SUBJECT: Council Staffing Assessment-Report and Presentation

REQUESTED ACTION
Presentation and discussion.

BACKGROUND/SUMMARY
This project was directed by Governing Body through the passage of Resolution 2025-28, which the City Manager's Office engaged a consultant to assess the staffing support of city councilors. Baker Tilly was selected through a competitive RFP process (they were one of three proposals) to conduct the study.

The goal of the assessment is to understand Council's staffing support needs and provide recommendations for staffing models that reflect the needs of City Council, city administration and management, and the community. Interviews were conducted with outgoing and current governing body members and staff.

Findings and recommendations, along with peer benchmarking information, were shared with city staff this week. Following the presentation by the Baker Tilly team, Governing Body may wish to discuss this further in a study session.

I. Executive Summary

A. Introduction

The City of Santa Fe (the City) engaged Baker Tilly to conduct a Council staffing study to assess Councilors' staffing needs, evaluate current staffing structures, and identify potential staffing models. We conducted this assessment between October 2025 and May 2026, using a four-phased approach consisting of project planning and management, fact-finding, analysis, and reporting.

B. Summary of Observations and Recommendations

Detailed observations and recommendations are provided in section V of this report.

OBSERVATIONS AND RECOMMENDATIONS		
Approach to Council Support		
1.	**Observation**	The City currently operates a decentralized support model for Council staffing, relying on a distributed group of staff across departments to provide administrative, legislative, and constituent services. In practice, this approach has led to heavy workloads for staff, ambiguity for both Councilors and staff regarding the scope of available support, and constrained capacity for Councilors to effectively manage workload demands at their desired level.
	Recommendation	The City should retain its current decentralized Council support structure while adding a centralized Council Program Manager position within the City Manager's Office to improve coordination, consistency, workload management, and administrative support across Council operations without consolidating existing departmental support functions.
2.	**Observation**	Roles and responsibilities between Councilors and City staff are not always clearly defined, resulting in confusion, inconsistent expectations, and uneven support.
	Recommendation	Establish and document a formal Council support framework that clearly defines the roles and responsibilities of Councilors and City staff and standardizes how work flows between them. This documentation will improve consistency, efficiency, and equity for Council support.
Other Considerations		
3.	**Observation**	The City's legislative research and drafting process is critical to effective governance. However, the process lacks transparency, clear prioritization criteria, and shared visibility, which has created frustration for Councilors and City staff.

OBSERVATIONS AND RECOMMENDATIONS		
	Recommendation	Formalize a legislative research and drafting process that establishes clear prioritization criteria, shared visibility across Councilors, and consistent communication on the status of legislative requests.
4.	**Observation**	The current committee process requires legislation to move through multiple sequential reviews, contributing to redundant discussions, longer timelines, and increased workload for both Councilors and staff.
	Recommendation	Evaluate the committee review process to identify opportunities to streamline legislative workflows, reduce redundancy, and improve efficiency for Councilors and staff.

II. Introduction

A. Background

At the request of the City of Santa Fe's Council, Baker Tilly conducted a Council staffing study to assess City Councilors' support needs, evaluate current staffing structures, and identify potential alternative models.

Together with the Mayor, Councilors form the City's governing body and act as primary policy makers. They review legislative agenda items, propose amendments, and introduce new policies. The City has eight part-time paid Councilors (two for each City district), and a full-time paid Mayor. Councilors bring diverse backgrounds and varying levels of municipal experience, along with differing capacities to balance their Council responsibilities with full-time work and personal obligations.

In recent years, Councilors report experiencing increased workload demands related to legislative activity, constituent engagement, and administrative coordination. As community expectations grow and City issues become more complex, Councilors are spending more time responding to constituent inquiries, developing policy initiatives, preparing for committee meetings, and navigating internal City processes. Some of these responsibilities extend beyond what can reasonably be managed by part-time elected officials without structured and reliable support.

These conditions prompted City leadership to initiate this assessment, to better understand current Council support challenges, evaluate peer city practices, and identify staffing models and governance improvements that align with Santa Fe's structure as a part-time Council. This assessment analyzed ways to improve Councilor capacity, enhance efficiency and equity in support delivery, clarify roles and responsibilities, and ensure that Councilors are effectively supported in carrying out their governance and representative duties to provide the best service possible to constituents.

B. Scope and Methodology

We conducted this assessment between October 2025 and June 2026. The project consisted of four phases that are detailed below.

PROJECT PHASES		
Phase		**Description**
1	**Startup and Project Management**	This phase included a kickoff meeting with City leadership to confirm expectations and discuss overall project scope, logistics, deliverables, timing, and progress reporting requirements. Planning also served to clarify responsibilities between Baker Tilly and City staff, timing of project activities, and format of deliverables. We conducted project management throughout the engagement and ensured all deliverables received a quality assurance review.

PROJECT PHASES		
Phase		**Description**
2	**Fieldwork**	Fieldwork consisted of activities designed to help Baker Tilly gain an understanding of the City's current Council structure and needs. Fieldwork activities were designed to gather both qualitative and quantitative information to form the foundation for observations. For this engagement, fieldwork activities included: ● **Interviews:** We interviewed seven Councilors and ten members of City management and staff. ● **Document and Data Review:** We gathered relevant documentation for review, including organizational charts, budgets, and governance procedural documents. ● **Peer Benchmarking:** We conducted peer benchmarking with peer cities to assess how the City's Council structure and needs compare to similarly situated cities. Peers were selected in partnership with City leadership for their similar size or structure to the City, while ensuring a mix of Council support structures. We reached out to 19 peer cities and the following ten responded to our survey: ○ City of Austin, TX ○ City of Boulder, CO ○ City of Hartford, CT ○ City of Lansing, MI ○ City of Odessa, TX ○ City of Provo, UT ○ City of Reno, NV ○ City of Rio Rancho, NM ○ City of Salem, OR ○ City of Topeka, KS Full peer survey results are included in Appendix A. ● **Industry Best Practices:** We conducted research into industry best practices for related topics, such as Council staffing support models. ● **Preliminary Observations:** We summarized the results of fieldwork in the preliminary observations presentation. This document informed the direction of analysis.
3	**Analysis**	Based on our initial observations, we evaluated Council staffing models that the City may consider to improve the efficiency and effectiveness of the City Council.
4	**Reporting**	Based on our analysis, we prepared the draft report, which was reviewed by City leadership. We integrated feedback into an updated report before finalization.

C. Statement of Compliance with Standards

This engagement was performed in accordance with Standards for Consulting Services established by the American Institute of Certified Public Accountants (AICPA). Accordingly, we provide no opinion, attestation, or other form of assurance with respect to our work or the information upon which our work is based.

III. Commendations

Although the focus of this assessment was to conduct a Council staffing study, we noted the following areas of strength and existing good practices that can be leveraged for further improvement:

- **Constituent Commitment:** Councilors are committed to supporting their constituents' needs and concerns. Councilors have a strong willingness to champion constituent issues, facilitate community events, and ensure that constituent voices are heard in Council deliberations, despite resource constraints.
- **Staff Commitment:** City staff members are generally eager to support Councilors with their needs, helping with tasks, such as answering questions, coordinating logistics, preparing reports, and offering information, to help Councilors make informed policy decisions. While the level and type of support may vary depending on the Councilor's style and the specific request, staff typically strive to be responsive and helpful, working collaboratively to address both administrative and community engagement needs.

We would like to thank City leadership for their willingness to assist us in this assessment process. These commendations, coupled with our observations and recommendations, provide an overview of areas of strengths and weaknesses that can help improve governance and operations.

IV. Council Support Model Options

There are three primary staffing support models with different levels of support, resource investment, and operational structure. We will refer to these options throughout the report. These models are not mutually exclusive; rather, they represent a spectrum of potential approaches. Each model carries different implications for cost, governance alignment, administrative efficiency, and Councilor workload. Generally, each of these models is aimed at providing a mix of support to Councilors in the following areas:

- **Legislative Planning Support:** Tracking requests, developing early-stage policy concepts, performing preliminary research, and preparing materials for committee meetings and Council deliberations.
- **Constituent Services:** Managing district inboxes, triaging constituent issues, preparing communications, coordinating follow-up with departments, and supporting Councilor-led community meetings and events.
- **Administrative and Operational Support:** Scheduling, calendar management, travel coordination, event logistics, and managing routine procedural tasks currently handled inconsistently by various City offices.

MODEL A: ONE-ON-ONE SUPPORT

Each City Councilor is assigned a dedicated full-time or part-time staff member who is responsible for supporting that Councilor's priorities, constituent services, policy development, and scheduling or other day-to-day operations. This model provides highly personalized support and allows staff to develop deep familiarity with the Councilor's district, policy focus areas, and community needs. While this approach can enhance responsiveness and relationship-building, it also requires a significant level of staffing resources and FTEs.

MODEL B: SHARED AND CENTRALIZED SUPPORT

Staff are organized in a centralized structure and assigned to support multiple Councilors, typically through a small, shared team. Their primary responsibility is supporting Councilors and Council functions, though staff may also maintain select broader organizational responsibilities. Support may be structured across the whole Council or aligned to Councilors within specific districts. This model promotes collaboration, resource flexibility, and consistency in service delivery while maintaining dedicated support for Council operations and Councilor needs.

MODEL C: DECENTRALIZED SUPPORT

Councilors rely on staff embedded across broader City departments and administrative functions, where Council support represents only one portion of staff responsibilities. In this model, staff primarily focus on operational or departmental priorities and assist with Council functions on an as-needed basis. While this approach can promote organizational efficiency and flexible use of resources, it may limit dedicated support capacity, individualized attention, and responsiveness to Councilor-specific needs and priorities.

V. Observations and Recommendations

A. Approach to Council Support

ORGANIZATIONAL MODEL

1.	Observation	The City currently operates a decentralized support model for Council staffing, relying on a distributed group of staff across departments to provide administrative, legislative, and constituent services. In practice, this approach has led to heavy workloads for staff, ambiguity for both Councilors and staff regarding the scope of available support, and constrained capacity for Councilors to effectively manage workload demands at their desired level.
	Recommendation	The City should retain its current decentralized Council support structure while adding a centralized Council Program Manager position within the City Manager's Office to improve coordination, consistency, workload management, and administrative support across Council operations without consolidating existing departmental support functions.

Current Model

The City currently operates under Model C: Decentralized Support, with no team or staff positions dedicated exclusively or centrally to supporting Councilors. Instead, support is provided by staff across multiple departments. This staffing structure results in limited dedicated capacity for Councilors, contributing to workload challenges and ambiguity regarding available support.

DISTRIBUTION OF CURRENT COUNCIL SUPPORT

City Staff	FTE	Level of Staff Support for Councilors	Support Provided to Councilors
Constituent Services Manager and Specialists	4 FTE	Medium	Respond to constituent complaints and coordinate events
Marketing and Communications Manager	1 FTE	Low	Market events and send out certain communications for Councilors
Mayor and City Manager Executive Assistants	2 FTE	Low	Provide ad hoc onboarding, travel, scheduling, and purchasing support
Legislation and Policy Innovation Manager and Staff	3 FTE	High	Research policy issues and develop resolutions and legislation

Issues with Current Model

- **Limited Councilor Capacity:** As noted previously, the City Councilor role is a part-time position. Most Councilors reported limited ability to manage their full scope of responsibilities due, in part, to the absence of dedicated staff support. Specifically, Councilors requested additional support with the following activities:
  - Legislative planning (tracking requests, organizing policy ideas, undertaking research, developing drafts)
  - Constituent support (responding to inquiries, preparing constituent meeting materials, engaging constituents at meetings and events, managing email lists)
  - Administrative support (scheduling meetings, event planning)
- **Limited Staff Capacity:** City employees responsible for supporting Councilors reportedly lack sufficient bandwidth to fulfill all support requests while also managing other job responsibilities. For instance, the Office of Legislation and Policy Innovation can address each Councilor's top legislative research priorities but is unable to respond to every request made. This issue is further complicated by the absence of a shared understanding of what constitutes adequate support for Councilors.
- **Role Ambiguity in Staff Support:** There is reported confusion regarding the roles and responsibilities of City staff in supporting and prioritizing Councilor requests (see Roles and Responsibilities). As a result, staff are sometimes unsure which requests they can reasonably decline, and Councilors may have unclear expectations about what constitutes a reasonable request. This ambiguity becomes particularly challenging when Councilor requests bypass established protocols and staff are contacted directly.

Peer Approaches: By Model

- **Model A: One-on-One Support:** Only two peer cities surveyed use a one-on-one support model for Councilor support. This model is generally most effective in larger cities where Councilors manage substantial constituent populations and require dedicated staff capacity to address constituent services, legislative development, communications, and administrative coordination. Austin, the largest peer included in this analysis, employs a one-on-one support model for its full-time Councilors, with teams of three to seven positions to support each Councilor per District. Support roles include positions, such as Chief of Staff, Policy Analyst, Legislative Analyst, communications staff, and clerical or administrative support. Austin staff rated the model as functioning moderately well and reported varying perceptions of Councilor workload. Hartford also uses a one-on-one support model, though within a smaller organizational context and with part-time Councilors. Hartford reported eight dedicated support staff for seven Council members, a nearly 1:1 ratio, and staff rated the model as functioning extremely well with generally light Councilor workloads. These examples demonstrate that, while the one-on-one support model can provide high levels of individualized assistance and responsiveness, it typically requires substantial staffing resources and is most feasible in jurisdictions with larger operational capacity or greater Council workload demands.
- **Model B: Shared and Centralized Support:** Many surveyed peer cities (40%) use this model. Under this model, a small, centralized team of dedicated positions provide support services to all Councilors collectively rather than assigning staff to individual Council members. Most peers using this model reported having one to two centralized support staff dedicated to Council operations, though one peer city uses a larger structure that includes a director overseeing analyst staff who collectively support Councilors.

Peer cities using this model organize reporting relationships differently. In one city, the centralized support team reports directly to Council, while in others the positions are housed within the City Manager's Office or under the Deputy Mayor. Staffing structures also vary. One peer city employs a Council Program Manager positions to coordinate support functions, while the remaining peers rely on analysts, executive assistants, or similar administrative roles to support Councilors.

Survey responses suggest generally positive perceptions of the model. All peers surveyed rated the model as functioning very well. One peer did not provide a survey response regarding model effectiveness. However, peers also reported perceiving that Councilors spend more time on legislative development, constituent engagement, and administrative coordination activities in this model than in other staffing models. Two peer cities reported perceptions of heavy Councilor workloads. Staff indicated these workload pressures were influenced in part by decentralized organizational processes and shifting priorities from the supervisors overseeing the centralized support staff, both of which can limit responsiveness and create competing demands on staff time. In addition, workload challenges may result because the shared and centralized support model typically relies on a relatively small number of centralized staff who provide broad support across multiple functional areas, rather than having dedicated legislative, constituent service, communications, or administrative staff assigned to specific functions or Councilors. As a result, Councilors may need to perform more activities directly when centralized staff capacity is limited or when competing priorities reduce staff availability.

The City of Boulder provides a notable example of this model. Boulder initially established a shared assistant role that later evolved into a City Council Program Manager position reporting to the Assistant City Manager. According to Boulder staff, the Program Manager dedicates most of their time to Council support functions while also assisting with special projects assigned through the City Manager's Office. Councilor-related responsibilities undertaken by this role include:

- Handling Council-wide administrative tasks (travel, scheduling, meeting prep)
- Managing shared initiatives under the Assistant City Manager and cross-organizational coordination
- Triaging requests and ensuring consistent information flows to all Councilors
- Maintaining neutrality by pushing consistent information to all nine Councilors and escalating advocacy-leaning requests to the City Manager

Boulder also emphasized the importance of maintaining neutrality by providing consistent information to all Councilors and escalating advocacy-oriented requests to executive leadership, when appropriate.

Peers also identified several implementation challenges associated with the shared and centralized support model. Because a small, centralized team may serve a relatively large group of Councilors, maintaining confidentiality and balancing competing priorities can be difficult without clearly established processes and protocols. Some peers also noted that inconsistent direction from multiple Councilors or supervisors can create operational challenges and affect workload distribution if governance structures and expectations are not clearly defined.

- **Model C: Decentralized Support:** The same number of surveyed peer cities (40%) use this model. Under this model, Councilor support responsibilities are distributed across multiple departments or staff positions rather than being centralized within a single office or team. Compared to the shared and centralized support model, peers using a decentralized structure generally reported having more city staff available to support Councilors across various functional areas. Peer cities reported a range of staffing approaches depending on Council size, workload, and governance arrangements. Staffing levels among peers surveyed ranged from no dedicated support staff to five staff positions supporting Councilors. Most support positions in this model are

tied to specific functional responsibilities, such as legislative research and coordination, constituent communications, administrative support, or operational assistance.

Peer cities using the decentralized support model generally reported lighter or more manageable Councilor workloads compared to peers using centralized support structures. This may be because decentralized models often distribute support responsibilities across multiple specialized staff and departments, allowing Councilors to receive assistance with legislative, constituent, communications, and administrative functions from staff with subject-matter expertise in those areas. This suggests that decentralized models can function under a range of staffing levels, though perceptions of effectiveness and workload may be influenced by the availability of administrative and operational support capacity.

Overall, peer feedback suggests that decentralized support structures can function effectively when Councilor support responsibilities are clearly defined and sufficient staff capacity exists across functional areas. However, decentralized models may also create challenges related to coordination, consistency of support, and clarity regarding roles and responsibilities if processes and communication channels are not well established.

FOR INTERNAL USE OF CITY OF SANTA FE ONLY

Peer Approaches: By Workstream

- **Legislative Planning Capacity:** Santa Fe Councilors reported challenges related to organizing, researching, prioritizing, and advancing legislative ideas without dedicated staff support. Several Councilors described difficulties tracking legislative requests, shaping early-stage policy concepts, and conducting the research and analysis needed to support informed decision-making. In some cases, legislative support functions including research, drafting, and coordination fall to the Office of Legislation and Policy Innovation, which stakeholders reported is currently understaffed and managing a backlog of requests (see Roles and Responsibilities and Legislative Research Process). Councilors emphasized that these constraints limit their ability to proactively develop policy initiatives, collaborate effectively with colleagues, and respond to emerging community issues in a timely manner.

  Peer benchmarking results indicate that Councilors in most jurisdictions regularly participate in legislative planning and policy development activities, though the frequency of these activities varies (see Appendix B: Survey Results). Peer cities operating under a decentralized support model commonly reported having dedicated legislative or policy staff available to support Councilors, often supplemented by administrative support roles. In contrast, peers under a centralized support model generally reported that Councilors spend more time directly managing legislative and policy-related activities themselves, often on a daily or weekly basis rather that intermittently throughout the year.

- **Constituent Engagement and Support:** Santa Fe Councilors across City districts described constituent engagement as one of the most time-intensive and steadily growing aspects of the role. Constituents frequently contact Councilors as a primary point of access into City government to seek assistance navigating City processes, request updates on services, report concerns, or share feedback. As a result, Councilors often spend substantial time responding to emails, phone calls, social media messages, and direct constituent outreach.

  Councilors also expressed differing perspectives regarding the appropriate level of constituent engagement and responsiveness associated with the role. Some described expectations for extensive direct constituent interaction, while others described a more limited approach. These varying expectations can create challenges in establishing consistent support practices and may make it difficult for City staff to fully accommodate each Councilor's individual preferences and working style.

  The volume and complexity of constituent engagement activities significantly affects Councilor capacity. Without dedicated staff support to triage inquiries, coordinate with departments, or track issue resolution, Councilors must often must personally manage follow-up, gather information, and communicate updates to constituents. Councilors noted that even routine constituent issues can become time consuming when departmental workloads are high, internal processes are unclear, or resolution requires ongoing coordination across multiple parties.

  Several Councilors indicated that the cumulative demands associated with constituent services reduce the time available for legislative planning, committee preparation, collaboration with colleagues, and proactive policy development. As constituent expectations continue to increase, the demands of Council duties increase as well. For Councilors serving in these part-time roles while maintaining outside employment, these demands can create significant workload pressures and challenges related to work-life balance.

  Constituent engagement is a critical function of local governance. As elected representatives, Councilors serve as a direct link between constituents and City government. Timely, accurate, and responsive constituent support helps maintain community trust, promote transparency, and ensure constituents feel heard and represented in government decisions. Effective constituent

services also play an essential role in identifying emerging issues within neighborhoods, highlighting service delivery gaps, and informing policy priorities. When Councilors are not adequately supported in these activities, constituent concerns may go unanswered, service issues may persist longer, and the City may miss opportunities to address community needs proactively.

Peer city feedback suggests that staffing structures influence the amount of time Councilors spend on constituent service activities. Peer cities using the decentralized support model generally reported that Councilors spend less time directly managing constituent coordination activities than do councilors using other models, likely due to the availability of policy and constituent support positions. One of these cities has a dedicated position (i.e., Council Operations Liaison) responsible for responding to constituent messages, which is one way to improve coordination and communication. Other peers in this model have other positions, such as communication and administrative type roles, which may support Councilors with constituent communications.

Without additional staffing or structured support, City Councilors are likely to continue experiencing strain that limits their ability to balance constituent services with policy responsibilities. Ensuring adequate constituent support capacity is therefore essential not only for Councilor workload management but also for sustaining effective, responsive, community-centered governance.

- **Administrative and Operational Support:** Councilors also identified administrative and operational responsibilities as a significant component of the role that can be difficult to manage without dedicated support. Councilors reported needing assistance with scheduling; event coordination; navigation of internal processes; and ensuring that translation, IT support, and outreach are properly arranged for meetings. These tasks frequently require coordination across multiple departments and depend on staff availability, which can be challenging in a resource-constrained environment. Though executive assistants for the Mayor and City Manager provide some administrative support for Councilors, it's provided on an ad hoc basis, depending on capacity. Without dedicated staffing support, Councilors often must personally carry out many administrative functions, which strains their capacity for more strategic work.

  Administrative and operational support is a necessary aspect of effective Council support. Timely scheduling, organized meeting preparation, and coordinated communication directly affect Councilors' ability to participate effectively in legislative discussions, prepare for public hearings, and engage with constituents. Inadequate administrative support can contribute to delays in legislative processes, communication inefficiencies, and operational bottlenecks that affect both Council effectiveness and service delivery.

  Peer city feedback further reinforces the importance of administrative coordination functions within Council support structures. Peer cities using a centralized support model generally reported that Councilors typically spend more time than cities using other models on administrative activities, such as preparing materials, scheduling meetings, planning events, and managing logistics. Those who reported higher frequency of these activities (e.g., weekly engagement) also tend to report heavier Councilor workloads than those who reported less frequent administrative activities.

Recommendation

The City should retain its current decentralized Council support structure (Model C) while establishing a centralized Council Program Manager position within the City Manager's Office to improve coordination, consistency, and strategic administrative support across Council operations.

Maintaining the decentralized model preserves the subject-matter expertise embedded within departments and avoids the operational inefficiencies and confidentiality concerns that can arise when Council support functions are fully centralized into a standalone team. Additionally, transitioning to a shared and centralized model would likely create duplicative responsibilities or reduce operational efficiencies, as many existing staff currently support Council functions and broader City operations.

Peer cities using decentralized support structures generally reported positive outcomes, particularly when specialized staff support legislative, constituent, administrative, and operational support across the City. The City's current model also supports the multidisciplinary nature of Councilor support needs, which span legislation, constituent services, communications, administration, and operational coordination. The functions are often best supported through coordinated departmental expertise rather than a fully centralized Council office.

The addition of a Council Program Manager position would help address existing gaps in coordination, triage, administrative support, and workload management that currently contribute to inconsistent support practices, role ambiguity, and operational strain across departments. Locating this position within the City Manager's Office would support operational consistency, continuity, and equitable service delivery across the governing body, particularly given the City Manager's Office central coordinating role within the City.

Under this model, the Council Program Manager would serve as a centralized coordination and administrative resource while preserving the City's decentralized support structure. The position would not replace existing departmental responsibilities, but instead, would improve communication, streamline processes, and enhance coordination across Council-related activities.

Core responsibilities of the position may include:

- Coordinating administrative and operational support functions, such as scheduling meetings, coordinating travel and training, preparing briefing materials, and supporting Council-led events
- Supporting constituent engagement efforts through inquiry triage, coordination of departmental follow-up, issue tracking, and communication support
- Assisting with legislative coordination activities, including tracking policy initiatives and coordinating with the Office of Legislation and Policy Innovation.

While the position would not serve as a policy advocate or independently draft legislation, centralizing these coordination and administrative functions would reduce fragmentation; alleviate pressure on existing departments; and allow Councilors to focus more fully on governance, constituent representation, and decision-making responsibilities. Retaining decentralized functional support while adding centralized coordination; therefore, is likely to provide the most balanced, scalable, and sustainable approach for improving Council support capacity and effectiveness.

Following implementation of the Council Program Manager position, the City should continue evaluating Councilor support needs, workload demands, and organizational capacity to determine whether additional staffing resources may be necessary to support Council operations. For example, if legislative coordination and policy development continue to represent operational bottlenecks, the City should consider adding additional staff within the Office of Legislative and Policy Innovation.

ROLES AND RESPONSIBILITIES

2.	**Observation**	Roles and responsibilities between Councilors and City staff are not always clearly defined, resulting in confusion, inconsistent expectations, and uneven support.
	Recommendation	Establish and document a formal Council support framework that clearly defines the roles and responsibilities of Councilors and City staff and standardizes how work flows between them. This documentation will improve consistency, efficiency, and equity for Council support.

The City's current approach to Council support is characterized by significant role and responsibility confusion between Councilors and City staff, resulting in inconsistent practices, uneven support across districts, and inefficiencies across the City.

In general, core Councilor functions include fiscal governance, strategic direction and policy setting, legal authorities, and constituent representation.[1] While the City Code section 2.1 and Charter Article VI outline the powers and duties of the governing body (this includes City Council), and governing body procedural rules outline formal Council processes, they do not clearly define how Councilors are expected to carry out their legislative, oversight, administrative, and constituent-facing responsibilities in practice, nor how City staff should support those activities. Councilors reported uncertainty regarding which aspects of the role they are expected to perform directly versus those intended to be handled by City staff. This uncertainty is most evident in areas, such as constituent services, administrative coordination, and early-stage legislative development. Some Councilors view responding to constituent service requests, coordinating events, or drafting legislation as core responsibilities, while others believe these tasks should largely fall to staff. These differing interpretations have led to wide variation in Councilor workload, approaches to support, and expectations for staff responsiveness.

City staff similarly described confusion about the scope and limits of the support they are expected to provide to Councilors. Staff reported uncertainty about which requests fall within their role, when it is appropriate to redirect or decline requests, and how to prioritize Councilor work alongside core departmental responsibilities. In these situations, staff are often unclear how to respond, resulting in inconsistent practices, duplicated effort, and strained working relationships.

These role clarity challenges are further exacerbated by limited staff capacity. Departments that provide the majority of Council support reported that existing staffing levels are insufficient to meet current demands. Staff must balance Council support requests against core operational duties, which has led to backlogs, delayed responses, and variability in service levels. Without clear definitions of what constitutes "adequate" Council support, limited capacity amplifies frustration among both Councilors and staff and reinforces perceptions that districts across the City may not be served consistently.

Peer Approaches

Many peers surveyed (60%) reported that defined Councilor roles and responsibilities are included in formal governance documents, including City Charters, Rules of Procedure for City Council, and supplemental Councilor handbooks or policy manuals. In many cities, Councilors' responsibilities are generally centered on policy direction, sponsorship of legislation, and constituent representation, while City staff are responsible for administrative coordination, legislative research and drafting, and process management.

- **Policy:** Many peers reported their Councilors spend a large amount of time on tracking and responding to legislative requests or issues. Some time is also spent on organizing and prioritizing policy ideas and drafting legislation or policy documents. Some peer Councilors reported they tend to spend less time on conducting research on policy matters.
- **Constituents:** Many peers reported Councilors spend a lot of time attending community events. Responding to general constituent inquiries or concerns is another activity that many Councilors spend weekly or daily time completing. Some peer reported Councilors spend less time on preparing materials for meetings with constituents and hosting community events. These activities are still important, but are generally not daily or weekly activities.
- **Administration:** Generally, peers reported Councilors spend less time, compared to other responsibilities, on administrative type activities including preparing communications, scheduling their own meetings, and planning or coordinating events. This is somewhat due to the volume of work in this category and also partially due to the additional support some peer Councilors receive from their support staff in this area.
- **Other Key Duties:** Attending briefings and meetings is an activity many peers reported is done daily or weekly as this is a significant part of a Councilors duties.

Peer respondents emphasized that this separation of roles enables more consistent workloads, clearer expectations, and more efficient use of staff capacity, particularly in cities with part-time Councils or increasing legislative complexity.

In contrast, the City lacks a consistently applied, operational framework that clearly defines how Councilors and staff share responsibility for core legislative, administrative, and constituent service activities. While high-level authority is established in the City Charter and governing body procedural rules, these documents do not translate roles into day-to-day working norms or clarify who is responsible for specific tasks.

The combination of unclear Councilor responsibilities, ambiguous staff roles, and constrained capacity creates a cycle in which Councilors modify their behavior, rely on personal interpretations and historical precedent to compensate for gaps in support. This could potentially lead to workarounds for managing requests, which further complicates expectations. Over time, this has contributed to inefficiencies, inconsistent support experiences, and ongoing tension around accountability and workload. These issues also limit the effectiveness of any staffing model, as additional resources alone will not resolve underlying confusion without clearer role definition and governance alignment.

Recommendation

The City should establish a formal Council support framework that clearly defines and differentiates the respective roles of Councilors and City staff; outlines how the two work together; and sets clear expectations for communication, prioritization, and accountability. This framework should serve as a practical guide for day-to-day operations, supplementing the City Charter and procedural rules by translating high-level authority into clearly articulated working norms. The Institute for Local Government reports creating a shared understanding of responsibilities and expectations can help optimize working relationships and set the Council up for success.

Councilors' core responsibilities should focus on policy, constituent relations, and administrative support, though additional responsibilities may be defined. In the current environment, these responsibilities include the following:

- **Policy:** Setting policy direction and prioritization, sponsoring policy initiatives, or preparing policy ideas for the Office of Legislation and Policy Innovation
- **Constituents:** Understanding constituent needs, meeting with and responding to inquiries timely, reaching out to Constituent Services at the City when City staff answers or clarifications are needed
    - Municipal Research & Services (MRSC) Mayor and Council member Handbook recommends bringing in staff for constituent complaints, particularly as Councilors lack the authority to take action in administrative matters
- **Administration:** Coordinating with City administrative staff on scheduling internal city needs, and scheduling any meetings not related to Councilor duties, such as campaign related activities
- **Other Key Duties:** Attending briefings, committee meetings, or Council meetings; approving the budget; and representing the community

City staff responsibilities, by contrast, should focus on enabling Councilors to perform these duties efficiently and effectively. Responsibility should be defined for each staff group. The City should develop clearer documentation that defines the specific roles for each group. The following is a starting point for these defined roles:

- **Council Program Manager:** Coordinates administrative and operational support functions, such as scheduling meetings, coordinating travel and training, preparing briefing materials, and supporting Council-led events. Supports constituent engagement efforts through inquiry triage, coordination of departmental follow-up, issue tracking, and communication support. Assists with legislative coordination activities, including tracking policy initiatives and coordinating with the Office of Legislation and Policy Innovation.
- **Office of Legislation and Policy Innovation:** Drafts and develops policies, including in-depth research that may crossover with other subject matter expert staff. Supports tracking of all resolutions and ordinances.
- **Constituent Services:** Coordinates constituent issues between Councilors, departments, and constituents, as needed. Supports coordinating citywide events.
- **Marketing and Communications:** Promotes City events through marketing and Citywide messages.

Equally important, the Council support framework should define how work flows between Councilors and staff. This includes establishing standardized request pathways, clear escalation protocols, and consistent prioritization criteria. Councilors should understand how to submit requests, what level of detail is needed, and what timelines to expect. Staff should have clear guidance on how to evaluate requests, balance competing priorities, and flag issues that require executive or Council-wide discussion. These processes should apply consistently across all districts to promote equity and transparency.

The framework should also establish boundaries to prevent role drift and reduce strain on staff. This includes reinforcing that Councilors cannot manage staff and may have limits in contacting staff directly, unless included in the responsibilities above. Clear boundaries help staff confidently manage requests, reduce workarounds, and protect time for core departmental responsibilities.

Finally, the Council support framework should be formally documented in Standard Operating Procedures and institutionalized. It should be incorporated into governing body administrative procedures, reinforced through structured onboarding for new Councilors, and supported through training for both Councilors and staff. As staffing models evolve, this framework will serve as the foundation for effective collaboration, consistent service delivery, and sustainable workload management.

By clearly defining who does what, how work moves through the organization, and how Councilors and staff partner to support effective governance, the City can reduce frustration, improve efficiency, and ensure that any investment in staffing yields lasting organizational benefits.

B. Other Considerations

Although this report is primarily focused on Council staffing structures and support models, our assessment found that legislative and committee processes are closely tied to Council workload, responsiveness, and perceptions of support capacity. Even where staffing levels are comparable to peer cities, inefficient or unclear legislative routing, duplicative committee review processes, and limited transparency around policy development can increase administrative burden for both Councilors and staff. The effectiveness of Council support is influenced not only by the number and assignment of staff, but also by how legislative requests and committee workflows are coordinated, prioritized, communicated, and advanced through the organization. For this reason, both the legislative research process and committee structure were examined as important operational factors affecting overall Council support and workload management.

LEGISLATIVE RESEARCH PROCESS

3.	**Observation**	The City's legislative research and drafting process is critical to effective governance. However, the process lacks transparency, clear prioritization criteria, and shared visibility, which has created frustration for Councilors and City staff.
	Recommendation	Formalize a legislative research and drafting process that establishes clear prioritization criteria, shared visibility across Councilors, and consistent communication on the status of legislative requests.

The Office of Legislation and Policy Innovation is responsible for developing legislation and conducting policy research. Demand for this support reportedly exceeds available capacity, and the process is widely described as opaque, duplicative, and structurally inefficient.

The City's assignment of responsibility for legislative drafting is consistent with peer cities. Peer survey responses indicate that responsibility for drafting legislation at comparable cities most commonly rests with centralized legislative or policy staff, rather than with individual Councilors. Of the cities surveyed, the majority (80%) reported that legislative policy staff or the City Attorney's Office are primarily responsible for drafting ordinances and resolutions. This approach reflects a governance model in which subject matter expertise, legal coordination, and drafting capacity are institutionalized within professional staff, rather than dispersed among elected officials. The City largely aligns with this prevailing model through its policy office, which manages most legislative drafting and serves as a central coordinating body for policy development and ordinance preparation.

While the City's overall structure and staffing model is comparable to most peers, challenges appear to arise less from who is responsible for drafting legislation and more from how legislative work moves through the system.

Councilors submit legislative ideas independently, largely due to the political dynamics and concerns about open meeting requirements. Because they generally do not share priorities with one another, the policy office frequently receives similar or overlapping requests that must be treated separately. This results in duplicative research and drafting efforts. The office also maintains a substantial backlog of requests, some of which have been pending for several years.

Additionally, the policy office internally prioritizes requests from both Councilors and City staff based on external requirements, urgency, complexity, and capacity, but there is no formal prioritization framework, transparent process communicated to Council members, or information into the status of each request. As a result, Councilors report uncertainty and concerns about fairness, particularly when similar requests move at different speeds or when they are unable to access information about the broader pipeline of legislative work. Because the specificity and volume of Councilor requests vary widely, staff frequently shift priorities in response to changing demands and needs. Staff reported Councilors may not always understand what they want or need out of policy research from a short memo to long, in-depth white paper. These factors contribute to delays and reinforce perceptions of inconsistency.

These conditions place the policy office in a reactive posture, frequently shifting workload in response to urgent or politically driven requests. Staff report limited ability to engage in proactive policy development or support early scoping discussions that could improve efficiency and legislative quality.

Interviewees emphasized that structural changes, such as formalizing prioritization, improving transparency, and creating shared legislative planning mechanisms, would provide more meaningful improvements than staffing increases alone.

Recommendation

Regardless of the staffing model the City chooses, the City should retain legislative drafting and in-depth policy analysis as a centralized function of the Office of Legislation and Policy Innovation, consistent with peer practices that emphasize specialized expertise, legal coordination, and institutional consistency. To address current capacity constraints and process inefficiencies, the City should also update and formalize the broader legislative research and coordination process including the following:

- Improve visibility into the legislative pipeline across Councilors through shared tracking tools, dashboards, or periodic status reporting mechanisms. This will provide Councilors with general insight into what legislative matters are in process, current stages of review, and overall workload priorities that can improve transparency, support prioritization discussions, and reduce uncertainty regarding policy progress. For example, a centralized tracking system could include high-level information, such as the sponsoring Councilor, submission date, subject area, current status or stage of review, assigned staff lead, and anticipated next steps or timelines.
- Continue consistent intake through standardized legislative forms and prioritization criteria for legislative requests. The standardized form should feed into a clear prioritization model for both governing body members and City staff where those involved understand the process and how

prioritization decisions are made. Prioritization criteria may include legislative or external requirements, City operational updates, constituent need, Council sponsorship, legal deadlines, and alignment with Council priorities/objectives. This prioritization can be a part of Council meetings or Councilors may initiate study sessions to review legislative priorities together.

- Define roles for early coordination to reduce duplicative or overlapping work (see Roles and Responsibilities).

Under a shared dedicated support model, the Council support position(s) should assist with defined coordination and process-management functions that work in coordination with the work of the Office of Legislation and Policy Innovation. This may include supporting Councilors with consistently using standardized legislative request forms; ensuring required background information and sponsorship details are complete at intake; tracking the status of requests; and facilitating clear, timely communication between Councilors and the policy team regarding scope, prioritization, and timelines. By serving as a neutral coordination point, shared support staff can help translate Council policy direction into well-defined requests, reduce rework, and improve mutual understanding of workload and constraints. Together, these changes would strengthen the legislative process by preserving professional drafting expertise while improving efficiency, transparency, and alignment between Councilor priorities and staff capacity.

COMMITTEE PROCESS

4.	**Observation**	The current committee process requires legislation to move through multiple sequential reviews, contributing to redundant discussions, longer timelines, and increased workload for both Councilors and staff.
	Recommendation	Evaluate the committee review process to identify opportunities to streamline legislative workflows, reduce redundancy, and improve efficiency for Councilors and staff.

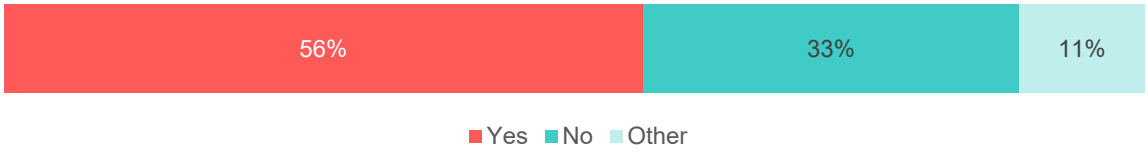
The City's legislative process requires proposed legislation to advance through multiple Council committees before reaching the full governing body. Interviewees noted that legislation is typically routed through at least two committees, and often three, before final consideration. As a result, Councilors review the same legislation multiple times across different committees, creating significant redundancy and increasing the overall workload. Several Councilors indicated these dynamics contribute to a reported need for additional administrative or legislative support to manage routine responsibilities.

Interviewees also identified opportunities to modernize and streamline the process. Suggested approaches include reducing the number of standing committees, consolidating overlapping review responsibilities, or replacing some committee reviews with periodic work sessions that allow Councilors to discuss legislative concepts collectively before formal introduction. These changes could simplify legislative routing, reduce repetitive review, increase transparency in early policy development, and alleviate workload pressures that currently contribute to demand for additional staffing.

Peer Approaches

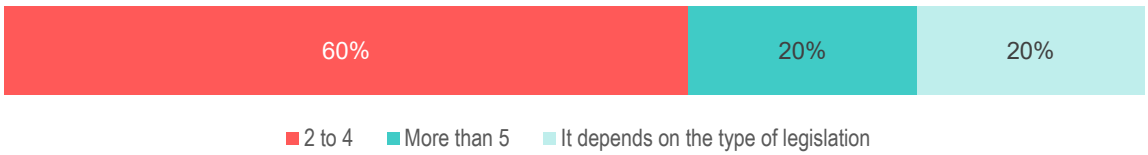
The City's use of committees is very similar to about half of peers surveyed that require multiple committee reviews before legislation appears before the full Council. Of those, 60% of peer respondents commonly use between two and four committee reviews before legislation reaches the full Council though the types of committees and level of reviews were not distinguished.

Does your city require multiple committee reviews before legislation appears before the full Council?



**Other response: "We have other processes in place that allow for legislation to appear without Committee review or staff review."*

How many committee reviews are commonly needed before legislation reaches the full Council?



Best Practice

According to the National League of Cities, committees are intended to provide groups of Councilors the opportunity to thoroughly consider particular items of business and recommend action on those items to the full Council. Ideally, this system reduces the amount of work that each Councilor performs and reduces the length or frequency of full Council meetings.[2]

Although formal standards do not specify a set number of committee reviews, widely recognized local government best practices emphasize streamlined decision-making processes, clear committee roles, and minimizing redundant deliberation. Structures that require repeated review across multiple bodies can undermine efficiency and increase workload without adding commensurate value. For example, the Municipal Research and Services Center (MRSC) warns that while committees can facilitate the decision-making process, they can also consume unwarranted amounts of time and effort if not properly managed.[3] MRSC recommends the following best practices on the use of committees and subcommittees:

[2] Cities 101 — Council Powers - National League of Cities

[3] Mayor and Council member Handbook, MRSC

1. Clearly define the mission before creating a subcommittee
2. Set deadlines for reports
3. Monitor assignments to check on progress
4. Establish expiration provisions and enforce them
5. Rotate membership periodically
6. Keep nonmembers informed of meetings and actions
7. Monitor the amount of staff effort required
8. Review the list of subcommittees annually and delete those that are no longer necessary
9. Consider whether the subcommittee is subject to the Open Meetings Act

Overall, these considerations point to the need for a committee structure that is clearly defined and used selectively, so it supports the Council's work without adding unnecessary complexity or workload.

Recommendation

The City should consider conducting a future review of its committee structure and legislative routing process to assess whether the current approach appropriately balances oversight, transparency, and Council workload. As part of this evaluation, the City could explore opportunities to streamline processes and roles or evaluate redundant reviews and opportunities for improved coordination. The purpose of an evaluation is not to reduce legislative oversight, but rather to ensure that committee processes are used selectively and efficiently in a manner that supports effective governance without creating unnecessary administrative burden for Councilors and staff.

VI. Appendix B: Survey Results

We distributed an online survey to 19 peer cities on February 23, 2026, and collected data through March 13, 2026. Out of the peers invited to take the survey, nine cities submitted responses, a participation rate of 47%. We also interviewed the City of Denver, but they did not respond to the survey.

What changes or improvements, if any, would you make to your city's approach to providing Council staff support?

Many peer cities identified a need for greater capacity, stronger coordination, and clearer role definition in their Council staff support models. Common suggested improvements included adding or restoring Council support positions, along with more centralized intake, tracking, and prioritization of council member requests. Respondents also noted challenges related to shared staffing models, such as confidentiality, workload balancing, and inconsistent direction, and emphasized the value of clearer procedures and governance structures. While some cities reported their current approach works well, most comments reflected growing workload pressures and an interest in more intentional, scalable Council support systems.

VII. Appendix C: Peer Benchmarking Data

Peer benchmarking, as a component of the peer survey, was conducted to compare the City's Council structure and support environment with similarly situated cities who participated in the survey. The following table presents key governance, staffing, and budget characteristics of the peer cities used in this analysis.

[No Dedicated Support Only] How do council members currently receive support for their duties (e.g., council members directly ask staff, requests flow through one central person or department, request log, etc.)? What changes or improvements, if any, would you make to your city's approach to providing Council staff support?	City Council utilizing their staff for the roles they are designed to perform, such as clerical or administrative as opposed to relying on Management to support that role.	Prior to financial shortfalls, there were 3 Council liaisons. One position has been unfilled/frozen for 2 fiscal years and one position is currently being held open for a staff member that is on military leave. Ideally, this position would be unfrozen and the staff member on military leave would return leaving a ratio of 2 Council members per liaison with one dedicated position to support mayoral needs.	Council Office is not encumbered by budget situations/balancing, like the rest of operations.	None come to mind. Council is very well looked after by staff and has all necessary and adequate resources to perform their duties.	We recently added a Constituent and Council Support position to increase the support for Council members.	Less staff	Council memos need improvement	Based on input received, existing processes and procedures are meeting needs; however, input on changes and/or improvements is difficult to obtain from Council members. On occasion, and randomly, some Council members do not follow existing processes and procedures or historic practice.	It is difficult to have a yearly change with Deputy Mayor as a "supervisor" and especially when that role is not in the office/building. The approach and structure varies depending on their mgt experience.

Please provide any additional comments or insights regarding staff support for council members in your city.	Our City Council has 11 members, including the Mayor and each of them have at minimum 6 dedicated and funded positions that are not Civil Service covered positions like other City employees.	None	None	None	Through the City Manager's audit, we identified that having a centralized system with one person coordinating responses to constituent requests is much more effective than how we are currently operating. We recently made these changes and processes seem to be more efficient.	We have a weak Council/strong mayor system -- Council is part-time and meets twice a month, with respective committee meetings in between.	None	Rio Rancho has a true Council-manager form of government. While the Mayor is full-time, the position has no unilateral, final authority related to personnel, policy, operations, or budgetary matters. Furthermore, neither the Mayor or Council Members have any dedicated or direct report staff beyond the City Manager. The Mayor is a member of the Governing Body (Mayor and Council Members) and only votes if there is a tie or member absence.	Confidentiality can be difficult with 9 council members since there is a lot of cross help between the two assistants. It is very difficult for the two assistants to get direction every year from different Deputy Mayors-even on the small items like asking off for time and how the Deputy wants it done. Each Deputy is going to have a different perspective on duties needed and supported but in the end it reflects on the entire 9 council members.

Project Scope

The City of Santa Fe engaged Baker Tilly to conduct a Council staffing study to assess Councilors' support needs, evaluate current staffing structures, and identify potential staffing models.

Methodology

This study was conducted between October 2025 and May 2026 and consisted of four major phases (project planning, fact finding, analysis, and reporting). Fact finding and analysis was informed by:

- **Interviews**: We conducted interviews with seven Councilors, the Mayor, and ten members of City management and staff.
- **Document Review**: We gathered relevant documentation for review, including organizational charts, budgets, and governance procedural documents.
- **Industry Best Practice**: We conducted research into industry best practices for related topics such as council staffing support models.
- **Peer Benchmarking**: We conducted benchmarking with ten cities to assess how Santa Fe's council structure and needs compare to similarly situated jurisdictions.
    - Austin, TX
    - Boulder, CO
    - Hartford, CT
    - Lansing, MI
    - Odessa, TA
    - Provo, UT
    - Reno, NV
    - Rio Rancho, NM
    - Salem, OR
    - Topeka, KA

Commendations

We'd like to extend our gratitude to city leadership and staff for their active engagement and valuable participation throughout this assessment. The success of this work are supported by several commendations, including:

- **Councilor and Staff Commitment to Constituents**
- **Staff Commitment to Supporting Councilors**

The contributions of staff have formed a strong foundation from which the City can continue improving governance and operations.

Council Support Models

Council Support Models

Model A
One-to-One Support

1+ dedicated staff assigned to each Councilor

Advantages
- High responsiveness
- Strong district familiarity
- Personalized support

Considerations
- Higher staffing/FTE needs
- Less resource flexibility

Model B
Shared & Centralized Support

Shared/centralized staff team supporting multiple Councilors

Advantages
- Collaborative approach
- Flexible staffing resources
- Consistent service delivery

Considerations
- Less individualized support
- Requires coordination across Councilors

Model C
Decentralized Support

Various department staff provide support as needed

Advantages
- Efficient use of resources
- Integrated with operations

Considerations
- Limited dedicated capacity
- Reduced responsiveness to Councilor priorities

Council Support Recommendations

Santa Fe's Current Model: Model C (Decentralized Support)

City staff support Councilors as needed across the following areas:

City Staff	FTE	Level of Support	Type of Support
Constituent Services Manager and Specialists	4 FTE	Medium	Respond to constituent complaints and coordinate events
Marketing and Communications Manager	1 FTE	Low	Market events and send out certain communications for Councilors
Mayor and City Manager Executive Assistants	2 FTE	Low	Provide ad hoc onboarding, travel, scheduling, and purchasing support
Legislation and Policy Innovation Manager and staff	3 FTE	High	Research policy issues and develop resolutions and legislation

Issues with Current Model

Limited Councilor Capacity

- Councilors report insufficient time to manage workloads--including legislative, constituent, and administrative responsibilities.
- Commonly reported support needs include additional legislative research and planning, constituent communications, meeting preparation, scheduling, and event coordination.

Limited Staff Capacity

- Staff supporting Councilors balance their requests with other departmental responsibilities.
- Existing resources are often sufficient to address priority requests, but not the full volume of support needs.

Role Ambiguity in Staff Support

- There is a lack of shared understanding regarding appropriate levels of Councilor support.
- The individual staff members authority to prioritize or decline requests is unclear.
- Direct requests from Councilors to staff members outside established processes can create confusion and inconsistent service levels.

Peer Approaches

	Model A: One-on-One Support	Model B: Shared & Centralized Support	Model C: Decentralized Support
# of Peer Cities Using the Model	2	4	4
Strengths	High responsiveness	Higher collaboration and consistency, lower redundancy	Increased specialized expertise
Challenges	High staff cost Lack of coordination	Managing Councilors competing priorities	Managing Councilors competing priorities Coordinating with various stakeholders
Best Fit	Large cities with significant resources or full-time Councilors with high workloads	Cities with some resource capacity for centralized staff	Cities with limited resources

Council Support Recommendations

Recommendation

Retain the current Council support structure while adding a centralized Council Program Manager within the City Manager's Office to improve coordination, consistency, workload management, and administrative support across Council operations.

Core responsibilities of the Council Program Manager position would include:

- Coordinating administrative and operational support functions

  Ex: scheduling meetings, coordinating travel and training, preparing briefing materials, and supporting Council-led events

- Supporting constituent engagement efforts

  Ex: inquiry triage, coordination of departmental follow-up, issue tracking, and communication support

- Assisting with legislative coordination activities

  Ex: tracking policy initiatives and coordinating with the Office of Legislation and Policy Innovation.

Roles and Responsibilities Recommendation

Observation

Roles and responsibilities between Councilors and City staff are not always clearly defined, resulting in confusion, inconsistent expectations, and uneven support.

Recommendation

Establish and document a formal Council support framework that clearly defines the roles and responsibilities of Councilors and City staff and standardizes how work flows between them. This documentation will improve consistency, efficiency, and equity for Council support.

Other Considerations

Other Considerations

Although this assessment is primarily focused on Council staffing structures and support models, legislative and committee processes are closely tied to Council workload, responsiveness, and perceptions of support capacity.

Topic	Observation	Recommendation
Legislative Research Process	The City's legislative research and drafting process is critical to effective governance. However, the process lacks transparency, clear prioritization criteria, and shared visibility which has created frustration for Councilors.	Formalize a legislative research and drafting process that establishes clear prioritization criteria, encourages shared visibility across Councilors, and promotes consistent communication on the status of legislative requests. The Council Program Manager could support these efforts.
Committee Review Process	Inefficiencies in legislative routing, committee review, and policy coordination can increase administrative burden and affect the overall effectiveness of Council support.	Evaluate the committee review process to identify opportunities to streamline legislative workflows, reduce redundancy, and improve efficiency for Councilors and staff.

Re: Proof of Liability Insurance for the US Geological Survey

This is to acknowledge that under the Federal Tort Claims Act, the federal government acts as a "self-insurer" and recognizes liability for the negligent or wrongful acts or omissions of its employees acting within the scope of their official duties. The United States is liable to the same extent an individual would be in like circumstances. The statute substitutes the United States as the defendant in such a suit, and the United States, not the individual, bears any resulting liability. The "self-insurance rule" dates to the 19th Century and has been stated and applied in numerous decisions of the Comptroller General and the Comptroller of the Treasury. (The United States Government Accountability Office, Principles of Federal Appropriations Law, Volume I, Chapter 4, Section C.10.a.)

The Federal Employees Compensation Act provides the exclusive remedy for federal employee injury or death pursuant to their official duty.

The Contract Disputes Act provides the exclusive remedy for all claims arising from a contract, written or implied.

Request for Approval of a Cooperative Project Agreement with Federal Highway Administration via the New Mexico Department of Transportation to Construct Phase 1 of S100880 Rail Trail Intersection Improvements Project in the Total Amount of $300,000 through December 31, 2028. (Romella Glorioso-Moss, Capital Projects Manager, rsglorioso-moss@santafenm.gov)

Request for Approval of a Budget Adjustment Request (BAR) to Allocate Grant Proceeds of $256,320 to Complete Streets FY26 Revenue and Expenses.

BACKGROUND AND SUMMARY:
This memorandum requests acceptance of federal funding in the amount of $300,000 to support trail crossing safety improvements at at-grade crossings along the Rail Trail.

Of the total project cost, the Federal Highway Administration's share is $256,320. The required local match of $43,680 will be funded through road impact fees, bringing the total cooperative project funding to $300,000.

Phase 1 will construct crossing improvements at two locations: an approximately 45-foot crossing at Second Street and a 50-foot crossing at Siringo Road. Future phases may include additional crossings at Paseo de Peralta and Rodeo Road, subject to funding availability.

Engineering design for the project began in 2022 and has been funded through the 2014 General Obligation Bond and state funding sources. The project is currently at the 30% design stage. Final design is anticipated to be completed and submitted for review by the New Mexico Department of Transportation and the Federal Highway Administration by the end of the calendar year.

Per the funding agreement, the City will be responsible for any project costs that exceed the awarded federal funds. This project is eligible for up to $1.5M in road impact fee funding to cover the local match and any potential cost overruns.

Approval of this funding will allow the City to advance critical safety improvements along the Rail Trail and position the project for timely construction upon completion of final design and agency approvals.

Uniform Administrative Requirements and Audit
2 CFR § 200, Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards, applies to each non-profit organization, each institution of higher education, and local governments as a whole when they or one of their departments receives federal funds. 2 CFR § 200 is formally OMB Circular A-133. Any non-profit organization, institution of higher education, or local government spending more than $750,000 in federal funds from all sources within a 12-month period must have an audit performed on the use of the funds. The Department defines the 12-month period as July 1 to June 30.

Federal Funding Accountability and Transparency Act (FFATA).
The FFATA requires full disclosure to the public of all entities or organizations receiving federal funds. Central to this law is www.USASpending.gov, a publicly available website with searchable information on each federal grant and contract over $25,000. In addition, the Federal Subaward Reporting System (FSRS), www.FSRS.gov, was developed for reporting on executive compensation and first-tier subawards. The Local Agency is required to register with the US Contractor Registration (System for Award Management [SAM] System) and get a Unique Entity Identifier (UEI) number. The Local Agency is responsible for providing their executive compensation and subaward information to the Department for entry into FSRS.gov. The Department is responsible for providing award information to USASpending. The type of information reported includes:

- Name of Local Agency receiving the award
- Amount of Award
- Funding Agency
- NAICS code for contracts or the Catalog of Federal Domestic Assistance program number for grants
- Program source
- Award title descriptive of the purpose of the funding action
- Location of the Local Agency, including the Congressional District
- Place of performance of the program or activity, including the Congressional District
- UEI number of the Local Agency and its parent organization if one exists
- Total compensation – If the Local Agency in the preceding year received eighty (80) percent or more of its annual gross revenues in federal awards, which exceeds $25 million annually, and the public has no access to this information under the Securities Exchange Act or the Internal Revenue Code, then the names of the top five executives of the Local Agency are also required to comply with the FFATA.
- The Department will extract as much information as possible from the Local Agency's grant application and standard reports.

ITEM AND ISSUE:
Request for Approval of a Cooperative Project Agreement with the Federal Highway Administration via the New Mexico Department of Transportation, to Design S100900 Acequia Trail Extension from Otowi to La Cieneguita in the Total Amount of $250,000 through December 31, 2028. (Romella Glorioso-Moss, Capital Projects Manager, rsglorioso-moss@santafenm.gov)

Request for Approval of a Budget Adjustment Request (BAR) to Allocate Grant Proceeds of $213,600 to Complete Streets FY26 Revenue and Expenses.

BACKGROUND AND SUMMARY:
This memorandum requests acceptance of $250,000 in federal funding to design a 0.5-mile extension of the Acequia Trail from Otowi Street to La Cieneguita Street. The Federal Highway Administration's share is $213,600, with the required $36,400 local match funded through road impact fees.

The Santa Fe Metropolitan Planning Organization (SFMPO) ranked this project highest for accessibility, mobility, integration, and connectivity. The extension will improve access to Maclovia Park, Hermanos Rodriguez Park, Salazar Elementary School, Ashbaugh Park, and downtown Santa Fe for nearby neighborhoods, including Maez, Gallegos, Rosina, Maclovia, and Declovina, which include significant low-income housing.

The project also addresses a critical transportation safety need. Between 2019 and 2023, the Santa Fe region experienced 63 pedestrian and bicycle crashes resulting in fatalities or serious injuries, concentrated along the Cerrillos Road corridor. Currently, pedestrians and bicyclists west of Maez Road must either travel significantly out of direction or use heavily trafficked roadways such as Cerrillos Road to access the trail system.

By extending the Acequia Trail as a physically separated facility, the project will provide a safer, more direct route for pedestrians and bicyclists, reduce exposure to high-traffic corridors, and close a critical gap in the City's trail network.

Under the funding agreement, the City will be responsible for any costs exceeding the federal award. The project is eligible for up to $1.65M in road impact fee funding to cover the local match and potential cost overruns.

Approval of this funding will advance a critical safety and connectivity project that supports equitable access and safer walking and bicycling throughout the community.

Uniform Administrative Requirements and Audit
2 CFR § 200, Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards, applies to each non-profit organization, each institution of higher education, and local governments as a whole when they or one of their departments receives federal funds. 2 CFR § 200 is formally OMB Circular A-133. Any non-profit organization, institution of higher education, or local government spending more than $750,000 in federal funds from all sources within a 12-month period must have an audit performed on the use of the funds. The Department defines the 12-month period as July 1 to June 30.

Federal Funding Accountability and Transparency Act (FFATA).
The FFATA requires full disclosure to the public of all entities or organizations receiving federal funds. Central to this law is www.USASpending.gov, a publicly available website with searchable information on each federal grant and contract over $25,000. In addition, the Federal Subaward Reporting System (FSRS), www.FSRS.gov, was developed for reporting on executive compensation and first-tier subawards. The Local Agency is required to register with the US Contractor Registration (System for Award Management [SAM] System) and get a Unique Entity Identifier (UEI) number. The Local Agency is responsible for providing their executive compensation and subaward information to the Department for entry into FSRS.gov. The Department is responsible for providing award information to USASpending. The type of information reported includes:

- Name of Local Agency receiving the award
- Amount of Award
- Funding Agency
- NAICS code for contracts or the Catalog of Federal Domestic Assistance program number for grants
- Program source
- Award title descriptive of the purpose of the funding action
- Location of the Local Agency, including the Congressional District
- Place of performance of the program or activity, including the Congressional District
- UEI number of the Local Agency and its parent organization if one exists
- Total compensation – If the Local Agency in the preceding year received eighty (80) percent or more of its annual gross revenues in federal awards, which exceeds $25 million annually, and the public has no access to this information under the Securities Exchange Act or the Internal Revenue Code, then the names of the top five executives of the Local Agency are also required to comply with the FFATA.
- The Department will extract as much information as possible from the Local Agency's grant application and standard reports.

Office of Inspector General Review
The Local Agency, when procuring services, shall provide to all bidders the reporting and oversight requirements that they are bound to from the time of bid submission. The following provisions must be included in all prime contracts, subcontracts, and other contracts for services for a federally funded project:

Docusign Envelope ID: 2AC8394E-AA86-4416-A4A6-5DBE348F467F

1. **Inspector General Reviews**: Any Inspector General of a federal department or executive agency shall review, as appropriate, any concerns raised by the public about specific investments using federal funds. Any findings of such reviews not related to an ongoing criminal proceeding shall be relayed immediately to the New Mexico Department of Transportation or the agency concerned.

2. **Access of Offices of Inspector General to Certain Records and Employees**: With respect to each contract or grant awarded using federal funds, any representative of an appropriate Inspector General appointed under the Inspector General Act of 1978, 1,5 USC App. 3 and specifically § 8G, 5 USC App. 3 (2014) is authorized to examine any records of the contractor or grantee, any of its subcontractors or sub-grantees, or any state or local agency administering such contract, that pertain to, and involve transactions relating to, the contract, subcontract, grant, or sub-grant; and to interview any officer or employee of the contractor, grantee, sub-grantee, or agency regarding such transactions. In addition, the Local Agency should do the following:
   a. Allow access by the Government Accountability Office Comptroller General and his representatives to examine any records of the contractor or any of contractor's subcontractors, or any state or local agency administering such contract that directly pertain to, and involve transactions relating to, the contract or subcontract
   b. Allow the Comptroller General and his representatives to interview any officer or employee of the contractor or any of contractor's subcontractors, or of any state or Local Agency administering the contract, regarding such transactions

   Nothing in this section shall be interpreted to limit or restrict in any way any existing authority of an Inspector General. The Department's Office of Inspector General (OIG) has the authority to carry out all duties required. The duties are the same as those specified in Federal Law: OIG, 23 USC § 302 (1998) (the capability to carry out the duties required by law); 23 USC § 112(2) (2012) (contracting for engineering and design services); the review of Federal-aid construction contract.

ITEM AND ISSUE:
Request for Approval of a Cooperative Project Agreement with the Federal Highway Administration via the New Mexico Department of Transportation, to Conduct the Location Study Phases A and B for the S100890 St. Michael's Drive Reconstruction Project in the Total Amount of $400,000 through December 31, 2028. (Romella Glorioso-Moss, Capital Projects Manager, rsglorioso-moss@santafenm.gov)

Request for Approval of a Budget Adjustment Request (BAR) to Allocate Grant Proceeds of $341,760 to Complete Streets FY26 Revenue and Expenses.

BACKGROUND AND SUMMARY:
This memorandum requests acceptance of federal funding in the amount of $400,000 to conduct the Phase A and B Location Study for the S100890 St. Michael's Drive Reconstruction Project.

Of the total project cost, the Federal Highway Administration's share via New Mexico Department of Transportation is $341,760. The required local match of $58,240 will be funded through road impact fees, bringing the total cooperative project funding to $400,000.

St. Michael's Drive, from Cerrillos Road to Botulph Road, was originally constructed and expanded primarily to accommodate vehicular traffic. However, the anticipated traffic volumes for the built capacity of the roadway have never materialized, resulting in an overbuilt corridor that prioritizes vehicles at the expense of multimodal transportation. This condition has created safety concerns for all users. The roadway's wide configuration encourages high vehicle speeds, while pedestrians and bicyclists must frequently cross the high-speed corridor without adequate dedicated infrastructure.

In addition, St. Michael's Drive serves several key community destinations, including schools, a public library, the Rail Trail, and the Midtown Campus redevelopment project. The lack of bicycle infrastructure and safe pedestrian crossings limit multimodal accessibility, increases reliance on vehicles, and creates disparities in access for non-motorized users. This project

represents the first step toward reconfiguring the corridor by reducing the number of travel lanes from seven to five and incorporating bicycle and pedestrian improvements. The Phase A/B study will evaluate existing constraints and identify feasible design alternatives.

The scope of work includes completion of Phases A and B of the NMDOT Location Study Procedures. Phase A, the Initial Evaluation of Alternatives, verifies the need for action, develops a range of potential alternatives to address the identified needs, and eliminates alternatives that are clearly infeasible. Phase B, the Detailed Analysis of Alternatives, further evaluates and refines the alternatives advanced from Phase A. This phase includes development of conceptual engineering plans, right-of-way requirements, cost estimates, performance data, environmental and social impact analyses, and other supporting information.

Per the funding agreement, the City will be responsible for any project costs exceeding the awarded federal funding amount. This project is eligible for up to $23M in road impact fee funding to cover the required local match and any potential cost overruns.

Approval of this funding will allow the City to advance critical safety and multimodal improvements along the St. Michael's Drive corridor, a project of increasing importance in the context of the Midtown Campus redevelopment initiative.

Uniform Administrative Requirements and Audit
2 CFR § 200, Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards, applies to each non-profit organization, each institution of higher education, and local governments as a whole when they or one of their departments receives federal funds. 2 CFR § 200 is formally OMB Circular A-133. Any non-profit organization, institution of higher education, or local government spending more than $750,000 in federal funds from all sources within a 12-month period must have an audit performed on the use of the funds. The Department defines the 12-month period as July 1 to June 30.

Federal Funding Accountability and Transparency Act (FFATA).
The FFATA requires full disclosure to the public of all entities or organizations receiving federal funds. Central to this law is www.USASpending.gov, a publicly available website with searchable information on each federal grant and contract over $25,000. In addition, the Federal Subaward Reporting System (FSRS), www.FSRS.gov, was developed for reporting on executive compensation and first-tier subawards. The Local Agency is required to register with the US Contractor Registration (System for Award Management [SAM] System) and get a Unique Entity Identifier (UEI) number. The Local Agency is responsible for providing their executive compensation and subaward information to the Department for entry into FSRS.gov. The Department is responsible for providing award information to USASpending. The type of information reported includes:

- Name of Local Agency receiving the award
- Amount of Award
- Funding Agency
- NAICS code for contracts or the Catalog of Federal Domestic Assistance program number for grants
- Program source
- Award title descriptive of the purpose of the funding action
- Location of the Local Agency, including the Congressional District
- Place of performance of the program or activity, including the Congressional District
- UEI number of the Local Agency and its parent organization if one exists
- Total compensation – If the Local Agency in the preceding year received eighty (80) percent or more of its annual gross revenues in federal awards, which exceeds $25 million annually, and the public has no access to this information under the Securities Exchange Act or the Internal Revenue Code, then the names of the top five executives of the Local Agency are also required to comply with the FFATA.
- The Department will extract as much information as possible from the Local Agency's grant application and standard reports.

ACTION:

Request for Approval of Construction Contract with Jocelyn Water and Sewer, LLC for the Santa Fe River Improvements at Cristobal Colon in the Amount of $767,195 through June 30, 2030. (Zoe Isaacson River and Watershed Manager: zrisaacson@santafenm.gov)

COMMITTEE REVIEW:

Public Works and Utilities Committee: June 1, 2026

Finance Committee: June 8, 2026

Governing Body: June 10, 2026

CONTRACT NUMBER:

The FY26 Munis contract number is 3260428.

BACKGROUND AND SUMMARY:

In 2018, Santa Fe experienced an extreme precipitation event that caused widespread damage throughout the Santa Fe River corridor, including significant failure of several grade control structures. This project builds upon prior work to repair the riparian corridor using more robust designs to help mitigate against future risks.

The purpose of this project is to re-establish channel grade stability by repairing five A-weir boulder cross vane grade control structures located between Camino de la Vuelta and Camino Rio. The design incorporates salvaged boulders from the failed structures and reconstructs them as more resilient, grouted grade control features. The use of grouting will enhance structural integrity and reduce the risk of erosion and failure during future high-flow events.

The work will include reconstruction of the failed structures as grouted boulder ramps featuring integrated stilling basins, cutoff sills, and subsurface drain tiles to mitigate erosion and seepage risks.

All necessary permits (including, but not limited to, erosion control, traffic management, and environmental compliance) shall be obtained prior to mobilization. The Contractor is responsible for all construction staking and related surveys, mobilizing equipment, establishing staging areas, and implementing site-specific traffic control measures as required to begin the project safely and in compliance with governing agencies. Contractor shall provide a site plan, prior to the start of construction, detailing the location of staging area, planned access route, location of port-a-potties, concrete washout station, fueling and refueling area, and trackpad.

2. **Removal & Demolition -** The scope includes selective demolition of existing grade control structures and gabion baskets within the project area. Project managers will mark all rock and gabion baskets to remain in place, as well as rock to be reused to construct the grouted boulder ramps. Any debris removed by contractor and not repurposed into the new grade control structures shall be removed and properly disposed of per project specifications and local regulations; costs associated with disposal are considered incidental to the overall project cost. Existing native trees and shrubs shall be protected to the maximum extent practicable per project specifications. Non-native trees in area of disturbance with a diameter at breast height (DBH) less than 6 inches shall be removed.

3. **Earthwork & Grading -** Contractor shall perform excavation, cutting, and filling operations as needed to bring the site to the required subgrade elevations. This includes compaction of subgrade materials and shaping of the terrain to support proper drainage, trail alignment, and structural stability of new improvements. All earthwork shall conform to the specified grading tolerances and compaction requirements. Construction staking should be replaced as needed by surveyor to ensure locations and elevations are met.

4. **Installation of Grouted Boulder Structures -** New boulder A-weir cross vein grade control structures shall be built and grouted per project specifications and may include salvaged boulders. Boulders shall be placed as tightly together as possible (without touching) while providing enough room between them to thoroughly vibrate the grout and to ensure no gaps in the grout. Concrete cutoff sills will be installed to help hold structures in place. Refer to sheet SPECS1 of the construction drawings for details.

5. **Erosion Control & Site Restoration -** This project will not require an Environmental Protection Agency (EPA) issued Construction General Permit, however, a comprehensive Stormwater Pollution Prevention Plan (SWPPP) detailing both temporary and permanent erosion control measures will be required. Contractor shall provide a site plan, prior to the start of construction, detailing the location of staging area, planned access route, location of port-a-potties, concrete washout station, fueling and refueling area, and trackpad. This may involve the installation of silt fences, sediment traps, erosion control blankets, or other best management practices (BMPs) as approved by the Project Manager. Final site restoration shall include the placement of topsoil, seeding, and vegetation in all disturbed areas to stabilize the site and prevent future erosion. Revegetation shall be completed using seed mixes and tree planting compliant with current NM Department of Transportation (NMDOT) standards or as specified in the construction drawings.

The Contractor shall provide all required traffic signage, barricades, flagging operations, and detours in accordance with applicable City of Santa Fe and Manual on Uniform Traffic Control Devices (MUTCD) standards. installations, debris, staking, excess materials, and equipment shall be removed from the site. Final cleanup shall return the site to a neat, orderly condition, satisfactory to the Engineer and the City. All final restoration work, including revegetation and erosion control measures, shall be verified for compliance prior to demobilization. as described in the Contract Documents.

The Contractor shall be responsible for verifications of all conditions, measurements, and dimensions.

B. Pursuant to NMSA 1978, Section 13-1-191, reference is hereby made to the Criminal Laws of New Mexico (including NMSA 1978, Sections 30-24-1, 30-23-2, and 30-41-1 through 3-41-3), which prohibit bribes, kick-backs, and gratuities and violation of which constitutes a felon. 3.13. Notice of Contract Requirements Binding on Bidder

The applicable gross receipts taxes or local option taxes shall be shown as a separate amount on each billing or request for payment made under the contract.

3.17. Consideration of Bids Receipt, Opening, and Tabulation

A. Bids shall be unconditionally accepted for consideration for award without alteration or correction, except as authorized in the Procurement Code. In addition to the requirement for the prime contractor and subcontractors to be registered as provided in NMSA 1978, Section 13-4-13.1, bids shall be evaluated based on the requirements set forth in the invitation for bids, which requirements may include criteria to determine acceptability such as inspection, testing, quality, workmanship, delivery and suitability for a particular purpose. Those criteria such as discounts, transportation costs and total or life-cycle costs that will affect the bid price shall be objectively measurable, which shall be defined by rule. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. A bid submitted by a prime contractor that was not registered as required by NMSA 1978, Section 13-4-13.1 shall not be considered for award. The City reserves the right to award a contract to the lowest Bidder using the criteria within the Bidding Documents. The unreasonable failure of a Bidder to promptly supply information in connection with an inquiry with respect to responsibility is grounds for a determination that the Bidder is not a responsible Bidder.

B. The subsequent contract will be established as a source and convenience of the City. It is the responsibility of the Requesting Department to utilize this Contract to the best interests of the City.

C. Discrepancies in the Bid Form between words and figures will be resolved in favor of words. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

BACKGROUND AND SUMMARY:

The OpenGov Permitting and Licensing platform was selected by the City of Santa Fe Land Use Department in July 2025. The platform supports key land use planning and permitting functions, including application intake, plan review, inspections, fee collection, code enforcement, licensing, and reporting. The Water Division's development process is supported in the Land Use implementation of the OpenGov platform; however, the Water Division has additional processes that occur outside of the Land Use framework. These are cases where customers come to the Water Division for new or changed water service and water line extensions, but do not need to go through any Land Use process. To maintain consistency withing the Water Division, and between the Public Utilities and Land Use Departments, the Water Division approached OpenGov for an expansion in their scope to include our additional use cases.

Original contract item #25-0373 in the amount of $800,576.77 was approved by the Governing Body on August 13, 2025. The contract includes a one-time deployment, first year subscription and two additional annual renewals. The first renewal date is February 14, 2026.

Amendment 1 increases the contract amount by $209,278.24 for a total of $1,035,141.40 including NMGRT for the four remaining years of the contract. The contract amendment includes a one-time deployment, first year subscription and two

additional annual renewals. The amendment also corrects the NMGRT rate in the original contract. The cost of this amendment will be funded by the Water Division.

The FY26 cost requested in Amendment No. 1, is $84,705.00 including GRT and includes costs for implementation as well as the first-year subscription. Subsequent years will be included in the Water Division's annual operating budget. The requested budget amendment is funded by the Water Enterprise Fund.

OpenGov Statement of Work

1. Project Scope and Understanding

This Statement of Work ("SOW") outlines the Professional Services OpenGov will provide to the City of Santa Fe, NM ("Customer") under the applicable Order Form. Professional Services or technical requirements not listed in this SOW are out of scope.

2. Exhibits

The following exhibits are incorporated by reference and are part of this SOW:

2.1. Exhibit 1: Implementation Activities

2.1.1. Permitting & Licensing

2.2. Exhibit 2: Technical Requirements

2.2.1. Permitting & Licensing

3. OpenGov Responsibilities

OpenGov will provide a framework for planning, communication, progress tracking, and coordination for activities in Exhibit 1. In collaboration with Customer, OpenGov will develop and maintain the Project Plan. The "Project Plan" is a detailed, living document that defines how the project will be executed, including tasks, timelines, milestones, and team assignments. OpenGov will monitor progress against the Project Plan, coordinate adjustments to tasks and schedules as needed, and conduct status meetings as agreed to by the parties. OpenGov will provide weekly status reports, a Project Charter, and a RAID register (Risks, Actions, Issues, and Decisions). The "Project Charter" is a high-level document outlining the project's purpose, goals, key stakeholders, success criteria, and major milestones.

4. Customer Responsibilities

The Customer will appoint a primary point of contact with authority to make binding decisions ("Customer's Project Manager"). This person will coordinate internal resources, assign subject matter experts ("SMEs"), and oversee implementation. Responsibilities include attending status meetings, making timely decisions, providing requested information, escalating issues internally, and collaborating on the Project Plan and Change Order process, if applicable.

Customer acknowledges that the success of this project is contingent on its full participation. Customer must provide data within ten (10) business days of a request, maintain consistent data formats and access throughout the project, and allocate the necessary Customer resources and time to support deliverables and meet agreed-upon timelines.

5. Project Delivery

OpenGov will perform services under this SOW remotely. OpenGov may use a combination of OpenGov personnel and OpenGov-trained implementation partners to deliver the services described in this SOW.

6. Estimated Schedule

The specific timeline, including order of delivery of the suite(s), will be determined during the project planning activities in the Initiate Phase. Services are estimated to begin within two (2) weeks and no later than four (4) weeks from contract signature. OpenGov reserves the right to adjust the schedule based on the availability of Customer or OpenGov resources, and the timeliness of deliverables provided by the Customer.

7. Acceptance Procedure

OpenGov will submit completed deliverables to the Customer's Project Manager for review. Within five (5) business days of receipt, the Customer's Project Manager will either provide written acceptance or a list of requested revisions. In the event there are requested revisions, the subsequent review period for acceptance will follow the same timeline until final acceptance. If Customer does not respond within this period, the deliverable will be deemed accepted. Once a deliverable is accepted, any requested changes will require a paid Change Order.

Acceptance milestones and review timelines will be tracked in the Project Plan. Both parties acknowledge that delays in task completion or unresolved issues may impact the project timeline. If OpenGov determines in good faith that Customer is not fulfilling its responsibilities under this SOW, OpenGov may place services on hold following a minimum of five (5) business days' written notice. The notice will specify the actions needed to progress the project. During the hold period, OpenGov may reallocate resources without penalty and will not be responsible for resulting delays.

8. Modifications

The fees and estimated timeline are based on the scope and assumptions in this SOW. If either party determines that a change to the scope is necessary, the parties will collaborate to define the required modification, which may result in fee adjustments based on OpenGov's standard rates. All modifications must be documented in a written Change Order and signed by both parties ("Change Order").

Examples of changes include revisions to the project timeline, deliverables, or resource allocation.

9. Communication and Escalation Procedure

OpenGov and Customer agree to maintain regular communication in alignment with the Project Plan to ensure progress, resolve questions promptly, and minimize risk. Both parties will raise any issues or concerns in a timely manner. If challenges are not resolved through standard project discussions, Customer and OpenGov Project Managers will escalate to their respective executive leadership teams to jointly determine a resolution and align on a path to successful implementation.

OpenGov Statement of Work

1. Project Scope and Understanding

This Statement of Work ("SOW") outlines the Professional Services OpenGov will provide to the City of Santa Fe, NM ("Customer") under the applicable Order Form. Professional Services or technical requirements not listed in this SOW are out of scope.

2. Exhibits

The following exhibits are incorporated by reference and are part of this SOW:

2.1. Exhibit 1: Implementation Activities

2.1.1. Permitting & Licensing

2.2. Exhibit 2: Technical Requirements

2.2.1. Permitting & Licensing

3. OpenGov Responsibilities

OpenGov will provide a framework for planning, communication, progress tracking, and coordination for activities in Exhibit 1. In collaboration with Customer, OpenGov will develop and maintain the Project Plan. The "Project Plan" is a detailed, living document that defines how the project will be executed, including tasks, timelines, milestones, and team assignments. OpenGov will monitor progress against the Project Plan, coordinate adjustments to tasks and schedules as needed, and conduct status meetings as agreed to by the parties. OpenGov will provide weekly status reports, a Project Charter, and a RAID register (Risks, Actions, Issues, and Decisions). The "Project Charter" is a high-level document outlining the project's purpose, goals, key stakeholders, success criteria, and major milestones.

4. Customer Responsibilities

The Customer will appoint a primary point of contact with authority to make binding decisions ("Customer's Project Manager"). This person will coordinate internal resources, assign subject matter experts ("SMEs"), and oversee implementation. Responsibilities include attending status meetings, making timely decisions, providing requested information, escalating issues internally, and collaborating on the Project Plan and Change Order process, if applicable.

Customer acknowledges that the success of this project is contingent on its full participation. Customer must provide data within ten (10) business days of a request, maintain consistent data formats and access throughout the project, and allocate the necessary Customer resources and time to support deliverables and meet agreed-upon timelines.

5. Project Delivery

OpenGov will perform services under this SOW remotely. OpenGov may use a combination of OpenGov personnel and OpenGov-trained implementation partners to deliver the services described in this SOW.

6. Estimated Schedule

The specific timeline, including order of delivery of the suite(s), will be determined during the project planning activities in the Initiate Phase. Services are estimated to begin within two (2) weeks and no later than four (4) weeks from contract signature. OpenGov reserves the right to adjust the schedule based on the availability of Customer or OpenGov resources, and the timeliness of deliverables provided by the Customer.

7. Acceptance Procedure

OpenGov will submit completed deliverables to the Customer's Project Manager for review. Within five (5) business days of receipt, the Customer's Project Manager will either provide written acceptance or a list of requested revisions. In the event there are requested revisions, the subsequent review period for acceptance will follow the same timeline until final acceptance. If Customer does not respond within this period, the deliverable will be deemed accepted. Once a deliverable is accepted, any requested changes will require a paid Change Order.

Acceptance milestones and review timelines will be tracked in the Project Plan. Both parties acknowledge that delays in task completion or unresolved issues may impact the project timeline. If OpenGov determines in good faith that Customer is not fulfilling its responsibilities under this SOW, OpenGov may place services on hold following a minimum of five (5) business days' written notice. The notice will specify the actions needed to progress the project. During the hold period, OpenGov may reallocate resources without penalty and will not be responsible for resulting delays.

8. Modifications

The fees and estimated timeline are based on the scope and assumptions in this SOW. If either party determines that a change to the scope is necessary, the parties will collaborate to define the required modification, which may result in fee adjustments based on OpenGov's standard rates. All modifications must be documented in a written Change Order and signed by both parties ("Change Order").

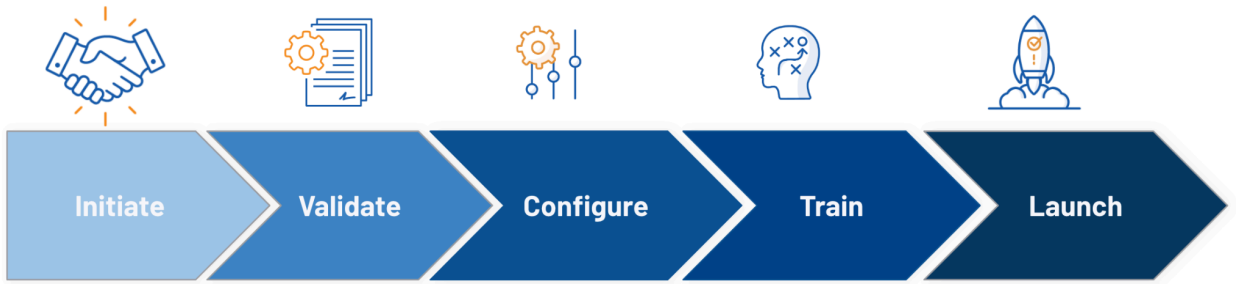
Examples of changes include revisions to the project timeline, deliverables, or resource allocation.

9. Communication and Escalation Procedure

OpenGov and Customer agree to maintain regular communication in alignment with the Project Plan to ensure progress, resolve questions promptly, and minimize risk. Both parties will raise any issues or concerns in a timely manner. If challenges are not resolved through standard project discussions, Customer and OpenGov Project Managers will escalate to their respective executive leadership teams to jointly determine a resolution and align on a path to successful implementation.

Exhibit 1: Implementation Activities

OpenGov Implementation Methodology Overview



Every OpenGov implementation follows a standardized five-phase methodology designed to ensure a structured and collaborative deployment. The phases are:

3. Configure – OpenGov completes system configuration as outlined in this SOW.
4. Train – OpenGov provides training to system administrators and/or end users, as applicable.

Subject: Request to Establish a City of Santa Fe General Services Contract With Vertosoft, LLC to Obtain and Implement the OpenGov Permitting, Licensing & Code Enforcement Software and Related Modules (Heather Lamboy, Planning and Land Use Director, hllamboy@santafenm.gov)

Vendor Name: Vertosoft, LLC, Subcontractor: OpenGov

Vendor Number: 10788

ACTION:
Request for Approval of General Service Contract with Vertosoft, LLC for the Purchase of OpenGov and Implementation Services in the total amount not to exceed $763,362.83, plus out-of-state GRT, for a Five-Year Term. (Heather Lamboy, Planning and Land Use Director, hllamboy@santafenm.gov)

BACKGROUND AND SUMMARY:

The City of Santa Fe intends to procure OpenGov Permitting, Licensing & Code Enforcement software and related modules via an existing OMNIA Partners Cooperative Master Agreement (No. 01-165) with Vertosoft, LLC. This software will be a valuable tool for City staff to streamline permitting processes, enhance customer service, and improve overall operational efficiency.

In May of 2017, the City implemented the Tyler EnerGov system in an effort to modernize permitting and licensing functions. However, EnerGov has consistently proven unreliable, difficult to configure, and heavily dependent on costly modifications to meet even basic business needs. Despite significant time and effort invested by City staff and ITT, EnerGov remains problematic.

These issues are not unique to Santa Fe. Government entities across the country—including San Diego County, CA; the City of Dallas, TX; the City of Raleigh, NC; Clark County, NV; and Prince William County, VA—have publicly reported similar frustrations with EnerGov. Commonly cited issues include:

Extensive Customization Needs: EnerGov is marketed as highly configurable, but many jurisdictions find that achieving basic operational needs requires expensive, time-consuming custom development.

High Ongoing Costs: Even after implementation, governments frequently face substantial ongoing expenses for outside consultants, app developers, and Tyler's own services to maintain or modify the system.

Frequent System Errors and Instability: Users report system glitches, slow performance, and frequent disruptions to core permitting workflows such as inspections, reviews, and approvals.

Upgrade Risks: Updates and patches often break prior customizations, making routine maintenance risky and costly.

Poor User Experience: The platform is unintuitive for both staff and applicants, increasing error rates and extending processing times.

Delayed and Inconsistent Support: Agencies report slow response times for technical support, with urgent issues sometimes taking days or weeks to resolve.

Inflexibility Post-Go-Live: Even small changes to workflows, fees, or forms typically require opening new change orders or waiting on Tyler's development teams.

Given these challenges, continuing with EnerGov would mean prolonged troubleshooting, high ongoing costs, and delayed improvements for the City's permitting operations. It would also restrict the City's ability to quickly adapt to new permitting needs or regulatory changes.

As part of its efforts to identify a better permitting solution, the City evaluated multiple software platforms. After extensive market research, product demonstrations, and reference checks with other government agencies, OpenGov emerged as the best-in-class solution. OpenGov offers a proven, modern, cloud-based platform that meets the City’s needs today—and is flexible enough to adapt to future demands.

OpenGov’s Permitting platform has been successfully implemented by hundreds of government entities and offers mobile access, a user-friendly interface, faster deployment, and built-in best practices—without requiring heavy customization. Additionally, OpenGov provides direct applicant support at no extra cost, reducing the burden on City staff.

The software will support key permitting functions, including application intake, plan review, inspections, fee collection, code enforcement, licensing, and reporting. It will enable the City to streamline workflows, reduce processing times, improve applicant communication, and strengthen transparency. OpenGov also offers significantly faster and more accessible customer support compared to Tyler, with users having immediate access to assistance when needed—dramatically reducing downtime and minimizing disruptions to work.

The contract will be for a five-year term, with a total contract amount not to exceed $800,576.77, which includes $763,362.83 in compensation and $37,213.94 in out-of-state GRT at a rate of 4.875%. The expected cost in the first year is $330,564.52, of which approximately $129,496.78 will be one-time implementation costs. The remaining amount will cover the annual software subscription.

SECTION I – COVERAGES

1. Insuring Agreement

We will pay on behalf of the insured those sums in excess of "scheduled underlying insurance," "unscheduled underlying insurance" or the "retained limit" that the insured becomes legally obligated to pay as "ultimate net loss" because of "bodily injury," "property damage" or "personal and advertising injury" to which this insurance applies.

a. This insurance applies to "bodily injury" and "property damage" only if:

(1) The "bodily injury" or "property damage" is caused by an "incident" anywhere in the world;

(2) The "bodily injury" or "property damage" occurs during the policy period; and

(3) With respect to "bodily injury" or "property damage" that continues, changes or resumes so as to occur during more than one policy period, both of the following conditions are met:

(i) Prior to the policy period, no "authorized insured" knew that the "bodily injury" or "property damage" had occurred, in whole or in part; and

(ii) During the policy period, an "authorized insured" first knew that the "bodily injury" or "property damage" had occurred, in whole or in part.

For purposes of this Paragraph **(1) a.(3)** only, if **(a)** "bodily injury" or "property damage" that occurs during this policy period does not continue, change or resume after the termination of this policy period; and **(b)** no "authorized insured" first knows of this "bodily injury" or "property damage" until after the termination of this policy period, then such first knowledge will be deemed to be during this policy period.

b. "Bodily injury" or "property damage" which occurs during the policy period and was not, prior to the policy period, known to have occurred by any "authorized insured" includes any continuation, change or resumption of that "bodily injury" or "property damage" after the end of the policy period.

c. "Bodily injury" or "property damage" will be deemed to have been known to have occurred at the earliest time when any "authorized insured":

(1) Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;

(2) Receives a written or verbal demand, claim or "suit" for damages because of the "bodily injury" or "property damage"; or

(3) Becomes aware by any other means that "bodily injury" or "property damage" has occurred or has begun to occur.

d. This insurance applies to "personal and advertising injury" caused by an "incident" committed anywhere in the world during the policy period.

If we are prevented by law, statute or otherwise from paying on behalf of the insured, then we will indemnify the insured for those sums that the insured is legally obligated to pay as "ultimate net loss" because of "bodily injury," "property damage" or "personal and advertising injury" to which this insurance applies.

2. Exclusions

This Insurance does not apply to:

a. Expected or Intended Injury

"Bodily injury" or "property damage" expected or intended from the standpoint of the insured. This exclusion does not apply to "bodily injury" resulting from the use of reasonable force to protect persons or property. b. Contractual Liability

"Bodily injury," "property damage" or "personal and advertising injury" for which the insured is obligated to pay damages by reason of the

(1) That the insured would have in the absence of the contract or agreement; or

(2) Because of "bodily injury" or "property damage" assumed in a contract or agreement that is an "insured contract," provided the "bodily injury" or "property damage" occurs subsequent to the execution of the contract or agreement.

(3) Arising out of oral or written publication of material whose first publication took place before the beginning of the policy period;

However, this exclusion does not apply to infringement, in your "advertisement," of copyright, trade dress or slogan;

(9) Committed by an insured whose business is:

(10) Arising out of an electronic chatroom or bulletin board the insured hosts, owns, or over which the insured exercises control; or

(11) Arising out of the unauthorized use of another's name or product in your e-mail address, domain name or metatag, or any other similar tactics to mislead another's potential customers.

(i) Delivered;

(ii) Disposed of; or

(iii) Abandoned

by the insured.

This exception does not apply if the "bodily injury" or "property damage" arises out of the intentional discharge, dispersal or release of the fuels, lubricants or other operating fluids, or if such fuels, lubricants or other operating fluids are brought on or to the premises, site or location with the intent that they be discharged, dispersed or released as part of the operations being performed by such insured, contractor or subcontractor.

Subparagraph **(e)(iii)** does not apply to fuels, lubricants, fluids, exhaust, gases or other similar "pollutants" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "automobile" or its parts if the "pollutants" escape or are discharged, dispersed or released directly from an "automobile" part designed by its manufacturer to hold, store, receive or dispose of such "pollutants."

Subparagraphs **(f)** and **(g)** do not apply if the "pollutants" or property in which the "pollutants" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "automobile" and the discharge, dispersal, release or escape of the "pollutants" is caused directly by such upset, overturn or damage.

(2) "Personal and advertising injury" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants" at any time.

4002000897013027489894 7

This does not apply to the ownership, maintenance, use or "loading or unloading" of any "automobile," or to the Personal Umbrella Liability Coverage Part.

b. A partnership or joint venture, you and your members, your partners, and their spouses, but only with respect to the conduct of your business.

No person or organization is an insured with respect to the conduct of any current or past partnership or joint venture that is not shown as a Named Insured in the Declarations.

c. An organization other than a partnership or joint venture, you and your executive officers and directors, but only with respect to their duties as your officers or directors. Your stockholders are also named insureds, but only with respect to their liability as stockholders.

No person or organization is an insured with respect to the conduct of any current or past limited liability company that is not shown as a Named Insured in the Declarations.

e. A corporation or organization, other than partnerships, joint ventures or limited liability companies, that you form, acquire or gain control of during the policy period, but only with respect to "bodily injury," "property damage" or "personal and advertising injury" taking place after you form, acquire or gain control of such corporation or organization.

2. Insured means the Named Insured and:

a. Your "volunteer workers" only while performing duties related to the conduct of your business, or your employees, other than your executive officers and directors (if you are an organization other than a partnership, joint venture or limited liability company) or your members (if you are a limited liability company) but only for acts within the scope of their employment by you or while performing duties related to the conduct or your business. However, none of these employees or "volunteer workers" is an insured for:

In the event there is diminished recovery or no recovery available to you as a result of such financial impairment of an insurer providing "scheduled underlying insurance," the coverage under this policy shall apply only in excess of the limits of insurance stated in the "scheduled underlying insurance." Under no circumstances shall we be required to drop down and replace the limits of insurance, or assume the obligations of a financially impaired insurer.

2. Duties of the Insured

a. In the event of an "incident" which has not resulted in a claim or suit.

Whenever you have information of an "incident" which involves injuries or damages likely to involve this policy, written notice shall be given by or for you to us or to our authorized agent as soon as practicable. The notice shall contain:

(2) Such information as can be reasonably obtained with respect to time, place and circumstances of the occurrence or offense; and

3. Legal Action Against Us

No legal action shall be brought against us unless you have fully complied with all the terms of this policy and the amount of your obligation to pay has been finally determined either by:

a. Judgment against you after actual trial; or

b. Written agreement between us, you and the claimant.

4. Other Insurance

This insurance is excess over and will not contribute with any other insurance available to the insured whether such other insurance is stated to be primary, contributory, excess, contingent or otherwise. This condition does not apply to insurance purchased specifically to apply in excess of this insurance.

a. We will compute all premiums for this policy in accordance with our rules and rates.

b. If the premium is shown in the Declarations as flat, the premium for this policy is not subject to adjustment.

c. If the premium is shown in the Declarations as adjustable, the premium shown as the advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period. Audit premiums are due and payable on notice to the first Named Insured shown in the Declarations. If the sum of the advance and audit premiums paid for the policy term are greater than the earned premium, we will return the excess, subject to the minimum premium, to the first Named Insured shown in the Declarations.

d. The first Named Insured shown in the Declarations must keep records of the information we need for premium computation, and send us copies at such times as we request.

6. Nonrenewal

If we decide not to renew this policy, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

7. Severability of Interests

The insurance afforded applies separately to each insured against whom claim is made or "suit" is brought. However, the inclusion of more than one insured shall not operate to increase the limits of insurance.

8. Annual Rating

If this policy is issued for a period in excess of one year, the premium may be revised on each annual anniversary in accordance with our rates and rules in effect at that time.

9. "Scheduled Underlying Insurance"

Material change in premium for "scheduled underlying insurance" shall be promptly reported to us. Premium for this policy may be adjusted to reflect changes in underlying insurance in accordance with our manuals in effect at the time of the change.

10. Maintenance of "Scheduled Underlying Insurance"

While this policy is in force you agree that the policies listed in the Declarations as "scheduled underlying insurance" and their renewals and replacements shall be maintained, without alterations of terms or conditions, in full effect during the term of this policy; except for reduction or exhaustion of the aggregate limits of insurance in the "scheduled underlying insurance," provided that such reduction or exhaustion is solely the result of "incidents" taking place during this policy period, and not before. If you fail to maintain "scheduled underlying insurance," this condition shall not invalidate this policy. However, in the event of such failure, we will only be liable to the same extent as if you had complied with this condition.

11. Appeals

If you or your "underlying insurers" elect not to appeal a judgment in excess of the limits of insurance afforded by the:

a. "Scheduled underlying insurance";

b. "Unscheduled underlying insurance"; or

c. "Retained limit";

we may elect to appeal. Our limit of liability shall not be increased because of such appeal. We will, however, pay the following costs and expenses:

a. All premium bonds to release attachments for an amount not in excess of the applicable limit of liability of this policy;

b. All premiums on appeal bonds required in such defended "suit," but without obligation to apply for or furnish such bonds;

c. Court fees;

d. Costs and expenses taxed against you by the appellate court and interest accruing after entry of a judgment against you and before we have:

4002000897013027489895O

(2) Offered to pay; or

(3) Deposited in court

the part of the judgment that is within the applicable limit of insurance. Where the "underlying insurers" terminate their liability to pay interest on the judgment by an offer to pay their limits, you shall demand that such limits be paid. If the appeal is successful, such amounts not obligated to be paid shall be returned to such "underlying insurer."

12. Subrogation

In the case of any payments by us under the coverages of this policy, we shall be subrogated to all rights of recovery against any other party which you may have and will cooperate with you and all other interests. Amounts recovered shall be apportioned in the following order:

a. Amounts paid in excess of the payments under this policy shall first be reimbursed up to the amount paid by those, including you, who made such payments;

b. We are then to be reimbursed up to the amount we paid;

c. Any remainder shall be available to the interests of those over whom this coverage is in excess and who are entitled to claim such remainder.

Expenses necessary to the recovery of such amounts shall be divided between the interests concerned, including you, in the ratio of their respective recoveries as finally settled.

13. Settlement of Claims or Suit

We may pay, but are not obligated to pay, any part or all of the amount of the "retained limit" to effect settlement of a claim or "suit." Upon notification of the action taken you shall promptly reimburse us for such part of the "retained limit" that we had paid. All named insureds are jointly and severally responsible for our reimbursement and agree to make such reimbursement within 30 days after we give you written notice or demand for payment.

6. **Default and Force Majeure**

The City reserves the right to cancel all, or any part of any orders placed under this contract without cost to the City, if the Contractor fails to meet the provisions of this contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of sub-contractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the sub-contractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this contract.

7. **Termination**

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor, or their designee as authorized by the Governing Body. The Contractor, and Contractor's agents and employees, shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City because of this Contract. The Contractor acknowledges that all sums received hereunder are personally reportable by the Contractor for income tax purposes, including without limitation, self-employment tax and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has written authority to do so, and then only within the strict limits of that authority.

The Contractor shall not subcontract any portion of the services to be performed under this Contract without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

12. **Non-Collusion**

These records shall be subject to inspection by the City, the State Auditor and other appropriate state and federal authorities. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

17. **Appropriations**

The terms of this Contract, and any orders placed under it, are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the legislature, this Contract, and any orders placed under it, shall terminate upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

18. **Release**

The Contractor, upon final payment of the amount due under this Contract, releases the City, its officers, and employees, from all liabilities, claims and obligations whatsoever arising from or under this Contract. The Contractor agrees not to purport to bind the City, unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Section 10-16.

C. Contractor's representations and warranties in Paragraphs A and B of this Paragraph are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Paragraph 20 were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

21. **Approval of Contractor Representative(s)**

The City reserves the right to require a change in Contractor representative(s) if the assigned representative(s) are not, in the opinion of the City, adequately serving the needs of the City.

25. **Indemnification**

The Contractor shall hold the City and its employees harmless and shall indemnify the City and its employees against any and all claims, suits, actions, liabilities and costs of any kind, including attorney's fees for personal injury or damage to property arising from the acts or omissions of the Contractor, its agents, officers, employees or subcontractors. - Ensure that the appropriate templates and forms are used https://intranet.santafenm.gov/finance_1 and documented procedures/laws/rules are followed.
- > $20k per year, when processing this procurement, please ensure the procurement number issued by Munis and the procurement name are used in the appropriate documents and the subject of emails.
- If you are processing a procurement where the forecasted amount is =/> $60k, per NMSA 1978, Section 13-1-102, the procurement method must be ITB (if you choose not to use a cooperative or an existing contract). If you feel you need to

process an RFP, you must get an Authorization and Plan approved before you process.

- < $20k per year, one quote is acceptable.
- From $20k to $60k per year, if you aren't using a cooperative or existing contract, you must provide 3 quotes in your req. Must use the Munis Bid Module, OpenGov, or Pavilion.
- **Identify your funding source and notify Purchasing.**
  It's essential to determine the funding source early, as it impacts the required documentation and contract language. For example, if federal funds are being used, specific federal provisions must be included in both the procurement request and the resulting contract. Notifying Purchasing of the funding source upfront ensures compliance and avoids delays.
- Follow the link below to review existing price agreements, contracts, or cooperative agreements that might be applicable to this request. You might be able to use an existing price agreement/contract to save time and money.
  - Pavilion: Free Cooperative Contract Search for Governments (please work with Purchasing if you think you found an existing or cooperative contract that might work)
- Submit via **Submit Purchase Requests** or the appropriate email address:
  - Determination requests to purchasing_det@santafenm.gov
  - All other requests to purchasing@santafenm.gov

Thank you for submitting this scope of work for my review.

Hi Heather & Travis,

Thank you for talking some time to sync on the agreement approval process. We are excited to expand our partnership and help Heather & Team with the City's Permitting goals!

To keep us all on the same page, here were the approval steps I took down:

- **Heather** to submit documents for legal approval today - *calling out that terms are same as previous agreements*
- **Heather** to work with City Clerk to ensure there is space July 30th Governing Body meeting for our item
- **Heather & Travis** to submit agreement in that workflow you were sharing today (I don't know the name of it :))
- **July 11th Deadline** to have agreement reviewed and submitted for agendas

    - July 23rd - Quality of Life Agenda
    - July 28th - Finance Committee Agenda
    - July 30th - Governing Body Agenda

David will also work with the Public Works Team on their Capital Planning agreement concurrently.

Do these steps look right? Let me know if I missed any steps or if you require any additional information from us!

Contractor agrees that a breach of this certification will be a violation of this Civil Rights clause.

3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment. In all solicitations, either by competitive bidding or negotiation, made by Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by Contractor of Contractor's obligations under this Contract and the regulations relative to non-discrimination on the grounds of race, color, creed, sex, disability, age or national origin.

4) Sanctions of Non-Compliance. In the event of Contractor's non-compliance with the non-discrimination provisions of this Contract, Public Agency shall impose such Contract sanctions as it or the FTA may determine to be appropriate, including, but not limited to: 1) Withholding of payments to Contractor under the Contract until Contractor complies, and/or; 2) Cancellation, termination or suspension of the Contract, in whole or in part.

Contractor agrees to include the requirements of this clause in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs"*, therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

1) Non-Discrimination Assurances. Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. Contractor shall carry out all applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or other such remedy as public agency deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).

2) Prompt Payment. Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor may not terminate any DBE subcontractor and perform that Work through its own forces, or those of an affiliate, without prior written consent of public agency.

3) DBE Program. In connection with the performance of this Contract, Contractor will cooperate with public agency in meeting its commitments and goals to ensure that DBEs shall have the maximum practicable opportunity to compete for subcontract work, regardless of whether a contract goal is set for this Contract. Contractor agrees to use good faith efforts to carry out a policy in the award of its subcontracts, agent agreements, and procurement contracts which will, to the fullest extent, utilize DBEs consistent with the efficient performance of the Contract.

ENERGY CONSERVATION REQUIREMENTS

Contractor agrees to comply with mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plans issued under the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 *et seq.* and 41 CFR Part 301-10.

FEDERAL CHANGES

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, listed directly or by reference in the Contract between Public Agency and the FTA, and those applicable regulatory and procedural updates that are communicated to Contractor by Public Agency, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this Contract.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT and applicable to the scope of a particular Contract awarded to Contractor by a Public Agency as a result of solicitation, as set forth in the most current FTA Circular 4220.1F, published February 8th, 2016, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to knowingly perform any act, knowingly fail to perform any act, or refuse to comply with any reasonable public agency requests that would directly cause public agency to be in violation of the FTA terms and conditions.

NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.
Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms, to the best of its knowledge, the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to me

made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to me made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

Decline reason: Purchases cannot be made from object 563100 - that line is only there to pay ITT for costs they incur on behalf of other Departments. If this is going to be paid by ITT and charged back to PLU or whoever, the ITT org/object needs to be on the memo.

SUBJECT: ***Notice by Public Agency of Intent to Apply for Authority to Impose a Passenger Facility Charge (PFC) and Use PFC Revenue at Santa Fe Municipal Airport***

Dear Accounts Payable:

As provided for in Title 14 Code of Federal Regulations (CFR) Part 158.30, ***PFC Authorization at Non-Hub Airports***, the City of Santa Fe intends to file a Notice of Intent with the Federal Aviation Administration (FAA) for the authority to impose a Passenger Facility Charge (PFC) and use PFC revenues for specific future projects at Santa Fe Municipal Airport (see Attachments A and B).

As required under Section 158.23 of 14 CFR Part 158, *Passenger Facility Charges*, the City of Santa Fe is hereby providing written notice to all U.S. air carriers operating at Santa Fe Municipal Airport of its intent to impose a new PFC. 14 CFR Part 158 is the final rule by the FAA that implements Sections 9110 and 9111 of the *Aviation Safety and Capacity Expansion Act of 1990*, which was passed by the U.S. Congress in November 1990.

THE AIRPORT SYSTEM

The City of Santa Fe serves as the governing body that oversees the operation of Santa Fe Municipal Airport. The airport is designated by the FAA as a Commercial Service – Non-Hub Primary Facility intended to serve short-haul (less than 1,500 miles) air carrier markets and general aviation. The City of Santa Fe's objective is to operate the airport as a self-sufficient enterprise.

SANTA FE

PASSENGER FACILITY CHARGE (PFC)
PROJECT DESCRIPTIONS
NOTICE OF INTENT #1

I. COLLECT PFCS FOR THE FOLLOWING PROJECTS:

The City of Santa Fe intends to "impose and use" PFCs ($3.00) for the following projects at Santa Fe Regional Airport (SAF).

A. FUTURE PROJECTS (FY 2025/FY 2026/FY 2027)

1. PFC Application/Administration Costs

Project Description: The PFC administration costs include the preparation of the PFC Notice of Intent, including airline consultation, preparation of the application package, and coordination with the Federal Aviation Administration (FAA). The costs also include the administration of the PFC program during the collection period, including any subsequent amendments. **The PFC will be used to reimburse the City of Santa Fe's costs related to the preparation and administration of the PFC application.**

SAF experienced 202,405 enplanements for the latest 12 months available in 2025 ending in October. At $3.00 PFC, this equates to $601,215 in airport revenue per year. Of the $3.00 PFC, the airlines retain approximately $0.11 per enplaned passenger for processing, leaving $2.89 per enplaned passenger for the airport revenue, which equates to $579,170.45 per calendar year.

Total Projected Cost: $180,000

Total PFC Collection: $180,000 (Impose and Use, City Share)

2. Terminal Apron Reconstruction

Project Description: The existing terminal apron contains Portland cement concrete pavement, which is over 50 years old. The central portion of this apron received a Pavement Condition Index (PCI) of 56–70 in 2014, while the two other parts of the apron received PCIs of 71–85 in 2014. All parts of the apron were constructed in 1955. The low PCI scores and the age of the pavement indicate this apron in need of reconstruction. The FAA issued a Categorical Exclusion determination for this project on January 24, 2022. The FAA issued a design grant for this project in fiscal year (FY) 2022 (AIP 3-35-0037-060-2022). The FAA issued a construction grant for this project in FY 2025 (AIP 3-35-0037-0065-2024). Construction is anticipated in FY 2025.

This project is crucial to the airport and airlines. With the airport now having completed a $21 million terminal expansion and renovation project with new gates, this project is essential to continued airline operations at SAF. This apron is where commercial service aircraft will be parked and serviced.

The PFC will be used to reimburse the City of Santa Fe's local match.

Total Projected Cost, Design: $284,611

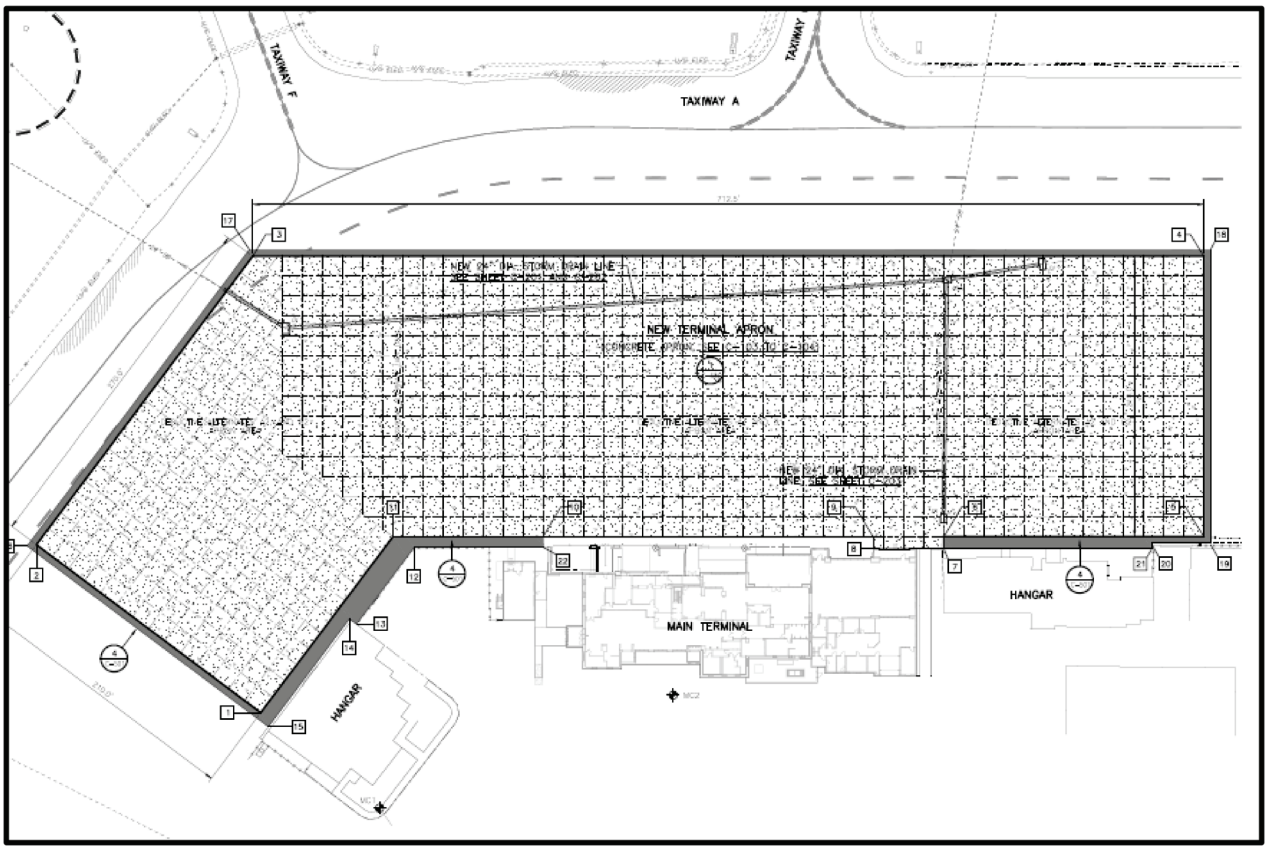
Total PFC Collection, Design: $8,894 (Impose and Use, City Share)

Total Projected Cost, Construction: $7,461,837

Total PFC Collection, Construction: $137,214 (Impose and Use, City Share)

Total Projected Cost, Design and Construction: $7,892,556

Total PFC Collection, Design and Construction: $146,108 (Impose and Use, City Share)



Terminal Apron Reconstruction Project

3. **North Aircraft Parking Ramp Reconstruction**

Project Description: The north ramp was originally constructed in 1990 and is in need of total pavement replacement due to cracking and oxidation. This project will pulverize existing pavement, compact existing subbase and base course, and repave the apron. The overall North Ramp reconstruction will be completed in three phases to maintain operational continuity. Phase I construction will consist of the southern end of the apron and has an estimated construction cost of $6.0 million. **The PFC will be used to reimburse the City of Santa Fe's local match.**

The FAA issued a Categorical Exclusion determination for this project on February 27, 2024. The FAA issued a design grant for this project in FY 2024 (AIP 3-35-0037-063-2024). Construction is anticipated in FY 2026. The FAA grant is for design only. The New Mexico Department of Transportation (NMDOT) grant, SAF-25-02, has been issued for both design and construction. The FAA construction grant will not be issued until the time of bidding.

For the purposes of this PFC application, only the design costs and the construction costs associated with Phase I of the North Ramp reconstruction are being considered. PFC revenues will be used to reimburse the City of Santa Fe's local match for the eligible design and Phase I construction costs included in this application.

This project is vital to the fixed base operators (FBOs) serving the airlines through services provided, such as fuel, A&P, and other services. This apron is also necessary to park commercial airline aircraft overnight (remain overnight/RON parking) and during other pavement maintenance activities on the primary apron.

Total Projected Cost, Design: $203,962

Total PFC Collection, Design: $1,275 (Impose and Use, City Share)

Total Projected Cost, Construction: $6,000,000

Total PFC Collection, Construction: $60,000 (Impose and Use, City Share)

DISCUSSION AND OVERVIEW OF AGENDA ITEMS
Mr. Fitz stated that this PFC application filed by the City of Santa Fe and the Airport. It is being done by the authorization provided by Congress, Part 158 of the Federal Regulations, under the 'Non-Hub Airport' process which allows a quicker process in filing a Notice of Intent. Mr. Fitz stated that all the documentation for proposed PFC projects were on hand, available on PowerPoint presenation, and they were sent out to all the Air Carriers that have a business interest at the Santa Fe Airport via letter on February 25, 2025.. The Air Carriers were also notified in this same letterregarding the meeting, and a list of projects, as well as project descriptions, were provided to them at that time. Mr. Fitz noted that no Air Carriers are present for discussion or questions. Mr. Fitz opened the floor to any questions from the participants in attendance.

Mr. Fitz said to note Item 5, "Deadline for Written Certification of Agreement or

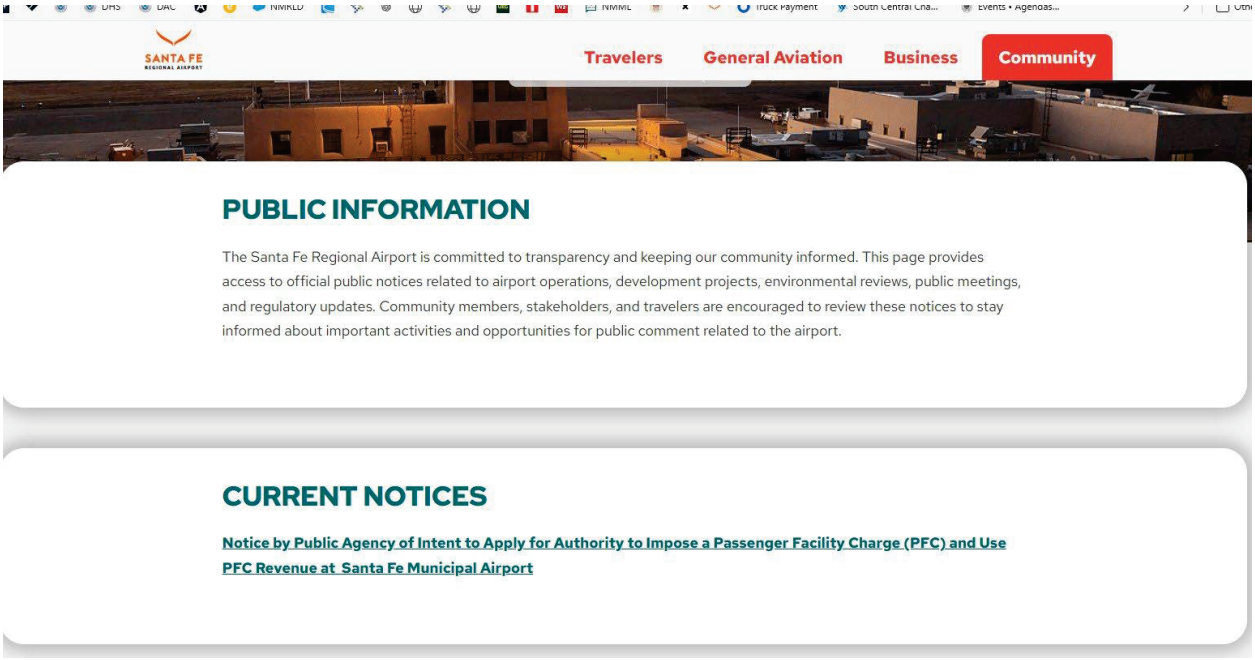
Disagreement with a Project", is due from the Air Carriers 30 days from the day of the meeting. The time frame established is per the Regulations, in which they (the Air Carriers) must respond to each project independently, and not the PFC as a whole. After that time, after comments are received, the Notice of Intent will be completed and submitted by the City to the FAA for consideration.

Mr. Gunn noted that the Airport posted the Notice of Intent on the City website. Mr. Gunn said based on the absence of the Air Carriers and members of the public, his recommendation was to adjourn the meeting.

ADJOURN

Mr. Fitz adjourned the meeting at 3:05 p.m.

The following public notice was published on the City of Santa Fe's website from February 24, 2026 until April 8, 2026.



PUBLIC NOTICE
OPPORTUNITY FOR PUBLIC COMMENT SANTA FE REGIONAL AIRPORT PASSENGER FACILITY CHARGE (PFC) NOTICE OF INTENT #1

As provided for in Title 14 Code of Federal Regulation (CFR) Part 158.30 (*PFC Authorization at Non-Hub Airports*), the City of Santa Fe intends to file a "Notice of Intent" (NOI) with the Federal Aviation Administration (FAA) for the authority to "Impose and Use" PFC revenue for specific projects at the Santa Fe Regional Airport. Public comments on the proposed "Impose and Use" NOI will be accepted by the City of Santa Fe until 5:00 PM, April 15, 2026.

Passenger Facility Charge Program

- PFC Level: $3.00 per enplaned passenger.
- Proposed Charge Effective Date: June 1, 2026
- Estimated Charge Expiration Date: January 31, 2027
- Estimated Total PFC "Impose and Use" Revenue: $387,383, not including interest.

The City of Santa Fe intends to use the PFC revenue for the following projects at the Santa Fe Regional Airport.

1. **PFC Application/Administration Costs**

Project Description: The PFC administration costs include the preparation of the PFC Notice of Intent, including airline consultation, preparation of the application package, and coordination with the Federal Aviation Administration (FAA). The costs also include the administration of the PFC program during the collection period, including any subsequent amendments. **The PFC will be used to reimburse the City of Santa Fe's costs related to the preparation and administration of the PFC application.**

SAF experienced 202,405 enplanements for the latest 12 months available in 2025 ending in October. At $3.00 PFC, this equates to $601,215 in airport revenue per year. Of the $3.00 PFC, the airlines retain approximately $0.11 per enplaned passenger for processing, leaving $2.89 per enplaned passenger for the airport revenue, which equates to $579,170.45 per calendar year.

Total Projected Cost: $180,000

Total PFC Collection: $180,000 (Impose and Use, City Share)

2. Terminal Apron Reconstruction

Project Description: The existing terminal apron contains Portland cement concrete pavement, which is over 50 years old. The central portion of this apron received a Pavement Condition Index (PCI) of 56–70 in 2014, while the two other parts of the apron received PCIs of 71–85 in 2014. All parts of the apron were constructed in 1955. The low PCI scores and the age of the pavement indicate this apron in need of reconstruction. The FAA issued a Categorical Exclusion determination for this project on January 24, 2022. The FAA issued a design grant for this project in fiscal year (FY) 2022 (AIP 3-35-0037-060-2022). The FAA issued a construction grant for this project in FY 2025 (AIP 3-35-0037-0065-2024). Construction is anticipated in FY 2025.

This project is crucial to the airport and airlines. With the airport now having completed a $21 million terminal expansion and renovation project with new gates, this project is essential to continued airline operations at SAF. This apron is where commercial service aircraft will be parked and serviced.

The PFC will be used to reimburse the City of Santa Fe's local match.

Total Projected Cost, Design: $284,611

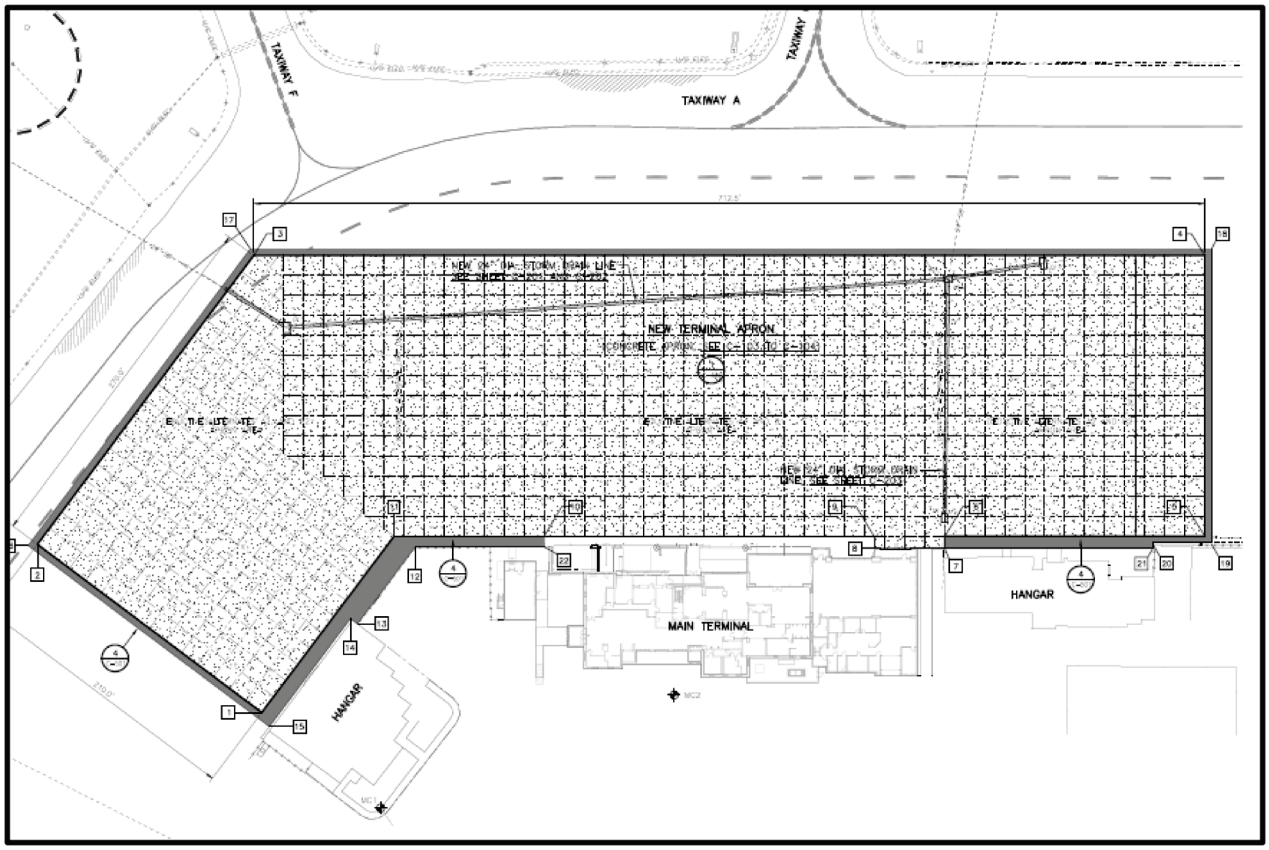
Total PFC Collection, Design: $8,894 (Impose and Use, City Share)

Total Projected Cost, Construction: $7,461,837

Total PFC Collection, Construction: $137,214 (Impose and Use, City Share)

Total Projected Cost, Design and Construction: $7,892,556

Total PFC Collection, Design and Construction: $146,108 (Impose and Use, City Share)



Terminal Apron Reconstruction Project

3. **North Aircraft Parking Ramp Reconstruction**

Project Description: The north ramp was originally constructed in 1990 and is in need of total pavement replacement due to cracking and oxidation. This project will pulverize existing pavement, compact existing subbase and base course, and repave the apron. The overall North Ramp reconstruction will be completed in three phases to maintain operational continuity. Phase I construction will consist of the southern end of the apron and has an estimated construction cost of $6.0 million. **The PFC will be used to reimburse the City of Santa Fe's local match.**

The FAA issued a Categorical Exclusion determination for this project on February 27, 2024. The FAA issued a design grant for this project in FY 2024 (AIP 3-35-0037-063-2024). Construction is anticipated in FY 2026. The FAA grant is for design only. The New Mexico Department of Transportation (NMDOT) grant, SAF-25-02, has been issued for both design and construction. The FAA construction grant will not be issued until the time of bidding.

For the purposes of this PFC application, only the design costs and the construction costs associated with Phase I of the North Ramp reconstruction are being considered. PFC revenues will be used to reimburse the City of Santa Fe's local match for the eligible design and Phase I construction costs included in this application.

This project is vital to the fixed base operators (FBOs) serving the airlines through services provided, such as fuel, A&P, and other services. This apron is also necessary to park commercial airline aircraft overnight (remain overnight/RON parking) and during other pavement maintenance activities on the primary apron.

Total Projected Cost, Design: $203,962

Total PFC Collection, Design: $1,275 (Impose and Use, City Share)

Total Projected Cost, Construction: $6,000,000

Total PFC Collection, Construction: $60,000 (Impose and Use, City Share)

Total Projected Cost, Design and Construction: $6,265,237

Total PFC Collection, Design and Construction: $61,275 (Impose and Use, City Share)

1	PFC Application/Administration Costs	The PFC administration costs include the preparation of the PFC Notice of Intent, including airline consultation, preparation of the application package, and coordination with the FAA. The costs also include the administration of the PFC program during the collection period including any subsequent amendments. The PFC will be used to reimburse the City's costs related to the preparation of the PFC Application and administration of the PFC program.	None						
2	Terminal Apron Reconstruction	The existing terminal apron contains Portland cement concrete pavement that is over 50 years old. The central portion of this apron received a Pavement Condition Index (PCI) of 56-70 in 2014, while the two other parts of the apron received PCIs of 71-85 in 2014; all were constructed in 1955. These scores and the age of the pavement firmly place this apron in need of reconstruction. The FAA issued a categorical exclusion determination for this project on January 24, 2022.	Cat-X	1/24/2022					
3	North Aircraft Parking Ramp Reconstruction	The north ramp was originally constructed in 1990 and is in need of total pavement replacement due to cracking and oxidation. This project will pulverize existing pavement, compact existing subbase and base course, and repave the apron. The overall north ramp reconstruction will be completed in three phases to maintain operational continuity. Phase I construction will consist of the southern end of the apron. The FAA issued a categorical exclusion determination for this project on February 27, 2024.	Cat-X	2/27/2024

Amendment No. 4 increases the amount of compensation by $2,200,000 for a total compensation not to exceed $12,100,000 and extends the term for two years for an expiration date of June 30, 2028.

CONTRACT NUMBER:

CITY OF SANTA FE
Exhibit B- Unit Rate
Schedule JULY 2025 to JUNE 30, 2026

JUSTIFICATION FOR RATE INCREASE

Condor-New Age Logistics, LLC (CNAL), a Professional Services Company, is proposing a rate increase from our current rates. We are requesting this increase for the upcoming fiscal year of 1 July 2025 through 30 June 2026. The rates with the incorporated increase requested are reflected in the table below section "New Hourly Rate".

CNAL, respectfully requests a 3% adjustment to our current contract rate, driven by several economic and operational factors impacting our service delivery. This request reflects the rising cost of living and municipal minimum wage increases within New Mexico—specifically in cities such as Santa Fe, which have implemented wage hikes for 2024–2025. Additionally, recent state legislation mandates annual minimum wage adjustments beginning in January 2026, contributing to increased labor costs. Inflation has significantly elevated the cost of goods and services essential to our operations, including uniforms, vehicles, communications equipment, and related technologies. Vehicle maintenance expenses have also climbed. Additionally, compliance with new training, reporting, and background check requirements has increased regulatory costs. CNAL continues to invest in upgraded equipment and technology to meet City of Santa Fe's expectations and industry standards. The new rates will allow CNAL to better serve the state of City of Santa Fe's needs and goals while enhancing our ability to attract and retain qualified experienced personnel as well to ensure successful results in meeting the City of Santa Fe's expectations.

Line items to justify this requested adjustment:

- Item #1-8: Contractor Licensing – Increased regulatory costs associated with maintaining required state and local licenses.
- Item #1-8: Personnel Licensing – Rising fees related to security personnel credentialing.
- Item #1-8:Training – Ongoing compliance with mandated training standards and continuing education requirements.
- Item #9-10: Contractor Vehicle – Increased expenses for vehicle acquisition, maintenance, and operation.
- Item #1-8: Standards of Appearance – Higher costs for professional uniforms and equipment to maintain compliance with appearance standards.

We truly appreciate your continued trust and support. If you have any questions or would like to discuss this further, please feel free to reach out.

JUSTIFICATION FOR RATE INCREASE

Condor-New Age Logistics, LLC (CNAL), a Professional Services Company, is proposing a rate increase from our current rates. We are requesting this increase for the upcoming fiscal year of 1 July 2024 through 30 June 2025. The rates with the incorporated increase requested are reflected in the table below section "New Hourly Rate". The new rates will allow CNAL to better serve the City of Santa Fe's (CSF) needs and goals while enhancing our ability to attract and retain qualified experienced personnel as well as continuing to improve the professional security services and developing new features to ensure successful results in meeting the City of Santa Fe's expectations. Factors that had to be considered when formulating our bill rates for 2024-2025 include the following:
National staffing crisis: A shortage of qualified applicants across all industries.

- Increase in national crime rates: An increase in supply and demand during the national staffing crisis

Failure of the Contractor to furnish a disclosure or provide additional information as requested will be grounds for immediate termination of this Agreement pursuant to the conditions set forth in Paragraph 7 of this Agreement.

E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.

F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts during the term of this Agreement. (Joshua Bohlman, Facilities Project Administrator, jbohlman@santafenm.gov, 505-955-5932)

BACKGROUND AND SUMMARY:
In accordance with Request for Proposals for City-Wide, On-Call Security Guard Services (RFP #22/17/P) issued February 17, 2022, three contracts are now entered with three companies 1. Condor New Age-Logistics LLC, 2. Servexo Protective Services, 3. Vet-Sec Protection Agency.

The City requires security at a large number of Facilities including but limited to: Water Division, parks, libraries, Municipal Court, the Railyard, Genoveva Chavez Community Center, Santa Fe Trails, and parking garages.

This amendment will extend the term of Aarrowhead Security DBA Vet-Sec Protection Agency agreement from 6/30/2024 to 6/30/2026 and insert the new rate sheet with a 3% increase in guard wages as allowed in the contract. This increase in cost does not require a corresponding increase in the not to exceed amount as the services required for the year are projected to be covered by the annual $2,200,000 not to exceed amount.

---

REQUESTED ACTION
Request for approval of a Budget Adjustment Request to utilize $150,000.00 from Fund 100 (General Fund) in the amount of $150,000.00 to Fund 213 (Tourism/Visit Santa Fe) for the remainder of FY26 for downtown security. The contract is managed by Visit Santa Fe (Tourism Department). General Funds will be utilized to assist with providing services.

PROCUREMENT METHOD:

The procurement method used was NMSA 1978, Section 13-1-127, Emergency

Emergency NMSA 1978, Section 13-1-127 - The current conditions at 2801 Cerillos Road and the surrounding area have become an emergency impacting public health, safety, and welfare. Data from Santa Fe Police, Fire, and Constituent Services about the change in conditions in this area clearly demonstrate escalating health and safety risks and a serious strain on emergency response and public safety systems.

- Santa Fe Police responded to 3,224 calls for service in 2024 in the vicinity of Pete's Place (3.8% of all citywide calls). So far in 2025, that number is 1,350 calls (4.9% of citywide total), averaging 11.25 calls per day.
- In the first four months of 2025 alone, SFPD has conducted 618 proactive actions at the site (e.g., close patrols, traffic stops).
- Santa Fe Fire Department responded to 583 calls in 2024 and 243 in early 2025. These include overdoses, injuries, and other emergencies totaling over $3.4M in public cost over two and a half years. Constituent Services, from 2022-2025, reports 153 complaints regarding feces, syringes, drug activity, unsanitary conditions and violence in and around the shelter.
- At current rates, 2025 is projected to result in approximately 4,050 police calls for service, 1,854 proactive police actions, 729 fire department calls, and $1.95 million in fire department response costs.

These conditions pose an imminent threat to shelter guests, surrounding residents and businesses, and first responders.

- Contractor shall proactively coordinate with the City to identify, scope, and budget for all non-capital repairs and ongoing maintenance necessary to ensure the Shelter's structural integrity, safety, and functionality. Contractor shall provide regular updates on facility conditions and anticipated maintenance needs, including advance notice of any issues requiring repair. All scopes of work and associated budgets must be reviewed and approved in writing by the City's Facilities Team and Community Services representatives prior to the commencement of any work.

This responsibility includes, but is not limited to, servicing HVAC systems, repairing plumbing, maintaining life safety systems (e.g., alarms, extinguishers, emergency lighting), and maintaining doors, windows, and exterior systems.

G. Site Relocation Plan for Residents

Develop a client relocation plan for the closure of the Current Location and potential relocation at a new location, including a phased intake process as needed. This includes targeted case management for individuals to assist in their transition to permanent housing, alternative shelter or other positive outcomes and service placements. The City will be primarily responsible for overarching plans regarding the specific service model, relocation site, and other programmatic logistics involved with the phase out of the 2801

Cerrillos location.

- Actively engage and participate in the transition from the current shelter to a new facility by leading client engagement and noticing with trauma-informed practices in collaboration with City staff's input.

Detailed Justification:

The current conditions at 2801 Cerillos Road and the surrounding area have become an emergency impacting public health, safety, and welfare. Data from Santa Fe Police, Fire, and Constituent Services about the change in conditions in this area clearly demonstrate escalating health and safety risks and a serious strain on emergency response and public safety systems.

Santa Fe Police responded to 3,224 calls for service in 2024 in the vicinity of Pete's Place (3.8% of all citywide calls). So far in 2025, that number is 1,350 calls (4.9% of citywide total), averaging 11.25 calls per day.

In the first four months of 2025 alone, SFPD has conducted 618 proactive actions at the site (e.g., close patrols, traffic stops).

Santa Fe Fire Department responded to 583 calls in 2024 and 243 in early 2025. These include overdoses, injuries, and other emergencies totaling over $3.4M in public cost over two and a half years.

Constituent Services, from 2022-2025 ,reports 153 complaints regarding feces, syringes, drug activity, unsanitary conditions and violence in and around the shelter.

At current rates, 2025 is projected to result in approximately 4,050 police calls for service, 1,854 proactive police actions, 729 fire department calls, and $1.95 million in fire department response costs.

These conditions pose an imminent threat to shelter guests, surrounding residents and businesses, and first responders.

Measures to Minimize the Duration and Impact of the Emergency Procurement

This emergency procurement is limited to a 14-month term to allow for immediate stabilization while the City conducts a feasibility review of the site and develops a long-term plan for shelter operations.

During the emergency term, the City will:

- Conduct an evaluation of whether 2801 Cerrillos Road is an appropriate long-term shelter location
- Explore alternative locations or potential redevelopment opportunities for community serving uses
- Develop and issue a competitive procurement (or use a cooperative agreement) for a permanent shelter operator during the emergency contract period

These steps are intended to ensure accountability, improve long-term outcomes, and prevent future reliance on emergency procurement under similar circumstances.

The Community Health and Safety Department will coordinate a feasibility study regarding transitioning the shelter from its current location into an area that can better serve its needs and mitigate impacts to surrounding areas.

The City will either release an RFP for a new permanent operator or procure services using another non-emergency method, such as cooperative agreement or an existing contract.

Future Steps to Prevent Similar Emergency Procurements

The Community Health and Safety Department is taking several steps to reduce reliance on emergency procurement moving forward. These include:

Building formalized contingency plans for shelter operations and emergency protocols for operator transitions.

Increasing interdepartmental coordination and data-sharing to monitor public safety and public health indicators in real time.

These strategies aim to improve operational resilience and ensure that future service transitions can be handled through standard procurement methods with minimal disruption.

Request to Transfer Contract Funding

From: Melek Totah, CFO

Date: 4-27-26

Agape Shelter Situation:

The Agape Shelter Contract included a statement of work (SOW) for a 24-7 operational Shelter serving 100 guests, with care coordination staff. The current costs to operate until June 17th is $2.0 million to operate (see below chart).

Agape	February YTD	March	April	May	June	Full Year
Budget	1,398,402	175,000	11,942			1,585,344
Overage			165,000	175,000	94,960	434,960
Total	**1,398,402**	**175,000**	**176,942**	**175,000**	**94,960**	**$ 2,020,303**

*Original Budget of $1.5 million plus Interfaith Closeout Costs $87,040.

The corresponding Agape Shelter budget only included a 16-hour operational Shelter for $1.5 million. The discrepancy was raised to the City shortly after Urban Alchemy took over the services in August 2025.

Outreach/Love Situation:

We anticipate the Love/Oasis contract will be underspent by $845,158 due to the deployment of only 1 Oasis and other savings.

Love/Outreach	February YTD	March	April	May	June	Full Year
Original Budget	1,017,272	127,000	127,000	127,000	127,000	1,525,272
Underspend						$ 845,158
Total	**1,017,272**	**127,000**	**127,000**	**127,000**	**127,000**	**$ 2,370,429** *

*Original Budget of $1,928,406 [Outreach of $997,662, 2 Oases of $930,775] plus Department of Workforce Solutions of $442,372.

Proposal:

Our proposal is to move $522,000 in funding from the Love Outreach contract to the Agape Shelter Contract for the fiscal year 25-26. This is made up of $434,960 in additional costs for a 24-7 shelter and coverage of the Interfaith Closeout of $87,040. The only scope change will be to remove the second Oasis from the Love/Outreach contract for the fiscal year 25-26.

Background:

The Love/Outreach contract originally included the outreach team and two Oases sites; then additional funding was added from the Department of Workforce Solutions for on call outreach services, taking the total budget to $2.4 million. However, only one Oasis site was deployed resulting in savings of $465,000. In addition, costs were reduced due to staff vacancy. Therefore, we anticipate $845,158 in savings for the fiscal year.

- Coordinate and participate with City staff and law enforcement as needed to maintain public safety and responsiveness.

- Make all non-capital repairs and ongoing maintenance necessary to ensure Shelter structural integrity and function and safe and functional operations. This responsibility includes, but is not limited to servicing the HVAC, repairing plumbing, keeping up of life safety systems (e.g., alarms, extinguishers, emergency lighting), and maintaining doors, windows, and basic building systems.

IV. Provide an explanation for the justification of the procurement including a description of the emergency condition(s) requiring use of emergency procurement and the practicable competition utilized in compliance with NMSA 1978, § 13-1-127.

The current conditions at 2801 Cerillos Road and the surrounding area have become an emergency impacting public health, safety, and welfare. Data from Santa Fe Police, Fire, and Constituent Services about the change in conditions in this area clearly demonstrate escalating health and safety risks and a serious strain on emergency response and public safety systems.

- Santa Fe Police responded to 3,224 calls for service in 2024 in the vicinity of Pete's Place (3.8% of all citywide calls). So far in 2025, that number is 1,350 calls (4.9% of citywide total), averaging 11.25 calls per day.

- In the first four months of 2025 alone, SFPD has conducted 618 proactive actions at the site (e.g., close patrols, traffic stops).

- Santa Fe Fire Department responded to 583 calls in 2024 and 243 in early 2025. These include overdoses, injuries, and other emergencies totaling over $3.4M in public cost over two and a half years.

- Constituent Services, from 2022-2025 ,reports 153 complaints regarding feces, syringes, drug activity, unsanitary conditions and violence in and around the shelter.
- At current rates, 2025 is projected to result in approximately 4,050 police calls for service, 1,854 proactive police actions, 729 fire department calls, and $1.95 million in fire department response costs.

These conditions pose an imminent threat to shelter guests, surrounding residents and businesses, and first responders.

V. **Please describe what measures are being taken to minimize the duration and effect of this particular emergency procurement (for example: is the emergency only in place until a competitive process can be completed, etc.).**

This emergency procurement is limited to a 14-month term to allow for immediate stabilization while the City conducts a feasibility review of the site and develops a long-term plan for shelter operations.

During the emergency term, the City will:

- Conduct an evaluation of whether 2801 Cerrillos Road is an appropriate long-term shelter location
- Explore alternative locations or potential redevelopment opportunities for community-serving uses
- Develop and issue a competitive procurement (or use a cooperative agreement) for a permanent shelter operator during the emergency contract period

These steps are intended to ensure accountability, improve long-term outcomes, and prevent future reliance on emergency procurement under similar circumstances.

The Community Health and Safety Department will coordinate a feasibility study regarding transitioning the shelter from its current location into an area that can better serve its needs and mitigate impacts to surrounding areas. The City will either release an RFP for a new permanent operator or procure services using another non-emergency method, such as cooperative agreement or an existing contract.

VI. **Describe what measures the Department will take in the future to prevent/mitigate use of emergency procurement under similar circumstances.**

The Community Health and Safety Department is taking several steps to reduce reliance on emergency procurement moving forward. These include:

- Building formalized contingency plans for shelter operations and emergency protocols for operator transitions.

- Increasing interdepartmental coordination and data-sharing to monitor public safety and public health indicators in real time.

These strategies aim to improve operational resilience and ensure that future service transitions can be handled through standard procurement methods with minimal disruption.

The records shall be subject to inspection by the City. The

City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

24. Indemnification

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents. The indemnification obligations herein do not apply where any such claim is caused in whole or in part by the City, its officers, employees, servants, subcontractors, or agents and their negligent act or omission or intentional misconduct. To the extent any claim arises from the negligence of Contractor and the City, Contractor's indemnification obligations herein shall be limited only to Contractor's proportionate share of fault. 29. Authority

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter a binding contract.

31. Default/Breach

In case of Default and/or Breach by the Contractor that is not cured within a reasonable time period after Contractor receives notice of such default and/or breach, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages, and the City may also seek all other remedies under the terms of this Contract and under law or equity.

32. Equitable Remedies

The Contractor acknowledges that its failure to comply with any provision of this Agreement will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City 's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain equitable relief pursuant to this Agreement shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

33. Default and Force Majeure

The City reserves the right to cancel all, or any part of any orders placed under this Agreement without cost to the City, if the Contractor fails to meet the provisions of this Agreement and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default and failure to cure such default within a reasonable time period. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this Clause shall not be exclusive and are in addition to any other rights now being provided by law or under this Agreement.

ITEM AND ISSUE:

Request for Approval of Amendment No. 2 to Professional Services Contract 24-0490 With Fiscal Sponsorship of Consuelo's Place in the Total Amount of $2,310,000.00 and Extend The Term Through June 30, 2027; (Kristen Woods, Youth and Family Services Program Manager; krwoods@santafenm.gov)

CONTRACT NUMBER:

The FY26 Munis contract number is 3250019.

BACKGROUND AND SUMMARY:

In 2020, the City deployed dormitory rooms located on City property at the former Santa Fe University of Art and Design campus, as temporary non-congregate shelter for people experiencing homelessness. Since then, the shelter has housed 50 - 100 residents per night, with stays lasting from a few days to several weeks. Over 40% of guests have exited into long-term stable housing situations. In 2023, The City's Office of Affordable Housing in collaboration with the Youth and Family Services Division released RFP # 24081 in which Interfaith was chosen as the new fiscal sponsor.

Contracted funds will be used to pay for a leadership position, several case managers, and materials costs related to operating the facility. Support services are onsite to ensure that residents are stabilized through access to health care services, mental health counseling, food, and communal spaces. On March 27th, Consuelo's Place has requested an extension of their Fiscal Sponsorship and additional funding under Contract 3250019.

Consuelo's Place provides non-congregate shelter for vulnerable individuals and families who are transitioning into permanent housing or whose unique circumstances make it difficult to succeed in a congregate setting; and provides life-stabilizing services for those individuals.

March 9, 2026

Kristen Woods

Program Manager, Youth and Family Services Division

Community Health and Safety Department

City of Santa Fe
Santa Fe, NM 87501

Dear Ms. Woods:

The Consuelo's Place Board of Directors voted unanimously to begin the process of securing 501(c)(3) status for the organization. The Board is committed to building on Consuelo's progress and momentum to become a stand-alone nonprofit organization. While we are excited to become an independent entity, we also want the transition to be well-planned, stable, and purposeful so that services to vulnerable community members are not disrupted. On August 13th, 2025, we received our award letter from the IRS and our EIN (85-2153577), granting us our official 501(c)(3) status.

In light of this transition, we respectfully request that Interfaith Community Shelter's Professional Services Agreement with the City of Santa Fe (Munis Contract #3250019), which supports operations at Consuelo's Place, be renewed for FY 2026–2027. We further request that the Agreement include a provision allowing it to be amended during FY 2026–2027 to Consuelo's Place so it has the legal and fiscal capacity to act as the operator of the non-congregate shelter at 1600 St. Michael's Dr. Building 7.

Additionally, we request that the City of Santa Fe continue the existing facility use and location agreement for Consuelo's Place at 1600 St. Michael's Drive, Building 7, under the current conditions by which the City serves as landlord. Maintaining the existing site arrangement during this transition period will ensure continuity of services for clients and operational stability for staff while the organization completes its transition to independent nonprofit status.

Consuelo's Place remains deeply committed to serving Santa Fe's most vulnerable residents, including individuals with disabilities, seniors, and families experiencing homelessness who require non-congregate shelter and supportive services. We greatly appreciate the City of Santa Fe's continued partnership and support during this important stage of our organizational development.

CONSUELO'S PLACE
Emergency Homeless Shelter

We welcome the opportunity to discuss this request further and provide any necessary documentation to facilitate the renewal and any future amendment of the agreement.

Consuelo's Place is exempt from federal income tax under Internal Revenue Code (IRC) Section 50l (c)(3) recognition. Our EIN # is 85-2153577 and we are exempt from paying GRT.

Thank you for your consideration, and we look forward to your response.

Sincerely,

Michele Williams

a. You;

b. Your "executive officers," directors, "employees," and

c. Any other insureds in any order that we choose.

ITEM AND ISSUE:

Request for Approval of Amendment No. 1 to Professional Services Contract 24-0490 With Fiscal Sponsorship of Consuelo's Place in the Total Amount of $1,530,000 and Extend the Term Through June 30 2026 to Provide Case Management and Property Management Services . (Kristen Woods, Youth and Family Services Program Manager; krwoods@santafenm.gov)

CONTRACT NUMBER:

The FY26 Munis contract number is 3250019.

BACKGROUND AND SUMMARY:

In 2020, the City deployed dormitory rooms located on City property at the former Santa Fe University of Art and Design campus, as temporary non-congregate shelter for people experiencing homelessness. Since then, the shelter has housed 50 – 100 residents per night, with stays lasting from a few days to several weeks. Over 40% of guests have exited into long-term stable housing situations. In 2023, The City's Office of Affordable Housing in collaboration with the Youth and Family Services Division released RFP # 24081 in which Interfaith was chosen as the new fiscal sponsor.

Contracted funds will be used to pay for a leadership position, several case managers, and materials costs related to operating the facility. Support services are onsite to ensure that residents are stabilized through access to health care services, mental health counseling, food, and communal spaces. On March 27th, Consuelo's Place has requested an extension of their Fiscal Sponsorship and additional funding under Contract 33250019.

Consuelo's Place provides non-congregate shelter for vulnerable individuals and families who are transitioning into permanent housing or whose unique circumstances make it difficult to succeed in a congregate setting; and provides life-stabilizing services for those individuals.

May 2, 2025

Henri Hammond-Paul
Kristen Woods
Office of Community Health and Safety
City of Santa Fe
Santa Fe, NM 87501

Dear Mr. Hammond-Paul and Ms. Woods:

The Consuelo's Place Board of Directors voted unanimously to begin the process of securing 501(c)3 status for the organization. The Board is committed to building on Consuelo's progress and momentum to become a stand-alone organization. While we are excited to become an independent organization, we also want the transition to be well-planned and purposeful.

The Board is finalizing our Form 1023 to the Internal Revenue Service with the intention to file by March 31, 2025. The timeline of our transition is being developed and will, to some extent, be contingent on the timeliness of the IRS's approval of our Form 1023 and additional logistics. In light of this transition, we formally request that Interfaith Community Shelter's Professional Services' Agreement with the City of Santa Fe, Munis contract #3250019, to support Consuelo's Place, be renewed for FY 2025-2026 with the caveat that the Agreement can be amended at some point during FY 2025-2026 when Consuelo's Place has the legal and fiscal ability to act independently. Additionally, we have projected finances for services for FY 2025-2026 to increase by an estimated $50,000. If it is desirable for Consuelo's Place to contribute to any "Code Blue" servicing, we ask for added funds of $15,000 be included in this contract. In summary, a total of $815,000 is requested for amendment to adequately provide all services currently offered by Consuelo's Place.

Consuelo's Place remains committed to serving our community's most vulnerable populations, and we greatly appreciate the City of Santa Fe's continued partnership and support. We welcome the opportunity to discuss this request further and provide any necessary documentation to facilitate the

amendment process.

Thank you for considering our request, and we look forward to your response.

Sincerely,

Michele Williams

SUBJECT: Retro-Active approval for Consuelo's Place Contract Amendment #1

ITEM & ISSUE:
Request for Approval of a Retro-Active amendment (Per Page 31 of the Purchasing Manual) for Fiscal Sponsorship of Consuelo's Place Amendment #1 to Professional Services Agreement Item #24-490 which expired on June 30th, 2025.

XX. Retroactive Approval for a Contract or Contract Amendment
The Procurement Code requires that all non-exempt procurement by the City shall be achieved by competitive sealed bids or competitive sealed proposals except for small purchases, sole source procurements, emergency procurements, and existing contracts. Failure of retroactive approval for contracts and contract amendments that fulfill all of the requirements of this manual and the Procurement Code, the City will approve the date requested in writing by the Requesting Department on the memo accompanying the request as long as the requested approval date is within thirty (30) days of the expiration of the contract.
For retroactive approval of contracts and contract amendments apart from the approval given pursuant to the provisions of this manual, the City may grant additional retroactive approval to a contract or contract amendment, based upon exceptional circumstances, where all the following conditions are met:
Page 32 of 37
A. the services performed without the City's prior approval of the contract did not occur as the result of repeated mistakes or willful misconduct of the Requesting Department;
B. the failure to obtain the City's retroactive approval will prevent the Requesting Department from fulfilling its obligations;
C. the Requesting Department provides to the City Manager a written, factual, explanation of the matters described in Paragraphs (1) and (2) signed by the department director;
D. the Requesting Department requested, through a public officer or employee with authority to make such a request, the contractor to perform services that were then actually performed by the contractor in good faith reliance that it would be paid for those services;

The Procurement Code, NMSA 1978 §13-1-182, as amended, governs situations in which the City has denied a request for retroactive approval of a contract or contract amendment due to the department's failure to meet the requirements of this rule.

Request for Approval of a Professional Services Contract with Interfaith Community Shelter LLC for Fiscal Sponsorship and Oversight of Operations of Consuelo's Place Emergency Non-congregate Shelter in the Total Amount Not to Exceed $750,000 including NMGRT through June 30, 2025 (Kristen Woods, Youth and Family Services Program Manager krwoods@santafenm.gov)

BACKGROUND AND SUMMARY

In 2020, the City deployed dormitory rooms located on City property at the former Santa Fe University of Art and Design campus, as temporary non-congregate shelter for people experiencing homelessness. A primary goal was to mitigate the potential for a COVID outbreak among unhoused people by reducing the population density at local shelters and coordinating testing and isolation for those people who would otherwise be on the streets. Another objective was to relieve hospitals by creating a place where vulnerable patients and/or those with positive COVID tests could be discharged, as well as sheltering people leaving detox/recovery programs or detention centers. Since then, the shelter has housed 50 – 100 residents per night, with stays lasting from a few days to several weeks. Over 40% of guests have exited into long-term stable housing situations. The New Mexico Coalition to End Homelessness (NMCEH) took on the role of fiscal sponsor for the shelter, hiring staff, securing insurance, security and maintenance contracts, managing the invoicing process and applying for additional operational funding.

In late 2023 NMCEH reached out to the City of Santa Fe's Office of Affordable Housing and formally requested to no longer be the fiscal sponsor of Consuelo's Place due to their capacity to oversee operations. The City's Office of Affordable Housing in collaboration with the Youth and Family Services Division released RFP # 24081 in which Interfaith was chosen as the new fiscal sponsor. NMCEH requests a release of obligation to Consuelo's Place by the end of July 2024.

Contracted funds will be used to pay for a leadership position, several case managers, and materials costs related to operating the facility. Support services are onsite to ensure that residents are stabilized through access to health care services, mental health counseling, food, and communal spaces.

The City's Youth and Family Services Division in partnership with the S3 funders collaborative will work with Interfaith to ensure a smooth transition plan for the residents and staff of Consuelo's Place.

Subject: RFP for Consuelo's operations

Hi Travis and Kathy,

We are planning to issue an RFP for an operator for Consuelo's Place Shelter (the emergency non-congregate shelter at Midtown) – contract period starting 7/1/2024. NM Coalition to End Homelessness is the current fiscal agent for the shelter and do not want to continue in this role past 6/30/24. Below is a draft scope of work. It will likely be changed a bit, but not substantively. The budget for the yearly operations of the shelter is roughly $900k. Is an RFP the correct route to go for this? Would you be able to meet sometime in the next week or two to discuss?

The Contractor shall perform the work as follows:

A. Provide 24/7 staffing for "Consuelo's Place Shelter" to be operated at its current location documented as follows:

a. The staff on the payroll must be directly involved in the daily operation, provision of direct services, or administration of the Shelter;

b. Time sheets are required and the number of hours in the payroll must match the time sheets.

c. Contractor will provide to the City a staffing plan and time commitments (by percentage of an FTE) to be allocated to the operations and administration of the Shelter, if applicable.

B. Ensure that services are provided on-site, including emergency shelter stays, case management, formal and informal skill building for clients, quarantine services, housing navigation, and security services.

C. Prioritize individuals who meet federal definitions of homelessness or other standards of housing instability.

D. Participate in the NM Coordinated Entry System (CES), managed by the NM Coalition to End Homelessness (NMCEH), as follows:

a. Ensure that all staff is trained in completing an assessment (VI-SPDAT) identified by the New Mexico Coalition to End Homelessness (NMCEH) CES.

b. Complete the Assessment with all persons experiencing homelessness who present to the agency for housing services and provide the completed assessments to NM CES by either sending them to NMCEH or entering them into HMIS (depending on Contractor's level of HMIS and CES Access).

c. Select from the NM CES prioritized list to fill openings when appropriate.

d. Participate in Case Conferencing and focus on action-oriented housing outcomes.

E. Become familiar with the Built for Zero methodology and contribute to the by-name list by submitting at minimum a monthly report of unduplicated and deidentified individuals experiencing literal homelessness to the Built for Zero Data Manager, located at the NMCEH and commit to quality improvement practices.

F. Work with each guest to determine long term housing needs and assist them with a housing plan, including searching for housing options, applying for and securing subsidy when appropriate.

G. Work with City staff to develop a relocation plan for the closure of the current location (estimated for June 30, 2025) and potential relocation at a new location, including a phased intake process as needed.

H. Report to the City on a quarterly basis the use of funds, program outcomes achieved, specifying eligibility of people served, and the percentage of guests who achieve long-term and affordable housing

Thank you!

No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

29. Authority

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter a binding contract.

The City reserves the right to cancel all, or any part of any orders placed under this Agreement without cost to the City, if the Contractor fails to meet the provisions of this Agreement and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. RE: Updating Resolution No. 2025-38 to Prioritize Seniors, in Addition to Families at the Micro Community at 2396 Richards Avenue

---

EXECUTIVE SUMMARY:

Resolution No. 2025-38 originally prioritized families with children and youth at the Micro Community located at 2396 Richards Avenue. The proposed resolution would update Resolution No. 2025-38 to include seniors experiencing homelessness in its scope.

BACKGROUND:

On June 11th, 2025, the Governing Body adopted Resolution No. 2025-38, which identified City of Santa Fe's property at 2395 Richards Avenue as a location for a Micro Community. This Micro Community would specifically provide shelter and supportive services for families with children and youth experiencing homelessness. The property at 2395 Richards Avenue is suited for such a Micro Community because it can house up to fifty (50) units, is not abutting any schools, daycares or playgrounds, is accessible to Emergency Medical Service vehicles and trash pickup, and is approximately a third of a mile from the main road, while still being located close to two City bus routes (numbers Four and Six).

RE: Establishing a Permanent Mental Heath and Wellness Program

---

EXECUTIVE SUMMARY:

The proposed resolution would remove the "pilot" status from the Wellness Leave Pilot Program, establishing that the City of Santa Fe's ("City") Personnel Rules 13.91 and 13.92 would become permanent policy and be incorporated into the City's Personnel Rules and Regulations. Rule 13.91 provides one (1) wellness day per calendar year for classified, full-time and part-time, exempt, and term employees; and Personnel Rule 13.92, provides up to two (2) hours per week of physical and mental fitness leave for full-time, exempt, and term employees.

BACKGROUND:

The Wellness Leave Pilot Program was approved as a two (2) year pilot program by the Governing Body in 2023 through Resolution No. 2023-17. The program, which is set to expire June 30th, was then extended in 2025 through Resolution No. 2025-40 in order to collect data and feedback from City employees to determine the impact of the pilot program.

Legislation/2026/Resolutions/Updating the Terms of the Physical and Mental Wellness Leave Program

Exhibit A

RULE 13 LEAVE

Rule 13.91 Wellness Day Leave

Classified full-time and part-time, exempt, and term employees shall be eligible each calendar year for one (1) wellness day. Employees are eligible to request Wellness Day Leave after successful completion of the employee probationary period. This category of leave is designed to be used for mental health and wellness. Such leave should be requested in advance, to the extent possible. Every effort will be made to accommodate an employee's request. Wellness Day Leave should be granted unless granting the requested leave would impair the effective and efficient operation of the department.

1. The Wellness Day Leave must be taken in eight (8) consecutive-hour increments or in increments representative of the employee's regular work schedule. For example, a part-time employee would be eligible for 4 hours of wellness leave, an employee who works a 10-hour schedule would be eligible for 10 hours of wellness leave, a firefighter that works a 24-hour schedule would be eligible for 24 hours of wellness leave each calendar year.

2. The Wellness Day Leave must be taken within the current calendar year, or it will be forfeited.

3. Upon separation of employment, employees will not be compensated for the unused Wellness Day leave.

4. The Wellness Day Leave will not be counted toward the earning of Fair Labor Standards Act (FLSA) Overtime or Compensatory Time.

5. Employees and supervisors are required to utilize standard timekeeping processes to document and track Physical and Mental Fitness Leave.

6. Wellness leave may be forfeited in accordance with Training Policy 2026-0001. City employees, including classified, term, exempt, at-will, full-time, and part-time employees, who fail to complete all required trainings within a calendar year may lose wellness leave accrued for the following calendar year.

Rule 13.92 Two-Hour Weekly Wellness Program: Physical and Mental Fitness Leave.

Classified full-time, exempt, and term employees may be eligible for two (2) hours per week of Physical and Mental Fitness Leave for physical and mental fitness activities. Employees are eligible for this leave after successful completion of the probationary period and required approvals. This is a category of leave designed to promote fitness and wellness.

1. The Physical and Mental Fitness Leave will not be counted toward the earning of the Fair Labor Standards Act (FLSA) Overtime or Compensatory Time.

2. Employees may request a modified work schedule by utilizing the standard request process for flexible-work arrangements, which may permit the employee to take up to two (2) hours per week of Physical and Mental Fitness Leave for physical and mental wellness purposes.

3. Physical and mental fitness activities are activities that promote physical and/or mental well-being including physical exercise (for example, bicycling, walking, jogging, yoga, weight training, swimming, tennis, volleyball, softball and racquetball), health risk appraisals, wellness screenings, fitness testing, mindfulness and meditation exercises, healthy eating classes, nutrition consultation, health behavior change coaching, and smoking cessation classes.

4. An eligible employee must request and be approved to participate in the Physical and Mental Fitness Leave through the standard flexible work arrangement process. Granting the employee request is subject to the needs of the City. If the request is approved, it may be withdrawn by the City at any time if allowing the employee to continue would not be in the best interest of the City or have a negative impact on the operations of the City. The denial or rescinding of Physical and Mental Fitness Leave is not subject to grievance procedures or appeal processes.

5. Time needed for travel, taking showers, changing clothes and/or eating lunch must be considered and should be included in the modified work schedule.

6. Employees may be required to forgo a scheduled period of Physical and Mental Fitness Leave due to mandatory meetings, trainings, or other work-related obligations that cannot be rescheduled. However, missed Physical and Mental Fitness Leave is forfeited and may not be made up at a different time during the week it was missed.

7. Employees who are absent from work on a scheduled period of Physical and Mental Fitness Leave shall forfeit the leave for that day and it may not be made up at a different time.

8. Physical and Mental Fitness Leave may not be used in conjunction with other leave types (e.g., sick leave, annual leave, compensatory time, educational leave, administrative leave) in a manner that results in excessive stacking of leave, as determined by the Department.

9. While considering and reviewing requests for participation in Physical and Mental Fitness Leave, supervisors should maintain adequate coverage to meet the business needs of the City, should not unfairly shift workloads to other staff members, and should not incur additional associated costs to the City.

10. Participants in this program are responsible for notifying their supervisor should they cease to engage on a regular basis, in the Physical and Mental Fitness Leave on the days specified on their request.

11. As a condition of participating in the Physical and Mental Fitness Leave, employees irrevocably agree to indemnify and hold the City of Santa Fe harmless from any and all liability and waive any claims, including but not limited to workers' compensation, for any and all injuries caused by or aggravated by activities completed during any Physical and Mental Fitness Leave.

13. Employees and supervisors are required to utilize standard timekeeping processes to document and track Physical and Mental Fitness Leave.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then the Wellness Leave Pilot Program will expire June 30, 2026, and will not be made a permanent program. City employees would no longer have Wellness Day Leave and Physical and Mental Fitness Leave.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Resolution No. 2023-17 established the initial pilot program, and Resolution No. 2025-40 extended the pilot program through June 30, 2026.

Performance and Administrative Implications:
If the program contributes to hiring and retention and/or employee performance, then the program would improve city performance.

Fiscal Implications:

If every employee took Wellness Day Leave, the equivalent cost would be approximately $342,284. In addition, there is a possibility that overtime costs could be incurred as a result of the leave if a position requires an employee to work a shift in the absence of an employee who is on the leave, however that amount is unknow. It is unknown because an employee who is called in to work may or may not be eligible for overtime pay pursuant to City rules and the Fair Labor Standard Act. Additionally, most positions in the City do not require calling in another employee for overtime in the absence of the originally scheduled employee. If every employee utilized two hours per week of Physical and Mental Fitness Leave, the equivalent cost of the lost hours would be approximately $4,449,668. Lastly, if the past is predictive of the future, not all employees will utilize that benefits provided in Personnel Rule 13.

Subject: Homewise Community Energy Efficiency Development (CEED) Contract

Vendor Name: Homewise, Inc.

Munis Vendor Number: 2481

ITEM AND ISSUE:

The Conservation & Sustainability Division in Public Utilities respectfully requests your review and approval of professional services established using Santa Fe County's contract with Homewise and a Budget Adjustment Resolution (BAR) in the total amount of $1,254,170.00 to administer their Community Energy Efficiency Development (CEED) grant. The City of Santa Fe's contract with Homewise will not exceed $1,254,170 inclusive of NM GRT for administering the CEED program for a term duration of 05/26 to 12/27. Contract amount thresholds for both the Santa Fe County and the City of Santa Fe were established based on the amounts awarded by the New Mexico Energy, Minerals and Natural Resources Department's Energy Conservation and Management Division (ECAM) CEED grant.

CONTRACT NUMBER:

The FY25-26 Munis contract number is 3260406.

BACKGROUND AND SUMMARY:

The Community Energy Efficiency Development (CEED) grant, funded through the New Mexico Energy, Minerals and Natural Resources Department's Energy Conservation and Management Division (ECAM), enables the City of Santa Fe's Conservation & Sustainability Division to deliver comprehensive energy efficiency and electrification upgrades to income-qualified households in Census Tracts 12.02, 12.03, and 12.05 by reducing energy burden, improving housing quality, and advancing the City's carbon neutrality goals. The City has selected Homewise to administer the grant due to its proven track record as a trusted, community-based organization with extensive experience in home repair, energy efficiency, and affordable housing services. Through its Energywise program, Homewise brings established contractor networks, program delivery infrastructure, and demonstrated success managing similar funding, including large-scale home improvement and energy initiatives for low-income residents. This partnership allows the City to efficiently implement CEED by leveraging Homewise's expertise and capacity, while also integrating additional resources such as community solar and state and federal rebate programs to maximize impact for participating households. The grant is fully funded by the State of New Mexico and requires no City matching funds.

A. Additional Insured - Owners, Lessees, or Contractors - Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II** - Who Is An Insured is amended to include as an additional insured any person or organization for whom you are performing operations when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy and any other person or organization you are required to add as an additional insured under the contract or agreement. Such person or organization is an additional insured only with respect to liability for "bodily injury," "property damage" or "personal and advertising injury" caused, in whole or in part, by:
   a. Your acts or omissions; or
   b. The acts or omissions of those acting on your behalf;

   in the performance of your ongoing operations for the additional insured.

   Except as provided for in the exception to **2.b.** below, a person's or organization's status as an additional insured under this endorsement ends when your operations for that additional insured are completed.

   However, the insurance afforded to such additional insured described above:
   a. only applies to the extent permitted by law; and
   b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

2. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

   This insurance does not apply to:

   a. "Bodily injury," "property damage" or "personal and advertising injury" arising out of the rendering of, or the failure to render, any professional architectural, engineering or surveying services, including:

1) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

2) Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of, or failure to render, any professional architectural, engineering or surveying services.

b. "Bodily injury" or "property damage" occurring after:

1) All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or

2) That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

However, exclusion **b.** does not apply when in conflict with the requirements of a written contract or agreement.

3. The most we will pay on behalf of the additional insured is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

B. Additional Insured - Managers or Lessors of Premises - Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II** - Who Is An Insured is amended to include as an insured any person or organization when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy, but only with respect to liability arising out of the ownership, maintenance or use of that part of the premises leased to you and subject to the following additional exclusions:

This insurance does not apply to:

a. Any "occurrence" which takes place after you cease to be a tenant in that premises.

b. Structural alterations, new construction or demolition operations performed by or on behalf of the additional insured.

However, the insurance afforded to such additional insured described above:

a. only applies to the extent permitted by law; and

b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

2. The most we will pay on behalf of the additional insured is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

C. Additional Insured – Lessor of Leased Equipment – Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II** – Who Is An Insured is amended to include as an additional insured any person or organization from whom you lease equipment when you and such a person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy. Such person or organization is an insured only with respect to liability for "bodily injury," "property damage" or "personal and advertising injury" caused, in whole or in part, by your maintenance, operation or use of equipment leased to you by such person or organization.

However, the insurance afforded to such additional insured described above:

a. only applies to the extent permitted by law; and

b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

A person's or organization's status as an additional insured under this endorsement ends when their contract or agreement with you for such leased equipment ends.

2. With respect to the insurance afforded to these additional insureds, this insurance does not apply to any "occurrence" which takes place after the equipment lease expires.
3. The most we will pay on behalf of the additional insured is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

D. Additional Insured - Vendors - Automatic Status (not applicable to Employee Benefits Liability Coverage)

1. Section **II** - Who Is An Insured is amended to include as an insured any person or organization (referred to below as vendor) when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy, but only with respect to "bodily injury" or "property damage" arising out of "your products" shown in the Schedule, Declarations or Change Endorsement which are distributed or sold in the regular course of the vendor's business.

   However, the insurance afforded to such additional insured described above:

   a. only applies to the extent permitted by law; and
   b. will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

2. With respect to the insurance afforded to these vendors, the following additional exclusions apply:
   a. "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;
   b. An express warranty unauthorized by you;
   c. Any physical or chemical change in the product made intentionally by the vendor;
   d. Repackaging, except when unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;
   e. Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;
   f. Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product;
   g. Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or
   h. "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:
      1) The exceptions contained in Sub-paragraphs **d.** or **f.**; or
      2) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.
3. This insurance does not apply to any insured person or organization, from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.
4. The most we will pay on behalf of the vendor is the amount of insurance required by the contract or agreement you have entered into with the additional insured or the amount of insurance available under the applicable Limits of Insurance shown in the Declarations or Change Endorsement, whichever is less. These Limits of Insurance are inclusive and not in addition to the Limits of Insurance shown in the Declarations or Change Endorsement.

E. Aggregate Limits Of Insurance (not applicable to Employee Benefits Liability Coverage)

The General Aggregate Limit under SECTION III - LIMITS OF INSURANCE, Paragraph **2.** applies separately to each of your "location(s)" owned by or rented to you or "project(s)" away from "location(s)" owned by or rented to you.

"Location" and/or "project" means premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway or right-of-way of a railroad.

However, we will have no duty to defend the insured against any "suit" seeking damages to which this insurance does not apply. The Limits of Insurance of this endorsement apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations of the policy to which this endorsement is attached, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits Of Insurance.

4. Deductible

a. Our obligation to pay damages on behalf of the insured applies only to the amount of damages in excess of **$1,000.** The limits of insurance shall not be reduced by the amount of this deductible.

b. The deductible amount applies to all damages sustained by any one "employee," including such "employee's" dependents and beneficiaries, because of all acts, errors or omissions to which this insurance applies.

c. The terms of this insurance, including those with respect to:

1) Our right and duty to defend any "suits" seeking those damages; and

2) Your duties, and the duties of any other involved insured, in the event of an act, error or omission, "claim" or "suit" apply irrespective of the application of the deductible amount.

d. We may pay any part or all of the deductible amount to effect settlement of any "claim" or "suit" and, upon notification of the action taken, you shall promptly reimburse us for such part of the deductible amount as we have paid.

SECTION IV - CONDITIONS, Paragraphs **2.** and **4.** are replaced by the following for the Employee Benefits Liability Coverage:

2. Duties In The Event Of An Act, Error Or Omission, "Claim" Or "Suit"

a. You must see to it that we are notified as soon as practicable of an act, error or omission which may result in a "claim." To the extent possible, notice should include:

1) What the act, error or omission was and when it occurred; and

2) The names and addresses of anyone who may suffer damages as a result of the act, error or omission.

b. If a "claim" is made or "suit" is brought against any insured, you must:

1) Immediately record the specifics of the "claims" or "suit" and the date received; and

2) Notify us as soon as practicable.

You must see to it that we receive written notice of the "claim" or "suit" as soon as practicable.

c. You and any other involved insured must:

1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the "claim" or "suit";

2) Authorize us to obtain records and other information;

3) Cooperate with us in the investigation or settlement of the "claim" or defense against the "suit"; and

4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of an act, error or omission to which this insurance may also apply.

d. No insured will, except at the insured's own cost, voluntarily make a payment, assume any obligation or incur any expense without our consent.

4. Other Insurance

If other valid and collectible insurance is available to the insured for a loss we cover under this endorsement, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary except when **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in **c.** below.

b. Excess Insurance

Any other primary insurance available to you covering acts, errors or omissions for which you have been added as an additional insured.

When this insurance is excess, we will have no duty to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit." If no other insurer defends, we may undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

1) The total amount that all such other insurance would pay for the loss in absence of this insurance; and

2) The total of all deductible and self-insured amounts under all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown.

c. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.
If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limits of insurance of all insurers.

SECTION V - DEFINITIONS is amended by adding the following definitions for Employee Benefits Liability Coverage:

1. "Administration" means:

a. Providing information to "employees," including their dependents and beneficiaries, with respect to eligibility for or scope of "employee benefit programs";

But the Limit of Insurance shown in the Declaration will apply to all damage proximately caused by the same event. Whether such damage results from fire, sprinkler leakage or explosion or any combination of the three.

This Agreement is entered into this 16th day of October 2025, between **Santa Fe County**, a political subdivision of the state of New Mexico (the "County"), and **Homewise, Inc.**, 1301 Siler Rd., Bldg. D, Santa Fe, NM 87507 (the "Administrator").

Background

WHEREAS, pursuant to NMSA 1978, Section 13-1-112, competitive, sealed proposals were solicited by a formal RFPs by No. 2025-0055-CDD/TJ to procure these services; and

WHEREAS, the County requires a community-based organization to administer the Santa Fe County Home Rehabilitation Energy Efficiency (HREE) and Community Energy Efficiency Development (CEED) programs to provide home rehabilitation and energy efficient improvements for low to moderate income County residents; and

WHEREAS, based upon the evaluation criteria in the RFP for selecting the most qualified offeror, the County has determined the Administrator as the most responsive and highly rated offeror; and

WHEREAS, the County requires the services of the Administrator, and the Administrator is qualified and willing to provide the services and both parties wish to enter into this Agreement.

NOW, THEREFORE, the parties agree as follows:

1. ADMINISTRATOR'S SERVICES

Attached are Santa Fe Resolution No. 2024-062 and Santa Fe County Ordinance No. 2025-01 (see Attachments A and B) for the Administrator's reference in performing the services under this Agreement and administering the CEED and HREE programs. The Administrator's Services are as follows:

A. Household Eligibility and Application Assessment

1) Utilize the Neighborly Software for processing applications and document collection. Evaluate applicants for completeness using basic household demographic information, supporting income documentation, and self-reported household conditions.

2) Deny applications that do not meet program criteria, request additional information for incomplete applications, and notify the County of all program-eligible applicants. Program criteria include:
   i. Area Median Income (AMI) cannot exceed 100% for any projects projected to draw down project funds.

ii. Property must be owned by applicant.
iii. Property must be applicant's primary residence; Administrator will refer landlords seeking to make upgrades drawing on CEED and/or HREE capital.
iv. Property must be located within the project region.
v. Administrator will not proceed with work on any project unless the applicant's property tax bill is current.

B. Participant Ranking and Prioritization

1) Rank eligible households that have been preapproved and referred by the County using a Vulnerability Index to determine the order of project deployment. The prioritization of applicants will be determined by utilizing a vulnerability index/point scale. Below is the point scale being used:

Key:	Points:
AMI under 65%	1
Age 62 or over	1
Children in HH under 18	1
More than two children under 18	1
Disabled individuals	1
Health or safety issues that meet thresholds	1

Should there be multiple applicants who receive the same number of points, priority will be established by AMI where the lowest AMI household gets the highest priority.

C. Coordination of Home Assessments and Energy Audits

1) Conduct home assessments/energy audits (referred to as Energywise Roadmaps) for all eligible applicants, to be completed by either Administrator Energy Coach or a third-party inspector. Where feasible, Administrator will encourage the inclusion of energy auditor trainees or apprentices through the New Mexico Home Energy Audit Train (NM HEAT) program in home assessment activities. The Energywise Roadmap notes the condition of the home and lists the energy-efficiency improvements needed to provide a reduction in housing costs though long-term decreases in utility expenses. Prior to conducting the home assessment, Administrator may inquire and/or verify the eligible applicant's homeowner's insurance status and refer those applicants who do not meet the requirements back to the County.

D. Development of Household Level Scopes of Work

1) Work with the homeowner to develop a scope of work that includes both proposed energy efficiencies measures identified in the Energywise Roadmap and associated funding sources (HREE, CEED, rebates, tax credits, etc.). Administrator will work with the homeowner to prioritize interventions that address long term livability, mitigate substandard living condition, connect to utilities, allow for equitable access to current occupants based on disability status, and/or provide a reduction in housing costs through longer-term decreases in utility expenses.

2) Identify and integrate all applicable Home Energy Rebates (HER) and Home Electrification Appliance Rebates (HEAR), as to make client aware of potential state and federal tax credit opportunities, and blend CEED and HREE capital to address as much of the scope of work as possible.

3) Identify the source of capital for each proposed activity to adhere to all CEED and HREE program requirements including approved activities and intervention specific funding caps as documented within GSA 25-521-0300-0140 (see Attachment C: Energy Conservation Measure Improvements).

4) Where the Energywise Roadmap indicates the presence of residential hazards like mold, asbestos, lead-based paint or ground water contaminants Administrator will notify the County. The Administrator's Services under this Agreement do not include hazard mitigation.

E. Subcontractor Solicitations, Reviews and Approval of Bids

1) For all projects Administrator will develop a list of qualified contractors approved by the County, preferably from the Statewide Price Agreement No. 30-00000-23-00070 (Attachment D). The Administrator will provide the list to the homeowner, who will solicit bids directly; Administrator will provide assistance with this process if the homeowner prefers. The contractors will submit bids based on the scope of work to the Administrator and homeowner indicating specific measures and associated costs. The Administrator will review bids with the homeowner to refine bids to meet funding and energy constraints in selecting a contractor. Administrator will provide the County with copies of all bids received. Finalizing the approved bid will include signatures from the Administrator, contractor and homeowner.

1) During construction the Administrator will request and manage status updates from the contractors and notify the County of any issues or request change orders. Administrator will convey to the contractors the requirement in Section 10 below (Release), that any receipt of payment due to a contractor serves as a release of the County, its elected officials, officers, agents and employees from all liabilities, claims, and obligations arising from this Agreement.

2) Contractors will be required to maintain detailed project records and provide a quarterly report to the County, including without limitation the number of completed and in-process projects total CEED and HREE capital and demographics of households. Contractors will provide, as requested by the County, approved scopes of work and Energywise Roadmaps for specific households.

3) At completion, Administrator will conduct a final walkthrough, confirm all tasks outlined within the scope of work have been completed, and collect a certificate of completion signed by the client, contractor, and Administrator. Contractors will sign lien waivers upon receiving final payment. For CEED project following the completion of projection the Administrator will schedule and contract a second energy audit to validate project actions and efficiency improvements.

4) After Administrator has collected the Certificate of Completion, signed by both homeowner and contractor, Administrator will provide the certificate to the County. The County will issue payment directly to the contractor.

4. TERM

THIS CONTRACT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE CITY. This Contract shall terminate December 31, 2027 unless terminated pursuant to paragraph Termination and paragraph Appropriations. A contract for professional services may not exceed four years, including all extensions and renewals, except as otherwise provided by NMSA 1978, Sections 13-1-150 through 13-1-152 or SFCC 1987, Section 11-13.

5. TERMINATION

A. Grounds. The City may terminate this Contract for convenience or cause. For contracts within their authority, the City Manager or their designee is authorized to provide the notice of termination, otherwise such notice of termination shall be provided by the Mayor or their designee as authorized by the Governing Body. The Contractor may only terminate this Contract based upon the City's uncured, material breach of this Contract.

B. Notice; City Opportunity to Cure.

1. The City shall give Contractor written notice of termination at least thirty (30) days prior to the intended date of termination.

2. Contractor shall give City written notice of termination at least thirty (30) days prior to the intended date of termination, which notice shall (i) identify all the City's material breaches of this Contract upon which the termination is based and (ii) state what the City must do to cure such material breaches. Contractor's notice of termination shall only be effective (i) if the City does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the City does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

3. Notwithstanding the foregoing, this Contract may be terminated immediately upon written notice to the Contractor (i) if the Contractor becomes unable to perform the services contracted for, as determined by the City; (ii) if, during the term of this Contract, the Contractor is suspended or debarred by the City; or (iii) the Contract is terminated pursuant to Paragraph "Appropriations", of this Contract.

C. Liability. Except as otherwise expressly allowed or provided under this Contract, the City's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Contract. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. *THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE CITY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS* ***CONTRACT.***

6. APPROPRIATIONS

The terms of this Contract are contingent upon sufficient appropriations and authorization being made by the Governing Body for the performance of this Contract. If sufficient appropriations and authorization are not made by the Governing Body, this Contract shall terminate immediately upon written notice being given by the City to the Contractor. The City's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. If the City proposes an amendment to the Contract to unilaterally reduce funding, the Contractor shall have the option to terminate the Contract or to agree to the reduced funding, within thirty (30) days of receipt of the proposed amendment.

7. STATUS OF CONTRACTOR

The Contractor and its agents and employees are independent contractors performing professional services for the City and are not employees of the City. The Contractor and its agents and employees shall not accrue leave, retirement, insurance, bonding, use of City vehicles, or any other benefits afforded to employees of the City as a result of this Contract. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the City unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

8. ASSIGNMENT

The Contractor shall not assign or transfer any interest in this Contract or assign any claims for money due or to become due under this Contract without the prior written approval of the City.

9. SUBCONTRACTING

The Contractor shall not subcontract any portion of the services to be performed under this Contract without the prior written approval of the City. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Contract, nor shall any subcontract obligate direct payment from the City.

10. RELEASE

Final payment of the amounts due under this Contract shall operate as a release of the City, its officers and employees from all liabilities, claims and obligations whatsoever arising from or under this Contract.

11. CONFIDENTIALITY

Any confidential information provided to or developed by the Contractor in the performance of this Contract shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the City.

12. PRODUCT OF SERVICE - COPYRIGHT

All materials developed or acquired by the Contractor under this Contract shall become the property of the City and shall be delivered to the City no later than the termination date of this Contract. Nothing developed or produced, in whole or in part, by the Contractor under this Contract shall be the subject of an application for copyright or other claim of ownership by or on behalf of the Contractor.

13. CONFLICT OF INTEREST; GOVERNMENTAL CONDUCT ACT

A. The Contractor represents and warrants that it presently has no interest and, during the term of this Contract, shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance or services required under the Contract.

B. The Contractor further represents and warrants that it has complied with, and, during the term of this Contract, will continue to comply with, and that this Contract complies with all applicable provisions of the Governmental Conduct Act, NMSA 1978, Chapter 10, Article 16.

C. Contractor's representations and warranties in Paragraphs A and B of this Article are material representations of fact upon which the City relied when this Contract was entered into by the parties. Contractor shall provide immediate written notice to the City if, at any time during the term of this Contract, Contractor learns that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances. If it is later determined that Contractor's representations and warranties in Paragraphs A and B of this Article were erroneous on the effective date of this Contract or have become erroneous by reason of new or changed circumstances, in addition to other remedies available to the City and notwithstanding anything in the Contract to the contrary, the City may immediately terminate the Contract.

D. All terms defined in the Governmental Conduct Act have the same meaning in this section.

14. AMENDMENT

A. This Contract shall not be altered, changed, or amended except by instrument in writing executed by the parties hereto and all other required signatories.

B. If the City proposes an amendment to the Contract to unilaterally reduce funding due to budget or other considerations, the Contractor shall, within thirty (30) days of receipt of the proposed Amendment, have the option to terminate the Contract, pursuant to the termination provisions as set forth in "Term" herein, or to agree to the reduced funding.

15. ENTIRE AGREEMENT

This Contract, together with any other documents incorporated herein by reference and all related Exhibits and Schedules constitutes the sole and entire agreement of the Parties with respect to the subject matter of this Contract, and supersedes all prior and contemporaneous understandings, agreements, representations, and warranties, both written and oral, with respect to the subject matter. In the event of any inconsistency between the statements in the body of this Contract, and the related Exhibits and Schedules, the statements in the body of this Contract shall control.

16. PENALTIES FOR VIOLATION OF LAW

NMSA 1978, Sections 13-1-28 through 13-1-199, imposes civil and criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for illegal bribes, gratuities, and kickbacks.

17. MERGER

This Agreement incorporates all the Agreements, covenants and understandings between the parties hereto concerning the subject matter hereof, and all such covenants, agreements, and understandings have been merged into this written contract.

No prior Agreement or understanding, oral or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Contract.

18. EQUAL OPPORTUNITY COMPLIANCE

The Contractor agrees to abide by all federal and state laws and rules and regulations, and Santa Fe City Code, pertaining to equal employment opportunity. In accordance with all such laws of the State of New Mexico, the Contractor assures that no person in the United States shall, on the grounds of race, religion, color, national origin, ancestry, sex, age, physical or mental handicap, or serious medical condition, spousal affiliation, sexual orientation or gender identity, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed under this Contract. If Contractor is found not to be in compliance with these requirements during the life of this Contract, Contractor agrees to take appropriate steps to correct these deficiencies.

19. APPLICABLE LAW

The laws of the State of New Mexico shall govern this Contract, without giving effect to its choice of law provisions. Venue shall be proper only in a New Mexico court of competent jurisdiction in accordance with NMSA 1978, Section 38-3-2. By execution of this Contract, Contractor acknowledges and agrees to the jurisdiction of the courts of the State of New Mexico over any and all lawsuits arising under or out of any term of this Contract.

20. WORKERS' COMPENSATION

The Contractor agrees to comply with state laws and rules applicable to workers compensation benefits for its employees. If the Contractor fails to comply with the Workers Compensation Act and applicable rules when required to do so, this Contract may be terminated by the City.

21. PROFESSIONAL LIABILITY INSURANCE

Contractor shall maintain professional liability insurance throughout the term of this Contract providing a minimum coverage in the amount required under the New Mexico Tort Claims Act. The Contractor shall furnish the City with proof of insurance of Contractor's compliance with the provisions of this section as a condition prior to performing services under this Contract.

22. COMMERCIAL GENERAL LIABILITY

Insurance shall be written on an occurrence basis and be a broad as ISO Form CG 00 01 with limits not less than $2,000,000 per occurrence and $2,000,000 in the aggregate for claims against bodily injury, personal and advertising injury, and property damage. Said policy shall include broad form Contractual Liability coverage and be endorsed to name the City of Santa Fe their officials, officers, employees, and agents as additional insureds.

23. BROADER COVERAGE AND LIMITS

The insurance requirements under this Contract shall be the greater of (1) the minimum coverage and limits specified in this Contract, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the Named Insured. It is agreed that these insurance requirements shall not in any way act to reduce coverage that is broader or that includes higher limits than the minimums required herein. No representation is made that the minimum insurance requirements of this Contract are sufficient to cover the obligations of Contractor hereunder.

Contractor shall maintain the above insurance for the term of this Contract and name the City as an additional insured and provide for 30 days cancellation notice on any Certificate of Insurance form furnished by Contractor. Such certificate shall also specifically state the coverage provided under the policy is primary over any other valid and collectible insurance and provide a waiver of subrogation.

24. RECORDS AND FINANCIAL AUDIT

The Contractor shall maintain detailed time and expenditure records that indicate the date; time, nature and cost of services rendered during the Contract's term and effect and retain them for a period of three (3) years from the date of final payment under this Contract. The records shall be subject to inspection by the City. The City shall have the right to audit billings both before and after payment. Payment under this Contract shall not foreclose the right of the City to recover excessive or illegal payments.

25. INDEMNIFICATION

The Contractor shall defend, indemnify and hold harmless the City from all actions, proceeding, claims, demands, costs, damages, attorneys' fees and all other liabilities and expenses of any kind from any source which may arise out of the performance of this Contract, caused by the negligent act or failure to act of the Contractor, its officers, employees, servants, subcontractors or agents, or if caused by the actions of any client of the Contractor resulting in injury or damage to persons or property during the time when the Contractor or any officer, agent, employee, servant or subcontractor thereof has or is performing services pursuant to this Contract. If any action, suit or proceeding related to the services performed by the Contractor or any officer, agent, employee, servant or subcontractor under this Contract is brought against the Contractor, the Contractor shall, as soon as practicable but no later than two (2) days after it receives notice thereof, notify the legal counsel of the City.

26. NEW MEXICO TORT CLAIMS ACT

Any liability incurred by the City of Santa Fe in connection with this Contract is subject to the immunities and limitations of the New Mexico Tort Claims Act, NMSA 1978, Section 41-4-1, et. seq., as amended. The City and its "public employees" as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense and do not waive any limitation of liability pursuant to law. No provision in this Contract modifies or waives any provision of the New Mexico Tort Claims Act.

27. INVALID TERM OR CONDITION

If any term or condition of this Contract shall be held invalid or unenforceable, the remainder of this Contract shall not be affected and shall be valid and enforceable.

28. ENFORCEMENT OF CONTRACT

A party's failure to require strict performance of any provision of this Contract shall not waive or diminish that party's right thereafter to demand strict compliance with that or any other provision. No waiver by a party of any of its rights under this Contract shall be effective unless express and in writing, and no effective waiver by a party of any of its rights shall be effective to waive any other rights.

29. NOTICES

Any notice required to be given to either party by this Contract shall be in writing and shall be delivered in person, by courier service or by U.S. mail, either first class or certified, return receipt requested, postage prepaid, as follows:

30. AUTHORITY

If Contractor is other than a natural person, the individual(s) signing this Contract on behalf of Contractor represents and warrants that he or she has the power and authority to bind Contractor, and that no further action, resolution, or approval from Contractor is necessary to enter a binding contract.

31. NON-COLLUSION

In signing this Contract, the Contractor certifies the Contractor has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the City's Chief Procurement Officer.

32. DEFAULT/BREACH

In case of Default and/or Breach by the Contractor, for any reason whatsoever, the City may procure the goods or services from another source and hold the Contractor responsible for any resulting excess costs and/or damages, including but not limited to, direct damages, indirect damages, consequential damages, special damages, and the City may also seek all other remedies under the terms of this Contract and under law or equity.

33. EQUITABLE REMEDIES

The Contractor acknowledges that its failure to comply with any provision of this Contract will cause the City irrevocable harm and that a remedy at law for such a failure would be an inadequate remedy for the City, and the Contractor consents to the City's obtaining from a court of competent jurisdiction, specific performance, or injunction, or any other equitable relief in order to enforce such compliance. The City's rights to obtain

equitable relief pursuant to this Contract shall be in addition to, and not in lieu of, any other remedy that the City may have under applicable law, including, but not limited to, monetary damages.

34. DEFAULT AND FORCE MAJEURE

The City reserves the right to cancel all, or any part of any orders placed under this Contract without cost to the City, if the Contractor fails to meet the provisions of this Contract and, except as otherwise provided herein, to hold the Contractor liable for any excess cost occasioned by the City due to the Contractor's default. The Contractor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Contractor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the City shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery scheduled. The rights and remedies of the City provided in this Clause shall not be exclusive and are in addition to any other rights now being provided by law or under this Contract.

In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits Of Insurance.

4. Deductible

a. Our obligation to pay damages on behalf of the insured applies only to the amount of damages in excess of **$1,000.** The limits of insurance shall not be reduced by the amount of this deductible.

b. The deductible amount applies to all damages sustained by any one "employee," including such "employee's" dependents and beneficiaries, because of all acts, errors or omissions to which this insurance applies.

SECTION IV - CONDITIONS, Paragraphs **2.** and **4.** are replaced by the following for the Employee Benefits Liability Coverage:

2. Duties In The Event Of An Act, Error Or Omission, "Claim" Or "Suit"

a. You must see to it that we are notified as soon as practicable of an act, error or omission which may result in a "claim." To the extent possible, notice should include:

1) What the act, error or omission was and when it occurred; and

2) The names and addresses of anyone who may suffer damages as a result of the act, error or omission.

b. If a "claim" is made or "suit" is brought against any insured, you must:

1) Immediately record the specifics of the "claims" or "suit" and the date received; and

2) Notify us as soon as practicable.

You must see to it that we receive written notice of the "claim" or "suit" as soon as practicable.

c. You and any other involved insured must:

1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the "claim" or "suit";

2) Authorize us to obtain records and other information;

3) Cooperate with us in the investigation or settlement of the "claim" or defense against the "suit"; and

4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of an act, error or omission to which this insurance may also apply.

d. No insured will, except at the insured's own cost, voluntarily make a payment, assume any obligation or incur any expense without our consent.

4. Other Insurance

If other valid and collectible insurance is available to the insured for a loss we cover under this endorsement, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary except when **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in **c.** below.

b. Excess Insurance

Any other primary insurance available to you covering acts, errors or omissions for which you have been added as an additional insured.

When this insurance is excess, we will have no duty to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit." If no other insurer defends, we may undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

1) The total amount that all such other insurance would pay for the loss in absence of this insurance; and

2) The total of all deductible and self-insured amounts under all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown.

c. Method Of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.
If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limits of insurance of all insurers.

FROM: Kristen Woods, Youth and Family Services Program Manager

SUBJECT: Request for item be added to the June 10th Governing Body to the Action Items: Consent Agenda

ITEM AND ISSUE: Request For Approval of Professional Services Contract with Urban Alchemy for Operation of Emergency Shelter in the Total Amount of $1,343,993 for a term of six months for Homelessness Services. (Kristen Woods, Youth and Family Services Program Manager; Krwoods@santafenm.gov)

BACKGROUND AND SUMMARY:

RFP FY26-HSRFP-087 for Emergency Shelter operations was opened to the public to receive bids to operate the low-barrier, 24-hour shelter to serve adults experiencing homelessness on April 10. This contract is for day-to-day operations, maintaining a safe and respectful environment, and coordinating service delivery and housing navigation for shelter clients at the Shelter at 2801 Cerillos Rd. The Operator will:

- Provide 24/7 shelter
- Implement professional security measures, both inside and around the facility including but not limited to lighting, fencing, cameras, staff presence, trash pick-up etc.
- Stabilize the shelter while allowing the City to evaluate long-term options for site use

The Evaluation Committee has been working diligently to evaluate and select the best Operator. However, timing worked out such that the Contract needed to go straight to Governing Body in order to ensure continuity of care.

ACTION REQUESTED:

Requesting approval to add the contract to the Governing Body agenda to expedite the process to begin services as soon as possible to ensure operations do not cease and the communities indigent population without access to shelter services.

RE: Proposed study session dates

EXECUTIVE SUMMARY:

Some councilors have asked for study sessions and have proposed dates/options. Staff are seeking Governing Body discussion and direction from the body on this topic. The attached calendars represent two possible options for regular study session dates beginning in July. Specifically, the calendars propose two options. Note that a brief business meeting of the committee could still be held prior to adjourning for a study session, if there are items that must move through that committee on that date. Staff are also seeking direction on which topic(s) shall be slated for the next few sessions so that staff can prepare information, as needed.

1) Option one would alternate meeting dates between Quality of Life Committee and Public Works and Utilities Committee as follows:

   7/20/2026 – Public Works and Utilities
   8/05/2026 – Quality of Life Committee
   9/21/2026 – Public Works and Utilities Committee
   10/07/2026 – Quality of Life Committee
   11/02/2026 – Public Works and Utilities Committee
   12/02/2026 – Quality of Life Committee

2) Option two would alternate between meeting dates for all three Standing Committees—Quality of Life Committee, Public Works and Utilities Committee, and Finance Committee.

   7/01/2026 – Quality of Life Committee

8/03/2026 – Public Works and Utilities Committee
9/08/2026 – Finance Committee
10/07/2026 – Quality of Life Committee
11/02/2026 – Public Works and Utilities Committee
12/07/2026 – Finance Committee

The proposed calendars show study session dates in purple and the Standing Committee color also remains on those dates. The reason for this is because Standing Committee meetings may still be held on the same day as a study session, as long as the meeting agenda remains short. For example, on study session days, a Standing Committee could begin at 5:00 pm and the study session could begin at 5:30 pm. It is also possible that study sessions will not be necessary on all dates.

BACKGROUND:

Study sessions are included in the Governing Body's Procedural Rules—rule V(B)(4)—as a "workshop format" meeting and that does not include public comment or Governing Body action. These meetings may be convened by the City Manager "as needed for discussing issues of public concern". The rules go on to state that the meetings, where possible, will be scheduled at least two (2) weeks in advance. Because study sessions have been a tool the Governing Body has been interested in using to build consensus, gain understanding of issues, and to dialogue openly with colleagues about important issues, it makes sense to identify dates for potential study sessions in advance. Additionally, pre-identified dates provide staff and Governing Body members with a predictable way to prepare for and plan around these sessions.

RE: Allowing Fishing in the Santa Fe Municipal Watershed for Specific and Limited Events

---

EXECUTIVE SUMMARY:

The proposed bill would amend SFCC 1987, Section 25-1.9 to create a limited exception to the current prohibition on fishing within the Santa Fe municipal watershed. Fishing would remain generally prohibited except for specific and limited fishing events approved by the Governing Body. The proposed change would maintain existing watershed protections including prohibitions on trespassing, bathing, hiking, camping, hunting, picnicking, grazing of domestic livestock, and unauthorized shooting, while allowing specific and limited fishing events on city-owned property that are approved by the Governing Body at a Governing Body meeting.

BACKGROUND:

The City of Santa Fe's ("City") Children's Fishing Derby has traditionally been held on the first Saturday in June, which coincides with New Mexico Department of Game & Fish's "Free Fishing Day", providing a moratorium on fishing license requirements. In addition, the City's Administrative Procedures for Santa Fe River Target Flows, adopted by Resolution No. 2012-28, state in the section titled "Annual Fishing Derby", that "[i]n dry years when the anticipated watershed yield is less than 50%, or, if for other climatic or hydrologic reasons daily target flows adequate for the Fishing Derby cannot be met, the Fishing Derby will be suspended", (Article IV, Section 4.11.2(5)).

For several years the upper Santa Fe River watershed conditions have not been met, or the Santa Fe River daily target flows have not been adequate to consider the Fishing Derby. In 2026, NM Dept. of Game & Fish plans on a Free Fishing Day in September. This would be an opportune time to successfully hold the Children's Fishing Derby at Nichols Reservoir on city-owned property at a location to be determined. The Fishing Derby provides opportunities for children and families to join with neighbors to experience a fun and engaging day by the river, to learn about the Santa Fe River and riparian ecology, and to learn fishing skills.

Departments Affected:
Public Utilities

Consequences of Not Enacting Legislation:
If this legislation is not adopted, fishing activities within the Santa Fe watershed will remain prohibited without exception.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Resolution No. 2012-20 adopted the City's Administrative Procedures for Santa Fe River Target Flows, and Ordinance No. 2012-10 created Article 25-13 of SFCC 1887 regarding the Santa Fe River Target Flow for a Living River Initiative.

Performance and Administrative Implications:
For several years the upper Santa Fe River watershed conditions have not been met, or the Santa Fe River daily target flows have not been adequate to consider the Fishing Derby. In 2026, NM Dept. of Game & Fish plans on a Free Fishing Day in September. This would be an opportune

The Fishing Derby provides opportunities for children and families to join with neighbors to experience a fun and engaging day by the river, to learn about the Santa Fe River and riparian ecology, and to learn fishing skills. If the Governing Body approves the Children's Fishing Derby event at Nichols Reservoir, City staff would devote time and resources to planning for and holding the Children's Fishing Derby as described above.

Fiscal Implications:
None at this time.

RE: Adoption of the 2028-2032 Infrastructure Capital Improvements Plan

---

EXECUTIVE SUMMARY:

The proposed resolution describes the 2028-2032 Infrastructure Capital Improvement Plan ("ICIP") for the City of Santa Fe ("City"). District and City capital priorities will be identified in the subsequent Legislative Priorities Resolution for the 2027 New Mexico Legislative Session.

BACKGROUND:

The ICIP is a planning tool that establishes priorities for anticipated infrastructure projects for counties, municipalities, tribal governments, special districts, and senior citizen services. The Department of Finance and Administration ("DFA"), Local Government Division, administers the local government ICIP. Each year, the City submits a list of the City's anticipated capital projects to the DFA, requesting capital project funding from the State. This year the plan, along with the adopted resolution, is due to the DFA on July 1, 2026.

Summary:
The proposed resolution would adopt the City of Santa Fe's (City's) 2028-2032 Infrastructure Capital Improvements Plan ("ICIP").

Departments Affected:
Priority Capital projects affect all City departments and are included in the ICIP.

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the City will not be eligible for State Legislative Capital Outlay funding.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
This resolution relates to the "Legislative Priorities Resolution" that will establish the City's capital outlay and policy priorities for the 2027 New Mexico Legislative Session.

Performance and Administrative Implications:
City staff manages the request process, deploying projects funded by the ICIP and overseeing the grant reimbursement and reporting process.

Fiscal Implications:
The resolution does not have a direct fiscal impact, but the City's submission of its ICIP to the New Mexico Department of Finance and Administration for consideration by the New Mexico State Legislature for capital appropriations has potentially positive fiscal impactions for the City and could help the City address community needs. The City's previous ICIPs have resulted in millions of dollars of benefit to the City in past years. New Mexico House Bill 247, which passed on March 9, 2026, provides that capital outlay authorizations and appropriations from the State of New Mexico to municipalities in amounts of one hundred thousand dollars ($100,000) or more shall not be made for a project unless the project is included on an Infrastructure Capital Improvement Plan.

RE: Updating Fee in Lieu and Affordability Requirements for Santa Fe Homes Program

---

EXECUTIVE SUMMARY:

If adopted, the proposed bill would amend SFCC 1987, Section 26-1.22, which establishes the requirements for developing rental units under the Santa Fe Homes Program ("SFHP"). The bill makes non-substantive technical updates and clarifications to the calculation of fees paid in lieu of providing on-site affordable units. It also makes a substantive change to the fee-in-lieu calculation by proposing the use of thirty percent (30%) instead of sixty-five percent (65%) when determining the calculation's base fee amount.

A BILL

RELATING TO THE SANTA FE HOMES PROGRAM AND REQUIREMENTS FOR RENTAL UNITS; AMENDING SECTION 26-1.22 TO MAKE CERTAIN TECHNICAL CHANGES, TO CLARIFY THE CALCULATION OF FEES PAID IN LIEU OF PROVIDING ON-SITE AFFORDABLE UNITS, TO AMEND THE FEE-IN-LIEU CALCULATION TO USE THIRTY PERCENT OF THE AREA MEDIAN INCOME INSTEAD OF SIXTY-FIVE PERCENT WHEN DETERMINING BASE FEE AMOUNT.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. Section 26-1.22 of SFCC 1987 (being Ord. No. 2019-30, § 5) is amended to read:

26-1.22 - Requirements for SFHP rental units.

A. If a SFHP developer obtained a residential building permit for a multifamily residential development between January 1, 2016, and December 31, 2019, then the developer shall pay a fee associated with such development [~~shall be assessed~~] in accordance with SFHP administrative procedures. If applicable, the associated [~~an~~] annexation agreement, subdivision plat, or development plan shall be

administratively amended to reflect the updated requirement and the owner or developer, as applicable, shall record or file, as applicable, the amended document [~~shall be recorded or filed, as applicable, by the owner or development~~]. Incentives for SFHP developers as set forth in subsection 14-8.11 SFCC 1987 [~~will~~] are not be available for these projects, other than the density bonus pursuant to subsection 14-8.11(G)(1).

B. [~~Effective January 1, 2020, and thereafter,~~] A SFHP developer that obtains a building permit for a [~~multifamily~~] residential rental development after January 1, 2020, shall [~~comply with the SFHP ordinance by~~] either: pay[~~ing~~] a fee, create[~~ing~~]e [~~LPDUs~~] Low Priced Dwelling Units ("LPDUs"), or provide affordable on-site units as follows:

(1) *Fee in lieu.* [~~The~~] Except for small multifamily rental projects of twelve (12) or fewer units, and as described by Section 26-1.22(B)(1)(d), SFHP developers may pay [~~of~~] a fee in lieu of providing on-site affordable units, assessed according to a[~~n "affordability gap"~~] calculation that determines the base fee, which is the difference between [~~a~~] the FMR and the rent affordable to a renter earning thirty percent ([~~65~~] 30%) of the AMI.

(a) [~~The steps of the calculation of the base fee amount t~~] To calculate the fee in lieu [~~as more fully described in the administrative procedures, are as follows~~]:

(i) multiply the total number of units [~~broken out by number of bedrooms)~~] of each size, as defined by number of bedrooms, by fifteen percent (15%) to determine the number of affordable units that would have been required to be built if not for the developer paying the fee;

(ii) multiply the number of affordable units required in the previous step (including any decimal places) by the base fee associated with each type of unit [~~broken out by number of bedrooms)~~] (determined by number of bedrooms) to determine the monthly fee; and

(iii) multiply the monthly fee by twenty-four (24) months to determine the total project fee.

(b) HUD's FMR will be used to establish the [~~affordability gap(~~]"base fee amount"[~~)~~] relative to HUD's AMI data. [~~Developers shall pay phased fee increases according to when projects are permitted as follows:~~

~~(i) for units permitted on or before June 30, 2020, the base fee amount;~~

~~(iii) for units permitted between July 1, 2021, and June 30, 2022, the base fee, increased by forty percent (40%) fee increase;~~

~~(iv) for units permitted between July 1, 2022, and June 30, 2023, the base fee, increased by sixty percent (60%) increase;~~

~~(v) for units permitted between July 1, 2023, and June 30, 2024, the base fee, increased by eighty percent (80%) increase; and~~

~~(vi)~~][~~f~~]For units permitted on or after July 1, 2024, the base fee[~~,~~] shall be increased by one hundred percent (100%).

(c) A SFHP developer that creates a vacation time share project or short term rental units shall be subject to the fees set forth in this subparagraph 26-1.22(B)(1);

(d) A small multifamily rental project that consists of twelve (12) or fewer units shall pay the base fee amount, which shall be calculated as the difference between a FMR and the rent affordable to a renter earning thirty percent ([~~65~~] 30%) of the AMI, and shall not be subject to the phased fee increases set forth in subsection 26-1.22(B)(1)(b).

[~~(e) No later than July 1, 2022 staff shall initiate a review of the provisions of subsection 26-1.22(B)(1), as established by ordinance no. 2019-30, and shall present the findings to the governing body within six (6) months.~~]

(2) *One-hundred percent (100%) LPDUs.* A[~~n~~] SFHP developer may create a development that consists of one-hundred percent (100%) LPDUs that shall comply with the requirements set forth in subsection 26-2.3;

(3) *Fifteen percent (15%) affordable rental units.* A[~~n~~] SFHP developer may set aside [~~of~~] fifteen percent (15%) of on-site rental units for income certified renters as described in subsection 26-1.23(A); or

(4) *Combination.* A[~~n~~] SFHP developer may combine two (2) or more of the preceding three (3) options if such a combination provides an equivalent and beneficial impact toward meeting identified housing needs, subject to approval by the office of affordable housing. If a developer chooses to

provide a combination of the options, then the city shall provide the developer incentives set forth in subsection 14-8.11(G), as approved by the land use director.

C. The marketing, leasing, and occupancy of either an SFHP rental unit or an SFHP manufactured home lot that is rented shall conform to the criteria set forth in the administrative procedures. Rental rates shall comply with the rates set forth in subsection 26-1.24 SFCC 1987. SFHP rental units shall comply with the minimum size, unit type(s), and other structural requirements set forth in subsection 26-1.25 SFCC 1987. SFHP developers must obtain approval for the location of SFHP rental units. The units or manufactured home lots shall have compatible exterior architectural and landscaping appearance with other units in the development.

D. Units or manufactured home lots available for SFHP rentals shall be described in a SFHP proposal in sufficient detail so that such units or manufactured home lots can be identified after construction or creation and occupancy. SFHP tenants must meet eligibility requirements at the time they initially lease an SFHP unit.

Summary:
If adopted, the proposed bill would amend SFCC 1987, Section 26-1.22, which establishes the requirements for developing rental units under the Santa Fe Homes Program ("SFHP"). The bill makes non-substantive technical updates and clarifications to the calculation of fees paid in lieu of providing on-site affordable units. It also makes a substantive change to the fee-in-lieu calculation by proposing the use of thirty percent (30%) instead of sixty-five percent (65%) when determining the calculation's base fee amount.

Departments Affected:
Affordable Housing Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, SFCC 1987, Section 26-1.22, will not be updated to include clarifications and technical updates to the calculation of fees paid in lieu of providing on-site affordable units. There would also not be a decrease from sixty-five percent (65%) to thirty percent (30%) when determining the base fee amount in the fee-in-lieu calculation. This means that the amount collected for developing rental units under the Santa Fe Homes Program would remain status quo.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
Section 26-1.22, SFCC 1987, was last updated via Ordinance No. 2019-30.

Performance and Administrative Implications:
None at this time.

Fiscal Implications:
**Currently, the fee-in-lieu calculation uses a percentage of sixty-five percent (65%) to determine the "base fee" amount. The bill proposes to lower this amount to thirty percent (30%). The decrease in this

percentage would result in an increase in the amount the City of Santa Fe would collect from developers, should they opt to pay a fee in lieu of providing on-site affordable units. See the memo attachment "Example Calculations for SFHP" for sample fee-in-lieu calculations.

CITY OF SANTA FE

Memorandum

Date: April 23, 2026

To: Governing Body, Public Works and Utilities Committee, Quality of Life Committee, Finance Committee, Economic Development Advisory Committee, and Arts Commission

From: Carly Venditti, Metropolitan Redevelopment Agency, Deputy Director CAV

Via: Brian Moya, Interim City Manager BM

RE: A Bill Approving the City of Santa Fe Ground Lease and Development Agreement of certain City-owned property to the Midtown Arts and Design Alliance for a lease term of ten years that may be extended up to fifty years.

EXECUTIVE SUMMARY:
If adopted, the bill would approve the ground lease and development agreement of a city-owned building, the Midtown Visual Arts Center, with Midtown Arts and Design Alliance, LLC. NMSA 1978, Section 3-54-1 requires that the City of Santa Fe ("City") approve the lease of City-owned property with an Ordinance. This bill is created to comply with that statute.

BACKGROUND:
The City and Midtown Arts and Design Alliance (MADA) ("Developer") intends to enter into a Ground Lease and Development Agreement to facilitate the renovation and remodel of the city-owned Visual Arts Center and Barracks on the Midtown Site at 1600 St. Michael's Drive ("Property"). The Property described as the Visual Arts Center and Barracks, are located on parcels K-1a and P-1b, located in the northwest of the Midtown Site; containing approximately 3.37 acres.

As a subsidiary of the Santa Fe Arts Institute (SFAI), the Midtown Arts and Design Alliance has been on the Midtown Site since the close of the Santa Fe University of Art and Design and throughout the community engagement processes that culminated in the Midtown Master Plan (Resolution No. 2022-68) and Community Development Plan (Resolution No. 2023-5), known collectively as the Midtown Redevelopment Plans. The Midtown Redevelopment Plans expressed the will of the community to establish an arts hub including arts and cultural organizations, in addition to cultural organization, activities, and technology that could procure the necessary project team to finance, renovate, lease, and manage the Visual Arts Center and adjacent outdoor spaces.

CITY OF SANTA FE

Memorandum

The City of Santa Fe and the Office of Economic Development launched a Request for Proposals (RFP # 23/17/P) on December 1, 2022, with proposals due February 2, 2023. MADA was the sole respondent to RFP 23/17/P with a variety of stakeholders, non-profit organizations, and community partners included on the proposed project team. An Exclusive Negotiation Agreement (ENA 2023-0548) was solidified between the City of Santa Fe and Developer as of September 5, 2023, upon the recommendation of the Evaluation Committee. This Exclusive Negotiation Agreement was extended multiple times from December 31, 2024, to April 30, 2025, and finally June 30, 2025. The City of Santa Fe and Developer have been collaborating on this proposed Ground Lease and Development Agreement since August 2025.

GROUND LEASE AND DEVELOPMENT AGREEMENT

THIS GROUND LEASE AND DEVELOPMENT AGREEMENT (this "**Agreement**") is entered into by and between the **CITY OF SANTA FE**, a charter municipality organized under the laws of the State of New Mexico (the "**City**"), and **MIDTOWN ARTS AND DESIGN ALLIANCE LLC**, a New Mexico limited liability company ("**Developer**"), effective as of the Effective Date (defined below). The City and Developer are sometimes referred to herein individually as a "**Party**" and together as the "**Parties**."

RECITALS

A. The City owns the real property and improvements consisting of approximately 60 acres generally located within the block defined by Cerrillos Road, St. Michaels Drive, Llano Street, Siringo Road, and Camino Carlos Rey in the City of Santa Fe, County of Santa Fe, State of New Mexico, as generally depicted in the Midtown Site Plan attached as **Exhibit A** hereto (the "**Midtown Site**").

B. By Resolution No. 2022-68, approved on November 30, 2022, the governing body of the City (the "**Governing Body**") adopted the Midtown Master Plan (the "**Master Plan**"), which, together with the Midtown Community Development Plan adopted on January 25, 2023 by Resolution No. 2023-5 (the "**Community Development Plan**"), sets forth the City's vision for development of the Midtown Site and establishes certain form-based zoning standards and certain other standards and policies for the future redevelopment of the Midtown Site as a sustainable, pedestrian-friendly, mixed-use neighborhood that provides employment and housing opportunities, improved mobility options, and access to recreation, public spaces, and cultural venues.

C. On August 9, 2023, the Governing Body, by Ordinance No. 2023-21, revised the City of Santa Fe metropolitan redevelopment code (the "**City Redevelopment Code**"), under which the Governing Body updated its ordinance establishing a metropolitan redevelopment agency (the "**MRA**"), comprised of the commission of the MRA (the "**MRA Commission**"), the director of the MRA ("**MRA Director**"), and staff, as the official body for making advisory recommendations to the Governing Body, at such time as the Governing Body approves the redevelopment plan recommended by the MRA Commission, and for taking certain actions delegated to the MRA pursuant to the City Redevelopment Code and the authority provided pursuant to this Agreement.

D. On December 1, 2022, the City issued a Solicitation Request for Proposals: Redevelopment of the Midtown Visual Arts Center, #23/17/P (the "**RFP**"), to, among other things, develop and operate an arts hub that includes arts and cultural organizations and activities, technology and design businesses, within the portion of the Midtown Site depicted on **Exhibit A** (the "**Project Site**") with a goal of strengthening local arts and culture, integrated with technology and multimedia design, and stabilizing the richness of Santa Fe's historic communities (collectively, the "**Stated Objective**"), as more specifically set forth in the RFP.

E. On March 1, 2023, Santa Fe Art Institute, a New Mexico nonprofit corporation ("**SFAI**"), submitted a Technical Proposal, dated February 25, 2023 (the "**Response**"), for the development of the Project Site (the "**Proposed Project**"). The City established an Evaluation Committee to review and evaluate the Response. The MRA Director shall review Developer's written request and, within 20 Business Days after its receipt, notify Developer in writing either of the MRA Director's approval of the Modification Request or of any comments or conditions reasonably required by the MRA Director. Developer shall revise the Development Program and/or Development Timeline to incorporate the MRA Director's reasonable comments and return the same to the MRA Director, in such form as the MRA Director reasonably requires, for further review, following which the review, comment and revision procedure detailed above shall continue until the MRA Director has approved the Modification Request. For purposes of this Section 6.2.2, the term "**material modifications**" means any change that would result in (i) the reduction of the target lease goal identified in the Development Program for any Phase by more than 5%, or (ii) the extension of the timeline for Final Completion of any Phase by more than 30 days in the aggregate. Notwithstanding the foregoing, any changes that would result in the reduction of the target lease goal per Article 10.4 identified in the Development Program for any Phase by more than 10%, or the extension of the timeline for Final Completion of any Phase by more than 90 days in the aggregate, will require the approval of the City Manager.

6.3 Development Plans

.

6.3.1 At least 30 days before Developer submits its application to the applicable Governmental Authorities for development plan and/or building permit approval for a Phase or phases, Developer shall deliver to the MRA Director its Preliminary Development Plans for each such Phase. Developer may also submit the Preliminary Development Plan for all phases together. The Preliminary Development Plans shall be in a format customarily acceptable to the City of Santa Fe Planning and Land Use Department. The MRA Director shall review each set of Preliminary Development Plans for consistency with the Development Program and the Development Timeline, and shall, within 15 Business Days after its receipt, notify Developer in writing of its approval or disapproval thereof (respectively, as applicable, the "**Approval Notice**" or "**Disapproval Notice**"). Any Disapproval Notice shall identify each inconsistency with the Development Program or Development Timeline on which the disapproval is based. If the MRA Director delivers a Disapproval Notice, Developer shall revise the applicable Preliminary Development Plans accordingly and deliver the Preliminary Development Plans, as revised, to the MRA Director for further review, following which the Approval Notice or Disapproval Notice and revision procedure detailed above shall continue until the MRA Director has delivered an Approval Notice with respect to the applicable Preliminary Development Plans (the "**MRA-Approved Development Plans**").

6.3.2 For each Phase, Developer will submit and provide to the applicable Governmental Authorities the applicable MRA-Approved Development Plans and all necessary applications, plans, reports, and documents required by Chapter 14 of the City Code for Developer's receipt of the Approvals. Any revisions to the MRA-Approved Development Plans required for approvals by the applicable Governmental Authorities in connection with the design or construction of the improvements shall be incorporated into and made a part of the MRA-Approved Development Plans, without further approval of the MRA Director being required, and no further reviews or approvals by the MRA Director shall be required with respect to any Phase following Developer's receipt of the MRA Director's Approval Notice for such Phase. The final MRA-Approved Development Plans, as revised and approved by all applicable Governmental Authorities, may be referred to herein as the "**Final Development Plans**."

6.3.3 Developer may, subject to the MRA Director's prior written approval, submit component (i.e., separate) Preliminary Development Plans for each Building or parcel within a Phase, and not all components of the Phase must be completed or reviewed simultaneously, so long as submissions for all components of a Phase have been made at least 45 days prior to the 'Start' date specified in the Development Timeline for the 'Final Development Plan Approval' of such Phase.

6.4 Governmental Authorities

. Developer acknowledges that Chapter 14 of the City Code sets forth certain review and approval requirements applicable to the Improvements which are not within the jurisdiction or authority of the State of New Mexico Construction Industries Division (the "**State CID**") pursuant to the Construction Industries Licensing Act, Chapter 60, Article 13, NMSA 1978 and Chapter 5, Title 14, N.M. Admin Code, including but not limited to zoning compliance and compliance with City Code provisions applicable to grading, landscaping, lighting, pedestrian and vehicular circulation, parking,

infrastructure serving the site, and open space. Developer shall complete the City review and approval process for each of the foregoing matters. Prior to submission of any application to the State CID for building permits in connection with the construction of the Improvements, Developer shall obtain a letter from the City Planning and Land Use Department confirming that the Final Development Plans comply with said regulations, and Developer acknowledges that Developer is not entitled to commence construction of the Improvements until Developer has obtained such letter.

6.5 Construction Approvals; Construction of Improvements.

6.5.1 *Building Permit Submission Date*. Developer shall submit for building permits and all other Approvals for the Improvements for each Phase no later than 30 days after the approval of the MRA-Approved Development Plans by all applicable Governmental Authorities (with respect to each Phase, the "**Building Permit Submission Date**") or when the Developer obtains 100% of its financing for the phase to be developed, whichever is later.

6.5.2 *Commencement of Construction*. Developer shall Commence Construction for each Phase within 45 days after Developer achieves 100% financing for said Phase (or any component thereof), but Phase 1 construction must commence no later than 18 months after "Effective Date." Developer may, subject to the prior written approval of MRA Director, commence construction for components of a Phase at different times. The date on which Developer is obligated to commence construction with respect to the first building permit obtained for the applicable Phase is referred to herein as the "**Construction Commencement Date**." Developer shall notify City upon achieving 100% financing for each Phase.

6.5.3 *Completion of Construction*. Developer shall provide a critical path schedule showing construction milestones and completion date, prior to commencing construction. Developer shall provide quarterly updates on progress and completion according to the critical path schedule. Developer shall achieve substantial completion of the Improvements (as shall be evidenced by the issuance and receipt of applicable temporary or conditional certificates of occupancy therefor) for each Phase no later than 18 months after construction commencement of each Phase unless extended by a Force Majeure event or otherwise extended by agreement of the parties.

6.5.4 *Inspection Approvals*. Developer shall not be deemed to have achieved Final Completion of any Phase until such time as the City and State CID have inspected and approved the construction or installation of the Improvements applicable to such Phase for which the City or State CID, as applicable, approved the plans pursuant to Section 6.3. For the avoidance of doubt, the City's approval of plans shall not be required for the issuance by the State CID of a temporary or permanent certificate of occupancy but shall be required for Final Completion.

6.6 Defects in Plans

. Developer acknowledges and agrees that neither the City, the MRA nor or any department, governing body, commission, agency, official, officer, employee, agent, representative or volunteer of the City or the MRA (collectively, the "**City Parties**") has made any representation or warranty, through this Agreement or otherwise, concerning the condition of the Property or the sufficiency of the development plans for any purpose, and no such City Parties shall be responsible either to Developer or to third parties in any way for defects in any development plans approved by any of the City Parties, nor for any structural, environmental or other defects in any work performed pursuant thereto. Developer, on behalf of itself and its successors and assigns, hereby waives and releases any claims, encumbrances, liens, demands, suits, judgments, proceedings, damages, losses, liabilities, penalties, fines, costs and expenses (including reasonable attorneys' fees and court costs) of any kind or nature (collectively, "**Liabilities**") against the City Parties for any monetary damages or compensation as a result of defects in such plans, including the violation of any laws or regulations, and for defects in any work done according to the such plans. The provisions of this Section shall survive any expiration or termination of this Agreement.

6.7 Cooperation with the City

. Developer shall provide the MRA Director with copies of all applications and submissions for any Approvals sought by or obtained from any Governmental Authorities with respect to the Property, the Improvements, and the Project.

ARTICLE 8
DEVELOPER IMPROVEMENTS; PHASES OF DEVELOPMENT PROGRAM

8.1 Construction Standard

. All construction performed in connection with the Project shall be conducted in a good and workmanlike manner, and in compliance with the construction and completion requirements for each Phase of the Project, and in accordance with all Applicable Rules and Project Standards.

8.2 Site Restoration

8.2.1 *Removal of Partially Constructed Improvements.* If Developer Abandons construction of the Project, Developer must, within 60 days after receipt by Developer of written notice from the City, either recommence construction on the Project or: (a) remove any partially constructed or partially completed structures or Improvements from the applicable Phase unless otherwise agreed to in writing by the MRA Director; and (b) perform Site Restoration on that portion of the Phase on which Developer has failed to achieve substantial completion of the applicable structures or other Improvements or related to the expired building permit, all in accordance with plans approved by the City. For purposes of this Agreement, "**Site Restoration**" means and includes the restoring of the original ground or paved hard surface area in compliance with the Project Standards, and includes but is not limited to the removal or elimination of all debris; the remediation and restoration of any environmental conditions; the elimination of conditions that may create a fire or pollution hazard; the minimization of erosion; and any repair, cleanup, backfilling, compaction, and stabilization, paving and other work necessary to place the site in acceptable condition following the conclusion of the work, or the expiration or revocation of the permit.

8.2.2 *Removal and Restoration by City*. In the event Developer fails or refuses to remove any partially completed Project Improvements, or to perform Site Restoration, as required pursuant to Section 8.2.1, the City will have, and is hereby granted, the right, at its option, to: (i) demolish and/or remove any of the partially completed Improvements from any and all portions of the applicable Phase; (ii) perform Site Restoration; and/or (iii) cause the Improvements to be completed in accordance with the applicable final plans. . The City intends to develop and construct certain public right of way improvements, storm drainage facilities and related infrastructure within the Midtown Site (the "**Midtown ROW Improvements**"), including without limitation, within the areas generally depicted on **Exhibit J**. The Project and all other developments at Midtown Site are required to comply with the requirements of the Midtown Community Development Plan (the "**Community Development Plan Requirements**"), including without limitation, by implementing or causing to be implemented the Community Development Plan Requirements as a component of the Project (the "**Community Benefits**"). The Community Benefits have been organized to be consistent with the Midtown Community Development Plan organized into the following sections (i) Environment; (ii) Equity; (iii) Economy; and (iv) Culture.

10.2 Environmental and Energy Design Requirements

10.2.1 *LEED Requirements*. Developer shall, concurrently with Developer's submission of Preliminary Development Plans for each Phase, submit to the MRA Director a written affidavit that (a) sets forth Developer's estimate, based on Developer's initial modeling, of the total points the Improvements for such Phase will receive within each of the subcategories designated as 'Required in RFP' on the Project Checklist attached as Appendix A to the Community Development Plan, as such subcategories and point system are further described in the United States Green Building Council (USGBC) Leadership in Environmental and Energy Design: Neighborhood Development (LEED-ND) attached hereto as **Exhibit D** (the "**LEED Requirements**"), and (b) includes the certification of an independent architect or engineer registered or licensed in the State of New Mexico, that, to the best of such architect or engineer's knowledge or belief, after reasonable investigation, the Improvements for such Phase, if constructed and installed in accordance with the Preliminary Development Plans, will satisfy and comply with the applicable LEED Requirements.

10.2.2 *Solar Facility*. Developer shall incorporate water quality treatments meeting the

requirements of the Master Plan. The Preliminary Development Plans for each Phase shall include a technical memorandum with all supporting documentation, modeling results, and drainage calculations related to the feasibility analysis for complying with the rain and stormwater management requirements for all new impervious surfaces, which shall be addressed and submitted to the City as part of the development review process. Said technical memorandum will also include an analysis of feasibility to implement compliance measures, including prohibitive cost and/or lack of sufficient site area. City shall not withhold project approvals unreasonably based on this analysis. "**Qualifying Sublease**" means any agreement between Developer, as sublessor, and any Person that satisfies the Tenant/Use Requirements, as sublessee, granting such Person the right to possession of a portion of the rentable space within any Building at the Property, containing the following additional terms:

(a) The tenant shall occupy the portion of rentable space for which possession is granted (the "**Subleased Premises**") on a continuous basis during the term of the agreement and, to the extent such tenant comprises a retail, educational or other use available to the public, shall keep the Subleased Premises open on a regular basis at such times as are customary for similar uses, as may be determined and specified by Developer in its reasonable discretion.

.

11.1.1 *During Construction*. Developer shall keep the Property, including curbs, gutters, sidewalks comprising the Property or adjacent to the Property, in safe, good and clean condition, free and clear of equipment, building materials, trash, and debris, other than building materials needed immediately for the construction of the Improvements. All building materials stored by Developer Parties (defined below) at the Property shall be kept in a safe and secure manner. At all times during which Developer or any officer, director, manager, member, agent, employee, representative, contractor or subcontractor of Developer, or any other person or entity acting at the direction or with the consent of Developer (each, including Developer, a "**Developer Party**" and, collectively, the "**Developer Parties**"), is engaged in the performance of construction activities ("**Construction Activities**"), Developer shall: (a) bear the exclusive responsibility and expense of keeping roads and access ways within and in the vicinity of the Property in safe and clean condition, reasonably free of dirt, mud, and debris resulting from Developer's Construction Activities, (b) maintain dumpsters or other trash receptacles at all times and empty such dumpsters and trash receptacles at least once per week or more frequently as may be required to prevent overflow and/or blowing refuse, and (c) install a temporary chain link fence and/or other protective barriers and caution signage around applicable construction areas.

11.1.2 *During the Term*. During the Term, except to the extent Developer is performing alterations, modifications, demolition or removal of the Improvements in compliance with this Agreement, Developer shall ensure that (a) the Improvements to be maintained, preserved and kept in good repair and working order and in a safe condition, ordinary wear and tear excepted, including the landscaping and plants on the Property and the sidewalks along the exterior of the Property (including the timely removal of any snow, ice, debris, mold, and standing water). The City shall not, in its capacity as the ground lessor under this Agreement, under any circumstances be required to furnish any services or

facilities or to make any repairs, replacements or alterations of any nature or description in or to the Property, whether ordinary or extraordinary, structural or non-structural, foreseen or unforeseen, or to make any expenditure whatsoever in connection with this Agreement. Notwithstanding the foregoing, as it relates to the Phase 2 Property and the Phase 3 Property, the City shall continue to be responsible for emergency maintenance of the Buildings and Property upon which the Buildings exist until the Developer exercises its Expansion Option and Developer has site control of any of the Expansion Property in question, after which Developer shall take full and sole responsibility for any Expansion Property it has leased from the City pursuant to this Agreement. Developer hereby waives the right to make repairs at the expense of the City, in its capacity as the ground lessor under this Agreement, pursuant to any law in effect at the time of the execution of this Agreement or thereafter enacted, and assumes the full and sole responsibility for the condition, operation, repair, replacement, maintenance, and management of the Property. Nothing in this Section 11.1.2 shall be deemed to limit the City's obligations to furnish public services to the Property or the Midtown Site or to make any repairs, replacements or alterations to any public improvements, in each case, in the ordinary course of providing governmental services. Notwithstanding the Developer's obligations, the City has in place and will continue to maintain insurance coverage of the buildings as property owner.

11.1.3 *City Inspection*. The City reserves the right to inspect the Property at any time to verify Developer's compliance with this Section 11.1, with 24-hour notice and during business hours. In the event Developer fails to maintain the Property as required by Applicable Laws, Developer shall be in default hereunder and the City may, at the City's election and in addition to any rights and remedies under Section 20.2, undertake to perform Developer's maintenance obligations at Developer's sole cost, subject to the notice requirements and Developer's right to cure under Section 20.2 Developer shall promptly cooperate with the City if the City undertakes to perform such duties. 11.2.1 At all times during which the Developer Parties are engaged in Construction Activities, Developer shall take reasonable measures to prevent damage to any **Adjacent Land** and Adjacent Improvements. Developer shall immediately notify the MRA Director of the occurrence of any damage to Adjacent Land or Adjacent Improvements. If any Developer Parties damage any portion of the Adjacent Land and/or Adjacent Improvements, Developer shall, at its sole cost and expense, repair such damage and restore the Adjacent Land and/or Adjacent Improvements so damaged to the condition existing immediately prior to the date of such damage ("**Damage Repair**"). Developer shall complete the Damage Repair within 10 days following the occurrence of the damage, or within the number of days identified by the City for the completion of such Damage Repair set forth in a written notice from the City to Developer ("**Repair Deadline**"). If Developer fails to properly complete any Damage Repair by the applicable Repair Deadline, the City may elect, in addition to any rights and remedies the City may have under Section 19.2, to complete the Damage Repair, in which event Developer shall, within 10 days following written notice thereof, reimburse the City for the cost of such Damage Repair plus an administrative fee in an amount equal to 5% of such repair costs. Notwithstanding any provision of this Article 11 to the contrary, if the City determines in its sole

discretion that any damage (a) poses imminent danger to the health, safety or welfare of persons located thereon or persons or property in the vicinity thereof, (b) affects streetlights or underground utilities, or (c) may, if not immediately repaired, result in additional damage to the Property or the Midtown Site, then the City shall have the right, but not the obligation, to immediately repair such damage, without prior notice to Developer or opportunity to cure, in which event Developer shall, within 10 days following receipt of an invoice therefor, reimburse the City for the cost of such repairs plus an administrative fee in an amount equal to 5% of such repair costs. Developer shall indemnify and hold harmless the City Parties from any loss, cost, claim, or damage, including reasonable attorneys' fees, arising from such damage, and shall pay the costs of repairing any damage to the Adjacent Land and/or Adjacent Improvements to the extent such damage results from Construction Activities of Developer or Developer Parties. The provisions of Section 11.2 shall survive the expiration or termination of this Agreement.

11.3 Utilities

Subject to Section 11.3.2 below, Developer shall, at its sole cost and expense, be solely responsible for (a) securing all utility services for the Property (including, without limitation, electricity, gas, communications, water, sanitary and storm sewer) (the "**Utilities**") from available providers, (b) installing, at its sole cost and expense, all service connections, separate meters and other facilities as may be required for delivery to and use at the Property, and (c) all charges for Utilities used, rendered or supplied to the Property during the Term. All charges for Utilities shall be paid by Developer to the relevant providers prior to delinquency.

11.3.2 *Disconnection of Natural Gas*. Developer shall have the right to obtain natural gas service and cause natural gas to be supplied and used at the Property at all times during the period beginning on the Effective Date and ending on the date that the City ceases to provide natural gas service to the Property (the "**Gas Utilization Period**"). Prior to the expiration of the Gas Utilization Period, (i) the City shall, at its sole cost and expense, cause transmission and/or distribution lines to be installed to the Property line with the capacity to transmit the quantity of power at least equivalent to the energy content of the natural gas used at the Property (averaged over the prior one-year period prior to disconnection), and (ii) Developer shall cause all natural gas use at the Property to be terminated and each of the natural gas lines at the Property to be disconnected from the City's connecting distribution lines. Notwithstanding the foregoing, the City shall not under any circumstances be required to make any improvements or alterations at the Property or to the Improvements or reimburse the Developer for any costs in connection therewith, and Developer shall bear the exclusive responsibility and expense of any such alterations or improvements, whether to fixtures or personal property, to the Property and the Improvements. In the event that the City amends the Master Plan to eliminate the requirement for all buildings to be served by electric-only, this project will also have the right to use gas services.

11.3.3 Utility Accounts. Developer shall be responsible for setting up and transferring any applicable utility accounts serving the Property. The City agrees to coordinate with Developer in such efforts.

13.7 Umbrella or Excess Liability Coverage. Developer shall maintain umbrella or excess liability coverage with limits not less than $2,000,000 excess over the Commercial General Liability, Automobile Liability and Employer's Liability. The policy shall include the following: (a) ISO Additional Insured endorsements with coverage at least as broad as CG 20 10 (ongoing operations) and CG 20 37 (completed operations) or a blanket additional insured endorsement, in each case naming

Developer acknowledges that Developer is solely responsible for obtaining, prior to the commencement of any work at the Property by all contractors and subcontractors and maintaining from time to time thereafter current certificates of insurance and applicable endorsements from its contractors/subcontractors, and this information shall be promptly made available to the City upon request. Developer shall require all contractors and subcontractors to obtain the following:

13.8.1 ISO Additional Insured endorsements with coverage at least as broad as ISO forms CG 20 10 and CG 20 37 naming Developer and the City Parties as additional insureds or a blanket additional insured endorsement applicable, provided that, if the blanket additional insured endorsement is used, premises and operations as well as products-completed operations coverage must be provided for Developer and the City Parties;

Prior to the Construction Commencement at the Property or any portion thereof and annually thereafter, Developer shall furnish or cause to be furnished to the City certificates of insurance and all applicable endorsements evidencing the foregoing insurance coverages and limits. These provisions shall also apply to contractors/subcontractors performing work or services under this Agreement and Tenant/Developer shall be responsible for maintaining records evidencing compliance thereto. If any coverage is maintained on a claims-made basis, the following shall apply:

13.9.1 The retroactive date must be shown and must be before the date of this Agreement or the beginning of any work or services under this Agreement;

13.9.2 Except as otherwise set forth herein, coverage must be maintained, and evidence of coverage must be provided for at least one year after termination of this Agreement;

13.9.6 Should any of the insurance policies contain either a deductible or self-insured retention, Developer and its contractors/subcontractors shall be responsible for paying their respective deductibles or self-insured retentions and the City shall not be responsible for paying such costs.

13.9.7 All Certificates of Insurance must have all required endorsements attached and must be submitted to the City prior to the commencement of Developer's operations, construction, or renovation under this Agreement. Certificates of Insurance during each successive year of the insurance requirement period must be filed with the City.

13.10 Sublease Insurance Requirements. Developer shall require that each sublease include the insurance requirements set forth on **Exhibit N**.

ARTICLE 14
CASUALTY; CONDEMNATION

14.1 Casualty

. Developer covenants and agrees that in the event of damage to the Property or destruction of the whole or any part thereof, by any cause whatsoever, Developer shall proceed immediately and diligently to restore the Property to the same or equivalent condition or status as on the Effective Date.

14.2 Condemnation

.

14.2.1 Should the entire Property be taken (which term, as used in this Section, shall include any conveyance in avoidance or settlement of eminent domain, condemnation or other similar proceedings) by any governmental authority, corporation or other entity under the right of eminent domain, condemnation or similar right, other than by the City, then this Agreement shall terminate as of the date of taking possession by the condemning authority, and the award therefor will be distributed to the City. After termination of this Agreement and distribution of the condemnation award as herein provided, the Parties shall have no further rights, duties or obligations under this Agreement, except those obligations that are expressly intended to survive such termination.

14.2.2 Should any portion of the Property be taken by any governmental authority, corporation or other entity under the right of eminent domain, condemnation or similar right, other than by the City such that (a) the untaken portion of the Property is, in either Party's reasonable discretion, insufficient for the economic or feasible operation thereof by Developer; or (b) any access is taken that materially prohibits use of such remaining portion of the Property, unless reasonable alternate access is provided by the City, then either Party may either terminate this with respect to the affected portion of the Property as of the date of taking possession by the condemning authority in the same manner as provided in Section 14.2.1 for the entire Property and the award therefor shall be distributed as provided in Section 14.2.1 Should any other partial taking of the Property occur, then this Agreement nevertheless shall continue in effect as to the remaining portion of the Property. In the event of a partial taking, this Agreement shall continue in full force and effect with respect to the remaining portion of the Property, but shall terminate with respect to the portion so taken, and the Parties shall have no further rights, duties or obligations under this Agreement with respect to the portion of the Property taken, except those obligations that are expressly intended to survive such termination.

ARTICLE 15
ASSIGNMENT; TRANSFER; SUBLEASE

15.1 Assignment; Transfer

. The qualifications and identity of Developer are of particular concern to the City. It is because of those unique qualifications and identity that the City has entered into this Agreement with Developer. Accordingly, Developer shall not directly or indirectly (including by a direct or indirect transfer of the equity in Developer), sell, assign, transfer, convey, or otherwise dispose of, its right, title or interest in this Agreement or a Controlling interest in Developer, whether voluntarily or involuntary by foreclosure, trustee's sale, assignment in lieu thereof or other enforcement of a pledge, hypothecation or collateral assignment of this Agreement (in each case, a "**Transfer**"), without the prior written consent of the City, which consent may be withheld in the City's reasonable discretion. Any such attempted Transfer, other than as permitted in this Article 15, without such consent shall be null and void. No Transfer, whether with or without consent, shall operate to release Developer or alter Developer's primary liability to perform its obligations under this Agreement.

15.2 Sublease.

Developer shall not sublease any of Developer's rights or obligations under this Agreement without the prior written consent of the City, which consent may be withheld in the City's sole and absolute discretion; provided, however, Developer may, without the prior written consent of the City, sublease space within any Building on the Property following substantial Final Completion thereof to any tenants for the use and occupancy of such Buildings as contemplated under this Agreement, including event use.

15.3 Permitted Transfer

Notwithstanding anything in this Article 15 to the contrary, Developer shall have the right, with the prior written consent of the City, to Transfer this Agreement or a direct or indirect ownership interest

in Developer to any entity controlling, controlled by, or under common control with Developer, or to any entity that is a successor by merger, consolidation, or acquisition of substantially all of Developer's assets, so long as Developer provides written notice of such assignment to the City.

ARTICLE 16

LEASEHOLD FINANCING

16.1 Leasehold Mortgage

. Throughout the Term, Developer may from time to time and without the City's consent, execute and deliver a mortgage, deed of trust, security agreement or other hypothecating instrument (each, a "**Leasehold Mortgage**") encumbering Developer's leasehold interest in all or any portion of the Property (the "**Leasehold Estate**") for the benefit of a leasehold lender providing financing for Developer's obligations under this Agreement (each, a "**Leasehold Mortgagee**"); provided, however, (a) no Leasehold Mortgage may constitute a lien on the fee title of the City, (b) the City shall not be required to encumber or subordinate, and nothing in this Agreement will be construed as the City agreeing to encumber or subordinate, the City's right, title or interest in and to the fee interest to the Property and this Agreement, and (c) the City shall not be required to undertake any personal liability for the obligations of Developer secured or to be secured by any Leasehold Mortgage. Any Leasehold Mortgage and all rights acquired thereunder shall be subject all covenants, conditions and restrictions set forth in this Agreement and to all rights and interests of the City.

16.2 Notice of Leasehold Mortgage

. Within 30 days after the recordation of a Leasehold Mortgage, Developer shall provide a copy of the recorded Leasehold Mortgage to the MRA Director.

16.3 Developer Default of Leasehold Mortgage

. In the event of a default by Developer under a Leasehold Mortgage, the City consents to the exercise by the Leasehold Mortgagee of any of its rights and remedies permitted under such Leasehold Mortgage, provided that such Leasehold Mortgagee delivers written notice to the City of such default prior to the exercise of any such remedies, and upon a Mortgagee Transfer Event, Leasehold Mortgagee, or its nominee or designee approved by the City (an "**Approved Designee**"), shall assume all of Developer's obligations under this Agreement. A "**Mortgagee Transfer Event**" means that the Leasehold Mortgagee (or its Approved Designee) obtained possession of the Property through one of the following by Leasehold Mortgagee: (x) foreclosure or exercise of other remedies under the Leasehold Mortgage, (y) assumption of this Agreement, or (z) a Replacement Agreement. In no event shall a Leasehold Mortgagee's exercise of remedies under a Leasehold Mortgage affect the City's rights or Developer's obligations under this Agreement.

16.4 Leasehold Mortgagee's Rights to Cure a Default

. Prior to terminating this Agreement or exercising any other right or remedy due to an Event of Default, the City will give written notice to the Leasehold Mortgagee, provided that the Leasehold

Mortgage previously notified the City of its name, its address for notices and the fact that it is a Leasehold Mortgagee of a Leasehold Mortgage and includes with such notice a copy of the Leasehold Mortgage by virtue of which it became a Leasehold Mortgagee (a "**Notice Mortgagee**"), of any such Event of Default and shall afford the Notice Mortgagee a period of 30 days after notice is given in which to cure such Event of Default; provided, however, that (a) if such Event of Default is not a failure to pay Rent or any other amount due hereunder and is susceptible of cure by the Notice Mortgagee but cannot reasonably be cured within such 30-day period, then so long as the Notice Mortgagee commences a cure within such 30-day period (and notifies the City that it has done so), its cure period will be extended for as long as reasonably necessary for it to diligently pursue the cure to completion, but in no event longer than 90 days; and (b) if such Event of Default is not a failure to pay Rent and is susceptible of cure by the Notice Mortgagee but cannot reasonably be cured until the Notice Mortgagee obtains possession of the Property, then so long as the Notice Mortgagee commences to foreclose or otherwise enforce its Leasehold Mortgage (or assumes this Agreement in lieu thereof) and thereafter diligently pursues such foreclosure, remedy or assumption to completion (and notifies the City that it has done so), Notice Mortgagee's 30-day cure period will be extended for as long as reasonably necessary for it to obtain possession of the Property and then promptly commence and thereafter diligently pursue the cure to completion, but in no event longer than 90 days after Notice Mortgagee obtains possession. Developer's breach of this Agreement shall not defeat, render invalid, diminish or impair the lien of any Leasehold Mortgage on the applicable Property made in good faith and for value.

16.5 Notice Mortgagee's Right to Attorn

. If, by virtue of an Event of Default, the City reenters and repossesses all or any portion of the Property without terminating this Agreement, the City will give notice thereof to the Notice Mortgagee within 10 days prior to such reentry and repossession or termination, as the case may be. If the Notice Mortgagee notifies the City within 30 days after the City gives such notice that the Notice Mortgagee would like to attorn to the City and either assume Developer's obligations under this Agreement (in the case of a reentry and repossession without termination of this Agreement) or enter into a new agreement with the City for the Property or applicable portion thereof, pursuant to the terms hereof (a "**Replacement Agreement**") (in the case of a termination of this Agreement), and provided that the Notice Mortgagee (a) pays the City all Rent, penalties and Default Interest due the City under this Agreement at the date of reentry and repossession or termination and which thereafter becomes due or would have become due if this Agreement had not been terminated up to and including the date the Notice Mortgagee's attornment to the City becomes effective, together with all of the City's expenses incident to the reentry and repossession or termination; and (b) covenants to promptly thereafter cure any Event of Default existing at the time of such reentry and repossession or termination that is not a failure to pay Rent or any other amount due hereunder and is susceptible of cure by the Notice Mortgagee pursuant to Section 16.4(b), then (i) the City will accept such attornment and either deliver possession of the Property to the Notice Mortgagee (or its Approved Designee) if the City has reentered and repossessed the same without terminating this Agreement, whereupon the Notice Mortgagee (or its Approved Designee) will assume in writing all obligations of Developer arising under this Agreement from and after the date possession is so delivered and this Agreement will continue in full

force and effect as a direct obligation between the City and the Notice Mortgagee (or its Approved Designee), or (ii) the City will execute and deliver a Replacement Agreement for the Property to the Notice Mortgagee (or its Approved Designee) for the balance of what would have been the Term had this Agreement not been so terminated and otherwise upon all of the same terms and conditions set forth in this Agreement. The developer under the Replacement Agreement will have the same leasehold interest in the Property or applicable portion thereof as Developer had under this Agreement.

16.6 Notice Mortgagee Limitation on Liability

. Except for Developer's obligations under this Agreement assumed by the Leasehold Mortgagee as required by this Agreement, a Notice Mortgagee shall not have any other obligations under this Agreement arising prior to the earlier of the date that the Notice Mortgagee assumes the obligations of Developer under this Agreement or obtains absolute title to the Leasehold Estate. Any such Notice Mortgagee shall be liable to perform obligations under this Agreement only for and during the period of time that such Notice Mortgagee directly holds such absolute title to the Leasehold Estate, except for any outstanding obligations of Developer's to be performed under this Agreement. Moreover, any Notice Mortgagee who acquires Developer's interest in the Leasehold Estate pursuant a Mortgagee Transfer Event shall not be liable to perform any obligations thereunder to the extent the same are incurred or accrue after such Notice Mortgagee no longer has ownership of the Leasehold Estate created thereby.

16.7 Prohibition Against Mutual Rescission

. No mutual termination, cancellation or rescission of this Agreement by the City and Developer will be effective unless and until the same is approved in writing by the Notice Mortgagee.

16.8 Assumption of Obligations

. If any leasehold interest of Developer in all or any portion of the Property is Transferred by reason of any foreclosure, deed in lieu of foreclosure, trustee's deed or any other proceeding for enforcement of a Leasehold Mortgage, then the Leasehold Mortgagee thereunder (or any Approved Designee) shall agree to assume the obligations of Developer hereunder and shall deliver to the City documentation of its assumption of the obligations hereunder without the necessity of entering into an assignment and assumption agreement. Notwithstanding the foregoing, the City shall have no right to terminate this Agreement as a result of any Leasehold Mortgagee failing to assume the obligations of Developer hereunder unless such Leasehold Mortgagee or its Approved Designee fails to do so within 90 days after such Leasehold Mortgagee's acquisition of Developer's leasehold interest in the applicable Property, it being acknowledged that such Leasehold Mortgagee may intend to Transfer its interest in the applicable Property to an Approved Designee, in which event the Approved Designee shall assume the obligations of Developer hereunder.

16.9 No Liability; Indemnity

. In no event may Developer represent that the City is or in any way may be liable for the obligations of Developer in connection with (i) any financing agreement or (ii) any public or private offering of

securities. Developer agrees to indemnify, defend or hold the City and its respective officers, directors, agents and employees free and harmless from, any and all liabilities, costs, damages, claims or expenses arising out of or related to the breach of its obligations under this Article 16; provided, however, such indemnity shall not apply to any Liabilities caused by the negligent or willful acts of any City Parties and shall be subject to the limitations of NMSA 1978, Section 56-7-1.

16.10 Bankruptcy.

If this Agreement is rejected in connection with a bankruptcy proceeding by Developer or a trustee in bankruptcy for Developer, such rejection, to the extent permitted under the Bankruptcy Code, shall be deemed an assignment by Developer to the Notice Mortgagee of the Leasehold Estate and all of Developer's interest under this Agreement, and this Agreement shall not terminate, and the Notice Mortgagee shall have all the rights of the Developer under this Agreement as if such bankruptcy proceeding had not occurred, unless such Notice Mortgagee rejects such deemed assignment by notice in writing to the City within 30 days following rejection of this Agreement by Developer or Developer's trustee in bankruptcy. If any court of competent jurisdiction shall determine that this Agreement shall have been terminated notwithstanding the terms of the preceding sentence as a result of rejection by Developer or the trustee in connection with any such proceedings, the rights of the Notice Mortgagee to a Replacement Lease from the City pursuant to Section 16.4 hereof shall not be affected thereby.

ARTICLE 17

CITY FINANCING

This Agreement and all of Developer's rights hereunder shall be subordinate to the lien and terms of any mortgage, deed of trust and related documents now or hereafter placed upon the Property by any lender of the City (if any, a "**City Mortgagee**") (including all advances made thereunder), and to all amendments, renewals, replacements, or restatements thereof (collectively, "**Mortgage**"). Developer agrees that no documentation other than this Agreement is required to evidence such subordination. If any City Mortgagee elects to have this Agreement superior to the lien of its Mortgage and gives notice to Developer, this Agreement will be deemed prior to such Mortgage whether this Agreement is dated prior or subsequent to the date of such Mortgage or the date of recording thereof. In confirmation of subordination or superior position, as the case may be, Developer will execute such documents as may be required by any City Mortgagee and if it fails to do so within 10 days after demand, Developer hereby irrevocably appoints the City as Developer's attorney-in-fact and in Developer's name, place, and stead, to do so. Following Developer's request therefor, the City shall use commercially reasonable efforts to obtain from any future City Mortgagee, a subordination, non-disturbance and attornment agreement on such City Mortgagee's form. Developer hereby attorns to all successor owners of the Property, whether such ownership is acquired by sale, foreclosure of a Mortgage, or otherwise.

ARTICLE 18
LIENS

Developer shall not place or allow to be placed on all or any portion of the Property or Improvements, any mortgage, deed of trust, security interest, monetary encumbrance or lien (statutory or otherwise), or any agreement to enter into or create any of the foregoing (collectively, a "**Lien**"), on or affecting all or any portion of the Property or Improvements. Notwithstanding the foregoing, no such Lien shall constitute an Event of Default if, within 30 days after Developer becomes aware of a Lien on or affecting the Property or Improvements, Developer causes the debt secured by such Lien to be satisfied or other security (including a bond) to be deposited with the court in the amount determined by the court to be sufficient to cancel such Lien.

ARTICLE 19

REPORTING REQUIREMENTS

19.1 Reporting Requirements

.

19.1.1 *Construction Related Reports*. Developer shall provide written reports substantially in the form attached hereto as Exhibit M (each, a "**Report**") to the MRA Director detailing: (a) the progress of all entitlements, permits, approvals and construction financing required for the commencement of construction of each Phase, (b) during construction, the progress of construction (expressed as a percentage of the completion of each Phase) and any concerns or perceived delays to complete the applicable Phase, and (c) any other information relating to the construction of the Project that the MRA Director may request in its reasonable discretion. The form of Report may be amended from time to time by the MRA Director. No later than January 31, April 30, July 31, and October 31 of each year, Developer shall deliver to the MRA Director a Report containing the applicable information described above for the prior three-month period (each, a "**Quarterly Construction Report**").

19.1.2 *Program Related Reports*. Within 120 days following the end of each calendar year, Developer shall submit to the MRA Director (a) copies of all subtenant IRS Form 990 (or comparable form), and (b) a rent roll in the form attached hereto as **Exhibit M**, as applicable for each subtenant. This Section 19.1.2 shall survive the expiration or termination of this Agreement for the duration of Developer's obligations under Article 10.

19.1.3 *Project Related Reports*. Prior to the Effective Date, Developer delivered to the MRA Director (a) a development budget for the entitlement, development and construction of the Improvements for each Phase of the Project (the "**Development Budget**"), (b) an operating budget for the operation of each Phase of the Project following substantial completion of the Improvements (the "**Operating Budget**"), and (c) a financing plan describing the sources and methods for securing funds in an amount

sufficient to complete the entitlement, development and construction of the Improvements for each Phase of the Project and for the operation of each Phase of the Project following substantial completion of the Improvements for each such Phase (the "**Financing Plan**"). Developer shall deliver to the MRA Director an updated Development Budget and Operating Budget within 30 days after the Effective Date. Thereafter, Developer shall deliver an updated Development Budget to the MRA Director with each Expansion Notice and an updated Operating Budget following the completion of Phase 1 and at least annually during the Term.

19.1.4 *Developer's Financial Statements*. During the Term of this Agreement, Developer agrees to furnish the MRA Director a copy of Developer's annual Financial Statements within 120 days after the end of Developer's fiscal year. All Financial Statements shall be reviewed by a certified public accountant who is not an employee or principal of Developer or its Affiliates.

19.2 Audits and Inspections

. Not more than once per calendar year, and at any time after the City has provided written notice to Developer of its reasonable, good faith belief that Developer has materially breached this Agreement (together with documentation or other evidence of such breach), Developer shall make available to the MRA Director for examination all of Developer's records with respect to all matters for which reports or statements are provided pursuant to Section 19.1 of this Agreement. The MRA Director shall give reasonable notice to Developer of such examination, and in any event, a minimum of 14 days' prior notice. Developer shall permit the MRA Director to audit, examine, and make excerpts or transcripts from such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Agreement. This Section 19.2 shall survive the expiration or termination of this Agreement for the duration of Developer's obligations under Article 10.

19.3 IPRA Compliance

. Developer understands that records in the possession of the City are subject to IPRA, and to the extent required, Developer will comply with IPRA.

ARTICLE 20
DEFAULT AND REMEDIES

20.1 Default by Developer

20.1.1 *Events of Default*. The following constitute an "**Event of Default**" under this Agreement:

(a) *General Breach*. Developer fails to comply with any provision, term, condition or covenant of this Agreement (other than those specifically described in any other subparagraph of this Section 20.1.1), and such failure continues for 30 days after written notice by the City or, if such compliance cannot be reasonably completed within such 30-day period, Developer fails to commence performance within such 30 day period and diligently proceeds to completion; provided, however, Developer's right to cure shall not exceed 120 days unless otherwise agreed to in writing by the MRA Director.

(b) *Monetary Default*. Developer fails to pay Rent or other payment obligation required to be made by Developer hereunder as and when due, and such failure continues for thirty days after written notice by the City; provided, however, Developer shall not be entitled to more than one notice of delinquency in any 12-month period, and if thereafter any Rent or other amount is not paid when due, an Event of Default shall occur even though no notice thereof is given.

(c) *Abandonment*. Developer Abandons the construction of the Project. For purposes hereof, "**Abandon**" and "**Abandonment**" means the stoppage of construction of a Phase of the Project for more than 60 consecutive days after Commencement of Construction of the Phase and prior to Final Completion of the Phase unless due to a Force Majeure Event.

(d) *Failure to Commence Construction*. Developer fails to Commence Construction of the Improvements for any Phase by the applicable Construction Commencement Date.

(e) *Failure to Complete*. Subject to a Force Majeure Event, Developer fails to cause the Final Completion of any Phase by the applicable Final Completion Date.

(f) *Failure to Maintain Insurance*. Developer fails to replace or otherwise maintain in full force and effect, without any gap in coverage, any insurance required to be maintained by Developer pursuant to Article 13.

(g) *Assignment.* The assignment, subletting or other Transfer, or any attempted assignment, subletting or other Transfer, of this Agreement in violation of Article 15.

(h) *Legal Existence*. Developer dissolves or fails to maintain its legal existence and authority to conduct business in the state of New Mexico.

(i) *Bankruptcy Proceedings*. (i) Developer files a petition under any section or chapter of the United States Bankruptcy Code, as amended from time to time, or under any similar law or statute of the United States or any state thereof ("**Bankruptcy Code**"), (ii) a proceeding is filed against Developer seeking reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any Bankruptcy Code, (iii) Developer makes a general assignment for the benefit of creditors or admits in writing its inability to pay its debts as they become due, or (iv) a trustee, receiver, custodian, assignee, liquidator or other similar official is appointed for Developer, for all or any part of Developer's properties, or for any portion of Developer's interest in the Property.

(j) *Breach of Representations.* Any representation or warranty made by Developer in this Agreement, or in any certificate, notice, demand or request made by Developer in writing and delivered to the City pursuant to or in connection with this Agreement, is untrue, false or misleading as of the date made or furnished.

20.2 Remedies

.

20.2.1 Upon the occurrence and during the continuance of an Event of Default, the City may take any of the following actions, and without limiting the City in the exercise of any other right and/or remedy which the City may have by reason of such Event of Default under this Agreement:

(a) terminate this Agreement and through any permitted legal process, reenter and take possession of the Property without prejudice to any remedies for existing breaches hereof ("**Termination Event**"). In the event of such termination, Developer shall be liable to the City for damages immediately payable in an amount equal to the actual damages incurred by the City, including all expenses incurred by the City in enforcing its rights hereunder, if the City so elects, in its sole discretion, require the demolition and removal of any partially constructed or partially completed Improvements associated with the applicable Phase and the performance of Site Restoration pursuant to and in accordance with Section 8.2,

(b) without terminating this Agreement, through any permitted legal process, reenter and take possession of the Property without prejudice to any remedies for existing breaches hereof, lease, manage and operate the Property and collect the rents, issues and profits therefrom all for the account of Developer, and credit to the satisfaction of Developer's obligations hereunder the net rental thus received (after deducting therefrom all reasonable costs and expenses of repossessing, leasing, managing and operating the Property, including, but not limited to brokerage commissions and any costs associated with advertising, remodeling, alterations or repair of the Property). If the net rental so received by the City exceeds the amounts necessary to satisfy all of Developer's obligations under this Lease, nevertheless the City shall retain such excess. The City shall use commercially reasonable efforts to mitigate its damages.

(c) bring an action against Developer for actual damages incurred by the City or any equitable relief available to the City and to the extent not prohibited by applicable law, to seize all personal property or fixtures upon the Property which Developer owns or in which it has an interest, in which the City shall have a landlord's lien and/or security interest, and to dispose thereof in accordance with the laws prevailing at the time and place of such seizure or to remove all or any portion of such property and cause the same to be stored in a public warehouse or elsewhere at Developer's sole expense, without becoming liable for any loss or damage resulting therefrom and without resorting to legal or judicial process, procedure or action.

(d) if the Developer Abandons the construction of the Project or fails to cause Final Completion of any applicable Phase, do such acts and expend such reasonable funds at the expense of Developer as are reasonably necessary to construct and complete the applicable Improvements, in which event all funds expended by the City for such work shall be due and payable by Developer within 30 days after demand by the City, together with accrued interest thereon at 12% per annum from the date incurred until paid;

(e) if Developer fails to replace or otherwise maintain in full force and effect, without any gap in coverage, any insurance required to be maintained by Developer pursuant to Article 13, obtain such insurance on Developer's behalf, in which event Developer shall reimburse the City for the cost of

such insurance premium within 30 days after written demand by the City, together with accrued interest thereon at 12% per annum from the date incurred until paid;

(f) exercise its rights and remedies under Bond;

(g) seek to enjoin or restrain Developer from commencing or continuing said Event of Default;

(h) seek to cause Developer by injunction to correct and cure said Event of Default; and/or

(i) exercise any and all remedies at law, in equity or otherwise available under this Agreement;

(j) enter into an agreement with Developer to modify this Agreement or otherwise address any breach.

20.2.2 Upon the City's election to exercise its right under Section 20.2.1(a), Section 20.2.1(d)(i), or Section 20.2.1(f), Developer shall deliver to the City an Assignment of Plans in the form attached hereto as **Exhibit L**, pursuant to which Developer shall assign to the City all of Developer's right, title and interest in and to all Plans and Specifications and Approvals. Developer acknowledges and agrees that, as a condition of the City's consummation of the transactions herein, each written agreement between Developer and any Person performing work at or for the Project, including work relating to the preparation or modification of the Plans and Specifications, shall include such Person's consent to the assignment by Developer to the City of all right, title and interest of Developer in and to Plans and Specifications.

20.2.3 Upon the occurrence and during the continuance of any material breach, failure or other condition that, but for the City's delivery of notice or the lapse of time thereafter, would constitute an Event of Default, the City may withhold the release of any final maps and/or building permits or other City approvals until the breach or failure is resolved to the reasonable satisfaction of the City.

20.3 Liquidated Damages

Because of the difficulty and/or impossibility of determining the City's damages upon the occurrence of an Event of Default pursuant to Section 20.1.1(e) (*Failure to Complete*), including, without limitation, damages suffered by way of the detriment to the public benefit and welfare of the City through lost employment opportunities, the degradation of the economic health of the City and the direct or indirect loss of revenue, the City and Developer covenant and agree that, if the City elects its remedy to receive liquidated damages under Section 20.3.1 Developer shall pay to the City, and the City shall accept as an exclusive remedy, as liquidated damages and as a reasonable forecast of such potential damages and not as penalties, $150 per day commencing on the date that the City delivers written notice to Developer of its election to receive liquidated damages pursuant to this Section 20.3 and continuing until earlier of (a) the date that such Event of Default is cured, or (b) the termination of this Agreement pursuant to a Termination Event. Developer agrees to waive any and all affirmative defenses that the amount of liquidated damages provided herein constitutes a penalty.

20.4 Event of Default by the City.

If the City defaults in its obligation to Developer under this Agreement, Developer shall deliver to the City a written notice of default and, upon the City's receipt of the notice of default, the City shall commence and complete the cure of such default. If the City has not completed the cure of the default within 120 days after receipt of the written notice of default, the Developer may terminate this Agreement without further obligation of either Party or sue to enforce the City obligations under this Agreement

20.5 Holdover.

. If after expiration or earlier termination of this Agreement, Developer remains in possession of the Property or any portion thereof without express written approval of the City for such holdover possession, such possession may, at the sole option of the City, continue as a month-to-month tenancy, during which period Developer shall pay the City Holdover Rent on a monthly basis in advance on the first day of each calendar month thereafter, and all other terms and conditions of this Agreement shall otherwise apply. "**Holdover Rent**" means the then current market rent, as of the commencement of the holdover possession, for similar properties located in Santa Fe County, NM, as determined by the City in its sole discretion. The City may terminate such holdover possession in accordance with applicable law.

20.6 Rights and Remedies Cumulative

. Except as otherwise expressly stated in Sections 20.3 (Liquidated Damages), the rights and remedies of the City are cumulative and in addition to any other right or remedy given hereunder or now or hereafter existing by agreement, Applicable Rules, or in equity, and the exercise by the City of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same Event of Default or any other Event of Default, to the extent permitted by law. The provisions of this Article 20 shall survive the expiration or termination of this Agreement. No waiver made by the City or Developer shall apply to obligations beyond those expressly waived in writing.

20.7 Waiver

. Any failures or delays by the City in asserting its rights and remedies as to any Event of Default shall not operate as a waiver of such Event of Default or of any of the City's rights or remedies hereunder. The provisions of this Article 20 shall survive the expiration or termination of this Agreement.

ARTICLE 21
GENERAL PROVISIONS

21.1 Compliance with Laws

. Developer shall carry out the design and construction of the Improvements and the operation of the Project in conformity with all Applicable Rules, including all applicable state labor standards, building, plumbing, mechanical, and electrical codes, and the Americans With Disabilities Act of 1990 (42 U.S.C. Section 12101, et seq., as amended, the "**ADA**"), as such Applicable Rules exist on the Effective

Date or the date of the relevant application or request for permit, as applicable. During any Construction Activities, Developer shall comply, and cause the other Developer Parties to comply, with all Applicable Rules, including the ADA. Developer, through any contractor, agrees to be responsible for knowing all applicable requirements of the ADA and to defend, indemnify and hold harmless the City, its officials, agents and employees from and against any and all claims, actions, suits or proceedings of any kind brought against said parties as a result of any acts or omissions of Developer Parties or its agents in violation of the ADA.

21.2 Discrimination Prohibited

. Developer shall comply, and cause the Developer Parties to comply, with Applicable Rules relating to discrimination against or segregation of any Person or group of Person, and will not on the grounds of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, sexual preference, marital status, source of income, physical or mental disability, medical condition, or citizenship status, discriminate or permit discrimination against any Person or group of Persons in any manner prohibited by Title 49 CFR Parts 21 and 23, the Civil Rights Act of 1964, as amended, the Equal Pay Act of 1963, the Rehabilitation Act of 1973, the New Mexico Human Rights Act, and SFCC 1987 Section 2.02. Without limiting the generality of the foregoing, Developer will not discriminate against any employee or applicant for employment or tenancy because of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, sexual preference, physical or mental disability, medical condition, or citizenship status. Such covered actions include, without limitation: employment, promotion, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; selection for training; and disciplinary actions and grievances. Developer agrees to post in conspicuous places available to employees, and applicants for employment, notice to be provided setting forth the provisions of this non-discrimination clause.

21.3 Recordation in Official Records

. Promptly after the later of the Effective Date, the City shall record an executed original of this Agreement in the real property records of the Clerk and Recorder of the County of Santa Fe, New Mexico (the "**Official Records**"). All amendments, transfers, and assignments hereto must be in writing signed by the appropriate officers of the City and Developer in a form suitable for recordation in the Official Records.

21.4 Covenants Running with the Land

. This Agreement, including all covenants, agreements, rights, restrictions and obligations contained herein (subject to certain term limitations as contained in this Agreement) (i) shall run with the Property, (ii) shall be binding upon the Developer, the owner(s) of any portion of the Property, and each of its and their successors (by merger, consolidation, operation of law or otherwise), successors-in-title, assigns, and lessees, whether by operation of law or in any manner whatsoever, and (iii) shall inure to the benefit of the City, as the intended beneficiary of the terms and provisions of this Agreement and of the covenants running with the Property, without regard to whether the City has

been, remains, or is an owner of any interest in the Property or the Midtown Site. In the event this Agreement is terminated by the City, this Agreement may be released of record, in whole or in part, upon execution and recording by the City of a notice of termination or other instrument evidencing such termination.

21.5 Notices

. Any notice, request, demand, instruction or other document to be given or served hereunder or under any document or instrument executed pursuant hereto shall be in writing and shall be delivered either personally with a receipt requested therefor, or by overnight courier, or by certified mail, return receipt requested, postage prepaid, in any case addressed to the Parties at their respective addresses set forth below, and the same shall be effective (a) upon receipt or refusal if delivered personally, (b) one Business Day after depositing with such an overnight courier service, (c) three Business Days after deposit in the mail if mailed, or (d) upon successful electronic mail transmission evidenced by an electronic "read receipt" and provided that such notice is also delivered by the means described in clauses (a) or (b) within two Business Days after such electronic mail notice. 21.6 Relationship Between Parties

. Notwithstanding any provision in this Agreement or any representation or warranty to the contrary, the relationship between Developer and the City shall be as independent contractors, and neither the

City nor Developer shall be deemed or constitute an employee, servant, agent, partner or joint venturer of the other.

21.7 No Third-Party Rights

. This Agreement is for the sole and exclusive benefit of the Parties and their respective successors and permitted assigns, and no third party other than a permitted assignee of the City or Developer is contemplated to or shall have any rights hereunder.

21.8 Counterparts

. This Agreement may be signed in multiple counterparts or with detachable signature pages, but either or both circumstances shall constitute one instrument, binding upon all parties thereto as if all parties signed the same document. If so executed, each such counterpart of this Agreement is to be deemed an original for all purposes and all such counterparts will collectively constitute one Agreement, but in making proof of this Agreement, it will not be necessary to produce or account for more than one such counterpart.

21.9 Exhibits; Ancillary Documents

. All certificates, documents, exhibits, attachments, riders, and addenda referred to in this Agreement are hereby incorporated into this Agreement by reference and made a part hereof as though set forth in full in this Agreement to the extent they are consistent with its conditions and terms. In the event of any conflict between the terms set forth in this Agreement for any exhibit or ancillary document and the terms set forth in the agreed-upon exhibit or ancillary document, the terms of the agreed-upon exhibit or ancillary document, as applicable, shall control.

21.10 Time of Essence

. Time is expressly made of the essence with respect to the performance by Developer of every obligation and condition of this Agreement.

21.11 Computation of Time

. All references herein to “days” mean calendar days. All references herein to “months” mean the period starting on one day in a calendar month and ending on the numerically corresponding day in the next calendar month, except that, solely with respect to the last month of any period (a) if the numerically corresponding day is not a Business Day, that period will be deemed to end on the next Business Day, (b) if there is no numerically corresponding day in the next calendar month, then that period shall end on the first Business Day after the last day of that month. In computing any period of time under this Agreement in which days define the period, (i) the date of the act or event from which the designated period of time begins to run shall not be included, and (ii) the last day of the period so computed shall be included unless it is a day other than a Business Day, in which event the day for performance thereof shall be extended to the next Business Day. If any act is to be done by or within a period of time, the last day of said period of time shall be deemed to end at 5:00 p.m. MT.

21.12 Effect and Duration of Agreement Provisions

. All obligations, covenants and agreements contained herein which are not performed at or before Final Completion of the Project (or any Phase thereof) but which are to be performed after Final Completion of the Project or the Phase, as applicable, as provided in this Agreement, shall survive the Final Completion of the Project or Phase, as applicable.

21.13 Force Majeure

. Neither the City nor Developer shall be deemed to be in default hereunder if either Party is prevented from performing any of the obligations, other than monetary obligations hereunder, by reason of strikes, boycotts, labor disputes, embargoes, industry-wide or regional shortages of labor, energy or materials (to the extent not caused by the failure of any person to adequately plan materials orders or labor allocation as necessitated by the then-current markets therefor), acts of the public enemy, infectious disease or pandemic, weather conditions, weather events, archeological discoveries on the Property and the results of acts of nature, riots, rebellion, sabotage, any approval required by the City (not including any period of time normally expected for the processing of such approvals in the ordinary course of affairs), or any other similar circumstances for which it is not responsible or which are not within such Party's control (each a "**Force Majeure Event**"); provided, however, the Parties stipulate and agree that none of the following events or occurrences shall be deemed a Force Majeure Event: (a) the novel coronavirus COVID-19 pandemic (except to the extent the pandemic is the direct cause of any of the delay events listed above), and (b) financial distress or the inability of a Party to earn a profit or avoid a financial loss. and (c) a Party's inability to perform its financial obligations hereunder, including Developer's inability to secure funds in an amount sufficient to complete the Improvements. An extension of time for any Force Majeure Event shall commence to run from the time of the commencement of the Force Majeure Event if the Party claiming such extension sends notice to the other Party within 30 days after said commencement. If such notice is delivered after such 30-day period, the extension period shall commence to run from the date of such notice. After the termination of any such Force Majeure Event, the obligation to perform shall recommence with a day-for-day delay extension to any deadlines.

21.14 Severability

. In the event any covenant, condition or provision herein is held to be invalid, illegal, or unenforceable by any court of competent jurisdiction, such covenant, condition or provision shall be deemed amended to conform to Applicable Rules so as to be valid or enforceable or, if it cannot be so amended without materially altering the intention of the parties, it shall be stricken. If stricken, all other covenants, conditions and provisions of this Agreement shall remain in full force and effect provided that the striking of such covenants, conditions or provisions does not materially prejudice either the City or Developer in its respective rights and obligations contained in the valid covenants, conditions or provisions of this Agreement.

21.15 Interpretation

. Whenever the words “include,” “includes” or “including” are used in this Agreement they shall be deemed to be followed by the words “without limitation.” The words “hereof”, “herein” and “hereunder” and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement. Unless otherwise expressly provided herein, any agreement, instrument or statute defined or referred to herein or in any agreement or instrument defined or referred to herein means such agreement, instrument or statute as from time to time amended, modified or supplemented, including (in the case of agreements or instruments) by waiver or consent and (in the case of statutes) by succession of comparable successor statutes, and references to all attachments thereto and instruments incorporated therein.

21.16 Sections

. References to section numbers are to sections in this Agreement, unless otherwise expressly stated.

21.17 Gender, Singular/Plural

. Words of any gender used in this Agreement shall be held and construed to include any other gender, and words in the singular number shall be held to include the plural, unless the context otherwise requires.

21.18 Headings and Captions

. Headings and captions of sections and paragraphs are for convenience, not limitation, and are not to be construed as modifying text.

21.19 Further Assurances

. Developer and the City covenant that they shall do, execute, acknowledge and deliver or cause to be done, executed, acknowledged and delivered such instrument, supplemental hereto and further acts, instruments and transfers as may be required hereunder. All such ancillary agreements shall be in accordance with and not contradictory to the terms and conditions set forth in this Agreement.

21.20 Waiver

. No provisions of this Agreement shall be deemed to have been waived by either Party unless such waiver is in writing, signed by the Party making the waiver and addressed to the other Party, nor shall any custom or practice which may evolve between the Parties in the administration of the terms of this Agreement be construed to waiver or lessen the right of either Party to insist upon the performance of the other Party in strict accordance with the terms of this Agreement. Further, the waiver by any Party of a breach by the other Party or any term, covenant, or condition hereof shall not operate as a waiver of any subsequent breach of the same or any other term, covenant, or condition thereof. No acceptance by the City of any partial payment shall constitute an accord or satisfaction but shall only be deemed a partial payment.

21.21 Modifications; City Approval

. Any amendment, alteration, change or modification of or to this Agreement, in order to become effective, shall be made in writing and in each instance signed on behalf of each Party and, if applicable, approved by the Governing Body and in accordance with any applicable City signature policy. The MRA Director shall record amendments, alterations, changes, and modifications to this Agreement in the Official Records, though a failure to so record shall not impair the effectiveness of such as between the Parties. The MRA Director may extend the time for the performance of any term or satisfaction of any condition hereunder for up to 180 days by the execution of a letter countersigned by Developer. The City Manager may approve changes to the Project requested by Developer to the extent the value of such changes is not in excess of the City Manager's contractual authority and to the extent equal value is received by the City. At any time during which the MRA Director position is unoccupied or in the event the MRA ceases to exist, references in this Agreement to the "MRA Director" shall be deemed to refer instead to the City Manager or the City Manager's designee who shall fulfill the role and assume the responsibilities of the MRA Director under this Agreement.

21.22 Legal Advice

. Each Party represents to the other that it has carefully read this Agreement; and in signing this Agreement, it does so with full knowledge of any right which it may have; it has received independent legal advice from its legal counsel as to the matter set forth in this Agreement; and it has freely signed this Agreement without any reliance upon any agreement, promise, statement or representation by or on behalf of the other Party, or its agents, employees, or attorneys, except as specifically set forth in this Agreement, and without duress or coercion, whether economic or otherwise. This Agreement shall not be construed more strictly against one Party than against the other merely by virtue of the fact that it may have been prepared primarily by counsel for one of the Parties, it being recognized that both the City and Developer have contributed substantially and materially to the preparation of this Agreement.

21.23 Non-Liability of Officials and Employees of the City

. No member, official or employee of the City shall be personally liable to Developer, or any successor in interest, in the event of any default or breach by the City or for any amount which may become due to Developer or its successors, or on any obligations under the terms of this Agreement.

21.24 New Mexico Tort Claims Act

. The City's liability in connection with the Agreement is limited by the immunities and limitations of the New Mexico Tort Claims Act, Section 41-4-1, et seq. NMSA 1978, as amended. The City and its "public employees", as defined in the New Mexico Tort Claims Act, do not waive sovereign immunity, do not waive any defense, and do not waive any limitation of liability pursuant to law. No provision of this Agreement modifies or waives any provision of the New Mexico Tort Claims Act.

21.25 Governing Law

. This Agreement shall be governed by and construed in accordance with the laws of the State of New Mexico.

21.26 Legal Proceedings; Attorneys' Fees and Costs and Damages

. The Parties agree that the exclusive venue for any claims, disputes, disagreements, controversies, lawsuits, or causes of action by or between Developer and the City arising out of or relating to this Agreement, the Project, the Property, or the Construction Activities (collectively, "**Disputes**"), shall be the First Judicial District Court located in Santa Fe, New Mexico. Any and all Disputes shall be tried as a bench trial and not as a jury trial. In the event it becomes necessary for the City to enforce any of the terms and provisions of this Agreement, whether or not suit be instituted, Developer shall pay all costs and expenses incurred by the City in connection with the City's enforcement of this Agreement, including, but not limited to, reasonable attorneys' fees. Neither Party shall be entitled to consequential, indirect or punitive damages under this Agreement.

21.27 Waiver of Jury Trial

. TO THE EXTENT PERMITTED BY LAW, THE PARTIES HEREBY KNOWINGLY, INTENTIONALLY AND VOLUNTARILY, WITH AND UPON THE ADVICE OF COMPETENT COUNSEL, WAIVE, RELINQUISH AND FOREVER FORGO THE RIGHT TO A TRIAL BY JURY IN ANY ACTION OR PROCEEDING BASED UPON, ARISING OUT OF, OR IN ANY WAY RELATING TO A DISPUTE.

EACH PARTY ACKNOWLEDGES AND AGREES THAT ANY DISPUTE WHICH MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND THEREFORE IT HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO ANY DISPUTE. EACH PARTY CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE SUCH WAIVERS; (B) IT UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF SUCH WAIVERS; (C) IT MAKES SUCH WAIVERS VOLUNTARILY; AND (D) IT HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION 21.27.

21.28 Approval Required

. This Agreement shall not become effective or binding until approved by the highest approval authority required by the City under this Agreement.

21.29 Appropriations

. Notwithstanding any other provisions in this Agreement, the terms of this Agreement are contingent upon the Governing Body making the appropriations necessary for the performance of this Agreement. If sufficient appropriations and authorizations are not made by the Governing Body, or if unspent appropriations from any prior fiscal year are not appropriated in the then current fiscal year, this

Agreement may be terminated upon 30 days' written notice given by the City to Developer. Such event shall not constitute a City Default or other default by the City. All obligations of the City and all of its interest in this Agreement will cease upon the date of termination. The City's decision as to whether sufficient appropriations are available shall be accepted by all parties and shall be final.

21.30 No Pecuniary Liability of City

. No provision of this Agreement shall constitute an indebtedness of the City within the meaning of any constitutional provision or statutory limitations of the State of New Mexico, nor constitute or give rise to a pecuniary liability of the City or a charge against its general credit or taxing powers.

21.31 Officials, Agents and Employees Not Personally Liable

. No official, agent, or employee of the City nor member of the Governing Body shall be personally liable to any person by virtue of any provision of this Agreement.

21.32 No Collusion

. Developer represents that this Agreement is entered into by Developer without collusion on the part of Developer with any person or firm, without fraud and in good faith. Dear Sir or Madam:

This is in response to your letter dated August 14, 1998, requesting a name change to your organization. We have updated our records to reflect this change.

Our records indicate that a determination letter issued in June 1997, granted your organization exemption from federal income tax under section 501(c)(3) of the Internal Revenue Code. That letter is still in effect.

Based on information subsequently submitted, we classified your organization as one that is not a private foundation within the meaning of section 509(a) of the Code because it is an organization described in sections 509(a)(1) and 170(b)(1)(A)(vi).

This classification was based on the assumption that your organization's operations would continue as stated in the application. If your organization's sources of support, or its character, method of operations, or purposes have changed, please let us know so we can consider the effect of the change on the exempt status and foundation status of your organization.

Your organization is required to file Form 990, Return of Organization Exempt from Income Tax, only if its gross receipts each year are normally more than $25,000. If a return is required, it must be filed by the 15th day of the fifth month after the end of the organization's annual accounting period. The law imposes a penalty of $20 a day, up to a maximum of $10,000, when a return is filed late, unless there is reasonable cause for the delay.

All exempt organizations (unless specifically excluded) are liable for taxes under the Federal Insurance Contributions Act (social security taxes) on remuneration of $100 or more paid to each employee during a calendar year. Your organization is not liable for the tax imposed under the Federal Unemployment Tax Act (FUTA).

Organizations that are not private foundations are not subject to the excise taxes under Chapter 42 of the Code. However, these organizations are not automatically exempt from other federal excise taxes.

Santa Fe Art Institute
85-0404277

Donors may deduct contributions to your organization as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to your organization or for its use are deductible for federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

Your organization is not required to file federal income tax returns unless it is subject to the tax on unrelated business income under section 511 of the Code. If your organization is subject to this tax, it must file an income tax return on the Form 990-T, Exempt Organization Business Income Tax Return. In this letter, we are not determining whether any of your organization's present or proposed activities are unrelated trade or business as defined in section 513 of the Code.

Because this letter could help resolve any questions about your organization's exempt status and foundation status, you should keep it with the organization's permanent records.

Please direct any questions to the person identified in the letterhead above.

This letter affirms your organization's exempt status.

Sincerely,

C. Ashley Bullard

Charitable Contributions to Domestic Disregarded Entities

IRS Notice 2012-52

PURPOSE

This notice provides guidance on the deductibility of contributions to domestic single-member limited liability companies that are wholly owned and controlled by organizations described in § 170(c)(2) of the Internal Revenue Code (U.S. charities) and for federal tax purposes are disregarded as entities separate from their owners under § 301.7701-2(c)(2)(i) of the Procedure and Administration Regulations (SMLLCs).

BACKGROUND

Section 170(a) allows as a deduction any charitable contribution, as defined in § 170(c). Section 170(c)(2) in part defines the term "charitable contribution" as a contribution or gift to or for the use of a corporation, trust, or community chest, fund, or foundation--

(A) Created or organized in the United States or in any possession thereof, or under the law of the United States, any State, the District of Columbia, or any possession of the United States;

(B) Organized and operated exclusively for specified purposes, including religious, charitable, scientific, literary or educational purposes;

(C) No part of the net earnings of which inures to the benefit of any private shareholder or individual; and

(D) Which is not disqualified for tax exemption under § 501(c)(3) by reason of attempting to influence legislation or participating in a political campaign.

Section 170(b) prescribes limitations on the maximum amount deductible as a charitable contribution.

Generally, a business entity that has a single owner and is not a corporation under § 301.7701-2(b) is disregarded for federal tax purposes as an entity separate from its owner (disregarded entity). See § 301.7701-2(c)(2)(i). Section 301.7701-2(a) provides that "if the entity is disregarded, its activities are treated in the same manner as a sole proprietorship, branch, or division of the owner." A business entity (including a disregarded entity) is domestic if it is created or organized within the United States, or under the law of the United States or of any state. See § 301.7701-5(a). A U.S. charity that wholly owns a disregarded entity must treat the operations and finances of the disregarded entity as its own for tax and information reporting purposes. See Ann. 99-102, 1999-2 C.B. 545. However, for employment and certain excise tax purposes, an entity that is disregarded as separate from its owner for any purpose under § 301.7701-2 is treated as an entity separate from its owner. See § 301.7701-2(c)(2)(iv) and (v).

CONTRIBUTIONS TO DOMESTIC SMLLCs

If all other requirements of § 170 are met, the Internal Revenue Service will treat a contribution to a disregarded SMLLC that was created or organized in or under the law of the United States, a United States possession, a state, or the District of Columbia, and is wholly owned and controlled by a U.S. charity, as a charitable contribution to a branch or division of the U.S. charity. The U.S. charity is the donee

organization for purposes of the substantiation and disclosure required by §§ 170(f) and 6115. To avoid unnecessary inquiries by the Service, the charity is encouraged to disclose, in the acknowledgment or another statement, that the SMLLC is wholly owned by the U.S. charity and treated by the U.S. charity as a disregarded entity. The limitations of § 170(b) apply as though the gift were made to the U.S. charity.

EFFECTIVE DATE

This notice is effective for charitable contributions made on or after July 31, 2012. However, taxpayers may rely on this notice prior to its effective date for taxable years for which the period of limitation on refund or credit under § 6511 has not expired.

DRAFTING INFORMATION

The principal author of this notice is Susan J. Kassell of the Office of the Associate Chief Counsel (Income Tax & Accounting). For further information concerning this notice, contact Ms. Kassell at (202) 622-5020 (not a toll-free call).

Y			Prereq	Imperiled Species and Ecological Communities		Required	Project is not located on (1) land containing habitat for species listed as threatened or endangered OR (2) located on land identified as a sensitive ecological community.	Letter/report from a qualified ecologist or biologist confirming no presence of endangered/threatened species or critical habitat on site Habitat data from: USFWS IPaC, NatureServe, or state natural heritage programs If any habitat is present: Consultation letter from USFWS or NM Game & Fish AND Approved mitigation plan or incidental take permit (if applicable)
Y			Prereq	Wetland and Water Body Conservation		Required	Our project avoids impacts to wetlands and waterbodies.	Wetland delineation report (Corps of Engineers or qualified consultant) Map of delineated wetlands/water bodies and buffer zones (≥50 ft) Site plan showing any trails/infrastructure within buffers Description of Best Management Practices (BMPs) used for buffer encroachments
Y			Prereq	Agricultural Land Conservation		Required	Our project avoids developing on land that is currently active agricultural use AND is classified as prime farmland/is zoned for agricultural protection.	NRCS Web Soil Survey map showing farmland classifications Statement of current land use (e.g., no active agriculture) Zoning and land use maps (showing the site is not zoned for agricultural use) If impact exists: Documentation of off-site agricultural land mitigation (easement or payment)
Y			Prereq	Floodplain Avoidance		Required	Our project has no floodplain impact.	FEMA Flood Insurance Rate Map (FIRM) with project overlay Local floodplain map (if more restrictive) Site plan showing development relative to floodplain boundaries If developing within floodplain: Flood-resilient design documentation, Engineer's report showing no increase to base flood elevations, Justification (e.g., infill exception)
10			Credit	Preferred Locations		10	Option 1: Location Type (Up to 5 points) - Given its central location and existing infrastructure, the site likely qualifies as an infill site, which could earn up to 5 points under this option. Option 2: Connectivity (Up to 2 points) - If the area achieves an intersection density of ≥200 intersections per square mile, it could earn 2 points; if it's between 90 and 199 intersections per square mile, it could earn 1 point. Option 3: Designated High-Priority Locations (1 point) - This designation aligns with LEED's criteria for high-priority redevelopment areas, potentially earning 1 point under this option.	Infill Status: Provide maps and descriptions showing the site's location relative to existing development. Intersection Density: Conduct a GIS analysis to calculate the number of intersections per square mile within a ¼-mile radius of the project boundary. High-Priority Designation: Include official documentation of the MRA designation.

2		5	Credit	Access to Quality Transit		7	Option 1: Proximity to Transit - 1 point for being within 1/4 mile of local bus Option 2: Transit Accessibility Enhancement - 1 point for Pedestrian Improvements: Adding or enhancing pedestrian infrastructure to improve access (e.g., crosswalks, bike lanes, signage).	Site and Transit Maps: A map showing the site location relative to the nearest transit stops AND a map showing transit routes and stop locations, including bus, rail, or BRT routes. Transit Service Information: Confirmation from transit agencies that they provide service within the required distance and meet the frequency requirements for the various types of transit. Pedestrian and Bike Access: A plan showing any pedestrian improvements (e.g., new walkways, bike lanes) that enhance connectivity to transit.
1		1	Credit	Bicycle Facilities		2	1 point for bike parking.	Site Plan and Bicycle Parking Locations: A site plan showing the location of all bike parking facilities (short-term and long-term). 1			Credit	Site Design for Habitat or Wetland and Water Body Conservation		1	The project restores significant portions of habitat, wetland, or water body areas, or create buffer zones for protection.	A site plan showing the location of critical habitats, wetlands, or water bodies and identifying the area that will be protected, restored, or enhanced. Mapping the natural habitats or wetlands present before development and demonstrating how these areas will be preserved or restored. Documentation verifying the type of wetlands or habitats found on the site, the importance of those habitats to the local ecosystem, and any specific endangered species or unique vegetation that will benefit from protection. Restoration plan that outlines how the site will be restored to native or natural conditions.
1			Credit	Restoration of Habitat or Wetlands and Water Bodies		1	The design calls for the restoration of at least 10% of the project area, or 0.3 acres, whichever is greater, excluding land preserved in a natural condition under other LEED credits. The design uses native or adapted vegetation (preferably native to the ecoregion).	Narrative that describes: What was the previous condition? What restoration actions were taken (regrading, planting, removing invasives, reintroducing hydrology)? What is the target ecological function (e.g., pollinator habitat, riparian buffer)? Site plan that: Shows restored areas relative to the overall site. Includes habitat or wetland boundaries and buffer zones if applicable. PREDESIGN REPORT & DEVELOPMENT PROGRAM

Midtown Arts & Design Aliance Predesign Report

MASS.
Issued 12.21.2023

Overview of Approach

Note: This is abridged from a MASS Design Group pre-design report completed in January 2024, as part of the due diligence efforts during the Exclusive Negotiation Phase. These recommendations are based solely on pre-design efforts and may change based upon further design studies and cost during future design and construction phases.

Significant changes to this scope (over 25% of the scope of work in any phase) will be reviewed by the Metropolitan Redevelopment Agency.

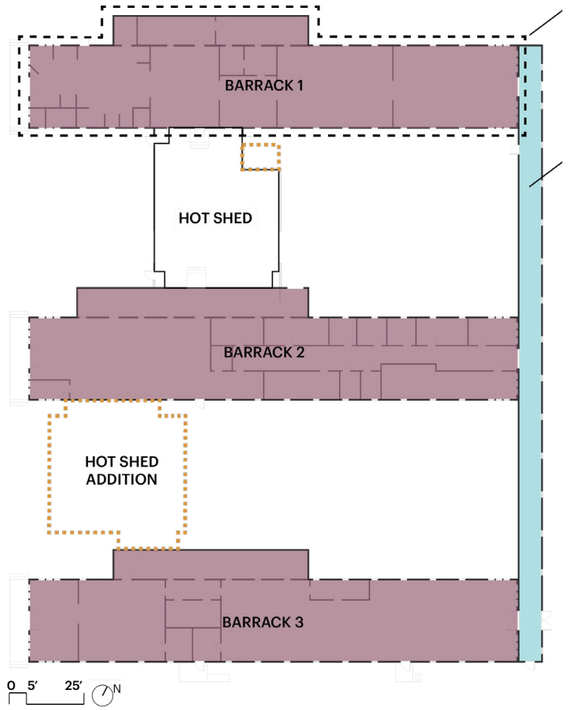
Site & Energy Infrastructure



Barracks

Summary

The renovation of the existing Barracks buildings and a small addition will accommodate future use as a makerspace and training center for multiple tenants. This will include all necessary improvements to bring the buildings up to current code for the proposed use and make them ready for leasing. Major scopes of work in this phase include:

- Demolition of 1,590 sf “Hall” connecting the east end of the three Barracks.
- Renovation of 13,563 sf of “Barracks”
  - Full replacement of exterior cladding, sheathing, windows, doors, and interior finishes.
  - New MEP systems and fire sprinklers throughout.
- Minor Renovation of 1,705 sf of existing “Hot Shed” to include:
  - Removal and replacement of metal panel wall cladding
  - Replacement of electrical systems
  - Addition of accessible ramp and stairs
- New construction of 1,925 sf of “Hot Shed Addition”.
- ADD-ALT 1: Remove the entirety of the floor structure in Barrack 01 and replace it with new floor framing and subfloor as required to accommodate 125 psf live load requirements of light manufacturing use.

Existing Conditions

Demolition

- Remove the narrow “Hall” connecting the east end of the three Barracks, including foundations. The wood framing of the east wall of the Barracks is to remain in place. The Hall appears to be structurally independent of the Barracks, so no interim shoring is expected to be necessary during demolition. Roof flashing mastic at the connection of the Hall to the Barracks roof has been identified as an Asbestos Containing Material (ACM) and will require abatement.
- Remove the small shed at the east side of Barracks 02 Porch. This includes a slab on grade, wood framing, and corrugated metal cladding.

Exterior Selective Demolition

- Remove all siding, sheathing, and crawlspace skirt at Barracks to expose framing. The shingle siding has been identified as an ACM and will require abatement.
- Remove all windows, doors, and wall vents at Barracks.
- Selectively remove damaged areas of T&G wood soffit and fascia at Barracks (assume 25%).
- Remove all corrugated metal siding at the Hot Shed to expose the framing. Existing windows and doors remain.

Interior Selective Demolition

- Remove all interior partitions.
- Remove finishes at all exterior walls to expose framing.
- Remove floor finishes to expose subflooring.
- Remove all ceilings to expose framing.
- Remove all systems and equipment, including all extant electrical systems, HVAC equipment, plumbing, and fire sprinklers.
- ADD-ALT 1: Remove all floor finishes and subflooring in Barrack 01. Existing pier footings may remain in place.

Overview of Approach (cont.)

Services

Mechanical

The proposed program for the Barracks includes woodworking, metal working, clay/pottery and 3D printing. The airflow for these types of spaces will generally be once-through, i.e. 100% exhaust. We recommend the Barracks be served by makeup air units with evaporative cooling with hot water coils. For heating, we recommend water-to-water heat pumps to generate low-temperature hot water to serve the

Overview of Approach (cont.)

heating coils in the makeup air units as well as perimeter radiant fin-tube heating units. Suspended hot water unit heaters may be used in certain locations. The water-to-water heat pumps would be tied to the geo-exchange loop. Dedicated source capture exhaust systems should be considered for woodworking, hot work, clay mixing and over kilns.

Plumbing

There is limited plumbing currently located in the Barracks. New plumbing fixtures and plumbing distribution will be provided as required to support the program. Utility sinks with solids interceptors will be provided in the clay/pottery areas and oil interceptors should be provided in areas where oil-based paints, greases or other oils are present. Floor drains/sinks will be provided in wet areas to facilitate cleaning/ maintenance.

Electrical

Distribution. The existing distribution system is dated and we recommend replacement in these buildings with a 208Y/120V, (three-phase) system. This will need to be coordinated with PNM. Single-phase equipment that is planned to be used in these buildings will need to be verified that they can operate at 208V instead of 240V.

Lighting. We recommend replacing all lighting systems with LED technology and occupancy sensor controls to meet the current energy code. Emergency egress and exit signs should also be replaced. If the ceiling systems are replaced, all conduit systems shall be concealed. The design team will maximize lighting power efficiency, with a design goal of 1w/sf maximum. Life safety power for areas will be provided via 90-min batteries within luminaires. No generator is anticipated at this time.

Fire Sprinkler

A new wet-pipe fire sprinkler system will be provided in the Barracks to provide full coverage. The expected NFPA 13 hazard classification is Ordinary Hazard (Group 2) for all metalworking and woodworking areas and Ordinary Hazard (Group 1) for other spaces.

Fire Alarm

The fire alarm system FACP, horns, strobes, and pull stations should also be replaced. Flow and tamper switches for the new wet pipe sprinkler system will also need to be monitored by the fire alarm system.

Low Voltage

- LV System Rough-In. The Barracks renovation should include rough-in work for the systems described below.
- Data Equipment. Assume a data equipment room for wireless internet and tenant-provided servers as needed.
- Wireless Access. The Barracks should be outfitted with wireless access points.
- Cable/Telephone. No cable or telephone service shall be provided in the base renovation of the Barracks.
- Audio Visual. No audio visual equipment shall be provided in the base renovation of the Barracks.
- Access Control. One door at each of the three Barracks should be configured for keycard access control. The remaining doors should be keyed.
- Security. 180 degree security cameras shall be positioned at the four exterior corners of each barrack. Allow for up to four security cameras interior to each of the three Barracks.

Sitework

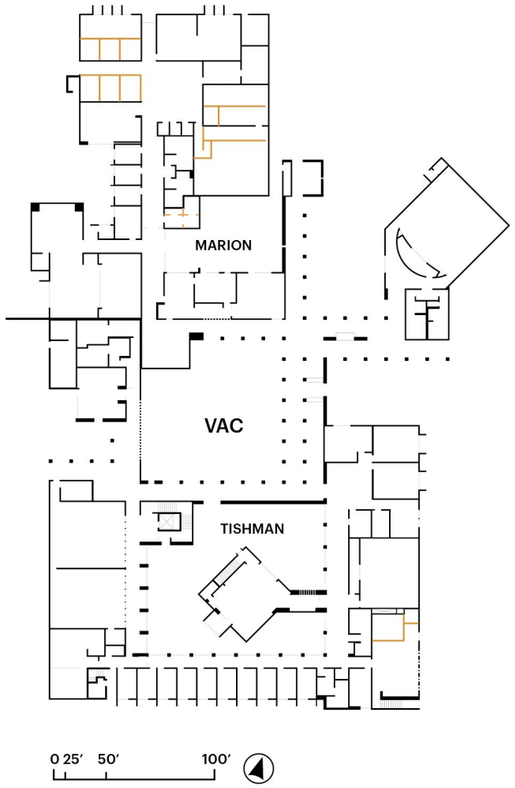
- New sidewalk connections to provide accessible entrances at east doors. Assume replacement of the entire branch from N/S sidewalk, approximately 16'L x 6'W at each of the (3) doors.
- Minor re-grading to provide accessible entrances and exits.
- Re-planting and grading of the area of demolished "Hall".
- Any sitework or trenching associated with MEPF site utilities.

VAC

Summary

The renovation of the existing Visual Arts Center buildings (Tishman, Marion, and Tipton) will accommodate the proposed use as leased office spaces with shared amenities. This will include all necessary improvements to return the buildings to an operational status, bring them up to current code for the proposed use, and make them ready for leasing to tenants. Major scopes of work in this phase include:

- Extensive replacement of damaged mechanical and plumbing systems throughout, including associated removal and replacement of wall and ceiling finishes.
- Minor space reconfiguration, including interior partitions and casework removal in isolated areas.
- New window openings in isolated locations.



- Addition of kitchens/breakrooms in Marion 134 and Tishman 132.
- Re-lamping or replacement of outdated lighting fixtures.
- Replacement of fire alarm system.

Existing Conditions

Exterior Selective Demolition:

- Removal of stucco, sheathing, insulation, and framing as required for installation of new window openings at the locations listed under OPENINGS. Temporary shoring of wall framing for installation of new headers per structural will be required during demolition.
- Removal of stucco "roof" over Tishman Room 132, including metal deck and open web steel joist framing. A temporary enclosure of this space will be required during demolition.
- Removal of storefront window system at the west wall of Tishman Room 132.

Interior Selective Demolition:

- Removal of wall finishes as required to replace damaged domestic water supply lines. Assume 100% of in-wall lines will require access.
- Removal of ceiling finishes as required to replace damaged mechanical equipment, piping, and domestic water supply lines. Assume that roughly 50% of the total ceiling area will require removal with a 40% / 60% ratio of GWB to ACT ceilings. ACT ceiling tiles and grid should be salvaged for reinstallation where possible.
- Removal of non-loadbearing interior partitions in selected areas.
- Removal of darkroom equipment and millwork in areas to be converted to office use.

Foundations

- Existing foundations to remain. No work to be performed.
- See Opening type G-7 for associated foundation modifications at this location.

Enclosure

Existing Exterior Walls

- Isolated patching and crack repair of synthetic stucco. Assume 5% of total wall area.

Roofs

- TYPE R-1: Existing Flat Roof. See roofing inspection reports and proposals in appendix for detailed scope of work and cost data. Assume all proposed repairs will be completed.
- TYPE R-2: Existing Standing Seam Metal Roof. Existing to remain. No work.
- TYPE R-3: Sloped Stucco "Roofs". Coat horizontal stucco surfaces with clear water-repellent penetrating sealer. Provide allowance for stucco crack repair.
- TYPE R-4: New Roof at Tishman Room 132 (R-30 min).

Overview of Approach (cont.)

- Gravel-ballasted EPDM roofing. Match existing gravel ballast appearance or relocate gravel from a non-visible location. Including associated wall terminations and flashing at existing walls.
- 1" tapered polyiso insulation
- Metal decking on open web steel joists with WF steel header at window opening. All roof structure will need to be set at a +/- 12" lower bearing height. Modifications to structural support in this area will be required.
- R-30 fiberglass batt insulation, wired to the bottom of deck

- Wood Entry Doors at Tipton and Marion. Include an allowance for structural repairs and refinishing.

Interiors

Walls

Patching of Existing Finishes. Patch all wall openings required for piping replacement with finish to match existing / previous.

- For GWB walls, assume patching with 5/8" Type X GWB and localized re-painting to match adjacent finishes.
- Where multiple openings are required in a single exposed tiled wall (i.e. fixture walls of restrooms) assume re-tiling of the entire wall with new small format (2x2) ceramic tile to minimize the need for matching to existing finishes.

New Partitions. 5/8" Type X GWB on 4" metal stud.

Floors *(see room schedule for the extent of each type)*

- TYPE F-1: Sealed concrete. Assume deep clean and re-polish
- TYPE F-2: Tile. Existing to remain, include allowance for deep clean
- TYPE F-3A: Carpet - Remove and replace with new modular carpet tiles
- TYPE F-3B: Carpet - Existing to remain, include allowance for deep clean

Ceilings

Patching of Existing Finishes. Patch all ceiling openings required for piping, mechanical equipment, and ductwork replacement with finish to match existing / previous. Area percentages are given as a percentage of the total ceiling area.

- For both GWB and ACT ceilings, reuse or reinstall existing suspended framing / grid wherever possible. Assume 15% replacement of the total area of ceiling framing.
- For GWB ceilings, assume removal and replacement of 25% of the total ceiling area with 5/8" Type X GWB. Assume re-painting of all ceilings.
- For ACT ceilings, assume removal and reinstallation of 25% of the total ceiling area. Assume the replacement of damaged or missing tiles in 10% of the total ceiling area.

Doors

Existing Doors. Include an allowance for miscellaneous repairs to doors and hardware (changing lockset types, replacing closers, reinforcing damaged doors, etc.).

Casework

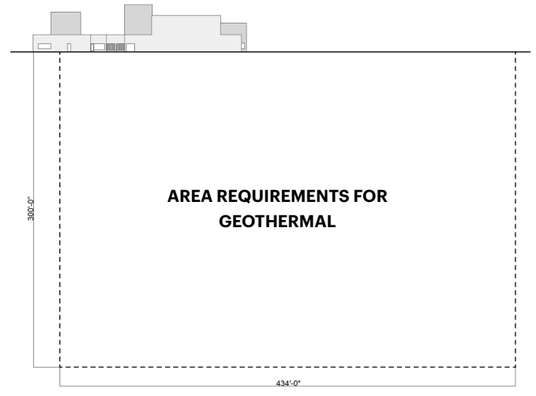
New Casework. In the new kitchen/breakroom spaces, assume PLAM base cabinets and uppers with quartz countertops.

Services

Mechanical

Three replacement HVAC alternatives for the building are summarized below and in the attached Table M1.

- Option A – Ground-Coupled Water Source Heat Pumps. This option includes a geo-exchange loop with approximately 90 boreholes, ~300-400 ft deep. Assume 20,000 sq ft of surface area below-ground per diagram for borehole drilling. New distribution piping would be installed throughout the building to



water-source heat pumps located above the ceiling. New dedicated outside air units would supply ventilation air to the spaces. Existing ductwork would be reused to the extent possible. New HVAC controls would be provided throughout the building.

Overview of Approach (cont.)

- Option B – Single Duct VAV with HW Reheat,Electric Boilers (Replace existing systems with all-electric equivalent). This option would replicate the existing system, except that gas-fired equipment would be replaced by electric resistance and/or heat pumps to convert the system to all-electric. Central heating and cooling plants would consist of electric resistance boilers and air-cooled chillers, respectively. New 4-pipe distribution piping would be installed throughout the building, ductwork would be reused. New HVAC controls would be provided throughout the building.
- Option C – Single Duct VAV with HW Reheat, Gas-Fired Boilers (Replace existing systems like-for-like). This option would replicate the existing system. Existing gas-fired equipment would be replaced with new gas-fired equipment. Central heating and cooling plants would consist of gas-fired boilers and air-cooled chillers, respectively. New 4-pipe distribution piping would be installed throughout the building, ductwork would be reused. New HVAC controls would be provided throughout the building.

Plumbing

Full replacement of all domestic water supply lines in the building is likely required due to freeze damage. Assume 100% replacement. Assume the replacement of 10% of existing plumbing fixtures due to operational issues.

New plumbing fixtures will be located in the new kitchen / breakrooms in Marion 134 and Tishman 132. Assume a sink, dishwasher, and refrigerator at each location.

Electrical

Electrical Distribution. The electrical distribution system appears to be in good working condition. We recommend replacing all 5 meters with updated/ networkable meters to provide the ability to meter the buildings remotely. There appears to be adequate space in the main distribution board to add breakers to accommodate photovoltaic/BESS system connections. The scope of this work will need to be confirmed during the design phase.

Lighting. We recommend replacing fluorescent fixtures and re-lamping incandescent fixtures (where possible, otherwise replace) with LED technology. During the site visit, it was expressed that the existing track lighting also needs to be replaced. Existing dimmer switches will need to be replaced to be compatible with LED fixtures. Occupancy/vacancy sensors should be provided in all areas to meet the current energy code. Life safety power for areas will be provided via 90-min batteries within luminaires. No generator is anticipated at this time.

Fire Sprinkler

No fire sprinklers are in the building, and none are required based on occupancy classification.

Fire Alarm

Based on the age of the existing fire alarm system (useful life for fire alarm systems is approximately 20 years), we recommend replacing the FACP, smoke detectors, horns, strobes, and pull stations in all four buildings. Existing wiring can be reused.

Low Voltage

LV System Rough-In. The communication system cabling and equipment will need to be reviewed by the owner's IT department to determine if the cabling and equipment is adequate to serve the planned use of the facility. It is recommended that the IT system be upgraded as part of the construction phase. The VAC renovation should include rough-in work for the systems described below.

- Data Equipment. Assume a data equipment room for wireless internet and tenant-provided servers as needed.
- Wireless Access. The VAC should be outfitted with new wireless access points.
- Cable/Telephone. No cable or telephone service shall be provided in the base renovation of the VAC.
- Audio-Visual. No audio-visual equipment shall be provided in the base renovation of the VAC.
- Access Control. Assume keycard access control at four primary entrances across the VAC complex. The remaining doors shall be keyed.
- Security. Provide a modest allowance for a vendor-supplied security system around the perimeter of the VAC and in common spaces and hallways within the complex.

Sitework

Assume replacement of approximately 25lf of damaged sidewalk, including removal of existing concrete.

Local repair / re-setting of brick paving throughout, assume approximately 500 sf.

Any sitework or trenching associated with MEPF site utilities.

Landscape & Energy Infrastructure

Summary

This Scope of Work focuses on landscape and energy infrastructure investments to the inner boundary within the MADA block. In this phase, energy infrastructure upgrades for solar PV compatibility, as well as landscape improvements will be made.

Energy Infrastructure

Solar

Based on Architecture 2030 targets for energy efficiency, baseline EUIs (energy use intensity) for the buildings have been reduced by 20% to a target EUI of 45 kbtu/sf/yr. Based on this target, probable solar PV area is in the range of 30,000. The majority of PV can be direct-mounted to the roofs of the VAC. Assume the remaining SF of PV will require an elevated structure for above-parking PV canopies.

Building		VAC	Barracks	Total
NSF		31,257	13,914	**45,171**
Baseline EUI		58.0	57.9	**58**
Target EUI		45	45	**45**
Target kBTU/yr		1,406,565	626,130	**2,7032,695**
Target kWH/yr		412,236	183,506	**595,742**
SF PV Required		20,700	9,200	**29,900**

Site Work

Landscape

Sitework extents are based off of the property boundary on the following page. Total site area to receive improvements (excluding building footprints and 5' offset from each building, which is sitework that will be performed in Phases 1 and 2) is 61,147 sq. ft. Assume the following:

- 30% of site area to be permeable unitized paver
- 50% of site area to be low-mow ground cover
- 20% of site area to be irrigated plantings (provide allowance)
- Assume no stormwater retention infrastructure

Site Lighting

Provide allowance for exterior site lighting. Exterior light fixtures will be positioned at building entries and surrounding sites for security and personnel safety. Color temperature is expected to be 3000K. The exterior lighting will be automatically controlled by a lighting control system to turn on at dusk and off at dawn. No roadway lighting is to be provided.

a. Traditional Design Services

i. **Description:** MASS provides mission-driven architecture and planning services that center justice, human dignity, and environmental stewardship. Our design services begin with visioning, where we align on project goals, impacted communities, and engagement strategies. Through pre-design and schematic design, we translate those goals into feasible spatial strategies. We continue refining the design through design development, documentation, and construction administration, ensuring the process reflects the project's social and ecological priorities. Our services also include cost management, feasibility analysis, contractor coordination, and post-occupancy evaluation to ensure long-term impact and learning.

i. **Description**: MASS Design Group's Accompaniment and Impact services center on building trust and delivering human-centered, healing-focused design through long-term partnership. Inspired by Dr. Paul Farmer's philosophy of accompaniment, the approach emphasizes staying present through all phases of a project—from early visioning to post-occupancy evaluation. The team supports partner readiness by demystifying capital project planning with tools like Purpose Built, guiding organizations to align facilities with mission. Meaningful engagement is tailored to each project, fostering mutuality, healing, and inclusion of impacted individuals and communities, while intentionally avoiding extractive or superficial processes. This includes mapping community impact, developing customized engagement plans, and incorporating feedback loops to directly inform design. Finally, research and impact tracking are integrated from the outset, using evidence-based design strategies and MASS's Impact Framework to measure cultural, economic, health, climate, and ecosystem outcomes—ensuring that built environments promote justice, well-being, and long-term positive change.

future. Our work begins with place-based research conducted in partnership with Native communities to document cultural practices, land relationships, and community needs—producing design frameworks that uphold health, sovereignty, and cultural continuity. These insights inform our Catalyst Projects, which co-design buildings and landscapes that demonstrate the transformative power of culturally rooted design to support healing, resilience, and self-determination. Beyond individual projects, we advocate for systemic change by publishing, convening, and collaborating with Native architects and planners to shift how architecture is taught and practiced. This includes integrating Indigenous frameworks into policy, education, and capital access strategies—ensuring that Native leadership can shape the built environment at every level.

The Santa Fe Indigenous Center (SFIC), established in 2008 is designed by and for Indigenous Peoples with the mission of supporting, promoting, and enriching our vital, diverse community by identifying and serving the needs and interests of our people. SFIC has designed its programming to fit the needs of urban and rural Native Americans residing within the Santa Fe County. We offer financial emergency assistance, food access through our bi-weekly food distribution program, and focus on cultural revitalization of traditional customs, and traditions. The Indigenous community's safety, access to food and financial stability are important needs that SFIC strives to support. We host a free, drive-thru bi-weekly food distribution every other Friday for food access. We provide the opportunity for financial emergency assistance for housing, rent and utilities so that we remain supporting the Indigenous community for stability, and safety for our Indigenous family and friends.

Last year, we offered support with $52,120.62 in financial assistance for rent and utilities emergencies. We held 24 food distributions handing out food bags and produce boxes to 1,241 families (2,302 adults; 1,268 children). We also held 9 Indigenous women and men's gatherings, in addition to 28 combined outreach events and cultural revitalization sessions.

The Indigenous community is celebrated by us through cultural events held in the city. We host annually the Indigenous Community Day and the Honoring All Nations Powwow on the Santa Fe Plaza for Indigenous Peoples' Day. We also allow the space for learning about cultural values, traditional practices, and knowledge systems at the SFIC. Through our network of Indigenous partners, artists, motivational speakers, health professionals, community leaders, and traditional knowledge bearers that offer skill sharing classes such as beading classes, skirt making, ribbon shirt making, drum-making, Navajo shoe game, and more.

Our continued service to the Indigenous community is strengthened by our staff and board of directors own Indigenous backgrounds and knowledge of working with tribal community members. The familiarity of cultural customs and awareness of systemic barriers, helps deepen our relationship within the Indigenous community. SFIC networks with other Native led organizations, Tribal governments and Tribal officials, State Representatives, and other community non-profit organizations to stay in que with social and political factors that may have an impact on Indigenous communities.

O. Statement of Program Service Accomplishments. Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. In a clear and concise manner, fill in the information below for each of the three largest program services by your organization.

i. Professional Development

For over 60 years, UNM Continuing Education (UNMCE) has been a cornerstone in New Mexico's workforce development landscape, offering responsive and relevant professional development and career training programs. Our work supports individuals and organizations in adapting to the demands of today's rapidly changing technologies and evolving job markets.

Each year, UNMCE designs and delivers dozens of new non-credit certificate and certification programs tailored to current workforce needs. We also continually refine and retire programs to ensure our offerings remain practical, future-focused, and aligned with industry standards.

UNMCE's impact is broad: while 65% of the students we serve live in the greater Albuquerque area, 20% come from across New Mexico, and 15% join us from global locations—reflecting the expanding reach of our virtual and hybrid learning opportunities.

Though sometimes seen as a point of entry for those exploring alternatives to traditional degree programs, our professional development programs serve a diverse student population. Our learners include career changers, aspiring entrepreneurs, customer service professionals, seasoned and emerging leaders, coders, accountants, project managers, and more—each on their own unique path toward advancement.

UNMCE remains committed to equipping New Mexico's workforce with the skills, credentials, and confidence to meet today's challenges and seize tomorrow's opportunities.

ii. Personal Enrichment and Osher Life Long Learning Institute

Personal Enrichment

UNM Continuing Education (UNMCE) offers more than 1,000 Personal Enrichment courses each year, providing New Mexicans with accessible, engaging opportunities to explore their interests, expand their skills, and connect with others. These programs—delivered both in-person and online—span a wide range of subjects, including visual arts, writing, music, dance, performance arts, language, health and fitness, culinary arts, astronomy, mindfulness, and much more.

While 80% of our students currently reside in the greater Albuquerque area due to the concentration of in-person classes, 20% join us from across New Mexico and beyond. Expanding our in-person Personal Enrichment programming into Santa Fe allows us to serve a broader segment of the state, bringing UNMCE's expertise and diverse course offerings to the Santa Fe community. This expansion will also create new opportunities for local Santa Fe artists and instructors to share their talents and teach through UNMCE.

Osher Lifelong Learning Institute (OLLI) at UNM

The Osher Lifelong Learning Institute (OLLI) at the University of New Mexico provides enriching, academically oriented, non-credit courses for adults aged 50 and older. With no admission requirements, tests, or grades, OLLI fosters an inclusive learning environment where curiosity thrives and the community flourishes.

Course topics range from history and art history to creative writing, philosophy, and science—offered by university faculty and subject-matter experts passionate about lifelong learning.

As part of our vision for expanded outreach, we aim to bring OLLI programs to Santa Fe and the MADA community, increasing opportunities for adults 50+ to engage intellectually and socially. This expansion will also support new teaching opportunities for local instructors who are eager to contribute to this vibrant, intergenerational learning community.

iii. Custom Programs and Strategic Partnerships at UNM Continuing Education

UNM Continuing Education (UNMCE) delivers a diverse range of customized programs designed to meet the unique needs of individuals, businesses, nonprofits, and public-sector organizations. These tailored offerings span professional development, career training, the arts, and language instruction—each crafted in collaboration with partners to align with specific workforce goals, learning outcomes, and organizational priorities.

In addition to program development, UNMCE offers robust support services to both

UNM-affiliated departments and external partners. These include registration management, marketing support, digital badging, Continuing Education Units (CEUs), and other administrative services. As we expand our reach, we anticipate being a key resource for MADA and its partners, providing both educational programming and operational support to help bring high-impact learning opportunities to Santa Fe.

New Santa Fe Program: Expanding Access and Opportunity

UNM Continuing Education is proud to launch its first formal presence in Santa Fe through a new initiative located on the MADA campus. This program is designed to increase access to workforce training, career education, and industry-recognized certifications for Santa Fe County residents aged 18 and older.

The program will focus on identifying educational gaps within the community and developing responsive programming in collaboration with local instructors and industry partners. Areas of focus may include design, hospitality, technology, entrepreneurship, and other high-demand sectors.

Year 1 Impact Goals:

- Deliver a minimum of five (5) pilot class programs at the MADA campus
- Employ five (5) local instructors
- Serve between 60 and 100 adult learners through low-cost or philanthropically subsidized classes

In partnership with MADA, the UNM College of Fine Arts, the UNM School of Architecture and Planning, and other stakeholders, UNMCE will evaluate and refine its offerings throughout the first year. The goal is to scale the program to serve over 500 Santa Fe residents annually, with more than 70% being new learners or emerging professionals pursuing job training (e.g., interior design, hospitality) or laying the groundwork for future degree pathways.

UNMCE will also collaborate with UNM STEAM and other institutional partners to align programming with regional workforce needs and provide meaningful pathways from education to employment.

Today, Vital Spaces is
more than just an arts nonprofit, it’s about connections and creativity. a. Description of program and services provided: In order to fulfill our mission,

Vital Spaces has been and continues to be committed to serving our constituents throughout Santa Fe, including at multiple locations that allow the entire community to participate. At the MADA campus, Vital Spaces is looking to serve working artists through providing low cost individual and group studio spaces, a dance studio and associated programming, providing low cost access to MAKE Santa Fe makerspace facilities, and working with MADA and other MADA partners to program the community room planned for what is currently named Tishman Hall in the Visual Art Center. This is based on identified community needs and abilities to program space in Midtown.
b. # of persons benefited and relevant demographics, if applicable: While we do not yet have demographics for the MADA project, Vital Spaces currently serves approximately 56% artists of color and 75% low income artists, including emerging professionals with the need for studio space. For the dance studio, we see the need for children and young people to have additional access to low-cost dance programming. Once this is up and running, we anticipate that this will allow up to 150+ children and youth from low-income households all across Santa Fe to participate in dance lessons monthly and employ 5-10 dance teachers.
P. Total Program Expenses. Add all Costs of above program: $Year 1: approximately 75k annually, growing to $150k in Year 5

2. Artist Studio Program:

Vital Spaces has successfully provided affordable studio spaces for emerging and established artists, offering a creative haven that fosters professional growth and community collaboration. The program supports a diverse range of artists, particularly BIPOC and low-income creatives, by offering subsidized rates in a community-centered environment. Over the past 5 years, we have served over 30 artists, contributing to the local arts ecosystem by providing space for the development of new works, exhibitions, and creative practices. The program also includes mentorship opportunities, ensuring that artists have access to resources that aid in both artistic and business growth.

3. Community Art Closet:

The Community Art Closet is a cornerstone of our commitment to supporting artists at all stages of their creative journey. By providing free art supplies to artists, particularly those from low-income backgrounds, we have enabled over 200 individuals per month to access the materials they need to create. The closet serves a broad range of people, from hobbyists to professional artists, and has become an essential resource in Santa Fe. This program directly addresses the financial barriers that prevent many artists from accessing quality supplies, ensuring that art remains accessible to all.

INTRODUCTION

Overview of the Appraised Property

The subject property consists of two buildings within the former Santa Fe University of Art & Design campus just south of St. Michael's Dr. and east of Cerrillos Rd. Access to the campus is provided Midtown Ave., Midtown Avenida, and Midtown Calle, all private access roads off of St. Michael's Dr. The street address is 1600 St. Michael's Dr., Santa Fe, NM 87505. This appraisal will provide opinions of market rent and market value "as is" of the fee simple interest in the subject properties (effective March 16, 2026).

Legal Description

According to Santa Fe County Assessor records, the subject is legally defined as follows:

> *Virtual Arts Center - Tract K-1a, Midtown Site, Section 34, T17N, R9E, City of Santa Fe, Santa Fe County, New Mexico.*
>
> *Brunn's Barracks Building - Tract P-1b, Midtown Site, Section 34, T17N, R9E, City of Santa Fe, Santa Fe County, New Mexico.*

Ownership and History of the Subject Property

Current ownership of the subject Visual Arts Centers and Brunn's Barracks Building has been vested in the City of Santa Fe for more than three years. Ownership is planning on leasing both buildings to a developer who is planning on renovating and converting the space into artist studios. The Art Studio Building has reached the end of its economic life and contributes no value over and above the value of Tract P-1b "as if vacant." To the best of our knowledge there has been no other real estate activity pertaining to the subject in the last three years.

Scope of the Assignment

The assignment is to provide opinions of market rent and market value "as is" and to deliver an appraisal report of our findings and conclusions. The appraisers have:

1) made a physical interior and exterior appraisal inspection of the subject property as well as a visual inspection of the surrounding neighborhood;
2) relied on the rent roll, physical measurements, and site plan provided to determine building area for the subject property.
3) made a physical appraisal inspection to determine the type and quality of construction and any possible functional obsolescence associated with the subject improvements;
4) relied on the recorded survey in order to identify documented or apparent easements, restrictions or encroachments;
5) concluded a highest and best use;
6) Analyzed a three-year history prior to the effective date of this appraisal of the subject property;
7) researched and collected relevant vacant land sales data, derived appropriate adjustments, and reconciled sales data and subsequent analysis into a credible indication of market value via the sales comparison approach;
8) We collected available data concerning recent signed leases on improved properties which compete with the subject properties. Confirmation of the data was obtained through personal interviews or by telephone conversations with owners, tenants, or real

estate brokers. Knowledgeable real estate professionals were surveyed to determine supply and demand relationships, appropriate comparable rentals, typical listing times, and current market conditions. After the pertinent market and rental information was confirmed, the data was thoroughly analyzed in order to establish market rent for the subject property.

9) The Cost Approach is not applicable, as the subject improvements are older, making any estimate of accumulated physical depreciation overly subjective.

10) An Income Approach was completed in order to establish market rent and market value for the subject property.

11) A Sales Comparison Approach was completed to determine market value "as is" for the subject property.

The appraisal is intended to conform to the guidelines of the Appraisal Institute. The report is a recapitulation of the appraisers' data, analysis, and conclusions consistent with the reporting guidelines of Standards Rule 2-2 (a). Supporting documentation is retained in the appraiser's file.

Intended Use of the Appraisal

The intended use of this assignment is to aid the client in portfolio management decisions. The intended user of this report is the City of Santa Fe. This appraisal may not be used by any individual or entity other than the client, subsidiaries and/or affiliates.

Market Rent

Market rent is defined as:

> *"The most probable rent that a property should bring in a competitive and open market under all conditions requisite to a fair lease transaction, the lessee and lessor each acting prudently and knowledgeably, and assuming the rent is not affected by undue stimulus."*[1]

Property Rights Defined

The market value and market rent for the subject property is based on the fee simple interest in the property as of March 16, 2026, unencumbered by any leases.

Fee simple estate is defined as:

> "Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat."[2]

Marketing Time

A reasonable *exposure time* is the amount of time, leading up to the date of the market value, necessary to expose a property to the open market in order to achieve a sale. Marketing periods for similar sales of this type property typically range from a few to 12 months. In our opinion, less than 12 months is a reasonable *exposure time* for the subject under current market conditions.

The projected *marketing time* is the length of time it would probably take to sell the subject if placed on the market as of the appraisal date. If placed on the market and appropriately priced, we believe there is a high likelihood the subject would sell within less than 12 months. During the

[1]Appraisal Institute, The Dictionary of Real Estate Appraisal, Seventh Edition, 2022 Page 116
[2] Ibid, p. 73

foreseeable future, we project that the *marketing time* for the subject should be equal to or lower than the estimated exposure time, i.e., less than 12 months.

Effective Dates of Appraisal

Our most recent inspection of the subject property was March 16, 2026; therefore , the effective date of market value and market rent "as is" is March 16, 2026. The date of this report is April 22, 2026.

LIMITING CONDITIONS AND ASSUMPTIONS

The appraisal described and contained herein is expressly limited and conditioned upon the terms, assumptions and other matters contained in this section entitled "Limiting Conditions and Assumptions." Said limiting conditions and assumptions are hereby incorporated into the appraisal in their entirety by this reference.

Appraisal Report

This document is an appraisal report and is intended to comply with the reporting requirements set forth under Standards Rule 2-2 (a) of the Uniform Standards of Professional Appraisal Practice (USPAP) for an appraisal report. The scope of this report has been detailed in the Scope of Work section which clearly outlines approaches used to estimate value.

A. Scope of the Appraisal

Dominion Property Advisors ("Appraiser"), acting herein by and through its authorized appraisers, have been retained by the Client to provide opinions of fee simple market value “as is” and market rent for the subject property, which opinions are fully set forth in the Appraisal. In compiling the Appraisal, the Appraisers have relied upon information provided to them by the Client. The assumptions which have been made concerning the Appraisal include the foregoing and other specific assumptions more particularly set forth in the Appraisal. The Appraisers have not independently verified all of the information furnished to them or assumptions made with respect to the Appraisal unless otherwise indicated by the Appraisers and therefore are not responsible for their content or their effect on the Market Value of the Property.

B. Intended Use of the Appraisal

The Appraisers have been engaged by the Client to provide opinions of fee simple market value and market rent “as is” as an aid in portfolio management. Any other use of the Appraisal without the prior written consent of the Appraisers is strictly forbidden. Any unauthorized use of the Appraisal will render the Appraisal null and void and of no force or effect.

C. Severability

No portion of the Appraisal may be reproduced in whole or in part without the prior written consent of the Appraisers.

D. Copies, Publication, Distribution, Use and Ownership of Report

Possession of this report or any copy thereof does not carry with it the right of publication, nor may it be used for other than its intended use; the physical report(s) remain the property of Dominion Property Advisors for the use of the client, the fee being for the analytical services only.
The Bylaws and Regulations of the Appraisal Institute require each Member and Candidate to control the use and distribution of each appraisal report signed by such Member or Candidate; this appraisal report shall not be given to third parties without the prior written consent of the signatories of this appraisal report. Neither all nor any part of this appraisal report shall be disseminated to the general public by use of advertising media, public relations, news, sales or other media for public communication without the prior written consent of Dominion Property Advisors.

E. Other Services

The Appraisers have not been engaged to fulfill any services other than those set forth in the discussions with the lender, the terms and conditions of which are hereby incorporated herein by this reference. The Appraisers are not obligated to provide any other services, including but not limited to, testimony in court or before any other body charged with interpretation of enforcement of the Appraisal. The Appraisers shall not provide any

post-appraisal consultations with the Client or other parties without the payment of additional fees of the Appraiser's normal hourly rates for such services then in effect.
If Appraisers shall be required to provide any testimony pursuant to any subpoena, Client shall pay any costs and expenses associated with such testimony, which shall include, but not be limited to, reasonable attorneys' fees and compensation of the Appraisers at their normal hourly fee.

F. Real Estate Values

Due to the nature of real estate valuation and the complexities of external and internal factors which dictate the Market Value and Prospective Market Value of any real estate, and the rapid changes and fluctuations with respect to the valuation of real estate, the opinion of the Appraisers set forth in the Appraisal concerning the Market Value of the Property is reliable as of the Effective Date and should not be considered as reliable at any time thereafter.

G. No Guarantee or Warranty

The Appraisers make no guarantee or warranty, whether implied or expressed, concerning the Market Value and Prospective Market Value set forth in the Appraisal. The Appraisal merely set forth the Appraisers' opinions of such Market Values based upon information submitted by the Client and assumptions made by the Appraisers with respect to the Property.

H. Americans with Disabilities Act "ADA"

The appraisers have not made or been furnished with a specific compliance study to determine if the subject property (existing and or proposed) is in compliance with the specialized requirements of the ADA. It is possible that the subject property is not in compliance with the ADA requirements which became effective in January of 1992. This could negatively impact the market value of the subject property and any such finding might require revision of this appraisal and its market value estimate. Unless evidence is furnished to the contrary, the appraiser assumes compliance. It is recommended that the Client obtain an expert opinion in regard to the specific requirements of the ADA.

I. Legal, Engineering, Financial, Structural or Mechanical Components; Nature, Hidden or Unapparent Conditions, and Soil

No responsibility is assumed for matters legal in character or nature, nor matters of survey, nor of any architectural, structural, mechanical or engineering nature. No opinion is rendered as to the title of the subject property, which is presumed to be good and merchantable. The Property is appraised as if free and clear, unless otherwise stated in particular parts of the report. The legal description is assumed to be correct as used in this report as furnished by the client, his designee, or as derived by the Appraisers.
Please note that no advice is given regarding mechanical equipment or structural integrity or adequacy, nor soils and potential for settlement, drainage and such (seek assistance from qualified architect and/or engineer), nor matters concerning liens, title status, legal marketability and such (seek legal assistance). The lender and owner should inspect the Property before any disbursement of funds; further it is likely that the lender or owner may wish to require mechanical or structural inspections by a qualified and licensed contractor, civil or structural engineer, architect, or other expert.
The Appraisers have inspected as far as possible, by observation, the land and the improvements; however, it was not possible to personally observe conditions beneath the soil or hidden or unapparent structural, or other components. We have not critically inspected mechanical components within the improvements and no representations are made herein as to these matters unless specifically stated and considered in the report. The value estimate considers there being no such conditions that would cause a loss of value. The land or the soil of the area being appraised appears firm, however subsidence in the area is unknown. The Appraisers do not warrant against this condition or the occurrence of problems arising from soil conditions.
The Appraisal is based on there being no hidden, unapparent, or apparent conditions of the property site, subsoil, or structures or toxic materials which would render it more or less valuable. No responsibility is assumed for any such conditions or for any expertise or engineering to discover them. All mechanical components are assumed to be in operable condition and status standard for properties of the subject type. Conditions of heating, cooling, ventilating, electrical and plumbing equipment is considered to be

commensurate with the condition of the balance of the improvements unless otherwise stated. No judgment is made as to adequacy of insulation, type of insulation or energy efficiency of the improvements or equipment. If the Appraisers have not been supplied with a survey, no responsibility or representation is assumed or made for any costs associated with obtaining same or for any deficiencies discovered before or after they are obtained. No representation or warranties are made concerning obtaining the above mentioned items.
The Appraisers assume no responsibility for any costs or consequences arising due to the need, or the lack of need for flood hazard insurance. An agent for the Federal Flood Insurance Program should be contacted to determine the actual need for flood hazard insurance.

J. Legality of Use

The Appraisal is based on the premise that there is full compliance with all applicable federal, state and local environmental regulations and laws unless otherwise stated in the report; further that all applicable zoning, building and use regulations and restrictions for all types have been complied with unless otherwise stated in the report; further, it is assumed that all required licenses, consents, permits or other legislative or administrative authority, local, state, federal and/or private entity or organization have been or can be obtained or renewed for any use considered in the value estimate.

K. Subsurface Rights

Subsurface Rights (minerals and oil) were not considered in this Appraisal unless otherwise specifically stated.

L. Insulation and Toxic Materials

Unless otherwise stated in this report, the Appraisers signing this report have no knowledge concerning the presence or absence of any toxic materials and/or urea-formaldehyde foam insulation in existing improvements; if such is present, the value of the property may be adversely affected and re-appraisal at additional cost may be necessary to estimate the effects of such.

M. Terms of Sale and Full Disclosure

The State of New Mexico does not have full disclosure laws regarding real estate transactions. Therefore, the Appraisers had to confirm all sales and rental comparables with brokers, property managers, mortgage brokers, grantors, grantees and other parties familiar with the transaction. The Appraisers' results are limited by the accuracy of the information supplied by the aforementioned individuals. Whenever possible, the information was verified by county records.

N. Environmental Hazard Notice

Comprehensive federal and state laws and regulations have been enacted in the last few years in an effort to develop controls over the use storage, handling, clean-up, removal and disposal of hazardous wastes or substances. Some of these laws and regulations, such as the so-called "Superfund Act," provide for broad liability schemes wherein an owner, tenant or other use of the property may be liable for clean-up costs and damages regardless of fault. Other laws and regulations set standards for the handling of asbestos or establish requirements for the use, modification, abandonment, or closing of underground storage tanks.
It is not practical or possible to list all such laws and regulations in this Notice. Therefore, owners, buyers, tenants, and lenders involved with the property which is the subject of this report, and any other use and/or uses of this report are urged to consult legal counsel to determine their respective rights and liabilities with respect to the proposed transactions involving the subject of this appraisal. If hazardous wastes or substances have been, or are going to be used, or if underground storage tanks are present, it is essential that legal and technical advice be obtained in determining, among other things, what permits and approvals have been or may be required, if any, estimated costs and expenses associated with the use, storage, handling, clean-up, removal or disposal of the hazardous wastes or substances, and what contractual provisions and protections are necessary or desirable. It may also be important to obtain expert assistance for site investigations and building inspections. The past uses of the property may provide valuable information as to the likelihood of hazardous wastes or substances, or underground storage tanks being on the property.
We have not made investigations or obtained reports regarding the subject matter of this Notice, except as may be specifically described within the body of this appraisal. We make no representations regarding the existence or non-existence of hazardous wastes or substances, or underground storage tanks on the property.

The user and/or users of this report should contact a professional, such as a civil engineer, geologist, industrial hygienist or other persons with experience in these matters to provide advice concerning the property.
The term "hazardous wastes or substances" is used in this Notice in its very broadest sense and includes, but is not limited to, petroleum based products, paints and solvents, lead, cyanide, DDT, printing inks, acids, pesticides, ammonium compounds, asbestos, PCB's and any storage tanks that may be present on all types of real property. This Notice is, therefore, meant to apply to any type of real property, whether improved or unimproved.

DESCRIPTION AND ANALYSIS

SANTA FE MSA PROFILE

This section of the report summarizes the city's economic base, its history; it's demographic and land use trends, and the current development climate for real estate.

General

Santa Fe, the capital of New Mexico, is located in the north-central portion of the state at the foothills of the Sangre de Cristo Mountains. Its elevation is approximately 7,000 feet above sea level. Founded in the early 1600s, Santa Fe is rich in historical and cultural attractions that have made it a popular tourist destination.

The city is recognized as being the architectural, cultural and historic center of New Mexico. In fact, Santa Fe has a rich history dating back prior to the pilgrims landing at Plymouth Rock when Santa Fe was an Indian village and Spanish settlement. Overall, Santa Fe's historic significance has been well preserved through the establishment of a historical district with rigorous architectural restrictions and guidelines.

From 1050 to 1607 Santa Fe was occupied by Pueblo Indians – mostly the Tewa's. It was in 1540 that "New Mexico" was first claimed for Spain by Don Francisco Vasques de Coronado. Don Juan de Onate was the first Governor of New Mexico and established the capital in 1598 at San Juan Pueblo, 25 miles north of Santa Fe. Don Pedro de Peralta was appointed Governor-General in 1609 and one year later he moved the capital to present day Santa Fe. During the following 80 years Spanish soldiers and Franciscan missionaries, tried to conquer and convert the Pueblo Indians of the region but the Indians revolted against them and killed approximately 400 conquistadors and missionaries. The triumphant Pueblo Indians attacked Santa Fe and burned most of the buildings, except the Palace of the Governors. Pueblo Indians occupied Santa Fe until 1692, when Don Diego de Vargas re-conquered the region. From 1692 to 1821 the city of Santa Fe grew and prospered. Between 1821 and 1846 Mexico gained its independence from Spain, and Santa Fe became the capital of the province of New Mexico. American trappers and traders moved into the region. Americans found Santa Fe and New Mexico not as uncivilized as they had imagined. In 1835, Mexico signed the Treaty of Guadalupe Hidalgo, giving New Mexico and California to the United States.

With the coming of the Atchison, Topeka and the Santa Fe Railroad and the invention of the telegraph in 1880, Santa Fe and New Mexico underwent an economic revolution. Corruption in government, however, accompanied the growth, and President Rutherford B. Hayes appointed Lee Wallace as a territorial governor to "clean up New Mexico." Wallace did such a good job that Billy the Kid threatened to come up to Santa Fe and kill him. The state museum's emphasis on local history and native culture did much to reinforce Santa Fe's image as an "exotic" city. Although Santa Fe has had a history of conquest and frontier violence, the town has also been the region's seat of culture and civilization.

Today, Santa Fe is recognized as one of the most intriguing cities in the nation, due largely to the city's preservation of historic buildings and a modern zoning code, passed in 1958 that mandates the city's distinctive Spanish-Pueblo style of architecture. This architecture is based on the adobe (mud and straw) and wood construction of the past. Also preserved are the traditions of the city's rich cultural heritage which helps make Santa Fe one of the country's most diverse and interesting places to visit.

It is the third-largest art market in the United States with approximately 200 galleries and attracts art collectors worldwide. It is one of three Metropolitan Statistical Areas (MSAs) in the state. Santa Fe is located 60 miles north of Albuquerque, the largest city in New Mexico, and is 380 miles South of Denver, Colorado. Interstate 25 connects Santa Fe with both cities. Although Santa Fe has a local commuter airport, the nearest commercial airport is in Albuquerque.

Over the past several years, the momentum of Santa Fe's popularity as a retirement and business destination for wealthy Americans has increased. Along with the trend, tourism continues to encompass a major portion of the city and region's economy. In fact, Santa Fe is the leading tourist destination in New Mexico which draws visitors from all over the world. In excess of 1,000,000 typically affluent people visit Santa Fe annually and contribute over $170,000,000 to the local economy. Santa Fe is home to over 200 art galleries, various museums, and an internationally acclaimed opera house.

Employment Trends

The Santa Fe economy originates from primarily two areas, government and tourism. Santa Fe is the headquarters for state, county, local and federal government agencies. The state capitol and legislature are located near the historic center of the city. Some of the larger state and federal agencies in Santa Fe include the state legislature, New Mexico State Highway Department, New Mexico School for the Deaf, New Mexico National Guard Headquarters, the Institute of American Indian Arts and various agencies for the administration of the state's government. Santa Fe draws

tourists from all over the globe. Santa Fe's tourists are fortunate that many attractions are within walking distance of downtown hotels. Attractions include Native American ruins, Spanish Colonial landmarks, and the end of the Santa Fe Trail, to name a few. Additionally, Santa Fe is one of the largest art markets in the world.

In itself, Santa Fe is considered the nation's second largest arts market, with a $1.6 billion annual arts economy. In addition, Forbes Magazine has regularly ranked Santa Fe as one of the best small cities in America for business or a career.

According to the Santa Fe Convention and Visitors Bureau, the city's ± 4,937 hotel rooms account for more than $300 million in annual lodging revenues. Lodgers tax receipts levied on hotel and motel room revenues in the city are summarized below:

	Fiscal Year 2017	Fiscal Year 2018	Fiscal Year 2019	Fiscal Year 2020	Fiscal Year 2021	Fiscal Year 2022	Fiscal Year 2023	Fiscal Year 2024
Lodgers Tax	$10,809,464	$11,473,953	$12,260,501	$10,552,776	$7,677,712	$12,205,000	$18,400,000	$17,900,000
% Annual Change	-	6.15%	6.86%	-13.93%	-37.38%	15.66%	139.65%	-2.72%

Source: City of Santa Fe, includes 4% lodgers' tax and 3% convention center lodger's tax

The city had stabilized growth in lodging receipts during the 1990's and into 2003. In 2007-2008 Santa Fe lodging receipts increased considerably (prior to the economic recession). For 2008-2009, lodging receipts decreased approximately 51.91% concurrent with the onset of the recession. For 2009-2010 lodging receipts increased by 58% compared to the previous year. Lodging receipts have shown relatively strong growth from 2013 through 2019; however, the steep decline in tourism resulting from the coronavirus resulted in a sharp decline in lodgers tax receipts in 2020 and 2021.

Santa Fe has a multitude of retail due to its status as a tourist destination and retirement community. Retail sales have risen consistently every year since the late 1980s. Nearly 1,000 retail outlets serve residents, although some concern has been raised that traditional retail outlets are disappearing due to the rising costs. Retail trade in the city of Santa Fe is a large component of the tourism market and its employment in the past seventeen years has grown from 5,842 jobs in 1990 to 8,878 in 2010. The service sector, including hospitality, eating and drinking establishments, and the retail sector have made the largest employment gains in recent years. At the same time retail employment grew by 6,000 jobs throughout the rest of Santa Fe County. One possible explanation for this anomaly can be the exceedingly high cost of doing business in Santa Fe, pushing many retail establishments outside city limits.

Most *Retail* development has been in the South-central district, and includes a 120,000 square foot Target store, Old Navy, Trader Joe's, Whole Foods and TJ Maxx. The first Wal-Mart Supercenter was recently developed in the Southwest submarket. Historically the Downtown/ Plaza district maintained a relatively low vacancy rate (approximately 5% to 7%).

Overall, employment trends prior to COVID-19 had remained relatively stable for Santa Fe. The only area of concern regarding the area's economy is its dependence on tourism; however, the presence of the state capital and significant government employment is considered a stabilizing factor which should help mitigate any major fluctuations in the tourism industry.

The cost of housing index represents a significant portion of the total cost of living index above. Santa Fe's high cost of housing explains why the City of Santa Fe is encouraging affordable housing developments. Furthermore, it should be noted that Santa Fe has higher wages than most cities with similar cost of housing ratings as its minimum wage ($12.95/hour) is the highest in the nation.

Summary- Santa Fe Profile

Santa Fe County is currently experiencing moderate growth in population. It seems that Santa Fe's tourism industry has rebounded strongly from the pandemic, with various publications recognizing the city as a top travel destination with Conde Nast Traveler designating Santa Fe #4 on a list of "Top 10 Small Cities in the US," Travel + Leisure ranked Santa Fe #7 on a list of "The 10 Best Cities in the World for Art Lovers" and Forbes named Santa Fe #3 city on a list of "The 22 Best Places to Travel in 2022. According to Ovation Group" Santa Fe made the Time Magazine list of the "World's Greatest Places 2021." The increased demand for housing has also led to the development of market-rent multi-family apartments within the city. Unemployment rates have decreased considerably, as many workers are tied to the food service and hospitality industries that are currently operating without restrictions. The market for single-tenant properties purchased for owner occupancy continues to be highly competitive, with low inventory and properties selling relatively quickly, albeit at a slower pace compared to 2022. Average home prices in Santa Fe County for the first time reached above $800,000.

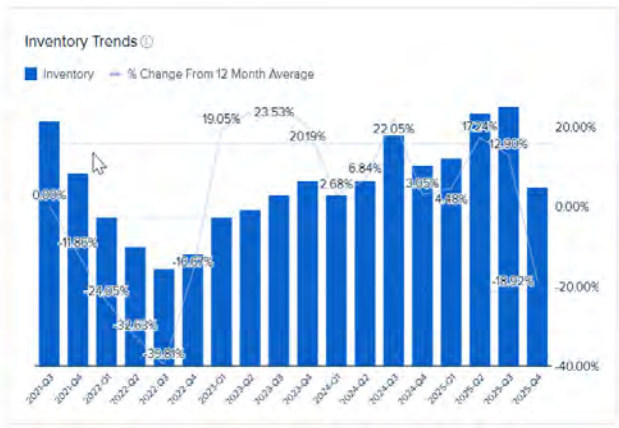
The following information was obtained from CREXI pertaining to the office market in the City of Santa Fe/Santa Fe County, NM:

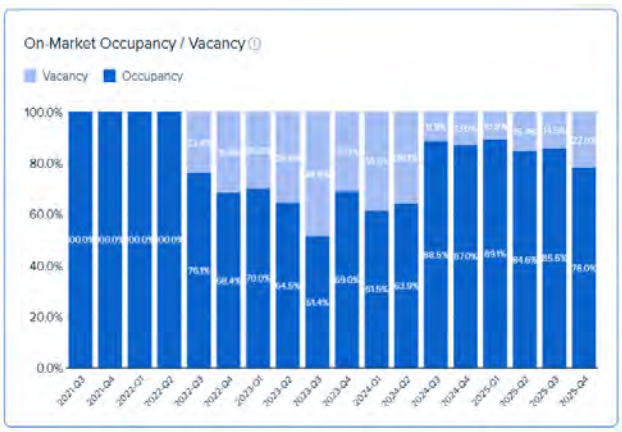
Asking Price per Square Foot

From 2021 through mid-2024, asking prices for office properties trended generally upward despite intermittent fluctuations. Asking rates peaked in late 2024 at slightly above $300 per square foot, reflecting strong owner expectations during a period when inventory remained limited and many sellers were still pricing based on pre-pandemic performance metrics. However, beginning in early 2025, asking prices began to decline sharply, falling from the $270–$300 range to approximately $173 per square foot by late 2025. This represents a substantial correction in seller expectations over a relatively short period. some dips below $100. By Q3 2024, prices saw a sharp increase to around $308.37/SF, suggesting renewed activity or confidence in the office market heading into 2025.

Sale Price per Square Foot

In contrast to the volatility in asking prices, sale prices per square foot demonstrate a steady and consistent downward trend from approximately $265 per square foot in early 2022 to roughly $193 per square foot by late 2025. This gradual decline reflects actual market behavior and investor response to broader economic conditions, including rising interest rates, higher operating costs, longer marketing times, and changing office space demand patterns following shifts toward remote and hybrid work models.





Santa Fe's office market has shifted from a supply-constrained, seller-favored environment in 2021–2022 to a buyer-favored market by 2025. Early in the period, very low inventory and near-zero vacancy supported rising asking prices and strong seller expectations. Beginning in 2023, vacancy rose sharply as tenant demand contracted, while inventory levels increased significantly through 2024 and 2025. This created a disconnect where asking prices remained elevated even as sale prices began to decline. As inventory continued to rise and vacancy remained above equilibrium levels, sellers adjusted expectations, resulting in noticeable downward pressure on both asking and sale prices. The current market is characterized by elevated supply, lingering vacancy, longer marketing times, and increased negotiation, all of which are contributing to continued price correction in the Santa Fe office sector.

Cap Rates

Santa Fe office cap rates show a disconnect between seller expectations and buyer underwriting. Asking cap rates stayed relatively compressed in the 7%–8% range and even declined in 2025, indicating optimistic pricing by sellers. In contrast, sale cap rates softened through 2024 and then began rising again to nearly 8% by late 2025 as buyers demanded higher returns due to increased vacancy, risk, and higher capital costs. This widening gap mirrors the broader pricing correction in the market and reflects ongoing cap rate expansion consistent with a softening office sector.

Summary Santa Fe Office Market

The Santa Fe office market has transitioned from a supply-constrained, seller-influenced environment in 2021–2022 to a market characterized by elevated supply, increased vacancy, and buyer-driven pricing by 2025.

During 2021 and early 2022, inventory levels were well below historical averages and occupancy was near 100 percent. These conditions supported rising asking prices, compressed cap rates, and strong seller expectations. Limited available product and stable tenancy allowed sellers to market properties aggressively, and buyers were willing to accept lower yields in order to secure assets in a tight market.

Beginning in 2023, tenant demand contracted noticeably, resulting in a sharp rise in vacancy while, at the same time, inventory levels increased as more properties were brought to market. During this period, sellers were slow to adjust pricing and cap rate expectations, creating a measurable disconnect between asking metrics and actual sale activity. Sale prices per square foot began to decline and buyers underwrote acquisitions with more conservative income projections and higher required returns.

Through 2024 and into 2025, inventory remained elevated and vacancy, although improving from its peak, remained above historical equilibrium levels. This sustained supply pressure contributed to a market correction in which asking prices declined significantly to more closely align with sale prices. Sale cap rates began to expand as buyers required higher yields to offset increased market risk, longer marketing times, and higher capital costs.

Overall, the data indicates the Santa Fe office market is in a price-adjustment phase. Current market conditions are characterized by elevated inventory, above-equilibrium vacancy, softening prices per square foot, expanding cap rates, and increased negotiation. These trends are consistent with a transition from a seller-favored market to one where buyers have increased leverage and values reflect reduced demand and heightened market risk.

BUILDING DESCRIPTION – VISUAL ARTS

The subject building is a two-story steel frame construction with stucco exterior walls containing approximately 34,948 SF. The space is demised into a reception area, a break room, several offices, a conference room, a library, several classrooms and lecture halls. The subject was built circa 1998 (per Santa Fe County Assessor records) and exhibits an overall effective age of 20 years with a remaining economic life of 40 years based on a total economic life of 60 years. The subject building is described as follows:

Foundation: Reinforced 4” concrete slab

Exterior Walls: Frame and stucco

Roofing System: Flat, built-up tar and gravel (ballast)

Windows & Doors: Windows are double-pane glass set in metal frames. Doors are solid-core and wood set in wood frames.

Ceilings:	Painted gypsum board and suspended acoustic tile with recessed fluorescent and incandescent and track lighting.
Interior Walls:	Painted and textured gypsum board over standard stud framing.
Flooring:	Stained concrete and carpeting.
HVAC System:	Roof-mounted HVAC package/combination units.

BRUNN'S BARRACKS BUILDING

The subject property contains approximately 17,500 SF of classroom/art studio space in poor condition. The subject was built in 1945 and has reached the end of its economic life. We estimate the cost to raze the existing building improvements at $10/SF or $175,000.

Highest and Best Use

As Though Vacant

The subject fronts the south side of Midtown Avenida just west of St. Michael's Dr. and east of Cerrillos Rd. within the former Santa Fe University of Art & Design campus in Santa Fe, NM. Just about any type of development typically found on sites of this size is **physically possible** as the site is mostly level, at street grade, and contains approximately 1.9124 acres or +/- 83,304 SF. The site is zoned C-2 PUD Midtown Local Innovation Corridor Overlay District which **legally permits** for commercial and mixed uses. Legally permissible uses are therefore numerous. The most prevalent use in the immediate area are commercial/retail fronting St. Michael's Dr. and light commercial and single- and multi-family residential uses fronting minor collector streets. The principle of conformity holds that a property's value is maximized by reasonably conforming to surrounding development. Considering the predominant land use in the immediate area and the fact that the subject is located along a minor collector street lacking visibility and exposure from a primary arterial (typically required for retail uses), but in close proximity to Christus St. Vincent's hospital, office or residential uses are attractive as they are not reliant on visibility and exposure from heavily trafficked arterials in order to maintain financial viability. Finally, the increased difficulty in obtaining financing, particularly for speculative construction, is yet another hindrance to speculative development. Therefore, built-to-suit or owner-occupied mixed commercial/residential development appears to be **financially feasible** at this time. The **maximally productive** use of the site is for office use. We believe the highest and best use of the subject site is for **owner occupied or built-to-suit mixed commercial/residential use.**

As Is – Visual Arts

The existing improvements contribute significant value over and above the value of the site as though vacant. The subject improvements have a fairly basic floor plan and which are functionally suited for professional office use. Furthermore, the subject is located within the former SFUAD campus, an area which is characterized by similar institutional/office development making the existing improvements consistent and compatible with surrounding land uses. Finally, the cost to convert the subject to an alternate use is not financially feasible at this time. We believe the highest and best use of the subject is for professional office use.

As Is – Brunn's Barracks Building

The existing improvements have reached the end of their economic life and contribute no value over and above the value of the site as though vacant. The improvements should be demolished and converted to an alternate use which is the only financially feasible use at this time. We believe the highest and best use of the subject is to raze the existing improvements and redevelop for mixed commercial/residential use.

SALES COMPARISON APPROACH – VISUAL ARTS CENTER

The sales comparison approach is based on six sales of professional office buildings within the subject's market area. In this analysis, price per-square-foot of gross building area has been used as the unit of comparison. The comparable sales and adjustments applied are summarized as follows:

Adjustment Categories

Property Rights Conveyed

We are appraising the fee simple interest in the subject. All of the comparables conveyed fee simple estate or were stabilized at the time of sale; therefore, no adjustments for property rights were deemed necessary.

Financing Terms:

Sales are evaluated in an attempt to estimate the influence of financing on the purchase price. There were no known unusual financing influences on the sale prices; therefore, no adjustments are necessary.

Conditions of Sale

Adjustments for conditions of sale usually reflect the motivations of the buyer and the seller. Circumstances surrounding a sale may influence the price in such a manner that the buyer and seller act under conditions that cause the price to be other than typical market conditions. Special conditions of sale may include a favorable price given to a relative or business partner buying the

property or a quick sale below market prices to generate cash for a seller under duress. All of the sales were reported to be arm's-length transactions with no distress conditions evident.

Market Conditions

Market conditions can change between the date of sale and the effective date of appraisal. Property values can fluctuate in response to changing market conditions resulting from factors such as inflation, deflation, or supply and demand. All comparables are recent sales generally representative of current market conditions and were not adjusted.

Locational Characteristics

Adjustments for location include such factors as economic potential of the general area and neighborhood in which the sales are located, accessibility to roads, and supporting population. Sales 1 and 6 front primary arterials or have superior access and visibility compared to the subject; therefore, downward adjustments were made. Sale 2 has been adjusted upward despite its superior exposure as land values in Albuquerque are generally lower than those in Santa Fe. Sales 3, 4 and 5 have similar locations compared to the subject as they front minor collector streets or secondary arterials with average visibility and access; therefore, no adjustments were made.

Physical Characteristics

Age/Condition

Each sale is adjusted by 2.0% for every year difference in effective age. The estimated effective age of the subject is 20 years.

Amenities/FAR

Adjustments for amenities include such things as secured parking, parking lot size, and landscaping. The subject property has a floor-to-area ratio (FAR) of 0.42. Sales 1 through 5 have similar FARs compared to the subject and were not adjusted. Sale 6 has a lower FAR and was adjusted downward.

Size

Typically, larger buildings sell for less per square foot or unit than do smaller ones. Larger buildings are less expensive to build because economies of scale are more easily reached. Smaller buildings benefit from a much larger pool of potential purchasers creating a greater demand and driving prices upward. Combined, these factors most often result in higher prices for smaller buildings with all other factors being equal. Sales 3 and 4 were adjusted upward for their larger sizes. Sales 1, 2, 5 and 6 were adjusted downward for their smaller sizes.

Construction Quality

The subject is an average/good quality institutional building functionally suited for institutional or professional office use. All comparables are average/good quality office buildings generally are similar to the subject; therefore, no adjustments were made.

CONCLUSION: Market Value – As Is

The adjusted sale prices range from $144.03/SF to $196.81/SF with a median adjusted sale price of $187.19/SF and a mean adjusted sale price of $179.80/SF. We place primary emphasis on the average of the comparable set as no individual sale is more indicative than another of the subject's potential market value. We accept an indication of market value of $180/SF for the subject property.

INCOME APPROACH – VISUAL ARTS

The Income Approach can be viewed as consisting of four major steps: estimating revenue, stabilized vacancy, operating expenses and capitalization. The market rent estimate is based on an investigation of similar professional office leases in the subject's immediate market area. Expenses are based on an absolute net lease structure with the tenant paying for all expenses or the reimbursement of all expenses and the landlord being responsible for and reserves for replacement.

Market Rent

We have researched and confirmed arm's length leases of average-to-good quality professional/medical office suites/buildings in the subject's market area. We will assume a triple net lease structure for the subject property for the purposes of analysis, with the landlord only responsible for management and reserves for replacement. The following table summarizes the comparable leases and adjustments applied:

Discussion of Transactional Adjustments

Conditions of Lease:

All of the comparable leases were arm's-length agreements executed under normal conditions; therefore, no adjustments have been made.

Market Conditions:

The execution/start dates of the comparable rents range from 2020 to 2025 with current (escalated) rental rates reported.. All the leases are representative of current market conditions and were not adjusted.

Lease Type:

Rent 1 is a modified gross lease agreements under which ownership is responsible for property taxes and insurance in addition to management and reserves. We will therefore apply a downward adjustments of $2/SF for property taxes and insurance, which is fairly typical of the market. Rents 4 and 5 are structured under full service leases in which the landlord is responsible for all expenses. A downward of $8/SF was made to Rents 4 and 5 to account for all expenses under a full service lease.

All of the remaining rents are triple net (NNN) agreements under which the tenants are responsible for all operating expenses and required no adjustment.

Discussion of Property Adjustments

Location:

Rents 1 and 2, like the subject, front minor collector streets within small business parks and are similar to the subject with regard to location. Rents 3, 4, 5 and 6 front primary arterials and have good visibility and access compared to the subject; therefore, downward adjustments were made.

Size:

Typically, small discounts are given to tenants willing to occupy a substantial portion of available space resulting from economies of scale. Rents 4 and 5 are similar to the subject with regard to size and did not require adjustment. Downward adjustments were applied to Rents 1, 2, 3 and 6 for being smaller than the subject.

Age/Condition:

All of the comparable rents other than Rent 5 exhibit lower effective ages compared to the subject and were adjusted downward. Rent 5 has a similar effective age compared to the subject and was not adjusted. We have applied downward adjustments equal to 2% for every year difference in effective age to account for accrued physical depreciation.

Amenities/FAR

All comparables are similar to the subject with regard to amenities/FAR and were not adjusted.

Construction Quality

All comparables are of similar construction quality compared to the subject and were not adjusted.

CONCLUSION –MARKET RENT:

The comparable set of adjusted rental rates range from $12.65/SF to $18/SF with a median adjusted rent rate of $14.79/SF and an average adjusted NNN rent rate of $14.79/SF. No one lease is more representative of the subject's potential market lease rate than another. We **therefore accept a market rent for the subject between the median and average adjusted lease rate of the comparable set, or $14.75/SF.**

Potential Gross Income

An analysis of potential gross income indicates the total potential income attributable to the real property at full occupancy before vacancy and operating expenses are deducted. Based on a market triple net lease rate of **$14.75/SF, potential gross income for the subject is $515,335**.

Vacancy:

Tenant turnover, nonpayment of rent, and vacancies normally occur in the daily operation of income producing real estate. A vacancy and collection loss allowance is a provision for these typical occurrences and is deducted from potential gross income. This allowance is normal and reflects the primary interest of investors in the actual cash flows produced by a property. It is usually expressed as a percentage of potential gross income. In special circumstances where a very credit-worthy, stable tenant, under a long-term lease is occupying a property; this allowance may not be a consideration. Office vacancy was reported at 4.26% for Q3 2025 in Santa Fe. We made a visual inspection of the subject neighborhood and noticed relatively few vacancies. We therefore estimate a stabilized vacancy rate for the subject property at 5%**.**

Expenses:

Under a triple net lease agreement, the tenant is responsible for all expenses including property taxes, insurance and CAM reimbursements and the landlord is responsible for management, and structural repairs and maintenance.

Management: The responsibilities of professional management include all fiscal affairs and physical maintenance of the property. Based on expense comparables retained in our files, management fees for mixed-use buildings are typically 3% to 6% of effective gross income. We therefore estimate management expenses at 6% of effective gross income as the subject property is a likely multi-tenant building requiring substantial management.

Property Taxes: The subject property is exempt from property taxes.

Insurance: Insurance premiums range from $0.45 to $1 per square foot based on comparable expenses. We therefore estimate insurance expenses at $0.85/SF.

CAM: We estimate CAM expenses for the subject property at $5 per square foot of gross building area. CAM for the subject building typically include building maintenance, repairs, landscaping, administrative and utilities (not separately metered). We therefore estimate CAM at $5 per square foot.

Reserves for Replacements: Reserves for replacements are the estimated costs of replacing short-lived components of the improvements. Professional office buildings have shown that capital expenses used for replacement items typically range from 1% to 3% of effective gross income; however, this expense has been loaded into the comparable cap rates (typical of the market) and will not be considered in the proforma.

The subject's net operating income is estimated as follows:

Estimation of Overall Capitalization Rate

We have included overall capitalization rates for local professional offices in order to determine an appropriate capitalization rate for the subject property. The comparable overall capitalization rates are presented as follows:

	Location	Sale Date	Overall Rate
1	1645 Galisteo, Santa Fe, NM	Jan-25	7.00%
2	228 St. Francis Dr., Santa Fe, NM	Apr-24	6.35%
3	700 Lomas, Albuquerque, NM	Jan-23	6.20%
4	444 St. Michael's Dr., Santa Fe, NM	Oct-22	5.30%

14	Confidential, Santa Fe, NM	Mar-20	6.82%
15	3600 Cerrillos Rd., Santa Fe, NM	Aug-19	7.55%
		Average	**6.95%**

Overall rates for the comparable set range from 5.30% to 7.80% and average 6.95%. Overall rates are typically lower for newer or remodeled properties because of the minimal maintenance and refurbishment expenditures associated with such properties. Additionally, the lower end of the range reflects newer or completely remodeled space in high demand locations occupied by regional or national credit tenants having longer remaining lease terms. The higher end of the

range is representative of older structures with inferior locations occupied by average credit tenants having shorter remaining lease terms.

Given this information and considering the physical and locational characteristics of the subject property and the quality and age of the improvements, an overall capitalization rate of 7.0% is deemed reasonable.

CONCLUSION – Income Approach

MARKET RENT ANALYSIS – VISUAL ARTS BUILDING

Previous analysis concluded a market triple net lease rate of $14.75/SF for the subject property. Base year rent is therefore estimated at $14.75/SF or $515,483.

Other Considerations

In a NNN lease structure the landlord is responsible for management and reserves for replacement. Real estate related expenses for similar buildings like the subject typically range from $1.50/SF - $2.50/SF. The typical lease term for a property of the subject's size is five to ten years. Annual rate increases, if any, are sometimes tied to the All Urban Consumer Price Index (CPI); which has historically been around 2% to 3% per year. Participants in the leasing market indicate potential tenants are reluctant to enter into lease agreements tied to annual CPI increases given the anticipation of a higher CPI due to recent inflation figures. Landlords do provide flat lease rates if the initial rate is slightly higher. However, the market typically sets the annual rate increases.

Following is our estimate of market rent over the next five-year time frame with annual escalations of 3.0% (average 5-year CPI forecast by FRED).

SALES COMPARISON APPROACH – BRUNN'S BARRACKS BUILDING

The subject improvements have reached the end of their economic lives and would likely be scraped by a potential investor/developer. Our opinion of land value is based on the sales comparison method, using sales of vacant tracts with physical characteristics and development potential generally similar to the subject site. Adjustment Categories

Property Rights Conveyed:

All of the comparable sales conveyed fee simple interest. Since we are appraising the fee simple interest in the subject, no adjustments have been made.

Financing:

There were no reported factors related to financing that had an effect on property value.

Conditions of Sale:

Adjustments for conditions of sale usually reflect the motivations of the buyer and the seller. Circumstances surrounding a sale may influence the price in such a manner that the buyer and seller act under conditions that cause the price to be other than typical market conditions. Special conditions of sale may include a favorable price given to a relative or business partner buying the property or a quick sale below market prices to generate cash for a seller under duress. All of the comparable sales were reported to be arm's-length transactions; therefore, no adjustments were made.

Expenditures Subsequent to Purchase:

The listing agent for Sale 4 had listed the property as land with no value given to the improvements. Sale 4 had approximately 8,000 SF of building improvements which reportedly had reached the end of their economic life; therefore, a downward adjustment of 5% was made to account for demolition costs. None of the remaining confirming transaction participants reported expenditures subsequent to purchase; therefore, no adjustments have been made.

Market Conditions:

Sale dates range from January 2021 to February 2025. Sales 1 through 6 are recent sales and do not require adjustments. Sale 7 was negotiated as a real estate contract prior to the onset of the pandemic under inferior market conditions; therefore, a considerable upward adjustment was made based on paired comparisons.

Locational Characteristics:

The subject has average access and visibility. Sales 1, 2, 3, 4 and 5 are located within the Village of Agua Fria or front minor collector streets and are similar to the subject; therefore, no adjustments were made. Sales 6 and 7 front secondary arterials and have good visibility and access; therefore, downward adjustments were made.

Physical Characteristics

Configuration/Topography:

All comparables have similar topographies/configurations compared to the subject and were not adjusted.

Zoning:

The zoning and highest and best use of the sale comparables were the primary criteria in selection for analysis. The zone designations of the sale comparables are equivalent or generally similar to the zone designation of the subject; therefore, no adjustments were necessary.

Size:

Typically, larger parcels of land sell for less per square foot or unit than do smaller ones. All things being equal, smaller parcels benefit from a much larger pool of potential purchasers creating a greater demand and driving prices upward. Sales 2, 3, and 5 are smaller than the subject and were adjusted downward accordingly. Sales 1, 4, 6 and 7 are larger than the subject and were adjusted upward.

CONCLUSION: Land Value "As Is"

The adjusted sale prices of the comparable set range from $13.05/SF to $16.15/SF with a mean adjusted sale price of $14.39/SF and a median adjusted sale price of $14.50/SF. We accept an indication of market value near the median and the average of the comparable set as no individual sale is more indicative than another of the subject's potential market value.

We have also taken into consideration the sale of a +/- 2.5 acre parcel of C-2 land fronting Cerrillos Rd. to be developed into a self-storage facility. This property reportedly sold for $25/SF; however, the location is far superior compared to the subject. We also considered a 6.32 acre tract of land which is a pending sale of MU-zoned and entitled land (allowing for 70 apartments and 16 TH units) which is currently under contract for close to the purchase price of $2,300,000 or $8.35/SF. This property is far inferior with regards to location and zoning. Both projects, like the subject, are infill developments and we believe provide further support to the indication of market value concluded herein. From the indication of market value we will deduct the cost to demolish the subject improvements which have reached the end of their economic life estimated at $175,000.

Therefore, our opinion of market value "as though vacant" for the subject is as follows:

1600 St. Michael's Dr. Art Studios site	64,029	SF	x	$14.50	/SF	=	$928,421
Less Demolition Costs							-$175,000
Indication of Market Value "As Though Vacant"							$753,421
Indication of Fee Simple Market Value "As Though Vacant" (Rounded)							**$755,000**

Market Rent - BRUNN'S BARRACKS BUILDING

The Income Approach can be viewed as consisting of four primary steps: estimating revenue, vacancy, expenses, and capitalization. The market rent estimate is based on an analysis of ground leases. The subject's site area of 1.4699 acres or +/- 64,029 SF will be utilized in this analysis. Expenses for a ground lease are typically minimal, if not non-existent. An overall capitalization rate (OAR) was derived from the subject market's available ground lease sales data.

Market Rent – Ground Lease

Market rent for the subject site is estimated using comparable ground leases in the subject's market area. Properties similar to the subject, when leased, are typically structured on a Triple Net (NNN) or Absolute Net basis. We completed an extensive search for comparable ground leases in the subject's neighborhood to determine market ground rent for the subject site.

The subject lease is structured on an absolute net basis. The following chart summarizes the comparable rents information.

Conclusion Market Rent

A property fronting Cerrillos Road in June 2013 was leased for $2.75/SF and two properties with inferior/interior locations were leased at $1.75/SF and $2.25/SF in 2019-2020. The exact locations of these leased sites are confidential. **Based on the subject's location and size, we estimate a ground lease rent for the subject toward the lower end of the comparable range or $1.20/SF.**

Other Considerations

In an Absolute Net lease structure the landlord does not have any expenses. The typical lease term is 20 to 50 years with four 10-year options or two 20-year options. The rates are adjusted by CPI annually or set increases every 5-10 years and upon option periods being exercised to reflect market rates. The All Urban Consumer Price Index (CPI) has historically been around 2% to 3% per year.

Following is our estimate of market rent over the next twenty-year time frame with annual escalations of 3.0% (average CPI forecast by FRED).

Conclusion Overall Capitalization Rate

The comparable overall capitalization rates for ground-leased properties within New Mexico range from 4.0% to 7.07% with an average of 5.2%. Considering there will be no improvements on the site and the comparable set of overall rates, we accept an overall capitalization rate for the subject property of 8.0%. From this we will subtract the cost to demolish the improvements on site.

Reconciliation of Values:

Two approaches to value have been presented in this appraisal to provide an opinion of market value “as is” and market rent of the fee simple interest in the subject properties. The data collected for and subsequent analysis of each approach have been detailed and presented. The value indications are as follows:

	Market Value “As Is” Visual Arts	Market Value “As Though Vacant” Brunn’s Barracks Building
Sales Comparison Approach	**$6,290,000**	**$755,000**
Income Approach	**$6,260,000**	**$785,000**

The sales comparison approach gains strength from its close association with the actions of buyers and sellers in the marketplace and with the definition of market value. Properties similar to the subject are typically purchased as investment rental properties. The sales used in this report are considered adequate and indicative of current market conditions and thus provide a credible indication of market value for the subject property and will be given secondary consideration.

The income approach provides a highly credible indication of the subject’s market value and is given primary consideration. Properties similar to the subject would be purchased based on an analysis of operating income with an emphasis on investment yield. Overall, the comparable data is good and provides a credible indication of market rent and subsequent potential net income for the subject. The overall capitalization rates extracted from sales of similar properties in the market as well as the expert opinions of brokers familiar with the subject’s local market result in a credible market value indication from direct capitalization. In this instance, the Income Approach will be given primary consideration.

(D) **Midtown Local Innovation Corridor (Midtown LINC) Overlay District**

(Ord. No. 2016-39 § 1)

(1) Purpose and Intent

The purpose and intent of the Midtown Local Innovation Corridor (LINC) Overlay District is to:

(a) Strengthen and animate the built environment and the business and population links within the demographic and geographic center of the city between the existing employment centers of the Midtown Planned Unit Development (previously the campus of the Santa Fe University of Art and Design and the College of Santa Fe) and surrounding uses to the west and the Christus St. Vincent Regional Medical Center and related medical uses to the east;

(b) Incentivize multi-family residential development, complementary non-residential uses, and an enlivened, street-oriented pedestrian environment by freeing development capacity of existing under-developed land and buildings for these targeted uses, while allowing existing uses to continue as redevelopment occurs;

(c) Allow for innovative development and redevelopment of the district while providing buffering between the district and existing residential development outside of the district by the application of amended land development regulations and fees and by establishing conditions precedent for future infrastructure enhancements and the application of other redevelopment and financing tools;

(d) Promote a more healthy, safe, and enjoyable environment within the city's midtown area through the enhancement of pedestrian and bicycle accessibility and safety, landscaping and other street-related amenities and the eventual reduction of traffic speeds and provision of on-street parking, bicycle lanes, and improved crosswalks; and

(e) Provide flexibility in sign design and location so as to maintain effective communication, business identification and wayfinding for existing buildings whose visibility may be reduced by new development.

(2) Boundaries

The Midtown LINC Overlay District includes land in the vicinity of the St. Michael's Drive *right-of-way* from the eastern edge of the Cerrillos Road *right-of-way* to the western edge of the St. Francis Drive *right-of-way* , and additional land in the vicinity of the Midtown Planned Unit Development as shown on the Midtown LINC Overlay District Map.

Summary:

The City and MADA, are now entering into a Ground Lease and Disposition Agreement for the Property. Departments Affected:
Metropolitan Redevelopment Agency (MRA), Public Works Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, the ground lease and development Agreement cannot move forward, and the City would need to identify a new process or Request for Proposal process for renovating the Midtown Visual Arts Center and Barracks.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:
The proposed bill is related to Resolution 2022-68, Midtown Master Plan Approval; and Resolution 2023-5 Midtown Community Development Plan Approval.

Performance and Administrative Implications:
The lease will engage two parcels; parcels K-1a and P-1b for a total of 3.37-acres, including the following buildings: the Tipton Lecture Hall and the Marion Center for the Photographic Arts, the Tishman Hall, inclusive of the Thaw Art History Center of the Visual Arts Center, and the Barracks.

Fiscal Implications:

The developer will pay one dollar ($1.00) in rent to the City over the course of this ground lease with an initial term of 10 year, with a first extension right of 10 years, followed by the right for three consecutive 10-year terms. Developer shall deposit $10,000 with the City to be held by the City until the Construction Commencement Date of the Improvements for Phase 1, at which time the City shall disburse the $10,000 to the Developer. The Developer shall design, finance, develop, construct, operate, and manage the project in accordance with the Final Development Plans and Applicable Rules. The Developer would also be responsible, at is sole cost and expense, for the entitlement, development, construction, and improvement, management, and operation of the project.

Memorandum

Date: April 23, 2026

To: Governing Body, Public Works and Utilities Committee, Quality of Life Committee, Finance Committee, Economic Development Advisory Committee, and Arts Commission

From: Carly Venditti, Metropolitan Redevelopment Agency, Deputy Director CAV

Via: Brian Moya, Interim City Manager BM

RE: A Bill Approving the City of Santa Fe Ground Lease and Development Agreement of certain City-owned property to the Midtown Arts and Design Alliance for a lease term of ten years that may be extended up to fifty years.

EXECUTIVE SUMMARY:
If adopted, the bill would approve the ground lease and development agreement of a city-owned building, the Midtown Visual Arts Center, with Midtown Arts and Design Alliance, LLC. NMSA 1978, Section 3-54-1 requires that the City of Santa Fe ("City") approve the lease of City-owned property with an Ordinance. This bill is created to comply with that statute.

BACKGROUND:
The City and Midtown Arts and Design Alliance (MADA) ("Developer") intends to enter into a Ground Lease and Development Agreement to facilitate the renovation and remodel of the city-owned Visual Arts Center and Barracks on the Midtown Site at 1600 St. Michael's Drive ("Property"). The Property described as the Visual Arts Center and Barracks, are located on parcels K-1a and P-1b, located in the northwest of the Midtown Site; containing approximately 3.37 acres.

As a subsidiary of the Santa Fe Arts Institute (SFAI), the Midtown Arts and Design Alliance has been on the Midtown Site since the close of the Santa Fe University of Art and Design and throughout the community engagement processes that culminated in the Midtown Master Plan (Resolution No. 2022-68) and Community Development Plan (Resolution No. 2023-5), known collectively as the Midtown Redevelopment Plans. The Midtown Redevelopment Plans expressed the will of the community to establish an arts hub including arts and cultural organizations, in addition to cultural organization, activities, and technology that could procure the necessary project team to finance, renovate, lease, and manage the Visual Arts Center and adjacent outdoor spaces.

CITY OF SANTA FE

Memorandum

The City of Santa Fe and the Office of Economic Development launched a Request for Proposals (RFP # 23/17/P) on December 1, 2022, with proposals due February 2, 2023. MADA was the sole respondent to RFP 23/17/P with a variety of stakeholders, non-profit organizations, and community partners included on the proposed project team. An Exclusive Negotiation Agreement (ENA 2023-0548) was solidified between the City of Santa Fe and Developer as of September 5, 2023, upon the recommendation of the Evaluation Committee. This Exclusive Negotiation Agreement was extended multiple times from December 31, 2024, to April 30, 2025, and finally June 30, 2025. SECTION 4. TRAFFIC CALMING FEES.

A. Persons violating speed limits within the city have created a need for traffic calming. The governing body has determined that those persons violating the speed limits should pay additional fees. The purpose of the additional fees is to discourage speeding within the city and to provide funds for the city's traffic calming program.

B. The city hereby imposes a traffic calming fee equal to the maximum fine (excluding court fees) to be paid by any person convicted of a speeding violation as set forth in the Uniform Traffic Ordinance as adopted by the city, the total of which shall not exceed the jurisdictional limits of the court. The traffic calming fee applies to all violations of Section 12-6-1.2, but the traffic calming fee is not doubled.

C. The traffic calming fee shall be collected by the municipal court for funding the city's traffic calming program. The amount of fees collected shall not decrease the amount of money allocated to the traffic calming program through the current fiscal year Capital Improvement Program bonding process.

D. The governing body shall review the results of this subsection including the amount of fees which have been collected and the amount of police overtime because of this subsection. The municipal court shall provide the governing body with the appropriate statistics to review this subsection.

SECTION 5. <u>POLICE AND FIRE RESILIENCY FUNDS</u>

<u>Consistent with NMSA 1978, sec. 35-15-12, all fees collected for violations of the city of Santa Fe's Uniform Traffic Ordinance, Schedule A and for Aggressive Driving, SFCC 1987, Section 12-6-12.4A, shall be allocated, fifty percent (50%) to the Law Enforcement Fund and fifty percent (50%) to the Fire Support Services Fund, with the exception of fines collected for speeding, which are allocated to the Traffic Calming Program as described in Section 4 above.</u>

SECTION [~~5~~] <u>6</u>. MUNICIPAL COURT FEES.

In addition to the penalty assessment established pursuant to this Exhibit, there shall be assessed the municipal court fees for each penalty assessment petty misdemeanor as set forth in Section 1-3.2 SFCC 1987.

SECTION [6] 7. PENALTY ASSESSMENT PETTY MISDEMEANORS; OPTION; EFFECT.

A. Unless a warning notice is given, at the time of making an arrest for any penalty assessment petty misdemeanor, the arresting officer shall offer the alleged violator the option of accepting a penalty assessment. The violator's signature on the penalty assessment notice constitutes an acknowledgement of guilt of the offense stated in the notice, and payment of the prescribed penalty assessment is a complete satisfaction of the violation.

B. Payment of any penalty assessment shall be made by mail to the Municipal Court, City of Santa Fe, P.O. Box 909, Santa Fe, New Mexico, 87504-0909 within 30 days from the date of arrest. Payments of penalty assessments are timely if postmarked within the time limits set from the date of arrest. The Municipal Court shall issue a receipt when a penalty assessment is paid by currency, but a check or money order tendered by the violator upon which payment is received is sufficient receipt.

C. No record of any penalty assessment payment is admissible as evidence in any court in any civil action.

SECTION [7] 8. FAILURE TO PAY PENALTY ASSESSMENT.

A. If a penalty assessment is not paid within 30 days from the date of arrest, the violator shall be prosecuted for the violation charged on the penalty assessment notice in a manner as if the penalty assessment notice had not been issued. Upon conviction in such prosecution, the court shall impose penalties as provided for by the New Mexico Uniform Traffic Ordinance (Section 12-12-1.1), or other law relating to motor vehicles for the particular offense charge, and the scheduled penalty assessment shall not apply.

B. In addition to the prosecution provided for in Section A above, it is a petty misdemeanor for any person who has elected to pay a penalty assessment to fail to do so within 30 days from the date of arrest.

C. The municipal court shall not notify the motor vehicle division of the state of New Mexico when a person fails to pay a penalty assessment within the required period of time.

SECTION [~~8~~] 9. VIOLATIONS NOT LISTED ON PENALTY ASSESSMENT SCHEDULE. This traffic violation penalty assessment schedule does not apply to traffic violations not listed above which are petty misdemeanors. Such violations mandate a court appearance with a fine of up to three hundred dollars ($300.00) and up to 90 days in jail.

Summary:

The adoption of this bill would create a new subsection of Article VI of the Uniform Traffic Ordinance ("UTO"), Exhibit A of Chapter 24 of SFCC 1987 to define, criminalize, and penalize "aggressive driving". It specifies that every person convicted of aggressive driving shall be required to comply with a mandatory court appearance and be punished as follows:

1) Upon a first conviction by fine of two hundred and fifty dollars ($250);
2) Upon a second conviction, by imprisonment for seven days, and by a fine of five hundred dollars ($500);
3) Upon a third conviction, by imprisonment for fourteen days and a fine of five hundred dollars ($500);
4) Upon subsequent convictions, imprisonment for ninety days and a fine of five hundred dollars ($500).

The bill includes a provision specifying that the court shall permit people who are convicted of aggressive driving and who are determined to be indigent to perform community service in lieu of payment of fines; however, this does not prevent the court from sentencing the person to jail, if applicable.

Additionally, the bill amends Article VI of the UTO, Subsection 12-6-12.3, SFCC 1987, "Reckless Driving," to accomplish the following changes to the reckless driving fines:

1) Eliminates the concept of minimum penalties;
2) Upon first conviction, raises the maximum penalty from twenty-five dollars ($25) to two hundred and fifty dollars ($250);
3) Upon second conviction, raises the maximum penalty from three hundred dollars ($300) to five hundred dollars ($500).

Lastly, the bill creates a section in the UTO called the "Police and Fire Resiliency Funds". Upon adoption of the ordinance, and in compliance with Section 2-2.4, SFCC 1987, all fines collected for violations of the UTO, Schedule A, for aggressive driving, and for reckless driving shall be allocated fifty percent (50%) to the Law Enforcement Fund and fifty (50%) to the Fire Support Services Fund, with the exception of fines

collected for speeding (which are allocated toward the Traffic Calming Program).

Departments Affected:
City of Santa Fe's Police Department, Fire Department, and Finance Department

Consequences of Not Enacting Legislation:
If this legislation is not adopted, aggressive driving will not be defined as a punishable offense in the City of Santa Fe's Municipal Code, nor will the fines for reckless driving, aggressive driving, and all fines listed on Schedule A of the UTO be allocated to the Law Enforcement Fund and the Fire Services Support Fund.

Performance and Administrative Implications:
The Police Department will maintain statistics for the number of violations for aggressive driving when a citation is issued, including the underlying offenses that make the incident rise to the level of aggressive driving. The statistics will be presented annually in the Traffic Unit's portion of the Police Department's Annual Report. The Police Department will also conduct enforcement and education to improve the safety of our roads to make drivers aware of the consequences of aggressive driving.

Fiscal Implications:
***The fees generated from the UTO's Schedule A in fiscal year 2025 totaled approximately $124,000. If we continue this trend, we can anticipate a similar collection rate in funds from Schedule A, absent any significant changes. With the implementation of the Ordinance, the City may see a small increase in revenue associated with aggressive driving violations. On a fund level, the General Fund would see a small decrease in revenue due to the reallocation of fine revenue to the Law Enforcement and Fire Support Services Funds, both of which would see a positive impact respectively due to the collection of fees from Schedule A, fees from reckless driving, as well as fees collected from aggressive driving fines.

SECTION 4. TRAFFIC CALMING FEES.

A. Persons violating speed limits within the city have created a need for traffic calming. The governing body has determined that those persons violating the speed limits should pay additional fees. The purpose of the additional fees is to discourage speeding within the city and to provide funds for the city's traffic calming program.

B. The city hereby imposes a traffic calming fee equal to the maximum fine (excluding court fees) to be paid by any person convicted of a speeding violation as set forth in the Uniform Traffic Ordinance as adopted by the city, the total of which shall not exceed the jurisdictional limits of the court. The traffic calming fee applies to all violations of Section 12-6-1.2, but the traffic calming fee is not doubled.

C. The traffic calming fee shall be collected by the municipal court for funding the city's traffic calming program. The amount of fees collected shall not decrease the amount of money

allocated to the traffic calming program through the current fiscal year Capital Improvement Program bonding process.

D. The governing body shall review the results of this subsection including the amount of fees which have been collected and the amount of police overtime because of this subsection. The municipal court shall provide the governing body with the appropriate statistics to review this subsection.

SECTION 5. POLICE AND FIRE RESILIENCY FUNDS

Consistent with NMSA 1978, sec. 35-15-12, all fees collected for violations of the city of Santa Fe's Uniform Traffic Ordinance, Schedule A and for Aggressive Driving, SFCC 1987, Section 12-6-12.4A, shall be allocated, fifty percent (50%) to the Law Enforcement Fund and fifty percent (50%) to the Fire Support Services Fund, with the exception of fines collected for speeding, which are allocated to the Traffic Calming Program as described in Section 4 above.

SECTION [~~5~~] 6. MUNICIPAL COURT FEES.

In addition to the penalty assessment established pursuant to this Exhibit, there shall be assessed the municipal court fees for each penalty assessment petty misdemeanor as set forth in Section 1-3.2 SFCC 1987.

SECTION [~~6~~] 7. PENALTY ASSESSMENT PETTY MISDEMEANORS; OPTION; EFFECT.

A. Unless a warning notice is given, at the time of making an arrest for any penalty assessment petty misdemeanor, the arresting officer shall offer the alleged violator the option of accepting a penalty assessment. The violator's signature on the penalty assessment notice constitutes an acknowledgement of guilt of the offense stated in the notice, and payment of the prescribed penalty assessment is a complete satisfaction of the violation.

B. Payment of any penalty assessment shall be made by mail to the Municipal Court, City of Santa Fe, P.O. Box 909, Santa Fe, New Mexico, 87504-0909 within 30 days from the date

of arrest. Payments of penalty assessments are timely if postmarked within the time limits set from the date of arrest. The Municipal Court shall issue a receipt when a penalty assessment is paid by currency, but a check or money order tendered by the violator upon which payment is received is sufficient receipt.

C. No record of any penalty assessment payment is admissible as evidence in any court in any civil action.

SECTION [~~7~~] 8. FAILURE TO PAY PENALTY ASSESSMENT.

A. If a penalty assessment is not paid within 30 days from the date of arrest, the violator shall be prosecuted for the violation charged on the penalty assessment notice in a manner as if the penalty assessment notice had not been issued. Upon conviction in such prosecution, the court shall impose penalties as provided for by the New Mexico Uniform Traffic Ordinance (Section 12-12-1.1), or other law relating to motor vehicles for the particular offense charge, and the scheduled penalty assessment shall not apply.

B. In addition to the prosecution provided for in Section A above, it is a petty misdemeanor for any person who has elected to pay a penalty assessment to fail to do so within 30 days from the date of arrest.

C. The municipal court shall not notify the motor vehicle division of the state of New Mexico when a person fails to pay a penalty assessment within the required period of time.

SECTION [~~8~~] 9. VIOLATIONS NOT LISTED ON PENALTY ASSESSMENT SCHEDULE. This traffic violation penalty assessment schedule does not apply to traffic violations not listed above which are petty misdemeanors. Such violations mandate a court appearance with a fine of up to three hundred dollars ($300.00) and up to 90 days in jail.

~~Consistent with NMSA 1978, sec. 35-15-12, all fees collected for violations of the city of Santa Fe's Uniform Traffic Ordinance, Schedule A and for Aggressive Driving, SFCC 1987, Section 12-6-12.4A, shall be allocated, fifty percent (50%) to the Law Enforcement Fund and fifty percent (50%) to the Fire Support Services Fund, with the exception of fines collected for speeding, which are allocated to the Traffic Calming Program as described in Section 4 above.~~

SECTION [~~5~~] 6. MUNICIPAL COURT FEES.

In addition to the penalty assessment established pursuant to this Exhibit, there shall be assessed the municipal court fees for each penalty assessment petty misdemeanor as set forth in Section 1-3.2 SFCC 1987.

SECTION [~~6~~] 7. PENALTY ASSESSMENT PETTY MISDEMEANORS; OPTION; EFFECT.

A. Unless a warning notice is given, at the time of making an arrest for any penalty assessment petty misdemeanor, the arresting officer shall offer the alleged violator the option of accepting a penalty assessment. The violator's signature on the penalty assessment notice constitutes an acknowledgement of guilt of the offense stated in the notice, and payment of the prescribed penalty assessment is a complete satisfaction of the violation.

B. Payment of any penalty assessment shall be made by mail to the Municipal Court, City of Santa Fe, P.O. Box 909, Santa Fe, New Mexico, 87504-0909 within 30 days from the date

of arrest. Payments of penalty assessments are timely if postmarked within the time limits set from the date of arrest. The Municipal Court shall issue a receipt when a penalty assessment is paid by currency, but a check or money order tendered by the violator upon which payment is received is sufficient receipt.

C. No record of any penalty assessment payment is admissible as evidence in any court in any civil action.

SECTION [~~7~~] 8. FAILURE TO PAY PENALTY ASSESSMENT.

A. If a penalty assessment is not paid within 30 days from the date of arrest, the violator shall be prosecuted for the violation charged on the penalty assessment notice in a manner as if the penalty assessment notice had not been issued. Upon conviction in such prosecution, the court shall impose penalties as provided for by the New Mexico Uniform Traffic Ordinance (Section 12-12-1.1), or other law relating to motor vehicles for the particular offense charge, and the scheduled penalty assessment shall not apply.

B. In addition to the prosecution provided for in Section A above, it is a petty misdemeanor for any person who has elected to pay a penalty assessment to fail to do so within 30 days from the date of arrest.

C. The municipal court shall not notify the motor vehicle division of the state of New Mexico when a person fails to pay a penalty assessment within the required period of time.

SECTION [~~8~~] 9. VIOLATIONS NOT LISTED ON PENALTY ASSESSMENT SCHEDULE. This traffic violation penalty assessment schedule does not apply to traffic violations not listed above which are petty misdemeanors. Such violations mandate a court appearance with a fine of up to three hundred dollars ($300.00) and up to 90 days in jail.

RE: Approving the Midtown Metropolitan Redevelopment Area Plan

---

EXECUTIVE SUMMARY:

The proposed resolution would approve the Midtown Metropolitan Redevelopment Area Plan ("Plan") for the City of Santa Fe ("City"). Pursuant to NMSA 1978, Section 3-60A-9, the proposed resolution would determine that the Plan will help eliminate or prevent blight, conforms to the City's General Plan, and affords maximum opportunity consistent with the needs of the community for the redevelopment of the Midtown Metropolitan Redevelopment Area by private enterprises or persons. The Plan also does not include proposed activities that require displacement or relocation of any families or individuals, and a method for providing displacement or relocation accommodations is not needed. The Plan, if adopted, also delegates limited specific powers to the MRA Commission to carry out the goals of the Plan.

(See, Attachment A).

BACKGROUND:

The State of New Mexico, through the Metropolitan Redevelopment Code (NMSA 1978, Chapter 3, Article 60A, Section 1 through 49), authorizes municipalities to prepare and amend metropolitan redevelopment plans, and to undertake and carry out metropolitan redevelopment projects. The City determined that blighted conditions exist within the Midtown Local Innovation Corridor Overlay District (LINC) with the addition of Franklin Miles Park and, on June 25,2025, designated the area as a Metropolitan Redevelopment Area through Resolution No. 2025-42.

The City now seeks to formally adopt the Midtown Metropolitan Redevelopment Area Plan to guide future redevelopment efforts, with a focus on equitable development, enhanced public health and safety, and long-term economic vitality for the Midtown Metropolitan Redevelopment Area.

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2025-42

INTRODUCED BY:

Mayor Alan Webber

Councilor Jamie Cassutt

Councilor Amanda Chavez

A RESOLUTION

MAKING A FINDING OF NECESSITY AND DESIGNATING AN AREA COMPRISED OF A MAJORITY OF THE MIDTOWN LOCAL INNOVATION CORRIDOR OVERLAY DISTRICT AND GENERAL FRANKLIN E. MILES PARK AS A METROPOLITAN REDEVELOPMENT AREA.

WHEREAS, the New Mexico Legislature adopted a Metropolitan Redevelopment Code to, among other things, provide strategies for municipalities to finance redevelopment projects; and

WHEREAS, SFCC 1987, Section 7-2.3 provides that the City of Santa Fe ("City") can declare and designate a metropolitan development area as "appropriate for a metropolitan development project"; and

WHEREAS, SFCC 1987, Section 7-2.8**,** provides that, in order to designate an area as a metropolitan redevelopment area, the City must first adopt a resolution establishing the following two criteria: 1) the area is either a slum or blighted; and 2) rehabilitation, conservation, slum clearance, redevelopment or development, or a combination thereof in the area is necessary in the interest of the public health, safety, morals, or welfare of the residents of the city; and

WHEREAS, the Midtown Local Innovation Corridor Overlay District (the "LINC")

consists of diverse tracts of land which, according to a study commissioned by the City, the *Midtown Metropolitan Development Plan: Designation Report,* Attachment A, is characterized by deteriorated or deteriorating structures, defective or inadequate street layout, faulty lot layout, deterioration of sites or other implements, a lack of adequate housing facilities, obsolete or impractical platting, and a significant number of vacant or struggling commercial businesses, all of which are inconsistent with the described goals in SFCC 1987, Section 14-1.3 of the land-use code, to "create conditions favorable to the health, safety, convenience, prosperity and general welfare of the residents of Santa Fe by coordinating streets within proposed subdivisions with existing or planned streets or other features of the general plan; providing parks and trails; providing sewer, water and other infrastructure; providing adequate open space for traffic, recreation, drainage, light and air; and providing for the appropriate distribution of population and traffic"; and

WHEREAS, the LINC lies within two designated census tracts, 11.03 and 10.02, which as defined in 26 USCA § 1400Z–1, are "qualified opportunity zones": distressed areas, identified by the federal government as needing targeted investment in economic development; and

WHEREAS, the purpose of identifying opportunity zones was to spur economic development and job creation in distressed communities by providing tax benefits to investors; and

WHEREAS, the economically challenging conditions in these census tracts have impaired the sound growth, development, and economic well-being of the City, creating an economic and social burden detrimental to the public health, safety, and welfare of the City; and

WHEREAS, the LINC includes a multi-unit residential property, more specifically described as the area covered by Lot 3B1**,** as recorded in instrument number 1171143, Book 482, Page 35, of the Santa Fe County Clerk ("Multi-Unit Residential Property"); and

WHEREAS, as the only residential property in the LINC, the Multi-Unit Residential Property's interests and needs are distinct from the rest of the LINC; and

WHEREAS, General Franklin E. Miles Park, recorded in instrument number 622,332,

Book 173, Page 27, filed on May 14, 1987, of the Santa Fe County Clerk ("Franklin Miles Park"), is adjacent to the LINC; and

WHEREAS, Franklin Miles Park has irrigation infrastructure that is over thirty years old and past its life expectancy; ballfield light poles that have either already been removed due to deteriorating infrastructure or will need to be removed in the future due to deteriorating infrastructure; chronic presence of drug paraphernalia (such as syringes) left by drug users; and rodent damage to concession stands, restrooms, wiring, and irrigation; and

WHEREAS, Franklin Miles Park's conditions are consistent with the definition of "blight" established in SFCC 1987, Section 7-2.3; and

WHEREAS, the *Midtown Metropolitan Development Plan: Designation Report* notes on page 15 that the "absence of high-quality parks, plazas, and gathering places discourages pedestrian activity and limits opportunities for community engagement" and rehabilitating the park would help address this concern.

NOW, THEREFORE, BE IT RESOLVED THAT THE GOVERNING BODY OF THE CITY OF SANTA FE finds that a blighted area exists in the LINC, depicted in Attachment B, and the rehabilitation, conservation, and redevelopment of the area is necessary and is in the interest of the public health, safety, and welfare of the residents of the City of Santa Fe.

BE IT FURTHER RESOLVED that a blighted area exists in Franklin Miles Park, depicted on in the southwest corner of Attachment B, and which is adjacent to the LINC, and the rehabilitation, conservation and redevelopment of the park is necessary and is in the interest of the public health, safety, and welfare of the residents of the City of Santa Fe.

BE IT FURTHER RESOLVED that the area within the LINC, defined by SFCC 1987, Section 14-5.5D (2), other than the Multi-Unit Residential Property and Franklin Miles Park, are designated a Metropolitan Redevelopment Area, pursuant to SFCC 1987, Section 7-2.8, and NMSA 1978, Section 3-60A-8.

Legislation/2025/Resolutions/2025-42(R)/Midtown Redevelopment Area Designation

BACKGROUND

THE SANTA FE METROPOLITAN REDEVELOPMENT AGENCY

The City of Santa Fe formally established the Santa Fe Metropolitan Redevelopment (MR) Agency in 2023 recognizing the need for an agency to spearhead efforts to revitalize areas designated as slum or blighted. The agency is working along other city departments to identify potential MRA districts, assess whether those areas met the MR designation criteria, and develop a plan to address those conditions. The outcomes of a successful MRA district revitalization effort is improved public health and safety, and long-term economic vitality.

The Santa Fe MR Agency is responsible for:

- ☑ *Identifying and designating MRA districts through a public process.*
- ☑ *Developing and implementing redevelopment plans aligned with the City's comprehensive plan.*
- ☑ *Acquiring and assembling land, including vacant or underutilized properties.*
- ☑ *Partnering with public and private entities to support revitalization projects.*
- ☑ *Supporting public infrastructure improvements such as utilities, streets, and parks.*

METROPOLITAN REDEVELOPMENT AGENCY POWERS

This plan provides the agency with broad powers, as noted in 3-60A-10 of New Mexico state statute.

These powers, which only exist within MRA districts, include:

- ☑ *Executing contracts*
- ☑ *Replatting land*
- ☑ *Acquisition of real property within the metropolitan redevelopment area*

A full list of powers granted by this plan can be found in Appendix A.

EXCERPT FROM THE ENABLING STATE LEGISLATION

NM Stat § 3-60A-9 (2024) - C. Following the public hearing, the local government may approve a metropolitan redevelopment plan if it finds that:

- ☑ (1) the proposed activities will aid in the elimination or prevention of slum or blight or the conditions that lead to the development of slum or blight;
- ☑ (2) a feasible method is included in the plan to provide individuals and families who occupy residential dwellings in the metropolitan redevelopment area and who may be displaced by the proposed activities with decent, safe and sanitary dwelling accommodations within their means and without undue hardship to such individuals and families;
- ☑ (3) the plan conforms to the general plan for the local government; and
- ☑ (4) the plan affords maximum opportunity consistent with the needs of the community for the rehabilitation or redevelopment of the area by private enterprise or persons and the objectives of the plan justify the proposed activities as public purposes and needs.

MRA PLAN PURPOSE

The Midtown MRA district is a bold step toward enhancing the heart of Santa Fe. Building on years of community driven planning, this initiative will support the evolution of the Midtown District into a vibrant hub for arts, culture, economic growth, and mixed-income housing.

This plan, the Midtown Metropolitan Redevelopment Plan (Plan) establishes a roadmap to address the MRA conditions, or blight, that hinder redevelopment and economic growth. The Plan outlines redevelopment strategies and implementation recommendations that advance equitable development, improve public health and safety, and create long-term economic vitality.

The MRA district of Midtown and adjacent commercial areas will unlock key funding sources to enhance public infrastructure and attract private investment. This will create new jobs, improve walkability, and expand housing options. The creation of the MRA district was a key recommendation from the Midtown Community Development Plan and aligns with the Midtown Master Plan. It supports the vision of a mixed-use, sustainable redevelopment that includes an abundance of affordable housing.

With strategic public-private partnerships and financial tools like tax incentives and infrastructure investments, the designation of Midtown area as a MRA district will move Midtown into motion, fostering the creation of an inclusive, thriving district that serves all Santa Fe residents.

MRA DESIGNATION

Under state and local law, the designation of an MRA requires a determination of blight as defined in Section 3-60A-4 of the New Mexico Metropolitan Redevelopment Code. A blighted area is defined as one that meets one or more of the following conditions:

- ☑ *A substantial number of deteriorated or deteriorating structures negatively impact the area's livability and economic potential.*
- ☑ *A defective or inadequate street layout that limits accessibility, walkability, and connectivity.*
- ☑ *Faulty lot layout that reduces the usefulness, accessibility, or redevelopment potential of properties.*
- ☑ *Deterioration of sites or other improvements, making the area less viable for new development.*
- ☑ *A lack of adequate housing facilities or conditions that prevent the provision of needed housing accommodations.*
- ☑ *Obsolete or impractical planning and platting, leading to underutilized land and inefficient land use.*
- ☑ *A significant number of vacant or struggling commercial businesses, reducing economic activity and job opportunities.*
- ☑ *Low levels of commercial or industrial activity, contributing to economic stagnation and disinvestment.*

A combination of these or other conditions impair economic growth and the overall well-being in the corridor and Midtown site.

With the designation of the MRA district, the City of Santa Fe unlocks tools to enhance the area

FIGURE 1. MRA PLAN DEVELOPMENT HISTORY

METROPOLITAN REDEVELOPMENT COMMISSION

Santa Fe MRA districts are governed by a five-member commission appointed by the Mayor and approved by City Council. Commissioners serve staggered terms and provide oversight and guidance for all redevelopment efforts.

The MRA Commission has oversight responsibilities regarding the fiduciary and financial management and development of publicly owned real estate assets, to the extent permitted by law. The Commission brings together expertise in areas that are essential to successful redevelopment, such as public-private partnerships, economic and community development, city planning, sustainability, equity, arts and culture, and historic preservation.

The MRA Commission should reflect the communities it serves. Members should include individuals who live in or near a low-income neighborhood, represent historically marginalized communities, or bring demographic perspectives that align with the people living in or around the MRA district.

The MRA Commission has the authority to study and evaluate the best ways to finance and structure projects within its redevelopment areas. This can include planning, preserving, rehabilitating, redeveloping, developing, or managing properties the Commission oversees. The Commission can also recommend creative solutions, such as partnering with public or private organizations, and can recommend these partnerships to the Governing Body to help carry out parts of a redevelopment plan.

NEIGHBORHOOD STABILIZATION PLAN

The Midtown Community Development Plan (MCDP) (2023) identified the desire for a community driven Neighborhood Stabilization Plan (NSP) to support adjacent vulnerable neighborhoods that could be destabilized by significant new development.

In 2025, the City of Santa Fe selected a firm to carry out this plan for the Hopewell Mann Neighborhood, a community with a low median income and a high percentage of renters. The firm is engaging neighborhood residents as consultants in the planning process.

The proposal calls for the selected firm, MASS Design Group, in collaboration with Chainbreaker Collective and the Santa Fe Indigenous Center, to develop the community development engagement strategy. This will inform the NSP through a co-creation process with community organizations pursuant to the MCDP. This would include structuring and facilitating an equitable, community-driven planning partnership between the professional community development team and local community organizations to create inclusive, creative, and welcoming planning processes.

These efforts will prioritize communities that have been underrepresented in planning and public policy making, including youth and families, Spanish speaking populations, Indigenous and people of color, low-income residents, and people living in surrounding areas of Midtown.

While the focus is on the Hopewell Mann Neighborhood, the findings could potentially be applicable to surrounding neighborhoods.

MRA DISTRICT BOUNDARY

The Midtown MRA District boundary follows the boundary of the Midtown Local Innovation Corridor (LINC) Overlay District, which was adopted in 2016 (Ord. 2016-39). The Midtown LINC Overlay District was created to strengthen the built environment, foster economic growth, and enhance connectivity within Santa Fe's geographic and demographic center. It aimed to bridge the gap between the Midtown site and Christus St. Vincent Regional Medical Center by incentivizing mixed-use, pedestrian-oriented redevelopment.

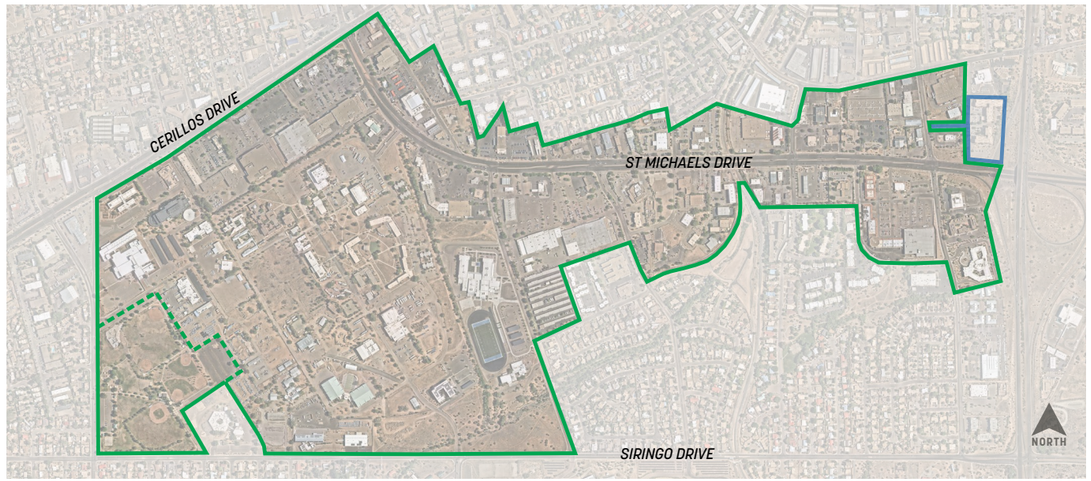
The boundary selection for the LINC district was strategic and deliberate. It excludes established residential neighborhoods to minimize disruption while incorporating 372.8 acres of primarily commercial, industrial, and institutional properties along St. Michael's Drive and Cerrillos Road, as well as the Midtown site. The intent was to free underutilized land for multi-family residential and complementary non-residential uses while maintaining zoning flexibility. Additionally, the boundary allows for higher-density development, improved multimodal transit options, and walkable public spaces, reinforcing Santa Fe's broader urban planning goals.

The Midtown MRA district aligns with the LINC Overlay boundary with two minor differences: the omission of a residential property, indicated by the blue outline in Figure 2, and the addition of General Franklin E Miles Park, indicated by the dashed green line. While there is currently no residential property within the Midtown MRA district, residential development is expected in the future.

The Midtown MRA district encompasses 182 parcels. This includes the 64-acre city-owned Midtown Redevelopment Site, formerly home to the Santa Fe University of Art and Design (SFUAD), along with the adjacent commercial corridor along St. Michael's Drive and portions of Cerrillos Road. All parcels are non-residential. However, as of September 2025, there is transitional housing located on the Midtown campus. To comply with the requirements of an MRA district, the MR Agency is collaborating with other city departments to identify other decent, safe, and sanitary facilities for these community members.

The geographic scope of the MRA extends to San Mateo Lane to the north, St. Francis Drive to the east, Siringo Road to the south, and Camino Carlos Rey and Cerillos Drive to the west as seen in Figure 2 below.

FIGURE 2. MRA DISTRICT BOUNDARY



Midtown MRA boundary map: Differences between the MRA and the LINC are the omission of the sole residential area in the north eastern corner (blue outline) and the addition of Franklin Miles Park in the southwest corner (dashed line).

PREVIOUS PLANNING & COMMUNITY ENGAGEMENT

Numerous planning initiatives, policies, and reports have shaped the vision for the Midtown MRA district, including site-specific plans, site-specific studies, and broader citywide strategies. These efforts have consistently identified key issues and reflected the community's goals and aspirations.

Building on this foundation, this MRA Plan is intended to carry those visions forward and provide a spring board for more enhancements in this important part of Santa Fe.

Table 3 provides a summary of past planning efforts, highlighting their goals, key recommendations, and links to the full documents.

Additional information about these previous plans can be found in the appendix of this document.

FIGURE 4. MIDTOWN CONCEPTUAL SITE PLAN

FIGURE 3. MATRIX OF PREVIOUS PLANNING & COMMUNITY ENGAGEMENT

PLANNING EFFORT	PLAN GOAL	STRATEGIES & PROJECTS
St. Michael's Drive: Visions of the Future (2009)	The effort included the development of concepts by various participants focused on the combination of a re-designed roadway, as well as a new development pattern and new approach to urban design along the road.	*This effort included design concepts with lane reductions, roundabouts, and landscaped medians to calm traffic and enhance safety. Projects emphasize wide sidewalks, separated bike lanes, and complete streets to support walking and biking. Mixed-use development with 2–5 story buildings, live/work units, and creative districts are proposed. Public realm improvements include plazas, parks, tree-lined boulevards, and pedestrian promenades. Several visions include a new train station, underground parking, and stronger neighborhood connections. Sustainability tools feature solar and wind power, water harvesting, and green infrastructure. District themes center on arts, education, wellness, and transit-oriented development.*
RE:MIKE (2012)	This plan imagines a revitalized St. Michael's Drive Corridor in Santa Fe, transforming it into a more vibrant, pedestrian-friendly, and economically diverse area.	*This plan includes strategies such as fee waivers, allocation of other city resources, and special designation of zoning for economic development purposes as a result of the implementation of a multi-phased overlay district*
OVERLAY DISTRICT: MIDTOWN LINC ZONING OVERLAY (2016)	The LINC Overlay aimed to spur redevelopment of underutilized land along St. Michael's Drive by encouraging higher-density, mixed-use projects, improving connectivity between major employers, and supporting multi-family and commercial development through design standards, fee incentives, and streamlined approvals.	*As a part of this effort, fee waivers included impact, permit, utility expansion, and development review fees. These benefits are available to qualifying projects, which are required to maintain compliance for five years and are eligible for administrative approval. Parking requirements are flexible, allowing demand studies, shared parking, and use of on-street parking spaces. Zoning tools include increased height allowances (up to 50'), no density cap, reduced setbacks, and flexible use standards. Projects must use high-efficiency water fixtures. Design standards mandate wide sidewalks, landscaped buffers, screened utilities, coordinated site furnishings, and street-oriented building façades.*
OVERLAY DISTRICT: SOUTH-CENTRAL HIGHWAY CORRIDOR PROTECTION DISTRICT (SCHC) (2019)	The SCHC Overlay aimed to preserve the scenic quality and manage development within the overlay area. The SCHC imposes specific regulations on land use, density, and design to maintain the visual appeal and character of these areas.	*This offers a combination of fee incentives, flexible zoning, and design standards to encourage reinvestment and compact, mixed-use development. Tools include reduced development fees, increased building height allowances (up to 52 feet), no density cap, and reduced setbacks. Parking standards allow shared and on-street options. Design requirements focus on wide sidewalks, street-facing buildings, landscaped buffers, and pedestrian-friendly features. Projects meeting these standards are eligible for administrative approvals and are required to maintain compliance in perpetuity.*
Santa Fe Housing Report (2020)	This report was developed to analyze the challenges faced by the City of Santa Fe's housing market and provides strategies and policy recommendations for addressing them.	*The recommendations include key levers such as zoning reform, streamlined permitting, public-private partnerships, and expanded funding for affordable housing. Priority projects involve building mixed-income developments, supporting nonprofit housing providers, and converting underutilized properties into housing. The focus is on creating a more equitable, accessible housing market that meets the needs of all Santa Fe residents.*

Priority projects include new community spaces, cultural and arts programming, expanded transit access, and improvements to walking and biking networks. Levers to support implementation include zoning and land use updates, public-private partnerships, targeted infrastructure investments, and use of various financial tools. The approach focuses on aligning public investments with community goals to create a vibrant, inclusive, and economically resilient Midtown district.*
MIDTOWN PUBLIC ENGAGEMENT REPORT (2022)	The plan outlines a community-driven vision for the redevelopment of the Midtown District. Its goals are to create a vibrant, inclusive district with mixed-income housing, public spaces, arts and cultural amenities, and opportunities for education, employment, and local business growth.	*This plan includes core strategies ensuring a mix of housing types, including affordable options, preserving and expanding open space, and integrating arts, education, and cultural uses. Projects focus on adaptive reuse of existing structures, developing parks and plazas, supporting local businesses, and creating space for youth, families, and intergenerational programming. VISION & GOALS

The vision of the Midtown MRA district, as articulated in previous plans, is to transform the area into a vibrant, inclusive, and economically dynamic district that blends culture, arts, education, housing, and public spaces. Redeveloping the Midtown site will catalyze improvments throughout the MRA district.

The goals for the Midtown MRA district area:

GOAL 1: Create convenient connections and upgraded infrastructure.

Create strong non-motorized connections between the Midtown site, the MRA district, and surrounding neighborhoods to support a vibrant, mixed-use, and inclusive cultural district.

GOAL 2: Foster a high-quality built environment.

Balance preservation with progress by reusing and rehabilitating legacy buildings and cultural arts resources to maintain character and reduce waste.

GOAL 3: Improve safety.

Target lighting and crossing improvements at major gateways, transit stops, trail crossings, and other key locations within the MRA district. Encourage ground floor, street facing retail to add more "eyes on the street".

GOAL 4: Address environmental challenges through resilient design strategies.

Environmental challenges should be addressed through strategic design and infrastructure, including retrofitting the existing pond to enhance stormwater management and ecological function.

GOAL 5: Establish a better connected block layout with public spaces.

Redesign the area with smaller blocks, street-facing commercial buildings, a dense street network, and centrally located parks and plazas for the existing community, future residents and visitors.

GOAL 6: Expand housing variety and affordability.

Provide diverse and affordable housing types with a mix of incomes and unit sizes to support community growth and vitality.

GOAL 7: Vibrant and creative business activity.

Build on Midtown's central location and arts heritage by providing diverse spaces for current and emerging businesses to thrive.

DESIGNATION REPORT FINDINGS

MRA DESIGNATION REPORT FINDINGS

The Midtown Metropolitan Redevelopment Area has been designated to tackle various challenges that have hindered its economic growth, livability, and development potential.

The findings in the MRA Designation Report identified several conditions that meet the criteria for an MRA designation under the New Mexico Metropolitan Redevelopment Code. These findings inform the redevelopment strategies and implementation recommendations outlined in this plan. The goal is to address and build upon these conditions to empower a thriving and active district that promotes future growth and opportunities for residents.

Table 4 outlines the criteria from the MRA Designation Report, summarizes the findings of the report associated with each criterion, and indicates where some of these conditions are located. These findings are integrated into the *"FIGURE 8. Implementation Table" on page 22* which address the existing challenges with strategies to eliminate blight and achieve the desired outcomes.

MARKET STUDY FINDINGS

The following section includes a summary of a market study that was conducted for the area covered by the Midtown Local Innovation Corridor Overlay District, coinciding with a MRA District for a similar zone. The study assesses economic and demographic trends in Santa Fe; analyzes recent performance of multifamily, office, hotel, and retail sectors in the Midtown LINC and surrounding areas; and estimates the pace of development for redevelopment sites within the study area.

ECONOMIC & DEMOGRAPHIC TRENDS

There are approximately 50,140 jobs in Santa Fe, 5% of which are in the Midtown LINC. The Midtown LINC has a larger share of jobs in accommodation, food services, finance, and insurance compared to the rest of the city. Overall, employment in Santa Fe decreased by approximately 170 jobs from 2010 to 2022. However, over the past decade, Santa Fe experienced significant job growth in major economic clusters like hospitality and tourism (+1,790 jobs), healthcare (+800 jobs), and information technology (+360 jobs). These same economic clusters are projected to grow over the next decade. In addition, National Labs such as Los Alamos and Sandia are driving recent and projected regional growth in energy, aerospace, and defense-related industries.

As of 2024, Santa Fe had a population of approximately 90,200. The city's population increased by nearly 30% since 2010, though the majority of growth was related to a 2014 annexation. Excluding annexations, the city's population has steadily increased since 2010. Median household income in Santa Fe is $74,200, and over 35% of Santa Fe households have annual incomes of over $100,000. Future household growth is projected to be concentrated among households earning above $100,000 annually.

MULTIFAMILY MARKET

Multifamily residential has been experiencing a boom in Santa Fe. Since 2019, an average of 446 units has been permitted in Santa Fe annually. In the year 2019 alone, 245 multifamily units were permitted – more than the combined total of multifamily units permitted in the prior 18 years. Developer interviews suggest several contributing factors to this new development momentum, including amendments to the city's affordability requirements, which allow developers to pay a fee in lieu of affordable units, post-pandemic migration to Santa Fe from around

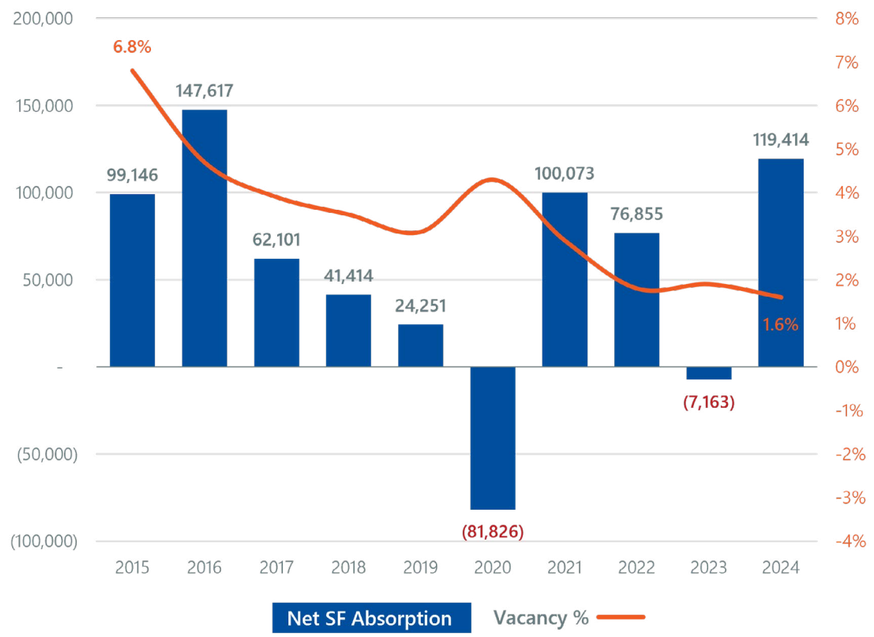
the nation, and the continued strength of economic anchors such as the national labs.the nation, and the continued strength of economic anchors like the national labs.

Santa Fe also has 1,090 units currently under construction and an additional 4,430 units proposed. Given the unprecedented development pipeline, some real estate professionals believe the Santa Fe market-rate multifamily market may currently be overbuilt. The pace of new market-rate development may slow in the near-term to allow pipeline development to absorb, particularly with uncertainty about tariffs increasing construction costs. However, there continues to be an overall regional housing shortage – particularly affordable homes for lower- and moderate-income households. Given broader regional housing needs, multifamily is expected to remain a strong real estate market segment over the medium- to long-term and will likely be the primary development product for the Midtown campus. Developing market-rate housing along with affordable housing at the Midtown site can simultaneously create a new mixed-income neighborhood in the city and help address regional housing needs.

FIGURE 7. SANTA FE OFFICE ABSORPTION AND VACANCY, 2015-2024

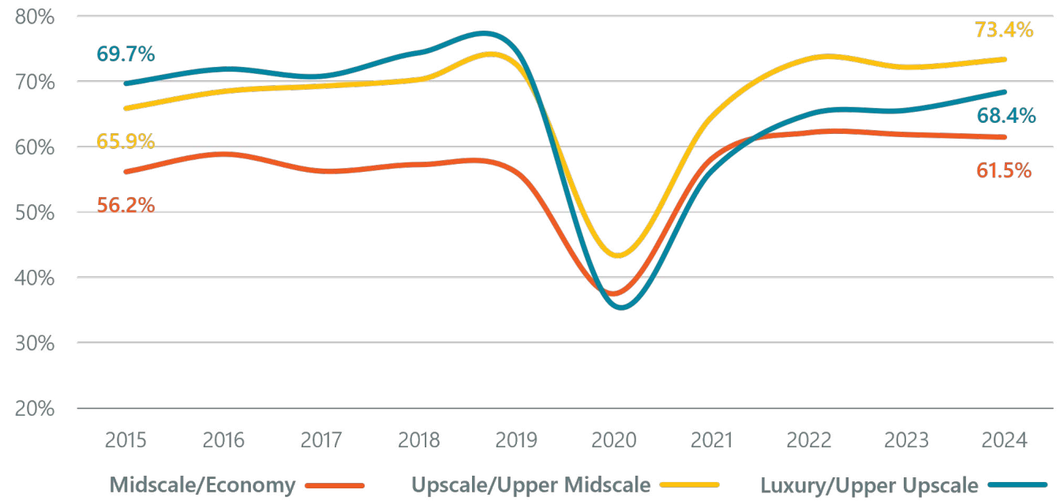


OFFICE MARKET

Recent multi-tenant office deliveries have been limited, which has led to a very low vacancy rate. While Santa Fe has over 7.16 million SF of existing office space, only 116,000 SF have been delivered since 2015. As a result, in combination with continued job growth in office-reliant economic sectors like information technology and business services, Santa Fe's office vacancy rate decreased from 6.8% in 2015 to 1.6% in 2024.

Continued absorption and a low vacancy rate indicate that Santa Fe's office market is much stronger than in many peer cities, where office performance has been persistently weak since the COVID-19 pandemic. While State and local government are part of the growth of the economy, demand for new office space is likely to be driven by medical users, National Lab spinoffs, federal agencies, and private businesses that are more willing to pay higher rents associated with new Class A office. Future demand appears to be strong for developers seeking to develop multi-tenant speculative office or larger businesses that seek a build-to-suit office development in a new, upcoming mixed-use center. While Midtown is not currently a core office market, its central location in Santa Fe and availability of land could make it a strong contender to capture future office development. Any office development at Midtown should complement the mixed-use neighborhood vision.

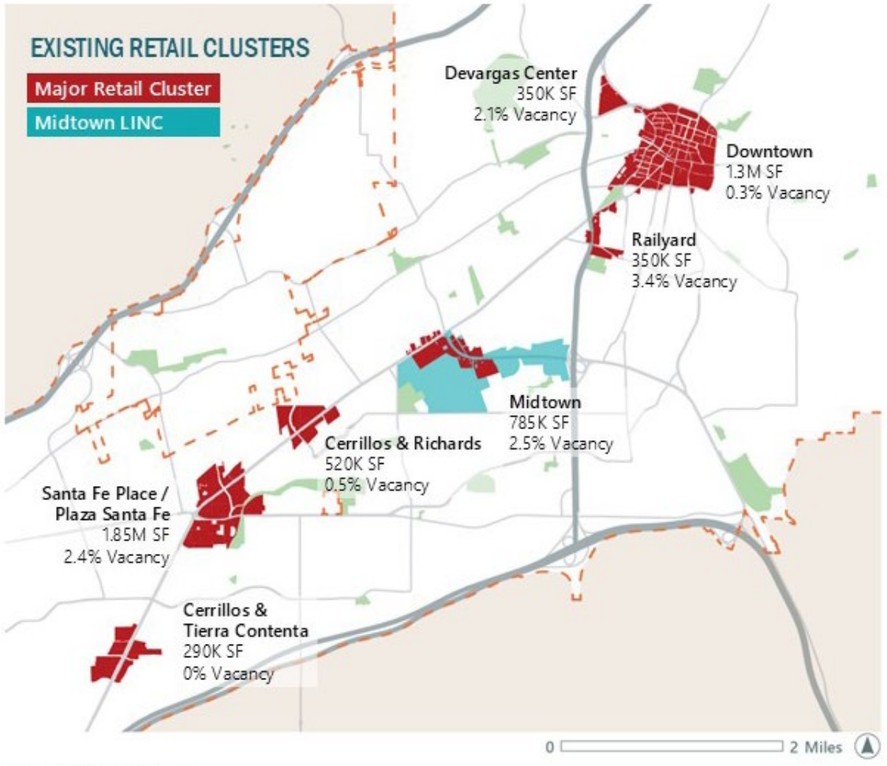
FIGURE 9. SANTA FE HOTEL OCCUPANCY BY CLASS, 2015-2024



HOTEL MARKET

Tourism is the primary driver of hotel demand in Santa Fe. Travel + Leisure readers recently voted Santa Fe as their #1 favorite city in the United States. Santa Fe's hospitality market has largely recovered post-COVID. The citywide average occupancy rate is 68%, which exceeds pre-pandemic levels. Upscale and Upper Midscale class hotels have the highest occupancy among classes (73%). The citywide average daily rate (ADR) is $182. Hotels in Santa Fe

FIGURE 10. EXISTING RETAIL CLUSTER IN SANTA FE



have experienced strong ADR growth since 2020, with the overall market average increasing from $138 in 2019 to $182 in 2024. Luxury and Upper Upscale class hotels have been the primary driver of this growth. ADR for this class grew by 41% between 2019 and 2024, while the overall market ADR increased 32% over the same period.

Hotel development could potentially be feasible at Midtown in the long run, particularly as other developments bring more activity to the area. Hotel visitors to the area could help support the retail and add to the tax base.

RETAIL MARKET

Retail is generally performing well in Santa Fe, particularly in the primary retail clusters like Midtown. Overall market vacancies continue to be low (2.3%). However, rent growth and new deliveries have both slowed in recent years. The Midtown LINC contains approximately 1.1M SF of commercial space (15.6% of Santa Fe's total commercial inventory) and has captured a roughly equivalent share of new development citywide since 2015. The broader Midtown MRA can capture additional daily needs retail development, particularly as new residential development expands the local consumer base. Sites within the Midtown campus, which lack frontage on the main roads, should also seek to attract destination retail and entertainment users that can draw customers from a wider geography for their unique offerings and experiences.

MARKET CONCLUSIONS & DEMAND PROJECTIONS

- ☑ *Multifamily development will include market-rate, mixed-income, and affordable developments.*
- ☑ *Midtown could potentially accommodate labs and other scientific offices, as well as some government offices.*
- ☑ *Midtown should include a mix of hotel types (i.e., larger conference hotels and smaller boutique hotels) to capture different travel sectors.*
- ☑ *A majority of new retail space in Midtown is likely to be ground-floor retail in mixed-use buildings, or standalone, specialty retail. Big box retail with national tenants is unlikely to locate within the core of Midtown.*

KEY TAKEAWAYS

NATIONAL BEST PRACTICES

Utilizing a MRA designation to redevelop blighted districts is a common practice employed throughout the country.

One of the many advantages of creating an MRA district is the ability to use tax increment financing as a tool to pay for infrastructure. This type of financing can also be used to implement community-driven initiatives, such as park and public space improvements, public programming, and to supplement operations and maintenance of public amenities. Below are several examples that illustrate how MRA districts can be successful.

GLENVIEW, IL

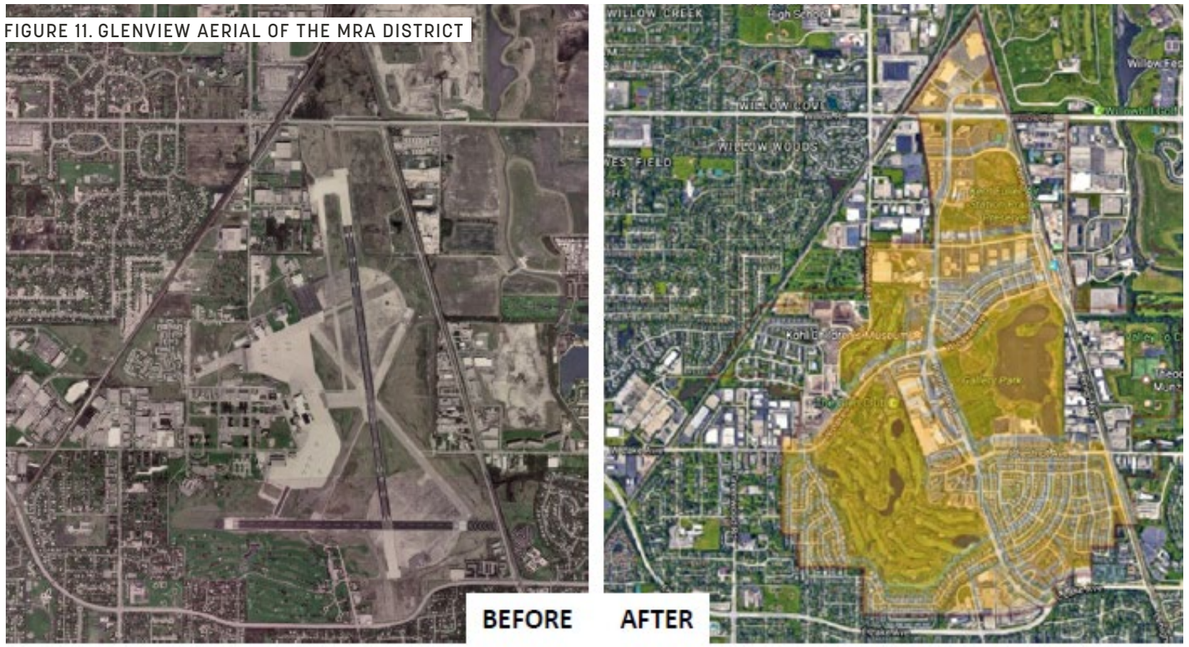
COMMUNITY SNAPSHOT

The VIllage of Glenview is a suburb of Chicago, IL with a population of approximately 50,000.

Glenview initiated a planning process to integrate a decommissioned Naval Air Station site into it's community. Upon its closure, the Air Station comprised 15% of Glenview's land area. Glenview established a 23 year MRA for the former Naval Air Station site and utilized TIF as a major funding source for their redevelopment efforts.

Similar to Midtown, this is a large campus-like site situated in a central location and adjacent to a commuter rail line.

FIGURE 11. GLENVIEW AERIAL OF THE MRA DISTRICT



Source: Google Earth; HistoricAerials.com; SB Friedman

IMPLEMENTATION

To achieve redevelopment goals, TIF financing was utilized. The TIF District is expected to generate over $800 million in revenue including $560 million from property and sales taxes, and $220 million from the sale of approximately 600 land acres to private developers. The revenue has funded approximately $183 million of roads and stormwater infrastructure.

LEVERAGING MRA TOOLS

- ☑ *Demolish remaining Naval Air Station structures, including 1.5 miles of runway and more than 100 Navy buildings*
- ☑ *Environmental remediation to clean contaminated soils, underground fuel storage tanks and dumping sites*
- ☑ *Build stormwater detention near Patriot Marketplace Retail Center*
- ☑ *Construct public improvements, including public parking structures, parks, sidewalks and streets*

KEY TAKEAWAYS

- ☑ TIF was utilized to pay for large scale infrastructure projects
- ☑ Infrastructure costs are difficult to finance without special tools or districts
- ☑ A single master developer, in this case the city, was essential to project success
- ☑ TIF can be leveraged to create a high rate of return on public investment

Before and after images of the Bridge Street District.

DUBLIN, OH

COMMUNITY SNAPSHOT

Dublin, Ohio is a suburb of Columbus, OH with a population of 49,328.

To stay competitive, City of Dublin recognized the need to innovate, creating a vision for an urban, walkable community that they called the Bridge Street District. This included more than 30 acres of land along the Scioto River in 2012 - previously the site of a struggling strip mall and driving range.

IMPLEMENTATION

To bring this vision to life, the city utilized TIF financing to develop 1,700 parking spaces and a significant portion of the road network for the development. The city also invested in public works projects that support the Bridge Street District including the relocation of roadways and roundabouts, and an iconic pedestrian bridge.

Bridge Park is now a well-known destination in central Ohio, allowing visitors, residents and office users to enjoy a once underutilized space. The $500 million+ private investment includes the development of Class A office and retail/restaurant space, for-rent residential units, for-sale condos/ townhomes, an events center and public park.

LEVERAGING MRA TOOLS

- ☑ *Built structured parking to support private development*
- ☑ *Constructed public spaces and parks to create community benefit*
- ☑ *Financed and constructed road network*

KEY TAKEAWAYS

- ☑ TIF financing was utilized to develop infrastructure
- ☑ Redeveloping the large site relied on strong public–private partnerships
- ☑ Attracting a mix of uses created a more vibrant development

BOISE, ID

COMMUNITY SNAPSHOT

The River Myrtle–Old Boise (RMOB) District is a centrally located area in downtown Boise, ID. When established in 1996, the district consisted largely of vacant land, aging warehouses, and remnants of industrial uses. The district was created to ensure that downtown Boise remained the region's hub for business, government, culture, education, and urban living—similar to the Midtown site in its central location and potential for transformation.

IMPLEMENTATION

To support redevelopment goals, Boise's urban renewal agency, the Capital City Development Corporation (CCDC), utilized tax increment financing (referred to as revenue allocation in Idaho). The financing has enabled strategic public investments in infrastructure and streetscapes that have spurred private development and helped transform the RMOB District into a vibrant, mixed-use urban neighborhood.

HOW THE MRA DESIGNATION FUNCTIONS

- ☑ *Improved streetscapes to enhance the safety and functionality of the rights-of-way*
- ☑ *Park Improvements: A partnership with the local Parks department to upgrade a park.*
- ☑ *Built public spaces that celebrated the neighborhood's multicultural history, providing additional event space to support street festivals, and catalyzes placemaking with adjacent private investment and overall neighborhood investment strategy.*

Rebuild Old Boise Blocks project: Grove Street in Boise between 4th Street and 5th Street, looking west.

KEY TAKEAWAYS

- ☑ TIF investments spurred private development
- ☑ TIF served as a key tool to fill financing gaps
- ☑ Redevelopment utilized a mix of capital sources

FINANCIAL TOOLS

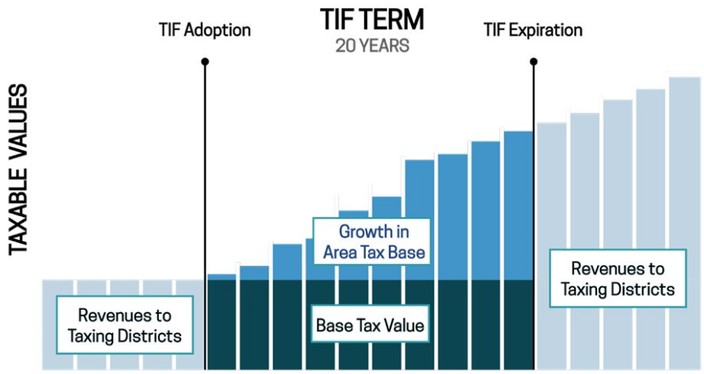
There are several local, state and federal sources that could be used to pay for improvements within the Midtown MRA district. One of the responsibilities of the Metropolitan Redevelopment Agency will be to apply for these sources or establish funding mechanisms that could fund area-wide improvements.

OPPORTUNITY ZONE

The census tract that encompasses the Midtown LINC area is a designated Opportunity Zone (OZ), an area where new investments may be eligible for preferential tax treatment. The program provides deferred or reduced taxes on capital gains from investments in OZs. Projects such as commercial and industrial real estate, housing, infrastructure, and existing or start-up business investments can all produce OZ tax benefit.

TAX INCREMENT FINANCING

Tax increment financing is a flexible, public-private finance tool used by local governments across the country. TIF allocates future increases in taxes from a designated area, or TIF District, to pay for improvements within that area. Generally, the purpose of TIF is to eliminate blight through redevelopment, foster economic development, and enhance the local tax base. In New Mexico, TIF districts may only be established within existing Metropolitan Redevelopment Areas with plans approved by the local government.



In 2024, the State of New Mexico approved changes to the State Metropolitan Redevelopment Area statute to create an enhanced TIF mechanism. The changes now allow for TIF districts to capture a portion of incremental gross receipts tax (GRT) and property tax revenue generated within the district. With the changes to State law, a TIF could collect up to 75% of incremental property and gross receipts taxes generated from the municipality, county and state within a TIF District for up to 20 years. Participation rates are subject to municipal, county and state approval, and could be less than 75% depending on taxing jurisdiction needs and redevelopment goals. Over the TIF period, school, water and other special taxing districts continue to collect their regular tax rate and immediately benefit from growth in the tax base.

TAX INCREMENT DEVELOPMENT DISTRICT

A Tax Increment Development District (TIDD) is a designated area that captures a portion of incremental gross receipts or property tax revenue to finance public infrastructure projects like roads and utilities. A TIDD functions similarly to a TIF. However, for a TIDD to be established, a majority of the property owners in the district must be in favor of the TIDD. Unlike TIFs, which have more flexibility, TIDD funds can only be spent on infrastructure. Lastly, a TIDD relies on tax increases paid by property owners to fund district-wide improvements.

RECOMMENDATIONS & IMPLEMENTATION

The Midtown MRA district and its surrounding neighborhoods are vibrant and diverse, rich with unique assets and poised to grow as an inclusive cultural and economic hub. The following implementation table organizes specific strategies and projects aligned under key goals developed to realize this potential and address the MRA designation criteria. Each goal reflects a targeted approach to foster connectivity, strengthen the built environment, improve safety, promote environmental resilience, encourage thoughtful urban design, expand housing diversity and affordability, and support thriving local businesses for the people of Santa Fe. They also directly respond to the criteria for MRA district designation.

These targeted interventions are designed to support the evolution of this dynamic district. Each action item is paired with implementation partners and the specific geographic areas within the MRA where it applies—providing a clear roadmap for coordinated, phased revitalization. This framework is intended to guide public and private investment, align resources, and support long-term redevelopment success.

As part of the implementation strategy, an assessment of available financing tools has identified Tax Increment Financing as a leading option. TIF offers a powerful mechanism to help fund critical infrastructure improvements while capturing the long-term benefits of economic growth and reinvestment in the area.

HOW CAN TIF WORK IN MIDTOWN?

TIF districts can provide communities the funds necessary to implement the strategic goals outlined in their redevelopment plans. By attracting investment that would not occur without tax increment financing, the Metropolitan Redevelopment Agency can help catalyze economic growth and increase the long-term tax base for all jurisdictions.

A Midtown TIF district could help facilitate the redevelopment of Midtown by generating the funding necessary to rehabilitate the area in alignment with community needs and existing plans for the site. TIF could finance efforts by the Metropolitan Redevelopment Agency to address key considerations identified in the Midtown Master Plan, which include connectivity and mobility, integrated stormwater management, civic and open space, and affordable housing.

More specifically, TIF could serve as a critical source of funds for the following:

- ☑ *Catalytic public infrastructure including streets and utilities that would make Midtown parcels development-ready;*
- ☑ *Plazas and open space;*
- ☑ *Public assistance for affordable housing;*
- ☑ *Gap financing for parking structures and other extraordinary development costs; and*
- ☑ *Renovation and rehabilitation of existing structures for adaptive reuse.*

TAX INCREMENT FINANCING PROJECTIONS

For the purposes of this plan, TIF revenues were projected for the Midtown MRA boundary. If approved, initial projections indicate that a new TIF district encompassing the proposed Midtown MRA could generate approximately $190.0 million in TIF revenue (including gross receipts taxes from construction) over 20 years for use on eligible costs within the district. Annual tax revenue collected by the MRA is projected to range from approximately $376,000 to $11.1 million annually in the first ten years of the TIF, and up to $17.3 million in the final year of the TIF. This 20-year revenue stream would provide the opportunity for significant public investment and economic development programming.

FIGURE 14. MIDTOWN MRA TIF REVENUE PROJECTIONS

REVENUE PROJECTION ASSUMPTIONS

TIF revenue is generated through inflationary property value growth on existing properties, growth of gross receipts due to inflation or increased sales, or new development which generates additional property and gross receipts tax revenue. The TIF revenue projections are based on a series of assumptions. Current property and gross receipts tax rates are assumed to remain constant throughout the entire analysis period. In addition, it is assumed that the participating taxing districts — the City, the County, and the State — all contribute 50% of their incremental revenues generated within the district to the TIF.

Additional assumptions relate to property tax and gross receipts tax growth rates over time, as well as new development within in the district. Stabilized growth rate assumptions for existing property and current commercial activity are based on historic growth observed or estimated for the Midtown MRA boundary. Future development and phasing assumptions are based on preliminary development proposals received by the Metropolitan Redevelopment Agency, as well as market demand analysis conducted by SB Friedman.

TAKEAWAYS

A TIF that encompasses the Midtown MRA could generate significant revenues to fund the rehabilitation and redevelopment of Midtown in accordance with community needs and existing policies and plans. However, because TIF relies in large part on new development to generate funding, most of the revenue from a Midtown MRA TIF would likely be generated in the last ten years of the TIF.

The new TIF revenues give the City multiple options to fund redevelopment. The City could choose to enter into public-private partnerships with developers to advance priority development projects and fund extraordinary development costs that are often not covered by the private sector, such as environmental remediation, higher shares of affordable housing, and public infrastructure associated with new development. The city could also issue bonds against these revenues to pay for needed public infrastructure, such as streets, parks, and plazas, to establish the public realm framework and make parcels within the Midtown site development-ready.

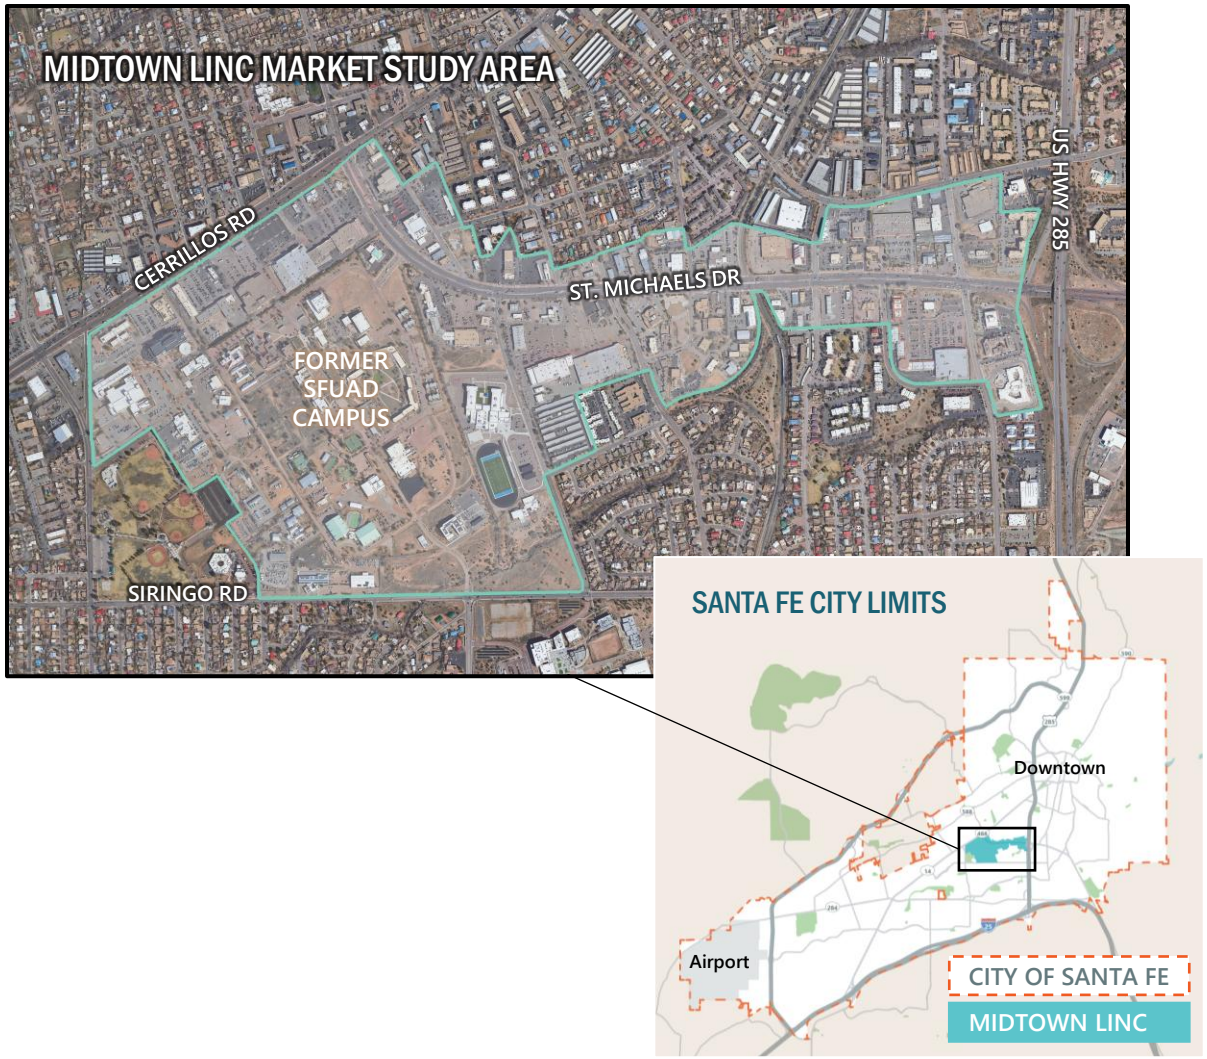
INTRODUCTION

STUDY PURPOSE

Midtown Local Innovation Corridor – Market Analysis

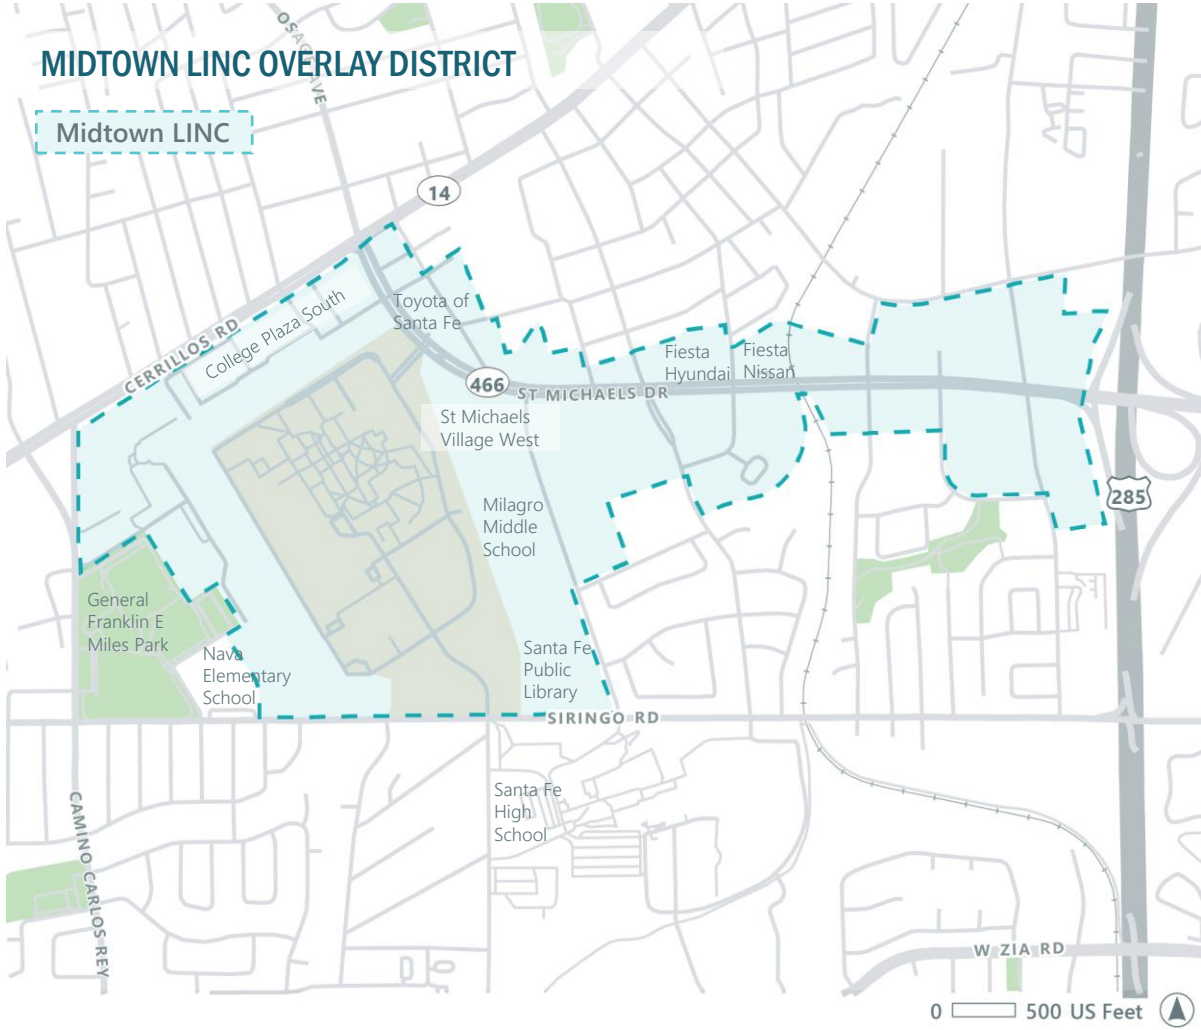
- The Santa Fe Metropolitan Redevelopment Agency engaged SB Friedman Development Advisors, LLC (SB Friedman) to conduct a market study for the area encompassed by the Midtown Local Innovation Corridor (LINC) Overlay District in concurrence with a Metropolitan Redevelopment Area designation for a similar area.
- The Midtown LINC encompasses ±378 acres of land near the intersection of Cerrillos Road and St. Michaels Drive in the geographic center of Santa Fe. The area includes the campus of the former Santa Fe University of Art and Design (SFUAD), which permanently closed in 2018.
- The 64-acre campus site was the focus of the recent community-driven Midtown master planning process following extensive public engagement. In November 2022, the City of Santa Fe approved the Midtown Master Plan. The long-term vision for the site prioritizes sustainability, economic vitality, and the creation of a mixed-use urban center.
- As part of this study, SB Friedman assessed industry and demographic trends in Santa Fe; analyzed the recent performance of multifamily, office, hotel, and retail in the Midtown LINC and the surrounding city; and estimated the pace of buildout for redevelopment sites within the study area.



MIDTOWN AREA – NEIGHBORHOOD CONTEXT

The Midtown LINC is primarily an auto-oriented area along major transportation corridors

- The Midtown LINC is bounded by Cerrillos Road to the northwest, Camino Carlos Rey to the east, Siringo Road to the south, and encompasses properties on either side of St. Michaels Road between Cerillos Road and U.S. 285.
- The LINC includes several shopping centers, big-box retailers, public sector uses including government offices, a middle school and the Santa Fe Public Library, some offices and the former campus of SFUAD.
- Cerrillos Road is a major transportation corridor in Santa Fe and is a nine-lane multi-modal roadway with a 40-mph speed limit. In addition to the six through lanes, Cerrillos Road has on-street unprotected bike lanes, a raised median and dedicated left- and right-turn lanes with access to surrounding businesses. Cerrillos Road is one of Santa Fe's most heavily trafficked roadways with 2024 annual average daily traffic counts of over 45,900 within the sections of the LINC. The heavy traffic, large building footprints and parking lots lining Cerrillos Road contribute to the auto-oriented nature of the corridor.
- St. Michaels Drive is another heavily trafficked corridor in Santa Fe. St. Michaels Drive is a seven-lane multimodal roadway with a 40-mph speed limit. In addition to six through lanes, St. Michaels Drive has a raised median and a left-turn lane. St. Michaels Drive had 2024 annual average daily traffic counts of over 24,700 within sections of the LINC.



MIDTOWN MASTER PLAN VISION

Midtown site is envisioned as a vibrant, walkable, mixed-use community at the center of the city

- The Midtown Master Plan focuses on the 64-acre, former SFUAD campus. After a four-year planning effort, which included extensive community engagement, the Midtown Master Plan and accompanying Midtown Community Development Plan were approved by the City of Santa Fe in 2022 and 2023, respectively. These documents lay out the community's vision for the site as well as the policies guiding future redevelopment.
- The Midtown Master Plan envisions the site as a vibrant, walkable, mixed-use community for Santa Feans at the center of the city, with a mix of new construction and adaptive reuse of existing structures.
- To execute the vision, the Midtown Master Plan includes sub-zone standards and façade-zone standards. Sub-zone standards designate preferred uses for each development site. Midtown site sub-zones include civic-space, mixed-use neighborhood, mixed-use center, mixed-use office, mixed-use film and community-oriented use. Façade-zone standards control physical elements including setbacks, height step backs and required frontage types. Midtown site façade zones include plaza, main street, main street-office, live/work, neighborhood residential and neighborhood paseo.

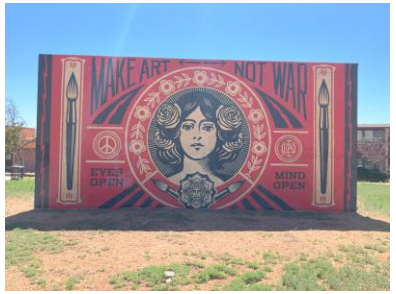
MIDTOWN AREA – EXISTING CONDITIONS

A market-responsive strategy can help achieve the Midtown Master Plan vision



- The Midtown LINC is negatively impacted by physical and economic issues: lacking or unsafe infrastructure, large vacant properties, underutilized land, and recent disinvestment.
- This study builds off the 2022 Midtown Master Plan and analyzes the market conditions for the various land uses proposed in the plan.

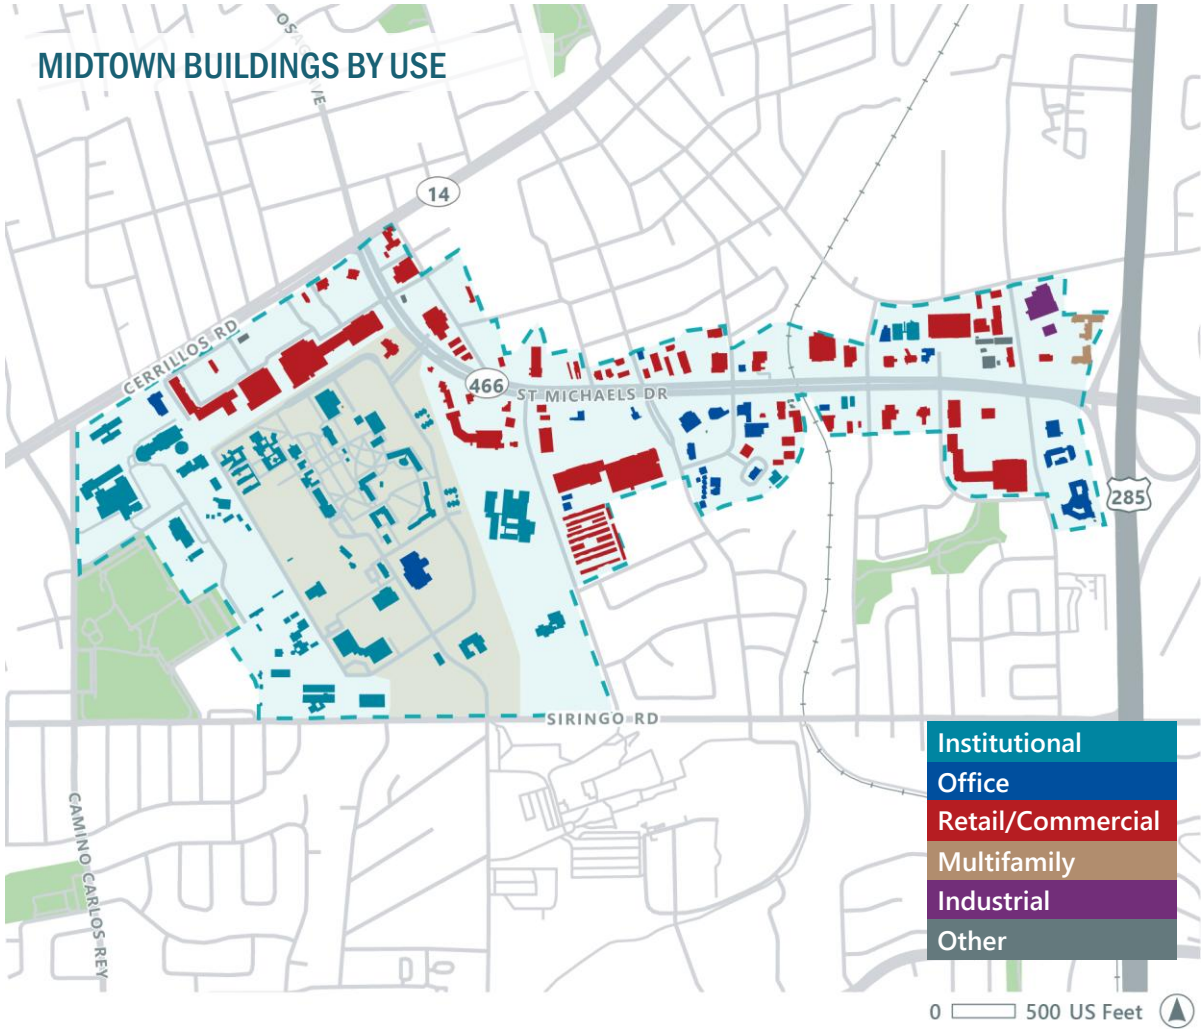
MIDTOWN AREA ANALYSIS

MIDTOWN AREA LINC BUILDING USES

Commercial and institutional uses account for the bulk of the building area in the Midtown LINC

- Commercial and retail buildings account for a plurality of the building area within the Midtown LINC. Commercial properties are primarily located along Cerillos Road and St. Michaels Drive, the two major thoroughfares in the study area.
- The Midtown LINC also contains many institutional buildings, most of which are located on the former SFUAD campus site and surrounding properties. Some of the former campus buildings will be reused, though others will be demolished to accommodate redevelopment.
- There are office buildings located throughout the Midtown LINC, though most are concentrated on the eastern half of the study area, along St. Michaels Drive.
- There is also one multifamily property and two industrial buildings within the Midtown LINC, all on the eastern edge of the study area.



MIDTOWN LINC EXISTING REAL ESTATE SUPPLY

Existing Midtown real estate supply is primarily commercial and institutional with some office space

- The Midtown LINC primarily contains commercial and institutional land uses. The Midtown LINC contains approximately 1.1M SF of commercial space. Midtown's commercial square footage makes up 15.6% of Santa Fe's total commercial inventory.
- Over 348,100 SF of commercial space was built in Santa Fe since 2015, with the Midtown LINC capturing 52,057 SF. Therefore, the Midtown LINC's capture of new commercial development (15.0%) is roughly equal to its total share of Santa Fe commercial space (15.6%).
- The Midtown LINC is not a core office market. The Midtown LINC currently contains 332,421 of office space, or 4.6% of the total office space in Santa Fe. Approximately 115,600 SF of office space has been built across the city since 2015. Meanwhile, the last office project delivered in the Midtown LINC was completed in 2003.
- There is one rent-restricted affordable multifamily project within the Midtown LINC. This project has 136 units, which accounts for 1.6% of the entire city's multifamily inventory. The Midtown LINC does not contain other residential uses but is surrounded by residential neighborhoods like Hopewell-Mann.

EXISTING LAND OWNERSHIP

Public entities control most of the land associated with the former SFUAD campus

- Land within the Midtown LINC land is owned by private owners as well as various public entities including the State of New Mexico, Santa Fe Public Schools, the City of Santa Fe and the federal government.
- The land associated with the former SFUAD campus is mostly held publicly, giving the public sector significant control over how this land is redeveloped.

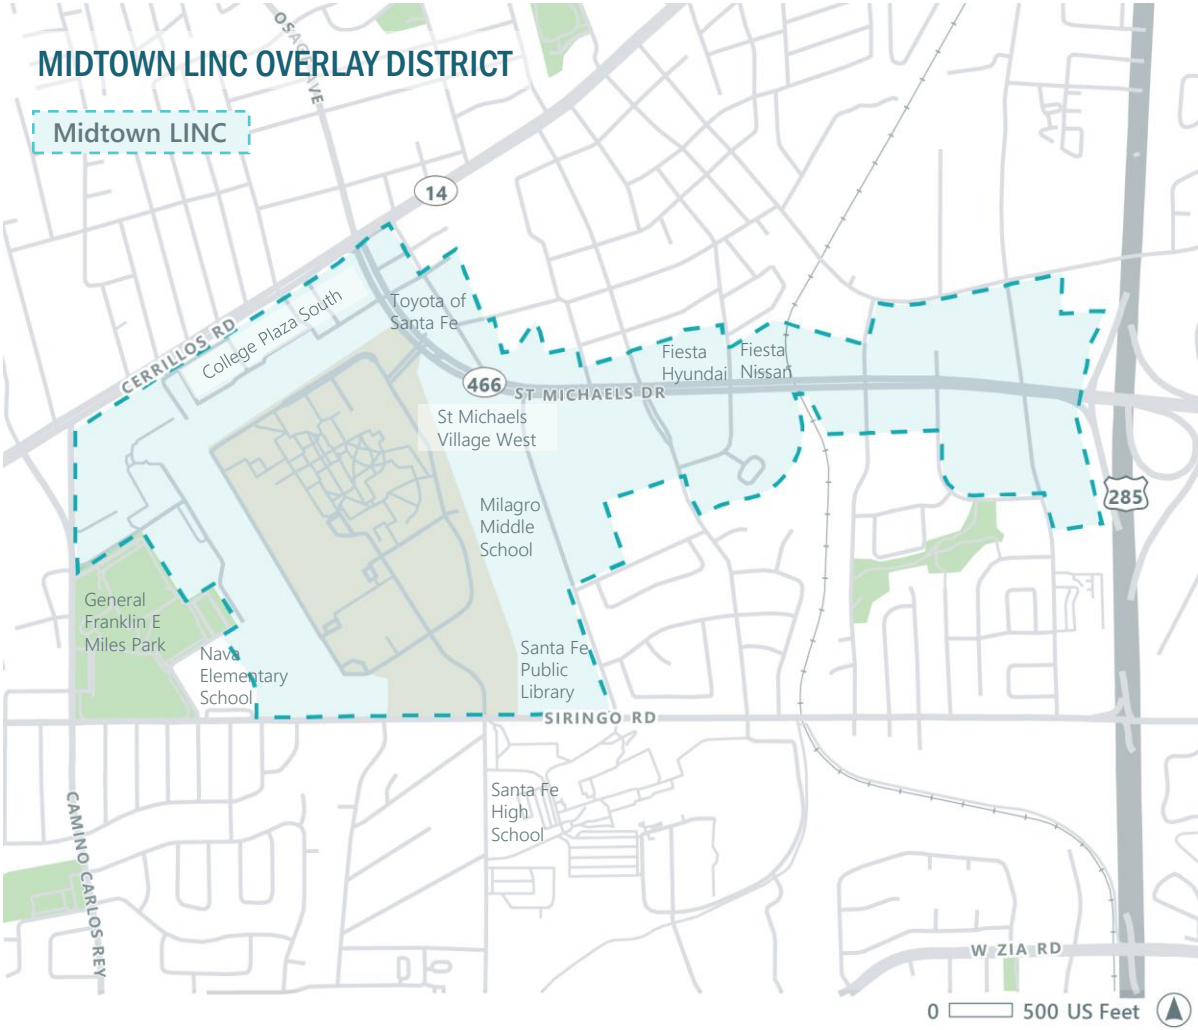
MIDTOWN LINC OVERLAY DISTRICT

The overlay prioritizes denser, mixed-use buildings, but such development has not occurred in the area

- The Midtown Local Innovation Corridor (LINC) Overlay District is a zoning overlay adopted by the City of Santa Fe in 2016. The purpose of the Midtown LINC is to strengthen the built environment, support redevelopment, and enhance connectivity within Santa Fe's geographic and demographic center.
- The overlay established design standards that prioritize four-story mixed-use buildings, street facing architecture and enhanced landscaping to foster a more cohesive urban fabric. The overlay also prohibits certain uses that are not aligned with the district vision.
- Residential projects and certain non-residential uses that meet development standards pay reduced development budget water fees and are exempt from various impact and review fees. Additionally, qualifying projects go through a more streamlined, administrative plan review process.
- However, despite these changes, the qualifying projects that the overlay intended to facilitate have not yet been developed, though one such project—the Arthouse—is currently under construction. Real estate market interviews indicated that strict design standards, insufficient incentives, and unwilling property owners have limited new, residential development within the LINC.

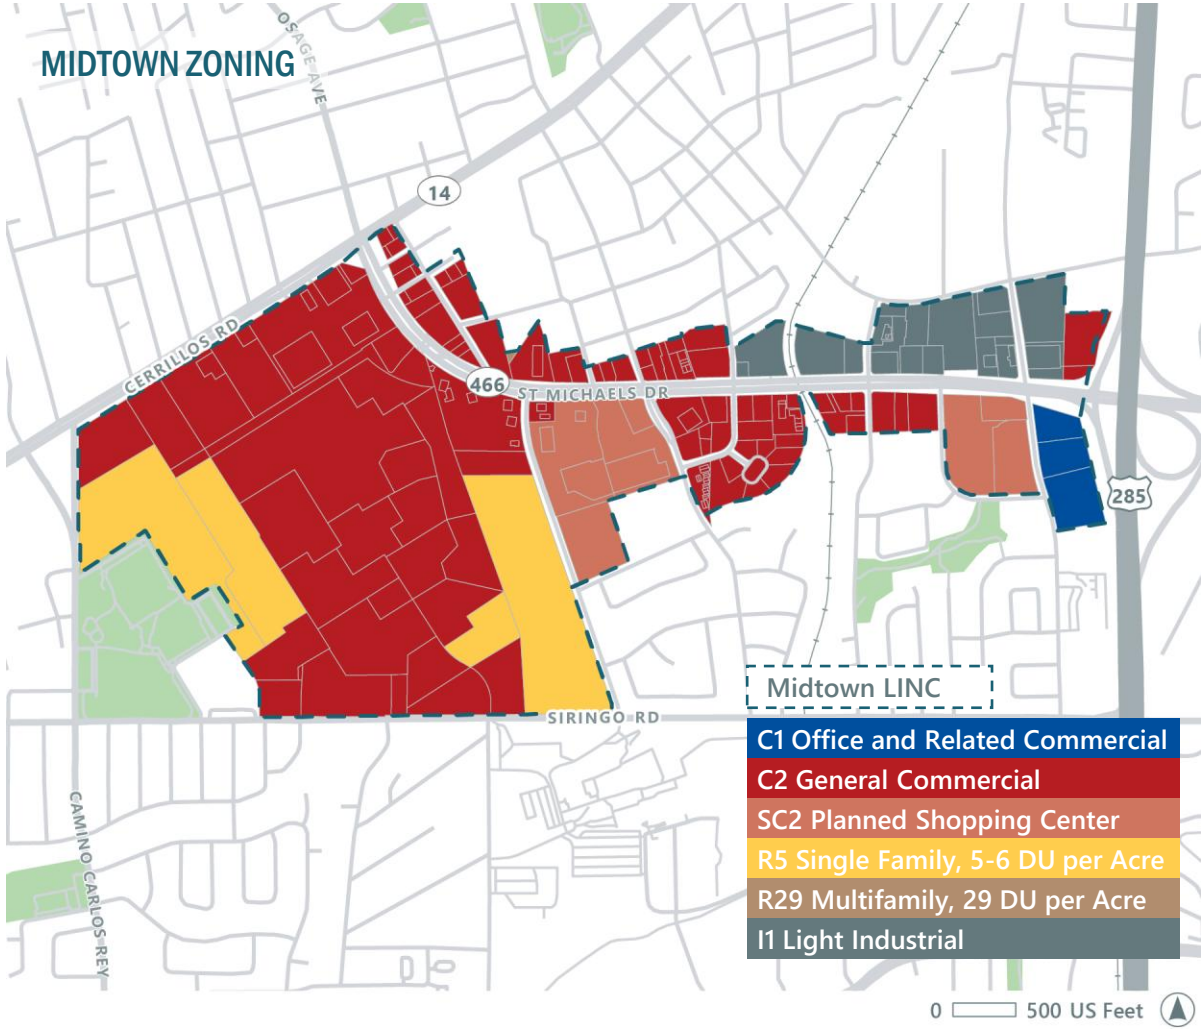


Source: City of Santa Fe, Pland Collaborative, SB Friedman

ZONING

Midtown is primarily zoned for commercial uses with some residential, light industrial and office

- Most of the base zoning in the Midtown LINC is for general commercial uses. Other uses include light industrial, planned shopping centers, single family residential, and office and related commercial uses.
- The Midtown LINC overlay allows for residential uses throughout the area, regardless of base zoning, while prohibiting certain uses that are not aligned with the district vision. The design overlay also sets design standards that prioritize four-story mixed-use buildings, street-facing architecture and enhanced landscaping to foster a more cohesive urban fabric.



Source: City of Santa Fe, SB Friedman

FUTURE LAND USE

Future land use of Midtown generally reflects current zoning with some adjustments

- The future land use of the Midtown LINC includes public/institutional, community commercial, transitional mixed use, business park and office uses.
- Much of the land that is currently zoned for single family residential will be public/institutional in the future, which is in line with the current public sector ownership of the site.
- Some of the land currently zoned for general commercial uses is designated to be transitional mixed use in the future. This transitional mixed use portion of the site includes the core Midtown site.
- The land along Cerrillos Road and St. Michaels Drive is anticipated to remain designated for commercial uses.

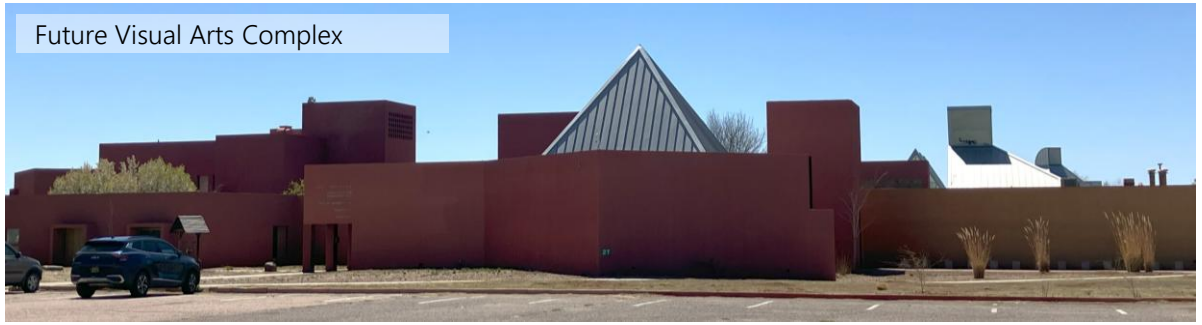
MIDTOWN CAMPUS ANCHORS

Existing and planned anchors will generate activity and help make Midtown a destination

Plans for the Midtown campus include several anchors that will generate activity on the site and help contribute to a sense of place. Some of these uses are currently operating while others will reactivate or redevelop existing structures on the former SFUAD campus.



Future Visual Arts Complex

Future Fogelson Library

Garson Studios

CURRENTLY OPERATING USES

Garson Studios: Existing studio facilities were redeveloped and now include 24,100 SF of soundstages and over 27,000 SF of office and production support space.

Santa Fe Art Institute: SFAI currently operates a 17,000 SF facility that includes art studios, a gallery, a library, and artist living accommodations.

PLANNED USES

Visual Arts Complex: Existing SFUAD facilities will be redeveloped into a creative cultural hub that will provide accessible arts, design and cultural programming and education to the community.

Greer Garson Theatre Center: Currently not operational, the facility includes a 500-seat theater, a 100-seat black box theater, classrooms and additional amenities. After renovations, the facility will be reactivated as a performing arts venue with additional community-oriented uses.

Fogelson Library: The former SFUAD library will be converted to a branch of the Santa Fe Public Library complete with a community learning and innovation center.

Aspect Media Village Movie Theater: An existing theater space in Garson Studios will be opened as a 2,500 SF commercial movie theater.

Aspect Media Village Restaurant and Bar: Part of the existing Driscoll Hall building will be developed into a 4,000 SF restaurant space.

ASPECT MEDIA VILLAGE

Aspect Media Village is the largest film and tv production studio in northern New Mexico

HISTORIC & PROJECTED MAJOR ECONOMIC CLUSTER GROWTH

Most clusters are projected to grow after experiencing job losses from 2014 to 2024

SANTA FE RESIDENTIAL BUILDING PERMITS

Since 2018, the majority of the residential units permitted in Santa Fe have been multifamily homes

Since 2000, the majority (74%) of residential units permitted in Santa Fe have been single-family homes. In 2016, Santa Fe amended its affordability requirements to allow developers of multifamily projects to pay a fee in lieu of affordable units. This amendment was followed by an increase in multifamily development. Since 2019, an average of 446 units have been permitted in Santa Fe annually. In the year 2019 alone, 245 multifamily units were permitted – more than the combined total of multifamily units permitted in the prior 18 years. Every year since 2020, more multifamily units have been permitted than single-family units. In 2023 alone, over 660 multifamily units were permitted, marking the largest number of any type of units permitted in a single year since at least 2000.

SANTA FE MULTIFAMILY INVENTORY

There are thousands of multifamily units under construction or proposed in Santa Fe

- Santa Fe has over 8,400 multifamily rental units (market-rate and affordable). Approximately 2,090 market-rate multifamily rental units have been built in Santa Fe since 2015. New development since 2015 comprises 36% of the existing multifamily inventory. Santa Fe has 1,090 units currently under construction and an additional 4,430 units proposed.
- Market interviews revealed that given the recent pace of development, some real estate professional believe the Santa Fe market-rate multifamily market may currently be overbuilt. The pace of new market-rate development may slow in the near-term, particularly with uncertainty about tariffs increasing construction costs.
- However, there continues to be an overall regional housing shortage – particularly for homes affordable to lower- and moderate-income households. Given broader regional housing needs, multifamily is expected to remain a strong real estate market segment over the medium- to long-term.

SANTA FE OFFICE PERFORMANCE

Despite the COVID-19 pandemic, net office absorption has been positive in eight of the last ten years

- Net office absorption has remained positive in all but two years since 2015. Net absorption was negative in 2020 due to the COVID-19 pandemic and again in 2023.
- Since new office development has been limited, Santa Fe's office vacancy rate has decreased from 6.8% in 2015 to 1.6% in 2024.
- Continued absorption and a low vacancy rate indicate that Santa Fe's office market is much stronger than in many peer cities, where office performance has been persistently weak since the COVID-19 pandemic.
- Future demand appears to be strong for developers seeking to develop multi-tenant speculative office or larger businesses that seek a build-to-suit office development in a new upcoming mixed-use center. While Midtown is not currently a core office market, its central location in Santa Fe and availability of land could make it a strong contender to capture future office development.

MARKET ANALYSIS CONCLUSIONS

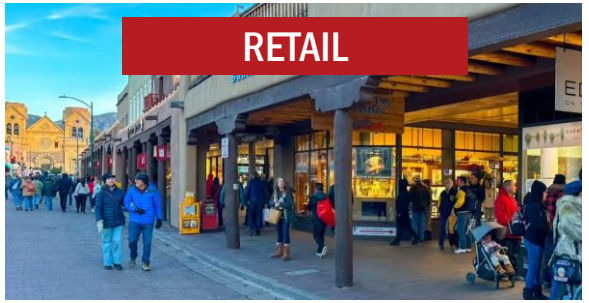
REAL ESTATE MARKET ANALYSIS – MARKET SUMMARY

Santa Fe has strong market potential for a variety of product types

The Santa Fe multifamily market is strong. Over 2,000 units have been built since 2015, with more than 1,000 additional units under construction. There is one project (129 units) in the pipeline for the Midtown LINC. Short-term, there may be a temporary slowdown in multifamily development given market uncertainty.

New speculative office deliveries have been fairly limited since 2015, which has led to very low vacancy. The State cannot pay the rents needed to support new office construction, but there may be demand for new space from medical users, National Lab spinoffs, federal agencies, or private businesses willing to pay higher rents associated with new class A office.

Tourism is the primary driver of hotel demand in Santa Fe. Hotels in Santa Fe are primarily clustered downtown or along Cerillos Road. Overall market occupancy has recovered to pre-pandemic levels, with Upscale/Upper Midscale class hotels performing especially well. ADR growth has been strong since 2020.



Retail is generally performing well in Santa Fe, particularly in the primary retail clusters like at Midtown. Overall market vacancy continues to be low. However, rent growth and new deliveries have both slowed in recent years.

REAL ESTATE MARKET ANALYSIS – DEVELOPMENT POTENTIAL

Multifamily, mixed-use, and retail development is most viable in the near-term

MARKET POTENTIAL

STRONG

10-YEAR DEMAND

800 UNITS

Midtown Santa Fe could accommodate development beyond the current pipeline. Developing market rate housing along with affordable housing can simultaneously help create a mixed-income neighborhood and help address regional housing needs.

MARKET POTENTIAL

STRONG

10-YEAR DEMAND

150,000 SF

Demand appears to be strong for speculative office citywide. Midtown's central location and availability of land could make it a strong contender to capture future office development, though any development at Midtown should complement the mixed-use neighborhood vision.

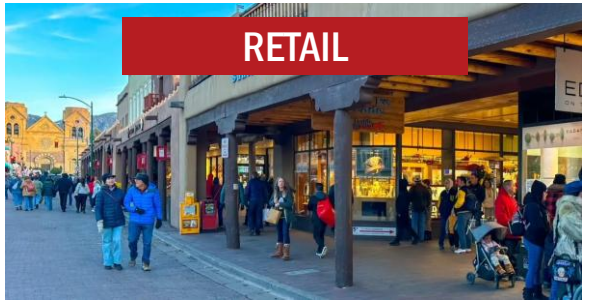
MARKET POTENTIAL

MODERATE

10-YEAR DEMAND

250 KEYS

Hotel development could potentially be feasible at Midtown after initial phases of development. Future hotel development should include a mix of hotel types (i.e., larger conference hotels and smaller boutique hotels) to capture different travel sectors. Hotel visitors to the area could help support the retail and add to the tax base.



MARKET POTENTIAL

MODERATE

10-YEAR DEMAND

120,000 SF

Future retail in Midtown is likely to be ground-floor retail in mixed-use buildings or standalone, specialty retail. Sites within the Midtown campus lacking frontage on the main roads should seek to attract destination retail and entertainment users that can draw customers from a wider geography.

Summary:
The proposed resolution would approve the Midtown Metropolitan Redevelopment Area Plan ("Plan") for the City of Santa Fe ("City"). Pursuant to NMSA 1978, Section 3-60A-9, the proposed resolution would determine that the Plan will help eliminate or prevent blight, conforms to the City's General Plan, and affords maximum opportunity consistent with the needs of the community for the redevelopment of the Midtown Metropolitan Redevelopment Area by private enterprises or persons. The Plan also does not include proposed activities that require displacement or relocation of any families or individuals, and a method for providing displacement or relocation accommodations is not needed.

Departments Affected:

Consequences of Not Enacting Legislation:
If this legislation is not adopted, then the Midtown Metropolitan Redevelopment Area Plan would not be approved, and the Metropolitan Redevelopment Agency would not be able to exercise its supervisory role over Midtown, nor could it make recommendations to the Governing Body. Further, the City of Santa Fe would not be able to pursue a Tax Increment Financing District as proposed in the Metropolitan Redevelopment Plan.

Fiscal Implications:
None.

Re: Appointment of Erica N. Renaud as a City Representative to the SFFPC

Dear Mayor Garcia:

It is with pleasure that I write to both recommend and request the City's appointment of Erica N. Renaud, currently a member of the City's Sustainability Staff. She has familiarized herself with the operations and purposes of the SFFPC, as well as attending meetings of the organization. Her knowledge and skills would be an asset to the SFFPC. The position she would fill is open and she is a great candidate. The SFFPC would request positive action on her appointment at the City's earliest convenience.

Sincerely,

Peter N. Ives
Co-Chair, SFFPC
