501, effective as of the last date of signature herein. SoundThinking and Customer may also be referred to in this Agreement individually as a "Party" or collectively as the "Parties".

This Agreement and its exhibits define the deliverables, implementation, and support services for the SoundThinking Subscription Services to be provided under this Agreement and identified in SoundThinking's Proposal attached hereto as Exhibit A.

In consideration of the Parties' mutual covenants and promises set forth in this Agreement, the Parties agree as follows:

1. EXHIBITS

The following Addenda and Exhibits are attached to, and incorporated in this Agreement:

A. Addendum One - ShotSpotter® Supplemental Terms

B. Exhibit A SoundThinking Proposal ID #SANTAFENM012826

2. DEFINITIONS

All capitalized terms not otherwise defined in this Agreement shall have the meanings set forth below:

A. Insight means the internet portal to which Customer will have access to Reviewed Alerts with respect to the ShotSpotter® Gunshot Detection, Location, and Forensics System.

B. CaseBuilder™, CaseBuilder™ Subscription Services, CaseBuilder™ Software, or CaseBuilder™ System means the SoundThinking case management software.

C. CaseBuilder™|Crime Gun, CaseBuilder™|Crime Gun Subscription Services, CaseBuilder™|Crime Gun Software, or CaseBuilder™|Crime Gun System means SoundThinking's gun crime tracking and analysis case management tool.

D. Confidential Information means that information designated by either Party as confidential or proprietary as further defined in Section 6 of this Agreement.

E. CrimeTracer™, CrimeTracer™ Subscription Services, CrimeTracer™ Software, or CrimeTracer™ System means the SoundThinking law enforcement search engine and information platform which enables customers to search data from agencies across the U.S.

F. Coverage Area means the area in square miles covered by the ShotSpotter® Subscription Services as set forth in Exhibit A and any increase to the Coverage Area as agreed to in writing between the Parties.

G. Documentation means the standard SoundThinking user documentation (user guides or manuals, training information, product specifications) provided with the applicable Subscription Service.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

H. PlateRanger™ ("PlateRanger") means the Advanced License Plate Recognition ("ALPR") Subscription Services provided by SoundThinking in partnership with Rekor.

I. ResourceRouter™, ResourceRouter™ Subscription Services, ResourceRouter™ Software, or ResourceRouter™ System means the SoundThinking crime forecasting and patrol/task force management system.

J. SafePointe™ System means, collectively, the SafePointe™ Subscription Services, SafePointe™ Software, and SafePointe™ Hardware that comprise the SafePointe weapons detection system.

K. SafePointe Hardware means the SoundThinking owned sensors, cameras, servers, and networking equipment.

L. SafePointe Data means the images and video collected by the SafePointe Subscription Services, magnetic signatures, and motion data.

M. ShotSpotter®, ShotSpotter® System, ShotSpotter® Software, or ShotSpotter® Subscription Services means the ShotSpotter® Gunshot Detection, Location, and Forensic Analysis Service.

N. ShotSpotter Data means the data, information, and electronic files created, generated, modified, compiled, displayed, stored or kept in the course of providing the ShotSpotter Subscription Services, including, without limitation, information in Reviewed Alerts accessible through the ShotSpotter Subscription Services and/or Software.

O. Software or SoundThinking Software means collectively the SoundThinking applications identified in Exhibit A and the Addenda to this Agreement to which Customer will have access under this Agreement on a subscription basis. The term Software shall also mean any new applications supplemental to the Subscription Services provided by SoundThinking to Customer subsequent to the execution date of this Agreement, and if purchased by Customer, the SoundThinking API Subscription License.

P. Subscription Services or SoundThinking Subscription Services means collectively the services provided to Customer on a subscription basis under this Agreement to access, and SoundThinking's maintenance of, the Software.

Q. System means collectively the Software and Subscription Services provided under this Agreement.

3. SUBSCRIPTION SERVICES

A. SoundThinking will implement the applicable Subscription Services set forth in Exhibit A and the Addenda to this Agreement.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

4. INITIAL TERM AND RENEWAL

The initial term of the Subscription Services shall be for a period of twelve (12) months commencing on the date set forth in the applicable Addenda. Based on the Subscription Services provided under this Agreement, there may be more than one commencement date.

The Subscription Services may be renewed for successive periods of one year each (or multiple years as mutually agreed upon in writing by the Parties), in accordance with the following procedure. SoundThinking shall provide Customer with a renewal notice stating the renewal fees, terms, and conditions for the next successive renewal term approximately ninety (90) days prior to the expiration date of the then current term. Customer acknowledges that the Subscription Services fees, terms and conditions, and service levels hereunder are subject to change and that such fees, terms and conditions, and service levels may vary from those applicable to this Agreement in successive renewal terms. Annual Subscription fees for ShotSpotter, CaseBuilder, ResourceRouter, and SafePointe are subject to increase at a rate of 5% for Customers whose annual subscription fee is less than the current SoundThinking list price. Annual Subscription fees for CrimeTracer are subject to increase at a rate of 7% for Customers whose annual subscription fee is less than the current SoundThinking list price.

If Customer fails to renew prior to expiration of the then current subscription term, the Subscription Services will terminate in accordance with Section 5.C and the Customer's access to the Subscription Services will be disabled.

5. LICENSE AND OWNERSHIP

In consideration for and subject to the payment of the annual Subscription Services fees as set forth in Exhibit A, Customer is granted a non-transferrable, non-exclusive and terminable license ("License") to use the applicable SoundThinking Subscription Services, and ShotSpotter® Data for the Customer's own internal purposes and, if applicable, permitting citizens to access the public facing components of the relevant Subscription Services as set forth in this Section 5 and the Addenda to this Agreement. Please read the terms and conditions of this Agreement carefully. By using any SoundThinking Subscription Services, Customer agrees to be bound by the terms and conditions of this Agreement and its Addenda. If Customer does not agree to these terms, Customer must notify SoundThinking and discontinue any use of the SoundThinking Subscription Services.

A. License and Restrictions.

Software and Subscription Services. The Software is the proprietary product of SoundThinking, licensed to Customer on an annual subscription basis. The SoundThinking Software may incorporate components supplied to SoundThinking under license by third-party suppliers, and may be protected by United States patent, trade secret, copyright law and international treaty provisions. All such rights in and to the Software and Subscription Services any part thereof is the property of SoundThinking or, if applicable, its suppliers. All right and title to the SoundThinking computer programs, including, but not limited to related Documentation, technology, know-how and processes embodied in or made available to Customer in connection with the Subscription Services, patent rights, copyrights, trade secret rights, trademarks, and services marks remain with SoundThinking. Customer may not make any copies of the written materials or Documentation that accompany any component of the Software, or use them, or any other information concerning the Subscription Services that SoundThinking has designated as confidential, for any purpose other

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

than bona fide use of the Subscription Services or Software for in accordance with the terms of this Agreement, nor allow anyone else to do so. Customer shall not: (i) modify, adapt, alter, translate, copy, perform, or display (publicly or otherwise) or create compilations, derivative, new, or other works based, in whole or in part, on the Software, or on the Subscription Services; (ii) merge, combine, integrate, or bundle the Software, in whole or in part, with other software, hardware, data, devices, systems, technologies, products, services, functions, or capabilities; (iii) transfer, distribute, make available the Subscription Services, or Software to any person other than Customer; or (iv) sell, resell, sublicense, lease, rent, or loan the Subscription Services or Software, in whole or in part. No component of the Subscription Services, or Software may be used to operate a service bureau, rental or time-sharing arrangement.

Nothing in this Agreement shall be construed as granting any right or title to any SoundThinking Software, the ShotSpotter Data, or any component thereof, or any other intellectual property of SoundThinking or its suppliers to Customer.

Customer shall not alter, remove or obscure any copyright, patent, trademarks, confidential, proprietary, or restrictive notices or markings on any component of the Subscription Services, Software or any Documentation.

Use, duplication, or disclosure by applicable U.S. government agencies is subject to restrictions as set forth in in the provisions of DFARS 48 CFR 252.227-7013 or FAR 48 CFR 52.227-7014, as applicable.

B. Export.

Customer acknowledges that the ShotSpotter System has been determined by the United States Department of State to be a controlled commodity, software and/or technology subject to the United States Export Administration Regulations of the U.S. Department of Commerce. Customer is specifically prohibited from the export, or re-export, transfer, consignment, shipment, delivery, downloading, uploading, or transmitting in any form, any ShotSpotter Software, ShotSpotter Subscription Services, ShotSpotter Data, Documentation, or any component thereof or underlying information or technology related thereto, to any third party, government, or country for any end uses except in strict compliance with applicable U.S. export controls laws, and only with the express prior written agreement of SoundThinking. In the event that such written agreement is provided, Customer shall be responsible for complying with all applicable export laws and regulations of the United States and destination country, including, but not limited to the United States Export Administration Regulations of the U.S. Department of Commerce, including the sanctions laws administered by the U.S. Department of Treasury, Office of Foreign Assets Control (OFAC), the U.S. Anti-Boycott regulations, and any applicable laws of Customer's country. In this respect, no resale, transfer, or re-export of the ShotSpotter System or any ShotSpotter System component exported to Customer pursuant to a license from the U.S. Department of Commerce may be resold, transferred, or reported without prior authorization by the U.S. Government. Customer agrees not to export, re-export or engage in any "deemed export," or to transfer or deliver, or to disclose or furnish, to any foreign (non- U.S.) government, foreign (non-U.S.) person or third party, or to any U.S. person or entity, any of the ShotSpotter System, or ShotSpotter System components, Data, Software, Services, or any technical data or output data or direct data product thereof, or any service related thereto, in violation of any such restrictions, laws or regulations, or without all

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

necessary registrations, licenses and or approvals. Customer shall bear all expenses relating to any necessary registrations, licenses or approvals.

In addition to the restrictions and requirements set forth above, the Customer shall not export, or re-export, transfer, consign, ship, deliver, download, upload, or transmit in any form, the CaseBuilder, CaseBuilder|Crime Gun, CrimeTracer, ResourceRouter, or SafePointe Subscription Services, the Software, Documentation, or any component thereof, or underlying information or technology related thereto to any third party, government, or country for any end uses except in strict compliance with applicable U.S. export controls laws, and only with the express prior written agreement of SoundThinking. In the event that such written agreement is provided, Customer shall be responsible for complying with all applicable export laws and regulations of the United States and destination country, including, but not limited to the United States Export Administration Regulations of the U.S. Department of Commerce, including the sanctions laws administered by the U.S. Department of Treasury, Office of Foreign Assets Control (OFAC), the U.S. Anti-Boycott regulations, and any applicable laws of the import country.

In addition to the foregoing, Customer shall not disclose, discuss, download, ship, transfer, deliver, furnish, or otherwise export or re-export any such item(s) to or through: (a) any person or entity on the U.S Department of Commerce Bureau of Industry and Security's List of Denied Persons or Bureau of Export Administration's anti-proliferation Entity List; (b) any person on the U.S. Department of State's List of Debarred Parties; (c) any person or entity on the U.S. Treasury Department Office of Foreign Asset Control's List of Specially Designated Nationals and Blocked Persons; or (d) any third party or for any end-use prohibited by law or regulation, as any and all of the same may be amended from time to time, or any successor thereto.

C. Termination.

Customer agrees that its right to use any of the applicable Subscription Services, or Software, provided hereunder, including ShotSpotter Data, will terminate following thirty (30) day's prior written notice due to a material breach of the terms of this Agreement, including failure to pay any sums to SoundThinking when due, or failure to renew the applicable Subscription Services prior to expiration of the then current subscription term unless such breach has been cured within said thirty (30) day period. In the event of a breach of SoundThinking's intellectual property rights, SoundThinking at its sole discretion may terminate this Agreement immediately upon written notice to Customer. In the event of termination for any reason, Customer's access to the applicable Subscription Services and Software will terminate and be disabled. Customer agrees that SoundThinking shall not be liable to Customer nor to any third party for any suspension of the Subscription Services resulting from Customer's nonpayment of the Subscription Services fees as described in this section.

D. Modification to, or Discontinuation of the Subscription Services.

SoundThinking reserves the right at its discretion to modify, temporarily or permanently, the Subscription Services (or any part thereof). If SoundThinking intends to release a modification to the Subscription Services that will result in the removal or disabling of a major feature or functionality, SoundThinking will provide thirty (30) days prior notice to its customer base. Should Customer materially rely on such feature or functionality, SoundThinking, at Customer's request,

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

shall use commercially reasonable efforts to restore such functionality to Customer. In the event that SoundThinking is unable to substantially restore such functionality, Customer shall have the right to terminate the Agreement and receive a pro-rata refund of the annual Subscription Services fees paid under the Agreement for the subscription term in which this Agreement is terminated. Customer acknowledges that SoundThinking reserves the right to discontinue offering the Subscription Services at the conclusion of Customer's then current term. Customer agrees that SoundThinking shall not be liable to Customer or to any third party for any modification of the Subscription Services as described in this section.

E. New Applications.

From time to time, at SoundThinking's discretion, SoundThinking may release to its customer base, new applications supplemental to the Subscription Services. Customer's use of such new applications shall be subject to the license, warranty, intellectual property, and support terms of this Agreement. Prior to general release, SoundThinking may request Customer to act as a pre-release test site for new applications, or major upgrades. Provided that Customer agrees in writing to such request, SoundThinking will provide a pre-release package explaining the details and requirements for Customer's participation.

F. No Use by Third Parties.

Except as otherwise expressly set forth in this Agreement, use by anyone other than Customer of the Subscription Services, Software, Documentation, or ShotSpotter Data is prohibited, unless pursuant to a valid assignment of this Agreement as set forth in Section 20 of this Agreement.

G. PlateRanger.

License terms and conditions for PlateRanger are set forth in Rekor's License Agreement provided as Attachment A to the PlateRanger Addendum.

6. CONFIDENTIALITY AND PROPRIETARY RIGHTS

A. SoundThinking Confidential Information.

Customer acknowledges and agrees that the source code, technology, and internal structure of the SoundThinking Software, ShotSpotter Data, and SoundThinking Subscription Services, as well as Documentation, operations manual(s) and training material(s), are the confidential information and proprietary trade secrets of SoundThinking, or applicable third-party vendor, the value of which would be destroyed by disclosure to the public. Use by anyone other than Customer of the Subscription Services, Documentation, and ShotSpotter Data is prohibited, unless pursuant to a valid assignment under this Agreement. Unless prohibited by applicable law, the terms and conditions of this Agreement, including pricing and payment terms shall also be treated as SoundThinking's confidential information. Customer shall not disassemble, decompile, or otherwise reverse engineer or attempt to reconstruct, derive, or discover any source code, underlying ideas, algorithms, formulae, routines, file formats, data structures, programming, routines, interoperability interfaces, drawings, or plans from the Software, or any data or information created, compiled, displayed, or accessible through the Subscription Services, in whole or in part. Customer agrees during the term of this Agreement, and thereafter, to hold the confidential

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

information and proprietary trade secrets of SoundThinking in strict confidence and to not permit any person or entity to obtain access to it except as required for the Customer's exercise of the license rights granted under this Agreement. Nothing in this Agreement is intended to or shall limit any rights or remedies under applicable law relating to trade secrets, including the Uniform Trade Secrets Act as enacted in applicable jurisdictions.

B. Customer Confidential Information

During the term of this Agreement or any subsequent renewals, SoundThinking agrees to maintain Customer information designated by the Customer as confidential to which SoundThinking gains access in the performance of its obligations under this Agreement, and not disclose such Customer Confidential Information to any third parties except as may be required by law. SoundThinking agrees that Customer's Confidential Information shall be used solely for the purpose of performing SoundThinking's obligations under this Agreement.

C. Obligations of the Parties.

The receiving Party's ("Recipient") obligations under this section shall not apply to any of the disclosing Party's ("Discloser") Confidential Information that Recipient can document: (a) was in the public domain at or subsequent to the time such Confidential Information was communicated to Recipient by Discloser through no fault of Recipient; (b) was rightfully in Recipient's possession free of any obligation of confidence at or subsequent to the time such Confidential Information was communicated to Recipient by such Discloser; (c) was developed by employees or agents of Recipient independently of and without reference to any of Discloser's Confidential Information; or (d) was communicated by Discloser to an unaffiliated third party free of any obligation of confidence. A disclosure by Recipient of any Discloser Confidential Information (a) in response to a valid order by a court or other governmental body; (b) as otherwise required by law; or (c) necessary to establish the rights of either party under this Agreement shall not be considered to be a breach of this Agreement by the Recipient; provided, however, that Recipient shall provide prompt prior written notice thereof to the Discloser to enable Discloser to seek a protective order or otherwise prevent such disclosure. The Recipient shall use reasonable controls to protect the confidentiality of and restrict access to all Confidential Information of the Discloser to those persons having a specific need to know for the purpose of performing the Recipient's obligations under this Agreement. The Recipient shall use controls no less protective than Recipient uses to secure and protect its own confidential, but not "Classified" or otherwise Government-legended, information. Upon termination of this Agreement the Recipient, as directed by the Discloser, shall either return the Discloser's Confidential Information, or destroy all copies thereof and verify such destruction in writing to the Discloser.

Unless the Recipient obtains prior written consent from the Discloser, the Recipient agrees that it will not reproduce, use for purposes other than those expressly permitted in this Agreement, disclose, sell, license, afford access to, distribute, or disseminate any information designated by the Discloser as confidential.

7. LIMITED WARRANTIES

A. SoundThinking warrants that the Software will function in substantial conformity with the SoundThinking Documentation accompanying the Software and Subscription Services. The

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

Software covered under this warranty consists exclusively of ShotSpotter, the ShotSpotter Dispatch, ShotSpotter Respond, and ShotSpotter Insight applications and user interface; CaseBuilder; CaseBuilder|Crime Gun; CrimeTracer; ResourceRouter, and SafePointe Software and Subscription Services that are made available to the Customer under this Agreement as identified in Exhibit A or any subsequent amendment to this Agreement. Additional limited warranties as applicable are set forth in the Addenda attached to this Agreement and incorporated herein.

B. SoundThinking further warrants that the Subscription Services, and Software shall be free of viruses, Trojan horses, worms, spyware, or other malicious code or components.

C. SoundThinking does not warrant or represent, expressly or implicitly, that any of its Subscription Services or Software will be uninterrupted or error free; or that any SoundThinking-supplied network will remain in operation at all times or under all conditions.

D. Any and all warranties, express or implied, of fitness for high-risk purposes requiring fail-safe performance are hereby expressly disclaimed.

E. The Parties acknowledge and agree that the Subscription Services are not consumer goods, and are not intended for sale to or use by or for personal, family, or household use.

F. Warranties for PlateRanger are provided in the Rekor License Agreement provided as Attachment A to the PlateRanger Addendum.

EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION 7, AND THE APPLICABLE ADDENDA TO THIS AGREEMENT SOUNDTHINKING MAKES AND CUSTOMER RECEIVES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OF NON-INFRINGEMENT, QUALITY, SUITABLITY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

8. CUSTOMER OBLIGATIONS.

Customer acknowledges and agrees that SoundThinking's duties, including warranty obligations, and ability to perform its obligations to Customer under this Agreement shall be predicated and conditioned upon Customer's timely performance of and compliance with Customer's obligations hereunder, including, but not limited to:

A. Customer agrees to pay all sums due under this Agreement when they are due pursuant to the payment terms in Exhibit A.

Customer's address for invoicing:
City of Santa Fe
Attn: Accounts Payable
PO Box 909
Santa Fe, NM 87504-0909
Email: Trrico@santafenm.gov

B. Customer agrees to use reasonable efforts to timely perform and comply with all of Customer's obligations allocated to Customer under this Agreement, and its Addenda.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

C. Customer shall not permit any alteration, modification, substitution, or supplementation of any SoundThinking Subscription Services or web portal, or the combining, connection, merging, bundling, or integration of the SoundThinking Subscription Services or web portal into or with any other system, equipment, hardware, software, technology, function, or capability, without SoundThinking's express prior written consent.

D. Unless otherwise expressly agreed in advance in writing by SoundThinking, Customer shall not authorize or appoint any contractors, subcontractors, original equipment manufacturers, value added integrators, systems integrators, or other third parties to operate, or have access to any part of the Subscription Services or Software.

E. In order to use the Subscription Services, Customer must have and maintain access to the World Wide Web to enable a secure https connection from the Customer's workstation(s) to SoundThinking's hosted services, either directly or through devices that access Web-based content. Customer must also provide all equipment necessary to make such (and maintain such) connection.

F. Should criminal background checks beyond SoundThinking's standard background check, or fingerprinting for SoundThinking employees performing any Services under this Agreement or an Addendum hereto be required by Customer, or Federal or State regulations, such additional background checks or fingerprinting will be conducted by Customer.

G. Customer shall be responsible for the accuracy, quality, appropriateness, and legality of all Customer data, any other Customer business information used in any Subscription Services.

H. SoundThinking will assist the Customer in initially setting up passwords and user names for Customer's employees, agents, or representatives to whom Customer designates access to the applicable Subscription Services ("Authorized Users"). Thereafter, Customer shall be responsible for assigning passwords and user names for each of its Authorized Users. Customer shall be responsible for maintaining the confidentiality and use of Customer's password and user names and shall not allow passwords and/or user names to be shared by Authorized Users; nor shall Customer permit any unauthorized users to access the Subscription Services. The maximum number of Authorized Users for the applicable Subscription Services is set forth in Exhibit A. Each Authorized User identification may only be used to access the applicable Subscription Services during one (1) concurrent login session.

I. Customer shall comply with all applicable laws, rules and regulations relating to the goods and services provided hereunder.

9. INTELLECTUAL PROPERTY INFRINGEMENT

SoundThinking will, at its expense, defend and indemnify Customer from and against losses, suits, damages, liability, and expenses (including reasonable attorney fees) arising out of a claim asserted in a lawsuit or action against the Customer by a third party unrelated to the Customer, in which such third party asserts a claim that the Subscription Services and/or Software to which SoundThinking owns the patent or copyright, when used in accordance with SoundThinking's user Documentation, infringes any United States

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

patent which was issued by the U.S. Patent and Trademark Office, or United States copyright which was registered by the U.S. Copyright Office, as of the effective date of Customer's agreement to license the applicable SoundThinking Subscription Services and Software (collectively "Action"), provided that Customer provides SoundThinking with reasonably prompt notice of any such Action, or circumstances of which Customer becomes aware that could reasonably be expected to lead to such Action including but not limited to any cease and desist demands or warnings, and further provided that Customer cooperates with SoundThinking and its defense counsel in the investigation and defense of such Action.

SoundThinking shall have the right to choose counsel to defend such suit and/or action, and to control the settlement (including determining the terms and conditions of settlement) and the defense thereof. Customer may participate in the defense of such action at its own expense.

This Section 9 shall not apply and SoundThinking shall have no obligation to defend and indemnify Customer in the event the Customer or a third party modifies, alters, substitutes, or supplements any of the Subscription Services, or Software, or to the extent that the claim of infringement arises from or relates to the integration, bundling, merger, or combination of any of the same with other hardware, software, systems, technologies, or components, functions, capabilities, or applications not licensed by SoundThinking as part of the Subscription Services, nor shall it apply to the extent that the claim of infringement arises from or relates to meeting or conforming to any instruction, design, direction, or specification furnished by the Customer, nor to the extent that the Subscription Services or Software are used for or in connection with any purpose, application, or function other than in accordance with the SoundThinking Documentation accompanying the Subscription Services or Software.

If, in SoundThinking's opinion, any of the SoundThinking owned Subscription Services, or Software may, or are likely to become, the subject of such a suit or action, does become the subject of a claim asserted against Customer in a lawsuit which SoundThinking is or may be obliged to defend under this section, or is determined to infringe the foregoing patents or copyrights of another in a final, non-appealable judgment subject to SoundThinking's obligations under this section, then SoundThinking may in full and final satisfaction of any and all of its obligations under this section, at its option: (1) procure for Customer the right to continue using the affected Subscription Services or Software, (2) modify or replace such Subscription Services or Software to make it or them non-infringing, or (3) refund to Customer a pro-rata portion of the annual Subscription Services fees paid for the affected Subscription Services for the term in which the Agreement is terminated.

Defense and indemnification against third party claims of infringement for third party products to which SoundThinking does not own the copyright are the responsibility of the owner of the third-party products.

This Section 9 states the entire liability of SoundThinking and is Customer's exclusive remedy for or relating to infringement or claims or allegations of infringement of any patent, copyright, or other intellectual property rights in or to any SoundThinking owned and licensed Subscription Services, SoundThinking owned and licensed Software or any component thereof. This section is in lieu of and replaces any other expressed, implied, or statutory warranty against infringement of any and all intellectual property rights.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

10. INDEMNIFICATION AND LIMITATION OF LIABILITY

SoundThinking shall, at its expense, indemnify, defend, save, and hold Customer harmless from any and all claims, lawsuits, or liability, including attorneys' fees and costs, arising out of, in connection with, any loss, damage, or injury to persons or property to the extent of the gross negligence, or wrongful act, error, or omission of SoundThinking, its employees, agents, or subcontractors as a result of SoundThinking's or any of its employees, agents, or subcontractor's performance pursuant to this Agreement. SoundThinking shall not be required to indemnify Customer for any claims or actions caused to the extent of the negligence or wrongful act of Customer, its employees, agents, or contractors. Notwithstanding the foregoing, if a claim, lawsuit, or liability results from or is contributed to by the actions or omissions of Customer, or its employees, agents, or contractors, SoundThinking's obligations under this provision shall be reduced to the extent of such actions or omissions based upon the principle of comparative fault.

In no event shall either Party, or any of its affiliates or any of its/their respective directors, officers, members, attorneys, employees, or agents, be liable to the other Party under any legal or equitable theory or claim, for lost profits, lost revenues, lost business opportunities, exemplary, punitive, special, indirect, incidental, or consequential damages, each of which is hereby excluded by agreement of the Parties, regardless of whether such damages were foreseeable or whether any Party or any entity has been advised of the possibility of such damages.

Except for its Intellectual Property infringement indemnity obligations under Section 9 of this Agreement for SoundThinking owned Software and Subscription Services, SoundThinking's cumulative liability for all losses, claims, suits, controversies, breaches or damages for any cause whatsoever arising out of or related to this Agreement, whether in contract, tort, by way of indemnification or under statute, and regardless of the form of action or legal theory shall not exceed (i) two (2) times the amount of the annual subscription fee(s) for the twelve (12) month period in which the claim arises, or (ii) the amount of insurance maintained by SoundThinking available to cover the loss, whichever is greater. The foregoing limitations shall apply without regard to any failure of essential purpose of any remedies given herein.

Any liability incurred by City in connection with this Agreement is subject to the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et. seq. NMSA 1978, as amended. City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Agreement modifies or waives any provision of the New Mexico Tort Claims Act

11. DEFAULT AND TERMINATON; REMEDIES

Either Party may terminate this Agreement in the event of a material breach of the terms and conditions of this Agreement upon thirty (30) days' prior written notice to the other Party; provided that the Party alleged to be in breach has not cured such breach within said thirty (30) day period.

In addition to the termination provisions in Section 5.C for failure to pay annual Subscription Services fees, upon the occurrence of a material breach of Customer's obligations under this Agreement not susceptible to cure as provided in the preceding paragraph, SoundThinking may at its option, effective immediately upon written notice to Customer, either: (i) terminate SoundThinking's future obligations under this Agreement, terminate Customer's License to use the Subscription Services and Software, or (ii) accelerate

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

and declare immediately due and payable all remaining charges for the remainder of the Agreement and proceed in any lawful manner to obtain satisfaction of the same.

Appropriations. City's ability to pay for the services under this Agreement is contingent upon sufficient appropriations and authorization being made by City for the performance of this Agreement. If sufficient appropriations and authorization are not made by City, this Agreement shall terminate upon reasonable prior written notice being given by City to SoundThinking. The City's decision as to whether sufficient appropriations are available shall be accepted by SoundThinking and shall be final

12. TAXES

Unless otherwise included as a line item in Exhibit A, the fees due under this Agreement exclude any sales, use, value added or similar taxes that may be imposed in connection with this Agreement. Customer agrees that it shall be solely responsible for payment, or reimbursement to SoundThinking as applicable, of all sales, use, value-added or similar taxes imposed upon this Agreement by any level of government, whether due at the time of sale or asserted later as a result of audit of the financial records of either Customer or SoundThinking. If exempt from such taxes, Customer shall provide to SoundThinking written evidence of such exemption. Customer shall also pay any personal property taxes levied by government agencies based upon Customer's use or possession of the items acquired or licensed in this Agreement.

13. NOTICES

Any notice or other communication required or permitted to be given under this Agreement shall be in writing delivered to the address set forth in this Agreement by certified mail return receipt; overnight delivery services; delivered in person; or via email with read receipt. A Party's address may be changed by written notice to the other Party.

Notices to Customer:	Notices to SoundThinking:

Santa Fe, NM 87501	Fremont, CA 94538
Email: pmjoye@santafenm.gov	accounting@soundthinking.com

14. FORCE MAJEURE

In no event shall SoundThinking be liable for any delay or default in its performance of any obligation under this Agreement caused directly or indirectly by an act or omission of Customer, or persons acting under its direction and/or control, fire, flood, act of God, an act or omission of civil or military authority of a state or nation, strike, lockout, or other labor disputes, inability to secure, delay in securing, or shortage of labor, materials, supplies, transportation, or energy, failures, outages or denial of services of wireless, power, telecommunications, or computer networks, acts of terrorism, sabotage, vandalism, hacking, natural disaster or emergency, war, riot, embargo, or civil disturbance, breakdown or destruction of plant or equipment, or arising from any cause whatsoever beyond SoundThinking's reasonable control. At SoundThinking's option and following notice to Customer, any of the foregoing causes shall be deemed to suspend such obligations of SoundThinking so long as any such cause shall prevent or delay performance,

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

and SoundThinking agrees to make, and Customer agrees to accept performance of such obligations whenever such cause has been remedied.

15. ENTIRE AGREEMENT

This Agreement and its Exhibits and Addenda represent the entire agreement and understanding of the Parties and a final expression of their agreements with respect to the subject matter of this Agreement and supersedes all prior written or oral agreements, representations, understandings, or negotiations with respect to the matters covered by this Agreement.

16. GOVERNING LAW AND VENUE

The validity, performance, and construction of this Agreement shall be governed by the laws of the State of New Mexico, without giving effect to the conflict of law principles thereof. The United Nations Convention on Contracts for the International Sale of Goods is expressly disclaimed and shall not apply. The Parties agree that any action, suit arising from this Agreement shall be commenced in a federal or state court of competent jurisdiction in New Mexico. Any action in the courts of the State of New Mexico shall be brought in the First Judicial District Court.

17. NO WAIVER

No term or provision of this Agreement shall be deemed waived, and no breach excused unless such waiver or consent is in writing and signed by both Parties. Any consent by either Party to, or waiver of, a breach by the other, whether expressed or implied, shall not constitute a consent to, waiver of, or excuse for any other, different, prior, or subsequent breach.

The failure of either Party to enforce at any time any of the provisions of this Agreement shall not constitute a present of future waiver of any such provisions or the right of either Party to enforce each and every provision.

18. SEVERABILITY

If any term, clause, sentence, paragraph, article, subsection, section, provision, condition, or covenant of this Agreement is held to be invalid or unenforceable, for any reason, it shall not affect, impair, invalidate or nullify the remainder of this Agreement, but the effect thereof shall be confined to the term, clause, sentence, paragraph, article, subsection, section, provision, condition or covenant of this Agreement so adjudged to be invalid or unenforceable.

19. DISPUTE RESOLUTION

If the Parties disagree as to any matter arising under this Agreement or the relationship and dealings of the Parties hereto, then at the request of either Party, SoundThinking and Customer shall promptly consult with one another and make diligent, good faith efforts to resolve the disagreement by negotiation prior to either Party taking legal action. If such negotiations do not resolve the dispute within sixty (60) days of the initial request, either Party may take appropriate legal action.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

20. ASSIGNMENT

This Agreement may not be assigned or transferred by either Party, nor any of the rights granted herein, in whole or in part, by operation of law or otherwise, without the other Party's express prior written consent, which shall not be unreasonably withheld. Provided, however, that SoundThinking may assign or transfer this Agreement and/or SoundThinking's rights and obligations hereunder, in whole or in part, in the event of a merger or acquisition of all or substantially all of SoundThinking's assets. No assignee for the benefit of Customer's creditors, custodian, receiver, trustee in bankruptcy, debtor in possession, sheriff, or any other officer of a court, or other person charged with taking custody of Customer's assets or business, shall have any right to continue or to assume or to assign these without SoundThinking's express consent.

21. COMPLIANCE WITH LAWS

During the term of this Agreement SoundThinking will comply with all applicable local, state, and federal laws, statutes and regulations.

22. EQUAL EMPLOYMENT OPPORTUNITY

SoundThinking is committed to equal-employment principles, and the provisions outlined in the Equal Opportunity Clauses of Executive Order 11246, (41 CFR 60- 1.4), section 503 of the Rehabilitation Act of 1973, (41 CFR 60-741.5(a)), section 402 of the Vietnam Era Veterans Readjustment Act of 1974, (41 CFR 60-250.5(a)), and, the Jobs for Veterans Act of 2003, (41 CFR 60-300.5(a)) as well as any other regulations pertaining to these orders. SoundThinking's decisions and criteria governing its hiring and employment practices are made in a non-discriminatory manner, without regard to age, race, color, national origin, citizenship status, gender (including pregnancy, childbirth or medical condition related to pregnancy or childbirth), gender identity or expression, sex, religion, creed, physical or mental disability, medical condition, legally protected genetic information, marital status, veteran status, military status, sexual orientation, or any other factor determined to be an unlawful basis for such decisions by federal, state, or local statutes.

23. INSURANCE

SoundThinking, at its expense, shall procure and maintain insurance coverage in the following limits during the term of this Agreement. Prior to commencing services under this Agreement, SoundThinking shall provide certificates of insurance evidencing such insurance to Customer. Customer shall be named as an additional insured to the commercial general liability policy.

Type of Insurance	Limits
Commercial General Liability	$1,000.000 ea. occ.; $2,000,000 general aggregate
Automobile Liability – Any Auto	$1,000,000 combined single limit
Umbrella Liability	$5,000,000 ea. occ.; $5,000,000 aggregate
E&O/Cyber Liability Excess E&O/Cyber Liability	$2,500,000 per claim/aggregate $2.5M XS $2.5M
Worker's Compensation	Statutory
Employer's Liability	$2M ea. accident; $2M disease ea. employee; $2M policy limit

24. GENERAL PROVISIONS

A. This Agreement and its Addenda shall be binding on and inure to the benefit of the Parties and any permitted successors and assigns; however, nothing in this paragraph shall be construed as a consent to any assignment by either Party except as provided in Section 20 of this Agreement.

B. This Agreement shall not become a binding contract until signed by an authorized representative of each Party, effective as of the date of signature.

C. This Agreement and its Addenda may be executed in any number of identical counterparts, each of which shall be deemed a duplicate original.

D. The provisions of this Agreement and Addenda shall not be construed in favor of or against either Party because that Party or its legal counsel drafted this Agreement, but shall be construed as if all Parties prepared this Agreement.

E. An electronic signature copy of this Agreement and its Exhibits, Addenda, notices and documents prepared under this Agreement shall be considered an original. The Parties agree that any document in electronic format or any document reproduced from an electronic format shall not be denied legal effect, validity, or enforceability, and shall meet any requirement to provide an original or hard copy.

F. This Agreement is made for the benefit of the Parties, and is not intended to benefit any third party or be enforceable by any third party. The rights of the Parties to terminate, rescind, or agree to any amendment, waiver, variation or settlement under or relating to this Agreement are not subject to the consent of any third party.

ADDENDUM ONE - SHOTSPOTTER® SUPPLEMENTAL TERMS

This Addendum One ("Addendum One") to the SoundThinking™, Inc. Master Services Agreement (the "Agreement") by and between SoundThinking, Inc. ("SoundThinking") and the City of Santa Fe ("Customer") is effective as of the last date of signature below.

The following provisions are expressly added to and made a part of the Agreement for the purposes of further defining the ShotSpotter® Subscription Services and terms of use. All terms and conditions of the Agreement shall remain in full force and effect. In the event of a conflict between this Addendum One and the Agreement, this Addendum One shall control:

In consideration of the Parties' mutual covenants and promises set forth in this Addendum One, the Parties Agree as follows:

Section numbers correspond to the section numbers in the Agreement.

Section 2 DEFINITIONS

ShotSpotter

Insight means the internet portal to which Customer will have access to Reviewed Alerts with respect to the ShotSpotter® Gunshot Detection, Location, and Forensics System.

Coverage Area means the area in square miles covered by the ShotSpotter Services as set forth in Exhibit A and increase to the Coverage Area as agreed to in writing between the Parties.

Reviewed Alerts means the data reviewed by SoundThinking's incident review staff related to gunfire incidents detected by the ShotSpotter Gunshot Detection, Location, and Forensic Analysis Service.

Section 3 SUBSCRIPTION SERVICES

ShotSpotter

A. SoundThinking will install the ShotSpotter System in the Coverage Area specified in Exhibit A attached to the Agreement. SoundThinking will host the Subscription Services and may update the functionality and Software of the Subscription Services from time to time at its sole discretion and in accordance with the Agreement and this Addendum One.

B. SoundThinking will be responsible for determining the location(s) for installation of acoustic sensor(s) (the "Sensors") that detect gunshot-like sounds, and obtaining permission from the premises owner/property manager/lessee. SoundThinking owns, and is responsible for maintenance of the Sensors.

C. The ShotSpotter System acoustic Sensor may use wired, wireless, or cellular wireless communications which necessitates the existence of a real-time data communications channel from each Sensor to the SoundThinking hosted servers via a commercial carrier.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

The unavailability or deterioration of the quality of such wired, wireless, or wireless cellular communications may impact the ability of SoundThinking to provide the Subscription Services. In such circumstances SoundThinking will use commercially reasonable efforts to obtain alternate wired or wireless cellular communications or adjust the Coverage Area as necessary. In the event SoundThinking is unable to do so, SoundThinking will terminate the ShotSpotter Subscription Services and refund a pro-rata portion of the annual Subscription Services fee to Customer.

D. SoundThinking will provide Customer with user documentation, online help, written or recorded video training material, and other applicable documentation (as available).

E. SoundThinking will provide reasonable efforts to respond via email to requests for support relating to incident classification as defined in the Support Level Matrix provided at Attachment A.

F. During the term of the Agreement, SoundThinking will provide real-time gunfire analysis and alert services. After an explosive (or impulsive) sound triggers enough Sensors that an incident is detected and located, audio from the incident is sent to SoundThinking's Incident Review Center (IRC) via secure, high-speed network connections for real-time qualification. Within seconds, a SoundThinking professional reviewer analyzes audio data and recordings to confirm gunfire or explosions. The qualified alert is then sent directly to the Customer's dispatch center, PSAP, mobile/patrol officers, and any other relevant safety or security personnel, as determined by the Customer. The SoundThinking IRC will review gunfire incidents as further defined in Attachment A to this Addendum One.

G. The ShotSpotter Subscription Services shall consist of (i) providing access to the Customer of Reviewed Alerts delivered via the Insight password-protected internet portal and user interface supplied by SoundThinking; (ii) providing Customer access to historical Reviewed Alerts and incident information via the ShotSpotter Software; and (iii) other services as specified in the Agreement and its Exhibits or this Addendum One.

H. SoundThinking will use commercially reasonable efforts to respond to support requests as set forth in the Support Level Matrix provided at Attachment A to this Addendum One. These requests may be made to SoundThinking through one of the following methods: 1) email to support@soundthinking.com; 2) Live Chat through the ShotSpotter Subscription Services applications: 3) A phone call to SoundThinking's Customer Support organization at 888.274.6877, option 4. These are the only methods SoundThinking will receive and respond to support requests.

Tier 1 (as defined in the Support Matrix included at Attachment A). A SoundThinking Customer Support specialist will be responsible for receiving Customer reports of missed incidents, or errors in the Subscription Services, and, to the extent practicable over email or telephone, making commercially reasonable efforts to assist the Customer in resolving the Customer's reported problems. In the event the problem cannot be resolved within 24 hours, requiring further research and troubleshooting, SoundThinking will use commercially reasonable efforts to resolve the issue within seventy-two (72) hours of receipt of the report. In the event that the ShotSpotter Subscription Service is fully

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

nonfunctional, and it is not due to power outage or other reasons that are outside of SoundThinking's control, SoundThinking will work continuously to restore functionality of the Subscription Services in accordance with the standard ShotSpotter user documentation provided with the Subscription Services as soon as reasonably possible, and no later than seventy-two (72) hours of receipt of the report.

I. FORENSIC REPORTS.

i. Investigative Lead Summary ("ILS"). SoundThinking provides an on-demand report available through the ShotSpotter Application. The Investigative Lead Summary (ILS) provides useful details about the approximate location, timing, and sequence of each shot fired during an incident. The ILS is very valuable on scene, and may help law enforcement find shell casings, confirm witness accounts, and streamline investigations. ILS reports are available immediately after an incident occurs via the mobile, web, or desktop ShotSpotter application. The machine-generated ILS is primarily intended as an investigative aid rather than courtroom evidence. However, SoundThinking does offer Certified Business Records of ILS reports, which may be useful in court for limited purposes, without the need to call a witness.

ii. Detailed Forensic Report ("DFR"). If requested by Customer, SoundThinking will provide a DFR for any ShotSpotter-detected incidents, including Reviewed Alerts. The DFR is intended to be a court-admissible document used by attorneys as part of a court case for the exact, verified timing, sequence and location of each shot fired. Secondarily, the DFR is available for use by law enforcement to obtain a search warrant or to investigate an Officer Involved Shooting.

DFRs must be requested in writing and addressed to the SoundThinking Customer Support Department. Requests may be submitted via the Forensics Services page under the Law Enforcement tab on SoundThinking's website (www.soundthinking.com). SoundThinking will use commercially reasonable efforts to provide a DFR within ten (10) business days of receipt of the request.

J. EXPERT WITNESS SERVICES.

SoundThinking offers reasonable expert witness services, including Reviewed Alerts, for an hourly fee as set forth in Exhibit A of the Agreement, as well as reimbursement of all travel and per diem costs. If requested to provide such services, SoundThinking will invoice the Customer for the number of hours expended to prepare for and provide expert witness testimony, and actual travel expenses, upon completion of the services. Customer understands that SoundThinking undertakes to provide individuals whose qualifications are sufficient for such services, but does not warrant that any person or his or her opinion will be accepted by every court. SoundThinking requires at least fourteen (14) days prior notice of such a requirement in writing from the Customer. Customer must include dates, times, specific locations, and a point of contact for SoundThinking personnel. Due to the nature of legal proceedings, SoundThinking cannot guarantee that its services described in this section shall produce the outcome, legal or otherwise, which Customer desires. Payment for expert witness services described shall be due and payable when services are rendered regardless of the outcome of the proceedings.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

Section 4 INITIAL TERM AND RENEWAL

ShotSpotter

A. Commencement of ShotSpotter Subscription Services. The initial term of the ShotSpotter Subscription Services shall commence on the date that the ShotSpotter System is made available to Customer for live use ("go live").

B. Failure to renew ShotSpotter Subscription Services. If Customer fails to renew prior to the expiration of the then current subscription term, the Subscription Services will terminate and the Customer's access to the Subscription Services will be disabled. At its discretion, SoundThinking may remove the ShotSpotter System and any components from the Coverage Area at that time. If SoundThinking does not remove the ShotSpotter System from the Coverage Area, Customer may reinstate the ShotSpotter Subscription Services at a later date by renewing this Agreement and payment of the applicable reactivation and ShotSpotter Subscription Services renewal fees; however, Customer will not have access to any Reviewed Alerts that they would have had access to during the lapsed period.

Section 5 LICENSE AND OWNERSHIP

ShotSpotter Data

A. Rights in Data.

SoundThinking shall own and have the unrestricted right to use the ShotSpotter Data, as that term is defined in the Agreement, for internal purposes such as research or product development. SoundThinking may provide, license, or sell the ShotSpotter Data on an aggregated basis to third parties (excluding press or media) to be used for research or analytical purposes, or for law enforcement and/or security purposes.

SoundThinking will not release or disseminate to any person or entity ShotSpotter Data related to or consisting of specific forensic or law enforcement sensitive incident information pertaining to any active inquiry, investigation, or prosecution, unless in response to a valid order or subpoena issued by a court or other governmental body, or as otherwise required by law. SoundThinking will not release, sell, license, or otherwise distribute the gunfire alert ShotSpotter Data to the press or media without the prior express written consent of an authorized representative of the Customer.

Customer shall have the unrestricted right to download, make copies of, distribute, and use the ShotSpotter Data within its own organization, exclusively for its own internal purposes, and for purposes of detecting and locating gunfire, routine archival recordkeeping, evidence preservation, and investigative, or evidentiary, and prosecutorial purposes, and for community engagement and community services initiatives. Customer shall not provide to, license the use of, or sell the ShotSpotter Data to any third parties, which restriction will not pertain to (i) the collaboration with other law enforcement agencies for the purposes of investigating and prosecuting crimes detected by the ShotSpotter Subscription Service; or

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

(ii) government or non-governmental entities focused on the support of victims of gun crime in the local community; or (iii) entities focused on local community outreach and/or violence intervention.

Section 6 CONFIDENTIALITY AND PROPRIETARY RIGHTS

SoundThinking Privacy Policy

A. SoundThinking Privacy Policy.

With respect to the ShotSpotter Subscription Services, SoundThinking has structured its technology, processes and policies in such a way as to minimize the risk of privacy infringements from audio surveillance while still delivering important public safety benefits to its customers. These efforts to maintain privacy include the following:

1) SoundThinking will not provide extended audio to customers beyond the audio snippet (1 second of ambient noise prior to a gunshot, the gunshot audio itself, and 1 second after the incident). SoundThinking will vigorously resist any subpoena or court order for extended audio that goes beyond an audio snippet.

2) SoundThinking will not provide a list or database of the precise location of Sensors to police or the public if requested and will challenge any subpoenas for this location data.

Section 7 LIMITED WARRANTIES

ShotSpotter Subscription Services and Software Additional Limited Warranties and Disclaimers

A. The ShotSpotter Subscription Services are not designed, sold, or intended to be used to detect, intercept, transmit, or record oral or other communications of any kind. SoundThinking cannot control how the ShotSpotter Subscription Services are used, and, accordingly, SoundThinking does not warrant or represent, expressly or implicitly, that use of the ShotSpotter Subscription Services will comply or conform to the requirements of federal, state, or local statutes, ordinances, and laws, or that use of the ShotSpotter Subscription Services will not violate the privacy rights of third parties. Customer shall be solely responsible for using the ShotSpotter Subscription Services in full compliance with applicable law and the rights of third persons.

B. SoundThinking does not warrant or represent, expressly or implicitly, that the ShotSpotter System or its use will: result in the prediction or prevention of crime, apprehension or conviction of any perpetrator of any crime, or detection of any criminal; prevent any loss, death, injury, or damage to property due to any reason including the discharge of a firearm or other weapon; or in all cases result in a Reviewed Alert for all firearm discharges within

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

the designated coverage area; or that the ShotSpotter-supplied network will remain in operation at all times or under all conditions.

C. SoundThinking expressly disclaims, and does not undertake or assume any duty, obligation, or responsibility for any decisions, actions, reactions, responses, failure to act, or inaction, by Customer as a result of or in reliance on, in whole or in part, the ShotSpotter Subscription Services, or Reviewed Alerts provided by SoundThinking, or for any consequences or outcomes, including any death, injury, or loss or damage to any property, arising from or caused by any such decisions, actions, reactions, responses, failure to act, or inaction. It shall be the sole and exclusive responsibility of the Customer to determine appropriate decisions, actions, reactions, or responses, including whether or not to dispatch emergency responder resources. The Customer hereby expressly assumes all risks and liability associated with any and all action, reaction, response, and dispatch decisions, and for all consequences and outcomes arising from or caused by any decisions made or not made by the Customer in reliance, in whole or in part, on the ShotSpotter Subscription Services provided by SoundThinking, including any death, injury, or loss or damage to any property.

EXCEPT AS EXPRESSLY SET FORTH IN SECTION 7 OF THE AGREEMENT AND THIS ADDENDUM ONE, SOUNDTHINKING MAKES AND CUSTOMER RECEIVES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OF NON-INFRINGEMENT, QUALITY, SUITABLITY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Section 11 DEFAULT AND TERMINATION; REMEDIES

Termination of Access to ShotSpotter Data

In addition to the termination provisions in Section 5. C of the Agreement, upon termination of the Agreement, Customer's access to ShotSpotter Data will terminate, and SoundThinking will cease delivering Reviewed Alerts for ShotSpotter.

ATTACHMENT A – SERVICE LEVEL AGREEMENT

ShotSpotter® Gunshot Detection, Location System

Reviewed Alert Service Levels

Summary

Under the terms and conditions of the SoundThinking Master Services Agreement and this Addendum One between SoundThinking, Inc. ("SoundThinking") and Customer, SoundThinking commits to meet or exceed the following Service Level Agreement (SLA) standards as it provides its ShotSpotter Gunshot Location Services[1]:

Service	SLA and Measurement
Gunshot Detection & Location	90% of unsuppressed, outdoor gunfire incidents, using standard, commercially available rounds greater than .25 caliber, inside the Coverage Area will be detected and located within 25 meters of the actual gunshot location.
Reviewed Alerts	90% of gunshot incidents will be reviewed and published in less than 60 seconds.
Service Availability	The ShotSpotter Gunshot Location System service will be available to the Customer 99.9% of the time with online access to ShotSpotter data, excluding scheduled maintenance windows.

Gunshot Detection & Location Performance

The ShotSpotter System will detect and accurately locate to within 25 meters of the actual gunshot location 90% of unsuppressed, outdoor gunshots fired inside the contracted coverage area using standard, commercially available rounds greater than .25 caliber.

Reviewed Alerts Service

SoundThinking's real-time Incident Review Center (IRC) will review at least 90% of all gunfire incidents within 60 seconds. This human review is intended to confirm or change the machine classification of the incident type, and, depending on the reviewer's confidence level that the incident is or may be gunfire, will result in an alert ("Reviewed Alert") sent to the Customer's dispatch center, patrol car mobile data terminals (MDT), and officer smartphones (via the ShotSpotter App), based on the following criteria:

Incident Type	Action
High confidence incident is gunfire	Reviewed Gunfire Alert, (Single Gunshot "SG" or Multiple Gunshots "MG") sent to Customer's dispatch center, patrol car mobile data terminals (MDT), and officer smartphones (via the ShotSpotter App)
Uncertain if incident is gunfire or not	Reviewed Probable Gunfire ("PG") Alert sent to Customer's dispatch center, patrol car MDTs, and officer smartphones
Low confidence incident is gunfire	**No alert** will be sent; incident available for Customer review in the incident history available through Insight

[1] See attached "ShotSpotter – Definition of Key Terms" for a complete definition of terms associated with this SLA and further details in the expanded definitions listed below the Summary. The basis for this SLA and performance measurement will be total gunshot incidents as defined by the Definition of Key Terms.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

Reviewed Alerts are sent to the Customer's dispatch center, patrol car MDTs, and officer smartphones. Information in a Reviewed Alert will include the following:

- "Dot on the map" with latitude and longitude indicating the location of the incident.
- Parcel address closest to location of the incident.
- When available, additional situational awareness data points may be included, such as:
  - Qualitative data on the type/severity of incident: Fully automatic, High Capacity
  - Other comments (if any)

The ShotSpotter App, and Insight provide the Customer with full and immediate access to incident history including information SoundThinking uses in its internal review process. This information includes, among other things, the initial incident classification and any reclassifications of an incident, incident audio wave forms, and incident audio files. This data access is available as long as the Customer is under active subscription.

Service Availability

The ShotSpotter System[2] will be able to detect gunfire and available to users with online access to ShotSpotter data 99.9% of the time, on a 24x7 by 365 day per year basis, excluding: a) scheduled maintenance periods which will be announced to Customer in advance; b) select holidays; and c) third party network outages beyond SoundThinking's control.

Customer SLA Credits

Each Service Level measurement shall be determined quarterly, the results of which will be reviewed during the periodic account review meetings with Customer. For each calendar quarter that SoundThinking does not meet at least two of the three above standards, a fee reduction representing one free week of service (for the affected Coverage Area) for each missed quarter shall be included during a future Customer renewal.

Service Level Exclusions and Modifications

SoundThinking takes commercially reasonable efforts to maintain Service Levels at all times. However, Service Level performance during New Year's Eve and Independence Day and the 48-hour periods before and after these holidays, are specifically excluded from Service Level standards. During these excluded periods, because of the large amount of fireworks activity, SoundThinking uses fireworks suppression techniques[3].

The SoundThinking sensors send incident information to the SoundThinking cloud via third party cellular, wireless or wired networks. SoundThinking is not responsible for outages on the third-party networks.

---

[2] ShotSpotter Subscription Service includes all database, applications, and communications services hosted by SoundThinking, Inc. at our data center and specifically exclude Customer's internal network or systems or 3rd party communications networks, e.g. Verizon, AT&T, Sprint/T-Mobile, or Customer's Internet Service Provider.

[3] SoundThinking will put the ShotSpotter System into "fireworks suppression mode" during this period in order to reduce the non-gunfire incidents required for human classification. SoundThinking will formally inform the Customer prior to the System being placed in fireworks suppression mode and when the mode is disabled. While in fireworks suppression mode, the incident alerts determined to be fireworks are not sent to the reviewer nor the Customer dispatch center, patrol car MDTs, and officer smartphones; however, these non-gunfire incidents will continue to be stored in the database for use if required at a later time.

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

Service Failure Notification

Should SoundThinking identify any condition (disruption, degradation or failure of network, cloud, servers, sensors etc.) that impacts SoundThinking's ability to meet the Gunshot Detection & Location standard (above), SoundThinking will proactively notify the Customer with: a) a brief explanation of the condition; b) how the Customer's service is affected; and c) the approximate timeframe for resolution. SoundThinking will also notify the Customer once any such condition is resolved.

Customer Responsibilities

The purpose of the Reviewed Alert service is to provide incident data to the Customer, reviewed, analyzed and classified in the manner described above. However, it is the sole responsibility of the Customer to interpret the data provided, and to determine any appropriate follow-up reaction or response, including whether or not to dispatch emergency responder resources based on a Reviewed Alert. SoundThinking does not assume any obligation, duty or responsibility for reaction, response, or dispatch decisions, which are solely and exclusively the responsibility of Customer, or for the consequences or outcomes of any decisions made or not made by the Customer in reliance, in whole or in part, on any services provided by SoundThinking.

Customer must inform SoundThinking when Verified Incidents of gunfire are missed by the ShotSpotter System in order to properly calculate Performance Rate, as defined below.

Customer is responsible for providing any required workstations, mobile devices and internet access for the Customer's dispatch center, patrol car MDTs, and officer smartphones, or Insight.

Support Level Matrix

Support Level	Tier 1 Support (IRC)	Tier 2 Support (Customer Support)
Features	• Login support • Report a misclassification • Report a missed incident • Report a mislocated incident • Basic audio request • General/application questions • Request for ILS	Normal Support: • Analysis of missed gunshots • Detailed audio search • Performance analysis • Integration issues Critical Support: • System outage
Hours of Operation	24x7x365	Normal Support: 5 am – 11 pm Pacific Time Zone Escalation: 24x7x365

Copyright © 2026 SoundThinking, Inc. – Confidential
All rights reserved under the copyright laws of the United States

ShotSpotter – Definition of Key Terms

The ShotSpotter System will provide data for correct detection and accurate location for ninety percent (90%) of detectable (outdoor, unsuppressed) community gunfire which occurs within a coverage area, the "Coverage Area", provided the measurement is Statistically Significant, as defined below. This performance rate shall be calculated as a percentage as follows:

$$Performance\ Rate = \frac{NumberAccuratelyLocated}{(NumberAccuratelyLocated + NumberNotDetected + NumberMislocated)}$$

where the "*Performance Rate*" is a number expressed as a percentage, "*NumberAccuratelyLocated*" is the number of "Gunfire Incidents" occurring within the Coverage Area during the specified period for which the ShotSpotter System produced an Accurate Location, *NumberMislocated* is the number of Verified Incidents (a "Verified Incident" is an incident where Customer has physical or other credible evidence that gunfire took place) for which the ShotSpotter System produced an inaccurate location (i.e., a Mislocated Incident), and *NumberNotDetected* is the number of Verified Incidents for which the ShotSpotter System failed to report a location at all (i.e., Missed Incidents).

An "Accurate Location" shall mean an incident located by the ShotSpotter System to a latitude/longitude coordinate that lies within a 25-meter radius of the confirmed shooter's location (25 meters = approximately 82 feet). "Detectable Gunfire" incidents are unsuppressed discharges of ballistic firearms which occur fully outdoors in free space (i.e. not in doorways, vestibules, windows, vehicles, etc.) using standard commercially available rounds of caliber greater than .25.

ShotSpotter Review Period is measured as the period commencing when the Incident Review Center (IRC) receives the alert and the first audio download to the time it is published to the customer.

ShotSpotter System performance is guaranteed after a "Statistically Significant" set of incidents has been detected in accordance with timeframes set forth herein, and commercial system acceptance, if applicable. The ShotSpotter System is designed to detect gunfire which is typically well distributed throughout the Coverage Area; however, performance should not be construed to mean that 90% of gunfire fired at any given location within the Coverage Area will be detected and located within the guaranteed accuracy.

The ShotSpotter System is not a "point protection" system and is therefore not designed to consistently detect gunfire at every single location within the Coverage Area, but rather to Accurately Locate 90% of the Detectable Incidents in aggregate throughout the entire Coverage Area. There may be certain locations within the Coverage Area where obstacles and ambient noise impede and/or overshadow the propagation of acoustic energy such that locating the origin at those positions is inconsistent or impossible. The Performance Rate calculation is thus specifically tied to the Community Gunfire across the entire Coverage Area.

Statistically Significant shall be defined as measurements and calculations which shall be performed as follows: (a) Across an entire Coverage Area; (b) Aggregating over a period of at least 30 days under weather conditions seasonally normal for the area; and (c) Provided that the total number of gunfire incidents being counted is equal to or greater than: (i) thirty (30) incidents for systems of up to three (3) square miles of Coverage Area, or (ii) ten (10) incidents multiplied by the number of square miles of Coverage Area for systems where one or more Coverage Areas are three (3) square miles or larger.

Executive Summary

Introduction

SoundThinking™ is pleased to present this proposal in response to the Santa Fe Police Department's request for a gunshot detection solution. We appreciate the time the Department has spent helping us understand your issues and goals. Based on our discussions, we understand that the Department seeks to address the following challenges:

- Inconsistent reporting of gun violence to the police, making it difficult for the Department to respond timely and expedite aid to victims
- Lack of tangible gun violence data to support efforts to increase staffing
- Difficulty finding evidence to support CGIC efforts

Law enforcement agencies come to SoundThinking when they need a solution to quickly and precisely detect gunfire, swiftly find gunshot victims, and support the communities most affected by gun violence. A component of our SafetySmart™ Platform, the proposed ShotSpotter® solution is designed to identify, locate, and track active gunfire, and will support the Department's efforts to more effectively respond to and investigate gunfire incidents.

The proposed ShotSpotter deployment can help the Department:

- Enable the Department to efficiently deploy resources and increase situational awareness
- Effectively identify, analyze, and respond to gun crime
- Increase casings collection programs (which in conjunction with NIBIN/IBIS, provide valuable investigative leads)
- Support and deploy community engagement efforts surrounding violence prevention and intervention
- Foster Safe School Initiatives by working with Santa Fe schools to identify vulnerable students who are subjected to persistent violence in their immediate neighborhood, and by assisting their families to obtain necessary trauma-informed resources
- Improve SFPD's outreach efforts and collaborate with SoundThinking Community Engagement Directors on best practices and additional programs which have been proven to reduce violence in other cities

The proposed ShotSpotter deployment aligns with and supports the Department's goals by:

- Supporting New Mexicans to Prevent Gun Violence (NMPGV) and providing the ability to track shootings by date, time, and location. This data can bolster NMPGV's outreach efforts to schools and other organizations, to be able to better identify vulnerable community members and victims in need of resources
- Improving Santa Fe's NIBIN program with improved evidence collection due to ShotSpotter's ability to locate where a shooting occurred. ShotSpotter's location accuracy can also increase case clearance rate, and often assist officers in uncovering illegal gun manufacturing operations through ShotSpotter notifications resulting from these guns being test-fired

Data-Driven Results

ShotSpotter has become an indispensable crime-fighting tool for many agencies. In light of the community dynamics that fuel gun violence and the well-documented challenges of relying solely on 9-1-1 calls for assistance, SoundThinking's ShotSpotter technology is critical in providing support to the community and addressing the following issues:

- **Under-reporting of persistent gunfire:** Nationwide, on average, less than 20% of gunfire incidents are reported to 9-1-1. Why don't residents call? The answer is complex, but typically involves the following concerns:
  - Recognition: "Was that gunfire, fireworks, or something else?"
  - Retaliation: "If they find out I called, will they come after me?"
  - Resignation: "No one came the last time I called…"

Without ShotSpotter, most law enforcement agencies are working with an 80% to 90% deficiency in their gun violence-related intelligence.

- **Late and inaccurate information:** When a citizen reports a gunfire incident, the 9-1-1 call typically comes several minutes after the event occurred, and based on analysis, the location provided is usually mislocated by 750 feet (on average). As a result, valuable time and resources are wasted trying to locate the incident, diminishing the opportunity to identify suspects and witnesses, recover evidence, and most importantly, render life-saving aid to victims.

The ability to receive near real-time gunfire intelligence data provides law enforcement agencies with a critical advantage in their efforts to address and prevent gun violence and improve officer safety. Specific results include:

- Officers can more quickly and accurately go directly to the scene of the shooting
- Situational awareness is vastly improved over what is available when relying solely on the 9-1-1 system
- Law enforcement has a better chance of arriving before the shooter has left the scene
- Officers are more likely to find evidence in the form of shell casings (which, in conjunction with NIBIN/IBIS, provide valuable investigative leads) and/or other ground truth that can aid in the investigation
- Officers are more likely to find witnesses who may have information that can aid in the investigation
- Community engagement is heightened, which often translates into more information from the community (e.g., tip lines, field interviews, etc.)
- Enhanced targeted enforcement (precision policing)
- More court-admissible and scientifically sound forensic evidence is available to strengthen prosecutions of the worst offenders

ShotSpotter Saves Lives

Independent research shows that more than 80 percent of gunfire incidents are never reported to 9-1-1, leaving many shooting victims undiscovered and delaying lifesaving medical care. ShotSpotter directly addresses this gap by automatically detecting and precisely locating gunfire incidents in real time, independent of citizen reporting. An independent audit of ShotSpotter's performance confirms that the system delivers gunfire alerts with approximately 97 percent accuracy and publishes verified alerts to law enforcement in under 60 seconds. This combination of speed and reliability enables officers and emergency medical services to:

- Reach victims faster: ShotSpotter quickly directs responders to shooting locations that might otherwise go unreported, reducing the time it takes to find injured victims during the critical minutes when uncontrolled bleeding can quickly become fatal
- Begin lifesaving interventions sooner: Faster arrival allows officers and EMS to initiate hemorrhage control and rapid transport earlier, minimizing tissue damage and preventing injuries from progressing to irreversible trauma
- Improve the likelihood of survival: By shortening the time between injury and definitive medical care, early detection and response significantly increase a victim's chances of surviving gunshot wounds and reduce the risk of long-term complications

By ensuring that shootings are detected, located, and acted upon quickly—even when no one calls for help—ShotSpotter materially improves emergency response outcomes, supports effective evidence collection, and reinforces community trust through visible, proactive public safety action.

ShotSpotter also provides invaluable data that can be analyzed to move law enforcement agencies from a reactive to a proactive position. Our gunshot detection solutions have historically helped law enforcement agencies:

- Effectively identify, analyze, and respond to gun crime
- Increase casings collection programs (which in conjunction with NIBIN/IBIS, provide valuable investigative leads)
- Build an extensive casings database to maximize data value:
  - Data can be analyzed in conjunction with ShotSpotter data to identify "hot addresses"
  - Results inform deployment of resources and targeted investigations
- Faster turnaround time for results with NIBIN program can lead to more cases being solved more quickly

ShotSpotter forensic evidence can be a powerful demonstrative tool for a prosecutor at trial. The audio of the gunfire played for the jury during trial and the precise timing and location of the gunfire plotted onto a Google Earth map can be compelling and tangible evidence against a defendant. ShotSpotter forensic evidence has been testified to by our expert witnesses in over 300 prosecutions in criminal courts throughout the United States.

Our goal is not to simply deliver technology, but rather to become a valuable partner. To that end, the SoundThinking Customer Success Team comprises former law enforcement executives who have first-hand experience in successfully deploying and using ShotSpotter. Our mission is your success: our Customer Success Team will work closely with the Department from the earliest stages of your deployment through the life of the subscription to ensure the Department has full access to our best practices and training components that drive successful outcomes.

Supporting Citizens in Santa Fe with Trauma Response and Community Engagement

Exposure to gunfire impacts people in many ways, including increased risks of physical pain, psychiatric disorders, and substance abuse. For these reasons, many cities are developing a public health approach to violence prevention. Precision data about where and when gun violence occurs can provide prompt interventions to people in need of services and support. With timely and accurate gunfire location data, community violence intervention groups and mental health professionals can more quickly aid youth and families in crisis to more effectively prevent future violence and other negative outcomes.

Community Partnerships: SoundThinking's Trauma Response and Community Engagement component focuses on strategies that assist law enforcement agencies identifying community-based violence prevention strategies and organizations that work to create safer, more just communities. This component encourages the creation, or strengthening, of relationships with violence prevention offices, schools, city and county public health departments, and other community organizations with which they can share their ShotSpotter gunfire data, analytics, heatmaps, and dashboards. These tools indicate where gunfire (and therefore potential trauma) is occurring so the appropriate community resources can deploy immediate and lasting support and help address the core issues that drive crime.

Proactive Community Engagement: ShotSpotter data can augment community outreach efforts to help the Department work more closely within the community to prevent crime from occurring, as well as enhance response and follow-through when incidents occur. Strategies to build relationships within the community include resource drives, PAL programs, and monthly community meetings.

Refocus on Geographic Policing: ShotSpotter InSight enables designated users to analyze detected shooting incidents, with details of hot spots and specific days/times incidents occur. The results can help agencies determine directed patrols for specific beats and sectors. For more information, see Directed Patrol versus Hotspot Analysis.

We appreciate your consideration of our proposal and are confident that ShotSpotter will help the Department detect gunfire, connect with vulnerable communities, and save lives. SoundThinking is committed to your success and we look forward to partnering with you to make ShotSpotter a key component of your efforts to address gun crime in the City of Santa Fe.

Company History

SoundThinking is a public safety technology company that combines transformative solutions and strategic advisory services for sound decisions, to make neighborhoods safer and improve community confidence. SoundThinking was founded in 1995 (as ShotSpotter, Inc.) and has been providing gunshot detection solutions since its inception. SoundThinking is the world leader in gunshot detection, with over 1,000 square miles operational; more than 14 million incidents reviewed; and 40 issued patents. SoundThinking is a publicly traded corporation (NASDAQ: SSTI) with approximately 315 full-time employees and is headquartered in Fremont, California.

SoundThinking's SafetySmart Platform

SafetySmart™ PLATFORM

The SafetySmart platform brings together specialized software and objective data to help law enforcement and civic leadership better protect their communities by ensuring the right resources are provided when and where they are needed most. As a trusted partner to many law enforcement agencies, SoundThinking has been both a firsthand witness and participant in the evolution of policing as it faces increasing challenges, such as staffing shortages, aging technologies, and exponential growth in data (as well as the need to access, analyze, and share data). In response to these challenges, SoundThinking has developed our SafetySmart platform that provides a range of tools beyond gunshot detection to help law enforcement agencies operate and collaborate more efficiently.

The SafetySmart platform brings the power of digital transformation to law enforcement. Together or separately, these data-driven solutions act as a force multiplier and help drive deeper community engagement by delivering better information, enabling better decisions, and driving better outcomes, for more efficient, effective, and equitable policing.

ShotSpotter Service Overview

How ShotSpotter Works

Based on an analysis of known gunfire-related crimes, the SoundThinking team designs and deploys networked sensors within the targeted coverage area. These acoustic arrays detect and locate gunshot activity within the coverage area and report that information to SoundThinking's Incident Review Center (IRC) which is staffed 24/7/365. ShotSpotter uses a two-factor incident review process to minimize false alerts. The first tier is performed by sophisticated AI software, to filter out any incidents that do not meet the minimum threshold for human review as potential gunfire incidents (e.g., helicopter noise, fireworks, etc.). The incidents that meet the minimum threshold for human review are then received at our IRC. The IRC review process is performed by a team of highly trained acoustic experts. In addition to examining the incident audio, SoundThinking's acoustic experts also examine the visual characteristics of the detected pulses and the incident, such as the number of participating sensors, the wave form, pulse alignment, and the direction of sound. The IRC review results in either publishing (Gunshot or Probable Gunshot) or dismissal (Non-Gunshot) of the incident with a high level of precision.

If the reviewer classifies the incident as a gunshot, the reviewer sends an alert, including location information and an audio snippet, to law enforcement agencies via a password-protected application on a mobile phone, in-car laptop, or computer. In addition to the dot-on-the-map and audio, ShotSpotter provides details such as number of shots fired, whether multiple shooters were involved, and whether high-capacity and/or fully automatic weapons were used. SoundThinking designed this entire process (i.e., recording the impulsive sound, two-factor review, and publishing alerts to authorized users) to be completed in less than 60 seconds (but is often completed within 25 to 30 seconds).

ShotSpotter customers receive a contextually rich, detailed gunfire alert that enables a fast, precise, and safer response to gunfire incidents. In addition, ShotSpotter alerts can also trigger other technology platforms such as cameras that can pan and zoom in the direction of an event. SoundThinking has successfully interfaced ShotSpotter with a wide range of third-party applications such as CAD, RMS, License Plate Readers, drones, and other applications.

ShotSpotter helps law enforcement agencies by directing resources to the precise location of more than 90% of gunfire incidents. ShotSpotter rapidly notifies first responders of shootings via dispatch centers, in-vehicle computers, and smart phones. Instant alerts enable first responders to aid victims, collect evidence, and identify witnesses. ShotSpotter's actionable intelligence can then be used to prevent future crimes by positioning law enforcement when and where crime is likely to occur. ShotSpotter gunshot detection and location services are delivered as an easily implemented Software as a Service (SaaS) solution, with no requirement for customer investment in or maintenance of expensive hardware or software. SoundThinking hosts, secures, monitors, and maintains the ShotSpotter infrastructure. Contracts are based on an affordable one-year or multi-year subscription agreement, and the subscription includes unlimited licenses for the proposed SoundThinking applications.

ShotSpotter Application

The ShotSpotter application is used by Call Takers, Dispatchers, and Patrol Officers in the field. Real-time notifications of gunfire incidents are delivered to this app and includes the following data:

- Incident location (dot on the map, per the incident latitude and longitude)
- Type of gunfire (single round, multiple round)
- Unique identification number
- Date and time of the muzzle blast (trigger time)
- Nearest address of the gunfire location [1]
- Number of shots
- District identification
- Beat identification

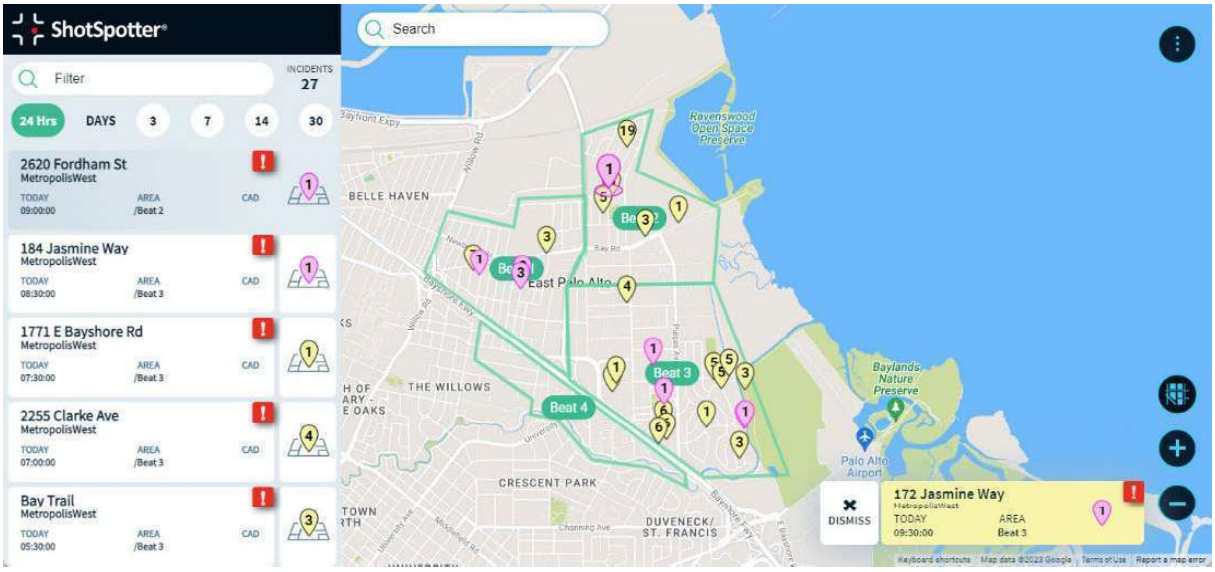

Figure 1. ShotSpotter App in Dispatch View

A SoundThinking analyst may add other contextual information such as the possibility of multiple shooters, high-capacity weapons, full-automatic weapons, and the shooter's location related to a building (front yard, back yard, street, etc.). The report also includes an audit trail of the time the alert was published, acknowledged, and closed at the customer facility. All notes entered by Call Takers and Dispatchers added to the alert are time- and date-stamped with the operator's ID. For Patrol Officers, the alert includes an audio snippet of the incident.

[1] Based on the reverse geo-verification of the incident latitude and longitude, using commercially available GIS sources such as Google or customer-provided GIS data.

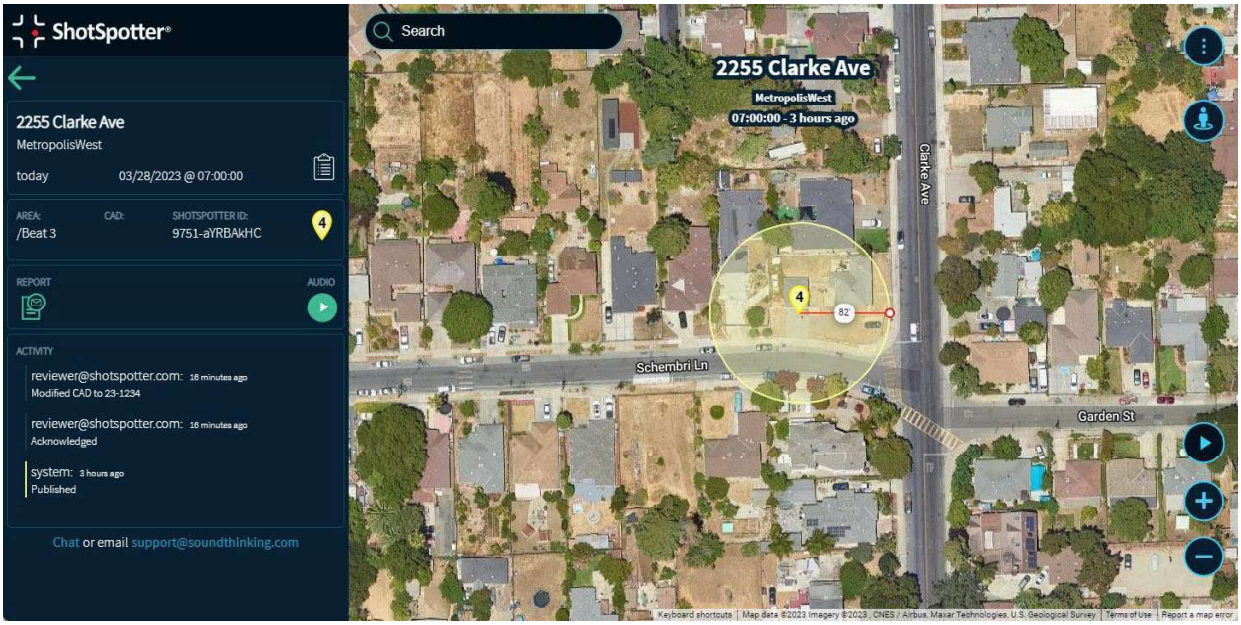

Figure 2. ShotSpotter App in Respond View

InSight™

InSight™ enables customers to explore details about prior gunshot incidents in their ShotSpotter coverage area and use the data for investigation and analysis. Crime analysts, investigators, and command staff can view, filter, sort, report, and transform historical gunshot data into meaningful insights, ultimately informing strategies for reducing gun violence.

InSight enables users to find and identify the incidents using an extensive array of filters for date, time, location, keywords, single vs. multiple gunshots, patrol areas, as well as shapes drawn on the map. The shape filters narrow a search for shooting incidents within a radius of a known address, across several blocks, or look for and monitor activity on both sides of a jurisdictional border. Saved reports retain common filter settings for quick retrieval (e.g., “District 4 Gunfire – Last 28 days”).

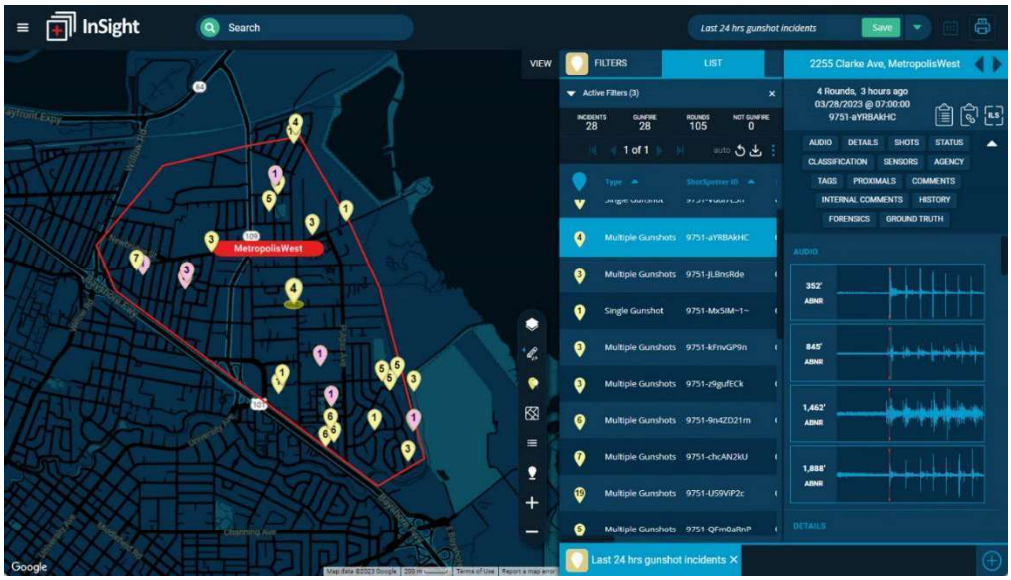

Figure 3. InSight App

InSight shows how a shooting event unfolded by watching a shot-by-shot animation that details the location and sequence of each shot. The software also highlights other nearby incidents that may be potentially related based on its relative distance and time of occurrence.

InSight comes with a set of reports that make it easy to share incident data throughout an agency:

- The Investigative Lead Summary report give details of a shooting incident including audio, location, sequence, and timing of each shot fired. This report is often used to share incident audio and details with colleagues, aid investigators with collecting evidence at the scene of a shooting and conducting better interviews of witnesses, suspects, and victims, or attach to a case file.
- The Multi-Incident report provides a summary of shooting incidents broken out by single, multiple, and probable gunshot incidents as well as any non-gunfire incidents if they were included in the search. The summary is followed by details for each incident including the date, time, location, number of rounds, CAD ID, ShotSpotter ID, and other details.

For customized, ad hoc reporting and analysis, InSight can export incident data to other off-the-shelf products such as Microsoft Excel, Tableau, Google Earth, ArcGIS, and other tools.

ShotCast

ShotCast provides a video summary report of shooting incidents detected by ShotSpotter that can be shared on the internet, social media, broadcast news, and other media outlets. SoundThinking created ShotCast to help Public Information Officers (PIOs) expedite and simplify the process of informing the public of gunfire incidents in their neighborhoods. ShotCast can improve media coverage of gun violence, and, when incorporated into a broader communication strategy, can help educate the public, increase transparency and awareness about the impact of gun violence, and promote community engagement in public safety.

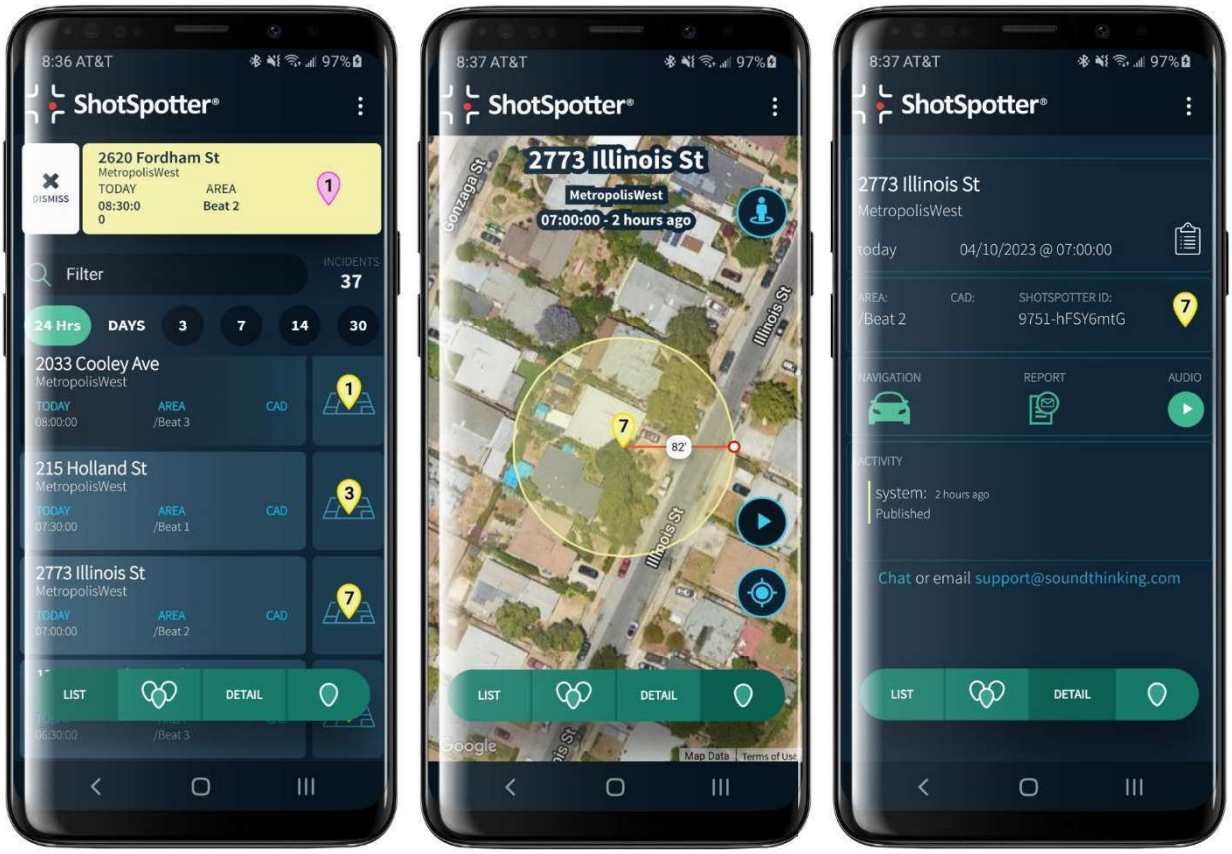
Figure 4. ShotCast Video

ShotCast video summaries include the actual gunfire audio and key details of the incident (location, time, and more) presented in a high-quality video format that PIOs can incorporate into various types of news coverage.

Mobile Alerts

The ShotSpotter smartphone application delivers real-time gunfire alert data to smart phones and smart watches, available for use on iPhones and Android platforms. The ShotSpotter app displays the gunfire location as a dot-on-a-map and the data also includes the number of rounds fired and access to the incident audio.

Figure 5. Smartwatch Notification



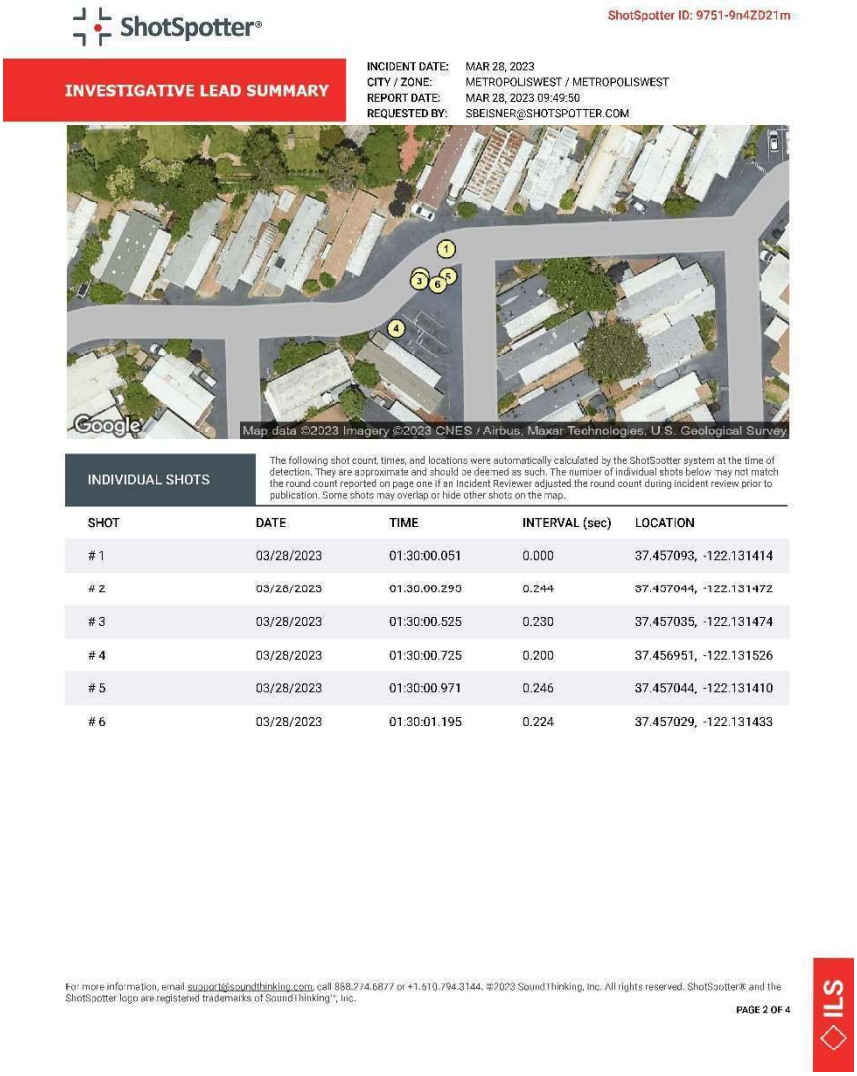


Figure 6. ShotSpotter Smartphone App

Investigative Lead Summary

The ShotSpotter Investigative Lead Summary (ILS) is an on-demand report that provides useful details about the location, timing, and sequence of each shot fired during an incident. The ILS is very valuable on scene, helping law enforcement find shell casings, confirm witness accounts, and identify suspects. ILS reports are available immediately after an incident occurs through a single click of a button within the mobile, web, or desktop ShotSpotter and InSight applications.

The ILS will fulfill the majority of law enforcement agency needs, particularly in situations where a report is not intended for presentation to court (since the ILS report is electronically produced, it is not court admissible).

ShotSpotter®

ShotSpotter ID: 9751-9n4ZD21m

INVESTIGATIVE LEAD SUMMARY

INCIDENT DATE: MAR 28, 2023
CITY / ZONE: METROPOLISWEST / METROPOLISWEST
REPORT DATE: MAR 28, 2023 09:49:50
REQUESTED BY: SBEISNER@SHOTSPOTTER.COM

INDIVIDUAL SHOTS

The following shot count, times, and locations were automatically calculated by the ShotSpotter system at the time of detection. They are approximate and should be deemed as such. The number of individual shots below may not match the round count reported on page one if an Incident Reviewer adjusted the round count during incident review prior to publication. Some shots may overlap or hide other shots on the map.

SHOT	DATE	TIME	INTERVAL (sec)	LOCATION
# 1	03/28/2023	01:30:00.051	0.000	37.457093, -122.131414
# 2	03/28/2023	01:30:00.295	0.244	37.457044, -122.131472
# 3	03/28/2023	01:30:00.525	0.230	37.457035, -122.131474
# 4	03/28/2023	01:30:00.725	0.200	37.456951, -122.131526
# 5	03/28/2023	01:30:00.971	0.246	37.457044, -122.131410
# 6	03/28/2023	01:30:01.195	0.224	37.457029, -122.131433

ILS

Figure 7. ShotSpotter Investigative Lead Summary (ILS)

Detailed Forensic Reports and Expert Witness Testimony

SoundThinking's Detailed Forensic Reports (DFR) and Expert Witness Testimony can provide unique trial evidence including audio recordings of shooting incidents. In nearly all the criminal proceedings in which our experts have been called to testify, SoundThinking has produced detailed, round-by-round analysis of the timing and location of the shots fired by one or more weapons. To the best of our knowledge, no other acoustic-based gunshot detection system has been accepted in a court of law as providing this kind of forensic evidence.

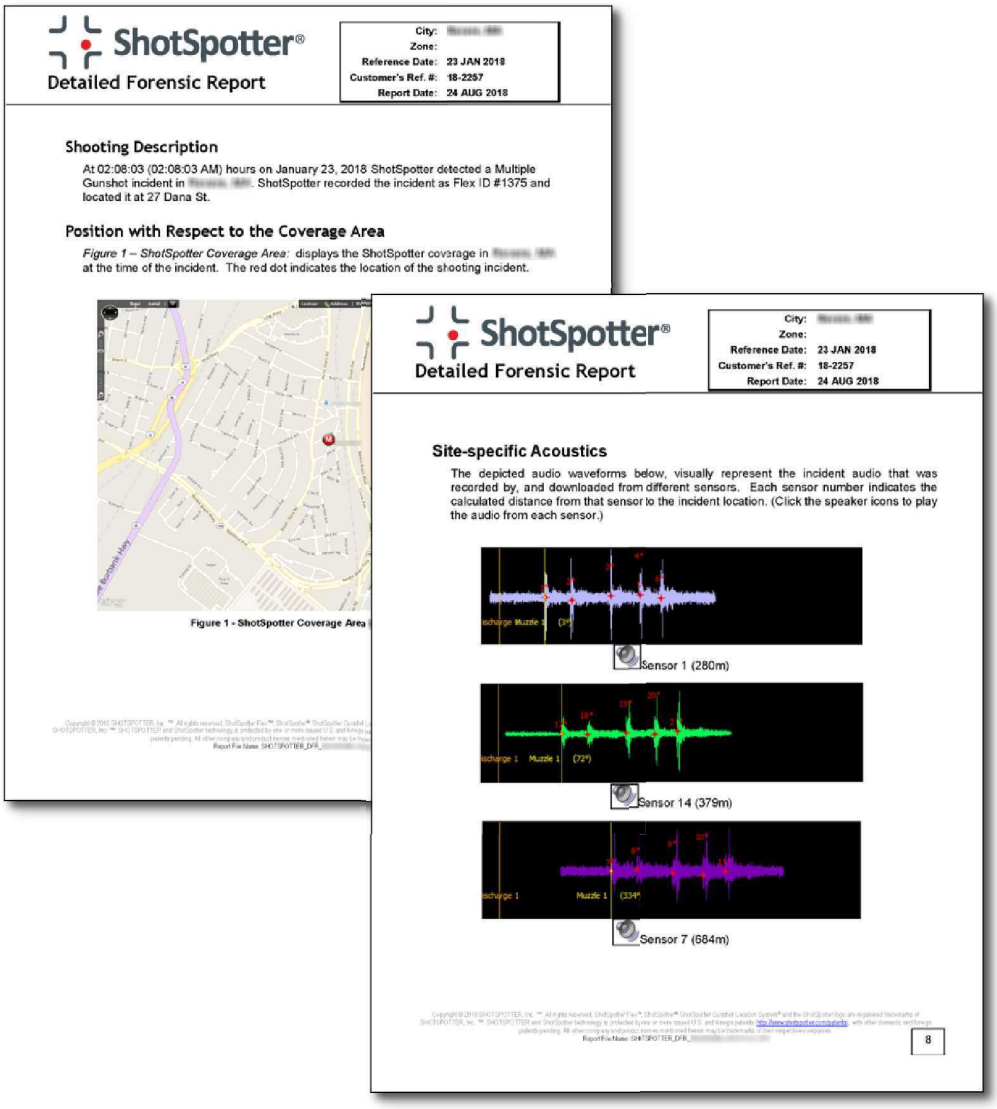

Figure 8. ShotSpotter Detailed Forensic Report (DFR)

ShotSpotter data can be foundational to arrests for firearm offenses and:

- Help identify suspects
- Assist in establishing the precise timeline of shootings and help explain crime scenes
- Provide evidence of premeditation or affect claims of self-defense
- Corroborate other evidence from the crime scene
- Provide crucial information in officer-involved shooting investigations

SoundThinking data supports detailed forensic analysis of gunfire incidents, including:

- Weapon type (e.g., automatic vs. semi-automatic)
- Number of rounds fired
- Possibility of multiple shooters

Unlike the ILS, which is intended primarily for investigative uses, the DFR is intended for use as evidence in a court and is backed by an expert witness. The DFR is intended to be used by attorneys as part of a court case for the exact, verified timing, sequence, and location of each shot fired. Secondarily, DFRs are available for use by law enforcement to obtain search warrants or to investigate Officer Involved Shootings. DFRs are available upon written request, and our goal is to deliver all DFRs within ten business days of the request.

To support prosecutions, audio snippets provide powerful demonstrative evidence to prosecutors and allow jurors to gain a deeper understanding of the victims' experience of the incident. For prosecutors who wish to have a SoundThinking expert witness testify regarding a DFR, to help interpret and clarify crime scene activity derived from ShotSpotter data, or provide other forensic consultation services, these services are available for an hourly fee.

In 25 states and in the District of Columbia, SoundThinking evidence and SoundThinking expert witness testimony have been successfully admitted in over 300 court cases. ShotSpotter forensic evidence has prevailed in 25 Frye and Daubert challenges throughout the United States.

Notifications API

The Notifications API allows client applications to receive accurate, timely details about ShotSpotter gunfire alerts, including precise latitude and longitude (geolocation), GPS-synchronized timestamps, incident audio, and situational context provided by the 24/7/365 Incident Review Center. Typical interfaces include:

- Video Management Systems (VMS)
- Computer-Aided Dispatch (CAD) systems
- Records Management Systems (RMS)
- Automated License Plate Readers (ALPRs)
- Crime analysis and statistics packages (including COMPSTAT software)

Each Notifications API license pack is available for an annual subscription fee that includes:

- Up to three (3) interfaces
- Establishing an instance of the API for the Department on SoundThinking-hosted servers
- Consulting with the Department and third parties to ensure the API operates according to the API specifications
- 24/7 alerts to up to three third-party interfaces
- Supporting the third party and Department as systems are upgraded

Additional API licenses can be purchased in packs of three interfaces.

Onboarding Services

Concurrent with the sensor design and deployment activities, SoundThinking will provide a series of onboarding services to prepare the Department to maximize the value of the ShotSpotter service. These standard onboarding steps will be refined to best serve the Department team and ShotSpotter users. SoundThinking onboarding services are designed to:

- Ensure successful ShotSpotter service activation (go-live)
- Ensure full use of the features and functions available with the ShotSpotter service
- Ensure that the Department's Best Practices are refined, as needed, to respond most effectively to the gun crime intelligence data being delivered for the coverage area
- Track and monitor the efficacy of the ShotSpotter service

SoundThinking has assembled a Customer Success Team of professionals with more than 400 years of combined law enforcement experience. The mission of this team of Consultants, Trainers, and Analysts is to maximize customer success with the ShotSpotter service. This team is available to our customers both pre- and post-production to advise, train, and guide them on the most effective use of the tools and services available with the ShotSpotter solution. The following provides a high-level overview of SoundThinking's standard Customer Onboarding Services, which will be tailored to support the Department.

Getting Started

Prior to contract execution, a SoundThinking Customer Success Director will work with the Department's project team to plan the onboarding process, beginning with an onsite Customer Kick-Off Meeting with all stakeholders. The teams will review the program objectives, lay out the key implementation steps, agree on a targeted activation date (go-live), and establish a protocol for ongoing communication throughout the onboarding process. SoundThinking will schedule biweekly status calls with the Department's Program Manager and other project leaders to maintain regular communication throughout the implementation process.

Best Practices

Early in the Customer Onboarding Process, SoundThinking's Customer Success team, led by the assigned Customer Success Director, will work with the Department's Program Manager and other project leaders to schedule and conduct a series of Best Practices sessions. These sessions will assist the Department in establishing response protocols and procedures to manage the gunshot alerts and gun crime intelligence data that will be provided upon activation of the ShotSpotter service. SoundThinking will customize and conduct these sessions for each of the following groups of users involved in the gun violence reduction program in the targeted coverage area:

- Program Management
- Dispatch/Communications
- Field Operations/Patrol
- Investigations
- Prosecution
- Intelligence & Crime Analysis

User Training

SoundThinking will assign a Customer Success Director to the Department to ensure that we deliver consistent, quality best practices training based on the Department's needs to maximize the value of our service. The Customer Success Director will remain engaged with the Department for the duration of our relationship. In preparation for the planned cutovers, SoundThinking will assign a Trainer to the Department to train each group of users on the SoundThinking applications, including ShotSpotter, Dispatch, Administrative Portal, and InSight. The Trainer will conduct a Training Orientation with the Department's Program Manager to ensure all users are properly trained on the relevant applications. SoundThinking's Trainer will work with the Department to tailor a training program that addresses the unique needs and/or scheduling constraints of the Department users. The training will be performed through a combination of remote instructor-led live training, train-the-trainer, and on-line recorded computer-based training.

This proposal includes training for coverage areas of up to two square miles. If the Department's training requirements exceed those included with the Medium Jurisdiction offering, this training can be provided for an additional fee.

Agency Metrics/KPIs (Key Performance Indicators)

Customer Success team members, led by the assigned Customer Success Director, will work with the Department's Program Manager and Command staff to review, define, and adopt a set of agency metrics, or Key Performance Indicators (KPIs), to establish and monitor the efficacy of the ShotSpotter service and related agency Best Practices. It is important to ensure that the agency and all stakeholders have visibility (and routines in place) to track the program metrics or KPIs needed to monitor the status of the program and to make informed decisions regarding resources, response protocols, and the best practices to drive success.

Onsite Support During Service Activation (Go-Live)

On the day of ShotSpotter service activation to a live production status, the Customer Success Director will be on site to ensure that the transition is smooth, that the established best practices are being implemented as planned, and that user questions are answered quickly. Prior to cutover, SoundThinking's team will facilitate an introduction to the SoundThinking Support organization to review the support process and introduce the designated Technical Support Engineer to the Department. Following service activation, the designated Technical Support Engineer will facilitate a series of Status Calls with the Department to review the performance of the service. The Customer Success Director will continue to work with the Department to review and results being achieved by each group of users involved in the gun violence reduction program.

Ongoing Customer Support

Customers can use the monthly scorecard in the InSight app to communicate details on system performance and our service, including the number of Gunshot Alerts, Misses, Mislocated Incidents, Misclassified Incidents, and other useful metrics. A designated SoundThinking Technical Support Engineer reviews service requests and reported issues monthly and is available to discuss and address any concerns.

SoundThinking standard customer support includes 24/7 assistance with user accounts, software interface, tools, features, incident (re)classification, and review. Tier 1 Support is provided by our Incident Review Center (IRC). IRC staff have extensive experience with SoundThinking applications and provide real-time support of basic issues, and first level of support for information gathering and triage for advanced troubleshooting by Tier 2 Support. The Tier 2 Support Team comprises technically advanced, experienced Customer Support professionals who are responsible for advanced levels of troubleshooting and analysis, IT support, mapping issues, etc.

Support Level	Tier 1 Support (IRC)	Tier 2 Support (Customer Support)
Features	• Login support • Report a misclassification • Report a missed incident • Report a mislocated incident • Basic audio request • General/application questions • Request for ILS	Normal Support: • Analysis of missed gunshots • Detailed audio search • Performance analysis • Interface issues Critical Support: • System outage
Hours of Operation	24/7/365	Normal Support: 5:00 am – 11:00 pm Pacific Time Zone Escalation: 24/7/365

Crime Analyst Training

SoundThinking Crime Analysts train the Department's analyst team to perform ongoing gunshot activity analysis. They also conduct best practice workshops to ensure your analysts can capture required data needed to perform analysis needed to inform resource and strategic planning. SoundThinking Crime Analysts work with the Customer Success Director and Department analysts to prepare the annual ShotSpotter Value Report. This report illustrates the impact your program is having by providing a comparison of calls for service vs. ShotSpotter alerts, as well as hotspot and time/day analysis.

Monthly Check-ins

The Department's Customer Success Director monitors adoption to ensure your agency is using ShotSpotter as expected. The Department's Program Managers are encouraged to reach out to the Customer Success Director with any questions regarding best practices or process integration.

Annual Account Reviews

Once a year, the Customer Success Director works with the Department's command staff and program managers to plan for and lead an annual account review. Together, we will conduct a comprehensive retrospective by discussing the Value Report, ShotSpotter application usage,

best practice adoption, system performance, and goal alignment. We conclude by understanding the Department's 12-month agency priorities and goals so we can update our ongoing plan accordingly.

Customer References

SoundThinking has more than 160 ShotSpotter customers covering over 1,000 square miles. SoundThinking is the leader in the development and deployment of wide area acoustic gunshot detection and location systems. Today, SoundThinking provides gunshot detection and location services to law enforcement agencies across the country. Among these are:

- San Francisco, CA
- Pueblo, CO
- Denver, CO
- Albuquerque, NM
- Las Vegas, NV
- Antioch, CA
- Sacramento, CA
- East Palo Alto, CA
- Bakersfield, CA

More information on ShotSpotter's results can be found here:
Albuquerque, NM: 179 Gunshot Victims Found with ShotSpotter
Bakersfield, CA: 50 Arrests and 37 Guns Seized in First Year with ShotSpotter
Denver, CO: 1,848 Shell Casings and 337 Arrests
ShotSpotter alert speeds response time to ensure proper medical aid for victims

Proposed Coverage Areas

ShotSpotter is deployed to provide coverage for one or more specified areas, each bounded by a specific coverage area perimeter. SoundThinking has designed the coverage areas based upon analysis of historical crime data. The areas delineated by a blue boundary in the image below are rough estimates of the proposed coverage areas based on analysis of the Department-provided crime data as described below; please note, the final coverage area may vary. SoundThinking will collaborate with Department stakeholders to determine the final coverage boundaries and any resulting adjustments to the proposal to address the Department's needs and priorities.

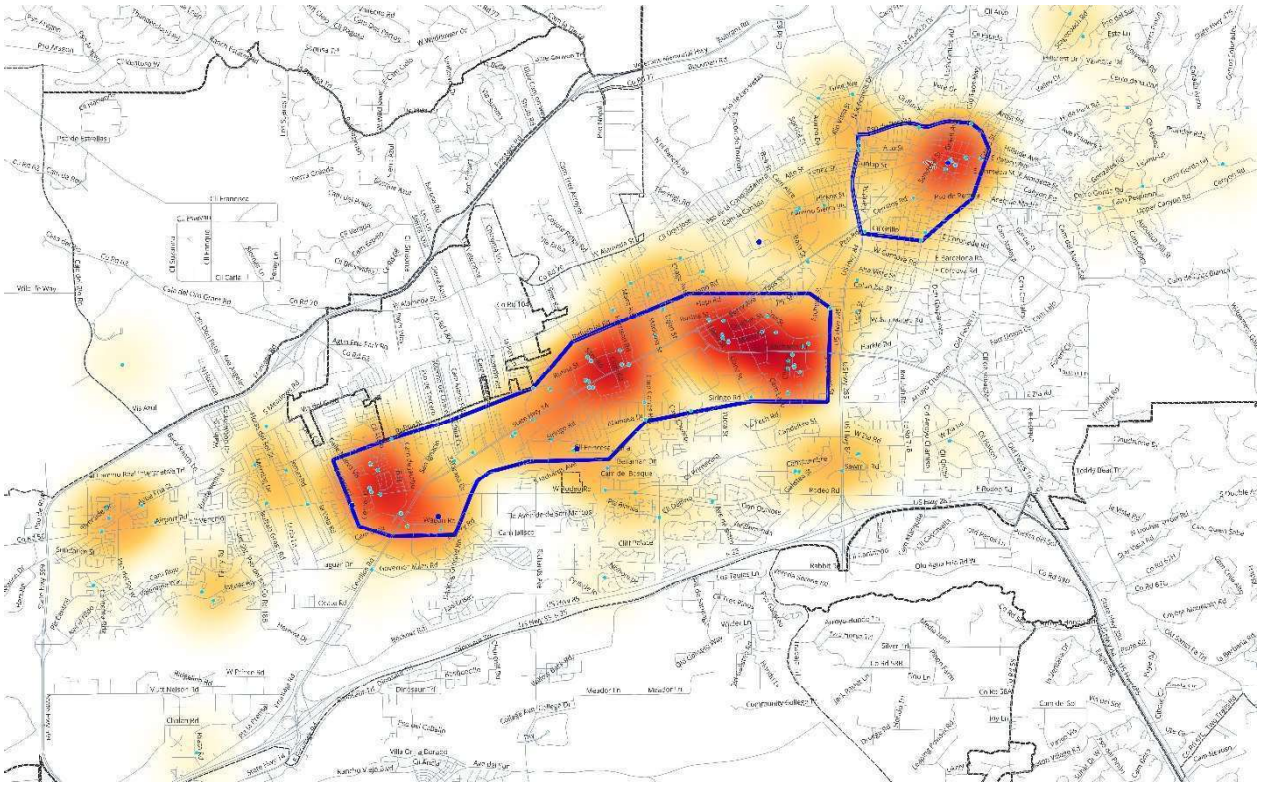

Figure 9. Proposed ShotSpotter Coverage Areas = 5.0 square miles

Using the data provided by the Department for June 21, 2023 through January 4, 2026, the map above depicts the preliminary coverage boundaries. The heat map in Figure 9: Proposed ShotSpotter Coverage Areas depicts the following within the 5.0 square mile coverage areas (outlined in blue):

Icon	Crime Type Definition	Quantity	Percentage of Totals
	Homicide	1	100%
	Assault with Shots Fired	4	80%
	All other Shots Fired	79	62.7%
Heat Map	All Shots Fired Events	84	63.6%

Pricing

ShotSpotter is deployed to provide coverage for a specified area. SoundThinking offers our Medium Jurisdiction pricing to smaller communities. This pricing includes a one-time Service Initiation and Onboarding fee, as well as a reduced subscription fee for coverage areas of up to two square miles. Additional coverage beyond that is offered at the SoundThinking's standard rates and additional training can be provided for an additional fee, if required.

5.0 mi² Total Coverage: One-Year Term

Description	Total
2.0 mi² ShotSpotter Annual Subscription Fee: Medium Jurisdiction[1]	$119,000
3.0 mi² ShotSpotter Annual Subscription Fee: Standard[1]	$225,000
1.0 mi² ShotSpotter Annual Subscription Fee: Waiver on 5th square mile[2]	($16,790)
Notifications API Annual Subscription Fee	$9,500
Notifications API Annual Subscription Fee Waiver	($9,500)
Annual Fee Subtotal	**$327,210**
2.0 mi² One-Time Service Initiation and Onboarding Fee: Medium Jurisdiction	Included
3.0 mi² One-Time Service Initiation Fee: Standard	$30,000
3.0 mi² One-Time Service Initiation Fee: Standard Waiver	($30,000)
One-Time Fee Subtotal	**$0**
Subtotal	**$327,210**
Tax (8.1875%)	**$26,790**
Grand Total	**$354,000**

[1]The ShotSpotter current annual subscription fee for cities the size of Santa Fe is $59,500 per square mile. Please note, this rate is available for coverage areas up to a total of two (2) square miles. Any coverage beyond two (2) square miles will be at SoundThinking's standard annual subscription rate of $75,000 per square mile, plus a one-time Service Initiation Fee of $10,000 per square mile.

[2]The 5th square mile pricing at $58,210 is only valid through this 12-month contract. Upon renewal, the fee will revert to the standard annual subscription rate of $75,000

Forensic Consultation Services

Forensic Consultation Service Fee (Expert Witness Services)	$350/hour

Expert Witness Testimony Services are available upon request and billed separately at the above rate.

Payment Terms

Payment for the subscription shall be as follows:

One-Year Payment Terms	
• 50% of fees due upon execution of agreement	$177,000
• 50% of fees due upon ShotSpotter service activation (live) status	$177,000

General Pricing Assumptions

This pricing is based on the following assumptions:

- Services will be delivered under the terms of the SoundThinking Master Services Agreement and its Exhibits and Addenda, to which this Proposal will be attached as Exhibit A.
- This pricing does not include any state or local taxes; if taxes are applicable, we will be happy to provide an amended quote upon request.
- This proposal and all pricing contained herein remains valid for ninety (90) days from the date of this proposal.

ShotSpotter Pricing Assumptions

- The Notifications API License is a recurring annual subscription fee which includes up to three interfaces. Fee does not include costs required from other vendors to implement or support the planned interfaces.
- The Department will provision network access to meet SoundThinking minimum specifications and requirements for all computers (PCs and MDCs) that will access the ShotSpotter service.

Docusign Envelope ID: 5BB713CB-4B8D-4686-8AD8-5D30539B9160

MASTER AGREEMENT #030425
CATEGORY: Public Safety Software
SUPPLIER: SoundThinking, Inc.

This Master Agreement (Agreement) is between Sourcewell, a Minnesota service cooperative located at 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and SoundThinking, Inc., 39300 Civic Center Drive, Suite 300, Fremont, CA 94538 (Supplier).

Sourcewell is a local government and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) offering a Cooperative Purchasing Program to eligible participating government entities.

Under this Master Agreement entered with Sourcewell, Supplier will provide Included Solutions to Participating Entities through Sourcewell's Cooperative Purchasing Program.

Article 1:
General Terms

The General Terms in this Article 1 control the operation of this Master Agreement between Sourcewell and Supplier and apply to all transactions entered by Supplier and Participating Entities. Subsequent Articles to this Master Agreement control the rights and obligations directly between Sourcewell and Supplier (Article 2), and between Supplier and Participating Entity (Article 3), respectively. These Article 1 General Terms control over any conflicting terms. Where this Master Agreement is silent on any subject, Participating Entity and Supplier retain the ability to negotiate mutually acceptable terms.

1) **Purpose.** Pursuant to Minnesota law, the Sourcewell Board of Directors has authorized a Cooperative Purchasing Program designed to provide Participating Entities with access to competitively awarded cooperative purchasing agreements. To facilitate the Program, Sourcewell has awarded Supplier this cooperative purchasing Master Agreement following a competitive procurement process intended to meet compliance standards in accordance with Minnesota law and the requirements contained herein.

2) **Intent.** The intent of this Master Agreement is to define the roles of Sourcewell, Supplier, and Participating Entity as it relates to Sourcewell's Cooperative Purchasing Program.

3) **Participating Entity Access.** Sourcewell's Cooperative Purchasing Program Master Agreements are available to eligible public agencies (Participating Entities). A Participating Entity's authority to access Sourcewell's Cooperative Purchasing Program is determined through the laws of its respective jurisdiction.

4) **Supplier Access.** The Included Solutions offered under this Agreement may be made available to any Participating Entity. Supplier understands that a Participating Entity's use of this Agreement is at the Participating Entity's sole convenience. Supplier will educate its sales and service forces about

Docusign Envelope ID: 5BB713CB-4B8D-4686-8AD8-5D30539B9160

Sourcewell eligibility requirements and required documentation. Supplier will be responsible for ensuring sales are with Participating Entities.

5) **Term.** This Agreement is effective upon the date of the final signature below. The term of this Agreement is four (4) years from the effective date. The Agreement expires at 11:59 P.M. Central Time on July 17, 2029, unless it is cancelled or extended as defined in this Agreement.

   a) **Extensions.** Sourcewell and Supplier may agree to up to three (3) additional one-year extensions beyond the original four-year term. The total possible length of this Agreement will be seven (7) years from the effective date.

   b) **Exceptional Circumstances.** Sourcewell retains the right to consider additional extensions as required under exceptional circumstances.

6) **Survival of Terms.** Notwithstanding the termination of this Agreement, the obligations of this Agreement will continue through the performance period of any transaction entered between Supplier and any Participating Entity before the termination date.

7) **Scope.** Supplier is awarded a Master Agreement to provide the solutions identified in Solicitation #030425, Category 3. Comprehensive Solutions, to Participating Entities. In-scope solutions include:

   a) Category 1. Public Safety Response – Agency Situational Awareness, including but not limited to:
      i) Incident command and management (incident tracking response and reporting, weather/traffic/construction considerations, unit assignments and staffing, training activities, etc.);
      ii) Mapping (vertical location, indoor, outdoor);
      iii) Asset tracking and location (personnel, vehicles, controlled substances, equipment, etc.);
      iv) Community notifications (evacuations, minor crime reporting, shelter in place, etc.);
      v) One-to-one and one-to-many collaboration and coordination (SMS, push to talk, video, voice, etc.); and
      vi) Public safety focused data and analysis applications, to include but not limited to video, image, and pattern analysis, acoustic firearms discharge identification, incident response, investigative lead development, predictive analysis, and other data source integration.

   b) Category 2. Public Safety Response – Agency Operations, including but not limited to:
      i) Pre-incident planning software, such as:
         (1) Fire prevention related inspections and enforcement;
         (2) Operational management (scheduling, training, compliance, etc.); and
         (3) Data analytics to inform staffing, deployment, station location, budget, and other management decisions.
      ii) Incident/post-incident software, such as:
         (1) CAD, RMS for law enforcement, fire, and EMS;
         (2) Electronic Patient Care Reporting (ePCR) and data transfer to hospitals;
         (3) Digital and physical evidence management;
         (4) E-citation systems; and
         (5) Law enforcement case management

   c) Category 3. Comprehensive Solutions

To: RICO, TARA R.; Purchasing DET
Subject: RE: Determination- Web based Subscription > $10k (gun shot detection)

Greetings,
Based on the provided scope of work, it has been classified as General Services. This determination is solely focused on that classification and does not address whether the scope of work or procurement method complies with all relevant legal requirements. I reserve the right to modify this determination should the scope of work differ from what was originally submitted. The procurement must follow the processes and procedures established by the City of Santa Fe, Central Purchasing, the Procurement Manual, and applicable state statutes.
Please note:

- Save this email as a PDF and upload it into the corresponding packet and Munis records.
- Check with WorkQuest dba Horizons of New Mexico (vendor # 8673) (mloehman@horizonsofnewmexico.org) ***if*** this service appears on their approved list.
- If your request includes anything that needs to be reviewed and preapproved by another City Department/Division, please send the same SOW to the corresponding email address and include their response in your packet/Munis.
- If your request includes anything that needs to be reviewed and preapproved by another City Department/Division, please send the same SOW to the corresponding email address and include their response in your packet/Munis.
    - Treasury (Point of Sale Systems) – questions: drsena@santafenm.gov; clromero@santafenm.gov. Request signature from: clromero@santafenm.gov
    - IT components (everything IT) – questions: ereview@santafenm.gov. Request signature from: edcandelaria@santafenm.gov;
      Copy: zxdushdurova@santafenm.gov; lenobes@santafenm.gov; lfworstell@santafenm.gov
    - Vehicles – questions: fleet@santafenm.gov. Request signature from: dmjaramillo@santafenm.gov
    - Grants – questions: grants@santafenm.gov. Request signature from: evlujan@santafenm.gov
    - Construction, Facilities, Furniture, Fixtures, Equipment, etc. – questions: fmdreview@santafenm.gov. Request signature from: jsburnett@santafenm.gov
    - Emergency Related Purchases – questions oem@santafenm.govand. Request signature from: klmorgan@santafenm.gov
    - Asset over $5k – questions: accountspayable@santafenm.gov. Request signature from: jxbolden@santafenm.gov
- Ensure that the current and appropriate templates and forms are used, they can be found on the intranet https://intranet.santafenm.gov/finance_1 and OpenGov

https://procurement.opengov.com/governments/1784201/projects and documented procedures/laws/rules are followed.

- > $20k per year, when processing this procurement, please ensure the procurement number issued by Munis and the procurement name are used in the appropriate documents and the subject of emails.

- If you are processing a procurement where the forecasted amount is =/> $60k, per NMSA 1978, Section 13-1-102, the procurement method must be ITB (if you choose not to use a cooperative or an existing contract). If you feel you need to process an RFP, you must get an Authorization and Plan approved before you process.
- < $20k per year, one quote is acceptable.
- From $20k to $60k per year, if you aren't using a cooperative or existing contract, you must provide 3 quotes in your req. Must use the Munis Bid Module, OpenGov, or Pavilion.
- **Identify your funding source and notify Purchasing.**
  It's essential to determine the funding source early, as it impacts the required documentation and contract language. For example, if federal funds are being used, specific federal provisions must be included in both the procurement request and the resulting contract. Notifying Purchasing of the funding source upfront ensures compliance and avoids delays.
- Follow the link below to review existing price agreements, contracts, or cooperative agreements that might be applicable to this request. You might be able to use an existing price agreement/contract to save time and money.
- Pavilion: Free Cooperative Contract Search for Governments (please work with Purchasing if you think you found an existing or cooperative contract that might work)
- Submit via **Submit Purchase Requests** or the appropriate email address:
- Determination requests to purchasing_det@santafenm.gov
- All other requests to purchasing@santafenm.gov

Thank you for submitting this scope of work for my review.

Book time to meet with me

Subject: DOH Community Violence Grant Amendment

ITEM AND ISSUE:

Request for Approval of Amendment No. 1 to Item # 25-0176 Intergovernmental Agreement No. 25-665-2011-00001-00 with the State of New Mexico Department of Health to Increase the Total Amount to $1,278,387.10 for a Coordinated Community Response to Community Violence to Include but not Limited to Youth Violence and Gun Violence. (Sandra Emory, Youth and Family Services Program Manager; sxemory@santafenm.gov)

1. Request for Approval of a Budget Amendment Resolution (BAR) to Allocate Grant Proceeds of an Additional $460,000 into FY26 Revenue and Expenses for a Coordinated Community Response to Community Violence.

BACKGROUND AND SUMMARY:

The City of Santa Fe Youth and Family Services Division in collaboration with Santa Fe County Community Services Department and the Santa Fe Police Department applied for and received a grant from the State of New Mexico's Department of Health for $818,387.10 as part of our coordinated response to community and youth violence. All reimbursement requests must be made by June 30, 2026.

In May 2025 the Division was awarded an additional $460,000 in funding to support programming.

STATE OF NEW MEXICO
DEPARTMENT OF HEALTH
INTERGOVERNMENTAL AGREEMENT

THIS AGREEMENT is made and entered into by and between the State of New Mexico, **DEPARTMENT OF HEALTH**, hereinafter referred to as the "Agency," and **CITY OF SANTA FE**, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Agency.

WHEREAS, the Agency is the State agency and desires to engage and the contractor is willing to provide the services outlined pursuant to Article II **-** Scope of Work.

NOW THEREFORE, the Agency and the Contractor in consideration of mutual covenants and agreements herein contained, do hereby agree as follows:

ARTICLE I. Term of Agreement

THIS AGREEMENT SHALL BECOME EFFECTIVE ON THE DATE UPON WHICH IT IS EXECUTED BY THE AGENCY SECRETARY OR DESIGNEE. This Agreement shall terminate **June 30, 2025, unless** terminated pursuant to Article VI (Termination of Agreement), or Article XIX (Appropriations).

ARTICLE II. Scope of Work

The Contractor shall provide the program of services as set forth in the scope of work which is attached hereto as "**Attachment 1 – Scope of Work**" and incorporated herein by reference, unless Attachment 1 is amended or this agreement is terminated pursuant to Article VI (Termination of Agreement), or Article XIX (Appropriations), infra. In consideration for the provision of those services, the Agency agrees to purchase and the Contractor agrees to perform the services identified in the scope of work.

ARTICLE III. Limitation of Cost

The total amount of the monies payable to the Contractor under this Agreement shall not exceed **$818,387.10** The annual budget is attached hereto as "**Attachment 2 – Budget**" and incorporated herein by reference.

ARTICLE IV. Payment

The Agency shall make monthly payments to the Contractor for services and costs specified in **Attachment 2 - Budget**. The Contractor shall submit certified and documented invoices and vouchers monthly for actual work performed and expenses incurred to the Agency. The Contractor's failure to submit such payment vouchers, invoices, and supporting documentation within fifteen (15) days after they are due may result in the non-availability of funds for payment and/or the denial of payment by the Agency.

Docusign Envelope ID: D6C4A5C2-D8DE-4B34-9F9D-10F2614EEA20

ARTICLE V. Return of Funds

Upon termination of this Agreement, or after the services provided for herein have been rendered, surplus money, if any, shall be returned by the Contractor to the Agency.

ARTICLE VI. Termination of Agreement

A. Grounds. The Agency may terminate this Agreement for convenience or cause. The Contractor may only terminate this Agreement based upon the Agency's uncured, material breach of this Agreement.

B. Notice; Agency Opportunity to Cure.

1. Except as otherwise provided in Article (VI)(B)(3), the Agency shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.
2. Contractor shall give Agency written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the Agency's material breaches of this Agreement upon which the termination is based and (ii) state what the Agency must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the Agency does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the Agency does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.
3. Notwithstanding the foregoing, this Agreement may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the Agency; (ii) if, during the term of this Agreement, the Contractor is suspended or debarred by the State Purchasing Agent; or (iii) the Agreement is terminated pursuant to Article XIX, "Appropriations", of this Agreement.

C. Liability. Except as otherwise expressly allowed or provided under this Agreement, the Agency's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Agreement. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE AGENCY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS AGREEMENT.

D. Termination Management. Immediately upon receipt by either the Agency or the Contractor of notice of termination of this Agreement, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Agreement without written approval of the Agency; 2) comply with all directives issued by the Agency in the notice of termination as to the performance of work under this Agreement; and 3) take such action as the Agency shall direct for the protection, preservation, retention or transfer of all property titled to the Agency and records generated under this Agreement. Any non-expendable personal property or equipment provided to or

Docusign Envelope ID: D6C4A5C2-D8DE-4B34-9F9D-10F2614EEA20

purchased by the Contractor with contract funds shall become property of the Agency upon termination and shall be submitted to the Agency as soon as practicable.

ARTICLE VII. Funds Accountability

The parties shall provide for strict accountability of all monies made subject to this Agreement. The Contractor shall maintain fiscal records, follow generally accepted accounting principles, and account for all receipts and disbursements of funds transferred to the Contractor pursuant to this Agreement. The Contractor will include all monies made subject to this Agreement in the annual audit and will provide the Agency with a copy of the annual audit.

ARTICLE VIII. Maintenance of Records

The Contractor shall maintain detailed expenditure records that indicate the date, nature and cost of services rendered during the Agreement's term and effect and retain them for a period of three (3) years from the date of final payment under this Agreement. The records shall be subject to inspection by the Agency, the New Mexico Department of Finance and Administration and the New Mexico State Auditor. The Agency shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose the right of the Agency to recover excessive or illegal payments.

ARTICLE IX. Confidentiality

A. Any confidential information provided to or developed by the Contractor in the performance of this Agreement shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the Agency.

ARTICLE X. Amendments

A. This Agreement shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the Agency proposes an amendment to the Agreement to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Agreement, pursuant to the termination provisions as set forth in Article VI herein, or to agree to the reduced funding.

ARTICLE XI. Assignment

The Contractor shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the Agency.

Docusign Envelope ID: D6C4A5C2-D8DE-4B34-9F9D-10F2614EEA20

ARTICLE XII. Applicable Law

The laws of the State of New Mexico shall govern this Agreement, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with Section 38-3-1 (G) NMSA 1978. By execution of this Agreement, Contractor acknowledges and agrees to the exclusive jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

ARTICLE XIII. Acquisition of Property

The parties agree that neither party shall acquire any property as the result of this Agreement, unless approved by the Agency or defined in the scope of work.

ARTICLE XIV. Liability

Each party shall be solely responsible for fiscal or other sanctions occasioned as a result of its own violation or alleged violation of requirements applicable to the performance of the Agreement. Each party shall be liable for its actions according to this Agreement subject to the immunities and limitations of the New Mexico Tort Claims Act, Sections 41-4-1, et. seq., NMSA 1978, as amended.

ARTICLE XV. Execution of Documents

The Agency and the Contractor agree to execute any document(s) necessary to implement the terms of this Agreement.

ARTICLE XVI. Sub-Contracts

The Contractor shall not subcontract any portion of the services to be performed under this Agreement without the prior written approval by the Agency Secretary or Designee. No such subcontract shall relieve the primary Contractor from any obligations and liabilities under this Agreement, nor shall subcontract obligate direct payment from the Agency. Contractor must notify subcontractors that they are subject to Article VIII - Maintenance of Records of this agreement.

ARTICLE XVII. Equal Opportunity Compliance

The Contractor agrees to abide by all federal and state laws, rules and regulations, and executive orders of the Governor of the State of New Mexico, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If Contractor is found not to be in compliance with these requirements during the life of this Agreement, Contractor agrees to take appropriate steps to correct these deficiencies.

Docusign Envelope ID: D6C4A5C2-D8DE-4B34-9F9D-10F2614EEA20

ARTICLE XVIII. Workers' Compensation

The Contractor agrees to comply with state laws and rules applicable to workers' compensation benefits for its employees. If the Contractor fails to comply with the Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the Agency.

ARTICLE XIX. Appropriations

The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, this Agreement shall terminate immediately upon written notice being given by the Agency to the Contractor. The Agency's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the Agency proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

Attachment 1 – Scope of Work

The Contractor shall perform the following work:

Per CH56-HB68-2022 Violence Intervention Program Act, the Grantee, The City of Santa Fe, in collaboration with Santa Fe County, have identified the creation of a coordinated community response to community violence to include but not limited to youth violence and gun violence. This Violence Prevention Program is a Public Health approach that will aim to support, educate and engage youth that are at high risk of being perpetrators or victims of youth violence, or gun violence. Direct program participants are youth and young adults up to age 24 who are on parole, are suspected of a firearms assault, or have experienced gun violence. Intergenerational healing programs include families and caregivers of impacted youth and young adults. Youth violence interruption goals are to increase supportive services; train community-based partners in restorative justice best practices; deliver culturally responsive, trauma-informed, strengths-focused case management; and cultivate economic stability and economic justice for program participants. Violence Interruption coordinates with community partners, in a multisectoral partnership, to reimagine community safety with strong preventative measures that amplifies the voices of those impacted by gun violence.

The Violence Prevention Unit (VPU) is currently housed in the City of Santa Fe, the unit will collaborate with key community stakeholders—Santa Fe County, County and City Law Enforcement, Juvenile Probation and Parole Officers (JPPO), Public Defenders, local nonprofits (such as Gerard's House, YouthWorks and others), public and charter schools, and the District Attorney's office—to identify youth and young adults who are at the highest risk for victimization or retaliation due to their involvement in cycles of violence. By working together, these agencies will combine their expertise and data to select individuals who are most vulnerable to becoming embroiled in gun violence or aggravated assault. Funding will be sub-granted to local organizations who work with youth ages 11-24 that are involved in or at risk of being involved in gun violence.

Recognizing that certain populations, particularly those from systemically marginalized or historically underserved communities, are disproportionately impacted by gun violence and aggravated assault. Therefore, the VPU is intentional with partnering with community organizations that have deep ties to these populations, ensuring that the voices and perspectives of those directly affected by violence are heard and integrated into the development of strategies.
Participants will participate in CONNECT, a coordinated care network run jointly by the City and County of Santa Fe. Spanning 60 supportive programs at local organizations, CONNECT network navigators are linked through a shared technology platform whereby they send and receive secure electronic referrals, address residents' social needs, and improve individual and community health.

A. Grantee will implement a VIP to include:
    1) clearly defined, measurable objectives of the program to improve public health and safety through evidence-based violence reduction interventions;
    2) a comprehensive violence reduction strategic plan, including consistent quality improvement and quality assurance measures, and a description of the strategies and tasks developed; describing the goals of the plan, including community-based services or joint community-based services and law enforcement intervention

Docusign Envelope ID: D6C4A5C2-D8DE-4B34-9F9D-10F2614EEA20

strategies;

3) Per CH56-HB68-2022 Violence Intervention Program Act, Grantee is required to use at least fifty percent of its grant for the purpose of entering into agreements with one or more community-based service providers in the locally focused geographic area in which the grant funds would be used;
4) Per CH56-HB68-2022 Violence Intervention Program Act, Grantee shall report to the appropriate criminal justice coordinating council established pursuant to Section 31-28-3 NMSA 1978 regarding outcomes of the grant;
5) Per CH56-HB68-2022 Violence Intervention Program Act, a final report for FY25 is due to the NMDOH no later than November 1, 2025. At a minimum the final report shall include: (1) purpose and amount of this FY25 grant received by the grantee; and (2) processes, outputs and outcomes resulting from this FY25 grant, including relevant data as required by department rules.

Good morning,
Please find the Professional Services Determination determined by the State Purchasing Division below.

Based on this deeming the contractual options are below:

If overall compensation is not to exceed $5K, Only need a PO and (If utilizing a State Wide Price Agreement SWPA), 1 quote, Origin will be PSC, (if not utilizing a SWPA) 2 quotes are required, Origin will be PSC.

If overall compensation is between $5K -$60K, A Professional Service contract template is required, or DOIT Template if IT professional services (If utilizing a Statewide Price Agreement SWPA), 1 quote, Origin will be CRB, (if not utilizing a SWPA) 3 quotes are required due to dollar amount (best practices) and cannot exceed 12 months if not on SWPA, Origin will be CRB. If proprietary as Sole source may be conducted upon further discussions.

If overall compensation is over $60K and exceeds 12months, (if using a SWPA) Professional Service Contract template or DOIT Template if IT professional services and 1 quote is required, (If not utilizing a SWPA) a competitive process is required (RFP), Origin will be CRB. If proprietary as Sole source may be conducted upon further discussions.

Thank you,

Francisco Lopez

Francisco:

The scope of work as written would be PROFESSIONAL SERVICES. Please note this determination relates only to that question and is no comment on whether the scope of work or procurement method meet all legal standards. Therefore, the agency may conduct the procurement independently of the State Purchasing Division (SPD). Any resulting contract(s) and amendment(s) must be processed through the Contracts Review Bureau (CRB) of SPD. Both CRB and SPD reserve the right to change this determination if the contract scope of work differs from the scope of work submitted for the original determination or if a later attached scope of work should contain goods or general services.

- While this scope of work has been determined to be professional services, please check the Horizons website to determine whether the scope of work must be offered to Horizons for their right of first refusal.

- When processing this procurement, please ensure that the Contracts Review Bureau contract template (or the DoIT contract template if IT related) is used.

- When processing this procurement, please ensure that the Contracts Review Bureau contract numbering system is used.

Thank you for submitting this scope of work for my review.

Sincerely,

Brian Fitzgerald

    3. Per CH56-HB68-2022 Violence Intervention Program Act, Grantee is required to use at least fifty percent of its grant for the purpose of entering into agreements with one or more community-based service providers providers in the locally focused geographic area in which the grant funds would be used;
    4. Per CH56-HB68-2022 Violence Intervention Program Act, Grantee shall report to the appropriate criminal justice coordinating council established pursuant to Section 31-28-3 NMSA 1978 regarding outcomes of the grant;
    5. Per CH56-HB68-2022 Violence Intervention Program Act, a final report for FY25 is due to the NMDOH no later than November 1, 2025. At a minimum the final report shall include: (1) purpose and amount of this FY25 grant received by the

Docusign Envelope ID: D6C4A5C2-D8DE-4B34-9F9D-10F2614EEA20

grantee; and (2) processes, outputs and outcomes resulting from this FY25 grant, including relevant data as required by department rules.

Deliverables

Good afternoon!

Following up on our conversation with Erika and Cathy yesterday regarding to DOH grant extension through June 30, 2026, and the additional $400,000 in funding- we've attached the updated IGA and new PO for your reference.

Could you please let us know if we should submit a new project ledger request, or if this information is sufficient to update the existing project ledger? The current Project ID is YFD2522302.

Thank you!

Best,
Sierra Vigil-Trujillo

The Purchasing Memo

Date: April 3, 2025

To: Governing Body and Finance Committee and Quality of Life Committee

From: Julie Sanchez, Youth and Family Services Division Director JULIE SANCHEZ (Apr 3, 2025 15:23 MDT)

Via: Henri Hammond-Paul, Community Health and Safety Department Director

Subject: Approval of Grant Agreement from the State of New Mexico's Department of Health in the amount of $818,387.10 for a coordinated community response to community violence to include but not limited to youth violence and gun violence. (Julie Sanchez, Youth and Family Services Division Director, jjsanchez@santafenm.gov)

Request for Approval of a Budget Amendment Resolution (BAR) to Budget $818,387.00 into FY25 Revenue and Expenses for a coordinated community response to community violence. (Julie Sanchez, Youth and Family Services Division Director, jjsanchez@santafenm.gov)

ITEM AND ISSUE:

The Youth and Family Services Division respectfully requests Approval of Grant Agreement from the State of New Mexico's Department of Health in the amount of $818,387.10 for a coordinated community response to community violence to include but not limited to youth violence and gun violence.

Additionally, the Youth and Family Services Division respectfully requests Approval of a Budget Amendment Resolution (BAR) to Budget $818,387.10 into FY25 Revenue and Expenses for a coordinated community response to community violence.

BACKGROUND AND SUMMARY:

The City of Santa Fe Youth and Family Services Division in collaboration with Santa Fe County Community Services Department and the Santa Fe Police Department applied for and received a grant from the State of New Mexico's Department of Health for $818,387.10 as part of our coordinated response to community and youth violence. All reimbursement requests must be made by June 30, 2026.

THIS SECTION IS INTENTIONALLY LEFT BLANK

Agreement No. 25 665 3030 XXXXX XX

STATE OF NEW MEXICO
DEPARTMENT OF HEALTH
INTERGOVERNMENTAL AGREEMENT

THIS AGREEMENT is made and entered into by and between the State of New Mexico, **DEPARTMENT OF HEALTH**, hereinafter referred to as the "Agency," and **CITY OF SANTA FE**, hereinafter referred to as the "Contractor," and is effective as of the date set forth below upon which it is executed by the Agency.

WHEREAS, the Agency is the State agency and desires to engage and the contractor is willing to provide the services outlined pursuant to Article II **-** Scope of Work.

NOW THEREFORE, the Agency and the Contractor in consideration of mutual covenants and agreements herein contained, do hereby agree as follows:

ARTICLE I. Term of Agreement

THIS AGREEMENT SHALL BECOME EFFECTIVE ON THE DATE UPON WHICH IT IS EXECUTED BY THE AGENCY SECRETARY OR DESIGNEE. This Agreement shall terminate **June 30, 2025,** unless terminated pursuant to Article VI (Termination of Agreement), or Article XIX (Appropriations).

ARTICLE II. Scope of Work

The Contractor shall provide the program of services as set forth in the scope of work which is attached hereto as "**Attachment 1 – Scope of Work**" and incorporated herein by reference, unless Attachment 1 is amended or this agreement is terminated pursuant to Article VI (Termination of Agreement), or Article XIX (Appropriations), infra. In consideration for the provision of those services, the Agency agrees to purchase and the Contractor agrees to perform the services identified in the scope of work.

ARTICLE III. Limitation of Cost

The total amount of the monies payable to the Contractor under this Agreement shall not exceed **$818,387.10.** The annual budget is attached hereto as "**Attachment 2 – Budget**" and incorporated herein by reference.

ARTICLE IV. Payment

The Agency shall make monthly payments to the Contractor for services and costs specified in **Attachment 2 - Budget**. The Contractor shall submit certified and documented invoices and vouchers quarterly for actual work performed and expenses incurred to the Agency. The Contractor's failure to submit such payment vouchers, invoices, and supporting documentation within fifteen (15) days after they are due may result in the non-availability of funds for payment and/or the denial of payment by the Agency.

ARTICLE V. Return of Funds

Upon termination of this Agreement, or after the services provided for herein have been rendered, surplus money, if any, shall be returned by the Contractor to the Agency.

ARTICLE VI. Termination of Agreement

A. Grounds. The Agency may terminate this Agreement for convenience or cause. The Contractor may only terminate this Agreement based upon the Agency's uncured, material breach of this Agreement.

B. Notice; Agency Opportunity to Cure.

1. Except as otherwise provided in Article (VI)(B)(3), the Agency shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give Agency written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the Agency's material breaches of this Agreement upon which the termination is based and (ii) state what the Agency must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the Agency does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the Agency does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Agreement may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the Agency; (ii) if, during the term of this Agreement, the Contractor is suspended or debarred by the State Purchasing Agent; or (iii) the Agreement is terminated pursuant to Article XXII, "Appropriations", of this Agreement.

C. Liability. Except as otherwise expressly allowed or provided under this Agreement, the Agency's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Agreement. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE AGENCY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS AGREEMENT.*

D. Termination Management. Immediately upon receipt by either the Agency or the Contractor of notice of termination of this Agreement, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Agreement without written approval of the Agency; 2) comply with all directives issued by the Agency in the notice of termination as to the performance of work under this Agreement; and 3) take such action as the Agency shall direct for the protection, preservation, retention or transfer of all property titled to the Agency and records generated under this Agreement. Any non-expendable personal property or equipment provided to or purchased by the Contractor with contract funds shall become

property of the Agency upon termination and shall be submitted to the Agency as soon as practicable.

ARTICLE VII. Funds Accountability

The parties shall provide for strict accountability of all monies made subject to this Agreement. The Contractor shall maintain fiscal records, follow generally accepted accounting principles, and account for all receipts and disbursements of funds transferred to the Contractor pursuant to this Agreement. The Contractor will include all monies made subject to this Agreement in the annual audit and will provide the Agency with a copy of the annual audit.

ARTICLE VIII. Maintenance of Records

The Contractor shall maintain detailed expenditure records that indicate the date, nature and cost of services rendered during the Agreement's term and effect and retain them for a period of three (3) years from the date of final payment under this Agreement. The records shall be subject to inspection by the Agency, the New Mexico Department of Finance and Administration and the New Mexico State Auditor. The Agency shall have the right to audit billings both before and after payment. Payment under this Agreement shall not foreclose the right of the Agency to recover excessive or illegal payments.

ARTICLE IX. Confidentiality

A. Any confidential information provided to or developed by the Contractor in the performance of this Agreement shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the Agency.

ARTICLE X. Amendments

A. This Agreement shall not be altered, changed or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the Agency proposes an amendment to the Agreement to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Agreement, pursuant to the termination provisions as set forth in Article VI herein, or to agree to the reduced funding.

ARTICLE XI. Assignment

The Contractor shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the Agency.

ARTICLE XII. Applicable Law

The laws of the State of New Mexico shall govern this Agreement, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with Section 38-3-1 (G) NMSA 1978. By execution of this Agreement, Contractor acknowledges and agrees to the exclusive jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Agreement.

ARTICLE XIII. Acquisition of Property

The parties agree that neither party shall acquire any property as the result of this Agreement, unless approved by the Agency or defined in the scope of work.

ARTICLE XIV. Liability

Each party shall be solely responsible for fiscal or other sanctions occasioned as a result of its own violation or alleged violation of requirements applicable to the performance of the Agreement. Each party shall be liable for its actions according to this Agreement subject to the immunities and limitations of the New Mexico Tort Claims Act, Sections 41-4-1, et. seq., NMSA 1978, as amended.

ARTICLE XV. Execution of Documents

The Agency and the Contractor agree to execute any document(s) necessary to implement the terms of this Agreement.

ARTICLE XVI. Sub-Contracts

The Contractor shall not subcontract any portion of the services to be performed under this Agreement without the prior written approval by the Agency Secretary or Designee. No such subcontract shall relieve the primary Contractor from any obligations and liabilities under this Agreement, nor shall subcontract obligate direct payment from the Agency. Contractor must notify subcontractors that they are subject to Article VIII - Maintenance of Records of this agreement.

ARTICLE XVII. Equal Opportunity Compliance

The Contractor agrees to abide by all federal and state laws, rules and regulations, and executive orders of the Governor of the State of New Mexico, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Agreement. If Contractor is found not to be in compliance with these requirements during the life of this Agreement, Contractor agrees to take appropriate steps to correct these deficiencies.

ARTICLE XVIII. Workers' Compensation

The Contractor agrees to comply with state laws and rules applicable to workers' compensation benefits for its employees. If the Contractor fails to comply with the Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the Agency.

ARTICLE XIX. Appropriations

The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, this Agreement shall terminate immediately upon written notice being given by the Agency to the Contractor. The Agency's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the Agency proposes an amendment to the Agreement to unilaterally reduce funding, the Contractor shall have the option to terminate the Agreement or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

THIS SECTION IS INTENTIONALLY LEFT BLANK

IN WITNESS WHEREOF, the Agency and the Contractor have caused this Agreement to be executed, said Agreement to become effective as of the date set forth below upon which it is executed by Agency Secretary or Designee.

Attachment 1 – Scope of Work

The Contractor Shall perform the following work:

Summary of scope

Per CH56-HB68-2022 Violence Intervention Program Act, the Grantee, The City of Santa Fe, in collaboration with Santa Fe County, have identified the creation of a coordinated community response to community violence to include but not limited to youth violence and gun violence. This Violence Prevention Program is a Public Health approach that will aim to support, educate and engage youth that are at high risk of being perpetrators or victims of youth violence, or gun violence. Direct program participants are youth and young adults up to age 24 who are on parole, are suspected of a firearms assault, or have experienced gun violence. Intergenerational healing programs include families and caregivers of impacted youth and young adults. Youth violence interruption goals are to increase supportive services; train community-based partners in restorative justice best practices; deliver culturally responsive, trauma-informed, strengths-focused case management; and cultivate economic stability and economic justice for program participants. Violence Interruption coordinates with community partners, in a multisectoral partnership, to reimagine community safety with strong preventative measures that amplifies the voices of those impacted by gun violence.

The Violence Prevention Unit (VPU) is currently housed in the City of Santa Fe, the unit will collaborate with key community stakeholders—Santa Fe County, County and City Law Enforcement, Juvenile Probation and Parole Officers (JPPO), Public Defenders, local nonprofits (such as Gerard's House, YouthWorks and others), public and charter schools, and the District Attorney's office—to identify youth and young adults who are at the highest risk for victimization or retaliation due to their involvement in cycles of violence. By working together, these agencies will combine their expertise and data to select individuals who are most vulnerable to becoming embroiled in gun violence or aggravated assault. Funding will be sub-granted to local organizations who work with youth ages 11-24 that are involved in or at risk of being involved in gun violence.

Recognizing that certain populations, particularly those from systemically marginalized or historically underserved communities, are disproportionately impacted by gun violence and aggravated assault. Therefore, the VPU is intentional with partnering with community organizations that have deep ties to these populations, ensuring that the voices and perspectives of those directly affected by violence are heard and integrated into the development of strategies. Participants will participate in CONNECT, a coordinated care network run jointly by the City and County of Santa Fe. Spanning 60 supportive programs at local organizations, CONNECT network navigators are linked through a shared technology platform whereby they send and receive secure electronic referrals, address residents' social needs, and improve individual and community health.

A. Grantee will implement a VIP to include:
   1) clearly defined, measurable objectives of the program to improve public health and safety through evidence-based violence reduction interventions;
   2) a comprehensive violence reduction strategic plan, including consistent quality improvement and quality assurance measures, and a description of the strategies and tasks developed; describing the goals of the plan, including community-based services or joint community-based services and law enforcement intervention strategies;
   3) Per CH56-HB68-2022 Violence Intervention Program Act, Grantee is required to use at least fifty percent of its grant for the purpose of entering into agreements with one or more community-based service providers in the locally focused geographic area in which the grant funds would be used;
   4) Per CH56-HB68-2022 Violence Intervention Program Act, Grantee shall report to the appropriate criminal justice coordinating council established pursuant to Section 31-28-3 NMSA 1978 regarding outcomes of the grant;
   5) Per CH56-HB68-2022 Violence Intervention Program Act, a final report for FY25 is due to the NMDOH no later than November 1, 2025. At a minimum the final report shall include: (1) purpose and amount of this FY25 grant received by the grantee; and (2) processes, outputs and outcomes resulting from this FY25 grant, including relevant data as required by department rules.

THIS SECITON IS INTENTIONALLY LEFT BLANK

Attachment 2 – Budget

The total amount of this agreement shall not exceed $818,387.10.

Per diem and mileage, and other miscellaneous expenses, will be paid in accordance with the Department of Finance and Administration (DFA) Rule 2.42.2 NMAC.

Task Description	Deliverable	Budget	Due Date
Project administration contract	Quarterly report of completed contractual project administration.	Not to exceed $60,000.00	Invoice @ up to $30,000.00 per quarter not to exceed quantity of 2 Quarter 1 (January, February & March) due no later than April 10, 2025 Quarter 2 (April, May & June) due no later than July 10, 2025
Increase gun violence detection and response infrastructure and technology through receipt of technical assistance for implementation of purchased gunshot detection technology.	Proof of purchase and any technical assistance received.	Not to exceed $354,000.00	Invoice @ $354,000.00 upon receipt of purchase, due no later than July 10, 2025
Community-based service provider(s) partnerships	Narrative report detailing partnerships implemented with community-based service provider(s).	Not to exceed $404,437.10	
Total Budget		**$818,387.10**

11. *Whenever possible, avoid placing sensors on particularly sensitive locations.* 20

VI Data Sharing with Third Parties 21

VII Conclusion 24

VIII More about the Policing Project 25

I. EXECUTIVE SUMMARY

ShotSpotter Inc. ("SST") is a California-based company that operates ShotSpotter Flex (hereafter referred to as "ShotSpotter"), a proprietary technology that uses sensors strategically placed around a geographic area to detect, locate, and analyze gunshots, and notify law enforcement. ShotSpotter is the most widely used gunshot detection technology in the United States, currently operating in nearly 100 jurisdictions across the country. SST's primary customers are local law enforcement agencies.

Earlier this year, SST asked the Policing Project at New York University School of Law to conduct a thorough privacy assessment of ShotSpotter. Our engagement with SST focused on identifying the risks ShotSpotter poses to personal privacy and to suggest technological, policy, and procedural changes to address those risks. We agreed to conduct this assessment on the condition that we have complete access to all SST policies, procedures, and personnel related to ShotSpotter,[1] and that we have complete editorial control over our recommendations and report. In our view, SST has been notably open and transparent throughout this process.

Having conducted a thorough review of SST's current policies and procedures, and as explained in more detail below, we believe that on the whole ShotSpotter presents relatively limited privacy risks. In our analysis, the primary personal privacy concern with ShotSpotter is the possibility that the technology could capture voices of individuals near the sensors, and conceivably could be used for deliberate voice surveillance. Although we believe the risk of this occurring is already relatively low, this report offers a variety of recommendations for how SST can make ShotSpotter even more privacy protective.

As discussed in more detail in this report, our recommendations cover a wide range of issues, chief among them that SST:

1. Substantially reduce the duration of audio stored on ShotSpotter sensors;
2. Commit to denying requests and challenging subpoenas for sensor audio;
3. Commit to not sharing specific sensor location; and
4. Improve internal controls and supervision regarding audio access.

SST has adopted nearly all of our recommendations verbatim, with only

1. Contractual arrangements prevented SST from providing us with one piece of information. See *infra* Part VI.

slight modifications or qualifications based on how ShotSpotter functions.

Although we were asked to comment on ShotSpotter's personal privacy implications, we conclude our analysis by offering some additional guidance regarding data sharing with third parties. Although we do not see this as a personal privacy issue, we believe this is one area where SST can and should refine its approach. SST has taken these comments seriously and is in the process of thinking through its response.

Throughout this process, SST has consistently demonstrated commendable commitment to modifying its technology to balance its public safety function with protections for individual privacy. The changes we asked SST to make—both to how their technology operates and their internal procedures—were certainly not without cost. SST made a conscious choice to bear these costs. We hope others follow SST's leadership in this regard; indeed, we believe this type of open audit and assessment—whether performed by us or by others—should become the norm for companies selling technologies to governments and policing agencies.

Indeed, we believe this type of open audit and assessment—whether performed by us or by others—should become the norm for companies selling technologies to governments and policing agencies.

HOW IL OUR SHOTSPOTTER ENGAGEMENT WITH FLEX WORKS SHOTSPOTTER

ABOUT THE POLICING PROJECT

The Policing Project is a non-profit entity at New York University School of Law. Our mission is to partner with communities and police to promote public safety through transparency, equity, and democratic engagement. (More information about our mission is available in Part VIII or at www.policingproject.org.)

One of the Policing Project's core areas of focus is policing technologies. Certain new technologies hold great promise to make policing safer, more effective, and more accountable. But at the same time, we have serious concerns about possible invasions of privacy, inaccuracy, and perpetuation of racial bias. Rather than being "for" or "against" a new technology, we believe the proper approach is to figure out if society can benefit from a particular technology while eliminating or minimizing any harm. In this regard, cost-benefit analysis of policing technologies is both appropriate and essential. The decision to deploy any technology should have democratic approval based on public information about the potential benefits and harms. Democratic legitimacy requires the inclusion in that process of those communities most impacted by the use of the technology.

To that end, we have adopted a range of strategies. In consultation with police and affected communities, we are drafting use policies for a variety of new technologies, including drones, predictive analytics, social media monitoring, and more. We are conducting rigorous social science research into the effectiveness of certain technologies.[2] We are also developing tools that encourage public authorization before policing technologies are acquired or used.

Rather than being "for" or "against" a new technology, we believe the proper approach is to figure out if society can benefit from a particular technology while eliminating or minimizing any harm.

One of our strategies is to work directly with certain private companies in the policing technology space to assess their products; offer recommendations as to whether those products pose civil rights or civil liberties concerns; and recommend how those concerns might be mitigated, either through design, use policies, or internal procedures.[3] To this end, we have determined that, when invited to do so by municipalities, law

2. With the generous support of the Laura & John Arnold Foundation, the Policing Project and Professor Jillian Carr of Purdue University Krannert School of Management are conducting a cost-benefits analysis of the St. Louis County Police Department's use of ShotSpotter. This privacy assessment and our research study have from the outset remained entirely independent.
3. Relatedly, Policing Project Faculty Director Barry Friedman sits on the Axon AI and Policing Technology Ethics Board, and the Policing Project staffs the Board. See http://www.policingproject.org/axon-ethics-board

enforcement agencies, or private vendors, we will conduct an audit and assessment of policing technologies. SST has exercised commendable leadership in opening itself up to this assessment. We hope this becomes the norm for companies selling technologies that pose civil liberties or civil rights concerns, including those involving racial inequities. Such evaluation is essential so that communities can make wise acquisition and regulatory decisions.

Throughout our work, we disclose any conceivable conflicts, particularly when private companies are involved. Since 2018, SST has provided the Policing Project with unrestricted funding (as do other entities) for our policing technology work in general. SST compensated us for our time and travel in conducting this audit and assessment. SST CEO Ralph Clark also sits on our Advisory Board.[4] Note that our Board is *advisory* only with no legal authority or governing powers over the organization. This pre-existing relationship played a large part in initiating this work.

THE PRESENT ENGAGEMENT

In February 2019, during the course of discussions of adopting ShotSpotter in Toronto, segments of that community raised a number of reservations, including privacy-related concerns.[5] After the Toronto Police Department ultimately decided not to pursue ShotSpotter, SST contacted the Policing Project to discuss how it could address concerns like those raised in Toronto. At that time, as discussed above, we already were developing a model for the audit and assessment of policing technologies. Thus, we suggested SST engage us to conduct an audit and assessment of ShotSpotter from a privacy perspective.

Before going further, we think it essential to explain that this report is in no way a comment on the concerns raised in Toronto (or any other city). Each community has its unique laws, concerns, and history, and the Policing Project believes that every community should decide for itself what policing technologies are appropriate for their specific needs. This is the essence of front-end accountability, which motivates all our work. Our aim is to provide information to the public that can aid in sound and informed decision-making about policing technologies.

We hope that for companies selling technologies that pose civil liberties or civil rights concerns, including those involving racial justice, it becomes the norm to have products evaluated in this way.

In April 2019, SST officially engaged the Policing Project to conduct a thorough privacy assessment of its policies and procedures for ShotSpotter, and to make concrete suggestions as to how SST could address privacy concerns. Because we were

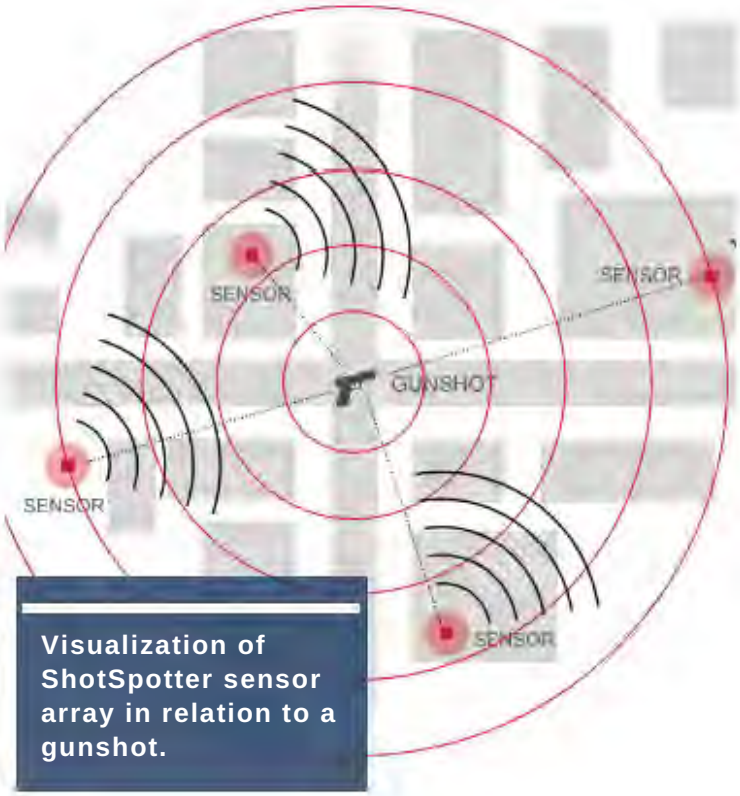
4. To view our full advisory board, visit: http://www.policingproject.org/our-advisory-board.
5. See, e.g., Jeff Gray, *Toronto police end ShotSpotter project over legal concerns*, THE GLOBE AND MAIL (Feb. 13, 2019), https://www.theglobeandmail.com/canada/toronto/article-toronto-police-end-shotspotter-project-over-legal-concerns/.

asked to conduct a *privacy*-focused assessment, we focused on what sort of data is captured, aggregated, mined, retained, and shared. We did not analyze other potential benefits or costs of ShotSpotter or any other SST technology. For example, we have not evaluated how well SST's gun detection technology actually works (its rate of false positives or negatives) or the process by which ShotSpotter reports are admitted into evidence at criminal trials. We have not explored or evaluated any other potential civil rights or civil liberties concerns.

We believe it is essential that private companies in the policing technology space take seriously their obligation to minimize their impact on civil rights and civil liberties.

Our assessment process began with a thorough document review—both of publicly available information and internal SST materials, such as contracts, training materials, and documents provided to law enforcement customers. We conducted a site visit to SST's Newark, California headquarters, interviewed numerous SST personnel, and observed SST's Incident Review Center in action. We followed up with additional questions and received additional information. We provided SST with a set of recommendations in May, giving SST time to evaluate and respond to our recommendations before the publication of this report.

We have had complete control over the substance of our recommendations and the contents of this report. SST has reviewed it for factual errors only.



This is our first such engagement. Although we do not think this type of private engagement can or should take the place of community voice or official regulation, we believe it is essential that private companies in the policing technology space take seriously their obligation to minimize their impact on civil rights and civil liberties. We see this type of engagement—whether performed by us or others having the relevant expertise—as an important model for improving the transparency and accountability of policing technologies across the country.

III. HOW SHOTSPOTTER FLEX WORKS

According to SST, ShotSpotter is a "gunshot detection, location, and forensic analysis" technology. Specifically, ShotSpotter analyzes sound to detect that gunfire has occurred, locate the source of that gunfire, and determine certain characteristics of the gunfire (such as how many shots were fired and the precise timing of those shots).

The technology has two basic components: (1) an array of microphone-equipped sensors spread across the coverage area, and (2) the ShotSpotter Incident Review Center ("IRC") at SST headquarters in Newark, California.

Visualization of ShotSpotter sensor array in relation to a gunshot.

The process begins with SST working with the customer to determine the desired physical boundaries for ShotSpotter's gunshot detection technology. Ultimately, the choice of boundaries is one for the customer, considering the needs and resources of the particular community. The larger the coverage area, the greater the cost.

Once the coverage area is set, SST engineers work to determine how many sensors are needed and where they should be placed in order to achieve reliable detection throughout the area. Sensors are equipped with microphones that are similar to a typical smartphone microphone at picking up sound. SST personnel install the sensors on buildings and lampposts typically 20-30 feet above the ground. Sensors are placed this high so as to maximize their range, require lower sensor density, and to minimize street-level audio. The sensor network is then tested to ensure proper operation.

Once operational, these sensors are continuously "listening" and a proprietary AI-enhanced algorithm is constantly analyzing incoming audio. The algorithm reviews the audio for loud "impulsive" sounds—that is, loud sounds that start and end suddenly (similar to a gunshot). In addition to actual gunfire, impulsive sounds

that trigger the algorithm can include certain construction noises, helicopters, motorcycles, fireworks, and other similar sounds. Whenever ShotSpotter's algorithm detects an impulsive sound, the algorithm attempts to identify these sounds (e.g., "gunfire," "helicopter," "construction"). Although all audio, including street noise, traffic, or human voice, are inputs to the algorithm, only gunshot-like sounds ("impulsive" sounds) actually trigger the sensor and the next stage of the process.

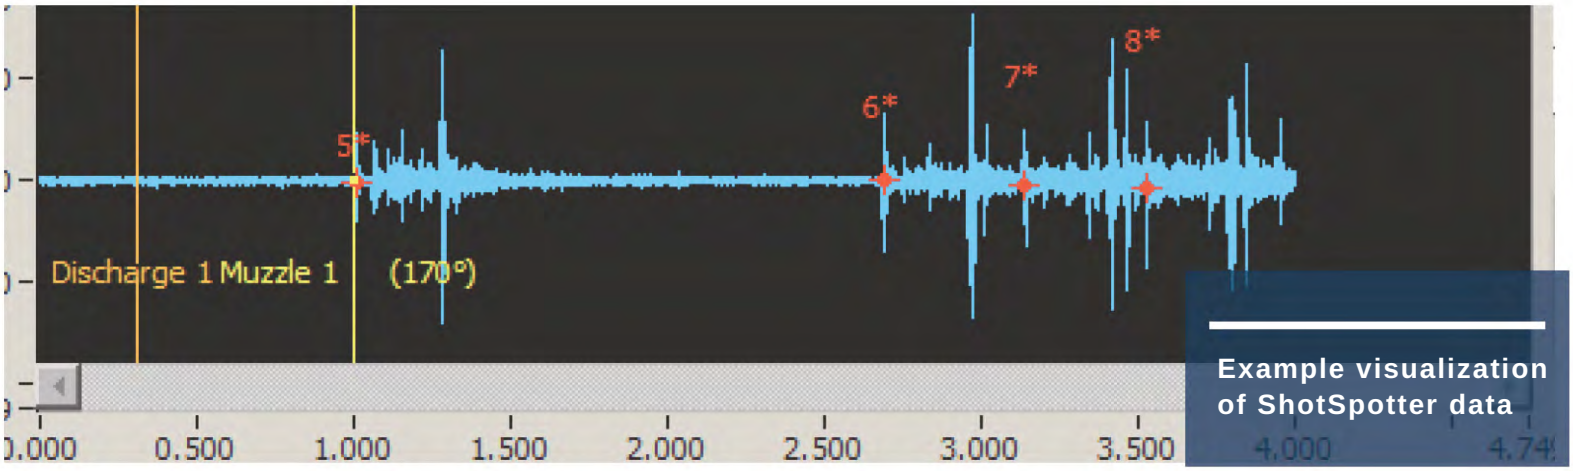
notifications from customer locations around the world to determine whether the impulsive sounds detected by the ShotSpotter algorithm are actual gunshots.[6] The IRC is notified of the majority, but not all, of the impulsive sounds that trigger three sensors. As the ShotSpotter algorithm has improved over time, SST has determined that its system is sufficiently accurate in identifying particular types of impulsive sounds, such as helicopters or fireworks, so that these

Technicians in the ShotSpotter Incident Review Center

When three or more sensors are triggered at the same time—that is, they detect an impulsive sound (such as a gunshot)—the IRC is notified as to the time and location of the event. Requiring three sensors to detect a sound is necessary to determine a precise location. It also means that softer sounds (e.g., a car door) will not trigger a notification of the IRC. There is no human involvement until after the IRC is notified via an encrypted cellular network.

In the IRC, SST personnel constantly review

type of incidents often are not sent to the IRC and are discarded as non-gunfire.



The IRC personnel's individualized review of each notification includes three components related to the captured audio:

1). Personnel are provided with the ShotSpotter algorithm's best assessment of the nature of the sound (e.g., "gunshot," "helicopter," "construction," "fireworks"), including a confidence threshold.

6. IRC personnel work in eight-hour shifts, with two to six specialists and one supervisor per shift. These personnel receive substantial training and testing in this role, though a review of this training or of accuracy rates was outside of the scope of our privacy assessment.

2). Personnel listen to brief audio snippets of the incident from each of the nearby sensors. Snippets include up to one second of audio prior to the incident, the gunshot incident itself, and one second of audio after the incident. The pre- and post-incident audio is provided to help reviewers better assess the nature of the incident itself by giving them a sense of the ambient noise immediately prior to and after the incident. This is the only audio IRC personnel are provided. These audio snippets are retained indefinitely by SST.

3). Personnel also are presented with a visualization of the audio from each of the nearby sensors. The following is a sample visualization, which SST personnel are trained to read:

Example visualization of ShotSpotter data

Based on this acoustic information, as well as other related data (e.g., time of day, location), the IRC reviewer makes a determination as to whether the acoustic event was a gunshot.

If the reviewer finds it was a gunshot, the reviewer sends an alert, including location information and a single audio snippet, to the relevant law enforcement agency via a password-protected application on a mobile phone, in-car laptop, or computer. In addition to the audio snippets, SST provides ShotSpotter customers with detailed information about the location, sequence, and timing of each shot during an incident. According to SST, the typical time from gunshot to alert is less than one minute.

This is the ordinary process in the vast majority of cases. On occasion, however, law enforcement customers contact ShotSpotter about a possible missed gunshot. In such cases, ShotSpotter asks customers to provide their best information about date/time/location of the incident, as well as some proof that the incident occurred (e.g., casings, eyewitness statements).[7]

With this information in hand, a limited number of authorized employees, either IRC personnel or forensic engineers, begin a review of stored audio from nearby sensors, to determine if any of the sensors detected the gunshot. SST personnel cannot listen to sensor audio in real time. Instead, IRC personnel must begin by reviewing graphic

7. An "ear"-witness—someone who claims they heard a gunshot—is not sufficient to trigger this review process.

visualizations of the audio (similar to those pictured above), not by listening to the audio itself. They focus on impulsive events at the relevant location, at the relevant time, and if they locate one, select that portion of the audio to download and listen to. Downloaded audio recordings in these cases have up to two seconds of audio prior to the incident, the incident itself, and up to four seconds after the incident. The pre- and post-incident audio is again provided for a baseline ambient noise level so as to better assess the incident. By listening to the audio from multiple sensors, reviewers can determine whether a gunshot was detected. If so, that snippet is sent to the law enforcement agency.

A sensor is only accessed in the event that SST is presented with evidence of a missed gunshot and only saved in the event that a missed or mislocated gunshot is detected.

In order to make this review process possible, each sensor locally stores 72 hours of audio. Sensors constantly overwrite stored audio and replaced it with more recent audio. Therefore, in order to review for a missed gunshot, law enforcement must provide SST with notice of the possible missed gunshot within 72 hours.

Other than the snippets, discussed above, which are stored indefinitely, audio stored on a sensor is only accessed in the event that SST is presented with evidence of a missed gunshot and only saved in the event that a missed or mislocated gunshot is detected.[8]

Although ShotSpotter acoustic sensors can be integrated into other technologies (such as smart lamp posts), no matter what the physical configuration, only SST personnel have access to ShotSpotter sensors and their stored audio.

8. The only other audio that SST retains are limited samples (such as samples of wind or other noise) for research and development purposes—specifically, to train its algorithm to perform more accurately.

IV. OVERALL PRIVACY ASSESSMENT

SST describes ShotSpotter as a gunshot detection, location, and forensic analysis technology. But some have raised the concern that ShotSpotter might be used as a voice surveillance tool—that is, that it could be used to listen to and record conversations occurring near ShotSpotter sensors. In particular, communities that have been disproportionately impacted by policing, which are most often communities of color, have expressed concern that ShotSpotter might enter a city under the auspices of gunshot detection, but be utilized for targeted voice surveillance in neighborhoods already stricken by gun violence.[9] This concern has been bolstered by a handful of occasions in the past that human voice has been captured by sensors and used in a criminal prosecution.[10]

We wholly agree that from a privacy perspective, it would be of serious concern if ShotSpotter were used for voice surveillance. Voice surveillance could take two forms—persistent surveillance and targeted surveillance. The former might occur if sensors constantly were recording (and SST was listening to and/or retaining) voice audio and sharing such audio with law enforcement for any purpose. Surveillance also could be "targeted," *i.e.*, listening in to specific locations or after-the-fact review of sensor audio in search of relevant voice recordings.

Having conducted a thorough review of SST's policies and procedures, we conclude that the risk of voice surveillance is extremely low in practice. This conclusion is not meant to minimize or dismiss the concerns that others have raised to date. Indeed, it is surely possible that ShotSpotter sensors will, on occasions, capture some intelligible voice audio related to a gunfire incident. Still, based on our understanding of how ShotSpotter operates today, we have little concern that the system will be used for anything approaching voice surveillance.

We reach this conclusion based on our assessment of the variety of safeguards already built in to how ShotSpotter operates, as well as the recommendations SST has agreed to implement at our behest (discussed below). Of particular

9. See, *e.g.*, Lyndsay Winkley, *San Diego police to continue using gunshot detection, despite some criticism*, THE SAN DIEGO UNION TRIBUNE (Oct. 7, 2017), https://www.sandiegouniontribune.com/news/public-safety/sd-me-sdpd-shotspotter-20171005-story.html; Josh Sanburn, *Shots Fired*, TIME (Sept. 21, 2017), https://time.com/4951192/shots-fired-shotspotter; Means Coleman, R. & Brunton, D., *You Might Not Know Her, But You Know Her Brother: Surveillance Technology, Respectability Policing, and the Murder of Janese Talton Jackson*. 18 SOULS: A CRITICAL J. 10. See, *e.g.*, Alexandra S. Gecas, *Gunfire Game Changer or Big Brother's Hidden Ears?: Fourth Amendment and Admissibility Quandaries Relating to Shotspotter Technology*, 2016 UNIV. ILL. L. REV. 1073, 1088 ("ShotSpotter acknowledged three extremely rare 'edge cases' out of three million detected incidents in the last decade where the sensors recorded people shouting in a public street at the location where the sensors detected gunfire." (internal quotation marks omitted)), https://illinoislawreview.org/wp-content/uploads/2016/07/Gecas.pdf.

importance to our conclusion is the fact that although sensors constantly are "listening," audio is only temporarily stored (formerly 72 hours; soon to be 30 hours), and then a very select amount of audio is retained only if the computer algorithm or human reviewer detects a gunshot. All other audio is routinely purged from SST's systems.

Moreover, we view as essential the fact that the audio review and retention process is centralized within SST—that is, that neither law enforcement customers nor third parties have access to the raw audio or can determine what audio to download and retain. (Our recommendations address requests and subpoenas for audio.) It should be noted that prior to 2012, police agencies were in control of the audio review and download process locally, but a technology and business model change resulted in SST having centralized control over its sensors and audio through its IRC. Currently, no police department has control over any audio except the snippets provided by SST as part of its alerts.

We do note, however, that although no third parties have access to ShotSpotter stored audio, and ShotSpotter's review and analysis is centralized, ShotSpotter alerts can trigger a range of responses by law enforcement—from dispatching police officers to the location, to programming CCTV cameras to turn toward the direction of an alert, to factoring into predictive policing software, to reinforcing stereotypes regarding particular neighborhoods. We fully appreciate that the mere fact of additional police response—be it in person or CCTV cameras—is itself a concern to some communities. But this is not unique to ShotSpotter; indeed, this can be the case for citizen-initiated reports of gunshots. The range of possible police responses to ShotSpotter alerts highlights how every technology, no matter how privacy protective, must also be used in ways that are racially just, transparent, and subject to democratic approval.

V. PERSONAL PRIVACY ENHANCING RECOMMENDATIONS

Although we perceive that ShotSpotter, under current operating procedures, presents a low privacy risk, we nonetheless have a variety of recommendations designed to further minimize the risk that ShotSpotter might inadvertently or deliberately be used for voice surveillance. We provided these recommendations to SST in advance of this report and have incorporated SST's responses below. As evident from these responses, SST has adopted all of our recommendations, with only slight modifications or qualifications based on how ShotSpotter functions.

01 Substantially reduce the length of audio stored on each sensor.

At present, in order to allow IRC personnel to search for possible missed gunshots, ShotSpotter sensors locally store 72 hours of recent audio, after which the audio is permanently deleted. As explained above, law enforcement customers can report possible missed shots to SST so long as they have evidence that shots were fired. With a rough location and time, IRC personnel or forensic engineers follow the process described previously to first review graphic visualizations of the audio to determine whether any sensors captured a possible gunshot. If so, audio is downloaded, and if it is determined to be a gunshot, an audio snippet is transmitted to law enforcement.

This review process somewhat increases the possibility that human voice will be captured and reviewed because: (1) the process is initiated by law enforcement, and some might be concerned those agencies are interested in obtaining sensor audio for the purpose of voice surveillance; and (2) IRC reviewers or forensic engineers must manually select and listen to additional audio to determine if there was an undetected gunshot. Arguably then, if SST were to completely eliminate all stored audio, the chance of voice surveillance would be substantially limited. But taking this dramatic step also would deprive SST and its customers of the ability to look back for missed gunshots.

We are informed that the IRC processes approximately three to four "missed or mislocated gunshot" requests per day. Balancing this valuable service against the limited possibility of voice surveillance generally, we do not recommend SST take the dramatic step of eliminating stored audio entirely. Instead, we recommend SST drastically cut back the duration of stored audio. Put another way: SST should delete stored audio in a much shorter time frame than 72 hours.

Our understanding from SST is that most missed gunshots are reported by law enforcement customers within 30 hours. As such, SST can accomplish its goal of searching for missed gunshots while reducing the period of stored audio from 72 hours to 30 hours.

By reducing the length of time that SST stores audio, SST will lower the possibility that its technology can be seen as a surveillance device, or that law enforcement even will attempt to use the sensor buffer for investigative purposes other than missed gunshots.

SST has adopted this recommendation and has implemented a software update that is currently being pushed out to all of its sensors across the country. This rollout will be complete by early August 2019. Customers have already been informed of this change in policy.

02 Do not share precise sensor locations with law enforcement.

SST works with law enforcement to set ShotSpotter's coverage area. Once the area is set, SST engineers alone determine precise sensor locations necessary in order to ensure even coverage. SST does not provide law enforcement with access to a database or list of precise sensor locations, nor does SST respond to requests for sensor locations from police or the public. SST says it fights subpoenas for requests to have the precise sensor locations. As a general matter, law enforcement has no need to know the precise sensor locations.[11]

We recommend formalizing the practice that law enforcement customers not be given precise sensor locations in SST company policy. By withholding this information, SST minimizes the possibility (or the allure) that law enforcement officers investigating a particular incident would view ShotSpotter sensors as an investigative tool like CCTV and request audio from a sensor.

SST has adopted this recommendation and now clearly states, in both public and client-facing documents, that law enforcement will not have access to precise sensor locations, requests for sensor locations will not be honored, and subpoenas will be resisted in court.

03 Deny requests and challenge subpoenas for additional audio.

No matter what internal controls SST places on its technology, and no matter the internal emphasis on privacy and avoiding voice surveillance, there always will remain the possibility that third parties—police, prosecutors, civil litigants, etc.—may request or subpoena extended sensor audio beyond the short snippets provided upon a detected gunshot in an effort to capture voice. No matter how uncommon an occurrence, we believe it prudent to be alert to and prepared for this possibility.

Although a corporate policy to deny requests and challenge legal subpoenas will not necessarily be decisive in court, it should weigh heavily against parties making any such request.

SST has adopted this recommendation in both public and client-facing documents, that requests for extended audio will not be honored and subpoenas will be resisted in court.

11. We understand that on occasion a police officer (generally a patrol officer) will accompany SST personnel when SST asks for consent to place a sensor. The officer does not accompany personnel during installation. Although this provides a lone officer with knowledge of the general area of a few sensors, this is not the type of systematic knowledge that concerns us.

04 Minimize the duration of audio snippets.

Prior to this privacy assessment, in cases of a law enforcement agency requesting research on a possible missed or mislocated gunshot, SST policy was to provide law enforcement personnel with an audio snippet of up to two seconds of audio from immediately before the gunshot, the audio of the gunshot itself, and up to four seconds of audio from immediately after incident. For live-captured incidents, however, SST provided only one second before and one second after.

In the few past instances in which human voice was captured incidentally by ShotSpotter sensors, that voice audio was captured as part of the gunshot audio snippet. In order to minimize the chance of incidentally capturing and transmitting voice audio to law enforcement, we recommend standardizing and minimizing the duration of audio from before and after the gunshot. Specifically, we suggest SST provide at most one second of audio from before and after any incident.

SST has adopted this recommendation and has now implemented an automated process where all snippets include only one second of pre- and post-incident audio.

05 Strictly limit which SST personnel have access to sensor audio.

Despite efforts to mitigate privacy concerns by avoiding certain locations for sensors and placing them high off the ground, the possibility will always remain that ShotSpotter sensors will capture voice audio. As such, access to the sensors must be sharply controlled. In addition to ensuring that sensors and the SST cloud are adequately encrypted and protected against external attack, SST must take steps to fortify its internal operations.[12] Our first recommendation on this front is that SST conduct an internal review of which personnel have access to sensor audio and ensure that access is limited only to those personnel who actually need access to perform their work.

SST has adopted this recommendation and has already completed its review of personnel with access to sensor audio. As a result of this review, SST has limited or eliminated audio access for several positions (including SST executives) whose access to audio was not essential.

06 Require supervisor approval for any audio download longer than one minute.

In our view, the greatest risk for invasion of personal privacy comes when SST personnel access actual stored sensor audio (as opposed to the audio visualizations typically used to locate gunshot-like events). Although we have no reason to believe that SST personnel abuse this privilege, in order to deter and detect possible misuse, we recommend SST implement a safeguard that requires supervisor approval before an SST employee is permitted to download extended audio. In order to strike a balance between allowing SST personnel to search

12. It is also key, as noted above, that third parties (customers or not) never are given access to these sensors.

quickly for missed gunshots, while still installing a layer of protection, we recommend requiring supervisor approval for audio downloads of longer than one minute per incident.

SST has adopted this recommendation.

07 Create a clear audit trail for every audio download.

Further, we recommend that for every instance in which an SST employee accesses stored sensor audio, SST ensure there exists a clear audit trail describing what audio was accessed, the SST employee who accessed the audio, the supervisor who approved the download (under Recommendation No. 6, above), the law enforcement agency and officer who made the request, and the evidentiary basis for the request.

SST has adopted this recommendation.

08 Conduct periodic review of the audio download audit trail.

In addition to creating an audit trail (Recommendation No. 7, above) for when stored sensor audio is accessed, we recommend SST create a regular process by which supervisory personnel review this audit trail. This review should ensure that audio is being accessed only when necessary and according to proper procedures. Such a review also should be on the lookout for any law enforcement agencies that are using the process at a much higher rate, SST personnel who listen to a significantly longer duration of audio than necessary, or other patterns that may require corrective action.

SST has adopted this recommendation.

09 Revise SST's longstanding privacy policy.

In addition to making internal changes to its operations, we recommended SST make changes to a number of its public-facing and client-facing documents, to emphasize that ShotSpotter should only be used for gunshot detection, and not voice surveillance, and to document the steps SST has taken to emphasize privacy protections.

SST has long had a privacy policy.[13] Although that policy addressed many relevant privacy issues, with our privacy assessment, we suggested SST make revisions and updates. In particular, we suggested SST revise the policy for clarity and to focus on privacy protections.

SST has adopted this recommendation. The updated policy is available at: https://www.shotspotter.com/privacy-policy[14]

10 Revise client-facing documents to emphasize privacy protections.

SST provides law enforcement customers with a variety of documents that touch on privacy-related issues, such as Best Practices, Strategies & Recommendations and Model Policy Elements. We think it is important that SST provides this type of

13. For reference, ShotSpotter's previous privacy policy, dated March 31, 2015, is available at https://www.shotspotter.com/apps/privacy/.
14. It is a core tenet of the Policing Project that new policing technologies should be adopted transparently and with public input. Although this is not technically part of our privacy audit, we applaud SST for urging its customers to engage the public in a discussion about the acquisition and use of its products as the first principle of its privacy policy.

support. In fact, we think it irresponsible for technology companies to provide surveillance technologies to law enforcement agencies without a draft use policy. We have suggested that SST revise these documents to emphasize many of the same principles outlined in its new privacy policy—specifically, that its technology cannot be used for voice surveillance, that the sensor audio storage cannot be used to obtain "extended" or "additional" audio but only can be used to search for missed gunshots and that subpoenas for audio will be contested.

SST has adopted this recommendation and has already made these changes.

11 Whenever possible, avoid placing sensors on particularly sensitive locations.

Although ShotSpotter is not especially calibrated to record human voice and SST takes measures to avoid this occurrence—for example, by not using particularly sensitive microphones, placing sensors high above the ground, and ensuring that only gunshot-like sounds trigger an IRC notification—there remains the possibility that voice will be captured by a sensor incidentally. Knowing this, we raised with SST a general concern about the location of sensors. Specifically, we raised whether SST could minimize the impact of incidental voice capture (and also allay public concerns) by avoiding placing sensors in locations that present concerns for the surrounding community based on protected First Amendment characteristics, prior experience with policing, or other social vulnerabilities. For example, our conversations with SST included discussions of public housing campuses, where residents often are already subjected to a great deal of surveillance, and houses of worship, particularly those that have been subject to unlawful government surveillance in the past. Other examples of sensitive locations may include hospitals, healthcare clinics, or schools.

SST explained that an absolute ban on these types of locations simply cannot be implemented without major disruption of ShotSpotter's coverage and performance. For example, SST explained that there are occasions when it must use certain public buildings, including government-owned housing, in order to maintain the consistency of its detection system. In fact, many jurisdictions that choose to use ShotSpotter suffer from gun violence in close proximity to public housing. SST explained that placing sensors quite high, often on rooftops, could mitigate incidental voice capture, but entirely avoiding those structures would severely limit ShotSpotter's utility to these jurisdictions. The best across-the-board commitment SST can make in this context is to instruct its personnel to make reasonable efforts to avoid sensitive locations when less sensitive locations are possible.

Deciding between these trade-offs is a classic example of the value of benefit-cost analysis. Jurisdictions that have decided to utilize ShotSpotter plainly believe in its utility in detecting and alerting law enforcement to gunfire. Given that, and the relatively minimal concerns with privacy that we believe ShotSpotter presents, it makes sense to place sensors where they will be effective. As noted above, ShotSpotter will seek to minimize those locations when possible.

I. DATA SHARING WITH THIRD PARTIES

As discussed above, ShotSpotter generates two categories of data as it operates: First, other than the limited audio used to improve its gunshot detection algorithm,[15] the only audio data SST retains are the short audio snippets of loud "impulsive" sounds detected by three or more sensors. Second, for each detected gunshot, SST retains metadata, including detailed date, time, GPS location, and certain gunfire characteristics (e.g., number of shots). In aggregate, SST maintains the most comprehensive data set of gunfire information in the country.

Under current contractual arrangements, in all but a few cases, SST retains ownership of this data. As a practical matter, this means that in addition to sharing data with its customer, SST has the legal authority to share, license, or sell the data as it pleases. SST's position is that it is within its right to control and share this data because it is a private company using proprietary technology to offer a service to law enforcement. On the other hand, there are those who have expressed concern with this model, insisting that because ShotSpotter is used by law enforcement, its data, like other law enforcement data, should be public.[16] We do not take a position on this debate, but do offer our views about situations in which SST might share ShotSpotter data beyond its local law enforcement customers.

Although not technically a matter of personal privacy and thus somewhat outside the scope of our assessment, we have chosen to comment on this complex issue because we feel it is essential that SST take steps to clarify its third-party data sharing practices. SST has disclosed to us that it shares data with hospitals and researchers. SST has also informed us that, due to contractual arrangements, it cannot share the identity of all other third parties with which it shares such data. We obviously cannot comment on the implications of SST sharing data with unknown entities. Nor can we anticipate all the possible situations where third-party sharing may arise in the future. Knowing this, we have done our best to offer some general guidance on this issue based on our experience:

First, we consider it absolutely bedrock that jurisdictions have access to not only gunfire alerts but also their own aggregate data (*i.e.* data from gunfire alerts aggregated in a manner that easily allows jurisdictions to see how often, when, and where gunfire is occurring). Access to clear, aggregate gunfire data is vital so that the public can make informed public safety decisions. Moreover, realizing that jurisdictions often lack the internal capability to analyze the data in rigorous ways, we believe SST should allow

15. See *supra* note 8.
16 See, e.g., Jason Tashea, *Should the public have access to data police acquire through private companies?*, AMERICAN BAR ASSOCIATION JOURNAL (Dec. 1, 2016). http://www.abajournal.com/magazine/article/public_access_police_data_private_company.

jurisdictions to share their data with outside researchers, so long as the work is in furtherance of local public safety objectives.

At the same time, we understand there may be compelling public safety reasons why SST feels it should hold back certain detailed information. If so, SST should make those reasons clear and public. For example, one could imagine that for privacy and safety reasons law enforcement or victims might not want precise GPS data regarding specific incidents made public. Similarly, there is a plausible concern that certain third parties could make use of precise GPS data in ways that undermine communities (see discussion below regarding insurers). The conclusions SST reaches on this issue should be explained in its written policies, so the merits can be evaluated.

Second, although our understanding is that SST does not currently share audio snippets with any third parties, SST must address if, when, and how it will do so in the future. In addressing this issue, we suggest that sharing audio snippets with third parties should be subject to at least the same safeguards as with law enforcement customers, if not more.[17] Because we see little risk to personal privacy when the snippets are generated to begin with, we see little additional risk when it comes to sharing these snippets. Still, we think impacted communities may rightfully expect more details about SST's audio-sharing practices going forward.

Third, we suggest SST develop and make public its principles on when it will share non-audio data (*e.g.*, gunfire time and location) with third parties. Unlike audio data, which SST does not currently share, SST does share gunfire alert data.

This data can take multiple forms—from sharing alerts in real-time, similar to what law enforcement receives, to sharing only high-level aggregate data. In our view, sharing alerts in real-time raises significantly different concerns than sharing aggregate data, and we urge SST to exercise great caution when considering doing so. We raise this caution for the simple reason that real-time alerts can trigger a variety of real-time responses, over which SST will not have any control (and which we cannot predict). For example, it is one thing, if a hospital uses real-time alerts to deploy ambulances; it is quite another thing if a news agency uses real-time alerts to deploy camera crews. Even sharing alerts with outside law enforcement agencies creates the possibility for additional law enforcement response.

Whether real-time alerts or aggregate data, we believe that SST should address how and whether it will inform jurisdictions that data from their communities is being shared. SST has a range of options here, from asking jurisdictions for consent to share the data to sharing the data without notice. In our view, the degree of transparency that is appropriate depends on the specificity of the data being shared:

17. To be perfectly clear, we view sharing access to raw sensor audio as completely unacceptable (as we would if law enforcement were given such access). SST does not do this, not with customers and not with third parties.

On one end of the spectrum, real-time alerts with full metadata should reasonably involve the same degree of transparency and public engagement as the decision to implement ShotSpotter to begin with. On the other hand, when it comes to including a jurisdiction's information in an aggregate, nation-wide report, we see little need for specific notice.[18]

What's more, the identity of the third party seeking access to SST's data is critically important. In certain communities, for example, any information sharing with U.S. Immigration and Customs Enforcement (ICE) would be a non-starter. In fact, there are those who may view information sharing with any federal law enforcement agency quite differently than sharing with local law enforcement as local communities have much more of a say in crafting local enforcement priorities (*e.g.*, sanctuary policies, decriminalizing low-level offenses) than they do over federal law enforcement.[19]

Sharing with private parties is equally complex. For example, there are those third parties whose efforts are aimed at strengthening communities such as through improved public health and public safety (*e.g.*, hospitals). Sharing with these third parties is unlikely to cause concern. Moreover, we cannot understate the importance of providing researchers with quality data. There remains a tremendous knowledge gap in the public safety sphere.[20] At the same time, we think SST should avoid sharing data with third parties who likely would use the data to target or undermine the very communities that SST's technology avers to benefit. By way of example, we can imagine insurance companies using gunshot data as some have used race—as a proxy for actuarial risk and charging minority communities higher insurance rates or even denying coverage.[21]

These are complicated issues and we do not claim to have all the answers. In truth, the answers may vary from community to community. But just as SST has taken the burden upon itself to implement and make public its robust personal-privacy practices, we fully expect it will do the same when it comes to data sharing.

18. One example of this type of high-level reporting is the aggregate data SST includes in its National Gunfire Index. See ShotSpotter Inc., 2017 National Gunfire Index, https://www.shotspotter.com/2017NGI/.
19. We refer here to federal law enforcement agencies, not federal research institutions. One could imagine, for example, a time in the future when the Center for Disease Control might once again be permitted to conduct research into gun violence, and might find SST's data useful.
20. See, e.g., Barry Friedman & Kate Mather, Policing, *U.S. Style: With Little Idea of What Really Works*, JUST SECURITY (July 10, 2019), https://www.justsecurity.org/64865/policing-u-s-style-with-little-idea-of-what-really-works/. Although SST may want to vet the credentials of researchers who want SST's data to ensure their work is generally of high quality, we believe the country would greatly benefit from rigorous social science research that utilizes SST's gunfire data.
21. See, e.g., Julia Angwin, et al., *Minority Neighborhoods Pay Higher Car Insurance Premiums Than White Areas With the Same Risk*, PROPUBLICA (April 5, 2017), https://www.propublica.org/article/minority-neighborhoods-higher-car-insurance-premiums-white-areas-same-risk.

VII. CONCLUSION

ShotSpotter gunshot detection technology offers law enforcement a tool to improve their response to gun violence, including responding to gun-fire incidents that previously went unreported. But nearly every public safety tool comes with privacy and civil liberties tradeoffs. It is incumbent on law enforcement and the communities they serve to understand these tradeoffs before acquiring any new technology.

It is both inappropriate and unfair to place the entire burden of developing costs and benefits on the public. It is essential that technology providers both make these tradeoffs clear (by transparently explaining how their products operate) and by taking meaningful steps to improve their technology's design and operation to maximize public safety benefits while minimizing intrusions on civil liberties. We hope that this report helps accomplish both of those goals regarding ShotSpotter.

In response to this report, SST has undertaken significant internal efforts to implement our recommendations and make ShotSpotter more privacy protective. These changes were not costless, and in some cases significantly impacted the technology's operation. Still, SST made a conscious decision to embrace this tradeoff. Other policing technology companies should follow SST's leadership and proactively embrace their responsibility in protecting individual liberty.

Other policing technology companies should follow SST's leadership and proactively embrace their responsibility in protecting individual liberty.

VIII. MORE ABOUT THE POLICING PROJECT

The Policing Project at New York University's School of Law is an independent nonprofit research and public policy organization focused on ensuring just and effective policing through democratic accountability. The Policing Project works across a host of issues—from use of force and racial profiling, to facial recognition, to reimagining public safety—in close collaboration with stakeholders who typically find themselves at odds. We bring a new approach to these fraught areas—one grounded in democratic values and designed to promote transparency, racial justice, and equitable treatment for all.

Our work is focused on policing "accountability," but also on changing what people mean when they demand accountability. When people unhappy with policing talk about a lack of "accountability," they typically mean that when an officer harms someone, or surveillance techniques are deployed inappropriately, no one is held responsible—officers are rarely disciplined or criminally prosecuted, courts admit evidence the police have seized illegally, and civil lawsuits are not successful. This is back-end accountability. It kicks in only after something has gone wrong, or is perceived to have gone wrong. Back-end accountability is important, but it can only target misconduct. As such, there is a limit to what it can accomplish to guide policing before it goes awry.

Our work focuses on ensuring accountability and democratic participation on the front end. Front-end or democratic accountability involves promoting public voice in setting transparent, ethical, and effective policing policies and practices *before* the police or government act. The goal is achieving public safety in a manner that is equitable, non-discriminatory, and respectful of public values. This is how we think of accountability in most of government, yet this is all too rare in policing. We are working to change that.

Today, the Policing Project partners with civic leaders, law enforcement agencies, grassroots community organizations, and advocacy groups across the country to promote public safety through transparency, equity, and democratic engagement. Our work is carried out through demonstration projects, researching and evaluating existing oversight models, engaging in public advocacy, convening conferences and roundtables with academics and law enforcement personnel, and engaging in targeted litigation around policing issues.

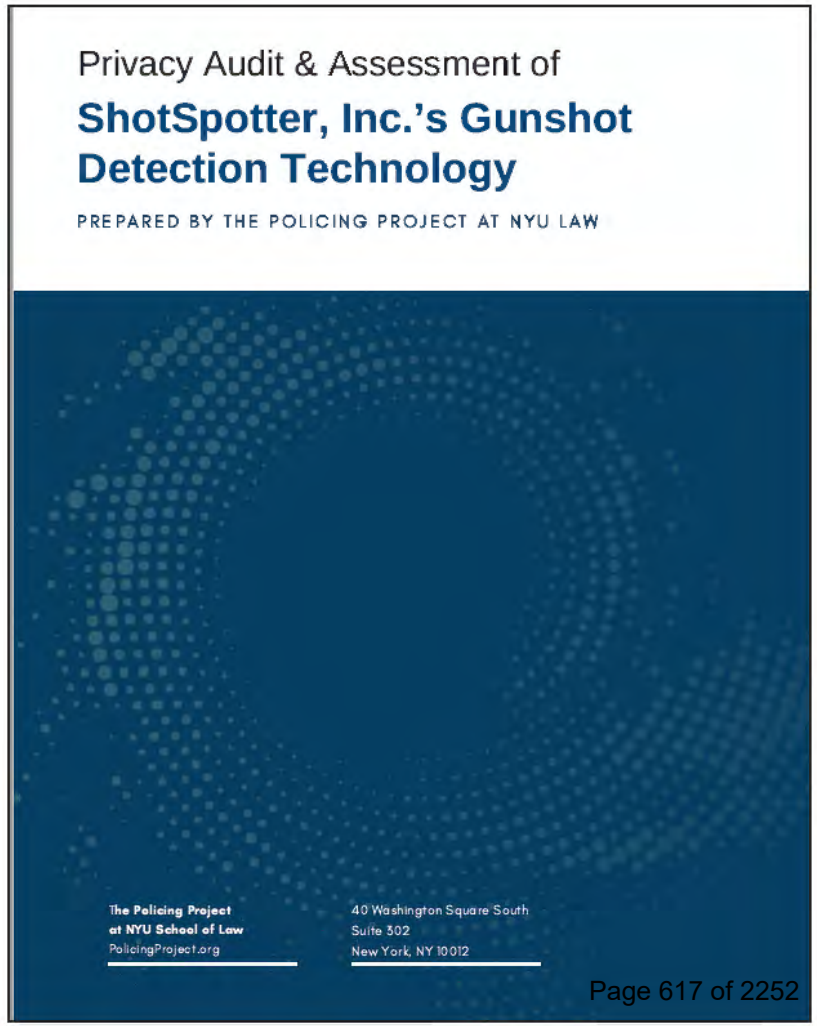
ShotSpotter®

Overview of Community Privacy Protections

Making Communities Safer

Summary

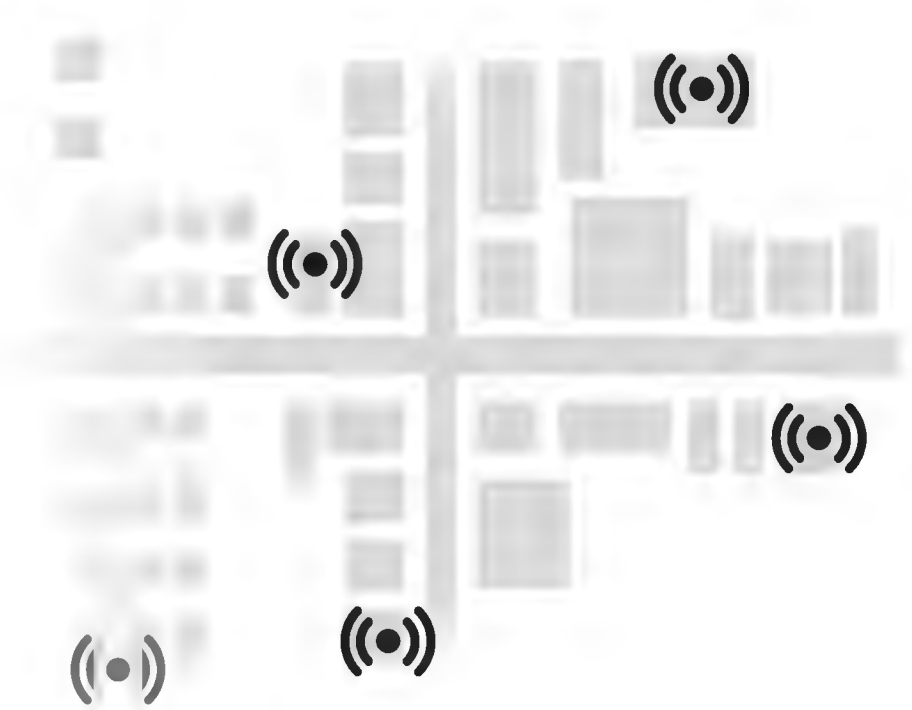
- ShotSpotter has been incorporating privacy protections into its gunshot detection technology and policies for several years



- In 2019 the company commissioned an independent audit of its technology, processes and policies to get an unbiased view of its approach to privacy. The report confirmed the risk of voice surveillance is extremely low and the auditing organization praised the company for taking steps to further enhance its privacy protections based on the audit (details on next slide)

- The ShotSpotter gunshot detection solution unanimously passed review by the city of Oakland in November 2019 which has one of the most stringent city surveillance ordinances in country. In November 2020, the system also passed review by the San Francisco Privacy and Surveillance Board. Related article

- We train all existing and new employees on privacy protections and constantly consider privacy a key factor when assessing the development of new features and products

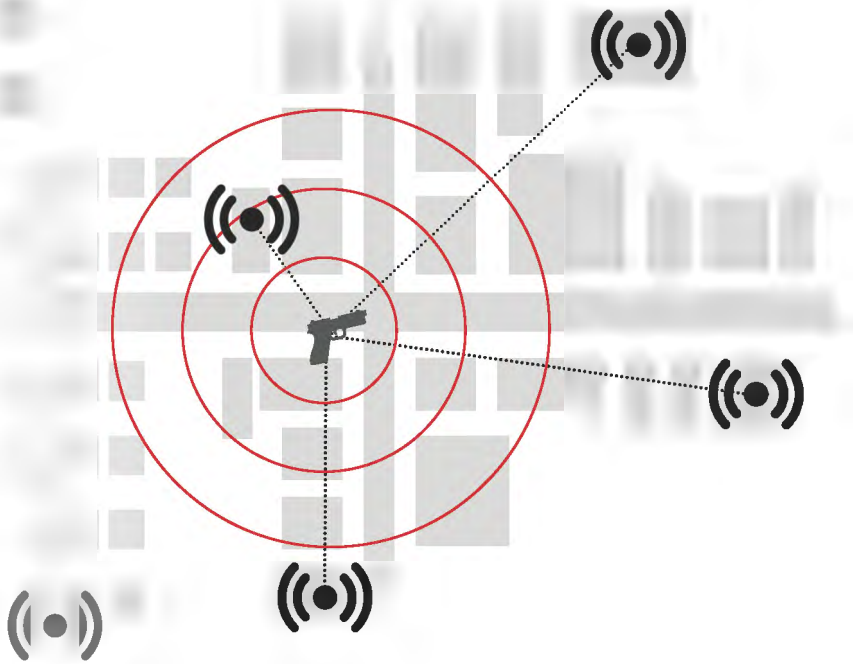


Independent Privacy Audit Conclusions and Recommendations

- **Policing Project at NYU Law School** conducted independent review of ShotSpotter privacy policies and procedures in 2019.
- Given **total access** to all systems and documentation and **total editorial control** over report content
- Overall assessment
  - "We ultimately conclude that **the risk of voice surveillance is extremely low.**"
  - "While sensors constantly are "listening," audio is only temporarily stored, and audio is only retained if the computer algorithm or human reviewer detects a gunshot. All other audio is routinely purged from SST's systems."
- ShotSpotter adopted Policing Project's 11 **detailed recommendations** to further minimize any risk:
  - Reduce audio spool from 72 hours to 30 hours
  - Minimize length of audio snippets to 1 second before and after the incident itself
  - Strengthen internal access procedures
- Policing Project's **full report** available at: policingproject.org/ShotSpotter

Community Privacy Protections: Prior to System Activation

- When ShotSpotter comes to a new city, we strongly encourage our police agency customers to engage with their communities about the decision to acquire and use our technology.
- Using a data-driven approach, ShotSpotter works with our clients to determine the geographic area they want covered by ShotSpotter (i.e. the most gun violent areas)
- When the coverage area is set, ShotSpotter engineers determine where to place sensors so as to allow even gunshot detection throughout the area. Police do not determine where to place sensors and do not have access to a database of sensor locations.
- ShotSpotter acoustic sensors are not positioned, tuned or specialized to pick up human voices. The sensors use ordinary microphones and are placed high above the street.

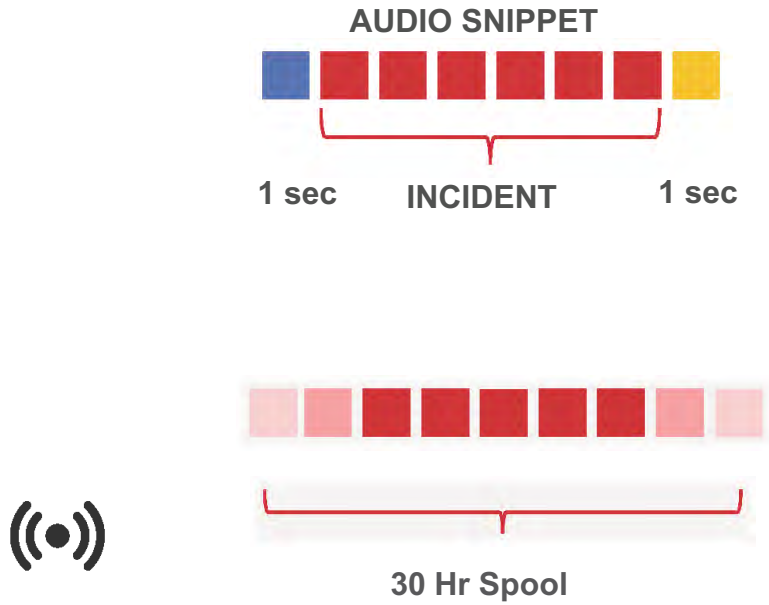


Community Privacy Protections: Before and During an Incident

- Sensors “listen” for gunshot-like sounds and trigger only when detecting an impulsive sound (instantaneous and sharp). When at least three different sensors detect a gunshot-like sound at the same time and determine a location, they send a short audio snippet to the ShotSpotter Incident Review Center (IRC).

- Human voices will never trigger a sensor because they do not produce an instantaneous sharp sound and they are not loud enough to be picked up by three or more sensors.

- Live streaming of sensor audio is not possible by company employees, police or third parties.



Community Privacy Protections: Before and During an Incident

- Upon detecting a likely gunshot, trained ShotSpotter personnel listen to a short computer-generated audio snippet of the gunfire to double check that it is actually gunfire. This snippet only includes the gunfire sound and 1 second before and after to establish ambient noise.
- It is highly unusual for a human voice to be included in a snippet. For this to occur, the voice must be concurrent with the gunfire and loud enough to be heard over the gunfire. There is no personally identifiable information in any ShotSpotter audio snippet.
- In the past extended audio was available to police agencies and prosecutors for court cases. This is no longer possible under new policy and technology controls.

Community Privacy Protections: After an Incident

- The company made changes to the system since 2012 to prevent police and employee access to extended audio.
- If ShotSpotter receives a request, including a subpoena, for additional audio beyond the gunshot snippet, the company has and will continue to fight the request.
- Occasionally, police contact ShotSpotter because a gunshot incident may not have triggered an alert. Sensors store 30 hours of audio and automatically delete audio older than 30 hours. Neither police nor third parties ever have direct access to this audio.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2024-5

INTRODUCED BY:

Councilor Amanda Chavez

A RESOLUTION

COMMITTING TO BEING A MORE AGE-FRIENDLY CITY AND ENROLLING IN THE AMERICAN ASSOCIATION OF RETIRED PERSONS ("AARP") AGE FRIENDLY STATES AND COMMUNITIES NETWORK, WHICH, TO THE EXTENT IT IS POSSIBLE, WILL BE A PROCESS THAT INCORPORATES UNIVERSAL DESIGN PRINCIPLES.

WHEREAS, according to the United States Census Bureau's 2020 Census, 23.8% of City of Santa Fe ("City") residents are ages 65 or older as compared to 16.04% nationwide; and

WHEREAS, according to the United States Census Bureau's article "The Next Four Decades: The Older Population in the United States: 2010 to 2050," the U.S. population aged 65 and over is expected to grow from 40.2 million in 2010 to 88.5 million by 2050, increasing the total share of the 65 and over population from 12 percent to 20 percent of the total population; and

WHEREAS, according to the New Mexico Human Services Department's "2021 Data Book", the elderly population of Santa Fe County is projected to increase from 25.3% in 2019 to 58.2% of adults ages of 65 and over by the year 2030; and

WHEREAS, the World Health Organization ("WHO") has developed the WHO "Global

Network of Age-Friendly Cities and Communities" to encourage and promote public policies to increase the number of communities that support active aging and thereby improve the health, well-being, satisfaction, and quality of life for older adults; and

WHEREAS, the American Association of Retired Persons (AARP) "Age-Friendly States and Communities" is a national program affiliated with the WHO's Global Network of Age-Friendly Cities and Communities; and

WHEREAS, members of the AARP Network of Age-Friendly States and Communities benefit from:

A. Automatic entry to the WHO global network.

B. A wide range of free resources on age-friendly and livable communities

C. The latest news and information about best practices, events, results, challenges, and new initiatives

D. Opportunities for partnerships with other cities, both domestic and international

E. Peer-to-peer learning opportunities

F. Public recognition of the community's commitment to become more age-friendly; and

WHEREAS, the Governing Body agrees with the AARP's Network of Age-Friendly States and Communities belief that "people of all ages benefit from the adoption of policies and programs that make neighborhoods walkable, feature transportation options, enable access to key services, provide opportunities to participate in community activities, and support housing that's affordable and adaptable"; and

WHEREAS, the WHO and AARP recognize that towns, cities, and communities have different needs, resources, and varying capacities to engage their resources to take action to facilitate active aging; and

WHEREAS, the WHO established eight domains of community life that should be

formally targeted for livability and quality of life for persons of all ages:

A. Outdoor spaces and building

B. Transportation

C. Housing

D. Social participation

E. Respect and Social inclusion

F. Civic Participation and employment

G. Communication and information; and

H. Community support and health services; and

WHEREAS, the Governing Body would like the City to join the AARP Network Age-Friendly States and Communities; and

WHEREAS, the Governing Body believes, and research supports, the idea that the concepts of "universal design", and their focus on accessibility, are a clear complement to the goals of being an age friendly city; and

WHEREAS, specifically, according to the article "Universal Design: A Step Toward Successful Aging," published in the *Journal of Aging Research in 2012*, the concepts of Universal Design support the Age-Friendly rationale by having "the potential to affect older adult's engagement with life, by providing accessible and accommodating environments in which this population can thrive without stigmatization"; and

WHEREAS, according to the Center for Disability Rights, Ron Mace, an architect known for his role in coining the term "Universal Design" and championing accessible building codes and standards in the United States, defines universal design as "the design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptations or specialized design"; and

WHEREAS, according to the article "Universal Design: A Step Toward Successful

Aging," which was published in the *Journal of Aging Research* in 2012, the seven principles of Universal Design are as follows:

A. Equitable use

- Useful and marketable to people with diverse abilities

B. Flexibility in Use

- Accommodates a wide range of individual preferences and abilities

C. Simple and Intuitive Use

- Easy to understand, regardless of user's experience, knowledge, language skills, or current concentration level

D. Perceptible Information

- Communicates necessary information effectively to the user, regardless of ambient conditions or the user's sensory abilities

E. Tolerance for Error

- Minimizes hazards and the adverse consequences of accidental or unintended actions

F. Low Physical Effort

- Can be used efficiently and comfortably with a minimum of fatigue

G. Size and Space for Approach and Use

- Appropriate size and space provided for approach, reach, manipulation, and use regardless of the user's body size, posture, or mobility; and

WHEREAS, the City has a history of seeking to create an inclusive environment for all individuals; and

WHEREAS, Section 2.02 of the City's Charter states that "human and civil rights of residents of Santa Fe and inviolate" and that "the governing body shall preserve, protect and

promote human rights… through all of its activities" and that those rights "shall not be diminished or otherwise infringed", regardless of age; and

WHEREAS, the City recognizes that compliance with Title II of the Americans with Disabilities Act, Section 202, addresses some of the accessibility goals of the Age Friendly States and Communities network; and

WHEREAS, consulting committees with specialized knowledge on accessibility matters, such as the Mayor's Committee on Disability, can be beneficial when working toward creating an inclusive community.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that it is committed to making Santa Fe a well-designed, livable community that promotes health and sustained accessibility for community members of all ages.

BE IT FURTHER RESOLVED that the City Manager or the City Manager's designee will enroll the City in the AARP Network of Age-Friendly States and Communities by submitting the required membership application and committing the City to a 5-year process of improvement according to the following timeline:

1. First 30 days: Enroll into the network of AARP Network of Age-Friendly States and Communities;
2. Year 1: Conduct a community needs assessment and present results to the Governing Body, including identifying what work the City already has in place that contributes to qualifying as an Age-Friendly city, as defined by the AARP Network of Age Friendly States and Communities program;
3. Year 2: Develop and present an action plan to the Governing Body for approval;
4. Years 3-5: Implement the action plan and track progress; and
5. Year 5: Evaluate the impact of the work and present a progress report to the Governing Body.

BE IT FURTHER RESOLVED that, to the extent it is possible and practical, the City will incorporate Universal Design principles in its planning process for the 5-year commitment described above, and in doing so, will collaborate with committees that have relevant, specialized expertise, such as the Mayor's Committee on Disability.

PASSED, APPROVED, and ADOPTED this 28th day of February, 2024.

Alan Webber (Feb 29, 2024 14:21 MST)

CITY OF SANTA FE

Age-Friendly Santa Fe Action Plan

A roadmap for aligning City systems to support independence, connection, and well-being across the lifespan

Prepared by the City of Santa Fe in partnership with residents, community organizations, and City departments

A member of the AARP Network of Age-Friendly States and Communities

City of Santa Fe
Department of Community Services
Division of Senior Services

2026

Review Draft

Executive Summary

The Age-Friendly Santa Fe Action Plan is a three-year, City-led roadmap to strengthen Santa Fe as a livable, inclusive, and connected community for residents of all ages. Grounded in extensive community engagement and aligned with national and global age-friendly frameworks, the plan advances a coordinated, all-ages approach to aging well while supporting the City's broader goals for quality of life, equity, and long-term resilience.

Santa Fe's population is older than state and national averages, increasing demand for accessible housing, reliable transportation, clear information, safe public spaces, and opportunities for connection and participation. Community input confirmed that while Santa Fe offers strong assets—such as libraries, senior centers, cultural institutions, and community organizations—residents often experience services as fragmented and difficult to navigate. This Action Plan responds by aligning existing City efforts, strengthening coordination, and embedding age-friendly and lifespan considerations into planning, policy, and service delivery.

The plan is guided by a clear mission: to create inclusive environments that support independence, safety, participation, and well-being across the lifespan. Five core values shape this work:

- Aging is understood as a lifelong experience, not a stage limited to older adulthood.
- Inclusion and accessibility are essential to community well-being.
- Coordination across departments and partners strengthens impact.
- Community knowledge and lived experience inform effective solutions.
- The Division of Senior Services is positioned as a strategic asset for collaboration.

Guiding principles translate these values into practice by committing the City to apply an all-ages lens, build on existing plans and initiatives, integrate age- and ability-inclusive considerations early in decision-making, strengthen shared responsibility across systems, improve access to clear information for residents, and pursue realistic, scalable approaches that can be sustained over time.

These commitments are operationalized through six interconnected goal areas identified through the community needs assessment:

- Transportation – improving safe, reliable access to healthcare, services, work, and community life.
- Housing – supporting affordability, accessibility, and the ability to age in place.
- Communication and Information – making services easier to find, understand, and navigate.
- Health and Wellness – strengthening access to prevention, care, and intergenerational learning.
- Social Engagement and Participation – expanding connection, belonging, civic life, and economic participation across ages.

Review Draft

- Safety and Public Spaces – improving the accessibility and usability of streets, neighborhoods, and public spaces.

Cross-cutting strategies support implementation by establishing shared leadership through an Age-Friendly Advisory Team, positioning Senior Services as a coordinating and advocacy hub, integrating age-friendly priorities into City planning processes, and strengthening communication, engagement, and feedback loops across City departments and community partners.

The goals, strategies, and actions outlined in this plan serve as an initial implementation roadmap. Progress will be guided by ongoing community engagement, evaluation, and collaboration, allowing the City to refine or adapt approaches as conditions change. Together, the Age-Friendly Santa Fe Action Plan embeds age-friendly and lifespan thinking into how Santa Fe plans, invests, and governs—supporting independence, inclusion, and quality of life for current and future generations.

Letter of Support from the Mayor of the City of Santa Fe

SAMPLE LETTER: *As Mayor of the City of Santa Fe, I am proud to offer this letter of support for the Age-Friendly Santa Fe Action Plan. This plan reflects our city's commitment to becoming a more livable, inclusive, and connected community for residents of all ages, with a particular focus on older adults and future generations.*

I fully endorse the plan's mission to align City policies, programs, and partnerships around an all-ages, lifespan approach to aging well. I especially support its emphasis on inclusion and accessibility, coordination across departments and community partners, and the central role of community voice and lived experience in shaping priorities. The plan's recognition of the Division of Senior Services as a strategic partner in City governance is both timely and essential.

I also support the six core goal areas—transportation, housing, communication and information, health and wellness, social engagement and participation, and safety and public spaces—which emerged directly from extensive community engagement. Together, these goals provide a clear and actionable framework for improving independence, safety, and quality of life for residents across the lifespan.

As Mayor, I am committed to working with the City Council, staff, community organizations, and residents to advance this Action Plan and to integrate its values and principles into our broader planning and investment decisions.

I offer this letter as my formal support and appreciation for the Age-Friendly Santa Fe initiative and the collaborative work it represents on behalf of our community

.

Review Draft

Letter of Support from Santa Fe City Council

SAMPLE LETTER: *The Santa Fe City Council is pleased to express its strong support for the Age-Friendly Santa Fe Action Plan and the community-wide effort it represents to make Santa Fe a more livable, inclusive, and connected city for residents of all ages. This Action Plan reflects the City's commitment to aligning policies, programs, and partnerships around a coordinated, all-ages approach to aging well, consistent with Santa Fe's participation in the AARP Network of Age-Friendly States and Communities.*

The Council affirms the plan's mission to advance environments that support independence, safety, participation, and well-being across the lifespan. We endorse the plan's core values, including the recognition that aging is a lifelong experience shaped by everyday systems; that inclusion and accessibility are essential to community well-being; that coordination across City departments and community partners strengthens impact; that community knowledge and lived experience are critical to effective decision-making; and that the Division of Senior Services is a strategic asset in advancing age-friendly priorities across City governance.

We also support the guiding principles that translate these values into action. Applying an all-ages lens, building on existing City plans and initiatives, integrating age- and ability-inclusive considerations early in planning and design, strengthening collaboration and shared responsibility, improving navigation and clarity for residents, and pursuing sustainable and scalable approaches all align with the Council's priorities for equitable, effective, and accountable governance.

The Council endorses the plan's six interconnected goal areas, which reflect priorities identified through extensive community engagement. These include improving transportation options; supporting affordable and accessible housing conditions; strengthening communication and information systems so residents can more easily find and use resources; expanding access to health, wellness, and prevention services across the lifespan; deepening social engagement, civic participation, and economic opportunity; and improving the safety and accessibility of public spaces.

We view the Age-Friendly Santa Fe Action Plan as a living framework that will evolve through implementation, evaluation, and continued community engagement. The City Council is committed to supporting this work through its policy, budgeting, and oversight roles and looks forward to continued collaboration with the Mayor, City staff, community partners, and residents to advance the plan's vision.

On behalf of the residents of Santa Fe, we offer this letter as a formal expression of support for the Age-Friendly Santa Fe Action Plan.

Introduction

Historical Background

Santa Fe, New Mexico, is one of the oldest continuously inhabited places in North America and the oldest state capital in the United States [1]. Long before European contact, the area was home to Pueblo communities, with settlements dating back to approximately 1050–1150 CE. The region served as an important cultural, spiritual, and trade center for Indigenous peoples [2].

Spanish colonists formally established Santa Fe as the capital of the province of Nuevo México in 1609–1610 under Governor Pedro de Peralta. The Palace of the Governors, constructed in 1610 along the north side of the Plaza in the center of the city, remains the oldest continuously used public building built by European settlers in the continental United States [3].

Santa Fe's history reflects successive periods of Indigenous, Spanish, Mexican, and American governance, including the Pueblo Revolt of 1680, Mexican independence in 1821, U.S. occupation in 1846, and statehood in 1912. This layered history continues to shape the city's identity, civic life, and planning priorities.

Demographics

Santa Fe is a small but influential state capital with approximately 88,000–90,000 residents. The city functions as a regional center for government, tourism, healthcare, arts, and culture [1][4].

The population is racially and ethnically diverse, with more than half of residents identifying as Hispanic or Latino. Santa Fe has a slightly higher proportion of women than men and an average household size just over two persons, reflecting a mix of single-person households, couples, and smaller families.

Race / Ethnicity Share of Population (%)	
Hispanic or Latino (any race)	~ 54%
White (non-Hispanic)	~ 38%
Native American / Alaska Native	~ 3%
Black or African American	~ 1%
Asian American	~ 1%
Two or more races / Other	~ 3%

Race and Ethnicity of Santa Fe Residents. Source: U.S. Census Bureau, American Community Survey (2019-2023 5-Year Estimates).

Review Draft

Government is the largest employer, followed by hospitality, healthcare, and creative industries. Income levels vary widely, reflecting a population that includes retirees, professionals, artists, service workers, and long-term residents. [2].

Age and Disability Demographics in Santa Fe

Santa Fe's population is significantly older than both New Mexico and the United States overall. The city's median age is 46.4 years, compared with 39.9 years statewide and 39.2 years nationally, reflecting both the aging of long-term residents and the in-migration of older adults and retirees [1].

Santa Fe, New Mexico, and United States Age Demographics		
Location	**Median Age**	**% 65 years and older**
Santa Fe, New Mexico	46.4	26%
New Mexico	39.9	20%
United States	39.2	18%

Median Age Comparison: Santa Fe, New Mexico, and the United States. Source: U.S. Census Bureau, American Community Survey (2019-2023 5-Year Estimates).

Adults aged 45 and older represent a larger share of Santa Fe's population compared to those in the state or nation, while children and young adults account for a smaller proportion. These differences increase demand for healthcare, accessible housing, transportation, and community supports that enable healthy aging.

Santa Fe's disability rate is higher than the national average, possibly in part because the city has a significant older adult population. About 10% of residents under age 65 report a disability, and an estimated 17% of residents overall live with a disability, compared to about 13% nationally [1]. These patterns underscore the need for accessible services, clear information, and coordinated resources that support residents across the lifespan.

Arts, Culture, and Community Events

Arts and culture are central to Santa Fe's identity and function as civic and economic infrastructure. The city was designated as a UNESCO Creative City, reflecting its long-standing commitment to heritage, creative industries, and cultural expression [5].

Signature events include the Santa Fe Indian Market, the Traditional Spanish Market, and the International Folk Art Market, each reflecting Indigenous, Hispano, and global traditions [6][7][8]. Performing arts, museums, festivals, and year-round programming contribute to Santa Fe's role as a living cultural landscape [4].

Review Draft

Everyday gathering spaces, such as the Santa Fe Plaza and the Santa Fe Farmers Market continue to support social interaction, community identity, and intergenerational connection, reinforcing the city's role as a living cultural landscape [9][10].

Economy, Retirement, and Tourism

Santa Fe's economy is centered on tourism, arts, culture, and small businesses. Tourism attracts approximately 2 million overnight visitors annually and supports employment, small businesses, and City revenue [11]. City initiatives such as "Go Local, Go Different" promote local entrepreneurship and help retain economic activity within the community.

Santa Fe is also consistently ranked among the best places to retire in the United States, due to its mild climate, rich cultural scene, outdoor recreation opportunities, and lack of state income tax on Social Security income. Retirees value the city's small-town feel with access to world-class arts, dining, and healthcare, including services provided by Christus St. Vincent Regional Medical Center [12–15].

Tourism and retiree attraction function as complementary economic drivers. Retirees contribute to local spending on housing, healthcare, dining, and retail, supporting job creation and tax revenue. At the same time, increased demand can shift employment toward lower-wage service roles and place upward pressure on housing costs, affecting affordability for workers and long-term residents [16–18].

Tourist-oriented development can also make it harder for full-time residents—especially older adults—to age in place by displacing neighborhood-serving businesses, increasing short-term rentals, and weakening local social networks. Even when residents remain housed, rising costs and the loss of familiar places can contribute to "indirect displacement," reducing stability, belonging, and quality of life. These impacts tend to fall most heavily on lower-income and less mobile residents [19-23].

For Santa Fe, balancing tourism, retirement migration, housing affordability, workforce needs, and the well-being of long-term residents is essential to sustaining community stability and quality of life.

Review Draft

Age-Friendly and Lifespan Approaches to Aging

Age-friendly and lifespan approaches to aging are complementary frameworks that guide how communities, systems, and policies can support well-being across the life course. While age-friendly initiatives typically focus on adapting environments and services to meet the needs of older adults today, lifespan approaches emphasize that aging is a continuous process shaped by experiences, opportunities, and environments from early life through very old age.

Age-Friendly Environments and Systems

Age-friendly approaches emerged in response to rapid population aging and growing recognition that physical, social, and institutional environments strongly influence health, independence, and participation in later life. The World Health Organization defines age-friendly environments as those that "foster healthy and active ageing" by enabling people to meet basic needs, remain mobile, build relationships, and contribute to community life regardless of age or ability [24].

The WHO Age-Friendly Cities Framework identifies key domains—such as housing, transportation, outdoor spaces, social participation, respect and inclusion, communication, and community support—that shape older adults' ability to age safely and meaningfully [24]. More recent global efforts, including the WHO's Decade of Healthy Ageing (2021–2030), emphasize embedding age-friendly principles across sectors, including health systems, housing, and social services [25].

Age-friendly features in homes and communities—such as universal design, safe mobility, proximity to services, and opportunities for social connection—are associated with better physical health, mental health, and quality of life in later years [26]. Importantly, age-friendly work increasingly recognizes diversity among older adults, including differences in income, culture, health status, disability, and caregiving roles, and the need to design systems that reduce inequities rather than reinforce them [24].

Lifespan Perspectives on Aging

Lifespan approaches view aging not as a stage that begins in later life, but as a lifelong developmental process influenced by biological, psychological, social, and environmental factors that interact over time. Beliefs and expectations about aging form early in life through family, media, education, and culture and can shape health behaviors, cognitive functioning, and social participation across decades.

Negative views on aging are associated with poorer health outcomes, while more positive and flexible views are linked to better physical health, resilience, and longevity. Interventions aimed at improving aging outcomes cannot focus solely on older adulthood; they must also address education, work, health behaviors, and social inclusion earlier in life [27].

Review Draft

From a policy and planning perspective, a lifespan lens highlights the importance of continuity-ensuring that systems supporting education, employment, caregiving, housing, and health are designed to adapt as people move through longer and less linear life courses.

Connecting Age-Friendly and Lifespan Approaches

Age-friendly and lifespan approaches are understood as mutually reinforcing. Age-friendly communities and health systems address quality of life through the lens of the needs of older adults, while lifespan-oriented policies aim to innovate conditions that improve aging outcomes for future generations.

Together, these approaches suggest that communities must both retrofit existing systems to support current older residents and redesign institutions—such as education, work, and housing—to reflect longer lives and changing roles over time. Addressing ageism and improving views on aging across the lifespan are critical to the success of both strategies, as social attitudes shape policy priorities, resource allocation, and individual behavior [27-28].

The Stanford Center on Longevity and the "New Map of Life"

The Stanford Center on Longevity is a leading example of a lifespan-oriented approach to aging. Through its *New Map of Life* initiative, the Center calls for rethinking education, work, health, housing, and social institutions to support lives that may span 100 years or more [29].

The *New Map of Life* frames longevity not as a challenge to be managed, but as an opportunity to redesign systems so people can live longer lives that are healthy, purposeful, and economically secure. Its work emphasizes cross-sector collaboration, intergenerational engagement, and design innovation that explore how topics like physical environments, transportation, and climate conditions influence health and equity across the lifespan.

Implications for Community Planning and Policy

For communities, planners, and health systems, investing in age-friendly environments can improve safety, mobility, and social connection for older adults today, while adopting a lifespan perspective encourages earlier and more preventive investments that shape aging outcomes over time.

Together, age-friendly and lifespan approaches provide a comprehensive framework for planning that supports independence, inclusion, and well-being at every stage of life—an essential foundation for communities seeking to become more resilient, equitable, and prepared for demographic change.

Implications for Younger Generations

Age-friendly and lifespan approaches are particularly relevant for younger generations (Generation X, Millennials and Generation Z) who are likely to live longer lives while navigating more complex and less linear life courses than previous generations. These cohorts are expected to experience multiple transitions across education, work, caregiving, and health over

Review Draft

many decades, rather than following a single pathway from school to work to retirement [29]. At the same time, younger generations may be unaware of the impacts longer lives may have on employment and retirement [30].

Age-friendly design benefits these younger generations now, not only in later life. Walkable neighborhoods, reliable public transportation, accessible housing, green space, and inclusive public spaces can support physical and mental health for young adults, families, and older residents alike. Framing age-friendly communities as good for all generations strengthens their relevance as long-term community investments rather than niche aging initiatives.

Lifespan research highlights that behaviors and conditions in early and mid-adulthood strongly influence health and functioning later in life. Younger generations today place a high value on health, well-being, and quality of life, with many prioritizing wellness, flexibility, and supportive environments when making decisions about work and place [31-33]. This orientation aligns with lifespan models that emphasize prevention and supportive environments as foundations for healthy aging.

At the same time, these generations face significant risks related to housing affordability, employment, student debt, and mental health stressors. Lifespan perspectives emphasize that such challenges accumulate over time, potentially leading to poorer aging outcomes if left unaddressed. Age-friendly, lifespan-informed planning therefore plays a critical role in mitigating long-term risk by investing early in housing stability, accessible transportation, social infrastructure, and inclusive economic opportunity.

Economic Participation Across the Lifespan

Beyond shaping physical environments and social infrastructure, age-friendly and lifespan approaches also ask to rethink how communities support work, income security, and economic participation across longer lives. Older adults aged 50 and above are increasingly turning to employment and entrepreneurship for financial stability, flexibility, and autonomy, patterns that signal how work is evolving across the lifespan. Self-employment rates rise sharply with age, from about 25% for workers aged 55–59 to 68% for those aged 75–79, often as independent contractors or small business owners, particularly among those with advanced degrees [34-35].

Programs like AARP Foundation's Work for Yourself@50+ and BACK TO WORK 50+ provide free workshops, coaching, and digital skills training to help older adults launch side hustles, freelance gigs, or businesses, addressing barriers like age discrimination and skill gaps. The Stanford Center on Longevity promotes redesigned employment and entrepreneurship models to support prosperity across extended lifespans [36-37]. This work underscores the need for policies fostering economic vitality and skills development across the lifespan.

The WHO–AARP Age-Friendly Initiative

The Age-Friendly Initiative led by the World Health Organization (WHO) and AARP is a coordinated global and national effort to help communities become better places to live as people age. The initiative focuses on improving the physical and social environments that shape daily life—such as housing, transportation, public spaces, and access to services—so communities support health, independence, and participation for residents of all ages [24][38].

The World Health Organization Age-Friendly Global Network

The WHO launched the Global Network for Age-Friendly Cities and Communities in 2010 in response to rapid population aging and urbanization worldwide. The network provides a shared framework and learning platform for cities, counties, and regions committed to becoming more age-friendly. Membership represents a public commitment to engage residents, assess local conditions, and pursue continuous improvement rather than a one-time designation.

The WHO framework emphasizes 8 domains of livability:

- outdoor spaces and buildings,
- transportation,
- housing,
- social participation,
- respect and social inclusion,
- communication and information,
- civic participation, and
- community support and health services.

Together, these domains highlight how everyday environments and systems influence quality of life across the lifespan [24].

AARP's Role in the United States

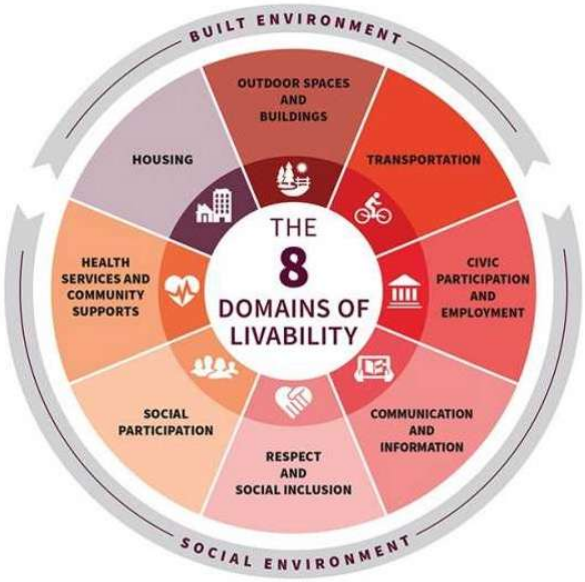
In the United States, the AARP Network of Age-Friendly States and Communities serves as the official U.S. affiliate of the WHO Global Network. Established in 2012, the AARP network supports states, cities, counties, and towns in applying the WHO framework within local contexts. AARP provides technical assistance, planning tools, peer learning opportunities, and national coordination to help participating communities move from commitment to action [39].

As of 2025, more than 1,000 communities are enrolled nationwide, and nearly 40 percent of Americans live in a jurisdiction that has joined the AARP age-friendly network. This growth reflects increasing recognition that age-friendly planning is not solely about older adults, but about creating livable communities that support people across generations [40].

Membership Process and Continuous Improvement

Participation in the WHO–AARP Age-Friendly Initiative follows a structured, multi-year process centered on continuous improvement. Communities begin by adopting a formal resolution or

Review Draft



executive action committing to age-friendly principles, which enrolls them in both the AARP Network and the WHO Global Network. Participating jurisdictions then assess local conditions using data, surveys, and community input; develop a multi-year age-friendly action plan; implement strategies; and monitor progress over time.

Communities are expected to report on progress and adjust strategies as conditions and needs evolve, reinforcing age-friendliness as an ongoing practice embedded in planning, policymaking, and service delivery rather than a standalone project [40].

Broader Impact

Communities participating in the WHO–AARP Age-Friendly Initiative report benefits that extend beyond older adults, including safer streets, more accessible housing, stronger social connections, and improved community well-being. By designing environments and policies that anticipate aging and changing abilities, the initiative advances a more inclusive and resilient community model that supports residents throughout the life course.

Draft

Age-Friendly Santa Fe Initiative

The Age-Friendly Santa Fe initiative is a city-led effort to make Santa Fe a more livable and inclusive community for residents of all ages, with a particular focus on older adults. Led by the City of Santa Fe, the initiative is grounded in formal City Council action committing the City to the AARP Network of Age-Friendly States and Communities.

City Council Resolution and Five-Year Process

In 2024, Santa Fe City Council adopted Resolution No. 2024-5, formally committing Santa Fe to becoming a more age-friendly city and enrolling in the AARP Network. The resolution directs the City to complete a structured five-year improvement process, including enrollment, a comprehensive community needs assessment, development of an Age-Friendly Action Plan, and ongoing implementation and evaluation [41].

Goals and Activities

The initiative's core goal is to ensure that residents can remain active, connected, and safely housed in their community as they age, while also improving conditions for younger residents and families. Key activities include community forums, a citywide survey, advisory engagement, and the development of a multi-year Age-Friendly Action Plan aligned with the eight domains of livability.

By participating in the AARP Network, Santa Fe receives age-friendly network support, peer learning opportunities, and national recognition, while committing to ongoing resident engagement and integration of age-friendly priorities into city planning and policy decisions.

Age-friendly Assets of Santa Fe

Santa Fe benefits from a wide range of age-friendly programs and services provided by the City of Santa Fe, Santa Fe County, and community partners. The AARP Livability Index offers additional insight by highlighting both community strengths and areas for improvement related to age-friendliness.

City of Santa Fe Aging and Community Services

The City of Santa Fe's Department of Community Services provides citywide library, senior, youth, and family programs designed to improve quality of life and increase access to resources across the lifespan. Through direct services, community facilities, and advisory bodies, the department supports residents' ability to remain connected, informed, and engaged in community life.

Department of Community Services

The Department of Community Services is organized into three primary divisions that serve as key access points for information, services, and community engagement. In addition to direct

Review Draft

programming, the department provides staff support for boards, commissions, and initiatives that elevate resident voice and guide policy development:

- **Libraries Division:** Operates the City's public library system, offering lending collections, technology access, educational programming, and community learning spaces for residents of all ages. Libraries also function as inclusive community hubs that promote literacy, digital access, and informal social connection.
- **Senior Services Division:** Administers a citywide aging services system that supports independent living, health and wellness, transportation, social engagement, and volunteerism for older adults.
- **Youth and Family Services Division:** Operates youth programs and community centers that provide afterschool, summer, and enrichment activities, along with family supports that promote healthy development and community engagement.
- **Community advisory bodies and initiatives:** Provides staff support for boards and commissions such as the Children and Youth Commission, Human Services Committee, Immigration Committee, Veterans Advisory Board, Women's Commission, and the Mayor's Youth Advisory Board, as well as initiatives like CONNECT that link residents to services and elevate community voice.

Division of Senior Services

The Division of Senior Services operates a coordinated network of programs designed to help older adults remain active, connected, and living safely in their homes and communities. Services are generally available to residents age 60 and older, with some volunteer programs open to adults age 55 and older. Most services are offered at no cost, with suggested donations. Core functions include:

- Supporting independent living through nutrition services, transportation, in-home and respite services, and case assistance
- Promoting healthy aging through fitness, health promotion activities, and preventive screenings
- Reducing social isolation through senior center–based activities, special events, and friendly visiting or companion programs
- Mobilizing older adults as community assets through structured volunteer programs, including AmeriCorps Seniors

Senior Centers

Senior Services operates three senior centers that serve as key access points for programs, meals, transportation connections, and community life. These centers provide congregate meals, social and recreational activities, and referrals to additional supports:

- Luisa Senior Center
- Mary Esther Gonzalez (MEG) Senior Center
- Pasatiempo Senior Center

Review Draft

Senior Services Programs

Senior Services programs are designed to support aging in place, social connection, and overall well-being. Key program areas include:

- **Nutrition services:** Congregate meals at senior centers and home-delivered meals for homebound residents, supporting nutrition, socialization, and independence.
- **Transportation:** Senior-focused transportation services linked to senior centers, supporting access to meals, health care, activities, and essential services.
- **Health promotion and wellness:** Fitness and recreation programs, health promotion activities, and screenings that support strength, balance, mobility, and disease prevention.
- **Recreation, education, and social activities:** Classes, cultural and educational activities, games, special events, and Senior Olympics opportunities that foster social connection and active aging.
- **Benefits counseling and information and referral:** Assistance navigating benefits and services, along with outreach to connect older adults with community resources.
- **Respite care and home management:** Limited respite and home management services that support family caregivers and help older adults remain at home.
- **Senior Scene newsletter:** A free monthly publication that explains how to access senior services, lists activities, and shares program updates.

Together, these programs function as essential components of the community's long-term care system, complementing medical and residential services while emphasizing independence and participation.

Volunteer and Civic Engagement Programs

Senior Services also administers AmeriCorps Seniors volunteer programs that both support older adults and engage them as contributors to the community. Volunteer opportunities include:

- **Retired Senior Volunteer Program (RSVP):** Connects adults age 55 and older with volunteer placements that address local needs such as food distribution, education support, environmental projects, and emergency preparedness.
- **Foster Grandparent Program (FGP):** Engages older adults as mentors and tutors for children and youth, providing academic and social support in schools and community settings.
- **Senior Companion Program (SCP):** Supports income-eligible volunteers age 55 and older who serve as companions to homebound or isolated older adults, offering emotional support and basic assistance.
- **Care Companion Program (CCP):** Places volunteers of all ages to provide regular social visits and engagement for residents in long-term care communities.

These programs extend the reach of Senior Services while strengthening intergenerational connections.

Review Draft

Santa Fe County Senior Services

Santa Fe County operates a separate senior services system serving adults age 60 and older in unincorporated areas of the county, with some facilities located within or near city limits. County services are distinct from the City of Santa Fe's Division of Senior Services.

County programs are delivered through five senior centers that offer congregate and home-delivered meals, door-to-door transportation, fitness and wellness activities, arts and educational programs, and service navigation through CONNECT. Programs are generally free or donation-based for eligible residents.

Age-Friendly Community Resources and Programs

In addition to City and County services, Santa Fe is supported by a broad ecosystem of nonprofit organizations, health systems, educational institutions, and community-based programs that contribute to age-friendly conditions. These resources play an important role in supporting older adults, caregivers, and families across health, housing, caregiving, social connection, and lifelong learning. The lists below are not comprehensive but illustrate the range of programs and services that strengthen Santa Fe's age-friendly capacities.

Health and Caregiving

Organizations in this category provide medical, caregiving, and dementia-related services that support aging in place, caregiver well-being, and quality of life.

- Age Friendly Senior Care (home care for individuals with memory loss)
- Alzheimer's Association New Mexico Chapter (Alzheimer's and dementia education and resources)
- CHRISTUS St. Vincent Center for Healthy Aging (Age-Friendly Health System)
- Life Circle (adult day services and dementia support)
- Scott's House (hospice and end-of-life care)
- The Memory Care Alliance (caregiver and dementia support services)
- Sun and Moon Eldercare (care coordination and navigation)
- Crossroads Aging Care Professionals (life care management)

Service Navigation and Information

These organizations help residents and caregivers understand, access, and coordinate available services across systems.

- CONNECT 211 (City of Santa Fe and United Way of North Central New Mexico)
- Santa Fe County CONNECT (service navigation and referrals)
- Aging and Disability Resource Center (ADRC)
- North Central New Mexico Economic Development District (Non-Metro Area Agency on Aging)

Review Draft

- Santa Fe Eldercare Network (network of professionals serving Santa Fe elders)
- SHARE New Mexico (community information database)

Nutrition, Housing, and Basic Needs

Programs in this category address food security, housing stability, and essential supports that enable older adults to remain safely in their homes and communities.

- Bienvenidos Outreach (food pantry and elder support)
- REunity Resources (senior food programs, farm stand access, and community gardens)
- Housing Trust Fund of Santa Fe (affordable housing, including senior housing)
- Be The Blessing Nonprofit (assistance for seniors and veterans)
- Salvation Army Santa Fe Corps ("Love the Elderly" program)

Physical Activity, Wellness, and Fall Prevention

These programs promote physical health, mobility, and fall prevention through targeted and accessible activities.

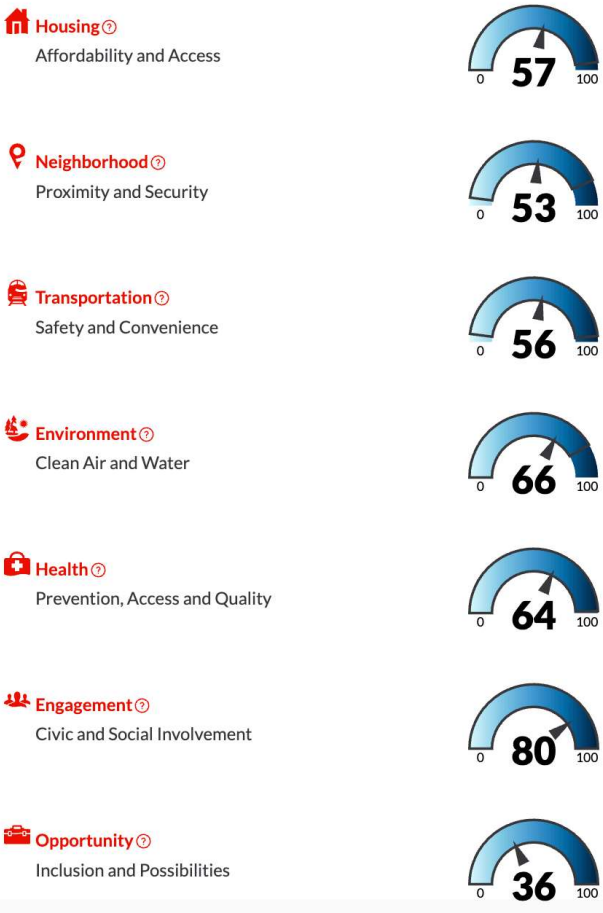
- Punching Out Parkinson's Santa Fe (exercise programs for individuals with Parkinson's disease)
- Villages of Santa Fe (fall prevention, fitness, and aging-in-place supports)

Education, Civic Life, and Intergenerational Support

Organizations in this category support lifelong learning, civic engagement, and intergenerational connections that strengthen social participation.

- Santa Fe Community College (lifelong learning and caregiver training)
- Santa Fe Community Foundation (funding and capacity-building for senior-serving nonprofits)
- Silver Horizons (support for grandparents raising grandchildren)
- Youth Works Santa Fe (youth employment, counseling, and intergenerational services)
- Somos Un Pueblo Unido (advocacy supporting immigrant and worker rights)
- Santa Fe Indigenous Center (culturally responsive services for Indigenous elders)
- Turquoise Trail Charter School (community-based education and opportunities for intergenerational engagement)

Together, these organizations complement City and County services and reflect Santa Fe's broader commitment to supporting aging in place, caregiver resilience, cultural responsiveness, and social connection across the lifespan.



Review Draft

AARP Livability Index

The AARP Livability Index evaluates communities on a 0–100 scale across seven categories: Housing, Neighborhood, Transportation, Environment, Health, Engagement, and Opportunity. Santa Fe earns an above-average overall score of 59, though affordability and safety remain ongoing challenges.

The city performs strongest in Engagement (80), reflecting broad access to cultural arts, entertainment, and competitively priced internet. Santa Fe also scores well in Environment (66), supported by generally healthy air quality. Housing receives a mid-range score (57), shaped by the presence of subsidized housing alongside housing costs that exceed the national average. Opportunity is the lowest-rated category (36), driven by limited age diversity and higher levels of income inequality. The Neighborhood score (53) reflects a mixed picture, balancing strong access to libraries and parks with an above-average crime rate.

Draft

Needs Assessment and Community Engagement

The Age-Friendly Santa Fe initiative is grounded in comprehensive community engagement and a systematic needs assessment process. The initiative gathered input from residents, community partners, and service providers to inform Santa Fe's Age-Friendly Action Plan. This needs assessment included a community survey, listening sessions, workshops, and community forums, along with insights from advisory committee members and organizational leaders working across aging, housing, transportation, health, and community services.

Core Project Team

The needs assessment was led by a small core project team composed of the Director of Community Services, the Director of Senior Services, and a contracted Project Manager. This team met regularly to plan, coordinate, and oversee the assessment process.

Advisory Committee

The core project team organized an Age-Friendly Santa Fe Advisory Committee to support the community needs assessment and development of the Age-Friendly Action Plan. The committee comprised leaders and community members from various City departments and community organizations. Members met virtually throughout 2025 and provided input on Santa Fe's age-friendliness across AARP's 8 Domains of Livability, helped identify existing strengths and areas for improvement, and offered guidance on community engagement efforts, including the survey, listening sessions, workshops, and community forums.

Age-Friendly Santa Fe Advisory Committee	
Member	**Name of Organization**

Erick Aune	Santa Fe Metropolitan Planning Organization (MPO)
Ann Church	Villages of Santa Fe
Andrew West	Age-Friendly Santa Fe Project Manager

Review Draft

In addition to the Advisory Committee meetings, the core project team also met with other community leaders and organizational representatives to gather additional perspectives. Together, this input complemented feedback from residents and helped inform the priorities, goals, and strategies included in the Age-Friendly Action Plan.

Community Engagement Process

Residents were engaged to understand what supports living and aging well in Santa Fe and to inform the development of the Age-Friendly Action Plan. Multiple opportunities for input were provided, including a survey, listening sessions, workshops, and community forums. All materials and activities were available in English and Spanish, with interpretation provided at in-person events.

Information about the Age-Friendly Santa Fe initiative and opportunities to participate was shared through multiple channels, including:

- The Age-Friendly Santa Fe website
- Newsletters and email announcements
- Flyers distributed in City buildings and facilities
- Senior Scene newsletter (print and online)
- Community partner networks and email lists

Community partners—particularly organizations working closely with Spanish-speaking residents—supported outreach by sharing bilingual and Spanish-language invitations.

Community Survey

The initiative developed an abbreviated survey based on the AARP Age-Friendly Community Survey. The survey was available in English and Spanish. Residents could complete the survey:

- Online through the City's Age-Friendly website
- In paper form at all City senior centers and public libraries

The survey was promoted through newsletters, flyers, email lists, and community outreach activities. Spanish-language paper surveys were also distributed in person at an event hosted by community partner Somos Un Pueblo Unido.

Listening Sessions

Listening sessions were small group conversations where residents shared perspectives on what supports quality of life in Santa Fe and what could be improved as people age. Sessions focused on topics aligned with AARP's 8 Domains of Livability and were held at the City's three senior centers.

Sessions were conducted in English with Spanish interpretation available. Flyers and invitations were hand-delivered to residents living near affordable housing units at the Luisa and

Review Draft

Pasatiempo centers. One listening session planned to be conducted entirely in Spanish, in partnership with Somos Un Pueblo Unido, did not have any attendees.

Workshop Series

A four-part workshop series was hosted at Santa Fe Public Library locations and focused on skills that support aging well. Each workshop lasted approximately 90 minutes and included a presentation followed by group discussion. Participants shared ideas about how Santa Fe can better support residents as they age. Workshops were held in English with Spanish interpretation available.

Community Forums

Six community forums were held later in the process to share findings from the survey, listening sessions, and workshops. Residents were invited to respond to early findings and provide feedback on draft goals and strategies for the Age-Friendly Action Plan. Forums were held at City library locations and senior centers and were conducted in English with Spanish interpretation available.

Language Access and Inclusion

Language access was prioritized throughout the engagement process. All outreach materials and surveys were available in English and Spanish, and Spanish interpretation was provided at listening sessions, workshops, and community forums. Community partnerships supported targeted outreach through Spanish-language communications and in-person engagement.

How Community Input Was Used

Information from the survey, listening sessions, workshops, and community forums was reviewed together to identify common themes, shared priorities, and key concerns. Community forums provided an opportunity for residents to respond to preliminary findings and help refine ideas. Together, this input informed the priorities, goals, and strategies of the Age-Friendly Action Plan.

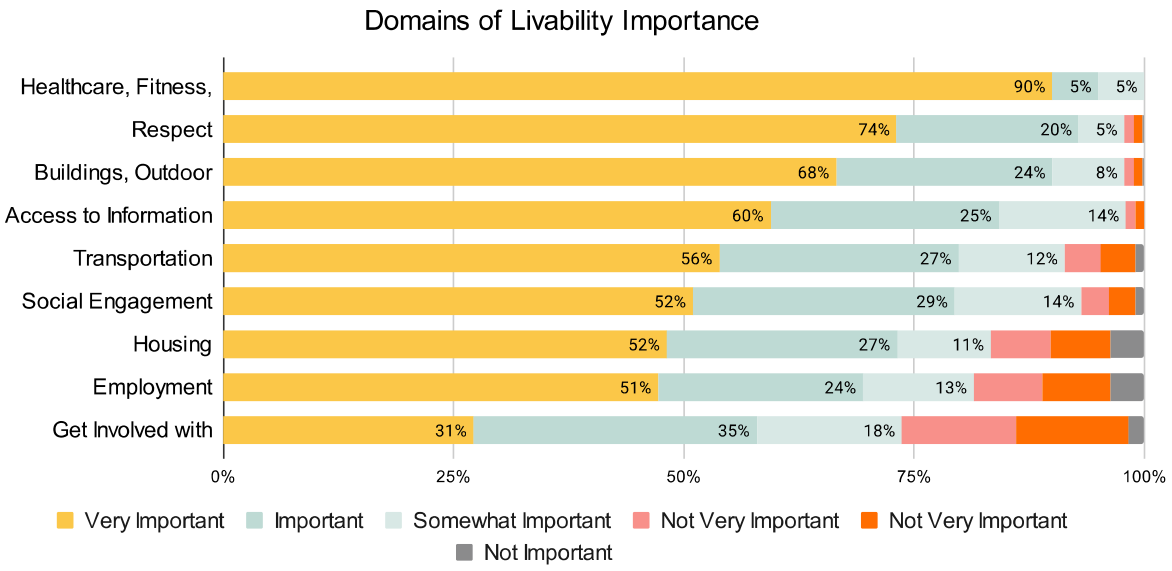
Needs Assessment Results

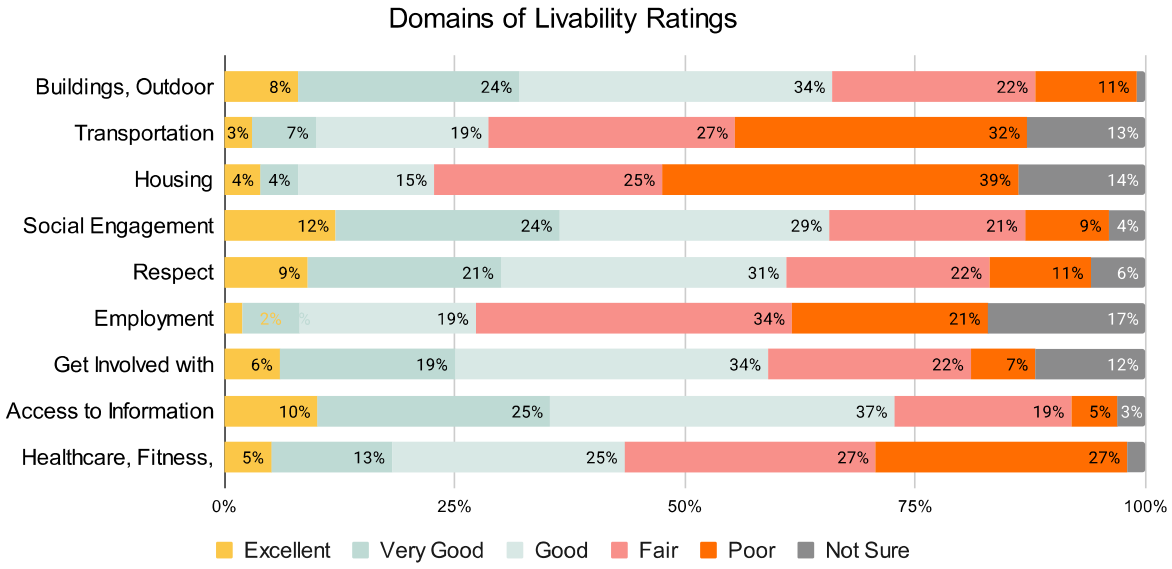
Survey Results

Summary of Survey Results	
Topic Area	**Key Findings**
Perceptions of Aging in Santa Fe	• 67% rated Santa Fe as a good or very good place to age • Average rating: 3.12 ("Good")
Aging in Place & Independence	• Over 90% rated staying in their home as important or very important • Over 90% rated living independently as important or very important • 73% rated staying in Santa Fe as important or very important
Housing Situation & Needs	• 83% reported owning their home; 16% reported renting • 39% reported home repairs / modifications would be helpful
Transportation & Mobility	• 88% reported having reliable transportation • 94% primarily drive themselves • Smaller shares reported walking, biking, ride services, or public transit
Social Connection (Frequency)	• 94% reported regular communication with family, friends, or neighbors • 75% reported social interaction at least three days per week • 55% expressed interest in additional social or volunteer opportunities
Social Connection (Where People Connect)	• Respondents connected through gyms, support groups, faith-based organizations, and community centers • Many described informal connections through friends, family, work, and volunteering • A smaller group reported limited or no social connection
Information Access & Technology Use	• 93% reported daily internet use • 97% use smartphones; 95% email; 91% text messaging • Common sources included newspapers, personal networks, social media, and libraries
Use of City Resources	• 90% reported using Santa Fe libraries • 38% reported using recreation centers • 18% reported using senior centers
Employment & Financial Resources	• 50% reported being fully retired • 62% were unsure whether sufficient financial wellness resources are available
Respondent Demographics	• Average age: 68 • 71% identified as female • 76% identified as White; 15% Hispanic

Response results for all survey questions are provided in **Appendix B Age-Friendly Santa Fe Survey Results.**



Survey results indicate that most respondents view Santa Fe as a good place to age and report strong social connection and high use of technology. At the same time, housing stability, independence, and transportation emerged as central priorities, with many respondents identifying home repairs, accessibility modifications, and reliable mobility as important to aging in place. While most respondents reported good health and regular social interaction, gaps between the importance of key livability domains—particularly healthcare, housing, transportation, and employment—and current community conditions suggest areas where improvements are needed. Together, these findings highlight both strong community assets and persistent structural challenges that informed the focus areas and strategies outlined in the Age-Friendly Action Plan.



Priority livability domains were identified by comparing resident ratings of importance and current quality for each domain. Domains with the largest gaps—those rated as highly important but lower in quality—were prioritized for this action plan.

Survey Results – Domains of Livability	
Topic Area	**Key Findings**
Most Important Livability Domains	• Healthcare • Feeling valued across ages • Safety • Access to information
Lowest Rated Livability Domains	• Housing • Transportation • Employment • Healthcare
Priority Domains	• Largest gaps between importance and current conditions were in ○ Healthcare ○ Transportation ○ Housing ○ Employment

Key Themes from Listening Sessions, Workshops, and Community Forums

Summary of Listening Session, Workshop, and Community Forum Results	
Theme	**Key Concerns Raised by Participants**
1. Moving Through the City Feels Increasingly Hard and Risky	• Unsafe street crossings, especially on major corridors • Fast-moving traffic and driver behavior that feels dangerous • Uneven, missing, or poorly maintained sidewalks • Poor or inconsistent lighting and affecting comfort and safety of public spaces
2. Transportation Is the Link Between Resources and Daily Life	• Difficulty scheduling rides, especially with advance notice requirements • Bus routes and schedules that do not align with daily needs • Limited flexibility for same-day or spontaneous trips • Reliance on neighbors or informal help when systems fall short
3. Housing Works Best When It Is Affordable and Close to Daily Needs	• Limited affordable housing near healthcare, groceries, and services • Rising costs affecting long-term residents' ability to remain in place • Impacts of second homes and short-term rentals on availability • Difficulty aging in place when housing is far from resources
4. Access to Santa Fe's Cultural Life Is Uneven for Full-Time Residents	• Limited parking near cultural sites and downtown • Limited parking availability for residents/those with mobility needs • Cultural areas perceived as oriented toward tourists • Tension between full-time residents and seasonal residents
5. Staying Connected Requires Energy, Access, and Opportunity	• Transportation and safety barriers limiting participation • Health limitations affecting ability to engage regularly • Isolation among some residents who remain disengaged
6. Being Active Is Essential, but Not Always Easy	• Limited access to pools, gyms, and recreation facilities • Transportation and distance barriers to physical activity • Safety concerns limiting walking and outdoor movement • Inconsistent availability of programs or staffing
7. Access to Information and Communication Is Unclear and Inconsistent	• Limited awareness of available programs and services • Confusion about where to find accurate information • Lack of clear follow-up when concerns are reported • Reliance on libraries, newsletters, staff, and word-of-mouth
8. People Feel Heard in These Conversations, but Less So Elsewhere	• Few opportunities outside these sessions to share concerns • Uncertainty about whether input leads to action • Difficulty navigating city processes and decision-making • Sense of distance between residents and formal systems

Across listening sessions, workshops, and community forums, participants described how mobility, housing, and access shape daily life and independence in Santa Fe. Safety concerns related to traffic speed, pedestrian infrastructure, lighting, and noise were frequently raised, influencing where people go, when they go out, and whether they feel comfortable participating in community life.

Transportation emerged as a central connecting factor rather than a standalone issue. Participants emphasized that access to food, healthcare, cultural activities, social connection, and physical activity depends on reliable and flexible transportation. When systems do not align with daily needs, residents rely on informal support, plan far in advance, or opt out of activities altogether.

Housing was discussed primarily in terms of affordability and proximity to daily needs. Participants described the ability to live near healthcare, grocery stores, parks, libraries, and cultural spaces as essential to aging in place and maintaining independence. Rising housing costs, second homes, and short-term rentals were cited as factors limiting stable housing options for full-time residents.

Participants also highlighted the importance of social connection, physical activity, and access to information. While Santa Fe offers valued cultural, recreational, and community assets, barriers related to safety, transportation, health limitations, and uneven access can limit participation. Libraries, trusted staff, newsletters, and in-person conversations were consistently identified as reliable sources of information, while many expressed frustrations with unclear processes and limited follow-up when concerns are raised. Despite these challenges, participants valued the opportunity to be heard through the engagement process and expressed a desire for more consistent avenues for resident input.

Review Draft

Key Insights from Advisory Committee, Resource Providers, and Community Leaders

Insights from Advisory Committee, Resource Providers, and Community Leaders	
Theme	**Key Insights**
Fragmentation of Services, Resources, and Networks	• Services operate across many organizations with limited coordination • Providers often lack visibility into one another's work • Residents experience support as disconnected rather than system-based
Awareness and Navigation as Central Barriers	• Services exist but are not consistently visible to residents • Navigation pathways are unclear or informal • Access often depends on personal networks or timing
Transportation as the Link Between Services, Housing, and Daily Life	• Transportation determines practical access to services and opportunities • Mobility challenges affect work, caregiving, health, and participation • Transportation efforts are not always connected to other systems
Housing, Location, and Access Are Inseparable	• Housing stability depends on affordability, location, and connectivity • Rising costs and limited supply affect residents across life stages • Short-term rentals and cost of living increase instability and homelessness risk
Existing Platforms Offer Untapped Potential for Connection	• Trusted tools and institutions already exist • These platforms reach residents across ages and life circumstances • Their role as shared entry points is not consistently reinforced
Communication and Coordination Shape How Systems Are Experienced	• Inconsistent communication leads to gaps and confusion • Coordination relies on informal relationships • Systems function better individually than collectively
Disability, Accessibility, and Inclusive Services Shape Daily Life	• Accessibility benefits people of all ages and abilities • Inclusive design supports independence and participation • Inconsistent accessibility limits engagement and increases isolation
Aging as a Lifespan Experience	• Aging is shaped by everyday systems, not age alone • The same systems affect families, workers, caregivers, and businesses • A lifespan lens highlights shared community impacts

Input from advisory committee members, resource providers, and community leaders highlighted that Santa Fe offers many programs and services that support aging well, but these efforts are often experienced as fragmented rather than as a coordinated system. Limited visibility across organizations and inconsistent coordination make it difficult for residents to understand how resources connect or how support evolves across different life stages.

Across discussions, awareness and navigation emerged as central barriers to access. Services were generally viewed as valuable once found, but information about them does not consistently reach residents in clear or predictable ways. Access often depends on personal networks, informal referrals, or timing, underscoring the importance of improving communication and coordination across City efforts and community partners.

Transportation and housing were consistently identified as foundational systems shaping access to daily life. Reliable transportation determines whether residents can reach healthcare, work, education, and community activities, while housing stability depends on affordability, location, and proximity to services. Participants emphasized that inclusive design, accessibility, and trusted information platforms—such as libraries and CONNECT Santa Fe—play a critical role in supporting participation across ages and abilities. Together, these insights reinforce the importance of addressing aging as a lifespan issue shaped by everyday systems, informing the focus areas and strategies of the Age-Friendly Action Plan.

Review Draft

Age-Friendly Santa Fe Action Plan Focus Areas

The following focus areas identify the key conditions that shape residents' ability to live and age well in Santa Fe and serve as the foundation for the Action Plan's goals and strategies.

Focus Areas to Ground Age-Friendly Santa Fe Action Plan Goals and Strategies	
Focus Area	**Why This Matters**
Transportation	• Transportation supports independence by determining whether residents can access healthcare, housing, social activities, and essential services as mobility needs change.
Housing	• Stable and affordable housing is critical to aging well, as cost, accessibility, and location affect health, safety, and the ability to stay connected to the community.
Communication & Information	• Clear and coordinated communication helps residents understand how to find and use services and resources, especially during times of transition or increased need.
Social Engagement & Participation	• Social engagement and participation support well-being by fostering connection, belonging, and involvement in community life, which are important for health and quality of life at all ages.
Health & Wellness	• Health and wellness are central priorities for residents and are closely connected to transportation, housing stability, and opportunities for social engagement.
Safety & Public Spaces	• Safe and accessible public spaces influence residents' confidence, mobility, and willingness to participate in community life.

The focus areas for Santa Fe's Age-Friendly Action Plan were developed by synthesizing findings from the full needs assessment process, including the community survey, listening sessions, workshops, and input from community partners, service providers, community leaders, and the Age-Friendly Santa Fe Advisory Committee. Rather than relying on a single source, the initiative identified patterns that appeared consistently across the needs assessment.

The selected focus areas reflect the conditions that most influence residents' ability to live and age well in Santa Fe. They represent interconnected aspects of daily life that shape independence, access to services, social connection, and participation in the community. Challenges in one area—such as transportation—often affect others, including access to healthcare, housing options, and opportunities for engagement.

Together, these focus areas provide a clear framework for organizing the goals and strategies of the Action Plan and responding to the priorities identified by residents and community partners to improve age-friendliness in Santa Fe.

Review

Mission, Values, and Guiding Principles

Mission

The purpose of this Action Plan is to advance a coordinated, all-ages approach to aging well by aligning City policies, programs, and partnerships; elevating Senior Services as a strategic partner in City governance; and leveraging existing City efforts to create inclusive, accessible, and connected communities for residents across the lifespan.

Values

Aging Is a Lifespan Experience

Aging is a continuous process that affects all residents. Planning for aging well means creating conditions that support people at every stage of life, not only in older adulthood.

Inclusion and Accessibility Are Essential

Age-friendly, ability-friendly and family-friendly design, communication, and services are fundamental to participation, safety, and well-being for individuals, families, and communities.

Coordination Strengthens Impact

Meaningful progress is achieved by aligning efforts across departments, organizations, and initiatives rather than working in isolation or duplicating services.

Community Knowledge Matters

The lived experience of residents, families, business owners, workers, caregivers, and service providers is essential to understanding needs, identifying gaps, and shaping effective strategies.

Senior Services Is a Strategic Asset

The Division of Senior Services plays a critical role not only in service delivery but in advocacy, capacity building, and collaboration across the City and community partners.

Review Draft

Guiding Principles

Apply an All-Ages Lens

Consider how policies, programs, and investments support people now and as they age, with attention to continuity, prevention, and adaptability over time.

Build on Existing Work

Leverage current City plans, programs, and partnerships whenever possible, strengthening alignment and avoiding unnecessary duplication.

Integrate Early

Include age- and ability-inclusive considerations at the earliest stages of planning, design, and decision-making.

Strengthen Collaboration and Shared Responsibility

Promote partnerships across City departments, community organizations, and residents, with shared ownership of goals and outcomes.

Improve Navigation and Clarity

Prioritize strategies that make information easier to find, services easier to access, and systems easier to understand.

Support Sustainable Capacity

Advance approaches that are realistic, scalable, and sustainable, strengthening long-term capacity rather than short-term solutions.

These mission, values, and principles are the foundation for the goals, strategies, and actions outlined in this plan. They are intended to guide decision-making, promote alignment across City efforts, and support a consistent, all-ages approach to the quality of life for Santa Fe residents.

The following goals translate community priorities into coordinated strategies and actions. Goals define intended outcomes, strategies describe how the City will respond, and actions identify priority areas for implementation.

Implementation of these strategies and actions will be led through collaboration among the Age-Friendly Advisory Committee or Task Force, the Department of Community Services, and the Division of Senior Services. Specific roles, responsibilities, timelines, and success indicators are detailed in the implementation tables provided in Appendix A Age-Friendly Santa Fe Action Matrix.

These goals, strategies, and actions are an initial roadmap for advancing age-friendly priorities. As implementation proceeds, the initiative may pivot, refine, or adopt new strategies in response to continued community engagement, evaluation, and changing conditions.

Review Draft

Cross-Cutting Strategies

1. Establish shared leadership and resident involvement to guide Age-Friendly Action Plan implementation.
2. Position Senior Services as a coordinating and advocacy hub across City initiatives and programs.
3. Integrate age-friendly, ability-friendly, and family-friendly priorities into existing City plans, programs, and partnerships.
4. Strengthen communication, engagement, and feedback loops across City and community partner systems.

Cross Cutting Actions

Governance and Infrastructure

- Establish an Age-Friendly Advisory Committee or Task Force to guide implementation, incorporate ongoing community input, and report progress to City Council.
- Explore the creation of a dedicated age-friendly and community engagement staff position within Senior Services or Community Services.

Engagement and Input

- Host regular meetings, workshops, and community conversations focused on domain-specific areas of livability.
- Use senior centers, libraries, and community venues as consistent access points for gathering age-friendly community input.
- Establish a clear pathway for resident input to flow from the aging services network through Community Services to the Advisory Committee or Task Force and City Council.

Planning and Coordination

- Engage City planning processes to ensure age-friendly considerations are incorporated.
- Integrate age-friendly language and principles into City plans, policies, and reports.
- Position Senior Services as a strategic planning partner to support coordination across the City.

Review Draft

Transportation Goals, Strategies, and Actions

Goal

Improve transportation options so residents of all ages can reliably and safely get to healthcare, services, work, social activities, and community events.

Strategies

1. Apply an age- and ability-inclusive approach to transportation planning and services
2. Use resident transportation experience to inform planning and decision-making
3. Improve access to transportation services and key destinations
4. Coordinate transportation efforts across City and regional partners

Summary of Priority Actions

- Engage transportation planning bodies to incorporate age-friendly, ability-friendly, and family-friendly community insights.
- Increase community participation in the planning and evaluation of transportation plans and initiatives.
- Host transportation-specific listening sessions and information events.
- Identify gaps in parking availability, routes, hours, and destinations within City transportation services.
- Improve access to cultural, recreational, and community destinations through City transportation services.
- Promote awareness and use of City transportation and infrastructure reporting systems.
- Improve coordination with transit providers.
- Promote awareness of safety, sidewalk, lighting, and street issue reporting mechanisms.

Review Draft

Housing Goals, Strategies, and Actions

Goal

Support housing conditions and options that allow residents to remain safely, affordably, and comfortably in their homes and neighborhoods throughout different stages of life.

Strategies

1. Integrate and strengthen age-friendly, aging-in-place and accessibility considerations into existing housing planning, operations, and initiatives
2. Use resident housing experience to inform housing and land-use decisions
3. Improve access to housing resources and supports
4. Support housing stability and safety across the lifespan

Summary of Priority Actions

- Engage housing planning bodies to integrate age-friendly, ability-friendly, and family-friendly community insights.
- Increase community participation in housing and land-use planning and evaluation processes.
- Host housing-specific listening sessions and information events.
- Improve and expand awareness of City housing resources, programs, and affordable housing initiatives.
- Educate developers, landlords, and property and land organizations on age-friendly and universal design principles and related policies.

Review Draft

Communication and Information Goals, Strategies, and Actions

Goal

Make it easier for residents to find, understand, and navigate information about services, programs, and community resources across the city.

Strategies

1. Coordinate how information is shared across the aging services and community services networks.
2. Improve resident utilization and navigation of City and community partner resources.
3. Strengthen follow-through and transparency in communication.

Summary of Priority Actions

- Build and maintain an Age-Friendly website that serves as a centralized clearinghouse for age-friendly resources, programs, and services.
- Develop and distribute printed, paper-based Age-Friendly information and resource guides to ensure access for residents who face barriers to digital tools or online information.
- Launch an Age-Friendly commitment and recognition program for organizations and businesses.
- Improve information sharing and cross-promotion across the aging services network.
- Create and maintain a coordinated age-friendly calendar of events.
- Strengthen promotion and integration of CONNECT 211 across City, County, and community partner services.
- Plan, organize, and host an annual Age-Friendly fair or community event.
- Add a regular Age-Friendly feature to the *Senior Scene* newsletter.
- Improve and expand the City's use of bilingual information and resources.
- Improve and expand collaboration with organizations serving Spanish- and Native-language-speaking community members.

Review Draft

Health and Wellness Goals, Strategies, and Actions

Goal

Strengthen access to healthcare, wellness, and preventive services that support physical, mental, and social well-being across the lifespan.

Strategies

1. Promote healthy aging and a lifespan approach to well-being
2. Use City senior centers and libraries as hubs for intergenerational wellness and learning.
3. Improve access to health, caregiving, and health-prevention resources.
4. Support active and engaged living, independence, and social well-being.

Summary of Priority Actions

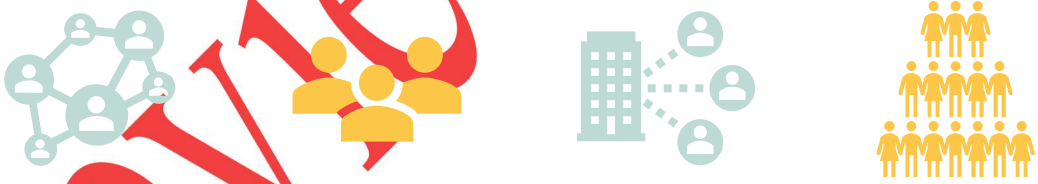
- Offer workshops on healthy aging and intergenerational topics.
- Design and facilitate trainings for City leaders and staff on aging, ageism, and lifespan approaches.
- Expand intergenerational wellness, technology, and learning programming at City senior centers.
- Expand educational, social, and health and wellness programming at City senior centers.

Review Draft

Social Engagement and Participation Goals, Strategies, and Actions

Goal

Strengthen social connection, belonging, civic participation, and economic engagement so residents of all ages feel valued, connected, and able to contribute to community life.



Strategies

1. Strengthen social connection and participation across the lifespan
2. Use Senior Services and partners to connect residents to opportunities
3. Expand intergenerational engagement and shared community life
4. Support work, volunteering, and entrepreneurship as forms of participation

Summary of Priority Actions

- Expand intergenerational programming through libraries and schools.
- Support older adult entrepreneurship and workforce participation through City and community partner initiatives.
- Strengthen the role of senior centers as hubs for connection and participation.
- Engage community partner organizations to increase community awareness and understanding of diverse family structures.
- Improve and expand coordination of City and community partner volunteer networks.

Review Draft

Safety and Public Spaces Goals, Strategies, and Actions

Goal

Improve the safety, accessibility, and usability of public spaces so residents of all ages feel confident moving through and participating in community life.

Strategies

1. Use resident experience to inform safety and public space decisions
2. Improve coordination to address safety and accessibility concerns
3. Improve awareness and use of safety and reporting systems
4. Support inclusive, accessible, and connected public spaces

Summary of Priority Actions

- Improve awareness of the City's safety and ADA reporting systems.
- Incorporate feedback loops so residents understand what happens after issues are reported.
- Engage neighborhood associations in age-friendly community safety efforts.
- Promote aging-in-place villages and other neighborhood-based community connections.
- Improve and expand adoption of the City's Neighborhood Watch program.

Appendix A Age-Friendly Santa Fe Action Matrices

How to Read the Implementation Tables

The tables in this appendix summarize the actions that support the Age-Friendly Action Plan and identify roles, indicators, and timing for implementation.

Column Descriptions

Action
Describes the specific activity or effort to be undertaken to advance the goal. Actions are written to reflect what will be done, not how it will be implemented in detail.

Lead with Key Partners
Identifies the department, group, or body responsible for coordinating implementation of the action as well as Key Partners to support or advise implementation as appropriate:

- Age-Friendly Advisory Committee/ Task Force
- City of Santa Fe Department of Community Services
- City of Santa Fe Division of Senior Services

Key partners should commit to collaborating with appropriate City Departments, committees, boards, and/or teams who specialize in goals areas (e.g. Housing, Transportation, etc.).

Indicators
Describes how progress or completion of the action will be demonstrated. Indicators focus on documentation of implementation, coordination, participation, or increased awareness.

Timeline
Indicates the expected timeframe for implementation:

- Short-term: 1–2 years
- Mid-term: 3 years
- Ongoing: Continuing or recurring efforts

Additional Resources Needed?
Indicates whether implementation is expected to require resources beyond existing staff capacity or current budgets. This column does not imply a funding commitment and may be refined through future planning and budget processes.

Cross-Cutting Actions

Cross-Cutting Actions				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
Governance and Infrastructure				
1. Establish an Age-Friendly Advisory Committee or Task Force to sustain the Age-Friendly Santa Fe initiative, monitor implementation of strategies and actions, incorporate ongoing community input, and provide regular progress reports to City Council.	City Council/ Senior Services	Committee established and meeting regularly; progress updates provided to City Council	Short-term	N
2. Explore the creation of a dedicated age-friendly and community engagement staff position within Senior Services or Community Services to support coordination, implementation, and reporting of the age-friendly initiative.	Community Services / Senior Services	Role assessed and leadership decision documented	Short-term	Y
Engagement and Input				
1. Host regular meetings, workshops, and community conversations focused on domain-specific areas of livability (e.g., transportation, housing, health, and safety) to inform planning and decision-making.	Advisory Committee / Community Services	Engagement activities conducted; community input documented	Ongoing	N
2. Use senior centers, libraries, and community venues as consistent access points for gathering age-friendly community input.	Community Services	Input gathered across multiple venues; resident participation documented	Ongoing	N
3. Establish a clear pathway for resident input to flow from the aging services network through Community Services to the Advisory Committee/Task Force and City Council.	Advisory Committee / Community Services	Input pathway defined and in use; feedback shared with City Council	Short-term	N
Planning and Coordination				
1. Engage City planning processes (e.g., The City's General Plan, Santa Fe Forward) to ensure age-friendly considerations are incorporated.	Advisory Committee	Age-friendly considerations documented in planning processes	Mid-term	N
2. Integrate age-friendly language and principles into City plans, policies, and reports.	Advisory Committee	Age-friendly language incorporated into City documents	Mid-term	N

Review Draft

Cross-Cutting Actions				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
Governance and Infrastructure				
3. Position Senior Services as a strategic planning partner within the City to support integration and coordination of age-friendliness throughout the city.	Advisory Committee	Cross-departmental coordination involving Senior Services documented	Ongoing	N

Review Draft

Transportation Actions

Transportation				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
1. Engage transportation planning bodies (e.g., MPO) to incorporate age-friendly, ability-friendly, and family-friendly insights from community members into transportation planning processes.	Advisory Committee / Senior Services	Age-friendly priorities documented in planning processes	Short-term	N
2. Increase community participation in the planning and evaluation of transportation plans and initiatives (e.g., MPO, Santa Fe Forward).	Advisory Committee / Community Services	Resident participation documented; community input incorporated	Short- to Mid-term	N
3. Host transportation-specific listening sessions and information events at libraries, senior centers, and other City and community partner venues to inform planning and service improvements.	Advisory Committee / Community Services	Engagement activities conducted; resident participation documented	Short-term	N
4. Identify gaps in parking availability, routes, hours, and destinations within City transportation services through structured community input.	Advisory Committee / Senior Services	Service gaps identified and documented	Short- to Mid-term	N
5. Improve access to cultural, recreational, and community destinations for residents through City transportation services.	Community Services / Senior Services	New or improved routes, stops, schedules, or connecting services identified and documented.	Mid-term	Y
6. Promote awareness and use of City transportation and infrastructure reporting systems.	Community Services / Senior Services	Outreach or communication efforts implemented and documented	Short-term	N
7. Improve coordination with transit providers to enhance service alignment and reliability.	Community Services / Senior Services	Coordination with transit providers documented	Mid-term	N
8. Improve awareness of safety, sidewalk, lighting, and street issue reporting mechanisms.	Community Services	Outreach or communication efforts implemented and documented	Short-term	N

Review Draft

Housing Actions

Housing				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
1. Engage housing planning bodies (e.g., Office of Affordable Housing, etc.) to integrate age-friendly, ability-friendly, and family-friendly insights from community members into housing and land use planning.	Advisory Committee /	Age-friendly considerations documented in housing plans	Short-term	N
2. Increase community participation in the planning and evaluation of housing and land use plans and initiatives (e.g., Santa Fe Forward, etc.).	Advisory Committee / Community Services	Resident input documented and incorporated	Short- to Mid-term	N
3. Host housing-specific listening sessions and information events at libraries, senior centers, and other City and community partner venues to inform housing policies and programs.	Advisory Committee / Community Services	Engagement activities conducted; community participation documented	Short-term	N
4. Improve and expand awareness of City housing resources, programs, and affordable housing initiatives.	Advisory Committee / Community Services	Outreach or communication efforts to increase awareness of housing resources documented	Mid-term	N
5. Educate developers, landlords, and property and land organizations on age-friendly and universal design principles and related policies.	Advisory Committee	Educational outreach conducted; participation documented	Mid-term	N

Communication and Information Actions

Communication and Information				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
1. Build and maintain an Age-Friendly website that functions as a centralized clearinghouse for information and access to age-friendly resources, programs, and services from the City, community partners, and providers within the aging services network.	Community Services / Senior Services	Website launched and maintained	Short-term	Y
2. Develop and distribute printed, paper-based Age-Friendly information and resource guides through libraries, senior centers, community venues, and trusted community partners to ensure access for residents who face barriers to digital tools or online information.	Senior Services / Community Services	Materials distributed through multiple access points	Short-term	N
3. Launch an Age-Friendly commitment and recognition program by which organizations and businesses: a. identify which domains of livability their services or products support, and b. commit to age-friendly, ability-friendly, and family-friendly policies and practices.	Senior Services / Economic Development	Program launched; organizational participation documented	Mid-term	N
4. Improve information sharing and cross-promotion across the aging services network to reduce duplication and improve access.	Senior Services	Coordination across the aging services network documented	Ongoing	N
5. Create and maintain a comprehensive and coordinated age-friendly calendar of events from City departments and aging services network providers.	Senior Services / Community Services	Calendar maintained and used	Short-term	N
6. Strengthen promotion and integration of CONNECT 211 across City, County, and community partner services.	Community Services / Advisory Committee	Outreach or integration efforts to promote CONNECT 211 documented; participation documented	Mid-term	N
7. Plan, organize, and host an annual Age-Friendly fair or event that brings together City departments, community organizations, aging services providers, family services providers, and local businesses.	Senior Services / Community Services	Event conducted; community participation documented	Annual	Y

Review Draft

Communication and Information				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
8. Add a regular Age-Friendly feature to the Senior Scene newsletter to highlight age-friendly concepts and promote community partners.	Senior Services	Contributors identified; features written and published	Ongoing	N
9. Improve and expand the City's use of bilingual information and resources.	Advisory Committee / Community Services	Bilingual materials or outreach efforts created and documented	Ongoing	Y
10. Improve and expand collaboration with community organizations that serve Spanish- and Native-language-speaking community members.	Advisory Committee / Community Services	Outreach with partners; collaborations documented	Ongoing	N

Review Draft

Health and Wellness Actions

Health and Wellness				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
1. Offer workshops on healthy aging and intergenerational topics at libraries, senior centers, schools, and community partner locations.	Senior Services / Community Services	Workshops delivered; resident participation documented	Short-term	Y
2. Design and facilitate trainings for City leaders and staff on aging, ageism, and lifespan approaches to community building and City governance.	Advisory Committee / Senior Services	Trainings delivered; staff participation documented	Short-term	Y
3. Expand intergenerational wellness, technology, and learning programming at senior centers.	Senior Services / Community Services	New programs identified; facilitation and participation documented	Mid-term	Y
4. Expand educational, social, and health and wellness program offerings at the Pasatiempo and Luisa senior centers.	Senior Services / Community Services	New programs identified; facilitation and participation documented	Mid-term	Y

Review Draft

Social Engagement and Participation Actions

Social Engagement and Participation				
Action	**Lead / Key Partners**	**Indicators**	**Timeline**	**Additional Resources Needed?**
1. Expand intergenerational programming through libraries and schools.	Community Services / Senior Services	Programs implemented; partnerships established; participation documented	Mid-term	N
2. Support older adult entrepreneurship and workforce participation through City and community partner initiatives.	Advisory Committee / Community Services	Participation in entrepreneurship or workforce initiatives documented	Mid-term	N
3. Strengthen the role of senior centers as hubs for connection and participation.	Senior Services / Advisory Committee	Expanded use of senior centers for social connection identified and documented	Ongoing	N
4. Engage community partner organizations to increase community awareness and understanding of diverse family structures (e.g., multigenerational households, LGBTQ+ communities).	Advisory Committee / Community Services	Outreach conducted and documented; resident participation documented	Short- to Mid-term	N
5. Improve and expand coordination of City and community partner volunteer networks across initiatives.	Advisory Committee / Community Services	Outreach conducted and documented; new collaborations documented	Mid-term	N
6. Promote the Age-Friendly University Initiative with local institutions of higher learning (e.g. Santa Fe Community College, Saint John's College, etc.) and assist them in their own age-friendly initiative.	Advisory Committee / Community Services	Outreach conducted and documented; new collaborations documented	Mid-term	N

Appendix B Age-Friendly Santa Fe Survey Results

Most percentages shown in the tables are rounded to the nearest whole percent. Because of rounding, some totals may appear slightly above or below 100%.

How would you rate Santa Fe as a place to live as someone ages?	n	%
Good	209	37%
Very Good	168	30%
Fair	123	22%
Excellent	40	7%
Poor	28	5%
No Response	8	
Average Score	3.12	

Participants generally rated Santa Fe positively as a place to age, with about two-thirds of respondents (67%) rating Santa Fe as a good or very good place to age, while 22% rated it as fair. Smaller shares rated Santa Fe as excellent (7%) or poor (5%), resulting in an average rating of 3.12 (Good).

How important is it for you to stay in your home as you age?	n	%
Very important	387	69%
Important	120	22%
Somewhat important	41	7%
Not very important	9	2%
Not important at all	0	0%
No Response	19	
Average Score	4.59	

Nearly all respondents indicated that staying in their home as they age is important, with more than nine in ten respondents (91%) reporting that staying in their home as they age is important or very important, including 69% who rated it as very important. Only 2% rated this as not very important, and no respondents rated it as not important at all.

Review Draft

How important is it for you to stay in Santa Fe as you age?	n	%
Very important	237	42%
Important	175	31%
Somewhat important	104	19%
Not very important	35	6%
Not important at all	8	1%
No Response	17	
Average Score	4.07	

Most participants expressed a desire to remain in Santa Fe as they age, with roughly three-quarters of respondents (73%) rating staying in Santa Fe as very important or important, while 19% rated it as somewhat important. About 7% rated staying in Santa Fe as not very important or not important at all.

Do you rent or own where you live?	n	%
Own	465	83%
Rent	91	16%
Other (please specify)	3	0.5%
No Response	17	

Most respondents (83%) reported owning their home, while 16% reported renting. Fewer than 1% reported another type of housing arrangement. Some participants reported living in their car or just recently homeless.

Does your home need any repairs or things like ramps and grab bars to help you live there for as long as possible?	n	%
No	248	45%
Yes	219	39%
Not sure	90	16%
No Response	19	

Nearly four in ten respondents (39%) reported that their home needs repairs or accessibility modifications, while 45% reported no such needs. An additional 16% reported being unsure.

Review Draft

How important is it for you to live independently in your own home as you age?	n	%
Very important	398	71%
Important	124	22%
Somewhat important	33	6%
Not very important	5	1%
Not important at all	1	0.5%
No Response	15	
Average Score	4.63	

Living independently was a top priority for respondents, with more than 90% of respondents rated living independently as important or very important, including 71% who rated it as very important. Fewer than 2% rated independence as not very important or not important at all.

Do you have reliable transportation to get to the places you need to go?	n	%
Yes	492	88%
No	42	8%
Not sure	25	4%
No Response	17	

Most respondents reported having reliable transportation, though about one in eight either lacked reliable transportation or were unsure.

How do you get around to shop, go to work, visit the doctor, run errands, or go to other places? Select all that apply	n	%
Drive yourself	527	94%
Walk	124	22%
Have others drive you	108	19%
Ride a bike	65	12%
Take a car service like a taxi, Uber, or Lyft	59	11%
Use public transportation	38	7%
Other (please specify)	21	4%
No Response	16	

Nearly all respondents (94%) reported driving themselves to get around. Smaller shares reported walking (22%), having others drive them (19%), biking (12%), using ride services (11%), or using public transportation (7%).

Review Draft

In general, how would you rate your health?	n	%
Very Good	253	46%
Good	150	27%
Excellent	110	20%
Fair	41	7%
Poor	1	0.2%
No Response	21	
Average Score	3.77	

Most participants (93%) rated their health as good, very good, or excellent, including 46% who rated it as very good and 20% who rated it as excellent. Fewer than 8% rated their health as fair or poor.

Do you have a disability or a chronic illness?	n	%
No	361	65%
Yes	180	32%
Not sure	15	3%
No Response	20	

About one-third of respondents (32%) reported having a disability or chronic illness, while 65% reported that they do not. A small share (3%) reported being unsure.

Do you have difficulty doing daily activities like errands, cooking, cleaning your home, or dressing yourself because of a disability or chronic illness?	n	%
No	428	77%
I do not have a disability or chronic illness	68	12%
Yes	51	9%
Not sure	12	2%
No Response	17	

Most respondents (77%) reported no difficulty with daily activities, while 9% reported difficulty and 2% were unsure. An additional 12% reported that they do not have a disability or chronic illness.

Are you a caregiver for a family member or friend with a disability or chronic health condition?	n	%
No	479	86%
Yes	75	13%
Not sure	4	1%
No Response	18	

Most respondents (86%) reported that they are not caregivers, and approximately one in eight respondents reported serving as a caregiver for a family member or friend.

Review Draft

How many people live in your household? Please include yourself.	n
Min	1
Max	7
Average Score	1.48
No Response	23

Respondents reported household sizes ranging from one to seven people, with an average household size of 1.48 people. Most respondents lived in households of one or two people.

Who do you live with? Select all that apply	n	%
Spouse/partner	292	53%
I live alone	227	41%
Children	55	10%
Other (please specify)	23	4%
Other family member	14	3%
Roommate	10	2%
Grandchildren	8	1%
Friend	7	1%
No Response	23	

More than half of respondents (53%) reported living with a spouse or partner, while 41% reported living alone. Smaller shares reported living with children (10%), other family members (3%), roommates (2%), or others.

How safe do you feel at home and with the people you live with?	n	%
Very safe	400	72%
Safe	130	24%
Not very safe	10	2%
Not safe at all	2	0.4%
Not sure	10	2%
No Response	24	

Nearly all respondents (96%) reported feeling safe or very safe at home, including 72% who felt very safe. Only about 2% reported feeling not very safe or not safe at all.

Review Draft

Do you have family and/or friends you communicate with regularly?	n	%
Yes	524	94%
No	27	5%
Not sure	7	1%
No Response	18	

An overwhelming majority of respondents (94%) reported regular communication with family or friends. Only 5% reported no regular communication, and 1% were unsure.

Do you want to find more ways to meet people, be more socially active and/or volunteer?	n	%
Yes	307	55%
No	165	30%
Not sure	85	15%
No Response	19	

More than half of respondents (55%) reported interest in finding additional ways to be socially active or volunteer, while 30% reported no interest and 15% were unsure.

Does Santa Fe have enough resources to help your emotional and mental health, like wellness classes, talk therapy, counseling, social support groups, etc.?	n	%
Not sure	260	47%
Yes	154	28%
No	143	26%
No Response	19	

Nearly half of respondents (47%) reported being unsure whether Santa Fe has enough emotional and mental health resources. About 28% reported yes and 26% reported no.

Review Draft

Where do you go to connect and be with other people? Select all that apply.	n	%
Gym or fitness facility	170	32%
Social support groups	115	22%
Faith-based organization (church, temple, etc.)	107	20%
Recreational/Community center	87	16%
Senior center	59	11%
Other (please specify)	306	58%
No Response	44	

Respondents reported connecting socially across a wide range of settings, with 32% selecting gyms or fitness facilities, 22% social support groups, 20% faith-based organizations, and 16% recreational or community centers. More than half of respondents also selected “other,” and open-ended responses indicated that many residents connect primarily through informal, relationship-based settings such as friends, family, neighbors, private homes, work, and volunteering rather than through formal programs or designated centers. Respondents also described interest- and activity-based connections, including arts and cultural groups, outdoor recreation, spiritual or faith communities, libraries, coffee shops, and community events. A smaller group reported limited or no social connection, citing factors such as health limitations, caregiving responsibilities, continued employment, geographic isolation, or limited access to community spaces.

Review Draft

Where do you go for information about resources, events, and programs in Santa Fe? Select all that apply.	n	%
Internet	400	72%
Newspaper	307	56%
Family or friends	282	51%
Social media (like Facebook, YouTube, etc.)	217	39%
Library	181	33%
Nonprofit organizations (like AARP, etc.)	126	23%
Radio	108	20%
Television	83	15%
Senior center	71	13%
Your doctor or other health care professionals	63	11%
Faith-based organizations (church, temple, etc.)	60	11%
2-1-1/CONNECT	6	1%
Other (please specify)	31	6%
No Response	24	

Most respondents reported using the internet (72%), newspapers (56%), or family and friends (51%) for information about community resources and events. Smaller shares reported using social media (39%), libraries (33%), nonprofits (23%), or other sources.

How often do you interact with your friends, family or neighbors who do not live with you? This could be by phone, in person, email or social media like Facebook.	n	%
About once a day	151	27%
Several times a day	133	24%
3-6 days a week	131	24%
1-2 days a week	90	16%
Once every few weeks	40	7%
Once a month or less	7	1%
I do NOT interact with others	4	1%
No Response	20	

Most respondents (75%) reported interacting with people outside their household at least three days per week, including 51% who reported daily interaction. Only about 2% reported interacting once a month or less or not at all.

Review Draft

How often do you use the Internet for things like email, getting news and information, paying bills, managing finances, and/or shopping?	n	%
Several times a day	431	78%
About once a day	83	15%
3-6 days a week	17	3%
1-2 days a week	7	1%
Once every few weeks	6	1%
Once a month or less	4	1%
I do NOT use the Internet	7	1%
No Response	21	

Internet use was widespread, with nearly all respondents (93%) reported using the internet daily or multiple times per day, including 78% who reported several-times-per-day use. Only 1% reported not using the internet.

What technologies do you use? Select all that apply.	n	%
Cellphone/Smartphone	541	97%
Email	534	95%
Text message	511	91%
Laptop computer	380	68%
Video Chat/Calls (Zoom, FaceTime, Google Meet, etc.)	303	54%
Social media (Facebook, YouTube, etc.)	294	53%
Desktop computer	243	43%
Tablet	224	40%
No Response	16	

Nearly all respondents reported using smartphones (97%), email (95%), and text messaging (91%). Many also reported using laptops (68%), video calling (54%), social media (53%), desktops (43%), or tablets (40%).

Review Draft

Do you or anyone in your household use any of the following in Santa Fe? Select all that apply.	n	%
Santa Fe Library	421	90%
Santa Fe Recreation Centers	176	38%
Santa Fe Senior Centers	82	18%
Santa Fe Teen Center	10	2%
2-1-1/CONNECT	11	2%
No Response	109	

Most respondents (90%) reported using public libraries, while 38% reported using recreation centers and 18% reported using senior centers. Other city services were used by relatively small shares.

Does Santa Fe have enough employment opportunities for you to earn money?	n	%
Not sure	259	47%
No	155	28%
Yes	134	24%
No Response	28	

Nearly half of respondents (47%) reported being unsure whether Santa Fe offers enough employment opportunities, while 28% reported no and 24% reported yes.

Does Santa Fe offer enough resources to help you improve your financial wellness, like classes on saving/managing money, tax help, etc.?	n	%
Not sure	345	62%
No	123	22%
Yes	85	15%
No Response	23	

Most respondents (62%) reported being unsure whether Santa Fe offers enough financial wellness resources. Smaller shares reported no (22%) or yes (15%).

What is your age?	n
Minimum	28
Maximum	92
Average Age	68
No Response	11

Average age of respondent was in the late 60s.

Review Draft

What is your gender?	n	%
Female	409	71%
Male	150	26%
Other	3	1%
I'd rather not say	11	2%
No Response	3	

Most respondents identified as female (71%), while 26% identified as male. About 3% identified as another gender or declined to report.

What is your current relationship status?	n	%
Married	248	45%
Divorced	134	24%
Never married	71	13%
Not married, living with partner	49	9%
Widowed	49	9%
Separated	3	1%
No Response	22	

Nearly half of respondents (45%) reported being married, while others reported being divorced (24%), widowed (9%), never married (13%), or living with a partner (9%).

What is the highest level of education you have completed?	n	%
Graduate or professional degree	295	53%
4-year college degree	145	26%
Some college	74	13%
Trade school or associate degree	19	3%
High school graduate, or GED	17	3%
K-12th grade (no diploma)	2	0.4%
No Response	24	

Most respondents (79%) reported completing a four-year college degree or higher, including 53% with a graduate or professional degree. Smaller shares reported lower levels of education.

Review Draft

Which of the following best describes your current employment status?	n	%
Retired, not working at all	281	50%
Employed, full-time	98	18%
Self-employed, part-time	51	9%
Retired, working part-time	31	6%
Self-employed, full-time	29	5%
Retired but interested to find work	26	5%
Employed, part-time	17	3%
Unemployed, but looking for work	14	3%
Not in labor force for other reasons	10	2%
No Response	19	

Half of respondents (50%) reported being fully retired, while 18% reported full-time employment and others reported part-time, self-employment, or interest in work.

What is your race and/or ethnicity? Select all that apply.	n	%
White	436	76%
Hispanic	70	12%
Hispanic + Other	20	3%
Other	15	3%
Asian American	7	1%
African American	5	1%
American Indian / Alaskan Native + White	5	1%
African American + White	3	1%
American Indian / Alaskan Native	2	0.3%
Middle Eastern/ North African	2	0.3%
Middle Eastern/ North African + White	1	0.2%
American Indian/Alaskan Native+African American	1	0.2%
Middle Eastern/ North African American + Other	1	0.2%
Asian American + White	1	0.2%
No Response	7	

Most respondents identified as White (76%), while 12% identified as Hispanic and smaller shares identified as other racial or ethnic groups. Some respondents reported multiple identities.

Review Draft

What is your household income?	n	%
$150,000 or more	75	14%
$100,000 to $149,999	61	11%
$50,000 to $59,999	43	8%
$30,000 to $39,999	40	7%
$90,000 to $99,999	39	7%
$40,000 to $49,999	35	6%
$20,000 to $29,999	28	5%
$60,000 to $69,999	27	5%
$10,000 to $19,999	24	4%
$80,000 to $89,999	24	4%
$70,000 to $79,999	22	4%
Less than $10,000	15	3%
I'd rather not say	122	22%
No Response	21	

Respondents reported household incomes across a wide range, with 22% choosing not to report income. Among those who reported, incomes were distributed across lower-, middle-, and higher-income categories.

* = *No Response*

Review Draft

Large majorities of respondents rated each livability domain as important or very important, including 90% for healthcare, 74% for feeling valued across ages, and 68% for safe and accessible public spaces.

Current ratings were more varied, with higher ratings for information access and social opportunities and lower ratings for housing, transportation, and employment.

Weighted averages show that healthcare, respect, safety, and information access were the highest priorities among respondents, while civic engagement ranked lower in relative importance. Weighted importance scores ranged from 3.79 to 4.84, with healthcare receiving the highest average importance rating.

The largest gaps between importance and current conditions were reported for healthcare, transportation, housing, and employment, identifying these as the most urgent priorities from the perspective of survey respondents.

CITY OF SANTA FE

Age-Friendly Santa Fe Action Plan

A roadmap for supporting independence, connection, and well-being across the lifespan

City of Santa Fe
Department of Community Services | Division of Senior Services
Presented to Santa Fe City Council | 2026

Why This Plan Matters Now

Aging is not a single life stage—it is a lifelong process.

The conditions that shape how people age are created decades before older adulthood.

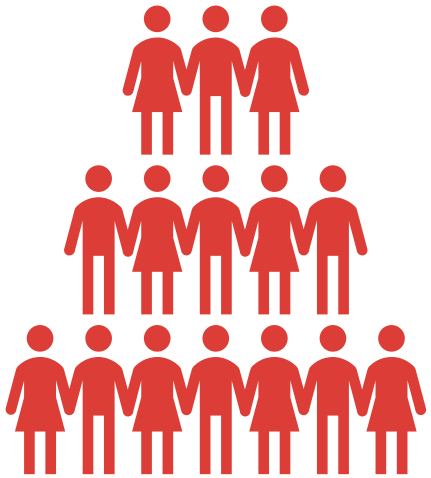
A lifespan approach recognizes that investments made today affect older adults, families, workers, caregivers, and future generations.

The Stanford Center on Longevity calls for redesigning community systems for longer, less linear lives so people of all ages can remain healthy, engaged, and economically secure.

Age-Friendly Framework: A Proven Model

Santa Fe is part of a global movement to create communities that support people as they age.

The World Health Organization established the Age-Friendly Cities and Communities framework to guide cities in adapting everyday systems to longer lives.



AARP leads the Network of Age-Friendly States and Communities, supporting local governments in moving from commitment to action.

This Action Plan fulfills Santa Fe's commitment as a member of the AARP Network.

Grounded in Community Voice

This Action Plan is informed by extensive community engagement across Santa Fe.

Surveys, listening sessions, workshops, advisory input

- Staying independent and aging in place
- Safe, reliable transportation
- Affordable and accessible housing
- Clear information and navigation
- Opportunities for connection and participation

What Makes This Plan Different

- Aligns existing City efforts rather than duplicating them
- **Applies an all-ages, lifespan lens across systems**
  - Current older adult needs/experiences as entry-point
- Positions Senior Services as a strategic coordinating asset
- Designed as a living, adaptable framework

Priority Focus Areas

Transportation

Housing

Communication & Information

Health & Wellness

Social Engagement & Participation

Safety & Public Spaces

How the Plan Is Organized

Goals
Define intended outcomes

Strategies
Describe how the City will respond

Actions
Identify near- and mid-term priorities

What Happens First

- Strengthen coordination across City departments and partners
- Embed age-friendly and lifespan considerations into existing plans
- Use trusted access points like libraries and senior centers
- Improve clarity, communication, and navigation for residents

Accountability & Flexibility

Implementation is guided through collaboration among City departments, Senior Services, advisory bodies, and community partners.

Progress is monitored, shared, and refined through ongoing engagement and evaluation.

The Action Plan is a starting point—not a fixed endpoint—and may evolve as community needs and conditions change.

Request of City Council

- Acknowledge the Age-Friendly Santa Fe Action Plan as a guiding framework
  - Age-Friendly Action Plan Resolution
  - Letter of Approval and Support
    - ✓Needed for Submission to AARP for Age-Friendly Designation
- Establish an Age-Friendly Advisory Committee or Task Force
- Encourage cross-department coordination and integration

Thank you.

Questions and discussion.

RE: Clarifying the Terms of Resolution No. 2024-14 for Veterans Banners

---

EXECUTIVE SUMMARY:

The proposed Resolution clarifies the terms of Resolution No. 2024-21 to allow Council 10517 of the Knights of Columbus ("Knights of Columbus") to display banners celebrating Santa Fe veterans as "Santa Fe Heroes" every year, between Memorial Day and Veterans Day, with installation of the banners occurring as early as the week before Memorial Day and removal occurring up to the week after Veterans Day. Resolution No. 2024-21 approved the Knights of Columbus to display banners annually; however, the caption stated that the banner display would take place "in 2024 and 2025", creating an inconsistency between the resolution's caption and the resolution's specified dates. The proposed resolution updates the caption to clarify that the approval is ongoing.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2026-__

INTRODUCED BY:

Councilor Lee Garcia

Mayor Michael Garcia

A RESOLUTION

CLARIFYING THE TERMS OF RESOLUTION NO. 2024-14 TO ALLOW THE KNIGHTS OF COLUMBUS COUNCIL 10517 TO DISPLAY BANNERS COMMEMORATING SANTA FE VETERANS AS "SANTA FE HEROES" BETWEEN MEMORIAL DAY AND VETERANS DAY, ANNUALLY.

WHEREAS, Section 14-7.6(B), Santa Fe City Code (SFCC) 1987 allows for the installation of banners to identify the geographic location associated with local business groups, neighborhoods, or community groups; the dates associated with important civic milestones, activities, or holidays; or a sense of place and community that are erected by the City of Santa Fe ("City") or its permittee, if approved by the City's Governing Body via resolution; and

WHEREAS, in Resolution No. 2024-21 the City approved the Knights of Columbus Council 10517 to "display banners every year, between Memorial Day and Veterans Day, with installation of the banners occurring as early as the week before Memorial Day and removal occurring up to the week after Veterans Day"; and

WHEREAS, the caption of Resolution No. 2024-21 stated that the banner display would take place "in 2024 and 2025", creating inconsistency between the resolution's caption and the

resolution's specified dates; and

WHEREAS, the Land Use Director and City Attorney approved the design of the banners Resolution No. 2024-21 as conforming to all applicable requirements and restrictions; and

WHEREAS, the Governing Body desires to allow the Knights of Columbus to install the banners every year between Memorial Day and Veterans Day, just as the terms in the "Dates" section of Resolution 2024-21 specifies.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the design and installation plan for banners celebrating Santa Fe Veterans, "Santa Fe Heroes", is hereby approved as appeared in Resolution 2024-21 shown as follows:

Dates:	The Santa Fe Knights of Columbus may display the banners every year, between Memorial Day and Veterans Day, with installation of the banners occurring as early as the week before Memorial Day and removal occurring up to the week after Veterans Day.
Location:	The banners may be displayed on light poles located along St. Francis Drive; Guadalupe Road from Paseo de Peralta to St. Francis Drive; and Cerrillos Road from I-25 to St. Francis Drive.
Number:	A maximum of one banner per light pole.
Design Approval Process:	The Land Use Director and City Attorney have approved the design of the banners as conforming to all applicable requirements and restrictions. If the design ever changes, or if the City's design standards ever change, renewed review and approval by the Land Use Director and City

	Attorney's Office is required to ensure conformance with the City's code.
Installation:	The Knights of Columbus is responsible for the installation of the banners associated with this request, including obtaining the obstruction permits required for installation and removal of the banners pursuant to standard City and State procedures, as applicable.
Maintenance:	The Knights of Columbus shall immediately replace banners that become damaged, defaced, or are in any form of disrepair, at the expense of the Knights of Columbus. The City reserves the right to remove any banners the City deems in disrepair prior to their scheduled removal date.
Cost Allocation:	The Knights of Columbus shall purchase or otherwise obtain, install, and remove the banners.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2026.

Summary:
The proposed Resolution clarifies the terms of Resolution No. 2024-21 to allow Council 10517 of the Knights of Columbus ("Knights of Columbus") to display banners celebrating Santa Fe veterans as "Santa Fe Heroes" every year, between Memorial Day and Veterans Day, with installation of the banners occurring as early as the week before Memorial Day and removal occurring up to the week after Veterans Day. Resolution No. 2024-21 approved the Knights of Columbus to display banners annually; however, the caption stated that the banner display would take place "in 2024 and 2025", creating an inconsistency between the resolution's caption and the resolution's specified dates. The proposed resolution updates the caption to clarify that the approval is ongoing.

Departments Affected:
None.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then Resolution No. 2024-21 would not be clarified to allow the Knights of Columbus to be able to display banners commemorating "Santa Fe Heroes" annually.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This Resolution clarifies the terms of Resolution No. 2024-21 to allow the Knights of Columbus to display banners beginning the week before Memorial Day and through the week after Veterans Day, annually.

Performance and Administrative Implications:
The Land Use Director and City Attorney have previously approved of the banners to ensure the banners conform to all applicable requirements and restrictions.

Fiscal Implications:
None.

RE: Resolution Authorizing State Funding Applications for Henry Lynch Road Reconstruction Project

---

EXECUTIVE SUMMARY:

The proposed resolution would authorize the City of Santa Fe ("City") to submit applications to the Local Governing Fund ("LGRF"), the Municipal Arterial Program ("MAP"), the Transportation Project Fund ("TPF"), and any other applicable State transportation funding programs for State transportation construction funding for the Henry Lynch Road Reconstruction Project ("Project") from Rufina Street to Agua Fria Street. The resolution would also authorize any commitment required by those applications for a local match of funds, in an amount up to twenty-five (25%) of the total eligible construction costs, subject to final project costs, funding award conditions, and budget approval by the City.

BACKGROUND:

Henry Lynch Road is a key City arterial that serves local neighborhoods, commercial areas, and regional traffic. The segment between Rufina Street and Agua Fria Street requires full reconstruction to address roadway condition, safety, multi-modal accessibility, and long-term operational needs.

The Henry Lynch Road Reconstruction Project has been identified as a high-priority transportation improvement and is included in multiple adopted City planning documents, including the Infrastructure Capital Improvement Plan (ICIP) 2027–2031, the Infrastructure Fiscal Capital Improvement Plan (IFCIP) 2021–2027, and the Santa Fe Metropolitan Transportation Plan (SFMTP) 2020–2045. Inclusion in these plans demonstrates the necessity, consistent commitment, and a prioritization of the project within the City's long-term transportation strategy.

In recent years, the State of New Mexico, through the LGRF, MAP, and TPF funding programs, has awarded the City $741,258 for engineering design of the project Specifically, the TPF awarded the City four hundred fifty thousand dollars ($450,000) in the fall of 2021, the LGRF one hundred thirty-

nine thousand six hundred three dollars ($139,603) in the summer of 2023, and the MAP one hundred fifty-one thousand six hundred fifty-five dollars ($151,655) in October of 2023.Design is anticipated to be completed in the Fall of 2026, at which point the project will be ready to advance to the construction phase, subject to funding availability. The total estimated construction cost, including construction management, is approximately fifteen million dollars ($15,000,000).

The City is eligible to apply for State construction funding through programs such as the LGRF, the MAP, and the TPF, which typically require a local match of up to 25 percent. Adoption of the attached resolution authorizes staff to submit funding applications and confirms the City's intent and ability to provide the required local match, subject to final funding awards and budget approvals.

Approval of the resolution is a New Mexico Department of Transportation requirement for applying for funding applications for programs such as the LGRF, the MAP and the TPF. As such, the resolution will allow the City to compete for State construction funding and to advance a critical transportation infrastructure project that supports safety, mobility, and economic activity.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2026-__

INTRODUCED BY:

Councilor Jamie Cassutt

A RESOLUTION

AUTHORIZING THE CITY OF SANTA FE TO SUBMIT APPLICATIONS TO THE LOCAL GOVERNMENT FUND, THE MUNICIPAL ARTERIAL PROGRAM, THE TRANSPORATION PROJECT FUND, AND ANY OTHER APPLICABLE STATE TRANSPORATION FUNDING PROGRAMS FOR STATE TRANSPORTATION CONSTRUCTION FUNDING FOR THE HENRY LYNCH ROAD RECONSTRUCTION PROJECT FROM RUFINA STREET TO AGUA FRIA STREET AND COMMITTING TO THE APPLICATIONS' REQUIRMENT FOR A LOCAL MATCH OF FUNDING.

WHEREAS, the City of Santa Fe ("City") is responsible for the planning, construction, operation, and maintenance of its municipal transportation infrastructure; and

WHEREAS, Henry Lynch Road is a critical City arterial road serving residents, businesses, and regional traffic, and the segment from Rufina Street to Agua Fria Street needs full roadway reconstruction to improve safety, accessibility, multi-modality, and long-term infrastructure performance; and

WHEREAS, the Henry Lynch Road Reconstruction Project (the "Project") has been identified as a high-priority transportation improvement and, as such, is included in the City's

adopted roadway and capital planning documents, specifically the Infrastructure Capital Improvement Plan (ICIP) 2027-2031, the Infrastructure Fiscal Capital Improvement Plan (IFCIP) 2021–2027, and the Santa Fe Metropolitan Transportation Plan (SFMTP) 2020–2045, demonstrating the necessity and priority of the Project for the City; and

WHEREAS, during the years of 2021- 2023, the City has been the recipient of multiple awards from the State of New Mexico for the Project's engineering design phase, funded through the New Mexico Department of Transportation Project Fund, the Municipal Arterial Program "MAP", and the Local Government Road Fund ("LGRF"), totaling seven hundred forty-one thousand two hundred fifty-eight dollars ($741,258); and

WHEREAS, the engineering design for the Project is anticipated to be completed in the Fall of 2026, positioning the Project to advance to the construction phase, upon receipt of construction funding; and

WHEREAS, the total estimated construction cost for the Project, including construction management, is approximately Fifteen Million Dollars ($15,000,000); and

WHEREAS, the City of Santa Fe is eligible to apply for State transportation construction funding through programs administered by the New Mexico Department of Transportation and the New Mexico Legislature, including but not limited to the LGRF pursuant to NMSA 1978, Section 67-3-28.2, the MAP pursuant to NMSA 1978, Section 67-3-28.2, and the Transportation Project Fund ("TPF") pursuant to NMSA 1978, Section 67-3-78, as amended; and

WHEREAS, the City wishes to apply for funding from State programs including but not limited to the LGRF, MAP, and TPF, and these same programs require a local match, which in the case of the LGRF, may be up to twenty-five percent (25%) of the total eligible project cost; and

WHEREAS, the City has the financial capacity and the intent to provide the required local match for the Project, subject to final funding awards, executed agreements, and appropriation of funds by the Governing Body; and

WHEREAS, the Governing Body finds that applying for State construction funding for the Project is in the best interest of the City and that it is necessary to leverage State resources to advance a critical transportation improvement.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE determines, resolves, and orders as follows:

1. **Authorization to Apply for State Funding.** The Governing Body hereby authorizes the City of Santa Fe to submit applications for State construction funding for the Henry Lynch Road Reconstruction Project from Rufina Street to Agua Fria Street through the Local Government Road Fund, Municipal Arterial Program, Transportation Project Fund, and any other applicable State transportation funding programs.
2. **Commitment to Local Match.** The Governing Body authorizes the submission of applications for funding that require a commitment of City funds for the required local match, in an amount up to twenty-five percent (25%) of the total eligible construction cost, including construction management, subject to final project costs, funding award conditions, and budget approval.
3. **Consistency with Adopted Plans.** The Governing Body finds and declares that the Project is consistent with the City's adopted transportation, capital improvement, and infrastructure plans and supports the City's long-term mobility and safety goals.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2026.

Reviewed by Finance Director: ANDREA PHILLIPS (Feb 5, 2026 12:47:13 MST) **Date:** 02/05/2026

Summary:
The proposed resolution would authorize the City of Santa Fe ("City") to submit applications to the Local Governing Fund ("LGRF"), the Municipal Arterial Program ("MAP"), the Transportation Project Fund ("TPF"), and any other applicable State transportation funding programs for State transportation construction funding for the Henry Lynch Road Reconstruction Project ("Project") from Rufina Street to Agua Fria Street. The resolution would also authorize any commitment required by those applications for a local match of funds, in an amount up to twenty-five (25%) of the total eligible construction costs, subject to final project costs, funding award conditions, and budget approval by the City.

Departments Affected:
Public Works

Consequences of Not Enacting Legislation:
If this resolution is not approved, the City of Santa Fe will be unable to apply for State transportation construction funding for the Henry Lynch Road Reconstruction Project from Rufina Street to Agua Fria Street. Without authorization to pursue these funds and commit the required local match, the City would be ineligible for programs such as the LGRF, the MAP, and the TPF. This would likely delay or prevent construction following completion of the engineering design phase in Fall 2026, and would prolong existing roadway, safety, and mobility issues in the project area.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Resolution No. 2021-53 and Resolution No. 2025-44

Performance and Administrative Implications:
Approval of this resolution authorizes staff to apply for State transportation construction funding and administer the Henry Lynch Road Reconstruction Project in accordance with State program requirements. This includes coordination with the New Mexico Department of Transportation, completion of required

applications, compliance with reporting and oversight standards, and project management following completion of engineering design phase in Fall 2026. No additional administrative impacts are anticipated beyond normal project delivery and grant administration responsibilities.

Fiscal Implications:

Approval of this resolution authorizes City staff to submit applications for funding and those applications often commit the City to providing a local match, which in the case of LGRF can be up to 25 percent of the total construction cost, contingent upon the award of State transportation funding. Construction funding would be sought through State programs including the LGRF, the MAP, and the TPF. No immediate fiscal impact is anticipated; any required local match would be programmed in future budgets and subject to funding awards and to Governing Body approval.

RE: DWSRLF Loan for Flocculation Sedimentation Upgrades at Canyon Road Water Treatment Plant

---

EXECUTIVE SUMMARY:

The proposed bill would authorize the execution and delivery of a Drinking Water State Revolving Fund loan and subsidy agreement in the total amount of $17,000,000 between the New Mexico Finance Authority and the City of Santa Fe ("City"). The loan would be for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Canyon Road Water Treatment Pant. This bill specifies that the loan be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). With respect to the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City. The Loan shall be in the maximum principal amount of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000.

BACKGROUND:

The City entered into a contract with Bradbury Stamm Construction in the total amount of $21,882,300, exclusive of sales tax, to complete the Flocculation and Sedimentation Improvements project at the Canyon Road Water Treatment Plant. This project will upgrade critical infrastructure at the facility, which provides potable drinking water to the residents of the city of Santa Fe. The City's Water Division is funding the project through a combination of Drinking Water State Revolving Loan Fund, which includes a significant principal loan forgiveness component, along with Water Trust Board Fundin and Water Enterprise Fund moneys.

A BILL

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

AUTHORIZING THE EXECUTION AND DELIVERY OF A LOAN AND SUBSIDY AGREEMENT ("LOAN AGREEMENT") BY AND BETWEEN THE NEW MEXICO FINANCE AUTHORITY ("NMFA") AND CITY OF SANTA FE, NEW MEXICO ("THE BORROWER"), IN THE TOTAL AMOUNT OF SEVENTEEN MILLION DOLLARS ($17,000,000), EVIDENCING AN OBLIGATION OF THE BORROWER TO UTILIZE THE LOAN AMOUNT SOLELY FOR THE PURPOSE OF FINANCING THE COSTS OF CONSTRUCTING A NEW FLOCCULATION AND SEDIMENTATION PROCESS AND MAKING IMPROVEMENTS TO THE CANYON ROAD WATER TREATMENT PLANT AS A COMPONENT OF THE SYSTEM OWNED AND OPERATED BY THE BORROWER, AND SOLELY IN THE MANNER DESCRIBED IN THE LOAN AGREEMENT; PROVIDING FOR THE PLEDGE AND PAYMENT OF THE LOAN SOLELY FROM THE NET REVENUES OF THE WATER UTILITY SYSTEM OF THE BORROWER; CERTIFYING THAT THE LOAN AMOUNT, TOGETHER WITH OTHER FUNDS AVAILABLE TO THE BORROWER, IS SUFFICIENT TO COMPLETE THE

PROJECT; APPROVING THE FORM OF AND OTHER DETAILS CONCERNING THE LOAN AGREEMENT; RATIFYING ACTIONS HERETOFORE TAKEN; REPEALING ALL ACTION INCONSISTENT WITH THIS ORDINANCE; AND AUTHORIZING THE TAKING OF OTHER ACTIONS IN CONNECTION WITH THE EXECUTION AND DELIVERY OF THE LOAN AGREEMENT.

Capitalized terms used in the following preambles have the same meaning as defined in this Ordinance unless the context requires otherwise.

WHEREAS, the Borrower is a legally and regularly created, established, organized and existing home-rule municipality under the constitution and general laws of the State of New Mexico, and more specifically, NMSA 1978, Sections 3-1-1 through 3-66-11, as amended, is a qualifying entity under the Water Project Finance Act and is qualified for financial assistance as determined by the New Mexico Finance Authority ("NMFA") and approved by the Water Trust Board pursuant to the Board Rules, the Policies and the Act; and

WHEREAS, pursuant to the Board Rules, the Water Trust Board has recommended the Project for funding as a Qualifying Project to the Legislature; and

WHEREAS, Chapter 6, Laws 2024, being House Bill 148 of the 2024 Regular New Mexico Legislative Session, authorized the funding of the Project from the Water Project Fund; and

WHEREAS, the Water Trust Board has recommended that the NMFA enter into and administer the Loan Agreement in order to finance the Project; and

WHEREAS, the NMFA approved on July 18, 2025, that the Borrower receive financial assistance in the form of the Loan; and

WHEREAS, the Governing Body has determined and hereby determines that the Project may be financed with amounts granted and loaned pursuant to the Loan Agreement, that the Loan Amount, together with the Additional Funding Amount and other moneys available to the

Borrower, is sufficient to complete the Project, and that it is in the best interest of the Borrower and the constituent public it serves that the Loan Agreement be executed and delivered and that the funding of the Project take place by executing and delivering the Loan Agreement; and

WHEREAS, there have been presented to the Governing Body and there presently are on file with the City Clerk this Ordinance and the form of the Loan Agreement, which is incorporated by reference as Attachment A, and considered to be a part hereof; and

WHEREAS, the Loan Agreement shall not constitute a general obligation of the Borrower, the Water Trust Board or the NMFA or a debt or pledge of the full faith and credit of the Borrower, the Water Trust Board, the NMFA or the State; and

WHEREAS, the Governing Body hereby determines that the Additional Funding Amount is now available to the Borrower to complete the Project; and

WHEREAS, the Borrower has met or will meet prior to the first disbursement of any portion of the Loan Amount, the Conditions and readiness to proceed requirements established for the portion of the Loan Amount disbursed or caused to be disbursed by the NMFA, including but not limited to the requirements of Executive Order 2013-006; and

WHEREAS, all required authorizations, consents and approvals in connection with (i) the use of the Loan Amount for the purposes described, and according to the restrictions set forth, in the Loan Agreement; (ii) the availability of other moneys necessary and sufficient, together with the Loan Amount, to complete the Project; and (iii) the authorization, execution and delivery of the Loan Agreement which are required to have been obtained by the date of this Ordinance, have been obtained or are reasonably expected to be obtained.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE, NEW MEXICO:

Section 1. Definitions. As used in this Ordinance, the following terms shall, for all purposes, have the meanings herein specified, unless the context clearly requires otherwise (such

meanings to be equally applicable to both the singular and the plural forms of the terms defined); and, any term not defined herein shall have the definition given it by the Loan Agreement:

"ACH Authorization" means the authorization for direct payment to the NMFA by ACH made by the Borrower on the form required by the bank or other entity at which the account is held, from which the Pledged Revenues will be paid. "Act" means the general laws of the State, particularly the Water Project Finance Act, NMSA 1978, §§ 72-4A-1 through 72-4A-11, and enactments of the Governing Body relating to the Loan Agreement, including this Ordinance, all as amended and supplemented.

"Additional Funding Amount" means the amount to be provided by the Borrower which includes the total value of the Soft Match or Hard Match (each as defined in Section 4.2 of the Policies) which, in combination with the Loan Amount and other moneys available to the Borrower, is sufficient to complete the Project and to provide matching funds required to complete the Project. The Additional Funding Amount is $3,440,053.

"Administrative Fee" or "Administrative Fee Component" means an amount equal to one-quarter of one percent (0.25%) per annum of the unpaid principal balance of the Loan Amount, taking into account both payments made by the Borrower and hardship waivers of payments granted to the Borrower pursuant to Section 5.2(a)(i) of the LoanAgreement.

"Authorized Officers" means any one or more of the Mayor, Mayor Pro Tem, City Manager and City Clerk of the Borrower.

"Board Rules" means Review and Eligibility of Proposed Water Projects, New Mexico Water Trust Board, 19.25.10 NMAC.

"Borrower" means the City of Santa Fe, New Mexico.

"Closing Date" means the date of execution and delivery of the Loan Agreement, by the Borrower and the NMFA.

"Completion Date" means the date of final payment of the cost of the Project.

"Conditions" has the meaning given to that term in the Loan Agreement.

"Eligible Items" means eligible Project costs for which grants and loans may be made pursuant to NMSA 1978, § 72-4A-7(C), as amended, of the Act, the Board Rules and applicable Policies, and includes, without limitation, Eligible Legal Costs.

"Eligible Legal Costs" has the meaning given to that term in the Loan Agreement.

"NMFA" means the New Mexico Finance Authority.

"Generally Accepted Accounting Principles" means the officially established accounting principles applicable to the Borrower consisting of the statements, determinations and other official pronouncements of the Government Accounting Standards Board, Financial Accounting Standards Board, Federal Accounting Standards Board or other principle-setting body acceptable to the Lender establishing accounting principles applicable to the Borrower.

"Governing Body" means the duly organized City Council and the mayor of the Borrower, or any successor governing body of the Borrower.

"Gross Revenues" has the meaning assigned to such term in Ordinance 2016-19 of the Borrower (the "Master Utility Ordinance").

"Herein," "hereby," "hereunder," "hereof," "hereinabove" and "hereafter" refer to this entire Ordinance and not solely to the particular section or paragraph of this Ordinance in which such word is used.

"Loan" or "Loan Amount" means the amount provided to the Borrower as a loan pursuant to the Loan Agreement for the purpose of funding the Project, in the maximum amount of $17,000,000.

"Loan" or "Loan Amount" means the amount borrowed by the Borrower as the Loan Amount pursuant to the Loan Agreement for the purpose of funding the Project and shall not equal more than $17,000,000.

"Loan Agreement" means the Water Project Fund Loan Agreement entered into by and

between the Borrower and the NMFA as authorized by this Ordinance.

"Net Revenues" means the Gross Revenues of the System minus Operation and Maintenance Expenses.

"NMAC" means the New Mexico Administrative Code.

"NMSA 1978" means the New Mexico Statutes Annotated, 1978 Compilation, as amended and supplemented from time to time.

"Operation and Maintenance Expenses" means all reasonable and necessary current expenses of the System, for any particular Fiscal Year or period to which such term is applicable, paid or accrued, related to operating, maintaining and repairing the System, including, without limiting the generality of the foregoing:

(a) legal and overhead expenses of the various City departments directly related and reasonably allocable to the administration of the System;

(b) insurance premiums for the System, including, without limitation, premiums for property insurance, public liability insurance and workmen's compensation insurance, whether or not self-funded;

(c) premiums, expenses and other costs (other than required reimbursements of insurance proceeds and other amounts advanced to pay Debt Service Requirements on System Bonds) for Credit Facilities;

(d) Expenses other than Expenses paid from the proceeds of System Bonds;

(e) the costs of audits of the books and accounts of the System;

(f) amounts required to be deposited in the Rebate Fund;

(g) salaries, administrative expenses, labor costs, surety bonds and the cost of water, materials and supplies used for or in connection with the current operation of the System; and

(h) any fees required to be paid under any operation, maintenance and/or management agreement with respect to the System.

Operation and Maintenance Expenses do not include any allowance for depreciation, payments in lieu of taxes, franchise fees payable or other transfers to the City's general fund, liabilities incurred by the City as a result of its negligence or other misconduct in the operation of the System, any charges for the accumulation of reserves for capital replacements or any Operation and Maintenance Expenses payable from moneys other than Gross Revenues.

"Ordinance" means this Ordinance as it may be supplemented or amended from time to time.

"Pledged Revenues" means the Net Revenues of the System pledged to the payment of the Loan Amount and Administrative Fee pursuant to this Ordinance and the Loan Agreement and described in the Term Sheet.

"Project" means the project(s) described on the Term Sheet.

"Project Account" means the book account established by the NMFA in the name of the Borrower for purposes of tracking expenditure of the Loan Amount by the Borrower to pay for the costs of the Project, as shown in the Term Sheet, which account shall be kept separate and apart from all other accounts of the NMFA.

"Qualifying Water Project" means a water project for (i) storage, conveyance or delivery of water to end-users; (ii) implementation of the federal Endangered Species Act of 1973 collaborative programs; (iii) wastewater conveyance and treatment; (iv) restoration and management of watersheds; (v) flood prevention or (vi) water conservation or recycling, treatment or reuse of water as provided by law; and which has been approved by the state legislature pursuant to NMSA 1978, § 72-4A-9(B), as amended.

"State" means the State of New Mexico.

"System" means the municipally owned public utility designated as the Borrower water utility system consisting of all properties, real, personal, mixed or otherwise, now owned or hereafter acquired by the Borrower through purchase, condemnation, construction or otherwise,

including all expansions, extensions, enlargements and improvements of or to the water utility system, and used in connection therewith or relating thereto, and any other related activity or enterprise of the Borrower designated by the Governing Body as part of the water utility system, whether situated within or without the limits of the Borrower.

"Term Sheet" means Exhibit "A" attached to the Loan Agreement.

"Useful Life" means the structural and material design life of the Project, including planning and design features, as required by the Act and the Board Rules.

"Water Project Fund" means the fund of the same name created pursuant to the Act and held and administered by the NMFA.

"Water Trust Board" or "WTB" means the water trust board created and established pursuant to the Act.

Section 2. Ratification. All action heretofore taken (not inconsistent with the provisions of this Ordinance) by the Borrower and officers of the Borrower directed toward the acquisition and completion of the Project, the pledge of the Pledged Revenues to payment of amounts due under the Loan Agreement, and the execution and delivery of the Loan Agreement shall be, and the same hereby is, ratified, approved and confirmed.

Section 3. Authorization of the Project and the Loan Agreement. The acquisition and completion of the Project and the method of funding the Project through execution and delivery of the Loan Agreement and the other documents related to the transaction are hereby authorized and ordered. The Project is for the benefit and use of the Borrower and the public whom it serves.

Section 4. Findings. The Governing Body hereby declares that it has considered all relevant information and data and hereby makes the following findings:

A. The Project is necessary to meet the needs of the Borrower and the public whom it serves.

B. Moneys available and on hand for the Project from all sources other than

Moneys available and on hand for the Project from all sources other than the Loan are not sufficient to defray the cost of acquiring and completing the Project but, together with the Loan Amount, are sufficient to complete the Project.

C. The Project and the execution and delivery of the Loan Agreement pursuant to the Act to provide funds for the financing of the Project are necessary, convenient and in furtherance of the governmental purposes of the Borrower, and in the interest of the public health, safety, and welfare of the constituent public served by the Borrower.

D. The Borrower will acquire and complete the Project with the proceeds of the Loan, the Additional Funding Amount and other amounts available to the Borrower, and except as otherwise expressly provided by the Loan Agreement, will utilize, operate and maintain the Project for the duration of its Useful Life, as required by NMSA 1978, § 72-4A-7(A)(1), as amended.

E. Together with the Loan Amount, and other amounts available to the Borrower, the Additional Funding Amount is now available to the Borrower, and in combination with the Loan Amount, will be sufficient to complete the Project.

F. The NMFA shall maintain on behalf of the Borrower a separate Project Account as a book account only on behalf of the Borrower and financial records in accordance with Generally Accepted Accounting Principles during the construction or implementation of the Project.

G. The Borrower has acquired title to or easements or rights of way on the real property upon which the Project is being constructed or located as provided in the Loan Agreement.

Section 5. Loan Agreement—Authorization and Detail.

A. Authorization. This Ordinance has been adopted by the affirmative vote of at least a three-fourths majority of the Governing Body. For the purpose of protecting the public

health, conserving the property, and protecting the general welfare and prosperity of the constituent public served by the Borrower and acquiring and completing the Project, it is hereby declared necessary that the Borrower execute and deliver the Loan Agreement evidencing the Borrower acceptance of the Loan Amount of $17,000,000 to be utilized solely for Eligible Items necessary to complete the Project, and solely in the manner and according to the restrictions set forth in the Loan Agreement, the execution and delivery of which is hereby authorized. The Borrower shall use the Loan Amount to finance the acquisition and completion of the Project.

B. Detail. The Loan Agreement shall be in substantially the form of the Loan Agreement presented at the meeting of the Governing Body at which this Ordinance was adopted. The Loan shall be in the maximum principal amount of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000. Interest on the Loan Amount shall be zero percent (0%) per annum of the unpaid principal balance of the Loan Amount, and the Administrative Fee shall be one-quarter of one percent (0.25%) per annum of the unpaid principal balance of the Loan Amount, taking into account both payments made by the Borrower and hardship waivers of payments granted to the Borrower.

Section 6. Approval of Loan Agreement. The form of the Loan Agreement as presented at the meeting of the Governing Body at which this Ordinance was adopted, is hereby approved. Authorized Officers are hereby individually authorized to execute, acknowledge and deliver the Loan Agreement with such changes, insertions and omissions as may be approved by such individual Authorized Officers, and the City Clerk is hereby authorized to attest the Loan Agreement. The execution of the Loan Agreement shall be conclusive evidence of such approval.

Section 7. Security. The Loan Amount and Administrative Fee shall be solely secured by the pledge of the Pledged Revenues herein made and as set forth in the Loan Agreement.

Section 8. Disposition of Proceeds: Completion of the Project.

A. Project Account. The Borrower hereby consents to the creation of the

Project Account by the NMFA. Until the Completion Date, the amount of the Loan credited to the Project Account shall be used and paid out solely for Eligible Items necessary to acquire and complete the Project in compliance with applicable law and the provisions of the Loan Agreement.

B. Completion of the Project. The Borrower shall proceed to complete the Project with all due diligence. Upon the Completion Date, the Borrower shall execute a certificate stating that completion of and payment for the Project has been completed. Following the Completion Date or the earlier expiration of the time allowed for disbursement of Loan funds as provided in the Loan Agreement, any balance remaining in the Project Account shall be transferred and deposited into the Water Project Fund or otherwise distributed as provided in the Loan Agreement.

C. NMFA Not Responsible. Borrower shall apply the funds derived from the Loan Agreement as provided therein, and in particular Article VII of the Loan Agreement. The NMFA shall not in any manner be responsible for the application or disposal by the Borrower or by its officers of the funds derived from the Loan Agreement or of any other funds held by or made available to the Borrower in connection with the Project. NMFA shall not be liable for the refusal or failure of any other agency of the State to transfer any portion of the Loan Amount in its possession, custody and control to the NMFA for disbursement to the Borrower, or to honor any request for such transfer or disbursement of the Loan Amount.

Section 9. Payment of Loan Amount and ACH Authorization. Pursuant to the Loan Agreement, the Borrower shall pay the Loan Amount and Administrative Fee directly from the Pledged Revenues to the NMFA as provided in the Loan Agreement in an amount sufficient to pay principal and other amounts due under the Loan Agreement and to cure any deficiencies in the payment of the Loan Amount or other amounts due under the Loan Agreement. The Borrower hereby consents to the creation of an ACH authorization agreement for the purpose of making regular electronic payments of the Loan Amount and Administrative Fee, if at any applicable point

in time during the Agreement Term the Borrower desires to use such payment method for the purposes of the Loan.

Section 10. Lien on Pledged Revenues. Pursuant to the Loan Agreement, the Loan Agreement constitutes an irrevocable lien (but not an exclusive lien) on the Pledged Revenues subordinate to the lien thereon of all other liens thereon present and future, except that the lien on the Pledged Revenues of any future loans from the Lender to the Borrower pursuant to the Water Project Finance Act or the Colonias Infrastructure Act, shall be on parity with the lien of the Loan Agreement authorized by this Ordinance.

Section 11. Authorized Officers. Authorized Officers are hereby individually authorized and directed to execute and deliver any and all papers, instruments, opinions, affidavits and other documents and to do and cause to be done any and all acts and things necessary or proper for carrying out this Ordinance, the Loan Agreement and all other transactions contemplated hereby and thereby. Authorized Officers are hereby individually authorized to do all acts and things required of them by this Ordinance and the Loan Agreement for the full, punctual and complete performance of all the terms, covenants and agreements contained in this Ordinance and the Loan Agreement including but not limited to, the execution and delivery of closing documents in connection with the execution and delivery of the Loan Agreement.

Section 12. Amendment of Ordinance. This Ordinance after its adoption may be amended without receipt by the Borrower of any additional consideration. On and after the Closing Date, this Ordinance may be amended without receipt by the Borrower of any additional consideration, but only with the prior written consent of the NMFA.

Section 13. Ordinance Irrepealable. After the Loan Agreement has been executed and delivered, this Ordinance shall be and remain irrepealable until all obligations due under the Loan Agreement shall be fully discharged, as herein provided.

Section 14. Severability Clause. If any section, paragraph, clause or provision of this

Ordinance shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of this Ordinance.

Section 15. Repealer Clause. All bylaws, orders, ordinances, resolutions, or parts thereof, inconsistent herewith are hereby repealed to the extent only of such inconsistency. This repealer shall not be construed to revive any bylaw, order, resolution or ordinance, or part thereof, heretofore repealed.

Section 16. Effective Date. Upon due adoption of this Ordinance, it shall be recorded in the book of the Borrower kept for that purpose, authenticated by the signatures of the Mayor and City Clerk of the Borrower, and this Ordinance shall be in full force and effect thereafter, in accordance with law; provided, however, that if recording is not required for the effectiveness of this Ordinance, this Ordinance shall be effective upon adoption of this Ordinance by the Governing Body.

Section 17. General Summary for Publication. This ordinance shall be published consistently with SFCC 1987, Section 2-2.4.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2026.

by and between the

NEW MEXICO FINANCE AUTHORITY

and the

CITY OF SANTA FE,
New Mexico

DRINKING WATER STATE REVOLVING LOAN FUND
LOAN AND SUBSIDY AGREEMENT

This LOAN AND SUBSIDY AGREEMENT (the "Loan Agreement"), dated July 18, 2025, is entered into by and between the **NEW MEXICO FINANCE AUTHORITY** (the "NMFA"), and the **CITY OF SANTA FE** (the "Governmental Unit"), a municipality duly organized and existing under the laws of the State of New Mexico (the "State").

WITNESSETH:

Capitalized terms used in the following recitals of this Loan Agreement and not defined in the first Paragraph above or in these recitals shall have the same meaning as defined in Article I of this Loan Agreement, unless the context requires otherwise.

WHEREAS, the NMFA is authorized, pursuant to the Drinking Water State Revolving Loan Fund Act, NMSA 1978, §§ 6-21A-1 through 6-21A-9, as amended (the "DWSRLF Act") to implement a program to permit qualified local authorities, such as the Governmental Unit, to enter into agreements with the NMFA to provide financial assistance in the acquisition, design, construction, improvement, expansion, repair and rehabilitation of drinking water supply facilities as authorized by the Safe Drinking Water Act of 1974 ("SDWA"); and

WHEREAS, the DWSRLF Act was adopted pursuant to the SDWA which authorizes the United States Environmental Protection Agency ("EPA") to set national based standards for drinking water and was originally passed by Congress in 1974 and amended in 1986, 1996, 2018 and 2021 with the passage of the Bipartisan Infrastructure Law signed into law on November 15, 2021 ("BIL"); and

WHEREAS, the BIL, also known as the Infrastructure Investment and Jobs Act was implemented with the purpose, among others, of expanding access to clean drinking water throughout the United States of America; and

WHEREAS, the Governmental Unit is a municipality organized and existing under the general laws of the State, specifically the home rule charter of the Governmental Unit adopted under Article X Section 6 of the New Mexico Constitution and the Municipal Code, NMSA 1978, §§3-15-1 through 3-15-16, all as amended, and is a qualified local authority under the DWSRLF Act; and

WHEREAS, the Governmental Unit is authorized by the laws of the State, and in particular NMSA 1978, §§ 3-31-1 through 3-31-12, to enter into this Loan Agreement and accept a loan for the purpose of financing the Project; and

WHEREAS, a portion of the funds made available under this Loan Agreement pursuant to the DWSRLF Act and the SDWA, may be forgiven and, if forgiven, will not be required to be repaid; and

WHEREAS, the Governing Body of the Governmental Unit has determined that it is in the best interests of the Governmental Unit and the public it serves that the Governmental Unit enter into this Loan Agreement with the NMFA and accept a loan and subsidy from the NMFA to finance the costs of the Project, as more fully described on the Term Sheet attached hereto as Exhibit "A"; and

WHEREAS, the Project appears on the Drinking Water Fundable Priority List; and

WHEREAS, the Project has been planned and authorized in conformity with the Intended Use Plan; and

WHEREAS the NMFA will disburse the proceeds of the Loan for construction after written determination by the NMFA, the New Mexico Environment Department (the "Department"), or other appropriate agency or entity on behalf of the NMFA (pursuant to an agreement between such agency or entity and the NMFA) that the Governmental Unit has complied with EPA's guidelines applicable to the Project and with the requirements of the laws and regulations of the State governing the construction and operation of drinking water systems. Upon written determination of compliance, the NMFA, the Department or other appropriate agency or entity will approve (1) the engineer and engineering solicitation process for the Project; (2) the engineering contract for the Project; (3) plans and specifications pursuant to 42 U.S.C. Section 300j-12; and (4) bids for the acquisition and completion of the Project; and

WHEREAS, a portion of the funds made available under this Loan Agreement pursuant to the DWSRLF Act and the SDWA are federal funds categorized as CFDA 66.468; and

WHEREAS, pursuant to information provided by the Governmental Unit and environmental review by applicable State and federal agencies, and in accordance with 40 C.F.R. Sections 6.204, 6.300(c)(1), and 6.301(f), and pursuant to the environmental review process of the State, the NMFA will determine in writing prior to disbursement of any proceeds of the Loan for construction if the Project meets the requirements for a Categorical Exclusion as defined in the State Environmental Review Process (SERP) for the Drinking Water State Revolving Loan Fund; and

WHEREAS, pursuant to 42 U.S.C. 300j-12(a)(3), the New Mexico Environment Department Drinking Water Bureau has determined that the Governmental Unit has sufficient technical, managerial and financial capability to operate the Project for its useful life and ensure compliance with the requirements of the SDWA.

NOW, THEREFORE, for and in consideration of the premises and the mutual promises and covenants herein contained, the NMFA and the Governmental Unit agree:

ARTICLE I

DEFINITIONS

Capitalized terms defined in this Article I, for all purposes, shall have the meaning specified in this Article I wherever used in this Loan Agreement, including the foregoing recitals, unless the context clearly requires otherwise (such meanings to be equally applicable to both the singular and the plural forms of the terms defined). Capitalized terms defined in the foregoing recitals, if not defined in this Article I, shall have the same meaning as therein stated when used in this Loan Agreement, unless the context clearly requires otherwise. Capitalized terms used and not defined in this Loan Agreement shall have the meaning given to each of those capitalized terms in the Master Ordinance.

"Administrative Fee" or "Administrative Fee Component" means the 0.25% annual fee payable to the NMFA as 0.25% of the Aggregate Repayable Disbursements then outstanding as a part of each Loan Agreement Payment for the costs of originating and servicing the Loan.

"Aggregate Disbursements" means, at any time after the Closing Date, the sum of all Disbursements.

"Aggregate Forgiven Disbursements" means the amount of subsidy provided in the form of principal forgiveness, and shall at any time after the Closing Date be equal to the product of the subsidy times the Aggregate Disbursements, up to the Maximum Forgiven Principal Amount.

"Aggregate Program Amount" means, with respect to this Loan Agreement, the sum of the Aggregate Repayable Disbursements and the Aggregate Forgiven Disbursements up to the Maximum Principal Amount.

"Aggregate Repayable Disbursements" means, at any time after the Closing Date, the Aggregate Disbursements less the Aggregate Forgiven Disbursements.

"Approved Requisition" means a requisition in the form of Exhibit "C" to this Loan Agreement, together with the required supporting documentation set out in Exhibit "C" submitted to and approved by the NMFA pursuant to Section 4.2 of this Loan Agreement.

"Authorized Officers" means, with respect to the Governmental Unit, the Mayor, City Manager, Finance Director, and City Clerk thereof; and with respect to the NMFA, any one or more of the Chairperson, Vice-Chairperson, Secretary and Chief Executive Officer, and any other officer or employee of the NMFA designated in writing by an Authorized Officer of the NMFA.

"Bonds" means drinking water state revolving loan fund revenue bonds, if any, issued hereafter by the NMFA and specifically related to this Loan Agreement and the Loan Agreement Payments.

"Closing Date" means the date of execution and delivery of this Loan Agreement as shown on the Term Sheet.

"Debt Service Account" means the debt service account established in the name of the Governmental Unit and administered by the NMFA to pay the Loan Agreement Payments under this Loan Agreement as the same become due.

"Debt Service Requirements" for any given period, means the sum of: (a) the amount required to pay the interest becoming due on the applicable System Bonds, during that period or to make reimbursements for payments of interest; and (b) the amount required to pay the principal or Accreted Value becoming due on the applicable System Bonds during that period, whether upon maturity or the Accreted Term Date. For purposes of calculating the maximum annual Debt Service Requirements, assumption set forth in the Master Ordinance applicable to the calculation of Debt Service Requirements shall be used.

"Department" means the New Mexico Environment Department.

"Disbursement" means an amount caused to be paid by the NMFA for an Approved Requisition for costs of the Project, calculated on the basis of the amount of such Approved Requisition.

"Drinking Water Fundable Priority List" means the list of drinking water projects compiled by the Department pursuant to the Memorandum of Understanding and the Intended Use Plan.

"DWSRLF Act" means the general laws of the State, particularly the Drinking Water State Revolving Loan Fund Act, NMSA 1978, §§ 6-21A-1 through 6-21A-9, the home rule charter of the Governmental Unit adopted under Article X Section 6 of the New Mexico Constitution and the Municipal Code, NMSA 1978, §§ 3-15-1 through 3-15-16, all as amended, and enactments of the Governing Body relating to this Loan Agreement including the Ordinance.

"Drinking Water State Revolving Loan Fund" means the drinking water state revolving loan fund established by the DWSRLF Act.

"Environmental Protection Agency" or "EPA" means the United States Environmental Protection Agency.

"Event of Default" means one or more events of default as defined in Section 10.1 of this Loan Agreement.

"Final Loan Agreement Payment Schedule" means the schedule of Loan Agreement Payments due on this Loan Agreement following the Final Requisition, as determined on the basis of the Aggregate Repayable Disbursements.

"Final Requisition" means the final requisition of moneys to be submitted by the Governmental Unit, which shall be submitted by the Governmental Unit on or before the date provided for in Section 4.1(b) of this Loan Agreement.

"NMFA Act" means NMSA 1978, §§ 6-21-1 through 6-21-31, as amended.

"Fiscal Year" means the period commencing on July 1 of each calendar year and ending on the last day of June of the next succeeding calendar year, or any other twelve-month period which any appropriate authority may hereafter establish for the Governmental Unit as its fiscal year.

"Generally Accepted Accounting Principles" means the officially established accounting principles applicable to the Governmental Unit consisting of the statements, determinations and other official pronouncements of the Government Accounting Standards Board, Financial Accounting Standards Board, Federal Accounting Standards Board or other principle-setting body acceptable to the NMFA establishing accounting principles applicable to the Governmental Unit.

"Governing Body" means the duly organized City Council of the Governmental Unit, or any successor governing body of the Governmental Unit.

"Gross Revenues" means all income and revenues directly or indirectly derived by the Governmental Unit from the operation and use of the System, or any part of the System, and includes, without limitation, all revenues received by the Governmental Unit, or any municipal corporation or agency succeeding to the rights of the Governmental Unit, from the System and from the sale and use of water or water facilities furnished to the inhabitants in the Service Area. Such term also includes:

(a) All income derived from the investment of any money in the Acquisition Fund, Income Fund, Debt Service Fund, Reserve Fund and Rate Stabilization Fund and from surplus Net Revenues;

(b) Money released from the Rebate Fund to the Governmental Unit;

(c) Money released from the Rate Stabilization Fund to the extent that the amount released is used to pay Operation and Maintenance Expenses or Debt Service Requirements on System Bonds in the year released;

(d) Property insurance proceeds which are not necessary to restore or replace the property lost or damaged and the proceeds of the sale or other disposition of any part of the System; and

(e) Such other amounts that may be designated as Gross Revenues in a Supplemental Ordinance.

Gross Revenues do not include:

(a) Any money received as (i) grants or gifts from the United States of America, the State or other sources or (ii) the proceeds of any charge or tax intended as a replacement therefor or other capital contributions from any source which are restricted as to use;

(b) Gross receipts taxes, other taxes and/or fees collected by the Governmental Unit and remitted to other governmental agencies; and

(c) Condemnation proceeds or the proceeds of any insurance policy, except for (d) above and any insurance proceeds derived in respect of loss of use or business interruption.

"Herein," "hereby," "hereunder," "hereof," "hereinabove" and "hereafter" refer to this entire Loan Agreement and not solely to the particular section or paragraph of this Loan Agreement in which such word is used.

"Independent Accountant" means (i) an accountant employed by the State and under the supervision of the State Auditor, or (ii) any certified public accountant or firm of such accountants duly licensed to practice and practicing as such under the laws of the State, appointed and paid by the Governmental Unit who (a) is, in fact, independent and not under the domination of the Governmental Unit, (b) does not have any substantial interest, direct or indirect, with the Governmental Unit, and (c) is not connected with the Governmental Unit as an officer or employee of the Governmental Unit, but who may be regularly retained to make annual or similar audits of the books or records of the Governmental Unit.

"Intended Use Plan" means the current plan prepared by the NMFA and the Department and approved by the Environmental Protection Agency pursuant to 42 U.S.C. Section 300j-12(b) and 40 CFR §35.3555 which establish criteria for extending drinking water improvements financial assistance to qualifying public drinking water utility systems.

"Interest Component" means the portion of each Loan Agreement Payment paid as interest accruing on the Aggregate Repayable Disbursements then outstanding, calculated from the date of each Disbursement.

"Interest Rate" means the rate of interest on this Loan Agreement, which includes the Administrative Fee, as shown on the Term Sheet.

"Interim Period" means the period no greater than twenty-seven (27) months, or a longer period as may be approved by the NMFA as provided in Section 4.1(b) of this Loan Agreement, beginning on the Closing Date, during which the NMFA will disburse moneys to the Governmental Unit to pay costs of the Project, unless extended pursuant to Section 4.1(b) of this Loan Agreement.

"Interim Loan Agreement Payment Schedule" means the anticipated schedule of Loan Agreement Payments due on this Loan Agreement following the Final Requisition, assuming disbursement of the entire Aggregate Program Amount within twenty-seven (27) months of the Closing Date. The Interim Loan Agreement Payment Schedule is attached hereto as Exhibit "B".

"Loan" means the funds to be loaned to the Governmental Unit by the NMFA pursuant to this Loan Agreement, up to the Maximum Principal Amount.

"Loan Agreement" means this loan and subsidy agreement and any amendments or supplements hereto, including the exhibits attached to this loan and subsidy agreement.

"Loan Agreement Payment" means, collectively, the Maximum Repayable Principal Amount, the Interest Component and the Administrative Fee Component to be paid by the

Governmental Unit as payment on the Aggregate Repayable Disbursements under this Loan Agreement, as shown on Exhibit "B" hereto.

"Loan Agreement Payment Date" means each date a Loan Agreement payment is due on this Loan Agreement as shown on the Interim Loan Agreement Payment Schedule, attached hereto as Exhibit "B" or in the Final Loan Agreement Payment Schedule.

"Loan Agreement Term" means the term of this Loan Agreement as provided under Article III of this Loan Agreement.

"Master Ordinance" means the Governmental Unit's Ordinance No. 2016-19, adopted May 11, 2016, as amended and supplemented from time to time.

"Maximum Annual Debt Service" means the Maximum Repayable Principal Amount and Interest due on all outstanding Senior and Parity Obligations of the Governmental Unit

"Maximum Forgiven Principal Amount" means the maximum amount of loan subsidy available in the form of principal forgiveness to be applied proportionally at the time of each Disbursement to the Governmental Unit, up to fifty percent (50%) of the Maximum Principal Amount. The Maximum Forgiven Principal Amount is eight million five hundred thousand dollars ($8,500,000).

"Maximum Principal Amount" means seventeen million dollars ($17,000,000).

"Maximum Repayable Principal Amount" means the maximum amount of Aggregate Repayable Disbursements made to the Governmental Unit pursuant to this Loan Agreement. The Maximum Repayable Principal Amount is eight million five hundred thousand dollars ($8,500,000).

"Memorandum of Understanding" means the current memorandum of understanding by and between the NMFA and the Department pursuant to the DWSRLF Act describing and allocating duties and responsibilities in connection with the Drinking Water State Revolving Loan Fund program.

"Net Revenues" means the Gross Revenues of the System minus Operation and Maintenance Expenses, indirect charges, amounts expended for capital replacements and repairs, required set asides for debt and replacement requirements, and any other payments from the Gross Revenues reasonably required for operation of the System.

"NMSA 1978" means the New Mexico Statutes Annotated, 1978 Compilation, as amended and supplemented from time to time.

"Operating Agreement" means the operating agreement entered into between the NMFA and the Environmental Protection Agency, Region 6, for the Drinking Water State Revolving Loan Fund program.

"Operation and Maintenance Expenses" means all reasonable and necessary current expenses of the System, for any particular Fiscal Year or period to which such term is applicable, paid or accrued, related to operating, maintaining and repairing the System, including, without limiting the generality of the foregoing:

(a) Legal and overhead expenses of the Governmental Unit directly related and reasonably allocable to the administration of the System;

(b) Insurance premiums for the System, including, without limitation, premiums for property insurance, public liability insurance and workmen's compensation insurance, whether or not self-funded;

(c) Premiums, expenses and other costs (other than required reimbursements of insurance proceeds and other amounts advanced to pay debt service requirements on System Bonds) for credit facilities;

(d) Any expenses described in this definition other than expenses paid from the proceeds of System Bonds;

(e) The costs of audits of the books and accounts of the System;

(f) Amounts required to be deposited in any rebate fund;

(g) Salaries, administrative expenses, labor costs, surety bonds and the cost of water, materials and supplies used for or in connection with the current operation of the System; and

(h) Any fees required to be paid under any operation, maintenance and/or management agreement with respect to the System.

Operation and Maintenance Expenses do not include any allowance for depreciation, payments in lieu of taxes, franchise fees payable or other transfers to the Governmental Unit's general fund, liabilities incurred by the Governmental Unit as a result of its negligence or other misconduct in the operation of the System, any charges for the accumulation of reserves for capital replacements or any Operation and Maintenance Expenses payable from moneys other than Gross Revenues.

"Ordinance" means Ordinance No. 2025-_____ adopted by the Governing Body of the Governmental Unit on June 11, 2025, approving this Loan Agreement and pledging the Pledged Revenues to the payment of the Loan Agreement Payments as shown on the Term Sheet, as supplemented from time to time.

"Permitted Investments" means securities which are at the time legal investments of the Governmental Unit for the money to be invested, as applicable, including but not limited to the following if permitted by law: (i) securities that are issued by the United States government or by its agencies or instrumentalities and that are either direct obligations of the United States, the federal home loan mortgage association, the federal national mortgage association, the federal

farm credit bank, federal home loan banks or the student loan marketing association or that are backed by the full faith and credit of the United States government; (ii) negotiable securities of the State; (iii) money market funds which invest solely in obligations described in clause (i) above which are rated in the highest rating category by Moody's Investors Service, Inc. or S & P Global Ratings; and (iv) the State Treasurer's short-term investment fund created pursuant to NMSA 1978, § 6-10-10.1, as amended, and operated, maintained and invested by the office of the State Treasurer.

"Pledged Revenues" means the Net Revenues of the Governmental Unit pledged to the payment of the Loan Agreement Payments by the Ordinance and this Loan Agreement and described in the Term Sheet.

"Principal Component" means the portion of each Loan Agreement Payment paid as principal on this Loan Agreement, based upon the Aggregate Repayable Disbursements, as shown on Exhibit "B" attached to this Loan Agreement.

"Project" means the project(s) described on the Term Sheet.

"Safe Drinking Water Act" or "SDWA" means 42 U.S.C. §§ 300f et seq.

"Senior Obligations" means any bonds or other obligations of the Governmental Unit now outstanding or hereafter issued or incurred, payable from or secured by a pledge of the Pledged Revenues and issued with a lien on the Pledged Revenues superior to the lien created by this Loan Agreement, including any such obligations shown on the Term Sheet.

"Service Area" means the area served by the System, whether situated within or without the limits of the Governmental Unit.

"State Environmental Review Process" or "SERP" means the environmental review process adopted by the NMFA, as required by and approved by the Environmental Protection Agency, pursuant to the Operating Agreement.

"Subordinate Parity Obligations" means any bonds or obligations of the Governmental Unit now outstanding or hereafter issued or incurred with a lien on the Pledged Revenues on parity with this Loan Agreement and subordinate to any outstanding Senior Obligations having a superior lien on the Pledged Revenues, including any such obligations shown on the Term Sheet.

"Super Subordinate Obligations" means any bonds or other obligations of the Governmental Unit now outstanding or hereafter issued or incurred with a lien on the Pledged Revenues subordinate to the lien created by this Loan Agreement and subordinate to any other outstanding Senior Obligation and Subordinate Parity Obligations having a lien on the Pledged Revenues, including any such obligations shown on the Term Sheet.

"System" means the water utility system operated pursuant to the Governmental Unit's Code of Ordinances Chapter XXV, as amended from time to time, owned, operated and maintained by the Governmental Unit, and of which the Project, when completed, will form part. The System

consists of all properties, real, personal, mixed or otherwise, now owned or hereafter acquired by the Governmental Unit through purchase, condemnation, construction or otherwise, including all expansions, extensions, enlargements and improvements of or to the water utility system, and used in connection therewith or relating thereto, and any other related activity or enterprise of the Governmental Unit designated by the Governing Body as part of the water utility system, whether situated within or without the limits of the Governmental Unit.

"System Bonds" means any bonds and other similar indebtedness payable solely or primarily from the Pledged Revenues, including this Loan Agreement, and any Senior Obligations, Subordinate Parity Obligations and Super Subordinate Obligations.

"Term Sheet" means Exhibit "A" attached to this Loan Agreement.

"Unrequisitioned Principal Amount" means the amount, if any, by which the Maximum Principal Amount exceeds the Aggregate Disbursements at the time the Governmental Unit submits the certificate of completion required pursuant to Section 6.3 of this Loan Agreement.

ARTICLE II

REPRESENTATIONS, COVENANTS AND WARRANTIES

Section 2.1 Representations, Covenants and Warranties of the Governmental Unit. The Governmental Unit represents, covenants and warrants as follows:

(a) Binding Nature of Covenants; Enforceability. All representations, covenants, stipulations, obligations and agreements of the Governmental Unit contained in this Loan Agreement shall be deemed to be the representations, covenants, stipulations, obligations and agreements of the Governmental Unit to the full extent authorized or permitted by law, and such representations, covenants, stipulations, obligations and agreements shall be binding upon the Governmental Unit and its successors and enforceable in accordance with their terms, and upon any board or body to which any powers or duties affecting such representations, covenants, stipulations, obligations and agreements shall be transferred by or in accordance with law. Except as otherwise provided in this Loan Agreement, all rights, powers and privileges conferred and duties and liabilities imposed upon the Governmental Unit by the provisions of this Loan Agreement and the Ordinance shall be exercised or performed by the Governmental Unit or by such members, officers, or officials of the Governmental Unit as may be required by law to exercise such powers and to perform such duties.

(b) Authorization of the Loan Agreement, and Readiness to Proceed. The Governmental Unit is a municipality, and is duly organized and existing under the statutes and laws of the State, including specifically the home rule charter of the Governmental Unit adopted under Article X Section 6 of the New Mexico Constitution and the Municipal Code, NMSA 1978, §§ 3-15-1 through 3-15-16, all as amended. The Governmental Unit is a local authority as defined in the DWSRLF Act. The Governmental Unit is authorized to enter into the transactions contemplated by this Loan Agreement and to carry out its obligations hereunder. The

Governmental Unit has duly authorized and approved the execution and delivery of this Loan Agreement and the other documents related to the transaction. The Governmental Unit has met all readiness to proceed requirements of the NMFA and has met and will continue to meet all requirements of law applicable to this Loan Agreement.

(c) Use of Loan Agreement Proceeds. The Governmental Unit shall proceed without delay in applying the Aggregate Program Amount, pursuant to Section 6.1 of this Loan Agreement to the acquisition and completion of the Project and to no other purpose, as follows:

(i) The Governmental Unit shall, within two (2) years after the Closing Date, have completed the acquisition of the Project, and shall within twenty-seven (27) months after the Closing Date have requisitioned the Aggregate Program Amount, or such portion thereof as shall be necessary to complete the Project, unless an extension is agreed to pursuant to Section 4.1(b) of this Loan Agreement.

(d) Payment of Loan Agreement Payments. The Governmental Unit meets and will continue to meet the requirements established by the NMFA to assure sufficient Pledged Revenues to operate and maintain the System for its useful life and repay the Loan. The Governmental Unit shall promptly pay Loan Agreement Payments, as specified in the Interim Loan Agreement Payment Schedule or the Final Loan Agreement Payment Schedule, as applicable, according to the true intent and meaning of this Loan Agreement. Loan Agreement Payments are payable solely from Pledged Revenues or from the proceeds of refunding bonds or other refunding obligations which the Governmental Unit may hereafter issue in its sole discretion and which are payable from Pledged Revenues; and nothing in this Loan Agreement shall be construed as obligating the Governmental Unit to pay Loan Agreement Payments from any general or other fund of the Governmental Unit other than such special funds. Nothing contained in this Loan Agreement, however, shall be construed as prohibiting the Governmental Unit in its sole and absolute discretion, from making such payments from any moneys which may be lawfully used, and which are legally available, for that purpose.

(e) Acquisition and Completion of Project; Compliance with Laws. The Project will be acquired and completed so as to comply with all applicable ordinances, resolutions and regulations, if any, and any and all applicable laws relating to the acquisition and completion of the Project and to the use of the Pledged Revenues. The Governmental Unit shall exercise its power of eminent domain, if needed to comply with this paragraph.

(f) Necessity of Project. The acquisition and completion of the Project under the terms and conditions provided for in this Loan Agreement is necessary, convenient and in furtherance of the governmental purposes of the Governmental Unit and is in the best interests of the Governmental Unit and the public it serves.

(g) Legal, Valid and Binding Obligation. The Governmental Unit has taken all required action necessary to authorize the execution and delivery of this Loan Agreement. This Loan Agreement constitutes a legal, valid and binding special obligation of the Governmental Unit enforceable in accordance with its terms.

(h) Loan Agreement Term. The Loan Agreement Term does not exceed the anticipated useful life of the Project.

(i) Use of Project. During the Loan Agreement Term, the Project will at all times be used for the purpose of benefiting the Governmental Unit and the public it serves.

(j) No Excess Loan Agreement Proceeds. The amount loaned to the Governmental Unit under this Loan Agreement as set forth on the Term Sheet does not exceed the sum of: (i) the cost of the Project; and (ii) an amount necessary to pay Expenses and related professional fees.

(k) No Breach or Default Caused by Loan Agreement. Neither the execution and delivery of this Loan Agreement and the other documents related to this transaction, nor the fulfillment of or compliance with the terms and conditions in this Loan Agreement and the other documents related to this transaction, nor the consummation of the transactions contemplated herein, conflicts with or results in a breach of terms, conditions or provisions of any restriction or any agreement or instrument to which the Governmental Unit is a party or by which the Governmental Unit is bound or any laws, ordinances, governmental rules or regulations or court or other governmental orders to which the Governmental Unit or its properties are subject, or constitutes a default under any of the foregoing.

(l) Irrevocable Enactments. While this Loan Agreement remains outstanding and unpaid, any ordinance, resolution or other enactment of the Governing Body applying the Pledged Revenues for the payment of this Loan Agreement shall be irrevocable until this Loan Agreement has been paid in full as to both principal and interest, and shall not be subject to amendment or modification in any manner which would in any way jeopardize the timely payment of Loan Agreement Payments.

(m) Outstanding and Additional Debt. Except for the Subordinate Parity Obligations and Senior Obligations described on the Term Sheet, there are currently no outstanding bonds, notes or other obligations of the Governmental Unit which are payable from and secured by a lien on the Pledged Revenues superior to or on a parity with the lien of this Loan Agreement. No additional indebtedness, bonds or notes of the Governmental Unit, payable on a parity with or on a priority ahead of the indebtedness herein authorized out of Pledged Revenues, shall be created or incurred while this Loan Agreement remains outstanding without the prior written approval of the NMFA.

(n) No Litigation. To the knowledge of the Governmental Unit after due investigation, no litigation or proceeding is pending or threatened against the Governmental Unit or any other person affecting the right of the Governmental Unit to execute or deliver this Loan Agreement and the other documents related to this transaction or to comply with its obligations under this Loan Agreement and documents related to the transaction. Neither the execution and delivery of this Loan Agreement and the other documents related to the transaction by the Governmental Unit nor compliance by the Governmental Unit with the obligations under this Loan Agreement and the other documents related to the transaction, requires the approval of any

regulatory body, or any other entity, which approval has not been obtained or which is not reasonably expected to be obtained.

(o) No Event of Default. No event has occurred and no condition exists which, upon the execution and delivery of this Loan Agreement and the other documents related to the transaction, would constitute an Event of Default on the part of the Governmental Unit under this Loan Agreement and the other documents related to the transaction.

(p) Existing Pledges; Pledged Revenues Not Budgeted. Except as described on the Term Sheet the Pledged Revenues have not been pledged or hypothecated in any manner for any purpose at the time of execution and delivery of this Loan Agreement. The portion of the Pledged Revenues necessary to pay the Loan Agreement Payments, as and when due, is not needed or budgeted to pay current or anticipated operational or other expenses of the Governmental Unit.

(q) Expected Coverage Ratio. The Pledged Revenues from the current Fiscal Year are projected to equal or exceed one hundred twenty percent (120%) and, on an ongoing basis during each year of the Loan Agreement Term are reasonably expected to equal or exceed one hundred twenty percent (120%) of the Debt Service Requirements on all Senior Obligations and all Subordinate Parity Obligations Outstanding in such Fiscal Year.

(r) Governmental Unit's Existence. The Governmental Unit will maintain its legal identity and existence so long as System Bonds remain outstanding, unless another political subdivision by operation of law succeeds to the liabilities, rights and duties of the Governmental Unit under this Loan Agreement without adversely affecting to any substantial degree the privileges and rights of the NMFA. However, the Governmental Unit may, annex or de-annex land if the Governmental Unit complies with other applicable covenants contained in the Master Ordinance.

(s) Continuing Disclosure. The Governmental Unit covenants that it shall provide continuing disclosure to the NMFA, as the NMFA may require, that shall include, but not be limited to: Project documents, annual audits, operational data required to update information in any disclosure documents used in connection with assignment or securitizing the Loan Agreement or the Loan Agreement Payments by issuance of Bonds by the NMFA, and notification of any event deemed material by the NMFA. For the purposes of this Loan Agreement, a material event shall include, without limitation, any violation of federal law, regulation, or policy which governs or applies to participants in the Drinking Water State Revolving Loan Fund program which is alleged or found by a state or federal agency of appropriate jurisdiction.

(t) Single Audit Act Requirement. The Governmental Unit acknowledges that the funding provided pursuant to this Loan Agreement is derived in large part from federal grants to the Drinking Water State Revolving Loan Fund program pursuant to the Operating Agreement. During the Loan Agreement Term, the Governmental Unit shall annually, so long as the Governmental Unit expends more or equal to the threshold amount set forth in 2 C.F.R. Section 200.501 during any one Fiscal Year, cause an audit of the books and accounts of its operations in their entirety, in accordance with § 200.514, except when it elects to have a program-specific audit conducted in accordance with 2 C.F.R. 200.501(c) to be completed by an Independent Accountant

in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. Section 7501 et seq.), and applicable regulations thereunder. The Governmental Unit shall notify the NMFA and the Drinking Water State Revolving Loan Fund program when it conducts an audit in accordance with 2 C.F.R. Section 200.501. The Governmental Unit shall provide a copy to the NMFA and the Drinking Water State Revolving Loan Fund program of such audit within 30 days of completion. The Governmental Unit will inform the Drinking Water State Revolving Loan Fund program and the NMFA of any findings and recommendations pertaining to the Drinking Water State Revolving Loan Fund contained in the audit. The Governmental Unit will also submit the audit to the Federal Audit Clearinghouse within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months of the end of the audit period pursuant to 2 CFR § 200.512. The Governmental Unit will inform the Drinking Water State Revolving Loan Fund program and NMFA that the audit has been submitted to the Federal Audit Clearinghouse and provide a copy to the Drinking Water State Revolving Loan Fund program and NMFA upon request. The audit will also be available for inspection by the NMFA Environmental Protection Agency.

(u) Construction Requirements. The Governmental Unit shall require any contractor hired by it in connection with the construction of the Project to post a performance and payment bond as provided by NMSA 1978, § 13-4-18, as amended.

Section 2.2 Protective Covenants Regarding Operation of the System.

The Governmental Unit further represents, covenants and warrants as follows:

(a) Rate Covenant.

(i) The Governmental Unit covenants that it will at all times fix rates and collect charges for each class of service rendered by the System, and to, from time to time, amend or adjust such rates so that Gross Revenues of the System shall always be sufficient to provide for the payment of expenses of administration, Operation and Maintenance Expenses, other expenses which may be necessary to preserve the System in good repair and working order, including the necessary reserves therefor and all other payments necessary to meet ongoing legal obligations to be paid at that time; and

(ii) The Governmental Unit further covenants that it will at all times fix, charge and collect such rates and charges as shall be required in order that in each Fiscal Year the Pledged Revenues shall at least equal (i) 130% of the Debt Service Requirements on all Senior Obligations outstanding in such Fiscal Year and (ii) 120% of the Debt Service Requirements on all Senior Obligations and all Subordinate Parity Obligations outstanding in such Fiscal Year.

(iii) Failure by the Governmental Unit to comply with the foregoing Rate Covenant in any Fiscal Year will not constitute an event of default under the Master Ordinance so long as the Governmental Unit, within 180 days after the end of any such Fiscal Year, adopts the schedule of rates and charges recommended or approved by a Consulting Engineer which would bring the Governmental Unit into compliance with the Rate Covenant. The Governmental Unit is also required under the Master Ordinance in each Fiscal Year to complete a review of its financial condition for the purpose of estimating whether the Net Revenues for such Fiscal Year and for the

next succeeding Fiscal Year will be sufficient to comply with the Rate Covenant set forth above. If the Governmental Unit determines that the Net Revenues may not be so sufficient, it shall forthwith cause the Consulting Engineer to make a study for the purpose of recommending a schedule of fees, rates and charges for the System which, in the opinion of the Consulting Engineer, will cause sufficient Gross Revenues to be collected in such Fiscal Year to comply with the Rate Covenant set forth above and will cause additional Gross Revenues to be collected in such Fiscal Year sufficient to eliminate the amount of any deficiency at the earliest practicable time within such Fiscal Year. The Governmental Unit shall as promptly as practicable adopt and place in effect the schedule of fees, rates and charges recommended or approved by the Consulting Engineer pursuant to the Master Ordinance. In the alternative of establishing fees, rates and charges necessary to meet the Rate Covenant set forth above, the Governmental Unit may implement reductions in Operation and Maintenance Expenses for the System in an amount sufficient to meet the Rate Covenant.

(b) Lien on Lands Serviced by the System. State law grants the Governmental Unit a lien upon each lot or parcel of land for the charges imposed for water services supplied by the System to the owner of such lot or parcel (except as otherwise provided in NMSA 1978, § 3-23---6). The Governmental Unit will cause each lien to be perfected in accordance with the provisions of NMSA 1978, §§ 3-23--6 and 3--36--1 through 3--36---5. The Governmental Unit will take all necessary steps to enforce the lien against any parcel of property the owner of which is delinquent for more than six (6) months in the payment of charges imposed for the use of the System.

(c) Levy of Charges. The Governmental Unit will promptly fix, establish and levy the rates and charges which are required by Section 2.2(a) hereof. Unless contrary to any provision of applicable law, any resolution or ordinance adopted by the Governing Body to fix, establish and levy such rates and charges shall be deemed an administrative or executive matter not subject to the referendum provisions of the Charter or State law. No reduction in any initial or existing rate schedule for the System may be made unless:

(i) The Governmental Unit has fully complied with the requirements of the rate covenant contained in Section 2.2(a) hereof for any twelve (12) consecutive months out of the sixteen (16) calendar months immediately preceding the reduction of the rate schedule, and

(ii) The audit required by Section 26.09 of the Master Ordinance or a separate certificate by an Independent Accountant for or relating to any twelve (12) consecutive months out of the sixteen (16) calendar months immediately preceding any reduction discloses that the Pledged Revenues resulting from the proposed rate schedule would have been sufficient to meet the rate covenant contained in Section 2.2(a) hereof during the applicable twelve (12) month period.

(d) Efficient Operation. The Governmental Unit will maintain the System in efficient operating condition and make such improvements, extensions, enlargements, repairs and betterments to the System as may be necessary or advisable for its economical and efficient operation at all times and sufficient to supply reasonable public and private demands for System services within the Service Area of the System.

(e) Records. So long as this Loan Agreement remains outstanding, proper books of record and account will be kept by the Governmental Unit in accordance with Generally Accepted Accounting Principles, separate from all other records and accounts, showing complete and correct entries of all transactions relating to the System. However, pursuant to NMSA 1978, § 6-14-10(E), as amended, records with regard to the ownership or pledge of System Bonds are not subject to inspection or copying.

(f) Right to Inspect. The NMFA, or its duly authorized agents, shall have the right to inspect at all reasonable times the Project and all records, accounts and data relating to the Project, the Pledged Revenues and the System.

(g) Audits. Within one hundred eighty (180) days following the close of each Fiscal Year, the Governmental Unit will cause an audit of the books and accounts of the System and its separate systems to be made by an Independent Accountant and the audit to be made available for inspection by the NMFA. Each audit of the System shall comply with Generally Accepted Accounting Principles. The audit required by this section may, at the Governmental Unit's discretion, be performed as a part of or in conjunction with the audit required under the Single Audit Act as set forth in Section 2.1(t) of this Loan Agreement.

(h) Billing Procedure. Bills for water services, furnished by or through the System shall be rendered to customers on a regular basis each month following the month in which the service was rendered and shall be due as required by the applicable ordinance, resolution, regulation or policy of the Governmental Unit. To the extent permitted by law, if a bill is not paid within the period of time required by such ordinance, water services shall be discontinued as required by Governmental Unit ordinance, and the rates and charges due shall be collected in a lawful manner, including, but not limited to, the cost of disconnection and reconnection.

(i) Charges and Liens Upon System. The Governmental Unit will pay when due from Gross Revenues or other legally available funds all taxes and assessments or other municipal or governmental charges, lawfully levied or assessed upon the System and will observe and comply with all valid requirements of any municipal or governmental authority relating to the System. The Governmental Unit will not create or permit any lien or charge upon the System or the Gross Revenues or it will make adequate provisions to satisfy and discharge within sixty (60) days after the same accrue, all lawful claims and demands for labor, materials, supplies or other objects, which, if unpaid, might by law become a lien upon the System or the Gross Revenues. However, the Governmental Unit shall not be required to pay or cause to be discharged, or make provision for any tax assessment, lien or charge before the time when payment becomes due or so long as the validity thereof is contested in good faith by appropriate legal proceedings and there is no adverse effect on NMFA.

(j) Insurance. Subject, in each case, to the condition that insurance is obtainable at reasonable rates and upon reasonable terms and conditions, in its operation of the System, the Governmental Unit will procure and maintain or cause to be procured and maintained commercial insurance or provide Qualified Self Insurance with respect to the facilities constituting the System and public liability insurance in the form of commercial insurance or Qualified Self Insurance and, in each case, in such amounts and against such risks as are, in the judgment of the

Governing Body, prudent and reasonable taking into account, but not being controlled by, the amounts and types of insurance or self-insured programs provided by entities which operate systems such as the System. "Qualified Self Insurance" means insurance maintained through a program of self insurance or insurance maintained with a fund, company or association in which the Governmental Unit may have a material interest and of which the Governmental Unit may have control, either singly or with others. Each plan of Qualified Self Insurance shall be established in accordance with law, shall provide that reserves be established or insurance acquired in amounts adequate to provide coverage which the Governmental Unit determines to be reasonable to protect against risks assumed under the Qualified Self Insurance plan, including any potential retained liability in the event of the termination of such plan of Qualified Self Insurance. In the event of property loss or damage to the System, insurance proceeds shall be used first for the purpose of restoring or replacing the property lost or damaged and thereafter, and any remainder may be used to redeem System Bonds or be treated as Gross Revenues and used in any legally permissible manner.

(k) Competing Utility System. Unless contrary to any provision of, or required by, applicable law, as long as this Loan Agreement is outstanding, the Governmental Unit prior to granting any franchise or license to a competing utility system, or permitting any person, association, firm or corporation to sell similar utility services or facilities to any consumer, public or private, within the Service Area of the System; provided, however, that nothing herein shall prevent the Governmental Unit from annexing land into its boundaries solely due to the fact that there is a competing utility system or person, association, firm or corporation providing such utility services or facilities within or for the land to be annexed.

(l) Alienating System. While the System Bonds are outstanding, the Governmental Unit shall not, except as permitted below, transfer, sell, or otherwise dispose of the System. For purposes of this Section 2.2(l), any transfer of an asset over which the Governmental Unit retains or regains substantial control shall not, for so long as the Governmental Unit has such control, be deemed a disposition of the System.

The Governmental Unit may transfer, sell or otherwise dispose of the System only if such transfer, sale or disposition complies with one or more of the following provisions:

(i) The property being disposed of is inadequate, obsolete or worn out; or

(ii) The property proposed to be disposed of and all other property of the System disposed of during the twelve (12) month period ending on the day of such transfer (but excluding property disposed of under Subsection 2.2(l)(i) above) will not, in the aggregate, constitute a Significant Portion of the System determined as described below and the proceeds are deposited into the Income Fund to be used as described below; or

(iii) The Governmental Unit receives fair market value for the property, the proceeds are deposited into the Income Fund to be used as described below and prior to the disposition of such property there is delivered to the Fiscal Agent a certificate of a Consultant to the effect that notwithstanding such disposition, but taking into account the use of such proceeds

in accordance with the expectations of the Governmental Unit as evidenced by a certificate of an Authorized Officer, the Consultant estimates that the Governmental Unit will be in compliance with the rate covenant in Section 2.2(a) hereof during each of the five (5) Fiscal Years immediately following such disposition.

For purposes of this Section 2.2(l), the term "Significant Portion" of the System means property of the System which, if such property had been disposed of by the Governmental Unit at the beginning of the Fiscal Year which includes the month of commencement of the twelve (12) month period referred to in Subsection 2.2(l)(ii) above would have resulted in a reduction in Net Revenues for such Fiscal Year of more than four percent (4%) when the actual Net Revenues for such Fiscal Year are decreased by the revenues directly attributable to such property of the System and increased by the expenses of the Governmental Unit directly attributable to such property of the System.

Proceeds of the disposition of assets under the Subsection 2.2(l)(ii) or 2.2(l)(iii) above shall be deposited in the Income Fund and used, within a reasonable period of time, not to exceed three years, to (a) provide additional revenue-producing properties to the System, (b) redeem System Bonds or (c) create an escrow fund pledged to pay specified System Bonds and thereby cause such System Bonds to be deemed to be paid as provided in the Master Ordinance.

Properties of the System which were financed with the proceeds of obligations the interest on which is then excluded from gross income for federal income tax purposes shall not be disposed of, except under the terms of provision 2.2(l)(i) above, unless the Governmental Unit has first received a written opinion of Bond Counsel to the effect that such disposition will not cause the interest on such obligations to become includable in gross income for federal income tax purposes.

No such disposition shall be permitted which would cause the Governmental Unit to be in default of any other covenant contained in the Master Ordinance.

(m) Competent Management. The Governmental Unit shall employ experienced and competent personnel to manage the System.

(n) Performing Duties. The Governmental Unit will faithfully and punctually perform all duties with respect to the System required by the Constitution and laws of the State and the ordinances and resolutions of the Governmental Unit relating to the System and this Loan Agreement, including, but not limited to, making and collecting reasonable and sufficient rates and charges for services rendered or furnished by the System as required by this Section and the proper segregation and application of the Gross Revenues.

(o) No Other Liens. Except for those Senior Obligations, Subordinate Parity Obligations, and Super Subordinate Obligations listed in the Term Sheet, there are no liens or encumbrances of any nature whatsoever, on or against the System or the Gross Revenues or Net Revenues on parity with**,** subordinate or senior to the lien of this Loan Agreement.

(p) Free Services Prohibited. No free service, facilities nor commodities shall be furnished by the System. Should the Governmental Unit use water services or facilities supplied by the System for municipal purposes, or any combination thereof, or in any manner use the System, or any part thereof, any use of the System by or of the services rendered thereby to the Governmental Unit, or any department, board or agency thereof, will be paid for from the Governmental Unit's general fund or other available revenues at the reasonable value of the use so made, or service so rendered, which shall in no event be less than the rates charged to a System customer with similar consumption; and all the revenue so derived from the Governmental Unit shall be deemed to be income derived from the operation of the System, to be used and accounted for in the same manner as any other income derived from the operation of the System.

Section 2.3 Representations, Covenants and Warranties of the NMFA. The NMFA represents, covenants and warrants for the benefit of the Governmental Unit as follows:

(a) Legal Status and Authorization of Loan Agreement. The NMFA is a public body politic and corporate constituting a governmental instrumentality, separate and apart from the State, duly organized and created under and pursuant to the laws of the State, particularly the NMFA Act. The NMFA has all necessary power and authority to enter into and perform and observe the covenants and agreements on its part contained in this Loan Agreement and has duly authorized the execution and delivery of this Loan Agreement.

(b) No Breach or Default Caused by Loan Agreement. Neither the execution and delivery of this Loan Agreement, nor the fulfillment of or compliance with the terms and conditions of this Loan Agreement, nor the consummation of the transactions contemplated in this Loan Agreement, conflicts with or results in a breach of the terms, conditions and provisions of any restriction or any agreement or instrument to which the NMFA is a party or by which the NMFA is bound or constitutes a default under any of the foregoing and will not conflict with or constitute a violation of any constitutional or statutory provision or order, rule, regulation, decree or ordinance of any court, government or governmental authority having jurisdiction over the NMFA, or its property and which conflict or violation will have a material adverse effect on the NMFA or the financing of the Project.

(c) No Litigation. To the knowledge of the NMFA, there is no litigation or proceeding pending or threatened against the NMFA or any other person affecting the right of the NMFA to execute or deliver this Loan Agreement or to comply with its obligations under this Loan Agreement. To the knowledge of the NMFA, neither the execution and delivery of this Loan Agreement by the NMFA, nor compliance by the NMFA with its obligations under this Loan Agreement, requires the approval of any regulatory body, or any other entity, which approval has not been obtained.

(d) Legal, Valid and Binding Obligation. This Loan Agreement constitutes a legal, valid and binding obligation of the NMFA enforceable in accordance with its terms.

(e) NMFA Compliance with Policies. As related to this Loan Agreement, the NMFA has complied with all applicable policies and procedures, as adopted and approved by the

NMFA Board of Directors, or such policies or procedures have been waived by the NMFA Board of Directors.

(f) Compliance with Securities Laws. The NMFA acknowledges that no offering document or prospectus has been prepared by the Governmental Unit with respect to this Loan Agreement. The NMFA has been provided with and has reviewed such information as it deems relevant in making its decision to make the Loan to the Governmental Unit and has assumed and relied on the accuracy of such information. The NMFA will not sell, pledge, transfer, convey, hypothecate, mortgage or dispose of the Loan Agreement, or any portion thereof, except to persons who have been provided sufficient information with which to make an informed investment decision regarding the Loan Agreement and in compliance with the Securities Act of 1933, as amended, the regulations promulgated thereunder and applicable State securities laws and regulations.

ARTICLE III

LOAN AGREEMENT TERM

The Loan Agreement Term shall commence on the Closing Date and shall not terminate until the Governmental Unit's obligations under this Loan Agreement have been paid in full or provision for payment of this Loan Agreement has been made pursuant to Article VIII hereof.

ARTICLE IV

LOAN; APPLICATION OF MONEYS

Section 4.1 Application of Loan Agreement Proceeds.

(a) After the Closing Date and upon written determination of compliance by the Governmental Unit with Section 4.2 of this Loan Agreement, the amount shown on the Term Sheet as the Aggregate Program Amount shall be made available for disbursal by the NMFA to the Governmental Unit at the request of the Governmental Unit and as needed by the Governmental Unit to implement the Project.

(b) The Final Requisition shall be submitted by the Governmental Unit within twenty seven (27) months following the Closing Date, except only as otherwise approved in writing by an Authorized Officer of the NMFA, based on the Governmental Unit's demonstration, to the reasonable satisfaction of the Authorized Officer of the NMFA, that unanticipated circumstances beyond the control of the Governmental Unit resulted in delaying the acquisition and completion of the Project, and submission of the Governmental Unit's Final Requisition.

Section 4.2 Disbursements; Approval of Payment Requests. Prior to the disbursement of any proceeds of the Loan for construction, the Governmental Unit shall comply with EPA's guidelines applicable to the Project and with the requirements of the laws and regulations of the State governing the construction and operation of drinking water systems, and after written determination of compliance, the NMFA, the Department, or other appropriate agency or entity on

behalf of the NMFA, pursuant to an agreement between such agency or entity and the NMFA) will approve (1) the engineer and engineering solicitation process for the Project; (2) the engineering contract for the Project; (3) the plans and specifications pursuant to 42 U.S.C. Section 300j-12 and (4) the bids for the conduct and completion of the Project. The Governmental Unit shall transmit payment requisitions in the form attached to this Loan Agreement as Exhibit "C" and the supporting documentation required pursuant to Exhibit "C" to the NMFA. The NMFA or its designee shall review each requisition for compliance with (i) the Project's scope and (ii) all applicable state and federal laws, rules and regulations, and shall approve or disapprove the requisition accordingly. The NMFA shall cause an Approved Requisition to be paid from the Drinking Water State Revolving Loan Fund.

Section 4.3 Termination by NMFA. NMFA may terminate this Loan Agreement in its sole discretion if it determines and notifies the Governmental Unit in writing that the Governmental Unit has not met within a reasonable period of time the requirements of Section 4.2 of this Loan Agreement.

ARTICLE V

LOAN TO THE GOVERNMENTAL UNIT; PAYMENTS BY THE GOVERNMENTAL UNIT

Section 5.1 Loan to the Governmental Unit; Payment Obligations Limited to Pledged Revenues; Pledge of Pledged Revenues. The NMFA hereby lends to the Governmental Unit and the Governmental Unit hereby borrows from the NMFA an amount not to exceed the Maximum Principal Amount. The Governmental Unit promises to pay, but solely from the sources pledged herein, the Loan Agreement Payments as herein provided. Subject to any outstanding Senior Obligations and Subordinate Parity Obligations, the Governmental Unit does hereby grant a lien on and a security interest in and does hereby convey, assign and pledge unto the NMFA and unto its successors in trust forever all right, title and interest of the Governmental Unit in and to (i) the Pledged Revenues to the extent required to pay the Loan Agreement Payments on a parity with any Subordinate Parity Obligations and subordinate to any Senior Obligations, (ii) the Debt Service Account, and (iii) all other rights hereinafter granted, for the securing of the Governmental Unit's obligations under this Loan Agreement, including payment of the Loan Agreement Payments, provided, however, that if the Governmental Unit, its successors or assigns, shall pay, or cause to be paid, all Loan Agreement Payments at the time and in the manner contemplated by this Loan Agreement, or shall provide as permitted by Article VIII of this Loan Agreement for the payment thereof and shall pay all other amounts due or to become due under this Loan Agreement in accordance with its terms and provisions then, upon such final payment, this Loan Agreement and the rights created thereby shall terminate; otherwise, this Loan Agreement shall remain in full force and effect, unless terminated by NMFA pursuant to Section 4.3 of this Loan Agreement. The Loan Agreement Payments shall, in the aggregate, be sufficient to pay the Aggregate Repayable Disbursements, as set forth in the Interim Loan Agreement Payment Schedule or the Final Loan Agreement Payment Schedule, as applicable.

Within five (5) days after each payment of an Approved Requisition during the Interim Period, the NMFA shall recalculate on the basis of the Aggregate Repayable Disbursements to that

date the Interest Component and Administrative Fee Component next coming due as set out in Section 5.2(a)(i) of this Loan Agreement and shall provide written notice to the Governmental Unit of the recalculated Interest Component and Administrative Fee Component. Within thirty (30) days after the final Disbursement, the NMFA shall provide a Final Loan Agreement Payment Schedule. The schedule of Loan Agreement Payments, assuming the disbursal of the entire Aggregate Program Amount within twenty-seven (27) months after the Closing Date, identified as the Interim Loan Agreement Payment Schedule, is attached to this Loan Agreement as Exhibit "B". The NMFA shall provide a Final Loan Agreement Payment Schedule following the final Disbursement which shall supersede the schedule attached as Exhibit "B".

The pledge of the Pledged Revenues and the lien thereon shall be effective upon the Closing Date. The Governmental Unit and the NMFA acknowledge and agree that the sources of the Loan Agreement Payments of the Governmental Unit hereunder are limited to the Pledged Revenues, and that the Loan Agreement shall constitute a special, limited obligation of the Governmental Unit. No provision of this Loan Agreement shall be construed or interpreted as creating a general obligation or other indebtedness of the Governmental Unit or the State within the meaning of any constitutional or statutory debt limitation. No provision of this Loan Agreement shall be construed to pledge or to create a lien on any class or source of Governmental Unit moneys other than the Pledged Revenues, nor shall any provision of this Loan Agreement restrict the future issuance of any bonds or obligations payable from any class or source of Governmental Unit moneys other than the Pledged Revenues. In addition, to the extent not required for the payments under Article XVIII of the Master Ordinance, including the payment of obligations of the Governmental Unit hereunder, the Pledged Revenues may be utilized by the Governmental Unit as provided in the Master Ordinance for any other purposes permitted by law and the laws of the State.

Section 5.2 Payment Obligations of Governmental Unit. The Debt Service Account shall be established and held by the NMFA or its designee on behalf of the Governmental Unit. All Loan Agreement Payments received by the NMFA or its designee pursuant to this Loan Agreement, shall be accounted for and maintained by the NMFA or its designee in the Debt Service Account, which account shall be kept separate and apart from all other accounts of the NMFA. The amounts on deposit in the Debt Service Account shall be expended and used by the NMFA only in the manner and order of priority specified herein.

(a) In accordance the payments required under Article XVII of the Master Ordinance, as a subordinate charge and lien, but not an exclusive subordinate charge and lien, on the Pledged Revenues (on a parity with the lien on the Pledged Revenues created by any outstanding Subordinate Parity Obligations and subordinate to any outstanding Senior Obligations), the Governmental Unit shall remit to the NMFA and the NMFA shall collect and deposit into the Debt Service Account from the Governmental Unit the Pledged Revenues, in the manner specified herein.

(i) Payment of Interest Component and Administrative Fee Component during Interim Period.

(A) During the Interim Period, the Interest Component and Administrative Fees shall accrue on the amount of Aggregate Repayable Disbursements, from the date of each Disbursement.

(B) During the Interim Period, within five (5) days after each payment of an Approved Requisition, the Finance Authority shall calculate the Interest Component and Administrative Fee Component next coming due on the Aggregate Repayable Disbursements.

(C) During the Interim Period, the Governmental Unit shall on June 1 and December 1 of each year, commencing on the first day of June or December, as the case may be, next following the first payment by the Finance Authority of an Approved Requisition, pay to the Finance Authority for deposit into the Debt Service Account such amount as is necessary, to pay the Interest Component and Administrative Fee Component on the Aggregate Repayable Disbursements as of each Loan Agreement Payment Date as described in the Loan Agreement Payment schedule attached as Exhibit "B" hereto.

(ii) Loan Agreement Payments Following the Interim Period. After the Interim Period, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the following amounts:

(A) Interest Component and Administrative Fee Component. On June 1 and December 1 of each year commencing on the first day of June or December, as the case may be, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the amount which is necessary to pay the first maturing Interest Component and Administrative Fee Component coming due on this Loan Agreement and thereafter, on each Loan Agreement Payment Date, the amount necessary to pay the Interest Component and Administrative Fee Component then due on this Loan Agreement as described in the Final Loan Agreement Payment Schedule.

(B) Principal Payments. On June 1 of each year, commencing on the first day of June next following the Final Disbursement, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the amount which is necessary to pay the first maturing Principal Component; and annually on the first day of June thereafter, the amount which is necessary to pay the Principal Component then due on this Loan Agreement during the Loan Agreement Term, as described in the Final Loan Agreement Payment Schedule.

(iii) Method of Payment. The Governmental Unit shall transfer to the NMFA, from Pledged Revenues, the amounts set forth in Subsections (i)(C), (ii)(A) and (ii)(B) of this Section 5.2(a) during the time that this Loan Agreement is outstanding, provided, that in the event of any default in making the Loan Agreement Payments by the Governmental Unit, the NMFA shall be entitled to seek payment of the amounts due through any of the remedies provided in Article X of this Loan Agreement.

(b) In the event that the balance of payments held in the Debt Service Account should exceed the amount needed to cover Loan Agreement Payments then due, the NMFA shall use the balance of the Pledged Revenues received, at the request of the Governmental Unit (i) to

credit against upcoming Loan Agreement Payments, or (ii) to distribute to the Governmental Unit for any other purpose permitted by law.

Section 5.3 Manner of Payment. All payments of the Governmental Unit hereunder shall be paid in lawful money of the United States of America to the NMFA or its designee at the address designated in Section 11.1 of this Loan Agreement. The obligation of the Governmental Unit to make payments hereunder, from and to the extent of the available Pledged Revenues, shall be absolute and unconditional in all events, except as expressly provided hereunder, and payment hereunder shall not be abated through accident or unforeseen circumstances. Notwithstanding any dispute between the Governmental Unit, the NMFA or its designee, any vendor or any other person, the Governmental Unit shall make all deposits hereunder, from and to the extent of the available Pledged Revenues, when due and shall not withhold any deposit hereunder pending final resolution of such dispute, nor shall the Governmental Unit assert any right of set-off or counterclaim against its obligation to make such deposits required hereunder.

Section 5.4. Additional Subordinate Parity and Senior Obligations Payable from Pledged Revenues.

(a) Subordinate Parity Obligations. No provision of this Loan Agreement shall be construed in such a manner as to prevent the issuance by the Governmental Unit of additional Subordinate Parity Obligations payable from Pledged Revenues, nor to prevent the issuance of bonds or other obligations refunding all or a part of this Loan Agreement; provided, however, that before any such additional Subordinate Parity Obligations are actually issued (excluding refunding bonds or refunding obligations which refund Subordinate Parity Obligations or Senior Obligations but including parity refunding bonds and obligations which refund Super Subordinate Obligations as provided in Section 5.5 hereof) and the requirements of Section 24.03 of the Master Ordinance.

The tests required in this Section and Section 24.03 of the Master Ordinance, shall be performed without adjustment for payments to or withdrawals from the Rate Stabilization Fund or interest accrued (other than amounts representing capitalized interest) in the Acquisition Fund. For Subordinate Parity Bonds with a funded Reserve Account (excluding any insurance coverage through a Reserve Fund Insurer), determination of average annual combined Debt Service Requirements or maximum combined annual Debt Service Requirements shall include application of the funds in the Reserve Account to the final debt service payment for the applicable Subordinate Parity Bonds. Except as permitted herein and by Article XXV of the Master Ordinance, prior to the issuance of additional Subordinate Parity Bonds, the Governmental Unit shall be current in making all deposits required by Article XVIII of the Master Ordinance and the following test shall be satisfied:

(i) a certificate prepared by an Authorized Officer of the Governmental unit showing that the Net Revenues for the Historic Test Period were at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations after the issuance of the proposed Parity Subordinate Obligations, or

(ii) a certificate prepared by a Consulting Engineer showing that:

(A) the Net Revenues for the Historic Test Period were at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations immediately preceding the issuance of the proposed additional Subordinated Bonds;

(B) for each Fiscal Year during the period from the date of delivery of such certificate until the latest estimated Completion Date of the Project being financed, the Consulting Engineer estimates that the Governmental Unit will be in compliance with the Rate Covenant; and

(C) the estimated Net Revenues for each of the three Fiscal Years immediately following the latest estimated Completion Date for the specified Project to be financed with proceeds of the proposed additional Parity Subordinate Obligations, as certified to the Consulting Engineer by an Authorized Officer of the Governmental Unit, will be at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations which will be outstanding immediately after the issuance of the proposed additional Subordinated Bonds.

For purposes of subsections (ii)(A) and (ii)(B) above, in estimating Net Revenues, the Consulting Engineer may take into account (1) reasonable Gross Revenues from specified Projects expected to become available, (2) any increase in fees, rates, charges, rentals or other sources of Gross Revenues which have been approved by the Governmental Unit and will be in effect during the period for which the estimates are provided, and (3) any other increases in Gross Revenues for such period which the Consulting Engineer certifies to be reasonable for purposes of such certificate. With respect to Operation and Maintenance Expenses, the Consulting Engineer shall use such assumptions as the Consulting Engineer believes to be reasonable, and taking into account, (i) historical Operation and Maintenance Expenses, (ii) Operation and Maintenance Expenses associated with the specified Projects and (iii) such other factors, including inflation and changing operations or policies of the Governmental Unit, as the Consulting Engineer believes to be appropriate. The Consulting Engineer shall include in the certificate or in a separate accompanying report a description of the assumptions used and the calculations made in determining the estimated Net Revenues and shall also set forth the calculations of the maximum combined annual Debt Service Requirements, which calculations may be based upon information provided by another Consulting Engineer or Consultant.

For purposes of preparing the certificate or certificates described above, the Consulting Engineer or Consulting Engineers may rely upon financial statements prepared by the Governmental Unit which have not been subject to audit by an independent certified public accountant if audited financial statements for the Fiscal Year or period are not available; provided, however, that an Authorized Officer of the Governmental Unit shall certify as to their accuracy and that such financial statements were prepared substantially in accordance with generally accepted accounting principles, subject to year-end adjustments.

(D) The Governmental Unit shall provide written notice to the NMFA of its intention to authorize the issuance of additional Subordinate Parity Obligations or Super Subordinate Obligations prior to taking official action regarding the issuance of the bonds or obligations and, following establishment of the final terms of the additional bonds proposed to be issued

(b) Senior Obligations. The Governmental Unit may issue bonds or other obligations payable from the Pledged Revenues having a lien thereon prior or superior to this Loan Agreement, so long as the additional bonds test set forth in the Master Ordinance for issuance of Senior Obligations can be met on the date of issuance of such additional bonds or other obligations. The Governmental Unit shall not issue Senior Obligations payable from the Pledged Revenues, without providing prior written notice to the NMFA, unless such Senior Obligations are purchased by the NMFA

Section 5.5 Refunding Obligations Payable from Pledged Revenues. The provisions of Section 5.4 hereof are subject to the following exceptions:

(a) If at any time after the Closing Date, while this Loan Agreement, or any part thereof, is outstanding, the Governmental Unit shall find it desirable to refund any outstanding bonds or other outstanding obligations payable from the Pledged Revenues, this Loan Agreement, such bonds or other obligations, or any part thereof, may be refunded (but the holders of this Loan Agreement or bonds to be refunded may not be compelled to surrender this Loan Agreement or their bonds, unless this Loan Agreement, the bonds or other obligations, at the time of their required surrender for payment, shall then mature, or shall then be callable for prior redemption at the Governmental Unit's option), regardless of whether the priority of the lien for the payment of the refunding obligations on the Pledged Revenues is changed, except as provided in subparagraph (f) of Section 5.4 hereof and in subparagraphs (b) and (c) of this Section.

(b) No refunding bonds or other refunding obligations payable from the Pledged Revenues shall be issued on a parity with this Loan Agreement unless:

(i) The outstanding obligations so refunded have a lien on the Pledged Revenues on a parity with the lien thereon of this Loan Agreement and the refunding bonds or other refunding obligations do not increase any aggregate annual principal and interest obligations evidenced by such refunded obligations; or

(ii) The refunding bonds or other refunding obligations are issued in compliance with subparagraphs (a) and (b) of Section 5.4 hereof.

(c) The refunding bonds or other obligations so issued shall enjoy complete equality of lien on the Pledged Revenues with the portion of this Loan Agreement or any bonds or other obligations of the same issue which is not refunded, if any; and the holder or holders of such refunding bonds or such other refunding obligations shall be subrogated to all of the rights and privileges enjoyed by the holder or holders of this Loan Agreement or the bonds or other obligations of this same issue refunded thereby. If only a part of this Loan Agreement or the outstanding bonds and any other outstanding obligations of any issue or issues payable from the

Pledged Revenues is refunded, then such obligations may not be refunded without the consent of the holder or holders of the unrefunded portion of such obligations, unless:

(i) The refunding bonds or other refunding obligations do not increase any aggregate annual principal and interest obligations evidenced by such last maturity date of such unrefunded obligations; or

(ii) The refunding bonds or other refunding obligations are issued in compliance with subparagraphs (a) and (b) of Section 5.4 hereof; or

(iii) The lien on the Pledged Revenues for the payment of the refunding obligations is subordinate to each such lien for the payment of any obligations not refunded.

(d) Any refunding bonds or other refunding obligations payable from the Pledged Revenues shall be issued with such details as the Governmental Unit may provide by ordinance or resolution, but without any impairment of any contractual obligations imposed upon the Governmental Unit by any proceedings authorizing the issuance of any unrefunded portion of such outstanding obligations of any one or more issues (including, but not necessarily limited to, this Loan Agreement).

Section 5.6 Investment of Governmental Unit Funds. Money on deposit in the Debt Service Account created hereunder may be invested by the NMFA or its designee in Permitted Investments at the written direction of the Governmental Unit or, in the absence of such written direction of the Governmental Unit, at the discretion of the NMFA. Any earnings on Permitted Investments shall be held and administered in the Debt Service Account and utilized in the same manner as the other moneys on deposit therein for the benefit of the Governmental Unit.

Section 5.7 Governmental Unit May Budget for Payments. The Governmental Unit may, in its sole discretion, but without obligation and subject to the Constitution of the State, governing laws, and its budgetary requirements, make available properly budgeted and legally available funds to defray any insufficiency of Pledged Revenues to pay Loan Agreement Payments; provided, however, the Governmental Unit has not covenanted and cannot covenant to make such funds available and has not pledged any of such funds for such purpose.

ARTICLE VI

THE PROJECT

Section 6.1 Agreement to Acquire and Complete the Project. The Governmental Unit hereby agrees that in order to effectuate the purposes of this Loan Agreement and to effectuate the acquisition and completion of the Project, it shall make, execute, acknowledge and transmit any contracts, orders, receipts, writings and instructions with any other persons, firms or corporations and, in general do all things which may be requisite or proper to acquire and complete the Project.

The Governmental Unit agrees to acquire and complete the Project through the application of moneys to be disbursed by the NMFA pursuant to Section 6.2 of this Loan Agreement.

Section 6.2 Disbursements. So long as no Event of Default shall occur and the requirements of Section 4.2 are satisfied, the NMFA or its designee shall disburse moneys to pay a requisition upon receipt and approval by the NMFA or its designee of a requisition substantially in the form of Exhibit "C" attached hereto signed by an Authorized Officer of the Governmental Unit, with required supporting documentation

Section 6.3 Completion of the Project. Upon completion of the Project, which shall occur no later than two (2) years after the Closing Date, unless a later date is approved as provided in Section 4.1(b) of this Loan Agreement, an Authorized Officer of the Governmental Unit shall deliver a certificate to the NMFA, substantially in the form of Exhibit "D" attached hereto, stating that, to his or her knowledge, the Project has been completed and the Project has been accepted by the Governmental Unit, and all costs have been paid, except for any reimbursements requested pursuant to requisitions submitted prior to the end of the Interim Period. Notwithstanding the foregoing, such certificate shall state that it is given without prejudice to any rights against third parties which exist at the date of such certificate or which may subsequently come into being.

Section 6.4 Unrequisitioned Amounts. In the event that, (1) at the time of the delivery of the certificate of completion required by Section 6.3 hereof, there remains an Unrequisitioned Principal Amount, or (2) the NMFA shall not have received a Final Requisition, by the date that is twenty seven (27) months from the Closing Date, unless an extension is approved pursuant to Section 4.1(b) of this Loan Agreement, then the Governmental Unit shall have no right or title to the Unrequisitioned Principal Amount, nor any right to pledge, encumber or draw upon such Unrequisitioned Principal Amount, and the NMFA will not approve, honor, or enforce any requisition upon such Unrequisitioned Principal Amount pursuant to this Loan Agreement.

ARTICLE VII

COMPLIANCE WITH LAWS AND RULES; OTHER COVENANTS

Section 7.1 Further Assurances and Corrective Instruments. The NMFA and the Governmental Unit agree that they will, from time to time, execute, acknowledge and deliver, or cause to be executed, acknowledged and delivered, such supplements hereto and such further instruments as may reasonably be required for correcting any inadequate or incorrect description of the Project or of the Pledged Revenues, or for otherwise carrying out the intention hereof. Authorized Officers are authorized to execute, acknowledge and deliver any such supplements and further instruments.

Section 7.2 NMFA and Governmental Unit Representatives. Whenever under the provisions hereof the approval of the NMFA or the Governmental Unit is required, or the Governmental Unit or the NMFA is required to take some action at the request of the other, such approval or such request shall be given for the NMFA or for the Governmental Unit by an Authorized Officer of the NMFA or the Governmental Unit, as the case may be, and any party hereto shall be authorized to rely and act on any such approval or request.

Section 7.3 Compliance with Court Orders. During the Loan Agreement Term, the Governmental Unit and the NMFA shall observe and comply promptly with all current and future orders of all courts having jurisdiction over the parties hereto, the Project or the Pledged Revenues.

Section 7.4 Compliance with Applicable State and Federal Laws. During the Loan Agreement Term, the Governmental Unit shall comply with all applicable State and federal laws, including, without limitation, the following:

(a). For all contracts, the Governmental Unit shall comply with the New Mexico Procurement Code, NMSA 1978, §§ 13-1-28 through 13-1-199, as amended, or its local procurement ordinances and regulations, as applicable.

(b). For all construction contracts awarded in excess of $10,000, the Governmental Unit shall comply with Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 12, 1967, and as supplemented in Department of Labor regulations (41 C.F.R. chapters 40 and 60). In addition, for all contracts, the Governmental Unit shall comply with all State laws and regulations and all executive orders of the Governor of the State pertaining to equal employment opportunity.

(c). For all contracts awarded for construction or repair, the Governmental Unit shall comply with the Copeland "Anti-Kickback" Act (18 U.S.C. § 874) as supplemented in Department of Labor regulations (29 C.F.R. part 3).

(d). For all construction subcontracts, and subgrants of amounts in excess of $100,000, the Governmental Unit shall comply with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. § 7606), Section 508 of the Clean Water Act (33 U.S.C. § 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 C.F.R. Part 15). In addition, for all contracts, the Contractor shall comply with all applicable State laws and regulations and with all executive orders of the Governor of the State pertaining to protection of the environment.

(e). For all contracts the Governmental Unit shall comply with the mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plan issued in compliance with section 362 of the Energy Policy and Conservation Act (42 U.S.C. § 6322).

(f). For all contracts, including subcontracts in excess of $2,000 the Governmental Unit shall comply with applicable standards of the Davis-Bacon Wage Act (40 U.S.C. § 3141 et seq.), as amended and supplemented, relating to wages paid to laborers and mechanics employed by contractors and sub-contractors on a Project funded directly by or assisted in whole or in part by and through the Governmental Unit, and the requirements of section 1450(e) of the Safe Drinking Water Act (42 U.S.C.300j-9(e)), and shall include the contract clauses set out in the Environmental Protection Agency publication entitled "Wage Rate Requirements Under the Clean Water Act, Section 513 and the Safe Drinking Water Act Section 1450(e)".

(g). For all contracts, the Governmental Unit shall comply with the requirements of the Environmental Protection Agency's Program addressing Disadvantaged, Minority and Women's Business Enterprises, including Title 40, Chapter I, Subchapter B, Part 33 of the Code of Federal Regulations, Executive Order 12898 and 40 C.F.R. Part 33.

(h). For all contracts, the Governmental Unit shall comply with the requirements of Executive Order 13502 on Use of Project Agreements for Federal Construction Projects.

(i). For all contracts, the Governmental Unit shall comply with the requirements of the Federal Funding Accountability and Transparence Act (FFATA).

(j). For all contracts, the Governmental Unit shall comply with the requirements of Executive Order 13627 on Strengthening Protections Against Trafficking in Persons in Federal Contracts.

(k). For all contracts, the Governmental Unit shall comply with all federal requirements applicable to the Loan (including those imposed by P.L. 113-76, 2014 Consolidated Appropriations Act, Section 436 and related SRF Policy Guidelines) which the Governmental Unit understands includes, among other, requirements that all of the iron and steel products used in the Project are to be produced in the United States ("American Iron and Steel Requirement") unless (i) the Governmental Unit has requested and obtained a waiver from the NMFA pertaining to the Project or (ii) the NMFA has otherwise advised the Governmental Unit in writing that the American Iron and Steel Requirement is not applicable to the Project.

(l). For all contracts, the Governmental Unit shall comply with the requirements of the Build America, Buy America Act (BABA) included in the BIL, in Sections 70901 through 70927, 2 BABA 70912 and 70914, 3 87 FR 23888 and 2 CFR part 184, in all subawards, contracts, and purchase orders for the work performed, or products supplied under this Loan Agreement. Under the BABA, the Governmental Unit is obligated to use United States produced iron, steel, manufactured products and construction materials for the Project with the funds available under this Loan Agreement unless the Governmental Unit believes a waiver is justified and NMFA finds that a waiver shall apply consistent with such Federal law.

(m). For all contracts, the Governmental Unit shall comply with all record keeping and reporting requirements under the Clean Water Act/Safe Drinking Water Act, including any reports required by a Federal agency or the NMFA such as performance indicators of program deliverables, information on costs and project progress. The Governmental Unit understands that (i) each contract and subcontract related to the Project is subject to audit by appropriate federal and state entities and (ii) failure to comply with the Clean Water Act/Safe Drinking Water Act and this Loan Agreement may be a default under this Loan Agreement.

(n). For all contracts, the Governmental Unit shall comply with the administration of the Clean Air Act and the Federal Water Pollution Control Act, including Section 306 of the Clean Air Act, 42 U.S.C. 7606 et seq, Section 508 of the Clean Water Act, 33 U.S.C. 1368, et seq. and Executive Order 11738

(o). For all contracts, the Governmental Unit shall comply with Executive Order 12549 – Debarment and Suspension and all rules, regulations and guidelines issued pursuant to Executive Order 12549, including compliance with the requirement that each prospective participant in transactions related to the Loan execute a written certification that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in transactions related to the Loan.

(p). The Governmental Unit shall comply with the requirement of the June 3, 2015 Guidelines for Enhancing Public Awareness of SRF Assistance Agreements issued by the Environmental Protection Agency relating to signage, posters, advertisements, website or press releases indicating that financial assistance was received from the Environmental Protection Agency for the Project.

(q). The Governmental Unit acknowledges that it is subject to the terms of the Environmental Protection Agency Memorandum titled "Prohibition on Certain Telecommunication and Video Surveillance Services or Equipment in the SRF Programs" dated December 11, 2020. The Governmental Unit shall comply with 2 CFR 200.216 and Section 889 of Public Law 115-232 and shall not use loan or subsidy funds to obtain or enter into a contract to obtain covered telecommunications equipment produced or provided by companies listed in the system for Award Management exclusion list at SAM.gov. The exclusion list includes, but is not limited to, Huawei Technologies Company or ZTE Corporation, or any subsidiary or affiliate of such entities.

(r). The Governmental Unit agrees to comply with all applicable New Mexico State cybersecurity laws and requirements and ensure that any connections between the Governmental Unit's network or information system and Environmental Protection Agency networks used by the recipient to transfer data under this Loan Agreement, if any, are secure. If a connection does not go through the Environmental Information Exchange Network or Environmental Protection Agency's Central Data Exchange, the Governmental Unit agrees to contact the Environmental Protection Agency Project Officer (PO) and work with the designated Environmental Protection Agency Regional/Headquarters Information Security Officer to ensure that the connections meet Environmental Protection Agency security requirements, including entering into Interconnection Service Agreements as appropriate. This condition does not apply to manual entry of data by the Governmental Unit into systems operated and used by Environmental Protection Agency's regulatory programs for the submission of reporting and/or compliance data. The Governmental Unit is subject to monitoring as deemed necessary by the NMFA or the State of New Mexico under 2 CFR 200.331. In regard to this section a "connection" is defined as a dedicated persistent interface between an Agency IT system and an external IT system for the purpose of transferring information. Transitory, user-controlled connections such as website browsing are excluded from this definition.

(s). If the Governmental Unit gathers geospatial data, as defined in 43 U.S.C. §2801(2018), during the life of the Project, the data must be consistent with the Federal Geographic Data Committee endorsed standards.

(t). In accordance with the EPA "Signage Requirement" guidelines, the Governmental Unit will place a sign and will maintain such sign in good condition throughout the construction period, at a visible location in the construction site that displays the EPA's agency emblem and identify the project as a "project funding by U.S. Environmental Protection Agency" as long as placing such sign is practically and financially viable and does not result in excessive cost to the Governmental Unit.

(u). The Governmental Unit, as well as any contractors and subcontractors working with the Governmental Unit in this Project, shall comply with all State laws and regulations pertaining to equal employment opportunity and all federal anti-discrimination law requirements, pursuant to 40 C.F.R. 35.3575(a)(c), including Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, et seq., 40 C.F.R. Part 5, EPA's regulations 40 CFR §7.30 and 40 CFR §7.35, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, et seq., and the Age Discrimination Act of 1975, 42 U.S.C. §6102 which laws prohibit discrimination in the provision of services or benefits on the basis of race, color, national origin, sex, disability or age in programs or activities receiving federal assistance. However, the Governmental Unit shall not be required to take any action in accordance with the foregoing provisions that would, in the exercise of the Governmental Unit's good-faith and reasonable discretion, require the Governmental Unit to violate Executive Orders of the President of the United States of America or the Governor of New Mexico that are in effect and binding on the Governmental Unit throughout the Project period, nor shall the Governmental Unit be required to take any action contrary to an order or decision of a court having jurisdiction over any Executive Order of the President of the United States of America or any Executive Order of the Governor of the State.

The NMFA or its designee shall have the right to review all contracts, work orders and other documentation related to the Project that it deems necessary to assure compliance with applicable laws, rules and regulations, and may conduct such review as it deems appropriate prior to disbursing funds for payment of an Approved Requisition.

Section 7.5 Subordinate Lien Status. The Loan Agreement Payments constitute an irrevocable subordinate lien (but not necessarily an exclusive subordinate lien) upon the Pledged Revenues. The Governmental Unit covenants that the Loan Agreement Payments and any Subordinate Parity Obligations herein authorized to be issued and from time to time outstanding shall be equitably and ratably secured by a subordinate lien on the Pledged Revenues and shall not be entitled to any priority one over the other in the application of the Pledged Revenues regardless of the time or times of the issuance of such obligations, it being the intention of the Governmental Unit that there shall be no priority between the Loan Agreement Payments and any such Subordinate Parity Obligations regardless of the fact that they may be actually issued and delivered at different times.

Section 7.6 Expeditious Completion. The Governmental Unit shall complete the Project with all practical dispatch.

ARTICLE VIII

PREPAYMENT OF LOAN AGREEMENT PAYMENTS

The Governmental Unit is hereby granted the option to prepay the Principal Component of this Loan Agreement in whole or in part on any day without penalty or prepayment premium, beginning one (1) year after the Closing Date. The Governmental Unit may designate the due date or due dates of the Principal Component or portions thereof being prepaid in the event of a partial prepayment. Any such prepayment shall include accrued interest to the redemption date of the corresponding Bonds to be redeemed, if any, and notice of intent to make such prepayment shall be provided to the NMFA or its designee by the Governmental Unit no less than forty-five (45) days prior to the prepayment date. The NMFA or its designee shall recalculate the Loan Agreement Payments due under this Loan Agreement in the event of a partial prepayment in a manner which is consistent with the manner in which the Bonds, if any, are prepaid.

ARTICLE IX

INDEMNIFICATION

From and to the extent of the Pledged Revenues and to the extent permitted by law, the Governmental Unit shall and hereby agrees to indemnify and save the NMFA and its designee, if any, harmless against and from all claims, by or on behalf of any person, firm, corporation or other legal entity arising from the acquisition or operation of the Project during the Loan Agreement Term, from: (i) any act of negligence of the Governmental Unit or breach of any covenant or warranty by the Governmental Unit hereunder; and (ii) the incurrence of any cost or expense in connection with the acquisition or operation of the Project in excess of the Loan Agreement proceeds and interest on the investment of the Loan Agreement proceeds. The Governmental Unit shall indemnify and save the NMFA and its designee, if any, harmless, from and to the extent of the available Pledged Revenues and to the extent permitted by law, from any such claim arising as aforesaid from (i) or (ii) above, or in connection with any action or proceeding brought thereon and, upon notice from the NMFA or its designee, shall defend the NMFA or its designee, if any, in any such action or proceeding.

ARTICLE X

EVENTS OF DEFAULT AND REMEDIES

Section 10.1 Events of Default Defined. In addition to the default provision in Article XXIX of the Master Ordinance, any one of the following shall be an Event of Default under this Loan Agreement:

(a) Failure by the Governmental Unit to pay any amount required to be paid under this Loan Agreement on the date on which it is due and payable; or

(b) Failure by the Governmental Unit to observe and perform any covenant, condition or agreement on its part to be observed or performed under this Loan Agreement, other than as referred to in paragraph (a), for a period of thirty (30) days after written notice, specifying such failure and requesting that it be remedied, is given to the Governmental Unit by the NMFA or its designee, if any, unless the NMFA or its designee, as applicable, shall agree in writing to an extension of such time prior to its expiration; provided, however, if the failure stated in the notice

can be wholly cured within a period of time not materially detrimental to the rights of the NMFA or its designee but cannot be cured within the applicable thirty (30) day period, the NMFA or its designee will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by the Governmental Unit within the applicable period and diligently pursued until the failure is corrected; and provided, further, that if by reason of force majeure the Governmental Unit is unable to carry out the agreements on its part herein contained, the Governmental Unit shall not be deemed in default under this paragraph (b) during the continuance of such inability (but force majeure shall not excuse any other Event of Default); or

(c) Any warranty, representation or other statement by or on behalf of the Governmental Unit contained in this Loan Agreement or in any instrument furnished in compliance with or in reference to this Loan Agreement is false or misleading in any material respect; or

(d) A petition is filed against the Governmental Unit under any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, and is not dismissed within thirty (30) days after such filing, but the NMFA shall have the right to intervene in the proceedings to protect the NMFA's interests; or

(e) The Governmental Unit files a petition in voluntary bankruptcy or seeking relief under any provision of any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, or consents to the filing of any petition against it under any such law; or,

(f) The Governmental Unit admits insolvency or bankruptcy or its inability to pay its debts as they become due or is generally not paying its debts as such debts become due, or becomes insolvent or bankrupt or makes an assignment for the benefit of creditors, or a custodian (including, without limitation, a receiver, liquidator or trustee) of the Governmental Unit for any of its property is appointed by court order or takes possession thereof and such order remains in effect or such possession continues for more than thirty (30) days, but the NMFA shall have the right to intervene in the proceedings to protect its interests.

Section 10.2 Remedies on Default. Whenever any Event of Default has occurred and is continuing and subject to Section 10.3 hereof, the NMFA may take any or all of the following actions as may appear necessary or desirable to collect the payments then due and to become due or to enforce performance of any agreement of the Governmental Unit in this Loan Agreement:

(a) By mandamus or other action or proceeding or suit at law or in equity to enforce the rights of the NMFA under this Loan Agreement against the Governmental Unit, and compel the Governmental Unit to perform or carry out its duties under the law and the agreements and covenants required to be performed by it contained herein; or

(b) By suit in equity enjoin any acts or things which are unlawful or violate the rights of the NMFA; or

(c) Intervene in judicial proceedings that affect this Loan Agreement or the Pledged Revenues; or

(d) Cause the Governmental Unit to account as if it were the trustee of an express trust for all of the Pledged Revenues and Aggregate Disbursements; or,

(e) Take whatever other action at law or in equity may appear necessary or desirable to collect amounts then due and thereafter to become due under this Loan Agreement or enforce any other of its rights thereunder.

Section 10.3 Limitations on Remedies. A judgment requiring a payment of money entered against the Governmental Unit may reach only the available Pledged Revenues.

Section 10.4 No Remedy Exclusive. Subject to Section 10.3 of this Loan Agreement, no remedy herein conferred upon or reserved to the NMFA is intended to be exclusive, and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder as now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the NMFA to exercise any remedy reserved in this Article X, it shall not be necessary to give any notice, other than such notice as may be required in this Article X.

Section 10.5 Waivers of Events of Default. The NMFA may in its discretion waive any Event of Default hereunder and the consequences of an Event of Default by written waiver; provided, however, that there shall not be waived (i) any Event of Default in the payment of principal of this Loan Agreement at the date when due as specified in this Loan Agreement, or (ii) any default in the payment when due of the interest on this Loan Agreement, unless prior to such waiver or rescission, all arrears of interest, with interest at the rate borne by this Loan Agreement on all arrears of payment of principal and all expenses of the NMFA, in connection with such Event of Default shall have been paid or provided for. Such waiver shall be effective only if made by written statement of waiver issued by the NMFA. In case of any such waiver or rescission, or in case any proceeding taken by the NMFA on account of any such Event of Default shall have been discontinued or abandoned or determined adversely, then and in every such case, the NMFA shall be restored to its former position and rights hereunder, respectively, but no such waiver or rescission shall extend to any subsequent or other Event of Default, or impair any right consequent thereon.

Section 10.6 No Additional Waiver Implied by One Waiver. In the event that any agreement contained herein should be breached by either party and thereafter waived by the other party, such waiver shall be in writing and limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

Section 10.7 Agreement to Pay Attorneys' Fees and Expenses Related to Defaults. In the event that the Governmental Unit should default under any of the provisions hereof and the NMFA employs attorneys or incurs other expenses for the collection of payments hereunder, or the

enforcement of performance or observance of any obligation or agreement on the part of the Governmental Unit contained in this Loan Agreement, the Governmental Unit agrees that it shall on demand therefor pay to the NMFA the fees of such attorneys and such other expenses so incurred, to the extent that such attorneys' fees and expenses may be determined to be reasonable by a court of competent jurisdiction; provided, however, that the obligation of the Governmental Unit under this Section shall be limited to expenditures from and to the extent of the available Pledged Revenues.

ARTICLE XI

MISCELLANEOUS

Section 11.1 Notices. All notices, certificates or other communications hereunder shall be sufficiently given and shall be deemed given when delivered as follows:

If to the Governmental Unit, then to:

City of Santa Fe
Attn: City Clerk
P.O. Box 909
Santa Fe, New Mexico 87504-0909

If to the NMFA, then to:

New Mexico Finance Authority
Attention: Chief Executive Officer
810 W. San Mateo Road
Santa Fe, New Mexico 87505

And if to NMFA's designated servicing agent for this Loan Agreement, if any, at the address to be provided by the servicing agent. The Governmental Unit and the NMFA may, by notice given hereunder, designate any further or different addresses to which subsequent notices, certificates or other communications shall be sent.

Section 11.2 Binding Effect. This Loan Agreement shall inure to the benefit of and shall be binding upon the NMFA, the Governmental Unit and their respective successors and assigns, if any.

Section 11.3 Integration. This Loan Agreement and any other agreements, certifications and commitments entered into between the NMFA and the Governmental Unit on the Closing Date constitute the entire agreement of the parties regarding the subject matter hereof as of the Closing Date. The Loan provided herein, which was approved by the NMFA Board of Directors on October 31, 2024, and the terms hereof supersede all prior understandings and agreements between the parties in connection with the Loan, to the extent inconsistent herewith.

Section 11.4 Master Ordinance. It is the intent and understanding of the parties that this Loan Agreement shall be, and is, consistent with the substantive terms and parameters established

for the issuance of such obligations by the Master Ordinance. The Ordinance authorizing this Loan Agreement is adopted as an Ordinance of the Governmental Unit, and a Supplemental Ordinance under the Master Ordinance and amends the Master Ordinance to authorize the issuance of the obligation evidenced the Loan Agreement in the form provided for in this Loan Agreement.

Section 11.5 Amendments. This Loan Agreement may be amended only with the written consent of the NMFA and the Governmental Unit, except as provided in Section 4.1(b) of this Loan Agreement. The consent of the NMFA for amendments not affecting the terms of payment of the loan component of this Loan Agreement may be given by an Authorized Officer of the NMFA. The execution of any such consent by an Authorized Officer of the NMFA shall constitute his or her determination that such amendment does not affect the terms of payment of the loan component of this Loan Agreement, unless such change results in a decrease in the payment amount of the loan component.

Section 11.6 No Liability of Individual Officers, Directors or Trustees. No recourse under or upon any obligation, covenant or agreement contained in this Loan Agreement shall be had against any member, employee, director or officer, as such, past, present or future, of the NMFA, either directly or through the NMFA or against any officer, employee, director or member of the Governing Body, past, present or future, as an individual so long as such individual was acting in good faith. Any and all personal liability of every nature, whether at common law or in equity, or by statute or by constitution or otherwise, of any such officer, employee, director or member of the Governing Body or of the NMFA is hereby expressly waived and released by the Governmental Unit and by the NMFA as a condition of and in consideration for the execution of this Loan Agreement.

Section 11.7 Severability. In the event that any provision of this Loan Agreement, other than the requirement of the Governmental Unit to pay hereunder, shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.

Section 11.8 Execution in Counterparts. This Loan Agreement may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

Section 11.9 Assignment by the NMFA. This Loan Agreement (except as to the Administrative Fee) may be assigned and transferred by the NMFA to a trustee, which right to assign and transfer is hereby acknowledged and approved by the Governmental Unit.

Section 11.10 Compliance with Governing Law. It is hereby declared by the Governing Body that it is the intention of the Governmental Unit by the execution of this Loan Agreement to comply in all respects with the provisions of the New Mexico Constitution and statutes as the same govern the pledge of the Pledged Revenues to payment of all amounts payable under this Loan Agreement.

Section 11.11 Applicable Law. This Loan Agreement shall be governed by and construed in accordance with the laws of the State.

Section 11.12 Captions. The captions or headings herein are for convenience only and in no way define, limit or describe the scope or intent of any provisions or sections of this Loan Agreement.

[*Signature pages follow*.]

[*Remainder of page intentionally left blank*.]

IN WITNESS WHEREOF, the NMFA, on behalf of itself has executed this Loan Agreement, which was approved by the NMFA's Board of Directors on October 31, 2024, in its corporate name by its duly authorized officers; and the Governmental Unit has caused this Loan Agreement to be executed in its corporate name and the seal of the Governmental Unit affixed hereto and attested by duly authorized officers. All of the above are effective as of the date first above written.

(Check) **Bill:** X **Resolution:** _____

Short Title(s): DW 6522 - DWSRLF Loan for Flocculation Sedimentation Upgrades at Canyon Road Water Treatment Plant

Sponsor(s): Councilor Amanda Chavez and Councilor Alma Castro

Reviewing Department(s): Public Utilities Department

Staff Completing FIR: Clinton Peterson, Engineer **Date:** 1/12/2026 **Phone:** (505) 955-4369

Reviewed by City Attorney: Marcos Martinez Marcos Martinez (Feb 16, 2026 13:33:38 MST) **Date:** 02/16/2026

Reviewed by Finance Director: ANDREA PHILLIPS (Feb 18, 2026 09:34:08 MST) **Date:** 02/18/2026

Summary:
The proposed bill would authorize the execution and delivery of a Drinking Water State Revolving Fund loan and subsidy agreement in the total amount of $17,000,000 between the New Mexico Finance Authority and the City of Santa Fe ("City"). The loan would be for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Canyon Road Water Treatment Plant. This bill specifies that the loan be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). With respect to the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City. The Loan shall be in the maximum principal amount of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000.

Departments Affected:
Public Utilities Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will not receive a loan of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None.

Performance and Administrative Implications:
If this bill is adopted, the City would be able to better fund this critical infrastructure project. The principal loan forgiveness of fifty percent would save the City of Santa Fe Water Division up to $8,500,000. Additionally, the completion of the project would allow the City to be able to better provide potable drinking water to residents by replacing aging equipment and increasing the treatment plant efficiency.

Fiscal Implications:
If this bill is adopted, the City will accept funds from NMFA in the total amount of $17,000,000 for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Cayon Road Water Treatment Plant. This loan has a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000. The loan portion of this agreement is to be paid back within 30 years at an interest rate of 0.25%.

Expenditures

Expenditure Type	FYE 2026	FYE 2027	FYE 2028	Require BAR (Y/N)	Recurring (R) or Non-recurring (NR)	Fund	3-Year Total Cost
Personnel and Benefits*	$	$	$				
Capital Outlay	$ 14,166.6	$14,166.6	$ 14,166.6				
Contractual/ Professional Services	$	$	$				
Operating	$	$	$				$
Total:	$	$	$				$

Expenditure Narrative:
There is a 0.25% administrative fee associated with the loan, which is reflected in the expenditure table above as capital outlay.

Revenue

Revenue Type	FYE 2026	FYE 2027	FYE 2028	Recurring (R) or Non-recurring (NR)	Fund
General Fund	$	$	$		
Special Revenue	$	$	$		
CIP	$2,833,333.33	$2,833,333.3 3	$2,833,333.33	NR	505
Enterprise	$	$	$		
Internal Service	$	$	$		
Trust and Agency	$	$	$		
Federal	$	$	$		
Other	$	$	$		
Total	$	$	$		

Revenue Narrative:
The principal forgiveness associated with the loan will be applied to Fifty percent (50%) of the loan spent for this project. The Public Utilities Department is estimating 17 million dollars spent throughout the lifespan of the project over a period of approximately 26 months, spanning three fiscal years. The revenue savings associated with the maximum principal forgiveness of $8,500,000 is thus estimated in the table above to be allocated for the next 3 fiscal years.

RE: Loan of the Soldiers' Monument to the New Mexico History Museum

---

EXECUTIVE SUMMARY:

The proposed Resolution would provide for the placement of the remnants of the Soldiers' Monument in the New Mexico History Museum on a temporary basis. The Resolution would also authorize the City Manager to work with State officials to enter into a temporary loan agreement between the City and the New Mexico History Museum for the same.

Resolution
Fiscal Impact Report

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2026-__

INTRODUCED BY:

Mayor Michael Garcia

Councilor Lee Garcia

A RESOLUTION

SUPPORTING THE PLACEMENT OF THE REMNANTS OF THE SOLDIERS' MONUMENT IN THE NEW MEXICO HISTORY MUSEUM ON A TEMPORARY BASIS; AUTHORIZING THE CITY MANAGER TO WORK WITH STATE OFFICIALS TO ENTER INTO A TEMPORARY LOAN AGREEMENT.

WHEREAS, the Soldiers' Monument ("Monument"), located in the Santa Fe Plaza, was funded by the Territorial Legislature of New Mexico in the 1860s and erected to recognize local Union soldiers; and

WHEREAS, in 1868 the Territorial Legislature of New Mexico authorized the addition of four inscribed plaque slabs to be added to the plinth base of the Monument; and

WHEREAS, three sides of the plinth base of the Monument commemorate soldiers who fought in the United States Civil War in battles with Confederate forces, including in the Battle of Glorieta Pass that allowed the Union to retain control of the American Southwest; and

WHEREAS, the Fourth North Facing Plaque originally stated "To the heroes who have fallen in the various battles with savage Indians in the Territory of New Mexico"; and

WHEREAS, the Monument, its plaques, and its location on the Plaza have been

controversial for at least the last 115 years:

- In 1909, Territorial New Mexico Governor Bradford Price publicly opposed a proposal to cut out the word 'Rebel' in three places on the plaques and replace it with "Confederate".
- In July of 1973, the City's Council voted to remove the entire Soldiers' Monument after receiving a letter from then Governor Bruce King that requested removal of the Fourth Plaque, starting that the "word 'savage' was offensive to Indians and non-Indians".
- In September of 1973, the City Manager reported that David King, the State Planning Officer at that time, requested that the Council rescind its action regarding the Soldiers' Monument and the Council voted to rescind.
- In 1974, someone chiseled out the word "savage" from the Fourth Noth Facing Plaque and, shortly thereafter, the All Indian Pueblo Council "strongly urged that" the word savage not ever appear on the Soldiers' Monument again.
- In 2000, the NAACP, Santa Fe Branch, submitted a Guest Editorial responding to the Historic Santa Fe Foundation, defending the NAACP's proposal to remove the Soldiers' Monument from its location in the Plaza, noting that "we… have a beautiful Ve[]teran's Cemetery w[h]ere we have many ceremonies every year to honor those killed, as a potential ideal setting for the monument."
- Also in 2000, the Historical Society of New Mexico wrote to the City of Santa Fe's Mayor, Council, Manager and "People of Santa Fe" that "the words 'savage Indians' excluded the Pueblo Indians who have always been regarded by the Spanish, the Mexicans and then the 'Anglos' as 'civilized' Indians, and [i]n that that removal or destruction of the Monument would be akin to 'book burning'…"; and

WHEREAS, the Governing Body of the City of Santa Fe ("City") also recognizes that the

Monument, its historical associations, and the Fourth North Facing Plaque have been a source of ongoing concern; and

WHEREAS, City recognizes that in October 2020 the Monument, was damaged and partially torn down; and

WHEREAS, the events of October 2020 left the Monument in several pieces; and

WHEREAS, the City recognizes that the Monument and its remnants have historical and cultural significance to many members of the community; and

WHEREAS, the Monument should be placed in a respectful, safe, public location.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF SANTA FE that the Governing Body supports placing the remnants of the Soldiers' Monument in the New Mexico History Museum, which includes the Palace of the Governors, on a temporary basis, and authorizes the City Manager to work with State officials to enter into a temporary loan agreement.

PASSED, APPROVED, and ADOPTED this _____day of _____, 2026.

Memorandum

Date: February 16, 2026

To: Governing Body, Public Works and Utilities Committee, Quality of Life Committee, Finance Committee

From: Brian Moya, Interim City Manager BM

RE: Reorganization of City Departments

EXECUTIVE SUMMARY:

The proposed Bill would amend SFCC 1987, Section 2-8.2 to reorganize the City's departmental structure. As part of the reorganization of the City's code itself, the bill proposes the following changes:

1) The creation of six new sections of city code to include 2-8.10 through 2-8.15; and
2) A reorganization of various City departments into new code locations; and
3) The inclusion of a newly created "General Provisions" section that includes definitions for "departments" and "divisions" as well as the inclusion of Exhibit A "City of Santa Fe Organizational Chart: Subsection 2-8.1", representing the offices of the Mayor, City Clerk, City Manager, City Attorney and all departments reporting directly to the City Manager; and
4) As technical "clean-up" the repeal of Sections 2-14, 2-15, and 2-20 as well as the repeal of Exhibit C of SFCC 1987, "City Organization".

Additionally, the bill makes the following changes to the City's organizational structure:

1) Renaming the Community Health and Safety Department the "Community Services Department" and reorganizing to include Youth and Family Services and Recreation, and to remove the Office of Emergency Management; and
   eliminating the Community Development Department; and
2) Establishing the Emergency Management Department: and
3) Reorganizing the Economic Development Department to include the Arts and Culture Division and the Film Division; and
4) Reorganizing the Land Use Department to include the Affordable Housing Division; and
5) Creating the TOURISM Santa Fe Department; and
6) Establishing a new "Regional Airport Department"; and
7) Creating the "Metropolitan Redevelopment Agency ("MRA") Department".

2-8.2 (being Ord. No. 2025-8, as amended) as follows:

2-8.2 – [~~Community Health and Safety Department~~]. Finance Department.

Bill drafters' note: *Strikethrough showing relocation of "Community Health and Safety Department" from Section 2-8.2, SFCC 1987 is omitted for readability. To view proposed amendments to the "Community Health and Safety Department", SFCC 1987, see bill Section 3.*

A. Creation of department. There is created a department of city government to be known as the "finance department".

B. Finance officer.

(1) Position Established. The position of finance officer is established. The finance officer is the city treasurer and manager of the finance department of the city. The designation as finance officer shall not be considered separate employment nor occasion any additional salary.

(2) Duties. The finance officer shall:

(a) Receive all money due and payable to the city;

(b) Keep accounts and records in the manner prescribed by generally accepted accounting principles;

(c) Keep the money of the city separate from any other money in the finance officer's possession;

(d) Expend the money only as directed by the governing body;

(e) Submit monthly, or more often if required by the governing body, a report of the receipts and expenditures of the city;

(f) Supervise the depositing and safekeeping of all money belonging to the city;

(g) With the advice and consent of the governing body designate banks qualified to receive or deposit money entrusted in the

finance officer's care;

(h) Prepare annually, for the close of the fiscal year, a comprehensive annual financial report showing the receipts, expenditures and balances for each fund. A copy of the financial report shall be filed in the finance officer; and

(i) Perform other duties prescribed by law, ordinance or city rules and regulations.

(3) Reports to Governing Body. The finance officer shall be responsible and report to the governing body through the city manager.

(4) Records Open for Inspection. The records of the finance officer shall be open to inspection by any citizen during the regular business hours of the city.

Section 3. Removing "Community Development Department" from Section 2-8.3 of SFCC 1987, amending current Section 2-8.2 "Community Health and Safety Department" (being Ord. No. 2025-8, § 1, as amended), and amending Section 2-8.3 (being Ord. No. 2020-22, as amended) as follows:

2-8.3 – [~~Community Development Department~~]

[~~There is created a department of city government to be known as the "community development department" that shall include the following divisions: economic development division, office of affordable housing, planning and land use department, TOURISM Santa Fe department, and the arts and culture department.~~]

Community [~~Health and Safety~~] Services Department.

[~~A.~~] Creation of Department. There is created a department of city government to be known as the "community [~~health and safety department", which includes, but is not limited to, the community~~] services department" [~~and the office of emergency management~~].

[~~B. Community Services Department.~~] The community services department includes,

but is not limited to, senior services, youth and family services, recreation, and libraries.

[~~C. Office of Emergency Management.~~

~~(1) In accordance with Section 12-10-5 NMSA 1978, the "office of emergency management," shall consist of:~~

~~(a) An emergency manager who shall be appointed in accordance with Section 12-10-5 NMSA 1978, and who shall be subject to the personnel system of the city;~~

~~(b) Additional professional and administrative personnel as may be required to effectively carry out the emergency management program; and~~

~~(c) All other city officers and employees, together with those volunteer forces enrolled to aid the city during periods of disaster or emergency.~~

~~(2) Definitions.~~

~~*Civil emergency* means conditions of unrest, including but not limited to riot, civil disturbance, unlawful assembly, hostile military or paramilitary action, war, terrorism, or sabotage.~~

~~*Comprehensive emergency management plan* (CEMP) means a written document that describes the city's overall emergency management plan. A CEMP specifies the purpose, organization, responsibilities, and facilities of the agencies and officials of the city in the mitigation of, preparation for, response to, and recovery from emergencies and disasters.~~

~~*Curfew* means a period of time declared by the mayor, during which no person or persons, other than persons authorized by the mayor by administrative order, may be upon the public streets, sidewalks, grounds, or semi-public property, either on foot or in vehicles of any type, within the city.~~

~~*Disaster* means the occurrence of a natural catastrophe, technological accident, or~~

~~human-caused event that has resulted in environmental damage, property damage, deaths, and/or multiple injuries, which may exceed the response capability of the local jurisdiction, necessitating state, and potentially federal, involvement.~~

~~*Emergency* means any occasion or instance, such as a terrorist attack, terrorist threat, civil unrest, wildland and urban fire, flood, hazardous materials spill, nuclear accident, aircraft accident, earthquake, hurricane, tornado, tropical storm, tsunami, war-related disaster, public health or medical emergency, other occurrence requiring an emergency response, or any other condition that warrants action to protect life, property, or the environment.~~

~~*Emergency management* means an approach to prevent, protect against, respond to, recover from, and mitigate the effects of incidents.~~

~~*Emergency operations center* (EOC) means the physical location at which the coordination of information and resources to support incident management (on-scene operations) activities normally takes place.~~

~~*Emergency plan* means an ongoing plan for responding to a wide variety of potential hazards.~~

~~*Hazard mitigation* plan means the representation of the city's commitment to reduce risks from natural hazards, serving as a guide for decision makers as they commit resources to reducing the effects of natural hazards.~~

~~*National Incident Management System* (NIMS) means the federal government's standardized framework of doctrines, concepts, principles, terminology, and organizational processes for emergency management.~~

~~(3) Purpose.~~

~~(a) The purpose of the office of emergency management is to coordinate the efforts of all municipal agencies and employees, nongovernmental~~

~~agencies, and private sector partners to prepare for and function in the event of disasters and emergencies endangering the lives of persons in the city, property of the residents of the city, or public property in the city.~~

~~(b) The duty of the office of emergency management is to coordinate the development of emergency plans for the effective employment of municipal resources to protect the lives and health of the residents of the city and the private and public property therein from the effects of emergencies or natural or man-caused disasters.~~

~~(c) The office of emergency management shall coordinate the implementation of such plans in preparation for, during, and after periods of emergency or disaster. Such plans shall be coordinated with those of the county and in consonance with the state emergency management plans.~~

~~(d) The office of emergency management and safety shall ensure that the safety of all city employees is a priority throughout the city's operations and coordinate and oversee safety protocols and implementation for the city.~~

~~(4) Emergency manager. The emergency manager shall:~~

~~(a) Be responsible to the director of community health and safety for the organization, administration, and operation of the emergency management program of the city;~~

~~(b) Coordinate the emergency management activities of all municipal departments and agencies of the city, nongovernmental agencies, and private sector partners;~~

~~(c) Be the liaison and cooperate with the emergency management agencies of the federal government, the state, the county, and the other political~~

~~subdivisions therein;~~

~~(d) Develop an organizational structure for the office of emergency management, subject to the approval of the governing body and recommend appointments to fill the positions established therein subject to the city manager's authority;~~

~~(e) Manage the EOC; establish the overall structure, roles, responsibilities, and direction for the operation of the EOC; and ensure that the EOC is appropriately sited, staffed, equipped, and maintained;~~

~~(f) Maintain written emergency plans, including but not limited to all chapters, annexes, and appendices of the comprehensive emergency management plan and hazard mitigation plan, and annually review the plans to identify any recommendations for revisions; and~~

~~(g) Maintain records documenting compliance with requirements of federal and state emergency management programs, including the NIMS.~~

~~(5) Financing.~~

~~(a) Funds for necessary expenses of the office of emergency management, including salaries for approved positions, may be made available through appropriations by the governing body in accordance with Section 12-10-7 NMSA 1978.~~

~~(b) The emergency manager shall prepare and submit to the governing body an annual proposed budget for emergency management expenditures and shall indicate those amounts eligible for matching funds under the federal grant programs.~~

~~(c) During an emergency, purchases may be exempt from the city's procurement code, as permitted pursuant to Section 11-13 SFCC 1987.~~]

Section 4. Moving "Information Technology and Telecommunications Department" without amendments from Section 2-8.4 of SFCC 1987 to Section 2-8.8, amending Subsection 2-8.2(C) "Emergency Management" (being Ord. No. 2025-8, §1, as amended), and amending Section 2-8.4 (being Ord. No. 2020-22, §3, as amended) as follows:

2-8.4 – [~~Information Technology and Telecommunications~~] Emergency Management Department.

Bill drafters' note: *Strikethrough showing relocation of "Information Technology and Telecommunications Department" from Section 2-8.4 to Section 2-8.8, SFCC 1987 is omitted for readability. To view "Information Technology and Telecommunications Department", see bill Section 8.*

A. In accordance with Section NMSA 1978, Section 12-10-5 [~~NMSA 1978~~], the "[~~office of~~] emergency management department," shall consist of:

(1) An emergency [~~manager~~] director who shall be appointed in accordance with NMSA 1978, Section 12-10-5 [~~NMSA 1978~~], and who shall be subject to the personnel system of the city;

(2) Additional professional and administrative personnel as may be required to effectively carry out the emergency management program; and

(3) All other city officers and employees, together with those volunteer forces enrolled to aid the city during periods of disaster or emergency.

B. Definitions.

Civil emergency means conditions of unrest, including but not limited to riot, civil disturbance, unlawful assembly, hostile military or paramilitary action, war, terrorism, or sabotage.

Comprehensive emergency management plan (CEMP) means a written document that describes the city's overall emergency management plan. A CEMP specifies the

purpose, organization, responsibilities, and facilities of the agencies and officials of the city in the mitigation of, preparation for, response to, and recovery from emergencies and disasters.

Curfew means a period of time declared by the mayor, during which no person or persons, other than persons authorized by the mayor by administrative order, may be upon the public streets, sidewalks, grounds, or semi-public property, either on foot or in vehicles of any type, within the city.

Disaster means the occurrence of a natural catastrophe, technological accident, or human-caused event that has resulted in environmental damage, property damage, deaths, and/or multiple injuries, which may exceed the response capability of the local jurisdiction, necessitating state, and potentially federal, involvement.

Emergency means any occasion or instance, such as a terrorist attack, terrorist threat, civil unrest, wildland and urban fire, flood, hazardous materials spill, nuclear accident, aircraft accident, earthquake, hurricane, tornado, tropical storm, tsunami, war-related disaster, public health or medical emergency, other occurrence requiring an emergency response, or any other condition that warrants action to protect life, property, or the environment.

Emergency management means an approach to prevent, protect against, respond to, recover from, and mitigate the effects of incidents.

Emergency operations center (EOC) means the physical location at which the coordination of information and resources to support incident management (on-scene operations) activities normally takes place.

Emergency plan means an ongoing plan for responding to a wide variety of potential hazards.

Hazard mitigation plan means the representation of the city's commitment to

reduce risks from natural hazards, serving as a guide for decision makers as they commit resources to reducing the effects of natural hazards.

National Incident Management System (NIMS) means the federal government's standardized framework of doctrines, concepts, principles, terminology, and organizational processes for emergency management.

C. Purpose.

(1) The purpose of the [~~office of~~] emergency management department is to coordinate the efforts of all municipal agencies and employees, nongovernmental agencies, and private sector partners to prepare for and function in the event of disasters and emergencies endangering the lives of persons in the city, property of the residents of the city, or public property in the city.

(2) The duty of the [~~office of~~] emergency management department is to coordinate the development of emergency plans for the effective employment of municipal resources to protect the lives and health of the residents of the city and the private and public property therein from the effects of emergencies or natural or man-caused disasters.

(3) The [~~office of~~] emergency management department shall coordinate the implementation of such plans in preparation for, during, and after periods of emergency or disaster. Such plans shall be coordinated with those of the county and in consonance with the state emergency management plans.

(4) The [~~office of~~] emergency management department [~~and safety~~] shall ensure that the safety of all city employees is a priority throughout the city's operations and coordinate and oversee safety protocols and implementation for the city.

D. Emergency [~~manager~~] director. The emergency [~~manager~~] director shall:

(1) Be responsible to the [~~director of community health and safety~~] city manager for the organization, administration, and operation of the emergency management program of the city;

(2) Coordinate the emergency management activities of all municipal departments and agencies of the city, nongovernmental agencies, and private sector partners;

(3) Be the liaison and cooperate with the emergency management agencies of the federal government, the state, the county, and the other political subdivisions therein;

(4) Develop an organizational structure for the [~~office of~~] emergency management department, subject to the approval of the governing body and recommend appointments to fill the positions established therein subject to the city manager's authority;

(5) Manage the EOC; establish the overall structure, roles, responsibilities, and direction for the operation of the EOC; and ensure that the EOC is appropriately sited, staffed, equipped, and maintained;

(6) Maintain written emergency plans, including but not limited to all chapters, annexes, and appendices of the comprehensive emergency management plan and hazard mitigation plan, and annually review the plans to identify any recommendations for revisions; and

(7) Maintain records documenting compliance with requirements of federal and state emergency management programs, including the NIMS.

E. Financing.

(1) Funds for necessary expenses of the [~~office of~~] emergency management

department, including salaries for approved positions, may be made available through appropriations by the governing body in accordance with NMSA 1978,Section 12-10-7 [~~NMSA 1978~~].

(2) The emergency manag[~~er~~]ment director shall prepare and submit to the governing body an annual proposed budget for emergency management expenditures and shall indicate those amounts eligible for matching funds under the federal grant programs.

(3) During an emergency, purchases may be exempt from the city's procurement code, as permitted pursuant to Section 11-13 SFCC 1987.

Section 5. Moving "Public Works Department" without amendments from Section 2-8.5 to Section 2-8.9 of SFCC 1987, and amending Section 2-8.5 (being Ord. No. 2020-22, § 3, as amended) to read as follows:

Bill drafters' note: *Strikethrough showing relocation of "Public Works Department" from Section 2-8.5 to Section 2-8.9, SFCC 1987 is omitted for readability. To view "Public Works Department", see bill Section 9.*

2-8.5 – [~~Public Works Department~~] Economic Development Department

There is created a department of city government to be known as the "economic development department" that shall include the following divisions: the arts and culture division and the film division.

Section 6. Moving "Public Utilities Department" without amendments from Section 2-8.6 of SFCC 1987 to a newly created Section 2-8.10, and amending Section 2-8.6 (being Ord. No. 2020-22, § 3, as amended) to read as follows:

Bill drafters' note: *Strikethrough showing relocation of "Public Utilities Department" from Section 2-8.6 to a newly created Section 2-8.10, SFCC 1987 is omitted for readability. To view "Public Utilities Department, see bill Section 10.*

2-8.6 – [~~Public Utilities Department~~] Planning and Land Use Department.

There is created a department of city government to be known as "planning and land use department" that shall include the affordable housing division.

Section 7. Moving "Human Resources Department" without amendments from Section 2-8.7 of SFCC 1987 to a newly created Section 2-8.11 and amending Section 2-8.7 (being Ord. No. 2020-22, § 3, as amended) to read as follows:

Bill drafters' note: *Strikethrough showing relocation of "Human Resources Department" from Section 2-8.7 to a newly created Section 2-8.11, SFCC 1987 is omitted for readability. To view "Human Resources Department, see bill Section 11.*

2-8.7 – [~~Human Resources Department~~] TOURISM Santa Fe Department.

There is created a department of city government to be known as "TOURISM Santa Fe department".

Section 8. Moving "Police Department" without amendments from Section 2-8.8 of SFCC 1987 to a newly created Section 2-8.12, retaining language from Section 2-8.4 "Information and Telecommunications Department" (being Ord. No. 2020-22, §3, as amended) and amending Section 2-8.8 (being Ord. No. 2025-8, §2, as amended) to read as follows:

Bill drafters' note: *Strikethrough showing relocation of "Police Department" from Section 2-8.8 to a newly created Section 2-8.12, SFCC 1987 is omitted for readability. To view "Police Department", see bill Section 12.*

2-8.8 – [~~Police Department~~] Information and Telecommunications Department.

There is created a department of city government to be known as the "information technology and telecommunications department".

Section 9. Moving "Fire Department" without amendments from Section 2-8.9 of SFCC 1987 to a newly created Section 2-8.13, retaining language from Section 2-8.5 "Public

Works Department" (being Ord. No. 2020-22, § 3, as amended), and amending Section 2-8.9 (being Ord. No. 2025-3, § 3, as amended) to read as follows:

Bill drafters' note: *Strikethrough showing relocation of "Fire Department" from Section 2-8.9 to a newly created Section 2-8.13, SFCC 1987 is omitted for readability. To view "Fire Department" without amendments, see bill Section 13.*

2-8.9 – [~~Fire Department~~] Public Works Department.

There is created a department of city government to be known as the "public works department".

Section 10. [NEW SECTION] Creating Section 2-8.10 of SFCC 1987, retaining language from Section 2-8.6 "Public Utilities Department" (being Ord. No. 2020-22, § 3, as amended), to read as follows:

2-8.10 – Public Utilities Department

There is created a department of city government to be known as "public utilities department".

Section 11. [NEW SECTION] Creating Section 2-8.11 of SFCC 1987, retaining language from Section 2-8.7 "Human Resources Department" (being Ord. No. 2020-22, § 3 as amended), to read as follows:

2-8.11 – Human Resources Department.

There is created a department of city government to be known as the "human resources department".

Section 12. [NEW SECTION] Creating Section 2-8.12 of SFCC 1987, retaining language from Section 2-8.8 "Police Department" (being Ord. No. 2025-8, § 2 as amended), to read as follows:

2-8.12 – Police Department

(1) *Powers and duties generally.* Police officers shall execute and return all writs and processes directed to them by the municipal judge and, in criminal cases or cases of violations of city ordinances, they may serve the same in any part of the country.

They shall suppress all riots, disturbances and breaches of the peace, apprehend all disorderly persons within the city and shall pursue and arrest any person fleeing from justice. They shall apprehend any person in the act of committing any offense against the laws of the state or the ordinances of the city, and forthwith bring such persons before a competent authority for examination and trial. They shall have, in the discharge of their proper duties, like powers and be subject to like responsibilities as sheriffs or constables in similar cases.

(2) *Appointment of police officers; commissions.* No person shall assume or exercise the functions, powers, duties and privileges incident or belonging to the office of municipal police officers without first having received an appointment in writing, known as a "commission", from the governing body. The advice of the chief of police shall be obtained in the employment and commissioning of all police officers of the department.

(3) *Training schools and examinations.*

(a) There shall be held and conducted at such times as may be prescribed by the chief of police, with the approval of the governing body, schools for training in modern police methods and practices. The schools for training and the checking of the qualifications and general fitness of applicants for positions in the police department shall be under the direction and supervision of the chief of police.

(b) All members of the police department shall take such examinations as may be prescribed.

(c) In the taking of all written examinations there shall be assigned to each applicant a number which shall be endorsed on the applicant's examination papers, and the grading of the examinations shall be by number only.

(d) Except as otherwise provided, no member shall be retained in the police

department and no applicant shall be appointed to the police department unless such member or applicant, after taking the prescribed training courses, has successfully passed the prescribed examinations, written and oral; provided, that the minimum educational qualifications required by the City Personnel Act shall not apply to members of the present police department who are otherwise qualified under the provisions hereof; provided further, that in passing on the qualifications of members of the present police department, consideration shall be given to:

(i) Length of service and faithfulness to duty; and

(ii) General aptitude for police work as disclosed by the individual records of such members to be confirmed by oral examinations.

(4) *Extra or emergency police officers.* The city manager may employ on behalf of the city such extra or emergency police officers as may be required in the proper administration of municipal affairs.

(5) *Police department reserve.*

(a) *Created.* There is created the city "police department reserve force", hereinafter referred to as the "reserve".

(b) *Control by Chief of Police.* The reserve is under the exclusive control of the chief of the city police department who shall have the sole and exclusive authority to:

(i) Summarily discipline or dismiss members without appeal to any body or tribunal;

(ii) Approve or disapprove all bylaws, rules and regulations of the reserve; and

(iii) Approve or disapprove all officers, employees or agents of the reserve.

(c) *Authority.* The reserve and its individual members shall only have authority in law enforcement on specific request by the city police chief. A specific request shall be made for each individual instance of service.

(d) *Powers and Duties.*

(i) The duties of the reserve are to assist in enforcement of law by cooperating with all law enforcement agencies and regulatory bodies.

(ii) The reserve or its members when acting upon call, and only when acting upon call, of the city police chief, for the city or for another law enforcement agency or regulatory authority, shall be possessed of the same powers and duties as a city police officer or an officer of such law enforcement agency or regulatory authority.

(e) *Call of Members.* When the city police chief calls up the members of the reserve, the call shall be in writing, list the names of each member of the reserve called, the purpose of the call, and the date and time the call begins and terminates. Except when on call, reserve members shall have no more authority in law enforcement than that of any private citizen.

(f) *Requests for Assistance.* Should any law enforcement agency or regulatory body desire assistance from the reserve, the request shall be made to the city police chief who may authorize it, if:

(i) Reserve members are fully covered by the workman's compensation insurance policy of the assisted agency or body, and this is evidenced by a writing presented to the chief; and

(ii) Any and all liability that may arise against the city, its officers, employees or agents, the reserve, or its members as a result of such assistance, is assumed in writing by the assisted agency or body.

(g) *Worker's Compensation.* The city shall immediately take steps to provide necessary worker's compensation insurance for the reserve and necessary liability insurance covering liability that may arise against the city, its officers, employees

or agents as a result of the activities of the reserve on behalf of the city. If any or a portion of such liability is to be self-insured, the self-insurance fund shall be increased accordingly.

Section 13. [NEW SECTION] Creating Section 2-8.13 of SFCC 1987, amending language from Section 2-8.9 "Fire Department" (being Ord. No. 2025-8, § 3 as amended), to read as follows:

2-8.13 - Fire Department.

(1) *Department authority and powers.*

(a) Pursuant to NMSA 1978, Sections 3-18-1, F[.] and G[.] [~~NMSA 1978~~] and NMSA 1978, Section 3-18-11[~~B (1)~~], the city may provide proper means for protection from fire and protect the property of its municipality and its inhabitants and preserve the health, safety, peace and order within the municipality. Therefore, the stated purpose of this subsection is to grant the fire department all authority necessary to protect life and property from the hazards created by fire, explosion, and similar emergencies.

(b) The fire department shall have full and complete authority in connection with fighting, mitigating, and preventing the spread of any fire that may arise within the city, with the power to do and perform all necessary or expedient acts for the fighting of fire. When called to a fire, the fire department shall have:

(i) Full and complete authority of the premises to which it has been summoned until the fire has been extinguished and the premises are deemed safe by the fire department; and

(ii) By emergency vehicle or by foot, the right of ingress and egress on all public or private streets, alleyways, roads, driveways, and thoroughfares located within the city limits or the city annexation areas.

(c) The fire department shall have full and complete authority in connection with the provision of prehospital emergency medical services within the city, with the power to do and perform all necessary or expedient acts for the provision of these services. (d) The fire chief shall have full authority to sign agreements, approved by the city attorney's office, with landowners to implement fire hazard mitigation activities.

(2) *Department members designated as special police officers.* Every member duly enrolled and in good standing in the fire department shall be a special police officer of the city with power to act as such from the time of the sounding of any fire alarm until the apparatus and equipment for fighting fire has been returned to the fire station.

(3) *Obstructing or interfering with firefighters.* It is unlawful for any person to obstruct or interfere with firefighters while in the discharge of their duties.

Section 14. [NEW SECTION] Creating Section 2-8.14 of SFCC 1987, "Santa Fe Regional Airport Department", to read as follows:

2-8.14 – Santa Fe Regional Airport Department.

There is created a department of city government to be known as the "Santa Fe regional airport department".

Section 15. [NEW SECTION] Creating Section 2-8.15 of SFCC 1987, "Metropolitan Redevelopment Agency ("MRA") Department ", to read as follows:

2-8.15 – Metropolitan Redevelopment Agency ("MRA") Department.

There is created a department of city government to be known as the "metropolitan redevelopment agency ("MRA") department".

Section 17. Section 2-14 of SFCC 1987 (being Ord. No. 1981, § 4-1-1) is hereby repealed.

Section 18. Section 2-15 of SFCC 1987 (being Ord. No. 2007-45, § 12) is hereby repealed.

Section 19. Section 2-20 of SFCC 1987 (being Ord. No. 2007-45 §20, as amended) is hereby repealed.

Section 20. Exhibit C – City Organization of SFCC 1987 is hereby repealed.

Summary:

The proposed Bill would amend SFCC 1987, Section 2-8.2 to reorganize the City's departmental structure. As part of the reorganization of the City's code itself, the bill proposes the following changes:

1) The creation of six new sections of city code to include 2-8.10 through 2-8.15; and
2) A reorganization of various City departments into new code locations; and
3) The inclusion of a newly created "General Provisions" section that includes definitions for "departments" and "divisions" as well as the inclusion of Exhibit A "City of Santa Fe Organizational Chart: Subsection 2-8.1", representing the offices of the Mayor, City Clerk, City Manager, City Attorney and all departments reporting directly to the City Manager; and
4) As technical "clean-up" the repeal of Sections 2-14, 2-15, and 2-20 as well as the repeal of Exhibit C of SFCC 1987, "City Organization".

Additionally, the bill makes the following changes to the City's organizational structure:

1) Renaming the Community Health and Safety Department the "Community Services Department" and reorganizing to include Youth and Family Services and Recreation, and to remove the Office of Emergency Management; and
   eliminating the Community Development Department; and
2) Establishing the Emergency Management Department; and
3) Reorganizing the Economic Development Department to include the Arts and Culture Division and the Film Division; and
4) Reorganizing the Land Use Department to include the Affordable Housing Division; and
5) Creating the TOURISM Santa Fe Department; and
6) Establishing a new "Regional Airport Department"; and
7) Creating the "Metropolitan Redevelopment Agency ("MRA") Department".

Departments Affected:

See summary above for departmental restructure; City Manager's Office.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, if this legislation is not adopted, the City's departmental structure would remain the same.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This bill reorganizes the City departmental structure established in Ordinance No. 2020-22 and 2025-8.

Performance and Administrative Implications:
This bill will result in an increase in the number of departments reporting directly to the City Manager. The changes create potential for increased operational responsiveness.

Fiscal Implications:
The proposed bill will result in the elimination of a two director positions – Community Health and Safety and Community Development Director. This will result in cost savings of $151,747 for the remainder of FY26 and S496,271 in both FY27 and FY28.

CITY OF SANTA FE

Memorandum

Date: February 16, 2026

To: Governing Body, Public Works and Utilities Committee; Finance Committee

From: Clinton Peterson, Public Utilities Engineer CDP

Via: Jesse Roach, Interim Public Utilities Director JR

RE: DWSRLF Loan for Flocculation Sedimentation Upgrades at Canyon Road Water Treatment Plant

---

EXECUTIVE SUMMARY:

The proposed bill would authorize the execution and delivery of a Drinking Water State Revolving Fund loan and subsidy agreement in the total amount of $17,000,000 between the New Mexico Finance Authority and the City of Santa Fe ("City"). The loan would be for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Canyon Road Water Treatment Pant. This bill specifies that the loan be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). With respect to the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City. The Loan shall be in the maximum principal amount of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000.

BACKGROUND:

The City entered into a contract with Bradbury Stamm Construction in the total amount of $21,882,300, exclusive of sales tax, to complete the Flocculation and Sedimentation Improvements project at the Canyon Road Water Treatment Plant. This project will upgrade critical infrastructure at the facility, which provides potable drinking water to the residents of the city of Santa Fe. The City's Water Division is funding the project through a combination of Drinking Water State Revolving Loan Fund, which includes a significant principal loan forgiveness component, along with Water Trust Board Fundin and Water Enterprise Fund moneys.

BILL NO. 2026-04

INTRODUCED BY:

Councilor Amanda Chavez

Councilor Alma Castro

underscored material = new [~~bracketed material~~] = delete

A BILL

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

AUTHORIZING THE EXECUTION AND DELIVERY OF A LOAN AND SUBSIDY AGREEMENT ("LOAN AGREEMENT") BY AND BETWEEN THE NEW MEXICO FINANCE AUTHORITY ("NMFA") AND CITY OF SANTA FE, NEW MEXICO ("THE BORROWER"), IN THE TOTAL AMOUNT OF SEVENTEEN MILLION DOLLARS ($17,000,000), EVIDENCING AN OBLIGATION OF THE BORROWER TO UTILIZE THE LOAN AMOUNT SOLELY FOR THE PURPOSE OF FINANCING THE COSTS OF CONSTRUCTING A NEW FLOCCULATION AND SEDIMENTATION PROCESS AND MAKING IMPROVEMENTS TO THE CANYON ROAD WATER TREATMENT PLANT AS A COMPONENT OF THE SYSTEM OWNED AND OPERATED BY THE BORROWER, AND SOLELY IN THE MANNER DESCRIBED IN THE LOAN AGREEMENT; PROVIDING FOR THE PLEDGE AND PAYMENT OF THE LOAN SOLELY FROM THE NET REVENUES OF THE WATER UTILITY SYSTEM OF THE BORROWER; CERTIFYING THAT THE LOAN AMOUNT, TOGETHER WITH OTHER FUNDS AVAILABLE TO THE BORROWER, IS SUFFICIENT TO COMPLETE THE

PROJECT; APPROVING THE FORM OF AND OTHER DETAILS CONCERNING THE LOAN AGREEMENT; RATIFYING ACTIONS HERETOFORE TAKEN; REPEALING ALL ACTION INCONSISTENT WITH THIS ORDINANCE; AND AUTHORIZING THE TAKING OF OTHER ACTIONS IN CONNECTION WITH THE EXECUTION AND DELIVERY OF THE LOAN AGREEMENT.

Capitalized terms used in the following preambles have the same meaning as defined in this Ordinance unless the context requires otherwise.

WHEREAS, the Borrower is a legally and regularly created, established, organized and existing home-rule municipality under the constitution and general laws of the State of New Mexico, and more specifically, NMSA 1978, Sections 3-1-1 through 3-66-11, as amended, is a qualifying entity under the Water Project Finance Act and is qualified for financial assistance as determined by the New Mexico Finance Authority ("NMFA") and approved by the Water Trust Board pursuant to the Board Rules, the Policies and the Act; and

WHEREAS, pursuant to the Board Rules, the Water Trust Board has recommended the Project for funding as a Qualifying Project to the Legislature; and

WHEREAS, Chapter 6, Laws 2024, being House Bill 148 of the 2024 Regular New Mexico Legislative Session, authorized the funding of the Project from the Water Project Fund; and

WHEREAS, the Water Trust Board has recommended that the NMFA enter into and administer the Loan Agreement in order to finance the Project; and

WHEREAS, the NMFA approved on July 18, 2025, that the Borrower receive financial assistance in the form of the Loan; and

WHEREAS, the Governing Body has determined and hereby determines that the Project may be financed with amounts granted and loaned pursuant to the Loan Agreement, that the Loan Amount, together with the Additional Funding Amount and other moneys available to the

Borrower, is sufficient to complete the Project, and that it is in the best interest of the Borrower and the constituent public it serves that the Loan Agreement be executed and delivered and that the funding of the Project take place by executing and delivering the Loan Agreement; and

WHEREAS, there have been presented to the Governing Body and there presently are on file with the City Clerk this Ordinance and the form of the Loan Agreement, which is incorporated by reference as Attachment A, and considered to be a part hereof; and

WHEREAS, the Loan Agreement shall not constitute a general obligation of the Borrower, the Water Trust Board or the NMFA or a debt or pledge of the full faith and credit of the Borrower, the Water Trust Board, the NMFA or the State; and

WHEREAS, the Governing Body hereby determines that the Additional Funding Amount is now available to the Borrower to complete the Project; and

WHEREAS, the Borrower has met or will meet prior to the first disbursement of any portion of the Loan Amount, the Conditions and readiness to proceed requirements established for the portion of the Loan Amount disbursed or caused to be disbursed by the NMFA, including but not limited to the requirements of Executive Order 2013-006; and

WHEREAS, all required authorizations, consents and approvals in connection with (i) the use of the Loan Amount for the purposes described, and according to the restrictions set forth, in the Loan Agreement; (ii) the availability of other moneys necessary and sufficient, together with the Loan Amount, to complete the Project; and (iii) the authorization, execution and delivery of the Loan Agreement which are required to have been obtained by the date of this Ordinance, have been obtained or are reasonably expected to be obtained.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE, NEW MEXICO:

Section 1. Definitions. As used in this Ordinance, the following terms shall, for all purposes, have the meanings herein specified, unless the context clearly requires otherwise (such

meanings to be equally applicable to both the singular and the plural forms of the terms defined); and, any term not defined herein shall have the definition given it by the Loan Agreement:

"ACH Authorization" means the authorization for direct payment to the NMFA by ACH made by the Borrower on the form required by the bank or other entity at which the account is held, from which the Pledged Revenues will be paid. "Act" means the general laws of the State, particularly the Water Project Finance Act, NMSA 1978, §§ 72-4A-1 through 72-4A-11, and enactments of the Governing Body relating to the Loan Agreement, including this Ordinance, all as amended and supplemented.

"Additional Funding Amount" means the amount to be provided by the Borrower which includes the total value of the Soft Match or Hard Match (each as defined in Section 4.2 of the Policies) which, in combination with the Loan Amount and other moneys available to the Borrower, is sufficient to complete the Project and to provide matching funds required to complete the Project. The Additional Funding Amount is $3,440,053.

"Administrative Fee" or "Administrative Fee Component" means an amount equal to one-quarter of one percent (0.25%) per annum of the unpaid principal balance of the Loan Amount, taking into account both payments made by the Borrower and hardship waivers of payments granted to the Borrower pursuant to Section 5.2(a)(i) of the LoanAgreement.

"Authorized Officers" means any one or more of the Mayor, Mayor Pro Tem, City Manager and City Clerk of the Borrower.

"Board Rules" means Review and Eligibility of Proposed Water Projects, New Mexico Water Trust Board, 19.25.10 NMAC.

"Borrower" means the City of Santa Fe, New Mexico.

"Closing Date" means the date of execution and delivery of the Loan Agreement, by the Borrower and the NMFA.

"Completion Date" means the date of final payment of the cost of the Project.

"Conditions" has the meaning given to that term in the Loan Agreement.

"Eligible Items" means eligible Project costs for which grants and loans may be made pursuant to NMSA 1978, § 72-4A-7(C), as amended, of the Act, the Board Rules and applicable Policies, and includes, without limitation, Eligible Legal Costs.

"Eligible Legal Costs" has the meaning given to that term in the Loan Agreement.

"NMFA" means the New Mexico Finance Authority.

"Generally Accepted Accounting Principles" means the officially established accounting principles applicable to the Borrower consisting of the statements, determinations and other official pronouncements of the Government Accounting Standards Board, Financial Accounting Standards Board, Federal Accounting Standards Board or other principle-setting body acceptable to the Lender establishing accounting principles applicable to the Borrower.

"Governing Body" means the duly organized City Council and the mayor of the Borrower, or any successor governing body of the Borrower.

"Gross Revenues" has the meaning assigned to such term in Ordinance 2016-19 of the Borrower (the "Master Utility Ordinance").

"Herein," "hereby," "hereunder," "hereof," "hereinabove" and "hereafter" refer to this entire Ordinance and not solely to the particular section or paragraph of this Ordinance in which such word is used.

"Loan" or "Loan Amount" means the amount provided to the Borrower as a loan pursuant to the Loan Agreement for the purpose of funding the Project, in the maximum amount of $17,000,000.

"Loan" or "Loan Amount" means the amount borrowed by the Borrower as the Loan Amount pursuant to the Loan Agreement for the purpose of funding the Project and shall not equal more than $17,000,000.

"Loan Agreement" means the Water Project Fund Loan Agreement entered into by and

between the Borrower and the NMFA as authorized by this Ordinance.

"Net Revenues" means the Gross Revenues of the System minus Operation and Maintenance Expenses.

"NMAC" means the New Mexico Administrative Code.

"NMSA 1978" means the New Mexico Statutes Annotated, 1978 Compilation, as amended and supplemented from time to time.

"Operation and Maintenance Expenses" means all reasonable and necessary current expenses of the System, for any particular Fiscal Year or period to which such term is applicable, paid or accrued, related to operating, maintaining and repairing the System, including, without limiting the generality of the foregoing:

(a) legal and overhead expenses of the various City departments directly related and reasonably allocable to the administration of the System;

(b) insurance premiums for the System, including, without limitation, premiums for property insurance, public liability insurance and workmen's compensation insurance, whether or not self-funded;

(c) premiums, expenses and other costs (other than required reimbursements of insurance proceeds and other amounts advanced to pay Debt Service Requirements on System Bonds) for Credit Facilities;

(d) Expenses other than Expenses paid from the proceeds of System Bonds;

(e) the costs of audits of the books and accounts of the System;

(f) amounts required to be deposited in the Rebate Fund;

(g) salaries, administrative expenses, labor costs, surety bonds and the cost of water, materials and supplies used for or in connection with the current operation of the System; and

(h) any fees required to be paid under any operation, maintenance and/or management agreement with respect to the System.

Operation and Maintenance Expenses do not include any allowance for depreciation, payments in lieu of taxes, franchise fees payable or other transfers to the City's general fund, liabilities incurred by the City as a result of its negligence or other misconduct in the operation of the System, any charges for the accumulation of reserves for capital replacements or any Operation and Maintenance Expenses payable from moneys other than Gross Revenues.

"Ordinance" means this Ordinance as it may be supplemented or amended from time to time.

"Pledged Revenues" means the Net Revenues of the System pledged to the payment of the Loan Amount and Administrative Fee pursuant to this Ordinance and the Loan Agreement and described in the Term Sheet.

"Project" means the project(s) described on the Term Sheet.

"Project Account" means the book account established by the NMFA in the name of the Borrower for purposes of tracking expenditure of the Loan Amount by the Borrower to pay for the costs of the Project, as shown in the Term Sheet, which account shall be kept separate and apart from all other accounts of the NMFA.

"Qualifying Water Project" means a water project for (i) storage, conveyance or delivery of water to end-users; (ii) implementation of the federal Endangered Species Act of 1973 collaborative programs; (iii) wastewater conveyance and treatment; (iv) restoration and management of watersheds; (v) flood prevention or (vi) water conservation or recycling, treatment or reuse of water as provided by law; and which has been approved by the state legislature pursuant to NMSA 1978, § 72-4A-9(B), as amended.

"State" means the State of New Mexico.

"System" means the municipally owned public utility designated as the Borrower water utility system consisting of all properties, real, personal, mixed or otherwise, now owned or hereafter acquired by the Borrower through purchase, condemnation, construction or otherwise,

including all expansions, extensions, enlargements and improvements of or to the water utility system, and used in connection therewith or relating thereto, and any other related activity or enterprise of the Borrower designated by the Governing Body as part of the water utility system, whether situated within or without the limits of the Borrower.

"Term Sheet" means Exhibit "A" attached to the Loan Agreement.

"Useful Life" means the structural and material design life of the Project, including planning and design features, as required by the Act and the Board Rules.

"Water Project Fund" means the fund of the same name created pursuant to the Act and held and administered by the NMFA.

"Water Trust Board" or "WTB" means the water trust board created and established pursuant to the Act.

Section 2. Ratification. All action heretofore taken (not inconsistent with the provisions of this Ordinance) by the Borrower and officers of the Borrower directed toward the acquisition and completion of the Project, the pledge of the Pledged Revenues to payment of amounts due under the Loan Agreement, and the execution and delivery of the Loan Agreement shall be, and the same hereby is, ratified, approved and confirmed.

Section 3. Authorization of the Project and the Loan Agreement. The acquisition and completion of the Project and the method of funding the Project through execution and delivery of the Loan Agreement and the other documents related to the transaction are hereby authorized and ordered. The Project is for the benefit and use of the Borrower and the public whom it serves.

Section 4. Findings. The Governing Body hereby declares that it has considered all relevant information and data and hereby makes the following findings:

A. The Project is necessary to meet the needs of the Borrower and the public whom it serves.

B. Moneys available and on hand for the Project from all sources other than

Moneys available and on hand for the Project from all sources other than the Loan are not sufficient to defray the cost of acquiring and completing the Project but, together with the Loan Amount, are sufficient to complete the Project.

C. The Project and the execution and delivery of the Loan Agreement pursuant to the Act to provide funds for the financing of the Project are necessary, convenient and in furtherance of the governmental purposes of the Borrower, and in the interest of the public health, safety, and welfare of the constituent public served by the Borrower.

D. The Borrower will acquire and complete the Project with the proceeds of the Loan, the Additional Funding Amount and other amounts available to the Borrower, and except as otherwise expressly provided by the Loan Agreement, will utilize, operate and maintain the Project for the duration of its Useful Life, as required by NMSA 1978, § 72-4A-7(A)(1), as amended.

E. Together with the Loan Amount, and other amounts available to the Borrower, the Additional Funding Amount is now available to the Borrower, and in combination with the Loan Amount, will be sufficient to complete the Project.

F. The NMFA shall maintain on behalf of the Borrower a separate Project Account as a book account only on behalf of the Borrower and financial records in accordance with Generally Accepted Accounting Principles during the construction or implementation of the Project.

G. The Borrower has acquired title to or easements or rights of way on the real property upon which the Project is being constructed or located as provided in the Loan Agreement.

Section 5. Loan Agreement—Authorization and Detail.

A. Authorization. This Ordinance has been adopted by the affirmative vote of at least a three-fourths majority of the Governing Body. For the purpose of protecting the public

health, conserving the property, and protecting the general welfare and prosperity of the constituent public served by the Borrower and acquiring and completing the Project, it is hereby declared necessary that the Borrower execute and deliver the Loan Agreement evidencing the Borrower acceptance of the Loan Amount of $17,000,000 to be utilized solely for Eligible Items necessary to complete the Project, and solely in the manner and according to the restrictions set forth in the Loan Agreement, the execution and delivery of which is hereby authorized. The Borrower shall use the Loan Amount to finance the acquisition and completion of the Project.

B. Detail. The Loan Agreement shall be in substantially the form of the Loan Agreement presented at the meeting of the Governing Body at which this Ordinance was adopted. The Loan shall be in the maximum principal amount of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000. Interest on the Loan Amount shall be zero percent (0%) per annum of the unpaid principal balance of the Loan Amount, and the Administrative Fee shall be one-quarter of one percent (0.25%) per annum of the unpaid principal balance of the Loan Amount, taking into account both payments made by the Borrower and hardship waivers of payments granted to the Borrower.

Section 6. Approval of Loan Agreement. The form of the Loan Agreement as presented at the meeting of the Governing Body at which this Ordinance was adopted, is hereby approved. Authorized Officers are hereby individually authorized to execute, acknowledge and deliver the Loan Agreement with such changes, insertions and omissions as may be approved by such individual Authorized Officers, and the City Clerk is hereby authorized to attest the Loan Agreement. The execution of the Loan Agreement shall be conclusive evidence of such approval.

Section 7. Security. The Loan Amount and Administrative Fee shall be solely secured by the pledge of the Pledged Revenues herein made and as set forth in the Loan Agreement.

Section 8. Disposition of Proceeds: Completion of the Project.

A. Project Account. The Borrower hereby consents to the creation of the

Project Account by the NMFA. Until the Completion Date, the amount of the Loan credited to the Project Account shall be used and paid out solely for Eligible Items necessary to acquire and complete the Project in compliance with applicable law and the provisions of the Loan Agreement.

B. Completion of the Project. The Borrower shall proceed to complete the Project with all due diligence. Upon the Completion Date, the Borrower shall execute a certificate stating that completion of and payment for the Project has been completed. Following the Completion Date or the earlier expiration of the time allowed for disbursement of Loan funds as provided in the Loan Agreement, any balance remaining in the Project Account shall be transferred and deposited into the Water Project Fund or otherwise distributed as provided in the Loan Agreement.

C. NMFA Not Responsible. Borrower shall apply the funds derived from the Loan Agreement as provided therein, and in particular Article VII of the Loan Agreement. The NMFA shall not in any manner be responsible for the application or disposal by the Borrower or by its officers of the funds derived from the Loan Agreement or of any other funds held by or made available to the Borrower in connection with the Project. NMFA shall not be liable for the refusal or failure of any other agency of the State to transfer any portion of the Loan Amount in its possession, custody and control to the NMFA for disbursement to the Borrower, or to honor any request for such transfer or disbursement of the Loan Amount.

Section 9. Payment of Loan Amount and ACH Authorization. Pursuant to the Loan Agreement, the Borrower shall pay the Loan Amount and Administrative Fee directly from the Pledged Revenues to the NMFA as provided in the Loan Agreement in an amount sufficient to pay principal and other amounts due under the Loan Agreement and to cure any deficiencies in the payment of the Loan Amount or other amounts due under the Loan Agreement. The Borrower hereby consents to the creation of an ACH authorization agreement for the purpose of making regular electronic payments of the Loan Amount and Administrative Fee, if at any applicable point

in time during the Agreement Term the Borrower desires to use such payment method for the purposes of the Loan.

Section 10. Lien on Pledged Revenues. Pursuant to the Loan Agreement, the Loan Agreement constitutes an irrevocable lien (but not an exclusive lien) on the Pledged Revenues subordinate to the lien thereon of all other liens thereon present and future, except that the lien on the Pledged Revenues of any future loans from the Lender to the Borrower pursuant to the Water Project Finance Act or the Colonias Infrastructure Act, shall be on parity with the lien of the Loan Agreement authorized by this Ordinance.

Section 11. Authorized Officers. Authorized Officers are hereby individually authorized and directed to execute and deliver any and all papers, instruments, opinions, affidavits and other documents and to do and cause to be done any and all acts and things necessary or proper for carrying out this Ordinance, the Loan Agreement and all other transactions contemplated hereby and thereby. Authorized Officers are hereby individually authorized to do all acts and things required of them by this Ordinance and the Loan Agreement for the full, punctual and complete performance of all the terms, covenants and agreements contained in this Ordinance and the Loan Agreement including but not limited to, the execution and delivery of closing documents in connection with the execution and delivery of the Loan Agreement.

Section 12. Amendment of Ordinance. This Ordinance after its adoption may be amended without receipt by the Borrower of any additional consideration. On and after the Closing Date, this Ordinance may be amended without receipt by the Borrower of any additional consideration, but only with the prior written consent of the NMFA.

Section 13. Ordinance Irrepealable. After the Loan Agreement has been executed and delivered, this Ordinance shall be and remain irrepealable until all obligations due under the Loan Agreement shall be fully discharged, as herein provided.

Section 14. Severability Clause. If any section, paragraph, clause or provision of this

Ordinance shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause or provision shall not affect any of the remaining provisions of this Ordinance.

Section 15. Repealer Clause. All bylaws, orders, ordinances, resolutions, or parts thereof, inconsistent herewith are hereby repealed to the extent only of such inconsistency. This repealer shall not be construed to revive any bylaw, order, resolution or ordinance, or part thereof, heretofore repealed.

Section 16. Effective Date. Upon due adoption of this Ordinance, it shall be recorded in the book of the Borrower kept for that purpose, authenticated by the signatures of the Mayor and City Clerk of the Borrower, and this Ordinance shall be in full force and effect thereafter, in accordance with law; provided, however, that if recording is not required for the effectiveness of this Ordinance, this Ordinance shall be effective upon adoption of this Ordinance by the Governing Body.

Section 17. General Summary for Publication. This ordinance shall be published consistently with SFCC 1987, Section 2-2.4.

and the

CITY OF SANTA FE,
New Mexico

DRINKING WATER STATE REVOLVING LOAN FUND
LOAN AND SUBSIDY AGREEMENT

This LOAN AND SUBSIDY AGREEMENT (the "Loan Agreement"), dated July 18, 2025, is entered into by and between the **NEW MEXICO FINANCE AUTHORITY** (the "NMFA"), and the **CITY OF SANTA FE** (the "Governmental Unit"), a municipality duly organized and existing under the laws of the State of New Mexico (the "State").

WITNESSETH:

Capitalized terms used in the following recitals of this Loan Agreement and not defined in the first Paragraph above or in these recitals shall have the same meaning as defined in Article I of this Loan Agreement, unless the context requires otherwise.

WHEREAS, the NMFA is authorized, pursuant to the Drinking Water State Revolving Loan Fund Act, NMSA 1978, §§ 6-21A-1 through 6-21A-9, as amended (the "DWSRLF Act") to implement a program to permit qualified local authorities, such as the Governmental Unit, to enter into agreements with the NMFA to provide financial assistance in the acquisition, design, construction, improvement, expansion, repair and rehabilitation of drinking water supply facilities as authorized by the Safe Drinking Water Act of 1974 ("SDWA"); and

WHEREAS, the DWSRLF Act was adopted pursuant to the SDWA which authorizes the United States Environmental Protection Agency ("EPA") to set national based standards for drinking water and was originally passed by Congress in 1974 and amended in 1986, 1996, 2018 and 2021 with the passage of the Bipartisan Infrastructure Law signed into law on November 15, 2021 ("BIL"); and

WHEREAS, the BIL, also known as the Infrastructure Investment and Jobs Act was implemented with the purpose, among others, of expanding access to clean drinking water throughout the United States of America; and

WHEREAS, the Governmental Unit is a municipality organized and existing under the general laws of the State, specifically the home rule charter of the Governmental Unit adopted under Article X Section 6 of the New Mexico Constitution and the Municipal Code, NMSA 1978, §§3-15-1 through 3-15-16, all as amended, and is a qualified local authority under the DWSRLF Act; and

WHEREAS, the Governmental Unit is authorized by the laws of the State, and in particular NMSA 1978, §§ 3-31-1 through 3-31-12, to enter into this Loan Agreement and accept a loan for the purpose of financing the Project; and

WHEREAS, a portion of the funds made available under this Loan Agreement pursuant to the DWSRLF Act and the SDWA, may be forgiven and, if forgiven, will not be required to be repaid; and

WHEREAS, the Governing Body of the Governmental Unit has determined that it is in the best interests of the Governmental Unit and the public it serves that the Governmental Unit enter into this Loan Agreement with the NMFA and accept a loan and subsidy from the NMFA to finance the costs of the Project, as more fully described on the Term Sheet attached hereto as Exhibit "A"; and

WHEREAS, the Project appears on the Drinking Water Fundable Priority List; and

WHEREAS, the Project has been planned and authorized in conformity with the Intended Use Plan; and

WHEREAS the NMFA will disburse the proceeds of the Loan for construction after written determination by the NMFA, the New Mexico Environment Department (the "Department"), or other appropriate agency or entity on behalf of the NMFA (pursuant to an agreement between such agency or entity and the NMFA) that the Governmental Unit has complied with EPA's guidelines applicable to the Project and with the requirements of the laws and regulations of the State governing the construction and operation of drinking water systems. Upon written determination of compliance, the NMFA, the Department or other appropriate agency or entity will approve (1) the engineer and engineering solicitation process for the Project; (2) the engineering contract for the Project; (3) plans and specifications pursuant to 42 U.S.C. Section 300j-12; and (4) bids for the acquisition and completion of the Project; and

WHEREAS, a portion of the funds made available under this Loan Agreement pursuant to the DWSRLF Act and the SDWA are federal funds categorized as CFDA 66.468; and

WHEREAS, pursuant to information provided by the Governmental Unit and environmental review by applicable State and federal agencies, and in accordance with 40 C.F.R. Sections 6.204, 6.300(c)(1), and 6.301(f), and pursuant to the environmental review process of the State, the NMFA will determine in writing prior to disbursement of any proceeds of the Loan for construction if the Project meets the requirements for a Categorical Exclusion as defined in the State Environmental Review Process (SERP) for the Drinking Water State Revolving Loan Fund; and

WHEREAS, pursuant to 42 U.S.C. 300j-12(a)(3), the New Mexico Environment Department Drinking Water Bureau has determined that the Governmental Unit has sufficient technical, managerial and financial capability to operate the Project for its useful life and ensure compliance with the requirements of the SDWA.

NOW, THEREFORE, for and in consideration of the premises and the mutual promises and covenants herein contained, the NMFA and the Governmental Unit agree:

ARTICLE I

DEFINITIONS

Capitalized terms defined in this Article I, for all purposes, shall have the meaning specified in this Article I wherever used in this Loan Agreement, including the foregoing recitals, unless the context clearly requires otherwise (such meanings to be equally applicable to both the singular and the plural forms of the terms defined). Capitalized terms defined in the foregoing recitals, if not defined in this Article I, shall have the same meaning as therein stated when used in this Loan Agreement, unless the context clearly requires otherwise. Capitalized terms used and not defined in this Loan Agreement shall have the meaning given to each of those capitalized terms in the Master Ordinance.

"Administrative Fee" or "Administrative Fee Component" means the 0.25% annual fee payable to the NMFA as 0.25% of the Aggregate Repayable Disbursements then outstanding as a part of each Loan Agreement Payment for the costs of originating and servicing the Loan.

"Aggregate Disbursements" means, at any time after the Closing Date, the sum of all Disbursements.

"Aggregate Forgiven Disbursements" means the amount of subsidy provided in the form of principal forgiveness, and shall at any time after the Closing Date be equal to the product of the subsidy times the Aggregate Disbursements, up to the Maximum Forgiven Principal Amount.

"Aggregate Program Amount" means, with respect to this Loan Agreement, the sum of the Aggregate Repayable Disbursements and the Aggregate Forgiven Disbursements up to the Maximum Principal Amount.

"Aggregate Repayable Disbursements" means, at any time after the Closing Date, the Aggregate Disbursements less the Aggregate Forgiven Disbursements.

"Approved Requisition" means a requisition in the form of Exhibit "C" to this Loan Agreement, together with the required supporting documentation set out in Exhibit "C" submitted to and approved by the NMFA pursuant to Section 4.2 of this Loan Agreement.

"Authorized Officers" means, with respect to the Governmental Unit, the Mayor, City Manager, Finance Director, and City Clerk thereof; and with respect to the NMFA, any one or more of the Chairperson, Vice-Chairperson, Secretary and Chief Executive Officer, and any other officer or employee of the NMFA designated in writing by an Authorized Officer of the NMFA.

"Bonds" means drinking water state revolving loan fund revenue bonds, if any, issued hereafter by the NMFA and specifically related to this Loan Agreement and the Loan Agreement Payments.

"Closing Date" means the date of execution and delivery of this Loan Agreement as shown on the Term Sheet.

"Debt Service Account" means the debt service account established in the name of the Governmental Unit and administered by the NMFA to pay the Loan Agreement Payments under this Loan Agreement as the same become due.

"Debt Service Requirements" for any given period, means the sum of: (a) the amount required to pay the interest becoming due on the applicable System Bonds, during that period or to make reimbursements for payments of interest; and (b) the amount required to pay the principal or Accreted Value becoming due on the applicable System Bonds during that period, whether upon maturity or the Accreted Term Date. For purposes of calculating the maximum annual Debt Service Requirements, assumption set forth in the Master Ordinance applicable to the calculation of Debt Service Requirements shall be used.

"Department" means the New Mexico Environment Department.

"Disbursement" means an amount caused to be paid by the NMFA for an Approved Requisition for costs of the Project, calculated on the basis of the amount of such Approved Requisition.

"Drinking Water Fundable Priority List" means the list of drinking water projects compiled by the Department pursuant to the Memorandum of Understanding and the Intended Use Plan.

"DWSRLF Act" means the general laws of the State, particularly the Drinking Water State Revolving Loan Fund Act, NMSA 1978, §§ 6-21A-1 through 6-21A-9, the home rule charter of the Governmental Unit adopted under Article X Section 6 of the New Mexico Constitution and the Municipal Code, NMSA 1978, §§ 3-15-1 through 3-15-16, all as amended, and enactments of the Governing Body relating to this Loan Agreement including the Ordinance.

"Drinking Water State Revolving Loan Fund" means the drinking water state revolving loan fund established by the DWSRLF Act.

"Environmental Protection Agency" or "EPA" means the United States Environmental Protection Agency.

"Event of Default" means one or more events of default as defined in Section 10.1 of this Loan Agreement.

"Final Loan Agreement Payment Schedule" means the schedule of Loan Agreement Payments due on this Loan Agreement following the Final Requisition, as determined on the basis of the Aggregate Repayable Disbursements.

"Final Requisition" means the final requisition of moneys to be submitted by the Governmental Unit, which shall be submitted by the Governmental Unit on or before the date provided for in Section 4.1(b) of this Loan Agreement.

"NMFA Act" means NMSA 1978, §§ 6-21-1 through 6-21-31, as amended.

"Fiscal Year" means the period commencing on July 1 of each calendar year and ending on the last day of June of the next succeeding calendar year, or any other twelve-month period which any appropriate authority may hereafter establish for the Governmental Unit as its fiscal year.

"Generally Accepted Accounting Principles" means the officially established accounting principles applicable to the Governmental Unit consisting of the statements, determinations and other official pronouncements of the Government Accounting Standards Board, Financial Accounting Standards Board, Federal Accounting Standards Board or other principle-setting body acceptable to the NMFA establishing accounting principles applicable to the Governmental Unit.

"Governing Body" means the duly organized City Council of the Governmental Unit, or any successor governing body of the Governmental Unit.

"Gross Revenues" means all income and revenues directly or indirectly derived by the Governmental Unit from the operation and use of the System, or any part of the System, and includes, without limitation, all revenues received by the Governmental Unit, or any municipal corporation or agency succeeding to the rights of the Governmental Unit, from the System and from the sale and use of water or water facilities furnished to the inhabitants in the Service Area. Such term also includes:

(a) All income derived from the investment of any money in the Acquisition Fund, Income Fund, Debt Service Fund, Reserve Fund and Rate Stabilization Fund and from surplus Net Revenues;

(b) Money released from the Rebate Fund to the Governmental Unit;

(c) Money released from the Rate Stabilization Fund to the extent that the amount released is used to pay Operation and Maintenance Expenses or Debt Service Requirements on System Bonds in the year released;

(d) Property insurance proceeds which are not necessary to restore or replace the property lost or damaged and the proceeds of the sale or other disposition of any part of the System; and

(e) Such other amounts that may be designated as Gross Revenues in a Supplemental Ordinance.

Gross Revenues do not include:

(a) Any money received as (i) grants or gifts from the United States of America, the State or other sources or (ii) the proceeds of any charge or tax intended as a replacement therefor or other capital contributions from any source which are restricted as to use;

(b) Gross receipts taxes, other taxes and/or fees collected by the Governmental Unit and remitted to other governmental agencies; and

(c) Condemnation proceeds or the proceeds of any insurance policy, except for (d) above and any insurance proceeds derived in respect of loss of use or business interruption.

"Herein," "hereby," "hereunder," "hereof," "hereinabove" and "hereafter" refer to this entire Loan Agreement and not solely to the particular section or paragraph of this Loan Agreement in which such word is used.

"Independent Accountant" means (i) an accountant employed by the State and under the supervision of the State Auditor, or (ii) any certified public accountant or firm of such accountants duly licensed to practice and practicing as such under the laws of the State, appointed and paid by the Governmental Unit who (a) is, in fact, independent and not under the domination of the Governmental Unit, (b) does not have any substantial interest, direct or indirect, with the Governmental Unit, and (c) is not connected with the Governmental Unit as an officer or employee of the Governmental Unit, but who may be regularly retained to make annual or similar audits of the books or records of the Governmental Unit.

"Intended Use Plan" means the current plan prepared by the NMFA and the Department and approved by the Environmental Protection Agency pursuant to 42 U.S.C. Section 300j-12(b) and 40 CFR §35.3555 which establish criteria for extending drinking water improvements financial assistance to qualifying public drinking water utility systems.

"Interest Component" means the portion of each Loan Agreement Payment paid as interest accruing on the Aggregate Repayable Disbursements then outstanding, calculated from the date of each Disbursement.

"Interest Rate" means the rate of interest on this Loan Agreement, which includes the Administrative Fee, as shown on the Term Sheet.

"Interim Period" means the period no greater than twenty-seven (27) months, or a longer period as may be approved by the NMFA as provided in Section 4.1(b) of this Loan Agreement, beginning on the Closing Date, during which the NMFA will disburse moneys to the Governmental Unit to pay costs of the Project, unless extended pursuant to Section 4.1(b) of this Loan Agreement.

"Interim Loan Agreement Payment Schedule" means the anticipated schedule of Loan Agreement Payments due on this Loan Agreement following the Final Requisition, assuming disbursement of the entire Aggregate Program Amount within twenty-seven (27) months of the Closing Date. The Interim Loan Agreement Payment Schedule is attached hereto as Exhibit "B".

"Loan" means the funds to be loaned to the Governmental Unit by the NMFA pursuant to this Loan Agreement, up to the Maximum Principal Amount.

"Loan Agreement" means this loan and subsidy agreement and any amendments or supplements hereto, including the exhibits attached to this loan and subsidy agreement.

"Loan Agreement Payment" means, collectively, the Maximum Repayable Principal Amount, the Interest Component and the Administrative Fee Component to be paid by the

Governmental Unit as payment on the Aggregate Repayable Disbursements under this Loan Agreement, as shown on Exhibit "B" hereto.

"Loan Agreement Payment Date" means each date a Loan Agreement payment is due on this Loan Agreement as shown on the Interim Loan Agreement Payment Schedule, attached hereto as Exhibit "B" or in the Final Loan Agreement Payment Schedule.

"Loan Agreement Term" means the term of this Loan Agreement as provided under Article III of this Loan Agreement.

"Master Ordinance" means the Governmental Unit's Ordinance No. 2016-19, adopted May 11, 2016, as amended and supplemented from time to time.

"Maximum Annual Debt Service" means the Maximum Repayable Principal Amount and Interest due on all outstanding Senior and Parity Obligations of the Governmental Unit

"Maximum Forgiven Principal Amount" means the maximum amount of loan subsidy available in the form of principal forgiveness to be applied proportionally at the time of each Disbursement to the Governmental Unit, up to fifty percent (50%) of the Maximum Principal Amount. The Maximum Forgiven Principal Amount is eight million five hundred thousand dollars ($8,500,000).

"Maximum Principal Amount" means seventeen million dollars ($17,000,000).

"Maximum Repayable Principal Amount" means the maximum amount of Aggregate Repayable Disbursements made to the Governmental Unit pursuant to this Loan Agreement. The Maximum Repayable Principal Amount is eight million five hundred thousand dollars ($8,500,000).

"Memorandum of Understanding" means the current memorandum of understanding by and between the NMFA and the Department pursuant to the DWSRLF Act describing and allocating duties and responsibilities in connection with the Drinking Water State Revolving Loan Fund program.

"Net Revenues" means the Gross Revenues of the System minus Operation and Maintenance Expenses, indirect charges, amounts expended for capital replacements and repairs, required set asides for debt and replacement requirements, and any other payments from the Gross Revenues reasonably required for operation of the System.

"NMSA 1978" means the New Mexico Statutes Annotated, 1978 Compilation, as amended and supplemented from time to time.

"Operating Agreement" means the operating agreement entered into between the NMFA and the Environmental Protection Agency, Region 6, for the Drinking Water State Revolving Loan Fund program.

"Operation and Maintenance Expenses" means all reasonable and necessary current expenses of the System, for any particular Fiscal Year or period to which such term is applicable, paid or accrued, related to operating, maintaining and repairing the System, including, without limiting the generality of the foregoing:

(a) Legal and overhead expenses of the Governmental Unit directly related and reasonably allocable to the administration of the System;

(b) Insurance premiums for the System, including, without limitation, premiums for property insurance, public liability insurance and workmen's compensation insurance, whether or not self-funded;

(c) Premiums, expenses and other costs (other than required reimbursements of insurance proceeds and other amounts advanced to pay debt service requirements on System Bonds) for credit facilities;

(d) Any expenses described in this definition other than expenses paid from the proceeds of System Bonds;

(e) The costs of audits of the books and accounts of the System;

(f) Amounts required to be deposited in any rebate fund;

(g) Salaries, administrative expenses, labor costs, surety bonds and the cost of water, materials and supplies used for or in connection with the current operation of the System; and

(h) Any fees required to be paid under any operation, maintenance and/or management agreement with respect to the System.

Operation and Maintenance Expenses do not include any allowance for depreciation, payments in lieu of taxes, franchise fees payable or other transfers to the Governmental Unit's general fund, liabilities incurred by the Governmental Unit as a result of its negligence or other misconduct in the operation of the System, any charges for the accumulation of reserves for capital replacements or any Operation and Maintenance Expenses payable from moneys other than Gross Revenues.

"Ordinance" means Ordinance No. 2025-_____ adopted by the Governing Body of the Governmental Unit on June 11, 2025, approving this Loan Agreement and pledging the Pledged Revenues to the payment of the Loan Agreement Payments as shown on the Term Sheet, as supplemented from time to time.

"Permitted Investments" means securities which are at the time legal investments of the Governmental Unit for the money to be invested, as applicable, including but not limited to the following if permitted by law: (i) securities that are issued by the United States government or by its agencies or instrumentalities and that are either direct obligations of the United States, the federal home loan mortgage association, the federal national mortgage association, the federal

farm credit bank, federal home loan banks or the student loan marketing association or that are backed by the full faith and credit of the United States government; (ii) negotiable securities of the State; (iii) money market funds which invest solely in obligations described in clause (i) above which are rated in the highest rating category by Moody's Investors Service, Inc. or S & P Global Ratings; and (iv) the State Treasurer's short-term investment fund created pursuant to NMSA 1978, § 6-10-10.1, as amended, and operated, maintained and invested by the office of the State Treasurer.

"Pledged Revenues" means the Net Revenues of the Governmental Unit pledged to the payment of the Loan Agreement Payments by the Ordinance and this Loan Agreement and described in the Term Sheet.

"Principal Component" means the portion of each Loan Agreement Payment paid as principal on this Loan Agreement, based upon the Aggregate Repayable Disbursements, as shown on Exhibit "B" attached to this Loan Agreement.

"Project" means the project(s) described on the Term Sheet.

"Safe Drinking Water Act" or "SDWA" means 42 U.S.C. §§ 300f et seq.

"Senior Obligations" means any bonds or other obligations of the Governmental Unit now outstanding or hereafter issued or incurred, payable from or secured by a pledge of the Pledged Revenues and issued with a lien on the Pledged Revenues superior to the lien created by this Loan Agreement, including any such obligations shown on the Term Sheet.

"Service Area" means the area served by the System, whether situated within or without the limits of the Governmental Unit.

"State Environmental Review Process" or "SERP" means the environmental review process adopted by the NMFA, as required by and approved by the Environmental Protection Agency, pursuant to the Operating Agreement.

"Subordinate Parity Obligations" means any bonds or obligations of the Governmental Unit now outstanding or hereafter issued or incurred with a lien on the Pledged Revenues on parity with this Loan Agreement and subordinate to any outstanding Senior Obligations having a superior lien on the Pledged Revenues, including any such obligations shown on the Term Sheet.

"Super Subordinate Obligations" means any bonds or other obligations of the Governmental Unit now outstanding or hereafter issued or incurred with a lien on the Pledged Revenues subordinate to the lien created by this Loan Agreement and subordinate to any other outstanding Senior Obligation and Subordinate Parity Obligations having a lien on the Pledged Revenues, including any such obligations shown on the Term Sheet.

"System" means the water utility system operated pursuant to the Governmental Unit's Code of Ordinances Chapter XXV, as amended from time to time, owned, operated and maintained by the Governmental Unit, and of which the Project, when completed, will form part. The System

consists of all properties, real, personal, mixed or otherwise, now owned or hereafter acquired by the Governmental Unit through purchase, condemnation, construction or otherwise, including all expansions, extensions, enlargements and improvements of or to the water utility system, and used in connection therewith or relating thereto, and any other related activity or enterprise of the Governmental Unit designated by the Governing Body as part of the water utility system, whether situated within or without the limits of the Governmental Unit.

"System Bonds" means any bonds and other similar indebtedness payable solely or primarily from the Pledged Revenues, including this Loan Agreement, and any Senior Obligations, Subordinate Parity Obligations and Super Subordinate Obligations.

"Term Sheet" means Exhibit "A" attached to this Loan Agreement.

"Unrequisitioned Principal Amount" means the amount, if any, by which the Maximum Principal Amount exceeds the Aggregate Disbursements at the time the Governmental Unit submits the certificate of completion required pursuant to Section 6.3 of this Loan Agreement.

ARTICLE II

REPRESENTATIONS, COVENANTS AND WARRANTIES

Section 2.1 Representations, Covenants and Warranties of the Governmental Unit. The Governmental Unit represents, covenants and warrants as follows:

(a) Binding Nature of Covenants; Enforceability. All representations, covenants, stipulations, obligations and agreements of the Governmental Unit contained in this Loan Agreement shall be deemed to be the representations, covenants, stipulations, obligations and agreements of the Governmental Unit to the full extent authorized or permitted by law, and such representations, covenants, stipulations, obligations and agreements shall be binding upon the Governmental Unit and its successors and enforceable in accordance with their terms, and upon any board or body to which any powers or duties affecting such representations, covenants, stipulations, obligations and agreements shall be transferred by or in accordance with law. Except as otherwise provided in this Loan Agreement, all rights, powers and privileges conferred and duties and liabilities imposed upon the Governmental Unit by the provisions of this Loan Agreement and the Ordinance shall be exercised or performed by the Governmental Unit or by such members, officers, or officials of the Governmental Unit as may be required by law to exercise such powers and to perform such duties.

(b) Authorization of the Loan Agreement, and Readiness to Proceed. The Governmental Unit is a municipality, and is duly organized and existing under the statutes and laws of the State, including specifically the home rule charter of the Governmental Unit adopted under Article X Section 6 of the New Mexico Constitution and the Municipal Code, NMSA 1978, §§ 3-15-1 through 3-15-16, all as amended. The Governmental Unit is a local authority as defined in the DWSRLF Act. The Governmental Unit is authorized to enter into the transactions contemplated by this Loan Agreement and to carry out its obligations hereunder. The

Governmental Unit has duly authorized and approved the execution and delivery of this Loan Agreement and the other documents related to the transaction. The Governmental Unit has met all readiness to proceed requirements of the NMFA and has met and will continue to meet all requirements of law applicable to this Loan Agreement.

(c) Use of Loan Agreement Proceeds. The Governmental Unit shall proceed without delay in applying the Aggregate Program Amount, pursuant to Section 6.1 of this Loan Agreement to the acquisition and completion of the Project and to no other purpose, as follows:

(i) The Governmental Unit shall, within two (2) years after the Closing Date, have completed the acquisition of the Project, and shall within twenty-seven (27) months after the Closing Date have requisitioned the Aggregate Program Amount, or such portion thereof as shall be necessary to complete the Project, unless an extension is agreed to pursuant to Section 4.1(b) of this Loan Agreement.

(d) Payment of Loan Agreement Payments. The Governmental Unit meets and will continue to meet the requirements established by the NMFA to assure sufficient Pledged Revenues to operate and maintain the System for its useful life and repay the Loan. The Governmental Unit shall promptly pay Loan Agreement Payments, as specified in the Interim Loan Agreement Payment Schedule or the Final Loan Agreement Payment Schedule, as applicable, according to the true intent and meaning of this Loan Agreement. Loan Agreement Payments are payable solely from Pledged Revenues or from the proceeds of refunding bonds or other refunding obligations which the Governmental Unit may hereafter issue in its sole discretion and which are payable from Pledged Revenues; and nothing in this Loan Agreement shall be construed as obligating the Governmental Unit to pay Loan Agreement Payments from any general or other fund of the Governmental Unit other than such special funds. Nothing contained in this Loan Agreement, however, shall be construed as prohibiting the Governmental Unit in its sole and absolute discretion, from making such payments from any moneys which may be lawfully used, and which are legally available, for that purpose.

(e) Acquisition and Completion of Project; Compliance with Laws. The Project will be acquired and completed so as to comply with all applicable ordinances, resolutions and regulations, if any, and any and all applicable laws relating to the acquisition and completion of the Project and to the use of the Pledged Revenues. The Governmental Unit shall exercise its power of eminent domain, if needed to comply with this paragraph.

(f) Necessity of Project. The acquisition and completion of the Project under the terms and conditions provided for in this Loan Agreement is necessary, convenient and in furtherance of the governmental purposes of the Governmental Unit and is in the best interests of the Governmental Unit and the public it serves.

(g) Legal, Valid and Binding Obligation. The Governmental Unit has taken all required action necessary to authorize the execution and delivery of this Loan Agreement. This Loan Agreement constitutes a legal, valid and binding special obligation of the Governmental Unit enforceable in accordance with its terms.

(h) Loan Agreement Term. The Loan Agreement Term does not exceed the anticipated useful life of the Project.

(i) Use of Project. During the Loan Agreement Term, the Project will at all times be used for the purpose of benefiting the Governmental Unit and the public it serves.

(j) No Excess Loan Agreement Proceeds. The amount loaned to the Governmental Unit under this Loan Agreement as set forth on the Term Sheet does not exceed the sum of: (i) the cost of the Project; and (ii) an amount necessary to pay Expenses and related professional fees.

(k) No Breach or Default Caused by Loan Agreement. Neither the execution and delivery of this Loan Agreement and the other documents related to this transaction, nor the fulfillment of or compliance with the terms and conditions in this Loan Agreement and the other documents related to this transaction, nor the consummation of the transactions contemplated herein, conflicts with or results in a breach of terms, conditions or provisions of any restriction or any agreement or instrument to which the Governmental Unit is a party or by which the Governmental Unit is bound or any laws, ordinances, governmental rules or regulations or court or other governmental orders to which the Governmental Unit or its properties are subject, or constitutes a default under any of the foregoing.

(l) Irrevocable Enactments. While this Loan Agreement remains outstanding and unpaid, any ordinance, resolution or other enactment of the Governing Body applying the Pledged Revenues for the payment of this Loan Agreement shall be irrevocable until this Loan Agreement has been paid in full as to both principal and interest, and shall not be subject to amendment or modification in any manner which would in any way jeopardize the timely payment of Loan Agreement Payments.

(m) Outstanding and Additional Debt. Except for the Subordinate Parity Obligations and Senior Obligations described on the Term Sheet, there are currently no outstanding bonds, notes or other obligations of the Governmental Unit which are payable from and secured by a lien on the Pledged Revenues superior to or on a parity with the lien of this Loan Agreement. No additional indebtedness, bonds or notes of the Governmental Unit, payable on a parity with or on a priority ahead of the indebtedness herein authorized out of Pledged Revenues, shall be created or incurred while this Loan Agreement remains outstanding without the prior written approval of the NMFA.

(n) No Litigation. To the knowledge of the Governmental Unit after due investigation, no litigation or proceeding is pending or threatened against the Governmental Unit or any other person affecting the right of the Governmental Unit to execute or deliver this Loan Agreement and the other documents related to this transaction or to comply with its obligations under this Loan Agreement and documents related to the transaction. Neither the execution and delivery of this Loan Agreement and the other documents related to the transaction by the Governmental Unit nor compliance by the Governmental Unit with the obligations under this Loan Agreement and the other documents related to the transaction, requires the approval of any

regulatory body, or any other entity, which approval has not been obtained or which is not reasonably expected to be obtained.

(o) No Event of Default. No event has occurred and no condition exists which, upon the execution and delivery of this Loan Agreement and the other documents related to the transaction, would constitute an Event of Default on the part of the Governmental Unit under this Loan Agreement and the other documents related to the transaction.

(p) Existing Pledges; Pledged Revenues Not Budgeted. Except as described on the Term Sheet the Pledged Revenues have not been pledged or hypothecated in any manner for any purpose at the time of execution and delivery of this Loan Agreement. The portion of the Pledged Revenues necessary to pay the Loan Agreement Payments, as and when due, is not needed or budgeted to pay current or anticipated operational or other expenses of the Governmental Unit.

(q) Expected Coverage Ratio. The Pledged Revenues from the current Fiscal Year are projected to equal or exceed one hundred twenty percent (120%) and, on an ongoing basis during each year of the Loan Agreement Term are reasonably expected to equal or exceed one hundred twenty percent (120%) of the Debt Service Requirements on all Senior Obligations and all Subordinate Parity Obligations Outstanding in such Fiscal Year.

(r) Governmental Unit's Existence. The Governmental Unit will maintain its legal identity and existence so long as System Bonds remain outstanding, unless another political subdivision by operation of law succeeds to the liabilities, rights and duties of the Governmental Unit under this Loan Agreement without adversely affecting to any substantial degree the privileges and rights of the NMFA. However, the Governmental Unit may, annex or de-annex land if the Governmental Unit complies with other applicable covenants contained in the Master Ordinance.

(s) Continuing Disclosure. The Governmental Unit covenants that it shall provide continuing disclosure to the NMFA, as the NMFA may require, that shall include, but not be limited to: Project documents, annual audits, operational data required to update information in any disclosure documents used in connection with assignment or securitizing the Loan Agreement or the Loan Agreement Payments by issuance of Bonds by the NMFA, and notification of any event deemed material by the NMFA. For the purposes of this Loan Agreement, a material event shall include, without limitation, any violation of federal law, regulation, or policy which governs or applies to participants in the Drinking Water State Revolving Loan Fund program which is alleged or found by a state or federal agency of appropriate jurisdiction.

(t) Single Audit Act Requirement. The Governmental Unit acknowledges that the funding provided pursuant to this Loan Agreement is derived in large part from federal grants to the Drinking Water State Revolving Loan Fund program pursuant to the Operating Agreement. During the Loan Agreement Term, the Governmental Unit shall annually, so long as the Governmental Unit expends more or equal to the threshold amount set forth in 2 C.F.R. Section 200.501 during any one Fiscal Year, cause an audit of the books and accounts of its operations in their entirety, in accordance with § 200.514, except when it elects to have a program-specific audit conducted in accordance with 2 C.F.R. 200.501(c) to be completed by an Independent Accountant

in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. Section 7501 et seq.), and applicable regulations thereunder. The Governmental Unit shall notify the NMFA and the Drinking Water State Revolving Loan Fund program when it conducts an audit in accordance with 2 C.F.R. Section 200.501. The Governmental Unit shall provide a copy to the NMFA and the Drinking Water State Revolving Loan Fund program of such audit within 30 days of completion. The Governmental Unit will inform the Drinking Water State Revolving Loan Fund program and the NMFA of any findings and recommendations pertaining to the Drinking Water State Revolving Loan Fund contained in the audit. The Governmental Unit will also submit the audit to the Federal Audit Clearinghouse within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months of the end of the audit period pursuant to 2 CFR § 200.512. The Governmental Unit will inform the Drinking Water State Revolving Loan Fund program and NMFA that the audit has been submitted to the Federal Audit Clearinghouse and provide a copy to the Drinking Water State Revolving Loan Fund program and NMFA upon request. The audit will also be available for inspection by the NMFA Environmental Protection Agency.

(u) Construction Requirements. The Governmental Unit shall require any contractor hired by it in connection with the construction of the Project to post a performance and payment bond as provided by NMSA 1978, § 13-4-18, as amended.

Section 2.2 Protective Covenants Regarding Operation of the System.

The Governmental Unit further represents, covenants and warrants as follows:

(a) Rate Covenant.

(i) The Governmental Unit covenants that it will at all times fix rates and collect charges for each class of service rendered by the System, and to, from time to time, amend or adjust such rates so that Gross Revenues of the System shall always be sufficient to provide for the payment of expenses of administration, Operation and Maintenance Expenses, other expenses which may be necessary to preserve the System in good repair and working order, including the necessary reserves therefor and all other payments necessary to meet ongoing legal obligations to be paid at that time; and

(ii) The Governmental Unit further covenants that it will at all times fix, charge and collect such rates and charges as shall be required in order that in each Fiscal Year the Pledged Revenues shall at least equal (i) 130% of the Debt Service Requirements on all Senior Obligations outstanding in such Fiscal Year and (ii) 120% of the Debt Service Requirements on all Senior Obligations and all Subordinate Parity Obligations outstanding in such Fiscal Year.

(iii) Failure by the Governmental Unit to comply with the foregoing Rate Covenant in any Fiscal Year will not constitute an event of default under the Master Ordinance so long as the Governmental Unit, within 180 days after the end of any such Fiscal Year, adopts the schedule of rates and charges recommended or approved by a Consulting Engineer which would bring the Governmental Unit into compliance with the Rate Covenant. The Governmental Unit is also required under the Master Ordinance in each Fiscal Year to complete a review of its financial condition for the purpose of estimating whether the Net Revenues for such Fiscal Year and for the

next succeeding Fiscal Year will be sufficient to comply with the Rate Covenant set forth above. If the Governmental Unit determines that the Net Revenues may not be so sufficient, it shall forthwith cause the Consulting Engineer to make a study for the purpose of recommending a schedule of fees, rates and charges for the System which, in the opinion of the Consulting Engineer, will cause sufficient Gross Revenues to be collected in such Fiscal Year to comply with the Rate Covenant set forth above and will cause additional Gross Revenues to be collected in such Fiscal Year sufficient to eliminate the amount of any deficiency at the earliest practicable time within such Fiscal Year. The Governmental Unit shall as promptly as practicable adopt and place in effect the schedule of fees, rates and charges recommended or approved by the Consulting Engineer pursuant to the Master Ordinance. In the alternative of establishing fees, rates and charges necessary to meet the Rate Covenant set forth above, the Governmental Unit may implement reductions in Operation and Maintenance Expenses for the System in an amount sufficient to meet the Rate Covenant.

(b) Lien on Lands Serviced by the System. State law grants the Governmental Unit a lien upon each lot or parcel of land for the charges imposed for water services supplied by the System to the owner of such lot or parcel (except as otherwise provided in NMSA 1978, § 3-23---6). The Governmental Unit will cause each lien to be perfected in accordance with the provisions of NMSA 1978, §§ 3-23--6 and 3--36--1 through 3--36---5. The Governmental Unit will take all necessary steps to enforce the lien against any parcel of property the owner of which is delinquent for more than six (6) months in the payment of charges imposed for the use of the System.

(c) Levy of Charges. The Governmental Unit will promptly fix, establish and levy the rates and charges which are required by Section 2.2(a) hereof. Unless contrary to any provision of applicable law, any resolution or ordinance adopted by the Governing Body to fix, establish and levy such rates and charges shall be deemed an administrative or executive matter not subject to the referendum provisions of the Charter or State law. No reduction in any initial or existing rate schedule for the System may be made unless:

(i) The Governmental Unit has fully complied with the requirements of the rate covenant contained in Section 2.2(a) hereof for any twelve (12) consecutive months out of the sixteen (16) calendar months immediately preceding the reduction of the rate schedule, and

(ii) The audit required by Section 26.09 of the Master Ordinance or a separate certificate by an Independent Accountant for or relating to any twelve (12) consecutive months out of the sixteen (16) calendar months immediately preceding any reduction discloses that the Pledged Revenues resulting from the proposed rate schedule would have been sufficient to meet the rate covenant contained in Section 2.2(a) hereof during the applicable twelve (12) month period.

(d) Efficient Operation. The Governmental Unit will maintain the System in efficient operating condition and make such improvements, extensions, enlargements, repairs and betterments to the System as may be necessary or advisable for its economical and efficient operation at all times and sufficient to supply reasonable public and private demands for System services within the Service Area of the System.

(e) Records. So long as this Loan Agreement remains outstanding, proper books of record and account will be kept by the Governmental Unit in accordance with Generally Accepted Accounting Principles, separate from all other records and accounts, showing complete and correct entries of all transactions relating to the System. However, pursuant to NMSA 1978, § 6-14-10(E), as amended, records with regard to the ownership or pledge of System Bonds are not subject to inspection or copying.

(f) Right to Inspect. The NMFA, or its duly authorized agents, shall have the right to inspect at all reasonable times the Project and all records, accounts and data relating to the Project, the Pledged Revenues and the System.

(g) Audits. Within one hundred eighty (180) days following the close of each Fiscal Year, the Governmental Unit will cause an audit of the books and accounts of the System and its separate systems to be made by an Independent Accountant and the audit to be made available for inspection by the NMFA. Each audit of the System shall comply with Generally Accepted Accounting Principles. The audit required by this section may, at the Governmental Unit's discretion, be performed as a part of or in conjunction with the audit required under the Single Audit Act as set forth in Section 2.1(t) of this Loan Agreement.

(h) Billing Procedure. Bills for water services, furnished by or through the System shall be rendered to customers on a regular basis each month following the month in which the service was rendered and shall be due as required by the applicable ordinance, resolution, regulation or policy of the Governmental Unit. To the extent permitted by law, if a bill is not paid within the period of time required by such ordinance, water services shall be discontinued as required by Governmental Unit ordinance, and the rates and charges due shall be collected in a lawful manner, including, but not limited to, the cost of disconnection and reconnection.

(i) Charges and Liens Upon System. The Governmental Unit will pay when due from Gross Revenues or other legally available funds all taxes and assessments or other municipal or governmental charges, lawfully levied or assessed upon the System and will observe and comply with all valid requirements of any municipal or governmental authority relating to the System. The Governmental Unit will not create or permit any lien or charge upon the System or the Gross Revenues or it will make adequate provisions to satisfy and discharge within sixty (60) days after the same accrue, all lawful claims and demands for labor, materials, supplies or other objects, which, if unpaid, might by law become a lien upon the System or the Gross Revenues. However, the Governmental Unit shall not be required to pay or cause to be discharged, or make provision for any tax assessment, lien or charge before the time when payment becomes due or so long as the validity thereof is contested in good faith by appropriate legal proceedings and there is no adverse effect on NMFA.

(j) Insurance. Subject, in each case, to the condition that insurance is obtainable at reasonable rates and upon reasonable terms and conditions, in its operation of the System, the Governmental Unit will procure and maintain or cause to be procured and maintained commercial insurance or provide Qualified Self Insurance with respect to the facilities constituting the System and public liability insurance in the form of commercial insurance or Qualified Self Insurance and, in each case, in such amounts and against such risks as are, in the judgment of the

Governing Body, prudent and reasonable taking into account, but not being controlled by, the amounts and types of insurance or self-insured programs provided by entities which operate systems such as the System. "Qualified Self Insurance" means insurance maintained through a program of self insurance or insurance maintained with a fund, company or association in which the Governmental Unit may have a material interest and of which the Governmental Unit may have control, either singly or with others. Each plan of Qualified Self Insurance shall be established in accordance with law, shall provide that reserves be established or insurance acquired in amounts adequate to provide coverage which the Governmental Unit determines to be reasonable to protect against risks assumed under the Qualified Self Insurance plan, including any potential retained liability in the event of the termination of such plan of Qualified Self Insurance. In the event of property loss or damage to the System, insurance proceeds shall be used first for the purpose of restoring or replacing the property lost or damaged and thereafter, and any remainder may be used to redeem System Bonds or be treated as Gross Revenues and used in any legally permissible manner.

(k) Competing Utility System. Unless contrary to any provision of, or required by, applicable law, as long as this Loan Agreement is outstanding, the Governmental Unit prior to granting any franchise or license to a competing utility system, or permitting any person, association, firm or corporation to sell similar utility services or facilities to any consumer, public or private, within the Service Area of the System; provided, however, that nothing herein shall prevent the Governmental Unit from annexing land into its boundaries solely due to the fact that there is a competing utility system or person, association, firm or corporation providing such utility services or facilities within or for the land to be annexed.

(l) Alienating System. While the System Bonds are outstanding, the Governmental Unit shall not, except as permitted below, transfer, sell, or otherwise dispose of the System. For purposes of this Section 2.2(l), any transfer of an asset over which the Governmental Unit retains or regains substantial control shall not, for so long as the Governmental Unit has such control, be deemed a disposition of the System.

The Governmental Unit may transfer, sell or otherwise dispose of the System only if such transfer, sale or disposition complies with one or more of the following provisions:

(i) The property being disposed of is inadequate, obsolete or worn out; or

(ii) The property proposed to be disposed of and all other property of the System disposed of during the twelve (12) month period ending on the day of such transfer (but excluding property disposed of under Subsection 2.2(l)(i) above) will not, in the aggregate, constitute a Significant Portion of the System determined as described below and the proceeds are deposited into the Income Fund to be used as described below; or

(iii) The Governmental Unit receives fair market value for the property, the proceeds are deposited into the Income Fund to be used as described below and prior to the disposition of such property there is delivered to the Fiscal Agent a certificate of a Consultant to the effect that notwithstanding such disposition, but taking into account the use of such proceeds

in accordance with the expectations of the Governmental Unit as evidenced by a certificate of an Authorized Officer, the Consultant estimates that the Governmental Unit will be in compliance with the rate covenant in Section 2.2(a) hereof during each of the five (5) Fiscal Years immediately following such disposition.

For purposes of this Section 2.2(l), the term "Significant Portion" of the System means property of the System which, if such property had been disposed of by the Governmental Unit at the beginning of the Fiscal Year which includes the month of commencement of the twelve (12) month period referred to in Subsection 2.2(l)(ii) above would have resulted in a reduction in Net Revenues for such Fiscal Year of more than four percent (4%) when the actual Net Revenues for such Fiscal Year are decreased by the revenues directly attributable to such property of the System and increased by the expenses of the Governmental Unit directly attributable to such property of the System.

Proceeds of the disposition of assets under the Subsection 2.2(l)(ii) or 2.2(l)(iii) above shall be deposited in the Income Fund and used, within a reasonable period of time, not to exceed three years, to (a) provide additional revenue-producing properties to the System, (b) redeem System Bonds or (c) create an escrow fund pledged to pay specified System Bonds and thereby cause such System Bonds to be deemed to be paid as provided in the Master Ordinance.

Properties of the System which were financed with the proceeds of obligations the interest on which is then excluded from gross income for federal income tax purposes shall not be disposed of, except under the terms of provision 2.2(l)(i) above, unless the Governmental Unit has first received a written opinion of Bond Counsel to the effect that such disposition will not cause the interest on such obligations to become includable in gross income for federal income tax purposes.

No such disposition shall be permitted which would cause the Governmental Unit to be in default of any other covenant contained in the Master Ordinance.

(m) Competent Management. The Governmental Unit shall employ experienced and competent personnel to manage the System.

(n) Performing Duties. The Governmental Unit will faithfully and punctually perform all duties with respect to the System required by the Constitution and laws of the State and the ordinances and resolutions of the Governmental Unit relating to the System and this Loan Agreement, including, but not limited to, making and collecting reasonable and sufficient rates and charges for services rendered or furnished by the System as required by this Section and the proper segregation and application of the Gross Revenues.

(o) No Other Liens. Except for those Senior Obligations, Subordinate Parity Obligations, and Super Subordinate Obligations listed in the Term Sheet, there are no liens or encumbrances of any nature whatsoever, on or against the System or the Gross Revenues or Net Revenues on parity with**,** subordinate or senior to the lien of this Loan Agreement.

(p) Free Services Prohibited. No free service, facilities nor commodities shall be furnished by the System. Should the Governmental Unit use water services or facilities supplied by the System for municipal purposes, or any combination thereof, or in any manner use the System, or any part thereof, any use of the System by or of the services rendered thereby to the Governmental Unit, or any department, board or agency thereof, will be paid for from the Governmental Unit's general fund or other available revenues at the reasonable value of the use so made, or service so rendered, which shall in no event be less than the rates charged to a System customer with similar consumption; and all the revenue so derived from the Governmental Unit shall be deemed to be income derived from the operation of the System, to be used and accounted for in the same manner as any other income derived from the operation of the System.

Section 2.3 Representations, Covenants and Warranties of the NMFA. The NMFA represents, covenants and warrants for the benefit of the Governmental Unit as follows:

(a) Legal Status and Authorization of Loan Agreement. The NMFA is a public body politic and corporate constituting a governmental instrumentality, separate and apart from the State, duly organized and created under and pursuant to the laws of the State, particularly the NMFA Act. The NMFA has all necessary power and authority to enter into and perform and observe the covenants and agreements on its part contained in this Loan Agreement and has duly authorized the execution and delivery of this Loan Agreement.

(b) No Breach or Default Caused by Loan Agreement. Neither the execution and delivery of this Loan Agreement, nor the fulfillment of or compliance with the terms and conditions of this Loan Agreement, nor the consummation of the transactions contemplated in this Loan Agreement, conflicts with or results in a breach of the terms, conditions and provisions of any restriction or any agreement or instrument to which the NMFA is a party or by which the NMFA is bound or constitutes a default under any of the foregoing and will not conflict with or constitute a violation of any constitutional or statutory provision or order, rule, regulation, decree or ordinance of any court, government or governmental authority having jurisdiction over the NMFA, or its property and which conflict or violation will have a material adverse effect on the NMFA or the financing of the Project.

(c) No Litigation. To the knowledge of the NMFA, there is no litigation or proceeding pending or threatened against the NMFA or any other person affecting the right of the NMFA to execute or deliver this Loan Agreement or to comply with its obligations under this Loan Agreement. To the knowledge of the NMFA, neither the execution and delivery of this Loan Agreement by the NMFA, nor compliance by the NMFA with its obligations under this Loan Agreement, requires the approval of any regulatory body, or any other entity, which approval has not been obtained.

(d) Legal, Valid and Binding Obligation. This Loan Agreement constitutes a legal, valid and binding obligation of the NMFA enforceable in accordance with its terms.

(e) NMFA Compliance with Policies. As related to this Loan Agreement, the NMFA has complied with all applicable policies and procedures, as adopted and approved by the

NMFA Board of Directors, or such policies or procedures have been waived by the NMFA Board of Directors.

(f) Compliance with Securities Laws. The NMFA acknowledges that no offering document or prospectus has been prepared by the Governmental Unit with respect to this Loan Agreement. The NMFA has been provided with and has reviewed such information as it deems relevant in making its decision to make the Loan to the Governmental Unit and has assumed and relied on the accuracy of such information. The NMFA will not sell, pledge, transfer, convey, hypothecate, mortgage or dispose of the Loan Agreement, or any portion thereof, except to persons who have been provided sufficient information with which to make an informed investment decision regarding the Loan Agreement and in compliance with the Securities Act of 1933, as amended, the regulations promulgated thereunder and applicable State securities laws and regulations.

ARTICLE III

LOAN AGREEMENT TERM

The Loan Agreement Term shall commence on the Closing Date and shall not terminate until the Governmental Unit's obligations under this Loan Agreement have been paid in full or provision for payment of this Loan Agreement has been made pursuant to Article VIII hereof.

ARTICLE IV

LOAN; APPLICATION OF MONEYS

Section 4.1 Application of Loan Agreement Proceeds.

(a) After the Closing Date and upon written determination of compliance by the Governmental Unit with Section 4.2 of this Loan Agreement, the amount shown on the Term Sheet as the Aggregate Program Amount shall be made available for disbursal by the NMFA to the Governmental Unit at the request of the Governmental Unit and as needed by the Governmental Unit to implement the Project.

(b) The Final Requisition shall be submitted by the Governmental Unit within twenty seven (27) months following the Closing Date, except only as otherwise approved in writing by an Authorized Officer of the NMFA, based on the Governmental Unit's demonstration, to the reasonable satisfaction of the Authorized Officer of the NMFA, that unanticipated circumstances beyond the control of the Governmental Unit resulted in delaying the acquisition and completion of the Project, and submission of the Governmental Unit's Final Requisition.

Section 4.2 Disbursements; Approval of Payment Requests. Prior to the disbursement of any proceeds of the Loan for construction, the Governmental Unit shall comply with EPA's guidelines applicable to the Project and with the requirements of the laws and regulations of the State governing the construction and operation of drinking water systems, and after written determination of compliance, the NMFA, the Department, or other appropriate agency or entity on

behalf of the NMFA, pursuant to an agreement between such agency or entity and the NMFA) will approve (1) the engineer and engineering solicitation process for the Project; (2) the engineering contract for the Project; (3) the plans and specifications pursuant to 42 U.S.C. Section 300j-12 and (4) the bids for the conduct and completion of the Project. The Governmental Unit shall transmit payment requisitions in the form attached to this Loan Agreement as Exhibit "C" and the supporting documentation required pursuant to Exhibit "C" to the NMFA. The NMFA or its designee shall review each requisition for compliance with (i) the Project's scope and (ii) all applicable state and federal laws, rules and regulations, and shall approve or disapprove the requisition accordingly. The NMFA shall cause an Approved Requisition to be paid from the Drinking Water State Revolving Loan Fund.

Section 4.3 Termination by NMFA. NMFA may terminate this Loan Agreement in its sole discretion if it determines and notifies the Governmental Unit in writing that the Governmental Unit has not met within a reasonable period of time the requirements of Section 4.2 of this Loan Agreement.

ARTICLE V

LOAN TO THE GOVERNMENTAL UNIT; PAYMENTS BY THE GOVERNMENTAL UNIT

Section 5.1 Loan to the Governmental Unit; Payment Obligations Limited to Pledged Revenues; Pledge of Pledged Revenues. The NMFA hereby lends to the Governmental Unit and the Governmental Unit hereby borrows from the NMFA an amount not to exceed the Maximum Principal Amount. The Governmental Unit promises to pay, but solely from the sources pledged herein, the Loan Agreement Payments as herein provided. Subject to any outstanding Senior Obligations and Subordinate Parity Obligations, the Governmental Unit does hereby grant a lien on and a security interest in and does hereby convey, assign and pledge unto the NMFA and unto its successors in trust forever all right, title and interest of the Governmental Unit in and to (i) the Pledged Revenues to the extent required to pay the Loan Agreement Payments on a parity with any Subordinate Parity Obligations and subordinate to any Senior Obligations, (ii) the Debt Service Account, and (iii) all other rights hereinafter granted, for the securing of the Governmental Unit's obligations under this Loan Agreement, including payment of the Loan Agreement Payments, provided, however, that if the Governmental Unit, its successors or assigns, shall pay, or cause to be paid, all Loan Agreement Payments at the time and in the manner contemplated by this Loan Agreement, or shall provide as permitted by Article VIII of this Loan Agreement for the payment thereof and shall pay all other amounts due or to become due under this Loan Agreement in accordance with its terms and provisions then, upon such final payment, this Loan Agreement and the rights created thereby shall terminate; otherwise, this Loan Agreement shall remain in full force and effect, unless terminated by NMFA pursuant to Section 4.3 of this Loan Agreement. The Loan Agreement Payments shall, in the aggregate, be sufficient to pay the Aggregate Repayable Disbursements, as set forth in the Interim Loan Agreement Payment Schedule or the Final Loan Agreement Payment Schedule, as applicable.

Within five (5) days after each payment of an Approved Requisition during the Interim Period, the NMFA shall recalculate on the basis of the Aggregate Repayable Disbursements to that

date the Interest Component and Administrative Fee Component next coming due as set out in Section 5.2(a)(i) of this Loan Agreement and shall provide written notice to the Governmental Unit of the recalculated Interest Component and Administrative Fee Component. Within thirty (30) days after the final Disbursement, the NMFA shall provide a Final Loan Agreement Payment Schedule. The schedule of Loan Agreement Payments, assuming the disbursal of the entire Aggregate Program Amount within twenty-seven (27) months after the Closing Date, identified as the Interim Loan Agreement Payment Schedule, is attached to this Loan Agreement as Exhibit "B". The NMFA shall provide a Final Loan Agreement Payment Schedule following the final Disbursement which shall supersede the schedule attached as Exhibit "B".

The pledge of the Pledged Revenues and the lien thereon shall be effective upon the Closing Date. The Governmental Unit and the NMFA acknowledge and agree that the sources of the Loan Agreement Payments of the Governmental Unit hereunder are limited to the Pledged Revenues, and that the Loan Agreement shall constitute a special, limited obligation of the Governmental Unit. No provision of this Loan Agreement shall be construed or interpreted as creating a general obligation or other indebtedness of the Governmental Unit or the State within the meaning of any constitutional or statutory debt limitation. No provision of this Loan Agreement shall be construed to pledge or to create a lien on any class or source of Governmental Unit moneys other than the Pledged Revenues, nor shall any provision of this Loan Agreement restrict the future issuance of any bonds or obligations payable from any class or source of Governmental Unit moneys other than the Pledged Revenues. In addition, to the extent not required for the payments under Article XVIII of the Master Ordinance, including the payment of obligations of the Governmental Unit hereunder, the Pledged Revenues may be utilized by the Governmental Unit as provided in the Master Ordinance for any other purposes permitted by law and the laws of the State.

Section 5.2 Payment Obligations of Governmental Unit. The Debt Service Account shall be established and held by the NMFA or its designee on behalf of the Governmental Unit. All Loan Agreement Payments received by the NMFA or its designee pursuant to this Loan Agreement, shall be accounted for and maintained by the NMFA or its designee in the Debt Service Account, which account shall be kept separate and apart from all other accounts of the NMFA. The amounts on deposit in the Debt Service Account shall be expended and used by the NMFA only in the manner and order of priority specified herein.

(a) In accordance the payments required under Article XVII of the Master Ordinance, as a subordinate charge and lien, but not an exclusive subordinate charge and lien, on the Pledged Revenues (on a parity with the lien on the Pledged Revenues created by any outstanding Subordinate Parity Obligations and subordinate to any outstanding Senior Obligations), the Governmental Unit shall remit to the NMFA and the NMFA shall collect and deposit into the Debt Service Account from the Governmental Unit the Pledged Revenues, in the manner specified herein.

(i) Payment of Interest Component and Administrative Fee Component during Interim Period.

(A) During the Interim Period, the Interest Component and Administrative Fees shall accrue on the amount of Aggregate Repayable Disbursements, from the date of each Disbursement.

(B) During the Interim Period, within five (5) days after each payment of an Approved Requisition, the Finance Authority shall calculate the Interest Component and Administrative Fee Component next coming due on the Aggregate Repayable Disbursements.

(C) During the Interim Period, the Governmental Unit shall on June 1 and December 1 of each year, commencing on the first day of June or December, as the case may be, next following the first payment by the Finance Authority of an Approved Requisition, pay to the Finance Authority for deposit into the Debt Service Account such amount as is necessary, to pay the Interest Component and Administrative Fee Component on the Aggregate Repayable Disbursements as of each Loan Agreement Payment Date as described in the Loan Agreement Payment schedule attached as Exhibit "B" hereto.

(ii) Loan Agreement Payments Following the Interim Period. After the Interim Period, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the following amounts:

(A) Interest Component and Administrative Fee Component. On June 1 and December 1 of each year commencing on the first day of June or December, as the case may be, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the amount which is necessary to pay the first maturing Interest Component and Administrative Fee Component coming due on this Loan Agreement and thereafter, on each Loan Agreement Payment Date, the amount necessary to pay the Interest Component and Administrative Fee Component then due on this Loan Agreement as described in the Final Loan Agreement Payment Schedule.

(B) Principal Payments. On June 1 of each year, commencing on the first day of June next following the Final Disbursement, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the amount which is necessary to pay the first maturing Principal Component; and annually on the first day of June thereafter, the amount which is necessary to pay the Principal Component then due on this Loan Agreement during the Loan Agreement Term, as described in the Final Loan Agreement Payment Schedule.

(iii) Method of Payment. The Governmental Unit shall transfer to the NMFA, from Pledged Revenues, the amounts set forth in Subsections (i)(C), (ii)(A) and (ii)(B) of this Section 5.2(a) during the time that this Loan Agreement is outstanding, provided, that in the event of any default in making the Loan Agreement Payments by the Governmental Unit, the NMFA shall be entitled to seek payment of the amounts due through any of the remedies provided in Article X of this Loan Agreement.

(b) In the event that the balance of payments held in the Debt Service Account should exceed the amount needed to cover Loan Agreement Payments then due, the NMFA shall use the balance of the Pledged Revenues received, at the request of the Governmental Unit (i) to

credit against upcoming Loan Agreement Payments, or (ii) to distribute to the Governmental Unit for any other purpose permitted by law.

Section 5.3 Manner of Payment. All payments of the Governmental Unit hereunder shall be paid in lawful money of the United States of America to the NMFA or its designee at the address designated in Section 11.1 of this Loan Agreement. The obligation of the Governmental Unit to make payments hereunder, from and to the extent of the available Pledged Revenues, shall be absolute and unconditional in all events, except as expressly provided hereunder, and payment hereunder shall not be abated through accident or unforeseen circumstances. Notwithstanding any dispute between the Governmental Unit, the NMFA or its designee, any vendor or any other person, the Governmental Unit shall make all deposits hereunder, from and to the extent of the available Pledged Revenues, when due and shall not withhold any deposit hereunder pending final resolution of such dispute, nor shall the Governmental Unit assert any right of set-off or counterclaim against its obligation to make such deposits required hereunder.

Section 5.4. Additional Subordinate Parity and Senior Obligations Payable from Pledged Revenues.

(a) Subordinate Parity Obligations. No provision of this Loan Agreement shall be construed in such a manner as to prevent the issuance by the Governmental Unit of additional Subordinate Parity Obligations payable from Pledged Revenues, nor to prevent the issuance of bonds or other obligations refunding all or a part of this Loan Agreement; provided, however, that before any such additional Subordinate Parity Obligations are actually issued (excluding refunding bonds or refunding obligations which refund Subordinate Parity Obligations or Senior Obligations but including parity refunding bonds and obligations which refund Super Subordinate Obligations as provided in Section 5.5 hereof) and the requirements of Section 24.03 of the Master Ordinance.

The tests required in this Section and Section 24.03 of the Master Ordinance, shall be performed without adjustment for payments to or withdrawals from the Rate Stabilization Fund or interest accrued (other than amounts representing capitalized interest) in the Acquisition Fund. For Subordinate Parity Bonds with a funded Reserve Account (excluding any insurance coverage through a Reserve Fund Insurer), determination of average annual combined Debt Service Requirements or maximum combined annual Debt Service Requirements shall include application of the funds in the Reserve Account to the final debt service payment for the applicable Subordinate Parity Bonds. Except as permitted herein and by Article XXV of the Master Ordinance, prior to the issuance of additional Subordinate Parity Bonds, the Governmental Unit shall be current in making all deposits required by Article XVIII of the Master Ordinance and the following test shall be satisfied:

(i) a certificate prepared by an Authorized Officer of the Governmental unit showing that the Net Revenues for the Historic Test Period were at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations after the issuance of the proposed Parity Subordinate Obligations, or

(ii) a certificate prepared by a Consulting Engineer showing that:

(A) the Net Revenues for the Historic Test Period were at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations immediately preceding the issuance of the proposed additional Subordinated Bonds;

(B) for each Fiscal Year during the period from the date of delivery of such certificate until the latest estimated Completion Date of the Project being financed, the Consulting Engineer estimates that the Governmental Unit will be in compliance with the Rate Covenant; and

(C) the estimated Net Revenues for each of the three Fiscal Years immediately following the latest estimated Completion Date for the specified Project to be financed with proceeds of the proposed additional Parity Subordinate Obligations, as certified to the Consulting Engineer by an Authorized Officer of the Governmental Unit, will be at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations which will be outstanding immediately after the issuance of the proposed additional Subordinated Bonds.

For purposes of subsections (ii)(A) and (ii)(B) above, in estimating Net Revenues, the Consulting Engineer may take into account (1) reasonable Gross Revenues from specified Projects expected to become available, (2) any increase in fees, rates, charges, rentals or other sources of Gross Revenues which have been approved by the Governmental Unit and will be in effect during the period for which the estimates are provided, and (3) any other increases in Gross Revenues for such period which the Consulting Engineer certifies to be reasonable for purposes of such certificate. With respect to Operation and Maintenance Expenses, the Consulting Engineer shall use such assumptions as the Consulting Engineer believes to be reasonable, and taking into account, (i) historical Operation and Maintenance Expenses, (ii) Operation and Maintenance Expenses associated with the specified Projects and (iii) such other factors, including inflation and changing operations or policies of the Governmental Unit, as the Consulting Engineer believes to be appropriate. The Consulting Engineer shall include in the certificate or in a separate accompanying report a description of the assumptions used and the calculations made in determining the estimated Net Revenues and shall also set forth the calculations of the maximum combined annual Debt Service Requirements, which calculations may be based upon information provided by another Consulting Engineer or Consultant.

For purposes of preparing the certificate or certificates described above, the Consulting Engineer or Consulting Engineers may rely upon financial statements prepared by the Governmental Unit which have not been subject to audit by an independent certified public accountant if audited financial statements for the Fiscal Year or period are not available; provided, however, that an Authorized Officer of the Governmental Unit shall certify as to their accuracy and that such financial statements were prepared substantially in accordance with generally accepted accounting principles, subject to year-end adjustments.

(D) The Governmental Unit shall provide written notice to the NMFA of its intention to authorize the issuance of additional Subordinate Parity Obligations or Super Subordinate Obligations prior to taking official action regarding the issuance of the bonds or obligations and, following establishment of the final terms of the additional bonds proposed to be issued

(b) Senior Obligations. The Governmental Unit may issue bonds or other obligations payable from the Pledged Revenues having a lien thereon prior or superior to this Loan Agreement, so long as the additional bonds test set forth in the Master Ordinance for issuance of Senior Obligations can be met on the date of issuance of such additional bonds or other obligations. The Governmental Unit shall not issue Senior Obligations payable from the Pledged Revenues, without providing prior written notice to the NMFA, unless such Senior Obligations are purchased by the NMFA

Section 5.5 Refunding Obligations Payable from Pledged Revenues. The provisions of Section 5.4 hereof are subject to the following exceptions:

(a) If at any time after the Closing Date, while this Loan Agreement, or any part thereof, is outstanding, the Governmental Unit shall find it desirable to refund any outstanding bonds or other outstanding obligations payable from the Pledged Revenues, this Loan Agreement, such bonds or other obligations, or any part thereof, may be refunded (but the holders of this Loan Agreement or bonds to be refunded may not be compelled to surrender this Loan Agreement or their bonds, unless this Loan Agreement, the bonds or other obligations, at the time of their required surrender for payment, shall then mature, or shall then be callable for prior redemption at the Governmental Unit's option), regardless of whether the priority of the lien for the payment of the refunding obligations on the Pledged Revenues is changed, except as provided in subparagraph (f) of Section 5.4 hereof and in subparagraphs (b) and (c) of this Section.

(b) No refunding bonds or other refunding obligations payable from the Pledged Revenues shall be issued on a parity with this Loan Agreement unless:

(i) The outstanding obligations so refunded have a lien on the Pledged Revenues on a parity with the lien thereon of this Loan Agreement and the refunding bonds or other refunding obligations do not increase any aggregate annual principal and interest obligations evidenced by such refunded obligations; or

(ii) The refunding bonds or other refunding obligations are issued in compliance with subparagraphs (a) and (b) of Section 5.4 hereof.

(c) The refunding bonds or other obligations so issued shall enjoy complete equality of lien on the Pledged Revenues with the portion of this Loan Agreement or any bonds or other obligations of the same issue which is not refunded, if any; and the holder or holders of such refunding bonds or such other refunding obligations shall be subrogated to all of the rights and privileges enjoyed by the holder or holders of this Loan Agreement or the bonds or other obligations of this same issue refunded thereby. If only a part of this Loan Agreement or the outstanding bonds and any other outstanding obligations of any issue or issues payable from the

Pledged Revenues is refunded, then such obligations may not be refunded without the consent of the holder or holders of the unrefunded portion of such obligations, unless:

(i) The refunding bonds or other refunding obligations do not increase any aggregate annual principal and interest obligations evidenced by such last maturity date of such unrefunded obligations; or

(ii) The refunding bonds or other refunding obligations are issued in compliance with subparagraphs (a) and (b) of Section 5.4 hereof; or

(iii) The lien on the Pledged Revenues for the payment of the refunding obligations is subordinate to each such lien for the payment of any obligations not refunded.

(d) Any refunding bonds or other refunding obligations payable from the Pledged Revenues shall be issued with such details as the Governmental Unit may provide by ordinance or resolution, but without any impairment of any contractual obligations imposed upon the Governmental Unit by any proceedings authorizing the issuance of any unrefunded portion of such outstanding obligations of any one or more issues (including, but not necessarily limited to, this Loan Agreement).

Section 5.6 Investment of Governmental Unit Funds. Money on deposit in the Debt Service Account created hereunder may be invested by the NMFA or its designee in Permitted Investments at the written direction of the Governmental Unit or, in the absence of such written direction of the Governmental Unit, at the discretion of the NMFA. Any earnings on Permitted Investments shall be held and administered in the Debt Service Account and utilized in the same manner as the other moneys on deposit therein for the benefit of the Governmental Unit.

Section 5.7 Governmental Unit May Budget for Payments. The Governmental Unit may, in its sole discretion, but without obligation and subject to the Constitution of the State, governing laws, and its budgetary requirements, make available properly budgeted and legally available funds to defray any insufficiency of Pledged Revenues to pay Loan Agreement Payments; provided, however, the Governmental Unit has not covenanted and cannot covenant to make such funds available and has not pledged any of such funds for such purpose.

ARTICLE VI

THE PROJECT

Section 6.1 Agreement to Acquire and Complete the Project. The Governmental Unit hereby agrees that in order to effectuate the purposes of this Loan Agreement and to effectuate the acquisition and completion of the Project, it shall make, execute, acknowledge and transmit any contracts, orders, receipts, writings and instructions with any other persons, firms or corporations and, in general do all things which may be requisite or proper to acquire and complete the Project.

The Governmental Unit agrees to acquire and complete the Project through the application of moneys to be disbursed by the NMFA pursuant to Section 6.2 of this Loan Agreement.

Section 6.2 Disbursements. So long as no Event of Default shall occur and the requirements of Section 4.2 are satisfied, the NMFA or its designee shall disburse moneys to pay a requisition upon receipt and approval by the NMFA or its designee of a requisition substantially in the form of Exhibit "C" attached hereto signed by an Authorized Officer of the Governmental Unit, with required supporting documentation

Section 6.3 Completion of the Project. Upon completion of the Project, which shall occur no later than two (2) years after the Closing Date, unless a later date is approved as provided in Section 4.1(b) of this Loan Agreement, an Authorized Officer of the Governmental Unit shall deliver a certificate to the NMFA, substantially in the form of Exhibit "D" attached hereto, stating that, to his or her knowledge, the Project has been completed and the Project has been accepted by the Governmental Unit, and all costs have been paid, except for any reimbursements requested pursuant to requisitions submitted prior to the end of the Interim Period. Notwithstanding the foregoing, such certificate shall state that it is given without prejudice to any rights against third parties which exist at the date of such certificate or which may subsequently come into being.

Section 6.4 Unrequisitioned Amounts. In the event that, (1) at the time of the delivery of the certificate of completion required by Section 6.3 hereof, there remains an Unrequisitioned Principal Amount, or (2) the NMFA shall not have received a Final Requisition, by the date that is twenty seven (27) months from the Closing Date, unless an extension is approved pursuant to Section 4.1(b) of this Loan Agreement, then the Governmental Unit shall have no right or title to the Unrequisitioned Principal Amount, nor any right to pledge, encumber or draw upon such Unrequisitioned Principal Amount, and the NMFA will not approve, honor, or enforce any requisition upon such Unrequisitioned Principal Amount pursuant to this Loan Agreement.

ARTICLE VII

COMPLIANCE WITH LAWS AND RULES; OTHER COVENANTS

Section 7.1 Further Assurances and Corrective Instruments. The NMFA and the Governmental Unit agree that they will, from time to time, execute, acknowledge and deliver, or cause to be executed, acknowledged and delivered, such supplements hereto and such further instruments as may reasonably be required for correcting any inadequate or incorrect description of the Project or of the Pledged Revenues, or for otherwise carrying out the intention hereof. Authorized Officers are authorized to execute, acknowledge and deliver any such supplements and further instruments.

Section 7.2 NMFA and Governmental Unit Representatives. Whenever under the provisions hereof the approval of the NMFA or the Governmental Unit is required, or the Governmental Unit or the NMFA is required to take some action at the request of the other, such approval or such request shall be given for the NMFA or for the Governmental Unit by an Authorized Officer of the NMFA or the Governmental Unit, as the case may be, and any party hereto shall be authorized to rely and act on any such approval or request.

Section 7.3 Compliance with Court Orders. During the Loan Agreement Term, the Governmental Unit and the NMFA shall observe and comply promptly with all current and future orders of all courts having jurisdiction over the parties hereto, the Project or the Pledged Revenues.

Section 7.4 Compliance with Applicable State and Federal Laws. During the Loan Agreement Term, the Governmental Unit shall comply with all applicable State and federal laws, including, without limitation, the following:

(a). For all contracts, the Governmental Unit shall comply with the New Mexico Procurement Code, NMSA 1978, §§ 13-1-28 through 13-1-199, as amended, or its local procurement ordinances and regulations, as applicable.

(b). For all construction contracts awarded in excess of $10,000, the Governmental Unit shall comply with Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 12, 1967, and as supplemented in Department of Labor regulations (41 C.F.R. chapters 40 and 60). In addition, for all contracts, the Governmental Unit shall comply with all State laws and regulations and all executive orders of the Governor of the State pertaining to equal employment opportunity.

(c). For all contracts awarded for construction or repair, the Governmental Unit shall comply with the Copeland "Anti-Kickback" Act (18 U.S.C. § 874) as supplemented in Department of Labor regulations (29 C.F.R. part 3).

(d). For all construction subcontracts, and subgrants of amounts in excess of $100,000, the Governmental Unit shall comply with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. § 7606), Section 508 of the Clean Water Act (33 U.S.C. § 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 C.F.R. Part 15). In addition, for all contracts, the Contractor shall comply with all applicable State laws and regulations and with all executive orders of the Governor of the State pertaining to protection of the environment.

(e). For all contracts the Governmental Unit shall comply with the mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plan issued in compliance with section 362 of the Energy Policy and Conservation Act (42 U.S.C. § 6322).

(f). For all contracts, including subcontracts in excess of $2,000 the Governmental Unit shall comply with applicable standards of the Davis-Bacon Wage Act (40 U.S.C. § 3141 et seq.), as amended and supplemented, relating to wages paid to laborers and mechanics employed by contractors and sub-contractors on a Project funded directly by or assisted in whole or in part by and through the Governmental Unit, and the requirements of section 1450(e) of the Safe Drinking Water Act (42 U.S.C.300j-9(e)), and shall include the contract clauses set out in the Environmental Protection Agency publication entitled "Wage Rate Requirements Under the Clean Water Act, Section 513 and the Safe Drinking Water Act Section 1450(e)".

(g). For all contracts, the Governmental Unit shall comply with the requirements of the Environmental Protection Agency's Program addressing Disadvantaged, Minority and Women's Business Enterprises, including Title 40, Chapter I, Subchapter B, Part 33 of the Code of Federal Regulations, Executive Order 12898 and 40 C.F.R. Part 33.

(h). For all contracts, the Governmental Unit shall comply with the requirements of Executive Order 13502 on Use of Project Agreements for Federal Construction Projects.

(i). For all contracts, the Governmental Unit shall comply with the requirements of the Federal Funding Accountability and Transparence Act (FFATA).

(j). For all contracts, the Governmental Unit shall comply with the requirements of Executive Order 13627 on Strengthening Protections Against Trafficking in Persons in Federal Contracts.

(k). For all contracts, the Governmental Unit shall comply with all federal requirements applicable to the Loan (including those imposed by P.L. 113-76, 2014 Consolidated Appropriations Act, Section 436 and related SRF Policy Guidelines) which the Governmental Unit understands includes, among other, requirements that all of the iron and steel products used in the Project are to be produced in the United States ("American Iron and Steel Requirement") unless (i) the Governmental Unit has requested and obtained a waiver from the NMFA pertaining to the Project or (ii) the NMFA has otherwise advised the Governmental Unit in writing that the American Iron and Steel Requirement is not applicable to the Project.

(l). For all contracts, the Governmental Unit shall comply with the requirements of the Build America, Buy America Act (BABA) included in the BIL, in Sections 70901 through 70927, 2 BABA 70912 and 70914, 3 87 FR 23888 and 2 CFR part 184, in all subawards, contracts, and purchase orders for the work performed, or products supplied under this Loan Agreement. Under the BABA, the Governmental Unit is obligated to use United States produced iron, steel, manufactured products and construction materials for the Project with the funds available under this Loan Agreement unless the Governmental Unit believes a waiver is justified and NMFA finds that a waiver shall apply consistent with such Federal law.

(m). For all contracts, the Governmental Unit shall comply with all record keeping and reporting requirements under the Clean Water Act/Safe Drinking Water Act, including any reports required by a Federal agency or the NMFA such as performance indicators of program deliverables, information on costs and project progress. The Governmental Unit understands that (i) each contract and subcontract related to the Project is subject to audit by appropriate federal and state entities and (ii) failure to comply with the Clean Water Act/Safe Drinking Water Act and this Loan Agreement may be a default under this Loan Agreement.

(n). For all contracts, the Governmental Unit shall comply with the administration of the Clean Air Act and the Federal Water Pollution Control Act, including Section 306 of the Clean Air Act, 42 U.S.C. 7606 et seq, Section 508 of the Clean Water Act, 33 U.S.C. 1368, et seq. and Executive Order 11738

(o). For all contracts, the Governmental Unit shall comply with Executive Order 12549 – Debarment and Suspension and all rules, regulations and guidelines issued pursuant to Executive Order 12549, including compliance with the requirement that each prospective participant in transactions related to the Loan execute a written certification that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in transactions related to the Loan.

(p). The Governmental Unit shall comply with the requirement of the June 3, 2015 Guidelines for Enhancing Public Awareness of SRF Assistance Agreements issued by the Environmental Protection Agency relating to signage, posters, advertisements, website or press releases indicating that financial assistance was received from the Environmental Protection Agency for the Project.

(q). The Governmental Unit acknowledges that it is subject to the terms of the Environmental Protection Agency Memorandum titled "Prohibition on Certain Telecommunication and Video Surveillance Services or Equipment in the SRF Programs" dated December 11, 2020. The Governmental Unit shall comply with 2 CFR 200.216 and Section 889 of Public Law 115-232 and shall not use loan or subsidy funds to obtain or enter into a contract to obtain covered telecommunications equipment produced or provided by companies listed in the system for Award Management exclusion list at SAM.gov. The exclusion list includes, but is not limited to, Huawei Technologies Company or ZTE Corporation, or any subsidiary or affiliate of such entities.

(r). The Governmental Unit agrees to comply with all applicable New Mexico State cybersecurity laws and requirements and ensure that any connections between the Governmental Unit's network or information system and Environmental Protection Agency networks used by the recipient to transfer data under this Loan Agreement, if any, are secure. If a connection does not go through the Environmental Information Exchange Network or Environmental Protection Agency's Central Data Exchange, the Governmental Unit agrees to contact the Environmental Protection Agency Project Officer (PO) and work with the designated Environmental Protection Agency Regional/Headquarters Information Security Officer to ensure that the connections meet Environmental Protection Agency security requirements, including entering into Interconnection Service Agreements as appropriate. This condition does not apply to manual entry of data by the Governmental Unit into systems operated and used by Environmental Protection Agency's regulatory programs for the submission of reporting and/or compliance data. The Governmental Unit is subject to monitoring as deemed necessary by the NMFA or the State of New Mexico under 2 CFR 200.331. In regard to this section a "connection" is defined as a dedicated persistent interface between an Agency IT system and an external IT system for the purpose of transferring information. Transitory, user-controlled connections such as website browsing are excluded from this definition.

(s). If the Governmental Unit gathers geospatial data, as defined in 43 U.S.C. §2801(2018), during the life of the Project, the data must be consistent with the Federal Geographic Data Committee endorsed standards.

(t). In accordance with the EPA "Signage Requirement" guidelines, the Governmental Unit will place a sign and will maintain such sign in good condition throughout the construction period, at a visible location in the construction site that displays the EPA's agency emblem and identify the project as a "project funding by U.S. Environmental Protection Agency" as long as placing such sign is practically and financially viable and does not result in excessive cost to the Governmental Unit.

(u). The Governmental Unit, as well as any contractors and subcontractors working with the Governmental Unit in this Project, shall comply with all State laws and regulations pertaining to equal employment opportunity and all federal anti-discrimination law requirements, pursuant to 40 C.F.R. 35.3575(a)(c), including Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, et seq., 40 C.F.R. Part 5, EPA's regulations 40 CFR §7.30 and 40 CFR §7.35, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, et seq., and the Age Discrimination Act of 1975, 42 U.S.C. §6102 which laws prohibit discrimination in the provision of services or benefits on the basis of race, color, national origin, sex, disability or age in programs or activities receiving federal assistance. However, the Governmental Unit shall not be required to take any action in accordance with the foregoing provisions that would, in the exercise of the Governmental Unit's good-faith and reasonable discretion, require the Governmental Unit to violate Executive Orders of the President of the United States of America or the Governor of New Mexico that are in effect and binding on the Governmental Unit throughout the Project period, nor shall the Governmental Unit be required to take any action contrary to an order or decision of a court having jurisdiction over any Executive Order of the President of the United States of America or any Executive Order of the Governor of the State.

The NMFA or its designee shall have the right to review all contracts, work orders and other documentation related to the Project that it deems necessary to assure compliance with applicable laws, rules and regulations, and may conduct such review as it deems appropriate prior to disbursing funds for payment of an Approved Requisition.

Section 7.5 Subordinate Lien Status. The Loan Agreement Payments constitute an irrevocable subordinate lien (but not necessarily an exclusive subordinate lien) upon the Pledged Revenues. The Governmental Unit covenants that the Loan Agreement Payments and any Subordinate Parity Obligations herein authorized to be issued and from time to time outstanding shall be equitably and ratably secured by a subordinate lien on the Pledged Revenues and shall not be entitled to any priority one over the other in the application of the Pledged Revenues regardless of the time or times of the issuance of such obligations, it being the intention of the Governmental Unit that there shall be no priority between the Loan Agreement Payments and any such Subordinate Parity Obligations regardless of the fact that they may be actually issued and delivered at different times.

Section 7.6 Expeditious Completion. The Governmental Unit shall complete the Project with all practical dispatch.

ARTICLE VIII

PREPAYMENT OF LOAN AGREEMENT PAYMENTS

The Governmental Unit is hereby granted the option to prepay the Principal Component of this Loan Agreement in whole or in part on any day without penalty or prepayment premium, beginning one (1) year after the Closing Date. The Governmental Unit may designate the due date or due dates of the Principal Component or portions thereof being prepaid in the event of a partial prepayment. Any such prepayment shall include accrued interest to the redemption date of the corresponding Bonds to be redeemed, if any, and notice of intent to make such prepayment shall be provided to the NMFA or its designee by the Governmental Unit no less than forty-five (45) days prior to the prepayment date. The NMFA or its designee shall recalculate the Loan Agreement Payments due under this Loan Agreement in the event of a partial prepayment in a manner which is consistent with the manner in which the Bonds, if any, are prepaid.

ARTICLE IX

INDEMNIFICATION

From and to the extent of the Pledged Revenues and to the extent permitted by law, the Governmental Unit shall and hereby agrees to indemnify and save the NMFA and its designee, if any, harmless against and from all claims, by or on behalf of any person, firm, corporation or other legal entity arising from the acquisition or operation of the Project during the Loan Agreement Term, from: (i) any act of negligence of the Governmental Unit or breach of any covenant or warranty by the Governmental Unit hereunder; and (ii) the incurrence of any cost or expense in connection with the acquisition or operation of the Project in excess of the Loan Agreement proceeds and interest on the investment of the Loan Agreement proceeds. The Governmental Unit shall indemnify and save the NMFA and its designee, if any, harmless, from and to the extent of the available Pledged Revenues and to the extent permitted by law, from any such claim arising as aforesaid from (i) or (ii) above, or in connection with any action or proceeding brought thereon and, upon notice from the NMFA or its designee, shall defend the NMFA or its designee, if any, in any such action or proceeding.

ARTICLE X

EVENTS OF DEFAULT AND REMEDIES

Section 10.1 Events of Default Defined. In addition to the default provision in Article XXIX of the Master Ordinance, any one of the following shall be an Event of Default under this Loan Agreement:

(a) Failure by the Governmental Unit to pay any amount required to be paid under this Loan Agreement on the date on which it is due and payable; or

(b) Failure by the Governmental Unit to observe and perform any covenant, condition or agreement on its part to be observed or performed under this Loan Agreement, other than as referred to in paragraph (a), for a period of thirty (30) days after written notice, specifying such failure and requesting that it be remedied, is given to the Governmental Unit by the NMFA or its designee, if any, unless the NMFA or its designee, as applicable, shall agree in writing to an extension of such time prior to its expiration; provided, however, if the failure stated in the notice

can be wholly cured within a period of time not materially detrimental to the rights of the NMFA or its designee but cannot be cured within the applicable thirty (30) day period, the NMFA or its designee will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by the Governmental Unit within the applicable period and diligently pursued until the failure is corrected; and provided, further, that if by reason of force majeure the Governmental Unit is unable to carry out the agreements on its part herein contained, the Governmental Unit shall not be deemed in default under this paragraph (b) during the continuance of such inability (but force majeure shall not excuse any other Event of Default); or

(c) Any warranty, representation or other statement by or on behalf of the Governmental Unit contained in this Loan Agreement or in any instrument furnished in compliance with or in reference to this Loan Agreement is false or misleading in any material respect; or

(d) A petition is filed against the Governmental Unit under any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, and is not dismissed within thirty (30) days after such filing, but the NMFA shall have the right to intervene in the proceedings to protect the NMFA's interests; or

(e) The Governmental Unit files a petition in voluntary bankruptcy or seeking relief under any provision of any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, or consents to the filing of any petition against it under any such law; or,

(f) The Governmental Unit admits insolvency or bankruptcy or its inability to pay its debts as they become due or is generally not paying its debts as such debts become due, or becomes insolvent or bankrupt or makes an assignment for the benefit of creditors, or a custodian (including, without limitation, a receiver, liquidator or trustee) of the Governmental Unit for any of its property is appointed by court order or takes possession thereof and such order remains in effect or such possession continues for more than thirty (30) days, but the NMFA shall have the right to intervene in the proceedings to protect its interests.

Section 10.2 Remedies on Default. Whenever any Event of Default has occurred and is continuing and subject to Section 10.3 hereof, the NMFA may take any or all of the following actions as may appear necessary or desirable to collect the payments then due and to become due or to enforce performance of any agreement of the Governmental Unit in this Loan Agreement:

(a) By mandamus or other action or proceeding or suit at law or in equity to enforce the rights of the NMFA under this Loan Agreement against the Governmental Unit, and compel the Governmental Unit to perform or carry out its duties under the law and the agreements and covenants required to be performed by it contained herein; or

(b) By suit in equity enjoin any acts or things which are unlawful or violate the rights of the NMFA; or

(c) Intervene in judicial proceedings that affect this Loan Agreement or the Pledged Revenues; or

(d) Cause the Governmental Unit to account as if it were the trustee of an express trust for all of the Pledged Revenues and Aggregate Disbursements; or,

(e) Take whatever other action at law or in equity may appear necessary or desirable to collect amounts then due and thereafter to become due under this Loan Agreement or enforce any other of its rights thereunder.

Section 10.3 Limitations on Remedies. A judgment requiring a payment of money entered against the Governmental Unit may reach only the available Pledged Revenues.

Section 10.4 No Remedy Exclusive. Subject to Section 10.3 of this Loan Agreement, no remedy herein conferred upon or reserved to the NMFA is intended to be exclusive, and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder as now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the NMFA to exercise any remedy reserved in this Article X, it shall not be necessary to give any notice, other than such notice as may be required in this Article X.

Section 10.5 Waivers of Events of Default. The NMFA may in its discretion waive any Event of Default hereunder and the consequences of an Event of Default by written waiver; provided, however, that there shall not be waived (i) any Event of Default in the payment of principal of this Loan Agreement at the date when due as specified in this Loan Agreement, or (ii) any default in the payment when due of the interest on this Loan Agreement, unless prior to such waiver or rescission, all arrears of interest, with interest at the rate borne by this Loan Agreement on all arrears of payment of principal and all expenses of the NMFA, in connection with such Event of Default shall have been paid or provided for. Such waiver shall be effective only if made by written statement of waiver issued by the NMFA. In case of any such waiver or rescission, or in case any proceeding taken by the NMFA on account of any such Event of Default shall have been discontinued or abandoned or determined adversely, then and in every such case, the NMFA shall be restored to its former position and rights hereunder, respectively, but no such waiver or rescission shall extend to any subsequent or other Event of Default, or impair any right consequent thereon.

Section 10.6 No Additional Waiver Implied by One Waiver. In the event that any agreement contained herein should be breached by either party and thereafter waived by the other party, such waiver shall be in writing and limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

Section 10.7 Agreement to Pay Attorneys' Fees and Expenses Related to Defaults. In the event that the Governmental Unit should default under any of the provisions hereof and the NMFA employs attorneys or incurs other expenses for the collection of payments hereunder, or the

enforcement of performance or observance of any obligation or agreement on the part of the Governmental Unit contained in this Loan Agreement, the Governmental Unit agrees that it shall on demand therefor pay to the NMFA the fees of such attorneys and such other expenses so incurred, to the extent that such attorneys' fees and expenses may be determined to be reasonable by a court of competent jurisdiction; provided, however, that the obligation of the Governmental Unit under this Section shall be limited to expenditures from and to the extent of the available Pledged Revenues.

ARTICLE XI

MISCELLANEOUS

Section 11.1 Notices. All notices, certificates or other communications hereunder shall be sufficiently given and shall be deemed given when delivered as follows:

If to the Governmental Unit, then to:

City of Santa Fe
Attn: City Clerk
P.O. Box 909
Santa Fe, New Mexico 87504-0909

If to the NMFA, then to:

New Mexico Finance Authority
Attention: Chief Executive Officer
810 W. San Mateo Road
Santa Fe, New Mexico 87505

And if to NMFA's designated servicing agent for this Loan Agreement, if any, at the address to be provided by the servicing agent. The Governmental Unit and the NMFA may, by notice given hereunder, designate any further or different addresses to which subsequent notices, certificates or other communications shall be sent.

Section 11.2 Binding Effect. This Loan Agreement shall inure to the benefit of and shall be binding upon the NMFA, the Governmental Unit and their respective successors and assigns, if any.

Section 11.3 Integration. This Loan Agreement and any other agreements, certifications and commitments entered into between the NMFA and the Governmental Unit on the Closing Date constitute the entire agreement of the parties regarding the subject matter hereof as of the Closing Date. The Loan provided herein, which was approved by the NMFA Board of Directors on October 31, 2024, and the terms hereof supersede all prior understandings and agreements between the parties in connection with the Loan, to the extent inconsistent herewith.

Section 11.4 Master Ordinance. It is the intent and understanding of the parties that this Loan Agreement shall be, and is, consistent with the substantive terms and parameters established

for the issuance of such obligations by the Master Ordinance. The Ordinance authorizing this Loan Agreement is adopted as an Ordinance of the Governmental Unit, and a Supplemental Ordinance under the Master Ordinance and amends the Master Ordinance to authorize the issuance of the obligation evidenced the Loan Agreement in the form provided for in this Loan Agreement.

Section 11.5 Amendments. This Loan Agreement may be amended only with the written consent of the NMFA and the Governmental Unit, except as provided in Section 4.1(b) of this Loan Agreement. The consent of the NMFA for amendments not affecting the terms of payment of the loan component of this Loan Agreement may be given by an Authorized Officer of the NMFA. The execution of any such consent by an Authorized Officer of the NMFA shall constitute his or her determination that such amendment does not affect the terms of payment of the loan component of this Loan Agreement, unless such change results in a decrease in the payment amount of the loan component.

Section 11.6 No Liability of Individual Officers, Directors or Trustees. No recourse under or upon any obligation, covenant or agreement contained in this Loan Agreement shall be had against any member, employee, director or officer, as such, past, present or future, of the NMFA, either directly or through the NMFA or against any officer, employee, director or member of the Governing Body, past, present or future, as an individual so long as such individual was acting in good faith. Any and all personal liability of every nature, whether at common law or in equity, or by statute or by constitution or otherwise, of any such officer, employee, director or member of the Governing Body or of the NMFA is hereby expressly waived and released by the Governmental Unit and by the NMFA as a condition of and in consideration for the execution of this Loan Agreement.

Section 11.7 Severability. In the event that any provision of this Loan Agreement, other than the requirement of the Governmental Unit to pay hereunder, shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.

Section 11.8 Execution in Counterparts. This Loan Agreement may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

Section 11.9 Assignment by the NMFA. This Loan Agreement (except as to the Administrative Fee) may be assigned and transferred by the NMFA to a trustee, which right to assign and transfer is hereby acknowledged and approved by the Governmental Unit.

Section 11.10 Compliance with Governing Law. It is hereby declared by the Governing Body that it is the intention of the Governmental Unit by the execution of this Loan Agreement to comply in all respects with the provisions of the New Mexico Constitution and statutes as the same govern the pledge of the Pledged Revenues to payment of all amounts payable under this Loan Agreement.

Section 11.11 Applicable Law. This Loan Agreement shall be governed by and construed in accordance with the laws of the State.

Section 11.12 Captions. The captions or headings herein are for convenience only and in no way define, limit or describe the scope or intent of any provisions or sections of this Loan Agreement.

[*Signature pages follow*.]

[*Remainder of page intentionally left blank*.]

IN WITNESS WHEREOF, the NMFA, on behalf of itself has executed this Loan Agreement, which was approved by the NMFA's Board of Directors on October 31, 2024, in its corporate name by its duly authorized officers; and the Governmental Unit has caused this Loan Agreement to be executed in its corporate name and the seal of the Governmental Unit affixed hereto and attested by duly authorized officers. All of the above are effective as of the date first above written.

FIR No. 10734

FISCAL IMPACT REPORT

General Information:

(Check) **Bill:** X **Resolution:** _____

Short Title(s): DW 6522 - DWSRLF Loan for Flocculation Sedimentation Upgrades at Canyon Road Water Treatment Plant

Sponsor(s): Councilor Amanda Chavez and Councilor Alma Castro

Reviewing Department(s): Public Utilities Department

Staff Completing FIR: Clinton Peterson, Engineer **Date:** 1/12/2026 **Phone:** (505) 955-4369

Reviewed by City Attorney: Marcos Martinez Marcos Martinez (Feb 16, 2026 13:33:38 MST) **Date:** 02/16/2026

Reviewed by Finance Director: ANDREA PHILLIPS (Feb 18, 2026 09:34:08 MST) **Date:** 02/18/2026

Summary:
The proposed bill would authorize the execution and delivery of a Drinking Water State Revolving Fund loan and subsidy agreement in the total amount of $17,000,000 between the New Mexico Finance Authority and the City of Santa Fe ("City"). The loan would be for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Canyon Road Water Treatment Plant. This bill specifies that the loan be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). With respect to the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City. The Loan shall be in the maximum principal amount of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000.

Departments Affected:
Public Utilities Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will not receive a loan of $17,000,000 with a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None.

Performance and Administrative Implications:
If this bill is adopted, the City would be able to better fund this critical infrastructure project. The principal loan forgiveness of fifty percent would save the City of Santa Fe Water Division up to $8,500,000. Additionally, the completion of the project would allow the City to be able to better provide potable drinking water to residents by replacing aging equipment and increasing the treatment plant efficiency.

Fiscal Implications:
If this bill is adopted, the City will accept funds from NMFA in the total amount of $17,000,000 for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Cayon Road Water Treatment Plant. This loan has a maximum forgiven principal amount of $8,500,000 and a maximum repayable principal amount of $8,500,000. The loan portion of this agreement is to be paid back within 30 years at an interest rate of 0.25%.

Fiscal Impact

Expenditures

Expenditure Type	FYE 2026	FYE 2027	FYE 2028	Require BAR (Y/N)	Recurring (R) or Non-recurring (NR)	Fund	3-Year Total Cost
Personnel and Benefits*	$	$	$				
Capital Outlay	$ 14,166.6	$14,166.6	$ 14,166.6				
Contractual/ Professional Services	$	$	$				
Operating	$	$	$				$
Total:	$	$	$				$

Expenditure Narrative:
There is a 0.25% administrative fee associated with the loan, which is reflected in the expenditure table above as capital outlay.

Revenue

Revenue Type	FYE 2026	FYE 2027	FYE 2028	Recurring (R) or Non-recurring (NR)	Fund
General Fund	$	$	$		
Special Revenue	$	$	$		
CIP	$2,833,333.33	$2,833,333.33	$2,833,333.33	NR	505
Enterprise	$	$	$		
Internal Service	$	$	$		
Trust and Agency	$	$	$		
Federal	$	$	$		
Other	$	$	$		
Total	$	$	$		

Revenue Narrative:
The principal forgiveness associated with the loan will be applied to Fifty percent (50%) of the loan spent for this project. The Public Utilities Department is estimating 17 million dollars spent throughout the lifespan of the project over a period of approximately 26 months, spanning three fiscal years. The revenue savings associated with the maximum principal forgiveness of $8,500,000 is thus estimated in the table above to be allocated for the next 3 fiscal years.

RE: Authorization for City Attorney and City Clerk to correct scrivener's errors

---

EXECUTIVE SUMMARY:

This bill would authorize the City Attorney and the City Clerk to correct scrivener's errors in resolutions, ordinances, and in the City of Santa Fe's municipal code, SFCC 1987. The bill describes scrivener's errors as misspellings, grammatical errors, numbering errors, or cross referencing errors. The scrivener's errors would be documented with a "scrivener's note" and attached to the corrected ordinance or resolution. The scrivener's note would then be included in the packet as an action item at a regular governing body meeting.

A BILL

CREATING A NEW SECTION 2-2.10 OF SFCC 1987 TO ESTABLISH CITY ATTORNEY AND CITY CLERK AUTHORITY TO CORRECT SCRIVENER'S ERRORS.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. [NEW SECTION] Creating Section 2-2.10 of SFCC 1987 is ordained to read:

2-2.11 – Authority to correct scrivener's errors.

A. The city attorney and city clerk are each individually authorized to correct scrivener's errors in SFCC 1987 and in ordinance or resolution.

B. For purposes of this section, a scrivener's error includes one or more of the following:

a. A misspelling;

b. A grammatical error;

c. A numbering error; or

d. A cross-referencing error;

C. A scrivener's error correction made under the authority granted by this section shall be

documented as follows:

a. A correction to an ordinance or resolution shall be accompanied by a scrivener's note and attached to the corrected ordinance or resolution. Any such correction shall be reported within three months of such correction at a regular meeting of the Governing Body.

b. Corrections to SFCC 1987 and to resolutions shall be noted therein and the record of the correction shall be documented in the city clerk's office.

D. Scrivener's notes shall be included in the packet as an action item and approved by the governing body at a regular governing body meeting.

Summary:
This bill would create a new Section 2-2.10 of SFCC 1987 authorizing the City Attorney and the City Clerk to correct scrivener's errors in resolutions, ordinances, and in the City of Santa Fe's municipal code, SFCC 1987. The bill describes scrivener's errors as misspellings, grammatical errors, numbering errors, or cross referencing errors. The scrivener's errors would be documented with a "scrivener's note" and attached to the corrected ordinance or resolution. The scrivener's note would then be included in the packet as an action item at a regular governing body meeting.

Departments Affected:
City Attorney's Office and Office of City Clerk

Consequences of Not Enacting Legislation:
If this legislation is not adopted, a new Section 2-2.10 of SFCC 1987 will not be created to authorize the City Attorney and City Clerk to correct scrivener's errors. This could result in a lack of process and clarity for when the City would require a bill to make minor corrections and when a simpler process can be used to address such errors.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
None at this time.

Performance and Administrative Implications:
This bill would require the City Clerk and City Attorney's office to create "scrivener's notes" to correct items such as misspellings, grammatical errors, numbering errors, or cross referencing errors. The scrivener's note would be included in the packet as an action item and approved by the Governing Body at a regular Governing Body meeting.

Fiscal Implications:
None at this time.

ANDREA PHILLIPS

RE: Procurement Modernization

EXECUTIVE SUMMARY

The proposed bill would amend SFCC 1987, Section 11-13, to expand and clarify exemptions permitted by NMSA 1978, Sections 13-1-98 through 13-1-98.2, including utilities, legal services, items requiring prepayment under one hundred thousand dollars ($100,000), and lobbying services. The bill would also require that the procurement manual be adopted by resolution and would update procurement authority to allow the Chief Procurement Officer to approve purchase orders and the use of requests for applications. The bill would further establish an maximum eight-year term for professional service contracts, adopt Construction Manager at Risk Delivery Method procedures set forth in NMSA 1978, Sections 13-1-124.1 through 13-1-124.5, allow the City Manager to approve contract amendments that do not materially alter the scope of work, and adds processes for emergency procurements.

BACKGROUND

The City of Santa Fe ("City") has long exercised its home-rule authority to establish a procurement system that reflects local priorities. Historically, the City relied on its own ordinance and Procurement Manual, which operated independently of the State of New Mexico's Procurement Code.

In 2018, the Governing Body adopted Ordinance No. 2018-1, Section 2, amending SFCC 1987, Section 11-13 to formally adopt the State Procurement Code (NMSA 1978, Sections 13-1-28 through 13-1-199) as the foundation for City purchasing and procurement operations. This action improved legal consistency, operational efficiency, and transparency while preserving the City's right to depart from state rules when expressly authorized by local ordinance.

Most recently, in 2023, the Governing Body adopted Ordinance No. 2023-20, amending SFCC 1987, Section 2-4.6 to increase the City Manager's contract approval authority to $200,000 and to require monthly publication of approved contracts. That ordinance also made a minor conforming change to Section 11-13 by striking outdated contract authority language, but it did not otherwise revise the City's Procurement Code. Since that time, the City's procurement needs have continued to evolve—driven by inflationary pressures, urgent timelines, and the complexity of public partnerships. The current ordinance amendments reflect that evolution and are intended to

clarify roles, update thresholds, streamline procedures, and codify best practices under the City's procurement framework.

BILL NO. 2026-02

Mayor Michael Garcia

A BILL

AMENDING SFCC 1987, SECTION 11-13 TO EXPAND EXEMPTIONS PERMITTED BY NMSA 1978, SECTIONS 13-1-98 THROUGH 13-1-98.2, INCLUDING CERTAIN PURCHASE TYPES, LEGAL SERVICE TYPES; ADDING EXEMPTIONS FOR CERTAIN PREPAYMENT-REQUIRED ITEMS, NOT EXCEEDING $100,000 AND FOR LOBBYING SERVICES REPRESENTING THE CITY OF SANTA FE'S INTERESTS; REQUIRING THE PROCUREMENT MANUAL TO BE ADOPTED BY RESOLUTION; ESTABLISHING AN EIGHT-YEAR MAXIMUM TERM FOR PROFESSIONAL SERVICE CONTRACTS; AUTHORIZING THE CHIEF PROCUREMENT OFFICER TO APPROVE PURCHASE ORDERS AND TO APPROVE THE USE OF REQUESTS FOR APPLICATIONS; ADOPTING CONSTRUCTION MANAGER AT RISK DELIVERY METHOD PROCEDURES; MODIFYING CERTAIN AMOUNTS LISTED IN NMSA 1978, SECTION 13-1-125; AUTHORIZING THE CITY MANAGER TO APPROVE CONTRACT AMENDMENTS THAT DO NOT MATERIALLY ALTER THE SCOPE OF WORK.

Section 1. Section 11-13 of SFCC 1987 (being Ord. No. 2023-20 § 2, as amended) is amended to read:

11-13 - ADOPTION OF CITY'S PROCUREMENT CODE.

A. The city of Santa Fe hereby adopts the state of New Mexico Procurement Code (§§ 13-1-28 through 13-1-199, NMSA 1978) as the city of Santa Fe Procurement Code ("City Procurement Code"). Pursuant to its home-rule authority, and the city charter, the city may adopt rules specific to the city, which depart from state law. Any departures from the state law shall be adopted by ordinance.

B. Exemptions permitted by §§ 13-1-98 through 13-1-98.2, NMSA 1978 are hereby adopted, in addition to the following exemptions:

(1) Purchases of publicly provided or publicly regulated utilities and information services, including but not limited to: gas, electricity, water, sewer, telecommunications, refuse collection services, internet, and cable television;

(2) [~~Bond attorneys, if approved by the city council as part of the underwriting team involved in the issuance, sale and delivery of public securities for city bonds or city-issued bonds; and~~]

[~~(3)~~]Legal services [~~for advice, consultation, and representation of the city.~~] including but not limited to, advice, consultation, representation, research services, and litigation expenses in connection with proceedings before administrative agencies or state or federal courts, including experts, mediators, court reporters, process servers, and witness fees;

(3) Initial purchases not exceeding one hundred thousand dollars ($100,000) for prepayment-required items, such as magazine subscriptions, organizational membership fees, web-based or electronic subscriptions, and conference registration fees, are exempt from competitive procurement. This exemption does not apply if the subscription includes implementation costs or service fees.

(4) Lobbying services performed by a registered lobbyists for the purpose of representing the city's interests before federal or state legislative or executive bodies.

C. The purchasing officer shall be the "Chief Procurement Officer of the City" or "CPO" as defined by NMSA 1978, Section [~~§~~] 13-1-38.1[~~(2013)~~].

D. Local Preferences. Notwithstanding, NMSA 1978, Sections [~~§~~]13-1-21 and 13-1-22[~~(2016)~~], the city shall apply the following definitions and preferences:

(1) "Resident business" means a business that has a valid resident business certificate issued by the taxation and revenue department pursuant to NMSA 1978, Section 13-1-22, and which shows that the resident business resides within the Santa Fe municipal limits.

(2) When the city makes a purchase using a formal bid process, the public body shall deem a bid submitted by a resident business to be three percent (3%) lower than the bid actually submitted. In addition, if the bid includes subcontractors who are also resident businesses, the public body shall deem a bid submitted by a resident business with resident business subcontractors to be six percent (6%) lower than the bid actually submitted. If a non-resident business hires all resident business subcontractors, the public body shall deem the bid to be three (3%) percent lower than the bid actually submitted.

(3) When the city makes a purchase using a formal request for proposals process, not including contracts awarded on a point-based system, the city shall award an additional:

(a) Three percent (3%) of the total weight of all the factors used in evaluating the proposals to a resident business; and

(b) Three percent (3%) of the total weight of all the factors used in evaluating the proposals to a business with all resident business subcontractors.

(4) When the city makes a purchase using a formal request for proposals process, and the contract is awarded based on a point-based system, the city shall award additional points equivalent to:

(a) Three percent (3%) of the total possible points to a resident business; and

(b) Three percent (3%) of the total possible points to a business with all resident business subcontractors.

(5) The maximum available local preference shall be six percent (6%).

E. Competitive sealed proposals valued in excess of one million dollars ($1,000,000.00).

(1) If the bid or proposal includes to subcontractors who are also resident businesses, the public body shall deem a bid or proposal submitted by a resident business to be six percent (6%) lower than the bid actually submitted, if and only if at least fifty percent (50%) of the subcontracted services go to subcontractors who are resident businesses.

(2) If a non-resident business hires resident business subcontractors, the public body shall deem the bid or proposal to be three percent (3%) percent lower than the bid actually submitted, if and only if at least fifty percent (50%) of the subcontracted services go to subcontractors who are resident businesses.

F. City employees shall endeavor to procure local goods and services that qualify as "small purchases" as defined by NMSA 1978, Section [~~§~~] 13-1-125.

G. Procurement Manual. The [~~Purchasing Manual may be amended as follows~~] governing body shall adopt the Procurement Manual by resolution.

[~~(1) The procurement officer, finance and budget director or any member of the governing body may propose amendments to the finance committee;~~

~~(2) The finance committee shall make its recommendation to the governing body~~;

~~(3) The governing body shall approve, modify or disapprove the proposed amendments.~~

H. ~~At the beginning of each fiscal year, if amendments are made, the Purchasing Manual shall be re-published with the publication date clearly designated, and all amendments shall be incorporated therein.~~]

I. Professional Service Contracts. Professional service contracts may be established or amended for a term not to exceed eight (8) years.

J. *CPO Purchase Authority.* Pursuant to NMSA 1978, Section 13-1-95.2, the CPO is authorized to approve Purchase Orders (POs).

K. *Use of Request for Applications (RFA).*The CPO may approve the use of RFA. Procedures for making the approval may be found in the city's procurement manual.

L. *Construction Manager at Risk (CMAR) Delivery Method*. Pursuant to its home rule authority under the Santa Fe Municipal Charter, the city hereby adopts the procedures set forth in NMSA 1978, Sections 13-1-124.1 through 13-1-124.5 and the applicable provisions of the New Mexico Administrative Code (NMAC), unless the city adopts its own CMAR procedures through the Procurement Manual. Wherever the state statutes reference the "governing body," such term shall be interpreted in accordance with SFCC 1987, Section 2-1.1, to mean the city's duly elected governing body as defined in the city charter.

M. The city hereby modifies the amounts listed in NMSA 1978, Section 13-1-125.

(1) Purchases shall not be artificially divided to constitute a small purchase under this section.

(2) The city may procure any services, construction, and items of tangible personal property having a value not exceeding sixty thousand dollars ($60,000), excluding applicable state and local gross receipts taxes, by issuing a direct purchase order to a contractor based upon the best interest of the city.

(3) The city shall procure services, construction, or items of tangible personal property having a value not exceeding one hundred thousand dollars ($100,000), or more if the New Mexico Legislature increases the threshold in NMSA 1978, Section 13-1-125. These amounts exclude applicable state and local gross receipts taxes, in accordance with the applicable small purchase rules adopted in the city's Procurement Manual.

N. *Contract Amendments Within City Manager Authority.* The city manager is authorized to approve amendments to existing contracts that do not materially alter the scope of work, including but not limited to term extensions, assignments or transfers of ownership, and other non-monetary changes. The city manager may also approve amendments that decrease the total compensation amount or that increase compensation, provided such increase is within the city manager's established approval

authority.

M. *Emergency Procurement, Authorization to Commence Work.*

(1) Upon a written determination that an emergency condition exists, executed in accordance with this section and approved by the appropriate person, the city may authorize a vendor to commence work prior to the execution of a separate contract, but following issuance of a PO, to the extent necessary to address the emergency.

(2) Authorization to proceed under this section shall be limited to work necessary to mitigate or resolve the emergency condition and shall not exceed the scope, duration, or dollar amount specified in the approved emergency determination.

(3) Any emergency procurement authorized pursuant to this section shall be submitted for ratification as soon as practicable after the CPO has issued a written determination. Ratification shall be completed by:

(a) The city manager, when the total procurement amount is within the city manager's approval authority; or

(b) The governing body, when the total procurement amount exceeds the city manager's approval authority.

(4) Work authorized and performed in good faith pursuant to an approved emergency determination shall not be invalidated due to the timing of ratification, provided all requirements of this section and the Bateman Act are otherwise satisfied.

Reviewed by Interim Finance Director: ANDREA PHILLIPS (Feb 3, 2026 17:05:12 MST) **Date:** 02/03/2026

Summary:
The proposed bill would amend SFCC 1987, Section 11-13, to modernize the City of Santa Fe's (City) Procurement Code by expanding and clarifying exemptions permitted by NMSA 1978, Sections 13-1-98 through 13-1-98, including utilities, legal services, items requring prepayment under one hundred thousand dollars ($100,000), and lobbying services. The bill would also require that the procurement manual be adopted by resolution and would update procurement authority to allow the Chief Procurement Office to approve purchase orders and the use of requests for applications. The bill would further establish a maximum eight-year term for professional service contracts, adopt the Construction Manager at Risk Delivery Method procedures set forth in NMSA 1978, Sections 13-1-124.1 through 13-1-124.5, allow the City Manager to approve contract amendments that do not materially alter the scope of work, and provide additional processes for emergency procurements.

Departments Affected:
All departments that are engaged in procurement or contract management activities.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will continue operating under outdated procurement thresholds and procedural requirements that reduce efficiency, create unnecessary administrative burden, and limit flexibility in choosing the most appropriate solicitation methods. Staff time will continue to be spent on duplicative reviews, outdated procurement manual update procedures, and confusion regarding contract extensions for professional services.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This legislation complements Ordinance No. 2023-20, which increased the City Manager's contract approval authority, and is consistent with the City's adoption of the State Procurement Code under Ordinance No. 2018-1.

Performance and Administrative Implications:

The proposed bill would improve departmental efficiency, reduce procurement processing time, and clarify approval pathways. Delegating Procurement Manual amendment authority and updating small purchase thresholds is one way to reduce administrative workload across departments. Additionally, it would be prudent to increase Purchasing's staff in the future to help manage procurements and contracts citywide.

Fiscal Implications:

**There is no direct fiscal impact associated with this bill. The changes are procedural and administrative in nature. Over time, the City may have indirect cost savings through reduced staff hours spent on manual routing, outdated approvals, and redundant documentation requirements.

FROM: Alexa Hempel, Planner Senior, Current Planning Division AH

1. CONSIDERATION OF A RESOLUTION
General Plan Amendment. Case #2025-11028. JenkinsGavin, LLC, Agent for Applicant Girls, Inc., of Santa Fe, asks the Governing Body to adopt a Resolution to amend the General Plan Future Land Use Map designation for +/- 3.87 acres, located at 2904 Rufina St (Lot 3) from Industrial and Business Park to Community Commercial.

2. CONSIDERATION OF BILL NO. 2025-27
Rezoning. Case #2025-11029. JenkinsGavin, LLC, Agent for Applicant Girls, Inc., of Santa Fe, asks the Governing Body to adopt Bill No. 2025-27 to rezone +/- 3.87 acres located at 2904 Rufina St (Lot 3) from I-1 (Light Industrial) and I-2 (General Industrial) to C-2 (General Commercial).

3. CONSIDERATION OF A RESOLUTION
Master Plan. Case #2025-11030. JenkinsGavin, LLC, Agent for Applicant Girls, Inc., of Santa Fe, asks the Governing Body to adopt a Resolution creating a Master Plan for a +/- 55,478 sq ft youth center on +/- 4.27 acres located at 2904 Rufina St (Lots 3 and 2A, 2-2).

I. Planning Commission Recommendations:

On November 6, 2025, the Planning Commission recommended the Governing Body take the following actions:

1. **APPROVE** Case #2025-11028. 2904 Rufina St Lot 3 General Plan Amendment from Industrial and Business Park to Community Commercial.
2. **APPROVE** Case #2025-11029. 2904 Rufina St Lot 3 Rezoning from I-1 and I-2 to C-2.
3. **APPROVE** Case #2025-11030. 2904 Rufina St Lots 3 and 2A, 2-2 Master Plan, subject to the Conditions of Approval and Technical Corrections outlined in Attachment A of Staff's report.

II. Sample Motions:

Three (3) motions will be required, in the following order:

1. **Move to approve or deny** Case #2025-11028, adopting a resolution (the "Future Land Use Map Amendment Resolution") to amend the General Plan Future Land Use Map designation from Industrial and Business Park to Community Commercial for +/- 3.87 acres (Lot 3) located at 2904 Rufina St.

2. **Move to approve or deny** Case #2025-11029, adopting Bill No. 2025-27, changing the official Zoning Map designation from I-1 (Light Industrial) and I-2 (General Industrial) to C-2 (General Commercial) for +/- 3.87 acres (Lot 3) located at 2904 Rufina St.

3. **Move to approve or deny** Case #2025-11030, adopting a resolution (the "Master Plan Resolution") for a Master Plan of a +/- 55,478 sq ft youth center on +/- 4.27 acres (Lots 3 and 2A, 2-2) at 2904 Rufina St., subject to the Conditions of Approval and Technical Corrections outlined in Attachment A of Staff's report.

III. Executive Summary

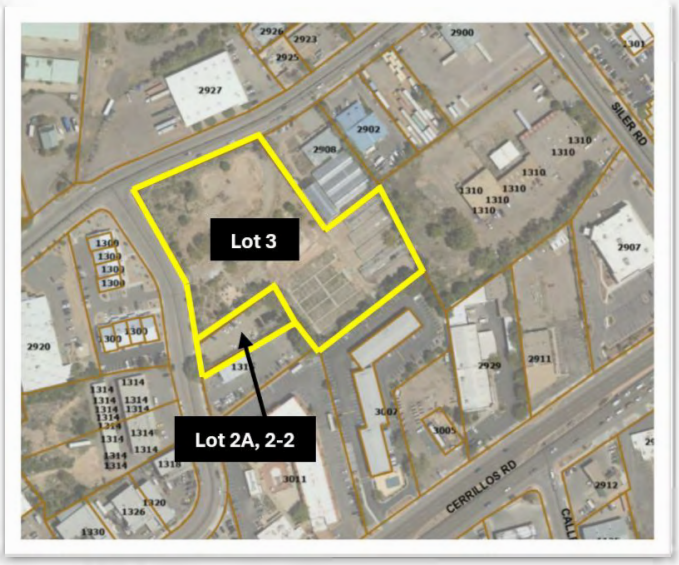

Figure 1 - Site Location

Girls, Inc., of Santa Fe (the "Applicant" or "GISF"), is a non-profit educational institution requesting a general plan amendment, rezoning, and master plan to construct a new educational facility at 2904 Rufina St. Through its agent, JenkinsGavin, LLC, the Applicant requests the general plan amendment (the "Future Lan Use Map Amendment") to change the General Plan Future Land Use Map (the "FLUM") designation on a 3.87-acre parcel (Lot 3 -see Figure 1 – Site Location) from Industrial and Business Park to Community Commercial. The rezoning request is to change the zoning of Lot 3 from I-1 (Light Industrial) and I-2 (General Industrial) to C-2 (General Commercial) (the "Rezoning").

Approval of the General Plan Amendment and Rezoning will allow for consideration of a master plan of Lots 3 and 2A, 2-2, totaling +/- 4.27 acres (the "Master Plan"). The Master Plan proposes a +/- 55,478 sq ft youth center including classrooms, a gymnasium, a gathering space, a teen entrepreneurship center, administrative offices, a caretaker's residence, play areas, a greenhouse, a chicken coop, gardens, and forested pathways on the former Santa Fe Greenhouses nursery site.

The Applicant conducted a pre-application conference on December 12, 2024, and an Early Neighborhood Notification ("ENN") meeting on July 23, 2025. No members of the public were

present at the ENN meeting. On November 6, 2025, the Planning Commission held a public hearing to review Cases #2025-11028, 2025-11029, and 2025-11030, during which the Planning Commission heard reports from City Planning and Land Use Department staff (the "Staff"), testimony and evidence from the Applicant, and public comments by interested members of the public. All comments from members of the public were in support of the application and generally expressed gratitude for the impact of Girls, Inc., on uplifting and supporting the Santa Fe community, as well as excitement for the opportunity for Girls, Inc., to expand their services. The Planning Commission found that the Future Land Use Map Amendment, Rezoning, and Master Plan were consistent with the General Plan and City of Santa Fe Code (SFCC), and that all approval criteria had been met.

The Planning Commission recommended that the Governing Body approve Case #2025-11028, the Future Land Use Map Amendment, Case #2025-11029, the Rezoning, and Case #2025-11030, the Master Plan (see Attachment A, "Planning Commission Packet"). On December 4, 2025, the Planning Commission adopted Findings of Fact and Conclusions of Law (Attachments B, C, and D), and Planning Commission Minutes (Attachment E, "Planning Commission Minutes November 6, 2025").

IV. General Plan Amendment Approval Criteria

The City Code requires the Governing Body to review all amendment proposals on the basis of the criteria addressed below and make complete findings of fact "sufficient to show that these criteria have been met" before it recommends approval of any amendment to the general plan. See SFCC 1987, Sec. 14-3.2(E)(1).

Table 1 General Plan Amendment Approval Criteria Analysis

14-3.2(E)(1)(a): **Consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *Economic development goals are upheld by the provision of quality childcare programs that support working parents. The 2004 report, Cultivating Santa Fe's Future Economy, by Angelou Economics, recognizes the important role of quality of life in economic development. In Strategy Four: Economic Development, the report states, "The most successful economic development regions in the U.S. also contain very high quality-of-life amenities. Quality of life encompasses many attributes, including healthcare, safety, parks and recreation, arts and culture, and environmental cleanliness. A quality environment plays a large part in the choice of young, skilled professionals in deciding where to locate. It also plays a significant role in retaining good citizens." The GISF program is a quality-of-life amenity serving the Santa Fe community and young families, enhancing the attractiveness of Santa Fe for existing residents and newcomers, alike. In addition, GISF will employ approximately 45 staff persons. The new facility will serve the growing southwest part of town, home to a majority of Santa Fe's families. Lastly, the site has existing access via two public rights-of-way and is currently served by public utility infrastructure.*	
Staff Response: Staff concurs that the proposed amendment is consistent with Santa Fe's growth management and economic development goals as outlined in the General Plan, Angelou Report, and the 2008 Economic Development Strategy. The amendment supports the City's efforts to direct growth toward areas with existing infrastructure and services and encourages balanced economic development. Overall, the proposal aligns with the General Plan's vision for sustainable coordinated urban growth and is consistent with Criterion 1.	

14-3.2(E)(1)(b): **Consistency with other parts of the general plan;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *This General Plan Amendment conforms to the following General Plan Themes and Policies:* ***Themes***	

1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.
Staff Response: Staff finds that reclassifying Lot 3 as 'Community Commercial' is consistent with the General Plan Themes and Policies listed by the Applicant. The reclassification will allow for a youth center that promotes quality of life for Santa Fe residents and economic diversity for the Siler-Rufina area. Additionally, this project will provide infill development consistent with General Plan Themes and Policies.

14-3.2(E)(1)(c): **The amendment does not:**	**Criterion Met:** (Yes/No)
(i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or **(ii) affect an area of less than two acres, except when adjusting boundaries between districts; or** **(iii) benefit one or a few landowners at the expense of the surrounding landowners or the general public;**	**YES**
Applicant Response: *(i) The proposed youth center is consistent with the character of the diverse Siler-Rufina neighborhood, which is home to several non-profit community organizations, including The Food Depot, Kitchen Angels, and Homewise.* *(ii) The subject parcel comprises 3.87 acres. Nevertheless, the property is adjacent to the Community Commercial designation along its south boundary.* *(iii) Contrary to harming surrounding landowners or the general public, this General Plan Amendment, and the new GISF youth center it will enable, provides numerous benefits. The redevelopment of the vacant site with a new, modern facility, inclusive of 2.7 acres of open space, will revitalize the property and beautify the neighborhood. Furthermore, GISF is an important community service organization that mentors school-age girls with dynamic after school and summer programs.*	
Staff Response: (i) The Siler-Rufina neighborhood is home to a mix of industrial, commercial, and non-profit organizations. Reclassifying Lot 3 will allow for continued infill development consistent with the character of this area. This reclassification will also create consistency with lots south of this property that are currently classified 'Community Commercial.' (ii) Staff finds that the subject parcel is 3.87-acres, exceeding the required 2-acres. (iii) The General Plan Amendment to reclassify the lot to "Community Commercial" will create the ability to rezone the lot to "General Commercial," which allows for a variety of uses that have potential to serve the community at large, including the proposed youth center in the Master	

Plan. Reclassifying this lot can also encourage the redevelopment of the infill site, stated as a priority in the General Plan under policy 3-G-3.

14-3.2(E)(1)(d): **An amendment is not required to conform with Subsection 14-3.2(E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *This General Plan Amendment promotes the general welfare, because it will enable the construction of a new GISF youth center, offering after school and summer programs for school-age girls and much-needed support for working parents.*	
Staff Response: The proposed amendment conforms to the requirements of 14-3.2(E)(1)(c), while also promoting general welfare by allowing for the proposed Master Plan use of a youth center, offering quality care to school aged children and accelerating infill development of this site.	

14-3.2(E)(1)(e): **Compliance with extraterritorial zoning ordinances and extraterritorial plans;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *N/A*	
Staff Response: N/A	

14-3.2(E)(1)(f): **Contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *Redevelopment of this infill site provides for efficient and economic development, leveraging existing infrastructure, and supporting the harmonious development of Santa Fe. This request not only supports the general welfare of the community by providing Santa Fe families with a safe and reliable place to send their children but is the sole motivation for this effort.*	
Staff Response: Staff agrees with the applicant and finds that reclassifying Lot 3 to 'Community Commercial' supports harmonious infill development that is efficient and consistent with properties in the vicinity which have been rezoned from industrial to commercial and subsequently redeveloped (Ord. #2016-44, #2022-4).	

14-3.2(E)(1)(g): **Consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The City of Santa Fe Land Use and Urban Design Plan recognizes the Siler Neighborhood as a Mixed-Use Corridor, stating, "Development and redevelopment along these corridors should be encouraged to provide greater density of commercial uses…". Furthermore, the Plan encourages the re–use of blighted or failing buildings and businesses. The redevelopment of a former, dilapidated nursery on an infill site in the Siler Neighborhood thoroughly aligns with these objectives. Furthermore, the City of Santa Fe Economic Development Department branded the subject neighborhood as the Siler-Rufina Nexus in a recent report issued to spur investment in the City's Opportunity Zones. In keeping with this effort, the proposed GISF facility is a significant investment in the neighborhood, increasing job opportunities and redeveloping a deteriorated site.*	
Staff Response: Staff agrees with the Applicant's response while additionally acknowledging the previous references to the City's General Plan policies. The proposed change does not conflict with existing city ordinances or regulations and the applicant's Master Plan and future development plan of the site will conform with the City of Santa Fe's Land Use Code and Policies.	

V. Rezoning Approval Criteria

The City Code requires the Governing Body to review all rezoning proposals on the basis of the criteria addressed below, and make complete findings of fact "sufficient to show that these criteria have been met" before it approves a rezoning. See SFCC 1987, Sec. 14-3.5(C).

Table 2 Rezoning Approval Criteria Analysis

14-3.5(C)(1)(a):	**Criterion Met:**
The planning commission and the governing body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning: **(a) one or more of the following conditions exist:** **(i) there was a mistake in the original zoning;** **(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or** **(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;**	(Yes/No) **YES**

Applicant Response:

(i) *N/A*

(ii) *This area has evolved over the years into a diverse, mixed-use neighborhood of recreational uses, non-profit institutions, a mix of housing types, and various commercial enterprises. The rezone will support the construction of the proposed GISF facility, which aligns well with this current pattern of development.*

(iii) *Rezoning the property to C-2 is more advantageous to the community. A vacant site falling into disrepair creates no community benefit. Redevelopment of this infill site vitalizes the neighborhood and supports the provision of critical community services. Furthermore, the rezone request aligns with the Themes and Policies of the General Plan, as summarized below:*

Themes

1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

Staff Response:

(i) Staff did not find a mistake in the original zoning.

(ii) In recent years, the Siler-Rufina area has seen increasing multifamily residential developments and rezonings from industrial to commercial that have changed the character of

the area (Ord. #2016-44, #2022-4). Commercial establishments and non-profit institutions have also come to occupy many industrial spaces surrounding the property. Staff recognizes a change in the character of the area.
(iii) Staff finds the rezoning of this parcel to "General Commercial" to be more advantageous than the currently vacant industrial site. This change encourages redevelopment of the infill site, and the associated Master Plan proposes a quality-of-life amenity to the community, supported by the General Plan.

14-3.5(C)(1)(b): **All the rezoning requirements of Chapter 14 have been met.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *All the rezoning requirements of Chapter 14 have been met. A Pre-Application Conference was conducted with the Development Review Team on December 12, 2024, and the Early Neighborhood Notification Meeting was held on July 23, 2025*.	
Staff Response: Staff finds that the rezoning requirements of Chapter 14 have been met, including SFCC 14-3.1 "*Applicable General Provisions*," and SFCC 14-3.5 "*Rezonings*." This rezoning application has also been reviewed by the Development review Team (DRT) for compliance with Chapter 14.	

14-3.5(C)(1)(c): **The rezoning is consistent with the applicable policies of the general plan, including the future land use map.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *A Request to amend the General Plan Future Land Use Map to Community Commercial accompanies this rezone application, which aligns with the requested C-2 zoning. Furthermore, the project conforms to the General Plan as outlined below:* ***Themes*** *1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.* *1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.* *1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.* *1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban*	

sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

Staff Response:

The rezoning alone does not align with the Future Land Use designation of this parcel which currently includes "Industrial" and "Business Park." However, the applicant is requesting a General Plan Amendment to designate the Future Land Use of this parcel "Community Commercial," which would align with the rezoning and proposed Master Plan use of a youth center. The project aligns with other themes and policies of the General Plan including but not limited to quality of life, sustainable growth, urban form, and community-oriented development.

14-3.5(C)(1)(d):	**Criterion Met:**
The amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of	(Yes/No) **YES**

urban land sufficient to meet the amount, rate and geographic location of the growth of the city.	
Applicant Response: *General Plan Figure 4-4, Urban Sub-Areas, designates the 3.87-acre subject property and surrounding area as an "Infill Area." The Growth Management Chapter of the General Plan specifically calls for prioritization of infill development in Santa Fe in order to maximize the efficient use of public infrastructure, while meeting the demand for urban land for development and directing new growth towards the historic core of the city rather than on the undeveloped fringes. The proposed infill project is in alignment with these strategic directives and is responsive to community needs for public services and community engagement in this area of the City. General Plan Section 4.1 states, "In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows" to help "create efficient use of already existing roads and utilities, help ensure cost-efficient public transit, and provide the type of housing that will be in demand...".*	
Staff Response: SFCC Section 14-3.5(C)(2)(b) prohibits a rezoning if the rezoning will "affect an area of less than two acres." This Parcel is 3.87-acres and therefore exceeds the required 2-acres. The Project meets city policies regarding the provision of urban land sufficient to meet the amount, rate, and geographic location of growth of the city. The Project is located within an infill area and proposes to meet the needs of the community while being served by sufficient infrastructure.	

14-3.5(C)(1)(e): **The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The subject property is served by existing roadways and public water and sewer infrastructure. Since the program includes the development of over 2.7 acres of outdoor recreational space, the GISF facility will not affect the capacity of area parks.*	
Staff Response: Staff from the relevant City departments, including water, wastewater, and traffic engineering have reviewed the zoning criteria as it relates to the Master Plan and determined that the property is sufficiently served by infrastructure so long as the Applicant meets the Conditions of Approval and Technical Corrections identified in Attachment A of this report.	

14-3.5(C)(2)(a): **Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:**	**Criterion Met:** (Yes/No) **YES**

Allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;	
Applicant Response: *The proposed youth center is consistent with the character of the diverse Siler-Rufina neighborhood, which is home to several non-profit community organizations, including The Food Depot, Kitchen Angels, and Homewise.*	
Staff Response: The Applicant stated in response to (1)(a)(iii) the General Plan Themes and Policies that this project aligns with. Staff finds that this use fits the surrounding Siler neighborhood which is currently a mix of industrial, commercial, and multi-family dwellings.	

14-3.5(C)(2)(b): **Affect an area of less than two acres, unless adjusting boundaries between districts; or**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The subject parcel is 3.87 acres.*	
Staff Response: The subject parcel is 3.87-acres, therefore exceeding the required 2-acres for a rezoning.	

14-3.5(C)(2)(c): **Benefit one or a few landowners at the expense of the surrounding landowners or general public.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *Contrary to harming surrounding landowners or the general public, this rezone, and the new GISF youth center it will enable, provides numerous benefits. The redevelopment of the vacant site with a new, modern facility, inclusive of 2.7 acres of open space, will revitalize the property and beautify the neighborhood. Furthermore, GISF is an important community service organization that mentors school-age girls with dynamic after school and summer programs.*	
Staff Response: The C-2 Zoning for Lot 3 is consistent with the existing land use patterns in adjacent areas south of the parcel. This alignment indicates that the rezoning does not disproportionately benefit a select few at the expense of the wider community. Furthermore, the Master Plan of a youth center for this site is anticipated to bring broader economic benefits, such as increased employment and expanded services, which would serve the general public interest.	

SFCC 14-3.5(D): Additional Applicant Requirements

14-3.5(D)(1): **If the impacts of the proposed development or rezoning cannot be accommodated by the existing infrastructure and public facilities, the city may require the developer to participate wholly or in part in the cost of construction of off-site facilities in conformance with any applicable city ordinances, regulations or policies;**	**Criterion Met:** (Yes/No) **YES**

Applicant Response: *The property is currently served by existing public roadway and utility infrastructure. The Applicant is prepared to construct any necessary infrastructure upgrades at the time of property development, and these improvements will be documented in the approved development plans.*
Staff Response: The Traffic Impact Analysis (TIA) submitted by the Applicant identified the need for various streets improvements to the area surrounding the proposed development due to the increased traffic volume a youth center will cause. The Applicant understands these infrastructure improvements and acknowledges that the City may require the developer to construct necessary infrastructure improvements.

14-3.5(D)(2): **If the proposed rezoning creates a need for additional streets , sidewalks or curbs necessitated by and attributable to the new development , the city may require the developer to contribute a proportional fair share of the cost of the expansion in addition to impact fees that may be required pursuant to Section 14-8.14.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The Traffic Impact Analysis identifies the need for a southbound left-turn lane on Rufina Circle serving the north access drive. No other off-site improvements are warranted. The developer is aware that required upgrades by the City of Santa Fe will be at the expense of the developer.*	
Staff Response: Additional streets, sidewalks, and curb improvements shall be determined when the Applicant submits a Development Plan for this site. The Applicant acknowledges this criterion.	

VI. MASTER PLAN APPROVAL CRITERIA

The City Code requires that approval of a master plan be based on the following findings, and that actions taken by Planning Commission and Governing Body must be at a public hearing. See SFCC 1987, Sec. 14-3.9.

Table 3 Master Plan Approval Criteria Analysis

14-3.9(D)(1)(a): **The master plan is consistent with the general plan**	**Criterion Met:** (Yes/No) **YES**

Applicant Response:
The proposed Master Plan aligns with various Themes and Polices in the General Plan, as summarized below.

Themes

1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler- Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls, Inc., youth center directly fulfills these objectives.

Staff Response:
The Master Plan is consistent with the General Plan themes and policies listed by the applicant, including quality of life, economic diversity, sustainable growth, urban Form, community oriented development, and mixed use. The proposed use is currently not supported on the Future Land Use Map, but would be if the General Plan Amendment to change Lot 3 to "Community Commercial" is approved.

14-3.9(D)(1)(b): **The master plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts;**	**Criterion Met:** (Yes/No) **YES**

Applicant Response:
The C-2 zoning district is a robust mixed-use zoning category that supports both commercial uses and residential development at higher densities. The proposed GISF youth center is a permissible use in the C-2 district and an appropriate commercial development in the Siler-Rufina neighborhood. Furthermore, the Master Plan demonstrates compliance with C-2 development standards with respect to height, lot coverage, open space, terrain management, and landscaping.

Staff Response:
The Master Plan is consistent with the purpose and intent of the proposed C-2 zoning district and has been conditioned to meet specific design criteria that shall apply when a Development Plan application is submitted. The Master Plan conforms with dimensional standards for C-2 zoning including height, lot coverage, setbacks, and lot size.

14-3.9(D)(1)(c): **Development of the master plan area will contribute to the coordinated and efficient development of the community; and**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The Master Plan includes provisions for pedestrian and vehicular connectivity to the surrounding area, as called for in the General Plan. In addition, the subject property makes efficient use of existing infrastructure as an infill site – a value repeatedly emphasized in the General Plan.*	
Staff Response: The Master Plan proposes efficient use of an infill parcel within the diverse Siler-Rufina area, utilizing existing infrastructure and improving connectivity. This use is an asset to the general welfare of the community as it will allow a quality-of-life amenity to be in a more accessible location for the growing Santa Fe community.	

14-3.9(D)(1)(d): **The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The existing roadway and utility infrastructure are adequate to serve the project. The Traffic Impact Analysis (TIA) demonstrates that the roadway network has the capacity for the proposed development, with the inclusion of a new left-turn lane serving the north access drive on Rufina Circle.*	
Staff Response: The proposed infrastructure has been reviewed based on the regulations established in Chapter 14 by Land Use Staff and the Development Review Team (DRT) encompassing fire, water, wastewater, public works, terrain management, traffic, and landscaping. Existing and proposed infrastructure can accommodate the development of this site as proposed, with street modifications as described in the Applicant's Traffic Impact Analysis. Individual DRT comments can be found in Attachment A of this report.	

VII. CONCLUSION

Upon review of the Applicant's request, submittal, and written findings, Staff has determined the Applicant has met the approval criteria for the Amendment, Rezoning, and Master Plan established in SFCC 1987, Sections 14-3.2(E), 14-3.5(C) and (D), and 14-3.9(D). Staff also finds that the Applicant has satisfied the requirements of 14-3.1(E), "Pre-Application Conferences," 14-3.1(F) "Early Neighborhood Notification Procedures," and 14-3.1(H) "Notice Requirements."

CITY OF SANTA FE
PLANNING & LAND USE

Planning and Land Use Department
Planning Commission Staff Report

Case Numbers	#2025-11028 #2025-11029 #2025-11030
Hearing Date	November 6, 2025
Agent	JenkinsGavin, Inc
Applicant	Girls, Inc of Santa Fe
Request	General Plan Amendment, Rezoning, Master Plan
Location	2904 Rufina St, Santa Fe, NM 87507
Case Manager	Alexa Hempel
Current Zoning	Light Industrial (I-1), General Industrial (I-2), General Commercial (C-2)
Overlay	Suburban Archeological Review District
Pre-App Meeting	December 12, 2024
ENN Meeting	July 23, 2025
Proposal	Applicant requests approval of a General Plan Amendment to change the Future Land Use of a parcel, a Rezoning of a parcel from I-1 and I-2 to C-2, and a Master Plan for a youth center.

Site Map

Case #2025-11028: 2904 Rufina General Plan Amendment. JenkinsGavin, "Agent," for Girls, Inc of Santa Fe, "Applicant," asks the Planning Commission recommend the Governing Body approve a General Plan amendment changing the Future Land Use Map designation for Lot 3, comprising approximately 3.87-acres, located at 2904 Rufina St., from a dual mapped area of "Industrial" and "Business Park" to "Community Commercial." (Alexa Hempel, Case Manager, anhempel@santafenm.gov)

Case #2025-11029: 2904 Rufina Rezoning. JenkinsGavin, "Agent," for Girls, Inc of Santa Fe, "Applicant," asks the Planning Commission to recommend that the Governing Body approve a rezoning, changing the Official Zoning Land Use Map designation for Lot 3 at 2904 Rufina St., comprising approximately 3.87-acres, from a duel mapped area of "Light Industrial" (I-1) and "General Industrial" (I-2) to "General Commercial" (C-2). (Alexa Hempel, Case Manager, anhempel@santafenm.gov)

Case #2025-11030: 2904 Rufina Master Plan. JenkinsGavin, "Agent," for Girls, Inc of Santa Fe, "Applicant," asks the Planning Commission to recommend the Governing Body approve a Master Plan of a proposed youth center at 2904 Rufina St on Lots 3 and 2A, 2-2, totaling approximately 4.27-acres. Lot 3 is approximately 3.87-acres, and Lot 2A, 2-2 is approximately 0.399-acres and is located adjacent to the southwest side of Lot 3. (Alexa Hempel, Case Manager, anhempel@santafenm.gov)

I. RECOMMENDATION

Staff recommends that the **Planning Commission recommend the Governing Body APPROVE** the following cases, subject to the Conditions of Approval and Technical Corrections outlined in Attachment A of this report.

1. **Case #2025-11028:** 2904 Rufina Lot 3 General Plan Amendment
2. **Case #2025-11029:** 2904 Rufina Lot 3 Rezoning
3. **Case #2025-11030:** 2904 Rufina Lot 2A, 2-2 and Lot 3 Master Plan

Three motions will be required for this case:

1. **Recommend the Governing Body APPROVE** or **DENY** Case #2025-11028, "*2904 Rufina Lot 3 General Plan Amendment.*"
2. **Recommend the Governing Body APPROVE** or **DENY** Case #2025-11029, "*2904 Rufina Lot 3 Rezoning.*"
3. **Recommend the Governing Body APPROVE** or **DENY** Case #2025-11030, "*2904 Rufina Lot 2A, 2-2 and Lot 3 Master Plan,*" subject to the Conditions of Approval and Technical Corrections outlined in Attachment A of Staff's report.

II. EXECUTIVE SUMMARY

The subject property is located at 2904 Rufina St, at the intersection of Rufina St and Rufina Circle, north of Cerrillos Rd and west of Siler Rd (the "Property"). The Property is the site of a former retail plant nursery and greenhouse and is comprised of two (2) lots, totaling approximately 4.27-acres. The first lot, described as "Lot 3" is 3.877-acres, dually zoned I-1, "Light Industrial," and I-2, "General Industrial." The second lot, described as "Lot 2A, 2-2" is 0.398-acres, zoned C-2, "General Commercial."

Lot 3 has two (2) General Plan Future Land Use Map (FLUM) designations, "Industrial" and "Business Park." The applicant requests a general plan amendment to designate the entirety of Lot 3 to "Community Commercial" on the FLUM ("General Plan Amendment"). This General Plan Amendment supports the Applicant's concurrent application to rezone Lot 3 from I-1 and I-2 to C-2, "General Commercial" ("Rezoning"). This Rezoning would create zoning uniformity between Lots 3 and 2A, 2-2.

Collectively on the two (2) lots, Girls, Inc of Santa Fe (GISF), acting through its agent, JenkinsGavin (the "Applicant") proposes a master plan for a youth center. GISF is a non-profit corporation based at 310 Hillside Ave that provides educational, recreational, and mentorship activities to school-age children in Santa Fe. The proposed master plan ("Master Plan") of Lots 3 and 2A, 2-2 includes a 55,478 sq ft youth center including classrooms, a gymnasium, a gathering space, an entrepreneurship training center, a caretakers residence, and administrative offices. The Master Plan also designates 2.7-acres of the lot for open space, including areas for recreational activities, gardens, shade and fruit trees, a greenhouse, chicken coop, pavilion, and pathways. If the Master Plan is approved, the Applicant would be required to submit a Development Plan that provides further details for the youth center development, which would be reviewed and approved/denied by the Planning Commission.

The Applicant has complied with Subsections SFCC 14-3.1(E) "*Pre-Application Conferences*", SFCC 14-3.1(F) "*Early Neighborhood Notification Procedures,*" and SFCC 14-3.1(H) "*Notice Requirements*."

Staff's analysis finds that the Applicant has addressed the necessary "*Approval Criteria*" per Subsections SFCC 14-3.2(E), SFCC 14-3.5(C), and SFCC 14-3.9(D) and **recommends that the Planning Commission recommend approval of all three (3) cases to the Governing Body,** with the Master Plan being subject to the "*Conditions of Approval" & "Technical Corrections*" identified in in Attachment A.

III. PROJECT ANALYSIS: GENERAL PLAN AMENDMENT & REZONING

Project Overview

The 1999 General Plan is a comprehensive, long-term plan for physical development and conservation in Santa Fe. It was intended to be a living document subject to amendments over time. The General Plan established the Future Land Use for parcels in the City in alignment with the themes of the plan. The two (2) parcels owned by GISF are designated "Industrial" and "Business Park" on the Future Land Use Map (FLUM).

Lot 3 is currently zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2A, 2-2 is currently zoned General Commercial (C-2). See future land use and current zoning maps in Figures 1 and 2.

Figure 1: Future Land Use. *Gray is Industrial, Purple is Business Park, Red is Community Commercial.*

Figure 2: Current Zoning. *Gray is I-2, Light Purple is I-1, Red is C-2.*

The Applicant requests to rezone Lot 3, 3.877-acres, from I-1 and I-2 to C-2 to create zoning uniformity with Lot 2A, 2-2 which is currently zoned C-2. This uniformity is needed for their project because the use proposed in the Master Plan, a youth center, is permitted in C-2 zoning, but not in I-1 or I-2 zoning (See table 1).

CATEGORY Specific Use	RR	R-1 - R-6	R-7 - R-9	R-7 - I	RC-5, - RC-8	R-10 - R-29	MHP	RAC	AC**	C-1	C-2	C-4	HZ	BCD	I-1	I-2
Community Centers and Institutions																
Neighborhood and community centers, including youth and senior centers	S	S	S		S	S		S		P	P	P	P	P		

Table 1: SFCC Table 14-6.1-1*, Table of Permitted Uses. "S" indicates Special Use Permit, "P" indicates Permitted, and a blank cell indicates Prohibited.*

Due to the rezoning of Lot 3 going from Industrial to Commercial, the General Plan Amendment is first required because the Code requires that any rezoning be consistent with the General Plan, per SFCC 14-3.2(B)(2)(b):

"*The general plan must first be amended before: approval of a change in zoning district designation that is inconsistent with the land use classification shown on the general plan's future land use map.*"

In compliance with this requirement, the applicant requests that the Future Land Use of Lot 3 be changed to "Community Commercial" to match the C-2 Rezoning request. A general plan amendment is not required for Lot 2A, 2-2 because a rezoning is not proposed for that parcel. See the General Plan Future Land Use definitions for Industrial, Business Park, and Community Commercial in Table 2.

Future Land Use Classification	General Plan Definition
Industrial	This classification provides and protects industrial lands for the full range of manufacturing, agricultural and industrial processing, general service, and distribution uses. Unrelated retail and commercial uses that could be more appropriately located elsewhere in the city would not be permitted. Performance standards in the Zoning Ordinance will minimize potential environmental impacts.
Business Park	Business Parks shall provide areas appropriate for moderate- to low-intensity industrial and business park uses capable of being located next to commercial and residential areas with minimum buffering. Allowable uses include research and development related uses, light manufacturing, wholesaling, distribution and storage, retailing and small-scale restaurants as a related use only, and offices in a master planned landscaped setting. No raw materials processing or bulk handling would be allowed. The Business Park designation on the Future Land Use Map of the General Plan is intended to encompass the 11, Light Industrial District, and the IP, Industrial Park District, existing zoning categories. It is recommended that both districts be re-examined for allowable uses and appropriate standards. It is further recommended that the IP zoning district be restructured with a stronger emphasis on research and development, offices, and related uses, to be developed in a master planned landscaped setting, and that the district name be modified to Business and Industrial Park in order to reflect these changes. For new development and for rezonings within the Business Park designation, the appropriateness of 1 versus BIP (IP) is determined by the nature of adjacent land uses. Where an area designated Business Park on the Future Land Use map is adjacent to non-residential zoning, an existing non-residential use, or non-residential Future Land Use, then that area may be considered for 11 zoning. Where an area designated Business Park on the Future Land Use map is adjacent to residential zoning, an existing residential use, or residential Future Land Use, then that area may be considered for IP (BIP) zoning.
Community Commercial	This classification provides sites for retail shopping areas, focus on a plaza, containing a wide variety of businesses, including retail stores; eating and drinking establishments; commercial recreation; service stations; automobile sales and repair services; financial, business, and personal services; and educational and social services.

Table 2: *General Plan Future Land Use Classification Definitions*

Figures 3 and 4 below demonstrate what the future land use and zoning of the property would look like if the Rezoning and General Plan Amendment are approved for Lot 3.

Figure 3: Future Land Use after General Plan Amendment. *Gray is Industrial, Purple is Business Park, Red is Community Commercial.*

Figure 4: Zoning after Rezoning. *Red is C-2, Gray is I-2.*

Review and Recommendation

Staff reviews General Plan Amendment and Rezoning applications for compliance with associated approval criteria (see SFCC 14-3.2(E)) and14-3.5(C)) and make recommendations to Planning Commission based on this compliance. Following a hearing, the Planning Commission makes a recommendation to Governing Body, who shall take final action to approve or deny cases. Conditions of Approval and Technical Corrections shall not be imposed on general plan amendments or rezonings.

IV. PROJECT ANALYSIS: MASTER PLAN

Project Description

The Applicant's plan for the Property includes constructing a 55,478 square foot GISF youth center building including classrooms, gathering spaces, a gymnasium, and administrative offices (the "Project"). The Project also includes a separate teen enterprise space and caretaker's residence. Outside, the space will house gardens, forested areas, a play field, greenhouse, chicken coop, pavilion, and connected pathways on 2.7-acres of the site. The main building is situated on the southeast corner of the property and parking is proposed off two (2) entrances along Rufina Circle.

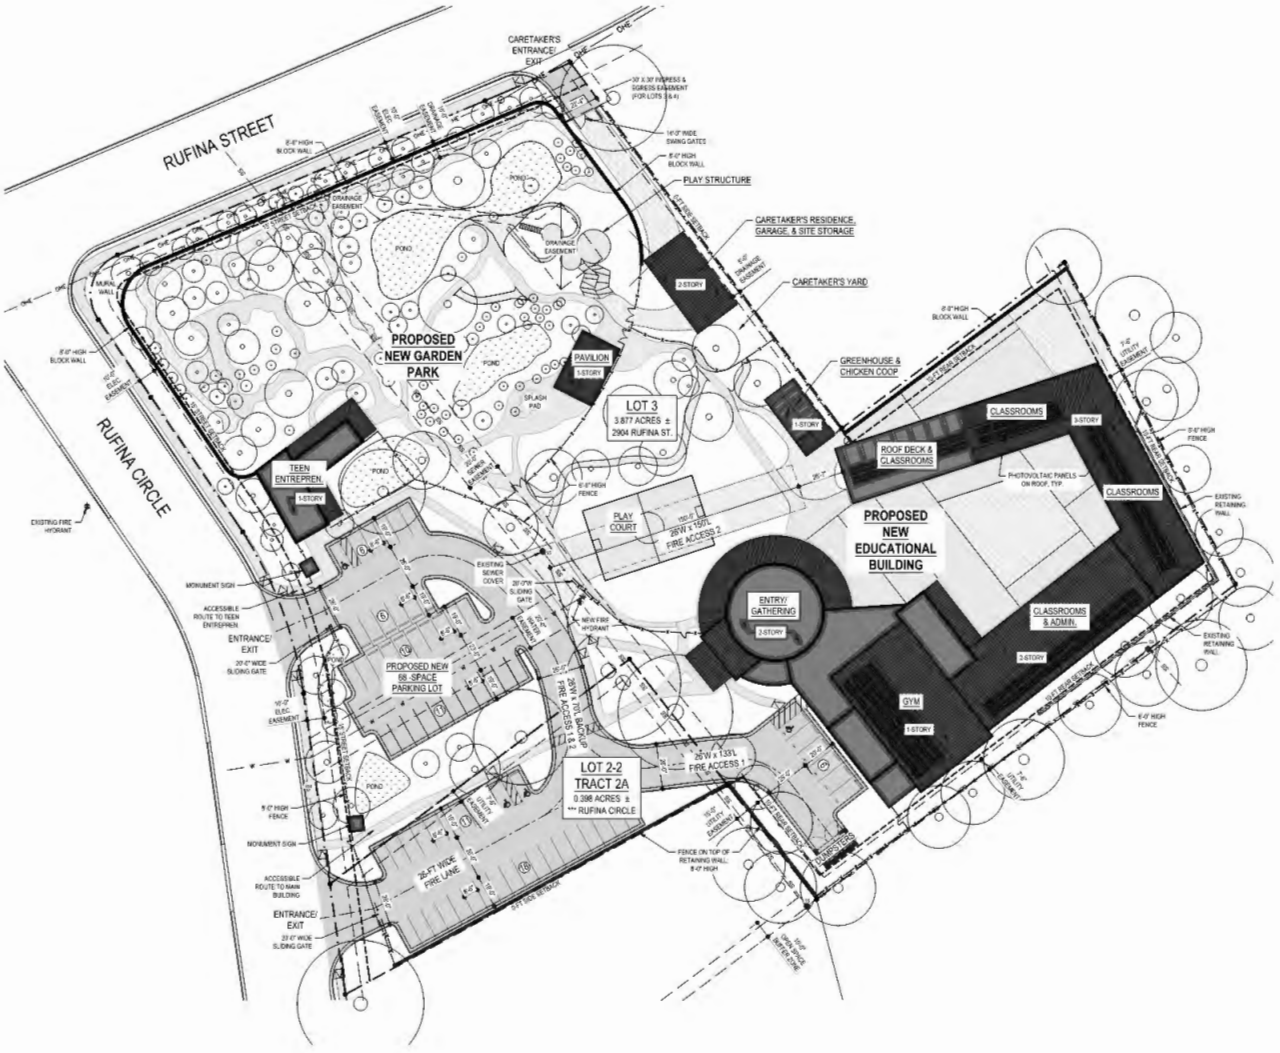

Figure 5: Proposed Site Master Plan. *See full site plans in Attachment C-6.*

Project Zoning

The Property is split between two (2) parcels. Lot 2A, 2-2 is currently zoned General Commercial (C-2) while Lot 3 is currently zoned Light Industrial (I-1) and General Industrial (I-2). This Project includes a rezoning request to change Lot 3 to C-2 to create uniformity between both parcels. This change will allow for the proposed youth center use. The Applicant has a Condition of Approval to either consolidate the two lots or ensure appropriate easements are in place in perpetuity at the time of Development Plan for this project.

For more information on the Rezoning request and General Plan Amendment, reference Section III of this Staff Report, *supra*.

In accordance with the rezoning request, the Project will meet all dimensional standards for C-2 zoning shown in Table 3.

Requirement	C-2	Proposed
Height	45 feet maximum	45 feet
Lot Coverage	60% maximum	24%
Open Space	25% non-residential and mixed use 0.25 x 186,291 sq ft = 46,555 sq ft	118,563 sq ft (63.7%)
Setbacks	Street: 15 feet Rear: 10 feet Side: 0 feet	Street: 15 feet + Rear: 10 feet + Side: 0 feet +

Table 3: *C-2 Dimensional Standards*

Surrounding Zoning and Land Use

The GISF site is outlined in yellow in Figure 6. Surrounding zoning includes primarily General Industrial (I-2) (Gray), with some areas of Light Industrial (I-1) (Purple) and General Commercial (C-2) (Red). The uses adjacent to the east of the Property include a variety of appliance, repair, and welding shops. South of the property are hotels along Cerrillos Rd and an auto repair shop along Rufina Circle. West of the property are mixed office buildings, and north is a bottling warehouse.

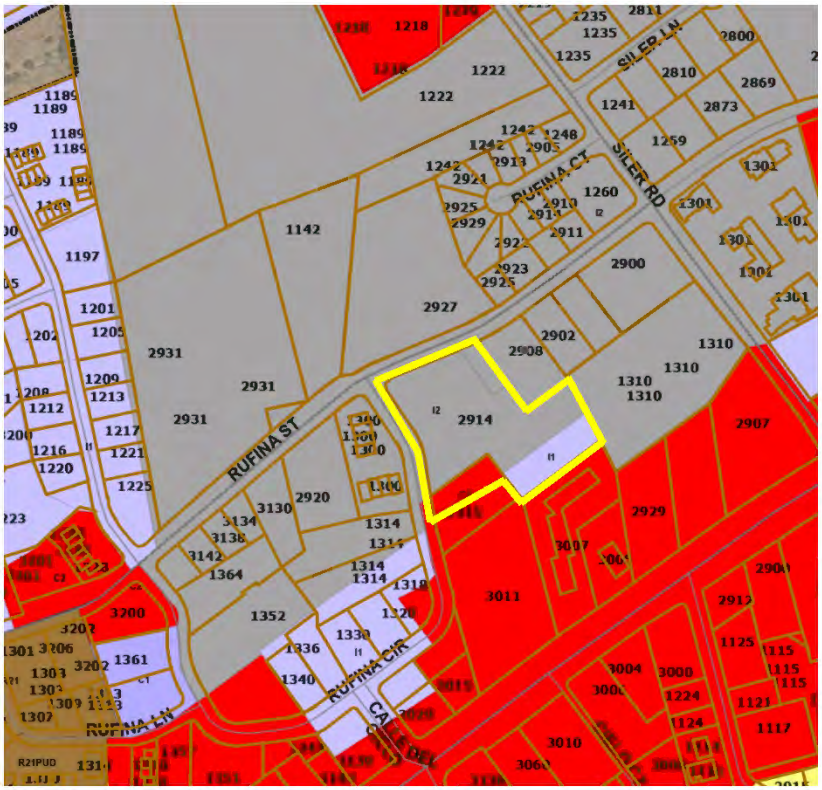

Figure 6: *Surrounding zoning. 2904 Rufina outlined in yellow.*

Existing Conditions and Terrain Management

The Property was previously used as a plant nursery but is currently vacant except for a few remaining greenhouses in the southeast of the Property (see Figure 7). The site slopes from southeast to northwest, with an overall grade change of approximately thirty-two (32) feet. There are no floodplains on the site and the Project includes passive storm water harvesting systems.

Figure 7: *Oblique view of existing conditions. Yellow border approximates property boundaries.*

In the past this area of town served as the industrial center for the community. Over time, many of the heavy industrial uses have moved from this area as it has urbanized in response to demand for more flex office, warehousing, and other commercial uses due to the site's proximity to Cerrillos Road and adjacency to properties in the General Commercial (C-2) zone district.

The applicant included a preliminary landscaping plan (Attachment C-6) that identifies the preservation of as many existing trees as feasible. The Applicant plans to incorporate landscaping into stormwater harvesting systems and included the planting of new trees on site and along adjacent streets.

Conditions of Approval and Technical Corrections for terrain management and landscaping can be found in Attachment A.

Traffic, Access, and Parking

The Project proposes the main entrances to the site be via two (2) driveways along Rufina Circle. A third access will exist along Rufina St to serve the caretakers residence.

A Traffic Impact Analysis (TIA) was completed by Bohannan Huston, Inc for this Project. In the 2038 Build scenario, the Rufina Street and Rufina Circle (east) intersection and two (2) new access driveways onto the property will operate acceptably. To mitigate the overall traffic impacts of this development, the TIA made the following recommendations:

- *Installation of a southbound left turn lane into the property off Rufina Circle,*
- *Installation of an eastbound right turn lane at the intersection of Rufina St and Siler Rd,*
- *Installation of a westbound left turn lane at Rufina Circle and Calle de Cielo,*

- *Median modifications to the Cerrillos Rd and Calle de Cielo intersection,*
- *Restriping at the intersections of Rufina St and Rufina Cir E and Rufina St and Rufina Cir W,*
- *All designs for street improvements shall satisfy the Manual on Uniform Traffic Control Devices (MUTCD) and City of Santa Fe requirements.*

The applicant has conditions of approval from the Traffic Division to address at the time of Development Plan for this site (Attachment A). To view the TIA, see Attachment C-5.

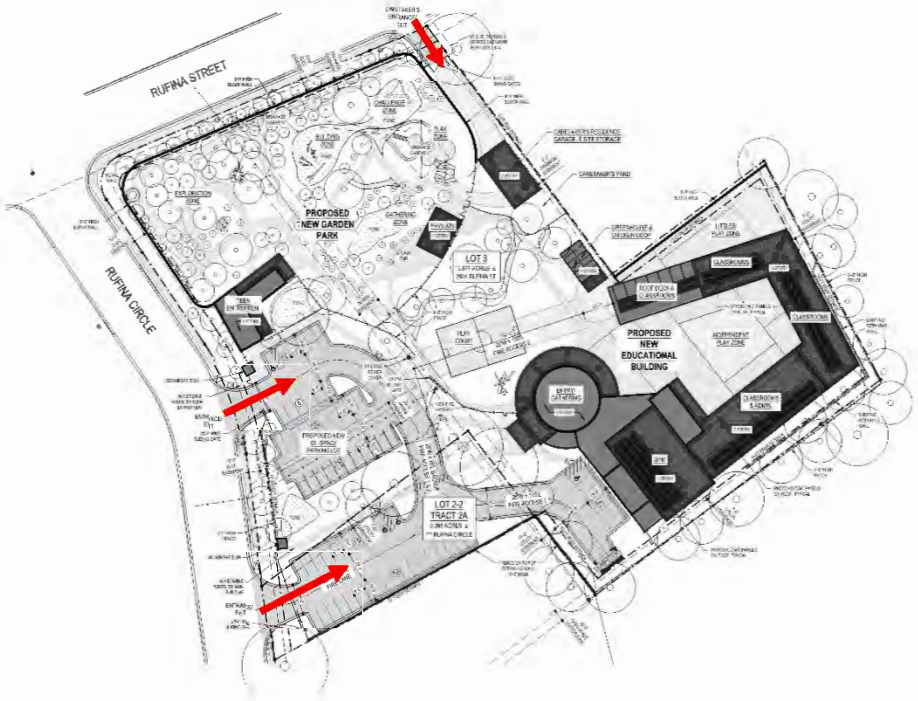

Figure 8: *Red arrows showing site access. For more details view the TIA and Master Plan in Attachments C-5 and C-6.*

The Master Plan proposes dedicated pickup and drop-off areas for students along the eastern edge of the parking area. To limit access and enhance safety of students, a mix of 8-foot-tall block walls, fences, and retaining walls with fences on top are proposed along the exterior of the property. Within the property, areas of 6-foot-tall fences are proposed to separate various spaces.

SFCC Table 14-8.6-1 does not define parking requirements for a youth center use. The applicant approximated a parking demand of 68 spaces, broken down in Table 4. To confirm the parking requirements for this development, a parking analysis will be required at time of Development Plan.

Parking Demand	Estimated Required Spaces
Peak Daily Staff Demand	42 spaces
Facility Vehicles	5 spaces
Guests/Overflow	21 spaces
Total Estimated Required Spaces	68 spaces
Total Parking Provided (Inc. 4 ADA)	**68 spaces**

Table 4: *Estimated Parking Needs*

Utilities

Water: There are existing 6-inch water mains along Rufina St and Rufina Circle. This property is serviced via a 2-inch water service line off Rufina Cir. The existing 5/8-inch water meter on the property is to be replaced by a double 1-inch meter. Additionally, a 6-inch public fire line will be connected off Rufina Cir into a new fire hydrant on the Property. The applicant has submitted a preliminary water budget and water plan with the City, subject to the Conditions of Approval from the City's Water Division in Attachment A.

Existing Girls Inc. Hillside Facilty - Average Annual Water Consumption	**101,570**	**GPY**
Exisitng Facility: Hillside Drive (GFA)	**4,886**	**SF**
Exisitng Facility Annual Usage:	**20.8**	**Gal/SF**
Proposed Facility: Rufina Street (GFA) =	**55,478**	**Square Feet**
Projected Annual Water Usage (20.8 Gal/SF) =	**1,153,275**	**GPY**
	3.54	**AFY**
Landscape Irrigation =	**TBD**	**GPY**
	TBD	**AFY**
Water Budget Subtotal =	**3.54**	**AFY**
Existing Rufina Water Usage Credit =	**5.27**	**AFY**
Per SFCC §14-8.13(B)(3)		
DEVELOPMENT WATER BUDGET =	**(1.73)**	**AFY**
9.8% Contingency per SFCC §14-8.13(E)(1)=	**(0.17)**	**AFY**
TOTAL WATER DEMAND OFFSET =	**(1.90)**	**AFY**

Figure 9: *Preliminary Water Budget*

Sewer: The Property is served by an existing 8-inch public sewer line that cuts north-south through the property via a 10-foot utility easement. The Applicant proposes installing a service connection to the main building and a 4-inch service line for the other structures. The City's Wastewater Division has Conditions of Approval the applicant must satisfy Prior to Recordation of a future Development Plan for this Property (Attachment A).

Fire Prevention and Emergency Access

Fire and emergency access requirements will be satisfied by the project's compliance with the International Fire Code 2021. All structures within the proposed development plan include fire alarm systems and sprinklers. The site access road is capable of supporting the load of a 75,000 lb fire apparatus and provides two remote exits. Two (2) fire hydrants (1 existing, 1 new) will serve the site.

Archaeology
The Project is within the Suburban Archaeological Review District, and will require archaeological clearance if the installation of subsurface utility lines will exceed 550-linear feet including water, gas, electric, power, sewer, etc (this may change to 200 linear feet with the adoption of the Land Development Code update).

Architecture, Lighting, and Signage
The Project does not include descriptions of the proposed architecture or elevations. Should the Master Plan be approved, the Applicant will be required to submit architectural drawings and descriptions detailing compliance with SFCC 14-8.7 at the time of Development Plan.

An outdoor lighting plan was not included with the Master Plan either, but the Applicant has a Condition of Approval to do so in compliance with SFCC 14-8.9(C), "*Outdoor Lighting*," Prior to Recordation of a Development Plan for this site (Attachment A).

Signage was not included in the Master Plan but is reviewed during the Building Permitting process – after the Master Plan and future Development Plan.

Review and Recommendation
Staff reviews Master Plan applications for compliance with associated approval criteria (see SFCC 14-3.9(D)) and completeness of submission requirements (see SFCC 14-3.9(C)). Based on this, Staff makes a recommendation to Planning Commission who then makes a recommendation to Governing Body. Governing Body takes final action to approve or deny Master Plan cases subject to Conditions of Approval and Technical Corrections.

V. GENERAL PLAN AMENDMENT APPROVAL CRITERIA SECTION SFCC 14-3.2(E)(1)

SFCC Section 14-3.2 governs the authority, procedures, and restrictions for amendments to the general plan. Prior to recommending approval of an amendment to the general plan, the Planning Commission must make certain findings based off the approval criteria. The Criteria for approval of General Plan Amendment are detailed below:

14-3.2(E)(1)(a): **Consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *Economic development goals are upheld by the provision of quality childcare programs that support working parents. The 2004 report, Cultivating Santa Fe's Future Economy, by Angelou Economics, recognizes the important role of quality of life in economic development. In Strategy Four: Economic Development, the report states, "The most successful economic development regions in the U.S. also contain very high quality-of-life amenities. Quality of life encompasses many attributes, including healthcare, safety, parks and recreation, arts and culture, and environmental cleanliness. A quality environment plays a large part in the choice of young, skilled professionals in deciding where to locate. It also plays a significant role in retaining good citizens." The GISF program is a quality-of-life amenity serving the Santa Fe community and young families, enhancing the attractiveness of Santa Fe for existing residents and newcomers, alike. In addition, GISF will employ approximately 45 staff persons. The new facility will serve the growing southwest part of town, home to a majority of Santa Fe's families. Lastly, the site has existing access via two public rights-of-way and is currently served by public utility infrastructure.*	
Staff Response: Staff concurs that the proposed amendment is consistent with Santa Fe's growth management and economic development goals as outlined in the General Plan, Angelou Report, and the 2008 Economic Development Strategy. The amendment supports the City's efforts to direct growth toward areas with existing infrastructure and services and encourages balanced economic development. Overall, the proposal aligns with the General Plan's vision for sustainable coordinated urban growth and is consistent with Criterion 1.	

14-3.2(E)(1)(b): **Consistency with other parts of the general plan;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *This General Plan Amendment conforms to the following General Plan Themes and Policies:* ***Themes*** *1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer*	

programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

Staff Response:
Staff finds that reclassifying Lot 3 as 'Community Commercial' is consistent with the General Plan Themes and Policies listed by the Applicant. The reclassification will allow for a youth center that promotes quality of life for Santa Fe residents and economic diversity for the Siler-Rufina area. Additionally, this project will provide infill development consistent with General Plan Themes and Policies.

14-3.2(E)(1)(c): **The amendment does not:** **(i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or** **(ii) affect an area of less than two acres, except when adjusting boundaries between districts; or** **(iii) benefit one or a few landowners at the expense of the surrounding landowners or the general public;**	**Criterion Met:** (Yes/No) **YES**

Applicant Response:
(i) The proposed youth center is consistent with the character of the diverse Siler-Rufina neighborhood, which is home to several non-profit community organizations, including The Food Depot, Kitchen Angels, and Homewise.

(ii) The subject parcel comprises 3.87 acres. Nevertheless, the property is adjacent to the Community Commercial designation along its south boundary.

(iii) Contrary to harming surrounding landowners or the general public, this General Plan Amendment, and the new GISF youth center it will enable, provides numerous benefits. The redevelopment of the vacant site with a new, modern facility, inclusive of 2.7 acres of open space, will revitalize the property and beautify the neighborhood. Furthermore, GISF is an important community service organization that mentors school-age girls with dynamic after school and summer programs.

Staff Response:
(i) The Siler-Rufina neighborhood is home to a mix of industrial, commercial, and non-profit organizations. Reclassifying Lot 3 will allow for continued infill development consistent with the character of this area. This reclassification will also create consistency with lots south of this property that are currently classified 'Community Commercial.'

(ii) Staff finds that the subject parcel is 3.87-acres, exceeding the required 2-acres.

(iii) The General Plan Amendment to reclassify the lot to "Community Commercial" will create the ability to rezone the lot to "General Commercial," which allows for a variety of uses that have potential to serve the community at large, including the proposed youth center in the Master Plan. Reclassifying this lot can also encourage the redevelopment of the infill site, stated as a priority in the General Plan under policy 3-G-3.

14-3.2(E)(1)(d): **An amendment is not required to conform with Subsection 14-3.2(E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *This General Plan Amendment promotes the general welfare, because it will enable the construction of a new GISF youth center, offering after school and summer programs for school-age girls and much-needed support for working parents.*	
Staff Response: The proposed amendment conforms to the requirements of 14-3.2(E)(1)(c), while also promoting general welfare by allowing for the proposed Master Plan use of a youth center, offering quality care to school aged children and accelerating infill development of this site.	

14-3.2(E)(1)(e): **Compliance with extraterritorial zoning ordinances and extraterritorial plans;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *N/A*	
Staff Response: N/A	

14-3.2(E)(1)(f): **Contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *Redevelopment of this infill site provides for efficient and economic development, leveraging existing infrastructure, and supporting the harmonious development of Santa Fe. This request not only supports the general welfare of the community by providing Santa Fe families with a safe and reliable place to send their children but is the sole motivation for this effort.*	
Staff Response: Staff agrees with the applicant and finds that reclassifying Lot 3 to 'Community Commercial' supports harmonious infill development that is efficient and consistent with properties in the vicinity which have been rezoned from industrial to commercial and subsequently redeveloped (Ord. #2016-44, #2022-4).	

14-3.2(E)(1)(g): **Consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The City of Santa Fe Land Use and Urban Design Plan recognizes the Siler Neighborhood as a Mixed-Use Corridor, stating, "Development and redevelopment along these corridors should be encouraged to*	

provide greater density of commercial uses…". Furthermore, the Plan encourages the re–use of blighted or failing buildings and businesses. The redevelopment of a former, dilapidated nursery on an infill site in the Siler Neighborhood thoroughly aligns with these objectives. Furthermore, the City of Santa Fe Economic Development Department branded the subject neighborhood as the Siler-Rufina Nexus in a recent report issued to spur investment in the City's Opportunity Zones. In keeping with this effort, the proposed GISF facility is a significant investment in the neighborhood, increasing job opportunities and redeveloping a deteriorated site.
Staff Response: Staff agrees with the Applicant's response while additionally acknowledging the previous references to the City's General Plan policies. The proposed change does not conflict with existing city ordinances or regulations and the applicant's Master Plan and future development plan of the site will conform with the City of Santa Fe's Land Use Code and Policies.

VI. REZONING APPROVAL CRITERIA SECTION SFCC 14-3.5(C)

SFCC Section 14-3.5 governs the authority, procedures, and restrictions for Rezonings. Prior to recommending approval of a Rezoning, the Planning Commission must make certain findings based off the approval criteria. The Criteria for approval of Rezoning's are detailed below:

14-3.5(C)(1)(a): **The planning commission and the governing body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:** **(a) one or more of the following conditions exist:** **(i) there was a mistake in the original zoning;** **(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or** **(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;**	**Criterion Met:** (Yes/No) **YES**

Applicant Response:

(i) *N/A*

(ii) *This area has evolved over the years into a diverse, mixed-use neighborhood of recreational uses, non-profit institutions, a mix of housing types, and various commercial enterprises. The rezone will support the construction of the proposed GISF facility, which aligns well with this current pattern of development.*

(iii) *Rezoning the property to C-2 is more advantageous to the community. A vacant site falling into disrepair creates no community benefit. Redevelopment of this infill site vitalizes the neighborhood and supports the provision of critical community services. Furthermore, the rezone request aligns with the Themes and Policies of the General Plan, as summarized below:*

Themes

1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

Staff Response:

(i) Staff did not find a mistake in the original zoning.

(ii) In recent years, the Siler-Rufina area has seen increasing multifamily residential developments and rezonings from industrial to commercial that have changed the character of the area (Ord. #2016-44, #2022-4). Commercial establishments and non-profit institutions have also come to occupy many industrial spaces surrounding the property. Staff recognizes a change in the character of the area.

(iii) Staff finds the rezoning of this parcel to "General Commercial" to be more advantageous than the currently vacant industrial site. This change encourages redevelopment of the infill site, and the

associated Master Plan proposes a quality-of-life amenity to the community, supported by the General Plan.

14-3.5(C)(1)(b): **All the rezoning requirements of Chapter 14 have been met.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *All the rezoning requirements of Chapter 14 have been met. A Pre-Application Conference was conducted with the Development Review Team on December 12, 2024, and the Early Neighborhood Notification Meeting was held on July 23, 2025*.	
Staff Response: Staff finds that the rezoning requirements of Chapter 14 have been met, including SFCC 14-3.1 "*Applicable General Provisions*," and SFCC 14-3.5 "*Rezonings*." This rezoning application has also been reviewed by the Development review Team (DRT) for compliance with Chapter 14.	

14-3.5(C)(1)(c): **The rezoning is consistent with the applicable policies of the general plan, including the future land use map.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *A Request to amend the General Plan Future Land Use Map to Community Commercial accompanies this rezone application, which aligns with the requested C-2 zoning. Furthermore, the project conforms to the General Plan as outlined below:* ***Themes*** *1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.* *1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.* *1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.* *1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.* *1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the*	

community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

Staff Response:

The rezoning alone does not align with the Future Land Use designation of this parcel which currently includes "Industrial" and "Business Park." However, the applicant is requesting a General Plan Amendment to designate the Future Land Use of this parcel "Community Commercial," which would align with the rezoning and proposed Master Plan use of a youth center. The project aligns with other themes and policies of the General Plan including but not limited to quality of life, sustainable growth, urban form, and community-oriented development.

14-3.5(C)(1)(d): **The amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city.**	**Criterion Met:** (Yes/No) **YES**

Applicant Response:

General Plan Figure 4-4, Urban Sub-Areas, designates the 3.87-acre subject property and surrounding area as an "Infill Area." The Growth Management Chapter of the General Plan specifically calls for prioritization of infill development in Santa Fe in order to maximize the efficient use of public infrastructure, while meeting the demand for urban land for development and directing new growth towards the historic core of the city rather than on the undeveloped fringes. The proposed infill project is in alignment with

these strategic directives and is responsive to community needs for public services and community engagement in this area of the City. General Plan Section 4.1 states, "In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows" to help "create efficient use of already existing roads and utilities, help ensure cost-efficient public transit, and provide the type of housing that will be in demand…".
Staff Response: SFCC Section 14-3.5(C)(2)(b) prohibits a rezoning if the rezoning will "affect an area of less than two acres." This Parcel is 3.87-acres and therefore exceeds the required 2-acres. The Project meets city policies regarding the provision of urban land sufficient to meet the amount, rate, and geographic location of growth of the city. The Project is located within an infill area and proposes to meet the needs of the community while being served by sufficient infrastructure.

14-3.5(C)(1)(e): **The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The subject property is served by existing roadways and public water and sewer infrastructure. Since the program includes the development of over 2.7 acres of outdoor recreational space, the GISF facility will not affect the capacity of area parks.*	
Staff Response: Staff from the relevant City departments, including water, wastewater, and traffic engineering have reviewed the zoning criteria as it relates to the Master Plan and determined that the property is sufficiently served by infrastructure so long as the Applicant meets the Conditions of Approval and Technical Corrections identified in Attachment A of this report.	

14-3.5(C)(2)(a): **Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:** **Allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The proposed youth center is consistent with the character of the diverse Siler-Rufina neighborhood, which is home to several non-profit community organizations, including The Food Depot, Kitchen Angels, and Homewise.*	
Staff Response: The Applicant stated in response to (1)(a)(iii) the General Plan Themes and Policies that this project aligns with. Staff finds that this use fits the surrounding Siler neighborhood which is currently a mix of industrial, commercial, and multi-family dwellings.	

14-3.5(C)(2)(b): **Affect an area of less than two acres, unless adjusting boundaries between districts; or**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The subject parcel is 3.87 acres.*	
Staff Response: The subject parcel is 3.87-acres, therefore exceeding the required 2-acres for a rezoning.	

14-3.5(C)(2)(c): **Benefit one or a few landowners at the expense of the surrounding landowners or general public.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *Contrary to harming surrounding landowners or the general public, this rezone, and the new GISF youth center it will enable, provides numerous benefits. The redevelopment of the vacant site with a new, modern facility, inclusive of 2.7 acres of open space, will revitalize the property and beautify the neighborhood. Furthermore, GISF is an important community service organization that mentors school-age girls with dynamic after school and summer programs.*	
Staff Response: The C-2 Zoning for Lot 3 is consistent with the existing land use patterns in adjacent areas south of the parcel. This alignment indicates that the rezoning does not disproportionately benefit a select few at the expense of the wider community. Furthermore, the Master Plan of a youth center for this site is anticipated to bring broader economic benefits, such as increased employment and expanded services, which would serve the general public interest.	

SFCC 14-3.5(D): Additional Applicant Requirements

14-3.5(D)(1): **If the impacts of the proposed development or rezoning cannot be accommodated by the existing infrastructure and public facilities, the city may require the developer to participate wholly or in part in the cost of construction of off-site facilities in conformance with any applicable city ordinances, regulations or policies;**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The property is currently served by existing public roadway and utility infrastructure. The Applicant is prepared to construct any necessary infrastructure upgrades at the time of property development, and these improvements will be documented in the approved development plans.*	
Staff Response: The Traffic Impact Analysis (TIA) submitted by the Applicant identified the need for various streets improvements to the area surrounding the proposed development due to the increased traffic volume a youth center will cause. The Applicant understands these infrastructure improvements and acknowledges that the City may require the developer to construct necessary infrastructure improvements.	

14-3.5(D)(2): **If the proposed rezoning creates a need for additional streets , sidewalks or curbs necessitated by and attributable to the new development , the city may require the developer to contribute a proportional fair share of the cost of the expansion in addition to impact fees that may be required pursuant to Section 14-8.14.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The Traffic Impact Analysis identifies the need for a southbound left-turn lane on Rufina Circle serving the north access drive. No other off-site improvements are warranted. The developer is aware that required upgrades by the City of Santa Fe will be at the expense of the developer.*	
Staff Response: Additional streets, sidewalks, and curb improvements shall be determined when the Applicant submits a Development Plan for this site. The Applicant acknowledges this criterion.	

VII. MASTER PLAN APPROVAL CRITERIA SECTION SFCC 14-3.9(D)(1)

SFCC Section 14-3.9 governs the authority, procedures, and restrictions for Master Plans. Prior to recommending approval of a Master Plan, the Planning Commission must make certain findings based off the approval criteria. Per SFCC 14-3.9(D)(2), approval of the Master Plan may specify conditions of approval that are necessary to ensure compliance with the provisions of Chapter 14 and implement the policies of the general plan, including:

(a) requirements for construction and funding of private or public infrastructure, including utilities, municipal buildings, roads, parks and trails;
(b) provisions for the use and protection of areas of special hazards or environmental sensitivity;
(c) modifications to the proposed plan, including changes to the boundaries of land use tracts, patterns of land uses, infrastructure plans, phasing plans and special development standards and guidelines.

The Criteria for approval of Master Plans are detailed below:

14-3.9(D)(1)(a): **The master plan is consistent with the general plan**	**Criterion Met:** (Yes/No) **YES**

Applicant Response:
The proposed Master Plan aligns with various Themes and Polices in the General Plan, as summarized below.

Themes
1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the

community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood. Current zoning comprises Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial).

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

Staff Response:

The Master Plan is consistent with the General Plan themes and policies listed by the applicant, including quality of life, economic diversity, sustainable growth, urban Form, community oriented development, and mixed use. The proposed use is currently not supported on the Future Land Use Map, but would be if the General Plan Amendment to change Lot 3 to "Community Commercial" is approved.

14-3.9(D)(1)(b): **The master plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts;**	**Criterion Met:** (Yes/No) **YES**

Applicant Response:

The C-2 zoning district is a robust mixed-use zoning category that supports both commercial uses and residential development at higher densities. The proposed GISF youth center is a permissible use in the C-2 district and an appropriate commercial development in the Siler-Rufina neighborhood. Furthermore, the Master Plan demonstrates compliance with C-2 development standards with respect to height, lot coverage, open space, terrain management, and landscaping.

Staff Response:

The Master Plan is consistent with the purpose and intent of the proposed C-2 zoning district and has been conditioned to meet specific design criteria that shall apply when a Development Plan application is

submitted. The Master Plan conforms with dimensional standards for C-2 zoning including height, lot coverage, setbacks, and lot size.

14-3.9(D)(1)(c): **Development of the master plan area will contribute to the coordinated and efficient development of the community; and**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The Master Plan includes provisions for pedestrian and vehicular connectivity to the surrounding area, as called for in the General Plan. In addition, the subject property makes efficient use of existing infrastructure as an infill site – a value repeatedly emphasized in the General Plan.*	
Staff Response: The Master Plan proposes efficient use of an infill parcel within the diverse Siler-Rufina area, utilizing existing infrastructure and improving connectivity. This use is an asset to the general welfare of the community as it will allow a quality-of-life amenity to be in a more accessible location for the growing Santa Fe community.	

14-3.9(D)(1)(d): **The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.**	**Criterion Met:** (Yes/No) **YES**
Applicant Response: *The existing roadway and utility infrastructure are adequate to serve the project. The Traffic Impact Analysis (TIA) demonstrates that the roadway network has the capacity for the proposed development, with the inclusion of a new left-turn lane serving the north access drive on Rufina Circle.*	
Staff Response: The proposed infrastructure has been reviewed based on the regulations established in Chapter 14 by Land Use Staff and the Development Review Team (DRT) encompassing fire, water, wastewater, public works, terrain management, traffic, and landscaping. Existing and proposed infrastructure can accommodate the development of this site as proposed, with street modifications as described in the Applicant's Traffic Impact Analysis. Individual DRT comments can be found in Attachment A of this report.	

VIII. EARLY NEIGHBORHOOD NOTIFICATION

The Applicant conducted an Early Neighborhood Notification (ENN) meeting on July 23, 2025. Members of the Applicant's team, City Staff, and a local news reporter were in attendance. The Applicant team presented an overview of the Project and did not receive any questions or comments. Meeting notes from the Early Neighborhood Notification meeting can be found in Attachment C-4.

IX. EXPIRATION

SFCC Section 14-3.19 sets expiration, extension, and amendment criteria for certain development approvals. Both General Plan Amendments and Rezonings are not included in this section and are therefore not associated with any expirations. Master Plans, however, are subject to SFCC 14-3.19(B)(1) which states:

"*Approval of a master plan shall expire five years after all applicable appeal periods, and any appeals of the final action approving it unless:*

(a) approval is granted for a development plan or subdivision plat within the master plan boundaries; or

(b) *actual development of the site or off-site improvements is begun and is continued pursuant to Subsection 14-3.19(B)(6).*"

Conditions of Approval & Technical Corrections

Conditions of Approval			
#	**Condition of Approval**	**Dept. or Division**	**To be completed:**
1	Archaeological review will be required if The applicant exceeds 550-linear feet of utility lines including but not limited to water, gas, sewer, electric, power, etc. 14-3.13(B)(3) Suburban Archaeological Review District In this district, an archaeological clearance permit shall be required prior to approval of the final development plan or plat for the following projects: All annexations, rezonings, subdivisions, planned unit developments , or other development requiring approval by the Planning Commission, having over ten (10) acres All city projects over two (2) acres in size. All city park projects over one (1) acre in size. (4) Utility Mains: An archaeological clearance permit is required for new construction of sewer mains or main lines of other utilities such as telephone lines, gas lines, and fiber optics, including the entire construction easement: With an extension of sixty (60) feet or more if the main is in the historic downtown archaeological review district; With an extension of five hundred fifty (550) or more if the main is in the river and trails or suburban archaeological review district.	Archaeology	Prior to building permit approval
2	Add all textures/symbols used on Proposed Site Master Plan (Sheet C-2) into legend (ex: gravel texture, utility lines, log shaped drawings, etc)	Current Planning	Prior to public hearing (COMPLETED)
3	~~Appropriate easements must be in place to cross between Lot 3 and 2-2 in perpetuity~~ Applicant shall consolidate Lots 3 and 2A, 2-2 concurrent with Development Plan review **or** place appropriate easements between Lots 3 and 2A, 2-2 in perpetuity concurrent with Development Plan review.	Current Planning	~~Prior to public hearing~~ Prior to development plan approval
4	Add Case #2025-11030 to Master Plan sheets	Current Planning	Prior to public hearing (COMPLETED)
5	Shall comply with the most currently adopted International Fire Code	Fire	Prior to public hearing (COMPLETED)
6	Shall verify compliance with section 903 Automatic Sprinkler Systems of the IFC 2021	Fire	Prior to public hearing (COMPLETED)

Conditions of Approval			
#	**Condition of Approval**	**Dept. or Division**	**To be completed:**
7	Shall verify compliance with section D105 Aerial Fire Apparatus Access Road as per IFC 2021	Fire	Prior to public hearing (COMPLETED)
8	Historic drainage calcs should include offsite flows onto property (if applicable)	Rivers and Watershed	Prior to Development Plan approval (In drainage report)
9	Provide a full drainage report	Engineering	Prior to Development Plan approval
10	Grading and Drainage plan must accurately show locations and dimensions of existing versus new impervious surfaces for verification. Ponding area volumes must be established for each ponding area showing dimensions. Label each pond with a pond number and the volume.	Engineering	Prior to Development Plan approval
11	Include pond sections and show how ponds will overflow.	Engineering	Prior to Development Plan approval
12	Include lighting plan with photometrics	Engineering	Prior to Development Plan approval
13	A financial guarantee will be required for all public and quasi-public infrastructure. The guarantee must be in place prior to recordation of development plan.	Engineering	Prior to Development Plan approval
14	The 6-inch sewer service line(s) will be required to connect to a sewer manhole	Wastewater	Prior to recordation
15	All 4-inch sewer lines shall connect directly to the public sewer lines	Wastewater	Prior to recordation
16	The Wastewater Division has concerns for the existing public sewer line with regards to the sites existing conditions. We are requesting to do a walk thru with the design engineer to discuss the landscaping, access and the condition of the sewer line in the field	Wastewater	Prior to recordation
17	An approved Agreement to Construct and Dedicate (ACD) will be required for new fire and domestic water services	Water	Prior to building permit approval
18	An approved Water Plan will be required for all new public water infrastructure and fire services.	Water	Prior to development plan approval
19	A separate irrigation meter will be required if the total landscaped area is 1,000 square feet or greater. An approved backflow prevention device shall also be installed beyond the meter on any new irrigation service.	Water	At time of development

Conditions of Approval			
#	**Condition of Approval**	**Dept. or Division**	**To be completed:**
20	Any re-grading of site over existing water mains shall maintain a minimum of 4 feet of cover and not exceed 5 feet of cover. Depth of existing main to be adjusted to maintain a minimum of 4 feet of cover and not exceed 5 feet of cover if site grading impacts these depth requirements.	Water	At time of development
21	Each lot shall be served by a separate City water service.	Water	At time of development
22	See attached comments response letter dated 9/25/25 from Wilson & Company regarding Bohannon Huston, initial draft Traffic Impact Study dated 8/725	Traffic	Prior to public hearing (COMPLETED)
23	See attached comments response letter dated 10/17/25 from Wilson & Company regarding Bohannon Huston, revised draft Traffic Impact Study dated 10/6/25	Traffic	Prior to Development Plan Approval
24	Elevations submitted for the development plan shall include a detailed Points analysis that is intergraded with the Elevations for review.	Current Planning	At time of Development Plan

Technical Corrections			
#	**Technical Correction**	**Dept. or Division**	**To be completed:**
1	Provide a landscape design compliant with City of Santa Fe Codes Chapter 14-8.4 Landscape and Site Design.	Landscape, Irrigation, Outdoor Lighting	Prior to recordation of Development Plan
2	Provide a landscape irrigation design compliant with City of Santa Fe Codes Chapter 14-8.4(E) Landscape and Site Design Water Harvesting and Irrigation Standards and the City of Santa Fe Landscape Irrigation Design Standards (LIDS) Manual.	Landscape, Irrigation, Outdoor Lighting	Prior to recordation of Development Plan
3	Provide an outdoor lighting plan with photometric data per 14-8.9(C) COSF code. A lighting design with footcandle points is required.	Landscape, Irrigation, Outdoor Lighting	Prior to recordation of Development Plan
4	Include attached notes on development plan.	Engineering	Prior to recordation of Development Plan
5	The Wastewater Division shows all existing public sewer lines being 8-inch concrete pipe	Wastewater	-
6	Developer will work with CoSFW Engineering to appropriately size and locate meters and fire hydrants. CoSFW will not approve new public infrastructure on private property	Water	Prior to water plan approval

Cases #2025-11028, 2025-11029, and 2025-110330. 2904 Rufina St General Plan Amendment, Rezoning, and Master Plan. JenkinsGavin, Inc, Agent, for Girls Inc of Santa Fe, Applicant, requests a General Plan Amendment, Rezoning, and Master Plan for the property at 2904 Rufina St. This property is comprised of 2 parcels totaling approximately 4.85 acres, currently zoned I-1 (Light Industrial), I-2 (General Industrial), and C-2 (General Commercial).

This application was received on August 11, 2025 and has been reviewed by Planning Division staff (Staff) and the City's Development Review Team (DRT). Attached are the initial DRT review comments including conditions of approval and technical corrections. I would like to highlight and summarize the following key items:

A. Initial Planning Division Review Summary

Your General Plan Amendment, Rezoning, and Master Plan applications have been reviewed by Planning Division staff and the following necessary revisions have been identified:

1. Add all textures/symbols used on Proposed Site Master Plan (Sheet C-2) into legend (ex: gravel texture, utility lines, log shaped drawings, etc)
2. ~~Appropriate easements must be in place to cross between Lot 3 and 2-2 in perpetuity~~
3. Add Case #2025-11030 to Master Plan sheets
4. Submit a parking analysis at time of Development Plan
5. All utilities shall be underground

Applicant shall consolidate Lots 3 and 2A, 2-2 concurrent with Development Plan review or place appropriate easements between Lots 3 and 2A, 2-2 in perpetuity concurrent with Development Plan review

B. Initial DRT Review Summary

Your General Plan Amendment, Rezoning, and Master Plan applications have been reviewed by the DRT and the following necessary revisions have been identified:

1. Shall comply with the most currently adopted International Fire Code
2. Shall verify compliance with section 903 Automatic Sprinkler Systems of the IFC 2021
3. Shall verify compliance with section D105 Aerial Fire Apparatus Access Roads as per IFC 2021
4. An approved Agreement to Construct and Dedicate (ACD) will be required for new fire and domestic water services
5. An approved Water Plan will be required for all new public water infrastructure and fire services.
6. A separate irrigation meter will be required if the total landscaped area is 1,000 square feet or greater. An approved backflow prevention device shall also be installed beyond the meter on any new irrigation service
7. Any re-grading of site over existing water mains shall maintain a minimum of 4 feet of cover and not exceed 5 feet of cover. Depth of existing main to be adjusted to maintain a minimum of 4 feet of cover and not exceed 5 feet of cover if site grading impacts these depth requirements.
8. Each lot shall be served by a separate City water service.
9. Provide a landscape design compliant with City of Santa Fe Codes Chapter 14-8.4 Landscape and Site Design.
10. Provide a landscape irrigation design compliant with City of Santa Fe Codes Chapter 14-8.4(E) Landscape and Site Design Water Harvesting and Irrigation Standards and the City of Santa Fe Landscape Irrigation Design Standards (LIDS) Manual.
11. Provide an outdoor lighting plan with photometric data per 14-8.9(C) COSF code. A lighting design with footcandle points is required.
12. Archaeological review will be required if the applicant exceeds 550-linear feet of utility lines including but not limited to water, gas, sewer, electric, power, etc.
    a. 14-3.13(B)(3) Suburban Archaeological Review District
        i. In this district, an archaeological clearance permit shall be required prior to approval of the final development plan or plat for the following projects:
        ii. All annexations, rezonings, subdivisions, planned unit developments , or other development requiring approval by the Planning Commission, having over ten (10) acres
        iii. All city projects over two (2) acres in size.
        iv. All city park projects over one (1) acre in size.
    b. Utility Mains:
        i. An archaeological clearance permit is required for new construction of sewer mains or main lines of other utilities such as telephone lines, gas lines, and fiber optics, including the entire construction easement: With an extension of sixty (60) feet or more if the main is in the historic downtown archaeological review district; With an extension of five hundred fifty (550) or more if the main is in the river and trails or suburban archaeological review district.
13. Provide full drainage report.

14. Grading and Drainage plan must accurately show locations and dimensions of existing versus new impervious surfaces for verification. Ponding area volumes must be established for each ponding area showing dimensions. Label each pond with a pond number and the volume.
15. Include pond sections and show how ponds will overflow
16. Include lighting plan with photometrics
17. A financial guarantee will be required for all public and quasi-public infrastructure. The guarantee must be in place prior to recordation of development plan.
18. Include attached notes.
19. Historic drainage calcs should include offsite flows onto property (if applicable)
20. The 6-inch sewer service line(s) will be required to connect to a sewer manhole
21. All 4-inch sewer lines shall connect directly to the public sewer lines
22. The Wastewater Division has concerns for the existing public sewer line with regards to the sites existing conditions. We are requesting to do a walk thru with the design engineer to discuss the landscaping, access and the condition of the sewer line in the field
23. The Wastewater Division shows all existing public sewer lines being 8-inch concrete pipe

The following DRT members did not have comments at this time:

- Parks and Open Space
- Water resources
- Metropolitan Planning organization
- Traffic

The following DRT comments are pending at this time:

- ADA
- Santa Fe Public Schools

C. Prior to Planning Commission, the following DRT comments must be satisfied:

1. Add all textures/symbols used on Proposed Site Master Plan (Sheet C-2) into legend (ex: gravel texture, utility lines, log shaped drawings, etc)
2. ~~Appropriate easements must be in place to cross between Lot 3 and 2-2 in perpetuity~~
3. Add Case #2025-11030 to Master Plan sheets
4. Shall comply with the most currently adopted International Fire Code
5. Shall verify compliance with section 903 Automatic Sprinkler Systems of the IFC 2021
6. Shall verify compliance with section D105 Aerial Fire Apparatus Access Roads as per IFC 2021
7. An approved Water Plan will be required for all new public water infrastructure and fire services.
8. Developer will work with CoSFW Engineering to appropriately size and locate meters and fire hydrants. CoSFW will not approve new public infrastructure on private property.

The full DRT memos are attached for your review. Once revised submittals to the application are accepted, a public hearing date may be scheduled. Please let me know if you have any questions or concerns.

Thank you,

Alexa Hempel
Senior Planner, Planning and Land Use Department

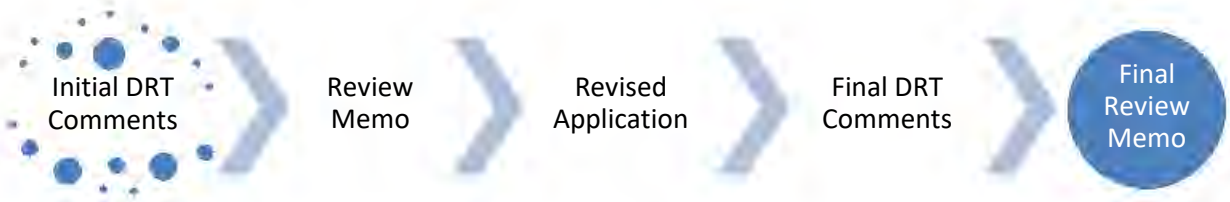
Development Review Team (DRT)
Comment Form for
Planning Commission

Date: August 19, 2025

DRT Member: Fire Marshal Geronimo Griego



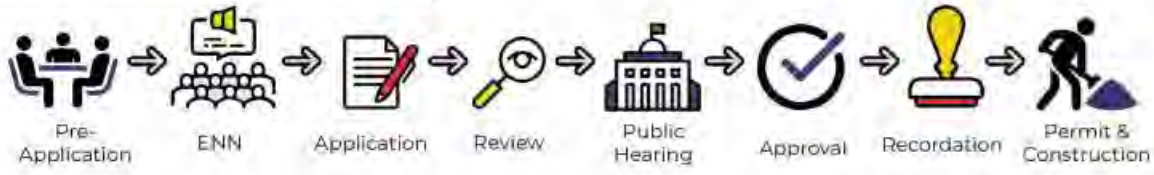
Dept/Div: Fire Marshal's Office

Case No.: 2025-11028,11029, & 11030

Case Planner: Alexa Hempel, Senior Planner

DRT Review Schedule – 9-12+ weeks*

Initial DRT Comments are due to the case planner within three weeks of the *DRT Application Intake* meeting. Initial DRT review should confirm that the application is complete (i.e. Water Budget has been submitted) and/or identify additional submittals or corrections (i.e. Water Budget needs revision). The case planner will review and convey all *Initial DRT Comments* to the applicant via a *Review Memo*. The applicant must respond to all *Initial DRT Comments* and submit a revised application for Final Review. *Final DRT Comments* are due to the case planner within two weeks of receipt of the revised application. The case planner will review and convey all *Final DRT Comments* to the applicant in a *Final Review Memo*. The complete DRT Review Timeline can range from 9-12+ weeks, depending on the complexity and quality of the application and the total number of applications under review.



Timing of Conditions of Approval + Technical Corrections

While all DRT conditions of approval and technical corrections must be met by the applicant, the timing of compliance varies. In the "Must be completed by" column in the following tables, please time your conditions of approval and technical corrections to the following development review stages:

a. *Prior to Public Hearing* – these conditions/technical corrections must be addressed before the case may move forward to the public hearing phase of the Development Review Process.
b. *Prior to Recordation* – these conditions/technical corrections may be resolved after the public hearing but must be addressed before the Development Plan or Subdivision plat is recorded.
c. *Prior Building Permit Approval* – these conditions/technical corrections can be addressed during the building permit review process, but prior to issuance of the permit.
d. *At the time of development* -

Development Review Process Flow Chart

Form Updated: September 2023

*See the *2024 Development Review Schedule* for details

Conditions of Approval and Technical Corrections Tables

Review by this division/department has determined that this application will meet applicable standards if the following Conditions of Approval and Technical Corrections are met:

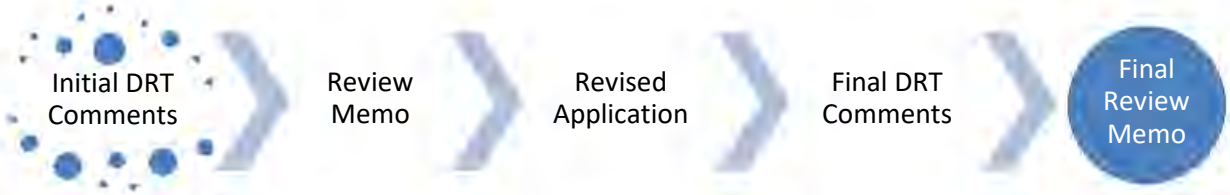
Conditions of Approval:	**Must be completed by:**	**Applicant response**:**
1. Shall comply with the most currently adopted International Fire Code.	*Prior to Public Hearing*	
2. Shall verify compliance with section 903 Automatic Sprinkler Systems of the IFC 2021.		
3. Shall verify compliance with section D105 Aerial Fire Apparatus Access Roads as per IFC 2021.		

Technical Corrections:	**Must be completed by:**	**Applicant Response**:**

**The Applicant must respond to the condition of approval or technical correction, indicating they have met the requirement and providing a reference in their revised submittals. If the applicant has not met the requirement, they must indicate as much and provide a response.

The applicant should be aware that the following code provisions or other requirements will apply to future phases of development of this project:

1.



Explanation of Conditions or Corrections (if needed):

1. Verify that the right city adopted code is reference in documents for submission. International Fire Code (IFC) 2021.
2. Shall verify that building is provided with automatic fire sprinklers for proposed layout.
3. Shall verify two points of access to ladder building for proposed site layout conditions.

Form Updated: March 2024

DRAINAGE FACILITIES MAINTENANCE NOTE

ALL DRAINAGE FACILITIES SHALL BE MAINTAINED BY ALL PROPERTY OWNERS. THE PROPERTY OWNERS SHALL ALSO HAVE THE RESPONSIBILITY FOR MAINTENANCE OF THE PUBLIC DRAINAGE EASEMENT.

INSPECTIONS SHALL BE CONDUCTED BY A REGISTERED PROFESSIONAL ENGINEER IN THE STATE OF NEW MEXICO OR OTHER QUALIFIED PERSON. INSPECTIONS SHALL BE CONDUCTED ON THE DRAINAGE FACILITIES IN ACCORDANCE WITH THE FOLLOWING SCHEDULE:

ON OR ABOUT MARCH 15, ON OR ABOUT SEPTEMBER 15, AND AFTER EACH STORM EVENT OF 1-INCH OR GREATER. MAINTENANCE OF THE DRAINAGE FACILITIES SHALL BE CONDUCTED AND DOCUMENTED BY THE ENGINEER OR QUALIFIED PERSON AND THE OWNER. THE OWNER SHALL MAINTAIN A FILE OF THE INSPECTIONS AND REMEDIAL ACTION CONDUCTED ON THE DRAINAGE FACILITIES.

WORK SHALL BE CONDUCTED IN ACCORDANCE WITH THE ENGINEER'S RECOMMENDATIONS, AND SHALL INCLUDE, BUT IS NOT LIMITED TO THE FOLLOWING:

A. FLUSH ALL CULVERTS, DROP INLETS AND DRAINAGE PIPES TO REMOVE SEDIMENT AND VEGETATION THAT PREVENTS OR HINDERS THE FLOW OF STORM WATER IN THE DRAINAGE STRUCTURE(S).

B. REMOVE SEDIMENT IN PONDS THAT IS GREATER THAN 6-INCHES IN DEPTH, AND IF NECESSARY, RESEED WITH NATIVE GRASSES AND INSTALL FILTER FABRIC AND 3 TO 4 INCH COBBLE AS DIRECTED BY THE ENGINEER.

C. INSPECT FOR SEDIMENTATION IN ALL SWALES, DITCHES, DRAINGE PONDS AND REMOVE AND STABILIZE AS NECESSARY.

D. INSPECT FOR SOIL EROSION AT ALL DRAINAGE PONDS, CUT AND FILL SLOPES, AND REPAIR OR STABILIZE ACCORDINGLY.

E. INSPECT THE STRUCTURAL INTEGRITY OF DRAINAGE PONDS, SLOPES, RIP-RAP, GABIONS, DROP INLETS, CULVERTS, ENERGY DISSIPATORS, AND RETAINING WALLS, ROCK PLATING, EROSION CONTROL MATS OR BLANKETS, AND REPAIR OR STABILIZE ACCORDINGLY.

GUNNISON'S PRAIRIE DOG NOTE

THE PROJECT SHALL COMPLY WITH THE PROVISIONS OF THE GUNNISION'S PRAIRIE DOG ORDINANCE (ARTICLE 14-8.12).

DUST CONTROL NOTE

All on-site soil disturbing construction activities shall be addressed and provide measures to mitigate or control dust from being transported offsite and polluting neighboring properties.

Any person, owner, contractor or operator who conducts earthmoving and/or dust generating activities is responsible for implementing Best Management Practices (BMPs) in order to mitigate off-property transport of fugitive dust emissions.

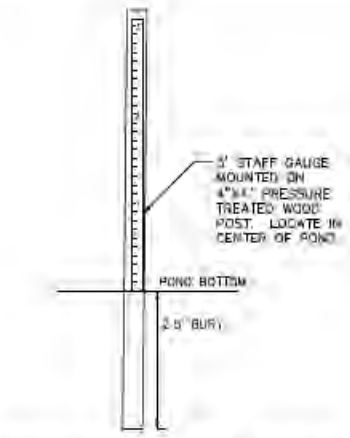
A plan, or storm water prevention plan (SWPPP) when applicable, listing the Best Management Practices (BMPs), shall be provided to the City Engineer, or their designee for review and approval. The approved BMPs shall be applied to the graded and/or disturbed soil in order to stabilize the site.

The initial BMP shall address how the Contractor will minimize the amount of disturbed soil, and how the Contractor will stabilize the disturbed surface area exposed to wind or vehicle traffic during construction.

Some BMPs shall include:

- The reduction of vehicle speeds: establish a maximum speed limit or install traffic calming devices to reduce speeds to a rate to mitigate off-property transport of dust entrained by vehicles.
- The minimization of drop height: Drivers and operators shall unload truck beds and loader or excavator buckets slowly, and minimize drop height of materials to the lowest height possible, including screening operations.
- High winds restriction: temporarily halt work activities during high wind events greater than 30 mph if operations would result in off-property transport.
- Restrict access: restrict access to the work area to only authorized vehicles and personnel.

In the event the above practices are ineffective to prevent off property transport, the owner or operator shall use at one or more of the following Best Management Practices (BMPs):



- Wet suppression: apply water to disturbed soil surfaces, backfill materials, screenings, and other dust generating operations as necessary and appropriate considering current weather conditions, and prevent water used for dust control from entering any public right-of-way, storm water drainage facility, or watercourse.
- Wind barrier: construct a fence or other type of wind barrier to prevent wind erosion of the graded or disturbed surface.
- Vegetation: plant vegetation appropriate for retaining soils or creating a wind break.
- Surface roughening: stabilize an active construction area during periods of inactivity or when vegetation cannot be immediately established.
- Cover: install cover materials such as tackifiers, erosion control blankets, gravel, vegetation (when appropriate), cold-millings, etc. during periods of inactivity and properly anchor the cover.
- Soil retention: stabilize disturbed or exposed soil surface areas that will be inactive for more than 30 days or while vegetation is being established.

ENGINEER'S STORMWATER INFRASTRUCTURE CERTIFICATION

I, the undersigned professional engineer in the State of New Mexico, do hereby certify that the record information shown hereon is based on actual field measurements and visual inspections performed by myself or under my direct supervision. I further certify that the record condition as of _____ is in substantial compliance with the approved grading and drainage plan prepared by _____, dated _____.

Signature NMPE #_____ Date

Conditions of Approval and Technical Corrections Tables

Review by this division/department has determined that this application will meet applicable standards if the following Conditions of Approval and Technical Corrections are met:

Case #

Conditions of Approval:	**Must be completed by:**	**Applicant response**:**
1. Historic drainage calcs should include offsite flows onto property (if applicable)	Include in drainage report with development plan	
2.		
3.		
4.		
5.		
6.		

Technical Corrections:	**Must be completed by:**	**Applicant response**:**
1.		
2.		
3.		
4.		

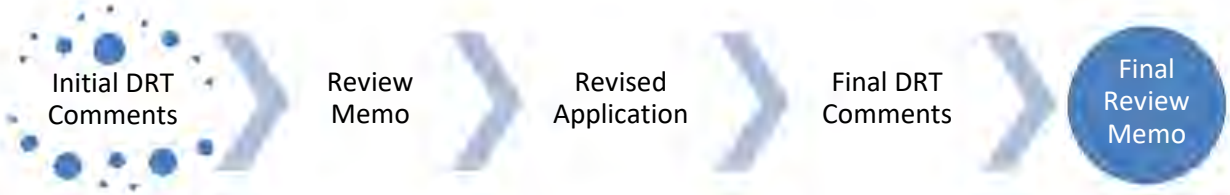
**The Applicant must respond to the condition of approval or technical correction, indicating they have met the requirement and providing a reference in their revised submittals. If the applicant has not met the requirement, they must indicate as much and provide a response.

The applicant should be aware that the following code provisions or other requirements will apply to future phases of development of this project:

1. [list any additional items]
2.

Explanation of Conditions or Corrections (if needed):

Existing vs Proposed Drainage Areas: looks like some ponding and drainages will be filled due to proposed building sites and new amenities; how is the developer planning to accommodate the excess water created by both the increase in imperviousness and the filling of these ponds? How do they plan to get the water to the new ponds, will it be piped? Will buildings have gutters and cisterns? Will landscaped areas be swaled to hold water? Etc…



Historical drainage: are they making sure to account for the entire basin in their drainage calcs, including offsite flows entering the property, esp. off the parking lot behind the school to the south if there is any?

Timing of Conditions of Approval + Technical Corrections

While all DRT conditions of approval and technical corrections must be met by the applicant, the timing of compliance varies. In the "Must be completed by" column in the following tables, please time your conditions of approval and technical corrections to the following development review stages:

a. *Prior to Public Hearing* – these conditions/technical corrections must be addressed before the case may move forward to the public hearing phase of the Development Review Process.
b. *Prior to Recordation* – these conditions/technical corrections may be resolved after the public hearing but must be addressed before the Development Plan or Subdivision plat is recorded.
c. *Prior to Building Permit Approval* – these conditions/technical corrections can be addressed during the building permit review process, but prior to issuance of the permit.
d. *During Construction* – these conditions/technical corrections can be addressed during construction.

Dept/Div: Utilities/Wastewater Division

Case No.: 2025/11030

Case Planner: Alexa N. Hempel

Conditions of Approval and Technical Corrections Tables

Review by this division/department has determined that this application will meet applicable standards if the following Conditions of Approval and Technical Corrections are met:

Case #

Conditions of Approval:	**Must be completed by:**	**Applicant response**:**
1. The 6-inch sewer service line(s) will be required to connect to a sewer manhole	Prior to Recordation	
2. All 4-inch sewer lines shall connect directly to the public sewer lines	Prior to Recordation	
3. The Wastewater Division has concerns for the existing public sewer line with regards to the sites existing conditions. We are requesting to do a walk thru with the design engineer to discuss the landscaping, access and the condition of the sewer line in the field	Prior to Recordation	
4.		
5.		
6.		

Technical Corrections:	**Must be completed by:**	**Applicant response**:**
1. The Wastewater Division shows all existing public sewer lines being 8-inch concrete pipe		
2.		
3.		
4.		

**The Applicant must respond to the condition of approval or technical correction, indicating they have met the requirement and providing a reference in their revised submittals. If the applicant has not met the requirement, they must indicate as much and provide a response.

The applicant should be aware that the following code provisions or other requirements will apply to future phases of development of this project:

1. [list any additional items]
2.

Explanation of Conditions or Corrections (if needed):

Conditions of Approval and Technical Corrections Tables
Review by this division/department has determined that this application will meet applicable standards if the following Conditions of Approval and Technical Corrections are met:

Conditions of Approval:	**Must be completed by:**	**Applicant response:**

Technical Corrections:	**Must be completed by:**	**Applicant Response:**
See attached comments response letter dated 10/17/25 from Wilson & Company regarding Bohannon Huston, revised draft Traffic Impact Study dated 10/6/25.	Prior to Development Plan Approval	

The applicant should be aware that the following code provisions or other requirements will apply to future phases of development of this project:

1. Any and all future proposed improvements of this site that affect public infrastructure will be subject to **City Code Chapter 23** and additional reviews and possible corrections to meet Public Works Standards for roadways, ADA, signing, striping, lighting, etc. may be required at that time.

   City Code Chapter 23-3.18 City construction and assessment.
   Nothing in subsections 23-3.12 and 23-3.15 SFCC 1987 prevents the city from ordering construction of curbs, gutters and sidewalks and assessing the cost thereof against the property benefited in any manner provided by the laws of the state. (Code 1953, § 24-28; Code 1973, § 30-29; SFCC 1981, § 4-13-18; Ord. #38-1987, § 8).

Memorandum

To: Leroy Pacheco, PE COSF

From: Philip A. Gallegos, PE, Senior Transportation Engineer

CC: Robert Luna, PE, PTOE, Traffic Engineering Practice Lead, SW Region

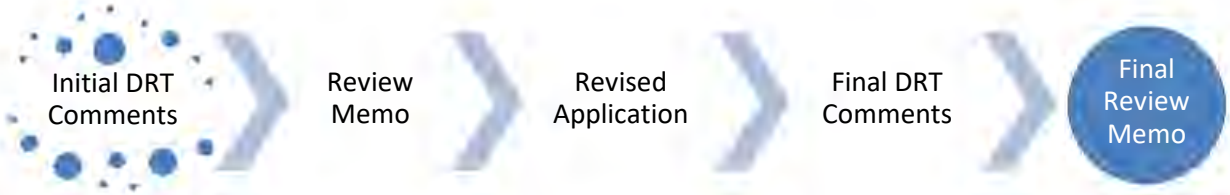
Date: 10/17/2025

Re: Girl's Inc. TIA Review

Wilson and Company has reviewed the Revised DRAFT TIA dated October 6, 2025 for the Girl's Inc. Development prepared by Bohannan Huston and have the following comments. Please let me know if you have any questions or require further information.

REPORT COMMENTS

- All original Comments have been addressed
- On page 48 the report states that the common crash type was rear-end collisions for Richards and Rufina however on table 24 the highest crash type is Another Vehicle at an Angle. This should be corrected in the narrative.
- There is a large percentage of crashes that were not classified by Crash Type. The Crash Summary Tables shall also include the percentage of crash types with the "not available or not classified" crash types removed from the total number of crashes. Therefore, showing percentages of total known crash types.
- All developer mitigations shall be shown on the developments site plan.
- For the intersection of Calle del Cielo and Cerrillos Road the report recommends evaluation of a cost share with the COSF due to the spillover occurring in existing condition. Since this LOS is made worse by the added traffic by the developer this mitigation shall be implemented by the developer.



Sincerely,

Philip A Gallegos, PE
Senior Transportation Engineer

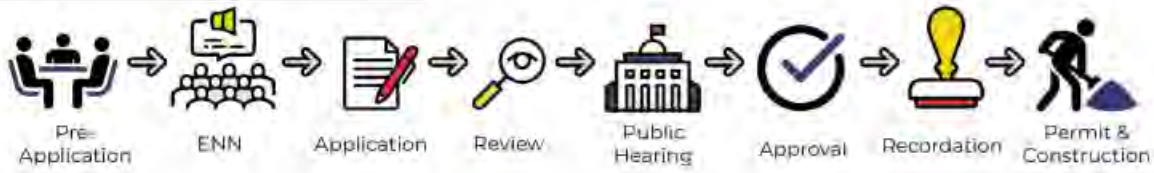
DRT Review Schedule – 9-12+ weeks*

Initial DRT Comments are due to the case planner within three weeks of the *DRT Application Intake* meeting. Initial DRT review should confirm that the application is complete (i.e. Water Budget has been submitted) and/or identify additional submittals or corrections (i.e. Water Budget needs revision). The case planner will review and convey all *Initial DRT Comments* to the applicant via a *Review Memo*. The applicant must respond to all *Initial DRT Comments* and submit a revised application for Final Review. *Final DRT Comments* are due to the case planner within two weeks of receipt of the revised application. The case planner will review and convey all *Final DRT Comments* to the applicant in a *Final Review Memo*. The complete DRT Review Timeline can range from 9-12+ weeks, depending on the complexity and quality of the application and the total number of applications under review.



Timing of Conditions of Approval + Technical Corrections

While all DRT conditions of approval and technical corrections must be met by the applicant, the timing of compliance varies. In the "Must be completed by" column in the following tables, please time your conditions of approval and technical corrections to the following development review stages:

a. *Prior to Public Hearing* – these conditions/technical corrections must be addressed before the case may move forward to the public hearing phase of the Development Review Process.
b. *Prior to Recordation* – these conditions/technical corrections may be resolved after the public hearing but must be addressed before the Development Plan or Subdivision plat is recorded.
c. *Prior to Building Permit Approval* – these conditions/technical corrections can be addressed during the building permit review process, but prior to issuance of the permit.
d. *During Construction* – these conditions/technical corrections can be addressed during construction.

Conditions of Approval and Technical Corrections Tables

Review by this division/department has determined that this application will meet applicable standards if the following Conditions of Approval and Technical Corrections are met:

Case # 2025-11028/11029/11030

Conditions of Approval:	**Must be completed by:**	**Applicant response**:**
1. An approved Agreement to Construct and Dedicate (ACD) will be required for new fire and domestic water services	Prior to Building Permit Approval	
2. An approved Water Plan will be required for all new public water infrastructure and fire services.	Prior to approval of Development Plan	
3. A separate irrigation meter will be required if the total landscaped area is 1,000 square feet or greater. An approved backflow prevention device shall also be installed beyond the meter on any new irrigation service.	At the time of development	
4. Any re-grading of site over existing water mains shall maintain a minimum of 4 feet of cover and not exceed 5 feet of cover. Depth of existing main to be adjusted to maintain a minimum of 4 feet of cover and not exceed 5 feet of cover if site grading impacts these depth requirements.	At the time of development	
5. Each lot shall be served by a separate City water service.	At the time of development	

Technical Corrections:	**Must be completed by:**	**Applicant response**:**
1. Developer will work with CoSFW Engineering to appropriately size and locate meters and fire hydrants. CoSFW will not approve new public infrastructure on private property.	Prior to Water Plan Approval	

**The Applicant must respond to the condition of approval or technical correction, indicating they have met the requirement and providing a reference in their revised submittals. If the applicant has not met the requirement, they must indicate as much and provide a response.

The applicant should be aware that the following code provisions or other requirements will apply to future phases of development of this project:

City of Santa Fe, New Mexico

Attachment B
Maps and Photos

1. Aerial View
2. Existing Conditions Photos
3. Current Zoning Map
4. Future Land Use Map

Aerial View

The property is at the intersection of Rufina St and Rufina Cir E, nearby the Cerrillos Rd and Siler Rd intersection. It is the site of a former greenhouse and nursery, totaling approximately 4.27-acres.

Existing Conditions

Photo standing on the property looking east at the existing greenhouses where the main facility is proposed.

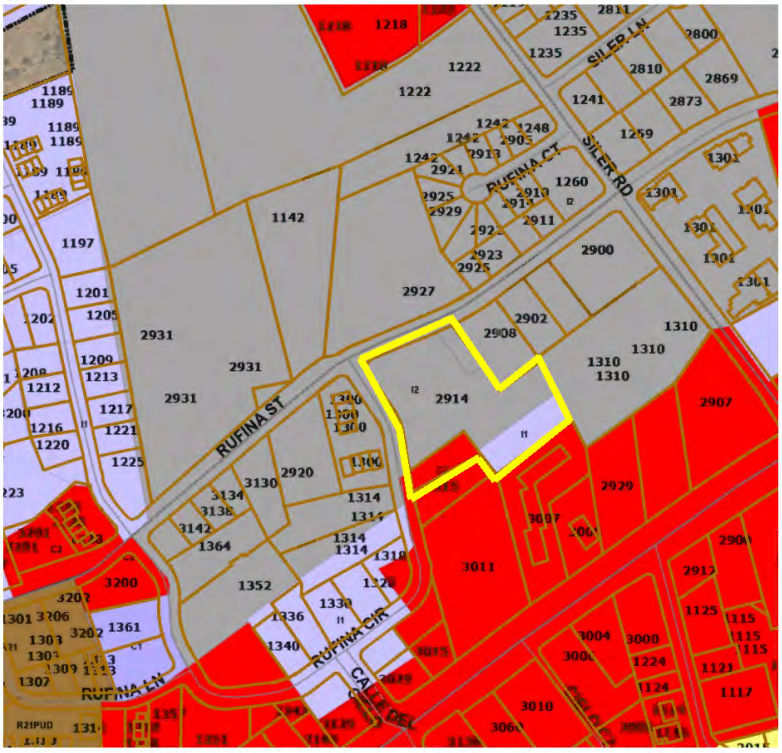
Photo in same spot as previous, but facing west toward the current and proposed parking area.

Looking north into forested parts of lot.

Looking towards north side of property at manmade 30% or greater slopes.

Existing walkways on site.

Forested area on north side of property.



Current site access off Rufina St that is planned to be used for the caretakers residence.

Area planned to be used for parking.

Current Zoning Map

2904 Rufina is currently zoned I-1 (Light Industrial), I-2 (general Industrial), and C-2 (General Commercial. The application includes a request to rezone Lot 3 to C-2.

Future Land Use Map

The Future Land Use Map (FLUM) designates the parcels as “Industrial” (Gray) and “Business Park” (Purple). The applicant requests to change Lot 3’s designation to “Community Commercial” (Red) in order to support the rezone and master plan proposed.

☐ *Six (6) 24"x36" plan sets and one (1) CD are required. Please include the following:*

☒	Letter of Application (intent, location, acreage)	☒	Statement addressing approval criteria	☒	Legal Lot of Record, Legal Description	☒	Development Plan (as defined by Section 14-3.8 SFCC 1987, if applicable)	☐	Proof of Compliance with Conditions of Annexation Approval (if applicable)
☐	Letter of Water and Sewer Availability	☐		☐		☐		☐	

General Plan Amendment Approval Criteria (Section 14-3.2(E) SFCC 1987)

(1) Criteria for All Amendments to the General Plan

The planning commission and the governing body shall review all general plan amendment proposals on the basis of the following criteria, and shall make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any amendment to the general plan:

(a) consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure;
(b) consistency with other parts of the general plan;
(c) the amendment does not:
  (i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or
  (ii) affect an area of less than two acres, except when adjusting boundaries between districts; or
  (iii) benefit one or few landowners at the expense of the surrounding landowners or the general public;
(d) an amendment is not required to conform with Subsection 14-3.2(E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;
(e) compliance with the extraterritorial zoning ordinances and extraterritorial plans;
(f) contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development; and
(g) consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.

(2) Additional Criteria for Amendments to Land Use Policies

In addition to complying with the general criteria set forth in Subsection 14-3.2(E)(1), amendments to the land use policies section of the general plan shall be made only if evidence shows that the effect of the proposed change in land use shown on the future land use map of the general plan will not have a negative impact on the surrounding properties. The proposed change in land use must be related to the character of the surrounding area or a provision must be made to separate the proposed change in use from adjacent properties by a setback, landscaping or other means, and a finding must be made that:

(a) the growth and economic projections contained within the general plan are erroneous or have changed;
(b) no reasonable locations have been provided for certain land uses for which there is a demonstrated need; or
(c) conditions affecting the location or land area requirements of the proposed land use have changed, for example, the cost of land space requirements, consumer acceptance, market or building technology.

Signature

I hereby certify that the documents submitted for review and consideration by the City of Santa Fe have been prepared to meet the minimum standards outlined in the Land Development Code, Chapter 14 SFCC 1987. Failure to meet these standards may result in the rejection of my application. I also certify that I have met with the City's Current Planning staff in a preapplication meeting to verify that the attached proposal is in compliance with the City's zoning and annexation requirements.

Submittal Checklist (Requirements found in Section 14-3.5 SFCC 1987)

Six (6) 24"x36" or 11"x17" scalable plan sets and 1 CD with a PDF copy are required. Submittal requirements may vary based on the individual application and the requested zoning district. The City reserves the right to request additional information at any time during the review process. See Section 14-4 and 14-5 SFCC 1987 for rezoning regulations related to specific zones. Please include the following and check box to indicate submittal:

☑	Letter of Application (intent, location, acreage)	☑	Narrative addressing approval criteria (see below)	☑	Legal Lot of Record, Legal Description	☐	Development Plan (see Section 14-3.8 SFCC 1987)	☐	Landscape, Parking and Lighting Plan, Signage Specifications
☐	Terrain Management Plans (as required by Section 14-8.2 SFCC 1987)	☑	Traffic Impact Analysis (if required)	☐	Archaeological Clearance (if applicable)	☐	Sewer and Water Plan (including profiles and details), letter of availability (if applicable)	☐	Phasing Plan (if applicable)

Rezoning Approval Criteria, Sections 14-3.5(C) and (D) SFCC 1987

(C) Approval Criteria

(1) The planning commission and the governing body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:

(a) one or more of the following conditions exist:
  (i) there was a mistake in the original zoning;
  (ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning; or
  (iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans;

(b) all the rezoning requirements of Chapter 14 have been met;

(c) the rezoning is consistent with the applicable policies of the general plan, including the future land use map;

(d) the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city; and

(e) the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.

(2) Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:

(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;

(b) affect an area of less than two acres, unless adjusting boundaries between districts; or

(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.

(D) Additional Applicant Requirements

(1) If the impacts of the proposed development or rezoning cannot be accommodated by the existing infrastructure and public facilities, the city may require the developer to participate wholly or in part in the cost of construction of off-site facilities in conformance with any applicable city ordinances, regulations or policies;

(2) If the proposed rezoning creates a need for additional streets, sidewalks or curbs necessitated by and attributable to the new development, the city may require the developer to contribute a proportional fair share of the cost of the expansion in addition to impact fees that may be required pursuant to Section 14-8.14.

Signature

I hereby certify that the documents submitted for review and consideration by the City of Santa Fe have been prepared to meet the minimum standards outlined in the Land Development Code, Chapter 14 SFCC 1987. Failure to meet these standards may result in the rejection of my application. I also certify that I have met with the City's Current Planning staff in a preapplication meeting to verify that the attached proposal is in compliance with the City's zoning requirements.

Signed: _____ Date: _____

Submittal Checklist (Requirements found in Section 14-3.8 SFCC 1987)

☐ *Six (6) 24"x36" plan sets and one (1) CD are required. Please include the following:*

☒	Letter of Application (intent, location, acreage)	☒	Statement addressing approval criteria	☒	Legal Lot of Record, Legal Description	☒	Los Prados Master Plan Set	☐	
☒	Archaeological Clearance (if applicable)	☒	Traffic Impact Analysis (if required)	☒	Proof of Compliance with Conditions of Annexation Approval (if applicable)	☒	Sewer and Water Plan (including profiles and details)	☐	
☐									

Master Plan Submittal Requirements, as defined by Section 14-3.9(C) SFCC 1987:

Applicants for developments that require master plans under this section shall submit plans and other documentation as required by the land use director that show compliance with the applicable provisions of the Santa Fe City Code as provided in Section 14-3.1(C) (Form of Application), including plans that show:

(a) existing conditions on the site and within the vicinity;
(b) proposed modifications to the site, including the locations of existing and new structures, grading, landscaping, lighting, pedestrian and vehicular circulation, parking and loading facilities;
(c) proposed changes to the zoning of land within the master plan area and the types, extent and intensity of land uses that are proposed;
(d) the proposed boundaries of tracts comprising the various land use areas and development phases;
(e) proposed modifications to the infrastructure serving the site, including locations of utilities and public and private streets and driveways and traffic control measures;
(f) the phases of development, if applicable;
(g) if public or private infrastructure is proposed to be constructed in phases, a plan for the timing, financing and responsibility for infrastructure construction;
(h) a development water budget as required by Section 14-8.13;
(i) for master plans involving five or more acres of land, the land use director may require an analysis of the fiscal impact to the city of providing utility and other municipal services to the area.

Signature

I hereby certify that the documents submitted for review and consideration by the City of Santa Fe have been prepared to meet the minimum standards outlined in the Land Development Code, Chapter 14 SFCC 1987. Failure to meet these standards may result in the rejection of my application. I also certify that I have met with the City's Current Planning staff in a preapplication meeting to verify that the attached proposal is in compliance with the City's zoning and development plan requirements.

Signature: Angelica Wolff Date: 8/11/2025

A case manager will be assigned to your project and will notify you within 10 business days if any additional information is needed. After your application has been reviewed by City staff, you will be contacted by us regarding public notice requirements. A packet of information and instructions will be provided regarding the required mailing and sign posting. Thank you, and feel free to contact the [Type text] Department staff at (505) 955-6585 with any questions.

RE: Letter of Application
Girls Inc. of Santa Fe
General Plan Amendments, Rezone & Master Plan

Dear Alexa:

This letter is respectfully submitted on behalf of Girls Inc. of Santa Fe (the "Applicant") in application for a General Plan Amendment, Rezone and Master Plan of the property located at 2904 Rufina Street, comprising two parcels – Lot 3, Parcel #18206951,00000000 and Tract 2A, Lot 2 ("Lot 2"), Parcel #99309296. Lot 3, totaling 3.87 acres, is zoned Light Industrial (I-1) and General Industrial (I-2), and Lot 2, comprising 0.978 acres, is zoned C-2 (General Commercial). This submittal includes the following requests:

1. General Plan Amendment to change the designations of Lot 3 from Industrial and Business Park to Community Commercial
2. Rezone of Lot 3 from I-1(Light Industrial) and I-2 (General Industrial) to C-2 (General Commercial)
3. Master Plan of Lots 2 and 3 for a 55,478-square foot Girls Inc. Youth Center

These applications will establish zoning conformity between the two subject parcels, allowing them to be consolidated as part of the overall development of the property.

Girls Inc. of Santa Fe

For more than 70 years, Girls Inc. of Santa Fe (GISF), a non-profit corporation, has been a beacon of empowerment for young people in the community. While inspiring all girls to be Strong, Smart, and Bold through programs that promote healthy living, academic enrichment, and life skills development, GISF equips girls with the tools and support they need to succeed in life.

GISF provides quality out-of-school time programs in a safe, nurturing environment that meets the needs of working parents. Additionally, GISF engages in advocacy efforts to address issues like bullying, sexual harassment, mental health support, and reproductive justice - all of which are essential to empowering girls and creating a more equitable future. GISF works closely with

the Santa Fe Public Schools, Santa Fe Indian School, and other community partners to provide this comprehensive support.

GISF's current home - the historic Hurley House on Hillside Ave., is bursting at the seams, with limited space and functionality to support the broad range of educational, recreational, and mentorship activities provided. The facility can no longer meet the growing demand for services, the building is not ADA-accessible, and its aging infrastructure requires constant maintenance. Additionally, the facility's location in north Santa Fe poses difficulties for families on the southside with limited transportation options. These challenges limit inclusivity and prevent GISF from reaching all community members. GISF is poised to address the urgent and growing needs of girls in our community and an additional facility is essential to meet the increasing demand for services and expand their impact within the City of Santa Fe.

Project Description

The 4.27-acre property, located at the corner of Rufina Street and Rufina Circle, is the site of a former nursery. This segment of Rufina Street is at the heart of the Siler-Rufina Nexus, a diverse, mixed-use neighborhood that is home to Meow Wolf, several non-profit institutions, a variety of housing, light manufacturing/maker spaces, and offices. This central location is proximate to the families and schools that GISF serves, creating convenience for parents and a more inclusive program for the community. The proposed Master Plan addresses the potential future development of a new 55,478-square foot Girls Inc. youth center, including outdoor recreational areas and a small retail/food service space to provide entrepreneurial training for teenage girls. The program includes a two and three-story building housing classrooms, a gymnasium, gathering space, and administrative offices. Over 2.7 acres of open space will be established, densely vegetated due to the previous nursery use, providing outdoor recreational and educational opportunities. The open space will consist of lush gardens, shade and fruit trees, a play field, greenhouse, chicken coop, pavilion, and connected pathways throughout the site.

General Plan Amendment

Lot 3 has two Future Land Use designations – Industrial and Business Park. An amendment to the Future Land Use Map is requested to designate the entire parcel Community Commercial, in support of the request to rezone the property to C-2. Responses to the approval criteria in SFCC §14-3.2(E)(1) are below.

(a) consistency with growth projections for Santa Fe, economic development goals as set forth in a comprehensive economic development plan for Santa Fe and existing land use conditions such as access and availability of infrastructure ;

Applicant Response: Economic development goals are upheld by the provision of quality childcare programs that support working parents. The 2004 report, *Cultivating Santa Fe's Future Economy*, by Angelou Economics, recognizes the important role of quality of life in economic development. In Strategy Four: Economic Development, the report states, *"The most successful economic development regions in the U.S. also contain very high quality-of-life amenities. Quality of life encompasses many attributes, including healthcare, safety, parks and recreation,*

arts and culture, and environmental cleanliness. A quality environment plays a large part in the choice of young, skilled professionals in deciding where to locate. It also plays a significant role in retaining good citizens." The GISF program is a quality-of-life amenity serving the Santa Fe community and young families, enhancing the attractiveness of Santa Fe for existing residents and newcomers, alike. In addition, GISF will employ approximately 45 staff persons. The new facility will serve the growing southwest part of town, home to a majority of Santa Fe's families. Lastly, the site has existing access via two public rights-of-way and is currently served by public utility infrastructure.

(b) consistency with other parts of the general plan ;

Applicant Response: This General Plan Amendment conforms to the following General Plan Themes and Policies:

Themes

1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

(c) the amendment does not:

(i) allow uses or a change that is significantly different from or inconsistent with the prevailing use and character in the area; or

Applicant Response: The proposed youth center is consistent with the character of the diverse Siler-Rufina neighborhood, which is home to several non-profit community organizations, including The Food Depot, Kitchen Angels, and Homewise.

(ii) affect an area of less than two acres, except when adjusting boundaries between districts;

Applicant Response: The subject parcel comprises 3.87 acres. Nevertheless, the property is adjacent to the Community Commercial designation along its south boundary.

(iii) benefit one or a few landowners at the expense of the surrounding landowners or the general public;

Applicant Response: Contrary to harming surrounding landowners or the general public, this General Plan Amendment, and the new GISF youth center it will enable, provides numerous benefits. The redevelopment of the vacant site with a new, modern facility, inclusive of 2.7 acres of open space, will revitalize the property and beautify the neighborhood. Furthermore, GISF is an important community service

organization that mentors school-age girls with dynamic after school and summer programs.

(d) an amendment is not required to conform with Subsection 14-3.2(E)(1)(c) if it promotes the general welfare or has other adequate public advantage or justification;

Applicant Response: This General Plan Amendment promotes the general welfare, because it will enable the construction of a new GISF youth center, offering after school and summer programs for school-age girls and much-needed support for working parents.

(e) compliance with extraterritorial zoning ordinances and extraterritorial plans;

Applicant Response: N/A

(f) contribution to a coordinated, adjusted and harmonious development of Santa Fe that in accordance with existing and future needs best promotes health, safety, morals, order, convenience, prosperity or the general welfare, as well as efficiency and economy in the process of development ;

Applicant Response: Redevelopment of this infill site provides for efficient and economic development, leveraging existing infrastructure, and supporting the harmonious development of Santa Fe. This request not only supports the general welfare of the community, but is the sole motivation for this effort.

(g) consideration of conformity with other city policies, including land use policies, ordinances, regulations and plans.

Applicant Response: The *City of Santa Fe Land Use and Urban Design Plan* recognizes the Siler Neighborhood as a Mixed-Use Corridor, stating, "Development and redevelopment along these corridors should be encouraged to provide greater density of commercial uses…". Furthermore, the Plan encourages the re–use of blighted or failing buildings and businesses. The redevelopment of a former, dilapidated nursery on an infill site in the Siler Neighborhood thoroughly aligns with these objectives. Furthermore, the City of Santa Fe Economic Development Department branded the subject neighborhood as the *Siler-Rufina Nexus* in a recent report issued to spur investment in the City's Opportunity Zones. In keeping with this effort, the proposed GISF facility is a significant investment in the neighborhood, increasing job opportunities and redeveloping a deteriorated site.

Rezone Request

Lot 3 is zoned I-1 (Light Industrial) and I-2 (General Industrial), and we are requesting to rezone the parcel to C-2 (General Commercial) to create uniformity with Lot 2, which is currently zoned C-2. Responses to the rezoning approval criteria in SFCC §14-3.5(C) and (D) are detailed below.

(1) The planning commission and the governing body shall review all rezoning proposals on the basis of the criteria provided in this section, and the reviewing entities must make complete

findings of fact sufficient to show that these criteria have been met before recommending or approving any rezoning:

(a) *One or more of the following conditions exist:*

(i) there was a mistake in the original zoning. N/A

(ii) there has been a change in the surrounding area, altering the character of the neighborhood to such an extent as to justify changing the zoning.

Applicant Response: This area has evolved over the years into a diverse, mixed-use neighborhood of recreational uses, non-profit institutions, a mix of housing types, and various commercial enterprises. The rezone will support the construction of the proposed GISF facility, which aligns well with this current pattern of development.

(iii) a different use category is more advantageous to the community, as articulated in the general plan or other adopted city plans.

Applicant Response: Rezoning the property to C-2 is more advantageous to the community. A vacant site falling into disrepair creates no community benefit. Redevelopment of this infill site vitalizes the neighborhood and supports the provision of critical community services. Furthermore, the rezone request aligns with the Themes and Policies of the General Plan, as summarized below:

Themes

1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

(b) *all the rezoning requirements of Chapter 14 have been met.*

Applicant Response: All the rezoning requirements of Chapter 14 have been met. A Pre-Application Conference was conducted with the Development Review Team on December 12, 2024, and the Early Neighborhood Notification Meeting was held on July 23, 2025.

(c) *the rezoning is consistent with the applicable policies of the general plan, including the future land use map.*

Applicant Response: A Request to amend the General Plan Future Land Use Map to Community Commercial accompanies this rezone application, which aligns with the requested C-2 zoning. Furthermore, the project conforms to the General Plan as outlined below:

Themes

1.7.2 Quality of Life. GISF provides an important community service, offering after school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality

of life through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

(d) *the amount of land proposed for rezoning and the proposed use for the land is consistent with city policies regarding the provision of urban land sufficient to meet the amount, rate and geographic location of the growth of the city.*

Applicant Response: General Plan Figure 4-4, Urban Sub-Areas, designates the subject property and surrounding area as an "Infill Area." The Growth Management Chapter of the General Plan specifically calls for prioritization of infill development in Santa Fe in order to maximize the efficient use of public infrastructure, while meeting the demand for urban land for development and directing new growth towards the historic core of the city rather than on the undeveloped fringes. The proposed infill project is in alignment with these strategic directives and is responsive to community needs for public services and community engagement in this area of the City. General Plan Section 4.1 states, *"In both 'infill' and 'future growth' areas, the city must encourage higher densities of residential and commercial development than existing zoning often allows" to help "create efficient use of already existing roads and utilities, help ensure cost-efficient public transit, and provide the type of housing that will be in demand…"*.

(e) *the existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the proposed development.*

Applicant Response: The subject property is served by existing roadways and public water and sewer infrastructure. Since the program includes the development of over 2.7 acres of outdoor recreational space, the GISF facility will not affect the capacity of area parks.

(2) Unless the proposed change is consistent with applicable general plan policies, the planning commission and the governing body shall not recommend or approve any rezoning, the practical effect of which is to:

(a) allow uses or a change in character significantly different from or inconsistent with the prevailing use and character in the area;

Applicant Response: The proposed youth center is consistent with the character of the diverse Siler-Rufina neighborhood, which is home to several non-profit community organizations, including The Food Depot, Kitchen Angels, and Homewise.

(b) affect an area of less than two acres, unless adjusting boundaries between districts; or

Applicant Response. The subject parcel is 3.87 acres.

(c) benefit one or a few landowners at the expense of the surrounding landowners or general public.

Applicant Response: Contrary to harming surrounding landowners or the general public, this rezone, and the new GISF youth center it will enable, provides numerous benefits. The redevelopment of the vacant site with a new, modern facility, inclusive of 2.7 acres of open space, will revitalize the property and beautify the neighborhood. Furthermore, GISF is an important community service organization that mentors school-age girls with dynamic after school and summer programs.

SFCC §14-3.5 (D): Additional Applicant Requirements

(1) If the impacts of the proposed development or rezoning cannot be accommodated by the existing infrastructure and public facilities, the city may require the developer to participate wholly or in part in the cost of construction of off-site facilities in conformance with any applicable city ordinances, regulations or policies;

Applicant Response: The property is currently served by existing public roadway and utility infrastructure. The Applicant is prepared to construct any necessary infrastructure upgrades at the time of property development, and these improvements will be documented in the approved development plans.

(2) If the proposed rezoning creates a need for additional streets , sidewalks or curbs necessitated by and attributable to the new development , the city may require the developer to contribute a proportional fair share of the cost of the expansion in addition to impact fees that may be required pursuant to Section 14-8.14.

Applicant Response: The Traffic Impact Analysis identifies the need for a southbound left-turn lane on Rufina Circle serving the north access drive. No other off-site improvements are warranted.

Master Plan

A Master Plan is submitted with this application addressing the conceptual development program for a proposed youth facility for Girls Inc. of Santa Fe. The 55,478-square foot facility will be surrounded by lush gardens, trees, walking trails, and kid-friendly activities. A single main building is proposed with a combination of two and three stories. Additional structures include an outdoor pavilion, a small commercial teen enterprise space, a sport court, and a caretaker's residence. In keeping with the previous nursery use and working to preserve as many significant trees as possible, the building is sited in the back southeast corner, with the garden/open space occupying areas to the north/northwest, providing a buffer from the adjacent roadways.

Access and Traffic. The project has two proposed points of access via Rufina Circle, with a third access on Rufina St. to serve the caretaker's residence. Per the attached Traffic Impact Analysis, a southbound left-turn land serving the north access drive is warranted. There is adequate existing right-of-way to accommodate the proposed turn lane.

Parking. SFCC Table 14-8.6-1, Parking and Loading Requirements, does not include "youth center" as a land use category. Therefore, parking is provided in accordance with the needs of the proposed facility as outlined below:

Peak Daily Staff Demand	45 spaces
Facility Vehicles	5 spaces
Guests/Overflow	18 spaces
Total Required Parking	*68 spaces*
Total Provided Parking	**68 spaces**

Utilities

Water. The property is served by an existing 2-inch service line connected to the 6-inch main in Rufina Circle. The existing 5/8-inch water meter will be replaced with a new double 1-inch meter. In addition, a new 6-inch public fire line will be extended into the property from the same existing main, terminating in a new fire hydrant adjacent to the building.

Sewer. An existing 8-inch public sewer line within a 10-foot utility easement extends across the property from Rufina St. to the south boundary. A new 6-inch service connection will be installed to serve the main building and 4-inch service lines will serve the outdoor pavilion and the teen enterprise/commercial structure.

Terrain Management. The site slopes gently from the southeast to northwest. A series of decentralized stormwater detention ponds are proposed, with the most significant storage occurring at the north end of the site. The ponding will be incorporated into the landscaping to maximize passive stormwater harvesting/irrigation. Please refer to the attached Conceptual Terrain Management Plan for more information.

Landscaping. The Preliminary Landscaping Plan includes preservation of as many existing trees as is feasible, while enhancing the space with a palette of new deciduous trees, evergreens, and shrubs. Additional improvements include street trees along Rufina St. and Rufina Circle and walking paths throughout the open space. Please refer to the Preliminary Landscaping Plan for further details.

Master Plan Approval Criteria

The Master Plan approval criteria in §14-3.9(D) are addressed below:

(a) The master plan is consistent with the general plan;

Applicant Response: The proposed Master Plan aligns with various Themes and Polices in the General Plan, as summarized below.

1.7.2 Quality of Life. GISF provides an important community service, offering after-school and summer programming and enrichment for school age girls throughout Santa Fe.

1.7.4 Economic Diversity. GISF supports economic diversity goals through sustainable development, enhancing quality of life for Santa Fe's families, and educational equity that supports economic opportunities for local youth.

1.7.5 Sustainable Growth. The establishment of over 2.7 acres of open space within a dense existing neighborhood supports sustainability goals through preservation of natural outdoor space, enabling best practices with respect to stormwater management.

1.7.9 Urban Form. The rezone request supports the redevelopment of this infill site, which has access to existing transportation and utility infrastructure, maintaining a compact urban form. The requested rezone to C-2 maximizes land use efficiency in an urban setting, reducing urban sprawl. By promoting higher-density commercial development, the rezoning aligns with the city's vision of creating a more sustainable urban environment.

1.7.11 Community-Oriented Development. As a community service organization, the proposed GISF facility exemplifies community-oriented development. GISF plays an important role for families in the community, by providing quality out-of-school programs that meet the needs of working parents.

1.7.12 Mixed-Use. The proposed rezone is compatible with and expands the existing mix of uses in the Sile-Rufina neighborhood.

Policies

3-G-2 There shall be a mix of uses and housing types in all parts of the City. The proposed rezone is compatible with and expands the existing mix of uses in the Siler-Rufina neighborhood.

3-G-3 There shall be infill development at densities that support the construction of … a designated mix of land uses that provide an adequate balance of service retail and employment opportunities…". The Siler-Rufina neighborhood exemplifies this policy through a vibrant mix of commercial, institutional, and residential uses, and the proposed GISF will contribute to this existing diversity.

4-1-G-3 Use a full range of growth management methods to achieve a superior quality of life to ensure a financially and environmentally sustainable community. As a local community service organization, GISF contributes to the community's quality of life

through mentoring school-age girls and serving working parents with quality after school and summer programming.

9-3-G5 through 9-3-G7 explicitly calls for programs and facilities that "enhance the quality of life" for children and youth, including grants and spaces for after-school, education, life-skills, and recreation. A Girls Inc. youth center directly fulfills these objectives.

(b) *The master plan is consistent with the purpose and intent of the zoning districts that apply to, or will apply to, the master plan area, and with the applicable use regulations and development standards of those districts;*

Applicant Response: The C-2 zoning district is a robust mixed-use zoning category that supports both commercial uses and residential development at higher densities. The proposed GISF youth center is a permissible use in the C-2 district and an appropriate commercial development in the Siler-Rufina neighborhood. Furthermore, the Master Plan demonstrates compliance with C-2 development standards with respect to height, lot coverage, open space, terrain management, and landscaping.

(c) *Development of the master plan area will contribute to the coordinated and efficient development of the community; and*

Applicant Response: The Master Plan includes provisions for pedestrian and vehicular connectivity to the surrounding area, as called for in the General Plan. In addition, the subject property makes efficient use of existing infrastructure as an infill site – a value repeatedly emphasized in the General Plan.

(d) *The existing and proposed infrastructure, such as the streets system, sewer and water lines, and public facilities, such as fire stations and parks, will be able to accommodate the impacts of the planned development.*

Applicant Response: The existing roadway and utility infrastructure are adequate to serve the project. The Traffic Impact Analysis (TIA) demonstrates that the roadway network has the capacity for the proposed development, with the inclusion of a new left-turn lane serving the north access drive on Rufina Circle.

Archaeology

The subject parcel is located in the Suburban Archaeological Review District. As the property is less than 10 acres, an archaeological survey is not required.

Water Budget

A Preliminary Water Budget is submitted herewith for reference. The water usage for the proposed facility is based upon the usage at the existing GISF Hillside location. The gallons per square foot of current usage is then extrapolated based on the proposed square footage of the new

facility. In addition, since the project is the redevelopment of a former nursery, historic water usage is credited per the provisions of SFCC §14-8.13(E)(1).

Early Neighborhood Notification

The Early Neighborhood Notification Meetings were held on January 23, 2025. City staff, Applicant, consultants, and a member of the press were in attendance. Please refer to the attached meeting notes for details.

In support of this request, the following documentation is submitted herewith for your reference:

1. Master Plan Application
2. Rezone Application
3. General Plan Amendment Application

RE: Girls Inc of Santa Fe
Lot Consolidation of Lot 3 and Lot 2A-2

Dear Alexa:

This letter is respectfully submitted on behalf of Girls Inc. of Santa Fe (the "Applicant") as part of the application for a General Plan Amendment, Rezone and Master Plan of the property located at 2904 Rufina Street, comprising two parcels – Lot 3, Parcel #18206951,00000000 and Tract 2A, Lot 2 ("Lot 2"), Parcel #99309296.

While Lot 3 and Lot 2-2 are currently separate parcels with different zoning, following approval of the General Plan Amendment, Rezone and Master Plan applications, we plan to consolidate these parcels and will submit a Lot Consolidation Plat with the Development Plan application.

In lieu of the current Condition of Approval stating, "Appropriate easements must be in place to cross between Lot 3 and 2-2 in perpetuity, we request an amended Condition of Approval stating, "Applicant shall consolidate Lots 3 and 2-2 concurrent with Development Plan review **or** place appropriate easements between Lots 3 and 2-2 in perpetuity concurrent with Development Plan review.

Respectfully,

Kim Brown

Kim Brown, Executive Director
Girls Inc. of Santa Fe

ACKNOWLEDGMENT

PLAT REFERENCE

#1 "LOT LINE ADJUSTMENT OF LOT 3 & LOT 4 AND BOUNDARY SURVEY OF TRACT 2A, LOT 2" BY DEAN L. SCHRADER NMPLS#12451 AND FILED IN PLAT BOOK 786, PG. 003 IN THE OFFICE OF THE SANTA FE COUNTY CLERK

PUBLIC UTILITY EASEMENTS

PUBLIC UTILITY EASEMENTS shown on this plat are granted for the common and joint use of:

1. NEW MEXICO GAS COMPANY for installation, maintenance and service of natural gas lines, valves and other equipment and facilities resonably necessary to provide natural gas.
2. PUBLIC SERVICE COMPANY OF NEW MEXICO for the installation, maintenance, and service of overhead and underground electrical lines, transformers, and other equipment, fixtures, structures and related facilites resonably necessary to provide electrical service.
3. QWEST CORP. d/b/a CENTURY LINK QC for installation, maintenance and service of all all buried and aerial communication lines and other related equipment and facilities resonably necessary to provided communication services, including but not limited to above ground pedestals and closures. This plat has been approved for easement purposes only. The signing of this plat does not in any way guarantee telephone services to the subdivision.
4. CABLE TV for the installation, maintenance, and service of such lines, cable and other related equipment and facilities reasonably necessary to provide Cable TV services.

Included, is the right to build, rebuild, construct, reconstruct, locate, relocate, change, remove, modify, renew, operate and maintain facilities for the purposes described above, together with free access to, from, and over said right of way and easement, with the right and privilege of going upon, over and across adjoining lands of Grantor for the purposes set forth herein and with the right to utilize the right of way and easement to extend services to customers of Grantee, and to trim and remove trees, shrubs or bushes which interfere with the purpose set forth herein. No building, sign, pool (above ground or subsurface), hot tub, concrete or wood pool decking, or other structure shall be erected or constructed on said easements, nor shall any well be drilled or operated thereon.

Disclaimer

In approving this plat, Public Service Company of New Mexico (PNM) and New Mexico Gas Company (NMGC) did not conduct a Title Search of the properties shown hereon. Consequently, PNM and NMGC do not waive or release any easement or easement rights which may have been granted by prior plat, replat or other document and which are not shown on this plat.

COMMENTS: Service connections to be made with existing City Utility lines via Rufina Street and Camino Vista Aurora.

APPLICANTS, PLEASE NOTE:

- Ordinance 2008-53, prohibits new connections outside the presumptive city limits including the Agua Fria traditional historic community (AFTHC) unless specific conditions are met. Applications for service outside the presumptive city limits and AFTHC must include documentation showing these conditions are met or the application will be rejected. The documents required are shown below.
- A map of the proposed project in relation to the existing city limits and the presumptive city limits
- A detailed description of the proposed develop0ment including the type and size of proposed land uses
- The health, safety and welfare or other legal reason for the connection
- A site water budget
- Documentation from the County of Santa Fe that county water service is not available
- Documentation from the wastewater division regarding sewer availability
- A certified Santa Fe Homes Proposal as set forth in Section 14-8.11 SFCC 1987 if applicable

NOTICE OF EARLY NEIGHBORHOOD NOTIFICATION MEETING

July 8, 2025

Dear Neighbor:

This letter is being sent as notice of a neighborhood meeting to discuss pending development review applications to be submitted to the City of Santa Fe. The 4.28-acre subject property at 2904 Rufina St. comprises two parcels – Lot 3 totaling 3.877 acres and Lot 2-2 totaling 0.399 acres. Lot 3 is zoned I-1 & I-2 (Industrial), and Lot 2-2 is zoned C-2 (General Commercial). The applications will include a request to rezone Lot 3 to C-2 (General Commercial), along with amendments to the General Plan Future Land Use Map to change the Lot 3 land use designations from Industrial and Business Park to Community Commercial. In addition, a Master Plan will be submitted addressing the redevelopment of the property as a youth center for Girl's Inc. of Santa Fe. The facility will include approximately 49,000 sf of buildings and significant open space/outdoor recreation areas. Please refer to the attached Vicinity Map, Site Plan, and ENN Guidelines for more information.

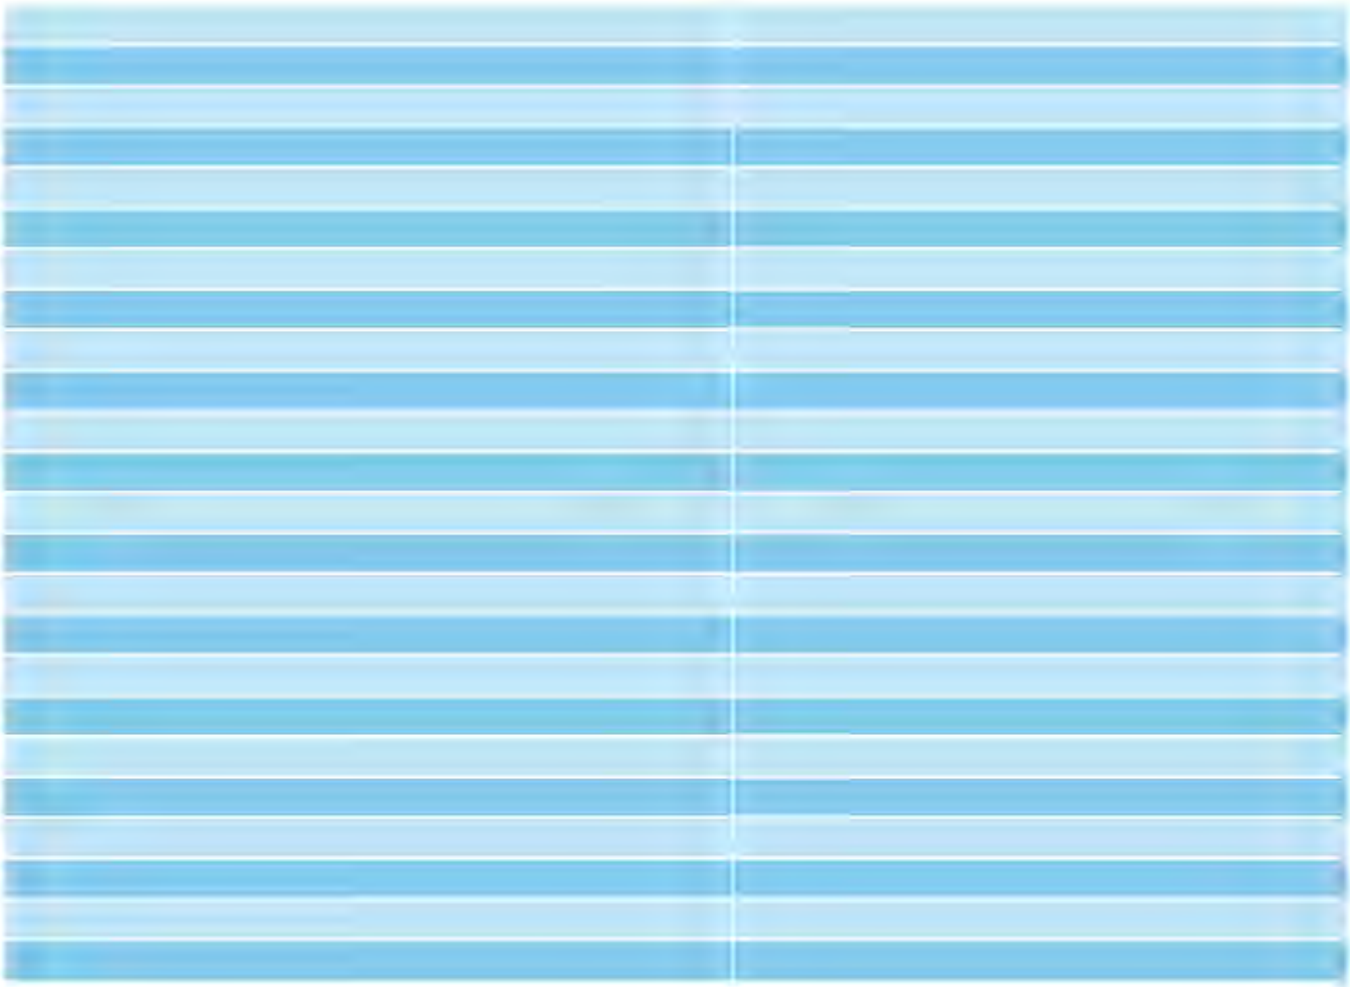
In accordance with the requirements of the City of Santa Fe's Early Neighborhood Notification regulations, this is to inform you that a virtual meeting is scheduled for **July 23, 2025 at 5:30 pm.**

The meeting link is below and can be accessed on the City's website at
https://santafenm.portal.civicclerk.com/

Join Zoom Meeting
https://us02web.zoom.us/j/87370280781?pwd=mbc3ddQPerH2OnXcoIsltRgFBia68a.1

Meeting ID: 873 7028 0781; Passcode: 529568
Call-in number: (669) 444 9171

Early Neighborhood Notification is intended to provide for an exchange of information between prospective applicants for development projects and the project's neighbors before plans become too firm to respond meaningfully to community input. If you have any questions or comments, please contact Jennifer Jenkins at 505-820-7444 or jennifer@jenkinsgavin.com. Persons with disabilities in need of special accommodations, or the hearing impaired needing an interpreter, please contact the Land Use Department at 505-955-6820 or gagurule@santafenm.gov 5 days prior to the meeting date.



Sincerely,

Jennifer Jenkins

Meeting assets for Girls Inc. ENN Meeting are ready!

Hi Jennifer Jenkins

The following assets for the meeting - Girls Inc. ENN Meeting are now available.

Meeting summary

Quick recap

The meeting served as an early neighborhood notification session for a proposed rezoning and master plan for Girls Inc.'s new facility in Santa Fe, with introductions made between the project team and Alexa Hempel, a senior city planner. The team presented plans for developing a new 3.8-acre campus with various facilities including a gathering space, gymnasium, and classrooms, while Jennifer explained the proposed zoning changes and traffic impact analysis. The conversation ended with an invitation for public questions and comments, with next steps including submitting applications to the city and moving through various review processes if approved.

Next steps

- Jennifer to submit applications to the city next month for the Girls Inc. project.
- Alexa to review the submitted application once received on August 11th.
- Tyler to complete the traffic study for the project.
- Kim to follow up with Lily to schedule a time to talk tomorrow.
- Alexi to continue refining the conceptual design of the Girls Inc. facility.
- Jennifer to prepare for the Planning Commission hearing, likely in early November.
- Girls Inc. team to proceed with detailed project design after obtaining approvals for rezoning and master plan.
- Jennifer to prepare for a future early neighborhood notification meeting for the development plan.

Summary

New Senior Planner Team Introduction

The meeting began with introductions, where Alexa, a new senior planner from the city, met the project team consisting of Kim, Jennifer, Alexander, Oralynn, and Tyler. Alexa shared her background working for the National Park Service in Santa Fe. The team discussed the possibility of having a low attendance for the meeting, with Jennifer noting that the protocol is to wait for 15 minutes before calling the meeting if there are no external attendees.

Girls Inc. Rezoning Community Meeting

The meeting served as an early neighborhood notification session for a proposed rezoning and master plan for Girls Inc.'s new facility in Santa Fe. Alexa Hempel, a senior planner with the city, explained the purpose of the meeting, emphasizing the importance of community input before the project advances. Jennifer Jenkins and Angelica Wolf, representing Jenkins Gavin, introduced the project and highlighted Girls Inc.'s mission to empower girls through educational and life skills programs. Kim Brown, the executive director of Girls Inc., expressed excitement about expanding their services to a new, more central location to address their extensive waitlist and meet community needs. The team also introduced Alexa Dzurek, the architect, Orlin Gurutis, the civil engineer, and Tyler Smith, who provided traffic engineering services. The conversation ended with an invitation for public questions and comments, which attendees could submit via chat or the raise-hand feature.

Girls Inc. Campus Zoning Proposal

Jennifer presented a proposal for Girls Inc. to develop a new campus on a 3.8-acre property located at the southeast corner of Rufina and Rufina Circle. She explained the current zoning and land use designations of the property and outlined the requested changes, including a rezone from I-1 and I-2 to C-2 zoning and an amendment to the general plan to change the designation to community commercial. The proposed changes aim to align with neighboring zoning and support the development of the new youth center facility.

Girls Inc. Campus Site Plan

Jennifer presented a site plan for the former nursery property, which will be redeveloped as the new Girls Inc. campus. She explained the proposed layout, including preserved areas for an outdoor classroom and recreational space, as well as areas suitable for development. Jennifer outlined the master plan, which will be submitted alongside a general plan amendment and rezone request, detailing the conceptual development intent. The plan includes two access points off Rufina Circle, parking areas for buses and staff, and a drop-off/pickup zone for parents.

Girls Inc. Facility Expansion Plan

Jennifer presented a plan for expanding Girls Inc.'s facility, which would include a gathering space, gymnasium, classrooms, and potential entrepreneurial training space. The project would cover 4.2 acres, with 3 acres of preserved open space, and would require rezoning of Lot 3 to C2 General Commercial. The facility would serve more families in the community by expanding program offerings and centralizing operations, making it more financially sustainable.

Traffic Study and Approval Process

Jennifer presented a traffic study for a proposed development, explaining how intersections are analyzed using a level of service grading system. She reported that most intersections showed good levels of service, with the exception of Rufina and Sila during the afternoon rush hour. Jennifer outlined the next steps in the approval process, including submitting applications to the city, going through reviews, and holding public hearings at the planning commission and city council levels. If approved, the project would move to the development plan phase, involving further design work and additional public meetings.

Project Submission and Follow-Up Discussion

Jennifer opened the meeting by inviting questions and offering to address any concerns, both during and after the meeting. She clarified that Alexa, who handles city processes, would be unable to answer detailed questions about the project until a submission is made, which is planned for August 11th. Alexa confirmed she had no immediate questions and expressed

anticipation for the submission. Kim concluded by arranging a follow-up conversation with Lily and mentioned she would be in touch via text or email. The conversation ended with expressions of gratitude and goodbyes.

I. INTRODUCTION AND SUMMARY

Girl's Inc. proposes developing a youth center, situated southeast of the Rufina Street and Rufina Circle (east) intersection. The proposed development will include a 5,000 square-foot facility with the ability to enroll 250 children.

A. STUDY PURPOSE

The purpose of the traffic study is to determine the impacts of the proposed development on the surrounding roadway network, evaluate the operation of the proposed site accesses, and to recommend any mitigation measures that may be necessary to support additional traffic generated by the new development.

B. EXECUTIVE SUMMARY

1. SITE LOCATION AND STUDY AREA

The site is located at 2904 Rufina Street on the southeast corner of the Rufina Street and Rufina Circle intersection in Santa Fe, New Mexico. A vicinity map is shown in Figure 1.

The study area consists of the following intersections:

- Siler Road and Rufina Street (existing 4-way signalized intersection)
- Calle del Cielo and Cerrillos Road (existing 4-way signalized intersection)
- Rufina Street and Parkway Drive/Rufina Circle (west) (existing 4-way unsignalized intersection)
- Rufina Street and Rufina Circle (east) (existing 4-way unsignalized intersection)
- Rufina Street & Richards Avenue (existing 4-way signalized intersection)
- Rufina Circle and Calle del Cielo (existing 4-way unsignalized intersection)
- Rufina Circle and Access 1 (future 3-way unsignalized intersection)
- Rufina Circle and Access 2 (future 3-way unsignalized intersection)

The intersection evaluations include analysis for the AM and PM peak hours for the following traffic conditions:

- Existing traffic (2025)
- 2028 Completion Year without the proposed site development (2028 No Build)
- 2028 Completion Year with the proposed site development (2028 Build)

- 2038 Horizon Year without the proposed site development (2038 No Build)
- 2038 Horizon Year with the proposed side development (2038 Build)

2. PRINCIPAL FINDINGS

The traffic analysis found that all intersections operate acceptably overall in the 2028 Build scenario. The eastbound left, eastbound thru/right, and the northbound left turning movements at the signalized intersection of Rufina Street and Siler Road operate at LOS E in the PM peak hour. To improve the eastbound movement, this approach should be restriped to remove on street parking near the intersection and including one 10' wide westbound lane leaving the intersection, a 10' wide dedicated eastbound left turn lane, one 10' eastbound through lane, and one 10' dedicated eastbound right turning lane. The dedicated right turn lane should include 200 feet for storage along with the taper length as determined by the MUTCD and prescribed in the City of Santa Fe standards.

The northbound thru/right turn movement at the Calle del Cielo and Cerrillos Road intersection continues to operate at LOS E during both peak hours, while the southbound left turn movement degrades to LOS E in the AM peak hour due to the development traffic. With this decline and increase in queue distance needed, it is recommended to complete median modifications on the north side of this intersection along Calle del Cielo to adequately store the queue that will develop. The median should be a maximum of 5' with a 10' left turn lane, a 10' southbound through lane, and a 10' dedicated right turn lane. Additionally, traffic signal timing adjustments should be completed at the intersection to help address this issue. As this storage length was not adequate prior to the development, a cost share of this improvement should be evaluated between the City of Santa Fe and the developer to determine appropriate shares.

In the 2038 Build scenario, the Rufina Street and Rufina Circle (east) intersection and the two new access driveways on Rufina Circle will operate overall acceptably. The northbound left turn lane at both the East and West intersections of Rufina Street and Rufina Circle is recommended to be installed to address City of Santa Fe turn lane warrants.

At the Rufina Circle and Calle del Cielo the westbound left turn lane is warranted and should be installed. This lane should be a minimum of 50' and include a taper length as determined by the MUTCD and prescribed in the City of Sanat Fe standards.

Lastly, Rufina Circle and Access 1 meets warrants for a left turn lane at the entrance to the development. This left turn lane should be 50 feet in length for storage with a taper length as determined by the MUTCD and prescribed in the City of Santa Fe standards. All other turning movement volumes do not meet turn lane thresholds at either access.

3. RECOMMENDATIONS

- Install a southbound left turn lane at Rufina Circle and Access 1 with striping modifications. This will include removal of on-street parking and installation of the left turn lane by shifting the northbound lane, southbound lane, and bike lanes to incorporate an 11 foot left turning lane. The dedicated left turn lane should include 50 feet for storage along with the taper length as prescribed in the City of Santa Fe standards.
- Install an Eastbound dedicated right turn lane at the intersection of Rufina Street and Siler Road. This lane should be accomplished by striping by removing on street parking near the intersection and including one 10' wide westbound lane leaving the intersection, a 10' wide dedicated eastbound left turn lane, one 10' eastbound through lane, and one 10' dedicated eastbound right turning lane. The dedicated right turn lane should include 225 feet for storage along with the taper length as determined by the MUTCD and prescribed in the City of Santa Fe standards.
- Median modifications should be completed at the Cerrillos and Calle de Cielo intersection. The median should be a maximum of 5 feet and the southbound lanes should include a 10' right turn lane, a 10' through lane, and a 10' left turn lane. These lanes should extend the full length of Calle de Cielo from Cerrillos to Rufina Circle.
- The northbound approach at the intersection of Rufina Street and Rufina Circle (West) should be restriped to remove on street parking near the intersection. New striping should include a 5' bike lane, a 10' dedicated left turning lane and a 10' shared through/right turn lane. The dedicated left turn lane should include 50 feet for storage along with the taper length as determined by the MUTCD and prescribed in the City of Santa Fe standards.
- At the intersection of Rufina Street and Rufina Circle (East), the northbound approach should be restriped to remove on street parking near the intersection. New striping should include a 5' bike lane, a 10' dedicated left turning lane and a 10' shared through/right turn lane. The dedicated left turn lane should include 50 feet for storage along with the taper length as determined by the MUTCD and prescribed in the City of Santa Fe standards.
- Rufina Circle and Calle del Cielo warrants a westbound left turn lane. This lane should be included at this intersection through restriping. On street parking would be removed approximately 100 feet prior to the intersection. The roadway is recommended to be restriped to include a

5' bike lane, a 10' westbound through lane, and a 10' westbound left turn lane. The dedicated left turn lane should include 50 feet for storage along with the taper length as determined by the MUTCD and prescribed in the City of Santa Fe standards.

- All designs shall satisfy the Manual on Uniform Traffic Control Devices (MUTCD) and City of Santa Fe requirements.

II. PROPOSED DEVELOPMENT

A. LAND USE AND INTENSITY

The proposed development is a 5,000 square-foot facility.

The development is located southeast of the Rufina Street and Rufina Circle (east) intersection. The study area is partially developed.

B. DEVELOPMENT PHASING AND TIMING

The project is expected to be developed by 2028.

III. STUDY AREA CONDITIONS

A. STUDY AREA

The study area consists of the following intersections:

- Siler Road and Rufina Street (existing 4-way signalized intersection)
- Calle del Cielo and Cerrillos Road (existing 4-way signalized intersection)
- Rufina Street and Parkway Drive/Rufina Circle (west) (existing 4-way unsignalized intersection)
- Rufina Street and Rufina Circle (east) (existing 4-way unsignalized intersection)
- Rufina Street & Richards Avenue (existing 4-way signalized intersection)
- Rufina Circle and Calle del Cielo (existing 4-way unsignalized intersection)
- Rufina Circle and Access 1 (future 3-way unsignalized intersection)
- Rufina Circle and Access 2 (future 3-way unsignalized intersection)

B. SITE ACCESSIBILITY

The development will include two accesses on Rufina Circle, approximately 300 feet and 550 feet south of the Rufina Street and Rufina Circle (east) intersection. The site access locations being proposed on Rufina Circle are existing driveways and the development plan to utilize these as their future access points.

The primary routes to the site are anticipated to be either Cerrillos Road, Siler Road or Rufina Road.

C. DATA SOURCES

The data used in this report consists of the traffic volumes described below, aerial photography and mapping from Google Earth®, as well as information provided by IDAX Traffic Counts.

IV. EXISTING CONDITIONS ANALYSIS

A. BACKGROUND

Roadway federal classification is updated approximately every four years. The classification process involves local governments, the Santa Fe Metropolitan Planning Organization (SFMPO), New Mexico Department of Transportation (NMDOT), and the Federal Highway Administration (FHWA). The SFMPO Roadway Functional Classification Map classifies roadways based on their function. Roadways are subject to design guidance based on their functional classification, design speed, or based on Comprehensive Plan corridor designations.

1. ADJACENT ROADWAYS

The following are adjacent roadways:

- Cerrillos Road is a principal arterial with three lanes in each direction and dedicated left and right turn lanes. Cerrillos Road has a posted speed limit of 40 miles per hour (MPH). Cerrillos Road provides regional connectivity within the greater Santa Fe area, serving as a link between major/minor roadways which travel in north-south directions, including Highway 285 and I-25. Sidewalks and bicycle lanes exist along Cerrillos Road in this area.
- Siler Road is a minor arterial, with one lane in each direction and a two-way left turn lane. Siler Road has a posted speed limit of 30 MPH. Siler Road provides regional connectivity within Santa Fe, serving as a crossing of the Santa Fe river to the north. Sidewalks exist along Siler Road in this area as well as designated bike lanes/shoulders.
- Richards Avenue is a major collector roadway with one lane in each direction. Richards Avenue has a posted speed limit of 35 MPH. Richards Avenue has sidewalks and bicycle lanes in this area.
- Calle del Cielo is classified as a local roadway by the SFMPO. Calle del Cielo doesn't have a posted speed limit within the section of roadway of the study although the City of Santa Fe statute states if unposted, the speed limit is 25 MPH. To the south of Cerrillos this roadway is classified as a major collector that is posted at 25 MPH, although this portion of the roadway was not included in this study limits. Calle del Cielo has sidewalks, curb, and gutter. Calle del Cielo intersects Cerrillos Road approximately 200-ft south of the Rufina Circle intersection.
- Rufina Street is a minor arterial roadway with one lane in each direction and a posted speed limit of 30 MPH. Sidewalks and bicycle lanes exist along Rufina Street in this area.

- Rufina Circle is a local roadway with speed humps and one lane in each direction. Rufina Circle does not have a posted speed limit; however, the City of Santa Fe statutes state if unposted, the speed limit is 25 MPH. Additional advisory signs designating speed humps ahead specify a 20 MPH advisory speed. Sidewalks and bicycle lanes exist along Rufina Circle in this area.

The City of Santa Fe Roadway Classification map is included in Appendix A.

Additionally, bike lanes, pedestrian facilities, and bus stop locations were assessed based on existing conditions.

2. MULTI-MODAL CONDITIONS

The Santa Fe Bikeways and Trails map includes designated bicycle lanes on many of the roadways as noted in the roadways section. This map also notes Richards Road, and Clark include either a bike lane or designated as a shared-lower traffic/speed corridor.

The Santa Fe trails bus system also runs through the area of the development. Route 2 runs along Cerrillos Road with the nearest stop near the intersection of Calle del Cielo and Cerrillos Road. This route will take a rider to the Santa Fe Place transit Center as well as the Downtown Transit Center, with stops at several rail runner locations.

B. EXISTING TRAFFIC CONDITIONS

Traffic counts for the intersections analyzed in the study area were collected on July 9, 2025. Existing traffic counts are included in Appendix B. The counts included 6-hour turning movement counts. Build traffic for the proposed facility was estimated by taking the maximum enrollment for the new facility, developing trip generation, and distributing those trips onto the Build roadway network.

C. LEVEL OF SERVICE DEFINITIONS

The *Highway Capacity Manual Seventh Edition* (HCM) defines Level of Service (LOS) for signalized and unsignalized intersections in Table 1 as follows:

Table 1 | LOS Definitions			
Level of Service	**Definition**	**Signalized (sec/veh)**	**Unsignalized (sec/veh)**
A	Most vehicles do not stop	<10	<10
B	Some vehicles stop	>10 and <20	>10 and <15
C	Significant numbers of vehicles stop	>20 and <35	>15 and <25
D	Many vehicles stop	>35 and <55	>25 and <35
E	Limit of acceptable delay	>55 and <80	>35 and <50
F	Unacceptable delay	>80	>50

The City of Santa Fe has established LOS D as the generally acceptable level of service in urban areas. When intersections operate below this level, improvements are considered where feasible. Other critical movements are also desired to have LOS D or better if possible.

D. EXISTING INTERSECTION CAPACITY ANALYSIS

The traffic volume for all existing intersections were analyzed using Highway Capacity Software version 8.4 (HCS 2025), which uses the intersection methodology from the Seventh Edition of the Highway Capacity Manual (HCM). Existing traffic volumes are shown in Figure 2. Individual intersection output for the existing conditions analysis is included in Appendix C. The results for the signalized intersections are summarized in Table 2.

All signalized intersections operate at an overall acceptable level of service in the AM and PM peak hours. The northbound through/right turn movement at the Calle del Cielo and Cerrillos Road intersection operates at a LOS E in both the AM and PM peak hours.

At the intersection of Calle del Cielo and Cerrillos in the southbound left turn lane, the 95th percentile queue resulting from the analysis using the HCS software is 85 feet during the AM peak hour and 140 feet during the PM peak hour. The 95th percentile queue lengths are included in the results in Appendix C. The available queue storage for this movement is approximately 75 feet which results in queue spillover for this movement during both peak hours. The City of Santa Fe should review this movement and make adjustments to lengthen this queue storage space since this occurs in existing conditions.

Table 2 | Existing Signalized Intersection Results						
Intersection	2025 AM Peak			2025 PM Peak

Northbound Thru/Right	210	8.9	0.07	25	A	9.1	0.05	25	A
Southbound Approach	N/A	9.8	0.01	0	A	10.9	0.04	25	B
* - HCM 95th percentile queue rounded to next 25-foot increment									

The existing access points that will be utilized by the proposed development are in place although no traffic was documented leaving or entering this lot during traffic counting. Therefore access 1 and access 2 are not documented in the operational tables due to no turning movements into the existing site.

V. PROJECTED TRAFFIC

A. SITE TRAFFIC FORECASTING

1. TRIP GENERATION

Generated trips are broken down into three types; 1) primary, 2) pass-by trips, and 3) diverted link. The Trip Generation report defines these trips as follows:

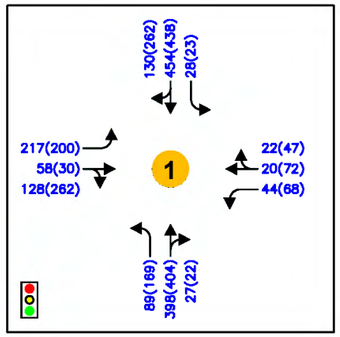
- **Primary Trips** – These trips are made for the specific purpose of visiting the generator. The stop at that generator is the primary reason for the trip. For example, a home to shopping to home combination of trips is a primary trip set.
- **Pass-by Trips** – These trips are made as intermediate stops on the way from an origin to a primary trip generation. Pass-by trips are attracted from the traffic passing the site on an adjacent street that contains direct access to the generator site. These trips do not require a diversion from another roadway. For example, stopping at the store on the way home from work is an example of a pass-by trip. No pass-by trips we used in this analysis.
- **Diverted Linked Trips –** These trips are attracted from the traffic volume on the roadway within the vicinity of the generator, but which require a diversion from that roadway to another roadway to gain access to the site. The roadways could include streets or freeways adjacent to the generator, but without access to the generator. For this study, the diverted link trips have been included in with the primary trips.

This study evaluates primary trips only.

The trip generation is generally based on the 11th Edition of the Institute of Transportation engineer's (ITE) Trip Generation Manual which estimates trips by land use characteristics. Trip generation for this study was determined by counting the existing trips to the existing location of Girl's Inc. in Santa Fe. The existing Girl's Inc has an enrollment of 85 students, whereas the proposed Girl's Inc will have a maximum enrollment of 250 students. Therefore, the existing trips at the existing Girl's Inc were multiplied by a factor of 2.94 (250/85). Based on this it is anticipated that there will be 388 AM peak hour trips (200 entering and 188 exiting) and 388 PM peak hour trips (188 entering and 200 exiting). The site-specific trip generation is shown in Table 5.

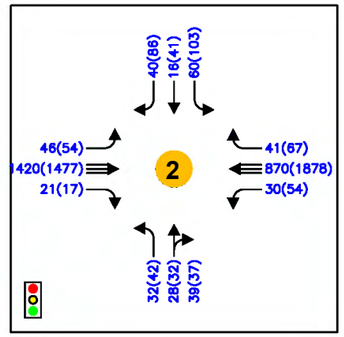
Table 5 | Trip Generation						
Land Use	AM Peak Hour			PM Peak Hour		
	Enter	Exit	Total	Enter	Exit	Total
Existing Girl's Inc	68	64	132	64	68	132
Proposed Girl's Inc	**200**	**188**	**388**	**188**	**200**	**388**

2. TRIP DISTRIBUTION AND ASSIGNMENT



The trip distribution was determined within the existing roadway network to and from the development based on the proportions of existing turning movement counts.

Spreadsheets showing the development of the trip distribution are included in Appendix D. Trip assignment percentages are shown in Figure 3 with the trip assignment volumes shown in Figure 4.



3. TRAFFIC PROJECTIONS

A background growth rate of 2% was applied to provide an estimate of potential future growth of traffic at all intersections evaluated. The growth rate determination and data are summarized in the spreadsheets included in Appendix D.

VI. TRAFFIC AND IMPROVEMENT ANALYSIS

A. LEVEL OF SERVICE ANALYSIS

The following section discusses the results of the future year traffic analysis. The intersection capacity analysis was completed using HCS 2025 which implements the Highway Capacity Manual procedures.

1. 2028 NO BUILD INTERSECTION CAPACITY ANALYSIS

The 2028 No Build analysis assumes that the proposed development is not completed in the 2028 time period. Figure 5 shows the 2028 No Build Peak Hour Traffic Volumes. The HCS outputs are included in Appendix E.

For the 2028 No Build scenario all signalized intersections operate at an acceptable level of service in the AM and PM peak hours. The northbound thru/right turn movement at the Calle del Cielo and Cerrillos Road intersection continues to operate at a level of service E in both the AM and PM peak hours. Table 6 summarizes the 2028 No Build Signalized Results.

During this scenario, the intersection of Calle del Cielo and Cerrillos in the southbound left turn lane, the 95th percentile queue continues to lengthen to 100 feet during the AM peak hour and 150 feet during the PM peak hour. Again, the available queue storage for this movement is approximately 75 feet which results in queue spillover for this movement during both peak hours. As this continues to occur during no build scenarios, the City of Santa Fe should review this movement and make adjustments to lengthen this queue storage space since this is first shown in existing conditions. If the development does move forward mitigation measures are shown in the build scenario.

Table 6 | 2028 No Build Signalized Intersection Results						
Intersection	2028 AM Peak			2028 PM Peak		
	Delay (sec)	V/C	LOS	Delay (sec)	V/C	LOS

* - HCM 95th percentile queue rounded to next 25-foot increment			

The study found that all unsignalized intersections operate at acceptable levels of service in the 2028 No Build condition with all movements at LOS C or better for both AM and PM peak hours.

For the 2028 No Build condition, the Rufina Street and Rufina Circle (west) intersection has eastbound and westbound approaches that are expected to operate at LOS A in the AM and PM peak hours. The northbound and southbound approaches are expected to operate at a LOS C in the AM and PM peak hours.

The Rufina Street and Rufina Circle (east) intersection has eastbound and westbound approaches that are expected to operate at LOS A in the AM and PM peak hours while the northbound approach operates at LOS B in the AM and PM peak hours. The southbound approach operates at a LOS B in the AM peak hour and LOS A in the PM peak hour.

The Rufina Circle and Calle del Cielo intersection is expected to operate at a LOS A for the eastbound approach, westbound approach, and northbound thru/right movement in both the AM and PM peak hours. The northbound left turning movement operates at LOS B in the AM and PM peak hours. The southbound approach operates at LOS A in the AM peak hour and LOS B in the PM peak hour. Table 8 shows the 2028 No Build Unsignalized Results.

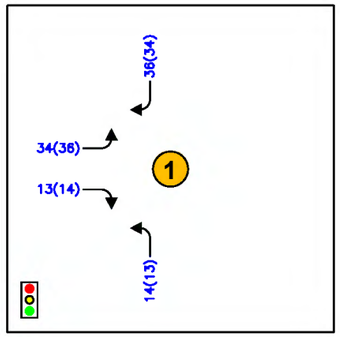

Table 8 | 2028 No Build Unsignalized Intersection Results									
Intersection	Provided Queue	2028 AM Peak				2028 PM Peak

* - HCM 95th percentile queue rounded to next 25-foot increment									

Again, the existing access points that will be utilized by the proposed development are in place in existing conditions although no traffic was documented leaving or entering this lot during traffic counting. Therefore access 1 and access 2 are not documented in the operational table above due to no turning movements into the existing site.

2. 2028 BUILD INTERSECTION CAPACITY ANALYSIS

The trips generated by the site (Table 5) were assigned to the intersections using the trip assignment volumes shown in Figure 4. These trips were added to the 2028 No Build traffic projections to calculate the 2028 Build volumes. The 2028 Build Traffic Volumes are illustrated in Figure 6.

The study found that all signalized intersections operate at an overall acceptable level of service in the AM and PM peak hours. While the intersections operate at overall acceptable conditions, some individual movements see LOS E in the 2028 Build condition.

The Rufina Street and Siler Road intersection continues to operate with acceptable level of service with overall LOS B in the AM peak hour and LOS D during the PM peak hour. This intersection will see the eastbound left, eastbound through/right and northbound left turn movements decline in operation to LOS E during the PM peak hour. The northbound left turning movement 95th percentile queues extend past the developed left turn lane although a two way left turn lane exists for another 200 feet which can hold this queue.

Mitigation efforts were completed for the Rufina Street and Siler Road intersection by adding a dedicated eastbound right turn lane at the intersection. A summary of the mitigation operations is included in Table 10. This improved the overall operations to LOS C in the PM peak hour. The addition of this eastbound right turn lane is recommended for the future of this intersection. Additionally, signal timing adjustment should be considered to further improve the intersections operations.

The intersection of Calle del Cielo and Cerrillos Road also is expected to have turning movements that operate at LOS E and LOS F. The northbound thru/right turn movement continues to operate at LOS E in both the AM and PM peak hours and the southbound left movement declines to LOS E in the AM peak hour and LOS F during the PM peak hour for the 2028 Build condition. All other movements operate at LOS D or better. Even though the southbound left turning movement declined to LOS E, the 95th percentile queueing length was 94 feet in the AM peak hour and 229 feet during the PM peak hour. This is still comparable to the existing 95th percentile queue lengths associated with this movement. Because queue spillover occurred during the existing conditions, the development is not fully responsible although a portion is added to this movement through the intersection. It is recommended to redesign the median on Calle del Cielo to lengthen the southbound left turn movement storage. If the median is adjusted to be four to five feet for the entire length of the roadway, the southbound left turn lane could be lengthened to approximately 200 feet in length which would accommodate and AM peak 95th percentile queue but leave some of the PM peak queue beyond this storage lane.

Additional signal timing adjustments were completed on the PM peak hour of this intersection which is shown in Table 10. This signal adjustment helped to improve the southbound left turning 95th percentile queue length to a length of 200 feet. It is recommended to update the median on Calle del Cielo and complete signal timing adjustments at this intersection prior to the 2028 build scenario.

The Rufina Street and Richards Avenue intersection operates at an overall LOS B in the AM and PM peak hours for the 2028 Build condition. All movements at this intersection will operate at LOS C or better for both the AM and PM peak hours.

The 2028 Build capacity analysis for the signalized intersections is shown in Table 9 with the full intersection output included in Appendix F.

SITE TRAFFIC ANALYSIS

FIGURE 5
2028 AM(PM) NO BUILD
PEAK HOUR TRAFFIC VOLUMES

3. 2038 NO BUILD INTERSECTION CAPACITY ANALYSIS

The 2038 Horizon Year No Build analysis assumes the proposed development is not completed. Figure 7 shows the 2038 Horizon Year No Build peak hour volumes.

The traffic analysis found that all signalized intersections, except for the Rufina and Siler intersection, are expected to operate at an acceptable level of service in both the AM and PM peak hours. While these intersections operate overall acceptably, some individual movements are expected to operate at LOS E in the 2038 No Build conditions due to background traffic growth.

The Rufina and Siler intersection is expected to operate at an overall LOS C in the AM peak hour and LOS F in the PM peak hour. During the AM peak hour all movements will operate at LOS D or better. The PM peak hour contains the eastbound left, eastbound through/right, westbound left, northbound left, and southbound through that will operate at LOS F. The westbound through/right will also operate at LOS E during the PM peak hour. Due to these deficiencies occurring in the no build scenario, the decline in operation is not due to the development traffic. The main issue driving this decline is the significant volume of northbound and southbound traffic at the intersection. In the no build a dedicated southbound right turn lane is warranted.

With this southbound right turn lane included in the no build scenario, all movements return to acceptable level which shows that if this was done prior to this development, no additional mitigations would need to be considered. In this area, Siler Road is fully developed on either side of the roadway and right-of-way appears to be exhausted by the roadway and sidewalks. If the City of Santa Fe desires to improve the operations of this intersection, additional right-of-way will be required. Because this all occurs prior to the development, this is the responsibility of the City. If the City requires the development to participate, it should be evaluated by all participants to determine the amount each party should contribute. This report shows that in 2028 build conditions, existing traffic makes up approximately 79% of this and development traffic adds 21%.

The intersection of Calle del Cielo and Cerrillos Road will continue to see the northbound through/right movement operate at LOS E during both peak hours. Recall that this movement in existing conditions was operating at LOS E.

At the Rufina and Richards intersection, all movements during both peak hours will operate at LOS D or better.

During the 2038 No build scenario, the intersection of Calle del Cielo and Cerrillos in the southbound left turn lane, the 95th percentile queue continues to lengthen to 117 feet during the AM peak hour and 181 feet during the PM peak hour. Again, the available queue storage for this movement is approximately 75 feet which results in queue spillover for this movement during both peak hours. If the development moves

forward mitigation strategies will improve this issue. If the development does not move forward, the City of Santa Fe should review this movement and make adjustments to lengthen this queue storage space since this is present in existing conditions and no build scenarios. If the development does move forward mitigations are shown in the build scenario of this report.

Table 13 summarizes the results for the 2038 No Build Signalized Intersection Results. The HCS outputs are included in Appendix G.

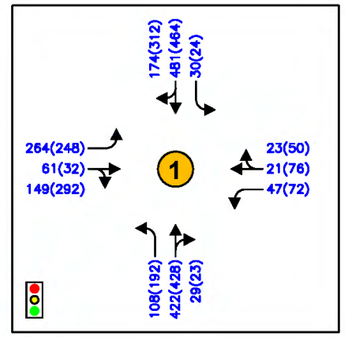
* - HCM 95th percentile queue rounded to next 25-foot increment			

The traffic analysis found in the 2038 No Build condition all unsignalized intersections operate at acceptable Levels of Service in both the AM and PM peak hours. While all unsignalized intersections are expected to operate overall acceptably in the horizon no build, the northbound approach for the Rufina Street and Rufina Circle (West) intersection is expected to operate at LOS E in the PM peak hour. Due to this deficiency occurring in the no build scenario, the decline in operation is not due to the development traffic.

All other movements for unsignalized intersection will operate at LOS C or better.

Table 15 summarizes the results for the 2038 No Build Unsignalized Intersection Results. The HCS outputs are included in Appendix G.



Again, the existing access points that will be utilized by the proposed development are in place in existing conditions although no traffic was documented leaving or entering this lot during traffic counting. Therefore access 1 and access 2 are not documented in the operational table above due to no turning movements into the existing site.

FIGURE 6
2028 AM(PM) BUILD
PEAK HOUR TRAFFIC VOLUMES

C:\Users\CVERMILLION\appdata\local\temp\AcPublish_8836\20260085_Figures.dwg Oct 06, 2025 - 4:47pm

4. 2038 BUILD INTERSECTION CAPACITY ANALYSIS

The trips generated by the site (Table 5) were assigned to the intersections using the trip assignment volumes, shown in Figure 4. These trips were added to the 2038 Horizon Year No Build traffic projections to calculate the 2038 Build volumes. Figure 8 shows the 2038 Build Traffic Volumes.

The traffic analysis found that all signalized intersections, except for the Rufina and Siler intersection, are expected to operate at an overall acceptable level of service in both the AM and PM peak hours. While these intersections operate overall acceptably, some individual movements continue to operate at LOS E in the 2038 Build conditions, some due to background traffic growth that was introduced for the horizon year.

The Rufina and Siler intersection continues to operate at an overall LOS C in the AM peak hour and LOS F in the PM peak hour. During the AM peak hour all movements operate at LOS D or better. The PM peak hour contains the eastbound left, eastbound through/right, westbound left, northbound left, and southbound through that will operate at LOS F. The westbound through/right will operate at LOS E during the PM peak hour. Due to these deficiencies presenting themselves in the no build scenario, the decline in operation is from the background traffic and not due to the development traffic. Mitigation was presented in the 2028 build scenario that added a dedicated eastbound right turn lane. This mitigation will be analyzed here as well.

The intersection of Calle del Cielo and Cerrillos Road will continue to see the northbound through/right movement operate at LOS E during both peak hours. The southbound left will decline to LOS E as well during the AM peak hour.

At the Rufina and Richards intersection all movements will operate at LOS D or better during both AM and PM peak hours.

During the 2038 build scenario, the intersection of Calle del Cielo and Cerrillos in the southbound left turn lane, the 95th percentile queue continues to lengthen to 229 feet during the AM peak hour and 269 feet during the PM peak hour. Mitigation was completed which improved the PM peak hour 95th percentile queue to 225 which is an improvement although additional improvements would require analysis of the Cerrillos Road signal system. Since the horizon year includes estimates of growth, these mitigation measures should be verified as this time gets closer. To improve the southbound left turn queue, additional queue storage should be constructed by adjustments to the existing median along Calle Del Cielo. As this storage length was not adequate prior to the development a cost share of this improvement should be evaluated between the City of Santa Fe and the developer to determine appropriate shares. This report shows that in 2028 build conditions, existing traffic makes up approximately 47% of this and development traffic adds 53%.

The 2038 Build capacity analysis summary for the signalized intersections is shown in Table 16 with the individual intersection output included in Appendix H.

Table 16 | 2038 Build Signalized Intersection Results

Intersection	2038 AM Peak			2038 PM Peak		
	Delay (sec)	V/C	LOS	Delay (sec)	V/C	LOS
Rufina St & Siler Rd	23.9		C	96.9		F
Eastbound Left	30.2	0.695	C	128.3	1.019	F
Eastbound Thru/Right	33.8	0.771	C	126.7	1.043	F
Westbound Left	34.8	0.274	C	152.3	0.987	F
Westbound Thru	39.9	0.478	D	59.8	0.394	E
Northbound Left	19.8	0.567	B	191.9	1.185	F
Northbound Thru	15.5	0.601	B	21.7	0.529	C
Southbound Left	11.8	0.096	B	20.0	0.075	B
Southbound Thru	23.5	0.944	C	98.6	1.084	F
